Disciplinary History

Attachment 4

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave, Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries' Kansas City, MO license (#2003031660) was disciplined for failure to renew on-time and for insufficient temperature control procedures. Medline was placed on probation for 5 years. Throughout the probationary period, the state conducted multiple inspections of the facility and found Medline to be in compliance with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialist that monitor and ensure each of our 200+ licenses are renewed on-time. A temperature control room was also constructed at the facility to ensure product is stored at the appropriate temperature and humidity levels. These control rooms are now a standard feature at our distribution centers, and we have worked closely with VAWD throughout our distribution network to ensure that our temperature control facilities and procedures align with industry best practices.
12/7/2006	9101 Riverside Parkway, Lithia Springs, GA 30122	**FILE CLOSED 2008** Medline's Florida Certified Designated Representative at our Georgia facility resigned unexpectedly. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Designated Representative was hired at the facility.	To prevent a situation like this from occurring in the future, every Medline facility licensed in FL has multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Drive, Orlando, FL 32824 401 Commerce Blvd., Oldsmar, FL 34677 4750 118th Ave N Clearwater, FL 33762	**FILE CLOSED 2008** Medline Industries was cited for several violations including: failure to pass and maintain a pedigree that met Florida's specific requirements; having the wrong type of permit for activities being performed (in addition to the manufacturing permit that we had, Florida required that we also have a repacker permit); distribution of saline to an unauthorized recipient; and an Rx drug item was found at an unlicensed raw materials storage facility. Several of the violations were challenged and reduced substantially or removed during the settlement process. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required, we were fined by New York (Cal. No. 27278) for out-of-state professional misconduct. In 2010, Medline made an unrelated business decision to close the Oldsmar and Clearwater facilities.	To address the pedigree issues, Medline instituted a Florida specific pedigree system to ensure that any pedigree shipments within our distribution network with potential to end up in Florida have the required Florida specific documentation. (Note - these requirements have since been preempted by federal law). To address the issue of having the wrong permit type, Medline secured a repackaging permit, in addition to the manufacturing permit the facility already had. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx drug purchases; this procedure generates an automatic block of any Rx drug orders by an unlicensed customer in our SAP system. The Rx drug item unintentionally stored at our raw materials facility was properly disposed of, and our waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd., Gainesville, FL	**FILE CLOSED 2008** Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008 (Case # 2007-37412). In 2010, Medline made an unrelated business decision to close this facility.	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, an internal auditing program was implemented to ensure that each distribution center is in compliance with internal policies and procedures, as well as state and federal regulations.
3/5/2008	149 New Camellia Blvd., Covington, LA 70433	**FILE CLOSED 2008** Medline Industries' license #4318 was cited for failure to properly maintain copies of current customer licenses on site (Louisiana Administrative Docket #2008006). Medline was assessed and paid a fine. After duly notifying state authorities, as required, we were fined by New York (Cal. No. 27278) for out-of-state professional misconduct.	In addition to storing copies of our customers' licenses at headquarters, we now store these licenses digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave., Wausau, WI	**FILE CLOSED 2009** Medline Industries' license (# 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing during an inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to have a dividing fence between the Medline managed portion of the facility and the hospital portion of the facility - even though all of the products were owned by the hospital. Medline was also cited for failure to access several policies and procedures during the inspection. Corrections were made and the facility was re-inspected, to the satisfaction of the state (Case #08 PHM 037). After duly notifying state authorities, as required, we were fined by the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) out-of-state professional misconduct. . In 2010, Medline made an unrelated business decision to close this facility.	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the faculty. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.
8/21/2008	94-1420 Moaniani St., Waipahu, Hawaii	**FILE CLOSED 2013** Medline Industries' license (PWD 115) was fined $5000 and placed on probation for 5 years for failure to report the Florida and Missouri disciplinary actions within 30 days. While Medline filed the required reports, the 30 day deadline was missed. Probationary period ended August 2013. (Case # PHA 2008-17-L)	Medline takes this oversight very seriously and we have implemented a new process to notify the required boards of any future disciplinary actions within 10 days of a final action.
3/19/2010	1401 N. Universal Ave. Kansas City, MO 64120	**FILE CLOSED 2010** Medline applied for a Colorado Out of State Wholesaler license for the Missouri distribution center and was issued a conditional license by the CO Board of Pharmacy until the facility's MO probation period ended (approximately 5 months). The CO BOP was informed when the MO probationary period was completed, and subsequently removed the encumbered status of this facility's CO license.	See above for corrective actions related to the underlying sanction.
1/6/2021	1501 Harris Rd, Libertyville, IL 60048	**FILE CLOSED 2021** Medline Industries, Inc. License #01-1985050 received a fined $250 by the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired, unbeknownst to Medline. Case No. A-2020-0054 I-2019-0972-B. The fine was paid on January 21, 2021 and the case was closed.	Medline takes this oversight very seriously. We reviewed our processes and updated our guidelines for the type of license required for business in Ohio to ensure proper type of licenses applied to the customer are valid and current. The TDDD Ohio licenses are reviewed on an annual basis to ensure compliance.

Medline Industries, Inc
Disciplinary History

Attachment 4

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave, Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries' Kansas City, MO license (#2003031660) was disciplined for failure to renew on-time and for insufficient temperature control procedures. Medline was placed on probation for 5 years. Throughout the probationary period, the state conducted multiple inspections of the facility and found Medline to be in compliance with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialist that monitor and ensure each of our 200+ licenses are renewed on-time. A temperature control room was also constructed at the facility to ensure product is stored at the appropriate temperature and humidity levels. These control rooms are now a standard feature at our distribution centers, and we have worked closely with VAWD throughout our distribution network to ensure that our temperature control facilities and procedures align with industry best practices.
12/7/2006	9101 Riverside Parkway, Lithia Springs, GA 30122	**FILE CLOSED 2008** Medline's Florida Certified Designated Representative at our Georgia facility resigned unexpectedly. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23.1470) until a new licensed Designated Representative was hired at the facility.	To prevent a situation like this from occurring in the future, every Medline facility licensed in FL has multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Drive, Orlando, FL 32824 401 Commerce Blvd., Oldsmar, FL 34677 4750 118th Ave N Clearwater, FL 33762	**FILE CLOSED 2008** Medline Industries was cited for several violations including: failure to pass and maintain a pedigree that met Florida's specific requirements; having the wrong type of permit for activities being performed (in addition to the manufacturing permit that we had, Florida required that we also have a repacker permit); distribution of saline to an unauthorized recipient; and an Rx drug item was found at an unlicensed raw materials storage facility. Several of the violations were challenged and reduced substantially or removed during the settlement process. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required, we were fined by New York (Cal. No. 27278) for out-of-state professional misconduct. In 2010, Medline made an unrelated business decision to close the Oldsmar and Clearwater facilities.	To address the pedigree issues, Medline instituted a Florida specific pedigree system to ensure that any pedigree shipments within our distribution network with potential to end up in Florida have the required Florida specific documentation. (Note - these requirements have since been preempted by federal law). To address the issue of having the wrong permit type, Medline secured a repackaging permit, in addition to the manufacturing permit the facility already had. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx drug purchases; this procedure generates an automatic block of any Rx drug orders by an unlicensed customer in our SAP system. The Rx drug item unintentionally stored at our raw materials facility was properly disposed of, and our waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd., Gainesville, FL	**FILE CLOSED 2008** Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008 (Case # 2007-37412). In 2010, Medline made an unrelated business decision to close this facility.	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, an internal auditing program was implemented to ensure that each distribution center is in compliance with internal policies and procedures, as well as state and federal regulations.
3/5/2008	149 New Camellia Blvd., Covington, LA 70433	**FILE CLOSED 2008** Medline Industries' license #4318 was cited for failure to properly maintain copies of current customer licenses on site (Louisiana Administrative Docket #2008006). Medline was assessed and paid a fine. After duly notifying state authorities, as required, we were fined by New York (Cal. No. 27278) for out-of-state professional misconduct.	In addition to storing copies of our customers' licenses at headquarters, we now store these licenses digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave., Wausau, WI	**FILE CLOSED 2009** Medline Industries' license (# 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing during an inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to have a dividing fence between the Medline managed portion of the facility and the hospital portion of the facility - even though all of the products were owned by the hospital. Medline was also cited for failure to access several policies and procedures during the inspection. Corrections were made and the facility was re-inspected, to the satisfaction of the state (Case #08 PHM 037). After duly notifying state authorities, as required, we were fined by the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) out-of-state professional misconduct. . In 2010, Medline made an unrelated business decision to close this facility.	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the faculty. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.
8/21/2008	94-1420 Moaniani St., Waipahu, Hawaii	**FILE CLOSED 2013** Medline Industries' license (PWD 115) was fined $5000 and placed on probation for 5 years for failure to report the Florida and Missouri disciplinary actions within 30 days. While Medline filed the required reports, the 30 day deadline was missed. Probationary period ended August 2013. (Case # PHA 2008-17-L)	Medline takes this oversight very seriously and we have implemented a new process to notify the required boards of any future disciplinary actions within 10 days of a final action.
3/19/2010	1401 N. Universal Ave. Kansas City, MO 64120	**FILE CLOSED 2010** Medline applied for a Colorado Out of State Wholesaler license for the Missouri distribution center and was issued a conditional license by the CO Board of Pharmacy until the facility's MO probation period ended (approximately 5 months). The CO BOP was informed when the MO probationary period was completed, and subsequently removed the encumbered status of this facility's CO license.	See above for corrective actions related to the underlying sanction.
1/6/2021	1501 Harris Rd, Libertyville, IL 60048	**FILE CLOSED 2021** Medline Industries, Inc. License #01-1985050 received a fined $250 by the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired, unbeknownst to Medline. Case No. A-2020-0054 I-2019-0972-B. The fine was paid on January 21, 2021 and the case was closed.	Medline takes this oversight very seriously. We reviewed our processes and updated our guidelines for the type of license required for business in Ohio to ensure proper type of licenses applied to the customer are valid and current. The TDDD Ohio licenses are reviewed on an annual basis to ensure compliance.

Provide explanation below:

Perrigo Company plc is a leading global consumer-focused self-care company. It has multiple United States subsidiaries involved in the healthcare supply chain, including:

- L. Perrigo Company
- Perrigo New York, Inc.
- Ranir, LLC
- Perrigo Direct
- And others

Facilities operated by these subsidiaries are licensed as needed based on their operations. As those operations change, the licensing portfolios are adjusted appropriately, including surrendering licenses. Occasionally, licensing needs change based on an operation change or a state regulation change prior to completion of the licensing process, in which case an application may be withdrawn before the license is issued.

PART I

ITEM 1. BUSINESS

GENERAL DEVELOPMENT OF BUSINESS

Abbott Laboratories is an Illinois corporation, incorporated in 1900. Abbott's* principal business is the discovery, development, manufacture, and sale of a broad and diversified line of health care products.

NARRATIVE DESCRIPTION OF BUSINESS

Abbott has four reportable segments: Established Pharmaceutical Products, Diagnostic Products, Nutritional Products, and Medical Devices.

Established Pharmaceutical Products

These products include a broad line of branded generic pharmaceuticals manufactured worldwide and marketed and sold outside the United States in emerging markets. These products are generally sold directly to wholesalers, distributors, government agencies, health care facilities, pharmacies, and independent retailers from Abbott-owned distribution centers and public warehouses, depending on the market served. Certain products are co-marketed or co-promoted with, or licensed from, other companies.

The principal products included in the broad therapeutic area portfolios of the Established Pharmaceutical Products segment are:

- gastroenterology products, including Creon™, for the treatment of pancreatic exocrine insufficiency associated with several underlying conditions, including cystic fibrosis and chronic pancreatitis; Duspatal™ and Dicetel™, for the treatment of irritable bowel syndrome or biliary spasm; Heptral™, Transmetil™, and Samyr™, for the treatment of intrahepatic cholestasis (associated with liver disease) or depressive symptoms; and Duphalac™, for regulation of the physiological rhythm of the colon;
- women's health products, including Duphaston™, for the treatment of many different gynecological disorders; and Femoston™, a hormone replacement therapy for postmenopausal women;
- cardiovascular and metabolic products, including Lipanthyl™ and TriCor™, for the treatment of dyslipidemia; Teveten™ and Teveten™ Plus, for the treatment of essential hypertension, and Physiotens™, for the treatment of hypertension; and Synthroid™, for the treatment of hypothyroidism;
- pain and central nervous system products, including Serc™, for the treatment of Ménière's disease and vestibular vertigo; Brufen™, for the treatment of pain, fever, and inflammation; and Sevedol™, for the treatment of severe migraines; and
- respiratory drugs and vaccines, including the anti-infective clarithromycin (sold under the trademarks Biaxin™, Klacid™, and Klaricid™); and Influvac™, an influenza vaccine.

The Established Pharmaceutical Products segment directs its primary marketing efforts toward building strong brands with key stakeholders, including consumers, pharmacists, physicians, and other healthcare providers. Government agencies are also important customers.

Competition in the Established Pharmaceutical Products segment is generally from other health care and pharmaceutical companies. In addition, the substitution of generic drugs for the brand prescribed and introduction of additional forms of already marketed established products by generic or branded competitors may increase competitive pressures.

