The descriptive narrative of the traffic accident written by Youjin Seo Traffic case #105310739

My sister in law asked me if I could pick her up in Park City, UT. I never drove by myself to Park City before and wasn't familiar with the road so I asked my friend to drive with me. When I got to my friend's place (Willow Cove apartment), the parking stall was pretty tight. I tried to adjust several times to park and I felt that my car bumper hit a tire of the pickup truck which was parked in the next stall.

After I checked the condition of the tire and my car bumper, I went up to my friend's house while running my car to ask her opinion on what to do. She said she knows where the truck owner lives and she will explain to him in person since the damages are barely noticeable. I didn't have much experience and never been involved in any type of car accident before. I was vulnerable to take my friend's advice. When we got out of her apartment, she mentioned that I'm not allowed to park my car in the residential parking area so I moved my car to the public parking area which was the closest available one from the pickup truck. While leaving my car there,I requested my friend to drive her car instead.

After we got back from Park City, the note from the truck owner was left on my car windshield. The note was saying that I need to contact him right away. When I called him back, he said that he wanted to give me a lesson about not leaving contact information after the accident and he said that he already called the police.

After I explained what was going on, he said that he wanted to help me cancel the police report. So we called back to the police station but the officer said that it's impossible to cancel the report once the report was accepted by the police station. I got a fine and my license had been on probation for 6 months. Based on my clean driving history, my case was dismissed.

Challenges Polaris Faced in Minnesota

Polaris entered the Minnesota market in November 2018. The company operates only one pharmacy in Minnesota, which is located at 5220 Park Glen Road, St. Louis Park. Polaris' early experience in Minnesota was not without its challenges, but the company has made a good faith effort to address its challenges and is constantly looking to improve.

When Polaris entered the Minnesota market, it was surprised to find a labor market (particularly for pharmacy technicians) that was much tighter than other markets in which Polaris operates and experienced more staff turnover in Minnesota than it is accustomed to in other markets. The Covid-19 pandemic obviously put an incredible amount of stress on every stakeholder in the pharmacy industry, and Polaris was no exception. The pandemic made it even more difficult for Polaris to recruit, hire, and retain talented staff.

Polaris continues to believe it did not engage in central services by having Minnesota-licensed technicians located in Florida perform remote order entry tasks in connection with prescription orders filled in Minnesota. In letters to the Board dated July 19, 2019, Polaris explained why it began using Minnesota-licensed technicians based in Florida to assist Polaris Minnesota with order entry tasks.

In sum, during its initial months of operation, Polaris faced an unanticipated and unacceptable backlog of prescription orders that needed to be filled in Minnesota. The backlog resulted largely from Polaris' inability to recruit and retain enough capable pharmacy technicians in Minnesota during the early months of operation. To address the backlog and ensure the timely delivery of prescriptions to Minnesota patients, Polaris initially had Minnesota-licensed technicians based in Florida perform order entry services on behalf of Polaris Minnesota. These technicians were experienced technicians who were licensed in Minnesota before they performed order entry work for Polaris Minnesota. Further, while performing remote order entry work from a Polaris Florida location, these technicians were connected virtually to Polaris Minnesota's physical workspace through Polaris' FrameworkLTC software platform, which is commonly used across the long-term care pharmacy industry. At all times, the work of these technicians was overseen by a licensed pharmacist at the Florida pharmacy (where the data was entered into FrameworkLTC), as well as a Minnesota-licensed pharmacist in the Minnesota pharmacy, who ultimately controlled and was responsible for the technicians' work and any prescriptions filled in connection with data they entered into the system. Additionally, until May 2019, Polaris had IND Consulting and its "Team X" do some remote order entry work for Polaris Minnesota. Aside from the order entry function, Polaris Minnesota's prescription processing and filling functions have always taken place entirely in the Minnesota pharmacy. Polaris has at times relied on similar remote order entry processes in other states without triggering central service pharmacy requirements.

Accordingly, when Polaris started using this process to help deal with the Minnesota backlog, it did not anticipate that it might be triggering central services pharmacy requirements. For this reason, Polaris initially did not submit or seek approval from the Board for a central prescription drug processing policy or procedure. In March 2019, after Board staff expressed a

view that Polaris' use of Minnesota-licensed technicians based in Florida to perform remote entry work constituted an unauthorized central service arrangement, Polaris took immediate steps to address the issue. Polaris initially flew Minnesota-licensed technicians from Florida to Minnesota, so they could be physically present in the Polaris Minnesota pharmacy while performing the same order entry functions they had been performing in Florida.

Finally, Polaris sought Board approval of several remote order entry variances, with the goal of being authorized to resume using Minnesota-licensed technicians based in Florida to perform remote order entry for Polaris Minnesota, and particularly to deal with emergencies or backlogs. When Board staff initially raised this issue in March 2019, Polaris did not believe it could immediately shift all order entry functions to its limited staff in Minnesota without compromising patient safety and welfare. At the time, Polaris was still working through the backlog, onboarding new care facilities, and working hard to locate, hire, train, and retain technicians and other staff in Minnesota in a challenging labor market. Under the circumstances, Polaris determined it was necessary to continue using Minnesota licensed, Florida-based technicians for a period of time in order to deal with the backlog and continue filling prescriptions in a timely manner for patients who needed them, while simultaneously building up its Minnesota workforce and making the changes necessary to meet the expectations of Board staff. As soon as Polaris was staffed and equipped to perform all order entry functions in Minnesota, it stopped utilizing technicians who were not physically located in Minnesota altogether. Accordingly, from June 2019 to the present, Polaris has only used Minnesota-licensed technicians physically located in the Polaris Minnesota pharmacy to perform order entry work on prescription orders filled in Minnesota. Polaris took concerns raised by Board staff over remote order entry issues seriously, and it believes it acted reasonably under the circumstances to address those concerns, while also maintaining high levels of patient care.

Polaris remained committed to working cooperatively with the Board to better understand what it must do in order to utilize remote order entry processes in the future. Polaris would always attempt to rely on technicians physically located in its Minnesota pharmacy to perform data entry and other prescription filling functions. The Board acknowledged granting variance requests to many pharmacy chains and health-systems that authorize the use of remote order entry processes. In March 2020, the Board also issued Covid-19 related guidance acknowledging that pharmacists and technicians could perform various prescription drug filling functions while working remotely—including data entry of prescriptions and orders; verifying prescriptions; certifying data entry and the finished prescriptions (i.e., the product check); conducting profile and prospective drug utilization reviews; and stage-checking for compounding—so long as affiliated pharmacies were using adequate computer software and hardware for the tasks being performed. While the Board's Covid-19 guidance evolved after Governor Walz's Peacetime Emergency declaration was rescinded, Polaris continues to believe remote order entry processes like those implemented during the first few months of Polaris' operations in Minnesota were safe, effective, and should have a place in the delivery of modern pharmacy services.

The Board approved the central services variance #265679-010 on July 13, 2022 between Polaris Pharmacy Services of Minnesota, LLC and both the Polaris Pharmacies located in Tampa and Ft. Lauderdale Florida for urgent or emergent needs.

BEFORE THE MINNESOTA

BOARD OF PHARMACY

In the Matter of Polaris Pharmacy Services of Minnesota, LLC License No. 265679	**STIPULATION AND CONSENT ORDER**

STIPULATION

Polaris Pharmacy Services of Minnesota, LLC ("Licensee") and the Minnesota Board of Pharmacy Committee on Professional Standards ("Committee") agree the above-referenced matter may be resolved without trial of any issue or fact as follows:

I.

JURISDICTION

1. The Minnesota Board of Pharmacy ("Board") is authorized pursuant to Minnesota Statutes chapter 151 to license and regulate pharmacies and to take disciplinary action as appropriate.

2. Licensee holds a pharmacy license from the Board and is subject to the jurisdiction of the Board with respect to the matters referred to in this Stipulation and Consent Order.

II.

CONFERENCE

3. On August 18, 2021, Licensee met with the Committee to discuss the allegations described in a Notice of Conference. Board members Kendra Metz and Stuart Williams comprised the Committee. The Board's Executive Director, Cody Wiberg; Deputy Director, Jennell Bilek; and staff attorney, Brian Park, were also present. Alex Mountain, Assistant Attorney General, represented the Committee. Brian A. Dillon, of Lathrop GPM LLP, represented licensee and was

accompanied by Licensee's Pharmacist-in-Charge, Neil Uitto; Polaris' Chief Operating Officer, Steven Baker; and Polaris' Executive Vice President of Operations, Todd Zisek.

III.

FACTS

4. On or about November 1, 2018, the Board licensed Licensee as a pharmacy in Minnesota.

5. Licensee is a closed door, long-term care ("LTC") pharmacy that prepares sterile and non-sterile compounded drug products for dispensing.

6. Licensee has two affiliated pharmacy locations in Florida, both licensed by the Board as follows:

a. On or about July 8, 2016, the Board issued Polaris Rx, located in Fort Lauderdale, Florida ("Pharmacy 1"), non-resident pharmacy license #265101.

b. On or about December 5, 2018, the Board issued Polaris Pharmacy Services of Tampa, located in Tampa, Florida ("Pharmacy 2"), non-resident pharmacy license #265721.

7. On or about March 19, 2019, two Board Surveyors visited Licensee for the purpose of completing a routine inspection, met with the pharmacist-in-charge, and identified the following:

a. Seven pharmacy technicians registered by the Board and employed by Pharmacy 1 and Pharmacy 2, were living in Florida but listed their current physical address as Licensee's address in Minnesota.

b. During the inspection, the Board Surveyors cited Licensee for engaging in central services with Pharmacy 1 and Pharmacy 2, by allowing pharmacy technicians working in Florida to remotely perform data entry of prescription drug information for Minnesota patients into

Licensee's Frameworks LTC prescription processing and dispensing software system ("FW-LTC"), followed by verification of the data entry by Licensee's pharmacist staff members working in Minnesota ("Central Service").

c. Prior to beginning Central Service, Licensee failed to submit a copy of its policy and procedure manual and failed to obtain Board approval to participate in a Central Service arrangement with Pharmacy 1 and Pharmacy 2.

d. Licensee disputes that it was operating a "central services arrangement" as it understands that term to be commonly used within the industry. Licensee maintains that its use of remote order entry processes was necessary under the circumstances, due to a backlog of prescription orders that had accumulated due in large part to Licensee's inability to recruit and retain sufficient staff in Minnesota during its early months of operating in the State. Nonetheless, for purposes of this stipulation, Licensee acknowledges and understands the March 2019 citation.

e. Licensee's nonsterile compounding records failed to include an assigned beyond use date ("BUD") for the final compounded drug product, or included a BUD exceeding those recommended within United States Pharmacopeia, General Chapter 795 for Pharmaceutical Compounding - Nonsterile Preparations ("USP 795"), without documentation of a reference for literature or a stability study applicable to the specific drug product allowing for extension of the BUD. Licensee avers that it responded to these findings by providing education to its staff to ensure compounded components included lot numbers, expiration dates, and BUDs, along with noting the supporting reference sources. Licensee states that it is not aware of any other issues regarding its compliance with BUD requirements since 2019.

8. On or about March 20, 2019, the Board received a complaint alleging that Licensee was utilizing pharmacy technicians from outside of Minnesota to enter prescription data. On or about April 9, 2019, a Board Surveyor reminded Licensee, after expanding its operations to 24-

hours, that pharmacy technicians working outside of its Minnesota location could not be used to help with covering the additional hours that the pharmacy is open, due to the lack of Board approved policies for Central Services with Pharmacy 1 and Pharmacy 2. As noted above, Licensee disputes that it was operating a "central services arrangement" as it understands that term to be commonly used within the industry. Licensee maintains that its use of remote order entry processes was necessary under the circumstances, due to a backlog of prescription orders that had accumulated due in large part to Licensee's inability to recruit and retain sufficient staff in Minnesota during its early months of operating in the State. Nonetheless, for purposes of this stipulation, Licensee acknowledges and understands the Board's concern regarding the use of out-of-state technicians to enter prescription data.

9. On June 11, 2019, two Board Surveyors visited Licensee for the purpose of an investigation, met with representatives of the Licensee, and identified the following:

a. The pharmacist-in-charge stated that, as far as she was aware, Pharmacy 1 and Pharmacy 2, both located in Florida, were the only two locations providing Central Services for Licensee.

b. Licensee utilized a company named IND Consulting ("IND") for emergency kit ("E-kit") billing and entry of patient information when pharmacy services are initiated in a new LTC facility. IND's website states its staff are able to provide services including, but not limited to, billing services, medical record entry, and data entry solutions, with guaranteed staffing in fully operational data centers that are open 24 hours a day and 365 days a year, located within or outside of the United States across the globe in Mexico, India, the Philippines, and Florida. During the conference with the Committee, Licensee admitted that IND consulting had been used to enter prescription data for prescription drug orders ultimately dispensed by its

Minnesota pharmacy. Licensee cannot definitively state where individuals affiliated with IND were licensed or physically located when entering such data.

c. At the end of the visit, the Board Surveyor's provided an Investigative Report requesting additional information and reminding Licensee again that it cannot engage in Central Services without Board approval.

10. On February 12, 2020, two Board Surveyors visited Licensee for the purposes of an investigation, met with representatives of Licensee, and identified the following:

a. After arriving at 4:36 a.m., one of the Board Surveyors observed two of Licensee's pharmacy technicians were allowed badge access to the pharmacy entrance prior to the arrival of RPh 3 at around 5:55 a.m. One technician was found to be working in the sterile compounding area and another was logged into Licensee's computer. A representative of Licensee later stated that three pharmacy technicians had been given keys and passcodes to access Licensee's pharmacy. During its conference with the Committee, Licensee admitted that this allegation is true, but stated that senior management took corrective action upon learning of the situation, including immediately revoking the access code of all non-pharmacists and physically rekeying all doors within the pharmacy. Licensees avers that periodic security assessments confirm that no unauthorized persons have had access to the pharmacy since February 2020.

b. Six pharmacy technicians, including the IV pharmacy technician, were present in the "filling area" with only one pharmacist, who was the second pharmacist to arrive. Another pharmacist was in an "order entry" area, a distinctly different area separated by a wall and door. The Board Surveyors were told that additional pharmacy technicians were scheduled that morning to perform non-technician "staging or stocking" duties. However, the Board Surveyors observed that the additional pharmacy technicians that were supposedly scheduled to perform non-technician duties, were filling orders in the "filling area" to be checked by the one pharmacist.

Licensee avers that is does not have sufficient information to admit or deny the Board surveyors' observations, but that company policy requires compliance with required technician-to-pharmacist ratios.

IV.

LAWS

11. Licensee acknowledges the conduct described in section III above constitutes a violation of Minn. Stat. § 151.071, subd. 2(7), and warrants the disciplinary action described below.

V.

DISCIPLINARY ACTION

The parties agree the Board may take the following disciplinary action and require compliance with the following terms:

12. The Board **REPRIMANDS** Licensee and imposes a **CIVIL PENALTY** in the amount of $50,000 for the conduct described in section III above. The civil penalty shall be paid by cashier's check or money order made payable to the Minnesota Board of Pharmacy, c/o Cody Wiberg, Executive Director, 2829 University Avenue S.E., Suite 530, Minneapolis, Minnesota 55414, within 60 days of the date of entry of this Order.

13. The Board places the following **CONDITION** on Licensee's License: every six months, for a period of three years, Licensee's CEO must certify to the Board's Executive Director that Licensee's licensed pharmacies that provide services to Minnesota residents are in full compliance with all applicable Minnesota statutes and rules.

VI.

CONSEQUENCES FOR NONCOMPLIANCE OR ADDITIONAL VIOLATIONS

14. If Licensee fails to comply with or violates this Stipulation and Consent Order, the Committee may, in its discretion, seek additional discipline either by initiating a contested case proceeding pursuant to Minnesota Statutes chapter 14 or by bringing the matter directly to the Board pursuant to the following procedure:

a. The Committee shall schedule a hearing before the Board. At least 20 days before the hearing, the Committee must mail Licensee a notice of the violation(s) alleged by the Committee. In addition, the notice must designate the time and place of the hearing. Within ten days after the notice is mailed, Licensee shall submit a written response to the allegations. If Licensee does not submit a timely response to the Board, the allegations may be deemed admitted.

b. The Committee, in its discretion, may schedule a conference with Licensee prior to the hearing before the Board to discuss the allegations and to attempt to resolve the allegations through agreement.

c. Prior to the hearing before the Board, the Committee and Licensee may submit affidavits and written argument in support of their positions. At the hearing, the Committee and Licensee may present oral argument. Argument may not refer to matters outside the record. The evidentiary record must be limited to the affidavits submitted prior to the hearing and this Stipulation and Consent Order. The Committee will have the burden of proving by a preponderance of the evidence that a violation has occurred. If Licensee has failed to submit a timely response to the allegations, Licensee may not contest the allegations, but may present argument concerning the appropriateness of additional discipline. Pursuant to this process, Licensee waives a hearing before an administrative law judge, discovery, cross-examination of

adverse witnesses, and other procedures governing hearings pursuant to Minnesota Statutes chapter 14.

d. Licensee's correction of a violation before the conference, hearing, or meeting of the Board may be taken into account by the Board but does not limit the Board's authority to impose discipline for the violation. A decision by the Committee not to seek discipline when it first learns of a violation does not waive the Committee's right to later seek discipline for that violation, either alone or in combination with other violations, at any time while Licensee's license is in a suspended status.

e. Following the hearing, the Board will deliberate confidentially. If the allegations are not proved, the Board must dismiss the allegations. If a violation is proved, the Board may impose additional discipline, including conditions or limitations on Licensee's license, a period of suspension, conditions of reinstatement, or revocation of Licensee's license.

f. Nothing herein limits the Committee's or the Board's right to temporarily suspend Licensee's license as provided in Minnesota Statutes chapters 151 and 214, based on a violation of this Stipulation and Consent Order or based on conduct of Licensee not specifically referred to herein.

VII. ADDITIONAL INFORMATION

15. Licensee waives the contested case hearing and all other procedures before the Board to which Licensee may be entitled under the Minnesota and United States constitutions, statutes, or rules.

16. Licensee waives any claims against the Board, the Minnesota Attorney General, the State of Minnesota, and their agents, employees, and representatives related to the

investigation of the conduct herein, or the negotiation or execution of this Stipulation and Consent Order, which may otherwise be available to Licensee.

17. This Stipulation and Consent Order, the files, records, and proceedings associated with this matter shall constitute the entire record and may be reviewed by the Board in its consideration of this matter.

18. Either party may seek enforcement of this Stipulation and Consent Order in any appropriate civil court.

19. Licensee has read, understands, and agrees to this Stipulation and Consent Order and has voluntarily signed the Stipulation and Consent Order. Licensee is aware this Stipulation and Consent Order must be approved by the Board before it goes into effect. The Board may either approve the Stipulation and Consent Order as proposed, approve it subject to specified change, or reject it. If the changes are acceptable to Licensee, the Stipulation and Consent Order will take effect and the order as modified will be issued. If the changes are unacceptable to Licensee or the Board rejects the Stipulation and Consent Order, it will be of no effect except as specified in the following paragraph.

20. Licensee agrees that if the Board rejects this Stipulation and Consent Order or a lesser remedy than indicated in this settlement, and this case comes again before the Board, Licensee will assert no claim that the Board was prejudiced by its review and discussion of this Stipulation and Consent Order or of any records relating to it. If the Board rejects this Stipulation and Consent Order, the parties agree that this Stipulation and Consent Order will not be admissible in any proceedings.

21. This Stipulation and Consent Order does not limit the Board's authority to proceed against Licensee by initiating a contested case hearing or by other appropriate means on the basis

of any act, conduct, or admission of Licensee which constitutes grounds for disciplinary action, and which is not directly related to the specific facts and circumstances set forth in this document.

VIII.

DATA PRACTICES NOTICES

22. This Stipulation and Consent Order constitutes disciplinary action by the Board and is classified as public data pursuant to Minnesota Statutes section 13.41, subdivision 5. Data regarding this action will be provided to data banks as required by Federal law or consistent with Board policy. While this Stipulation and Consent Order is in effect, information obtained by the Board pursuant to this Order is considered active investigative data on a licensed health professional, and as such, is classified as confidential data pursuant to Minnesota Statutes section 13.41, subdivision 4.

23. This Stipulation contains the entire agreement between the parties, there being no other agreement of any kind, verbal or otherwise, which varies this Stipulation.

Challenges Polaris Faced in Minnesota

Polaris entered the Minnesota market in November 2018. The company operates only one pharmacy in Minnesota, which is located at 5220 Park Glen Road, St. Louis Park. Polaris' early experience in Minnesota was not without its challenges, but the company has made a good faith effort to address its challenges and is constantly looking to improve.

When Polaris entered the Minnesota market, it was surprised to find a labor market (particularly for pharmacy technicians) that was much tighter than other markets in which Polaris operates and experienced more staff turnover in Minnesota than it is accustomed to in other markets. The Covid-19 pandemic obviously put an incredible amount of stress on every stakeholder in the pharmacy industry, and Polaris was no exception. The pandemic made it even more difficult for Polaris to recruit, hire, and retain talented staff.

Polaris continues to believe it did not engage in central services by having Minnesota-licensed technicians located in Florida perform remote order entry tasks in connection with prescription orders filled in Minnesota. In letters to the Board dated July 19, 2019, Polaris explained why it began using Minnesota-licensed technicians based in Florida to assist Polaris Minnesota with order entry tasks.

In sum, during its initial months of operation, Polaris faced an unanticipated and unacceptable backlog of prescription orders that needed to be filled in Minnesota. The backlog resulted largely from Polaris' inability to recruit and retain enough capable pharmacy technicians in Minnesota during the early months of operation. To address the backlog and ensure the timely delivery of prescriptions to Minnesota patients, Polaris initially had Minnesota-licensed technicians based in Florida perform order entry services on behalf of Polaris Minnesota. These technicians were experienced technicians who were licensed in Minnesota before they performed order entry work for Polaris Minnesota. Further, while performing remote order entry work from a Polaris Florida location, these technicians were connected virtually to Polaris Minnesota's physical workspace through Polaris' FrameworkLTC software platform, which is commonly used across the long-term care pharmacy industry. At all times, the work of these technicians was overseen by a licensed pharmacist at the Florida pharmacy (where the data was entered into FrameworkLTC), as well as a Minnesota-licensed pharmacist in the Minnesota pharmacy, who ultimately controlled and was responsible for the technicians' work and any prescriptions filled in connection with data they entered into the system. Additionally, until May 2019, Polaris had IND Consulting and its "Team X" do some remote order entry work for Polaris Minnesota. Aside from the order entry function, Polaris Minnesota's prescription processing and filling functions have always taken place entirely in the Minnesota pharmacy. Polaris has at times relied on similar remote order entry processes in other states without triggering central service pharmacy requirements.

Accordingly, when Polaris started using this process to help deal with the Minnesota backlog, it did not anticipate that it might be triggering central services pharmacy requirements. For this reason, Polaris initially did not submit or seek approval from the Board for a central prescription drug processing policy or procedure. In March 2019, after Board staff expressed a

view that Polaris' use of Minnesota-licensed technicians based in Florida to perform remote entry work constituted an unauthorized central service arrangement, Polaris took immediate steps to address the issue. Polaris initially flew Minnesota-licensed technicians from Florida to Minnesota, so they could be physically present in the Polaris Minnesota pharmacy while performing the same order entry functions they had been performing in Florida.

Finally, Polaris sought Board approval of several remote order entry variances, with the goal of being authorized to resume using Minnesota-licensed technicians based in Florida to perform remote order entry for Polaris Minnesota, and particularly to deal with emergencies or backlogs. When Board staff initially raised this issue in March 2019, Polaris did not believe it could immediately shift all order entry functions to its limited staff in Minnesota without compromising patient safety and welfare. At the time, Polaris was still working through the backlog, onboarding new care facilities, and working hard to locate, hire, train, and retain technicians and other staff in Minnesota in a challenging labor market. Under the circumstances, Polaris determined it was necessary to continue using Minnesota licensed, Florida-based technicians for a period of time in order to deal with the backlog and continue filling prescriptions in a timely manner for patients who needed them, while simultaneously building up its Minnesota workforce and making the changes necessary to meet the expectations of Board staff. As soon as Polaris was staffed and equipped to perform all order entry functions in Minnesota, it stopped utilizing technicians who were not physically located in Minnesota altogether. Accordingly, from June 2019 to the present, Polaris has only used Minnesota-licensed technicians physically located in the Polaris Minnesota pharmacy to perform order entry work on prescription orders filled in Minnesota. Polaris took concerns raised by Board staff over remote order entry issues seriously, and it believes it acted reasonably under the circumstances to address those concerns, while also maintaining high levels of patient care.

Polaris remained committed to working cooperatively with the Board to better understand what it must do in order to utilize remote order entry processes in the future. Polaris would always attempt to rely on technicians physically located in its Minnesota pharmacy to perform data entry and other prescription filling functions. The Board acknowledged granting variance requests to many pharmacy chains and health-systems that authorize the use of remote order entry processes. In March 2020, the Board also issued Covid-19 related guidance acknowledging that pharmacists and technicians could perform various prescription drug filling functions while working remotely—including data entry of prescriptions and orders; verifying prescriptions; certifying data entry and the finished prescriptions (i.e., the product check); conducting profile and prospective drug utilization reviews; and stage-checking for compounding—so long as affiliated pharmacies were using adequate computer software and hardware for the tasks being performed. While the Board's Covid-19 guidance evolved after Governor Walz's Peacetime Emergency declaration was rescinded, Polaris continues to believe remote order entry processes like those implemented during the first few months of Polaris' operations in Minnesota were safe, effective, and should have a place in the delivery of modern pharmacy services.

The Board approved the central services variance #265679-010 on July 13, 2022 between Polaris Pharmacy Services of Minnesota, LLC and both the Polaris Pharmacies located in Tampa and Ft. Lauderdale Florida for urgent or emergent needs.

JURISDICTION

1. The Minnesota Board of Pharmacy ("Board") is authorized pursuant to Minnesota Statutes chapter 151 to license and regulate pharmacies and to take disciplinary action as appropriate.

2. Licensee holds a pharmacy license from the Board and is subject to the jurisdiction of the Board with respect to the matters referred to in this Stipulation and Consent Order.

II.

CONFERENCE

3. On August 18, 2021, Licensee met with the Committee to discuss the allegations described in a Notice of Conference. Board members Kendra Metz and Stuart Williams comprised the Committee. The Board's Executive Director, Cody Wiberg; Deputy Director, Jennell Bilek; and staff attorney, Brian Park, were also present. Alex Mountain, Assistant Attorney General, represented the Committee. Brian A. Dillon, of Lathrop GPM LLP, represented licensee and was

accompanied by Licensee's Pharmacist-in-Charge, Neil Uitto; Polaris' Chief Operating Officer, Steven Baker; and Polaris' Executive Vice President of Operations, Todd Zisek.

III.

FACTS

4. On or about November 1, 2018, the Board licensed Licensee as a pharmacy in Minnesota.

5. Licensee is a closed door, long-term care ("LTC") pharmacy that prepares sterile and non-sterile compounded drug products for dispensing.

6. Licensee has two affiliated pharmacy locations in Florida, both licensed by the Board as follows:

a. On or about July 8, 2016, the Board issued Polaris Rx, located in Fort Lauderdale, Florida ("Pharmacy 1"), non-resident pharmacy license #265101.

b. On or about December 5, 2018, the Board issued Polaris Pharmacy Services of Tampa, located in Tampa, Florida ("Pharmacy 2"), non-resident pharmacy license #265721.

7. On or about March 19, 2019, two Board Surveyors visited Licensee for the purpose of completing a routine inspection, met with the pharmacist-in-charge, and identified the following:

a. Seven pharmacy technicians registered by the Board and employed by Pharmacy 1 and Pharmacy 2, were living in Florida but listed their current physical address as Licensee's address in Minnesota.

b. During the inspection, the Board Surveyors cited Licensee for engaging in central services with Pharmacy 1 and Pharmacy 2, by allowing pharmacy technicians working in Florida to remotely perform data entry of prescription drug information for Minnesota patients into

Licensee's Frameworks LTC prescription processing and dispensing software system ("FW-LTC"), followed by verification of the data entry by Licensee's pharmacist staff members working in Minnesota ("Central Service").

c. Prior to beginning Central Service, Licensee failed to submit a copy of its policy and procedure manual and failed to obtain Board approval to participate in a Central Service arrangement with Pharmacy 1 and Pharmacy 2.

d. Licensee disputes that it was operating a "central services arrangement" as it understands that term to be commonly used within the industry. Licensee maintains that its use of remote order entry processes was necessary under the circumstances, due to a backlog of prescription orders that had accumulated due in large part to Licensee's inability to recruit and retain sufficient staff in Minnesota during its early months of operating in the State. Nonetheless, for purposes of this stipulation, Licensee acknowledges and understands the March 2019 citation.

e. Licensee's nonsterile compounding records failed to include an assigned beyond use date ("BUD") for the final compounded drug product, or included a BUD exceeding those recommended within United States Pharmacopeia, General Chapter 795 for Pharmaceutical Compounding - Nonsterile Preparations ("USP 795"), without documentation of a reference for literature or a stability study applicable to the specific drug product allowing for extension of the BUD. Licensee avers that it responded to these findings by providing education to its staff to ensure compounded components included lot numbers, expiration dates, and BUDs, along with noting the supporting reference sources. Licensee states that it Is not aware of any other issues regarding its compliance with BUD requirements since 2019.

8. On or about March 20, 2019, the Board received a complaint alleging that Licensee was utilizing pharmacy technicians from outside of Minnesota to enter prescription data. On or about April 9, 2019, a Board Surveyor reminded Licensee, after expanding its operations to 24-

hours, that pharmacy technicians working outside of its Minnesota location could not be used to help with covering the additional hours that the pharmacy is open, due to the lack of Board approved policies for Central Services with Pharmacy 1 and Pharmacy 2. As noted above, Licensee disputes that it was operating a "central services arrangement" as it understands that term to be commonly used within the industry. Licensee maintains that its use of remote order entry processes was necessary under the circumstances, due to a backlog of prescription orders that had accumulated due in large part to Licensee's inability to recruit and retain sufficient staff in Minnesota during its early months of operating in the State. Nonetheless, for purposes of this stipulation, Licensee acknowledges and understands the Board's concern regarding the use of out-of-state technicians to enter prescription data.

9. On June 11, 2019, two Board Surveyors visited Licensee for the purpose of an investigation, met with representatives of the Licensee, and identified the following:

a. The pharmacist-in-charge stated that, as far as she was aware, Pharmacy 1 and Pharmacy 2, both located in Florida, were the only two locations providing Central Services for Licensee.

b. Licensee utilized a company named IND Consulting ("IND") for emergency kit ("E-kit") billing and entry of patient information when pharmacy services are initiated in a new LTC facility. IND's website states its staff are able to provide services including, but not limited to, billing services, medical record entry, and data entry solutions, with guaranteed staffing in fully operational data centers that are open 24 hours a day and 365 days a year, located within or outside of the United States across the globe in Mexico, India, the Philippines, and Florida. During the conference with the Committee, Licensee admitted that IND consulting had been used to enter prescription data for prescription drug orders ultimately dispensed by its

Minnesota pharmacy. Licensee cannot definitively state where individuals affiliated with IND were licensed or physically located when entering such data.

c. At the end of the visit, the Board Surveyor's provided an Investigative Report requesting additional information and reminding Licensee again that it cannot engage in Central Services without Board approval.

10. On February 12, 2020, two Board Surveyors visited Licensee for the purposes of an investigation, met with representatives of Licensee, and identified the following:

a. After arriving at 4:36 a.m., one of the Board Surveyors observed two of Licensee's pharmacy technicians were allowed badge access to the pharmacy entrance prior to the arrival of RPh 3 at around 5:55 a.m. One technician was found to be working in the sterile compounding area and another was logged into Licensee's computer. A representative of Licensee later stated that three pharmacy technicians had been given keys and passcodes to access Licensee's pharmacy. During its conference with the Committee, Licensee admitted that this allegation is true, but stated that senior management took corrective action upon learning of the situation, including immediately revoking the access code of all non-pharmacists and physically rekeying all doors within the pharmacy. Licensees avers that periodic security assessments confirm that no unauthorized persons have had access to the pharmacy since February 2020.

b. Six pharmacy technicians, including the IV pharmacy technician, were present in the "filling area" with only one pharmacist, who was the second pharmacist to arrive. Another pharmacist was in an "order entry" area, a distinctly different area separated by a wall and door. The Board Surveyors were told that additional pharmacy technicians were scheduled that morning to perform non-technician "staging or stocking" duties. However, the Board Surveyors observed that the additional pharmacy technicians that were supposedly scheduled to perform non-technician duties, were filling orders in the "filling area" to be checked by the one pharmacist.

Licensee avers that is does not have sufficient information to admit or deny the Board surveyors' observations, but that company policy requires compliance with required technician-to-pharmacist ratios.

IV.

LAWS

11. Licensee acknowledges the conduct described in section III above constitutes a violation of Minn. Stat. § 151.071, subd. 2(7), and warrants the disciplinary action described below.

V.

DISCIPLINARY ACTION

The parties agree the Board may take the following disciplinary action and require compliance with the following terms:

12. The Board **REPRIMANDS** Licensee and imposes a **CIVIL PENALTY** in the amount of $50,000 for the conduct described in section III above. The civil penalty shall be paid by cashier's check or money order made payable to the Minnesota Board of Pharmacy, c/o Cody Wiberg, Executive Director, 2829 University Avenue S.E., Suite 530, Minneapolis, Minnesota 55414, within 60 days of the date of entry of this Order.

13. The Board places the following **CONDITION** on Licensee's License: every six months, for a period of three years, Licensee's CEO must certify to the Board's Executive Director that Licensee's licensed pharmacies that provide services to Minnesota residents are in full compliance with all applicable Minnesota statutes and rules.

VI.

CONSEQUENCES FOR NONCOMPLIANCE OR ADDITIONAL VIOLATIONS

14. If Licensee fails to comply with or violates this Stipulation and Consent Order, the Committee may, in its discretion, seek additional discipline either by initiating a contested case proceeding pursuant to Minnesota Statutes chapter 14 or by bringing the matter directly to the Board pursuant to the following procedure:

a. The Committee shall schedule a hearing before the Board. At least 20 days before the hearing, the Committee must mail Licensee a notice of the violation(s) alleged by the Committee. In addition, the notice must designate the time and place of the hearing. Within ten days after the notice is mailed, Licensee shall submit a written response to the allegations. If Licensee does not submit a timely response to the Board, the allegations may be deemed admitted.

b. The Committee, in its discretion, may schedule a conference with Licensee prior to the hearing before the Board to discuss the allegations and to attempt to resolve the allegations through agreement.

c. Prior to the hearing before the Board, the Committee and Licensee may submit affidavits and written argument in support of their positions. At the hearing, the Committee and Licensee may present oral argument. Argument may not refer to matters outside the record. The evidentiary record must be limited to the affidavits submitted prior to the hearing and this Stipulation and Consent Order. The Committee will have the burden of proving by a preponderance of the evidence that a violation has occurred. If Licensee has failed to submit a timely response to the allegations, Licensee may not contest the allegations, but may present argument concerning the appropriateness of additional discipline. Pursuant to this process, Licensee waives a hearing before an administrative law judge, discovery, cross-examination of

adverse witnesses, and other procedures governing hearings pursuant to Minnesota Statutes chapter 14.

d. Licensee's correction of a violation before the conference, hearing, or meeting of the Board may be taken into account by the Board but does not limit the Board's authority to impose discipline for the violation. A decision by the Committee not to seek discipline when it first learns of a violation does not waive the Committee's right to later seek discipline for that violation, either alone or in combination with other violations, at any time while Licensee's license is in a suspended status.

e. Following the hearing, the Board will deliberate confidentially. If the allegations are not proved, the Board must dismiss the allegations. If a violation is proved, the Board may impose additional discipline, including conditions or limitations on Licensee's license, a period of suspension, conditions of reinstatement, or revocation of Licensee's license.

f. Nothing herein limits the Committee's or the Board's right to temporarily suspend Licensee's license as provided in Minnesota Statutes chapters 151 and 214, based on a violation of this Stipulation and Consent Order or based on conduct of Licensee not specifically referred to herein.

VII. ADDITIONAL INFORMATION

15. Licensee waives the contested case hearing and all other procedures before the Board to which Licensee may be entitled under the Minnesota and United States constitutions, statutes, or rules.

16. Licensee waives any claims against the Board, the Minnesota Attorney General, the State of Minnesota, and their agents, employees, and representatives related to the

investigation of the conduct herein, or the negotiation or execution of this Stipulation and Consent Order, which may otherwise be available to Licensee.

17. This Stipulation and Consent Order, the files, records, and proceedings associated with this matter shall constitute the entire record and may be reviewed by the Board in its consideration of this matter.

18. Either party may seek enforcement of this Stipulation and Consent Order in any appropriate civil court.

19. Licensee has read, understands, and agrees to this Stipulation and Consent Order and has voluntarily signed the Stipulation and Consent Order. Licensee is aware this Stipulation and Consent Order must be approved by the Board before it goes into effect. The Board may either approve the Stipulation and Consent Order as proposed, approve it subject to specified change, or reject it. If the changes are acceptable to Licensee, the Stipulation and Consent Order will take effect and the order as modified will be issued. If the changes are unacceptable to Licensee or the Board rejects the Stipulation and Consent Order, it will be of no effect except as specified in the following paragraph.

20. Licensee agrees that if the Board rejects this Stipulation and Consent Order or a lesser remedy than indicated in this settlement, and this case comes again before the Board, Licensee will assert no claim that the Board was prejudiced by its review and discussion of this Stipulation and Consent Order or of any records relating to it. If the Board rejects this Stipulation and Consent Order, the parties agree that this Stipulation and Consent Order will not be admissible in any proceedings.

21. This Stipulation and Consent Order does not limit the Board's authority to proceed against Licensee by initiating a contested case hearing or by other appropriate means on the basis

of any act, conduct, or admission of Licensee which constitutes grounds for disciplinary action, and which is not directly related to the specific facts and circumstances set forth in this document.

VIII.

DATA PRACTICES NOTICES

22. This Stipulation and Consent Order constitutes disciplinary action by the Board and is classified as public data pursuant to Minnesota Statutes section 13.41, subdivision 5. Data regarding this action will be provided to data banks as required by Federal law or consistent with Board policy. While this Stipulation and Consent Order is in effect, information obtained by the Board pursuant to this Order is considered active investigative data on a licensed health professional, and as such, is classified as confidential data pursuant to Minnesota Statutes section 13.41, subdivision 4.

23. This Stipulation contains the entire agreement between the parties, there being no other agreement of any kind, verbal or otherwise, which varies this Stipulation.

Challenges Polaris Faced in Minnesota

Polaris entered the Minnesota market in November 2018. The company operates only one pharmacy in Minnesota, which is located at 5220 Park Glen Road, St. Louis Park. Polaris' early experience in Minnesota was not without its challenges, but the company has made a good faith effort to address its challenges and is constantly looking to improve.

