Darlene,

I hope this email finds you well and all are healthy!

Would you be able to let me know the status of the applications I submitted? I am not very familiar with the standard procedure as these are the first applications I have submitted to the Board of Pharmacy. I do not see Ivie Services LLC on the agenda for the board's next meeting and just wanted to make sure I understood the process.

Thank you for any information you can provide.

 - (5) To "bodily injury", "property damage" or "personal and advertising injury" arising out of the rendering of or the failure to render any professional services.
- This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage" or the offense which caused the "personal and

advertising injury" involved the rendering of or failure to render any professional services by or for you.

- d. With respect to the insurance afforded to these additional insureds, the following is added to **SECTION III - LIMITS OF INSURANCE**:

The most we will pay on behalf of the additional insured for a covered claim is the lesser of the amount of insurance:

- 1. Required by the contract, agreement or permit described in Paragraph a.; or
- 2. Available under the applicable Limits of Insurance shown in the Declarations.

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

2. Additional Insured - Primary and Non-Contributory

The following is added to **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS**, Paragraph 4. Other Insurance:

Additional Insured - Primary and Non-Contributory

If you agree in a written contract, written agreement or permit that the insurance provided to any person or organization included as an Additional Insured under **SECTION II - WHO IS AN INSURED**, is primary and non-contributory, the following applies:

If other valid and collectible insurance is available to the Additional Insured for a loss covered under Coverages A or B of this Coverage Part, our obligations are limited as follows:

a. Primary Insurance

This insurance is primary to other insurance that is available to the Additional Insured which covers the

Additional Insured as a Named Insured. We will not seek contribution from any other insurance available to the Additional Insured except:

- (1) For the sole negligence of the Additional Insured;
- (2) When the Additional Insured is an Additional Insured under another primary liability policy; or
- (3) when b. below applies.

If this insurance is primary, our obligations are not affected unless any of the other insurance is also primary. Then, we will share with all that other insurance by the method described in c. below.

b. Excess Insurance

- (1) This insurance is excess over any of the other insurance, whether primary, excess, contingent or on any other basis:
 - (a) That is Fire, Extended Coverage, Builder's Risk, Installation Risk or similar coverage for "your work";
 - (b) That is Fire insurance for premises rented to the Additional Insured or temporarily occupied by the Additional Insured with permission of the owner;
 - (c) That is insurance purchased by the Additional Insured to cover the Additional Insured's liability as a tenant for "property damage" to premises rented to the Additional Insured or temporarily occupied by the Additional Insured with permission of the owner; or
 - (d) If the loss arises out of the maintenance or use of aircraft, "autos" or watercraft to the extent not subject to Exclusion g. of SECTION I – COVERAGE A – BODILY INJURY AND PROPERTY DAMAGE LIABILITY.
- (2) When this insurance is excess, we will have no duty under Coverages A or B to defend the insured against any "suit" if any other insurer has a duty to defend the insured against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the insured's rights against all those other insurers.
- (3) When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:
 - (a) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and
 - (b) The total of all deductible and self insured amounts under all that other insurance.

We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

c. Method Of Sharing

If all of the other insurance permits contribution by equal shares, we will follow this method also. Under this approach each

insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first. If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers

3. Blanket Waiver of Subrogation

The following is added to SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS, Paragraph 8. Transfer Of Rights Of Recovery Against Others To Us:

We waive any right of recovery we may have against any person or organization with whom you have a written contract that requires such waiver because of payments we make for damage under this coverage form. The damage must arise out of your activities under a written contract with that person or organization. This waiver applies only to the extent that subrogation is waived under a written contract executed prior to the "occurrence" or offense giving rise to such payments.

- (b) Not being used to carry persons or property for a charge;

This provision applies to any person who, with your consent, either uses or is responsible for the use of a watercraft.

11. Supplementary Payments Increased Limits

SECTION I – SUPPLEMENTARY PAYMENTS COVERAGES A AND B, Paragraphs 1.b. and 1.d. are replaced by the following:

1.b. Up to \$2,500 for cost of bail bonds required because of accidents or traffic law violations arising out of the use of any vehicle to which the Bodily Injury Liability Coverage applies. We do not have to furnish these bonds.

1.d. All reasonable expenses incurred by the insured at our request to assist us in the investigation or defense of the claim or "suit", including actual loss of earnings up to \$1000 a day because of time off from work.

12. Unintentional Failure to Disclose Hazards

The following is added to **SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS**, Paragraph 6. **Representations**:

13. Unintentional Failure to Notify

The following is added to **SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS**, Paragraph 2. **Duties in the Event of Occurrence, Offense, Claim or Suit**:

Your rights afforded under this policy shall not be prejudiced if you fail to give us notice of an "occurrence", offense, claim or "suit", solely due to your reasonable and documented belief that the "bodily injury" or "property damage" is not covered under this policy.

This is in response to Question # ⁵ _____. Provide all the following where applicable:

Date of Event/Arrest DOL 5/19/16	Disposition Date Settled 2/22/18	State CA	City Redding	County Shasta
Case # 187413		Governing, licensing, Arresting Presiding Body/Agency/Court Shasta County Superior Court		
Reason/Charge Alleged pharmacy dispensing error				
Plaintiff/Defendant/Claimant/Respondent Marjorie McAleer v. Owens Healthcare - Retail Pharmacy, Inc.			Lawsuit/Arbitration/Bankruptcy Civil Lawsuit	
Name of Business/Industry/Entity Owens Healthcare - Retail Pharmacy, Inc.				

Provide explanation below:

Plaintiff, age 91 at the time, alleged that on the morning of 5/19/16 she ingested a pill from a prescription bottle for her morning dose of Metropolol (blood pressure). She alleged that even though she noticed it was a different shape than her normal Metropolol pill, she took it anyway, thinking that the manufacturer must have just changed the shape of the pill or that the pharmacy had given her a different brand of the same drug. However, within minutes, she was nauseated and vomiting severely.

She called her daughter who took her to the hospital. She was treated with Zofran and the nausea subsided immediately. However, just to be sure nothing else was going on that could have explained her symptoms, plaintiff was put through a battery of tests and procedures including xrays, CT scans, and EKGs. These all were normal for her age and condition. Nonetheless, she was kept for observation overnight even though she was back to normal health within about one hour of her admission.

Several days later, on 5/23/16, the daughter arrived at the defendant pharmacy with the prescription bottle from which her mother had allegedly taken that one tab. The bottle should have been filled with 30 tabs of Metropolol only. However, the pharmacist found 17 Oxycodone and 30 Metropolol tabs in the bottle. The pharmacist removed the 17 Oxycodone and gave the bottle with just 30 Metropolol tabs back to the daughter.

This lawsuit resulted. Plaintiff alleged that Owens Pharmacy somehow filled a bottle that should have only had 30 Metropolol tabs with not only 30 Metropolol tabs but also at least 18 additional Oxycodone tabs. That scenario is implausible. First, a single Oxycodone tab is unlikely to have caused such severe symptoms so quickly. Second, the method of filling prescriptions at the pharmacy categorically precludes an error of this sort. Such a scenario could not be explained by an error. It could only have happened intentionally - and the pharmacy certainly did not intentionally put 18 Oxycodone in a bottle of 30 Metropolol. The lawsuit settled for less than the costs of defense.

MEDICARE ADDENDUM TO RELEASE

In further consideration for the Release to which this Medicare Addendum is attached and incorporated therein, RELEASEES rely on the following representations, warranties and promises made by RELEASOR and RELEASOR's counsel. Capitalized terms shall have the meaning defined in the Release, as applicable.

I. Representations and Warranties

RELEASOR and RELEASOR's Counsel agree that all representations and warranties made herein shall survive settlement.

A. Medicare Secondary Payer.

1. In entering into this settlement, it is the intent of the parties that the settlement terms adequately consider and protect Medicare's interests under the MSP laws, 42 U.S.C. §1395y(b), and regulations (collectively, "MSP Laws"). It is not the purpose of this settlement agreement to shift responsibility to Medicare for medical or prescription drug expenses that arise from, or relate to, the alleged Incident giving rise to this settlement and/or that arise from or relate to the matters forming the basis of the claims asserted by RELEASOR. RELEASOR and her Counsel acknowledge and agree that the parties hereto have taken reasonable steps to comply with the requirements of the MSP Laws.
2. RELEASOR and her Counsel are aware of Medicare's interest in this settlement to the extent Medicare has made any conditional payments under the MSP Laws for medical or prescription drug items or services received by RELEASOR that are related to the Incident giving rise to this settlement, and/or arising from or related to the matters forming the basis of the claims by RELEASOR.
3. RELEASOR and her counsel represent and warrant that they have provided or will provide the requisite information to RELEASEES or their attorneys necessary to comply with the mandatory reporting obligations under the MSP Laws. Any information requested by a RELEASEE shall be provided by RELEASOR on a timeframe that allows such RELEASEE to report to CMS timely, without penalty.

B. RELEASOR's Responsibility for Reimbursement of Medicare's Conditional Payments.

4. RELEASOR and her Counsel represent and warrant that they have notified CMS and/or its Coordination of Benefits Contractor of the Incident giving rise to this settlement.
5. RELEASOR agrees that it is her responsibility, and not the responsibility of RELEASEES, to reimburse CMS and/or its contractors for any such Medicare conditional payments. RELEASOR shall fulfill such obligation by means of the option selected below. (Check box).

Option A ☐

(1) RELEASOR agrees that within sixty (60) days of the receipt of a final demand letter from CMS and/or its contractor, RELEASOR shall reimburse CMS

and/or its contractors from settlement proceeds for any and all conditional payments, liens, claims and subrogated interests of whatever nature or character asserted or potentially asserted by CMS and/or its contractors (hereinafter "Medicare Claims") related to the Incident giving rise to this settlement, and/or arising from or related to the matters forming the basis of the claims asserted by RELEASOR, as required by the MSP Laws.

(2) RELEASOR's Counsel agrees that, as directed and agreed to by RELEASOR herein, he shall hold the Settlement Funds in an escrow account or client trust account without distributing them to RELEASOR or any other person or entity except CMS or its contractor until the Medicare Claims, if any, related to the Incident giving rise to this settlement, and/or arising from or related to the matters forming the basis of the claims asserted by RELEASOR, has been fully satisfied or waived as demonstrated by proof of claim or lien satisfaction or waiver from CMS or its contractor.

(3) RELEASOR and her Counsel agree that, prior to distributing any of the Settlement Funds to RELEASOR or any other person or entity, RELEASOR's Counsel will provide to RELEASOR and their attorneys written documentation from Medicare proving waiver or satisfaction and release of the Medicare Claims arising from or related to prior conditional payments, if any, made in connection with the Incident or the matters forming the basis of RELEASOR's claims.

Option B ☐

RELEASOR authorizes payment of the Settlement Funds pursuant to this Release to be made by check jointly payable to RELEASOR and CMS.

C. RELEASOR's Responsibility for Payment for Future Medical Services

1. RELEASOR agrees that it is her responsibility, and not that of RELEASOR, to pay for future Medical Services. RELEASOR shall hold RELEASOR harmless from any and all adverse consequences in the event that this settlement results in loss of Medicare benefits by RELEASOR that she would have been entitled to absent settlement.

With respect to future Medical Services, RELEASOR agrees that it is her sole responsibility to (1) maintain an accounting of all Medical Services after the date of settlement relating to the Incident giving rise to this settlement, and/or arising from or relating to the matters forming the basis of the claims asserted by RELEASOR in this litigation, and (2) sufficiently set aside and administer such funds for future Medical Services to protect Medicare's interest relating to this claim or litigation. All future Medical Services are the sole responsibility of RELEASOR and have been factored into the settlement amount and are to be paid out of the Settlement Funds.

II. Reliance on Representations and Warranties

In agreeing to the Release, RELEASOR and their attorneys are relying on the representations, warranties and/or agreements set forth in this Release, including without limitation regarding RELEASOR's Medicare status and the actions that have been and/or will be taken to satisfy any

RELEASE

I, **MARJORIE McALEER** ("RELEASOR"), for the sole consideration of Thirty Thousand and 00/100 Dollars (\$30,000.00) ("Settlement Funds") to be paid in accordance with the terms of this Release, do hereby for myself and for my heirs, executors, administrators, successors and assigns release, acquit and forever discharge **OWENS HEALTHCARE, OWENS HEALTHCARE - RETAIL PHARMACY, INC.** (erroneously sued herein as "Owen's Pharmacy"), **The Hanover Insurance Company, Hanover Insurance Group, and Citizens Insurance Company of America**, and any and all of their agents and attorneys, any and all Additional Insureds, servants, successors, heirs, executors, administrators and employees, corporations, subsidiaries, affiliates, firms, predecessors and successors in interest ("RELEASEES"), of and from any and all claims, actions, causes of action, liens or conditional payments, demands, rights, damages, costs, loss of service, expense and compensation whatsoever of every name and nature, known or unknown, which the RELEASOR now has or which may hereafter accrue on account of or in any way growing out of any and all known and unknown, foreseen or unforeseen bodily and personal injuries, illnesses and damage and the consequences thereof resulting from or arising out of a claimed injury which occurred on or about **May 19, 2016** in the County of Shasta, State of California ("Incident"), and which is the subject of that certain action pending in the Superior Court of the State of California, County of Shasta, action number 187413, upon the files of said court, and entitled: *McAleer v. Owen's Pharmacy, et al.* The foregoing release and discharge is intended by RELEASOR to be as broad in favor of RELEASEES as she can possibly create.

RELEASOR recognizes that the consideration referred to above is intended to effectuate the compromise of a disputed claim, and is not to be construed as an admission of liability on the part of any of the RELEASEES, each of whom expressly denies liability.

RELEASOR further recognizes that any injuries or illnesses sustained in the Incident are or may be permanent and progressive and that the recovery from said injuries or illnesses is uncertain and indefinite, and in entering into this Release is not relying on any statement of any of the RELEASEES with respect to the nature, extent, or duration of said injuries. RELEASOR further declares and represents that no promise, inducement or agreement not herein expressed has been made to RELEASOR. RELEASOR further stipulates that the terms of this Release are contractual and not a mere recital and that the representations in this Release are material representations upon which RELEASEES have relied in making this settlement.

RELEASOR stipulates and agrees that she is responsible for payment of all outstanding and future bills relating to medical and prescription drug items or services associated with injuries or illnesses arising from or relating to the Incident or forming the basis of the claims asserted by RELEASOR ("Medical Services").

RELEASOR further stipulates and agrees that she is solely responsible for satisfying any conditional payment, lien or other obligation to reimburse the Centers for Medicare & Medicaid Services ("CMS") and/or its contractors, other governmental entities or programs, insurers or other sources of payment or benefits for any Medical Services furnished to RELEASOR. RELEASOR stipulates and agrees that it is her responsibility, and not that of RELEASEES, to satisfy any and all conditional payments, liens, subrogation and other claims or demands for payment associated with Medical Services that may arise in any manner, including without

limitation under the Medicare Secondary Payer ("MSP") statute (42 U.S.C. § 1395y(b)), contract, or other applicable state or federal law.

1. With respect to the Medicare status of **MARJORIE McALEER** (check and sign by the relevant box):

MARJORIE McALEER hereby represents and warrants that she (a) is not currently entitled to Medicare benefits, (b) was not entitled to Medicare benefits on or between the date of the Incident and execution of this Release and (c) does not reasonably expect to qualify for Medicare coverage within 30 months of executing this Release; or

MARJORIE McALEER hereby represents and warrants that she (a) currently qualifies for Medicare coverage, (b) was entitled to Medicare benefits on or between the date of the Incident and execution of this Release, or (c) expects to so qualify within 30 months of executing this Release. In further consideration for this Release, a Medicare Addendum dated 2/12/18 is attached hereto and incorporated herein by reference.

2. In order to give full effect to the intent expressed in this Release, RELEASOR stipulates and agrees in consideration for the aforesaid payment, to fully indemnify and hold harmless RELEASEES from any and all loss associated with any conditional payment, lien, subrogation or other claim or demand asserted by CMS and/or its contractors, other governmental entities or programs, insurers or other sources of payment or benefits that may arise in any manner, including without limitation under the MSP statute (42 U.S.C. § 1395y(b)), contract, or other applicable state or federal law relating to Medical Services or from RELEASOR's failure to make the payments and satisfaction described in this Release. RELEASOR further agrees to indemnify and hold harmless RELEASEES from any and all loss resulting from RELEASOR's failure to provide accurate representations and warranties or to adhere to the representations and warranties contained herein. This indemnification from loss includes all damages and costs incurred by RELEASEES and/or their attorneys, including without limitation, any attorneys fees, fines and penalties, interest, expenses, judgments, and multipliers.

This LETTER OF ADMONISHMENT is being issued pursuant to Business and Professions Code section 4315 for failure to comply with the laws and regulations that govern the practice of pharmacy in California. (For exact language refer to the California Pharmacy Law and Index, located on the board's website at www.pharmacy.ca.gov, under Forms and Publications.)

The Board of Pharmacy has completed its investigation in the above referenced matter. All documentation and/or statements relating to the investigation have been accepted and included in an Investigation Report on file in this office. Facts contained in this report lead to the conclusion that the following violations of pharmacy laws or regulations have occurred:

JURISDICTION: Bus. & Prof. Code § 4315; 1714(b) - Operational Standards and Security; pharmacy responsible for pharmacy security

Failure To Maintain Adequate Pharmacy Security – California Code of Regulations Section 1714 subdivision (b) states in pertinent part: Each pharmacy licensed by the board shall maintain its facilities, space, fixture, and equipment so that drugs are safely and properly maintained and secured. A loss of controlled substances occurred at Owens Pharmacy #26, located at 2025 Court St., Ste., Redding, CA. The loss of controlled substances was attributed to theft by pharmacist Aaron Smith, who accessed the controlled substance room after hours and stole two containers of morphine sulfate concentrated solution. Owens Pharmacy #26's failure to maintain its facilities so that drugs are safely and properly secured was a violation of CCR 1714(b).

If you wish to contest this Letter of Admonishment, you may do so by submitting, within 30 days of the date of service of this Letter of Admonishment, namely November 30, 2019, the attached "Request for an Office Conference" form. If an office conference is not requested, compliance with the Letter of Admonishment shall not constitute an admission of the violations described in the Letter of Admonishment.

Unless it is dismissed following an office conference or you receive other instructions from the Board in writing, Pharmacy Law requires that you maintain and have readily available for inspection a copy of this Letter of Admonishment and any written corrective action plan, if any, for at least three years from the date of issuance at the top of this letter. The Letter of Admonishment will be considered a public record for purposes of disclosure for three years from issuance. The issuance of this Letter of Admonishment does not limit the board's ability to pursue other disciplinary or administrative action under Business and Professions Code section 4315, subdivision (f).

Importance: High

Hello Darlene,
 I apologize for the delay. Please let me know of any questions.

The officers and directors for Braden Partners DBA Pacific Pulmonary Services are:

- Yehoshua Parnes, CEO
- Steve Feldman, Corporate Secretary

NV MDEG Administrator Sylvia Corona:

- Sylvia's background report has a misdemeanor charge in 2008. This involved Sylvia providing prescriptions to her then boyfriend knowing that the prescriptions were not ordered by an actual MD. It was the boyfriend's aunt who worked for the doctor. The aunt was allegedly submitting the prescriptions for the boyfriend and forging the doctor's signature. Sylvia confirmed she was at fault and has had no other issues since 2008. The case number is C-09C251142.

Please let me know if any additional information is required. I appreciate your patience on this issue.

Thank you.

3. Ms. Corona diverted approximately two-hundred hydrocodone/acetaminophen 10-325 tablets since February 2014, and approximately two-hundred carisoprodol 350 mg. tablets since April 2014.

4. Ms. Corona diverted the controlled substances at issue for personal use.

5. These findings are evidenced by Ms. Corona's written statement, dated July 24, 2014, a Report of Theft or Loss of Controlled Substances, which CVS filed with the Federal Drug Enforcement Administration and written evidence from CVS, which were presented to the Board during the hearing, and which the Board received and admitted into evidence. These findings are further supported by Ms. Corona's testimony at the hearing.

CONCLUSIONS OF LAW

6. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because Respondent Sylvia Corona, Certificate of Registration No. PT14105, was a registered pharmaceutical technician with the Board at the time of the events alleged in the Accusation on file herein.

7. By diverting controlled substances, as alleged in the Accusation, and as stated in the findings above, Ms. Corona violated Nevada Revised Statute (NRS) 453.331(1)(d), NRS 453.336(1), and Nevada Administrative Code (NAC) 639.945(1)(g) and (h).

8. Those violations are grounds for action pursuant to NRS 639.210(1), (4), (11), and (12), as well as NRS 639.255.

THEREFORE, THE BOARD HEREBY ORDERS:

9. The registration of Respondent Ms. Corona, Certificate of Registration No. PT14105, is hereby revoked effective immediately.

10. Ms. Corona may not work in any facility licensed by the Board, including a pharmacy, in any capacity, unless and until she has applied to the Board for reinstatement and the Board reinstates her registration.

11. In the event Ms. Corona applies for reinstatement, or for any other registration or certificate with the Board, she shall appear before the Board to answer questions and give testimony regarding her application and the facts and circumstances underlying this matter.

Signed this 13 day of November, 2014.

Respondent.	/	

Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3), and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because Respondent Sylvia Corona, PT (Ms. Corona), Certificate of Registration No. PT14105, was a registered pharmaceutical technician with the Board at the time of the events alleged herein.

II.

On or about August 8, 2014, Board Staff received notification from a CVS Regulatory Compliance Manager indicating that CVS terminated Ms. Corona from her employment as a pharmaceutical technician at CVS Pharmacy #5286. CVS terminated Ms. Corona's employment for diversion of controlled substances.

III.

In a written statement, Ms. Corona admitted to diverting approximately two-hundred hydrocodone/acetaminophen 10-325 tablets since February 2014, and approximately two-hundred carisoprodol 350 mg. tablets since April 2014. Ms. Corona claimed that she diverted the controlled substances for personal use due to back pain.

FIRST CAUSE OF ACTION

IV.

By diverting controlled substances, namely, two-hundred hydrocodone/acetaminophen 10-325 tablets, and two-hundred carisoprodol 350 mg. tablets, Sylvia Corona violated Nevada Revised Statute (NRS) 453.331(1)(d) and/or NRS 453.336(1), and/or Nevada Administrative Code (NAC) 639.945(1)(g) and/or (h), which violations are grounds for action pursuant to NRS 639.210(1), (4), (11), and/or (12), as well as NRS 639.255.

WHEREFORE, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this respondent.

Signed this 10th day of September, 2014.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

BLANKET ADDITIONAL INSURED – LIABILITY EXTENSION

This endorsement modifies insurance provided under the following:

BUSINESSOWNERS LIABILITY COVERAGE FORM

Coverage afforded under this extension of coverage endorsement does not apply to any person or organization covered as an additional insured on any other endorsement now or hereafter attached to this Policy.

1. ADDITIONAL INSURED – BLANKET VENDORS

WHO IS AN INSURED is amended to include as an additional insured any person or organization (referred to below as vendor) with whom you agreed, because of a written contract or agreement to provide insurance, but only with respect to "bodily injury" or "property damage" arising out of "your products" which are distributed or sold in the regular course of the vendor's business, subject to the following additional exclusions:

1. The insurance afforded the vendor does not apply to:

- a. "Bodily injury" or "property damage" for which the vendor is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages that the vendor would have in the absence of the contract or agreement;
- b. Any express warranty unauthorized by you;
- c. Any physical or chemical change in the product made intentionally by the vendor;
- d. Repackaging, except when unpacked solely for the purpose of inspection, demonstration, testing, or the substitution of parts under instructions from the manufacturer, and then repackaged in the original container;
- e. Any failure to make such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products;
- f. Demonstration, installation, servicing or repair operations, except such operations performed at the vendor's premises in connection with the sale of the product;
- g. Products which, after distribution or sale by you, have been labeled or relabeled or used as a container, part or ingredient of any other thing or substance by or for the vendor; or
- h. "Bodily injury" or "property damage" arising out of the sole negligence of the vendor for its

own acts or omission or those of its employees or anyone else acting on its behalf. However, this exclusion does not apply to:

- (1) The exceptions contained in Subparagraphs d. or f.; or
- (2) Such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products.

2. This insurance does not apply to any insured person or organization, from whom you have acquired such products, or any ingredient, part or container, entering into, accompanying or containing such products.

3. This provision 2. does not apply to any vendor included as an insured by an endorsement issued by us and made a part of this Policy.

4. This provision 2. does not apply if "bodily injury" or "property damage" included within the "products-completed operations hazard" is excluded either by the provisions of the Policy or by endorsement.

