Texas State Board of Pharmacy

"Red Flags" Checklist for Pharmacies

YOU MIGHT BE A PILL MILL IF...

*Check all that apply:*

| | |
|---|---|
| | (1) Your pharmacy fills a discernable pattern of prescriptions for prescribers who write essentially the same prescriptions for numerous persons, indicating a lack of individual drug therapy |
| | (2) Your pharmacy operates with limited hours of operation or closes after a certain threshold of controlled substance prescriptions are dispensed, and has overall low prescription dispensing volume. |
| | (3) Prescriptions presented to the pharmacy are for controlled substances with popularity as street drugs, such as opiates, benzodiazepines, muscle relaxants, psychostimulants, and/or cough syrups, or any combination of these drugs. |
| | (4) The prescriptions for controlled substances contain nonspecific or no diagnoses. |
| | (5) The prescriptions are commonly for the highest strength of the drug and/or for large quantities. |
| | (6) Dangerous drugs or OTC products (such as multi-vitamins or laxatives) are added to the controlled substance prescriptions, maintaining relatively consistent 1:1 ratio of controlled substances to dangerous drugs and/or OTC products dispensed as prescriptions. |
| | (7) Prescriptions are authorized by the same prescriber with what appears to be different handwriting on the hardcopy prescription drug order forms. |
| | (8) Upon contact with the prescriber's office, you are unable to engage in comprehensive discussion with the actual prescriber, or he/she is unconcerned about your apprehensions regarding his/her prescribing practices or unwilling to provide additional information, such as treatment goals and/or prognosis with prescribed drug therapy. |
| | (9) You rely solely on the prescriber's representation, or on the representation of the individual answering the phone at the number on the prescription, that prescriptions are legitimate. |
| | (10) The prescriber's clinic is not registered as a pain management clinic by the Texas Medical Board, despite routinely receiving prescriptions from the prescriber foropiates, benzodiazepines, and/or muscle relaxants. |
| | (11) Drugs prescribed are inconsistent with the prescriber's area of practice. |
| | (12) The prescriber of the drugs is located a significant distance from your pharmacy. |
| | (13) The prescriber has been subject to disciplinary action by the licensing board, had his/her DEA registration removed, or been subject to criminal action. |
| | (14) The Texas PMP system indicates that persons are obtaining prescriptions for the same drugs from multiple prescribers or that persons are filling prescriptions for the same drugs at multiple pharmacies. |
| | (15) The person's address is a significant distance from your pharmacy and/or from the prescriber's office. |
| | (16) Multiple persons with the same address present prescriptions from the same prescriber. |
| | (17) Persons pay with cash or credit card more often than through insurance. |
| | (18) Persons presenting controlled substance prescriptions are doing so in such a manner that varies from seeking routine pharmacy services (e.g., willing to wait in long lines to receive drugs, persons arrive in the same vehicle with prescriptions from same prescriber, one person presents to pick up prescriptions for multiple others, persons refer to drugs by "street names" and/or comment on drug's color, persons seek early refills, persons travel from outside reasonable trade area of pharmacy). |
| | (19) Your pharmacy charges and persons are willing to pay more for controlled substances than they would at nearby pharmacies. |
| | (20) Your pharmacy routinely orders controlled substances from more than one drug supplier, or your pharmacy has been discontinued by a drug supplier related to controlled substance orders. |
| | (21) Sporadic and non-consistent dispensing volume (including zero dispensing) varies from day to day and week to week, and your pharmacy does not maintain operational hours each week on Monday through Friday. |
| | (22) Your pharmacy employs or contracts security personnel during operational hours to prevent problems. |
| | (23) Your pharmacy has been previously warned or disciplined by the Texas State Board of Pharmacy for inappropriate dispensing of controlled substances (i.e., corresponding responsibility). |

If you checked any of the above items, you should review the laws and rules regarding corresponding responsibility and non-therapeutic dispensing, especially Board rule §291.29, in the law book or on our website: www.pharmacy.texas.gov (click on Texas Pharmacy Rules and Laws). Additional educational material is available at: http://www.pharmacy.texas.gov/Nontherapeutic.asp. Failure of pharmacies and pharmacists to detect patterns of inappropriate dispensing of prescription drugs is unprofessional practice and constitutes grounds for disciplinary action.

1.0 Purpose

1.1 The purpose of this procedure is to establish a process for inspecting finished products to determine the presence or absence of particulate matter according to USP <797> standards.

2.0 Definitions

2.1 N/A

3.0 Procedure

3.1 All finished sterile drug products must be individually inspected after compounding and, if not distributed promptly, prior to leaving the pharmacy.

3.2 Common sources of particulates include chemicals (undissolved substances, trace contaminants), solvent impurities, packaging components (glass, plastic, rubber, intravenous administration sets), environmental contaminants (air, surfaces, insect parts), processing equipment (glass, stainless steel, rubber, rust), fibers, and people (skin, hair).

3.3 Observations include visual checks for precipitation, cloudiness, leakage, and gas formation, as indicated by a stopper's bulging outward, cracks in the container, and particulates, as described above.

3.4 Visual Inspection Procedure:

3.4.1 Hold the container against a white light source for 5 SECONDS and inspect for:

3.4.1.1 Precipitates

3.4.1.2 Undissolved particles

3.4.1.2 Small rubber cores

3.4.1.3 Crystals

3.4.1.4 Any other foreign matter

3.4.2 Hold the container against a black background for 5 SECONDS and inspect for the foreign materials listed above.

3.4.3 Inspect the contents, container, and closure during this procedure.

Note: The container should be free of labels or attachments.

3.4.4 If leaks are detected, the container must be discarded.

3.4.5 Check the container for excess trapped air, particularly in:

3.4.5.1 Medications dispensed in small volume pump cassettes

3.4.5.2 Medications dispensed in elastomeric infusers

3.4.6 Do not dispense the container if it contains excess air. The air must be removed.

3.4.7 Use a dampened, non linting wipe to remove any external particles.

3.4.8 Hold the container by its top and carefully swirl the contents by rotating the wrist in a circular motion. Note: Avoid vigorous swirling. Air bubbles will rise to the top and can be discounted.

3.4.9 Slowly invert the container, even if you observe no particles, and watch for heavy particles that may be on the bottom of the container and that may slide down the container walls.

3.4.10 Record the results of the observation on the formulation record.

3.4.11 Any product found to be of unacceptable quality (e.g., observed defects) must be promptly rejected, clearly labeled as rejected, and segregated from active stock to prevent use before appropriate disposal.

3.4.12 When a product will not be released or dispensed on the day of preparation, a visual inspection must be conducted immediately before it is released or dispensed during final pharmacist verification, to make sure that the product does not exhibit any defects such as precipitation, cloudiness, or leakage, which could develop during storage. Any product found to be of unacceptable quality (e.g., observed defects) during final verification must be promptly rejected, clearly labeled as rejected, and segregated from active stock to prevent use before appropriate disposal.

**Summary of Our Post-Inspection Commitments**

As described in more detail herein, we make the following commitments to address FDA's observations:

- For Observation 1, OSRX has already completed a CAPA and SOP updates to require incubation for all APS units. OSRX intends to complete operator retraining on revised gowning documents by Q1 2025. Additionally, OSRX has a repeat smoke study planned for December 2024, to address the observation that both operators were not visible in the prior March 2024 study.
- For Observation 2, OSRX opened and has completed a CAPA to address FDA's observations related to incubation tests even for non-integral units that are to be discarded and not sold.
- For Observation 3, OSRX has already completed retraining on lot-specific surface sampling. We intend to complete updates to SOP-CC-0026 regarding action and alert levels by Q2 2025, and conduct fingertip sample retraining by Q1 2025
- For Observation 4, OSRX has already corrected its CoAs to remove the verbiage that led to this observation and no further action is necessary at this time.
- For Observation 5, OSRX will update SOP-INSP-0001 and SOP-INSP-0003 to further specify the elements of OSRXs visual inspection training program.
- For Observation 6, OSRX will update its SOP to require outer labeling with the requirements under FDCA Section 503B(a)(10)(B). These new labels are on order and will be implemented upon receipt, which is anticipated by Q1 2025.

With each observation, we have included a table outlining the supporting documentation, commitments and any associated CAPAs.

**OBSERVATION 1**
**Procedures designed to prevent microbiological contamination of drug products purporting to be sterile are not established and followed.**

**Specifically,**

A. **Your firm's personal media fill is deficient in that aseptic operators only aseptically fill 50 container units, semi-annually, to fully qualify their sterile operators, under procedure, SOP-CC-0003, *Personnel Media Fill Qualification.* For example, to successfully qualify operator JMC, to produce sterile drug product in your cleanroom only 50 units were filled aseptically taking a total of 6 minutes to manufacture. This is not an adequate assessment of operator's aseptic technique when manufacturing a maximum batch size of 1600 units that takes 2-4 hours to complete.**

B. **Your firm failed to incubate all integral units of the media fill performed under protocol VALRPT-001. In Cleanroom Suite 100, the following units were filled in ISO 5 BSC and then removed for torque testing and production loss reasons. All units removed were not incubated with documented justification:**

**Droptainers:**

| Lots | Filled Units | Total Removed | Incubated Units |
|---|---|---|---|
| 103478 | 1550 | 8 | 1542 |
| 103482 | 1600 | 8 | 1591 |
| 103486 | 1600 | 23 | 1577 |
| 103509 | 1600 | 19 | 1581 |
| 103546 | 1600 | 69 | 1529 |
| 103552 | 1600 | 16 | 1584 |

**Vials:**

| Lots | Filled Units | Total Removed | Incubated Units |
|---|---|---|---|
| 103500 | 1470 | 11 | 1459 |
| 103482 | 1470 | 23 | 1447 |
| 103499 | 1464 | 15 | 1449 |

C. **There is no gowning qualification program at your facility to enter into the Cleanroom Suite 100, room# 1(ISO 7) and room# 2 (ISO 7), from the gowning in airlock (room #109), to ensure sterile gowning is donned without contamination.**

D. **Your smoke study, performed on March 29, 2024, was not conducted under dynamic conditions to simulate aseptic processing behavior of the sterile drug production that includes two employees working inside of the ISO 5 Vertical Biosafety Cabinet (BSC) simultaneously to perform check weighing, filling, and capping activities.**

## OBSERVATION 1A RESPONSE

The development and oversight of a robust training program for operators is integral to the operations at OSRX. We follow a stepwise instructional approach which includes both didactic and skills training. As explained in SOP-CC-0023 (attached), the training program as referenced in Observation 1A is not a singular event for an operator to be fully qualified according to SOP-CC-0003. Rather, operators are trained in segments as they achieve proficiency at each level, and the operators' roles align with their level of qualification. These segments are separate qualification activities intended to validate separate areas of production and operator skill.

Operators who successfully complete these qualification activities are determined to be provisionally and fully qualified as outlined below:

1. Qualification Media Fills: Operators demonstrate sterile media fill competency by performing media fill on a set of 50 units. This training is not intended to fully qualify operators. Rather, it is intended to demonstrate competence sufficient to allow the operators to enter the ISO 5 hood and perform media fill operations alongside fully qualified operators. Operators that have successfully demonstrated media fills on 50 units are only considered provisionally qualified and cannot operate independently in the ISO 5 room.
2. Aseptic Process Validation: Operators conduct aseptic process simulation (APS) for a full-scale batch. Operators who have demonstrated competency in conducting the APS are considered to be fully qualified.

As reflected in OSRX's SOP and in practice, operators who have completed qualification media fills and are only provisionally qualified do not work independently but are instead paired with a fully qualified operator who is able to provide oversight and instruction.

## OBSERVATION 1B RESPONSE

OSRX considers the media fill program of critical importance to evaluate and support our ability to consistently produce sterile drug products. Since January of 2024 OSRX has completed the Aseptic Process Simulations listed below.

The units that were identified in the Observation are 'non-integral' units, meaning that an aberration was detected during routine production that could impact the integrity of the container. OSRX's procedure is to discard these units and not distribute them into interstate commerce. Because these units are not sold, OSRX had not performed incubation testing, with an understanding that such units would be discarded regardless of the results of the incubation test. Similarly, OSRX discards product considered "production loss" and those units used for "torque check," which are two specific ways that a unit can be considered non-integral for purposes of the Aseptic Process Simulation. These units therefore would not qualify for further processing and would not be incubated. Similarly, during a media fill where the process is simulated to replicate routine production, operators are instructed to follow normal procedures. As such, OSRX historically has not incubated these non-integral units during APS. As shown below, these non-integral units comprise only a small percentage of the overall units filled during the APSs. Also, as demonstrated below, for the APSs after May 14, 2024, when all

units were subjected to incubation, the fail rate was one unit total, suggesting a very low probability that the non-integral units not subject to incubation would have resulted in additional failures.

As a corrective action for this Observation, OSRX opened CAPA QEPA-2024-0077.1, which was completed and closed on October 16, 2024. As part of the actions under this CAPA, OSRX has revised its SOP-CC-0003 to specify that all APS units will be incubated. The revised SOP is attached.

**OBSERVATION 1C RESPONSE**

In response to this Observation the firm has taken immediate corrective action, as reflected in the following documents:

**CC-2024-0056**: Updated the procedures for the qualification of operators for aseptic production and activities in ISO classed rooms.

**FRM-CC-0004.1:**

a. Updated form to include detail of each assessment in the specified area/ ISO Class in which the evaluation will occur. Combined steps that were previously listed as sequential to simplify and clarify instructions.

b. Added specific instruction for the ISO-8 Pre-Gowning/Prep Rooms to confirm independent operator assessment of handwashing and the gathering of materials before moving to the next ISO Class.

c. Clarified which steps are executed in the designated room for assessment as part of ISO 7 evaluation.

d. Added sampling locations as part of competency assessment to include forehead, mask, chest, collar of the coverall, and right & left thighs.

e. ISO-5 sampling. Include instructions for evaluator.

**SOP-CC-0023:** Updated section 7.1.2. Gowning qualification now describes the five elements. Updated the sampling locations to include the additional locations and listed in FRM-CC-0004.1. Added figure 1 as an instructional guide.

**TRAIN-0005:** A new training tool created to explain the importance of proper gowning procedures and include a robust explanation of the assessment.

**FRM-CC-0007.2:** Change title to Personnel Monitoring ISO 5, remove Garbing competency assessment. Update name to reflect ISO 5.

**FRM-CC-0023.1:** New form to record the updated procedure for garbing qualification.

These corrective actions received Quality and SME review and approval on November 3, 2024. OSRX conducted training on these revised policies on November 4, 2024, and began to assess the retraining on November 5, 2024. Results will be incubated according to schedule and sequential assessments scheduled. Operators who do not successfully complete the assessment will conduct retraining and

then be reassessed. Operators must successfully complete three successive assessments to pass the retraining. OSRX aims to complete the operator retraining assessment by Q1 2025.

**OBSERVATION 1D RESPONSE**

OSRX has taken significant steps to improve its smoke study program in recent years, including developing robust training on Smoke Study Techniques and Assessments. OSRX utilizes FRM-CC-0021.1 to ensure that its smoke studies meet all acceptance criteria.

While OSRX has made improvements in its training and purchased new equipment to better record its studies, OSRX acknowledges that in the March 29, 2024, smoke study video, the second operator in the biosafety cabinet (BSC) was not visible due to the camera angle. While the video does not reflect the second operator, the written report for the smoke study, FRM-CC-0021.1, recorded the details of that study, including that two operators were present. In fact, that report (attached) provided the names of each identified operator present during the event and the activities of each individual. Therefore, when the report is reviewed, the smoke study criteria were met as identified in SOP-CC-0021 Airflow Pattern Analysis - Smoke Study.

As a corrective action for this Observation, moving forward, OSRX intends to conduct a repeat smoke study in December 2024, and will be sure to use a camera angle that can better capture the details of the smoke study in BSC-01.

**OBSERVATION 2**

**There is a failure to thoroughly review any unexplained discrepancy and the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.**

**Specifically,**

**A) Your firm failed to thoroughly investigation quality events that had environmental monitoring recoveries that exceeded specification limits without adequate corrective actions, scientific justification, and impact assessment documented. For example,**

**i.~~QA-2024-0048~~ QE-2024-0048 was initiated due to 1 cfu recovery of Staphylococcus epidermidis on an ISO 5 active viable air sample plate that was performed during the production of Brimonidine tartrate/ dorzolamide 1%2%, Lot:104051, BUD: 23July2024. The batch was released without the proper batch impact assessment, corrective actions, and scientific rationale applied to the event prior to releasing and distributing the drug product to market.**

**ii. ~~QA-2024-0071~~ QE-2024-0071 was initiated due several environmental recoveries in Cleanroom Suite 100, but there was 1 cfu recovery of Staphylococcus lentus of an ISO 5 active viable air sample plate that was performed during the production of Prednisolone Phosphate Moxifloxacin ~~Bromide~~ Bromfenac 1%0.5%0.075%, Lot: 104196 Expiry BUD: 25Nov2024. The batch was released without the proper batch impact assessment, corrective actions, and scientific rationale applied to the event prior to releasing and distributing the drug product to market.**

**B) Your firm failed to investigate ~~visual~~ labeling inspection failures that exceeded the specification limits without adequate documentation, impact assessment, and corrective actions in place prior to releasing and distributing the drug product, in example, Prednisolone Phosphate 1%/ Moxifloxacin 0.5% Ophthalmic solution 5ml, Lot: 104272, BUD: 10Dec2024.**

**OBSERVATION 2A RESPONSE**

i. As demonstrated by QE-2024-0048, OSRX conducted an investigation into this excursion, which demonstrated a single colony forming unit of Staphylococcus epidermidis present on the sample plate. Additional samples were collected throughout the production timeframe and no other growth was identified. Industry resources provide that when an excursion is identified, it can be analyzed by reviewing the limits for a particular classified area, such as ISO 5. For example, USP <1116>, states that excursions beyond 15 cfu in ISO 5 zones should happen very infrequently, and that recoveries between 1-5 cfu are the more typical range.

In accordance with OSRX process and USP <1116> OSRX also conducted a review of the historical recovery rates in the weeks prior to the excursion. The environmental monitoring analysis did not demonstrate any trends or patterns to suggest a loss of environmental control or concern with operator technique. Based upon the findings of the investigation, OSRX concluded that the event was most likely an isolated excursion, and that environmental control

was maintained in the ISO 5 area. Accordingly, OSRX determined that it was appropriate to ship the product. Information regarding OSRX's investigation is attached.

Additionally, OSRX would like to clarify that pursuant to FDA Guidance for Industry, Current Good Manufacturing Practice—Guidance for Human Drug Compounding Outsourcing Facilities Under Section 503B of the FD&C Act, environmental monitoring programs should contain appropriate detection components to verify state of control of the environment. ICH Q10 states that effective monitoring and control systems and processes for establishing and maintaining a state of control should provide assurance of continued suitability and capability of processes. OSRX's investigation demonstrated that there was no loss of environmental control.

ii. We recognize that the complete investigation was not explained and documented in the QE file. Accordingly, after this issue was brought to OSRX's attention by the investigator, OSRX immediately corrected the QE to reflect the full investigation via an addendum to the initial QE. Please see the attached addendum QE-2024-0071, which is supplemental to the initial investigation QE-2024-0071. OSRX's investigation conclusion determined that the cause of the 1 cfu recovery was likely human source during the sampling procedure, rather than a result indicative that the environmental control in the cleanroom had been breached because: (1) the single cfu of pathogen identified was Staphylococcus lentus, a species that is part of the normal human skin flora; (2) the growth pattern is consistent with touch contamination and not consistent with dimpling of a viable air sample; and, (3) review of operating conditions supports that environmental control was maintained throughout production activities. OSRX would like to further clarify that Staphylococcus lentus is non-pathogenic, readily killed by the cleaning agents utilized by OSRX, and unable to replicate in the conditions of the cleanroom, which contributed to OSRX's decision not to reject the batch based upon an isolated environmental finding of the microorganism. OSRX further notes no complaints, adverse events or other quality events related to Prednisolone Phosphate Moxifloxacin Bromfenac 1%0.5%0.075%, Lot: 104196 Expiry BUD: 25Nov2024.

**OBSERVATION 2B RESPONSE**

The failure of the label inspection during this event was due to the detection of a wrinkle during the application of the label on 11 units, which exceeded the acceptable quality limit (AQL ) according to criteria. In accordance with OSRX procedures, OSRX's Quality Assurance lead was notified, instruction was given and executed to remove labeling, confirm accountability for all labels removed from the batch, and to re-issue and re-execute labeling of the batch. OSRX followed its documented process for addressing labeling defects above the AQL as documented in the batch record. Both documents are attached.

OSRX believes that the labeling issue encountered in Lot 104272 is a minor defect and was handled according to OSRX's process for similar minor labeling excursions, and did not require an investigation given the nature of the defect. That said, as a corrective action here, OSRX conducted an investigation, documented in QE-2024-0133, attached.

**OBSERVATION 3**

**Aseptic processing areas are deficient regarding the system for monitoring environmental conditions.**

**Specifically,**

**A) There are no ISO 5 viable surface samples taken during the earlier lots being manufactured in clean room # 1 (ISO7) and clean room # 2 (ISO7) on each day of aseptic production. For example, Atropine 0.01%, Sulfate Monohydrate, Lot:104819, BUD 14Apr25, and Prednisolone Phosphate 1% / Moxifloxacin 0.5% / Bromfenac 0.075%, Lot:104822, BUD:15Apr25, both were manufactured on 10/16/2024 and did not have an associated surface sample of the ISO 5 Biosafety Cabinet performed at the end of each batch operation.**

**B) Your firm's procedure, SOP-CC-0026, Routine Environmental Monitoring Cleanroom 100, lists the action level for viable surface sample at >3 colonies per forming units per sampling device, which is not appropriate for an ISO 5 environment.**

**C) On 10/17/2024, I observed a fingertip sample being performed on an operator during end of production batch, Atropine Sulfate Monohydrate 0.05% Ophthalmic Solution 3.5ml, Lot:104821, BUD:15APR2025, and it appears that the operator does not fully engage their fingers onto the agar with a rolling technique.**

**OBSERVATION 3A RESPONSE**

OSRX appreciates that surface sampling must be conducted frequently enough to ensure that the ISO 5 environment remains suitable for sterile compounding. Consistent with FDA Guidance for Industry, Current Good Manufacturing Practice—Guidance for Human Drug Compounding Outsourcing

Facilities Under Section 503B of the FD&C Act, OSRX conducted sampling at least daily. However, OSRX recognizes that its SOP proposed sampling after each batch. Noting the language of its SOP, OSRX implemented this change to its practices during the inspection and has and will continue to conduct environmental sampling after each batch run. To address the misalignment between the written procedure and the current practice, OSRX added this issue to CAPA QEPA-2024-0121.1. Further, OSRX has conducted retraining to emphasize surface sampling with each compounded lot and as of October 18, 2024, lot specific surface samples are being collected. This aspect of the CAPA is now complete.

**OBSERVATION 3B RESPONSE**

SOP-CC-0026 reflects OSRX's prior alert and action levels for ISO 5 cleanrooms, where one or more colony forming units per $m^3$ was considered an "alert level" and three or more were considered an "action level." Note that while OSRX used this terminology, it treats "alerts" from the BSC as if it was an "action level" in its approach to remediation, such as documenting Quality Events, conducting investigations, and taking corrective actions based on the investigation. While in practice, OSRX has been following these steps for both alerts and actions, and has communicated as such to its employees, in response to this Observation, OSRX intends to revise its SOP to reclassify one or more colony forming units as an "action level" rather than an "alert level." OSRX anticipates completing this update in Q2 2025, as it is currently in the process of implementing SherpaPharma, a digital technology platform for the management of environmental monitoring, and that system must be fully in place before further updates to SOPs can take effect. In the interim, OSRX will continue its current practice of treating alert levels as action levels, including documenting the Quality Event, conducting an investigation, and taking corrective actions based on the result of the investigation.

**OBSERVATION 3C RESPONSE**

OSRX conducts annual training for all operators, including modules on how to take environmental monitoring samples, including proper fingertip sampling technique. Respectfully, consistent with its SOP that specifies use of all four fingers to apply pressure to the plate without cracking the agar, OSRX believes its operators understand how to properly perform the fingertip sampling technique. While this training is typically conducted in August of each year, in light of this Observation, OSRX will conduct retraining on fingertip samples during an upcoming monthly training meeting to be completed in Q1 2025.

**OBSERVATION 4**

**Each batch of drug product purporting to be sterile and pyrogen-free is not laboratory tested to determine conformance to such requirements.**

**Specifically, your firm performed an early release of drug product, Brimonidine Tartrate 0.1%, Dorzolamide 2%, 2ml Ophthalmic Solution, Lot:103685, BUD:26May2024, without the sterility testing being completed by your third party laboratory as documented in QE-2024-0032.**

**OBSERVATION 4A RESPONSE**

OSRX's drug product, Brimonidine Tartrate 0.1%, Dorzolamide 2%, 2ml Ophthalmic Solution is not labeled as pyrogen-free, although it is sterile. Therefore, OSRX respectfully believes that no pyrogen testing is required for this topical drug product. As for the testing by the outside laboratory for sterility, OSRX does utilize an outside lab. Consistent with 21 C.F.R. 211.165 and UPS <71>, OSRX ran two sterility tests in parallel for the lot in question. Upon release, OSRX had the results of a rapid ScanRDI that demonstrated sterility of the product, as well as Day 7 results from the outside lab confirming the lot's sterility. Post-release, OSRX received the confirmed sterility results from its outside laboratory in accordance with USP <71>.

Consistent with its commitment to quality, OSRX documented that its "belt and suspenders" approach to sterility testing for this batch deviated in that the release occurred based on a rapid sterility test and Day 7 results rather than the confirmed USP <71> results. To be clear, as reflected in the Certificate of Analysis for Lot 103685, the lot was validated in accordance with USP <71> and OSRX had appropriate testing in place to support release. *See* Current Good Manufacturing Practice—Guidance for Human Drug Compounding Outsourcing Facilities Under Section 503B of the FD&C Act, footnote 32 ("Sterility testing should be conducted using USP General Chapter <71> Sterility Tests. Any other method used for sterility testing should be validated. See, for example, USP General Chapter <1223> Validation of Alternative Microbiological Methods or PDA Technical Report No. 33 (see Parenteral Drug Association 2013) for recommended validation methods."). Instead, the document implied that both tests were required to release a batch, and therefore it is understandable that the investigator observed a release that did not comport to OSRX's form. Rest assured, Lot 103685 had a confirmed passing CoA sterility result based on a rapid sterility test, tested with ScanRDI, as well as a 7-day USP <71> test.