When Polaris entered the Minnesota market, it was surprised to find a labor market (particularly for pharmacy technicians) that was much tighter than other markets in which Polaris operates and experienced more staff turnover in Minnesota than it is accustomed to in other markets. The Covid-19 pandemic obviously put an incredible amount of stress on every stakeholder in the pharmacy industry, and Polaris was no exception. The pandemic made it even more difficult for Polaris to recruit, hire, and retain talented staff.

Polaris continues to believe it did not engage in central services by having Minnesota-licensed technicians located in Florida perform remote order entry tasks in connection with prescription orders filled in Minnesota. In letters to the Board dated July 19, 2019, Polaris explained why it began using Minnesota-licensed technicians based in Florida to assist Polaris Minnesota with order entry tasks.

In sum, during its initial months of operation, Polaris faced an unanticipated and unacceptable backlog of prescription orders that needed to be filled in Minnesota. The backlog resulted largely from Polaris' inability to recruit and retain enough capable pharmacy technicians in Minnesota during the early months of operation. To address the backlog and ensure the timely delivery of prescriptions to Minnesota patients, Polaris initially had Minnesota-licensed technicians based in Florida perform order entry services on behalf of Polaris Minnesota. These technicians were experienced technicians who were licensed in Minnesota before they performed order entry work for Polaris Minnesota. Further, while performing remote order entry work from a Polaris Florida location, these technicians were connected virtually to Polaris Minnesota's physical workspace through Polaris' FrameworkLTC software platform, which is commonly used across the long-term care pharmacy industry. At all times, the work of these technicians was overseen by a licensed pharmacist at the Florida pharmacy (where the data was entered into FrameworkLTC), as well as a Minnesota-licensed pharmacist in the Minnesota pharmacy, who ultimately controlled and was responsible for the technicians' work and any prescriptions filled in connection with data they entered into the system. Additionally, until May 2019, Polaris had IND Consulting and its "Team X" do some remote order entry work for Polaris Minnesota. Aside from the order entry function, Polaris Minnesota's prescription processing and filling functions have always taken place entirely in the Minnesota pharmacy. Polaris has at times relied on similar remote order entry processes in other states without triggering central service pharmacy requirements.

Accordingly, when Polaris started using this process to help deal with the Minnesota backlog, it did not anticipate that it might be triggering central services pharmacy requirements. For this reason, Polaris initially did not submit or seek approval from the Board for a central prescription drug processing policy or procedure. In March 2019, after Board staff expressed a

view that Polaris' use of Minnesota-licensed technicians based in Florida to perform remote entry work constituted an unauthorized central service arrangement, Polaris took immediate steps to address the issue. Polaris initially flew Minnesota-licensed technicians from Florida to Minnesota, so they could be physically present in the Polaris Minnesota pharmacy while performing the same order entry functions they had been performing in Florida.

Finally, Polaris sought Board approval of several remote order entry variances, with the goal of being authorized to resume using Minnesota-licensed technicians based in Florida to perform remote order entry for Polaris Minnesota, and particularly to deal with emergencies or backlogs. When Board staff initially raised this issue in March 2019, Polaris did not believe it could immediately shift all order entry functions to its limited staff in Minnesota without compromising patient safety and welfare. At the time, Polaris was still working through the backlog, onboarding new care facilities, and working hard to locate, hire, train, and retain technicians and other staff in Minnesota in a challenging labor market. Under the circumstances, Polaris determined it was necessary to continue using Minnesota licensed, Florida-based technicians for a period of time in order to deal with the backlog and continue filling prescriptions in a timely manner for patients who needed them, while simultaneously building up its Minnesota workforce and making the changes necessary to meet the expectations of Board staff. As soon as Polaris was staffed and equipped to perform all order entry functions in Minnesota, it stopped utilizing technicians who were not physically located in Minnesota altogether. Accordingly, from June 2019 to the present, Polaris has only used Minnesota-licensed technicians physically located in the Polaris Minnesota pharmacy to perform order entry work on prescription orders filled in Minnesota. Polaris took concerns raised by Board staff over remote order entry issues seriously, and it believes it acted reasonably under the circumstances to address those concerns, while also maintaining high levels of patient care.

Polaris remained committed to working cooperatively with the Board to better understand what it must do in order to utilize remote order entry processes in the future. Polaris would always attempt to rely on technicians physically located in its Minnesota pharmacy to perform data entry and other prescription filling functions. The Board acknowledged granting variance requests to many pharmacy chains and health-systems that authorize the use of remote order entry processes. In March 2020, the Board also issued Covid-19 related guidance acknowledging that pharmacists and technicians could perform various prescription drug filling functions while working remotely—including data entry of prescriptions and orders; verifying prescriptions; certifying data entry and the finished prescriptions (i.e., the product check); conducting profile and prospective drug utilization reviews; and stage-checking for compounding—so long as affiliated pharmacies were using adequate computer software and hardware for the tasks being performed. While the Board's Covid-19 guidance evolved after Governor Walz's Peacetime Emergency declaration was rescinded, Polaris continues to believe remote order entry processes like those implemented during the first few months of Polaris' operations in Minnesota were safe, effective, and should have a place in the delivery of modern pharmacy services.

The Board approved the central services variance #265679-010 on July 13, 2022 between Polaris Pharmacy Services of Minnesota, LLC and both the Polaris Pharmacies located in Tampa and Ft. Lauderdale Florida for urgent or emergent needs.

BEFORE THE MINNESOTA

BOARD OF PHARMACY

In the Matter of
Polaris Pharmacy Services of Minnesota, LLC
License No. 265679

STIPULATION AND CONSENT ORDER

STIPULATION

Polaris Pharmacy Services of Minnesota, LLC ("Licensee") and the Minnesota Board of Pharmacy Committee on Professional Standards ("Committee") agree the above-referenced matter may be resolved without trial of any issue or fact as follows:

I.

JURISDICTION

1. The Minnesota Board of Pharmacy ("Board") is authorized pursuant to Minnesota Statutes chapter 151 to license and regulate pharmacies and to take disciplinary action as appropriate.

2. Licensee holds a pharmacy license from the Board and is subject to the jurisdiction of the Board with respect to the matters referred to in this Stipulation and Consent Order.

II.

CONFERENCE

3. On August 18, 2021, Licensee met with the Committee to discuss the allegations described in a Notice of Conference. Board members Kendra Metz and Stuart Williams comprised the Committee. The Board's Executive Director, Cody Wiberg; Deputy Director, Jennell Bilek; and staff attorney, Brian Park, were also present. Alex Mountain, Assistant Attorney General, represented the Committee. Brian A. Dillon, of Lathrop GPM LLP, represented licensee and was

accompanied by Licensee's Pharmacist-in-Charge, Neil Uitto; Polaris' Chief Operating Officer, Steven Baker; and Polaris' Executive Vice President of Operations, Todd Zisek.

III.

FACTS

4. On or about November 1, 2018, the Board licensed Licensee as a pharmacy in Minnesota.

5. Licensee is a closed door, long-term care ("LTC") pharmacy that prepares sterile and non-sterile compounded drug products for dispensing.

6. Licensee has two affiliated pharmacy locations in Florida, both licensed by the Board as follows:

a. On or about July 8, 2016, the Board issued Polaris Rx, located in Fort Lauderdale, Florida ("Pharmacy 1"), non-resident pharmacy license #265101.

b. On or about December 5, 2018, the Board issued Polaris Pharmacy Services of Tampa, located in Tampa, Florida ("Pharmacy 2"), non-resident pharmacy license #265721.

7. On or about March 19, 2019, two Board Surveyors visited Licensee for the purpose of completing a routine inspection, met with the pharmacist-in-charge, and identified the following:

a. Seven pharmacy technicians registered by the Board and employed by Pharmacy 1 and Pharmacy 2, were living in Florida but listed their current physical address as Licensee's address in Minnesota.

b. During the inspection, the Board Surveyors cited Licensee for engaging in central services with Pharmacy 1 and Pharmacy 2, by allowing pharmacy technicians working in Florida to remotely perform data entry of prescription drug information for Minnesota patients into

Licensee's Frameworks LTC prescription processing and dispensing software system ("FW-LTC"), followed by verification of the data entry by Licensee's pharmacist staff members working in Minnesota ("Central Service").

c. Prior to beginning Central Service, Licensee failed to submit a copy of its policy and procedure manual and failed to obtain Board approval to participate in a Central Service arrangement with Pharmacy 1 and Pharmacy 2.

d. Licensee disputes that it was operating a "central services arrangement" as it understands that term to be commonly used within the industry. Licensee maintains that its use of remote order entry processes was necessary under the circumstances, due to a backlog of prescription orders that had accumulated due in large part to Licensee's inability to recruit and retain sufficient staff in Minnesota during its early months of operating in the State. Nonetheless, for purposes of this stipulation, Licensee acknowledges and understands the March 2019 citation.

e. Licensee's nonsterile compounding records failed to include an assigned beyond use date ("BUD") for the final compounded drug product, or included a BUD exceeding those recommended within United States Pharmacopeia, General Chapter 795 for Pharmaceutical Compounding - Nonsterile Preparations ("USP 795"), without documentation of a reference for literature or a stability study applicable to the specific drug product allowing for extension of the BUD. Licensee avers that it responded to these findings by providing education to its staff to ensure compounded components included lot numbers, expiration dates, and BUDs, along with noting the supporting reference sources. Licensee states that it is not aware of any other issues regarding its compliance with BUD requirements since 2019.

8. On or about March 20, 2019, the Board received a complaint alleging that Licensee was utilizing pharmacy technicians from outside of Minnesota to enter prescription data. On or about April 9, 2019, a Board Surveyor reminded Licensee, after expanding its operations to 24-

hours, that pharmacy technicians working outside of its Minnesota location could not be used to help with covering the additional hours that the pharmacy is open, due to the lack of Board approved policies for Central Services with Pharmacy 1 and Pharmacy 2. As noted above, Licensee disputes that it was operating a "central services arrangement" as it understands that term to be commonly used within the industry. Licensee maintains that its use of remote order entry processes was necessary under the circumstances, due to a backlog of prescription orders that had accumulated due in large part to Licensee's inability to recruit and retain sufficient staff in Minnesota during its early months of operating in the State. Nonetheless, for purposes of this stipulation, Licensee acknowledges and understands the Board's concern regarding the use of out-of-state technicians to enter prescription data.

9. On June 11, 2019, two Board Surveyors visited Licensee for the purpose of an investigation, met with representatives of the Licensee, and identified the following:

a. The pharmacist-in-charge stated that, as far as she was aware, Pharmacy 1 and Pharmacy 2, both located in Florida, were the only two locations providing Central Services for Licensee.

b. Licensee utilized a company named IND Consulting ("IND") for emergency kit ("E-kit") billing and entry of patient information when pharmacy services are initiated in a new LTC facility. IND's website states its staff are able to provide services including, but not limited to, billing services, medical record entry, and data entry solutions, with guaranteed staffing in fully operational data centers that are open 24 hours a day and 365 days a year, located within or outside of the United States across the globe in Mexico, India, the Philippines, and Florida. During the conference with the Committee, Licensee admitted that IND consulting had been used to enter prescription data for prescription drug orders ultimately dispensed by its

Minnesota pharmacy. Licensee cannot definitively state where individuals affiliated with IND were licensed or physically located when entering such data.

c. At the end of the visit, the Board Surveyor's provided an Investigative Report requesting additional information and reminding Licensee again that it cannot engage in Central Services without Board approval.

10. On February 12, 2020, two Board Surveyors visited Licensee for the purposes of an investigation, met with representatives of Licensee, and identified the following:

a. After arriving at 4:36 a.m., one of the Board Surveyors observed two of Licensee's pharmacy technicians were allowed badge access to the pharmacy entrance prior to the arrival of RPh 3 at around 5:55 a.m. One technician was found to be working in the sterile compounding area and another was logged into Licensee's computer. A representative of Licensee later stated that three pharmacy technicians had been given keys and passcodes to access Licensee's pharmacy. During its conference with the Committee, Licensee admitted that this allegation is true, but stated that senior management took corrective action upon learning of the situation, including immediately revoking the access code of all non-pharmacists and physically rekeying all doors within the pharmacy. Licensees avers that periodic security assessments confirm that no unauthorized persons have had access to the pharmacy since February 2020.

b. Six pharmacy technicians, including the IV pharmacy technician, were present in the "filling area" with only one pharmacist, who was the second pharmacist to arrive. Another pharmacist was in an "order entry" area, a distinctly different area separated by a wall and door. The Board Surveyors were told that additional pharmacy technicians were scheduled that morning to perform non-technician "staging or stocking" duties. However, the Board Surveyors observed that the additional pharmacy technicians that were supposedly scheduled to perform non-technician duties, were filling orders in the "filling area" to be checked by the one pharmacist.

Licensee avers that is does not have sufficient information to admit or deny the Board surveyors' observations, but that company policy requires compliance with required technician-to-pharmacist ratios.

IV.

LAWS

11. Licensee acknowledges the conduct described in section III above constitutes a violation of Minn. Stat. § 151.071, subd. 2(7), and warrants the disciplinary action described below.

V.

DISCIPLINARY ACTION

The parties agree the Board may take the following disciplinary action and require compliance with the following terms:

12. The Board **REPRIMANDS** Licensee and imposes a **CIVIL PENALTY** in the amount of $50,000 for the conduct described in section III above. The civil penalty shall be paid by cashier's check or money order made payable to the Minnesota Board of Pharmacy, c/o Cody Wiberg, Executive Director, 2829 University Avenue S.E., Suite 530, Minneapolis, Minnesota 55414, within 60 days of the date of entry of this Order.

13. The Board places the following **CONDITION** on Licensee's License: every six months, for a period of three years, Licensee's CEO must certify to the Board's Executive Director that Licensee's licensed pharmacies that provide services to Minnesota residents are in full compliance with all applicable Minnesota statutes and rules.

VI.

CONSEQUENCES FOR NONCOMPLIANCE OR ADDITIONAL VIOLATIONS

14. If Licensee fails to comply with or violates this Stipulation and Consent Order, the Committee may, in its discretion, seek additional discipline either by initiating a contested case proceeding pursuant to Minnesota Statutes chapter 14 or by bringing the matter directly to the Board pursuant to the following procedure:

a. The Committee shall schedule a hearing before the Board. At least 20 days before the hearing, the Committee must mail Licensee a notice of the violation(s) alleged by the Committee. In addition, the notice must designate the time and place of the hearing. Within ten days after the notice is mailed, Licensee shall submit a written response to the allegations. If Licensee does not submit a timely response to the Board, the allegations may be deemed admitted.

b. The Committee, in its discretion, may schedule a conference with Licensee prior to the hearing before the Board to discuss the allegations and to attempt to resolve the allegations through agreement.

c. Prior to the hearing before the Board, the Committee and Licensee may submit affidavits and written argument in support of their positions. At the hearing, the Committee and Licensee may present oral argument. Argument may not refer to matters outside the record. The evidentiary record must be limited to the affidavits submitted prior to the hearing and this Stipulation and Consent Order. The Committee will have the burden of proving by a preponderance of the evidence that a violation has occurred. If Licensee has failed to submit a timely response to the allegations, Licensee may not contest the allegations, but may present argument concerning the appropriateness of additional discipline. Pursuant to this process, Licensee waives a hearing before an administrative law judge, discovery, cross-examination of

adverse witnesses, and other procedures governing hearings pursuant to Minnesota Statutes chapter 14.

d. Licensee's correction of a violation before the conference, hearing, or meeting of the Board may be taken into account by the Board but does not limit the Board's authority to impose discipline for the violation. A decision by the Committee not to seek discipline when it first learns of a violation does not waive the Committee's right to later seek discipline for that violation, either alone or in combination with other violations, at any time while Licensee's license is in a suspended status.

e. Following the hearing, the Board will deliberate confidentially. If the allegations are not proved, the Board must dismiss the allegations. If a violation is proved, the Board may impose additional discipline, including conditions or limitations on Licensee's license, a period of suspension, conditions of reinstatement, or revocation of Licensee's license.

f. Nothing herein limits the Committee's or the Board's right to temporarily suspend Licensee's license as provided in Minnesota Statutes chapters 151 and 214, based on a violation of this Stipulation and Consent Order or based on conduct of Licensee not specifically referred to herein.

VII. ADDITIONAL INFORMATION

15. Licensee waives the contested case hearing and all other procedures before the Board to which Licensee may be entitled under the Minnesota and United States constitutions, statutes, or rules.

16. Licensee waives any claims against the Board, the Minnesota Attorney General, the State of Minnesota, and their agents, employees, and representatives related to the

investigation of the conduct herein, or the negotiation or execution of this Stipulation and Consent Order, which may otherwise be available to Licensee.

17. This Stipulation and Consent Order, the files, records, and proceedings associated with this matter shall constitute the entire record and may be reviewed by the Board in its consideration of this matter.

18. Either party may seek enforcement of this Stipulation and Consent Order in any appropriate civil court.

19. Licensee has read, understands, and agrees to this Stipulation and Consent Order and has voluntarily signed the Stipulation and Consent Order. Licensee is aware this Stipulation and Consent Order must be approved by the Board before it goes into effect. The Board may either approve the Stipulation and Consent Order as proposed, approve it subject to specified change, or reject it. If the changes are acceptable to Licensee, the Stipulation and Consent Order will take effect and the order as modified will be issued. If the changes are unacceptable to Licensee or the Board rejects the Stipulation and Consent Order, it will be of no effect except as specified in the following paragraph.

20. Licensee agrees that if the Board rejects this Stipulation and Consent Order or a lesser remedy than indicated in this settlement, and this case comes again before the Board, Licensee will assert no claim that the Board was prejudiced by its review and discussion of this Stipulation and Consent Order or of any records relating to it. If the Board rejects this Stipulation and Consent Order, the parties agree that this Stipulation and Consent Order will not be admissible in any proceedings.

21. This Stipulation and Consent Order does not limit the Board's authority to proceed against Licensee by initiating a contested case hearing or by other appropriate means on the basis

of any act, conduct, or admission of Licensee which constitutes grounds for disciplinary action, and which is not directly related to the specific facts and circumstances set forth in this document.

VIII.

DATA PRACTICES NOTICES

22. This Stipulation and Consent Order constitutes disciplinary action by the Board and is classified as public data pursuant to Minnesota Statutes section 13.41, subdivision 5. Data regarding this action will be provided to data banks as required by Federal law or consistent with Board policy. While this Stipulation and Consent Order is in effect, information obtained by the Board pursuant to this Order is considered active investigative data on a licensed health professional, and as such, is classified as confidential data pursuant to Minnesota Statutes section 13.41, subdivision 4.

Challenges Polaris Faced in Minnesota

Polaris entered the Minnesota market in November 2018. The company operates only one pharmacy in Minnesota, which is located at 5220 Park Glen Road, St. Louis Park. Polaris' early experience in Minnesota was not without its challenges, but the company has made a good faith effort to address its challenges and is constantly looking to improve.

When Polaris entered the Minnesota market, it was surprised to find a labor market (particularly for pharmacy technicians) that was much tighter than other markets in which Polaris operates and experienced more staff turnover in Minnesota than it is accustomed to in other markets. The Covid-19 pandemic obviously put an incredible amount of stress on every stakeholder in the pharmacy industry, and Polaris was no exception. The pandemic made it even more difficult for Polaris to recruit, hire, and retain talented staff.

Polaris continues to believe it did not engage in central services by having Minnesota-licensed technicians located in Florida perform remote order entry tasks in connection with prescription orders filled in Minnesota. In letters to the Board dated July 19, 2019, Polaris explained why it began using Minnesota-licensed technicians based in Florida to assist Polaris Minnesota with order entry tasks.

In sum, during its initial months of operation, Polaris faced an unanticipated and unacceptable backlog of prescription orders that needed to be filled in Minnesota. The backlog resulted largely from Polaris' inability to recruit and retain enough capable pharmacy technicians in Minnesota during the early months of operation. To address the backlog and ensure the timely delivery of prescriptions to Minnesota patients, Polaris initially had Minnesota-licensed technicians based in Florida perform order entry services on behalf of Polaris Minnesota. These technicians were experienced technicians who were licensed in Minnesota before they performed order entry work for Polaris Minnesota. Further, while performing remote order entry work from a Polaris Florida location, these technicians were connected virtually to Polaris Minnesota's physical workspace through Polaris' FrameworkLTC software platform, which is commonly used across the long-term care pharmacy industry. At all times, the work of these technicians was overseen by a licensed pharmacist at the Florida pharmacy (where the data was entered into FrameworkLTC), as well as a Minnesota-licensed pharmacist in the Minnesota pharmacy, who ultimately controlled and was responsible for the technicians' work and any prescriptions filled in connection with data they entered into the system. Additionally, until May 2019, Polaris had IND Consulting and its "Team X" do some remote order entry work for Polaris Minnesota. Aside from the order entry function, Polaris Minnesota's prescription processing and filling functions have always taken place entirely in the Minnesota pharmacy. Polaris has at times relied on similar remote order entry processes in other states without triggering central service pharmacy requirements.

Accordingly, when Polaris started using this process to help deal with the Minnesota backlog, it did not anticipate that it might be triggering central services pharmacy requirements. For this reason, Polaris initially did not submit or seek approval from the Board for a central prescription drug processing policy or procedure. In March 2019, after Board staff expressed a

view that Polaris' use of Minnesota-licensed technicians based in Florida to perform remote entry work constituted an unauthorized central service arrangement, Polaris took immediate steps to address the issue. Polaris initially flew Minnesota-licensed technicians from Florida to Minnesota, so they could be physically present in the Polaris Minnesota pharmacy while performing the same order entry functions they had been performing in Florida.

Finally, Polaris sought Board approval of several remote order entry variances, with the goal of being authorized to resume using Minnesota-licensed technicians based in Florida to perform remote order entry for Polaris Minnesota, and particularly to deal with emergencies or backlogs. When Board staff initially raised this issue in March 2019, Polaris did not believe it could immediately shift all order entry functions to its limited staff in Minnesota without compromising patient safety and welfare. At the time, Polaris was still working through the backlog, onboarding new care facilities, and working hard to locate, hire, train, and retain technicians and other staff in Minnesota in a challenging labor market. Under the circumstances, Polaris determined it was necessary to continue using Minnesota licensed, Florida-based technicians for a period of time in order to deal with the backlog and continue filling prescriptions in a timely manner for patients who needed them, while simultaneously building up its Minnesota workforce and making the changes necessary to meet the expectations of Board staff. As soon as Polaris was staffed and equipped to perform all order entry functions in Minnesota, it stopped utilizing technicians who were not physically located in Minnesota altogether. Accordingly, from June 2019 to the present, Polaris has only used Minnesota-licensed technicians physically located in the Polaris Minnesota pharmacy to perform order entry work on prescription orders filled in Minnesota. Polaris took concerns raised by Board staff over remote order entry issues seriously, and it believes it acted reasonably under the circumstances to address those concerns, while also maintaining high levels of patient care.

Polaris remained committed to working cooperatively with the Board to better understand what it must do in order to utilize remote order entry processes in the future. Polaris would always attempt to rely on technicians physically located in its Minnesota pharmacy to perform data entry and other prescription filling functions. The Board acknowledged granting variance requests to many pharmacy chains and health-systems that authorize the use of remote order entry processes. In March 2020, the Board also issued Covid-19 related guidance acknowledging that pharmacists and technicians could perform various prescription drug filling functions while working remotely—including data entry of prescriptions and orders; verifying prescriptions; certifying data entry and the finished prescriptions (i.e., the product check); conducting profile and prospective drug utilization reviews; and stage-checking for compounding—so long as affiliated pharmacies were using adequate computer software and hardware for the tasks being performed. While the Board's Covid-19 guidance evolved after Governor Walz's Peacetime Emergency declaration was rescinded, Polaris continues to believe remote order entry processes like those implemented during the first few months of Polaris' operations in Minnesota were safe, effective, and should have a place in the delivery of modern pharmacy services.

The Board approved the central services variance #265679-010 on July 13, 2022 between Polaris Pharmacy Services of Minnesota, LLC and both the Polaris Pharmacies located in Tampa and Ft. Lauderdale Florida for urgent or emergent needs.

BEFORE THE MINNESOTA

BOARD OF PHARMACY

In the Matter of Polaris Pharmacy Services of Minnesota, LLC License No. 265679	STIPULATION AND CONSENT ORDER

STIPULATION

Polaris Pharmacy Services of Minnesota, LLC ("Licensee") and the Minnesota Board of Pharmacy Committee on Professional Standards ("Committee") agree the above-referenced matter may be resolved without trial of any issue or fact as follows:

I.

JURISDICTION

1. The Minnesota Board of Pharmacy ("Board") is authorized pursuant to Minnesota Statutes chapter 151 to license and regulate pharmacies and to take disciplinary action as appropriate.

2. Licensee holds a pharmacy license from the Board and is subject to the jurisdiction of the Board with respect to the matters referred to in this Stipulation and Consent Order.

II.

CONFERENCE

3. On August 18, 2021, Licensee met with the Committee to discuss the allegations described in a Notice of Conference. Board members Kendra Metz and Stuart Williams comprised the Committee. The Board's Executive Director, Cody Wiberg; Deputy Director, Jennell Bilek; and staff attorney, Brian Park, were also present. Alex Mountain, Assistant Attorney General, represented the Committee. Brian A. Dillon, of Lathrop GPM LLP, represented licensee and was

accompanied by Licensee's Pharmacist-in-Charge, Neil Uitto; Polaris' Chief Operating Officer, Steven Baker; and Polaris' Executive Vice President of Operations, Todd Zisek.

III.

FACTS

4. On or about November 1, 2018, the Board licensed Licensee as a pharmacy in Minnesota.

5. Licensee is a closed door, long-term care ("LTC") pharmacy that prepares sterile and non-sterile compounded drug products for dispensing.

6. Licensee has two affiliated pharmacy locations in Florida, both licensed by the Board as follows:

a. On or about July 8, 2016, the Board issued Polaris Rx, located in Fort Lauderdale, Florida ("Pharmacy 1"), non-resident pharmacy license #265101.

b. On or about December 5, 2018, the Board issued Polaris Pharmacy Services of Tampa, located in Tampa, Florida ("Pharmacy 2"), non-resident pharmacy license #265721.

7. On or about March 19, 2019, two Board Surveyors visited Licensee for the purpose of completing a routine inspection, met with the pharmacist-in-charge, and identified the following:

a. Seven pharmacy technicians registered by the Board and employed by Pharmacy 1 and Pharmacy 2, were living in Florida but listed their current physical address as Licensee's address in Minnesota.

b. During the inspection, the Board Surveyors cited Licensee for engaging in central services with Pharmacy 1 and Pharmacy 2, by allowing pharmacy technicians working in Florida to remotely perform data entry of prescription drug information for Minnesota patients into

Licensee's Frameworks LTC prescription processing and dispensing software system ("FW-LTC"), followed by verification of the data entry by Licensee's pharmacist staff members working in Minnesota ("Central Service").

c. Prior to beginning Central Service, Licensee failed to submit a copy of its policy and procedure manual and failed to obtain Board approval to participate in a Central Service arrangement with Pharmacy 1 and Pharmacy 2.

d. Licensee disputes that it was operating a "central services arrangement" as it understands that term to be commonly used within the industry. Licensee maintains that its use of remote order entry processes was necessary under the circumstances, due to a backlog of prescription orders that had accumulated due in large part to Licensee's inability to recruit and retain sufficient staff in Minnesota during its early months of operating in the State. Nonetheless, for purposes of this stipulation, Licensee acknowledges and understands the March 2019 citation.

e. Licensee's nonsterile compounding records failed to include an assigned beyond use date ("BUD") for the final compounded drug product, or included a BUD exceeding those recommended within United States Pharmacopeia, General Chapter 795 for Pharmaceutical Compounding - Nonsterile Preparations ("USP 795"), without documentation of a reference for literature or a stability study applicable to the specific drug product allowing for extension of the BUD. Licensee avers that it responded to these findings by providing education to its staff to ensure compounded components included lot numbers, expiration dates, and BUDs, along with noting the supporting reference sources. Licensee states that it is not aware of any other issues regarding its compliance with BUD requirements since 2019.

8. On or about March 20, 2019, the Board received a complaint alleging that Licensee was utilizing pharmacy technicians from outside of Minnesota to enter prescription data. On or about April 9, 2019, a Board Surveyor reminded Licensee, after expanding its operations to 24-

hours, that pharmacy technicians working outside of its Minnesota location could not be used to help with covering the additional hours that the pharmacy is open, due to the lack of Board approved policies for Central Services with Pharmacy 1 and Pharmacy 2. As noted above, Licensee disputes that it was operating a "central services arrangement" as it understands that term to be commonly used within the industry. Licensee maintains that its use of remote order entry processes was necessary under the circumstances, due to a backlog of prescription orders that had accumulated due in large part to Licensee's inability to recruit and retain sufficient staff in Minnesota during its early months of operating in the State. Nonetheless, for purposes of this stipulation, Licensee acknowledges and understands the Board's concern regarding the use of out-of-state technicians to enter prescription data.

9. On June 11, 2019, two Board Surveyors visited Licensee for the purpose of an investigation, met with representatives of the Licensee, and identified the following:

a. The pharmacist-in-charge stated that, as far as she was aware, Pharmacy 1 and Pharmacy 2, both located in Florida, were the only two locations providing Central Services for Licensee.

b. Licensee utilized a company named IND Consulting ("IND") for emergency kit ("E-kit") billing and entry of patient information when pharmacy services are initiated in a new LTC facility. IND's website states its staff are able to provide services including, but not limited to, billing services, medical record entry, and data entry solutions, with guaranteed staffing in fully operational data centers that are open 24 hours a day and 365 days a year, located within or outside of the United States across the globe in Mexico, India, the Philippines, and Florida. During the conference with the Committee, Licensee admitted that IND consulting had been used to enter prescription data for prescription drug orders ultimately dispensed by its

Minnesota pharmacy. Licensee cannot definitively state where individuals affiliated with IND were licensed or physically located when entering such data.

c. At the end of the visit, the Board Surveyor's provided an Investigative Report requesting additional information and reminding Licensee again that it cannot engage in Central Services without Board approval.

10. On February 12, 2020, two Board Surveyors visited Licensee for the purposes of an investigation, met with representatives of Licensee, and identified the following:

a. After arriving at 4:36 a.m., one of the Board Surveyors observed two of Licensee's pharmacy technicians were allowed badge access to the pharmacy entrance prior to the arrival of RPh 3 at around 5:55 a.m. One technician was found to be working in the sterile compounding area and another was logged into Licensee's computer. A representative of Licensee later stated that three pharmacy technicians had been given keys and passcodes to access Licensee's pharmacy. During its conference with the Committee, Licensee admitted that this allegation is true, but stated that senior management took corrective action upon learning of the situation, including immediately revoking the access code of all non-pharmacists and physically rekeying all doors within the pharmacy. Licensees avers that periodic security assessments confirm that no unauthorized persons have had access to the pharmacy since February 2020.

b. Six pharmacy technicians, including the IV pharmacy technician, were present in the "filling area" with only one pharmacist, who was the second pharmacist to arrive. Another pharmacist was in an "order entry" area, a distinctly different area separated by a wall and door. The Board Surveyors were told that additional pharmacy technicians were scheduled that morning to perform non-technician "staging or stocking" duties. However, the Board Surveyors observed that the additional pharmacy technicians that were supposedly scheduled to perform non-technician duties, were filling orders in the "filling area" to be checked by the one pharmacist.

Licensee avers that is does not have sufficient information to admit or deny the Board surveyors' observations, but that company policy requires compliance with required technician-to-pharmacist ratios.

IV.

LAWS

11. Licensee acknowledges the conduct described in section III above constitutes a violation of Minn. Stat. § 151.071, subd. 2(7), and warrants the disciplinary action described below.

V.

DISCIPLINARY ACTION

The parties agree the Board may take the following disciplinary action and require compliance with the following terms:

12. The Board **REPRIMANDS** Licensee and imposes a **CIVIL PENALTY** in the amount of $50,000 for the conduct described in section III above. The civil penalty shall be paid by cashier's check or money order made payable to the Minnesota Board of Pharmacy, c/o Cody Wiberg, Executive Director, 2829 University Avenue S.E., Suite 530, Minneapolis, Minnesota 55414, within 60 days of the date of entry of this Order.

13. The Board places the following **CONDITION** on Licensee's License: every six months, for a period of three years, Licensee's CEO must certify to the Board's Executive Director that Licensee's licensed pharmacies that provide services to Minnesota residents are in full compliance with all applicable Minnesota statutes and rules.

VI.

CONSEQUENCES FOR NONCOMPLIANCE OR ADDITIONAL VIOLATIONS

14. If Licensee fails to comply with or violates this Stipulation and Consent Order, the Committee may, in its discretion, seek additional discipline either by initiating a contested case proceeding pursuant to Minnesota Statutes chapter 14 or by bringing the matter directly to the Board pursuant to the following procedure:

a. The Committee shall schedule a hearing before the Board. At least 20 days before the hearing, the Committee must mail Licensee a notice of the violation(s) alleged by the Committee. In addition, the notice must designate the time and place of the hearing. Within ten days after the notice is mailed, Licensee shall submit a written response to the allegations. If Licensee does not submit a timely response to the Board, the allegations may be deemed admitted.

b. The Committee, in its discretion, may schedule a conference with Licensee prior to the hearing before the Board to discuss the allegations and to attempt to resolve the allegations through agreement.

c. Prior to the hearing before the Board, the Committee and Licensee may submit affidavits and written argument in support of their positions. At the hearing, the Committee and Licensee may present oral argument. Argument may not refer to matters outside the record. The evidentiary record must be limited to the affidavits submitted prior to the hearing and this Stipulation and Consent Order. The Committee will have the burden of proving by a preponderance of the evidence that a violation has occurred. If Licensee has failed to submit a timely response to the allegations, Licensee may not contest the allegations, but may present argument concerning the appropriateness of additional discipline. Pursuant to this process, Licensee waives a hearing before an administrative law judge, discovery, cross-examination of

adverse witnesses, and other procedures governing hearings pursuant to Minnesota Statutes chapter 14.

d. Licensee's correction of a violation before the conference, hearing, or meeting of the Board may be taken into account by the Board but does not limit the Board's authority to impose discipline for the violation. A decision by the Committee not to seek discipline when it first learns of a violation does not waive the Committee's right to later seek discipline for that violation, either alone or in combination with other violations, at any time while Licensee's license is in a suspended status.

e. Following the hearing, the Board will deliberate confidentially. If the allegations are not proved, the Board must dismiss the allegations. If a violation is proved, the Board may impose additional discipline, including conditions or limitations on Licensee's license, a period of suspension, conditions of reinstatement, or revocation of Licensee's license.

f. Nothing herein limits the Committee's or the Board's right to temporarily suspend Licensee's license as provided in Minnesota Statutes chapters 151 and 214, based on a violation of this Stipulation and Consent Order or based on conduct of Licensee not specifically referred to herein.

VII. ADDITIONAL INFORMATION

15. Licensee waives the contested case hearing and all other procedures before the Board to which Licensee may be entitled under the Minnesota and United States constitutions, statutes, or rules.

16. Licensee waives any claims against the Board, the Minnesota Attorney General, the State of Minnesota, and their agents, employees, and representatives related to the

investigation of the conduct herein, or the negotiation or execution of this Stipulation and Consent Order, which may otherwise be available to Licensee.

17. This Stipulation and Consent Order, the files, records, and proceedings associated with this matter shall constitute the entire record and may be reviewed by the Board in its consideration of this matter.

18. Either party may seek enforcement of this Stipulation and Consent Order in any appropriate civil court.

19. Licensee has read, understands, and agrees to this Stipulation and Consent Order and has voluntarily signed the Stipulation and Consent Order. Licensee is aware this Stipulation and Consent Order must be approved by the Board before it goes into effect. The Board may either approve the Stipulation and Consent Order as proposed, approve it subject to specified change, or reject it. If the changes are acceptable to Licensee, the Stipulation and Consent Order will take effect and the order as modified will be issued. If the changes are unacceptable to Licensee or the Board rejects the Stipulation and Consent Order, it will be of no effect except as specified in the following paragraph.

20. Licensee agrees that if the Board rejects this Stipulation and Consent Order or a lesser remedy than indicated in this settlement, and this case comes again before the Board, Licensee will assert no claim that the Board was prejudiced by its review and discussion of this Stipulation and Consent Order or of any records relating to it. If the Board rejects this Stipulation and Consent Order, the parties agree that this Stipulation and Consent Order will not be admissible in any proceedings.

21. This Stipulation and Consent Order does not limit the Board's authority to proceed against Licensee by initiating a contested case hearing or by other appropriate means on the basis

of any act, conduct, or admission of Licensee which constitutes grounds for disciplinary action, and which is not directly related to the specific facts and circumstances set forth in this document.

VIII.

DATA PRACTICES NOTICES

22. This Stipulation and Consent Order constitutes disciplinary action by the Board and is classified as public data pursuant to Minnesota Statutes section 13.41, subdivision 5. Data regarding this action will be provided to data banks as required by Federal law or consistent with Board policy. While this Stipulation and Consent Order is in effect, information obtained by the Board pursuant to this Order is considered active investigative data on a licensed health professional, and as such, is classified as confidential data pursuant to Minnesota Statutes section 13.41, subdivision 4.

23. This Stipulation contains the entire agreement between the parties, there being no other agreement of any kind, verbal or otherwise, which varies this Stipulation.

EDUCATIONAL TOPIC FOR DISCUSSION

1. BPC 4052.04 – Pharmacist may furnish COVID-19 oral therapeutics following a positive test.
   - "COVID-19 oral therapeutics" means drugs that are approved or authorized by the FDA for the treatment of COVID-19 and administered orally.
   - Prior to furnishing COVID-19 oral therapeutics, a pharmacist shall utilize relevant and appropriate evidence-based clinical guidelines published by FDA in providing these patient care services.
   - A pharmacist who furnishes COVID-19 oral therapeutics shall notify patient's PCP or enter appropriate information into patient record system shared with PCP, as permitted by that PCP. If the patient does not have a PCP, the pharmacist shall provide the patient with a written record of the drugs furnished and advise the patient to consult a physician of the patient's choice.

INSPECTION REPORT

- Document the kind and amounts of COVID-19 oral therapeutics furnished, as well as any information regarding testing services provided, in the patient's record in the record system maintained by the pharmacy.
- Retain records for 3 years.