2. MISCELLANEOUS ADDITIONAL INSUREDS

WHO IS AN INSURED is amended to include as an insured any person or organization (called additional insured) described in paragraphs 2.a. through 2.h. below whom you are required to add as an additional insured on this policy under a written contract or agreement but the written contract or agreement must be:

1. Currently in effect or becoming effective during the term of this policy; and
2. Executed prior to the "bodily injury," "property damage" or "personal and advertising injury," but

Other facilities owned by Lincare Inc., however, have been subject to such action. These are as follows:

1. The Alabama State Board of Pharmacy found deficiencies regarding compounding, which resulted in disciplinary action against Lincare's pharmacy license in November 2011. This license has been active since its issuance. This pharmacy has been sold, and is no longer under the ownership of Lincare.
2. The Missouri State Board of Pharmacy identified deficiencies during the permit application process, which resulted in issuance of Wholesale Drug Distributor to the Lincare Inc. location in Hannibal, MO, subject to probation for four years, which ended on May 31, 2013. This license has been active since its issuance.
3. Lincare, at its Indianapolis, IN infusion pharmacy location, received a routine BOP inspection, which resulted in a finding of deficiencies regarding compounding. On August 14, 2017, Lincare and the BOP agreed to a summary suspension of Lincare's permit until the BOP's September 11, 2017 meeting. On September 11, the BOP agreed to allow the summary suspension to lapse and Lincare was permitted to resume compounding. The matter was concluded with a settlement agreement and payment of a fine in March 2018. This pharmacy has been sold, and is no longer under the ownership of Lincare.
4. The Florida Department of Business and Professional Regulation alleged Lincare, at its St. Augustine location, violated certain Florida Statutes and administrative rules regarding medical oxygen. 5. Florida Department of Business and Professional Regulation alleged Lincare, at its Panama City location, violated certain Florida Statutes and administrative rules regarding distribution of medical oxygen. The matter was resolved with a settlement agreement on February 06, 2019 and payment of a fine. This license has been surrendered for business purposes unrelated to the settlement agreement.
6. On July 15, 2019, Lincare's Indianapolis, IN infusion pharmacy location entered into a Consent Order with the Illinois Department of financial and Professional Regulation, Division of Professional Regulation, resolving the entity's complaint against the pharmacy. The complaint alleged sister-state discipline stemming from the pharmacy's March 2018 settlement agreement with the Indiana Board of Pharmacy. This pharmacy has been sold, and is no longer under the ownership of Lincare.
7. Lincare, at its Ocala, FL location, received an inspection from the Florida Department of Business and Professional Regulation, which resulted in a finding of deficiencies related to medical oxygen on September 24, 2019. 13. Lincare was subject to a consent agreement and payment of a fine to the Maine Board of Pharmacy in March 2015 for not disclosing prior disciplinary actions in other states. All licenses are and have always been active, except for two licenses surrendered for business reasons not related to this issue.

14. Lincare, at its Chesapeake, VA location, received a routine BOP inspection on September 12, 2017, which resulted in a finding of deficiencies regarding compounding. Hi Maria,

I have the corrected information.

Ted Vucenich (Manager)

Joe Lopez (Supervisor)

Randy Ortega (picker)

Ericka Henry (checker)

Jerry (Gerald) Minor (picker)

All the people listed above have the ability to pick prescription product and move it about the warehouse. Only Ted can transfer prescription product out of the warehouse for destruction.

Thank you and please let me know if you need anything else.

Hi Maria,

I made a mistake in the last email with the list of people that can move prescription product at our Nevada facility. My manager is going to provide me that list and I will get that over to you right away.

Thank you 😊

STATE OF COLORADO**

Case No. 2009-2995

STIPULATION AND FINAL AGENCY ORDER

**IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE LICENSE
TO PRACTICE AS A OUT-OF-STATE WHOLESALER IN THE STATE OF COLORADO
OF AUROBINDO PHARMA USA, INC.,**

Wholesaler Applicant.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Aurobindo Pharma USA, Inc. ("Wholesaler Applicant") to resolve all matters pertaining to Board Case Number 2009-2995 as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Wholesaler Applicant, its application for registration as an out-of-state wholesaler and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S.
2. Wholesaler Applicant admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.
3. On December 17, 2008, Wholesaler Applicant distributed prescription drugs into Colorado without having first registered as an out-of-state wholesaler in the State of Colorado.
4. On February 5, 2009, the Board issued Wholesaler Applicant a Cease and Desist Order for engaging in unregistered wholesale distribution of drugs into the State of Colorado.
5. Wholesaler Applicant's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes:

Colorado Revised Statutes

12-22-125. Unprofessional conduct - grounds for discipline.

- (1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in

accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(I) Any of the provisions of this part 1, including but not limited to any acts in section 12-22-126;

(II) The lawful rules of the board; or

(III) Any state or federal law pertaining to drugs.

* * *

6. On March 6, 2009, Wholesaler Applicant submitted an out-of-state wholesaler application, which application was denied by the Board.
7. The Board finds and concludes, and Wholesaler Applicant agrees, that based upon Wholesaler Applicant's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances as a condition of its registration as an out-of-state wholesaler.

DISPOSITION

**Conditional Registration;
\$5,000.00 Fine Plus 15% Surcharge and Terms
Agreement to Comply with §§12-22-801, et seq. C.R.S.
Release from Cease and Desist Order**

8. **Conditional Registration.** Wholesaler Applicant shall be granted a registration as an out-of-state wholesaler upon execution of this Final Agency Order and satisfaction of the terms and conditions set forth herein.

9. **Fine with Surcharge.** Wholesaler Applicant accepts the following discipline: Pursuant to §12-22-125.2(5), C.R.S., Wholesaler Applicant shall pay a fine of Five Thousand Dollars and No Cents (\$5,000.00). Wholesaler Applicant understands and acknowledges, pursuant to §24-34-108, C.R.S., that the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 15% of this fine. Wholesaler Applicant shall therefore pay a total amount of **Five Thousand, Seven Hundred Fifty Dollars and No Cents (\$5,750.00)**. The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Wholesaler Applicant submits this signed Final Agency Order to the Board.
10. **Compliance.** Wholesaler Applicant shall at all times remain in compliance with §§12-22-801, *et seq.* C.R.S. and shall not at any time distribute prescription drugs into Colorado without being registered as an out-of-state wholesaler in the State of Colorado at the time of distribution.
11. **Release from Cease & Desist Order.** Upon execution of this Final Agency Order, payment of the required fine as required above in paragraph 9, and issuance of Wholesaler Applicant's registration as an out-of-state wholesaler in the state of Colorado as set forth above in paragraph 8, the terms of the Cease and Desist Order entered on February 5, 2009 no longer apply and Wholesaler Applicant is hereby RELEASED from the Cease and Desist Order. The Cease and Desist Order shall remain a public record published in accordance with the Colorado Open Records Act and Board policy along with this Final Agency Order, as set forth below in paragraph 16.
12. **Advisements and Waivers.** Wholesaler Applicant enters into this Final Agency Order freely and voluntarily, whether or not Wholesaler Applicant has consulted with legal counsel. Wholesaler Applicant acknowledges its understanding that it has the following rights:
 - a. To have a formal notice of hearing and charges served upon it;
 - b. To respond to said formal notice of charges;
 - c. To have a formal disciplinary hearing pursuant to §12-22-125, C.R.S.; and
 - d. To appeal this Board order.

Wholesaler Applicant freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for Board's limiting the action taken against it to the sanctions imposed herein.

13. **Acknowledgments.** The undersigned authorized agent of Wholesaler Applicant has read this Final Agency Order in its entirety and acknowledges, whether or not Wholesaler Applicant has consulted with legal counsel, that Wholesaler Applicant understands the legal consequences and agrees that none of the terms or conditions herein are unconscionable.

14. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Wholesaler Applicant to take all appropriate steps to comply fully with this Final Agency Order. Wholesaler Applicant acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Wholesaler Applicant to comply with all terms and conditions of this Final Agency Order.
15. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.
16. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.
17. **Effective Date.** This Final Agency Order shall become effective upon signature of a Board member or representative.

CONSENT
AGREEMENT

PARTIES

This document is a Consent Agreement regarding the pending Wholesale Distributor license for Aurobindo Pharma USA, Inc. ("Aurobindo"), and related disciplinary issues. The parties to the Consent Agreement are: Aurobindo; the Maine Board of Pharmacy ("the Board"); and the State of Maine Office of Attorney General ("the Attorney General"). The Consent Agreement is entered into pursuant to 10 M.R.S. § 8003(5-A)(C).

STATEMENT OF FACTS

1. Aurobindo has been previously licensed by the Board as a wholesale distributor.
2. Aurobindo notified the Board of a change of location and submitted a new application, which was received on September 27, 2010.
3. Pursuant to Board Rule 02 392 chapter 12 § 5, when a wholesale distributor has a change of location, that wholesale distributor must file a new application for licensure not less than seven (7) days prior to that change.
4. The application Aurobindo submitted was incomplete, and therefore the license could not be granted.
5. Aurobindo's application was finally deemed complete on March 25, 2011.
6. From December 13, 2010 to March 8, 2011, Aurobindo engaged in the unlicensed shipping of prescription drugs and/or devices to the State of Maine.
7. In the application submitted on September 27, 2010, Aurobindo disclosed prior disciplinary action that had not previously been disclosed on any other application.

8. Specifically, on a prior application for renewal for WH70001456, Aurobindo responded "no" to the question "since your last renewal, has any jurisdiction taken disciplinary action against any professional license you hold or have held or denied your application for licensure?"
9. On March 20, 2009, Aurobindo was disciplined by the Colorado Board of Pharmacy.
10. At its meeting on April 7, 2011, the Board voted to preliminarily deny Aurobindo's application for licensure on the basis of Aurobindo's failing to disclose discipline and continuing to ship prescription medications into the state without being duly licensed.
11. In lieu of the license denial, the Board also voted to offer Aurobindo this Consent Agreement. Absent requesting, in writing, a hearing regarding the appeal of the preliminary denial within thirty days of receipt of the Notice of Preliminary Denial, and absent acceptance of this Consent Agreement by signing and dating it and returning it to Kelly McLaughlin, Board Clerk, Board of Pharmacy, 35 State House Station, Augusta, Maine 04333 by June 15, 2011, the preliminary denial of Aurobindo's application for licensure as a wholesale distributor will become final.

COVENANTS

12. Aurobindo admits to practicing as a wholesale distributor in Maine without being licensed by the Board for the period of December 13, 2010 to March 8, 2011, in violation of 32 M.R.S. § 13731(1), and that this violation is a ground for discipline and the denial of the application for wholesale distributor licensure pursuant to 10 M.R.S. § 8003(5-A)(A)(4).
13. Aurobindo admits to failure to disclose disciplinary action to the Board on its prior renewal application of WH70001456 which is grounds for discipline and denial of licensure pursuant to 10 M.R.S. § 8003(5-A)(A)(1).
14. As a condition of licensure and for conduct admitted to in paragraphs 12 and 13 above, AUROBINDO agrees to accept the following sanctions:

- A. Pay a CIVIL PENALTY in the amount of twelve thousand one hundred dollars (\$12,100.00), all but three thousand one hundred dollars (\$3,100.00) suspended, subject to successful completion of the probationary period described in 14(B), below. This fine for the violation admitted to in paragraph 12, calculated as \$1,000.00 per week. One hundred dollars (\$100.00) is for the violation in paragraph 13. Said payment shall be made by check or money order payable to the "Treasurer, State of Maine" and delivered to Kelly McLaughlin, Senior Consumer Assistant, Board of Pharmacy, 35 State House Station, Augusta, Maine 04333-0035, and is due immediately upon execution of this Consent Agreement.
- B. Accept a term of probation of one year. During that time, Aurobindo shall maintain a valid license, commit no intentional violations of, and make a good faith effort to comply with the laws and rules applicable to Aurobindo as set forth by the Maine Board of Pharmacy.
15. The Attorney General and the Board agree that no further agency or legal action will be taken against Aurobindo's license based on the specific violations admitted to herein, except in the event that Aurobindo does not comply fully with the terms of the Consent Agreement. Any violation of the Consent Agreement will be a ground for discipline by the Board.
 16. The Consent Agreement is not subject to appeal.
 17. The Consent Agreement is not subject to amendment except by written agreement of all parties.
 18. The Consent Agreement is a public document within the meaning of 1 M.R.S. § 402, et seq.
 19. Aurobindo understands that the execution of the Consent Agreement is completely voluntary and that it has the right to consult with an attorney before signing the Consent Agreement.

20. Aurobindo acknowledges by signature hereto of an authorized representative that it has read this Consent Agreement, that it has had an opportunity to consult with an attorney before executing this Consent Agreement, that it executed this Consent Agreement of its own free will, and that it agrees to abide by all terms and conditions set forth herein.

ADMINISTRATIVE COMPLAINT

The Michigan Department of Licensing and Regulatory Affairs, hereafter Complainant, by Carole H. Engle, Director, Bureau of Health Care Services, files this Complaint against Aurobindo Pharma USA Inc., hereafter Respondent Wholesaler, as follows:

1. The Michigan Board of Pharmacy, hereafter Board, is an administrative agency established by the Public Health Code, 1978 PA 368, as amended; MCL 333.1101 et seq. Pursuant to section 16226 of the Public Health Code, supra, the Board's Disciplinary Subcommittee is empowered to discipline licensees for violations of the Public Health Code.

2. Respondent Wholesaler is currently licensed to practice as a manufacturer/wholesaler in the state of Michigan, has a current facility controlled substance license, and has an address of record with Complainant of Dayton, New Jersey.

3. Section 17768(2)(d) of the Public Health Code, supra, authorizes the Board's Disciplinary Subcommittee to impose sanctions if the wholesaler has had its license or federal registration, limited, suspended, or revoked, or been subject to any other criminal, civil, or administrative penalty.

4. On March 20, 2009, the Colorado State Board of Pharmacy, hereafter Colorado Board, executed a Stipulation and Final Agency Order that ordered Respondent Wholesaler to pay a \$5,750.00 fine. This action was based on Respondent Wholesaler distributing "prescription drugs into Colorado without having first registered as an out-of-state wholesaler in the State of Colorado." A copy of the Colorado Board document, marked Exhibit A, is attached and incorporated.

5. On July 13, 2011, the Maine Board of Pharmacy, hereafter Maine Board, executed a Consent Agreement that placed Respondent Wholesaler on probation for one year and ordered Respondent Wholesaler to pay a \$12,100.00 civil penalty. This action was based on Respondent Wholesaler engaging in the "unlicensed shipping of prescription drugs and/or devices" and an incorrect response on its application for licensure in the state of Maine. A copy of the Maine Board document, marked Exhibit B, is attached and incorporated.

COUNT I

The foregoing action in the state of Colorado, as set forth above, constitutes a violation of section 17768(2)(d) of the Public Health Code, supra.

COUNT II

The foregoing action in the state of Maine, as set forth above, constitutes a violation of section 17768(2)(d) of the Public Health Code, supra.

Complainant requests that the within Complaint be served upon Respondent Wholesaler and that Respondent Wholesaler be offered an opportunity to show compliance with all lawful requirements for retention of the license. If compliance is not shown, Complainant further requests that formal proceedings be commenced pursuant to the Public Health Code, rules promulgated thereunder, and the Administrative Procedures Act of 1969, 1969 PA 306, as amended; MCL 24.201 et seq.

Pursuant to section 16231(7) of the Public Health Code, supra, Respondent Wholesaler has 30 days from the date of receipt of this Complaint to submit a written response to the allegations contained herein. The written response shall be submitted to Complainant, Carole H. Engle, Director, Bureau of Health Care Services, Department of Licensing and Regulatory Affairs, P.O. Box 30670, Lansing, MI, 48909.

CONTINUED ON NEXT PAGE

Pursuant to section 16231(8) of the Public Health Code, supra, Respondent Wholesaler's failure to submit a written response within 30 days, as noted above, shall be treated as an admission of the allegations contained herein and shall result in transmittal of this Complaint directly to the Board's Disciplinary Subcommittee for imposition of an appropriate sanction.

Case No. 2009-2995

STIPULATION AND FINAL AGENCY ORDER

**IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE LICENSE
TO PRACTICE AS A OUT-OF-STATE WHOLESALER IN THE STATE OF COLORADO
OF AUROBINDO PHARMA USA, INC.,**

Wholesaler Applicant.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Aurobindo Pharma USA, Inc. ("Wholesaler Applicant") to resolve all matters pertaining to Board Case Number 2009-2995 as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Wholesaler Applicant, its application for registration as an out-of-state wholesaler and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S.
2. Wholesaler Applicant admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.
3. On December 17, 2008, Wholesaler Applicant distributed prescription drugs into Colorado without having first registered as an out-of-state wholesaler in the State of Colorado.
4. On February 5, 2009, the Board issued Wholesaler Applicant a Cease and Desist Order for engaging in unregistered wholesale distribution of drugs into the State of Colorado.
5. Wholesaler Applicant's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes:

Colorado Revised Statutes

12-22-125. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the rules of procedure of the board.

accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(I) Any of the provisions of this part 1, including but not limited to any acts in section 12-22-126;

(II) The lawful rules of the board; or

(III) Any state or federal law pertaining to drugs.

* * *

6. On March 6, 2009, Wholesaler Applicant submitted an out-of-state wholesaler application, which application was denied by the Board.
7. The Board finds and concludes, and Wholesaler Applicant agrees, that based upon Wholesaler Applicant's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances as a condition of its registration as an out-of-state wholesaler.

DISPOSITION

**Conditional Registration;
\$5,000.00 Fine Plus 15% Surcharge and Terms
Agreement to Comply with §§12-22-801, et seq. C.R.S.
Release from Cease and Desist Order**

8. **Conditional Registration.** Wholesaler Applicant shall be granted a registration as an out-of-state wholesaler upon execution of this Final Agency Order and satisfaction of the terms and conditions set forth herein.

9. **Fine with Surcharge.** Wholesaler Applicant accepts the following discipline: Pursuant to §12-22-125.2(5), C.R.S., Wholesaler Applicant shall pay a fine of Five Thousand Dollars and No Cents (\$5,000.00). Wholesaler Applicant understands and acknowledges, pursuant to §24-34-108, C.R.S., that the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 15% of this fine. Wholesaler Applicant shall therefore pay a total amount of **Five Thousand, Seven Hundred Fifty Dollars and No Cents (\$5,750.00)**. The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Wholesaler Applicant submits this signed Final Agency Order to the Board.
10. **Compliance.** Wholesaler Applicant shall at all times remain in compliance with §§12-22-801, *et seq.* C.R.S. and shall not at any time distribute prescription drugs into Colorado without being registered as an out-of-state wholesaler in the State of Colorado at the time of distribution.
11. **Release from Cease & Desist Order.** Upon execution of this Final Agency Order, payment of the required fine as required above in paragraph 9, and issuance of Wholesaler Applicant's registration as an out-of-state wholesaler in the state of Colorado as set forth above in paragraph 8, the terms of the Cease and Desist Order entered on February 5, 2009 no longer apply and Wholesaler Applicant is hereby RELEASED from the Cease and Desist Order. The Cease and Desist Order shall remain a public record published in accordance with the Colorado Open Records Act and Board policy along with this Final Agency Order, as set forth below in paragraph 16.
12. **Advisements and Waivers.** Wholesaler Applicant enters into this Final Agency Order freely and voluntarily, whether or not Wholesaler Applicant has consulted with legal counsel. Wholesaler Applicant acknowledges its understanding that it has the following rights:
 - a. To have a formal notice of hearing and charges served upon it;
 - b. To respond to said formal notice of charges;
 - c. To have a formal disciplinary hearing pursuant to §12-22-125, C.R.S.; and
 - d. To appeal this Board order.

Wholesaler Applicant freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for Board's limiting the action taken against it to the sanctions imposed herein.

13. **Acknowledgments.** The undersigned authorized agent of Wholesaler Applicant has read this Final Agency Order in its entirety and acknowledges, whether or not Wholesaler Applicant has consulted with legal counsel, that Wholesaler Applicant understands the legal consequences and agrees that none of the terms or conditions herein are unconscionable.

14. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Wholesaler Applicant to take all appropriate steps to comply fully with this Final Agency Order. Wholesaler Applicant acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Wholesaler Applicant to comply with all terms and conditions of this Final Agency Order.
15. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.
16. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.
17. **Effective Date.** This Final Agency Order shall become effective upon signature of a Board member or representative.

8. Specifically, on a prior application for renewal for WH70001456, Aurobindo responded "no" to the question "since your last renewal, has any jurisdiction taken disciplinary action against any professional license you hold or have held or denied your application for licensure?"
9. On March 20, 2009, Aurobindo was disciplined by the Colorado Board of Pharmacy.
10. At its meeting on April 7, 2011, the Board voted to preliminarily deny Aurobindo's application for licensure on the basis of Aurobindo's failing to disclose discipline and continuing to ship prescription medications into the state without being duly licensed.
11. In lieu of the license denial, the Board also voted to offer Aurobindo this Consent Agreement. Absent requesting, in writing, a hearing regarding the appeal of the preliminary denial within thirty days of receipt of the Notice of Preliminary Denial, and absent acceptance of this Consent Agreement by signing and dating it and returning it to Kelly McLaughlin, Board Clerk, Board of Pharmacy, 35 State House Station, Augusta, Maine 04333 by June 15, 2011, the preliminary denial of Aurobindo's application for licensure as a wholesale distributor will become final.

COVENANTS

12. Aurobindo admits to practicing as a wholesale distributor in Maine without being licensed by the Board for the period of December 13, 2010 to March 8, 2011, in violation of 32 M.R.S. § 13731(1), and that this violation is a ground for discipline and the denial of the application for wholesale distributor licensure pursuant to 10 M.R.S. § 8003(5-A)(A)(4).
13. Aurobindo admits to failure to disclose disciplinary action to the Board on its prior renewal application of WH70001456 which is grounds for discipline and denial of licensure pursuant to 10 M.R.S. § 8003(5-A)(A)(1).
14. As a condition of licensure and for conduct admitted to in paragraphs 12 and 13 above, AUROBINDO agrees to accept the following sanctions:

- A. Pay a CIVIL PENALTY in the amount of twelve thousand one hundred dollars (\$12,100.00), all but three thousand one hundred dollars (\$3,100.00) suspended, subject to successful completion of the probationary period described in 14(B), below. This fine for the violation admitted to in paragraph 12, calculated as \$1,000.00 per week. One hundred dollars (\$100.00) is for the violation in paragraph 13. Said payment shall be made by check or money order payable to the "Treasurer, State of Maine" and delivered to Kelly McLaughlin, Senior Consumer Assistant, Board of Pharmacy, 35 State House Station, Augusta, Maine 04333-0035, and is due immediately upon execution of this Consent Agreement.
- B. Accept a term of probation of one year. During that time, Aurobindo shall maintain a valid license, commit no intentional violations of, and make a good faith effort to comply with the laws and rules applicable to Aurobindo as set forth by the Maine Board of Pharmacy.
15. The Attorney General and the Board agree that no further agency or legal action will be taken against Aurobindo's license based on the specific violations admitted to herein, except in the event that Aurobindo does not comply fully with the terms of the Consent Agreement. Any violation of the Consent Agreement will be a ground for discipline by the Board.
16. The Consent Agreement is not subject to appeal.
17. The Consent Agreement is not subject to amendment except by written agreement of all parties.
18. The Consent Agreement is a public document within the meaning of 1 M.R.S. § 402, et seq.
19. Aurobindo understands that the execution of the Consent Agreement is completely voluntary and that it has the right to consult with an attorney before signing the Consent Agreement.

20. Aurobindo acknowledges by signature hereto of an authorized representative that it has read this Consent Agreement, that it has had an opportunity to consult with an attorney before executing this Consent Agreement, that it executed this Consent Agreement of its own free will, and that it agrees to abide by all terms and conditions set forth herein.

Hello Maria,

I spoke with the North Carolina Secretary of State office this morning and they indicated that the Certificate of Existence implies that Avanos Medical Sales, LLC is in good standing and all fees have been paid.

The person I spoke with indicated that we would not be able to obtain a Certificate of Existence unless we were in good standing.

Please provide your feedback.

Thank you!

Hi Nancy,

The Certificate of Existence was attached to the application, but we were not sure if this is what is called in NC? Basically what we were looking for is something that says that all fees and documents have been paid and received by the State Secretary, which the one you included did not state that. The Certificate of Good Standing is a validation from which state you are incorporated and in Good Standing, I have attached an example from the state of Missouri and I have also attached what I found on a NC Certificate of Good Standing website, I hope this helps.

Regarding the Disciplinary Actions

Avanos Medical Sales, LLC (Avanos) at 6620 South Memorial Place, Suite 100 in Tucson, Arizona, was subject to a disciplinary proceeding in February 24, 2020, in the state of Colorado. The charges in dispute were failure to notify the Board in a timely manner in connection with a name change. Avanos paid a \$1,150.00 fine to resolve the matter and is currently in good standing with the Colorado State Board of Pharmacy. The delay in notification was inadvertent and procedures have been put in place to ensure that a similar delay does not occur. Enclosed is a copy of the Colorado Stipulation and Final Agency Order.

In addition, in July 2020, Avanos received an administrative complaint from Florida alleging that 1) the company failed to notify the Florida Department of Business and Professional Regulation (Department) within 10 days of a change in Designated Representative; 2) Avanos operated as an out-of-state prescription drug wholesale distributor without a valid permit; and 3) Avanos failed to maintain business records with required elements. Avanos paid a \$12,400 fine to resolve the matter and is working towards resolving the issues noted by the Department. Enclosed is a copy of the final Florida Settlement Agreement.

7. **Letter of Admonition.** This Final Agency Order shall constitute a Letter of Admonition as set forth in section 12-42.5-124(6)(b) and (c), C.R.S. The Board hereby admonishes Respondent Outlet for the acts and omissions described in paragraphs 5-6 above.
8. **Waiver of Right to Contest.** By entering into this Final Agency Order, Respondent Outlet agrees to waive the right provided by section 12-42.5-124(6)(b) and (c), C.R.S., to contest this Letter of Admonition.
9. **Fine with Surcharge.** Pursuant to section 12-42.5-124(5)(a)(I), C.R.S., Respondent Outlet shall pay a fine of One Thousand Dollars and No Cents (\$1,000.00). The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Outlet to comply with all terms and conditions of this Final Agency Order.