In response to this observation, OSRX opened a Quality Event to explain the deviation from the process to not require a test under USP <71> for batch release and updated the CoA to indicate that batch release requires *either* a sterility test under USP <1223> *or* USP <71>. As documented in QE-2024-0032, OSRX investigated the issue, determined the root cause related to the nature of the form, updated the form, and then closed the QE and released the Lot. Additionally, OSRX notes that the final USP <71> sterility test result was also passing.

**The responsibilities and procedures applicable to the quality control unit are not in writing and fully followed.**

**Specifically, your firm's procedure SOP-INSP-0001, entitled, *Visual Inspection of Sterile Compounded Topical Ophthalmic Preparations,* fails to implement adequate specifications to prevent significant product quality issues from occurring, as follows:**

- **B. You does not examine 100% of units produced for topical ophthalmic drug products. **OBSERVATION 5A RESPONSE**

OSRX takes seriously the need to visually inspect samples to ensure that defects can be identified during production. In addition to SOP-INSP-0001, OSRX's visual inspection program is documented in SOP-INSP-0003 (attached). We note that FDA's observation does not reference SOP-INSP-0003, and therefore FDA may not have the full picture of OSRX's visual inspection program. Respectfully, OSRX believes that its current program, as reflected across SOP-INSP-0001 and SOP-INSP-0003 includes the elements for a sound visual inspection program. Specifically, SOP-INSP-0003 documents OSRX's procedures for training visual inspectors.

As part of its visual inspection program, OSRX utilizes a defect library consisting of both physical units, where feasible, as well as an image library with sample images of defective product. FDA does not explicitly require use of a defect kit over a defect library. (*See* Inspection of Injectable Products for Visible Particulates Guidance for Industry at 12-13.) The choice between a defect kit and a reference library may depend on product factors such as product type, risk level, and nature of potential defects. OSRX believes that its reference library, which has been collated during routine visual inspection and

is more representative of the defects observed in topically applied ophthalmic products than a generic defect kit.

Additionally, OSRX performs on-the-job training of operators through triplicate, successive live runs. Such training was observed by FDA during the course of the inspection, though it is not listed in the observation. We are attaching here the training qualification form, which is another part of OSRX's visual inspection program, and which demonstrates the qualification requirements to begin visual inspection including: (1) reviewing the SOP, and (2) reviewing the visual inspection defect library, and (3) that the operator was trained on how to detect defects.

While OSRX believes that is current program satisfies the regulatory requirements, OSRX opened a change control to update several SOPs, the net effect of which will be the creation of a defect kit approach to operator training on visual defects. Once implemented, the revised policies for topicals will require operators to use the defect kits for training rather than relying on the defect library. In this way, OSRX's policies and procedures that discuss operator qualifications will reference the defect kit, consistent with OSRX's approach to training operators handling of visual inspections of injectables.

**OBSERVATION 5B RESPONSE**

FDA has recognized that for topical ophthalmic drug products packaged in opaque containers, appropriate technologies should be used to identify particulates within the accepted visible size range. Therefore, for ophthalmic products in opaque containers, which are "difficult to inspect" products, FDA guidance does not require a 100% visual inspection. (*See* Quality Considerations for Topical Ophthalmic Drug Products Guidance for Industry at 4) This is consistent with USP <1790> which recognizes that for difficult-to-inspect products, such as product in opaque containers, 100% visual inspection is not feasible and alternative inspection strategies are necessary. USP and ANSI ASQ-Z1.4-2003 provides the rationale for using 125 units as the representative sample given the mathematical calculation it recommends based on batch size currently produced and the number of units to be inspected. The approach to visual inspection at OSRX is rooted in these industry best practices. Pursuant to cGMP requirements under 21 C.F.R. § 211.160, OSRX's approach is scientifically sound and appropriate given the nature of the opaque droptainers as well as the lower risk profile for topical ophthalmic drugs compared to injectables. OSRX has demonstrated that its current visual inspection process of examining 125 opaque droptainers is as effective as the destructive testing recommended in FDA guidance Quality Considerations for Topical Ophthalmic Drug Products, as demonstrated in the attached Topical QA Risk Assessment document (attached).

**OBSERVATION 5C RESPONSE**

OSRX's batch records (sample attached) classify defect types into Critical, Major, and Minor. While OSRX's batch records denote the specific Critical / Major / Minor defects and the number of units where each type of defect is present. OSRX finds this type of defect tracking to be a more useful way to understand product defects, as it is more specific and granular than simply collecting aggregate data about all defects regardless of severity. Moreover, if the total number of failing units in any category (Critical / Major / Minor) across all defect types exceeds the AQL, the batch fails. Thus, OSRX's approach is more stringent than the FDA's proposed approach to only gather aggregate defect data.

The historical trend data is reviewed for potential drifts in the manufacturing process as a means to detect the defect at its source and respond with improved controls.

**OBSERVATION 5D RESPONSE**

As discussed above, under cGMP requirements, facilities must establish scientifically sounds and appropriate sampling plans. OSRX's approach to sampling for visual inspection is to select 125 droptainers at random. The samples are selected at random from the two totes that the batches are placed in, with 62 samples selected from one tote, and 63 from the other, and thus are representative of the entire batch. This methodology is scientifically sound as the attached literature, *On the Theory of Sampling from Finite Populations* by Morris H Hansen and William N. Hurwitz and *On the Two Different Aspects of the Representative Method: The Method of Stratified Sampling and the Method of Purposive Selection* by Jerzy Neyman has demonstrated that such randomized sampling avoids bias that can be introduced when samples are selected from the beginning, middle, and end of the fill as indicated in the observation.

## OBSERVATION 6 RESPONSE

OSRX currently labels the individual eye drop bottles with all required labeling information, and then packages 20 of these bottles into a clear plastic box through which the labeling information is visible. We understand that FDA considers this clear plastic box to be the eye drop "container" for purposes of Section 503B. Respectfully, OSRX believes that its current system satisfies the statutory requirements under FDCA Section 503B(a)(10)(B) as the individual vials with labeling information, including the information required under 503B(a)(10)(B), are visible through the clear plastic packaging, and thus are visible at container packaging level.

That said, in accordance with Observation 6, OSRX is in the process of updating its SOP-DST-0002 to include a step for labeling the clear plastic container with a label (sample attached) that contains the information required under 503B(a)(10)(B). OSRX will implement the new labeling during Q1 2025, as it may take some time to receive the printed labels that are based on the sample.

**DURING AN INSPECTION OF YOUR FIRM I OBSERVED:**

## OBSERVATION 1

Procedures designed to prevent microbiological contamination of drug products purporting to be sterile are not established and followed.

Specifically,

A. Your firm's personal media fill is deficient in that aseptic operators only aseptically fill 50 containers units, semi-annually, to fully qualify their sterile operators, under procedure, SOP-CC-0003, *Personnel Media Fill Qualification*. For example, to successfully qualify operator, JMC, to produce sterile drug product in your cleanroom only 50 units were filled aseptically, taking a total of 6 minutes to manufacture. This is not an adequate assessment of an operators aseptic technique when manufacturing a maximum batch size of 1600 units that takes 2-4 hours to complete.

B. Your firm failed to incubate all integral units of the media fill performed under protocol VALRPT-001. In Cleanroom Suite 100, the following units were filled in ISO 5 BSC and then removed for torque testing and production loss reasons. All units removed were not incubated with documented justification:

C. There is no gowning qualification program at your facility to enter into the Cleanroom Suite 100, room# 1(ISO 7) and room# 2 (ISO 7), from the gowning in airlock (room #109), to ensure sterile gowning is donned without contamination.

D. Your smoke study, performed on March 29, 2024, was not conducted under dynamic conditions

to simulate aseptic processing behavior of the sterile drug production that includes two employees working inside of the ISO 5 Vertical Biosafety Cabinet (BSC) simultaneously to perform check weighing, filling, and capping activities.

**OBSERVATION 2**

There is a failure to thoroughly review any unexplained discrepancy and the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Specifically,

A) Your firm failed to thoroughly investigation quality events that had environmental monitoring recoveries that exceeded specification limits without adequate corrective actions, scientific justification, and impact assessment documented. For example,

i. QA-2024-0048 was initiated due to 1 cfu recovery of *Staphylococcus epidermidis* on an ISO 5 active viable air sample plate that was performed during the production of Brimonidine tartrate/ dorzolamide 1%2%, Lot:104051, BUD: 23July2024. The batch was released without the proper batch impact assessment, corrective actions, and scientific rationale applied to the event prior to releasing and distributing the drug product to market.

ii. QA-2024-0071 was initiated due several environmental recoveries in Cleanroom Suite 100, but there was 1 cfu recovery of *Staphylococcus lentus* of an ISO 5 active viable air sample plate that was performed during the production of Prednisolone Phosphate Moxifloxacin Bromide 1%0.5%0.075%, Lot 104196 Expiry 25Nov2024. The batch was released without the proper batch impact assessment, corrective actions, and scientific rationale applied to the event prior to releasing and distributing the drug product to market.

B) Your firm failed to investigate visual inspection failures that exceeded the specification limits

without adequate documentation, impact assessment, and corrective actions in place prior to releasing and distributing the drug product, in example, Prednisolone Phosphate 1%/ Moxifloxacin 0.5% Ophthalmic solution 5ml, Lot: 104272, BUD: 10Dec2024.

**OBSERVATION 3**

Aseptic processing areas are deficient regarding the system for monitoring environmental conditions.

Specifically,

A) There are no ISO 5 viable surface samples taken during the earlier lots being manufactured in clean room# 1 (ISO7) and clean room# 2 (ISO7) on each day of aseptic production. For example, Atropine 0.01%, Sulfate Monohydrate, Lot:104819, BUD 14Apr25, and Prednisolone Phosphate 1% / Moxifloxacin 0.5% / Bromfenac 0.075%, Lot:104822, BUD:15Apr25, both were manufactured on 10/16/2024 and did not have an associated surface sample of the ISO 5 Biosafety Cabinet performed at the end of each batch operation.

B) Your firm's procedure, SOP-CC-0026, *Routine Environmental Monitoring Cleanroom 100*, lists the action level for viable surface sample at >3 colonies per forming units per sampling device, which is not appropriate for an ISO 5 environment.

C) On 10/17/2024, I observed a fingertip sample being performed on an operator during end of production batch, Atropine Sulfate Monohydrate 0.05% Ophthalmic Solution 3.5ml, Lot:104821, BUD:15APR2025, and it appears that the operator does not fully engage their fingers onto the agar with a rolling technique.

## OBSERVATION 4

Each batch of drug product purporting to be sterile and pyrogen-free is not laboratory tested to determine conformance to such requirements.

Specifically, your firm performed an early release of drug product, Brimonidine Tartrate 0.1%, Dorzolamide 2%, 2ml Ophthalmic Solution, Lot:103685, BUD:26May2024, without the sterility testing being completed by your third party laboratory as documented in QE-2024-0032.

## OBSERVATION 5

The responsibilities and procedures applicable to the quality control unit are not in writing and fully followed.

Specifically, your firm's procedure SOP-INSP-0001, entitled, *Visual Inspection of Sterile Compounded Topical Ophthalmic Preparations,* fails to implement adequate specifications to prevent significant product quality issues from occurring, as follows:

A. There is no sound visual inspection program that contains a qualified visual inspection sample defect kit used to train visual inspectors to inspect topical ophthalmic solutions manufactured in opaque droptainers.

B. You does not examine 100% of units produced for topical ophthalmic drug products. Instead, you only perform an examination of 125 opaque topical droptainers as a form of Acceptable Quality Limit (AQL) inspection without scientific rationale. Your firm only performs an 100% inspection of the rejected AQL inspection for that failed defect category with a second AQL using the same accept/ reject limits.

**Re: Inspection of OSRX, Inc., FEI No. 3014549846**

Dear CDR Steven Porter,

We are writing to respond to the Form FDA 483 Notice of Observations issued by the United States Food & Drug Administration ("FDA") on September 23, 2021, pertaining to the inspection of OSRX, Inc. located at 1120 Kensington Ave., Suite E, Missoula, MT, between September 15, 2021 and September 23, 2021. This inspection included multiple days spent on-site by FDA Investigators Sangeeta M. Khurana and Kenneth O. Gee, and direct correspondence between the Pharmacy and the FDA's Center for Drug Evaluation and Research and Office of General Counsel. At the close of the inspection, the FDA issued a Form FDA 483 which included one observation pertaining to equipment validation.

We respectfully request that this response, excluding the attached SOP and supporting documentation, be posted on the FDA's website with the Form FDA 483 and be included any time the FDA provides a copy of OSRX, Inc.'s Form FDA 483 to anyone outside the FDA. I hereby authorize the FDA to publicly disclose the information described below on the FDA's website.

Information to be disclosed: OSRX, Inc.'s Response to the Form FDA 483 Issued September 23, 2019. The waiver shall extend only to OSRX, Inc.'s response to the Form FDA 483. The waiver shall not extend to the attached SOP and supporting documentation or to any other documents referenced, implicated, or related to the observation in the Form FDA 483 or the Pharmacy's response thereto.

Before responding to the specific observation, we would like to note that the Pharmacy is a compounding pharmacy compliant with Section 503A of the Food, Drug & Cosmetic Act ("FD&C") and as such the Pharmacy is subject to and operates in accordance with the requirements of the Montana Board of Pharmacy and United States Pharmacopeia Chapters <795> and <797>. The Pharmacy engages only in patient-specific pharmacy compounding.

*Observation 1:*

*Your firm's current laminar airflow studies (smoke studies) of the ISO 5 Horizontal Laminar Airflow Workstation were not performed under conditions showing aseptic operations that are representative of your current compounding practices nor did they emulate all critical unit operations and interventions used during compounding of your sterile drug products. Specifically,*

*Smoke studies conducted by your firm in May of 2021 were not conducted under dynamic conditions that fully simulate the normal operating conditions of sterile drug production.*

1) *You did not simulate the entire filling process, including the priming of the pump used to fill the vials with the compounded drug product.*
2) *You also did not simulate the practice of two operators working together in your ISO 5 Laminar Air Flow Hood during filling, capping and sealing operations.*

Response: We disagree that the May 2021 smoke study was not performed under dynamic conditions which were appropriately representative of the Pharmacy's current aseptic operations and capable of demonstrating that appropriate unidirectional air flow is maintained during aseptic operations. First, we would like to clarify the reference in Observation 1 to "priming the pump" used to fill vials. The activity referred to as "priming the pump" is the assembly of the sterile filter, which is connected via tubing to a repeater pump that remains outside the ISO-5 hood. The only portion of the assembly that occurs within the ISO-5 hood is the assembly of the hose barb connector to the sterile filter which is then connected to sterile tubing. The sterile tubing is assembled into the repeater pump which is outside the ISO-5 hood.

The Pharmacy re-certifies the ISO-5 laminar airflow workbench bi-annually as required by USP <797>. The airflow velocity measured at five different points across the face of the diffuser is consistently 98 ft/min +/- 2. Please see the attached Certification Data for ISO-5 PEC, which states the average airflow recorded during each recertification. The reports from the recent recertification documenting this air velocity were provided during the inspection. At this rate of airflow, the presence of an additional operator during aseptic operations is not expected to alter or impede sufficient horizontal laminar flow over critical sites.

Smoke studies are an important equipment validation process required by USP <797>. Their purpose is visual qualification of horizontal laminar airflow. Smoke studies are performed bi-annually and reviewed by the Quality Management Team. Smoke studies are conducted under dynamic conditions that represent the Pharmacy's most challenging aseptic processes. To date,

all of the Pharmacy's smoke studies have passed evaluation, including the smoke study provided to the FDA in February of 2019.

The Pharmacy's robust process validations (which are independent from equipment validations) such as media fills, PATT testing, sterility testing, and environmental monitoring provide satisfactory reassurance that the sterile environment is maintained within the ISO-5 hood.

Corrective Action: Out of an abundance of caution, the Pharmacy performed an additional smoke study on October 6, 2021. This smoke study was performed under dynamic conditions which specifically included the two elements discussed in Observation 1. The portion of the filter assembly process which occurs in the ISO-5 hood was performed during the smoke study and continuity of unidirectional air flow and lack of turbulence or stagnation during these aseptic manipulations was confirmed. Two operators were also present during the smoke study. This smoke study demonstrates that uninterrupted, unidirectional air flow is maintained in the ISO-5 hood under representative dynamic conditions while the maximum number of personnel that are allowed in the cleanroom are present. The Pharmacy has updated its SOP 6.12 – Airflow Pattern Analysis – Smoke Study to specify that dynamic conditions should reflect the number of operators allowed to be present during the compounding of sterile preparations. A copy of the updated SOP is attached. A video of the smoke study is provided under separate cover.

5. If yes, describe the additional testing performed on your products to validate the extended BUD:
OSRX has transitioned to being regulated under the 503B outsourcing pharmacy regulations. As such, OSRX established a formal stability program to support the Expiration Date EXP applied to get completed finished products for commercial distribution as defined in FDA Guidance for Industry document: Current Good Manufacturing Practice Guidance for Human Drug Compounding Outsourcing Facilities Under Section 503B of the FD&C Act Guidance for Industry. The design of stability studies is based on knowledge of the behavior and properties of the drug substance(s) used in the compounded solutions, results from previous stability studies on the drug product, and experience gained from formulation development. The design of stability studies is based on knowledge of the behavior and properties of the drug substance(s) used in the compounded solutions, results from previous stability studies on the drug product, and experience gained from formulation development. The development of initial Expiration Date for new and significantly modified drug products will follow regulatory guidance, such as ICH Q6A, to refer to proposed specifications and justification. Reliable, meaningful, and specific test methods with defined acceptance criteria for the physical, chemical, biological, and microbiological attributes testing, preservative content, and functionality testing are used as appropriate for the product being tested and stage of product development. 7. What is your procedure for visual inspection of compounded sterile products?
USP General Chapter <1> Injections and Implanted Drug Products (Parenterals) Product Quality Tests states that [t]he inspection process should be designed and qualified to ensure that every lot of all parenteral preparations is essentially free from visible particulates as defined in USP General Chapter <790> Visible Particulates in Injections. Injectable products with a USP monograph are required to meet the applicable criteria from these USP General Chapters (see section 501(b) of the FD&C Act). Noncompendial products should also be essentially free from visible particulates as defined in USP General Chapter <790>. Full compliance with CGMP requirements is needed to ensure the continued supply of pure, safe, and effective injectable products.

8. How often do you perform glove fingertip and medial fill testing?

Personal Media Fill Qualifications will be assessed in addition to APS activities and rotated every six months making the rotation for assessment every 3 months.

9. What is your policy if an employee fails a glove fingertip or media-fill test?
If an operator fails a qualification they must repeat the hand hygiene SOP training and restart the qualification to achieve three consecutive passes. If an operator fails a second time, they will be prevented from cleanroom activities and a complete retraining of the following must be performed. If three consecutive failures are recorded the operations manager and QA will meet to discuss and determine an appropriate course of action and document in the employee training file. Production: If an operator fails a qualification they must repeat the gowning SOP training and repeat the test on a separate occasion. If an operator fails a second time, they will be prevented from performing critical operations and required to repeat the initial gowning qualification according to this SOP and the steps outlined herein

10. Describe your initial and annual training program for all personnel performing sterile compounding:
Personnel who prepare Compounded Sterile Preparations (CSPs) are trained through multimedia instructional sources and professional publications in the principles and practical skills of garbing procedures, aseptic work practices, cleaning, and disinfection procedures. Hand Hygiene-> Visual evaluation of the trainee by the SCS using form FRM-CC-0004.1 Competency Assessment - Hand Hygiene and Garbing initially and when performing aseptic skills assessment. Glove fingertip sampling 3 times initially and semi-annually thereafter immediately after completing aseptic skills assessment. Additional didactic and competency program instruction include Aseptic Processing, Cleaning and Disinfecting, Filter Integrity Testing. Quality Assurance is responsible for assessing the packaging to determine at regular intervals, in various seasons and climates to ensure the safe and reliable transportation of medications via shipping studies. Currently medications are designated for room temperature storage and do not require special packing measures for temperature control, they can be shipped in standard packaging within average transit durations regardless of the season. Recipients that receive packages with extended transit time due to unforeseen courier delays will be managed by a customer service representative for triage and appropriate handling.

Written detailed statement regarding Tennessee Board of Pharmacy Discipline December 2008

On September 29, 2008 I was serving as the PIC for Walgreens in Nashville TN. A board inspector visited that day and pointed out that one of the pharmacy technician permits was expired by one month; expired August 31,2008. The board inspector submitted his findings to the TN BOP and I was given a civil penalty of one $100; paid immediately.

After this encounter I have continued to serve as PIC for Walgreens and have enlisted measures to ensure compliance with TN BOP rules. For example, a monthly self audit includes inspecting all staff and facility permits to ensure they are not expired. If they are soon to expire, within 2 months, action is taken to ensure the permit is renewed before the expiration date. If it is a staff member permit that is soon to expire, I will have a personal coaching session to ensure the staff member is aware and is on track with CE requirements to renew their permit.

## SETTLEMENT AND MEMORANDUM OF AGREEMENT

This Memorandum of Agreement ("Agreement") is entered into by and between the United States Department of Justice ("DOJ"), the United States Drug Enforcement Administration ("DEA"), and Walgreen Co. and its wholly owned subsidiaries ("Walgreens") (each a "Party" and collectively the "Parties").

## APPLICABILITY

This Agreement shall be applicable to Walgreens Corporate and any facility owned or operated by Walgreens that is or was registered with DEA to dispense, distribute, or otherwise handle controlled substances or List I chemicals. Unless explicitly stated herein, nothing contained in this Agreement will lessen, supplant or expand Walgreens' legal obligations under any statute, regulation, or law.

## PROCEDURAL BACKGROUND

1. Walgreens owns or operates (or has previously owned or operated) distribution centers that are or were registered with DEA as distributors of Schedule II-V controlled substances under provisions of the Controlled Substances Act, 21 U.S.C. §§ 801 et seq., ("CSA" or "the Act") (each a "Distribution Center," collectively the "Distribution Centers").

2. Walgreens owns or operates (or has previously owned or operated) pharmacies that are or were registered with DEA as Retail/Chain Pharmacies to handle Schedule II-V controlled substances under the CSA (each a "Pharmacy," collectively the "Pharmacies"). Walgreens owns or operates (or has previously owned or operated) Central Pharmacy Operations facilities that are or were registered with DEA as Retail/Chain Pharmacies or Central Fill Pharmacies to handle Schedule II-V controlled substances under the CSA (each a "CPO Facility," collectively the "CPO Facilities").

3. On April 7, 2011, Walgreens entered into a Settlement and Release Agreement and Administrative Memorandum of Agreement with DEA. See Appendix A.

4. Walgreens' Jupiter Distribution Center ("Walgreens Jupiter") is registered with DEA as a distributor of Schedule II-V controlled substances at 15998 Walgreens Drive, Jupiter, Florida 33478 (Registration RW0277752).

5. On September 13, 2012, the DEA, by its Administrator, Michele M. Leonhart, issued an Order to Show Cause and Immediate Suspension of Registration ("OTSC/ISO") to Walgreens Jupiter. See Appendix B. After Walgreens requested an administrative hearing before DEA, the Administrative Law Judge ("ALJ") docketed the case, *In the Matter of Walgreen Co.*, Docket No. 13-1.

6. On November 26, 2012, the DEA, by its Deputy Assistant Administrator, Joseph T. Rannazzisi, issued three OTSCs to Walgreens Retail Pharmacy (1) #03629, 12028 Majestic Boulevard, Hudson, Florida 34667 (Registration BW4713992); (2) #04727, 4950 South U.S. Highway 1, Fort Pierce, Florida 34952 (Registration BW6561270); and

(3) #06997, 785 Lockwood Boulevard, Oviedo, Florida 32765 (Registration BW8487438). See Appendix C. After Walgreens requested an administrative hearing on each of these three matters, the ALJ docketed each case, *In the Matter of Walgreen Co.*, respectivcly Docket Nos. 13-9, 13-10, and 13-11.

7. On February 4, 2013, the DEA, by Deputy Assistant Administrator Rannazzisi, issued an OTSC to Walgreens Retail Pharmacy #03836, 9332 U.S. Highway 19, Port Richey, Florida 34668 (Registration AW8830247). See Appendix C. After Walgreens requested an administrative hearing, the ALJ docketed the case, *In the Matter of Walgreen Co.*, Docket No. 13-16.

8. On February 11, 2013, the DEA, by Deputy Assistant Administrator Rannazzisi, issued an OTSC to Walgreens #04391, 2501 Virginia Avenue, Fort Pierce, Florida 34981 (Registration BW5872494). See Appendix C. After Walgreens requested an administrative hearing, the ALJ docketed the case, *In the Matter of Walgreen Co.*, Docket No. 13-18.

9. Finally, on February 19, 2013, the DEA, by Deputy Assistant Administrator Rannazzisi, issued an OTSC to Walgreens #03099, 1525 Colonial Boulevard, Fort Myers, Florida 33907 (Registration AW1366877). See Appendix C. After Walgreens requested an administrative hearing, the ALJ docketed the case, *In the Matter of Walgreen Co.*, Docket No. 13-20.

10. On February 22, 2013, the ALJ consolidated the seven cases into one consolidated proceeding that was scheduled for an Administrative Hearing initially on January 7, 2013, and then continued until February 25, 2013, and again until April 23, 2013.