2. BPC 4113 – PIC authority to make staffing decisions
   - PIC may make staffing decisions to ensure sufficient personnel are present in the pharmacy to prevent fatigue, distraction, or other conditions that may interfere with a pharmacist's ability to practice competently and safely.
   - If PIC is not available, a pharmacist on duty may adjust staffing according to workload if needed.
   - PIC or pharmacist on duty shall immediately notify the store management of any conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff. If the conditions are not resolved within 24 hours, the PIC or RPH on duty shall ensure the BOP is timely notified. Conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff include, but are not limited to:
     - Workplace safety and health hazards that present an immediate risk of death, illness or irreparable harm to patients, personnel, or pharmacy staff.
     - Sustained temperatures that could impact ambient temperature drug stability according to manufacturer data on acceptable drug storage conditions.
     - Vermin infestation that poses a risk to the safety or efficacy of medicine.
3. BPC 4113.1 – Reporting medication errors within 14 days from discovery.
   - Applies to "community pharmacies" – *i.e.,* any pharmacy that dispenses medication to an outpatient (but not including facilities of CDCR).
   - Per the BOP's AB 1286 Implementation Statement, the reporting of medication errors under BPC 4113.1 will not be required until the BOP approves an entity to receive the reports.
4. BPC 4113.6 – Chain community pharmacy subject to BPC 4113.5 must be staffed at all times with at least one clerk or pharmacy technician fully dedicated to performing pharmacy-related services. The BOP will not take action against a pharmacy for violation of this staffing requirement if any of the following conditions apply:
   - RPH on duty waives the requirement in writing during specified hours based on workload need.
   - The pharmacy is open beyond normal business hours (*i.e.,* before 8am, after 7pm). During the hours before 8am and after 7pm, the staffing requirement shall not apply.
   - The pharmacy's prescription volume per day on average is less than 75 prescriptions per day based on the average daily prescription volume for the past calendar year. However, if the pharmacist is also expected to provide additional pharmacy services (such as immunizations or CLIA-waived tests) this exception does not apply.

   When staffing of pharmacist hours within a chain community pharmacy does not overlap sufficiently, scheduled closures for lunch time for all pharmacy staff shall be established and publicly posted, and included on the outgoing telephone message.
5. BPC 4115 – Pharmacy technician may, under the direct supervision and control of a pharmacy, prepare and administer influenza and COVID-19 vaccines via injection or intranasally, prepare and administer epinephrine, perform specimen collection for tests that are CLIA waived, receive prescription transfers, and accept clarification on prescriptions under certain specified conditions.
6. BPC 4231 – CE required for pharmacists to renew their pharmacist license must now include at least one hour of participation in a cultural competency course which meets specified requirements.
7. The Board has posted on its website the FAQ's to address the changes in pharmacy law related to AB1286, dated 12/21/2023. Here's the link: https://pharmacy.ca.gov/publications/ab1286_faqs.pdf

Professional Fitness Question #1 was marked "Yes" indicating disciplinary actions had been issued against their license as listed above in sections a) through e).

g) Subsequent background investigation revealed Respondent failed to disclose the abovementioned 2017, 2019, and 2020 licensing actions from the California Board of Pharmacy on previous State of Alaska applications for TRUEPILL (formerly DBA Postmeds, Inc.) for licenses 137655 and 166601 dated June 08, 2018, August 06, 2020, and August 27, 2020.

4) **Formal Hearing Process.** It is the intent of the parties to this Consent Agreement to provide for the compromise and settlement of all issues addressed in Paragraph 3 (above) that could be raised by an Accusation to revoke, suspend, or impose disciplinary sanctions against Respondent's license through a formal hearing process.

5) **Waiver of Rights.** Respondent understands they have the right to consult with an attorney of their own choosing and has a right to an administrative hearing on the facts in this case. Respondent understands and agrees that by signing this Consent Agreement, Respondent is waiving their rights to counsel and to a hearing. Further, Respondent understands and agrees that they are relieving the Division of any burden it has of proving the facts admitted above. Respondent further understands and agrees that by signing this Consent Agreement they are voluntarily and knowingly giving up their right to present oral and documentary evidence, to present rebuttal evidence, to cross-examine witnesses against Respondent, and to appeal the Board's decision to Superior Court.

6) **Effect of Non-Acceptance of Consent Agreement.** Respondent and the Division agree that this Consent Agreement is subject to the approval of the Board. They agree that, if the Board rejects this Consent Agreement, it will be void, and an Accusation may be filed. If this Consent Agreement is rejected by the Board, it will not constitute a waiver of Respondent's right to a hearing on the matters alleged in an Accusation and the admissions contained herein will have no effect. Respondent agrees that, if the Board rejects this Consent Agreement, the Board may decide the matter after a hearing, and its consideration of this Consent Agreement shall not alone be grounds for claiming that the Board is biased against Respondent, that it cannot fairly decide the case, or that it has received ex parte communication.

7) **Consent Agreement, Decision, and Order.** Respondent agrees that the Board has the authority to enter into this Consent Agreement and to issue the following Decision and Order.

If Respondent's license is suspended under this paragraph, as provided above, they will be entitled to a hearing, on an expedited basis, regarding the issue of the suspension. If Respondent's license is suspended, they will continue to be responsible for all license requirements pursuant to AS 08.80.

NORTH CAROLINA BOARD OF PHARMACY

IN THE MATTER OF	)	
	)	
POSTMEDS, INC. d/b/a Truepill,	)	**CONSENT ORDER**
	)	**OF DISCIPLINE**
Permit No. 13413 and Its Successor Permit(s).	)	

THIS MATTER came to be considered before a member of the North Carolina Board of Pharmacy (hereinafter, the "Board") pursuant to 21 N.C.A.C. 46 .2008. The Conference was scheduled for Thursday, February 24, 2022, and, after appropriate notice, was heard on that day by Board member Wallace E. Nelson. Respondent PostMeds, Inc. was informed of its right to be present at the pre-hearing conference and declined. The Board's General Counsel, Clinton R. Pinyan, represented the Board.

Respondent has agreed to waive a formal hearing in the above-referenced matter. It stipulates and agrees to the findings of fact and conclusions of law recited herein and to the order of discipline imposed. By its consent, Respondent also stipulates that it waives its right to appeal this Consent Order or challenge in any way the sufficiency of the findings of this Order as a basis for the action taken. Based upon the consent of the parties, the Board hereby enters the following:

FINDINGS OF FACT

1. On November 20, 2017, the Board issued Permit No. 13413 to Respondent PostMeds, Inc. d/b/a Truepill (Permit No. 13413) ("PostMeds").

2. On PostMeds' initial permit application, its then-pharmacist manager, Mohammad Umar Afridi, submitted an inaccurate statement that he was the sole owner and officer of PostMeds. In fact, PostMeds now acknowledges that Afridi and Siddharth

DOS Prothonotary.
May 10 2023

3648

Viswanathan each owned 47 percent of PostMeds on November 20, 2017, with others owning six percent, and that Viswanathan was also an officer of PostMeds.

3. Viswanathan and the minority owners' interests would not have raised questions about the permit application in this particular case. If PostMeds had disclosed the true ownership and officers of PostMeds, the Board still would have granted PostMeds a permit. However, it was an inaccurate statement that Afridi, as the person who submitted the application, knew was inaccurate. That statement prevented the Board from vetting Viswanathan as the owner of the pharmacy. Because of the inaccuracy of the representations, the initial permit was void ab initio.

4. In November 2019, PostMeds went through a corporate restructuring. During that restructuring, Truepill, Inc. was created as a holding company for PostMeds. At that time, Truepill, Inc. became the sole owner of PostMeds. Afridi, Viswanathan and the other former direct owners of PostMeds became indirect owners with the same ownership interests in the holding company, Truepill, Inc., that they had before the transfer of ownership.

5. This restructuring required PostMeds to submit a transfer of ownership application and have that application granted before the restructuring closed. PostMeds failed to do this. Therefore, even if the initial permit had been valid (which it was not), it would have become invalid upon the corporate restructuring.

6. Insertion of a new holding company between the ultimate owners and PostMeds would not have raised questions about the permit application in this particular case. The ownership interests of the ultimate owners did not change. If PostMeds had disclosed the new holding company, the Board still would have granted the transfer of ownership. However,

DOS Prothonotary.
May 10 2023

PostMeds failed to submit the transfer of ownership application or otherwise disclose the interests of Truepill, Inc.

7. In each of its subsequent renewals, PostMeds failed to correct the ownership information that it had inaccurately submitted on its initial application or to list Truepill, Inc., as the direct owner of the pharmacy.

8. On November 4, 2021, counsel for PostMeds informed the Board that its "current ownership information on file with the North Carolina Board of Pharmacy is out of date." Upon follow-up questioning, the next day, PostMeds disclosed that it should have submitted a transfer of ownership application in November 2019. It further was apparent from the ownership information that PostMeds provided that Afridi made inaccurate representations about ownership and officers on PostMed's initial application that had never been corrected.

9. PostMeds agreed to stop shipping any drugs, devices or medical equipment into the State of North Carolina until the matter was resolved. It further agreed to stop shipping or dispensing any drugs, devices or medical equipment from six other pharmacies under its ownership until the matter was resolved (even though those pharmacies did not receive permits until after the transfer of ownership had occurred, and so did not suffer from the same problem).

10. PostMeds submitted a transfer of ownership application promptly.

11. Although PostMed's disclosure of its inaccuracies was tardy, its remedial actions are a mitigating factor in this matter.

CONCLUSIONS OF LAW

1. Reporting of correct and complete ownership information on an initial pharmacy permit application or a renewal application is material, indeed essential, to the Board's ability to ensure that a pharmacy will provide services safely and competently to the public.

DOS Prothonotary
May 10 2023

2. PostMeds made inaccurate statements about its ownership and officers on its initial application, which it failed to correct at any point through its 2022 renewal. That initial permit was therefore void ab initio and violated G.S. § 90-85.38(b).

3. The creation of Truepill, Inc. as a holding company further triggered a requirement to report the ownership change and obtain a successor permit, and to do so before the closing of the transaction that created Truepill, Inc. The transaction "result[ed] in a different person . . . owning more than 50 percent interest in the permit holder . . . ." 21 NCAC 46.1603. Failure to apply for and obtain a successor permit prior to the transaction, and a continuing failure to disclose the ownership interest of Truepill, Inc., violated G.S. § 90-85.38(b).

IT IS THEREFORE ORDERED:

PostMeds was in violation of G.S. § 90-85.38(b) in North Carolina from November 20, 2017 until at least November 4, 2021. Respondent PostMed's Permit No. 13413 was **VOID** from the time that it was granted on November 20, 2017. G.S. § 90-85.38(c).

Respondent PostMed's change of ownership application is **APPROVED** as a successor permits to Permit No. 13413 (the "Successor Permit") with the following **CONDITIONS**:

1. PostMeds shall provide timely advance notice of any contemplated change in ownership to the current pharmacist-manager and any future pharmacist-manager(s) of the Successor Permit. PostMeds shall consult with the Successor Permit's pharmacist-manager(s) to determine whether any contemplated transaction triggers the need to obtain new permits. PostMeds shall authorize the Successor Permit's pharmacist-manager(s) to take any necessary action to update that ownership information with the Board or to apply for new permits. If a contemplated transaction triggers the need for new permits, PostMeds shall not complete that

transaction unless and until either the Board issues new permits or PostMeds ceases all practice of pharmacy at the permitted location.

2. The Successor Permit shall violate no laws governing the practice of pharmacy or the distribution of drugs.

3. The Successor Permit shall violate no rules or regulations of the Board.

4. If the Successor Permit fail to comply with any term or condition of this Order, it may be subject to additional disciplinary action by the Board.

La. R.S. 37:1222(A). A person applying for a permit to open, establish, operate, or maintain a pharmacy, within or outside of this state, shall complete an application in such form and contain such data as the board may require, and complete such other requirements as deemed necessary by the board, including but not limited to designation and identification of a pharmacist-in-charge.

LAC, Title 46: LIII §1135(A)(4). Pharmacy permits are not transferable from the original holder(s) of the permit to the new owner(s).

LAC, Title 46: LIII §2305(A). The out-of-state pharmacy shall apply for a permit and annual permit renewals on forms provided by the board.

AMENDED SUMMARY ORDER

NOW on this 20th day of January, 2023, comes before the Kansas Board of Pharmacy (the "Board"), through its Executive Director, the matter of PostMeds, Inc dba Truepill ("Respondent").

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq.*, and in accordance with the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq.*, the Board's Executive Secretary enters this Amended Summary Order in the above-captioned matter. After reviewing the investigation materials and being otherwise duly advised in the premises, makes the following findings, conclusions and order:

FINDINGS OF FACT

1. The Board has previously issued Respondent Registration No. 22-104228 which entitled Respondent to operate as a non-resident pharmacy in the State of Kansas.

2. On November 6, 2019, the ownership of Respondent's non-resident pharmacy changed.

3. On May 22, 2020, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 3, 2020 with an expiration date of June 30, 2021. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?"

DOS Prothonotary:
May 10 2023

Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

4. On June 1, 2021, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 21, 2021 with an expiration date of June 30, 2022. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?" Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

5. Due to staffing challenges, personnel turnover and administrative oversight resulting from its early, rapid growth and restructuring and the corresponding COVID-19 pandemic, Respondent mistakenly failed to report the 2019 ownership change and related disclosures to the Board in its May 22, 2020 and June 1, 2021 renewal applications.

6. On April 18, 2022, the Board received notification from Respondent of an ownership change and several past disciplinary actions not previously reported to the Board including: North Carolina Board of Pharmacy Consent Order of Discipline dated March 8, 2022; California State Board of Pharmacy Letter of Admonishment dated January 23, 2020; California State Board of Pharmacy Citation and Fine dated June 16, 2020; California State Board of Pharmacy Citation and Fine Order of Abatement dated August 25, 2021; Alabama State Board of Pharmacy Final Order dated October 25, 2021; California State Board of Pharmacy Citation and Fine dated January 24, 2019; and California State Board of Pharmacy Citation dated December 16, 2019.

DOS Prothonotary:
May 10 2023

7. On April 28, 2022, the Board received from Respondent a Form BA-22 Non-Resident Pharmacy Registration Application ("Respondent's Application"), notifying of the change in ownership effective November 6, 2019, and applying for a new non-resident pharmacy registration under the new ownership.

8. On May 20, 2022, the Board approved Respondent's Application and issued Respondent the new Non-Resident Pharmacy Registration No. of 22-117859 ("Respondent's Registration") under their new ownership.

9. Prior to receiving the ownership change application, registrant provided a letter notifying of the late ownership change, as well as unreported discipline. Ownership change application completed indicating discipline had occurred and providing details of discipline (5 occurrences).

10. In mitigation, Respondent states that it has invested in additional staff, engaged internal and external legal counsel and implemented training efforts to prevent any such reporting oversights in the future.

CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.S.A. 65-1627(f), the Board may take action against a registration on any ground that would authorize the board to take action against the registration of a pharmacy under K.S.A. 65-1627, and amendments thereto.

3. Pursuant to K.S.A. 65-1627(e)(1), the Board may take action against the registration of a pharmacy upon a finding that such pharmacy has been operated in such manner

DOS Prothonotary:
May 10 2023

that violations of the provisions of the pharmacy act of the state of Kansas or of the rules and regulations of the board have occurred in connection therewith.

4. Pursuant to K.S.A. 65-1627(e)(4), the Board may take action against the registration of a pharmacy upon a finding that the registrant has had a registration revoked, suspended or limited, has been censured or has had other disciplinary action taken, or an application for registration denied, by the proper registering authority of another state, territory, District of Columbia or other country.

5. Pursuant to K.S.A. 65-1657, no nonresident pharmacy shall ship, mail, or deliver, in any manner, prescription drugs to a patient in this state unless registered with the Board as a nonresident pharmacy.

6. Pursuant to K.S.A. 65-1645(f), registrations shall not be transferable.

7. Pursuant to K.A.R. 68-2-9, each registrant shall notify the executive secretary of the Board in writing of any change in majority ownership of the operation for which the registration was issued within five days after the date the change in ownership becomes effective.

8. Pursuant to K.A.R. 68-2-23, each pharmacy owner shall notify the board in writing within 30 days of any denial, limitation, suspension, revocation, voluntary surrender, or other disciplinary action taken by the state of Kansas or another jurisdiction against the pharmacy or the pharmacy owner or any application, license, registration, or permit held by the pharmacy owner.

9. Respondent's registered facility changed ownership on November 6, 2019 but Respondent did not provide notification or file a new application with the Board until April 18 and 28, 2022, respectively.

10. Respondent's failure to submit the complete change of ownership to the Board until April 2022 is a violation pursuant to K.A.R. 68-2-9 and an unlawful transfer of the previous

DOS Prothonotary:
May 10 2023

registration to the new ownership. Respondent's actions are a violation pursuant to K.S.A. 65-1657 and K.S.A. 65-1627(e)(1), and a basis to take action against Respondent's Registration.

11. Respondent failed to notify the Board of the six disciplinary actions by North Carolina, California, and Alabama until April 18, 2022, nearly one to two years after they were effective, is a violation of K.A.R. 68-2-23 and a basis to take action against Respondent's Registration pursuant to K.S.A. 65-1627(e)(1) and (e)(4).

ORDER

Taking into account the mitigating and corrective actions of Respondent, the Board finds and concludes that Respondent's conduct, as described above, violates the Act and such conduct warrants the imposition of a fine pursuant to K.S.A. 65-1658, in the amount of $3,500.00. Respondent has 30 days from the date of this order to pay the fine.

NOTICES

The Respondent is hereby notified as follows:

1. The Respondent may request a hearing pursuant to the Kansas Administrative Procedure Act by filing a written request with the Kansas Board of Pharmacy, 800 SW Jackson, Suite 1414, Topeka, KS 66612-1231 within fifteen (15) days after service of this order.

2. If a hearing is not requested as described above, the Order shall become a final order of the Board, effective upon the expiration of the time to request a hearing.

3. Within fifteen (15) days after entry of a final agency order, either party may file a petition for reconsideration pursuant to K.S.A. 77-529.

4. Within the time limits established in K.S.A. 77-613, either party may seek judicial review of a final agency order, pursuant to said statute. The agency officer designated to receive service of a petition for judicial review is:

5. Due to staffing challenges, personnel turnover and administrative oversight resulting from its early, rapid growth and restructuring and the corresponding COVID-19 pandemic, Respondent mistakenly failed to report the 2019 ownership change and related disclosures to the Board in its May 22, 2020 and June 1, 2021 renewal applications.

CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.S.A. 65-1627(f), the Board may take action against a registration on any ground that would authorize the board to take action against the registration of a pharmacy under K.S.A. 65-1627, and amendments thereto.

3. Pursuant to K.S.A. 65-1627(e)(1), the Board may take action against the registration of a pharmacy upon a finding that such pharmacy has been operated in such manner

that violations of the provisions of the pharmacy act of the state of Kansas or of the rules and regulations of the board have occurred in connection therewith.

4. Pursuant to K.S.A. 65-1627(e)(4), the Board may take action against the registration of a pharmacy upon a finding that the registrant has had a registration revoked, suspended or limited, has been censured or has had other disciplinary action taken, or an application for registration denied, by the proper registering authority of another state, territory, District of Columbia or other country.

5. Pursuant to K.S.A. 65-1657, no nonresident pharmacy shall ship, mail, or deliver, in any manner, prescription drugs to a patient in this state unless registered with the Board as a nonresident pharmacy.

6. Pursuant to K.S.A. 65-1645(f), registrations shall not be transferable.

7. Pursuant to K.A.R. 68-2-9, each registrant shall notify the executive secretary of the Board in writing of any change in majority ownership of the operation for which the registration was issued within five days after the date the change in ownership becomes effective.

8. Pursuant to K.A.R. 68-2-23, each pharmacy owner shall notify the board in writing within 30 days of any denial, limitation, suspension, revocation, voluntary surrender, or other disciplinary action taken by the state of Kansas or another jurisdiction against the pharmacy or the pharmacy owner or any application, license, registration, or permit held by the pharmacy owner.

9. Respondent's registered facility changed ownership on November 6, 2019 but Respondent did not provide notification or file a new application with the Board until April 18 and 28, 2022, respectively.

10. Respondent's failure to submit the complete change of ownership to the Board until April 2022 is a violation pursuant to K.A.R. 68-2-9 and an unlawful transfer of the previous

registration to the new ownership. Respondent's actions are a violation pursuant to K.S.A. 65-1657 and K.S.A. 65-1627(e)(1), and a basis to take action against Respondent's Registration.

11. Respondent failed to notify the Board of the six disciplinary actions by North Carolina, California, and Alabama until April 18, 2022, nearly one to two years after they were effective, is a violation of K.A.R. 68-2-23 and a basis to take action against Respondent's Registration pursuant to K.S.A. 65-1627(e)(1) and (e)(4).

ORDER

Taking into account the mitigating and corrective actions of Respondent, the Board finds and concludes that Respondent's conduct, as described above, violates the Act and such conduct warrants the imposition of a fine pursuant to K.S.A. 65-1658, in the amount of $3,500.00. Respondent has 30 days from the date of this order to pay the fine.

WHEREAS, an informal conference was conducted by the Violations Committee of the Louisiana Board of Pharmacy (hereinafter referred to as the "Board") on March 16, 2022 at the Board office, 3388 Brentwood Drive, Baton Rouge, LA 70809, in the matter of POSTMEDS, INC. WHEREAS, WHEREAS, on August 27, 2018, the Louisiana Board of Pharmacy issued a non-resident pharmacy permit, PHY.007761-NR, to Postmeds Inc. On December 17, 2021 the Board received an "Application for New Louisiana Pharmacy Permit for Nonresident Pharmacy" from Postmeds, Inc. d/b/a Truepill. Accompanying correspondence and organization chart detailed a 100% change in the ownership structure of Postmeds Inc., effective November 6, 2019. WHEREAS, the Board alleges that such actions constitute violations of the following:

La. R.S. 37:1241 (A)(1): Practiced or assisted in the practice of pharmacy, or knowingly permitted or has permitted anyone in his employ or under his supervision to practice or assist in the practice of pharmacy, in violation of the provisions of this Chapter and any rules and regulations promulgated thereto in accordance with the Administrative Procedure Act.

La. R.S. 37:1221(B). No out-of-state pharmacy providing pharmacy services to residents of this state shall open, establish, operate, or maintain a pharmacy, located out-of-state, unless the pharmacy is issued a permit by the board.

La. R.S. 37:1222(A). A person applying for a permit to open, establish, operate, or maintain a pharmacy, within or outside of this state, shall complete an application in such form and contain such data as the board may require, and complete such other requirements as deemed necessary by the board, including but not limited to designation and identification of a pharmacist-in-charge.

La. R.S. 37:1222(E). A permit to operate a pharmacy shall not be transferable.

La. R.S. 37:1232(A). A pharmacy located outside this state which does business in this state within the meaning of this Chapter, shall hold a current pharmacy permit as provided in this Chapter. The pharmacy shall be designated a "nonresident pharmacy" and the permit shall be designated a "nonresident pharmacy permit."

LAC, Title 46: LIII §1101(A). Individuals, partnerships, corporations, limited liability companies, or associations desiring to operate a pharmacy in Louisiana, or outside the state where prescriptions drugs/devices are dispensed and delivered to Louisiana residents, shall execute an application for a pharmacy permit for their particular classification of pharmacy.

LAC, Title 46: LIII §1135(A)(1)(e). The holder of a pharmacy permit shall notify the board, in writing, prior to the transfer of ownership, in order for the board to complete an inspection of the pharmacy premises. A change of ownership of a pharmacy is evident under the following conditions: a 50 percent, or more, change in ownership of a corporation, limited liability company, or association since the issuance of the original permit or the last renewal application.

LAC, Title 46: LIII §1135(A)(2). The new owner(s) of the pharmacy shall submit a properly completed pharmacy permit application, with appropriate fee, to the board.

LAC, Title 46: LIII §1135(A)(4). Pharmacy permits are not transferable from the original holder(s) of the permit to the new owner(s).

LAC, Title 46: LIII §2305(A). The out-of-state pharmacy shall apply for a permit and annual permit renewals on forms provided by the board.

LAC, Title 46: LIII §2307(C). Authority and Accountability. This responsibility necessarily includes accountability for any violation involving federal or state laws or regulations occurring within the prescription department supervised by a pharmacist-in-charge.

To facilitate the submission of this Consent Agreement, Respondent does not contest the allegations and agrees that there is sufficient evidence upon which to predicate a finding of those violations.

STATE OF NORTH CAROLINA
NORTH CAROLINA BOARD OF PHARMACY

IN THE MATTER OF	)	
	)	
POSTMEDS, INC. d/b/a Truepill,	)	**CONSENT ORDER**
	)	**OF DISCIPLINE**
Permit No. 13413 and Its Successor Permit(s).	)	

THIS MATTER came to be considered before a member of the North Carolina Board of Pharmacy (hereinafter, the "Board") pursuant to 21 N.C.A.C. 46 .2008. The Conference was scheduled for Thursday, February 24, 2022, and, after appropriate notice, was heard on that day by Board member Wallace E. Nelson. Respondent PostMeds, Inc. was informed of its right to be present at the pre-hearing conference and declined. The Board's General Counsel, Clinton R. Pinyan, represented the Board.

Respondent has agreed to waive a formal hearing in the above-referenced matter. It stipulates and agrees to the findings of fact and conclusions of law recited herein and to the order of discipline imposed. By its consent, Respondent also stipulates that it waives its right to appeal this Consent Order or challenge in any way the sufficiency of the findings of this Order as a basis for the action taken. Based upon the consent of the parties, the Board hereby enters the following:

FINDINGS OF FACT

1. On November 20, 2017, the Board issued Permit No. 13413 to Respondent PostMeds, Inc. d/b/a Truepill (Permit No. 13413) ("PostMeds").

2. On PostMeds' initial permit application, its then-pharmacist manager, Mohammad Umar Afridi, submitted an inaccurate statement that he was the sole owner and officer of PostMeds. In fact, PostMeds now acknowledges that Afridi and Siddharth

Viswanathan each owned 47 percent of PostMeds on November 20, 2017, with others owning six percent, and that Viswanathan was also an officer of PostMeds.

3. Viswanathan and the minority owners' intcrests would not have raised questions about the permit application in this particular case. If PostMeds had disclosed the true ownership and officers of PostMeds, the Board still would have granted PostMeds a permit. However, it was an inaccurate statement that Afridi, as the person who submitted the application, knew was inaccurate. That statement prevented the Board from vetting Viswanathan as the owner of the pharmacy. Because of the inaccuracy of the representations, the initial permit was void ab initio.

4. In November 2019, PostMeds went through a corporate restructuring. During that restructuring, Truepill, Inc. was created as a holding company for PostMeds. At that time, Truepill, Inc. became the sole owner of PostMeds. Afridi, Viswanathan and the other former direct owners of PostMeds became indirect owners with the same ownership interests in the holding company, Truepill, Inc., that they had before the transfer of ownership.

5. This restructuring required PostMeds to submit a transfer of ownership application and have that application granted before the restructuring closed. PostMeds failed to do this. Therefore, even if the initial permit had been valid (which it was not), it would have become invalid upon the corporate restructuring.

6. Insertion of a new holding company between the ultimate owners and PostMeds would not have raised questions about the permit application in this particular case. The ownership interests of the ultimate owners did not change. If PostMeds had disclosed the new holding company, the Board still would have granted the transfer of ownership. However,

PostMeds failed to submit the transfer of ownership application or otherwise disclose the interests of Truepill, Inc.

7. In each of its subsequent renewals, PostMeds failed to correct the ownership information that it had inaccurately submitted on its initial application or to list Truepill, Inc., as the direct owner of the pharmacy.

8. On November 4, 2021, counsel for PostMeds informed the Board that its "current ownership information on file with the North Carolina Board of Pharmacy is out of date." Upon follow-up questioning, the next day, PostMeds disclosed that it should have submitted a transfer of ownership application in November 2019. It further was apparent from the ownership information that PostMeds provided that Afridi made inaccurate representations about ownership and officers on PostMed's initial application that had never been corrected.

9. PostMeds agreed to stop shipping any drugs, devices or medical equipment into the State of North Carolina until the matter was resolved. It further agreed to stop shipping or dispensing any drugs, devices or medical equipment from six other pharmacies under its ownership until the matter was resolved (even though those pharmacies did not receive permits until after the transfer of ownership had occurred, and so did not suffer from the same problem).

10. PostMeds submitted a transfer of ownership application promptly.

11. Although PostMed's disclosure of its inaccuracies was tardy, its remedial actions are a mitigating factor in this matter.

CONCLUSIONS OF LAW

1. Reporting of correct and complete ownership information on an initial pharmacy permit application or a renewal application is material, indeed essential, to the Board's ability to ensure that a pharmacy will provide services safely and competently to the public.

2. PostMeds made inaccurate statements about its ownership and officers on its initial application, which it failed to correct at any point through its 2022 renewal. That initial permit was therefore void ab initio and violated G.S. § 90-85.38(b).

3. The creation of Truepill, Inc. as a holding company further triggered a requirement to report the ownership change and obtain a successor permit, and to do so before the closing of the transaction that created Truepill, Inc. The transaction "result[ed] in a different person . . . owning more than 50 percent interest in the permit holder . . . ." 21 NCAC 46.1603. Failure to apply for and obtain a successor permit prior to the transaction, and a continuing failure to disclose the ownership interest of Truepill, Inc., violated G.S. § 90-85.38(b).

IT IS THEREFORE ORDERED:

PostMeds was in violation of G.S. § 90-85.38(b) in North Carolina from November 20, 2017 until at least November 4, 2021. Respondent PostMed's Permit No. 13413 was **VOID** from the time that it was granted on November 20, 2017. G.S. § 90-85.38(c).

Respondent PostMed's change of ownership application is **APPROVED** as a successor permits to Permit No. 13413 (the "Successor Permit") with the following **CONDITIONS:**

1. PostMeds shall provide timely advance notice of any contemplated change in ownership to the current pharmacist-manager and any future pharmacist-manager(s) of the Successor Permit. PostMeds shall consult with the Successor Permit's pharmacist-manager(s) to determine whether any contemplated transaction triggers the need to obtain new permits. PostMeds shall authorize the Successor Permit's pharmacist-manager(s) to take any necessary action to update that ownership information with the Board or to apply for new permits. If a contemplated transaction triggers the need for new permits, PostMeds shall not complete that

transaction unless and until either the Board issues new permits or PostMeds ceases all practice of pharmacy at the permitted location.

2. The Successor Permit shall violate no laws governing the practice of pharmacy or the distribution of drugs.

3. The Successor Permit shall violate no rules or regulations of the Board.

4. If the Successor Permit fail to comply with any term or condition of this Order, it may be subject to additional disciplinary action by the Board.

JURISDICTION: Bus. & Prof. Code § 4314; CCR, title 16, § 1775; Bus. & Prof. Code § 4301, subd. (o)

VIOLATION CODE SECTION	OFFENSE	AMT OF FINE
CCR, Title 16, § 1714 subd. (b)	Operational Standards and Security; pharmacy responsible for pharmacy security	$5,000.00
Bus. & Prof. Code § 4169 subd. (a)(2)/Health & Safety Code § 111295	Prohibited Acts; Purchase, trade, sell, or transfer dangerous drugs to that the person knew or reasonably should have known were adulterated.../It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any drug or device that is adulterated	Citation without a fine

CONDUCT:

California Code of Regulations 1714, section b states, (b) Each pharmacy licensed by the board shall maintain its facilities, space, fixtures, and equipment so that drugs are safely and properly prepared, maintained, secured and distributed. The pharmacy shall be of sufficient size and unobstructed area to accommodate the safe practice of pharmacy. Specifically, Truepill Pharmacy, PHY56100, located at 3121 Diablo Ave, Hayward, CA 94545 was in violation when they failed to keep dangerous drugs stored according to policy and procedure 2001.4, Oversight of Pharmacy Safety, which states: "The Pharmacy will make all attempts at maintaining a room temperature below 85F and ideally between 68-77F". Between 7/1/2020 and 9/14/2020, on numerous occasions, dangerous drug storage temperatures, summarized in Table 2, exceeded the recommended storage temperatures. The most egregious of these temperature spikes were:

a) On 8/13/2020, in the cage area of the warehouse, dangerous drugs were stored approximately 161 hours over 77 F and 47 hours over 85F.
b) On 9/6/2020, in the cage area of the warehouse, dangerous drugs were stored approximately 59 hours over 77 F and 17 hours above 85F.
c) On 8/13/2020, in the Parata Automated dispensing machine located in the warehouse, dangerous drugs were stored for approximately 163 hours above 77 F and 44 hours above 85 F.

Business and Professions Code 4169 section (a), subdivision (2) states, A person or entity shall not do any of the following: (2) Purchase, trade, sell, or transfer dangerous drugs that the person knew or reasonably should have known were adulterated, as set forth in Article 2 (commencing with Section 111250) of Chapter 6 of Part 5 of Division 104 of the Health and Safety Code as it relates to Health and Safety Code 111295 which states, It is unlawful for any person to manufacture, sell, deliver, hold or offer for sale any drug or device that is adulterated. Specifically, Truepill Pharmacy, PHY56100, located at3121 Diablo Ave, Hayward, CA 94545 was in violation when they used the MKT calculation alone instead of in conjunction with manufactures stability data as stated in USP <1079>, which provides guidance for assessing possible adulteration to dangerous drugs stored at the pharmacy due to excessive heat. In particular, USP<1079> states, "Knowing the MKT for an excursion is useful for evaluating the potential impact on product quality. However, it is also essential to know the upper and lower temperature limits of any excursion. If these extreme temperatures are outside available stability data, it may not be possible to predict the quality impact of the excursion with any confidence regardless of the MKT. At higher temperatures the kinetics of degradation may change or new degradation reactions may occur. Truepill Pharmacy did not consider the manufacture's stability data for at least 72 dangerous drugs stored in the cage area of the warehouse which were held and offered for sale when determining if a dangerous drug was adulterated by the extreme heat, summarized in Table 3. For each one of the 72 dangerous drugs, the maximum temperature for storage was listed by the manufacturer as 77F or storage information was not listed. As there was no stability temperature for at least the 72 drugs in question and per USP<1079>, the MKT cannot be without the stability data, these drugs which were held and offered for sale were adulterated.

ORDER OF ABATEMENT

By the Abatement date/payment date submit to the Board the following:

- Either (1) full payment of the assessed fine(s) in the amount of $5,000.00; or payment in the amount of $1,000.00 and (2) provide proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within ninety (90) days.

COPY

If you choose option (2), within 90 days of this citation, you shall submit proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations. Any failure to do so shall be deemed a failure to meet the abatement requirements of this citation.

If you timely submit proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within 90 days from the date the citation was issued, this citation shall be reduced to $1,000.00 and proof of compliance of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations shall be considered satisfactory abatement of the citation.

If you fail to submit proof of compliance of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within 90 days from the date the citation was issued, the stay shall be lifted and the fine(s) in the amount of $5,000.00 shall be due and owing from you within thirty (30) days of any such failure.

JURISDICTION: Bus. & Prof. Code § 4315; 1764/56.10(a) - Unauthorized disclosure of prescription and medical information

Unauthorized disclosure of prescriptions: California Code of Regulations section 1764 states in pertinent part that no pharmacist shall exhibit, discuss, or reveal the contents of any prescription or any medical information furnished by the prescriber with any person other than the patient or his or her authorized representative and Civil Code section 56.10 subdivision (a) states, in pertinent part, no provider of health care shall disclose medical information regarding a patient of the provider of health care without first obtaining an authorization. Truepill Pharmacy was not in compliance with these regulations. Specifically, on 4/17/2019, Truepill Pharmacy (PHY56100) located at 3121 Diablo Avenue in Hayward, CA shipped prescription RX#1186395 to the wrong person. The prescription was intended for AR but was shipped to the address of MS in error. Also, Truepill Pharmacy shipped prescriptions to patients with a shipping label showing the return address of NuRx located at 6838 Ellicott Drive in East Syracuse, NY and from Apostrophe located at 330 2nd Street in Oakland, CA. NuRx and Apostrophe are not licensed pharmacies and prescription packages returned as undeliverable to these locations would cause the disclosure of medical information without authorization.

Shipping prescriptions to an unauthorized person violates California Code of Regulations section 1764 and Civil Code 56.10.

If you wish to contest this Letter of Admonishment, you may do so by submitting, within 30 days of the date of service of this Letter of Admonishment, namely February 22, 2020, the attached "Request for an Office Conference" form. If an office conference is not requested, compliance with the Letter of Admonishment shall not constitute an admission of the violations described in the Letter of Admonishment.

Unless it is dismissed following an office conference or you receive other instructions from the Board in writing, Pharmacy Law requires that you maintain and have readily available for inspection a copy of this Letter of Admonishment and any written corrective action plan, if any, for at least three years from the date of issuance at the top of this letter. The Letter of Admonishment will be considered a public record for purposes of disclosure for three years from issuance. The issuance of this Letter of Admonishment does not limit the board's ability to pursue other disciplinary or administrative action under Business and Professions Code section 4315, subdivision (f).

If you have any questions regarding this Letter of Admonishment, please contact Barbera Schleicher, Public Inquiry Analyst at (916) 518-3081.

6) **Effect of Non-Acceptance of Consent Agreement.** Respondent and the Division agree that this Consent Agreement is subject to the approval of the Board. They agree that, if the Board rejects this Consent Agreement, it will be void, and an Accusation may be filed. If this Consent Agreement is rejected by the Board, it will not constitute a waiver of Respondent's right to a hearing on the matters alleged in an Accusation and the admissions contained herein will have no effect. Respondent agrees that, if the Board rejects this Consent Agreement, the Board may decide the matter after a hearing, and its consideration of this Consent Agreement shall not alone be grounds for claiming that the Board is biased against Respondent, that it cannot fairly decide the case, or that it has received ex parte communication.

STATE OF NORTH CAROLINA
NORTH CAROLINA BOARD OF PHARMACY

IN THE MATTER OF	)	
	)	
POSTMEDS, INC. d/b/a Truepill,	)	**CONSENT ORDER**
	)	**OF DISCIPLINE**
Permit No. 13413 and Its Successor Permit(s).	)	

THIS MATTER came to be considered before a member of the North Carolina Board of Pharmacy (hereinafter, the "Board") pursuant to 21 N.C.A.C. 46 .2008. The Conference was scheduled for Thursday, February 24, 2022, and, after appropriate notice, was heard on that day by Board member Wallace E. Nelson. Respondent PostMeds, Inc. was informed of its right to be present at the pre-hearing conference and declined. The Board's General Counsel, Clinton R. Pinyan, represented the Board.

Respondent has agreed to waive a formal hearing in the above-referenced matter. It stipulates and agrees to the findings of fact and conclusions of law recited herein and to the order of discipline imposed. By its consent, Respondent also stipulates that it waives its right to appeal this Consent Order or challenge in any way the sufficiency of the findings of this Order as a basis for the action taken. Based upon the consent of the parties, the Board hereby enters the following:

FINDINGS OF FACT

1. On November 20, 2017, the Board issued Permit No. 13413 to Respondent PostMeds, Inc. d/b/a Trucpill (Permit No. 13413) ("PostMeds").

2. On PostMeds' initial permit application, its then-pharmacist manager, Mohammad Umar Afridi, submitted an inaccurate statement that he was the sole owner and officer of PostMeds. In fact, PostMeds now acknowledges that Afridi and Siddharth

DOS Prothonotary.
May 10 2023

Viswanathan each owned 47 percent of PostMeds on November 20, 2017, with others owning six percent, and that Viswanathan was also an officer of PostMeds.

3. Viswanathan and the minority owners' interests would not have raised questions about the permit application in this particular case. If PostMeds had disclosed the true ownership and officers of PostMeds, the Board still would have granted PostMeds a permit. However, it was an inaccurate statement that Afridi, as the person who submitted the application, knew was inaccurate. That statement prevented the Board from vetting Viswanathan as the owner of the pharmacy. Because of the inaccuracy of the representations, the initial permit was void ab initio.