12. Advisements and Waivers. Through its undersigned Authorized Representative, Respondent Outlet enters into this Final Agency Order freely and voluntarily, after having the opportunity to consult with legal counsel and/or choosing not to do so. - Managed teams of volunteers assembling up to 1500 promotional merchandise kits for special events. Kit sales brought in an additional \$32,000 per holiday event.
- Identified and implemented a method to integrate seasonal catalog sales with core product resulting in a ten-fold decrease in catalog back orders and a 98% in stock rate for merchandise prior to each catalog drop.
- Researched and procured over 100 specific and hard-to-find titles for the annual Antiques Forum "book sales room". Hailed as having the most comprehensive selection and well organized book event in years.
- Responded to the dramatic increase in the cost of precious metals by reworking the jewelry department, setting new retail, cancelling orders, and promoting select items in order to achieve a favorable stock situation and maintain a profitable \$1.3 million department.
- Traveled to book shows to purchase titles for what was then the new sub-department of remaindered books. This sub-department became the best-selling of all non-Colonial Williamsburg publications.
- Participated in an aggressive team driven liquidation of over \$1 million in inventory and a \$2 million relocation of merchandise following the closure of the larger of two warehouses.
- Preserved over \$90,000 in sales by facilitating product recalls from stores and negotiating with vendors for resolution when several key items in one season arrived in unacceptable condition.
- Conceived and implemented a strategy that cut by half the customer service response and resolution times for catalog drop ship issues.
- Devised new processes for tracking book titles by populating additional data fields, including special event codes allowing for more accurate reorders.

Explanation of Alabama State Board of Pharmacy Disciplinary Action

Bioventus has held a Wholesale Distributor license in Alabama for a number of years. These licenses had a two-year term. When we renewed our license in late 2016, we believed it covered the two-year period of 2017-2018, as had previous licenses. We noted receipt of the license renewal in our system and set a reminder to renew in late 2018 per the standard two-year renewal cycle. We were unaware that a change had been made requiring annual license renewal instead of every two years, as with previous renewals.

During a Bioventus initiated audit of all licenses, the error was found and the renewal was filed. Bioventus was fined and the matter was resolved via consent order. The Alabama State Board of Pharmacy License renewal was issued and is currently in good standing.

Explanation of State of Maine Board of Pharmacy Disciplinary Action

Bioventus received a fine from the Alabama State Board of Pharmacy on October 17, 2018 for a late renewal. We failed to report this disciplinary action to the State of Maine Board of Pharmacy within 10 days as required. The disciplinary action was reported to the State of Maine Board of Pharmacy on November 2, 2018.

Bioventus was issued a disciplinary action and the matter was resolved via consent order. The State of Maine Board of Pharmacy Licenses are currently in good standing.

Explanation of State of Utah Division of Occupational and Professional Licensing Disciplinary Action

Bioventus received a fine from the Alabama State Board of Pharmacy on October 17, 2018 for a late renewal. We failed to report this disciplinary action to the State of Utah Division of Occupational and Professional Licensing within 10 days as required. The disciplinary action was reported to the State of Utah Division of Occupational and Professional Licensing on August 2, 2019 at the time of renewal.

Bioventus was issued a citation and the matter was resolved. The State of Utah License is currently in good standing.

CONSENT ORDER

THIS MATTER comes before the Alabama State Board of Pharmacy (hereinafter referred to as the "Board") on a complaint against Bioventus, LLC relating to distributing medical devices in the State of Alabama during 2018 without first renewing your permit from the Board required by Code of Alabama (1975) § 34-23-32 and in violation of Code of Alabama (1975) § 34-23-33 (7).

Pursuant to Code of Alabama (1975) § 41-22-12(f) the parties have agreed to informally resolve this matter by the entry of this Consent Order, the terms of which are as follows:

Bioventus, LLC further waives any objection to the attorney for the Board preparing, drafting or making this Order, including the waiver of any objection or right pursuant to Code of Alabama (1975), §41-22-18.

4. By execution of this Consent Order, Bioventus, LLC hereby releases the Board, its members, agents, representatives, servants and employees from any and all liability, claims, damages, fees or expenses arising out of or made in connection with the matters relating to this Consent Order and complaint.

5. That Bioventus, LLC agrees that any further violation of the Alabama Pharmacy Practice Act, the rules and regulations of the Alabama State Board of Pharmacy or any other applicable laws may, upon proof and hearing thereof, result in further disciplinary sanctions against its license.

6. That Bioventus, LLC acknowledges, stipulates and agrees that it has read this Consent Order and that it fully understands the terms, conditions and contents of the same. Bioventus, LLC acknowledges, stipulates and agrees that it voluntarily and of its own free will accepts the terms and conditions set out in this Consent Order and is executing this Consent Order freely and voluntarily without coercion, duress, or threats or pursuant to any promises and had the right to seek advice of counsel before executing this Consent Order.

IN RE:	)

BIOVENTUS, LLC.	)	CONSENT AGREEMENT
	)	
Complaint No. 2019-PHA-15376	)	

PARTIES

This document is a Consent Agreement regarding the pending application of Bioventus, LLC., for the renewal of its pharmaceutical wholesaler and pharmaceutical manufacturer licenses. The parties to this Consent Agreement are: Bioventus, LLC. ("Bioventus"), the Maine Board of Pharmacy ("the Board"), and the Office of the Maine Attorney General ("the Attorney General"). This Consent Agreement is entered into pursuant to 10 M.R.S. § 8003(5-A).

STATEMENT OF FACTS

1. Since July 17, 2013, Bioventus has been licensed in Maine as a pharmaceutical wholesaler (license number WH70002164), and since August 29, 2013, as a pharmaceutical manufacturer (license number MF30001392), with a registered location of 1900 Charles Bryan Road Suite 275, Cordova, Tennessee.
2. On October 17, 2018, the Alabama State Board of Pharmacy imposed discipline against Bioventus' Alabama license for the wholesaler located at 1900 Charles Bryan Road Suite 275, Cordova, Tennessee pursuant to Consent Order # 18-L-0078 in which the Alabama Board of Pharmacy found that Bioventus had distributed medical devices in the State of Alabama during 2018 without first having timely renewed its permit to do so.

3. Bioventus failed to report this discipline to the Board within 10 days as required by 10 M.R.S. § 8003-G(2)(C).

4. On November 2, 2018, Bioventus reported to the Board for the first time that the Alabama Board of Pharmacy had imposed discipline against its license on October 17, 2018.

5. Pursuant to 10 M.R.S. § 8003(5-A)(A)(11) and 10 M.R.S. § 8003-G(2)(C), the Board may deny, refuse to renew, suspend, or revoke a license and impose other discipline for failing to report a license disciplinary action to the Board within 10 days of that action.

6. At its meeting on March 7, 2019, the Board reviewed the above information and voted to preliminarily deny Bioventus' applications for renewal of its licenses to be a pharmaceutical wholesaler and pharmaceutical manufacturer. In lieu of the denial, the Board also voted to offer Bioventus this Consent Agreement. Unless Bioventus either requests, in writing, a hearing regarding the appeal of the preliminary denial within thirty (30) days of receipt of the Notice of Preliminary Denial, or accepts this Consent Agreement by signing and dating it and returning it to Complaint Division, 35 State House Station, Augusta, ME 04333, by April 30, 2019, the preliminary denial of Bioventus' applications for licensure as a pharmaceutical wholesaler and pharmaceutical manufacturer will become final.

COVENANTS

7. Bioventus admits to the facts above and admits that such conduct constitutes grounds for denial of or refusal to renew its licenses and for the imposition of discipline pursuant to 10 M.R.S. §§ 8003(5-A)(A)(11), and 10 M.R.S. § 8003-G(2)(C) for failing to report disciplinary action taken against a license in another jurisdiction within 10 days after the action was taken.

8. As discipline for the violation admitted to in paragraph 7 above, Bioventus agrees to accept the following DISCIPLINARY ACTION:

- a) A REPRIMAND; and
- b) A CIVIL PENALTY in the amount of two hundred fifty dollars (\$250.00), payment of which shall be made by certified check or money order payable to the "Treasurer, State of Maine" and delivered to Complaint Division, Maine Department of Professional and Financial Regulation, 35 State House Station, Augusta, Maine 04333, and must be submitted with the signed Consent Agreement;

9. Violation of any of the terms or conditions of this Consent Agreement by Bioventus shall constitute grounds for discipline, including but not limited to modification, suspension, or revocation of licensure or the denial of licensure or re-licensure.

10. The Board and Bioventus agree that no further agency action will be initiated against its licenses by the Board based upon the specific violations admitted to herein, except or unless Bioventus fails to comply with the terms and conditions of this Consent Agreement. The Board may however consider the conduct described above as evidence of a pattern of misconduct in the event that other allegations are brought against Bioventus and this Consent Agreement will be admitted into evidence in any future adjudicatory hearing involving Bioventus. The Board may also consider the fact that discipline was imposed by this Consent Agreement in determining appropriate discipline in any further complaints against Bioventus.

11. This Consent Agreement is not appealable and is effective until modified or rescinded by the parties hereto.

12. The Board and the Attorney General may communicate and cooperate regarding any matter related to this Consent Agreement.

13. Upon receipt of the signed Consent Agreement and the civil penalty payment, the Board will renew Bioventus's licenses contingent upon it meeting all other eligibility criteria.

14. This Consent Agreement is a public record within the meaning of 1 M.R.S. § 402 and will be available for inspection and copying by the public pursuant to 1 M.R.S. § 408-A.

15. Nothing in this Consent Agreement shall be construed to affect any right or interest of any person not a party hereto.

16. Bioventus acknowledges by its duly authorized representative's signature hereto that it has had an opportunity to consult with an attorney before executing this Consent Agreement, that it executes this Consent Agreement voluntarily, and that it agrees to abide by all terms and conditions set forth herein.

Responses to the Par Sterile Products, LLC Inspectional Report Form 483
Inspection Dates April 8 – 15, 2019, FEI #1818977

Observation #1:

The batch production and control records are deficient in that they do not include documentation of the accomplishment of each significant step in manufacturing.

Specifically,

Document PAR-ROC-SOP-00231 Rules for Documentation of Product-Related Documents allows for the use of documents other than the batch record to complete missing documentation of a critical step or data, however there is no requirement that the supporting document have the specific information missing from the batch record, for example:

- A. In the batch record for media fill lot #323458, page 21 of 41, the verification signature for the count of rejected vials was documented on 30JUL2018 for work performed on 17JUL18 without reference to a document that shows the count of rejected vials. It was stated that rejected vials, if non-integral, are discarded after filling. No deviation was opened for this activity.
- B. In the batch record for media fill lot #323458, page 18 of 41, the signature and date for the activity was recorded on 30JUL18 as being completed on 17JUL18. The referenced document, protocol SA-2018-L1-03, does not specifically show that the steps on page 18 of 41 were completed on 17JUL18, the signature and date in the protocol page 16 of 27 as referenced in discussions, is for the vials being transferred to microbiology for incubation. No deviation was opened for this activity.
- C. In the Line Stoppage Form for media fill lot #321685, the line stoppages were recorded out of order. The second line stoppage on page 1 of 3 is documented as 1158 and restarting at 0021 on 13JUN18, while on page 2 of 3 the first line stoppage is listed as 0855 and restarting on 1111 on 12JUN18. Both stoppages were verified using protocol SA-2018-L1-02 page 13 of 23, which is the list of interventions performed and does not specifically state the times that the line was stopped. No deviation was opened for this activity.

Response #1:

Par Sterile Products recognizes the overall scope of the observation, as applicable to contemporaneous recording of documentation and the proper utilization of supporting references in instances where missing entries need to be verified and completed. Par Sterile Products understands the importance of such documentation, and strives to continuously reinforce and improve on such practices.

Previous internal review identified the opportunity to better integrate media fill batch records and associated sterility assurance media protocols in order to optimize consistency and alignment between these documents. As a result of this internal review, CAPAs #33419 & 33542 were formally initiated in our Quality Management System in March 2019 and April 2019 respectively, with a due date of September 19, 2019 (refer to

**Responses to the Par Sterile Products, LLC Inspectional Report Form 483
Inspection Dates April 8 – 15, 2019, FEI #1818977**

Actions 1 & 2). We are undertaking this action to improve the documentation related to the media fill program in order to better ensure appearance, consistency, and contemporaneous recording of documentation. Specifically, Par Sterile Products commits to revising master documents for media fill batch records and media fill protocols to address the cited examples (refer to Actions 1 & 2).

Finally, Par Sterile Products recognizes the need to immediately reinforce contemporaneous data entry expectations in accordance with our site procedure, PAR-ROC-SOP-00231, *Rules for Documentation of Product Related Documents*, by conducting training (refer to Action 3). In addition, periodic reinforcement of these practices will be accomplished by including this as a specific training element in the annual GMP training curriculum, required of all employees at Par Sterile Products (refer to Action 4).

Each sub-observation as documented in the Form 483 is individually responded to below, with any corresponding commitments (actions), and the summary of all committed action items following:

Response #1, A:

Par Sterile Products acknowledges the verification signature for the count of rejected vials was documented on 30JUL2018 for work performed on 17JUL2018 without reference to a document that shows the count of rejected vials. Par Sterile Products confirms non-integral media fill units are discarded after filling as documented by the 'Performed By' signature and date on page 21 of Media Fill lot #323458. The 'Checked By' signature documented on 30JUL2018 was performed as a documentation review of the batch record page, rather than a second physical verification of reject vials.

Per Standard Operating Procedure PAR-ROC-SOP-00231, *Rules for Documentation of Product Related Documents*, a supporting document should have been referenced. The supporting documentation leveraged in this case was presented to inspectors, however was not cited on the batch record at the time of entry. Standard Operating Procedure PAR-ROC-SOP-00231, *Rules for Documentation of Product Related Documents*, Section 4, defines requirements for addressing incomplete documentation and requires initiation of an investigation if supporting documentation is not available to verify performance of a task in the event of missing information.

The determined root cause is failure to follow Standard Operating Procedure PAR-ROC-SOP-00231, *Rules for Documentation of Product Related Documents*, as such Par commits to: completing an investigation, DEV-00415, initiated on April 26, 2019 (refer to Action 5); updating PAR-ROC-SOP-00231 to define "Checked By" (refer to Action 6); and revising the media fill batch record 2000232 (used for lot #323458) to accurately represent the intent of the "Checked By" signature at this step (refer to Action 2).

Response #1, B:

Par Sterile Products acknowledges the referenced document, Protocol SA-2018-L1-03, does not specifically show that the steps on page 18 of 41 were completed on 17JUL2018. The signature and date required on page 18 of the batch record is in reference to the transfer of the media lot to incubation, which is documented as complete in Sterility Assurance Media Protocol SA-2018-L1-03. The determined root cause for the inconsistency between the media fill batch record 2000232 (used for lot #323458) and the referenced document, Protocol SA-2018-L1-03, is terminology that is not consistent across both documents.

Responses to the Par Sterile Products, LLC Inspectional Report Form 483
Inspection Dates April 8 – 15, 2019, FEI #1818977

As indicated above, Par commits to revising media fill batch record 2000232 (used for lot #323458) and/or Sterility Assurance Media Protocol template to ensure terminology is consistent across both documents (refer to Actions 1 & 2). Additionally, Par has initiated an investigation (DEV-00415) (refer to Action 5).

Response #1, C:

Par Sterile Products acknowledges that entries for line stoppage appear to have been made out of order for Media Fill lot #321685. During Quality review of the executed batch record, it was identified that the line stoppage entry for 0855 on 12JUN18 was not originally documented on the line stoppage form below the prior line stoppage entry, which occurred at 0245 on 12JUN18. Quality identified the missing entry against Aseptic Intervention Log FRM-C-00044.

Upon discovery of this, the line stoppage which occurred at 0855 on 12JUN18 was documented on a new form rendering the entries out of sequence. This entry was made on 25JUL18, indicating that Protocol SA-2018-L1-02 and video footage were used to confirm when the actual line stoppage occurred. However, Protocol SA-2018-L1-02 does not specifically state the times that the line was stopped; the stoppage is inferred from the Aseptic Intervention Log FRM-C-00044 entries (when the operators left the line for this lot) and this explanation is only captured on the first page of the Line Stoppage Documentation not on the added page for the stoppage at 0855 on 12JUN18.

The determined root cause is failure to follow Standard Operating Procedure PAR-ROC-SOP-00231, *Rules for Documentation of Product Related Documents*. Upon review of the executed document, Par Sterile Products acknowledges that this entry should have been more clearly indicated as being recorded at the later date and properly citing the correct supporting documentation on each page associated with the corrected entries.

As indicated above, Par commits to: revising all media fill batch records to ensure terminology is consistent across both documents and inclusive of line stoppage documentation (refer to Actions 1 & 2); completing an investigation, DEV-00415 (refer to Action 5); and updating PAR-ROC-SOP-00231, *Rules for Documentation of Product Related Records*, to clarify expectations for incomplete documentation (refer to Action 6).

Actions: The following action(s) will be taken to address this observation:

- Action 1: Par Sterile Products QMS system previously recognized that Aseptic Process Simulation protocol documentation required revision as evidenced by initiating CAPA #33419 on March 28, 2019. Par Sterile Products commits to completing CAPA #33419. Due Date: September 19, 2019
- Action 2: Par Sterile Products QMS system previously recognized that Media Batch Record documentation required revision as evidenced by initiating CAPA #33542 on April 26, 2019. We further commit to update all Media Batch Records to address the cited examples to ensure consistency and contemporaneous entry of data. (Affected records include: 2002065, 2002174, 2002383, 2002201, 2000230, 2000161, 2000232, 2000610, 2002060, 2002612). Due Date: September 19, 2019
- Action 3: Immediate reinforcement of contemporaneous data entry expectations in accordance with our site procedure, PAR-ROC-SOP-00231, *Rules for*

This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.			
DURING AN INSPECTION OF YOUR FIRM WE OBSERVED: OBSERVATION 1. The batch production and control records are deficient in that they do not include documentation of the accomplishment of each significant step in manufacturing. Specifically, Document PAR-ROC-SOP-00231 <i>Rules for Documentation of Product-Related Documents</i> allows for the use of documents other than the batch record to complete missing documentation of a critical step or data, however there is no requirement that the supporting document have the specific information missing from the batch record, for example: - In the batch record for media fill lot #323458, page 21 of 41, the verification signature for the count of rejected vials was documented on 30JUL2018 for work performed on 17JUL18 without reference to a document that shows the count of rejected vials. It was stated that rejected vials, if non-integral, are discarded after filling. No deviation was opened for this activity. - In the batch record for media fill lot #323458, page 18 of 41, the signature and date for the activity was recorded on 30JUL18 as being completed on 17JUL18. The referenced document, protocol SA-2018-L1-03, does not specifically show that the steps on page 18 of 41 were completed on 17JUL18, the signature and date in the protocol page 16 of 27 as referenced in discussions, is for the vials being transferred to microbiology for incubation. No deviation was opened for this activity. - In the Line Stoppage Form for media fill lot #321685, the line stoppages were recorded out of order. The second line stoppage on page 1 of 3 is documented as 1158 and restarting at 0021 on 13JUN18, while on page 2 of 3 the first line stoppage is listed as 0855 and restarting on 1111 on 12JUN18. Both stoppages were verified using protocol SA-2018-L1-02 page 13 of 23, which is the list of interventions performed,

BLA APPROVAL

Endo Global Aesthetics Limited
c/o Endo Pharmaceuticals Inc.
Attn: Erin Abdallah
Associate Director, Regulatory Affairs
1400 Atwater Drive
Malvern, PA 19355

Dear Ms. Abdallah:

Please refer to your biologics license application (BLA) dated and received September 6, 2019, and your amendments, submitted under section 351(a) of the Public Health Service Act for Qwo (collagenase clostridium histolyticum-aaes) for injection.

We also refer to our approval letter dated July 06, 2020, which contained the following error:

- Carton and container label does not reflect most recent version.

This replacement approval letter incorporates the correction of the error. The effective approval date will remain July 06, 2020, the date of the original approval letter.

LICENSING

We have approved your BLA for Qwo (collagenase clostridium histolyticum-aaes) effective this date. You are hereby authorized to introduce or deliver for introduction into interstate commerce, Qwo under your existing Department of Health and Human Services U.S. License No. 2136. Qwo is indicated for the treatment of moderate to severe cellulite in the buttocks of adult women.

MANUFACTURING LOCATIONS

Under this license, you are approved to manufacture collagenase clostridium histolyticum-aaes drug substance at Auxilium Pharmaceuticals LLC in Horsham, Pennsylvania. The final formulated drug product and sterile diluent will be manufactured, filled, labeled, and packaged at Par Sterile Products LLC, Rochester, Michigan. The final formulated drug product and sterile diluent may also be packaged at Sharp Corporation in Allentown, Pennsylvania. You may label your product with the proprietary name, Qwo, and market it in 0.92 mg for reconstitution in 4 mL of sterile

diluent for one treatment area, and 1.84 mg for reconstitution in 8 mL of sterile diluent for two treatment areas.

DATING PERIOD

The dating period for Qwo shall be 24 months from the date of manufacture when stored at 2 to 8°C. The dating period for the sterile diluent shall be 24 months from the date of manufacture when stored at 2 to 30°C. The date of manufacture shall be defined as the date of final sterile filtration of the formulated drug product. The dating period for your drug substance shall be 30 months from the date of manufacture when stored at -60 to -80°C.

The expiration date for the packaged product, Qwo (collagenase clostridium histolyticum-aaes) plus sterile diluent shall be dependent on the shortest expiration date of any component.

Results of ongoing stability studies should be submitted throughout the dating period, as they become available, including the results of stability studies from the first three production lots.

We have approved the stability protocol(s) in your license application for the purpose of extending the expiration dating period of your drug substance, drug product, and sterile diluent under 21 CFR 601.12.

FDA LOT RELEASE

You are not currently required to submit samples of future lots of Qwo and each kit component to the Center for Drug Evaluation and Research (CDER) for release by the Director, CDER, under 21 CFR 610.2. We will continue to monitor compliance with 21 CFR 610.1, requiring completion of tests for conformity with standards applicable to each product prior to release of each lot.

Any changes in the manufacturing, testing, packaging, or labeling of Qwo, or in the manufacturing facilities, will require the submission of information to your biologics license application for our review and written approval, consistent with 21 CFR 601.12.

APPROVAL & LABELING

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit, via the FDA automated drug registration and listing system (eLIST), the content of labeling

BLA 761146
Page 3

[21 CFR 601.14(b)] in structured product labeling (SPL) format, as described at FDA.gov.¹ Content of labeling must be identical to the enclosed labeling (Prescribing Information, and Patient Package Insert). Information on submitting SPL files using eLIST may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.²

The SPL will be accessible via publicly available labeling repositories.

CARTON AND CONTAINER LABELING

Submit final printed carton and container labeling that are identical to the enclosed carton and container labeling, as soon as they are available, but no more than 30 days after they are printed. Please submit these labeling electronically according to the guidance for industry *Providing Regulatory Submissions in Electronic Format — Certain Human Pharmaceutical Product Applications and Related Submissions Using the eCTD Specifications*. For administrative purposes, designate this submission “**Final Printed Carton and Container Labeling for approved BLA 761146.**” Approval of this submission by FDA is not required before the labeling is used.

ADVISORY COMMITTEE

Your application for collagenase clostridium histolyticum was not referred to an FDA advisory committee because collagenase clostridium histolyticum is an approved product for other indications. The safety profile in the target population with moderate to severe cellulite in the buttocks of adult women was expected to be similar to the safety profile in the populations for which the product is approved.

REQUIRED PEDIATRIC ASSESSMENTS

We are waiving the pediatric study(ies) requirement for this application because studies are impossible or highly impracticable since the estimated number of patients with moderate to severe cellulite less than age 18 years is extremely small.

POSTMARKETING COMMITMENTS NOT SUBJECT TO THE REPORTING REQUIREMENTS UNDER SECTION 506B

- 3867-2 The target filtration volume of 1,035 mL was not achieved for one of the test filters (lot number: R6EA67189) in the bacterial retention study due to a decreased flow rate from clogging of the filter. Conduct a bacterial retention study to simulate the target filtration volume and maximum flow rate throughout the study duration for all test filters.

Final Report Submission: 06/21

- 3867-3 The validation runs with maximum porous load in autoclaves MS-9, MS-11 and F-39 were operated for a longer time period (i.e., 40 minutes versus 30 minutes) and a lower temperature and pressure setting than indicated for routine production cycle (refer to table IX in the "Manufacturing Equipment Validation Summary - Lyophilized Powder" document in section P.3.5). In response to the Agency's IR dated May 6, 2020, you indicated that sterilization cycle for the maximum porous load in autoclaves MS-9, MS-11 and F-39 cycle is requalified at 121°C for 40 minutes with line 1/line 9 master load which is considered to be the worst-case sterilization load. Provide data summaries from recent validation runs with line 1/line 9 master load in the three autoclaves to validate the efficacy of the routine sterilization cycle which is operated at $\geq 122^{\circ}\text{C}$ for 30 minutes for both load types.

The timetable you submitted on May 14, 2020, states that you will conduct this study according to the following schedule:

FULL PRESCRIBING INFORMATION

1 INDICATIONS AND USAGE

QWO is indicated for the treatment of moderate to severe cellulite in the buttocks of adult women.

2 DOSAGE AND ADMINISTRATION

2.1 Dosage

QWO is injected subcutaneously at a dose of 0.84 mg per treatment area.

- A treatment area is defined as a single buttock receiving up to 12 injections, 0.3 mL each (up to a total of 3.6 mL), of QWO.
- A treatment visit may consist of up to 2 treatment areas.

Treatment should be repeated every 21 days for 3 treatment visits.

2.2 Reconstitution of Lyophilized Powder

Before reconstitution, remove the vials from the refrigerator and let stand at room temperature for at least 15 minutes. Inspect the vials containing QWO. The cake of lyophilized powder should be white in color and intact, showing no signs of erosion. The diluent should be a colorless solution, free of particulate matter.

After removal of the flip-off cap from the vial(s), using aseptic technique swab the rubber stopper and surrounding surface of the vial(s) containing QWO and diluent with sterile alcohol (no other antiseptics should be used).

