Over the last thirty years, the proton pump inhibitor, or PPI, class, has been the standard of care for the treatment of acid-related GI diseases. PPIs are generally used as a single agent for the treatment of GERD and in combination with antibiotics for the treatment of *H. pylori* infection. The PPI class includes drugs such as Prilosec (omeprazole), Nexium (esomeprazole), and Prevacid (lansoprazole). Prior to the introduction of generic and nver-the-counter, or OTC, alternatives, annual PPI class sales reached approximately $12.5 billion in the United States, and peak sales for individual brands were approximately $3.7 billion for Prilosec, $3.5 billion for Nexium, and $3.4 billion for Prevacid in the United States.

While PPIs are the current standard of care and have experienced significant commercial success, they have significant limitations that result in a large uumet medical need. In GERD, PPI therapy is suboptimal for many patients due to the slnw onset and insufficient duration of acid control which can lead to inadequate symptom relief.

Approximately 15% to 45% of GERD patients remain inadequately treated with PPIs. In the treatment of *H. pylori* infection, the standard of care consists of a combination of a PPI and at least two oral antibiotics. However, increasing antibiotic resistance has resulted in declining eradication rates with PPI-based therapy. We believe these unmet medical needs are in part driven by limitations associated with the mechanism of action and pharmacokinetics of PPIs.

PPIs reduce gastric acid secretion by irreversibly binding to and inhibiting active proton pumps expressed on the parietal cells. PPIs require activation by gastric acid, but they are unstable in the presence of acid. This instability, combined with the short circulating half-life of PPIs, limits their efficacy. Additionally, because proton pumps continuously switch between active and inactive states, multiple doses of PPIs are required to inhibit enough proton pumps to achieve a clinical benefit. As a result, PPIs have a relatively slow onset of action and limited potency and duration of effect, which may result in patients experiencing only partial relief, increasing PPI dosage, and/or cycling through multiple PPIs seeking relief.

Vonoprazan has a differentiated mechanism of action from PPIs. Unlike PPIs, vonoprazan:

- does not require activation by gastric acid;
- is stable in the presence of acid;
- binds with a slow dissociation rate to both active and inactive proton pumps; and
- has a long plasma half-life that replenishes the drug at the site of action over the course of the day.

These factors have enabled vonoprazan to demonstrate more rapid and potent acid suppression versus the PPI esomeprazole in human subjects two hours after oral dosing and maintain target acid inhibition over a 24-hour period in a randomized, open-label, crossover clinical trial. In contrast, PPIs require three to five days to reach steady state acid suppression and do not reliably maintain target acid inhibition over a 24-hour period. In addition, vonoprazan demonstrated approximately 10-to-100-fold better acid control compared to esomeprazole.

We believe that vonoprazan's anti-secretory profile may demonstrate clinically meaningful advantages over PPIs, such as:

- faster, more complete, and more durable healing of erosive esophagitis;
- faster, more complete, and more durable control of GERD symptoms;
- higher *H. pylori* eradication rates in combination with antibiotics compared to standard of care triple therapy and the potential for antibiotic-sparing dual therapy; and
- more flexible dosing, including dosing independent of food and time of day, and the potential for rapid symptom relief through on-demand dosing.

Vonoprazan has demonstrated clinical advantages over the PPI lansoprazole in the treatment of erosive esophagitis and *H. pylori* infection in completed Phase 3 clinical trials conducted in Japan and other Asian countries.

Erosive esophagitis. In two Phase 3 clinical trials conducted in Japan assessing vonoprazan versus lansoprazole in the healing and maintenance of healing of erosive esophagitis, vonoprazan met its primary endpoint in demonstrating non-inferiority to lansoprazole. In a post hoc analysis of the healing trial, vonoprazan demonstrated faster healing and a superior overall healing rate compared to lansoprazole in patients with more severe erosive esophagitis. After two weeks of treatment, 88% of erosive esophagitis patients with more severe disease were healed after treatment with voooprazan versus 64% with lansoprazole (p=0.0008). In the maintenance of healing trial, vonoprazan demonstrated lower recurrence rates of erosive esophagitis six months after treatment versus lansoprazole across all grades of severity of erosive esophagitis. Vonoprazan achieved a 2% recurrence rate compared to 17% for lansoprazole ($p<0.0001$).

H. pylori. A Phase 3 clinical trial was conducted in Japan assessing vonoprazan in combination with the antibiotics amoxicillin and clarithromycin versus lansoprazole in combination with these same antibiotics in first line treatment of *H. pylori* infection. In this trial, the vonoprazan-based regimen met its primary endpoint in demonstrating a non-inferior eradication rate of 93% compared to 76% for lansoprazole-based regimen ($p<0.0001$) and was also superior in a post hoc analysis of this trial ($p<0.0001$). In patients who failed first line therapy,

A p-value is the probability that the reported result was achieved purely by chance, such that a p-value of less than or equal to 0.05 or 0.01 means that there is a 5.0% or 1.0% or less probability, respectively, that the difference between the control group and the treatment group is purely due to chance. A p-value of 0.05 or less typically represents a statistically significant result.

We have used this clinical experience to inform our Phase 3 clinical development program in these indications.

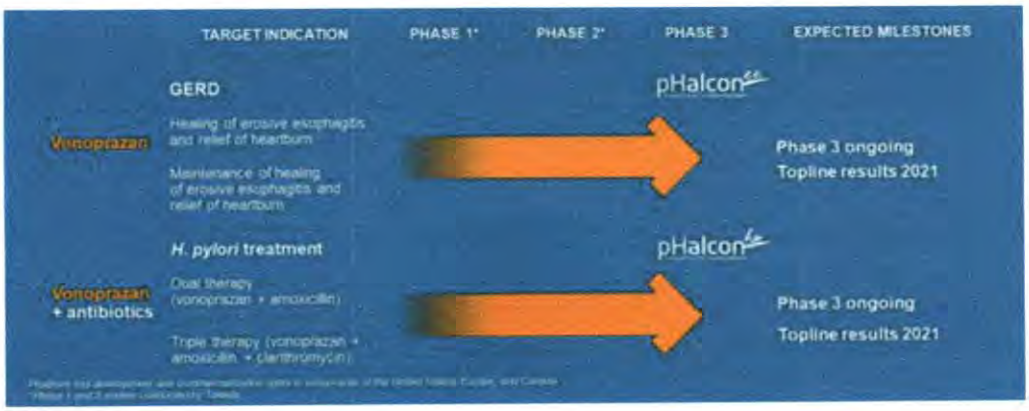
Our Pipeline

The following chart summarizes our current development programs.



Our Strategy

Our goal is to be a leader in the development and commercialization of novel treatments for GI diseases. Our strategy is initially focused on developing and commercializing vonoprazan as a potential first-in-class P-CAB in the United States, Europe, and Canada for the treatment of acid-related GI diseases. Key elements of this strategy include:

- ***Advance the clinical development of vonoprazan in erosive esophagitis and H. pylori infection and seek marketing approval.*** We believe we can leverage the existing clinical data and post-marketing experience, as well as our management team's experience with vonoprazan, to advance vonoprazan through our pivotal Phase 3 clinical trials. We initiated single pivotal Phase 3 clinical trials of vonoprazan in each of erosive esophagitis and *H. pylori* infection in the fourth quarter of 2019. We expect to report top-line data from both trials in 2021, and if successful, file regulatory submissions for marketing approval for the treatment of *H. pylori* infection in 2021 and for erosive esophagitis in 2022. If approved by the FDA as a new chemical entity, vonoprazan would receive a five-year period of marketing exclusivity within the United States and vonoprazan's QIDP designation would extend the U.S. marketing exclusivity for an additional five years.

- ***Commercialize vonoprazan in the United States.*** We plan to independently commercialize vonoprazan, if approved, in the United States by building a leading specialty gastroenterology commercial infrastructure to support the adoption of vonoprazan. We believe we can successfully launch vonoprazan in the United States with a focused specialty sales force targeting high prescribers of PPIs, particularly gastroenterologists. PPI prescribing is highly concentrated, with approximately 1.5% of U.S. PPI prescribers (approximately 12,000 total) accounting for approximately 20% of PPI prescriptions and approximately 6.0% of U.S. PPI prescribers (approximately 50,000 total) accounting for approximately 50% of PPI prescriptions, according to IQVIA. We believe we have an opportunity to achieve significant share of voice and exposure to physicians given the scarcity of actively marketed anti-secretory medicines. Given the limitations of PPIs and current unmet need, we believe the commercial opportunity for vonoprazan is substantial.

- ***Seek commercial partnerships to maximize the vonoprazan opportunity outside of the United States.*** We believe there is a significant commercial opportunity for vonoprazan in Europe and Canada. To address these markets, we plan to seek one or more partners with existing commercial infrastructure and expertise in these markets. We believe this strategy will allow us to realize the value of the market opportunity in Europe and Canada while focusing our resources on the U.S. market.

- ***Expand the development of vonoprazan across indications, dosing regimens, and alternative formulations and packaging.*** We plan to pursue vonoprazan lifecycle extension strategies in areas with clear unmet need, clinical rationale, and commercial justification. These strategies may include: (i) additional indications, including treatment of gastric ulcers and duodenal ulcers, Barrett's esophagus, and eosinophilic esophagitis; (ii) flexible dosing regimens, such as on-demand therapy for symptom relief of GERD; and (iii) alternative formulations and packaging, such as orally disintegrating tablets and other oral dosage forms for patients with difficulty swallowing, an intravenous formulation for in-hospital applications, and pre-packaged convenience packs for the treatment of *H. pylori* infection. Additionally, we believe that vonoprazan has the ideal profile for an OTC product, including the potential for on-demand symptom relief and a well-tolerated safety profile.

- ***In-license or acquire additional clinical or commercial stage product candidates for the treatment of GI diseases in a capital efficient manner.*** We intend to take advantage of our management team's GI expertise to opportunistically in-license or acquire additional innovative therapies for diseases treated by gastroenterologists. We plan to leverage our development and planned commercial infrastructure to support multiple assets targeting GI indications.

Acid-Related GI Diseases

Overview

Gastric acid is a digestive fluid formed in the stomach. The highly acidic environment of the stomach causes the unfolding, or denaturing, of food proteins that are subsequently broken down by gastric enzymes. Gastric acid is secreted by the hydrogen potassium ATPase enzyme, which is known as the proton pump. Proton pumps are expressed on the channeled surfaces, or canaliculi, of parietal cells in the stomach, which secrete acid. Proton pumps are continuously synthesized and switch between active and inactive states in response to various stimuli, such as food. When activated, proton pumps increase acid secretion.

GI diseases where treatment is related to acid control, such as GERD, peptic ulcer disease, Zollinger Ellison syndrome, and *H. pylori* infection, are significant medical problems because of their high prevalence, chronic nature and clinical sequelae. GERD results from the effects of acid on compromised mucosal defenses in the gastrointestinal tract. The reflux of gastric acid into the esophagus produces frequent and/or severe heartburn, indigestion, and reflux symptoms. Chronic GERD may damage esophageal tissue and progress to more severe diseases including erosive esophagitis, Barrett's esophagus, and esophageal cancer. GERD and related diseases are associated with impaired quality of life and substantial costs to the healthcare system given their chronic nature and sequelae. In *H. pylori* infection, gastric acid limits the effectiveness of antibiotics used to eradicate infection. Chronic *H. pylori* infection can lead to dyspepsia, peptic ulcer disease, gastric cancer, and mucosa-associated lymphoid tissue (MALT) lymphoma.

Prevalence

The prevalence of GI diseases is high. Approximately 20% to 40% of Western adults report chronic heartburn or regurgitation symptoms potentially related to GERD. We estimate that there are approximately 65 million individuals in the United States and 50 million individuals in the EU5 with GERD. In the United States, GERD is the most common gastroenterology-related outpatient diagnosis. Additionally, approximately 35% of the U.S. population and 45% of the EU5 population are infected with *H. pylori*. We estimate that there are approximately 115 million individuals in the United States and 145 million individuals in the EU5 infected with *H. pylori*.

Prevalence of GERD and *H. pylori* Infection

	GERD		*H. pylori* Infection	
	Prevalence	Estimated Population	Prevalence	Estimated Population
United States	20%	65 million	35%	115 million
EU5	15%	50 million	45%	145 million

Treatments

Treatments of acid-related GI diseases aim to provide relief of acute symptoms, healing of damaged tissue, and prevention of long-term clinical sequelae associated with chronic acid exposure. Gastric acidity is measured by the pH scale, a logarithmic scale where 7.0 describes a neutral state and lower levels indicate a higher level of acidity. The pH of the stomach typically ranges from 1.5 to 3.5. In patients with acid-related GI diseases, increasing gastric pH has been shown to improve mucosal healing rates and provide more rapid symptom relief for patients. For example, the duration of time that intra-gastric acidity is greater than pH 3.0 correlates with the healing of duodenal and gastric ulcers, and pH greater than 4.0 is correlated with the healing of erosive esophagitis. Similarly, in patients with *H. pylori* infection, a more neutral gastric pH of 5.0 to 7.6 preserves antibiotic function and is optimal for successful eradication.

Drug-induced gastric acid suppression is a key component of the management of acid-related GI diseases. Three classes of drugs with distinct mechanisms of action are principally used for treatment in the United States and Europe: antacids, histamine receptor antagonists, or H2RAs, and PPIs.

Antacids

Antacids, first commercially available in the 1930s, directly neutralize gastric acid to raise intra-gastric pH and can alleviate intermittent, mild symptoms of acid-related GI diseases, such as heartburn, but they are only effective for a short duration and require frequent administrations per day. In addition, antacids do not significantly help heal or prevent complications of acid-related diseases. Antacids include commonly-known OTC products, such as Alka-Seltzer, Pepto-Bismol, Rolaids, and TUMS.

Histamine Receptor Antagonists (H2RAs)

H2RAs, first commercially available in the 1970s, decrease gastric acid secretion in order to raise gastric pH. H2RAs represented a dramatic improvement over antacids in the control of gastric acid and consequently in the management of acid-related GI diseases. H2RAs are also generally safe and well-tolerated. Among the H2RA class were the first commercial blockbuster drugs, Pepcid (famotidine), Tagamet (cimetidine), and Zantac (ranitidine). Zantac was the world's highest-selling prescription drug in the mid-1990s, with peak global sales of $3.7 billion and U.S. sales of $2.2 billion. Prior to the launch of generic H2RAs and increasing competition from PPIs, the H2RA class achieved sales of approximately $3.5 billion in the United States. H2RAs achieved commercial success despite clinical limitations, including unreliable 24-hour acid control, poor control of post-meal symptoms, and loss of efficacy over time.

Proton Pump Inhibitors (PPIs)

PPIs, first commercially available in 1989, offered improved acid control over H2RAs. Pharmacodynamic data demonstrated that PPIs maintain gastric pH above target levels for a longer duration than H2RAs. A commonly used benchmark of anti-secretory activity is the percentage of time in a 24-hour period that gastric pH exceeds 4.0, which we refer to as time above pH 4.0, which ranges from 40% to 71% for PPIs versus 33% for H2RAs.

Given this improved pharmacodynamic profile, PPIs demonstrated improved clinical symptom relief and healing over H2RAs. In a meta-analysis of results from 33 randomized clinical trials with over 3,000 GERD patients, a reduction in symptoms was achieved in 83% of patients taking PPIs versus 60% of those on H2RAs. In a second meta-analysis, the eight-week healing rate in patients with erosive esophagitis was 82% for PPIs versus 52% for H2RAs.

The PPI class is currently the first-line treatment of acid-related GI diseases. Prior to the introduction and adoption of generic and OTC alternatives, annual PPI class sales reached approximately $12.5 billion in the United States, and peak sales for individual brands were approximately $3.7 billion for Prilosec, $3.5 billion for Nexium, and $3.4 billion for Prevacid. As recently as 2015, the last branded PPI, Dexilant (dexlansoprazole), reached approximately $530 million in sales in the United States despite limited differentiation from other PPIs. While Dexilant demonstrated a modest improvement in time above pH 4.0 compared to other PPIs, the approved dose did not demonstrate consistent superiority in Phase 3 trials against other PPIs on the healing of erosive esophagitis and has not been tested against PPIs in other indications. We believe that the commercial success of Dexilant highlights the value to physicians and patients of even incremental improvements over other PPIs.

History of Pharmaceutical Agents for Control of Gastric Acid

PPI Limitations

While PPIs provide clinically meaningful symptom relief and healing for millions of patients suffering from acid-related GI diseases, they are inadequate for many patients. The suboptimal anti-secretory profile of PPIs results in slow onset of symptom relief, breakthrough nighttime or postprandial heartburn, and treatment failure. A recent population-based survey with over 70,000 participants in the United States showed that 55% of patients who reported having GERD symptoms were taking PPIs, with 68% taking them daily, and 54% of daily PPI users reported persistent symptoms. This is consistent with earlier studies that have shown that approximately 15% to 45% of GERD patients are inadequately treated with PPIs, experiencing persistent, troublesome symptoms, such as heartburn and regurgitation. In approximately two thirds of symptomatic GERD patients, reflux symptoms are not adequately controlled after the first dose of a PPI, and nearly 50% of patients still suffer from symptoms three days later. Given these limitations, more than 20% of GERD patients on PPI therapy take their PPI twice daily, which is not FDA approved, or purchase OTC heartburn treatments in addition to their prescription medicine. In a survey of approximately 1,000 GERD patients and 1,000 physicians, approximately one third of GERD patients reported persistent symptoms and were dissatisfied with PPI therapy and 35% of physicians perceived patients as somewhat satisfied to completely dissatisfied with PPI treatment. In addition, in July 2019 we conducted a U.S. market research study of 100 gastroenterologists and 100 primary care physicians who commonly prescribe PPIs and treat patients with GERD and *H. pylori* infection. Surveyed physicians reported that approximately 25% of patients are not satisfied on PPIs.

In patients with more severe grades of erosive esophagitis, studies with PPIs have reported failure rates of healing of esophageal erosions exceeding 25%. Additionally, recurrence of erosions is common in healed erosive esophagitis patients receiving maintenance PPI therapy. One study reported recurrence in 15% to 23% of patients with less severe erosive esophagitis and 24% to 41% of patients with more severe erosive esophagitis. We believe that these limitations of PPIs are in part driven by their mechanism of action and pharmacokinetics.

Texas State Board of Pharmacy
"Red Flags" Checklist for Pharmacies
YOU MIGHT BE A PILL MILL IF...

Check all that apply:

	(1) Your pharmacy fills a discernable pattern of prescriptions for prescribers whowrite essentially the same prescriptions for numerous persons, indicating a lack of individual drug therapy
	(2) Your pharmacy operates with limited hours of operation or closes after a certain threshold of controlled substance prescriptions are dispensed, and has overall low prescription dispensing volume.
	(3) Prescriptions presented to the pharmacy are for controlled substances with popularity as street drugs, such as opiates, benzodiazepines, muscle relaxants, psychostimulants, and/or cough syrups, or any combination of these drugs.
	(4) The prescriptions for controlled substances contain nonspecific or no diagnoses.
	(5) The prescriptions are commonly for the highest strength of the drug and/or for large quantities.
	(6) Dangerous drugs or OTC products (such as multi-vitamins or laxatives) are added to the controlled substance prescriptions, maintaining relatively consistent 1:1 ratio of controlled substances to dangerous drugs and/or OTC products dispensed as prescriptions.
	(7) Prescriptions are authorized by the same prescriber with what appears to be different handwriting on the hardcopy prescription drug order forms.
	(8) Upon contact with the prescriber's office, you are unable to engage in comprehensive discussion with the actual prescriber, or he/she is unconcerned about your apprehensions regarding his/her prescribing practices or unwilling to provide additional information, such as treatment goals and/or prognosis withprescribed drug therapy.
	(9) You rely solely on the prescriber's representation, or on the representation of the individual answering the phone at the number on the prescription, thatprescriptions are legitimate.
	(10) The prescriber's clinic is not registered as a pain management clinic by the Texas Medical Board, despite routinely receiving prescriptions from the prescriber foropiates, benzodiazepines, and/or muscle relaxants.
	(11) Drugs prescribed are inconsistent with the prescriber's area of practice.
	(12) The prescriber of the drugs is located a significant distance from your pharmacy.
	(13) The prescriber has been subject to disciplinary action by the licensing board, had his/her DEA registration removed, or been subject to criminal action.
	(14) The Texas PMP system indicates that persons are obtaining prescriptions for the same drugs from multiple prescribers or that persons are filling prescriptions for the same drugs at multiple pharmacies.
	(15) The person's address is a significant distance from your pharmacy and/or from the prescriber's office.
	(16) Multiple persons with the same address present prescriptions from the same prescriber.
	(17) Persons pay with cash or credit card more often than through insurance.
	(18) Persons presenting controlled substance prescriptions are doing so in such a manner that varies from seeking routine pharmacy services (e.g., willing to wait in long lines to receive drugs, persons arrive in the same vehicle with prescriptions from same prescriber, one personpresents to pick up prescriptions for multiple others, persons refer to drugs by "street names" and/or comment on drug's color, persons seek early refillspersons travel from outside reasonable trade area of pharmacy).
	(19) Your pharmacy charges and persons are willing to pay more for controlled substances than they would at nearby pharmacies.
	(20) Your pharmacy routinely orders controlled substances from more than one drug supplier, or your pharmacy has been discontinued by a drug supplierrelated to controlled substance orders.
	(21) Sporadic and non-consistent dispensing volume (including zero dispensing) varies from day to day and week to week, and your pharmacy does not maintainoperational hours each week on Monday through Friday.
	(22) Your pharmacy employs or contracts security personnel during operational hours to prevent problems.
	(23) Your pharmacy has been previously warned or disciplined by the Texas State Board of Pharmacy for inappropriate dispensing of controlled substances (i.e., corresponding responsibility).

If you checked any of the above items, you should review the laws and rules regarding corresponding responsibility and non-therapeutic dispensing, especially Board rule §291.29, in the law book or on our websitewww.pharmacy.texas.gov (click on Texas Pharmacy Rules and Laws). Additional educational material is available at: http://www.pharmacy.texas.gov/Nontherapeutic.asp. Failure of pharmacies and pharmacists to detect patterns of inappropriate dispensing of prescription drugs is unprofessional practice and constitutes grounds for disciplinary action.

THIS OPERATING AGREEMENT (this "**Agreement**") of **ROMAN HEALTH PHARMACY LLC**, a Delaware limited liability company (the "**Company**"), dated as of May 11, 2017, is made and entered into by **ROMAN HEALTH VENTURES INC.**, a Delaware corporation (the "**Member**").

WHEREAS, the Member wishes to form a limited liability company pursuant to and in accordance with the Delaware Limited Liability Company Act (as amended from time to time, the "**Act**");

NOW, THEREFORE, the Member hereby agrees as follows:

ARTICLE I
THE COMPANY

Section 1.1 **Formation; Admission**. The Company was formed as a limited liability company under the provisions of the Act by the filing on May 11, 2017 of the Certificate of Formation with the Secretary of State of the State of Delaware (the "**Certificate**"). The filing of the Certificate is hereby ratified by the Member.

Section 1.2 **Name; Purpose**. The name of the Company shall be **ROMAN HEALTH PHARMACY LLC**. The Company may engage in any lawful business of every kind and character for which a limited liability company may be organized under the Act or any successor statute. The Company shall have all of the powers provided for a limited liability company under the Act.

Section 1.3 **Registered Agent; Offices**.

(a) The registered agent for the service of process and the registered office shall be that person and location reflected in the Certificate. The Board (as such term is defined below) may, from time to time, change the registered agent or office through appropriate filings with the Secretary of State of the State of Delaware. In the event the registered agent ceases to act as such for any reason or the registered office shall change, the Board shall promptly designate a replacement registered agent or file a notice of change of address as the case may be.

(b) The principal place of business of the Company shall be located in such location as the Board may from time to time determine. The Company may have, in addition to such office, such other offices and places of business at such locations, both within and without the State of Delaware, as the Board may from time to time determine or the business and affairs of the Company may require.

Section 1.4 **Filings and Foreign Qualification**. The Member, any Manager (as such term is defined below) or any authorized officer of the Company shall promptly execute and deliver all such certificates and other instruments conforming hereto as shall be necessary to accomplish all filing, recording, publishing and other acts appropriate to comply with all requirements for the formation and operation of a limited liability company under the laws of the State of Delaware and for the qualification and operation of a limited liability company in all other jurisdictions where the Company shall propose to conduct business.

Section 1.5 **Units**. The membership interests in the Company shall be denominated in units referred to as "**Units**". The total number of Units that the Company shall have authority to issue is 500 Units. The Member is the owner of 500 Units. The rights and liabilities of the Member shall be as provided in the Act, except as is otherwise expressly provided in this Agreement. All of the Units shall be in registered form, and the Company shall maintain a register in which the name and address of the then current holders of Units shall be recorded. Unless otherwise determined by the Board, Units shall not be certificated.

Section 1.6 **Limited Liability**. Except as otherwise provided by the Act, the debts, obligations and liabilities of the Company, whether arising in contract, tort or otherwise, shall be solely the debts, obligations and liabilities of the Company, and neither the Member nor any Manager or officer shall be obligated personally for any such debt, obligation or liability of the Company solely by reason of being a member, manager or officer of the Company.

ARTICLE II
CAPITAL CONTRIBUTIONS; PROFITS AND LOSSES; DISTRIBUTIONS

Section 2.1 **Capital Contributions**. The Member may, in its sole discretion, but shall not be required to, make contributions of the type permitted by the Act to the capital of the Company. Except as otherwise provided in this Agreement, the Member shall not be entitled to withdraw, or to receive a return of, any capital contribution or any portion thereof. No interest shall accrue on any capital contributions.

Section 2.2 **Profits and Losses**. All profits and losses of the Company shall be allocated and charged to the holder(s) of the Units on a pro rata basis. All items of Company taxable income, gain, loss, deduction or credit recognized or allocated for federal income tax purposes shall also be allocated and credited or charged to the holder(s) of the Units on a pro rata basis.

Section 2.3 **Distributions**. Subject to the Act and other applicable law, the Board shall cause the Company to distribute funds to the holder(s) of the Units on a pro rata basis at the Board's discretion.

ARTICLE III
MANAGEMENT

Section 3.1 **Board of Managers**. Except to the extent otherwise provided for in this Agreement, the powers of the Company shall be exercised by and under the authority of, and the business and affairs of the Company shall be managed under the direction of, a Board of Managers (the "**Board**"), which shall initially consist of two (2) managers (the "**Managers**"). Except as otherwise set forth in this Agreement, the Member shall not, by reason of its status as a member, have any authority to act for and bind the Company, but shall have only the right to vote on or approve: (a) the actions specified in this Agreement to be voted on or approved by the Member; and (b) except to the extent otherwise provided in this Agreement, the actions specified in the Act to be voted on or approved by the Member. The size of the Board may be increased or decreased by the Member in its sole discretion. The Member shall have the right to appoint and to remove, with or without cause, any or all of the Managers in its sole discretion. The Managers shall initially be Zachariah Reitano and Saman Rahmanian.

Section 3.2 **Meetings of the Board; Quorum; and Action by the Board**. Meetings of the Board shall be held at such times and places as may be decided by the Member. Notice of the time and place of a meeting shall be delivered personally or by telephone to each Manager and sent by first-class mail, facsimile, electronic mail or a nationally recognized overnight courier, charges prepaid, addressed to each Manager at that Manager's address as it is shown on the records of the Company. In case the notice is mailed, it shall be deposited in the United States mail at least five (5) calendar days before the time of the holding of the meeting. In case the notice is delivered personally or by telephone, facsimile, electronic mail or overnight courier, it shall be given at least two (2) calendar days before the time of the holding of the meeting. Any oral notice given personally or by telephone may be communicated either to the Manager or to a person at the office of the Manager whom the person giving the notice has reason to believe will promptly communicate it to the Manager. Attendance by any Manager at a meeting of the Board shall constitute a waiver of notice to such Manager of such meeting. The notice need not specify the purpose of the meeting. At all meetings of the Board, the presence of a majority of the total number of Managers shall be necessary and sufficient to constitute a quorum for the transaction of business. Unless otherwise specifically required by law or this Agreement, the act of a majority of Managers present at a meeting at which a quorum is present shall be the act of the Board. If a quorum shall not be present at any meeting of the Board, the Managers present may adjourn the meeting from time to time, without notice other than announcement at the meeting, until a quorum shall be present. At any such adjourned meeting, any business may be transacted that might have been transacted at the meeting as originally convened. Any action required or permitted to be taken at any meeting of the Board may be taken without a meeting if a majority of the Managers consent thereto in writing, and the writing is filed with the minutes of proceedings of the Board. A photographic, photo-static, facsimile, electronic (including in .pdf format) or similar reproduction of a writing signed by a Manager shall be regarded as signed by the Manager for purposes of this Section 3.2.

Section 3.3 **Authority of Managers**. Unless specifically authorized by a resolution duly adopted by the Board, no Manager, solely in his or her capacity as a Manager, shall have the authority or power to act as agent for or on behalf of the Company or any other Manager, to

do any act which would be binding on the Company or any other Manager, to incur any expenditures on behalf of or for the Company, or to execute, deliver and perform any agreements, acts, transactions or other matters on behalf of the Company.

Section 3.4 Officers.

(a) The Board may designate one or more individuals (who may or may not be Managers) to serve as officers of the Company. The Company shall have such officers as the Board may from time to time determine, which officers may (but need not) include a Chairman, Chief Executive Officer, President, Chief Operating Officer, Chief Financial Officer, one or more Vice Presidents (and in case of each such Vice President, with such descriptive title, if any, as the Board shall deem appropriate), Secretary and Treasurer. Unless the Board determines otherwise, if the title is one commonly used for officers of a business corporation formed under the Delaware General Corporation Law, the assignment of such title shall constitute the delegation to such person of the authorities and duties that are customarily associated with that office. Any delegation pursuant to this Section 3.4 may be revoked at any time by the Board.

(b) Each of the following persons is hereby appointed to serve as an officer of the Company, until removed by the Board, with or without cause, in its sole and absolute discretion, or the earlier death or resignation of such person:

Name	Office
Zachariah Reitano	President
Saman Rahmanian	Secretary and Treasurer
Rob Schutz	Vice President

ARTICLE IV
EXCULPATION AND INDEMNIFICATION

Neither the Member, any Manager nor any officer of the Company (each, an "**Indemnified Party**") shall be liable to the Company for any loss, damage or claim incurred by reason of any act or omission performed or omitted by the Indemnified Party in good faith on behalf of the Company and in a manner reasonably believed to be within the scope of the authority conferred on the Indemnified Party by this Agreement, except that the Indemnified Party shall be liable for any such loss, damage or claim incurred by reason of the Indemnified Party's willful misconduct or gross negligence. To the fullest extent permitted by applicable law, the Indemnified Party shall be entitled to indemnification from the Company for any loss, damage or claim incurred by the Indemnified Party by reason of any act or omission performed or omitted by the Indemnified Party in good faith on behalf of the Company and in a manner reasonably believed to be within the scope of the authority conferred on the Indemnified Party, except that the Indemnified Party shall not be entitled to be indemnified in respect of any loss, damage or claim incurred by the Indemnified Party by reason of willful misconduct or gross negligence with respect to such acts or omissions; provided, however, that any indemnity under this Article IV shall be provided out of and to the extent of Company assets only, and the

Member shall not have any liability on account thereof. Notwithstanding anything herein to the contrary, the indemnification afforded herein shall be subject to, and no broader than permitted by, the laws of Delaware, in the absence of the approval of the Member.

ARTICLE V
DISSOLUTION

Section 5.1 **Events of Dissolution**. The Company shall have a perpetual existence unless sooner dissolved by:

(a) the election of the Member; or

(b) the entry of a decree of judicial dissolution under Section 18-802 of the Act.

Section 5.2 **Bankruptcy of the Member**. The bankruptcy of the Member will not cause the Member to cease to be the member of the Company and upon the occurrence of such event, the business of the Company shall continue without dissolution.

Section 5.3 **Liquidation and Winding Up**. In the event of dissolution, the Company shall be wound up and its assets liquidated. Darlene,

See below for my earlier email and attachments to respond to the deficiency notice for Roman Health Pharmacy's Colorado and Texas facilities. We also wanted to provide the most updated state inspection report for the Texas facility, received after our initial submission. A complete copy of the report is attached.

Thank you,
Amanda

Good Morning, Darlene,

Attached please find the Internet Services Addendum and the related Policies and Procedures for Roman Health Pharmacy LLC's Colorado and Texas facilities. The same form and P&Ps apply to both facilities.

I've also included signed license verification authorization forms for each facility. As I mentioned before, Texas and Colorado consider their online verifications of good standing (previously submitted) as primary sources and do not issue letters of good standing beyond the online verifications.

Please let me know if you have any questions or need anything else to complete this file.

Thank you,
Amanda

Prescription drug order records maintained in a data processing system.
(1) General requirements for records maintained in a data processing system.
(A) Compliance with data processing system requirements. If a Class A pharmacy's data processing system is not in compliance with this subsection, the pharmacy must maintain a manual record keeping system as specified in subsection (d) of this section.
(B) Original prescriptions. Original prescriptions shall be maintained in three files as specified in subsection (b)

22: Computer system noncompliance *(continued)* *Satisfactory*

(6)(D) of this section.

(C) Requirements for backup systems.

(i) The pharmacy shall maintain a backup copy of information stored in the data processing system using disk, tape, or other electronic backup system and update this backup copy on a regular basis, at least monthly, to assure that data is not lost due to system failure.

(ii) Data processing systems shall have a workable (electronic) data retention system that can produce an audit trail of drug usage for the preceding two years as specified in paragraph (2)(H) of this subsection.

(D) Change or discontinuance of a data processing system.

(i) Records of dispensing. A pharmacy that changes or discontinues use of a data processing system must:

(I) transfer the records of dispensing to the new data processing system; or

(II) purge the records of dispensing to a printout that contains the same information required on the daily printout as specified in paragraph (2)(C) of this subsection. The information on this hard copy printout shall be sorted and printed by prescription number and list each dispensing for this prescription chronologically.

(ii) Other records. A pharmacy that changes or discontinues use of a data processing system must:

(I) transfer the records to the new data processing system; or

(II) purge the records to a printout that contains all of the information required on the original document.

(iii) Maintenance of purged records. Information purged from a data processing system must be maintained by the pharmacy for two years from the date of initial entry into the data processing system.

(E) Loss of data. The pharmacist-in-charge shall report to the board in writing any significant loss of information from the data processing system within 10 days of discovery of the loss.

(2) Records of dispensing.

(A) Each time a prescription drug order is filled or refilled, a record of such dispensing shall be entered into the data processing system.

(B) Each time a modification, change or manipulation is made to a record of dispensing, documentation of such change shall be recorded in the data processing system. The documentation of any modification, change, or manipulation to a record of dispensing shall include the identification of the individual responsible for the alteration. Should the data processing system not be able to record a modification, change, or manipulation to a record of dispensing, the information should be clearly documented on the hard copy prescription.

(C) The data processing system shall have the capacity to produce a daily hard copy printout of all original prescriptions dispensed and refilled. This hard copy printout shall contain the following information:

(i) unique identification number of the prescription;

(ii) date of dispensing;

(iii) patient name;

(iv) prescribing practitioner's name and the supervising physician's name if the prescription was issued by an advanced practice registered nurse, physician assistant or pharmacist;

(v) name and strength of the drug product actually dispensed; if generic name, the brand name or manufacturer of drug dispensed;

(vi) quantity dispensed;

(vii) initials or an identification code of the dispensing pharmacist;

(viii) initials or an identification code of the pharmacy technician or pharmacy technician trainee performing data entry of the prescription, if applicable;

(ix) if not immediately retrievable via computer display, the following shall also be included on the hard copy printout:

(I) patient's address;

(II) prescribing practitioner's address;

(III) practitioner's DEA registration number, if the prescription drug order is for a controlled substance;

(IV) quantity prescribed, if different from the quantity dispensed;

(V) date of issuance of the prescription drug order, if different from the date of dispensing; and

(VI) total number of refills dispensed to date for that prescription drug order; and

(x) any changes made to a record of dispensing.

(D) The daily hard copy printout shall be produced within 72 hours of the date on which the prescription drug orders were dispensed and shall be maintained in a separate file at the pharmacy. Records of controlled substances shall be readily retrievable from records of non-controlled substances.

(E) Each individual pharmacist who dispenses or refills a prescription drug order shall verify that the data indicated on the daily hard copy printout is correct, by dating and signing such document in the same manner as signing a check or legal document (e.g., J.H. Smith, or John H. Smith) within seven days from the date of dispensing.

(F) In lieu of the printout described in subparagraph (C) of this paragraph, the pharmacy shall maintain a log book in which each individual pharmacist using the data processing system shall sign a statement each day, attesting to the fact that the information entered into the data processing system that day has been reviewed by him or her and is correct as entered. Such log book shall be maintained at the pharmacy employing such a system for a period of two years after the date of dispensing; provided, however, that the data processing system can produce the hard copy printout on demand by an authorized agent of the Texas State Board of Pharmacy. If no printer is available on site, the hard copy printout shall be available within 72 hours with a certification by the individual providing the printout, stating that the printout is true and correct as of the date of entry and such information has not been altered, amended, or modified.

(G) The pharmacist-in-charge is responsible for the proper maintenance of such records, for ensuring that such data processing system can produce the records outlined in this section, and that such system is in compliance with this subsection.

22: Computer system noncompliance *(continued)* *Satisfactory*

(H) The data processing system shall be capable of producing a hard copy printout of an audit trail for all dispensing (original and refill) of any specified strength and dosage form of a drug (by either brand or generic name or both) during a specified time period.

(i) Such audit trail shall contain all of the information required on the daily printout as set out in subparagraph (C) of this paragraph.

(ii) The audit trail required in this subparagraph shall be supplied by the pharmacy within 72 hours, if requested by an authorized agent of the Texas State Board of Pharmacy.

