Risk Factor Summary

We are providing the following summary of the risk factors contained in this Annual Report on Form 10-K to enhance the readability and accessibility of our risk factor disclosures. We encourage you to carefully review the full risk factors contained in this Annual Report on Form 10-K in their entirety for additional information regarding the material factors that make an investment in our securities speculative or risky. These risks and uncertainties include, but are not limited to, the following:

- The outbreak of the novel strain of coronavirus, SARS-CoV-2, which causes COVID-19, could adversely impact our business, including our preclinical studies and clinical trials.
- We have not generated any revenue from the sale of our products, have a history of losses and expect to incur substantial future losses. The report of our auditor on our consolidated financial statements expresses substantial doubt about our ability to continue as a going concern; if we are unable to obtain additional capital, we may not be able to continue our operations on the scope or scale as currently conducted, and that could have a material adverse effect on our business, results of operations and financial condition.
- We expect that we will need substantial additional funding. If we are unable to raise capital when needed, or do not receive payment under our government awards, we could be forced to delay, reduce or eliminate our product development programs or commercialization efforts.
- We are heavily dependent on the success of tebipenem HBr, which is still under development, and our ability to develop, obtain marketing approval for and successfully commercialize tebipenem HBr. If we are unable to develop, obtain marketing approval for and successfully commercialize tebipenem HBr, or if we experience significant delays in doing so, our business could be materially harmed.
- If clinical trials of our product candidates fail to demonstrate safety and efficacy to the satisfaction of the FDA or comparable foreign regulatory authorities or do not otherwise produce favorable results, we may incur additional costs or experience delays in completing, or ultimately be unable to complete, the development and commercialization of such product candidates.
- To support our accelerated clinical development strategy for tebipenem HBr, we are relying, in part, on clinical data from two exploratory Phase 2 clinical trials conducted by Meiji (ME1211) and Global Pharma (L-084 04) in Japan, which were not conducted in accordance with FDA guidance for clinical trials in patients with cUTI. To the extent that these clinical trial design differences limit our use of the clinical data, our proposed clinical trial plan for tebipenem HBr with the FDA could be materially delayed and we may incur material additional costs.
- Preliminary or interim data from our clinical studies that we announce or publish from time to time may change as more patient data become available and are subject to audit and verification procedures that could result in material changes in the final data.
- Serious adverse events or undesirable side effects or other unexpected properties of tebipenem HBr or any other product candidate may be identified during development or after approval that could delay, prevent or cause the withdrawal of regulatory approval, limit the commercial potential, or result in significant negative consequences following marketing approval.
- Even if a product candidate does obtain regulatory approval, it may never achieve the market acceptance by physicians, patients, hospitals, third-party payors and others in the medical community that is necessary for commercial success and the market opportunity may be smaller than we estimate.
- If we are unable to establish sales, marketing and distribution capabilities or enter into sales, marketing and distribution agreements with third parties, we may not be successful in commercializing tebipenem HBr or any other product candidate if such product candidate is approved.
- We face substantial competition from other pharmaceutical and biotechnology companies and our operating results may suffer if we fail to compete effectively.
- We expect to depend on collaborations with third parties for the development and commercialization of some of our product candidates. Our prospects with respect to those product candidates will depend in part on the success of those collaborations.
- We contract with third parties for the manufacture of preclinical and clinical supplies of our product candidates and expect to continue to do so in connection with any future commercialization and for any future clinical trials and commercialization of our other product candidates and potential product candidates. This reliance on third parties increases the risk that we will not have sufficient quantities of our product candidates or such quantities at an acceptable cost, which could delay, prevent or impair our development or commercialization efforts.

- Our use of government funding for certain of our programs adds complexity to our research and commercialization efforts with respect to those programs and may impose requirements that increase the costs of commercialization and production of product candidates developed under those government-funded programs.
- If we are unable to obtain and maintain sufficient patent protection for our technology or our product candidates, or if the scope of the patent protection is not sufficiently broad, our competitors could develop and commercialize technology and products similar or identical to ours, and our ability to successfully commercialize our technology and product candidates may be adversely affected.
- We have registered trademarks and pending trademark applications. Failure to enforce our registered marks or secure registration of our pending trademark applications could adversely affect our business.
- If we are not able to obtain, or if there are delays in obtaining, required regulatory approvals, we will not be able to commercialize tebipenem HBr or our other product candidates, and our ability to generate revenue will be materially impaired.

Item 1. Business.

Overview

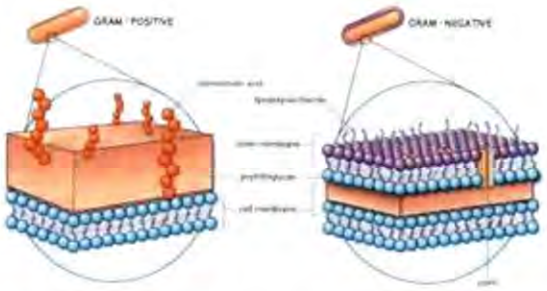
We are a multi-asset, clinical-stage biopharmaceutical company focused on identifying, developing and commercializing treatments in high unmet need areas involving multi-drug resistant, or MDR, bacterial infections and rare diseases. Our most advanced product candidate, Tebipenem Pivoxil Hydrobromide, or tebipenem HBr, is designed to be the first oral carbapenem-class antibiotic for use in adults to treat MDR Gram-negative infections. Treatment with effective orally administrable antibiotics may prevent hospitalizations for serious infections and enable earlier, more convenient and cost-effective treatment of patients after hospitalization. We are also developing SPR720, a novel oral antibiotic designed for the treatment of a rare, orphan disease caused by non-tuberculous mycobacterial pulmonary infections, or NTM disease. In addition, we are advancing SPR206, a next generation polymyxin investigational product candidate, being developed as an IV-administered medicine to treat MDR Gram-negative infections in the hospital. We believe that our novel product candidates, if successfully developed and approved, would have a meaningful patient impact and significant commercial applications for the treatment of MDR infections in both the community and hospital settings.

Antibiotic-resistant bacteria are one of the largest threats to global health, and their prevalence is increasing. While the majority of life-threatening infections historically resulting from antibiotic-resistant bacteria are acquired in the hospital setting, there is an increasing incidence of MDR pathogens in the community setting. Antibiotics used currently for first-line empiric treatment of MDR bacterial infections suffer from significant limitations and risks, including narrow spectrums of coverage and safety and tolerability concerns, and they can be associated with serious adverse effects. In addition, there are no oral antibiotics commercially available that can reliably be used in adults with MDR Gram-negative bacterial infections. This limits the ability of physicians to prevent hospitalizations and transition patients to their home from the hospital after receiving IV-administered therapy. The increasing prevalence of drug resistance and MDR Gram-negative bacteria, as well as the limitations of existing therapies and traditional drug development approaches, highlight the critical need for novel therapies, and in particular orally administrable agents, that are capable of overcoming these obstacles to effective patient treatment.

The Problem: Increasingly Limited Antibiotic Options for Severe Infections

Antibiotic Background

Antibiotics are drugs used to treat infections that are caused by bacteria. Prior to the introduction of the first antibiotics in the 1930s and 1940s, bacterial infections were often fatal. Today, antibiotics are used routinely to treat and prevent infections. There are two main varieties of bacteria, Gram-negative bacteria and Gram-positive bacteria, which are distinguished by structural differences in their cell envelope. Gram-positive bacteria are surrounded by a single lipid membrane and a thick cell wall, while Gram-negative bacteria are encircled by two lipid membranes, an inner membrane and an outer membrane, with a thinner cell wall in between, as shown in the illustration below.



Antibiotics that target Gram-negative bacteria must be specifically designed to cross both the inner and outer membranes to enter the bacteria. The outer membrane, with its LPS-containing outer leaflet, represents a significant barrier to the entry into the bacteria by antibiotics and is a significant contributor toward reduced potency of many agents in treating Gram-negative bacterial infections. Recent studies have found that Gram-negative bacteria in certain patient types, such as those with sepsis and Interstitial Lung Disease, are associated with higher mortality and increased intensive care unit, or ICU, admission. Moreover, a study of 13,796 patients in intensive care units around the world reported in 2009 that 51% of patients experienced bacterial infections, and of these patients 62% were infected by Gram-negative organisms.

Antibiotics are evaluated according to several criteria, including:

- ***Spectrum***. Antibiotics that are effective against a wide variety of bacteria are considered to be broad-spectrum, while those that act upon only a limited number of bacteria are considered to be narrow-spectrum.
- ***Potency***. Potency is the measure of the microbiological ability of an antibiotic to kill or inhibit growth of bacteria *in vitro*. Potency is commonly expressed as the minimum inhibitory concentration, or MIC, in μg/mL, which is the lowest concentration at which the drug inhibits growth of the bacteria. Antibiotics with lower MICs are considered to be more potent.
- ***Resistance***. Antibiotic resistance refers to the inability of an antibiotic to effectively control bacterial growth. Some bacteria are naturally resistant to certain types of antibiotics. Antibiotic resistance can also occur due to genetic mutations or changes in gene expression. There are numerous mechanisms responsible for antibiotic resistance, and resistance mechanisms are often found together and can be transferred between different bacteria, leading to multi-drug resistance.

Growing Antibiotic Resistance in the Hospital and Community Settings

Antibiotic resistance is one of the largest threats to global health, and resistance rates are increasing. Antibiotic resistance can affect anyone, of any age and in any country. According to the U.S. Centers for Disease Control's Antibiotic Resistance Threats in the United States, 2019 report, more than 2.8 million antibiotic-resistant infections occur in the United States each year, and more than 35,000 people die as a result. Approximately 70% of the pathogens that cause these infections are resistant to at least one antibiotic used to treat them. Resistance rates are climbing in both hospital-acquired and community-acquired infections. According to UNC Infectious Diseases investigator David van Duin, MD, PhD and colleagues in 2016: "Some MDR bacteria have become quite prevalent causes of community-acquired infections. The spread of MDR bacteria into the community is a crucial development, and is associated with increased morbidity, mortality, healthcare costs and antibiotic use." The incidence rate of serious infections is increasing, and the proportion of the infections caused by MDR pathogens is increasingly seen as an emerging threat to world health. The Centers for Disease Control and Prevention, or CDC, estimates that the annual impact of antibiotic-resistant infections on the United States economy is $20-35 billion in excess direct health care costs.

According to the CDC, among all of the bacterial resistance problems, Gram-negative pathogens, which cause a majority of all bacterial infections, are particularly worrisome because they are becoming resistant to nearly all drugs that would be considered for treatment. In February 2017, the World Health Organization, or WHO, published a list of Gram- negative bacteria based on the urgency of need for new antibiotics and highlighted a critical group of MDR Gram-negative bacteria that pose a particular threat to human health, including *Acinetobacter*, *Pseudomonas* and multiple Enterobacteriaceae (including *Klebsiella sp.*, *E. coli*, *Serratia* and *Proteus*). These pathogens are associated with significant mortality because the increased incidence of antibiotic resistance has limited the number of effective treatment options.

There is an acute need for new antibiotics to treat MDR bacterial infections, as few new antibiotics capable of addressing such infections have been approved recently for commercialization or are in clinical development. Further, the majority of MDR bacterial infections historically have been acquired in the hospital setting, where they have been treated using IV-administered antibiotics. However, increasingly such infections are being acquired in the community setting, emphasizing the need for orally administrable antibiotics that can effectively treat such infections.

Chronic Bacterial Infection without a Viable Cure

NTM infections represent a growing global health concern and major unmet medical need because of the lack of new medications being developed to combat these bacteria. NTM infections are ubiquitous environmental pathogens that can cause progressive lung damage and respiratory failure, particularly in patients with compromised immune systems or underlying pulmonary disorders.

Although rare, the incidence of pulmonary NTM disease is increasing worldwide. It is estimated that approximately 130,000 patients suffer from NTM disease in the United States and Europe, a figure that is growing at a rate of 8% annually. In addition, many patients go undiagnosed and could benefit from treatment with additional testing. The elderly and people with compromised immune or lung function are at greatest risk, as are patients with bronchiectasis for whom it is estimated that up to 50% may also have active lung infection caused by NTM. Treatment of pulmonary NTM disease requires prolonged therapy (continuing for approximately 12 to 24 months) with a combination regimen and is frequently complicated by tolerability and/or toxicity issues. Additionally, there are currently no oral antibiotics specifically approved for use to treat pulmonary NTM disease. *M. avium* complex is the most common NTM to cause human infection in the United States, and it makes up around 80% of the infections.

The most common treatment for NTM infections is combination therapy with drugs traditionally used for tuberculosis, or TB, which have limited efficacy and high toxicity. NTM infection is also associated with high healthcare costs and high mortality. In 2014, the annual cost in the United States of treating NTM infections alone was estimated at $1.7 billion.

Our Solution

Antibiotics currently used for first-line empiric treatment of MDR acute bacterial infections and NTM infection suffer from significant limitations. We believe that our product candidates will overcome these limitations, as described below:

- ***Tebipenem HBr is designed to address the lack of orally administrable antibiotics to prevent hospitalization and permit IV-to-oral switch therapy in resistant Gram-negative infections.*** Resistance to most commonly used classes of oral antibiotics, such as cephalosporins and fluoroquinolones, has increased significantly. Many of the most commonly used antibiotics for MDR Gram-negative infections are only available in an IV-administered formulation. Treatment with effective orally administrable antibiotics may prevent hospitalizations for serious infections and enable earlier, more convenient and cost-effective treatment of patients following hospitalization. Tebipenem HBr is an orally administrable tablet that we believe has the potential, if approved, to treat such infections in both the community and hospital settings, thereby preventing certain hospitalizations and enabling patients to transition to oral treatment. In the community setting, tebipenem HBr, if successfully developed and approved, may allow patients who develop an infection with a resistant pathogen, but are stable enough to be treated in the community, to avoid the need for an IV catheter and even hospitalization. Hospitalization is a key cost driver for hospital systems and payers, with increasing emphasis being placed on hospital avoidance. In the hospital setting, the lack of effective oral stepdown options results in the potential for lengthy hospital stays or the insertion of a peripherally inserted central catheter, or PICC, to facilitate outpatient administration of IV antibiotics. Tebipenem HBr may enable faster discharges, providing cost-saving advantages for the hospital and mitigating the risk of catheter-related and other hospital-acquired infections for patients.
- ***SPR720 is designed to be the first oral treatment for NTM infection where treatment failure is common and no approved therapies exist.*** The current treatment for NTM infection is lengthy and involves combination therapy, often including three or more antibiotics, including injectables. None of these combination treatments are currently approved for use in NTM infection. Treatment failure is common and is often due to poor compliance or patients' inability to tolerate the regimen. Many patients experience progressive lung disease as a result of NTM infection, and mortality rates are high, ranging from 29% to 69% within five years of diagnosis. We believe SPR720, if successfully developed, has the potential to be the first approved oral agent for NTM pulmonary infection. We initiated a Phase 2a clinical trial in patients with NTM pulmonary disease in December 2020 based on data from the Phase 1 clinical trial, pharmacokinetic analyses and preclinical studies supporting its advancement. On February 5, 2021, we announced that the FDA informed us that a clinical hold had been placed on our Phase 2a clinical trial of SPR720, which is further described elsewhere in this "Business" section of our Annual Report on Form 10-K under the heading "Update on Phase 2a Clinical Trial."
- ***SPR206 is designed to address the decline in the ability of novel and effective IV-administered antibiotics to treat MDR Gram-negative infections in the hospital setting.*** First-line IV empiric antibiotics, such as levofloxacin, ceftazidime and piperacillin-tazobactam, have experienced diminished utility as the number of bacterial strains resistant to these antibiotics in the hospital has increased. Due to gaps in the spectrum of coverage of antibiotics currently on the market, physicians are often confronted with the need to design complicated multi-drug cocktails for patients with serious infections. Based on results from preclinical studies to date, we believe that SPR206 has the potential to be developed as a single drug.

Our Pipeline – Multiple Near-term Catalysts Across the Rare and Infectious Disease Portfolio

The following table sets forth our product candidates, their status and certain anticipated milestones related to them.

Our Product Candidates

Tebipenem HBr (tebipenem pivoxil hydrobromide): Novel Antibiotic with Potential to be the First Oral Carbapenem for Use in Adults

Our lead product candidate, tebipenem HBr, is an oral carbapenem intended for use in adults to treat MDR Gram-negative infections. In September 2020, we announced positive top-line data from the single pivotal Phase 3 clinical trial, which is entitled ADAPT-PO, that is required for approval of tebipenem HBr to treat complicated urinary tract infection, or cUTI, and acute pyelonephritis, or AP. The ADAPT-PO trial achieved its primary objective, demonstrating that oral tebipenem HBr was statistically non-inferior to intravenous ertapenem in the treatment of patients with cUTI and patients with AP with respect to the primary endpoint of overall response at the test-of-cure, or TOC, visit in the microbiological-intent-to-treat, or micro-ITT, population. Comparative safety and tolerability data from 1,372 hospitalized adult patients enrolled in the study were similar between the tebipenem HBr and ertapenem treatment groups. The ADAPT-PO trial was designed as a double-blind, double-dummy trial to compare oral tebipenem HBr with an existing standard of care intravenous, or IV, antibiotic, ertapenem, in 1,372 hospitalized adult patients with cUTI or AP, randomized 1:1 in each arm. We intend to make a New Drug Application, or NDA, submission to the United States Food and Drug Administration, or FDA, for tebipenem HBr for the treatment of cUTI and AP in the second half of 2021.

Carbapenems have been utilized for over 30 years and are considered the standard of care for many serious MDR Gram-negative bacterial infections, but to date they have only been available as IV-administered formulations. Currently, there are no commercially available oral carbapenems for use in adults, and we believe tebipenem HBr has the potential to address this unmet need. Tebipenem HBr is an oral tablet formulation of tebipenem, a carbapenem-class antibiotic marketed by Meiji Seika Pharma Co. Ltd., or Meiji, in Japan as Orapenem® since 2009 for common pediatric infections. To accelerate our clinical development of tebipenem HBr, in June 2017 we signed an exclusive license to certain data and know-how from Meiji and a global pharmaceutical company, to which we refer as Global Pharma, which we intend to use to support our clinical development of tebipenem HBr. We have global commercialization rights to tebipenem HBr, except in certain contractually specified Asian countries.

The FDA has designated tebipenem HBr as a Qualified Infectious Disease Product, or QIDP, for the treatment of cUTI, community acquired bacterial pneumonia, or CABP, and moderate to severe diabetic foot infections, or DFI, under the Generating Antibiotics Incentives Now Act, or the GAIN Act. Among other benefits of a QIDP designation, the first marketing application for the QIDP-designated drug qualifies for priority review by the FDA. If tebipenem HBr is approved for treatment of cUTI, CABP or DFI, the QIDP designation previously granted to tebipenem HBr for those indications will entitle the drug product to receive a one-time five-year extension to any non-patent exclusivity period awarded for tebipenem HBr in the United States (the so-called GAIN exclusivity extension), such as a five-year New Chemical Entity, or NCE, exclusivity granted under the Drug Price Competition and Patent Term Restoration Act of 1984, or the Hatch-Waxman Act, for a total of 10 years, among other possible qualifying periods of regulatory exclusivity. In Europe, exclusivity for NCEs is 10 years (eight years for data exclusivity and an additional two years for market exclusivity), with the possibility of a one-year extension if the chemical entity is approved for use in an additional indication. The QIDP designation for tebipenem HBr, however, does not guarantee a faster development process or ensure FDA approval. Tebipenem HBr has been granted Fast Track Designation by the FDA for the treatment of cUTI and AP.

In January 2021, tebipenem HBr was granted a patent covering a crystalline form and pharmaceutical compositions of tebipenem HBr, with an expiration of February 2038. We believe that our intellectual property portfolio for tebipenem HBr, which includes multiple patent applications pending, will provide tebipenem HBr protection globally, including in the United States and Europe, through 2038. 1080

Advantages of tebipenem HBr

Key attributes of tebipenem HBr support our confidence in tebipenem HBr's commercial potential, if tebipenem HBr receives regulatory approval. We believe tebipenem HBr has the potential to be a safe and effective treatment for cUTI and other serious and life-threatening infections for which we may develop tebipenem HBr.

- ***Potential to be the first oral carbapenem in adults, if approved.*** Tebipenem HBr is designed to be the first broad-spectrum oral carbapenem-class antibiotic for use in adults to treat MDR Gram-negative infections. Unlike other carbapenems, which are only available as IV-administered infusions, tebipenem HBr is an orally administered tablet. Oral administration may potentially allow physicians to avoid IV-administered antibiotics for otherwise healthy or stable patients and/or allow for a reduction in costs associated with avoiding or shortening hospitalization.
- ***Potential for differentiated launch characteristics.*** There are limited branded or generic oral options currently approved or available to treat fluoroquinolone- and cephalosporin-resistant pathogens to assist with transitioning patients from the hospital to the community setting, or to prevent unnecessary hospitalization for cUTI. We believe tebipenem HBr, if approved, would be primarily reimbursable outside the hospital diagnosis-related group, or DRG, system, because of the desire from patients, physicians and payors alike to discharge patients from the hospital. Together, we believe these factors could differentiate tebipenem HBr from other recently launched antibiotic drugs, many of which are injectable, reimbursed within the hospital DRG system, and/or substitutable with equally effective generic alternatives.
- ***Potential uses for treatment.*** As a result of extensive existing data, we believe that tebipenem HBr has the potential to be used for the treatment of cUTI and other serious and life-threatening infections caused by resistant Gram-negative pathogens.
- ***Clinical profile observed in the ADAPT-PO clinical trial suggests there are no tradeoffs in treating with orol tebipenem HBr versus IV ertapenem; safety and tolerability data supported by the Japanese experience.*** The ADAPT-PO trial achieved its primary objective, demonstrating that oral tebipenem HBr was statistically non-inferior to intravenous ertapenem in the treatment of patients with cUTI and patients with AP with respect to the primary endpoint of overall response at the TOC visit in the micro-ITT population. In the ADAPT-PO trial, the safety and tolerability profile for oral tebipenem HBr was similar to IV ertapenem. Both the type and frequency of adverse events were well balanced across treatment groups, with treatment-emergent adverse events reported in 26% of treated patients in both arms. The most commonly observed TEAEs were diarrhea and headaches. Serious adverse events occurred in 1.3% of tebipenem HBr-treated patients, none of which were considered to be drug-related, and there were no deaths reported in the study.

  A granule formulation of tebipenem has been approved for use in Japan in pediatric patients since 2009, where it has demonstrated a favorable safety and efficacy profile. Approximately 1,200 subjects were dosed with the active pharmaceutical ingredient of tebipenem HBr, tebipenem, in clinical and pharmacologic studies during development of this drug by Meiji and its partner in Japan. This data set includes 741 adults, including 88 patients with cUTIs, the initial indication for which we are developing tebipenem HBr. In each case tebipenem has demonstrated a favorable safety, pharmacokinetic and tolerability profile. In addition, Meiji has conducted a 3,540 patient post-marketing study supporting the safety and tolerability profile of tebipenem, specifically demonstrating a safety profile that aligns well with that observed across the clinical trial program and tolerability in line with other broad spectrum oral antibiotics.
- ***Potential to enable IV-to-oral transition of antibiotic treatment to assist with reduction in hospital stays and/or eliminate the need for hospitalization.*** We believe the unique oral formulation of tebipenem HBr may enable patients who begin IV-administered treatment for extended spectrum beta-lactamases in the hospital setting to transition to oral dosing of tebipenem HBr either in the hospital or upon discharge for convenient home-based care. We believe that the availability and use of an oral carbapenem as a transition therapy may eliminate hospitalization or reduce the length of a patient's hospital stay and the overall cost of care.

We believe the foregoing advantages of tebipenem HBr also significantly differentiate tebipenem HBr from fluoroquinolones. Fluoroquinolones are the most widely used antibiotic class in treating community and hospital Gram-negative infections, but they have encountered increasing resistance among MDR Gram-negative bacteria and are associated with significant adverse effects. The table below reflects resistance rates in the United States in the community and hospital settings.

cUTIs in the United States	2019 *E. coli* Resistance Rates to Fluoroquinolones	2013-2014 *E. coli* Resistance Rates to Fluoroquinolones	2000-2004 *E. coli* Resistance Rates to Fluoroquinolones
Community Setting	21.2%	11.7%	0%
Hospital Setting	30.8%	34.5%	3.5%

Currently, fluoroquinolones are the most frequently selected antibiotic for empirical urinary tract infection, or UTI, treatment in the community and hospital settings. Current UTI treatment guidelines published by the Infectious Diseases Society of America identify fluoroquinolones as an appropriate empirical therapy option. This recommendation, however, is contingent on local resistance rates being less than 10%. The endemicity (high rates) of fluoroquinolone-resistant *E. coli* found in the United States today in the community and hospital settings based on the table above would suggest that fluoroquinolones should not be used empirically for cUTI patients.