## STIPULATION AND AGREEMENT

The facts alleged in the OTSC/ISO issued to Walgreens Jupiter, as well as the facts alleged in the government's filings in *In the Matter of Walgreen Co.*, Docket No. 13-1, as listed in Appendix B, would, if proven, constitute grounds under which DEA could revoke the DEA registration of Walgreens Jupiter. The facts alleged in the OTSCs issued to Walgreens #03629, #04727, #06997, #03836, #04391, and #03099, as well as the facts alleged in the government's filings in *In the Matter of Walgreen Co.*, Docket Nos. 13-9, 13-10, 13-11, 13-16, 13-18, and 13-20, as listed in Appendix C, would, if proven, constitute grounds under which DEA could revoke the DEA registrations of Walgreens #03629, #04727, #06997, #03836, #04391, and #03099.

Walgreens acknowledges that suspicious order reporting for distribution to certain pharmacies did not meet the standards identified by DEA in three letters from DEA's Deputy Assistant Administrator, Office of Diversion Control, sent to every registered manufacturer and distributor, including Walgreens, on September 27, 2006, February 7, 2007 and December 27, 2007. Furthermore, Walgreens acknowledges that certain Walgreens retail pharmacies did on some occasions dispense certain controlled substances in a manner not fully consistent with its compliance obligations under the CSA (21 U.S.C. §§ 801 et seq.) and its implementing regulations (21 C.F.R. Part 1300 et seq.). Finally, Walgreens acknowledges that its

recordkeeping practices regarding the dispensing of controlled substances from certain retail pharmacies utilizing its CPO Facilities as central-fill pharmacies did not require such original prescriptions to be marked "CENTRAL FILL."

Walgreens, DEA, and DOJ agree as follows:

I. General

1. Intention of Parties to Effect Settlement. In order to avoid the uncertainty and expense of litigation, and in furtherance of the Parties' belief that a settlement in these administrative matters is in the public interest, the Parties desire to settle and resolve, and hereby do settle and resolve, the administrative matters within DEA's enforcement authority and civil penalty matters arising under the CSA and its implementing regulations relating to (1) the conduct described in the OTSC/ISO issued to Walgreens Jupiter, and in DEA's filings in *In the Matter of Walgreen Co.*, Docket No. 13-1; (2) the conduct described in the OTSCs issued to Walgreens #03629, #04727, #06997, #03836, #04391, and #03099, and in DEA's filings in *In the Matter of Walgreen Co.*, Docket Nos. 13-9, 13-10, 13-11, 13-16, 13-18, and 13-20; (3) recordkeeping obligations of the CPO Facilities and Pharmacies; (4) other allegations regarding Covered Conduct identified in Section I.2 of this Agreement involving any other Walgreens DEA registrant; and (5) any other allegations relating to conduct arising under the CSA or its implementing regulations which DEA or DOJ knows or has reason to know of as of the effective date of this Agreement, regardless of whether DEA or DOJ has notified Walgreens of such allegations, including conduct at any Walgreens registrant where DEA or DOJ has an open investigation. This includes the open civil investigation into the above-referenced conduct in the United States Attorney's Office for the Southern District of Florida, as well as open civil investigations in the United States Attorney's Offices for the District of Colorado, the Eastern District of Michigan, and the Eastern District of New York. This also includes civil investigations by DEA Field Offices nationwide. The Parties further believe that the terms and conditions of this Agreement as set forth below represent a complete resolution of these matters.

2. Covered Conduct. For purposes of this Agreement, "Covered Conduct" shall mean the following, whether it occurred at a specific Walgreens DEA registrant or elsewhere within Walgreens:

   a. Distribution Centers

      (1) Conduct alleged in the September 13, 2012 OTSC/ISO issued to Walgreens Jupiter, and in DEA's filings in *In the Matter of Walgreen Co.*, Docket 13-1, as listed in Appendix B, and similar allegations regarding any other Walgreens Distribution Center, occurring on or before the effective date of this Agreement;

      (2) Failure regarding any Distribution Center to maintain effective controls against the diversion of controlled substances into other than legitimate medical, scientific and industrial channels, as required by 21 U.S.C. §§

823(b) and (e), including any failures to conduct adequate due diligence to ensure that controlled substances were not diverted into other than legitimate channels, on or before the effective date of this Agreement;

(5) Failure regarding any Distribution Center to make complete and accurate ARCOS reports, on or before the effective date of this Agreement;

(6) Refusal or negligent failure by any Distribution Center to make, keep, or furnish any record, report, notification, declaration, order or order form, statement, invoice, or information required under the CSA and its implementing regulations, on or before the effective date of this Agreement; and

(7) Conduct regarding any Distribution Center inconsistent with the CSA and its implementing regulations on or before the effective date of this Agreement.

b. Walgreens Pharmacies and CPO Facilities

(1) Conduct alleged in the November 26, 2012, February 4, 2013, February 11, 2013, and February 19, 2013 OTSCs issued to Walgreens #03629, #04727, #06997, #03836, #04391, and #03099, and in DEA's filings in *In the Matter of Walgreen Co.*, Docket Nos. 13-9, 13-10, 13-11, 13-16, 13-18, and 13-20, as listed in Appendix C, and similar allegations regarding any other Walgreens Pharmacy or CPO Facility, occurring on or before the effective date of this Agreement;

(2) Failure of Walgreens Pharmacists at any Pharmacy or CPO Facility to exercise their corresponding responsibility to ensure that controlled substances were dispensed pursuant to prescriptions issued for legitimate medical purposes by practitioners acting in the usual course of their professional practice, as required by 21 C.F.R § 1306.04(a), and dispensing by any Pharmacy, or CPO Facility, of controlled substances pursuant to purported prescriptions that were otherwise invalid under 21 C.F.R. Part 1306, on or before the effective date of this Agreement;

(3) Dispensing by any Pharmacy or CPO Facility of controlled substances to individuals Walgreens knew or should have known were diverting controlled substances on or before the effective date of this Agreement;

(4) Dispensing by any Pharmacy or CPO Facility of controlled substances pursuant to prescriptions issued by a physician who did not have a current, valid DEA registration on or before the effective date of this Agreement;

(5) Refusal or negligent failure by any Pharmacy or CPO Facility to make, keep, or furnish any record, report, notification, declaration, order or order form, statement, invoice, or information required under the CSA and its implementing regulations, including, but not limited to, failure by any Pharmacy or CPO Facility to maintain accurate records pursuant to 21 C.F.R. Part 1304 and to properly label and/or mark prescriptions pursuant to 21 C.F.R. Part 1306, on or before the effective date of this Agreement;

(6) Conduct inconsistent with the CSA and its implementing regulations on or before the effective date of this Agreement, by any Pharmacy or CPO Facility; and

(7) Failure by any Walgreens registrant, including any Pharmacy or CPO Facility, to adhere to the provisions of the April 7, 2011 Administrative Memorandum of Agreement between Walgreen Co. and DEA (the "2011 MOA").

3. Effect of 2011 MOA. The obligations contained in the 2011 MOA are superseded by the obligations contained within this Agreement.

4. Term of Agreement. The obligations contained in this Agreement shall remain in full force and effect for a period of three (3) years from the effective date of this Agreement unless the Parties agree in writing to an earlier termination, provided, however, that the releases in Paragraphs II.6 and II.8 in this Agreement extend beyond the effective date.

## II. Terms and Conditions

1. Obligations of Walgreens Distribution Centers.

a. Walgreens will continue to review, and where reasonable and appropriate, to revise its processes and practices for conducting suspicious order monitoring and reporting suspicious orders from Walgreens' pharmacies, as set forth in the attached Addendum.

b. Walgreens shall inform DEA of suspicious orders as required by 21 C.F.R. § 1301.74(b) in a format mutually and reasonably agreed upon by the Parties.

c. Walgreens agrees to the surrender of Walgreens Jupiter's DEA Registration RW0277752 for controlled substances Schedules II-V, until September 13, 2014.

2. Obligations of Walgreens Pharmacies and CPO Facilities.

a. Walgreens agrees to maintain a compliance program in an effort to detect and prevent diversion of controlled substances as required under the CSA and applicable DEA regulations, as set forth in the attached Addendum. This program shall include procedures to identify the common signs associated with the diversion of controlled substances. The program shall also include the routine and periodic training of all Walgreens pharmacy employees responsible for dispensing controlled substances on the elements of the compliance program and their responsibilities under the CSA and applicable DEA regulations. This compliance program shall apply to all Walgreens Pharmacies and CPO Facilities.

b. Walgreens shall implement and maintain policies and procedures in an effort to ensure that prescriptions for controlled substances are only dispensed to authorized ultimate users pursuant to federal and state law and regulations. Walgreens shall maintain its current policy that requires all customers to provide identifying information and shall also require valid photo identification as required by and in accordance with controlling state law where the pharmacy is located. Documents maintained by Walgreens pursuant to any obligation under federal and/or state law regarding the verification of an ultimate user's identity shall be kept readily available by the pharmacy, and shall be produced to DEA agents, task force officers or investigators on request.

c. Walgreens shall direct and train its pharmacists that their corresponding responsibility under federal law requires them not to fill a prescription that such pharmacist knows or has reason to know was issued for other than a legitimate medical purpose or by a practitioner acting outside the usual course of professional practice.

d. In connection with Walgreens' recordkeeping obligations, Walgreens agrees to maintain records regarding the dispensing of controlled substances in electronic format, in addition to the regularly maintained paper files, including records relating to which Distribution Center and/or CPO Facility shipped the controlled substance to the Pharmacy. These records shall be made available to DEA agents, task force officers or investigators, upon demand, without the need for a warrant or subpoena, provided that the DEA agents, task force officers or investigators present appropriate identification. Walgreens shall provide electronic reports of dispensing on an ad hoc basis in response to DEA requests within a reasonable time.

e. Walgreens agrees to the surrender of the DEA registrations to dispense controlled substances for Schedules II-V at the following facilities until May 26, 2014: BW4713992 (#03629), BW6561270 (#04727), BW5872494 (#04391), AW8830247 (#03836), AW1366877 (#03099), and BW8487438 (#06997).

3. Walgreens General Obligations.

a. Walgreens' policy and procedure is to cooperate with the government in any investigation. Walgreens agrees to reasonably cooperate with DEA, United States Attorneys' Offices, and any other law enforcement agency investigating or prosecuting customers of Walgreens' pharmacies for alleged violations or activities related to the Covered Conduct, unless such matters would affect the rights or obligations of Walgreens in regard to any pending or threatened litigation. Such cooperation shall include, but is not limited to, producing records and making employees available for interviews as reasonable and appropriate with reasonable notice in advance. However, nothing in this paragraph shall be construed as a waiver by Walgreens, its directors, officers or employees of any constitutional rights or rights that they would have as a party to a matter involving pending or threatened litigation with the government or a third party, including without limitation attorney-client or attorney work product privileges.

b. Walgreens agrees that it will promptly move to dismiss, with prejudice, the pending lawsuit by Walgreens in Case No. 12-1397 in the United States Court of Appeals for the District of Columbia Circuit.

c. Walgreens agrees to pay the United States eighty million dollars ($80,000,000.00) ("the Settlement Amount") within ten (10) days of the effective date of this Agreement by electronic funds transfer pursuant to written instructions provided to Walgreens by the United States Attorney's Office for the Southern District of Florida.

4. Obligations of DEA.

a. DEA agrees to accept at DEA Field Offices the information regarding suspicious orders as required under 21 C.F.R. § 1301.74(b) in the manner described in the attached Addendum.

b. Within five (5) business days of the effective date of this Agreement, DEA agrees to unlock the controlled substances storage area at Walgreens Jupiter and make its contents available to Walgreens for any lawful transfer or reverse distribution of the inventory contained therein to an appropriate DEA registrant(s).

c. Provided that Walgreens submits a re-application for each of the above-listed facilities at least four (4) months prior to the end of the applicable surrender period, DEA agrees that, upon application by Walgreens, it will grant (1) a DEA registration to distribute controlled substances in Schedules II-V for Walgreens Jupiter on or before September 13, 2014, and (2) DEA registrations to dispense controlled substances in Schedules II-V for the Walgreens Pharmacies listed in Paragraph II.2.e on or before May 26, 2014.

5. Joint Obligations of the Parties.

   a. Walgreens and DEA agree that upon the execution of this Agreement, DEA and Walgreens shall promptly file a joint motion with the ALJ to terminate all pending administrative proceedings against Walgreens.

6. Release by the United States. In consideration of the fulfillment of the obligations of Walgreens under this Agreement, the United States agrees to:

   a. Release Walgreens and all Walgreens facilities, including Walgreens subsidiary entities, affiliates, and registrants, along with their respective officers, directors, employees, successors, and assigns (collectively, the "Released Parties") from any administrative claims related to Covered Conduct prior to the effective date of this Agreement within DEA's enforcement authority under the CSA and its implementing regulations, and any corresponding DOJ authority for civil penalty claims under 21 U.S.C. § 842.

   b. Refrain from filing or taking any administrative actions against the Released Parties within DEA's enforcement authority under the CSA and its implementing regulations based on the Covered Conduct, or other noncompliant conduct to the extent that such conduct was or could have been discovered by DEA through the exercise of due diligence through the examination of investigations and inspections in existence as of the effective date of this Agreement, or the review of the reports and records Walgreens submitted to DEA prior to the effective date of this Agreement; and

   c. Refrain from filing any action for civil penalty claims under 21 U.S.C. § 842 by any U.S. Attorney's Office and/or DOJ based on the Covered Conduct, or other noncompliant conduct to the extent that such conduct was or could have been discovered by DEA through the exercise of due diligence through the examination of investigations and inspections in existence as of the effective date of this Agreement, or the review of the reports and records Walgreens submitted to DEA prior to the effective date of this Agreement.

7. Notwithstanding the releases by the United States in Paragraph #6 above, DEA reserves the right to seek to admit evidence of Covered Conduct for proper evidentiary purposes in any future administrative proceeding against Walgreens for non-Covered Conduct. Further, nothing in this Agreement shall prohibit or limit any other agency within DOJ, any State attorney general, or any other law enforcement, administrative, or regulatory agency of the United States or any State thereof, from initiating administrative, civil, or criminal proceedings with respect to the Covered Conduct. DEA shall, as obligated in fulfilling its statutory duties, assist and cooperate with any agency that initiated an investigation, action, or proceeding involving Covered Conduct, but will not otherwise initiate or refer any civil action to any U.S. Attorney's Office or to any component of DOJ, based on the Covered Conduct. At Walgreens' request, DEA and DOJ agree to disclose the terms of this Agreement to any other agency and will represent, assuming

Walgreens is in compliance with this Agreement, that the allegations raised by DEA, as defined in the Covered Conduct, have been adequately addressed.

8. Release by Walgreens. Walgreens fully and finally releases the United States of America, its agencies, employees, servants, and agents from any claims (including attorney's fees, costs, and expenses of every kind and however denominated) which Walgreens has asserted, could have asserted, or may assert in the future against the United States of America, its agencies, employees, servants, and agents, related to the Covered Conduct and the United States' investigation and prosecution thereof.

9. Reservation of Claims. Notwithstanding any term of this Agreement, specifically reserved and excluded from the scope and terms of this Agreement as to any entity or person (including Walgreens) are the following:

   a. Any potential criminal liability;

   b. Any civil, criminal or administrative liability arising under Title 26, United States Code (Internal Revenue Code); or

   c. Any liability based upon such obligations as are created by this Agreement.

   d. Nothing in this Agreement constitutes an agreement by the United States concerning the characterization of the settlement amount for purposes of the Internal Revenue Laws, Title 26 of the United States Code.

10. Walgreens agrees that any and all costs it has or will incur in connection with this matter—including payment of the Settlement Amount under this Agreement, attorney's fees, costs of investigation, negotiation, and remedial action—shall be unallowable costs for government contracting accounting and for Medicare, Medicaid, TriCare, and FEHBP (or any other government reimbursement program) for reimbursement purposes.

## III. Miscellaneous

1. Binding on Successors. This Agreement is binding on Walgreens, and its respective successors, heirs, transferees, and assigns.

2. Costs. Each Party to this Agreement shall bear its own legal and other costs incurred in connection with this matter, including the preparation and performance of this Agreement.

3. No Additional Releases. This Agreement is intended to be for the benefit of the Parties and the Released Parties only, and by this instrument the Parties do not release any claims against any other person or entity other than the Parties.

4. Incorporation of Addendum. This Agreement incorporates a separate document, entitled "Addendum: Prospective Compliance," containing additional compliance measures to be undertaken by Walgreens.

5. Effect of Agreement. This Agreement constitutes the complete agreement between the Parties. All material representations, understandings, and promises of the Parties are contained in this Agreement, and each of the Parties expressly agrees and acknowledges that, other than those statements expressly set forth in this Agreement, it is not relying on any statement, whether oral or written, of any person or entity with respect to its entry into this Agreement or to the consummation of the transactions contemplated by this Agreement. Any modifications to this Agreement shall be set forth in writing and signed by all Parties.

Walgreens represents that this Agreement is entered into with advice of counsel and knowledge of the events described herein. Walgreens further represents that this Agreement is voluntarily entered into in order to avoid litigation, without any degree of duress or compulsion.

6. Execution of Agreement. This Agreement shall become effective on the date of signing by the last signatory (the "Effective Date"). The United States agrees to notify Walgreens immediately when the final signatory has executed this Agreement.

7. Notices. All communications and notices to Walgreens pursuant to this Agreement shall be made in writing to the following individuals, which notice information may be altered from time to time by Walgreens providing written notification to DEA:

   a. Dwayne A. Piñon, Director, Pharmacy Law, Operations & Services, Walgreen Co., 104 Wilmot Road, MS #1434, Deerfield, Illinois 60015; fax: 847-315-4660; email: dwayne.pinon@walgreens.com.

8. Disclosure. Walgreens and DEA may each disclose the existence of this Agreement and information about this Agreement to the public without restriction.

9. Execution in Counterparts. This Agreement may be executed in counterparts, each of which constitutes an original, and all of which shall constitute one and the same agreement.

10. Authorizations. The individuals signing this Agreement on behalf of Walgreens represent and warrant that they are authorized by Walgreens to execute this Agreement. The individuals signing this Agreement on behalf of DEA and DOJ represent and warrant that they are signing this Agreement in their official capacities and that they are authorized by DEA and DOJ to execute this Agreement.

11. Choice of Law and Venue. This Settlement Agreement and Release shall be construed in accordance with the laws of the United States, and any Party may seek judicial enforcement of this Agreement upon a material breach by the other Party. The Parties agree that the jurisdiction and venue for any dispute arising between and among the Parties relating to this Agreement will be the United States District Court or, as appropriate, in the Court of Federal Claims, in which the Walgreens facilities and/or registrations at issue are located. This provision, however, shall not be construed as a waiver of the jurisdictional provisions of the CSA.

## Addendum: Prospective Compliance

The Parties agree that Walgreens will maintain the following specific compliance measures for the duration of this Agreement. To the extent any compliance measures identified below are not yet in place, Walgreens commits to implement such measures within the timeframes specified herein.

A. General

1. Walgreens will maintain a Department of Pharmaceutical Integrity, composed of personnel with pharmacy-related training and managerial personnel, who shall be trained in relevant diversion-related issues, to coordinate compliance efforts related to controlled substances. Within one (1) month of the effective date of this Agreement, Walgreens will identify a dedicated contact point (including a dedicated email address) for DEA within the Department of Pharmaceutical Integrity to facilitate Walgreens' responses to DEA requests for information and documents, specifically including responses to requests for dispensing log data and pseudoephedrine data.

B. Pharmacies

1. Upon request by DEA to Walgreens' Department of Pharmaceutical Integrity, within two (2) business days Walgreens will provide to DEA, via appropriate secure means of electronic transmission, controlled substance dispensing logs consisting of those categories of information the regulations require dispensers to maintain as records, *see* 21 C.F.R. § 1304.22(c). DEA understands and agrees that additional reasonable time may be required to the extent DEA seeks additional data or information not regularly maintained for such logs.

2. For all Schedule II controlled substance prescriptions, Walgreens currently affixes a sticker to each paper prescription containing certain dispensing information such as: a serial number unique to each prescription (which includes a suffix identifying the dispensing retail pharmacy); the prescriber's name, address, telephone number, and DEA registration number; the patient's name, address, and telephone number; the prescription issue date; the drug and quantity dispensed; and the fill date. Walgreens currently also affixes such stickers to Schedule III-V controlled substance paper prescriptions in certain states, but not others, depending upon state law requirements. Within three (3) months of the effective date of this Agreement, Walgreens pharmacies will affix such a sticker to all paper controlled substance prescriptions in each state, regardless of the requirements of state law. Walgreens will maintain a paper file of such prescriptions organized chronologically by fill date. In the event that DEA requests an electronic list of such prescriptions in sequential order by prescription number, Walgreens' Department of Pharmaceutical Integrity will provide such a list upon request within a reasonable time. Paper prescriptions will be maintained at the registered location of the pharmacy that dispensed them for a period of the longer of two (2) years or that required by applicable state law.

3. Walgreens' retail pharmacies utilize a computer application for the storage and retrieval of refill information for original paper prescriptions. For prescription refills, Walgreens will follow the procedures outlined in 21 C.F.R. § 1306.22(f). To the extent that DEA wishes to retrieve electronic records regarding refills, Walgreens' Department of Pharmaceutical Integrity will facilitate responses to such requests, including by providing such information to DEA upon request in a manner that is sortable and retrievable by prescriber name, prescriber DEA registration number, patient name, patient address, drug dispensed, date filled, and last name of dispensing pharmacist.

4. Walgreens remains committed to properly training its pharmacy personnel to deal with evolving diversion-related issues. Walgreens will continue to enhance its Good Faith Dispensing Policy and training materials to identify "red flags" of potential diversion for pharmacists to consider in making professional judgments regarding dispensing of controlled substances. Walgreens will train its pharmacy personnel at least annually on Good Faith Dispensing and will update the Good Faith Dispensing Policy and training materials to respond to changing diversion threats of which Walgreens is aware. DEA will share information with Walgreens periodically regarding circumstances that may present "red flags" of potential diversion. Walgreens' training program will also instruct pharmacists and supervisory personnel to contact the Department of Pharmaceutical Integrity, as appropriate, to address specific problematic issues arising with particular patients or physicians, so that the Department of Pharmaceutical Integrity can assess and respond to such issues. Pharmacist training will also cover instruction on how to assist DEA in obtaining records as required by this Agreement or any regulations.

5. Walgreens will maintain procedures to verify that the DEA registration number for the issuing prescriber of a controlled substance is a current, valid registration number. Such verification shall be performed using information from the National Technical Information Service (NTIS) database or similarly reliable third party database where DEA registration changes are recorded. Walgreens agrees to maintain a system integrating NTIS data with Walgreens' computer system that will: (1) update NTIS registration data on a weekly basis; and (2) prevent a pharmacy from filling a controlled substance prescription using a registration number not listed in such NTIS data until such prescriber's valid registration number is confirmed.

6. Beginning in 2014, Walgreens will exclude any accounting for controlled substance prescriptions dispensed by a particular pharmacy from bonus computations for pharmacists and pharmacy technicians at that pharmacy.

7. For each retail pharmacy, Walgreens will maintain, either electronically or in paper form, a log of pseudoephedrine purchases that can be made available upon request to authorized DEA personnel. To the extent that printing or copying of such a log from electronic records at a pharmacy would be unduly laborious or time-consuming, DEA agrees that Walgreens' Department of Pharmaceutical

Integrity will facilitate transmission of such information, including through transmission of electronic records to DEA.

C. Distribution Centers

1. Within one (1) week of the effective date of this Agreement, Walgreens will designate a DEA contact point in its Department of Pharmaceutical Integrity to address inquiries regarding suspicious order monitoring and reporting. At least one (1) existing employee at each Walgreens distribution center that distributes controlled substances will receive appropriate training on suspicious order monitoring requirements and on reporting relevant issues to the Department of Pharmaceutical Integrity.

2. For purposes of complying with suspicious order monitoring and reporting requirements for orders to be supplied by a Walgreens distribution center, Walgreens will maintain the tolerance threshold, ceiling limits, and other elements of its current suspicious order monitoring and reporting system, either for the duration of this Agreement or until Walgreens distribution activities are transitioned to a third party. Walgreens will endeavor to conduct its evaluations of "orders of interest" identified by its tolerance thresholds and ceiling limits within four (4) business days in most cases, and shall inform DEA Field Offices of orders that Walgreens has determined are "suspicious" within two (2) business days of making any such determination. Walgreens agrees not to ship any "order of interest" or "suspicious order" in whole or in part unless and until Walgreens resolves the reason(s) that caused it to designate the order as an "order of interest" or a "suspicious order." Within ninety (90) days of the effective date of this Agreement, suspicious order reports shall identify reason(s) an order was determined to be suspicious, and the registration number for the specific Walgreens distribution center that would have received the order at issue.

3. Within eighteen (18) months of the effective date of this Agreement, Walgreens will initiate enrollment in and operationally implement DEA's Controlled Substance Ordering System (CSOS) for orders of all Schedule II controlled substances placed by its retail pharmacies to its distribution centers.

**Section 3: History of Company**

**Statement of Explanation for Question 3**: "Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest, ever been subject of an administrative action, board citation, cite fine, or proceeding related to the pharmaceutical industry?

*Regarding the question at hand, the answer is affirmative but pertains to a different pharmacy location (Portland, OR) owned by the same entity as our pharmacy seeking licensure in Harrisburg, PA.*

On November 23, 2016, Vetsource Home Delivery (located in Portland, OR), was named in an Administrative Complaint, File #53-16-142154 issued by the Michigan Department of Licensing and Regulatory Affairs. The complaint accused Vetsource Home Delivery of submitting prescription drug monitoring data files with incomplete information and failing to respond to email notifications regarding the errors. On June 27, 2017, Vetsource Home Delivery agreed to a Consent Order, including a $500 fine and sanctions, to settle the complaint. Vetsource Home Delivery accepted the agreement, paid the fine, and disclosed the sanctions. An accurate and authentic copy of the Consent Order is included with this letter.

