## WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-1145521. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

| Form 1065 | 03/15/2021 |
|---|---|

If you have questions about the form(s) or the due date(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 538, *Accounting Periods and Methods*.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification, and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, *Entity Classification Election*. See Form 8832 and its instructions for additional information.

A limited liability company (LLC) may file Form 8832, *Entity Classification Election*, and elect to be classified as an association taxable as a corporation. If the LLC is eligible to be treated as a corporation that meets certain tests and it will be electing S corporation status, it must timely file Form 2553, *Election by a Small Business Corporation*. The LLC will be treated as a corporation as of the effective date of the S corporation election and does not need to file Form 8832.

To obtain tax forms and publications, including those referenced in this notice, visit our Web site at www.irs.gov. If you do not have access to the Internet, call 1-800-829-3676 (TTY/TDD 1-800-829-4059) or visit your local IRS office.

ASCEND
Laboratories, LLC

August 9, 2022

To Whom it May Concern:

Ascend Laboratories, LLC is a NJ-based Virtual Manufacturer of pharmaceutical products. As a Virtual Manufacturer, Ascend Laboratories, LLC's product is manufactured by Contract Manufacturers and distributed to wholesalers by a Third-Party Logistics Provider, who is licensed to distribute pharmaceuticals into your state.

The Maine Board of Pharmacy website indicates that Ascend Laboratories, LLC was "Denied" licensure. While the application was denied, this was not a result of non-compliance or disciplinary action by Ascend.

In late 2020, Ascend Laboratories applied for a Manufacturer license through the Maine Board of Pharmacy. Ascend complied with all of Maine's requests for supporting documentation and submitted the required application fee. In December 2020, Maine notified Ascend that they do not license Virtual Manufacturer entities. As a result, the Maine Board of Pharmacy website indicates that Ascend was "Denied" licensure. Ascend is currently working with the state of Maine to possibly resolve this matter and remove the denial from the state website.

I hope this narrative provides the clarity needed to continue the review of Ascend's application.

Sincerely,

Urvi Naik

## Illinois Compiled Statutes

**Information maintained by the Legislative Reference Bureau**
Updating the database of the Illinois Compiled Statutes (ILCS) is an ongoing process. Recent laws may not yet be included in the ILCS database, but they are found on this site as Public Acts soon after they become law. For information concerning the relationship between statutes and Public Acts, refer to the Guide.

Because the statute database is maintained primarily for legislative drafting purposes, statutory changes are sometimes included in the statute database before they take effect. If the source note at the end of a Section of the statutes includes a Public Act that has not yet taken effect, the version of the law that is currently in effect may have already been removed from the database and you should refer to that Public Act to see the changes made to the current law.

Sec. 56. Restrictions on transactions.

(a) A licensee shall receive prescription drug returns or exchanges from a pharmacy or other persons authorized to administer or dispense drugs or a chain pharmacy warehouse pursuant to the terms and conditions of the agreement between the wholesale distributor and the pharmacy or chain pharmacy warehouse. Returns of expired, damaged, recalled, or otherwise non-saleable pharmaceutical products shall be distributed by the receiving wholesale distributor only to either the original manufacturer or a third party returns processor. Returns or exchanges of prescription drugs, saleable or otherwise, including any redistribution by a receiving wholesaler, shall not be subject to the pedigree requirements of Section 57 of this Act, so long as they are exempt from the pedigree requirement of the FDA's currently applicable Prescription Drug Marketing Act guidance. Both licensees under this Act and pharmacies or other persons authorized to administer or dispense drugs shall be accountable for administering their returns process and ensuring that the aspects of this operation are secure and do not permit the entry of adulterated and counterfeit product.

(b) A manufacturer or wholesale distributor licensed under this Act may furnish prescription drugs only to a person licensed by the appropriate state licensing authorities. Before furnishing prescription drugs to a person not known to the manufacturer or wholesale distributor, the manufacturer or wholesale distributor must affirmatively verify that the person is legally authorized to receive the prescription drugs by contacting the appropriate state licensing authorities.

(c) Prescription drugs furnished by a manufacturer or wholesale distributor licensed under this Act may be delivered only to the premises listed on the license, provided that the manufacturer or wholesale distributor may furnish prescription drugs to an authorized person or agent of that person at the premises of the manufacturer or wholesale distributor if:

(1) the identity and authorization of the recipient is properly established; and

(2) this method of receipt is employed only to meet

the immediate needs of a particular patient of the authorized person.

(d) Prescription drugs may be furnished to a hospital pharmacy receiving area, provided that a pharmacist or authorized receiving personnel signs, at the time of delivery, a receipt showing the type and quantity of the prescription drug received. Any discrepancy between the receipt and the type and quantity of the prescription drug actually received shall be reported to the delivering manufacturer or wholesale distributor by the next business day after the delivery to the pharmacy receiving area.

(e) A manufacturer or wholesale distributor licensed under this Act may not accept payment for, or allow the use of, a person or entity's credit to establish an account for the purchase of prescription drugs from any person other than the owner of record, the chief executive officer, or the chief financial officer listed on the license of a person or entity legally authorized to receive the prescription drugs. Any account established for the purchase of prescription drugs must bear the name of the licensee. This subsection (e) shall not be construed to prohibit a pharmacy or chain pharmacy warehouse from receiving prescription drugs if payment for the prescription drugs is processed through the pharmacy's or chain pharmacy warehouse's contractual drug manufacturer or wholesale distributor.

A retail pharmacy, mail order pharmacy, or chain pharmacy warehouse must comply with the requirements of this Section only if the pharmacy or chain pharmacy warehouse engages in the wholesale distribution of prescription drugs. On or before July 1, 2009, the Department shall determine a targeted implementation date for electronic track and trace pedigree technology. This targeted implementation date shall not be sooner than July 1, 2010. Beginning on the date established by the Department, pedigrees may be implemented through an approved and readily available system that electronically tracks and traces the wholesale distribution of each prescription drug starting with the sale by the manufacturer through acquisition and sale by any wholesale distributor and until final sale to a pharmacy or other authorized person administering or dispensing the prescription drug. This electronic tracking system shall be deemed to be readily available only upon there being available a standardized system originating with the manufacturers and capable of being used on a wide scale across the entire pharmaceutical chain, including manufacturers, wholesale distributors, third-party logistics providers, and pharmacies. Consideration must also be given to the large-scale implementation of this technology across the supply chain and the technology must be proven to have no negative impact on the safety and efficacy of the pharmaceutical product.

(b) Each person who is engaged in the wholesale distribution of a prescription drug who is provided a pedigree for a prescription drug and attempts to further distribute that prescription drug, including repackagers, but excluding the

original manufacturer of the finished form of the prescription drug, must affirmatively verify before any distribution of a prescription drug occurs that each transaction listed on the pedigree has occurred.