SUPPLEMENTAL RESPONSES TO SECTION 2, QUESTIONS 1-5 OF NEVADA WHOLESALER APPLICATION
EXHIBIT A

ALI Applications

ALI supplements the responses set forth in the Wholesaler Application Addendum to Questions 1-5 of Section 2 of the Nevada Wholesaler Application for North Chicago, Irving 1, Irving 2, Sylmar, Plano, Roseville and Temecula facilities, each as follows:

Section 2 Questions	Response
1. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been charged, or convicted of a felony or gross misdemeanor (including by way of a guilty plea or no contest plea)?	ALI Based on records available to it and to the best of its knowledge, ALI, the prospective licensee, has not been charged or convicted of a felony or gross misdemeanor (including by way of a guilty plea or no contest plea) since 2004. Abbott In May 2012, Abbott, the parent company of the prospective licensee identified in Section 9 of the Wholesaler Application Addendum, pleaded guilty to one misdemeanor violation of the Food, Drug and Cosmetic Act for misbranding as part of a settlement with U.S. federal and 49 state authorities, plus the District of Columbia, to resolve all outstanding issues regarding an investigation of past sales and marketing practices relating to its neurologic medication Depakote. Abbott and the Department of Justice, as reflected in the plea agreement, agreed that the conduct that gave rise to the conviction relates solely to the research-based pharmaceutical business that later became part of Abbvie, and that, from the time of the separation of Abbvie, Abbott no longer had any obligations under the plea agreement, nor would the Department of Justice treat Abbott as having a conviction under the Food, Drug and Cosmetic Act. Effective January 2, 2013, Abbott separated that research-based pharmaceutical business, including its U.S. pharmaceutical business, the business responsible for Depakote, into a new, independent publicly traded company, Abbvie.

Section 2 Questions	Response
2. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been denied a license, permit or certificate of registration?	Based on records available to them and to the best of their knowledge, ALI and Abbott have not been denied a license, permit or certificate of registration material to Abbott's operations since 2004.
3. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been subject of an administrative action or proceeding relating to the pharmaceutical industry?	ALI Based on records available to it and to the best of its knowledge, and excluding the research-based pharmaceutical business that separated into a new, independent publicly traded company in 2013 (Abbvie), ALI has not been the subject of an administrative action or proceeding relating to the pharmaceutical industry since 2004. Abbott *See* Abbott's response to Question 1 above.
4. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been found guilty, pled guilty or entered a plea of nolo contendere to any offense federal or state, related to controlled substances?	ALI/Abbott Based on records available to them and to the best of their knowledge, ALI and Abbott have not been found guilty, pled guilty or entered a plea of nolo contendere to any offense federal or state, related to controlled substances since 2004.
5. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever surrendered a license, permit or certificate of registration voluntarily or otherwise (other than upon voluntary close of a facility)?	ALI/Abbott Based on records available to them and to the best of their knowledge, ALI and Abbott have not surrendered a license, permit or certificate of registration voluntarily or otherwise (other than upon voluntary close of a facility) material to Abbott's operations since 2004.

Abbott In May 2012, Abbott, the parent company of the prospective licensee, pleaded guilty to one misdemeanor violation of the Food, Drug and Cosmetic Act for misbranding as part of a settlement with U.S. federal and 49 state authorities, plus the District of Columbia, to resolve all outstanding issues regarding an investigation of past sales and marketing practices relating to its neurologic medication Depakote. Abbott and the Department of Justice, as reflected in the plea agreement, agreed that the conduct that gave rise to the conviction relates solely to the research-based pharmaceutical business that later became part of Abbvie, and that, from the time of the separation of Abbvie, Abbott no longer had any obligations under the plea agreement, nor would the Department of Justice treat Abbott as having a conviction under the Food, Drug and Cosmetic Act. Effective January 2, 2013, Abbott separated that research-based pharmaceutical business, including its U.S. pharmaceutical business, the business responsible

ITEM 1. BUSINESS

GENERAL DEVELOPMENT OF BUSINESS

Abbott Laboratories is an Illinois corporation, incorporated in 1900. Abbott's* principal business is the discovery, development, manufacture, and sale of a broad and diversified line of health care products.

NARRATIVE DESCRIPTION OF BUSINESS

Abbott has four reportable segments: Established Pharmaceutical Products, Diagnostic Products, Nutritional Products, and Medical Devices.

Established Pharmaceutical Products

These products include a broad line of branded generic pharmaceuticals manufactured worldwide and marketed and sold outside the United States in emerging markets. These products are generally sold directly to wholesalers, distributors, government agencies, health care facilities, pharmacies, and independent retailers from Abbott-owned distribution centers and public warehouses, depending on the market served. Certain products are co-marketed or co-promoted with, or licensed from, other companies.

The principal products included in the broad therapeutic area portfolios of the Established Pharmaceutical Products segment are:

- gastroenterology products, including Creon™, for the treatment of pancreatic exocrine insufficiency associated with several underlying conditions, including cystic fibrosis and chronic pancreatitis; Duspatal™ and Dicetel™, for the treatment of irritable bowel syndrome or biliary spasm; Heptral™, Transmetil™, and Samyr™, for the treatment of intrahepatic cholestasis (associated with liver disease) or depressive symptoms; and Duphalac™, for regulation of the physiological rhythm of the colon;
- women's health products, including Duphaston™, for the treatment of many different gynecological disorders; and Femoston™, a hormone replacement therapy for postmenopausal women;
- cardiovascular and metabolic products, including Lipanthyl™ and TriCor™, for the treatment of dyslipidemia; Teveten™ and Teveten™ Plus, for the treatment of essential hypertension, and Physiotens™, for the treatment of hypertension; and Synthroid™, for the treatment of hypothyroidism;
- pain and central nervous system products, including Serc™, for the treatment of Ménière's disease and vestibular vertigo; Brufen™, for the treatment of pain, fever, and inflammation; and Sevedol™, for the treatment of severe migraines; and
- respiratory drugs and vaccines, including the anti-infective clarithromycin (sold under the trademarks Biaxin™, Klacid™, and Klaricid™); and Influvac™, an influenza vaccine.

The Established Pharmaceutical Products segment directs its primary marketing efforts toward building strong brands with key stakeholders, including consumers, pharmacists, physicians, and other healthcare providers. Government agencies are also important customers.

Competition in the Established Pharmaceutical Products segment is generally from other health care and pharmaceutical companies. In addition, the substitution of generic drugs for the brand prescribed and introduction of additional forms of already marketed established products by generic or branded competitors may increase competitive pressures.

SUPPLEMENTAL RESPONSES TO SECTION 2, QUESTIONS 1-5 OF NEVADA WHOLESALER APPLICATION
EXHIBIT A

ALI Applications

ALI supplements the responses set forth in the Wholesaler Application Addendum to Questions 1-5 of Section 2 of the Nevada Wholesaler Application for North Chicago, Irving 1, Irving 2, Sylmar, Plano, Roseville and Temecula facilities, each as follows:

Section 2 Questions	Response
1. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been charged, or convicted of a felony or gross misdemeanor (including by way of a guilty plea or no contest plea)?	ALI Based on records available to it and to the best of its knowledge, ALI, the prospective licensee, has not been charged or convicted of a felony or gross misdemeanor (including by way of a guilty plea or no contest plea) since 2004. Abbott In May 2012, Abbott, the parent company of the prospective licensee identified in Section 9 of the Wholesaler Application Addendum, pleaded guilty to one misdemeanor violation of the Food, Drug and Cosmetic Act for misbranding as part of a settlement with U.S. federal and 49 state authorities, plus the District of Columbia, to resolve all outstanding issues regarding an investigation of past sales and marketing practices relating to its neurologic medication Depakote. Abbott and the Department of Justice, as reflected in the plea agreement, agreed that the conduct that gave rise to the conviction relates solely to the research-based pharmaceutical business that later became part of Abbvie, and that, from the time of the separation of Abbvie, Abbott no longer had any obligations under the plea agreement, nor would the Department of Justice treat Abbott as having a conviction under the Food, Drug and Cosmetic Act. Effective January 2, 2013, Abbott separated that research-based pharmaceutical business, including its U.S. pharmaceutical business, the business responsible for Depakote, into a new, independent publicly traded company, Abbvie.

PART I

ITEM 1. BUSINESS

GENERAL DEVELOPMENT OF BUSINESS

Abbott Laboratories is an Illinois corporation, incorporated in 1900. Abbott's* principal business is the discovery, development, manufacture, and sale of a broad and diversified line of health care products.

NARRATIVE DESCRIPTION OF BUSINESS

Abbott has four reportable segments: Established Pharmaceutical Products, Diagnostic Products, Nutritional Products, and Medical Devices.

Established Pharmaceutical Products

These products include a broad line of branded generic pharmaceuticals manufactured worldwide and marketed and sold outside the United States in emerging markets. These products are generally sold directly to wholesalers, distributors, government agencies, health care facilities, pharmacies, and independent retailers from Abbott-owned distribution centers and public warehouses, depending on the market served. Certain products are co-marketed or co-promoted with, or licensed from, other companies.

The principal products included in the broad therapeutic area portfolios of the Established Pharmaceutical Products segment are:

- gastroenterology products, including Creon™, for the treatment of pancreatic exocrine insufficiency associated with several underlying conditions, including cystic fibrosis and chronic pancreatitis; Duspatal™ and Dicetel™, for the treatment of irritable bowel syndrome or biliary spasm; Heptral™, Transmetil™, and Samyr™, for the treatment of intrahepatic cholestasis (associated with liver disease) or depressive symptoms; and Duphalac™, for regulation of the physiological rhythm of the colon;
- women's health products, including Duphaston™, for the treatment of many different gynecological disorders; and Femoston™, a hormone replacement therapy for postmenopausal women;
- cardiovascular and metabolic products, including Lipanthyl™ and TriCor™, for the treatment of dyslipidemia; Teveten™ and Teveten™ Plus, for the treatment of essential hypertension, and Physiotens™, for the treatment of hypertension; and Synthroid™, for the treatment of hypothyroidism;
- pain and central nervous system products, including Serc™, for the treatment of Ménière's disease and vestibular vertigo; Brufen™, for the treatment of pain, fever, and inflammation; and Sevedol™, for the treatment of severe migraines; and
- respiratory drugs and vaccines, including the anti-infective clarithromycin (sold under the trademarks Biaxin™, Klacid™, and Klaricid™); and Influvac™, an influenza vaccine.

The Established Pharmaceutical Products segment directs its primary marketing efforts toward building strong brands with key stakeholders, including consumers, pharmacists, physicians, and other healthcare providers. Government agencies are also important customers.

Competition in the Established Pharmaceutical Products segment is generally from other health care and pharmaceutical companies. In addition, the substitution of generic drugs for the brand prescribed and introduction of additional forms of already marketed established products by generic or branded competitors may increase competitive pressures.

SUPPLEMENTAL RESPONSES TO SECTION 2, QUESTIONS 1-5 OF NEVADA WHOLESALER APPLICATION
EXHIBIT A

ALI Applications

ALI supplements the responses set forth in the Wholesaler Application Addendum to Questions 1-5 of Section 2 of the Nevada Wholesaler Application for North Chicago, Irving 1, Irving 2, Sylmar, Plano, Roseville and Temecula facilities, each as follows:

Section 2 Questions	Response
1. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been charged, or convicted of a felony or gross misdemeanor (including by way of a guilty plea or no contest plea)?	ALI Based on records available to it and to the best of its knowledge, ALI, the prospective licensee, has not been charged or convicted of a felony or gross misdemeanor (including by way of a guilty plea or no contest plea) since 2004. Abbott In May 2012, Abbott, the parent company of the prospective licensee identified in Section 9 of the Wholesaler Application Addendum, pleaded guilty to one misdemeanor violation of the Food, Drug and Cosmetic Act for misbranding as part of a settlement with U.S. federal and 49 state authorities, plus the District of Columbia, to resolve all outstanding issues regarding an investigation of past sales and marketing practices relating to its neurologic medication Depakote. Abbott and the Department of Justice, as reflected in the plea agreement, agreed that the conduct that gave rise to the conviction relates solely to the research-based pharmaceutical business that later became part of Abbvie, and that, from the time of the separation of Abbvie, Abbott no longer had any obligations under the plea agreement, nor would the Department of Justice treat Abbott as having a conviction under the Food, Drug and Cosmetic Act. Effective January 2, 2013, Abbott separated that research-based pharmaceutical business, including its U.S. pharmaceutical business, the business responsible for Depakote, into a new, independent publicly traded company, Abbvie.

Section 2 Questions	Response
2. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been denied a license, permit or certificate of registration?	Based on records available to them and to the best of their knowledge, ALI and Abbott have not been denied a license, permit or certificate of registration material to Abbott's operations since 2004.
3. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been subject of an administrative action or proceeding relating to the pharmaceutical industry?	ALI Based on records available to it and to the best of its knowledge, and excluding the research-based pharmaceutical business that separated into a new, independent publicly traded company in 2013 (Abbvie), ALI has not been the subject of an administrative action or proceeding relating to the pharmaceutical industry since 2004. Abbott *See* Abbott's response to Question 1 above.
4. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been found guilty, pled guilty or entered a plea of nolo contendere to any offense federal or state, related to controlled substances?	ALI/Abbott Based on records available to them and to the best of their knowledge, ALI and Abbott have not been found guilty, pled guilty or entered a plea of nolo contendere to any offense federal or state, related to controlled substances since 2004.
5. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever surrendered a license, permit or certificate of registration voluntarily or otherwise (other than upon voluntary close of a facility)?	ALI/Abbott Based on records available to them and to the best of their knowledge, ALI and Abbott have not surrendered a license, permit or certificate of registration voluntarily or otherwise (other than upon voluntary close of a facility) material to Abbott's operations since 2004.