The following table highlights the observed *in vitro* potency differences between tebipenem HBr and levofloxacin, the most widely used fluoroquinolone. As shown below, tebipenem HBr has a MIC90 value of 0.03 µg/ mL, which compares favorably (i.e., at or below) to the potency value obtained by levofloxacin.

Compound	*E. coli* MIC_{90} (µg /mL)
tebipenem HBr	0.03
Levofloxacin	>4

In addition, the FDA has issued several warnings against the use of fluoroquinolones in certain patients. In particular, an FDA Advisory Committee stated in November 2015 that the risk of serious side effects caused by fluoroquinolones generally outweighs the benefits for patients with acute bacterial sinusitis, acute exacerbation of chronic bronchitis and uncomplicated UTIs, and the agency subsequently issued a drug safety communication to the public and required safety labeling revisions be made to all products within this drug class. The FDA has determined that fluoroquinolones should be reserved for use in patients with these conditions who have no alternative treatment options and safety warnings in the labeling of fluoroquinolone class products have been further strengthened over the past several years. We believe tebipenem HBr could become a potential alternative to oral fluoroquinolones based on its safety and efficacy profile.

Significant Market Opportunity for Tebipenem HBr

Given the observed activity of tebipenem HBr against different bacteria, we view the market opportunity for tebipenem HBr, if approved, to be substantial, including for the following uses:

- Community setting: Treating urinary tract infections acquired in the community setting without the need for patient hospitalization.
- Hospital setting: Transitioning patients hospitalized for UTIs to an appropriate oral therapy as they are discharged from the hospital.

UTIs are among the most common bacterial diseases worldwide, with significant clinical and economic burden. IQVIA (formerly QuintilesIMS) estimates that between 33 and 34 million patients either visit their physician or are hospitalized for a UTI or otherwise suspected of experiencing a UTI in the United States annually. While drugs such as trimethoprim/sulfamethoxazole (Bactrim/Septra) and fluoroquinolones (levofloxacin, ciprofloxacin) have been the primary oral options for treatment of UTIs caused by Gram-negative organisms, nearly 30% to 35% of UTIs are resistant, which has led to increased use of IV-administered therapeutics such as carbapenems.

IQVIA completed a market assessment in August 2017 in the community and hospital settings in which it estimated that there were 11 to 12 million patients annually who presented in the community physician's office with a UTI and 3.5 to 4.5 million patients annually in the hospital with a UTI in the United States alone. Of these UTIs, 10 to 11 million are suspected to be caused by Gram-negative bacteria, and 4 to 5 million of these patients had an infection that is resistant to or failed first-line therapy, such as the fluoroquinolone class, or require IV therapy due to the severity of infection. Physicians in the survey reported high concern with growing fluoroquinolone resistance and lack of oral options for MDR Gram-negative infections. We believe tebipenem HBr is well positioned to meet the unmet need for an oral therapy for community-acquired UTI and may offer physicians an option for treating

MDR UTIs while avoiding patient hospitalization. In addition, we believe tebipenem HBr has the potential to accelerate hospital discharge and obviate the need for continued IV-administered therapy at home by transitioning discharged patients to an at-home oral therapy. Our pivotal Phase 3 clinical trial for tebipenem HBr, ADAPT-PO, was conducted in a subset of UTIs called cUTIs, and our target focus within this group is the 2.7 million patients receiving second line or IV treatment in the United States annually. A significant majority of UTIs, including these cUTIs, are caused by a group of MDR Gram-negative bacteria called Enterobacteriaceae, which tebipenem HBr is effective against.

Tebipenem HBr Clinical Development Program

Single Pivotal Phase 3 Clinical Trial (ADAPT-PO)

In September 2020, we announced positive data from the ADAPT-PO Phase 3 trial evaluating an all oral regimen of tebipenem HBr head-to-head versus an all IV regimen of ertapenem for the treatment of adults with cUTI, including AP. The global, randomized, placebo-controlled ADAPT-PO Phase 3 clinical trial evaluated the safety and efficacy of tebipenem HBr in hospitalized adult patients with cUTI or AP. Patients were randomized (1:1) to receive tebipenem HBr (600 mg) orally every 8 hours, or ertapenem (1 g) IV every 24 hours, for a total of 7 to 10 days.

The ADAPT-PO trial achieved its primary objective, demonstrating that oral tebipenem HBr was statistically non-inferior to intravenous ertapenem in the treatment of patients with cUTI and patients with AP with respect to the primary endpoint of overall response at the TOC visit in the micro-ITT population. Overall response (combined clinical cure plus microbiological eradication) rates at TOC were 58.8% for oral tebipenem versus 61.6% for IV ertapenem (treatment difference, -3.3%; 95% confidence interval [CI]: -9.7, 3.2; -12.5% NI margin).

Data presented at IDWeek 2020 expanded on the topline data, and demonstrated that both the clinical cure and microbiological eradication rates were comparable between treatment groups at the end of treatment, or EOT, TOC and at the late follow-up, or LFU, visits. Specifically, clinical cure rates, which are the key determinant in routine clinical management of cUTI/AP patients, were >93% in both treatment groups at TOC. The high clinical cure rates at TOC were sustained through LFU (88.6% and 90% for tebipenem HBr and ertapenem, respectively), demonstrating a durable clinical response in patients with cUTI and AP. Favorable microbiological response rates at TOC were likewise comparable between treatment groups and were similarly sustained up to LFU in both treatment groups (57.2% and 58.2% for tebipenem HBr and ertapenem, respectively). There were no statistically significant differences between treatment groups in overall response rates across key subgroups of interest, including those determined by age, baseline diagnosis, and presence of bacteremia at baseline. Per pathogen microbiological response rates were generally balanced across treatment groups for the predominant uropathogens.

Comparative safety and tolerability data from 1,372 hospitalized adult patients enrolled in the study were similar between the tebipenem HBr and ertapenem treatment groups. Treatment emergent adverse events, or TEAEs, were reported in approximately 26% of patients in both treatment groups and the most commonly reported TEAEs in both treatment groups were diarrbea (5.0%) and headache (3.8%). Serious TEAEs were infrequent (1.3% for tebipenem HBr vs. 1.7% for ertapenem) and no deaths were reported in the trial. Three *Clostridioides difficile* associated TEAEs were observed in the ertapenem group, while none were observed in the tebipenem HBr group.

Based on our pre-IND, pre-Phase 3 meeting with the FDA, we believe that positive results from a single pivotal Phase 3 clinical trial of tebipenem HBr in cUTI would support the approval of tebipenem HBr for the treatment of cUTI. The primary analysis and assessment of non-inferiority was evaluated using a pre-specified -12.5% non-inferiority (NI) margin. This NI margin was a modification of the original NI margin of -10% that was discussed with the FDA because of concern that the COVID-19 pandemic could have an adverse effect on the trial. As a result, the NI margin was modified prior to database lock from the original NI margin. Data from the ADAPT-PO Phase 3 clinical trial of tebipenem HBr, together with requisite safety data, drug-drug interaction studies and other studies, will form the basis for the NDA for tebipenem HBr to treat cUTI, including acute pyelonephritis, which we plan to submit to the FDA in the second half of 2021. The ADAPT-PO clinical trial may also support marketing applications in other global regions.

QIDP Designation

The FDA has designated tebipenem HBr as a QIDP for the treatment of cUTI, CABP and DFI under the GAIN Act. Among other benefits of a QIDP designation, the first marketing application for the QIDP-designated drug qualifies for priority review by the FDA. The QIDP designation for tebipenem HBr, however, does not guarantee a faster development process or ensure FDA approval. Further, if tebipenem HBr is approved for the treatment of cUTI, CABP or DFI, the FDA's QIDP designation previously granted to tebipenem HBr for those indications will entitle the drug product to receive a one-time five-year extension to any non-patent exclusivity period awarded to tebipenem HBr in the United States, such as a five-year New Chemical Entity exclusivity granted under the Hatch-Waxman Act, among other possible periods of regulatory exclusivity that would qualify for a GAIN exclusivity extension.

Japanese Data Supporting Safety of Tebipenem

Tebipenem pivoxil is a prodrug that is metabolized to tebipenem, its therapeutically active form. We view the clinical safety profile of tebipenem pivoxil established by Meiji as relevant and supportive of tebipenem HBr because both metabolize to the active metabolite, tebipenem, in plasma. Our formulation development efforts are designed to improve target concentration while maintaining the exposure per dose.

Tebipenem pivoxil is an orally administered carbapenem, which is a sub-group of the beta-lactam class of antibiotics. The safety of tebipenem pivoxil was evaluated in approximately 1,200 subjects supporting the application for approval in Japan. In this safety data set, there are 741 adult subjects across 17 trials and 440 pediatric subjects across six trials. These 23 trials in total included one double-blind, comparator-controlled trial in children, five open-label trials in children, five trials enrolling adult patients (including two open-label cUTI trials), and 12 Phase 1 clinical pharmacology trials. Among the pharmacology trials, tebipenem pivoxil was studied for an effect on QT interval, and for the known effect of the pivoxil prodrug on plasma carnitine concentrations.

In these studies, tebipenem pivoxil was generally well tolerated, with an adverse event, or AE, profile comparable to common, approved oral beta lactam antibiotics and IV-administered carbapenems. The most common AEs were gastrointestinal (e.g., diarrhea, loose stools) in both children and adults, and in the Phase 3 clinical trial of otitis media, the incidence was similar to that reported for the comparator, cefditoren pivoxil, an oral cephalosporin antibiotic. No effect of the administration of tebipenem pivoxil on the prolongation of the QT interval was observed, and the effect on plasma carnitine concentrations was reversed post treatment and not associated with AEs. A side effect seen with beta-lactam antibiotics is seizures; however, there have been no reports of inducement of seizures due to the administration of tebipenem pivoxil in clinical trials.

Meiji has reported post-marketing outcomes data reporting the safety and efficacy of Orapenem Fine Granules 10% for Pediatric Use (tebipenem pivoxil) in pediatric patients with pneumonia, otitis media, or sinusitis. A total of 3,547 cases were enrolled into the observational study, and the analysis was conducted using 3,540 cases for which it was possible to recover the questionnaires.

A total of 348 instances of adverse drug reactions were observed in 334 cases amongst the 3,337 cases (including 6 adult cases) used in the safety analyses, and the incidence of adverse drug reactions was 10.01% (334 cases/3,337 cases). The adverse drug reaction that occurred most frequently was "diarrhea" (9.5%, 318 instances/3,337 cases). One serious drug reaction was observed of "multi-organ failure". These data are consistent with the safety profile of tebipenem as established in the pediatric clinical trials and reflected in the Orapenem product labeling in Japan.

A clinical trial evaluating the effect of tebipenem pivoxil dosing over one week on intestinal flora was also performed. Total aerobic and anaerobic bacterial counts were evaluated. Total bacterial count was reduced by day 7 of the study in both the 100 and 200 mg TID groups. However, no additional change in bacterial count was observed on subsequent examination days. Neither fecal *C. difficile* nor its toxin was detected in any of the subjects during or following completion of the 7-day dosing period.

Funded Label Expansion Opportunity

In addition to cUTI, we believe that tebipenem HBr has the potential to treat other serious and life-threatening infections, including CABP. Our Biomedical Advanced Research and Development Authority, or BARDA, award provides funding for Phase 1 and Phase 2 trials supporting a potential CABP indication for tebipenem HBr.

SPR720: Novel Oral Antibiotic Designed for Treatment of Non-tuberculous Mycobacterial Pulmonary (NTM-PD) Disease

A second area of our focus is rare infectious diseases, specifically non-tuberculous mycobacterial pulmonary disease, a rare orphan disease. We are developing SPR720, which represents a novel class of antibacterial agents that target enzymes essential for bacterial DNA replication, for the treatment of NTM disease. NTM causes chronic and serious lung disease with debilitating symptoms that leads to a decline in lung function. It can have a significant physical and emotional impact on patients. SPR720 is designed to be the first novel, oral candidate to treat NTM pulmonary disease. SPR720 represents a novel class of antibacterial agents that target enzymes essential for bacterial DNA replication.

SPR720 has several key attributes including:

- ***Acceptable safety and tolerability within therapeutic dose range.*** Both the SPR720 Phase 1 trial and pharmacokinetic/pharmacodynamic (PK/PD) data for indicated that predicted therapeutic exposures could be attained with a 500 – 1,000 mg once daily oral dose. These doses in the Phase 1 trial were associated with a low incidence of adverse events with no serious adverse events reported. The most common adverse event among all cohorts was mild diarrhea not requiring discontinuation of therapy.
- ***Broad spectrum of activity.*** SPR720 has demonstrated a broad spectrum of activity in preclinical studies against the most common organisms causing NTM infections, including *Mycobacterium avium* complex, or MAC, *Mycobacterium kansasii* and *Mycobacterium abscessus*. SPR720 is applicable to both non-refractory and refractory patients.

PALO ALTO, Calif., October 20, 2021 — Today at HP's 2021 Securities Analyst Meeting ("SAM"), the company reiterated its fiscal 2021 financial outlook provided at Q3 2021 earnings, and provided details on its strategy and opportunities for long-term growth, along with its financial outlook for fiscal 2022.

"We continue to build a stronger HP. We have delivered exceptional financial performance since our last investor day in 2019 – and we are confident in our plans to deliver sustained revenue, operating profit, EPS and free cash flow growth," said Enrique Lores, President and Chief Executive Officer, HP Inc. "We are strengthening our core business, building a more growth-oriented portfolio, and creating a more digital company to meet changing customer needs and capitalize on secular trends across our categories."

Fiscal 2022 outlook

For fiscal 2022, the company estimates GAAP diluted net EPS to be in the range of $3.86 to $4.06 and estimates non-GAAP diluted net EPS to be in the range of $4.07 to $4.27. Fiscal 2022 non-GAAP diluted net EPS estimates exclude $0.21 per diluted share, primarily related to restructuring and other charges, acquisition-related charges, amortization of intangible assets, non-operating retirement-related (credits)/charges, tax adjustments and the related tax impact on these items.

Based on the current environment, HP anticipates generating free cash flow of at least $4.5 billion for fiscal 2022.

For fiscal 2022, the company indicated that it expects to return at least 100% of free cash flow through dividends and share repurchases. The HP Board of Directors has approved an increase to the planned annual dividend amount to $1.00 per share, reflecting an approximately 29% increase from the prior dividend. The balance is expected to be returned to shareholders through share repurchases.

"This is a record 29 percent increase in our annual dividend, underscoring our confidence in our ability to grow earnings and free cash flow in fiscal 2022 and beyond," said Marie Myers, Chief Financial Officer. "We remain deeply committed to aggressively returning capital to shareholders while also investing in attractive opportunities we see to drive profitable growth and long-term value creation."

Use of non-GAAP financial information

To supplement HP's financial information presented on a generally accepted accounting principles ("GAAP") basis, HP provides net revenue on a constant currency basis, non-GAAP total operating expense, non-GAAP operating profit, non-GAAP operating margin, non-GAAP tax rate, non-GAAP net earnings, non-GAAP diluted net EPS, free cash flow, gross cash and net cash (debt) financial measures. HP also provides forecasts of non-GAAP diluted net EPS and free cash flow. Reconciliations of each of these non-GAAP financial measures to the most directly comparable GAAP financial measures are included in the slides presented at the 2021 SAM. In addition, an explanation of the ways in which HP's management uses these non-GAAP measures to evaluate its business, the substance behind HP's decision to use these non-GAAP measures, the material limitations associated with the use of these non-GAAP measures, the manner in which HP's management compensates for those limitations, and the substantive reasons why HP's management believes that these non-GAAP measures provide useful information to investors is included below. This additional non-GAAP financial information is not meant to be considered in isolation or as a substitute for net revenue, operating expense, operating profit, operating margin, tax rate, net earnings, diluted net EPS, cash provided by operating activities or cash and cash equivalents prepared in accordance with GAAP.

Use and economic substance of non-GAAP financial measures

Net revenue on a constant currency basis excludes the effect of foreign currency exchange fluctuations calculated by translating current period revenues using monthly average exchange rates from the comparative period and excluding any hedging impact recognized in the current period. Non-GAAP operating margin is defined to exclude the effects of any amounts relating to restructuring and other charges, acquisition-related charges, and amortization of intangible assets. Non-GAAP net earnings and non-GAAP diluted net EPS consist of net earnings or diluted net EPS excluding those same charges, defined benefit plan settlement charges, non-operating retirement related (credits)/charges, debt extinguishment costs, tax adjustments and the amount of additional taxes or tax benefits associated with each non-GAAP item. HP's management uses these non-GAAP financial measures for purposes of evaluating HP's historical and prospective financial performance, as well as HP's performance relative to its competitors. HP's management also uses these non-GAAP measures to further its own understanding of HP's segment operating performance. HP believes that excluding the items mentioned above for these non-GAAP financial measures allows HP's management to better understand HP's consolidated financial performance in relation to the operating results of HP's segments, as HP's management does not believe that the excluded items are reflective of ongoing operating results. More specifically, HP's management excludes each of those items mentioned above for the following reasons:

- Restructuring and other charges are (i) costs associated with a formal restructuring plan and are primarily related to employee separation from service and early retirement costs and related benefits, costs of real estate consolidation and other non-labor charges; and (ii) other charges, which include non-recurring costs that are distinct from ongoing operational costs. HP excludes these restructuring and other charges (and any reversals of charges recorded in prior periods) for purposes of calculating these non-GAAP measures because HP believes that these costs do not reflect expected future operating expenses and do not contribute to a meaningful evaluation of HP's current operating performance or comparisons to HP's operating performance in other periods.

- HP incurs cost related to its acquisitions, which it would not have otherwise incurred as part of its operations. The charges are direct expenses such as third-party professional and legal fees, and integration-related costs, as well as non-cash adjustments to the fair value of certain acquired assets such as inventory. These charges related to acquisitions are inconsistent in amount and frequency and are significantly impacted by the timing and nature of HP's acquisitions. HP believes that eliminating such expenses for purposes of calculating these non-GAAP measures facilitates a more meaningful evaluation of HP's current operating performance and comparisons to HP's operating performance in other periods.

- HP incurs charges relating to the amortization of intangible assets. Those charges are included in HP's GAAP earnings, operating margin, net earnings and diluted net EPS. Such charges are significantly impacted by the timing and magnitude of HP's acquisitions and any related impairment charges. Consequently, HP excludes these charges for purposes of calculating these non-GAAP measures to facilitate a more meaningful evaluation of HP's current operating performance and comparisons to HP's operating performance in other periods.

- Non-operating retirement-related (credits)/charges includes certain market-related factors such as interest cost, expected return on plan assets, amortized actuarial gains or losses, and impacts from other market-related factors associated with HP's defined benefit pension and post-retirement benefit plans. The market-driven retirement-related adjustments are primarily due to the changes in the value of pension plan assets and liabilities which are tied to financial market performance and HP considers these adjustments to be outside the operational performance of the business. Non- operating retirement-related (credits)/charges also include certain plan curtailments, settlements and special termination benefits related to HP's defined benefit pension and post-retirement benefit plans. HP believes that eliminating such adjustments for purposes of calculating non-GAAP measures facilitates a more meaningful evaluation of HP's current operating performance and comparisons to HP's operating performance in other periods.

- HP incurs defined benefit plan settlement charges relating to HP funded pension plans. The charges are associated with the net settlement and remeasurement resulting from voluntary lump sum payments offered to certain vested participants that are separated from service. HP excludes these charges for the purposes of calculating these non-GAAP measures to facilitate a more meaningful evaluation of HP's current operating performance and comparisons to HP's operating performance in other periods.

- HP incurs debt extinguishment costs relating to repurchase of certain of its outstanding U.S. dollar global notes or termination of commitments under revolving credit facilities. These costs primarily included bond repurchase premiums partly offset by gains from fair value hedges. HP excludes these costs for the purposes of calculating these non-GAAP measures to facilitate a more meaningful evaluation of HP's current operating performance and comparisons to HP's operating performance in other periods.

- Tax adjustments include U.S. tax reform adjustment.

- HP recorded U.S. tax reform adjustments as one-time charges relating to the enactment of the Tax Cuts and Jobs Act of 2017 and has completed the accounting for the tax effects of the Tax Cuts and Jobs Act within the one year measurement period. Additional guidance is periodically issued by regulators and new positions taken or elections made by HP impact the income tax expense and effective tax rate in the period in which the adjustments are made.

- HP also recorded other tax adjustment including tax benefits and expenses related to the realizability of certain deferred tax assets, various tax rate and regulatory changes and tax settlements across various jurisdictions. HP excludes these adjustments for the purposes of calculating these non-GAAP measures to facilitate a more meaningful evaluation of HP's current operating performance and comparisons to HP's operating performance in other periods.

HP excludes these adjustments for the purposes of calculating these non-GAAP measures to facilitate a more meaningful evaluation of HP's current operating performance and comparisons to HP's operating performance in other periods.

Free cash flow is a non-GAAP measure that is defined as cash flow from operations adjusted for net investment in leases and net investments in property, plant and equipment. Gross cash is a non-GAAP measure that is defined as cash and cash equivalents plus short-term investments and certain long-term investments that may be liquidated within 90 days pursuant to the terms of existing put options or similar rights. HP's management uses free cash flow and gross cash for the purpose of determining the amount of cash available for investment in HP's businesses, repurchasing stock and other purposes. HP's management also uses free cash flow and gross cash to evaluate HP's historical and prospective liquidity. Because gross cash includes liquid assets that are not included in cash and cash equivalents, HP believes that gross cash provides a helpful assessment of HP's liquidity. Because free cash flow includes net cash (used in)/ provided by operating activities adjusted for net investment in leases and, net investments in property, plant and equipment, HP believes that free cash flow provides a more accurate and complete assessment of HP's liquidity and capital resources. Net cash (debt) is defined as gross cash less gross debt after adjusting the effect of unamortized premium/discount on debt issuance, debt issuance costs and gains/losses on interest rate swaps.

Material limitations associated with use of non-GAAP financial measures

These non-GAAP financial measures may have limitations as analytical tools, and these measures should not be considered in isolation or as a substitute for analysis of HP's results as reported under GAAP. Some of the limitations in relying on these non-GAAP financial measures are:

- Items such as amortization of intangible assets, though not directly affecting HP's cash position, represent the loss in value of intangible assets over time. The expense associated with this change in value is not included in non-GAAP operating margin, non-GAAP net earnings and non-GAAP diluted net EPS, and therefore does not reflect the full economic effect of the change in value of those intangible assets.

- Items such as restructuring and other charges, acquisition-related charges, non-operating retirement-related (credits)/charges, defined benefit plan settlement charges, debt extinguishment costs and tax adjustments that are excluded from non-GAAP operating margin, non-GAAP net earnings and non-GAAP diluted net EPS can have a material impact on the equivalent GAAP earnings measure and cash flows.

- HP may not be able to immediately liquidate the short-term and certain long-term investments included in gross cash, which may limit the usefulness of gross cash as a liquidity measure.

Other companies may calculate the non-GAAP financial measures differently than HP, limiting the usefulness of those measures for comparative purposes.

Compensation for limitations associated with use of non-GAAP financial measures

HP compensates for the limitations on its use of non-GAAP financial measures by relying primarily on its GAAP results and using non-GAAP financial measures only supplementally. HP also provides robust and detailed reconciliations of each non-GAAP financial measure to its most directly comparable GAAP measure in other written materials that include these non-GAAP financial measures, and HP encourages investors to review those reconciliations carefully.

Usefulness of non-GAAP financial measures to investors

HP believes that providing net revenue on a constant currency basis, non-GAAP total operating expense , non-GAAP operating profit, non-GAAP operating margin, non-GAAP tax rate, , non-GAAP net earnings, non-GAAP diluted net EPS, free cash flow, gross cash and net cash (debt) to investors in addition to the related GAAP financial measures provides investors with greater transparency to the information used by HP's management in its financial and operational decision making and allows investors to see HP's results "through the eyes" of management. HP further believes that providing this information better enables HP's investors to understand HP's operating performance and financial condition and to evaluate the efficacy of the methodology and information used by HP's management to evaluate and measure such performance and financial condition. Disclosure of these non-GAAP financial measures also facilitates comparisons of HP's operating performance with the performance of other companies in HP's industry that supplement their GAAP results with non-GAAP financial measures that may be calculated in a similar manner.