(c) The pedigree must include all necessary identifying information concerning each sale in the chain of distribution of the product from the manufacturer or the manufacturer's third-party logistics provider, co-licensed product partner, or exclusive distributor through acquisition and sale by any wholesale distributor or repackager, until final sale to a pharmacy or other person dispensing or administering the drug. This necessary chain of distribution information shall include, without limitation all of the following:

(1) The name, address, telephone number and, if available, the e-mail address of each owner of the prescription drug and each wholesale distributor of the prescription drug.

(2) The name and address of each location from which the product was shipped, if different from the owner's.

(3) Transaction dates.

(4) Certification that each recipient has authenticated the pedigree.

(d) The pedigree must also include without limitation all of the following information concerning the prescription drug:

(6) The name of the manufacturer of the finished dosage form.

(e) Each pedigree or electronic file shall be maintained by the purchaser and the wholesale distributor for at least 3 years from the date of sale or transfer and made available for inspection or use within 5 business days upon a request of the Department.

Sec. 59. Injunctive action; cease and desist order.

(a) If any person violates the provisions of this Act, the Secretary, in the name of the People of the State of Illinois, through the Attorney General or the State's Attorney of the county where the violation is alleged to have occurred, may petition for an order enjoining the violation or for an order enforcing compliance with this Act. Upon the filing of a verified petition, the court with appropriate jurisdiction may issue a temporary restraining order, without notice or bond, and may preliminarily and permanently enjoin the violation. If it is established that the person has violated or is violating the injunction, then the court may punish the offender for contempt of court. Proceedings under this Section are in addition to, and not in lieu of, all other remedies and penalties provided by this Act.

(b) Whenever, in the opinion of the Department, a person violates any provision of this Act, the Department may issue a rule to show cause why an order to cease and desist shall not be entered against that person. The rule shall clearly set forth the grounds relied upon by the Department and shall allow a

Sec. 60. Wholesaler licensing; complaints. The Department may refuse to issue a license to establish a new licensed wholesale drug distributorship, if an owner of the wholesale drug distributorship applying for a license was an owner of a wholesale drug distributorship that had its license revoked, unless the owner presents sufficient evidence indicating rehabilitation. Once a complaint has been filed by the Department against a wholesale drug distributorship the Department may refuse to issue a license to establish a new licensed wholesale drug distributorship, until such time as the Department issues a decision on the complaint if an owner of the new wholesale drug distributorship was also an owner of a wholesale drug distributorship against which the complaint was filed. Neither an application for change of ownership nor for a change of location for any such wholesale drug distributorship shall be acted on by the Department until such time as the Department issues a decision on the complaint. In the event that the wholesale drug distributorship against which the complaint has been filed ceases to be licensed by the Department, for any reason, before the Department's decision on the complaint and an owner or that wholesale drug distributorship applies for a license to establish a new wholesale drug distributorship, the Department shall conduct a hearing on the complaint earlier filed, regardless of whether that wholesale drug distributorship is presently licensed by the Department. If the conduct for which the complaint was originally filed would have been sufficient to result in a revocation of a license to operate a licensed wholesale drug distributorship, then the conduct shall constitute sufficient grounds for denial of an application for a license.

(d) A person found to have violated a provision of this Section shall be subject to administrative fines, orders for restitution, and orders for disgorgement.

(e) The Department shall create a centralized, searchable database of those entities licensed to engage in wholesale distribution, including manufacturers, wholesale distributors, and pharmacy distributors, to enable purchasers of a drug in shortage to easily verify the licensing status of an entity offering such drugs.

(f) The Department shall establish a system for reporting the reasonable suspicion that a violation of this Act has been committed by a distributor of a drug in shortage. Reports made through this system shall be referred to the Office of the Attorney General and the appropriate State's Attorney's office for further investigation and prosecution.

(g) The Department shall adopt rules to carry out the provisions of this Section.

i-FACTOR™ Peptide Enhanced Bone Graft
Filed: August 27, 2014
Amended: February 13, May 20, and June 9, 2015
Procode: NOX

Dear Mr. White:

The Center for Devices and Radiological Health (CDRH) of the Food and Drug Administration (FDA) has completed its review of your premarket approval application (PMA) for the i-FACTOR™ Peptide Enhanced Bone Graft. This combination product is indicated for use in skeletally mature patients for reconstruction of a degenerated cervical disc at one level from C3-C4 to C6-C7 following single-level discectomy for intractable radiculopathy (arm pain and/or a neurological deficit), with or without neck pain, or myelopathy due to a single-level abnormality localized to the disc space, and corresponding to at least one of the following conditions confirmed by radiographic imaging (CT, MRI, X-rays): herniated nucleus pulposus, spondylosis (defined by the presence of osteophytes), and/or visible loss of disc height as compared to adjacent levels, after failure of at least 6 weeks of conservative treatment. i-FACTOR™ Peptide Enhanced Bone Graft P-15 Putty must be used inside an allograft bone ring and with supplemental anterior plate fixation. We are pleased to inform you that the PMA is approved. You may begin commercial distribution of the device in accordance with the conditions of approval described below.

The sale and distribution of this device are restricted to prescription use in accordance with 21 CFR 801.109 and under section 515(d)(1)(B)(ii) of the Federal Food, Drug, and Cosmetic Act (the act). The device is further restricted under section 515(d)(1)(B)(ii) of the act insofar as the labeling must specify the specific training or experience practitioners need in order to use the device. FDA has determined that these restrictions on sale and distribution are necessary to provide reasonable assurance of the safety and effectiveness of the device. Your device is therefore a restricted device subject to the requirements in sections 502(q) and (r) of the act, in addition to the many other FDA requirements governing the manufacture, distribution, and marketing of devices.

Expiration dating for this device has been established and approved at 3 years. This is to advise you that the protocol you used to establish this expiration dating is considered an approved protocol for the purpose of extending the expiration dating as provided by 21 CFR 814.39(a)(7).

Continued approval of this PMA is contingent upon the submission of periodic reports, required under 21 CFR 814.84, at intervals of one year (unless otherwise specified) from the date of approval of the original PMA. Two copies of this report, identified as "Annual Report" and bearing the applicable PMA reference number, should be submitted to the address below. The Annual Report should indicate the beginning and ending date of the period covered by the report and should include the information required by 21 CFR 814.84. This is a reminder that as of September 24, 2014, class III devices are subject to certain provisions of the final UDI rule. These provisions include the requirement to provide a UDI on the device label and packages (21 CFR 801.20), format dates on the device label in accordance with 21 CFR 801.18, and submit data to the Global Unique Device Identification Database (GUDID) (21 CFR 830 Subpart E). Additionally, 21 CFR 814.84 (b)(4) requires PMA annual reports submitted after September 24, 2014, to identify each device identifier currently in use for the subject device, and the device identifiers for devices that have been discontinued since the previous periodic report. It is not necessary to identify any device identifier discontinued prior to December 23, 2013. For more information on these requirements, please see the UDI website, http://www.fda.gov/udi.