AMI Applications

AMI supplements the responses set forth in the Wholesaler Application Addendum to Questions 1-5 of Section 2 of the Nevada Wholesaler Application for its Des Plaines and Elk Grove facilities, each as follows:

Section 2 Questions	Response
1. Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been charged, or convicted of a felony or gross misdemeanor (including by way of a guilty plea or no contest plea)?	AMI Based on records available to it and to the best of its knowledge, AMI, the prospective licensee, has not been charged or convicted of a felony or gross misdemeanor (including by way of a guilty plea or no contest plea) since 2004. Abbott In May 2012, Abbott, the parent company of the prospective licensee identified in Section 9 of the Wholesaler Application Addendum, pleaded guilty to one misdemeanor violation of the Food, Drug and Cosmetic Act for misbranding as part of a settlement with U.S. federal and 49 state authorities, plus the District of Columbia, to resolve all outstanding issues regarding an investigation of past sales and marketing practices relating to its neurologic medication Depakote. Abbott and the Department of Justice, as reflected in the plea agreement, agreed that the conduct that gave rise to the conviction relates solely to the research-based pharmaceutical business that later became part of Abbvie, and that, from the time of the separation of Abbvie, Abbott no longer had any obligations under the plea agreement, nor would the Department of Justice treat Abbott as having a conviction under the Food, Drug and Cosmetic Act. Effective January 2, 2013, Abbott separated that research-based pharmaceutical business, including its U.S. pharmaceutical business, the business responsible for Depakote, into a new, independent publicly traded company, Abbvie.

These forward-looking statements are identified by terms and phrases such as: anticipate, believe, intend, estimate, expect, continue, should, could, may, plan, project, predict, will, potential, forecast, and similar expressions. They are based on management's reasonable expectations and assumptions as of the date the statements are made but involve risks and uncertainties. These risks and uncertainties include, without limitation: the performance of stock markets generally; developments in worldwide and national economies and other international events and circumstances, including trade conflicts and tariffs; changes in foreign currencies and in interest rates; the cost and availability of electric power, natural gas and other raw materials; the ability to achieve price increases to offset cost increases; catastrophic events including natural disasters, epidemics, pandemics such as COVID-19, and acts of war and terrorism; the ability to attract, hire, and retain qualified personnel; the impact of changes in financial accounting standards; the impact of changes in pension plan liabilities; the impact of tax, environmental, healthcare and other legislation and government regulation in jurisdictions in which the company operates; the cost and outcomes of investigations, litigation and regulatory proceedings; the impact of potential unusual or non-recurring items; continued timely development and market acceptance of new products and applications; the impact of competitive products and pricing; future financial and operating performance of major customers and industries served; the impact of information technology system failures, network disruptions and breaches in data security; and the effectiveness and speed of integrating new acquisitions into the business. These risks and uncertainties may cause actual future results or circumstances to differ materially from accounting principles generally accepted in the United States of America, International Financial Reporting Standards or adjusted projections, estimates or other forward-looking statements.

Linde plc assumes no obligation to update or provide revisions to any forward-looking statement in response to changing circumstances. The above listed risks and uncertainties are further described in Item 1A (Risk Factors) in this report, which should be reviewed carefully. Please consider Linde plc's forward-looking statements in light of those risks.

Linde plc and Subsidiaries

PART I

ITEM 1. BUSINESS

General

Linde plc is a public limited company formed under the laws of Ireland with its principal offices in the United Kingdom. Linde is the largest industrial gas company worldwide and is a major technological innovator in the industrial gases industry. Its primary products in its industrial gases business are atmospheric gases (oxygen, nitrogen, argon, and rare gases) and process gases (carbon dioxide, helium, hydrogen, electronic gases, specialty gases, and acetylene). The company also designs and builds equipment that produces industrial gases and offers customers a wide range of gas production and processing services such as olefin plants, natural gas plants, air separation plants, hydrogen and synthesis gas plants and other types of plants.

Linde serves a diverse group of industries including healthcare, petroleum refining, manufacturing, food, beverage carbonation, fiber-optics, steel making, aerospace, chemicals, electronics and water treatment.

Linde's sales were $27,243 million, $28,228 million, and $14,836 million for 2020, 2019, and 2018, respectively. Refer to Item 7, Management's Discussion and Analysis, for a discussion of consolidated sales and Note 18 to the consolidated financial statements for additional information related to Linde's reportable segments.

Industrial Gases Products and Manufacturing Processes

Atmospheric gases are the highest volume products produced by Linde. Using air as its raw material, Linde produces oxygen, nitrogen and argon through several air separation processes of which cryogenic air separation is the most prevalent. Rare gases, such as krypton, neon and xenon, are also produced through cryogenic air separation. As a pioneer in the industrial gases industry, Linde is a leader in developing a wide range of proprietary and patented applications and supply systems technology. Linde also led the development and commercialization of non-cryogenic air separation technologies for the production of industrial gases. These technologies open important new markets and optimize production capacity for the company by lowering the cost of supplying industrial gases. These technologies include proprietary vacuum pressure swing adsorption ("VPSA") and membrane separation to produce gaseous oxygen and nitrogen, respectively.

Process gases, including carbon dioxide, hydrogen, carbon monoxide, helium, specialty gases and acetylene are produced by methods other than air separation. Most carbon dioxide is purchased from by-product sources, including chemical plants, refineries and industrial processes or is recovered from carbon dioxide wells. Carbon dioxide is processed in Linde's plants to produce commercial and food-grade carbon dioxide. Hydrogen and carbon monoxide can be produced by either steam methane reforming or auto-thermal reforming of natural gas or other feed streams such as naphtha. Hydrogen is also produced by purifying by-product sources obtained from the chemical and petrochemical industries. Acetylene is primarily sourced as a chemical by-product, but may also be produced from calcium carbide and water.

Industrial Gases Distribution

There are three basic distribution methods for industrial gases: (i) on-site or tonnage; (ii) merchant or bulk liquid; and (iii) packaged or cylinder gases. These distribution methods are often integrated, with products from all three supply modes coming from the same plant. The method of supply is generally determined by the lowest cost means of meeting the customer's needs, depending upon factors such as volume requirements, purity, pattern of usage, and the form in which the product is used (as a gas or as a cryogenic liquid).

On-site. Customers that require the largest volumes of product (typically oxygen, nitrogen and hydrogen) and that have a relatively constant demand pattern are supplied by cryogenic and process gas on-site plants. Linde constructs plants on or adjacent to these customers' sites and supplies the product directly to customers by pipeline. On-site product supply contracts generally are total requirement contracts with terms typically ranging from 10-20 years and containing minimum purchase requirements and price escalation provisions. Many of the cryogenic on-site plants also produce liquid products for the merchant market. Therefore, plants are typically not dedicated to a single customer. Advanced air separation processes allow on-site delivery to customers with smaller volume requirements.

Merchant. The merchant business is generally associated with distributable liquid oxygen, nitrogen, argon, carbon dioxide, hydrogen and helium. The deliveries generally are made from Linde's plants by tanker trucks to storage containers at the customer's site which are owned and maintained by Linde and leased to the customer. Due to distribution cost, merchant oxygen and nitrogen generally have a relatively small distribution radius from the plants at which they are produced. Merchant argon, hydrogen and helium can be shipped much longer distances. The customer agreements used in the merchant business are usually three to seven-year requirement contracts.

The Amended and Restated Certificate also provides that, unless the Company consents in writing to the selection of an alternative forum, the federal district courts of the United States of America will be the exclusive forum for the resolution of any complaint asserting a cause of action against the Company or any of the Company's directors, officers, employees or agents and arising under the Securities Act of 1933, as amended.

Dave Wuest, Executive Secretary
Nevada State Board of Pharmacy
985 Damonte Ranch Pkwy, Ste. 206
Reno, NV 89521

RE: Explanation of Disciplinary History
RGH Enterprises, LLC

Dear Mr. Wuest:

This letter is provided in conjunction with our affirmative response to question 3 on our application for our Out-of-State license. We have a few matters with corresponding derivative action to disclose.

In March 2015, the RGH pharmacy located in Twinsburg, OH, was issued a citation and fined $500 by the Maine Board of Pharmacy, for failure to timely report a change in the facility's pharmacist-in-charge. This failure to report within the seven-day time frame was due to the unavailability of the corporate official authorized to sign the application. RGH paid the fine to the Maine State Board of Pharmacy; additionally, RGH has undertaken a process to ensure regulatory notifications occur in a timely manner.

In April 2016, the Hawaii Board of Pharmacy took derivative action against the Twinsburg, OH, facility based on the action described above. RGH entered a Settlement Agreement with Hawaii and agreed to pay a $250 fine; the matter was closed on May 6, 2016.

Furthermore, Cardinal Health's distribution center in Valencia, California, entered into a settlement agreement with the California Board of Pharmacy. As a condition of that settlement, effective April 3, 2019, the California Wholesale license for our Valencia, CA distribution center will be on probation for a period of two years (through April 2, 2021). This probation in no way affects the continued ability of our Valencia distribution center to service our customers in a timely and efficient manner.

Probation was a result of a settlement agreement between our Valencia distribution center and the California Board of Pharmacy regarding sales that distribution center made to a customer between 2012 and 2014 and the failure to receive a pharmacist's signature on several deliveries in that same time frame.

Additionally, on March 11, 2019, Cardinal Health's Wheeling, West Virginia, distribution center entered into a settlement agreement with the Ohio Board of Pharmacy regarding the security and storage of drugs while those drugs were being distributed to the customer. This issue involved Ohio Board of Pharmacy inspectors manipulating our totes in such a way as to be able to retrieve a bottle out of a strapped/sealed tote. This occurred on several occasions all while the totes were in the custody of our delivery drivers or pharmacies. An inspector also witnessed a delivery

vehicle door that was not locked and secured appropriately. Cardinal Health agreed to pay a monetary penalty of $5,000.

As previously reported, on May 15, 2012, Cardinal Health entered into a settlement agreement with the U.S. Drug Enforcement Administration ("DEA") regarding Cardinal Health's registration to distribute controlled substances from our Lakeland, Florida facility. On February 3, 2012, DEA served an Order to Show Cause and Immediate Suspension of Registration (the "Order") on Cardinal Health's Lakeland, Florida distribution center. In the Order, DEA alleged that the Lakeland facility "failed to maintain effective controls against the diversion of controlled substances" and "failed to detect and report suspicious orders of oxycodone by its pharmacy customers." In particular, DEA identified four retail pharmacies located in Florida that were serviced by the Lakeland facility and alleged that "[n]otwithstanding the large quantities of controlled substances ordered by Cardinal's top retail pharmacy customers Cardinal failed to conduct meaningful due diligence to ensure that the controlled substances were not diverted...." Importantly, these allegations did not involve any diversion of controlled substances from Cardinal's facility.

Under the settlement agreement, the Lakeland facility's DEA registration was suspended for two years from the date of the settlement agreement. On May 21, 2014, the suspension was lifted and the DEA reinstated Lakeland's registration. On December 23, 2016, Cardinal Health reached a nationwide settlement with the federal government, resolving the outstanding civil penalty portion of this May 15, 2012 administrative settlement with the DEA. Under this civil settlement, Cardinal Health has agreed to pay $44 million to the Department of Justice (DOJ) to resolve this matter. The DOJ, including the DEA and the United States Attorneys' Offices for the Middle District of Florida, the Southern District of New York, the District of Maryland, and the Western District of Washington and all other districts across the country have also agreed to take no further administrative or civil action on these and related matters. In addition, Cardinal Health has reached an agreement with the State of West Virginia regarding the company's distribution of controlled substances in that state between 2007 and 2012. While Cardinal Health denies the allegations, it agreed to pay West Virginia $20 million to resolve issues and release the company from further actions.

In 2014, the Boards of Pharmacy in both California and Georgia took derivative action based upon the DEA settlement. The Georgia Board fined the Lakeland facility $500 in administrative fees, and the California Board fined the facility $1,505 in investigative fees. Both fees were paid to the respective Boards.

We make every effort to meet our customers' legitimate demands for controlled substances. However, we have also demonstrated a deep commitment to helping fight prescription drug abuse. If you have any questions about this issue, please contact Martha Russell, Assistant General Counsel, Regulatory, at 614-757-6654.

Sincerely,

Keegan Chamberlain

RE: Explanation of Disciplinary History
RGH Enterprises, LLC

Dear Mr. Wuest:

This letter is provided in conjunction with our affirmative response to question 3 on our application for our Out-of-State license. We have a few matters with corresponding derivative action to disclose.

In March 2015, the RGH pharmacy located in Twinsburg, OH, was issued a citation and fined $500 by the Maine Board of Pharmacy, for failure to timely report a change in the facility's pharmacist-in-charge. This failure to report within the seven-day time frame was due to the unavailability of the corporate official authorized to sign the application. RGH paid the fine to the Maine State Board of Pharmacy; additionally, RGH has undertaken a process to ensure regulatory notifications occur in a timely manner.