(I) Failure to provide the records set out in this subsection, either on site or within 72 hours constitutes prima facie evidence of failure to keep and maintain records in violation of the Act.

(J) The data processing system shall provide online retrieval (via computer display or hard copy printout) of the information set out in subparagraph (C) of this paragraph of:

(i) the original controlled substance prescription drug orders currently authorized for refilling; and

(ii) the current refill history for Schedules III, IV, and V controlled substances for the immediately preceding six-month period.

(K) In the event that a pharmacy using a data processing system experiences system downtime, the following is applicable:

(i) an auxiliary procedure shall ensure that refills are authorized by the original prescription drug order and that the maximum number of refills has not been exceeded, or authorization from the prescribing practitioner shall be obtained prior to dispensing a refill; and

(ii) all of the appropriate data shall be retained for online data entry as soon as the system is available for use again.

(3) Authorization of refills. Practitioner authorization for additional refills of a prescription drug order shall be noted as follows:

(A) on the hard copy prescription drug order;

(B) on the daily hard copy printout; or

(C) via the computer display.

Purpose

The proper disposal[1] of prescription medication by patients is ensured by adhering to proper policies and procedures for instructing patients on how to discard products that are unwanted, expired, damaged, or unusable

Responsibility

- The Licensing and Compliance Manager is responsible for coordinating with management to ensure the training and enforcement of this procedure.
- The Pharmacy Manager is responsible for the training and enforcement of this procedure for the employees they manage.

Procedure

[1] www.safe.pharmacy

- *Do not flush medication, since Roman Health Pharmacy does not currently dispense any prescription medications that appear on the Food and Drug Administration (FDA) Flush List[2].*

(If the prescription medication cannot be disposed of via a local Drug Take-Back Program[3], and it is not a drug that requires flushing for immediate disposal, provide the following instructions:)

1. *Remove the drug from its original container and mix it with something undesirable, such as used coffee grounds, dirt, laundry detergent, or cat litter. This makes the medicine less appealing to children and pets and unrecognizable to someone who might intentionally go through the trash looking for drugs.*
2. *Put the mixture in something you can close (for example, a resealable zipper storage bag, empty can, or another container) to prevent the drug from leaking or spilling out.*
    2.1. *Place the closed bag, can, or container containing the mixture in the garbage*
3. *Scratch out all your personal information on the medicine packaging to protect your identity and privacy.*
    3.1. *Place the medicine packaging in the garbage*

4. If for OTC merchandise, provide the following instructions to the patient:

   - *Removing any personal information from the packaging.*
   - *Putting it in a closed bag, can, or another container.*
   - *Placing the bag, can, or container containing the OTC merchandise in the trash.*

5. If for sharps (e.g. needles and syringes), provide the following instructions to the patient:

   Place all needles, syringes, and any other items containing bodily fluid into a Sharps Disposal Container. When full, mail the Sharps Disposal Container to the address listed on the return label.

SOP-6.7-R0 Recognizing Illegitimate Prescriptions and Invalid Patient-Practitioner Relationships

Approval Signatures

Title:	Name:	Signature:	Date:

Audience

- Pharmacists
- Pharmacy Technicians

Purpose

The fulfillment of illegitimate prescriptions is prevented by adhering to proper policies and procedures for recognizing illegitimate prescriptions and invalid patient-practitioner relationships.

Responsibility

- The Licensing and Compliance Manager is responsible for coordinating with management to ensure the training and enforcement of this procedure.
- The Pharmacy Manager is responsible for the training and enforcement of this procedure for the employees they manage.

Procedure

1. When receiving an oral prescription, pay attention to the following red flags or suspicious behavior from the caller:
    1.1. Sounds unprofessional, hesitant, or nervous
    1.2. Does not use standard medical terminology
    1.3. Provides medication quantities, directions, or other information that are unusual
    1.4. Provides pharmacy or practitioner information, such as National Provider Identifier (NPI) or Drug Enforcement Administration (DEA) number, that is invalid or incorrect
2. When processing a prescription, look for signs that indicate it may be illegitimate or forged:
    2.1. The practitioner's handwriting is too legible.
    2.2. The quantities, directions, or dosages differ from usual medical usage.
    2.3. The prescription appears to be photocopied.

2.4. Looks too good, or has a textbook appearance.

2.5. The prescription is written in the following manner:

2.5.1. With the directions in full, without abbreviations

2.5.2. With abbreviations that are not standard

2.5.3. In different color inks

2.5.4. In different handwriting styles

3. When processing a prescription, look for signs that indicate it may be issued based on an invalid patient-practitioner relationship:

3.1. The practitioner writes significantly more prescriptions (or in larger quantities) compared to other practitioners in your area.

3.2. The patient appears to be returning too frequently. A prescription that should have lasted for a month in legitimate use, is being refilled on a biweekly, weekly or even a daily basis.

3.3. The practitioner writes prescriptions for antagonistic drugs, such as depressants and stimulants, at the same time (drug abusers often request prescriptions for "uppers and downers" at the same time).

3.4. The patient appears presenting prescriptions written in the names of other people.

3.5. A number of people appear simultaneously, or within a short time, all bearing similar prescriptions from the same physician.

3.6. Numerous "strangers," people who are not regular patrons or residents of your community, suddenly show up with prescriptions from the same physician.

4. If a prescription is suspected of being illegitimate or fraudulent, or based on an invalid patient-practitioner relationship, take the following actions, if applicable:

4.1. Verify that the practitioner is in the pharmacy's database, and if not take the following steps:

4.1.1. Verify the practitioner's information with the NPI lookup tool, located on the National Plan & Provider Enumeration System (NPPES) website:

https://nppes.cms.hhs.gov/

Please Note: Issuance of an NPI does not ensure or validate that the practitioner is appropriately licensed or credentialed.

4.1.2. Confirm the DEA number is authentic, following the procedure described in the DEA Pharmacist's Manual, located in the appendix.

4.1.3. Verify the practitioner's information with the DEA Registration Validation tool, located on the DEA website:

https://apps.deadiversion.usdoj.gov/webforms/validateLogin.jsp

Please Note: The lookup tool is only available to DEA registrants.

4.2. Contact the practitioner by telephone using the contact number from the pharmacy's database or another reputable resource, other than from the prescription in question, and obtain the necessary information.

4.3. Verify the practitioner's license(s) and credential(s) with the appropriate agency (for example, the Board of Medicine).

5. If a prescription is confirmed to be illegitimate or fraudulent, or based on an invalid patient-practitioner relationship, take the following actions:

5.1. Notify the pharmacist-on-duty.

5.2. Notify the Pharmacy Compliance Team (see the List of Important Contacts, located in the appendix).

5.3. Notify local law enforcement (see the List of Local Authorities, located in the appendix).

5.4. Retain all illegitimate or fraudulent prescriptions as evidence and, if requested, release it to the appropriate law enforcement officials.

5.5. If applicable, notify the following entities:

5.5.1. The local DEA office (see the List of Local Authorities, located in the appendix)

5.5.2. The appropriate Board of Pharmacy(s) (see the List of Board of Pharmacy Contacts, located in the appendix)

5.5.3. Other pharmacies in the area

6. Appropriately document any investigations, findings, and actions.

Walgreen Co. ("Walgreens") has operated retail drug stores since 1901. Walgreens and its wholly owned subsidiaries currently own and operate over 9,200 stores in the United States and Puerto Rico.

In the normal course of its business operations, Walgreens' pharmacies are periodically subject to inspection and, on occasion, administrative action by state agencies that regulate the practice of pharmacy. Typically, the pharmacy is given an opportunity to correct the deficiency within a specified period of time and, if it does so, the matter is closed without disciplinary or adverse licensure action. In the course of the last reporting period, one or more pharmacies owned directly or indirectly by Walgreen Co. have been disciplined and/or required as part of a corrective action plan, to pay an administrative fine to a state regulatory agency. We can confirm, however, that none of the pharmacies subject to these actions had their retail pharmacy license in any way suspended, restricted, or denied as a result.

Transmitting Controlled Substance Prescription Data

Pursuant to NAC 639.926, pharmacies and dispensing practitioners that dispense controlled substances listed in schedule II, III or IV are required to submit data to the Board each week; however, we highly encourage dispensers to submit data on a nightly basis when possible. If a dispenser has not dispensed any controlled substances for the required time period, the dispenser is required to submit a zero reporting transmission.

The Nevada State Board of Pharmacy contracts with Appriss to manage the data collection for the Nevada Prescription Monitoring Program (PMP). For information to register and submit data please visit: http://bop.nv.gov. Click Links, click Prescription Monitoring Program, click Dispenser Guide.

Good morning Dr,
As far as I know, BOP doesn't require how many hours I stay in my office. So I would say I work in the mornings in my office and afternoons at your location. Also I can see pts on weekends.I also have certified orthotic fitters at my office. I am sure fitters are qualified to fit shoes as well.I think this should be ok with BOP.

Good Morning in Las Vegas!

We submitted your application to the board of pharmacy and they already responded. Below is their response and we were hoping you can email us a response as they say you are already the admin for Back in Step. I assume you will have time to do both functions especially as we are started brand new. I think their concern is your availability to our location in case a patient has a problem with their shoes. They probably want some sort of assurance that you available to be in our location on a daily basis even though you are the administrator for Back in Step.

Appreciate you emailing me a response so I can reply back to the board today as they responsed so fast to the application. Thanks!

Hi Jay,

From the application, Ms. Lim appears to be the owner of Back in Step which is also licensed with our board. She is listed as the administrator for Back in Step, the board will have questions concerning how she will handle duties at both locations. Could you provide details on how you plan to operate and how she will be employed at your location?

NEVADA STATE BOARD OF PHARMACY, Petitioner, vs. ROBERT WEBB, P.A., Certificate of Registration Nos. CS00063 and CS 19994 Respondent.	CASE NO. 18-115-CS-S

ANSWER AND NOTICE OF DEFENSE

Respondent ROBERT WEBB, P.A. ("PA Webb), by and through his attorney of record, Kathleen Janssen, Esq., of Cook & Kelesis, Ltd., in answer to the Notice of Intended Action and Accusation ("the Notice") filed in the above-captioned matter before the Nevada State Board of Pharmacy ("Board") declares:

INTRODUCTION

A. That his objection to the Notice as being incomplete or failing to state clearly the charges against him, is hereby interposed on the following grounds: None except as otherwise provided below in this Answer and Notice of Defense.

B. That a hearing in this matter is scheduled for the October 13, 2021 Board meeting.

ANSWER

A. That in answer to the Notice, PA Webb admits, denies and alleges as follows:

1. In answering Paragraph 1 of the Notice, PA Webb admits the allegations contained therein.

2. In answering Paragraphs 2, 3, and 4, PA Webb admits the allegations contained therein.

3. In answering Paragraph 5, PA Webb admits that in 2018, investigators from the Board, NSBME, and DEA appeared at the same time and on the same day at CIMA Medical Center and Modern Wellness Clinic, but PA Webb is without knowledge or information sufficient to form a belief as to the truth or falsity of the remaining allegations contained therein, and therefore denies the same.

4. In answering Paragraphs 6 and 7, PA Webb denies these allegations and/or is without knowledge or information sufficient to form a belief as to their truth or falsity, and therefore denies the same. That being said, there had been functionality issues with CIMA Medical Center's EMR and its e-prescribe application. Although the EMR system only allowed licensed providers to e-prescribe controlled substances as it requires an access code, providers that were still in the process of being credentialed with all payers, but that were already credentialed with Medicare and Medicaid, were sometimes unable to get full use of the EMR and its e-prescribe application. Those functionality issues, combined with good intentions to maintain continuity of care for established patients, may have resulted in mistakes being made when PA Webb was out of town. However, all patients had an existing bona fide therapeutic relationship with PA Webb and/or the other treating providers, the treating providers were all licensed practitioners, the prescriptions were written by licensed practitioners who had their own DEA registrations and Nevada Controlled Substance registrations, the rendered diagnosis for the patients were legitimate and not pre-textual, and the patient exams were adequate and appropriate based on the patient's complaint/condition.

5. In answering Paragraphs 8 and 9, PA Webb denies these allegations and/or is without knowledge or information sufficient to form a belief as to their truth or falsity, and therefore denies the same. That being said, PA Webb voluntarily chose not to renew his dispensing registration which expired in October of 2020.

6. In answering Paragraph 10, PA Webb admits that he did not renew his dispensing registration which expired on October 31, 2020, but PA Webb is without knowledge or

information sufficient to form a belief as to the truth or falsity of the remaining allegations contained therein, and therefore denies the same.

7. In answering Paragraph 11, PA Webb alleges that the allegations contain therein are overgeneralizations to the extent that this answering Respondent is unable to adequately formulate a response and, on that basis, denies each and every allegation contained therein. That being said, PA Webb continues to maintain an active and unrestricted DEA Certificate of Registration.

8. In answering Paragraphs 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26 and 27, PA Webb admits that any statute or regulation speaks for itself, but denies the remainder of the allegations.

9. In answering Paragraphs 28, 29, 30, 31, 32, 33, 34 and 35, PA Webb states that the allegations contained therein contain legal conclusions and therefore he denies them.

AFFIRMATIVE DEFENSES

1. Remedial actions were enacted once PA Webb learned of the alleged violations so that such alleged violations did not occur again. To the best of his knowledge, during the 3+ years since these allegations were first alleged by the Board, there have been no similar, new or additional allegations made to or by the Board. Further, PA Webb voluntarily chose not to renew his dispensing registration in October of 2020 and he sold CIMA Medical Center (all locations) in May of 2021. He is now the Medical Director at Modern Wellness Clinic located at 5375 S. Ft. Apache Rd, Suite 102, Las Vegas, NV 89148 where he has a much smaller practice and thus, personally sees all of the patients being treated there.

2. At all times relevant to this action, PA Webb was acting in good faith and believing his actions were legally compliant and in the best interests of his patients.

3. Any allegations contained in the Notice, even if true, were not the result of willful, malicious or deliberate conduct by PA Webb.

4. The Notice fails to state a claim warranting the relief for which it prays.

5. Relief is barred by the doctrine of waiver.

6. Relief is barred by the doctrine of estoppel.

7. The Board cannot prove the necessary state of mind to warrant discipline.

8. The statutes and regulations the Board seeks to enforce are void for vagueness facially and as applied.

9. The Notice is barred by the doctrine of laches.

10. The applicable statute of limitations bars the Notice and the purported claims for relief contained therein.

11. All affirmative defenses contained in NRCP 8 are incorporated herein by reference.

WHEREFORE, PA Webb requests that no disciplinary action be taken against him and the Notice be dismissed.

I hereby declare, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to the best of my knowledge.

DATED this 25 day of August 2021.

Attorneys for Akindele Kolade, M.D.

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. AKINDELE KOLADE, M.D. Certificate of Registration No. CS21917, Respondent.	CASE NO.: 19-237-CS-A-S **ANSWER AND NOTICE OF DEFENSE**

Respondent above named, in answer to the Notice of Intended Action and Accusation filed in the above-titled matter before the Nevada State Board of Pharmacy (the "Board"), declares:

1. That his objections to the Notice of Intended Action and Accusation ("Notice") as being incomplete or failing to state clearly the charges against him, is hereby interposed on the following grounds:

a. As alleged, the allegations in Paragraph 2, as reflected in the First, Second, Third, Fourth, and Seventh Causes of Action, violate Dr. Kolade's Sixth Amendment rights and are unconstitutionally vague because they fail to apprise the Respondent, with reasonable certainty, of the allegations against him and, thus, deprive him of the ability to prepare a defense. *United States v. Estrada-Iglesias*, 425 F. Supp. 3d 1265, 1269 (D. Nev. 2019). Paragraph 2 generally alleges that Dr. Kolade unlawfully issued thirteen (13) controlled substance prescriptions while

outside the United States in April 2018, October 2018, and February 2019, by means of pre-signing and/or providing a signature stamp. By failing to identify specific persons and instances on dates certain, the Notice of Intended Action and Accusation deprives Respondent of the ability to defend himself adequately.

b. The purpose of the foregoing paragraph was to place the Board on notice of Respondent's legal objections to its Notice. Respondent respectfully reserves the right to brief further and expand upon these objections at the appropriate juncture, if necessary.

2. That, in answer to the Notice, he admits, denies, and alleges as follows:

a. As a preliminary issue, Respondent, Jean-Marie Swaine, APRN (CS24065), and Nnenna A. Olubajo, APRN (CS27850) are not jointly defended in this matter. APRN Swaine and APRN Olubajo are former independent contractors (not employees) of Dr. Kolade's practice, Cal Psychiatric Services ("Practice"). Respondent therefore responds to the allegations in the Notice only as to himself, and submits no response on behalf of APRN Swaine or APRN Olubajo.

b. With regard to Paragraph 1, Respondent admits that the Board has jurisdiction over this matter as to himself, and that Respondent held and still holds Certificate of Registration No. CS21917.

c. With regard to Paragraph 2:

i. Respondent denies that he unlawfully issued thirteen (13) prescriptions ("Prescriptions").

ii. To the extent Respondent is able to reasonably predict the Prescriptions and patients ("Patients") to which the Board is referring—based upon previous correspondence with the Board and the time frames specified in the Notice—Respondent asserts that he did in fact have a "bona fide therapeutic relationship," as defined in NAC 639.945(3) with each of the Patients at the time the Prescriptions were written.

iii. Dr. Kolade admits he was travelling outside the United States during parts of April 2018, October 2018, and February 2019, but denies pre-signing any prescriptions or "providing a signature stamp to Swaine and Olubajo."

iv. As the result of the Board's investigation in this matter, Dr. Kolade is aware that a stamp bearing his signature appears to have been used for some prescriptions issued to patients of APRN Swaine in February 2019 (presumably

these are included in the Prescriptions). As Dr. Kolade has previously informed the Board, and provided written documentation of the same, he had filed a report with the Las Vegas Metropolitan Police Department in May 2019 that he had been a victim of theft and forgery in February 2019. A signature stamp of Dr. Kolade's, which had been secured inside his personal office and desk along with checks that had been stolen, has also been missing since February 2019 when the stamped Prescriptions were issued. Dr. Kolade asserts he never authorized or enabled APRN Swaine, APRN Olubajo, or any other practitioner or staff to access or utilize his signature stamp for any prescriptions.

v. The remainder of Paragraph 2 does not contain allegations against the Respondent. To the extent an answer is required, the Respondent denies the remaining allegations in this paragraph.

d. Paragraph 3 does not contain allegations against the Respondent. To the extent an answer is required, the Respondent denies the allegations in this paragraph.

e. The allegations in Paragraphs 4 through 16 contain conclusions of law for which no answer is required.

f. For the reasons set forth in Section 2(c) above, Respondent denies the allegations in the First, Second, Third, Fourth Causes of Action set forth in paragraphs 17 through 20.

i. Specifically, and as discussed above, to the extent Dr. Kolade is able to correctly ascertain the Prescriptions to which the Notice refers, Dr. Kolade had personally examined each of the Patients within the six (6) months preceding each of the Prescriptions as required for a "bona fide therapeutic relationship" defined in NAC 639.945(3); in most cases, the Patients were seen by Dr. Kolade within the three (3) months preceding the applicable Prescription.

ii. Dr. Kolade denies any aiding, abetting, or conspiring with regards to the alleged actions of APRN Swaine and/or APRN Olubajo. As noted above, APRN Swaine and APRN Olubajo were at various times independent contractors of the Practice, and independent practitioners by virtue of their licenses with the Nevada State Board of Nursing. As there was neither an employer-employee relationship nor a supervisor-supervisee relationship between Dr. Kolade and either

APRN Swaine or APRN Olubajo, Dr. Kolade did not control or direct their activities or professional judgment.

g. Paragraphs 21 and 22 do not contain allegations against the Respondent. To the extent an answer is required, the Respondent denies the allegations in these paragraphs.

h. With regard to Paragraph 23, Respondent denies the allegations contained therein.

I hereby declare, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to best of my knowledge.

Ms. Dena MCClish, Investigator
Nevada State Board of Pharmacy

Dear Ms. McClish,

This letter is a response to your investigation regarding 7 patients who were seen by me between 2/5/19- 2/6/2019. As you know, the date of service had been 1 year from today. The information I provide to you is based out of the best of my recollection.
I do not have authorization to access patient charts, as I stopped practicing with Dr. Kolade on 7/5/2019.

I worked with Dr. Kolade in January 18, 2019 for the first time that year. He had informed me that his whole office staff had left including Nurse Practitioners, secretary, medical assistant and biller. He further asked me to cover for him while he planned on going out of town in February. I worked under a physician collaboration agreement with Dr. Kolade.

As I recall, I saw those 7 patients who were already established patients. They were being seen at his clinic. (most of them). I don't have access to patient charts in order to verify accuracy. I reviewed previous notes, evaluated patient symptoms and continued to prescribe medications that were appropriate. My practice is: a) writing non-controlled substance medications on a separate script paper, with refills as necessary; b) reviewing PMP record; and c) writing controlled- substances on a separate script, since I did not provide refills for those medications without proper monitoring.

On 2/5/19- 2/6/2019, I saw patients and wrote scripts accordingly. I remember that the medical assistant Yadira, had informed me that "pharmacies were calling to verify controlled substances scripts that were given to patients". She further informed me that "patients were getting upset that they were not able to obtain controlled substances that I had written. The pharmacy did not dispense the medications without proper verification. I had an active DEA; but the pharmacies were unable to verify DEA with prescription pad which did not have my credentialing information, name, DEA number, license # and NPI #; therefore the patients were not given the medications (controlled substances) that I had written for them.

Yadira called Dr. Kolade- he responded. On speaker phone, Dr. Kolade instructed us to write controlled substances on "stamped script pads and or pre-signed script pads, signed by him"; I remember telling him that I did not feel comfortable doing that, but he insisted that Yadira and I write the medications (controlled substances) on stamped/ pre-signed script pads.
I remember Yadire, (medical assistant) telling me that they were doing that for Dr. Kolade's patients in his absence. Yadira wrote the controlled substances on Dr. Kolade's script pad and used Dr. Kolade's stamp – as per Dr. Kolade's instructions. I might have written some of the scripts, while the medical assistant wrote the others. I need to see the copy of the scripts in order to verify accuracy.

She further informed me that "Dr. Kolade had several script pads that were pre-signed by him. Yadira and the office secretary (Amber) were writing medications for Dr. Kolade's patients".

I remember that initially, Yadire was not able to find "pre-signed scripts; so she used the stamp for the controlled substances". She asked the patients to return to pick up scripts with Dr. Kolade's stamp and information on prescription pad. Yadire wrote the controlled substances.

Later that day, she informed me that "Dr. Kolade asked her to go in his office to get more blank script pads that he had pre-signed" to use for patients with controlled substances, in order to avoid conflict with pharmacies not dispensing their medications. As I remember, that is the reason why some controlled substances scripts had Dr. Kolade's stamp and the others had Dr. Kolade's signed script pad.

In addition, I discovered that Dr, Kolade was prescribing multiple controlled substances to several patients, without urine testing. He told me to write "opiate prescriptions for patients" which he said were for psychiatric reasons". I did not feel comfortable doing this. I refused. Dr. Kolade demonstrates "highly un-ethical and un-professional practices" including:

1) Failure to follow regulatory guidelines for controlled substances
2) Over- prescribing opiate medications to patients for "psychiatric reasons" without proper monitoring
3) Failure to follow Suboxone Treatment protocols- without proper monitoring
4) Failure to follow prescribing guidelines; UHS utilization review had sent our office letters regarding "concerns" about Dr. Kolade's practice, specifically giving multiple controlled substances that are contra-indicated to patients (prescribing Adderall and Xanax) to the same patients.

I later discovered that other Nurse Practitioners left because of similar reasons. His whole office staff left him for similar reasons.
Other issues:

1) I was told that a previous NP by the name of "Neme" worked for Dr. Kolade, did not have a Nevada License; but was seeing patients at his office. She returned to Texas just 1 week before I started working for Dr. Kolade in February 2019.
2) I later found out that another NP, Leesha Bitto left because Dr. Kolade did not pay her for several months.
3) There was a Physician Assistant student name "Yeme" who was seeing patients and was writing on Dr. Kolade's pre-signed script pads.
4) Dr. Kolade's former secretary informed me that in 2016-2017, Dr. Kolade worked at Boulder City Hospital. She claimed that Dr. Kolade left pre-signed script pads for RNs to write scripts when patients were discharged from the hospital because Dr. Kolade only rounded for less than 1 hour on the unit. The patients were being discharged without medications, therefore Dr. Kolade left RNs blank pre-signed script pads to write patient medications upon discharge.

I left Dr. Kolade's practice in July 5, 2019. Dr. Kolade did not pay me the appropriate amount of reimbursement over 5 months that I worked for him. I had to retain an attorney in order to demand for Dr. Kolade to provide me some compensation. (I have documents from attorneys).

Dr. Kolade demonstrates retaliation acts against me for reasons including: a) demanding payment for my services; b) refusing to write opioid prescriptions to his patients; c) refusing to write combination Adderall and Xanax to patients; d) performing urine monitoring for patients with controlled substances and e) notifying the Board of Medicine of Dr, Kolade's endangering patient safety.

I hope this helps your investigation. The events happened a year ago. I cannot recall specific details of the events. I no longer have access to patients' charts in order to verify accuracy.

Enclosed are the following documents:

1) Copy of text messages from Dr. Kolade's cell phone [redacted]
2) Copy of a patient PMP- Dr. Kolade was asking me to prescribe- Hydrocodone #180 tabs (I refused)

This statement is true and accurate.

If you have further questions, please feel free to reach me at anytime [redacted]

Respectfully,

10. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing that Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent consistent with the provisions of NRS Chapter 453 and/or Chapter 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 13, 2021. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

FILED
AUG 17 2021
NEVADA STATE BOARD OF PHARMACY

Respondent above named, in answer to the Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, declares:

1. That his/her objection to the Notice of Intended Action and Accusation as being incomplete or failing to state clearly the charges against him/her, is hereby interposed on the following grounds: (State specific objections or insert "none").

My name is Ghayda Alrass, I'm pharmacist for more than 20 years. During all those years I perform my Job with professional Conduct & Never have any unlawful Acquisition, Possession or use of Controlled substance & dangerous drug.

On May 13th 2021, I had an accident inside my house (Broken back) which required me to do an emergency back surgery :

" T_6, T_7 Laminectomy & T_6-T_8 Fusion."

I left the hospital on 5/19/21 & got an order of Rx for Oxycodone 10g. This is the first surgery & the first time taking Oxycodone in my whole life.

I really hope that the hearing on 9/1/21 will prove that those unlawful act, possession & Use of controlled substance & dangerous drugs are wrong & fully incorrect.

I'm content with my Carer as a pharmacist & enjoy providing service to my community.

2. That, in answer to the Notice of Intended Action and Accusation, he/she admits, denies and alleges as follows:

I do deny the Factual Allegations that on or about May 3rd 2021 Raley's start an investigation into allegation that Respondent had diverted drugs from multiple pharmacy locations.

The day I admit taking one tablet of Amlodipine 10mg & some office supply (paper folder & sharpie pen) happened after May 3rd. So Raley's start the investigation before I took the above mentioned & Also Raley's didn't state that May be somebody else ~~is~~ is doing those Unlawful act? (the schedule of hours & locations will show that clearly).

I really wish that some of the history of my work as a pharmacist been mentioned:

I worked 12-13 years as a staff pharmacist @ CVS (24 hours) in Aliso Viejo, California.

I worked as a consultant pharmacist for "Doctor without Border" overseas in Amman, Jordan.

I was a consultant pharmacist at high dessert state prison in susanville, California.

I was a staff pharmacist @ 24 Hours Walgreen Pharmy in Reno, NV.

I hereby declare, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to the best of my knowledge.

LEGAL ARGUMENTS

A. The Statement and any references to the Statement in the records must be suppressed because at the time of the investigation Ms. Alrass was physically and mentally disabled.

There are several definitions for "disability" in the State and federal laws. For example, State of Nevada Workers' compensation laws have a definition for disability. The ADA also has its own definition of disability. However, most often, the courts cite NRS 426.068, which defines "disability" as:

> 1. A physical or mental impairment that substantially limits one or more of the major life activities of the person;
>
> 2. A record of such an impairment; or
>
> 3. Being regarded as having such an impairment.

The Statement shows that Ms. Alrass informed Ms. Segedy that she broke her back in an accident at her home on May 15, 2021, and underwent a surgery on her back on May 17, 2021. Exhibit 1. The Statement also shows Ms. Alrass informed Ms. Segedy that she is on the following medications: Tramadol[1], Ambien[2], and Oxycodone[3]. Id.

On July 13, 2021, Ms. Alrass sent an e-mail to Ms. Segedy informing her: "Yesterday and today I'm bed ridding (sic) because I 'm in sever (sic) pain my physician specifically told me not to set (sic) or stand more than 20 minutes, and the meeting took more than an hour."[4] Exhibit 2.

Based on the above-referred evidence, Ms. Segedy was informed of Ms. Alrass' physical and mental problems due to her back surgery and the

[4] Ms. Alrass has been a pharmacist for approximately 25 years with no prior records of any disciplinary action against her in Nevada or California. As noted in the above-referred quotation, there are three (3) typographical errors in one sentence. Although these errors alone would not indicate mental disability, they should have alarmed Ms. Segedy that something is amiss here. This should have prompted her to seek assurance from Ms. Alrass that she understands what she is signing.

medications she was taking at the time. However, Ms. Segedy went ahead and prepared a four-page statement in which Ms. Alrass unknowingly made incriminating statements.

The Statement has no clause in which Ms. Alrass is informed of the effect of the incriminating statements contained in the Statement. It has no clause that informs Ms. Alrass she should seek the advice of a counsel before she signs it. In addition, it does not inform Ms. Alrass that the Statement will be used against her in a disciplinary proceeding.[5]

Based on the above, under NRS 48.035 (1), the Statement and any references in the records to the Statement[6] are not admissible because "...its probative value [if any] is substantially outweighed by the danger of unfair prejudice..."

CONCLUSION

---

[5] The Board of pharmacy of some states do have such clauses in the statements that their investigators prepare for the pharmacists to sign. For example, https://www.pharmacytimes.com/view/revocation-of-pharmacists-license-reviewed-by-appellate-court

[6] Including, but not limited to, references contained in the Notice of Intended Action regarding the statement of July 19, 2021.

Based on the above, Ms. Alrass respectfully requests that her Motion to Suppress Evidence be granted.

Statement of Ghayda Alrass

I, Ghayda Alrass, do hereby swear that the following statement of facts, as prepared by investigator Monica S. Segedy of the Nevada State Board of Pharmacy (NBOP) is a true and accurate representation of information I provided on 7/12/2021.

I am licensed and registered Pharmacist the NBOP, license #13706. I have been a pharmacist since 1996 in both California and Nevada. I moved to Nevada around 2009 or 2010. I have not had any discipline against me as a pharmacist since 1996.

In January 2021 I was hired as a Pharmacist for Raley's. In January 2021 I was provided with 2 ½ days of training. I worked for Raley's on a few occasions between February and the end of April. I also worked for approximately seven (7) days during the month of May 2021.

In May 2021 I was asked to fill in for a pharmacist that was going on vacation. I was asked to report to the Raley's Pharmacy located on Mayberry Dr. in Reno, NV. During the first week in May 2021 I worked on two separate occasions. One shift I opened the pharmacy and on another day I closed the pharmacy. On about my seventh day of employment with Raley's, I got into an argument with the "store lead". I do not recall his name, but he was about 20 years old. He pulled me aside and told me I needed to work faster as I had only filled two (2) prescriptions in an hour. I was very angry and insulted. I knew that if I called Human Resources (HR) and complained they would not do anything about it. I knew they would not come to the Pharmacy and speak with me, so in order to get the attention of HR I stole a few items. Specifically, I stole paper plates and cups and general office supplies. I knew HR would see my actions on the video cameras and call me. I also purposely showed the items I stole the three Raley's employees as I knew they would report me to HR.

On a separate occasion, after I closed the pharmacy I realized I still had the key, and that I had left the lockbox in the pharmacy. After the pharmacy had been closed for about an hour, I returned to the pharmacy to retrieve the lockbox. I do not recall being confronted by anyone from management at this time. I located the lockbox, returned the key to the box, and then turned the lockbox and key into a Raley's store team leader.

Exhibit 1

statement ✓

With regards to stealing dangerous drugs, on the day that I was confronted by management for working too slow I was very angry and agitated. I suffer from "emotional" high blood pressure and I felt as though I could not function and that I was going to have a nervous breakdown, I did not have my own medication with me, so I took a bottle of Amlodipine. I opened a new bottle, tore off the seal and took one pill. I then poured the remaining tablets into an amber colored vial used for patients and threw away the manufacturer's bottle. I then put the vial containing the tablets into my purse. I know these actions were stupid and not acceptable. But, I was very mad so I did it anyway. I later realized my actions were inappropriate so I brought the tablets back to the pharmacy. I recovered he manufacturer's bottle and poured the pills from the amber vial back into the original bottle. I then returned the drugs to the pharmacy shelf.

With regards to a second bottle of dangerous drugs being taken by me on this same date I have no recollection.

I am aware that these events were captured on video cameras in the pharmacy. However, the pharmacy cameras did not capture me returning the drugs to the pharmacy. I cannot explain why they captured me taking the pills, but not returning them.

I am currently prescribed the following controlled substances:

Tramadol
Ambien
~~Ambien~~ CR
Oxycodone

In the past I have been ~~prescribed Oxycodone and~~ CA Hydrocodone. Approximately four (4) years ago I was prescribed Norco after having a root canal. Approximately nine (9) months ago I was prescribed Norco after having my wisdom teeth pulled.

On 5/15/2021 I suffered a serious fall down the stairs in my home. I broke my back and had surgery on 5/17/2021. As a result, I am currently taking Oxycodone.

I am not currently working, nor am I able to work as a result of my back injury.

I am willing to sign an agreement with the NBOP that I will not work as a pharmacist, or in any facility that has access to dangerous drugs and/or controlled substances until the NBOP has completed their investigation.

To whom is may concern,

I did few days before the incident but Raleys didn't request my help from feb-end April 2021.

It's a lead and not a store manager who told me " you need to be fast ".. and that was around my 7th day with rales.

There were 3 coworker and not only the camera who I purposely show them I'm taking home office supply so they will tell loss prevenvition/ hr about that because i need HR come down and I'll tell them how that store lead insult.

I went one night back to phaarmacy because i had the key and put the alarm but forget the lockbox in the pharmacy, and the employee who put it in the store safe wasn't the store manager. Mr.Wuest said it's not a big deal if i took the key home. Sorry, indeed it's a big deal and it might cost me my license if I did that.

Mr.Wuest also mention that I did grocery shopping after i finish my shift, but i never heard that pharmacist grocery at the store is a crime.

In regard to my emotional blood pressure you can check with my PCP: dr.j. Schaup@775-851-5700

Fioricet is not controlled by many professional reference.

I had accident/ emergencies inside my house on 5/15/21..all record are with REMSA and Renown ER and main Renown 775-982-4100

Ocycodone given to me after my emergency back surgery on 5/17/21 then e-script to Walgreen on 5/19/21.. so that accident and RX has nothing to do with Raleys.

I been a pharmacist since 1996 in both California and Nevada and never had any problem or issue with them or my pre- employer.

My dentist a while ago gave me 16 tablets of Norco and not Oxycodone.

Mr.Wuest told me " i don't trust you to be a pharmacist and fill prescription "

I'm proud to serve my community over 20 years, and i wish mr.Wuest checked both my previous employers and CA and NV Board of pharmacy.

Than you,

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. GHAYDA ALRASS, RPH, Certificate of Registration No. 13706, Respondent.	CASE NO. 21-065-RPH-N OPPOSITION TO RESPONDENT'S MOTION TO SUPPRESS EVIDENCE

Nevada State Board of Pharmacy (Board), by and through counsel prosecuting this matter, Brett Kandt, General Counsel, files this opposition to Respondent Ghayda Alrass, RPH's Pre-Hearing Motion to Suppress Evidence filed September 17, 2021. This opposition is made pursuant to NRS 622A.360(3) and based upon the following points and authorities and the pleadings on file herein.

MEMORANDUM OF POINTS AND AUTHORITIES

I. PROCEDURAL BACKGROUND

The Notice of Intended Action and Accusation was filed and served in this matter together with the Statement to Respondent and Notice of Hearing on or about August 3, 2021. Respondent filed an Answer and Notice of Defense on August 17, 2021. This matter is set for hearing on October 13, 2021.

II. LEGAL STANDARD

Respondent seeks to suppress evidence of her admissions made in the course of the Board's investigation pursuant to NRS 48.035(1), which states that relevant evidence is inadmissible "if its probative value is substantially outweighed by the danger of unfair prejudice." As the Nevada Supreme Court has stated:

> Because all evidence against a defendant will on some level "prejudice" (*i.e.*, harm) the defense, NRS 48.035(1) focuses on "unfair" prejudice. This court has defined "unfair prejudice" under NRS 48.035 as an appeal to "the emotional and

> sympathetic tendencies of a jury, rather than the jury's intellectual ability to evaluate evidence.

State v. Eighth Judicial Dist. Court of Nev., 127 Nev. 927, 933, 267 P.3d 777, 781 (2011) (citations omitted).

"The term 'probative value' sums up the positive benefits of evidence the trial judge should weigh against the potential harms listed in NRS 48.035." *Harris v. State*, 134 Nev. 877, 881, 432 P.3d 207, 211 (2018) (citations omitted). "By requiring the prejudicial effect of evidence to 'substantially outweigh' its probative value, NRS 48.035 [strongly favors] admissibility." *Krause Inc. v. Little*, 117 Nev. 929, 935, 34 P.3d 566, 570 (2001) (citations omitted).

III. ARGUMENT

Respondent seeks suppression on the basis that she was "physically and mentally disabled" at the time of the investigation and "unknowingly made incriminating statements" without being warned of the consequences. Respondent's Motion at 3:12-4:4. Respondent's Motion must be denied since it is unsupported by affidavits or other evidence and is predicated upon erroneous application of the law.