In addition to the above, and in order to provide continued reasonable assurance of the safety and effectiveness of the device, the Annual Report must include, separately for each model number (if applicable), the number of devices sold and distributed during the reporting period, including those distributed to distributors. The distribution data will serve as a denominator and provide necessary context for FDA to ascertain the frequency and prevalence of adverse events, as FDA evaluates the continued safety and effectiveness of the device.

You have agreed to the following product stability requirements with the reports submitted separately from the annual reporting requirement:

1. Conduct bioactivity stability test for the first 3 production batches of i-FACTOR™ Peptide Enhanced Bone Graft product manufactured and packaged according to the commercialized manufacturing process. The stability study should be performed at the long term controlled storage condition of 25°C/60%RH with test frequency of 0, 6, 12 months for the 1st year, every 6 months for the 2nd year and annually thereafter through the shelf life. The stability data report should be submitted as a "Report – Other" due at the same time as the annual report, but submitted separately from the annual report.

2. Place a minimum one commercial batch of the finished product into long-term stability testing at 25°C/60% RH through the shelf life on an annual basis if manufactured.

3. Withdraw from the market, any batches that fail to meet the approved specifications for the putty product during long-term stability evaluations.

In addition to the Annual Report requirements, you must provide the following data in post-approval study (PAS) reports for each PAS listed below. Separate PAS Progress Reports must be submitted for each study every six (6) months during the first two (2) years of the study and annually thereafter, unless otherwise specified by FDA. Two (2) copies of each report, identified

as an "ODE Lead PMA Post-Approval Study Report" in accordance with how the study is identified below and bearing the applicable PMA reference number, should be submitted to the address below.

ODE Lead PMA Post-Approval Study – i-FACTOR™ Peptide Enhanced Bone Graft Continuation Study: The Office of Device Evaluation (ODE) will have the lead for this clinical study, which was initiated prior to device approval. The i-FACTOR™ Peptide Enhanced Bone Graft Continuation Study is a continuation of the collection of data from subjects who were enrolled in the clinical study used to support approval of the PMA. The purpose of the study is to collect longer-term data describing the safety and effectiveness of the identified product. The clinical and radiographic endpoints identified in the original protocol (included in Attachment IV-4.6 of the original PMA submission) will continue to be collected annually until each subject has had a total of six years' worth of data collected.

It is expected that 220 total subjects will be enrolled in the study. A conservative estimate of expected number of subjects at 6 years follow-up is 170 subjects (*i.e.* loss of 10 subjects per year due to withdrawals, death and other causes). Further, a follow-up rate of up to 70% is expected at all follow-ups. Thus, data from a total of 154 subjects are expected to be available at year 3 and from 120 subjects at year 6.

The working study hypothesis is that i-FACTOR™ Peptide Enhanced Bone Graft will be non-inferior to autologous bone. This working hypothesis will be tested by a non-inferiority approach as follows. In order to be a success, non-inferiority structured H0 for each primary efficacy endpoint has to be rejected. Three independent hypotheses will be tested, for each of the primary endpoints using the same non-inferiority margins as in the main study. The hypotheses will be tested with one-sided and two-sided 95% C.I. For the fusion and neurological success primary endpoints, the exact binomial confidence interval will be created. For the change in NDI primary endpoint, the confidence intervals for the differences in mean change between the groups adjusting for baseline NDI value will be created. If the confidence interval does not include non-inferiority margin, the H0 will be rejected. An evaluation for the need to adjust the analysis for possible differences between the groups will be included.

Statistical power:

- It is estimated that the fusion rate will be between 98% and 100% at all follow-ups based on the main study results. At 3 years, the study will have 99% power and at 6 years it will have 98% power to reject non-inferiority H0 with non-inferiority margin of 10%.

- The study will have 97% power at 3 years and 93% power at 6 years to reject H0 for the change in NDI outcome under the standard deviation assumption of 19 (based on the main study) and a non-inferiority margin of 11.

- The study will have 95% power at 3 years and 90% power at 6 years to reject non-inferiority H0 for neurological success outcome under the assumption of a neurological success rate of 93% as observed in the main study and a non- inferiority margin of 15%.

The rate of adverse events will be compared between the i-FACTOR™ Peptide Enhanced Bone Graft and the control arm using the Fisher exact test and superiority approach, in the same way as in the original IDE study. Failure to reject H0 or, rejection of H0 in favor of i-FACTOR™ Peptide Enhanced Bone Graft group will meet safety success. The rate of subsequent surgical interventions at the index level will also be compared.

The data from this study will be submitted as part of the annual report and will include the following data collected annually for each subject:

1. a description of any surgical interventions, which will include reoperations, removals, revisions, and supplemental fixations;

2. a radiographic assessment of fusion using the same criteria employed in the original IDE study;

3. an assessment of neurological outcomes;

4. an assessment of pain and function using the same criteria employed in the original IDE study (*i.e.*, change in NDI and change in neck and arm VAS for pain); and

5. other primary and secondary endpoints not specified in items 1-3 above, as specified in the IDE study protocol addendum.

Be advised that the failure to conduct any such study in compliance with the good clinical laboratory practices in 21 CFR part 58 (if a non-clinical study subject to part 58) or the institutional review board regulations in 21 CFR part 56 and the informed consent regulations in 21 CFR part 50 (if a clinical study involving human subjects) may be grounds for FDA withdrawal of approval of the PMA. In addition, the results from any post approval study should be included in the labeling as these data become available. Any updated labeling must be submitted to FDA in the form of a PMA Supplement. For more information on post-approval studies, see the FDA guidance document entitled, "Procedures for Handling Post-Approval Studies Imposed by PMA Order" (http://www.fda.gov/MedicalDevices/DeviceRegulationandGuidance/GuidanceDocuments/ucm070974.htm).

Within 30 days of your receipt of this letter, you must submit a PMA supplement that includes a complete protocol of your post-approval study described above. Your PMA supplement should be clearly labeled as an "ODE Lead" as noted above and submitted in triplicate to the address below. Please reference the PMA number above to facilitate processing. If there are multiple

protocols being finalized after PMA approval, please submit each protocol as a separate PMA supplement.

Before making any change affecting the safety or effectiveness of the device, you must submit a PMA supplement or an alternate submission (30-day notice) in accordance with 21 CFR 814.39. All PMA supplements and alternate submissions (30-day notice) must comply with the applicable requirements in 21 CFR 814.39. For more information, please refer to the FDA guidance document entitled, "Modifications to Devices Subject to Premarket Approval (PMA) - The PMA Supplement Decision-Making Process" (www.fda.gov/MedicalDevices/DeviceRegulationandGuidance/GuidanceDocuments/ucm089274.htm).