Mark Sedar, Chief Operating Officer
Nevada State Board of Pharmacy
985 Damonte Ranch Pkwy #206
Reno, NV 89521

Dear Mark,

This letter is a follow-up to my in-person appearance before the Nevada Board of Pharmacy on January 16, 2020 regarding the below misdemeanor conviction.

The regrettable incident took place 29 years ago while I was attending college at University of Missouri. The incident was a fraternity prank that was not a premeditated plan and I simply got caught in the middle of this prank. While I was outside in my car waiting for my friend after our lunch, he thought it would be amusing to grab a picture hanging in the restaurant on his way out and unfortunately jumped in my car with the picture.

As you can see from the below summary of the incident, I was charged as an accomplice to misdemeanor theft. I completed community service in February, 1993.

Name	Charge	City/State	Disposition Date	Name of Court	Circumstances Surrounding Conviction
Jay White	Misdemeanor-Theft	Columbia, MS	1992	Boone County Circuit Court	Convicted as an accomplice during college

Please let me know if you need anything further regarding this matter.

Sincerely,

Jay White

Minnesota does not require distributors of medical devices to be licensed. Teleflex LLC distributes medical devices, including medical convenience kits containing anesthetics. Per the email exchange with Steven Huff, Pharmacy Surveyor below, Teleflex LLC is exempt from licensing in Minnesota.

Bettina,

My understanding is that if what you say is correct, then you no longer need to have a drug wholesaler registration in Minnesota per MN Statute 151.441. Would you like me to return the application?

Thanks ,Steve

Subject: RE: Change of Ownership

Hello Steven,

The Plymouth, MN facility was licensed as a drug wholesaler under Vascular Solutions LLC (#363543). Vascular Solutions held this license in connection with its distribution of medical convenience kits containing prescription drugs (anesthetics, such as Lidocaine, used to numb the area where the medical device in the kit is inserted). We filed the application in September 2018 for Teleflex LLC, Plymouth, MN in advance of Vascular Solutions transferring the distribution operations at the facility to Teleflex LLC.
In reviewing your response regarding the procedures at the facility, we realized that Minnesota recently enacted legislation to conform its wholesaler requirements to the DSCSA. In light of those changes, it appears that the Plymouth, MN facility no longer meets the definition of "wholesaler" under MN law.
Section 151.441 MN Statutes includes an exemption from the definition of "wholesale distribution" for the distribution of medical convenience kits that meet certain conditions. The medical convenience kits distributed by Teleflex LLC meet all of those conditions. The kits:
Are assembled in a medical device establishment that is registered with the FDA under United States Code, title 21, section 360(b)(2);
Do not contain controlled substances;
Only include Products that are purchased directly from the pharmaceutical manufacturer;
Only include Products whose primary container and labelling have not been altered; and
Only include Products which are anesthetics.

The Plymouth, MN facility does not distribute any prescription drugs except as components of the medical convenience kits.
One of the reasons Teleflex LLC does not have all of the procedures required by the statutes and regulations identified in your December 4, 2018 letter is because Teleflex LLC is exempt from the wholesale licensing and track and trace requirements of the DSCSA. It now looks like Teleflex LLC is also exempt from the MN requirements.
Can you confirm that, as a distributor of medical devices and medical convenience kits meeting the requirements of Section 151.441, Teleflex LLC at the Plymouth, MN location is no longer required to hold a license from the Minnesota Board of Pharmacy for its distribution activities?

Dear Mark,

This letter is a follow-up to my in-person appearance before the Nevada Board of Pharmacy on January 16, 2020 regarding the below misdemeanor conviction.

The regrettable incident took place 29 years ago while I was attending college at University of Missouri. The incident was a fraternity prank that was not a premeditated plan and I simply got caught in the middle of this prank. While I was outside in my car waiting for my friend after our lunch, he thought it would be amusing to grab a picture hanging in the restaurant on his way out and unfortunately jumped in my car with the picture.

As you can see from the below summary of the incident, I was charged as an accomplice to misdemeanor theft. I completed community service in February, 1993.

Subject: RE: NAC 639.5935 - Wholesaler Designated Rep

Good day Mark,

I appreciate the opportunity to clarify my qualifications to act as the Designated Representative for FH2 Pharma LLC.

I have worked for well over 6000 hours for Forte Bio-Pharma, Intra-Sana Laboratories, and now FH2 Pharma over the past 3 years. We operate as a virtual manufacturer so, while I have never handled the medications directly, I have worked directly with our 3PL, Eversana, in relation to the ordering and dispensing, recordkeeping, and distribution of prescription drugs. I am comfortable with the various policies and procedures for handling wholesaler activities. This includes knowledge of security and access requirements and restrictions. In addition I am familiar with temperature storage requirements, accepting returns from pharmacies, segregating expired or otherwise unsaleable product and ensuring FDA recalled product is accepted for return and segregated.

I am confident I can successfully perform all responsibilities as the Designated Representative for FH2 Pharma LLC. If any further clarification is needed please let me know and I will be happy to provide.

Best Regards,

Nicholas Fares

Subject: NAC 639.5935 - Wholesaler Designated Rep

Hi Nick, below is our regulation concerning the requirement for a Wholesaler Designate Rep. Please let me know if you have any questions. If you do not meet the qualifications, I will need a Designated Representative form, submitted for your replacement.

NAC 639.5935Representative of wholesaler: General requirements; exceptions; approval; enforcement. (NRS 639.070, 639.100)

1. Except as otherwise provided in this subsection, an applicant for a license, or a licensee with a license, to operate as a wholesaler shall designate at least one natural person to serve as the representative of the wholesaler. The Board will not issue or renew a license of an applicant or licensee that is required to designate a representative of a wholesaler pursuant to this section unless the Executive Secretary determines that the designated natural person meets the

qualifications set forth in subsection 2 and approves that natural person to be the designated representative of the wholesaler. The requirement to designate a representative set forth in this subsection does not apply to:

(a) An applicant that is a publicly traded corporation; or

(b) An applicant in which a majority interest of the applicant is owned by a pharmacist who is:

(1) Licensed by the Board;

(2) A resident of this State; and

(3) Not an owner of any interest in a pharmacy licensed by the Board.

2. Except as otherwise provided in subsection 3, the Board will approve a natural person as the representative of a wholesaler if the applicant for a license to operate as a wholesaler or the licensee presents proof satisfactory to the Executive Secretary that the natural person:

(a) Has been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping relating to, prescription drugs;

(b) Has received a score of at least 75 percent on an examination given by the Board regarding federal and state laws and wholesaler practices; and

(c) Is at least 21 years of age.

3. The Board may, based upon any of the grounds set forth in NRS 639.210, refuse to approve a natural person for service as the representative of a wholesaler, regardless of whether the person is otherwise qualified.

4. A representative of a wholesaler designated pursuant to this section:

(a) Must be actively involved in and aware of the actual daily operation of the wholesaler;

(b) Must be employed full-time in a managerial level position with the wholesaler;

(c) Must be physically present at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leave, vacation leave and other authorized absences; and

(d) May serve in this representative capacity for only one wholesaler at a time.

5. A wholesaler that is required to designate a natural person as its representative pursuant to this section shall not open or operate a facility unless that representative is actually employed full-time in the operation of the wholesaler and is physically present at the facility of the wholesaler during regular working hours, not including sick leave, vacation leave and other authorized absences from work. If the natural person designated as the representative of a wholesaler leaves the employ of the wholesaler, thus leaving the wholesaler without a representative in violation of this section, the wholesaler shall:

(a) Immediately cease conducting business until another qualified natural person is approved by the Board to serve as the representative of the wholesaler; and

(b) Not later than 48 hours after that person leaves its employ, notify the Board that the person designated as the representative of the wholesaler has left the employ of the wholesaler.

6. Before a wholesaler that is in violation of this section because the natural person designated as the representative of the wholesaler left the employ of the wholesaler may continue conducting business:

(a) The wholesaler must designate, on a form provided by the Board, a new natural person to serve as the representative of the wholesaler; and

(b) The Executive Secretary must approve the natural person so designated.

7. A wholesaler that operates without a representative in violation of this section is subject to the immediate suspension of its license until it employs a qualified natural person to be its representative. The Executive Secretary may take such action as deemed necessary to secure the facility of the wholesaler and to ensure that the wholesaler does not conduct business during the period of the suspension.

4.4 ADDITIONAL RENT. LANDLORD shall receive the rent, set forth in Paragraph 4.1, free and clear of any and all other impositions, taxes, liens, charges, utilities or expenses of any nature whatsoever in connection with the operation of the PREMISES. TENANT shall pay to the parties respectively entitled thereto, or shall reimburse LANDLORD therefore: insurance premiums, property taxes, operating costs, utilities, maintenance charges, construction costs and any other expenses which arise or may be contemplated under provisions of this Lease, during the term hereof. All expenses, under the terms of this Lease, shall be deemed as "Additional Rent" and upon the failure of TENANT to pay any such expenses; LANDLORD shall have the same rights and remedies as otherwise provided in the Lease for the failure of TENANT to pay rent. LANDLORD may request payment of any Additional Rent owed, at any time during the term of this Lease. It is the intent of the parties hereto, that this Lease shall not be terminable for any reason by the TENANT and that TENANT shall in no event be entitled to abatement of, or reduction in, rent payable hereunder, except as expressly provided herein.

4.5 ADJUSTMENT IN RENT. There shall be an annual rent adjustment, for increases in the cost of living, during the Term of this Lease and any Option period thereof, on the Commencement Anniversary date May 1. No adjustment shall be made for decreases in the cost of living, if any.

Year 1	5/1/22-4/30/23	**$2,430 per month**
Year 2	5/1/23-4/30/24	**$2,503 per month**
Year 3	5/1/24-4/30/25	**$2,578 per month**
Year 4	5/1/25-4/30/26	**$2,655 per month**
Year 5	5/1/26-4/30/27	**$2,735 per month**

If Option to extend is exercised:

Year 7	5/1/28-4/30/29	**$2,902 per month**
Year 8	5/1/29-4/30/30	**$2,989 per month**
Year 9	5/1/30-4/30/31	**$3,078 per month**
Year 10	5/1/31-4/30/32	**$3,171 per month**

4.6 UNAUTHORIZED OCCUPANCY. Should TENANT be found occupying any portions of the parking areas or PREMISES not contracted for herein, additional rents may be charged.

4.7 LATE CHARGES. TENANT acknowledges that late payment, by TENANT to LANDLORD, of any Base Rent, Additional Rent or other charges due under this Lease, will cause LANDLORD to incur costs not contemplated by this Lease, the exact amount difficult to ascertain. Such costs include without limitation; processing, accounting and late charges that may be imposed on LANDLORD by the terms of any encumbrance or note secured by PREMISES or any bank. Therefore, if any rent or other sum due from TENANT is not received within five business (5) days, after the date due of any month of this Lease, TENANT shall pay to LANDLORD an additional sum equal to five percent (5%) of each overdue payment, payable on demand, which shall be deemed Additional Rent. LANDLORD and TENANT hereby agree that such late charge represents a fair and reasonable estimate of the costs that LANDLORD will incur by reason of any such late payment and that the late charge shall not be deemed a waiver of any other default. Additionally, all such delinquent rent, additional rent or any other charges due, plus this late charge, shall bear interest from thirty (30) days after due date thereof to the date of payment, at a rate equal to twelve percent (12%) per annum, compounded monthly. Any payments of any kind returned for insufficient funds will be subject to an additional handling charge of $35.00 and thereafter LANDLORD may require TENANT to pay all future payments of rent or other sums due by money order or cashiers check.

4.8 PRORATION. If any payments, rights or obligations hereunder relate to a period in part before the commencement of this Lease, or in part after the termination of this Lease, appropriate adjustments and proration shall be made between LANDLORD and TENANT for such property-related expenses.

5. SECURITY AND CLEANING DEPOSIT.

TENANT shall deposit with LANDLORD, upon execution hereof, **Two Thousand Seven Hundred Thirty Five Dollars ($2,735.00)**, as security for TENANT'S faithful performance of the provisions of this Lease, **which may not be applied to the last month's rent.** This security deposit shall always equal, or exceed, the last month's rent in the Term and any Extension thereof and shall be increased every time the Lease is extended. LANDLORD may use, apply or retain all or any portion of said deposit for the payment of rent or any other charge in default or to compensate LANDLORD for any loss or damage, including cleaning of PREMISES, which LANDLORD may suffer thereby. If LANDLORD applies any portion of said deposit, TENANT shall restore it to the full amount stated herein, within ten (10) days after written demand. TENANT'S failure to do so shall be a material breach of this Lease. LANDLORD shall not be required to keep said deposit separate from its general accounts. If TENANT performs all of TENANT'S obligations hereunder and leaves the entire PREMISES clean, including all the furnishings and fixtures therein and the PREMISES free from all debris or hazardous waste; upon vacating, said deposit or balance thereof, which has not been applied by LANDLORD, shall be returned without payment of interest to TENANT at the expiration of the term or at LANDLORD'S option, to the last assignee, if any, of TENANT'S interest hereunder.

6. BUSINESS RIGHTS AND RESTRICTIONS.

6.1 USE. The PREMISES shall be used solely for the following purpose(s):

The operation of a **Retail Pharmacy** and may be used, for other legal purposes that are compatible therewith and which do not conflict or compete with any existing Tenants' business. LANDLORD'S prior written consent shall be required for any such additional use, which shall not be unreasonably withheld or delayed, provided however, that proper licensing is obtained and any additional improvements on said PREMISES, necessitated thereby, shall be at the sole expense of TENANT.

6.2 RESTRICTIONS. TENANT shall not occupy a greater percentage of available paved PARKING than what is designated. TENANT shall not restrict ingress and egress to any buildings on the PREMISES

7. SIGNAGE.

All signage shall comply with rules and regulations set forth by LANDLORD and government authority, which may be modified from time to time. TENANT shall not fix or maintain signs, trademarks, descriptive material or any other such items on the exterior of the PREMISES, without the prior written approval of LANDLORD (which shall not be unreasonably withheld) as to size, type, color, location, copy, nature and display qualities. TENANT will be responsible for the cost of installing, lettering and maintaining any illuminated sign. The LANDLORD must authorize removal of signs and any damage to the building, due to sign removal, will be repaired at TENANT'S expense.

7.1 GENERAL REQUIREMENTS. TENANT shall not maintain any signs, wall or window display or advertising which is not professionally made and in good taste. Current rules and regulations relating to signage are described as follows:

(a) TENANT shall submit a sketch of proposed sign to the LANDLORD for approval, and be responsible for the fulfillment of all permit requirements and general specifications.

(b) No electrical or audible signs will be permitted except for electrical back lighting on the retail space.

(c) Placement of the sign and method of attachment to the building will be directed by the LANDLORD.

(d) TENANT shall not affix any sign or other equipment to the roof of the PREMISES.

(e) TENANT shall place no window covering (i.e. blinds, drapes, screens, tinting material, plywood, plastic or cardboard), stickers, signs, lettering, banners or advertising or display material on or near exterior windows or doors if such materials are visible from the exterior of the PREMISES, without LANDLORD'S prior written consent.

(f) TENANT may not install any alarm boxes, foil protection tape or other security equipment on the PREMISES without LANDLORD'S prior written consent. Any material violating this provision may be removed and destroyed by LANDLORD without compensation to TENANT.

(g) The LANDLORD must authorize removal of signs. TENANT is responsible for removal of lettering on all signs or removal expense will be deducted from security deposit. **Sign Cabinet, if installed, is the property of the LANDLORD and must be returned to LANDLORD, if removed from building.** Any damage to the building or cabinet due to removal of signage will be at TENANT'S expense.

8. HAZARDOUS SUBSTANCES.

8.1 REPORTABLE USES REQUIRE CONSENT. The term "Hazardous Substance", as used in this Lease, shall mean any substance whose presence, use, disposal or release on the PREMISES is either: (a) potentially injurious to the public health, safety or welfare, the environment or the PREMISES, (b) regulated or monitored by any governmental authority or (c) a basis for potential liability of LANDLORD to any governmental agency or third party, under any applicable statute. Hazardous Substances shall include: explosives, hydrocarbons, petroleum, gasoline or any by-products or other flammable substances. NEVADA STATE BOARD OF PHARMACY,

Petitioner,

v.

MOLIH O. OROCK, R.PH
Certificate of Registration No.: 16501
Respondent.
_____/

NOTICE OF INTENDED ACTION AND ACCUSATION
Case No. 08-046-RPH-S

COMES NOW Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, and makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3) and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Orock is a registered pharmacist with the Board.

II.

Mr. Orock checked his pharmacist license renewal application indicating he had completed 22.5 CEU's. During a random continuing education audit it was revealed he had only completed 1.0 CE units between November 1, 2005 and October 31,2007.

FIRST CAUSE OF ACTION

III.

By indicating on his renewal application that he had completed 22.5 CEU's during the biennial period November 1, 2005 to October 31, 2007 when he actually had not completed any CEU's, Mr. Orock violated NRS 639.210(4) and (9) and 639.2174(2) and Nevada Administrative Code (NAC) 639.330 and 639.390.

on this matter, at the Las Vegas Chamber of Commerce, 6671 Las Vegas Boulevard South, Las Vegas, Nevada. The hour of the hearing will be set by letter to follow.

IV

Failure to complete and file your Notice of Defense with the board and thereby request a hearing within the time allowed shall constitute a waiver of your right to a hearing in this matter and give cause for the entering of your default to the Notice of Intended Action and Accusation filed herein, unless the board, in its sole discretion, elects to grant or hold a hearing nonetheless.

DATED this 30th day of July, 2008.

Larry L. Pinson, Executive Secretary
Nevada State Board of Pharmacy

11/14/2021

Case No. 08-046-RPH-S

To Whom It May Concern:

This letter is an acknowledgement of the fact that in 2008, I had a citation from the Nevada Board of pharmacy. The citation was as a result of my inability to provide the board, upon request, proof of completion of continuing education (CE) for the period November 1, 2005 to October 31, 2007.

Sincerely,

Molih Orock, PharmD

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

v.

MOLIH O. OROCK, R.PH
Certificate of Registration No.: 16501
Respondent.

NOTICE OF INTENDED ACTION AND ACCUSATION
Case No. 08-046-RPH-S

COMES NOW Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, and makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3) and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy has jurisdiction over this matter because Respondent Orock is a registered pharmacist with the Board.

II.

Mr. Orock checked his pharmacist license renewal application indicating he had completed 22.5 CEU's. During a random continuing education audit it was revealed he had only completed 1.0 CE units between November 1, 2005 and October 31,2007.

FIRST CAUSE OF ACTION

III.

By indicating on his renewal application that he had completed 22.5 CEU's during the biennial period November 1, 2005 to October 31, 2007 when he actually had not completed any CEU's, Mr. Orock violated NRS 639.210(4) and (9) and 639.2174(2) and Nevada Administrative Code (NAC) 639.330 and 639.390.

on this matter, at the Las Vegas Chamber of Commerce, 6671 Las Vegas Boulevard South, Las Vegas, Nevada. The hour of the hearing will be set by letter to follow.

IV

Failure to complete and file your Notice of Defense with the board and thereby request a hearing within the time allowed shall constitute a waiver of your right to a hearing in this matter and give cause for the entering of your default to the Notice of Intended Action and Accusation filed herein, unless the board, in its sole discretion, elects to grant or hold a hearing nonetheless.

DATED this 30th day of July, 2008.

Larry L. Pinson, Executive Secretary
Nevada State Board of Pharmacy

11/14/2021

Case No. 08-046-RPH-S

To Whom It May Concern:

This letter is an acknowledgement of the fact that in 2008, I had a citation from the Nevada Board of pharmacy. The citation was as a result of my inability to provide the board, upon request, proof of completion of continuing education (CE) for the period November 1, 2005 to October 31, 2007.

Sincerely,

Molih Orock, PharmD

DISCIPLINARY ACTIONS AGAINST PHARMACY LICENSURE

CALIFORNIA (Non Resident Pharmacy Permit #NRP 851)

AcariaHealth Pharmacy #26, Inc. f/k/a Exactus Pharmacy Solutions, Inc. ("Exactus") received two citations dated May 3, 2012, from the California Board of Pharmacy including allegations of violation of California pharmacy laws and a fine of $500 for each citation.

The citations were: (1) a violation of the Business and Professions Code Section Section 4076 (a) that a pharmacist shall not dispense any prescription except in a container that meets all the requirements and is correctly labeled. Specifically, the pharmacy received seven prescriptions written by Dr. Claire Bolotaulo and abeled under Dr. Manikanda Raja's name instead of Dr. Bolotaulo's name which is a violation of pharmacy law; and
(2) a violation of California Code or Regulations Section 1761 (a) stating a pharmacist shall review a patient's drug therapy and medication record before each prescription drug is delivered. Specifically, the patient informed the pharmacy that benazepril 40mg and been discontinued, which was documented in the chart. However, a faxed prescription was received the following day by the pharmacy for the discontinued drug and it was dispensed without documentation of review. The issuance of a Citation by the Board of Pharmacy is considered an administrative action and substantiated resolution of a complaint and/or investigation. Payment of the fines described herein does not constituted an admission of the violations charged. Payment in full of the fines assessed is considered satisfactory resolution of the matter. Exactus paid the fines to conclude the matter.

Copy of the citation as well as the letter of satisfactory resolution from the California Board of Pharmacy is attached.

COLORADO (Prescription Drug Outlet Out of State Permit #OSP.0005720)

The Colorado Department of Regulatory Agencies, Division of Registrations took an action against Exactus. The Colorado State Board of Pharmacy (the "Board") found reasonable cause that Exactus failed to submit data to the Colorado Prescription Drug Monitoring Program ("PDMP") in a timely manner for the December 1-10, 2011 reporting period, as required by Board regulations. Exactus filed this report on December 13, 2011, three days late. As a result of its findings, the Board used a Stipulation and Final Agency Order, a copy of which is attached for reference, with a total fine amount of $5,500.00 and agreement to comply with the PDMP reporting requirements going forward. Exactus signed the Stipulation and Final Agency Order and paid the fine in order to conclude the matter. Exactus has implemented a robust monitoring system.

HAWAII (Miscellaneous Permit #PMP-531)

The Board of Pharmacy, Department of Commerce and Consumer Affairs, State of Hawaii took an action against Exactus in November 2015. As described above In late 2011 and 2012, Exactus was fined by the Boards of Pharmacy for Colorado and California for code violations which resulted in total fines of $6,500.00. The Hawaii Board of Pharmacy fined the Pharmacy $1,500.00 for failing to report these violations within 30 days as required under Hawaii Revised Statutes (HRS) Section 436B-19(13). On December 8, 2015, Exactus signed a Settlement Agreement and paid a fine of $1,500.00 in order to settle the matter. The Hawaii Board of Pharmacy approved the Settlement Agreement at its meeting on January 21, 2016.

Copy of the settlement agreement and acceptance letter from the Hawaii Board of Pharmacy is attached.

4. Respondent attached a copy of a May 3, 2012 Citation and Fine issued by the California Board of Pharmacy (hereinafter "the California Order") (Exhibit "1").

5. The California Order was based on allegations Respondent's pharmacist deviated from the requirements of a prescription. The Colorado Order imposed a $500.00 fine.

6. Respondent also attached a copy of a February 28, 2012 Stipulation and Final Agency Order issued by the Colorado State Board of Pharmacy (hereinafter "the Colorado Order") (Exhibit "2").

7. The Colorado Order was based on Respondent's failure to submit required data to the Colorado prescription drug monitoring program and assessed a $5,000.00 fine.

8. RICO alleges that disciplinary action was taken against Respondent by the States of California and Colorado and that Respondent failed to timely report the action.

9. The foregoing allegations, if proven at an administrative hearing before the Board, would constitute violations of the following statute(s) and/or rule(s): Hawaii Revised Statutes ("HRS") § 436B-19(13) (disciplinary action by another state) and § 436B-19(15) (failure to report).

10. The Board has jurisdiction over the subject matter herein and over the parties hereto.

7. Respondent understands that any false or untrue statement or any material misrepresentation or omission of fact by Respondent in this settlement agreement may be grounds for further disciplinary action under HRS chapters 436B and 461.

8. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's license.

9. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

10. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2015-11-L.