In April 2016, the Hawaii Board of Pharmacy took derivative action against the Twinsburg, OH, facility based on the action described above. RGH entered a Settlement Agreement with Hawaii and agreed to pay a $250 fine; the matter was closed on May 6, 2016.

Furthermore, Cardinal Health's distribution center in Valencia, California, entered into a settlement agreement with the California Board of Pharmacy. As a condition of that settlement, effective April 3, 2019, the California Wholesale license for our Valencia, CA distribution center will be on probation for a period of two years (through April 2, 2021). This probation in no way affects the continued ability of our Valencia distribution center to service our customers in a timely and efficient manner.

Probation was a result of a settlement agreement between our Valencia distribution center and the California Board of Pharmacy regarding sales that distribution center made to a customer between 2012 and 2014 and the failure to receive a pharmacist's signature on several deliveries in that same time frame.

Additionally, on March 11, 2019, Cardinal Health's Wheeling, West Virginia, distribution center entered into a settlement agreement with the Ohio Board of Pharmacy regarding the security and storage of drugs while those drugs were being distributed to the customer. This issue involved Ohio Board of Pharmacy inspectors manipulating our totes in such a way as to be able to retrieve a bottle out of a strapped/sealed tote. This occurred on several occasions all while the totes were in the custody of our delivery drivers or pharmacies. An inspector also witnessed a delivery

vehicle door that was not locked and secured appropriately. Cardinal Health agreed to pay a monetary penalty of $5,000.

As previously reported, on May 15, 2012, Cardinal Health entered into a settlement agreement with the U.S. Drug Enforcement Administration ("DEA") regarding Cardinal Health's registration to distribute controlled substances from our Lakeland, Florida facility. On February 3, 2012, DEA served an Order to Show Cause and Immediate Suspension of Registration (the "Order") on Cardinal Health's Lakeland, Florida distribution center. In the Order, DEA alleged that the Lakeland facility "failed to maintain effective controls against the diversion of controlled substances" and "failed to detect and report suspicious orders of oxycodone by its pharmacy customers." In particular, DEA identified four retail pharmacies located in Florida that were serviced by the Lakeland facility and alleged that "[n]otwithstanding the large quantities of controlled substances ordered by Cardinal's top retail pharmacy customers Cardinal failed to conduct meaningful due diligence to ensure that the controlled substances were not diverted...." Importantly, these allegations did not involve any diversion of controlled substances from Cardinal's facility.

Under the settlement agreement, the Lakeland facility's DEA registration was suspended for two years from the date of the settlement agreement. On May 21, 2014, the suspension was lifted and the DEA reinstated Lakeland's registration. On December 23, 2016, Cardinal Health reached a nationwide settlement with the federal government, resolving the outstanding civil penalty portion of this May 15, 2012 administrative settlement with the DEA. Under this civil settlement, Cardinal Health has agreed to pay $44 million to the Department of Justice (DOJ) to resolve this matter. The DOJ, including the DEA and the United States Attorneys' Offices for the Middle District of Florida, the Southern District of New York, the District of Maryland, and the Western District of Washington and all other districts across the country have also agreed to take no further administrative or civil action on these and related matters. In addition, Cardinal Health has reached an agreement with the State of West Virginia regarding the company's distribution of controlled substances in that state between 2007 and 2012. While Cardinal Health denies the allegations, it agreed to pay West Virginia $20 million to resolve issues and release the company from further actions.

In 2014, the Boards of Pharmacy in both California and Georgia took derivative action based upon the DEA settlement. The Georgia Board fined the Lakeland facility $500 in administrative fees, and the California Board fined the facility $1,505 in investigative fees. Both fees were paid to the respective Boards.

We make every effort to meet our customers' legitimate demands for controlled substances. However, we have also demonstrated a deep commitment to helping fight prescription drug abuse. If you have any questions about this issue, please contact Martha Russell, Assistant General Counsel, Regulatory, at 614-757-6654.

Sincerely,

Keegan Chamberlain

COMPLIANCE HISTORY

With respect to the distribution center operated by ASD Specialty Healthcare, LLC ("ASD") located in Kentucky, in February 2001, ASD and the Kentucky Board of Pharmacy entered into an Agreed Order with respect to ASD's alleged failure to complete certain DEA forms, and ASD paid a small fine.

Integrated Commercialization Solutions, LLC ("ICS") provides distribution and third party logistics services to pharmaceutical manufacturers, including the shipment of pharmaceutical products to customers in the State of Florida, out of a distribution center in Brooks, Kentucky. ICS operates its wholesale distribution business out of Suite 400 at the distribution center, which it operates jointly with its parent corporation, ASD Specialty Healthcare, LLC ("ASD"). At all relevant times, ASD held an Out-State Rx Drug Wholesaler permit issued by the Florida Department of Health for this facility. In addition, ICS held its own non-resident prescription drug manufacturer permit issued by the Florida Department of Health at an adjacent facility located at Suite 100 in the same building.

In August 2006, the Florida Department of Health informed ICS that it should obtain its own Out-State Rx Drug Wholesaler permit, in addition to ASD's Out-State Rx Drug Wholesaler permit, for Suite 400. ICS immediately filed an application for that permit, and now holds its own Out-State Rx Drug Wholesaler permit issued by the Florida Department of Health. In July 2007, ICS entered into an agreement with the Florida Department of Health, without admitting wrongdoing in any way, and paid a fine in full settlement of any claims with respect to the status of ICS's Florida permits prior to August 2006.

In October and November 2010, the Colorado Board of Pharmacy cited ICS's locations at Suite 500 in Brooks, Kentucky, and its location in Reno, Nevada, for not timely notifying the Board of a change in designated representative. Another individual had been appointed as the designated representative at each location, but ICS had not timely notified the Board of the appointment. ICS entered into two Stipulations with the Colorado Board of Pharmacy resolving the matters and paid two fines.

In December 2012, the Florida Department of Business & Professional Regulation alleged that ASD's Besse Medical had (i) erroneously identified the manufacturer of a drug as "Eyetech Pharmaceuticals" on certain pedigrees, when the holder of the NDC for the drug in question was "Eyetech," and (ii) included the name of the purchasing entity, the qualifying practitioner, and his medical license number on certain invoices to a customer, but did not include the entity's health care clinic establishment permit number on the invoices. In July 2020 the facility entered into a settlement agreement with the Board and paid a small fine.

In January 2021, ICS entered into a settlement agreement with the Florida Department of Business and Professional Regulation to resolve allegations that ICS's Lockbourne, Ohio distribution center division operated as Florida-licensed out of state prescription drug wholesale distributor without a licensed Florida Certified Designated Representative in its employ, as required by Florida law. As a result of the settlement, ICS paid a fine but did not admit guilt.

To Whom It May Concern:

In full disclosure, I would like to mention that I have a prior misdemeanor from an incident that occurred over eleven years ago, March 3rd, 2010, in Cobb County, Georgia. After leaving a social event I was pulled over and charged with a DUI (Driving Under the Influence of Alcohol). A copy of the arrest report is attached. I plead guilty and was sentenced as a first-time offender (misdemeanor). I was ordered to complete a 24- hour confinement, community service which I performed with the Red Cross, and attend a DUI risk reduction class. All the requirements were completed successfully.

As a family man and father of two children, I have always tried to do the best that I can and live my life with honor. I have worked very hard in moving on from the DUI incident and have since made positive strides with my life and career.

Sincerely,

Orette Dixon

If the LLC is eligible to be treated as a corporation that meets certain tests and it will be electing S corporation status, it must timely file Form 2553, *Election by a Small Business Corporation*. The LLC will be treated as a corporation as of the effective date of the S corporation election and does not need to file Form 8832.

A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. Personal History: Bradly Lende

Residence / Work: The only change to my personal history from what is on file is that my work history now includes being the Pharmacy Manager / Pharmacist for Vegas Pharmacy LLC since our licensing approval date in April of 2021. My address has remained the same in Henderson, NV since 2018.

Criminal: All criminal misconduct has been reported previously during pharmacist licensure along with the approval of Vegas Pharmacy of which I am a partner. I will attach all documents in reference again.

Appearance in front of licensing board: Bradly Lende

Explanation Of "Offense & Current Use" Statement

Nevada Board of Pharmacy

3/18/20

To Whom It May Concern,

My name is Bradly Lende. I am applying for licensure as a pharmacist via transfer for the state of Nevada. Almost six years ago, on May 9th 2014, I was out with friends at a bar. I made the unfortunate decision to drive after consuming alcohol. It resulted in a DUI arrest. I deeply regret this decision. It's one of the worst and dumbest decisions I've ever made. I plead guilty immediately. I completed every requirement asked of me by the law, the board of pharmacy, and my school of pharmacy. Since this happened, I have always used an Uber or taxi when consuming any amount of alcohol.

I have never misused or abused any form of controlled substance, whether prescribed or otherwise. I have never tried, nor do I intend to try, any illegal substance such as marijuana, cocaine, etc. In regards to alcohol consumption, I will continue to consume responsibly and in moderation, while at social outings or events. I will continue to always call a taxi or Uber when traveling is necessary after consuming alcohol. I deeply regret the decisions that led to my DUI, and I have taken that as an opportunity to grow as a person and become more responsible. If any further information is needed, please let me know.

Sincerely,

Bradly Lende

STATE OF NORTH DAKOTA MUNICIPAL COURT CITY OF FARGO

IN MUNICIPAL COURT, CITY OF FARGO, STATE OF NORTH DAKOTA
SPECIAL ADVISEMENT

City of Fargo vs. **Bradly Beau Lende**

Case FA-2014-CR-01690 DUI/APC

You are advised that the following are **mandatory minimum** penalties that will be imposed upon you if you are convicted or if you plead guilty to the offenses listed:

You are advised that if you are convicted of or if you plead guilty to either driving while under the influence, driving under suspension, or driving without liability insurance, this conviction may be used to increase any penalty upon further convictions.

DRIVING WHILE UNDER THE INFLUENCE/REFUSE TO SUBMIT TO CHEMICAL TEST:

- For a 1st offense, the sentence must include both a fine of at least 500.00 and an order for an addiction evaluation by an appropriate licensed addiction treatment program. For a 1st offense with a BAC of .16 or greater the sentence must include a fine of at least $750.00, 2 days' imprisonment, and an order for an addiction evaluation by an appropriate licensed addiction treatment program.
- For a 2nd offense within 7 years, the sentence must include at least 10 days' imprisonment, of which 48 hours must be served consecutively, a fine of at least $1500.00, and an order for an addiction evaluation by an appropriate licensed addiction treatment program, and at least twelve months' participation in the twenty-four seven sobriety program under chapter 54-12.
- If you have 3 or more offenses within 7 years, or 4th or subsequent offense, the municipal court does not have jurisdiction and the charge will be dismissed and referred to the states attorney.

DRIVING UNDER SUSPENSION:

Any person who drives a motor vehicle on a highway or on public or private areas to which the public has a right of access for vehicular use in this state while that person's license or privilege so to do is suspended or revoked in any jurisdiction is guilty of a class B misdemeanor for the 1st, 2nd or 3rd offense within a 5-year period. Any subsequent offense within the same 5-year period is a class A misdemeanor.

If your driving privileges are revoked or suspended for an alcohol-related offense, any conviction for driving under suspension will result in a mandatory minimum sentence of 4 consecutive days' imprisonment.

State law provides that a charge may be dismissed under this section upon motion by the defendant if the defendant's operator's license is reinstated within sixty days of the date of the offense and the defendant provides to the court satisfactory evidence of the reinstatement.

DRIVING WITHOUT LIABILITY INSURANCE:

- For a 1st offense the sentence imposed must include a fine of at least $150.00.
- For a 2nd or subsequent offense within a 36-month period must be fined at least $300.00 and surrender license plates to the court until provides proof of insurance and a $20.00 fee to the court.

I state that I am the defendant, I have read this special advisement, I have been informed of the mandatory minimum penalties by the court, and I understand them.

Hillsboro, ND 58045

I am writing in reference to Mr. Brad Lende. I have known Brad since May 2012 as his employer at Hillsboro Drug. It became apparent to me early after meeting Brad that he was intelligent and willing to go the extra mile to do a good job. I found Brad to be very self-motivated and always kept himself busy. Brad was always very interested in the business side of my pharmacy. He often inquired about the financial aspects of my business. I feel Brad has developed a great understanding of how to operate a profitable pharmacy.

I would recommend Brad for an ownership position in a retail pharmacy. Brad's strong work ethic and willingness to go the extra mile for customers will prove instrumental in his success. I also feel Brad has a general understanding of what it takes to run a business. Brad will be successful in whatever venture he partakes in, but I feel his personality traits line up well with owning a business.

If you require any further information, please feel free to contact me at [redacted]

Sincerely,

Randy Habeck

Provide explanation below:

Almost 14 years ago, in May of 2008, I made a poor decision to get behind the wheel after consuming alcohol. This resulted in an arrest for DWI. This lapse in judgement reflects poorly on me and I sincerely regret it. I complied with all conditions of my probation, paid all required fines, and completed all required courses. Following this incident, I have always made a plan for a sober driver or taxi service when planning to partake in any events involving alcohol.