You are reminded that many FDA requirements govern the manufacture, distribution, and marketing of devices. For example, in accordance with the Medical Device Reporting (MDR) regulation, 21 CFR 803.50 and 21 CFR 803.52, you are required to report adverse events for this device. Manufacturers of medical devices, including in vitro diagnostic devices, are required to report to FDA no later than 30 calendar days after the day they receive or otherwise becomes aware of information, from any source, that reasonably suggests that one of their marketed devices:

1. May have caused or contributed to a death or serious injury; or

2. Has malfunctioned and such device or similar device marketed by the manufacturer would be likely to cause or contribute to a death or serious injury if the malfunction were to recur.

Additional information on MDR, including how, when, and where to report, is available at www.fda.gov/MedicalDevices/Safety/ReportaProblem/default.htm.

In accordance with the recall requirements specified in 21 CFR 806.10, you are required to submit a written report to FDA of any correction or removal of this device initiated by you to: (1) reduce a risk to health posed by the device; or (2) remedy a violation of the act caused by the device which may present a risk to health, with certain exceptions specified in 21 CFR 806.10(a)(2). Additional information on recalls is available at www.fda.gov/Safety/Recalls/IndustryGuidance/default.htm.

CDRH does not evaluate information related to contract liability warranties. We remind you; however, that device labeling must be truthful and not misleading. CDRH will notify the public of its decision to approve your PMA by making available, among other information, a summary of the safety and effectiveness data upon which the approval is based. The information can be found on the FDA CDRH Internet HomePage located at www.fda.gov/MedicalDevices/ProductsandMedicalProcedures/DeviceApprovalsandClearances/PMAApprovals/default.htm. Written requests for this information can also be made to the Food and Drug Administration, Dockets Management Branch, (HFA-305), 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852. The written request should include the PMA number or docket

number. Within 30 days from the date that this information is placed on the Internet, any interested person may seek review of this decision by submitting a petition for review under section 515(g) of the act and requesting either a hearing or review by an independent advisory committee. FDA may, for good cause, extend this 30-day filing period.

Failure to comply with any post-approval requirement constitutes a ground for withdrawal of approval of a PMA. The introduction or delivery for introduction into interstate commerce of a device that is not in compliance with its conditions of approval is a violation of law.

You are reminded that, as soon as possible and before commercial distribution of your device, you must submit an amendment to this PMA submission with copies of all approved labeling in final printed form. Final printed labeling that is identical to the labeling approved in draft form will not routinely be reviewed by FDA staff when accompanied by a cover letter stating that the final printed labeling is identical to the labeling approved in draft form. If the final printed labeling is not identical, any changes from the final draft labeling should be highlighted and explained in the amendment.

All required documents should be submitted in 6 copies, unless otherwise specified, to the address below and should reference the above PMA number to facilitate processing.

## Designated Representative Application

Rev (05/12/2022)

An application for a license, or a licensee with a license, to conduct a pharmacy or to operate as a wholesaler shall designate at least one natural person to serve as the representative of the pharmacy or wholesaler. The Board will not issue or renew a license of an applicant or licensee that is required to designate a representative of a pharmacy or wholesaler unless the Board determines that the designated natural person meets the following qualifications per NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler):

1. Is at least 21 years of age;
2. Has been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.

The designated representative of a pharmacy or a wholesaler:

1. Must be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
2. Must be employed full-time in a managerial level position with the pharmacy or wholesaler;
3. Must be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
4. May serve in this representative capacity for only one pharmacy or wholesaler at a time

A pharmacy or wholesaler that is required to designate a natural person as its representative shall not open or operate the pharmacy or wholesaler unless that representative is actually employed full-time in the operation of the pharmacy or wholesaler and is physically present at the site of the pharmacy or wholesaler during regular working hours, not including sick leave, vacation leave and other authorized absences from work. If the natural person designated as the representative of a pharmacy leaves the employ of the pharmacy or wholesaler, thus leaving the pharmacy or wholesaler without a representative in violation of this section, the pharmacy or wholesaler shall:

1. Immediately cease conducting business until another qualified natural person is approved by the Board to serve as the representative of the pharmacy or wholesaler; and
2. Not later than 48 hours after that person leaves its employ, notify the Board that the person designated as the representative of the pharmacy or wholesaler has left the employ of the pharmacy or wholesaler.

Before a pharmacy or wholesaler, that is in violation of NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler) because the natural person designated as the representative of the pharmacy or wholesaler left the employ of the pharmacy or wholesaler, may continue conducting business:

1. The pharmacy or wholesaler must designate, on a form provided by the Board, a new natural person to serve as the representative of the pharmacy; and
2. The Board must approve the natural person so designated.

To Whom It May Concern:

By this letter, Coloplast Corp. is requesting a temporary wholesaler license for the Coloplast Corp. facility listed below. At the conclusion of that call, you sent me an email indicating that I should submit this request for Temporary Licensure on Coloplast letterhead and addressed to you. It is my understanding that, if approved, BOP staff will issue the "temp" license valid until the board meeting date which will be assigned to this application.

This request for temporary licensure is made for Coloplast Corp. (Coloplast) at this facility:

**CEASE-AND-DESIST and CITATION-AND-FINE ORDER: Case No. 23-072-O**
**Unlicensed Wholesaling Activity in Nevada**

Dear Ms. Herman:

The Nevada State Board of Pharmacy (Board) has determined that Coloplast Corp., a Minnesota-based wholesaler of medical devices and/or equipment, has been distributing its products into Nevada without a license as required by Nevada Revised Statutes (NRS) 639.233. Accordingly, pursuant to NRS 639.2895, you are hereby ordered to immediately **CEASE and DESIST** distributing into Nevada any such products that are restricted by federal law to sale by or on the order of a physician. Additionally, this notice shall serve as a **CITATION** pursuant to NRS 639.2895(2) for the unlicensed wholesaling of medical devices, equipment, and/or gases. Pursuant to NRS 639.2895(3), the Board has assessed an administrative fine against Coloplast Corp. in the amount of five thousand dollars ($5,000.00).

You must pay this administrative fine within 30 days of receipt of this citation, or otherwise contact Board staff to request an alternative payment plan. Payment must be by *cashier's check*, *certified check* or *money order* made payable to "State of Nevada, Office of the Treasurer," to be received at the Board's Reno office, located at 985 Damonte Ranch Parkway – Suite 206, Reno, NV 89521.

You have the right to appeal this citation by submitting a written request for a hearing to the Board at the Board's Reno office no later than 30 days after receipt of this notice. *See* NRS 639.2895(2). Please be aware that the forgoing does not preclude the filing of administrative or criminal charges if deemed appropriate based upon evidence not currently available to the Board. If you have any questions, please do not hesitate to contact me at 775-850-1440 or zunino@pharmacy.nv.gov.

In regards to the DR information and their residency, I received confirmation from the DR that she is physically present at the site during regular business hours. She commutes from her home address in PA to the facility address in NJ.