Vetsource Home Delivery (Portland, OR) has a miscellaneous Pharmacy permit, Permit Number PMP 540, in Hawaii. However, the Hawaii Regulated Industries Complaints Office ("RICO") initiated an investigation into Vetsource Home Delivery, claiming that the pharmacy failed to properly disclose the Michigan consent order information to the Hawaii Board of Pharmacy under Haw. Rev. Stat. §436B-19(13) and (15). To avoid the costs, inconvenience, delays, and uncertainties of contesting the alleged violations, Vetsource Home Delivery agreed to a Settlement Agreement Prior to Filing of Petition for Disciplinary Action with RICO on November 14, 2019, and paid a $1,000 fine. On January 23, 2020, the Hawaii Board of Pharmacy approved the Settlement Agreement Prior to Filing of Petition for Disciplinary Action. Vetsource Home Delivery was notified of the approval on January 27, 2020.

This letter contains an accurate and authentic copy of the Settlement Agreement between Vetsource Home Delivery and RICO, signed by both parties. Under the agreement, Vetsource Home Delivery does not admit to any violation of law or regulation but acknowledges RICO's right to pursue disciplinary action.

**Vetsource SOP Summary Reference for the NV Non-Resident Licence Application**

**Question 2, Items A-J**

Vetsource SOP 29: Pharmacist Procedures Ensuring Prescription Integrity

Item A:

- All veterinarian prescribers attest to a VCPR with their client
- Pharmacists follow procedures in SOP 29 to assess for the validity and integrity of all prescriptions (electronic, telephonic, faxed and written)
- Pets in general are on very few medications and pharmacists are trained to recognize normal prescribing patterns
- Controlled substances account for approximately 1% of Vetsource medication orders

Item B:

- Proprietary electronic prescription security ensures that a prescription can only be dispensed by Vetsource
- Faxes are verified through a secure fax server network
- Pharmacists are trained to follow up on any written prescriptions with the vet clinic if there is a concern

Item C:

- There are various system securities in place within the pharmacy system to ensure that only one pharmacy can dispense the prescription (e.g. Portland location vs Harrisburg location)

Item D:

- The veterinarian and pet are verified when an order is placed, each has a unique ID number to ensure that records are non-modifiable in our systems

Vetsource SOP 25: Pharmacist Procedures General

Item E:

- 4.1. All pharmacists are responsible for complying with all state and federal laws and regulations governing the practice of pharmacy.
- Includes performing a DUR, supervision and appropriate use of technicians and staff, drug & records security, confidentiality, controlled substance security, patient counseling, prescribers and drug information
- Additionally, all Technicians are trained on relevant SOPs regarding: General & Training requirements, Customer Service, Prescription Entry, Order Fill, Packing/Shipping, Compliance packaging, and Administrative SOPs

Vetsource SOP 33: Pharmacist Procedures Hospital and Patient Consultation

Item F:

- Pharmacists and technicians are trained in call handling and escalation procedures. The teams are trained in reporting Adverse Drug Reactions, Errors and Complaints.
- Often, the pharmacy team is also in touch with the prescribing veterinarian to help resolve complaints and service issues reported by a pet owner.
- Every order includes written drug information and a reminder to contact a pharmacist to discuss the pet's medication, side effects or errors related to the order. The following message accompanies every order:

**Important Information About Your Pet's Prescription(s):**
Written information is included in your shipment for any order containing prescription medication(s). Please read this information before you give this medication to your pet. If you have any questions about the proper use of a medication, if your pet experiences a side effect from using a medication, or if an error has occurred with your order, please call VetSource to speak with a pharmacist at 1-877-738-4443. Our pharmacists are available Monday through Friday, 8am -8pm EST. If your pet experiences a health emergency, go to the nearest emergency veterinary clinic and call your veterinarian.

Vetsource SOP 10: Administrative Requirements Quality Assurance Program

Item F, G, H:

- Vetsource defines a pharmacy service complaint and/or dispensing error as a Quality Related Event in SOP 10.
    - They are also further defined as a "product quality complaint" in SOP 7 Reporting Adverse Drug Events, when the complaint is about a manufacturer's defect.
    - All ADEs and product quality complaints are documented and reported to the drug manufacturer.
- Service complaints and errors are documented by the QA team(s).
    - These issues are resolved with the pet owner immediately after the investigation is completed.
    - Often, the pharmacy team is also in touch with the prescribing veterinarian to help resolve complaints and service issues reported by a pet owner.
    - Pharmacists may communicate with the pet owner and vet hospital depending on the nature of the event.
- The QA team and the PIC review all quality events and determine whether any of the following actions are warranted:
    - Assign root cause analysis, retrain and/or discipline staff, conduct staff awareness meetings, update SOPs or other procedures, develop technology solutions for further error prevention.
- Additionally, Vetsource records all calls and monitors for quality assurance, regulatory compliance and training.
    - SOP 55 Telework outlines procedures for recording and monitoring calls, and ensuring oversight of the call center and other remote pharmacy personnel.

Vetsource SOP 35: Pharmacist Procedures Client Notification Undue Delay

Item I:

- The pharmacy has specific procedures for notifying clients when a medication is out of stock or a shipment is delayed. If an order is delayed more than 24 hours, clients are notified.
    - In the event of a delayed order, Vetsource will establish the necessary delivery timeline with the pet owner, oftentimes upgrading the shipping at no cost to the pet owner.
- Vetsource does not make order substitutions. The pharmacy ensures that all orders are shipped exactly as prescribed.
    - This is due to the fact that there is limited data on the therapeutic equivalence between branded and generic veterinary medications.

Vetsource SOP 23: Inventory Maintenance Product Recalls and SOP 22: Inventory Maintenance Expiring Meds

Item J:

- The pharmacy has defined procedures for ensuring notification of the pet owner and veterinary practice for recalls:
    - Recall notices are immediately reviewed and prioritized
    - All Recalls are reviewed in the central inventory database and investigated for products that may be in the pharmacies and need to be quarantined
    - The Portland PIC will confirm the severity of the Recalls (Class I, II or III) and will initiate the appropriate notification protocol
    - Procedures will include instructions for pet owners to return the product to the pharmacy for return to the manufacturer, if applicable
- The inventory team will continually monitor the central inventory database for medications that expire with less than 12 months expiration dating. Short dated medications will be removed from stock and quarantined.
- In some cases, short dated medications may be sold provided that the Expiration date is clearly marked on the pharmacy label. E.g. immediate and one time use products.

7. For purposes of resolving this matter only and for no other purpose, Respondent contests the allegations in the Accusation, but acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the allegations that on or about July 11, 2022, Respondent failed to secure dangerous drugs in a locked cabinet thereby allowing access to dangerous drugs by unlicensed personnel, in violation of NAC 639.898(1), and administered drug products to a patient that were not acquired in compliance with NRS Chapter 639.

10. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may lift the stay and immediately suspend Respondent's Certificate of Registration No. CS28545 and impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on March 5, 2025. 14. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

## SETTLEMENT AGREEMENT

The Investigative Committee (IC) of the Nevada State Board of Medical Examiners (Board), by and through Donald K. White, Esq., Deputy General Counsel for the Board and attorney for the IC, and Jon Lane Siems, M.D. (Respondent), a licensed physician in Nevada, assisted by his attorney, David J. Mortensen, Esq., of the law firm of Messner Reeves LLP, hereby enter into this Settlement Agreement (Agreement) based on the following:[1]

**A. Background**

1. Respondent is a medical doctor licensed by the Board, pursuant to Chapter 630 of the Nevada Revised Statutes (NRS) and Chapter 630 of the Nevada Administrative Code (NAC) (collectively, the Medical Practice Act), to practice medicine in Nevada since December 20, 1999 (License No. 9250).

2. On November 13, 2019, in Case No. 19-13009-2, the IC filed a formal Complaint (Complaint) charging Respondent with violating the Medical Practice Act. On November 25, 2020, in Case No. 19-13009-2, the IC filed a First Amended Complaint (First Amended Complaint). Specifically, the Complaint alleges a violation of NRS 630.301(4), Count I, Malpractice, and a

[1] All agreements and admissions made by Respondent are solely for final disposition of this matter and any subsequent related administrative proceedings or civil litigation involving the Board and Respondent. Therefore, Respondent's agreements and admissions are not intended or made for any other use, such as in the context of another state or federal government regulatory agency proceeding, state or federal civil or criminal proceeding, any state or federal court proceeding, or any credentialing or privileges matter.

violation of NRS 630.3062(1)(a), Count II, Failure to Maintain Proper Medical Records. The First Amended Complaint consisted of adding a violation of NRS 630.3065(2)(a), Count III, Knowing or Willful Failure to Comply with a Board Order, for not providing medical records upon request.

3. By reason of the foregoing, Respondent is subject to discipline by the Board as provided in NRS 630.352.

4. Respondent was properly served with a copy of the Complaint and the First Amended Complaint, has reviewed and understands the Complaint and the First Amended Complaint, and has had the opportunity to consult with competent counsel concerning the nature and significance of the Complaint.

5. Respondent is hereby advised of his rights regarding this administrative matter, and of his opportunity to defend against the allegations in the Complaint. Specifically, Respondent has certain rights in this administrative matter as set out by the United States Constitution, the Nevada Constitution, the Medical Practice Act, the Nevada Open Meeting Law (OML), which is contained in NRS Chapter 241, and the Nevada Administrative Procedure Act (APA) applicable to certain regulatory bodies, which is contained in NRS Chapters 233B and 622A. These rights include the right to a formal hearing on the allegations in the Complaint, the right to representation by counsel, at his own expense, in the preparation and presentation of his defense, the right to confront and cross-examine the witnesses and evidence against him, the right to written findings of fact, conclusions of law and order reflecting the final decision of the Board, and the right to judicial review of the Board's order, if the decision is adverse to him.

6. Respondent understands that, under the Board's charge to protect the public by regulating the practice of medicine, the Board may take disciplinary action against Respondent's license, including license probation, license suspension, license revocation and imposition of administrative fines, as well as any other reasonable requirement or limitation, if the Board concludes that Respondent violated one or more provisions of the Medical Practice Act.

7. Respondent understands and agrees that this Agreement, by and between Respondent and the IC, is not with the Board, and that the IC will present this Agreement to the Board for consideration in open session at a duly noticed and scheduled meeting. Respondent

understands that the IC shall advocate for the Board's approval of this Agreement, but that the Board has the right to decide in its own discretion whether or not to approve this Agreement. Respondent further understands and agrees that if the Board approves this Agreement, then the terms and conditions enumerated below shall be binding and enforceable upon him and the Board.

**B. Terms & Conditions**

**NOW, THEREFORE,** in order to resolve the matters addressed herein, i.e., the matters with regard to the Complaint, Respondent and the IC hereby agree to the following terms and conditions:

1. **Jurisdiction**. Respondent was, and at all times relevant to the Complaint, a physician licensed to practice medicine in Nevada subject to the jurisdiction of the Board as set forth in the Medical Practice Act.

2. **Representation by Counsel/Knowing, Willing and Intelligent Agreement**. Respondent acknowledges he is represented by counsel and wishes to resolve the matters addressed herein with said counsel. Respondent agrees that if representation by counsel in this matter materially changes prior to entering into this Agreement and for the duration of this Agreement, that counsel for the IC will be timely notified of the material change. Respondent agrees that he knowingly, willingly and intelligently enters into this Agreement after deciding to have a full consultation with and upon the advice of legal counsel.

3. **Waiver of Rights**. Respondent hereby knowingly, willingly and intelligently waives all rights arising under the United States Constitution, the Nevada Constitution, the Medical Practice Act, the OML, the APA, and any other legal rights that may be available to him or that may apply to him in connection with the administrative proceedings resulting from the Complaint filed in this matter, including defense of the Complaint, adjudication of the allegations set forth in the Complaint, and imposition of any disciplinary actions or sanctions ordered by the Board.

Respondent agrees to settle and resolve the allegations of the Complaint as set out by this Agreement, without a hearing[2] or any further proceedings and without the right to judicial review.

4. **Acknowledgement of Reasonable Basis to Proceed**. Respondent acknowledges that the IC believes it has a reasonable basis to allege that Respondent engaged in conduct that is grounds for discipline pursuant to the Medical Practice Act. The IC acknowledges Respondent is not admitting that the IC's claims/counts as alleged in the Complaint have merit. Respondent is agreeing to resolve this matter to avoid the costs of a hearing and potential subsequent litigation. Respondent asserts if this matter were to proceed to hearing, he has evidence, witnesses, expert witness(es) and defenses to the counts/claims alleged in the Complaint, but for the purposes of resolving the matter and for no other purpose, Respondent waives the presentation of evidence, witnesses, expert witnesses, and defenses in order to effectuate this Agreement.

5. **Consent to Entry of Order**. Respondent's license shall be subject to suspension upon a term of probation for a period of sixty (60) months from the date of the Board's acceptance, adoption, and approval of this Agreement (Probationary Period). Respondent must complete the following terms and conditions within the Probationary Period and demonstrate compliance to the good faith satisfaction of the Board before or within sixty (60) months, including but not limited to, payment in full of costs and fees imposed, and at that time he may petition the Board to lift the probationary status of his license. If Respondent fails to demonstrate compliance with the terms and conditions of this Agreement, or otherwise violates the terms of

The aforementioned twenty (20) hours of CME shall be in addition to any CME requirements that are regularly imposed upon Respondent as a condition of licensure in the State of Nevada and shall be approved by the Board prior to their completion.

i. Count III shall be dismissed with prejudice, and this Agreement shall encompass the resolution of the formal disciplinary case currently before the Board.

6. **Release From Liability**. In execution of this Agreement, Respondent understands and agrees that the State of Nevada, the Board, and each of its members, staff, counsel, investigators, experts, peer reviewers, committees, panels, hearing officers, consultants and agents are immune from civil liability for any decision or action taken in good faith in response to information acquired by the Board. NRS 630.364(2)(a). Respondent agrees to release the State of Nevada, the Board, and each of its members, staff, counsel, investigators, experts, peer reviewers, committees, panels, hearing officers, consultants and agents from any and all manner of actions, causes of action, suits, debts, judgments, executions, claims and demands whatsoever, known and unknown, in law or equity, that Respondent ever had, now has, may have or claim to have, against any or all of the persons, government agencies or entities named in this paragraph arising out of, or by reason of, this investigation, this Agreement, or the administration of the case referenced herein.

7. **Procedure for Adoption of Agreement**. The IC and counsel for the IC shall recommend approval and adoption of the terms and conditions of this Agreement by the Board in resolution of this Complaint. In the course of seeking Board acceptance, approval and adoption of this Agreement, counsel for the IC may communicate directly with the Board staff and the adjudicating members of the Board.

Respondent acknowledges that such contacts and communications may be made or conducted ex parte, without notice or opportunity to be heard on his part until the public Board meeting where this Agreement is discussed, and that such contacts and communications may include, but may not be limited to, matters concerning this Agreement, the Complaint and any and all information of every nature whatsoever related to this matter. The IC and its counsel agree that Respondent may appear at the Board meeting where this Agreement is discussed and, if requested, respond to any questions that may be addressed to the IC or the IC's counsel.

an order of the Board, and, pending full compliance with the terms herein, the case shall be closed.

**9. Effect of Rejection of Agreement by Board.** In the event the Board does not accept, approve and adopt this Agreement, this Agreement shall be null, void and of no force and effect except as to the following agreement regarding adjudications: (1) Respondent agrees that, notwithstanding rejection of this Agreement by the Board, nothing contained in this Agreement and nothing that occurs pursuant to efforts of the IC to seek the Board's acceptance of this Agreement shall disqualify any member of the adjudicating panel of the Board from considering this Complaint and from participating in disciplinary proceedings against Respondent, including adjudication of this case; and (2) Respondent further agrees that he shall not seek to disqualify any such member absent evidence of bad faith.

**10. Binding Effect.** If approved by the Board, Respondent understands that this Agreement is a binding and enforceable contract upon Respondent and the Board.

**11. Forum Selection Clause.** The parties agree that in the event either party is required to seek enforcement of this Agreement in district court, the parties consent to such jurisdiction and agree that exclusive jurisdiction shall be in the Second Judicial District Court, State of Nevada, Washoe County.

**12. Attorneys' Fees and Costs.** The parties agree that in the event an action is commenced in district court to enforce any provision of this Agreement, the prevailing party shall be entitled to recover reasonable attorneys' fees and costs.

3. Notably, two (2) of the conditions contained in the Settlement Agreement were for Respondent, Dr. Siems, to unequivocally complete twenty (20) hours of Continued Medical Education (CME) and to complete the Physician Assessment and Clinical Education Program (PACE) within one (1) year of the Board's acceptance, adoption, and approval of the Agreement. The Settlement Agreement was approved and adopted on December 3, 2021, requiring completion of the terms on or before December 3, 2022.

4. Pursuant to the Settlement Agreement and Order, Respondent agreed that his license was suspended, but that the suspension was immediately stayed, thereby subjecting his license to a sixty (60) month term of probation with conditions for continuing the stay of the suspension.

5. As of the writing of this Order on December 27, 2022, Board staff has received no notification that Respondent has enrolled in nor completed either his CMEs or the PACE Program as required by the Settlement Agreement and Order as a condition to continue the stay of the suspension of his license.

6. NRS 630.3065(2)(a) states in pertinent part that [e]xcept as otherwise provided in NRS 630.2672, knowingly or willfully failing to comply with: (a) [a] regulation, subpoena or order of the Board or a committee designated by the Board to investigate a complaint against a physician, constitutes grounds for initiating disciplinary action.

7. Based on the foregoing, the IC finds that Respondent, Jon L. Siems, M.D., has willfully and knowingly violated his Settlement Agreement and Board Order and is immediately suspended from the practice of medicine in the State of Nevada. *See* NRS 630.326(1).

**ORDER**

**IT IS HEREBY ORDERED** that the License of Jon L. Siems, M.D. (9250) is immediately **SUSPENDED** until further order of the IC or Board, and Respondent is prohibited from engaging in any acts that constitute the practice of medicine pursuant to NRS 630.020; and

On November 25, 2020, in Case No. 19-13009-2, the IC filed a First Amended Complaint (First Amended Complaint). Specifically, the Complaint alleges a violation of NRS 630.301(4), Count I, Malpractice, and a

4. Respondent was properly served with a copy of the Complaint and the First Amended Complaint, has reviewed and understands the Complaint and the First Amended Complaint, and has had the opportunity to consult with competent counsel concerning the nature and significance of the Complaint.

5. Respondent is hereby advised of his rights regarding this administrative matter, and of his opportunity to defend against the allegations in the Complaint. Specifically, Respondent has certain rights in this administrative matter as set out by the United States Constitution, the Nevada Constitution, the Medical Practice Act, the Nevada Open Meeting Law (OML), which is contained in NRS Chapter 241, and the Nevada Administrative Procedure Act (APA) applicable to certain regulatory bodies, which is contained in NRS Chapters 233B and 622A. 6. Respondent understands that, under the Board's charge to protect the public by regulating the practice of medicine, the Board may take disciplinary action against Respondent's license, including license probation, license suspension, license revocation and imposition of administrative fines, as well as any other reasonable requirement or limitation, if the Board concludes that Respondent violated one or more provisions of the Medical Practice Act.

7. Respondent understands and agrees that this Agreement, by and between Respondent and the IC, is not with the Board, and that the IC will present this Agreement to the Board for consideration in open session at a duly noticed and scheduled meeting. Respondent

understands that the IC shall advocate for the Board's approval of this Agreement, but that the Board has the right to decide in its own discretion whether or not to approve this Agreement. Respondent further understands and agrees that if the Board approves this Agreement, then the terms and conditions enumerated below shall be binding and enforceable upon him and the Board.

**B. Terms & Conditions**

**NOW, THEREFORE,** in order to resolve the matters addressed herein, i.e., the matters with regard to the Complaint, Respondent and the IC hereby agree to the following terms and conditions:

1. **Jurisdiction**. Respondent was, and at all times relevant to the Complaint, a physician licensed to practice medicine in Nevada subject to the jurisdiction of the Board as set forth in the Medical Practice Act.

2. **Representation by Counsel/Knowing, Willing and Intelligent Agreement**. Respondent acknowledges he is represented by counsel and wishes to resolve the matters addressed herein with said counsel. Respondent agrees that if representation by counsel in this matter materially changes prior to entering into this Agreement and for the duration of this Agreement, that counsel for the IC will be timely notified of the material change. Respondent agrees to settle and resolve the allegations of the Complaint as set out by this Agreement, without a hearing[2] or any further proceedings and without the right to judicial review.

4. **Acknowledgement of Reasonable Basis to Proceed**. Respondent acknowledges that the IC believes it has a reasonable basis to allege that Respondent engaged in conduct that is grounds for discipline pursuant to the Medical Practice Act. i. Count III shall be dismissed with prejudice, and this Agreement shall encompass the resolution of the formal disciplinary case currently before the Board.

6. **Release From Liability**. In execution of this Agreement, Respondent understands and agrees that the State of Nevada, the Board, and each of its members, staff, counsel, investigators, experts, peer reviewers, committees, panels, hearing officers, consultants and agents are immune from civil liability for any decision or action taken in good faith in response to information acquired by the Board. 7. **Procedure for Adoption of Agreement**. The IC and counsel for the IC shall recommend approval and adoption of the terms and conditions of this Agreement by the Board in resolution of this Complaint. Respondent acknowledges that such contacts and communications may be made or conducted ex parte, without notice or opportunity to be heard on his part until the public Board meeting where this Agreement is discussed, and that such contacts and communications may include, but may not be limited to, matters concerning this Agreement, the Complaint and any and all information of every nature whatsoever related to this matter. The IC and its counsel agree that Respondent may appear at the Board meeting where this Agreement is discussed and, if requested, respond to any questions that may be addressed to the IC or the IC's counsel.

10. **Binding Effect**. If approved by the Board, Respondent understands that this Agreement is a binding and enforceable contract upon Respondent and the Board.

11. **Forum Selection Clause**. Failure to comply with the terms of this Agreement, including failure to pay any fines, costs, expenses or fees owed to the Board, is a failure to comply with an order of the Board, which may result in additional disciplinary action being taken against Respondent. ## ORDER OF SUSPENSION AND NOTICE OF HEARING

The Investigative Committee[1] (IC) of the Nevada State Board of Medical Examiners (Board) hereby **IMMEDIATELY SUSPENDS** the license of Jon Lane Siems, M.D. (Respondent) from the practice of medicine, pursuant to the Board's authority to regulate the practice of medicine in the State of Nevada pursuant to Nevada Revised Statutes (NRS) Chapter 630.

The IC issues this Order of Suspension (Order) based on its determination that Respondent violated a Board Order when he did not satisfy all of the conditions contained in the discipline issued by the Board after adjudication at the Board meeting on December 1, 2023. *See* **Exhibit 1**.

Prior to the preparation of this Order, Board Staff presented to the IC the following:

1. Respondent is a medical doctor licensed to practice medicine in the State of Nevada (License No. 9250). The Board issued his license on December 20, 1999.

2. On December 27, 2022, in Case No. 19-13009-2, the IC suspended Respondent's license to practice medicine in the State of Nevada pending a show cause hearing regarding the subject of that summary suspension via an Order of Summary Suspension.

3. On January 30, 2023, the IC filed a formal Complaint against Respondent in Case No. 23-13009-1 which facts relate directly back to an Order issued in Case No. 19-13009-2.

4. On February 2, 2023, a show cause hearing was held regarding Respondent's suspension.

5. After attempts to serve Respondent with the formal Complaint on a previous date, Respondent was served with the formal Complaint in Case 23-13009-1 on March 3, 2023.

6. On April 13, 2023, a formal hearing was held in Case No. 23-13009-1.

7. On December 1, 2023, the Board adjudicated the matter and found that Respondent did indeed violate the single count of Knowing or Willful Failure to Comply with a Board Order, as provided by NRS 630.3065(2)(a), and imposed discipline.

8. The discipline the Board imposed was a written public reprimand, that Respondent's license be suspended for a period of one (1) year from December 28, 2022 to December 27, 2023, and on December 28, 2023, Respondent's license status shall be reinstated to an active-probation status; Respondent shall complete the University of San Diego Physician Assessment and Competency Evaluation Program (PACE), Competency Assessment, or substantially similar assessment by another entity approved by the Board within six (6) months of issuance of the Order; that any continuing medical education received for attending the program shall be in addition to the requirements that are regularly imposed upon Respondent as a condition of licensure in the State of Nevada pursuant to NAC 630.153(1); and Respondent was required to reimburse the Board the reasonable and necessary costs and expenses actually incurred in the investigation and prosecution of this case in the amount of seven thousand four hundred and ninety-nine dollars, and twenty cents ($7,499.20) within six (6) months of service of the Order.

9. Respondent received a deadline of June 1, 2024, to pay the fines and costs in Case No. 23-13009-1.

10. Johnna LaRue, CMBI, Compliance Officer for the Board sent Respondent a letter dated December 19, 2023, containing helpful instructions and deadlines to assist Respondent in complying with the Board Order. *See* **Exhibit 2**.

11. As of today's date, Respondent has not paid the costs in the amount of seven thousand four hundred and ninety-nine dollars, and twenty cents ($7,499.20) and is therefore in violation of the Board's Order.

12. NRS 630.3065(2)(a) states in pertinent part that [e]xcept as otherwise provided in NRS 630.2672, knowingly or willfully failing to comply with: (a) [a] regulation, subpoena or order of the Board or a committee designated by the Board to investigate a complaint against a physician, constitutes grounds for initiating disciplinary action.

13. Based on the foregoing, the IC finds that Respondent has willfully and knowingly violated the Board Order and is immediately suspended from the practice of medicine in the State of Nevada. *See* NRS 630.326(1).

**ORDER**

**IT IS HEREBY ORDERED** that the License of Jon Lane Siems, M.D. (9250) is immediately **SUSPENDED** until further order of the IC or Board, and Respondent is prohibited from engaging in any acts that constitute the practice of medicine pursuant to NRS 630.020; and

**IT IS FURTHER ORDERED** that a hearing on this matter is set for the **18th day of October, 2024, at 9:00 a.m.,** at the Board's office located at 9600 Gateway Drive, Reno, Nevada 89521, with video conferencing to the Las Vegas office at 325 E. Warm Springs Road, Suite 225, Las Vegas, Nevada 89119 to determine whether this suspension may continue, unless the parties mutually agree in writing to a different date and/or time to hold the hearing. *See* NRS 630.326(2).