A. Respondent's Motion must be denied since it is unsupported by affidavits or other evidence.

Respondent's broad assertion that she was "physically and mentally disabled" under federal and/or State law during the investigation, specifically, when providing her signed statement and corresponding agreement not to practice on July 19, 2021, is unsupported by affidavits or other evidence. *See* NRCP 43(c) ("When a motion relies on facts outside the record, the court may hear the matter on affidavits or may hear it wholly or partly on oral testimony or on depositions."); *Glover v. Eighth Judicial Dist. Court of Nev.*, 125 Nev. 691, 708, 220 P.3d 684, 695-96 (2009) ("Defense counsel is no more entitled than the prosecutor to assert a fact that which has not been introduced in evidence."). Respondent provides no affidavit from a health

care professional or other evidence in support of her contentions that she was "physically and mentally disabled" and not competent on July 19th, and her Motion fails as a result.

B. Respondent is presumed competent and the circumstances indicate that her admissions were knowing and voluntary.

The general presumption is that a person is competent to be a witness. *See Hall v. State*, 366, 368, 513 P.2d 1244, 1246 (1973) (citing NRS 50.015). "There are, of course, no fixed or immutable signs which invariably indicate the need for further inquiry to determine fitness to proceed." *Drope v. Missouri*, 420 U.S. 162, 180 (1975).

On July 12, 2001, Board investigator Monica Segedy interviewed Respondent during an investigation into her alleged theft of Raley's property and inventory, including prescription drugs, from multiple pharmacy locations for her personal use. *See* **Exhibit 1** - Declaration of Monica Segedy at ¶ 2.

Based upon Respondent's interview, Segedy prepared a written statement and an agreement not to practice and on July 14, 2021, went to the Respondent's residence to present both for her review since Respondent had represented that she was bedridden as a result of back surgery on May 17th. When Segedy arrived at the residence, she encountered an unknown male who represented that he was Respondent's husband and advised that Respondent was not home. *See* **Exhibit 1** - Declaration of Monica Segedy at ¶ 3.

Segedy subsequently presented both the written statement and an agreement not to practice to the Respondent for her signature on July 19, 2021. At that time Respondent made certain revisions to her statement and voluntarily signed her statement and corresponding agreement not to practice. Board investigator Dave Jones was also present. *See* **Exhibit 1** - Declaration of Monica Segedy at ¶ 4.

When Respondent voluntarily signed her statement and corresponding agreement not to practice on July 19th she appeared lucid and did not appear to be under the influence of any drugs. *See* **Exhibit 1** - Declaration of Monica Segedy at ¶ 5.

Respondent knew that she was the subject of the Board's investigation and her agreement not to practice demonstrates that she understood that her ability to practice pharmacy in Nevada as a registered pharmacist was at risk. The fact that Respondent made certain revisions to her statement prior to voluntarily signing the statement further establishes that she was competent at that time. Moreover, her absence from her residence when Segedy arrived on July 14th casts doubt upon her representations that she was "bedridden".

C. Respondent's admissions in the course of the investigation are admissible as an admission of a party opponent.

Respondent's statements constitute admissions of a party opponent admissible under NRS 51.035(3)(a). "[W]hatever a party voluntarily admits to be true, though the admission be contrary to his interests, may reasonably be taken for the truth." *Peterson v. Pittsburg Silver Peak Gold Mining Co.*, 37 Nev. 117, 130, 140 P. 519, 524 (1914). It is the prerogative of the Board to determine what, if any weight to give Respondent's admissions. "[I]t is exclusively within the province of the trier of fact to weigh evidence and pass on the credibility of witnesses and their testimony." *DeChant v. State*, 116 Nev. 918, 924, 10 P.3d 108, 112 (2000) (citations omitted).

D. *Miranda* warnings were not required since Respondent's admissions were not made during a custodial interrogation in a criminal investigation.

Finally, Respondent argues that her July 19th statement contained no clause informing her "of the effect of the incriminating statements contained" therein, that "she should seek the advice of a counsel" before signing, and that the statement "will be used against her in a disciplinary proceeding." Respondent's Motion at 4:5-9. There is no constitutional or statutory requirement that a statement obtained from a licensee or registrant in the course of a Board investigation include such language.

While Respondent alludes to *Miranda* warnings, those warnings are required for custodial interrogations in criminal investigations under the Fifth Amendment. *Miranda v.*

Arizona, 384 U.S. 436, 498 (1966); *Stansbury v. California*, 511 U.S. 318, 322 (1994). Even though information obtained through an administrative investigation may result in criminal prosecution, *Miranda* warnings are not required in investigations which are non-criminal in nature. The Nevada Supreme Court has expressly held that "[i]n holding [disciplinary] hearings, the Board [is] not adjudicating alleged criminal violations and [is] therefore not bound to apply criminal standards." *Dutchess Business Services, Inc. v. Nevada State Bd. of Pharmacy*, 124 Nev. 701, 716, 191 P.3d 1169 (2008).

Furthermore, *Miranda* warnings are not required for "non-custodial" interviews. "A suspect is . . . in 'custody' for *Mirada* purposes when placed under formal arrest or when a reasonable person in the suspect's position would have understood the situation to constitute a restraint on freedom of movement of the degree which the law associates with formal arrest." *United States v. Nelson*, 990 F.3d 947, 955 (5th Cir. 2021). Respondent's admissions were not the result of a custodial interrogation.

IV. CONCLUSION

Based upon the foregoing, Respondent has made no showing of unfair prejudice and the prosecution respectfully requests that the Board deny Respondent's Pre-Hearing Motion to Suppress Evidence.

RESPECTFULLY SUBMITTED this 22nd day of September 2021.

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. GHAYDA ALRASS, RPH, Certificate of Registration No. 13706, Respondent.	CASE NO. A-21-065-RPH-N

RESPONDENT'S REPLY TO OPPOSITION TO MOTION TO SUPPRESS EVIDENCE

Respondent, Ghayda Alrass, by and through her attorney, Persi J. Mishel, Esq., hereby files her above-titled Reply.

This Reply is supported by the papers and pleadings on file, the accompanying Memorandum of Points and Authorities, and any oral argument that the Board may entertain at the hearing of this Motion.

Dated this 25th day of September, 2021.

/s/ Persi J. Mishel
Persi J. Mishel, Esq.

A. Under NRS 48.035(1), the July 19 Statement and any references to such a statement must be suppressed because its probative value, if any, is substantially outweighed by the danger of unfair prejudice.

The Board and the Respondent agree that the legal standard to decide on this Motion is NRS 48.035(1). Opposition at p.1. The Board argues that the Motion should be denied because it is not supported "by affidavits or other evidence." Id. At p.2. The Board relies on NRCP 43(c), which provides: "When a motion relies on facts outside the record, the court **may** hear the matter on affidavits or **may** hear it wholly or partly on oral testimony or on depositions." (Emphasis added.)

There is no wording in this rule that states the Motion should be denied because it lacks an affidavit or "other evidence." The rule simply gives the trial judge a discretion to consider "facts outside the records" by an affidavit, testimony, or deposition."

B. The facts and special circumstances of this case do not indicate that Respondent was competent and her statements were given knowingly and voluntarily.

The Board argues that Respondent is "presumed" to be competent and "her admissions were knowing and voluntarily." Opposition at p.3. The Board argues that under the case law there is a "general presumption that a person is competent to be a witness." Id. The evidence shows Respondent was under duress because Ms. Segedy told her that if Respondent does not sign the Statement and return it to the Board by July 12, 2021, the Board's Executive "can proceed with summary suspension" of Respondent's license. Exhibit 1, p. 4.

As noted in the Motion to Suppress, Respondent informed Ms. Segedy that Respondent had an accident at home on May 15, 2021, in which she broke her back. She informed Ms. Segedy that she underwent a surgery on May 17, 2021. She informed Ms. Segedy that she is taking prescribed medications.[1] She also informed Ms. Segedy that she is bedridden due to the pain. Exhibits 1 and 2, attached to the Motion to Suppress. Such facts and circumstances do not show the Respondent was competent and made the statement knowingly and voluntarily.

The Board relies on Ms. Segedy's affidavit attached to its Opposition. While Ms. Segedy can give her opinion as to what she observed regarding the Respondent been "lucid and did not appear to be under influence of any drugs," the facts and circumstances of this case show otherwise.

C. The facts and special circumstances of this case show that the alleged admissions obtained during the course of investigation should not be admitted into evidence.

The Board argues the alleged admissions made by the Respondent should be admitted "as an admission of a party opponent." Opposition, at p.4. The Board relies on NRS 51.035(3)(a). The alleged admissions would have been

---

[1] Attached Exhibit 3 shows the medications Respondent was taking from May 1, 2021 to August 30, 2021.

admissible had Respondent not being under duress and was competent when she made those alleged admissions.

D. Respondent is not arguing Miranda warnings should have been given to her before she made the alleged admissions.

The Board argues Miranda warning is not applicable to this case because the alleged admissions "were not made during custodial investigation. Opposition at pages 4-5. Respondent is not arguing application of Miranda warnings to this case.

Considering Respondent's condition due to her broken back, which caused her to undergone a serious back surgery in the form of laminectomy and fusion at T6-T8 levels, being in pain to the extent she was bedridden, being on prescribed medications, being under duress that if she does not sign the July 19 statement, there will be suspension of her license, the "Garrity warning" should have been given to Respondent by the Board's investigators.[2]

The "Garrity warning" is named after the Supreme Court case Garrity v. New Jersey. 385 U.S. 493 (1967). In Garrity, several police officers suspected of participating in a traffic ticket fixing scheme were questioned by

---

[2] The records do not show her employer gave her "Garrity warning." Therefore, at October 13 hearing, Respondent will be objecting to the Board's proposed evidence from the employer on the grounds of lack of "Garrity warning" and other evidentiary rules.

investigators from the state attorney general's office. Prior to questioning, the officers were given warnings that if they refused to answer, they would be fired.[3] The officers agreed to answer the questions, and their answers were later used to convict them at trial. The Supreme Court held that the officers' answers were "compelled" in violation of the Fifth Amendment. Although the Garrity opinion did not mandate any particular warning in the way that *Miranda* did, after Garrity, federal and state agencies began to incorporate a *Garrity* warning when they question their employees during an investigation.[4] Although the wording of the *Garrity* warning will change from place to place, principally it serves to inform the employee that that any statements made will be used against him or her in Court, that he or she is free to refuse to answer questions, and most importantly, that a refusal to answer questions will not result in any adverse action against the employee—such as termination.

---

[3] *In Respondent's case, Ms. Segedy warned her that if Respondent does not sign the July 19 statement, her license will be immediately suspended.*

[4] *Respondent is not an employee of the Board. However, the reasoning behind the* Garrity*'s decision makes it compelling that* Garrity Warning should have been given to Respondent. As noted in Respondent's Motion to Suppress, the Board of Pharmacy of some states do give Garrity Warning to the pharmacists under investigation. See Respondent's Motion to Suppress, page 4, footnote 5.

There are no statues, regulations, administrative codes, or Nevada case law that require "Garrity warning" be given to a pharmacist under investigation by the Board before the pharmacist signs a document that contains incriminating statements. This is the case of first impression in Nevada.

E. CONCLUSION

Based on the above, Ms. Alrass respectfully requests that her Motion to Suppress Evidence be granted.[5]

Dated this 25th day of September, 2021.

/s/ Persi J. Mishel
Persi J. Mishel, Esq.

[5] This Motion should not be interpreted as the only objection Respondent has to the Board's 42-page proposed evidence. Pursuant to NRS 233B.123(1), Respondent intends to object to several pages contained in the 42-page proposed evidence.

NEVADA STATE BOARD OF PHARMACY

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. **KORD T. STREBEL, MD,** **Certificate of Registration Nos. CS13593 and PD00333, and** **THOMAS E. STREBEL, RPH,** **Certificate of Registration Nos. 18239 and TD01379,** **Respondents.**	CASE NO. 19-053-CS-S 19-053-RPH-S **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, R.Ph., in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because at the time of the events alleged herein, Respondent Kord T. Strebel, MD (Dr. Strebel), held a controlled substance registration, Certificate of Registration No. CS13593, and dispensing practitioner registration, Certificate of Registration No. PD00333; and Thomas E. Strebel, R.Ph. (pharmacist Strebel), held a pharmacist registration, Certificate of Registration No. 18239, and a dispensing technician registration, Certificate of Registration No. TD01379, all issued by the Board.

FACTUAL ALLEGATIONS

2. Respondents operate the Nevada Obstetrical Charity Clinic, located at 1950 Pinto Lane in Las Vegas.

3. On March 22, 2019, Board staff performed an annual inspection of the Nevada Obstetrical Charity Clinic and found violations of Nevada law.

4. Respondents failed to keep complete and accurate records of nonsterile compounded drug products. Board staff reviewed approximately 110 compounding records and all lacked any documentation of the individual that performed the compounding or the individual that checked the final product.

5. Dr. Strebel failed to verify the accuracy of dispensed compounded drug products.

6. Respondents failed to establish and follow policies and procedures for compounding and dispensing nonsterile drug products.

7. Respondents failed to properly and accurately label prescriptions. Prescriptions reviewed showed errors made on the number of refills ordered by Dr. Strebel. Some prescriptions written with "NO" refills indicated "refills" on the electronic record and medication label, while other prescriptions written with refills indicated "NO" refills in the electronic record. Other prescriptions specified a beyond use date that predated the date of the prescription. Prescriptions also lacked mandated auxiliary labels for alcohol consumption warning.

8. Respondents had possession of unlabeled bottles of medication.

9. Respondents failed to conduct and maintain an accurate biennial inventory of controlled substances.

10. Dr. Strebel permitted Thomas Strebel to order, receive and have unrestricted access to the inventory of controlled substances, dangerous drugs and drug products at the Nevada Obstetrical Charity Clinic.

11. Dr. Strebel failed to upload required information to the Prescription Monitoring Program when dispensing controlled substances to several patients from November 4, 2017 to November 4, 2019.

12. On or about June 11, 2020, Board staff performed an annual inspection of the Nevada Obstetrical Charity Clinic and found the violations of Nevada law detailed above ongoing.

13. On or about May 19, 2021, Board staff attempted to perform an annual inspection of the Nevada Obstetrical Charity Clinic and were denied entry.

14. On or about June 7, 2020, Board staff performed an annual inspection of the Nevada Obstetrical Charity Clinic and found the violations of Nevada law detailed above ongoing.

15. On at least two occasions Dr. Strebel filled prescriptions - Prescription Nos. 501818 and 501846 - written by another practitioner and failed to strictly follow the instructions of the practitioner when filling and dispensing the medication.

Defendant.

No. 2:20-cr-276-GMN-EJY

Plea Agreement for Defendant David Howard Babit Pursuant to Fed. R. Crim. P. 11(c)(1)(A) and (B)

This plea agreement between David Howard Babit ("defendant") and the United States Attorney's Office for the District of Nevada (the "USAO") sets forth the parties' agreement regarding the criminal charges referenced herein and the applicable sentences, fines, restitution, and forfeiture in the above-captioned case. This agreement binds only defendant and the USAO and does not bind the district court, the U.S. Probation Office, or any other federal, state, local, or foreign prosecuting, enforcement, administrative, or regulatory authorities. This agreement does not prohibit the USAO or any agency or third party from seeking any other civil or administrative remedies, including civil forfeiture *in rem,* directly or indirectly against defendant or defendant's property.

This agreement becomes effective upon signature by defendant, defendant's counsel, and an Assistant United States Attorney.

I. DEFENDANT'S OBLIGATIONS

1. Defendant agrees to:

a. Give up the right to indictment by a grand jury and, at the earliest opportunity requested by the USAO and provided by the Court, appear and plead guilty to a two-count information in the form attached to this agreement as Exhibit A or a substantially similar form, which charges defendant with *Coercion and Enticement*, in violation of 18 U.S.C. § 2422(b) (Count 1 – Victim 1) and *Coercion and Enticement*, in violation of 18 U.S.C. § 2422(b) (Count 2 – Victim 2).

b. Stipulate to the facts agreed to in this agreement;

c. Abide by all agreements regarding sentencing contained in this agreement;

d. Not seek to withdraw defendant's guilty pleas once they are entered;

e. Appear for all court appearances, surrender as ordered for service of sentence, obey all conditions of any bond, and obey any other ongoing court order in this matter;

f. Not commit any federal, state, or local crime;

g. Be truthful at all times with the U.S. Probation and Pretrial Services Offices and the Court;

h. Before and after sentencing, upon request by the Court, the USAO, or the Probation Office, provide accurate and complete financial information, submit sworn statements, and/or give depositions under oath concerning defendant's assets and defendant's ability to pay. As part of the required disclosure, defendant agrees to provide any and all financial information and authorizations requested by the Probation Office for preparation of the Presentence Report. Defendant further agrees that, upon filing of this agreement, the USAO is authorized to obtain defendant's credit report. Defendant will also complete a financial form provided by the USAO, to include all supporting documentation, and return it to the USAO

within three (3) weeks from entry of the plea. Defendant agrees that the district court may enter any order necessary to effectuate or facilitate disclosure of defendant's financial information.

i. To facilitate payment of any fine, forfeiture, restitution, or assessment, surrender assets defendant obtained directly or indirectly as a result of defendant's crimes. Defendant agrees to voluntarily release funds and property under defendant's control or in which defendant has any property interest, before and after sentencing, to pay any fine or restitution identified in this agreement, agreed to by the parties, or ordered by the Court.

j. Agree to and not oppose the imposition of the following special conditions of probation or supervised release:

Failure to submit to a search may be grounds for revocation of release. The defendant must warn any other occupants that the premises may be subject to searches pursuant to this condition. Any search must be conducted at a reasonable time and in a reasonable manner.

///

///

v. Computer Search – The defendant must submit his computers (as defined in 18 U.S.C. § 1030(e)(1)) or other electronic communications or data storage devices or media, to a search. A probation officer may conduct a search pursuant to this condition only when reasonable suspicion exists that there is a violation of a condition of supervision and that the computer or device contains evidence of this violation. vi. Computer Monitoring – To enable the computer search condition, the defendant must submit your computers (as defined in 18 U.S.C. § 1030(e)(1)) or other electronic communications or data storage devices or media, to the installation of computer monitoring software by the probation officer.

vii. Computer Search - Monitoring Software - To ensure compliance with the computer monitoring condition, the defendant must allow the probation officer to conduct periodic, unannounced searches of any computers (as defined in 18 U.S.C. § 1030(e)(1)) subject to computer monitoring. These searches shall be conducted for the purposes of

determining whether the computer contains any prohibited data prior to installation of the monitoring software; to determine whether the monitoring software is functioning effectively after its installation; and to determine whether there have been attempts to circumvent the monitoring software after its installation. The defendant must warn any other people who use these computers that the computers may be subject to searches pursuant to this condition

viii. Minor Prohibition – the defendant shall not have direct contact with any child you know or reasonably should know to be under the age of 18, not including his own children, without the permission of the probation officer. x. Report to Probation Officer After Release from Custody – The defendant shall report, in person, to the probation office in the district to which he is released within 72 hours of discharge from custody.

k. Defendant agrees that restitution shall be ordered due and payable in full immediately after the judgment is entered, and that the full amount of any restitution ordered is subject to immediate enforcement and collection by the USAO or defendant's victims, or both. Defendant agrees that any schedule of payments entered by the district court is a schedule of the

minimum payment due and does not prohibit or limit the methods by which the USAO may immediately enforce and collect the judgment in full. Defendant acknowledges that restitution may not be discharged, in whole or in part, in any present or future bankruptcy proceeding.

l. Child Pornography Restitution: The USAO and defendant stipulate and agree that the child pornography images received, distributed, or possessed by defendant depicted images of victims being sexually abused and further agree that a victim's knowledge that images of his or her abuse are being disseminated and possessed by others caused certain victims to be re-victimized and has resulted in harm that is distinct from that suffered from the actual contact physical sexual abuse, thus such victims are harmed by the actions of defendant. In consequence of these factors, if the USAO meets its burden under 18 U.S.C. § 2259, 18 U.S.C. § 3663, and pursuant to *Paroline v. United States*, 134 S. Ct. 1710 (2014), defendant agrees to pay restitution in the amount of $3,000 per victim, for any victim who may be identified through the Child Victim Identification Program (CVIP) or Child Recognition Identification System (CRIS) and who requests restitution prior to sentencing. Defendant agrees to pay this amount without requiring the USAO to disaggregate the loss attributed to the original sexual abuse or to other persons who disseminated, received, or possessed the child pornography images, from defendant's actions in this case. Defendant stipulates and agrees to the imposition of such restitution despite not being convicted of possession of child pornography pursuant to 18 U.S.C. § 3663(a)(3) which "authoriz[es] sentencing courts to award restitution to the extent agreed upon by the parties in a plea agreement, even if beyond those acts for which the defendant was convicted."

m. The forfeiture of the property and the imposition of the forfeiture of the property as set forth in this Plea Agreement and the Forfeiture Allegation of the Criminal Information.

II. THE USAO'S OBLIGATIONS

2. The USAO agrees to:

a. Stipulate to facts agreed to in this agreement;

b. Abide by all agreements regarding sentencing contained in this agreement;

c. At sentencing, provided that defendant demonstrates an acceptance of responsibility for the offenses up to and including the time of sentencing, recommend a two-level reduction in the applicable sentencing guidelines offense level, pursuant to USSG § 3E1.1, and move for an additional one-level reduction if available under that section;

d. Not bring any additional charges against defendant arising out of the investigation in the District of Nevada which culminated in this agreement and based on conduct known to the USAO. However, the USAO reserves the right to prosecute defendant for (a) any crime of violence as defined by 18 U.S.C. § 16; and (b) any criminal tax violations (including conspiracy to commit such violations chargeable under 18 U.S.C. § 371). Defendant agrees that the district court at sentencing may consider any uncharged conduct in determining the applicable sentencing guidelines range, the propriety and extent of any departure from that range, and the sentence to be imposed after consideration of the sentencing guidelines and all other relevant factors under 18 U.S.C. § 3553(a).

III. ELEMENTS OF THE OFFENSES

3. Counts One and Two: The elements of *Coercion and Enticement* under 18 U.S.C. § 2422(b) are as follows:

First: The defendant knowingly persuaded, induced, enticed, or coerced, and attempted to, the Victim to engage in any sexual activity;

Second: The defendant used the Internet, the mail, a telephone, a cell phone, or any facility or means of interstate or foreign commerce to do so;

Third: When the defendant did these acts, the defendant believed that the Victim was less than 18 years of age; and

Fourth: That, had the sexual activity actually occurred, one or more of the individuals engaging in the sexual activity could have been charged with a criminal offense, to wit: *Sexual Exploitation of Children*, in violation of 18 U.S.C. § 2251(a).

See Eleventh Circuit Model Criminal Jury Instructions No. O92.2 (Revised 2016) and Fifth Circuit Pattern Jury Instruction 2.91 (2015).

IV. CONSEQUENCES OF CONVICTION

4. Maximum and Minimum Statutory Penalties:

a. Defendant understands that the statutory maximum sentence the district court can impose for each violation of 18 U.S.C. § 2422(b) as charged in Counts One and Two, is: life imprisonment; lifetime supervised release; a fine of $250,000 or twice the gross gain or gross loss resulting from the offenses, whichever is greatest.

b. Defendant understands that the statutory mandatory minimum sentence that the Court must impose for a violation of 18 U.S.C. § 2422(b) as charged in Counts One and Two is: ten years of imprisonment, followed by a five-year period of supervised release, and a mandatory special assessment of $100.

c. Defendant understands, therefore, that the total maximum sentence for all offenses to which defendant is pleading guilty is: life imprisonment; a lifetime period of supervised release; a fine of $500,000 or twice the gross gain or gross loss resulting from the offenses, whichever is greatest; and a mandatory special assessment of $200.

5. Mandatory Restitution Pursuant to 18 U.S.C. § 2429: Defendant understands that defendant will be required to pay full restitution to the victims of the offenses to which defendant

is pleading guilty. Defendant agrees that, in return for the USAO's compliance with its obligations under this agreement, the Court may order restitution to persons other than the victims of the offenses to which defendant is pleading guilty and in amounts greater than those alleged in the counts to which defendant is pleading guilty. In particular, defendant agrees that the Court may order restitution to any victim of any of the following for any losses suffered by that victim as a result: (a) any relevant conduct, as defined in USSG § 1B1.3, in connection with the offenses to which defendant is pleading guilty and (b) any charges not prosecuted pursuant to this agreement as well as all relevant conduct, as defined in USSG § 1B1.3, in connection with those counts and charges. This restitution includes all identified victims, including those for which defendant was not convicted (Victim 3 and Victim 4), pursuant to 18 U.S.C. § 3663(a)(3) which "authoriz[es] sentencing courts to award restitution to the extent agreed upon by the parties in a plea agreement, even if beyond those acts for which the defendant was convicted."

6. Criminal Forfeiture: Defendant understands that the district court will impose forfeiture of the property.

7. JVTA Special Assessment: Defendant understands that, pursuant to the Justice for Victims of Trafficking Act of 2015, the Court shall impose an additional $5,000 special assessment per count if the Court concludes that defendant is a non-indigent person, to be paid after defendant's other financial obligations have been satisfied.

8. SORNA Registration: Defendant understands and agrees that under the Sex Offender Registration and Notification Act ("SORNA"), 34 U.S.C. 20901 et. seq., defendant must register as a sex offender and keep the registration current in each of the following jurisdictions: (1) where defendant resides; (2) where defendant is an employee; and (3) where defendant is a student. Defendant understands that he must comply with all the registration requirements contained in SORNA. 42 U.S.C. § 16901 et. seq. Defendant further understands

that the requirements for registration include, but are not limited to, providing defendant's name, residence address, and the names and addresses of any places where defendant is or will be an employee or a student.

Defendant further understands that the requirement to keep the registration current includes, but is not limited to, informing at least one jurisdiction in which defendant resides, is an employee, or is a student no later than three business days after any change of defendant's name, residence, employment, or student status. Defendant has been advised, and understands, that failure to comply with these obligations subjects defendant to an additional prosecution for failure to register as a sex offender under 18 U.S.C. § 2250(a).

9. Parole Abolished: Defendant acknowledges that defendant's prison sentence cannot be shortened by early release on parole because parole has been abolished.

10. Supervised Release: Defendant understands that supervised release is a period of time following imprisonment during which defendant will be subject to various restrictions and requirements. Defendant understands that if defendant violates one or more of the conditions of any supervised release imposed, defendant may be returned to prison for all or part of the term of supervised release authorized by statute for the offense that resulted in the term of supervised release.

11. Factors under 18 U.S.C. § 3553: Defendant understands that the district court must consider the factors set forth in 18 U.S.C. § 3553(a) in determining defendant's sentence. However, the statutory maximum sentence and any statutory minimum sentence limit the district court's discretion in determining defendant's sentence.

12. Potential Collateral Consequences of Conviction: Defendant understands that, by pleading guilty, defendant may be giving up valuable government benefits and valuable civic rights, such as the right to vote, the right to possess a firearm, the right to hold office, and the

right to serve on a jury. Defendant understands that once the district court accepts defendant's guilty pleas, it will be a federal felony for defendant to possess a firearm or ammunition. Defendant understands that the conviction in this case may also subject defendant to various other collateral consequences, including but not limited to revocation of probation, parole, or supervised release in another case and suspension or revocation of a professional license. Defendant understands that unanticipated collateral consequences will not serve as grounds to withdraw defendant's guilty pleas.

13. Potential Removal/Deportation Consequences of Conviction: Defendant understands that, if defendant is not a United States citizen, the felony conviction in this case may subject defendant to removal, also known as deportation, which may, under some circumstances, be mandatory; denial of citizenship; and denial of admission to the United States in the future. The district court cannot, and defendant's attorney also may not be able to, advise defendant fully regarding the immigration consequences of the felony conviction in this case. Defendant understands that unexpected immigration consequences will not serve as grounds to withdraw defendant's guilty pleas.

V. FACTUAL BASIS

14. Defendant admits that defendant is, in fact, guilty of the offenses to which defendant is agreeing to plead guilty. Defendant acknowledges that if defendant elected to go to trial instead of pleading guilty, the USAO could prove defendant's guilt beyond a reasonable doubt and establish its right to forfeit the specified property by preponderance of the evidence. Defendant further acknowledges that defendant's admissions and declarations of fact set forth below satisfy every element of the charged offenses. Defendant waives any potential future claim that the facts defendant admitted below are insufficient to satisfy the elements of the charged

offenses. Defendant admits and declares under penalty of perjury that the facts set forth below are true and correct:

Beginning on a date unknown and continuing to on or about April 24, 2017, defendant utilized the Internet applications LiveMe, ooVoo, Skype, and Snapchat, to contact Victim 1 (female) and Victim 2 (male). Both Victim 1 and Victim 2 were 12-years-old at the time defendant contacted them and both victims lived in Alabama. Victim 1 and Victim 2 were step-siblings. Victims 1 and 2 told defendant their true ages and relationship to each other. Defendant used the alias "Michael Diaz" and "Mike" when speaking with the victims and claimed to be a 16-year-old boy with a 13-year-old sister. When speaking to Victim 1, defendant claimed to be from Arizona; when speaking to Victim 2, defendant claimed to be from California. Defendant initially asked for pictures of the faces of Victim 1 and Victim 2 but soon began to ask for nude images. Defendant then directed the victims to create videos and images conducting sex acts with each other. In his attempts to convince them, defendant told the victims that it was okay to "do something" with your step-sister because he was taking showers with his 13-year-old sister and "doing things with her." Victim 2 blocked defendant on Skype, LiveMe, and Snapchat. However, defendant kept finding ways to locate the victims and demanded Victim 2 to unblock him.

At defendant's request, Victim 1 sent a picture to defendant of Victim 1 appearing to touch, but not actually touching, Victim 2's naked penis. Victim 2 also sent photos of his nude penis to defendant at defendant's request.

On or about April 23, 2017, Victim 2's mother took Victim 2's phone as punishment. While Victim 2's mother possessed the phone, a notification from Snapchat alerted the mother to a message defendant sent to Victim 2. Victim 2's mother looked at some of the Snapchat messages from defendant to Victim 2. She observed that defendant sent a picture of a naked

adult male penis followed by the message of "Are you ready to fuck [Victim 1]?" The next morning, Victim 2's mother spoke with Victim 1 and Victim 2, and then contacted law enforcement to report defendant's actions.

Investigators recovered Victim 1's cell phone during the investigation and conducted a forensic examination on it. Investigators located a chat between Victim 1 and defendant using the name "Joker Smith" on ooVoo.com. The full username was joker00762@im1.oovoo.com. The chat occurred between April 21, 2017, and April 22, 2017. The following is a portion of that conversation:

Investigators were ultimately able to determine the user of the above-identified account used an internet protocol address registered to defendant at [redacted] Erato Falls Street, Las Vegas, Nevada 89148. Investigators conducted a routine records search for defendant and learned defendant committed a similar offense in August of 2009 involving Victim 3. Victim 3 was 13-years-old and defendant coerced Victim 3 into sending sexually explicit images online, including a picture of her bare chest.

On December 1, 2017, law enforcement executed a search warrant at defendant's residence of XXXX Erato Falls Street, Las Vegas, Nevada 89148. During the execution of the search warrant, Las Vegas Metropolitan Police Department investigators conducted a recorded interview with defendant. Investigators advised defendant of his *Miranda* rights. Defendant waived his rights and spoke with investigators. Defendant admitted to utilizing Snapchat, Kik, Skype, Oovoo, and Stickam applications and the email address of [redacted] Defendant also confessed to chatting with preteens and possessing child pornography. He identified his Skype user name as '[redacted]'.

Investigators located and recovered eleven devices at defendant's residence, including the property listed in Section X, Paragraph 30, Section (a) of this plea agreement. Defendant admits that he is and was the sole owner of all the recovered devices. While viewing files located on item 1, the Lenovo desktop, the Forensic Examiner located a folder called "my Oovoo." The folder contained files in which defendant, using the name "Joker Smith" and the username [redacted], spoke with numerous female prepubescent children approximately 10 to 12-years-old. During these chats, defendant had his camera covered preventing the child from viewing him; however, defendant could view the child. In these chats, defendant directed the children to reveal themselves in lewd ways that constituted child pornography. Investigators identified Victim 4 from these chats and images. Victim 4 was 11-years-old at the time of

defendant's arrest. At least 788 unique images and at least 1,280 unique videos of child pornography were located on defendant's Lenovo Desktop computer. Additional images and videos of child pornography were located on five additional devices belonging to defendant, including images depicting Victims 1, 2, and 4.

The defendant admits that the property listed in Section X, Paragraph 30, Section (a) contained (1) any visual depiction described in Title 18, United States Code, Section 2252A, or any book, magazine, periodical, film, videotape, or other matter which contains any such visual depiction, which was produced, transported, mailed, shipped or received in violation of Title 18, United States Code, Section 2252A(a)(2) and (b) any property, real or personal, used or intended to be used to commit or to promote the commission of Title 18, United States Code, Section 2252A(a)(2) or any property traceable to such property, and is subject to forfeiture pursuant to Title 18, United States Code, Section 2253(a)(1) and (a)(3).

VI. SENTENCING FACTORS

15. Discretionary Nature of Sentencing Guidelines: Defendant understands that in determining defendant's sentence, the district court is required to calculate the applicable sentencing guidelines range and to consider that range, possible departures under the sentencing guidelines, and the other sentencing factors set forth in 18 U.S.C. § 3553(a). Defendant understands that the sentencing guidelines are advisory only, that defendant cannot have any expectation of receiving a sentence within the calculated sentencing guidelines range, and that after considering the sentencing guidelines and the other § 3553(a) factors, the district court will be free to exercise its discretion to impose any sentence it finds appropriate between the mandatory minimum and up to the maximum set by statute for the crimes of conviction.

16. Offense Level Calculations: The parties jointly agree and stipulate that, in calculating Defendant's advisory guidelines sentencing range, the Court should use the following

base offense level and adjustments; acknowledge that these stipulations do not bind the district court; and agree that they will not seek to apply or advocate for the use of any other base offense level(s) or any other specific offense characteristics, enhancements, or reductions in calculating the advisory guidelines range:

Count One (Victim 1):

Base Offense Level USSG § 2G1.3(a)(3):	28
Misrepresentation of identity USSG § 2G1.3(b)(2):	+2
Use of a computer USSG § 2G1.3(b)(3):	+2
Adjusted Offense Level:	**32**

Count Two (Victim 2):

Base Offense Level USSG § 2G1.3(a)(3):	28
Misrepresentation of identity USSG § 2G1.3(b)(2):	+2
Use of a computer USSG § 2G1.3(b)(3):	+2
Adjusted Offense Level:	**32**

Grouping USSG § 3D1:

Group One – Count One (Offense Level 32) Units:	1
Group Two – Count Two (Offense Level 32) Units:	1
Total Units	2
Resulting Increase in Offense Level USSG §3D1.4	+2
Total Adjusted Offense Level:	**34**
Pattern of Activity USSG § 4B1.5	+5
Total Combined Adjusted Offense Level:	**39**

17. Reduction for Acceptance of Responsibility: Under USSG § 3E1.1(a), the USAO will recommend that defendant receive a two-level downward adjustment for acceptance of

responsibility unless defendant (a) fails to truthfully admit facts establishing a factual basis for the guilty pleas when defendant enters the pleas; (b) fails to truthfully admit facts establishing the amount of restitution owed when defendant enters the guilty pleas; (c) fails to truthfully admit facts establishing the forfeiture allegations when defendant enters the guilty pleas; (d) provides false or misleading information to the USAO, the Court, Pretrial Services, or the Probation Office; (e) denies involvement in the offenses or provides conflicting statements regarding defendant's involvement or falsely denies or frivolously contests conduct relevant to the offenses; (f) attempts to withdraw defendant's guilty pleas; (g) commits or attempts to commit any crime; (h) fails to appear in court; or (i) violates the conditions of pretrial release.

Under USSG § 3E1.1(b), if the district court determines that defendant's total offense level before operation of § 3E1.1(a) is 16 or higher, and if the USAO recommends a two-level downward adjustment pursuant to the preceding paragraph, the USAO will move for an additional one-level downward adjustment for acceptance of responsibility before sentencing because defendant communicated defendant's decision to plead guilty in a timely manner that enabled the USAO to avoid preparing for trial and to efficiently allocate its resources.

18. Criminal History Category. Defendant acknowledges that the district court may base defendant's sentence in part on defendant's criminal record or criminal history. The district court will determine defendant's criminal history category under the sentencing guidelines.

19. Additional Sentencing Information: The stipulated sentencing guidelines calculations are based on information now known to the parties. Defendant understands that both defendant and the USAO are free to (a) supplement the facts in this agreement by supplying relevant information to the U.S. Probation and Pretrial Services Offices and the district court regarding the nature, scope, and extent of defendant's criminal conduct and any aggravating or mitigating facts or circumstances; and (b) correct any and all factual misstatements relating to the

district court's sentencing guidelines calculations and determination of sentence. While this paragraph permits both the USAO and defendant to submit full and complete factual information to the U.S. Probation and Pretrial Services Offices and the district court, even if that factual information may be viewed as inconsistent with the facts agreed to in this agreement, this paragraph does not affect defendant's and the USAO's obligations not to contest the facts agreed to in this agreement. Good faith efforts to provide truthful information or to correct factual misstatements shall not be grounds for defendant to withdraw defendant's guilty pleas.

Defendant acknowledges that the U.S. Probation Office may calculate the sentencing guidelines differently and may rely on additional information it obtains through its investigation. Defendant also acknowledges that the district court may rely on this and other additional information as it calculates the sentencing guidelines range and makes other sentencing determinations, and the district court's reliance on such information shall not be grounds for defendant to withdraw defendant's guilty pleas.

VII. POSITIONS REGARDING SENTENCING

20. The USAO will recommend that the district court sentence defendant within the advisory guideline range as determined by the district court. Defendant may argue for a downward variance pursuant to 18 U.S.C. § 3553.