Please let us know if you require anything further from us or if this will suffice to continue with the approval of this **Initial** permit.

Your response to this e-mail would be greatly appreciated.

|---|---|---|---|
| 8/3/2005 | 1401 N. Universal Ave<br>Kansas City, MO 64120 | **FILE CLOSED 2010**<br>Medline Industries' Kansas City, MO facility (#2003031660) was disciplined for failure to renew on time and for deficient temperature control procedures. Medline was placed on probation for 5 years. The state conducted multiple inspections of the facility throughout the probationary period and found Medline to comply with all requirements. The probationary period closed in August 2010. | Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialists that monitor and ensure our licenses are renewed on time. A temperature control room was constructed at the facility to ensure product is stored at the appropriate temperature and humidity. These control rooms are now a standard feature at our distribution centers. We worked closely with NABP to ensure that our temperature control facilities and procedures align with industry best practices throughout our distribution network. |
| 12/7/2006 | 9101 Riverside Pkwy<br>Lithia Springs, GA 30122 | **FILE CLOSED 2008**<br>The Florida Certified Designated Representative at the Georgia facility unexpectedly resigned. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Florida CDR was hired at the facility. | To prevent this for occurring in the future, all Florida licensed Medline facilities are required to have multiple Florida Certified Designated Representatives on staff. |
| 11/16/2007 | 10601 Southport Dr.<br>Orlando, FL 32824<br>401 Commerce Blvd.<br>Oldsmar, FL 34677<br>4750 118th Ave N<br>Clearwater, FL 33762 | **FILE CLOSED 2008**<br>Medline Industries was cited for several violations. Failure to pass and maintain a Florida compliant pedigree. Maintaining the wrong permit type for the activities performed in the facilities (in addition to a manufacturing permit, Florida required the facility a repackager permit). Distribution of saline to an unauthorized recipient. Additionally an Rx drug item was found at an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH.<br><br>After duly notifying state authorities, as required by law, Medline received a fined from New York for out-of-state professional misconduct. (Cal. No. 27278) | To address the pedigree issues, Medline instituted a Florida specific pedigree system. This program ensured that any pedigree shipments within our distribution network with potential to end up in Florida has the required Florida documentation. (Note - these requirements have since been preempted by federal law). To address the issue of the wrong permit type, Medline secured the repackaging permit. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx Drug purchases- this procedure generates an automatic block for any Rx Drug order by an unlicensed customer. The Rx Drug item unintentionally stored in the raw materials facility was properly disposed of. Waste disposal procedures were updated to ensure that this mistake would not recur. |
| 11/26/2007 | 2708 NE Waldo Rd.<br>Gainesville, FL 32609 | **FILE CLOSED 2008**<br>Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008. In 2010, Medline made an unrelated business decision to close this facility. (Case # 2007-37412) | After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, Medline implemented an internal auditing program to ensure that all distribution centers comply with internal policies and procedures and state and federal regulations. |
| 3/5/2008 | 149 New Camellia Blvd.<br>Covington, LA 70433 | **FILE CLOSED 2008**<br>Medline Industries (LA #4318) was cited for failure to properly maintain copies of current customer licenses on-site. Medline was assessed and paid a fine. (Louisiana Administrative Docket #2008006).<br><br>After duly notifying state authorities, as required by law, Medline received a fine from New York for out-of-state professional misconduct. (Cal. No. 27278) | In addition to storing copies of customers' licenses at headquarters, these licenses are now stored digitally so they can be accessed by our distribution centers. |
| 5/9/2008 | 5450 W. Stewart Ave.<br>Wausau, WI 54401 | **FILE CLOSED 2009**<br>Medline Industries (WI # 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing following a facility inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to install a dividing fence between the Medline warehouse and the hospital portion of the facility. All of the hospital products were owned by the hospital. Medline was also cited for failure to access policies and procedures during the inspection. Corrections were made and the facility re-inspected, to the satisfaction of the state (Case #08 | Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the faculty. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves. |

| 8/21/2008 | 94-1420 Moaniani St. Waipahu, HI 96797 | **FILE CLOSED 2013**<br><br>Medline Industries, Inc. (PWD 115) was fined $5000 and placed on probation for 5 years for failure to report disciplinary actions within 30 days. Medline submitted all required notices, but missed the 30-day deadline. The probationary period ended in August 2013. (Case # PHA 2008-17-L) | Medline implemented a new process to notify the necessary licensing boards of future disciplinary actions within the required reporting timelines. |
| 3/19/2010 | 1401 N. Universal Ave.<br>Kansas City, MO 64120 | **FILE CLOSED 2010**<br><br>Medline Industries, Inc. applied for a Colorado Out-of-State Wholesaler license for the Kansas City, MO distribution center. The CO Board of Pharmacy issued a conditional license until the facility's MO probation period ended. (See 8/3/2005 discipline). Medline informed the CO Board when the MO probationary period was completed. Upon completion of probation, the Board issued a full license. | See 8/3/2005 discipline for corrective actions related to the underlying sanction. |
| 1/6/2021 | 1501 Harris Rd Libertyville, IL 60048 | **FILE CLOSED 2021**<br><br>Medline Industries, Inc. (OH License #01-1985050) received a fine of $250 from the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired. The fine was paid on January 21, 2021 and the case was closed. (Case No. A-2020-0054 I-2019-0972-B.)<br><br>After duly notifying state authorities, as required by law, Medline received a $500 fine from the Alabama State Board of Pharmacy for the same underlying conduct as the Ohio matter. The fine was paid and the matter closed. (Case No:21-L-0048) | Medline takes this matter very seriously. Medline reviewed the customer licensing policies and procedures and updated internal requirements for the type of license required for customers in Ohio. Efforts were taken by Customer Licensing to research, ensure the proper type, and check license status for a large number of existing Ohio licenses. The Ohio TDDD licenses are reviewed on an annual basis to ensure compliance. |
| 11/1/2022 | 1040 Enterprise Parkway South West Jefferson, OH 43162 | **FILE CLOSURE PENDING**<br><br>Medline Industries, LP (OH License #01-30000190) entered a settlement agreement and agreed to pay a fine of $1,125.00 to the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file versus a Terminal Distributor (TDDD) license. The TDDD license was added in May 2022- prior to this investigation. During the period of July 2021 to March 2022, the customer's TDDD license lapsed and Medline was unaware. Medline is in the process of notifying states of this fine. | Medline is committed to following all applicable state and federal statutes and regulations, including customer license requirements. Medline updated customer licensing requirements after the 01/06/2021 fine. This incident occurred while Medline was in the process of updating a large number of Ohio accounts. Medline is implementing additional steps to ensure compliance, including, increasing staffing, training, and resources for the customer licensing team. |

RE: Application for Wholesale License

Dear Sir or Madam:

This letter is a follow up to our representative's, Steve Murphy, appearance at the Board last week. We would respectfully ask you to consider granting us a license or a temporary license for the state of Nevada.

