6. Debt

Convertible Notes

2019 Notes, 2023 Notes and 2023 Series B Notes

On December 16, 2014, the Company issued \$125.0 million aggregate principal amount of the 2019 Notes. On December 22, 2014, the Company announced the closing of the initial purchasers' exercise in full of their option to purchase an additional \$18.75 million aggregate principal amount of the 2019 Notes. The 2019 Notes bore interest at a fixed rate of 3.75% per year, payable semiannually in arrears on June 15 and December 15 of each year, beginning on June 15, 2015 and matured on December 15, 2019, unless earlier repurchased, redeemed or converted. The 2019 Notes were convertible into shares of the Company's common stock, cash or a combination thereof. On May 20, 2015, the Company received shareholder approval for the increase in the number of shares of common stock authorized and available for issuance upon possible conversion of the 2019 Notes.

On April 27, 2018, the Company entered into separate exchange agreements with certain holders of the 2019 Notes. The agreements gave the holders the right to exchange, in aggregate, \$75.1 million of the 2019 Notes for \$75.1 million of the 2023 Notes. The 2023 Notes bear a fixed interest rate of 4.75% per year, payable semi-annually with the principal payable in May 2023. At the option of the holders, the 2023 Notes are convertible into shares of the Company's common stock, cash or a combination thereof. The initial conversion rate is \$4.45 per share, subject to certain adjustments, related to either the Company's stock price volatility, or the Company's declaration of a stock dividend, stock distribution, share combination or share split expected dividends or other anti-dilutive activities. In addition, holders will be entitled to receive additional shares of common stock for a potential increase of the conversion rate up to \$280.90 per share under a make-whole provision in some circumstances. The Company incurred debt issuance costs of \$1.6 million upon issuance of the 2023 Notes.

In accordance with accounting for convertible debt within the cash conversion guidance of ASC 470-20, the Company allocated the principal amount of the 2023 Notes between its liability and equity components. The carrying amount of the liability component was determined by measuring the fair value of a similar debt instrument of similar credit quality and maturity that did not have the conversion feature. The carrying amount of the equity component, representing the embedded conversion option, was determined by deducting the fair value of the liability component from the principal amount of the 2023 Notes as a whole. The equity component was recorded to additional paid-in capital and is not remeasured as long as it continues to meet the conditions for equity classification. The excess of the principal amount of the 2023 Notes over the carrying amount of the liability component was recorded as a debt discount of \$19.0 million, and is being amortized to interest expense using the effective interest method through the maturity date. The Company allocated the total amount of debt issuance costs incurred to the liability and equity components using the same proportions as the proceeds from the 2023 Notes. The debt issuance costs attributable to the liability component were recorded as a direct deduction from the liability component of the 2023 Notes and are being amortized to interest expense using the effective interest method through the maturity date. Transaction costs attributable to the equity component were netted with the equity component of the 2023 Notes in additional paid-in capital. The effective interest rate of the 2023 Notes, inclusive of the debt discount and issuance costs, is 11.9%.

The exchange of \$75.1 million of the 2019 Notes for the 2023 Notes is considered a debt extinguishment under ASC 470-50. The 2019 Notes are accounted for under cash conversion guidance ASC 470-20, which requires the Company to allocate the fair value of the consideration transferred upon settlement to the extinguishment of the liability component and the reacquisition of the equity component upon derecognition. In accordance with the aforementioned guidance, the Company allocated a portion of the \$75.1 million to the extinguishment of the liability component equal to the fair value of that component immediately before extinguishment and recognized a \$2.5 million extinguishment loss in the Consolidated Statement of Operations to measure the difference between (i) the fair value of the liability component and (ii) the net carrying amount of the liability component (which is already net of any unamortized debt issuance costs). In addition, the Company recorded a \$7.6 million reduction of Additional Paid in Capital in connection with the extinguishment of \$75.1 million of the 2019 Notes.

In December 2018 the Company used \$52.8 million of proceeds from the Senior Credit Facilities (see below) to repurchase a portion of the 2019 Notes as well as \$0.3 million of proceeds to pay for transaction costs. The repurchase of the 2019 Notes is considered a debt extinguishment under ASC 470-50. The 2019 Notes are accounted for under cash conversion guidance ASC 470-20, which requires the Company to allocate the fair value of the consideration transferred upon settlement to the extinguishment of the liability component and the reacquisition of the equity component upon derecognition. In accordance with the guidance above, the Company allocated a portion of the \$52.8 million to the extinguishment of the liability component equal to the fair value of that component immediately before extinguishment and recognized a \$1.7 million extinguishment loss in the Consolidated Statement of Operations to measure the difference between (i) the fair value of the liability component and (ii) the net carrying value amount of the liability component (which is already net of any unamortized debt issuance costs). In addition,

the Company recorded a \$2.9 million reduction of Additional Paid in Capital in connection with the extinguishment of the 2019 Notes.

In the beginning of 2019, the Company used a total of \$2.7 million of proceeds from the Senior Credit Facilities to repurchase a portion of the remaining 2019 Notes. The repurchase of the 2019 Notes is considered a debt extinguishment under ASC 470-50. The 2019 Notes are accounted for under cash conversion guidance ASC 470-20, which requires the Company to allocate the fair value of the consideration transferred upon settlement to the extinguishment of the liability component and the reacquisition of the equity component upon derecognition. In accordance with the guidance above, the Company allocated a portion of the \$2.7 million to the extinguishment of the liability component equal to the fair value of that component immediately before extinguishment and recognized a \$0.2 million extinguishment loss in the Consolidated Statement of Operations to measure the difference between (i) the fair value of the liability component and (ii) the net carrying value amount of the liability component (which is already net of any unamortized debt issuance costs). The reduction of Additional Paid in Capital in connection with this extinguishment was immaterial. The Company settled the remaining 2019 Notes of \$13.0 million in principal upon its maturity in December 2019.

2023 Series B Notes

On October 31, 2019, the Company closed its offering of the 2023 Series B Notes in the aggregate principal amount of \$34.4 million. The 2023 Series B Notes will mature in May 2023 and are convertible at the option of the holder at any time prior to maturity at an initial conversion price of \$0.72 per share, subject to adjustment under certain circumstances. The 2023 Series B Notes and any shares of common stock issuable upon conversion of the 2023 Series B Notes (the "Conversion Shares") have not been registered under the Securities Act of 1933, as amended (the "Securities Act"), or any state or other jurisdiction's securities laws, and the 2023 Notes and the Conversion Shares may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act and applicable state or other jurisdictions' securities laws. The Company does not intend to file a registration statement for the resale of the 2023 Series B Notes or any Conversion Shares.

As part of the offering, the Company entered into agreements with certain holders of its existing 2023 Notes to exchange \$9.0 million of the 2023 Notes for \$5.1 million of the 2023 Series B Notes. The gross cash proceeds of approximately \$29.3 million from the financing were used to extinguish the Company's existing 2019 Notes in December 2019 and intended to pay amounts owing with respect to other indebtedness and to fund general corporate and working capital requirements. The 2023 Series B Notes bear interest at a rate of 7.00% per annum if paid in cash, semiannually in arrears on May 1 and November 1 of each year, beginning on May 1, 2020. The Company also has an option, and has agreed with its senior lender, to PIK the interest at 8.00% per annum, to defer cash payments. The net proceeds from the financing were \$26.9 million after deducting a total of \$2.3 million of the initial purchasers' discounts and professional fees associated with the transaction.

Under ASC 470-60, Troubled Debt Restructurings by Debtors, the exchange of the \$9.0 million of the 2023 Notes for the \$5.1 million of the 2023 Series B Notes represents a troubled debt restructuring ("TDR"). The TDR did not result in a gain recognition. As a result, a new effective interest rate was established based on the \$7.2 million carrying value of the original debt, net of the \$2.0 million fair value of the embedded derivative liability related to the new debt issued in the TDR and \$0.2 million issuance costs, getting accreted to \$6.8 million representing the total amount of the future undiscounted cash flows related to the \$5.1 million of the 2023 Series B Notes.

In accordance with ASC 815-15, Derivatives and hedging, Embedded Derivatives, the embedded conversion option should be bifurcated and separately accounted for as a derivative instrument, because the Company did not have enough authorized shares available to share-settle the conversion option. Such derivative instruments should be initially and subsequently measured at fair value, with changes in fair value recognized in earnings (see Note 7). The derivative liability recorded at the issuance date was \$13.5 million, including the \$2.0 million above accounted for in the TDR, which was subsequently remeasured to \$6.8 million as of December 31, 2019, with \$6.8 million recognized as a gain on change in fair value of derivative in the Company's statement of operations. Further, the \$0.9 million of allocated issuance costs associated with the bifurcated conversion features embedded in the notes was recognized as a loss on debt restructuring in the Company's statement of operations for the year ended December 31, 2019. In accordance with ASC 470-20, the initial carrying amount of the liability component of the 2023 Series B Notes, excluding the \$5.1 million portion above is accounted for as a TDR, upon issuance is the residual amount between total proceeds from the transaction and the derivative liability net of allocated issuance costs. The \$1.4 million debt issuance costs attributable to the liability component were recorded as a direct deduction from the liability component of the 2023 Series B Notes and are being amortized to interest expense using the effective interest method through the maturity date. The discount from the par amount of the 2023 Series B Notes will be accreted to par utilizing the effective-interest rate method over the term of the Notes from the issuance date through May 2023. The effective interest rate of the 2023 Notes, inclusive of the debt discount and issuance costs is 27.4%.

Prior Term Loan

On June 1, 2018, the Company entered into a credit agreement for \$25.0 million in original principal amount of term loans secured by all Company assets (the "Prior Term Loan"). The Prior Term Loan incurred debt issuance costs of \$0.5 million and a debt discount of \$0.4 million. The debt discount is due to lender fees paid on the initial drawdown of \$15.0 million. The debt issuance costs and debt discount were amortized to interest expense using the effective interest method through the maturity date. In December 2018, the Company used \$25.6 million of proceeds from the Senior Credit Facilities (see below) to repay the Prior Term Loan which was comprised of \$25.0 million of principal, \$0.5 million of transaction costs and \$0.1 million of interest. The repayment of the Prior Term Loan is considered a debt extinguishment under ASC 470-50. In 2018, the Company recorded \$1.3 million of extinguishment loss related to the repayment of the Prior Term Loan in the Consolidated Statement of Operations.

Senior Credit Facilities

On December 13, 2018 we entered into the Senior Credit Facilities, consisting of the Revolver and Term Loans. The Senior Credit Facilities also included a \$15.0 million delayed draw term loan b commitment, which remained undrawn and expired on October 31, 2019. As of December 31, 2019, \$25.0 million was drawn under the Revolver and \$88.5 million of Term Loans were outstanding. As of December 31, 2019, the Revolver was fully drawn. The Company extended commitments related to undrawn amounts of the Delayed Draw Term Loan A from June 30, 2019 to December 13, 2019, pursuant to an amendment the Company entered with the Second Lien Agent on July 18, 2019. The extended Delayed Draw Term Loan A was subsequently drawn down by the Company in December 2019. Drawn amounts under the Delayed Draw Term Loans mature at the same time as the Initial Term Loan. The Term Loans mature on the earliest to occur of the June 23, 2024 and the date of that is 181 days prior to the maturity date of each of (x) the 2023 Notes and (y) the 2023 Series B Notes. The Revolver matures on the earliest to occur of the June 23, 2024 and the date of that is 91 days prior to the maturity date of each of (x) the 2023 Notes and (y) the 2023 Series B Notes. The Company's ability to borrow under the Revolver is subject to a borrowing base determined based upon eligible inventory, eligible equipment, eligible real estate and eligible receivables. The Senior Credit Facilities are secured by substantially all of the Company's assets. All of the Company's debt is subordinated to the Senior Credit Facilities. The liens securing the Term Loans are subordinate to the liens securing the Revolver. The Senior Credit Facilities had customary financial and non-financial covenants, including affirmative, negative and reporting covenants, representations and warranties, and events of default, including cross-defaults on other material indebtedness, as well as events of default triggered by a change of control and certain actions initiated by the FDA which were superseded by the amendments noted below. The financial covenants consisted of a minimum revenue test, a minimum adjusted EBITDA test and a maximum total net leverage ratio.

The Revolver bears interest at a fluctuating rate of interest equal to one, two, three or six-month LIBOR plus a margin of 3.75% or a rate based on the prime rate plus a margin of 2.75%. The Term Loans bear interest at a fluctuating rate of interest equal to one, two, three or six-month LIBOR plus a margin of 8.75% or a rate based on the prime rate plus a margin of 7.75%. Interest on the Senior Credit Facilities is payable in cash quarterly in arrears (or more frequently in connection with customary LIBOR interest provisions), provided, that the Company may elect (and has covenanted to the lenders under its First Lien Credit Agreement to) pay interest on the Term Loans in kind until the earlier to occur of the date upon which Company has provided financial statements demonstrating twelve-months of revenue of at least \$125.0 million and (ii) December 28, 2020.

Amounts drawn under the Revolver may be prepaid at the option of the Company without premium or penalty, subject, in the case of acceleration of the Revolver or termination or reduction of the revolving credit commitments thereunder, to certain call protections which vary depending on the time at which such prepayments are made. Amounts drawn under the Revolver are subject to mandatory prepayment to the extent that aggregate extensions under the Revolver exceed the lesser of the revolving credit commitment then in effect and the borrowing base then in effect, and upon the occurrence of certain events and conditions, including non-ordinary course asset dispositions, receipt of certain insurance proceeds and condemnation awards and issuances of certain debt obligations. Amounts outstanding under the Term Loans may be prepaid at the option of the Company subject to applicable premiums, including a make-whole premium, and certain call protections which vary depending on the time at which such prepayments are made. Subject to payment of outstanding obligations under the Revolver as a result of any corresponding mandatory prepayment requirements thereunder, amounts outstanding under the Term Loans are subject to mandatory prepayment upon the occurrence of certain events and conditions, including non-ordinary course asset dispositions, receipt of certain insurance proceeds and condemnation awards, issuances of certain debt obligations and a change of control transaction.

In connection with the Revolver the Company incurred a debt discount of \$0.5 million and debt issuance issue costs of \$0.3 million. The debt discount is due to annual fees and lender fees paid on the initial drawdown of \$15.0 million. The debt issuance costs and debt discount are recorded as an asset on the Consolidated Balance Sheet and are amortized to interest expense using the straight-line method through the estimated Revolver maturity date. The annual fees related to the Revolver and the Initial Term Loan are amortized to interest expense using the straight-line method over the annual period they relate to. In connection with the Initial Term Loan and Delayed Draw Term Loan A, the Company incurred a debt discount of \$1.8 million and debt issuance issue costs of \$0.8 million. The debt discount is due to lender fees paid on the Initial Term Loan of \$50.0 million and drawdown of Delayed Draw Term Loan A of \$20.0 million. The debt issuance costs and debt discount costs are amortized to

interest expense using the effective interest rate method through the estimated maturity date. In addition, the Company incurred \$0.5 million of debt issuance costs related to the commitment fees paid to the lenders for the undrawn amounts of the Delayed Draw Term Loans. These debt issuance costs are recorded as an asset on the balance sheet and amortized on a straight-line basis over the access period of the Delayed Draw Term Loans through June 30, 2019. The effective interest rates, inclusive of the debt discounts and issuance costs, for the various borrowing tranches of the Revolver were between 6.2% and 9.1%. The effective interest rates, inclusive of the debt discounts and issuance costs for the Initial Term Loan and Delayed Draw Term Loan A were between 9.1% and 12.2%.

The Initial Term Loan of \$50.0 million and \$15.0 million of the Revolver were drawn by the Company on December 13, 2018. On December 21, 2018, the Company drew \$20.0 million of the Delayed Draw Term Loan A. In January 2019, the Company drew \$5.0 million and subsequently the remaining \$5.0 million under the Revolver were drawn down by the Company in April 2019. On September 18, 2019, pursuant to terms of the First Lien Credit Agreement, the Company borrowed an advance in the aggregate principal amount of \$2.5 million (the "Protective Advance"). The Protective Advance is a secured Obligations under the First Lien Credit Agreement, and bears interest at the rate applicable to the Revolver. The Protective Advance was subsequently repaid in November 2019 along with a repayment fee of \$0.1 million. The Company drew down the remaining \$10.0 million under its borrowing capacity of Delayed Draw Term Loan A before its expiry in December of 2019. The \$15.0 million Delayed Draw Term Loan B expired upon the issuance of the 2023 Series B Notes, prior to the Company drawing down any monies.

The Term Loans are governed by the Second Lien Credit Agreement. The Term Loans include a 24-month paid-in-kind interest option available to the Company should it choose to defer cash payments in order to maintain the liquidity needed to continue launching new products, and preparing for an FDA prior approval inspection of its new injectable manufacturing facility. The Company has elected the paid-in-kind interest option and increased the principal balance of Term Loans by \$8.5 million for the twelve month periods ended December 31, 2019 respectively.

On April 6, 2020, the Company entered into amendments pertaining to the Senior Credit Facilities. The amendments collectively among other things, (i) increase the interest rates on April 6, 2020, (ii) reset certain prepayment premiums and modify the terms of certain mandatory prepayments and (iii) modify certain financial covenant levels inclusive of the disposition of prior covenants as of and for the period ended December 31, 2019. Additional information pertaining to the Senior Credit Facilities amendments is included in the Subsequent Event footnote.

7. Derivatives

The Company accounts for its derivative instruments in accordance with ASC 815-10, "Derivatives and Hedging". ASC 815-10 establishes accounting and reporting standards requiring that derivative instruments, including derivative instruments embedded in other contracts, be recorded on the balance sheet as either an asset or liability measured at its fair value. ASC 815-10 also requires that changes in the fair value of derivative instruments be recognized currently in results of operations unless specific hedge accounting criteria are met.

The Company has not entered into hedging activities to date. The Company's derivative liability at December 31, 2019 was the embedded convertible option of its 2023 Series B Notes issued on October 31, 2019, which has been recorded as a liability at fair value and was revalued at each reporting date, with changes in the fair value of the instruments included in the consolidated statements of operations as non-operating income (expense). The Company does not have a derivative liability at December 31, 2018.

The terms and assumptions used in connection with the valuation of the convertible option of the 2023 Series B Notes are as follows:

8. Revenues, Recognition and Allowances

Revenue Recognition

As of January 1, 2018, the Company adopted the ASC 606 guidance for revenue recognition for contracts, using the modified retrospective method. The implementation of this guidance had no material impact on the measurement or recognition of revenue from customer contracts of prior periods.

Upon adoption of this new guidance, the Company recognizes revenue using the following five steps:

- Identification of the contract, or contracts, with a customer;
- Identification of the performance obligations in the contract;
- Determination of the transaction price, including the identification and estimation of variable consideration;
- Allocation of the transaction price to the performance obligations in the contract; and
- Recognition of revenue when we satisfy a performance obligation.

The Company derives its revenues from three types of transactions: sales of its own pharmaceutical products (Company product sales), sales of manufactured product for its customers (contract manufacturing sales), and research and product development services performed for third parties.

Revenue is recognized when a customer obtains control of promised goods or services, in an amount that reflects the consideration which the entity expects to receive in exchange for those goods or services. To the extent the transaction price includes variable consideration, the Company estimates the amount of variable consideration that should be included in the transaction price using the expected value method based on historical experience as well as applicable information currently available.

Company Product Sales

Revenue from Company product sales is recognized upon transfer of control of a product to a customer at a point in time, generally as the Company's products are sold on an FOB destination basis and because inventory risk and risk of ownership passes to the customer upon delivery.

Company product sales are recorded net of accruals for estimated chargebacks, rebates, cash discounts, other allowances, and returns.

Contract Manufacturing Sales

The Company recognizes revenue for contract manufacturing sales over-time, as milestones are achieved. Shipments are made in accordance with sales commitments and related sales orders entered into with customers either verbally or in written form.

Contract manufacturing sales are recognized net of accruals for cash discounts and returns which are established at the time of sale, and are included in Revenue, net in the Company's Consolidated Statement of Operations.

Research and Development Services and Other Income

The Company establishes agreed upon product development agreements with its customers to perform product development services. Revenues are recognized in accordance with the agreement upon the completion of the phases of development and when the Company has no future performance obligations relating to that phase of development. Other types of revenue include royalty or licensing revenue, which would be recognized over time, or at a point in time, based upon the contractual term upon completion of the earnings process. Judgments are required to evaluate contingencies such as potential variances in the schedule or the costs, the impact of change orders, liability claims, contract disputes and achievement of contractual performance standards.

Revenues by Transaction Type

The Company operates in one reportable segment and, therefore, the results of the Company's operations are reported on a consolidated basis, consistent with internal management reporting for the chief decision maker. Net Sales (in thousands) for the three years ended December 31, 2019 and 2018 were as follows (prior-period amounts are not adjusted under the modified-retrospective method of adoption):

	Years ended December 31,	
	2019	2018
Company product sales	\$ 64,291	\$ 59,591
Contract manufacturing sales	1,362	6,047
Research and development services and other income	243	227
Revenue, net	<u>\$ 65,896</u>	<u>\$ 65,865</u>

Disaggregated information for the Company product sales revenue has been recognized in the accompanying audited Consolidated Statements of Operations, and is presented below according to contract type (in thousands):

Company Product Sales	Years ended December 31,	
	2019	2018
Topical	\$ 46,150	\$ 35,118
Injectables	18,141	24,473
Total	<u>\$ 64,291</u>	<u>\$ 59,591</u>

For the twelve months ended December 31, 2019, Company did not incur, and therefore did not defer, any material incremental costs to obtain contracts.

Returns and Allowances

As is customary in the pharmaceutical industry, the Company's product sales are subject to a variety of deductions including chargebacks, rebates, cash discounts, other allowances, and returns. Product sales are recorded net of accruals for returns and allowances, which are established at the time of sale. The Company analyzes the adequacy of its accruals for returns and allowances quarterly. Amounts accrued for sales deductions are adjusted when trends or significant events indicate that an adjustment is appropriate. Accruals are also adjusted to reflect actual results. These provisions are estimates based on historical payment experience, historical relationship to revenues, estimated customer inventory levels and current contract sales terms with direct and indirect customers. The Company uses a variety of methods to assess the adequacy of its returns and allowances reserves to ensure that its financial statements are fairly stated. These include periodic reviews of customer inventory data, customer contract programs, subsequent actual payment experience, and product pricing trends to analyze and validate the return and allowances reserves.

Accounts receivable are presented net of returns and allowances of \$30.5 million and \$18.1 million at December 31, 2019 and 2018, respectively. The allowance for doubtful accounts was \$2.2 million and \$2.6 million at December 31, 2019 and 2018, respectively. These allowances are primarily related to one specific customer in the amount of \$1.7 million.

Chargebacks are one of the Company's most significant estimates for recognition of product sales. A chargeback represents an amount payable in the future to a wholesaler for the difference between the invoice price paid to the Company by its wholesale customer for a particular product and the negotiated contract price that the wholesaler's customer pays for that product. The Company's chargeback provision and related reserve varies with changes in product mix, changes in customer pricing and changes to estimated wholesaler inventories. The provision for chargebacks estimate the expected wholesaler sell-through levels to indirect customers at contract prices. The Company validates the chargeback accrual quarterly through a review of the inventory reports obtained from its largest wholesale customers. This customer inventory information is used to establish the estimated liability for future chargeback claims based on historical chargeback and contract rates. These large wholesalers represent the majority of the Company's chargeback payments. The Company continually monitors current pricing trends and wholesaler inventory levels to ensure the liability for future chargebacks is fairly stated.

Rebates are used for various discounts and rebates provided to customers. This account has been used for various one-time discounts given to customers. The Company reviews the percentage of products sold through these programs by reviewing chargeback data and uses the appropriate percentages to calculate the rebate accrual. Rebates are invoiced monthly or quarterly and reviewed against the accruals. Other items that could be included in accrued rebates would be price protection fees, shelf stock adjustments (SSAs), or other various amounts that would serve as one-time discounts on specific products.

9. Goodwill and Intangible Assets

Goodwill

The Company acquired the assets of Canadian pharmaceutical company Alveda Pharmaceuticals, Inc., in November 2015. As a result of the acquisition, goodwill of \$0.4 million was recorded. Our annual impairment test is conducted annually on October 1. Goodwill is also tested for impairment whenever an event occurs or circumstances change that would more likely than not reduce the fair value of its reporting unit below its carrying amount. There have been no events or changes in circumstances that would have reduced the fair value of our reporting unit below its carrying value and therefore no impairment losses have been recognized pertaining to goodwill.

Changes in goodwill during the two years ended December 31, 2019 and December 31, 2018 were as follows (in thousands):

10. Stock-Based Compensation

Stock Options

The 1999 Director Stock Option Plan, as amended (the "Director Plan"), provides for the grant of stock options to non-employee directors of the Company at an exercise price equal to the fair market value per share on the date of the grant. As of May 25, 2016, this plan is no longer active for grants. There were 485,000 and 500,000 stock options outstanding as of December 31, 2019 and 2018, respectively.

On June 26, 2009, the Board of Directors adopted, and the Company's stockholders subsequently approved by written consent, the IGI Laboratories, Inc. 2009 Equity Incentive Plan (the "2009 Plan"). The 2009 Plan became effective on July 29, 2009 and was no longer active for grants subsequent to May 25, 2016. The 2009 Plan allowed the Company to grant options and restricted stock, as well as the Board of Directors to authorize a broad range of other equity-based awards, including stock appreciation rights, restricted stock units ("RSUs") and performance awards to consultants, service providers, employees and board members. On April 12, 2010, the Board of Directors adopted, and the Company's stockholders subsequently approved, an amendment and restatement of the 2009 Plan to increase the number of shares of Common Stock available for grant under such plan by adding 2,000,000 shares of Common Stock. The 2009 Plan, as amended on May 29, 2010, authorizes up to 5,000,000 shares of the Company's common stock for issuance pursuant to the terms of the 2009 Plan. The maximum number of shares that may be subject to awards made to any individual in any single calendar year under the 2009 Plan is 1,000,000 shares. There were 1,847,608 stock options outstanding and 1,868,302 shares of stock outstanding as of December 31, 2019. There were no RSUs outstanding at December 31, 2019. There were 14,377 RSUs, 1,853,925 shares of stock outstanding and 2,458,106 stock options outstanding as of December 31, 2018. As of December 31, 2019, 1,369,038 options available were transferred to the superseded plan.

On May 25, 2016, the Board of Directors approved the Company's 2016 Equity Incentive Plan (the "2016 Plan"). On May 21, 2018, the Board of Directors adopted, and the Company's stockholders subsequently approved, an amendment and restatement of the 2016 Plan to increase the number of shares of Common Stock available for grant under such plan by adding 2,000,000 shares of Common Stock. The 2016 Plan, as amended, provides for the issuance of awards of up to 4,000,000 shares of the Company's common stock, plus any currently forfeited, expired or canceled grants without delivery of shares of common stock to the recipient which would be returned to the plan for reissuance up to 2,500,000 shares. Generally, shares of common stock reserved for awards under the 2016 Plan that lapse or are canceled, will be added back to the share reserve available for future awards. However, shares of common stock tendered in payment for an award or shares of common stock withheld for taxes will not be available again for grant. The 2016 Plan provides that no participant may receive awards for more than 1,000,000 shares of common stock in any fiscal year. As the 2016 Plan supersedes either the Director Plan or the 2009 Plan, any available shares

from either are now incorporated into the 2016 Plan. As of December 31, 2019, there were 62,680 RSUs outstanding, 136,496 shares of common stock outstanding and 2,835,131 stock options under the 2016 Plan. As of December 31, 2018, there were 161,214 RSUs outstanding, 74,667 shares of common stock outstanding and 1,394,285 stock options outstanding under the 2016 Plan. As of December 31, 2019 and December 31, 2018, there were 5,167,739 and 4,352,391 stock options outstanding respectively in the Director Plan, 2009 Plan, and the 2016 Plan. As of December 31, 2019, there were 2,334,731 options available to grant under the plan.

In the interest of maintaining consistency with the Company's 2016 Equity Incentive Plan, on March 13, 2017, the Company entered into (i) an amendment to the option agreements governing each option grant currently outstanding under the Company's 2009 Equity Incentive Plan, and (ii) an amendment to the RSU agreements governing each RSU grant then outstanding under the 2009 Plan. The amendments provide for the automatic vesting upon a change of control of the Company of each option grant and RSU grant, as applicable, outstanding under the 2009 Plan. The amendments had a de minimis value to the holders as of December 31, 2019, and therefore no additional stock compensation expense was recognized related to the amendments.

The fair value of each option award is estimated on the date of grant utilizing the Black-Scholes option-pricing formula and the assumptions noted in the following table. Expected volatilities and risk-free interest rates are based upon the expected life of the grant.

Assumptions	2019	2018
Expected dividends	0 %	0 %
Risk free rate	1.38 - 2.47%	2.44 %
Expected volatility	64.33 - 76.81%	52.7 - 72.5%
Expected term (in years)	3.2 - 3.3 years	3.2 - 3.3 years

Volatility was estimated based on historical volatility of the Company's stock over the expected life of the options. The expected life of the options was estimated based on the Company's historical data. The risk-free interest rate is based on U.S. Treasury yields for securities with terms approximating the terms of the grants. Forfeitures are recognized in the period in which they occur. The assumptions utilized in the Black-Scholes option valuation model are highly subjective and can affect the resulting valuation.

The Company evaluates the recoverability of its deferred tax assets based on its history of operating results, its expectations for the future, and the expiration dates of the net operating loss carry forwards. Based on the preponderance of the evidence, the Company has concluded that it is more likely than not that it will be unable to realize the net deferred tax assets in the immediate future and has established a full valuation allowance for substantially all deferred tax assets. Accordingly, the Company has provided a valuation allowance of \$18.6 million and \$12.1 million for the years ended December 31, 2019 and 2018, respectively, on its deferred tax assets. The valuation allowance increased \$6.5 million during 2019. This increase was due to \$5.6 million related to changes in deferred taxes and \$0.9 million related to the 2019 net operating loss.

Operating loss, tax credit and other carry forwards as of December 31, 2019 and 2018 were as follows (in thousands):

2033 - 2036	6,296
2037	8,116
No expiration but subject to limitation	6,903
Total	\$ 48,531

Federal net operating losses arising during and after 2018 are not subject to expiration; however, their usage is limited to 80% of taxable income during the year of use.

The Company's ability to use net operating loss carry forwards is subject to substantial limitation in future periods under certain provisions of Section 382 of the Internal Revenue Code of 1986, as amended, which limit the utilization of net operating losses upon a more than 50% change in ownership of the Company's stock that is held by 5% or greater stockholders. The Company examined the application of Section 382 with respect to an ownership change that took place during 2010, as well as the limitation on the application of net operating loss carry forwards. The Company believes that operating losses subsequent to the change date in 2010 (aggregating \$26.5 million) are not subject to Section 382 limitations. The Company has estimated that the annual limitation starting in 2010 aggregates from \$1.0 million to \$2.3 million per year including the effect of amortization of built in gains. The Company's loss carryforwards may be further limited in the future if additional ownership changes occur.

The Company is subject to the provisions of ASC 740-10-25, Income Taxes (ASC 740). ASC 740 prescribes a more likely-than-not threshold for the financial statement recognition of uncertain tax positions. ASC 740 clarifies the accounting for income taxes by prescribing a minimum recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. On a quarterly basis, the Company undergoes a process to evaluate whether income tax accruals are in accordance with ASC 740 guidance on uncertain tax positions.

Federal income tax returns for the years 2014 and 2015 have been examined by the U.S. Internal Revenue Service without any income tax expense consequences. For federal purposes (except for the years 2014 and 2015), post 1998 tax years remain open to examination as a result of net operating loss carryforwards. The Company is currently open to audit by the appropriate state income taxing authorities for tax years 2014 through 2018. The Company has not recorded any liability for uncertain tax positions at December 31, 2019 or December 31, 2018.

14. Legal and U.S. Regulatory Proceedings

To date, thirteen putative class action antitrust lawsuits have been filed against the Company along with co-defendants, including Taro Pharmaceuticals U.S.A., Inc. and Perrigo New York Inc., regarding the pricing of generic pharmaceuticals, including econazole nitrate. The class plaintiffs seek to represent nationwide or state classes consisting of persons who directly purchased, indirectly purchased, paid and/or reimbursed patients for the purchase of generic pharmaceuticals from as early as July 1, 2009 until the time the defendants' allegedly unlawful conduct ceased or will cease. The class plaintiffs seek treble damages for alleged overcharges during the alleged period of conspiracy, and certain of the class plaintiffs also seek injunctive relief against the defendants. The actions have been consolidated by the Judicial Panel on Multidistrict Litigation to the Eastern District of Pennsylvania for pre-trial proceedings as part of the *In re Generic Pharmaceuticals Pricing Antitrust Litigation* matter. On October 16, 2018 the court dismissed the class plaintiffs' claims against the Company with leave to replead. On December 21, 2018 the class plaintiffs filed amended complaints, which the Company moved to dismiss on February 21, 2019. This motion remains pending. On December 19, 2019 certain class plaintiffs filed a further complaint that included additional claims against the Company based on the Company's sales of fluocinolone acetonide. A motion to dismiss this complaint has not yet been filed. "Opt-out" antitrust lawsuits have additionally been filed against the Company by various plaintiffs, including Humana Inc.; The Kroger Co. et al.; United HealthCare Services, Inc.; Molina Healthcare, Inc.; MSP Recovery Claims, Series LLC; Health Care Service Corp.; and Harris County, Texas. All but one of these complaints have been consolidated into the *In re Generic Pharmaceuticals Pricing Antitrust Litigation* matter by the Judicial Panel on Multidistrict Litigation. Each of the opt-out complaints names up to forty-seven defendants (including the Company) and involves allegations regarding the pricing of econazole along with up to 180 other drug products, most of which were not manufactured or sold by the Company during the period at issue. The opt-out plaintiffs seek treble damages for alleged overcharges for the drug products identified in the complaint during the alleged period of conspiracy, and some also seek injunctive relief. A motion to dismiss the Humana Inc. and The Kroger Co., et al. opt-out complaints was filed on February 21, 2019. A motion to dismiss the remaining opt-out complaints has not yet been filed.

Due to the early stage of these cases, the Company is unable to form a judgment at this time as to whether an unfavorable outcome is either probable or remote or to provide an estimate of the amount or range of potential loss. The Company believes these cases are without merit and it intends to vigorously defend against these claims.

On October 20, 2017, a Demand for Arbitration was filed with the American Arbitration Association by Stayma Consulting Services, Inc. ("Stayma") against the Company regarding the Company's development and manufacture for Stayma of two generic drug products, one a lotion and one a cream, containing 0.05% of the active pharmaceutical ingredient flurandrenolide. The Company developed the two products and Stayma purchased commercial quantities of each; however, Stayma alleges that the Company breached agreements between the parties by developing an additional and different generic drug product, an ointment, containing flurandrenolide, and failing to meet certain contractual requirements. Stayma seeks monetary damages. The arbitrator has issued an interim award finding that the Company is not liable to Stayma on two of Stayma's three claims against the Company. The third claim will proceed to a damages phase. The Company has argued that Stayma did not suffer any damages related to this claim and will vigorously pursue complete dismissal of the third claim. In addition, the arbitrator will determine money damages owed by Stayma to the Company relating to Stayma's failure to pay several past due invoices of approximately \$1.7 million.

On December 13, 2018, Valdepharm SA filed a lawsuit alleging that the Company breached contracts regarding two drug products that the Company had sought to have Valdepharm manufacture. On February 12, 2019 the Company answered the complaint and counterclaimed, alleging that Valdepharm breached the contracts by failing to perform its work in compliance with FDA regulations and current Good Manufacturing Practices. Each party seeks damages associated with the alleged breach and related claims. Due to the early stage of the case the Company is unable to form a judgment at this time as to whether an unfavorable outcome is either probable or remote or to provide an estimate of the amount or range of potential loss. The Company believes the claims against Teligent are without merit, and it intends to vigorously defend against them.

On April 15, 2019 a federal class action was filed the Oklahoma Police Pension Fund and Retirement System against the Company and certain individual defendants in the U.S. District Court, Southern District of New York. The lawsuit was brought on behalf of persons or entities who purchased or otherwise acquired publicly-traded Teligent, Inc. securities from March 7, 2017 through November 6, 2017. The complaint alleges that defendants made false or misleading statements regarding the Company's business, operational, and compliance policies in violation of U.S. securities laws. The plaintiff seeks to recover compensable damages. Due to the early stage of these cases, the Company is unable to form a judgment at this time as to whether an unfavorable outcome is either probable or remote or to provide an estimate of the amount or range of potential loss. The Company believes these cases are without merit and it intends to vigorously defend against these claims.

15. Employee Benefits

The Company has a 401(k) contribution plan, pursuant to which employees may elect to contribute to the plan, in whole percentages, up to 100% of compensation. Employees' contributions are subject to a maximum contribution of \$19.0 thousand for 2019 and \$18.5 thousand for 2018, plus a catch-up contribution of up to for \$6.0 thousand for 2019 and 2018, if a participant qualifies. The Company matches 100% of the first 3% of compensation contributed by participants and 50% of the next 2% of compensation contributed by participants. The Company contribution is in the form of cash, which is vested immediately. The Company has recorded charges to expense related to this plan of \$368.7 thousand and \$358.2 thousand in 2019 and 2018, respectively.

17. Subsequent Events

COVID-19 Pandemic

In March 2020, the World Health Organization declared the outbreak of novel coronavirus disease (“COVID-19”) as a pandemic, and we expect our operations in all locations to be affected as the virus continues to proliferate. We have adjusted certain aspects of our operations to protect our employees while avoiding business interruption. Only employees essential to the production and quality control aspects of our products remain on-site at our manufacturing and production facility in Buena, New Jersey. The outbreak and any preventative or protective actions that we, our customers, suppliers or other third parties with which we have business relationships, or governments may take in respect of the COVID-19 outbreak could disrupt our business and the business of our customers. Global health concerns, such as COVID-19, could also result in social, economic, and labor instability in the countries in which we or the third parties with whom we engage operate. In addition, the COVID-19 outbreak could result in a severe economic downturn and has already significantly affected the financial markets of many countries. A severe or prolonged economic downturn or political disruption could result in a variety of risks to our business, including our ability to raise capital when needed on acceptable terms, if at all. A weak or declining economy or political disruption could also strain our suppliers or third party CMOs, possibly resulting in supply disruption, or cause our customers to delay purchases or payments for our products. The COVID-19 pandemic may also create delays in the review and approval of our regulatory submissions as well as our pending reinspection related to our warning letter and pre-approval inspection for commercial production on the newly installed injectable line at the Company’s New Jersey facility by the FDA.

We have initiated more frequent and detailed communications with our suppliers and the tracking of customer orders and wholesaler sell through data to help identify breaks in trends which may either facilitate the better servicing of our customers or negatively impact the achievement of our targets at risk. We will continue to monitor the situation closely and react accordingly to any future restrictions or limitations, while keeping the health of our employees and the interest of our customers and business in mind. Due to the uncertainty in the severity and duration of the pandemic, the impact on our revenues, profitability and statement of financial position is uncertain at this time.

Senior Credit Facilities Amendment

On April 6, 2020 (the “Amendment Closing Date”), the Company entered (i) Amendment No. 2 of the Revolver and Amendment No. 4 of the Term Loans, effective as of December 31, 2019. The amendments collectively among other things, (i) increase the interest rates, (ii) reset certain prepayment premiums and modify the terms of certain mandatory prepayments and (iii) modify certain financial covenant levels inclusive of the disposition of prior covenants as of and for the period ended December 31, 2019.

The associated increase in interest rates are effective as of the Amendment Closing Date. The Revolver bears interest at a fluctuating rate of interest equal to the one, two, three or six-month LIBOR plus a margin of 5.5% or a rate based on the prime rate plus a margin of 4.5%, with a LIBOR floor of 1.5%. The Term Loans bear interest at a fluctuating rate of interest equal to the one, two, three or six-month LIBOR plus a margin of 13.0% or a rate based on the prime rate plus a margin of 12.0%, with a LIBOR floor of 1.5%. Interest on the Senior Credit Facilities is payable in cash quarterly in arrears (or more frequently in connection with customary LIBOR interest provisions), provided, that the Company may elect (and has covenanted to the lenders under its Senior Credit Facilities and subsequent amendments thereto) to pay interest on the Term Loans in kind through December 13, 2021 but only if the following occurs: (1) the Company receives a “warning letter close-out letter” from the Federal Drug Administration in response to corrective actions taken by the Company since receipt of the warning letter in November 2019 and (2) the Company receives a written recommendation from the Federal Drug Administration setting forth its approval decision in respect of the pre-approval inspection for commercial production on the newly installed injectable line at the Company’s New Jersey facility. If only one of those items occurs by December 13, 2020, then the Company may still elect to pay interest in kind during 2021, but only from the time the second condition has been satisfied until December 13, 2021. Thereafter, a portion of interest on the loans accruing at a rate of 4.25% per annum may continue to be paid in kind.

Both amendments provide that in the event of receipt of net proceeds from a disposition triggering a mandatory prepayment, net proceeds of such disposition will be applied as follows: (i) first, to be retained by the Company or applied to amounts outstanding under the First Lien Credit Agreement until such time as liquidity of the Company and its subsidiaries equals

\$10.0 million, (ii) next to amounts outstanding under the Revolver (without a permanent reduction in the revolving loan commitments of the lenders) until such amounts are paid in full (with the first lien administrative agent having the right to waive such prepayment, in which event, such net proceeds are applied to amounts outstanding under the Second Lien Credit Agreement), and (iii) finally, to amounts outstanding under the Term Loans. In addition, pursuant to the Revolver, the Company has agreed at all times to maintain book cash of the Company and its subsidiaries not in excess of \$10.0 million with any excess being required to prepay the outstanding obligations under the Revolver.

The following additions and changes to financial covenants set forth in both Amendments are: (i) a new minimum net revenue covenant is added that is tested on the last day of each fiscal quarter from March 31, 2020 until the quarter ending December 31, 2020, (ii) resets a minimum consolidated adjusted EBITDA covenant that is tested on the last day of each fiscal quarter ending during the period from March 31, 2021 to maturity, (iii) eliminates a total net leverage covenant and (iv) adds a minimum liquidity covenant tested at all times during the term of the Senior Credit Facilities.

In connection with the transactions contemplated by the Term Loan Amendment, on April 6, 2020, the Company issued to the Term Loan lenders certain warrants to purchase shares of the Company's common stock (collectively, the "Warrants"). The Warrants are exercisable for up to, in the aggregate, 5,389,949 of pre-reverse stock split shares of the Company's common stock at an exercise price of \$0.01 per share of common stock. The Warrants will become exercisable at any time after the Company implements the reverse stock split previously approved by its stockholders and will remain exercisable, in whole or in part, for a period of five years.

The number of shares issuable upon the exercise of the Warrants is subject to customary adjustments upon the occurrence of certain events, including (i) payment of a dividend or distribution to holders of shares of the Company's common stock payable in shares of the Company's common stock, (ii) a subdivision, capital reorganization or reclassification of the Company's common stock or (iii) a merger, sale or other change of control transaction.

Special Note Regarding Forward-Looking Statements

This Annual Report on Form 10-K contains “forward-looking statements” — that is, statements related to future, not past, events — as defined in Section 21E of the Securities Exchange Act of 1934, as amended, that reflect our current expectations regarding our future growth, results of operations, business strategy and plans, financial condition, cash flows, performance, development plans and timelines, business prospects, and opportunities, as well as assumptions made by, and information currently available to, our management. Forward-looking statements include any statement that does not directly relate to a current or historical fact. Forward-looking statements generally can be identified by words such as “believe,” “may,” “could,” “will,” “estimate,” “continue,” “anticipate,” “intend,” “seek,” “plan,” “expect,” “should,” “would”, or similar expressions. These statements are based on current expectations and assumptions that are subject to risks and uncertainties inherent in our business, which could cause our actual results to differ materially from those indicated in the forward-looking statements. Factors that could cause actual results to differ materially from those indicated in the forward-looking statements include, without limitation: our ability to successfully execute our sales and marketing strategy, including continuing to successfully recruit and retain sales and marketing personnel and to successfully build the market for our medicines; our ability to build a sustainable pipeline of new medicine candidates; whether we will be able to realize the expected benefits of strategic transactions, including whether and when such transactions will be accretive to our net income; the rate and degree of market acceptance of, and our ability and our distribution and marketing partners’ ability to obtain coverage and adequate reimbursement and pricing for, our medicines from government and third-party payers and risks relating to the success of our patient assistance programs; the scope and duration of impacts of the COVID-19 pandemic on our business, our industry and the economy; our ability to maintain regulatory approvals for our medicines; our ability to conduct clinical development and obtain regulatory approvals for our medicine candidates, including potential delays in initiating and completing studies and filing for and obtaining regulatory approvals and whether data from clinical studies will support regulatory approval; our need for and ability to obtain additional financing; the accuracy of our estimates regarding future financial results; our ability to successfully execute our strategy to develop or acquire additional medicines or companies, including disruption from any future acquisition or whether any acquired development programs will be successful; our ability to manage our anticipated future growth; the ability of our medicines to compete with generic medicines, especially those representing the active pharmaceutical ingredients in our medicines as well as new medicines that may be developed by our competitors; our ability and our distribution and marketing partners’ ability to comply with regulatory requirements regarding the sales, marketing and manufacturing of our medicines and medicine candidates; the performance of our third-party distribution partners, licensees and manufacturers over which we have limited control; our ability to obtain and maintain intellectual property protection for our medicines; our ability to defend our intellectual property rights with respect to our medicines; our ability to operate our business without infringing the intellectual property rights of others; the loss of key commercial or management personnel; regulatory developments in the United States and other countries, including potential changes in healthcare laws and regulations; and other risks detailed below in Part I — Item 1A. “Risk Factors”.

Although we believe that the expectations reflected in our forward-looking statements are reasonable, we cannot guarantee future results, events, levels of activity, performance or achievement. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by law.

Risk Factors Summary

Our business faces significant risks and uncertainties. If any of the following risks are realized, our business, financial condition and results of operations could be materially and adversely affected. You should carefully review and consider the full discussion of our risk factors in the section titled “Risk Factors” in Part I, Item 1A of this Annual Report on Form 10-K. Set forth below is a summary list of the principal risk factors as of the date of the filing this Annual Report on Form 10-K:

- The COVID-19 global pandemic has and may continue to adversely impact our business, including the commercialization of our medicines, our supply chain, our clinical trials, our liquidity and access to capital markets and our business development activities.
- Our ability to generate revenues from our medicines is subject to attaining significant market acceptance among physicians, patients and healthcare payers.
- Our future prospects are highly dependent on our ability to successfully develop and execute commercialization strategies for each of our medicines. Failure to do so would adversely impact our financial condition and prospects.
- In order to increase adoption and sales of our medicines, we will need to continue developing our commercial organization as well as recruit and retain qualified sales representatives.

make it difficult for us to sell our medicines profitably or to successfully execute planned medicine price increases.

- Our medicines are subject to extensive regulation, and we may not obtain additional regulatory approvals for our medicines.
- We may be subject to penalties and litigation and large incremental expenses if we fail to comply with regulatory requirements or experience problems with our medicines.
- We rely on third parties to manufacture commercial supplies of all of our medicines, and we currently intend to rely on third parties to manufacture commercial supplies of any other approved medicines. The commercialization of any of our medicines could be stopped, delayed or made less profitable if those third parties fail to provide us with sufficient quantities of medicine or fail to do so at acceptable quality levels or prices or fail to maintain or achieve satisfactory regulatory compliance.
- Clinical development of drugs and biologics involves a lengthy and expensive process with an uncertain outcome, and results of earlier studies and trials may not be predictive of future trial results.
- If we fail to develop or acquire other medicine candidates or medicines, our business and prospects would be limited.
- We are subject to ongoing obligations and continued regulatory review by the FDA and equivalent foreign regulatory agencies, which may result in significant additional expense and significant penalties if we fail to comply with regulatory requirements or experience unanticipated problems with our medicines.
- We are subject to federal, state and foreign healthcare laws and regulations and implementation or changes to such healthcare laws and regulations could adversely affect our business and results of operations.
- If we are unable to obtain or protect intellectual property rights related to our medicines and medicine candidates, we may not be able to compete effectively in our markets.

Item 1. Business

Unless otherwise indicated or the context otherwise requires, references to the “Company”, “we”, “us” and “our” refer to Horizon Therapeutics plc and its consolidated subsidiaries.

Overview

We are focused on researching, developing and commercializing medicines that address critical needs for people impacted by rare and rheumatic diseases. Our pipeline is purposeful: we apply scientific expertise and courage to bring clinically meaningful therapies to patients. We believe science and compassion must work together to transform lives.

Horizon is a leading high-growth, innovation-driven, profitable biotech company. We are focused on rare diseases, delivering innovative therapies to patients and generating value for our shareholders. Our strategy is to expand our development-stage pipeline for long-term sustainable growth and maximize the benefit and value of our on-market medicines, with particular focus on our key growth drivers TEPEZZA® and KRYSTEXXA®, both rare disease medicines. Our vision is to build healthier communities, urgently and responsibly, which we believe generates value for our many stakeholders, including our shareholders.

We have significantly transformed Horizon since our beginnings as a public company in 2011, when we had two on-market medicines and total net sales of approximately \$7.0 million. In a span of only nine years, we have evolved to a profitable, biotech company with eleven on-market medicines, seven of them for the treatment of rare diseases, total net sales in 2020 of \$2.2 billion, and a growing pipeline with 14 development programs.

We have achieved this transformation by first building a strong commercial business as our foundation, then using the resulting cash flows to build our portfolio of rare disease medicines, including the acquisition of KRYSTEXXA, which we transformed into a key growth driver, and then building our development-stage pipeline, primarily through business development. Our second key growth driver, TEPEZZA, is the result of our acquisition of River Vision Development Corp., or River Vision, in 2017, when TEPEZZA was a late-stage development candidate.

We are executing on our strategy to expand our pipeline and maximize the value of our on-market medicines by leveraging the three elements that we believe set Horizon apart and are key to our success: (i) our excellence in commercial execution; (ii) our proven and disciplined business development strategy; and (iii) our strong clinical development capability. Through our commercial execution, we seek to accelerate the growth trajectory and maximize the potential of our medicines. Through our strong in-house business development capability, we acquire medicines focused on opportunities in which we believe we are uniquely positioned to drive value. We also leverage the deep collective drug development experience of our research and development organization using an agile approach to continually innovate our existing medicines and develop new medicines.

We have two reportable segments, (i) the orphan segment (previously the orphan and rheumatology segment), our strategic growth business, and (ii) the inflammation segment, and we report net sales and segment operating income for each segment.

Our Company

We are a public limited company formed under the laws of Ireland. We operate through a number of U.S. and other international subsidiaries with principal business purposes to perform research and development or manufacturing operations, serve as distributors of our medicines, hold intellectual property assets or provide us with services and financial support.

Our principal executive offices are located at Connaught House, 1st Floor, 1 Burlington Road, Dublin 4, D04 C5Y6, Ireland and our telephone number is 011 353 1 772 2100. Our website address is www.horizontherapeutics.com. Information found on, or accessible through, our website is not a part of, and is not incorporated into, this Annual Report on Form 10-K.

Acquisitions and Divestitures

Since January 1, 2018, we completed the following acquisitions and divestitures:

- On October 27, 2020, we sold our rights to develop and commercialize RAVICTI® and BUPHENYL® in Japan to Medical Need Europe AB, part of the Immedica Group, or Immedica. On December 28, 2018, we sold our rights to RAVICTI and AMMONAPS® (known as BUPHENYL in the United States and Japan) outside of North America and Japan to Immedica. We have retained the rights to RAVICTI and BUPHENYL in North America.
- On April 1, 2020, we acquired Curzion Pharmaceuticals, Inc., or Curzion, a privately held development-stage biopharma company, and its development-stage oral selective lysophosphatidic acid 1 receptor (LPAR1) antagonist, CZN001 (renamed HZN-825), for an upfront payment with additional payments contingent on the achievement of development and regulatory milestones.

Horizon Therapeutics plc Completes Acquisition of Viela Bio, Inc.

March 15, 2021

DUBLIN—(BUSINESS WIRE)—Mar. 15, 2021— Horizon Therapeutics plc (Nasdaq: HZNP) today announced that it has completed the acquisition of Viela Bio, Inc. (Nasdaq: VIE) ("Viela").

"The Viela acquisition provides multiple opportunities to drive long-term growth and solidify our future as an innovation-driven biotech company," said Tim Walbert, chairman, president and chief executive officer, Horizon. "With its deep, mid-stage biologics pipeline, strong R&D team and on-market medicine UPLIZNA®, Viela is a strong complementary strategic fit with our pipeline, commercial portfolio and therapeutic areas of focus. It also gives us tremendous potential to make an even greater impact on the lives of people with rare, autoimmune and severe inflammatory diseases."

Strategic Rationale

- Adds to commercial rare disease medicine portfolio with UPLIZNA (inebilizumab-cdon)
 - UPLIZNA is the first and only FDA-approved B-cell-depleting humanized monoclonal antibody for the treatment of neuromyelitis optica spectrum disorder (NMOSD), a rare, severe, autoimmune disease that attacks the optic nerve, spinal cord and brain stem, which leads to loss of vision and paralysis, in adults who are anti-aquaporin-4 (AQP4) antibody positive.
- Strengthens current R&D capability by adding a team with early-stage research, translational and clinical development capabilities along with deep scientific knowledge in autoimmune and severe inflammatory diseases.
- Adds deep, mid-stage biologics pipeline focused primarily on autoimmune and severe inflammatory diseases.
 - The current Viela pipeline includes four therapeutic candidates currently in nine development programs.
 - **UPLIZNA**
 - Phase 3 trials in myasthenia gravis, a chronic, rare autoimmune neuromuscular disease and in IgG4-related disease, a group of disorders marked by tumor-like swelling and fibrosis of affected organs.
 - Phase 2 trial for kidney transplant desensitization (paused due to COVID-19).
 - **VIB4920**
 - Investigational fusion protein designed to block a key co-stimulatory pathway involved in many autoimmune and inflammatory diseases.
 - Phase 2b trial in Sjögren's syndrome and Phase 2 trials for kidney transplant rejection and rheumatoid arthritis.
 - **VIB7734**
 - Investigational human monoclonal antibody designed to deplete plasmacytoid dendritic cells (pDCs), a cell type believed to be critical to the pathogenesis of multiple autoimmune diseases.
 - Phase 2 trial for systemic lupus erythematosus (SLE) expected to begin in the first half of 2021.
 - Phase 1 study for the treatment of COVID-19-related acute lung injury.
 - **VIB1116**
 - Monoclonal antibody for autoimmune diseases expected to begin Phase 1 first-in-human trial in mid-2021.