21. Defendant acknowledges that the district court does not have to follow the recommendation of either party.

22. Notwithstanding its agreement to recommend a sentence as described above, the USAO reserves its right to defend any lawfully imposed sentence on appeal or in any post-conviction litigation.

23. If defendant commits any act that results in the Court finding that defendant is not entitled to a downward adjustment for acceptance of responsibility, the USAO is entitled to

argue for any sentence it deems appropriate under 18 U.S.C. § 3553(a). In any such event, Defendant remains bound by the provisions of this agreement and shall not have the right to withdraw defendant's guilty pleas.

VIII. WAIVER OF CONSTITUTIONAL RIGHTS

24. Defendant understands that by pleading guilty, defendant gives up the following rights:

a. The right to persist in a plea of not guilty;

b. The right to a speedy and public trial by jury;

c. The right to be represented by counsel—and if necessary have the court appoint counsel—at trial. Defendant understands, however, that, defendant retains the right to be represented by counsel—and if necessary have the court appoint counsel—at every other stage of the proceeding;

d. The right to be presumed innocent and to have the burden of proof placed on the USAO to prove defendant guilty beyond a reasonable doubt;

e. The right to confront and cross-examine witnesses against defendant;

f. The right to testify and to present evidence in opposition to the charges, including the right to compel the attendance of witnesses to testify;

g. The right not to be compelled to testify, and, if defendant chose not to testify or present evidence, to have that choice not be used against defendant; and

h. The right to pursue any affirmative defenses, Fourth Amendment or Fifth Amendment claims, and any other pretrial motions that have been filed or could be filed.

25. Understanding that the investigating agency has in its possession digital devices and/or digital media seized from defendant, defendant waives any right to the return of digital data contained on those digital devices and/or digital media and agrees that if any of these

digital devices and/or digital media are returned to defendant, the agency may delete all digital data from those digital devices and/or digital media before they are returned to defendant.

IX. WAIVER OF APPELLATE RIGHTS

26. Waiver of Appellate Rights. Defendant knowingly and expressly waives: (a) the right to appeal any sentence imposed within or below the applicable Sentencing Guideline range as determined by the district court; (b) the right to appeal the manner in which the district court determined that sentence on the grounds set forth in 18 U.S.C. § 3742; and (c) the right to appeal any other aspect of the conviction, including but not limited to the constitutionality of the statutes of conviction; any other aspect of the sentence; and any order of restitution or forfeiture.

27. Defendant reserves only the right to appeal any portion of the sentence that is an upward departure or variance from the applicable Sentencing Guideline range as determined by the district court.

28. Waiver of Post-Conviction Rights. Defendant also knowingly and expressly waives all collateral challenges, including any claims under 28 U.S.C. § 2255, to defendant's conviction, sentence, and the procedure by which the district court adjudicated guilt and imposed sentence, except non-waivable claims of ineffective assistance of counsel.

29. Preservation of Evidence: Defendant acknowledges that the USAO and the agencies investigating this case are not obligated or required to preserve any evidence obtained in the investigation of this case.

X. FORFEITURE

30. The defendant knowingly and voluntarily:

a. Agrees to the district court imposing the civil judicial forfeiture or the criminal forfeiture of:

i. Lenovo Desktop Computer, SN: ES11584791;

ii. HP Desktop Computer, SN: CNH7310662;

iii. Samsung S7 Edge Cell Phone, IMEI: 357751075148178;

iv. Samsung GTP511TS Tablet, SN: R32C7038AYL;

c. Abandons or forfeits the property to the United States;

d. Relinquishes all possessory rights, ownership rights, and all rights, titles, and interests in the property;

e. Waives defendant's right to any abandonment proceedings, any civil administrative forfeiture proceedings, any civil judicial forfeiture proceedings, or any criminal forfeiture proceedings of the property (proceedings);

f. Waives service of process of any and all documents filed in this action or any proceedings concerning the property arising from the facts and circumstances of this case;

g. Waives any further notice to defendant, defendant's agents, or defendant's attorney regarding the abandonment or the forfeiture and disposition of the property;

h. Agrees not to file any claim, answer, petition, or other documents in any proceedings concerning the property; agrees not to contest, or to assist any other person or entity in contesting, the forfeiture; and agrees to withdraw immediately any claim, answer, petition, or other documents in any proceedings;

i. Waives the statute of limitations, the CAFRA requirements, Fed. R. Crim. P. 7, 11, 32.2, and 43(a), including, but not limited to, forfeiture notice in the charging

document, the court advising defendant of the forfeiture at the change of plea, the court having a forfeiture hearing, the court making factual findings regarding the forfeiture, the court failing to announce the forfeiture at sentencing, and all constitutional requirements, including but not limited to, the constitutional due process requirements of any proceedings concerning the property;

j. Waives defendant's right to a jury trial on the forfeiture of the property;

k. Waives all constitutional, legal, and equitable defenses to the forfeiture or abandonment of the property in any proceedings, including, but not limited to, (1) constitutional or statutory double jeopardy defenses and (2) defenses under the Excessive Fines or Cruel and Unusual Punishments Clauses of the Eighth Amendment to the United States Constitution;

l. Agrees to the entry of an Order of Forfeiture of the property to the United States;

m. Waives the right to appeal any Order of Forfeiture;

p. Agrees and understands the USAO may amend the forfeiture order at any time to add subsequently located property or substitute property pursuant to Fed. R. Crim. P. 32.2(b)(2)(C) and 32.2(e);

q. Acknowledges that the amount of the forfeiture may differ from, and may be significantly greater than or less than, the amount of restitution; and

r. Agrees to take all steps as requested by the USAO to pass clear title of the property to the United States and to testify truthfully in any judicial forfeiture proceedings. Defendant understands and agrees that the property represents proceeds and/or facilitating property of illegal conduct and is forfeitable. Defendant shall provide the USAO with a full and complete financial disclosure statement under penalty of perjury within 10 days of executing the plea agreement. The financial statement shall disclose to the USAO all of assets and financial interests valued at more than $1,000. Defendant understands these assets and financial interests include all assets and financial interests that defendant has an interest, direct or indirect, whether held in defendant's name or in the name of another, in any property, real or personal. Defendant shall also identify all assets valued at more than $1,000 which defendant has transferred to third parties or diverted from defendant directly to third parties, since April 24, 2017, including the location of the assets and the identity of any third party.

s. The defendant admits the property is (1) any property, real or personal, that was used or intended to be used to commit or to facilitate the commission of 18 U.S.C. § 2422(b) and (2) any property, real or personal, used or intended to be used to commit or to facilitate the commission of 18 U.S.C. § 2422(b), and is subject to forfeiture pursuant to 18 U.S.C. § 2428(a)(1) and 18 U.S.C. § 2428(b)(1)(A) with 28 U.S.C. § 2461(c).

XI. RESULT OF WITHDRAWAL OF GUILTY PLEAS OR VACATUR/REVERSAL/SET-ASIDE OF CONVICTIONS

31. Consequence of withdrawal of guilty pleas: Defendant agrees that if, after entering guilty pleas pursuant to this agreement, defendant seeks to withdraw and succeeds in withdrawing defendant's guilty pleas on any basis other than a claim and finding that entry into this agreement was involuntary, then (a) the USAO will be relieved of all of its obligations under this agreement and (b) should the USAO choose to pursue any charge that was either dismissed or not filed as a result of this agreement, then (i) any applicable statute of limitations will be

tolled between the date of defendant's signing of this agreement and the filing commencing any such action; and (ii) defendant waives and gives up all defenses based on the statute of limitations, any claim of pre-indictment delay, or any speedy trial claim with respect to any such action, except to the extent that such defenses existed as of the date of defendant's signing this agreement.

32. Consequence of vacatur, reversal, or set-aside: Defendant agrees that if any count of conviction is vacated, reversed, or set aside, the USAO may: (a) ask the district court to resentence defendant on any remaining counts of conviction, with both the USAO and defendant being released from any stipulations regarding sentencing contained in this agreement; (b) ask the district court to void the entire plea agreement and vacate defendant's guilty pleas on any remaining counts of conviction, with both the USAO and defendant being released from all their obligations under this agreement; or (c) leave defendant's remaining convictions, sentence, and plea agreement intact. Defendant agrees that the choice among these three options rests in the exclusive discretion of the USAO, and that, should the USAO choose to pursue any charge that was either dismissed or not filed as a result of this agreement, then (i) any applicable statute of limitations will be tolled between the date of defendant's signing of this agreement and the filing commencing any such action; and (ii) defendant waives and gives up all defenses based on the statute of limitations, any claim of pre-indictment delay, or any speedy trial claim with respect to any such action, except to the extent that such defenses existed as of the date of defendant's signing this agreement.

XII. BREACH OF AGREEMENT

33. Defendant agrees that if, at any time after this agreement becomes effective, defendant knowingly violates or fails to perform any of defendant's obligations under this agreement ("a breach"), the USAO may declare this agreement breached. All of defendant's

obligations are material, a single breach of this agreement is sufficient for the USAO to declare a breach, and defendant shall not be deemed to have cured a breach without the express agreement of the USAO in writing. If the USAO declares this agreement breached, and the district court finds such a breach to have occurred, then: (a) if defendant has previously entered guilty pleas pursuant to this agreement, defendant will remain bound by the provisions of this agreement and will not be able to withdraw the guilty pleas, and (b) the USAO will be relieved of all its obligations under this agreement.

34. Following the Court's finding of a knowing breach of this agreement by defendant, should the USAO choose to pursue any charge that was either dismissed or not filed as a result of this agreement, then:

a. Defendant agrees that any applicable statute of limitations is tolled between the date of defendant's signing of this agreement and the filing commencing any such action.

b. Defendant waives and gives up all defenses based on the statute of limitations, any claim of pre-indictment delay, or any speedy trial claim with respect to any such action, except to the extent that such defenses existed as of the date of defendant's signing this agreement.

c. Defendant agrees that: (i) any statements made by defendant, under oath, at the guilty plea hearing (if such a hearing occurred prior to the breach); (ii) the agreed to factual basis statement in this agreement; and (iii) any evidence derived from such statements, shall be admissible against defendant in any such action against defendant, and defendant waives and gives up any claim under the United States Constitution, any statute, Federal Rule of Evidence 410, Federal Rule of Criminal Procedure 11(f), or any other federal rule, that the statements or any evidence derived from the statements should be suppressed or are inadmissible.

XIII. COURT AND UNITED STATES PROBATION AND PRETRIAL SERVICES OFFICE NOT PARTIES.

35. Defendant understands that the Court and the U.S. Probation and Pretrial Services Office are not parties to this agreement and need not accept any of the USAO's sentencing recommendations or the parties' agreements to facts or sentencing factors.

36. Defendant understands that both defendant and the USAO are free to argue on appeal and collateral review that the district court's sentencing guidelines calculations and the sentence it chooses to impose are not error.

37. Defendant understands that even if the district court ignores any sentencing recommendation, finds facts or reaches conclusions different from those agreed to by the parties, or imposes any sentence up to the maximum established by statute, defendant cannot, for that reason, withdraw defendant's guilty pleas, and defendant will remain bound to fulfill all defendant's obligations under this agreement. Defendant understands that no one—not the prosecutor, defendant's attorney, or the Court—can make a binding prediction or promise regarding the sentence defendant will receive, except that it will be within the statutory maximum.

XIV. ADDITIONAL ACKNOWLEDGMENTS

38. The Defendant acknowledges that:

a. Defendant read this agreement and defendant understands its terms and conditions.

b. Defendant had adequate time to discuss this case, the evidence, and this agreement with defendant's attorney.

c. Defendant carefully and thoroughly discussed all terms of this agreement with defendant's attorney.

d. Defendant understands the terms of this agreement and voluntarily agrees to those terms.

e. Defendant has discussed with defendant's attorney the following: the evidence; defendant's rights; possible pretrial motions that might be filed; possible defenses that might be asserted either prior to or at trial; the sentencing factors set forth in 18 U.S.C. 3553(a); the relevant sentencing guidelines provisions; and consequences of entering into this agreement.

f. The representations contained in this agreement are true and correct, including the factual basis for defendant's offenses set forth in this agreement.

g. Defendant was not under the influence of any alcohol, drug, or medicine that would impair defendant's ability to understand the agreement when defendant considered signing this agreement and when defendant signed it.

39. Defendant understands that defendant alone decides whether to plead guilty or go to trial, and acknowledges that defendant has decided to enter defendant's guilty pleas knowing of the charges brought against defendant, defendant's possible defenses, and the benefits and possible detriments of proceeding to trial.

40. Defendant understands that no promises, understandings, or agreements other than those set forth in this agreement have been made or implied by defendant, defendant's attorney, or the USAO, and no additional promises, agreements, or conditions shall have any force or effect unless set forth in writing and signed by all parties or confirmed on the record before the district court.

41. Defendant acknowledges that defendant decided to plead guilty voluntarily and that no one threatened, coerced, or forced defendant to enter into this agreement.

42. Defendant is satisfied with the representation of defendant's attorney, and defendant is pleading guilty because defendant is guilty of the charges and chooses to take advantage of the promises set forth in this agreement and for no other reason.

XV. PLEA AGREEMENT PART OF THE GUILTY PLEA HEARING

43. The parties agree that this agreement will be considered part of the record of defendant's guilty plea hearing as if the entire agreement had been read into the record of the proceeding.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **NATHAN DAHL, RPH,** **Certificate of Registration No. 17735, and** **DAHL'S SPECIALTY PHARMACY OF CARSON, License No. PH03605,** **Respondent.**	**CASE NOS. 21-069-RPH-N** **21-069-PH-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and/or NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Nathan Dahl, R.Ph., Certificate of Registration No. 17735, was a pharmacist registered by the Board, and Respondent Dahl's Specialty Pharmacy of Carson, License No. PH03605 (Dahl's Pharmacy), was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Respondent Nathan Dahl (Dahl) owned and operated Respondent Dahl's Specialty Pharmacy of Carson (Dahl's Pharmacy) at the time of the events alleged herein.

3. On or about February 3, 2021, D.L. was prescribed dalfampridine 5mg to be compounded in capsule form, 120 capsules, to be taken orally, 1 capsule 4x per day, with five (5) refills. The prescription was transmitted to Dahl's Pharmacy and designated as Prescription No. 5070945.

4. Between February 3 and May 12, 2021, each month Dahl compounded, filled and dispensed Prescription No. 5070945, 5mg dalfampridine, 120 capsules, for D.L. D.L. was Dahl's only patient taking dalfampridine during this period of time.

5. On or about May 12, 2021, Dahl dispensed Prescription No. 5070945 which contained a mixture of capsules compounded on April 20, 2021, lot #4202021, and May 10, 2021, lot #5102021.

6. Between May 12 and May 23, 2021, D.L. ingested Prescription No. 5070945 as directed by her physician, one capsule 4x per day.

7. On or about May 23, 2021, as a direct and proximate result of ingesting Prescription No. 5070945, D.L. began experiencing symptoms of a dalfampridine overdose and was transported via Care Flight from Carson City to Renown Regional Medical Center where she was diagnosed with toxic encephalopathy and status epilepticus and placed on life support.

8. On June 1, 2021, D.L.'s daughter advised Dahl of D.L.'s condition and questioned whether Prescription No. 5070945 was correctly compounded. Dahl stated that he would have the capsules tested.

9. On June 2, 2021, D.L.'s daughter provided Dahl with ten (10) capsules to be tested.

10. On June 3, 2021, Dahl left D.L.'s daughter a voicemail message representing that lab results indicated the correct dosage of 5mg dalfampridine per capsule.

11. On June 9, 2021, Dahl represented to Board investigator Monica Segedy (Segedy) that he sent ten capsules to Eagle Analytical Laboratories located in Texas (Eagle) to be tested, and that Eagle notified him the following day that each capsule contained 5mg of dalfampridine. Segedy requested Dahl provide her with a copy of the lab report from Eagle documenting their findings.

12. On or about June 9, 2021, D.L.'s daughter provided Segedy with fifty (50) dalfampridine capsules from Prescription No. 5070945.

13. On June 15, 2021, Dahl represented to Segedy that Eagle only did a mass spectrometry test on the capsules Dahl provided rather than a full assay test, that Eagle charged a $3500 fee for a full assay test, and without conducting a full assay test Eagle would not provide a written lab report.

14. Later on June 15, 2021, Dahl represented to Segedy that Eagle had agreed to provide a written lab report for the mass spectrometry test for a $500 charge and that he would email a copy of the written lab report later by the end of the day.

15. On June 16, 2021, Segedy contacted Dahl and inquired about the status of the Eagle lab report. Dahl represented that he did not have a lab report and that he had decided to have a full assay test conducted through ARL Bio Pharma in Oklahoma (ARL).

16. On June 16, 2021, Segedy asked Dahl to confirm that he did in fact send dalfampridine capsules to Eagle for a mass spectrometry test as previously represented. Dahl represented that the capsules were sent to ARL rather than Eagle and that he would provide a copy of the ARL lab report by the end of the day.

17. Later on June 16, 2021, Dahl represented to Segedy that ARL would not provide him with a written lab report.

18. On June 16, 2021, an Eagle representative advised Segedy that the lab never received any dalfampridine capsules from Dahl's Pharmacy for testing.

19. On June 16, 2021, Segedy sent two (2) of the suspect capsules to ARL for a complete assay test of the dalfampridine potency.

20. On June 21, 2021, an ARL representative advised Segedy that the lab never received any dalfampridine capsules from Dahl's Pharmacy for testing.

21. On June 30, 2021, Segedy questioned Dahl about the veracity of his statements on testing of the capsules; Dahl admitted that contrary to his previous statement he never at any time sent any capsules to either Eagle or ARL for testing.

22. On or about July 12, 2021, the Board received a certificate of analysis from ARL confirming that one of the capsules tested at 19.48 mg of dalfampridine, 4 times the prescribed dosage.

23. Inasmuch as it cannot be determined which batch the high potency capsule came from, lot #4202021 or lot #5102021, Dahl erroneously compounded the drug on or about April 20, 2021, or May 10, 2021, at 4 times the prescribed dosage.

24. On or about July 21, 2021, Dahl's Pharmacy ceased to do business and permanently closed.

34. As the pharmacy/pharmacy owner at which the violations of law alleged herein occurred, Respondent Dahl's Specialty Pharmacy of Carson is responsible for those violations, including all errors and omissions of Respondent Nathan Dahl, pursuant to NRS 639.230(5) and NAC 639.945(2).

After reviewing the Certificate of Analysis and the pharmacy's logs for the capsules, he was told by Eagle Labs that the capsules should be correct. Dahl left a voicemail for DL's daughter reporting his conversation with Eagle Labs.

11. Respondents deny the allegations in paragraph 11.

12. Respondents lack sufficient knowledge to admit or deny the allegations in paragraph 12 and therefore deny the same.

13. Respondents deny the allegations in paragraph 13. Rather, Dahl learned that Eagle Labs could not perform full assays on capsules. Eagle Labs could perform a mass spectrometry on the capsule ingredients, but this would not determine the amount of dalfampridine in each capsule.

14. Respondents deny the allegations in paragraph 14. Rather, on June 15, 2021, Dahl looked for labs that could conduct tests on individual capsules. He contacted ARL Bio Pharma ("ARL Bio"), located in Oklahoma City and was told ARL Bio could perform chemical identity tests on the capsules. This test would provide the quantity of dalfampridine in each capsule. Dahl sent all ten capsules to ARL Bio for testing. ARL Bio confirmed that it received ten capsules from Dahl's Specialty Pharmacy on June 16, 2021. *See* emails between Nathan Dahl and Michael Darnaby of ARL Bio attached as Exhibit A.

15. Respondents admit that allegations in paragraph 15. Because Dahl had learned that Eagle Labs could not conduct a full assay of the capsules, he sent the capsules to ARL Bio.

16. Respondents admit Dahl represented that the ten capsules were sent to ARL Bio rather than Eagle Labs. Respondents initially received information from an ARL Bio representative that a result could be provided the same day. Dahl represented this information to Segedy. Later that day, an ARL representative asked the purpose of the assay. After Dahl explained that a patient had ingested capsules from the same lot and that he needed to know the amount of dalfampridine in each capsule. The ARL Bio representative stated that because this was an ingestion, the test would have to be conducted as a forensic test that would take at least ten days. Dahl explained the urgency of the situation and the ARL Bio representative said the tests could be finished in five business days for an additional fee. Dahl agreed to pay the fee for accelerated turnaround. *See* Exhibit A. Respondents lack sufficient knowledge to admit or deny the remaining allegations in paragraph 16 and therefore deny the same.

17. Respondents admit that on or about June 16, 2021, Dahl represented to Segedy that ARL could not provide a written lab report on that same day. Dahl stated this because of the new information he received from ARL Bio (i.e., that even by paying a fee for accelerated turnaround, the tests would take five business days). *See* Exhibit A and paragraph 16 above.

18. Respondents lack sufficient knowledge to admit or deny the allegations in paragraph 18 and therefore deny the same. However, because Dahl learned that Eagle Labs could not conduct an assay of individual capsules, Dahl never sent the capsules to Eagle Labs. Rather, he sent the ten capsules to ARL Bio. Dahl had already explained this to Segedy.

19. Respondents lack sufficient knowledge to admit or deny the allegations in paragraph 19 and therefore deny the same.

20. Respondents lack sufficient knowledge to admit or deny the allegations in paragraph 20 and therefore deny the same. Contrary to the allegations in paragraph 20, Dahl received confirmation by email from ARL Bio that ARL Bio received the capsules on June 16, 2021. *See* email confirmation attached as Exhibit A.

21. Respondents admit that Segedy questioned Dahl on June 30, 2021. However, Dahl did not contradict his previous statements. As he had previously stated, Dahl had not sent capsules to Eagle Labs once he discovered Eagle Labs would not have been able to perform a complete assay on the capsules that would provide the quantity of dalfampridine in each capsule. Respondents deny that Dahl stated he never sent capsules to ARL Bio because he in fact did send capsules to ARL Bio as evidenced by the email confirmation attached as Exhibit A. Respondents lack sufficient knowledge to admit or deny the allegations in paragraph 21 and therefore deny the same.

22. Respondents admit they have received from Board staff a certificate of analysis that reflects the results of one of the capsules as alleged in paragraph 22. One of the capsules contained 5.35 mg of dalfampridine.

23. Respondents lack sufficient knowledge to admit or deny the allegations in paragraph 23 and therefore deny the same.

24. Respondents admit that allegations in paragraph 24.

(Respondent Nathan Dahl)

30. Paragraph 30 is a statement of law and is not susceptible to admission or denial. To the extent that paragraph 30 implies any unprofessional or unlawful conduct, Respondents deny the same.

(Respondent Dahl's Specialty Pharmacy of Carson)

33. Paragraph 33 is a statement of law and is not susceptible to admission or denial. To the extent that paragraph 33 implies any unprofessional or unlawful conduct, Respondents deny the same.

34. Respondents deny the allegations in paragraph 34.

OTHER DEFENSES

35. Each cause of action fails to state a claim upon which relief can be granted.

36. The Nevada Board of Pharmacy cannot as a matter of law determine whether any effects Patient D.L. allegedly experienced were the "direct and proximate" result of ingesting prescription 5070945 without expert medical opinion and medical records.

RESERVATION OF RIGHTS, DEFENSES, AND GENERAL DENIAL

37. Respondents reserve the right to assert other affirmative defenses in this matter and in any civil litigation that may follow and to provide additional facts and mitigating circumstances.

38. To the extent Respondents did not specifically admit allegations in the Notice, they deny such allegations.

PRAYER FOR RELIEF

39. That the Board find that the allegations in the Notice and all evidence presented to the Board do not support imposing discipline on any of the Respondent.

40. That the Board dismiss all Causes of Acton in in the Notice.

41. That the Board provide further relief to Respondents as it finds just and proper.

Good morning Nathan,

Thank you for inquiring about our testing services here at ARL! We would love to help you with your testing needs.

To get started with ARL, please see the attached "Welcome!" packet that has sample submission steps using our online portal, sample guidelines, and a few forms we would need filled out to set up your account:

- Billing/Client Information Form
- Credit Card Authorization Form
- A copy of your pharmacy's W9

Once we have these 3 items, we can set up your account. You can send these forms in with your samples, or send directly to me, whichever is more convenient for you.

I have also attached our 2021 Price Book which outlines our routine testing services, sample requirements, and turnaround times. Per our conversation, potency testing of dalfampridine (4-aminopyridine) is $160 per test and has a 3 business day turnaround time. We would need 5 capsules per potency test.

If you have any questions at all, such as a step-by-step walkthrough of the sample submission process, help with setting up your online portal account, or any other testing questions, please do not hesitate to contact me. I am more than happy to help in any capacity!

Thank you,

I have spoken with the State Board about the price and they are going to send a separate sample and we are going to split the cost of the test. Therefore, we do not need to proceed with this sample. I thank you very much for your promptness and all your help. I look forward to working with you in the future. Have a great day.

I am just following up with you on this matter. Does ARL Labs still have possession of the samples that were sent in directly to ARL Labs from Dahl's Specialty Pharmacy? What is your standard time frame of keeping such samples and can you verify how many samples you originally received directly from Dahl's Specialty Pharmacy and how many of those you currently have still? Thanks so much for all your help.

I can confirm we received 10 capsules total of lot# 05102021@6.

I will let you know ASAP if we still have this sample.

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **NATHAN DAHL, RPH,** **Certificate of Registration No. 17735, and** **DAHL'S SPECIALTY PHARMACY OF CARSON, License No. PH03605,** **Respondents.**	**CASE NOS. 21-069-RPH-N** **21-069-PH-N** **RESPONDENTS' ANSWER AND NOTICE OF DEFENSE**

Respondents Nathan Dahl, R.Ph. and Dahl's Specialty Pharmacy of Carson, by and through their counsel William J. Stilling, of and for Stilling & Harrison, PLLC, answer and provide notice of their defense to the Notice of Intended Action and Accusation ("Notice") in the above-entitled matter and declare as follows.

REQUEST FOR HEARING

Respondents request a hearing on the Notice.

RESPONSES TO ALLEGATIONS AND CAUSES OF ACTION

In answer to the Notice, Respondents admit, deny, and allege as follows:

JURISDICTION

1. Respondents admit the allegations in paragraph 1.

FACTUAL ALLEGATIONS

2. Respondents admit the allegations in paragraph 2

3. Respondents admit the allegations in paragraph 3.

4. Respondents admit the allegations in paragraph 4.

5. Respondents admit the allegations in paragraph 5.

6. Respondents lack sufficient knowledge to admit or deny the allegations in paragraph 6 and therefore deny the same.

7. Respondents lack sufficient knowledge to admit or deny the other allegations in paragraph 7 and therefore deny the same.

8. Respondents admit that on or about June 1, 2021, D.L.'s daughter advised Dahl of D.L.'s condition and questioned whether Prescription No. 5070945 was correctly compounded. Respondents lack sufficient knowledge to admit or deny the other allegations in paragraph 8 and therefore deny the same. Dahl reviewed the log record and prescription record with D.L.'s daughter. At some point, whether on June 1 or later, Dahl stated he would have the capsules tested.

9. Respondents admit the allegations in paragraph 9.

10. Respondents deny the allegations in paragraph 10. Rather, on or about June 3, 2021, Dahl contacted Eagle Labs. After reviewing the Certificate of Analysis and the pharmacy's logs for the capsules, he was told by Eagle Labs that the capsules should be correct. Dahl left a voicemail for DL's daughter reporting his conversation with Eagle Labs.

11. Respondents deny the allegations in paragraph 11.

12. Respondents lack sufficient knowledge to admit or deny the allegations in paragraph 12 and therefore deny the same.

13. Respondents deny the allegations in paragraph 13. Rather, Dahl learned that Eagle Labs could not perform full assays on capsules. Eagle Labs could perform a mass spectrometry on the capsule ingredients, but this would not determine the amount of dalfampridine in each capsule.

14. Respondents deny the allegations in paragraph 14. Rather, on June 15, 2021, Dahl looked for labs that could conduct tests on individual capsules. He contacted ARL Bio Pharma ("ARL Bio"), located in Oklahoma City and was told ARL Bio could perform chemical identity tests on the capsules. This test would provide the quantity of dalfampridine in each capsule. Dahl sent all ten capsules to ARL Bio for testing. ARL Bio confirmed that it received ten capsules from Dahl's Specialty Pharmacy on June 16, 2021. *See* emails between Nathan Dahl and Michael Darnaby of ARL Bio attached as Exhibit A.

15. Respondents admit that allegations in paragraph 15. Because Dahl had learned that Eagle Labs could not conduct a full assay of the capsules, he sent the capsules to ARL Bio.

16. Respondents admit Dahl represented that the ten capsules were sent to ARL Bio rather than Eagle Labs. Respondents initially received information from an ARL Bio representative that a result could be provided the same day. Dahl represented this information to Segedy. Later that day, an ARL representative asked the purpose of the assay. After Dahl explained that a patient had ingested capsules from the same lot and that he needed to know the amount of dalfampridine in each capsule. The ARL Bio representative stated that because this was an ingestion, the test would have to be conducted as a forensic test that would take at least ten days. Dahl explained the urgency of the situation and the ARL Bio representative said the tests could be finished in five business days for an additional fee. Dahl agreed to pay the fee for accelerated turnaround. *See* Exhibit A. Respondents lack sufficient knowledge to admit or deny the remaining allegations in paragraph 16 and therefore deny the same.

17. Respondents admit that on or about June 16, 2021, Dahl represented to Segedy that ARL could not provide a written lab report on that same day. Dahl stated this because of the new information he received from ARL Bio (i.e., that even by paying a fee for accelerated turnaround, the tests would take five business days). *See* Exhibit A and paragraph 16 above.

18. Respondents lack sufficient knowledge to admit or deny the allegations in paragraph 18 and therefore deny the same. However, because Dahl learned that Eagle Labs could not conduct an assay of individual capsules, Dahl never sent the capsules to Eagle Labs. Rather, he sent the ten capsules to ARL Bio. Dahl had already explained this to Segedy.

19. Respondents lack sufficient knowledge to admit or deny the allegations in paragraph 19 and therefore deny the same.

20. Respondents lack sufficient knowledge to admit or deny the allegations in paragraph 20 and therefore deny the same. Contrary to the allegations in paragraph 20, Dahl received confirmation by email from ARL Bio that ARL Bio received the capsules on June 16, 2021. *See* email confirmation attached as Exhibit A.

21. Respondents admit that Segedy questioned Dahl on June 30, 2021. However, Dahl did not contradict his previous statements. As he had previously stated, Dahl had not sent capsules to Eagle Labs once he discovered Eagle Labs would not have been able to perform a complete assay on the capsules that would provide the quantity of dalfampridine in each capsule. Respondents deny that Dahl stated he never sent capsules to ARL Bio because he in fact did send capsules to ARL Bio as evidenced by the email confirmation attached as Exhibit A. Respondents lack sufficient knowledge to admit or deny the allegations in paragraph 21 and therefore deny the same.

22. Respondents admit they have received from Board staff a certificate of analysis that reflects the results of one of the capsules as alleged in paragraph 22. One of the capsules contained 5.35 mg of dalfampridine.

23. Respondents lack sufficient knowledge to admit or deny the allegations in paragraph 23 and therefore deny the same.

24. Respondents admit that allegations in paragraph 24.

27. Paragraph 27 is a statement of law and is not susceptible to admission or denial. To the extent that paragraph 27 implies any unprofessional or unlawful conduct, Respondents deny the same.

28. Paragraph 28 is a statement of law and is not susceptible to admission or denial. To the extent that paragraph 28 implies any unprofessional or unlawful conduct, Respondents deny the same.

29. Respondents deny the allegations in paragraph 29.

32. Respondents deny the allegations in paragraph 32.

33. Paragraph 33 is a statement of law and is not susceptible to admission or denial. To the extent that paragraph 33 implies any unprofessional or unlawful conduct, Respondents deny the same.

34. Respondents deny the allegations in paragraph 34.

OTHER DEFENSES

35. Each cause of action fails to state a claim upon which relief can be granted.

36. The Nevada Board of Pharmacy cannot as a matter of law determine whether any effects Patient D.L. allegedly experienced were the "direct and proximate" result of ingesting prescription 5070945 without expert medical opinion and medical records.

RESERVATION OF RIGHTS, DEFENSES, AND GENERAL DENIAL

37. Respondents reserve the right to assert other affirmative defenses in this matter and in any civil litigation that may follow and to provide additional facts and mitigating circumstances.

Good morning Nathan,

Thank you for inquiring about our testing services here at ARL! We would love to help you with your testing needs.

To get started with ARL, please see the attached "Welcome!" packet that has sample submission steps using our online portal, sample guidelines, and a few forms we would need filled out to set up your account:

- Billing/Client Information Form
- Credit Card Authorization Form
- A copy of your pharmacy's W9

Once we have these 3 items, we can set up your account. You can send these forms in with your samples, or send directly to me, whichever is more convenient for you.

I have also attached our 2021 Price Book which outlines our routine testing services, sample requirements, and turnaround times. Per our conversation, potency testing of dalfampridine (4-aminopyridine) is $160 per test and has a 3 business day turnaround time. We would need 5 capsules per potency test.

If you have any questions at all, such as a step-by-step walkthrough of the sample submission process, help with setting up your online portal account, or any other testing questions, please do not hesitate to contact me. I am more than happy to help in any capacity!

Thank you,

I have spoken with the State Board about the price and they are going to send a separate sample and we are going to split the cost of the test. Therefore, we do not need to proceed with this sample. I thank you very much for your promptness and all your help. I look forward to working with you in the future. Have a great day.

I am just following up with you on this matter. Does ARL Labs still have possession of the samples that were sent in directly to ARL Labs from Dahl's Specialty Pharmacy? What is your standard time frame of keeping such samples and can you verify how many samples you originally received directly from Dahl's Specialty Pharmacy and how many of those you currently have still? Thanks so much for all your help.

NEVADA STATE BOARD OF PHARMACY

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. TRINITY PHARMACY, Pharmacy License No. PH03287, MA LOURDES JAUREGUI, RPH, Certificate of Registration No. 17035, Respondents.	CASE NOS. 19-240-PH-S 19-240-RPH-S NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes ("NRS") 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because at the time of the events alleged herein, Respondent Trinity Pharmacy ("Trinity") held a Nevada Pharmacy License No. PH03287, and Respondent Ma Lourdes Jauregui, RPh, ("Jauregui") held a Nevada Pharmacist Certificate of Registration No. 17035, all issued by the Board.

FACTUAL ALLEGATIONS

2. Respondent Trinity is located at 2797 S. Maryland Parkway, Suite 28, Las Vegas, Nevada 89109.

3. Respondent Jauregui was/is the managing pharmacist of Trinity during the alleged and relevant timeframes.

4. During an annual Board inspection on September 4, 2019, Board Inspector discovered unsigned faxed prescriptions for schedule II controlled substances.

5. Upon further Board investigation, it was discovered from June 10, 2020 to September 28, 2020, forty-two (42) controlled substance schedule II ("CII") prescriptions ("Prescriptions") were dispensed and/or delivered to hospice patients without valid practitioners' handwritten signatures ("Practitioners").

6. The 42 CII Prescriptions appeared to have been received and notated by Respondent Jauregui as oral orders. However, none of the Prescriptions stated "Authorization for Emergency Dispensing" nor did any of the prescriptions meet legal requirements to qualify as dispensing CIIs by oral authorization in an emergency.

APPLICABLE LAW

7. A person shall not dispense controlled substances in violation of a regulation adopted and/or followed by the Board. NRS 453.381(8); NAC 453.420; NAC 453.440; NAC 453.450; NAC 639.945(1); 21 CFR § 1306.11.

8. The Board may suspend or revoke a registration pursuant to NRS 639.210(15) when a person has "as a managing pharmacist, violated any provision of law or regulation concerning recordkeeping or inventory in a store over which he or she presides, or has knowingly allowed a violation of any provision of this chapter or other state or federal laws or regulations relating to the practice of pharmacy by personnel of the pharmacy under his or her supervision."

9. A pharmacy owner is responsible for violations committed by the pharmacy's employees. NAC 639.702; NAC 639.945(2).

FIRST CAUSE OF ACTION
Dispensing Unlawful CII Prescriptions
(Respondent Jauregui)

10. As a licensed and managing pharmacist, by failing to obtain handwritten signatures of Practitioners, and/or verifying the accuracy and completeness of CII Prescriptions,

Respondent Jauregui violated NRS 453.381(8); NAC 453.420; NAC 453.440; NAC 453.450; NAC 639.945(1); 21 CFR § 1306.11, constituting unprofessional conduct, and subjecting Jauregui to discipline pursuant to NRS 453.236, NRS 453.241, NRS 639.210(4), (11), (12), and (15), and/or NRS 639.255.

11. The CII Prescriptions did not qualify as "emergency" prescriptions as provided pursuant to NAC 453.420, were deficient pursuant to NAC 453.440, and Respondent Jauregui is subject to discipline pursuant to NRS 453.236, NRS 453.241, NRS 639.210(4), (11), (12), and (15), and/or NRS 639.255.

SECOND CAUSE OF ACTION
Pharmacy/Owner Responsibilities
(Respondent Trinity)

12. As the owner/operator of Trinity at the time of each of the violations alleged herein, Trinity is responsible for the violations, including those of its employees, pursuant to NAC 639.702, and NAC 639.945(2), and is subject to discipline pursuant to NRS 639.210(11), (12), and/or NRS 639.255.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of license/registration of these Respondents.

Signed this 13th day of August, 2021.

Respondent Trinity Pharmacy ("Trinity"), hereby files with the Nevada State Board of Pharmacy ("Board"), its Answer and Notice of Defense to the Notice of Intended Action and Accusation ("Accusation") filed on August 13, 2021.

ANSWER TO ACCUSATION

Jurisdiction

Trinity agrees that the Board has jurisdiction in this matter as set forth in Paragraph 1. Trinity further answers the Factual Allegations set forth in the Accusation as follows:

Factual Allegations: Paragraphs 2-10

Paragraph 2: Trinity agrees and acknowledges the factual assertions set forth in Paragraph 2.