First, upon learning we were required to have the license in Nevada, we did immediately cease and desist sale and paid the fine as well.

Second, in an effort to be abundantly clear and transparent with the Board, we disclosed the nuisance law suit that one of our subsidiaries had in the state of New Jersey. There was nothing found wrong with our products or our company and the plaintiff dismissed us from the lawsuit with prejudice and it was entered into the court as of last week.

Thank you for your consideration,

**Provide explanation below:**

There is a lawsuit pending against OxyGo in New Jersey. This matter was brought to us in the end of 2020 and has been long in discovery and is still under way, so we will give you a brief overview of the situation while maintaining confidentiality. At the end of April, the plaintiff submitted a motion to the court to dismiss us from the case with prejudice, we are just waiting for the judges stamp of approval.

Our OxyGo product is typically only put on patients that are ill with multiple co-morbidities and do not have a long term prognosis. The OxyGo is not a life sustaining product, it merely increases the quality of life of a patient. (I.e. if it were to stop working, the patient would not die, it is not a ventilator.)

The Estate of such a patient is suing because of his death. The Estate has not alleged a specific defect in our product, and is suing not only us, but also: another oxygen concentrator the patient was using, 2 different homecare providers and also left open 30 spaces for defendants they do not know exist yet (They named John Doe 1-10, John Roe 1-10 and ABC Corp 1-10 on the complaint). We have inspected the unit the patient allegedly used and found no defects. Our company has been around since 1993 and this is the first instance of a lawsuit.

**Provide explanation below:**

There is a lawsuit pending against OxyGo in New Jersey. This matter was brought to us in the end of 2020 and has been long in discovery and is still under way, so we will give you a brief overview of the situation while maintaining confidentiality. At the end of April, the plaintiff submitted a motion to the court to dismiss us from the case with prejudice, we are just waiting for the judges stamp of approval.

Our OxyGo product is typically only put on patients that are ill with multiple co-morbidities and do not have a long term prognosis. The OxyGo is not a life sustaining product, it merely increases the quality of life of a patient. (I.e. if it were to stop working, the patient would not die, it is not a ventilator.)

The Estate of such a patient is suing because of his death. The Estate has not alleged a specific defect in our product, and is suing not only us, but also: another oxygen concentrator the patient was using, 2 different homecare providers and also left open 30 spaces for defendants they do not know exist yet (They named John Doe 1-10, John Roe 1-10 and ABC Corp 1-10 on the complaint). We have inspected the unit the patient allegedly used and found no defects. Our company has been around since 1993 and this is the first instance of a lawsuit.

- Chapter 18.64 RCW

- Chapter 246-889 WAC

Note: the commission will no longer license entities exclusively engaged in third-party logistics, as defined in 21 U.S.C. § 360eee(22). While the commission will not license third-party logistics providers (3PLs), 3PLs are federally required to report annually to the FDA.

A wholesaler that sell legend drugs and nonprescription, or nonprescription drugs in this state must be licensed as a wholesale distributor. A "wholesale distributor" means anyone engaged in wholesale distribution of drugs, including but not limited to, manufacturers; repackers; own-label distributors; private-label distributors; jobbers; brokers;

warehouses; including manufacturers' and distributors' warehouses, chain drug warehouses, and wholesale drug warehouses; independent wholesale drug traders; and retail pharmacies that conduct wholesale distributions. Types of practice licensed in this category:

Wholesaler Application:

- Full-line wholesaler (prescription and nonprescription drugs)
- Full-line wholesaler with controlled substances
- Over-the-Counter Drug Wholesaler
- Export Wholesaler
- Non-profit Wholesaler
- Reverse distributor
- Out-of-State Manufacturer
- Out-of-State Virtual Manufacturer
- In and Out-of-State Virtual Wholesalers
- 503B Outsourcing Facilities
- Retail pharmacies engaging in wholesale distribution

Manufacturer Applications – apply to locations in Washington state that manufacturer pharmaceuticals or engage in virtual manufacturer practice in-state only

In-state wholesalers and manufacturers are inspected before a license is issued and periodically to ensure compliance with laws and rules.

Non-resident manufacturers that sell or distribute legend drugs and nonprescription, or nonprescription drugs in this state must be licensed as a Washington pharmaceutical wholesaler and as a legend drug sample distributor if sample drugs are distributed.

No license is required for the wholesale distribution of medical devices so long as no pharmaceuticals are involved.

## State license verification

Applicants must list all states where they do or did hold credentials. This list must also include when the applicant has applied for a credential, even if a credential was not granted. The jurisdiction where the applicant is or was credentialed must complete and submit the submit the verification form (PDF). The jurisdiction must send the completed form directly to the department.

## Background questions

Applicant must answer background questions related to the owners, partners, managers, etc. If there is a positive answer to the professional liability questions the applicant must send an explanation of the nature of the case, data and summary of care given, copies of the original complaint, and the settlement or final disposition. If the case is pending, applicant must indicate status.

## Additional information/documents required

Out-of-state wholesalers must provide:

- Copy of resident state license;
- Copy of most recent inspection by the licensing authority or an explanation why it cannot be provided; and
- If applicable, a copy of the facility's federal Drug Enforcement Administration registration.

## Process for approving/denying applications

Credentialing staff members review the application and supporting documents to make an initial determination on eligibility. The recommendation is based upon the requirements outlined in Chapter 18.64 RCW, and Chapter 246-879 WAC. Credentialing supervisors approve routine applications that don't have positive answers to personal data questions, have questionable verifying documents or are otherwise "red flag" applications. "Red flag" applications are forwarded to the exception application process for determination by the appropriate disciplinary authority. An applicant will be formally notified of a denial and has the opportunity for a hearing to appeal the decision.

## Renewal requirements

Pharmaceutical wholesaler and manufacturer licenses are renewed annually on or before September 30 and may be renewed within 90 days of the expiration date.

A courtesy renewal notice will be mailed to licensee's address of record. Renewals mailed to the department must be postmarked on or before the expiration date to avoid having the license expire and accrue a late penalty.

## Location or ownership changes

A change of location to a different address requires a new application and payment of original licensing fees, including CSA.

A change in the business structure or organizational structure such as a change from sole proprietorship to a corporation or a change of more than 50 percent of ownership in a corporation requires a new application and original licensing fees, including CSA.

In-state wholesalers must pass an inspection before a new location or change of ownership license is issued.

## Third Party Logistic Providers – 3PLs

The Washington Pharmacy Quality Assurance Commission discussed third-party logistic (3PL) providers at its March 2018 business meeting. The commission decided it will no longer license entities exclusively engaged in third-party logistics, as defined in 21 U.S.C. § 360eee(22). While the commission will not license third-party logistics providers (3PLs), 3PLs are federally required to report annually to the FDA.