The Board, after due consideration of the record, evidence, and law, and being fully advised in the premises, makes its FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER in this matter, as follows:

## FINDINGS OF FACT

### I.

Respondent held an Active-Probation license to practice medicine in the State of Nevada issued by the Board from December 3, 2021, until December 27, 2022. An Order for Summary Suspension of Respondent's license was filed on December 27, 2022, served on December 27, 2022, which immediately suspended Respondent's license until a show cause hearing could be held to determine if his medical license would be reinstated during the regular hearing process. On February 2, 2023, a show cause hearing was held at the office of the Nevada State Board of Medical Examiners and the Hearing Officer entered his order during the hearing that continued the suspension of Respondent's medical license throughout the hearing process.

### II.

On January 30, 2022, the Investigative Committee filed its formal Complaint in Case No. 23-13009-1, alleging Respondent violated the Medical Practice Act. Respondent was personally served with the Complaint by a USPS Certified mail on March 3, 2023. The Complaint alleges as follows: Count I, a violation of NRS 630.3065(2)(a) Knowing or Willful Failure to Comply with a Board Order.

Respondent did not answer or file a response to the allegations set forth in the Complaint. Pursuant to NAC 630.460(4), the allegations of the Complaint are deemed generally denied if an answer is not filed.

### III.

An Early Case Conference was held at the conclusion of the show cause hearing. Donald K. White, Senior Deputy General Counsel was present on behalf of the Investigative Committee (IC) of the Board, with Hearing Officer Charles Woodman, Esq., Respondent participated in the Early Case Conference and show cause hearing but was not represented by an attorney.

**III.**

With respect to the allegations of the Complaint, the Board concludes that Respondent has violated NRS 630.3065(2)(a) Knowing or Willful Failure to comply with a Board Order, as alleged in Count I. Accordingly, Respondent is subject to discipline pursuant to NRS 630.352.

**IV.**

The Board finds that, pursuant to NRS 622.400, recovery from Respondent of reasonable attorneys' fees and costs incurred by the Board as part of its investigation and disciplinary proceedings against Respondent is appropriate. The Board has reviewed the Investigative Committee's Memorandum of Costs and Disbursements and Attorneys' Fees, and the Board finds them to be the actual fees and costs incurred by the Board as part of its investigative, administrative and disciplinary proceedings against Respondent, and finds them to be reasonable,

| In the Matter of Charges and Complaint Against JON L. SIEMS, M.D., Respondent. | Case No.: 23-13009-1 (Case No.:19-13009-2) |

**SYNOPSIS AND ANALYSIS OF THE RECORD**

Hearing Officer Charles B. Woodman, having heard a formal pre-hearing conference, as well as the formal Hearing of this matter, hereby presents the Nevada State Board of Medical Examiners with his formal Analysis of this case. This Analysis is based upon all evidence adduced at the formal Hearing, this Hearing Officer's findings of facts and conclusions of law, which findings include the credibility of the witnesses who gave evidence.

**RELEVANT BACKGROUND**

This is a combined case as shown in the caption, whereby the Investigative Committee ("IC") of the Board of Medical Examiners of the State of Nevada ("Board") alleged that Dr. Jon Lane Siems, M.D., ("Dr. Siems") failed to comply with the Settlement Agreement he entered into as resolution to Board Case 19-13009-2. The final page of that Settlement Agreement contains the Board's order mandating compliance with the Agreement. A duly noticed formal hearing of the matter was held before the undersigned Hearing Officer on April 13, 2023 at the Northern Nevada office of the Board in Reno. Mr. Donald K. White, Esq., Senior Deputy General Counsel appeared on behalf of the Board's IC. Dr. Siems appeared via videoconference from the Board's Southern Nevada office representing himself in pro se. The matter was duly recorded by a licensed reporter and is a matter of public record.

The formal Complaint in Board Case 23-13009-1 alleges a single count of Knowing or Willful Failure to Comply with a Board Order, a violation of NRS 630.3065(2)(a), which states that:

> The following acts, among others, constitute grounds for initiating disciplinary action or denying licensure:
> * * *
> 2. Except as otherwise provided in NRS 630.2672, knowingly or willfully failing to comply with:
> (a) A regulation, subpoena or order of the Board or a committee designated by the Board to investigate a complaint against a physician;

More specifically, the IC alleges at paragraphs 8-9 of the Complaint that:

> 8. Respondent [Dr. Siems] knowingly or willfully failed to comply with an order of the Board when he failed to complete 20 hours of CMEs or the PACE Program by or within the deadline he agree to with the Board [in Case 19-13009-2].
> 9. Additionally, the Settlement Agreement [in Case 19-13009-2] that Respondent signed and was subsequently approved by the Board clearly states that Respondent agreed to be placed on stayed suspension and that if he violated any terms of the agreement that the IC shall be authorized to immediately suspend Respondent's license to practice medicine in Nevada pending an Order to Show Cause hearing.

Accordingly, the two cases are inextricably linked inasmuch as Dr. Siems' alleged violation of the Order at the final page of the Settlement Agreement entered into in Case 19-13009-2 makes up the entirety of the basis for Case 23-13009-1. Further, it appears that the Board may determine to take formal action in both such cases.

At commencement of the formal Hearing of this matter, Dr. Siems was again advised of his right to be represented by counsel, as this Hearing Officer has so advised him in prior proceedings. The Hearing proceeded with Dr. Siems electing to represent himself. See Transcript at page 5 ("T.5").

It is noted very significantly here that the Board has already determined that Dr. Siems "willfully and knowingly violated his Settlement Agreement" via the Board's Order of Suspension And Notice of Hearing filed December 27, 2022. That Order was issued summarily based on evidence proffered by the IC. A duly noticed formal Order to Show

Cause hearing to determine whether that summary suspension should continue was heard before the undersigned on February 2, 2023, with Dr. Siems in attendance, also representing himself at that time. After that hearing and in light of evidence provided by the IC and by Dr. Siems, this Hearing Officer confirmed the suspension pending further decisions by the Board and pending adjudication of the new complaint in Case 23-13009-1. The April 13 hearing was held to formally adjudicate Case 23-13009-1. At the hearing, the IC's burden was to prove by a preponderance of the evidence that Dr. Siems committed the violation alleged in the Complaint in Case 23-13009-1, i.e. that he knowingly or willingly failed to comply with the Board's order confirming his Settlement Agreement.

**THE EVIDENCE**

The evidence adduced at the April 13 hearing is summarized as follows (bold and italics are inserted by the Hearing Officer):

The IC's Deputy Chief of Investigations and Compliance Officer Johnna LaRue testified that:

Following the Board's approval of the Settlement Agreement entered into between Dr. Siems and the IC, Ms. LaRue mailed notice of the Board's decision to Dr. Siems' then counsel on December 14, 2021. T.15-17;

Ms. LaRue's letter, including a copy of the Settlement Agreement, disclosed the specific requirements with which Dr. Siems would have to comply to meet his obligations under the Settlement Agreement, and the fact that he would have one year from the date of the Board hearing to so comply, which would allow Dr. Siems until December 3, 2022 to meet all the conditions outlined in the Settlement Agreement, and required by the Board's Order thereon. T.18-20;

Receipt of Ms. LaRue's letter containing the Settlement Agreement and Board Order by Dr. Siems' then counsel[1] was confirmed via documentary evidence showing that it was received on December 18, 2021. T.21-22, 26, IC Exhibit 4;

---

[1] As noted, Dr. Siems was not represented by counsel at the formal Hearing in Case 19-13009-2. However, he retained counsel after the Hearing which culminated in execution of the Settlement Agreement.

Dr. Siems and his counsel both signed the Settlement Agreement. T.28;

Via a November 18, 2022 email to the IC's counsel Mr. White, Dr. Siems' counsel advised Mr. White that he was no longer representing Dr. Siems. T.29-30;

At no time did Dr. Siems' counsel or any other person ever contact Ms. LaRue or anyone else at the Board to request an extension of time for Dr. Siems to complete his requirements under the Settlement Agreement. T.31-33;

Extensions of time to comply with settlement agreement conditions are routinely given under reasonable circumstances. T.33-34;

Dr. Siems did not complete all his CMEs required by the Settlement Agreement within the mandated one-year period, nor did he complete the PACE program. T.34-35. Rather, the last required CMEs were completed within a few days following the February 2, 2023 hearing on the license suspension, (which would have been approximately two months late) . T.35;

Dr. Siems pressed Ms. LaRue on whether the Board should have required him (Dr. Siems) to complete the PACE program when he discovered that the program could not accommodate him. However, Ms. LaRue responded by saying that the Board would have amended the Settlement Agreement had Dr. Siems contacted the Board within the one-year period to advise that PACE could not accommodate him. T.38-43;

In response to Dr. Siems raising the issue of possibly not receiving a copy of the Settlement Agreement from his counsel, Ms. LaRue advised that she had worked a number of times in the past with the same attorney who represented Dr. Siems, and she has never had any issues with practitioners not receiving documents from that attorney. T.45-46;

Had the IC known at any time prior to expiration of his one-year timeline that the PACE program could not presently accommodate Dr. Siems, arrangements would have been made to take the matter back to the Board to alter the terms of the Settlement Agreement. T.47-48;

Dr. Siems recognized a copy of the Settlement Agreement and acknowledged that he signed it. T.51-52;

***Dr. Siems acknowledged that he knew his deadline for complying with the terms of the Settlement Agreement was December 3, 2022. T.54;***

***At some time during December, 2022, Dr. Siems had his manager Isabella call the IC to provide an update on his process of complying with the Settlement Agreement, but not to request an extension of time. T.55-56;***

***Dr. Siems confirmed that while he does not recall receiving the IC's letter via his counsel following the approval of the Settlement Agreement, that does not mean that he does not remember the "settlement demands." "That's not my claim. I was aware of what the settlement demands were." On questioning by Mr. White, Dr. Siems acknowledged he was aware of the settlement demands as of the date he signed the document, i.e. November 24, 2021. T.57;***

Email correspondence between Dr. Siems and the PACE program showed that Dr. Siems was not yet enrolled with PACE as of December 20, 2022, as his outstanding balance due for participation was $10,000.00. The balance due check was dated December 30, 2022, three days after service of the suspension order. T.61, 63-65, Respondent's Exhibits p.0003, 00095;

***The first time that Dr. Siems, or his office personnel, contacted the PACE program was October 31, 2022 (or approximately 33 days prior to the compliance deadline in the Settlement Agreement). T.63;***

***When asked directly if he complied with the terms of the Settlement Agreement, Dr. Siems answered "No." T.65;***

Dr. Siems was advised that he had the opportunity to present a defense case, but as the Board and its IC have the burden of proof, he (Dr. Siems) had no obligation to do so. Dr. Siems chose to provide a defense case. T.67-68;

Beginning at page 75 of the transcript, Dr. Siems provided a quite thorough history of some highly traumatic personal crises which began happening in his life in November, 2022, i.e. approximately one month or less before the December 3, 2022 deadline for complying with the Settlement Agreement. Those circumstances include a November 22, 2022 trip to Europe for approximately two weeks due to family medical emergencies,

ongoing emergent care of a young man that Dr. Siems refers to as his step-son upon return to the United States from Europe, and the necessity of a restraining order on December 23, 2022. The undersigned Hearing Officer declines to include details of those matters here to protect the privacy of Dr. Siems' and his family members. Suffice it to say that circumstances involving the mother of his children, and the young man whom Dr. Siems refers to as his step-son, were in crisis stage, which, according to sworn testimony, were physically and emotionally consuming. T.75-141;

Dr. Siems received a letter from the PACE program advising that the program could not accommodate Dr. Siems. That letter was dated April 6, 2023. T.82, Respondent's Exhibits p.0147;

Dr. Siems believes it is the Board's responsibility to determine whether or not the PACE program could accommodate him. Dr. Siems does not feel it is his responsibility to make that determination. T.84;

Dr. Siems testified that he waited four months, i.e. until the PACE program letter of April 6, 2023, to discover / confirm that PACE could not accommodate him. T.89;

Dr. Siems asked his witness Amel Youssef, O.D., if the trauma they jointly experienced because of her son's medical emergencies could distract a person "enough that mundane parts of life, perhaps, were ignored and made oblivious?" She testified in the affirmative. T.114-115;

## ANALYSIS

This Hearing Officer did not find any witness who testified at the hearing to have credibility issues. While the witnesses called by Dr. Siems could be argued to be self-serving, those witnesses presented as genuine and factual. This Hearing Officer takes their testimony, along with all of that elicited by the IC, at full face value.

Dr. Siems executed the Settlement Agreement on November 24, 2021. He soon thereafter learned that pursuant to an Order of the Board, he had until December 3, 2022, to complete the conditions of his resolution. He first contacted the PACE program on October 31, 2022, one month and three days before his deadline for full completion of all conditions. That deadline came and went without Dr. Siems handling his CME or PACE

obligations. On December 27, 2022, Dr. Siems' license was summarily suspended for his failure to comply with the conditions of the Settlement Agreement. A formal noticed hearing confirming the suspension was held February 2, 2023. It was after that hearing that Dr. Siems completed his CME requirements, which was more than two months out of compliance. Dr. Siems received a letter confirming that the PACE program could not accommodate him on or after April 6, 2023, just a week prior to the formal Hearing on the Complaint alleging his failure to comply. And while Dr. Siems had his office manager contact the IC with a status update on his compliance at some time in December, 2022, (most likely after his December 3 deadline), at no time – either before or after the deadline - did Dr. Siems or his staff ever request additional time to complete his requirements under the Settlement Agreement.

Dr. Siems offered what is genuinely a compassion-evoking explanation of a series of unfortunate and even tragic events in his life - not the results of his doing - and which no doubt required a great deal of his time and attention. The evidence is clear that he responded well to loved ones in need. His actions were indeed admirable.

Unfortunately, Dr. Siems' defense is measured against three harsh realities. First, as he readily acknowledged, Dr. Siems failed to comply with the terms of his Settlement Agreement and the Board's Order mandating such. Second, Dr. Siems made no contact with the PACE program till he was only thirty-three days away from his deadline. Third, Dr. Siems did not reach out to the IC until after his deadline passed, and even when he had his office manager call, it was to provide a status update and not to seek additional time to comply. Further, it is apparent from the record that the great majority of the challenges that occurred in Dr. Siems' personal life arose either just prior to his compliance deadline – and some even occurred thereafter (such as the necessity of obtaining a restraining order).

Dr. Siems also offers as part of his defense that it should have been the Board's responsibility to ensure that the PACE program could accommodate his area of specialty / expertise before including such in the Settlement Agreement. While not fully articulated in the record, it appears to the Hearing Officer that those involved in crafting the Settlement Agreement had ample cause to believe based on past experience that the PACE program

could serve a physician of Dr. Siems' specialty. It is also apparent from the record that Covid-19 had impacted the ability of the PACE program to accommodate some specialties. Accordingly, the Hearing Officer does not recognize a basis to leave upon the Board sole responsibility for the potential availability of the PACE program to function for Dr. Siems. As stated repeatedly by the IC's counsel Mr. White, had Dr. Siems not waited 333 days to initiate contact with PACE, this case could have been quite different. Ms. LaRue made sufficiently clear that timely notice of any deficiency in the ability of the PACE program to serve in this case would have allowed the Board to amend its requirements. Finally, there is the logical reality that the party on the hook, i.e. the one with his licensure at stake, ought to engage in sufficient due diligence to ensure he is doing all that is required to preserve his valuable practice. Dr. Siems offered no explanation as to why he did not reach out to PACE until October 31, 2022, or why he did not complete his CMEs from the time he signed the Settlement Agreement in November, 2021, until his personal challenges arose in late November 2022. Finally, it must be recognized that Dr. Siems' counsel – who was an extension of Dr. Siems, participated in the negotiating and crafting of the Settlement Agreement. And it was Dr. Siems who executed that Agreement. And accordingly, Dr. Siems shares responsibility for what that Agreement contains.

It is also significant that the statute at issue here is one of strict liability. While Dr. Siems argues that the statute does not prohibit consideration of extenuating circumstances, that does not obviate the plain language of the law that "knowingly or willfully failing to comply with . . . [an] order of the Board constitutes grounds for initiating disciplinary action. The Settlement Agreement became an Order of the Board when the Board approved it. The Order is the final page of the Agreement. Dr. Siems candidly admitted he knew that he did not comply with that Order. The knowing prong of the statute is thus satisfied. And while not a necessary finding or conclusion since either a knowing *or* willful violation will trigger the ramifications of the statute, it can reasonably be determined that Dr. Siems' failure to comply was willful considering the long delay before he took any action whatsoever. The Hearing Officer finds Dr. Siems' passive description of the Board's Order as a "mundane part of life" as a reflection of the amount of concern

he had for the Order, which is further reflected in the long delay before any action was taken whatsoever. In any event, the knowing violation is clear and convincing, thus exceeding the IC's burden of proving their case by a preponderance of the evidence.

## CONCLUSION

This Hearing Officer, while readily acknowledging the significant trying life events experienced by Dr. Siems and his family, must recommend that the Board find that Respondent Dr. Jon Lane Siems, M.D., violated the statute as alleged in the Complaint, in that he knowingly failed to comply with the terms of the Order contained within the Settlement Agreement. There is no doubt room for compassion for Dr. Siems in all he experienced in his personal life right around the compliance deadline. But those extenuating circumstances do not negate the knowing failure to meet his mandated obligations, especially when he took no action to inform the Board of those circumstances and/or to seek additional time to comply, or to have the requirements duly amended.

Respectfully submitted this 8th day of May, 2023.

Charles B. Woodman, Hearing Officer

Respondent Matthew Okeke, M.D. (Respondent), by and through counsel, Liborius Agwara, Esq., petitioned the Nevada State Board of Pharmacy (Board) to vacate its Findings of Fact, Conclusions of Law, and Order dated January 17, 2024 (Order). By issuance of the Order, the Board revoked Respondent's Certificate of Registration No. CS10935 after Respondent failed to appear for the scheduled hearing. Pursuant to NRS 622A.390, Respondent petitioned the Board to vacate the Order on the ground that Respondent was reasonably unaware of the hearing due to circumstances beyond his control. This matter came before the Nevada State Board of Pharmacy at its regularly scheduled meeting on Wednesday, January 17, 2024. Gregory L. Zunino, Senior General Counsel, prosecuted the case before the Board. Respondent Matthew Okeke, M.D., Certificate of Registration No. CS10935, failed to appear after being properly served notice of the time, date, and place of the hearing. Pursuant to NRS 622A.350(2) and NRS 638.244(2), the Board adopted, as its Findings of Fact and Conclusions of Law, the allegations, averments, and legal conclusions stated in the Notice of Intended Action and Accusation on file herein. Those allegations, averments, and legal conclusions are restated below with minor conforming changes, as appropriate, to reflect the Board's determination to impose professional discipline in this case.

## FINDINGS OF FACT

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent Matthew Okeke, M.D. (Respondent), because Respondent, at the time of the violations alleged herein, held a Nevada controlled substance registration, Certificate of Registration No. CS10935.

2. Respondent is a physician licensed by the Nevada State Board of Medical Examiners to practice psychiatry in Nevada. During the time periods discussed herein, Respondent was a "practitioner" as that term is defined at NRS 453.126.

3. Between February 28, 2017, and November 21, 2018, Respondent maintained a psychiatric practice in Las Vegas, Nevada. During that time frame, while engaged at various times in overseas travel, Respondent issued or caused to be issued at least one hundred twenty (120)

prescriptions for controlled substances. These included prescriptions for alprazolam, clonazepam, diazepam, lacosamide, pregabalin, lisdexamfetamine, and buprenorphine.

4. Respondent was located outside of the United States during the periods from: 1) February 26 to March 11, 2017; 2) September 27 to October 2, 2017; 3) June 30 to July 17, 2018; and 4) November 9 to November 23, 2018.

5. While engaged in overseas travel as stated above, Respondent employed the following methods of issuing prescriptions for controlled substances: 1) Respondent pre-signed certain of the prescriptions and supplied then to persons under his supervision or control for subsequent distribution to consumers; 2) Respondent authorized or directed one or more persons under his supervision or control to issue prescriptions to consumers by affixing Respondent's signature to those prescriptions via a rubber stamp imprinted with Respondent's signature; and 3) Respondent authorized or directed one or more persons under his supervision or control to telephonically issue prescriptions for consumers using Respondent's name and controlled substances registration number.

6. During the periods described herein, Respondent intentionally failed to maintain patient treatment charts and/or records from which a person could reasonably determine whether Respondent had a bona fide therapeutic relationship with the persons to whom prescriptions for controlled substances were issued under Respondent's name and controlled substances registration number.

7. Respondent caused, directed, or permitted one or more persons under his supervision or control to issue prescriptions for controlled substances even though such person(s) were not licensed or registered under state or federal law to prescribe controlled substances. Respondent knew or should have known that such person(s) was not licensed or registered under state or federal law to prescribe controlled substances.

8. On or about March 9, 2020, the Nevada State Board of Medical Examiners disciplined Respondent for malpractice and for failure to maintain proper medical records.

9. On or about September 7, 2022, Respondent entered a guilty plea pursuant to a plea agreement of committing the offense of intentional failure to maintain adequate records, a gross misdemeanor violation of NRS 422.510(1).

10. On or about September 7, 2022, Discovery Mind Center Ltd. (Discovery Mind Center), a Nevada limited-liability company, entered a guilty plea pursuant to a plea agreement of submitting false claims to defraud Medicaid, a felony violation of NRS 422.540; and of using the identifying information of an older person for unlawful purposes, a felony violation of NRS 205.463.

11. At the time of the offenses described in paragraph 10 above, Respondent owned, controlled, and/or managed Discovery Mind Center. Respondent entered guilty pleas on behalf of Discovery Mind Center.

12. On or about December 8, 2022, the Nevada State Board of Medical Examiners disciplined Respondent for failure to maintain proper medical records.

13. On or about January 17, 2023, Respondent and Discovery Mind Center were sentenced for the criminal offenses described in paragraph 10 above. Discovery Mind Center was ordered to pay $330,000 in restitution, and Respondent was sentenced to probation and ordered to pay $300,000 in costs and penalties.

14. On or about February 21, 2023, Matthew Okeke, M.D., Ltd., a Nevada limited-liability company, was convicted pursuant to a plea agreement of one count of submitting false claims: Medicaid fraud, a category D felony in violation of NRS 422.540(1)(a) and NRS 422.540(2)(a), and one count of obtaining and using personal identifying information of an older person for unlawful purposes, a category D felony in violation of NRS 205.463(1) and NRS 205.463(3)(a).

15. At the time of the offenses described in paragraph 14 above, Respondent owned, controlled, and/or managed Matthew Okeke, M.D., Ltd., a Nevada limited-liability company. Respondent entered guilty pleas on behalf of the company.

16. On or about February 21, 2023, Matthew Okeke, M.D., Ltd., a Nevada limited-liability company, was sentenced for the offenses described in paragraph 14 above. The company was ordered to pay a fine of $100,000.00, among other fees and assessments.

17. Respondent was charged individually with the offenses described in paragraphs 9, 10, and 14 above. As noted above, Respondent entered into plea agreements whereby he avoided individual convictions for all offenses except the gross misdemeanor offense described in paragraph 9 above.

18. On or about October 25, 2022, Respondent submitted to the Board his application to renew his certificate of registration to prescribe controlled substances. The application specifically directed Respondent to disclose any charges, arrests, or convictions. Respondent disclosed the conviction described in paragraph 9 above, referring to it as a "misdemeanor for record keeping," but he omitted to disclose the individual charges and/or arrests related to the more serious offenses described in paragraphs 10 and 14 above.

## CONCLUSIONS OF LAW

19. In Nevada, it is unlawful to dispense a controlled substance except as authorized by NRS Chapter 453. *See* NRS 453.321(1)(a). "Dispense" is defined to include the act of prescribing a controlled substance. *See* NRS 453.056.

20. Every practitioner who prescribes controlled substances in Nevada must secure and maintain a certificate of registration from the Board. NRS 453.226(1)(a); NRS 453.231(3). A practitioner who fails to secure and maintain such a registration is subject to criminal and/or civil penalties for prescribing controlled substances without a registration. *See* NRS 453.232; NRS 453.553; NRS 453.5531.

21. In addition to any criminal or civil penalties that may apply, the Board may revoke or suspend the existing registration of any practitioner who has been guilty of unprofessional conduct or conduct contrary to the public interest. *See* NRS 639.210(4).

22. A practitioner's conduct is deemed unprofessional and contrary to the public interest if the practitioner: 1) performs, without the required registration, any task or operation for which

registration is required; 2) performs his or her duties in an incompetent, unskillful, or negligent manner; 3) performs or engages in any fraudulent or deceitful transaction; or, 4) prescribes a drug as a prescribing practitioner to a patient with whom the prescribing practitioner does not have a bona fide therapeutic relationship. *See* NAC 639.945(1)(h)-(o).

23. Additionally, the Board may revoke or suspend the registration of any practitioner who has violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to controlled substances, *see* NRS 639.210(11), or who has violated any Nevada statute or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy, *see* NRS 639.210(12).

24. Further, the Board may revoke or suspend the registration of any practitioner who has been convicted of a crime involving moral turpitude, dishonesty or corruption. *See* NRS 639.210(7)(c).

25. Finally, the Board may revoke or suspend the registration of any practitioner who "[h]as willfully made to the Board or its authorized representative any false statement which is material to the administration or enforcement of any of the provisions of [NRS chapter 639]." *See* NRS 639.210(9).

26. In addition to or in lieu of revoking or suspending a practitioner's certificate of registration due to any violation described herein, the Board may impose an administrative fine upon such practitioner. The fine may not exceed $10,000 for each offense. *See* NRS 639.255(1)(f) and (3).