I do not use controlled substances, unless prescribed by a physician. I still consume alcohol in moderation at social events or gatherings, but as stated, I make sure that I have a plan to ensure I am not driving following consumption. Like most people I have matured since I was in college, I take responsibility for the mistakes of my past but do not let them define me. I am focused on being a role model for my children and providing the best life I can for my family. I remain active in community service and have donated my time to local programs for youth (K-12) education in mining and construction, volunteer coaching at my children's school, providing tours and hands on education for local community colleges, and providing mentoring to other professionals through programs at my alma mater and various professional societies. If you have any further questions, feel free to contact me.

Provide explanation below:

Over 15 years ago, in December of 2006, while in college I was in a single vehicle accident in which a utility pole was damaged. I regrettably left the scene thinking the only damage was to my personal vehicle. This resulted in me pleading guilty to Reckless Driving and losing driving privileges in the State of Colorado. I made full restitution for the utility pole, made all court appearances, and paid all required fines. Although it was not required, I performed community service through the Society for Mining, Metallurgy, and Exploration (SME) the following semester.

Texas State Board of Pharmacy
"Red Flags" Checklist for Pharmacies
YOU MIGHT BE A PILL MILL IF...

Check all that apply:

	(1) Your pharmacy fills a discernable pattern of prescriptions for prescribers who write essentially the same prescriptions for numerous persons, indicating a lack of individual drug therapy
	(2) Your pharmacy operates with limited hours of operation or closes after a certain threshold of controlled substance prescriptions are dispensed, and has overall low prescription dispensing volume.
	(3) Prescriptions presented to the pharmacy are for controlled substances with popularity as street drugs, such as opiates, benzodiazepines, muscle relaxants, psychostimulants, and/or cough syrups, or any combination of these drugs.
	(4) The prescriptions for controlled substances contain nonspecific or no diagnoses.
	(5) The prescriptions are commonly for the highest strength of the drug and/or for large quantities.
	(6) Dangerous drugs or OTC products (such as multi-vitamins or laxatives) are added to the controlled substance prescriptions, maintaining relatively consistent 1:1 ratio of controlled substances to dangerous drugs and/or OTC products dispensed as prescriptions.
	(7) Prescriptions are authorized by the same prescriber with what appears to be different handwriting on the hardcopy prescription drug order forms.
	(8) Upon contact with the prescriber's office, you are unable to engage in comprehensive discussion with the actual prescriber, or he/she is unconcerned about your apprehensions regarding his/her prescribing practices or unwilling to provide additional information, such as treatment goals and/or prognosis with prescribed drug therapy.
	(9) You rely solely on the prescriber's representation, or on the representation of the individual answering the phone at the number on the prescription, that prescriptions are legitimate.
	(10) The prescriber's clinic is not registered as a pain management clinic by the Texas Medical Board, despite routinely receiving prescriptions from the prescriber foropiates, benzodiazepines, and/or muscle relaxants.
	(11) Drugs prescribed are inconsistent with the prescriber's area of practice.
	(12) The prescriber of the drugs is located a significant distance from your pharmacy.
	(13) The prescriber has been subject to disciplinary action by the licensing board, had his/her DEA registration removed, or been subject to criminal action.
	(14) The Texas PMP system indicates that persons are obtaining prescriptions for the same drugs from multiple prescribers or that persons are filling prescriptions for the same drugs at multiple pharmacies.
	(15) The person's address is a significant distance from your pharmacy and/or from the prescriber's office.
	(16) Multiple persons with the same address present prescriptions from the same prescriber.
	(17) Persons pay with cash or credit card more often than through insurance.
	(18) Persons presenting controlled substance prescriptions are doing so in such a manner that varies from seeking routine pharmacy services (e.g., willing to wait in long lines to receive drugs, persons arrive in the same vehicle with prescriptions from same prescriber, one person presents to pick up prescriptions for multiple others, persons refer to drugs by "street names" and/or comment on drug's color, persons seek early refills, persons travel from outside reasonable trade area of pharmacy).
	(19) Your pharmacy charges and persons are willing to pay more for controlled substances than they would at nearby pharmacies.
	(20) Your pharmacy routinely orders controlled substances from more than one drug supplier, or your pharmacy has been discontinued by a drug supplier related to controlled substance orders.
	(21) Sporadic and non-consistent dispensing volume (including zero dispensing) varies from day to day and week to week, and your pharmacy does not maintain operational hours each week on Monday through Friday.
	(22) Your pharmacy employs or contracts security personnel during operational hours to prevent problems.
	(23) Your pharmacy has been previously warned or disciplined by the Texas State Board of Pharmacy for inappropriate dispensing of controlled substances (i.e., corresponding responsibility).

If you checked any of the above items, you should review the laws and rules regarding corresponding responsibility and non-therapeutic dispensing, especially Board rule §291.29, in the law book or on our website: www.pharmacy.texas.gov (click on Texas Pharmacy Rules and Laws). Additional educational material is available at: http://www.pharmacy.texas.gov/Nontherapeutic.asp. Failure of pharmacies and pharmacists to detect patterns of inappropriate dispensing of prescription drugs is unprofessional practice and constitutes grounds for disciplinary action.

- *Do not flush medication, since Roman Health Pharmacy does not currently dispense any prescription medications that appear on the Food and Drug Administration (FDA) Flush List[2].*

(If the prescription medication cannot be disposed of via a local Drug Take-Back Program[3], and it is not a drug that requires flushing for immediate disposal, provide the following instructions:)

1. *Remove the drug from its original container and mix it with something undesirable, such as used coffee grounds, dirt, laundry detergent, or cat litter. This makes the medicine less appealing to children and pets and unrecognizable to someone who might intentionally go through the trash looking for drugs.*
2. *Put the mixture in something you can close (for example, a resealable zipper storage bag, empty can, or another container) to prevent the drug from leaking or spilling out.*
    2.1. *Place the closed bag, can, or container containing the mixture in the garbage*

SOP-6.7-R0 Recognizing Illegitimate Prescriptions and Invalid Patient-Practitioner Relationships

Approval Signatures

Title:	Name:	Signature:	Date:

Audience

- Pharmacists
- Pharmacy Technicians

Purpose

The fulfillment of illegitimate prescriptions is prevented by adhering to proper policies and procedures for recognizing illegitimate prescriptions and invalid patient-practitioner relationships.

Responsibility

- The Licensing and Compliance Manager is responsible for coordinating with management to ensure the training and enforcement of this procedure.
- The Pharmacy Manager is responsible for the training and enforcement of this procedure for the employees they manage.

Procedure

1. When receiving an oral prescription, pay attention to the following red flags or suspicious behavior from the caller:
    1.1. Sounds unprofessional, hesitant, or nervous
    1.2. Does not use standard medical terminology
    1.3. Provides medication quantities, directions, or other information that are unusual
    1.4. Provides pharmacy or practitioner information, such as National Provider Identifier (NPI) or Drug Enforcement Administration (DEA) number, that is invalid or incorrect
2. When processing a prescription, look for signs that indicate it may be illegitimate or forged:
    2.1. The practitioner's handwriting is too legible.
    2.2. The quantities, directions, or dosages differ from usual medical usage.
    2.3. The prescription appears to be photocopied.

2.4. Looks too good, or has a textbook appearance.

2.5. The prescription is written in the following manner:

2.5.1. With the directions in full, without abbreviations

2.5.2. With abbreviations that are not standard

2.5.3. In different color inks

2.5.4. In different handwriting styles

3. When processing a prescription, look for signs that indicate it may be issued based on an invalid patient-practitioner relationship:

3.1. The practitioner writes significantly more prescriptions (or in larger quantities) compared to other practitioners in your area.

3.2. The patient appears to be returning too frequently. A prescription that should have lasted for a month in legitimate use, is being refilled on a biweekly, weekly or even a daily basis.

3.3. The practitioner writes prescriptions for antagonistic drugs, such as depressants and stimulants, at the same time (drug abusers often request prescriptions for "uppers and downers" at the same time).

3.4. The patient appears presenting prescriptions written in the names of other people.

3.5. A number of people appear simultaneously, or within a short time, all bearing similar prescriptions from the same physician.

3.6. Numerous "strangers," people who are not regular patrons or residents of your community, suddenly show up with prescriptions from the same physician.

4. If a prescription is suspected of being illegitimate or fraudulent, or based on an invalid patient-practitioner relationship, take the following actions, if applicable:

4.1. Verify that the practitioner is in the pharmacy's database, and if not take the following steps:

4.1.1. Verify the practitioner's information with the NPI lookup tool, located on the National Plan & Provider Enumeration System (NPPES) website:

https://nppes.cms.hhs.gov/

Please Note: Issuance of an NPI does not ensure or validate that the practitioner is appropriately licensed or credentialed.

4.1.2. Confirm the DEA number is authentic, following the procedure described in the DEA Pharmacist's Manual, located in the appendix.

4.1.3. Verify the practitioner's information with the DEA Registration Validation tool, located on the DEA website:

https://apps.deadiversion.usdoj.gov/webforms/validateLogin.jsp

Please Note: The lookup tool is only available to DEA registrants.

4.2. Contact the practitioner by telephone using the contact number from the pharmacy's database or another reputable resource, other than from the prescription in question, and obtain the necessary information.

4.3. Verify the practitioner's license(s) and credential(s) with the appropriate agency (for example, the Board of Medicine).

5. If a prescription is confirmed to be illegitimate or fraudulent, or based on an invalid patient-practitioner relationship, take the following actions:

5.1. Notify the pharmacist-on-duty.

5.2. Notify the Pharmacy Compliance Team (see the List of Important Contacts, located in the appendix).

5.3. Notify local law enforcement (see the List of Local Authorities, located in the appendix).

5.4. Retain all illegitimate or fraudulent prescriptions as evidence and, if requested, release it to the appropriate law enforcement officials.

5.5. If applicable, notify the following entities:

5.5.1. The local DEA office (see the List of Local Authorities, located in the appendix)

5.5.2. The appropriate Board of Pharmacy(s) (see the List of Board of Pharmacy Contacts, located in the appendix)

5.5.3. Other pharmacies in the area

6. Appropriately document any investigations, findings, and actions.

Except as otherwise set forth in this Agreement, the Member shall not, by reason of its status as a member, have any authority to act for and bind the Company, but shall have only the right to vote on or approve: (a) the actions specified in this Agreement to be voted on or approved by the Member; and (b) except to the extent otherwise provided in this Agreement, the actions specified in the Act to be voted on or approved by the Member. The size of the Board may be increased or decreased by the Member in its sole discretion. The Member shall have the right to appoint and to remove, with or without cause, any or all of the Managers in its sole discretion. The Managers shall initially be Zachariah Reitano and Saman Rahmanian.

Section 3.2 **Meetings of the Board; Quorum; and Action by the Board**. Meetings of the Board shall be held at such times and places as may be decided by the Member. Notice of the time and place of a meeting shall be delivered personally or by telephone to each Manager and sent by first-class mail, facsimile, electronic mail or a nationally recognized overnight courier, charges prepaid, addressed to each Manager at that Manager's address as it is shown on the records of the Company. In case the notice is mailed, it shall be deposited in the United States mail at least five (5) calendar days before the time of the holding of the meeting. In case the notice is delivered personally or by telephone, facsimile, electronic mail or overnight courier, it shall be given at least two (2) calendar days before the time of the holding of the meeting. Any oral notice given personally or by telephone may be communicated either to the Manager or to a person at the office of the Manager whom the person giving the notice has reason to believe will promptly communicate it to the Manager. Attendance by any Manager at a meeting of the Board shall constitute a waiver of notice to such Manager of such meeting. The notice need not specify the purpose of the meeting. At all meetings of the Board, the presence of a majority of the total number of Managers shall be necessary and sufficient to constitute a quorum for the transaction of business. Unless otherwise specifically required by law or this Agreement, the act of a majority of Managers present at a meeting at which a quorum is present shall be the act of the Board. If a quorum shall not be present at any meeting of the Board, the Managers present may adjourn the meeting from time to time, without notice other than announcement at the meeting, until a quorum shall be present. At any such adjourned meeting, any business may be transacted that might have been transacted at the meeting as originally convened. Any action required or permitted to be taken at any meeting of the Board may be taken without a meeting if a majority of the Managers consent thereto in writing, and the writing is filed with the minutes of proceedings of the Board. A photographic, photo-static, facsimile, electronic (including in .pdf format) or similar reproduction of a writing signed by a Manager shall be regarded as signed by the Manager for purposes of this Section 3.2.

Section 3.3 **Authority of Managers**. Unless specifically authorized by a resolution duly adopted by the Board, no Manager, solely in his or her capacity as a Manager, shall have the authority or power to act as agent for or on behalf of the Company or any other Manager, to

do any act which would be binding on the Company or any other Manager, to incur any expenditures on behalf of or for the Company, or to execute, deliver and perform any agreements, acts, transactions or other matters on behalf of the Company.

Section 3.4 Officers.

(a) The Board may designate one or more individuals (who may or may not be Managers) to serve as officers of the Company. The Company shall have such officers as the Board may from time to time determine, which officers may (but need not) include a Chairman, Chief Executive Officer, President, Chief Operating Officer, Chief Financial Officer, one or more Vice Presidents (and in case of each such Vice President, with such descriptive title, if any, as the Board shall deem appropriate), Secretary and Treasurer. Unless the Board determines otherwise, if the title is one commonly used for officers of a business corporation formed under the Delaware General Corporation Law, the assignment of such title shall constitute the delegation to such person of the authorities and duties that are customarily associated with that office. Any delegation pursuant to this Section 3.4 may be revoked at any time by the Board.