Use only the supplied diluent for the reconstitution of QWO.

Using an appropriate sized syringe and needle (not supplied), withdraw the amount of supplied diluent based on the number of injection sites (see Table 1).

Table 1: Reconstitution Instructions for QWO

	Single Treatment Area	Two Treatment Areas
Collagenase clostridium histolyticum-aas (mg)	0.92	1.84
Volume of diluent (mL)	4	8
Concentration after reconstitution (mg/mL)	0.23	0.23
Number of treatment areas	1	2

Inject the diluent slowly into the sides of the vial containing the lyophilized powder of QWO. Do not invert the vial or shake the solution. Slowly swirl the solution to ensure that all of the lyophilized powder has gone into solution.

The reconstituted QWO solution in the vial can be kept at room temperature (20°C to 25°C/68°F to 77°F) for up to 8 hours or refrigerated at 2°C to 8°C (36°F to 46°F) for up to 72 hours prior to administration. If the reconstituted QWO solution in the vial is refrigerated, allow this solution to return to room temperature for approximately 15 minutes before use.

The reconstituted QWO solution should be clear, colorless and free of particulate matter. Inspect the solution visually for particulate matter or discoloration prior to administration. If the reconstituted QWO is not a clear, colorless solution essentially free of particulate matter, do not inject it.

Discard the syringe(s) and needle(s) used for reconstitution and the diluent vial(s).

After reconstitution, QWO solution in the vial should be used for only one injection session and for only one patient.

2.3 Administration

Preparation of Syringes for Injection

Using 1-mL syringes with removable needles (not supplied), draw up 0.9 mL of the reconstituted solution into each syringe. See Table 2 for the appropriate number of syringes needed based on the number of injection sites. After the syringes are prepared, pull the solution remaining in the needles into the barrels of the syringe and then replace the needle with a 30-gauge 1/2-inch needle. Administer reconstituted solution prepared in 1-mL syringes immediately. Do not store reconstituted solution in the 1-mL syringes.

Table 2: Preparation Instructions for QWO

	Single Treatment Visit	Two Treatment Visit
Number of 1-mL syringes	4	8
Volume per syringe (mL)	0.9	0.9
Amount of collagenase clostridium histolyticum-aaes per syringe (mg)	0.21	0.21
Total injection volume (mL) in prepared syringes	3.6	7.2
Total injection amount of collagenase clostridium histolyticum-aaes (mg) in prepared syringes	0.84	1.68

Injection Technique

Mark the injection sites while the patient is standing. Inject QWO subcutaneously while the patient is in a prone position. Each injection of QWO should be administered as three 0.1-mL aliquots to positions A, B, and C (for a total injection volume of 0.3 mL) as shown in the following figure. The depth of the injection should be 0.5 inches (corresponding to the length of the needle) without downward pressure.

Needle Tip Position A: Position the needle at 90° angle perpendicular to the skin surface at the injection site and inject one 0.1-mL aliquot by gently pushing on the syringe plunger.

Needle Tip Position B: Withdraw the needle slightly (but not so much as to remove from the injection site) and reposition approximately 45° (but not more than 45°) and inject one 0.1-mL aliquot (towards head).

Needle Tip Position C: Withdraw the needle slightly (but not so much as to remove from the injection site) and reposition approximately 45° (but not more than 45°) and inject one 0.1-mL aliquot, (towards foot).

Withdraw needle from the skin completely and move to the next identified injection site. Each treatment area may receive up to 12 injections. After treatment the patient should remain prone for at least 5 minutes.

Do not store, pool, or use any vials or syringes containing unused reconstituted solution after administration. Discard any unused portions.

3 DOSAGE FORMS AND STRENGTHS

For injection: 0.92 mg or 1.84 mg of collagenase clostridium histolyticum-aaes as a lyophilized powder (appearing as a white cake) in single-dose vials.

4 CONTRAINDICATIONS

QWO is contraindicated in:

- patients with a history of hypersensitivity to collagenase or to any of the excipients [see *Warnings and Precautions* (5.1)].
- the presence of infection at the injection sites.

5 WARNINGS AND PRECAUTIONS

5.1 Hypersensitivity Reactions

Serious hypersensitivity reactions including anaphylaxis have been reported with the use of collagenase clostridium histolyticum. If such a reaction occurs, further injection of QWO should be discontinued and appropriate medical therapy immediately instituted.

5.2 Injection Site Bruising

In clinical trials, 84% of subjects treated with QWO experienced injection site bruising [see *Adverse Reactions* (6.1)]. Subjects with coagulation disorders or using anticoagulant or

antiplatelet medications (except those taking ≤ 150 mg aspirin daily) were excluded from participating in Trials 1 and 2.

QWO should be used with caution in patients with bleeding abnormalities or who are currently being treated with antiplatelet (except those taking ≤ 150 mg aspirin daily) or anticoagulant therapy.

5.3 Substitution of Collagenase Products

QWO must not be substituted with other injectable collagenase products. QWO is not intended for the treatment of Peyronie's Disease or Dupuytren's Contracture

6 ADVERSE REACTIONS

The following adverse reactions to QWO for injection are discussed in greater detail in other sections of the labeling:

- Hypersensitivity [*see Contraindications (4) and Warnings and Precautions (5.1)*].
- Injection Site Bruising [*see Warnings and Precautions (5.2)*].

6.1 Clinical Trials Experience

Because clinical trials are conducted under widely varying conditions, the adverse reaction rates observed in the clinical trials of a drug cannot be directly compared to rates in the clinical trials of another drug and may not reflect the rates observed in clinical practice.

In two double-blind, placebo-controlled clinical trials (Trials 1 and 2) of identical design, 424 female subjects with cellulite in the buttocks received QWO and 419 female subjects with cellulite received placebo. Enrolled subjects were adults age 18 to 78 years with moderate to severe cellulite (graded as 3 or 4 on a 0 to 4 scale) and without excessive skin laxity. The majority were White (78%) or African American (18%). Subjects completed up to 3 treatment visits separated by 21 days and were followed for up to 6 months after the last treatment visit in a separate open-label extension trial (Trial 3).

Table 3 shows the incidence of adverse reactions that were reported in $\geq 1\%$ of subjects who received QWO-and at a frequency greater than subjects who received placebo in Trials 1 and 2 through Day 71. Generally, adverse reactions had a duration of less than 21 days.

Table 3: Adverse Reactions Occurring in $\geq 1\%$ of Subjects in Trials 1 and 2 Through Day 71

Adverse Reactions at Injection Site	QWO N=424 %	Placebo N=419 %
Bruising	84	21
Pain	48	10
Nodule	33	1
Pruritus	15	1
Erythema	9	5
Discoloration	8	1
Swelling	8	1
Warmth	3	0

Pooled terms:

- Bruising - injection site bruising, injection site hematoma, and injection site hemorrhage (refers to verbatim term injection site ecchymosis)
- Pain - injection site pain, injection site discomfort, and injection site dysesthesia
- Swelling - injection site swelling, injection site edema, injection site induration
- Discoloration - injection site discoloration
- Nodule- injection site mass and injection site nodule

Four hundred seventy-nine (479) subjects from Trials 1 and 2 completed a 6-month observation phase in the ongoing open-label safety extension (Trial 3). No long-term safety signals have been identified.

6.2 Immunogenicity

As with all therapeutic proteins, there is potential for immunogenicity. The detection of antibody formation is highly dependent on the sensitivity and specificity of the assay. Additionally, the observed incidence of antibody (including neutralizing antibody) positivity in an assay may be influenced by several factors including assay methodology, sample handling, timing of sample collection, concomitant medications, and underlying disease. For these reasons, comparison of the incidence of antibodies in the studies described below with the incidence of antibodies in other studies or to other products, including other collagenase clostridium histolyticum products, may be misleading.

By Day 22, approximately 53% (203/383) and 26% (101/383) of subjects who completed the first treatment visit of QWO at the recommended dose in Trials 1 and 2 developed anti-AUX-I and anti-AUX-II antibodies, respectively. The majority ($> 96\%$) of subjects developed antibodies for AUX-I and AUX-II after second and third treatment visits. Antibody titers suggested that antibodies were retained for up to 360 days after receiving the first recommended dose. By Day 71, approximately 68% and 83% of subjects developed antibodies to AUX-I and AUX-II which were classified as neutralizing, respectively.

Antibodies to AUX-I and AUX-II including those classified as neutralizing were not associated with changes in clinical response or adverse reactions at injection site.

6.3 Postmarketing Experience

Because adverse reactions are reported voluntarily from a population of uncertain size, it is not always possible to reliably estimate their frequency or establish a causal relationship to drug exposure. The following adverse reaction was reported during post approval use of a collagenase product:

Immune system disorders: serious hypersensitivity reactions including anaphylaxis[*see Warnings and Precautions (5.1)*].

8 USE IN SPECIFIC POPULATIONS

8.1 Pregnancy

Risk Summary

There are no available data on collagenase clostridium histolyticum use in pregnant women to evaluate for a drug- associated risk of major birth defects, miscarriage or adverse maternal or fetal outcomes. Following subcutaneous injection, the systemic concentrations for QWO were below the bioanalytical assay limit of quantification [*see Clinical Pharmacology (12.3)*].

In animal reproduction studies, intravenous administration of collagenase clostridium histolyticum to pregnant rats during organogenesis at doses up to 0.13 mg/rat (43 × human equivalent dose [HED] on a mg/kg basis) revealed no evidence of harm to the fetus.

The estimated background risk of major birth defects and miscarriage for the indicated population is unknown. All pregnancies have a background risk of birth defect, loss, or other adverse outcomes. In the US general population, the estimated background risk of major birth defects and miscarriage in clinically recognized pregnancies is 2-4% and 15-20%, respectively.

8.2 Lactation

Risk Summary

There are no data on the presence of collagenase clostridium histolyticum in human milk, the effects of collagenase clostridium histolyticum on the breastfed child or on milk production. Following subcutaneous injection, the systemic concentrations for QWO were below the bioanalytical assay limit of quantification [*see Clinical Pharmacology (12.3)*]. The developmental and health benefits of breastfeeding should be considered along with the mother's clinical need for collagenase clostridium histolyticum and any potential adverse effects on the breastfed child from collagenase clostridium histolyticum, or from the underlying maternal condition.

8.4 Pediatric Use

The safety and effectiveness of QWO have not been established in pediatric patients.

8.5 Geriatric Use

In two double-blind, placebo-controlled, clinical trials in subjects with cellulite (Trials 1 and 2), 24 (5.7%) of the 424 subjects who received QWO were 65 years of age or older. No overall differences in safety of QWO were observed between these patients and younger patients.

11 DESCRIPTION

Collagenase clostridium histolyticum-aaes is a combination of bacterial collagenases AUX-I and AUX-II, in an approximate 1:1 mass ratio, which are isolated and purified from the fermentation of *Clostridium histolyticum* bacteria.

Collagenase AUX-I is a single polypeptide chain consisting of approximately 1000 amino acids. It has an observed molecular weight of 114 kiloDaltons (kDa). It belongs to the class I *Clostridium histolyticum* collagenases.

Collagenase AUX-II is a single polypeptide chain consisting of approximately 1000 amino acids. It has an observed molecular weight of 113 kDa. It belongs to the class II *Clostridium histolyticum* collagenases.

QWO (collagenase clostridium histolyticum-aaes) for injection is supplied as a sterile, preservative-free, lyophilized powder (appearing as a white cake) in single-dose vials for subcutaneous use after reconstitution with the Diluent for QWO.

Each QWO 0.92-mg single-dose vial contains 0.92 mg of collagenase clostridium histolyticum-aaes and mannitol (37.7 mg), sucrose (18.9 mg), tromethamine (1.1 mg), and hydrochloric acid as needed to adjust pH. Reconstitution with 4 mL of supplied Diluent for QWO yields a solution containing 0.23 mg/mL collagenase clostridium histolyticum-aaes at a pH of approximately 8.0.

Each QWO 1.84-mg single-dose vial contains 1.84 mg of collagenase clostridium histolyticum-aaes and mannitol (75.4 mg), sucrose (37.8 mg), tromethamine (2.2 mg), and hydrochloric acid as needed to adjust pH. Reconstitution with 8 mL of supplied Diluent for QWO yields a solution containing 0.23 mg/mL collagenase clostridium histolyticum-aaes at a pH of approximately 8.0.

Diluent for QWO is a sterile, preservative-free, colorless solution in a single-dose vial containing either 4 mL or 8 mL of 0.03% calcium chloride dihydrate in 0.6% sodium chloride, and Water for Injection, USP.

12 CLINICAL PHARMACOLOGY

12.1 Mechanism of Action

Collagenases are proteinases that hydrolyze collagen in its native triple helical conformation under physiological conditions. The exact mechanism for the treatment of moderate to severe cellulite is unknown.

12.2 Pharmacodynamics

Pharmacodynamics of QWO are unknown.

12.3 Pharmacokinetics

Pharmacokinetics of collagenases clostridium histolyticum were evaluated in 140 female subjects with cellulite in four clinical trials. Plasma concentrations of clostridium type I collagenase (AUX-I) and clostridium type II collagenase (AUX-II) were below the lower limit of quantitation of 5 ng/mL and 25 ng/mL, respectively, in all subjects that received a single dose of (QWO) up to 3.36 mg in up to 4 treatment areas (up to 0.84 mg per treatment area).

13 NONCLINICAL TOXICOLOGY

13.1 Carcinogenesis, Mutagenesis, Impairment of Fertility

Long-term animal studies to evaluate the carcinogenic potential of collagenase clostridium histolyticum have not been conducted.

Purified collagenase clostridium histolyticum was not mutagenic in *Salmonella typhimurium* (Ames test) and was not clastogenic in both an in vivo mouse micronucleus assay and an in vitro chromosomal aberration assay in human lymphocytes.

Collagenase clostridium histolyticum did not impair fertility and early embryonic development when administered intravenously to rats at doses up to 0.13 mg/rat ($43 \times$ HED on a mg/kg basis).

14 CLINICAL STUDIES

Two randomized, multicenter, double-blind, placebo-controlled trials, Trial 1 and Trial 2, of identical design were conducted to evaluate safety and efficacy of QWO for the treatment of cellulite in adult women. Eligible subjects had cellulite severity in both buttocks of moderate (3) to severe (4) as evaluated on 5-level scales (0=none; 4=severe) by both the subject, using the Patient Reported Photonumeric Cellulite Severity Scale (PR-PCSS), and the investigator, using the Clinician Reported Photonumeric Cellulite Severity Scale (CR-PCSS).

A dose of 0.84 mg of QWO per buttock was administered as 12 subcutaneous injections (0.3-mL injection administered as three 0.1-mL aliquots per injection) in each of 2 buttocks for a total dose of 1.68 mg and a total volume of 7.2 mL (3.6 mL per buttock) per treatment visit. There were 3 treatment visits at 21-day intervals.

In Trials 1 and 2, the primary efficacy endpoint was the proportion of 2-level multi-component responders at Day 71 post randomization. A 2-level multi-component responder was defined as having an improvement of at least 2 levels of cellulite severity from baseline on both the CR-PCSS and the PR-PCSS in the target buttock.

Patient satisfaction with the appearance of their cellulite was assessed using a patient reported outcome scale ranging from 0 (extremely dissatisfied) to 6 (extremely satisfied).

The mean age was 47 years with a mean BMI of 31 kg/m². All of the subjects were female, and most were White (78%). At baseline, 61% subjects had investigator reported cellulite severity (CR-PCSS) scores of moderate and 39% subjects had cellulite severity scores of severe.

Reductions in cellulite severity were observed more frequently in the QWO group compared to the placebo group as measured by the investigator (CR-PCSS) and patient (PR-PCSS) scales at Day 71 (Table 4).

Table 4: Subject/Investigator 2-Level Responder Analysis at Day 71

	Trial 1			Trial 2		
	QWO N=210	Placebo N=213	Adj Trt Diff (95% CI)	QWO N=214	Placebo N=206	Adj Trt Diff (95% CI)
2-level multi-component responder	16 (8%)	4 (2%)	6% (2%, 10%)	12 (6%)	1 (< 1%)	5% (2%, 8%)
2-level PR-PCSS responder	51 (24%)	26 (12%)	12% (5%, 19%)	45 (21%)	12 (6%)	15% (9%, 22%)
2-level CR-PCSS responder	35 (17%)	12 (6%)	11% (5%, 17%)	32 (15%)	3 (1%)	13% (8%, 19%)

Adj Trt Diff=Adjusted treatment difference; CI=Confidence interval

Non-responder imputation used to handle missing data. Adjusted treatment difference is the weighted average of the treatment differences in response percentages across the analysis centers using Cochran-Mantel-Haenszel (CMH) weights along with the associated CI.

In Trials 1 and 2, the measure of patient-reported satisfaction with cellulite appearance showed a greater improvement in the QWO group over the placebo group.

Hi Maria,

As Chris Thomas is unable to serve as the DR since he is also the DR for Par Sterile Products, LLC. The Designated Representative would then be **Delisa Wedderburn**. Please advise if you need any information about Delisa.

I've also attached a surety bond and bond rider for Endo Aesthetics LLC.

Please let me know if you need any additional documentation.

Thank you...stay safe and be well!

STATE OF COLORADO**

Case No. 2009-2786

STIPULATION AND FINAL AGENCY ORDER

**IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE LICENSE
TO PRACTICE AS A OUT-OF-STATE WHOLESALER IN THE STATE OF COLORADO
OF GILEAD SCIENCES, INC.,**

Wholesaler Applicant.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Gilead Sciences, Inc. ("Wholesaler Applicant") to resolve all matters pertaining to Board Case Number 2009-2786 as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Wholesaler Applicant, its application for registration as an out-of-state wholesaler and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S.
2. Wholesaler Applicant admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.
3. On December 1, 2008, Wholesaler Applicant distributed prescription drugs into Colorado without having first registered as an out-of-state wholesaler in the State of Colorado.
4. Wholesaler Applicant's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes:

Colorado Revised Statutes

12-22-125. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(I) Any of the provisions of this part 1, including but not limited to any acts in section 12-22-126;

(II) The lawful rules of the board; or

(III) Any state or federal law pertaining to drugs.

12-22-125.2. Disciplinary actions. (1) The board may deny or discipline an applicant, licensee, or registrant when the board determines that such applicant, licensee, or registrant has engaged in activities that are grounds for discipline.

* * *

12-22-802. Wholesaler license requirements. (1) A wholesaler that resides in this state shall be licensed by the board. A wholesaler that does not reside in this state shall be licensed in this state prior to engaging in the wholesale distribution of prescription drugs in this state. The board shall exempt a manufacturer and that manufacturer's third-party logistics providers to the extent involving that manufacturer's drugs under contract from any licensing qualifications and other requirements, including the requirements in subparagraphs (VI) and (VII) of paragraph (a) of subsection (3) of this section, subsections (4) to (6) of this section, and section 12-22-803, to the extent the requirements are not required by federal law or regulation, unless the particular requirements are deemed necessary and appropriate following rulemaking by the board.

* * *

5. On January 23, 2009, Wholesaler Applicant submitted an out-of-state wholesaler application, which application was denied by the Board.
6. The Board finds and concludes, and Wholesaler Applicant agrees, that based upon Wholesaler Applicant's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances as a condition of its registration as an out-of-state wholesaler.

DISPOSITION

**Conditional Registration;
\$5,000.00 Fine and Terms**

7. **Conditional Registration.** Wholesaler Applicant shall be granted a registration as an out-of-state wholesaler upon execution of this Final Agency Order and satisfaction of the terms and conditions set forth herein.

8. **Fine with Surcharge.** Wholesaler Applicant accepts the following discipline: Pursuant to §12-22-125.2(5), C.R.S., Wholesaler Applicant shall pay a fine of Five Thousand Dollars and No Cents (\$5,000.00). Wholesaler Applicant understands and acknowledges, pursuant to §24-34-108, C.R.S., that the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 15% of this fine. Wholesaler Applicant shall therefore pay a total amount of Five Thousand, Seven Hundred Fifty Dollars and No Cents (\$5,750.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Wholesaler Applicant submits this signed Final Agency Order to the Board.
9. **Compliance.** Wholesaler Applicant shall at all times remain in compliance with §§12-22-801, *et seq.* C.R.S. and shall not at any time distribute prescription drugs into Colorado without being registered as an out-of-state wholesaler in the State of Colorado at the time of distribution.
10. **Advisements and Waivers.** Wholesaler Applicant enters into this Final Agency Order freely and voluntarily, whether or not Wholesaler Applicant has consulted with legal counsel. Wholesaler Applicant acknowledges its understanding that it has the following rights:
- a. To have a formal notice of hearing and charges served upon it;
 - b. To respond to said formal notice of charges;
 - c. To have a formal disciplinary hearing pursuant to §12-22-125, C.R.S.; and
 - d. To appeal this Board order.
- Wholesaler Applicant freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for Board's limiting the action taken against it to the sanctions imposed herein.
11. **Acknowledgments.** The undersigned authorized agent of Wholesaler Applicant has read this Final Agency Order in its entirety and acknowledges, whether or not Wholesaler Applicant has consulted with legal counsel, that Wholesaler Applicant understands the legal consequences and agrees that none of the terms or conditions herein are unconscionable.
12. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Wholesaler Applicant to take all appropriate steps to comply fully with this Final Agency Order. Wholesaler Applicant acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Wholesaler Applicant to comply with all terms and conditions of this Final Agency Order.

13. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.
14. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.
15. **Effective Date.** This Final Agency Order shall become effective upon signature of a Board member or representative.

Dear Maria,

Thank you for your e-mail. You asked for (1) a copy of the ownership chart showing pre-closing and post-closing and (2) a copy of the disclosures, as stated on page 3 question 3 of the application. Please find below answers to your questions:

- (1) Immunomedics, Inc. was a publicly traded corporation and is now a wholly owned subsidiary of Gilead Sciences, Inc. Attached is an ownership chart.
- (2) As requested, please see explanations below and attached supporting documents related to question 3 on page 3 of the application:
 - a. **Explanation Regarding Gilead Sciences, Inc. Colorado Stipulation and Final Agency Order.** On March 6, 2009, the Colorado State Board of Pharmacy entered a Stipulation and Final Agency Order ("Order") in a disciplinary proceeding against Gilead Sciences, Inc. ("Gilead") regarding its license to practice as an out-of-state wholesaler in the state of Colorado. In that Order, the Colorado State Board of Pharmacy found that on December 1, 2008, Gilead distributed products into Colorado, prior to being licensed as a wholesaler in that state. Gilead had not previously been required to hold a license in Colorado, based on a letter from the Colorado Board of Pharmacy. When the requirement changed, Gilead was not made aware and therefore did not immediately apply for licensure in the state. The matter was identified when Gilead applied for a Colorado out-of-state wholesaler license in January 2009 and resulted in the initial denial of Gilead's application. As part of the Order, Gilead agreed to pay a \$5,000 fine and the Colorado State Board of Pharmacy granted Gilead a conditional out-of-state wholesaler license, which is still valid and in use by Gilead today. Since then, Gilead has not had any other substantive issues with respect to this license in the past 12 years.
 - b. **Explanation Regarding Gilead Sciences, Inc. Montana Stipulation and Final Order.** On July 12, 2010, the Montana Department of Labor and Industry entered a Stipulation and Final Order ("Order") in a disciplinary proceeding against Gilead Sciences, Inc. ("Gilead") regarding its license to practice as a wholesale drug distributor in the state of Montana. In that Order, the Montana Department of Labor and Industry found that on November 2, 2009, Gilead submitted a Wholesale Drug Distributor License renewal form signed by the new person-in-charge for the license but had not notified the Montana Board of Pharmacy of this new person-in-charge. Gilead was not aware that a notification needed to be sent when there was a change in person-in-charge. As part of the Order, Gilead agreed to pay a \$1,500 administrative fine to the Montana Board of Pharmacy and to timely submit changes related to the person-in-charge to the Board of Pharmacy, in alignment with applicable Montana law. Gilead currently holds an active Wholesale Drug Distributor License in Montana. Since then, Gilead has not had any other substantive issues with respect to this license in the past 11 years.

Laurie

For information about our product revenues, including the amount of revenue contributed by each of the products listed above for each of the last three fiscal years, see Note 2. Revenues of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this Annual Report on Form 10-K.

Commercialization and Distribution

We have U.S. and international commercial sales operations, with marketing subsidiaries in more than 35 countries. Our products are marketed through our commercial teams and/or in conjunction with third-party distributors and corporate partners. Our commercial teams promote our products through direct field contact with physicians, hospitals, clinics and other healthcare providers. We generally grant our third-party distributors the exclusive right to promote our product in a territory for a specified period of time. Most of our agreements with these distributors provide for collaborative efforts between the distributor and Gilead in obtaining and maintaining regulatory approval for the product in the specified territory.

We sell and distribute most of our products in the United States exclusively through the wholesale channel. Our product sales to three large wholesalers, AmerisourceBergen Corporation, Cardinal Health, Inc. and McKesson Corporation, each accounted for more than 10% of total revenues for each of the years ended December 31, 2019, 2018 and 2017. On a combined basis, in 2019, these wholesalers accounted for approximately 87% of our product sales in the United States and approximately 64% of our total worldwide revenues. We sell and distribute our products in Europe and countries outside the United States where the product is approved, either through our commercial teams, third-party distributors or corporate partners.

Competition

We operate in a highly competitive environment. We face significant competition from global pharmaceutical and biotechnology companies, specialized pharmaceutical firms and generic drug manufacturers. Our products compete with other commercially available products based primarily on efficacy, safety, tolerability, acceptance by doctors, ease of patient compliance, ease of use, price, insurance and other reimbursement coverage, distribution and marketing. As our products mature, private insurers and government payers often reduce the amount they will reimburse patients, which increases pressure on us to reduce prices. Further, as new branded or generic products are introduced into major markets, our ability to maintain pricing and market share may be affected. For a description of our competitors, see Item 1A. Risk Factors "We face significant competition."