***COUNT ONE***

*Failure to Comply with Federal Registration Requirements*

27. Between February 28, 2017, and November 21, 2018, Respondent caused, directed, or assisted one or more persons under his supervision or control to prescribed controlled substances in Nevada without their having obtained a registration from the Drug Enforcement Division of the U.S. Department of Justice. This constitutes a violation of federal law relating to controlled substances. *See* 21 U.S.C. 822(a)(2); 21 C.F.R. § 1306.03(a)(1). It also constitutes a violation of NRS 639.210(11), an offense for which the Board may impose administrative discipline.

***COUNT TWO***

*Failure to Comply with State Registration Requirements*

28. Between February 28, 2017, and November 21, 2018, Respondent caused, directed, or assisted one or more persons under his supervision or control to prescribe controlled substances in Nevada without their having obtained a registration from the Board. This violates state law relating to controlled substances. *See* NRS 453.321(1); NRS 453.226. It also constitutes a violation of NRS 639.210(12), an offense for which the Board may impose administrative discipline.

***COUNT THREE***

*Participating in Deceitful Transactions*

29. Between February 28, 2017, and November 21, 2018, Respondent caused, directed, or assisted one or more persons under his supervision or control to prescribe controlled substances in Nevada.

30. Respondent engaged in the conduct described herein as part of a scheme to bill Medicaid for services that Respondent did not provide. In this regard, Respondent used prescriptions to falsely document patient visits that never occurred.

31. By causing prescriptions to be issued in the manner described herein, Respondent engaged in unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(h).

***COUNT FOUR***

*Issuing Pre-signed Prescriptions*

32. Between February 28, 2017, and November 21, 2018, Respondent caused, directed, or assisted one or more persons under his supervision or control to prescribe controlled substances in Nevada by supplying patients with written prescriptions that Respondent had signed or stamped in advance of his overseas travel.

33. By causing prescriptions to be issued in the manner described herein, Respondent violated NRS 639.2353 by issuing pre-signed prescriptions. This constitutes a violation of state law for which the Board may impose administrative discipline. *See* NRS 639.210(12). Through his conduct,

Respondent has potentially subjected other persons to administrative discipline. *See* NAC 639.295(15). (a physician assistant is subject to discipline for supplying patients with pre-signed prescriptions).

***COUNT FIVE***

*Issuing Prescriptions from Unauthorized Locations*

34. Between May 18, 2022, and January 22, 2023, while located outside the United States, Respondent caused prescriptions for controlled substances to be issued in his name and under his controlled substances registration number.

35. By engaging in the conduct described herein, Respondent prescribed controlled substances from locations other than his office and/or a location properly registered with the Board. This constitutes a violation of state law for which the Board may impose administrative discipline. *See* NRS 453.226; NRS 639.210(12); NAC 453.130(3).

***COUNT SIX***

*Performing Duties in an Incompetent, Unskillful, or Negligent Manner*

36. Respondent failed to maintain patient charts and records from which the Board and/or a member of the Board's staff could reasonably ascertain whether Respondent maintained bona fide therapeutic relationships with the persons to whom prescriptions for controlled substances were issued between May 18, 2022, and January 22, 2023. Pursuant to NRS 453.246 and NAC 639.945(1)(o), Respondent had a legal duty to maintain such records.

37. By failing to maintain records as required by NRS 453.246 and NAC 639.945(1)(o), Respondent violated state law relating to controlled substances and/or performed his duties in an incompetent, unskillful and/or negligent manner. This is a conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4) and (12); NAC 639.945(1)(i).

38. By subjecting persons under his supervision or control to potential disciplinary action, Respondent performed his duties in an incompetent, unskillful and/or negligent manner. This too is a conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(i).

***COUNT SEVEN***

*Conviction of Crime Involving Dishonesty*

39. As described herein, Respondent was convicted of a crime involving dishonesty. Respondent's conviction for intentional failure to maintain adequate records, a gross misdemeanor, was directly related to a fraudulent billing scheme involving the Discovery Mind Center and Matthew Okeke, M.D., Ltd., both limited-liability companies under the ownership and control of Respondent. The Board may impose administrative discipline based upon that conviction because the underlying offense involved dishonesty. *See* NRS 639.210(7)(c).

***COUNT EIGHT***

*Prescribing Controlled Substances Without a Bona Fide Patient Relationship*

40. Between February 28, 2017, and November 21, 2018, Respondent caused, directed, or assisted one or more persons under his supervision or control to prescribe controlled substances for persons whom Respondent identified as his patients. Respondent did not establish bona fide therapeutic relationship with one or more of these ostensible patients.

41. Respondent's conduct as described above constitutes unprofessional conduct for which the Board may impose administrative discipline. *See* NRS 639.210(4); NAC 639.945(1)(o).

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

## JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent Christopher Peters ("Respondent Peters") because the Board has issued to Respondent Peters a certificate of registration authorizing him to engage in the practice of pharmacy.

2. The Board has jurisdiction over Respondent Partell Specialty Pharmacy ("Respondent Partell") because the Board has licensed Respondent Partell to operate a pharmacy at 5835 South Eastern Avenue #101, in Las Vegas, Nevada.

## FACTUAL ALLEGATIONS

3. Respondent Partell dispenses nonsterile compounded drug products among other prescription drugs.

4. In 2023, Respondent Peters was a registered pharmacist employed by Respondent Partell at its pharmacy location on South Eastern Avenue in Las Vegas, Nevada.

5. In April 2023, Respondent Partell received a prescription for 0.1% retinoic acid cream, written by Nilofar Kuraishi, M.D., a Las Vegas physician.

6. Respondent Peters advised Dr. Kuraishi that the pharmacy was unable to lawfully compound the prescription as written because the 0.1% concentration of retinoic acid was commercially available.

7. After speaking with Respondent Peters, Dr. Kuraishi reissued the prescription for 0.11% retinoic acid cream. Dr. Kuraishi authorized one refill.

8. In April 2023, Respondent Partell filled and dispensed the prescription for 0.11% retinoic acid cream. However, in May 2023, the patient requested that the refill be transferred to the National Specialty Pharmacy, a licensed pharmacy located at 3022 West Post Road in Las Vegas, Nevada.

9. On May 12, 2023, Brian Ford, a registered pharmacist with the National Specialty Pharmacy, called Respondent Peters to tell him that the patient wished to transfer the prescription to the National Specialty Pharmacy. Respondent Peters refused to transfer the prescription, telling Pharmacist Ford to call Dr. Kuraishi to obtain the prescription.

10. Respondent Peters refused to transfer the prescription to the National Specialty Pharmacy based on his belief that Dr. Kuraishi had given Respondent Partell the exclusive right to compound 0.11% retinoic acid cream.

\\\

\\\

## APPLICABLE LAW

11. The Board may revoke or suspend the registration of any pharmacist who has been guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4); NRS 639.255.

12. The Board may revoke or suspend the registration of any pharmacist who has violated Nevada law relating to prescription drugs. NRS 639.210(12); NRS 639.255.

13. Aside from revoking or suspending a pharmacist's registration, the Board may impose fines and/or a public reprimand as a disciplinary measure. NRS 639.255; NAC 639.955.

14. A pharmacist's conduct is deemed unprofessional if the pharmacist uses secret formulas. NAC 639.945(1)(c).

15. At the request of a patient, a pharmacist must transfer a prescription to another registered pharmacist. NRS 639.2357(1). The Board has adopted regulations that set forth the procedures and methods that a pharmacy must follow when transferring a prescription. *See* NAC 639.713 to 639.7145.

16. A pharmacy is responsible for the acts and/or omissions of its pharmacists. NRS 639.230(5); NAC 639.707; NAC 639.945(3).

## COUNT ONE
### Unprofessional Conduct
### (Respondent Peters and Respondent Partell)

17. As alleged above, Respondent Peters refused to transfer a prescription at the request of a patient. Respondent Peters refused to transfer the prescription because he mistakenly believed that the prescribing practitioner, Dr. Kuraishi, had given his employer, Respondent Partell, the exclusive right to compound 0.11% retinoic acid cream.

18. By asserting the pharmacy's exclusive right to compound 0.11% retinoic acid cream, Respondent Peters attributed "secret formula" status to 0.11% retinoic acid cream.

19. Because it is unprofessional to use secret formulas, *see* NAC 639.945(1)(c), Respondent Peters engaged in unprofessional conduct when he refused to transfer Dr. Kuraishi's prescription for 0.11% retinoic acid cream. Therefore, Respondent Peters is subject to discipline pursuant to NRS 629.210(4) and NAC 639.945(1)(c).

20. As the owner/operator of the pharmacy at which Respondent Peters was employed, Respondent Partell is responsible for Respondent Peters' conduct as alleged above. Accordingly, the Board may discipline Respondent Partell pursuant to NRS 639.230(5) and NAC 639.945(3).

**COUNT TWO**
**Violation of NRS 639.2357(1)**
**(Respondent Peters and Respondent Partell)**

21. As alleged above, Respondent Peters refused to transfer a prescription at the request of a patient. By refusing to transfer the prescription, Respondent Peters violated NRS 639.2357(1).

22. Having violated NRS 639.2357(1), Respondent Peters is subject to discipline pursuant to NRS 639.210(12), NRS 639.255.

23. As the owner/operator of the pharmacy at which Respondent Peters was employed, Respondent Partell is responsible for Respondent Peters' conduct as alleged above. Accordingly, the Board may discipline Respondent Partell pursuant to NRS 639.230(5), NRS 639.255, NAC 639.945(3), and NAC 639.955.

\\\

\\\

\\\

\\\

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Peters and the pharmacy license of Respondent Partell.

DATED this 3rd day of February 2025.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

## JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent Christopher Peters ("Respondent Peters") because the Board has issued to Respondent Peters a certificate of registration authorizing him to engage in the practice of pharmacy.

2. The Board has jurisdiction over Respondent Partell Specialty Pharmacy ("Respondent Partell") because the Board has licensed Respondent Partell to operate a pharmacy at 5835 South Eastern Avenue #101, in Las Vegas, Nevada.

## FACTUAL ALLEGATIONS

3. Respondent Partell dispenses nonsterile compounded drug products among other prescription drugs.

4. In 2023, Respondent Peters was a registered pharmacist employed by Respondent Partell at its pharmacy location on South Eastern Avenue in Las Vegas, Nevada.

5. In April 2023, Respondent Partell received a prescription for 0.1% retinoic acid cream, written by Nilofar Kuraishi, M.D., a Las Vegas physician.

6. Respondent Peters advised Dr. Kuraishi that the pharmacy was unable to lawfully compound the prescription as written because the 0.1% concentration of retinoic acid was commercially available.

7. After speaking with Respondent Peters, Dr. Kuraishi reissued the prescription for 0.11% retinoic acid cream. Dr. Kuraishi authorized one refill.

8. In April 2023, Respondent Partell filled and dispensed the prescription for 0.11% retinoic acid cream. However, in May 2023, the patient requested that the refill be transferred to the National Specialty Pharmacy, a licensed pharmacy located at 3022 West Post Road in Las Vegas, Nevada.

9. On May 12, 2023, Brian Ford, a registered pharmacist with the National Specialty Pharmacy, called Respondent Peters to tell him that the patient wished to transfer the prescription to the National Specialty Pharmacy. Respondent Peters refused to transfer the prescription, telling Pharmacist Ford to call Dr. Kuraishi to obtain the prescription.

10. Respondent Peters refused to transfer the prescription to the National Specialty Pharmacy based on his belief that Dr. Kuraishi had given Respondent Partell the exclusive right to compound 0.11% retinoic acid cream.

\\\

## APPLICABLE LAW

11. The Board may revoke or suspend the registration of any pharmacist who has been guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4); NRS 639.255.

12. The Board may revoke or suspend the registration of any pharmacist who has violated Nevada law relating to prescription drugs. NRS 639.210(12); NRS 639.255.

13. Aside from revoking or suspending a pharmacist's registration, the Board may impose fines and/or a public reprimand as a disciplinary measure. NRS 639.255; NAC 639.955.

14. A pharmacist's conduct is deemed unprofessional if the pharmacist uses secret formulas. NAC 639.945(1)(c).

15. At the request of a patient, a pharmacist must transfer a prescription to another registered pharmacist. NRS 639.2357(1). The Board has adopted regulations that set forth the procedures and methods that a pharmacy must follow when transferring a prescription. *See* NAC 639.713 to 639.7145.

16. A pharmacy is responsible for the acts and/or omissions of its pharmacists. NRS 639.230(5); NAC 639.707; NAC 639.945(3).

## COUNT ONE
### Unprofessional Conduct
### (Respondent Peters and Respondent Partell)

17. As alleged above, Respondent Peters refused to transfer a prescription at the request of a patient. Respondent Peters refused to transfer the prescription because he mistakenly believed that the prescribing practitioner, Dr. Kuraishi, had given his employer, Respondent Partell, the exclusive right to compound 0.11% retinoic acid cream.

18. By asserting the pharmacy's exclusive right to compound 0.11% retinoic acid cream, Respondent Peters attributed "secret formula" status to 0.11% retinoic acid cream.

19. Because it is unprofessional to use secret formulas, *see* NAC 639.945(1)(c), Respondent Peters engaged in unprofessional conduct when he refused to transfer Dr. Kuraishi's prescription for 0.11% retinoic acid cream. Therefore, Respondent Peters is subject to discipline pursuant to NRS 629.210(4) and NAC 639.945(1)(c).

20. As the owner/operator of the pharmacy at which Respondent Peters was employed, Respondent Partell is responsible for Respondent Peters' conduct as alleged above. Accordingly, the Board may discipline Respondent Partell pursuant to NRS 639.230(5) and NAC 639.945(3).

**COUNT TWO**
**Violation of NRS 639.2357(1)**
**(Respondent Peters and Respondent Partell)**

21. As alleged above, Respondent Peters refused to transfer a prescription at the request of a patient. By refusing to transfer the prescription, Respondent Peters violated NRS 639.2357(1).

22. Having violated NRS 639.2357(1), Respondent Peters is subject to discipline pursuant to NRS 639.210(12), NRS 639.255.

23. As the owner/operator of the pharmacy at which Respondent Peters was employed, Respondent Partell is responsible for Respondent Peters' conduct as alleged above. Accordingly, the Board may discipline Respondent Partell pursuant to NRS 639.230(5), NRS 639.255, NAC 639.945(3), and NAC 639.955.

\\\

\\\

\\\

\\\

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Peters and the pharmacy license of Respondent Partell.

DATED this 3rd day of February 2025.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

## FACTUAL ALLEGATIONS

17. Respondents dispensed these bulk drug substances to patient T.S. in their solid state.

18. Respondents were not approved by the Board to perform sterile compounding.

19. Neither patient T.S. nor her practitioner were qualified or competent to perform sterile compounding.

20. Respondents dispensed bulk drug substances to patient T.S. when they knew or should have known that an injectable drug product or parenteral solution could not be safely administered to patient T.S. unless those bulk drug substances were compounded with other active pharmaceutical ingredients using sterile compounding methods and protocols.

2. The Board has personal jurisdiction over Respondent Jeffrey Lang, RPh, (Respondent Lang), because the Board has issued Respondent Lang a certificate of registration authorizing him to engage in the practice of pharmacy in Nevada.

3. The Board has jurisdiction over the subject matter of this accusation because the alleged violations involve the dispensing of poisons, drugs, chemicals and medicines and the regulation of the practice of pharmacy. NRS 639.070.

## FACTUAL ALLEGATIONS

4. On or about February 28, 2023, Respondent Pharmacy and Respondent Lang (Respondents) dispensed Nutlin to patient T.S. with directions to mix Nutlin with 2mL DMSO and

7. Biopeptek Pharmaceuticals was then registered with the Food and Drug Administration (FDA) as a manufacturer. *See* 21 U.S.C. § 360.

8. Registration with the FDA does not suggest or imply that Biopeptek's drug products are approved by the FDA for distribution in the United States. *See* 21 U.S.C. § 355 (concerning the approval of new drugs under new drug applications or abbreviated new drug applications).

16. Biopeptek Pharmaceuticals delivered Nutlin and/or Pooled Peptides to Respondents with labels and/or package inserts indicating that they were bulk drug substances or active pharmaceutical ingredients intended to be compounded and then administered intravenously, or by way of intramuscular injection.

17. Respondents dispensed these bulk drug substances to patient T.S. in their solid state.

18. Respondents were not approved by the Board to perform sterile compounding.

19. Neither patient T.S. nor her practitioner were qualified or competent to perform sterile compounding.

20. Respondents dispensed bulk drug substances to patient T.S. when they knew or should have known that an injectable drug product or parenteral solution could not be safely administered to patient T.S. unless those bulk drug substances were compounded with other active pharmaceutical ingredients using sterile compounding methods and protocols.

Respondents, Partell Specialty Pharmacy and Jeffrey Lang, RPH, by and through their counsel of record, Joseph S. Gilbert, Esq. of Joey Gilbert Law, assert that they have consistently met their professional obligations, including full cooperation with the NVBOP's inquiries, transparency regarding their relabeling practices, and adherence to applicable regulations. Respondents further state that during a 2023 visit by Joe Dodge and a male investigator from the NVBOP, they received no indication that their practices were non-compliant or improper. When asked if the pharmacy was compounding these items, Respondents explained the relabeling process, clarifying that the items were not compounded at Partell but were manufactured by the FDA-registered Biopeptek. Respondents' staff also proactively inquired whether there was any issue with this process or if relabeling should be discontinued. The investigator did not suggest any changes or raise any compliance concerns. Respondents remain fully committed to maintaining the highest standards of professional conduct and strict compliance with all relevant laws and regulations.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

## JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these respondents because at the time of the events alleged herein, Respondent Robert Seik (Seik), Certificate of Registration No. 13574, and Respondent David Whitehouse (Whitehouse), Certificate of Registration No. 13635, were pharmacists registered with the Board, and Respondent Partell Pharmacy (Partell Pharmacy), Pharmacy License No. PH02028, was a pharmacy licensed by the Board.

## FACTUAL ALLEGATIONS

2. Seik owns Partell Pharmacy and served as the managing pharmacist of Partell Pharmacy from August 21, 2023, to September 19, 2023, and from January 6, 2024, to present.

3. Whitehouse served as the managing pharmacist of Partell Pharmacy from September 20, 2023, to January 5, 2024.

4. Partell Pharmacy contracted with The Wellness Company (TWC), based in Boca Raton, Florida, to dispense various prescription drug products to TWC patients.

5. One product was an "Emergency Kit" including: 1) Amoxicillin-Clavulanate 875-125mg (28 tablets); 2) Azithromycin 250mg (12 tablets); 3) Bactrim DS 800mg-160mg (28 tablets); 4) Doxycycline Hyclate 100mg (60 capsules); 5) Fluconazole 150mg (2 tablets); 6) Ivermectin 18mg (7 capsules); 7) Metronidazole 500mg (30 tablets); and 8) Ondansetron 4mg (6 tablets).

8. When a practitioner associated with TWC prescribed either of the two kits, Partell Pharmacy staff used a mutually agreed upon "pharmacy script" template that specified the drugs to be included in each kit.

9. Partell Pharmacy dispensed at least 512 prescriptions issued for an "Emergency Kit" or "COVID Kit" under this scheme.

10. Partell Pharmacy regularly substituted Budesonide in the "COVID Kit" with a Medrol DosePak and Albuterol without consulting the prescribing practitioner, and continued billing TWC for the cost of Budesonide while substituting cheaper medications.

11. None of the counseling materials for each kit included any information on Medrol DosePaks or Albuterol. No further action was taken by Partell Pharmacy, Seik or Whitehouse to correct the counseling materials or provide any information regarding the substituted medications.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

## JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over Respondent Walgreens Pharmacy #7032 (Walgreens) because the Board has licensed Walgreens to operate a pharmacy at 2541 Hampton Road in Henderson, Nevada.

2. The Board has jurisdiction over Respondent Jennifer Englehaupt (RPH Englehaupt) because the Board has registered RPH Englehaupt to practice pharmacy in Nevada.

3. The Board has jurisdiction over Respondent Cathy Quach (RPH Quach) because the Board has registered RPH Quach to practice pharmacy in Nevada.

## FACTUAL ALLEGATIONS

4. Walgreens owns and operates a pharmacy at 2541 Hampton Road in Henderson, Nevada. Walgreens is the holder of Pharmacy License No. PH01747, originally issued by the Board in 2002.

5. RPH Englehaupt is the holder of Certificate of Registration No. 15287, originally issued by the Board in 2001.

6. RPH Quach is the holder of Certificate of Registration No. 16344, originally issued by the Board in 2004.

7. In 2023 and 2024, Walgreens employed RPH Englehaupt and RPH Quach at its pharmacy on Hampton Road in Henderson, Nevada.

8. In November 2023, Walgreens sold patient P.L. a prescription for amlodipine besylate, written by P.L.'s practitioner for 5mg tablets. The pharmacist on duty correctly filled the prescription according to the prescribing practitioner's instructions.

9. On or about January 31, 2024, patient P.L. returned to Walgreens to purchase a refill of the prescription for amlodipine besylate tablets. Pharmacy technician Daniel W. Walters, Jr. (PT Walters), mistakenly refilled the prescription with 10mg tablets instead of 5mg tablets.

10. PT Walters refilled patient P.L.'s prescription with tablets poured from a bottle containing 10mg tablets that had been returned to stock. PT Walters poured the tablets into an amber vial bearing a label indicating that the vial contained patient P.L.'s prescription for 5mg tablets.

11. On or about January 31, 2024, RPH Quach verified patient P.L.'s refilled prescription for amlodipine besylate tablets. RPH Quach failed to notice that the amber vial contained 10mg tablets instead of 5mg tablets as indicated on the label.

12. Having verified patient P.L.'s prescription, RPH Quach caused 10mg tablets to be dispensed to patient P.L. in contravention of the prescribing practitioner's instructions for patient P.L. to take 5mg tablets.

13. Having verified patient P.L.'s prescription, RPH Quach caused patient P.L.'s prescription for amlodipine besylate to be dispensed in a container with an incorrect label.

14. Patient P.L. purchased the tablets from Walgreens and took one tablet per day, as instructed by her prescribing practitioner, for 35 days until she discovered that the dose was too high.

15. With assistance from her practitioner, patient P.L. discovered that she had received an incorrect dose only after she had suffered from joint pain, fatigue, shortness of breath, hypertension, and pitting edema in both legs.

16. After receiving a complaint from patient P.L., Board Investigator Dena McClish investigated the incident as detailed above. During the investigation, Investigator McClish discovered that PT Walters had not signed the pharmacy logbook on January 31, 2024.

17. In an effort to reconcile the logbook discrepancy noted above, Investigator McClish requested payroll records for the pharmacy technicians who were on duty on January 31, 2024.

18. Walgreens' payroll records for January 31, 2024, revealed that seven technicians, including PT Walter and one technician in training, had worked at the pharmacy on that day.

19. The pharmacy logbook, by contrast, showed that only three pharmacy technicians had worked at the pharmacy on January 31, 2024. The other four technicians on duty on January 31, 2024, did not sign into the pharmacy logbook.

20. When questioned about the logbook discrepancy, PT Walters stated that he was unaware of any requirement to sign into the pharmacy logbook. On information and belief, other technicians were also unaware of any requirement to sign into the pharmacy logbook.

21. In January 2024, RPH Englehaupt was employed as Walgreens' managing pharmacist. As the managing pharmacist, RPH Englehaupt had a duty to maintain a written record showing the pharmacists, pharmaceutical technicians and pharmaceutical technicians in training on duty during the hours of business. *See* NRS 639.220; NAC 639.245.

## APPLICABLE LAW

22. The Board may discipline the holder of a license or registration issued by the Board if the holder engages in unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

23. A pharmacist's conduct is deemed unprofessional if the pharmacist fails to strictly follow the instructions of the person writing, making, or ordering a prescription as to its filling or refilling. NAC 639.945(1)(d). Additionally, a pharmacist's conduct is deemed unprofessional if the pharmacist performs his or her duties in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

24. "[E]ach pharmacy must be managed by a registered pharmacist, approved by the Board, who is responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy." NRS 639.220.

25. If a pharmaceutical technician performs one or more of the functions necessary to prepare a prescription, the pharmacist supervising the pharmaceutical technician is responsible for the filled prescription, including, but not limited to verifying the selection and strength of the drug, the dosage form, and the labeling of the prescription. NAC 639.252.

26. A managing pharmacist is responsible for training pharmaceutical technicians to ensure their continuing competence. NAC 639.254.

27. A pharmacy must maintain a written record showing the pharmacists, pharmaceutical technicians and pharmaceutical technicians in training on duty during the hours of business. NAC 639.245. The record must be readily retrievable and retained for 2 years. *Id.*

28. "The owner of a pharmacy, the managing pharmacist of the pharmacy and the registered pharmacist on duty at the pharmacy are responsible for the acts and omissions of pharmaceutical technicians and other personnel who are not pharmacists working in or for the pharmacy, including, but not limited to, any errors committed or unauthorized work performed by such personnel, if the owner, managing pharmacist or registered pharmacist knew or reasonably should have known of the act or omission." NAC 639.702.

29. The owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of its employees. NRS 639.230(5), NAC 639.702 and NAC 639.945(3).

## COUNT ONE
**Failure by Pharmacist to Follow Practitioner's Instructions**
**(RPH Quach and Walgreens)**

30. On or about January 31, 2024, as alleged above, RPH Quach verified patient P.L.'s refilled prescription for amlodipine besylate tablets. RPH Quach failed to notice that the amber vial contained 10mg tablets instead of 5mg tablets as indicated on the label.

31. As the pharmacist who verified patient P.L.'s refilled prescription for amlodipine besylate tablets, RPH Quach was responsible for the acts and/or omissions of PT Walters.

32. RPH Quach knew or should have known that PT Walters incorrectly prepared the refill with 10mg tablets instead of 5mg tablets.

33. RPH Quach caused the incorrect dose to be dispensed to patient P.L. in contravention of the prescribing practitioner's instructions.

34. RPH Quach caused patient P.L.'s prescription to be dispensed to patient P.L. in an incorrectly labeled container.

35. By causing the incorrect dose to be dispensed to patient P.L. in contravention of the prescribing practitioner's instructions, and/or by causing the prescription to be dispensed in an incorrectly labeled container, RPH Quach performed her duties in an incompetent, unskillful or negligent manner.