Paragraph 3: Trinity agrees and acknowledges that Ms. Jauregui was the managing pharmacist at the pharmacy during the relevant time frames at issue in this matter.

Paragraph 4: Trinity representatives do not have personal knowledge regarding the Board's annual inspection performed on September 4, 2019 but based on the information Trinity representatives received subsequent to that investigation, believes that the factual assertions set forth in Paragraph 4 are accurate.

Paragraph 5: Trinity representatives do not have personal knowledge regarding the factual assertions set forth in Paragraph 5 but based on information received subsequently, Trinity believes the assertions to be accurate. As further noted in Trinity's Notice of Defense and Mitigating Information below, the failure to obtain a valid practitioner's signature for the amount of time noted or notify the Board of that fact as set forth in the factual assertions is outside of the policies and procedures put in place by Trinity.

Paragraph 6: Trinity is without sufficient knowledge to respond to the allegations set forth in Paragraph 6.

Applicable Law: Paragraphs 7-9

Trinity agrees that Paragraphs 7-9 of the Accusation accurately reflect current Nevada law.

Causes of Action: Paragraphs 10-12

First cause of action (paragraphs 10-11): The first cause of action pertains only to Respondent Jauregui and accordingly Trinity offers no response to this cause of action.

Second cause of action (paragraph 12): Trinity admits it was the owner/operator of Trinity during the time of the alleged violations noted within the Notice of Intended Action and Accusation and accordingly was responsible for the actions or omissions of its employees, including its managing pharmacist.

NOTICE OF DEFENSE/MITIGATING INFORMATION

Mitigating Information

Trinity owns and operates a retail pharmacy located in Las Vegas, Nevada. The pharmacy, in addition to filling and dispensing prescriptions for individual consumers, has accounts with three facilities at which Jireh Healthcare Services arranged for hospice care under the medical direction of Dr. Stephen Dubin. Trinity would fill and deliver medications ordered and approved by Dr. Dubin for patients receiving hospice care through Jireh. As these prescriptions were for hospice patients, the great majority of prescriptions filled and delivered to patients at Jireh facilities are Schedule II controlled substances and were emergently needed.

In cooperation with its managing pharmacist, Trinity developed a policy to address emergency prescriptions for hospice patients to comply with the provisions of NAC 453.420 which allowed for the pharmacy to accept oral authorization of prescriptions for emergent schedule II-controlled substances from Dr. Dubin or his authorized representative. The pharmacist was to reduce the prescription to writing as provided in NAC 453.420(1)(b) and per policy, arrangements were made to receive the signed prescription from Dr. Dubin and/or Jireh per NAC 453.420(2) within seventy-two hours.

Trinity representatives were unaware that the managing pharmacist had not received the signed prescription from Dr. Dubin within seventy-two hours in regard to the forty-two prescriptions noted in the Accusation and that she had failed to report this fact to either the Board or to Trinity representatives. Trinity has put protocols in place to ensure that timely follow up with made with Jireh and/or Dr. Dubin's office to ensure signed prescriptions are received within

seventy-two hours and that should those not be received that the Board is to be immediately notified.

Respectfully submitted this 23rd day of September, 2021.

Attorney for Respondent Trinity Pharmacy

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **TRINITY PHARMACY,** **Pharmacy License No. PH03287,** **MA LOURDES JAUREGUI, RPH,** **Certificate of Registration No. 17035,** **Respondents.**	**CASE NOS. 19-240-PH-S** **19-240-RPH-S** **STIPULATION AND ORDER FOR RESPONDENT TRINITY PHARMACY ONLY**

Courtney K. Lee, General Counsel for Petitioner, the Nevada State Board of Pharmacy ("Board"), and Respondent Trinity Pharmacy ("Trinity"), Pharmacy License No. PH03287, by and through counsel, Lyn Beggs, Esq., **HEREBY STIPULATE AND AGREE THAT**:

1. The Board has jurisdiction over Respondent Trinity and this matter.

2. On or about August 13, 2021, Board Staff served Respondent Trinity with the Notice of Intended Action and Accusation ("Accusation") on file in this matter together with the Statement to Respondent and Notice of Hearing.

3. On or about September 22, 2021, Respondent Trinity filed its Answer and Notice of Defense through retained counsel, Lyn Beggs, Esq.

4. Respondent is aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering this Stipulation.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, its right to reconsideration, its right to appeal, and any and all other rights which may be accorded pursuant to NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

6. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby freely and voluntarily waive its rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

7. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for certain of the violations alleged in the Accusation, that:

A. Respondent Jauregui was the managing pharmacist of Trinity Pharmacy during all alleged and relevant timeframes. During an annual Board inspection of Trinity Pharmacy on or about September 4, 2019, a Board inspector discovered unsigned faxed prescriptions for schedule II controlled substances.

B. Upon further Board investigation, it was discovered from June 10, 2020 to September 28, 2020, forty-two (42) controlled substance schedule II ("CII") prescriptions ("Prescriptions") were dispensed and/or delivered to hospice patients without valid practitioners' handwritten signatures ("Practitioners"). Jauregui's failure to obtain handwritten signatures of Practitioners, and/or verifying the accuracy and completeness of CII Prescriptions violated NRS 453.381(8); NAC 453.420; NAC 453.440; NAC 453.450; NAC 639.945(1); 21 CFR § 1306.11, which also constituted unprofessional conduct.

C. The 42 CII Prescriptions appeared to have been received and notated by Respondent Jauregui as oral orders. However, none of the Prescriptions stated "Authorization for Emergency Dispensing" nor did any of the prescriptions meet legal

requirements to qualify as dispensing CIIs by oral authorization in an emergency. Jauregui's failure to notate the prescriptions, satisfy the requirements of an oral emergency prescription, including verifying that the telephoned prescription was from the prescribing practitioner, violated NAC 453.420, and NAC 453.440.

D. As the owner/operator of a pharmacy, Trinity is responsible for the violations of its employees, including its managing pharmacist, pursuant to NAC 639.702, and/or NAC 639.945(2).

8. These violations are plead with particularity in the Accusation, and are grounds for disciplinary action pursuant to NRS 639.210(11), (12), and/or NRS 639.255.

9. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent Trinity stipulate to the following. Trinity is placed on probation for a period of one (1) year subject to the following conditions and penalties:

A. Respondent shall accept this Stipulation and Order as a public reprimand regarding its duties and responsibilities as a licensed pharmacy;

B. Respondent shall pay a fine of Eight-Thousand Four-Hundred Dollars ($8,400.00) for the violations;

C. Respondent shall pay One Thousand Dollars ($1,000.00) to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter;

D. Respondent shall successfully pass quarterly inspections to be completed by Board's staff at Trinity's expense;

E. Respondent shall establish policies and procedures regarding emergency oral controlled substance prescriptions in compliance with federal and state law, establish

policies and procedures regarding faxed controlled substance prescriptions, and present to Board's staff for approval within thirty (30) days of entry of this Order; and

Upon successful completion of probation, Respondent Trinity's Pharmacy License No. PH03287, will be fully restored.

10. Any failure by Respondent Trinity to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing the non-compliant Respondent to appear before the Board at the next regularly-scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon the non-compliant Respondent consistent with the provisions of NRS Chapter 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 13, 2021. Respondent will appear telephonically or *via* Zoom at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

12. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60.

13. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board on the same day or at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

14. Upon approval of this Stipulation by the Board, Respondent shall pay the fines agreed to herein by *cashier's check* or *certified check* or *money order* made payable to "State of

Nevada, Office of the Treasurer," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of entry of this Order.

15. Upon approval of this Stipulation by the Board, Respondent shall pay the attorney's fees and costs agreed to herein by *cashier's check* or *certified check* or *money order* made payable to "Nevada State Board of Pharmacy," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of entry of this Order.

16. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release one another from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **TRINITY PHARMACY,** **Pharmacy License No. PH03287,** **MA LOURDES JAUREGUI, RPH,** **Certificate of Registration No. 17035,** **Respondents.**	**CASE NOS. 19-240-PH-S** **19-240-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes ("NRS") 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because at the time of the events alleged herein, Respondent Trinity Pharmacy ("Trinity") held a Nevada Pharmacy License No. PH03287, and Respondent Ma Lourdes Jauregui, RPh, ("Jauregui") held a Nevada Pharmacist Certificate of Registration No. 17035, all issued by the Board.

FACTUAL ALLEGATIONS

2. Respondent Trinity is located at 2797 S. Maryland Parkway, Suite 28, Las Vegas, Nevada 89109.

3. Respondent Jauregui was/is the managing pharmacist of Trinity during the alleged and relevant timeframes.

4. During an annual Board inspection on September 4, 2019, Board Inspector discovered unsigned faxed prescriptions for schedule II controlled substances.

5. Upon further Board investigation, it was discovered from June 10, 2020 to September 28, 2020, forty-two (42) controlled substance schedule II ("CII") prescriptions ("Prescriptions") were dispensed and/or delivered to hospice patients without valid practitioners' handwritten signatures ("Practitioners").

6. The 42 CII Prescriptions appeared to have been received and notated by Respondent Jauregui as oral orders. However, none of the Prescriptions stated "Authorization for Emergency Dispensing" nor did any of the prescriptions meet legal requirements to qualify as dispensing CIIs by oral authorization in an emergency.

APPLICABLE LAW

7. A person shall not dispense controlled substances in violation of a regulation adopted and/or followed by the Board. NRS 453.381(8); NAC 453.420; NAC 453.440; NAC 453.450; NAC 639.945(1); 21 CFR § 1306.11.

8. The Board may suspend or revoke a registration pursuant to NRS 639.210(15) when a person has "as a managing pharmacist, violated any provision of law or regulation concerning recordkeeping or inventory in a store over which he or she presides, or has knowingly allowed a violation of any provision of this chapter or other state or federal laws or regulations relating to the practice of pharmacy by personnel of the pharmacy under his or her supervision."

9. A pharmacy owner is responsible for violations committed by the pharmacy's employees. NAC 639.702; NAC 639.945(2).

FIRST CAUSE OF ACTION
Dispensing Unlawful CII Prescriptions
(Respondent Jauregui)

10. As a licensed and managing pharmacist, by failing to obtain handwritten signatures of Practitioners, and/or verifying the accuracy and completeness of CII Prescriptions,

Respondent Jauregui violated NRS 453.381(8); NAC 453.420; NAC 453.440; NAC 453.450; NAC 639.945(1); 21 CFR § 1306.11, constituting unprofessional conduct, and subjecting Jauregui to discipline pursuant to NRS 453.236, NRS 453.241, NRS 639.210(4), (11), (12), and (15), and/or NRS 639.255.

11. The CII Prescriptions did not qualify as "emergency" prescriptions as provided pursuant to NAC 453.420, were deficient pursuant to NAC 453.440, and Respondent Jauregui is subject to discipline pursuant to NRS 453.236, NRS 453.241, NRS 639.210(4), (11), (12), and (15), and/or NRS 639.255.

SECOND CAUSE OF ACTION
Pharmacy/Owner Responsibilities
(Respondent Trinity)

12. As the owner/operator of Trinity at the time of each of the violations alleged herein, Trinity is responsible for the violations, including those of its employees, pursuant to NAC 639.702, and NAC 639.945(2), and is subject to discipline pursuant to NRS 639.210(11), (12), and/or NRS 639.255.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of license/registration of these Respondents.

COMES NOW Respondent Ma Lourdes Jauregui ("Ms. Jauregui"), by and through her undersigned counsel, and responds to the Notice of Intended Action and Accusation filed August 13, 2021 ("Accusation") by Petitioner, the Nevada State Board of Pharmacy ("Board"). This Response will serve as Respondent Jauregui's Answer and Notice of Defense pursuant to NRS 639.244. Ms. Jauregui hereby declares:

OBJECTION

Ms. Jauregui does not dispute the essential facts set forth in the Accusation, but objects to the Board taking action adverse to her Certificate of Registration because NAC 453.010(2) and 21 CFR 290.10 plainly place the onus on the "prescribing practicioner" to make a determination (1) of whether or not an "emergency situation" exists for purposes of dispensing controlled substances without a written prescription and (2) that it is "not reasonably possible" to provide a written prescription prior to dispensing. To be clear, Ms. Jauregui concedes that in certain situations, NAC 453.420 would require a pharmacist to decline a prescribing practicioner's request for the pharmacist to fill an oral prescription in a putative "emergency situation," but she respectfully submits that the facts set forth in the Accusation do not comprise such a scenario.

ANSWER

In answer to the allegations in the Accusation, Ms. Jauregui admits or denies as follows:

1. Ms. Juaregui admits the allegations in **Paragraphs 1 - 3** of the Accusation.

\\\

Dyer Lawrence, LLP
2805 Mountain Street
Carson City, Nevada 89703
(775) 885-1896

2. Regarding **Paragraph 4** of the Accusation, Ms. Jauregui admits that a Board Inspector found a single, unsigned faxed prescription for a Schedule II controlled substance during an inspection on September 4, 2019. Ms. Jauregui further avers that she obtained a signature for that prescription from the prescribing practitioner within 24 hours of the Board Inspector's discovery and produced a signed copy of that prescription for the Board Inspector during his next visit to Trinity Pharmacy ("Trinity").

3. Ms. Jauregui admits the allegations set forth in **Paragraph 5** of the Accusation. Ms. Jauregui further avers that based on communications with prescribing practitioners providing medical services to hospice patients, Ms. Jauregui and Trinity developed a standing operational procedure for filling oral prescriptions for hospice patients ("H-SOP"). Per the H-SOP, Ms. Jauregui understood that a prescribing practitioner always considered a hospice patient in pain to be an emergency. All of the prescriptions referenced in Paragraph 5 of the accusation were filled for hospice patients under the care of Jireh Healthcare Services ("Jireh"). In accordance with the H-SOP, Ms. Jauregui transcribed all of the oral prescriptions in Paragraph 5 of the Accusation onto forms suppled by Jireh and then arranged for secure delivery of the forms to the prescribing practitioner for signature. Once the prescriptions were signed, Trinity staff would then bring the signed prescriptions back to Trinity. Utilizing ScriptDrop, the filled prescriptions in Paragraph 5 of the Accusation were immediately delivered to the hospice patients. Historically the H-SOP had worked well for Jireh hospice patients, and Ms. Jauregui always received signed prescriptions back from the prescribing practitioner within 72 hours. However, during the COVID-19 pandemic, Ms. Jauregui experienced problems obtaining signed prescriptions back for Jireh hospice patients in a timely manner, and Jireh staff would often say that a prescription had been lost, and Ms. Jauregui would then re-send the transcribed prescriptions for signature. Based on her communications with Jireh, Ms. Jauregui got the impression that Jireh was short-staffed. Trinity and Ms. Jauregui have experienced a significant increase in the volume of business during the COVID-19 pandemic, and Ms. Jauregui struggled to stay on top of prescriptions pending signatures from Jireh. Ms. Jauregui understands that these circumstances

Dyer Lawrence, LLP
2805 Mountain Street
Carson City, Nevada 89703

notwithstanding, NAC 453.420(2) and (3) required her to notify the Board that the prescribing practitioner had not provided her with signed prescriptions within 72 hours and that she is subject to discipline for failing to do so.

4. Regarding **Paragraph 6** of the Accusation, Ms. Jauregui admits that she failed to write "Authorization for Emergency Dispensing" when she transcribed the oral orders. Ms. Jauregui further avers that under the H-SOP it was understood that all such prescriptions were authorized for emergency dispensing, and thus she though it was not necessary to annotate the prescription in that manner. Ms. Jauregui understands that the H-SOP notwithstanding, NAC 453.420(1)(b)(s) required her to so annotate the prescriptions and that she is subject to discipline for failing to do so. Regarding the remainder of the allegations in Paragraph 6 of the Accusation, Ms. Jauregui lacks knowledge or information sufficient to form a belief about the truth of those allegations and therefore denies those allegations.

5. Ms. Jauregui admits the allegations set forth in **Paragraphs 7 - 9** of the Accusation.

6. Regarding **Paragraph 10** of the Accusation, Ms. Jauregui admits that she violated NRS 453.381(8), NAC 453.420(1)(b)(2) and NAC 453.420(3) and that such violations subject her to discipline by the Board. Ms. Jauregui denies violating NAC 639.945. Regarding the remainder of the allegations in Paragraph 10 of the Accusation, Ms. Jauregui lacks knowledge or information sufficient to form a belief about the truth of those allegations and therefore denies those allegations.

7. Ms. Jauregui lacks knowledge or information sufficient to form a belief about the truth of the allegations in **Paragraph 11** of the Accusation and therefore denies the same.

8. The Second Cause of Action set forth in **Paragraph 12** of the Accusation is not directed against Ms. Jauregui, and therefore, she makes no response to those allegations.

Courtney K. Lee, General Counsel for Petitioner, the Nevada State Board of Pharmacy ("Board"), and Respondent Ma Lourdes Jauregui, RPh ("Jauregui"), Certificate of Registration No. 17035, by and through counsel, Francis C. Flaherty, Esq. of Dyer Lawrence, LLP,

HEREBY STIPULATE AND AGREE THAT:

1. The Board has jurisdiction over Respondent Jauregui and this matter.

2. On or about August 17, 2021, Board Staff served Respondent Jauregui with the Notice of Intended Action and Accusation ("Accusation") on file in this matter together with the Statement to Respondent and Notice of Hearing.

3. On or about September 3, 2021, Respondent Jauregui filed her Answer and Notice of Defense through retained counsel, Francis C. Flaherty, Esq.

4. Respondent is aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering this Stipulation.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, her right to reconsideration, her right to appeal, and any and all other rights which may be accorded pursuant to NRS Chapter 233B, Nevada Administrative Procedure Act, NRS

Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

6. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby freely and voluntarily waives her rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded to her by NRS Chapter 233B, Nevada Administrative Procedure Act, NRS Chapter 622A, Administrative Procedure Before Certain Regulatory Bodies, and NRS Chapter 639, Nevada Pharmacy Act.

7. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for certain of the violations alleged in the Accusation, that:

A. Respondent Jauregui was the managing pharmacist of Trinity Pharmacy ("Trinity") during the alleged and relevant timeframes. During an annual Board inspection on or about September 4, 2019, a Board inspector discovered unsigned faxed prescriptions for schedule II controlled substances.

B. Upon further Board investigation, it was discovered from June 10, 2020 to September 28, 2020, forty-two (42) controlled substance schedule II ("CII") prescriptions ("Prescriptions") were dispensed and/or delivered to hospice patients without valid practitioners' handwritten signatures ("Practitioners"). Jauregui's failure to obtain handwritten signatures of Practitioners, and/or verifying the accuracy and completeness of CII Prescriptions violated NRS 453.381(8); NAC 453.420; NAC 453.440; NAC 453.450; NAC 639.945(1); 21 CFR § 1306.11, which also constituted unprofessional conduct.

C. The 42 CII Prescriptions appeared to have been received and notated by Respondent Jauregui as oral orders. However, none of the Prescriptions stated "Authorization for Emergency Dispensing" nor did any of the prescriptions meet legal requirements to qualify as dispensing CIIs by oral authorization in an emergency. Jauregui's failure to notate the prescriptions, satisfy the requirements of an oral emergency prescription, including verifying that the telephoned prescription was from the prescribing practitioner, violated NAC 453.420, and NAC 453.440.

8. These violations are plead with particularity in the Accusation, and are grounds for disciplinary action pursuant to NRS 453.236, NRS 453.241, NRS 639.210(4), (11), (12), and (15), and/or NRS 639.255.

9. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent Jauregui stipulate to the following. Respondent Jauregui is placed on probation for a period of one (1) year subject to the following conditions and penalties:

A. Respondent shall accept this Stipulation and Order as a public reprimand regarding her duties and responsibilities as a registered pharmacist;

B. Respondent shall pay a fine of Four-Thousand Two Hundred Dollars ($4,200.00) for the violations;

C. Respondent shall pay Five-Hundred Dollars ($500.00) to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter;

D. Respondent shall complete an additional four (4) hours of continuing education within ninety (90) days of this Order regarding validation of controlled substance prescriptions; and

E. Respondent shall comply with all federal and state statutes and regulations regarding controlled substances and dangerous drugs, and have no additional charges/violations filed against her while on probation.

Upon successful completion of probation, Respondent Jauregui's Certificate of Registration No. 17035 will be fully restored.

10. Any failure by Respondent Jauregui to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing the non-compliant Respondent to appear before the Board at the next regularly-scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon the non-compliant Respondent consistent with the provisions of NRS Chapter 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 13, 2021. Respondent will appear telephonically or *via* Zoom at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

12. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60.

13. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the

merits of this matter may be heard by the Board on the same day or at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

14. Upon approval of this Stipulation by the Board, Respondent shall pay the fines agreed to herein by *cashier's check* or *certified check* or *money order* made payable to "State of Nevada, Office of the Treasurer," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of entry of this Order.

15. Upon approval of this Stipulation by the Board, Respondent shall pay the attorney's fees and costs agreed to herein by *cashier's check* or *certified check* or *money order* made payable to "Nevada State Board of Pharmacy," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of entry of this Order.

16. NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **NEVADA HEALTH RX, INC.** **D/B/A PRAX-RX,** **Pharmacy License No. PH02898,** **SCOT SILBER, RPH,** **Certificate of Registration No. 08362,** **Respondents.**	**CASE NOS. 18-043-PH-S** **18-043-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes ("NRS") 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because at the time of the events alleged herein, Respondent Nevada Health Rx, Inc. d/b/a Prax-Rx ("Prax") held a Pharmacy License No. PH02898, and Respondent Scot Silber ("Silber") held a Nevada Pharmacist Certificate of Registration No. 08362, all issued by the Board.

DISCIPLINARY HISTORY

2. In April 2004, the Board entered an Order in *Board of Pharmacy v. Respondent Scot M. Silber, R.Ph., Case No. 03-016-RPH-S*, for violations resulting in the mislabeling of dosage directions on a prescription label for Roxanol Liquid, a Schedule II opioid analgesic. The patient ingested an unknown quantity of the medication and was subsequently hospitalized. The Board ordered Silber to pay a fine of $500.00.

3. In October 2012, the Board entered a Stipulation and Order in *Board of Pharmacy v. Respondent Scot M. Silber, R.Ph., Case No. 11-090-RPH-S,* for violations resulting in a

dispensing error. Silber misread a prescription and compounded 20 mg/cc morphine sulfate with ***2,500 mcg/cc baclofen*** rather than the 20 mg/cc morphine sulfate with ***250.0 mcg/cc baclofen*** as prescribed. The compound was administered to the patient who was subsequently hospitalized for baclofen toxicity. The Board placed Silber on probation for two years and imposed a $2,500 fine.

FACTUAL ALLEGATIONS

4. Respondent Prax is/was located on 61 Spectrum Boulevard, Las Vegas, Nevada 89101.

5. Respondent Silber was hired as the managing pharmacist of Prax on or about May 2017.

6. On or about July 17, 2017, Silber created a telephonic prescription record, number 100051, for patient C.F. for Cialis 20 mg, quantity twenty (20), by Dr. E.K. Dr. E.K. indicated that he treated patient C.F. for hypogonadism for which he prescribed testosterone 1% gel on September 5, 2017, January 23, 2018, and on May 15, 2018. Dr. E.K. stated that he has never written or telephoned any Cialis prescription for patient C.F.

7. On or about November 7, 2017, Silber created a telephonic prescription, number 100410, for patient C.F. for sildenafil 20 mg, quantity ninety (90). Silber dispensed this prescription to patient C.F. under Dr. E.K. Dr. E.K. stated that he treated patient C.F. for hypogonadism for which he prescribed testosterone 1% gel on September 5, 2017, January 23, 2018, and on May 15, 2018. Dr. E.K. stated that he has never written or telephoned any sildenafil prescription for patient C.F.

8. Patient C.F. is a personal friend of Respondent Silber.

9. On or about July 27, 2017, Silber created a telephonic prescription record, number C100076, for himself as the patient for testosterone 200 g/ml, quantity twenty-four (24) 1 ml vials with 5 refills called in by Dr. W.L.'s office. Two (2) 1 ml vials of testosterone cypionate were dispensed by Silber to himself on July 28, 2017. Dr. W.L. stated that he did not have a written or telephoned record of testosterone prescription for Silber on or about July 27, 2017.

10. On or about July 28, 2017, Silber created a telephonic prescription record, number 100077, for himself as the patient for cyanocobalamin 1000 mcg/ml one (1) – 10 ml vial with 5 refills called in by Dr. W.L. Dr. W.L. stated that he did not have a written or telephoned record of this prescription for Silber on or about July 28, 2017.

11. On or about September 19, 2017, Dr. P.E. wrote a prescription, number C100208, for 1 mg alprazolam, quantity ninety (90), with 5 refills and instructions to take 1 tablet 3 times per day for patient J.B. On or about September 20, 2017, Silber dispensed the initial fill of the alprazolam prescription to patient J.B.

12. On or about September 25, 2017, Dr. B.C. wrote a prescription, number 100228, for gabapentin 300 mg, quantity ninety (90), with directions for patient J.B. to take 1 capsule three times a day with twelve (12) refills. Silber dispensed the initial fill of the gabapentin on or about the same day.

13. On or about November 30, 2017, Silber dispensed all of the refills of prescription number C100208 to patient J.B. for a total of four-hundred and fifty (450) tablets of alprazolam 1mg, or a 150-day supply. Silber did not provide any pharmacy records of contact with the prescriber or other explanation for dispensing the remaining refills all at one time. Dr. P.E. confirmed that while he did write the prescription for alprazolam 1mg quantity ninety (90) with 5 refills for patient J.B. on September 19, 2017, he did not authorize a quantity of four-hundred and fifty (450) tablets to be dispensed at one time.

14. On or about November 30, 2017, Respondent Silber dispensed the remaining eleven (11) refills of gabapentin 300 mg for patient J.B. for nine-hundred and ninety (990) capsules, or a 330-day supply. Silber provided no pharmacy records of contact with the prescriber or notation of why the total of the remaining refills was dispensed at one time. Dr. B.C. stated that she did write the prescription on September 25, 2017 for patient J.B., but at no time did Dr. B.C. authorize nine-hundred and ninety (990) capsules to be dispensed all at one time.

15. Patient J.B. was hired by Respondent Silber as the vice president of operations at Prax. Patient J.B. was also the operations manager at Green Valley Drugs, and management consultant for Partell Pharmacy. Silber was once an owner of Green Valley Drugs, and formerly the managing pharmacist for Partell Pharmacy.

16. On or about March 20, 2018, the Drug Enforcement Administration ("DEA") Diversion Investigators executed an inspection warrant on Prax. The DEA conducted a closing inventory of controlled substances, obtained documentation, and questioned Silber. Respondent Silber stated to the DEA investigator that he had not conducted an initial inventory of controlled substances.

17. Silber also disclosed to DEA investigators that Prax sells controlled substances to prescribers for office administration and appear in the Prescription Monitoring Program ("PMP") as dispensed prescriptions. Approximately forty-nine (49) invoices to physician offices and thirty-two (32) sales to patients during the April 1, 2017 to March 20, 2018 time period were discovered in sales reports. Prescription records for controlled substances and dangerous drugs from same time period reveal approximately eighty-two (82) patient-specific prescriptions and five-hundred and seventy-three (573) prescription numbers assigned to office use medications. Prax was not registered as a distributor/wholesaler and only held a pharmacy registration with the Board.

18. During the DEA investigation, it was also discovered that 2 fentanyl 50mcg/ml 2ml vials were broken during shipment. Prax never completed a DEA 106 form or reported the fentanyl loss to the DEA within 1 business day of loss discovery.

19. Neither Prax nor Silber completed a controlled substance loss or theft form for the fentanyl loss to the Board within 10 days after loss discovery.

20. On or about April 13, 2018, a voluntary DEA surrender of controlled substances registration for Prax was executed by owner Greg Sundem.

ANSWER

1. Respondent, Salvador Borromeo, in answer to the Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, hereby admits, denies, and alleges as follows:

A. Respondent admits the "Jurisdiction" and "Factual Allegations" made against him by the Nevada State Board of Pharmacy that are contained in Paragraphs 1, 2, and 3 of the Board's Notice of Intended Action and Accusation.

B. Respondent is without knowledge as to the allegations made against him that are contained in Paragraph 4 of the Board's Notice with respect to MaryAnne Phillips, M.D

C. Respondent denies the allegations made against him that are contained in Paragraph 5 to the extent that he was unaware that Hankins did not hold a controlled substance registration with the board; He further denies the allegation that he was her supervising physician from June 10, 2020 to November 2, 2020, as he noticed Vida Spa and Hankins that he was ending any and all association with Hankins no later than June 30, 2020; Respondent is without knowledge as to Hankins performing unsupervised "cosmetic surgeries", and is without knowledge as to her administering controlled substances beyond the limited number of prescriptions Respondent personally signed/authorized in early June, 2020.

D. Respondent denies Paragraph 6 with respect to allegations that Platfoot employed Respondent at the time of the events described therein. It was agreed by the parties that Respondent would be retained as an independent contractor and consultant, not hired as an employee. In addition, Respondent had not received any financial consideration from Platfoot, Vida Spa, Hankins, or anyone associated with them during the time prescriptions were allegedly authorized by Respondent, and any cognizable duties attendant to a legal relationship between Respondent and Vida Spa/Platfoot were not yet formed.

E. Respondent is without knowledge as to the allegations made with respect to other parties in Paragraphs 7, 8, 9, and 10.

F. Respondent denies in full the allegations contained in Paragraphs 11 and 12 in full.

G. Respondent denies Paragraph 13 in full.

H. Respondent admits "Applicable Law" allegations contained in Paragraphs 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, and 25.

I. Respondent denies in full "First Cause of Action, Unprofessional Conduct – Party to a Fraudulent,/Deceitful Practice/Transaction", Paragraphs 26 and 27.

J. Respondent denies in full "Second Cause of Action, Unprofessional Conduct – Incompetent, Unskillful, or Negligent Performance of Duties", Paragraphs 28, 29, and 30

K. Respondent denies in full "Third Cause of Action, Unprofessional Conduct – Aiding and Abetting Unlicensed Practice of Medicine", Paragraphs 31 and 32.

L. Respondent denies in full "Fourth Cause of Action, Unprofessional Conduct – Prescribing Without Bonafide Theraputic Relationship", Paragraph 33.

M. Respondent denies in full "Fifth Cause of Action, Federal Controlled Substances Act Violations, Paragraphs 34 and 35

N. Respondent denies in full "Sixth Cause of Action, Commission of Acts that Render Registration Inconsistent with the Public Interest", Paragraph 36.

NOTICE OF DEFENSE

Respondent objects to the Notice of Intended Action and Accusation as being incomplete, inaccurate, or failing to state clearly the charges against him, and his defense is hereby interposed on the following grounds:

POINTS AND AUTHORITIES

I. RESPONDENT, SALVADOR BORROMEO III, M.D., INITIALLY AGREED TO BECOME THE NEW "MEDICAL DIRECTOR" OF VIDA SPA BASED UPON FALSE REPRESENTATIONS THAT WERE MADE TO HIM BY OTHERS

When Respondent met in person for the first time with Vida Spa owner, Giselle Platfoot, to discuss his working with the Spa, both the nature and scope of business conducted by Vida Spa were intentionally and fraudulently misrepresented to him. Platfoot met with Respondent for what was, in retrospect, a suspiciously brief 15 minute meeting to discuss details of what Vida Spa was seeking. At that meeting, the nature and scope of the role that Respondent would be asked to perform was also misrepresented to him. Respondent was explicitly told by Platfoot that the Spa only performed "non-invasive" cosmetic procedures such as facials and fillers. Respondent was pointedly not told by Platfoot that the Spa was engaged in performing any liposuction procedures of any type, nor engaged in any practice or procedure that could be categorized as "invasive" in nature. Further, he was not told at this initial meeting that he would be expected to become the "supervising physician" for one of their Physician's Assistants or asked to sign any prescriptions.

The title of "Medical Director", which was created by Platfoot, is itself inherently misleading. It was represented to Respondent by Platfoot at their meeting that he would be an independent contractor, not an employee. His duties would be limited to consulting with Vida Spa and its employees. These consulting services involved making himself available to Vida Spa's employees by telephone on what were supposed to be rare occasions when his medical expertise might be needed. In addition to making himself available by phone, he was told by Platfoot that he would only be asked to make one visit per month to the Spa, where he would review and give his advice on policies and procedures, meet with the staff, review any files brought to him, and answer any questions from employees. Respondent was specifically told that he was only going to be meeting with staff, not examining or treating patients. It should further be noted that Dr. Borromeo was never even told by Platfoot that pharmaceuticals were being dispensed at the Spa.

As compensation for his efforts, Ms. Platfoot offered to pay Respondent a modest consulting fee of $3,000.00 per month. It again should be emphasized that at no time during this meeting was Respondent told that he would be asked to write, sign, supervise, or authorize any prescriptions for patients of the Vida Spa in his position as an independent

contractor. This material omission as to what he was told by Platfoot was highly relevant to his initially agreeing to accept the position. Had Respondent been made aware that he would be asked to sign prescriptions, he would never have agreed to the consulting agreement.

Respondent further anticipated that his duties would begin after he scheduled his first visit to the Spa, when he would be able to observe what was being done there and review policies and procedures. However, within a couple of days after meeting with Ms. Platfoot, and before having the opportunity to schedule his first in-person visit, Respondent was unexpectedly presented with a contract to sign. The contract was personally brought to his office by someone from Vida Spa, who waited for him to sign it while he was with patients. Dr. Borromeo was running both a private medical practice and working at the "Wound Care Center" of Centennial Hospital in Las Vegas, so was extremely busy at the time. He had not yet had the opportunity to make his initial visit to the spa to review all of its operations. As such, although he prematurely signed the agreement that was brought to him, it was his understanding that at that point, since he had not even scheduled his first in-person visit, he was not yet taking a "supervisory" role over the Spa, its employees, or the dispensation of any medication.

II. RESPONDENT WAS "AMBUSHED" BY TAMMY HANKINS TO SIGN A SUPERVISORY FORM AND TO AUTHORIZE A NUMBER OF PRESCRIPTIONS SHE HAD WRITTEN FOR PATIENTS.

Within a couple of days of signing the agreement with Vida Spa, prior to his initial visit or receiving any compensation, Respondent received a call from Tammy Lynn Hankins, who introduced herself and asked if she could come by his office to meet with him in person. Dr. Borromeo said she could. At that meeting, Respondent was blindsided with a request from Hankins that he sign a document to be filed with the State that would formally notify them that he would become her "supervising physician". This was something that was never discussed in his meeting with Platfoot, and had not been agreed to by the parties. Hankins, however, explained to Respondent that they expected the incoming "Medical Director" of the Spa to become her supervising physician. She convinced him that it would be proper from a formality standpoint, even though it had been understood that he would only be visiting the Spa once per month.

In addition, at that same initial meeting, Hankins asked Respondent to review and sign a number of prescriptions for pain medication that she said she had written for Vida Spa patients. She told Respondent that these prescriptions were for post-treatment pain that some patients experience after having cosmetic procedures performed. Again, it should be noted that Respondent had already previously been given full assurances by Platfoot that the Spa was strictly doing "non-invasive" cosmetic procedures, and at this point had not yet visited the facility himself. Respondent relied on the representations made to him by Hankins, who he believed to be an experienced and properly licensed Physician's Assistant.

In context, it should also be noted that Respondent had dealt with other P.A.'s in the past who, while fully licensed and authorized to issue prescriptions themselves, preferred to let a Medical Doctor sign the prescriptions. That said, Hankins conveniently (and intentionally) did not tell Respondent that she did not possess a valid controlled substance registration from the Board herself.

III. RESPONDENT HAD NO CONTACT WITH DR. MARYANN PHILLIPS.

Respondent did not have any contact with Dr. MaryAnn Phillips until after he ended his consulting agreement with Vida Spa, and tendered his resignation as "Medical Director" to Giselle Platfoot a couple of weeks after he signed her agreement. All prescriptions that Respondent is/was aware of relating to his involvement with Vida Spa were signed by him at his office after being presented by the Physician's Assistant, Tammy Lynn Hankins. At no time did he allow his prescription pad to be removed from his office, nor did he ever allow for prescriptions to be authorized in his name without his knowledge. To his knowledge, he never authorized any prescriptions for Dr. Phillips, and was unaware of her involvement with Vida Spa at the time he signed the prescriptions brought to him by Hankins. .

With respect to the allegations relating to Phillips contained in the Board's Notice of Intended Action and Accusation, it is again noted that Respondent was unaware of Phillips' involvement until after he noticed his impending resignation to Vida Spa. Until he made his one and only (post-resignation) visit to the Spa, he had never met Phillips, was unaware that she was employed by Vida Spa, was unaware of her licensing status, and was unaware of her alleged involvement with the dispensation of pharmaceuticals.

IV. RESPONDENT FOLLOWED THE SAME "COVID" PROTOCOLS HE WAS DIRECTED TO FOLLOW AT CENTENNIAL HOSPITAL WITH RESPECT TO AUTHORIZING PRESCRIPTIONS FOR PATIENTS HE DID NOT SEE IN PERSON.

The meeting between Hankins and Respondent occurred in the first days of June, 2020, during the height of the COVID pandemic. At this time, in-person contact was being actively discouraged by not just hospitals but also medical facilities. There was also still a genuine fear of possible "surface spread" of the COVID virus, in addition to open questions as to the extent of its transmissibility. In signing prescriptions for Ms. Hankins without seeing in person those patients for whom the prescriptions were written, it should be noted that Dr. Borromeo was acting consistent with the emergency COVID protocols he was directed to follow at Centennial Hospital at the time.

At Centennial Hospital and other medical facilities, in-person contact was being strongly discouraged. In particular, at Centennial, there were COVID protocols implemented that interpreted the definition of a "bona fide therapeutic relationship" as referred to in state statutes expansively, and they did not require Respondent to have any "in person" or "direct" contact with patients. Doctors were authorized to sign prescriptions that were brought to them by licensed P.A.'s (regardless of whether these P.A.'s had their own ability to prescribe medication) so long as the P.A. had examined the patients in-person themselves - thereby reducing the number of contacts with medical personnel that could spread the virus.