Transaction details

The acquisition was structured as a two-step cash tender offer for all the issued and outstanding shares of Viela common stock at a price of \$53.00 per share. As of the expiration of the tender offer at one minute following 11:59 p.m. Eastern Time on March 12, 2021, the depositary for the tender offer advised Horizon and Viela that stockholders holding approximately 94% of the outstanding shares of common stock of Viela had tendered their shares, satisfying the minimum condition to consummate the tender offer. All of the conditions to the offer have been satisfied and on March 13, 2021, Teiripic Merger Sub, Inc., an indirect wholly owned subsidiary of Horizon ("Purchaser"), accepted for payment and will promptly pay for all shares validly tendered and not validly withdrawn prior to the expiration of the tender offer.

Also, on March 15, 2021, following its acceptance of the tendered shares, Horizon completed its acquisition of Viela through the merger of Purchaser with and into Viela without a vote of Viela's stockholders pursuant to Section 251(h) of the Delaware General Corporation Law ("DGCL"). As a result of the merger, Viela became an indirect wholly owned subsidiary of Horizon. In connection with the merger, all Viela shares not validly tendered into the tender offer (other than shares owned by Viela, Horizon Therapeutics USA, Inc. ("Parent") or Purchaser or any direct or indirect wholly owned subsidiary of Viela, Parent or Purchaser, which were cancelled and retired and ceased to exist, and no consideration delivered in exchange therefor) have been cancelled and (other than any shares held by holders who are entitled to appraisal rights under Section 262 of the DGCL and who had

properly exercised and perfected their respective demands for appraisal of such shares in the time and manner provided in Section 262 of the DGCL and, as of the effective time of the merger, had neither effectively withdrawn nor lost their rights to such appraisal and payment under the DGCL) converted into the right to receive the same \$53.00 per share, net to the holder thereof, in cash, without interest, subject to any applicable withholding taxes, as will be paid for all shares that were validly tendered (and not validly withdrawn) in the tender offer. Viela common stock will cease to be traded on the Nasdaq Global Select Market. Horizon anticipates the transaction will reduce its adjusted EBITDA by approximately \$140 million in 2021, nearly all of which is attributable to increased R&D investment.

In addition, Elizabeth H.Z. Thompson, Ph.D., has been promoted to executive vice president, research and development and will lead the day-to-day operations for the Horizon pipeline. Jörn Drappa, M.D., Ph.D., has been named executive vice president, research and development and will lead the day-to-day operations for the Viela pipeline. Jörn was the former chief medical officer and head of research and development at Viela. Karin Rosén, M.D., Ph.D. is no longer with the company.

About Neuromyelitis Optica Spectrum Disorders (NMOSD)

NMOSD is a unifying term for neuromyelitis optica (NMO) and related syndromes. NMOSD is a rare, severe, relapsing, neuroinflammatory autoimmune disease that attacks the optic nerve, spinal cord and brain stem. Approximately 80% of all patients with NMOSD test positive for anti-AQP4 antibodies.

These AQP4 autoantibodies are produced by CD19+ B cells and bind primarily to astrocytes in the central nervous system. Binding of AQP4 antibodies to central and peripheral nervous system cells is believed to trigger attacks, which can damage the optic nerve, spinal cord and brain. Loss of vision, paralysis, loss of sensation, bladder and bowel dysfunction, nerve pain and respiratory failure can all be manifestations of the disease. Each NMOSD attack can lead to further damage and disability. NMOSD occurs more commonly in women and may be more common in individuals of African and Asian descent.

About UPLIZNA

INDICATION

UPLIZNA is indicated for the treatment of neuromyelitis optica spectrum disorder (NMOSD) in adult patients who are anti-aquaporin-4 (AQP4) antibody positive.

IMPORTANT SAFETY INFORMATION

UPLIZNA is contraindicated in patients with:

- A history of life-threatening infusion reaction to *UPLIZNA*
- Active hepatitis B infection
- Active or untreated latent tuberculosis

WARNINGS AND PRECAUTIONS

Infusion Reactions: UPLIZNA can cause infusion reactions, which can include headache, nausea, somnolence, dyspnea, fever, myalgia, rash or other symptoms. Infusion reactions were most common with the first infusion but were also observed during subsequent infusions. Administer pre-medication with a corticosteroid, an antihistamine and an anti-pyretic.

Infections: The most common infections reported by UPLIZNA-treated patients in the randomized and open-label periods included urinary tract infection (20%), nasopharyngitis (13%), upper respiratory tract infection (8%) and influenza (7%). Delay UPLIZNA administration in patients with an active infection until the infection is resolved.

Increased immunosuppressive effects are possible if combining UPLIZNA with another immunosuppressive therapy.

The risk of hepatitis B virus (HBV) reactivation has been observed with other B-cell-depleting antibodies. Perform HBV screening in all patients before initiation of treatment with UPLIZNA. Do not administer to patients with active hepatitis.

Although no confirmed cases of Progressive Multifocal Leukoencephalopathy (PML) were identified in UPLIZNA clinical trials, JC virus infection resulting in PML has been observed in patients treated with other B-cell-depleting antibodies and other therapies that affect immune competence. At the first sign or symptom suggestive of PML, withhold UPLIZNA and perform an appropriate diagnostic evaluation.

Patients should be evaluated for tuberculosis risk factors and tested for latent infection prior to initiating UPLIZNA.

Vaccination with live-attenuated or live vaccines is not recommended during treatment and after discontinuation, until B-cell repletion. Reduction in Immunoglobulins: There may be a progressive and prolonged hypogammaglobulinemia or decline in the levels of total and individual immunoglobulins such as immunoglobulins G and M (IgG and IgM) with continued UPLIZNA treatment. Monitor the level of immunoglobulins at the beginning, during, and after discontinuation of treatment with UPLIZNA until B-cell repletion especially in patients with opportunistic or recurrent infections.

Fetal Risk: May cause fetal harm based on animal data. Advise females of reproductive potential of the potential risk to a fetus and to use an effective method of contraception during treatment and for 6 months after stopping UPLIZNA.

Adverse Reactions: The most common adverse reactions (at least 10% of patients treated with UPLIZNA and greater than placebo) were urinary tract infection and arthralgia.

For additional information on UPLIZNA, please see Prescribing Information at www.UPLIZNA.com.

Note Regarding Use of Non-GAAP Financial Measures

EBITDA, or earnings before interest, taxes, depreciation and amortization, adjusted EBITDA and non-GAAP adjusted net sales are used and provided by Horizon as non-GAAP financial measures. Adjusted EBITDA and non-GAAP adjusted net sales are intended to provide additional information on Horizon's performance, operations, profitability and cash flows. Adjustments to Horizon's GAAP figures as well as EBITDA exclude acquisition-related expenses, an upfront fee for a license of a patent and settlement amounts in relation to prior litigation, as well as non-cash items such as share-based compensation, depreciation and amortization, royalty accretion, non-cash interest expense and other non-cash adjustments. Certain other special items or substantive events may also be included in the non-GAAP adjustments periodically when their magnitude is significant within the periods incurred. Horizon maintains an established non-GAAP cost policy that guides the determination of what costs will be excluded in non-GAAP measures. Horizon believes that these non-GAAP financial measures, when considered together with the GAAP figures, can enhance an overall understanding of Horizon's financial and operating performance. The non-GAAP financial measures are included with the intent of providing investors with a more complete understanding of Horizon's expected 2021 financial results and trends and to facilitate comparisons between periods and with respect to projected information. In addition, these non-GAAP financial measures are among the indicators Horizon's management uses for planning and forecasting purposes and measuring Horizon's performance. For example, adjusted EBITDA is used by Horizon as one measure of management performance under certain incentive compensation arrangements. These non-GAAP financial measures should be considered in addition to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. The non-GAAP financial measures used by Horizon may be calculated differently from, and therefore may not be comparable to, non-GAAP financial measures used by other companies. Horizon has not provided reconciliations of its full-year 2021 adjusted EBITDA outlook to an expected net income (loss) outlook because certain items, such as acquisition-related expenses and share-based compensation, that are a component of net income (loss) and impact GAAP income taxes expenses, cannot be reasonably estimated at this time or projected due to the significant impact of changes in Horizon's share price and forecasted full-year income by country, the variability associated with the size or timing of acquisitions and other factors. These components of net income (loss) could significantly impact Horizon's actual net income (loss).

Forward-Looking Statements

This press release contains forward-looking statements, including, but not limited to, statements related to the expected benefits of the Viela acquisition, Horizon's strategy, plans, objectives, expectations (financial or otherwise) and intentions, future financial results and growth potential, including Horizon's expected full-year 2021 net sales, non-GAAP adjusted net sales and adjusted EBITDA, expected patent terms, development programs and other statements that are not historical facts. These forward-looking statements are based on Horizon's current expectations and inherently involve significant risks and uncertainties. To Whom It May Concern:

On behalf of Y-mAbs Therapeutics, Inc. ("Y-mAbs"), attached is Y-mAbs's application for Wholesaler.

Y-mAbs is a late-stage clinical biopharmaceutical company focused on the development and commercialization of antibody-based therapeutic products for the treatment of cancer. The Company has a broad and advanced product pipeline, including 2 pivotal-stage product candidates—naxitamab and omburtamab—which target tumors that express GD2 and B7-H3, respectively. Both have been recognized by the FDA, as they were recently granted breakthrough therapy designation to expedite the development and review of the drugs.

Y-mAbs is a "Virtual Manufacturer". Their product is manufactured by a contract manufacturer and distributed by a Third-Party Logistics Provider, who meets licensure requirements to ship pharmaceutical products into your state. Therefore, at no time does Y-mAbs physically manufacture or distribute product. Y-mAbs's product is not a controlled substance. Accordingly, Y-mAbs is not required to obtain a DEA registration.

I hope this narrative is helpful as you review Y-mAbs application. If you have a question regarding this application, please contact me at Krista.Jones@twolabs.com. Please also address all written communication to me. My address is 210 Victorian Drive, Commercial Point, OH, 43116

Please note that the disciplinary actions described below do NOT pertain to operations at the location set forth in this application.

McKesson Corporation and its subsidiaries (hereinafter “McKesson”) delivers pharmaceutical and medical products and business services to retail pharmacies and institutional providers like hospitals and health systems throughout North America and globally. Over the past 185 years, McKesson has developed multiple businesses that operate pharmacies, medical supply distribution centers, wholesale drug distribution centers, 3PL facilities, repackaging facilities, and other entities subject to federal and state regulation. Currently, McKesson owns and operates over 97 facilities in the United States that are licensed, permitted, or registered with the respective state agency with jurisdiction over its business type. Due to the breadth of its operations, it is practical that we limit this summary to disciplinary actions taken against these facilities during the last five years or the time frame specified in the question. *The information in this statement is provided to the best of our knowledge and belief and includes all public disciplinary actions. This statement does not include any fines that are deemed non-disciplinary by the issuing state (for example, it does not include non-disciplinary Citations and Fines issued by California). Please let us know if your state requires information regarding non-disciplinary fines.*

In 2015, **McKesson** entered into a Final Consent Order with the Maryland Board of Pharmacy concerning Landover DC. The Final Consent Order resolved allegations that, from January 2009 – December 2009, McKesson’s Landover DC purchased approximately \$2.5 million of prescription drugs/devices from an unlicensed wholesale distributor. Since the period when the alleged violations occurred, McKesson has made numerous enhancements and significant additional investments in its compliance program related to the acquisition and distribution of pharmaceutical drug products. McKesson paid a \$15,000 fine in June 2015.

In April 2016 the **McKesson Medical-Surgical Inc.** Clear Brook, VA facility, which is a wholly-owned subsidiary of McKesson Corporation, was fined by the California Board of Pharmacy for failure to report a new Designated Representative within 30 days of change. McKesson paid \$200 fine. The fine is related to a non-disciplinary action.

In September 2016, **McKesson Medical Surgical, Inc.** entered into a Consent Agreement for a \$2,750 fine with the Louisiana Board of Drug and Device concerning its St. Rose, Louisiana distribution center (the “St. Rose DC”). McKesson Medical Surgical, Inc agreed that it failed to maintain copies of current licenses for customers that are shipped or sold drugs or devices, or, if customer licenses are maintained offsite, by failing to maintain at the licensed distribution location a list of customer names, addresses, license numbers, and license expiration dates for all customers that are shipped or sold drugs or devices.

In 2016 **McKesson Corporation** was fined by the California Board of Pharmacy related to the fact that its Washington Court House, OH distribution center failed to timely notify the state of California when their designated representative left the company. The designated representative required by the home state was always in place. The new designated representative is now and has

been since August 6, 2014 fully licensed. McKesson paid \$400 fine. The fine is related to a non-disciplinary action.

In 2016 **McKesson Medical-Surgical Inc.** a wholly-owned subsidiary of McKesson Corporation was fined by the California Board of Pharmacy at its Clear Brook, VA location for failure to report a new Designated Representative within 30 days of change. McKesson paid \$200 fine. The fine is related to a non-disciplinary action.

In January 2017, **McKesson** entered into an agreement (the "DEA Settlement") with the DEA and DOJ to settle all potential administrative and civil claims stemming from investigation into McKesson's practices for identifying and reporting suspicious orders of controlled substances, beginning in 2009. Under the settlement McKesson agreed to pay \$150 million and to implement remedial measures related to its controlled substances monitoring program. In addition, the following distribution centers' DEA registrations were or will be suspended for the following specified products and time periods: Aurora, Colorado - all controlled substances from January 17, 2017 to January 17, 2020; Livonia, Michigan - all controlled substances from January 17, 2017 to January 17, 2019; Washington Court House, Ohio - all controlled substances for the two-year period following completion of the Livonia suspension, from February 17, 2019 to February 17, 2021; and Lakeland, Florida - hydromorphone products from January 17, 2017 to January 17, 2018. The terms of the suspensions of the Livonia, Washington Court House, and Lakeland facilities permit those distribution centers to continue shipping controlled substances to customers that purchase products under McKesson's contract with the Department of Veterans Affairs.

In March 2017, in response to the DEA Settlement, the New York State Department of Health, Bureau of Narcotic Enforcement, suspended the Class 2A (Out-of-State) controlled substance license for **McKesson's** Livonia, Michigan distribution center. The permit was suspended until January 1, 2019, consistent with the suspension timeframes of the DEA Settlement. No other suspensions or fines were issued, and the New York action aligned with the suspension periods and expectations agreed to in the DEA Settlement.

In June 2017, in response to the DEA Settlement, the Idaho Board of Pharmacy suspended the Controlled Substance Registrations of **McKesson** distribution centers in Washington Court House, Ohio and the Livonia, Michigan. The Livonia Idaho controlled substance registration was suspended for two years, effective 6/17/17 to 1/17/19. The Washington Court House Idaho controlled substance registration is suspended for two years, effective 1/18/19 to 1/18/21. No other suspensions or fines were issued, and the Idaho action aligns with the suspension periods and expectations agreed to in the DEA Settlement.

In September 2017, in response to the DEA Settlement, the Colorado State Board of Pharmacy placed the wholesaler registration of **McKesson's** distribution center in Aurora, Colorado (14500 39th Ave) on probation. McKesson also agreed to pay a fine of \$45,000, with an additional surcharge of 15%, totaling \$51,750. No other suspensions or fines were issued.

In November 2017, in response to the DEA Settlement, the Louisiana Board of Pharmacy suspended the Controlled Substance Registrations of **McKesson** distribution centers in Washington Court House, Ohio and the Livonia, Michigan. The Livonia Louisiana controlled substance registration was suspended for two years, effective 6/17/17 to 1/17/19. The Washington Court House Louisiana controlled substance registration is suspended for two years, effective

1/18/19 to 1/18/21. McKesson also agreed to reimburse the Louisiana Board \$250.00 for administrative costs. No other suspensions or fines were issued, and the Louisiana action aligns with the suspension periods and expectations agreed to in the DEA Settlement.

In December 2017, in response to the DEA Settlement, the New Hampshire Board of Pharmacy suspended the right of **McKesson's** distribution centers in Washington Court House, Ohio and Livonia, Michigan to distribute controlled substances. The Livonia distribution center's ability to distribute controlled substance was suspended, effective 12/12/17 to 1/17/19. The Washington Court House distribution center's ability to distribute controlled substance will be suspended for two years, effective 1/18/19 to 1/18/21. McKesson also agreed to pay an administrative fine of \$2,000.00. No other suspensions or fines were issued, and the New Hampshire action aligns with the suspension periods and expectations agreed to in the DEA Settlement.

In February 2018, in response to the DEA Settlement, the Florida Department of Business & Professional Regulation and **McKesson Corporation** (Lakeland distribution center) entered in a Settlement Agreement as disposition of an alleged violation of Section 499.0121(10), Florida Statutes (2008-2017), by operating not in compliance with applicable federal laws and regulations. McKesson also agreed to pay a settlement amount of \$10,000.00. No other suspensions or fines were issued.

On March 14, 2018, in response to the DEA Settlement, the Iowa Board of Pharmacy voted to issue Controlled Substance Act registrations for two of **McKesson Corporation's** distribution centers. The Board issued the registrations pursuant to Controlled Substances Act Registration by Consent Agreements (the "Agreements"). The Agreements are applicable only to the registrations and do not impose discipline upon the distribution center's wholesale permits. The general terms of the Agreements are summarized below:

- Livonia, Michigan - the facility's Iowa controlled substance registration was issued but was restricted. The facility was prohibited from distributing controlled substances into the state until 1/17/2019 except for various exceptions that mirror exceptions in the DEA settlement; and
- Washington Court House, Ohio - the facility's Iowa controlled substance registration was issued but is restricted and the facility will be prohibited from distributing controlled substances into the state from 1/18/19 to 1/18/2021 except for various exceptions that mirror exceptions in the DEA settlement.

On March 20, 2018, in response to the DEA Settlement, the Maryland State Board of Pharmacy suspended the right of **McKesson's** distribution center in Washington Court House, Ohio to distribute controlled substances. The distribution center's ability to distribute controlled substance will be suspended for two years, effective 1/18/19 to 1/18/21. No other suspensions or fines were issued, and the Maryland action aligns with the suspension periods and expectations agreed to in the DEA Settlement.

On April 9, 2018, in response to the DEA Settlement, **McKesson** entered into stipulations with the Utah Board of Pharmacy. The stipulations apply to the McKesson distribution centers located in Washington Court House, Ohio and Aurora, Colorado. The Washington Court House

facility's right to distribute controlled substances into Utah has been suspended effective 1/18/2019 to 1/18/2021 and the Aurora facility's right to distribute controlled substances into Utah has been suspended from 4/9/2018 to 1/17/2020. The Utah Board of Pharmacy's action mirrors the suspension and exceptions agreed to in McKesson's settlement with the DEA Settlement.

In 2018 May **McKesson Corporation** was fined by the California Board of Pharmacy related to the fact that its Memphis, TN distribution center failed to timely notify the state of California when their designated representative left the company. The designated representative required by the home state was always in place. The new designated representative is now and has been since December 1, 2017 fully licensed. McKesson paid \$1,000 fine. The fine is related to a non-disciplinary action.

On May 31, 2018, in response to the DEA Settlement, **McKesson** entered into a consent agreement with the Oregon Board of Pharmacy (the "Oregon Consent"). The Oregon Consent applies to the McKesson distribution center located in Washington Court House, Ohio. The Washington Court House facility's right to distribute controlled substances into Oregon has been suspended effective 1/18/2019 to 1/18/2021. The suspension period imposed by Oregon aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

On November 7, 2018, the Colorado Department of Regulatory Agencies cited **McKesson Medical-Surgical Inc.** concerning its Denver, Colorado distribution center for failure to submit in a timely manner, an application to the Board detailing a change of designated representative. A fine of \$1,150 was imposed and paid November 29, 2018. The Board released McKesson Medical-Surgical Inc. from the terms and conditions of the December 6, 2018, Stipulation and Final Agency Order and restored the Registration to unencumbered status.

On December 17, 2018, in response to the DEA Settlement, **McKesson** entered into a consent agreement with the Virginia Board of Pharmacy (the "Virginia Consent"). The Virginia Consent applies to the McKesson distribution center located in Livonia, Michigan. The Livonia facility's right to distribute controlled substances into Virginia was suspended until 1/17/2019. The suspension period imposed by Virginia aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

On January 14, 2019 **McKesson Corporation** entered into a settlement for a payment of \$10,000 on behalf of a now-closed facility in Connecticut. This settlement arose from the failure of employees of McKesson's contracted local delivery carrier to secure their vehicles when making deliveries within Connecticut. Importantly, there were never any reports of theft or loss based on this failure and McKesson's contract with the local delivery carrier specifically required security measures, including the securing of vehicles.

On February 27, 2019, in response to the DEA Settlement, **McKesson** entered into a consent agreement with the Wisconsin Pharmacy Examining Board (the "Wisconsin Consent"). Under the terms of the consent, the Livonia, Michigan facility was fined and the facility's right to distribute controlled substances into Wisconsin was suspended from 1/17/17 to 1/17/19. The Washington Court House, Ohio facility was fined and the facility's ability to distribute controlled substances into Wisconsin has been suspended effective 1/17/19 to 1/17/2021. The suspension

period imposed by Wisconsin aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

On March 1, 2019, the Ohio Board of Pharmacy sent a Notice of Opportunity for Hearing to the **McKesson Medical-Surgical Inc.** distribution center in Urbancrest, OH, which outlined the allegations and provided notice of its right to a hearing, its rights in such hearing, and its right to submit contentions in writing. The allegations relate to an investigation that McKesson Medical-Surgical Inc. shipped dangerous drugs to an unlicensed site in September 2017. A monetary penalty of \$4,5000 was imposed and paid on March 27, 2019.

On May 10, 2019, in response to the DEA Settlement, **McKesson** entered into the stipulated agreement with the New Mexico Board of Pharmacy (the "New Mexico Agreement"). The New Mexico Agreement applies to the McKesson distribution center located in Washington Court House, Ohio. The facility's ability to distribute controlled substances into New Mexico has been suspended until February 16, 2021. The suspension period imposed by New Mexico aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

On May 21, 2019, in response to the DEA Settlement, **McKesson** entered into a consent order with the Alabama Board of Pharmacy (the "Alabama Consent"). The Alabama Consent applies to the McKesson distribution centers located in Washington Court House, Ohio and Livonia, Michigan. Under the terms of the Alabama Consent, each facility was subject to a fine of fifteen thousand dollars (\$15,000).

On June 10, 2019, in response to the DEA Settlement, **McKesson** entered into a consent agreement with the Virginia Board of Pharmacy (the "WCH Virginia Consent"). The WCH Virginia Consent applies to the McKesson distribution center located in Washington Court House, Ohio. The facility's right to distribute controlled substances into Virginia has been suspended from June 10, 2019 to February 16, 2021. The WCH Virginia Consent originates from McKesson's report to Virginia of settlements that McKesson entered into with the DEA and Louisiana Board of Pharmacy.

On July 29, 2019, in response to the DEA Settlement, the California Board of Pharmacy approved a Stipulated Settlement and Disciplinary Order for Public Reprimand with **McKesson** (the "California Settlement"). The California Settlement is effective on August 28, 2019 and applies to both the Washington Court House, Ohio and Livonia, MI distribution centers. Subject to the terms of the settlement, McKesson was issued a public letter of Reprimand, agreed to pay \$4,000 in investigative fees.

On July 31, 2019 **McKesson Medical-Surgical Inc.** received a citation from the California Board of Pharmacy regarding its Urbancrest, OH location for failure to report a new Designated Representative within 30 days of change. No fine was assessed.

On August 29, 2019 **McKesson** received a Letter of Admonition from the Colorado State Board of Pharmacy due to the delinquent notification of a change in the Designated Representative at its distribution center located at in O'Fallon, MO ("**McKesson St. Louis**").

On August 29, 2019 **McKesson** entered into a Stipulation and Final Agency Order with the Colorado State Board of Pharmacy regarding the delinquent notification of a change in the Designated Representative at its distribution center located in Aurora, IL ("**McKesson Chicagoland**"). The terms of the settlement included a fine in the amount of \$1,150.00.

On January 7, 2020 **McKesson** entered into a Consent Agreement and Final Order with the Iowa Board of Pharmacy regarding pseudoephedrine products had not been included in the McKesson's Clear Lake, IA facility's annual controlled substance inventory and that butalbital products continued to be treated as legend drugs after such products became schedule III products in the state on June 26, 2019.

On January 14, 2020 **McKesson Medical-Surgical Inc.** entered into a Consent Agreement with the Arizona State Board of Pharmacy, regarding its Tempe, AZ distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of \$1,000 was imposed and paid on January 14, 2020.

On February 20, 2020, in response to the DEA Settlement, **McKesson** entered into a final agreement with the Indiana Board of Pharmacy. The agreement applies to the McKesson distribution center located in Washington Court House, Ohio. The facility's right to distribute controlled substances into Indiana has been placed on indefinite probation until the facility's DEA Registration is fully re-instated on or about February 16, 2021. The suspension period imposed by Indiana aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

On May 29, 2020 the Colorado Department of Regulatory Agencies cited **McKesson Medical-Surgical Inc.** concerning its Roseville, CA distribution center for failure to submit in a timely manner, an application to the Board detailing a change of designated representative. RE: Change of Ownership
Medical Specialties Distributors, LLC– City of Industry, CA
License Number: WHO2922

To Whom It May Concern:

Please be advised that there was a sale of the assets of Medical Specialties Distributors, LLC, the above-referenced wholesaler, in an intracompany change of ownership to McKesson Medical-Surgical Inc. Pursuant to the asset purchase agreement, McKesson Medical-Surgical Inc. will be the new operating entity for the facility, though the ultimate parent, McKesson Corporation (“McKesson”) has remained the same. The enclosed organizational chart shows the facility’s ownership structure before and after the intracompany change.

As a result of this change of ownership, there was a change in the facility’s ownership and name. **The effective date of the change was August 31, 2020.**

McKesson sincerely apologizes for the delay in submitting the enclosed application materials. As you may be aware, McKesson was contracted by the Centers for Disease Control and Prevention (“CDC”) to support the U.S. government’s Operation Warp Speed program as a centralized distributor of COVID-19 vaccines and ancillary supplies needed to administer vaccinations. Since August 2020, McKesson has obtained 302 permits for COVID-19 vaccine distribution facilities. Because of its focus on these herculean efforts, McKesson’s licensing team was delayed in submitting the required updates to the Board for this intracompany transaction.

The application, supporting documents, and fees are enclosed. Should you have any questions or require additional information, please contact me at 714-470-8144 or Danna.Sturgill@McKesson.com. Thank you for your consideration and understanding.

Very truly yours,

Danna Sturgill

ASSET TRANSFER AGREEMENT
(Medical Specialties Distributors, LLC / McKesson Medical-Surgical Inc.)

THIS ASSET TRANSFER AGREEMENT (this “Agreement”) is dated effective as of August 31, 2020 (the “Effective Date”), by and between Medical Specialties Distributors, LLC, a Delaware limited liability company (“Transferor”), and McKesson Medical-Surgical Inc., a Virginia corporation, (“Transferee” and, together with Transferor, the “Parties” and each a “Party”).

WHEREAS, Transferor desires to sell, transfer, and assign to Transferee the Transferred Assets (as defined below), and Transferee desires to purchase, acquire, and take assignment of the Transferred Assets and to assume the Assumed Liabilities (as defined below), on the terms and subject to the conditions set forth herein.

NOW, THEREFORE, in consideration of the mutual covenants, terms, and conditions set forth herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Transfer of Assets. Upon the terms and subject to the conditions set forth herein, Transferor hereby sells, transfers, and assigns to Transferee, and Transferee hereby purchases, acquires, and takes assignment of, all of Transferor’s right, title, and interest in and to the assets described on Schedule 1 hereto (collectively, the “Transferred Assets” and each a “Transferred Asset”).
2. Assumption of Liabilities. Upon the terms and subject to the conditions set forth herein, Transferee hereby assumes and agrees to satisfy and discharge when due, all liabilities and obligations of Transferor incurred, accrued, or arising in connection with, under, or relating to the Transferred Assets, including, without limitation, the liabilities and obligations described on Schedule 1 hereto (collectively, the “Assumed Liabilities”).
3. Excluded Assets; Excluded Liabilities. Transferor shall retain, and Transferee shall not acquire, any of Transferor’s right, title, and interest in and to any assets other than the Transferred Assets. Transferor shall retain, and Transferee shall not assume and will have no liability for, any liability or obligation of Transferor other than the Assumed Liabilities.
4. Purchase Price.
 - a. The aggregate purchase price for the Transferred Assets shall be USD 40,561,316 (the “Purchase Price”), which the Parties hereby agree constitutes the fair value of the Transferred Assets. The Purchase Price shall be recorded on the books of the Parties as a non-interest bearing intercompany loan payable by Transferee in favor of Transferor, in the amount of the Purchase Price.
 - b. The Purchase Price is exclusive of any transfer, documentary, value-added, sales, use, stamp, registration, or other similar taxes and fees (collectively, “Transfer Taxes”). Transferor shall be responsible for paying any Transfer Taxes applicable to the transactions contemplated by this Agreement.

5. Representations and Warranties. Each Party hereby represents and warrants to the other Party that:

a. it has the requisite limited liability company or corporate power and authority to enter into and to perform its obligations under this Agreement and each of the other documents delivered hereunder to which it is a party, which constitutes its valid and legally binding obligations, enforceable against it in accordance with its terms;

b. the entry into and delivery of, and the performance by it of its obligations under this Agreement and each of the other documents delivered hereunder to which it is a party will not result in any breach of any provision of its charter or organizational documents or result in any claim by a third party against the other Party; and

c. the entry into and delivery of, and the performance by it of its obligations under this Agreement and each of the other documents delivered hereunder to which it is a party will not result in the breach of any law or regulation binding upon it.

In addition, Transferor hereby represents and warrants to Transferee that, as of the Effective Date and to the best of Transferor's knowledge, Transferor has valid, good, and marketable title to, or in the case of leased or subleased assets, valid and subsisting leasehold interests in, all of the Transferred Assets free and clear of all liens, except where the failure to have such valid, good, and marketable title or such valid or subsisting leasehold interests would not reasonably be expected to have, individually or in the aggregate, a material adverse effect on the Transferred Assets. Transferee hereby acknowledges and agrees that, except for the representations and warranties of Transferor set forth herein, Transferor is transferring the Transferred Assets to Transferee "AS IS, WHERE IS," and expressly disclaims any implied warranties of merchantability and fitness for a particular purpose with respect to the Transferred Assets.

6. Deliveries.

a. Contemporaneously with the execution and delivery of this Agreement, Transferor shall deliver to Transferee the following documents:

i. A bill of sale, in the form attached hereto as Exhibit A (the "Bill of Sale"), executed by Transferor.

ii. An assignment and assumption agreement, in the form attached hereto as Exhibit B (the "Assignment Agreement" and, together with the Bill of Sale, the "Assignment Documents"), executed by Transferor.

iii. The Inventory Schedule and the Fixed Asset Schedule (each as defined in Schedule 1 hereto).

b. Contemporaneously with the execution and delivery of this Agreement, Transferee shall deliver to Transferor the Assignment Agreement, executed by Transferee.

7. Further Assurances. From time to time, as and when requested by either Party, each Party shall execute and deliver, or cause to be executed and delivered, all such other documents and instruments and shall take, or cause to be taken, all such further or other actions,

as may be reasonably necessary or appropriate to assure fully to Transferee and its successors or assigns, all of the rights, titles, and interests intended to be conveyed to Transferee under this Agreement and to assure fully to Transferor and its affiliates, the assumption of the liabilities and obligations intended to be assumed by Transferee under this Agreement, and to otherwise make effective the transactions contemplated hereby.

8. Nonassignable Assets. Nothing in this Agreement, nor the consummation of the transactions contemplated hereby, shall be construed as an attempt or agreement to transfer or assign any Transferred Asset which by its terms or by law is nonassignable or cannot be entered into without the consent of or notice to a third party or a governmental authority, or is cancelable by a third party in the event of an assignment (collectively, “Nonassignable Assets” and each a “Nonassignable Asset”) unless and until such consents shall have been obtained or such notices shall have been provided, and such Nonassignable Assets shall not be included in the Transferred Assets. If any such consent or notice is not obtained or provided prior to the Effective Date, Transferor will use commercially reasonable efforts to obtain any such consent and provide such notice as soon as reasonably practicable after the Effective Date and thereafter Transferor shall transfer and assign to Transferee such Nonassignable Asset. Following any such assignment or transfer, such Nonassignable Asset shall be deemed to be a Transferred Asset for purposes of this Agreement. Notwithstanding the foregoing, until any such consent or notice is obtained or provided, the Parties shall otherwise cooperate in a mutually agreeable arrangement under which Transferee would obtain the benefits and assume the liabilities or obligations associated with any such Nonassignable Asset in accordance with this Agreement.

9. Wrong Pockets. If after the Effective Date, Transferee in good faith identifies in writing to Transferor any asset of Transferor properly transferrable as a Transferred Asset but not identified as a Transferred Asset as of the date hereof (any such asset, an “Additional Asset”), then Transferor will, as promptly as practicable after written notice by Transferee, transfer and assign to Transferee all right, title, and interest of Transferor in and to such Additional Asset which is transferable, subject to the assumption by Transferee of all liabilities or obligations of Transferor incurred, accrued, or arising in connection with, under, or relating to such Additional Asset following the transfer thereof, and any such Additional Asset shall be deemed to be a Transferred Asset for purposes of this Agreement, effective as of the date of transfer or assignment thereof. If after the Effective Date, Transferor specifically identifies in writing to Transferee an asset that was transferred or assigned inadvertently (any such asset, a “Returning Asset”) by Transferor pursuant to this Agreement, then Transferee will, as promptly as practicable after written notice by Transferor, transfer and assign back to Transferor all such transferred right, title and interest of Transferee in and to such Returning Asset.

10. Bulk Sales Laws. The Parties hereby waive compliance with the provisions of any bulk sales, bulk transfer or similar laws of any jurisdiction that may otherwise be applicable with respect to the sale or transfer of any or all of the Transferred Assets to Transferee.

11. Survival. The covenants, representations, and warranties of each of Transferor and Transferee contained in this Agreement shall survive the Effective Date, and, notwithstanding the transfer of the Transferred Assets to the Transferee, nor any investigation made by or on behalf of either Party, shall continue in full force and effect for the benefit of each Party, as applicable.

12. Entire Agreement. This Agreement, together with the Assignment Documents and any other documents contemplated hereunder or thereunder, constitutes the sole and entire agreement of the Parties with respect to the subject matter contained herein, and supersedes all prior and contemporaneous understandings, representations and warranties and agreements, both written and oral, with respect to such subject matter.

13. Governing Law. This Agreement shall be construed and enforced in accordance with, and the rights of the Parties shall be governed by, the laws of the State of Delaware, without reference to any conflicts of laws principles.

14. Submission to Jurisdiction. Each Party hereby irrevocably submits to the jurisdiction of the courts of the State of Delaware and the federal courts of the U.S. located in the State of Delaware in respect of the interpretation and enforcement of the provisions of this Agreement, the Assignment Documents and the documents contemplated hereunder and thereunder, and in respect of the transactions contemplated hereunder and thereunder, and hereby waives, and agrees not to assert, as a defense in any action for the interpretation or enforcement of this Agreement, the Assignment Documents or other documents contemplated hereunder or thereunder, that such Party is not subject thereto or that such action may not be brought or is not maintainable in said courts or that the venue thereof may not be appropriate or that this Agreement, the Assignment Documents or other documents contemplated hereunder or thereunder may not be enforced in or by such courts.

15. Severability. Any provision of this Agreement which is prohibited or unenforceable in any jurisdiction shall, as to that jurisdiction, be ineffective to the extent of such prohibition or unenforceability and shall be severed from the balance of this Agreement, all without affecting the remaining provisions of this Agreement or affecting the validity or enforceability of such provision in any other jurisdiction.

16. No Third Party Beneficiaries. Nothing contained in this Agreement is intended by the Parties to expand the rights and remedies of any third party (other than successors and assigns) against either Party as compared to the rights and remedies which such third party would have had against such Party had the Parties not consummated this Agreement.

17. Successors and Assigns. This Agreement shall be binding upon, inure to the benefit of, and be enforceable by the Parties and their respective successors and assigns, but shall not create any right(s) of subrogation or other right on the part of any other person.

18. Amendment and Modification; Waiver. This Agreement may only be amended, modified or supplemented by an agreement in writing signed by each Party. No waiver by either Party of any of the provisions hereof shall be effective unless explicitly set forth in writing and signed by the Party so waiving. Except as otherwise set forth in this Agreement, no failure to exercise, or delay in exercising, any rights, remedy, power or privilege arising from this Agreement shall operate or be construed as a waiver thereof; nor shall any single or partial exercise of any right, remedy, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege.

19. Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute a single instrument. Any such counterpart may be delivered via facsimile, electronic mail (including PDF), or other

transmission method, and any counterpart so delivered shall be deemed to have been duly and validly delivered and effective for all purposes.

Basis of Presentation: The condensed consolidated financial statements of McKesson include the financial statements of all wholly-owned subsidiaries and controlled companies. For those consolidated subsidiaries where the Company's ownership is less than 100%, the portion of the net income or loss allocable to the noncontrolling interests is reported as "Net income attributable to noncontrolling interests" in the Condensed Consolidated Statements of Operations. All significant intercompany balances and transactions have been eliminated in consolidation including the intercompany portion of transactions with equity method investees.

The Company considers itself to control an entity if it has voting control over such entity. The Company also assesses control through means other than voting rights and determines which business entity is the primary beneficiary of the variable interest entity ("VIE"). The Company consolidates VIEs when it is determined that it is the primary beneficiary of the VIE. Investments in business entities in which the Company does not have control but has the ability to exercise significant influence over operating and financial policies, are accounted for using the equity method.

The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("U.S.") of America ("GAAP") for interim financial reporting and the rules and regulations of the U.S. Securities and Exchange Commission ("SEC") and therefore do not include all information and disclosures normally included in the annual consolidated financial statements.

To prepare the financial statements in conformity with GAAP, management must make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of these financial statements and income and expenses during the reporting period. Actual amounts may differ from these estimated amounts. The severity, magnitude, and duration, as well as the economic consequences of the coronavirus disease 2019 ("COVID-19") pandemic, are uncertain, rapidly changing and difficult to predict. Therefore, the Company's accounting estimates and assumptions may change over time in response to COVID-19 and may change materially in future periods. In the opinion of management, the unaudited condensed consolidated financial statements include all normal recurring adjustments necessary for a fair presentation of the financial position, results of operations, and cash flows of McKesson for the interim periods presented.

The Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was enacted on March 27, 2020 in the U.S., and includes several provisions related to employment and income taxes, including provisions for the deferral of the employer portion of social security taxes through December 31, 2020. On December 27, 2020, the U.S. government enacted the Consolidated Appropriations Act, 2021, which enhances and expands certain provisions of the CARES Act. These legislative acts are not expected to have a material impact on the Company's consolidated financial results.

The results of operations for the three and nine months ended December 31, 2020 are not necessarily indicative of the results that may be expected for the entire year. These interim financial statements should be read in conjunction with the annual audited financial statements, accounting policies, and financial notes included in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2020 previously filed with the SEC on May 22, 2020 ("2020 Annual Report").

The Company's fiscal year begins on April 1 and ends on March 31. Unless otherwise noted, all references to a particular year shall mean the Company's fiscal year.

Recently Adopted Accounting Pronouncements

In the first quarter of 2021, the Company prospectively adopted Accounting Standards Update ("ASU") 2018-15, *Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract*, which aligns the requirements for capitalizing implementation costs incurred in a cloud computing arrangement that is a service contract with the requirements for capitalizing implementation costs in a cloud computing arrangement that has a software license. As a result, the Company began capitalizing eligible implementation costs for such contracts and recognizing the expense over the service period. The adoption of this amended guidance did not have a material impact on the Company's condensed consolidated financial statements or disclosures.

In the first quarter of 2021, the Company retrospectively adopted ASU 2018-14, *Compensation - Retirement Benefits - Defined Benefit Plans*, which requires the Company to disclose the weighted-average interest crediting rates for cash balance plans and other plans with promised interest crediting rates, and an explanation of reasons for significant gains and losses related to changes in the benefit obligation for the period. The amended guidance also requires the Company to remove disclosures on the amounts in accumulated other comprehensive income expected to be recognized as components of net periodic benefit costs over the next fiscal year. The adoption of this amended guidance resulted in changes in disclosures but did not have an impact on the Company's Condensed Consolidated Statements of Operations, Comprehensive Income, Balance Sheets, or Cash Flows.

In the first quarter of 2021, the Company adopted ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*, to remove, modify and add disclosure requirements on fair value measurements. Certain requirements were applied prospectively while other changes were applied retrospectively on the effective date. The amended guidance removes disclosure requirements for transfers between Level 1 and Level 2 measurements and valuation processes for Level 3 measurements, but adds new disclosure requirements including changes in unrealized gains or losses in other comprehensive income related to recurring Level 3 measurements and requirements to disclose the range, and weighted-average used to develop significant unobservable inputs for Level 3 fair value measurements. The adoption of this amended guidance resulted in changes in disclosures but did not have an impact on the Company's Condensed Consolidated Statements of Operations, Comprehensive Income, Balance Sheets, or Cash Flows.

In the first quarter of 2021, the Company adopted ASU 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments* ("ASU 2016-13"), which changed the impairment model for most financial assets from one based on current losses to a forward-looking model based on expected losses. The forward-looking model requires the Company to consider historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount in estimating credit losses. The amended guidance requires financial assets that are measured at amortized cost be presented at the net amount expected to be collected. An allowance for credit losses is established as a valuation account that is deducted from the amortized cost basis of financial assets. The guidance also requires enhanced disclosures. This guidance was adopted on a modified retrospective basis and did not have a material impact on the Company's condensed consolidated financial statements or disclosures. Upon adoption of the amended guidance in the first quarter of 2021, the Company recorded a cumulative-effect adjustment of \$13 million to the opening balance of retained earnings, primarily as a result of adjustments to allowances for trade accounts receivable.

Allowance for Credit Losses: Upon the adoption of ASU 2016-13 in the first quarter of 2021, the Company began using the Current Expected Credit Losses ("CECL") methodology to determine an allowance for credit losses related to financial assets measured at amortized cost. The Company considers historical experience, the current economic environment, customer credit ratings or bankruptcies, and reasonable and supportable forecasts to develop its allowance for credit losses. Management reviews these factors quarterly to determine if any adjustments are needed to the allowance. Trade accounts receivable represent the majority of the Company's financial assets, for which an allowance for credit losses of \$221 million was included in Receivables, net on the Condensed Consolidated Balance Sheet as of December 31, 2020. Changes in the allowance were not material for the three and nine months ended December 31, 2020.

Recently Issued Accounting Pronouncements Not Yet Adopted

In December 2019, ASU 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes*, was issued with the intent to simplify various aspects related to accounting for income taxes. The guidance eliminates certain exceptions related to the approach for intraperiod tax allocation, the methodology for calculating income taxes in an interim period, and the recognition of deferred tax liabilities for outside basis differences. The guidance also simplifies and clarifies certain other aspects of accounting for income taxes. The guidance is effective for the Company in the first quarter of 2022 and early adoption is permitted. The Company is currently evaluating the impact of this amended guidance on its condensed consolidated financial statements.

2. Investment in Change Healthcare Joint Venture

Until the separation of its interest in the Change Healthcare JV on March 10, 2020, the Company accounted for its interest in the joint venture using the equity method of accounting with a one-month reporting lag, with disclosure made for any intervening events of the joint venture in the lag period that could materially affect its condensed consolidated financial statements. Effective April 1, 2019, the Change Healthcare JV adopted the amended revenue recognition guidance. In the first quarter of 2020, the Company recorded its proportionate share of the joint venture's adoption impact of the amended revenue recognition guidance of approximately \$80 million, net of tax, to the Company's opening retained earnings.

On June 27, 2019, common stock and certain other securities of Change Healthcare Inc. ("Change") began trading on the NASDAQ ("IPO"). Change was a holding company and did not own any material assets or have any operations other than its interest in the Change Healthcare JV. On July 1, 2019, upon the completion of its IPO, Change received net cash proceeds of approximately \$888 million. Change contributed the proceeds of \$609 million from its offering of common stock to the Change Healthcare JV in exchange for additional membership interests of the Change Healthcare JV ("LLC Units") at the equivalent of its offering price of \$13 per share. The proceeds of \$279 million from the concurrent offering of other securities were used by Change to acquire certain securities of the Change Healthcare JV that substantially mirrored the terms of other securities included in the offering by Change. As a result, McKesson's equity interest in the Change Healthcare JV was diluted from approximately 70% to approximately 58.5% while Change owned approximately 41.5% of the outstanding LLC Units. Accordingly, in the second quarter of 2020, the Company recognized a pre-tax dilution loss of \$246 million primarily representing the difference between its proportionate share of the IPO proceeds and the dilution effect on the investment's carrying value. These items were included in Equity earnings and charges from investment in Change Healthcare Joint Venture in the Company's Condensed Consolidated Statements of Operations for the three and nine months ended December 31, 2019. The Company's proportionate share of income or loss from this investment was subsequently reduced as immaterial settlements of stock option exercises occurred after the IPO.

In the second quarter of 2020, the Company recorded a pre-tax other-than-temporary impairment ("OTTI") charge of \$1.2 billion to its investment in the Change Healthcare JV, representing the difference between the carrying value of the Company's investment and the fair value derived from the corresponding closing price of Change's common stock at September 30, 2019. This charge was included in Equity earnings and charges from investment in Change Healthcare Joint Venture in the Company's Condensed Consolidated Statements of Operations for the nine months ended December 31, 2019.

The Company recorded its proportionate share of loss from its investment in Change Healthcare JV of \$28 million and \$75 million, respectively, for the three and nine months ended December 31, 2019. The Company's proportionate share of income or loss from this investment included integration expenses incurred by Change Healthcare JV and basis differences between the joint venture and McKesson, including amortization of fair value adjustments primarily representing incremental intangible assets. These amounts were included within Equity earnings and charges from investment in Change Healthcare Joint Venture in the Company's Condensed Consolidated Statements of Operations for the three and nine months ended December 31, 2019.

On March 10, 2020, the Company completed the previously announced separation of its interest in the Change Healthcare JV which eliminated the Company's investment in the joint venture.

Related Party Transactions

While a party to the joint venture, the Company had various ancillary agreements related to the Change Healthcare JV, including transition services agreements ("TSA"), a transaction and advisory fee agreement ("Advisory Agreement"), a tax receivable agreement ("TRA"), and certain other agreements. Revenues recognized and expenses incurred under these agreements with the Change Healthcare JV were not material during the three and nine months ended December 31, 2020 and the three months ended December 31, 2019. Fees earned from the TSA were \$18 million for the nine months ended December 31, 2019.

Under the agreement executed in 2019 between the Change Healthcare JV, McKesson, Change, and certain subsidiaries of the Change Healthcare JV, McKesson had the ability to adjust the manner in which certain depreciation or amortization deductions are allocated among Change and McKesson. McKesson exercised its right under the agreement and allocated certain depreciation and amortization deductions to Change for the tax years ended March 31, 2019 and 2020.

After McKesson's separation of its interest in the Change Healthcare JV, the aforementioned TRA agreement requires the Change Healthcare JV to pay McKesson 85% of the net cash tax savings realized, or deemed to be realized, by Change resulting from the depreciation or amortization allocated to Change by McKesson. The receipt of any payments from the Change Healthcare JV under the TRA is dependent upon Change benefiting from this depreciation or amortization in future tax return filings. This creates uncertainty over the amount, timing, and probability of the gain recognized. As such, the Company accounts for the TRA as a gain contingency, with no receivable recognized as of December 31, 2020.

During the fourth quarter of 2020 in conjunction with the separation transaction, the Company recorded a reversal of the deferred tax liability related to its investment. Under the agreement with the Change Healthcare JV, McKesson, Change, and certain subsidiaries of the Change Healthcare JV, there may be changes in future periods to the amount reversed as the relevant periods are audited by tax authorities. Any such change is not expected to have a material impact on the Company's condensed consolidated financial statements.

3. Held for Sale

Assets and liabilities to be disposed of by sale ("disposal groups") are reclassified into "held for sale" if their carrying amounts are principally expected to be recovered through a sale transaction rather than through continuing use. The reclassification occurs when the disposal group is available for immediate sale and the sale is highly probable. These criteria are generally met when an agreement to sell exists, or management has committed to a plan to sell the assets within one year. Disposal groups are measured at the lower of carrying amount or fair value less costs to sell and are not depreciated or amortized. The fair value of a disposal group, less any costs to sell, is assessed each reporting period it remains classified as held for sale and any remeasurement to the lower of carrying value or fair value less cost to sell is reported as an adjustment to the carrying value of the disposal group. Assets and liabilities that have met the classification of held for sale were \$15 million and \$14 million, respectively, at December 31, 2020 and \$906 million and \$683 million, respectively, at March 31, 2020. These amounts at March 31, 2020 primarily consisted of the majority of the Company's German pharmaceutical wholesale business described below. This disposal group had been recorded as assets and liabilities held for sale since the third quarter of 2020 through its contribution to a joint venture in the third quarter of 2021. Based on its analysis, the Company determined that the disposal groups classified as held for sale do not meet the criteria for classification as discontinued operations and are not considered to be significant disposals based on its quantitative and qualitative evaluation.

German Pharmaceutical Wholesale Joint Venture

On November 1, 2020, the Company completed its previously announced transaction with Walgreens Boots Alliance ("WBA") whereby the majority of its German pharmaceutical wholesale business was contributed to a newly formed joint venture in which McKesson has a 30% noncontrolling interest.

Consideration received included a receivable amount of \$43 million, primarily related to working capital and net debt adjustments from WBA, and the 30% interest in the newly formed joint venture. At the transaction date, the carrying value of the equity investment in the joint venture was recorded at its fair value, which was measured using inputs that fell within Level 3 of the fair value hierarchy. The carrying value of the investment in the joint venture was nil as of December 31, 2020. The joint venture also assumed a note payable to the Company in the amount of approximately \$291 million as of the transaction date, which was paid to the Company in the third quarter of 2021.

McKESSON CORPORATION
FINANCIAL NOTES (CONTINUED)
(UNAUDITED)

In conjunction with the contribution, the Company recorded a loss of \$47 million (pre-tax and after-tax) in operating expenses in the three months ended December 31, 2020. In addition to this amount, the Company recorded charges of \$10 million (pre-tax and after-tax) in the three and six months ended September 30, 2020 and \$282 million (pre-tax and after-tax) in the three and nine months ended December 31, 2019 to remeasure the assets and liabilities held for sale to fair value less costs to sell. These charges were included within operating expenses in the condensed consolidated statements of operations. The Company's measurement of the fair value of the disposal group was based on estimates of total consideration to be received by the Company as outlined in the contribution agreement between the Company and WBA. As a result of finalization of working capital amounts contributed and other adjustments, the Company may record additional gains or losses in future periods; however, these adjustments are not expected to have a material impact on the Company's consolidated financial statements.

The Company accounts for its interest in the joint venture as an equity method investment within the International segment. The Company does not provide for losses on the investment as the Company has no guaranteed obligations for the joint venture to fund losses and is not otherwise committed to providing further financial support for the investee. If the joint venture subsequently generates income, the Company will only recognize its share of such income to the extent it exceeds its share of the previously unrecognized losses. As such, the Company has not recognized its proportionate share of earnings for the intervening period from the transaction date to December 31, 2020.

Following the completion of the transaction on November 1, 2020, there were no assets or liabilities of the German pharmaceutical wholesale joint venture classified as held for sale on the Company's consolidated balance sheet. Total assets and liabilities of the German pharmaceutical wholesale joint venture that were classified as held for sale on the Company's consolidated balance sheet as of March 31, 2020, were as follows:

4. Restructuring, Impairment, and Related Charges

The Company recorded restructuring, impairment, and related charges of \$155 million and \$271 million during the three and nine months ended December 31, 2020, respectively, and \$136 million and \$204 million during the three and nine months ended December 31, 2019, respectively. These charges are included under the caption, "Restructuring, impairment, and related charges" in Operating expenses in the Condensed Consolidated Statements of Operations. In addition, charges related to restructuring initiatives are included under the caption "Cost of sales" in its Condensed Consolidated Statements of Operations and were not material for the three and nine months ended December 31, 2020 and 2019.

Restructuring Initiatives

As previously announced on November 30, 2018, the Company relocated its corporate headquarters, effective April 1, 2019, from San Francisco, California to Irving, Texas to improve efficiency, collaboration, and cost competitiveness. The Company expects to record total charges of approximately \$105 million to \$125 million, of which \$104 million of charges were recorded to date. The Company recorded charges of \$14 million and \$27 million, respectively, during the three and nine months ended December 31, 2020 and \$14 million and \$34 million, respectively, during the three and nine months ended December 31, 2019, consisting primarily of employee retention expenses, severance, accelerated depreciation, and long-lived asset impairments. The relocation was substantially complete in January 2021 and the estimated remaining charges primarily relate to lease costs.

During the fourth quarter of 2019, the Company committed to certain programs to continue its operating model and cost optimization efforts. The Company continues to implement centralization of certain functions and outsourcing through an expanded arrangement with a third-party vendor to achieve operational efficiency. The programs also include reorganization and consolidation of business operations, related headcount reductions, the further closures of retail pharmacy stores in Europe, and closures of other facilities. The Company expects to incur total charges of approximately \$310 million to \$320 million for these programs, of which \$288 million of charges were recorded to date. The Company recorded charges of \$17 million and \$53 million, respectively, during the three and nine months ended December 31, 2020 and \$20 million and \$59 million, respectively, during the three and nine months ended December 31, 2019, consisting primarily of employee severance, accelerated depreciation expense, and project consulting fees. The Company anticipates these additional programs will be substantially completed in 2022. The estimated remaining charges primarily consist of facility and other exit costs and employee-related costs.