11. Respondent understands that this Settlement Agreement may be subject to reporting requirements.

12. Respondent understands this Settlement Agreement is public record pursuant to Hawaii Revised Statutes chapter 92F.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph(s) C.1 above, Respondent's license shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all indicia of the license to the Executive Officer of the Board within ten (10) days after receipt of

notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for a new license until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become licensed again, Respondent must apply to the Board for a new license pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible further sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of miscellaneous permit holders in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.

4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent nor any attorney that Respondent may retain, will raise as an objection in any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

Allergy Partners, PLLC d/b/a Allergy Partners Therapeutics ("AP") is a physician practice that specializes in allergy, asthma, and immunology. It was originally incorporated in 1979. It has more than 100 locations in 17 states. In June 2020, AP first obtained a pharmacy permit from the State of North Carolina and is now licensed in 16 states, including the State of Nevada. (Note that AP has not dispensed any prescriptions into the State of Nevada).

AP has not been involved in any lawsuits, arbitrations, administrative proceedings or other actions related to its pharmacy operations, the practice of pharmacy, prescription drugs and/or controlled substances. AP has not been the subject of any administrative proceeding by a state pharmacy board or a state medical board. As would be anticipated for a business of its size, AP has been involved from time to time in lawsuits and arbitrations related to its physician practice operations, including commercial disputes, employment matters, and actions alleging professional malpractice unrelated to the pharmacy. AP has not filed for bankruptcy at any time.

Dr. Brown joined the practice in 1987 and currently serves as its president. (Note that Dr. Brown does not have a Nevada medical license.) He has not been involved individually in any lawsuits, arbitrations, administrative proceedings or other actions related to pharmacy operations, the practice of pharmacy, prescription drugs and/or controlled substances. Dr. Brown has not been the subject of any administrative proceeding by a state pharmacy board or a state medical board nor has he filed for bankruptcy. From time to time, in his capacity as president of AP, he has been named as a plaintiff or defendant in lawsuits and arbitrations involving AP's physician practice operations.

Pharmacy Notes: The pharmacy opened on August 3, 2020, and inspections were completed on October 5, 2020 and October 15, 2020. The pharmacy did not dispense controlled substances and was in the process of acquiring a DEA permit. The pharmacy had one (1) patient at the time of the inspections, who was dispensed two (2) doses of medication.

The pharmacy was owned by Allergy Partners in a joint venture with Diplomat Specialty Pharmacy (Optum Infusion). RPh. Short stated that Allergy Partners, a physician-owned group of medical offices, owned the pharmacy space. Diplomat Specialty Pharmacy provided the contract employees of the pharmacy and other support. Specifically, Diplomat Specialty Pharmacy provided HR and quality assurance support, such as reviewing adverse events and assisting with quarterly cold chain monitoring. Diplomat Specialty Pharmacy also provided nurses for patients who infused at home. Allergy Partners provided a team to complete an intake and benefits investigation. This team worked in a corporate office adjacent to the pharmacy.

This inspection was a follow-up to the previous inspection on October 5, 2020. After consulting with Jeremy Evans from the Department of Agriculture, it was determined that the pharmacy was not participating in a distribution or wholesale process with Allergy Partners. No violations were noted.

AGREED BOARD ORDER #H-09-027-B

RE: IN THE MATTER OF RECEPT PHARMACY #1 (PHARMACY LICENSE #23060)

On this day came on to be considered by the Texas State Board of Pharmacy the matter of pharmacy license number 23060 issued to ReCept Pharmacy #1, 800 8th Ave., Suite 130, Fort Worth, Texas 76104.

By letter dated July 2, 2010, the Texas State Board of Pharmacy gave preliminary notice to ReCept Pharmacy #1 of its intent to take disciplinary action with respect to pharmacy license number 23060 held by ReCept Pharmacy #1 as a result of an investigation which produced evidence indicating that ReCept Pharmacy #1 may have violated:

> Section 565.001(a)(1), (2), (12) and (13); and Section 565.002(a)(3) and (6) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Subtitle J (2007);

The prescription was assigned prescription number 173292.

By letter dated July 2, 2010, ReCept Pharmacy #1 was notified that the matters previously set out in this Order could be disposed of without the scheduling of an informal conference or administrative hearing. By his signature on this Order, Nicky Lee Otts, Corporate President of ReCept Pharmacy LP, for and on behalf of ReCept Pharmacy #1 neither admits nor denies the truth of the matters previously set out in this Order, agrees that the Texas State Board of Pharmacy has jurisdiction in this matter and waives the pharmacy's right to informal conference, to notice of hearing, to a formal administrative hearing, and to judicial review of this Order.

Nicky Lee Otts understands that any failure to comply with the terms of this Order is a basis for discipline under the Texas Pharmacy Act.

Should this Order not be accepted by the Board, it is agreed that neither the presentation of the Order to the Board nor the Board's consideration of the Order, will be deemed to have unfairly or illegally prejudiced the Board or its individual members and, therefore, will not be grounds for precluding the Board or any individual member of the Board from further participation in proceedings related to the matters set forth in the Order.

Nicky Lee Otts, on behalf of ReCept Pharmacy #1, agrees to the entry of an Order disposing of the need for further disciplinary action in this matter and agrees to comply with the terms and conditions set forth in the ORDER OF THE BOARD below.

It is further ORDERED that Respondent shall develop and implement policies and procedures for a Continuous Quality Improvement Program for purposes of preventing and handling dispensing errors. The Continuous Quality Improvement Program shall include pharmacist peer review in compliance with guidelines approved by the Texas State Board of Pharmacy. In addition, the policies and procedures for pharmacist peer review shall state that:

(1) The peer review committee will:
- review incident reports;
- determine what caused errors;

- monitor the changes to determine if the changes have improved the operation of Respondent and reduced errors.

(2) The peer review committee must be comprised of at least two employees of Respondent, including the pharmacist-in-charge and other pharmacist(s) or personnel who are employees of Respondent. The committee shall not be solely comprised of a district or regional manager/supervisor and the pharmacist-in-charge and shall not be used for personnel evaluation purposes.

(3) The peer review committee will meet regularly, and no less than quarterly.

(4) The peer review committee will make a record indicating:
- date of meeting
- location of meeting;
- names of persons attending the meeting;
- description of activities;
- discussion of problems in Respondent's operation (e.g., work flow, dispensing process);
- findings;
- description of recommendations; and
- review of actions or changes relating to individuals, systems, or processes made as a result of previous recommendations.

Respondent shall submit a report and/or documentation of such policies and procedures to the Texas State Board of Pharmacy, Enforcement Division, within ninety (90) days after the entry of this Order. Copies of forms used by Respondent to collect the data on

errors committed at the pharmacy (i.e., incident report forms) must be submitted to the Texas State Board of Pharmacy, as well as any other peer review forms that have been developed by Respondent. Additionally, records of the peer review committee, as described in subparagraph (4) above, shall be maintained for two (2) years at the location of Respondent and made available for inspection by Texas State Board of Pharmacy employees.

It is further ORDERED that Respondent shall allow the staff of the Texas State Board of Pharmacy, Enforcement Division, to directly contact Respondent on any matter regarding the enforcement of this Order.

It is finally ORDERED that failure to comply with any of the terms and conditions in this Order constitutes a violation and shall be grounds for further disciplinary action against the Texas pharmacy license held by Respondent.

Re: Notification of Transaction - Summit Pharmacy Inc.
Current Permit Number(s): PH02756

Dear Mr. Wuest:

This letter is to notify your agency of a transaction involving the above referenced permit holder, Summit Pharmacy Inc. Please consider this letter as formal notice of the pending transaction.

Summit Pharmacy, Inc. previously notified your agency of a transaction wherein effective July 27, 2021 Lake Capital LLC became 100% owner of Summit Pharmacy, Inc. (the "Lake Capital Transaction"). Additionally, they noted that a follow-on transaction was being contemplated to merge Summit Pharmacy, Inc. into a new, to be determined merger entity in order to subsequently bring Summit Pharmacy, Inc. under a new 100% owner (the "Subsequent Transaction").

Thereafter, your agency advised Summit Pharmacy, Inc. to complete a change of ownership application based on the Lake Capital Transaction. Based on this, Summit Pharmacy, Inc. completed a change of ownership application but that is still pending final review and approval with your agency.

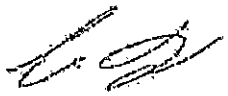
This letter is to advise you that on or about October 25, 2021, Summit Pharmacy, Inc. will undergo the Subsequent Transaction whereby Summit Merger Sub, Inc. (a wholly owned subsidiary of Healthcare, Inc.) will merge into Summit Pharmacy, Inc. and, at the conclusion of the transaction, Summit Pharmacy, Inc. will survive as a wholly owned subsidiary of Healthcare, Inc. We have included a pre- and post-closing organization chart detailing the Subsequent Transaction for your reference. Notably, Summit Pharmacy, Inc.'s tax ID number, NPI, location, officers, and pharmacist in charge will remain the same.

The above contemplated Subsequent Transaction constitutes a change of ownership in Summit Pharmacy, Inc.'s resident state of Arizona. Summit Pharmacy, Inc.'s Arizona resident pharmacy permit number will be changing as well. We will update your agency when it is received.

If required in your state, we will begin filing change of ownership applications or change of information statements as soon as possible so your agency may begin processing the changes. We welcome any feedback you may have as to how to facilitate or expedite the process.

Please feel free to contact me at 602-230-5530 or christopher.dang@quarles.com if you have any questions or if you would like any additional information regarding this transaction.

Very truly yours,



Christopher T. Dang

RE: IN THE MATTER OF
SUMMIT PHARMACY, INC
(PHARMACY LICENSE #27277)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacy license number 27277 issued to Summit Pharmacy, Inc. (Respondent), 2320 West Peoria Avenue, Suite D-132, Phoenix, Arizona 85029.

By letter dated December 21, 2017, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

Sections 565.002(a)(3) and (10); and 565.002(e) of the Texas Pharmacy Act, TEX. OCC CODE ANN. Title 3, Subtitle J (2013); and

The Order was based on failure to timely report controlled substance data to Alabama's prescription drug monitoring program database. The Consent Order imposed a $1,000 fine.

On or about December 19, 2012, Summit Pharmacy, Inc. submitted an application for renewal of its license as a nonresident pharmacy to the Texas State Board of Pharmacy. On the application it was falsely indicated that the pharmacy had not been subject to any disciplinary action by any regulatory authority within the last 36 months, when, on July 2, 2012 it was subject to the Alabama Board of Pharmacy Consent Order previously described.

(2) On or about December 15, 2014, Summit Pharmacy, Inc. submitted an application for renewal of its license as a non-resident pharmacy. On the application it was falsely indicated that the pharmacy had not been subject to any disciplinary action by any regulatory authority within the last 36 months, when in July 2012, it was subject to the Alabama Board of Pharmacy Consent Order described in Count (1).

An informal conference was held in the Board's office on March 6, 2018, with Apral Jones, Vice President Business Development; and Bruce Hayden, Chief Financial Officer,

Summit Pharmacy, Inc., on behalf of Respondent, in attendance. The informal conference was heard by a Board panel comprised of: Bradley A. Miller, Ph.T.R., Board Member; Dennis F. Wiesner, R.Ph., Board Member; and Allison Vordenbaumen Benz, R.Ph., M.S., Executive Director/Secretary; with Kerstin Arnold, General Counsel. Alissa Zachary, Staff Attorney, was also in attendance.

At the aforementioned conference, Bruce Hayden, on behalf of Respondent, waived the right to be represented by legal counsel. By signing this Order, Bruce Hayden, on behalf of Respondent, neither admits nor denies the truth of the matters previously set out in this Order, and agrees that the Board has jurisdiction in this matter and waives the right to notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Respondent shall pay an administrative penalty of two thousand dollars ($2,000) due one hundred twenty (120) days after the entry of this Order.

The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2017), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2018)

And it is so ORDERED.

Good morning Dr,
As far as I know, BOP doesn't require how many hours I stay in my office. So I would say I work in the mornings in my office and afternoons at your location. Also I can see pts on weekends.I also have certified orthotic fitters at my office. I am sure fitters are qualified to fit shoes as well.I think this should be ok with BOP.

Good Morning in Las Vegas!

We submitted your application to the board of pharmacy and they already responded. Below is their response and we were hoping you can email us a response as they say you are already the admin for Back in Step. I assume you will have time to do both functions especially as we are started brand new. I think their concern is your availability to our location in case a patient has a problem with their shoes. They probably want some sort of assurance that you available to be in our location on a daily basis even though you are the administrator for Back in Step.

Appreciate you emailing me a response so I can reply back to the board today as they responsed so fast to the application. Thanks!

Hi Jay,

From the application, Ms. Lim appears to be the owner of Back in Step which is also licensed with our board. She is listed as the administrator for Back in Step, the board will have questions concerning how she will handle duties at both locations. Could you provide details on how you plan to operate and how she will be employed at your location?

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **NEVADA HEALTH RX, INC.** **D/B/A PRAX-RX,** **Pharmacy License No. PH02898,** **SCOT SILBER, RPH,** **Certificate of Registration No. 08362,** **Respondents.**	**CASE NOS. 18-043-PH-S** **18-043-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes ("NRS") 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because at the time of the events alleged herein, Respondent Nevada Health Rx, Inc. d/b/a Prax-Rx ("Prax") held a Pharmacy License No. PH02898, and Respondent Scot Silber ("Silber") held a Nevada Pharmacist Certificate of Registration No. 08362, all issued by the Board.

DISCIPLINARY HISTORY

2. In April 2004, the Board entered an Order in *Board of Pharmacy v. Respondent Scot M. Silber, R.Ph., Case No. 03-016-RPH-S*, for violations resulting in the mislabeling of dosage directions on a prescription label for Roxanol Liquid, a Schedule II opioid analgesic. The patient ingested an unknown quantity of the medication and was subsequently hospitalized. The Board ordered Silber to pay a fine of $500.00.

3. In October 2012, the Board entered a Stipulation and Order in *Board of Pharmacy v. Respondent Scot M. Silber, R.Ph., Case No. 11-090-RPH-S,* for violations resulting in a

dispensing error. Silber misread a prescription and compounded 20 mg/cc morphine sulfate with ***2,500 mcg/cc baclofen*** rather than the 20 mg/cc morphine sulfate with ***250.0 mcg/cc baclofen*** as prescribed. The compound was administered to the patient who was subsequently hospitalized for baclofen toxicity. The Board placed Silber on probation for two years and imposed a $2,500 fine.

FACTUAL ALLEGATIONS

4. Respondent Prax is/was located on 61 Spectrum Boulevard, Las Vegas, Nevada 89101.

5. Respondent Silber was hired as the managing pharmacist of Prax on or about May 2017.

6. On or about July 17, 2017, Silber created a telephonic prescription record, number 100051, for patient C.F. for Cialis 20 mg, quantity twenty (20), by Dr. E.K. Dr. E.K. indicated that he treated patient C.F. for hypogonadism for which he prescribed testosterone 1% gel on September 5, 2017, January 23, 2018, and on May 15, 2018. Dr. E.K. stated that he has never written or telephoned any Cialis prescription for patient C.F.

7. On or about November 7, 2017, Silber created a telephonic prescription, number 100410, for patient C.F. for sildenafil 20 mg, quantity ninety (90). Silber dispensed this prescription to patient C.F. under Dr. E.K. Dr. E.K. stated that he treated patient C.F. for hypogonadism for which he prescribed testosterone 1% gel on September 5, 2017, January 23, 2018, and on May 15, 2018. Dr. E.K. stated that he has never written or telephoned any sildenafil prescription for patient C.F.

8. Patient C.F. is a personal friend of Respondent Silber.

9. On or about July 27, 2017, Silber created a telephonic prescription record, number C100076, for himself as the patient for testosterone 200 g/ml, quantity twenty-four (24) 1 ml vials with 5 refills called in by Dr. W.L.'s office. Two (2) 1 ml vials of testosterone cypionate were dispensed by Silber to himself on July 28, 2017. Dr. W.L. stated that he did not have a written or telephoned record of testosterone prescription for Silber on or about July 27, 2017.

10. On or about July 28, 2017, Silber created a telephonic prescription record, number 100077, for himself as the patient for cyanocobalamin 1000 mcg/ml one (1) – 10 ml vial with 5 refills called in by Dr. W.L. Dr. W.L. stated that he did not have a written or telephoned record of this prescription for Silber on or about July 28, 2017.

11. On or about September 19, 2017, Dr. P.E. wrote a prescription, number C100208, for 1 mg alprazolam, quantity ninety (90), with 5 refills and instructions to take 1 tablet 3 times per day for patient J.B. On or about September 20, 2017, Silber dispensed the initial fill of the alprazolam prescription to patient J.B.

12. On or about September 25, 2017, Dr. B.C. wrote a prescription, number 100228, for gabapentin 300 mg, quantity ninety (90), with directions for patient J.B. to take 1 capsule three times a day with twelve (12) refills. Silber dispensed the initial fill of the gabapentin on or about the same day.

13. On or about November 30, 2017, Silber dispensed all of the refills of prescription number C100208 to patient J.B. for a total of four-hundred and fifty (450) tablets of alprazolam 1mg, or a 150-day supply. Silber did not provide any pharmacy records of contact with the prescriber or other explanation for dispensing the remaining refills all at one time. Dr. P.E. confirmed that while he did write the prescription for alprazolam 1mg quantity ninety (90) with 5 refills for patient J.B. on September 19, 2017, he did not authorize a quantity of four-hundred and fifty (450) tablets to be dispensed at one time.

14. On or about November 30, 2017, Respondent Silber dispensed the remaining eleven (11) refills of gabapentin 300 mg for patient J.B. for nine-hundred and ninety (990) capsules, or a 330-day supply. Silber provided no pharmacy records of contact with the prescriber or notation of why the total of the remaining refills was dispensed at one time. Dr. B.C. stated that she did write the prescription on September 25, 2017 for patient J.B., but at no time did Dr. B.C. authorize nine-hundred and ninety (990) capsules to be dispensed all at one time.

15. Patient J.B. was hired by Respondent Silber as the vice president of operations at Prax. Patient J.B. was also the operations manager at Green Valley Drugs, and management consultant for Partell Pharmacy. Silber was once an owner of Green Valley Drugs, and formerly the managing pharmacist for Partell Pharmacy.

16. On or about March 20, 2018, the Drug Enforcement Administration ("DEA") Diversion Investigators executed an inspection warrant on Prax. The DEA conducted a closing inventory of controlled substances, obtained documentation, and questioned Silber. Respondent Silber stated to the DEA investigator that he had not conducted an initial inventory of controlled substances.

17. Silber also disclosed to DEA investigators that Prax sells controlled substances to prescribers for office administration and appear in the Prescription Monitoring Program ("PMP") as dispensed prescriptions. Approximately forty-nine (49) invoices to physician offices and thirty-two (32) sales to patients during the April 1, 2017 to March 20, 2018 time period were discovered in sales reports. Prescription records for controlled substances and dangerous drugs from same time period reveal approximately eighty-two (82) patient-specific prescriptions and five-hundred and seventy-three (573) prescription numbers assigned to office use medications. Prax was not registered as a distributor/wholesaler and only held a pharmacy registration with the Board.

18. During the DEA investigation, it was also discovered that 2 fentanyl 50mcg/ml 2ml vials were broken during shipment. Prax never completed a DEA 106 form or reported the fentanyl loss to the DEA within 1 business day of loss discovery.

19. Neither Prax nor Silber completed a controlled substance loss or theft form for the fentanyl loss to the Board within 10 days after loss discovery.

20. On or about April 13, 2018, a voluntary DEA surrender of controlled substances registration for Prax was executed by owner Greg Sundem.

Attorneys for Stephen Dubin, MD

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. STEPHEN DUBIN, MD, Certificate of Registration No. CS19164, Respondent.	CASE NO.: 20-020-CS-S ***AMENDED* ANSWER AND NOTICE OF DEFENSE**

Respondent above named, respectfully submits this amended answer to the Notice of Intended Action and Accusation filed in the above-titled matter before the Nevada States Board of Pharmacy (the "Board"). This amended answer is intended to take the place of, and otherwise supersede, Respondent's answer filed with the Board on September 3, 2021. Respondent declares:

1. That his objections to the Notice of Intended Action and Accusation as being incomplete or failing to state clearly the charges against him, is hereby interposed on the following grounds:

a. This action is barred by the doctrine of laches. The Board's Notice of Intended Action and Accusation addresses conduct that is alleged to have occurred in December 2018. The Board filed its Notice of Intended Action and Accusation on August 13, 2021, almost *three years* after the alleged conduct, without a valid excuse for such delay, as a result of which Dr. Dubin was prejudiced. Implicit in the Board's statutes (NRS 639.241, *et. seq.*) and its

regulations (NAC 639.120, *et. seq.*) is an obligation to proceed promptly and fairly against Respondent. Because the Board did not promptly make a determination as to whether the Notice of Intended Action and Accusation would be filed against Dr. Dubin until approximately three years after the alleged conduct, evidence favorable to Dr. Dubin's defense has been negatively affected, including the availability of documentary evidence and the erosion of witness memories, among other matters. Lacking good cause and undermining Respondent's ability to defend against the charges, it would be inequitable and unjust for the Board to proceed on these charges.

b. The Board has unclean hands because it is engaging in selective and vindictive prosecution by proceeding against Respondent in bad faith and pursuant to a bad motive in retaliation for the United States Attorney's Office for the District of Nevada's ("USAO") decision to decline the referral for civil prosecution due to lack of evidence against Respondent.

c. Respondent steadfastly denies that he "pre-sign[ed], post-sign[ed], or allow[ed] staff to call in controlled substance schedule II prescriptions for patients without Dubin's dated and handwritten signature while Dubin was engaged in overseas travel," as alleged in the First, Second, and Third Causes of Action. The Notice of Intended Action and Accusation demonstrates a fundamental misunderstanding of the operative facts, as follows:

i. At no point did Dr. Dubin pre-sign, post-sign, or approve prescriptions while he was out of the country.

ii. Jireh Healthcare is a hospice provider. Respondent is the medical director. At the time of the events in issue in the Notice of Intended Action and Accusation, Trinity Pharmacy served as Jireh's exclusive pharmacy. Trinity Pharmacy is permitted to fill any prescription within 14 days of the date of issue. NRS 453.431(4).

iii. It appears that the allegations in the Notice of Intended Action and Accusation rely entirely on the fill date listed in the Prescription Monitoring Program ("PMP") printout and not the actual prescriptions. The PMP for patients A.D., M.G., M.H. and D.B. reflects a fill date when the prescription was called in by the mid-level hospice provider.

iv. For the specific prescriptions at issue, however, Dr. Dubin was unaware they were being filled. He did not pre-sign, post-sign, or authorize Jireh staff to call them in to Trinity. In each case, Trinity Pharmacy appears to have filled the prescriptions immediately after receiving the request from the mid-level provider and did not seek or obtain authorization

from Dr. Dubin.[1] The face of the prescriptions do not reflect Dr. Dubin's actual signature, and appear to have been signed by someone else or left unsigned.

iv. In context, the Notice of Intended Action and Accusation relates to prescriptions written for hospice patients who are most in need of controlled substances to treat intractable pain and other conditions attendant to their terminal status. The prescriptions for Patients M.G. and D.B. for example, plainly state that these are hospice patients.

d. The purpose of the foregoing paragraphs is to place the Board on notice of Respondent's current legal objections to its Complaint. Respondent respectfully reserves the right to expand upon and brief these objections at the appropriate juncture, if necessary, and further reserves the right to raise such other defenses as further investigation and additional evidence dictates.

2. That, in answer to the Notice of Intended Action and Accusation, he admits, denies, and alleges as follows:

a. Respondent admits that the Board has jurisdiction over this matter.

b. Respondent admits the allegations in Paragraphs 2 and 3, but denies that Jireh's employees are his agents or staff members.

c. The allegations in Paragraph 4 are vague and overbroad because they are not limited to a specific time frame and fail to identify alleged patients. Because Respondent cannot respond adequately to these allegations, he denies them.

d. With regard to the allegations in Paragraph 5, Respondent admits that diversion investigators with the Drug Enforcement Administration filed a referral for civil prosecution with the USAO. After vetting the matter, including receiving a fulsome response from Respondent, the USAO *declined* the referral for civil prosecution.

e. Respondent admits the allegations in Paragraph 6.

f. With regard to the allegations in Paragraphs 7 through 9, Respondent denies that "Honey" or "Speedy" are his "agent or staff member." "Honey" and "Speedy" are mid-level providers employed by Jireh Healthcare. Respondent is without sufficient knowledge to respond to the remainder of the allegations in Paragraphs 7 through 9, and thus, denies the allegations on that basis.