Research and Development

Our research and development (R&D) philosophy and strategy are to develop best-in-class drugs that improve safety or efficacy for unmet medical needs. We intend to continue committing significant resources to internal R&D opportunities and external business development activity.

Our product development efforts are focused primarily in viral diseases, inflammatory and fibrotic diseases and oncology. We have research scientists engaged in the discovery and development of new molecules and technologies that we hope will lead to the approval of new medicines that will advance the current standard of care and address unmet medical needs.

The development of our product candidates is subject to various risks and uncertainties. These risks and uncertainties include our ability to enroll patients in clinical trials, the possibility of unfavorable results of our clinical trials, the need to modify or delay our clinical trials or to perform additional trials and the risk of failing to obtain regulatory approvals. As a result, our product candidates may never be successfully commercialized. Drug development is inherently risky and many product candidates fail during the drug development process.

In 2019, we continued to invest in and advance our R&D pipeline across our therapeutic areas. At the end of 2019, our R&D pipeline included 104 active clinical studies, of which 27 were Phase 3 clinical trials.

Below is a summary of our key product candidates and their corresponding current stages of development.

Patent Protection and Certain Challenges

Patents and other proprietary rights are very important to our business. If we have a properly drafted and enforceable patent, it can be more difficult for our competitors to use our technology to create competitive products and more difficult for our competitors to obtain a patent that prevents us from using technology we create. As part of our business strategy, we actively seek patent protection both in the United States and internationally and file additional patent applications, when appropriate, to cover improvements in our compounds, products and technology.

Patents covering certain of the active pharmaceutical ingredients (API) of most of our HIV products as well as Yescarta are held by third parties. We acquired exclusive rights to these patents in the agreements we have with these parties.

We may obtain patents for certain products many years before marketing approval is obtained. Because patents have a limited life that may begin to run prior to the commercial sale of the related product, the commercial value of the patent may be limited. However, we may be able to apply for patent term extensions or supplementary protection certificates in some countries. For example, extensions for the patents or supplementary protection certificates on many of our products have been granted in the United States and in a number of European countries, compensating in part for delays in obtaining marketing approval. Similar patent term extensions may be available for other products we are developing, but we cannot be certain we will obtain them in some countries.

It is also important that we do not infringe the valid patents of third parties. If we infringe the valid patents of third parties, our reputation may be harmed and we may be required to pay significant monetary damages, we may be prevented from commercializing products or we may be required to obtain licenses from these third parties. We may not be able to obtain alternative technologies or any required license on reasonable terms or at all. If we fail to obtain these licenses or alternative technologies, we may be unable to develop or commercialize some or all of our products. For example, we are aware of patents and patent

applications owned by other parties that such parties may claim to cover the use of sofosbuvir, axicabtagene ciloleucel and bictegrovir.

Because patent applications are confidential for a period of time until a patent is issued, we may not know if our competitors have filed patent applications for technology covered by our pending applications or if we were the first to invent or first to file an application directed toward the technology that is the subject of our patent applications. Competitors may have filed patent applications or received patents and may obtain additional patents and proprietary rights that block or compete with our products. In addition, if competitors file patent applications covering our technology, we may have to participate in interference/derivation proceedings or litigation to determine the right to a patent. Litigation and interference/derivation proceedings are unpredictable and expensive, such that, even if we are ultimately successful, our results of operations may be adversely affected by such events.

Patents relating to pharmaceutical, biopharmaceutical and biotechnology products, compounds and processes such as those that cover our existing compounds, products and processes and those that we will likely file in the future, do not always provide complete or adequate protection. Future litigation or other proceedings regarding the enforcement or validity of our existing patents or any future patents could result in the invalidation of our patents or substantially reduce their protection. From time to time, certain individuals or entities may challenge our patents.

Our pending patent applications and the patent applications filed by our collaborative partners may not result in the issuance of any patents or may result in patents that do not provide adequate protection. As a result, we may not be able to prevent third parties from developing compounds or products that are closely related to those which we have developed or are developing. In addition, certain countries do not provide effective enforcement of our patents, and third-party manufacturers may be able to sell generic versions of our products in those countries.

For a description of our significant pending legal proceedings, see Note 14. Commitments and Contingencies - Legal Proceedings of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this Annual Report on Form 10-K.

Trade Secrets

We also rely on unpatented trade secrets and improvements, unpatented internal know-how and technological innovation. For example, a great deal of our liposomal manufacturing expertise, which is a key component of our liposomal technology, is not covered by patents but is instead protected as a trade secret. We protect these rights mainly through confidentiality agreements with our corporate partners, employees, consultants and vendors. These agreements provide that all confidential information developed or made known to an individual during the course of their relationship with us will be kept confidential and will not be used or disclosed to third parties except in specified circumstances. In the case of employees, the agreements provide that all inventions made by an individual while employed by us will be our exclusive property. We cannot be certain that these parties will comply with these confidentiality agreements, that we have adequate remedies for any breach or that our trade secrets will not otherwise become known or be independently discovered by our competitors. Under some of our R&D agreements, inventions become jointly owned by us and our corporate partners and in other cases become the exclusive property of one party. In certain circumstances, it can be difficult to determine who owns a particular invention and disputes could arise regarding those inventions. If our trade secrets or confidential information become known or independently discovered by competitors, or if we enter into disputes over ownership of inventions, our business and results of operations could be adversely affected.

Manufacturing and Raw Materials

Our products are manufactured either at our own facilities or by third-party contract manufacturers. We depend on third parties to perform manufacturing activities for the majority of our API and drug products. For most of our products, including our HIV and HCV products, we use multiple third-party contract manufacturers so that we have primary and back-up suppliers and manufacturing sites. For Yescarta, we have established clinical and commercial manufacturing facilities for cell processing activities. For our future products, we continue to develop additional manufacturing capabilities and establish additional third-party suppliers to manufacture sufficient quantities of our product candidates to undertake clinical trials and to manufacture sufficient quantities of any product that is approved for commercial sale.

Our Manufacturing Facilities

We own or lease manufacturing facilities to manufacture and distribute certain products and API for clinical and/or commercial uses. These facilities are located in Foster City, San Dimas, La Verne, Oceanside and El Segundo, California; Dublin and Cork, Ireland; Hoofddorp, Netherlands; and Edmonton, Canada.

- Foster City, California: We conduct process chemistry research and formulation development activities, manufacture API and drug product for our clinical trials and oversee our third-party contract manufacturers.
- San Dimas and La Verne, California: We manufacture AmBisome and also package and label the majority of our commercial products for distribution to the Americas and Pacific Rim.
- Oceanside, California: We utilize the facility for clinical manufacturing and process development of our biologics candidates.

This Amendment No. 5 (this "Amendment") amends and supplements the Tender Offer Statement on Schedule TO filed by Maui Merger Sub, Inc., a Delaware corporation ("Purchaser"), and Gilead Sciences, Inc., a Delaware corporation ("Parent"), with the U.S. Securities and Exchange Commission on September 24, 2020 (together with any subsequent amendments and supplements thereto, the "Schedule TO"). The Schedule TO relates to the offer by Purchaser to purchase all outstanding shares of common stock, \$0.01 par value per share ("Shares"), of Immunomedics, Inc., a Delaware corporation ("Immunomedics"), at a price of \$88.00 per Share, net to the holder in cash, without interest and subject to any withholding of taxes, upon the terms and subject to the conditions described in the Offer to Purchase dated September 24, 2020 (together with any amendments or supplements thereto, the "Offer to Purchase") and in the accompanying Letter of Transmittal (together with any amendments or supplements thereto and with the Offer to Purchase, the "Offer"), which are annexed to and filed with the Schedule TO as Exhibits (a)(1)(A) and (a)(1)(B), respectively. Purchaser is a wholly owned subsidiary of Parent. This Amendment is being filed on behalf of Parent and Purchaser. Unless otherwise indicated, references to sections in the Schedule TO are references to sections of the Offer to Purchase.

Except as otherwise set forth in this Amendment, the information set forth in the Schedule TO remains unchanged and is incorporated herein by reference to the extent relevant to the items in this Amendment. Capitalized terms used but not defined herein have the meanings ascribed to them in the Schedule TO.

Items 1 through 9 and Item 11.

The information set forth in the Offer to Purchase and Items 1 through 9 and Item 11 of the Schedule TO, to the extent such Items incorporate by reference the information contained in the Offer to Purchase, are hereby amended and supplemented as follows:

"The Offer expired at one minute after 11:59 p.m., Eastern Time, on October 22, 2020. The Depositary advised Purchaser that, as of the expiration of the Offer, a total of 188,227,162 Shares (excluding Shares with respect to which Notices of Guaranteed Delivery were delivered) were validly tendered and not validly withdrawn, representing approximately 81.38% of the Shares outstanding as of the expiration of the Offer. In addition, the Depositary advised Purchaser that Notices of Guaranteed Delivery have been delivered with respect to 12,451,797 additional Shares, representing approximately 5.38% of the outstanding Shares as of the expiration of the Offer.

As of the expiration of the Offer, the number of Shares validly tendered and not validly withdrawn pursuant to the Offer satisfied the Minimum Tender Condition, and all other conditions to the Offer were satisfied or waived. Immediately after the expiration of the Offer, Purchaser irrevocably accepted for payment, and will promptly (and in any event within three business days) pay for, all Shares tendered and not validly withdrawn pursuant to the Offer.

Parent and Purchaser expect to complete the acquisition of Immunomedics on October 23, 2020 by consummating the Merger pursuant to the Merger Agreement without a vote of the Immunomedics shareholders in accordance with Section 251(h) of the DGCL. At the effective time of the Merger, each outstanding Share (other than (i) Shares held by Immunomedics (or held in the treasury of Immunomedics), (ii) Shares held by Parent, Purchaser or any other direct or indirect wholly owned subsidiary of Parent and (iii) Shares held by stockholders who are entitled to appraisal rights under Section 262 of the DGCL and have properly exercised and perfected their respective demands for appraisal of such Shares in the time and manner provided in Section 262 of the DGCL and, as of the effective time of the Merger, have neither effectively withdrawn nor lost their rights to such appraisal and payment under the DGCL) will be converted into the right to receive \$88.00, in cash, without interest.

Following consummation of the Merger, the Shares will be delisted and will cease to trade on the NASDAQ Global Market. Parent and Purchaser intend to take steps to cause the termination of the registration of the Shares under the Exchange Act and suspend all of Immunomedics' reporting obligations under the Exchange Act as promptly as practicable."

Notice of Intent to Impose Penalty for Noncompliance Pursuant to NRS 439B.635

To Whom it May Concern:

YOU ARE HEREBY NOTIFIED that the Nevada DEPARTMENT OF HEALTH AND HUMAN SERVICES (DHHS) intends to impose a penalty of \$800,000 for failing to report as required by NRS 439B.635. Please submit a complete report as outlined in <http://drugtransparency.nv.gov>; an explanation of why your organization should not have to report; or an estimated date for the submission of the report. Failure to submit a report may result in notice of additional administrative penalties.

Statutory or Regulatory Authority

Nevada Revised Statutes (NRS) 439B.635 requires manufacturers that produce essential diabetes or asthma drugs defined by the Nevada Department of Health and Human Services (DHHS) to submit information to DHHS. Additionally, if a drug on the Essential Drug List had a significant price increase as outlined in NRS 439B.640, manufacturers are also required to submit a report describing the reasons for the increase in price. NRS 439B.695 gives DHHS the authority to impose a penalty of \$5,000 per day to drug manufacturers for failure to comply with these requirements.

Facts Supporting the Penalty

Your organization is identified on the 2020 Essential Drug List published Feb. 1, 2020. The 2020 list of drugs for which you are responsible to report along with templates and instructions can be found at <http://drugtransparency.nv.gov>.

Your organization failed to submit the report that was initially due on April 1, 2020. DHHS extended the deadline to April 16, 2020 due to the worldwide response to the COVID-19 pandemic. As of the date of this notice, a report has not been received. Based on your organization's noncompliance for 160 days, your organization could be assessed a penalty of up to \$800,000.

Other Circumstances Considered

Your organization is included on the 2020 Essential Diabetes and Asthma Drug List because an essential medication was identified and the organizations has a Medicaid claim in Nevada. Additionally, DHHS contacted your organization regarding the required reporting via email on April 21, 2020.

Notice of Right to Appeal

Your organization may appeal this penalty within 15 business days of the date of this letter. Submit any appeal to the Director at the following address: drugtransparency@dhhs.nv.gov

Enclosed please find LCB File No. R121-20 for proposed hearing process for an appeal.

Effective Date of Administrative Penalty

If your organization does not appeal this penalty it is effective 15 business days after the date of this notice which was mailed to the last known address and e-mailed to the last known e-mail address of your organization.

For questions please contact the drug transparency program at 775-684-4255 or drugtransparency@dhhs.nv.gov

Sincerely,

Richard Whitley, MS

8. Testimony may be presented in statement or question and answer form.

9. Good cause appearing, hearings may be continued beyond the period originally scheduled or recessed until a future date agreeable to the hearing officer and the parties.

10. Witnesses may be subpoenaed by either party to the hearing and shall receive the fees and mileage allowed a witness in a civil case.

11. A record of the proceedings must be kept but need not be transcribed unless the decision is appealed or a transcript is requested by an interested party, who shall bear the cost of transcription.

If a party fails to appear at a hearing scheduled by the hearing officer and no continuance has been granted, the hearing officer may hear the evidence and proceed to consider the matter and dispose of it on the basis of the evidence before the hearing officer. If the appellant fails to appear at the hearing and fails to reply to the notice, the allegations in the notice of intent to impose administrative penalty are presumed to be true.

2. With the approval of the hearing officer, the parties may stipulate as to any fact at issue, either by a written stipulation introduced in evidence as an exhibit or by oral statements shown upon the record. Any such stipulation is binding upon all parties so stipulating and may be regarded by the hearing officer as evidence at the hearing.

3. The hearing officer may, before or during a hearing, upon a proper showing, grant a continuance for submission of additional proof or other reasonable purpose.

Section 7

3. *The decision of a hearing officer made pursuant to the procedures set forth in section 3 to section 7, inclusive, is a final decision in a contested case. Any person aggrieved by such a decision is entitled to judicial review of the decision pursuant to NRS 233B.130*

RE: Final order

Dear Lifescience Logistics LLC,

Enclosed you will find a FINAL ORDER resulting from your hearing before the Board. While the entire order is important, I particularly direct your attention to the portion of the Order setting forth the mandatory obligation of your payment of a fine and costs. As you will see, those amounts are due within a specified period of time from the date of the Final Order and not the date of this letter. The order also states that your renewal will not be processed until the fine has been paid. Permit # 195184 renewal has already been issued so it has been placed on administrative hold until fine is paid.

If the referenced fine and costs are not received by the Board within the prescribed period of time, or special arrangements have not been made with the Secretary of the Board, additional charges will be brought against you.

Sincerely,

Wendy Passmore

FINAL ORDER

On October 16, 2018 this cause came before the Alabama State Board of Pharmacy (hereinafter also referred to as the "Board") on a Complaint against Lifescience Logistics, LLC (hereinafter also referred to as the "Respondent"). Evidence having been adduced thereon, the Board has determined that the following Findings of Fact and Conclusions of Law are supported by the preponderant weight of evidence and law.

Findings of Facts

1. The Respondent is a Wholesale Distributor which the Board issued permit number 193417 and also a Third Party Logistics facility which the Board issued permit number 195184.

2. The Respondent was notified of the charges by certified mail at the address provided to the Board by the Respondent, however, the notice was returned by the United States Postal Service with the indication "return to sender insufficient address unable to forward". (Board's Exhibits One and Two)

3. The Respondent made no objection to the timeliness of the Notice of Hearing or the specificity of the Statement of Charges.

4. The Respondent's facility is located at 1105 East Northfield Drive, Brownsburg,

Indiana 46112.

5 On April 30, 2018 the Board of Pharmacy, Department of Consumer Affairs, State of California, issued a Citation and Fine to the Respondent for failure to designate a new representative in charge for a period of four hundred and twenty-eight (428) days. (Board's Exhibit One "A").

Conclusions of Law

1. The Alabama State Board of Pharmacy has jurisdiction of this cause pursuant to Code of Alabama (1975), § 34-23-32, Code of Alabama (1975), § 34-23-32.1 , Code of Alabama (1975), § 34-23-92 (11) and (12), Code of Alabama (1975), § 41-22-12 and Board Rule 680-X-2.23.

2. The Respondent was properly notified of the charges, failed to appear, was not represented by counsel and did not contest the matter in any manner.

3. The Respondent made no objection to the timeliness of the Notice of Hearing or the specificity of the Statement of Charges.

4. The Respondent's wholesale distributor permit and third party logistics permit in the state of Alabama are due to have disciplinary sanctions imposed in that it is guilty of violating Board Rule 680-X-2.23 (3) (k) (1) and Board Rule 680-X-2.23 (3) (k) (3) and it was not qualified to possess the permits, and/or its operation was not consistent with the public safety or endangers the public health of the citizens of this state based upon violating California law relating to non-resident wholesales as set out in the Citation and Fine entered by the California State Board of Pharmacy on April 30, 2018 and/or the failure to have a licensed designated representative in charge for Four Hundred Twenty-Eight (428) days as described in the referenced Citation and Fine.

ORDER

In accordance with the foregoing Findings of Fact and Conclusions of Law, it is hereby ORDERED as follows:

1. The Respondent shall pay the Board an administrative fine of One Thousand (\$1,000.00) Dollars within thirty (30) days of the date of this Final Order and future applications for renewal shall not be granted unless said fine has been paid; and

2. Any future violations of this Order, the Alabama Pharmacy Practice Act, the laws that regulate the sale and/or dispensing of prescription or legend drugs and/or narcotics or any Rule of the Alabama State Board of Pharmacy or the pharmacy law or rules of the Board of Pharmacy of another state may, upon hearing and proof thereof, result in further disciplinary sanctions.

Case No. 2016-3687

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE NON-RESIDENT WHOLESALER REGISTRATION IN THE STATE OF COLORADO OF LIFESCIENCE LOGISTICS, REGISTRATION NO. WHO 7828,

Respondent Outlet.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and LifeScience Logistics ("Respondent Outlet") to resolve all matters pertaining to Board Case Number 2016-3687, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Outlet, its registration as a non-resident wholesaler outlet, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2016).
2. Respondent Outlet was originally registered in the State of Colorado on or about June 29, 2011, being issued registration number WHO 7828, and has been so registered at all times relevant to this disciplinary action.
3. Respondent Outlet's address of record with the Board and current location is 1105 E Northfield Dr., Ste. 300-400, Brownsburg, IN 46112.
4. Respondent Outlet admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.
5. Respondent Outlet failed to timely submit an application to the Board detailing a change in designated representative and fee. In this case, approximately 100 days transpired between November 16, 2015, the date the previous designated representative ceased the position, and February 29, 2016, the date the application and fee were received.
6. On or about July 19, 2016, the Board initiated a complaint against Respondent Outlet because of the delay of approximately 100 days in submitting an application detailing a change in designated representative and fee.

7. Respondent Outlet's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes and Board Regulations:

Colorado Revised Statutes

12-42.5-123. Unprofessional conduct – grounds for discipline.

(h) Not have any felony convictions pursuant to federal, state, or local law; and

(i) Update all of the information required in this part 3 whenever changes occur;

(6) A wholesaler shall obtain a license for each facility it uses for the distribution of prescription drugs.

Mark,

Here is the explanation for the instances in question.

In 1981 I was attending a Christmas Party at a local bar. I had recently turned 18 the month before which was the legal age back then. I drank too much free liquor and ended up getting in a fight and getting arrested. I was given Probation before Judgement and eventually got the charge expunged from my record.

In 2006 I was coming home from a Baltimore Orioles game and was pulled over as a result of having one of my lights out. The policeman who had been on the job for only two weeks approached my car asked me where I was going and where I had been. I told him I was going home and had been at an Orioles baseball game. He asked me if I had been drinking and I told him I had a couple at the game but that was a few hours ago. He got me out of the car and had me do some tests which I passed. However, I believe this was his first "arrest" and he was determined to take me in for a breathalyzer even though his more senior partner advised against it, but told him it was his choice. They screwed up the first breathalyzer test and after that I refused to take another one as I was getting irritated with the whole process and I knew I was not intoxicated. During the arrest they searched my car and found a bowl with marijuana residue in the console. I was unaware that there was a bowl in my car as it belonged to my son who mainly drove this car....Anyway, they eventually determined that the search was not done correctly and they dropped that charge. I went to court and was found not guilty of all charges.

Both of these events were very much in my past and I am now 57 yrs old. I hardly drink anymore and I never drink and drive.

Please feel free to contact me with any questions or concerns.

Thanks,

The top part of this certificate states exactly what you are asking for. I paid \$40 dollars for this.

Also please check the website below as it states the certificate of good standing and subsistence certificate are the same thing in the state of PA

Please call me to explain further if need be.

Good morning Steve,

Thank you for sending that over, please note I noticed the Certificate of Good standing you provided states that; "this Subsistence Certificate shall *not* imply that all fees, taxes and penalties owed to the Commonwealth of Pennsylvania are paid". I have provided below what I found on a website as far as a PA Certificate of Good Standing , which is what we are looking for, hope this helps.

The Certificate of Good Standing will state that your company *is duly incorporated as a Pennsylvania Corporation under the laws of the Commonwealth of Pennsylvania and remains a subsisting corporation so far as the records of this office show, as of the date herein* - and will include the laser printed State seal as well as a certification code that can be verified at their State website.

Thank you,

Maria H.

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave, Kansas City, MO 64120	FILE CLOSED 2010	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialist that monitor and ensure each of our 200+ licenses are renewed on-time. A temperature control room was also constructed at the facility to ensure product is stored at the appropriate temperature and humidity levels. These control rooms are now a standard feature at our distribution centers, and we have worked closely with VAWD throughout our distribution network to ensure that our temperature control facilities and procedures align with industry best practices.
		Medline Industries' Kansas City, MO license (#2003031660) was disciplined for failure to renew on-time and for insufficient temperature control procedures. Medline was placed on probation for 5 years. Throughout the probationary period, the state conducted multiple inspections of the facility and found Medline to be in compliance with all requirements. The probationary period closed in August 2010.	
12/7/2006	9101 Riverside Parkway, Lithia Springs, GA 30122	FILE CLOSED 2008 Medline's Florida Certified Designated Representative at our Georgia facility resigned unexpectedly. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Designated Representative was hired at the facility.	To prevent a situation like this from occurring in the future, every Medline facility licensed in FL has multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Drive, Orlando, FL 32824 401 Commerce Blvd., Oldsmar, FL 34677 4750 118th Ave N Clearwater, FL 33762	FILE CLOSED 2008 Medline Industries was cited for several violations including: failure to pass and maintain a pedigree that met Florida's specific requirements; having the wrong type of permit for activities being performed (in addition to the manufacturing permit that we had, Florida required that we also have a repacker permit); distribution of saline to an unauthorized recipient; and an Rx drug item was found at an unlicensed raw materials storage facility. Several of the violations were challenged and reduced substantially or removed during the settlement process. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required, we were fined by New York (Cal. No. 27278) for out-of-state professional misconduct. In 2010, Medline made an unrelated business decision to close the Oldsmar and Clearwater facilities.	To address the pedigree issues, Medline instituted a Florida specific pedigree system to ensure that any pedigree shipments within our distribution network with potential to end up in Florida have the required Florida specific documentation. (Note - these requirements have since been preempted by federal law). To address the issue of having the wrong permit type, Medline secured a repackaging permit, in addition to the manufacturing permit the facility already had. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx drug purchases; this procedure generates an automatic block of any Rx drug orders by an unlicensed customer in our SAP system. The Rx drug item unintentionally stored at our raw materials facility was properly disposed of, and our waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd., Gainesville, FL	FILE CLOSED 2008 Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008 (Case # 2007-37412). In 2010, Medline made an unrelated business decision to close this facility.	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, an internal auditing program was implemented to ensure that each distribution center is in compliance with internal policies and procedures, as well as state and federal regulations.
3/5/2008	149 New Camellia Blvd., Covington, LA 70433	FILE CLOSED 2008 Medline Industries' license #4318 was cited for failure to properly maintain copies of current customer licenses on site (Louisiana Administrative Docket #2008006). Medline was assessed and paid a fine. After duly notifying state authorities, as required, we were fined by New York (Cal. No. 27278) for out-of-state professional misconduct.	In addition to storing copies of our customers' licenses at headquarters, we now store these licenses digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave., Wausau, WI	FILE CLOSED 2009 Medline Industries' license (# 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing during an inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to have a dividing fence between the Medline managed portion of the facility and the hospital portion of the facility - even though all of the products were owned by the hospital. Medline was also cited for failure to access several policies and procedures during the inspection. Corrections were made and the facility was re-inspected, to the satisfaction of the state (Case #08 PHM 037). After duly notifying state authorities, as required, we were fined by the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) out-of-state professional misconduct. In 2010, Medline made an unrelated business decision to close this facility.	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the facility. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.
8/21/2008	94-1420 Moaniani St., Waipahu, Hawaii	FILE CLOSED 2013 Medline Industries' license (PWD 115) was fined \$5000 and placed on probation for 5 years for failure to report the Florida and Missouri disciplinary actions within 30 days. While Medline filed the required reports, the 30 day deadline was missed. Probationary period ended August 2013. (Case # PHA 2008-17-L)	Medline takes this oversight very seriously and we have implemented a new process to notify the required boards of any future disciplinary actions within 10 days of a final action.
3/19/2010	1401 N. Universal Ave, Kansas City, MO 64120	FILE CLOSED 2010 Medline applied for a Colorado Out of State Wholesaler license for the Missouri distribution center and was issued a conditional license by the CO Board of Pharmacy until the facility's MO probation period ended (approximately 5 months). The CO BOP was informed when the MO probationary period was completed, and subsequently removed the encumbered status of this facility's CO license.	See above for corrective actions related to the underlying sanction.
1501 Harris Rd, Libertyville, 1/6/2021 IL 60048		FILE CLOSED 2021 Medline Industries, Inc. License #01-1985050 received a fined \$250 by the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired, unbeknownst to Medline. Case No. A-2020-0054 I-2019-0972-B. The fine was paid on January 21, 2021 and the case was closed.	Medline takes this oversight very seriously. We reviewed our process and updated our guidelines for the type of license required by business in Ohio to ensure proper type of licenses applied to the customer are valid and current. The TDDD Ohio licenses are reviewed on an annual basis to ensure compliance.