During the first quarter of 2021, the Company committed to an initiative within the United Kingdom ("U.K."), which is included in the Company's International segment, to further drive transformational changes in technologies and business processes, operational efficiencies, and cost savings. The initiative includes reducing the number of retail pharmacy stores, decommissioning obsolete technologies and processes, reorganizing and consolidating certain business operations, and related headcount reductions. The Company expects to incur total charges of approximately \$100 million to \$120 million. The Company recorded charges of \$9 million and \$50 million, respectively, in the three and nine months ended December 31, 2020, primarily related to asset impairments and accelerated depreciation expense as well as employee severance and other employee-related costs. The initiative is expected to be substantially complete by the end of 2021 and estimated remaining charges primarily consist of accelerated amortization of long-lived assets, facility and other exit costs, and employee-related costs.

The Final Consent Order resolved allegations that, from January 2009 – December 2009, McKesson’s Landover DC purchased approximately \$2.5 million of prescription drugs/devices from an unlicensed wholesale distributor. Since the period when the alleged violations occurred, McKesson has made numerous enhancements and significant additional investments in its compliance program related to the acquisition and distribution of pharmaceutical drug products. McKesson paid a \$15,000 fine in June 2015.

In April 2016 the **McKesson Medical-Surgical Inc.** Clear Brook, VA facility, which is a wholly-owned subsidiary of McKesson Corporation, was fined by the California Board of Pharmacy for failure to report a new Designated Representative within 30 days of change. The terms of the suspensions of the Livonia, Washington Court House, and Lakeland facilities permit those distribution centers to continue shipping controlled substances to customers that purchase products under McKesson's contract with the Department of Veterans Affairs.

In March 2017, in response to the DEA Settlement, the New York State Department of Health, Bureau of Narcotic Enforcement, suspended the Class 2A (Out-of-State) controlled substance license for **McKesson's** Livonia, Michigan distribution center. The Agreements are applicable only to the registrations and do not impose discipline upon the distribution center's wholesale permits. The general terms of the Agreements are summarized below:

- Livonia, Michigan - the facility's Iowa controlled substance registration was issued but was restricted. The facility was prohibited from distributing controlled substances into the state until 1/17/2019 except for various exceptions that mirror exceptions in the DEA settlement; and

The Utah Board of Pharmacy's action mirrors the suspension and exceptions agreed to in McKesson's settlement with the DEA Settlement.

In 2018 May **McKesson Corporation** was fined by the California Board of Pharmacy related to the fact that its Memphis, TN distribution center failed to timely notify the state of California when their designated representative left the company. The designated representative required by the home state was always in place. The new designated representative is now and has been since December 1, 2017 fully licensed. McKesson paid \$1,000 fine. The fine is related to a non-disciplinary action.

On May 31, 2018, in response to the DEA Settlement, **McKesson** entered into a consent agreement with the Oregon Board of Pharmacy (the "Oregon Consent"). The Oregon Consent applies to the McKesson distribution center located in Washington Court House, Ohio. Hi Maria

Attached is the updated Certificate of Good Standing for both facilities as well as the most current 10K report.

For the Stoughton, MA facility, the state of Massachusetts does not regulate devices, therefore they do not have a home state license. Please see the attached NABP accreditation. Will this suffice? Please let me know if anything else is needed.

Thanks!

McKesson Corporation and its subsidiaries (hereinafter “McKesson”) delivers pharmaceutical and medical products and business services to retail pharmacies and institutional providers like hospitals and health systems throughout North America and globally. Over the past 185 years, McKesson has developed multiple businesses that operate pharmacies, medical supply distribution centers, wholesale drug distribution centers, 3PL facilities, repackaging facilities, and other entities subject to federal and state regulation. Currently, McKesson owns and operates over 97 facilities in the United States that are licensed, permitted, or registered with the respective state agency with jurisdiction over its business type. Due to the breadth of its operations, it is practical that we limit this summary to disciplinary actions taken against these facilities during the last five years or the time frame specified in the question. *The information in this statement is provided to the best of our knowledge and belief and includes all public disciplinary actions. This statement does not include any fines that are deemed non-disciplinary by the issuing state (for example, it does not include non-disciplinary Citations and Fines issued by California). Please let us know if your state requires information regarding non-disciplinary fines.*

In 2015, **McKesson** entered into a Final Consent Order with the Maryland Board of Pharmacy concerning Landover DC. The Final Consent Order resolved allegations that, from January 2009 – December 2009, McKesson’s Landover DC purchased approximately \$2.5 million of prescription drugs/devices from an unlicensed wholesale distributor. Since the period when the alleged violations occurred, McKesson has made numerous enhancements and significant additional investments in its compliance program related to the acquisition and distribution of pharmaceutical drug products. McKesson paid a \$15,000 fine in June 2015.

In April 2016 the **McKesson Medical-Surgical Inc.** Clear Brook, VA facility, which is a wholly-owned subsidiary of McKesson Corporation, was fined by the California Board of Pharmacy for failure to report a new Designated Representative within 30 days of change. McKesson paid \$200 fine. The fine is related to a non-disciplinary action.

In September 2016, **McKesson Medical Surgical, Inc.** entered into a Consent Agreement for a \$2,750 fine with the Louisiana Board of Drug and Device concerning its St. Rose, Louisiana distribution center (the “St. Rose DC”). McKesson Medical Surgical, Inc agreed that it failed to maintain copies of current licenses for customers that are shipped or sold drugs or devices, or, if customer licenses are maintained offsite, by failing to maintain at the licensed distribution location a list of customer names, addresses, license numbers, and license expiration dates for all customers that are shipped or sold drugs or devices.

In 2016 **McKesson Corporation** was fined by the California Board of Pharmacy related to the fact that its Washington Court House, OH distribution center failed to timely notify the state of California when their designated representative left the company. The designated representative required by the home state was always in place. The new designated representative is now and has been since August 6, 2014 fully licensed. McKesson paid \$400 fine. The fine is related to a non-disciplinary action.

In 2016 **McKesson Medical-Surgical Inc.** a wholly-owned subsidiary of McKesson Corporation was fined by the California Board of Pharmacy at its Clear Brook, VA location for failure to report a new Designated Representative within 30 days of change. McKesson paid \$200 fine. The fine is related to a non-disciplinary action.

In January 2017, **McKesson** entered into an agreement (the "DEA Settlement") with the DEA and DOJ to settle all potential administrative and civil claims stemming from investigation into McKesson's practices for identifying and reporting suspicious orders of controlled substances, beginning in 2009. Under the settlement McKesson agreed to pay \$150 million and to implement remedial measures related to its controlled substances monitoring program. In addition, the following distribution centers' DEA registrations were or will be suspended for the following specified products and time periods: Aurora, Colorado - all controlled substances from January 17, 2017 to January 17, 2020; Livonia, Michigan - all controlled substances from January 17, 2017 to January 17, 2019; Washington Court House, Ohio - all controlled substances for the two-year period following completion of the Livonia suspension, from February 17, 2019 to February 17, 2021; and Lakeland, Florida - hydromorphone products from January 17, 2017 to January 17, 2018. The terms of the suspensions of the Livonia, Washington Court House, and Lakeland facilities permit those distribution centers to continue shipping controlled substances to customers that purchase products under McKesson's contract with the Department of Veterans Affairs.

In March 2017, in response to the DEA Settlement, the New York State Department of Health, Bureau of Narcotic Enforcement, suspended the Class 2A (Out-of-State) controlled substance license for **McKesson's** Livonia, Michigan distribution center. The permit was suspended until January 1, 2019, consistent with the suspension timeframes of the DEA Settlement. No other suspensions or fines were issued, and the New York action aligned with the suspension periods and expectations agreed to in the DEA Settlement.

In June 2017, in response to the DEA Settlement, the Idaho Board of Pharmacy suspended the Controlled Substance Registrations of **McKesson** distribution centers in Washington Court House, Ohio and the Livonia, Michigan. The Livonia Idaho controlled substance registration was suspended for two years, effective 6/17/17 to 1/17/19. The Washington Court House Louisiana controlled substance registration is suspended for two years, effective 1/18/19 to 1/18/21. McKesson also agreed to reimburse the Louisiana Board \$250.00 for administrative costs. No other suspensions or fines were issued, and the Louisiana action aligns with the suspension periods and expectations agreed to in the DEA Settlement.

In December 2017, in response to the DEA Settlement, the New Hampshire Board of Pharmacy suspended the right of **McKesson's** distribution centers in Washington Court House, Ohio and Livonia, Michigan to distribute controlled substances. The Livonia distribution center's ability to distribute controlled substance was suspended, effective 12/12/17 to 1/17/19. The Washington Court House distribution center's ability to distribute controlled substance will be suspended for two years, effective 1/18/19 to 1/18/21. No other suspensions of fines were issued, and the New Hampshire action aligns with the suspension periods and expectations agreed to in the DEA Settlement.

In February 2018, in response to the DEA Settlement, the Florida Department of Business & Professional Regulation and **McKesson Corporation** (Lakeland distribution center) entered in a Settlement Agreement as disposition of an alleged violation of Section 499.0121(10), Florida Statutes (2008-2017), by operating not in compliance with applicable federal laws and regulations. McKesson also agreed to pay a settlement amount of \$10,000.00. No other suspensions of fines were issued.

On March 14, 2018, in response to the DEA Settlement, the Iowa Board of Pharmacy voted to issue Controlled Substance Act registrations for two of **McKesson Corporation's** distribution centers. The Board issued the registrations pursuant to Controlled Substances Act Registration by Consent Agreements (the "Agreements"). The Agreements are applicable only to the registrations and do not impose discipline upon the distribution center's wholesale permits. The general terms of the Agreements are summarized below:

- Livonia, Michigan - the facility's Iowa controlled substance registration was issued but was restricted. The facility was prohibited from distributing controlled substances into the state until 1/17/2019 except for various exceptions that mirror exceptions in the DEA settlement; and
- Washington Court House, Ohio - the facility's Iowa controlled substance registration was issued but is restricted and the facility will be prohibited from distributing controlled substances into the state from 1/18/19 to 1/18/2021 except for various exceptions that mirror exceptions in the DEA settlement.

On March 20, 2018, in response to the DEA Settlement, the Maryland State Board of Pharmacy suspended the right of **McKesson's** distribution center in Washington Court House, Ohio to distribute controlled substances. The distribution center's ability to distribute controlled substance will be suspended for two years, effective 1/18/19 to 1/18/21. The stipulations apply to the McKesson distribution centers located in Washington Court House, Ohio and Aurora, Colorado. The Washington Court House facility's right to distribute controlled substances into Utah has been suspended effective 1/18/2019 to 1/18/2021 and the Aurora facility's right to distribute controlled substances into Utah has been suspended from 4/9/2018 to 1/17/2020. The Utah Board of Pharmacy's action mirrors the suspension and exceptions agreed to in McKesson's settlement with the DEA Settlement.

In 2018 May **McKesson Corporation** was fined by the California Board of Pharmacy related to the fact that its Memphis, TN distribution center failed to timely notify the state of California when their designated representative left the company. The designated representative required by the home state was always in place. The new designated representative is now and has been since December 1, 2017 fully licensed. McKesson paid \$1,000 fine. The fine is related to a non-disciplinary action.

On January 14, 2019 **McKesson Corporation** entered into a settlement for a payment of \$10,000 on behalf of a now-closed facility in Connecticut. This settlement arose from the failure of employees of McKesson's contracted local delivery carrier to secure their vehicles when making deliveries within Connecticut. Importantly, there were never any reports of theft or loss based on this failure and McKesson's contract with the local delivery carrier specifically required security measures, including the securing of vehicles.

On February 27, 2019, in response to the DEA Settlement, **McKesson** entered into a consent agreement with the Wisconsin Pharmacy Examining Board (the "Wisconsin Consent"). The Washington Court House, Ohio facility was fined and the facility's ability to distribute controlled substances into Wisconsin has been suspended effective 1/17/19 to 1/17/2021. The suspension period imposed by Wisconsin aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

to submit contentions in writing. The allegations relate to an investigation that McKesson Medical-Surgical Inc. shipped dangerous drugs to an unlicensed site in September 2017. A monetary penalty of \$4,5000 was imposed and paid on March 27, 2019.

The facility's ability to distribute controlled substances into New Mexico has been suspended until February 16, 2021. The suspension period imposed by New Mexico aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

On May 21, 2019, in response to the DEA Settlement, **McKesson** entered into a consent order with the Alabama Board of Pharmacy (the "Alabama Consent"). The Alabama Consent applies to the McKesson distribution centers located in Washington Court House, Ohio and Livonia, Michigan. On June 10, 2019, in response to the DEA Settlement, **McKesson** entered into a consent agreement with the Virginia Board of Pharmacy (the "WCH Virginia Consent"). The WCH Virginia Consent applies to the McKesson distribution center located in Washington Court House, Ohio. The facility's right to distribute controlled substances into Virginia has been suspended from June 10, 2019 to February 16, 2021. The WCH Virginia Consent originates from McKesson's report to Virginia of settlements that McKesson entered into with the DEA and Louisiana Board of Pharmacy.

On July 29, 2019, in response to the DEA Settlement, the California Board of Pharmacy approved a Stipulated Settlement and Disciplinary Order for Public Repeval with **McKesson** (the "California Settlement"). On January 7, 2020 **McKesson** entered into a Consent Agreement and Final Order with the Iowa Board of Pharmacy regarding pseudoephedrine products had not been included in the McKesson's Clear Lake, IA facility's annual controlled substance inventory and that butalbital products continued to be treated as legend drugs after such products became schedule III products in the state on June 26, 2019.

As previously disclosed by UPS Supply Chain Solution, Inc. UPS SCS's Duluth facility did not file Colorado's required notice of change of Designated Representative within Colorado's required 14-day timeframe to file such notice. UPS SCS implemented corrective actions and has successfully completed the terms of the Colorado order. Please note, UPS SCS's Colorado Out-of-State Wholesaler License # WHO-7462 was not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Colorado Case No. 2011-000273 documentation related to the Colorado Order on file with the UPS SCS Regulatory Affairs Department.

Final

On November 15, 2011, UPS SCS informed your agency of the Iowa Board of Pharmacy's (IBoP) action concerning Iowa Wholesale Drug License #5820 and which became effective November 11, 2011. This Iowa Stipulation and Consent Order (the "Iowa Order") relates to the Colorado Order and the untimely filing of notice regarding the Colorado Order to the IBoP. UPS SCS has successfully completed the terms of the Iowa Order and Iowa Wholesale Drug License #5820 has not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Iowa Case No. 2010-162 documentation on file with the UPS SCS Regulatory Affairs Department. Note: This Iowa matter is a spin-off of the Colorado matter summarized above. It is based on the same underlying facts that gave rise to the Colorado matter. It is not based on an independent set of facts.

Final

On October 18, 2013, UPS SCS informed your agency of the Consent Order and Stipulation between the Michigan Board of Pharmacy (BOP) and UPS SCS based on the underlying Colorado matter summarized above, which was executed by the Michigan BOP on October 9, 2013 (the "Michigan Order"). As previously disclosed to you, pursuant to this Consent Order, UPS SCS paid a fine of two thousand five hundred dollars. The Consent Order and Stipulation specifically provided that "no patient safety issues were involved," and the BOP did not impose any other penalty. UPS SCS's Michigan licenses have not been restricted, modified, revoked, or limited in any way. Note: The Michigan Order is directly related to the Colorado matter summarized above. It is based on the same underlying facts that gave rise to the Colorado matter. It is not based on an independent set of facts.

PHARMACY LICENSE

Matters Related to Kentucky Agreed Orders 1860 Outer Loop Road, Louisville, KY

Final

UPS SCS dispenses medical devices, including diabetes-related pumps, to consumers from its Kentucky licensed pharmacy facility. Not all states recognize the Durable Medical Equipment or Home Medical Equipment provider category for entities that dispense medical devices rather than drugs. Those states that do not recognize these categories require a non-resident or out of state pharmacy permit for dispensing medical devices. Accordingly, UPS SCS obtained a home-state pharmacy permit in Kentucky and numerous non-resident pharmacy permits and DME/HME permits in other states. On September 12, 2012, the Kentucky Board of Pharmacy ("KYBoP") and UPS SCS executed final Agreed Orders relating to minor violations under Kentucky Administrative Regulations 2:270 and Kentucky Revised Statutes Sec. 315.121(6) in connection with late filing of pharmacy technician registrations at UPS SCS's Louisville, Kentucky facility (the "Kentucky Orders"). UPS SCS and the KYBoP agreed to address the Kentucky Orders informally by entering in the aforementioned Agreed Orders in lieu of the KYBoP filing a formal complaint. UPS SCS self-reported this action to your agency on September 18, 2012. UPS SCS takes this and all regulatory matters seriously and has implemented corrective action. Moreover, UPS SCS has instituted internal safeguards to ensure that applicable regulatory compliance is maintained in the future. UPS SCS's Kentucky pharmacy license (Kentucky Pharmacy License #P07277) remains current and in good standing and was not and has not been restricted, modified, revoked, or limited in any way.

Final

On May 14, 2013, UPS SCS informed your agency of the Texas Board of Pharmacy's (TXBoP) action concerning UPS SCS Texas Class E Nonresident Pharmacy License #26160 and which became effective May 7, 2013. As already disclosed to you, on May 14, 2013, the Texas Board of Pharmacy (TXBoP) and UPS SCS executed a final Agreed Board Order (the "Texas Order") relating to the above-mentioned Kentucky Pharmacy License Agreed Orders. Pursuant to the Texas Agreed Board Order, the TXBoP reprimanded UPS SCS's Nonresident Pharmacy License. The Texas Board of Pharmacy did not levy a fine or any other penalty on the License. The License was not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Texas Agreed Board Order # L-13-004 on file with the UPS SCS Regulatory Affairs Department. Note: The Texas Order is directly related to the Kentucky pharmacy license matter summarized above. It is based on the same underlying facts that gave rise to the Kentucky matter. It is not based on an independent set of facts.

Final

On April 22, 2014, UPS SCS informed your agency of the Consent Order and Stipulation between the Michigan Board of Pharmacy (BOP) and UPS SCS based on the Kentucky Order summarized above, which was adopted by the Michigan BOP on April 9, 2014 (the "Michigan Order"). As previously disclosed to you, pursuant to this Consent Order, UPS SCS paid a fine of two hundred fifty dollars. The Consent Order and Stipulation specifically provided that "no patient safety issues were involved," and the BOP did not impose any other penalty. UPS SCS's Michigan licenses have not been restricted, modified, revoked, or limited in any way. Note: The Michigan Order is directly related to the Kentucky matter summarized above. It is based on the same underlying facts that gave rise to the Kentucky matter. It is not based on an independent set of facts.

Dear Ms. Herrera,

Thank you for your email regarding the application of our new Pleasant Prairie facility. The planned opening is June 2021. VAWD/DDA accreditation requires that the facility be operational for 30 days prior inspection. In addition, NABP is backlogged with Covid restrictions so I am guessing it will be August before final accreditation is complete at the earliest.

Recently, the NV Board of Pharmacy approved licenses for our new Duncan, SC (WHO2829 2-26-20) and North Las Vegas (WHO2616 6-18-19) facilities. In connection with those facilities (that are now VAWD/DDA accredited) we provided a Surety Bond, officer fingerprint authorizations, list of personnel who will handle drugs on a daily basis, and made appearances before the Board.

In connection with the Pleasant Prairie application, attached is a Surety Bond Rider and a list of individuals who will have daily access to drugs. Background checks of the officers (John Ducker, Steven J. Adams and Jack C. Silhavy) were completed in connection with the previous applications and fingerprint authorization forms submitted.

Please let me know if this information will be sufficient to proceed with the Pleasant Prairie application. Thank you.

Hi Joe,

I had a conversation with Jonathan Keel at Optum Frontier Therapies. Optum has recently applied for a warehouse facility licensure located at 6425 Santa Margarita Street. Can you take a look at Jonathon's email below and give me your thoughts?

Courtney, as we discussed on Tuesday, the law is not clear on the separate address question, and this is one of those instances.

Subject: 6425 Santa Margarita St. Unit 120 3pl application

Good afternoon Mr. Sedar,

Per our phone conversation earlier this afternoon, I am reaching out to gain further insight as to the specific requirements needed for the separation of wholesale and warehouse (3pl) space. While reading about the facility security requirements statute, I was hoping to gain clarification on how the board interprets separation of space. I was wondering if something like a secured locked cage or a dedicated locked room in the wholesale space would suffice as separate facility space between wholesale and warehouse. I would greatly appreciate any further guidance on this matter.

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

v.

VIDUR S. MAHADEVA, MD,
Certificate of Registration No. CS11174,

Respondent.

CASE NO. 20-111-CS-N

NOTICE OF INTENDED ACTION
AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and this respondent because at the time of the alleged events, Respondent Vidur S. Mahadeva, MD, held a Nevada controlled substance registration, Certificate No. CS11174, issued by the Pharmacy Board.

FACTUAL ALLEGATIONS

2. On July 22, 2020, the U.S. Drug Enforcement Administration (DEA) issued an Order to Show Cause and Immediate Suspension of Respondent's DEA Certificate of Registration No. BM7876800 (DEA Suspension for Cause) pursuant to 21 U.S.C. § 824(d).

3. The DEA Suspension for Cause alleged, and pled with particularity facts in support thereof, that Respondent has committed acts that would render registration inconsistent with the public interest, that Respondent regularly prescribed controlled substances to patients outside of the usual course of the professional practice of medicine in Nevada, in violation of 21 U.S.C. § 823(f)(2), 21 CFR § 1306.04(a) and NRS 453.381, and that Respondent failed to comply with applicable federal and state laws relating to controlled substances, in violation of 21 U.S.C. § 823(f)(4).

4. On or about August 4, 2020, Board staff notified Respondent that the DEA Suspension for Cause operates as an immediate suspension of his Nevada controlled substance registration, Certificate of Registration No. CS11174, pursuant to NRS 639.2107.

APPLICABLE LAW

5. A prescription for a controlled substance may be issued only for a legitimate medical purpose and in the usual course of his or her professional practice by an individual practitioner who holds a DEA registration and is authorized to prescribe controlled substances by the jurisdiction in which he is licensed to practice his profession. 21 U.S.C. § 822(a)(2); 21 U.S.C. § 823(f); 21 CFR § 1306.03(a)(1); NRS 453.381(1).

6. The Board may suspend or revoke a registration issued pursuant to NRS 453.231 to prescribe or otherwise dispense a controlled substance upon a finding that the registrant has committed an act that would render registration inconsistent with the public interest. NRS 453.236(1)(d) and NRS 453.241(1).

7. The suspension of a registration by the Drug Enforcement Administration operates as an immediate suspension of a registration issued by the Board pursuant to NRS Chapter 453 to possess, administer, prescribe or dispense controlled substances. NRS 639.2107.

8. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(11).

FIRST CAUSE OF ACTION

Commission of Acts that Render Registration Inconsistent with the Public Interest

9. By regularly prescribing controlled substances to patients outside of the usual course of the professional practice of medicine in Nevada, in violation of 21 U.S.C. § 823(f)(2), 21 CFR § 1306.04(a) and NRS 453.381, and failing to comply with applicable federal and state laws relating to controlled substances, in violation of 21 U.S.C. § 823(f)(4), Respondent has committed an act that would render his Nevada controlled substance registration inconsistent

with the public interest, and is subject to discipline pursuant to NRS 453.236(1)(d) and NRS 453.241(1).

SECOND CAUSE OF ACTION

Violations of Federal and State Controlled Substances Acts

10. By regularly prescribing controlled substances to patients outside of the usual course of the professional practice of medicine in Nevada, in violation of 21 U.S.C. § 823(f)(2), 21 CFR § 1306.04(a) and NRS 453.381, and failing to comply with applicable federal and state laws relating to controlled substances, in violation of 21 U.S.C. § 823(f)(4), Respondent is subject to discipline pursuant to NRS 639.210(11) and/or (12).

THIRD CAUSE OF ACTION

Suspension of DEA Registration

11. The suspension of Respondent's Nevada controlled substance registration, Certificate No. CS11174, pursuant to NRS 639.2107 is subject to review by the Board pursuant to NRS 453.236(1) and NRS 639.255(1)(c).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this respondent.

Case No. 20-111-CS-N

ANSWER AND NOTICE OF DEFENSE

Respondent above-named, in answer to the Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, declares:

1. I intend to defend against the accusation brought by the Board of Pharmacy;
2. I object to the Notice of Intended Action and Accusation on the basis that it does not adequately inform me of the charges in sufficient specificity to defend them. There are no facts given concerning dates, patients or any other particulars. The statement "failing to comply with applicable federal and state laws relating to controlled substances" is vague to the point of being meaningless.
3. To the extent that this is reciprocal discipline under NRS 639.2107, I am vigorously contesting the Drug Enforcement Administration proceedings to revoke my registration. I have obtained an expert opinion to contradict that of the DEA and I firmly

believe that the evidence will exonerate me and show that I practiced above the standard of care in pain management with sound academic principles and was never a danger to the public. Further, I met all of the statutory and regulatory guidelines for the prescription of scheduled substances.

4. The hearing for the DEA administrative proceedings is scheduled for February 8, 2021. Exhibit 1, Order Granting the Respondent's Continuance and Modifying the Prehearing Ruling in the DEA matter. I request that the Board of Pharmacy continue the hearing date until after the decision of the DEA Administrative Law Judge, which may render moot the accusation against me if I prevail.

I DECLARE, UNDER PENALTY OF PERJURY, THAT THE FOREGOING ANSWER AND NOTICE OF DEFENSE, AND ALL FACTS THEREIN STATED, ARE TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE.

Docket No. 20-26

**ORDER GRANTING THE RESPONDENT'S CONTINUANCE AND
MODIFYING THE PREHEARING RULING**

This is an immediate suspension order case. A status conference was conducted on October 26, 2020, with counsel both parties present via video teleconference (VTC), to notify the parties of certain concerns the tribunal has concerning a potential drafting issue that pervades much of the Order to Show Cause and Immediate Suspension Order (OSC/ISO). This order is issued consistent with the foregoing.

The Controlled Substance Act (CSA) authorizes the Agency to impose a sanction upon a finding that a registrant "has committed such acts as would render his registration under [21 U.S.C. § 823] inconsistent with the public interest as determined under such section." 21 U.S.C. § 824(a)(4). Thus, for the Government to satisfy its *prima facie* burden, it must allege facts that, if sustained, would actually demonstrate that the registrant committed such acts as would render his registration inconsistent with the public interest. *See id.* However, in a subset of allegations in the OSC/ISO, the Government's allegations center on conclusions and/or observations rendered by its purported expert, and which arguably are not actions, conduct, or omissions attributable to the Respondent. The plain language of each of these points not to conduct or omissions made by the Respondent, but rather to the alleged fact that (at some unspecified point in time) the Government's expert concluded that certain matters were true. Thus, even sustaining this subset of allegations would not establish potential actionable conduct within the CSA, but only conclusions or opinions by a Government-contracted physician. This raises potential proof problems for the Government, for the Respondent in seeking to meet those allegations, and ultimately for the Agency and this tribunal. The Administrative Procedure Act

(APA)¹ and the Agency's own regulations² require the Agency to provide a respondent with notice of those acts which the Agency intends to rely upon in seeking a sanction so as to provide a full and fair opportunity to challenge the factual and legal basis for the Agency's action. *See CBS Wholesale Distribs.*, 74 Fed. Reg. 36746, 36749 (2009). In light of the tribunal's noticed concerns over this potential legal issue, the Government, to the extent it elects to do so, has until **2:00 p.m. Eastern Time (ET) on November 2, 2020** to respond.

Additionally, during the status conference, the Respondent, based on complications associated with the preparation of his purported expert witness, as well as the commencement of state pharmacy board administrative procedures, requested additional time for certain filing deadlines and a continuance for the merits hearing. The Government interposed no specific objection.³ Having considered the Respondent's requests, in light of his concerns, and, in particular, given that the request is unopposed, the Respondent's unopposed continuance is hereby **GRANTED**.

It is further **ORDERED** that the Prehearing Ruling is modified such that supplemental prehearing statements are due no later than **2:00 p.m. ET on November 9, 2020**. Both parties must ensure that the tribunal has two hardcopy versions of all proposed exhibits intended to be offered at the hearing no later than **2:00 p.m. ET on November 9, 2020**. To the extent that either party seeks any relief by motion, it must do so no later than **2:00 p.m. ET on November 12, 2020**. Any responsive filings to motions must be received no later than **2:00 p.m. ET on November 17, 2020**. Finally, the hearing on the merits in this matter will commence at **11:00 a.m. ET on February 8, 2021** and continue through **February 12, 2021**,⁴ with counsel and their respective witnesses participating via VTC.

JOHN J. MULROONEY, II
Chief Administrative Law Judge

¹ 5 U.S.C. § 554(b)(3).

² 21 C.F.R. § 1301.37(c).

³ The Government expressed some discomfiture about enlarging the time the Respondent was seeking to prepare his expert witness testimony while adhering to the previously-scheduled hearing commencement date.

⁴ Both sides can anticipate that additional delays will not lightly be granted.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and this respondent because at the time of the alleged events, Respondent Vidur S. Mahadeva, MD, held a Nevada controlled substance registration, Certificate No. CS11174, issued by the Board.

FACTUAL ALLEGATIONS

2. On July 22, 2020, the U.S. Drug Enforcement Administration (DEA) issued an Order to Show Cause and Immediate Suspension of Respondent's DEA Certificate of Registration No. BM7876800 (DEA Suspension for Cause) pursuant to 21 U.S.C. § 824(d).

3. The DEA Suspension for Cause alleged, and pled with particularity facts in support thereof, that Respondent has committed acts that would render registration inconsistent with the public interest, that Respondent regularly prescribed controlled substances to patients outside of the usual course of the professional practice of medicine in Nevada, in violation of 21 U.S.C. § 823(f)(2), 21 CFR § 1306.04(a) and NRS 453.381, and that Respondent failed to comply with applicable federal and state laws relating to controlled substances, in violation of 21 U.S.C. § 823(f)(4).

4. On or about August 4, 2020, Board staff notified Respondent that the DEA Suspension for Cause operates as an immediate suspension of his Nevada controlled substance registration, Certificate of Registration No. CS11174, pursuant to NRS 639.2107.

6. On or about October 28, 2020, Respondent filed an Answer and Notice of Defense to the original Accusation and requested a stay of administrative proceedings until final disposition of *In the Matter of Vidur Mahadeva, MD*, DEA Administrative Docket No. 20-26. Pursuant to NAC 639.120(1) this matter was continued.

7. On November 17, 2020, Board staff assisted DEA special agents executing a search warrant at Respondent's practice at 556 Vine Street, Reno NV. The search revealed that Respondent was in possession of controlled substances, specifically diazepam and cocaine hydrochloride, in violation of the DEA Suspension for Cause and corresponding suspension of Certificate of Registration No. CS11174. The DEA special agents impounded the controlled substances.

8. The investigation also revealed that Respondent was dispensing controlled substances and/or dangerous drugs for Nevada patients without a valid dispensing practitioner registration, and on January 16, 2019, dispensed trazodone to an undercover DEA special agent. Board staff impounded the dangerous drugs.

9. The investigation also revealed that the controlled substances and dangerous drugs were not kept in a locked storage area with access restricted to authorized persons, and that Respondent failed to properly store, segregate and/or dispose of adulterated and/or expired drugs.

10. On February 9, 2021, Respondent surrendered his DEA Certificate of Registration No. BM7876800 to the U.S. Drug Enforcement Administration by executing a DEA Form 104, entitled "Surrender for Cause" (DEA Surrender for Cause).

11. By executing the DEA Surrender for Cause, Respondent acknowledged in pertinent part the following:

NOTICE OF INTENDED ACTION AND ACCUSATION**

Respondent above-named, in answer to the First Amended Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy on March 10, 2021, declares:

1. I intend to defend against the accusation brought by the Board of Pharmacy;
2. I object to the First Amended Notice of Intended Action and Accusation on the basis that it does not adequately inform me of the charges in sufficient specificity to defend them. There are no facts given concerning dates, patients or any other particulars. The statement "failing to comply with applicable federal and state laws relating to controlled substances" is vague to the point of being meaningless.
3. To the extent that this is reciprocal discipline under NRS 639.2107, I contest these deregistration proceedings. I have obtained an expert opinion to contradict that of the DEA and I firmly believe that the evidence will exonerate me and show that I practiced

above the standard of care in pain management with sound academic principles and was never a danger to the public. Further, I met all of the statutory and regulatory guidelines for the prescription of scheduled substances.

<u>Respondent.</u>		

Respondent above-named, in answer to the Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, declares:

That Dr. Silver formally objects to the Notice of Intended Action and Accusation as being incomplete or failing to state clearly the charges against him, is hereby interposed on the following grounds:

1. That Dr. Silver has at all times in Nevada (since 1972) had an active (neither suspended nor revoked) medical license. He is in good standing and a valued physician with the Nevada State Board of Medical Examiners as evinced by the Attached Exhibit 1-letter dated February 23, 2021 from Mr. Robert Kilroy, Esq., General Counsel for Nevada State Board of Medical Examiners).
2. That, in answer to the Notice of Intended Action and Accusations, hereby denies and alleges as follows:
 - A. That Dr. Silver denies each and every allegation in the Notice of Intended Action and Accusation filed against him in this case.

- B. That Dr. Silver NEVER admitted to any violations contained in the Nevada Medical Board's complaint. Nevertheless, on advice of counsel and to put the matter behind him without incurring large attorney's fees in contesting the matter, Dr. Silver agreed to amicably resolve the matter pursuant to the Board's settlement agreement which only involved his paying a minimal fee, paying investigative fees, taking an additional three (3) CLE credits on Botox and fillers, and promising not to oversee a "medical spa-like facility in the future." (See Attached Exhibit 2, p. 4). Significantly, the settlement agreement reflects that even the Nevada State Medical Board allowed Dr. Silver to continue to administer Botox and other fillers within his own medical practice to his established patients. Moreover, the Board placed no limitations at all as to prescribing any medications and/or controlled substances and/or dangerous drugs to his patients when the case was settled and closed.
- C. That not only does Dr. Silver deny all allegations, but there are no known or named patients that ever complained to any board or any patient complaining of having a bad or adverse result due to any actions by Dr. Silver. Critically, the medical board's investigation into Dr. Silver was unfortunately due to the alleged actions of Sandra Bledsoe, a medical assistant during the year 2015. Further, in 2015, there were no laws prohibiting a medical assistant from injecting Botox or fillers into patients. The laws changed after 2015.
- D. That Dr. Silver asserts that if any alleged violation occurred in this case, which it did not, that the Statute of Limitations prevents this board from pursuing discipline in this matter. Furthermore, the doctrine of laches applies as Dr. Silver has been severely prejudiced by the long period of time, over six (6) years, from the time that the medical board investigators visited Dr. Silver's offices in 2015 until a complaint was filed in November of 2020. Again, over six (6) years has gone by since the alleged acts involved in the Pharmacy Board's Intention to Act in this matter occurred and because of the long period of time, files and or documents have been destroyed or taken by Sandra Bledsoe, the medical assistant.

This severely prejudices Dr. Silver and the doctrine of laches applies in this case.

E. That Dr. Silver has practiced medicine in good standing with no issues for over fifty (50) years. Moreover, he has a current, valid, active medical license with no pending discipline with the Nevada State Board of Medical Examiners at the time of this answer.

I hereby declare, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to the best of my knowledge.

Re: Frank P. Silver, M.D.

Greetings Director Robinson,

By way of introduction, I am Robert Kilroy, Esquire, and General Counsel to the Nevada State Board of Medical Examiners (Board) and to the Board's Investigative Committee, which was the charging party for the discipline imposed upon our licensee, Dr. Frank P. Silver (Licensee #2641).

The Board is in receipt of your "Notice of Intent to Revoke" letter, dated February 12, 2021, to Dr. Silver.

Upon review of 8 CFR 232.2(b), it appears that there is no specific language for requiring an "unrestricted" medical license for being eligible to qualify for the Civil Surgeon designation.

Dr. Silver does have an "Active-Conditions" because of the Settlement Agreement language that states he shall not engage in medical-spa related activities with unlicensed individuals, which is not a restriction per se. Rather, the aforementioned is a condition upon him, as well as all other licensees of this Board, that they (Board licensees) shall not engage in the aiding of the unlicensed to practice medicine.

Dr. Silver is currently in compliance and has promptly completed all his requirements, made all payments, and remains a valued medical provider for the State of Nevada.

Based on the aforementioned, please reconsider keeping Dr. Silver's designation as a Civil Surgeon, because he does maintain an active licensee in good standing with this Board.

Respectfully submitted,

Robert G. Kilroy, Esq., General Counsel

At all times alleged herein, Respondent was licensed in an active status by the Board pursuant to the provisions of the Medical Practice Act.

Statement of Nevada Law Applicable to "Medical Spas" and "Medical Doctors"

Delegating Practitioners, Medical Assistants, and the Unlicensed Practice of Medicine

2. Pursuant to NRS 630.400(1)(d), it is unlawful for any person to practice medicine without being licensed by the Board under NRS Chapter 630, or by another medical professional licensing board pursuant to NRS Chapters 631 to 637, inclusive, 639, or 640.

///

¹ The Investigative Committee of the Nevada State Board of Medical Examiners, at the time this formal Complaint was authorized for filing, was composed of Board members Wayne Hardwick, M.D., Chairman, Mr. M. Neil Duxbury and Aury Nagy, M.D.

3. Pursuant to NRS 630.020, the “practice of medicine” means either (1) to diagnose, treat, correct, prevent or prescribe for any human disease, ailment, injury, infirmity, deformity or other condition, physical or mental, by any means or instrumentality, including, but not limited to, the performance of an autopsy, or (2) to apply principles or techniques of medical science in the diagnosis or the prevention of any such conditions, or (3) to perform any of the acts described in subsections (1) and (2) by using equipment that transfers information concerning the medical condition of the patient electronically, telephonically or by fiber optics, including, without limitation, through telehealth, from within or outside this State or the United States, or (4) to offer, undertake, attempt to do or hold oneself out as able to do any of the acts described in subsections (1) and (2).

4. Pursuant to NRS 630.305(1)(e), a Nevada physician or physician assistant (practitioner) may not aid, assist, employ or advise, directly or indirectly, any unlicensed person to engage in the practice of medicine contrary to the provisions of the Medical Practice Act, and doing so is grounds for initiating disciplinary action or denying licensure.

5. Pursuant to the Medical Practice Act, the only means by which a practitioner may lawfully aid, assist, employ or advise, directly or indirectly, an unlicensed person to engage in the practice of medicine is by delegating specific tasks to an adequately supervised and trained “medical assistant.” Pursuant to NRS 630.0129, a “medical assistant” means a person who (a) performs clinical tasks under the supervision of a physician or physician assistant; and (b) does not hold a license, certificate or registration issued by a professional licensing or regulatory board in this State to perform such clinical tasks; and the term does not include a person who performs only administrative, clerical, executive or other nonclinical tasks.

6. Pursuant to NRS 630.306(1)(r), a practitioner must supervise adequately a medical assistant, and failing to do so is grounds for initiating disciplinary action or denying licensure.

7. Pursuant to NAC 630.830, a delegating practitioner is professionally responsible for the safety and performance of each task which is delegated to a medical assistant. Pursuant to NAC 630.810(1), a delegating practitioner may not delegate tasks to a medical assistant unless: (a) the delegating practitioner knows that the medical assistant possesses the knowledge, skill and

1 training to perform the task safely and properly; (b) the medical assistant is not required to be
2 certified or licensed to perform that task; (c) the medical assistant is employed by the delegating
3 practitioner or the medical assistant and the delegating practitioner are employed by the same
4 employer; and (d) the employer of the medical assistant has complied with the requirements of
5 subsection 2 as they relate to the task.

6 8. Pursuant to NAC 630.820, a delegating practitioner may not supervise remotely a
7 medical assistant, except in a specific case of emergency in a rural area.²

8 9. Except as otherwise provided in NAC 630.820, pursuant to NAC 630.810, if a
9 medical assistant is delegated a task which involves an “invasive procedure,”³ the delegating
10 practitioner must be immediately available to exercise oversight in person while the medical
11 assistant performs the task.

12 10. The term “medical director” is not recognized or defined under any Nevada law or
13 regulation pertaining to the professional conduct and responsibility of licensed medical
14 professionals, and no law authorizes so-called “medical directors” to violate or circumvent the
15 aforementioned statutes and regulations of the Medical Practice Act.

16 11. Accordingly, pursuant to NRS 630.400(1)(d), NRS 630.305(1)(e), and
17 NRS 630.0129, and NAC 630.800 to NAC 630.840:

18 a. If a practitioner, whether by serving as a so-called “medical director” or by
19 some other relationship or circumstance, aids, assists, employs or advises, directly or
20 indirectly, any unlicensed person to engage in the practice of medicine, then the practitioner
21 may lawfully do so only by delegating tasks to an adequately supervised, competent and properly
22 trained medical assistant.

23
24 ² Remote supervision of a medical assistant is prohibited unless: (a) the patient is located in a rural area; (b)
25 the delegating practitioner is physically located a significant distance from the location where the task is to be
26 performed; (c) the delegating practitioner determines that the exigent needs of the patient require immediate attention;
27 (d) the patient and the delegating practitioner previously established a practitioner-patient relationship; and (e) the
28 delegating practitioner is immediately available by telephone or other means of instant communication during the
performance of the task by the medical assistant. As used in NAC 630.820, “rural area” means any area in this State
other than Carson City or the City of Elko, Henderson, Reno, Sparks, Las Vegas or North Las Vegas.

³ The Medical Practice Act does not define “invasive procedure,” however, NAC 449.9733, pertaining to
Medical Facilities, defines “invasive procedure” as “a medical procedure involving entry into the human body by
puncture or incision or by insertion of an instrument,”

b. If a practitioner, whether by serving as a so-called “medical director” or by some other relationship or circumstance, aids, assists, employs or advises, directly or indirectly, any unlicensed person to engage in the practice of medicine, and if the practitioner has not done so by delegating specific tasks to an adequately supervised, competent and properly trained medical assistant, then: (1) that unlicensed person has violated NRS 630.400(1)(d), by practicing medicine without a license; and (2) that practitioner has violated NRS 630.305(1)(e), and is subject to discipline for aiding and assisting the unlicensed practice of medicine.

c. If a practitioner delegates a medical task to a medical assistant, whether by serving as a so-called “medical director” or by some other relationship or circumstance, then the practitioner remains professionally responsible for the safety and performance of each task, and remains professionally responsible for ensuring that the proper employment relationships exist, that the medical assistant is properly knowledgeable, trained and skilled, that the medical assistant is adequately supervised, and that the practitioner is nearby to supervise the specific medical tasks delegated, and, if it is an invasive medical task, then he or she must be immediately available to exercise oversight in person while the medical assistant performs the task.

d. If a practitioner delegates a medical task to a medical assistant, whether by serving as a so-called “medical director” or by some other relationship or circumstance, and if the practitioner fails to adequately supervise that medical assistant as required under the circumstances, then that physician or physician assistant has violated NRS 630.306(1)(r), and is subject to discipline for failing to adequately supervise a medical assistant.

Cosmetologists, “Medical Spas,” “Medical Estheticians,” & Unlicensed Practice of Medicine

12. Pursuant to NRS 644A.030, a licensed “cosmetologist” is not authorized by such license to practice medicine in any way. Rather, a licensed cosmetologist is authorized to perform only non-medical, cosmetological services, such as cleansing, stimulating or massaging the scalp or cleansing or beautifying the hair by the use of cosmetic preparations, antiseptics, tonics, lotions or creams, cutting, trimming or shaping the hair, removing hair by the use of electrolysis, depilatories, waxing, or sugaring, except for the permanent removal of hair with needles,

manicuring nails, massaging the skin, giving facials, and other miscellaneous non-medical, cosmetological services. Likewise, pursuant to NRS 644A.065, a licensed “esthetician” is not authorized to practice medicine in any way. Instead, pursuant to NRS 644A.075, a licensed esthetician is licensed to engage in “[b]eautifying, massaging, cleansing or stimulating the skin of the human body by the use of cosmetic preparations, antiseptics, tonics, lotions or creams or any device, electrical or otherwise, for the care of the skin,” “[a]pplying cosmetics, eyelash extensions or eyelashes to any person, tinting eyelashes and eyebrows, eyelash perming and lightening hair on the body,” and “[r]emoving superfluous hair from the body of any person by the use of depilatories, waxing, tweezers or sugaring.”

13. Pursuant to NAC 644A.790 a cosmetologist and esthetician is further explicitly prohibited from performing “invasive procedures,” which is defined as “an act that affects the structure or function of the skin other than the uppermost layers of the skin,” and which for the sake of regulating the practice of cosmetologists and estheticians includes, without limitation, (a) the application of electricity for the sole purpose of contracting a muscle, (b) the application of a topical lotion, cream or other substance which affects anything other than the uppermost layers of the skin, (c) the penetration of the skin by needles, and (d) the abrasion of the skin below the uppermost layers of the skin.

14. There is no such license as “medical esthetician”⁴ or “medical cosmetologist” authorized by any Nevada law or issued by any Nevada sanctioned professional licensing body. The term “medical esthetician” is not recognized or defined under any Nevada law or regulation pertaining to the professional conduct and responsibility of licensed medical professionals, and no law authorizes cosmetologists or estheticians to violate or circumvent the aforementioned statutes and regulations of the Nevada Medical Practice Act by referring to themselves as “medical estheticians” or “medical cosmetologists.”⁵

///

⁴ Esthetician is sometimes spelled “aesthetician.” Nevada law in NRS Chapter 644A refers to “esthetician,” and, accordingly, this spelling is used throughout this Complaint.

⁵ In fact, use of the title “medical esthetician” or “medical cosmetologist” by individuals licensed by the Nevada State Board of Cosmetology (NSBC) is prohibited in Nevada. It is grounds for disciplinary action by the NSBC if a licensee uses the term “expert,” “advanced,” or “medical” in connection with the description of his or her practice. See NAC 644A.870(2).

15. Accordingly, a Nevada licensed cosmetologist or esthetician may not practice medicine in any way, or perform invasive medical procedures or medical services of any kind, except as a “medical assistant” to a Nevada licensed medical professional, i.e., either as the medical assistant of a Nevada licensed physician or physician assistant pursuant to NRS 630.0129, et. seq., and NAC 630.800 to NAC 630.830, as described above, or similarly as another type of professional “assistant,” “hygienist,” “technician,” or other such designation, who is delegated tasks by and under the direct supervision of another medical professional who is duly licensed pursuant to NRS Chapters 631 to 637, inclusive, 639, or 640.

16. If a cosmetologist or esthetician practices or purports to practice medicine in any way, unless he or she acts as a medical assistant and is delegated tasks and is properly supervised by a professional medical practitioner, then he or she is violating NRS 630.400(1)(d) by practicing medicine without a license.

Nevada Pharmacy Laws Regarding Dangerous Drugs and Hypodermic Devices

17. NRS 630.306(1)(b)(3) provides that engaging in conduct that violates a regulation adopted by the Nevada State Board of Pharmacy (Pharmacy Board) is grounds for initiating disciplinary action against a licensee.

18. Pursuant to NRS 454.201, a “dangerous drug” is “any drug, other than a controlled substance, unsafe for self-medication or unsupervised use, and includes, the following, (1) any drug which has been approved by the Food and Drug Administration for general distribution and bears the legend: ‘Rx Only’; (2) procaine hydrochloride with preservatives and stabilizers (Gerovital H3) in injectable doses and amygdalin (laetrile) which have been licensed by the State Board of Health for manufacture in this State but have not been approved as drugs by the Food and Drug Administration; or (3) any drug which, pursuant to the Board’s regulations, may be sold only by prescription because the Board has found those drugs to be dangerous to public health or safety.”

///

///

///

19. Pursuant to NRS 454.316 and NRS 454.321, it is unlawful to possess, dispense or furnish a dangerous drug except when furnished to the person by a pharmacist pursuant to a legal prescription or by a practitioner.

20. Pursuant to NRS 454.009, a "hypodermic" device is "any syringe, needle, instrument, device or implement intended or capable of being adapted for the purpose of administering drugs by subcutaneous, intramuscular or intravenous injection."

21. Pursuant to NRS 454.510, it is unlawful for any person to have in his or her possession or under his or her control any hypodermic device (that is restricted by federal law to sale by or on the order of a physician), unless the person has acquired possession of such device in accordance with the provisions of NRS 454.480 to NRS 454.530, inclusive, that is, by sale from a licensed pharmacist, on the prescription of a physician or other practitioner, which prescription is filled as required by NRS 639.236, and may be refilled as authorized by the prescriber.

22. Accordingly, pursuant to NRS 454.009, NRS 454.201, NRS 454.316, NRS 454.321 and NRS 454.510, a Nevada licensed cosmetologist and/or aesthetician is not permitted by Nevada law to possess, control, access, prescribe, administer, and/or dispense dangerous drugs or hypodermic devices, except as a medical assistant under the direct supervision of a Nevada licensed physician, physician assistant, or other licensed medical professional, and then only if otherwise permitted and in compliance with laws of regulating pharmacies and pharmaceuticals.

23. NAC 639.742(1) provides that a practitioner who wishes to dispense dangerous drugs must apply to the Pharmacy Board for a certificate of registration to dispense dangerous drugs. A practitioner must submit a separate application for each site of practice, including, without limitation, telepharmacy, remote site or satellite consultation site, from which the practitioner wishes to dispense dangerous drugs.

24. NAC 639.742(2) provides that if a facility from which the practitioner intends to dispense dangerous drugs is not wholly owned and operated by the practitioner, the owner or owners of the facility must also submit an application to the Pharmacy Board for a license to do so.

25. NAC 639.742(3) provides, in pertinent part, that a dispensing practitioner and, if applicable, the owner or owners of the facility, shall ensure that:

- (a) All drugs are ordered by the dispensing practitioner;
- (b) All drugs are received and accounted for by the dispensing practitioner;
- (c) All drugs are stored in a secure, locked room or cabinet to which the dispensing practitioner has the only key or lock combination;
- (d) All drugs are dispensed in accordance with NAC 639.745.⁶
- (e) No prescription is dispensed to a patient unless the dispensing practitioner is on-site at the facility;
- (f) All drugs are dispensed only to the patient personally at the facility;
- (g) The price of each drug dispensed to a patient is separately itemized on any bill or statement provided to the patient.
- (h) All drugs are dispensed only for medically necessary purposes and according to prevailing standards of care for practitioners practicing in the specialty claimed or practiced by the dispensing practitioner; and

⁶ NAC 639.745 Duties of certain practitioners concerning dispensing of controlled substances and dangerous drugs. (NRS 639.070, 639.0727) 1. Each practitioner who is registered with the Board to dispense controlled substances and dangerous drugs, including, without limitation, a dispensing practitioner, and who dispenses such products for use by the practitioner's patients outside his or her presence shall: (a) Keep complete, accurate and readily retrievable records of each controlled substance and dangerous drug purchased and dispensed. The record for each such product dispensed to a patient must include: (1) The name of the patient and, if not readily available from the practitioner's records, the patient's address; (2) The name, strength and quantity of the prescribed controlled substance or dangerous drug; (3) The directions for use; (4) The date the prescription was issued; and (5) A unique identifying number. (b) Maintain a separate file for the records concerning the purchase of each controlled substance listed in schedule II and a separate file for the records concerning the dispensing of each controlled substance listed in schedule II. Each prescription for a controlled substance or dangerous drug must be maintained in a separate file pursuant to the requirements set forth in NAC 453.480. (c) Keep all controlled substances and dangerous drugs in a locked storage area. Access to the storage area must be restricted to the persons described in NRS 453.375. (d) Ensure that each package or container, in which a controlled substance is dispensed, except samples in the manufacturer's packages, is clearly labeled pursuant to the requirements set forth in NRS 639.2801. (e) Ensure that the package or container in which a controlled substance or dangerous drug is dispensed complies with all state and federal packaging requirements. (f) Be deemed to be a pharmacy as that term is used in NAC 639.926 and shall comply with that section. 2. A practitioner may dispense dangerous drugs or controlled substances only after the patient has been informed by the practitioner that the patient may request a written prescription and have it filled at another location of the patient's choosing. 3. A record regarding the dispensing of a controlled substance or dangerous drug made and kept pursuant to this section must be maintained on paper or in a computer. If the record is: (a) Maintained on paper, the record must: (1) Include all the information required to be on the prescription pursuant to NRS 639.2353 and NAC 453.440; (2) Set forth on the front of the prescription a certification initialed and dated by the patient that the patient has been informed by the practitioner in accordance with subsection 2 and that the patient has agreed to have the practitioner dispense the controlled substance or dangerous drug; and (3) Be serially numbered and kept in numerical order in a single file for all dispensing practitioners, including, without limitation, physician assistants and advanced practice registered nurses, practicing at the same location. (a) Maintained in a computer, the record must: (1) Include all the information required to be on the prescription pursuant to NRS 639.2353 and NAC 453.440; (2) Contain a certification, either in the computer or a separate paper document, initialed and dated by the patient that the patient has been informed by the practitioner in accordance with subsection 2 and that the patient has agreed to have the practitioner dispense the controlled substance or dangerous drug; and (3) Be searchable for any item required by paragraph (a) of subsection 1 to be included in the record.

(i) The certificate for each dispensing technician employed at the facility is displayed in the room or cabinet in which drugs are stored.

26. NAC 639.742(4)(a) to NAC 639.742(b) provides, in part, that with regard to the filling and dispensing of a prescription at a facility, only the dispensing practitioner or a dispensing technician may enter the room or cabinet in which drugs are stored, or remove drugs from stock.

27. NAC 639.945(1) provides, in pertinent part, that the following acts or practices by a holder of any license, certificate or registration issued by the Pharmacy Board or any employee of any business holding any such license, certificate or registration are declared to be, specifically but not by way of limitation, unprofessional conduct and conduct contrary to the public interest:

(a) Manufacturing, compounding, selling, dispensing or permitting to be manufactured, compounded, sold or dispensed substandard drugs or preparations.