# Manufacturer and distributor registration information

## Learn about registration for manufacturers and distributors of medical devices and pharmaceuticals.

## Medical device manufacturer and distributor registration

This policy is intended to assist manufacturers and/or distributors of medical devices in Massachusetts to ascertain whether they need to obtain a controlled substances registration from the Massachusetts Department of Public Health (MDPH). Such a controlled substances registration would be required under Massachusetts law and regulation (M.G.L. c. 94C and 105 CMR 700.000) if a company were to manufacture, distribute or dispense controlled substances in the Commonwealth, or possess controlled substances with the intent of manufacturing, distributing or dispensing. Please note that in accordance with Massachusetts law the term "controlled substance" denotes any prescription pharmaceutical (i.e., either a federally controlled substance or a "legend" drug). Thus, any medical device that contains a prescription pharmaceutical is considered to be a controlled substance in Massachusetts regardless of its standing as a medical device.

If you are a manufacturer and/or a distributor in Massachusetts and your company does not manufacture, dispense or distribute controlled substances within the Commonwealth, or possess controlled substances for such purposes your company does not need, and has no basis for obtaining, a controlled substances registration from Massachusetts.

Thus, for example, a manufacturer or distributor of a medical device is not required to register if:

1. the device does not contain any prescription pharmaceutical; or
2. the device does contain a prescription pharmaceutical but is not manufactured, stored, dispensed, or distributed within the Commonwealth.

## Pharmaceutical manufacturer and distributor registration

This policy is intended to assist manufacturers and/or distributors of prescription pharmaceuticals to ascertain whether they need to obtain a controlled substances registration from the Massachusetts Department of Public Health (MDPH). Such a controlled substances registration would be required under Massachusetts law and regulation (M.G.L. c. 94C and 105 CMR 700.000) if a company were to manufacture, distribute or dispense a controlled substance in the Commonwealth, or possess a controlled substance with the intent of manufacturing, distributing or dispensing. Please note that in accordance with Massachusetts law the term "controlled substance" denotes any prescription pharmaceutical (i.e., either a federally controlled substance or a "legend" drug).

If you are a manufacturer and/or a distributor in Massachusetts and your company does not manufacture, dispense or distribute a controlled substance within the Commonwealth, or possess a controlled substance for such purposes your company does not need, and has no basis for obtaining, a controlled substances registration from Massachusetts.

If you are a manufacturer and/or a distributor outside of Massachusetts and your company does not manufacture, dispense or distribute a controlled substance within the Commonwealth, or possess a controlled substance in the Commonwealth for such purposes your company does not need, and has no basis for obtaining, a controlled substances registration from Massachusetts.

Thus, for example, a manufacturer or distributor of a prescription pharmaceutical is not required to register if manufacture, storage and distribution of the pharmaceutical is handled from outside the state and the only activity within Massachusetts is direct delivery to a registered entity in the state.

Licensing Requirements ⌄

- Chapter 18.64 RCW
- Chapter 246-879 WAC
- Chapter 246-889 WAC

Note: the commission will no longer license entities exclusively engaged in third-party logistics, as defined in 21 U.S.C. § 360eee(22). While the commission will not license third-party logistics providers (3PLs), 3PLs are federally required to report annually to the FDA.

A wholesaler that sell legend drugs and nonprescription, or nonprescription drugs in this state must be licensed as a wholesale distributor. A "wholesale distributor" means anyone engaged in wholesale distribution of drugs, including but not limited to, manufacturers; repackers; own-label distributors; private-label distributors; jobbers; brokers;

warehouses; including manufacturers' and distributors' warehouses, chain drug warehouses, and wholesale drug warehouses; independent wholesale drug traders; and retail pharmacies that conduct wholesale distributions. Types of practice licensed in this category:

Wholesaler Application:

- Full-line wholesaler (prescription and nonprescription drugs)
- Full-line wholesaler with controlled substances
- Over-the-Counter Drug Wholesaler
- Export Wholesaler
- Non-profit Wholesaler
- Reverse distributor
- Out-of-State Manufacturer
- Out-of-State Virtual Manufacturer
- In and Out-of-State Virtual Wholesalers
- 503B Outsourcing Facilities
- Retail pharmacies engaging in wholesale distribution

Manufacturer Applications – apply to locations in Washington state that manufacturer pharmaceuticals or engage in virtual manufacturer practice in-state only

In-state wholesalers and manufacturers are inspected before a license is issued and periodically to ensure compliance with laws and rules.

Non-resident manufacturers that sell or distribute legend drugs and nonprescription, or nonprescription drugs in this state must be licensed as a Washington pharmaceutical wholesaler and as a legend drug sample distributor if sample drugs are distributed.

No license is required for the wholesale distribution of medical devices so long as no pharmaceuticals are involved.

## State license verification

Applicants must list all states where they do or did hold credentials. This list must also include when the applicant has applied for a credential, even if a credential was not granted. The jurisdiction where the applicant is or was credentialed must complete and submit the submit the verification form (PDF). The jurisdiction must send the completed form directly to the department.

## Background questions

Applicant must answer background questions related to the owners, partners, managers, etc. If there is a positive answer to the professional liability questions the applicant must send an explanation of the nature of the case, data and summary of care given, copies of the original complaint, and the settlement or final disposition. If the case is pending, applicant must indicate status.

## Additional information/documents required

Out-of-state wholesalers must provide:

- Copy of resident state license;
- Copy of most recent inspection by the licensing authority or an explanation why it cannot be provided; and
- If applicable, a copy of the facility's federal Drug Enforcement Administration registration.

## Process for approving/denying applications

Credentialing staff members review the application and supporting documents to make an initial determination on eligibility. The recommendation is based upon the requirements outlined in Chapter 18.64 RCW, and Chapter 246-879 WAC. Credentialing supervisors approve routine applications that don't have positive answers to personal data questions, have questionable verifying documents or are otherwise "red flag" applications. "Red flag" applications are forwarded to the exception application process for determination by the appropriate disciplinary authority. An applicant will be formally notified of a denial and has the opportunity for a hearing to appeal the decision.

## Renewal requirements

Pharmaceutical wholesaler and manufacturer licenses are renewed annually on or before September 30 and may be renewed within 90 days of the expiration date.

A courtesy renewal notice will be mailed to licensee's address of record. Renewals mailed to the department must be postmarked on or before the expiration date to avoid having the license expire and accrue a late penalty.

## Location or ownership changes

A change of location to a different address requires a new application and payment of original licensing fees, including CSA.

A change in the business structure or organizational structure such as a change from sole proprietorship to a corporation or a change of more than 50 percent of ownership in a corporation requires a new application and original licensing fees, including CSA.

In-state wholesalers must pass an inspection before a new location or change of ownership license is issued.