(b) Each of the following persons is hereby appointed to serve as an officer of the Company, until removed by the Board, with or without cause, in its sole and absolute discretion, or the earlier death or resignation of such person:

Name	Office
Zachariah Reitano	President
Saman Rahmanian	Secretary and Treasurer
Rob Schutz	Vice President

ARTICLE IV
EXCULPATION AND INDEMNIFICATION

Neither the Member, any Manager nor any officer of the Company (each, an "**Indemnified Party**") shall be liable to the Company for any loss, damage or claim incurred by reason of any act or omission performed or omitted by the Indemnified Party in good faith on behalf of the Company and in a manner reasonably believed to be within the scope of the authority conferred on the Indemnified Party by this Agreement, except that the Indemnified Party shall be liable for any such loss, damage or claim incurred by reason of the Indemnified Party's willful misconduct or gross negligence. To the fullest extent permitted by applicable law, the Indemnified Party shall be entitled to indemnification from the Company for any loss, damage or claim incurred by the Indemnified Party by reason of any act or omission performed or omitted by the Indemnified Party in good faith on behalf of the Company and in a manner reasonably believed to be within the scope of the authority conferred on the Indemnified Party, except that the Indemnified Party shall not be entitled to be indemnified in respect of any loss, damage or claim incurred by the Indemnified Party by reason of willful misconduct or gross negligence with respect to such acts or omissions; provided, however, that any indemnity under this Article IV shall be provided out of and to the extent of Company assets only, and the

Member shall not have any liability on account thereof. Notwithstanding anything herein to the contrary, the indemnification afforded herein shall be subject to, and no broader than permitted by, the laws of Delaware, in the absence of the approval of the Member.

ARTICLE V
DISSOLUTION

Section 5.1 **Events of Dissolution**. The Company shall have a perpetual existence unless sooner dissolved by:

(a) the election of the Member; or

(b) the entry of a decree of judicial dissolution under Section 18-802 of the Act.

Section 5.2 **Bankruptcy of the Member**. The bankruptcy of the Member will not cause the Member to cease to be the member of the Company and upon the occurrence of such event, the business of the Company shall continue without dissolution.

Section 5.3 **Liquidation and Winding Up**. In the event of dissolution, the Company shall be wound up and its assets liquidated. In connection with the dissolution and winding up of the Company, the Board or such other person designated by the Board shall proceed with the sale, exchange or liquidation of all of the assets of the Company and shall conduct only such other activities as are necessary to wind up the Company's affairs, and the assets of the Company shall be applied in the manner, and in the order of priority, set forth in Section 18-804 of the Act.

ARTICLE VI

All funds of the Company shall be deposited in the name of the Company in such account or accounts as shall be designated by the Board. All withdrawals from such account or accounts are to be made upon written bank instruments which must be signed by a Manager or a duly authorized officer.

ARTICLE VII
BOOKS

The Board shall cause to be kept, at the principal place of business of the Company, full and proper ledgers and other books of account in which shall be entered all matters relating to the Company, including all income, expenditures, assets and liabilities thereof. Such books shall be kept on a calendar-year basis in accordance with generally accepted accounting principles consistently applied, and shall be closed and balanced at the end of each tax year.

ARTICLE VIII
MISCELLANEOUS

Section 8.1 **Governing Law**. This Agreement, and any question, dispute or other matter related to or arising from this Agreement, will be governed by the laws of the State of Delaware without reference to conflict of laws principles.

Section 8.2 **Binding Effect**. This Agreement binds the Member and its respective distributees, successors and assigns and any other person claiming a right or benefit under or covered by this Agreement.

Section 8.3 **Amendments**. This Agreement may be amended upon the written consent of the Member.

Section 8.4 **Severability**. If any provision of this Agreement is held to be illegal, invalid or unenforceable:

(a) that provision will be fully severable and this Agreement will be construed and enforced as if the illegal, invalid or unenforceable provision had never been part of this Agreement;

(b) the remaining provisions of this Agreement will remain in full force and will not be affected by the illegal, invalid or unenforceable provision or by its severance from this Agreement; and

(c) in the place of the illegal, invalid, or unenforceable provision, there will be added automatically to this Agreement a legal, valid and enforceable provision that is as similar to the illegal, invalid or unenforceable provision as possible.

Section 8.5 **Entire Agreement**. Good Morning, Darlene,

Attached please find the Internet Services Addendum and the related Policies and Procedures for Roman Health Pharmacy LLC's Colorado and Texas facilities. The same form and P&Ps apply to both facilities.

I've also included signed license verification authorization forms for each facility. As I mentioned before, Texas and Colorado consider their online verifications of good standing (previously submitted) as primary sources and do not issue letters of good standing beyond the online verifications.

Please let me know if you have any questions or need anything else to complete this file.

Thank you,
Amanda

Subject: Fwd: FW: Nevada Pharmacy License Application - Roman Health Pharmacy, LLC (Grand Prairie, TX) - Need more information

Dear Darlene,

Our client, Roman Health Pharmacy LLC, received your email below regarding applications for their Grand Prairie, TX and Englewood, CO facilities. I had a couple of questions about the Internet Affidavit and Letter of Good Standing before submitting the requested documents:

Internet Services Addendum:

1) Is the request for Policies and Procedure for all pharmacy P&Ps, or are there specific P&Ps you would like to see? **Just the internet P&P**

2) Is the signature on this form also required to be a wet signature, or would a verified DocuSign signature suffice? **The digital signature is fine.**

SOP-6.7-R0 Recognizing Illegitimate Prescriptions and Invalid Patient-Practitioner Relationships

Approval Signatures

Title:	Name:	Signature:	Date:

Audience

- Pharmacists
- Pharmacy Technicians

Purpose

The fulfillment of illegitimate prescriptions is prevented by adhering to proper policies and procedures for recognizing illegitimate prescriptions and invalid patient-practitioner relationships.

Responsibility

- The Licensing and Compliance Manager is responsible for coordinating with management to ensure the training and enforcement of this procedure.
- The Pharmacy Manager is responsible for the training and enforcement of this procedure for the employees they manage.

Procedure

1. When receiving an oral prescription, pay attention to the following red flags or suspicious behavior from the caller:
    1.1. Sounds unprofessional, hesitant, or nervous
    1.2. Does not use standard medical terminology
    1.3. Provides medication quantities, directions, or other information that are unusual
    1.4. Provides pharmacy or practitioner information, such as National Provider Identifier (NPI) or Drug Enforcement Administration (DEA) number, that is invalid or incorrect
2. When processing a prescription, look for signs that indicate it may be illegitimate or forged:
    2.1. The practitioner's handwriting is too legible.
    2.2. The quantities, directions, or dosages differ from usual medical usage.
    2.3. The prescription appears to be photocopied.

2.4. Looks too good, or has a textbook appearance.

2.5. The prescription is written in the following manner:

2.5.1. With the directions in full, without abbreviations

2.5.2. With abbreviations that are not standard

2.5.3. In different color inks

2.5.4. In different handwriting styles

3. When processing a prescription, look for signs that indicate it may be issued based on an invalid patient-practitioner relationship:

3.1. The practitioner writes significantly more prescriptions (or in larger quantities) compared to other practitioners in your area.

3.2. The patient appears to be returning too frequently. A prescription that should have lasted for a month in legitimate use, is being refilled on a biweekly, weekly or even a daily basis.

3.3. The practitioner writes prescriptions for antagonistic drugs, such as depressants and stimulants, at the same time (drug abusers often request prescriptions for "uppers and downers" at the same time).

3.4. The patient appears presenting prescriptions written in the names of other people.

3.5. A number of people appear simultaneously, or within a short time, all bearing similar prescriptions from the same physician.

3.6. Numerous "strangers," people who are not regular patrons or residents of your community, suddenly show up with prescriptions from the same physician.

4. If a prescription is suspected of being illegitimate or fraudulent, or based on an invalid patient-practitioner relationship, take the following actions, if applicable:

4.1. Verify that the practitioner is in the pharmacy's database, and if not take the following steps:

4.1.1. Verify the practitioner's information with the NPI lookup tool, located on the National Plan & Provider Enumeration System (NPPES) website:

https://nppes.cms.hhs.gov/

Please Note: Issuance of an NPI does not ensure or validate that the practitioner is appropriately licensed or credentialed.

4.1.2. Confirm the DEA number is authentic, following the procedure described in the DEA Pharmacist's Manual, located in the appendix.

4.1.3. Verify the practitioner's information with the DEA Registration Validation tool, located on the DEA website:

https://apps.deadiversion.usdoj.gov/webforms/validateLogin.jsp

Please Note: The lookup tool is only available to DEA registrants.

4.2. Contact the practitioner by telephone using the contact number from the pharmacy's database or another reputable resource, other than from the prescription in question, and obtain the necessary information.

4.3. Verify the practitioner's license(s) and credential(s) with the appropriate agency (for example, the Board of Medicine).

5. If a prescription is confirmed to be illegitimate or fraudulent, or based on an invalid patient-practitioner relationship, take the following actions:

5.1. Notify the pharmacist-on-duty.

5.2. Notify the Pharmacy Compliance Team (see the List of Important Contacts, located in the appendix).

5.3. Notify local law enforcement (see the List of Local Authorities, located in the appendix).

5.4. Retain all illegitimate or fraudulent prescriptions as evidence and, if requested, release it to the appropriate law enforcement officials.

5.5. If applicable, notify the following entities:

5.5.1. The local DEA office (see the List of Local Authorities, located in the appendix)

5.5.2. The appropriate Board of Pharmacy(s) (see the List of Board of Pharmacy Contacts, located in the appendix)

5.5.3. Other pharmacies in the area

6. Appropriately document any investigations, findings, and actions.

4) All faxed prescriptions are sent to Nextiva (fax) software with a HIPPA security upgrade. Faxes are then uploaded automatically to a secure email address encrypted by Zix software.

4) E-scripts load directly into Newleaf, the prescription processing software.

4) Verbal prescriptions were written, scanned into the pharmacy system, and then shredded. Moving forward, the pharmacy will retain verbal and transferred verbal hardcopy prescriptions. PIC estimated one to two prescriptions per week.

Initials of Registered Pharmacist	Quantity or Commercial Package Size	The medications that were present for the filling of prescriptions have been examined for their compliance to the regulatory standards for quality assurance. The medications that were selected to be examined could potentially have been dispensed, and did not include any segments of the inventory that may already have been separated for future return to their respective manufacturers, or had been placed aside for proper disposal. The medications that were found to be in violation of the regulatory disciplines were segregated by the inspector, and then recorded below. The line entries are categorized by the deficiency for which the medication had been set apart, along with the appropriate regulatory cite. It is requested that you accept your option to compare each package of medication that has been separated as deficient against its collateral entry and, if you concur, place your initials in the left-hand column. The inspector will delete any deficiencies for which there are plausible explanations.				Deficiencies [13:39–7.18] [13:39-6.2(f)7]

CONDUCT:

Compounding an essentially a copy of one or more commercially available drug products:

21 U.S.C. §§ 301-392 (section 503A) (b) Compounded Drug.- (1) Licensed pharmacist and licensed physician.--A drug product may be compounded under subsection (a) if the licensed pharmacist or licensed physician--(D) does not compound regularly or in inordinate amounts (as defined by the Secretary) any drug products that are essentially copies of a commercially available drug product.(2) Definition.--For purposes of paragraph (1)(D), the term 'essentially a copy of a commercially available drug product' does not include a drug product in which there is a change, made for an identified individual patient, which produces for that patient a significant difference, as determined by the prescribing practitioner, between the compounded drug and the comparable commercially available drug product. As related to California Code of regulations section 1735.2(d) which states no pharmacy or pharmacist shall compound a drug preparation that: (3) Is a copy or essentially a copy of one or more commercially available drug products, unless that drug product appears on an ASHP (American Society of Health-System Pharmacists) or FDA list of drugs that are in short supply at the time of compounding and at the time of dispense, and the compounding of that drug preparation is justified by a specific, documented medical need made known to the pharmacist prior to compounding. The pharmacy shall retain a copy of the documentation of the shortage and the specific medical need in the pharmacy records for three years from the date of receipt of the documentation. Curexa, NRP 1363, located at 3007 Ocean Heights Avenue, Egg Harbor Township, NJ 08234 was not compliant. Specifically, from at least 6/2/19 to 12/2/19, Curexa compounded and shipped at least the following copy of one or more commercially available drug products. This investigation found this to be true for at least the following preparations sold into California.

Drug dispensed	Number of prescriptions	Grams sold
Clindamycin 1%/Niacinamide 4%	63	741
Tretinoin 0.0125%/Clindamycin 1%/Niacinamide 4%	24	273
Tretinoin 0.0125%/Niacinamide 4%	13	132
Tretinoin 0.04%/Clindamycin 1%/Niacinamide 4%	39	468
Grand Total	139	1,614

This was a violation of pharmacy law.

Erroneous or Uncertain Prescriptions.