---

[1] Nonetheless, Respondent would have authorized each of these prescriptions had he known about them because he believes they were appropriate for the conditions being treated.

g. Respondent is without sufficient knowledge to respond to the allegations in Paragraph 10, and, thus, denies the allegation on that basis.

h. With regard to the allegations in Paragraphs 11 through 13, Respondent denies that "Honey" or "Speedy" are his "agent or staff member." "Honey" and "Speedy" are mid-level providers employed by Jireh Healthcare. Respondent is without sufficient knowledge to respond to the remainder of the allegations in Paragraphs 11 through 13, and thus, denies the allegations on that basis.

i. The allegations in Paragraphs 14 - 25 contain conclusions of law for which no answer is required.

j. For the reasons set forth in his objections, and based on his admissions and denials of the allegations in the preceding paragraphs, Respondent denies the allegations in the First through Fourth Causes of Action.

k. I hereby declare, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to best of my knowledge.

Dated this 21st day of October, 2021.

DECLARATION OF MA LOURDES JAUREGUI, RPH

I, MA LOURDES JAUREGUI, declares under penalty of perjury that the following assertions are true and correct of my own personal knowledge unless stated upon information and belief:

1. I was the managing pharmacist of Trinity Pharmacy ("Trinity") located at 2797 S. Maryland Parkway, Suite 28, Las Vegas, Nevada. I am writing this declaration because I am unavailable for the scheduled hearing for alleged violations against Stephen Dubin, MD ("Dubin") regarding the Nevada State Board of Pharmacy's ("Board") case number 20-020.

2. I have personal knowledge of all matters stated herein and, if called as a witness, could and would testify competently thereto, except as to those matters stated upon information and belief, and as to those matters, I believe them to be true.

3. On or about September 10, 2020, the Board's investigator, Dena McClish, requested certain prescription records from Trinity.

4. On or about September 10, 2020, I forwarded the requested prescription records, which included the following:

   a) True and correct copies of Trinity's (redacted) prescription records for patient A.D. on December 18, 2018 are attached hereto as Exhibit "1". However, I was not the pharmacist who filled this particular prescription. It was filled by a floater pharmacist.

   b) True and correct copies of Trinity's (redacted) prescription records for patient M.G. on December 19, 2018 are attached hereto as Exhibit "2".

   c) True and correct copies of Trinity's (redacted) prescription records for patient M.H. on December 19, 2018 are attached hereto as Exhibit "3".

d) True and correct copies of Trinity's (redacted) prescription records for patient D.B. on December 20, 2018 are attached hereto as Exhibit "4".

5. Exhibit "1" contains a prescription for patient A.D. which was telephoned by "Honey" on behalf of Dr. Dubin. "Honey" indicated that the prescription was authorized by Dr. Dubin. I did not speak with Dr. Dubin himself. The prescription for patient A.D. was taken by the floater pharmacist on December 18, 2018 for alprazolam 1 mg tablet. The alprazolam was dispensed on December 21, 2018 at 10:54 a.m. Dr. Dubin never signed this prescription.

6. Exhibit "2" contains a prescription for patient M.G. which was telephoned by "Speedy" at 4:00 p.m. on December 19, 2018 on behalf of Dr. Dubin. "Speedy" indicated that the prescription was authorized by Dr. Dubin. I did not speak with Dr. Dubin himself. The prescription for patient M.G. was written in my handwriting for Percocet 10/325 mg, 60 tablets for a 15 day supply. The prescription was dispensed on December 21, 2018 at 10:55 a.m. On the prescription signature information, the patient or the guardian signed for receipt of the prescription. Dr. Dubin signed this prescription within 72 hours of December 19, 2018, but is undated.

7. Exhibit "3" contains a prescription for patient M.H. which was telephoned by "Speedy" at 1:00 p.m. on December 19, 2018. "Speedy" indicated that the prescription was authorized by Dr. Dubin. I did not speak with Dr. Dubin himself. The prescription for patient M.H. was for lorazepam 0.5 mg tablet, 45 tablets. The prescription was dispensed on December 21, 2018 at 10:55 a.m. On the prescription signature information, the patient or the guardian signed for receipt of the prescription. Dr. Dubin never signed this prescription.

8. Exhibit "4" contains a prescription for patient D.B. which was telephoned by "Honey" at 4:00 p.m. on December 20, 2018. "Honey" indicated that the prescription was authorized by Dr. Dubin. I did not speak with Dr. Dubin himself. The prescription for patient D.B. was for morphine sulfate OS 20mg/ml, quantity 30. The prescription was dispensed on December 20, 2018 at 5:58 p.m. On the prescription signature information, the patient or the guardian signed for receipt of the prescription. Dr. Dubin signed this prescription within 72 hours of December 20, 2018, but is undated.
9. Exhibit "4" also contains a prescription for patient D.B. which was telephoned by "Honey" at 4:00 p.m. on December 20, 2018. "Honey" indicated that the prescription was authorized by Dr. Dubin. I did not speak with Dr. Dubin himself. The prescription for patient D.B. was for lorazepam O/C, quantity 30. The prescription was dispensed on December 20, 2018 at 5:58 p.m. Dr. Dubin never signed this prescription.
10. My understanding was that the prescriptions for hospice patients from Jireh Healthcare were all considered emergency oral prescriptions. However, I did not notate on the telephoned or oral prescriptions, "Authorization for Emergency Dispensing" nor did I speak with Dr. Dubin directly. I understood that I did have to receive a signed prescription back from the practitioner within 72 hours after the telephoned prescription, which admittedly was not always accomplished.

Further, Your Declarant Sayeth Naught.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **JAMES W. FORSYTHE, MD, HMD,** **Certificate of Registration No. CS05385** **Respondent.**	**CASE NO. 19-144-CS-N** **MOTION TO DISMISS AMENDED ACCUSATION OR ALTERNATIVELY FOR A MORE DEFINITE STATEMENT**

Respondent, James W. Forsythe, M.D., by and through his attorney of record, Marie Mirch moves to dismiss the Amended Notice of Intended Action and Accusation dated October 4, 2021. This motion is made pursuant to NRS 622A.360 (2)(d) and (e), NRS 639.241, and the following memorandum of points and authorities and pleadings on file herein.

A. Facts:

On May 28, 2021, the Nevada State Board of Pharmacy ("Board"), filed a Notice of Intended Action and Accusation (hereinafter "Notice") alleging four causes of action against the Respondents

James W. Forsythe, M.D. The Notice was served by mail on June 9, 2021. The factual allegations consist of the following two paragraphs:

> 2. Board staff investigated Respondent's practice at Forsythe Cancer Care Center a/k/a/ Century Wellness Center located at 521 Hammill Lane, Reno, NV. The investigation revealed that Respondent failed to properly label, segregate and/or dispose of adulterated and/or expired dangerous drugs, including open multi-dose containers.
> 3. The investigation also revealed that Respondent possessed in his inventory Veterinary 0.9% Sodium Chloride labeled "For Veterinary Use Only".

See Notice at p 1.

Respondent filed a motion to dismiss. Counsel for the parties discussed the notice and Board counsel agreed to amend. An Amended Notice and Accusation was filed on October 4, 2021.

The amended facts allege:

> 2. On or about September 17, 2019, Board staff investigated Respondent's practice at Forsythe Cancer Care Center a/k/a Century Wellness Center located at 521 Hammill Lane, Reno, Nv. 4. The following expired drugs were discovered on the store room shelves:

- One opened 12 count box of 1000 mL 0.9% Sodium Chloride Injection with 4 IV bags missing (Braun). Expiration 9/16.

- Two unopened boxes of 20 count 500 mL 0.9% Sodium Chloride Injection (Baxter). Expiration 3/19.

5. The investigation also revealed that Respondent possessed in his inventory Veterinary 0.9% Sodium Chloride labeled "For Veterinary Use Only."

While the Amended Notice does provide the date of the investigation, and a list of the alleged expired drugs, including multi-dose containers", it still does not state a claim and is not clear enough to formulate a defense. None of the listed "drugs" are controlled substances, thus raising the issue of whether the Pharmacy Board has jurisdiction over this matter. Moreover, the Amended Notice alleges numerous violations without supporting facts. Respondent is unable to formulate a defense without notice of these basic facts.

b. Law

Nevada Revised Statute 622A.360 provides the authority for moving for a dismissal in this matter.

> Motions:
> 1. Except as otherwise provided in this chapter or as permitted by the regulatory body or hearing panel or officer, to request a ruling from the regulatory body or hearing panel or officer on any issue of law or procedure in a case, a party must file a written motion with the regulatory body or hearing panel or officer.
>
> 2. A party may file only the following prehearing motions:
>
> ...
> (d) A motion requesting a more definite statement regarding the allegations in the charging document on the ground that there is not enough information in the charging document to formulate a defense.
> (e) A motion requesting dismissal of the charging document for failure to state facts which, if true, would form a sufficient basis for discipline.

At this time, counsel seeks relief under subsection (e) as the Notice as pled fails to state a claim for

relief and violates Respondent's right to due process.

> NRS 639.241(2) defines what must be included in an accusation:
> Accusation: Form, contents and signature.
>
> 2. The accusation is a written statement of the charges alleged and must set forth in ordinary and concise language the acts or omissions with which the respondent is charged to the end that the respondent will be able to prepare a defense. The accusation must specify the statutes and regulations which the respondent is alleged to have violated, *but must not consist merely of charges phrased in language of the statute or regulation*. The accusation must be signed by the Executive Secretary of the Board acting in his or her official capacity.

c. Argument

The Notice must be dismissed because it does not satisfy Respondent's right to due process. The Board fails to notify Respondent of the factual bases for the charges against him. "Although proceedings before administrative agencies may be subject to more relaxed procedural and evidentiary rules, due process guarantees of fundamental fairness still apply". *Dutchess Bus. Servs. v. State, Bd. of Pharm* (Nev. 2008) 124 Nev. 701, 711 *citing Bivins Constr. v. State Contractors' Bd.*, 107 Nev. 281, 283, 809 P.2d 1268, 1270 (1991); see also *McClelland*, 606 F.2d at 1285-86; *Silverman,* 549 F.2d at 33. Administrative bodies must follow their established procedural guidelines and give notice to the defending party of "the issues on which decision will turn and. . . the factual material on which the agency relies for decision so that he may rebut it." *Bowman Transp. v. Ark. Best Freight System*, 418 U.S. 281, 288 n. 4 (1974); *see also Nevada St. Apprenticeship v. Joint Appren.*, 94 Nev. 763, 765, 587 P.2d 1315, 1317 (1978).

Under NRS 639.241, the Board is required to initiate the administrative hearing process by filing an accusation that sets forth in writing the charges alleged and the acts or omissions with which the respondent is charged such that the respondent may prepare a defense. The Amended Notice in

this case is still inadequate. The charges consist of nothing more than a conclusory statement of the law without applying the facts. For example, it does not allege what and how any of the listed drugs are "dangerous" drugs, and which if any were "adulterated". Further, the Notice fails to allege that "Veterinary 0.9% Sodium Chloride" is a drug, much less a "dangerous drug", and does not allege that Respondent ever used the "Veterinary 0.9% Sodium Chloride" which allegedly was labeled "For Veterinary Use Only". The Notice does not allege that this substance falls within the definition of a "dangerous drug" pursuant to NRS 454.201.

The Notice alleges the following four Causes of Action:

(1) Violation of Law - Failure to Properly Label, Store and Secure Drugs,

(2) Unlawful Possession of Veterinary Drugs,

(3) Unprofessional Conduct - Incompetent, Unskillful or Negligent Performance of Duties, and

(4) Commission of Acts that Render Registration Inconsistent with the Public Interest.

None of the Causes of Action states a claim.

I. The First Cause of Action does not state a claim

The First Clause of action attempts to allege a "Violation of Law - Failure to Properly Label, Store and Secure Drugs. Specifically the Notice states:

> 12. By failing to properly label, segregate and/or dispose of adulterated and/or expired dangerous drugs to ensure they could not be administered to patients, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 CFR § 211.137, NRS 639.282(1)(d), NAC 639.601(1), and/or NAC 639.67057(2), and is subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(11) and (12).

This Cause of Action fails to state a claim. It does not identify the drug(s) that the Board

alleges were improperly labeled, how they were improperly labeled, when they were improperly labeled, or who improperly labeled them. It does not identify which drugs allegedly were not segregated. This cause of action is a mere recital of statutes without underlying factual support.

Taking the allegations as true for purposes of a motion to dismiss, the Amended Notice fails to state a claim. The facts as allege do not support a violation of any of the cited legal authority.

a. The Notice does not allege facts to support a violation of 21 CFR §211.137

The language of 21 CFR 211.137 states:

211.137 Expiration dating.

(a) To assure that a drug product meets applicable standards of identity, strength, quality, and purity at the time of use, it **shall bear an expiration date** determined by appropriate stability testing described in § 211.166.

(b) Expiration dates shall be related to any storage conditions stated on the labeling, as determined by stability studies described in § 211.166.

(c) If the drug product is to be reconstituted at the time of dispensing, its labeling shall bear expiration information for both the reconstituted and unreconstituted drug products.

(d) Expiration dates shall appear on labeling in accordance with the requirements of § 201.17 of this chapter.

(e) Homeopathic drug products shall be exempt from the requirements of this section.

(f) Allergenic extracts that are labeled "No U.S. Standard of Potency" are exempt from the requirements of this section.

(g) New drug products for investigational use are exempt from the requirements of this section, provided that they meet appropriate standards or specifications as demonstrated by stability studies during their use in clinical investigations. Where new drug products for investigational use are to be reconstituted at the time of dispensing, their labeling shall bear expiration information for the reconstituted drug product.

(h) Pending consideration of a proposed exemption, published in the Federal Register of September 29, 1978, the requirements in this section shall not be enforced for

> human OTC drug products if their labeling does not bear dosage limitations and they are stable for at least 3 years as supported by appropriate stability data.

The alleged facts do not support a violation of this statute. To the contrary, the factual allegations contain a list of expired drugs, by name and expiration date. Accepted as true, this is evidence that each drug was labeled in compliance with 21 CFR §311.317 as each bears an expiration date. The Notice clearly does not allege any conduct that violates 21 CFR §211.137.

b. There are no factual allegations to support violation of NRS 639.282(1)(d)

The First Cause of Action also alleges that Respondent "violated. attempted to violate, assisted or abetted in the violation of or conspire to violate.. NRS 639.282(1)(d). NRS 639.282(1)(d) reads as follows:

> NRS 639.282 Unlawful possession or sale of certain pharmaceutical preparations, drugs or chemicals; destruction.
>
> 1. Except as otherwise provided in NRS 433.801, 435.700, 449.2485, 638.200,, 639.26, 639.2675;and 639.2676:,it is unlawful for any person to have in his or her possession, or under his or her control, for the purpose of resale, or to sell or offer to sell or dispense or give away, any pharmaceutical preparation, drug or chemical which:
> (d) Is no longer safe or effective for use, as indicated by the expiration date appearing on its label;

Emphasis added.

There are no factual allegations in the Notice that Respondent intended to sell, dispense or give away any of the expired drugs. The factual allegations merely allege that expired drugs were found on the premises. It fails to state that the drugs were in facts segregated. In fact, if the matter goes to hearing, Respondent will prove that the expired drugs were segregated from the unexpired inventory to be destroyed, bundled and taped together with a red hazmat disposal bag with a sign clearly stating "expired- do not use". The investigator compromised the evidence by removing the

tape around the bundle, unwrapping it, and removing the sign. This conduct alone supports dismissal.

Because the Notice fails to allege that the Respondent intended to sell, dispense or give away the expired drugs, it fails to state a claim under NRS 639.282.

c. The Notice fails to state a violation of NAC 639.601(1)

The Notice fails to allege facts that would support a violation of NAC 639.601(1). NAC639.601(1) states:

> Prescription drugs: Separation and disposal of certain drugs.
> 1. A prescription drug that is outdated, damaged, deteriorated, misbranded or adulterated must be separated from other prescription drugs until it is destroyed or returned to the supplier.

The Amended Notice fails to allege that expired prescriptive drugs were not separated from the other drugs. The Factual Allegations allege a list of "expired drugs were discovered in the infusion room cabinets" (Amended Notice ¶3) , and others that "were discovered on the store rooms shelves". (Amended Notice ¶4) . The Amended Notice fails to allege that the drugs were separated from other prescription drugs. It cannot be amended to cure this defect, because the drugs were segregated, Taking all allegations as true for purposes of a motion to dismiss, this claim must be dismissed as it does not allege facts to support a violation of NAC 639.601(1).

d. The Amended Notice failed to state a claim that Respondent violated NAC 639.67057(2).

The First Cause of Action alleges that Respondent "violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NAC 639.67057(2)". (Amended Notice ¶14) However, the factual allegations are void of any allegations that would constitute a violation of NAC 639.67057(2).

NAC 639.67057. Procedures following breach of seal of single-dose and multi-dose containers.

2. If, in the course of compounding a drug product, the seal of a multi-dose container is breached:

(a) The container must be stored according to the requirements of the manufacturer; and

(b) The contents of the container may be used within 28 days after the breach of the seal occurred.

The Amended Notice contains no facts that would advise the Respondent what conduct constitutes a violation of this legal authority. The Amended Notice identifies four opened multi dose vials that were allegedly found at the premises":

- One opened 30 ml multi-dose vial of Methylcobalamin Injection 100 mg./ml/ Expiration date 12/17/18.
- One opened 50 mL multidose vial of Lysine HCL Injection 100 mg/ml Solution with no opening date, expiration date 12/13/2018
- One opened 10 mL multidose vial of Folic Acid Injection 10 mg/ml Solution with no opening date, Expiration date 6/25/2019
- One opened 10 mL multidose vial of Mesna Igram/10 ml (100 mg/ml) with no opening date. Expiration 11/18.

See Amended Notice at ¶3

The Amended Notice contains no facts that give Respondent notice of what conduct establishes a violation of NAC 639.37057(2). There is no information or factual allegation that the containers were not stored in compliance with the requirements of the manufacturer or even what those requirements were. There is no violation of subsection 2(b) becusae there is no allegation that the multidose drugs that were found were ever used. The fact that the opened containers were there proves that they were not used. The multidose containers were segregated from the expired drugs for disposal. The Amended Notice is imposing strict liability for merely having the products on site, regardless of the fact that they were properly segregated from the unexpired drugs and marked for disposal.

e. There is no conduct that is subject to discipline pursuant to NRS 453.236(1) or NRS 639.210 (11)or (12)

The Amended Notice alleges that because Respondent "violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 CFR §211.137, NRS 639.282(1)(d), NAC 639.601(1), and/ or NAC 639.67057(2)" Respondent "is subject to discipline pursuant to NRS 453.236(1) ad NRS 639.210(11 and (12)" (Amended Notice ¶14). However, because the Amended Notice fails to plead a violation of any of the foregoing statutes, it follows that the Amended Notice files to allege conduct upon which discipline may be imposed.

1. Discipline cannot be imposed under NRS 453.236(1)

Chapter 453 of the Nevada Revised Statutes applies to controlled substances. NRS 453.236(1) provides:

> NRS 453.236
> Suspension and revocation of registration to dispense; seizure or placement under seal of controlled substance owned or possessed by registrant; notification of suspension or revocation of registration or forfeiture of controlled substances to appropriate authority; registrant prohibited from employing person whose pharmacist's certificate was suspended or revoked. [Effective January 1, 2020.]
>
> 1. The Board may suspend or revoke a registration pursuant to NRS 453.231 to dispense a controlled substance upon a finding that the registrant has:
>
> (a) Furnished false or fraudulent material information in an application filed pursuant to NRS 453.011 to 453.552, inclusive;
>
> (b) Been convicted of a felony under a state or federal law relating to a controlled substance;
>
> (c) Had his or her federal registration to dispense controlled substances suspended or revoked and is no longer authorized by federal law to dispense those substances;
>
> (d) Violated any provision of NRS 453.162 to 453.165, (re controlled substances) inclusive, or 639.23507; or

> (e) Committed an act that would render registration under NRS 453.231 inconsistent with the public interest as determined pursuant to that section.

None of the forgoing reasons for suspension or revocation of registration applies in the present case. There are no allegations in the Amended Notice that would apply to NRS 453.231(1)(a)-(d). NRS Chapter 453 applies to controlled substances. There are no controlled substances alleged in the Amended Notice. There are no allegations that Respondent furnished false information in an application, that he has been convicted of a felony, had his federal registration to dispense controlled substances revoked, or that he violated any provision of NRS 453.162 to 453.165, inclusive, or 639.23507. Subsection (e) requires the Board to identify "an act that would render registration under NRS 453.231 inconsistent with the public interest". The Amended Notice relies on the recitation of statutes in the First Cause of Action, alleged violation of 21 CFR §211.137, NRS 639.282(1)(d), NAC 639.601(1), and/ or NAC 639.67057(2). As discussed above, the Amended Notice does not plead facts that Respondent violated any of the foregoing statutes. Therefore, the Amended Notice fails to state a claim for discipline under NRS 453.236(1).

2. The Amended Notice does not plead facts to support imposition of discipline pursuant to NRS 639.210(11) or (12)

The Amended Notice alleges discipline may be imposed pursuant to NRS 639.210(11 and (12). There are no factual allegations contained in the Amended Notice that support this conclusion.

> NRS 639.210 Grounds for suspension or revocation of certificate, license, registration or permit or denial of application. The Board may suspend or revoke any certificate, license, registration or permit issued pursuant to this chapter, and deny the application of any person for a certificate, license, registration or permit, if the holder or applicant:
>
> 11. Has violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs;

12. Has violated, attempted to violate, assisted or abetted in the violation of or conspired to violate any of the provisions of this chapter or any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy, or has knowingly permitted, allowed, condoned or failed to report a violation of any of the provisions of this chapter or any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy committed by the holder of a certificate, license, registration or permit;

a. There are no allegations that satisfy imposing discipline under NRS 639.210(11)

There are no facts or allegations contained in the Amended Notice that Respondent violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescriptive drugs. Therefore NRS 639.210(11) cannot be the basis to impose discipline on the Respondent. The only federal law cited in the First Cause of Action is 21 CFR § 211.137 which requires drugs to be labeled with the expiration date. The Amended Notice lists the drugs by name and expiration date, which is a judicial admission that the drugs were labeled with expiration dates. There are no facts to support a finding that any drug was missing an expiration date on the label in violation of 21 CFR 211.137. Without a violation of federal law, there can be no discipline imposed under NRS 639.210(11).

b. There are no allegations that support discipline pursuant to NRS 639.210(12)

The Amended Notice contains no factual allegations that fall under NRS 639.210(12) which requires Respondent "violated, attempted to violate, assisted or abetted in the violation of or conspired to violate any of the provisions of this chapter or any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy, or has knowingly permitted, allowed, condoned or failed to report a violation of any of the provisions of this chapter or any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy committed by the holder of a certificate, license, registration or permit". Again, the Amended Notice

relies on the recitation of statutes in the First Cause of Action, alleged violation of 21 CFR §211.137, NRS 639.282(1)(d), NAC 639.601(1), and/ or NAC 639.67057(2). As discussed above, the Amended Notice does not plead facts that Respondent violated any of the foregoing statutes. Therefore, the Amended Notice fails to state a claim for discipline under NRS 639.210(12).

II. The Second Cause of Action does not state a claim

The Second Cause of Action in the Amended Notice is plead as follows:

Second Cause of Action - Unlawful Possession of Veterinary Drugs

> 15. By possessing in his drug inventory Veterinary 0.9% Sodium Chloride labeled "For Veterinary Use Only" for administration to patients, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 CFR § 201.105, NRS 454.221, NRS 454.311 and/or NRS 454.316, and is subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(11) and (12).

This allegation is insufficient to state a claim. The Amended Notice contains no factual allegations that Respondent ever administered or intended to administer the veterinary drug to patients. Alleging possession alone does not comprise use or intent to use the drug.

A. The notice does not allege facts that constitute a violation under 21 CFR 201.105

The Second Cause of Action alleges violations of 21 CFR §201.105 which defines when a drug is exempt from section 502(f)(1) of the act. It states:

> § 201.105 Veterinary drugs.
> A drug subject to the requirements of section 503(f)(1) of the act shall be exempt from section 502(f)(1) of the act if all the following conditions are met: [conditions are then listed in subsections (a)-(f)

This statute defines when a drug is exempt, it is not a statute that defines a violation. The Amended Notice fails to allege any conduct that could be a violation of this section. It does not even allege whether or not the Veterinary 0.9% Sodium Chloride is subject to the requirements of section

503(f)(1).