Disciplinary History**

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave, Kansas City, MO 64120	FILE CLOSED 2010 Medline Industries' Kansas City, MO license (#2003031660) was disciplined for failure to renew on-time and for insufficient temperature control procedures. Medline was placed on probation for 5 years. Throughout the probationary period, the state conducted multiple inspections of the facility and found Medline to be in compliance with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialist that monitor and ensure each of our 200+ licenses are renewed on-time. A temperature control room was also constructed at the facility to ensure product is stored at the appropriate temperature and humidity levels. These control rooms are now a standard feature at our distribution centers, and we have worked closely with VAWD throughout our distribution network to ensure that our temperature control facilities and procedures align with industry best practices.
12/7/2006	9101 Riverside Parkway, Lithia Springs, GA 30122	FILE CLOSED 2008 Medline's Florida Certified Designated Representative at our Georgia facility resigned unexpectedly. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Designated Representative was hired at the facility.	To prevent a situation like this from occurring in the future, every Medline facility licensed in FL has multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Drive, Orlando, FL 32824 401 Commerce Blvd., Oldsmar, FL 34677 4750 118th Ave N Clearwater, FL 33762	FILE CLOSED 2008 Medline Industries was cited for several violations including: failure to pass and maintain a pedigree that met Florida's specific requirements; having the wrong type of permit for activities being performed (in addition to the manufacturing permit that we had, Florida required that we also have a repacker permit); distribution of saline to an unauthorized recipient; and an Rx drug item was found at an unlicensed raw materials storage facility. Several of the violations were challenged and reduced substantially or removed during the settlement process. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required, we were fined by New York (Cal. No. 27278) for out-of-state professional misconduct. In 2010, Medline made an unrelated business decision to close the Oldsmar and Clearwater facilities.	To address the pedigree issues, Medline instituted a Florida specific pedigree system to ensure that any pedigree shipments within our distribution network with potential to end up in Florida have the required Florida specific documentation. (Note - these requirements have since been preempted by federal law). To address the issue of having the wrong permit type, Medline secured a repackaging permit, in addition to the manufacturing permit the facility already had. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx drug purchases; this procedure generates an automatic block of any Rx drug orders by an unlicensed customer in our SAP system. The Rx drug item unintentionally stored at our raw materials facility was properly disposed of, and our waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd., Gainesville, FL	FILE CLOSED 2008 Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008 (Case # 2007-37412). In 2010, Medline made an unrelated business decision to close this facility.	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, an internal auditing program was implemented to ensure that each distribution center is in compliance with internal policies and procedures, as well as state and federal regulations.
3/5/2008	149 New Camellia Blvd., Covington, LA 70433	FILE CLOSED 2008 Medline Industries' license #4318 was cited for failure to properly maintain copies of current customer licenses on site (Louisiana Administrative Docket #2008006). Medline was assessed and paid a fine. After duly notifying state authorities, as required, we were fined by New York (Cal. No. 27278) for out-of-state professional misconduct.	In addition to storing copies of our customers' licenses at headquarters, we now store these licenses digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave., Wausau, WI	FILE CLOSED 2009 Medline Industries' license (# 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing during an inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to have a dividing fence between the Medline managed portion of the facility and the hospital portion of the facility - even though all of the products were owned by the hospital. Medline was also cited for failure to access several policies and procedures during the inspection. Corrections were made and the facility was re-inspected, to the satisfaction of the state (Case #08 PHM 037). After duly notifying state authorities, as required, we were fined by the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) out-of-state professional misconduct. . In 2010, Medline made an unrelated business decision to close this facility.	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the facility. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.
8/21/2008	94-1420 Moaniani St., Waipahu, Hawaii	FILE CLOSED 2013 Medline Industries' license (PWD 115) was fined \$5000 and placed on probation for 5 years for failure to report the Florida and Missouri disciplinary actions within 30 days. While Medline filed the required reports, the 30 day deadline was missed. Probationary period ended August 2013. (Case # PHA 2008-17-L)	Medline takes this oversight very seriously and we have implemented a new process to notify the required boards of any future disciplinary actions within 10 days of a final action.
3/19/2010	1401 N. Universal Ave, Kansas City, MO 64120	FILE CLOSED 2010 Medline applied for a Colorado Out of State Wholesaler license for the Missouri distribution center and was issued a conditional license by the CO Board of Pharmacy until the facility's MO probation period ended (approximately 5 months). The CO BOP was informed when the MO probationary period was completed, and subsequently removed the encumbered status of this facility's CO license.	See above for corrective actions related to the underlying sanction.
1/6/2021	1501 Harris Rd, Libertyville, IL 60048	FILE CLOSED 2021 Medline Industries, Inc. License #01-1985050 received a fined \$250 by the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired, unbeknownst to Medline. Case No. A-2020-0054 I-2019-0972-B. The fine was paid on January 21, 2021 and the case was closed.	Medline takes this oversight very seriously. We reviewed our processes and updated our guidelines for the type of license required for business in Ohio to ensure proper type of licenses applied to the customer are valid and current. The TDDD Ohio licenses are reviewed on an annual basis to ensure compliance.

Subject: Nevada Wholesaler Application- Medline Industries, Inc. MS Location

The Nevada State Board of Pharmacy received an Out-of-State Wholesaler application from Medline Industries, Inc. MS Location

Please note because of the recent fingerprints that were submitted for the location in IL, at this time we only need the fingerprints for the Designated Representative. We will also need to return the fingerprint check that was sent for the amount of \$241.50 and request that we get another one for just the one \$40.25 fee. Please advise where I can return the check and fingerprints?. We cannot proceed with the fingerprints until we receive the new check.

All items must be received to move forward with processing your application.

Please let me know if you have any questions.

No worries Mark,

The answer, in regards to the IL facility, because of the disclosures this application requires appearance on front of the Board. At this time unfortunately I don't have a set date, I will do my best to get it on the July scheduled meeting at earliest.

For the other 3 facilities, If the ownership will remain the same, the fingerprint results are valid for one year from the date submitted. Therefore yes, the only fingerprints we will then need is for each Designated Representative.

Thank you,

Maria H.

Good Morning Maria,

My Apologies, you can return the check to the following address :

Medline Industries, Inc.
Attn: Mark Callow
Three Lakes Drive -3D
Northfield, IL 60093

I will go ahead and get a new check cut for 40.25 for just our designated representative.

I have a couple other questions for you....has our license for the Illinois facility been issued/approved?

- In addition to this location, Medline Industries, Inc. has 3 more new facilities opening towards the latter part of this year and we will be pursuing a NV license for each of them. Will we only need a check for 40.25 for those as well? How long will the officers fingerprints be on file for?

Thanks and have a great day.

RE: Reporting of Disciplinary Action Issued by the State of Ohio Board of Pharmacy

Dear Sir or Madam:

The Ohio Board of Pharmacy issued a Notice of Opportunity for Hearing letter, dated March 5, 2021, to Penn Veterinary Supply, Inc. ("Penn Vet"), indicating the following allegation(s):

"From on or about April 1, 2018 to on or about October 8, 2019, Penn Vet, located at 53 Industrial Circle, Lancaster, Pennsylvania, sold dangerous drugs, including controlled substances, to Companion Animal Hospital, Inc., located at 12 St. Andrews Blvd., Chillicothe, Ohio. Companion Animal Hospital, Inc., was operating without a Board-issued Terminal Distributor of Dangerous Drugs license at this time."

This letter shall serve as Penn Vet's notification to ensure compliance with your regulatory agency or pharmacy board's notification requirements.

Penn Vet neither admits nor denies the allegation(s) stated in the Notice of Opportunity for Hearing letter, although, paid a monetary penalty in the amount of \$1,875.00, as outlined in the attached signed copy of the Final Settlement Agreement dated April 2, 2021 with the State of Ohio Board of Pharmacy.

As a result, policies and procedures have been implemented, as part of our contingency plan, to ensure we are kept abreast and informed of the current licensure status of our veterinary customers and/or clients.

If you have any questions, or require any additional information, please do not hesitate to contact me at: 717-656-4121 or via E-mail at: Regulatory@pennvet.com

IN THE MATTER OF	*	BEFORE THE
PENN VETERINARY SUPPLY, INC.	*	MARYLAND BOARD
Respondent-Distributor	*	OF PHARMACY
Unlicensed	*	Case No.: PI-13-080

CONSENT ORDER

herein.

FINDINGS OF FACT

The Board finds the following:

1. The Respondent-Distributor is located in Lancaster, Pennsylvania.
2. The Respondent-Distributor does not hold and has never held a Maryland distributor permit.
3. On or about December 5, 2012, the Maryland Division of Drug Control ("DDC") was conducting an opening inspection at Queen Anne County Animal Control Center in Queenstown, Maryland when the DDC inspector observed invoices for ketamine¹ from the Respondent-Distributor.
4. The DDC inspector notified the Board after it could not ascertain whether the Respondent-Distributor held a distributor permit in Maryland.
5. Thereafter, the Board initiated an investigation.
6. The Board's investigator determined that the Respondent-Distributor did not hold a distributor permit and an application was not pending.
7. On or about December 13, 2012, the Board issued a subpoena for copies of invoices for all prescription medications that the Respondent-Distributor shipped to the State of Maryland.
8. On or about January 18, 2013, the Respondent-Distributor provided the requested documentation.

¹ Ketamine is an anesthetic medication and a schedule III controlled dangerous substance ("CDS").

9. A summary of the invoices revealed that the Respondent-Distributor has been distributing prescription medications, including schedule III, IV and V CDS, to Maryland since 2008.

10. According to the summary, the Respondent-Distributor has distributed approximately \$5.2 million in prescription medications from 2008 to 2012.

11. The Respondent-Distributor's actions as outlined in pertinent part above constitute a violation of H.O. § 12-6C-03(a).

12. In resolving the charges against the Respondent-Distributor, the Board considered the following mitigating factors:

a. The Respondent-Distributor was and still is, at least in part, a family owned business that has been in operation for thirty-two (32) years, since 1981 in Lancaster, Pennsylvania. It is a small, privately held, local and regional wholesale distributor of veterinary products in the mid-Atlantic and Northeast.

b. The Respondent-Distributor has fifteen (15) employees who have been with the Respondent-Distributor over twenty (20) years.

c. The Respondent-Distributor founder, President, Treasurer and Secretary solely controlled all licensing and permit issues, in-state, out-of-state and federal from 1981 until his death in 2011. Almost immediately following his death, the Respondent-Distributor restructured and began to educate itself and move towards accreditation and compliance in all places where the Respondent-Distributor does business.

- d. The Respondent-Distributor has never been the subject of discipline in any other state.
- e. The Respondent-Distributor cooperated with the Board during the investigation, data collection, and resolution negotiations in complete good faith at all times.
- f. The net slim profit margin on the sale of wholesale distributed veterinary prescription medications between 2008 and 2012 was 2.47%, which yielded the Respondent-Distributor a profit of approximately \$130,000.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the Board concludes as a matter of law that the Respondent-Distributor violated the following provision of the Act: H.O. § 12-6C-03(a).

ORDER

Based on agreement of the parties, it is therefore this 12th day of June 2013, by an affirmative vote of the Board, hereby:

ORDERED that within 90 days of the effective date of this Consent Order, the Respondent-Distributor shall pay a fine in the amount of **\$45,000**, payable to the Maryland Board of Pharmacy; and it is further

ORDERED that failure to comply with the terms and conditions of this Consent Order, including but not limited to failure to pay the required fine, constitutes a violation of this Consent Order and the Board, in its discretion, after notice and an opportunity for a show cause hearing before the Board may impose any appropriate sanction under the Act;

and it is further

ORDERED the Respondent-Distributor shall bear all expenses associated with this Order; and it is further

ORDERED that the Respondent-Distributor shall not resume distributing drugs into Maryland unless and until it receives a permit as a wholesale distributor in Maryland; and it is further

ORDERED that if the Respondent-Distributor obtains a valid permit to operate as a wholesale distributor in the Maryland, it shall operate according to the Maryland Pharmacy Act and in accordance with all applicable laws, statutes and regulations pertaining to its operation as wholesale distributor; and it is further

ORDERED that this document constitutes a formal disciplinary action of the State Board of Pharmacy and is therefore a public document for purposes of public disclosure, pursuant to the Public Information Act, State Gov't § 10-611 *et seq.* and COMAR 10.34.01.12.

State Board of Pharmacy

To Whom it May Concern:

Tris Pharma, Inc. has had two licenses denied by the Utah Division of Occupational & Professional Licensing. The permits were for a Pharmacy – Class C license (# 8736305-1710), and a Dispensing Controlled Substance License (# 8736305-8913). The current employees and representatives of Tris Pharma, Inc. do not have any knowledge of these two permit denials, and therefore unfortunately cannot provide any additional information regarding the date or reason for the denial, aside from the fact that both denials would have had to occur prior to 2016.

We've reached out to the Utah Division of Occupational & Professional Licensing to request any information they could offer, and we were informed that the only information available is what is listed on their verification website, which is what we've provided in this letter.

We hope you accept this letter as sufficient explanation of the permit denial, and ask that if you have any additional questions regarding this matter that you reach out to us.

RE: Failure to Notify of Change of Ownership

Dear Sir Madam:

According to the records of the Arkansas State Board of Pharmacy (hereinafter "the Board"), Christy Ngo (WD05149) (hereinafter "Respondent") underwent a change of ownership on or about October 15, 2020. Respondent did not notify the Board of this change until March 19, 2021. Arkansas Pharmacy Board Regulation 08-00-0003 requires that any change of ownership be reported to the Board within fourteen (14) days of the effective date of the change of ownership. Failure to report the change of ownership during the fourteen-day period after the effective date of the change of ownership shall render the pharmacy permit issued to the prior owner void and said permit shall be surrendered to the Executive Director.

As an effort to reach an accommodation with Respondent, I have enclosed with this letter a proposed Consent Agreement that will be presented to the Board at its next meeting. Please review the Consent Agreement, and if you agree to the terms delineated therein, return the executed document to the Board at the address above by May 31, 2021. If the Consent Agreement is not returned by the date listed, the matter will be set for a hearing at the Board's next scheduled board meeting. Should you wish to discuss this matter further, please contact Deputy Director Brenda McCrady or myself at (501) 682-0190.

The Board received your change of ownership application, but you did not include the change of ownership fee. Please submit the fee via check so your application can be processed.

Sincerely,

Luke Daniel

CASE # 2019-038

CONSENT AGREEMENT

WHEREAS, Respondent **ZO Skin Health, Inc.**, located in Omaha, Nebraska, is licensed as a wholesale distributor of prescription drugs and holds license WD05149;

WHEREAS, a change of ownership occurred on October 15, 2020. The Board did not receive notification from Respondent **ZO Skin Health, Inc.** of said change of ownership until March 19, 2021.

WHEREAS, **ZO Skin Health, Inc.**, may be charged with violations of Board Regulation 08-00-0003 and A.C.A. §17-92-407, and § 17-92- 315;

WHEREAS, Respondent makes no admission of guilt but wishes to resolve these charges informally. By entering into this non-disciplinary Consent Agreement, Respondent's statements herein shall not be used as evidence in a formal hearing if this agreement is not accepted by the Board. Respondent and the Board therefore agree that this Agreement shall not constitute disciplinary action but rather an informal resolution of these charges. Respondent expressly waives its right to an administrative hearing and consents to the terms incorporated in this Agreement. Respondent further consents to the *ex parte* presentation of this Agreement to the Board and agrees that, if the Agreement is not accepted by the Board, the presentation and consideration of this Consent Agreement by the Board shall not constitute a basis for disqualification of the Board or any of its members from further participation in this matter, including a formal hearing; and

WHEREAS, Respondent acknowledges that this Consent Agreement is not effective until its acceptance by the Board, that Respondent has had the opportunity to consult with legal counsel of its own choosing concerning the advisability, meaning and effect of this Consent Agreement, that the Board shall retain jurisdiction to enforce the provisions of this Consent Agreement, and that failure to comply with the terms and conditions of this agreement shall be grounds for disciplinary action in the form of a civil penalty and/or suspension or revocation of Respondent's license, registration or permit.

THEREFORE, Respondent consents to the following terms in full resolution of this complaint:

1. Respondent **ZO Skin Health, Inc., (WD05149)** willingly agrees and stipulates that it shall pay a non-disciplinary investigative cost of two thousand five hundred dollars (\$2,500.00) to the Board on or before May 31, 2021.

Hello Christine,

We have addressed your questions below. Also, a Warning Letter close letter is issued by the FDA when a follow up inspection has confirmed that a firm has make all necessary corrections.

We look forward to receiving your written Warning Letter response.

Hi Dehlia,

Thank you for your email. I appreciate your response. Please see below the questions we have regarding the letter:

1. The address for ZO Skin Health is incorrect and represents Dr. Obagi's medical practice. (We are wondering how this information was obtained). Zo Skin Health, Inc. 5 Technology Drive, Irvine, California (CA) 92618 is the proper address (DUNS 826468527) and we are registered as a repackager/relabeler for our OTC drug products. Can you advise as to how the address in the Warning Letter was obtained?

The address was obtained from the California Secretary of State Business Search at <http://kepler.sos.ca.gov/>.

2. As part of our review, management has inquired as to whether this letter was predicated by a complaint. Obagi Medical Products (OMP) is not affiliated with ZO Skin Health and our review shows mention of OMP in a Warning Letter to Episciences, Inc. (

9/13/2016

<http://www.fda.gov/iceci/enforcementactions/warningletters/2015/ucm476132.htm>) We want to clarify that FDA has the proper contact information as part of our response. Can you provide a response as to whether this Warning Letter was precipitated by a complaint?

No, this was not precipitated by a complaint.

3. Objectionable claims identified for the Ossential® Daily Power Defense include: "repair damage". We agree that "cell regeneration" needs to be removed and has been, however, "repair damage" does not appear to be a structure/function claim in and of itself. We would like to get your input as taking the claims in the context of the whole is generally how the FDA assesses claims. Therefore, removing "cell regeneration" and utilizing "repair [appearance/signs] of damage" would appear compliant. Can you provide your comments?

The claims that were cited in the WL were the following:

- "Promotes healthy cell regeneration"
- "Helps support skin's natural mechanism to repair damage and protect against future skin damage"

Under Advanced Information:

- "Ultrasonics (UV-endonuclease) and roxosomes (glycosylase): Enzymes that initiate and speed up the repair to DNA"
- "Retinol (vitaine): Stimulates ...collagen production"
- "Matrixyl 3000 (palmitoyl oligopeptide and palmitoyl tetrapeptide-7): Stimulates collagen production"

The claim, "Helps support skin's natural mechanism to repair damage and protect against future skin damage" combined with the claim, "Ultrasonics (UV-endonuclease) and roxosomes (glycosylase): Enzymes that initiate and speed up the repair to DNA" it indicates that the product is intended to repair the skin by affecting the DNA. This intended use meets the regulatory definition of a drug. All claims are evaluated in the entire context of the label. Please send revised labeling for review.

4. Objectionable claims identified for the Ossential® C-Bright Serum 10% Vitamin C include: "prevent new pigment [formation]" and "defend against environmental triggers that cause pigmentation". Again, we would like your comments as to the compliance of these statements when offensive comments such as "stimulate ... collagen production" are removed from the context of labeling as a whole.

The claims that were cited in the WL were the following:

Ossential® C-Bright Serum 10% Vitamin C

- "Helps prevent new pigment from forming"
- Powerful antioxidants help defend against environmental triggers that cause pigmentation

Under Advanced Information:

9/13/2016

• "Tetrahexyldecyl ascorbate: Proven to prevent new pigment formation by up to 80% by inhibiting new melanin formation; helps to stimulate healthy collagen production and reduce wrinkle depth"

The claims, "Helps prevent new pigment from forming" and "Powerful antioxidants help defend against environmental triggers that cause pigmentation" combined with the claim, "Tetrahexyldecyl ascorbate: Proven to prevent new pigment formation by up to 80% by inhibiting new melanin formation," it indicates that the product is intended to treat and prevent pigment formation by affecting the melanin of the skin. This intended use meets the regulatory definition of a drug. For more information about the "Rulemaking History for OTC Skin Bleaching Drug Products" visit, <http://www.fda.gov/Drugs/DevelopmentApprovalProcess/DevelopmentResources/Over-the-CounterOTCDrugs/StatusofOTCRulemakings/ucm072117.htm> All claims are evaluated in the entire context of the label. Please send revised labeling for review.

The warning letter is not an all-inclusive statement of violations associated with your products or their labeling, and we have not attempted to list here all of the products that are promoted on your website for intended uses that cause them to be drugs. It is your responsibility to ensure that all products marketed by your firm comply with the Act and its implementing regulations. We advise you to review your website, product labels, and other labeling for your products to ensure that the claims you make for your products do not reflect intended uses that cause the distribution of the products to violate the Act.

We appreciate your input so that we may definitively address all compliance issues with evidence of the same in our WL response and request for a close-out letter. Additionally, we want to ensure any and all corrections to addresses are made to ensure proper communication. Finally, as we carry out our corrective and preventive actions, the input requested would be most useful to ensure compliance which is a serious priority for ZO Skin Health, Inc.

Please do not hesitate to contact me directly with any questions. Again, thank you in advance.

Best regards,
Christine

MEMO

October 12, 2020

RE: Inspection History for The Ritedose Corporation

The Ritedose Corporation (TRC) is an FDA-registered drug manufacturer producing millions of sterile dosage units each year. TRC has designated a portion of its existing manufacturing facility to producing compounded sterile drug products as a registered outsourcing facility. The cGMP-compliant quality management system and production controls utilized by TRC for manufacturing approved drug products also govern sterile compounding activities.

TRC's last inspection by the South Carolina Board of Pharmacy was in September 2020, with no unsatisfactory findings. TRC's last inspection by FDA was in March 2017, resulting in inspectional observations that have been resolved; an EIR was issued by FDA for this inspection in August 2017. As evidence of the firm's compliance with cGMP, the following are attached for review:

- S.C. Board of Pharmacy Permit Inspection Report, September 2020
- FDA Form 483, issued March 2017
- TRC Response to Form 483, submitted March 2017
- FDA EIR Cover Page, issued August 2017

Commissioning and qualification of the compounding began in Q2 2020, with commercial launch of compounded sterile drug products scheduled for Q4.

RE: Response to FDA 483 Inspectional Observations Issued March 3, 2017

Dear Ms. Zambrana,

A complete response is provided herein to the FDA 483 observations issued to The Ritedose Corporation (TRC) at the conclusion of the February 27, 2017 through March 3, 2017 general GMP inspection of our drug and device manufacturing facility at 1 Technology Circle Columbia, South Carolina (FEI Number 3001237796).

We take our obligation to comply with the FDA guidelines and GMPs very seriously. The corrections and commitments to each observation have been developed, discussed, and agreed to by our entire executive management team. I will be pleased to discuss this response should additional clarification be needed.

Sincerely,

A handwritten signature in blue ink, appearing to read "Umesh Dalvi", is written over a horizontal line.

President and Chief Executive Officer
The Ritedose Corporation

Response to the FDA 483 dated March 3, 2017**Observation 1:**

Corrective and preventive action activities and/or results have not been adequately documented.

Specifically, quarterly CAPA analysis was not performed as scheduled in SOP-0296, Rev 05, CAPA and Commitment Program, for product formulation, packaging, and utilities. The analysis is performed to assess the need for further CAPA investigation, additional CAPA initiation, and CAPA effectiveness. CAPA analysis has only been performed for the second quarter of 2016 for product formulation; the first quarter of 2016 for packaging; and the third quarter 2016 for HVAC alarms.

Response:

Section 9 of the CAPA and Commitment Program, TRC-SOP-0296 Rev. 06, is revised to consolidate the CAPA quarterly summary reports for product formulation, packaging, and utilities into one quarterly report which will be reviewed during the quarterly management review meeting. TRC-SOP-0296 Rev. 06 is provided herein.

Furthermore, the report for the 1st quarter of 2017 will include all CAPAs from 2016 in order to close the gap in the 2016 quarterly reports and will assess the need for further CAPA investigation, additional CAPA initiation, and CAPA effectiveness.

Observation 2:

The design history file was not established.

Specifically, you have not assessed the risks for 0.9% Sodium Chloride Inhalation Solution manufactured at your facility.

Response:

TRC established a design history file which specifically assesses the risks for 0.9% Sodium Chloride Inhalation Solution, USP. The design history file and risk assessment, TRC-SRT-1119 Rev. 00, is provided herein.

Observation 3:

The organizational structure has not been adequately established and maintained to ensure that devices are designed and produced in accordance with 21 CFR 820.

Specifically, documentation and appointment of the management representative to ensure that the quality system requirements are effectively established and maintained have not been performed.