California Code of regulations section 1761. (a) states no pharmacist shall compound or dispense any prescription which contains any significant error, omission, irregularity, uncertainty, ambiguity or alteration. Upon receipt of any such prescription, the pharmacist shall contact the prescriber to obtain the information needed to validate the prescription. Curexa NRP 1363, located at 3007 Ocean Heights Avenue, Egg Harbor Township, NJ 08234 was not compliant. Specifically, from at least 6/2/19 to 12/2/19, Curexa dispensed at least 139 prescriptions into California without obtaining information needed to validate the prescription. These prescriptions lack information on a valid prescriber patient relationship, if the prescriber conducted a good faith examination prior to prescribing, and the strength of niacinamide. Curexa allowed Pharmacy Technicians, Rossana Belfore, Sarah Fuller (Rosier), Sarah Lewkowitz, Laurie Myers, John Kolbasowski to validate the strength of the niacinamide and on several occasions the directions for use. This investigation found this to be true for at least the following 139 prescriptions.

This was a violation of pharmacy law.

Assigning an unsupported beyond use date (BUD):

California Code of regulations section 1735.2(i) states every compounded drug preparation shall be given beyond use date representing the date or date and time beyond which the compounded drug preparation should not be used, stored, transported or administered, and determined based on the professional judgment of the pharmacist performing or supervising the compounding. (1) For non-sterile compounded drug preparation(s), the beyond use date shall not exceed any of the following: (A) the shortest expiration date or beyond use date of any ingredient in the compounded drug preparation, (B) the chemical stability of any one ingredient in the compounded drug preparation; (C) the chemical stability of the combination of all ingredients in the compounded drug preparation, (D) for non-aqueous formulations, 180 days or an extended date established by the pharmacist's research, analysis, and documentation, (E) for water-containing oral formulations, 14 days or an extended date established by the pharmacist's research, analysis, and documentation, and (F) for water-containing topical/dermal and mucosal liquid and semisolid formulations, 30 days or an extended date established by the pharmacist's research, analysis, and documentation. (G) A pharmacist, using his or her professional judgment may establish an extended date as provided in (D), (E), and (F), if the pharmacist researches by consulting and applying drug-specific and general stability documentation and literature; analyzes such documentation and literature as well as the other factors set forth in this subdivision, and maintains documentation of the research, analysis and conclusion. The factors the pharmacist must analyze include: (i) the nature of the drug and its degradation mechanism, (ii) the dosage form and its components, (iii)the potential for microbial proliferation in the preparation, (iv) the container in which it is packaged, (v) the expected storage conditions, and (vi) the intended duration of therapy. Documentation of the pharmacist's research and analysis supporting an extension must be maintained in a readily retrievable format as part of the master formula. Curexa NRP 1363, located at 3007 Ocean Heights Avenue, Egg Harbor Township, NJ 08234 was not compliant. Re: Compounding of Domperidone

Dear Mr. Taylor:

As you are aware, the New Jersey Board of Pharmacy (the "Board") conducted an inspection of Curexa Pharmacy on 05/28/2015. In reviewing the subsequently produced Inspection Report (#8-5028-15-X), the inspector noted that Curexa Pharmacy was found to be engaged in the compounding of domperidone 10 mg capsules for human use. Curexa appears to have filled 101 prescriptions for this compound between 01/01/2015 and 05/28/2015, resulting in 11,038 capsules being dispensed.

According to the Food and Drug Administration (the "FDA"), domperidone is currently not approved for human use in the United States. Although there are restrictions on domperidone, the FDA recognizes that there are patients with severe GI motility disorders refractory to standard treatment who might benefit from domperidone and in whom the benefits of the drug may outweigh its risks. Domperidone is currently available to these patients through the FDA's Expanded Access to Investigational New Drug (IND) program. This Expanded Access IND program ensures that the appropriate safeguards are in place to protect patients treated with domperidone from the drug's serious adverse effects, including QT prolongation and cardiac arrhythmias. Information on this Expanded Access IND program can be found at:

http://www.fda.gov/drugs/developmentapprovalprocess/howdrugsaredevelopedandapproved/approvalapplications/investigationalnewdrugindapplication/ucm368736.htm

The compounding of domperidone without utilizing the FDA's Expanded Access IND program is a direct violation of Board of Pharmacy Regulations N.J.A.C. 13:39-7.5, N.J.A.C 13:39-6.2(f)(9) and N.J.A.C. 13:39-4.18(a). The Board is requiring that you submit proof of compliance (by following the guidelines set forth by the FDA in order to compound and dispense domperidone) within 45 days of receipt of this letter. Failure to demonstrate that compliance will result in the Board imposing disciplinary action.

Sincerely,

Anthony Rubinaccio, RPh

3. EHT and Taylor expressly waive their rights pursuant to the Alabama Pharmacy Practice Act, the Alabama Administrative Procedure Act and the Alabama Uniform Controlled Substances Act, including but not limited to the Code of Alabama (1975), §34-23-34 and §34-23-92(12), Code of Alabama (1975), §41-22-12 and §40-22-20 and Code of Alabama (1975), § 20-2-50 et seq., and including but not limited to the opportunity for a hearing before the Board in connection with any charges against it and any judicial review. EHT and Taylor further waive any objection to the attorney for the Board preparing, drafting or making this Order, including the waiver of any objection or right pursuant to Code of Alabama (1975), §41-22-18.

4. By execution of this Consent Order, EHT and Taylor hereby release the Board, its members, agents, representatives, servants and employees from any and all liability, claims, damages, fees or expenses arising out of or made in connection with the matters relating to this Consent Order and Statement.

5. EHT and Taylor acknowledge and agree that any future violation of the Alabama Pharmacy Practice Act, the laws that regulate the sale and/or dispensing of prescription or legend drugs and/or narcotics or any Rules and regulations of the Alabama State Board of Pharmacy or the pharmacy law or rules of the Board of Pharmacy of another state or any other applicable laws may, upon proof and hearing

thereof, result in further disciplinary sanctions against EHT's permit and/or Taylor's license, including, but not limited to revocation.

6. EHT and Taylor acknowledge and agree that they have read this Consent Order and that it fully understand the terms, conditions and contents of the same. MOTION TO AMEND

COMES NOW, the Alabama State Board of Pharmacy (Board) and moves the Hearing Officer for an Order amending the previously filed Statement of Charges and Notice of Hearing (SOC) based upon the following:

1. The Board inadvertently failed to name the supervising pharmacist, Mark Taylor, in the original SOC.

8. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's permit.

9. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

10. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2017-53-L.

11. Respondent understands that this Settlement Agreement may be subject to reporting requirements.

12. Respondent understands this Settlement Agreement is public record pursuant to Hawaii Revised Statutes Chapter 92F.

C. TERMS OF SETTLEMENT:

1. Administrative Fine. Respondent agrees to pay a fine in the amount of ONE THOUSAND FIVE HUNDRED AND NO/100 DOLLARS ($1,500.00). Payment shall be made by **cashier's check or money order made payable to "DCCA - Compliance Resolution Fund"** and mailed to the Regulated Industries Complaints Office, Attn: John T. In case of such revocation, Respondent shall turn in all indicia of licensure to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for a new permit until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become permitted again, Respondent must apply to the Board for a new permit pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible Further Sanction. 4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5., C.6., C.7., and C.8. below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. 8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Curexa ("Respondent Pharmacy") to resolve all matters pertaining to Board Case Number 2017-1242, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Pharmacy, its registration as a non-resident prescription drug outlet, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2016).

2. Respondent Pharmacy was originally registered in the State of Colorado on or about May 18, 2017, being issued registration number OSP 5698, and has been so registered at all times relevant to this disciplinary action.

3. Respondent Pharmacy's address of record with the Board and current location is 3007 Ocean Heights Ave., Egg Harbor Township, NJ 08234.

4. Respondent Pharmacy admits these findings and hereby waives any further proof in this or any other proceeding before the Board regarding the following facts.

5. On September 6, 2016, Respondent entered into a Consent Order with the Alabama Board of Pharmacy for compounding and dispensing 11,038 Domperidone 10 mg capsules for human use, which is not approved for such use by the Federal Food and Drug Administration.

6. Respondent Pharmacy failed to notify the Colorado Board of the Alabama disciplinary action.

7. Respondent Pharmacy admits that its conduct, as set forth above, constitutes a violation of §12-42.5-123(1)(c)(I)-(III), (g), (k), and (q), C.R.S., and Rule 9.00.10(b),

and provides grounds for disciplinary action against Respondent Pharmacy's Colorado registration as a prescription drug outlet.

DISPOSITION

8. **Letter of Admonition.** This Final Agency Order shall constitute a Letter of Admonition as set forth in §12-42.5-124(6)(b) and (c), C.R.S. The Board hereby admonishes Respondent Pharmacy for the acts and omissions described in paragraphs 5-7 above.

Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under §12-42.5-124(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

12. **Advisements and Waivers.** Through its undersigned Authorized Representative, Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having the opportunity to consult with legal counsel and/or choosing not to do so. CERTIFIED AND FIRST CLASS MAIL

RE: Case 2017-6730 against Curexa

Dear Pharmacist Manager:

At its March 15, 2018 meeting, the Colorado State Board of Pharmacy ("Board") reviewed the above-referenced complaint. After careful consideration of all the evidence before the Board, the Board determined that the aforementioned nonresident pharmacy failed to timely report disciplinary action in another state and committed acts that would subject it to disciplinary action in this state.

The Board hereby admonishes the nonresident pharmacy for violation of the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act and Board Rules.

This admonishment shall be made a part of the permanent records of the Board and is reportable as a disciplinary action. It may also be considered as an aggravating factor if you incur future violations. You may request that a hearing be initiated by the Board if you wish to dispute the information in this letter. The purpose of such a proceeding would be to adjudicate the propriety of the conduct upon which this letter is based. The Board must receive such a request from you within 20 days after you receive this letter.

If you make a timely request, the letter of admonition shall be deemed vacated pending resolution of formal disciplinary proceedings. Those proceedings involve a hearing conducted in accordance with the State Administrative Procedures Act.

Sincerely,

FOR THE COLORADO STATE BOARD OF PHARMACY

Wendy Anderson
Program Director

RE: Report of Discipline

During a survey of our pharmacy located at the address stated above a NJ Board of Pharmacy noted two items during her review on 03/05/2018. These items were explained to the inspector prior to her departure and in subsequent correspondence. The Board has seen it fit to issue reprimand and penalty for these items which I will state and provide explanation.

The Inspector stated that a photocopy of a pharmacist license was displayed, and this violated NJAC 13:39-3.6 prohibiting reproduction of a license by any means. This pharmacist had her official, state-issued license in the display case as well. This was noted in the comments of the inspection document. Henceforth, Curexa will only post primary-source verification of any approved licenses prior to receiving a state-issued certificate.

The inspector noted that there were documents posted on www.curexa.com with the pharmacy name and contact information in the document heading. There was, at that time, indication on the form that the heading was to be removed prior to completing and submitting the form. Additionally, the following statement is, and has been, on Curexa's website;

> *The following forms are intended for informational purposes only and do not always constitute a complete prescription to Curexa Pharmacy. Forms are for licensed prescriber use only to assist in the Curexa Pharmacy enrollment process. Faxed prescriptions may only be accepted by licensed prescribing practitioners as required by state prescribing laws. If you have any further questions, please contact us at 855.927.0390.*

This was stated as a violation of NJSA 45:14-65(b) "providing or causing to be provided to a physician, dentist, veterinarian or other person authorized to prescribe, prescription blanks or forms bearing the pharmacist's or pharmacy's name, address or other means of identification". These forms have been amended to remove all mentions of the pharmacy.

The attached documents have been provided for your review of the matter.

Kevin Judeich, PHR, CPhT.

Re: Inspection #8-5028-18-412
Date of Inspection: 3/5/18

Dear Mr. Taylor:

This letter is to advise you that the New Jersey State Board of Pharmacy has had an opportunity to review information concerning the above inspection report.

Upon review of all available information, the Board has preliminarily found that you have violated those items listed on Attachment A.

The Board has determined that it will offer you an opportunity to settle this matter and thereby avoid the initiation of further disciplinary proceedings. Should you wish to avail yourself of this opportunity, you **MUST SIGN THE ATTACHED CERTIFICATION** and agree to the following:

> **PAY A PENALTY IN THE AMOUNT OF $1,050.00** and **PROVIDE TO THE BOARD A LETTER OF CORRECTIVE ACTION.** (To be paid immediately upon your signing of the attached acknowledgment.)

Alternatively you may waive your right to a hearing and submit a written statement or explanation to the Board. The Board will then consider your submission and render a final decision, which may include any of the terms set forth above. This disposition will be a public record. Please take notice that if the Board determines that the initial inspection findings require a reinspection to ensure that cited deficiencies have been properly addressed, you may be subject to any costs associated with the reinspection.

If you do not wish to settle this matter, you may request a hearing. In that event, this letter will serve as notice of the charges against you and a hearing will be scheduled before the

Board. At that hearing you may, either personally or with the assistance of an attorney, submit determination concerning the charges of unlawful activity. You should be aware that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that herein offered in this letter. Additionally, the Board may, if the facts are found to so warrant, enter an order, requiring you to reimburse certain monies, direction you to cease and desist from engaging in unlawful acts and/or requiring you to pay costs incurred by the Board. Should you have any questions concerning this letter or the settlement offer herein, I suggest that you contact the Board at (973) 504-6450.

The enclosed Certification **MUST** be completed and returned to the Board within fifteen (15) days following your receipt of this letter. In the event that the Board receives no response from you within this time, the Board's settlement offer will be withdrawn, and the allegations contained herein shall be deemed admitted, and the Board will proceed to finally review that matter and enter an appropriate order.