4. In November 2019, PostMeds went through a corporate restructuring. During that restructuring, Truepill, Inc. was created as a holding company for PostMeds. At that time, Truepill, Inc. became the sole owner of PostMeds. Afridi, Viswanathan and the other former direct owners of PostMeds became indirect owners with the same ownership interests in the holding company, Truepill, Inc., that they had before the transfer of ownership.

5. This restructuring required PostMeds to submit a transfer of ownership application and have that application granted before the restructuring closed. PostMeds failed to do this. Therefore, even if the initial permit had been valid (which it was not), it would have become invalid upon the corporate restructuring.

6. Insertion of a new holding company between the ultimate owners and PostMeds would not have raised questions about the permit application in this particular case. The ownership interests of the ultimate owners did not change. If PostMeds had disclosed the new holding company, the Board still would have granted the transfer of ownership. However,

DOS Prothonotary.
May 10 2023

PostMeds failed to submit the transfer of ownership application or otherwise disclose the interests of Truepill, Inc.

7. In each of its subsequent renewals, PostMeds failed to correct the ownership information that it had inaccurately submitted on its initial application or to list Truepill, Inc., as the direct owner of the pharmacy.

8. On November 4, 2021, counsel for PostMeds informed the Board that its "current ownership information on file with the North Carolina Board of Pharmacy is out of date." Upon follow-up questioning, the next day, PostMeds disclosed that it should have submitted a transfer of ownership application in November 2019. It further was apparent from the ownership information that PostMeds provided that Afridi made inaccurate representations about ownership and officers on PostMed's initial application that had never been corrected.

9. PostMeds agreed to stop shipping any drugs, devices or medical equipment into the State of North Carolina until the matter was resolved. It further agreed to stop shipping or dispensing any drugs, devices or medical equipment from six other pharmacies under its ownership until the matter was resolved (even though those pharmacies did not receive permits until after the transfer of ownership had occurred, and so did not suffer from the same problem).

10. PostMeds submitted a transfer of ownership application promptly.

11. Although PostMed's disclosure of its inaccuracies was tardy, its remedial actions are a mitigating factor in this matter.

CONCLUSIONS OF LAW

1. Reporting of correct and complete ownership information on an initial pharmacy permit application or a renewal application is material, indeed essential, to the Board's ability to ensure that a pharmacy will provide services safely and competently to the public.

DOS Prothonotary:
May 10 2023

2. PostMeds made inaccurate statements about its ownership and officers on its initial application, which it failed to correct at any point through its 2022 renewal. That initial permit was therefore void ab initio and violated G.S. § 90-85.38(b).

3. The creation of Truepill, Inc. as a holding company further triggered a requirement to report the ownership change and obtain a successor permit, and to do so before the closing of the transaction that created Truepill, Inc. The transaction "result[ed] in a different person . . . owning more than 50 pereent interest in the permit holder . . . ." 21 NCAC 46.1603. Failure to apply for and obtain a successor permit prior to the transaction, and a continuing failure to disclose the ownership interest of Truepill, Inc., violated G.S. § 90-85.38(b).

IT IS THEREFORE ORDERED:

PostMeds was in violation of G.S. § 90-85.38(b) in North Carolina from November 20, 2017 until at least November 4, 2021. Respondent PostMed's Permit No. 13413 was **VOID** from the time that it was granted on November 20, 2017. G.S. § 90-85.38(c).

Respondent PostMed's change of ownership application is **APPROVED** as a successor permits to Permit No. 13413 (the "Successor Permit") with the following **CONDITIONS:**

1. PostMeds shall provide timely advance notiee of any contemplated change in ownership to the current pharmacist-manager and any future pharmacist-manager(s) of the Successor Permit. PostMeds shall consult with the Successor Permit's pharmacist-manager(s) to determine whether any contemplated transaction triggers the need to obtain new permits. PostMeds shall authorize the Successor Permit's pharmacist-manager(s) to take any necessary action to update that ownership information with the Board or to apply for new permits. If a contemplated transaction triggers the need for new permits, PostMeds shall not complete that

DOS Prothonotary.
May 10 2023

transaction unless and until either the Board issues new permits or PostMeds ceases all practice of pharmacy at the permitted location.

2. The Successor Permit shall violate no laws governing the practice of pharmacy or the distribution of drugs.

3. The Successor Permit shall violate no rules or regulations of the Board.

4. If the Successor Permit fail to comply with any term or condition of this Order, it may be subject to additional disciplinary action by the Board.

AMENDED SUMMARY ORDER

NOW on this 20th day of January, 2023, comes before the Kansas Board of Pharmacy (the "Board"), through its Executive Director, the matter of PostMeds, Inc dba Truepill ("Respondent").

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq.*, and in accordance with the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq.*, the Board's Executive Secretary enters this Amended Summary Order in the above-captioned matter. After reviewing the investigation materials and being otherwise duly advised in the premises, makes the following findings, conclusions and order:

FINDINGS OF FACT

1. The Board has previously issued Respondent Registration No. 22-104228 which entitled Respondent to operate as a non-resident pharmacy in the State of Kansas.

2. On November 6, 2019, the ownership of Respondent's non-resident pharmacy changed.

3. On May 22, 2020, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 3, 2020 with an expiration date of June 30, 2021. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?"

DOS Prothonotary:
May 10 2023

Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

4. On June 1, 2021, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 21, 2021 with an expiration date of June 30, 2022. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?" Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

5. Due to staffing challenges, personnel turnover and administrative oversight resulting from its early, rapid growth and restructuring and the corresponding COVID-19 pandemic, Respondent mistakenly failed to report the 2019 ownership change and related disclosures to the Board in its May 22, 2020 and June 1, 2021 renewal applications.

6. On April 18, 2022, the Board received notification from Respondent of an ownership change and several past disciplinary actions not previously reported to the Board including: North Carolina Board of Pharmacy Consent Order of Discipline dated March 8, 2022; California State Board of Pharmacy Letter of Admonishment dated January 23, 2020; California State Board of Pharmacy Citation and Fine dated June 16, 2020; California State Board of Pharmacy Citation and Fine Order of Abatement dated August 25, 2021; Alabama State Board of Pharmacy Final Order dated October 25, 2021; California State Board of Pharmacy Citation and Fine dated January 24, 2019; and California State Board of Pharmacy Citation dated December 16, 2019.

DOS Prothonotary:
May 10 2023

7. On April 28, 2022, the Board received from Respondent a Form BA-22 Non-Resident Pharmacy Registration Application ("Respondent's Application"), notifying of the change in ownership effective November 6, 2019, and applying for a new non-resident pharmacy registration under the new ownership.

8. On May 20, 2022, the Board approved Respondent's Application and issued Respondent the new Non-Resident Pharmacy Registration No. of 22-117859 ("Respondent's Registration") under their new ownership.

9. Prior to receiving the ownership change application, registrant provided a letter notifying of the late ownership change, as well as unreported discipline. Ownership change application completed indicating discipline had occurred and providing details of discipline (5 occurrences).

10. In mitigation, Respondent states that it has invested in additional staff, engaged internal and external legal counsel and implemented training efforts to prevent any such reporting oversights in the future.

CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.S.A. 65-1627(f), the Board may take action against a registration on any ground that would authorize the board to take action against the registration of a pharmacy under K.S.A. 65-1627, and amendments thereto.

3. Pursuant to K.S.A. 65-1627(e)(1), the Board may take action against the registration of a pharmacy upon a finding that such pharmacy has been operated in such manner

DOS Prothonotary:
May 10 2023

that violations of the provisions of the pharmacy act of the state of Kansas or of the rules and regulations of the board have occurred in connection therewith.

4. Pursuant to K.S.A. 65-1627(e)(4), the Board may take action against the registration of a pharmacy upon a finding that the registrant has had a registration revoked, suspended or limited, has been censured or has had other disciplinary action taken, or an application for registration denied, by the proper registering authority of another state, territory, District of Columbia or other country.

5. Pursuant to K.S.A. 65-1657, no nonresident pharmacy shall ship, mail, or deliver, in any manner, prescription drugs to a patient in this state unless registered with the Board as a nonresident pharmacy.

6. Pursuant to K.S.A. 65-1645(f), registrations shall not be transferable.

7. Pursuant to K.A.R. 68-2-9, each registrant shall notify the executive secretary of the Board in writing of any change in majority ownership of the operation for which the registration was issued within five days after the date the change in ownership becomes effective.

8. Pursuant to K.A.R. 68-2-23, each pharmacy owner shall notify the board in writing within 30 days of any denial, limitation, suspension, revocation, voluntary surrender, or other disciplinary action taken by the state of Kansas or another jurisdiction against the pharmacy or the pharmacy owner or any application, license, registration, or permit held by the pharmacy owner.

9. Respondent's registered facility changed ownership on November 6, 2019 but Respondent did not provide notification or file a new application with the Board until April 18 and 28, 2022, respectively.

10. Respondent's failure to submit the complete change of ownership to the Board until April 2022 is a violation pursuant to K.A.R. 68-2-9 and an unlawful transfer of the previous

DOS Prothonotary:
May 10 2023

registration to the new ownership. Respondent's actions are a violation pursuant to K.S.A. 65-1657 and K.S.A. 65-1627(e)(1), and a basis to take action against Respondent's Registration.

11. Respondent failed to notify the Board of the six disciplinary actions by North Carolina, California, and Alabama until April 18, 2022, nearly one to two years after they were effective, is a violation of K.A.R. 68-2-23 and a basis to take action against Respondent's Registration pursuant to K.S.A. 65-1627(e)(1) and (e)(4).

ORDER

Taking into account the mitigating and corrective actions of Respondent, the Board finds and concludes that Respondent's conduct, as described above, violates the Act and such conduct warrants the imposition of a fine pursuant to K.S.A. 65-1658, in the amount of $3,500.00. Respondent has 30 days from the date of this order to pay the fine.

NOTICES

The Respondent is hereby notified as follows:

1. The Respondent may request a hearing pursuant to the Kansas Administrative Procedure Act by filing a written request with the Kansas Board of Pharmacy, 800 SW Jackson, Suite 1414, Topeka, KS 66612-1231 within fifteen (15) days after service of this order.

2. If a hearing is not requested as described above, the Order shall become a final order of the Board, effective upon the expiration of the time to request a hearing.

3. Within fifteen (15) days after entry of a final agency order, either party may file a petition for reconsideration pursuant to K.S.A. 77-529.

4. Within the time limits established in K.S.A. 77-613, either party may seek judicial review of a final agency order, pursuant to said statute. The agency officer designated to receive service of a petition for judicial review is:

CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.S.A. 65-1627(f), the Board may take action against a registration on any ground that would authorize the board to take action against the registration of a pharmacy under K.S.A. 65-1627, and amendments thereto.

3. Pursuant to K.S.A. 65-1627(e)(1), the Board may take action against the registration of a pharmacy upon a finding that such pharmacy has been operated in such manner

9. Respondent's registered facility changed ownership on November 6, 2019 but Respondent did not provide notification or file a new application with the Board until April 18 and 28, 2022, respectively.

10. Respondent's failure to submit the complete change of ownership to the Board until April 2022 is a violation pursuant to K.A.R. 68-2-9 and an unlawful transfer of the previous

registration to the new ownership. Respondent's actions are a violation pursuant to K.S.A. 65-1657 and K.S.A. 65-1627(e)(1), and a basis to take action against Respondent's Registration.

11. IN THE MATTER OF	)	
	)	
POSTMEDS, INC. d/b/a Truepill,	)	**CONSENT ORDER**
	)	**OF DISCIPLINE**
Permit No. 13413 and Its Successor Permit(s).	)	

THIS MATTER came to be considered before a member of the North Carolina Board of Pharmacy (hereinafter, the "Board") pursuant to 21 N.C.A.C. 46 .2008. The Conference was scheduled for Thursday, February 24, 2022, and, after appropriate notice, was heard on that day by Board member Wallace E. Nelson. Respondent PostMeds, Inc. was informed of its right to be present at the pre-hearing conference and declined. The Board's General Counsel, Clinton R. Pinyan, represented the Board.

Respondent has agreed to waive a formal hearing in the above-referenced matter. It stipulates and agrees to the findings of fact and conclusions of law recited herein and to the order of discipline imposed. By its consent, Respondent also stipulates that it waives its right to appeal this Consent Order or challenge in any way the sufficiency of the findings of this Order as a basis for the action taken. Based upon the consent of the parties, the Board hereby enters the following:

FINDINGS OF FACT

1. On November 20, 2017, the Board issued Permit No. 13413 to Respondent PostMeds, Inc. d/b/a Truepill (Permit No. 13413) ("PostMeds").

2. On PostMeds' initial permit application, its then-pharmacist manager, Mohammad Umar Afridi, submitted an inaccurate statement that he was the sole owner and officer of PostMeds. In fact, PostMeds now acknowledges that Afridi and Siddharth

Viswanathan each owned 47 percent of PostMeds on November 20, 2017, with others owning six percent, and that Viswanathan was also an officer of PostMeds.

3. Viswanathan and the minority owners' interests would not have raised questions about the permit application in this particular case. If PostMeds had disclosed the true ownership and officers of PostMeds, the Board still would have granted PostMeds a permit. However, it was an inaccurate statement that Afridi, as the person who submitted the application, knew was inaccurate. That statement prevented the Board from vetting Viswanathan as the owner of the pharmacy. Because of the inaccuracy of the representations, the initial permit was void ab initio.

4. In November 2019, PostMeds went through a corporate restructuring. During that restructuring, Truepill, Inc. was created as a holding company for PostMeds. At that time, Truepill, Inc. became the sole owner of PostMeds. Afridi, Viswanathan and the other former direct owners of PostMeds became indirect owners with the same ownership interests in the holding company, Truepill, Inc., that they had before the transfer of ownership.

5. This restructuring required PostMeds to submit a transfer of ownership application and have that application granted before the restructuring closed. PostMeds failed to do this. Therefore, even if the initial permit had been valid (which it was not), it would have become invalid upon the corporate restructuring.

6. Insertion of a new holding company between the ultimate owners and PostMeds would not have raised questions about the permit application in this particular case. The ownership interests of the ultimate owners did not change. If PostMeds had disclosed the new holding company, the Board still would have granted the transfer of ownership. However,

PostMeds failed to submit the transfer of ownership application or otherwise disclose the interests of Truepill, Inc.

7. In each of its subsequent renewals, PostMeds failed to correct the ownership information that it had inaccurately submitted on its initial application or to list Truepill, Inc., as the direct owner of the pharmacy.

8. On November 4, 2021, counsel for PostMeds informed the Board that its "current ownership information on file with the North Carolina Board of Pharmacy is out of date." Upon follow-up questioning, the next day, PostMeds disclosed that it should have submitted a transfer of ownership application in November 2019. It further was apparent from the ownership information that PostMeds provided that Afridi made inaccurate representations about ownership and officers on PostMed's initial application that had never been corrected.

9. PostMeds agreed to stop shipping any drugs, devices or medical equipment into the State of North Carolina until the matter was resolved. It further agreed to stop shipping or dispensing any drugs, devices or medical equipment from six other pharmacies under its ownership until the matter was resolved (even though those pharmacies did not receive permits until after the transfer of ownership had occurred, and so did not suffer from the same problem).

10. PostMeds submitted a transfer of ownership application promptly.

11. Although PostMed's disclosure of its inaccuracies was tardy, its remedial actions are a mitigating factor in this matter.

CONCLUSIONS OF LAW

1. Reporting of correct and complete ownership information on an initial pharmacy permit application or a renewal application is material, indeed essential, to the Board's ability to ensure that a pharmacy will provide services safely and competently to the public.

2. PostMeds made inaccurate statements about its ownership and officers on its initial application, which it failed to correct at any point through its 2022 renewal. That initial permit was therefore void ab initio and violated G.S. § 90-85.38(b).

3. The creation of Truepill, Inc. as a holding company further triggered a requirement to report the ownership change and obtain a successor permit, and to do so before the closing of the transaction that created Truepill, Inc. The transaction "result[ed] in a different person . . . owning more than 50 percent interest in the permit holder . . . ." 21 NCAC 46.1603. Failure to apply for and obtain a successor permit prior to the transaction, and a continuing failure to disclose the ownership interest of Truepill, Inc., violated G.S. § 90-85.38(b).

IT IS THEREFORE ORDERED:

PostMeds was in violation of G.S. § 90-85.38(b) in North Carolina from November 20, 2017 until at least November 4, 2021. Respondent PostMed's Permit No. 13413 was **VOID** from the time that it was granted on November 20, 2017. G.S. § 90-85.38(c).

Respondent PostMed's change of ownership application is **APPROVED** as a successor permits to Permit No. 13413 (the "Successor Permit") with the following **CONDITIONS:**

1. PostMeds shall provide timely advance notice of any contemplated change in ownership to the current pharmacist-manager and any future pharmacist-manager(s) of the Successor Permit. PostMeds shall consult with the Successor Permit's pharmacist-manager(s) to determine whether any contemplated transaction triggers the need to obtain new permits. PostMeds shall authorize the Successor Permit's pharmacist-manager(s) to take any necessary action to update that ownership information with the Board or to apply for new permits. If a contemplated transaction triggers the need for new permits, PostMeds shall not complete that

transaction unless and until either the Board issues new permits or PostMeds ceases all practice of pharmacy at the permitted location.

2. The Successor Permit shall violate no laws governing the practice of pharmacy or the distribution of drugs.

3. The Successor Permit shall violate no rules or regulations of the Board.

4. If the Successor Permit fail to comply with any term or condition of this Order, it may be subject to additional disciplinary action by the Board.

Bus. & Prof. Code § 4169 subd. (a)(2)/Health & Safety Code § 111295	Prohibited Acts; Purchase, trade, sell, or transfer dangerous drugs to that the person knew or reasonably should have known were adulterated.../It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any drug or device that is adulterated	Citation without a fine

CONDUCT:

California Code of Regulations 1714, section b states, (b) Each pharmacy licensed by the board shall maintain its facilities, space, fixtures, and equipment so that drugs are safely and properly prepared, maintained, secured and distributed. The pharmacy shall be of sufficient size and unobstructed area to accommodate the safe practice of pharmacy. Specifically, Truepill Pharmacy, PHY56100, located at 3121 Diablo Ave, Hayward, CA 94545 was in violation when they failed to keep dangerous drugs stored according to policy and procedure 2001.4, Oversight of Pharmacy Safety, which states: "The Pharmacy will make all attempts at maintaining a room temperature below 85F and ideally between 68-77F". Between 7/1/2020 and 9/14/2020, on numerous occasions, dangerous drug storage temperatures, summarized in Table 2, exceeded the recommended storage temperatures. The most egregious of these temperature spikes were:

a)On 8/13/2020, in the cage area of the warehouse, dangerous drugs were stored approximately 161 hours over 77 F and 47 hours over 85F.
b)On 9/6/2020, in the cage area of the warehouse, dangerous drugs were stored approximately 59 hours over 77 F and 17 hours above 85F.
c)On 8/13/2020, in the Parata Automated dispensing machine located in the warehouse, dangerous drugs were stored for approximately 163 hours above 77 F and 44 hours above 85 F.

Business and Professions Code 4169 section (a), subdivision (2) states, A person or entity shall not do any of the following: (2) Purchase, trade, sell, or transfer dangerous drugs that the person knew or reasonably should have known were adulterated, as set forth in Article 2 (commencing with Section 111250) of Chapter 6 of Part 5 of Division 104 of the Health and Safety Code as it relates to Health and Safety Code 111295 which states, It is unlawful for any person to manufacture, sell, deliver, hold or offer for sale any drug or device that is adulterated. Specifically, Truepill Pharmacy, PHY56100, located at3121 Diablo Ave, Hayward, CA 94545 was in violation when they used the MKT calculation alone instead of in conjunction with manufactures stability data as stated in USP <1079>, which provides guidance for assessing possible adulteration to dangerous drugs stored at the pharmacy due to excessive heat. In particular, USP<1079> states, "Knowing the MKT for an excursion is useful for evaluating the potential impact on product quality. However, it is also essential to know the upper and lower temperature limits of any excursion. If these extreme temperatures are outside available stability data, it may not be possible to predict the quality impact of the excursion with any confidence regardless of the MKT. At higher temperatures the kinetics of degradation may change or new degradation reactions may occur. Truepill Pharmacy did not consider the manufacture's stability data for at least 72 dangerous drugs stored in the cage area of the warehouse which were held and offered for sale when determining if a dangerous drug was adulterated by the extreme heat, summarized in Table 3. For each one of the 72 dangerous drugs, the maximum temperature for storage was listed by the manufacturer as 77F or storage information was not listed. As there was no stability temperature for at least the 72 drugs in question and per USP<1079>, the MKT cannot be without the stability data, these drugs which were held and offered for sale were adulterated.

ORDER OF ABATEMENT

By the Abatement date/payment date submit to the Board the following:

- Either (1) full payment of the assessed fine(s) in the amount of $5,000.00; or payment in the amount of $1,000.00 and (2) provide proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within ninety (90) days.

COPY

If you choose option (2), within 90 days of this citation, you shall submit proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations. Any failure to do so shall be deemed a failure to meet the abatement requirements of this citation.

If you timely submit proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within 90 days from the date the citation was issued, this citation shall be reduced to $1,000.00 and proof of compliance of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations shall be considered satisfactory abatement of the citation.

If you fail to submit proof of compliance of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within 90 days from the date the citation was issued, the stay shall be lifted and the fine(s) in the amount of $5,000.00 shall be due and owing from you within thirty (30) days of any such failure.

LETTER OF ADMONISHMENT

TRUEPILL
ATTN: MOHAMMAD UMAR AFRIDI, CEO
3121 DIABLO AVE
HAYWARD, CA 94545

RE: CI 2019 84877
TRUEPILL
PHY 56100

This LETTER OF ADMONISHMENT is being issued pursuant to Business and Professions Code section 4315 for failure to comply with the laws and regulations that govern the practice of pharmacy in California. (For exact language refer to the California Pharmacy Law and Index, located on the board's website at www.pharmacy.ca.gov, under Forms and Publications.)

The Board of Pharmacy has completed its investigation in the above referenced matter. All documentation and/or statements relating to the investigation have been accepted and included in an Investigation Report on file in this office. Facts contained in this report lead to the conclusion that the following violations of pharmacy laws or regulations have occurred:

JURISDICTION: Bus. & Prof. Code § 4315; 1764/56.10(a) - Unauthorized disclosure of prescription and medical information

Unauthorized disclosure of prescriptions: California Code of Regulations section 1764 states in pertinent part that no pharmacist shall exhibit, discuss, or reveal the contents of any prescription or any medical information furnished by the prescriber with any person other than the patient or his or her authorized representative and Civil Code section 56.10 subdivision (a) states, in pertinent part, no provider of health care shall disclose medical information regarding a patient of the provider of health care without first obtaining an authorization. Truepill Pharmacy was not in compliance with these regulations. Specifically, on 4/17/2019, Truepill Pharmacy (PHY56100) located at 3121 Diablo Avenue in Hayward, CA shipped prescription RX#1186395 to the wrong person. The prescription was intended for AR but was shipped to the address of MS in error. Also, Truepill Pharmacy shipped prescriptions to patients with a shipping label showing the return address of NuRx located at 6838 Ellicott Drive in East Syracuse, NY and from Apostrophe located at 330 2nd Street in Oakland, CA. NuRx and Apostrophe are not licensed pharmacies and prescription packages returned as undeliverable to these locations would cause the disclosure of medical information without authorization.

Shipping prescriptions to an unauthorized person violates California Code of Regulations section 1764 and Civil Code 56.10.

If you wish to contest this Letter of Admonishment, you may do so by submitting, within 30 days of the date of service of this Letter of Admonishment, namely February 22, 2020, the attached "Request for an Office Conference" form. If an office conference is not requested, compliance with the Letter of Admonishment shall not constitute an admission of the violations described in the Letter of Admonishment.

Unless it is dismissed following an office conference or you receive other instructions from the Board in writing, Pharmacy Law requires that you maintain and have readily available for inspection a copy of this Letter of Admonishment and any written corrective action plan, if any, for at least three years from the date of issuance at the top of this letter. The Letter of Admonishment will be considered a public record for purposes of disclosure for three years from issuance. The issuance of this Letter of Admonishment does not limit the board's ability to pursue other disciplinary or administrative action under Business and Professions Code section 4315, subdivision (f).

If you have any questions regarding this Letter of Admonishment, please contact Barbera Schleicher, Public Inquiry Analyst at (916) 518-3081.

Re: Notice of Indirect Change of Ownership—TRUEPILL NY LLC —License No. PH04209

Dear Sir or Madam:

Truepill NY LLC, a New York limited liability company, operates the pharmacy located at 850 3rd Ave, STE 404, Brooklyn, NY 11232 (the "Licensee"). Licensee holds the above referenced license. This letter serves as notice to the Board of a corporate merger at the grandparent level for the Licensee (the "Transaction"). Pursuant to this indirect change of ownership, Truepill NY LLC is submitting a change of ownership application.

In connection with the Transaction, scheduled to close on or around September 26, 2024 and pursuant to an Agreement and Plan of Merger entered into on July 28, 2024, Paulus Holdings Limited, an Irish private limited company will acquire 100% of outstanding capital stock of Truepill, Inc., the indirect owner of the Truepill NY LLC. A simplified organizational chart showing the ownership structure of the Licensee pre- and post-closing is included with the application.

This grandparent level change will not result in any change of name, location, or other material change to the current business activities of Licensee. Additionally, the Licensee's tax identification number and National Provider Identifier will not change as a result of the Transaction. Mr. Paul Greenall and Mr. Aaron Wurst will remain as Co-Managers of the Licensee. However, Licensee reserves the right to review such matters at a later date, and subject to application requirements under state laws, to make any changes that may be appropriate in light of such review and further developments.

If the Board requires any additional documentation to assist in its review and processing of the enclosed applications, please let us know as soon as possible. Please contact me at 202.861.1557 or at mwagner@bakerlaw.com with any questions or additional information requests. Thank you for your assistance.

Sincerely,

Marc N. Wagner

Case No. 2022-000434

CONSENT AGREEMENT

IT IS HEREBY AGREED by the Department of Commerce, Community and Economic Development, Division of Corporations, Business and Professional Licensing (Division) and TRUEPILL (Respondent) as follows:

1) **Licensure.** Respondent is currently registered as an Out-of-State Pharmacy in the State of Alaska and holds License number #166601. This license was first issued on 08/27/2020 and will lapse unless renewed by 06/30/2024.

2) **Admission/Jurisdiction.** Respondent admits and agrees that the Board of Pharmacy has jurisdiction over the subject matter of their license in Alaska and over this Consent Agreement.

3) **Admission/Facts.** Respondent admits to the following facts:

a) On September 25, 2017, Staff Pharmacist working for TRUEPILL, Curtis Ancar, received a disciplinary order from the California Board of Pharmacy for failure to exercise corresponding responsibility and excessive furnishing of controlled substances.

b) On January 24, 2019, the California Board of Pharmacy cited former Pharmacist-in-Charge and former owner of TRUEPILL, Mohammad Umar Afridi, for failure to provide documentation substantiating completion of continuing education and knowingly making or signing a document with false information.

c) On December 16, 2019, the California Board of Pharmacy cited former Pharmacist-in-Charge and former owner of TRUEPILL, Mohammad Umar Afridi, for furnishing and dispensing dangerous drugs without a prescription and dispensing on order of nurse practitioner (or person of similar status).

d) On January 23, 2020, the California Board of Pharmacy issued a letter of admonishment to Respondent for shipping a prescription to the wrong address and shipping two prescriptions with the wrong return address.

e) On June 16, 2020, the California Board of Pharmacy issued a modified citation and fine CI 2019 78633 with the fine amount of $0.00 for receiving prescriptions by prescribers that were not licensed or have not entered into procedures with supervising physicians.

f) On April 08, 2022, Respondent submitted an Out-of-State Pharmacy Registration Ownership Change Application from license no. 166601 to license no. 193858 (now withdrawn) to the Division. Professional Fitness Question #1 was marked "Yes" indicating disciplinary actions had been issued against their license as listed above in sections a) through e).

g) Subsequent background investigation revealed Respondent failed to disclose the abovementioned 2017, 2019, and 2020 licensing actions from the California Board of Pharmacy on previous State of Alaska applications for TRUEPILL (formerly DBA Postmeds, Inc.) for licenses 137655 and 166601 dated June 08, 2018, August 06, 2020, and August 27, 2020.

h) Respondent admits that as a result of the above facts, grounds exist for possible suspension, revocation, or other disciplinary sanctions of their license pursuant to AS 08.01.075, AS 08.80.261(a)(1), AS 08.80.261(a)(6), AS 08.80.261(a)(9), AS 08.80.261(a)(11)(12)(14), 12 AAC 52.920(a)(13), and 52.920(a)(14)(c).

4) **Formal Hearing Process.** It is the intent of the parties to this Consent Agreement to provide for the compromise and settlement of all issues addressed in Paragraph 3 (above) that could be raised by an Accusation to revoke, suspend, or impose disciplinary sanctions against Respondent's license through a formal hearing process.

5) **Waiver of Rights.** Respondent understands they have the right to consult with an attorney of their own choosing and has a right to an administrative hearing on the facts in this case. Respondent understands and agrees that by signing this Consent Agreement, Respondent is waiving their rights to counsel and to a hearing. Further, Respondent understands and agrees that they are relieving the Division of any burden it has of proving the facts admitted above. Respondent further understands and agrees that by signing this Consent Agreement they are voluntarily and knowingly giving up their right to present oral and documentary evidence, to present rebuttal evidence, to cross-examine witnesses against Respondent, and to appeal the Board's decision to Superior Court.

6) **Effect of Non-Acceptance of Consent Agreement.** Respondent and the Division agree that this Consent Agreement is subject to the approval of the Board. They agree that, if the Board rejects this Consent Agreement, it will be void, and an Accusation may be filed. If this Consent Agreement is rejected by the Board, it will not constitute a waiver of Respondent's right to a hearing on the matters alleged in an Accusation and the admissions contained herein will have no effect. Respondent agrees that, if the Board rejects this Consent Agreement, the Board may decide the matter after a hearing, and its consideration of this Consent Agreement shall not alone be grounds for claiming that the Board is biased against Respondent, that it cannot fairly decide the case, or that it has received ex parte communication.

7) **Consent Agreement, Decision, and Order.** Respondent agrees that the Board has the authority to enter into this Consent Agreement and to issue the following Decision and Order.

PROPOSED DECISION AND ORDER

IT IS HEREBY ORDERED that any license issued to Respondent by the Board shall be subject to the following terms and conditions:

In addition, any suspended portion of the civil fine will be immediately due.

If Respondent's license is suspended under this paragraph, as provided above, they will be entitled to a hearing, on an expedited basis, regarding the issue of the suspension. If Respondent's license is suspended, they will continue to be responsible for all license requirements pursuant to AS 08.80.

Respondent shall maintain an active license for the entire duration of this Consent Agreement. If the Respondent lets their license lapse, and after receiving adequate notice from the Board fails to correct the problem, the failure to maintain active licensure will be considered a violation of this Consent Agreement.

STATE OF NORTH CAROLINA
NORTH CAROLINA BOARD OF PHARMACY

IN THE MATTER OF	)	
	)	
POSTMEDS, INC. d/b/a Truepill,	)	**CONSENT ORDER**
	)	**OF DISCIPLINE**
Permit No. 13413 and Its Successor Permit(s).	)	

THIS MATTER came to be considered before a member of the North Carolina Board of Pharmacy (hereinafter, the "Board") pursuant to 21 N.C.A.C. 46 .2008. The Conference was scheduled for Thursday, February 24, 2022, and, after appropriate notice, was heard on that day by Board member Wallace E. Nelson. Respondent PostMeds, Inc. was informed of its right to be present at the pre-hearing conference and declined. The Board's General Counsel, Clinton R. Pinyan, represented the Board.

Respondent has agreed to waive a formal hearing in the above-referenced matter. It stipulates and agrees to the findings of fact and conclusions of law recited herein and to the order of discipline imposed. By its consent, Respondent also stipulates that it waives its right to appeal this Consent Order or challenge in any way the sufficiency of the findings of this Order as a basis for the action taken. Based upon the consent of the parties, the Board hereby enters the following:

FINDINGS OF FACT

1. On November 20, 2017, the Board issued Permit No. 13413 to Respondent PostMeds, Inc. d/b/a Truepill (Permit No. 13413) ("PostMeds").

2. On PostMeds' initial permit application, its then-pharmacist manager, Mohammad Umar Afridi, submitted an inaccurate statement that he was the sole owner and officer of PostMeds. In fact, PostMeds now acknowledges that Afridi and Siddharth

DOS Prothonotary
May 10 2023

Viswanathan each owned 47 percent of PostMeds on November 20, 2017, with others owning six percent, and that Viswanathan was also an officer of PostMeds.

3. Viswanathan and the minority owners' interests would not have raised questions about the permit application in this particular case. If PostMeds had disclosed the true ownership and officers of PostMeds, the Board still would have granted PostMeds a permit. However, it was an inaccurate statement that Afridi, as the person who submitted the application, knew was inaccurate. That statement prevented the Board from vetting Viswanathan as the owner of the pharmacy. Because of the inaccuracy of the representations, the initial permit was void ab initio.

4. In November 2019, PostMeds went through a corporate restructuring. During that restructuring, Truepill, Inc. was created as a holding company for PostMeds. At that time, Truepill, Inc. became the sole owner of PostMeds. Afridi, Viswanathan and the other former direct owners of PostMeds became indirect owners with the same ownership interests in the holding company, Truepill, Inc., that they had before the transfer of ownership.

5. This restructuring required PostMeds to submit a transfer of ownership application and have that application granted before the restructuring closed. PostMeds failed to do this. Therefore, even if the initial permit had been valid (which it was not), it would have become invalid upon the corporate restructuring.

6. Insertion of a new holding company between the ultimate owners and PostMeds would not have raised questions about the permit application in this particular case. The ownership interests of the ultimate owners did not change. If PostMeds had disclosed the new holding company, the Board still would have granted the transfer of ownership. However,

DOS Prothonotary.
May 10 2023

PostMeds failed to submit the transfer of ownership application or otherwise disclose the interests of Truepill, Inc.

7. In each of its subsequent renewals, PostMeds failed to correct the ownership information that it had inaccurately submitted on its initial application or to list Truepill, Inc., as the direct owner of the pharmacy.

8. On November 4, 2021, counsel for PostMeds informed the Board that its "current ownership information on file with the North Carolina Board of Pharmacy is out of date." Upon follow-up questioning, the next day, PostMeds disclosed that it should have submitted a transfer of ownership application in November 2019. It further was apparent from the ownership information that PostMeds provided that Afridi made inaccurate representations about ownership and officers on PostMed's initial application that had never been corrected.

9. PostMeds agreed to stop shipping any drugs, devices or medical equipment into the State of North Carolina until the matter was resolved. It further agreed to stop shipping or dispensing any drugs, devices or medical equipment from six other pharmacies under its ownership until the matter was resolved (even though those pharmacies did not receive permits until after the transfer of ownership had occurred, and so did not suffer from the same problem).

10. PostMeds submitted a transfer of ownership application promptly.

11. Although PostMed's disclosure of its inaccuracies was tardy, its remedial actions are a mitigating factor in this matter.

CONCLUSIONS OF LAW

1. Reporting of correct and complete ownership information on an initial pharmacy permit application or a renewal application is material, indeed essential, to the Board's ability to ensure that a pharmacy will provide services safely and competently to the public.

DOS Prothonotary.
May 10 2023

2. PostMeds made inaccurate statements about its ownership and officers on its initial application, which it failed to correct at any point through its 2022 renewal. That initial permit was therefore void ab initio and violated G.S. § 90-85.38(b).

3. The creation of Truepill, Inc. as a holding company further triggered a requirement to report the ownership change and obtain a successor permit, and to do so before the closing of the transaction that created Truepill, Inc. The transaction "result[ed] in a different person . . . owning more than 50 percent interest in the permit holder . . . ." 21 NCAC 46.1603. Failure to apply for and obtain a successor permit prior to the transaction, and a continuing failure to disclose the ownership interest of Truepill, Inc., violated G.S. § 90-85.38(b).

IT IS THEREFORE ORDERED:

PostMeds was in violation of G.S. § 90-85.38(b) in North Carolina from November 20, 2017 until at least November 4, 2021. Respondent PostMed's Permit No. 13413 was **VOID** from the time that it was granted on November 20, 2017. G.S. § 90-85.38(c).

Respondent PostMed's change of ownership application is **APPROVED** as a successor permits to Permit No. 13413 (the "Successor Permit") with the following **CONDITIONS:**

1. PostMeds shall provide timely advance notice of any contemplated change in ownership to the current pharmacist-manager and any future pharmacist-manager(s) of the Successor Permit. PostMeds shall consult with the Successor Permit's pharmacist-manager(s) to determine whether any contemplated transaction triggers the need to obtain new permits. PostMeds shall authorize the Successor Permit's pharmacist-manager(s) to take any necessary action to update that ownership information with the Board or to apply for new permits. If a contemplated transaction triggers the need for new permits, PostMeds shall not complete that

DOS Prothonotary:

transaction unless and until either the Board issues new permits or PostMeds ceases all practice of pharmacy at the permitted location.

2. The Successor Permit shall violate no laws governing the practice of pharmacy or the distribution of drugs.

3. The Successor Permit shall violate no rules or regulations of the Board.

4. If the Successor Permit fail to comply with any term or condition of this Order, it may be subject to additional disciplinary action by the Board.

Registration No. 22-117859	)	

AMENDED SUMMARY ORDER

NOW on this 20th day of January, 2023, comes before the Kansas Board of Pharmacy (the "Board"), through its Executive Director, the matter of PostMeds, Inc dba Truepill ("Respondent").

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq.*, and in accordance with the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq.*, the Board's Executive Secretary enters this Amended Summary Order in the above-captioned matter. After reviewing the investigation materials and being otherwise duly advised in the premises, makes the following findings, conclusions and order:

FINDINGS OF FACT

1. The Board has previously issued Respondent Registration No. 22-104228 which entitled Respondent to operate as a non-resident pharmacy in the State of Kansas.

2. On November 6, 2019, the ownership of Respondent's non-resident pharmacy changed.

3. On May 22, 2020, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 3, 2020 with an expiration date of June 30, 2021. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?"

DOS Prothonotary:
May 10 2023

Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

4. On June 1, 2021, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 21, 2021 with an expiration date of June 30, 2022. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?" Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

5. Due to staffing challenges, personnel turnover and administrative oversight resulting from its early, rapid growth and restructuring and the corresponding COVID-19 pandemic, Respondent mistakenly failed to report the 2019 ownership change and related disclosures to the Board in its May 22, 2020 and June 1, 2021 renewal applications.

6. On April 18, 2022, the Board received notification from Respondent of an ownership change and several past disciplinary actions not previously reported to the Board including: North Carolina Board of Pharmacy Consent Order of Discipline dated March 8, 2022; California State Board of Pharmacy Letter of Admonishment dated January 23, 2020; California State Board of Pharmacy Citation and Fine dated June 16, 2020; California State Board of Pharmacy Citation and Fine Order of Abatement dated August 25, 2021; Alabama State Board of Pharmacy Final Order dated October 25, 2021; California State Board of Pharmacy Citation and Fine dated January 24, 2019; and California State Board of Pharmacy Citation dated December 16, 2019.