Since Respondent was following these protocols at Centennial, it impacted his decision to authorize the prescriptions brought to him Ms. Hankins. He was told they were for non-invasive cosmetic procedures, and reasonably believed that direct contact with these Spa patients would not be necessary, especially taking into account the COVID pandemic.

V. DR. BORROMEO ENDED HIS RELATIONSHIP WITH VIDA SPA WITHIN 30 DAYS AFTER HIS INITIAL MEETING WITH PLATFOOT.

Respondent only met with Hankins in his office one time, in which she showed up with a number of prescriptions for him to sign. A short time later, Hankins called Respondent to tell him that one of her patients had been having "complications" from a procedure she had done. After further questioning by Respondent, Hankins conceded that it was due to

complications from a "lipo" procedure. That concerned Respondent, despite the fact that it had been made amply clear to him by Platfoot that the only procedures being performed at Vida Spa were non-invasive in nature. He initially thought that these complications were from a "tumescent" liposuction procedure. Still, this call concerned him as to what procedures were being done at Vida Spa as he previously had never been told by either Platfoot or Hankins that the Spa performed ANY type of liposuction procedures. Due to this concern, and discomfort with the call from Hankins, shortly thereafter he called Giselle Platfoot. In that call, Respondent told her that he "no longer felt comfortable working with them", as he never agreed to sign prescriptions and was concerned about the Hankins call. He noticed Platfoot that he was ending any association he had with Vida Spa or Hankins, to become effective the last day of the month (to give them a brief time to find a replacement, at Platfoot's request).

After giving notice to Platfoot that he would be ending any further relationship with Vida Spa and Hankins at the end of the month, he decided to visit the Spa in person to see for himself what type of procedures they were doing there. This visit ratified his decision to end the consulting agreement and disassociate himself from Vida Spa, Platfoot, Hankins, etc. It became clear to Respondent after visiting the Spa in person that he had been lied to. Among other things, based upon files he reviewed there, it appeared to him that they were doing liposuction procedures that may be categorized as "invasive", which he had never made aware of. He recognized at that point that he had been intentionally deceived into becoming their "Medical Director" and, attendant to that, into signing the prescriptions for Hankins.

Although the allegations from the Board state that he supervised Ms. Hankins from June 10, 2020 to November 2, 2020, Respondent actually notified Ms. Platfoot that he would no longer agree to supervise Ms. Hankins at the time he resigned his position with Vida Spa, and that any association with Vida Spa and Hankins would end no later than June 30, 2020. It was his further understanding based on that conversation with Platfoot that Vida Spa would file the proper paperwork needed to notify the appropriate regulatory agencies that Respondent was no longer involved with either Vida Spa or Hankins. That was told to him by Platfoot. Unfortunately, that paperwork was never filed as she had promised Respondent. When Respondent discovered this omission a few months later, he then immediately had the proper notification paperwork filed with the State himself.

CONCLUSION

To be blunt, Dr. Borromeo was effectively "duped" into agreeing to become the Medical Director of Vida Spa and to supervise Ms. Hankins. When Respondent authorized a number of prescriptions brought to him by Hankins, they were brought to him to sign under false pretenses. His doing so was done in the context of naively (and foolishly) relying on numerous lies and omissions that were made to him. Respondent was told that his role with Vida Spa was limited to that of a consultant. He was told that the Spa only did "non-invasive" procedures. He was not told he would be asked to sign prescriptions. When he did sign the handful of prescriptions brought to him by Hankins, he felt pressured into doing so, but trusted Hankins, who was a licensed P.A. He was unaware that Hankins was not able to sign prescriptions herself. In addition, when he signed these prescriptions, he was completely unaware of and never had contact with Dr. Maryanne Phillips, much less was he a knowing party to any "fraudulent or deceitful practices" she may have been engaged in.

While Respondent did not personally examine a number of patients who he wrote prescriptions for, it should also be noted that he was only following the pandemic protocol he had been instructed to follow at Centennial Hospital, designed to limit in-person contact during the pandemic. This policy implicitly concluded that "in person" contact between Doctor and patient was not necessary to establish a "bona fide therapeutic relationship" per Nevada Statutes. And it further directed doctors to sign prescriptions brought to them by a licensed P.A. so long as she had examined the patient in person herself.

In retrospect, it is clear that Respondent should have done additional due diligence prior to any involvement with Vida Spa or the individuals associated with it. However, we believe an equitable review of the totality of circumstances will show that Respondent did not intentionally violate NRS 453.231 or related statutes, as he did not possess the "mens rea" to do so. His actions were instead a direct result of his being intentionally and repeatedly misled by demonstrably nefarious actors.

Respondents Lin's Supermarkets ("Lin's"), Inc., Katila Pipitone, R.Ph., and Timothy Johnson, R.Ph. by and through their counsel William J. Stilling, of and for Stilling & Harrison, PLLC, answer and provide notice of their defense to the Second Amended Notice of Intended Action and Accusation ("Amended Notice") in the above-entitled matter and declare as follows.

REQUEST FOR HEARING

Respondents request a hearing on the Notice of Intended Action and Accusation.

RESPONSES TO ALLEGATIONS AND CAUSES OF ACTION

In answer to the Notice of Intended Action and Accusation, Respondents admit, deny, and allege as follows:

JURISDICTION

1. Respondents admit the allegations in paragraph 1.

FACTUAL ALLEGATIONS

2. Respondents admit the allegations in paragraph 2.

3. Respondents admit the allegations in paragraph 3.

4. Respondents admit the allegations in paragraph 4.

5. Respondents admit that Mr. Johnson found a discrepancy in Lin's inventory on or about December 21, 2017 of 70 oxycodone-acetaminophen 10-325 tablets and that Lin's pharmacy filed a DEA Form 106 on April 11, 2018. Respondents lack sufficient knowledge to admit or deny the remaining allegations in paragraph 5 and therefore deny them.

6. Respondents admit that on or about April 2, 2018, Mr. Johnson discovered a discrepancy of 400 oxycodone hydrochloride 15 mg tablets in Lin's inventory. The missing tablets were reported to the DEA by submission of DEA Form 106 on April 9, 2018. Respondents lack sufficient knowledge to admit or deny the remaining allegations in paragraph 6 and therefore deny them.

7. Respondents admit the allegations in paragraph 7.

8. Respondents admit that on April 2, 2020, Ms. Pipitone did what she could to provide L.B. with the correct dosage of oxycodone 10 mg at a time when there were no oxycodone 10 mg tablets in stock. Ms. Pipitone knew L.B. had been receiving oxycodone for a chronic pain condition and attempted to solve a clinical problem after attempting to contact the prescriber. Ms.

Pipitone informed L.B. she could not fill the oxycodone 10 mg because Lin's did not have any of that strength in stock. Ms. Pipitone knew L.B. needed this medication and provided L.B. with several options that included filling the prescription at a different pharmacy or dispensing 20 mg tablets and cutting them in half. She also explained that if she supplied 7 days of oxycodone 20 mg with instructions to cut the tablets in half: (i) L.B. would have to obtain a new prescription to fill the remainder of the thirty-day supply the prescriber ordered; (ii) insurance might not pay for the remaining tablets; and (iii) patients often do not like cutting tablets because the tablets sometimes shatter. L.B. agreed to receive a seven-day supply and to cut the tablets in half. Ms. Pipitone dispensed the correct dosage for L.B. (1/2 20 mg tablet) as was prescribed (10 mg). Respondents deny all other allegations in paragraph 8.

9. Respondents admit that Ms. Pipitone called the prescriber's office on April 2, 2020, was transferred to voice mail, and left a message. Respondents admit that in response to Ms. Pipitone's phone call, L.B.'s prescriber called the pharmacy on April 6 to cancel the remaining 23-day supply so L.B. could fill the remaining tablets at a pharmacy that had 10 mg oxycodone in stock to dispense. Respondents deny all other allegations in paragraph 9.

10. Respondents admit the allegations in paragraph 10.

11. Respondents admit the allegations in paragraph 11 except as to the following. Patient L.B. was supposed to received six prescriptions, but one of the prescriptions was a bulk prescription. She received six prescriptions, but mistakenly received a prescription for her former spouse J.B. who has the same last name. The bulk prescription was not included in the six prescriptions L.B.

12. Respondents admit the allegations in paragraph 12.

APPLICABLE LAW

13–24. Paragraphs 13 through 24 are statements of Nevada law and are not subject to admission or denial. To the extent anything in paragraphs 13 through 24 implies that Respondents engaged in unprofessional or unlawful conduct, Respondents deny the allegations in those paragraphs.

FIRST CAUSE OF ACTION
Violation of State Loss Reporting Requirement against Respondent (Lin's, Pipitone, and Johnson)

25. Respondents deny the allegations in paragraph 25.

SECOND CAUSE OF ACTION
Violation of Federal Loss Reporting Requirement against (Respondents Lin's, Pipitone and Johnson)

26. Respondents deny the allegations in paragraph 26.

THIRD CAUSE OF ACTION
Failure to Keep Complete and Accurate Records against Respondents Lin's, (Pipitone and Johnson)

27. Respondents deny the allegations in paragraph 27.

FOURTH CAUSE OF ACTION
Failure to Fill Prescription as Prescribed (Respondent Johnson)

28. Respondents deny the allegations in paragraph 28.

FIFTH CAUSE OF ACTION
Failure to Fill Prescription as Prescribed (Respondent Pipitone)

29. Respondents deny the allegations in paragraph 29.

SIXTH CAUSE OF ACTION
Managing Pharmacist Responsibilities (Respondent Pipitone)

30. Respondents deny the allegations in paragraph 30.

SEVENTH CAUSE OF ACTION
Pharmacy/Owner Responsibilities
Respondent Lin's

31. Respondents deny the allegations in paragraph 30.

OTHER DEFENSES

32. Each cause of action fails to state a claim upon which relief can be granted.

33. DEA theft and loss reporting regulations do not require reporting if a prescription for controlled substances is overfilled.

34. Determination of whether an entity violated federal laws and regulations cited in the Notice is a matter for federal courts and agencies, not a state entity such as the Nevada Board of Pharmacy.

MITIGATION AND PRACTICE CHANGES

35. For some two decades, Lin's in Overton has had fastidious compliance for controlled substances record keeping. No controlled substance losses have occurred prior to the alleged incidents at the pharmacy. The allegations in the Notice are the first time any claims of controlled substances record-keeping problems have arisen.

36. Most of the allegations in the Notice occurred several years ago (in 2017 and 2018) and the other more than a year ago. There have been no reports of issues with controlled substances record keeping or dispensing since then.

37. Lin's immediately filed a DEA 106 Form after the April 2018 discovery of what appeared to be an overfilled prescription. Even if it had not done so, DEA does not consider accidently overfilled prescription to be an incident for which a DEA-106 needs to be submitted. Likewise, the discrepancy that occurred in December 2017 appears to have been from an overfill. Nonetheless, Lin's submitted a DEA-106 form.

38. The two inspection reports subsequent to the date of the allegations did not document any controlled substance loss or other concerns.

39. When Ms. Pipitone dispensed 20 mg oxycodone with instructions for the patient to cut the tablets in half, she did so to help the patient receive the same dose of oxycodone as had been prescribed so the patient could receive the therapeutic benefit of the prescription and avoid pain associated from a chronic condition for which L.B. had been receiving the oxycodone. Ms. Pipitone knew L.B. had been receiving oxycodone for a chronic pain condition and attempted to solve a clinical problem when she could not get hold of the prescriber.

40. Lin's personnel cooperated fully with the inspectors and provided information requested pertaining to employee drug testing.

41. Lin's voluntarily implemented recommendations made by the NV Inspector(s). These include the following.

42. Lin's now utilizes a biometric fingerprint reader for accessing the pharmacy information system instead of the systems standard Random Daily Access Code (RDAC), which the teams used to scan when accessing the pharmacy information system.

43. Lin's proactively drug tested all employees when it learned of the discrepancies.

44. Lin's pharmacists double counted, back counted, and recorded on the dispensed label and perpetual logbook. Now, pharmacy personnel document those each time in the pharmacy prescription note for CIIs indicating the double count and back count amounts. These changes are additional safeguards against internal diversion. There has never been any allegation of, or evidence for, such diversion.

45. Lin's is the only pharmacy in Overton, NV. Even though Lin's has had a pristine record of compliance and has implanted additional processes to ensure no further discrepancies will

occur, pharmaceutical suppliers or payors are likely to take actions that will impair Lin's ability to serve Overton patients. If this occurs, patients in the community will have more difficulty accessing pharmacy services and obtaining necessary medications.

46. Lin's is the only provider in the area providing COVID vaccinations. Disciplinary action that results in disruption to pharmacy operations could impact patient access to vaccinations and other Covid-19 related services.

RESERVATION OF RIGHTS, DEFENSES, AND GENERAL DENIAL

1. Respondents reserve the right to assert other affirmative defenses in this matter and in any civil litigation that may follow and to provide additional facts and mitigating circumstances.

2. To the extent Respondents did not specifically admit allegations in the Notice of Intent and Accusation, they deny such allegations.

PRAYER FOR RELIEF

1. That the Board find that the allegations in the Notice and all evidence presented to the Board do not support imposing discipline on any of the Respondent.

2. That the Board dismiss all Causes of Acton in in the Notice.

3. That the Board provide further relief to Respondents as it finds just and proper.

7. On or about April 2, 2020, patient L.B. was e-prescribed a prescription for Oxycodone 10 mg tablets, quantity 120, a 30-day supply, with instruction to take 1 tablet oral 4 times a day as needed for pain.

8. Without consultation or approval from the prescribing practitioner, Respondent Pipitone changed the dose of medication and quantity to Oxycodone 20 mg tablets, quantity 14, for 7 days, with instruction to take one-half tablet 4 times a day. Pipitone instructed patient L.B. to cut the tablets in half.

9. The Oxycodone prescription was cancelled on April 6, 2020, by the prescribing practitioner to allow patient L.B. to fill the remaining 23-day prescription at a different pharmacy with the correct strength.

10. On or about June 18, 2021, a prescription was mistakenly dispensed for a patient with the same last name. The pharmacist on duty, or supervising pharmacist, was Respondent Johnson. On or about June 21, 2021, Christopher Sheard, the Pharmacy Operations Manager at Lin's, self-reported the mistaken dispensing.

11. The prescription was for patient J.B., but mistakenly dispensed to another patient L.B. The prescription was Hydrocodone-APAP 10/325 mg #112 for a 28-day supply. Patient L.B. was given seven (7) total prescriptions, six (6) were for herself and one (1) for her current spouse J.C. One of the 6 prescriptions dispensed was for her ex-spouse J.B., with the same last

name. The pharmacist contacted the patient, who denied receiving the prescription for Hydrocodone prescribed for another patient despite video which appear to show otherwise.

12. Lin's has since implemented a new procedure to check each bulk prescription against the prescriptions listed on the computer screen for a patient to prevent future mis-dispensing.

Respondents Lin's Supermarkets ("Lin's"), Inc., Katila Pipitone, R.Ph., and Timothy Johnson, R.Ph. by and through their counsel William J. Stilling, of and for Stilling & Harrison, PLLC, answer and provide notice of their defense to the Second Amended Notice of Intended Action and Accusation ("Amended Notice") in the above-entitled matter and declare as follows.

REQUEST FOR HEARING

Respondents request a hearing on the Notice of Intended Action and Accusation.

RESPONSES TO ALLEGATIONS AND CAUSES OF ACTION

In answer to the Notice of Intended Action and Accusation, Respondents admit, deny, and allege as follows:

JURISDICTION

1. Respondents admit the allegations in paragraph 1.

FACTUAL ALLEGATIONS

2. Respondents admit the allegations in paragraph 2.

3. Respondents admit the allegations in paragraph 3.

4. Respondents admit the allegations in paragraph 4.

5. Respondents admit that Mr. Johnson found a discrepancy in Lin's inventory on or about December 21, 2017 of 70 oxycodone-acetaminophen 10-325 tablets and that Lin's pharmacy filed a DEA Form 106 on April 11, 2018. Respondents lack sufficient knowledge to admit or deny the remaining allegations in paragraph 5 and therefore deny them.

6. Respondents admit that on or about April 2, 2018, Mr. Johnson discovered a discrepancy of 400 oxycodone hydrochloride 15 mg tablets in Lin's inventory. The missing tablets were reported to the DEA by submission of DEA Form 106 on April 9, 2018. Respondents lack sufficient knowledge to admit or deny the remaining allegations in paragraph 6 and therefore deny them.

7. Respondents admit the allegations in paragraph 7.

8. Respondents admit that on April 2, 2020, Ms. Pipitone did what she could to provide L.B. with the correct dosage of oxycodone 10 mg at a time when there were no oxycodone 10 mg tablets in stock. Ms. Pipitone knew L.B. had been receiving oxycodone for a chronic pain condition and attempted to solve a clinical problem after attempting to contact the prescriber. Ms.

Pipitone informed L.B. she could not fill the oxycodone 10 mg because Lin's did not have any of that strength in stock. Ms. Pipitone knew L.B. needed this medication and provided L.B. with several options that included filling the prescription at a different pharmacy or dispensing 20 mg tablets and cutting them in half. She also explained that if she supplied 7 days of oxycodone 20 mg with instructions to cut the tablets in half: (i) L.B. would have to obtain a new prescription to fill the remainder of the thirty-day supply the prescriber ordered; (ii) insurance might not pay for the remaining tablets; and (iii) patients often do not like cutting tablets because the tablets sometimes shatter. L.B. agreed to receive a seven-day supply and to cut the tablets in half. Ms. Pipitone dispensed the correct dosage for L.B. (1/2 20 mg tablet) as was prescribed (10 mg). Respondents deny all other allegations in paragraph 8.

9. Respondents admit that Ms. Pipitone called the prescriber's office on April 2, 2020, was transferred to voice mail, and left a message. Respondents admit that in response to Ms. Pipitone's phone call, L.B.'s prescriber called the pharmacy on April 6 to cancel the remaining 23-day supply so L.B. could fill the remaining tablets at a pharmacy that had 10 mg oxycodone in stock to dispense. Respondents deny all other allegations in paragraph 9.

10. Respondents admit the allegations in paragraph 10.

11. Respondents admit the allegations in paragraph 11 except as to the following. Patient L.B. was supposed to received six prescriptions, but one of the prescriptions was a bulk prescription. She received six prescriptions, but mistakenly received a prescription for her former spouse J.B. who has the same last name. The bulk prescription was not included in the six prescriptions L.B.

12. Respondents admit the allegations in paragraph 12.

APPLICABLE LAW

13–24. Paragraphs 13 through 24 are statements of Nevada law and are not subject to admission or denial. To the extent anything in paragraphs 13 through 24 implies that Respondents engaged in unprofessional or unlawful conduct, Respondents deny the allegations in those paragraphs.

FIRST CAUSE OF ACTION
Violation of State Loss Reporting Requirement against Respondent (Lin's, Pipitone, and Johnson)

25. Respondents deny the allegations in paragraph 25.

SECOND CAUSE OF ACTION
Violation of Federal Loss Reporting Requirement against (Respondents Lin's, Pipitone and Johnson)

26. Respondents deny the allegations in paragraph 26.

THIRD CAUSE OF ACTION
Failure to Keep Complete and Accurate Records against Respondents Lin's, (Pipitone and Johnson)

27. Respondents deny the allegations in paragraph 27.

FOURTH CAUSE OF ACTION
Failure to Fill Prescription as Prescribed (Respondent Johnson)

28. Respondents deny the allegations in paragraph 28.

FIFTH CAUSE OF ACTION
Failure to Fill Prescription as Prescribed (Respondent Pipitone)

29. Respondents deny the allegations in paragraph 29.

SIXTH CAUSE OF ACTION
Managing Pharmacist Responsibilities (Respondent Pipitone)

30. Respondents deny the allegations in paragraph 30.

SEVENTH CAUSE OF ACTION
Pharmacy/Owner Responsibilities
Respondent Lin's

31. Respondents deny the allegations in paragraph 30.

OTHER DEFENSES

32. Each cause of action fails to state a claim upon which relief can be granted.

33. DEA theft and loss reporting regulations do not require reporting if a prescription for controlled substances is overfilled.

34. Determination of whether an entity violated federal laws and regulations cited in the Notice is a matter for federal courts and agencies, not a state entity such as the Nevada Board of Pharmacy.

MITIGATION AND PRACTICE CHANGES

35. For some two decades, Lin's in Overton has had fastidious compliance for controlled substances record keeping. No controlled substance losses have occurred prior to the alleged incidents at the pharmacy. The allegations in the Notice are the first time any claims of controlled substances record-keeping problems have arisen.

36. Most of the allegations in the Notice occurred several years ago (in 2017 and 2018) and the other more than a year ago. There have been no reports of issues with controlled substances record keeping or dispensing since then.

37. Lin's immediately filed a DEA 106 Form after the April 2018 discovery of what appeared to be an overfilled prescription. Even if it had not done so, DEA does not consider accidently overfilled prescription to be an incident for which a DEA-106 needs to be submitted. Likewise, the discrepancy that occurred in December 2017 appears to have been from an overfill. Nonetheless, Lin's submitted a DEA-106 form.

38. The two inspection reports subsequent to the date of the allegations did not document any controlled substance loss or other concerns.

39. When Ms. Pipitone dispensed 20 mg oxycodone with instructions for the patient to cut the tablets in half, she did so to help the patient receive the same dose of oxycodone as had been prescribed so the patient could receive the therapeutic benefit of the prescription and avoid pain associated from a chronic condition for which L.B. had been receiving the oxycodone. Ms. Pipitone knew L.B. had been receiving oxycodone for a chronic pain condition and attempted to solve a clinical problem when she could not get hold of the prescriber.

40. Lin's personnel cooperated fully with the inspectors and provided information requested pertaining to employee drug testing.

41. Lin's voluntarily implemented recommendations made by the NV Inspector(s). These include the following.

42. Lin's now utilizes a biometric fingerprint reader for accessing the pharmacy information system instead of the systems standard Random Daily Access Code (RDAC), which the teams used to scan when accessing the pharmacy information system.

43. Lin's proactively drug tested all employees when it learned of the discrepancies.

44. Lin's pharmacists double counted, back counted, and recorded on the dispensed label and perpetual logbook. Now, pharmacy personnel document those each time in the pharmacy prescription note for CIIs indicating the double count and back count amounts. These changes are additional safeguards against internal diversion. There has never been any allegation of, or evidence for, such diversion.

45. Lin's is the only pharmacy in Overton, NV. Even though Lin's has had a pristine record of compliance and has implanted additional processes to ensure no further discrepancies will

occur, pharmaceutical suppliers or payors are likely to take actions that will impair Lin's ability to serve Overton patients. If this occurs, patients in the community will have more difficulty accessing pharmacy services and obtaining necessary medications.

46. Lin's is the only provider in the area providing COVID vaccinations. Disciplinary action that results in disruption to pharmacy operations could impact patient access to vaccinations and other Covid-19 related services.

RESERVATION OF RIGHTS, DEFENSES, AND GENERAL DENIAL

1. Respondents reserve the right to assert other affirmative defenses in this matter and in any civil litigation that may follow and to provide additional facts and mitigating circumstances.

2. To the extent Respondents did not specifically admit allegations in the Notice of Intent and Accusation, they deny such allegations.

PRAYER FOR RELIEF

1. That the Board find that the allegations in the Notice and all evidence presented to the Board do not support imposing discipline on any of the Respondent.

2. That the Board dismiss all Causes of Acton in in the Notice.

3. That the Board provide further relief to Respondents as it finds just and proper.

10. Respondents admit that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for certain of the violations alleged in the Second Amended Accusation, that:

A. In case number 18-028, Respondents Pipitone and Johnson failed to report the shortages/loss of controlled substances within ten (10) days of loss discovery to the Board, in violation of NRS 453.568.

B. In case number 18-028, Respondents Lin's, Pipitone and Johnson failed to keep complete and accurate records of all inventories of controlled substances maintained and dispensed, in violation of NRS 453.246, NRS 453.568, NAC 453.485, NAC 639.482, NAC 639.485, NAC 639.510, NAC 639.745.

C. In case number 20-063, Respondent Pipitone failed to fill the controlled substance prescription of patient L.B. as specified and without receiving confirmation after attempting to consult with the prescribing practitioner in violation of NRS 453.381(8), NRS 639.100(1), NAC 453.440(7), and NAC 639.252(2).

D. In case number 21-107, Respondent Johnson mistakenly dispensed a hydrocodone prescription to patient L.B. with the same last name, instead of correct patient J.B. Patient L.B. had six (6) prescriptions for herself and one (1) for her current husband. The hydrocodone prescription was mistakenly dispensed to patient L.B.

E. In case number 18-028, Respondent Pipitone is responsible as the managing pharmacist for the violations pursuant to NRS 639.210(15), NRS 639.220(3)(c) and NAC 639.702.

F. In case numbers 18-028, 20-063, and 21-107, Respondent Lin's is responsible for the violations as the pharmacy at which the violation of law alleged herein occurred pursuant to NRS 639.230(5), NAC 630.702, and NAC 639.945(2).

11. Those violations are plead with particularity in the 2nd Amended Accusation, and are grounds for action pursuant to NRS 639.210 and/or NRS 639.255.

12. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent Pipitone stipulate to the following. The registration of Katila Pipitone, RPh, Certificate of Registration No. 18500, is subject to the following penalties and conditions:

A. In case number 18-028, Respondent shall pay a fine of Two-Thousand Dollars ($2,000.00) for the violations;

B. In case number 20-063, Respondent shall pay a fine of Two-Thousand Dollars ($2,000.00) for the violations;

C. In case number 18-028, Respondent shall pay Five-Hundred Dollars ($500.00) to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter;

D. In case number 20-063, Respondent shall pay Five-Hundred Dollars ($500.00) to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter; and

E. In case number 20-063, Respondent is placed on probation for a period of one (1) year, and shall comply with all federal and state statutes and regulations regarding controlled substances and dangerous drugs, and have no additional charges filed against her while on probation.

Upon successful completion of probation, Respondent Pipitone's Certificate of Registration No. 18500 will be fully restored.

13. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent Johnson stipulate to the following. The registration of Respondent Timothy Johnson, RPh, Certificate of Registration No. 19232, is subject to the following penalties and conditions:

A. In case number 18-028, Respondent shall pay a fine of Two-Thousand Dollars ($2,000.00) for the violations;

B. In case number 21-107, Respondent shall pay a fine of Two-Thousand Dollars ($2,000.00) for the violations;

E. In case number 21-107, Respondent is placed on probation for a period of one (1) year and shall comply with all federal and state statutes and regulations regarding controlled substances and dangerous drugs, and have no additional charges filed against him while on probation.

Upon successful completion of probation, Respondent Johnson's Certificate of Registration No. 19232 will be fully restored.

14. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent Lin's stipulate to the following. The license of Respondent Lin's Supermarket, Pharmacy License No. PH01395, is subject to the following penalties and conditions:

A. In case number 18-028, Respondent Lin's shall pay a fine of Five-Thousand Dollars ($5,000.00) for the violations;

I. In case number 21-107, Respondent Lin's is placed on probation for a period of one (1) year.

Upon successful completion of probation, Respondent Lin's Pharmacy License No. PH01395, will be fully restored.

15. Any failure by any Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing the non-compliant Respondent(s) to appear before the Board at the next regularly-scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by any Respondent, the Board may impose additional discipline upon the non-compliant Respondent(s) consistent with the provisions of NRS Chapter 639.

16. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 13, 2021. Respondents will appear telephonically or *via* Zoom at the meeting to answer questions from the

18. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board on the same day or at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

19. Upon approval of this Stipulation by the Board, Respondents shall pay the fines agreed to herein by *cashier's check* or *certified check* or *money order* made payable to "State of Nevada, Office of the Treasurer," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of entry of this Order.

20. 21. Respondents Lin's Supermarkets ("Lin's"), Inc., Katila Pipitone, R.Ph., and Timothy Johnson, R.Ph. by and through their counsel William J. Stilling, of and for Stilling & Harrison, PLLC, answer and provide notice of their defense to the Second Amended Notice of Intended Action and Accusation ("Amended Notice") in the above-entitled matter and declare as follows.

REQUEST FOR HEARING

Respondents request a hearing on the Notice of Intended Action and Accusation.

RESPONSES TO ALLEGATIONS AND CAUSES OF ACTION

In answer to the Notice of Intended Action and Accusation, Respondents admit, deny, and allege as follows:

JURISDICTION

1. Respondents admit the allegations in paragraph 1.

FACTUAL ALLEGATIONS

2. Respondents admit the allegations in paragraph 2.

3. Respondents admit the allegations in paragraph 3.

4. Respondents admit the allegations in paragraph 4.

5. Respondents admit that Mr. Johnson found a discrepancy in Lin's inventory on or about December 21, 2017 of 70 oxycodone-acetaminophen 10-325 tablets and that Lin's pharmacy filed a DEA Form 106 on April 11, 2018. Respondents lack sufficient knowledge to admit or deny the remaining allegations in paragraph 5 and therefore deny them.

6. Respondents admit that on or about April 2, 2018, Mr. Johnson discovered a discrepancy of 400 oxycodone hydrochloride 15 mg tablets in Lin's inventory. The missing tablets were reported to the DEA by submission of DEA Form 106 on April 9, 2018. Respondents lack sufficient knowledge to admit or deny the remaining allegations in paragraph 6 and therefore deny them.

7. Respondents admit the allegations in paragraph 7.

8. Respondents admit that on April 2, 2020, Ms. Pipitone did what she could to provide L.B. with the correct dosage of oxycodone 10 mg at a time when there were no oxycodone 10 mg tablets in stock. Ms. Pipitone knew L.B. had been receiving oxycodone for a chronic pain condition and attempted to solve a clinical problem after attempting to contact the prescriber. Ms.

Pipitone informed L.B. she could not fill the oxycodone 10 mg because Lin's did not have any of that strength in stock. Ms. Pipitone knew L.B. needed this medication and provided L.B. with several options that included filling the prescription at a different pharmacy or dispensing 20 mg tablets and cutting them in half. She also explained that if she supplied 7 days of oxycodone 20 mg with instructions to cut the tablets in half: (i) L.B. would have to obtain a new prescription to fill the remainder of the thirty-day supply the prescriber ordered; (ii) insurance might not pay for the remaining tablets; and (iii) patients often do not like cutting tablets because the tablets sometimes shatter. L.B. agreed to receive a seven-day supply and to cut the tablets in half. Ms. Pipitone dispensed the correct dosage for L.B. (1/2 20 mg tablet) as was prescribed (10 mg). Respondents deny all other allegations in paragraph 8.

9. Respondents admit that Ms. Pipitone called the prescriber's office on April 2, 2020, was transferred to voice mail, and left a message. Respondents admit that in response to Ms. Pipitone's phone call, L.B.'s prescriber called the pharmacy on April 6 to cancel the remaining 23-day supply so L.B. could fill the remaining tablets at a pharmacy that had 10 mg oxycodone in stock to dispense. Respondents deny all other allegations in paragraph 9.

10. Respondents admit the allegations in paragraph 10.

11. Respondents admit the allegations in paragraph 11 except as to the following. Patient L.B. was supposed to received six prescriptions, but one of the prescriptions was a bulk prescription. She received six prescriptions, but mistakenly received a prescription for her former spouse J.B. who has the same last name. The bulk prescription was not included in the six prescriptions L.B.

12. Respondents admit the allegations in paragraph 12.

APPLICABLE LAW

13–24. Paragraphs 13 through 24 are statements of Nevada law and are not subject to admission or denial. To the extent anything in paragraphs 13 through 24 implies that Respondents engaged in unprofessional or unlawful conduct, Respondents deny the allegations in those paragraphs.

FIRST CAUSE OF ACTION
Violation of State Loss Reporting Requirement against Respondent (Lin's, Pipitone, and Johnson)

25. Respondents deny the allegations in paragraph 25.

SECOND CAUSE OF ACTION
Violation of Federal Loss Reporting Requirement against (Respondents Lin's, Pipitone and Johnson)

26. Respondents deny the allegations in paragraph 26.

THIRD CAUSE OF ACTION
Failure to Keep Complete and Accurate Records against Respondents Lin's, (Pipitone and Johnson)

27. Respondents deny the allegations in paragraph 27.

FOURTH CAUSE OF ACTION
Failure to Fill Prescription as Prescribed (Respondent Johnson)

28. Respondents deny the allegations in paragraph 28.

FIFTH CAUSE OF ACTION
Failure to Fill Prescription as Prescribed (Respondent Pipitone)

29. Respondents deny the allegations in paragraph 29.

SIXTH CAUSE OF ACTION
Managing Pharmacist Responsibilities (Respondent Pipitone)

30. Respondents deny the allegations in paragraph 30.

SEVENTH CAUSE OF ACTION
Pharmacy/Owner Responsibilities
Respondent Lin's

31. Respondents deny the allegations in paragraph 30.

OTHER DEFENSES

32. Each cause of action fails to state a claim upon which relief can be granted.

33. DEA theft and loss reporting regulations do not require reporting if a prescription for controlled substances is overfilled.

34. Determination of whether an entity violated federal laws and regulations cited in the Notice is a matter for federal courts and agencies, not a state entity such as the Nevada Board of Pharmacy.

MITIGATION AND PRACTICE CHANGES

35. For some two decades, Lin's in Overton has had fastidious compliance for controlled substances record keeping. No controlled substance losses have occurred prior to the alleged incidents at the pharmacy. The allegations in the Notice are the first time any claims of controlled substances record-keeping problems have arisen.

36. Most of the allegations in the Notice occurred several years ago (in 2017 and 2018) and the other more than a year ago. There have been no reports of issues with controlled substances record keeping or dispensing since then.

37. Lin's immediately filed a DEA 106 Form after the April 2018 discovery of what appeared to be an overfilled prescription. Even if it had not done so, DEA does not consider accidently overfilled prescription to be an incident for which a DEA-106 needs to be submitted. Likewise, the discrepancy that occurred in December 2017 appears to have been from an overfill. Nonetheless, Lin's submitted a DEA-106 form.

38. The two inspection reports subsequent to the date of the allegations did not document any controlled substance loss or other concerns.

39. When Ms. Pipitone dispensed 20 mg oxycodone with instructions for the patient to cut the tablets in half, she did so to help the patient receive the same dose of oxycodone as had been prescribed so the patient could receive the therapeutic benefit of the prescription and avoid pain associated from a chronic condition for which L.B. had been receiving the oxycodone. Ms. Pipitone knew L.B. had been receiving oxycodone for a chronic pain condition and attempted to solve a clinical problem when she could not get hold of the prescriber.

40. Lin's personnel cooperated fully with the inspectors and provided information requested pertaining to employee drug testing.

41. Lin's voluntarily implemented recommendations made by the NV Inspector(s). These include the following.

42. Lin's now utilizes a biometric fingerprint reader for accessing the pharmacy information system instead of the systems standard Random Daily Access Code (RDAC), which the teams used to scan when accessing the pharmacy information system.

43. Lin's proactively drug tested all employees when it learned of the discrepancies.

44. Lin's pharmacists double counted, back counted, and recorded on the dispensed label and perpetual logbook. Now, pharmacy personnel document those each time in the pharmacy prescription note for CIIs indicating the double count and back count amounts. These changes are additional safeguards against internal diversion. There has never been any allegation of, or evidence for, such diversion.

45. Lin's is the only pharmacy in Overton, NV. Even though Lin's has had a pristine record of compliance and has implanted additional processes to ensure no further discrepancies will

occur, pharmaceutical suppliers or payors are likely to take actions that will impair Lin's ability to serve Overton patients. If this occurs, patients in the community will have more difficulty accessing pharmacy services and obtaining necessary medications.

46. Lin's is the only provider in the area providing COVID vaccinations. Disciplinary action that results in disruption to pharmacy operations could impact patient access to vaccinations and other Covid-19 related services.

RESERVATION OF RIGHTS, DEFENSES, AND GENERAL DENIAL

1. Respondents reserve the right to assert other affirmative defenses in this matter and in any civil litigation that may follow and to provide additional facts and mitigating circumstances.

2. To the extent Respondents did not specifically admit allegations in the Notice of Intent and Accusation, they deny such allegations.

PRAYER FOR RELIEF

1. That the Board find that the allegations in the Notice and all evidence presented to the Board do not support imposing discipline on any of the Respondent.

2. That the Board dismiss all Causes of Acton in in the Notice.

3. That the Board provide further relief to Respondents as it finds just and proper.

2016- convicted child neglect- time served misdemeanor

A summary and explanation for all these past events are as follows.

I got married in 2011 and became an army wife, at that time I became a pharmacy technician, after moving away from my home Alaska to Texas. I was in a very emotionally and physically abusing marriage and I was very young. I left my husband in 2013 and moved to Las Vegas where my father resided. At that time I did not pursue my Continued Education to keep my PTCB valid, and also took the wrong steps trying to cover very immense pain that occurred in the duration of my marriage and the after affects. I ended up getting into trouble and going down the wrong path. I was able to recover myself and learn coping skills during my time in rehab. I moved away with my two kids from vegas to reno. I was a struggling single mom, but trying to make it work. From then on I have been growing, becoming stronger, and wiser. At this point im ready to get my career back.

Hey Darlene

I just seen your reply email back to me I had a very busy day today so here is the information you have asked about the first charge. I hope we are able to conclude this process now. Thankyou
Pagan

A better explanation of the first charge, from 2012, was my husband and I got into an argument he got upset and he choked me. I was trying to push him off of me because I couldn't breathe and finally I kicked him off and away from me to call 911. I told the dispatchers exactly what happened that he choked me and I kicked him away in self defense. When the police arrived I was pretty shook up and he lied to them and said he didn't choke me but that I did kick him. Since there was no other witnesses. They arrested me. I bailed out and got a protection order and a lawyer. My husband came forward to my lawyer with the truth. And everything was dismissed against me. Subsequently we divorced.