## Third Party Logistic Providers -- 3PLs

The Washington Pharmacy Quality Assurance Commission discussed third-party logistic (3PL) providers at its March 2018 business meeting. The commission decided it will no longer license entities exclusively engaged in third-party logistics, as defined in 21 U.S.C. § 360eee(22). While the commission will not license third-party logistics providers (3PLs), 3PLs are federally required to report annually to the FDA.

## Nature of Business

Respironics Logistics Services, LLC (RILS) is a wholesale distributor of prescription and nonprescription medical devices for the diagnosis, treatment and monitoring of various medical conditions, including, but not limited to, sleep, respiratory, and cardiopulmonary disorders. RILS is a wholly-owned subsidiary of its parent company, Philips RS North America LLC. RILS distributes the parent company's products to customers (wholesalers, hospitals, durable medical equipment (DME) dealers, and distributors). All sales of these products are made by the manufacturer to its DME or homecare provider customers, and not to individual patients, but the items will be shipped directly to the DME or homecare provider's patient. The patient's DME or homecare provider provides medical supervision of the patient.

Currently, RILS ships replacement masks and other accessories (including headgear, tubing, filters, chinstraps, and humidifier chambers) for CPAP devices. No drugs, whether prescription or non-prescription, are distributed.

## Matters Related to Colorado Order
## 1645 Satellite Blvd, Duluth, GA

*Final*

As previously disclosed by UPS Supply Chain Solution, Inc. (UPS SCS), to your agency in 2010, the Colorado Board of Pharmacy's Stipulation and Final Agency Order ("Colorado Order") was effective October 18, 2010, with regard to UPS SCS's Duluth, GA facility's Colorado Out-of-State Wholesaler License # WHO-7462. UPS SCS's Duluth facility did not file Colorado's required notice of change of Designated Representative within Colorado's required 14-day timeframe to file such notice. UPS SCS implemented corrective actions and has successfully completed the terms of the Colorado order. Please note, UPS SCS's Colorado Out-of-State Wholesaler License # WHO-7462 was not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Colorado Case No. 2011-000273 documentation related to the Colorado Order on file with the UPS SCS Regulatory Affairs Department.

*Final*

On November 15, 2011, UPS SCS informed your agency of the Iowa Board of Pharmacy's (IBoP) action concerning Iowa Wholesale Drug License #5820 and which became effective November 11, 2011. This Iowa Stipulation and Consent Order (the "Iowa Order") relates to the Colorado Order and the untimely filing of notice regarding the Colorado Order to the IBoP. UPS SCS has successfully completed the terms of the Iowa Order and Iowa Wholesale Drug License #5820 has not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Iowa Case No. 2010-162 documentation on file with the UPS SCS Regulatory Affairs Department. Note: This Iowa matter is a spin-off of the Colorado matter summarized above. It is based on the same underlying facts that gave rise to the Colorado matter. It is **not** based on an independent set of facts.

*Final*

On October 18, 2013, UPS SCS informed your agency of the Consent Order and Stipulation between the Michigan Board of Pharmacy (BOP) and UPS SCS based on the underlying Colorado matter summarized above, which was executed by the Michigan BOP on October 9, 2013 (the "Michigan Order"). As previously disclosed to you, pursuant to this Consent Order, UPS SCS paid a fine of two thousand five hundred dollars. The Consent Order and Stipulation specifically provided that "no patient safety issues were involved," and the BOP did not impose any other penalty. UPS SCS's Michigan licenses have not been restricted, modified, revoked, or limited in any way. Note: The Michigan Order is directly related to the Colorado matter summarized above. It is based on the same underlying facts that gave rise to the Colorado matter. It is not based on an independent set of facts.

**PHARMACY LICENSE**

**Matters Related to Kentucky Agreed Orders**
**1860 Outer Loop Road, Louisville, KY**

*Final*

UPS SCS dispenses medical devices, including diabetes-related pumps, to consumers from its Kentucky licensed pharmacy facility. Not all states recognize the Durable Medical Equipment or Home Medical Equipment provider category for entities that dispense medical devices rather than drugs. Those states that do not recognize these categories require a non-resident or out of state pharmacy permit for dispensing medical devices. Accordingly, UPS SCS obtained a home-state pharmacy permit in Kentucky and numerous non-resident pharmacy permits and DME/HME permits in other states. On September 12, 2012, the Kentucky Board of Pharmacy ("KYBoP") and UPS SCS executed final Agreed Orders relating to minor violations under Kentucky Administrative Regulations 2:270 and Kentucky Revised Statutes Sec. 315.121(6) in connection with late filing of pharmacy technician registrations at UPS SCS's Louisville, Kentucky facility (the "Kentucky Orders"). UPS SCS and the KYBoP agreed to address the Kentucky Orders informally by entering in the aforementioned Agreed Orders in lieu of the KYBoP filing a formal complaint. UPS SCS self-reported this action to your agency on September 18, 2012. UPS SCS takes this and all regulatory matters seriously and has implemented corrective action. Moreover, UPS SCS has instituted internal safeguards to ensure that applicable regulatory compliance is maintained in the future. UPS SCS's Kentucky pharmacy license (Kentucky Pharmacy License #P07277) remains current and in good standing and was not and has not been restricted, modified, revoked, or limited in any way.

*Final*

On May 14, 2013, UPS SCS informed your agency of the Texas Board of Pharmacy's (TXBoP) action concerning UPS SCS Texas Class E Nonresident Pharmacy License #26160 and which became effective May 7, 2013. As already disclosed to you, on May 14, 2013, the Texas Board of Pharmacy (TXBoP) and UPS SCS executed a final Agreed Board Order (the "Texas Order") relating to the above-mentioned Kentucky Pharmacy License Agreed Orders. Pursuant to the Texas Agreed Board Order, the TXBoP reprimanded UPS SCS's Nonresident Pharmacy License. The Texas Board of Pharmacy did not levy a fine or any other penalty on the License. The License was not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Texas Agreed Board Order # L-13-004 on file with the UPS SCS Regulatory Affairs Department. Note: The Texas Order is directly related to the Kentucky pharmacy license matter summarized above. It is based on the same underlying facts that gave rise to the Kentucky matter. It is **not** based on an independent set of facts.

*Final*

On April 22, 2014, UPS SCS informed your agency of the Consent Order and Stipulation between the Michigan Board of Pharmacy (BOP) and UPS SCS based on the Kentucky Order summarized above, which was adopted by the Michigan BOP on April 9, 2014 (the "Michigan Order"). As previously disclosed to you, pursuant to this Consent Order, UPS SCS paid a fine of two hundred fifty dollars. The Consent Order and Stipulation specifically provided that "no patient safety issues were involved," and the BOP did not impose any other penalty. UPS SCS's Michigan licenses have not been restricted, modified, revoked, or limited in any way. Note: The Michigan Order is directly related to the Kentucky matter summarized above. It is based on the same underlying facts that gave rise to the Kentucky matter. It is not based on an independent set of facts.