DOS Prothonotary:
May 10 2023

3912

7. On April 28, 2022, the Board received from Respondent a Form BA-22 Non-Resident Pharmacy Registration Application ("Respondent's Application"), notifying of the change in ownership effective November 6, 2019, and applying for a new non-resident pharmacy registration under the new ownership.

8. On May 20, 2022, the Board approved Respondent's Application and issued Respondent the new Non-Resident Pharmacy Registration No. of 22-117859 ("Respondent's Registration") under their new ownership.

9. Prior to receiving the ownership change application, registrant provided a letter notifying of the late ownership change, as well as unreported discipline. Ownership change application completed indicating discipline had occurred and providing details of discipline (5 occurrences).

10. In mitigation, Respondent states that it has invested in additional staff, engaged internal and external legal counsel and implemented training efforts to prevent any such reporting oversights in the future.

CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.S.A. 65-1627(f), the Board may take action against a registration on any ground that would authorize the board to take action against the registration of a pharmacy under K.S.A. 65-1627, and amendments thereto.

3. Pursuant to K.S.A. 65-1627(e)(1), the Board may take action against the registration of a pharmacy upon a finding that such pharmacy has been operated in such manner

DOS Prothonotary.
May 10 2023

that violations of the provisions of the pharmacy act of the state of Kansas or of the rules and regulations of the board have occurred in connection therewith.

4. Pursuant to K.S.A. 65-1627(e)(4), the Board may take action against the registration of a pharmacy upon a finding that the registrant has had a registration revoked, suspended or limited, has been censured or has had other disciplinary action taken, or an application for registration denied, by the proper registering authority of another state, territory, District of Columbia or other country.

5. Pursuant to K.S.A. 65-1657, no nonresident pharmacy shall ship, mail, or deliver, in any manner, prescription drugs to a patient in this state unless registered with the Board as a nonresident pharmacy.

6. Pursuant to K.S.A. 65-1645(f), registrations shall not be transferable.

7. Pursuant to K.A.R. 68-2-9, each registrant shall notify the executive secretary of the Board in writing of any change in majority ownership of the operation for which the registration was issued within five days after the date the change in ownership becomes effective.

8. Pursuant to K.A.R. 68-2-23, each pharmacy owner shall notify the board in writing within 30 days of any denial, limitation, suspension, revocation, voluntary surrender, or other disciplinary action taken by the state of Kansas or another jurisdiction against the pharmacy or the pharmacy owner or any application, license, registration, or permit held by the pharmacy owner.

9. Respondent's registered facility changed ownership on November 6, 2019 but Respondent did not provide notification or file a new application with the Board until April 18 and 28, 2022, respectively.

10. Respondent's failure to submit the complete change of ownership to the Board until April 2022 is a violation pursuant to K.A.R. 68-2-9 and an unlawful transfer of the previous

DOS Prothonotary:
May 10 2023

registration to the new ownership. Respondent's actions are a violation pursuant to K.S.A. 65-1657 and K.S.A. 65-1627(e)(1), and a basis to take action against Respondent's Registration.

11. Respondent failed to notify the Board of the six disciplinary actions by North Carolina, California, and Alabama until April 18, 2022, nearly one to two years after they were effective, is a violation of K.A.R. 68-2-23 and a basis to take action against Respondent's Registration pursuant to K.S.A. 65-1627(e)(1) and (e)(4).

ORDER

Taking into account the mitigating and corrective actions of Respondent, the Board finds and concludes that Respondent's conduct, as described above, violates the Act and such conduct warrants the imposition of a fine pursuant to K.S.A. 65-1658, in the amount of $3,500.00. Respondent has 30 days from the date of this order to pay the fine.

NOTICES

The Respondent is hereby notified as follows:

1. The Respondent may request a hearing pursuant to the Kansas Administrative Procedure Act by filing a written request with the Kansas Board of Pharmacy, 800 SW Jackson, Suite 1414, Topeka, KS 66612-1231 within fifteen (15) days after service of this order.

2. If a hearing is not requested as described above, the Order shall become a final order of the Board, effective upon the expiration of the time to request a hearing.

3. Within fifteen (15) days after entry of a final agency order, either party may file a petition for reconsideration pursuant to K.S.A. 77-529.

4. Within the time limits established in K.S.A. 77-613, either party may seek judicial review of a final agency order, pursuant to said statute. The agency officer designated to receive service of a petition for judicial review is:

AMENDED SUMMARY ORDER

NOW on this 20th day of January, 2023, comes before the Kansas Board of Pharmacy (the "Board"), through its Executive Director, the matter of PostMeds, Inc dba Truepill ("Respondent").

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq.*, and in accordance with the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq.*, the Board's Executive Secretary enters this Amended Summary Order in the above-captioned matter. After reviewing the investigation materials and being otherwise duly advised in the premises, makes the following findings, conclusions and order:

FINDINGS OF FACT

1. The Board has previously issued Respondent Registration No. 22-104228 which entitled Respondent to operate as a non-resident pharmacy in the State of Kansas.

2. On November 6, 2019, the ownership of Respondent's non-resident pharmacy changed.

3. On May 22, 2020, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 3, 2020 with an expiration date of June 30, 2021. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?"

Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

4. On June 1, 2021, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 21, 2021 with an expiration date of June 30, 2022. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?" Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

5. Due to staffing challenges, personnel turnover and administrative oversight resulting from its early, rapid growth and restructuring and the corresponding COVID-19 pandemic, Respondent mistakenly failed to report the 2019 ownership change and related disclosures to the Board in its May 22, 2020 and June 1, 2021 renewal applications.

6. On April 18, 2022, the Board received notification from Respondent of an ownership change and several past disciplinary actions not previously reported to the Board including: North Carolina Board of Pharmacy Consent Order of Discipline dated March 8, 2022; California State Board of Pharmacy Letter of Admonishment dated January 23, 2020; California State Board of Pharmacy Citation and Fine dated June 16, 2020; California State Board of Pharmacy Citation and Fine Order of Abatement dated August 25, 2021; Alabama State Board of Pharmacy Final Order dated October 25, 2021; California State Board of Pharmacy Citation and Fine dated January 24, 2019; and California State Board of Pharmacy Citation dated December 16, 2019.

7. On April 28, 2022, the Board received from Respondent a Form BA-22 Non-Resident Pharmacy Registration Application ("Respondent's Application"), notifying of the change in ownership effective November 6, 2019, and applying for a new non-resident pharmacy registration under the new ownership.

8. On May 20, 2022, the Board approved Respondent's Application and issued Respondent the new Non-Resident Pharmacy Registration No. of 22-117859 ("Respondent's Registration") under their new ownership.

9. Prior to receiving the ownership change application, registrant provided a letter notifying of the late ownership change, as well as unreported discipline. Ownership change application completed indicating discipline had occurred and providing details of discipline (5 occurrences).

10. In mitigation, Respondent states that it has invested in additional staff, engaged internal and external legal counsel and implemented training efforts to prevent any such reporting oversights in the future.

CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.S.A. 65-1627(f), the Board may take action against a registration on any ground that would authorize the board to take action against the registration of a pharmacy under K.S.A. 65-1627, and amendments thereto.

3. Pursuant to K.S.A. 65-1627(e)(1), the Board may take action against the registration of a pharmacy upon a finding that such pharmacy has been operated in such manner

that violations of the provisions of the pharmacy act of the state of Kansas or of the rules and regulations of the board have occurred in connection therewith.

4. Pursuant to K.S.A. 65-1627(e)(4), the Board may take action against the registration of a pharmacy upon a finding that the registrant has had a registration revoked, suspended or limited, has been censured or has had other disciplinary action taken, or an application for registration denied, by the proper registering authority of another state, territory, District of Columbia or other country.

5. Pursuant to K.S.A. 65-1657, no nonresident pharmacy shall ship, mail, or deliver, in any manner, prescription drugs to a patient in this state unless registered with the Board as a nonresident pharmacy.

6. Pursuant to K.S.A. 65-1645(f), registrations shall not be transferable.

7. Pursuant to K.A.R. 68-2-9, each registrant shall notify the executive secretary of the Board in writing of any change in majority ownership of the operation for which the registration was issued within five days after the date the change in ownership becomes effective.

8. Pursuant to K.A.R. 68-2-23, each pharmacy owner shall notify the board in writing within 30 days of any denial, limitation, suspension, revocation, voluntary surrender, or other disciplinary action taken by the state of Kansas or another jurisdiction against the pharmacy or the pharmacy owner or any application, license, registration, or permit held by the pharmacy owner.

9. Respondent's registered facility changed ownership on November 6, 2019 but Respondent did not provide notification or file a new application with the Board until April 18 and 28, 2022, respectively.

10. Respondent's failure to submit the complete change of ownership to the Board until April 2022 is a violation pursuant to K.A.R. 68-2-9 and an unlawful transfer of the previous

registration to the new ownership. Respondent's actions are a violation pursuant to K.S.A. 65-1657 and K.S.A. 65-1627(e)(1), and a basis to take action against Respondent's Registration.

11. Respondent failed to notify the Board of the six disciplinary actions by North Carolina, California, and Alabama until April 18, 2022, nearly one to two years after they were effective, is a violation of K.A.R. 68-2-23 and a basis to take action against Respondent's Registration pursuant to K.S.A. 65-1627(e)(1) and (e)(4).

ORDER

Taking into account the mitigating and corrective actions of Respondent, the Board finds and concludes that Respondent's conduct, as described above, violates the Act and such conduct warrants the imposition of a fine pursuant to K.S.A. 65-1658, in the amount of $3,500.00. Respondent has 30 days from the date of this order to pay the fine.

NOTICES

The Respondent is hereby notified as follows:

1. The Respondent may request a hearing pursuant to the Kansas Administrative Procedure Act by filing a written request with the Kansas Board of Pharmacy, 800 SW Jackson, Suite 1414, Topeka, KS 66612-1231 within fifteen (15) days after service of this order.

2. If a hearing is not requested as described above, the Order shall become a final order of the Board, effective upon the expiration of the time to request a hearing.

3. Within fifteen (15) days after entry of a final agency order, either party may file a petition for reconsideration pursuant to K.S.A. 77-529.

4. Within the time limits established in K.S.A. 77-613, either party may seek judicial review of a final agency order, pursuant to said statute. The agency officer designated to receive service of a petition for judicial review is:

STATE OF NORTH CAROLINA
NORTH CAROLINA BOARD OF PHARMACY

IN THE MATTER OF	)	
	)	
POSTMEDS, INC. d/b/a Truepill,	)	**CONSENT ORDER**
	)	**OF DISCIPLINE**
Permit No. 13413 and Its Successor Permit(s).	)	

THIS MATTER came to be considered before a member of the North Carolina Board of Pharmacy (hereinafter, the "Board") pursuant to 21 N.C.A.C. 46 .2008. The Conference was scheduled for Thursday, February 24, 2022, and, after appropriate notice, was heard on that day by Board member Wallace E. Nelson. Respondent PostMeds, Inc. was informed of its right to be present at the pre-hearing conference and declined. The Board's General Counsel, Clinton R. Pinyan, represented the Board.

Respondent has agreed to waive a formal hearing in the above-referenced matter. It stipulates and agrees to the findings of fact and conclusions of law recited herein and to the order of discipline imposed. By its consent, Respondent also stipulates that it waives its right to appeal this Consent Order or challenge in any way the sufficiency of the findings of this Order as a basis for the action taken. Based upon the consent of the parties, the Board hereby enters the following:

FINDINGS OF FACT

1. On November 20, 2017, the Board issued Permit No. 13413 to Respondent PostMeds, Inc. d/b/a Truepill (Permit No. 13413) ("PostMeds").

2. On PostMeds' initial permit application, its then-pharmacist manager, Mohammad Umar Afridi, submitted an inaccurate statement that he was the sole owner and officer of PostMeds. In fact, PostMeds now acknowledges that Afridi and Siddharth

Viswanathan each owned 47 percent of PostMeds on November 20, 2017, with others owning six percent, and that Viswanathan was also an officer of PostMeds.

3. Viswanathan and the minority owners' interests would not have raised questions about the permit application in this particular case. If PostMeds had disclosed the true ownership and officers of PostMeds, the Board still would have granted PostMeds a permit. However, it was an inaccurate statement that Afridi, as the person who submitted the application, knew was inaccurate. That statement prevented the Board from vetting Viswanathan as the owner of the pharmacy. Because of the inaccuracy of the representations, the initial permit was void ab initio.

4. In November 2019, PostMeds went through a corporate restructuring. During that restructuring, Truepill, Inc. was created as a holding company for PostMeds. At that time, Truepill, Inc. became the sole owner of PostMeds. Afridi, Viswanathan and the other former direct owners of PostMeds became indirect owners with the same ownership interests in the holding company, Truepill, Inc., that they had before the transfer of ownership.

5. This restructuring required PostMeds to submit a transfer of ownership application and have that application granted before the restructuring closed. PostMeds failed to do this. Therefore, even if the initial permit had been valid (which it was not), it would have become invalid upon the corporate restructuring.

6. Insertion of a new holding company between the ultimate owners and PostMeds would not have raised questions about the permit application in this particular case. The ownership interests of the ultimate owners did not change. If PostMeds had disclosed the new holding company, the Board still would have granted the transfer of ownership. However,

PostMeds failed to submit the transfer of ownership application or otherwise disclose the interests of Truepill, Inc.

7. In each of its subsequent renewals, PostMeds failed to correct the ownership information that it had inaccurately submitted on its initial application or to list Truepill, Inc., as the direct owner of the pharmacy.

8. On November 4, 2021, counsel for PostMeds informed the Board that its "current ownership information on file with the North Carolina Board of Pharmacy is out of date." Upon follow-up questioning, the next day, PostMeds disclosed that it should have submitted a transfer of ownership application in November 2019. It further was apparent from the ownership information that PostMeds provided that Afridi made inaccurate representations about ownership and officers on PostMed's initial application that had never been corrected.

9. PostMeds agreed to stop shipping any drugs, devices or medical equipment into the State of North Carolina until the matter was resolved. It further agreed to stop shipping or dispensing any drugs, devices or medical equipment from six other pharmacies under its ownership until the matter was resolved (even though those pharmacies did not receive permits until after the transfer of ownership had occurred, and so did not suffer from the same problem).

10. PostMeds submitted a transfer of ownership application promptly.

11. Although PostMed's disclosure of its inaccuracies was tardy, its remedial actions are a mitigating factor in this matter.

CONCLUSIONS OF LAW

1. Reporting of correct and complete ownership information on an initial pharmacy permit application or a renewal application is material, indeed essential, to the Board's ability to ensure that a pharmacy will provide services safely and competently to the public.

2. PostMeds made inaccurate statements about its ownership and officers on its initial application, which it failed to correct at any point through its 2022 renewal. That initial permit was therefore void ab initio and violated G.S. § 90-85.38(b).

3. The creation of Truepill, Inc. as a holding company further triggered a requirement to report the ownership change and obtain a successor permit, and to do so before the closing of the transaction that created Truepill, Inc. The transaction "result[ed] in a different person . . . owning more than 50 percent interest in the permit holder . . . ." 21 NCAC 46.1603. Failure to apply for and obtain a successor permit prior to the transaction, and a continuing failure to disclose the ownership interest of Truepill, Inc., violated G.S. § 90-85.38(b).

IT IS THEREFORE ORDERED:

PostMeds was in violation of G.S. § 90-85.38(b) in North Carolina from November 20, 2017 until at least November 4, 2021. Respondent PostMed's Permit No. 13413 was **VOID** from the time that it was granted on November 20, 2017. G.S. § 90-85.38(c).

Respondent PostMed's change of ownership application is **APPROVED** as a successor permits to Permit No. 13413 (the "Successor Permit") with the following **CONDITIONS:**

1. PostMeds shall provide timely advance notice of any contemplated change in ownership to the current pharmacist-manager and any future pharmacist-manager(s) of the Successor Permit. PostMeds shall consult with the Successor Permit's pharmacist-manager(s) to determine whether any contemplated transaction triggers the need to obtain new permits. PostMeds shall authorize the Successor Permit's pharmacist-manager(s) to take any necessary action to update that ownership information with the Board or to apply for new permits. If a contemplated transaction triggers the need for new permits, PostMeds shall not complete that

transaction unless and until either the Board issues new permits or PostMeds ceases all practice of pharmacy at the permitted location.

2. The Successor Permit shall violate no laws governing the practice of pharmacy or the distribution of drugs.

3. The Successor Permit shall violate no rules or regulations of the Board.

4. If the Successor Permit fail to comply with any term or condition of this Order, it may be subject to additional disciplinary action by the Board.

CI 2020 89223	TRUEPILL, PHY 56100

JURISDICTION: Bus. & Prof. Code § 4314; CCR, title 16, § 1775; Bus. & Prof. Code § 4301, subd. (o)

VIOLATION CODE SECTION	OFFENSE	AMT OF FINE
CCR, Title 16, § 1714 subd. (b)	Operational Standards and Security; pharmacy responsible for pharmacy security	$5,000.00
Bus. & Prof. Code § 4169 subd. (a)(2)/Health & Safety Code § 111295	Prohibited Acts; Purchase, trade, sell, or transfer dangerous drugs to that the person knew or reasonably should have known were adulterated.../It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any drug or device that is adulterated	Citation without a fine

CONDUCT:

California Code of Regulations 1714, section b states, (b) Each pharmacy licensed by the board shall maintain its facilities, space, fixtures, and equipment so that drugs are safely and properly prepared, maintained, secured and distributed. The pharmacy shall be of sufficient size and unobstructed area to accommodate the safe practice of pharmacy. Specifically, Truepill Pharmacy, PHY56100, located at 3121 Diablo Ave, Hayward, CA 94545 was in violation when they failed to keep dangerous drugs stored according to policy and procedure 2001.4, Oversight of Pharmacy Safety, which states: "The Pharmacy will make all attempts at maintaining a room temperature below 85F and ideally between 68-77F". Between 7/1/2020 and 9/14/2020, on numerous occasions, dangerous drug storage temperatures, summarized in Table 2, exceeded the recommended storage temperatures. The most egregious of these temperature spikes were:

a) On 8/13/2020, in the cage area of the warehouse, dangerous drugs were stored approximately 161 hours over 77 F and 47 hours over 85F.
b) On 9/6/2020, in the cage area of the warehouse, dangerous drugs were stored approximately 59 hours over 77 F and 17 hours above 85F.
c) On 8/13/2020, in the Parata Automated dispensing machine located in the warehouse, dangerous drugs were stored for approximately 163 hours above 77 F and 44 hours above 85 F.

Business and Professions Code 4169 section (a), subdivision (2) states, A person or entity shall not do any of the following: (2) Purchase, trade, sell, or transfer dangerous drugs that the person knew or reasonably should have known were adulterated, as set forth in Article 2 (commencing with Section 111250) of Chapter 6 of Part 5 of Division 104 of the Health and Safety Code as it relates to Health and Safety Code 111295 which states, It is unlawful for any person to manufacture, sell, deliver, hold or offer for sale any drug or device that is adulterated. Specifically, Truepill Pharmacy, PHY56100, located at3121 Diablo Ave, Hayward, CA 94545 was in violation when they used the MKT calculation alone instead of in conjunction with manufactures stability data as stated in USP <1079>, which provides guidance for assessing possible adulteration to dangerous drugs stored at the pharmacy due to excessive heat. In particular, USP<1079> states, "Knowing the MKT for an excursion is useful for evaluating the potential impact on product quality. However, it is also essential to know the upper and lower temperature limits of any excursion. If these extreme temperatures are outside available stability data, it may not be possible to predict the quality impact of the excursion with any confidence regardless of the MKT. At higher temperatures the kinetics of degradation may change or new degradation reactions may occur. Truepill Pharmacy did not consider the manufacture's stability data for at least 72 dangerous drugs stored in the cage area of the warehouse which were held and offered for sale when determining if a dangerous drug was adulterated by the extreme heat, summarized in Table 3. For each one of the 72 dangerous drugs, the maximum temperature for storage was listed by the manufacturer as 77F or storage information was not listed. As there was no stability temperature for at least the 72 drugs in question and per USP<1079>, the MKT cannot be without the stability data, these drugs which were held and offered for sale were adulterated.

ORDER OF ABATEMENT

By the Abatement date/payment date submit to the Board the following:

- Either (1) full payment of the assessed fine(s) in the amount of $5,000.00; or payment in the amount of $1,000.00 and (2) provide proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within ninety (90) days.

COPY

If you choose option (2), within 90 days of this citation, you shall submit proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations. Any failure to do so shall be deemed a failure to meet the abatement requirements of this citation.

If you timely submit proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within 90 days from the date the citation was issued, this citation shall be reduced to $1,000.00 and proof of compliance of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations shall be considered satisfactory abatement of the citation.

If you fail to submit proof of compliance of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within 90 days from the date the citation was issued, the stay shall be lifted and the fine(s) in the amount of $5,000.00 shall be due and owing from you within thirty (30) days of any such failure.

LETTER OF ADMONISHMENT

ATTN: MOHAMMAD UMAR AFRIDI, CEO

HAYWARD, CA 94545

RE: CI 2019 84877
TRUEPILL
PHY 56100

This LETTER OF ADMONISHMENT is being issued pursuant to Business and Professions Code section 4315 for failure to comply with the laws and regulations that govern the practice of pharmacy in California. (For exact language refer to the California Pharmacy Law and Index, located on the board's website at www.pharmacy.ca.gov, under Forms and Publications.)

The Board of Pharmacy has completed its investigation in the above referenced matter. All documentation and/or statements relating to the investigation have been accepted and included in an Investigation Report on file in this office. Facts contained in this report lead to the conclusion that the following violations of pharmacy laws or regulations have occurred:

JURISDICTION: Bus. & Prof. Code § 4315; 1764/56.10(a) - Unauthorized disclosure of prescription and medical information

Unauthorized disclosure of prescriptions: California Code of Regulations section 1764 states in pertinent part that no pharmacist shall exhibit, discuss, or reveal the contents of any prescription or any medical information furnished by the prescriber with any person other than the patient or his or her authorized representative and Civil Code section 56.10 subdivision (a) states, in pertinent part, no provider of health care shall disclose medical information regarding a patient of the provider of health care without first obtaining an authorization. Truepill Pharmacy was not in compliance with these regulations. Specifically, on 4/17/2019, Truepill Pharmacy (PHY56100) located at 3121 Diablo Avenue in Hayward, CA shipped prescription RX#1186395 to the wrong person. The prescription was intended for AR but was shipped to the address of MS in error. Also, Truepill Pharmacy shipped prescriptions to patients with a shipping label showing the return address of NuRx located at 6838 Ellicott Drive in East Syracuse, NY and from Apostrophe located at 330 2nd Street in Oakland, CA. NuRx and Apostrophe are not licensed pharmacies and prescription packages returned as undeliverable to these locations would cause the disclosure of medical information without authorization.

Shipping prescriptions to an unauthorized person violates California Code of Regulations section 1764 and Civil Code 56.10.

If you wish to contest this Letter of Admonishment, you may do so by submitting, within 30 days of the date of service of this Letter of Admonishment, namely February 22, 2020, the attached "Request for an Office Conference" form. If an office conference is not requested, compliance with the Letter of Admonishment shall not constitute an admission of the violations described in the Letter of Admonishment.

Unless it is dismissed following an office conference or you receive other instructions from the Board in writing, Pharmacy Law requires that you maintain and have readily available for inspection a copy of this Letter of Admonishment and any written corrective action plan, if any, for at least three years from the date of issuance at the top of this letter. The Letter of Admonishment will be considered a public record for purposes of disclosure for three years from issuance. The issuance of this Letter of Admonishment does not limit the board's ability to pursue other disciplinary or administrative action under Business and Professions Code section 4315, subdivision (f).

If you have any questions regarding this Letter of Admonishment, please contact Barbera Schleicher, Public Inquiry Analyst at (916) 518-3081.

Provide explanation below:

On Feb. 12th, Covetrus North America resolved a criminal investigation that was conducted by the United States Attorney's Office for the Western District of Viriginia regarding the distribution of misbranded prescription veterinary medication. Distribution of veterinary prescription medication generally requires a closed supply chain in which every entity that possesses the medication is legally authorized to do so. Certain states, including Virginia, consider shipment of these products from a non-pharmacy, such as a distribution center, to a non-authorized location as being outside of the approved closed supply chain and thus misbranded.
The investigation concluded that Covetrus North America shipped prescription veterinary medication to locations that were not authorized to receive them. All veterinary prescription drugs must be dispensed either by a pharmacy pursuant to a valid prescription issued by a veterinarian or dispensed directly by a veterinarian. Our Large Animal Pharmacy, which is currently active in 49 states, is designed to comply with this requirement.

Throughout this investigation, we fully cooperated with the U.S. Attorney's office. In resolving the investigation, Covetrus North America has agreed to pay the federal government in excess of $22 million and pay $1 million to the Virginia Department of Health Professions for their assistance to the United States during the investigation. Sentencing is scheduled for May 8th and we expect to be subject to certain compliance requirements and may be placed on probation for a specified period of time.

To the State Board:

On Feb. 12th, Covetrus North America resolved a criminal investigation that was conducted by the United States Attorney's Office for the Western District of Virginia regarding the distribution of misbranded prescription veterinary medication.

Distribution of veterinary prescription medication generally requires a closed supply chain in which every entity that possesses the medication is legally authorized to do so. Certain states, including Virginia, consider shipment of these products from a non-pharmacy, such as a distribution center, to a non-authorized location as being outside of the approved closed supply chain and thus misbranded.

The investigation concluded that Covetrus North America shipped prescription veterinary medication to locations that were not authorized to receive them. All veterinary prescription drugs must be dispensed either by a pharmacy pursuant to a valid prescription issued by a veterinarian or dispensed directly by a veterinarian. Our Large Animal Pharmacy, which is currently active in 49 states, is designed to comply with this requirement.

Throughout this investigation, Covetrus fully cooperated with the U.S. Attorney's office. In resolving the investigation, Covetrus North America agreed to pay the federal government in excess of $22 million and pay $1 million to the Virginia Department of Health Professions for its assistance to the United States during the investigation.

On May 8, Covetrus was sentenced to a one-year probation period, to which the government did not object. The company will be subject to certain compliance requirements in connection with this probationary period with which we fully cooperate.

Thank you.

INFORMATION

INTRODUCTION

1. Defendant COVETRUS NORTH AMERICA LLC ("COVETRUS NA") is a Delaware corporation with its principal place of business in Dublin, Ohio. COVETRUS NA was formerly known as Butler Animal Health Supply, LLC and was a subsidiary of Henry Schein, Inc. In February 2019, Henry Schein, Inc. spun-off its animal health business, including Butler Animal Health Supply LLC, which in turn merged with Vets First Choice to create a separate entity named Covetrus, Inc. As part of that spin-merger, Butler Animal Health Supply, LLC became a subsidiary of Covetrus, Inc., and was re-named Covetrus North America LLC. Covetrus, Inc., through its wholly-owned subsidiary, is the ultimate sole member controlling COVETRUS NA. COVETRUS NA dispenses, distributes, and sells, among other products, veterinary prescription drugs to customers across the United States. Specifically, COVETRUS NA obtains prescription drugs for animals from manufacturers for further distribution to veterinarians, farms, feedlots, and others.

2. The Food and Drug Administration ("FDA") of the United States Department of Health and Human Services ("HHS") regulates the distribution and labeling of all drugs, including animal drugs, shipped or received in interstate commerce through enforcement of the Federal Food, Drug, and Cosmetic Act. 21 U.S.C § 301, et seq. ("FDCA"). Veterinary

prescription drugs are drugs intended for use by animals that, because of their toxicity or other potentiality for harmful effect, or the method of their use, or the collateral measures necessary for their use, are not safe for animal use except under the professional supervision of a licensed veterinarian. 21 U.S.C. § 353(f)(1)(A).

3. Under the FDCA, a drug is misbranded if, among other things, its labeling does not bear "adequate directions for use." 21 U.S.C. § 352(f)(1). Adequate directions for use is defined as "directions under which the layman can use a drug safely and for the purposes for which it is intended." 21 C.F.R. § 201.5 (emphasis added). Prescription veterinary drugs by definition can only safely be used under the professional supervision of a licensed veterinarian and therefore they must qualify for an exemption to this requirement in order to move in interstate commerce. These exemptions are set out in 21 C.F.R. Part 201, Subpart D ("Exemptions from Adequate Directions for Use").

4. Veterinary prescription drugs are exempt from the requirement that their labeling contain adequate directions for use if they meet all enumerated conditions, including that they be distributed through a closed supply chain in which every entity that possesses a prescription drug must have legal authorization to do so. See 21 C.F.R. § 201.105 (a)(1) (a veterinary prescription drug must be in the possession of: a person lawfully engaged in the manufacture, transportation, storage or wholesale distribution of drugs; a retail pharmacy or other person authorized under state law to dispense veterinary prescription drugs; or a licensed veterinarian for use in the course of his professional practice). Moreover, the veterinary prescription drug must be dispensed in accordance with 21 U.S.C. § 353(f), i.e., pursuant to a lawful order of a licensed veterinarian in the course of the veterinarian's professional practice. 21 U.S.C. § 353(f)(1) & 21 C.F.R. § 201.105 (a)(2). In other words, all veterinary prescription drugs must be dispensed (a)

by a pharmacy pursuant to a valid prescription issued by a veterinarian or (b) dispensed directly by a veterinarian.

5. In the Commonwealth of Virginia and certain other states, veterinary prescription drugs may only be shipped to locations authorized by the state. Shipment of prescription drugs from a non-pharmacy to a non-authorized location is outside of the approved closed supply chain and, accordingly, such prescription drugs are not exempt from the requirement that their labeling contain adequate directions for use. The shipments in question from COVETRUS NA failed to include adequate directions for use and accordingly, were misbranded.

6. The FDCA's restrictions on veterinary prescription drugs not only protect animals from the potential harms of prescription drugs, but are, in part, to prevent overuse of antibiotics and other prescription drugs which can lead to development of drug-resistant bacteria and microbes. In addition, the FDCA's restrictions also ensure that drugs are shipped to locations where the drugs will be properly stored to ensure the drugs remain viable and to prevent diversion. Also, as to drugs used by animals that are in the human food supply, the restrictions protect the human food supply from unsafe drug residue in the edible tissues of animals sold for slaughter. Common causes of illegal residue include: (1) exceeding the drug's approved dose; (2) using a shorter withdrawal period than what is stated on the drug's label (if a higher than approved dose is given, the labeled withdrawal period may not be enough to allow the drug in the edible tissues to deplete to levels that are at or below the tolerance); (3) using a drug in an extra-label manner (for indications and dosages outside the approved labeling) without a veterinarian's involvement; (4) giving a drug not approved for that species; and (5) using an unapproved route of administration. Drug residue in the nation's food supply is concerning because: (1) they may contribute to antibiotic resistance in the human population, rendering

human drugs less effective to treat human disease and contributing to the mutations of "superbugs"; and (2) they may cause allergic reactions in individuals with certain drug allergies.

7. From March 2019 to 2021, COVETRUS NA caused misbranded veterinary prescription drug shipments to be made in interstate commerce to various locations in the Commonwealth of Virginia and certain other states by distributing veterinary prescription drugs from its wholesale locations directly to end users in states where such shipments were illegal. COVETRUS NA shipped these misbranded veterinary drugs to unauthorized users/locations. The list of unauthorized customers included locations such as equine, humane society, large animal practice, mixed practice 50/50, mobile vet practices, and personal accounts. COVETRUS NA obtained not less than $21,534,091 (twenty-one million five hundred thirty-four thousand ninety-one dollars) from such shipments. Its profits from such shipments were a small percentage of the amount received.

COUNT ONE

Introduction of Misbranded Drugs into Interstate Commerce
21 U.S.C. §§ 331(a), 333(a)(1), and 352(f)(1)

The United States Attorney charges that:

8. The Introduction is realleged and incorporated by reference into this Count.

9. From March 2019 to December 2021, in the Western District of Virginia and elsewhere, COVETRUS NORTH AMERICA LLC ("COVETRUS NA") introduced and delivered for introduction, and caused the introduction and delivery for introduction, into interstate commerce, of veterinary prescription drugs that were misbranded in that the drugs' labeling did not bear adequate directions for the use of such drugs.

10. The Offense Conduct was the following:

a. COVETRUS NA distributed veterinary prescription drugs directly from their non-pharmacy locations to various end-users; and

b. COVETRUS NA distributed veterinary prescription drugs to locations that were not authorized locations to which prescription drugs could legally be shipped.

c. Since these veterinary prescription drugs were not lawfully distributed, they failed to qualify for the exemption from the requirement that they bear labeling containing adequate directions for lay use. Accordingly, such shipments were shipments of misbranded drugs.

d. The Offense Conduct does not include shipments of products containing xylazine.

11. All in violation of Title 21, United States Code, Sections 331(a), 333(a)(1), and 352(f)(1).

NOTICE OF FORFEITURE

12. Upon conviction of the offense alleged in this Information, COVETRUS NA shall forfeit to the United States veterinary prescription drugs that were misbranded or became misbranded as a result of COVETRUS NA's conduct, pursuant to 21 U.S.C. § 334 and 28 U.S.C. § 2461.

13. Because the above-described forfeitable property has been transferred and sold to third parties and cannot be located upon the exercise of due diligence, the United States intends to seek forfeiture of $21,534,091 (twenty-one million five hundred thirty-four thousand ninety-one dollars) pursuant to 21 U.S.C. § 853(p).

PLEA AGREEMENT

COVETRUS NORTH AMERICA LLC (EIN: 37-1507466) has entered into a Plea Agreement with the United States of America, by counsel, pursuant to Rule 11(c)(1)(C) of the Federal Rules of Criminal Procedure ("Fed. R. Crim. P."). The terms and conditions of this Plea Agreement are as follows:

1. CHARGE TO WHICH COVETRUS NORTH AMERICA LLC IS PLEADING GUILTY AND WAIVER OF RIGHTS

COVETRUS NORTH AMERICA LLC ("COVETRUS NA") will enter a plea of guilty to Count One of the Information charging it with violating Title 21, United States Code, Sections 331(a), 333(a)(1), and 352(f)(1) in the Western District of Virginia by introducing and delivering for introduction, and causing the introduction and delivery for introduction, into interstate commerce of veterinary prescription drugs that were misbranded.

COVETRUS NA understands, and the parties agree and stipulate, the maximum statutory penalty is a fine of $3,230,114 (three million two hundred thirty thousand one hundred fourteen dollars), pursuant to Title 18, United States Code, Section 3571(d), and a period of probation of five (5) years, pursuant to Title 18, United States Code, Section 3561(c)(2). In addition, COVETRUS NA's assets are subject to forfeiture. COVETRUS NA understands fees may be imposed to pay for probation and there will be a $125 (one hundred twenty-five dollars) special assessment for Count One, pursuant to Title 18, United States Code, Section 3013(a)(1)(B)(iii). COVETRUS NA's attorneys have informed it of the nature of the charge and the elements of the charge that must be proved by the United States beyond a reasonable doubt before COVETRUS NA could be found guilty as charged.

COVETRUS NA admits and agrees that all of the statements and allegations in the Information are true and correct.

COVETRUS NA acknowledges COVETRUS NA has had all of its rights explained to it. COVETRUS NA expressly recognizes that, as a corporation, it may have the following constitutional rights and by voluntarily pleading guilty COVETRUS NA knowingly waives and gives up these valuable constitutional rights:

- The right to plead not guilty and persist in that plea.
- The right to a speedy and public jury trial.
- The right to assistance of counsel at that trial and in any subsequent appeal.

- The right to remain silent at trial.
- The right to testify at trial.
- The right to confront and cross-examine witnesses. The right to present evidence and witnesses.
- The right to compulsory process of the court.
- The right to compel the attendance of witnesses at trial. The right to be presumed innocent.
- The right to a unanimous guilty verdict. The right to appeal a guilty verdict.

COVETRUS NA is pleading guilty as described above because it is in fact guilty and because COVETRUS NA believes it is in its best interest to do so and not because of any threats or promises, other than the terms of this Plea Agreement, described herein, made in exchange for its plea of guilty. COVETRUS NA agrees all of the matters set forth in the Information are true and correct.

COVETRUS NA agrees, and hereby consents, pursuant to Title 18, United States Code, Section 3401 and Federal Rule of Criminal Procedure 58(b)(3)(A), to a magistrate judge taking COVETRUS NA's guilty plea, sentencing COVETRUS NA, and entering judgment against COVETRUS NA. COVETRUS NA understands it has a right to trial, judgment, and sentencing by a district judge and a right to trial by jury. Knowing these rights, COVETRUS NA expressly consents to be tried before the magistrate judge and expressly and specifically waives trial, judgment, and sentencing by a district judge.

COVETRUS NA understands the plea is being entered in accordance with Fed. R. Crim. P. 11(c)(1)(C).

2. SENTENCING PROVISIONS

The parties agree the 2023 version of the United States Sentencing Commission Guidelines Manual ("U.S.S.G.") is the appropriate Guidelines Manual to utilize. According to U.S.S.G. § 8C2.1, the organizational fine provisions do not apply to the count of conviction in this case, which is a misdemeanor under 21 U.S.C. § 333(a)(1).

The parties agree and stipulate:

a. the fine shall be $1,000,000 (one million dollars);

b. COVETRUS NA shall pay $1,000,000 (one million dollars) to the Virginia Department of Health Professions ("DHP") in recognition of direct assistance provided by DHP to the United States during the investigation;

c. COVETRUS NA shall forfeit $21,534,091 (twenty-one million five hundred thirty-four thousand ninety-one dollars); and

d. COVETRUS NA shall serve a term of probation of one to three years, as determined by the Court.

The Court will determine what terms and length of probation are appropriate and the parties

will be free to argue for which terms and length of probation they believe are appropriate. COVETRUS NA understands and agrees if its probation is revoked, it may be resentenced and a total aggregate fine up to the statutory maximum may be imposed.

The parties agree if the Court refuses to accept this Plea Agreement with the agreed-upon sentence, COVETRUS NA will be free to withdraw its guilty plea. Acceptance of this Plea Agreement by the Court includes acceptance of each of the sentencing provisions and financial obligations described herein. In the event the Court refuses to accept this Plea Agreement and COVETRUS NA withdraws its guilty plea within ten days of being notified of the Court's refusal, nothing in this Plea Agreement shall be deemed a waiver of the provisions of Federal Rule of Evidence ("Fed. R. Evid.") 410. Under these circumstances, the United States will move to dismiss the Information without prejudice and the United States may file any charges it could have filed in the absence of the plea agreement. COVETRUS NA agrees to toll the statute of limitations between the date of the entry of the plea and the filing of any such charges.

3. FINANCIAL OBLIGATIONS

COVETRUS NA agrees and understands any of the money paid pursuant to this Plea Agreement will be returned if, and only if, the Court refuses to accept this Plea Agreement with the agreed- upon sentence and, as a result, COVETRUS NA withdraws its guilty plea. If the Court rejects this Plea Agreement and COVETRUS NA withdraws its guilty plea, the United States will return all money paid by COVETRUS NA, without interest, not more than thirty (30) days after COVETRUS NA withdraws its guilty plea and notifies the United States Attorney's Office for the Western District of Virginia ("USAO"), in writing, it wishes to have the money returned.