Response:

This observation was corrected and verified during the inspection. The correction is captured in Section C.2.2. of the Site Master File, TRC-POL-0018 Rev. 06 (formerly document number TRC-REF-0064), which documents that the Vice President of Quality and Compliance is appointed as the management representative. TRC-POL-0018 Rev. 06 is provided herein.

Observation 4:

Procedures for management review have not been adequately established.

Specifically, management team members failed to attend scheduled management reviews as outlined in the Management Review Program, TRC-SOP-0270, Rev 3., which indicates that executive management participate in the management reviews; however, only four of seven members are reported to have attended the meetings during 2015 and 2016.

Additionally, objective evidence was not available to show each individual present at management reviews.

Response:

This observation was corrected and verified during the inspection. The corrections are captured in Section 4.2.1 of the Management Review Program, TRC-SOP-0270 Rev. 04, which defines the specific members of the executive management team required to attend management reviews. Additionally, Section 4.2.2 of TRC-SOP-0270 Rev. 04 requires attendees to document their attendance. TRC-SOP-0270 Rev. 04 is provided herein.

Observation 5:

The following observation is related to 21 CFR 211.

Established laboratory control mechanisms are not followed.

Specifically, standard operating procedures that stipulate the following are not followed:

- Extensions required for investigations that extend beyond thirty days prior to closeout are not consistently filed.
- Expired chemicals and solutions stocked or stored in the laboratory areas are not discarded from the lab on a monthly basis.
- Laboratory chemicals are not labeled as required.

Response:

- This observation was addressed during the inspection and a memorandum was provided to the Lead Investigator that describes the issue and measures taken to prevent reoccurrence. To summarize, the memorandum states that TRC is aware of the issue with extensions not consistently being filed for investigations extending beyond thirty days prior to closeout and implemented changes in August 2016 to prevent reoccurrence. No deviations have exceeded the 30 day window since the following changes were implemented:
 - The creation of a new management position, Director of Quality Control, with responsibility for ensuring timely completion of investigations.
 - Weekly Quality Assurance management meetings to discuss all open items potentially impacting the company Quality Systems.
 - Daily e-mail notification to the Quality Assurance management group of open investigations and their duration.

A copy of the memorandum is provided herein. Additionally, Section 6 of the Quality Systems Investigations Procedure, TRC-SOP-0295 Rev. 07, is revised to clarify the timeframe and requirements for extension requests. TRC-SOP-0295 Rev. 07 is provided herein.

- Sections 7.0 and 7.6 of Preparation, Documentation, and Labeling of Laboratory Solutions and Chemicals, TRC-SOP-0743 Rev. 04, are updated to clarify the requirements for discarding expired chemicals. TRC-SOP-0743 Rev. 04 is provided herein. Additionally, miscellaneous awareness training was performed and is provided herein.
- Sections 1.0, 2.0, and 5.0 of Preparation, Documentation, and Labeling of Laboratory Solutions and Chemicals, TRC-SOP-0743 Rev. 04, are updated to clarify chemical receipt and labeling instructions. TRC-SOP-0743 Rev. 04 is provided herein. Additionally, miscellaneous awareness training was performed and is provided herein.

THIS DOCUMENT LISTS OBSERVATIONS MADE BY THE FDA REPRESENTATIVE(S) DURING THE INSPECTION OF YOUR FACILITY. THEY ARE INSPECTIONAL OBSERVATIONS; AND DO NOT REPRESENT A FINAL AGENCY DETERMINATION REGARDING YOUR COMPLIANCE. IF YOU HAVE AN OBJECTION REGARDING AN OBSERVATION, OR HAVE IMPLEMENTED, OR PLAN TO IMPLEMENT CORRECTIVE ACTION IN RESPONSE TO AN OBSERVATION, YOU MAY DISCUSS THE OBJECTION OR ACTION WITH THE FDA REPRESENTATIVE(S) DURING THE INSPECTION OR SUBMIT THIS INFORMATION TO FDA AT THE ADDRESS ABOVE. IF YOU HAVE ANY QUESTIONS, PLEASE CONTACT FDA AT THE PHONE NUMBER AND ADDRESS ABOVE.

DURING AN INSPECTION OF YOUR FIRM I OBSERVED:

OBSERVATION 1

Each batch of drug product required to be free of objectionable microorganisms is not tested through appropriate laboratory testing.

Specifically, your method allows for pooling of products with the same active ingredient for sterility testing which is not equivalent to USP <71>.

OBSERVATION 2

There is a failure to thoroughly review any unexplained discrepancy and the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Specifically, on April 5, 2019, you were notified of a confirmed potency failure for Vasopressin 0.4 units/ml in 0.9% NaCl 100 ml bag at the 50-day timepoint for beyond use dating (BUD) by your contract testing laboratory. You assigned a 90-day BUD until May 7, 2019 when you changed the BUD to 50 days. You did not notify your customers of the change in date for seven lots of product you distributed prior to changing the BUD due to sub-potency results.

In addition, your complaint procedure does not specifically include directions when a reserve/retain sample will be tested or visually inspected as part of the complaint investigation as evidenced by CUS 19-020-LR, CUS 19-058-LR, CUS 19-059-LR, CUS 19-060-LR, CUS 19-069-LR, CUS 19-079-LR, and CUS 19-094-LR.

OBSERVATION 3

Appropriate controls are not exercised over computers or related systems to assure that changes in master production and control records or other records are instituted only by authorized personnel.

Specifically, you have never conducted an audit trail review of the SCAN RDI system since you began using it in 2013 for sterility analysis nor do you have a procedure for conducting an audit trail review. Additionally, an employee who performs most of the scanning for the sterility analysis signs in with her Administrator access to perform the scans.

OBSERVATION 4

The results of the examination of the packaged and labeled products were not documented in the batch production or control records.

Specifically, I observed during the visual inspection by employees rejects from the 100% and the AQL were placed in the same bin, thus not allowing for accurate data to be entered in the batch records to determine if both passed your specification for visual inspection as defined in SOP COM-013-LR. For the AQL, critical defect limit is zero so if both rejects were counted as part of the 100% inspection, the lot would pass instead of failing.

OBSERVATION 5

You compound drugs that are essentially a copy of one or more approved drugs within the meaning of sections 503B(a)(5) and 503B(d)(2).

Specifically, you compound drug products that:

- a) are identical or nearly identical to an approved drug that is not on the drug shortage list in effect under section 506E at the time of compounding, distribution, and dispensing; or
- b) are not identical or nearly identical to an approved drug but contain a bulk drug substance that is also a component of an approved drug, and for which there is no change that produces for an individual patient a clinical difference, as determined by the prescribing practitioner, between the compounded drug and the comparable approved drug.

Examples of compounded drug products that are essentially a copy of one or more approved drugs include;

RE: Inspection of SCA Pharmaceuticals, LLC, Little Rock, AR Facility (October 28, 2019 – November 7, 2019)

Dear Program Director Maxwell,

SCA Pharmaceuticals, LLC (SCA) is providing our responses to the Form FDA 483 dated November 7, 2019 issued to our Little Rock, AR facility. The observations were made by Ms. Claire Minden (with input from CDER) as a result of a General GMP Inspection conducted from October 28, 2019 – November 7, 2019. We appreciate the review of our facility and Quality Systems by the Investigator and take all discussion points and formal observations seriously. Our responses to the observations and the associated corrective and preventive action plans are attached to this letter.

SCA is committed to operating in a manner that is consistent with FDA regulations, guidances and expectations for 503B Outsourcing Facilities and this commitment emanates from the top of our organization. A key demonstration of our compliance commitment is the fact that each observation was either fully addressed during the inspection or has been completely remediated as of the date of this response submission. We trust the actions outlined in our response, along with ongoing improvement initiatives, support our commitment to producing safe product in an environment that both meets FDA expectations and provides safe and effective medications to our institutional customers for their patients.

While SCA has multiple manufacturing sites, we have only one quality system. We trust this was evident in the collaboration between investigators of our Arkansas and Connecticut facilities during the overlapping inspection periods. Where applicable, the corrective actions and response remediations herein will be implemented globally.

As noted by FDA during the inspection, SCA has made tremendous strides in cGMP compliance with the implementation of sound quality systems. As it is our desire to close this inspection expeditiously and continue to strengthen our Quality System structure, we request a meeting or phone conference to discuss our responses with the sole purpose of ensuring we have sufficiently interpreted and addressed FDA's concerns.

If you should have any questions, please do not hesitate to contact us.

Sincerely,

A handwritten signature in black ink, appearing to read "James Milton Boyer".

OBSERVATION 1

Each batch of drug product required to be free of objectionable microorganisms is not tested through appropriate laboratory testing.

Specifically, your method allows for pooling of products with the same active ingredient for sterility testing which is not equivalent to USP <71>.

RESPONSE TO OBSERVATION 1

SCA has ceased the practice of pooling lots during ChemScan RDI testing. The relevant procedure, SOP LAB-020-LR, *Procedure for Sterility Testing by Membrane Filtration Method Using the ChemScan RDI System*, has been revised to reflect the change in practice.

Specifically, procedure sections 12.3.7 to 12.3.9 that pertain(s) to pooling of product, together with Attachment II of the procedure: *List of Products Which May Be Pooled for Sterility Testing*, have both been removed from the procedure. Refer to Exhibit 1-1 for the procedure revision and Exhibit 1-2 for the associated training documentation on the revised procedure.

SCA validated the ChemScan RDI in accordance with USP <1223> *Validation of Alternative Microbiological Methods* and based the validation on specific product families. That validation challenged the highest concentration(s) of the active ingredients within each product family.

The practice of pooling lots within each product family for ChemScan RDI testing was not challenged as part of the validation. However, pooling like products (active ingredients and diluents) does not result in a cumulative increase in product concentration and does not increase the likelihood of microbial inhibition. Furthermore, USP <71> requires a specific number of articles to be tested based on container fill volume and number of units in the lot. SCA complied with this USP <71> requirement when testing for sterility. SCA believes the practice of pooling not resulting in a cumulative increase in product concentration and compliance with the requirement for test articles supports the practice of pooling. However, as stated, SCA has now ceased the practice of pooling product lots during ChemScan RDI testing.

OBSERVATION 2

There is a failure to thoroughly review any unexplained discrepancy and the failure of batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Specifically, on April 5, 2019, you were notified of a confirmed potency failure for Vasopressin 0.4 units/ml in 0.9% NaCl 100 ml bag at the 50-day timepoint for beyond use dating (BUD) by your contract testing laboratory. You assigned a 90-day BUD until May 7, 2019 when you changed the BUD to 50 days. You did not notify your customers of the change in date for seven lots of product you distributed prior to changing the BUD due to sub-potency results.

In addition, your complaint procedure does not specifically include directions when a reserve/retain sample will be tested, or visually inspected as part of the complaint investigation as evidenced by CUS 19-020-LR, CUS 19-058-LR, CUS 10-059-LR (sic 19-059-LR), CUS 19-060-LR, CUS 19-069-LR, CUS 19-079-LR, and CUS 19-094-LR.

RESPONSE TO OBSERVATION 2

Part 1:

During the inspection SCA committed to notifying our customers in the event of BUD changes that affect distributed product, similar to the observation above. SCA's Issue Escalation SOP QMS-033 was revised (reference Exhibit 2-1) to clarify instructions related to the handling of potency failures and the circumstances when customers will receive a notification from SCA.

SCA engaged the Quality System following the identification of a Vasopressin potency failure referenced herein. Specifically, SCA promptly convened the Issue Escalation Committee per SOP QMS-033, *Issue Escalation Process*, which specifies that out-of-specification (OOS) results relating to stability of product within its BUD must be brought to the attention of the Issue Escalation Coordinator within one business day of identification. Subsequently, SCA performed a Risk Assessment which determined that the sub-potent product was not of high risk to the patient. SCA informed FDA of this decision via a Field Alert Report which was submitted April 10, 2019; however, no response from FDA was received. SCA then changed the BUD to 50 days for future production.

SCA did in fact provide a formal communication to our customers about the BUD change referenced in the observation above. However, that customer communication did not address the associated decision that distributed product with the original BUD of 90 days, was acceptable, based upon a risk assessment. Regrettably, this customer communication was inadvertently not provided to the investigator during the inspection but is provided herein as part of this response. Reference Exhibit 2-3 for an example of the correspondence between SCA and a specific customer, related to the subject BUD change.

In the future, if potency failures impacting distributed product are observed, SCA will continue to engage our Quality System through the Issue Escalation process and commits to contacting FDA's recall coordinator to discuss the recall of product in the field, when the potency failure is confirmed. Additionally, as part of any recall, all impacted customers will be formally notified.

SCA's Issue Escalation SOP QMS-033 was revised (reference Exhibit 2-1) to clarify instructions related to the handling of potency failures affecting distributed product, specifically:

- If the suspect potency failure cannot be confirmed within 3 working days, a Field Alert Report is required in accordance with SOP QMS-026, *Field Alert Reports*. Subsequent to a confirmed OOS, the SCA Recall Committee convenes and the FDA District Recall Coordinator is contacted, to initiate a recall. When the specifics of the recall are agreed with FDA, the affected customers are contacted following the procedures outlined in SOP QMS-021, *Recall or Withdrawal of Compounded Products*.
- If the suspect potency failure is confirmed within 3 working days, the SCA Recall Committee convenes in lieu of initiating a FAR and subsequently, the FDA District Recall Coordinator is contacted to initiate a recall. When the specifics of the recall are agreed with FDA, the affected customers are contacted following the procedures outlined in SOP QMS-021, *Recall or Withdrawal of Compounded Products*.

Reference Exhibit 2-3 for the associated training documentation for the revised procedure.

Part 2:

SCA acknowledges that at the time of the inspection, SOP QMS-013, *Handling of Customer Complaints and Adverse Events* lacked enough specificity as to when reserve/retain samples should be tested or visually inspected as part of a customer complaint investigation.

As an immediate corrective action, a revision was made to SOP QMS-013 to include clarity and direction as to when reserve/retain samples should be tested as part of a customer complaint investigation and when the reserves/retains should be visually examined. The added sections in the revised procedure are summarized below:

- *If a complaint related to potency (e.g. lack of effect, increase in effect) is received, reserve samples will be tested, if a root cause is not identified within 14 days of complaint initiation. If a root cause related to manufacturing is identified, an impact assessment will be performed, and appropriate actions will be taken as determined by leadership of the Quality Unit.*
- *Determine if visual inspection or analysis of the reserve samples should be performed as part of the investigation into the complaint.*

Reference Exhibit 2-4 for a copy of the revised procedure. Reference Exhibit 2-5 for the associated training documentation for the revised procedure.

Additionally, Form CUS-001, *Customer Complaint Form*, which is referenced in SOP QMS-013, was revised. This form is filled out upon initiation of a customer complaint investigation and has been revised to document the decision on whether or not visual inspection and/or laboratory testing of the reserve/retain samples is required. As evidence of this change, refer to Exhibit 2-6 for a copy of the revised form referenced above.

OBSERVATION 3

Appropriate controls are not exercised over computers or related systems to assure that changes in master production and control records or other records are instituted only by authorized personnel.

Specifically, you have never conducted an audit trail review of the SCAN RDI system since you began using it in 2013 for sterility analysis nor do you have a procedure for conducting an audit trail review. Additionally, an employee who performs most of the scanning for the sterility analysis signs in with her Administrator access to perform the scans.

RESPONSE TO OBSERVATION 3

SCA acknowledges the need for a ChemScan RDI system audit trail and the need to prevent the same individual from having both administrator and user rights in the ChemScan RDI system. The sterility analyst [MAM] who was observed with ChemScan RDI administrator access during the inspection (reference Exhibit 3-1) had their system roles remediated, which included disabling the status of the administrator account [MARIA] within the ChemScan RDI Software. This remediation occurred on November 7, 2019, the same day the observation was made by the investigator, evidence of which was provided to the FDA investigator prior to the closeout of the inspection on November 7, 2019. That same evidence is attached herein (reference Exhibit 3-2).

SCA assessed the impact of incorrectly assigning the administrator account [MARIA]. Specifically, Microbiology Laboratory Management reviewed the ChemScan RDI audit trail for the date range spanning August 1, 2019 to October 31, 2019, a three (3) month timeframe representing SCA's average product BUD of 90 days. No unauthorized changes (setting changes, user role changes) were found during that audit trail review (reference Exhibit 3-3). Also, SCA contacted BioMerieux, the instrument manufacturer, regarding administrator privileges. BioMerieux confirmed that an administrator role within ChemScan RDI does not have the ability to modify raw data (reference memo from bioMerieux to SCA Exhibit 3-4). Based on the audit trail review and the statement from BioMerieux, SCA believes there is no negative impact pertaining to the incorrect assignment of an administrator role.

Prior to the closeout of the inspection, the ChemScan RDI roles of all other analysts were reviewed. SCA confirmed that all users in addition to [MAM] are limited to the standard user role (reference Exhibit 3-2). Administrator access has now been assigned to [JROTON], Microbiology Laboratory Manager and [DFERGUSON], Site Quality Director (reference Exhibit 3-5).

SCA is committed to conducting a daily audit trail review by a peer analyst and a monthly audit trail review by the Microbiology Laboratory Manager. SOP LAB-033-LR, *Reviewing Data in the Microbiology Laboratory*, was revised to clearly specify a daily and monthly audit trail review and to define what exactly those audit trail reviews of ChemScan RDI encompass. Furthermore, Form LAB-020-LR, *Sterility Testing Report Using the ChemScan RDI* was revised and Form LAB-033-01-LR, *SCAN RDI User Status and Audit Trail Review* was created to document the performance of the daily and monthly audit trail reviews. Reference Exhibits 3-6, 3-7 and 3-8 respectively, for copies of the revised procedure and forms. Associated training on SOP LAB-033-LR is referenced in Exhibit 3-9.

CONFIDENTIAL

OBSERVATION 4

The results of the examination of the packaged and labeled products were not documented in the batch production or control records.

Specifically, I observed during the visual inspection by employees rejects from the 100% and the AQL were placed in the same bin, thus not allowing for accurate data to be entered in the batch records to determine if both passed your specification for visual inspection as defined in SOP COM-013-LR. For the AQL, critical defect limit is zero so if both rejects were counted as part of the 100% inspection, the lot would pass instead of failing

RESPONSE TO OBSERVATION 4

SCA acknowledges the need for discrete bins for rejects from each discrete step in the inspection process. Upon notification of the above concern during the inspection, SCA immediately placed an additional and discrete physical bin on all inspection lines. The single bin observed during the FDA inspection had been assigned to both the 100% visual inspection and AQL activities on each line.

SCA revised SOP COM-013-LR, *Product Inspection and Defect Classification*, to include the use of dedicated bins for the 100% inspection and the subsequent AQL inspection (reference Exhibit 4-1). Reference Exhibit 4-2 for the associated training for this procedure. Photographic evidence of the implementation of two bins was provided to the investigator at the close out of the inspection (reference Exhibit 4-3).

Batch 1119020129 was being inspected at the time FDA made this observation. For the record, during this batch, there were 7 minor cosmetic defects observed during the 100% inspection and 1 minor cosmetic defect observed during the AQL inspection. There were no critical defects found in this batch. SCA fully understands FDA's concern regarding the practice of utilizing one bin, especially in cases where critical defects may be discovered, however, there were no critical defects found in this subject batch.

SCA evaluated the risk associated with the prior practice of utilizing only one bin to contain rejects. Specifically, SCA reviewed the inspection work practice and confirmed that drug product inspection involves discrete and sequential activities. Specifically, a qualified operator performs a 100% visual inspection of unlabeled units and thereafter, a second qualified operator performs an AQL of the same unlabeled units. SCA also reviewed the documentation practices associated with recording rejects during the 100% and AQL activities. SCA found that the rejects associated with the 100% visual inspection are first documented by a qualified operator in section 1 of Form COM-067-LR, *Inspection Defect Tally Form*. The rejects associated with the subsequent AQL are documented by a second qualified operator in section 5 of the same form. In accordance with SOP COM-013-LR, any critical defect found would cause the AQL to fail.

Furthermore, SCA reviewed the customer complaint history pertaining to the timeframe since implementation of the AQL process on August 27, 2018. SCA received three (3) customer complaints for visual defects representing a complaint rate of 1.12 complaints per million units (CPMU). This data represents two (2) complaints for an underfilled syringe and one (1) complaint for a tamper evident cap not applied, from the total of 2,724,881 units shipped.

Based upon the above reviews of the inspection and documentation work practices together with the low CPMU rate for visual defects, SCA believes that there is no risk to drug product visually inspected prior to the date of this FDA observation.

OBSERVATION 5

Your compound **ounded drugs that are essentially a copy of one or more approved drugs within the sections 503B(a)(5) and 503B(d)(2).**

Specific **you compounded drug products that:**

- a) **are identical or nearly identical to an approved drug that is not on the drug shortage list in effect under section 506E at the time of compounding, distribution, and dispensing; or**
- b) **are not identical or nearly identical to an approved drug but contain a bulk drug substance that is also a component of an approved drug, and for which there is no change that produces for an individual patient a clinical difference, as determined by the prescribing practitioner, between the compounded drug and the comparable approved drug.**

Examples of compounded drug products that are essentially a copy of one or more approved drugs include;

- **Succinylcholine 20 mg/ml injection**
- **Glycopyrrolate 0.2 mg/ml injection**
- **Fentanyl 50mcg/ml injection and**
- **Phenylephrine 0.2 mg/ml, and 0.8 mg/ml injection.**

RESPONSE TO OBSERVATION 5

It is the intent of SCA to comply with current regulations related to compounding from bulk substances. All finished goods compounded from bulk substances at SCA are either (1) on FDA's Drug Shortage List under 506E or (2) on FDA's 503B Category 1 List (Substances Nominated for the Bulks List Currently Under Evaluation). Additionally, all finished products compounded from bulk substances at SCA are commercially unavailable in the presentation, dosage and/or combination thereof¹.

Further to a discussion with the investigator, SCA understands that dosage form and route of administration were the variables evaluated by FDA in making the determination that products which SCA compounds from bulk are considered essentially copies of approved drugs even though these final presentations are not commercially available. However, as evidence of our commitment to following FDA's current direction, SCA has evaluated all products listed in the citation and has taken the following actions for products compounded from bulk API.

Succinylcholine 20 mg/mL Injection: SCA has discontinued production of the entire active product portfolio that is compounded from bulk API. If the FDA-approved drug product, for which these compounded products are considered essentially copies, is added to the FDA Drug Shortage List, SCA may consider reactivating the status of these products compounded from bulk.

Glycopyrrolate 0.2 mg/mL Injection: SCA has discontinued production of the entire active product portfolio that is compounded from bulk API. If the FDA-approved drug product, for which these compounded products are considered essentially copies, is added to the FDA Drug Shortage List, SCA may consider reactivating the status of these products compounded from bulk.

Phenylephrine 0.2 mg/mL and 0.8 mg/mL Injection: SCA has discontinued production of the entire active product portfolio that is compounded from bulk API. If the FDA-approved drug product, for which these compounded products are considered essentially copies, is added to the FDA Drug Shortage List, SCA may consider reactivating the status of these products compounded from bulk.

SCA will not resume manufacture of these drug products from bulk until such time as a.) the specific drug product may appear on the drug shortage list or b.) final guidance specifically allows such drug products to be compounded from bulk API. Evidence of discontinuation of Succinylcholine 20 mg/mL Injection, Glycopyrrolate 0.2 mg/mL Injection and Phenylephrine 0.2 mg/mL and 0.8 mg/mL Injection is documented in our Quality System using Technical Change Controls TCC 19-150-LR, TCC 19-151-LR, and TCC 19-152-LR (reference Exhibit 5-1).

Fentanyl 50 mcg/mL Injection: This product is on FDA's Drug Shortage List as evidenced by Exhibit 5-2 (FDA Drug Shortages 2019-11-08). SCA intends to continue to compound this product from bulk until the shortage is resolved. Per FDA Guidance "*Compounded Drug Products That Are Essentially Copies of Approved Drug Products Under Section 503B of the Federal Food, Drug, and Cosmetic Act*", SCA interprets that FDA does not intend to take action against an outsourcing facility for filling orders that it receives for a compounded drug that is identical, or nearly identical, to an approved drug that was on FDA's drug shortage list at the time that the outsourcing facility received the order, provided the drug also appeared on the FDA drug shortage list within 60 days of the outsourcing facility distributing or dispensing the drug. SCA commits to following the timeline outlined in the guidance when the Fentanyl shortage is resolved.

As stated, SCA endeavors to adhere to all rules and guidance related to 503B outsourcing facilities. We recognize that the bulk list is in draft, and the current guidance, "*Compounded Drug Products That Are Essentially Copies of Approved Drug Products Under Section 503B of the Federal Food, Drug, and Cosmetic Act*", is being implemented with enforcement discretion being applied. Our interpretation of the guidance was focused on the final presentation of drug product and its commercial availability. Accordingly, SCA refutes that it has compounded drug products that are essentially a copy of an approved drug product within the meaning of sections 503B(a)(5) and 503B(d)(2). Nonetheless, SCA has chosen to implement the changes suggested as part of this FDA observation as previously stated above.

ERVATION 6

Employees engaged in the processing of a drug product lack the training required to perform their assigned functions.

Specifically, employees responsible for the sterility analysis by Scan RDI are two months late in their annual recertification and continue to process sterility analysis using Scan RDI.

RESPONSE TO OBSERVATION 6

SCA acknowledges that at the time of the inspection, sterility testing analysts were overdue on their 2019 annual training qualifications (per LAB-TQ-004-LR), for the ChemScan RDI.

Three (3) sterility testing analysts (MM, CV, and CS) were last qualified to perform ChemScan RDI Sterility Testing per SOP LAB-006-LR, *Sterility Testing by ChemScan RDI*, on August 2, 2018 (MM), September 4, 2018 (CS) and August 16, 2018 (CV) and each was overdue on their annual qualification by one (1) to two (2) months. SCA immediately initiated a deviation DV 19-523-LR on October 29, 2019 to investigate why the training qualifications were overdue.