RE: IN THE MATTER OF

(PHARMACIST LICENSE #58326)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacist license number 58326 issued to Mark Taylor (Respondent).

By letter dated March 31, 2017, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

> Sections 565.001(a)(1), (2), (5), (12) and (16); and 565.001(b) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2015); and
>
> Sections 281.7(a)(13); 281.7(a)(21); and 281.7(c)(3) of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2016), as alleged in the Counts below.

The conduct described in the Consent Order by the Alabama State Board of Pharmacy is substantially similar to the conduct described in:

> Section 565.001(a)(1), (2), (12) and (13) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2013);
>
> Sections 281.7(a)(12) and (13); 291.32(a)(2)(H); 291.32(c)(1)(E) and (F); and 295.3 of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2015);
>
> Sections 431.002(25); and 431.114 of the Texas Food, Drug, and Cosmetic Act, TEX. HEALTH & SAFETY CODE ANN. (2013); and
>
> Sections 321(p)(1) and (2); 331(d); and 355(a) of the Federal Food, Drug, and Cosmetic Act (Title 21 U.S.C.) (2013).

COUNTS

(1) On or about April 29, 2016, Mark Taylor submitted an application for renewal of his pharmacist license to the Texas State Board of Pharmacy. On the application, Mr. Taylor falsely indicated that no professional disciplinary action was pending against him, when the disciplinary action by the Alabama State Board of Pharmacy described below in Count (2) was pending against him.

(2) On or about September 6, 2016, the Alabama State Board of Pharmacy entered a Consent Order against the Alabama pharmacist license number 19108 held by Mark Taylor. The Order was based on allegations contained in a Statement of Charges and Notice of

Hearing that while Mr. Taylor was acting as pharmacist-in-charge and a corporate officer of Curexa, the pharmacy compounded and dispensed 101 prescriptions for a drug product not approved by the federal Food and Drug Administration for human use, namely domperidone 10 mg. The Order imposed a $10,000 fine.

An informal conference was held in the Board's office on July 13, 2017, with Respondent in attendance. The informal conference was heard by a Board panel comprised of: Jeanne D. Waggener, R.Ph., Board Member; and Carol Fisher, R.Ph., M.P.A., Director of Enforcement; with Kerstin Arnold, General Counsel. Megan Holloway, Staff Attorney, was also in attendance.

At the aforementioned conference, Respondent waived the right to be represented by legal counsel. By signing this Order, Respondent neither admits nor denies the truth of the matters previously set out in this Order, and agrees that the Board has jurisdiction in this matter and waives the right to notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Respondent's license is reprimanded.

(2) Respondent shall pay an administrative penalty of one thousand dollars ($1,000) due one hundred twenty (120) days after the entry of this Order.

(3) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2015), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2017).

And it is so ORDERED.

THIS ORDER IS A PUBLIC RECORD.

La. R.S. 37:1241(A)(2): Has attempted to or obtained a license by misrepresentation.

LA. R.S. 37:1241(A)(6) Has had his license, permit, certification, registration or any other designations deemed necessary to engage in the practice of pharmacy revoked or suspended, or has had other disciplinary action taken, or has had his application for licensure refused, revoked, or suspended by the proper authorities of another state, territory, or country based upon conduct by the licensee similar to conduct that would constitute grounds for action as defined in this Section.

La. R.S. 37:1241(A)(22): Has failed to furnish to the board or representatives any information legally requested by the board.

To facilitate the submission of this Consent Agreement, Respondent does not offer any defense to the allegations of violations cited above and further agrees that there is sufficient evidence upon which to predicate a finding of those violations.

1. **PHARMACIST LICENSE NO. 21436 belonging to MARK KELSO TAYLOR is hereby issued a LETTER OF REPRIMAND.**

2. **MARK KELSO TAYLOR is ordered to pay a fine of $1,000.00 and reimburse the Board $250.00 for administrative costs for a total of $1,250.00 due by *certified check or money order* at the signing of this agreement.**

By signing this Consent Agreement, Respondent agrees that the Board has jurisdiction in this matter, waives all rights to informal conference, to Notice of Hearing, to a formal Administrative Hearing, and to judicial review of this Consent Agreement.

By signing this Consent Agreement, Respondent agrees that any failure to comply with the terms of this Agreement is a basis for discipline by the Board.

Both Respondent and the Board stipulate that this Consent Order shall not become effective and shall not become binding on the Board unless and until approved by the Board at formal meeting.

However, Respondent agrees that this Consent Order shall be effective and binding upon Respondent without recourse upon his signing said Order.

I, **MARK KELSO TAYLOR**, understand that this Consent Agreement is effective as a Board Order upon affirmative vote by the Board at formal hearing. It is also understood that, should the Board not approve this Consent Agreement, the agreement therein does not preclude the Louisiana Board of Pharmacy from requiring a formal hearing of my case.

Dear Mr. Taylor:

Unfortunately the Application for Consent Order that you signed and returned to me last spring was incorrectly drafted in that the name of the current registration in New York reads as EHT Pharmacy, LLC, CUREX. That now needs to be corrected on the enclosed consent application and it will necessary for you to re-sign in the TWO places indicated and return it to me.

I am enclosing a UPS envelope for you to return the signed white backed original to me as soon as possible. If you have any questions about this please call me at (518)485-9351. Thank you and I apologize for this inconvenience.

ADMINISTRATIVE COMPLAINT

The Michigan Department of Licensing and Regulatory Affairs, by Forrest Pasanski, Enforcement Division Director, Bureau of Professional Licensing, complains against Respondent as follows:

1. The Michigan Board of Pharmacy is an administrative agency established by the Public Health Code, MCL 333.1101 *et seq*. Pursuant to MCL 333.7311, MCL 333.16226, and MCL 333.17768, the Board's Disciplinary Subcommittee is empowered to discipline persons for violations of the Public Health Code.

2. Respondent is currently licensed as a pharmacist in the state of Michigan. Respondent's address of record with the Department is Galloway, New Jersey.

3. On September 6, 2016, the Alabama State Board of Pharmacy (Alabama Board) executed a Consent Order (Order) with EHT Pharmacy LLC d/b/a Curexa f/k/a EHT Pharmacy LLC d/b/a Jersey Shore Pharmacy (pharmacy) and Respondent that fined the pharmacy and Respondent $10,000.00. The Alabama Board's

Order was based on allegations that the pharmacy compounded and dispensed 101 prescriptions (totaling 11,038 capsules) of Domperidone for human use when the same was not approved by the FDA and having nine medications outdated from one day to four months in the active drug stock inventory. A copy of the Order, marked Exhibit A, is attached and incorporated.

4. Respondent failed to notify the Department of the action taken by the Alabama Board within 30 days from the date of the action.

5. On August 1, 2017, the Texas State Board of Pharmacy (Texas Board) issued an Agreed Board Order against Respondent based on Respondent submitting an April 29, 2016 application for renewal of his pharmacist license to the Texas Board and falsely indicating that no professional disciplinary action was pending against him when the Alabama action described above was pending against Respondent. Licensee was reprimanded and fined $1,000.00. A copy of the Order, marked Exhibit B, is attached and incorporated.

6. Respondent failed to notify the Department of the action taken by the Texas Board within 30 days from the date of the action.

COUNT I

The actions by the Alabama and Texas Boards, as set forth above, constitute final adverse administrative actions by a licensure, registration, disciplinary, or certification board involving the holder of, or an applicant for, a license or registration

regulated by another state or a territory of the United States, in violation of MCL 333.16221(b)(x).

COUNT II

Respondent's conduct, as set forth above, evidences a failure to notify the Department of the disciplinary actions by the Alabama and Texas Boards within 30 days from the date of the actions, as required by MCL 333.16222(4), in violation of MCL 333.16221(f).

RESPONDENT IS NOTIFIED that, pursuant to MCL 333.16231(8), Respondent has 30 days from the date of receipt of this Complaint to answer this Complaint in writing and to show compliance with all lawful requirements for licensure. Respondent shall submit the response to the Bureau of Professional Licensing, Department of Licensing and Regulatory Affairs, P.O. Box 30670, Lansing, MI 48909.

Respondent's failure to submit an answer within 30 days is an admission of the allegations in this Complaint. If Respondent fails to answer, the Department shall transmit this Complaint directly to the Board's Disciplinary Subcommittee to impose a sanction, pursuant to MCL 333.16231(9).

THIS MATTER comes before the Alabama State Board of Pharmacy (hereinafter referred to as the "Board") on a complaint against EHT Pharmacy LLC d/b/a Curexa f/k/a EHT Pharmacy LLC d/b/a Jersey Shore Pharmacy (EHT) and Mark Taylor (Taylor) which resulted in the filing of a Statement of Charges and Notice of Hearing, as amended (Statement), alleging violations of the Alabama Pharmacy Practice Act as are more particularly set out in the Statement which is attached hereto as Exhibit "A."

Prior to a hearing in this cause, and pursuant to Code of Alabama (1975) §41-22-12(f), the Board through its counsel and EHT and Taylor through their counsel engaged in negotiations and as a result the matters at issue were resolved informally by the parties and the parties negotiated a Consent Order, the terms of which are as follows:

1. Counsel for the Board and counsel for EHT and Taylor stipulate that EHT and Taylor deny for all legal purposes other than this proceeding the allegations set forth in the Statement but stipulate that for the purposes of this proceeding the Board would introduce sufficient evidence to meet its required burden of proof. EHT and Taylor further waive any objection to the attorney for the Board preparing, drafting or making this Order, including the waiver of any objection or right pursuant to Code of Alabama (1975), §41-22-18.

4. By execution of this Consent Order, EHT and Taylor hereby release the Board, its members, agents, representatives, servants and employees from any and all liability, claims, damages, fees or expenses arising out of or made in connection with the matters relating to this Consent Order and Statement.

5. EHT and Taylor acknowledge and agree that any future violation of the Alabama Pharmacy Practice Act, the laws that regulate the sale and/or dispensing of prescription or legend drugs and/or narcotics or any Rules and regulations of the Alabama State Board of Pharmacy or the pharmacy law or rules of the Board of Pharmacy of another state or any other applicable laws may, upon proof and hearing

thereof, result in further disciplinary sanctions against EHT's permit and/or Taylor's license; including, but not limited to revocation.

6. EHT and Taylor acknowledge and agree that they have read this Consent Order and that it fully understand the terms, conditions and contents of the same. EHT and Taylor acknowledge and agree that they voluntarily and of their own free will accept the terms and conditions set out in this Consent Order and are signing this Consent Order on the advice of their attorney.

AGREED BOARD ORDER #F-17-010

RE: IN THE MATTER OF
MARK TAYLOR
(PHARMACIST LICENSE #58326)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacist license number 58326 issued to Mark Taylor (Respondent).

By letter dated March 31, 2017, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

Sections 565.001(a)(1), (2), (5), (12) and (16); and 565.001(b) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2015); and

Sections 281.7(a)(13); 281.7(a)(21); and 281.7(c)(3) of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2016), as alleged in the Counts below.

The conduct described in the Consent Order by the Alabama State Board of Pharmacy is substantially similar to the conduct described in:

Section 565.001(a)(1), (2), (12) and (13) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2013);

Sections 281.7(a)(12) and (13); 291.32(a)(2)(H); 291.32(c)(1)(E) and (F); and 295.3 of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2015);

Sections 431.002(25); and 431.114 of the Texas Food, Drug, and Cosmetic Act, TEX. HEALTH & SAFETY CODE ANN. (2013); and

Sections 321(p)(1) and (2); 331(d); and 355(a) of the Federal Food, Drug, and Cosmetic Act (Title 21 U.S.C.) (2013).

COUNTS

(1) On or about April 29, 2016, Mark Taylor submitted an application for renewal of his pharmacist license to the Texas State Board of Pharmacy. On the application, Mr. Taylor falsely indicated that no professional disciplinary action was pending against him, when the disciplinary action by the Alabama State Board of Pharmacy described below in Count (2) was pending against him.

(2) On or about September 6, 2016, the Alabama State Board of Pharmacy entered a Consent Order against the Alabama pharmacist license number 19108 held by Mark Taylor. The Order was based on allegations contained in a Statement of Charges and Notice of

Hearing that while Mr. Taylor was acting as pharmacist-in-charge and a corporate officer of Curexa, the pharmacy compounded and dispensed 101 prescriptions for a drug product not approved by the federal Food and Drug Administration for human use, namely domperidone 10 mg. The Order imposed a $10,000 fine.

An informal conference was held in the Board's office on July 13, 2017, with Respondent in attendance. The informal conference was heard by a Board panel comprised of: Jeanne D. Waggener, R.Ph., Board Member; and Carol Fisher, R.Ph., M.P.A., Director of Enforcement; with Kerstin Arnold, General Counsel. Megan Holloway, Staff Attorney, was also in attendance.

At the aforementioned conference, Respondent waived the right to be represented by legal counsel. By signing this Order, Respondent neither admits nor denies the truth of the matters previously set out in this Order, and agrees that the Board has jurisdiction in this matter and waives the right to notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Respondent's license is reprimanded.

(2) Respondent shall pay an administrative penalty of one thousand dollars ($1,000) due one hundred twenty (120) days after the entry of this Order.

(3) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2015), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2017).

And it is so ORDERED.

THIS ORDER IS A PUBLIC RECORD.