B. The Notice fails to allege a violation of NRS §454.221

The second statute identified in the notice under the Second Cause of Action is "NRS 454.221" which prohibits furnishing dangerous drug without a prescription. NRS 454.221 provides in pertinent part:

> Furnishing dangerous drug without prescription prohibited; penalty; exceptions.
>
> 1. A person who furnishes any dangerous drug except upon the prescription of a practitioner is guilty of a category D felony and shall be punished as provided in NRS 193.130, unless the dangerous drug was obtained originally by a legal prescription.
>
> **2. The provisions of this section do not apply to the furnishing of any dangerous drug by:**
>
> **(a) A practitioner to his or her patients;**
> (emphasis added)

The Amended Notice acknowledges that James W. Forsythe, MD, HMD is a physician in Nevada. (Amended Notice ¶1). Therefore under the plain language of the statute, NRS 454.221(2)(a), it does not apply to Respondent because he is a practitioner.

Moreover, the Amended Notice fails to identify or plead: (1) a dangerous drug; or (2) that Respondent "furnished" the drug, (3) what drug, (4) to whom it was furnished, (5) whether that person was a patient, or (6) when it was furnished. Further the statute does not apply to a practitioner furnishing dangerous drugs to his patients. The only drugs Dr. Forsythe has ever "furnished" have been to his patients, and none have been improper or "for Veterinary use only". The Notice does not allege that the veterinary drug is either "dangerous" or that it was "furnished". Without this information, there is no claim and it must be dismissed.

C. The Notice does not allege a violation of NRS §454.311

The next statute alleged in the Second Cause of Action is NRS 454.311 which states:

1. A person, other than a peace officer or inspector of the Board in the performance of his or her official duty, who knowingly or intentionally obtains or attempts to obtain possession of a dangerous drug or a prescription for a dangerous drug by misrepresentation, fraud, forgery, deception, subterfuge or alteration is guilty of a category E felony and shall be punished as provided in NRS 193.130.

2. A person who knowingly has in his or her possession any false, fictitious, forged or altered prescription for a dangerous drug is guilty of a category E felony and shall be punished as provided in NRS 193.130.

3. A person who knowingly:

(a) Receives any dangerous drug from, or has in his or her possession or under his or her control any dangerous drug obtained by, another person as a result of any forged, false, fictitious or altered prescription; or

(b) Fills a prescription which is not genuine,

is guilty of a category E felony and shall be punished as provided in NRS 193.130.

There is no allegation that Respondent, knowingly or intentionally "obtained or attempted to obtain possession of a dangerous drug or a prescription for a dangerous drug by misrepresentation, fraud, forgery, deception, subterfuge or alteration". This claim must therefore be dismissed.

D. The Notice does not allege a violation of NRS §454.316

The Notice also cites NRS §454.316, which provides:

NRS 454.316 Possession of dangerous drug without prescription unlawful; penalties; exceptions.

1. Except as otherwise provided in this section, a person who possesses a dangerous drug, except that furnished to the person by a pharmacist pursuant to a legal prescription or by a practitioner, is guilty of a gross misdemeanor. A person who has been twice previously convicted of any offense:

(a) Described in this section; or

(b) Pursuant to any other law of the United States or this or any other state or district which if committed in this State would have been punishable as an offense under this section, is guilty of a category E felony and shall be punished as provided in NRS 193.130.

2. **A prescription is not required for possession of a dangerous drug by a person authorized by NRS 454.213,** any other person or class of persons approved by the Board pursuant to regulation, jobbers, wholesalers, manufacturers or laboratories authorized by laws of this State to handle, possess and deal in dangerous drugs if the drugs are in stock containers properly labeled and have been procured from a manufacturer, wholesaler or pharmacy, or by a rancher who possesses a dangerous drug in a reasonable amount for use solely in the treatment of livestock on his or her own premises.

Emphasis added.

The Amended Notice fails to state a claim because it does not allege or identify a "dangerous drug", or illegal possession of the same. Moreover, the Respondent James W. Forsythe. M.D. falls under the exception contained in NRS 454.316(2) which cited to NRS 454.213(1)(a) which in turn provides that a practitioner may possess a dangerous drug.

Authority to possess and administer dangerous drug. 1. Except as otherwise provided in NRS 454.217, a drug or medicine referred to in NRS 454.181 to 454.371, inclusive, may be possessed and administered by:
(a) A practitioner

There are no factual allegations contained in the Amended Notice which, if true, would establish a violation of NRS 454.316.

Because the Amended Notice fails to plead facts that Respondent violated NRS 454.221, NRS 454.311 and/or NRS 454316, and 21 CFR 201.105 merely defines when a drug is exempt from section 502(f)(1). the Second Cause of Action must be dismissed.

E. The Notice fails to plead a claim for discipline pursuant to NRS 453.236(1) and NRS 639.210(11) and (12)

The Second Cause of action alleges that violation of the four forgoing statutes subjects subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(11) and (12). However, because the Amended Notice fails to adequately plead a violation of any 21 CFR § 201.105, NRS 454.221, NRS 454.311 and/or NRS 454.316, Respondent cannot be subject to discipline. The Second Cause of Action must therefore be dismissed.

The Amended Notice alleges that because Respondent "violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 CFR §201.105, NRS 454.221 NRS 454.311 and/ or NRS 454.316", Respondent "is subject to discipline pursuant to NRS 453.236(1) ad NRS 639.210(11 and (12)" (Amended Notice ¶15). However, because the Amended Notice fails to plead a violation of any of the foregoing statutes, it follows that the Amended Notice files to allege conduct upon which discipline may be imposed.

1. Discipline cannot be imposed under NRS 453.236(1)

Chapter 453 of the Nevada Revised Statutes applies to controlled substances. NRS 453.236(1) provides:

> NRS 453.236
> Suspension and revocation of registration to dispense; seizure or placement under seal of controlled substance owned or possessed by registrant; notification of suspension or revocation of registration or forfeiture of controlled substances to appropriate authority; registrant prohibited from employing person whose pharmacist's certificate was suspended or revoked. [Effective January 1, 2020.]
>
> 1. The Board may suspend or revoke a registration pursuant to NRS 453.231 to dispense a controlled substance upon a finding that the registrant has:
>
> (a) Furnished false or fraudulent material information in an application filed pursuant to NRS 453.011 to 453.552, inclusive;

(b) Been convicted of a felony under a state or federal law relating to a controlled substance;

(c) Had his or her federal registration to dispense controlled substances suspended or revoked and is no longer authorized by federal law to dispense those substances;

(d) Violated any provision of NRS 453.162 to 453.165, (re controlled substances) inclusive, or 639.23507; or

(e) Committed an act that would render registration under NRS 453.231 inconsistent with the public interest as determined pursuant to that section.

None of the forgoing reasons for suspension or revocation of registration applies in the present case. There are no allegations in the Amended Notice that would apply to NRS 453.231(1)(a)-(d). NRS Chapter 453 applies to controlled substances. There are no controlled substances alleged in the Amended Notice. There are no allegations that Respondent furnished false information in an application, that he has been convicted of a felony, had his federal registration to dispense controlled substances revoked, or that he violated any provision of NRS 453.162 to 453.165, inclusive, or 639.23507. Subsection (e) requires the Board to identify "an act that would render registration under NRS 453.231 inconsistent with the public interest". The Amended Notice relies on the recitation of statutes in the Second Cause of Action, alleged violation of 21 CFR §201.105, NRS 454.221 NRS 454.311 and/ or NRS 454.316 As discussed above, the Amended Notice does not plead facts that Respondent violated any of the foregoing statutes. Therefore, the Amended Notice fails to state a claim for discipline under NRS 453.236(1).

2. The Amended Notice does not plead facts to support imposition of discipline pursuant to NRS 639.210(11) or (12)

The Amended Notice alleges discipline may be imposed pursuant to NRS 639.210(11 and (12). There are no factual allegations contained in the Amended Notice that support this conclusion.

a. There are no allegations that satisfy imposing discipline under NRS 639.210(11)

There are no facts or allegations contained in the Amended Notice that Respondent violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescriptive drugs. Therefore NRS 639.210(11) cannot be the basis to impose discipline on the Respondent. The only federal law cited in the First Cause of Action is 21 CFR §201.105 which merely defines when a drug is exempt from section 502(f)(1) of the act, not a violation. Without a violation of federal law, there can be no discipline imposed under NRS 639.210(11).

b. There are no allegations that support discipline pursuant to NRS 639.210(12)

The Amended Notice contains no factual allegations that fall under NRS 639.210(12) which requires Respondent "violated, attempted to violate, assisted or abetted in the violation of or conspired to violate any of the provisions of this chapter or any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy, or has knowingly permitted, allowed, condoned or failed to report a violation of any of the provisions of this chapter or any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy committed by the holder of a certificate, license, registration or permit". Again, the Amended Notice relies on the recitation of statutes in the Second Cause of Action, Respondent "violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 CFR §201.105, NRS 454.221 NRS 454.311 and/ or NRS 454.316", Respondent "is subject to discipline pursuant to NRS 453.236(1) ad NRS 639.210(11 and (12)" (Amended Notice ¶15). As discussed above, the Amended Notice does not plead facts that Respondent violated any of the foregoing statutes. Therefore, the Amended Notice fails to state a claim for discipline under NRS 639.210(12).

3. The Third Cause of Action is not properly Plead

The Third cause of action is plead as follows:

(3) Unprofessional Conduct - Incompetent, Unskillful or Negligent Performance of Duties,

16. **By his actions as alleged herein**, Respondent has performed his duties as the holder of a Nevada controlled substance registration in an incompetent, unskillful or negligent manner and engaged in unprofessional conduct as defined in NAC 639.945(1)(I), and is subject to discipline pursuant to NRS 453.236(1) and NRS 639.210(4).

[emphasis added]

The claim stands solely on the phrase "by his actions as alleged herein". However, as discussed above, the factual allegations are woefully inadequate to support a charge of any wrongdoing. There are no actions alleged in the Amended Notice, just a recitation of statutes with no factual allegation to support the alleged wrongdoing. The claim must therefore be dismissed.

4. The Fourth Cause of Action fails to state a claim

The Fourth Cause of Action is pled as follows:

(4) Commission of Acts that Render Registration Inconsistent with the Public Interest.

17. By his actions as alleged herein, Respondent has committed an act that would render his Nevada controlled substance registration inconsistent with the public interest, and is subject to discipline pursuant to NRS 453.236(1)(e) and NRS 453.241(1).

Like the Third Cause of Action, the Fourth Claim relies on the "actions alleged herein", yet the Notice fails to allege any specific acts. The deficiency in pleading the First, Second and Third claims applies to the Fourth claim as well, due to the fact that it relies on "actions alleged herein". This claim must be dismissed.

d. Conclusion

All of the forgoing allegations are no more than a recitation of charges phrased in language of the statute or regulation statutory basis for each claim, without factual allegations of what specific conduct supports the allegations. This type of pleading is prohibited under NRS 639.241(2). There are no allegations of facts that support wrongdoing under any of the statutes recited in the Amended Notice, there are no allegations concerning any controlled substance, no allegations of any "dangerous" drug, or allegations that Respondent furnished a drug. There are allegations that Respondent failed to label drugs with an expiration date, yet the Amended Notice recites the expired drugs by the expiration date which is an admission that they were labeled with such.

Without a sufficient complaint, Respondent is denied due process. Respondent therefore respectfully request the Amended Notice be dismissed its entirety.

Alternatively, Respondent moves for an order for a more definite statement to address the shortcomings of the pleading addressed herein. There is not enough information in the charging document to formulate a defense.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **JAMES FORSYTHE, MD, HMD,** **Certificate of Registration No. CS05385,** **Respondent.**	**CASE NO. 19-144-CS-N** **OPPOSITION TO RESPONDENT'S MOTION TO DISMISS AMENDED ACCUSATION OR ALTERNATIVELY FOR A MORE DEFINITE STATEMENT**

Nevada State Board of Pharmacy (Board), by and through counsel prosecuting this matter, Brett Kandt, General Counsel, files this opposition to Respondent James Forsythe, MD, HMD's Pre-Hearing Motion to Dismiss Amended Accusation or Alternatively for a More Definite Statement filed November 30, 2021 (Motion). This opposition is made pursuant to NRS 622A.360(3) and based upon the following points and authorities and the pleadings on file herein.

MEMORANDUM OF POINTS AND AUTHORITIES

I. PROCEDURAL BACKGROUND

The Notice of Intended Action and Accusation was filed and served on or about May 28, 2021. The entire bate-stamped case file and a list of potential witnesses was produced in response to Respondent's discovery request on July 22, 2021.

The First Amended Notice of Intended Action and Accusation (Amended Accusation) was filed and served in this matter on or about October 4, 2021. Respondent filed an Answer and Notice of Defense on or about November 2, 2021.

II. LEGAL STANDARD

Respondent seeks dismissal of the Amended Accusation "for failure to state facts which, if true, would form a sufficient basis for discipline." NRS 622A.360(2(e). Respondent faces a high bar. *See Buzz Stew, Ltd. Liab. Co. v. City of N. Las Vegas*, 124 Nev. 224, 227-28, 181 P.3d

670, 672 (2008) (standard for a motion to dismiss for failure to state a claim under NRCP 12(b)(5)).

On a motion to dismiss for failure to state a claim, the Board must construe the Amended Accusation liberally and draw every fair inference in favor of the State. *See Brown v. Kellar*, 97 Nev. 582, 583, 636 P.2d 874, 874 (1981). All factual allegations in the Amended Accusation must be accepted as true. *See Hynds Plumbing & Heating Co. v. Clark Cty. Sch. Dist.*, 94 Nev. 776, 777, 587 P.2d 1331, 1332 (1978). Dismissal may result only if the prosecution can prove no set of facts that support the charges. *See Simpson v. Mars Inc.*, 113 Nev. 188, 190, 929 P.2d 966, 967 (1997).

III. ARGUMENT

Respondent's Motion must be denied since it is predicated upon erroneous application of the law and because the Amended Accusation states facts which, accepted as true, form a sufficient basis for discipline.

A. The Amended Accusation states four cognizable causes of action.

In a contested case, "[o]pportunity must be afforded all parties to respond and present evidence and argument on all issues involved." NRS 233B.121 (4). The accusation "is a written statement of the charges alleged and must set forth in ordinary and concise language the acts or omissions with which the respondent is charged to the end that the respondent will be able to prepare a defense." NRS 639.241(2). The accusation in part "must specify the statutes and regulations which the respondent is alleged to have violated." *Id.*

Paragraph 2 of the Amended Accusation alleges that an investigation of Respondent's practice at Forsythe Cancer Care Center a/k/a Century Wellness Center on September 17, 2019, revealed that Respondent "failed to properly label, segregate and/or dispose of adulterated and/or expired dangerous drugs, including open multi-dose containers." Paragraph 3 lists in detail twenty (20) expired drugs that were discovered in the infusion room cabinets. Paragraph and 4 lists in detail seven (7) expired drugs were discovered on the storeroom shelves. Paragraph 5

further alleges: "Respondent possessed in his inventory Veterinary 0.9% Sodium Chloride labeled "For Veterinary Use Only."

The Amended Accusation sufficiently alleges the facts necessary to establish each of the four causes of action against Respondent. The First Cause of Action (Paragraph 14) cites the statutes and regulations Respondent is charged with violating by failing to properly label, segregate and/or dispose of adulterated and/or expired dangerous drugs to ensure they could not be administered to patients. The Second Cause of Action (Paragraph 15) cites the statutes and regulations Respondent is charged with violating by possessing in his drug inventory Veterinary 0.9% Sodium Chloride labeled "For Veterinary Use Only" for administration to human patients. As a consequence of his actions, the Third Cause of Action (Paragraph 16) charges Respondent with unprofessional conduct, and the Fourth Cause of Action (Paragraph 17) charges Respondent with committing acts that render his registration under NRS 453.226 inconsistent with the public interest. The factual allegations, taken as true, establish that Respondent is subject to discipline pursuant to NRS 639.210(4), (11) and (12), NRS 453.236(1)(d) and/or NRS 453.241(1).

B. Respondent's hyper-technical misinterpretation of the law does not warrant relief.

Respondent proceeds to cite the language of each law he is charged with violating and then manufacture arguments against their application out of thin air. For instance, Respondent contends that 21 CFR § 211.137 does not apply to him, even though the stated purpose of expiration dating as set forth in subsection (a) is "[t]o assure that a drug product meets applicable standards of identity, strength, quality, and purity at the time of use." Respondent also asks the Board to disregard the express language of 21 CFR § 201.105 establishing that federal law restricts veterinary drugs to use by or on the order of a licensed veterinarian for animal patients only.

Respondent's arguments often border on the nonsensical, such as his assertions that failing to use the term "dangerous drugs" or to specify *when* drugs were improperly labeled and *who* improperly labeled them are pleading defects fatal to the State's case. As another example,

Respondent further claims that the State must specifically plead, and consequently prove, that the drugs in question were actually administered or furnished to patients. Respondent also concocts an intent element that does not exist in the laws he is charged with violating. Respondent is reading something into the law that is not found in the express language. "[I]f the plain meaning of a statute is clear on its face, then this court will not go beyond the language of the statute to determine its meaning." *Beazer Homes Nev., Inc. v. Eighth judicial Dist. Court*, 120 Nev. 575, 579-80, 97 P.3d 1132, 1135 (2004) (citations omitted). The State need only plead the essential elements for each charge in order to make out a prima facie case.

In response to the allegations of failure to segregate, Respondent raises material issues of fact that are not appropriate on a motion to dismiss. *See, e.g., Pennymac Holdings, LLC v. Fid. Nat'l Ins. Co.*, 134 Nev. 995, 423 P.3d 608 (2018); *Malfabon v. Garcia*, 111 Nev. 793, 798, 898 P.2d 107, 110 (1995). Finally, Respondent makes a misguided argument that the Board somehow lacks jurisdiction over him as the holder of a controlled substance registration. However, under NRS 453.231(1)(b) failure to comply with State law is an act inconsistent with the public interest that forms a basis for discipline under NRS 453.236(1)(d). Nor can Respondent seriously question the Board's express statutory authority to enforce the provisions of Chapters 453, 454 and 639 of NRS for the protection of the public. NRS 639.070(1)(l).

C. Respondent is not being denied due process.

"Nevada is a notice-pleading jurisdiction and pleadings should be liberally construed to allow issues that are fairly noticed to the adverse party." *Nevada State Bank v. Jamison Family Partnership*, 106 Nev. 792, 801, 801 P.2 1377, 1383 (1990). The Nevada Supreme Court has further held that "in the context of administrative pleadings, 'due process requirements of notice are satisfied where the parties are sufficiently apprised of the nature of the proceedings so that there is no unfair surprise.'" *Dutchess Business Services, Inc. v. Nevada State Bd. of Pharmacy*, 124 Nev. 701, 712, 191 P.3d 1159, 1167(2008) (citations omitted).

Due process is not violated unless an administrative proceeding is so fundamentally unfair that a party is prevented from reasonably presenting his case and prejudiced as a result.

Manufactured Home Cmtys., Inc. v. Cty. of San Luis Obispo, 167 Cal. App. 4th 705, 711 (2008) (*citing Sinaiko v. Superior Court*, 122 Cal. App. 4th 1133, 1140 (2004)). In this case, on July 22, 2021, Respondent was provided bate-stamped copies of the entire case file in response to his discovery request. Respondent therefore has in his possession all of the documentary evidence that will be introduced against him. Respondent is receiving a hearing, including the opportunity to present evidence, call witnesses and cross-examine opposing witnesses in conformance with NRS 233B.121(4) and NRS 233B.123(4)). Respondent has been accorded all necessary due process guarantees of fundamental fairness, including the opportunity to prepare a defense.

IV. CONCLUSION

For the foregoing reasons, the prosecution respectfully requests that the Board deny Respondent's Motion and proceed with a hearing on the merits.

RESPECTFULLY SUBMITTED this 7th day of December 2021.

CRIMINAL INDICTMENT

CASE NO: 2:19-cr-00154 ~~2:18-CR-154~~

VIOLATIONS:

21 U.S.C. § 841(a)(1) & (b)(1)(E) and b(2) – Distribution of a Controlled Substance (Schedules III & IV)

21 U.S.C. § 843 – Obtaining a Controlled Substance by Misrepresentation

21 U.S.C. § 846 - Conspiracy to Distribute a Controlled Substance

21 U.S.C. § 856 – Maintaining a Drug-Involved Premises

18 U.S.C. § 2 – Aiding and Abetting

THE GRAND JURY CHARGES THAT:

INTRODUCTION

At all times material to this Indictment:

1. The Controlled Substances Act, Title 21, United States Code, Sections 801, *et seq.*, governs the manufacture, distribution, and dispensing of controlled substances in the United States. With limited exceptions for medical professionals, the CSA makes it "unlawful for any person knowingly or intentionally ... to manufacture, distribute, or dispense ... a controlled substance."

2. The CSA defines a "controlled substance" as a drug or other substance that is included in one of five schedules - Schedule I, II, III, IV, or V - of Subchapter I, Part B of the Act. 21 U.S.C. § 802(6). Drugs or substances are placed into these schedules based, at least in part, on their potential for abuse, likelihood of physical or psychological dependency, accepted medical use, and accepted safety for use under medical supervision.

a. "Schedule II" indicates that the drug or other substance has a currently accepted medical use with severe restrictions and has a high potential for abuse that can lead to severe psychological or physical dependence. 21 U.S.C. § 812(b)(2).

b. "Schedule III" indicates that the drug or other substance has a currently accepted medical use with a potential for abuse that is less than those drugs listed in Schedule II, but can lead to moderate or low physical dependence or high psychological dependence. 21 U.S.C. § 812(b)(3).

3. Title 21, Code of Federal Regulations, Sections 1308.12, 1308.13, 1308.14, and 1308.15 lists the drugs and other substances contained in Schedules II, III, IV, and V, respectively.

4. Title 21, United States Code, Section 822(b) and Title 21, Code of Federal Regulations, Section 290.1, provide that the controlled substances listed in Schedules II-V can be dispensed or distributed only pursuant to a prescription issued by a medical

practitioner registered with the United States Drug Enforcement Administration ("DEA"). The DEA, as authorized by the Controlled Substances Act, issues registration numbers to qualifying medical practitioners that allow them to issue prescriptions for Schedule II-V controlled substances.

5. Accordingly, under Title 21, Code of Federal Regulations, Section 1306.03, controlled substances, such as opioid pain medications, can be dispensed only pursuant to a valid prescription from a medical practitioner authorized by the DEA to distribute controlled substances.

6. Under Title 21, United States Code, Section 802(10), the term "dispense" means to deliver a controlled substance to an ultimate user or research subject by, or pursuant to the lawful order of, a practitioner, including the prescribing and administering of a controlled substance and the packaging, labeling, or compounding necessary to prepare the substance for such delivery. The term "dispenser" means a practitioner who so delivers a controlled substance to an ultimate user.

7. Under Title 21, United States Code, Section 802(11), the term "distribute" means to deliver (other than by administering or dispensing) a controlled substance or a listed chemical. The term "distributor" means a person who so delivers a controlled substance or a listed chemical.

8. Title 21, Code of Federal Regulations, Section 1306.04 provides that in order for a prescription for a controlled substance to be valid, it "must be issued for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice."

9. A prescription for a controlled substance issued without a legitimate medical purpose or outside of the individual practitioner's usual course of his professional practice

is not a valid prescription, and the person who issues the prescription violates Title 21, United States Code, Section 841(a)(1).

10. The Defendant, Chad Hall (hereinafter "Hall"), is a licensed Doctor of Osteopathic Medicine ("D.O.") who practices in Nevada under D.O. license number DO1729. As part of Hall's practice, he prescribes Controlled Substances, including highly addictive opioids, under his DEA license number FH3496557. Hall maintains the licensure for a medical practice known as Detoxification Solutions ("Solutions"), doing business as Advanced Medical – Center for Detoxification and Psychiatry (CPRX), LLC.

11. The Defendant, Michael Halprin (hereinafter "Halprin") a/k/a Michael Vincent, is an unlicensed, in Nevada, Advanced Practice Registered Nurse ("APRN") who formerly practiced in Florida under license number APRN935042. Halprin cannot prescribe any medications, including controlled substances, or independently provide treatment for patients. Halprin is the sole managing member of Solutions. Halprin sometimes presents himself to patients as "Dr. Mike."