Its actually quite simple, I was stopped by UofM Campus police, after leaving an event at the school. And was charged with disorderly conduct after verbally refusing to be arrested. This was nine years ago, When I was much younger. Since then I have worked on Military bases and have been told by military recruiters I am morally able to join the service.

Thank you.

Additionally, Business and Professions Code Section 4081 states in pertinent part (a) All records of manufacture and of sale, acquisition, receipt, shipment, or disposition of dangerous drugs or dangerous devices shall be at all

times during business hours open to inspection by authorized officers of the law, and shall be preserved for at least three years from the date of making. A current inventory shall be kept by every...pharmacy... As related, California Code of Regulations Section 1718 states in part "Current Inventory" as used in Sections 4081 and 4332 of the Business and Professions Code shall be considered to include complete accountability for all dangerous drugs handled by every licensee enumerated in Sections 4081 and 4332. Joseph Cherian (RPH 51944), while acting as pharmacist-in-charge of Alliance Pharmacy (PHY 51160), located at 323 N. Prairie Ave Ste. 100, Inglewood, California 90301, failed to comply. Specifically, for an audit period of 03/28/2013 to 08/20/2015, Alliance Pharmacy could not account for an inventory overage of 50 oxycodone 30 mg tablets and an inventory shortage of 1,264 alprazolam 2 mg tablets. This was a violation of pharmacy law.

Unprofessional Conduct: Business and Professions Code Section 4301 states in part
The board shall take action against any holder of a license who is guilty of unprofessional conduct or whose license has been procured by fraud or misrepresentation or issued by mistake. Unprofessional conduct shall include, but is not limited to, any of the following: (o) Violating or attempting to violate, directly or indirectly, or *assisting in or abetting the violation* of or conspiring to violate any provision or term of this chapter or of the applicable federal and state laws and regulations governing pharmacy, including regulations established by the board or by any other state or federal regulatory agency. Additionally, Business and Professions Code Section 4126.5, subdivision (a) states, A pharmacy may furnish dangerous drugs only to the following: (1) A wholesaler owned or under common control by the wholesaler from whom the dangerous drug was acquired. (2) The pharmaceutical manufacturer from whom the dangerous drug was acquired. (3) A licensed wholesaler acting as a reverse distributor. (4) Another pharmacy or wholesaler to alleviate a temporary shortage of a dangerous drug that could result in the denial of health care. A pharmacy furnishing dangerous drugs pursuant to this paragraph may only furnish a quantity sufficient to alleviate the temporary shortage.
(5) A patient or to another pharmacy pursuant to a prescription or as otherwise authorized by law. (6) A health care provider that is not a pharmacy but that is authorized to purchase dangerous drugs. (7) To another pharmacy under common control. Joseph Cherian (RPH 51944), while acting as pharmacist-in-charge at Alliance Pharmacy (PHY 51160), located at 323 N. Prairie Ave Ste. 100, Inglewood, California 90301, failed to comply. Specifically, Between 01/09/2015 and 07/02/2015, Guardian Pharmacy (PHY 48241), located at 1823 Commercenter West San Bernardino, California 92408, sold 106,425 mL of promethazine/codeine syrup, 2,550 Relyyks patches, and 300 cyclobenzaprine 7.5 mg tablets to Alliance Pharmacy (PHY 51160), a pharmacy not under common control, in the absence of a documented shortage of any of the medications. By purchasing these medications from Guardian Pharmacy in the absence of a documented market shortage, Alliance Pharmacy assisted or abetted the violation of Business and Professions Code Section 4126.5 at Guardian Pharmacy. This was a violation of pharmacy law.

Requirements for Filling Controlled Substance Prescriptions: Health and Safety Code Section 11164 states in part, Except as provided in Section 11167, no person shall prescribe a controlled substance, nor shall any person fill, compound, or dispense a prescription for a controlled substance, unless it complies with the requirements of this section. (a) Each prescription for a controlled substance classified in Schedule II, III, IV, or V, except as authorized by subdivision (b), shall be made on a controlled substance prescription form as specified in Section 11162.1. As related Health and Safety Code Section 11162.1 states in pertinent part (a) The prescription forms for controlled substances shall be printed with the following features: (2) A watermark shall be printed on the backside of the prescription blank; the watermark shall consist of the words "California Security Prescription." (13) An identifying number assigned to the approved security printer by the Department of Justice. Additionally, (b) Each batch of controlled substance prescription forms shall have the lot number printed on the form and each form within that batch shall be numbered sequentially beginning with the numeral one. comply. Specifically, PIC Cherian verified and dispensed 18 controlled substance prescriptions written on 18 prescription documents from Dr. Annamalai Ashokan which did not conform with the requirements of Health and Safety Code Section 11162.1 as follows:

Furnishing Dangerous Drugs by Pharmacy: Business and Professions Code Section 4126.5 states in part, (a) A pharmacy may furnish dangerous drugs only to the following: (1) A wholesaler owned or under common control by the wholesaler from whom the dangerous drug was acquired. (2) The pharmaceutical manufacturer from whom the dangerous drug was acquired. (3) A licensed wholesaler acting as a reverse distributor. (4) Another pharmacy or wholesaler to alleviate a temporary shortage of a dangerous drug that could result in the denial of health care. A pharmacy furnishing dangerous drugs pursuant to this paragraph may only furnish a quantity sufficient to alleviate the temporary shortage. (5) A patient or to another pharmacy pursuant to a prescription or as otherwise authorized by law. (6) A health care provider that is not a pharmacy but that is authorized to purchase dangerous drugs. (7) To another pharmacy under common control. As related, Business and Professions Code Section 4040 states in part (a) "Prescription" means an oral, written, or electronic transmission order that is both of the following: (2) Issued by a physician, dentist, optometrist, podiatrist, veterinarian, or naturopathic doctor pursuant to Section 3640.7 or, if a drug order is issued pursuant to Section 2746.51, 2836.1, 3502.1, or 3460.5, by a certified nurse-midwife, nurse practitioner, physician assistant, or naturopathic doctor licensed in this state, or pursuant to Section 4052.1, 4052.2, or 4052.6 by a pharmacist licensed in this state. Also as related, Business

and Professions Code Section 4039 states "Physicians," "dentists," "optometrists," "pharmacists," "podiatrists," "veterinarians," "veterinary surgeons," "registered nurses," "naturopathic doctors," and "physician's assistants" are persons authorized by a currently valid and unrevoked license to practice their respective professions in this state. Joseph Cherian (RPH 51944), while acting as pharmacist-in-charge of Alliance Pharmacy (PHY 51160), located at 323 N. Prairie Ave Ste. 100, Inglewood, California 90301, failed to comply. Specifically, Alliance Pharmacy dispensing records indicated PIC Cherian verified and dispensed 4,894 prescriptions processed under the prescribing authority of Physician Assistant Linda Lewis (PA 10179) after 02/08/2014 when PA Lewis's physician assistant license was suspended. The dispensing record indicated the initial fill of 3,688 of the prescriptions in question occurred after 02/08/2014. This was a violation of pharmacy law.

Accuracy of Medication Profiles and Prescription Labels: California Code of Regulations Section 1707.1 states in part (a) A pharmacy shall maintain medication profiles on all patients who have prescriptions filled in that pharmacy except when the pharmacist has reasonable belief that the patient will not continue to obtain prescription medications from that pharmacy. (B) For each prescription dispensed by the pharmacy: (2). The prescriber's name and where appropriate, license number, DEA registration number or other unique identifier. Additionally, Business and Professions Code Section 4076 states in part (a) A pharmacist shall not dispense any prescription except in a container that meets the requirements of state and federal law and is correctly labeled with all of the following: (4) The name of the prescriber. Joseph Cherian (RPH 51944), while acting as pharmacist-in-charge of Alliance Pharmacy (PHY 51160), located at 323 N. Prairie Ave Ste. 100, Inglewood, California 90301, failed to comply. Specifically, PIC Cherian verified and dispensed prescriptions numbered 122088, 121644, 121645, 128013, and 128014 with Linda Lewis, PA incorrectly entered as the prescriber rather than the actual prescriber, Dr. Eugene Hubbard. In turn, the patient prescription record and prescription label for these prescriptions incorrectly listed Linda Lewis, PA as the prescriber. This was a violation of pharmacy law.

Upon receipt of any such prescription, the pharmacist shall contact the prescriber to obtain the information needed to validate the prescription.

(b) Even after conferring with the prescriber, a pharmacist shall not compound or dispense a controlled substance prescription where the pharmacist knows or has objective reason to know that said prescription was not issued for a legitimate medical purpose.

19. Federal Code of Regulations, title 21, section 1306.04 states, in pertinent part:

(a) A prescription for a controlled substance to be effective must be issued for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice. The responsibility for the proper prescribing and dispensing of controlled substances is upon the prescribing practitioner, but a corresponding responsibility rests with the pharmacist who fills the prescription. An order purporting to be a prescription issued not in the usual course of professional treatment or in legitimate and authorized research is not a prescription within the meaning and intent of section 309 of the Act (21 U.S.C. 829) and the person knowingly filling such a purported prescription, as well as the person issuing it, shall be subject to the penalties provided for violations of the provisions of law relating to controlled substances.

. . .

COST RECOVERY

23. Section 125.3 of the Code provides, in pertinent part, that the Board may request the administrative law judge to direct a licensee found to have committed a violation or violations of the licensing act to pay a sum not to exceed the reasonable costs of the investigation and enforcement of the case, with failure of the licensee to comply subjecting the license to not being

renewed or reinstated. If a case settles, recovery of investigation and enforcement costs may be included in a stipulated settlement.

FACTUAL ALLEGATIONS

24. On or about June 19, 2019, a Board Inspector conducted an inspection at Alliance Pharmacy. During the inspection, Respondent Cherian, pharmacist-in-charge, was not present, and staff pharmacist Nausher Kanji assisted the Board Inspector with the inspection. The Board Inspector learned that Alliance Pharmacy is an independent pharmacy in a medical building with offices, including a pain clinic, and dispenses about 200 prescriptions per day. During the inspection, the Board Inspector reviewed completed prescription documents, and collected the following:

- 50 prescription documents and associated verifications from Dr. Rahil Khan;
- 12 prescription documents from Dr. Eugene Hubbard;
- 8 prescription documents and associated verifications from Dr. Mark Glasberg;
- 12 prescription documents and associated verifications from Dr. Young Yi;
- 2 prescription documents and associated verifications from Dr. John Korzelius;
- 8 prescription documents and associated verifications from PA Vinod Satya; and
- 6 prescription documents and associated verifications from Dr. Dean Weiss.

25. At the end of the inspection, the Board Inspector requested the Pharmacy provide the Board a file detailing all prescriptions that Respondent Alliance Pharmacy filled from June 19, 2016 through June 19, 2019. The Board Inspector also requested that Respondent Cherian complete and return a questionnaire about corresponding responsibility.

26. On or about July 17, 2019, Respondent Cherian provided the Board Inspector with the previously requested file detailing all prescriptions that Respondent Alliance Pharmacy filled from June 19, 2016 through June 19, 2019 as well as the completed questionnaire about corresponding responsibility.

General dispensing trends

27. Based on a review of the Pharmacy's dispensing records, the Board Inspector noted the following general dispensing trends from the time period of June 19, 2016 through June 19, 2019:

a. Respondent Alliance Pharmacy filled approximately 3,348 controlled substance prescriptions under the prescribing authority of Dr. Rahil Khan, Dr. Eugene Hubbard, Dr. Mark Glasberg, Dr. Young Yi, Dr. John Korzelius, PA Vinod Satya, and Dr. Dean Weiss.

b. Respondent Cherian was noted in the Pharmacy's dispensing records as the verifying pharmacist for 95% of the controlled substance prescriptions from Dr. Khan, Dr. Glasberg, Dr. Yi, Dr. Korzelius, Dr. Weiss, and PA Satya. Including Dr. Hubbard, Respondent Cherian was noted in the Pharmacy's dispensing records as the verifying pharmacist for over 50% of the prescriptions from these 7 prescribers.

c. One of the most commonly dispensed controlled substances of these 7 prescribers was oxycodone 30mg, a commonly abused controlled substances. The prescriptions included 952 prescriptions for oxycodone 30 mg, totaling 79,375 oxycodone 30 mg tablets.

Irregularities in prescriptions and prescribing patterns

28. Based on review of the Pharmacy dispensing records and original prescription documents, the Board Inspector determined that while Respondent Cherian was the pharmacist-in-charge, Respondent Alliance Pharmacy had dispensed several prescriptions for controlled substances during the time period of June 19, 2016 through June 19, 2019 that exhibited objective factors of irregularity—or red flags—for potential abuse without adequately ensuring the prescriptions were issued for a legitimate medical purpose in the usual course of professional practice. Factors of irregularity were evident in the prescription documents and prescribing patterns generated under the purported prescribing credentials of at least 7 prescribers, including but not limited to the following:

29. **Dr. Rahil Khan:**

a. Respondent Alliance Pharmacy filled approximately 673 prescriptions under the prescribing authority of Dr. Rahil Khan during the query period. All of these prescriptions were dispensed between April 27, 2017 and November 18, 2017.

b. Oxycodone 30 mg was Dr. Khan's most commonly prescribed medication, accounting for 19.02% of his total prescribing.

///

c. All of Dr. Khan's 128 prescriptions for oxycodone were prescribed exclusively in the highest available strength despite inter-patient variability.

d. All of the 57 patients who received prescriptions from Dr. Khan during the query period received a controlled substance. Of these 57 patients, 46 patients received at least one prescription for oxycodone 30 mg.

e. Dr. Khan's frequent prescribing of oxycodone 30 mg, oxymorphone 40 mg, and promethazine/codeine syrup is incongruent with what would be expected for a physician practicing within the scope of Dr. Khan's self-reported practice (i.e., general practice and dermatology).

f. There were numerous instances when Respondent Alliance Pharmacy processed similar or identical prescriptions for oxycodone 30 mg from Dr. Khan on the same day.

g. Dr. Khan's address listed in the Pharmacy's dispensing data is located in Northridge, California, 26 miles from Respondent Alliance Pharmacy, resulting in patients traveling unusual distances from Dr. Khan's office to Respondent Alliance Pharmacy to obtain prescriptions.

h. Of the 50 prescription documents collected by the Board Inspector during the inspection, 47 of the prescription documents, which contained a total of 61 controlled substance prescriptions, did not conform to the requirements of Health and Safety Code section 11162.1 in that they did not contain the "California Security Prescription" watermark. This omitted security feature alone invalidated the prescriptions and visibly indicated that the prescriptions were not written legitimately. Each of the 47 non-compliant prescription documents contained a prescription for oxycodone 30 mg and/or oxymorphone 40 mg. Respondent Cherian was noted in the Pharmacy dispensing records as the verifying pharmacist for all 47 non-compliant prescription documents from Dr. Khan.

i. On 8 occasions, Dr. Khan's prescriptions for oxymorphone 40 mg contained an error in prescribing, bearing directions to take one tablet by mouth every four to six hours as needed. In each of these instances, Respondent Alliance Pharmacy staff contacted Dr. Khan's office and corrected the prescription to direct the patient to take 2 tablets by mouth every 12 hours.

///

j. Despite the irregularities discussed above, the prescription documents collected did not contain documentation indicating that that the Pharmacy contacted Dr. Khan to specifically address these irregularities prior to filling the prescriptions.

30. Dr. Eugene Hubbard

a. Respondent Alliance Pharmacy filled approximately 7,115 prescriptions under the prescribing authority of Dr. Eugene Hubbard during the query period. All of these prescriptions were dispensed between June 20, 2016 and September 27, 2017.

b. Carisoprodol 350 mg, acetaminophen/codeine 300/60 mg, and Hydrocodone/acetaminophen 10-325 mg were some of Dr. Hubbard's most commonly prescribed medications, accounting for 13.75%, 10.25% , and 7.58% of Dr. Hubbard's total prescribing, respectively. Together, these three controlled substances accounted for 31.58% of Dr. Hubbard's total prescribing.

c. Dr. Hubbard prescribed hydrocodone/acetaminophen almost exclusively in the highest available strength, with 539 of the 541 prescriptions for hydrocodone/acetaminophen prescribed in the highest available strength despite inter-patient variability.

d. Approximately 33.3% of the prescriptions were paid in cash, without the aid of prescription insurance. There were numerous instances when Respondent Alliance Pharmacy processed prescriptions for several cash-paying patients of Dr. Hubbard's on the same day, and often these prescriptions were assigned consecutive prescription numbers.

e. Many of Dr. Hubbard's patients travelled unusual distances from their homes to Respondent Alliance Pharmacy to obtain prescriptions. For example, multiple patients had addresses listed in Long Beach, Pasadena, Sylmar, Anaheim, and Victorville, 22.9 miles, 23.6 miles, 32 miles, 34.5 miles, and 95.3 miles from Respondent Alliance Pharmacy, respectively.

f. Of the 12 prescription documents the Board Inspector collected during the inspection, 11 prescription documents from Dr. Hubbard, containing 20 prescriptions for controlled substances, did not conform to the requirements of Health and Safety Code section 11162.1 in that they lacked the "California Security Prescription" watermark. This omitted security feature alone invalidated the prescriptions and visibly indicated that the prescriptions were not written

legitimately. Respondent Cherian was noted in the Pharmacy dispensing records as the verifying pharmacist for 3 of the non-compliant prescription documents from Dr. Hubbard.

g. Despite the irregularities discussed above, the prescription documents collected did not contain documentation indicating that the Pharmacy contacted Dr. Hubbard to specifically address these irregularities prior to filling the prescriptions.

31. Dr. Mark Glasberg

a. Respondent Alliance Pharmacy filled approximately 693 prescriptions under the prescribing authority of Dr. Mark Glasberg during the query period. All of these prescriptions were dispensed between June 14, 2018 and March 21, 2019.

b. Oxycodone 30 mg was Dr. Glasberg's most commonly prescribed medication, accounting for 18.9% of his total prescriptions.

c. Dr. Glasberg prescribed immediate release oxycodone almost exclusively in the highest available strength, with 131 of the 132 prescriptions for immediate release oxycodone prescribed in the highest available strength despite inter-patient variability.

d. Of Dr. Glasberg's 57 patients who received prescriptions during the query period, 53 patients received at least one prescription for oxycodone 30 mg.

e. There were numerous instances when Respondent Alliance Pharmacy processed similar or identical prescriptions for oxycodone 30 mg from Dr. Glasberg on the same day.

f. Dr. Glasberg's frequent prescribing of oxycodone 30 mg is incongruent with what would be expected for a physician practicing within the scope of Dr. Glasberg's self-reported area of practice (i.e., neurology and neurosurgery).

g. Despite the irregularities discussed above, the prescription documents collected did not contain documentation indicating that the Pharmacy contacted Dr. Glasberg to specifically address these irregularities prior to filling the prescriptions.

32. Dr. Young Yi

a. Respondent Alliance Pharmacy filled approximately 835 prescriptions under the prescribing authority of Dr. Young Yi during the query period. All of these prescriptions were dispensed between December 27, 2016 and October 29, 2018.

b. Oxycodone 30 mg and hydrocodone/acetaminophen 10/325 mg were Dr. Yi's most commonly prescribed medication, accounting for 31.98% and 17.72% of his total prescribing, respectively. Together, these two commonly abused controlled substances made up 49.7% of Dr. Yi's total prescribing.

c. All 237 of Dr. Yi's prescriptions for oxycodone were prescribed exclusively in the highest available strength despite inter-patient variability. Moreover, all 148 of Dr. Yi's prescriptions for hydrocodone/acetaminophen were prescribed exclusively in the highest available strength despite inter-patient variability.

d. Of the 119 patients that received prescriptions from Dr. Yi during the query period, 118 of these patients received a prescription for a controlled substance. Further, 60 patients received at least one prescription for oxycodone 30 mg and 60 patients received at least one prescription for hydrocodone/acetaminophen 10/325 mg.

e. There were numerous instances when Respondent Alliance Pharmacy processed similar or identical prescriptions for oxycodone 30 mg and/or hydrocodone/acetaminophen 10/325 mg from Dr. Yi on the same day.

f. Despite the irregularities discussed above, the prescription documents collected did not contain documentation indicating that the Pharmacy contacted Dr. Yi to specifically address these irregularities prior to filling the prescriptions.

33. Dr. John Korzelius

a. Respondent Alliance Pharmacy filled approximately 121 prescriptions under the prescribing authority of Dr. John Korzelius during the query period. All of these prescriptions were dispensed between August 10, 2017 and February 22, 2019.

b. Oxycodone 30 mg was Dr. Korzelius's most commonly prescribed medication accounting for 48.76% of his total prescribing.

c. All 18 of Dr. Korzelius's patients received at least one prescription for oxycodone 30 mg.

d. All 59 of Dr. Korzelius's prescriptions for immediate release oxycodone were prescribed exclusively in the highest available strength despite inter-patient variability.

e. There were numerous instances when Respondent Alliance Pharmacy processed similar or identical prescriptions for oxycodone 30 mg from Dr. Korzelius on the same day.

f. The prescription documents collected by the Board Inspector during the inspection list an address for Dr. Korzelius in Encino, California, 20.1 miles from Respondent Alliance Pharmacy. Moreover, the Pharmacy's dispensing record also listed two additional addresses for Dr. Korzelius, located in Granada Hills and Santa Ana, 27.2 miles and 37.7 miles away from Respondent Alliance Pharmacy, respectively. This means that patients traveled unusual distances from Dr. Korzelius's office to Respondent Alliance Pharmacy to obtain prescriptions.

g. Despite the irregularities discussed above, the prescription documents collected did not contain documentation indicating that the Pharmacy contacted Dr. Korzelius to specifically address these irregularities prior to filling the prescriptions.

34. PA Vinod Satya

a. Respondent Alliance Pharmacy filled approximately 196 prescriptions under the prescribing authority of Physician Assistant Vinod Satya during the query period. All of these prescriptions were dispensed between January 11, 2018 and June 26, 2018. The prescription documents collected by the Board Inspector during the inspection indicated that PA Satya practiced under the supervision of Dr. Korzelius during this time period.

b. Oxycodone 30 mg was PA Satya's most commonly prescribed medication accounting for 38.78% of his total prescribing.

c. All 36 of PA Satya's patients received at least one prescription for oxycodone 30 mg.

d. All 76 of PA Satya's prescriptions for immediate release oxycodone were prescribed exclusively in the highest available strength despite inter-patient variability.

e. There were numerous instances when Respondent Alliance Pharmacy processed similar or identical prescriptions for oxycodone 30 mg from PA Satya on the same day.

f. The prescription documents collected by the Board Inspector during the inspection list an address for PA Satya in Santa Ana, California, 37 miles from Respondent Alliance Pharmacy, resulting in patients traveling unusual distances from PA Satya's office to Respondent Alliance Pharmacy to obtain prescriptions.

g. Despite the irregularities discussed above, the prescription documents collected did not contain documentation indicating that the Pharmacy contacted PA Satya to specifically address these irregularities prior to filling the prescriptions.

35. **Dr. Dean Weiss**

a. Respondent Alliance Pharmacy filled approximately 1,695 prescriptions under the prescribing authority of Dr. Dean Weiss during the query period. All of these prescriptions were dispensed between October 30, 2018 and June 18, 2019.

b. Oxycodone 30 mg was Dr. Weiss's most commonly prescribed medication, accounting for 17.17% of his total prescribing.

c. Of Dr. Weiss's 68 patients who received prescriptions during the query period, 62 patients received at least one prescription for oxycodone 30 mg.

d. Dr. Weiss's prescriptions for immediate release oxycodone were prescribed almost exclusively in the highest available strength, with 291 of the 292 prescriptions for immediate release oxycodone prescribed in the highest available strength despite inter-patient variability.

e. There were numerous instances when Respondent Alliance Pharmacy processed similar or identical prescriptions for oxycodone 30 mg from Dr. Weiss on the same day.

f. Dr. Weiss's address in the Pharmacy's dispensing record is located in Monterey Park, California, 18.2 miles from Respondent Alliance Pharmacy, resulting in many of Dr. Weiss's patients traveling unusual distances to Respondent Alliance Pharmacy to obtain prescriptions.

g. Despite the irregularities discussed above, the prescription documents collected did not contain documentation indicating that the Pharmacy contacted Dr. Weiss to specifically address these irregularities prior to filling the prescriptions.

36. Based on a review of the Pharmacy documentation collected and Patient Activity Reports, the Board Inspector determined that at least 26 patients were likely opioid naïve, yet these patients initiated opioid therapy at Respondent Alliance Pharmacy with the highest available strength of immediate release oxycodone. Respondent Cherian was noted in the Pharmacy's dispensing records as the verifying pharmacist for all 26 of these prescriptions. These prescriptions are summarized in the following table:

- The watermark printed on the back stated "DocuGard."

Based on the 66 controlled substance prescriptions dispensed, Joseph Cherian dispensed a total of approximately: 3,060 tablets of oxycodone immediate-release 30 mg, 2,850 tablets of hydrocodone/acetaminophen 10/325 mg, and 120 tablets of oxymorphone extended-release 40 mg. Hi Candy,

Please accept this letter and enclosed documents as response to your request for a statement of explanation regarding my answering yes to having been subject of a board citation or administrative action whether completed or pending in any state. I have 2 citations which have been resolved and one pending accusation. Please reference the associated documents when reviewing my explanations below as they have details of the issues.

CI 201775965 – This is a citation from 2017 for me as PIC of Alliance Pharmacy in Inglewood CA.

1) Accurate Inventory: We were off a fraction of a percent of utilized volume of Oxycodone 30mg and Alprazolam 2mg. There was no fine associated with this violation as the discrepancies were so small. We have since purchased an EyeCon counter to prevent manual counting errors and moved to keeping a perpetual inventory of all schedule 2 controlled substances.

2) Purchasing medication from a pharmacy not under same ownership: I purchased medications from a friend's pharmacy which I did not know wasn't allowed outside of a market shortage or unless the pharmacies had common ownership in CA. The CA BOP had only recently started enforcing this law when the citation was issued. I have worked in a pharmacy since the late nineties and it was common practice for pharmacies to buy inventory from each other. I have only purchased medications from CA licensed wholesalers since this was brought to my attention.

3) Requirement of controlled substance prescription blank: I filled controlled substances that were missing one or more of the over dozen "security features" required for a controlled substance prescription in CA. The security features that were missing on these rx blanks are usually in very small print and it is very possible to miss these, when the more prominent security features are evident. I had contacted and verified all these rxs for controlled substances from the Marina Shore Medical Group either by phone and/or fax. They had sent me chart notes and pain contracts on some of their patients per my request. The contact information on the rx pads matched what was available on public sources and I had called the number listed on their website to confirm that it was the same place. I had spoken to Dr. Ashokan in the past and routinely spoke to the office staff including James who was the office manager. Also, despite being a pain management office, controlled substances were not the only medications Dr. Ashokan prescribed. A variety of NSAIDs and other adjunct agents were prescribed at

therapeutic doses and in usual quantities. I cannot comment on why his vendor provided prescription pads that did not conform to the CA specific requirements; however, I continue to believe these prescriptions were legitimately issued by a licensed prescriber for a valid medical reason. Please note that I had verified the prescriber's credentials with the Medical Board of CA as well as the DEA prior to filling the prescriptions. We have not filled any prescriptions from this doctor since 2016.

4) "Prescriber" with Suspended license: We had processed prescriptions under the authority of a PA whose license was suspended due to misunderstanding with prescriber's office and subsequent clerical errors. All rxs after 02/08/14 which were processed with Linda Lewis as the prescriber were due to clerical error. The actual prescriber was Eugene Hubbard MD, her supervising physician. Both Dr. Hubbard and Linda Lewis PA were listed on the rx pads of Amini Medical prior to 02/08/2014. However, Linda's name and information was removed from them around that time. Linda is elderly and has some health issues. I was told in passing that she was cutting down her workload due to some recent hospitalizations. Hence, the explanation of why her name was removed from the rx pads. I did not know her license had been suspended. I routinely check physician credentials on the Medical Board website (BreEZe) and verify DEA registration status. However, since physician assistants don't have any authority to prescribe outside their relationship with their supervising physician, I had not been routinely checking the PA licensing website. I based this on the knowledge that the supervising physician would be responsible for this. That said, I did confirm DEA registration for MLPs when first filling controlled medications and she had clear credentials when we first started filling her rxs.

This was a unique situation in that Linda Lewis still worked at Amini Medical in an administrative capacity, but is no longer practicing as a PA. Amini Medical was located in our building until early 2016. I believe Dr. Hubbard and staff assumed that we would automatically change all subsequent rxs to Dr. Hubbard's NPI since Linda's name was no longer on their actual hard copies. However, that intent was not specifically communicated to me or my staff. Hence, when Linda called in rxs on Dr. Hubbard's behalf, my staff reasonably assumed that she was the prescriber. Also, many rxs after 02/08/14 were refills of prescriptions that Linda had originally written under her own authority. When entering a refill authorization, we would notate "ok per XX.XX" in the appropriate field and continue to process with the original prescriber name. Also, many of the "new" rxs after 02/2014 were actually "renewals" of existing prescriptions. Renewal is where we assigned an existing prescription a new rx number while copying over data elements like drug, sig, qty, TAR number, prescriber info from the existing rx. This function prevented us from having to reenter all data elements of the prescription when they have not changed. DigitalRx still shows these as, and they are technically, "new" prescriptions since a new prescription number and "written date" had been assigned. Dr. Hubbard's office moved far away from us a few years ago and Linda retired so we no longer fill either of their prescriptions. Also, now we currently verify licensing status on all prescribers not just physicians.

5) Accuracy of Medication Profiles and Labels: This is the same issue as #4 above and has the same explanation. Linda Lewis was listed as prescriber in error in the patients' profiles and on the labels.

CI 201986482 – This is a citation from 2019 for me as PIC at Douglas Park Pharmacy Long Beach CA. Please note that I work at more than one pharmacy. The CA board of pharmacy cited me for filling prescriptions from the same doctor's non-compliant prescription pads at this pharmacy as they had done at Alliance pharmacy, years earlier. This was done despite my attestation and reports showing we had stopped filling Dr. Ashokan's prescriptions at any of my pharmacies in 2016. That is, prior to me

receiving a citation for the same issue at Alliance pharmacy in 2017. The inspector ignored my argument that this citation was duplicative in that we had already stopped filling this doctors prescription years before based on inspection of another one of my pharmacies. Also, I filled 2 prescriptions that didn't have the prescriber's credential pre-printed on the prescription blank. She was new to the practice and had stamped her credentials on the practices multi-prescriber rx blank while waiting for the new pre-printed blanks to arrive. I verified all controlled substances with her by phone and/or fax. She subsequently did receive blanks with her name and credentials on the practice's multi-prescriber rx pads. I did not know that a stamp was not allowed for credentials. There was no fine associated with this citation. However, we no longer accept prescriptions for controlled substances with the prescriber information that is not pre-printed regardless of patients need or prescribers explanation.

AC7050 – This is a pending accusation for me as PIC of Alliance Pharmacy in Inglewood CA. I have retained counsel and intend to vigorously defend my practice. Please accept my attorney's response to the board's circumstantial allegations at the end of this document as my explanation. I would like to highlight some of the facts below:

1) We verify all initial controlled substance prescriptions with the prescriber office via phone and or fax. We often require prescriber fax us attestation of opioid tolerance and medical necessity
2) We verify all prescriber credentials (professional license, DEA registration, OIG exclusions) monthly
3) We check CA PDMP (CURES) prior to every fill of schedule 2 controlled substances
4) The controlled substance rxs without the watermark (one of over a dozen security features required in CA) from Dr. Khan were all filled prior to my initial citation in 2017 about this issue.
5) Nearly all patients on over 50 MEDD have a signed and fingerprinted pain contract.
6) Nearly all the prescriptions were billed through insurance and not "cash".
7) Nearly all patients on greater than 50 MEDD were prescribed Narcan by me.
8) None of the prescribers deny issuing any of these prescriptions
9) All the prescribers in question are still duly licensed and practicing medicine as of the last time I checked.

Please see the explanation for AC7050 on the following pages.

Please not that the citations were both closed. Since no fine was due for the 2019 citation I never received a resolution letter. I've included the resolution letter for the 2017 citation I'm happy to discuss these or any other matters at your convenience. I can be reached on my mobile at 714-319-4653 or by email.

RE: NOTICE OF VIOLATION - CI 2018 82770
Alliance Pharmacy (PHY 51160), and Joseph V. Cherian (RPH 51944)
323 N. Prairie Ave., Ste. 100, Inglewood, CA 90301

Dear Inspector Randall:

We hereby submit this letter in response to your pending investigation in the above-referenced Notice of Violation (Notice) against our Clients, ALLIANCE PHARMACY (PHY 51160) (hereinafter "Pharmacy"), and JOSEPH CHERIAN (RPH 51944) (hereinafter "PIC Cherian"). We have hereto enclosed a copy of the Notice of Violation for reference (Exhibit A). In that Notice, you indicated that your investigation revealed our clients' apparent failure to comply with the laws governing the practice of pharmacy. But for reasons discussed below, we believe that the Pharmacy, PIC Cherian and its pharmacists acted within the standard of care and practice in relation to the furnishing of controlled substances, and did not deviate from the dictates of the law.

ALLEGED VIOLATIONS

(1) It is alleged in the Notice that the Pharmacy dispensed 61 controlled substance prescriptions written on 47 prescription documents from Dr. Khan, and 20 controlled substance prescriptions written on 12 prescription documents from Dr. Hubbard, which did not comply with the requirements of HSC § 11162.1. Particularly, the prescription forms lacked a "*California Security Prescription*" watermark. Furthermore, it is alleged that PIC Cherian was the dispensing pharmacist of record for 50 of these prescriptions.

Watermark Visibility

While we do not dispute the fact that the prescription forms used by the aforementioned prescribers did not contain all the legally required features, this error was brought about by the fact that such watermark is NOT very visible even if viewed in an angle, and this element can be very easily missed by any pharmacist. In some instances, it may even be necessary to use an Ultra Violet light ("blue light") device just to confirm the presence of the required watermark.

Prescription Verification

But it should be noted that PIC Cherian had verified all the suspect prescriptions via phone and/or fax, and in fact, PIC Cherian even went so far as visiting the prescriber's office - Dr. Khan - unannounced to do a visual inspection of the premises. However, PIC Cherian was unable to speak with Dr. Khan during his visit because, at that time, Dr. Khan has not yet arrived at the office. He was expected to arrive within 30 minutes. Although he was invited to wait for him, PIC Cherian was unable to stay due to his own time constraints. However, based on PIC Cherian's personal observation, he did not see any "red flags" that would have alerted him about any issues with the prescriber's practice. In particular, PIC Cherian (1) did NOT see a crowd of patients in the waiting room, or anything unusual about the office staff, and (2) saw the prescriber's original DEA Permit and other official documents posted behind the reception desk. It is also important to note the fact our Clients have not filled any prescriptions from Dr. Khan in nearly three (3) years.

Regarding Dr. Hubbard, PIC Cherian had met him in person before on multiple occasions and he was very familiar with his office staff. And again, PIC Cherian had no viable reason to believe that there is anything irregular or suspicious about Dr. Hubbard and his clinic. But PIC Cherian notified Dr. Hubbard's office about this issue, and was informed that it may be an error with his prescription vendor, and indicated that they would get this matter reviewed for compliance. Furthermore, Dr. Hubbard's office has already moved to Carson, and our Clients have not filled any controlled substance prescription from him for about three (3) years now.

DOJ-Approved Printers

It is equally important to consider the technical nature of this issue regarding the required security features for controlled substance prescription forms. This is further complicated by the fact that based on PIC Cherian's evidence, at least as of January 2019, the California Department of Justice (DOJ) continues to approve prescription blank "proofs" for printers, which are noncompliant with all the statutory required security features. Particularly, the prescription forms that our Clients reviewed were missing, at least, the batch and form numbers, despite having the then newly required "DOJ Serial Number," which the printers produced based on the approved, but flawed, proofs. In fact, PIC Cherian made further inquiry about this deficiency, and he received a written response, via email, from the printing press that created the form, and the representative from DOJ security program that approved the proof (please see Exhibit B). Accordingly, the DOJ representative confirmed that the prescription forms were DOJ-approved, and the printing press is an authorized security printer.

While we recognize that this issue is not about the watermark, we posit that the absence of any security feature does not necessarily mean the prescription was illegitimately issued. Rather, the prescribers use, and pharmacies fill, the defective prescription forms with reasonable reliance that the printers submitted the correct printing proofs, and the approving agency had reviewed those proofs for compliance prior to authorizing the printing of the prescription documents. Therefore, the

Office: 949.336.7854 • Fax: 949.336.2314 • Email:AVizcocho@CAPharmacyLaw.com
55 Cetus, 1st Floor, Irvine, CA 92618

prescribers and the pharmacies should not be penalized for errors of other individuals or entities that caused the problem.

Furthermore, if the singular purpose of requiring the use of security forms is to prevent pharmacies from filling fraudulent prescriptions, then this goal was amply achieved by our Clients' direct confirmation of the orders with the prescribers. As such, we submit that our clients satisfied the substance of the law when they filled the prescriptions from Drs. Khan and Hubbard because they made the required verification of the orders, albeit the fact that they may have failed to identify all the required security features.

(2) It is also alleged in the Notice that, from 6/19/2016 to 6/19/2019, the Pharmacy and PIC Cherian dispensed 3,348 controlled substance prescriptions under the prescribing authority of Dr. Rahil Khan, Dr. Eugene Hubbard, Dr. Mark Glasberg, Dr. Young Yi, Dr. John Korzelius, PA Vinod Satya, and Dr. Dean Weiss, in the presence of objective factors suggesting the prescriptions were not legitimately prescribed. These prescriptions included 79,375 oxycodone 30mg tablets. Additionally, it is alleged that PIC Cherian was the dispensing pharmacist of record for 95% of the irregular controlled substance prescriptions from these prescribers. Including Dr. Hubbard, PIC Cherian verified over half of the prescriptions from those same prescribers.