In addition, in accordance with 18 U.S.C. § 3572(d)(3), COVETRUS NA will notify the Court of any material change in COVETRUS NA's economic circumstances that might affect COVETRUS NA's ability to pay any amounts payable under this Plea Agreement.

a. Payments

On or before January 4, 2024, COVETRUS NA will make the following disbursements:

(1) $1,000,000 (one million dollars) to the Virginia Department of Health Professions. These funds must be remitted in the form of certified funds made payable to the "Treasurer of Virginia." The comment section of the check should note "DHP-Enforcement" in recognition of direct assistance provided to the United States during the investigation; and

(2) $21,534,091 (twenty-one million five hundred thirty-four thousand ninety-one dollars) in full satisfaction of the forfeiture money judgment. These funds must be remitted in the form of certified funds made payable to the U.S. Marshals Service, Asset Forfeiture Unit, 247 Federal Building, 210 Franklin Road, S.W., Roanoke, Virginia.

Within 7 days of the entry of COVETRUS NA's guilty plea, COVETRUS NA will make the following disbursements:

(1) $125 (one hundred twenty-five dollars) to the Clerk, U.S. District Court, Abingdon, Virginia, as payment of the special assessment; and

(2) $1,000,000 (one million dollars) to the Clerk, U.S. District Court, Abingdon, Virginia, as payment of the fine.

b. Forfeiture

COVETRUS NA agrees to the entry of a forfeiture money judgment in the amount of $21,534,091 (twenty-one million five hundred thirty-four thousand ninety-one dollars) in United States currency ("Forfeiture Money Judgment") pursuant to 21 U.S.C. §§ 334 and 853(p), and 28 U.S.C. § 2461(c). COVETRUS NA agrees that the value of the quantities of prescription drugs which were misbranded in violation of 21 U.S.C. § 331(a) totaled at least $21,534,091 (twenty-one million five hundred thirty-four thousand ninety-one dollars) in United States currency.

COVETRUS NA acknowledges and agrees the quantities of the drugs which were misbranded in violation of 21 U.S.C. § 331(a) cannot be located upon exercise of due diligence, or have been transferred or sold to, or deposited with, a third party, placed beyond the jurisdiction of the Court, substantially diminished in value, or commingled with other property which cannot be divided without difficulty. Accordingly, COVETRUS NA agrees the government is entitled to forfeit as substitute assets any other assets of COVETRUS NA up to the value of the now missing directly forfeitable assets, pursuant to 21 U.S.C. § 853(p). Payment in full of the Forfeiture Money Judgment shall satisfy any and all forfeiture obligations that COVETRUS NA may have as a result of this guilty plea. COVETRUS NA consents to the entry of an Order of Forfeiture pursuant to Rule 32.2 of the Federal Rules of Criminal Procedure forfeiting the above-referenced Forfeiture Money Judgment.

COVETRUS NA agrees to sign any documentation necessary and to cooperate fully with the United States to accomplish the forfeiture. COVETRUS NA agrees to forfeit all interest in these funds and to take whatever steps are necessary to pass clear title of these funds to the United States.

COVETRUS NA agrees not to file a claim in any forfeiture proceeding or to contest, in any manner, the forfeiture of said assets. COVETRUS NA agrees not to file or interpose any claim or to assist others to file or interpose any claim to any property against which the government seeks to execute the Forfeiture Money Judgement in any administrative or judicial proceeding.

COVETRUS NA understands and agrees forfeiture of this property is proportionate to the degree and nature of the offense. COVETRUS NA freely and knowingly waives any and all constitutional and statutory challenges to any forfeiture carried out in accordance with this Plea Agreement on any grounds, including, but not limited to, that the forfeiture constitutes an excessive fine or punishment. COVETRUS NA further understands and agrees this forfeiture is separate and distinct from, and is not in the nature of, or in lieu of, any monetary penalty or other monetary judgment that may be imposed by the court.

c. Restitution

The parties agree and stipulate, pursuant to 18 U.S.C. § 3663(a)(1)(B)(ii), that no restitution

will be ordered.

4. ADDITIONAL OBLIGATIONS

Unless the Court rejects this Plea Agreement and, as a result, COVETRUS NA withdraws its plea, COVETRUS NA agrees to: (1) accept responsibility for its conduct; (2) not attempt to withdraw its guilty plea; (3) not deny it committed the crime to which it has pled guilty; (4) comply with any reasonable request of the United States Attorney's Office and (5) not make or adopt any arguments or objections to the presentence investigation report that are inconsistent with this Plea Agreement.

COVETRUS NA will not (1) make any public statement or (2) make any statement or take any position in litigation in which any United States department or agency is a party, contradicting any statement or provision set forth in the Plea Agreement or its attachments. If COVETRUS NA inadvertently makes a public statement that in whole or in part contradicts any such statement or provision, COVETRUS NA may avoid being in violation of this Plea Agreement by promptly publicly repudiating such statement. For the purposes of this paragraph, the term "public statement" means any statement made or authorized by COVETRUS NA's directors, officers, employees, or attorneys and includes, but is not limited to, a statement in (1) a press release, (2) public relations material, or (3) COVETRUS NA websites. Notwithstanding the above, COVETRUS NA may avail themselves of any legal or factual arguments available (1) in defending litigation brought by a party other than the United States or (2) in any inquiry, complaint, notice of violation, investigation or proceeding brought by a state entity or by the United States Congress. This paragraph does not apply to any statement made by any individual in the course of any actual or contemplated criminal, regulatory, administrative, or civil case initiated by any governmental or private party against such individual.

5. WAIVER OF RIGHT TO APPEAL AND COLLATERALLY ATTACK THE JUDGMENT AND SENTENCE IMPOSED BY THE COURT

If the Court accepts this Plea Agreement, COVETRUS NA agrees COVETRUS NA will not appeal the conviction or sentence imposed. COVETRUS NA is knowingly and voluntarily waiving any right to appeal and is voluntarily willing to rely on the Court in sentencing it, pursuant to the terms of Fed. R. Crim. P. 11(c)(1)(C). COVETRUS NA expressly waives its right to appeal as to any and all issues in this matter and waives any right it may have to collaterally attack, in any future proceeding, any order issued in this matter, unless such appeal or collateral attack cannot be waived, by law. COVETRUS NA understands the United States expressly reserves all of its rights to appeal, but if the United States initiates a direct appeal of the sentence imposed, COVETRUS NA may file a cross appeal of that same sentence. COVETRUS NA agrees and understands if it files any court document (except for an appeal or collateral attack based on an issue that cannot be waived, by law) seeking to disturb, in any way, any order imposed in the case such action shall constitute a failure to comply with a provision of this Plea Agreement.

6. INFORMATION ACCESS WAIVER

COVETRUS NA agrees to waive all rights, whether asserted directly or by a representative, to request or receive from any department or agency of the United States any

records pertaining to the investigation or prosecution of this case, including, without limitation, any records that may be sought under the Freedom of Information Act, 5 U.S.C. § 552, or the Privacy Act of 1974, 5 U.S.C. § 552a. However, if a third party obtains any records pertaining to the investigation or prosecution of this case under the Freedom of Information Act, COVETRUS NA shall have the right to request copies of such disclosed records.

7. ADMISSIBILITY OF STATEMENTS

COVETRUS NA understands any statements made on its behalf (including, but not limited to, this Plea Agreement and its admission of guilt) during or in preparation for any guilty plea hearing, sentencing hearing, or other hearing and any statements made, in any setting, may be used against COVETRUS NA by the United States in this or any other proceeding. COVETRUS NA knowingly waives any right it may have under the Constitution, any statute, rule or other source of law to have such statements, or evidence derived from such statements, suppressed or excluded from being admitted into evidence in this or any other proceeding. If, and only if, the Court rejects this Plea Agreement, and, as a result, COVETRUS NA withdraws its plea, COVETRUS NA will not be bound by the waivers set forth in this section of the Plea Agreement.

8. SUCCESSOR LIABILITY

COVETRUS NA agrees if, during the Term, it undertakes any material change in corporate form, including if it sells, merges, or transfers any portion of its business operations material to COVETRUS NA's consolidated operations as they existed as of January 31, 2023, whether such change is structured as a sale, asset sale, merger, transfer, or other material change in corporate form, it shall include in any contract for sale, merger, transfer, or other change in corporate form a provision binding the purchaser, or any successor in interest thereto, to the obligations described in this Agreement unless the USAO-WDVA otherwise agrees in writing. COVETRUS NA shall provide notice to the USAO-WDVA at least 60 (sixty) days prior to undertaking any such sale, merger, transfer, or other change in corporate form. Nothing herein shall restrict COVETRUS NA from indemnifying (or otherwise holding harmless) the purchaser or successor in interest for penalties or other costs arising from any conduct that may have occurred prior to the date of the transaction, so long as such indemnification does not have the effect of circumventing or frustrating the enforcement purposes of this Agreement, as determined by the USAO-WDVA.

9. COMPLETION OF PROSECUTION

Pursuant to Fed. R. Crim. P. 11(c)(l)(A), so long as COVETRUS NA complies with all of its obligations under this Plea Agreement, the United States agrees, other than the charge in the attached Information, it shall not further criminally prosecute COVETRUS NA for any federal criminal charges or forfeiture action with respect to any Offense Conduct set forth in the Information.

Nothing in this Plea Agreement affects the administrative, civil, criminal, or other tax liability of any entity or individual and this Plea Agreement does not bind the Internal Revenue Service of the Department of Treasury, the Tax Division of the United States Department of Justice, or any other government agency with respect to the resolution of any tax issue.

10. LIMITATION OF PLEA AGREEMENT

This Plea Agreement is limited to the United States Department of Justice and does not bind any other federal, state, or local authority.

11. COMPLIANCE AND REMEDIAL MEASURES

COVETRUS NA agrees to comply with the Corporate Compliance Program Agreement attached hereto as Attachment B.

12. COOPERATION

COVETRUS NA acknowledges that its ongoing and future cooperation is important and a material fact underlying the United States' decision to enter into this Plea Agreement. COVETRUS NA agrees to continue to cooperate fully and actively with the United States regarding any matter, including, but not limited to, matters involving (a) current and former COVETRUS NA personnel, and (b) other entities who operate in the same commercial segment as COVETRUS NA.

Nothing in this Plea Agreement shall be construed to require COVETRUS NA to waive any attorney-client privilege or work-product protection.

13. REMEDIES FOR FAILURE TO COMPLY WITH ANY PROVISION OF THIS PLEA AGREEMENT

COVETRUS NA understands, agrees, and stipulates if: (1) COVETRUS NA attempts to withdraw its plea; (2) COVETRUS NA fails to comply with any provision of this Plea Agreement; (3) COVETRUS NA's conviction is set aside, for any reason; (4) COVETRUS NA fails to execute all required paperwork; and/or (5) the Court rejects the plea agreement, the United States may, at its election, pursue any or all of the following remedies: (a) declare this Plea Agreement void; (b) file, by indictment or information, any charges which were filed and/or could have been filed concerning the matters involved in the instant investigation; (c) refuse to abide by any stipulations and/or recommendations contained in this Plea Agreement; (d) not be bound by any obligation of the United States set forth in this Plea Agreement, including, but not limited to, those obligations set forth in the section of this Plea Agreement titled "COMPLETION OF PROSECUTION;" and (e) take any other action provided for under this Plea Agreement or by statute, regulation or court rule.

COVETRUS NA hereby waives its right under Fed. R. Crim. P. 7 to be proceeded against by indictment and consents to the filing of an information against it concerning any charges filed pursuant to this section of this Plea Agreement. COVETRUS NA hereby waives any statute of limitations argument as to any such charges. COVETRUS NA hereby waives any double jeopardy, speedy trial, or statute of limitations defense it may have as to any reinstated, newly filed, or non- dismissed charges described in this section of this Plea Agreement. COVETRUS NA agrees the provisions of this section are contractual obligations between the United States and COVETRUS NA and are severable from the plea agreement and survive any Court's rejection of the plea agreement.

The remedies set forth above are cumulative and not mutually exclusive. If the United

States pursues any of its permissible remedies as set forth in this Plea Agreement, COVETRUS NA will still be bound by its obligations under this Plea Agreement.

14. EFFECTIVE REPRESENTATION

COVETRUS NA has discussed the terms of this Plea Agreement and all matters pertaining to the charges against it with its attorneys and is fully satisfied with its attorneys and its attorneys' advice. At this time, COVETRUS NA has no dissatisfaction or complaint with its attorneys' representation. COVETRUS NA agrees to make known to the Court no later than at the time of sentencing any dissatisfaction or complaint COVETRUS NA may have with its attorneys' representation.

15. EFFECT OF AUTHORIZED SIGNATURE ON BEHALF OF COVETRUS NA

COVETRUS NA understands its Authorized Corporate Officer's signature on this Plea Agreement constitutes a binding offer by it to enter into this Plea Agreement. COVETRUS NA understands the United States has not accepted COVETRUS NA's offer until the authorized representative of the United States has signed this Plea Agreement.

16. GENERAL UNDERSTANDINGS

COVETRUS NA understands a presentence investigation will be conducted and sentencing recommendations independent of the USAO will be made by the presentence preparer.

COVETRUS NA understands the United States and COVETRUS NA retain the right, notwithstanding any provision in this Plea Agreement, to inform the probation office and the Court of all facts, to address the Court with respect to the nature and seriousness of the offense and the offender, to respond to any questions raised by the Court, to correct any inaccuracies or inadequacies in the presentence report, and to respond to any statements made to the Court.

COVETRUS NA willingly stipulates there is a sufficient factual basis for the Court to accept the plea.

COVETRUS NA understands this Plea Agreement does not apply to any crimes or charges not addressed in this Plea Agreement.

COVETRUS NA has not been coerced, threatened, or promised anything other than the terms of this Plea Agreement, described above, in exchange for its plea of guilty. COVETRUS NA understands its attorneys will be free to argue any mitigating factors on its behalf to the extent they are not inconsistent with the terms of this Plea Agreement. COVETRUS NA understands COVETRUS NA will have an opportunity to have a representative address the Court prior to sentence being imposed.

This writing, the Corporate Compliance Program Agreement (attached as Attachment B), and the Agreed Order of Forfeiture (attached as Attachment C) are the complete and only agreements between the United States and COVETRUS NA concerning resolution of this matter. In addition, COVETRUS NA has no objection to the filing of the Information.

The agreements and documents listed in this section set forth the entire understanding between the parties and constitute the complete agreement between the United States Attorney for the Western District of Virginia and COVETRUS NA and no other additional terms or agreements shall be entered except and unless those other terms or agreements are in writing and signed by the parties. These agreements supersede all prior understandings, promises, agreements, or conditions, if any, between the United States and COVETRUS NA. COVETRUS NA consents to public disclosure of all of the agreements and other documents referenced in this section.

COVETRUS NA has consulted with its attorneys and fully understands its rights. COVETRUS NA has read this Plea Agreement and carefully reviewed every part of it with its attorneys. COVETRUS NA understands this Plea Agreement and COVETRUS NA voluntarily agrees to it. Being aware of all of the possible consequences of its plea, COVETRUS NA has independently decided to enter this plea of its own free will and is affirming that agreement on this date by the signature of its Authorized Corporate Officer ("Officer") below.

The Officer, by signing below, hereby certifies to the following:

(1) The Officer is fully authorized to enter into this Plea Agreement on behalf of COVETRUS NA;

(2) The Officer has read the entire Plea Agreement and documents referenced herein and discussed them with COVETRUS NA's Board of Directors;

(3) COVETRUS NA understands all the terms of this Plea Agreement and those terms correctly reflect the results of plea negotiations;

(4) COVETRUS NA is fully satisfied with COVETRUS NA's attorneys' representation during all phases of this case;

(5) COVETRUS NA is freely and voluntarily pleading guilty in this case;

(6) COVETRUS NA is pleading guilty as set forth in this Plea Agreement because it is guilty of the crime to which it is entering its plea; and

(7) COVETRUS NA understands it is waiving its right to appeal the judgment and conviction in this case.

COVETRUS NA acknowledges its acceptance of this Plea Agreement by the signature of its counsel and Officer. A copy of a certification by the Board of Directors of Covetrus, Inc., the ultimate sole member, through its wholly-owned subsidiary, of COVETRUS NA, authorizing the Officer to execute this Plea Agreement and all other documents to resolve this matter on behalf of COVETRUS NA is attached as Attachment A.

Compliance with all the terms and standards of the Corporate Compliance Program Agreement is a condition of the Plea Agreement and shall continue for a period of forty-eight months ("Term").

Applicability and Purpose

1. This Corporate Compliance Program Agreement shall be incorporated into the Plea Agreement by reference, and compliance with the terms of the Corporate Compliance Program Agreement will be a condition of the Plea Agreement.

2. Any proposed modifications to this Corporate Compliance Program Agreement must be made in writing and signed by the Company and the designated signatory for the USAO-WDVA.

3. The Corporate Compliance Program Agreement does not in any way release the Company from complying with any applicable federal or state statutes and/or regulations, and does not limit the imposition of any sanctions, penalties or any other actions available under those state or federal statutes and regulations.

4. Defendant COVETRUS NORTH AMERICA LLC is a Delaware corporation with its principal place of business in Dublin, Ohio. COVETRUS NA was formerly known as Butler Animal Health Supply, LLC and was a subsidiary of Henry Schein, Inc. In February 2019, Henry Schein, Inc. spun-off its animal health business, including Butler Animal Health Supply LLC, which in turn merged with Vets First Choice to create a separate entity named Covetrus, Inc. As part of that spin-merger, Butler Animal Health Supply, LLC became a subsidiary of Covetrus, Inc., and was re-named Covetrus North America LLC. Covetrus, Inc., through its wholly-owned subsidiary, is the ultimate sole member controlling COVETRUS NA. In addition, CVET Topco GP, LLC is the owner of Covetrus, Inc.

The Corporate Compliance Program Agreement

5. The Company and the USAO-WDVA agree that the Company shall undertake the following voluntary compliance measures. The Corporate Compliance Program Agreement does and will continue to contain policies and procedures designed to prevent, detect, and correct violations of federal and state statutes and/or regulations concerning federal prescription drug distribution, including but not limited to the Food, Drug, and Cosmetic Act ("FDCA"), 21 U.S.C. § 301 *et seq*. and FDA requirements. These policies and procedures shall be designed to ensure

that the Company complies with, among other things, the FDCA's prohibitions against causing the introduction into interstate commerce of a drug that is misbranded or otherwise violates the FDCA.

6. *Compliance Officer*. The Company shall maintain a Compliance Officer for the Term. During the Term, the Compliance Officer shall be authorized to oversee compliance with federal and state statutes and/or regulations concerning federal prescription drug distribution, including but not limited to the FDCA, FDA requirements, and the requirements of the Corporate Compliance Program Agreement. The Compliance Officer is, and shall continue to be, responsible for developing and implementing policies, procedures and practices designed to address compliance with the requirements set forth in this Corporate Compliance Program Agreement, with federal and state statutes and/or regulations concerning federal prescription drug distribution and FDA requirements. The Compliance Officer shall be a member of senior management of the Company, and shall report directly to the President of the Company. The Compliance Officer shall make periodic (at least quarterly) reports regarding compliance matters directly to the President of the Company, and the CEO and Board of Directors of Covetrus, Inc., which, through its wholly-owned subsidiary, is the ultimate sole member of Covetrus North America LLC (hereinafter the "Board") or any authorized committee thereof, and shall be authorized to report on such matters to the Board at any time. In addition to the reporting obligations set out in this paragraph, the Compliance Officer will continue to report to the General Counsel, but will not be subordinate to the Chief Financial Officer of either COVETRUS NA or Covetrus, Inc. The Compliance Officer shall be responsible for monitoring the day-to-day compliance activities engaged in by the Company as well as for any obligations created under the Corporate Compliance Program Agreement. Any non-compliance job responsibilities of the Compliance Officer must not interfere with the Compliance Officer's ability to perform the duties outlined in the Corporate Compliance Program Agreement.

7. *Compliance Committee*. Prior to the execution of the Plea Agreement, the Company formed a Compliance Committee (hereafter "Compliance Committee") which, in conjunction with the Compliance Officer, assists in the implementation and enhancement of the compliance program. The Company shall maintain the Compliance Committee for the Term. The Compliance Committee shall include, at a minimum, the Compliance Officer and other members of senior management necessary to meet the requirements of the Corporate Compliance Program Agreement (e.g., senior executives of relevant departments, such as legal, regulatory, audit, human resources, and operations.) The Compliance Committee shall support the Compliance Officer in fulfilling his/her responsibilities (e.g., shall assist in the analysis of the Company's risk areas and shall oversee monitoring of internal and external compliance-related audits and investigations). The Compliance Committee shall meet at least quarterly.

8. *Board of Directors Compliance Obligations*. Effective from the date of the entry of the guilty plea and continuing throughout the Term, the Board of Directors of Covetrus, Inc., as the ultimate sole member of COVETRUS NA through its wholly-owned subsidiary ("Board"), will oversee the Company's compliance program. The Board shall oversee the Company's compliance program, including at a minimum:

a. the Company's obligations under the Corporate Compliance Program Agreement

b. receiving updates about adoption and implementation of policies, procedures and practices designed to ensure compliance with the FDCA and FDA requirements,

c. evaluating the effectiveness of the compliance program; and

d. shall report quarterly to the Board of Directors of CVET Topco GP, LLC regarding the status of the Corporate Compliance Program.

9. The Company shall continue to evaluate its current business to ensure that it is not currently receiving, distributing, or handling misbranded or unapproved federal prescription drugs. Should the Company find it is receiving, distributing, or handling misbranded or unapproved federal prescription drugs, it shall take necessary steps to remediate any such conduct.

10. The Company shall continue to enhance its current training program to ensure that pertinent employees are familiar with the requirements of the FDCA and FDA requirements that could potentially apply to the Company's conduct.

11. The Company will put in place processes to (a) encourage employees to report suspected non-compliant activities by the Company, customers, or others and to (b) acknowledge or otherwise recognize employees for reporting confirmed non-compliant activity, as appropriate.

12. The Company will maintain, or as necessary establish, policies and procedures designed to ensure effective investigation of any complaints and/or potential deficiencies relating to compliance with federal and state statutes and/or regulations concerning federal prescription drug distribution, including but not limited to the FDCA and FDA requirements. Such policies and procedures shall include, but are not limited to:

a. Training and providing guidance to all pertinent employees as to the requirement to report all information regarding potential non-compliance with federal and state statutes and/or regulations concerning federal prescription drug distribution or FDA requirements to the Compliance Officer, who in turn will review and determine whether corrective actions are required; and

b. Tracking allegations and remediation action plans regarding potential non-compliance with federal and state statutes and/or regulations concerning federal prescription drug distribution or FDA requirements to identify issues that may require corrective actions.

13. Within 60 days of the end of the Company's fiscal year, Covetrus Inc.'s President

and CEO and Covetrus NA's President will certify under oath, after reasonable inquiry as determined by the USAO-WDVA, to (a) the USAO-WDVA during the Term and (b) the United States Probation Office for any period during which the Company is on probation, that (1), the Company fully complied with all federal laws and regulations pursuant to the Food, Drug, and Cosmetic Act ("FDCA") in the preceding year, or in the alternative, (2) list all non-compliant activity and the steps taken by the company to remedy such non-compliant activity. Any listing of non-compliant activity shall not be considered by the USAO-WDVA or the Probation Officer as a per se violation of the terms of probation or the Plea Agreement. Instead, other factors may be taken into account, including whether the conduct violated policies the Company has adopted, whether the Company provided training addressing the subject matter of the reported conduct, whether it was an isolated or systemic occurrence, the Company's response, and any remedial actions taken after the Company learned of the conduct reported.

Non-Compliance

14. The Corporate Compliance Program Agreement is part of the Plea Agreement and adherence to it will be an enforceable condition.

Portfolio Optimization

We evaluate our portfolio of services on an ongoing basis with a country-by-country and service line-by-service line approach to assess long-term potential and identify potential business candidates for divestiture. Divestitures resulting from this evaluation may cause us to record significant charges, including those related to goodwill, other intangible assets, long-lived assets, and cumulative translation adjustments.

During 2023, we divested eight businesses, demonstrating significant progress in executing our portfolio optimization priority. These divestitures included an International container manufacturer joint venture, our businesses in Brazil, Singapore, Australia, and Republic of Korea, dental recycling business in the Netherlands, SID joint venture in the UAE, and our business in Romania for aggregate net proceeds of approximately $85 million.

On January 31, 2024, we acquired a southeastern U.S. regulated waste business for total consideration of approximately $16 million in cash and a promissory note. This acquisition is considered to be complementary to existing operations and aligns with our portfolio optimization strategy. The acquired business is anticipated to contribute less than 1% to the RWCS revenue service category for 2024.

For additional information regarding acquisitions and Divestiture losses (gains), net, including significant impacts of foreign currency translation adjustments, net, see *Part II, Item 8. Financial Statements and Supplementary Data; Note 3 – Acquisitions; Note 4 – Restructuring, Divestitures, and Asset Impairments* in the Consolidated Financial Statements.

Customers

Our service offerings appeal to a wide range of business customers. Our customers are primarily in the following industries: enterprise healthcare (i.e., hospitals, health systems, and non-affiliate hospitals; and national and corporate healthcare), practices and care providers (i.e., physician offices, surgery centers, veterinary clinics, nursing and long-term care facilities, dental clinics, clinics and urgent care, dialysis centers, and home health organizations), and pharmacy, lab and research centers. We also provide services to airports and seaports, education institutions, funeral homes and crematories, government and military, banks and professional services, and other businesses. While we manage large volumes of waste and other materials, the average volume per customer site is relatively small.

In 2023, no single customer accounted for more than 2% of our total revenues and our top ten customers collectively accounted for approximately 10% of total revenues. No single customer accounted for more than 2% of our total accounts receivable and our top ten outstanding customer balances accounted for approximately 8% of total accounts receivable. We have developed a strong and loyal customer base, with an estimated revenue retention rate of approximately 90% (based on our internal customer attrition analysis) and have been able to leverage these customer relationships to provide additional services.

As of December 31, 2023, Regulated Waste and Compliance Services are provided to customers in the U.S., Canada, Ireland, Portugal, Spain and the U.K. Secure Information Destruction Services under the Shred-it® brand are provided in the U.S., Belgium, Canada, France, Germany, Ireland, Luxembourg, the Netherlands, Portugal, Spain, and the U.K.

In the U.S. and elsewhere, the healthcare industry is evolving to meet competing demands for increased healthcare coverage of a growing and aging population and economic pressures to reduce healthcare costs. As a result of these dynamics, hospital networks are consolidating physician practices into their networks, independent practices are consolidating, while other customers are leveraging GPOs and delivering care through alternative sites of care, such as in-home, to reduce healthcare costs.

Our International RWCS operations generate most of their revenues from large account customers, such as hospitals, publicly funded healthcare organizations and National Trusts versus smaller customers which tend to be more profitable.

Facilities and Fleet

Our worldwide network includes a global fleet of approximately 5,200 route trucks, tractors, collection vans, and small duty vehicles. We operate out of approximately 396 facilities worldwide with properties both leased and owned as described below:

	Autoclave or Alternative Medical Waste Treatment	Medical Waste Incinerator Facilities	Secure Information Destruction Processing	Transfer Stations (RWCS and SID)	Other Locations and/or Administrative Facilities	Total Facilities
North America	49	9	90	139	10	297
International	22	9	15	38	15	99
Total	71	18	105	177	25	396

We are headquartered in Bannockburn, Illinois.

Our Key Business Priorities

Following its founding in 1989, Stericycle grew rapidly through acquisitions as the regulated waste industry developed. Growth from regulated waste acquisitions helped us achieve scale of infrastructure, route density and a leadership position in many of the markets we serve. We also leveraged acquisitions to enter new regional and international geographies and added additional services to our portfolio, including the Secure Information Destruction business in 2015. As we grew and evolved, we operated without centralization and the efficiencies that come from an integrated, modern structure and associated information systems until we shifted our focus to our five key business priorities in 2019.

- ***Quality of revenue*** – We have been executing against our foundational initiatives we launched to drive revenue quality and are executing on: (i) expanding service penetration, (ii) improving customer implementation velocity, and (iii) deepening customer partnerships by developing enhanced solutions.
- ***Operational efficiency, modernization, and innovation*** – We have been executing on our foundational initiatives we launched to drive operational efficiency, modernization and innovation and are executing on: (i) infrastructure and system modernization, (ii) fleet replacement and route and long-haul network improvements and (iii) SafeShield container rationalization and modernization.
- ***ERP implementation*** – We successfully deployed the North America ERP to the U.S. RWCS business in the third quarter of 2023. Almost all of our U.S. team members are now leveraging the new technology. We continue to observe improvement in our team members' performance as they leverage the technology and data flow. We commenced activities for the international system modernization in 2022.
- ***Portfolio optimization*** – We expect to continue evaluating opportunities to further optimize our portfolio through a combination of asset rationalizations and strategic accretive tuck-in acquisitions, which streamline our portfolio of businesses and allow us to focus more deeply on our core businesses. 2023 divestitures primarily included an International container manufacturer joint venture in Spain; our businesses in Brazil, Singapore, Australia, and Republic of Korea; dental recycling business in the Netherlands; SID joint venture in the UAE; and our business in Romania for net proceeds of approximately $85 million.
- ***Debt reduction and leverage improvement*** – We have reduced total net debt to $1.27 billion as of December 31, 2023. In the second quarter of last year, we successfully achieved our goal of reducing our debt leverage below 3 times and have continued to maintain our debt leverage target, finishing 2023 with a debt leverage ratio of 2.85 times.

Regulated Waste and Compliance Services

Collection and Transportation

The collection process for regulated waste streams begins at the customer location with waste segregation. To assure regulatory compliance, we educate our customers and will not accept material from customers unless it complies with our waste acceptance protocols and is properly stored or packaged in containers that we have either supplied or approved and is appropriately labeled.

Our team members then collect containers at the customer location via our fleet of vehicles. The majority of collected waste is then transported directly to one of our processing facilities or to one of our transfer stations until it's transported to a processing facility. Our use of transfer stations in a "hub and spoke" configuration improves the efficiency of our collection and transportation operations by expanding the geographic area that a particular processing facility can serve, thereby increasing the utilization of the facility and the volume of waste that it processes.

Processing and Disposal of Regulated Waste

Upon arrival at a processing facility, containers or boxes of regulated waste undergo a quality control process to verify that they do not contain any unacceptable substances. Any container or box that is discovered to contain unacceptable waste goes through a corrective action process which could include redirecting the waste, returning the waste to the customer and/or notifying the appropriate regulatory authorities. From there, regulated waste is processed using one of several treatments or processing technologies, predominantly at one of our facilities:

- ***Autoclaving:*** Autoclaving is the primary method of regulated waste treatment. This process relies on steam at high temperature and pressure to kill pathogens and render materials non-infectious.
- ***Alternative Technologies***: We use several different non-incineration alternatives to autoclaves, predominantly outside of the U.S. The processes used by these technologies are similar, as the regulated waste is heated to a specified temperature for a required time to kill the pathogens and render materials non-infectious. This is not always under pressure. Depending on local requirements, the waste may be shredded before or after treatment to render it unrecognizable.
- ***Incineration:*** While Stericycle strives to use alternative, non-incineration methods for treating medical waste, incineration remains a regulatory requirement and/or a best practice in certain geographies or for certain types of medical waste that need to be chemically destroyed. Incineration burns regulated waste at elevated temperatures and reduces it to ash. Incineration reduces the volume of waste, and it is the recommended treatment and disposal option for some types of regulated waste such as anatomical waste, residues from chemotherapy procedures and non-hazardous pharmaceutical waste. Air emissions from incinerators can contain certain byproducts that are subject to federal, state and in some cases, local regulation. In some circumstances, the ash byproduct of incineration may be regulated.

Upon completion of the treatment process, the resulting waste or incinerator ash is transported for disposal in a landfill owned by unaffiliated third parties.

In several of our incineration facilities, we use different types of waste-to-energy solutions as part of our processes. Stericycle has four incinerators with steam turbines that can generate electricity and reduce the amount of power required from utilities at each site. In the U.K., several of our incinerators export steam to hospitals, where they are co-located, to be used for facility or hot water heating, steam sterilization, and/or laundry services. Similar to exported steam, two of our U.K. incinerators export hot water to nearby hospitals. In the U.K. and Ireland, after medical waste has gone through the alternative treatment process, it is sent for beneficial reuse. This treated waste is sent to cement producers and used as an alternative fuel for cement kilns.

Secure Information Destruction

We leverage a combination of off-site and on-site document destruction methods for one-time and recurring paper shredding. In North America in 2023, approximately 72% of collected documents for secure destruction were sent off-site to geographic consolidating shredding facilities for secure destruction. The remainder of collected documents are shredded on-site with shredding equipment in our vehicles. For both methods, our service offerings leverage cross-cut shredding technology to enhance the security level of destruction and can provide secure chain-of-custody and Proof of Service.

Shredded paper is then sold as SOP for recycling. SOP consists of paper typically generated by offices that contains primarily white paper. White paper is a higher value recyclable than mixed paper, which mainly consists of newspapers or magazines. In 2023, Stericycle collected approximately 462,000 tons of SOP for recycling, a decrease of 11.7% compared to 2022 of approximately 523,000 tons. After excluding the impact of divestitures, we collected approximately 453,000 tons and approximately 500,000 tons in 2023 and 2022, respectively. This resulted in a decline in SOP, excluding divestitures, of approximately 47,000 tons or 9%. During 2023, the average annual SOP price was $174 per ton, as reported by Fastmarkets, a decrease of 26.0% compared to 2022.

Our Business Model and Key Business Attributes

Regulated Business-to-Business Operations

We focus on providing business-to-business services in areas of operations that are highly regulated. By helping our customers maintain compliance with complex regulations, we protect people and brands, promote health and well-being and safeguard the environment. Governmental legislation and regulation require the proper handling and disposal of items such as regulated waste and personal confidential information. Regulated waste can be defined as any material subject to government-imposed guidelines for handling the material for transportation or disposal.

- ***Regulated Medical Waste:*** Regulated medical waste generated from procedures including any items saturated with blood or other potentially infectious materials (OPIM), such as bandages, gauze, or PPE, are considered regulated medical waste.
- ***Trace Chemotherapy Waste:*** Chemotherapy waste includes empty chemo drug vials, syringes and hypodermic needles, spill kits, IV tubing and bags, contaminated gloves and gowns, materials from spill cleanups, or bodily fluids/waste.
- ***Pathological Waste:*** Pathological waste such as human or animal tissues, body parts, and surgical specimens (decanted of formaldehyde, formalin, or other preservatives) are packaged separately.
- ***Sharps Waste:*** Sharps waste such as needles, scalpels, blades, and pipettes that have come in contact with blood, body fluids, or microorganisms.
- ***Pharmaceutical Waste:*** Pharmaceutical waste that may be hazardous or nonhazardous and consists of expired, recalled, or otherwise unused pharmaceuticals.
- ***Controlled Substances Waste:*** Controlled substances waste includes unused, unwanted, or expired pharmaceutical controlled substances.
- ***Healthcare Hazardous Waste:*** Healthcare hazardous waste includes prevalent and well-known waste streams and other wastes generated in smaller quantities that require proper attention, such as flammable liquids, xylene, formalin, aerosols, and universal waste.
- ***Solid Waste and Recycling:*** Solid waste and recycling services.
- ***Maritime Waste:*** Airport and seaport generated waste including gray water, black water, bilge water, sludge, solid waste, recyclable solid waste, RCRA hazardous waste, APHIS waste, and universal waste.
- ***Personal Confidential Information:*** Documents and e-media containing protected healthcare information, financial information, or other confidential information.

Growing Markets

The demand for our services, especially our core services of regulated waste and compliance and secure information destruction, are expected to grow or have historically grown. This growth is driven by multiple factors:

- ***Aging Population and Demographic Changes:*** The average age of the population in the countries in which we operate is rising, driving increases in healthcare demand and the quantity of regulated wastes generated.
- ***Enforcement of Waste Regulations:*** We operate in a highly regulated business where penalties for violations can be costly and high profile, thereby impacting our customers' overall reputation. We believe that many businesses are either unaware of the need for proper training of employees or of applicable regulatory requirements or understaffed or lack the expertise to comply with the regulations, and we seek to help businesses fill this gap.
- ***Regulation of Privacy and Information Security and Concerns over Data Breaches:*** The secure information destruction total addressable market has been driven, in part, by the need for compliance with increasing government regulation and increasing general concern with privacy and information security. Recent regulatory changes reflecting this increased regulatory focus include the European GDPR; California, Colorado, and Virginia's comprehensive consumer privacy legislation; and Canada's Personal Information Protection and Electronic Documents Act. Moreover, the majority of states are working on comprehensive consumer privacy legislation.
- ***Increased Business Focus on Sustainability:*** Businesses continue to realize that a focus on sustainability is increasingly essential to operating efficiently and meeting the increasing demands and expectations of customers and stakeholders for environmental responsibility. Such pressures are driving proper disposal of pharmaceuticals, recycling efforts, shred-all policies for paper and other initiatives supported by our services.

Stable and Recurring Customer Needs Supported by Long-term Contracts

The services we provide most often require service on a routine and scheduled basis. The majority of our customer relationships include long-term contracts ranging from three to five years in length. We have developed a strong and loyal customer base, with a revenue retention rate of approximately 90% (based on our internal customer attrition analysis) in 2023.

Established Network of Processing and Transportation Locations

Our infrastructure network results in an expansive operational network with alternate transportation, treatment, destruction, and recycling options for our customers. The scale of our network also provides us the ability to be the single-source provider for customers with multiple locations across the country and gives us the flexibility to quickly redirect services or operations to another location if the need arises due to severe weather, power outages, or other disruptions.

Our goal is to optimize our facilities with a strategic and standardized operating model. We are analyzing processing capabilities, plant and transportation equipment needs, team member requirements, and potential customer implications or benefits. This planning process also provides opportunities to focus on reducing our environmental impact by optimizing our transportation network to reduce miles driven and overall greenhouse gas impact. We anticipate that modernizing our plant equipment with new efficient technology will also lessen our overall energy consumption per operating cycle. Over the past three years, we have opened several new greenfield autoclave facilities (New Jersey, California, Ireland, and United Kingdom) and completed over 20 upgrade projects, including improvements to autoclaves, shredders, washers and enhanced conveyance, and sharps processing. These new and improved facilities and upgrades represent the initial steps in modernizing our global facility network which we plan to expand in future periods. In 2022, we began constructing a commercial HMIWI in Nevada that we expect to complete in the first half of 2024 and begin testing.

Routing Logistics

While we manage large volumes of waste and secure information for destruction, the average volume per customer site is relatively small and the resulting revenue per stop is low. As such, route logistics and route efficiency are a core focus. Our transportation network provides us with an advantage compared to our competition in many of the markets we serve. Additionally, we have continued to focus on route density and optimization at both the individual truck and geographic market level. By optimizing locations of our new facilities and executing our transportation and long-haul plan, we are now driving fewer miles per month, on average. We expect that the North America ERP implementation will continue to provide greater visibility to data which will continue to enable additional routing and operational efficiencies.