12. The Defendant, Ronald Smith ("Smith"), is a licensed Medical Doctor ("M.D.") who practices in Nevada under M.D. license number 11778. As part of Smith's practice, he prescribes Controlled Substances including highly addictive opioids, under his DEA license number BS9687116.

13. The Defendant, Janell Olson ("Olson") is not licensed as a medical practitioner. Olson cannot issue valid prescriptions for any medications, including controlled substances, or independently provide treatment for patients.

14. The Defendant, Eghomware Igbinovia, a/k/a Jerry Igbinovia (hereinafter "Igbinovia"), is the owner and head pharmacist at ACRx Pharmacy ("ACRx"), 3200 N. Soaring Gulls Dr., Suite 101, Las Vegas, Nevada, 89129. Igbinovia is responsible for

furnishing specially compounded patient-specific buprenorphine troches directly to Solutions.

15. During the date range alleged in this Indictment, Defendants Hall and Smith routinely prescribed Schedule III controlled substances including buprenorphine and Suboxone to Solutions patients, outside the usual course of professional practice, without a legitimate medical purpose. Additionally, Defendant Halprin routinely distributed Schedule III controlled substances, including buprenorphine and Suboxone, without a medical license or a DEA Number. Defendant Olson also distributed Schedule III controlled substances without a medical license or a DEA Number and assisted all other defendants in their unlawful practices.

16. Defendants Hall, Halprin, Smith and Olson also submitted patient-specific prescriptions for specially-compounded buprenorphine lozenges under false patient names to ACRx Pharmacy. Defendant Igbinovia specially compounded the buprenorphine lozenges and delivered them to Solutions. Hall, Halprin, Smith and Olson then dispensed these patient-specific Schedule III medications to patients at Solutions in exchange for cash payments.

Attorneys for Respondent,
RONALD SMITH, M.D.

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, Petitioner, vs. RONALD DAVID SMITH, MD, Certificate of Registration No. CS13980, Respondent.	Case No.: 19-109-CS-S **ANSWER AND NOTICE OF DEFENSE** **Date of Hearing: Sep. 4, 2019** **Time of Hearing: 9:00 a.m.**

Respondent, RONALD DAVID SMITH, MD (hereinafter "Dr. Smith"), by and through his attorneys, MARK H. HUTCHINGS, ESQ. and C. BENJAMIN SCROGGINS, ESQ. of HUTCHINGS & TRUITT, in answer to the Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, declares:

1. That he is currently under indictment in the United States District Court for the District of Nevada in the case of United States of America vs. Chad Hall, D.O., Michael Halprin, a/k/a Michael Vincent, Ronald Smith, M.D., Janell Olson, and Eghomware Igbinovia, a/k/a Jerry Igbinovia, Case No. 2:19-cr-00154 (hereinafter "the federal case").

2. That the facts and circumstances alleged in the Nevada State Board of Pharmacy's

Notice of Intended Action and Accusation are the same or are substantially similar to the facts and circumstances alleged by the United States Attorney's Office in the federal case.

3. That providing any specific factual response to the Notice of Intended Action and Accusation would require Dr. Smith to make statements that could be used against him in proceedings in the federal case.

4. The privilege against self-incrimination embodied in the Fifth Amendment to the United States Constitution, applicable to the states through the Fourteenth Amendment to the United States Constitution, can be "'claimed in any proceeding, be it criminal or civil, administrative or judicial, investigatory or adjudicatory . . . it protects any disclosures which the witness may reasonably apprehend could be used in a criminal prosecution or which could lead to other evidence that might be so used.'" In re Gault, 387 U.S. 1, 47-48 (1967), quoting Murphy v. Waterfront Comm'n, 378 U.S. 52, 94 (1964) (emphasis added in original).

5. "[T]he availability of the privilege does not turn upon the type of proceeding in which its protection is invoked, but upon the nature of the statement or admission and the exposure which it invites. The privilege may, for example, be claimed in a civil or administrative proceeding, if the statement is or may be inculpatory." In re Gault, 387 U.S. 1, 48 (1967) (emphasis added).

6. Dr. Smith cannot be compelled to answer the specific allegations set forth in the Notice of Intended Action and Accusation.

7. Dr. Smith's refusal to answer the allegations is in no way an admission of any of the allegations.

REQUEST FOR STAY OF PROCEEDINGS

Based upon the foregoing, Dr. Smith hereby requests that the proceedings of the Nevada State Board of Pharmacy be stayed until such time as the federal case is resolved. Dr. Smith

CASE NO: ~~2:18-CR-154~~

VIOLATIONS:

21 U.S.C. § 841(a)(1) & (b)(1)(E) and b(2) – Distribution of a Controlled Substance (Schedules III & IV)

21 U.S.C. § 843 – Obtaining a Controlled Substance by Misrepresentation

21 U.S.C. § 846 - Conspiracy to Distribute a Controlled Substance

21 U.S.C. § 856 – Maintaining a Drug-Involved Premises

18 U.S.C. § 2 – Aiding and Abetting

THE GRAND JURY CHARGES THAT:

INTRODUCTION

At all times material to this Indictment:

1. The Controlled Substances Act, Title 21, United States Code, Sections 801, *et seq.*, governs the manufacture, distribution, and dispensing of controlled substances in the United States. With limited exceptions for medical professionals, the CSA makes it "unlawful for any person knowingly or intentionally ... to manufacture, distribute, or dispense ... a controlled substance."

2. The CSA defines a "controlled substance" as a drug or other substance that is included in one of five schedules - Schedule I, II, III, IV, or V - of Subchapter I, Part B of the Act. 21 U.S.C. § 802(6). Drugs or substances are placed into these schedules based, at least in part, on their potential for abuse, likelihood of physical or psychological dependency, accepted medical use, and accepted safety for use under medical supervision.

a. "Schedule II" indicates that the drug or other substance has a currently accepted medical use with severe restrictions and has a high potential for abuse that can lead to severe psychological or physical dependence. 21 U.S.C. § 812(b)(2).

b. "Schedule III" indicates that the drug or other substance has a currently accepted medical use with a potential for abuse that is less than those drugs listed in Schedule II, but can lead to moderate or low physical dependence or high psychological dependence. 21 U.S.C. § 812(b)(3).

3. Title 21, Code of Federal Regulations, Sections 1308.12, 1308.13, 1308.14, and 1308.15 lists the drugs and other substances contained in Schedules II, III, IV, and V, respectively.

4. Title 21, United States Code, Section 822(b) and Title 21, Code of Federal Regulations, Section 290.1, provide that the controlled substances listed in Schedules II-V can be dispensed or distributed only pursuant to a prescription issued by a medical

practitioner registered with the United States Drug Enforcement Administration ("DEA"). The DEA, as authorized by the Controlled Substances Act, issues registration numbers to qualifying medical practitioners that allow them to issue prescriptions for Schedule II-V controlled substances.

5. Accordingly, under Title 21, Code of Federal Regulations, Section 1306.03, controlled substances, such as opioid pain medications, can be dispensed only pursuant to a valid prescription from a medical practitioner authorized by the DEA to distribute controlled substances.

6. Under Title 21, United States Code, Section 802(10), the term "dispense" means to deliver a controlled substance to an ultimate user or research subject by, or pursuant to the lawful order of, a practitioner, including the prescribing and administering of a controlled substance and the packaging, labeling, or compounding necessary to prepare the substance for such delivery. The term "dispenser" means a practitioner who so delivers a controlled substance to an ultimate user.

7. Under Title 21, United States Code, Section 802(11), the term "distribute" means to deliver (other than by administering or dispensing) a controlled substance or a listed chemical. The term "distributor" means a person who so delivers a controlled substance or a listed chemical.

8. Title 21, Code of Federal Regulations, Section 1306.04 provides that in order for a prescription for a controlled substance to be valid, it "must be issued for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice."

9. A prescription for a controlled substance issued without a legitimate medical purpose or outside of the individual practitioner's usual course of his professional practice

is not a valid prescription, and the person who issues the prescription violates Title 21, United States Code, Section 841(a)(1).

10. The Defendant, Chad Hall (hereinafter "Hall"), is a licensed Doctor of Osteopathic Medicine ("D.O.") who practices in Nevada under D.O. license number DO1729. As part of Hall's practice, he prescribes Controlled Substances, including highly addictive opioids, under his DEA license number FH3496557. Hall maintains the licensure for a medical practice known as Detoxification Solutions ("Solutions"), doing business as Advanced Medical – Center for Detoxification and Psychiatry (CPRX), LLC.

11. The Defendant, Michael Halprin (hereinafter "Halprin") a/k/a Michael Vincent, is an unlicensed, in Nevada, Advanced Practice Registered Nurse ("APRN") who formerly practiced in Florida under license number APRN935042. Halprin cannot prescribe any medications, including controlled substances, or independently provide treatment for patients. Halprin is the sole managing member of Solutions. Halprin sometimes presents himself to patients as "Dr. Mike."

12. The Defendant, Ronald Smith ("Smith"), is a licensed Medical Doctor ("M.D.") who practices in Nevada under M.D. license number 11778. As part of Smith's practice, he prescribes Controlled Substances including highly addictive opioids, under his DEA license number BS9687116.

13. The Defendant, Janell Olson ("Olson") is not licensed as a medical practitioner. Olson cannot issue valid prescriptions for any medications, including controlled substances, or independently provide treatment for patients.

14. The Defendant, Eghomware Igbinovia, a/k/a Jerry Igbinovia (hereinafter "Igbinovia"), is the owner and head pharmacist at ACRx Pharmacy ("ACRx"), 3200 N. Soaring Gulls Dr., Suite 101, Las Vegas, Nevada, 89129. Igbinovia is responsible for

furnishing specially compounded patient-specific buprenorphine troches directly to Solutions.

15. During the date range alleged in this Indictment, Defendants Hall and Smith routinely prescribed Schedule III controlled substances including buprenorphine and Suboxone to Solutions patients, outside the usual course of professional practice, without a legitimate medical purpose. Additionally, Defendant Halprin routinely distributed Schedule III controlled substances, including buprenorphine and Suboxone, without a medical license or a DEA Number. Defendant Olson also distributed Schedule III controlled substances without a medical license or a DEA Number and assisted all other defendants in their unlawful practices.

16. Defendants Hall, Halprin, Smith and Olson also submitted patient-specific prescriptions for specially-compounded buprenorphine lozenges under false patient names to ACRx Pharmacy. Defendant Igbinovia specially compounded the buprenorphine lozenges and delivered them to Solutions. Hall, Halprin, Smith and Olson then dispensed these patient-specific Schedule III medications to patients at Solutions in exchange for cash payments.

4. The Notice of Intended Action and Accusation violates Mr. Strebel's right to due process by failing to sufficiently apprise him of the nature of the proceedings so that he has an adequate opportunity to prepare, as is required under Nevada law.

5. The Board's causes of action are barred, in whole or in part, because the applicable statutes and regulations are unconstitutionally vague as applied to Mr. Strebel's actions.

6. The applicable statute of limitations bars all and/or some of the Board's causes of action.

7. Any and all alleged problems and damages were proximately caused or contributed to by the acts of other persons and/or entities, and that said acts were an intervening and/or superseding cause of the problems and damages, if any.

The Investigative Committee (IC)[1] of the Nevada State Board of Medical Examiners (Board), by and through Robert Kilroy, J.D., General Counsel and attorney for the IC, having a reasonable basis to believe that Frank P. 1. Respondent is currently licensed in active status (License No. 2641), and has been licensed by the Board since August 8, 1972. 3. Pursuant to NRS 630.020, the "practice of medicine" means either (1) to diagnose, treat, correct, prevent or prescribe for any human disease, ailment, injury, infirmity, deformity or other condition, physical or mental, by any means or instrumentality, including, but not limited to, the performance of an autopsy, or (2) to apply principles or techniques of medical science in the diagnosis or the prevention of any such conditions, or (3) to perform any of the acts described in subsections (1) and (2) by using equipment that transfers information concerning the medical condition of the patient electronically, telephonically or by fiber optics, including, without limitation, through telehealth, from within or outside this State or the United States, or (4) to offer, undertake, attempt to do or hold oneself out as able to do any of the acts described in subsections (1) and (2).

4. Pursuant to NRS 630.305(1)(e), a Nevada physician or physician assistant (practitioner) may not aid, assist, employ or advise, directly or indirectly, any unlicensed person to engage in the practice of medicine contrary to the provisions of the Medical Practice Act, and doing so is grounds for initiating disciplinary action or denying licensure.

5. Pursuant to the Medical Practice Act, the only means by which a practitioner may lawfully aid, assist, employ or advise, directly or indirectly, an unlicensed person to engage in the practice of medicine is by delegating specific tasks to an adequately supervised and trained "medical assistant." Pursuant to NRS 630.0129, a "medical assistant" means a person who (a) performs clinical tasks under the supervision of a physician or physician assistant; and (b) does not hold a license, certificate or registration issued by a professional licensing or regulatory board in this State to perform such clinical tasks; and the term does not include a person who performs only administrative, clerical, executive or other nonclinical tasks.

6. Pursuant to NRS 630.306(1)(r), a practitioner must supervise adequately a medical assistant, and failing to do so is grounds for initiating disciplinary action or denying licensure.

7. Pursuant to NAC 630.830, a delegating practitioner is professionally responsible for the safety and performance of each task which is delegated to a medical assistant. Pursuant to NAC 630.810(1), a delegating practitioner may not delegate tasks to a medical assistant unless: (a) the delegating practitioner knows that the medical assistant possesses the knowledge, skill and

training to perform the task safely and properly; (b) the medical assistant is not required to be certified or licensed to perform that task; (c) the medical assistant is employed by the delegating practitioner or the medical assistant and the delegating practitioner are employed by the same employer; and (d) the employer of the medical assistant has complied with the requirements of subsection 2 as they relate to the task.

8. Pursuant to NAC 630.820, a delegating practitioner may not supervise remotely a medical assistant, except in a specific case of emergency in a rural area.[2]

9. Except as otherwise provided in NAC 630.820, pursuant to NAC 630.810, if a medical assistant is delegated a task which involves an "invasive procedure,"[3] the delegating practitioner must be immediately available to exercise oversight in person while the medical assistant performs the task.

10. The term "medical director" is not recognized or defined under any Nevada law or regulation pertaining to the professional conduct and responsibility of licensed medical professionals, and no law authorizes so-called "medical directors" to violate or circumvent the aforementioned statutes and regulations of the Medical Practice Act.

11. Accordingly, pursuant to NRS 630.400(1)(d), NRS 630.305(1)(e), and NRS 630.0129, and NAC 630.800 to NAC 630.840:

a. If a practitioner, whether by serving as a so-called "medical director" or by some other relationship or circumstance, aids, assists, employs or advises, directly or indirectly, any unlicensed person to engage in the practice of medicine, then the practitioner may lawfully do so only by delegating tasks to an adequately supervised, competent and properly trained medical assistant.

---

[2] Remote supervision of a medical assistant is prohibited unless: (a) the patient is located in a rural area; (b) the delegating practitioner is physically located a significant distance from the location where the task is to be performed; (c) the delegating practitioner determines that the exigent needs of the patient require immediate attention; (d) the patient and the delegating practitioner previously established a practitioner-patient relationship; and (e) the delegating practitioner is immediately available by telephone or other means of instant communication during the performance of the task by the medical assistant. As used in NAC 630.820, "rural area" means any area in this State other than Carson City or the City of Elko, Henderson, Reno, Sparks, Las Vegas or North Las Vegas.

[3] The Medical Practice Act does not define "invasive procedure," however, NAC 449.9733, pertaining to Medical Facilities, defines "invasive procedure" as "a medical procedure involving entry into the human body by puncture or incision or by insertion of an instrument,"

b. If a practitioner, whether by serving as a so-called "medical director" or by some other relationship or circumstance, aids, assists, employs or advises, directly or indirectly, any unlicensed person to engage in the practice of medicine, and if the practitioner has not done so by delegating specific tasks to an adequately supervised, competent and properly trained medical assistant, then: (1) that unlicensed person has violated NRS 630.400(1)(d), by practicing medicine without a license; and (2) that practitioner has violated NRS 630.305(1)(e), and is subject to discipline for aiding and assisting the unlicensed practice of medicine.

c. If a practitioner delegates a medical task to a medical assistant, whether by serving as a so-called "medical director" or by some other relationship or circumstance, then the practitioner remains professionally responsible for the safety and performance of each task, and remains professionally responsible for ensuring that the proper employment relationships exist, that the medical assistant is properly knowledgeable, trained and skilled, that the medical assistant is adequately supervised, and that the practitioner is nearby to supervise the specific medical tasks delegated, and, if it is an invasive medical task, then he or she must be immediately available to exercise oversight in person while the medical assistant performs the task.

d. If a practitioner delegates a medical task to a medical assistant, whether by serving as a so-called "medical director" or by some other relationship or circumstance, and if the practitioner fails to adequately supervise that medical assistant as required under the circumstances, then that physician or physician assistant has violated NRS 630.306(1)(r), and is subject to discipline for failing to adequately supervise a medical assistant.

Cosmetologists, "Medical Spas,""Medical Estheticians," & Unlicensed Practice of Medicine

12. Pursuant to NRS 644A.030, a licensed "cosmetologist" is not authorized by such license to practice medicine in any way. Rather, a licensed cosmetologist is authorized to perform only non-medical, cosmetological services, such as cleansing, stimulating or massaging the scalp or cleansing or beautifying the hair by the use of cosmetic preparations, antiseptics, tonics, lotions or creams, cutting, trimming or shaping the hair, removing hair by the use of electrolysis, depilatories, waxing, or sugaring, except for the permanent removal of hair with needles,

manicuring nails, massaging the skin, giving facials, and other miscellaneous non-medical, cosmetological services. Likewise, pursuant to NRS 644A.065, a licensed "esthetician" is not authorized to practice medicine in any way. Instead, pursuant to NRS 644A.075, a licensed esthetician is licensed to engage in "[b]eautifying, massaging, cleansing or stimulating the skin of the human body by the use of cosmetic preparations, antiseptics, tonics, lotions or creams or any device, electrical or otherwise, for the care of the skin," "[a]pplying cosmetics, eyelash extensions or eyelashes to any person, tinting eyelashes and eyebrows, eyelash perming and lightening hair on the body," and "[r]emoving superfluous hair from the body of any person by the use of depilatories, waxing, tweezers or sugaring."

13. Pursuant to NAC 644A.790 a cosmetologist and esthetician is further explicitly prohibited from performing "invasive procedures," which is defined as "an act that affects the structure or function of the skin other than the uppermost layers of the skin," and which for the sake of regulating the practice of cosmetologists and estheticians includes, without limitation, (a) the application of electricity for the sole purpose of contracting a muscle, (b) the application of a topical lotion, cream or other substance which affects anything other than the uppermost layers of the skin, (c) the penetration of the skin by needles, and (d) the abrasion of the skin below the uppermost layers of the skin.

14. There is no such license as "medical esthetician"[4] or "medical cosmetologist" authorized by any Nevada law or issued by any Nevada sanctioned professional licensing body. The term "medical esthetician" is not recognized or defined under any Nevada law or regulation pertaining to the professional conduct and responsibility of licensed medical professionals, and no law authorizes cosmetologists or estheticians to violate or circumvent the aforementioned statutes and regulations of the Nevada Medical Practice Act by referring to themselves as "medical estheticians" or "medical cosmetologists."[5]

///

[4] Esthetician is sometimes spelled "aesthetician." Nevada law in NRS Chapter 644A refers to "esthetician," and, accordingly, this spelling is used throughout this Complaint.

[5] In fact, use of the title "medical esthetician" or "medical cosmetologist" by individuals licensed by the Nevada State Board of Cosmetology (NSBC) is prohibited in Nevada. It is grounds for disciplinary action by the NSBC if a licensee uses the term "expert," "advanced," or "medical" in connection with the description of his or her practice. *See* NAC 644A.870(2).

OFFICE OF THE GENERAL COUNSEL
Nevada State Board of Medical Examiners

15. Accordingly, a Nevada licensed cosmetologist or esthetician may not practice medicine in any way, or perform invasive medical procedures or medical services of any kind, except as a "medical assistant" to a Nevada licensed medical professional, i.e., either as the medical assistant of a Nevada licensed physician or physician assistant pursuant to NRS 630.0129, et. seq., and NAC 630.800 to NAC 630.830, as described above, or similarly as another type of professional "assistant," "hygienist," "technician," or other such designation, who is delegated tasks by and under the direct supervision of another medical professional who is duly licensed pursuant to NRS Chapters 631 to 637, inclusive, 639, or 640.

16. If a cosmetologist or esthetician practices or purports to practice medicine in any way, unless he or she acts as a medical assistant and is delegated tasks and is properly supervised by a professional medical practitioner, then he or she is violating NRS 630.400(1)(d) by practicing medicine without a license.

Nevada Pharmacy Laws Regarding Dangerous Drugs and Hypodermic Devices

17. NRS 630.306(1)(b)(3) provides that engaging in conduct that violates a regulation adopted by the Nevada State Board of Pharmacy (Pharmacy Board) is grounds for initiating disciplinary action against a licensee.

18. Pursuant to NRS 454.201, a "dangerous drug" is "any drug, other than a controlled substance, unsafe for self-medication or unsupervised use, and includes, the following, (1) any drug which has been approved by the Food and Drug Administration for general distribution and bears the legend: 'Rx Only'; (2) procaine hydrochloride with preservatives and stabilizers (Gerovital H3) in injectable doses and amygdalin (laetrile) which have been licensed by the State Board of Health for manufacture in this State but have not been approved as drugs by the Food and Drug Administration; or (3) any drug which, pursuant to the Board's regulations, may be sold only by prescription because the Board has found those drugs to be dangerous to public health or safety."

19. Pursuant to NRS 454.316 and NRS 454.321, it is unlawful to possess, dispense or furnish a dangerous drug except when furnished to the person by a pharmacist pursuant to a legal prescription or by a practitioner.

20. Pursuant to NRS 454.009, a "hypodermic" device is "any syringe, needle, instrument, device or implement intended or capable of being adapted for the purpose of administering drugs by subcutaneous, intramuscular or intravenous injection."

21. Pursuant to NRS 454.510, it is unlawful for any person to have in his or her possession or under his or her control any hypodermic device (that is restricted by federal law to sale by or on the order of a physician), unless the person has acquired possession of such device in accordance with the provisions of NRS 454.480 to NRS 454.530, inclusive, that is, by sale from a licensed pharmacist, on the prescription of a physician or other practitioner, which prescription is filled as required by NRS 639.236, and may be refilled as authorized by the prescriber.

22. Accordingly, pursuant to NRS 454.009, NRS 454.201, NRS 454.316, NRS 454.321 and NRS 454.510, a Nevada licensed cosmetologist and/or aesthetician is not permitted by Nevada law to possess, control, access, prescribe, administer, and/or dispense dangerous drugs or hypodermic devices, except as a medical assistant under the direct supervision of a Nevada licensed physician, physician assistant, or other licensed medical professional, and then only if otherwise permitted and in compliance with laws of regulating pharmacies and pharmaceuticals.

23. NAC 639.742(1) provides that a practitioner who wishes to dispense dangerous drugs must apply to the Pharmacy Board for a certificate of registration to dispense dangerous drugs. A practitioner must submit a separate application for each site of practice, including, without limitation, telepharmacy, remote site or satellite consultation site, from which the practitioner wishes to dispense dangerous drugs.

24. NAC 639.742(2) provides that if a facility from which the practitioner intends to dispense dangerous drugs is not wholly owned and operated by the practitioner, the owner or owners of the facility must also submit an application to the Pharmacy Board for a license to do so.

Respondent's Medical Directorship of Sandra Bledsoe

31. At all relevant times alleged herein, Respondent was an OB/GYN in Las Vegas, Nevada.

32. On or about July 15, 2015, Respondent entered into an agreement (Agreement) with an individual identified as Sandra Bledsoe (Bledsoe). This Agreement allowed Bledsoe to inject Botox, Juvaderm and B12 Vitamin Complex to cosmetic clients, and Respondent acted as supervising physician/Medical Director for VIP Faces, located at 1900 East Desert Inn Road, Las Vegas, Nevada 89169, which was located within the offices of the Desert Inn Women's Clinic. Desert Inn Medical Center owned and operated Desert Inn Women's Clinic at that time. This Agreement provided VIP Faces would pay Desert Inn Medical Center one thousand dollars ($1,000.00) per month for utilization of two rooms for VIP Faces to perform cosmetic injections using Botox and Juvederm. Also, VIP Faces agreed to refer to Respondent weight loss patients if requested by the client. As Medical Director of VIP Faces, Respondent would examine some, but not all, of VIP Faces clients.