(b) Except as otherwise provided in NRS 639.2583 to 639.2808, inclusive, for substitutions of generic drugs, dispensing or causing to be dispensed a different drug or brand of drug in place of the drug or brand of drug ordered or prescribed, unless the express permission of the orderer or prescriber is obtained and, in the case of a written prescription, unless the following information is recorded on the prescription by the person obtaining permission:

- (1) The date on which the permission was granted;
- (2) The name of the practitioner granting the permission;
- (3) The name of the person obtaining the permission;
- (4) The name of the drug dispensed; and

(c) Using secret formulas.

(d) Except as otherwise provided by subsection 2 of NRS 639.2396, failing strictly to follow the instructions of the person writing, making or ordering a prescription or chart order as to its filling or refilling, the content of the label of the prescription or giving a copy of the prescription or chart order to any person except as permitted by law.

(e) Failing to confer with the person writing, making or ordering a prescription or chart order if there is an error or omission in it which should be questioned.

(f) Operating a pharmacy at a location other than the location at which the pharmacy is licensed to operate.

(g) Supplying or diverting drugs, biologicals, medicines, substances or devices which are legally sold in pharmacies or by wholesalers, so that unqualified persons can circumvent any law pertaining to the legal sale of such articles.

(h) Performing or in any way being a party to any fraudulent or deceitful practice or transaction.

(i) Performing any of his or her duties as the holder of a license,

certificate or registration issued by the Board, or as the owner of a business or an entity licensed by the Board, in an incompetent, unskillful or negligent manner.

(j) Aiding or abetting a person not licensed to practice pharmacy in the State of Nevada.

(k) Performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration.

(l) Violating any term or condition of a subpoena or order issued by the Board or the staff of the Board.

(m) Failing to provide any document, data or information that is required to be made and maintained pursuant to chapters 453, 454, 585 and 639 of NRS and chapters 453, 454, 585 and 639 of NAC to a member of the Board or a member of the staff of the Board upon his or her request.

(n) Dispensing a drug as a dispensing practitioner of a patient with whom the dispensing practitioner does not have a bona fide therapeutic relationship.

(o) Prescribing a drug as a prescribing practitioner to a patient with whom the prescribing practitioner does not have a bona fide therapeutic relationship.

28. NAC 639.945(2) provides that the owner of any business or facility licensed, certified or registered by the Pharmacy Board is responsible for the acts of all personnel in his or her employ.

29. NAC 639.945(3) provides that, for purposes of applying Pharmacy Board regulations, a bona-fide therapeutic relationship between the patient and practitioner shall be deemed to exist if the patient was examined in person, electronically, telephonically or by fiber optics, by the practitioner within the 6 months immediately preceding the date the practitioner dispenses or prescribes a drug to the patient and, as a result of the examination, the practitioner diagnosed a condition for which a given drug therapy is prescribed.

30. Accordingly, any physician or physician assistant who—whether by serving as a so-called “medical director” of, or by furnishing dangerous drugs or hypodermic devices to, or by some other relationship or circumstance with any “medical spa” wherein dangerous drugs or hypodermic devices are possessed, controlled, accessed, prescribed, administered, and/or dispensed—engages in conduct that violates any regulation adopted by the Pharmacy Board, including but not limited to NAC 639.742(1)–(3), (4)(a)–(b), or 639.945(1)–(3), has violated the Nevada Medical Practice Act and is subject to discipline by the Board.

Respondent's Medical Directorship of Sandra Bledsoe

31. At all relevant times alleged herein, Respondent was an OB/GYN in Las Vegas, Nevada.

32. On or about July 15, 2015, Respondent entered into an agreement (Agreement) with an individual identified as Sandra Bledsoe (Bledsoe). This Agreement allowed Bledsoe to inject Botox, Juvaderm and B12 Vitamin Complex to cosmetic clients, and Respondent acted as supervising physician/Medical Director for VIP Faces, located at 1900 East Desert Inn Road, Las Vegas, Nevada 89169, which was located within the offices of the Desert Inn Women's Clinic. Desert Inn Medical Center owned and operated Desert Inn Women's Clinic at that time. This Agreement provided VIP Faces would pay Desert Inn Medical Center one thousand dollars (\$1,000.00) per month for utilization of two rooms for VIP Faces to perform cosmetic injections using Botox and Juvederm. Also, VIP Faces agreed to refer to Respondent weight loss patients if requested by the client. As Medical Director of VIP Faces, Respondent would examine some, but not all, of VIP Faces clients.

33. On February 24, 2016, the Board's investigators and investigators from the Pharmacy Board inspected VIP Faces located at 1900 E. Desert Inn Road, Las Vegas, NV. Bledsoe was not present during this inspection. However, Respondent was present and stated the following: that he was the supervising physician/Medical Director of VIP Faces, which was owned by Bledsoe, whom he had known for about a year. Unlike his other OB-GYN patients, Respondent did not have a physician-patient relationship with Bledsoe's VIP Faces cosmetic patients. Respondent also stated that he did not examine Bledsoe's cosmetic patients and saw them as they came out of VIP Faces rooms. Respondent did not establish a bona-fide medical relationship with Bledsoe's clients unless they requested other medical care, such as weight loss or gynecology. If a client requested a weight-loss program, then Respondent would examine the patient and prescribe Phentermine as part of their weight loss program. Inspectors found in a refrigerator one used vial of Botox one hundred (100) units with approximately fifty (50) units remaining and two more unopened boxes of Botox units. Respondent admitted that he allowed Bledsoe to act like a medical assistant in ordering products from drug makers Allergan and

1 McKesson utilizing Respondent's DEA number, but did not know exactly how much Bledsoe was
2 ordering for VIP Faces' use or her own personal use.

3 34. Bledsoe routinely injected clients with Botox, and Juvederm without Respondent's
4 medical supervision, and without Respondent's medical orders or instructions. Bledsoe also
5 injected B-12 vitamin for clients after approval by Respondent. VIP Faces held itself out to the
6 public as a "medical spa" "specializing" in injectable cosmetic procedures and "medical" weight-
7 loss.

8 35. Respondent was not a manager, agent, officer or employee of VIP Faces.

9 36. Respondent had no ownership or member interest in VIP Faces, but he had a
10 contractual authority, pursuant to the aforementioned Agreement. Respondent had a statutory duty
11 to manage the medical-related affairs of VIP Faces in compliance with the Medical Practice Act.

12 37. Neither Bledsoe nor other independent contractors of VIP Faces were employed by
13 Respondent during the time Respondent served as Medical Director of VIP Faces.

14 38. At all times relevant to the facts alleged herein, neither Bledsoe, nor her
15 independent contractors of VIP Faces were licensed by any Nevada professional licensing board
16 pursuant to NRS chapters 630 to 637, inclusive, 639 or 640 or licensed to practice medicine in the
17 State of Nevada.

18 39. Other than Respondent as Medical Director no person in any way affiliated with
19 VIP Faces held a medical license issued by the Nevada Medical Board.

20 40. Bledsoe was neither a Nevada licensed cosmetologist nor a Nevada licensed
21 esthetician.

22 41. During Respondent's supervision as Medical Director pursuant to the Agreement,
23 VIP Faces' records failed to indicate that Respondent adequately supervised, contacted or
24 consulted Bledsoe.

25 42. Respondent has been licensed in active status (License No. PD00433) by the
26 Pharmacy Board since September 12, 2013, to dispense prescription drugs at the following
27 location: 1900 E. Desert Inn Road, Suite B, Las Vegas, Nevada 89169.

28 ///

1 43. Respondent prescribed prescription-strength Botox; the aforementioned drugs and
2 hypodermic devices are available only by prescription, and are dangerous drugs as defined by
3 NRS 454.201. However, Respondent failed to supervise the amounts ordered and received by VIP
4 Faces, as Bledsoe solely controlled their possession.

5 44. As a result, Respondent, negligently through his lack of supervision, provided the
6 aforementioned dangerous drugs and hypodermic devices in the sole possession, custody and
7 control to Bledsoe.

8 45. During Respondent's agreement as Medical Director of VIP Faces, Bledsoe
9 provided medical treatment, and/or prescriptions, and/or administered dangerous drugs, and/or
10 utilized hypodermic devices, to VIP Faces' patients.

11 46. During Respondent's supervision pursuant to the Agreement, the conduct by
12 Bledsoe constitutes the practice of medicine in Nevada.

13 47. During Respondent's supervision pursuant to the Agreement on the date of
14 inspection, VIP Faces' medical records contained no entries for patient history, notes, examination
15 findings, procedures performed, or therapeutic procedures performed by Respondent, unless the
16 patient was referred by VIP Faces for weight loss or other gynecological procedures.

17 48. During Respondent's supervision pursuant to the Agreement, Bledsoe at her
18 discretion, ordered Botox and Juvederm prescribed by Respondent for utilization at VIP Faces
19 without adequate supervision by Respondent.

20 49. Botox and Juvederm were stored in a secure, locked room or cabinet to which
21 the Respondent and Bledsoe had access to. Respondent did not supervise Bledsoe's access to
22 these dangerous drugs and/or hypodermic devices.

23 50. Botox is introduced hypodermically, that is, subcutaneously.

24 51. During Respondent's supervision as Medical Director pursuant to the Agreement,
25 Bledsoe injected the aforementioned dangerous drugs and utilized hypodermic devices without a
26 dispensing license as required by the Pharmacy Board.

27 52. During Respondent's supervision as Medical Director pursuant to the Agreement,
28 Respondent was not always present when Bledsoe injected the aforementioned dangerous drugs.

53. During Respondent's supervision as Medical Director pursuant to the Agreement, Respondent neither received personally nor accounted for personally the dangerous drugs and/or hypodermic devices utilized for injections administered by Bledsoe.

a. The dangerous drugs and the use of hypodermic devices were not dispensed in accordance with NAC 639.745. Respondent did not have a bona-fide therapeutic relationship with some of the VIP Faces patients at issue.

b. Respondent personally did not inject the drugs dispensed in VIP Faces' two rooms, Respondent failed to assure through supervision that they were dispensed only for medically necessary purposes and according to prevailing standards of care, nor did he assure that a certificate for each dispensing technician employed at the facility was displayed in the room or cabinet in which drugs were stored.

54. Respondent failed to adequately supervise Bledsoe to ensure that she possessed the knowledge, skill, and training to perform injections on clients and/or patients safely and properly.

COUNT I

NRS 630.306(1)(r): Failure to Adequately Supervise

55. All of the allegations in the above paragraphs are hereby incorporated as if fully set forth herein.

56. NRS 630.306(1)(r) provides that a failure to supervise adequately a medical assistant pursuant to the regulations of the Board is an act that constitutes grounds for initiating disciplinary action against a licensee.

57. By the conduct described herein, Respondent failed to supervise adequately, or supervise properly Bledsoe, and any contractors of VIP Faces in their performance of medical tasks as Medical Director pursuant to the Agreement.

58. By reason of the foregoing, Respondent is subject to discipline by the Nevada State Board of Medical Examiners as provided in NRS 630.352.

COUNT II

NRS 630.306(1)(b)(3): Engaging in Conduct That Violated Pharmacy Board Regulations

C. Respondent shall establish policies and procedures within his practice to ensure that:

i. A bona fide relationship between the patient and the practitioner ordering a cosmetic injectable exists before the medication is ordered or administered;

iii. To the extent a cosmetic injectable called for in an order is put into the control and possession of anyone other than a practitioner, the ordering practitioner personally gives control and possession of the medication to the non-practitioner and only gives the non-practitioner the specific medication in the specific quantity needed to fill the order; and

iv. All cosmetic injectables are kept in a locked storage area with access restricted to authorized persons.

D. Respondent shall comply with all federal and state statutes and regulations regarding cosmetic injectables.

10. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing that Respondent to appear before the Board at the next regularly-scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent consistent with the provisions of NRS Chapter 453 and/or Chapter 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on June 2, 2021. IN THE MATTER OF

Vidur S. Mahadeva, M.D.
556 Vine St.
Reno, Nevada 89503

DEA Certificate of Registration BM7876800

**ORDER TO SHOW CAUSE AND
IMMEDIATE SUSPENSION OF REGISTRATION**

PURSUANT to Sections 303 and 304 of the Controlled Substances Act, Title 21,
United States Code, Sections 823 and 824,

NOTICE is hereby given to inform you of the immediate suspension of Drug Enforcement Administration ("DEA") Certificate of Registration ("COR") BM7876800, pursuant to 21 U.S.C. § 824(d), because your continued registration constitutes "an imminent danger to the public health or safety." Notice is also given to afford you an opportunity to show cause before DEA at the DEA Hearing Facility located at 1550 Crystal Drive, Suite 901, Arlington, VA 22202, on October 27, 2020, or on such a subsequent date designated by the Administrative Law Judge (if you request such a hearing), as to why DEA should not revoke your registration pursuant to 21 U.S.C. § 824(a)(4), and deny any pending applications for renewal or modification of such registration, and deny any applications for additional DEA registrations, because your continued registration is inconsistent with the public interest, as that term is defined in 21 U.S.C. § 823(f).

As detailed below, this order states DEA's basis for this Order to Show Cause and Immediate Suspension of Registration, including a *non-exhaustive summary* of facts and law at issue, as well as citations to laws and regulations that you have violated (*see* 21 C.F.R. §§ 1301.36(e) and 1301.37(c), which DEA construes *in pari materia*). In order to preserve your rights in this proceeding, you may appear in these revocation proceedings by filing a notice of appearance or request for hearing in the manner prescribed by regulations within 30 days from the receipt of this Order.

BACKGROUND

1. You are registered with DEA as a practitioner with authority in Schedules II–V pursuant to DEA COR Number BM7876800. Your registered address is 556 Vine Street, Reno, NV 89503. Your registration expires by its own terms on January 31, 2023.
2. You are presently licensed in the State of Nevada as a physician with license number 11257. Your state medical license expires by its own terms on July 1, 2021.
3. Your DEA COR should be revoked and any pending application should be denied because you have committed such acts as would render your registration inconsistent with the public interest, as that term is defined under the Controlled Substances Act. *See* 21 U.S.C. § 823(f); 21 U.S.C. § 824(a)(4). DEA’s investigation revealed that you have regularly prescribed controlled substances to patients outside of the usual course of the professional practice of medicine in Nevada, in violation of 21 U.S.C. § 823(f)(2), and that you have also failed to comply with applicable federal and state laws relating to controlled substances, in violation of 21 U.S.C. § 823(f)(4).

LEGAL REQUIREMENTS

4. A prescription for a controlled substance is legitimate only if “issued for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice.” 21 C.F.R. § 1306.04(a); *see, e.g., MacKay v. DEA*, 664 F.3d 808, 816 (10th Cir. 2011) (applying state law to determine if a prescription complied with 21 C.F.R. § 1306.04(a)); *Marcia L. Sills, M.D.*, 82 Fed. Reg. 36,423-01, 36,443–44 (2017) (discussing 21 C.F.R. § 1306.04(a)). Additionally, “[c]areless or negligent handling of controlled substances creates the opportunity for diversion and [can] justify revocation or denial.” *Paul J. Caragine, Jr.*, 63 Fed. Reg. 51,592, 51,601 (1998).
5. In addition to complying with the above-cited federal statutes and regulations, as a Nevada practitioner, you are also required to comply with applicable Nevada state law. Nevada law authorizes a practitioner to prescribe controlled substances “only for a legitimate medical purpose and in the usual course of his or her professional practice.” NEV. REV. STAT. § 453.381. Additionally, the Nevada State Board of Medical Examiners has adopted the *Model Policy on the Use of Opioid Analgesics in the Treatment of Chronic Pain* (“Model Policy”), published by the Federation of State Medical Boards of the United States. *See* NEV. ADMIN. CODE § 630.187; *see also* NEV. ADMIN. CODE § 630.185 (stating that section 630.187 is among the statutes that “set forth the standards of practice established by the Board”). The Model Policy explains that a practitioner should do the following before prescribing controlled substances:
 - a. Conduct an “initial assessment and evaluation [that] include[s] a systems review and relevant physical examination” and identifies “objective markers of disease or diagnostic markers”;

- b. "Assess[] . . . the nature and intensity of the [patient's] pain, past and current treatments for the pain, any underlying or co-occurring disorders and conditions, and the effect of the pain on the patient's physical and psychological functioning";
- c. "[D]ocument the presence of one or more recognized medical indications and absence of psychosocial contraindications for prescribing an opioid analgesic";
- d. "Assess[] . . . the patient's personal and family history of alcohol or drug abuse and relative risk for substance use disorder," as well as "the patient's personal and family history of mental health disorders";
- e. Develop a treatment plan that "provide[s] clear-cut, individualized objectives to guide the choice of therapies for both the clinician and the patient," and revisit that plan regularly;
- f. Obtain informed consent by discussing the risks and benefits of the treatment plan and counseling the patient "on the potential risks and anticipated benefits" of opioids including but not limited to dependence, substance use disorder, overdose and death"; and
- g. "[R]egularly review the patient's progress, including any new information about the etiology of the pain or the patient's overall health and level of function." This includes monitoring the patient's pain and function as well as the patient's compliance with the treatment plan.

IMPROPER PRESCRIBING OF CONTROLLED SUBSTANCES

- 6. From at least September 15, 2016, to at least March 7, 2020, you issued numerous prescriptions for Schedule II–IV controlled substances to four patients in violation of federal and state law. DEA retained an independent medical expert to review the prescriptions that you issued to these four patients. As discussed in more detail below, DEA's expert concluded that each prescription was issued outside the usual course of professional practice and not for a legitimate medical purpose. Specifically, DEA's expert concluded that you failed to fulfill the basic, minimum requirements pertaining to the prescribing of controlled substances with each patient by failing to do the following: (1) perform appropriate physical examinations; (2) perform appropriate mental status examinations; (3) evaluate your patients' risk factors for the controlled substances prescribed; (4) obtain appropriate medical histories; (5) develop treatment plans; (6) establish opioid exit plans; (7) establish legitimate medical diagnoses to support the controlled substances prescribed; and (8) appropriately monitor your patients' medication compliance.
- 7. Additionally, DEA's expert concluded that you repeatedly prescribed dangerous combinations of controlled substances to these patients and increased their dosages of controlled substances without a legitimate medical justification. DEA's expert also concluded that your prescribing was dangerous and reckless, and it put your patients at grave risk for adverse health consequences, including respiratory depression, overdose, or

death. As discussed in greater detail below, your prescribing of controlled substances reflects an extreme departure from the minimum standard of care in the State of Nevada.

Patient M.H.

8. On at least four separate occasions between April 27, 2017, and March 7, 2020, you prescribed each of the following controlled substances to Patient M.H.:
 - a. 60-90 tablets of alprazolam 2 mg (a Schedule IV benzodiazepine);
 - b. 30-60 tablets of methadone 10 mg (a Schedule II opioid); and
 - c. 120-150 tablets of oxycodone (a Schedule II opioid), at dosages ranging from 10 mg to 15 mg.
9. Additionally, on at least four separate occasions between May 31, 2017, and November 8, 2019, you prescribed each of the following controlled substances to Patient M.H.:
 - a. 60-90 tablets of alprazolam 2 mg (a Schedule IV benzodiazepine);
 - b. 60 tablets of methadone 10 mg (a Schedule II opioid);
 - c. 120-150 tablets of oxycodone (a Schedule II opioid), at dosages ranging from 10 mg to 20 mg; and
 - d. Hydrocodone/chlorpheniramine (a Schedule II opioid).
10. Finally, on at least three separate occasions between December 5, 2019, and February 5, 2020,¹ you prescribed each of the following controlled substances to Patient M.H.:
 - a. 90 tablets of alprazolam 2 mg (a Schedule IV benzodiazepine);
 - b. 30-60 tablets of methadone 10 mg (a Schedule II opioid);
 - c. 150 tablets of oxycodone 10 mg (a Schedule II opioid); and
 - d. 10-45 tablets of buprenorphine 8 mg (a Schedule III opioid).

¹ On one of these occasions, February 5, 2020, you prescribed alprazolam five days after you prescribed the other three controlled substances.

11. Based on a review of your electronic medical records for Patient M.H., DEA's expert concluded that each prescription was issued outside the usual course of professional practice in Nevada and not for a legitimate medical purpose. In addition to the concerns outlined above (*see supra* ¶¶ 6-7), DEA's expert noted the following deviations below the standard of care in your treatment of Patient M.H.:

- a. On April 27, 2017, Patient M.H. returned to your office after being incarcerated for approximately 18 months. You prescribed Patient M.H. methadone and oxycodone in dosages that exceeded 100 morphine milligram equivalents ("MMEs"),² even though this patient appeared to be opiate naïve, according to urine drug screen results and the Nevada Prescription Monitoring Program. DEA's expert opined that prescribing more than 100 MMEs to an opiate naïve patient was excessive, reckless, and dangerous. Moreover, you prescribed Patient M.H. a Schedule IV benzodiazepine (alprazolam) in addition to two opioids. The Food and Drug Administration ("FDA") requires a black box warning for benzodiazepines, which states: "WARNING: RISKS FROM CONCOMITANT USE WITH OPIOIDS." The warning continues: "Concomitant use of benzodiazepines and opioids may result in profound sedation, respiratory depression, coma, and death." DEA's expert opined that this drug combination was dangerous, and it greatly increased Patient M.H.'s risk of adverse health consequences, such as respiratory depression, overdose, or death.
- b. You frequently increased Patient M.H.'s medication dosage without a legitimate medical justification. For example, on December 27, 2018, you doubled Patient M.H.'s methadone prescription, although your medical records indicate that Patient M.H.'s pain was "controlled," and this patient rated their pain level as a one or two out of ten.
- c. You frequently prescribed multiple opioids to Patient M.H. without explaining why each opioid was indicated. For example, on December 5, 2019, your medical records state that Patient M.H. was "well controlled on current regiment with no increase in pain," yet you prescribed buprenorphine to Patient M.H. because Patient M.H. requested it, even though Patient M.H. was already receiving two opioids (methadone and oxycodone). On the next visit, on January 6, 2020, Patient M.H. requested a higher dosage of buprenorphine. Evidently on this basis alone you increased Patient M.H.'s dosage, while continuing to prescribe Patient M.H. methadone and oxycodone. DEA's expert noted that you did not document a legitimate medical purpose for prescribing this combination of opioids or for the increase in buprenorphine.

² DEA's expert calculated morphine equivalents according to the CDC's guidelines. *See Calculating Total Daily Dosage of Opioids for Safer Dosage*, available at https://www.cdc.gov/drugoverdose/pdf/calculating_total_daily_dose-a.pdf (last visited June 15, 2020).

12. For the foregoing reasons, and in view of the minimal standards that govern the practice of medicine in the State of Nevada, the prescriptions issued to Patient M.H. were not issued “for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice.” Therefore, these prescriptions violated 21 C.F.R. § 1306.04(a) and NEV. REV. STAT. § 453.381. These prescriptions also violated the standards of practice set forth by the Nevada State Board of Medical Examiners. *See, e.g.,* NEV. ADMIN. CODE § 630.187.

Patient D.S.

13. On at least 14 separate occasions between December 3, 2018, and January 6, 2020, you prescribed each of the following controlled substances to Patient D.S.:
- a. 30 tablets of morphine sulfate extended release 15 mg (a Schedule II opioid);
 - b. 150 tablets of oxycodone 10 mg (a Schedule II opioid);
 - c. 60 tablets of alprazolam 1 mg (a Schedule IV benzodiazepine); and
 - d. 60 tablets of carisoprodol 350 mg (a Schedule IV muscle relaxant).
14. Additionally, on February 5, 2020, and March 5, 2020, you prescribed each of the following controlled substances to Patient D.S.:
- a. 30 tablets of morphine sulfate extended release 15 mg (a Schedule II opioid);
 - b. 150 tablets of oxycodone 10 mg (a Schedule II opioid); and
 - c. 60 tablets of alprazolam 1 mg (a Schedule IV benzodiazepine).
15. Based on a review of your electronic medical records for Patient D.S., DEA’s expert concluded that each prescription was issued outside the usual course of professional practice in Nevada and not for a legitimate medical purpose. In addition to the concerns outlined above (*see supra* ¶ 6), DEA’s expert noted the following deviations below the standard of care in your treatment of Patient D.S.:
- a. You prescribed Patient D.S. a highly-addictive drug cocktail, otherwise known as the “Holy Trinity,” which is commonly associated with abuse/diversion. This drug cocktail is very dangerous because it consists of three central nervous system depressants: an opioid, a benzodiazepine, and a muscle relaxant. DEA’s expert opined that this drug cocktail should rarely, if ever, be prescribed. If it is prescribed, the patient must be closely monitored, and all of the following circumstances must be present in accordance with the standard of care in Nevada: (1) there must be a legitimate medical justification for prescribing each controlled substance; (2) non-controlled alternatives must have been tried; and (3) the physician must have discussed the risks and benefits of prescribing this drug cocktail with the patient, and determined that the benefits outweigh the significant risks. Your medical records do not indicate

that any of these circumstances were present, or that you carefully monitored Patient D.S. while Patient D.S. was taking this dangerous drug cocktail. For example, your medical records do not show that you conducted regular urine drug screens on this patient.

- b. Moreover, your medical records do not document a diagnosis that would support prescribing alprazolam to Patient D.S. Your medical records indicate that Patient D.S. suffers from insomnia, but you prescribed alprazolam with instructions that it be taken twice a day, which is inconsistent with an insomnia diagnosis. Your progress note from September 6, 2018 (more than two years after you began prescribing alprazolam to Patient D.S.), records a diagnosis of “GAD [generalized anxiety disorder] F41.1,” but there is no support for this diagnosis in your records. Additionally, there is no discussion of whether non-controlled drugs or other therapies were tried for anxiety or insomnia.
 - c. Your medical records do not document any legitimate medical justification for prescribing carisprodol, a Schedule IV muscle relaxant.
16. For the foregoing reasons, and in view of the minimal standards that govern the practice of medicine in the State of Nevada, the prescriptions issued to Patient D.S. were not issued “for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice.” Therefore, these prescriptions violated 21 C.F.R. § 1306.04(a) and NEV. REV. STAT. § 453.381. These prescriptions also violated the standards of practice set forth by the Nevada State Board of Medical Examiners. *See, e.g.*, NEV. ADMIN. CODE § 630.187.

Patient C.L.

17. On at least five separate occasions between September 15, 2016, and December 19, 2017,³ you prescribed each of the following controlled substances to Patient C.L.:
- a. 60-180 tablets of methadone 10 mg (a Schedule II opioid);
 - b. 90 tablets of oxycodone 20-30 mg (a Schedule II opioid); and
 - c. 30-60 tablets of alprazolam 1 mg (a Schedule IV benzodiazepine).
18. Additionally, on at least four additional occasions between October 4, 2019, and January 6, 2020, you prescribed each of the following controlled substances to Patient C.L.:
- a. 90 tablets of oxycodone 30 mg (a Schedule II opioid), and
 - b. 60 tablets of alprazolam 2 mg (a Schedule IV benzodiazepine).

³ On one of these occasions, December 19, 2017, you prescribed alprazolam three days after you prescribed the other three controlled substances.

19. Based on a review of your electronic medical records for Patient C.L., DEA's expert concluded that each prescription was issued outside the usual course of professional practice in Nevada and not for a legitimate medical purpose. In addition to the concerns outlined above (*see supra* ¶¶ 6-7), DEA's expert noted the following deviations below the standard of care in your treatment of Patient C.L.:

- a. On September 15, 2016, you doubled Patient C.L.'s dosage of methadone, in addition to prescribing Patient C.L. a second opioid, oxycodone. DEA's expert noted that there was no justification in your medical records for doubling Patient C.L.'s methadone dosage or for prescribing Patient C.L. two opioids. DEA's expert opined that the practice of prescribing two medications for the same indication without clarifying when each medication should be used is referred to as "therapeutic duplication," and it was especially problematic in this case because you prescribed benzodiazepines to Patient C.L. in addition to two opioids. As discussed in more detail above (*see supra* ¶ 11.a.), the FDA has warned against combining benzodiazepines and opioids. Additionally, DEA's expert opined that this drug combination greatly increased Patient C.L.'s risk of adverse health consequences, such as respiratory depression, overdose, or death.
- b. You increased Patient C.L.'s medication dosages on at least three additional occasions (specifically, on October 14, 2016; December 9, 2016; and February 28, 2017) without documenting a legitimate medical purpose for these increases in your medical records. On two of these occasions, your medical records indicate that Patient C.L. requested these increases. DEA's expert opined that it is a red flag of drug abuse and/or diversion for a patient to request an increase in dosage of controlled substances, and that you failed to address or resolve this red flag.
- c. You regularly noted in your medical records that Patient C.L. had diminished breath sounds and worsening chronic obstructive pulmonary disease. DEA's expert noted that it was dangerous to continue to prescribe Patient C.L. two respiratory depressants—opioids and benzodiazepines—in light of these symptoms. DEA's expert noted that you immediately should have begun to wean Patient C.L. off, or to significantly lower dosages, of both of these controlled substances upon presentation of these symptoms to reduce the risks of overdose and death. Instead, you continued to prescribe this combination of controlled substances to Patient C.L. for years.
- d. You prescribed alprazolam to Patient C.L. approximately monthly for more than three years without developing a diagnosis to support prescribing this medication. Your medical records indicate that Patient C.L. has generalized anxiety disorder and panic disorder, but there is not adequate support for these diagnoses in your medical records. In fact, your records frequently state that Patient C.L. has "[n]o depressed or anxious affect."

20. For the foregoing reasons, and in view of the minimal standards that govern the practice of medicine in the State of Nevada, the prescriptions issued to Patient C.L. were not issued "for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice." Therefore, these prescriptions violated 21 C.F.R. § 1306.04(a)

and NEV. REV. STAT. § 453.381. These prescriptions also violated the standards of practice set forth by the Nevada State Board of Medical Examiners. *See, e.g.*, NEV. ADMIN. CODE § 630.187.

Patient C.M.

21. You issued eight prescriptions to Patient C.M., a DEA Special Agent acting in an undercover capacity, on four separate occasions between December 18, 2018, and August 21, 2019. On December 18, 2018, you prescribed each of the following controlled substances to Patient C.M.:
 - a. 60 tablets of lorazepam 1 mg (a Schedule IV benzodiazepine); and
 - b. 60 tablets of hydrocodone/acetaminophen 10/325 mg (a Schedule II opioid).
22. Additionally, on three separate occasions between January 16, 2019, and August 21, 2019, you prescribed each of the following controlled substances to Patient C.M.:
 - a. 60 tablets of alprazolam 1 mg (a Schedule IV benzodiazepine); and
 - b. 120 tablets of hydrocodone/acetaminophen 10/325 mg (a Schedule II opioid).
23. All of your office visits with Patient C.M. were recorded. Based on a review of the complete recordings and transcripts of these interactions, DEA's expert concluded that each prescription issued to Patient C.M. was issued outside the usual course of professional practice in Nevada and not for a legitimate medical purpose. In addition to the concerns outlined above (*see supra* ¶¶ 6-7), DEA's expert noted the following deviations below the standard of care in your treatment of Patient C.M.:
 - a. There was no legitimate medical justification for either of the controlled substances that you prescribed to Patient C.M., or for the combination of controlled substances that you prescribed to Patient C.M. You prescribed hydrocodone for back pain, but the cursory physical examinations that you performed on Patient C.M. did not support this diagnosis. Patient C.M. repeatedly reported low pain levels—or no pain at all—during your examinations.
 - b. You doubled Patient C.M.'s hydrocodone dosage on the second visit on January 16, 2019,⁴ without a legitimate medical justification, and without any indication that Patient C.M.'s pain levels had increased from the previous visit.

⁴ It is not evident upon initial examination that you doubled Patient C.M.'s dosage on January 16, 2019, because both the December 18, 2018 prescription (written as a two-week supply) and the January 16, 2019 prescription (written as a 30-day supply) provide the patient with four tablets per day. However, prior to issuing the December 18, 2018 prescription, you stated that you intended this prescription to provide a 30-day supply, although you were "writing it in such a way that it looks like two weeks for the authorities." Therefore, you clearly intended the December 18, 2018 prescription to supply Patient C.M. with two tablets per day.

- c. You never obtained past medical records or ordered X-rays or other imaging to verify Patient C.M.'s subjective pain complaint. Patient C.M. reported having gotten X-rays taken previously, and Patient C.M. informed you that Patient C.M. did not believe the X-rays showed any deformities. You did not follow up on these apparently normal X-rays.
 - d. You prescribed Schedule IV benzodiazepines to Patient C.M. (lorazepam on the first visit, and alprazolam on the subsequent visits), but you did not adequately explore Patient C.M.'s anxiety complaint, or develop a legitimate diagnosis to support prescribing these controlled substances. Additionally, you prescribed Patient C.M. a large quantity of alprazolam that was disproportionate to Patient C.M.'s complaint. For example, on January 16, 2019, Patient C.M. reported having anxiety "a couple of times a week." However, you prescribed Patient C.M. a thirty-day supply of up to two 1 mg tablets per day.
 - e. You did not adequately warn Patient C.M. of the dangers of concurrent use of opioids and benzodiazepines, which are both central nervous system depressants. As discussed in more detail above (*see supra* ¶ 11.a.), the FDA has warned against combining benzodiazepines and opioids. Additionally, DEA's expert opined that this drug combination greatly increased Patient C.M.'s risk of adverse health consequences, such as respiratory depression, overdose, or death. Because you did not warn Patient C.M. of the risks of combining benzodiazepines and opioids, you did not obtain informed consent for prescribing these drugs. In fact, during Patient C.M.'s visit on April 30, 2019, you said, "[t]hese medicines the way you're taking them are extremely safe as long as you don't combine them with alcohol." This statement was dangerously misleading, and it directly contradicted the FDA's warning.
 - f. You obtained little to no information about Patient C.M.'s mental health history and Patient C.M.'s current and past drug and alcohol use. This was especially dangerous because you prescribed Patient C.M. a combination of benzodiazepines and opioids, which are both respiratory depressants that can exacerbate mental health problems, and can be extremely dangerous if combined with alcohol or other drugs.
24. For the foregoing reasons, and in view of the minimal standards that govern the practice of medicine in the State of Nevada, the eight prescriptions issued to Patient C.M. were not issued "for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice." Therefore, these prescriptions violated 21 C.F.R. § 1306.04(a) and NEV. REV. STAT. § 453.381. These prescriptions also violated the standards of practice set forth by the Nevada State Board of Medical Examiners. *See, e.g.,* NEV. ADMIN. CODE § 630.187.

IN view of the foregoing, and pursuant to 21 U.S.C. §§ 823(f) and 824(a)(4), it is my preliminary finding that your continued registration is inconsistent with the public interest. It is my preliminary finding that on numerous occasions you issued prescriptions outside the usual course of professional practice and not for a legitimate medical purpose, which is inconsistent with the public interest. It is also my preliminary finding, based on the facts and circumstances described above and in light of the rampant and deadly problem of prescription controlled

substance abuse, that your continued registration during the pendency of these proceedings would constitute "an imminent danger to the public health or safety" because of the substantial likelihood of an imminent threat that death, serious bodily harm or abuse of controlled substances will occur in the absence of this suspension. Under the facts and circumstances described herein, it is my conclusion that your continued registration while these proceedings are pending constitutes "an imminent danger to the public health or safety." *See* 21 U.S.C. § 824(d). Accordingly, pursuant to the provisions of 21 U.S.C. § 824(d) and 21 C.F.R. § 1301.36(e), and the authority granted me under 28 C.F.R. § 0.100, DEA COR BM7876800 is hereby suspended effective immediately. Such suspension shall remain in effect until a final determination is reached in these proceedings.

PURSUANT to 21 U.S.C. § 824(f) and 21 C.F.R. § 1301.36(f), the Special Agents and Diversion Investigators of DEA who serve this Order to Show Cause and Immediate Suspension of Registration are authorized to place under seal or to remove for safekeeping all controlled substances that you possess pursuant to the registration which I have herein suspended. The said Agents and Investigators are also directed to take into their possession your DEA COR BM7876800 and any unused order forms and prescription pads.

THE following procedures are available to you in this matter:

1. Within 30 days after the date of receipt of this Order to Show Cause and Immediate Suspension of Registration, you may file with DEA a written request for a hearing in the form set forth in 21 C.F.R. § 1316.47. *See* 21 C.F.R. § 1301.43(a). If you fail to file such a request, the hearing shall be cancelled in accordance with paragraph 3, below.
2. Within 30 days after the date of receipt of this Order to Show Cause and Immediate Suspension of Registration, you may file with DEA a waiver of hearing together with a written statement regarding your respective position on the matters of fact and law involved. *See* 21 C.F.R. § 1301.43(c).
3. Should you decline to file a request for a hearing, or should you request a hearing and then fail to appear at the designated hearing, you shall be deemed to have waived the right to a hearing and DEA may cancel such hearing, and I may enter my final order in this matter without a hearing based upon the evidence presented to me. *See* 21 C.F.R. §§ 1301.43(d) and 1301.43(e).

Requests for hearing should be filed by email with the Office of Administrative Law Judges at the following address: ECF-DEA@usdoj.gov, with a copy simultaneously provided to the Government at the following address: DEA.Registration.Litigation@usdoj.gov. Correspondence concerning this matter, including requests referenced in paragraphs 1 and 2 above, should be addressed to the Hearing Clerk, Office of Administrative Law Judges, Drug Enforcement Administration, 8701 Morrisette Drive, Springfield, VA 22152. Matters are deemed filed upon receipt by the Hearing Clerk. *See* 21 C.F.R. § 1316.45. A copy of the same shall also be served separately on Government counsel, Katherine Steele, and be addressed to the Office of Chief Counsel, Diversion and Regulatory Litigation, 8701 Morrisette Drive, Springfield, VA 22152. Matters are deemed filed upon receipt by the Hearing Clerk. *See* 21 C.F.R. § 1316.45.

SUMMARY OF TESTIMONY ADDITIONAL WITNESSES

1. **Diane L. Chau, M.D.** She is the respondent's medical expert. A summary of her opinion is stated below, along with an accompanying letter. Dr. Chau's qualifications are attached to this supplemental prehearing statement.

Summary of testimony.

Expert Report of Diane Lynn Chau MD, FACP

Statement of Opinions:

1. Dr. Vidur Mahadeva followed standards of care in pain management and opiate prescribing practices within guidance of the Federation of State Medical Boards (FSMB).

Basis:

Medicine is an art, which can vary widely depending on patient, conditions, preferences which are also noted within the FSMB guidance. Styles of clinical practice vary, however the core components and goals of care reviewed in the cases did not deviate from common standards of pain management.

The prescription of opiates and other controlled substances in NV also requires that a pharmacist review the appropriateness of the prescriptions prior to dispensing the controlled substances to any patient.

Supporting Facts:

The FSMB states very clearly, "The focus of the Guidelines that follow is on the general overall safe and evidence-based prescribing of opioids and treatment of chronic, non-

cancer pain with the specific limitation and restriction that these Guidelines **do not operate to create any specific standard of care**, which standard must depend upon fact-specific totality of circumstances surrounding specific quality-of-care events. The Guidelines recognize that there is not just one appropriate strategy to accomplish the goals of these Guidelines. **Effective means of achieving the goals of these Guidelines vary widely depending on the type and causes of the patient's pain, the preferences of the clinician and the patient, the resources available at the time of care, and other concurrent issues beyond the scope** of these Guidelines.

Statement of Opinions:

2. A presumption that all aspects of a physician's treatment can be captured in documentation is not valid, nor is it valid to state that if certain aspects of a patient's treatment was not captured in a document then it did not happen.

Basis:

Many people have heard this mantra "if it wasn't documented, it didn't happen." This is often interpreted as a requirement to log every action to prove later that it was actually done. However, that interpretation is impractical to consistently implement with 100% accuracy, and generally inconsistent as a standard of common clinical practice. It would be a physical impossibility to document everything that takes place, whether that be the patient's words, the nurse's words or my words. Thus, there are often late entries, or corrections, and cut/paste failed to edit errors common with electronic medical records. The medical record may not capture actual patient care and it is not uncommon to have violated a documentation standard (because a provider didn't record that the patient was

examined in a specific area of the body) but have upheld the hands-on patient care standard.

Supporting Facts:

Literature reports of errors in the health record data integrity, and patient/physician discussions failure to be captured in documentation.

“The emergence of EHR-related errors results in data being lost or incorrectly entered, displayed, or transmitted, leading to loss of information integrity”[Impact of Electronic Health Record Systems on Information Integrity: Quality and Safety Implications 2013 <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3797550/>]

It is well known that **the overall sensitivity of chart abstraction for documented necessary care was only 70%.** <https://pubmed.ncbi.nlm.nih.gov/10856412/> Chart abstraction underestimates the quality of care for common outpatient general medical conditions.

Statement of Opinions:

3. Dr. Vidur Mahadeva conducted appropriate physical examination and objective markers of disease in his assessment based on the cases reviewed.

Basis:

Dr. Mahadeva conducted valid patient physician relevant examinations for the patients reviewed to form this opinion within the FSMB 2017 Guidance.

Contrary to Dr. Munzing’s opinions that all initial evaluations of anxiety must include thyroid testing and other extensive evaluation/testing, this practice is not supported in the

literature. This is not indicated and would be extremely wasteful healthcare utilization without any evidence basis.

Supporting Facts

“The nature and extent of the **evaluation depends on the type of pain and the context** in which it occurs.” And “For every patient, the initial assessment and evaluation should include a system review **and relevant physical** examination, as well as objective markers of disease or diagnostic **markers as indicated**. “[FSMB 2017 Guidance]]

It is well known and published in objective research that there are no associations between high levels of depression and hypothyroidism or between high levels of anxiety and hyperthyroidism. [Psychiatric symptoms and diagnoses in thyroid disorders: a cross-sectional study, 2005 <https://pubmed.ncbi.nlm.nih.gov/24937789/>]

There was no difference in the mean TSH (Thyroid lab test used in thyroid screening) level between individuals with depression and healthy controls. [Association between subclinical hypothyroidism and depression: an updated systematic review and meta-analysis, 2019 <https://pubmed.ncbi.nlm.nih.gov/30621645/>]

Statement of Opinions:

4. Anxiety disorders standard of care still includes long term benzodiazepine use although this is not the ideal for first line treatment, Dr. Mahadeva’s practice is still common standards of community practice in the treatment and use of benzodiazepines.

Basis:

I agree with Dr. Munzing that ideally first line medications in the treatment of generalized disorders include alternative agents, however standards of primary care practice still include use of long-term benzodiazepines.

Supporting Facts:

In a 2018 research study reviewing 64 primary care practices, it is noted that Benzodiazepines were used by 22.6% of participants with anxiety disorders in the primary care sample. A large majority of benzodiazepine users (88.4%) met were long-term users, as defined by utilization for more than 12 weeks including regular and as-needed.

[\[https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6039319/\]](https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6039319/)

Statement of Opinions:

5. Dr. Vidur Mahadeva in the usual course of his practice in the cases D.S; C.L; and M.H was within the usual course of practice and his prescriptions were for legitimate purposes.

Basis:

Although not textbook, nor cook-book style medical practice, Dr. Mahadeva complied with the practice of medicine as set by the NV state medical board in its adoption of FSMB 2017 guidelines. There were no adverse patient outcomes noted in this review. There were no poor-quality patient related outcomes in the cases reviewed, such as deaths, injury, or other adverse events.

Supporting Facts:

“these Guidelines do not operate to create any specific standard of care; which standard must depend upon fact-specific totality of circumstances surrounding specific quality-of-care events. The Guidelines recognize that there is not just one appropriate strategy to accomplish the goals of these Guidelines.” [FSMB 2017]

In specific cases such as CL, I completely disagree with Dr. Munzing in his opinions regarding Morphine Equivalents, and specifically that use of Methadone with a second opiate in 2016 is therapeutic duplication or not within standards of care. As I have lectured and written about Methadone, it is standard to use Methadone with other opiates especially in opiate titration as Methadone has a nonlinear relationship to other opiates making the entirety of Dr. Munzing’s morphine equianalgesic calculations completely erroneous. Conversion recommendations from other opiates to Methadone may require dual opiate usage. I would quote my own article as a reference along with the national guidance on Methadone conversions.

https://www.pbm.va.gov/PBM/clinicalguidance/clinicalrecommendations/Methadone_Dosing_Recommendations_for_the_Treatment_of_Chronic_Pain_July_2016.pdf

I also disagree with Dr. Munzing in his opinions regarding his declaration that there are no indications or legitimate use of SOMA (carisoprodol). Soma has legitimate medical uses and has per the FDA indicated for the relief of discomfort associated with acute, painful musculoskeletal conditions in adult for which Dr. Mahadeva was within legitimate practice in using it to treat a painful musculoskeletal condition.

Statement of Opinion:

6. Dr. Vidur Mahadeva issued patient C.M. prescriptions within a clinician's usual course of practice and for legitimate medical purposes to which he as the clinician was led to believe.

Basis:

Dr. Mahadeva prescribed opiates for back pain as he was led to believe C.M had back pain. Dr. Mahadeva's idiosyncratic style of communication and engagement did not negate from the clinical facts recorded that he did conduct within the context of his global patient assessment an appropriately relevant valid examination to support his treatment plans which included prescriptions. Imaging studies in the evaluation of back pain are not considered appropriate nor a good standard of care practice. He did provide risks of medications. Clinicians do work in conjunction with other members of the healthcare team including pharmacists who review and provide risks of medications. In Nevada, it is the duty of pharmacists to refuse an improper prescription.

Supporting Facts:

21 C.F.R. 1306.04, which states that a pharmacist has a "corresponding responsibility" with the practitioner to limit prescriptions for controlled substances to what is medically necessary, and NRS 453.381(4), which states that a pharmacist "shall not" fill a prescription if the pharmacist believes that the prescription was not issued in the usual course of the practice of the physician. This clearly demonstrates other members of the healthcare team during the usual course of their practices as part of the clinical care team

agreed that the prescriptions, doses, and amounts prescribed were in the usual course of clinical practice standards.

Low back pain is one of the most common reasons for an outpatient visit. Dr. Vidur Mahadeva's evaluation for low back pain included appropriate focused medical history looking for red flags and in finding none, he ordered no imaging studies nor are imaging studies relevant. Imaging studies in the evaluation of low back pain are not supported in the medical literature or clinical practice. Numerous studies and current quality standards do not incorporate nor recommend routine imaging studies including routine X-rays in back pain assessment. The National Committee for Quality Assurance (NCQA) exists to improve the quality of health care across the United States for all clinical practices and states on their website: "Evidence shows that unnecessary or routine imaging (X-ray, MRI, CT scans) for low back pain is not associated with improved outcomes. It also exposes patients to unnecessary harms such as radiation and further unnecessary treatment."

I have an extensive history of academic medicine spanning 2 decades, with publications (including "Opiates and elderly: Use and side effects" and "Methadone in end-of-life pain management.") I have been Principal Investigator in opiate related research (Opiate Induced Constipation), and have formally provided education/training for thousands of medical providers through training programs, lecturers, seminars for over 25 years (physicians, residents, students, nurses, physical therapists, pharmacists in pain management). I have also served as the Fellowship Program Director for Geriatric Medicine trainees and Associate Professor for the University of California, San Diego where I recently served as Project Director overseeing a 4-year government funded training grant ending 2019 that included an Opiate Safety Initiative and have given many invited guest lectures in Pain Management.

I am currently a practicing hospitalist for the Veteran Affairs, a regional medical director for a California health plan, and sit on numerous advisory boards, committees, and Board of Directors including the American Geriatrics Society.

The expert opinions stated above are given to a reasonable degree of medical certainty.

LETTER FROM DIANE L. CHAU, M.D.

To whom these matters concern:

I have been asked by attorney Carl Hebert at Hebert Law to review and respond in my professional opinion as an independent medical expert regarding the care rendered by Dr. Vidur Mahadeva and specifically to answer the question:

“Were the drugs prescribed by Dr. Mahadeva medically necessary within the boundaries of the Guidelines and in the usual course of his professional practice?”

I have reviewed:

The accusation by the DEA in a charging document for Dr. Vidur Mahadeva titled “Order to Show Cause and Immediate Suspension of Registration,” dated July 22, 2020 and have noted om section titled “Background,” at § 3, the notice states: “DEA’s investigation revealed that you have regularly prescribed controlled substances to patients outside of

the usual course of the professional practice of medicine in Nevada, in violation of 21 U.S.C. § 823(f)(2), and that you have also failed to comply with applicable federal and state laws relating to controlled substances, in violation of 21 U.S.C. §823(f)(4)."

In essence, the charge is that Dr. Mahadeva's possession of a registration should be revoked because it is not in the "public interest," in that he failed to follow federal and state law in prescribing controlled substances. Subsection 823(f)(4).

I have reviewed the federal regulation: "(a) A prescription for a controlled substance to be effective must be issued for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice." 21 C.F.R. § 1306.04(a) as defined by Nevada law. NRS 453.381 and I was provided a summary of the Nevada regulation, NAC 630.185, issued by the Nevada State Board of Medical Examiners, specifically NAC 630.187:

"1. The Board hereby adopts by reference the *Guidelines for the Chronic Use of Opioid Analgesics*, April 2017, published by the Federation of State Medical Boards of the United States, Inc., and any subsequent revision of the publication that has been approved by the Board for use in this State. ...

2. The most recent publication of the *Guidelines for the Chronic Use of Opioid Analgesics* ... at the Internet address <http://www.fsmb.org>."

In addition, records from 4 patients were reviewed from September 15, 2016 to March 7, 2020 and I have concluded that Dr. Vidur Mahadeva in my professional opinion has

practiced in the usual course of professional practice within acceptable standards of the community and demonstrated intent for legitimate medical purpose within the art of his medical practice. Within my expert review of his cases and using the Guidelines for the Chronic Use of Opioid Analgesics, April 2017 along with other peer reviewed publications, in the context of his practice style, Dr. Vidur Mahadeva met the minimum community practice standards while incorporating FSMB Guidelines for opiate usage.

Finally, I also conclude that Dr. Mahadeva's had legitimate medical justification based upon the clinical context of the patient presentations to prescribe the combination-controlled substances. Dr. Mahadeva was not dangerous nor reckless. In fact, there are no patients' records demonstrating any negative outcomes such as death, hospitalizations, or injury related to actual prescriptions in the 4 cases reviewed (M.H., D.S., C.L., and C.M.). The evidence-based literature and objective references, along with my expert review based upon decades of expertise as a clinician, educator, project director, medical director and published author/speaker in pain management, chronic management are the basis of my opinion.

Please see attached details of my opinions.

Sincerely,

Dear Mr. Wuest:

Thank you for your registered mail received by me on March 21, 2021. We would like to make it clear that while we do not intend to contest surrendering our license and we are withdrawing our application for dispensing, for the record we would like to explain the extenuating circumstances created by the Covid-19 pandemic that led to the state of apparent disorganization of the prescription medications photographed prior to impounding by the DEA.

For more than a decade at our Wells Avenue location, we kept all medications under lock and key in a medication room with biometric locks and video surveillance. These medications were not dispensed for full treatment regimens but rather to treat acute presentations and verify diagnoses for conditions like hypertensive emergencies (bringing blood pressure down in office emergently) migraine headaches (abortive agents to treat and confirm diagnoses as migrainous), persistent angina (dispense aspirin, oxygen, nitrates, etc.) and other acute conditions that initiating therapy in office to negate the need for ER transfer/prior to ER transfer and confirm the diagnoses. When we first started our offices in 2009, laws were in place for redistribution of medications legally if they were sealed, obtained from reliable sources, and more than six months prior to expiry. We received donations from colleagues retiring from practice, hospice patient families who passed prior to using their medications, and the VA ER where I was working simultaneously while getting the clinic off the ground. In the intervening years, the states that passed these laws including Nevada did not make adequate arrangements for monitoring or supporting this type of reuse of appropriate medicines and we stopped this practice and moved all our medications to the basement in the new office which was sealed and no employee entry allowed in anticipation of safe disposal. Since the pandemic began, no employees came to the office as we switched to a telemedicine model, seeing patients initially via teleconference to triage them, permanently closing our waiting room, and seeing patients that could not be treated safely by telemedicine in cleaned and positive pressure ventilated rooms once a week with me as a sole provider in full PPE so as not to risk the lives of our staff. Despite the risks, we never stopped serving our patient population even through the darkest days. At the time of the DEA collection of meds, the office was run with no employees on site, and employees were never allowed into the basement. Exactly at that time, we were challenged by households that had 100% of family members with active cases of Covid-19. For a short time, the extraordinary measures detailed in our published

work in the San Diego Independent Scholars Magazine (enclosed) were implemented to anticipate the likely drugs needed for an entire treatment course. Sending Covid-19 positive patients repeatedly to a public pharmacy as the disease progressed was dangerous, inefficient, and would put more lives at risk. Thus, the advent of the covid-19 "go bag" and the justification for getting all probable necessary medications into the household with multiple virtual visits several times a day to instruct how and when to use the medications. Thus, the hundreds of dollar store medications also spread about our closed offices including diphenhydramine, acetaminophen, guaifenesin, along with donated albuterol MDI's, and samples of Azithromycin aggregated to full treatment courses when sending a member of a contaminated household to a pharmacy was dangerous.

My staff correctly suggested we dispose of all medications and we were planning to do so at the soonest. However, during the height of the pandemic, drug shortages began as patients began having problems obtaining anti-seizure medications, antibiotics, medications for allergic reactions, etc. due to shortages of various prescription medications. Patients who were unable to obtain their seizure medications began having seizures while waiting for medications. At the height of the drug shortages, I made the decision that destroying all the medications would limit our options should the shortages become worse potentially creating havoc and leading our patients winding up in local ERs when the ERs were already being overwhelmed by Covid-19 cases. The decision not to dispose of all outdated medications was taken because of the uncertainty of supply chains at the height of the pandemic. I determined that having the option to give an outdated medication was better than nothing in a worst-case scenario depending on how bad things got and how overwhelmed the system could become. The plan was to dispose of all drugs when the picture became clearer and, in the meantime, store the medications in anticipation of disposing them en masse when the pandemic numbers stabilized and it became clear the extraordinary measures would likely not be necessary. We applied for a dispensing license as we wanted to follow all applicable laws whenever possible during the crisis, not because we desired a long-term dispensing capability. Indeed, we understood we would get back our inhalers and antibiotics if we submitted this application and only then did we apply. As we are in the process of permanently closing our doors, this is moot.