36. RPH Quach is subject to discipline for having engaged in unprofessional conduct as described above. NRS 639.210(4); NAC 639.945(1)(d) and (i).

37. As the owner/operator of the pharmacy at which RPH Quach was employed, Walgreens is liable for RPH Quach's conduct as described above. Accordingly, the Board may discipline Walgreens pursuant to NRS 639.230(5) and NAC 639.945(3).

## COUNT TWO
### Failure to Maintain Pharmacy Logbook
### (RPH Englehaupt and Walgreens)

38. Pursuant to NAC 639.245, Walgreens had a duty to maintain a written record showing the pharmacists, pharmaceutical technicians and pharmaceutical technicians in training on duty during the hours of business on January 31, 2024. Walgreens maintained a pharmacy logbook for this purpose.

39. Pursuant to NRS 639.220, RPH Englehaupt had a duty as Walgreens' managing pharmacist to ensure that the pharmacy logbook was accurate and complete.

40. In January 2024, as alleged above, RPH Englehaupt was the managing pharmacist responsible for training pharmaceutical technicians and pharmaceutical technicians in training regarding their duty to sign into the pharmacy logbook.

41. RPH Englehaupt knew or should have known that certain pharmaceutical technicians and/or pharmaceutical technicians in training were unaware of any requirement to sign into the pharmacy logbook.

42. By failing to properly train pharmacy personnel regarding their duty to sign into the pharmacy logbook, RPH Englehaupt performed her duties in an incompetent, unskillful or negligent manner.

43. By failing to ensure that the pharmacy logbook contained an accurate and complete record of the pharmaceutical technicians and pharmaceutical technicians in training on duty during the hours of business on January 31, 2024, RPH Englehaupt performed her duties in an incompetent, unskillful or negligent manner.

44. As the owner/operator of the pharmacy at which RPH Englehaupt was employed, Walgreens is liable for RPH Englehaupt's conduct as described above. Accordingly, the Board may discipline Walgreens pursuant to NRS 639.230(5) and NAC 639.945(3).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of Respondents Jennifer Englehaupt and Cathy Quach and the pharmacy license of Respondent Walgreens Pharmacy #7032.

39. Pursuant to NRS 639.220, RPH Englehaupt had a duty as Walgreens' managing pharmacist to ensure that the pharmacy logbook was accurate and complete.

40. In January 2024, as alleged above, RPH Englehaupt was the managing pharmacist responsible for training pharmaceutical technicians and pharmaceutical technicians in training regarding their duty to sign into the pharmacy logbook.

41. RPH Englehaupt knew or should have known that certain pharmaceutical technicians and/or pharmaceutical technicians in training were unaware of any requirement to sign into the pharmacy logbook.

42. By failing to properly train pharmacy personnel regarding their duty to sign into the pharmacy logbook, RPH Englehaupt performed her duties in an incompetent, unskillful or negligent manner.

43. By failing to ensure that the pharmacy logbook contained an accurate and complete record of the pharmaceutical technicians and pharmaceutical technicians in training on duty during the hours of business on January 31, 2024, RPH Englehaupt performed her duties in an incompetent, unskillful or negligent manner.

44. As the owner/operator of the pharmacy at which RPH Englehaupt was employed, Walgreens is liable for RPH Englehaupt's conduct as described above. Accordingly, the Board may discipline Walgreens pursuant to NRS 639.230(5) and NAC 639.945(3).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of Respondents Jennifer Englehaupt and Cathy Quach and the pharmacy license of Respondent Walgreens Pharmacy #7032.

DATED this 3rd day of FEBRUARY 2025.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

## JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over Respondent Walgreens Pharmacy #7032 (Walgreens) because the Board has licensed Walgreens to operate a pharmacy at 2541 Hampton Road in Henderson, Nevada.

2. The Board has jurisdiction over Respondent Jennifer Englehaupt (RPH Englehaupt) because the Board has registered RPH Englehaupt to practice pharmacy in Nevada.

3. The Board has jurisdiction over Respondent Cathy Quach (RPH Quach) because the Board has registered RPH Quach to practice pharmacy in Nevada.

## FACTUAL ALLEGATIONS

4. Walgreens owns and operates a pharmacy at 2541 Hampton Road in Henderson, Nevada. Walgreens is the holder of Pharmacy License No. PH01747, originally issued by the Board in 2002.

5. RPH Englehaupt is the holder of Certificate of Registration No. 15287, originally issued by the Board in 2001.

6. RPH Quach is the holder of Certificate of Registration No. 16344, originally issued by the Board in 2004.

7. In 2023 and 2024, Walgreens employed RPH Englehaupt and RPH Quach at its pharmacy on Hampton Road in Henderson, Nevada.

8. In November 2023, Walgreens sold patient P.L. a prescription for amlodipine besylate, written by P.L.'s practitioner for 5mg tablets. The pharmacist on duty correctly filled the prescription according to the prescribing practitioner's instructions.

9. On or about January 31, 2024, patient P.L. returned to Walgreens to purchase a refill of the prescription for amlodipine besylate tablets. Pharmacy technician Daniel W. Walters, Jr. (PT Walters), mistakenly refilled the prescription with 10mg tablets instead of 5mg tablets.

10. PT Walters refilled patient P.L.'s prescription with tablets poured from a bottle containing 10mg tablets that had been returned to stock. PT Walters poured the tablets into an amber vial bearing a label indicating that the vial contained patient P.L.'s prescription for 5mg tablets.

11. On or about January 31, 2024, RPH Quach verified patient P.L.'s refilled prescription for amlodipine besylate tablets. RPH Quach failed to notice that the amber vial contained 10mg tablets instead of 5mg tablets as indicated on the label.

12. Having verified patient P.L.'s prescription, RPH Quach caused 10mg tablets to be dispensed to patient P.L. in contravention of the prescribing practitioner's instructions for patient P.L. to take 5mg tablets.

13. Having verified patient P.L.'s prescription, RPH Quach caused patient P.L.'s prescription for amlodipine besylate to be dispensed in a container with an incorrect label.

14. Patient P.L. purchased the tablets from Walgreens and took one tablet per day, as instructed by her prescribing practitioner, for 35 days until she discovered that the dose was too high.

15. With assistance from her practitioner, patient P.L. discovered that she had received an incorrect dose only after she had suffered from joint pain, fatigue, shortness of breath, hypertension, and pitting edema in both legs.

16. After receiving a complaint from patient P.L., Board Investigator Dena McClish investigated the incident as detailed above. During the investigation, Investigator McClish discovered that PT Walters had not signed the pharmacy logbook on January 31, 2024.

17. In an effort to reconcile the logbook discrepancy noted above, Investigator McClish requested payroll records for the pharmacy technicians who were on duty on January 31, 2024.

18. Walgreens' payroll records for January 31, 2024, revealed that seven technicians, including PT Walter and one technician in training, had worked at the pharmacy on that day.

19. The pharmacy logbook, by contrast, showed that only three pharmacy technicians had worked at the pharmacy on January 31, 2024. The other four technicians on duty on January 31, 2024, did not sign into the pharmacy logbook.

20. When questioned about the logbook discrepancy, PT Walters stated that he was unaware of any requirement to sign into the pharmacy logbook. On information and belief, other technicians were also unaware of any requirement to sign into the pharmacy logbook.

21. In January 2024, RPH Englehaupt was employed as Walgreens' managing pharmacist. As the managing pharmacist, RPH Englehaupt had a duty to maintain a written record showing the pharmacists, pharmaceutical technicians and pharmaceutical technicians in training on duty during the hours of business. *See* NRS 639.220; NAC 639.245.

## APPLICABLE LAW

22. The Board may discipline the holder of a license or registration issued by the Board if the holder engages in unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

23. A pharmacist's conduct is deemed unprofessional if the pharmacist fails to strictly follow the instructions of the person writing, making, or ordering a prescription as to its filling or refilling. NAC 639.945(1)(d). Additionally, a pharmacist's conduct is deemed unprofessional if the pharmacist performs his or her duties in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

24. "[E]ach pharmacy must be managed by a registered pharmacist, approved by the Board, who is responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy." NRS 639.220.

25. If a pharmaceutical technician performs one or more of the functions necessary to prepare a prescription, the pharmacist supervising the pharmaceutical technician is responsible for the filled prescription, including, but not limited to verifying the selection and strength of the drug, the dosage form, and the labeling of the prescription. NAC 639.252.

26. A managing pharmacist is responsible for training pharmaceutical technicians to ensure their continuing competence. NAC 639.254.

27. A pharmacy must maintain a written record showing the pharmacists, pharmaceutical technicians and pharmaceutical technicians in training on duty during the hours of business. NAC 639.245. The record must be readily retrievable and retained for 2 years. *Id.*

28. "The owner of a pharmacy, the managing pharmacist of the pharmacy and the registered pharmacist on duty at the pharmacy are responsible for the acts and omissions of pharmaceutical technicians and other personnel who are not pharmacists working in or for the pharmacy, including, but not limited to, any errors committed or unauthorized work performed by such personnel, if the owner, managing pharmacist or registered pharmacist knew or reasonably should have known of the act or omission." NAC 639.702.

29. The owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of its employees. NRS 639.230(5), NAC 639.702 and NAC 639.945(3).

## COUNT ONE
### Failure by Pharmacist to Follow Practitioner's Instructions (RPH Quach and Walgreens)

30. On or about January 31, 2024, as alleged above, RPH Quach verified patient P.L.'s refilled prescription for amlodipine besylate tablets. RPH Quach failed to notice that the amber vial contained 10mg tablets instead of 5mg tablets as indicated on the label.

31. As the pharmacist who verified patient P.L.'s refilled prescription for amlodipine besylate tablets, RPH Quach was responsible for the acts and/or omissions of PT Walters.

32. RPH Quach knew or should have known that PT Walters incorrectly prepared the refill with 10mg tablets instead of 5mg tablets.

33. RPH Quach caused the incorrect dose to be dispensed to patient P.L. in contravention of the prescribing practitioner's instructions.

34. RPH Quach caused patient P.L.'s prescription to be dispensed to patient P.L. in an incorrectly labeled container.

35. By causing the incorrect dose to be dispensed to patient P.L. in contravention of the prescribing practitioner's instructions, and/or by causing the prescription to be dispensed in an incorrectly labeled container, RPH Quach performed her duties in an incompetent, unskillful or negligent manner.

36. RPH Quach is subject to discipline for having engaged in unprofessional conduct as described above. NRS 639.210(4); NAC 639.945(1)(d) and (i).

37. As the owner/operator of the pharmacy at which RPH Quach was employed, Walgreens is liable for RPH Quach's conduct as described above. Accordingly, the Board may discipline Walgreens pursuant to NRS 639.230(5) and NAC 639.945(3).

## COUNT TWO
### Failure to Maintain Pharmacy Logbook
### (RPH Englehaupt and Walgreens)

38. Pursuant to NAC 639.245, Walgreens had a duty to maintain a written record showing the pharmacists, pharmaceutical technicians and pharmaceutical technicians in training on duty during the hours of business on January 31, 2024. Walgreens maintained a pharmacy logbook for this purpose.

39. Pursuant to NRS 639.220, RPH Englehaupt had a duty as Walgreens' managing pharmacist to ensure that the pharmacy logbook was accurate and complete.

40. In January 2024, as alleged above, RPH Englehaupt was the managing pharmacist responsible for training pharmaceutical technicians and pharmaceutical technicians in training regarding their duty to sign into the pharmacy logbook.

41. RPH Englehaupt knew or should have known that certain pharmaceutical technicians and/or pharmaceutical technicians in training were unaware of any requirement to sign into the pharmacy logbook.

42. By failing to properly train pharmacy personnel regarding their duty to sign into the pharmacy logbook, RPH Englehaupt performed her duties in an incompetent, unskillful or negligent manner.

43. By failing to ensure that the pharmacy logbook contained an accurate and complete record of the pharmaceutical technicians and pharmaceutical technicians in training on duty during the hours of business on January 31, 2024, RPH Englehaupt performed her duties in an incompetent, unskillful or negligent manner.

44. As the owner/operator of the pharmacy at which RPH Englehaupt was employed, Walgreens is liable for RPH Englehaupt's conduct as described above. Accordingly, the Board may discipline Walgreens pursuant to NRS 639.230(5) and NAC 639.945(3).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of Respondents Jennifer Englehaupt and Cathy Quach and the pharmacy license of Respondent Walgreens Pharmacy #7032.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

## JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has personal jurisdiction over Respondent Walgreens #03845 ("Respondent Walgreens") because Respondent Walgreens is licensed by the Board to operate a pharmacy at 2280 North Las Vegas Boulevard in North Las Vegas, Nevada ("Walgreens Pharmacy").

2. The Board has personal jurisdiction over Respondent Michael Rhode ("Respondent Rhode") because Respondent Rhode is registered by the Board to work as a pharmaceutical technician trainee.

\\\

\\\

3. The Board has jurisdiction over the subject matter of this accusation because it alleges violations pertaining to the misuse of confidential information relating to dangerous drugs and controlled substances.

## FACTUAL ALLEGATIONS

4. At all times relevant to this accusation, Respondent Rhode was employed by Respondent Walgreens as a pharmaceutical technician trainee.

5. On or about May 20, 2024, patient L.G. picked up prescription medication from Walgreens Pharmacy.

6. Respondent Rhode conversed with patient L.G. as she picked up her prescription medication.

7. Respondent Walgreens maintains an IT system that contains comprehensive information regarding the dangerous drugs and controlled substances that it dispenses to its patients. Respondent Walgreens compiles this information using the prescriptions that are electronically transmitted to Respondent Walgreens by physicians and other prescribing practitioners.

8. As an employee of Respondent Walgreens, Respondent Rhode had access to the system described above, including access to patient L.G.'s prescription drug history and associated individually identifiable health information.

9. On or about May 20, 2024, Respondent Rhode accessed the system described above for the purpose of learning patient L.G.'s name, address, email address, telephone number, and/or other personal identifiers.

10. Respondent Rhode subsequently used the above information in an attempt to befriend patient L.G. on social media platforms. Respondent Rhode had done something similar on at least one prior occasion.

11. Patient L.G. did not consent to the use of her individually identifiable health information by Respondent Rhode in the manner described above.

## APPLICABLE LAW

12. The Board may revoke or suspend the registration of a registrant who has violated any provision of state or federal law relating to prescription drugs or controlled substances. NRS 639.210(12).

13. The Board may revoke or suspend the registration of a registrant who has engaged in unprofessional conduct. NRS 639.210(4).

14. "Unprofessional conduct" includes performing or in any way being a party to any fraudulent or deceitful practice or transaction. NAC 639.945(1)(h).

15. "Unprofessional conduct" includes performing one's duties as the holder of a license, certificate or registration issued by the Board in an incompetent, unskillful or negligent manner.

16. The owner of any business or facility licensed, certified or registered by the Board is responsible for the conduct of its employees. NAC 639.945(3).

17. Prescriptions filled and on file in a pharmacy are not a public record. NRS 639.238. Accordingly, pharmacy employees have a legal duty to safeguard and appropriately use the prescription drug information to which they have access.

18. Federal law, specifically the Health Insurance Portability and Accountability Act ("HIPAA") and implementing regulations, generally protects against the unauthorized use and/or disclosure of protected health information. See Pub. L. 104-191, title II, §§ 261, 264(a)–(b), 110 Stat. 1936, 2021, 2033 (1996). *See also* Standards for Privacy of Individually Identifiable Health Information, 65 Fed. Reg. 82,462 (Dec. 28, 2000) (codified at 45 C.F.R. § 164.500 *et seq.*).

19. Because the information described in paragraph 7 above contains personal identifiers that correlate with the prescription drug histories of individual patients, those personal identifiers qualify as "individually identifiable health information" within the meaning of 45 C.F.R. § 160.103. For this reason, a person's prescription drug history as a whole qualifies as "protected health information" within the meaning of 45 C.F.R. § 160.103.

20. As an employee with access to protected health information, Respondent Rhode was a "business associate" of Respondent Walgreens within the meaning of 45 C.F.R. § 160.103.

21. Under federal law, it is unlawful for a business associate to access and use individually identifiable health information for purposes wholly unrelated to health care. *See* 45 C.F.R. § 164.500 *et seq.*

**COUNT ONE**
**Violation of Federal Law—Unlawful Use of Protected Health Information**
**(Respondents Rhode and Walgreens)**

22. On or about May 20, 2024, Respondent Rhode accessed patient L.G.'s protected health information for the purpose of learning personal information about patient L.G.

23. Respondent Rhode thereafter used patient L.G.'s individually identifiable health information in an attempt to befriend patient L.G. on social media platforms.

24. Respondent Rhode's conduct as described above violated federal law, specifically 45 C.F.R. §§ 164.500 and 164.502, because it was wholly unrelated to patient L.G.'s health care.

25. For the violations of federal law as alleged above, Respondent Rhode may be disciplined by the Board pursuant to NRS 639.210(12).

26. As Respondent Rhode's employer at the time of the violation, Respondent Walgreens may be disciplined by the Board pursuant to NAC 639.945(3).

## COUNT TWO
**Unprofessional Conduct (Respondents Rhode and Walgreens)**

27. On or about May 20, 2024, Respondent Rhode accessed patient L.G.'s protected health information for the purpose of learning personal information about patient L.G.

28. Respondent Rhode thereafter used patient L.G.'s individually identifiable health information in an attempt to befriend patient L.G. on social media platforms.

29. Pursuant to NRS 639.238, Respondent Rhode had a legal duty to appropriately safeguard patient L.G.'s individually identifiable health information and/or to refrain from using the information for purposes wholly unrelated to health care.

30. Respondent Rhode's conduct as alleged above was deceitful because it was done without the consent of patient L.G. and for purposes wholly unrelated to patient L.G.'s health care.

31. Respondent Rhode's conduct as alleged above was incompetent because it compromised protected health information and undermined patient L.G.'s trust in her health care provider.

32. For the unprofessional conduct as alleged above, Respondent Rhode may be disciplined by the Board pursuant to NRS 639.210(4).

33. As Respondent Rhode's employer at the time of the unprofessional conduct alleged above, Respondent Walgreens may be disciplined by the Board pursuant to NAC 639.945(3).

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

## JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has personal jurisdiction over Respondent Walgreens #03845 ("Respondent Walgreens") because Respondent Walgreens is licensed by the Board to operate a pharmacy at 2280 North Las Vegas Boulevard in North Las Vegas, Nevada ("Walgreens Pharmacy").

2. The Board has personal jurisdiction over Respondent Michael Rhode ("Respondent Rhode") because Respondent Rhode is registered by the Board to work as a pharmaceutical technician trainee.

\\\

\\\

3. The Board has jurisdiction over the subject matter of this accusation because it alleges violations pertaining to the misuse of confidential information relating to dangerous drugs and controlled substances.

## FACTUAL ALLEGATIONS

4. At all times relevant to this accusation, Respondent Rhode was employed by Respondent Walgreens as a pharmaceutical technician trainee.

5. On or about May 20, 2024, patient L.G. picked up prescription medication from Walgreens Pharmacy.

6. Respondent Rhode conversed with patient L.G. as she picked up her prescription medication.

7. Respondent Walgreens maintains an IT system that contains comprehensive information regarding the dangerous drugs and controlled substances that it dispenses to its patients. Respondent Walgreens compiles this information using the prescriptions that are electronically transmitted to Respondent Walgreens by physicians and other prescribing practitioners.

8. As an employee of Respondent Walgreens, Respondent Rhode had access to the system described above, including access to patient L.G.'s prescription drug history and associated individually identifiable health information.

9. On or about May 20, 2024, Respondent Rhode accessed the system described above for the purpose of learning patient L.G.'s name, address, email address, telephone number, and/or other personal identifiers.

10. Respondent Rhode subsequently used the above information in an attempt to befriend patient L.G. on social media platforms. Respondent Rhode had done something similar on at least one prior occasion.

11. Patient L.G. did not consent to the use of her individually identifiable health information by Respondent Rhode in the manner described above.

## APPLICABLE LAW

12. The Board may revoke or suspend the registration of a registrant who has violated any provision of state or federal law relating to prescription drugs or controlled substances. NRS 639.210(12).

13. The Board may revoke or suspend the registration of a registrant who has engaged in unprofessional conduct. NRS 639.210(4).

14. "Unprofessional conduct" includes performing or in any way being a party to any fraudulent or deceitful practice or transaction. NAC 639.945(1)(h).

15. "Unprofessional conduct" includes performing one's duties as the holder of a license, certificate or registration issued by the Board in an incompetent, unskillful or negligent manner.

16. The owner of any business or facility licensed, certified or registered by the Board is responsible for the conduct of its employees. NAC 639.945(3).

17. Prescriptions filled and on file in a pharmacy are not a public record. NRS 639.238. Accordingly, pharmacy employees have a legal duty to safeguard and appropriately use the prescription drug information to which they have access.

18. Federal law, specifically the Health Insurance Portability and Accountability Act ("HIPAA") and implementing regulations, generally protects against the unauthorized use and/or disclosure of protected health information. See Pub. L. 104-191, title II, §§ 261, 264(a)–(b), 110 Stat. 1936, 2021, 2033 (1996). *See also* Standards for Privacy of Individually Identifiable Health Information, 65 Fed. Reg. 82,462 (Dec. 28, 2000) (codified at 45 C.F.R. § 164.500 *et seq.*).

19. Because the information described in paragraph 7 above contains personal identifiers that correlate with the prescription drug histories of individual patients, those personal identifiers qualify as "individually identifiable health information" within the meaning of 45 C.F.R. § 160.103. For this reason, a person's prescription drug history as a whole qualifies as "protected health information" within the meaning of 45 C.F.R. § 160.103.

20. As an employee with access to protected health information, Respondent Rhode was a "business associate" of Respondent Walgreens within the meaning of 45 C.F.R. § 160.103.

21. Under federal law, it is unlawful for a business associate to access and use individually identifiable health information for purposes wholly unrelated to health care. *See* 45 C.F.R. § 164.500 *et seq.*

**COUNT ONE**
**Violation of Federal Law—Unlawful Use of Protected Health Information**
**(Respondents Rhode and Walgreens)**

22. On or about May 20, 2024, Respondent Rhode accessed patient L.G.'s protected health information for the purpose of learning personal information about patient L.G.

23. Respondent Rhode thereafter used patient L.G.'s individually identifiable health information in an attempt to befriend patient L.G. on social media platforms.

24. Respondent Rhode's conduct as described above violated federal law, specifically 45 C.F.R. §§ 164.500 and 164.502, because it was wholly unrelated to patient L.G.'s health care.

25. For the violations of federal law as alleged above, Respondent Rhode may be disciplined by the Board pursuant to NRS 639.210(12).

26. As Respondent Rhode's employer at the time of the violation, Respondent Walgreens may be disciplined by the Board pursuant to NAC 639.945(3).

## COUNT TWO
**Unprofessional Conduct (Respondents Rhode and Walgreens)**

27. On or about May 20, 2024, Respondent Rhode accessed patient L.G.'s protected health information for the purpose of learning personal information about patient L.G.

28. Respondent Rhode thereafter used patient L.G.'s individually identifiable health information in an attempt to befriend patient L.G. on social media platforms.

29. Pursuant to NRS 639.238, Respondent Rhode had a legal duty to appropriately safeguard patient L.G.'s individually identifiable health information and/or to refrain from using the information for purposes wholly unrelated to health care.

30. Respondent Rhode's conduct as alleged above was deceitful because it was done without the consent of patient L.G. and for purposes wholly unrelated to patient L.G.'s health care.

31. Respondent Rhode's conduct as alleged above was incompetent because it compromised protected health information and undermined patient L.G.'s trust in her health care provider.

32. For the unprofessional conduct as alleged above, Respondent Rhode may be disciplined by the Board pursuant to NRS 639.210(4).

33. As Respondent Rhode's employer at the time of the unprofessional conduct alleged above, Respondent Walgreens may be disciplined by the Board pursuant to NAC 639.945(3).

\\\

\\\

WHEREFORE it is requested that the Nevada State Board of Pharmacy impose appropriate discipline with respect to Respondent Rhode's Certificate of Registration No. PT28786 and Respondent Walgreen's License No. PH01064.

DATED this 17th day of January 2025.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

## JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over Respondent Orthopedic Motion, Inc., (Respondent), because the Board has licensed Respondent to conduct business as a medical products provider.

## FACTUAL ALLEGATIONS

2. At the time of the events described below, Respondent held license numbers MP00026 and MP00772. These licenses authorized Respondent to sell medical devices at retail. Respondent conducted business from locations at 653 Town Center Drive #507, in Las Vegas, Nevada, and 3233 W. Charleston Boulevard #111, in Las Vegas, Nevada.

3. Respondent is owned in whole or in part by Brittany Stryker (Stryker). Stryker claims to have expertise in fitting cranial helmets for infants. Cranial helmets are prescription medical devices used to treat pediatric skull deformities.

4. In addition to fitting cranial helmets, Respondent represented to its prospective customers that it was competent to fit patients with prescription-only ankle braces and stabilizers.

5. In 2023 and/or 2024, Respondent entered into sales contracts for the benefit of at least four infant patients (Patients A through D) whose parents paid for cranial helmets that Respondent never delivered to them per the terms of those sales contracts.

6. In November 2022, Respondent entered into a sales contract with an adult patient (Patient E) who paid for an Arizona Brace that Respondent never delivered as required by the terms of that sales contract.

7. In November 2023, Respondent entered into a sales contract for the benefit of an infant patient (Patient F). At that time, Patient F's mother made a deposit or payment toward the purchase of a cranial helmet for Patient F.

8. In January 2024, Patient F received the cranial helmet that her mother had ordered from Respondent; however, Respondent failed to provide the refund that it owed to Patient F's mother after having been reimbursed by Patient F's insurer.

9. In June 2024, Respondent entered into a sales contract for the benefit of an infant patient (Patient G) whose mother paid for and received a cranial helmet that was not custom fitted as required by the applicable standard of care. On information and belief, Respondent provided Patient G with a sample or display helmet that was used for marketing purposes.

10. When Patient G's mother complained about the poor quality of the cranial helmet, Stryker carved on it with a knife and/or made improvised modifications that did not correct or remediate the deficiencies.