Industry Leadership and Expertise

Based on our infrastructure and revenues, we maintain a leadership position across many of our services lines, including regulated waste and secure information destruction. We employ experienced team members who have a deep understanding of the industries they serve, the regulatory climate and the evolving needs of our customers. We collaborate regularly with a wide range of stakeholders and interest groups. Starting in 2020, the Company took a leadership position related to the management of COVID-19 pandemic waste, supporting our customers and providing industry expertise regarding the effective management of COVID-19 waste. In 2014, we were tasked by the DOT and CDC to dispose of waste from the Ebola outbreak. We proactively work with organizations like the CDC, DEA, EPA, OSHA and many other government and regulatory bodies, including law enforcement. Our experts are frequent speakers at hospital networks and industry trade associations and actively engage in numerous community meetings each year.

Human Capital Management

Workforce Overview

As of December 31, 2023, our workforce is over 13,500 team members, with 97% of them employed full-time. We engage approximately 1,300 global contingent workers, supplementing our team to fill temporary positions or as a part of a temporary-to-permanent recruiting program. The year over year decrease in team members was primarily attributed to divestitures and workforce management through careful hiring, attrition, and targeted workforce reduction.

Our 2023 voluntary turnover rate, excluding turnover due to divestitures, averaged approximately 22%. In 2022 our voluntary turnover rate, excluding turnover due to divestitures, averaged approximately 28%.

As of December 31, 2023, 10% of our total global workforce was covered by collective bargaining agreements or works councils. There are 19 collective agreements in the U.S. and Canada, covering approximately 720 team members or 7% of our North American workforce. Approximately 680 team members outside North America are covered by collective bargaining agreements or works councils. We engage in good faith bargaining with the works councils and unions that represent our team members.

Diversity and Inclusion

At Stericycle, embracing the diversity and inclusion of our workforce is one of our core values. In 2023, approximately 22% of our global workforce were women, including 33% in middle management and 29% in leadership positions (directors and above). The racial and ethnic diversity of our U.S. workforce was comprised of White, 45%; Black or African American, 27%; Hispanic/Latino, 22%; Multi-Ethnic or Other, 4%; and Asian, 2%; with 55% of our team members identifying as minorities.

During 2023, 67% of U.S. new hires and 51% of internal promotions were from federally designated racial or ethnic minority categories. We hired approximately 180 team members during 2023 who identified as U.S. veterans.

We believe our seven employee resource groups (ERGs) help drive engagement and representation and support team members who are Women, Black and African American, Latinx, Veterans, members of the LGBTQ+ (lesbian, gay, bisexual, transgender, and queer) community, young professionals, and team members and their family members who have disabilities. We routinely leverage our ERGs to address important social topics with our team members through "Let's Talk About It" video discussion, "FIERCE Cafe", and other internal discussions. Additionally, during 2023, our ERGs provided educational communications to our team members; hosted speaker events; led company celebrations for Black History Month, Hispanic Heritage Month, Pride Month, Veterans Day, and other days of diversity awareness or celebration; and provided mentoring programs for Women, Black and African Americans, and Veterans. We also launched an Unconscious Bias training program in 2023.

Compensation

In 2023, we continued our market-based compensation analyses which included pay equity analysis and identification of potential pay gaps. We independently consulted with third-parties on our pay practices and policies to ensure equitable pay across employee groups. We remain committed to a routine review of the competitiveness and equity of our team members' compensation, with the next detailed analysis occurring in 2025. Additionally, we continue to monitor and comply with state laws around pay transparency.

Safety

At Stericycle, a commitment to safety is one of our core values. We focus on a comprehensive safety program to protect our team and the communities in which we operate and drive our safety performance.

In 2023, our safety improvement journey included a comprehensive focus on developing centralized procedures, processes and monitoring as well as investment in new training programs to increase safety awareness. During 2023, our safety program included:

- a global expansion of our comprehensive defensive driving program;
- a continuation of our Corporate Integrated Audit Program, ensuring compliance with our policies and procedures as well as applicable laws and regulations;
- a monthly safety global coaching and communications program; and
- a weekly published Safety Exchange with themed procedures and best practices.

To further our safety objective and measure our progress, we track key safety metrics, Total Recordable Incident Rate (TRIR), which is calculated by multiplying the total number of recordable workplace injuries or illnesses by 200,000 and dividing by the total hours worked ((Injuries x 200,000) / Hours), and Severe Vehicle Incident Rate (SVIR), which is calculated by multiplying the total severe vehicle incidents by 200,000 and dividing by the total hours worked ((Injuries x 200,000) / Hours), which are components of team member total compensation.

Our Operating Environment

Competition

The industries and markets in which we operate are highly competitive on pricing and barriers to entry are low. Our competitors consist of many different types of service providers, including national, regional and local companies. Some of these companies provide only a portion of the services of Stericycle - for example, just collection and transportation, but not treatment of regulated waste.

In the regulated waste and secure information destruction industries, another source of competition is on-site management. For regulated waste, some large-quantity waste generators, particularly hospitals, may choose an onsite autoclave or other treatment process. For secure information destruction, many businesses may choose to use small, on-site shredders for their documents. In both regulated waste and secure information destruction, we believe there is no other competitor in North America with Stericycle's overall scale, breadth of services, national transportation network and comprehensive treatment network in our two core businesses.

Governmental Regulation

Stericycle's RWCS and SID services, are subject to numerous regulations, which may evolve over time. We are subject to substantial regulations enacted and enforced by governments within the U.S. and the international jurisdictions in which we conduct operations. In many countries, there are multiple regulatory agencies at the local and national level that oversee our customers and/or our services. The regulatory requirements with which we must comply vary from jurisdiction to jurisdiction. The laws governing our domestic and international operations generally consist of statutes and regulations concerning environmental protection; employee and public health and safety; transportation; document destruction and management; data privacy; ethical business conduct; and the management of regulated waste streams, including regulations that govern the definition, generation, segregation, handling, packaging, transportation, treatment, storage and disposal of regulated waste.

This regulatory framework imposes a variety of compliance requirements, including requirements to obtain and maintain government permits or other authorizations. We maintain governmental permits, registrations and licenses to conduct our business throughout the jurisdictions in which we operate. Our permits vary by jurisdiction based upon our activities within that jurisdiction and on the applicable laws and regulations of that jurisdiction. These permits grant us the authority to, among other things, construct and operate transfer and processing facilities; transport regulated waste within and between relevant jurisdictions; and handle particular regulated substances. Our permits, registrations and licenses may be subject to modification or revocation by the issuing authority and, in some jurisdictions, are subject to periodic renewal. Permit issuance or renewal may also be subject to public participation.

Various U.S. and international laws and regulations related to data privacy and the protection of confidential information also apply to Stericycle's RWCS and SID services, including HIPAA and the CCPA in the U.S. and the GDPR in Europe. In addition, laws governing ethical business practices apply to our business including, but not limited to, the FCPA, and the U.K. Bribery Act. These laws may apply to our business on both a global and local basis and ban unethical behavior such as the payment of bribes to government officials for the purpose of gaining an improper business advantage, improper maintenance of our books and records, as well as other financial transparency requirements.

Environmental Protection

Our business is subject to extensive and evolving environmental regulations in the geographies in which we operate. Generally, the environmental laws that we are subject to regulate the handling, transportation, treatment and disposal of waste, the release or potential release of hazardous substances into the environment, the discharge of pollutants into waterways and the emission of pollutants into the air. The principal environmental laws that govern our operations in the U.S. are the federal Clean Air Act and Clean Water Act, in addition to state laws and regulations governing regulated waste. Examples of environmental laws applicable to our international operations include the Waste Framework Directive, Environmental Liabilities Directive, Industrial Emissions Directive and the Shipments of Waste Regulations in the EU, and the Canadian Environmental Protection Act and related regulations in Canada.

Climate and Sustainability

Consistent with our Company's commitment to sustainability and environmental protection, we have published our 2023 Corporate Social Responsibility Report (CSRR), providing details on our environmental, social and governance (ESG) performance. The information in this report can be found at https://investors.stericycle.com but it does not constitute a part of, and is not incorporated by reference into, this Annual Report on Form 10-K.

Employee Health and Welfare

We are subject to numerous regulations promulgated to protect and promote employee health and welfare through the implementation and enforcement of standards designed to prevent illness, injury and death in the workplace. The primary U.S. federal laws relating to employee health and welfare applicable to our business are overseen by OSHA, which establishes specific employer responsibilities including implementing engineering controls, administrative controls, training, policies and programs to comply with the regulations, and recordkeeping and reporting, all to ensure a safe workplace. Various OSHA standards apply to almost all aspects of our operations and govern such matters as exposure to bloodborne pathogens, hazard communication, and PPE.

Examples of employee health and welfare laws applicable to our international operations include the European Framework Directive on Safety and Health at Work (Directive 89/391 EEC) and various provisions of the Canada Labour Code and related occupational safety and health regulations in the provinces and territories of Canada.

Transportation

Various laws regulating the transportation of waste and other potentially hazardous materials also apply to the services we provide. In the U.S., the DOT has established regulations which deal with two different aspects of transportation: hazardous materials transport and safety in transportation. These regulations are defined within the PHMSA and the FMCSA. We are regularly subject to roadside inspections. These inspections have a cumulative effect on our compliance history and require us to remain in good standing so as not to jeopardize our permits.

Examples of transportation laws applicable to our international operations include the Directive on the Inland Transportation of Dangerous Goods in the EU, and the Transport of Dangerous Goods Act, and related regulations in Canada, and globally the International Maritime Dangerous Goods Code, and the IATA Dangerous Goods Regulations.

Controlled Substances

Our service offerings for the collection, treatment, and disposal of controlled substance waste, from both the healthcare industry and individual consumers, are subject to numerous laws and regulations governed by various regulatory agencies, including the DEA. These regulations typically require our facilities to obtain licenses or registrations, and meet other certain requirements for approval to collect, transport, treat and dispose of controlled substances. These regulations have very prescriptive requirements for security, recordkeeping and reporting. Like other regulatory schemes, registrations/licenses must be kept current, and facilities may be subject to inspection or enforcement.

U.S. and Foreign Local Regulation for Waste Management

We conduct business in all 50 U.S. States and Puerto Rico. Because the U.S. EPA does not regulate medical waste at the federal level, each state has its own regulations related to the handling, treatment and storage of regulated medical waste. Many states have followed requirements similar to the Medical Waste Tracking Act of 1988 or have placed regulated medical waste regulations within solid waste regulations. Regulated Garbage (i.e., international food waste) is another waste stream that is subject to unique regulatory requirements that are promulgated and enforced by the USDA and U.S. Customs and Border Protection. The USDA typically inspects our facilities receiving Regulated Garbage waste on a quarterly basis.

In each state where we operate a processing facility or a transfer station, we are required to comply with varying state and local laws and regulations, which may also require a specific operating plan. In addition, many local governments have ordinances and regulations, such as zoning or wastewater regulations, that affect our operations. Similarly, our international operations are subject to regulations enacted and enforced at the provincial, municipal, and local levels of government in addition to the national regulations with which we must comply.

Insurance and Self-Insurance

The regulated waste industry involves potentially significant risks of statutory, contractual, tort and common law liability claims. Potential liability claims could involve, for example: cleanup costs, personal injury, damage to the environment, employee matters, property damage including fleet vehicles, or alleged negligence or professional errors or omissions in the planning or performance of work. We also could be subject to fines or penalties in connection with violations of regulatory requirements.

We carry insurance that include property, workers compensation, general liability, employer's liability, pollution liability, privacy and security liability, cyber-liability, directors and officers and miscellaneous professional services errors and omissions coverage. We also carry umbrella policies that cover general liability, automobile and employers' liability. We regularly evaluate other lines of coverage to respond to specific business needs but consider our current insurance coverage to be sufficient to meet regulatory as well as customer requirements and to protect our employees, assets and operations.

Patents, Trademarks and Proprietary Rights

Stericycle holds a number of patents or applications in the U.S., Canada, the U.K., and Europe for technologies related to its business, including our patented innovation, SMS Revolution, which modernizes our processing of sharps, and innovations for the recovery of reusable medical devices in a sharps container, various waste container assemblies, a lockable mounting bracket for use with a waste container assembly, and a three-stage shredder.

We own federal registrations for a number of trademarks/service marks including Stericycle®, Shred-it®, We Protect What Matters®, SafeShield®, Steri-Safe®, SafeDrop®, Artech®, Community Shred-it®, Making Sure it's Secure®, Virtual Compliance Partner®, the Stericycle logo service mark consisting of a nine-circle design and the Shred-it logo. We also hold international registrations for Stericycle and the Stericycle and Shred-it logos, among others.

following:

(1). Respondent did not timely renew his controlled substances registration (CS07588) by October 31, 2006. Therefore Respondent's registration lapsed as of November 1, 2006 which meant Respondent could not lawfully prescribe, possess, administer or dispense, controlled substances in Nevada effective November 1, 2006.

(2). On May 30, 2007, Respondent submitted a late renewal application along with a check. The check was not deposited by the Pharmacy Board. That Respondent did not receive any indication from the Pharmacy Board that Respondent's registration was renewed.

(3). Respondent's renewal was not processed and would not be possessed until the pending investigation with the Nevada State Board of Dental Examiners was resolved

H. On October 23, 2007, Respondent was served with a Notice of Inspection of Patient Records for Patients "D", "E" and "F".

I. On October 24, 2007, Respondent sent correspondence to the Culinary Free Pharmacy indicating a generic Rx pad had been stolen from his practice in October 2006. Subsequently there had been numerous Rx written for Lortab 10. Those Rx's were all made out to Patients "A", "B" , and "C", and that all were forgeries. Respondent further instructed the Culinary Free Pharmacy not to fill any prescriptions written on Paradise Village Dental Center Rx paper and to contact Respondent immediately.

J. On October 31, 2007, Respondent was served with the Notice of Informal Hearing and a Subpoena Duces Tecum regarding Patients "A", "B", "D", "E" and "F".

K. On December 10, 2007 an Informal Hearing was held at Respondent's attorney's office located at 517 South Third Street , Las Vegas, Nevada. Those individuals present were Respondent, his attorney John R. Lusk, Esq., Disciplinary Screening Officer James G. Kinard,

Debra A. Shaffer, Board Deputy Executive Director and Board Counsel John A. Hunt, Esq.

L. The Massachusetts Consent Order dated September 3, 1997; the Stipulation with the Board date June 1, 2000; and the present authorized investigation complaint dated July 17, 2007; all involved whether Respondent issued of controlled substances that were either not related to dental treatments or involved. The Massachusetts Consent Order and the present authorized complaint both involve the issuance of forged prescription using of Respondent's prescription pads.

M. At the Informal Hearing held on December 10, 2007, Respondent gave the following testimony:

i. Respondent did not have any records for Patients "A". "B" or "C" related to the prescriptions issued and discussed to these patients. Respondent believes these prescriptions to be forgeries.

ii. Respondent has been aware since 1998 he could do a self profile with the Nevada State Board of Pharmacy, but Respondent has never done a self profile.

iii. Respondent acknowledges since November 1, 2006, Respondent has issued on more than one occasion prescriptions for controlled substances while not possessing a valid license with the Nevada State Board of Pharmacy.

iv. Respondent did not report on his attempted license renewal of May 30, 2007 the Consent Order with the Massachusetts Dental Board or the Second Stipulation entered into with the Nevada State Board of Dental Examiners to the Nevada State Pharmacy Board .

v. Since receiving the authorized investigation complaint of July 17, 2007, Respondent never reported to the Nevada State Board of Pharmacy, but did report in writing to the Disciplinary Screening Officer on July 30, 2007, Respondent's contention that ~~his~~ the prescription pad at his prior practice had been stolen by Patient "A" who was also an employee of Respondent who he believes wrote other forged prescriptions to for Patient "A", "B" and "C". October 24, 2007 three months after Respondent's belief his prescription pad had be stolen by Patient "A", Respondent wrote

to the Culinary Free Pharmacy regarding his suspicions regarding Patient "A" and not to fill any prescriptions made to Patient "A", "B" or "C" and to contact Respondent.

vi. Respondent does not have any dental records or treatment plan regarding a prescription for a controlled substance written to Patient "D" on September 22, 2007 while Respondent did not possess a valid license to issue controlled substances with the Nevada State Board of Pharmacy. It is Respondent's contention that the treatments received by Patient "D" subsequently on January 11, 14 and 22 2008 related to the prescription issued to Patient "D" on September 22, 2007.

vii. Respondent does not have any dental records or treatment plan regarding a prescription for a controlled substance written to Patient "E" on January 11, 2007 while Respondent did not possess a valid license to issue controlled substances with the Nevada State Board of Pharmacy.

viii. Respondent while he did not possess a license with the Nevada State Board of Pharmacy issued three (3) prescriptions to Patient "F" on April, 20, 2007, April 24, 2007 and April 28, 2007; each prescription was written for 20 units of Hydrocodone Bitartrate and Acetaminophen, 500 mg; 7.5 mg tablet. RE: request the board appearance to remove the restriction on schedule II-
Through V a max 4-day supply on my NV CS 35340 license.

Medical license # 22911 (good standing)

Dear Members of Nevada State Board of Pharmacy

I am writing to formally request to have the board appearance for removal of the restriction (a max 4 day supply) on my CS 35340 license which was granted on March , 2023 . As a licensed medical professional, my primary commitment is to provide the best possible care to my patients, and having the ability to prescribe these medications is essential to fulfilling this duty.

I have adhered strictly to the conditions set forth by the DEA and the Nevada State Board of Pharmacy since my new pharmacy license (CS 35340) was granted. I have participated in continuing education programs focused on the responsible prescription of controlled substances, ensuring that my knowledge and practices are current and aligned with the highest standards of medical care.

Restoring my full prescribing privileges will allow me to better address the needs of my patients and improve their quality of life. And participate in the care of patients whose medical insurance stipulates I hold licensure through the DEA and State board of pharmacy.

Enclosed with this letter are copies of my continuing education certificates, MyRx history of Nevada PMP) and my DEA registration, I respectfully request that you review my case and consider lifting the restriction. I am confident that my actions over the past 18 months demonstrate my dedication to compliance and patient care.

Thank you for your time and consideration. I look forward to your positive response.

Sincerely,

v.	)	**VOLUNTARY SURRENDER OF REGISTRATION IN LIEU OF HEARING AND OTHER DISCIPLINARY ACTION**
SHOUPING LI, MD,	)	
Certificate of Registration No. CS15391,	)	
Respondent.	)	

I, SHOUPING LI, MD, Certificate of Registration No. CS15391, wish to voluntarily surrender my Nevada Certificate of Registration No. CS15391 in lieu of appearing before the Nevada State Board of Pharmacy (Board) at a formal disciplinary hearing in July 2019. To that end, I voluntarily and knowingly admit as follows:

1. I was registered with the Board at the time of the conduct described in the *Notice of Intended Action and Accusation* (Accusation) on file in this matter and as referenced herein. I am therefore subject to the Board's jurisdiction.

2. On February 5, 2019, I executed a plea agreement under Fed. R. Crim. P. 11(c)(1)(A) and (B) (Plea Agreement) with the United States Attorney's Office for the District of Nevada, and entered in United States District Court for the District of Nevada, in D. Nev. case no. 3:19-cr-00009-MMD-CBC.

3. On or about June 13, 2019, the Board filed the Accusation pursuant to NRS 639.233B.127(3), NRS 622A.300(1) and NRS 639.241, alleging five (5) causes of action against me, each relating to unprofessional and illegal conduct in prescribing dosages and amounts of Oxycodone and Hydrocodone to patients outside the usual course of my professional practice and without a legitimate medical purpose, as detailed in the Plea Agreement.

4. If this matter proceeded to a hearing, I admit that sufficient admissible evidence exists that the prosecutor could present to the Board in the form of testimony from witnesses and through documentary evidence to prove the facts alleged in the Accusation.

5. Based on those facts, the Board could conclude that the violations alleged in the Accusation occurred.

6. In lieu of appearing at a hearing where the prosecutor could prove the State's case against me and where the Board may take other and/or additional disciplinary actions against me, I hereby voluntarily surrender my Nevada Certificate of Registration No. CS15391.

7. In addition to this Voluntary Surrender, I agree to pay Five-Hundred Dollars ($500.00) to partially reimburse the Board for reasonable attorney's fees and costs incurred in investigating and prosecuting this matter. I agree to pay these reasonable attorney's fees and costs by *cashier's check* or *certified check* or *money order* made payable to "Nevada State Board of Pharmacy," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Voluntary Surrender.

8. The factual allegations in the Accusation, if proven at a hearing, would constitute unprofessional conduct pursuant to NAC 639.945(1)(i) and NAC 639.945(1)(o), and subject me to disciplinary action pursuant to NRS 639.210(4) and NRS 639.255, as alleged in the First and Second Causes of Action.

9. Additionally, the factual allegations in the Accusation, if proven at a hearing, would constitute violations of 21 U.S.C. § 841(a)(1) and (b)(1)(c), and subject me to disciplinary action pursuant to NRS 453.236(1)(d) and NRS 453.241(1), as alleged in the Third Cause of Action.

10. Additionally, the factual allegations in the Accusation, if proven at a hearing, would constitute violations of 21 U.S.C. § 841(a)(1) and (b)(1)(c), and subject me to disciplinary

action pursuant to NRS 639.210(6), (11) and/or (12), and NRS 639.255, as alleged in the Fourth Cause of Action.

11. Additionally, the factual allegations in the Accusation, if proven at a hearing, would constitute violations of, or attempts to violate, assist or abet in the violation of or conspiracy to violate NRS 453.381(1) and/or 21 CFR § 1306.04, and subject me to disciplinary action pursuant to NRS 639.210(12) and NRS 639.255, as alleged in the Fifth Cause of Action.

12. I have read this Voluntary Surrender and I fully understand and acknowledge its facts and terms.

13. I am aware of, understand, and have been advised of the effect of this Voluntary Surrender.

14. I am aware that I have certain constitutional rights, including:

a. I have the right to hire an attorney to represent me in this proceeding;

b. I have the right to demand a hearing on the charges against me, and I can require the Board Staff to prove the allegations;

c. I have the right to cross-examine the witnesses against me;

d. I have the right to call witnesses to provide evidence in my own behalf; and

e. I have other rights accorded to me under NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), NRS Chapter 639 (Nevada Pharmacy Act), and Chapter 639 of the Nevada Administrative Code.

15. I am aware of the foregoing rights, and I voluntarily, knowingly, and intelligently waive these rights in return for the Board accepting this Voluntary Surrender of my Nevada Certificate of Registration No. CS15391 in lieu of a hearing and other and/or additional disciplinary action.

16. I understand this Voluntary Surrender is considered a disciplinary action pursuant to NRS 233B.121(6), and as such will become part of my permanent record.

17. I understand that as a disciplinary action this this Voluntary Surrender is a public record in accordance with NRS 639.255(5).

18. I understand that as a disciplinary action this Voluntary Stipulation is reportable to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60, and to other national repositories that record disciplinary action taken against licensees or certificate holders, or to any agency of another state which regulates the practice of pharmacy.

19. I understand this Voluntary Surrender may be used in any subsequent hearings by the Board as evidence against me to establish a pattern of behavior and for the purpose of proving additional acts of misconduct.

20. This Voluntary Surrender shall not be construed as excluding or reducing any criminal or civil penalties or sanction or other remedies that may be applicable under federal, state or local laws.

21. I understand that this Voluntary Surrender is effective the day it is accepted by the Board, however, I agree to immediately cease and desist from prescribing any controlled substance in the State of Nevada.

22. I will immediately return my Nevada Certificate of Registration, No. CS15391, with this signed Voluntary Surrender of License In Lieu of Other Disciplinary Action, to the extent I have that certificate/registration in my possession.

23. If at any time I seek to obtain a new license or registration with the Board, I may be required to appear before the Board, which may ask me questions regarding my application, the allegations in this action, and/or any other circumstances surrounding the voluntary surrender of my registration.

I, SHOUPING LI, MD, Certificate of Registration No. CS15391, by affixing my signature below, agree with the foregoing facts and representations, and therefore choose to voluntarily surrender my Nevada Certificate of Registration No. CS15391.

#3. Ive to give up my Controlled Substance license in Alabama in Jan. 2024 due to. Infractions e.g. Not doing urine drug screens on patients, Not checking the PDMP profiles on all patients, etc Subsequently the DEA in Alabama told me to surrender my DEA license (# BB3732371). Over 2000 Alabama Doctors have to Surrender their Controlled Substances DEA licenses due to multiple reasons including above statements. Sometime in February, I decided not to fight the Alabama Medical Board case + not attend their hearing. I decided to voluntarily Surrender my AL Board of Pharmacy License as well as my DEA license.

Explanatory Answers for BOP Application-Clark

Section 5, question #1

While I do not have a mental illness, substance/alcohol abuse, or physical condition that would currently impair my ability to perform the essential functions of my license, in 2003 and 2012, I went through substance abuse treatment for opioid use. After leaving treatment I completed a five-year contract with the Nevada Physician Health Program (at the time overseen by [redacted]. I remain committed to my recovery and currently see a psychiatrist once per month, participate in NA meetings twice a week, have a sponsor and continue to be seen by an addictionologist. I currently am prescribed medication for pain by my pain management physician and am regularly monitored, including submitting to regular drug screens.

Section 5, question #3

On July 14, 2022, the Nevada State Board of Pharmacy approved a Stipulation and Order resolving an Accusation file done May 11, 2022. Pursuant to the terms of the Stipulation and Order, my Nevada controlled substances registration was revoked, and I was prohibited from petitioning for reinstatement for a period of one year.

Section 5, question #4

My license to practice as a osteopathic physician has never been subjected to discipline, however as noted in my response to question #3, my Nevada controlled substance registration was revoked based on violations of pharmacy law.

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. WILLIAM CLARK, DO, Certificate of Registration No. CS18697, Respondent.	CASE NO. 21-048-CS-N STIPULATION AND ORDER

Brett Kandt, General Counsel for Petitioner the Nevada State Board of Pharmacy (Board), and Respondent William Clark, DO, Certificate of Registration No. CS18697, by and through counsel, Lyn E. Beggs, Esq., **HEREBY STIPULATE AND AGREE THAT:**

1. The Board has jurisdiction over Respondent and this matter.

2. On or about May 11, 2022, Respondent was served with the Notice of Intended Action and Accusation (Accusation) on file in this matter together with the Statement to Respondent and Notice of Hearing.

3. Respondent is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded to him pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby freely and voluntarily waives his rights to a

hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded to him by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

6. Respondent does not admit or deny the allegations contained in the Accusation, however, Respondent agrees that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in the Accusation, *to wit*:

A. By diverting controlled substances, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 21 U.S.C. § 841(a); 21 U.S.C. § 843(a)(3), 21 U.S.C. § 844 42 U.S.C. § 12210 21 CFR § 1306.04(a), NRS 453.336(1), NRS 453.381(1), NRS 453.391(1) and/or NRS 453.411(1), and engaged in unprofessional conduct and conduct contrary to the public interest pursuant to NAC 639.945(1)(g) and (h);

B. On October 20, 2021, Respondent surrendered his DEA Certificate of Registration No. BC8772647 to the U.S. Drug Enforcement Administration by executing a DEA Form 104, entitled "Surrender for Cause";

C. On or about October 28, 2021, Board staff served Respondent with notice that his surrender of his DEA Certificate of Registration No. BC8772647 for cause operated as an immediate suspension of his Certificate of Registration No. CS18697 with the Board pursuant to NRS 639.2107; and

D. By surrendering his DEA Certificate of Registration No. BC8772647 for cause, Respondent has admitted to failing to comply with the Federal requirements pertaining to controlled substances, has committed an act that would render his registration inconsistent with the public interest, is no longer authorized by Federal law to dispense controlled substances, and

his Certificate of Registration No. CS18697 is subject to revocation pursuant to NRS 453.236(1) and NRS 453.241(1).

7. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent stipulate to the following penalties:

A. The certificate of registration of Respondent William Clark, DO, Certificate of Registration No. CS18697, is hereby revoked pursuant to NRS 453.241(l)(b);

B. Respondent may not possess (except pursuant to the lawful order of a practitioner), administer, prescribe or dispense a controlled substance until he has petitioned the Board for reinstatement pursuant to NRS 639.257 and the Board reinstates his certificate of registration;

C. Pursuant to NRS 622A.410(1) and 639.257(1), Respondent may not petition for reinstatement of his certificate of registration for a period of one (1) year from the effective date of this Order; and

D. In the event Respondent applies for reinstatement of his certificate of registration, or applies for any other certificate, license or permit with the Board, he shall appear before the Board to answer questions and give testimony regarding his application, his compliance with this Order, and the facts and circumstances underlying this matter.

8. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

9. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on July 13-14, 2022.

Respondent or his counsel will appear at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent is not present at the meeting.

10. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r-2 and 45 CFR Part 60.

11. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

12. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

David and Mui,

I wanted to share some exciting news regarding H.R. 5526, the Seniors' Access to Critical Medications Act of 2024. This legislation aims to amend the Stark Law to clarify that delivering medications by mail, courier, or via a family member by a dispensing practitioner will no longer be considered a violation. On September 23, 2024, the House of Representatives unanimously approved an amended version of the bill, which will soon be passed to the Senate, where it is expected to be adopted and signed into law. CCS has been a strong supporter of this initiative at the federal level, and it represents a significant advancement for cancer patients.

Below are some key provisions outlined within the bill:

- Starting January 1, 2025 through December 31, 2029, physician dispensing to Medicare patients via in-office, mail, or courier will be allowed.
- Will be allowed only if the patient had an in-person visit with the doctor within the last year and has an ongoing relationship with that doctor.
- Requires the Department of Health and Human Services to report back to Congress within three years on how many patients received drugs under this rule, how much it cost Medicare, what drugs were involved, and whether drug prices were impacted.

Given the federal allowance for medication delivery by dispensing practitioners, we need to take action to request that the Nevada Pharmacy Board revise NAC 639.742, which currently prohibits practitioners from mailing prescriptions. Many rural patients in Nevada face significant barriers, often needing to travel to Reno or Las Vegas for oral cancer medications or relying on pharmacy benefit managers, which can lead to delays in care.

We have garnered support from the Nevada State Medical Society, Washoe County Medical Society, and Clark County Medical Society, along with endorsements from Senators Catherine Cortez Masto and Jacky Rosen, as well as Congressman Mark Amodei.

I am optimistic that our request will be straightforward for the Pharmacy Board to process, ultimately helping to remove barriers for rural patients in need of medications.

Thank you in advance for your guidance and consideration,

--

In August 2024, a federal district court dismissed a lawsuit filed by the Community Oncology Alliance ("COA"), holding that the "in-office ancillary services" exception to the Stark Law does not permit physicians to dispense medications through the physician's office and then mail prescriptions to the patient's home. *COA v. Becerra, Case No. 23-cv-2168, Doc. 40, United States District Court for the District of Columbia (Aug. 30, 2024)*.

COA sued the Secretary of Health and Human Services (the "Secretary") and CMS challenging the policies presented under certain of CMS's Stark Law "Frequently Asked Questions" ("FAQs") as violating the Medicare Act and Administrative Procedure Act. COA alleged that prior to the COVID-19 pandemic, the regulations regarding the "in-office ancillary services" exception permitted mailing prescription drugs to patients. In September 2021 and May 2023, CMS published FAQs taking the position that the "in-

office ancillary services" exception does not apply when a patient receives an item outside the physician's office, including prescriptions delivered by mail, as the prescription would not be dispensed to the patient in the physician's office. COA argued the FAQs violated the Administrative Procedure Act by not following required rule-making procedures. COA also alleged that if physicians are prohibited from mailing prescriptions to patients such regulation would violate the Tenth Amendment of the U.S. Constitution by preventing states from regulating how physicians may dispense cancer drugs to patients.

From March 2020 to May 11, 2023, in response to the COVID-19 pandemic, the Secretary suspended penalties and issued waivers for certain referrals that would otherwise violate the Stark Law. One of the waivers applied to the "in-office ancillary services" exception and permitted physicians to mail "medically necessary" drugs and devices to a patient's home.

The Stark Law prohibits physicians from making referrals for "designated health services" including outpatient prescription drugs, to an entity in which the physician has a financial relationship (including the physician's own group practice) if such services are reimbursed by Medicare, unless an exception applies. 42 U.S.C. § 1395nn, *et seq*. The Stark Law aims to prevent Medicare abuse through self-dealing and the overutilization of health services. Congress created the "in-office ancillary services" exception in part to permit physicians to refer designated health services to their own group practices. The Stark Law also empowers the Secretary to promulgate regulations to further define how and when the statutory exceptions apply, and to also enact regulations for other exceptions for "any other financial relationship which the Secretary determines, and specifies in regulations, does not pose a risk of program or patient abuse." *Id*. § 1395nn(b)(4).

COA alleged that mailing prescription drugs to a patient's home was permitted as the health care service (dispensing of medication) was "furnished" "in the location where the service is actually performed upon a patient" and where the drugs are "dispensed to a patient in a manner that is sufficient to meet the applicable Medicare payment and coverage rules." 42 C.F.R. § 411.355(b)(5). Because Medicare payment and coverage rules permit mailing prescription drugs, COA argued that the "in-office ancillary service" is met with physicians mailing drugs to a patient's home. Although the Court noted that "[t]here is something to [COA's] argument" it ultimately denied COA's Administrative Procedural Act claim, holding that the FAQs are consistent with preexisting requirements of the Stark Law and implementing regulations. The Court was persuaded by the "most natural reading of the regulation" which requires an "in-person" dispensing of medications and prohibits mailing of prescription drugs. Thus, because the FAQs did not alter preexisting requirements, CMS did not need to comply with notice and procedural act requirements when it issued the "interpretive" FAQs.

The Court also denied COA's Tenth Amendment claim. COA alleged that prohibiting physicians from mailing prescription drugs regulates the practice of medicine which is reserved to the police power of the states. The Court disagreed, holding that the Stark Law and the FAQs do not restrict the practice of medicine—"they only place conditions on physicians seeking Medicare payments." Further, because Congress possesses broad powers to "attach conditions on the receipt of federal funds," there is no Tenth Amendment violation.

Although COA was unsuccessful in its judicial challenge to the Secretary's interpretation of the "in-office ancillary services" exception to the Stark Law, COA and other physicians may obtain the relief they seek from Congress. In September 2023, House Bill 5526, titled "*Seniors' Access to Critical Medications Act of 2024"* was introduced with bi-partisan House of Representatives sponsorship, with 39 Republicans and

28 Democrats supporting the bill. As currently drafted, House Bill 5526 adds a prescription drug specific sentence to the statutory "in-office ancillary services" exception to the Stark Law which eliminates the requirement for the drugs to be furnished in a "building in which the referring physician … furnishes physicians' services unrelated to the furnishing of designated health services." Thus, H.R. 5526 essentially provides that delivering medicines by mail, courier, or other methods and allowing a family member to pick up medicines on behalf of a patient would not violate the Stark Law, so long as the prescriber as an ongoing preexisting relationship with the patient (not including telehealth). H.R. 5526 as currently proposed would be effective January 1, 2025. On September 23, 2024, the House of Representatives passed H.R. 5526, the bill was read twice in the Senate and referred to the Committee on Finance. During Congressional debate, Representative Dr. Larry Bucshon (Ill.) urged passing of H.R. 5526 and stated: "a silver lining of the COVID-19 pandemic, if there is one, was the proliferation of new, effective ways to deliver healthcare."

Addition of XBRL Taxonomy for Cybersecurity Disclosures

EDGAR will be updated to allow filers to use the appropriate XBRL Taxonomy for cybersecurity disclosures required to be included in Forms 6–K, 8–K, 10–K, and 20–F (and the variants 10–KT, 10–K/A, 10–KT/A, 20–F/A, 8–K/A, and 6–K/A).[5]

Removal of the Index From Volume II of the EDGAR Filer Manual

Volume II of the Filer Manual will be updated to remove the Index. Filers may continue to use the Table of Contents which links directly to chapters and topics, and the document search function of this online manual.

III. Amendments to Rule 301 of Regulation S–T

Along with the adoption of the updated Filer Manual, we are amending Rule 301 of Regulation S–T to provide for the incorporation by reference into the Code of Federal Regulations of the current revisions. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51.

The updated EDGAR Filer Manual is available at *https://www.sec.gov/edgar/filerinformation/current-edgar-filer-manual.*

IV. Administrative Law Matters

Because the Filer Manual and rule amendments relate solely to agency procedures or practice and do not substantially alter the rights and obligations of non-agency parties, publication for notice and comment is not required under the Administrative Procedure Act (''APA'').[6] It follows that the amendments do not require analysis under requirements of the Regulatory Flexibility Act[7] or a report to Congress under the Small Business Regulatory Enforcement Fairness Act of 1996.[8]

The effective date for the updated Filer Manual and related rule amendments is October 22, 2024. In accordance with the APA,[9] we find that there is good cause to establish an effective date less than 30 days after publication of these rules. The Commission believes that establishing an effective date less than 30 days after publication of these rules is necessary to coordinate the effectiveness of the updated Filer Manual with the related system upgrades.

V. Statutory Basis

We are adopting the amendments to Regulation S–T under the authority in sections 6, 7, 8, 10, and 19(a) of the Securities Act of 1933,[10] sections 3, 12, 13, 14, 15, 15B, 23, and 35A of the Securities Exchange Act of 1934,[11] section 319 of the Trust Indenture Act of 1939,[12] and sections 8, 30, 31, and 38 of the Investment Company Act of 1940.[13]

§ 232.301 EDGAR Filer Manual.

Filers must prepare electronic filings in the manner prescribed by the EDGAR Filer Manual, promulgated by the Commission, which sets forth the technical formatting requirements for electronic submissions. The requirements for becoming an EDGAR Filer and updating company data are set forth in the EDGAR Filer Manual, Volume I: ''General Information,'' Version 41 (December 2022). The requirements for filing on EDGAR are set forth in the updated EDGAR Filer Manual, Volume II: ''EDGAR Filing,'' Version 71 (September 2024). All of these provisions have been incorporated by reference into the Code of Federal Regulations, which action was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. You must comply with these requirements in order for documents to be timely received and accepted. The EDGAR Filer Manual is available for inspection at the Commission and at the National Archives and Records Administration (NARA). The EDGAR Filer Manual is available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Operating conditions may limit access to the Commission's Public Reference Room. SUPPLEMENTARY INFORMATION:

Legal Authority

The United States is a party to the 1971 United Nations Convention on Psychotropic Substances (1971 Convention), Feb. 21, 1971, 32 U.S.T. 543, 1019 U.N.T.S. 175, as amended. Procedures respecting changes in drug schedules under the 1971 Convention are governed domestically by 21 U.S.C. 811(d)(2)–(4). When the United States receives notification of a scheduling decision pursuant to Article 2 of the 1971 Convention indicating that a drug or other substance has been added to a schedule specified in the notification, the Secretary of Health and Human Services (Secretary),[1] after consultation with the Attorney General, shall first determine whether existing legal controls under subchapter I of the Controlled Substances Act (CSA) and the Federal Food, Drug, and Cosmetic Act meet the requirements of the schedule specified in the notification with respect to the specific drug or substance.[2] In the event that the Secretary did not so consult with the Attorney General, and the Attorney General did not issue a temporary order, as provided under 21 U.S.C. 811(d)(4), the procedures for permanent scheduling set forth in 21 U.S.C. 811(a) and (b) control.