I am ready to answer any and all questions during the hearing, but I would like to address some specific points raised in the accusation for the record. To wit:

1). Prescribing or dispensing a drug without a medical reason. We maintain that a legitimate medical reason based on history and physical findings was made in every case. My medical decision-making in the setting of my clinic was exactly the same as the medical decision-making I used while working at Renown, Veteran's Administration Primary care settings, VA ER settings, and rural settings in Fallon as a hospitalist and Medical Director of Highland Manor where I worked concurrently during the initial years of my clinic. The algorithms and criteria for prescribing were identical and were a reflection of what I had learned in these other settings through the years. 100% of the diagnosis, procedures, and therapies given in our clinic were done previously in the other settings under the supervision of the various administrations involved. There was nothing new or novel about what we did in the clinic, but rather the exact same logic and medical decision making was employed. However, it is important to note that these standards changed over time and we did our best to keep abreast of these changes and adapt to the changing environment by doing more continuing medical education than was required, maintaining ABIM board certification, and participating in educational events and conferences suggested by the NSBME. At the time we ceased narcotic based pain management, less than 1% of our census was receiving scheduled substances. I had been working steadily to rid our practice from chronic pain management without abandoning patients that had been on these drugs often for decades before they became our patients. Addicts were regularly discharged from our practice, but those who had become dependent on medications were treated with compassion and a remedial approach whenever possible. Patients who used chronic opioids for years to facilitate their employment and activities of daily living were caught in a terrible bind. Started by the medical establishment years before they became my patients, these patients living with chronic pain were often treated like criminals for their dependency. Dependency and addiction are different entities. A type one diabetic will die without regular insulin. Are type one diabetics therefore addicted to Insulin? Similarly, without lifelong blood pressure medications, my risk of a heart attack is 5x the baseline and I have severe chest discomfort. Am I addicted to my blood pressure medication? It boils down to a functional definition: If a given therapy enhances the quality and/or quantity of my life and facilitates improved functioning I would expect to be dependent (not addicted) to that therapy. However, if a given therapy

makes me dysfunctional or is used as an escape from reality and my responsibilities, its use likely represents addiction. Increasingly, this distinction is being made by people with no medical education and a few weeks or months of training. After 12 years of college and 20 years of experience, I find these distinctions are not black and white and I am no longer capable of making them despite decades of doing so. Pain is inherently subjective and there is no meter or diagnostic tool that can confirm or deny its existence. I don't mind giving up this increasingly dangerous and high liability responsibility, I welcome it. It makes no sense to fight for a right to prescribe controlled substances that I don't intend to exercise, and for this reason I am not contesting revocation of my DEA license. To the best of my ability, every prescription I wrote was for a legitimate medical reason.

2). Sampling Trazadone to a DEA agent. I am uncertain as to why sampling a patient complaining of insomnia a safe, non-narcotic, non-addictive, anti-depressant is considered cause for an allegation of wrongdoing. Indeed, I could've easily given the patient a sample of Belsorma given by drug manufacturers instead. This scheduled drug was being pushed by the pharmaceutical industry and sampled heavily at the time. However, this drug has a much higher abuse potential, much more likely to become addictive, and had a much more dangerous side effect profile. On the other hand, Trazadone was the drug of choice for preoperative insomnia at the Mayo Clinic when I was training because it led to sleep with much less risk. Trazadone is an older heterocyclic drug with less potential for addiction, abuse, interaction with general anesthetic or harm than any other prescription soporific of which I am aware. As it is generic and dirt cheap, there is no incentive to promote it. Other controlled drugs promoted and given free by the handful to doctors to hand out as free samples such Ambien, Sonata, Lunesta, Belsorma are infinitely more dangerous and don't raise an eyebrow as they are shoveled by big Pharma into the hands of the public. That this low cost, off patent, non-addictive, and extremely inexpensive (\$4 for 30 tablets) is an issue is puzzling. Why should it be surprising when a DEA agent complaining of insomnia is given a single tablet to try to see if it could be a solution prior to starting therapy with that agent? Throughout my training we had sample rooms of every type of medication available to give patients to find solutions, remove obstacles, and test therapies. If noncompliance due to cost or other barriers was suspected, we were encouraged to give enough samples for the patient to realize compliance was in his or her best interest. In certain medical conditions, for example venereal disease in an adolescent or young person, DOT or directly

observe therapy of the full treatment course was medically indicated. Gonorrhea can be treated with a two-week course of doxycycline or with 1 g of directly observed therapy in the office. The literature suggests the second option as the best one for groups that have shown noncompliance—teenagers and sexually active people under 25. In the case of the DEA agent complaining of severe insomnia, having him take a sleeping pill and then drive home could easily have resulted in a car accident. Telling him to go home and try it to see if it's effective was the logical manner of determining the efficacy of this therapy prior to him committing to it. It is unclear to me why this action is considered malfeasance. Similarly, when a DEA agent visits a doctor over two years and states that every non-narcotic therapy given failed and that intermittent use of lower strength narcotics for episodic pain from lifting heavy bags is well controlled, why would a doctor refuse to prescribe this reasonable request? Pain is inherently subjective. Any experienced MD can confirm some patients with the most horrible structural damage on x-ray have no pain, and patients with little or no radiographic changes can be in enormous pain. In all my medical training, we were never trained to identify patients who were purposely fabricating detailed histories of working for the TSA over two years, handling heavy bags, having episodic pain during heavy periods of work, and requesting reasonable amounts of medications for episodic pain after trying every non-narcotic solution and finding them ineffective? Is it such a stretch for a compassionate physician to attempt solving a patient's problem with a reasonable solution when everything else has reportedly failed? Do we really want a world where doctors can only treat pain if it's proven to the satisfaction of regulatory authorities? Doctors take detailed histories and physicals to collect data for a diagnosis. If that data is false but is consistently repeated for months to years, what chance does a physician have of achieving the correct diagnosis if he/she is being lied to consistently with a believable story?

I am happy to answer any and all questions honestly and directly, I have little left to lose. Professionally, we are closing a practice serving nearly 8,000 patients it took a dozen years to build, and another dozen years of education to gain the knowledge and authority to establish. While I am forever grateful to have had the opportunity to impact thousands of lives with lifesaving and life altering diagnoses and therapies, I never anticipated that my life's work would end ignominiously.

It is my hope to alter this potential epitaph by resuming employment in a closely supervised setting with the department of corrections or the Veterans Administration and I am applying for such positions right now. I am grateful these employers are considering my application favorably and I am hopeful that these actions will be interpreted as remedial, redemptive, and rehabilitative in my remaining years, giving me the opportunity to regain the confidence of the regulatory authorities before my ultimate retirement from medicine in the not-too-distant future.

My reasons for wanting to address the board are not to try and save my practice or to reinstate my license to prescribe controlled substances, but to at least leave a record of my side of the story and document that the lives we saved and improved over the last 13 years and during the pandemic are in stark contrast to the allegations that ended our clinic.

Please see enclosed my last publication from December 2020 detailing the reasons extraordinary measures were needed for extraordinary times.

Sincerely,

Vidur Mahadeva, M.D.

“Go bag” for COVID-19

by Vidur Mahadeva, MD

In my final year of medical school, I attended a lecture by an ER physician who proposed a mental exercise for all of the soon-to-be doctors in the room. He asked us to think about the medicines we would use to treat the largest variety of conditions we would likely encounter on a desert island, sort of a “Gilligan’s Island” scenario from a medical standpoint. While I began thinking of the best prescription drugs money could buy, our attending started the list of five with the humble Benadryl, a.k.a. diphenhydramine. This is a surprisingly versatile drug you can buy at a dollar store that amazingly can treat allergic reactions, insect bites, insomnia, nausea, dystonia, used as anesthesia, and therefore analgesia.

I have often thought since then what if we apply the same logic to different conditions and diagnoses? What would a “go bag” of medications look like for treating a heart attack? What would it look like for treating community acquired pneumonia? What would it look like if you were treating COVID-19?

Two decades later, by the spring of 2020, this was no longer a hypothetical question. Patients were presenting to our clinic or calling when they were told by their employers to go home because they had tested positive, to stay in quarantine and to seek medical attention should their symptoms worsen. In our patient community, this meant a large share of Spanish-speaking patients often working in food handling, food preparation, and the hotel and casino industry along with other service industries likely to be labeled as “essential.” Despite minimum wage pay and little or no insurance, these people were also risking their lives every day along with first responders, and the whole medical team.

The first few bags went out in a hurry, sometimes only with diagnostic equipment for taking temperature, blood pressure, oxygen saturation and otherwise check vital signs to monitor patients in their homes. The kits were either picked up by a COVID-negative non-symptomatic family member, delivered without contact, or left in a combination-locked dropbox for pick up outside our clinic.

In early August, we were contacted by a 40 year old Spanish-speaking woman, living with her adult brother and mother, all three testing positive for COVID-19, all with varying symptoms of fever, chills, nausea, vomiting, diarrhea, shortness of breath, productive cough, body aches, anxiety, fear, and insomnia from the psychosocial aspects of the disease. We decided to take on the case because we had successfully treated individual family members by setting them up with a similar ‘to go’ kit mentioned above.

Along with prescription drugs including azithromycin (antibiotic), dexamethasone (steroid), albuterol metered dosed asthma inhalers, over-the-counter diphenhydramine, acetaminophen, and guaifenesin (cough syrup), patients were given strict instructions to check in every eight hours with vital signs until “they were out of the woods.” The plan was to check on them two or three times per day via video conferencing or for them to contact us for a fever over 101°F, oxygen saturation less than 92%, along with high and low blood pressure and heart rate parameters.

Voltaire once said, “Medicine is the art of entertaining the patient, as the body heals itself.” Entertainment aside, simple medications given at the right time alleviated enough symptoms to build confidence that what we were doing was working. In this case the best medicine was the least medicine, along with the knowledge and security of knowing things were being monitored and worst-case scenarios anticipated with contingency plans in place if needed.

By the third day, it became clear that the younger patients were getting better with merely the use of the inexpensive OTC medications. Their symptoms were controlled, each day they felt stronger, and they gradually fell off our radar as we turned our attention to our original patient’s mother, a pleasant but clearly suffering woman in her mid-60s from the get-go at higher risk of complications.

From the video, we could see that she was breathing faster and from the oxygen saturations we realized that pulmonary symptoms were beginning. Coughing or breathing heavily into a microphone is probably underrated as a diagnostic tool. Clearly, it’s not a stethoscope, but it’s much better than nothing. Based on treatment guidelines of viral pneumonia, low doses of steroids from the bag were started and carefully monitored. The albuterol inhaler usually used for asthma came in handy. Oxygen saturations improved almost immediately. Later, when a productive cough began, the antibiotic was implemented some four days into the illness about the time one would expect an atypical bacterial co-infection. As the patient improved, monitoring was reduced from three times a day to two times a day then ultimately via text until the patient had completely stabilized from a respiratory standpoint.

In September 2020, for the first time in my medical career, I met patients in person, a full four weeks after I began treating them virtually. It was a good time to obtain all of the past medical history and fill in the blanks. While all the patients had some lingering symptoms to remind them of the assault they had suffered, the mother in her mid-60s clearly had signs of vasculitis and treatment was started with good results. Extensive laboratory tests and a physical exam confirmed she was no longer in danger of respiratory failure. However, like many Covid-19 patients, post-infectious symptoms would drag on for several weeks and would require monitoring and ongoing treatment.

While our original “go bag” was designed for one patient, it ended up treating three. The three simple diagnostic tools in the bag probably cost more to sterilize than to replace. They will serve again as telemedicine will undoubtedly be used again not only with this family but also likely with every family in the not-too-distant future.

For me this was an eye-opening experience that we would not have dared without the unique challenges posed by COVID-19. For just the price of a meal in a moderately priced restaurant, we delivered a transparent plastic TSA-compliant zip top bag filled with everything we needed to treat successfully during the acute period. Healthcare delivery clearly doesn’t have to be as industrialized and expensive as we have made it. COVID-19 opened the door to innovate just a crack and we seized the opportunity. Our team has been gratified by the results. Perhaps in the future further innovation can be driven by the rule changes that COVID-19 necessitated, or even better, because the innovations just make sense.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because at the time of the events alleged herein, Respondent Direct Compounding and Outsourcing, LLC ("Direct") held a Nevada Pharmacy License No. PH04006; Respondent Scot Silber ("Silber") held a Nevada Pharmacist Certificate of Registration No. 08362; Respondent Michael Thomas ("Thomas") held a Nevada Pharmaceutical Technician Registration No. PT05905; and Krystal Hernandez ("Hernandez") held a Nevada Pharmaceutical Technician Registration No. PT10671, all issued by the Board.

DISCIPLINARY HISTORY

2. In April 2004, the Board entered an Order in *Board of Pharmacy v. Respondent Scot M. Silber, R.Ph., Case No. 03-016-RPH-S*, for violations resulting in the mislabeling of

dosage directions on a prescription label for Roxanol Liquid, a Schedule II opioid analgesic. The patient ingested an unknown quantity of the medication and was subsequently hospitalized. The Board ordered Silber to pay a fine of \$500.00.

3. In October 2012, the Board entered a Stipulation and Order in *Board of Pharmacy v. Respondent Scot M. Silber, R.Ph., Case No. 11-090-RPH-S*, for violations resulting in a dispensing error. Silber misread a prescription and compounded 20 mg/cc morphine sulfate with **2,500 mcg/cc baclofen** rather than the 20 mg/cc morphine sulfate with **250.0 mcg/cc baclofen** as prescribed. The compound was administered to the patient who was subsequently hospitalized for baclofen toxicity. The Board placed Silber on probation for two years and imposed a \$2,500 fine.

FACTUAL ALLEGATIONS

4. Respondent Direct is located on 1850 Whitney Mesa Boulevard, #180, Henderson, Nevada 89014. On April 4, 2019, pharmacist T.B., was terminated as managing pharmacist of Direct. Direct did not notify the Board about the change in managing pharmacist.

5. Respondent Silber was hired as the managing pharmacist of Direct beginning on or about April 22, 2019.

6. Respondents Thomas and Hernandez were employed by Direct during the times alleged.

7. On or about April 4, 2019, Thomas was contacted by Ellie Gerber ("Gerber"), one of the managing members/owners of Direct, to meet the locksmith at Direct to re-key the pharmacy door. Thomas was given three (3) sets of keys to Direct's pharmacy by the locksmith. Hernandez received a key to Direct on April 8, 2019.

8. Between April 4 and April 22, 2019, Thomas and/or Hernandez had unauthorized access to Direct's controlled substances and dangerous drugs inventory without a pharmacist present.

ANSWER

1. Respondents admit that the Board has jurisdiction over this matter, and further admit that the Board’s allegations regarding Direct Compounding’s Nevada Pharmacy License No. and Mr. Silber’s Nevada Pharmacist Certificate of Registration No. are accurate. DISCIPLINARY HISTORY

2. Mr. Silber admits the general factual recitation set forth in Paragraph 2 of the Accusation, but further states that the referenced Board Order of April 2004 speaks for itself. Mr. Silber further asserts that he timely complied with and satisfied the Board's imposition of the referenced fine. Direct Compounding is without sufficient knowledge to know the truth or falsity of the allegations of Paragraph 2 of the Accusation as the referenced facts predate Direct Compounding's formation date (June 12, 2017).

3. Mr. Silber admits the general factual recitation set forth in Paragraph 3 of the Accusation, but further states that the referenced Board Stipulation and Order of October 2012 speaks for itself. Mr. Silber further asserts that he timely complied with and satisfied the Board's imposition of the referenced probation and fine. Direct Compounding is without sufficient knowledge to know the truth or falsity of the allegations of Paragraph 3 of the Accusation as the referenced facts predate Direct Compounding's formation date (June 12, 2017).

FACTUAL ALLEGATIONS

4. Respondents admit that Direct Compounding is located at the referenced address. Direct Compounding further admits that pharmacist T.B. was terminated on or about April 4, 2019. Direct Compounding disputes that it did not notify the Board regarding the termination of pharmacist T.B., as explained in Affirmative Defense and Mitigating Circumstances Nos. 16 and 17. Mr. Silber is without sufficient knowledge to know the truth or falsity of the allegations of Paragraph 4 of the Accusation, and therefore denies the same.

5. Respondents admit Paragraph 5 of the Accusation.

6. Respondents admit Paragraph 6 of the Accusation.

7. Direct Compounding disputes that Ellie Gerber ("Ms. Gerber") contacted Mr. Thomas on or about April 4, 2019 about meeting a locksmith at the offices of Direct

Compounding; nevertheless, Direct Compounding admits that, on or about the referenced dates, Mr. Thomas was so-requested to meet a locksmith at the offices of Direct Compounding. Direct Compounding further admits that Mr. Thomas received three (3) sets of keys to the offices of Direct Compounding from said locksmith, and that Ms. Hernandez received one (1) set of said keys from Mr. Thomas on or about April 8, 2019. Mr. Silber is without sufficient knowledge to know the truth or falsity of the allegations of Paragraph 7 of the Accusation, and therefore denies the same.

8. Direct Compounding disputes the allegations of Paragraph 8 of the Accusation as explained in Affirmative Defense and Mitigating Circumstances Nos. 15, 18, 19, 20, and 21. Nevertheless, Direct Compounding admits that, during certain dates within the April 4 – 22, 2019 timeframe, Mr. Thomas and Ms. Hernandez were able to access Direct Compounding's offices when a pharmacist was not present, and that such access included the potential for access to Direct Compounding's minimal inventory of a single controlled substance (testosterone). Mr. Silber is generally without sufficient knowledge to know the truth or falsity of the allegations of Paragraph 8 of the Accusation, and therefore denies the same as further explained in Affirmative Defense and Mitigating Circumstances Nos. 10, 21, and 25.

APPLICABLE LAW

9. Respondents state that Paragraph 9 of the Accusation sets forth an accurate summation of the legal requirements of NRS §§ 639.220 and 639.284, but said paragraph does not set forth the complete language of either statute. Respondents do not admit that Direct Compounding, Mr. Silber, Mr. Thomas and/or Ms. Hernandez committed a violation of either NRS § 639.220 or NRS § 639.284.

10. Respondents state that Paragraph 10 of the Accusation sets forth a general summation of the legal requirements of certain provisions of NRS § 639.470, NAC § 639.520,

Respondents do not admit that Direct Compounding, Mr. Silber, Mr. Thomas and/or Ms. Hernandez committed a violation of NRS § 639.470, NAC § 639.520, and 21 CFR § 1301.71.

11. Respondents state that Paragraph 11 of the Accusation sets forth a general summation of the legal requirements of NRS § 639.220(1) and NAC § 639.702, but said paragraph does not set forth the complete language of either the statute or the regulatory provision. Respondents do not admit that Direct Compounding, Mr. Silber, Mr. Thomas and/or Ms. Hernandez committed a violation of either NRS § 639.220(1) or NAC § 639.702.

12. Respondents state that Paragraph 12 of the Accusation sets forth an accurate summation of the legal requirements of and NAC §§ 639.702 and 639.945(2), but said paragraph does not set forth the complete language of either regulatory provision. Respondents further state that NRS § 639.220(5) does not stand for the legal requirement alleged in Paragraph 12 of the Accusation, as this statute is a remedial provision. Respondents do not admit that Direct Compounding, Mr. Silber, Mr. Thomas and/or Ms. Hernandez committed a violation of NRS § 639.630(5), or of NAC §§ 639.702 or 639.945(2).

13. Respondents state that Paragraph 13 of the Accusation sets forth an accurate summation of the legal requirements of NRS § 639.210(4) and NAC § 639.945(1)(i), but said paragraph does not set forth the complete language of either the statute or the regulatory provision. Background Regarding Direct Compounding and Scot M. Silber, R.Ph.

3. Direct Compounding was incorporated on June 12, 2017. Since August 30, 2019, Direct Compounding has been owned and operated by Ellie Gerber ("Ms. Gerber") and Alicia Smith ("Ms. Smith"). Ms. Gerber and Ms. Smith are residents of California.

4. At the time of incorporating Direct Compounding and throughout the relevant timeframe of the Accusation, both Ms. Gerber and Ms. Smith were novice owners of a pharmacy and were, in full candor to the Board, undereducated with regard to state and federal statutory and regulatory obligations applicable to owners of a licensed and registered pharmacy.

5. Direct Compounding initially hired Pharmacist T.B. as its Pharmacist-in-Charge ("PIC"). Direct Compounding employed Pharmacist T.B. as its PIC from June 12, 2017 through approximately April 4, 2019. Due to their inexperience in the ownership of a pharmacy, Ms. Gerber and Ms. Smith placed full faith and responsibility in Pharmacist T.B. to oversee, operate, manage, and supervise Direct Compounding, and further to ensure Direct Compounding was compliant with all statutory and regulatory obligations.

6. For the time period of June 2017 through April 2019, Direct Compounding did not receive any disciplinary notifications or legal actions from either the Board or the United States Food and Drug Administration (the "FDA"), or from any other state or federal agencies or oversight personnel. Neither has Direct Compounding received any disciplinary notifications or other legal actions from the Board or the FDA, or from any other state or federal agencies or oversight personnel, since April 2019. The Board has not sought to make any emergency or summary suspension of Direct Compounding's license or of any registrations held by Mr. Silber, Mr. Thomas, or Ms. Hernandez related to the allegations of the Accusation, as is permissible under NRS § 233B.127(3). Furthermore, Direct Compounding has complied with all recommendations by Board Staff and federal agencies pursuant to regulatory inspections.

7. Direct Compounding hired Mr. Thomas on November 9, 2018 and he was employed through October 22, 2020. Direct Compounding hired Ms. Hernandez on July 17,

2018 and she was employed through June 4, 2020. Neither Mr. Thomas nor Ms. Hernandez is presently employed with Direct Compounding.

8. On or about April 4, 2019, Direct Compounding terminated Pharmacist T.B., based upon multiple issues which required an immediate separation of Pharmacist T.B. from employment with Direct Compounding.

9. Immediately thereafter, Direct Compounding began its search for a new PIC to replace Pharmacist T.B.

10. On or about April 15, 2019, Ms. Gerber met with Mr. Silber at the business location of Direct Compounding, for the purposes of interviewing Mr. Silber for the position of PIC. Direct Compounding offered Mr. Silber the position of PIC on or about April 16, 2019. Mr. Silber accepted this position, with an official payroll start date of April 22, 2019 but an actual onsite start date of April 15, 2019.

Factual Points Relevant to the Accusation

11. Direct Compounding recognizes that it failed to notify Board Staff regarding the termination of Pharmacist T.B., but such failure was not done with the intent or desire to mislead Board Staff regarding Direct Compounding's PIC. Nevertheless, Direct Compounding recognizes the severe gravamen of its lack of notification to Board Staff regarding the termination of Pharmacist T.B., the eighteen (18) day timeframe in which Direct Compounding did not have a PIC to oversee operation of the pharmacy, and the criticality this point created for all other material allegations made in the Accusation.

12. On April 4, 2019, Direct Compounding received notification from its online security monitor that Pharmacist T.B. had attempted – after his termination – to remotely access Direct Compounding's network server and systems through the Direct Compounding website.

Direct Compounding considered this unauthorized access effort to be a significant attempt on the part of Pharmacist T.B. to breach Direct Compounding's online systems, wherein Pharmacist T.B. would have unfettered access to Direct Compounding's proprietary information and data.

13. In response to the notification noted in Paragraph 11 above, and in an effort to ensure that Pharmacist T.B. did not retain an ability to access the Direct Compounding facilities, on April 4, 2019 Direct Compounding obtained a locksmith to change all of the locks to the Direct Compounding facilities. Insofar as Ms. Gerber and Ms. Smith were both located in California at this time, Mr. Thomas was asked to meet the locksmith at Direct Compounding's business location. Mr. Thomas agreed to do so.

14. When the locksmith completed the change to all of Direct Compounding's locks, the locksmith delivered three sets of keys to Direct Compounding to Mr. Thomas. Mr. Thomas subsequently delivered one set of keys to Ms. Hernandez on or about April 8, 2019.

15. Here again, Direct Compounding's efforts to ensure that Pharmacist T.B. could no longer access its online systems or physical location were made in the exigency of Direct Compounding severing its business relationship with Pharmacist T.B. and protecting the business from potential nefarious conduct on the part of Pharmacist T.B. Asking Mr. Thomas to meet the locksmith, and the subsequent delivery of keys to Mr. Thomas, was not made with the intent of providing access to Direct Compounding by unauthorized persons or employees. Nevertheless, Direct Compounding recognizes that the consequence of the urgency of its decision-making during a tumultuous time created a second level of material allegations as set forth in the Accusation.

16. On April 4, 2019, Ms. Gerber sent an email to Board Staff through the email address pharmacy@pharmacy.nv.gov requesting information and applicable forms to notify Board Staff of a change to Direct Compounding's PIC. Ms. Gerber did not receive a response to this email outreach.

17. Having not received a response from Board Staff regarding a change to Direct Compounding's PIC, Ms. Gerber subsequently worked with Mr. Thomas to identify the process and applicable forms for notifying Board Staff of a change to Direct Compounding's PIC. Direct Compounding submitted the requisite form and notification of a change to its PIC on April 22, 2019.

18. During the period of April 4, 2019 through April 22, 2019, Mr. Thomas and Ms. Hernandez were generally instructed by Ms. Gerber to work from home rather than access the Direct Compounding facilities. Nevertheless, both Mr. Thomas and Ms. Hernandez did access the Direct Compounding facilities on limited occasions and for limited time periods between approximately April 12 – 22, 2019. Ms. Gerber was aware that both Mr. Thomas and Ms. Hernandez accessed the Direct Compounding facilities and engaged in some work while onsite—which access she believed was limited to the back-office suite and not to the pharmacy proper—but Ms. Gerber was not aware (as a result of being undereducated on regulatory requirements) that such access was (and is) prohibited by Nevada law. Direct Compounding did not intend to violate Nevada law in this regard, but it fully understands that the lack of regulatory knowledge caused a third level of material issues as alleged in the Accusation.

19. During the timeframe between April 4, 2019 and April 22, 2019, Mr. Thomas and Ms. Hernandez engaged in the following work while onsite at Direct Compounding's facilities: development of marketing, policies, and procedures; development of call logs and patient

tracking systems; organization of the business back offices; and general “busy work.” Again, Direct Compounding’s expectation was that both Mr. Thomas and Ms. Hernandez were to work from home – remotely – during this timeframe. To the best of Respondent’s knowledge, neither Mr. Thomas nor Ms. Hernandez engaged in any pharmaceutical or compounding work when no pharmacist was present during this timeframe.

20. During the period of April 1, 2019 through April 22, 2019, Direct Compounding did not engage in any sales or the payment of any invoices. Direct Compounding did fulfill the dispensing of one prescription during this timeframe—entered into Direct Compounding’s computer system April 17, 2019 and compounded on April 18, 2019—which occurred while Mr. Silber was present at Direct Compounding’s facilities and with his oversight.

21. As noted above, Mr. Silber accepted the position of PIC for Direct Compounding on April 16, 2019, with an official payroll start date of April 22, 2019. Nevertheless, Mr. Silber was onsite at Direct Compounding’s facilities for various time periods up to three (3) hours per day, on April 15 and 18, 2019, for purposes of setting up his office and reviewing general operations and policies of Direct Compounding. Mr. Silber was present on at least one occasion when Mr. Thomas engaged in compounding a pharmaceutical. In addition, Mr. Silber signed-off on one prescription on April 18, 2019.

22. On April 22, 2019, Mr. Silber engaged a locksmith to change all of the locks to the Direct Compounding facilities. Mr. Silber undertook this project on the advice of Board Staff investigators, who were onsite at the Direct Compounding facilities on this date. In addition, on this same date Mr. Silber and Ms. Gerber changed Direct Compounding’s alarm system access and contact person to reflect Mr. Silber’s authority to act on behalf of the pharmacy.

23. Among his first tasks for Direct Compounding, Mr. Silber prepared an accounting of all pharmaceuticals and compounding ingredients in the pharmacy's inventory. Further to this task, Mr. Silber prepared and filed a Change of Managing Pharmacist Inventory with Board Staff on April 22, 2019, identifying the opening-day inventory as of this date. At all times relevant to this matter, all Schedule II controlled substances identified in this inventory report were locked in Direct Compounding's safe, to which only Direct Compounding's PIC had (and has) access.

24. Direct Compounding respectfully requests that the Board consider that the events alleged in the Accusation occurred over two years ago, and that the events giving rise to the Accusation occurred in an eighteen (18) day timeframe. Direct Compounding is acutely aware that the allegations of the Accusation are significant, but outside of the timeframe of these allegations Direct Compounding has not had any disciplinary issues with the Board and it has operated for the two years following April 22, 2019 without incident.

25. Mr. Silber respectfully requests that the Board recognize that his employment with Direct Compounding post-dates the material allegations of the Accusation, and that his position as PIC was unrelated to the material allegations of the Accusation. As such, the First Cause of Action should be dismissed insofar as the Accusation does not allege any factual assertions against Mr. Silber that occurred during his employment as Direct Compounding's PIC.

26. Direct Compounding and Mr. Silber respectfully request that the Board consider each of these mitigating circumstances in evaluating the Accusation, and that any remedial measures be limited to constructive and productive results. Direct Compounding and Mr. Silber do not believe that the allegations of the Accusation warrant suspension or revocation of any

licenses or certificates of registration. Direct Compounding and Mr. Silber are contrite as to the allegations of the Accusation, and they are ready, willing, and able to work in good faith with the Board and Board Staff to ensure no further occurrences such as those set forth in the Accusation recur.

Respectfully submitted this 26th day of May, 2021.

**DECLARATION OF ELLIE GERBER IN
SUPPORT OF ANSWER AND NOTICE
OF DEFENSE TO NOTICE OF
INTENDED ACTION AND
ACCUSATION**

I, Ellie Gerber, hereby state and declare as follows:

1. I make this Declaration in support of an Answer and Notice of Defense to Notice of Intended Action and Accusation submitted on behalf of Direct Compounding and Outsourcing, LLC ("Direct Compounding") and on behalf of Scot M. Silber, R.Ph. ("Mr. Silber"). I am over the age of eighteen years and competent to testify as to the matters set forth herein. I make this Declaration upon personal knowledge, or upon information and belief where so indicated.

2. Direct Compounding was incorporated with the Nevada Secretary of State on June 12, 2017. I am a fifteen percent owner of Direct Compounding. Alicia Smith is the other owner of Direct Compounding, controlling eighty-five percent of the ownership interests in the business.

3. At the time of incorporating Direct Compounding and throughout the relevant timeframe of the Accusation, both I and Ms. Smith were novice owners of a pharmacy and were, in full candor to the Board, undereducated with regard to state and federal statutory and regulatory obligations applicable to owners of a licensed and registered pharmacy. While I have prior experience in the business of pharmacy, my experience was largely directed toward finance, marketing, infrastructure development, and general business operations. Neither I nor Ms. Smith had any prior experience regarding any depth of regulatory know-how and compliance.

4. Direct Compounding initially hired Pharmacist T.B. as its Pharmacist-in-Charge ("PIC"). Direct Compounding employed Pharmacist T.B. as its PIC from June 12, 2017 through approximately April 4, 2019. Due to our inexperience in the ownership of a pharmacy, Ms. Smith and I placed full faith and responsibility in Pharmacist T.B. to oversee, operate, manage, and supervise Direct Compounding, and further to ensure Direct Compounding was compliant with all statutory and regulatory obligations.

5. For the time period of June 2017 through April 2019, Direct Compounding did not receive any disciplinary notifications or legal actions from either the Board or the United States Food and Drug Administration, or from any other state or federal agencies or oversight personnel. Neither has Direct Compounding received any disciplinary notifications or other legal actions from the Board or the FDA, or from any other state or federal agencies or oversight personnel, since April 2019. Direct Compounding complied with all recommendations by Board Staff and federal agencies pursuant to regulatory inspections.

6. Direct Compounding hired Michael Thomas on November 9, 2018 and he was employed through October 22, 2020. Direct Compounding hired Krystal Hernandez on July 17,

2018 and she was employed through June 4, 2020. Neither Mr. Thomas nor Ms. Hernandez is presently employed with Direct Compounding.

7. On or about April 4, 2019, Direct Compounding terminated Pharmacist T.B., based upon multiple issues which required an immediate separation of Pharmacist T.B. from employment with Direct Compounding. Direct Compounding's separation from Pharmacist T.B. was considerably tumultuous and confrontational, which point was exacerbated by my and Ms. Smith's residing in California at the time of termination.

8. Immediately thereafter, Direct Compounding began its search for a new PIC to replace Pharmacist T.B. On April 15, 2019, upon my return to Nevada, I met Mr. Silber at the Direct Compounding business offices for the purposes of interviewing him for the position of PIC. Mr. Silber accepted the position of PIC on April 16, 2019, with an official payroll start date of April 22, 2019 and an actual start date of April 15, 2019.

9. On April 4, 2019, Direct Compounding received notification from its online security monitor that Pharmacist T.B. had attempted – after his termination – to remotely access Direct Compounding's network server and systems through the Direct Compounding website. Direct Compounding considered this unauthorized access effort to be a significant attempt on the part of Pharmacist T.B. to breach Direct Compounding's online systems, wherein Pharmacist T.B. would have unfettered access to all of Direct Compounding's proprietary information and data. A true and accurate copy of this notification is attached hereto as Exhibit A-1.

10. In an effort to ensure that Pharmacist T.B. did not retain an ability to access the Direct Compounding facilities, on April 4, 2019 Direct Compounding obtained a locksmith to change all of the locks to the Direct Compounding facilities. Insofar as both Ms. Smith and I

were located in California at this time, Mr. Thomas was asked to meet the locksmith at Direct Compounding's business location. Mr. Thomas agreed to do so.

11. As I understand subsequent events, when the locksmith completed the change to all of Direct Compounding's locks, the locksmith delivered three sets of keys to Direct Compounding to Mr. Thomas. Mr. Thomas subsequently delivered one set of keys to Ms. Hernandez on or about April 8, 2019.

12. Direct Compounding's efforts to ensure that Pharmacist T.B. could no longer access its online systems or physical location were made in the exigency of Direct Compounding severing its business relationship with Pharmacist T.B. and protecting the business from potential nefarious conduct on the part of Pharmacist T.B. Asking Mr. Thomas to meet the locksmith, and the subsequent delivery of keys to Mr. Thomas, was not made with the intent of providing access to Direct Compounding by unauthorized persons or employees. However, in hindsight Direct Compounding recognizes that having Mr. Thomas meet the locksmith and obtain the keys to the Direct Compounding facilities was made in error and is a precipitating cause of the Board's Accusation against Direct Compounding and the other Respondents.

13. Following Direct Compounding's termination of Pharmacist T.B., I sent an email to Board Staff on April 4, 2019 through the email address pharmacy@pharmacy.nv.gov, requesting information and applicable forms to notify Board Staff of a change to Direct Compounding's PIC. I did not receive a response to this email outreach. A true and accurate copy of this email is attached hereto as Exhibit A-2.

14. Having not received a response from Board Staff regarding a change to Direct Compounding's PIC, I subsequently worked with Mr. Thomas to identify the process and applicable forms for notifying Board Staff of a change to Direct Compounding's PIC. A true and

accurate copy of my correspondence with Mr. Thomas on this issue is attached hereto as Exhibit A-3. Direct Compounding submitted the requisite form and notification of a change to its PIC on April 22, 2019.

15. During the period of April 4, 2019 through April 22, 2019, I instructed Mr. Thomas and Ms. Hernandez to work from home rather than access the Direct Compounding facilities. Nevertheless, I was aware both Mr. Thomas and Ms. Hernandez did access the Direct Compounding facilities on limited occasions and for limited time periods between approximately April 12 – 22, 2019. I was also aware that both Mr. Thomas and Ms. Hernandez accessed the Direct Compounding facilities and engaged in some work while onsite—which access I believed was limited to the back-office suite and not to the pharmacy proper. I was not aware (as a result of being undereducated on regulatory requirements) that such access was (and is) prohibited by Nevada law. Direct Compounding did not intend to violate Nevada law in this regard.

16. To the best of my knowledge, during the timeframe between April 4, 2019 and April 22, 2019, Mr. Thomas and Ms. Hernandez engaged in the following work while onsite at Direct Compounding's facilities: development of marketing, policies, and procedures; development of call logs and patient tracking systems; organization of the business back offices; and general "busy work." Again, Direct Compounding's expectation was that both Mr. Thomas and Ms. Hernandez were to work from home – remotely – during this timeframe. To the best of my knowledge, neither Mr. Thomas nor Ms. Hernandez engaged in any pharmaceutical or compounding work when no pharmacist was present during this timeframe.

17. During the period of April 1, 2019 through April 22, 2019, Direct Compounding did not engage in any sales or the payment of any invoices. A true and accurate copy of Direct Compounding's Sales and Product Service Detail is attached hereto as Exhibit A-4.

18. I am aware that on April 22, 2019, Mr. Silber engaged a locksmith to change all of the locks to the Direct Compounding facilities. On this same date, I worked with Mr. Silber to ensure that the alarm system for Direct Compounding was reset and that Mr. Silber was designated as the primary contact person for the alarm company. Subsequently, Direct Compounding has changed its internal policies to ensure that I also personally receive all notifications and correspondence from the alarm company regarding the performance and troubleshooting issues related to Direct Compounding's alarm system.

19. In or about late-March 2019, I received an invoice from Pharmacist T.B. for 24 10 ML / VL of Testosterone Cyplonate Injectable MDV 200 MG / M. A true and accurate copy of this invoice is attached hereto as Exhibit A-5. To the best of my knowledge, this is the controlled substance of which the Board complains in the Accusation. To this point, it was my understanding that Pharmacist T.B. placed the inventory of this pharmaceutical in Direct Compounding's safe, as was the required policy of Direct Compounding regarding inventorying of controlled substances. Neither Ms. Smith nor I was aware that Pharmacist T.B. had not placed the inventory of this pharmaceutical in Direct Compounding's safe.

20. On April 30, 2019, I received notification from Mr. Thomas that Pharmacist T.B. had ordered one 100 G quantity of Testosterone Non-Micro, USP, CIII, and one 100 G quantity of Testosterone Cyplonate, USP, III, from B&B Pharmaceuticals, Inc. True and accurate copies of these order invoices are attached hereto as Exhibit A-6. Insofar as Pharmacist T.B. did not notify me or Ms. Smith of the pharmaceuticals he was ordering, this email from Mr. Thomas is the first notice Ms. Smith and I received regarding the ordering of these pharmaceuticals.

21. Direct Compounding respectfully requests that the Board consider that the events alleged in the Accusation occurred over two years ago, and that the events giving rise to the

Accusation occurred in an eighteen (18) day timeframe. Direct Compounding is acutely aware that the allegations of the Accusation are significant, but outside of the timeframe of these allegations Direct Compounding has not had any disciplinary issues with the Board and it has operated for the two years following April 22, 2019 without incident.

I declare under penalty of perjury under the laws of the Nevada that the foregoing is true and correct.

Executed this 26th day of May, 2021 in Carlsbad, California.

To: pharmacy@pharmacy.nv.gov <pharmacy@pharmacy.nv.gov>

Hello,

Can you please direct me to the forms needed to complete the following for our pharmacy:

- 1) We need to update our PIC, is there a form for that or do I just email the personnel change?
- 2) We have updated our corporate structure to satisfy the board of California for non-resident applications, does that need to be updated with the Nevada board as well?
- 3) I had sent the verification form necessary for our non-resident California application, just wanted to make sure it was received and see if there is an estimated return date.

Thank you,

Attached are the forms needed for changing the PIC and for changing the ownership status. The PIC is pretty straight forward and the ownership change is like getting a new pharmacy license not page 2 paragraph 4. As for the verification form what form did you send and to whom? I can follow up on it but I need a little more info so I am asking the right questions.

Thanks,

**DECLARATION OF SCOT M. SILBER,
R.Ph. IN SUPPORT OF ANSWER AND
NOTICE OF DEFENSE TO NOTICE OF
INTENDED ACTION AND
ACCUSATION**

I, Scot M. Silber, R.Ph., hereby state and declare as follows:

1. I make this Declaration in support of an Answer and Notice of Defense to Notice of Intended Action and Accusation submitted on behalf of me personally and on behalf of Direct Compounding and Outsourcing, LLC ("Direct Compounding"). I am over the age of eighteen years and competent to testify as to the matters set forth herein. I make this Declaration upon personal knowledge, or upon information and belief where so indicated.

2. I am a licensed and registered pharmacist with the Nevada State Board of Pharmacy pursuant to Certificate of Registration No. 08362. I have practiced pharmacy in the State of Nevada for over thirty-seven years.

3. On April 15, 2019, I met Ellie Gerber – an owner of Direct Compounding – at the business offices for the purposes of interviewing for the position of Pharmacist-in-Charge ("PIC"). I accepted the position of PIC on April 16, 2019, with an official payroll start date of

April 22, 2019 and an actual start date of April 15, 2019. During the week of April 15, 2019 through April 22, 2019, I was onsite at Direct Compounding's facilities for various time periods up to three (3) hours per day, for purposes of setting up my office and reviewing general operations and policies of Direct Compounding.

4. I was present on at least one occasion when Michael Thomas engaged in compounding a pharmaceutical. In addition, I signed-off on one prescription dispensed on April 18, 2019. A true and accurate copy of Direct Compounding's Log of Scripts for the time period April 3, 2019 through April 21, 2019 is attached hereto as Exhibit B-1, which identifies the prescription that was entered into Direct Compounding's computer system on April 17, 2019 and dispensed on April 18, 2019.

5. On April 22, 2019, I engaged a locksmith to change all of the locks to the Direct Compounding facilities. I undertook this project on the advice of Board Staff investigators, who were onsite at the Direct Compounding facilities on this date. In addition, on this same date I worked with Ms. Gerber to change Direct Compounding's alarm system access and contact person to reflect Mr. Silber's authority to act on behalf of the pharmacy. True and accurate copies of invoices and reports related to these two projects are attached hereto as Exhibits B-2 and B-3, respectively.

6. On April 22, 2019, I also prepared an accounting of the controlled substance pharmaceuticals and compounding ingredients in the pharmacy's inventory. I prepared and filed a Change of Managing Pharmacist Inventory with Board Staff on April 22, 2019, identifying the opening-day controlled substances inventory as of this date. A true and accurate copy of this Change of Managing Pharmacist Inventory is attached hereto as Exhibit B-4.

7. To the best of my knowledge, at all times prior to my engagement as PIC, Direct Compounding maintained its inventory of all Schedule II controlled substances in its safe, to which only the PIC had access. Subsequent to my engagement as PIC, Direct Compounding has maintained all of its inventory of Schedule II controlled substances in its safe, to which I have the only access.

8. On April 22, 2019, I also prepared and submitted a Change of Managing Pharmacist Form and Pharmacy Manager's Responsibilities acknowledgement to the Nevada State Board of Pharmacy. A true and accurate copy of the Change of Managing Pharmacist Form and the Pharmacy Manager's Responsibilities acknowledgment are attached hereto as Exhibits B-5 and B-6, respectively.

I declare under penalty of perjury under the laws of the Nevada that the foregoing is true and correct.

Executed this 26th day of May, 2021 in Henderson, Nevada.

7. Respondent does not contest the allegations in the Accusation, but acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein, *to wit*, that:

A. On or about September 11, 2020, the Nevada State Board of Medical Examiners (NSBME) entered an order in Case No. 20-36618-2, and imposed discipline on Respondent's License No. PA1209 to practice medicine for violations of NRS Chapter 630 related to prescribing opioid medication;

8. Those violations are plead with particularity in the Accusation, and are grounds for action pursuant to NRS 453.236(1), NRS 453.241(1), NRS 639.210 and NRS 639.255.

The suspension is stayed, and Respondent is placed on probation for a period of one (1) year subject to the following conditions:

Re: Sleepsafesolutions, LLC – Citation

Dear Brett:

CASE NO. 20-131

I will be representing Sleepsafesolutions LLC regarding the allegations contained in the Cease and Desist/Citation for unlicensed activity. Sleepsafesolutions LLC hereby appeals this matter and requests a hearing.

I am going to suggest that you and I talk about this case, and then, depending on what comes of that discussion, I would like to set up a telephonic meeting between yourself and staff and Mr. Boyle regarding resolution of this matter. I am not sure if his business model lends itself to compliance with the statutes and regulations, but I would like to at least explore options that he might consider. Thank you in advance for your attention to this matter.

Sincerely,

Hal Taylor, Esq.

SHIRLEY HUNTING

TREATING SLEEP APNEA USING CPAP/APAP/BIPAP/VPAP/ASV REQUIRES PROFESSIONAL ADVICE

Continuous Positive Airflow Pressure (CPAP) can be easy as long as you receive expert, personalized and comprehensive care when you start treatment. This is why Sleep Safe Solutions (SSS) does not offer you a CPAP without first taking the time to assess your individual circumstances and commencing you on our multi-week SSS Treatment Introduction. This ensures that you receive comfortable and personalized long-term treatment. A lack of personal care is also why CPAP should not be sold online without having a consultation with a trained Sleep Technician as there is a much higher risk of you not using your machine, therefore not getting the benefits of treatment and wasting your money! This is not just what we think, this fact has been well documented in many independent medical studies over the years. In the early days of CPAP treatment it is essential that you have an expert at your disposal to help troubleshoot and solve issues, adjust the CPAP and ensure that you have the most appropriate mask that best suits your face shape. Safe Sleep Solutions is committed to ensuring you receiving the best individualized treatment and will continue to help you manage your sleep apnea over the long term.

About us

Sleep Safe Solutions is a private medical device and service company dedicated to improving the diagnosis and treatment of sleep-related breathing disorders

Our mission is to make it easy for drivers to get tested quickly and affordably, so they can stay on the road to health and prosperity.

Your livelihood depends upon your health. If you think you may be at risk for sleep apnea or you've been told you need to take a sleep test, Safe Sleep Solutions can help.

Medical experts project that over 50 million American adults snore habitually. In addition, approximately 5-10% of the adult population suffers from sleep apnea. Sleep apnea is under-diagnosed because the standard method of diagnosis requires an overnight hospital stay which can be costly, inconvenient, and uncomfortable for patients. Recognizing the need to improve diagnosis and treatment of sleep-related breathing disorders. We are dedicated to developing, manufacturing and marketing products to aid in the diagnosis, analysis and management/treatment of respiratory disorders with an initial focus on driver fatigue and obstructive sleep apnea outside the traditional hospital setting.

Jim Boyle is the Founder of **Sleep Safe Solutions**. With a background in respiratory therapy and sleep medicine, he has been working in the industry for the past 19 years to bring sleep health to the transportation community. Jim is an advocate for driver health and travels nationwide to speak on the issue. Our program provides hassle-free home sleep tests (HSTs) for quick and convenient diagnosis of obstructive sleep apnea (OSA). We make it easy for individual drivers, carrier safety directors, and DOT examiners to identify cases of sleep apnea to keep drivers healthy and performing at their best.

Drivers who have been screened for OSA, and have been determined to be at risk, may be required to take a test. Normally, testing is performed at a hospital or sleep lab, where drivers must stay the entire night so that their sleep can be monitored. Such tests require appointments, days off, and payments totaling anywhere from \$1000 to \$3,000 or more.

In-lab testing requires a large investment of time and money, which is why we've developed an affordable, straightforward program. Your home sleep test is mailed right to your door. Once you receive your test, you can use it anywhere – wherever you can get a good night's rest. The test can be done in a single night and returned (free of charge) by mail to our offices, where a board-certified sleep physician will analyze the results and deliver a report of their findings within a matter of days.

Our home sleep testing program is fully confidential: your test results will only be shared with you and your doctor/DOT examiner.

Why REFurbished CPAP's?

First of all, What is refurbished CPAP equipment? It is equipment that has been previously owned and then purchased by a [CPAP supplier](#). Our technicians have repaired it, replaced worn and damaged parts, tested it and ensured it meets all industry standards. This process also includes decontamination, refinishing, and recalibration. [Refurbished CPAP equipment](#) is very different from used equipment, as used equipment can be resold as-is without warranties.

Reason #1 - Confidence in condition: Refurbished CPAP equipment is virtually "good as new" since it has been vigorously inspected and tested. Warranty packages may come with refurbished equipment as well. So, if something goes wrong, you can be covered under their warranty. Delivery and installation may also be provided.

Reason #2 - Cost savings: This is a huge reason for many. New CPAP equipment can be expensive and if you are not covered under insurance, you need to have other options. Refurbished equipment is a good one. Even if you are covered, many insurance plans limit the number of devices they will pay for in a period of time. So, if your environment or other situations change causing you to need a different therapy or technology, your insurance may not cover it. In addition, some people need an extra piece of equipment and purchasing a refurbished CPAP item works well here, too.

Reason #3 - Stability in product: There is security in knowing a CPAP has been in the market awhile and has proven its reliability. Refurbished CPAP's have had time for many 'issues' to have surfaced and to have been worked out. If there have been any safety issues, the product will have already been removed from the market, so reliability in older equipment is a plus.

"Thank You REPAP.com"

"I have been using my ResMed Airsense 10 Auto for almost a year now. From the start, I noticed an immediate benefit. It became quickly apparent just how much sleep I was not getting before the CPAP. At my last health check up, my blood pressure was down significantly and my resting heart rate had dropped from the mid 90's bpm to mid 60's bpm. I am no longer snoring, and my wife and I are getting along much better since we both can sleep all night. I now have plenty of energy during the day and can definitely deal with work and stress much better. Jim RT was instrumental in finding the right machine for me, and walking me through the set up. It was such a pleasure doing business with them!"

- Dry mouth

DOWNLOAD AND PRINT YOUR MEDICAL EQUIPMENT TAG

CPAP Machines are considered medical devices covered under the American's with Disabilities Act and do not count as one of your carry-on items.

It's also a good idea to take your machine on the plane with you in the event that your luggage gets lost or damaged in transit.

The TSA recommends labeling your carrying case with a medical equipment luggage tag, but this is not mandatory.

You can download an ID tag template below and laminate them on your own or you can purchase a laminated tag from a qualified online retailer.

FAQ

WHO CAN WRITE MY PRESCRIPTION?

Prescriptions can be written by any of the following licensed professionals: MD (medical doctor), PCP (Primary Care Physician), Psychiatrist, Dentist, Doctor of Osteopathy, Physician's Assistant, Nurse Practitioner, or Naturopathic Physician. Prescriptions from Chiropractors, Optometrists, Podiatrists, and Psychologists are not acceptable unless the prescriber is also a licensed MD or DO.

WHAT SHOULD BE ON MY PRESCRIPTION?

Prescriptions are generally provided on a doctor's prescription pad, doctor's office letterhead, or printed prescription form. All prescriptions must contain your doctor's signature, your doctor's contact information, the patient's full name, and a description of the therapy prescribed. If necessary, based on the therapy prescribed, we will set your CPAP/BiLevel machine to the recommended settings.

DOES MY PRESCRIPTION HAVE TO BE FROM A U.S. DOCTOR?

Generally, if your primary residence is outside the United States and you have a prescription from your doctor in that country it should be valid for your purchase as long as it meets the requirements outlined above. If you are unsure if your prescription is valid we would be happy to review it to ensure that it meets current FDA regulations for your purchase.

DOES MY PRESCRIPTION HAVE TO BE IN ENGLISH?

No. In most cases we can accept prescriptions written in any language. In certain circumstances we may request a certified translation provided in English. We will inform you, after reviewing your prescription, if this is the case.

DO I HAVE TO SEND A NEW PRESCRIPTION EVERY TIME I ORDER?

Once we have your prescription on file we will keep it for all future orders. You do not need to send a new prescription every time you order. If we have your prescription on file, please note it in the comments section upon placing an order online or inform the sales representative on phone orders. If your required therapy has changed since your original prescription, please update your account or provide the new prescription to our team.

DO I NEED A NEW PRESCRIPTION OR WILL YOU ACCEPT MY OLD ONE?

In general prescriptions for CPAP are valid for life so your prescription will qualify regardless of how old it is. If you are unsure if your prescription is valid we would be happy to review it to ensure that it meets current FDA guidelines for purchase.

I DON'T HAVE A COPY OF MY PRESCRIPTION, CAN YOU HELP?

If you do not have a copy of your prescription available, we're happy to help. Based on the information you provide, our team will contact

Comprehensive sleep testing and treatment.**General Info**

Sleep apnea affects about 22 million people in the united states. According to the american sleep apnea association. And 80% of moderate to severe obstructive sleep apnea (OSA) cases are under diagnosed. It can lead to increased drowsiness when awake. Causing drivers to be less alert and reactive causing more wrecks. Which leads to higher insurance costs. Higher repair costs. Less time on the job and less revenue. National studies have shown "a well rested driver is a more productive driver and the cost associated with testing and treatment can easily be made up in the savings in collision costs. Insurance claims. And lost driving time.

Dear Dr. Mirchou:

Your controlled substances registration No. CS09766 with the Board expired without renewal on October 31, 2018, and you subsequently surrendered your DEA registration No. BM6652336 for cause.

This constitutes a violation of federal and state law, including, without limitation, NRS 453.226(1), NRS 453.232, NRS 453.321(1)(a), NRS 639.100(1), NRS 639.235(1), NRS 639.2813(1), 21 U.S.C. § 822(a)(2), 21 U.S.C. § 823(f), 21 U.S.C. § 841(a), 21 U.S.C. § 842(a) and/or 21 CFR § 1306.03(a)(1). Falsely representing oneself as a practitioner entitled to write prescriptions in this State is a felony offense. 21 U.S.C. § 841(a); 21 U.S.C. § 842(a); NRS 453.321(1)(a); NRS 453.232; NRS 639.2813(1).

You are hereby ordered pursuant to NRS 639.2895(1) to immediately CEASE and DESIST prescribing controlled substances for Nevada patients. This notice shall serve as a CITATION pursuant to NRS 639.2895(2) for unlicensed activity. The Board has assessed an administrative fine of ten thousand dollars (\$10,000.00) pursuant to NRS 639.2895(3).

You must pay this administrative fine within 30 days of receipt of this citation, or otherwise contact Board staff to request an alternative payment plan. Payment must be by *cashier's check*, *certified check* or *money order* made payable to "State of Nevada, Office of the Treasurer," to be received at the Board's Reno office, located at 985 Damonte Ranch Parkway – Suite 206, Reno, NV 89521.