During the inspection, on October 31, 2019, training qualifications for the aforementioned sterility testing analysts were executed. Such training qualifications were reviewed and approved on November 4, 2019.

Deviation DV19-523-LR found that the root cause of the overdue training qualifications was a combination of logistical issues and the lack of a formal prompt of upcoming training qualifications requirements. MasterControl was recently implemented at SCA and in response to this observation, training course LAB-TQ-004-LR has been configured to prompt retraining on an annual basis, 30 days prior to the due date (reference Exhibit 6-1). DV 19-523-LR was closed by Quality Assurance on November 5, 2019. Reference Exhibit 6-2 for a copy of the closed deviation, which also includes copies of each of the training qualification documents (LAB-TQ-004-LR) for the three (3) ChemScan RDI analysts.

Documentation of the completed LAB-TQ-004-LR training materials for each of the employees listed above, along with a copy of the closed Deviation DV 19-523-LR was provided to the FDA investigator prior to the closeout of the inspection on November 7, 2019. Based on the acceptable results of the training qualification(s) completed for the three (3) analysts, each demonstrating 100% reproducibility between trainer and trainee with regards to the ability to read and verify challenge organisms per LAB-TQ-004-LR, there is therefore no risk to product(s) and/or ChemScan RDI Sterility Testing activities as a result of the outstanding training qualifications.

If you have any questions, please contact FDA at the phone number and address above.			
DURING AN INSPECTION OF YOUR FIRM I OBSERVED: OBSERVATION 1 There is a failure to thoroughly review any unexplained discrepancy and the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed. Specifically, The firm failed to adequately investigate the following: A. There have been seven confirmed failures for in-house sterility testing of finished sterile drug products since October 2018 using a rapid scan method for detection of fluorescence in individual microorganisms (BioMérieux ScanRDI). All associated batches (1218003930, 1219007440, 1219008117, 1219008696, 1219009160, 1219009289, & 1219012541) were rejected; however, the investigations did not take into account the identity of the contaminating microorganism(s) to determine its source. For example: • Out-of-Specification Laboratory Investigation Report OOS 18-087-W was initiated on 10/15/2018 for the sterility test failure of Buffered Lidocaine 1% in Sodium Bicarbonate 8.4% 5mL fill 6mL Syringe lot number 1218003930. The potential root cause(s) was determined to be human error; however, the investigation did not identify the contaminating microorganism(s). The investigation was approved by Quality Assurance 12/10/2018. • Out-of-Specification Laboratory Investigation Report OOS 19-049-W was initiated on 03/22/2019 for the sterility test failure of Buffered Lidocaine 1% in Sodium Bicarbonate 8.4% 5mL fill 6mL Syringe lot number 1219007440. Furthermore, it was noted that from January 2019 to October 2019 the firm had approximately 105 occasions in which Personnel Exit Monitoring had exceeded the action limit specification for zero objectionable organisms mostly concerning samples taken from operator hoods (32 occurrences) and chests (50 occurrences); however, the firm had not identified a potential cause for this trend until the Environmental and Personnel Monitoring Q3 2019 Trend Report which was approved by Quality on 10/29/2019 during the inspection. Examples of the objectionable organisms recovered were <i>Bacillus cereus</i>, <i>Staphylococcus aureus</i>, <i>Moraxella osloensis</i>, and <i>Roseomonas mucosa</i>. B. On 08/14/2019 the firm had initiated an Out-of-Specification Investigation Report OOS-19-111-W for a potency failure for the T90 (90 days) stability sample of Heparin Sodium 10units/mL in 0.9% Sodium Chloride 1,000mL Bag (10,000units/1,000mL) lot number 1219008741, result 82%, specification 90-110%. The OOS result was confirmed and the firm had initiated a Deviation Investigation (DV-19-711-W) on 08/15/2019 to investigate this failure. The firm had identified the root cause as inconclusive and took the following corrective actions: file a Field Alert Report to the FDA, shorten the BUD from 90 days to 70 days based on stability study (ST-128) and conducted a risk assessment to determine the risk to patient for receiving a sub-potent dose. The firm had not conducted a health hazard

evaluation of the sub-potent product nor had they notified the customers who had received 16 lots of this product with the 90 day BUD, some of which are currently within expiry. C. On 08/16/2019, the firm initiated a Deviation Investigation Report DV-19-716-W to investigate leaking within the sterile filter capsule assembly (SCA part# X40015) at the outlet side during post filtration testing. The firm isolated this leaking filter to one lot of HCT filters (lot number HCT 422-053119). This filter lot was used to manufacture 17 batches of products in which 14 batches had been distributed. The investigation indicated that the leaking would occur between 24 to 46psi. The firm concluded that based on investigational testing, sterility testing, successful post filtration testing and risk assessment that the leaking of the sterile filter had no impact to patient safety; however, the firm had not provided samples from the lot of defective sterile filters to their vendor for evaluation and confirmation that the sterile filters would function as designed. The manufacturer of the 0.2µm Filter (GVS Filter Technology) had provided a written assessment of the functionality of the filter on October 21, 2019 (during the inspection) without an evaluation of this lot of defective filter. D. The Quality Unit failed to adequately investigate consumer complaints by not evaluating retentions samples and returned product when applicable for confirmation of the reported complaint. For example: Customer Complaint Form CUS-18-189-W, dated 11/13/2018, indicated that a customer called stating the nurse from the floor was reporting more hemorrhages on the L&D floor than normal. They had five patients in one day hemorrhage. The customer was requesting potency data on Oxytocin 20units added to 0.9% Sodium Chloride 1000ml Bag lot number 1218004043. The investigation concluded that there was no impact to product identified as the potency of lot number 1218004043 was confirmed to be within specification via batch record review. The firm did not conduct an evaluation of retain samples. The investigation was approved by Quality on 12/27/2018.

- Customer Complaint Form CUS-19-028-W, dated 2/26/2019, indicated that a customer had administered four different bags of Oxytocin 20units added to 0.9% Sodium Chloride 500mL Bag lot number 1219006051 to four different pregnant patients and in which their cervixes did not dilate after receiving this product. The investigation concluded that there was no impact to product identified as the potency of lot number 1219006051 was confirmed to be within specification via batch record review. The firm did not conduct an evaluation of retain samples. On 05/22/2019 the firm received nine units from lot number 1219006051 from their customer. The units were not evaluated but instead were destroyed. The investigation was approved by Quality on 04/03/2019. - Customer Complaint Form CUS-19-051-W, dated 04/25/2019, indicated that a customer stated that Oxytocin 20units added to 0.9% Sodium Chloride 1000mL Bag lot number 1219007516 was not working on patients. The investigation concluded that there was no impact to product identified as the potency of lot number 1219007516 was confirmed to be within specification via batch record review. The firm did not conduct an evaluation of retain samples. The investigation was approved by Quality on 05/20/2019. Furthermore, the firm has had sixteen Out-of-Specification Investigations involving sub-potent Oxytocin 20 and 30 unit products compounded from October 2018 to March 2019. Each of these investigations confirmed the potency out-of-specification result and the batches were rejected; however, the above mentioned complaint investigations did not contain an evaluation of these Out-of-Specification Investigations within the investigation summary. As a result of these investigations the firm initiated Change Control TCC#19-073-W (3/18/2019) to update the compounding process to include a dilution stock bag so a larger volume could be added during the compounding of each product type (Oxytocin 20 units (F008446-A-W-02-05) & Oxytocin 30 units (F08544-A-W-02-04)).

Each batch of drug product required to be free of objectionable microorganisms is not tested through appropriate laboratory testing. Specifically, A. The firm failed to adequately qualify their method for Sterility Testing via ScanRDI in that during the method transfer, ScanRDI Performance Qualification for SCA Pharmaceuticals Windsor, CT (approved 11/28/2017, CT0051 & 01/08/2018, CT0052) the firm did not verify each product type via ScanRDI but instead only conducted testing using Sterile Fluid D spiked with <i>Staphylococcus aureus</i>, <i>Pseudomonas aeruginosa</i>, <i>Clostridium sporogenes</i>, <i>Bacillus subtilis</i>, <i>Candida albicans</i>, and <i>Aspergillus brasiliensis/niger</i> conducted by two analysts. The firm has used this method routinely to test and release sterile drug product since November 28, 2017. B. The firm's method for sterility testing, Filtration Procedure for Sterility Testing via ScanRDI (SOP LAB-020-W), allows for pooling of several lots of product with the same active ingredient for sterility testing.

RE: Inspection of SCA Pharmaceuticals, LLC, Windsor, CT Facility (October 8, 2019 – November 19, 2019)

Dear Program Director Amador-Toro,

SCA Pharmaceuticals, LLC (SCA) is hereby providing our progress update on the commitments made in our initial response dated December 10, 2019.

SCA has now completed 100% of the required actions associated with our documented commitments. Therefore, this communication concludes SCA's progress updates to FDA as all outstanding action items have been completed on time, as committed.

SCA would like to request a meeting or phone conference to discuss our responses to the above referenced FDA Form 483, with the sole purpose of ensuring that we have sufficiently interpreted and addressed FDA's concerns.

Sincerely,

Grace Bue (Grace Breen), SVP Quality on behalf of James Milton Boyer

 James Milton Boyer
 President

OBSERVATION 1

There is a failure to thoroughly review any unexplained discrepancy and the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Specifically,

The firm failed to adequately investigate the following:

A. There have been seven confirmed failures for in-house sterility testing of finished sterile drug products since October 2018 using a rapid-scan method for detection of fluorescence in individual microorganisms (BioMerieux ScanRDI). All associated batches (1218003930, 1219007440, 1219008117, 1219008696, 1219009160, 1219009289, & 1219012541) were rejected; however, the investigations did not take into account the identity of the contaminating microorganism(s) to determine its source. For example:

- Out-of-Specification Laboratory Investigation Report OOS 18-087-W was initiated on 10/15/2018 for the sterility test failure of Buffered Lidocaine 1% in Sodium Bicarbonate 8.4% 5mL fill 6mL Syringe lot number 1218003930. The potential root cause(s) was determined to be human error; however, the investigation did not identify the contaminating microorganism(s). The investigation was approved by Quality Assurance 12/10/2018.*
- Out-of-Specification Laboratory Investigation Report OOS 19-049-W was initiated on 03/22/2019 for the sterility test failure of Buffered Lidocaine 1% in Sodium Bicarbonate 8.4% 5mL fill 6mL Syringe lot number 1219007440. A definitive root cause had not been determined but the Deviation Investigation (DV-19-312-W) indicated the possible root cause was human error; however, the investigation did not identify the contaminating microorganism(s). The investigation was approved by Quality Assurance on 06/17/2019.*
- Out-of-Specification Laboratory Investigation Report OOS 19-055-W was initiated on 04/18/2019 for the sterility test failure of Hydromorphone HCl 0.2mg/mL in 0.9% Sodium Chloride 100mL Grey CADD Cassette (20mg/100mL) lot number 1219008117. The potential root cause identified in Deviation Investigation (DV-19-385-W) was human error; however, the investigation did not identify the contaminating microorganism(s). The investigation was approved by Quality Assurance on 09/05/2019.*
- Out-of-Specification Laboratory Investigation Report OOS 19-066-W was initiated on 05/11/2019 for the sterility test failure of Vancomycin HCl 1.25g added to 0.9% Sodium Chloride 250mL Bag (1250mg/250mL) lot number 1219008696. The potential root cause identified in Deviation Investigation (DV-19-472-W) was human error; however, the investigation did not identify the contaminating microorganism(s). The investigation was approved by Quality Assurance on 08/05/2019.*
- Out-of-Specification Laboratory Investigation Report OOS 19-071-W was initiated on 05/28/2019 for the sterility test failure of Glycopyrrolate 0.2mg/mL 5mL fill 6mL Syringe (1mg/5mL) lot number 1219009160. The potential root cause identified in Deviation Investigation (DV-19-553-W) was human error; however, the investigation did not identify the contaminating microorganism(s). The investigation was approved by Quality Assurance on 08/30/2019.*

• *Out-of-Specification Laboratory Investigation Report OOS 19-074-W was Initiated on 05/31/2019 for the sterility test failure of Phenylephrine HCl 40mcg/mL in 0.9% Sodium Chloride 10mL fill 12mL Syringe (400mcg/10mL) lot number 1219009289. The potential root cause identified in Deviation Investigation (DV-19-554-W) was human error; however, the investigation did not identify the contaminating microorganism(s). The investigation was approved by Quality Assurance on 08/30/2019.*

• *Out-of-Specification Laboratory Investigation Report OOS 19-123-W was Initiated on 09/25/2019 for the sterility test failure of Phenylephrine HCl 100mcg/mL in 0.9% Sodium Chloride 10mL fill 12mL Syringe (1000mcg/10mL) lot number 1219012541. A definitive root cause had not been determined but the Deviation Investigation (DV-19-810-W) indicated the possible root cause was human error; however, the investigation did not identify the contaminating microorganism(s). The investigation was approved by Quality Assurance on 10/18/2019.*

Furthermore, it was noted that from January 2019 to October 2019 the firm had approximately 105 occasions in which Personnel Exit Monitoring had exceeded the action limit specification for zero objectionable organisms mostly concerning samples taken from operator hoods (32 occurrences) and chests (50 occurrences); however, the firm had not identified a potential cause for this trend until the Environmental and Personnel Monitoring Q3 2019 Trend Report which was approved by Quality on 10/29/2019 during the inspection. Examples of the objectionable organisms recovered were *Bacillus cereus*, *Staphylococcus aureus*, *Moraxella osloensis*, and *Roseomonas mucosa*.

UPDATE ON RESPONSE 1A:

Part 1: Sterility Failures:

In our initial response on December 10, 2019, SCA committed:

- To strengthening SCA's sterility assurance program by developing and implementing a new global standard operating procedure, SOP QA-023, *Sterility Investigations*. That procedure became effective on December 31, 2019, per our commitment. This new procedure holistically integrates and strengthens SCA's investigation efforts by both the Microbiology laboratory (in conjunction with our existing SOP LAB-032, *Handling Out of Specification Results (Microbiology Lab)* and the Production department, in the event of a failing sterility test result at SCA.
 - Included in SOP QA-023 are two newly created forms: Form QA-023-01, *Compounding Process Sterility Failure Immediate Response Checklist Investigation* and Form LAB-070, *Microbiology Sterility Failure Immediate Response Checklist Investigation*. Such forms serve as checklists to assist in root cause determination in the event of a sterility failure. Both forms became effective on December 31, 2019. Reference Exhibits 1-18, 1-20 and 1-21 for the SOP and Forms. Reference Exhibit 1-19 for the associated SOP training.

- To attempt to identify the contaminating microorganism in the event of a sterility failure, to better enable root cause analysis and in so doing, more effectively prevent a recurrence. This commitment was originally planned to be part of SOP QA-023 and SCA committed to updating this procedure. However, SCA identified that SOP LAB-032 was the more appropriate SOP in which the requirement should be detailed. Accordingly, SCA revised SOP LAB-032, specifically sections 10.2.3 and 10.2.4 to describe the methodology utilized to help identify the contaminating microorganism. SOP LAB-032 was made effective on December 31, 2019 per our commitment. Reference Exhibit 1-22 for the SOP and Exhibit 1-23 for the associated SOP training.

Part 2: Objectionable Organism Trend:

In our initial response on December 10, 2019, SCA committed:

- To detailing a process for routinely assessing compounders gowning technique. Specifically, SCA committed to updating SOP COM-067-W: *Internal Assessment of Aseptic Behavior* to include a routine assessment of gowning technique, by date December 31, 2019. SCA assigned the QA organization, specifically the Aseptic Training and Compliance Team, to be responsible for driving this program. Accordingly, SCA converted an Operations document, SOP COM-067-W to a Quality document, SOP QA-024-W: *Internal Assessment of Aseptic Behaviors* and this SOP became effective on December 31, 2019, as committed. SOP QA-024-W requires, at a minimum, a quarterly assessment of aseptic behaviors which now includes an assessment of gowning technique. This assessment is documented on Form QA-024-01-W: *Aseptic Gowning Technique Assessment*. Reference Exhibits 1-24 and 1-26 for the SOP and associated form and Exhibit 1-25 for the associated SOP training.
- To separately calculate Microbial Recovery Rate (MRR) for compounder ISO 5 locations (sleeve and fingertips) and ISO 7 locations (Hood and Chest) on a monthly basis to ensure that trends in objectionable microorganism recoveries are detected. SOP LAB-030-W: *Trend Analysis of Environmental and Personnel Monitoring Data*, specifically section 11.2, was revised to detail the requirement for calculating compounder MRR. Reference Exhibit 1-27 for the SOP and Exhibit 1-28 for the associated SOP training.

Re: Pharmacy licenses IB03804 and IB03727

Good evening,

We are writing in regards to NRS 639.220 3. (a) which states that a person may not act as managing pharmacist for more than one licensed pharmacy. A waiver may be granted by the Board to the managing pharmacist of a pharmacy located in a hospital with fewer than 100 beds.

We are requesting a waiver to allow Audrey Blackwood (license #11109) the ability to manage 2 hospitals – Dignity – St. Rose Dominican Sahara Campus (license # IB03804) and Dignity – St. Rose Dominican Blue Diamond Campus (license # IB03727). Change in managing pharmacist forms were submitted to the Board on 03/24/21. Previously, a waiver was granted allowing our former managing pharmacist, Emmanuel Ebo (license #07325), the ability to manage our 4 hospitals. Each hospital has 8 licensed inpatient beds, meeting the fewer than 100 bed requirement for the waiver.

Thank you very much for your assistance and please let us know if you have any questions.

Sincerely,

Tamarah S. Walker, PharmD (license #19318)

Good morning,

Please find attached a waiver request for pharmacy licenses IB03804 and IB03727. Previously, Mr. Paul Edwards helped our former managing pharmacist, Emmanuel Ebo, with a similar request.

Please let me know if you have any questions.

Dear Nevada Pharmacy Board Members,

3/22/2021

I would like to explain why I have a stipulation and consent order against my license in the state of Minnesota.

On Dec 3,rd 2018, I returned to work after vacation. There had been a discrepancy in the narcotic count for hydrocodone/acetaminophen 5/325mg. The count was 5 tablets higher than expected so I began to investigate. I ran Omnicell reports that would show transactions that went back 3 months. It became obvious that there was a lot of suspicious activity by the Pharmacy technician. I had all the controlled substance documentation from previous years pulled from storage, so I could do a complete investigation. I assume the technician realized that I was suspicious because she emailed a letter of resignation to the Director of Nursing on Dec 4th.

I reviewed camera footage, Omnicell reports, McKesson invoices, transaction logs and outdated drug records and I realized that she had been diverting drugs in various ways, over the previous couple of years.

I contacted the Board of Pharmacy, DEA and the county sheriff's department and I had ongoing communication with all over the next couple of months.

Starting in January 2017 the hospital began decreasing both my hours and the other part time Pharmacist's hours, I was a 0.6 FTE and the other Pharmacist was 0.5 FTE, we worked together 1 day/2 weeks. There were hospital meetings, interdisciplinary committee, management, QI, P&T, med staff and patient safety that either I or the other Pharmacist, whoever was working that day, were required to attend. This time away from the Pharmacy allowed opportunity for the diversion to happen.

The Pharmacy Board felt that I or the other Pharmacist should have closed the Pharmacy during these meetings, not allowing the technician(s) to do their work.

My license is intact in the state of Minnesota, I just can not be a PIC for 12 months from October 2020.

In June 2019 I moved to Washington State and obtained my Pharmacist license. In December 2020, I went through the credentialing process to be a provider in a small hospital in Snoqualmie Washington. The Washington State Pharmacy Commission reviewed my report and decided that it was not within their jurisdiction and that they would not do a further investigation and I became a credentialed provider.

I recently started working for Dignity Health Emerus Sahara and Blue Diamond campuses as the Pharmacist in Charge. I am the primary Pharmacist for these two facilities but there are two other Pharmacists that will cover while I am on vacation. My role is primarily distributive with some clinical responsibilities. The structure of the company is setup so that Pharmacy technicians are not utilized and the only employees that are allowed access into the Pharmacy are the Pharmacists.

Respectfully,

Audrey Blackwood PharmD

DISCIPLINARY ACTIVITY: September 2020

The Board took the following disciplinary actions involving a **pharmacy** at its September 2020 meeting:

CVS Pharmacy #06057, License # 264046. Licensee had previously submitted its policies for the use of pharmacy technicians and counseling, with documentation of staff training on each. However, during a surveyor visit, Licensee's pharmacy staff members were observed not following the counseling policy and were not aware of a counseling refusal log. On August 23, 2019, thirty-eight days after the former PIC's resignation, CVS notified the Board of the designation of a new individual as Licensee's current PIC. At no prior time, did Licensee notify the Board of the PIC's termination of services or designate a new successor PIC. During the visit, it was identified that in April of 2018, Licensee had replaced manual documentation of quality assurance ("QA") with an electronic process that creates actionable work items in a queue, requiring the pharmacist to perform certain "data entry re-verification" actions. A review of Licensee's Reverification Report for documentation of QA contained multiple prescriptions listed under a column titled "Expired Re-verification Prescriptions." The Board Surveyor requested further clarification on how prescriptions that have not

received the required QA within 72 hours are handled. The Board issued a Stipulation and Consent Order, reprimanding the licensee and imposing a \$5,000 civil penalty.

The Board took the following disciplinary action involving a **pharmacist** at its September 2020 meeting:

Blackwood, Audrey K., License # 116902. While licensee was the pharmacist-in-charge of a pharmacy, a pharmacy technician diverted various controlled substances. The DEA 106 form that was submitted indicated that there were losses of twenty-five different controlled substances, totaling 18,269 tablets and capsules and 143ml of liquids and injectables. A large quantity of gabapentin was also found to be missing. Licensee failed to adequately supervise the pharmacy technician and to institute appropriate safeguards for controlled substances. For example, the pharmacy technician was allowed full management of the pharmacy's controlled substances inventory, with no separation of duties, such as verification of the inventory accuracy by a staff pharmacist. Consequently, the Board issued a Stipulation and Consent Order, reprimanding the Licensee and prohibiting her from serving as a pharmacist-in-charge of any Minnesota pharmacy.

The Board took the following disciplinary actions involving pharmacy technicians at its September 2020 meeting

Johnson, Kristian, Registration # 741136. In or around April 2019, Registrant provided forged documentation and references to a healthcare travel staffing agency. Registrant provided the staffing agency with a reference for a workplace at which

To

Nevada State Board of Pharmacy,

My name is Ahsun Cho and I am a Pharm D graduate at Midwestern University, Glendale Campus. I graduated in 2018 and am currently licensed in the state of Arizona. I have been practicing in retail pharmacy primarily in Bullhead City since I obtained my license on September of 2018. I have enjoyed living and working here in BullheadCity;however, my goal is to move to Nevada.

The purpose of this letter is to request a retake of the Nevada state MPJE. Unfortunately, I was unable to successfully obtain passing scores in all 5 of my attempts. On the day of my first attempt, I received news that I was expecting. I was filled with joy, nervous, excited and I was unable to concentrate on my exam. Around the second attempt, it was revealed to me that my pregnancy would not be viable, and I was heartbroken and again unable to concentrate. Every subsequent attempt after that resulted in failures. After taking some time off and focusing on my personal health, I feel that I am ready to make my final attempt.

I am very knowledgeable regarding pharmacy laws in Arizona and I have every intent to master the pharmacy laws in Nevada. After my failures, I continued to study intensely, purchased more materials and kept up my interest in the Nevada pharmacy law. If given this final opportunity, I am confident that I will be able achieve success. Thank you greatly for your time and consideration.

Ahsun Cho, Pharm D

(c) is applying for the licensure of a pharmacy located outside the state that will be shipping compounded parenteral products into this state.

The purpose is to insure firms will provide a continuum of home parenteral care which has frequently been absent with contract providers of parenteral pharmaceutical products from out-of-state. Our regulation in part will require:

1. A pharmacist, practitioner and nurse must be available at all times for immediate assistance to the patient;
2. The pharmacy must have access to orders for the medication, laboratory tests and other patient treatments; and
3. Documentation that patient assessment has been performed.

Your presence before the board can describe how these services are available and how you fulfill the requirements of the regulations.

The board has a legal right to require an appearance at a scheduled board meeting. If an appearance is **required**, your company will be notified in writing two (2) weeks prior to the meeting.

If you check off-site cognitive services on the application, Nevada Administrative Code 639.4916 requires "A pharmacist who is employed by an off-site pharmaceutical service provide to provide remote chart order processing services to a hospital or correctional institution pursuant to NAC 639.4915 must (a) Be licensed to practice in Nevada." Provide name and Nevada pharmacist license number. This does not have to be the managing pharmacist.

A license is usually issued and mailed within 15 days from the board meeting date, if approved.

This license is renewed in October of even numbered years, no matter when the license is issued. Fees are not pro-rated.

Please access the applicable laws on the website under "Nevada Statutes & Regulations" tab.

If you have any questions, contact the licensing specialist in the Reno office at (775) 850-1440 or by email at pharmacy@pharmacy.nv.gov.

TABLE NOTES	Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.	

	Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section. Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

	Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.
	In 2016, changes were made to the languages and language categories presented in tables B16001, C16001, and B16002. For more information, see: 2016 Language Data User note.
	The 2019 American Community Survey (ACS) data generally reflect the September 2018 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas. In certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.
	Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

	Explanation of Symbols: * An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate. * An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself. * An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution. * An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution. * An "****" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate. * An "*****" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate. * An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small. * An "(X)" means that the estimate is not applicable or not available.