(i). *Oxycodone 30 mg was the most commonly prescribed medication for Drs. Khan, Glasberg, Yi, Korzelius, Weiss, and PA Satya. For each prescriber, oxycodone 30 mg represented an unusual percentage of total prescribing at Alliance Pharmacy.*

While we acknowledge that our Clients filled a significant amount of narcotic pain medications, it is important to consider the fact that PIC Cherian has a clinical interest in pain management, and he has positioned Alliance Pharmacy as a pain management pharmacy. PIC Cherian has been a member of the American Academy of Pain Medicine since 2018 (see Exhibit M), has been certified to provide Naloxone, and is working on getting an American Society of Health-System Pharmacists (AHSP) Certificate in Pain Management. PIC Cherian sincerely believes that patients in chronic pain, especially if they are African American, are being ill-served by the pharmacy profession amidst the controlled substance abuse epidemic. Most chain pharmacies and many independent pharmacies will simply reject patients who present prescriptions for Percocet 10/325, Norco 10/325, Oxycodone 30mg, and other highly-abused controlled substances prior to doing any due diligence. This is supported by the increase in consumer complaints to the Board regarding this very issue. PIC Cherian does not consider being in severe pain to be a "red flag" or an irregularity. Instead, PIC Cherian always does his best perform the necessary prescription verification and inquiry in order to serve those patients who genuinely need pain medications (please see Exhibit C for the sequential steps in the Pharmacy prescription verification process, as stated in PIC Cherian's previous statement to the Board dated July 17, 2019).

Office: 949.336.7854 • Fax: 949.336.2314 • Email:AVizcocho@CAPharmacyLaw.com
55 Cetus, 1st Floor, Irvine, CA 92618

Also, to ensure the safety of his patients, he requires they sign a pain agreement with the pharmacy, and routinely prescribes naloxone himself based on the patient's opioid dosage and/or other risk factors. Please see Exhibit K incorporated herein by reference, which contains a copy of PIC Cherian's Naloxone Training Certificate, and Exhibit L for a copy of the Pharmacy Pain Management Agreement.

(ii). *A sampled portion of the prescriptions from Dr. Hubbard and Khan were invalid in that they were written on prescription documents which lacked required security features.*

Please see our discussion in section (1) above.

(iii). *The offices of Drs. Khan, Korzelius, Weiss, and PA Satya were more than 15 miles from Alliance Pharmacy.*

We agree with your conclusion that the offices of these prescribers were located more than fifteen (15) miles from the Pharmacy. But we dispute the notion that the pronounced distance between the offices and the Pharmacy is a red flag in this case.

(a) Dr. Khan

We reiterate that PIC Cherian and the Pharmacy had an established working relationship with Dr. Khan and his clinic, and they have filled prescriptions from him on multiple occasions, which were appropriately verified.

(b) Dr. Korzelius and PA Satya

These prescribers have multiple offices. Particularly, their Santa Ana office is about 40 miles from the Pharmacy, but the Inglewood office on Hardy Street is very close to our clients' location. Please note that their patients have the option to choose whichever office location for their checkup and appointments. Please see Exhibit D incorporated herein by reference, which contains information about the prescribers' office locations, as retrieved from their website.

(c) Dr. Weiss

Dr. Weiss' office was formerly located in Alhambra, which is about 20 miles from the Pharmacy, but his current office is in Downtown Los Angeles, which is only about 11 miles away. But regardless of the distance of the previous and current office from the Pharmacy, it has been out clients' invariable practice to verify prescriptions if there appears to be any irregularity or red flag present. Please see Exhibit E incorporated herein by reference, which contains record of PIC Cherian's validation of new location with Dr. Weiss.

All of the prescriber's offices in question may be located more than 15 miles away from the Pharmacy, but this does not change the fact that they are still within the Los Angeles County area, and it is not unusual for anyone to drive more than 15 miles to, and from, any location once or twice a month to see their clinician. We believe that the

Office: 949.336.7854 • Fax: 949.336.2314 • Email:AVizcocho@CAPharmacyLaw.com
55 Cetus, 1st Floor, Irvine, CA 92618

15-mile limitation is an arbitrary standard, and we are not aware of any statue or regulation that expressly sets that distance. It should also be noted that the patients that our clients served, which were seen by these prescribers, live within our clients' service area, and the distance factor was inconsequential. However, our clients do NOT fill prescriptions if the office is unreasonably far from the Pharmacy, such as Fontana. Please see Exhibit F for a copy of the denied prescription due to unresolved red flag of distance.

(iv). *Drs. Khan, Glasberg, Yi, Korzelius, Weiss, and PA Satya prescribed immediate release oxycodone almost exclusively in the highest available strength. Dr. Hubbard prescribed hydrocodone/acetaminophen almost exclusively in the highest available strength.; Most of the patients of Drs. Khan, Glasberg, Yi, Korzelius, Weiss, and PA Satya received at least one prescription for oxycodone 30 mg tablets.*

We believe these findings can be attributed to the adverse selection of patients because of the fact that other pharmacies turn away the higher dose prescriptions, and the Pharmacy would end up filling those frowned upon orders. However, our Clients treat every prescription with the same degree of importance, and subject to the necessary scrutiny prior to filling a controlled substance prescription.

(v). *Dr. Khan and Dr. Glasberg's prescribing was incongruent with their self-reported areas of practice on the Medical Board of California's online database.*

We disagree. We are not aware of any specific legal requirement that chronic pain patients must be treated by a board-certified pain specialist only. As you may know, one (1) in every five (5) people in this country have a chronic pain condition, and it is impossible for all patients requiring some sort of treatment be seen by the few pain specialists in and around their local area. We see no objective reason why a family medicine physician (per NPI), like Dr. Rahil Khan, could not treat chronic pain patients if he has an interest in pain management. Conversely, Dr. Glasberg is a neurologist, and as such, he routinely treats chronic pain patients that may have underlying neurological condition.

Also, prior to verifying any Schedule II (CII) prescription, PIC Cherian checks the status of prescribers' medical licenses to ensure they are clear and no disciplinary actions pending, and PIC Cherian also verifies the validity of their DEA registration for prescribing controlled substances in Schedule II, as well as Schedules III, IV, and V. Please note that both physicians have unencumbered medical license and DEA permit.

However, if there were instances where the prescriber's practice specialization is really incongruent with the medication prescribed and the condition being treated, then PIC Cherian would reach out to the prescriber in order to resolve the red flag. In fact, PIC Cherian recalls such a case where the prescriber, Dr. Troy Williams, was an "OB-GYN" specialist, but the prescription was issued for a chronic pain patient, which facially

Office: 949.336.7854 • Fax: 949.336.2314 • Email:AVizcocho@CAPharmacyLaw.com
55 Cetus, 1st Floor, Irvine, CA 92618

appears to be irreconcilable with the prescriber's practice. But PIC Cherian was able to resolve this "red flag" after talking to the prescriber on the phone. Please see Exhibit G incorporated herein by reference, which contains the record of PIC Cherian's inquiry with Dr. Troy Williams.

(vi). *There were numerous instances when Alliance Pharmacy processed multiple similar or identical prescriptions from these prescribers on the same day.*

Our clients have no control in the apparent similarity of prescription processing date for most prescriptions because this is a function of: (1) when the prescriptions are due for a fill or refill, (2) when the Pharmacy has the medication in stock, (3) when the office verifies the order (if verification is needed), and (4) when PIC Cherian is available to process the prescriptions. Therefore, having multiple prescriptions from the same prescriber processed on the same day is not unusual, but a recurring theme in most retail pharmacies. Furthermore, most prescribers acquire certain prescribing patterns and drug preferences after some time in practice, which would explain the similar or identical prescriptions issued by one prescriber to different patients. In addition, none of these prescribers exclusively prescribed controlled substances only. In fact, the majority of their prescribing is for non-controlled substances including NSAIDS, and other oral or topical adjunct therapies for pain management. It is important to note that none of the prescribers in question appeared to be writing for "cocktails" of medications that are typically used for abuse as the "Trinity" or "Holy Trinity." Please see the attached Excel spreadsheet entitled: "*Percentage of Rxs by Schedule Breakdown.xlsx*," which contains the aforementioned prescription data.

(3) It is further alleged in the Notice that patients at Alliance Pharmacy initiated opioid therapy on unusually high doses, despite the prescription record at the Pharmacy and CURES record suggesting the patients were opioid naïve. Furthermore, it is alleged in the Notice that the dispensing record listed PIC Cherian as the dispensing pharmacist for all the suspect prescriptions.

Our Clients checked the CURES records on all CII prescriptions to prevent pharmacy or doctor shopping, but do not solely rely on it to determine patient's opiate tolerance for the following reasons:

(i). Some pharmacies do not transmit CURES data consistently, which is one of the top 10 citations issued by the Board, per the latest issue of The Script (please see Exhibit H, page 4).
(ii). Even if the data is transmitted weekly, the CURES Patient Activity Report (CURES-PAR) may still not show prescription fill information due to software glitches and lag in the data update.
(iii). CURES does not capture controlled substance prescriptions from inpatient settings.
(iv). CURES does not take into account the controlled substance medications that individuals taken from their family or acquaintances. Especially in areas where

55 Cetus, 1st Floor, Irvine, CA 92618

there is low health literacy, such as Alliance Pharmacy's community, self-treatment for pain is rife and common.

Furthermore, our Clients' verification fax sheets requires the prescriber to attest that: (1) the patient was seen in their office, (2) is opioid tolerant, (3) the prescription is medically necessary, and (4) the Pharmacy is authorized to fill the order. Please see Exhibit I for examples of prescription validation and inquiry on the alleged opioid naïve patients, and which are also discussed below.

- 11/7/2016 / Rx 186548 - This prescription was issued by pain specialist, and verified by fax with attestation letter stating that the medication is clinically necessary.

(4) It is also asserted in the Notice that, while pharmacists at Alliance Pharmacy documented verification steps related to prescriptions from these prescribers, the Pharmacy and its pharmacists failed to fulfill their corresponding responsibility by failing to resolve the irregularities and red flags related to the prescriptions described.

We earnestly disagree with this conclusion. As you already know, the standards of corresponding responsibility and the Board's expectations in this area have been clearly articulated in the Precedential Decision No. 2013-01, *In the Matter of the Accusation against Pacifica Pharmacy; Thang Tran,* Board of Pharmacy Case No. 3802, OAH No. 2011010644, and in many subsequent cases. The *Pacifica* decision clearly established the pharmacist's duty to conduct a reasonable inquiry into the legitimacy of the prescription in the presence of one or more factors considered to represent "Red Flags."

Here, our Clients fulfilled their corresponding responsibility because they presented an abundance of evidence showing they performed their due diligence, and made reasonable inquiry when faced with the indicators of potential abuse and/or diversion of controlled substances, as evidenced by the verification notes on the prescription documents and signed prescriber's attestation forms (Exhibit I). Conversely, our Clients declined to fill those prescriptions that were found to be issued NOT for legitimate medical purposes, and when one or more red flags or factors of irregularity remained unresolved (please see Exhibit J for a copy of rejected prescriptions, in which instances the Pharmacy and PIC Cherian were unable to resolve the red flags or irregularities).

CONCLUSION

We hope that the presented information herein has resolved any concerns that you or the Board of Pharmacy may have harbored regarding the operational compliance of Alliance Pharmacy and PIC Joseph Cherian. Please feel free to contact us anytime should you have any question or for more information on this matter.

Sincerely,

Respondent.	/	

I, ORLANDIS L. WELLS, M.D., Certificate of Registration No. CS11877, wish to voluntarily surrender my Nevada controlled substance registration, Certificate of Registration No. CS11877, in lieu of appearing before the Nevada State Board of Pharmacy (Board) at a formal disciplinary hearing on October 9, 2019, in Las Vegas, Nevada. To that end, I voluntarily and knowingly admit as follows:

1. I was registered with the Board at the time of the conduct described in the *Notice of Intended Action and Accusation* (Accusation) on file in this matter and as referenced herein. I am therefore subject to the Board's jurisdiction.

2. On or about September 11, 2019, the Board filed the Accusation pursuant to NRS 639.233B.127(3), NRS 622A.300(1) and NRS 639.241, alleging three (3) causes of action against me. Two of those causes of action relate to unlawful conduct in failing to comply with Federal requirements pertaining to controlled substances. The third cause of action alleges that on or about on August 22, 2019, I surrendered my DEA Certificate of Registration No. BW828983.

3. If this matter proceeded to a hearing, I admit that sufficient admissible evidence exists that the prosecutor could present to the Board in the form of testimony from witnesses and through documentary evidence to prove the facts alleged in the Accusation.

4. Based on those facts, the Board could conclude that the violations alleged in the Accusation occurred, including:

a. On August 22, 2019, I surrendered my DEA Certificate of Registration No. BW8208983 to the U.S. Drug Enforcement Administration by executing a DEA Form 104, entitled "Surrender for Cause" (DEA Surrender for Cause), and

b. By executing the DEA Surrender for Cause, I acknowledged in pertinent part the following:

> In view of my alleged failure to comply with the Federal requirements pertaining to controlled substances or list 1 chemicals, and as an indication of my good faith in desiring to remedy any incorrect or unlawful practices on my part, I hereby surrender for cause my Drug Enforcement Administration (DEA) Certification of Registration.

5. In response to the allegations in the Accusation, I hereby voluntarily surrender my Nevada Certificate of Registration No. CS11877.

6. I have read this Voluntary Surrender and I fully understand and acknowledge its facts and terms.

7. I am aware of, understand, and have been advised of the effect of this Voluntary Surrender.

8. I am aware that I have certain constitutional rights, including:

a. I have the right to hire an attorney to represent me in this proceeding;

b. I have the right to demand a hearing on the charges against me, and I can require the Board Staff to prove the allegations;

c. I have the right to cross-examine the witnesses against me;

d. I have the right to call witnesses to provide evidence in my own behalf; and

e. I have other rights accorded to me under NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), NRS Chapter 639 (Nevada Pharmacy Act), and Chapter 639 of the Nevada Administrative Code.

9. I am aware of the foregoing rights, and I voluntarily, knowingly, and intelligently waive these rights in return for the Board accepting this Voluntary Surrender of my Nevada Certificate of Registration No. CS11877 in lieu of a hearing and other and/or additional disciplinary action.

10. I understand this Voluntary Surrender is considered a disciplinary action pursuant to NRS 233B.121(6), and as such will become part of my permanent record.

11. I understand that as a disciplinary action this Voluntary Surrender is a public record in accordance with NRS 639.255(5).

12. I understand that as a disciplinary action this Voluntary Stipulation is reportable to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60, and to other national repositories that record disciplinary action taken against licensees or certificate holders, or to any agency of another state which regulates the practice of pharmacy.

13. I understand this Voluntary Surrender may be used in any subsequent hearings by the Board as evidence against me to establish a pattern of behavior and for the purpose of proving additional acts of misconduct.

14. This Voluntary Surrender shall not be construed as excluding or reducing any criminal or civil penalties or sanction or other remedies that may be applicable under federal, state or local laws.

15. I understand that this Voluntary Surrender is effective the day it is accepted by the Board, however, I agree to immediately cease and desist from prescribing any controlled substance pursuant to my Certificate of Registration No. CS11877.

16. I will immediately return my Nevada Certificate of Registration, No. CS11877, with this signed Voluntary Surrender of License In Lieu of Other Disciplinary Action, to the extent I have that certificate/registration in my possession.

17. If at any time I seek to obtain a new license or registration with the Board, I may be required to appear before the Board, which may ask me questions regarding my application,

the allegations in this action, and/or any other circumstances surrounding the voluntary surrender of my registration.

I, ORLANDIS L. WELLS, M.D., Certificate of Registration No. CS11877, by affixing my signature below, agree with the foregoing facts and representations, and therefore choose to voluntarily surrender my Nevada Certificate of Registration No. CS11877.

SIGNED this 4 day of October 2019.

RE: Cosmopolitan Security Officer Unpaid Wages Class Action

Dear BASIL S BLAKE,

You are receiving this letter because the Cosmopolitan of Las Vegas' records indicate that you may be a potential class member in a class action lawsuit pending against the Cosmopolitan on behalf of **all hourly Security Officers employed by the Cosmopolitan between December 15, 2010 and May 19, 2013**. The name of the case is **Basil Blake and Aaron James v. Nevada Property 1, LLC** (Case No. A-13-675007). This case was filed in Nevada state court – the Eighth Judicial District Court of Nevada In and For Clark County – on January 15, 2013. This case only involves hourly Security Officers employed by the Cosmopolitan during the dates listed above.

The case alleges that the Cosmopolitan failed to pay its hourly Security Officers for all time worked. Specifically, the case alleges that the Cosmopolitan failed to pay its hourly Security Officers for "off the clock work" associated with the time it took Security Officers to wait in line to and actually check in/out the tools and equipment necessary to perform their job (radio, keys, Itouch, safecracking tools) and to travel to and from the garment district both before the security officers formally clocked in and after the security officers clocked out. The case also alleges that the Cosmopolitan failed to pay its security officers for time spent attending pre-shift briefings before their scheduled shift start time. The case seeks unpaid wages for all hourly Security Officers employed by the Cosmopolitan during the time frame noted above. Cosmopolitan changed its pay practices after this lawsuit was filed.

We are pleased to inform you that the parties have reached a tentative settlement in this case which, subject to court approval, will provide substantial monetary compensation for all hourly

(cont'd on back...)

Security Officers employed by the Cosmopolitan between December 15, 2010 and May 19, 2013. The parties will be filing a motion for approval of this settlement with the Court shortly. If the settlement is preliminarily approved by the Court, you will be receiving a formal notice approved by the Court explaining the terms of the settlement and your legal rights to make a claim for money, object to the settlement and/or exclude yourself from the settlement.

If you have any questions about this case, please don't hesitate to contact us at 775-853-6440. You can also submit any questions about this case to us through our web site www.cjoneslawfirm.com. I look forward to hearing from you.

Sincerely,

Hello Michelle,

My apologies for the delay in responding to your email from last Thursday. The short answer is no, the ASC does not require a designated representative, but an employed or contracted (consultant) pharmacist.

Concerning the question from today's email. Yes, the new applicant may continue to be operational while the application is processed and assigned to a future board meeting agenda.

Mark,

I am reaching out to connect about the below February 2nd email. It would also be helpful to understand if ASCs can operate under the prior owner's pharmacy license while waiting for the Nevada Board of Pharmacy to approve buyer's license. I am happy to connect by phone, if easier. Thanks again for your help!

Subject: Question Regarding Designated Representative for ASC Pharmacy License

Hi Mark,

Thank you for your on-going help as we review the change of ownership application for an ambulatory surgery center pharmacy license. During our call, you noted that every pharmacy applicant must designate a "Designated Representative." I reviewed the Designated Representative form on the Nevada Board of Pharmacy's website and want to confirm that it is required for a pharmacy located *within an ambulatory surgery center*. The form appears to indicate that the Designated Representative needs to be a full time employee, and present at the pharmacy during normal business hours. As you know, the Designated Representative is also required to submit 6,000 hours of employment with a pharmacy or wholesaler and will be required to take and pass an exam on Nevada law prior to the license being issued. However, if the designated representative is the managing pharmacist, the law test is not required.

The requirements noted in the Designated Representative application do not appear to align with the Nevada Board of Pharmacy's regulations (the "Regulations"). From my understanding of the Regulations, an ambulatory surgery center *does not need to have a full-time pharmacist on-site at all times*, but instead can enter into a consultant arrangement with a pharmacist to provide, among other things, monthly audits of the pharmacy. Can you please clarify if a

Designated Representative is required for a *pharmacy within an ambulatory surgery center*, and if so, how this function can be served through a pharmacist in a consultant role (i.e., a pharmacist who is not employed on a full-time basis and is not on-site during normal operating hours)?

We appreciate your help!

Darlene,

In response to your request for additional documentation regarding the disclosed litigation within the physicians' personal records, please see below and attached. None of the below noted litigation involves Comprehensive Digestive Surgicenter, LLC, which is the applicant for the pending pharmacy license. Please let me know if you have questions or require additional information. We appreciate your assistance with this application!

1. ***The Smith Litigotion***
   a. Janice Smith filed suit against Dr. Shih, Dr. Chen, and Kim Chen PLLC d/b/a Comprehensive Digestive Institute of Nevada in 2019 (the "Smith Litigation"). The Smith Litigation involves allegations that Ms. Smith was inappropriately referred to a colorectal surgeon for further evaluation of a mass identified on her colonoscopy. The defendants deny all allegations that the medical treatment provided to Ms. Smith was below the standard of care. Because the Smith Litigation is on-going, there is no Notice of Dismissal or Settlement Agreement that can be provided to the Nevada Board of Pharmacy.
2. ***The Kunimoto Litigation***
   a. Bryce Kunimoto filed suit against Dr. Jayaraman, Comprehensive Digestive Surgery Center, LLC d/b/a Comprehensive Digestive Institute of Nevada**, and Southern Hills Hospital and Medical Center in 2020 (the "Kunimoto Litigation"). The Kunimoto Litigation involves allegations that Mr. Kunimoto experienced complications during his endoscopic ultrasound, performed by Dr. Jayaraman. The defendants deny the allegations referenced in the Kunimoto Litigation. Because the Kunimoto Litigation is on-going, there is no Notice of Dismissal or Settlement Agreement that can be provided to the Nevada Board of Pharmacy.
3. ***The Stromon Litigation***
   a. Melanie Stroman filed suit against Dr. Ammar, along with Tenet Healthcare Corporation, in 2007 (the "Stroman Litigation"). The allegations in the Stroman Litigation involve allegations that the defendant failed to provide proper anti-acid medication to Ms. Stroman. Dr. Ammar was dismissed from the Stroman Litigation in 2008. *See attached Notice of Dismissal.*
4. ***The Robinson Litigation***
   a. Patricia Robinson filed suit against Dr. Diaz in 1998 (the "Robinson Litigation"). The Robinson Litigation involves allegations that the defendant failed to properly diagnose cancer in her husband. The Robinson Litigation was dismissed with prejudice in 2004. However, the jurisdiction in which the Robinson Litigation was filed does not maintain electronic copies of court filings dating back to 2004. Due to the inaccessibility of these records, we are unable to provide documentation of the dismissal.

***Mr. Kunimoto filed suit against "Camprehensive Digestive Surgery Center, LLC d/b/a Camprehensive Digestive Institute of Nevada." Per the business name listed the complaint, the lawsuit was filed against the physician practice and not against the prior owner of the surgery center, Camprehensive Digestive Surgery Center, LLC, which was not operational at the time the lawsuit was filed.*

Re: First Choice Pharmacy, LLC Pharmacy Application Supplement

To whom it may concern-

It has come to my attention that there may be certain questions regarding my work history over the past 10 years. While it feels as though I have not worked in 10 years, looking back through my records, my last employment was in 2013 at my brothers Diner, Court Grill Diner. At the Diner my primary role was to act as a manager of the diner by hiring staff, accounting, finance and inventory management. As such, attached please find my amended personal history application to reflect this employment from January 2012 to March 2013. I have been happily married for the past ten years and since 2013, I have been blessed with the opportunity to stay home and focus on my two children and running our household. As my children are getting older, I am looking forward to get back into the workforce and having an active role in First Choice Pharmacy, LLC.

Thank you,

Zunera Nasim

Exam Authorization: 10123013
Exam Name: Pharmacy Technician Certification Exam
Exam Date: 1/23/2015
Your Scaled Score: 1475
Passing Score: 1400

Congratulations! We are pleased to inform you that you passed the Pharmacy Technician Certification Exam (PTCE) on 1/23/2015. Your scaled score is 1475 and the passing scaled score is 1400. Your scaled score, rather than your raw score, is reported, because the scaled score will not vary with slight differences in the difficulty level of the exam. Your scaled score represents your raw score (the number of items that you answered correctly) transformed to a scaled score that ranges from 1000 to 1600.You can download/print an electronic version of your certificate or validate your certificate at any time from your PTCB account. Please contact your state board of pharmacy for information about registration or requirements.

Your total scaled score, as reported above, is a reliable measure of your knowledge of the PTCE content. Domain scores (the number of items you answered correctly for each knowledge domain) are outlined in the chart below to provide additional detail regarding your exam performance. Please note that domain scores are less reliable than your total score and some domains may be easier than others. Your domain scores are not comparable to the domain scores of other candidates or to other exam attempts that you make. Domain scores are not necessarily an accurate reflection of your relative strengths and areas for improvement. Your true knowledge of a domain may vary greatly (by +-20% or more) from the reported domain score.

Designated Representative Application

Rev (04/22/2021)

An application for a license, or a licensee with a license, to conduct a pharmacy or to operate as a wholesaler shall designate at least one natural person to serve as the representative of the pharmacy or wholesaler. The Board will not issue or renew a license of an applicant or licensee that is required to designate a representative of a pharmacy or wholesaler unless the Board determines that the designated natural person meets the following qualifications per NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler):

1. Is at least 21 years of age;
2. Has been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.

The designated representative of a pharmacy or a wholesaler:

1. Must be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
2. Must be employed full-time in a managerial level position with the pharmacy or wholesaler;
3. Must be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
4. May serve in this representative capacity for only one pharmacy or wholesaler at a time

A pharmacy or wholesaler that is required to designate a natural person as its representative shall not open or operate the pharmacy or wholesaler unless that representative is actually employed full-time in the operation of the pharmacy or wholesaler and is physically present at the site of the pharmacy or wholesaler during regular working hours, not including sick leave, vacation leave and other authorized absences from work. If the natural person designated as the representative of a pharmacy leaves the employ of the pharmacy or wholesaler, thus leaving the pharmacy or wholesaler without a representative in violation of this section, the pharmacy or wholesaler shall:

1. Immediately cease conducting business until another qualified natural person is approved by the Board to serve as the representative of the pharmacy or wholesaler; and
2. Not later than 48 hours after that person leaves its employ, notify the Board that the person designated as the representative of the pharmacy or wholesaler has left the employ of the pharmacy or wholesaler.

2. The Board must approve the natural person so designated.

Humana Inc. (parent company of Humana Pharmacy, Inc.) acquired ownership of Eagle Rx Holdco., Inc., the parent company of both Enclara Pharmacia, Inc. ("Enclara") and Alexander Infusion, LLC d/b/a Avanti Healthcare Services ("Avanti") on January 31st, 2020. The disciplinary actions and agreements reported for Enclara and Avanti are related to actions that occurred prior to the change of ownership that resulted in common ownership between Humana Pharmacy, Inc., Enclara, and Avanti.

Disciplinary Actions

On October 2, 2007, Enclara Pharmacia, Inc. (then known as excelleRx, Inc.) entered into a settlement agreement with the United States of America, acting through the Department of Justice and the Drug Enforcement Administration, to settle allegations (1) that prescriptions were being filled without sufficient documentation or approval, and (2) that the practice setting failed to meet requirements for use of emergency authorization procedures. This settlement agreement (the "2007 DEA Settlement Agreement") contained no admission of fact, liability, or wrongdoing and constituted no evidence of any valid claim. We previously reported this matter to the Board.

All of the following matters relate directly or indirectly to the DEA Settlement and/or the subsequent state matters:

Tennessee: Several years following the DEA Settlement, on November 1S, 2011, Enclara Pharmacia, Inc. (then known as excelleRx, Inc.) entered into a related consent order with the Tennessee Board of Pharmacy. The time period and facts underlying the DEA Settlement and Tennessee order were identical, and the allegations in each case were similar. Under the terms of the Tennessee consent order, the company's Tennessee pharmacy permit was placed on probation for five (5) years and was subject to periodic compliance inspections. We previously reported this matter to the Board.

Maine: On October 23, 2012, Enclara Pharmacia, Inc. (then known as excelleRx, Inc.) entered into a Consent Agreement with the Maine Board of Pharmacy. The matter related to allegations that the company failed to timely report the 2007 DEA Settlement Agreement. We previously reported this matter to the Board.

New Hampshire: On January 22, 2013, Enclara Pharmacia, Inc. (then known as excelleRx, Inc.) entered into a Notice of Apparent Liability with the New Hampshire Board of Pharmacy. The matter related to allegations that the company failed to timely report the Tennessee matter described above. We previously reported this matter to the Board.

Indiana: On December 13, 2013, the Indiana Consumer Protection Division issued a Findings of Fact, Conclusions of Law, and Order containing a reprimand against Enclara Pharmacia, Inc. (then known as excelleRx, Inc.). The matter related to allegations that the company failed to timely report the above state matters. We previously reported this matter to the Board.

Utah: On February 11, 2014, Enclara Pharmacia, Inc. (then known as excelleRx, Inc.) entered into a Stipulation and Order with the Utah Division of Occupational and Professional Licensing. The matter related to the 2007 DEA Settlement Agreement and subsequent Tennessee, Maine and New Hampshire matters described above. We previously reported this matter to the Board.

California: On November 4, 2014, Enclara Pharmacia, Inc. (then known as excelleRx, Inc.) entered into a Stipulated Settlement and Disciplinary Order with the California State Board of Pharmacy. The matter related to allegations contained in the 2007 DEA Settlement Agreement. We previously reported this matter to the Board.

Iowa: On November 19, 2014, Enclara Pharmacia, Inc. (then known as excelleRx, Inc) entered into a Settlement Agreement and Final Order with the Iowa State Board of Pharmacy. The matter related to allegations contained in the 2007 DEA Settlement Agreement. We previously reported this matter to the Board.

Missouri: On February 2S, 2015, Enclara Pharmacia, Inc. (then known as excelleRx, Inc.) entered into a Settlement Agreement with the Missouri Board of Pharmacy. The matter related to allegations contained in the 2007 DEA Settlement Agreement. We previously reported this matter to the Board.

Michigan: On July 10, 201S, Enclara Pharmacia, Inc. entered into a Consent Order with the Michigan Board of Pharmacy. The matter related to allegations contained in the 2007 DEA Settlement Agreement. We previously reported this matter to the Board.

New York: On June 29, 2016, Enclara Pharmacia entered into a Stipulation and Consent Order with the New York State Board of Pharmacy. The agreement relates to the allegations contained in the 2007 DEA Settlement and subsequent state actions. We previously reported this matter to the Board.

Hawaii: On June 15, 2017, Enclara Pharmacia, Inc. entered into a Settlement Agreement with the Department of Commerce and Consumer Affairs State of Hawaii. The matter related to allegations contained in the 2007 DEA Settlement Agreement. The Agreement with the State of Hawaii also addresses separate Consent Orders between Enclara Pharmacia and the Boards of Pharmacy in Alabama and Maine, which are not related to the 2007 DEA Settlement. We previously reported this matter to the Board.

Alabama: On October 20, 2015, Enclara Pharmacia, Inc. entered into a Consent Order with the Alabama Board of Pharmacy. The Order resulted from Enclara Pharmacia's inadvertent shipping of sixty-six orders into the State of Alabama during a period in which the Sharon Hill, PA non-resident pharmacy license renewal application was pending but not formally approved. We previously reported this matter to the Board.

Georgia: On June 20, 2016, Enclara Pharmacia entered into a Consent Order with the Georgia Board of Pharmacy. The agreement relates to the Board's finding that our pharmacist-in-charge at our Memphis pharmacy did not have a Georgia pharmacist license. We previously reported this matter to the Board.

Maine: On June 28, 2016 Enclara Pharmacia entered into a Consent Order with the Maine Board of Pharmacy. The Order resulted from the Maine Board of Pharmacy's allegation that Enclara Pharmacia did not obtain a mail order pharmacy license for its call center location in Philadelphia between August 2014 and October 2015. The previous owner had not licensed the call center as a pharmacy during the entire term of its ownership. We previously reported this matter to the Board.

Alabama: On December 14, 2016, Enclara Pharmacia, Inc. entered into a Consent Order with the Alabama Board of Pharmacy. The matter related to the Consent Orders Enclara Pharmacia entered into with the Georgia and Maine Boards of Pharmacy. We previously reported this matter to the Board.

Pennsylvania: On October 3, 2017, Enclara Pharmacia, Inc. entered into a Consent Order with the Pennsylvania Board of Pharmacy. The matter related to the Consent Order Enclara Pharmacia entered into with the Maine Board of Pharmacy. We previously reported this matter to the Board.

Michigan: On January 12, 2018, Enclara Pharmacia, Inc. entered into two Consent Orders with the Michigan Department of Licensing and Regulatory Affairs. The Consent Orders were reciprocal discipline for Consent Agreements Enclara Pharmacia entered into with the Georgia and Maine Boards of Pharmacy. We previously reported this matter to the Board.

SETTLEMENT AGREEMENT

I. PARTIES

1. This Settlement Agreement ("Agreement") is entered into this 2ND day of OCTOBER, 2007, between the United States of America, acting through the Department of Justice and the Drug Enforcement Administration (DEA), and excelleRx ("Parties"). The Parties hereby stipulate and agree as follows:

II. RECITALS

2. In 2007, DEA Diversion Investigators conducted an on-site investigation pursuant to the Controlled Substances Act and the Comprehensive Drug Abuse Prevention and Control Act of 1970. It is alleged by the DEA that, based upon this investigation, many prescriptions were being filled daily by excelleRx before or without a physician's signature. Title 21 U.S.C. § 842(a)(1) states, in pertinent and relevant parts, it shall be unlawful for any person-- . . . (1) who is subject to the requirements of part C to distribute or dispense a controlled substance in violation of section 829 of this Title. Section 829 states, in pertinent parts, except when dispensed directly by a practitioner, other than a pharmacist, to an ultimate user, no controlled substance in schedule II .. . . may be dispensed without the written prescription of a practitioner, except that in emergency situations . . .

3. The United States asserts that it has civil claims and civil causes of action against excelleRx for civil penalties, under the Controlled Substances Act and the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C.§§ 821-904, specifically Title 21 U.S.C. § 842(a)(1). Further, the United States asserts that the practice setting of excelleRx does not allow nor meet the requirements for use of the

"emergency authorization procedure" as defined in 21 C.F.R. § 290.10 and delineated in 21 C.F.R 1306.11. Title 21 U.S.C. § 842(c)(B)(5) states a civil penalty of not more than $25,000 shall be assessed for each violation as stated in paragraph two, above.

4. This Agreement is not an admission of liability by excelleRx, nor is it evidence of a valid claim. excelleRx denies the United States' contentions as set forth in Paragraphs 2 and 3, above. The Parties agree that no provision of this Agreement nor any consideration exchanged pursuant to this Agreement constitutes an admission by excelleRx that it engaged in or violated any law in connection with the United States' contentions in Paragraphs 2 and 3, above or otherwise.

5. In order to avoid the delay, uncertainty, inconvenience and expense of protracted litigation of these claims, the Parties reach a full and final settlement as set forth below.

III. TERMS AND CONDITIONS

NOW, THEREFORE, in consideration of the mutual promises, covenants, and obligations set forth below, and for good and valuable consideration as stated herein, the Parties agree as follows:

6. Within ten calendar days of the execution of this Agreement, excelleRx agrees to pay the United States a total of $540,000.00.

7. 8. The United States does not release, and specifically reserves the right to assert, the following claims, as to which excelleRx, its current and former officers, directors, employees, affiliates, successors and assigns, reserve the right to assert all defenses:

(a) Any claims arising under Title 26, U.S. Code (Internal Revenue Code);

These amounts shall be separately accounted for by excelleRx.

12. In no event are the terms of this Agreement intended to, nor are they to be construed to, work a release of liability or in any way create a benefit in favor of any person not a party to this Agreement, except as provided in paragraph 7.

13. Nothing in this Agreement nor in the payment described herein shall be construed as an admission of fact, liability or wrongdoing, or a waiver of any rights or legal defenses, by excelleRx or any of its affiliated entities, their current or former officers, directors, and employees, or their successors and assigns.

14. The provisions of this Agreement shall be binding upon the parties to it, their affiliated entities, and their collective successors and assigns.

17. This Agreement may be executed in counterparts, each of which constitutes an original and all of which constitute one and the same agreement.

18. This Agreement is effective on the date of the signature of the last signatory to the Agreement.

IN WITNESS WHEREOF, the parties hereto affix their signatures.

The Consent Agreement is entered into pursuant to 10 M.R.S. § 8003(5-A)(C).

STATEMENT OF FACTS

1. ExcelleRx has been licensed by the Board as a Mail Order Pharmacy, license number MO40000475 since 2003 and MO40000705 since 2006.

2. On or about October 2, 2007, ExcelleRx was disciplined by the DEA.

5. At its meeting on August 28, 2012, the Board reviewed the above-mentioned information. Based on this information, the Board voted to preliminarily deny ExcelleRx's applications for renewal as a Mail Order Pharmacy.

6. In lieu of the denial, the Board also voted to offer ExcelleRx this Consent Agreement. Absent requesting, in writing, a hearing regarding the appeal of the preliminary denial within thirty days of receipt of the Notice of Preliminary Denial, and absent acceptance of this Consent Agreement by signing and dating it and returning it to Debra Thompson, Professional Licensing Coordinator, Board of Pharmacy, 35 State House Station, Augusta, Maine 04333 by **October 4, 2012**, the preliminary denial of ExcelleRx's applications for renewal of licensure as a Mail Order Pharmacy will become final.

8. As a condition of licensure and for conduct admitted in paragraph 7 above, ExcelleRx agrees to:

A. Accept a WARNING from the Board as sanction for that violation; and

9. Upon receipt of this executed Consent Agreement, the Board will not deny ExcelleRx's applications on the basis of the conduct admitted to in paragraph 7 and will approve the applications consistent with the provisions of Board Rules chapter 11.

10. The Attorney General and the Board agree that no further agency or legal action will be taken against ExcelleRx's licenses based on the specific violations admitted to herein, except in the event that ExcelleRx does not comply fully with the terms of the Consent Agreement. Any violation of the Consent Agreement will be a ground for discipline by the Board.

11. The Consent Agreement is not subject to appeal.

12. The Consent Agreement is not subject to amendment except by written agreement of all parties.