You have the right to appeal this citation by submitting a written request for a hearing to the Board at the Board's Reno office no later than 30 days after receipt of this notice. See NRS 639.2895(2). Please be aware that the forgoing does not preclude the filing of administrative or criminal charges. REVISED LETTER OF REINSTATEMENT

Nevada State Board of Pharmacy

[431 W Plumb Ln](#)

Members of the Board,

I am petitioning for reinstatement of my Nevada State Pharmacy Technician license which was revoked in May 2012. I request to appear before the Board to present my case. I will accept service of the notice by email and waive the 21-day notice requirement.

In May 2012 my license was revoked due to poor decision-making. I was unable to pull myself out of an abusive relationship that had spiraled out of control and ended in my partner's uncontrollable substance addiction and violent abuse. Since then I have constantly held at least two jobs to support my family of three. I have not allowed my past mistakes to define me, having received promotions to managerial positions at most of my jobs and I continue to focus on my professional maturity.

I have managed to reconnect with my family and friends after being isolated during my past relationship that often resulted in violence. I am certain that my support system is stronger than it has ever been and I look forward to leaning on them during trying times. I also have the support of my youngest child's father who works hard to provide a healthy environment for our family. I can confidently say I am in the best place mentally and physically than I have been in a long time.

I deeply regret the decisions I made back in 2012 and I am stronger mentally because of it.

I am ready to step back into the career I have always wanted. Not only am I a childhood cancer survivor, but I have also overcome a tumultuous childhood that makes me eager to give my children a different lifestyle. After witnessing the damage done by substance abuse and being a cancer patient at a young age, I learned the value of medicine. Working in pharmacology became my dream career and I wish to regain access down that pathway. During my time as a pharmacy technician, I saw the impact we can have in the community and I miss helping people in such a way. I wish to be able to be a part of that community again per your reinstatement of my license.

Sincerely,
Breana Clark

To Whom It May Concern:

I have no excuse for making the poor decisions, but it's important to try to have these crimes removed so I can continue to lead a productive life.

The four criminal incidents that I will address and none were violent towards others.

Case number 27-VB12-7848, Misdemeanor, Driving after my licenses got revocation gladly to say i have a valid driver. licenses

Case number 27-VB-13-465, Misdemeanor Drivers licenses in possession or fail to display upon request which i'm a licenses holder it has now been 8 years since this charge and it's closed.

Case number 62SU-CR-14-2644 Misdemeanor Theft, I was returning a jacket I had purchased with no receipt. I had the tag when I asked the manager to exchange for another larger jacket. He refused with no receipt so I put the first jacket on the rack and did the exchange without permission. It has been 7 years since this offense.

Case number 27-CR-13-34727, Misdemeanor Theft, I was shopping at Wal-Mart when at the self checkout a pair of \$2.88 earrings didn't scan and I was stopped by security when I protested, they call the police. It has been 8 years since this offense.

I humbly request that these offenses be set aside because I'm currently living in Las Vegas, Nevada trying to rebuild my life while working for the Clark County School District. I anticipate seeking further employment in the Medical Technology field where I currently hold a diploma for Medical Assistance.

Thank you in advance for your consideration,

Sincerely,

Odetta Kilgore

To Whom It May Concern,

Jan 13th, 2021

I regret to inform the Nevada State Board of Pharmacy of two prior arrests for DWI's in the state of NY in 2015. The first was on March 28th of 2015 and the second one was on June 1st 2015. Due to not being arraigned for the first case as yet, they would ultimately be combined into a single court case and disposition leading to being charged with two misdemeanor charges for DWI and having to serve substance treatment for 12 weeks in 2015 and a 6-month jail sentence from March 2016 to July 2016 (4 months for good behavior). I subsequently had 3 years of probation which I successfully completed in 2019. I informed the NYS medical board about this when I was applying for my license in 2016 and they were satisfied with the subsequent punishment and fines and substance treatment completion and I was granted an unrestricted medical license in 2017 and DEA license which I have held actively since then. I [provide more details of the incidents and explanations and have attached supporting documents as well in this application which I hope are satisfactory to the Pharmacy Board. Thank you for your consideration.

Sincerely,

It is with sincere regret, that I inform the Pharmacy Board of two previous arrests, leading to driving under the influence charges which occurred in 2015. These incidents occurred within such close time proximity, they would later be settled in a single court hearing. The first of these events, I will now describe.

On March 28th, 2015 at approximately 12:01AM, I was stopped for exceeding the speed limit. I was returning home from a friend's house, and had made the poor decision to drive after consuming alcohol. I was, consequently found to be driving under the influence. As requested, the details have been provided in the attached court documents. My driver's license was immediately suspended and a court hearing was scheduled to be within the next months.

Sadly, and with great consequence to my personal life, the later of these two incidents occurred just a short time later. I will detail these events, and repercussions, as requested, in a separate letter. I have also sent copies of the court documents cases and dispositions.

I thank the Pharmacy Board for your time and consideration.

Sincerely,

To Whom It May Concern,

Jan 13th, 2021

As previously stated, it is with the deepest regret, that I must describe a second DUI arrest to the Pharmacy Board.

On June 1st, 2015, at approximately 2:25AM, I left my home to go to a fast food restaurant, just around the corner. As I had been consuming alcohol, there is no logical explanation as to why I chose to drive. However, the cost of this decision, would be great. I was stopped for not using the turn signal and charged with driving while under the influence. In addition, as stated previously, my license had been suspended. Ultimately, my two charges were combined into one hearing, the details of which are in the attached court documents. The consequence, certainly appropriate for my behavior, was a 6 month jail sentence and probation for 3 years. I would serve 4 of those months, due to good behavior as well as a 3 year probationary period. I was humbled by my jail sentence and used it as an opportunity for growth. I successfully completed a 12 week outpatient substance abuse and DWI program. I successfully completed the 3 years of probation in 2019. I also continue individual therapy 6 years on from those momentous events.

In April of 2017, I was granted an unrestricted Medical License, by the state of New York after the board was satisfied with my successful engagement in probation and completion of substance treatment program. I was also granted a DEA license, and I have held both unrestricted continuously since. In addition, I have since become Board Certified in General Psychiatry as well as Consultation Liaison Psychiatry. For the past 3 and a half years, I have been employed at Stony Brook University Medical Center. where I serve as the attending psychiatrist for our CPEP unit and as a consult liaison Psychiatrist in the medical ED. I also hold the title of Associate Professor and work closely with students and Psychiatry Residents.

It is with remorse, but also humbleness that I look back to this time of my life. I found ways in which to use my experiences not only for personal growth, but to better serve my patients. As a result of substance use and DWI treatment, have been able to more fully empathize with this patient population, without preconceived bias or judgment. I have witnessed, firsthand, the negative effects of these same biases and deficits of mental health care on our incarcerated populations. Not only have I addressed my own personal weaknesses, but feel better positioned to advocate for individuals who find themselves struggling with substance abuse and the judicial system.

I have disclosed both these arrests and subsequent actions involved to the Nevada State Medical Board which they found satisfactory and granted me an unrestricted medical license starting two weeks ago.

It is with the utmost appreciation, I thank the Nevada State Pharmacy Board for your time and consideration.

RE: Chester Wright, M.D., former MPAP Participant #260

Dear Board Members:

I have been asked by our former participant to provide clinical summary of his participation in the Montana Professional Assistance Program, Inc. I am happy to do so. Dr. Chester Wright completed satisfactorily the compulsory five-year period of continuing care monitoring with the Montana Professional Assistance Program, effective 6/2/2019. He participated in the confidential, non-disciplinary track of monitoring. Results of all random toxicology submitted by the participant during the period of observation were negative for prohibited substances. Reports from the monitoring network were favorable, without exception. He participated fully in our continuing care requirements.

The condition for which Dr. Wright was monitored was in stable, sustained full remission at the time of discharge from monitoring. Dr. Wright was discharged with staff approval. He was judged to be capable of continuing to practice medicine with reasonable safety at the time of discharge from monitoring.

Thank you for your consideration in this matter. Should you require further information or clarification regarding the status of our former participant, kindly so advise.

Sincerely,

Michael J. Ramirez, M.S.
Clinical Director

To Whom It May Concern,

Thank you for allowing me to apply for a transfer of my current and active CA DEA license in order to obtain employment as a nurse practitioner in Nevada. As an explanation to the affirmative answers to my questions 3 and 4 on my application, please see the following.

In 2014, I was arrested and charged with misdemeanor theft. The circumstances of this incidence were extremely difficult, and very out of character. I successfully completed probation, and my record was expunged early, as I have provided in the documentation labelled "Expungement Record". However, due to this misdemeanor conviction, my clinical license in CA has been revoked. My clinical license was not revoked due to any patient related issues, and I have never had any substance issues, or malpractice claims. I would like to reapply for my California state license as well, however I will need to be able to demonstrate practice again, and with the ability to practice in Nevada, I am sure that this will not be an issue. I would be happy to answer any questions to licensing board may have.

Thank you in Advance,

Source of Activity

On 02/21/14 at 0945 hours, I, Officer Blomeley Serial No 34603, was assigned to Harbor Division front desk when the PR came in to the station to file an embezzlement report.

Investigation

The victim is the Healthcare Partners medical group. The suspect is a former employee/nurse that worked for the victim. The PR is the Human Resources manager for the victim.

The PR stated that a timekeeping audit was conducted in November 2013 which caused an internal investigation of the suspect's hours worked. The PR explained that the suspect worked at two medical offices so she was allowed make her own timekeeping entries. The PR believes that the suspect possibly used a remote computer to access the victim's timekeeping system to enter hours that she did not work.

The PR provided supporting documentation that the suspect showed herself working on 98 days for a total of 1177 hours at approx. \$55.00 per hour for days/hours she did not work. The total dollar amount that the suspect embezzled was \$65,161.00. The first entry occurred on 07/26/13 and the last entry occurred on 11/01/13. The victim suspended the suspect from work in 11/09/13 then terminated her on 11/17/13. The suspect was terminated for falsification of timekeeping records.

Detective Camacho spoke with the PR and advised what further documentation would be needed. Attached are the documents the PR provided. The PR will email Detective Camacho the other information.

18 Complainant alleges:

19 **PARTIES**

20 1. Louise R. Bailey, M.Ed., RN ("Complainant") brings this Accusation solely in her
 21 official capacity as the Executive Officer of the Board of Registered Nursing, Department of
 22 Consumer Affairs ("Board").

23 2. On or about December 31, 1989, the Board issued Registered Nurse License No.
 24 448180 to Pippa Ann Stewart ("Respondent"). The Registered Nurse License was in full force
 25 and effect at all times relevant to the charges brought herein and will expire on October 31, 2017,
 26 unless renewed.

27 ///

28 ///

4 4. On or about December 22, 1998, the Board issued Nurse Practitioner Furnishing
5 Certificate No. 9499 to Respondent. The Nurse Practitioner Furnishing Certificate was in full
6 force and effect at all times relevant to the charges brought herein and will expire on October 31,
7 2017, unless renewed.

9 5. This Accusation is brought before the Board under the authority of the following
10 laws. All section references are to the Business and Professions Code ("Code") unless otherwise
11 indicated.

12 6. Section 2750 of the Business and Professions Code (Code) provides, in pertinent part,
13 that the Board may discipline any licensee, including a licensee holding a temporary or an inactive
14 license, for any reason provided in Article 3 (commencing with section 2750) of the Nursing
15 Practice Act.

7. Section 2764 of the Code provides, in pertinent part, that the expiration of a license shall not deprive the Board of jurisdiction to proceed with a disciplinary proceeding against the licensee or to render a decision imposing discipline on the license. Under section 2811(b) of the Code, the Board may renew an expired license at any time within eight years after the expiration.

21 | 8. Section 2761 of the Code states, in pertinent part:

22 "The board may take disciplinary action against a certified or licensed nurse or deny an
23 application for a certificate or license for any of the following:

24 "(a) Unprofessional conduct. . . .

25 ||

26 "(f) Conviction of a felony or of any offense substantially related to the qualifications,
27 functions, and duties of a registered nurse, in which event the record of the conviction shall be
28 conclusive evidence thereof. . . ."

9. California Code of Regulations, title 16, section 1444, states, in pertinent part:
 AA conviction or act shall be considered to be substantially related to the qualifications, functions or duties of a registered nurse if to a substantial degree it evidences the present or potential unfitness of a registered nurse to practice in a manner consistent with the public health, safety, or welfare. . . .”

COST RECOVERY

10. Section 125.3 of the Code provides that the Board may request the administrative law judge to direct a licentiate found to have committed a violation or violations of the licensing act to pay a sum not to exceed the reasonable costs of the investigation and enforcement of the case, with failure of the licentiate to comply subjecting the license to not being renewed or reinstated. If a case settles, recovery of investigation and enforcement costs may be included in a stipulated settlement.

FIRST CAUSE FOR DISCIPLINE

(Conviction of a Substantially Related Crime)

11. Respondent is subject to disciplinary action under Code section 2761, subdivision (f), in conjunction with California Code of Regulations, title 16, section 1444, in that Respondent was convicted of crimes substantially related to the qualifications, functions, or duties of a registered nurse. The facts and circumstances are as follows:

a. On or about March 18, 2015, Respondent was convicted on his plea of nolo contendere to one felony count of violating Penal Code section 487, subdivision (a) [grand theft of personal property, to wit \$65,161.00], in the criminal proceeding entitled *The People of the State of California v. Pippa Stewart* (Super. Ct. L.A. County, 2015, No. NA100240). The Court ordered Respondent to pay \$65,161.00. On or about September 18, 2015, the Court ordered to amend one felony count to one misdemeanor count, and placed Respondent on three years summary probation.

b. The circumstances underlying the conviction are that on or between June 2012 to November 2013, Respondent was employed at Health Care Partners (“HCP”) and was working at multiple HCP locations. On April 15, 2013, Respondent was solely assigned to HCP's Roscoe

1 location. During that time, Respondent sent text messages to a manager requesting to enter her
 2 hours even when she did not work. An audit showed that Respondent's electronic time card and
 3 the records of patient clinical notes did not match. The days that Respondent claimed that she
 4 worked did not have records of patient encounter data.

5 THIRD CAUSE FOR DISCIPLINE

6 (Unprofessional Conduct)

7 12. Respondent is subject to disciplinary action under Code section 2761, subdivisions
 8 (a), in that Respondent committed acts of unprofessional conduct by falsely submitting electronic
 9 time cards for hours she did not work. Complainant refers to and by this reference incorporates
 10 the allegations set forth above in paragraphs 11, as though set forth fully.

11 PRAAYER

12 WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged,
 13 and that following the hearing, the Board issue a decision:

- 14 1. Revoking or suspending Registered Nurse License No. 448180, issued to Pippa Ann
 15 Stewart;
- 16 2. Revoking or suspending Nurse Practitioner Certificate No. 9499, issued to Pippa Ann
 17 Stewart;
- 18 3. Revoking or suspending Nurse Practitioner Furnishing Certificate No. 9499, issued to
 19 Pippa Ann Stewart;
- 20 4. Ordering Pippa Ann Stewart to pay the Board the reasonable costs of the investigation
 21 and enforcement of this case, pursuant to Code section 125.3; and
- 22 5. Taking such other and further action as deemed necessary and proper.

PROPOSED DECISION

Jennifer M. Russell, Administrative Law Judge, Office of Administrative Hearings, presided at the hearing in this matter in Los Angeles, California on February 16, 2017. The matter was submitted for decision on the same day.

Steve Pyun, Deputy Attorney General, represented complainant Louise R. Bailey, M.Ed., RN, Executive Officer of the Board of Registered Nursing, Department of Consumer Affairs, State of California. Lindsay M. Johnson, Attorney at Law, represented respondent Pippa Ann Stewart, who was present.

Complainant seeks to discipline respondent's licenses because respondent engaged in unprofessional conduct under the Nursing Practice Act when she was convicted for grand theft as a result of her falsely claiming to have worked providing nursing care and accepting wages based on those claims. Respondent admits to her misconduct and offers evidence of mitigation and rehabilitation. The Administrative Law Judge makes the following Factual Findings, Legal Conclusions, and Order revoking respondent's licenses.

DECISION

The attached Proposed Decision of the Administrative Law Judge is hereby adopted by the Board of Registered Nursing as its Decision in the above-entitled matter.

This Decision shall become effective on June 01, 2017.

IT IS SO ORDERED this 02nd day of May, 2017.

FACTUAL FINDINGS

1. Complainant made the Accusation¹ in her official capacity, and respondent filed a timely Notice of Defense.
2. On December 31, 1989, the Board issued Registered Nurse License number 448180 to respondent. The nurse license, which was in full force and effect at all relevant times, is due to expire on October 31, 2017. The license has no history of prior discipline.
3. On October 27, 1997, the Board issued Nurse Practitioner Certificate number 9499 to respondent. The practitioner certificate, which was in full force and effect all relevant times, is due to expire on October 31, 2017.
4. On December 22, 1998, the Board issued Nurse Practitioner Furnishing Certificate number 9499 to respondent. The furnishing certificate, which was in full force and effect at all relevant times, is due to expire on October 31, 2017.

Cause for Discipline

5. It is undisputed that between July 26, 2013 and November 1, 2013, during the course of her per diem employment with HealthCare Partners Medical Group, respondent made timekeeping entries falsely reporting on 98 separate occasions that she worked hours totaling 1,177 hours when in fact she did not do so. As a result of respondent's false reporting, HealthCare Partners paid respondent wages totaling \$65,161 that was not due to her. HealthCare Partners discovered respondent's fraudulent conduct during the course of an internal audit. On November 17, 2013, HealthCare Partners terminated respondent.
6. On March 18, 2015, in *People v. Pippa Ann Stewart* (Super. Ct. Los Angeles County, 2015, NA 100240), respondent was convicted, on her plea of nolo contendere, to violating Penal Code section 487, subdivision (a), grand theft, a felony. The court found a factual basis for respondent's plea, which it entered subject to *People v. West* (1970) 3 Cal.3d 595.² At that time, respondent provided a HealthCare Partners' representative with a check for the amount of \$10,000, and the court ordered respondent to pay a restitution balance totaling \$55,161 in full to avoid the court's imposition of community service. Respondent thereafter liquidated funds from her pension account, which she used to pay the restitution balance. Subsequently, on September 18, 2015, the court deemed the criminal complaint amended to allege a misdemeanor violation of Penal Code section 487, subdivision (a), and

¹ At the administrative hearing the Accusation was amended by interlineation as follows: On page 3 at line 19 the pronoun "his" was omitted and the pronoun "her" was added. On page 4 at line 5 the word "Third" was omitted and the word "Second" was added.

² Specifying that respondent's nolo contendere plea was pursuant to *People v. West* anticipated an amended charge to which respondent would plea for the purpose of receiving a more lenient sentence.

the court, noting that respondent paid restitution in full, suspended imposition of sentence and placed respondent on three years' probation with terms and conditions.

7. Respondent's misconduct and resulting grand theft misdemeanor conviction are substantially related to the qualifications, functions, and duties of a registered nurse and certificated nurse practitioner because, as set forth in Legal Conclusion 3c, such misconduct and conviction involving dishonesty, fraud, and deceit reflect respondent's present or potential unfitness to practice nursing in a manner consistent with the public health, safety, or welfare.

Factors in Aggravation, Mitigation, and Rehabilitation

8. Respondent is a 50-year-old single mother parenting an 11-year-old special needs child and providing care for her 90-year-old mother. At the administrative hearing, respondent explained her employment history as follows: she worked as a per diem nurse practitioner with HealthCare Partners initially at one urgent care facility for 10 years and then rotating through several facilities as needed from 1998 to the time of her November 2013 termination; as a forensic nurse at UCLA Santa Monica Rape Treatment Center without a set work schedule since 2013; as a professor teaching one or two on-line courses at West Coast University since 2012; and as a volunteer at the Venice Family Clinic since 2015. For the past seven years, respondent has been a full-time administrator at Kaiser Permanente (Kaiser) in West Los Angeles, California with oversight responsibilities for the medical office including managing a \$24 million budget, hiring, terminating, and training clinical staff, and making decisions regarding payroll.

9. At the administrative hearing respondent explained how she exploited the disorganization surrounding HealthCare Partners' use of a paper, rather than an electronic, system to report that she worked specific hours she in fact never worked. Respondent appeared cavalier as she testified variously that she had "no good reason" for her misconduct and that she was under pressure to provide financial assistance to "a nephew who was near death in rehab." According to respondent, "There were a lot of things going on. I was working a lot of hours at a lot of places. I was under a lot of stress. I knew at the time that what I was doing was wrong." On cross-examination, respondent was unable to state without equivocation whether she would have stopped if she were not caught. In response to the query, respondent stated, "I'm not sure how to answer the question."

10. Respondent maintained that her misconduct is "an aberration" resulting from "poor decisions." She claimed having "a moral compass" and "stray[ing] from that." She testified that people make mistakes and learn from those mistakes. Respondent asserted, "You have to have a just culture. We all make big and small mistakes; we are all humans." She admitted to making a "huge mistake" while claiming, "I am an honest person." She insisted, "I paid for that mistake from a personal standpoint and from a monetary standpoint. I apologized to a lot of people. I said sorry, and I don't know what else to say. It never occurred before and not since then." She posited that she is a changed person. "I have learned to say no. . . . I have eliminated those who need funds from me. I get sleep. I have

sought counsel with my priest. I take care of myself because I forgot to do that." Respondent identified certain colleagues at Kaiser, her mother and sister, and "several friends who are nurses" as people she informed about her misconduct and to whom she apologized. Queried whether she had informed other persons about her misconduct and conviction, respondent noted that she "most certainly was not broadcasting it. . . . When you go to the Board site there is a link to the accusation. The whole situation has been humiliating. Having somebody read a document like that is humiliating."

11. According to respondent, she convened a meeting with the leadership at the Kaiser where she works even though she "didn't have to tell them" because "they put trust in [her]." "It was the hardest thing. They could have terminated me even though it had nothing to do with Kaiser and I am not protected by the union. They expressed their disappointment and their support." Respondent maintained that her duties and responsibilities at Kaiser were unchanged and that she is under consideration for a promotion there.

12. Joan M. Crawford served as respondent's direct manager at Kaiser for approximately seven years. Ms. Crawford wrote an October 26, 2016 letter stating she is "fully aware of [respondent's] arrest, conviction, and situation with the Board of Registered Nursing" and that respondent's "present situation does not undermine my belief in her integrity, work ethic and continued ability to function as a leader. I have no concerns regarding patient or staff safety in her presence or under her direction." (Exhibit A.) Ms. Crawford additionally prepared a 2016 Performance Appraisal in which she commends respondent's "great knowledge base as a nurse practitioner and leader," "great insight and direction representing the managers and operations," and prudent budget management. (Exhibit G.) Ms. Crawford testified at the administrative hearing, and her testimony was consistent with the content of her October 26, 2016 letter and the 2016 Performance Appraisal she prepared. Ms. Crawford additionally testified that she regards respondent as honest, forthright, respectful, and hardworking. She testified that respondent's conduct was dishonest, but that such conduct does not make respondent dishonest because her dealings with respondent have "only been positive" and "people make mistakes." Ms. Crawford retired from Kaiser in December 2016.

13. Sheree Johnson-Small served as an assistant department administrator under respondent's supervision at Kaiser. Ms. Johnson-Small wrote an undated letter extolling respondent's leadership, knowledge of operational functionality, and fiduciary oversight of a multimillion dollar budget. "Year after year, [respondent] has demonstrated the highest degree of trust and confidence to manage and protect the organization's human resources, property, money, and provide extraordinary care of its assets." (Exhibit C.) Ms. Johnson-Small testified at the administrative hearing, and her testimony revealed that she was not only unknowledgeable about the circumstances leading to respondent's conviction, but also that she was unaware that respondent's conviction was for grand theft. Ms. Johnson-Small's favorable opinion did not change after she was informed about the details of respondent's misconduct. Ms. Johnson-Small regards respondent as honest and forthright. Ms. Johnson-Small testified, "Because [respondent] took responsibility for whatever part she had in that

situation, I don't see that as dishonest. . . . It would be dishonest if she didn't take ownership." Ms. Johnson-Small retired from Kaiser in October 2016.

14. Respondent offered additional reference letters from Kaiser employees including a physician in charge who regards her as "energetically committed to exceptional patient care and services" and who remains "confident that patient safety has not been, nor will be, compromised under her capable administration" and a medical director, who has no reservations about respondent's "ability to perform and execute the requirements of her position." (See Exhibits B and E.) Respondent's personal friend and sister wrote letters commending respondent's "good moral character" (Exhibit. D) and respondent's "interest in diversity care and closing the health care gap for the underserved." (Exhibit F).

15. Respondent additionally offered several certificates certifying her completion of continuing nursing education courses, including Ethical Decision Making on November 23, 2016. (Exhibit H) Respondent volunteers at her child's school and participates in several community healthcare out-reach events and symposia.

16. At the administrative hearing, respondent represented that she is seeking an expungement of her misdemeanor conviction. Respondent has no history of prior disciplinary actions.

Costs of Prosecution

17. The Board incurred \$7,033.13 as its costs of investigation and prosecution in this matter. These costs, established by a Certification of Prosecution Costs and a Certification of Costs of Investigation and Prosecution (Exhibit 3), are reasonable within the meaning of Business and Professions Code section 125.3.

18. Neither party offered evidence of respondent's income, finance, or ability to pay a cost award at the administrative hearing.

LEGAL CONCLUSIONS

1. Complainant has the burden of proving by clear and convincing evidence that suspension or revocation of respondent's registered nurse license is warranted. (*Ettinger v. Board of Medical Quality Assurance* (1982) 135 Cal.App.3d 853, 856.) A "clear and convincing" evidentiary standard means that complainant must establish the charging allegations by proof that is clear, explicit and unequivocal—so clear as to leave no substantial doubt, and sufficiently strong to command the unhesitating assent of every reasonable mind. (*In re Marriage of Weaver* (1990) 224 Cal.App.3d 478.)

2. The Board is empowered to take disciplinary action against a person who is certified or licensed pursuant to the Nursing Practice Act for "unprofessional conduct." (Bus. & Prof. Code, § 2761, subd. (a).)

3a. It is unprofessional conduct to be convicted of a crime substantially related to the qualifications, functions, and duties of a registered nurse. (Bus. & Prof. Code, § 2761, subd. (f).)

3b. The record of conviction of a crime is conclusive evidence of the fact that the conviction occurred. (Bus. & Prof. Code, § 2761, subd. (f).)

3c. A conviction or act is substantially related to the qualification, functions or duties of a registered nurse if to a substantial degree it evidences the present or potential unfitness of a registered nurse to practice in a manner consistent with the public health, safety, or welfare. (Cal. Code of Regs., tit 16, § 1444.) Such convictions or acts include dishonesty, fraud, and deceit. (Cal. Code of Regs., tit 16, § 1444, subd. (c).)

4. The Board may recover its reasonable costs of investigation and prosecution from a licensee found to have committed a violation of the Nursing Practice Act. (Bus. & Prof. Code, § 125.3.)

5. With respect to the First Cause for Discipline (Conviction of a Substantially Related Crime) alleged in the Accusation, cause exists pursuant to Business and Professions Code section 2761, subdivision (f), and California Code of Regulations, title 16, section 1444 to discipline respondent's Board-issued license and certificates, in that, as set forth in Factual Findings 6 and 7, complainant has established by clear and convincing evidence that respondent's misdemeanor conviction for grand theft is a crime substantially related to the qualifications, functions, or duties of a registered nurse and certificated nurse practitioner.

6. With respect to the Second Cause for Discipline (Unprofessional Conduct) alleged in the Accusation, cause exists pursuant to Business and Professions Code section 2761, subdivision (a), to discipline respondent's Board-issued license and certificates, in that, as set forth in Factual Findings 5 and 6 and Legal Conclusion 5, complainant has established by clear and convincing evidence that respondent's misdemeanor conviction for grand theft for falsifying time records on 98 separate occasions to obtain wages totaling \$65,161 for work she did not perform constitutes unprofessional conduct.

7. A determination that legal cause exists to discipline respondent's license and certificates does not end the inquiry. Such cause may be overcome with substantial, persuasive evidence of her rehabilitation and good character. The Board has compiled a list of factors to evaluate whether a registered nurse whose license is subject to suspension or revocation has been rehabilitated. That list, which is found in California Code of Regulations, title 16, section 1445, subdivision (b), includes: the nature and severity of acts or offenses; the total criminal record; the time that has elapsed since commission of the acts or offenses; the licensee's compliance with any terms of probation or restitution; and evidence of rehabilitation.

8. Appropriate and significant criminal punishment has been imposed against respondent for her misconduct. The purpose of this administrative proceeding is not to impose additional punishment, but rather to protect the public from dishonest, immoral, disreputable, or incompetent practitioners. (*Ettinger v. Board of Medical Quality Assurance* (1982) 135 Cal.App.3d 853, 856.) The goal is the prevention of future harm and the improvement and rehabilitation of the licensee. (*Griffiths v. Superior Court* (2002) 96 Cal.App.4th 757, 772.)

9. In furtherance of that goal, the Board is empowered to take disciplinary action against respondent's registered nurse license and nurse practitioner and furnishing certificates based on "unprofessional conduct," the definition of which includes being convicted of a criminal offense. Respondent has a misdemeanor grand theft conviction, which is substantially related to the qualifications, functions, or duties of a Board-licensure. Respondent falsely claimed that she worked providing nursing care when in fact she had not done so, and as a result of her falsification, her employer—HealthCare Partners—paid her unearned wages totaling \$65,161. (See Factual Finding 5.) Thus, respondent has engaged in unprofessional conduct meriting the discipline of her Board-issued license and certificates. (See, e.g., *Sula v. Board of Registered Nursing* (2012) 205 Cal.App. 4th 1195[indicating that a showing that a licensee engaged in statutorily enumerated conduct provides a basis for discipline].)

10. Respondent's unprofessional conduct during the course of her employment with HealthCare Partners is indefensible. It is conduct involving dishonesty, fraud, and deceit, and as such it is conduct that calls into question her personal and professional integrity. (See *Windham v. Board of Medical Quality Assurance* (1980) 104 Cal. App. 3d 461, 470 [the commission of a crime which has as its hallmark an act of dishonesty cannot be divorced from a healthcare professional's obligation of utmost honesty and integrity].) It is conduct that respondent perpetuated on 98 separate occasions, and as such, contrary to respondent's contentions and those witnesses testifying on respondent's behalf, it is conduct bearing none of the characteristics of a "mistake." A mistake, trivial or grave, is an unintended deviation from right conduct occasioned by poor reasoning, carelessness, or insufficient knowledge. Respondent's testimony establishes that not only were her dishonesty, fraud, and deceit intentional and recurring, but also that her dishonesty, fraud, and deceit were premeditated such that she may not have ceased her misconduct if she were not caught. (Factual Finding 9.) In aggravation, the fact that respondent liquidated funds from her pension savings to pay restitution to HealthCare Partners substantiates respondent's testimony that she had "no good reason" for her misconduct. (Factual Finding 9.) A reasonable inference is that respondent could have readily accessed those funds in the first instance to address whatever financial pressures she claimed to have experienced as a result of her nephew's distressed health.

11. Over the course of her 30-year career in nursing respondent served the profession without incident—until now. The seriousness, extent, and magnitude of respondent's fraud repeated at least 98 times overshadow respondent's achievements. Respondent engaged in misconduct that undermines public trust in the integrity of the

nursing profession. The evidence of respondent's rehabilitation presented at the administrative hearing is insufficient to overcome that breach or to warrant respondent's continued licensure at this time. Less than five years have elapsed since respondent's known last act of dishonesty, fraud, or deceit, and respondent remains on criminal probation. To the extent that respondent expressed any remorse for her misconduct, that expression of remorse was undermined by what amounts to an attempt at minimization of her conduct by her insistence that she engaged in a "mistake." The acceptance of responsibility for the full scope of one's conduct is the cornerstones of rehabilitation. Rehabilitation is a "state of mind" and the law looks with favor upon rewarding with the opportunity to serve one who has achieved "reformation and regeneration." (*Pacheco v. State Bar* (1987) 43 Cal.3d 1041, 1058.) Fully acknowledging the wrongfulness of past actions is an essential step towards rehabilitation. (*Seide v. Committee of Bar Examiners* (1989) 49 Cal.3d 933, 940.) Respondent's rehabilitation was not persuasively established at the administrative hearing. Under these circumstances, the Board need not wait until harm to patients occurs in order to discipline respondent's nurse license and nurse practitioner certificates. (See *Griffiths v. Superior Court* (2002) 96 Cal.App.4th 757, 772-773 discussing *In re Kelley* (1990) 52 Cal.3d 487, 495-496.) As the court in *Griffiths* explains, the purpose of license discipline is the protection of the public, and such protection includes the prevention of future harm as well as the improvement and rehabilitation of the licensee. To delay or preclude license discipline until harm occurs disregards these purposes. It is far more desirable to impose discipline before a licensee harms any patient rather than after harm has occurred.

Costs of Prosecution

12. Cause exists pursuant to Business and Professional Code section 125.3 to order respondent to pay the Board's costs of prosecution.

13. Under *Zuckerman v. State Board of Chiropractic Examiners* (2002) 29 Cal. App. 4th 32, 45, the Board must exercise its discretion to reduce or eliminate costs so as to prevent cost award statutes from deterring licensees with potentially meritorious claims or defenses from exercising their right to a hearing. "Thus the Board may not assess the full costs of investigation and prosecution when to do so will unfairly penalize a [licensee] who has committed some misconduct, but who has used the hearing process to obtain dismissal of other charges or a reduction in the severity of the discipline imposed." (*Id.*) The Board, in imposing costs in such situations, must consider the licensee's subjective good faith belief in the merits of his or her position and the Board must consider whether or not the licensee has raised a colorable defense. The Board must also consider the licensee's ability to make payment.

14. Considering all of the *Zuckerman* factors, including the likely effect of license revocation on respondent's finances and ability to pay a cost award, the Board shall recover its investigatory and prosecution costs in the amount of \$7,033.13 only in the event that respondent's nurse license or nurse practitioner or furnishing certificates, or all three, are reinstated.

ORDER

1. Registered Nurse License number 448180 issued to Pippa Ann Stewart is revoked.
2. Nurse Practitioner Certificate number 9499 issued to Pippa Ann Stewart is revoked.
3. Nurse Practitioner Furnishing Certificate number 9499 issued to Pippa Ann Stewart is revoked.
4. Respondent Pippa Ann Stewart shall pay to the Board its reasonable investigatory and prosecution costs in the amount of \$7,033.13 as a condition precedent to any reinstatement of Registered Nurse License number 448180, Nurse Practitioner Certificate number 9499, Nurse Practitioner Furnishing Certificate number 9499, or any re-licensure by the Board.

Re: License Status

Dear Ms. Stewart,

This letter is to confirm my understanding of your current license status with the California Board of Registered Nursing.

On July 26, 2019, E. Gonzalez, Deputy Clerk at the Superior Court of the State of California, County of Sacramento, filed the Judgement Denying Petition for Writ of Mandate in Case Number 34-2017-80002608. Upon the entry of this order, the Stay of Administrative Decision that had previously been issued by the Hon. Michael Kenny in the same case number was dissolved and the Board of Registered Nursing's administrative decision went into effect. As a result, your matter with the California Board of Registered Nursing has been fully resolved and the case is closed based on the decision issued.

Very truly yours,

Lindsay M. Johnson

Mark, in response to your email dated April 8, 2021 below are the responses you requested. We have attached the Certificate of Good Standing for the Company.

1. Yes Jenner Sinang will be the Managing Pharmacist
2. The updated Certificate of Good Standing is attached below.
3. In the application we submitted I disclosed the DUI I got back in June of 2005. I will expand on that incident. I was at a party in Studio City, California for a birthday celebration for friends of my wife and I. I left the party around 9-10PM and had to take the 101 Freeway to get home. I was speeding a little over the limit and a motorcycle LAPD pulled me over for speeding. Once he approached me he could smell alcohol. I took a breathalyzer and it turned out over the limit to drive with. They arrested me and took me to the Van Nuys jail where I bailed out in about 4 hours. The bail was \$5,000 and the court dates were set. I had a business partner Robert Corado who was a lawyer and represented me. Unfortunately he passed away a number of years ago. The DMV took my license for 3 months and I had to attend alcohol classes and 12 AA meetings. There were fines I paid. There was no jail time or anything like that. There have been no incidents since that one in 2005 and I still to this date attend AA meetings. I have moved several times since that incident so I am sure I threw away any documents about that incident because it was so long ago and there was no need to keep those documents. I hope this has helped better describe that incident.
4. Yes I would change #5 to yes because I lost my California Driver's License for 3 months based on the event described above in #4. The explanation they are asking for on page 2 is stated above. When I filled out the application the first time I was thinking about pharmacy licenses and the like. If you mean any license then the answer should be yes to #5 on Page two of application.

Again thank you for the opportunity to be a part of the Pharmacy family in Nevada.

Warm regards,

Randy L Case

Re: Change of Ownership PipelineRx Permit # PHO3643

To Whom It May Concern,

I am submitting the enclosed CHOW application for Pipeline Health Holdings LLC dba PipelineRx, ("PipelineRx") a currently registered NON-RESIDENT STATE PHARMACY. PipelineRx is a non-dispensing pharmacy. PipelineRx provides tailored pharmacy support to community hospitals, multi-facility health systems, and specialty facilities.

On July 2, 2020, PipelineRx entered into a purchase agreement, pursuant to which PipelineRx will be acquired by PipelineRx Buyer, Inc. ("PipelineRx Buyer").

Following closing of the transaction PipelineRx will be a wholly owned subsidiary of PipelineRx Buyer. Closing of the transaction is scheduled to occur on or about August 18, 2020.

Ultimately, despite the change in ownership of PipelineRx, there will be no material change in operations for PipelineRx or the entity's Employer Identification Number (EIN). The Pharmacist in Charge, the pharmacy staff, pharmacy management and authorized agents will remain in place. This dedicated team of professionals will continue to provide superior pharmacy support services to Nevada hospitals, health systems and facilities.

Please contact me at lstevens@pipelinerx.com or (847) 687-7602 at your earliest convenience should you have any questions or concerns.

FINDINGS AND CONCLUSIONS

- 1. The Board has jurisdiction over Respondent Pharmacy, its registration as a non-resident prescription drug outlet, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2016).**
- 2. Respondent Pharmacy was originally registered in the State of Colorado on or about October 3, 2014, being issued registration number OSP 6500, and has been so registered at all times relevant to this disciplinary action.**
- 3. Respondent Pharmacy's address of record with the Board and current location is 5600 North River Road, #854, Rosemont, Illinois 60018-6705.**
- 4. Respondent Pharmacy admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.**
- 5. Respondent Pharmacy failed to timely submit to the Board an application detailing a change in pharmacist manager and fee. In this case, 73 days transpired between October 1, 2015, the date the previous pharmacist manager ceased the position, and December 14, 2015, the date the application and fee were received.**
- 6. On or about March 3, 2016, the Board initiated a complaint against Respondent Pharmacy because of the delay of 73 days in submitting an application detailing a change in pharmacist manager and fee.**

7. Respondent Pharmacy's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes and Board Regulations:

Colorado Revised Statutes

12-42.5-116. Prescription drug outlet under charge of pharmacist.

(1) (a) A prescription drug outlet must be under the direct charge of a pharmacist manager. A proprietor who is not a pharmacist shall comply with this requirement and shall provide a manager who is a pharmacist.

(b) The registration of any prescription drug outlet becomes void if the pharmacist manager in whose name the prescription drug outlet registration was issued ceases to be engaged as the manager. The owner shall close the prescription drug outlet unless the owner: (I) Employs a new pharmacist manager; and (II) Within thirty days after termination of the former manager's employment: (A) Applies to transfer the registration to the new pharmacist manager; and (B) Pays the registration transfer fee.

12-42.5-123. Unprofessional conduct – grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(I) Any of the provisions of this Article, including commission of an act declared unlawful in section 12-42.5-126;

(II) The lawful rules of the board; or

(III) Any state or federal law pertaining to drugs;

(k) Has failed to meet generally accepted standards of pharmacy practice.

Pharmacy Board Rules and Regulations

5.00.70. Change in Pharmacist Manager.

a. An in-state and non-resident prescription drug outlet shall be under the direct charge of a pharmacist manager. A proprietor who is not a pharmacist shall comply with this requirement and shall provide a manager who is a pharmacist.

b. The registration of any in-state and non-resident prescription drug outlet shall become void if the pharmacist manager in whose name the

registration was issued ceases to be engaged as the manager, and the owner shall close the outlet unless such owner has employed a pharmacist manager and, within fourteen days after termination of the former manager's employment, has made application to transfer the registration to the new pharmacist manager and has paid the transfer fee therefor.

TERMS OF DISCIPLINE

8. **Fine with Surcharge.** Pursuant to §12-42.5-124(5)(a)(I), C.R.S., Respondent Pharmacy shall pay a fine of One Thousand Dollars and No Cents (\$1,000.00). Respondent Pharmacy understands and acknowledges that, pursuant to §24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 15% of this fine. Respondent Pharmacy shall therefore pay a total amount of One Thousand One Hundred Fifty Dollars and No Cents (\$1,150.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Pharmacy submits this signed Final Agency Order to the Board. Respondent Pharmacy shall write its registration number (OSP 6500) and the case number (2016-1152) on the check.
9. **Compliance.** Respondent Pharmacy shall submit all future applications and appropriate fees to the Board detailing changes in pharmacist manager within the required time frame specified by Board rule or statute in effect at the time of such pharmacist manager change.
10. **Other Requirements.** Respondent Pharmacy acknowledges and agrees that, as a condition of this Final Agency Order, Respondent Pharmacy shall:
 - a. promptly pay all Respondent Pharmacy's own fees and costs associated with this Final Agency Order;
 - b. comply fully with this Final Agency Order; and
 - c. comply fully with the Pharmacists, Pharmacy Businesses and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.
11. **Advisements and Waivers.** Through its undersigned Authorized Representative, Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having the opportunity to consult with legal counsel and/or choosing not to do so. Respondent Pharmacy acknowledges its understanding that it has the following rights:
 - a. to have formal notice of hearing and charges served upon it;

- b. to respond to said formal notice of charges;
- c. to have a formal disciplinary hearing pursuant to §§12-42.5-123 and 12-42.5-124, C.R.S.; and
- d. to appeal this Final Agency Order.

Respondent Pharmacy freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against Respondent Pharmacy to the sanctions imposed herein.

12. **Acknowledgments.** The undersigned Authorized Representative of Respondent Pharmacy has read this Final Agency Order in its entirety and acknowledges, after having the opportunity to consult with legal counsel and/or choosing not to do so, that Respondent Pharmacy understands the legal consequences and agrees that none of the terms or conditions herein is unconscionable. Respondent Pharmacy further acknowledges that it is not entering into this Final Agency Order under any duress.
13. **Violations.** Time is of the essence in this Final Agency Order. It is the responsibility of Respondent Pharmacy to take all appropriate steps to comply fully with this Final Agency Order. Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under §12-42.5-124(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent Pharmacy's registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.
14. **Completion of Terms.** Upon satisfactory completion of all terms and conditions set forth in this Final Agency Order, the Board shall release Respondent Pharmacy from the Final Agency Order, and Respondent Pharmacy's registration will be restored to active and unencumbered status.
15. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.
16. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.
17. **Board Order.** This Final Agency Order shall become an order of the Board when it is accepted and signed by the Program Director or authorized Board representative.

18. **Effective Date.** This Final Agency Order shall become effective upon (a) mailing by first-class mail to Respondent Pharmacy at Respondent Pharmacy's address of record with the Board, or (b) service by electronic means on Respondent Pharmacy at Respondent Pharmacy's electronic address of record with the Board. Respondent Pharmacy hereby consents to service by electronic means if Respondent Pharmacy has an electronic address on file with the Board.

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 86-2166349. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification, and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, *Entity Classification Election*. See Form 8832 and its instructions for additional information.

A limited liability company (LLC) may file Form 8832, *Entity Classification Election*, and elect to be classified as an association taxable as a corporation. If the LLC is eligible to be treated as a corporation that meets certain tests and it will be electing S corporation status, it must timely file Form 2553, *Election by a Small Business Corporation*. The LLC will be treated as a corporation as of the effective date of the S corporation election and does not need to file Form 8832.

AGREED BOARD ORDER #K-97-009

RE: IN THE MATTER OF BEFORE THE TEXAS STATE
 RICHARD MARVIN ALLEN BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of
Pharmacy the matter of pharmacist license number 18743 issued to Richard
Marvin Allen, [REDACTED] DOB [REDACTED]

By letter dated October 27, 1997, the Texas State Board of Pharmacy
gave preliminary notice to Richard Marvin Allen of its intent to take disciplinary
action with respect to pharmacist license number 18743 held by Richard Marvin
Allen as a result of information received by the board and a subsequent
investigation which produced evidence indicating that Richard Marvin Allen may
have violated Section 19(a), Section 24(h), and Section 26(a)(1), (2), (12), and
(13) of the Texas Pharmacy Act, Tex. Rev. Civ. Stat. Ann. art. 4542a-1 (Vernon
Supp. 1997); and Section 281.24(a)(13), Section 295.3(b), and Section 295.7(1),
(2), and (3)(A) of the Texas Pharmacy Rules of Procedure, Tex. Admin. Code
Ann. tit. 22 (1997), in that allegedly:

PREVIOUS HISTORY

On or about July 8, 1996, the Texas State Board of Pharmacy issued a Warning
Letter to Richard Marvin Allen regarding his pharmacist license renewal
application after the check submitted by Richard Marvin Allen to pay for his
pharmacist license renewal fee was returned for insufficient funds. Because the
pharmacist license renewal fee was not received by the Board, Richard Marvin
Allen's pharmacist license was not renewed. The pharmacist license held by
Richard Marvin Allen expired on June 30, 1996. In the Warning Letter, the
Board notified Richard Marvin Allen that engaging in the practice of pharmacy
with a delinquent license was a violation of the Texas Pharmacy Act and
constituted grounds for disciplinary action. Richard Marvin Allen was instructed

that he needed to pay the pharmacist license renewal fee and delinquent penalty by July 29, 1996 in order to renew his license. Richard Marvin Allen failed to respond by that date. On or about August 21, 1996, Richard Marvin Allen renewed his pharmacist license by submitting the required renewal fee and delinquent penalty to the Texas State Board of Pharmacy.

COUNT

On or about July 1, 1996 through on or about July 21, 1996, Richard Marvin Allen, while acting as an employee (staff pharmacist) at Rockwell Drug, 407 D South Goliad, Rockwall, Texas 75087, was unlawfully engaged in the practice of pharmacy with a delinquent license. On or about August 30, 1997, a compliance officer for the Texas State Board of Pharmacy conducted an inspection of Rockwell Drug and found that Richard Marvin Allen had practiced pharmacy with a delinquent license at Rockwell Drug from July 1, 1996 through July 21, 1996. On or about August 21, 1996, Richard Marvin Allen renewed his pharmacist license.

By letter dated October 27, 1997, Richard Marvin Allen was notified that the matters previously set out in this Order could be disposed of without the scheduling of an informal conference or a formal Administrative Hearing. By his signature on this Order, Richard Marvin Allen neither admits nor denies the truth of the matters previously set out in this Order, agrees that the Texas State Board of Pharmacy has jurisdiction in this matter and waives his right to informal conference, to Notice of Hearing, to a formal Administrative Hearing, and to judicial review of this Order.

Richard Marvin Allen understands that any failure to comply with the terms of this Order is a basis for discipline under the Texas Pharmacy Act.

Should this Order not be accepted by the Board, it is agreed that presentation to and consideration of this Order by the Board shall not unfairly or

To Whom It May Concern:

On November 18th, 2019, the Colorado Board of Pharmacy conducted a routine inspection of Paragon Infusion Care in Englewood, Colorado and noted certain deficiencies related to cleanroom facility maintenance and daily prescription printout recordkeeping. These two findings were deemed repeat deficiencies previously documented in prior inspections.

On November 25th, 2019, the board took disciplinary action based upon the above. Re: License Number PDO.0370000030
 Case Number: 2019-8217

Dear Colorado State Board of Pharmacy,

This letter is in response to the complaint filed November 25, 2019 against Paragon Infusion Care. The items noted in the complaint have been addressed as follows:

- Complaint 1
 - There are various areas in both the clean room as well as the ante room where paint and sheet rock lining is chipped off. Moreover, there are 2 ceiling tiles that are dislodged from coving creating opening within the clean room.
- Response 1
 - All areas in the clean room and ante room where paint and sheet rock lining was chipped off have been repaired. Our clean room certified contractors have also placed a strip of stainless steel protective metal around the perimeter of both rooms to prevent further chipping from occurring. Both rooms have been repainted with medical grade paint.
 - The light fixtures with a gap in the coving have been fixed. No gaps are present thus eliminating openings within the clean room.
- Complaint 2
 - Daily printouts shall include the number of refills authorized and the number of refills dispensed to date.
- Response 2
 - Our daily printout has been updated to include all of the following information as required by the Pharmacy Practice Act:
 - (1) The serial number (rx number);
 - (2) The name of the patient;
 - (3) The name of the practitioner;
 - (4) For each controlled substance dispenses, the practitioner's Drug Enforcement Administration registration number;
 - (5) The date of issue by the practitioner, the date dispensed shall be presumed to be the date of issue.
 - (6) The total number of refills authorized;
 - (7) Date dispensed;
 - (8) The name and strength of the drug dispensed;

- (9) The quantity of the drug dispensed;
- (10) In the case of a refill, the total number of refills dispensed to date.

Paragon Infusion Care is now in compliance with the Pharmacists, Pharmacy Business, and Pharmaceuticals Practice Act.

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE IN-STATE PRESCRIPTION DRUG OUTLET REGISTRATION IN THE STATE OF COLORADO OF PARAGON INFUSION CARE, REGISTRATION NO. PDO 37-30,

Respondent Pharmacy.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Paragon Infusion Care ("Respondent Pharmacy") to resolve all matters pertaining to Board Case Number 2019-8217, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Pharmacy, its registration as an in-state prescription drug outlet, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to provisions of the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2019).
2. Respondent Pharmacy was originally registered in the State of Colorado on or about July 29, 1992, being issued registration number PDO 37-30, and has been so registered at all times relevant to this disciplinary action.
3. Respondent Pharmacy's address of record with the Board and current location is 8811 American Way, Ste. 150, Englewood, CO, 80112.
4. Respondent Pharmacy admits these findings and hereby waives any further proof in this or any other proceeding before the Board regarding the following facts.
5. On November 18, 2019, Board inspectors conducted an inspection and found a deficiency that was repeated over the course of consecutive inspections.
6. Board Inspector found the following repeat deficiencies:
 - a) There are various areas in both the clean room as well as the ante room where paint and sheet rock lining is chipped off. Moreover, there are 2 ceiling tiles that are dislodged from coving creating opening within the clean room. This was a repeated deficiency found during the December 16, 2018, August 8, 2017 and December 22, 2015 inspections.

- b) Daily printouts shall include the number of refills authorized and the number of refills dispensed to date. This was a repeated deficiency found during the December 6, 2018 and August 8, 2017 inspections.
7. Respondent Pharmacy admits that its conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes and Board Rules and provides grounds for disciplinary action against Respondent Pharmacy's Colorado registration as a prescription drug outlet.

Colorado Revised Statutes

12-280-126. Unprofessional conduct - grounds for discipline. (1) The board may take disciplinary or other action as authorized in section 12-20-404, after a hearing held in accordance with the provisions of sections 12-20-403 and 12-280-127, upon proof that the licensee or registrant:

(c) Has violated:

(I) Any of the provisions of this article 280, including commission of an act declared unlawful in section 12-280-129, or an applicable provision of article 20 or 30 of this title 12;

(II) The lawful rules of the board; or

(III) Any state or federal law pertaining to drugs.

(k) Has failed to meet generally accepted standards of pharmacy or pharmacy technician practice;

Pharmacy Board Rules and Regulations

11.04.20 Computer Use With Prescription Order or LTCF Chart Order Transactions. A prescription drug outlet may utilize a computer (automated data processing system) for storage and retrieval of information regarding prescription and LTCF chart order transactions.

21.20.60 Environmental Quality and Controls. (c) The surfaces of the ceiling, walls, floor, fixtures, shelving, counters, and cabinets in the buffer area or clean room shall be smooth, impervious, free from cracks and crevices and non-shedding. Junctures of ceilings to walls shall be coved or caulked. There shall be no sink or floor drains in the buffer area or clean room.

DISPOSITION

8. **Fine with Surcharge.** Pursuant to section 12-280-127(5)(a), C.R.S., Respondent Outlet shall pay a fine of one thousand dollars and No Cents (\$1,000.00). Respondent Outlet understands and acknowledges that, pursuant to section 24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies may impose an additional surcharge of 15% of this fine. Respondent Outlet shall therefore pay a total amount of one thousand one hundred and fifty dollars and No Cents (\$1,150.00). The total amount

shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Outlet submits this signed Final Agency Order to the Board.

9. **Compliance.** Respondent Outlet shall submit all future applications and appropriate fees to the Board detailing changes in its designated representative within the required time frame specified by Board rule or statute in effect at the time of such designated representative change.
10. **Other Requirements.** Respondent Outlet acknowledges and agrees that, as a condition of this Final Agency Order, Respondent Outlet shall:
 - a. promptly pay all Respondent Outlet's own fees and costs associated with this Final Agency Order;
 - b. comply fully with this Final Agency Order; and
 - c. comply fully with the Pharmacists, Pharmacy Businesses and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.
11. **Advisements and Waivers.** Through its undersigned Authorized Representative, Respondent Outlet enters into this Final Agency Order freely and voluntarily, after having the opportunity to consult with legal counsel and/or choosing not to do so. Respondent Outlet acknowledges its understanding that it has the following rights:
 - a. to have formal notice of hearing and charges served upon it;
 - b. to respond to said formal notice of charges;
 - c. to have a formal disciplinary hearing pursuant to sections 12-20-403, 12-280-126, and 12-280-127, C.R.S.; and
 - d. to appeal this Final Agency Order.