Pursuant to 21 U.S.C. 811(a)(1) and (2), the Attorney General (as delegated to the Administrator of the Drug Enforcement Administration (DEA) pursuant to 28 CFR 0.100) may, by rule, and upon the recommendation of the Secretary, add to such a schedule or transfer between such schedules any drug or other substance, if he finds that such drug or other substance has a potential for abuse, and makes with respect to such drug or other substance the findings prescribed by 21 U.S.C. 812(b) for the schedule in which such drug or other substance is to be placed.

Background

Ethylphenidate is a central nervous system stimulant and shares structural and pharmacological similarities with other schedule II stimulants, such as methylphenidate. On April 21, 2017, the Secretary-General of the United Nations advised the Secretary of State of the United States that, during its 60th session on March 16, 2017, the Commission on Narcotic Drugs (CND) voted to place ethyl 2-phenyl-2-(piperidin-2-yl)acetate (ethylphenidate) in Schedule II of the 1971 Convention (CND Dec/60/7). Because the procedures in 21 U.S.C. 811(d)(3) and (4) for consultation and issuance of a temporary order for ethylphenidate were not followed, as discussed above in the legal authority section, DEA is utilizing the procedures for permanent scheduling set forth in 21 U.S.C. 811(a) and (b) to control ethylphenidate. Permanently scheduling ethylphenidate satisfies the United States' international obligations.

DEA and HHS Eight Factor Analyses

In a letter dated October 26, 2020, in accordance with 21 U.S.C. 811(b), and in response to DEA's April 3, 2019 request, HHS provided to DEA a scientific and medical evaluation and scheduling recommendation for ethylphenidate. DEA reviewed the scientific and medical evaluation and scheduling recommendation for schedule I placement provided by HHS, and all other relevant data, pursuant to 21 U.S.C. 811(b) and (c), and conducted its own analysis under the eight factors stipulated in 21 U.S.C. 811(c). DEA found, under 21 U.S.C. 811(b)(1), that this substance warrants control in schedule I. Both DEA and HHS Eight-Factor analyses are available in their entirety under the tab Supporting Documents of the public docket for this action at *https://www.regulations.gov* under docket number DEA–1142.

Notice of Proposed Rulemaking To Schedule Ethylphenidate

On September 22, 2023, DEA published a notice of proposed rulemaking (NPRM) to permanently control ethylphenidate in schedule I.[3] Specifically, DEA proposed to add ethylphenidate to the list of stimulant substances under 21 CFR 1308.11(f). The NPRM provided an opportunity for interested persons to file a request for hearing in accordance with DEA regulations on or before October 23, 2023. DEA did not receive any requests for such a hearing. The NPRM also provided an opportunity for interested persons to submit comments on or before November 21, 2023.

Comments Received

DEA received ten comments in response to the notice of proposed rulemaking for the placement of ethylphenidate into schedule I of the CSA. The submissions were from individuals or anonymous commenters. Five commenters provided support for the notice of proposed rulemaking, four commenters were against the placement of ethylphenidate in schedule I of the CSA, and one commenter expressed statements that were neither for nor against the proposed rule.

DEA received five comments in support of the placement of ethylphenidate in schedule I.

DEA Response: DEA appreciates these comments in support of this rulemaking.

DEA received four comments against the placement of ethylphenidate in schedule I of the CSA. The following are DEA's responses to the individual comments against the proposed rulemaking.

DEA received a comment asserting that methylphenidate is already controlled under schedule II of the CSA, thus, ethylphenidate is considered controlled under the Controlled Substances Analogue Act due to their similarities. This commenter concluded that the government should not dictate what researchers may study for legitimate scientific use.

DEA Response: DEA appreciates this comment and would like to provide further clarification regarding the control of ethylphenidate. Ethylphenidate has been placed under international control. In order to comply with treaty obligations, DEA must place ethylphenidate under the most appropriate schedule, taking into consideration all appropriate scientific data. This is true even if this substance could be treated under the Controlled Substances Analogue provision. Additionally, as set forth in the NPRM, ethylphenidate has no currently accepted medical use in treatment in the United States. Therefore, ethylphenidate must be placed in schedule I of the CSA along with other substances which have no currently accepted medical use, lack

The Secretary has delegated to the Assistant Secretary for Health of HHS the authority to make domestic drug scheduling recommendations. *Comprehensive Drug Abuse Prevention and Control Act of 1970, Public Law 91–513, As Amended; Delegation of Authority,* 58 FR 35460 (July 1, 1993).

accepted safety for use under medical supervision, and possess a high potential for abuse. With respect to scientific research, the placement of substances in schedule I of the CSA does not preclude academic research on these substances. DEA registrants wishing to conduct research on schedule I substances may apply for permission to do so through the schedule I researcher registration program.[4]

DEA received a comment comparing ethylphenidate to methylphenidate. The commenter questioned the reasonable nature of placing ethylphenidate in schedule I of the CSA considering it is a weaker substance when compared to methylphenidate, a schedule II substance.

DEA Response: DEA appreciates this comment and asserts the following: Ethylphenidate belongs to the stimulant class of drugs and possesses abuse liability similar to that of methylphenidate; however, unlike methylphenidate, ethylphenidate has no currently accepted medical use in treatment in the United States. A qualification for placing substances in schedules II thorough IV of the CSA is that they must have a currently accepted medical use in treatment in the United States. Thus, DEA asserts that the placement of ethylphenidate in schedule I of the CSA is warranted.

DEA received a comment with statements against the NPRM placing ethylphenidate in schedule I of the CSA. The commenter stated that, in the NPRM, DEA failed to provide a reason for the placement of ethylphenidate in a more restrictive schedule (here, schedule I) than methylphenidate, considering the two drugs share significant pharmacological similarities and are considered analogues of one another. The commenter further stated that because ethylphenidate is an analog of methylphenidate, it may be possible in the future for ethylphenidate to be marketed as an alternative to methylphenidate. In particular, the commenter stated the placement of ethylphenidate in schedule I of the CSA would completely hamper future legitimate research regarding its medical efficacy. Thus, the commenter states, by imposing criminal sanctions on those who engage in research or chemical analysis of the drug, DEA would prevent the future discovery of its possible medical use.

DEA Response: DEA appreciates this comment and asserts the following: As stated above, ethylphenidate has been placed under international control. In order to comply with treaty obligations, DEA must place ethylphenidate under the most appropriate schedule, taking into consideration all appropriate scientific data. Additionally, a qualification for placing substances in schedules II thorough IV of the CSA is that they must have a currently accepted medical use in treatment in the United States. Ethylphenidate has no currently accepted medical use in treatment in the United States, lacks accepted safety for use under medical supervision, and possesses a high potential for abuse. Thus, DEA asserts that the placement of ethylphenidate in schedule I of the CSA is warranted. With respect to research, the placement of substances in schedule I of the CSA does not preclude research into this substance. DEA registrants wishing to conduct research on schedule I substances, including ethylphenidate, may apply for permission to do so through the schedule I researcher registration program.

DEA received a comment expressing that ethylphenidate should be categorized as a schedule II drug ''until further research has been conducted to prove its viability.''

DEA Response: DEA appreciates this comment and asserts the following: According to the CSA, schedule I substances are defined as drugs that have no known medical use in treatment in the United States, and have a high potential for abuse. Additionally, according to the CSA, schedule II substances also have a high potential for abuse but have a currently accepted medical use in treatment. Accordingly, DEA proposed to place ethylphenidate in schedule I of the CSA, due to its lack of a currently accepted medical use in treatment in the United States, its lack of accepted safety for use under medical supervision, and its high potential for abuse.

DEA received one comment that provided statements that were neither explicitly for nor against the proposed rule.

In this comment, the commenter suggested that instead of creating a new rule for the control of ethylphenidate, DEA should simply clarify the existing rule which controlled methylphenidate. According to this commenter, this suggested amendment would extend control to all derivatives of methylphenidate. The commenter also expressed an understanding of DEA's intent to schedule ethylphenidate but questioned whether a standard notice-and-comment procedure was needed for an action that could be addressed by clarifying existing rulemaking.

DEA Response: DEA appreciates this suggestion and asserts the following: Ethylphenidate was placed under international control on March 16, 2017, during the CND's 60th session. As a signatory to the 1971 Convention on Psychotropic Substances, it is incumbent upon DEA to place ethylphenidate in its most appropriate schedule under the CSA. Therefore, DEA proposed to place ethylphenidate in schedule I of the CSA because it has no currently accepted medical use in treatment in the United States, lacks accepted safety for use under medical supervision, and has an abuse potential similar to that of methylphenidate. As explained in the NPRM, because the procedures in 21 U.S.C. 811(d)(3) and (4) for consultation and issuance of a temporary order for ethylphenidate were not followed, DEA utilized the procedures for permanent scheduling set forth in 21 U.S.C. 811(a) and (b) to control ethylphenidate, which required notice and an opportunity for hearing.

Scheduling Conclusion

After consideration of the public comments, scientific and medical evaluation and accompanying scheduling recommendation from HHS, and after its own eight-factor evaluation, DEA finds that these facts and all relevant data constitute substantial evidence of potential for abuse of ethylphenidate. As such, DEA is permanently scheduling ethylphenidate as a controlled substance under schedule I of the CSA. The permanent scheduling of ethylphenidate will fulfill the United States' obligations as a party to the 1971 Convention.

Determination of Appropriate Schedule

The CSA establishes five schedules of controlled substances known as schedules I, II, II, IV, and V. The CSA also specifies the findings requires to place a drug or other substance in any particular schedule, 21 U.S.C. 812(b). After consideration of the analysis and recommendation of the Acting Assistant Secretary for Health of HHS and review of all other available data, the Administrator of DEA, pursuant to 21 U.S.C. 812(b)(1), finds that:

(1) Ethylphenidate has a high potential for abuse that is comparable to other scheduled substances, such as methylphenidate (a schedule II substance);

(2) Ethylphenidate has no currently accepted medical use in treatment in the United States. In HHS' 2020 recommendation to control ethylphenidate, it was noted there are no approved New Drug Applications for ethylphenidate and no known therapeutic applications for ethylphenidate in the United States. DEA is not aware of any other evidence suggesting that ethylphenidate has

[4] *https://apps.deadiversion.usdoj.gov/webforms2/spring/main?execution=e1s2.*

a currently accepted medical use in treatment in the United States.[5]

(3) There is a lack of accepted safety for use of ethylphenidate under medical supervision. Because ethylphenidate has no approved medical use and has not been investigated as a new drug, its safety for use under medical supervision has not been determined.

Based on these findings, the Administrator of DEA concludes that ethylphenidate, as well as its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible, warrants control in schedule I of the CSA.

Requirements for Handling Ethylphenidate

Ethylphenidate is subject to the CSA's schedule I regulatory controls and administrative, civil, and criminal sanctions applicable to the manufacture, distribution, reverse distribution, import, export, engagement in research, conduct instructional activities or chemical analysis with, and possession of schedule I controlled substances, including the following:

[5] When placing a substance in schedule I, DEA must consider whether the substance has a currently accepted medical use in treatment in the United States. 21 U.S.C. 812(b)(1)(B) There is no evidence suggesting that ethylphenidate has a currently accepted medical use in treatment in the United States. To determine whether a drug or other substance has a currently accepted medical use, DEA has traditionally applied a five-part test to a drug or substance that has not been approved by the FDA: i. The drug's chemistry must be known and reproducible; ii. there must be adequate safety studies; iii. there must be adequate and well-controlled studies proving efficacy; iv. the drug must be accepted by qualified experts; and v. the scientific evidence must be widely available. See *Marijuana Scheduling Petition; Denial of Petition; Remand,* 57 FR 10499 (Mar. 26, 1992), pet. for rev. denied, *Alliance for Cannabis Therapeutics* v. *Drug Enforcement Admin.,* 15 F.3d 1131, 1135 (D.C. Cir. 1994). DEA and HHS applied the traditional five-part test for currently accepted medical use in this matter. In a recent published letter in a different context, HHS applied an additional two-part test to determine currently accepted medical use for substances that do not satisfy the five-part test: (1) whether there exists widespread, current experience with medical use of the substance by licensed health care practitioners operating in accordance with implemented jurisdiction-authorized programs, where medical use is recognized by entities that regulate the practice of medicine, and, if so, (2) whether there exists some credible scientific support for at least one of the medical conditions for which part (1) is satisfied. On April 11, 2024, the Department of Justice's Office of Legal Counsel (OLC) issued an opinion, which, among other things, concluded that HHS's two-part test would be sufficient to establish that a drug has a currently accepted medical use. Office of Legal Counsel, Memorandum for Merrick B. Garland Attorney General Re: Questions Related to the Potential Rescheduling of Marijuana at 3 (April 11, 2024). For purposes of this final rule, there is no evidence that health care providers have widespread experience with medical use of ethylphenidate or that the use of ethylphenidate is recognized by entities that regulate the practice of medicine under either the traditional five-part test or the two-part test.

1. *Registration.* Any person who handles (manufactures, distributes, reverse distributes, imports, exports, engages in research, or conducts instructional activities or chemical analysis with, or possesses), or who desires to handle, ethylphenidate must register with DEA to conduct such activities pursuant to 21 U.S.C. 822, 823, 957, and 958, and in accordance with 21 CFR parts 1301 and 1312. Any person who currently handles ethylphenidate and is not registered with DEA must submit an application for registration and may not continue to handle ethylphenidate, unless DEA has approved that application for registration pursuant to 21 U.S.C. 822, 823, 957, 958, and in accordance with 21 CFR parts 1301 and 1312. Retail sales of schedule I controlled substances to the general public are not allowed under the CSA. Possession of any quantity in a manner not authorized by the CSA is unlawful and those in possession of any quantity may be subject to prosecution pursuant to the CSA.

2. *Disposal of stocks.* Any person unwilling or unable to obtain a schedule I registration must surrender or transfer all quantities of currently held ethylphenidate to a person registered with DEA before the effective date of a final scheduling action in accordance with all applicable Federal, State, local, and tribal laws. Ethylphenidate must be disposed of in accordance with 21 CFR part 1317, in addition to all other applicable Federal, State, local, and tribal laws.

3. *Security.* Ethylphenidate is subject to schedule I security requirements and must be handled and stored pursuant to 21 U.S.C. 823, and in accordance with 21 CFR 1301.71–1301.76, as of the effective date of this final scheduling action. 6. *Inventory.* Every DEA registrant who possesses any quantity of ethylphenidate must take an inventory of ethylphenidate on hand, pursuant to 21 U.S.C. 827 and in accordance with 21 CFR 1304.03, 1304.04, and 1304.11(a) and (d).

Any person who registers with DEA must take an initial inventory of all stocks of controlled substances (including ethylphenidate) on hand on the date the registrant first engages in the handling of controlled substances, pursuant to 21 U.S.C. 827 and in accordance with 21 CFR 1304.03, 1304.04, and 1304.11(a) and (b).

After the initial inventory, every DEA registrant must take an inventory of all controlled substances (including ethylphenidate) on hand every two years, pursuant to 21 U.S.C. 827 and in accordance with 21 CFR 1304.03, 1304.04, and 1304.11.

7. *Records and Reports.* Every DEA registrant must maintain records and submit reports for ethylphenidate, or products containing ethylphenidate, pursuant to 21 U.S.C. 827 and in accordance with 21 CFR 1301.74(b) and (c), 1301.76(b), and parts 1304, 1312 and 1317. Manufacturers and distributors must submit reports regarding ethylphenidate to the Automation of Reports and Consolidated Order System pursuant to 21 U.S.C. 827 and in accordance with 21 CFR parts 1304 and 1312.

8. *Order Forms.* Every DEA registrant who distributes ethylphenidate must comply with the order form requirements, pursuant to 21 U.S.C. 828 and 21 CFR part 1305.

10. *Liability.* Any activity involving ethylphenidate not authorized by, or in violation of, the CSA or its implementing regulations, is unlawful, and may subject the person to administrative, civil, and/or criminal sanctions.

Regulatory Analyses

Executive Orders 12866 (Regulatory Planning and Review), 13563 (Improving Regulation and Regulatory Review), and 14094 (Modernizing Regulatory Review)

In accordance with 21 U.S.C. 811(a), this final scheduling action is subject to formal rulemaking procedures performed ''on the record after opportunity for a hearing,'' which are conducted pursuant to the provisions of 5 U.S.C. 556 and 557. The CSA sets forth the procedures and criteria for scheduling a drug or other substance. Such actions are exempt from review by the Office of Management and Budget pursuant to section 3(d)(1) of Executive Order (E.O.) 12866 and the principles

reaffirmed in E.O. 13563. E.O. 14094 modernizes the regulatory review process to advance policies that promote the public interest and address national priorities.

Executive Order 12988, Civil Justice Reform

This regulation meets the applicable standards set forth in sections 3(a) and 3(b)(2) of E.O. 12988 to eliminate drafting errors and ambiguity, minimize litigation, provide a clear legal standard for affected conduct, and promote simplification and burden reduction.

Executive Order 13132, Federalism

This rulemaking does not have federalism implications warranting the application of E.O. 13132. The proposed rule does not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government.

Executive Order 13175, Consultation and Coordination With Indian Tribal Governments

This rule does not have tribal implications warranting the application of E.O. 13175. It does not have substantial direct effects on one or more Indian tribes, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes.

Paperwork Reduction Act of 1995

This action does not impose a new collection of information requirement under the Paperwork Reduction Act of 1995.[6] Also, this proposed rule would not impose new or modify existing recordkeeping or reporting requirements on state or local governments, individuals, businesses, or organizations. However, this proposed rule would require compliance with the following existing OMB collections: 1117–0003, 1117–0004, 1117–0006, 1117–0008, 1117–0009, 1117–0010, 1117–0012, 1117–0014, 1117–0021, 1117–0023, 1117–0029, and 1117–0056. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Regulatory Flexibility Act

The Administrator of DEA, in accordance with the Regulatory Flexibility Act, 5 U.S.C. 601–612, has reviewed this final rule, and by approving it, certifies that it will not have a significant economic impact on a substantial number of small entities.

DEA is placing the substance ethylphenidate (chemical name: ethyl 2-phenyl-2-(piperidin-2-yl)acetate), including its salts, isomers, and salts of isomers, in schedule I of the CSA to enable the United States to meet its obligations under the 1971 Convention. This action imposes the regulatory controls and administrative, civil, and criminal sanctions applicable to schedule I controlled substances on persons who handle (manufacture, distribute, reverse distribute, import, export, engage in research, conduct instructional activities or chemical analysis with, or possess) or propose to handle ethylphenidate.

Based on the review of HHS's scientific and medical evaluation and all other relevant data, DEA determined that ethylphenidate has high potential for abuse, has no currently accepted medical use in treatment in the United States, and lacks accepted safety for use under medical supervision. DEA's research confirms that there is no legitimate commercial market for ethylphenidate in the United States. Therefore, this final rule will not have a significant economic impact on a substantial number of small entities.

Unfunded Mandates Reform Act of 1995

On the basis of information contained in the ''Regulatory Flexibility Act'' section above, DEA has determined pursuant to the Unfunded Mandates Reform Act (UMRA) of 1995 (2 U.S.C. 1501 *et seq.)* that this final rule would not result in any Federal mandate that may result ''in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of $100,000,000 or more (adjusted annually for inflation) in any 1 year . . . .'' Therefore, neither a Small Government Agency Plan nor any other action is required under UMRA of 1995.

Congressional Review Act

This rule is not a major rule as defined by the Congressional Review Act (CRA), 5 U.S.C. 804. However, pursuant to the CRA, DEA is submitting a copy of the final rule to both Houses of Congress and to the Comptroller General.

I. Does this action apply to me?

No entities will be affected by this final action. The EPA is amending its PSD regulations to correct the fourth-level paragraph designations from the Code of Federal Regulations (CFR) to conform with the OFR requirements. The EPA is responsible for making the required paragraph codification corrections in the EPA PSD regulations and communicating those corrections to stakeholders, including state, local, and Tribal (SLT) permitting authorities and regulated entities. SLT permitting authorities are not required to make corresponding corrections to any of their regulations implementing the PSD program including those approved by the EPA into a State Implementation Plan (SIP).

II. Background and Rationale for This Action

Part C of title I of the Clean Air Act (CAA), 42 U.S.C. 7470 *et seq.,* contains the requirements for a component of the major New Source Review (NSR) program known as the PSD program. This program sets forth procedures for the preconstruction review and permitting of new and modified stationary sources of air pollution located in areas meeting the National Ambient Air Quality Standards (NAAQS) (''attainment'' areas) and areas for which there is insufficient information to classify an area as either attainment or nonattainment (''unclassifiable'' areas). The EPA's PSD regulations are contained in 40 CFR

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

21 CFR Part 1308

[Docket No. DEA–1245]

Schedules of Controlled Substances: Placement of 2-Methyl AP–237 in Schedule I

AGENCY: Drug Enforcement Administration, Department of Justice.

ACTION: Final amendment; final order.

SUMMARY: With the issuance of this final order, the Administrator of the Drug Enforcement Administration is permanently placing 1-(2-methyl-4-(3-phenylprop-2-en-1-yl)piperazin-1-yl)butan-1-one (commonly known as 2-methyl AP–237), including its optical and geometric isomers, esters, ethers, salts, and salts of isomers, esters, and ethers whenever the existence of such isomers, esters, ethers, and salts is possible within the specific chemical designation, in schedule I of the Controlled Substances Act. This scheduling action discharges the United States' obligations under the Single Convention on Narcotic Drugs (1961). This action imposes the regulatory controls and administrative, civil, and criminal sanctions applicable to schedule I controlled substances on persons who handle (manufacture, distribute, import, export, engage in research or conduct instructional activities with, or possess), or propose to handle 2-methyl AP–237.

DATES: Effective April 15, 2024.

FOR FURTHER INFORMATION CONTACT: Dr. Terrence L. Boos, Drug and Chemical Evaluation Section, Diversion Control Division, Drug Enforcement Administration; Telephone: (571) 362–3249.

SUPPLEMENTARY INFORMATION:

Legal Authority

The United States is a party to the 1961 United Nations Single Convention on Narcotic Drugs, March 30, 1961, 18 U.S.T. 1407, 570 U.N.T.S. 151 (Single Convention), as amended by the 1972 Protocol. Article 3, paragraph 7 of the Single Convention requires that if the Commission on Narcotic Drugs (Commission) adds a substance to one of the schedules of such Convention, and the United States receives notification of such scheduling decision from the Secretary-General of the United Nations (Secretary-General), the United States, as a signatory Member State, is obligated to control the substance under its national drug control legislation. Under 21 U.S.C. 811(d)(1) of the Controlled Substances Act (CSA), if control of a substance is required ''by United States obligations under international treaties, conventions, or protocols in effect on October 27, 1970,'' the Attorney General must issue an order controlling such drug under the schedule he deems most appropriate to carry out such obligations, without regard to the findings required by 21 U.S.C. 811(a) or 812(b), and without regard to the procedures prescribed by 21 U.S.C. 811(a) and (b). The Attorney General has delegated scheduling authority under 21 U.S.C. 811 to the Administrator of the Drug Enforcement Administration (Administrator of DEA or Administrator). 28 CFR 0.100.

Background

In a letter dated November 24, 2022, the Director-General of the World Health Organization recommended to the Secretary-General of the United Nations that 2-methyl AP–237 be placed in Schedule I of the Single Convention, as this substance has an opioid mechanism of action and similarity to drugs that are controlled in Schedule I of the Single Convention (*i.e.,* 2-methyl AP–237 is similar to drugs such as isotonitazene) and has dependence and abuse potential. On May 17, 2023, the United States Government was informed by the Secretariat of the United Nations, by letter, that during its 66th session in March 2023, the Commission voted to place 2-methyl AP–237 in Schedule I of the Single Convention (CND Mar/66/1).

2-Methyl AP–237

2-Methyl AP–237 has a pharmacological profile similar to other classical opioids such as fentanyl (schedule II), morphine (schedule II) and heroin (schedule I), which act as mu-opioid receptor agonists. Because of the pharmacological similarities of 2-methyl AP–237 to the aforementioned opioids, 2-methyl AP–237 presents a high risk of abuse and has negatively affected users and communities. According to the DEA Toxicology Testing Program (DEA TOX) [1] and a recent publication,[2] the abuse of 2-methyl AP–237 has been associated with at least seven fatalities in the United States between February 2020 and July 2023. The identification of this substance in post-mortem cases is a serious concern to public safety.

In June 2019, 2-methyl AP–237 emerged on the United States illicit drug market as evidenced by its identification in drug seizures.[3] Law enforcement

[1] The DEA Toxicology Testing Program (DEA TOX) was initiated in response to the ongoing novel synthetic drug abuse epidemic. This program provides toxicology data on synthetic drugs from biological samples that may not be routinely identified, which are generated from drug overdose victims. Data queried on 8/7/2023.

reports demonstrate that 2-methyl AP–237 is being illicitly distributed and abused. The illicit use and distribution of this substance is similar to that of heroin (schedule I) and prescription opioid analgesics. According to the National Forensic Laboratory Information System (NFLIS-Drug) database, which collects drug identification results from drug cases submitted to and analyzed by Federal, State, and local forensic laboratories, there have been 92 reports of 2-methyl AP–237 in the United States since 2019 (data queried July 17, 2023).

DEA is not aware of any claims or any medical or scientific literature suggesting that 2-methyl AP–237 has a currently accepted medical use in treatment in the United States. In addition, the Assistant Secretary for Health of the U.S. Department of Health and Human Services, by a letter to DEA dated December 22, 2022, stated that there are no investigational new drug applications or approved new drug applications for 2-methyl AP–237 in the United States; hence, there are no legitimate channels for this substance as a marketed drug product in the United States. Because 2-methyl AP–237 is not formulated or available for clinical use as an approved medicinal product, all current use of this substance by individuals is based on their own initiative, rather than on the basis of medical advice from a practitioner licensed by law to administer such a drug.

Therefore, consistent with 21 U.S.C. 811(d)(1), DEA concludes that 2-methyl AP–237 has no currently accepted medical use in treatment in the United States [4] and is most appropriately placed in schedule I of the CSA. Because control is required under the Single Convention, DEA will not be initiating regular rulemaking proceedings to permanently schedule 2-methyl AP–237 pursuant to 21 U.S.C. 811(a).

Conclusion

In order to meet the United States' obligations under the Single Convention and because 2-methyl AP–237 has no currently accepted medical use in treatment in the United States, the Administrator has determined that 2-methyl AP–237, including its optical and geometric isomers, esters, ethers, salts, and salts of isomers, esters, and ethers, whenever the existence of such isomers, esters, ethers, and salts is possible within the specific chemical designation, should be placed in schedule I of the CSA.

Requirements for Handling

Upon the effective date of the final order contained in this document, 2-methyl AP–237 will be permanently subject to the CSA's schedule I regulatory controls and administrative, civil, and criminal sanctions applicable to the manufacture of, distribution of, importation of, exportation of, engagement in research or conduct of instructional activities with, and possession of, schedule I controlled substances, including the following:

1. *Registration.* Any person who handles (manufactures, distributes, imports, exports, engages in research or conducts instructional activities with, or possesses), or who desires to handle, 2-methyl AP–237 must be registered with DEA to conduct such activities pursuant to 21 U.S.C. 822, 823, 957, and 958, and in accordance with 21 CFR parts 1301 and 1312. Retail sales of schedule I controlled substances to the general public are not allowed under the CSA. Possession of any quantity of this substance in a manner not authorized by the CSA is unlawful and those in possession of any quantity of this substance may be subject to prosecution pursuant to the CSA.

2. *Disposal of stocks.* 2-Methyl AP–237 must be disposed of in accordance with 21 CFR part 1317, in addition to all other applicable Federal, state, local, and tribal laws.

3. *Security.* 2-Methyl AP–237 is subject to schedule I security requirements and must be handled and stored pursuant to 21 U.S.C. 823, and in accordance with 21 CFR 1301.71–1301.76. Non-practitioners handling 2-methyl AP–237 must comply with the employee screening requirements of 21 CFR 1301.90–1301.93.

4. *Labeling and packaging.* All labels, labeling, and packaging for commercial containers of 2-methyl AP–237 must comply with 21 U.S.C. 825, and be in accordance with 21 CFR part 1302.

5. *Quota.* Only registered manufacturers are permitted to manufacture 2-methyl AP–237 in accordance with a quota assigned pursuant to 21 U.S.C. 826, and in accordance with 21 CFR part 1303.

6. *Inventory.* Any person registered with DEA to handle 2-methyl AP–237 must have an initial inventory of all stocks of controlled substances (including this substance) on hand on the date the registrant first engages in the handling of controlled substances pursuant to 21 U.S.C. 827 and in accordance with 21 CFR 1304.03, 1304.04, and 1304.11.

After the initial inventory, every DEA registrant must take a new inventory of all stocks of controlled substances (including 2-methyl AP–237) on hand every two years pursuant to 21 U.S.C. 827 and in accordance with 21 CFR 1304.03, 1304.04, and 1304.11.

7. *Records and Reports.* DEA registrants must maintain records and submit reports with respect to 2-methyl AP–237 pursuant to 21 U.S.C. 827, and in accordance with 21 CFR 1301.74(b) and (c), 1301.76(b), and 1307.11 and parts 1304, 1312, and 1317. Manufacturers and distributors must submit reports regarding 2-methyl AP–237 to the Automation of Reports and Consolidated Order System pursuant to 21 U.S.C. 827 and in accordance with 21 CFR parts 1304 and 1312.

8. *Order Forms.* All DEA registrants who distribute 2-methyl AP–237 must comply with the order form requirements pursuant to 21 U.S.C. 828 and in accordance with 21 CFR part 1305.

9. *Importation and Exportation.* All importation and exportation of 2-methyl AP–237 must comply with 21 U.S.C. 952, 953, 957, and 958, and in accordance with 21 CFR part 1312.

10. *Liability.* Any activity involving 2-methyl AP–237 not authorized by, or in violation of the CSA, is unlawful, and may subject the person to administrative, civil, and/or criminal sanctions.

information system that includes data from forensic laboratories that handle the nation's drug analysis cases. NFLIS-Drug participation rate, defined as the percentage of the national drug caseload represented by laboratories that have joined NFLIS, is currently 98.5 percent. NFLIS includes drug chemistry results from completed analyses only. While NFLIS data is not direct evidence of abuse, it can lead to an inference that a drug has been diverted and abused. *See* Schedules of Controlled Substances: Placement of Carisoprodol Into Schedule IV; 76 FR 77330, 77332, December 12, 2011. NFLIS data was queried on July 17, 2023. Reports to NFLIS-Drug are still pending for 2023.

[4] Although, as discussed above, there is no evidence suggesting that 2-methyl AP–237 has a currently accepted medical use in treatment in the United States, it bears noting that a drug cannot be found to have such medical use unless DEA concludes that it satisfies a five-part test. Specifically, with respect to a drug that has not been approved by the Food and Drug Administration, to have a currently accepted medical use in treatment in the United States, all of the following must be demonstrated: i. the drug's chemistry must be known and reproducible; ii. there must be adequate safety studies; iii. there must be adequate and well-controlled studies proving efficacy; iv. the drug must be accepted by qualified experts; and v. the scientific evidence must be widely available. 57 FR 10499 (Mar 26,1992), *pet. for rev. denied, Alliance for Cannabis Therapeutics* v. *Drug Enforcement Admin.,* 15 F.3d 1131, 1135 (D.C. Regulatory Analyses

Executive Orders 12866 (Regulatory Planning and Review) and 13563 (Improving Regulation and Regulatory Review) and 14094 (Modernizing Regulatory Review)

This action is not a significant regulatory action as defined by Executive Order (E.O.) 12866 (Regulatory Planning and Review), section 3(f), as amended by E.O. 14094, section 1(b), and the principles reaffirmed in E.O. 13563 (Improving Regulation and Regulatory Review); and, accordingly, this action has not been reviewed by the Office of Management and Budget (OMB).

Executive Order 12988, Civil Justice Reform

This action meets the applicable standards set forth in sections 3(a) and 3(b)(2) of E.O. 12988 to eliminate drafting errors and ambiguity, minimize litigation, provide a clear legal standard for affected conduct, and promote simplification and burden reduction.

Executive Order 13132, Federalism

This action does not have federalism implications warranting the application of E.O. 13132. This action does not have substantial direct effects on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government.

Executive Order 13175, Consultation and Coordination With Indian Tribal Governments

This action does not have tribal implications warranting the application of E.O. 13175. The action does not have substantial direct effects on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Administrative Procedure Act

The CSA provides for an expedited scheduling action where control is required by the United States' obligations under international treaties, conventions, or protocols. 21 U.S.C. 811(d)(1). If control is required pursuant to such international treaty, convention, or protocol, the Attorney General, as delegated to the Administrator, must issue an order controlling such drug under the schedule he deems most appropriate to carry out such obligations, and ''without regard to'' the findings and rulemaking procedures otherwise required for scheduling actions in 21 U.S.C. 811(a) and (b). *Id.*

In accordance with 21 U.S.C. 811(d)(1), scheduling actions for drugs that are required to be controlled by the United States' obligations under international treaties, conventions, or protocols in effect on October 27, 1970, shall be issued by order (as opposed to scheduling by rule pursuant to 21 U.S.C. 811(a)). Therefore, DEA believes that the notice and comment requirements of section 553 of the Administrative Procedure Act (APA), 5 U.S.C. 553, do not apply to this scheduling action.

Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) (5 U.S.C. 601–612) applies to rules that are subject to notice and comment under section 553(b) of the APA or any other law. As explained above, the CSA exempts this final order from notice and comment. Consequently, the RFA does not apply to this action.

Paperwork Reduction Act of 1995

This order would modify an existing collection of information requirement under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501–3521. Pursuant to section 3507(d) of the PRA of 1995 (44 U.S.C. 3507(d)), DEA is adding new reporting and recordkeeping requirements for 1117–0003. This order also involves existing collection 1117–0004, but would not modify the existing collection of information requirement under the PRA. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information, unless it displays a valid OMB control number. Copies of existing information collections approved by OMB may be obtained at *http://www.reginfo.gov/public/do/PRAMain.*

Unfunded Mandates Reform Act of 1995

In accordance with the Unfunded Mandates Reform Act (UMRA) of 1995, 2 U.S.C. 1501 *et seq.,* DEA has determined and certifies that this action would not result in any Federal mandate that may result ''in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of $100,000,000 or more (adjusted annually for inflation) in any 1 year * * *.'' Therefore, neither a Small Government Agency Plan nor any other action is required under UMRA of 1995.

Congressional Review Act

This order is not a major rule as defined by the Congressional Review Act (CRA), 5 U.S.C. 804. However, DEA is submitting reports under the CRA to both Houses of Congress and to the Comptroller General.

[Public Notice: 12306]

International Traffic in Arms Regulations: Addition to List of Proscribed Countries

AGENCY: Department of State.

ACTION: Final rule.

SUMMARY: The Department of State is amending the International Traffic in Arms Regulations (ITAR) to add Nicaragua in the list of countries for which it is the policy of the United States to deny licenses or other approvals for exports and imports of defense services and defense articles, except as otherwise provided.

DATES: The rule is effective on March 15, 2024.

FOR FURTHER INFORMATION CONTACT: Ms. Maria Tatarska, Foreign Affairs Officer, Office of Defense Trade Controls Policy, U.S. Department of State, telephone (771) 205–7671; email *DDTCCustomerService@state.gov* ATTN: Regulatory Change, ITAR Section 126.1: Nicaragua.

SUPPLEMENTARY INFORMATION: Due to growing concerns regarding Nicaragua's continuing dismantling of democratic institutions, attacks on civil society, and increased security cooperation with Russia, to include support of Russia's full-scale invasion of Ukraine, the Under Secretary of State for Arms Control and International Security has determined that it is in the best interests of U.S. national security and foreign policy to restrict, with certain exceptions, the export and import of defense articles and defense services destined for or originating in Nicaragua. This policy reflects the U.S. government's opposition to the trade of arms with Nicaragua and its authoritarian government dominated by President Daniel Ortega Saavedra and his wife, Vice President Rosario Murillo Zambrana. Pursuant to this determination, the Department is adding Nicaragua to ITAR § 126.1 in paragraph (p). The policy of denial toward Nicaragua applies to licenses or other approvals for exports and imports of defense articles or defense services, except that a license or other approval may be issued on a case-by-case basis for non-lethal military equipment intended solely for humanitarian assistance, to include natural disaster relief. Further, in accordance with ITAR § 129.7, no broker, as described in ITAR § 129.2, may engage in or make a proposal to engage in brokering activities subject to the ITAR that involve Nicaragua without obtaining the approval of the Directorate of Defense Trade Controls. Consistent with ITAR § 129.7(d), the Department of State will apply the same policy of denial to such requests.

Regulatory Analysis and Notices

Administrative Procedure Act

This rulemaking is exempt from the rulemaking requirements of section 553 of the Administrative Procedure Act (APA) pursuant to 5 U.S.C. 553(a)(1) as a military or foreign affairs function of the United States.

Regulatory Flexibility Act

Since this rule is exempt from the notice-and-comment provisions of 5 U.S.C. 553, the rule does not require analysis under the Regulatory Flexibility Act.

Unfunded Mandates Reform Act of 1995

This rulemaking does not involve a mandate that will result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of $100 million or more in any year and it will not significantly or uniquely affect small governments. Therefore, no actions are deemed necessary under the provisions of the Unfunded Mandates Reform Act of 1995.

Congressional Review Act

The Department does not believe this rulemaking is a major rule within the definition of 5 U.S.C. 804.

Executive Orders 12372 and 13132

This rulemaking does not have sufficient federalism implications to require consultations or warrant the preparation of a federalism summary impact statement. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities do not apply to this rulemaking.

Executive Orders 12866, 13563, and 14094

Executive Order 12866, as amended by Executive Orders 13563 and 14094, directs agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributed impacts, and equity). As a result of this change, certain exemptions to licensing requirements will not be available for exports, reexports, retransfers, and temporary imports destined for or originating in Nicaragua. However, a license or other approval may be issued on a case-by-case basis for non-lethal military equipment intended solely for humanitarian assistance, to include natural disaster relief. Because the scope of this rule does not impose significant additional regulatory requirements or obligations, the Department believes costs associated with this rule will be minimal. This rule has been designated a ''significant regulatory action'' by the Office and Information and Regulatory Affairs under Executive Order 12866.

Executive Order 12988

The Department of State has reviewed this rulemaking in light of Executive Order 12988 to eliminate ambiguity, minimize litigation, establish clear legal standards, and reduce burden.

Executive Order 13175

The Department of State determined that this rulemaking will not have Tribal implications, will not impose substantial direct compliance costs on Indian Tribal governments, and will not preempt tribal law. Accordingly, Executive Order 13175 does not apply to this rulemaking.

Paperwork Reduction Act

This rulemaking does not impose or revise any information collections subject to 44 U.S.C. Chapter 35.