11. When Patient G's mother continued to complain about the poor quality of the cranial helmet, Stryker told Patient G's mother to rub Vaseline on her infant's head.

12. According to Patient G's mother, the cranial helmet caused Patient G significant pain and/or discomfort even after Patient G's mother rubbed Vaseline on her infant's head.

13. Patient G's mother showed the cranial helmet to a pediatric specialist who advised Patient G's mother that it was essentially useless.

14. In late 2024, Patient G attempted to obtain a refund from Respondent but was unable to speak with a company representative because Respondent had closed its retail locations, and Respondent had stopped answering its phones and/or responding to written correspondence.

15. Respondent never provided Patient G with a medically adequate cranial helmet.

16. Respondent did not renew license numbers MP00026 and MP00772 when they came due for renewal on October 31, 2024.

17. On information and belief, Respondent billed Medicaid and/or other insurers, and/or collected reimbursements from Medicaid and/or other insurers for medical products that Respondent never delivered to Patients A through E.

18. On information and belief, Respondent collected payments or deposits from each of Patients A through G.

19. On information and belief, Respondent retained the reimbursements, deposits, and/or payments described above despite having failed to deliver medical products to Patients A through E.

20. On information and belief, Respondent retained the reimbursements, deposits, and/or payments described above despite having received more than what was owed to Respondent under the terms of its sales contract with Patient F's mother.

21. On information and belief, Respondent retained the reimbursements, deposits, and/or payments described above despite having failed to provide Patient G with a medically adequate cranial helmet.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

## JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has personal jurisdiction over Respondent Erin Calderon ("Respondent") because Respondent is registered by the Board to work as a pharmaceutical technician. Respondent holds Certificate of Registration No. PT18610.

2. The Board has jurisdiction over the subject matter of this accusation because it alleges violations pertaining to the unlawful acquisition and possession of controlled substances.

## FACTUAL ALLEGATIONS

3. Between May and September 2024, Respondent was employed by CVS Health as a pharmaceutical technician. Respondent worked at the pharmacy designated by the Board as CVS #8803, located at 3975 North Nellis Boulevard in Las Vegas, Nevada. As a pharmaceutical technician, Respondent had access to controlled substances.

4. During Respondent's tenure at CVS #8803, CVS management became aware of a shortage of tramadol and buprenorphine, both controlled substances. An internal investigation revealed that Respondent had likely diverted tramadol and buprenorphine from CVS #8803. It was determined that the diversion occurred between May and August 2024.

5. When the Respondent was questioned about the tramadol and/or buprenorphine that went missing from CVS #8803, Respondent admitted that she had taken the controlled substances in question. Respondent acknowledged that she had taken 200 to 300 tramadol tablets and 2 to 3 buprenorphine tablets.

6. Respondent stated that between May and August 2024, she regularly ingested tramadol to manage her severe back pain. Respondent explained that she had a history of abusing narcotics and thus took tramadol and buprenorphine in an attempt to reduce her dependency upon narcotic pain killers.

7. Respondent took tramadol and/or buprenorphine from her place of employment, CVS #8803, without the knowledge or consent of her employer.

8. Respondent took tramadol and/or buprenorphine from her place of employment, CVS #8803, without a prescription.

9. Respondent took tramadol and/or buprenorphine from her place of employment, CVS #8803, in a manner that was intended to avoid detection.

10. In September 2024, CVS Health terminated Respondent's employment for the conduct described above. Although Respondent is not currently working in a pharmacy, she has stated that she would like to return to work as a pharmacy technician once she resolves the instant matter with the Board.

**Witness Statement**

On 08/13/2024, I District Asset Protection Leader (DAPL) Malo Taumua sat in as a witness as Divisional Diversion Manager (DDM) Jeanie Weaver interviewed Pharmacy Colleague Erin Calderon. DDM Weaver went over her role as a DDM for CVS. Jeanie started to speak with Erin about different ways shrink can happen in the pharmacy and how she investigates those types of losses. Jeanie then spoke with Erin about the current investigation that has been going on in the pharmacy.

DDM Weaver then asked Erin, "When was the first time you caused a loss in the pharmacy, was it a year ago?" Erin then responded that she has not been doing it for that long, and that it started in May of 2024. Erin said that between May and August 2024, she has stolen approximately 300 pills from the pharmacy of 8803, to include 3 tablets of Suboxone. DDM Weaver thanked her for her honesty. DDM Weaver then asked Erin why she has been stealing pills from the pharmacy. Erin explains that she has been dealing with withdrawals and having back problems made her take the Suboxone and Tramadol. Erin also explained that she made these horrible decisions due to all the personal challenges she had in her life, including losing her significant other, the day she started with CVS 9 years ago. DDM Weaver offered her condolences and offered Erin EAP.

Both DDM Weaver and Erin displayed respect and professionalism throughout the conversation. DDM Weaver provided a card with the number for EAP to Erin.

At the end of the interview, I DAPL Taumua spoke with DL Matthew Forster about the outcome of the interview. After reviewing the outcome of the interview, DL Matt Forster made the decision to suspend colleague Erin Calderon pending the outcome of the investigation. I DAPL Taumua reached out to the Las Vegas Metropolitan Department to press charges, but due to the unavailable patrol in the area, DDM Weaver released Erin into her own custody without incident.

DDM Weaver and I reached out to Las Vegas Metropolitan PD once again and the non-emergency hotline operator instructed us to reach out to the Narcotics division to report the losses in the pharmacy.

Hello Ms. McClish,

What CVS said is true. When confronted about it I told the truth. It was because I was in a lot of pain, though that's no excuse for my actions. I had been on narcotic pain medication for years and I hated it. I have been wanting and needing help for a long time and stayed silent thinking I could do it on my own, but fear of the whole stigma around those types of medication had me thinking I was alone in my struggle. I was able to get off the narcotic medication on my own, however I opted to take something that wasn't as dangerous. So due to things getting mixed up with a referral at my pain management doctor, my body going through withdrawals, and the normal back pain I have, I made the horrible decision to do what I did. Like I said, it's not an excuse, but that's where my head was at during everything. Since then though I'm in therapy, and have a counselor I speak to weekly dealing specifically with addiction and substance abuse. I would love to be able to keep my license because I love being a tech. I'm taking the necessary steps in order for me to become healthier and to better handle and identify certain issues when they arise. I am extremely sorry for my actions, I know it was a huge break in trust. Even if I don't get my license back I'm still going forward with the program because I need to be around for my kids.

I sincerely hope you have a good night and God bless.

## JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because at the time of the events alleged herein, Respondent Safe Chain Solutions, LLC, Nevada Wholesaler License No. WH02131, located in Cambridge, MD, was a wholesaler licensed by the Board.

## FACTUAL ALLEGATIONS

2. In March and April 2021, Respondent sold and/or distributed counterfeit drugs purportedly manufactured by Gilead Sciences, Inc. Respondent Safe Chain Solutions, LLC, by and through its counsel William J. Stilling, of and for Stilling & Harrison, PLLC, files this Amended Answer and Notice of Defense.

## REQUEST FOR HEARING

Respondent requests a hearing on the Notice.

## RESPONSES TO ALLEGATIONS AND CAUSES OF ACTION

In answer to the Notice of Intended Action and Accusation, Respondent admits, denies, and alleges as follows. Each reference to a "paragraph" is reference to a paragraph in the Notice.

## JURISDICTION

1. Respondent admits the allegations in paragraph 1. Safe Chain is a wholesale pharmaceutical distributor established in 2011 with its headquarters in Cambridge, MD. Safe

Chain provides a wide range of pharmaceuticals and health care products to a diverse network of healthcare facilities nationwide including hospitals, clinics, and surgical centers.

## FACTUAL ALLEGATIONS

2. Respondent denies the allegations in paragraph 2.

3. Respondent denies the allegations in paragraph 3. Respondent has never falsified any documents and more specifically has never falsified any documents for products shipped into Nevada.

4. Respondent admits that the FDA issued a warning letter on June 8, 2023, and that the document speaks for itself. Respondent does not admit to observations and statements in the warning letter. A warning letter is not a final action and the assertions in a warning letter are not legally binding conclusions. On June 23, 2023, Safe Chain filed a response to the FDA Warning Letter providing an explanation for each of the observations. Fifteen months later, from September 9 through 11, 2024, the FDA inspected Safe Chain's Maryland facility with a focus on Safe Chain's compliance with the observations raised in the Warning Letter and particularly with verification of trading partners and procedures related to identification of suspect or illegitimate products. At the end of the inspection, the FDA did not communicate any observations of violations to Safe Chain personnel and did not issue an FDA 483 Form.[1] In a conversation between Safe Chain and FDA personnel, FDA personnel explained that it would be issuing a close-out letter. A close-out letter may issue when, based on FDA's evaluation, a company has taken corrective action to address the observations or alleged violations contained in a warning letter.

---

[1] An FDA Form 483 is issued to firm management at the conclusion of an inspection when an investigator(s) has observed any conditions that in their judgment may constitute violations of the Food Drug and Cosmetic (FD&C) Act and related Acts. *See* FDA Form 483 Frequently Asked Questions at https://www.fda.gov/inspections-compliance-enforcement-and-criminal-investigations/inspection-references/fda-form-483-frequently-asked-questions.

5. Without admitting to the statements in the September 30, 2024, Cease & Desist letter, Respondent admits the allegations in paragraph 5. Respondent had previously ceased shipping all Gilead Sciences, Inc. ("Gilead") products as of July 2021. Respondent remains in compliance with the Cease & Desist letter.

## APPLICABLE LAW

6. Paragraph 6 is a statement of law and is not susceptible to admission or denial.

7. Paragraph 7 is a statement of law and is not susceptible to admission or denial.

8. Paragraph 8 is a statement of law and is not susceptible to admission or denial.

9. Paragraph 9 is a statement of law and is not susceptible to admission or denial.

10. Paragraph 10 is a statement of law and is not susceptible to admission or denial.

11. Paragraph 11 is a statement of law and is not susceptible to admission or denial.

12. Paragraph 12 is a statement of law and is not susceptible to admission or denial.

13. Paragraph 13 is a statement of law and is not susceptible to admission or denial.

## COUNT ONE
**Violation of Federal Law - Sale/Distribution of Counterfeit Drugs**

14. Respondent denies the allegations in paragraph 14.

## COUNT TWO
**Violation of State Law - Sale/Distribution of Counterfeit Drugs**

15. Respondent denies the allegations in paragraph 15.

## COUNT THREE
**Violation of Federal Law - Falsification of Records**

16. Respondent denies the allegations in paragraph 16.

## COUNT FOUR
**Violation of State Law - Falsification of Records**

17. Respondent denies the allegations in paragraph 17.

## COUNT FIVE
**Unprofessional Conduct - Fraudulent/Deceitful Practice/Transaction**

18. Respondent denies the allegations in paragraph 18.

## COUNT SIX
**Unprofessional Conduct-Incompetent, Unskillful or Negligent Performance of Duties**

19. Respondent denies the allegations in paragraph 19.

## OTHER DEFENSES

20. Counts 1 through 6 fail to state a claim upon which relief can be granted.

21. Any cause of action based on allegations of violations of the Food Drug and Cosmetic Act are barred under 21 USC 337(a), which requires "all . . . proceedings for the enforcement, or to restrain violations, of this chapter [Chapter 19] shall be by and in the name of the United States."[2] The FDA has never filed any enforcement action against Safe Chain. Rather, the FDA inspected Safe Chain's Maryland facility September 9 through 11, 2024 with a focus on compliance with provisions of the Food Drug and Cosmetic Act sections referenced in paragraph 4 of the Notice and the FDA did not inform Safe Chain of any observations of violations via an FDA Form 483 or otherwise. Moreover, Nevada has never conducted an inspection of Safe Chain's facility.

22. The Notice fails to plead the specific acts of fraud or deceit with the specificity necessary to defend the allegations.

## RESERVATION OF RIGHTS

23. Respondent reserves the right to assert other factual, legal, and equitable defenses.

24. Respondent reserves the right to amend this Answer.

---

[2] Chapter 19 of the FDCA contains the laws governing food (Subchapter IV), drugs and devices (Subchapter V), and cosmetics (Subchapter VI). 21 U.S.C. § 337(b) provides exceptions under which a State may bring proceedings in its own name for civil enforcement of certain provisions of Chapter 19, Subchapter IV that govern foods.

## OTHER

25. To the extent Respondent has not expressly admitted a factual allegation, it denies all such allegations.

## PRAYER FOR RELIEF

26. That the Board dismiss all Causes of Acton in the Notice or that the Board finds that the allegations in the Notice and all evidence presented to the Board do not support imposing discipline on the Respondent.

27. That the Board provide further relief to Respondent as it finds just and proper.

***Re: CEASE-AND-DESIST ORDER: Unlicensed Activity in Nevada (Case No. 24-118-WH-O)***

To Whom It May Concern:

The Nevada State Board of Pharmacy (Board) has determined that Rxeed is engaged in the business of soliciting, brokering, shipping and/or delivering orders for prescription drugs to pharmacies in this State without a license to engage in business as a wholesaler. This constitutes a violation of Nevada law, including, without limitation, NRS 639.100, NRS 639.233 and NAC 639.593.

Rxeed is hereby ordered pursuant to NRS 639.2895(1) to CEASE and DESIST from engaging in the business of soliciting, brokering, shipping and/or delivering orders for prescription drugs to pharmacies in this State. This notice shall serve as a CITATION pursuant to NRS 639.2895(2) for unlicensed activity.

The Board has assessed an administrative fine of five thousand dollars ($5,000.00) pursuant to NRS 639.2895(3). Rxeed must pay this administrative fine within 30 days of receipt of this citation. Payment must be by personal, business, certified or cashier's check or money order made payable to "State of Nevada, Office of the Treasurer," to be received at the Board's Reno office, located at 985 Damonte Ranch Parkway – Suite 206, Reno, NV 89521.

Rxeed has the right to appeal this citation by submitting a written request for a hearing to the Board at the Board's Reno office no later than 30 days after receipt of this notice. *See* NRS 639.2895(2). If you have any questions, please do not hesitate to contact Board staff at 775-850-1440.

Sincerely,

Nevada State Board of Pharmacy

**Re: Case No. 24-118-WH-O; Cease & Desist Order**
**NOTICE OF APPEAL AND REQUEST FOR HEARING**

Dear Board Members

Rxeed is in receipt of your October 10, 2024 letter where the State of Nevada Board of Pharmacy ("Board") issued a cease and desist order, and assessed Rxeed a fine of $5000 for allegedly violating NRS 639.100 (penalty for operating without wholesaler license), NRS 639.233 (definition of business of furnishing prescription drugs) and NAC 639.593 (Licensing Requirements for Wholesalers). A copy of this letter is attached herewith for reference.

The Board alleges that Rxeed engaged in the business of a "wholesaler" without any fact finding, and without affording Rxeed minimal due process to respond. The Board concluded without citing any facts that Rxeed engaged in the business of "soliciting, brokering, shipping and/or delivering orders for prescription drugs to pharmacies in this State." Rxeed respectfully disagrees with your decision and hereby appeals the assessment and erroneous findings and intends to address in detail on appeal the below arguments.

**A. Rxeed is not a "Wholesaler" and therefore is not liable under NRS 639.100.**

NRS 639.233 (Definition of Wholesaler"

Rxeed is not a "wholesaler." NRS 649.233(1) requires any person or entity that engages in the business of "wholesale distribution of drugs "that are restricted by federal law. NRS 649.233(2)(a) and (b) defines a person engaged in the "business of furnishing" if the person (a) solicits or accepts orders for drugs or devices or (b) receives, stores or ships such drugs or devices. See NRS 649.233(2)(a) and (b).

Rxeed is an online platform that enables one pharmacy to sell to another pharmacy needed prescriptions under the Drug Supply Chain Safety Act's dispenser to dispenser exception. At no point does Rxeed "solicit" or "broker" the purchase or sale of any prescription drugs. To the contrary, it is the pharmacy desiring to sell a prescription drug to another pharmacy that controls the solicitation, brokering, shipping, and delivery of its prescription drugs. Rxeed has no warehouse or shipping facilities.

Therefore, only the dispenser pharmacy solicits and accepts orders for drugs. Rxeed does not accept and fill orders for drugs. Rxeed does not purchase drugs period from any source period. Rxeed

does not store prescription drugs and/or devices for sale on consignment. It is unclear how the Board arrived at this sweeping conclusion. Rxeed intends to address these issues on appeal.

**B. Due Process Requirements.**

Rxeed respectfully submits that the assessed $5,000 fine without hearing is a violation of its due process rights under NRS 233.B121. Clearly, this is a contested case under NRS 233.B121, which provides that "in all contested case, all parties must be afforded any opportunity for hearing after reasonable notice."

It is unclear why the Board assessed a fine and swiftly concluded that there was a violation of NRS 649.100 without ever providing Rxeed with notice of its intent to issue a cease and desist, along with a fine of $5,000. Because Rxeed is clearly entitled to a hearing (prior to the fine assessment), we respectfully appeal the October 10, 2024, decision, and request a hearing.

We look forward to a fair hearing on the appeal of the Board's fine and order. I can be reached directly at Omar@rxeed.com to address any concerns the Board may have.

Sincerely,

OMAR HASSAD, CEO

as Principal, and AMERICAN CONTRACTORS INDEMNITY COMPANY, a corporation organized and existing under the laws of California, as Surety, are held and firmly bound unto the Centers for Medicare & Medicaid Services ("CMS"), an agency of the United States Department of Health and Human Services ("CMS"), as Obligee, in the Penal Sum of Fifty thousand and 00/100 Dollars ($ $50,000.00 ) for the payment of which Principal and Surety bind themselves, their heirs, executors, administrators and assigns, jointly and severally, by these presents.

WHEREAS, Principal is enrolled in or is seeking to be enrolled in the Medicare program as a supplier of durable medical equipment, prosthetics, orthotics and supplies ("DMEPOS"); and

WHEREAS, pursuant to Section 4312(a) of the Balanced Budget Act of 1997 (Pub. L. 105-33) and 42 CFR § 424.57, the Principal is required to provide a surety bond as a condition of participation in the Medicare program, and this bond is provided in compliance with the supplier's obligations as set forth in those authorities.

NOW THEREFORE, the condition of this Bond is that if the Principal shall pay the Obligee any unpaid claims, civil money penalties and assessments (as such terms are defined by 42 CFR § 424.57(a)) then this Bond shall be null and void, otherwise to remain in full force and effect, subject, however, to the following:

1. Principal and Surety are liable under this Bond for only the amount of any unpaid claim, civil money penalty or assessment imposed by CMS or the Office of Inspector General, plus accrued interest, for which the Principal is responsible and for which, subject to Paragraph 7, the Obligee first demands payment from the Surety during

the term of this Bond; provided, however, that any claim under this Bond must be related to overpayments or other events that occurred on or after 11/4/2024.

2. Surety agrees to pay a claim within 30 days of receiving written notice of the claim and sufficient evidence (as such term is defined by 42 CFR § 424.57(a)) to establish Surety's liability under this Bond.
3. CMS is the sole Obligee of this Bond, and no action may be brought on it by, or for the use or benefit of, any person or entity other than CMS or its contractors.
4. Regardless of the number of years this Bond is in effect, the number of premiums paid, or the number of claims made, the Surety's aggregate liability shall not be more than the penal sum of this Bond.
5. Subject to Paragraph 7, the Surety's liability under this Bond shall terminate and the Surety shall have no further liability upon the effective date of cancellation or expiration of this Bond by the Surety or Principal in accordance with Paragraph 6 of this Bond.
6. The Surety or Principal may cancel this Bond by providing written notice of such cancellation to the Obligee. Cancellation or expiration shall be effective 30 days after notice of cancellation or expiration is sent to the Obligee's contractor, the National Supplier Clearinghouse, provided such notice is actually received.
7. In the event this Bond is cancelled or expires, and the Principal fails to submit a new bond to the Obligee, the Surety remains liable for unpaid claims, civil money penalties or assessments that were imposed or assessed by CMS or the Office of Inspector General during the 2 years following the effective date of cancellation or expiration of this Bond.

In witness whereof, the undersigned Principal and Surety have set their hands and seals on this 8th day of November, 2024.

## WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 33-1993517. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

Taxpayers request an EIN for their business. Some taxpayers receive CP575 notices when another person has stolen their identity and are opening a business using their information. If you did **not** apply for this EIN, please contact us at the phone number or address listed on the top of this notice.

When filing tax documents, making payments, or replying to any related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following forms by the dates shown.

| | |
|---|---|
| Form 940 | 01/31/2025 |
| Form 944 | 01/31/2025 |

If you have questions about the forms or the due dates shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 538, *Accounting Periods and Methods*.

We assigned you a tax classification (corporation, partnership, etc.) based on information obtained from you or your representative. It is not a legal determination of your tax classification, and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2020-1, 2020-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, *Entity Classification Election*. See Form 8832 and its instructions for additional information.

IMPORTANT INFORMATION FOR S CORPORATION ELECTION:
If you intend to elect to file your return as a small business corporation, an election to file a Form 1120-S, U.S. Income Tax Return for an S Corporation, must be made within certain timeframes and the corporation must meet certain tests. All of this information is included in the instructions for Form 2553, Election by a Small Business Corporation.

If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly, which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, *Electronic Choices to Pay All Your Federal Taxes*. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents or other payroll service providers, are available to assist you. Visit www.irs.gov/mefbusproviders for a list of companies that offer IRS e-file for business products and services.

**IMPORTANT REMINDERS:**

* Keep a copy of this notice in your permanent records. This notice is issued only one time and the IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.
* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.
* Refer to this EIN on your tax-related correspondence and documents.
* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is GUAR. You will need to provide this information along with your EIN, if you file your returns electronically.

Safeguard your EIN by referring to Publication 4557, Safeguarding Taxpayer Data: A Guide for Your Business.

You can get any of the forms or publications mentioned in this letter by visiting our website at www.irs.gov/forms-pubs or by calling 800-TAX-FORM (800-829-3676).

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter.

**BOND NUMBER:** [redacted]

Effective Date: Dec 16, 2024

**Surety Bond**
**Suppliers of Durable Medical Equipment, Prosthetics, Orthotics and Supplies**
**Medicare Program**

KNOW ALL PERSONS BY THESE PRESENTS, that subject to the terms, conditions and limitations of this bond, GUARDIAN DME LLC, as Principal, and Philadelphia Indemnity Insurance Company One Bala Plaza, [redacted], a corporation organized and existing under the laws of Pennsylvania, as Surety, are held and firmly bound unto the Centers for Medicare & Medicaid Services ("CMS"), an agency of the United States Department of Health and Human Services, as Obligee, in the Penal Sum of fifty thousand dollars Dollars ($ $50,000.00) for the payment of which Principal and Surety bind themselves, their heirs, executors, administrators and assigns, jointly and severally, by these presents.

WHEREAS, Principal is enrolled in or is seeking to be enrolled in the Medicare program as a supplier of durable medical equipment, prosthetics, orthotics and supplies ("DMEPOS"); and

WHEREAS, pursuant to Section 4312(a) of the Balanced Budget Act of 1997 (Pub. L. 105-33) and 42 CFR § 424.57, the Principal is required to provide a surety bond as a condition of participation in the Medicare program, and this bond is provided in compliance with the supplier's obligations as set forth in those authorities.

NOW THEREFORE, the condition of this Bond is that if the Principal shall pay the Obligee any unpaid claims, civil money penalties and assessments (as such terms are defined by 42 CFR § 424.57(a)) then this Bond shall be null and void, otherwise to remain in full force and effect, subject, however, to the following:

1. Principal and Surety are liable under this Bond for only the amount of any unpaid claim, civil money penalty or assessment imposed by CMS or the Office of Inspector General, plus accrued interest, for which the Principal is responsible and for which, subject to Paragraph 7, the Obligee first demands payment from the Surety during the term of this Bond; provided, however, that any claim under this Bond must be related to overpayments or other events that occurred on or after March 3, 2009.

2. Surety agrees to pay a claim within 30 days of receiving written notice of the claim and sufficient evidence (as such term is defined by 42 CFR § 424.57(a)) to establish Surety's liability under this Bond.

3. CMS is the sole Obligee of this Bond, and no action may be brought on it by, or for the use or benefit of, any person or entity other than CMS or its contractors.

4. Regardless of the number of years this Bond is in effect, the number of premiums paid, or the number of claims made, the Surety's aggregate liability shall not be more than the penal sum of this Bond.

5. Subject to Paragraph 7, the Surety's liability under this Bond shall terminate and the Surety shall have no further liability upon the effective date of cancellation or expiration of this Bond by the Surety or Principal in accordance with Paragraph 6 of this Bond.

6. The Surety or Principal may cancel this Bond by providing written notice of such cancellation to the Obligee. Cancellation or expiration shall be effective 30 days after notice of cancellation or expiration is sent to the Obligee's contractor, the National Supplier Clearinghouse, provided such notice is actually received.

7. In the event this Bond is cancelled or expires, and the Principal fails to submit a new bond to the Obligee, the Surety remains liable for unpaid claims, civil money penalties or assessments that were imposed or assessed by CMS or the Office of Inspector General during the 2 years following the effective date of cancellation or expiration of this Bond.

In witness whereof, the undersigned Principal and Surety have set their hands and seals on this 17th day of December, 2024.

## SECTION 5: COMPREHENSIVE LIABILITY INSURANCE INFORMATION

As required in 42 C.F.R. section 424.57(c)(10), all DMEPOS suppliers must have comprehensive liability insurance in the amount of at least $300,000 (for each incident) and the insurance must remain in force at all times. The NSC MAC, with full mailing address as shown on page 3, must be listed on the policy as a certificate holder. You must submit a copy of the liability insurance policy or evidence of self-insurance with this application. Failure to maintain the required insurance at all times will result in revocation of your Medicare supplier billing number retroactive to the date the insurance lapsed, and/or overpayment collection.

Malpractice insurance is not the same as comprehensive liability insurance and does not meet compliance for this requirement.

If you are changing your comprehensive liability insurance information, check the box below and furnish the effective date.