Respondent Outlet freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against Respondent Outlet to the sanctions imposed herein.

12. **Acknowledgments.** The undersigned Authorized Representative of Respondent Outlet has read this Final Agency Order in its entirety and acknowledges, after having the opportunity to consult with legal counsel and/or choosing not to do so, that Respondent Outlet understands the legal consequences and agrees that none of the terms or conditions herein is unconscionable. Respondent Outlet is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Outlet further acknowledges that it is not entering into this Final Agency Order under any duress.
13. **Violations.** Time is of the essence in this Final Agency Order. It is the responsibility of Respondent Outlet to take all appropriate steps to comply fully with this Final Agency

Order. Respondent Outlet acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under section 12-280-127(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent Outlet's registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Outlet to comply with all terms and conditions of this Final Agency Order.

14. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.
15. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.
16. **Effective Date.** This Final Agency Order shall become effective upon signature by a Board representative.

To Whom It May Concern:

The complaint filed for failure to pay for retail rental exhibit space in 1989. The contract was actually with North Star Spa, Inc. of which I was a principal and on the Certificate of Incorporation. Although there were issues regarding the breach of contract on the part of the complainant, there was no resolution, so the manager of North Star Spa elected not to pay. Since I was an officer of the company, they filed on me for theft over \$750. Once I became involved, restitution was made and the case was dismissed on October 2nd, 1991. I am attaching supporting documentation of such. Please feel free to contact me directly with any questions or concerns.

**Re: State of Washington Board of Pharmacy
Pending Case No. 2020-17792FO**

Details of the Pending Case:

On January 19, 2021, Valor received a complaint alleging unprofessional conduct from the Washington State Board of Pharmacy.

Valor self-reported the licensing action by the State of Oregon related to a California Board of Pharmacy public reprimand issued to Valor in accordance with Pharmacy Commission Laws and Rules by the Washington Board. As a result, an investigation was initiated requiring a submission of additional documents for the actions.

These are documents that were requested:

- A copy of the California Board of Pharmacy actions on current license under Valor and any actions on the former pharmacy named Wellspring in the past three years, from 2017 till present.
- Any FDA 483 filing on either Valor Compounding or the former named Wellspring Compounding.
- Any copies FDA site inspections.
- A written statement addressing both the California and Oregon Board of Pharmacy licensing actions.

The requested documentations and the written statement were submitted via email on February 19, 2021 to the assigned Pharmacy Investigator.

This matter is currently pending and scheduled to be heard during Board of Pharmacy meeting in May.

Attached with this is a copy of the written statement provided for reference.

Re: Valor Compounding Pharmacy
Case No. 2020-17792FO

Dear Investigator Humberson,

We are writing regarding the above referenced case in response to your correspondence dated January 19, 2021. As an initial point, we want to thank you for your courtesy in allowing us some additional time to respond to your inquiries. It is our hope that we can resolve this matter amicably and without the need for further action. In furtherance of this, we provide the following explanation and additional information regarding the California Board of Pharmacy (BOP) action and the Oregon BOP action as requested in your correspondence. In addition to the written explanation provided below, please also find the following documents requested in your January 19, 2021 correspondence:

Copy of California BOP actions on current license for Valor Compounding Pharmacy (Valor) and Copy of California BOP actions on former pharmacy Wellspring Compounding Pharmacy (Wellspring) for the period of 2017 to present [attached as **Exhibit A**];

Please note that neither Valor nor Wellspring have any documents relating to your requests for information regarding FDA filings/site inspections during the past three years.

By way of background, the origin of this matter relates back to the prior ownership when the pharmacy was operating as Wellspring. Since that time, Wellspring changed its corporate name to Valor Compounding Pharmacy, Inc. d/b/a Valor Compounding Pharmacy. Prior to doing business as Valor, Wellspring was located at 2320 Woolsey Street, Suite 105, Berkeley, California 94705 and was under the management and ownership of Andrew Beyers and Rick Niemi. During this time, Mr. Beyers served as pharmacist-in-charge (PIC). Wellspring first obtained its California pharmacy permit on May 24, 2016 when the Pharmacy operated as Beyers Pharmacy Services,

Inc. d/b/a Wellspring Compounding Pharmacy. Subsequently, the California BOP issued a permit to Wellspring Compounding Pharmacy, Inc. d/b/a Wellspring Compounding Pharmacy.

Thereafter, on or about May 15, 2017, Wellspring was inspected by a California BOP inspector. A more detailed recitation of the inspection is contained in the documents attached as **Exhibit A**. Following the inspection, in December 2018, the California BOP issued a complaint containing certain accusations stemming from the May 15, 2017 inspection. **Exhibit A**. After the complaint was issued by the California BOP, the parties entered into a stipulated settlement between Wellspring and the California BOP effective on **November 14, 2019**. **Exhibit A**.

As a result of the complaint issued by the California BOP to Wellspring and the stipulated settlement, Wellspring took numerous corrective actions. These corrective/rehabilitative actions included the following:

- Andrew Beyers resigned as an owner and no longer has any affiliation whatsoever with Valor.
- Valor hired a new PIC to replace Mr. Beyers. The new PIC is Lauren Honda.
- The Pharmacy changed locations and moved to a new state-of-the art facility that houses four laboratories for the following compounding activities:
 - Non-Sterile Hazardous Laboratory;
 - Non-Sterile Non-Hazardous Laboratory;
 - Sterile Hazardous Laboratory;
 - Sterile Non-Hazardous Laboratory.
- Valor implemented robust corrective actions and enhanced oversight plans including:
 - Annual assessment of staff's training and competencies.
 - Annual validation of Pharmacists and pharmacy technicians process and techniques used to compound various dosage forms through potency testing of samples.
 - If any product is determined to be outside the allowable range, a root cause analysis is conducted followed by a corrective action plan. All procedures are strictly outlined in Valor's Standard Operating Procedures.
- The Pharmacy's SOPs were also revised as it relates to Beyond Use Dates (BUDs) and incorporated USP 795 guidelines including the notion that BUDs are to be assigned conservatively and for those products warranting an extended BUD, documentation from relevant studies is cited in connection with the extended BUD.
- Valor installed an automated temperature monitoring system in all areas where drugs, either in raw form, or as a compounded medication, are stored. Temperatures are monitored at set time points during a 24-hour period and logged electronically. Pharmacists are provided access to view temperature trends throughout the day, in addition to ensuring that temperatures are logged at the beginning of each workday. If temperatures ever fall out of the range allowable by USP and BOP guidelines, such activity immediately triggers a text message notification that is sent to the PIC

in addition to other members of the compliance team, so that appropriate corrective action can promptly be taken.

- Equipment maintenance is scheduled on annually or semi-annually based on USP and BOP guidelines in addition to manufacturer recommendations/specifications. All hood certifications are maintained and archived into Valor's QMS system and hardcopies are appropriately filed.
- Valor utilizes Propel, a Quality Management Software (QMS), to monitor and document all quality compliance activities. These activities include:
 - Quarterly Audits
 - SOP document control
 - Drug testing results
 - CAPA
 - Training
 - Equipment maintenance reports and recertifications
 - Non-conformance reports
 - Complaints
- Valor schedules and conducts quarterly meetings to review all quality and compliance activities including review of any incident reports.
- Valor's Chief Pharmacy Officer regularly reviews, at least once annually, the SOPs and updates as needed/as appropriate.

With the implementation of these corrective actions, Valor has continued to operate with an ongoing commitment to maintaining the highest standards of safety and with a strong commitment to ensuring the safety of all its patients including the residents of Washington.

Following the resolution of the matter involving the California Board of Pharmacy, Valor received a Notice from the Oregon BOP. **Exhibit B**. Valor received this Notice in September 2020. The Notice from the Oregon BOP was related to the prior stipulated settlement entered with the California BOP. More specifically, the Oregon BOP Notice referenced an application previously submitted by Valor with the Oregon BOP regarding its registration and name change with the Oregon BOP. The Oregon BOP took the position that Valor was obligated to disclose the matter that involved Wellspring. Due to a misunderstanding by me, I did not reference the California BOP proceeding. This is because as I understood the situation, the stipulated settlement with the California BOP primarily involved Valor and Mr. Beyers as the prior owner. Moreover, as noted above, the stipulated settlement did not take effect until November 2019 and the stipulation was subject to change at any time up until it officially took effect. Based on this, I did not recognize that the stipulated settlement and corresponding proceedings needed to be disclosed to the Oregon BOP. Fortunately, the matter involving the Oregon BOP was resolved amicably by way of a consent order. A copy of the consent order is attached for reference as **Exhibit C**. In addition to resolving the Oregon BOP matter amicably, throughout the course of that matter, Valor cooperated with the Oregon BOP in order to achieve an amicable resolution. We were transparent with the Oregon BOP and as a result the matter was resolved as articulated in the consent order.

In addition to the foregoing information, we also wish to point out that we recognize that patient safety is of the utmost importance. In that regard, we want to note that at no point in time have there been any allegations of any harm to any patients, either at Wellspring or at Valor including in the State of Washington.

We hope that you find this information informative, responsive to your inquiries, and sufficient to resolve this matter without the need for further action by the Washington BOP. That said, if you would like to discuss this matter further or have any additional questions, etc., please do not hesitate to contact me or any members of the team at Valor and we will endeavor to respond as quickly as possible. Thank you.

Respectfully submitted,

Valor Compounding Pharmacy

3 standard operating procedures related to compounding. Any material failure to follow the
4 pharmacy's written policies and procedures shall constitute a basis for disciplinary action."

5 FACTUAL BACKGROUND

6 16. On or about May 15, 2017, a Board inspector went to Respondent Pharmacy to
7 conduct a routine inspection and complaint investigation.

8 17. During the inspection, the inspector obtained Respondent Pharmacy's standard
9 operating procedures for compounding, which state that for purposes of end product testing,
10 Respondent Pharmacy is to ensure that the strength of the active pharmaceutical ingredient(s)
11 is/are within +/- 10% of the labeled strength. The inspector reviewed the pharmacy's most recent
12 end product testing report, which indicated that Respondent Pharmacy had submitted a single
13 drug product—a levothyroxine 25mcg/ml oral solution—for end product testing in or around
14 March 2017, and that that product came back as sub-potent and not within +/- 10% of the labeled
15 strength of the product. Respondent Pharmacy did not send another product for retesting.
16 Respondent Pharmacy sent only one compounded product for end product testing annually, and
17 did not submit suppositories, creams, and ointments for testing. Respondent Pharmacy did not
18 send products for testing reflective of the type of compounding performed or reflective of the
19 quantity of items compounded.

20 18. The inspector found a refrigerator in the pharmacy containing compounded products
21 that did not have a temperature monitoring system in place. The temperatures for that refrigerator
22 were not recorded and maintained as required.

23 19. After the inspection, the inspector reviewed a compounding dispensing report from
24 Respondent Pharmacy that showed every compounded product dispensed by the pharmacy
25 between January 1, 2017, and May 15, 2017. According to the report, Respondent Pharmacy
26 compounded approximately 500 prescriptions for Kaiser clinic or prescriber office use. Of those
27 prescriptions, three (3) were for 500 progesterone 200mg suppositories and thirteen (13) were for
28 480 progesterone 200mg suppositories, all of which were sent to the same Kaiser doctor.

21. Between approximately May 26, 2016, and November 10, 2016, Respondent Pharmacy did not submit dispensing data for Schedule II, III, and IV controlled substance prescriptions to the Department of Justice.

(Furnishing an Unreasonable Quantity of Compounded Drug Products for Office Use)

22. Respondents are subject to disciplinary action under sections 4301, subdivisions (j) and/or (o), 4052, subdivision (a)(1), and 4113, subdivision (c) of the Code, and California Code of Regulations, title 16, section 1735.2, subdivisions (c)(1), (c)(2), and (c)(4), in that Respondents furnished an unreasonable quantity of compounded drug products to a prescriber for office use by the prescriber. The circumstances of Respondents' conduct are set forth above in paragraphs 19 and 20.

(Failure to Maintain Records of the Proper Storage of Drug Products Used in Compounding)

23. Respondents are subject to disciplinary action under sections 4301, subdivision (o) and 4113, subdivision (c) of the Code, and California Code of Regulations, title 16, section 1735.3, subdivision (b), in that Respondent Pharmacy failed to maintain records of the proper storage of drug products and/or components used in compounding. The circumstances of Respondents' conduct are set forth above in paragraph 18.

7

THIRD CAUSE FOR DISCIPLINE

Respondents are subject to disciplinary action under sections 4301, subdivision (o) and 4113, subdivision (c) of the Code, and California Code of Regulations, title 16, section 1735.5, subdivision (a), in that Respondents materially failed to follow Respondent Pharmacy's written policies and procedures related to compounding. The circumstances of Respondents' conduct are set forth above in paragraph 17.

FOURTH CAUSE FOR DISCIPLINE

(Failure to Report Information Related to Controlled Substances Prescriptions)

25. Respondents are subject to disciplinary action under sections 4301, subdivisions (j) and/or (o) and 4113, subdivision (c) of the Code, in that Respondents failed to report to the Department of Justice the information set forth in Health and Safety Code section 11165, subdivisions (d)(1)-(d)(10) related to prescriptions for Schedules II, III, and IV controlled substances as required. The circumstances of Respondents' conduct are set forth above in paragraph 21.

EXHIBIT B

BEFORE THE BOARD OF PHARMACY
OF THE STATE OF OREGON

In the Matter of	)	Case No. 2020-0140
	)	
VALOR COMPOUNDING PHARMACY	)	NOTICE OF PROPOSED
FORMERLY KNOWN AS WELLSRING	)	CIVIL PENALTY;
COMPOUNDING PHARMACY	)	ANSWER REQUIRED
	)	
Licensee	)	

Under the authority granted to the Oregon Board of Pharmacy (Board) pursuant to ORS Chapter 689 (the Oregon Pharmacy Act), including ORS 689.135, 689.145, 689.155 and 689.832(1), the Oregon Board of Pharmacy proposes to impose a civil penalty against Valor Compounding Pharmacy located at 2461 SHATTUCK AVE in BERKELEY, CA because Valor Compounding Pharmacy violated the Oregon Pharmacy Act and the Board of Pharmacy rules as set forth below:

On or about 11/01/2019, Valor Compounding Pharmacy, formerly known as Wellspring Compounding Pharmacy, submitted an application for a retail drug outlet registration reinstatement and name change to the Board of Pharmacy (which has been granted).

The Board of Pharmacy license application includes the question, "Has disciplinary action been taken, or is any such action currently pending or proposed against any of the persons or establishments listed on this application, by any State or Federal Authority in connection with a violation of any federal or state drug law or regulation?" A representative of Valor Compounding Pharmacy responded "No." On or about 10/22/2019, Richard Niemi, CEO/Owner of Valor Compounding Pharmacy, signed the application certifying that all information contained in the application was complete, true and correct.

Valor Compounding Pharmacy failed to disclose on the application pending disciplinary action that listed both Valor Compounding Pharmacy and Wellspring Compounding Pharmacy from the California Board of Pharmacy, Administrative Case 6433 (Stipulated Settlement).

Per the terms of the Stipulated Settlement, the pharmacy permit issued to Valor Compounding Pharmacy was Publicly Reproved by the California Board of Pharmacy and the previously cancelled permit issued to Wellspring Compounding Pharmacy was surrendered to the California Board of Pharmacy. On or about 08/14/2019, Richard Niemi signed the Stipulated Settlement attesting that he understood the effect the Stipulated Settlement would have on Valor Compounding Pharmacy's permit and that he was "voluntarily, knowingly, and intelligently" entering to the Stipulated Settlement. The Stipulated Settlement went into effect on 11/14/2019.

Richard Niemi, CEO/Owner of Valor Compounding Pharmacy, was aware of the pending California Board of Pharmacy disciplinary action against Valor Compounding Pharmacy when he signed the application.

This conduct constitutes intentional misrepresentation in securing or attempting to secure a license and is the basis for discipline under ORS 689.405(1)(f). This conduct is contrary to the standards of practice, and is unprofessional conduct as defined by OAR 855-006-0020(j), in violation of and grounds for discipline pursuant to ORS 689.405(1)(a) and OAR 855-041-1170(1).

Based on these alleged violations, the Board proposes to impose a civil penalty in an amount of \$10,000 per violation for one violation.

HEARING RIGHTS

The corporation is entitled to a hearing as provided by the Administrative Procedures Act (ORS chapter 183). An attorney must represent the corporation. If the corporation wishes to have a hearing, the corporation's attorney must file a written request for hearing with the Board within 21 days from the date this notice was mailed. The corporation's attorney may send or deliver a request for hearing to:

Oregon Board of Pharmacy
800 NE Oregon Street, Suite 150
Portland, OR 97232
Fax: (971) 673-0002

If a request for hearing is not received within this 21-day period, the corporation's right to a hearing shall be considered waived.

If the corporation requests a hearing, the corporation's attorney will be notified of the time and place of the hearing. Before the commencement of the hearing, the corporation will be given information on the procedures, right of representation and other rights of parties relating to the conduct of the hearing.

If the corporation does not request a hearing within 21 days, or if it withdraws a hearing request, notifies the Board or Administrative Law Judge that it will not appear, or fails to timely appear at a scheduled hearing, the Board may issue a final order by default imposing discipline. If the Board issues a final order by default, it designates its file on this matter as the record.

ANSWER REQUIRED

Pursuant to OAR 855-001-0010 and OAR 855-001-0015, if you request a hearing you must also provide, within 21 days from the date this contested case notice was served, a written answer to the allegations set forth in this contested case notice. Your written answer must include an admission or denial of each factual matter alleged in the notice and a short and plain statement of each relevant affirmative defense you may have. Except for good cause, factual matters alleged in the notice and not denied in the answer shall be presumed admitted; failure to raise a particular defense in the answer will be considered a waiver of such defense; new matters alleged in the answer (affirmative defenses) shall be presumed to be denied by the agency; and evidence shall not be taken on any issue not raised in the notice and the answer.

Hearing Request and Answers:
Consequences of Failure to Answer
855-001-0015

To Whom It May Concern:

On or around September 14th, 2010, an employee of Paragon Healthcare inadvertently submitted an application for license renewal on behalf of Paragon Infusion Services in Corpus, Christi bearing an inaccurate response to a question concerning the prior criminal history of its corporate officers. A prior incidence concerning the arrest record of a corporate officer was not disclosed appropriately as a result of this error. Upon notice of the error by the Texas State Board of Pharmacy, a second application with an appropriate response was submitted to the board on or about December 20th, 2010.

On this day came on to be considered by the Texas State Board of Pharmacy the matter of the pharmacy license application submitted by Paragon Infusion Services, Inc., 4639 Corona Drive, Suite 26, Corpus Christi, Texas 78411.

By letter dated March 11, 2011, the Texas State Board of Pharmacy gave preliminary notice to Paragon Infusion Services, Inc. of its intent to consider denial of the pharmacy license application. This action was taken as a result of information received by the Board which produced evidence indicating that Paragon Infusion Services, Inc. may have violated:

Section 565.002(a)(3) and (10) of the Texas Pharmacy Act, TEX OCC CODE
ANN Subtitle J (2009); and

Section 281.8(c) of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2010), in that, allegedly:

On or about September 14, 2010, Paragon Infusion Services, Inc. submitted a fraudulent application for Texas pharmacy licensure to the Texas State Board of Pharmacy. On the original application, it was falsely indicated that no corporate officers had been arrested for any criminal offense, when Richard Marvin Allen, corporate president of Paragon Infusion Services, Inc., had been arrested for the felony offense of Theft of Service, for which he was indicted in 1991. On or about December 20, 2010, Paragon Infusion Services, Inc. submitted a second application, which disclosed Mr. Allen's arrest for Theft of Service.

Should this Order not be accepted by the Board, it is agreed that neither the presentation of the Order to the Board nor the Board's consideration of the Order, will be deemed to have unfairly or illegally prejudiced the Board or its individual members and, therefore, will not be grounds for precluding the Board or any individual member of the Board from further participation in proceedings related to the matters set forth in the Order.

Richard M. Allen agrees to the entry of an Order disposing with the need for further disciplinary action in this matter and agrees to comply with the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Texas State Board of Pharmacy does hereby ORDER that Paragon Infusion Services, Inc. RE: IN THE MATTER OF BEFORE THE TEXAS STATE
 RICHARD MARVIN ALLEN BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of
Pharmacy the matter of pharmacist license number 18743 issued to Richard
Marvin Allen, [REDACTED] DOB [REDACTED]

By letter dated October 27, 1997, the Texas State Board of Pharmacy
gave preliminary notice to Richard Marvin Allen of its intent to take disciplinary
action with respect to pharmacist license number 18743 held by Richard Marvin
Allen as a result of information received by the board and a subsequent
investigation which produced evidence indicating that Richard Marvin Allen may
have violated Section 19(a), Section 24(h), and Section 26(a)(1), (2), (12), and
(13) of the Texas Pharmacy Act, Tex. Rev. Civ. Stat. Ann. art. 4542a-1 (Vernon
Supp. 1997); and Section 281.24(a)(13), Section 295.3(b), and Section 295.7(1),
(2), and (3)(A) of the Texas Pharmacy Rules of Procedure, Tex. Admin. Code
Ann. tit. 22 (1997), in that allegedly:

On or about July 8, 1996, the Texas State Board of Pharmacy issued a Warning
Letter to Richard Marvin Allen regarding his pharmacist license renewal
application after the check submitted by Richard Marvin Allen to pay for his
pharmacist license renewal fee was returned for insufficient funds. Because the
pharmacist license renewal fee was not received by the Board, Richard Marvin
Allen's pharmacist license was not renewed. The pharmacist license held by
Richard Marvin Allen expired on June 30, 1996. In the Warning Letter, the
Board notified Richard Marvin Allen that engaging in the practice of pharmacy
with a delinquent license was a violation of the Texas Pharmacy Act and
constituted grounds for disciplinary action. Richard Marvin Allen was instructed

On or about August 21, 1996, Richard Marvin Allen renewed his pharmacist license by submitting the required renewal fee and delinquent penalty to the Texas State Board of Pharmacy.

COUNT

On or about July 1, 1996 through on or about July 21, 1996, Richard Marvin Allen, while acting as an employee (staff pharmacist) at Rockwell Drug, 407 D South Goliad, Rockwall, Texas 75087, was unlawfully engaged in the practice of pharmacy with a delinquent license. On or about August 30, 1997, a compliance officer for the Texas State Board of Pharmacy conducted an inspection of Rockwell Drug and found that Richard Marvin Allen had practiced pharmacy with a delinquent license at Rockwell Drug from July 1, 1996 through July 21, 1996. On or about August 21, 1996, Richard Marvin Allen renewed his pharmacist license.

By letter dated October 27, 1997, Richard Marvin Allen was notified that the matters previously set out in this Order could be disposed of without the scheduling of an informal conference or a formal Administrative Hearing. Re: Addendum to MDEG Administrator Form

Dear Board Members,

This letter is to outline the discrepancies that were submitted on the MDEG administrator forms dated January 29th 2021 and March 4th 2021. Both of these reflected incorrect work history for Sandra Sorenson. I would like to provide explanation as to how this information was believed to be accurate by Ms. Sorenson.

Prior to February 2019 Kinex Medical Company and Gabel Distributors entered into a 1099 relationship in which Kinex equipment was dispensed to patients by Gabel Distributors. February 2019 Kinex and Gabel Distributors terminated this 1099 relationship and at that time Kinex took over the lease to the Hauck Street location as well as transitioned several of Gabel Distributors employees to become Kinex W2 employees.

In June 2019 Sandra Sorenson relocated from the Kinex location in Colorado to the location at Hauck Street in Las Vegas. During this time the transition from Gabel Distributors to Kinex Medical Company at the Hauck Street location was still in progress. Kinex has always referred to that location as the Gabel office. When Ms. Sorenson came to that location the terminology was skewed due to the transition and the former owner of Gabel Distributor being on-site very routinely.

There was no ill-intent to the information that Ms. Sorenson provided to the board as she believed the information to be accurate.

The work history in the MDEG administrator form dated March 15th 2021 is accurate and complete per the knowledge of Kinex Medical Company and Sandra Sorenson.

Regards,

Leann Wilhelm, CHC

Subject: RE: Items Requested

Hello Joe,

I am writing in response to your request for additional information.

- (1) Explanation as to why the site continued to provide service to patients through April 16, 2021.

As a preliminary matter, based on the context of your request in which you call the Hauck Street location “the site” as distinguished from the requests below where you refer to the “off-site storage area,” we interpret this question as referring to the Hauck Street location. Please let us know if we are incorrect in that interpretation so we may amend our response accordingly.

The Hauck Street location was closed on March 30, 2021 and no one provided services on site or directly from the site following that date, though products were taken from the site on or around March 30 to fulfill orders. Following March 30, the site was not open to the public and employees were not working at the site. As Mr. Buckholdt testified at the April Board meeting, following Kinex’s receipt of the March 16 cease and desist letter, Kinex did continue to deliver certain prescribed and ordered products and services directly to doctors and patients who were post-surgical or otherwise expecting those products and services because he was concerned about the patient safety implications of failing to fulfill those orders and leaving those doctors and patients in the lurch. The products and services provided were handled remotely by a small number of setup people from storage or as they had already had some products in their vehicles. Kinex ceased all such activity immediately following the April 15th Board meeting and Kinex has provided no products or services of any kind since April 16, 2021.

- (2) Address of the off-site storage area

6075 W. Wigwam Ave, Unit A089
 Las Vegas, NV 89139

- (3) Who has knowledge of and access to the off-site storage area

The following information is to the best of our knowledge.

Knowledge of the storage area:

Mike Buckholdt
 Leann Wilhelm
 Sandra Sorenson
 Audra Foust
 Charlie Rivero

Access to the storage area:

Saundra Sorenson

Anthony Adams

Joseph Palmer

Colton Tenney (no longer employed by Kinex)

(4) The purpose of the off-site storage area

The purpose of the off-site storage area was to store products and access products while the Hauck Street location was closed to the public and employees.

(5) Whether or not patients received services directly from the off-site storage area

Consistent with the above responses, no patient was directly serviced from the off-site storage area except in the sense that setup people delivered products to patients, some of which had been stored at the off-site storage area. Patients were set up with the products in their homes on in a facility upon discharge – not at Hauck Street or the off-site storage area.

Please let us know if there is any other information Kinex can provide or if you have any additional questions about the above.

Thank you again,
Kelly

**Medline Industries, Inc
Disciplinary History**

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave, Kansas City, MO 64120	FILE CLOSED 2010	
		Medline Industries' Kansas City, MO license (#2003031660) was disciplined for failure to renew on-time and for insufficient temperature control procedures. Medline was placed on probation for 5 years. Throughout the probationary period, the state conducted multiple inspections of the facility and found Medline to be in compliance with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialist that monitor and ensure each of our 200+ licenses are renewed on-time. A temperature control room was also constructed at the facility to ensure product is stored at the appropriate temperature and humidity levels. These control rooms are now a standard feature at our distribution centers, and we have worked closely with VAWD throughout our distribution network to ensure that our temperature control facilities and procedures align with industry best practices.
12/7/2006	9101 Riverside Parkway, Lithia Springs, GA 30122	FILE CLOSED 2008	
		Medline's Florida Certified Designated Representative at our Georgia facility resigned unexpectedly. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Designated Representative was hired at the facility.	To prevent a situation like this from occurring in the future, every Medline facility licensed in FL has multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Drive, Orlando, FL 32824 401 Commerce Blvd., Oldsmar, FL 34677 4750 118th Ave N Clearwater, FL 33762	FILE CLOSED 2008	
		Medline Industries was cited for several violations including: failure to pass and maintain a pedigree that met Florida's specific requirements; having the wrong type of permit for activities being performed (in addition to the manufacturing permit that we had, Florida required that we also have a repacker permit); distribution of saline to an unauthorized recipient; and an Rx drug item was found at an unlicensed raw materials storage facility. Several of the violations were challenged and reduced substantially or removed during the settlement process. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required, we were fined by New York (Cal. No. 27278) for out-of-state professional misconduct. In 2010, Medline made an unrelated business decision to close the Oldsmar and Clearwater facilities.	To address the pedigree issues, Medline instituted a Florida specific pedigree system to ensure that any pedigree shipments within our distribution network with potential to end up in Florida have the required Florida specific documentation. (Note - these requirements have since been preempted by federal law). To address the issue of having the wrong permit type, Medline secured a repackaging permit, in addition to the manufacturing permit the facility already had. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx drug purchases; this procedure generates an automatic block of any Rx drug orders by an unlicensed customer in our SAP system. The Rx drug item unintentionally stored at our raw materials facility was properly disposed of, and our waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd., Gainesville, FL	FILE CLOSED 2008	
		Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008 (Case # 2007-37412). In 2010, Medline made an unrelated business decision to close this facility.	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, an internal auditing program was implemented to ensure that each distribution center is in compliance with internal policies and procedures, as well as state and federal regulations.
3/5/2008	149 New Camellia Blvd., Covington, LA 70433	FILE CLOSED 2008	
		Medline Industries' license #4318 was cited for failure to properly maintain copies of current customer licenses on site (Louisiana Administrative Docket #2008006). Medline was assessed and paid a fine. After duly notifying state authorities, as required, we were fined by New York (Cal. No. 27278) for out-of-state professional misconduct.	In addition to storing copies of our customers' licenses at headquarters, we now store these licenses digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave., Wausau, WI	FILE CLOSED 2009	
		Medline Industries' license (# 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing during an inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to have a dividing fence between the Medline managed portion of the facility and the hospital portion of the facility - even though all of the products were owned by the hospital. Medline was also cited for failure to access several policies and procedures during the inspection. Corrections were made and the facility was re-inspected, to the satisfaction of the state (Case #08 PHM 037). After duly notifying state authorities, as required, we were fined by the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) out-of-state professional misconduct. In 2010, Medline made an unrelated business decision to close this facility.	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the facility. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.
8/21/2008	94-1420 Moaniani St., Walpahu, Hawaii	FILE CLOSED 2013	
		Medline Industries' license (PWD 115) was fined \$5000 and placed on probation for 5 years for failure to report the Florida and Missouri disciplinary actions within 30 days. While Medline filed the required reports, the 30 day deadline was missed. Probationary period ended August 2013. (Case # PHA 2008-17-L)	Medline takes this oversight very seriously and we have implemented a new process to notify the required boards of any future disciplinary actions within 10 days of a final action.
3/19/2010	1401 N. Universal Ave, Kansas City, MO 64120	FILE CLOSED 2010	
		Medline applied for a Colorado Out of State Wholesaler license for the Missouri distribution center and was issued a conditional license by the CO Board of Pharmacy until the facility's MO probation period ended (approximately 5 months). The CO BOP was informed when the MO probationary period was completed, and subsequently removed the encumbered status of this facility's CO license.	See above for corrective actions related to the underlying sanction.
1501 Harris Rd, Libertyville, 1/6/2021 IL 60048		FILE CLOSED 2021	
		Medline Industries, Inc. License #01-1985050 received a fine \$250 by the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired, unbeknownst to Medline. Case No. A-2020-0054 I-2019-0972-B. The fine was paid on January 21, 2021 and the case was closed.	Medline takes this oversight very seriously. We reviewed our process and updated our guidelines for the type of license required by business in Ohio to ensure proper type of licenses applied to the customer are valid and current. The TDDD Ohio licenses are reviewed on an annual basis to ensure compliance.

Discipline Responses

Company General Comments: Owens & Minor, a Fortune 500 company, has been in the same business since 1882. We operate over 40 distribution centers throughout the country and ship into all states. All of our distribution centers are fully licensed in their respective resident and adjacent states and several hold multiple licenses to ship nationwide. We take legal compliance seriously and employ a number of individuals whose sole focus is to ensure that we follow all applicable state and federal laws and regulations. Changes to laws and requirements are subjects of ongoing vigilance. While we regret that we have been the subject of any discipline, we believe that these instances should be considered in the context of our size and overall operations in a field of enterprise highly regulated by a multiplicity of agencies. This is a comprehensive list of discipline that Owens & Minor Distribution, Inc. has received.

- This is an explanation of a Notice of Fine issued by the Louisiana State Board of Wholesale Drug Distributors against Owens & Minor's Wholesale Distribution Center in St. Rose, Louisiana facility. The citation was issued on April 11, 2002, but related to an inspection conducted on February 1, 2002. The citation referenced violations of regulations on customer license records. All issues had already been rectified to the Department's satisfaction prior to a hearing held on April 9, 2002, and the fine of \$5,000 has been fully paid.
- This is an explanation of a citation issued by the California Board of Pharmacy against Owens & Minor's Wholesale Distribution Centers in Livermore and Lathrop, California. The citation was issued in May 2006. The citation referenced violations of regulations regarding timely notification of the Board when a facility's Designated Representative changes. All have been rectified to the Department's satisfaction, and the fine of \$500 for both facilities has been fully paid.
- This is an explanation of a report of alleged violations issued by the Florida Department of Health against Owens & Minor's Wholesale Distribution Center in Orlando, Florida. The report was issued in February 2007 and referenced alleged violations of regulations regarding licensing and drug pedigrees. All matters raised in the report were resolved to the Department's satisfaction, the fine in the amount of \$285,000 has been fully paid, and the matter is closed.

- This is an explanation of a Settlement Agreement and Disciplinary Order entered into between Owens & Minor Distribution, Inc. and the Missouri Board of Pharmacy. The Settlement, executed in May 2008 references violations of regulations regarding temperature controls and monitoring at its Kansas City, Missouri distribution center. The Company remains fully licensed but was placed on probation for a period of 3 years. There was no fine imposed.
- This is an explanation of a Stipulation Order with the Colorado State Board of Pharmacy concerning Owens & Minor's Wholesale Distribution Center in Denver Colorado. The effective date was November 2, 2009. The Order references a violation of regulations regarding the inadvertent purchase and receipt of prescription drugs on March 5, 2009 from one vendor (Hospira) from a location not licensed by the Board to ship Rx products into Colorado. All issues have been rectified to the Board's satisfaction, and the fine of \$5,750 has been fully paid.
- This is an explanation of a Settlement Agreement entered into between Owens & Minor Distribution, Inc. and the Florida Department of Health. The Settlement, executed in July 2010, references violations of miscellaneous recordkeeping, personnel and license verification regulations in Owens & Minor's Wholesale Distribution Centers in Gainesville and Jacksonville, Florida. The Company and those facilities remained fully licensed but were under probation for a period of 2 years. The fine of \$12,500 has been fully paid and the probation period passed without incident in 2012.
- On March 15, 2011, Owens and Minor entered into a Consent Agreement with the Louisiana Board of Wholesale Drug Distributors ("Louisiana Board") to resolve a finding in an inspection report dated December 8, 2010 that Owens & Minor received a product from supplier not licensed to sell or ship drugs into Louisiana. The agreed upon fine of \$3,500 has been paid and this matter is now resolved to the satisfaction of the Louisiana Board.
- On July 27, 2011 Owens and Minor entered into a Stipulation and Consent Order with the Vermont Board of Pharmacy with regard to the application for a Third Party Logistics license by its facility in Redlands, California - Owens & Minor Healthcare Logistics. The basis of the order was discipline incurred by the company in other states. There was no specific non-compliance with Vermont law, or any other state regulation by any Owens & Minor facility. No fine was imposed. The license was issued subject to compliance with the laws of Vermont and reporting of future disciplinary actions.
- Owens & Minor Distribution, Inc. entered into a Stipulation Order with the Colorado State Board of Pharmacy concerning Owens & Minor's Wholesale Distribution Center in Denver, Colorado. The effective date was August 1, 2012. The Order referenced violations of regulations regarding timely notification of the Board when a facility's Designated Representative changes, and imposed the minimum fine. Colorado law requires that each licensed facility must provide the board with the name of a Designated Representative knowledgeable in regulatory requirements. Those named must meet certain criteria for experience and pass a background check. Changes must be submitted within fourteen

- calendar days. However due to an oversight, notice that the Designated Representative had been laid off was not sent for ninety-five calendar days. This oversight was pointed out during a routine inspection in February 2012 and corrected the same day. The Stipulation requires that any future changes be made within prescribed time limits, that Owens & Minor promptly pay all fines and charges, and that it comply with all other applicable laws and regulations. All have been rectified to the Board's satisfaction, the fine of \$1,100 has been fully paid and there have been no subsequent incidents of non-compliance.
- In February 2013 The Hawaii Department of Commerce and Consumer Affairs presented Owens & Minor with a Settlement Agreement assessing a fine of \$500.00 for having been disciplined in another jurisdiction. No deficiencies were noted in the operations or compliance activities of any specific Owens & Minor distribution center. This was strictly an administrative matter, a fine for being fined essentially. Owens & Minor signed the Settlement Agreement, paid the fine, and the matter is now satisfactorily closed. This action affected no specific Owens & Minor facility.
 - In August of 2012 Owens & Minor took over management of a hospital customer's internal warehouse and medical-surgical product distribution activities to the hospital's facilities and clinics in and around Burlingame, Ca. The facility was not licensed by the California Board of Pharmacy at the time management responsibilities changed. Accordingly, Owens & Minor submitted an application for licensure, and during the pre-licensing inspection, the Board representative took note of the presence of prescription drugs and devices that had been received and stored in the warehouse prior to the hospital's decision to outsource this activity to Owens & Minor. No other deficiencies or issues were identified, and the Board issued Owens & Minor a Wholesale Distributor's license shortly thereafter. In March of 2013, the Board issued Owens & Minor a citation for operating an unlicensed facility, assessing a fine of \$2,500, but imposing no other sanctions. All issues have been rectified to the Board's satisfaction, the fine has been fully paid, and the matter is now closed. This action involved only the Owens & Minor distribution in Burlingame CA, and no others.
 - This is notice of an action by Kentucky Board of Pharmacy. In December 2014, Owens & Minor entered into an Agreed Order with the Board of Pharmacy concerning Owens & Minor's tardy formal notice to the Board of its closing of a wholesale distribution center in Louisville, KY in 2013. The Board assessed a fine of \$500.00. Owens & Minor signed the Order, paid the fine and the matter is now satisfactorily closed.

- In June, 2017, the Hawaii Department of Commerce and Consumer Affairs presented Owens & Minor with a Settlement Agreement assessing a fine of \$250.00 for discipline received from the Colorado State Board of Pharmacy for its Denver, CO facility due to a tardy notification of a change in Designated Representative. This was strictly an administrative fine for being disciplined in another jurisdiction. Owens & Minor signed the Settlement Agreement, paid the fine, and the matter is now satisfactorily closed. It should also be noted that the Honolulu facility closed on December 31, 2016.
- On April 26, 2018, Owens & Minor Distribution, Inc. entered into a Settlement Agreement with the State of Florida Department of Business & Professional Regulation regarding the tardy formal notification to the Board of a change in Designated Representative and the imposition of discipline by another state, also regarding a tardy notification of change in Designated Representative. The Department assessed a fine of \$2,250.00 and determined that the agreement will not be deemed to constitute discipline within the meaning of Florida pharmacy laws. Owens & Minor signed the Order, paid the fine and the matter is now closed.
- On November 28, 2018, Owens & Minor Distribution, Inc. entered into a Stipulation and Final Agency Order with the Colorado State Board of Pharmacy regarding the tardy formal notification to the Board of a change in Designated Representative as well as failure to review its policy and procedure manual. The Department assessed a fine of \$6,900.00, and the matter is now closed.
- On February 25, 2019, Owens & Minor received a citation issued by the California Board of Pharmacy against Owens & Minor's Louisville facility. The citation referenced violations of regulations regarding timely notification of the Board when a facility's Designated Representative changes. No fine has been assessed with the citation and no proof of abatement has been ordered. The matter is now closed.
- On March 19, 2019, the Florida Department of Business & Professional Regulations presented Owens & Minor with a Settlement Agreement assessing a fine of \$3,000.00 for discipline received from the Colorado State Board of Pharmacy for its Denver, CO facility due to a tardy notification of a change in Designated Representative. This was strictly an administrative fine for being disciplined in another jurisdiction. Owens & Minor signed the Settlement Agreement, paid the fine, and the matter is now satisfactorily closed.
- On April 19, 2019, the Colorado Department of Regulatory Agencies, Division of Professions and Occupations presented Owens & Minor with a Letter of Admonishment recognizing that Owens & Minor failed to timely submit an application and fee for a change of Designated Representative for the Chicago, IL facility. This was strictly an open public record and reportable action and no such fine was given. Owens & Minor did not initiate formal disciplinary hearings to adjudicate the conduct and has accepted the letter for public record. This matter is closed.

- On December 11, 2019, the Colorado Department of Regulatory Agencies, Division of Professions and Occupations presented Owens & Minor with a Stipulation and Final Agency Order regarding the tardy formal notification to the Board of a change of Designated Representative. The Department assessed a fine of \$5,000.00. Owens & Minor signed the Stipulation agreement, paid the fine, and the matter is now satisfactorily closed.
- On September 10, 2020, the Colorado Department of Regulatory Agencies, Division of Professions and Occupations presented Owens & Minor with a Stipulation and Final Agency Order regarding the failure of the Designated Representative to review, sign and date its policy and procedure manual within a year of the previous date it was reviewed. The Department assessed a fine of \$1,150. Owens & Minor signed the Stipulation agreement, paid the fine, and the matter is now satisfactorily closed.
- On December 22, 2020 Owens & Minor Distribution, Inc. entered into a Stipulation and Final Agency Order from the State of Florida, Department of Business & Professional Regulation under Case #'s 2020-007156; 2020-007158; 2020-007161; 2020-007162 for the 2019 Colorado State Board of Pharmacy discipline that was issued for failure to notify within 30 days of a change of DR at the facility located at 473 Tower Blvd., Carol Stream, IL 60188. In lieu of a hearing, the Board resolved this case by means of a stipulated agreement pursuant to the following terms: Settlement in the amount of \$5000.00. Owens & Minor signed the Order, paid the fine and the matter is now satisfactorily closed.

Case No. 19-443

SUMMARY ORDER

NOW, on this 19th day of September 2019, comes before the Kansas Board of Pharmacy (the "Board"), through its Executive Director, the matter of Huvepharma, Inc. ("Respondent").

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq.*, and in accordance with the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq.*, the Board's Executive Secretary enters this Summary Order in the above-captioned matter. After reviewing the investigation materials and being otherwise duly advised in the premises, makes the following findings, conclusions and order:

FINDINGS OF FACT

1. The Board has previously issued Respondent Registration No. 5-103196 which entitles Respondent to operate as a wholesale distributor in the State of Kansas ("Respondent's Registration").
2. On July 27, 2018, name and ownership of Respondent's facility were changed from Agri Laboratories, Ltd. to Huvepharma, Inc.
3. On May 16, 2019, the Board received Form BA-05 Distributor Registration Application from Respondent, notifying the Board of the changes in name and ownership.

SUMMARY ORDER

Page 1 of 4

4. On May 29, 2019, the Board approved Respondent's Distributor Application, effective immediately.

5. With the May 29, 2019 approval, Respondent's previous registration number 5-103196 was cancelled, effective July 2018, and Respondent was issued new registration number 5-109751, under new name and ownership.

6. On July 25, 2019, the Board received information regarding a non-disciplinary fine against Respondent by the Arkansas Board of Pharmacy, for failing to notify their Board of ownership change in a timely manner.

CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed \$5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.S.A. 65-1643, it shall be unlawful for any person to distribute at wholesale any drugs without first obtaining a registration as a wholesale distributor from the Board.

3. Respondent's application documents indicated Respondent had functioned as a wholesale distributor in the state of Kansas between the July 27, 2019 ownership change and the May 29, 2019 Board registration approval.

4. By operating as a wholesale distributor in the state of Kansas prior to its May 29, 2019 Distributor Application approval by the Board, Respondent violated K.S.A. 65-1643(c).

ORDER

The Board finds and concludes that Respondent's conduct, as described above, violates the Act and such conduct warrants the imposition of a fine pursuant to K.S.A. 65-1658, in the amount of \$500.00. Respondent has 30 days from the date of this order to pay the full \$500.00.

NOTICES

The Respondent is hereby notified as follows:

Re: License Number: WHO.0008282
Case Number: 2019-7677

Dear Designated Representative,

The State Board of Pharmacy ("Board") has concluded its inquiry into the aforementioned matter. It was the Board's decision not to commence with formal proceedings against the Wholesaler license. However, the Board did determine disciplinary action in the form of this letter of admonition is warranted, pursuant to section 12-280-127(6), C.R.S.

Failure to timely notify the Colorado State Board of Pharmacy of a designated representative change is in violation of 12-280-126(1)(c)(II), C.R.S. and Board Rule 15.01.14. In this case 61 days elapsed before notification.

By this letter, the Board takes the formal disciplinary action of admonishing the Wholesaler for the conduct specified above, and warns that repetition of such practice may lead to imposition of more severe disciplinary action. This letter is an open public record and a reportable action to individuals or entities requesting disciplinary information. The Board strongly encourages the Wholesaler to review and understand the Pharmacists, Pharmacy Business, and Pharmaceuticals Practice Act requirements and obligations for the Practice of Pharmacy in Colorado.

In accordance with section 12-20-404(4), C.R.S., the Board advises the Wholesaler that it has the right to make a written request that the Board initiate formal disciplinary proceedings in order to adjudicate the conduct or acts upon which this letter is based. You must make your written request within twenty (20) days after receipt of this letter and address your request to Dmitry Kunin, Program Director, at the address listed below. If the wholesaler makes a timely request, the Board will deem this letter of admonition vacated and may proceed with disciplinary and/or injunctive proceedings in accordance with section 12-20-404(4)(b)(II), C.R.S., and applicable rules.

A Letter of Admonition, when accepted, becomes a permanent, public portion of the Wholesalers record. It is not, however, a restriction on your practice as a Wholesaler.

If you have further questions or concerns, please visit our website at <https://www.colorado.gov/dora/dpo> or you can contact our office at dora_pharmacyboard@state.co.us or by calling (303) 894-7800.

Sincerely,

SUMMARY			

On 10/01/19, the Colorado State Board of Pharmacy ("Board") received an application from Huvepharma Inc, detailing a change of designated representative along with fee (**Attachment 1**). This application indicates that on 08/01/19, Robert Cobstill ceased being the designated representative. Hello Maria,

Please find the attached Certificate of Existence for Northwest Generics LLC.

From the Washington Secretary of State records desk, "All states have different terminology for what is the same certificate. So may it be called the certificate of status, good standing or existence, but they are all the same with the same information that is required. We just call it a certificate of existence in Washington state."

To whom it may concern:

The reasons for the affirmative responses to questions 3 and 5 are due to an old issue more than 30 years ago. In 1990, due to 58 record keeping errors, Pricemart distribution center surrendered DEA #RP0135458.

Northwest Generics does not have a DEA license, and we do not dispense controlled substances.

Regarding the Disciplinary Actions

In February 2009, Teva Pharmaceuticals USA, Inc.'s (TUSA) North Wales, PA location had its Application for Out-of-State Wholesaler Registration denied by the Colorado State Board of Pharmacy (Board) due to lapse of the facility's previously-held license in the State. The Board subsequently issued a Cease and Desist Order to TUSA, banning further shipments from the facility into Colorado pending matter resolution.

TUSA worked quickly to resolve the matter by entering into a stipulation with the Board, acknowledging its improper shipment on December 11, 2008 of pharmaceutical product into the State without a valid license, in violation of applicable Colorado statutes, and paid a \$5,000.00 fine. The Board subsequently issued TUSA an Out-of-State Wholesaler Registration on February 10, 2009, which has since been properly maintained and is currently in good standing.

Enclosed are copies of the Cease and Desist Order and Stipulation and Final Agency Order.

On August 24, 2016, Zodiac Distributors, Corp.'s ("Zodiac") facility located at Calle I Metro Park #7 Suite 204, Guaynabo, Puerto Rico 00968 was inspected by the Puerto Rico Department of Health. Zodiac serves as TUSA's Puerto Rico license (license #: MA-00233-7) registered agent/distributor in Puerto Rico for product registrations, license applications and renewals and compliance agent for the law's regulating product registrations, licensing and controlled substance requirements. During this inspection, the inspector noted that Zodiac was deficient in certain areas of its record keeping requirements for TUSA products, as required by the laws of the Puerto Rico. As such, Zodiac/TUSA was fined a total of \$2,400 for three (3) record-keeping infractions on August 24, 2016. The observations leading to the fine were: i) Reports, records or inventories, Article 306 of Law #4 of Controlled Substances Puerto Rico, as amended — the quarter (monthly) report(s) for Schedule III-IV products, required additional details, such as expiration date of the product, lot number of the product and invoice number of TUSA and the customer to be added to the quarter report TUSA was already providing monthly to Zodiac; ii) Chapter 2, Article 3, Paragraph 5 of Regulation #153 of the Secretary of Health on Controlled Substances for control of the manufacture, distribution and disposal of controlled substances. This requires TUSA to provide daily reports for any Schedule II products shipped to customers in Puerto Rico. The daily reports for Schedule II products must include all information required on the quarter report (see observation i), along with a copy of form SC-1509 (see observation iii). This information is to be forwarded to Zodiac and the Puerto Rico Department of Health for all Schedule II products shipped into Puerto Rico by TUSA; and iii) Article 307 (A), the Controlled Substances Law' 4 — the absence/lack of the SC-1509 form by a client company in Puerto Rico.

Once the fine was issued and TUSA was made aware of the deficiencies in record keeping requirements and controlled substance reporting requirements, all shipments to Puerto Rico were stopped. Zodiac on behalf of TUSA immediately paid the \$2,400.00 fine to the Puerto Rico Department of Health on August 31, 2016. TUSA is now complying with the requirements and will ensure moving forward that it is compliant with the laws of Puerto Rico through Zodiac and other firms who are continuously reviewing any changes in the laws.

Attached is a copy of the Administrative Inspection Review. Puerto Rico does not provide translations of its documents or reports. For your convenience, attached is a copy of the English translation.

Attachment "A"

Please be advised that in February 2009, the State Board of Pharmacy of Colorado initially denied the application of Teva Pharmaceuticals USA, Inc. ("Teva") for an Out-of-State Wholesaler Registration for Teva's distribution facility located at 1090 Horsham Road, North Wales, Pennsylvania. Colorado also issued an order that Teva should cease and desist further shipments from that site into Colorado until this was resolved. Teva had been previously licensed by Colorado at the North Wales facility but that license had lapsed.

Teva quickly resolved this matter by entering into a stipulation with Colorado acknowledging its improper shipment on December 11, 2008 of pharmaceutical product into the State without a license, in violation of applicable Colorado Statutes, along with the payment of a \$5,000 fine. The Colorado Board of Pharmacy then promptly issued Teva an Out-of-State Wholesaler Registration on February 10, 2009, which is currently valid and in effect.

Enclosed for your information are copies of the above referenced Cease and Desist Order, Stipulation and Final Agency Order as well as the newly issued and active Out-of-State Wholesaler Registration for the North Wales facility.

RE: Case 2009-2512 against Teva Pharmaceuticals USA

Dear Designated Representative:

Pursuant to guidance established at its January 15, 2009 meeting, the Colorado State Board of Pharmacy ("Board") determined that on or around December 11, 2008, the aforementioned wholesaler distributed prescription drugs into Colorado without an Out of State Prescription Drug Wholesaler registration issued by the Board.

Pursuant to Section CRS 12-22-125.2(9)(b), any such request must be made within ten (10) days of the date of your receipt of this Order. If no hearing is requested, this Order becomes a Final Agency Order of the Board.

Wholesaler Applicant.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Teva Pharmaceuticals USA, Inc. ("Wholesaler Applicant") to resolve all matters pertaining to Board Case Number 2 009-2578 as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Wholesaler Applicant, its application for registration as an out-of-state wholesaler and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S.
2. Wholesaler Applicant admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.
3. On December 11, 2008, Wholesaler Applicant distributed prescription drugs to into Colorado without having first registered as an out-of-state wholesaler in the State of Colorado.

(II) The lawful rules of the board; or

(III) Any state or federal law pertaining to drugs.

. . .

5. On January 27, 2009, Wholesaler Applicant submitted an out-of-state wholesaler application, which application was denied by the Board.

 - c. To have a formal disciplinary hearing pursuant to §12-22-125, C.R.S.; and
 - d. To appeal this Board order.

Wholesaler Applicant freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for Board's limiting the action taken against it to the sanctions imposed herein.
11. **Acknowledgments.** The undersigned authorized agent of Wholesaler Applicant has read this Final Agency Order in its entirety and acknowledges, whether or not Wholesaler Applicant has consulted with legal counsel, that Wholesaler Applicant understands the legal consequences and agrees that none of the terms or conditions herein are unconscionable.

The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Wholesaler Applicant to comply with all terms and conditions of this Final Agency Order.

13. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. On August 24, 2016, Zodiac Distributors, Corp.'s ("Zodiac") facility located at Calle 1 Metro Park #7 Suite 204, Guaynabo, Puerto Rico 00968 was inspected by the Puerto Rico Department of Health. Zodiac serves as Teva Pharmaceuticals USA, Inc.'s ("Teva") (Puerto Rico License#: MA-00233-7) registered agent/distributor in Puerto Rico for product registrations, license applications and renewals and compliance agent for the laws regulating product registrations, licensing and controlled substance requirements. During this inspection, the inspector noted that Zodiac was deficient in certain areas of its record keeping requirements for Teva products, as required by the laws of the Puerto Rico. As such, Zodiac/Teva was fined a total of \$2,400 for three (3) record-keeping infractions on August 24, 2016. The observations leading to the fine were: i) Reports, records or inventories, Article 306 of Law #4 of Controlled Substances Puerto Rico, as amended – the quarter (monthly) report(s) for Schedule III-IV products, required additional details, such as expiration date of the product, lot number of the product and invoice number of Teva and the customer to be added to the quarter report Teva was already providing monthly to Zodiac; ii) Chapter 2, Article 3, Paragraph 5 of Regulation #153 of the Secretary of Health on Controlled Substances for control of the manufacture, distribution and disposal of controlled substances. This requires Teva to provide daily reports for any Schedule II products shipped to customers in Puerto Rico. The daily reports for Schedule II products must include all information required on the quarter report (see observation i), along with a copy of form SC-1509 (see observation iii). This information is to be forwarded to Zodiac and the Puerto Rico Department of Health for all Schedule II products shipped into Puerto Rico by Teva; and iii) Article 307 (A), the Controlled Substances Law 4 – the absence/lack of the SC-1509 form by a client company in Puerto Rico.