33. On February 24, 2016, the Board's investigators and investigators from the Pharmacy Board inspected VIP Faces located at 1900 E. Desert Inn Road, Las Vegas, NV. Bledsoe was not present during this inspection. However, Respondent was present and stated the following: that he was the supervising physician/Medical Director of VIP Faces, which was owned by Bledsoe, whom he had known for about a year. Unlike his other OB-GYN patients, Respondent did not have a physician-patient relationship with Bledsoe's VIP Faces cosmetic patients. Respondent also stated that he did not examine Bledsoe's cosmetic patients and saw them as they came out of VIP Faces rooms. Respondent did not establish a bona-fide medical relationship with Bledsoe's clients unless they requested other medical care, such as weight loss or gynecology. If a client requested a weight-loss program, then Respondent would examine the patient and prescribe Phentermine as part of their weight loss program. Inspectors found in a refrigerator one used vial of Botox one hundred (100) units with approximately fifty (50) units remaining and two more unopened boxes of Botox units. Respondent admitted that he allowed Bledsoe to act like a medical assistant in ordering products from drug makers Allergan and

McKesson utilizing Respondent's DEA number, but did not know exactly how much Bledsoe was ordering for VIP Faces' use or her own personal use.

34. Bledsoe routinely injected clients with Botox, and Juvederm without Respondent's medical supervision, and without Respondent's medical orders or instructions. Bledsoe also injected B-12 vitamin for clients after approval by Respondent. VIP Faces held itself out to the public as a "medical spa" "specializing" in injectable cosmetic procedures and "medical" weight-loss.

35. Respondent was not a manager, agent, officer or employee of VIP Faces.

36. Respondent had no ownership or member interest in VIP Faces, but he had a contractual authority, pursuant to the aforementioned Agreement. Respondent had a statutory duty to manage the medical-related affairs of VIP Faces in compliance with the Medical Practice Act.

37. Neither Bledsoe nor other independent contractors of VIP Faces were employed by Respondent during the time Respondent served as Medical Director of VIP Faces.

38. At all times relevant to the facts alleged herein, neither Bledsoe, nor her independent contractors of VIP Faces were licensed by any Nevada professional licensing board pursuant to NRS chapters 630 to 637, inclusive, 639 or 640 or licensed to practice medicine in the State of Nevada.

39. Other than Respondent as Medical Director no person in any way affiliated with VIP Faces held a medical license issued by the Nevada Medical Board.

40. Bledsoe was neither a Nevada licensed cosmetologist nor a Nevada licensed esthetician.

41. During Respondent's supervision as Medical Director pursuant to the Agreement, VIP Faces' records failed to indicate that Respondent adequately supervised, contacted or consulted Bledsoe.

42. Respondent has been licensed in active status (License No. PD00433) by the Pharmacy Board since September 12, 2013, to dispense prescription drugs at the following location: 1900 E. Desert Inn Road, Suite B, Las Vegas, Nevada 89169.

43. Respondent prescribed prescription-strength Botox; the aforementioned drugs and hypodermic devices are available only by prescription, and are dangerous drugs as defined by NRS 454.201. However, Respondent failed to supervise the amounts ordered and received by VIP Faces, as Bledsoe solely controlled their possession.

44. As a result, Respondent, negligently through his lack of supervision, provided the aforementioned dangerous drugs and hypodermic devices in the sole possession, custody and control to Bledsoe.

45. During Respondent's agreement as Medical Director of VIP Faces, Bledsoe provided medical treatment, and/or prescriptions, and/or administered dangerous drugs, and/or utilized hypodermic devices, to VIP Faces' patients.

46. During Respondent's supervision pursuant to the Agreement, the conduct by Bledsoe constitutes the practice of medicine in Nevada.

47. During Respondent's supervision pursuant to the Agreement on the date of inspection, VIP Faces' medical records contained no entries for patient history, notes, examination findings, procedures performed, or therapeutic procedures performed by Respondent, unless the patient was referred by VIP Faces for weight loss or other gynological procedures.

48. During Respondent's supervision pursuant to the Agreement, Bledsoe at her discretion, ordered Botox and Juvederm prescribed by Respondent for utilization at VIP Faces without adequate supervision by Respondent.

49. Botox and Juvederm were stored in a secure, locked room or cabinet to which the Respondent and Bledsoe had access to. Respondent did not supervise Bledsoe's access to these dangerous drugs and/or hypodermic devices.

50. Botox is introduced hypodermically, that is, subcutaneously.

51. During Respondent's supervision as Medical Director pursuant to the Agreement, Bledsoe injected the aforementioned dangerous drugs and utilized hypodermic devices without a dispensing license as required by the Pharmacy Board.

52. During Respondent's supervision as Medical Director pursuant to the Agreement, Respondent was not always present when Bledsoe injected the aforementioned dangerous drugs.

53. During Respondent's supervision as Medical Director pursuant to the Agreement, Respondent neither received personally nor accounted for personally the dangerous drugs and/or hypodermic devices utilized for injections administered by Bledsoe.

a. The dangerous drugs and the use of hypodermic devices were not dispensed in accordance with NAC 639.745. Respondent did not have a bona-fide therapeutic relationship with some of the VIP Faces patients at issue.

b. Respondent personally did not inject the drugs dispensed in VIP Faces' two rooms, Respondent failed to assure through supervision that they were dispensed only for medically necessary purposes and according to prevailing standards of care, nor did he assure that a certificate for each dispensing technician employed at the facility was displayed in the room or cabinet in which drugs were stored.

54. Respondent failed to adequately supervise Bledsoe to ensure that she possessed the knowledge, skill, and training to perform injections on clients and/or patients safely and properly.

COUNT I

55. All of the allegations in the above paragraphs are hereby incorporated as if fully set forth herein.

56. NRS 630.306(1)(r) provides that a failure to supervise adequately a medical assistant pursuant to the regulations of the Board is an act that constitutes grounds for initiating disciplinary action against a licensee.

57. By the conduct described herein, Respondent failed to supervise adequately, or supervise properly Bledsoe, and any contractors of VIP Faces in their performance of medical tasks as Medical Director pursuant to the Agreement.

58. By reason of the foregoing, Respondent is subject to discipline by the Nevada State Board of Medical Examiners as provided in NRS 630.352.

If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent consistent with the provisions of NRS Chapter 453 and/or Chapter 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on June 2, 2021. 3. Pursuant to NRS 630.020, the "practice of medicine" means either (1) to diagnose, treat, correct, prevent or prescribe for any human disease, ailment, injury, infirmity, deformity or other condition, physical or mental, by any means or instrumentality, including, but not limited to, the performance of an autopsy, or (2) to apply principles or techniques of medical science in the diagnosis or the prevention of any such conditions, or (3) to perform any of the acts described in subsections (1) and (2) by using equipment that transfers information concerning the medical condition of the patient electronically, telephonically or by fiber optics, including, without limitation, through telehealth, from within or outside this State or the United States, or (4) to offer, undertake, attempt to do or hold oneself out as able to do any of the acts described in subsections (1) and (2).

4. Pursuant to NRS 630.305(1)(e), a Nevada physician or physician assistant (practitioner) may not aid, assist, employ or advise, directly or indirectly, any unlicensed person to engage in the practice of medicine contrary to the provisions of the Medical Practice Act, and doing so is grounds for initiating disciplinary action or denying licensure.

5. Pursuant to the Medical Practice Act, the only means by which a practitioner may lawfully aid, assist, employ or advise, directly or indirectly, an unlicensed person to engage in the practice of medicine is by delegating specific tasks to an adequately supervised and trained "medical assistant." Pursuant to NRS 630.0129, a "medical assistant" means a person who (a) performs clinical tasks under the supervision of a physician or physician assistant; and (b) does not hold a license, certificate or registration issued by a professional licensing or regulatory board in this State to perform such clinical tasks; and the term does not include a person who performs only administrative, clerical, executive or other nonclinical tasks.

6. Pursuant to NRS 630.306(1)(r), a practitioner must supervise adequately a medical assistant, and failing to do so is grounds for initiating disciplinary action or denying licensure.

7. Pursuant to NAC 630.830, a delegating practitioner is professionally responsible for the safety and performance of each task which is delegated to a medical assistant. Pursuant to NAC 630.810(1), a delegating practitioner may not delegate tasks to a medical assistant unless: (a) the delegating practitioner knows that the medical assistant possesses the knowledge, skill and

training to perform the task safely and properly; (b) the medical assistant is not required to be certified or licensed to perform that task; (c) the medical assistant is employed by the delegating practitioner or the medical assistant and the delegating practitioner are employed by the same employer; and (d) the employer of the medical assistant has complied with the requirements of subsection 2 as they relate to the task.

8. Pursuant to NAC 630.820, a delegating practitioner may not supervise remotely a medical assistant, except in a specific case of emergency in a rural area.[2]

9. Except as otherwise provided in NAC 630.820, pursuant to NAC 630.810, if a medical assistant is delegated a task which involves an "invasive procedure,"[3] the delegating practitioner must be immediately available to exercise oversight in person while the medical assistant performs the task.

10. The term "medical director" is not recognized or defined under any Nevada law or regulation pertaining to the professional conduct and responsibility of licensed medical professionals, and no law authorizes so-called "medical directors" to violate or circumvent the aforementioned statutes and regulations of the Medical Practice Act.

11. Accordingly, pursuant to NRS 630.400(1)(d), NRS 630.305(1)(e), and NRS 630.0129, and NAC 630.800 to NAC 630.840:

a. If a practitioner, whether by serving as a so-called "medical director" or by some other relationship or circumstance, aids, assists, employs or advises, directly or indirectly, any unlicensed person to engage in the practice of medicine, then the practitioner may lawfully do so only by delegating tasks to an adequately supervised, competent and properly trained medical assistant.

---

[2] Remote supervision of a medical assistant is prohibited unless: (a) the patient is located in a rural area; (b) the delegating practitioner is physically located a significant distance from the location where the task is to be performed; (c) the delegating practitioner determines that the exigent needs of the patient require immediate attention; (d) the patient and the delegating practitioner previously established a practitioner-patient relationship; and (e) the delegating practitioner is immediately available by telephone or other means of instant communication during the performance of the task by the medical assistant. As used in NAC 630.820, "rural area" means any area in this State other than Carson City or the City of Elko, Henderson, Reno, Sparks, Las Vegas or North Las Vegas.

[3] The Medical Practice Act does not define "invasive procedure," however, NAC 449.9733, pertaining to Medical Facilities, defines "invasive procedure" as "a medical procedure involving entry into the human body by puncture or incision or by insertion of an instrument,"

b. If a practitioner, whether by serving as a so-called "medical director" or by some other relationship or circumstance, aids, assists, employs or advises, directly or indirectly, any unlicensed person to engage in the practice of medicine, and if the practitioner has not done so by delegating specific tasks to an adequately supervised, competent and properly trained medical assistant, then: (1) that unlicensed person has violated NRS 630.400(1)(d), by practicing medicine without a license; and (2) that practitioner has violated NRS 630.305(1)(e), and is subject to discipline for aiding and assisting the unlicensed practice of medicine.

c. If a practitioner delegates a medical task to a medical assistant, whether by serving as a so-called "medical director" or by some other relationship or circumstance, then the practitioner remains professionally responsible for the safety and performance of each task, and remains professionally responsible for ensuring that the proper employment relationships exist, that the medical assistant is properly knowledgeable, trained and skilled, that the medical assistant is adequately supervised, and that the practitioner is nearby to supervise the specific medical tasks delegated, and, if it is an invasive medical task, then he or she must be immediately available to exercise oversight in person while the medical assistant performs the task.

d. If a practitioner delegates a medical task to a medical assistant, whether by serving as a so-called "medical director" or by some other relationship or circumstance, and if the practitioner fails to adequately supervise that medical assistant as required under the circumstances, then that physician or physician assistant has violated NRS 630.306(1)(r), and is subject to discipline for failing to adequately supervise a medical assistant.

Cosmetologists, "Medical Spas,""Medical Estheticians," & Unlicensed Practice of Medicine

12. Pursuant to NRS 644A.030, a licensed "cosmetologist" is not authorized by such license to practice medicine in any way. Rather, a licensed cosmetologist is authorized to perform only non-medical, cosmetological services, such as cleansing, stimulating or massaging the scalp or cleansing or beautifying the hair by the use of cosmetic preparations, antiseptics, tonics, lotions or creams, cutting, trimming or shaping the hair, removing hair by the use of electrolysis, depilatories, waxing, or sugaring, except for the permanent removal of hair with needles,

manicuring nails, massaging the skin, giving facials, and other miscellaneous non-medical, cosmetological services. Likewise, pursuant to NRS 644A.065, a licensed "esthetician" is not authorized to practice medicine in any way. Instead, pursuant to NRS 644A.075, a licensed esthetician is licensed to engage in "[b]eautifying, massaging, cleansing or stimulating the skin of the human body by the use of cosmetic preparations, antiseptics, tonics, lotions or creams or any device, electrical or otherwise, for the care of the skin," "[a]pplying cosmetics, eyelash extensions or eyelashes to any person, tinting eyelashes and eyebrows, eyelash perming and lightening hair on the body," and "[r]emoving superfluous hair from the body of any person by the use of depilatories, waxing, tweezers or sugaring."

13. Pursuant to NAC 644A.790 a cosmetologist and esthetician is further explicitly prohibited from performing "invasive procedures," which is defined as "an act that affects the structure or function of the skin other than the uppermost layers of the skin," and which for the sake of regulating the practice of cosmetologists and estheticians includes, without limitation, (a) the application of electricity for the sole purpose of contracting a muscle, (b) the application of a topical lotion, cream or other substance which affects anything other than the uppermost layers of the skin, (c) the penetration of the skin by needles, and (d) the abrasion of the skin below the uppermost layers of the skin.

14. There is no such license as "medical esthetician"[4] or "medical cosmetologist" authorized by any Nevada law or issued by any Nevada sanctioned professional licensing body. The term "medical esthetician" is not recognized or defined under any Nevada law or regulation pertaining to the professional conduct and responsibility of licensed medical professionals, and no law authorizes cosmetologists or estheticians to violate or circumvent the aforementioned statutes and regulations of the Nevada Medical Practice Act by referring to themselves as "medical estheticians" or "medical cosmetologists."[5]

///

[4] Esthetician is sometimes spelled "aesthetician." Nevada law in NRS Chapter 644A refers to "esthetician," and, accordingly, this spelling is used throughout this Complaint.

[5] In fact, use of the title "medical esthetician" or "medical cosmetologist" by individuals licensed by the Nevada State Board of Cosmetology (NSBC) is prohibited in Nevada. It is grounds for disciplinary action by the NSBC if a licensee uses the term "expert," "advanced," or "medical" in connection with the description of his or her practice. *See* NAC 644A.870(2).

15. Accordingly, a Nevada licensed cosmetologist or esthetician may not practice medicine in any way, or perform invasive medical procedures or medical services of any kind, except as a "medical assistant" to a Nevada licensed medical professional, i.e., either as the medical assistant of a Nevada licensed physician or physician assistant pursuant to NRS 630.0129, et. seq., and NAC 630.800 to NAC 630.830, as described above, or similarly as another type of professional "assistant," "hygienist," "technician," or other such designation, who is delegated tasks by and under the direct supervision of another medical professional who is duly licensed pursuant to NRS Chapters 631 to 637, inclusive, 639, or 640.

16. If a cosmetologist or esthetician practices or purports to practice medicine in any way, unless he or she acts as a medical assistant and is delegated tasks and is properly supervised by a professional medical practitioner, then he or she is violating NRS 630.400(1)(d) by practicing medicine without a license.

Nevada Pharmacy Laws Regarding Dangerous Drugs and Hypodermic Devices

17. NRS 630.306(1)(b)(3) provides that engaging in conduct that violates a regulation adopted by the Nevada State Board of Pharmacy (Pharmacy Board) is grounds for initiating disciplinary action against a licensee.

18. Pursuant to NRS 454.201, a "dangerous drug" is "any drug, other than a controlled substance, unsafe for self-medication or unsupervised use, and includes, the following, (1) any drug which has been approved by the Food and Drug Administration for general distribution and bears the legend: 'Rx Only'; (2) procaine hydrochloride with preservatives and stabilizers (Gerovital H3) in injectable doses and amygdalin (laetrile) which have been licensed by the State Board of Health for manufacture in this State but have not been approved as drugs by the Food and Drug Administration; or (3) any drug which, pursuant to the Board's regulations, may be sold only by prescription because the Board has found those drugs to be dangerous to public health or safety."

20. Pursuant to NRS 454.009, a "hypodermic" device is "any syringe, needle, instrument, device or implement intended or capable of being adapted for the purpose of administering drugs by subcutaneous, intramuscular or intravenous injection."

23. NAC 639.742(1) provides that a practitioner who wishes to dispense dangerous drugs must apply to the Pharmacy Board for a certificate of registration to dispense dangerous drugs. A practitioner must submit a separate application for each site of practice, including, without limitation, telepharmacy, remote site or satellite consultation site, from which the practitioner wishes to dispense dangerous drugs.

24. NAC 639.742(2) provides that if a facility from which the practitioner intends to dispense dangerous drugs is not wholly owned and operated by the practitioner, the owner or owners of the facility must also submit an application to the Pharmacy Board for a license to do so.

Respondent's Medical Directorship of Sandra Bledsoe

31. At all relevant times alleged herein, Respondent was an OB/GYN in Las Vegas, Nevada.

32. On or about July 15, 2015, Respondent entered into an agreement (Agreement) with an individual identified as Sandra Bledsoe (Bledsoe). This Agreement allowed Bledsoe to inject Botox, Juvaderm and B12 Vitamin Complex to cosmetic clients, and Respondent acted as supervising physician/Medical Director for VIP Faces, located at 1900 East Desert Inn Road, Las Vegas, Nevada 89169, which was located within the offices of the Desert Inn Women's Clinic. Desert Inn Medical Center owned and operated Desert Inn Women's Clinic at that time. This Agreement provided VIP Faces would pay Desert Inn Medical Center one thousand dollars ($1,000.00) per month for utilization of two rooms for VIP Faces to perform cosmetic injections using Botox and Juvederm. Also, VIP Faces agreed to refer to Respondent weight loss patients if requested by the client. As Medical Director of VIP Faces, Respondent would examine some, but not all, of VIP Faces clients.

33. On February 24, 2016, the Board's investigators and investigators from the Pharmacy Board inspected VIP Faces located at 1900 E. Desert Inn Road, Las Vegas, NV. Bledsoe was not present during this inspection. However, Respondent was present and stated the following: that he was the supervising physician/Medical Director of VIP Faces, which was owned by Bledsoe, whom he had known for about a year. Unlike his other OB-GYN patients, Respondent did not have a physician-patient relationship with Bledsoe's VIP Faces cosmetic patients. Respondent also stated that he did not examine Bledsoe's cosmetic patients and saw them as they came out of VIP Faces rooms. Respondent did not establish a bona-fide medical relationship with Bledsoe's clients unless they requested other medical care, such as weight loss or gynecology. If a client requested a weight-loss program, then Respondent would examine the patient and prescribe Phentermine as part of their weight loss program. Inspectors found in a refrigerator one used vial of Botox one hundred (100) units with approximately fifty (50) units remaining and two more unopened boxes of Botox units. Respondent admitted that he allowed Bledsoe to act like a medical assistant in ordering products from drug makers Allergan and

McKesson utilizing Respondent's DEA number, but did not know exactly how much Bledsoe was ordering for VIP Faces' use or her own personal use.

34. Bledsoe routinely injected clients with Botox, and Juvederm without Respondent's medical supervision, and without Respondent's medical orders or instructions. Bledsoe also injected B-12 vitamin for clients after approval by Respondent. VIP Faces held itself out to the public as a "medical spa" "specializing" in injectable cosmetic procedures and "medical" weight-loss.

35. Respondent was not a manager, agent, officer or employee of VIP Faces.

36. Respondent had no ownership or member interest in VIP Faces, but he had a contractual authority, pursuant to the aforementioned Agreement. Respondent had a statutory duty to manage the medical-related affairs of VIP Faces in compliance with the Medical Practice Act.

37. Neither Bledsoe nor other independent contractors of VIP Faces were employed by Respondent during the time Respondent served as Medical Director of VIP Faces.

38. At all times relevant to the facts alleged herein, neither Bledsoe, nor her independent contractors of VIP Faces were licensed by any Nevada professional licensing board pursuant to NRS chapters 630 to 637, inclusive, 639 or 640 or licensed to practice medicine in the State of Nevada.

39. Other than Respondent as Medical Director no person in any way affiliated with VIP Faces held a medical license issued by the Nevada Medical Board.

40. Bledsoe was neither a Nevada licensed cosmetologist nor a Nevada licensed esthetician.

41. During Respondent's supervision as Medical Director pursuant to the Agreement, VIP Faces' records failed to indicate that Respondent adequately supervised, contacted or consulted Bledsoe.

42. Respondent has been licensed in active status (License No. PD00433) by the Pharmacy Board since September 12, 2013, to dispense prescription drugs at the following location: 1900 E. Desert Inn Road, Suite B, Las Vegas, Nevada 89169.

43. Respondent prescribed prescription-strength Botox; the aforementioned drugs and hypodermic devices are available only by prescription, and are dangerous drugs as defined by NRS 454.201. However, Respondent failed to supervise the amounts ordered and received by VIP Faces, as Bledsoe solely controlled their possession.

44. As a result, Respondent, negligently through his lack of supervision, provided the aforementioned dangerous drugs and hypodermic devices in the sole possession, custody and control to Bledsoe.

45. During Respondent's agreement as Medical Director of VIP Faces, Bledsoe provided medical treatment, and/or prescriptions, and/or administered dangerous drugs, and/or utilized hypodermic devices, to VIP Faces' patients.

46. During Respondent's supervision pursuant to the Agreement, the conduct by Bledsoe constitutes the practice of medicine in Nevada.

47. During Respondent's supervision pursuant to the Agreement on the date of inspection, VIP Faces' medical records contained no entries for patient history, notes, examination findings, procedures performed, or therapeutic procedures performed by Respondent, unless the patient was referred by VIP Faces for weight loss or other gynological procedures.

48. During Respondent's supervision pursuant to the Agreement, Bledsoe at her discretion, ordered Botox and Juvederm prescribed by Respondent for utilization at VIP Faces without adequate supervision by Respondent.

49. Botox and Juvederm were stored in a secure, locked room or cabinet to which the Respondent and Bledsoe had access to. Respondent did not supervise Bledsoe's access to these dangerous drugs and/or hypodermic devices.

50. Botox is introduced hypodermically, that is, subcutaneously.

51. During Respondent's supervision as Medical Director pursuant to the Agreement, Bledsoe injected the aforementioned dangerous drugs and utilized hypodermic devices without a dispensing license as required by the Pharmacy Board.

52. During Respondent's supervision as Medical Director pursuant to the Agreement, Respondent was not always present when Bledsoe injected the aforementioned dangerous drugs.

53. During Respondent's supervision as Medical Director pursuant to the Agreement, Respondent neither received personally nor accounted for personally the dangerous drugs and/or hypodermic devices utilized for injections administered by Bledsoe.

a. The dangerous drugs and the use of hypodermic devices were not dispensed in accordance with NAC 639.745. Respondent did not have a bona-fide therapeutic relationship with some of the VIP Faces patients at issue.

b. Respondent personally did not inject the drugs dispensed in VIP Faces' two rooms, Respondent failed to assure through supervision that they were dispensed only for medically necessary purposes and according to prevailing standards of care, nor did he assure that a certificate for each dispensing technician employed at the facility was displayed in the room or cabinet in which drugs were stored.

54. Respondent failed to adequately supervise Bledsoe to ensure that she possessed the knowledge, skill, and training to perform injections on clients and/or patients safely and properly.

COUNT I

NRS 630.306(1)(r): Failure to Adequately Supervise

55. All of the allegations in the above paragraphs are hereby incorporated as if fully set forth herein.

56. NRS 630.306(1)(r) provides that a failure to supervise adequately a medical assistant pursuant to the regulations of the Board is an act that constitutes grounds for initiating disciplinary action against a licensee.

57. By the conduct described herein, Respondent failed to supervise adequately, or supervise properly Bledsoe, and any contractors of VIP Faces in their performance of medical tasks as Medical Director pursuant to the Agreement.

58. By reason of the foregoing, Respondent is subject to discipline by the Nevada State Board of Medical Examiners as provided in NRS 630.352.