Once the fine was issued and Teva was made aware of the deficiencies in record keeping requirements and controlled substance reporting requirements, all shipments to Puerto Rico were stopped. Zodiac on behalf of Teva immediately paid the \$2,400.00 fine to the Puerto Rico Department of Health on August 31, 2016. Teva is now complying with the requirements and will ensure moving forward that it is compliant with the laws of Puerto Rico through Zodiac and other firms who are continuously reviewing any changes in the laws.

Attached is a copy of the Administrative Inspection Review. Puerto Rico does not provide translations of its documents or reports. For your convenience, attached is a copy of the English translation.

I will forward you an email and/or FedEx'd letter confirming the exact date of the change, when it has been determined and finalized by our Tax Department.

In connection with the upcoming change, attached please find change of ownership applications, for the above referenced facilities, along with checks in the amount of \$500.00 to cover the fees.

Please be advised that this change is not due to an acquisition, merger or sale of Teva Pharmaceuticals USA, Inc. by a third party, but simply due to an internal reorganization/restructuring, where Teva Pharmaceuticals USA, Inc.'s parent company (direct shareholder) will be changed from Orvet UK to Teva Holdco US, Inc. On or about 11/2/2020, Orvet UK will transfer the stock it owns in Teva Pharmaceuticals USA, Inc. to Teva Holdco US, Inc., which will become the direct parent company (direct shareholder) of Teva Pharmaceuticals USA, Inc. Orvet UK is also the direct parent company (direct shareholder) of Teva Holdco US, Inc.

Other than the reorganization/restructuring of the direct parent company (direct shareholder), there will be no other changes made to any of the licensed facilities, officers, directors, facility managers, DRs, DR Supervisors, SOPs, DEA licenses, etc. Teva Pharmaceuticals USA, Inc.'s corporate status and FEIN will not change. In addition, the Pennsylvania Department of Health has been advised of the internal reorganization/restructuring and will not be issuing new licenses to the facilities.

I appreciate your assistance with this matter! If you have any questions or would like to discuss further, please contact me at 215-370-8472. Thank you!

Very truly yours,

Regarding the Disciplinary Actions

In February 2009, Teva Pharmaceuticals USA, Inc.'s (TUSA) North Wales, PA location had its Application for Out-of-State Wholesaler Registration denied by the Colorado State Board of Pharmacy (Board) due to lapse of the facility's previously-held license in the State. The Board subsequently issued a Cease and Desist Order to TUSA, banning further shipments from the facility into Colorado pending matter resolution.

TUSA worked quickly to resolve the matter by entering into a stipulation with the Board, acknowledging its improper shipment on December 11, 2008 of pharmaceutical product into the State without a valid license, in violation of applicable Colorado statutes, and paid a \$5,000.00 fine. The Board subsequently issued TUSA an Out-of-State Wholesaler Registration on February 10, 2009, which has since been properly maintained and is currently in good standing.

Enclosed are copies of the Cease and Desist Order and Stipulation and Final Agency Order.

On August 24, 2016, Zodiac Distributors, Corp.'s ("Zodiac") facility located at Calle I Metro Park #7 Suite 204, Guaynabo, Puerto Rico 00968 was inspected by the Puerto Rico Department of Health. Zodiac serves as TUSA's Puerto Rico license (license #: MA-00233-7) registered agent/distributor in Puerto Rico for product registrations, license applications and renewals and compliance agent for the law's regulating product registrations, licensing and controlled substance requirements. During this inspection, the inspector noted that Zodiac was deficient in certain areas of its record keeping requirements for TUSA products, as required by the laws of the Puerto Rico. As such, Zodiac/TUSA was fined a total of \$2,400 for three (3) record-keeping infractions on August 24, 2016. The observations leading to the fine were: i) Reports, records or inventories, Article 306 of Law #4 of Controlled Substances Puerto Rico, as amended — the quarter (monthly) report(s) for Schedule III-IV products, required additional details, such as expiration date of the product, lot number of the product and invoice number of TUSA and the customer to be added to the quarter report TUSA was already providing monthly to Zodiac; ii) Chapter 2, Article 3, Paragraph 5 of Regulation #153 of the Secretary of Health on Controlled Substances for control of the manufacture, distribution and disposal of controlled substances. This requires TUSA to provide daily reports for any Schedule II products shipped to customers in Puerto Rico. The daily reports for Schedule II products must include all information required on the quarter report (see observation i), along with a copy of form SC-1509 (see observation iii). This information is to be forwarded to Zodiac and the Puerto Rico Department of Health for all Schedule II products shipped into Puerto Rico by TUSA; and iii) Article 307 (A), the Controlled Substances Law' 4 — the absence/lack of the SC-1509 form by a client company in Puerto Rico.

Once the fine was issued and TUSA was made aware of the deficiencies in record keeping requirements and controlled substance reporting requirements, all shipments to Puerto Rico were stopped. Zodiac on behalf of TUSA immediately paid the \$2,400.00 fine to the Puerto Rico Department of Health on August 31, 2016. TUSA is now complying with the requirements and will ensure moving forward that it is compliant with the laws of Puerto Rico through Zodiac and other firms who are continuously reviewing any changes in the laws.

Attached is a copy of the Administrative Inspection Review. Puerto Rico does not provide translations of its documents or reports. For your convenience, attached is a copy of the English translation.

Please be advised that in February 2009, the State Board of Pharmacy of Colorado initially denied the application of Teva Pharmaceuticals USA, Inc. ("Teva") for an Out-of-State Wholesaler Registration for Teva's distribution facility located at 1090 Horsham Road, North Wales, Pennsylvania. Colorado also issued an order that Teva should cease and desist further shipments from that site into Colorado until this was resolved. Teva had been previously licensed by Colorado at the North Wales facility but that license had lapsed.

Teva quickly resolved this matter by entering into a stipulation with Colorado acknowledging its improper shipment on December 11, 2008 of pharmaceutical product into the State without a license, in violation of applicable Colorado Statutes, along with the payment of a \$5,000 fine. The Colorado Board of Pharmacy then promptly issued Teva an Out-of-State Wholesaler Registration on February 10, 2009, which is currently valid and in effect.

Enclosed for your information are copies of the above referenced Cease and Desist Order, Stipulation and Final Agency Order as well as the newly issued and active Out-of-State Wholesaler Registration for the North Wales facility.

RE: Case 2009-2512 against Teva Pharmaceuticals USA

Dear Designated Representative:

Pursuant to guidance established at its January 15, 2009 meeting, the Colorado State Board of Pharmacy ("Board") determined that on or around December 11, 2008, the aforementioned wholesaler distributed prescription drugs into Colorado without an Out of State Prescription Drug Wholesaler registration issued by the Board.

It was the decision of the Board to issue the attached Cease and Desist Order in this case.

You may request a hearing on the question of whether the described practices have occurred and are in violation of this article. Pursuant to Section CRS 12-22-125.2(9)(b), any such request must be made within ten (10) days of the date of your receipt of this Order. If no hearing is requested, this Order becomes a Final Agency Order of the Board.

If you wish to pursue obtaining an Out of State Prescription Drug Wholesaler registration from the Board, please complete and submit the enclosed application and required fee.

Please contact me at (303) 894 - 7754 or wendy.anderson@dora.state.co.us if you have any questions.

(II) The lawful rules of the board; or

(III) Any state or federal law pertaining to drugs.

12-22-125.2. Disciplinary actions. (1) The board may deny or discipline an applicant, licensee, or registrant when the board determines that such applicant, licensee, or registrant has engaged in activities that are grounds for discipline.

. . .

12-22-802. Wholesaler license requirements. (1) A wholesaler that resides in this state shall be licensed by the board. A wholesaler that does not reside in this state shall be licensed in this state prior to engaging in the wholesale distribution of prescription drugs in this state. The board shall exempt a manufacturer and that manufacturer's third-party logistics providers to the extent involving that manufacturer's drugs under contract from any licensing qualifications and other requirements, including the requirements in subparagraphs (VI) and (VII) of paragraph (a) of subsection (3) of this section, subsections (4) to (6) of this section, and section 12-22-803, to the extent the requirements are not required by federal law or regulation, unless the particular requirements are deemed necessary and appropriate following rulemaking by the board.

. . .

5. On January 27, 2009, Wholesaler Applicant submitted an out-of-state wholesaler application, which application was denied by the Board.
6. The Board finds and concludes, and Wholesaler Applicant agrees, that based upon Wholesaler Applicant's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances as a condition of its registration as an out-of-state wholesaler.

DISPOSITION

**Conditional Registration;
\$5,000.00 Fine and Terms**

7. **Conditional Registration.** Wholesaler Applicant shall be granted a registration as an out-of-state wholesaler upon execution of this Final Agency Order and satisfaction of the terms and conditions set forth herein.

8. **Fine with Surcharge.** Wholesaler Applicant accepts the following discipline: Pursuant to §12-22-125.2(5), C.R.S., Wholesaler Applicant shall pay a fine of Five Thousand Dollars and No Cents (\$5,000.00). Wholesaler Applicant understands and acknowledges, pursuant to §24-34-108, C.R.S., that the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 15% of this fine. Wholesaler Applicant shall therefore pay a total amount of Five Thousand, Seven Hundred Fifty Dollars and No Cents (\$5,750.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Wholesaler Applicant submits this signed Final Agency Order to the Board.
9. **Compliance.** Wholesaler Applicant shall at all times remain in compliance with §§12-22-801, *et seq.* C.R.S. and shall not at any time distribute prescription drugs into Colorado without being registered as an out-of-state wholesaler in the State of Colorado at the time of distribution.
10. **Advisements and Waivers.** Wholesaler Applicant enters into this Final Agency Order freely and voluntarily, whether or not Wholesaler Applicant has consulted with legal counsel. Wholesaler Applicant acknowledges its understanding that it has the following rights:
- a. To have a formal notice of hearing and charges served upon it;
 - b. To respond to said formal notice of charges;
 - c. To have a formal disciplinary hearing pursuant to §12-22-125, C.R.S.; and
 - d. To appeal this Board order.
- Wholesaler Applicant freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for Board's limiting the action taken against it to the sanctions imposed herein.
11. **Acknowledgments.** The undersigned authorized agent of Wholesaler Applicant has read this Final Agency Order in its entirety and acknowledges, whether or not Wholesaler Applicant has consulted with legal counsel, that Wholesaler Applicant understands the legal consequences and agrees that none of the terms or conditions herein are unconscionable.
12. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Wholesaler Applicant to take all appropriate steps to comply fully with this Final Agency Order. Wholesaler Applicant acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Wholesaler Applicant to comply with all terms and conditions of this Final Agency Order.

13. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.
14. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.
15. **Effective Date.** This Final Agency Order shall become effective upon signature of a Board member or representative.

Dear Nevada Board of Pharmacy,

In regards to charge in South Carolina; I was a passenger in a car with 5 people that was pulled over and there was an illegal substance in the car and since they could not identify whose substance it was all 5 people were charged with procession. This does not condone what happened but times were a bit different back then. Other traffic charges have been served.

Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, *Entity Classification Election*. See Form 8832 and its instructions for additional information.

State Board of Pharmacy
State of Nevada

In October 2011 I received a DWI in the State of Arkansas where I had resided for over 40 years. At that time, I was an Insurance Agency Owner licensed by the State of Arkansas. I had attended dinner with company reps that we did business with. We ate at JJ's Sports Bar and Grill which I had dinner and drinks which consisted of Miller Lite. At approximately 8:30 pm I left the restaurant and observed police officers in their vehicle in the parking lot. As I was driving out of parking lot on to the main road the officer's followed me. They followed me for about ½ a mile and pulled me over. They informed me that they had reason to believe I had been drinking. I said that I had some beers with dinner and that they saw me when I left the establishment. They wanted to do a breathalyzer on me which I was fine with. To accomplish this, I had to be taken in for the test. They offered to park my car for me instead of towing it due to me being so cooperative. I performed the test and registered .09 which I thought was fine due to the law was 1.0. I was then told the law had just changed and it was now .08. I received the DWI and performed everything that was asked of me. This included fines, classes and community service which I completed. I have never been in trouble and had not had a speeding ticket in 25 years. My attorney told me that it would be fine that it was a misdemeanor just like getting a parking ticket. I did plead guilty due to the fact that I had drinks at dinner, and I did register over the legal limit. I appreciate your consideration in our License application. I am available for any questions you might have about this incident.

Thank you,

7 concerning Respondent's work status, performance, and monitoring. Failure to comply with the
8 requirements or deadlines of this condition shall be considered a violation of probation.

15 role described in (a), (b), or (c), the acknowledgment shall so state. It shall be the Respondent's
16 responsibility to ensure that these acknowledgment(s) are timely submitted to the board. In the
17 event of a change in the person(s) serving the role(s) described in (a), (b), or (c) during the term
18 of probation, Respondent shall cause the person(s) taking over the role(s) to report to the board in
19 writing within fifteen (15) days of the change acknowledging that he or she has read the decision
20 in case number 6239, and the terms and conditions imposed thereby.

1 service to report to the board in writing acknowledging that he or she has read the decision in case
 2 number, and the terms and conditions imposed thereby. It shall be Respondent's responsibility to
 3 ensure that these acknowledgment(s) are timely submitted to the board.

4 • Failure to timely notify present or prospective employer(s) or failure to cause the identified
 5 person(s) with that/those employer(s) to submit timely written acknowledgments to the board

7 "Employment" within the meaning of this provision includes any full-time, part-time,
 8 temporary, relief, or employment/management service position as a Pharmacist, or any position
 9 for which a Pharmacist is a requirement or criterion for employment, whether the Respondent is

 15 number shall be considered a violation of probation.

16 **9. Restrictions on Supervision and Oversight of Licensed Facilities –**

17 During the period of probation, Respondent shall not supervise any intern pharmacist, be
 18 the pharmacist-in-charge, designated representative-in-charge, responsible manager or other
 19 compliance supervisor of any entity licensed by the board, nor serve as a consultant. Assumption
 20 of any such unauthorized supervision responsibilities shall be considered a violation of probation.

21 **10. Reimbursement of Board Costs**

22 As a condition precedent to successful completion of probation, Respondent shall pay to the
 23 board its costs of investigation and prosecution in the amount of \$ 4,081.00. Respondent shall
 24 make said payments as follows:

25 There shall be no deviation from this schedule absent prior written approval by the board or
 26 its designee. Failure to pay costs by the deadline(s) as directed shall be considered a violation of
 27 probation.

28 ///

1 Respondent shall be permitted to pay these costs in a payment plan approved by the board
2 or its designee, so long as full payment is completed no later than one (1) year prior to the end
3 date of probation.

4 **11. Probation Monitoring Costs**

5 Respondent shall pay any costs associated with probation monitoring as determined by the
6 board each and every year of probation. Such costs shall be payable to the board on a schedule as
7 directed by the board or its designee. Failure to pay such costs by the deadline(s) as directed shall
8 be considered a violation of probation.

9 **12. Status of License**

10 Respondent shall, at all times while on probation, maintain an active, current Pharmacist
11 License with the board, including any period during which suspension or probation is tolled.
12 Failure to maintain an active, current Pharmacist License shall be considered a violation of
13 probation.

14 If Respondent's Pharmacist License expires or is cancelled by operation of law or otherwise
15 at any time during the period of probation, including any extensions thereof due to tolling or
16 otherwise, upon renewal or reapplication Respondent's license shall be subject to all terms and
17 conditions of this probation not previously satisfied.

18 **13. License Surrender While on Probation/Suspension**

19 Following the effective date of this decision, should Respondent cease practice due to
20 retirement or health, or be otherwise unable to satisfy the terms and conditions of probation,
21 Respondent may relinquish her license, including any indicia of licensure issued by the board,
22 along with a request to surrender the license. The board or its designee shall have the discretion
23 whether to accept the surrender or take any other action it deems appropriate and reasonable.
24 Upon formal acceptance of the surrender of the license, Respondent will no longer be subject to
25 the terms and conditions of probation. This surrender constitutes a record of discipline and shall
26 become a part of the Respondent's license history with the board.

27 Upon acceptance of the surrender, Respondent shall relinquish her pocket and/or wall
28 license, including any indicia of licensure not previously provided to the board within ten (10)

1 days of notification by the board that the surrender is accepted if not already provided.
2 Respondent may not reapply for any license from the board for three (3) years from the effective
3 date of the surrender. Respondent shall meet all requirements applicable to the license sought as
4 of the date the application for that license is submitted to the board, including any outstanding
5 costs.

6 **14. Practice Requirement – Extension of Probation**

7 Except during periods of suspension, Respondent shall, at all times while on probation, be
8 employed as a Pharmacist in California for a minimum of 80 hours per calendar month. Any
9 month during which this minimum is not met shall extend the period of probation by one month.
10 During any such period of insufficient employment, Respondent must nonetheless comply with
11 all terms and conditions of probation, unless Respondent receives a waiver in writing from the
12 board or its designee.

13 If Respondent does not practice as a Pharmacist in California for the minimum number of
14 hours in any calendar month, for any reason (including vacation), Respondent shall notify the
15 board in writing within ten (10) days of the conclusion of that calendar month. This notification
16 shall include at least: the date(s), location(s), and hours of last practice; the reason(s) for the
17 interruption or reduction in practice; and the anticipated date(s) on which Respondent will resume
18 practice at the required level. Respondent shall further notify the board in writing within ten (10)
19 days following the next calendar month during which Respondent practices as a Pharmacist in
20 California for the minimum of hours. Any failure to timely provide such notification(s) shall be
21 considered a violation of probation.

22 It is a violation of probation for Respondent's probation to be extended pursuant to the
23 provisions of this condition for a total period, counting consecutive and non-consecutive months,
24 exceeding thirty-six (36) months. The board or its designee may post a notice of the extended
25 probation period on its website.

26 **15. Violation of Probation**

27 If Respondent has not complied with any term or condition of probation, the board shall
28 have continuing jurisdiction over Respondent, and the board shall provide notice to Respondent

1 that probation shall automatically be extended, until all terms and conditions have been satisfied
2 or the board has taken other action as deemed appropriate to treat the failure to comply as a
3 violation of probation, to terminate probation, and to impose the penalty that was stayed. The
4 board or its designee may post a notice of the extended probation period on its website.

5 If Respondent violates probation in any respect, the board, after giving Respondent notice
6 and an opportunity to be heard, may revoke probation and carry out the disciplinary order that
7 was stayed. If a petition to revoke probation or an accusation is filed against Respondent during
8 probation, or the preparation of an accusation or petition to revoke probation is requested from
9 the Office of the Attorney General, the board shall have continuing jurisdiction and the period of
10 probation shall be automatically extended until the petition to revoke probation or accusation is
11 heard and decided.

12 **16. Completion of Probation**

13 Upon written notice by the board or its designee indicating successful completion of
14 probation, Respondent's license will be fully restored.

15 **17. Remedial Education**

16 Within ninety (90) days of the effective date of this decision, Respondent shall submit to
17 the board or its designee, for prior approval, an appropriate program of remedial education related
18 to prescription drug abuse and pharmacy security and controls. The program of remedial
19 education shall consist of at least ten (10) hours, which shall be completed within every year at
20 Respondent's own expense. Fifty percent of the training must be in-person training. All remedial
21 education shall be in addition to, and shall not be credited toward, continuing education (CE)
22 courses used for license renewal purposes for pharmacists.

23 Failure to timely submit for approval or complete the approved remedial education shall be
24 considered a violation of probation. The period of probation will be automatically extended until
25 such remedial education is successfully completed and written proof, in a form acceptable to the
26 board, is provided to the board or its designee.

27 Following the completion of each course, the board or its designee may require the
28 Respondent, at her own expense, to take an approved examination to test the Respondent's

1 knowledge of the course. If the Respondent does not achieve a passing score on the examination
 2 that course shall not count towards satisfaction of this term. Respondent shall take another course
 3 approved by the board in the same subject area.

4 18. Ethics Course

5 Within sixty (60) calendar days of the effective date of this decision, Respondent shall
 6 enroll in a course in ethics, at Respondent's expense, approved in advance by the board or its
 7 designee that complies with Title 16 California Code of Regulations section 1773.5. Respondent
 8 shall provide proof of enrollment upon request. Within five (5) days of completion, Respondent
 9 shall submit a copy of the certificate of completion to the board or its designee. Failure to timely
 10 enroll in an approved ethics course, to initiate the course during the first year of probation, to
 11 successfully complete it before the end of the second year of probation, or to timely submit proof
 12 of completion to the board or its designee, shall be considered a violation of probation.

13 19. Supervised Practice

14 As part of probation, Respondent shall be subject to supervised practice for two years
 15 effective the date of this decision. Within thirty (30) days of the effective date of this decision,
 16 Respondent shall submit to the board or its designee, for prior approval, the name of a Pharmacist
 17 by and not on probation with the board, to serve as Respondent's practice supervisor. As part of
 18 the documentation submitted, Respondent shall cause the proposed practice supervisor to report
 19 to the board in writing acknowledging that he or she has read the decision in case number 6239,
 20 and is familiar with the terms and conditions imposed thereby, including the level of supervision
 21 required by the board or its designee. This level will be determined by the board or its designee,
 22 will be communicated to the Respondent on or before the effective date of this decision and shall
 23 be one of the following:

25 Substantial - At least 50% of a work week

26 Partial - At least 25% of a work week

27 Daily Review - Supervisor's review of probationer's daily activities within 24 hours
 28

Respondent may practice only under the required level of supervision by an approved practice supervisor. If, for any reason, including change of employment, Respondent is no longer supervised at the required level by an approved practice supervisor, within ten (10) days of this change in supervision Respondent shall submit to the board or its designee, for prior approval, the name of a Pharmacist by and not on probation with the board, to serve as Respondent's replacement practice supervisor. As part of the documentation submitted, Respondent shall cause the proposed replacement practice supervisor to report to the board in writing acknowledging that he or she has read the decision in case number 6239, and is familiar with the terms and conditions imposed thereby, including the level of supervision required.

Any of the following shall result in the automatic suspension of practice by a Respondent and shall be considered a violation of probation:

Failure to nominate an initial practice supervisor, and to have that practice supervisor report to the board in writing acknowledging the decision, terms and conditions, and supervision level, within thirty (30) days;

Failure to nominate a replacement practice supervisor, and to have that practice supervisor report to the board in writing acknowledging the decision, terms and conditions, and supervision level, within ten (10) days;

Practicing in the absence of an approved practice supervisor beyond the initial or replacement nomination period; or

Any failure to adhere to the required level of supervision.

Respondent shall not resume practice until notified in writing by the board or its designee.

During any suspension, Respondent shall not enter any pharmacy area or any portion of the licensed premises of a wholesaler, third-party logistics provider, veterinary food-animal drug retailer or any other distributor of drugs which is licensed by the board, or any manufacturer, or any area where dangerous drugs and/or dangerous devices or controlled substances are maintained. Respondent shall not practice pharmacy nor do any act involving drug selection, selection of stock, manufacturing, compounding, dispensing or patient consultation; nor shall Respondent manage, administer, or be a consultant to any licensee of the board, or have access to

1 or control the ordering, distributing, manufacturing or dispensing of dangerous drugs and/or
2 dangerous devices or controlled substances.

3 During any suspension, Respondent shall not engage in any activity that requires the
4 professional judgment and/or licensure as a Pharmacist. Respondent shall not direct or control
5 any aspect of the practice of pharmacy or of the manufacture, distribution, wholesaling, or
6 retailing of dangerous drugs and/or dangerous devices or controlled substances.

7 **20. No Ownership or Management of Licensed Premises**

8 Respondent shall not own, have any legal or beneficial interest in, nor serve as a manager,
9 administrator, member, officer, director, trustee, associate, or partner of any business, firm,
10 partnership, or corporation currently or hereinafter licensed by the board. Respondent shall sell
11 or transfer any legal or beneficial interest in any entity licensed by the board within ninety (90)
12 days following the effective date of this decision and shall immediately thereafter provide written
13 proof thereof to the board. Failure to timely divest any legal or beneficial interest(s) or provide
14 documentation thereof shall be considered a violation of probation.

Dr. C.A. Prescriptions.

26. From January 2, 2013 through April 2, 2013, Nimesh Patel, Zarina Qutubuddin and Riverwalk Pharmacy filled prescriptions for controlled substances which were written by Dr. C.A. whose address was listed on the prescriptions as being 60 miles away from Riverwalk Pharmacy. Patients paid for the controlled substance prescriptions in cash and did not seek reimbursement from an insurance company or government agency. Nimesh Patel, Zarina Qutubuddin and Riverwalk Pharmacy dispensed controlled substances to multiple patients on the same day.

1 27. Dr. C.A. wrote these prescriptions for the same controlled substances of high abuse
2 and diversion potential to multiple patients as follows: (1) promethazine with codeine, 480ml (full
3 pint size); (2) alprazolam 2 mg in a quantity of 90; and (3) oxycodone 30mg in a quantity of 180.
4 Only two dangerous drugs were prescribed along with these controlled substances and prescribed
5 dosages of those dangerous drugs was well below the recommended doses for patients requiring
6 potent opioids such as oxycodone. There was no adjustment in the prescribing pattern for sex,
7 age, weight, renal or hepatic function, race, diagnosis, past medications used or any other patient
8 related factor.

9 28. None of the "patients" being treated by Dr. C.A. were receiving a long acting pain
10 medication to control their baseline pain. Dr. C.A. prescribed only the highest dosage of
11 oxycodone without prescribing a lower strength and increasing the strength as needed. Many
12 patients were prescribed both oxycodone and promethazine with codeine which when combined,
13 increases the risk of respiratory depression. No antibiotics or respiratory medications were
14 prescribed along with the promethazine with codeine. Dr. C.A. used the same diagnosis for
15 multiple patients.

16 29. On March 27, 2013, Nimesh Patel reported to the Drug Enforcement Administration
17 that he suspected Dr. C.A. of issuing illegitimate prescriptions.

18 30. On or about December 15, 2014, The Medical Board of California filed an accusation
19 against Dr. C.A. for gross negligence, repeated negligent acts, incompetence, dishonest or corrupt
20 acts, prescribing to addicts, prescribing without performing physical examination or medical
21 indication or both, record keeping violations, excessive prescribing, violations of drug statutes
22 and unprofessional conduct.

23 **Dr. K.T. Prescriptions:**

24 31. From August 3, 2013 through March 11, 2014, Nimesh Patel, Zarina Qutubuddin and
25 Riverwalk Pharmacy filled prescriptions for controlled substances which were written by Dr. K.T.
26 whose addresses were listed on the prescriptions as being 30 and 70 miles away from Riverwalk
27 Pharmacy. Patients paid for the controlled substance prescriptions in cash (sometimes hundreds
28

1 of dollars) at Riverwalk Pharmacy and did not seek reimbursement from an insurance company or
2 government agency.

3 32. Dr. K.T. wrote these prescriptions for many of the same patients that Nimesh Patel
4 reported were issued suspect prescriptions by Dr. C.A. Nimesh Patel, Zarina Qutubuddin and
5 Riverwalk Pharmacy dispensed similar or identical prescriptions written by Dr. K.T. to multiple
6 patients on the same day.

7 33. Dr. K.T. wrote these prescriptions for controlled substances of high abuse and
8 diversion potential to multiple patients as follows: (1) promethazine with codeine in a quantity of
9 480ml (full pint size); (2) carisoprodol 35mg in a quantity of 30; (3) oxycodone 30mg in a
10 quantity of 180; and (4) hydrocodone/APAP 10/325 in a quantity of 120. There was no
11 adjustment in the prescribing pattern for sex, age, weight, renal or hepatic function, race,
12 diagnosis, past medications used or any other patient related factor.

13 34. None of the "patients" being treated by Dr. K.T. were receiving a long acting pain
14 medication to control their baseline pain. Dr. K.T. prescribed only the highest dosage of
15 oxycodone without prescribing a lower strength and increasing the strength as needed. Many
16 patients were prescribed both oxycodone or Norco and promethazine with codeine which when
17 combined, increases the risk of respiratory depression. The majority of prescriptions for
18 promethazine with codeine were written without a corresponding prescription for an antibiotic.
19 The majority of the "patients" were given the same diagnosis by Dr. K.T.

20 35. Riverwalk Pharmacy and Nimesh Patel charged three times the acquisition cost of
21 oxycodone, twenty-five times the acquisition cost of promethazine with codeine and eight times
22 the acquisition cost of hydrocodone/APAP.

23 **PA S.D. Prescriptions:**

24 36. From December 19, 2013 through February 6, 2015, Nimesh Patel, Zarina
25 Qutubuddin, Ruth Magalit and Riverwalk Pharmacy filled prescriptions for controlled substances
26 which were written by physician assistant, S.D. whose address was listed on the prescriptions as
27 being 30 miles away from Riverwalk Pharmacy. Patients paid for the controlled substance
28

1 prescriptions in cash and did not seek reimbursement from an insurance company or government
2 agency.

3 37. PA S.D. wrote these prescriptions for many of the same patients that Nimesh Patel
4 reported were issued suspect prescriptions by Dr. C.A. Nimesh Patel, Zarina Qutubuddin and
5 Riverwalk Pharmacy dispensed similar or identical prescriptions written by PA S.D. to multiple
6 patients on the same day, all of which received oxycodone.

7 38. PA S.D. wrote these prescriptions for controlled substances of high abuse and
8 diversion potential for multiple patients as follows: (1) promethazine with codeine in a quantity of
9 480ml (full pint size); (2) oxycodone 30mg in a quantity of 180; and (3) hydrocodone/APAP
10 10/325 in a quantity of 120. There was no adjustment in the prescribing pattern for sex, age,
11 weight, renal or hepatic function, race, diagnosis, past medications used or any other patient
12 related factor. The majority of these patients were prescribed both promethazine with codeine and
13 oxycodone.

14 39. None of the "patients" being treated by PA S.D. were receiving a long acting pain
15 medication to control their baseline pain. PA S.D. prescribed only the highest dosage of
16 oxycodone without prescribing a lower strength and increasing the strength as needed. Dangerous
17 drugs were prescribed, along with opioids but in doses commonly considered to be less than
18 therapeutic for this class of patients. Many patients were prescribed both oxycodone and
19 promethazine with codeine which when combined, increases the risk of respiratory depression.
20 PA S.D. diagnosed the majority of patients with the same condition.

21 **Dr. S.K. Prescriptions:**

22 40. From May 14, 2014 through July 3, 2015, Nimesh Patel, Ruth Magalit, Zarina
23 Qutubuddin and Riverwalk Pharmacy filled prescriptions for controlled substances which were
24 written by Dr. S.K. whose addresses were listed on the prescriptions as being 30 and 70 miles
25 away from Riverwalk Pharmacy and areas of practice are listed as internal medicine, family
26 medicine and complementary and alternative medicine. Patients paid for the controlled substance
27 prescriptions in cash (sometimes for hundreds of dollars) and did not seek reimbursement from an
28 insurance company or government agency.

1 41. Dr. S.K. wrote these prescriptions for many of the same patients that Nimesh Patel
2 reported were issued suspect prescriptions by Dr. C.A. Nimesh Patel, Zarina Qutubuddin and
3 Riverwalk Pharmacy dispensed similar or identical prescriptions written by Dr. S.K. to multiple
4 patients on the same day.

5 42. Dr. S.K. wrote these prescriptions for controlled substances of high abuse and
6 diversion potential to multiple patients as follows: (1) promethazine with codeine in a quantity of
7 480ml (pint size); (2) oxycodone 30mg in a quantity of 180; and (3) hydrocodone/APAP 10/325
8 in a quantity of 120. There was no adjustment in the prescribing pattern for sex, age, weight,
9 renal or hepatic function, race, diagnosis, past medications used or any other patient related factor.

10 43. None of the "patients" being treated by Dr. S.K. were receiving a long acting pain
11 medication to control their baseline pain. Dr. S.K. prescribed only the strongest dosage of
12 oxycodone without prescribing a lower strength and increasing the strength as needed. The doses
13 of dangerous drugs prescribed by S.K., along with opioids, were well below the recommended
14 doses for patients requiring potent opioids. Many patients were prescribed both oxycodone and
15 promethazine with codeine which when combined, increases the risk of respiratory depression.
16 The majority of patients received the same diagnosis from Dr. S.K.

17 **Dr. R.G. Prescriptions:**

18 44. From February 3, 2015 through June 29, 2016, Nimesh Patel, Ruth Magalit, Zarina
19 Qutubuddin and Riverwalk Pharmacy filled prescriptions for controlled substances which were
20 written by Dr. R.G. whose address was listed on the prescriptions as being 30 miles away from
21 Riverwalk Pharmacy. Patients paid for the controlled substance prescriptions primarily in cash
22 and did not seek reimbursement from an insurance company or government agency.

23 45. Dr. R.G. wrote these prescriptions for many of the same patients that Nimesh Patel
24 reported were issued suspect prescriptions by Dr. C.A. Respondents dispensed similar or
25 identical prescriptions written by Dr. R.G. to multiple patients on the same day, all of which
26 received oxycodone.

27 46. Dr. R.G. wrote these prescriptions for controlled substances of high abuse and
28 diversion potential to multiple patients as follows: (1) promethazine with codeine in a quantity of

1 480ml (full pint size); (2) oxycodone 30mg in a quantity of 180; and (3) hydrocodone/APAP
2 10/325 in a quantity of 120. There was no adjustment in the prescribing pattern for sex, age,
3 weight, renal or hepatic function, race, diagnosis, past medications used or any other patient
4 related factor.

5 47. None of the "patients" being treated by Dr. R.G. were receiving a long acting pain
6 medication to control their baseline pain. Dr. R.G. prescribed only the highest dosage of
7 oxycodone without prescribing a lower strength and increasing the strength as needed. Many
8 patients were prescribed both oxycodone and promethazine with codeine which when combined,
9 increases the risk of respiratory depression. A dangerous drug was prescribed along with an
10 opioid but in a lower dose than required for patients receiving potent opioids. The majority of
11 patients received the same diagnosis from Dr. R.G.

12 48. From September 2, 2014 through September 27, 2016, Respondents dispensed
13 controlled substances pursuant to prescriptions which were written by Dr. R.G., PA S.D., Dr. S.K.
14 and Dr. G.B. on non-compliant prescription forms missing such required security elements as a
15 watermark printed on the backside of the prescription blank entitled "California Security
16 Prescription," an identifying number assigned to an approved security printer by the Department
17 of Justice, a lot number printed on the form and each form within that batch numbered
18 sequentially and check off boxes. Nimesh Patel dispensed controlled substances in connection
19 with a prescription written by Dr. L.W. (Number 2010610) but dispensed in the name of Dr. R.G.

Re: Explanation of Disciplinary Action

Dear Nevada Board of Pharmacy:

My name is Doan Van Tran (NABP e-Profile ID # 664435). On December 9, 2014, I sat for the NAPLEX at the Pearson Center in Anaheim, CA. During the break, I was feeling dizzy and made the honest mistake of leaving the building to grab a bag of candy and bottle of water from my car. Due to the dizziness from low blood sugar and the stress of the exam, I did not realize what I had done was wrong at the time. As soon as I returned to the testing room, I answered the test proctor truthfully about what I had done because I had nothing to hide and know that I did not compromise the integrity of the exam in any manner. However, now I realize that what I did was against testing policies, and for that I am truly sorry for this honest mistake.

I have attached both copies of the letters from the California Board of Pharmacy as well as from NABP on this matter for your review.

Sincerely,

Doan Van Tran

Dear Doan Van Tran,

The National Association of Boards of Pharmacy[®] (NABP[®]) records indicate that on December 9, 2014 you attended the North American Pharmacist Licensure Examination[®] (NAPLEX[®]) for the state of California. The testing center administrator, Pearson VUE, provided NABP with an incident report stating that you were observed leaving the test building during your examination appointment.

NABP has reviewed the statement you provided as well as the incident report from the testing center administrator. NABP has determined that you engaged in misconduct during your examination appointment. Before the examination started, you read and agreed to the terms of the Non-Disclosure and Examinee Conduct Agreement for NABP examination programs. Specifically, you confirmed that you read and understood the contents of the, *NAPLEX/MPJE Candidate Registration Bulletin* and you would comply with all expectations for examinee conduct. Please refer to page 17 of the *NAPLEX/MPJE Candidate Registration Bulletin* for additional details.

Individuals, who engage in any of the following misconduct or exhibit any of the following behaviors during their examination appointment session, may be subject to one or more of the actions listed in the "Actions" subsection of this bulletin, below. The examination appointment session begins when the candidate is checked into the test center, and includes scheduled and non-scheduled breaks, and ends when the candidate is dismissed from the center.

Misconduct during examination

- **Leave the testing center for any reason.**

Actions

If NABP obtains information that an individual has engaged in any misconduct as defined in the bulletin, NABP in its sole discretion may take one or more actions but not limited to:

- **Invalidation/cancellation of examination score**

Based upon the violation of the misconduct policy, NABP has invalidated/cancelled your NAPLEX score. If you wish to test again, NABP requires you submit a new registration form and fees, and a state board of pharmacy must reconfirm your eligibility. Please note that candidates must wait 91 days from the date of their examination before they are allowed to retake the NAPLEX. The *NAPLEX/MPJE Candidate Registration Bulletin* contains complete details regarding the application process, and it may be viewed at www.nabp.net.

Re: Explanation of Misdemeanor

Violation: VC 20002 (a) - Misdemeanor vehicle hit and run
Accident Date: 9/28/1999
Location: Santa Ana, CA
Penalty: 3 years Informal probation and 3 months house arrest

Dear Nevada Board of Pharmacy Representative,

I was convicted of a misdemeanor vehicle hit and run at the age of 17. At that time I was driving and did not notice the vehicle in front of me had stopped abruptly. I swerve and side swiped a vehicle on my passenger side. This being my first accident and did not have my driver license on myself at the time, I panicked and left the scene. This unfortunate mistake has taught me many invaluable life experiences and safe driving habits. Since then I have matured drastically.

Educationally, I have acquired my Bachelors of Arts from California State University of Fullerton in Sociology, minor Criminal Justice. I have recently completed a rigorous 2-year post-baccalaureate premedical program at California State University of Fullerton to obtain the proper science prerequisites to apply for pharmacy school. I graduated from Lake Erie College of Osteopathic Medicine (LECOM) on June 2014 and have obtained pharmacist licensure in the state of Florida and Texas. I am also currently practicing community pharmacy fulltime for 2.5 years at CVS Health in the state of Texas.

I have attached the pertinent court, arrest and granted expungement (penal code section 1203.4) documents as requested for your review and consideration.

Please feel free to contact me if you have any questions, concerns or need additional documents.

Thank you,

A handwritten signature in black ink, appearing to be 'Doan Van Tran', with a large, stylized initial 'D' and 'V'.

THIS DOCUMENT LISTS OBSERVATIONS MADE BY THE FDA REPRESENTATIVE(S) DURING THE INSPECTION OF YOUR FACILITY. THEY ARE INSPECTIONAL OBSERVATIONS AND DO NOT REPRESENT A FINAL AGENCY DETERMINATION REGARDING YOUR COMPLIANCE. IF YOU HAVE AN OBJECTION REGARDING AN OBSERVATION OR HAVE IMPLEMENTED, OR PLAN TO IMPLEMENT CORRECTIVE ACTION IN RESPONSE TO AN OBSERVATION, YOU MAY DISCUSS THE OBJECTION OR ACTION WITH THE FDA REPRESENTATIVE(S) DURING THE INSPECTION OR SUBMIT THIS INFORMATION TO FDA AT THE ADDRESS ABOVE IF YOU HAVE ANY QUESTIONS. PLEASE CONTACT FDA AT THE PHONE NUMBER AND ADDRESS ABOVE.

DURING AN INSPECTION OF YOUR FIRM (I) (WE) OBSERVED:

OBSERVATION 1

Written production and process control procedures are not followed in the execution of production and process control functions.

Specifically,

- Your firm failed to follow the formula worksheet for the compounding of Vancomycin HCl USP 1mg/0.1ml lot no. 03092018. Per the worksheet instructions the specified pH range should be (b) (4) however the reported pH value for this lot was 6.97. This lot was associated with two complaints your firm received on 4/2/18 for cloudiness in the drug after thawing. Your firm's investigation into these complaints attributed the observed cloudiness to vancomycin precipitating out of solution from the high pH value observed during production.
- Your firm's Quality review failed to observe this pH OOS event prior to lot release on 3/9/18.
- You did not implement adequate CAPA's to address the failure of your firm's quality unit to observe this pH OOS event.

OBSERVATION 2

There is no written testing program designed to assess the stability characteristics of drug products.

Specifically,

Your firm has not provided adequate data in the form of published literature or test studies which support the BUD/Expiration dates for products produced.

Specifically, you compound drug products that: a) are identical or nearly identical to an approved drug that is not on the drug shortage list in effect under section 506F at the time of compounding, distribution, and dispensing; or b) are not identical or nearly identical to an approved drug, but contain a bulk drug substance that is also a component of an approved drug, and for which there is no change that produces for an individual patient a clinical difference, as determined by the prescribing practitioner, between the compounded drug and the comparable approved drug. **RE: Inspectional Observations for RC Outsourcing, LLC
 FEI Number: 3011967886**

Dear Mr. Czabaniuk,

I am writing in reply to the observations made during our 503B inspection dated 01/14/19 – 01/18/19, 02/08/19. Eight (8) observations were issued at the end of the inspection on 02/08/19 and I feel confident that we have addressed all concerns.

In meetings with staff and after considering the scope of business that RC Outsourcing provides, many of the observations listed will be corrected by our decision to no longer compound sterile injectable drugs from non-sterile bulk powders. By using only FDA approved and commercially available drugs as ingredients, we will be able to align safe compounding practices more closely to the limited needs of eye clinics without risking patient access. This change in business practice is as of today.

RC Outsourcing will no longer order, nor will it use, bulk non-sterile drugs. Also, absolute alcohol and Tobramycin will no longer be compounded from

bulk substance (see attached letter). The limited compounding from bulk substances that we did do was for the convenience of our clinic customers to be used for emergencies. Since commercially available forms of these drugs are able to be ordered from wholesalers at present, we have notified our customers to stock these drugs and if needed in an emergency, they would be able to reconstitute and administer independent of any involvement by RC Outsourcing.

Since it is not possible for a 503B outsourcing facility to perform only repackaging, on the occasion that we do compound, only FDA approved and commercially available drug products will be used as the ingredients. These products are sterile and pyrogen-free and will be subject to the testing outlined in FDA's Draft Guidance dated December, 2018. Our biannual product report shows that we compounded minimal amounts to begin with and so this decision is of little consequence to our business or customers we serve.

Please see the following explanations of corrective actions taken as well as the attached documentation as evidence. I received an invoice yesterday for the cost of what is considered a re-inspection and have wired \$16,382.00 this morning. This was a surprise to us since we had felt that previous evidence of compliance with observations made during our 2017 inspection was acceptable, we were informed that our most recent 2019 inspection was routine and not a follow up to previous deficiencies, and many of the observations now received are from 2018 Draft Guidance distributed for "comment purposes only". We do not believe that "repeat observations" found during the 2019 inspection are related to those determined in 2017 or that those found in 2017 prompted our most recent inspection. I felt it best to pay the invoice and ask that you review records for accuracy.

In any event, we continue to follow a path that is in the best interest of public safety and we remain gracious for your guidance to help us ensure that we stay on this course.

Respectfully,

Ray Carlson, R.Ph.
Pharmacist/Owner
RC Outsourcing, LLC

Observation 1:

Written production and process control procedures are not followed in the execution of production and process control functions.

Specifically,

- a) Your firm failed to follow the formula worksheet for the compounding of Vancomycin HCl USP 1mg/0.1mL lot no. 03092018. Per the worksheet instructions the specified pH range should be 5.5-6.5 however the reported pH value for this lot was 6.97. This lot was associated with two complaints your firm received on 04/02/18 for cloudiness in the drug after thawing. Your firm's investigation into these complaints attributed the observed cloudiness to vancomycin precipitating out of solution from the high pH value observed during production.**
- b) Your firm's Quality review failed to observe this pH OOS event prior to lot release on 03/09/18.**
- c) You did not implement adequate CAPA's to address the failure of your firm's quality unit to observe this pH OOS event.**

Response 1:

Please see attached verification form that will be included on all compounding worksheets.

The final pH of the vancomycin solution was not detected as being out of range and so it precipitated when placed in the freezer. The resulting precipitate went back into solution once warmed.

This should not have been allowed to pass detection. We have placed a check box and corresponding verification to all our worksheets for both the compounder of the drug as well as Q/A supervisor to sign off on prior to release.

Note: There is no corrected worksheet for this product to submit since RC Outsourcing will no longer be compounding vancomycin from bulk API. Our customers have been informed that they will need to order this product from their wholesaler and stock it if they wish to have it available for emergencies.

Observation 2:

There is no written testing program designed to assess the stability characteristics of drug products.

Specifically, your firm has not provided adequate data in the form of published literature or test studies which support the BUD/Expiration dates for products produced.

- Cefuroxime 1mg/1mL syringe & 10mL vial, (45 day BUD)
- Moxifloxacin 1.5mg, 0.1mL/1mL syringe, (45 day BUD)
- Vancomycin 1mg, 2mg & 25mg, 1mL syringe & 15mL dropper (45 day BUD)

Response 2:

The BUD/Expiration dates for these products were based on USP 797 as allowed by previous FDA Guidance. We now understand that it is not sufficient to fall back on 797 for the establishment of beyond use dating for a 503B facility. RC Outsourcing will no longer be compounding the following from bulk API: moxifloxacin 1.5mg, 0.1mL/1mL syringe (45 day BUD) and vancomycin 1mg, 2mg & 25mg, 1mL syringe & 15mL dropper (45 day BUD). Our firm will also discontinue Cefuroxime 10mL vial.

From this point forward, we will continue to compound Cefuroxime 1mg/0.1mL syringes but only using FDA approved and commercially available drug products and we will follow the manufacturer's drug package insert in order to assign a 45 day expiration based on the manufacturer's frozen stability instructions (See attachment). We will conduct release batch testing according to the guidance.

Observation 3:

There is failure to thoroughly review any unexplained discrepancy whether or not the batch has been already distributed.

Specifically, your firm failed to conduct an investigation for the 70 syringe defect complaints your firm received between April 1, 2017 and December 31, 2018. Syringe defect categories included:

- bent needle
- dull needle
- clogged needle
- stuck plunger
- empty syringe

Response 3:

Our firm currently provides our customers with Continuous Quality Improvement (CQI) forms so that we may can obtain quality feedback regarding our compounded sterile products (see attached form). We recognize that we did not conduct thorough enough investigations for the complaints stated above regarding the various syringe defects. Therefore, we have formulated a Syringe Defect Investigation form that our facility will fill out for each CQI we obtain. See attached form and an update to SOP 3.9.1.1. We will send each of our clinics a copy of the updated CQI form and emphasize the usefulness of providing us photo documentation to help us best understand their complaint.

Observation 4:

Testing and release of drug product for distribution do not include appropriate laboratory determination of satisfactory conformance to the identity and strength of each active ingredient prior to release.

Specifically,

Your firm did not conduct identity and strength (potency) testing of each lot for the following drug products produced at your facility

- Cefuroxime 1mg**
- Moxifloxacin 1.5mg**
- Vancomycin 1mg**
- Vancomycin 2mg**
- Vancomycin 25mg**

In addition, the following tests were also observed not having been performed:

Testing for pH of each lot was not performed for the following sterile injectable drug product produced at your facility:

- Cefuroxime 1mg**

Testing for subvisible particulate of each lot was not performed for the following sterile injectable drug products produced at your facility:

- Cefuroxime 1mg**
- Moxifloxacin 1.5mg**
- Vancomycin 1mg**
- Vancomycin 2mg**

Sterility testing of each lot was not performed for the following sterile drug products produced at your facility:

- Cefuroxime 1mg**
- Moxifloxacin 1.5mg**
- Vancomycin 1mg**
- Vancomycin 2mg**

Response 4:

Our firm is discontinuing the compounding of the following products from bulk API: Moxifloxacin 1.5mg, Vancomycin 1mg, Vancomycin 2mg, Vancomycin 25mg. We are also discontinuing Cefuroxime 10mLvials. We will continue to compound Cefuroxime 1mg/0.1mL syringes and will test for the following based on our usual batch size:

- a. Identity
- b. Strength
- c. Sterility
- d. Endotoxin
- e. pH
- f. Color
- g. Clarity

- h. Visible Particulates
- i. Subvisible Particulates

We are currently updating our SOP 4.7.1.1 to reflect the testing requirements per the 2018 draft guidance.

Note: No compounded drug products will be tested in-house. Instead, all products compounded by RC Outsourcing will be tested by FDA accredited third party testing facilities.

Observation 5:

The accuracy, sensitivity and reproducibility of test methods have not been established and documented.

Specifically, your firm's process for conducting the in-house sterility test has not been verified as being suitable for its intended use in the sterility testing of Dexamethasone 400mcg, Lidocaine 1%, Phenylephrine 1.5%, Phenylephrine 2.5%. Further, the in-house sterility testing process is not detailed in a formal procedure.

Observation 5:

Our facility has discontinued the use of in-house sterility testing using QT Micro Apparatus for all compounded drugs and will now rely solely on FDA licensed analytical facilities for testing.

Note: RC Outsourcing has discontinued the compounding of Dexamethasone 400mcg, Lidocaine 1%, Phenylephrine 1.5%, and Phenylephrine 2.5%. Although compounded very infrequently, no longer will sterile drugs be compounded from non-sterile bulk substances. Any previous formal procedures detailed in our SOP manual for conducting in-house testing have been archived as no longer applicable to RC Outsourcing.

The detailed formal procedure for in-house sterility testing will be added to Policy 4.7.1.1.

Observation 6:

Aseptic processing areas are deficient regarding the system for monitoring environmental conditions.

Specifically, active air sampling is not performed daily during production activities.

Response 6:

Currently at our facility, active air sampling is performed every 6 months by a CETA accredited service provider. We understand the need to perform active air sampling during our daily

production activities according to the December 2018 Draft Guidance. Our firm has researched and purchased an active air sampler (see attached sales order). Once sampler is received, we will train our personnel on its maintenance and operation and its use will be implemented. There is a 2-3 week lead-time between date of purchase (02/27/19) and product arrival.

We will updated our SOP to outline active daily air sampling when the unit arrives and owner's manual is in hand.

Observation 7:

Specific identification tests are not conducted on components that have been accepted based on the suppliers report of analysis.

Specifically, your firm does not perform an identity test on all incoming lots of bulk active pharmaceutical ingredients (API's). The following bulk API's are used in the production of drug products at your facility.

- Moxifloxacin Hydrochloride USP**
- Dexamethasone Sodium Phosphate USP**
- Tobramycin Hydrochloride USP**
- Phenylephrine Hydrochloride USP**
- Vancomycin Hydrochloride USP**

Response 7:

RC Outsourcing will no longer compound or prepare drugs from bulk Active Pharmaceutical Ingredients (APIs). These drugs have been removed from our shelves and disposed of appropriately. Any future requests from facilities that would require the compounding of drugs using bulk APIs will be denied. The use of bulk APIs for compounding has always been a small percent of RC Outsourcing operations and therefore is easily declined without inconvenience to customers or patients alike.

Observation 8:

You compound drugs that are essentially a copy of one or more approved drugs within the meaning of sections 503B(a)(5) and 503B(d)(2).

Specifically, you compound drug products that:

- a) Are identical or nearly identical to an approved drug that is not on the drug shortage list in effect under section 506E at the time of compounding, distribution, and dispensing; or**

- b) Are not identical or nearly identical to an approved drug, but contain a bulk drug substance that is also a component of an approved drug, and for which there is no change that produces for an individual patient a clinical difference, as determined by the prescribing practitioner, between the compounded drug and the comparable approved drug

Examples of compounded drug products that are essentially a copy of one or more approved drugs include;

- Dexamethasone 400mcg/0.1mL syringe for injection
- Moxifloxacin 0.150mg/0.1mL syringe for injection
- Vancomycin 1mg/0.1mL syringe for injection
- Vancomycin 2mg/0.1mL syringe for injection
- Vancomycin 25mg/mL – 10 mL dropper

Response 8:

RC Outsourcing will no longer compound these injectable and/or topical ophthalmic drugs from bulk APIs. These drugs are commercially available and not on FDA's short list.

Dear Mr. Czabaniuk,

Today, February 11, 2019, RC Outsourcing, LLC, has stopped all compounding of Absolute Alcohol from bulk substance. Moving forward, we will contact all of our physicians and customers and inform them of the immediate discontinuation of this compounded drug.

We understand the importance of using only those bulk drugs that the FDA has received adequate safety and effectiveness submissions and that perhaps in the future such data will be submitted for consideration. Until that time, we will decline order requests from our physician offices.

RE: Inspectional Observations for RC Outsourcing, LLC
FEI Number: 3011967886

Dear Mr. Czabaniuk,

I am writing with further follow up on observations #4 and #6 made during our 503B inspection dated 01/14/19 – 01/18/19, 02/08/19.

Firstly, we have updated our SOP 4.7.1.1 to reflect the testing requirements per the 2018 draft guidance. Please see attached.

Secondly, we have implemented daily active air sampling into our comprehensive environmental testing program. We began using the Trio.Bas Duo air sampler and have been collecting daily active air samples in both of our ISO 5 hoods. We have collected a week of data and have included that along with our SOP and the training log.

We feel the information we have provided will complete the corrective actions we were required to make. Once you have deemed our responses satisfactory, can we expect some kind of closure letter to our case? We have had a couple of the states

we are licensed with request some kind of evidence that are corrective actions were approved.

Thank you for your time and guidance.

Respectfully,

Dear Nevada Board of Pharmacy Members,

Best practice guidelines for IDS from the American Society of Health System Pharmacists (ASHP) and the Hematology/Oncology Pharmacy Association (HOPA) advise that remote sites are utilized when storage and dispensing of investigational drugs by the pharmacy is not practical and may adversely affect the patient's receipt of the investigational drug. I am submitting this letter on behalf of the UNLV Student Health Center Pharmacy staff and am requesting that in addition to myself, our per diem pharmacist and our pharmacy technician be included in the request. Per NAC 639.403, I am submitting the following information for approval:
