ITEM 1. BUSINESS

OUR BUSINESSES

Overview

The terms "we," "our," "us," "its," "UnitedHealth Group," or the "Company" used in this report refer to UnitedHealth Group Incorporated and its subsidiaries.

UnitedHealth Group Incorporated is a health care and well-being company with a mission to help people live healthier lives and help make the health system work better for everyone. Our two distinct, yet complementary businesses — Optum and UnitedHealthcare — are working to help build a modern, high-performing health system through improved access, affordability, outcomes and experiences for the individuals and organizations we are privileged to serve.

The ability to analyze complex data and apply deep health care expertise and insights allows us to serve patients, consumers, care providers, businesses, communities and governments with more innovative products and complete, end-to-end offerings for many of the biggest challenges facing health care today.

Optum seeks to create a higher-performing, value-oriented and more connected approach to health care. Bringing together clinical expertise, technology and data to make care simpler, more effective and more affordable, we seek to advance whole-person health, creating a seamless consumer experience and supporting clinicians with insights to deliver personalized, evidence-based care. Optum serves the broad health care marketplace, including patients and consumers, payers, care providers, employers, governments and life sciences companies, through its Optum Health, Optum Insight and Optum Rx businesses. These businesses improve overall health system performance by optimizing health care quality and delivery, reducing costs and improving patient, consumer and provider experience, leveraging distinctive capabilities in data and analytics, pharmacy care services, health care operations, population health and health financial services.

UnitedHealthcare offers a full range of health benefits designed to simplify the health care experience and make it more affordable for consumers to access high-quality care. UnitedHealthcare Employer & Individual serves consumers and employers, ranging from sole proprietorships to large, multi-site and national employers and public sector employers. UnitedHealthcare Medicare & Retirement delivers health and well-being benefits to seniors and other Medicare eligible consumers. UnitedHealthcare Community & State serves consumers who are economically disadvantaged, the medically underserved and those without the benefit of employer sponsored health benefits coverage.

We have four reportable segments:

- Optum Health;
- Optum Insight;
- Optum Rx; and
- UnitedHealthcare, which includes UnitedHealthcare Employer & Individual, UnitedHealthcare Medicare & Retirement and UnitedHealthcare Community & State.

Optum

Optum is an information and technology-enabled health services business serving the broad health care marketplace, including:

- Those who need care: patients who need the right care, information, resources, products and engagement to improve their health, achieve their health goals and receive an improved patient experience that is personalized, comprehensive and delivered in all care settings, including in-home and virtually.
- Those who provide care: physicians, hospitals, pharmacies and others seeking to improve the health system and reduce the administrative burden allowing for providers to focus time on patients leading to the best possible patient care and experiences while achieving better health outcomes at lower costs. Improved health outcomes are achieved by utilizing our clinical expertise, data and analytics to better understand, treat and prevent consumers' health conditions and ensure they receive the best evidence-based care.
- Those who pay for care: consumers; employers; health plans; and state, federal and municipal agencies devoted to ensuring the people they sponsor receive high-quality care, administered and delivered efficiently and effectively, all while driving health equity so that every individual, family and community has access to the care they need.
- Those who innovate for care: global life sciences organizations dedicated to developing more effective approaches to care, enabling technologies and medicines to improve care delivery and health outcomes.

Optum operates three business segments which combine distinctive capabilities in value-based care, population health, health care operations, data and analytics and pharmacy care services:

- Optum Health delivers patient-centered care, care management, wellness and consumer engagement, and health financial services;
- Optum Insight offers data, analytics, research, consulting, technology and managed services solutions; and
- Optum Rx provides diversified pharmacy care services.

Optum Health

Optum Health provides comprehensive and patient-centered care, addressing the physical, mental, social, and financial well-being of 103 million consumers and serves more than 100 health payer partners. We engage people in the most appropriate care settings, including clinical sites, in-home and virtual. Optum Health delivers primary, specialty, surgical and urgent care; helps patients and providers navigate and address complex, chronic and behavioral health needs; offers post-acute care planning services; and serves consumers and care providers through advanced, on-demand digital health technologies, such as telehealth and remote patient monitoring, and innovative health care financial services. Optum Health works directly with patients, consumers, care delivery systems, providers, employers, payers, and public-sector entities to provide high quality, accessible and equitable care with improved health outcomes and reduced total cost of care. Optum Health enables care providers to transition from traditional fee-for-service payment models to performance-based delivery and payment models designed to improve patient health outcomes and experience through value-based care.

Optum Health offerings include fully accountable value-based arrangements, where Optum Health assumes responsibility for health care costs in exchange for a monthly premium. Offerings also include administrative fee arrangements, where Optum Health manages or administers products and services in exchange for a monthly fee, and fee-for-service arrangements, where Optum Health delivers health-related products and medical services for patients at a contracted fee.

Optum Financial, including Optum Bank, serves consumers through more than 24 million consumer accounts with nearly $22 billion in assets under management as of December 31, 2023. Organizations across the health system rely on Optum Financial to manage and improve payment flows through its highly automated, scalable, end-to-end digital payment and financing systems and integrated card solutions. For financial services offerings, Optum Financial charges fees and earns investment income on managed funds.

Optum Health sells its products primarily through its direct sales force, strategic collaborations and external producers in three key areas: employers, including large, mid-sized and small employers; payers including health plans, third-party administrators (TPAs), underwriter/stop-loss carriers and individual product intermediaries; and public entities including the U.S. Departments of Health and Human Services (HHS), Veterans Affairs, Defense, and other federal, state and local health care agencies.

Optum Insight

Optum Insight connects the health care system with services, analytics and platforms that make clinical, administrative and financial processes simpler and more efficient for all participants in the health care system. Hospital systems, physicians, health plans, public entities, life sciences companies and other organizations comprising the health care industry depend on Optum Insight to help them improve performance and reduce costs through administrative efficiency and payment simplification, advance care quality through evidence-based standards built directly into clinical workflows, meet compliance mandates and modernize their core operating systems to meet the changing needs of the health system.

Health Systems. Serves hospitals, physicians and other care providers to improve operating performance, better coordinate care and reduce administrative costs through technology and services to improve population health management, patient engagement, revenue cycle management and strategic growth plans.

Health Plans. Serves health plans by improving financial performance and enhancing outcomes through proactive analytics, a comprehensive payment integrity portfolio and technology-enabled and staff-supported risk and quality services. Optum Insight helps health plans navigate a dynamic environment defined by shifts in employer vs. public-sector coverage, the demand for affordable benefit plans and the need to leverage new technology to reduce complexity.

State Governments. Provides advanced technology and analytics services to modernize the administration of critical safety net programs, such as Medicaid, while improving cost predictability.

Life Sciences Companies. Combines data and analytics expertise with comprehensive technologies and health care knowledge to help life sciences companies, including those in pharmaceuticals and medical technology, adopt a more comprehensive approach to advancing therapeutic discoveries and improving clinical outcomes.

Many of Optum Insight's software and information products and professional services are delivered over extended periods, often several years. Optum Insight maintains an order backlog to track unearned revenues under these long-term arrangements.

The backlog consists of estimated revenue from signed contracts, other legally binding agreements and anticipated contract renewals based on historical experience with Optum Insight's customers. Optum Insight's aggregate backlog as of December 31, 2023 was approximately $32.1 billion, of which $18.7 billion is expected to be realized within the next 12 months. The aggregate backlog includes $11.9 billion related to affiliated agreements. Optum Insight's aggregate backlog as of December 31, 2022, was $30.0 billion, including $10.7 billion related to affiliated agreements.

Optum Insight's products and services are sold primarily through a direct sales force. Optum Insight's products are also supported and distributed through an array of alliances and business partnerships with other technology vendors, who integrate and interface Optum Insight's products with their applications.

Optum Rx

UnitedHealthcare uses Optum's capabilities to help coordinate and provide patient care, improve affordability of medical care, analyze cost trends, manage pharmacy care services, work with care providers more effectively and create a simpler and more satisfying consumer and physician experience.

In the United States, UnitedHealthcare arranges for discounted access to care through networks which, as of December 31, 2023, include 1.8 million physicians and other health care professionals and nearly 7,200 hospitals and other facilities.

UnitedHealthcare is subject to extensive government regulation. See further discussion of our regulatory environment below under "Government Regulation" and in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations."

UnitedHealthcare Employer & Individual

Domestically, UnitedHealthcare Employer & Individual offers a comprehensive array of consumer-oriented health benefit plans and services for large national employers, public sector employers, mid-sized employers, small businesses, and individuals. As of December 31, 2023, UnitedHealthcare Employer & Individual provides access to medical services for 27.3 million people. Globally, UnitedHealthcare Employer & Individual serves 7.8 million people with medical and dental benefits, typically in exchange for a monthly premium per member, residing principally in Brazil, Chile, Colombia and Peru, but also in more than 150 other countries. UnitedHealthcare Employer & Individual offers health care delivery in our principal global markets

through hospitals, outpatient and ambulatory clinics and surgery centers to UnitedHealthcare Employer & Individual global members and consumers served by other payers.

Through its risk-based product offerings, UnitedHealthcare Employer & Individual assumes the risk of both medical and administrative costs for its customers in return for a monthly premium which is typically a fixed rate per individual served for a one-year period. Through its administrative and other management services arrangements to customers who elect to self-fund the health care costs of their employees and employees' dependents, UnitedHealthcare Employer & Individual receives a fixed monthly service fee per individual served. These customers retain the risk of financing medical benefits for their employees and employees' dependents, while UnitedHealthcare Employer & Individual provides services such as coordination and facilitation of medical and related services to customers, consumers and health care professionals, administration of transaction processing and access to a contracted network of physicians, hospitals and other health care professionals, including dental and vision professionals. UnitedHealthcare Employer & Individual is focused on providing informed benefit solutions that create customized plan designs and clinical programs for employers that contribute to well-being and reduce the total cost of care along with providing simpler consumer experiences in response to market dynamics.

UnitedHealthcare Employer & Individual typically distributes its products through a variety of channels, dependent upon the specific product, including: through consultants or direct sales, in collaboration with brokers and agents, through wholesale agents or agencies who contract with health insurance carriers to distribute individual or group benefits, through professional employer organizations and associations and through both multi-carrier and its own proprietary private exchange marketplaces.

UnitedHealthcare Employer & Individual's major product families include consumer engagement products, such as high-deductible consumer driven benefit plans and a variety of innovative consumer centric products; traditional products; clinical and pharmacy products; and specialty benefits, such as vision, dental, hearing, accident protection, critical illness, disability and hospital indemnity offerings.

UnitedHealthcare Medicare & Retirement

UnitedHealthcare Medicare & Retirement provides health and well-being services to seniors and other Medicare eligible consumers, addressing their unique needs. UnitedHealthcare Medicare & Retirement has distinct benefit designs, pricing, underwriting, clinical program management and marketing capabilities dedicated to health products and services in this market.

UnitedHealthcare Medicare & Retirement offers a selection of products allowing people choice in obtaining the health coverage and services they need as their circumstances change. These offerings include care management and health system navigator services, clinical management programs, nurse health line services, 24-hour access to health care information, access to discounted health services from a network of care providers and administrative services.

UnitedHealthcare Medicare & Retirement has extensive distribution capabilities and experience, including direct marketing to consumers on behalf of its key clients, including AARP, the nation's largest membership organization dedicated to the needs of people age 50 and over, and state and U.S. government agencies. Products are also offered through agents, employer groups and digital channels.

Major product categories include:

Medicare Advantage. Provides health care coverage for seniors and other eligible Medicare beneficiaries through the Medicare Advantage program administered by the Centers for Medicare & Medicaid Services (CMS), including Medicare Advantage HMO plans, Preferred Provider Organization (PPO) plans, Point-of-Service plans, Private-Fee-for-Service plans and Special Needs Plans (SNPs). Under the Medicare Advantage program, UnitedHealthcare Medicare & Retirement provides health benefits coverage in exchange for a fixed monthly premium per member from CMS plus, in some cases, monthly consumer premiums. Premium amounts received from CMS vary based on the geographic areas in which individuals reside; demographic factors such as age, gender and institutionalized status; and the health status of the individual. UnitedHealthcare Medicare & Retirement served 7.7 million people through its Medicare Advantage products as of December 31, 2023.

We have continued to enhance our offerings, focusing on more digital and physical care resources in the home, expanding our concierge navigation services and enabling the home as a safe and effective setting of care. For example, through our HouseCalls program, nurse practitioners performed more than 2.7 million clinical preventive home care visits in 2023 to address unmet care opportunities and close gaps in care.

Medicare Part D. Provides Medicare Part D benefits to beneficiaries through its Medicare Advantage and stand-alone Medicare Part D plans. The stand-alone Medicare Part D plans address a large spectrum of people's needs and preferences for their prescription drug coverage, including low-cost prescription options. As of December 31, 2023, UnitedHealthcare enrolled 10.2 million people in the Medicare Part D programs, including 3.3 million individuals in stand-alone Medicare Part D plans, with the remainder in Medicare Advantage plans incorporating Medicare Part D coverage.

Medicare Supplement. Provides a full range of supplemental products at diverse price points. These products cover various levels of coinsurance and deductible gaps to which seniors are exposed in the traditional Medicare program. UnitedHealthcare

Medicare & Retirement served 4.4 million seniors nationwide through various Medicare Supplement products in association with AARP as of December 31, 2023.

Premium revenues from CMS represented 40% of UnitedHealth Group's total consolidated revenues for the year ended December 31, 2023, most of which were generated by UnitedHealthcare Medicare & Retirement.

UnitedHealthcare Community & State

UnitedHealthcare Community & State is dedicated to serving state programs caring for the economically disadvantaged, the medically underserved and those without the benefit of employer-funded health care coverage, typically in exchange for a monthly premium per member from the state program. UnitedHealthcare Community & State's primary customers oversee Medicaid plans, including Temporary Assistance to Needy Families; Children's Health Insurance Programs (CHIP); Dual SNPs (DSNPs); Long-Term Services and Supports (LTSS); Aged, Blind and Disabled; and other federal, state and community health care programs. As of December 31, 2023, UnitedHealthcare Community & State participated in programs in 32 states and the District of Columbia, and served more than 7.8 million people; including 1.3 million people through Medicaid expansion programs in 19 states under the Patient Protection and Affordable Care Act (ACA).

States using managed care services for Medicaid beneficiaries select health plans by using a formal bid process or by awarding individual contracts. These health plans and care programs are designed to address the complex needs of the populations they serve, including the chronically ill, people with disabilities and people with a higher risk of medical, behavioral and social conditions. UnitedHealthcare Community & State administers benefits for the unique needs of children, pregnant women, adults, seniors and those who are institutionalized or are nursing home eligible. These individuals often live in medically underserved areas and are less likely to have a consistent relationship with the medical community or a care provider. They also often face significant social and economic challenges.

GOVERNMENT REGULATION

Our businesses are subject to comprehensive U.S. federal and state and international laws and regulations. We are regulated by agencies which generally have discretion to issue regulations and interpret and enforce laws and rules. U.S. federal and state and international governments continue to consider and enact various legislative and regulatory proposals which could materially impact certain aspects of the health care system. New laws, regulations and rules, or changes in the interpretation of existing laws, regulations and rules, including as a result of changes in the political environment, could adversely affect our businesses.

See Part I, Item 1A, "Risk Factors" for a discussion of the risks related to our compliance with U.S. federal and state and international laws and regulations.

U.S. Federal Laws and Regulation

When we contract with the federal government, we are subject to federal laws and regulations relating to the award, administration and performance of U.S. government contracts. CMS regulates our UnitedHealthcare businesses and certain aspects of our Optum businesses. Payments by CMS to our businesses are subject to regulations, including those governing fee-for-service and the submission of information relating to the health status of enrollees for purposes of determining the amounts of certain payments to us. CMS also has the right to audit our performance to determine our compliance with CMS contracts and regulations and the quality of care we provide to Medicare beneficiaries. Our commercial business is further subject to CMS audits related to medical loss ratios (MLRs) and risk adjustment data.

UnitedHealthcare Community & State has Medicaid and CHIP contracts, which are subject to federal regulations regarding services to be provided to Medicaid enrollees, payment for those services and other aspects of these programs. There are many regulations affecting Medicare and Medicaid compliance, and the regulatory environment with respect to these programs is complex.

Our businesses are also subject to laws and regulations relating to consumer protection, anti-fraud and abuse, anti-kickbacks, false claims, prohibited referrals, inappropriate reduction or limitation of health care services, anti-money laundering, securities and antitrust compliance.

Privacy, Security and Data Standards Regulation. Certain of our operations are subject to regulation under the administrative simplification provisions of the Health Insurance Portability and Accountability Act of 1996, as amended (HIPAA), which apply to both the group and individual health insurance markets, including self-funded employee benefit plans. Federal regulations related to HIPAA contain minimum standards for electronic transactions and code sets and for the privacy and security of protected health information.

Our businesses must comply with the Health Information Technology for Economic and Clinical Health Act (HITECH) which regulates matters relating to privacy, security and data standards. HITECH imposes requirements on uses and disclosures of

health information; includes contracting requirements for HIPAA business associate agreements; extends parts of HIPAA privacy and security provisions to business associates; adds federal data breach notification requirements for covered entities and business associates and reporting requirements to HHS and the Federal Trade Commission (FTC) and, in some cases, to the local media; strengthens enforcement and imposes higher financial penalties for HIPAA violations and, in certain cases, imposes criminal penalties for individuals, including employees. In the conduct of our business, depending on the circumstances, we may act as either a covered entity or a business associate.

The use and disclosure of individually identifiable health data by our businesses are also regulated in some instances by other federal laws, including the Gramm-Leach-Bliley Act (GLBA) or state statutes implementing GLBA. These federal laws and state statutes generally require insurers to provide customers with notice regarding how their non-public personal health and financial information is used and the opportunity to "opt out" of certain disclosures before the insurer shares such information with a third party, and generally prescribe safeguards for the protection of personal information. Neither the GLBA nor HIPAA privacy regulations preempt more stringent state laws and regulations, which may apply to us, as discussed below. Federal consumer protection laws may also apply in some instances to privacy and security practices related to personally identifiable information.

ERISA. The Employee Retirement Income Security Act of 1974, as amended (ERISA), regulates how our services are provided to or through certain types of employer-sponsored health benefit plans. ERISA is a set of laws and regulations subject to interpretation by the U.S. Department of Labor (DOL) as well as the federal courts. ERISA sets forth standards on how our business units may do business with employers who sponsor employee health benefit plans, particularly those who maintain self-funded plans. Regulations established by the DOL subject us to additional requirements for administration of benefits, claims payment and member appeals under health care plans governed by ERISA.

State Laws and Regulation

Health Care Regulation. Our insurance and HMO subsidiaries must be licensed by the jurisdictions in which they conduct business. All of the states in which our subsidiaries offer insurance and HMO products regulate those products and operations. The states require periodic financial reports and establish minimum capital or restricted cash reserve requirements. The National Association of Insurance Commissioners (NAIC) has adopted model regulations, which require expanded governance practices and risk and solvency assessment reporting. Most states have adopted these or similar measures to expand the scope of regulations relating to corporate governance and internal control activities of HMOs and insurance companies. We are required to maintain a risk management framework and file a confidential self-assessment report with state insurance regulators. We file reports annually with Connecticut, our lead regulator, and with New York, as required by the state's regulation.

Our health plans and insurance companies are regulated under state insurance holding company regulations. Such regulations generally require registration with applicable state departments of insurance and the filing of reports describing capital structure, ownership, financial condition, certain affiliated transactions and general business operations. Most state insurance holding company laws and regulations require prior regulatory approval of acquisitions and material affiliated transfers of assets, as well as transactions between the regulated companies and their parent holding companies or affiliates. These laws may restrict the ability of our regulated subsidiaries to pay dividends to our holding companies.

Some of our business activity is subject to other health care-related regulations and requirements, including PPO, Managed Care Organization (MCO), utilization review (UR), TPA, pharmacy care services, durable medical equipment or care provider-related regulations and licensure requirements. These regulations differ from state to state and may contain network, contracting, product and rate, licensing and financial and reporting requirements. Health care-related laws and regulations set specific standards for delivery of services, appeals, grievances and payment of claims, adequacy of health care professional networks, fraud prevention, protection of consumer health information, pricing and underwriting practices and covered benefits and services. State health care anti-fraud and abuse prohibitions encompass a wide range of activities, including kickbacks for referral of members, billing for unnecessary medical services and improper marketing. Certain of our businesses are subject to state general agent, broker and sales distribution laws and regulations. UnitedHealthcare Community & State and certain of our Optum businesses are subject to regulation by state Medicaid agencies which oversee the provision of benefits to our Medicaid and CHIP beneficiaries and to our beneficiaries dually eligible for Medicare and Medicaid. We also contract with state governmental entities and are subject to state laws and regulations relating to the award, administration and performance of state government contracts.

State Privacy and Security Regulations. A number of states have adopted laws and regulations which may affect our privacy and security practices, such as state laws governing the use, disclosure and protection of social security numbers and protected health information or which are designed to implement GLBA or protect credit card account data. State and local authorities increasingly focus on the importance of protecting individuals from identity theft, with a significant number of states enacting laws requiring businesses to meet minimum cyber-security standards and notify individuals of security breaches involving personal information. State consumer protection laws may also apply to privacy and security practices related to personally identifiable information, including information related to consumers and care providers. Different approaches to state privacy

and insurance regulation and varying enforcement philosophies may materially and adversely affect our ability to standardize our products and services across state lines. See Part I, Item 1A, "Risk Factors" for a discussion of the risks related to compliance with state privacy and security regulations.

Corporate Practice of Medicine and Fee-Splitting Laws. Certain of our businesses function as direct medical service providers and, as such, are subject to additional laws and regulations. Some states have corporate practice of medicine laws prohibiting specific types of entities from practicing medicine or employing physicians to practice medicine. Moreover, some states prohibit certain entities from engaging in fee-splitting practices, which involve sharing in the fees or revenues of a professional practice. These prohibitions may be statutory or regulatory, or may be imposed through judicial or regulatory interpretation. The laws, regulations and interpretations in certain states have been subject to limited judicial and regulatory interpretation and are subject to change.

Pharmacy and Pharmacy Benefits Management (PBM) Regulations

Optum Rx's businesses include home delivery, specialty and compounding pharmacies, as well as clinic-based pharmacies which must be licensed as pharmacies in the states in which they are located. Certain of our pharmacies must also register with the U.S. Drug Enforcement Administration (DEA) and individual state controlled substance authorities to dispense controlled substances. In addition to adhering to the laws and regulations in the states where our pharmacies are located, we also are required to comply with laws and regulations in some non-resident states where we deliver pharmaceuticals, including those requiring us to register with the board of pharmacy in the non-resident state. These non-resident states generally expect our pharmacies to follow the laws of the state in which the pharmacies are located, but some non-resident states also require us to comply with their laws where pharmaceuticals are delivered. Additionally, certain of our pharmacies which participate in programs for Medicare and state Medicaid providers are required to comply with applicable Medicare and Medicaid provider rules and regulations. Other laws and regulations affecting our pharmacies include federal and state statutes and regulations governing the labeling, packaging, advertising and adulteration of prescription drugs and dispensing of controlled substances. See Part I, Item 1A, "Risk Factors" for a discussion of the risks related to our pharmacy care services businesses.

Federal and state legislation regulating PBM activities affects both our ability to limit access to a pharmacy provider network or remove network providers. Additionally, many states limit our ability to manage and establish maximum allowable costs for generic prescription drugs. With respect to formulary services, a number of government entities, including CMS, HHS and state departments of insurance, regulate the administration of prescription drug benefits offered through federal or state exchanges. Many states also regulate the scope of prescription drug coverage, as well as the delivery channels to receive such prescriptions, for insurers, MCOs and Medicaid managed care plans. These regulations could limit or preclude (i) certain plan designs, (ii) limited networks, (iii) use of particular care providers or distribution channels, (iv) copayment differentials among providers and (v) formulary tiering practices.

Legislation seeking to regulate PBM activities introduced or enacted at the federal or state level could impact our business practices with others in the pharmacy supply chain, including pharmaceutical manufacturers and network providers. In addition, organizations like the NAIC periodically issue model regulations while credentialing organizations, like the National Committee for Quality Assurance (NCQA) and the Utilization Review Accreditation Commission (URAC), may establish standards impacting PBM pharmacy activities. Although these model regulations and standards do not have the force of law, they may influence states to adopt their recommendations and impact the services we deliver to our clients.

Consumer Protection Laws

Certain of our businesses participate in direct-to-consumer activities and are subject to regulations applicable to online communications and other general consumer protection laws and regulations such as the Federal Tort Claims Act, the Federal Postal Service Act and the FTC's Telemarketing Sales Rule. Most states also have similar consumer protection laws.

Certain laws, such as the Telephone Consumer Protection Act, give the FTC, the Federal Communications Commission (FCC) and state attorneys general the ability to regulate, and bring enforcement actions relating to, telemarketing practices and certain automated outbound contacts such as phone calls, texts or emails. Under certain circumstances, these laws may provide consumers with a private right of action. Violations of these laws could result in substantial statutory penalties and other sanctions.

Banking Regulation

Optum Bank is subject to regulation by federal banking regulators, including the Federal Deposit Insurance Corporation (FDIC), which performs annual examinations to ensure the bank is operating in accordance with federal safety and soundness requirements, and the Consumer Financial Protection Bureau, which may perform periodic examinations to ensure the bank is in compliance with applicable consumer protection statutes, regulations and agency guidelines. Optum Bank is also subject to supervision and regulation by the Utah State Department of Financial Institutions, which carries out annual examinations to ensure the bank is operating in accordance with state safety and soundness requirements and performs periodic examinations of

the bank's compliance with applicable state banking statutes, regulations and agency guidelines. In the event of unfavorable examination results from any of these agencies, the bank could become subject to increased operational expenses and capital requirements, enhanced governmental oversight and monetary penalties.

Non-U.S. Regulation

Certain of our businesses operate internationally and are subject to regulation in the jurisdictions in which they are organized or conduct business. These regulatory regimes vary from jurisdiction to jurisdiction. In addition, our non-U.S. businesses and operations are subject to U.S. laws regulating the conduct and activities of U.S.-based businesses operating outside the United States, such as the Foreign Corrupt Practices Act (FCPA), which prohibits offering, promising, providing or authorizing others to give anything of value to a foreign government official to obtain or retain business or otherwise secure a business advantage.

COMPETITION

As a diversified health care company, we operate in highly competitive markets across the full expanse of health care benefits and services. Our competitors include organizations ranging from startups to highly sophisticated Fortune 50 global enterprises, for-profit and non-profit companies, and private and government-sponsored entities. New entrants to our markets and business combinations among our competitors and suppliers also contribute to a dynamic and competitive environment. We compete fundamentally on the quality and value we provide to those we serve which can include elements such as product and service innovation; use of technology; consumer and provider engagement and satisfaction; and sales, marketing and pricing. See Part I, Item 1A, "Risk Factors" for additional discussion of our risks related to competition.

Risks Related to Our Business and Our Industry

If we fail to estimate, price for and manage our medical costs or design benefits in an effective manner, the profitability of our risk-based products and services could decline and could materially and adversely affect our results of operations, financial position and cash flows.

Through our risk-based benefit products, we assume the risk of both medical and administrative costs for our customers in return for monthly premiums. We generally use approximately 80% to 85% of our premium revenues to pay the costs of health care services delivered to these customers. The profitability of our products depends in large part on our ability to predict and effectively price for and manage medical costs. Our Optum Health business also enters into fully accountable value-based arrangements with payers. Premium revenues from risk-based products constitute nearly 80% of our total consolidated revenues. Estimates of benefit expense payments involve extensive judgement and are subject to considerable inherent variability. Relatively small differences between predicted and actual medical costs, or utilization rates as a percentage of revenues, can result in significant changes in our financial results. If we fail to predict accurately, or effectively price for or manage, the costs of providing care under risk-based arrangements, our results of operations could be materially and adversely affected.

We manage medical costs through underwriting criteria, product design, negotiation of competitive provider contracts and care management programs. Total medical costs are affected by the number of individual services rendered, the cost of each service and the type of service rendered. Although we base the premiums we charge on our estimates of future medical costs over the fixed contract period, many factors may cause, and have previously caused, actual costs to exceed those estimated and reflected in premiums or bids. These factors may include medical cost inflation, increased use of services, business mix, unexpected differences among new customer populations, increased cost of individual services, costs to deliver care, large-scale medical emergencies, the potential effects of climate change, pandemics, the introduction of new or costly drugs or increases in drug prices, treatments and technology, new treatment guidelines, newly mandated benefits or other regulatory changes and insured population characteristics. Cost increases in excess of our forecasts typically cannot be recovered in the fixed premium period through higher premiums. For Optum Health's fully accountable value-based care, any inability to provide higher-quality outcomes and better experiences at lower costs or to integrate our care delivery models could impact our results of operations, financial positions and cash flows.

In addition, the financial results we report for any particular period include estimates of costs incurred for which claims are still outstanding. These estimates involve an extensive degree of judgment. If these estimates prove inaccurate, our results of operations could be materially and adversely affected.

If we fail to maintain properly the integrity or availability of our data or successfully consolidate, integrate, upgrade or expand our existing information systems, or if our technology products do not operate as intended, our business could be materially and adversely affected.

Our business depends on the integrity and timeliness of the data we use to serve our members, customers and health care professionals and to operate our business. If the data we rely upon to run our businesses is found to be inaccurate or unreliable or if we fail to effectively maintain or protect the integrity of our data and information systems, including systems powered by or incorporating artificial intelligence and machine learning (AI/ML), we could experience failures in our health, wellness and information technology products; lose existing customers; have difficulty attracting new customers; experience problems in determining medical cost estimates and establishing appropriate pricing; have difficulty preventing, detecting and controlling fraud; have disputes with customers, physicians and other health care professionals; become subject to regulatory sanctions, penalties, investigations or audits; incur increases in operating expenses; or suffer other adverse consequences.

The volume of health care data generated, and the uses of data, including electronic health records, are rapidly expanding. We depend on the integrity of the data in our information systems to implement new and innovative services, automate and deploy new technologies to simplify administrative processes and clinical decision making, price our products and services adequately, provide effective service to our customers and consumers in an efficient and uninterrupted fashion, provide timely payments to care providers, and accurately report our results of operations. In addition, connectivity among technologies is becoming increasingly important and recent trends toward greater consumer engagement in health care require new and enhanced technologies, including more sophisticated applications for mobile devices and new tools and products that leverage AI/ML to improve the customer experience. We anticipate that fast-evolving AI/ML technologies, including generative AI, will play an increasingly important role in our information systems and customer-facing technology products. Our ability to protect and enhance existing systems and develop new systems to keep pace with changes in information processing technology (including AI/ML), regulatory standards and changing customer preferences will require an ongoing commitment of significant development and operational resources. If these commitments fail to provide the anticipated benefits, if we are unable to successfully anticipate future technology developments, or if the cost to keep pace with the technological changes exceed our estimates, we could be exposed to reputational harm and experience adverse effects on our business.

We may not successfully implement our initiatives to consolidate the number of systems we operate, upgrade and expand our information systems' capabilities, integrate and enhance our systems and develop new systems to keep pace with recent regulations and changes in information processing technology. Failure to protect, consolidate and integrate our systems successfully could result in higher than expected costs.

Some of our businesses sell and install software products which may contain unexpected design defects or may encounter unexpected complications during installation or when used with other technologies utilized by the customer. A failure of our technology products to operate as intended and in a seamless fashion with other products could materially and adversely affect our results of operations, financial position and cash flows.

Uncertain and rapidly evolving U.S. federal and state, non-U.S. and international laws and regulations related to health data and health information technologies, including those powered by or incorporating AI/ML, may alter the competitive landscape or impose new compliance requirements and could materially and adversely affect the configuration of our information systems and platforms, and our ability to compete in our markets.

If we or third parties we rely on sustain cyber-attacks or other privacy or data security incidents resulting in disruption to our operations or the disclosure of protected personal information or proprietary or confidential information, we could suffer a loss of revenue and increased costs, negative operational affects, exposure to significant liability, reputational harm and other serious negative consequences.

We routinely process, store and transmit large amounts of data in our operations, including protected personal information subject to privacy, security or data breach notification laws, as well as proprietary or confidential information relating to our business or third parties. Some of the data we process, store and transmit may be outside of the United States due to our information technology systems and international business operations. We are regularly the target of attempted cyber-attacks and other security threats and have previously been, and may in the future be, subject to compromises of the information technology systems we use, information we hold, or information held on our behalf by third parties. While we have programs in place to detect, contain and respond to data security incidents and provide employee awareness training regarding phishing, malware and other cyber threats to protect against cyber risks and security incidents, we expect that we will continue to experience these incidents, some of which may negatively affect our business. Further, because the techniques used to obtain unauthorized access, disable or degrade service, or sabotage systems change frequently and are increasing in sophistication, in part due to use of evolving AI/ML technologies (including generative AI), and because our businesses are changing as well, we

may be unable to anticipate these techniques and threats, detect data security incidents or implement adequate preventive measures. Threat actors and hackers have previously been, and may in the future be, able to negatively affect our operations by penetrating our security controls and causing system and operational disruptions or shutdowns, accessing, misappropriating or otherwise compromising protected personal information or proprietary or confidential information or that of third parties, and developing and deploying viruses, ransomware and other malware that can attack our systems, exploit any security vulnerabilities, and disrupt or shutdown our systems and operations. In addition, hardware, software, or applications we develop or procure from third parties may contain defects or other problems which could unexpectedly compromise our information security controls. Our systems may also be vulnerable to financial fraud schemes, misplaced or lost data, human error, malicious social engineering, or other events which could negatively affect the data or financial accounts, proprietary or confidential information relating to our business or third parties, or our operations. There have previously been and may be in the future heightened vulnerabilities due to the lack of physical supervision and on-site infrastructure for remote workforce operations and for recently-acquired or non-integrated businesses. We rely in some circumstances on third-party vendors to process, store and transmit large amounts of data for our business whose operations are subject to similar risks.

The costs to eliminate or address the foregoing security threats and vulnerabilities before or after a cyber-incident could be material. We have business continuation and resiliency plans which are maintained, updated and tested regularly in an effort to contain and remediate potential disruptions or cyber events. If our remediation efforts are not successful, we may experience operational interruptions, delays, or cessation of service and loss of existing or potential customers. In addition, compromises of our security measures or the unauthorized dissemination of sensitive personal information, proprietary information or confidential information about us, our customers or other third parties, previously and in the future, could expose us or them to the risk of financial or medical identity theft, negative operational affects, expose us or them to a risk of loss or misuse of this information, result in litigation and liability, including regulatory penalties, for us, damage our brand and reputation, or otherwise harm our business.

If we fail to compete effectively to maintain or increase our market share, including maintaining or increasing enrollments in businesses providing health benefits, our results of operations, financial position and cash flows could be materially and adversely affected.

Our businesses face significant competition in all of the geographic markets in which we operate. In particular geographies or product segments, our competitors may have certain competitive advantages. Our competitive position may also be adversely affected by significant merger and acquisition activity in the industries in which we operate, among both our competitors and suppliers. Consolidation may make it more difficult for us to retain or increase our customer base, improve the terms on which we do business with our suppliers, or maintain or increase our profitability.

In addition, our success in the health care marketplace and future growth depends on our ability to develop and deliver innovative and potentially disruptive products and services to satisfy evolving market demands. If we do not continue to innovate and provide products and services which are useful and relevant to health care payers, consumers and our customers, we may not remain competitive and risk losing market share to existing competitors and disruptive new market entrants. We may face risks from new technologies and market entrants which could affect our existing relationship with health plan enrollees in these areas. We could sustain competitive disadvantages and loss of market share if we fail to continue developing innovative care models, including by accelerating the transition of care to value-based models that achieve higher quality outcomes and better experiences at lower costs and expand access to virtual and in-home care. Additionally, our competitive position could be adversely affected by any failure to develop and apply innovative technologies and other effective data and analytics capabilities or to provide services to our clients focused on these technologies and capabilities.

Our business, results of operations, financial position and cash flows also could be materially and adversely affected if we do not compete effectively in our markets, if we set rates too high or too low in highly competitive markets, if we do not design and price our products properly and competitively, if we are unable to innovate and deliver products and services demonstrating value to our customers, if we do not provide a satisfactory level of services, if membership or demand for other services does not increase as we expect or declines, or if we lose accounts with more profitable products while retaining or increasing membership in accounts with less profitable products. The resumption of Medicaid redeterminations has impacted our membership levels and may impact our ability to maintain market share if we are unable to retain or add new consumers to other benefit offerings.

If we fail to develop and maintain satisfactory relationships with health care payers, physicians, hospitals and other service providers, our business could be materially and adversely affected.

We depend substantially on our continued ability to contract with health care payers (as a service provider to those payers), as well as physicians, hospitals, pharmaceutical benefit service providers, pharmaceutical manufacturers and other care and service providers at competitive prices. If we fail to develop and maintain satisfactory relationships with health care providers, whether in-network or out-of-network, our failure to do so could materially and adversely affect our business, results of operations,

financial position and cash flows. In addition, some of our activities related to network design, provider participation in networks and provider payments could result in disputes, which may be costly and attract negative publicity.

In any particular market, physicians and health care providers could refuse to contract with us, demand higher payments, or take other actions which could result in higher medical costs, less desirable products for customers or difficulty meeting regulatory or accreditation requirements. In some markets, certain health care providers, particularly hospitals, physician and hospital organizations or multi-specialty physician groups, may have significant market positions which could diminish our bargaining power. In addition, Accountable Care Organizations (ACOs); physician group management services organizations (which aggregate physician practices for administrative efficiency); and other organizational structures adopted by physicians, hospitals and other care providers may change the way in which these providers do business with us and may change the competitive landscape. Such organizations or groups of physicians may compete directly with us, which could adversely affect our business, and our results of operations, financial position and cash flows by impacting our relationships with these providers or affecting the way we price our products and estimate our costs, which might require us to incur costs to change our operations in an effort to mitigate these impacts. In addition, if these providers refuse to contract with us, use their market position to negotiate favorable contracts or place us at a competitive disadvantage, our ability to market products or to be profitable in those areas could be materially and adversely affected.

Our health care benefits businesses have risk-based arrangements with some physicians, hospitals and other health care providers. These arrangements limit our exposure to the risk of increasing medical costs, but expose us to risk related to the adequacy of the financial and medical care resources of the health care providers. To the extent a risk-based health care provider organization faces financial difficulties or otherwise is unable to perform its obligations under the arrangement, we may be held responsible for unpaid health care claims which should have been the responsibility of the health care provider and for which we have already paid the provider. Further, payment or other disputes between a primary care provider and specialists with whom the primary care provider contracts could result in a disruption in the provision of services to our members or a reduction in the services available to our members. Health care providers with which we contract may not properly manage the costs of services, maintain financial solvency or avoid disputes with other providers. They may also fail to provide us with the information we need to effectively conduct our businesses, such as information enabling us to estimate costs of care. Any of these events could have a material adverse effect on the provision of services to our members and our operations.

Some providers that render services to our members do not have contracts with us. In some instances, those providers may dispute the payment for these services and may institute litigation or arbitration relying on state and federal laws that define the compensation that must be paid to out-of-network providers in some circumstances.

The success of some of our businesses depends on maintaining satisfactory relationships with physicians as our employees, independent contractors or joint venture partners. The physicians who practice medicine or contract with our affiliated physician organizations could terminate their provider contracts or otherwise become unable or unwilling to continue practicing medicine or contracting with us. We face and will likely continue to face heightened competition to acquire or manage physician practices or to employ or contract with individual physicians. Our revenues could be materially and adversely affected if we are unable to maintain or expand satisfactory relationships with physicians, to acquire, recruit or, in some instances, employ physicians, or to retain enrollees following physician departures. In addition, our affiliated physician organizations contract with competitors of UnitedHealthcare. Our businesses could suffer if our affiliated physician organizations fail to maintain relationships with or fail to adequately price their contracts with these third-party payer competitors.

Further, physicians, hospitals, pharmaceutical benefit service providers, pharmaceutical manufacturers and certain health care providers are customers of our Optum businesses. Physicians also provide medical services at facilities owned by our Optum businesses. Given the importance of health care providers and other constituents to our businesses, failure to maintain satisfactory relationships with them could materially and adversely affect our results of operations, financial position and cash flows.

We are routinely subject to various private party and governmental legal actions and investigations, which could damage our reputation and, if resolved unfavorably, could result in substantial penalties or monetary damages and materially and adversely affect our results of operations, financial position and cash flows.

We are routinely made party to a variety of private party and governmental legal actions and investigations related to, among other matters, the design, management and delivery of our product and service offerings. Any failure by us to adhere to the laws and regulations applicable to our businesses could subject us to civil and criminal penalties.

Legal actions to which we are a party have included and in the future could include matters related to health care benefits coverage and payment of claims (including disputes with enrollees, customers and contracted and non-contracted physicians, hospitals and other health care professionals), tort claims (including claims related to the delivery of health care services, such as medical malpractice by personnel at our affiliates' facilities, or by health care practitioners who are employed by us, have contractual relationships with us, or serve as providers to our managed care networks, including as a result of a failure to adhere

To Diane Shay

Good Afternoon Ms. Shay,

I am in receipt of your letter regarding Medical Device Manufacturer or Distributor License requirements. You are correct in your understanding of the requirements, if the device does not contain a prescription medication then you do not need a Massachusetts Controlled Substance Registration for that device.

Please reach out with any other questions.

Subject: :EXTERNAL: RE: TX home license exemption question

Good afternoon Laura,

Based on what you have told me, your firm does not require a license with the department since you do not meet the definition of a wholesale distributor, reverse distributor, nor salvage establishment. Under our interpretation, firms engaging solely in end point destruction of drugs do not need a license if they have the appropriate DEA registration. This is only applicable if the drugs do not leave the firm's control and are destroyed by the firm.

The letter you provide is a complaint resolution letter that we issue to respondents after a complaint case has been closed and does not actually discuss or explain our interpretation or reasoning. There is also not a specific exemption rule that I can point you to that explicitly says this activity does not need a license. Feel free to share this email with other states as an explanation of our interpretation of definitions and licensing requirements.

Subject: TX home license exemption question

WARNING: This email is from outside the HHS system. Do not click on links or attachments unless you expect them from the sender and know the content is safe.

Hello,

I'm hoping you can help me obtain a citation for the TX home license exemption or provide an exemption letter.

Philip Resource Reclamation, located in Houston, Texas, is a reverse distributor (DEA reverse distributor permit #RP0592039, Exp: 3-31-2024). The Houston facility accepts prescription drugs including controlled substances, schedule II-V. As a reverse distributor, we pick-up and receive unwanted or expired controlled substances from DEA registrants for the purpose of compliant destruction. The controlled substances, once received, do not get sent out to any other registrants. All controlled substances that are received at the Houston facility are rendered non-retrievable in accordance to DEA regulations.

We are applying for BOP permits in other states to be able to complete the process described above at our Houston facility. These permits require documentation that a home state license is not required in TX. For example, in D.C. the permit application asks "If a license is not required by the home state, submit the state issued License Exemption Letter **and/or** the state License Exemption Regulation for the location."

Our affiliate location (Avalon, TX) was issued the attached document with the understanding that a Salvage license was not required based on their business model.

We recognize that we are exempt from a TX home state license but cannot find a specific regulation that indicates such. Are you able to provide the citation? If not, we request an exemption letter so we may satisfy our permit requirements in other states.

Thank you,

Laura Dell'Olio

Byran,

Thank you for your time earlier this month. As we discussed, all pharmacies located in the state of pharmacy must be licensed. After reviewing your operations, you are operating 3 pharmacies. One at your off site pyxis location (not licensed), one at your current location (which is licensed) and a retail pharmacy at your current location (not licensed). If you want to continue operating in this manner, you will need to obtain licensure for the two non-licensed locations. Mark can assist you if you need help. If the fee for the application is an issue, we can provide a one-time waiver of the fee. You expressed you may want to be the manager of all three sites. This can be accomplished by sending me an email requesting the Board to grant permission. After reviewing your operation, the size of the pharmacy would allow it.

Respectfully,

Dave

Patient Centered Labeling/Interpretive Services: Label is patient centered and available in 12 point font, has federal caution for controlled substances, has physical description, order of information is name, drug, strength, direction for use. For interpretive services PHY using store personnel and Cyracom third party language line
Discussion:

Oldest will-call prescription without notes was dated 3/17/2023; all other prescriptions in will-call earlier than 3/17 had notes documenting patient contact and intent to pick up prescription.

RPH Hii said prescriptions picked up in person were signed electronically by patient; prescriptions delivered by live deliveryperson were signed on IPAD and information transmitted to pharmacy files; prescriptions sent by US Postal contained self-addressed stamped envelope for them to mail back signature of receipt [if pharmacy did not receive it, they would follow-up with patients]; and prescriptions sent via FedEx used same signature system as US Postal patients [FedEx was used for prescriptions that needed to be expedited or needed special care].

The CURA Pharmacy notice of consultation for delivery patients did not list specific hours of available consultation RPH Hii said if patients called the phone number during non-business hours, they would have to leave a voice mail message that would be answered on next business day.

RPH Hii said manufacturer coupons were used for free trials for patients, and never used with Medicare or Medi-Cal patients. She showed me an area behind pharmacy computers where available coupons were stored

Discussed with RPH Hii that each licensed employee needed to be signed up for the Board Subscriber Alert.

Discussed with RPH Hii that faxed controlled substance prescriptions must be verified as per Fall 2015 Script article "Correction on what is an electronically transmitted prescription."

Discussed with RPH Hii of requirement to generate controlled substance printout for refills of C3-5 at least every 72 hours as per CFR 1306.22.

Discussed with RPH Hii and PIC To the complaint allegations of failure to reverse claim for prescriptions not picked up or delivered, and inapproprite billing of coupons to insurances.

RPH Hii located the policy for return of filled prescription not picked up/delivered, which stated no paid claims can be left in store for more than 14 days. However, observed prescriptions #942997 for SR with printed refill date of 3/5/2023, Rx #932828 for JG with printed refill date of 2/25/2023, Rx #952118 for RL with printed refill date of 3/16/23, Rx #930004 for MR with printed refill date of 3/12/2023, and Rx #942968 for LA with printed refill date of 3/7/2023 (each of these prescriptions had handwritten notes which RPH Hii said documented attempts or communications with patients. Discussed with RPH Hii understanding that patients may not be able to pick up prescriptions within 14 days, but the pharmacy policy does not state any extension of the 14 day policy for prescriptions not picked up or delivered.

In order to complete this inspection, PIC To to e-mail Inspector Woo the following by 4/3/2023:

Revised notice of pharmacy consultation for delivery patients which lists available hours as per CCR 1707.2(b)(1)(B).

Dated work order which lists the repair of the pharmacy sink faucet, enabling the production of hot water.

For the 5 old prescriptions found in will-call, either dated patient signatures of delivery or pick-up or a copy of the patient profile showing

the claim was reversed.

1) Each aspect of the complaint allegations
2) Procedure for use of drug manufacturer coupons
3) Procedure for return to stock, and why the 5 old prescriptions found in will-call were still there. If there is a revised Return to Stock Policy, please provide it, and also showing the dates/printed name/signatures of each employee trained.

RE: EXPLANATION OF DEFICIENCY

DiVYO Health Solutions, Inc. was inspected on June 22, 2022. The inspector noted the following:

(1) The Pharmacist must also "maintain appropriate training records to include proficiency with hands-on training and reading and becoming familiar with Board Compounding Rules, USP 795, SOPs and hazardous drug training; records kept for 5 years.

Deficiency corrected as follows:

The Pharmacist's training records have been updated to reflect appropriate training. While within the PIC's training, knowledge, and capabilities - providing hands on compounding is not a normal role. That being the case, there was no documentation supporting a hands-on evaluation of the PIC's competency, albeit that competency was never in question.

(2) The SOPs must be updated from DermaTran to DiVYO.

Deficiency corrected as follows:

All SOPs have been updated to reflect DiVYO.

Thank you,

Tony Rayfus

Integrity Rx Specialty Pharmacy LLC	Alabama	11/5/2021	Violation; Number CO-21-L-0118 (5)
Integrity Rx Specialty Pharmacy LLC	Hawaii	5/19/2022	Reciprocal discipline; RICO Case Nos. PHA 2022-6-L; PHA 2022-21-L (6)

(1) Texas: This action was tied to an undisclosed driving offense held by an owner that had no role in day-to-day operations. He gave up his holdings in 2015, prior to VFP acquisition, and has no further ties to the company.

(2) Arizona: At inspection, the Board found Integrity following a shared services model rather than utilizing a remote dispensing device, as prior presented and approved by the Board. The practice was immediately stopped and the Board reinstated Integrity's facility license to good standing.

(3) California: Non-disciplinary action, but out of an abundance of caution, we are including it here. While holding a resident pharmacy permit in good standing in Arizona, Integrity submitted an application for a non-resident pharmacy permit with the State of California in November 2014. Integrity mistakenly believed that the permit would issue quickly and due to prescriber and patient needs, shipped products to California residents on the pending application. However, due to some unforeseen delays, including the California Board of Pharmacy staff losing the application, the application was delayed. While there were no patient safety concerns related to the prescriptions shipped, Integrity understands the importance of the administrative approval process for non-resident permit approvals and can assure the boards that this type of issue will not recur. To address the issue, California presented Integrity with a non-disciplinary citation and fine to address the prescriptions shipped during that period. The California Board did issue the non-resident permit in 2015 and the permit has remained active and in good standing with the California Board of Pharmacy.

(4) Louisiana: Integrity Rx Specialty Pharmacy signed a draft Consent Agreement on March 18, 2021 with the Louisiana Board of Pharmacy that was approved at the Board's May 26, 2021 Board meeting. Integrity received notice of the Board's approval on June 2, 2021. The Agreement is related to prescriptions dispensed into Louisiana prior to the pharmacy obtaining a nonresident permit. As a result of this matter, Integrity has made technological changes to prevent such shipments in the future and has re-trained its staff on compliance with state licensure requirements.

(5) Alabama: Integrity Rx Specialty Pharmacy signed a draft Consent Agreement November 5, 2021 with the Alabama Board of Pharmacy that was approved at the Board's November 10, 2021 Board meeting. Integrity received notice of the Board's approval on November 29, 2021. The Agreement is related to the Consent Agreement signed with the Louisiana Board of Pharmacy regarding prescriptions dispensed into Louisiana prior to the pharmacy obtaining a nonresident permit. As a result of this matter, Integrity has made technological changes to prevent such shipments in the future and has re-trained its staff on compliance with state licensure requirements. The Agreement also addresses Integrity's delay in notifying the Alabama Board of a PIC change after the 10-day notification period. A fine of $3,000 has been paid to the Board of Alabama under the terms of the Consent Agreement.

(6) Hawaii: Integrity Rx Specialty Pharmacy signed a draft Consent Agreement April 6, 2022 with the State of Hawaii Department of Commerce and Consumer Affairs' Regulated Industries Complaints Office (RICO) that was approved by the Board of Pharmacy at their May 19, 2022 Board meeting. Integrity received notice of the Board's approval on June 8, 2022. This is reciprocal discipline to the above Louisiana and Alabama actions, already disclosed.

To Whom It May Concern:

The purpose of this letter is to provide an explanation of disciplinary action taken by the State of Texas which resulted in an administrative fine to Integrity Rx Specialty Pharmacy LLC, in the amount of $1,000.00. The administrative fine was negotiated and accepted by the Board of Pharmacy on October 26, 2015. The fine is due to the failure of a former member of Integrity Rx SP Holdings LLC (Vladimir Lenchitsky, a California licensed pharmacist) to disclose an alcohol-related driving offense that occurred in the State of California in 2013. Integrity Rx has agreed to pay the fine and Mr. Lenchitsky resigned as a member of the LLC.

Background and Facts:

On October 28, 2014 the nonresident pharmacy permit application for an Arizona pharmacy, Integrity Rx Specialty Pharmacy LLC was delivered to the Texas State Board of Pharmacy. At that time, the ownership structure was as follows:

Integrity Rx SP Holdings LLC	LLC Member	Owned 100% of Integrity Rx Specialty Pharmacy LLC
Jeffrey & Laura Karp Family Trust	LLC Member	Owned 55% of Integrity Rx SP Holdings LLC
Paul Vasilliauskas	LLC Member	Owned 22.5% of Integrity Rx SP Holdings LLC
Vladimir Lenchitsky	LLC Member	Owned 22.5% of Integrity Rx SP Holdings LLC

Each member of the LLC provided a personally signed statement regarding any disciplinary or criminal history.

On September 15, 2015, Integrity Rx Specialty Pharmacy LLC received a preliminary notice from the Texas State Board of Pharmacy of its intent to take disciplinary action on Integrity Rx Specialty Pharmacy LLC's nonresident pharmacy permit. This was solely based upon the fact that the application that was reviewed and signed by Vladimir Lenchitsky falsely indicated that Mr. Lenchitsky had not been convicted of a misdemeanor or an alcohol related offense. However, a background check performed by the State of Texas uncovered a prior alcohol related driving issue that occurred on May 2, 2013.

Mr. Lenchitsky did not have any day to day involvement in the operations of Integrity Rx Specialty Pharmacy LLC or Integrity Rx SP Holdings LLC and was a silent owner. On September 1, 2015, Vladimir Lenchitsky agreed to walk away from his ownership in, and affiliation with, Integrity Rx Specialty Pharmacy LLC and Integrity Rx SP Holdings LLC.

The operating agreement for Integrity Rx SP Holdings, LLC has also been amended to reflect the ownership changes.

On October 15, 2015, Integrity Rx Specialty Pharmacy LLC signed the Texas Board of Pharmacy's Agreed Board Order #F-15-2015 which granted our Texas non-resident pharmacy permit number 30289 and required payment of an administrative penalty of $1,000.00. The order was executed by the Texas Board of Pharmacy on October 26, 2015 and a copy delivered to our office on November 11, 2015.

Integrity Rx Specialty Pharmacy LLC is remorseful that this occurred and was unaware of Vladimir Lenchitsky's driving record. Vladimir Lenchitsky had already been removed as an owner when we received this notice on September 15, 2015 from the Texas State Board of Pharmacy.

AGREED BOARD ORDER #F-15-015

RE: IN THE MATTER OF INTEGRITY RX SPECIALTY PHARMACY LLC (APPLICANT FOR PHARMACY LICENSE)

BEFORE THE TEXAS STATE BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of the Class E application for pharmacy license filed on October 28, 2014, by Integrity Rx Specialty Pharmacy LLC (Applicant), 8425 North 90th Street, Suite B, Scottsdale, Arizona 85258.

By letter dated September 15, 2015, the Board gave preliminary notice to Applicant of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Applicant may have violated:

Section 565.002(a)(3) and (10) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2013); and

Section 281.8(c) of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2014), in that allegedly:

COUNT

On or about October 28, 2014, Integrity RX Specialty Pharmacy LLC submitted to the Texas State Board of Pharmacy an application for initial licensure as a nonresident pharmacy, which listed Vladimir Lenchitsky as a corporate managing officer. On the application, it was falsely indicated that Mr. Lenchitsky had not been convicted of a misdemeanor or an alcohol related offense, when on or about May 2, 2013, he was convicted of the misdemeanor offense of driving with a blood alcohol concentration of 0.08% or higher in the Superior Court of California, County of Los Angeles.

By letter dated September 15, 2015, Applicant was notified that the matters previously set out in this Order could be disposed of without the scheduling of an informal conference or a formal administrative hearing. By signing this Order, Jeffrey K. Karp, President and Managing Officer, on behalf of Applicant, neither admits nor denies the truth of the matters previously set out in this Order, and agrees that the Board has jurisdiction in this matter and waives the right to informal conference, notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Applicant shall be granted a Texas Pharmacy License after successfully completing the requirements of licensure as set forth in the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2013) and the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2015).

(2) Applicant shall pay an administrative penalty of one thousand dollars ($1,000) due one hundred twenty (120) days after the entry of this Order.

(3) Applicant shall allow Board staff to directly contact Applicant on any matter regarding the enforcement of this Order.

(4) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2013), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2015).

And it is so Ordered.

THIS ORDER IS A PUBLIC RECORD.

October 6, 2016

Dear Board Representative,

Please accept this letter as an explanation of discipline received by Integrity Rx Specialty Pharmacy, LLC, from the Arizona State Board of Pharmacy.

In August of 2014, Integrity Rx Specialty Pharmacy requested and received a waiver of certain prescription storage requirements from the Arizona State Board of Pharmacy. When the pharmacy was inspected in February 2016 for its routine annual/semi-annual inspection, the inspector felt that Integrity Rx Specialty Pharmacy had not implemented the processes described in the waiver in accordance with how it had requested the waiver and brought the matter to the Board's attention.

After review of the issue, the Board agreed with the inspector and voted to offer a consent agreement in lieu of a formal hearing. It is important to note that at no point was there ever a risk to patient safety or a patient complaint filed related to this issue.

While Integrity Rx Specialty Pharmacy acted in good faith in its implementation of the waiver and was of the belief that its implementation was consistent with the description of the processes described in the waiver request, it understood the Board's concerns and entered into a consent agreement consisting of an administrative fine, paying for the cost of the inspection and the withdrawal of the waiver.

Providing outstanding patient care is Integrity Rx's first priority and it felt that these processes would improve patient care and the patient compliance. It sincerely apologizes that its implementation of the requested waiver did not match the Board's expectations and will be paying the fine within the timeframe provided by the consent agreement. Please feel free to reach out to me for any additional information.

ACCEPTED AND AGREED BY RESPONDENT

Jeffery K. Karp — Dated: 4/21/2016

Jeffery Karp, on behalf of
Integrity Rx Specialty Pharmacy

FINDINGS OF FACT

1. The Board is the duly constituted authority for licensing and regulating the practice of pharmacy in the State of Arizona.

2. Respondent Integrity Rx holds pharmacy permit no. Y005956.

3. In August of 2014, Jeffrey Karp appeared on behalf of Respondent before the Board with Paul Vasiliauskas, a representative of Vasco Rx Pharmacy, seeking a deviation related to a remote dispensing device. According to Respondent:

a. Vasco Rx would place a remote dispensing device within Integrity Rx.

b. The remote dispensing devise will contain medication compounded by Vasco Rx Pharmacy.

c. The remote dispensing device will be stocked by a pharmacist from Vasco Rx who will deliver the medication, inventory it, and log it in to the remote dispensing device.

d. The remote dispensing device will track the lot number, expiration date and the inventory in and out.

e. The remote dispensing device inventory will only be accessed and scanned by a Vasco Rx employee pharmacist.

f. A Vasco Rx Pharmacist will be on-site at Integrity Rx every day at a designated time.

g. Integrity Rx receives a prescription for a compounded medication, and after patient authorization, transfers the prescription to Vasco Rx.

h. The Vasco Rx operating system will talk to the remote dispensing device system and a label will print. Inventory will be checked by a Vasco Rx pharmacist.

i. All product dispensing will be labeled and checked by a Vasco Rx pharmacist and placed in a tote dedicated for that patient.

4. Based upon the Respondent's representations, the Board granted Respondent a deviation.

5. A routine inspection conducted at Integrity Rx on February 5, 2016, revealed the following:

a. No remote dispensing device provided by Vasco Rx was within the Integrity Rx. Rather, two file cabinets with locks labeled "property of Vasco Rx Specialty

Pharmacy" were present. Respondent indicated that no remote dispensing device was ever placed by Vasco Rx.

b. Compounded medication labeled property of Vasco Rx was found in each file cabinet drawer.

c. On request of Integrity Rx, Vasco Rx delivers compounded medication to Integrity Rx. The delivery is completed by an employee of Vasco Rx, not a pharmacist, and left with Integrity Rx staff. Respondent noted that there is not usually a delivery invoice.

d. Lot number, expiration date, inventory in and out is maintained on a perpetual paper log.

e. Respondent indicated that Jeffrey Karp has the keys to the file cabinets and either an Integrity Rx pharmacist or a technician will place the compounded medication in the file cabinet.

f. Neither Paul Vasiliauskas nor another Vasco Rx Pharmacist come to Integrity Rx.

g. Integrity Rx transfers the prescription to Vasco Rx after patient authorization using the shared computer system.

h. The prescription verification PV1 and PV2 is then completed by an Integrity Rx pharmacist, not a Vasco Rx pharmacist. A prescription label with Vasco Rx information then prints at Integrity Rx.

i. The final product dispensing is completed by an Integrity Rx pharmacist, not a Vasco Rx pharmacist.

6. On March 1, 2016, Respondent filed a written response to the Complaint wherein it acknowledged the findings set forth in paragraph 3 above and further noted that the pharmacy "clearly failed to focus on the key elements of our proposal [for the deviation] which was to provide for an *automated* system." (emphasis in the original).

7. Respondent further stated that "Based on the cost of obtaining a remote device, and due to our misbelief that we met the qualifications for shared services and therefore didn't think that the remote device was necessary for what we wanted to do, we chose to implement a program which provided security and record-keeping processes for the Vasco stock, but did not put the stock into an automated dispensing machine....[W]e realize now that the automated dispensing machine was an integral part of the program."

8. Respondent also acknowledged that Jeffrey Karp's role as pharmacist for both Integrity Rx and Vasco Rx "may not be seen as meeting what we described during the presentation in front of the Board and for that we are both deeply regretful and genuinely embarrassed."

9. According to information gathered during the inspection, approximately 2,200 prescriptions were compounded/filled contrary to the deviation granted by the Board and therefore in violation of the Board's statutes and rules.

10. Finally, Respondent noted that the program was ceased immediately after the inspection was completed. All compounded stock was returned to Vasco Rx and in its place is a more traditional process whereby prescriptions are verbally transferred to Vasco pharmacists in the Vasco pharmacy where prescriptions are filled.

CONCLUSIONS OF LAW

1. The Board possesses jurisdiction over the subject matter and over Respondent pursuant to A.R.S. § 32-1901 *et seq.*

2. The Board may discipline a permittee who has engaged in unprofessional conduct. A.R.S. § 32-1927.02.

3. The failure to follow the processes described in the deviation request approved by the Board constitutes unprofessional conduct pursuant to A.R.S. § 32-1901.01(A)(18) (violating or attempting to violate, directly or indirectly, or assisting in or abetting the violation of, or conspiring to violate, the board's statutes or rules) as it relates to A.R.S. §32-1901(8) (Compounding means the preparation, mixing, assembling, packaging or labeling of a drug by a pharmacist or an intern or pharmacy technician under the pharmacist's supervision, for the purpose of dispensing to a patient based on a valid prescription order. Compounding includes the preparation of drugs in anticipation of prescription orders prepared on routine, regularly observed prescribing patterns and the preparation of drugs as an incident to research, teaching or chemical analysis or for administration by a medical practitioner to the medical practitioner's patient and not for sale or dispensing. Compounding does not include the preparation of commercially available products from bulk compounds or the preparation of drugs for sale to pharmacies, practitioners or entities for the purpose of dispensing or distribution), and Arizona Administrative Code R4-23-410(A)(3) (neither the pharmacy permittee nor a pharmacist employed by the pharmacy permittee provides a compounded pharmaceutical product to a pharmacy, medical practitioner, or other person for dispensing or distributing except that a compounded pharmaceutical product may be provided to a medical practitioner to administer to a patient of the medical practitioner if each container is accompanied by the written list required in subsection (I)(5) and has a label that includes

(1) the pharmacy name, address and telephone number, (2) the pharmaceutical product's name and the information required in subsection (I)(5) and (3) a lot or control number); and A.R.S. §32-1968(D) (any drug dispensed in accordance with subsection A of this section is exempt from the requirements of A.R.S. §32-1967(1), (10) and (11) and the packaging requirements of subsection A(7) and (8), if the drug container bears a label containing the name and address of the dispenser, serial number, date of dispensing, name of the prescriber, name of the patient, or if an animal, the name of the owner of the animal and the species of the animal, directions for use and cautionary statements, if any, contained in the order. This exemption does not apply to any drug dispensed in the course of the conduct of a business of dispensing drugs pursuant to diagnosis by mail or the internet or to a drug dispensed in violation of subsection A of this section.)

ORDER

Based upon the above Findings of Fact and Conclusions of Law, IT IS HEREBY ORDERED THAT Respondent shall:

1. Pay a civil penalty of $10.00 per prescription filled/compounded in violation of the deviation granted by the Board and contrary to the Board's statutes and rules (2220 said prescriptions) for a total of **$22,200** within **180 days** of the effective date of this Order. The effective date of this Order is the date it is signed by the Board's Executive Director.

2. Pay the investigative costs in this matter in the sum of **$175** within **180 days** of the effective date of this Order.

3. The deviation granted to Respondent in August of 2014, is hereby **RESCINDED**.

4. If Respondent violates this Order in any way or fails to fulfill the requirements of this Order, the Board, after giving the Respondent notice and the

opportunity to be heard, may revoke, suspend or take other disciplinary actions against Respondent's permit. The issue at such a hearing will be limited solely to whether this Order has been violated.

UCLA shall submit to TRIO-US a quarterly invoice for all reimbursable expenses. These expenses include all direct costs (no indirect costs allowable) associated with UCLA staff as described in Section II B above and other reasonable costs incurred by UCLA and agreed to in advance by the parties. TRIO-US shall pay UCLA within sixty (60) days of receipt of invoices submitted to Payments@TRIO-US.org. Office of the Secretary of State

Certificate of Fact

The undersigned, as Secretary of State of Texas, does hereby certify that the document, Certificate of Formation for White Label Pharmacy LLC (file number 805322810), a Domestic Limited Liability Company (LLC), was filed in this office on November 30, 2023.

It is further certified that the entity status in Texas is in existence.

In testimony whereof, I have hereunto signed my name officially and caused to be impressed hereon the Seal of State at my office in Austin, Texas on March 21, 2024.

Jane Nelson
Secretary of State

To Whom It May Concern,

I wanted to clarify the name on the attached Texas Pharmacy Inspection.

Immediately after Apex Pharmacy (Texas License # 35242) was licensed on 02/12/2024 it was brought to our attention that (despite the Texas Secretary Of State name approval and Texas Board Of Pharmacy Licensing), there is another entity doing business as Apex Pharmacy and facing potential disciplinary action in another area of Texas using an assumed name.

To avoid confusion, it was suggested to alter our pharmacy name and LLC. As such the required documents were filed and approved with the Texas Secretary of State; renaming APEX Pharmacy LLC to White Label Pharmacy LLC effective 2/15/24.

It should be noted that the **Federal EIN, ownership structure, Pharmacist In Charge (PIC), as well as every other aspect of the business remain the same.**

Additionally, please see below from the Texas Board of Pharmacy, similarly explaining that the attached Apex Pharmacy inspection for (License #35242) is in fact the most recent inspection for White Label Pharmacy (License #35242)

To Whom It May Concern:

On 2/12/2024, I conducted a pre-inspection of Apex Pharmacy located at 2925 Country Club Rd. Ste 101, Denton, Texas 76210. It was determined that the pharmacy had met the requirements of the pre-inspection checklist to be licensed as a Class A pharmacy in Texas. Texas Pharmacy License #35242 was issued on 2/12/2024.

On 2/15/2024 due to unforeseen circumstances, the pharmacy submitted an application for a name change to White Label Pharmacy. The pharmacy is now licensed under Texas pharmacy license #35242 under the name White Label Pharmacy.

Sincerely,
Terri Burrows

Disciplinary Actions

Summary: At the outset, it should be noted that all disciplinary actions discussed below originated from three distinct issues. First, AnazaoHealth allowed an intern licensed in Texas, but not Nevada, to participate in an internship at AnazaoHealth's facility. This matter was settled for a small fine with the Nevada Board of Pharmacy. Reciprocal discipline on the Nevada intern issue followed in Alabama, Texas, Colorado, and Nebraska. Second, many states are still grappling with state licensure of FDA Registered 503B Outsourcing Facilities. In the Alabama matter, while the action was instigated because of the Nevada intern issue, Alabama also took a position that all 503B Outsourcing Facilities should be registered as wholesalers in Alabama. This position had never been previously communicated to 503B facilities. Nevertheless, the licensing issue was also included in the Alabama action and settlement, and was included as a basis for the Nebraska reciprocal action. Finally, a documentary error resulted in a late filing of appropriate paperwork to change AnazaoHealth's PIC in Colorado. The PIC change was timely reported to Colorado, but AnazaoHealth did not use the proper form. The Nebraska reciprocal action included the Colorado PIC change issue, as well.

All discipline noted below was timely and appropriately reported to all state Boards of Pharmacy. We would be pleased to provide you with copies of these reports.

Resolution: Fines paid from both AnazaoHealth Corporation and Douglas Cammann along with required CE's. No other discipline or restrictions.

S. PAUL EDWARDS, General Counsel for Petitioner the NEVADA STATE BOARD OF PHARMACY (Board), Respondent DOUGLAS CAMMANN, R.Ph. (Mr. Cammann), Certificate of Registration No. 13340, and Respondent ANAZAOHEALTH CORPORATION (AnazaoHealth), Certificate of Registration No. PHC01471 (collectively Respondents), acting without counsel,

HEREBY STIPULATE AND AGREE THAT:

1. The Board has jurisdiction over this matter.

2. The Board served a Notice of Intended Action and Accusation (Accusation) on Respondents, and each of them, on or about August 20, 2015.

3. Respondents did not file an Answer and Notice of Defense, but did contact Board Staff to discuss the instant stipulated terms.

4. Respondents, and each of them, were fully aware of their right to seek the advice of counsel in this matter, and knowingly and voluntarily waived their right to seek the advice of counsel prior to entering into this Stipulation.

5. Respondents, and each of them, were fully aware of their right to a hearing on the matters alleged in the Accusation, their right to reconsideration, their right to appeal, and any and

all other rights which may be accorded to them pursuant to the Nevada Administrative Procedure Act and the Nevada Pharmacy Act.

6. Conditioned on the Board's acceptance of this Stipulation, and while reserving the right to challenge any future determination that Respondents, or either of them individually, have failed to comply with the provisions of this Stipulation, Respondents hereby freely and voluntarily waive their rights to a hearing, reconsideration, appeal, and any and all other rights that may be accorded to them by the Nevada Administrative Procedure Act and the Nevada Pharmacy Act.

7. In lieu of a hearing, Respondents, and each of them, admit that evidence exists, and that such evidence could be presented at a hearing, to establish a factual basis for the allegations in the Accusation, *to wit*, that:

a. Ms. Lee is, or was at the time of the events alleged in the Accusation, a student at Texas Tech University Health Sciences Center School of Pharmacy.

b. On or about July 6, 2015, Board Staff became aware that Ms. Lee completed a pharmacy rotation at Respondent AnazaoHealth's facility in Las Vegas, Nevada.

c. Ms. Lee worked as an intern pharmacist at AnazaoHealth without a valid Nevada intern registration during the period of May 26, 2014 to July 3, 2014.

d. At Board Staff's request, Respondent Mr. Cammann, the managing pharmacist at AnazaoHealth, provided Ms. Lee's work records. From the records provided, Board Staff ascertained that Ms. Lee worked approximately two-hundred and forty (240) hours, or approximately thirty (30) days, without a valid registration.

8. By allowing Ms. Lee to work at AnazaoHealth's facility for approximately thirty (30) days without a valid registration, Respondent Mr. Cammann violated Nevada Revised Statute (NRS) 639.220(1) and Nevada Administrative Code (NAC) 639.945(1)(i) and/or (j).

Those violations are grounds for discipline pursuant to NRS 639.210(4), (11), (12) and (15), as well as NRS 639.255 and NAC 639.955.

9. In owning and operating the pharmacy in which Ms. Lee worked without an intern pharmacist registration, AnazaoHealth Corporation is responsible for violations of NRS 639.220(1) and NAC 639.945(1)(i), (j) and (2), which violations are grounds for discipline pursuant to NRS 639.210(4), (11) and (12), as well as NRS 639.255 and NAC 639.955.

10. Based upon the allegations in the Accusation and the foregoing admissions, Respondent Mr. Cammann stipulates to:

a. Accept a letter of reprimand from the Board's Executive Secretary regarding his responsibilities as a pharmacist in charge to ensure that only licensed personnel work in the pharmacy under his charge;

b. Complete a one-hour continuing education (CE) unit on the topic of pharmacist in charge responsibilities, in addition to the CE credits he is ordinarily required to complete to maintain his license;

c. Pay a fine of $250.00.

11. Based upon the allegations in the Accusation and the foregoing admissions, Respondent AnazaoHealth stipulates to:

a. Submit a letter to Board Staff, within thirty (30) days of the acceptance date of this Stipulation by the Board, outlining and explaining, to Board Staff's satisfaction and approval, the policies and procedures AnazaoHealth has or will establish to prevent persons from working within the pharmacy without a valid and appropriate license or registration.

b. Pay a fine of $600.00, which is twenty dollars ($20) a day for each of the thirty (30) days in which Ms. Lee worked without a valid certificate of registration;

c. Pay an administrative fee of $500.00;

12. The foregoing admissions and stipulations are for the purposes of this proceeding only, and shall have no force or effect in any other case or proceeding before the Board.

13. Board Counsel will present this Stipulation to the Board for approval at its meeting on Wednesday, October 14, 2015, in Las Vegas, Nevada. Respondents or their authorized representatives will appear at that meeting to answer questions put to them by members of the Board and Board Staff. The Board may discuss and deliberate regarding this Stipulation even if Respondents or their representatives are absent.

14. The Board has discretion to accept this Stipulation, but it is not obligated to do so.

15. If the Board adopts the recommendations set forth above, Respondents and the Board each agree to release the other from any and all claims arising from the facts set forth in the Accusation, whether known or unknown, which might otherwise have existed on or before the effective date of the Board's Order in this matter.

16. If the Board rejects any part or all of this Stipulation, the parties agree that a full hearing on the merits of this matter may be heard by the Board, and that the hearing shall occur at the Board's January 6, 2016 meeting in Las Vegas, Nevada. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

17. Respondents shall pay the fines agreed to herein by *cashier's check* or *certified check* or *money order* made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office located at 431 W. Plumb Lane, Reno, NV 89509, within 90 days of the effective date of the Board's Order.

Respondent Pharmacy.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and AnazaoHealth Corporation ("Respondent Pharmacy") to resolve all matters pertaining to Board Case Number 2015-5054, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Pharmacy, its registration as a non-resident prescription drug outlet, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2016).

2. Respondent Pharmacy was originally registered in the State of Colorado on or about June 15, 2000, being issued registration number OSP 5234, and has been so registered at all times relevant to this disciplinary action.

3. Respondent Pharmacy's address of record with the Board and current location is 7465 W. Sunset Rd., Ste. 1200, Las Vegas, NV 89113.

4. Respondent Pharmacy admits these findings and hereby waives any further proof in this or any other proceeding before the Board regarding the following facts.

5. Respondent Pharmacy allowed an intern to work from May 26, 2014, to July 3, 2014, without an intern license for the State of Nevada, which would constitute a violation in the State of Colorado.

6. Respondent Pharmacy admits that its conduct, as set forth above, constitutes a violation of §12-42.5-123(1)(f) and (g), C.R.S., and provides grounds for disciplinary action against Respondent Pharmacy's Colorado registration as a prescription drug outlet.

DISPOSITION

7. **Letter of Admonition.** This Final Agency Order shall constitute a Letter of Admonition as set forth in §12-42.5-124(6)(b) and (c), C.R.S. The Board hereby admonishes Respondent Pharmacy for the acts and omissions described in paragraphs 5-7 above.

8. **Waiver of Right to Contest.** By entering into this Final Agency Order, Respondent Pharmacy agrees to waive the right provided by §12-42.5-124(6)(b) and (c), C.R.S. to contest this Letter of Admonition.

10. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Respondent Pharmacy to take all appropriate steps to comply fully with this Final Agency Order. Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under §12-42.5-124(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

11. **Advisements and Waivers.** Through its undersigned Authorized Representative, Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having the opportunity to consult with legal counsel and/or choosing not to do so.    b. To respond to said formal notice of charges;

   c. To have a formal disciplinary hearing pursuant to §§12-42.5-123 and 12-42.5-124, C.R.S.; and

12. **Acknowledgments.** The undersigned Authorized Representative of Respondent Pharmacy has read this Final Agency Order in its entirety and acknowledges, after having the opportunity to consult with legal counsel and/or choosing not to do so, that Respondent Pharmacy understands the legal consequences and agrees that none of the terms or conditions herein is unconscionable. 13. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties in this case. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

Notice of Disciplinary Action
Against a Mail Service Pharmacy Renewal License

Notice is hereby given of **Disciplinary Action** against the Mail Service Pharmacy License #253, AnazaoHealth Corporation, by the Department of Health and Human Services, Division of Public Health.

The Department of Health and Human Services, Division of Public Health, with recommendation of the Board of Pharmacy, is imposing the disciplinary action of a **CENSURE** on your license #253.

The **reasons** for this Disciplinary Action are:

(1) that several other states have disciplined your pharmacy license:
- Nevada, on October 2, 2015;
- Texas, on May 3, 2016;
- Alabama, on June 21, 2016;
- Colorado, on September 29, 2016; and

(2) that your pharmacy located in Nevada was inspected by the Food and Drug Administration (FDA) on September 23, 2014, and again on December 29, 2014. FDA inspectors continued their inspections from January 20, 2015 to January 30, 2015 and the inspector's observed "serious deficiencies" in pharmacy practice. Some of the deficiencies noted within the FDA Warning letter dated December 9, 2015, issued to AnazaoHealth Corporation include:
- The facility did not use sterile wipes or sterile disinfectants as part of cleaning;
- The facility's drug products did not include sufficient information on product labels;
- Not all drug substances used were manufactured by an establishment that was registered under 510;
- The facility failed to submit a report to FDA upon registering as an outsourcing facility in September 2014, identifying the drug products that were compounded during the previous six months; and
- Products compounded were held under unsanitary conditions; whereby they may have become contaminated with filth or rendered injurious to health.

This conduct is in violation of Neb. Rev. Stat. §71-2408(1)(a) and (c) which state (1) The Department of Health and Human Services, after notice and an opportunity for a hearing, may deny, refuse renewal of, revoke, or otherwise discipline or restrict the license of a mail service pharmacy for (a) any discipline of the pharmacy license held by such pharmacy in another state pursuant to subdivision (2)(a) of section 71-2407, ... or (c) conduct by such pharmacy which in this state presents a threat to the public health and safety or a danger of death or physical harm.

This action shall become final fifteen (15) days after mailing of the notice unless you, within such fifteen (15) day period, give a written notice of a desire for a hearing to the Department. Your request must be sent to DHHS-Licensure Unit, Attn: Vonda Apking, PO Box 94986, Lincoln, NE 68509.

If you request a formal hearing, you will be notified of the date, time and location of the hearing. You have the right to retain an attorney to represent you at the hearing, and to call witnesses and present evidence on your behalf. Hearings will be conducted in accordance with Title 184, Neb. Admin. Code, Chapter 1, Rules of Practice and Procedure Administrative Hearings. A copy will be provided to you at your request. If the Director finds that the evidence supports the proposal of the Department, you have the right to appeal that decision to the district court.

Case No. 2016-3589

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE NON-RESIDENT WHOLESALER REGISTRATION IN THE STATE OF COLORADO OF ANAZAOHEALTH CORPORATION, REGISTRATION NO. WHO 8160,

Respondent Pharmacy.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and AnazaoHealth Corporation ("Respondent Outlet") to resolve all matters pertaining to Board Case Number 2016-3589, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Outlet, its registration as a non-resident wholesaler, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2016) (the "Act").

2. Respondent Outlet was originally registered in the State of Colorado on or about March 10, 2016, being issued registration number WHO 8160, and has been so registered at all times relevant to this disciplinary action.

3. Respondent Outlet's address of record with the Board and current location is 7465 W. Sunset Rd., Ste. 1200, Las Vegas, NV 89113.

4. Respondent Outlet admits these findings and hereby waives any further proof in this or any other proceeding before the Board regarding the following facts.

5. Respondent Outlet was disciplined in another state for operating as a prescription drug wholesaler without a proper registration, which conduct would constitute a violation of the Act and subject Respondent Outlet to disciplinary action in the State of Colorado.

6. Respondent Outlet admits that its conduct, as set forth above, constitutes a violation of §§12-42.5-123(1)(c)(I-III), (g), and (k) and 12-42.5-303(1), C.R.S., and provides grounds for disciplinary action against Respondent Outlet's Colorado registration as a wholesaler.

DISPOSITION

7. **Letter of Admonition.** This Final Agency Order shall constitute a Letter of Admonition as set forth in §12-42.5-124(6)(b) and (c), C.R.S. The Board hereby admonishes Respondent Outlet for the acts and omissions described in paragraphs 5-6 above.

8. **Waiver of Right to Contest.** By entering into this Final Agency Order, Respondent Outlet agrees to waive the right provided by §12-42.5-124(6)(b) and (c), C.R.S., to contest this Letter of Admonition.

9. **Other Requirements.** Through its undersigned Authorized Representative, Respondent Outlet acknowledges and agrees that, as a condition of this Final Agency Order, Respondent Outlet shall:

   a. promptly pay all its own fees and costs associated with this Final Agency Order;

   b. comply fully with this Final Agency Order; and

   c. comply fully with the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmaceuticals and pharmacists in the State of Colorado.

10. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Respondent Outlet to take all appropriate steps to comply fully with this Final Agency Order. Respondent Outlet acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under §12-42.5-124(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Outlet to comply with all terms and conditions of this Final Agency Order.

11. **Advisements and Waivers.** Through its undersigned Authorized Representative, Respondent Outlet enters into this Final Agency Order freely and voluntarily, after having the opportunity to consult with legal counsel and/or choosing not to do so. Respondent Outlet acknowledges its understanding that it has the following rights:

   a. To have a formal notice of hearing and charges served upon it;

   b. To respond to said formal notice of charges;

   c. To have a formal disciplinary hearing pursuant to §§12-42.5-123 and 12-42.5-124, C.R.S.; and

   d. To appeal this Board order.

Respondent Outlet freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against it to the sanctions imposed herein.

12. **Acknowledgments.** The undersigned Authorized Representative of Respondent Outlet has read this Final Agency Order in its entirety and acknowledges, after having the opportunity to consult with legal counsel and/or choosing not to do so, that Respondent Outlet understands the legal consequences and agrees that none of the terms or conditions herein is unconscionable. Respondent Outlet is not relying on any statements, promises, or representations from the Board other than as may be contained in this Final Agency Order. Respondent Outlet further acknowledges that it is not entering into this Final Agency Order under any duress.

13. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties in this case. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

14. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

15. **Board Order.** This Final Agency Order shall become an order of the Board when it is accepted and signed by the Program Director or authorized Board representative.

16. **Effective Date**. This Final Agency Order shall become effective upon (a) mailing by first-class mail to Respondent Outlet at Respondent Outlet's address of record with the Board, or (b) service by electronic means on Respondent Outlet at Respondent Outlet's electronic address of record. Respondent Outlet hereby consents to service by electronic means if Respondent Outlet has an electronic address on file with the Board.

S. PAUL EDWARDS, General Counsel for Petitioner the NEVADA STATE BOARD OF PHARMACY (Board), Respondent DOUGLAS CAMMANN, R.Ph. (Mr. Cammann), Certificate of Registration No. 13340, and Respondent ANAZAOHEALTH CORPORATION (AnazaoHealth), Certificate of Registration No. PHC01471 (collectively Respondents), acting without counsel,

HEREBY STIPULATE AND AGREE THAT:

1. The Board has jurisdiction over this matter.

2. The Board served a Notice of Intended Action and Accusation (Accusation) on Respondents, and each of them, on or about August 20, 2015.

3. Respondents did not file an Answer and Notice of Defense, but did contact Board Staff to discuss the instant stipulated terms.

4. Respondents, and each of them, were fully aware of their right to seek the advice of counsel in this matter, and knowingly and voluntarily waived their right to seek the advice of counsel prior to entering into this Stipulation.

5. Respondents, and each of them, were fully aware of their right to a hearing on the matters alleged in the Accusation, their right to reconsideration, their right to appeal, and any and

all other rights which may be accorded to them pursuant to the Nevada Administrative Procedure Act and the Nevada Pharmacy Act.

6. Conditioned on the Board's acceptance of this Stipulation, and while reserving the right to challenge any future determination that Respondents, or either of them individually, have failed to comply with the provisions of this Stipulation, Respondents hereby freely and voluntarily waive their rights to a hearing, reconsideration, appeal, and any and all other rights that may be accorded to them by the Nevada Administrative Procedure Act and the Nevada Pharmacy Act.

7. In lieu of a hearing, Respondents, and each of them, admit that evidence exists, and that such evidence could be presented at a hearing, to establish a factual basis for the allegations in the Accusation, *to wit*, that:

a. Ms. Lee is, or was at the time of the events alleged in the Accusation, a student at Texas Tech University Health Sciences Center School of Pharmacy.

b. On or about July 6, 2015, Board Staff became aware that Ms. Lee completed a pharmacy rotation at Respondent AnazaoHealth's facility in Las Vegas, Nevada.

c. Ms. Lee worked as an intern pharmacist at AnazaoHealth without a valid Nevada intern registration during the period of May 26, 2014 to July 3, 2014.

d. At Board Staff's request, Respondent Mr. Cammann, the managing pharmacist at AnazaoHealth, provided Ms. Lee's work records. From the records provided, Board Staff ascertained that Ms. Lee worked approximately two-hundred and forty (240) hours, or approximately thirty (30) days, without a valid registration.

8. By allowing Ms. Lee to work at AnazaoHealth's facility for approximately thirty (30) days without a valid registration, Respondent Mr. Cammann violated Nevada Revised Statute (NRS) 639.220(1) and Nevada Administrative Code (NAC) 639.945(1)(i) and/or (j).

Those violations are grounds for discipline pursuant to NRS 639.210(4), (11), (12) and (15), as well as NRS 639.255 and NAC 639.955.

9. In owning and operating the pharmacy in which Ms. Lee worked without an intern pharmacist registration, AnazaoHealth Corporation is responsible for violations of NRS 639.220(1) and NAC 639.945(1)(i), (j) and (2), which violations are grounds for discipline pursuant to NRS 639.210(4), (11) and (12), as well as NRS 639.255 and NAC 639.955.

10. Based upon the allegations in the Accusation and the foregoing admissions, Respondent Mr. Cammann stipulates to:

a. Accept a letter of reprimand from the Board's Executive Secretary regarding his responsibilities as a pharmacist in charge to ensure that only licensed personnel work in the pharmacy under his charge;

b. Complete a one-hour continuing education (CE) unit on the topic of pharmacist in charge responsibilities, in addition to the CE credits he is ordinarily required to complete to maintain his license;

c. Pay a fine of $250.00.

11. Based upon the allegations in the Accusation and the foregoing admissions, Respondent AnazaoHealth stipulates to:

a. Submit a letter to Board Staff, within thirty (30) days of the acceptance date of this Stipulation by the Board, outlining and explaining, to Board Staff's satisfaction and approval, the policies and procedures AnazaoHealth has or will establish to prevent persons from working within the pharmacy without a valid and appropriate license or registration.

b. Pay a fine of $600.00, which is twenty dollars ($20) a day for each of the thirty (30) days in which Ms. Lee worked without a valid certificate of registration;

c. Pay an administrative fee of $500.00;

12. The foregoing admissions and stipulations are for the purposes of this proceeding only, and shall have no force or effect in any other case or proceeding before the Board.

13. Board Counsel will present this Stipulation to the Board for approval at its meeting on Wednesday, October 14, 2015, in Las Vegas, Nevada. Respondents or their authorized representatives will appear at that meeting to answer questions put to them by members of the Board and Board Staff. The Board may discuss and deliberate regarding this Stipulation even if Respondents or their representatives are absent.

14. The Board has discretion to accept this Stipulation, but it is not obligated to do so.

15. If the Board adopts the recommendations set forth above, Respondents and the Board each agree to release the other from any and all claims arising from the facts set forth in the Accusation, whether known or unknown, which might otherwise have existed on or before the effective date of the Board's Order in this matter.

16. If the Board rejects any part or all of this Stipulation, the parties agree that a full hearing on the merits of this matter may be heard by the Board, and that the hearing shall occur at the Board's January 6, 2016 meeting in Las Vegas, Nevada. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

17. Respondents shall pay the fines agreed to herein by *cashier's check* or *certified check* or *money order* made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office located at 431 W. REPRIMAND

As a result of entering ABO #L-16-066, the pharmacist license to be issued to Douglas Cammann is reprimanded.

PRECEPTOR RESTRICTION

You may not serve as a preceptor in Texas, as explained below. TSBP Rule 283.6(c) states, in part:

> "No pharmacist may serve as a preceptor if his or her license to practice pharmacy has been the subject of an order of the board imposing any penalty set out in the Act, §565.051, during the period he or she is serving as a preceptor or within the three-year period immediately preceding application for approval as a preceptor."

Accordingly, you may not serve as a preceptor until three years after the termination of all sanctions. Please note that TSBP Rule 283.6(c) also allows you to petition TSBP in writing for approval to act as a preceptor. However, until such petition is granted, you may not serve as a preceptor beginning May 1, 2017, and ending May 1, 2020.

RENEWAL APPLICATIONS

Prior to the next expiration date of your pharmacist license, you will complete a license renewal application for the Texas State Board of Pharmacy. This application will require you to answer the question:

> "Have you been the subject of any professional disciplinary action or are any such actions pending against you by a regulatory authority within the last 36 months?..."

As a result of the entry of ABO #L-16-066, you must answer "yes" to this question for 36 months after the termination of all sanctions. Consequently, you must answer "yes" to this question on any renewal applications submitted beginning May 1, 2017, and ending May 1, 2020.

If you have any questions about this Order, please contact Carissa Garcia, Enforcement Specialist, at (512) 305-8054.

Re: **Jay K. Selznick CS07913**
Notice of Intended Action and Accusation
Case NO. 10-043-CS-S

I received a Certificate of Service for the above referenced Notice.

I have read it thoroughly and reviewed my records.

In response to the Factual Allegations and COUNTS:

Any failure to disclose to the Board my NSBDE action was **erroneous.**
Any violation of the NRSs and CFRs was **erroneous.**

It has been a lengthy period of time since my NSBDE 2016 disciplinary action. I successfully completed the probationary period.
During the probationary period, my license to practice Oral & Maxillofacial Surgery was NOT restricted. I maintained all of my hospital privileges and appointments. I maintained my provider status with ALL insurance companies.

I would NEVER knowingly withhold any information from a licensing entity - So much so, that when I applied for a New York State DEA number in 2018, they were made aware of my Board action, issued my

DEA number (FS8777382) and had me comply for a 3 year period of prescription monitoring. This was done by way of a letter of Memorandum. It was completed perfectly and monitored by DEA representative - DI Denise Jordan-Group D-62 Program Manager

Since obtaining a NV CS number, this is my first occurrence of this sort. I understand my rights and the Board's claim. I am not retaining counsel and would like to come to a reasonable conclusion to this matter.

Respectfully, I would like to discuss this matter and try to resolve it without the need of a hearing. I would also like to amend and correct my erroneous application from the year in question.

I hereby declare, under the penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts herein stated, are true and correct to the best of my knowledge.

I look forward to hearing from the Board.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through General Counsel Brett Kandt, and Respondent Jay K. Selznick, DMD, MD, Certificate of Registration No. CS07913, **HEREBY STIPULATE AND AGREE THAT**:

4. Respondent is fully aware of the right to seek the advice of counsel in this matter prior to entering into this Stipulation.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded to him pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

7. Respondent does not contest the allegations in the Accusation, but acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein, *to wit*:

A. On or about December 18, 2015, the Nevada State Board of Dental Examiners (NSBDE) entered an order in Case No. 74127-02801 and imposed discipline on Respondent's License No. S2-22 to practice dentistry for engaging in conduct in violation of standards of practice under NRS 631.3475(1) and NRS 631.230(1)(c) related to prescribing controlled substances to treat pain;

B. Respondent DENIES any intentional wrongdoing; however, by failing to disclose to the Board the disciplinary order in NSBDE Case No. 74127-02801 on his 2016 biennial renewal application for Certificate of Registration No. CS07913, Respondent violated NRS 453.331(l)(e) and NRS 639.281(1);

D. Respondent has engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(i) and committed acts that render his registration inconsistent with the public interest.

8. Those violations are plead with particularity in the Accusation, and are grounds for action pursuant to NRS 453.236(1), NRS 453.241(1), NRS 639.210 and/or NRS 639.255.

9. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent stipulate to the following penalties. The certificate of registration of Respondent Jay K. Selznick, DMD, MD, Certificate of Registration No. CS07913, is suspended for a period of one (1) year pursuant to NRS 453.241(1)(a). The suspension is stayed, and Respondent is placed on probation pursuant to NRS 639.255(1)(b) subject to the following conditions:

A. Respondent shall accept this Stipulation and Order as a public reprimand regarding his duties and responsibilities as a practitioner under NRS Chapters 453 and 639;

B. Pursuant to NRS 639.255(1)(f) and NAC 639.955(5), Respondent shall pay a fine of Two Thousand Dollars ($2,000.00) for the violations, by personal, business, certified or cashier's check or money order made payable to "State of Nevada, Office of the Treasurer," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by September 1, 2024;

C. Pursuant to NRS 622.400, Respondent shall pay One Thousand Dollars ($1,000.00) to partially reimburse the Board for reasonable attorney's fees and recoverable costs incurred in investigating and prosecuting this matter, by personal, business, certified or cashier's check or money order made payable to the "Nevada State Board of Pharmacy" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by September 1, 2024; and

D. Respondent shall comply with all federal and state statutes and regulations regarding controlled substances and dangerous drugs, and have no additional charges filed against him while on probation.

Upon successful completion of probation, Respondent's Certificate of Registration No. CS07913 will be fully restored.

10. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may lift the stay and immediately suspend Respondent's Certificate of Registration No. CS07913 and impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

11. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on May 29, 2024. 4. Respondent issued at least twenty (20) prescriptions for controlled substances between February 21, 2019, and December 14, 2023, after the surrender of DEA Certificate of Registration No. FM2307468 and suspension of his Certificate of Registration No. CS18967.

5. Respondent failed to timely renew his Certificate of Registration Nos. CS18967 and PD00257, which expired on October 31, 2022.

ANSWER TO FIRST AMENDED NOTICE OF INTENDED ACTION AND ACCUSATION, NOTICE OF DEFENSE, REQUEST FOR HEARING, DEMAND FOR DISCOVERY, OBJECTION TO TESTIMONY BY WAY OF DECLARATION, AFFIDAVIT OR REPORT

Comes Now, Respondent Michael S. Mall, MD, by and through his undersigned counsel of record, Richard A. Schonfeld, Esq., of the law offices of Chesnoff & Schonfeld, and in Answer to the First Amended Notice of Intended Action and Accusation and Notice of Hearing (hereinafter "Complaint") filed in the above entitled matter before the State of Nevada Board of Pharmacy, declares and Answers as follows (any allegation not addresses shall be deemed a denial of the same):

1. Answering Paragraph I of the Complaint Respondent admits the allegations set forth;

2. Answering Paragraph II of the Complaint, the Respondent denies that there is a valid surrender of his DEA Certificate, nor was the purported surrender "for cause". The purported "surrender" was done under duress. Respondent requested, but was not given, an opportunity to consult with counsel prior to the "surrender". After the "surrender" Respondent was then allowed to contact his counsel and they immediately issued a rescission of the "surrender" to the DEA. Accordingly, the surrender is not valid. Moreover, Respondent asserts that he did not violate regulations pertaining to controlled substances, nor has any evidence been

presented as to said allegations;

3. Answering Paragraph III of the Complaint, the Respondent is without sufficient information with which to form a basis as to the truth of the matter asserted and therefore denies the allegations;

4. Answering Paragraph IV of the Complaint, the Respondent denies the allegations;

5. Answering Paragraph V of the Complaint, the Respondent denies the allegations;

6. Answering Paragraph VI of the Complaint, the Respondent is without sufficient information with which to form a basis as to the truth of the matter asserted and therefore denies the allegations;

7. Answering Paragraphs VII-XVI of the Complaint, those paragraphs call for a legal conclusion. In addition, Respondent is without sufficient information with which to form a basis as to the truth of the matters asserted and therefore denies said allegations in their entirety;

8. Answering Paragraph XVII-XXIV of the Complaint, the Respondent denies the allegations.

DEMAND FOR DISCOVERY

Respondent hereby demands discovery pursuant to NRS 622A.330 including all documents and other evidence intended to be presented by the Board and/or its counsel in support of the case and a list of proposed witnesses.

OBJECTION TO USE OF AFFIDAVITS, DECLARATIONS, OR REPORTS AS EVIDENCE

The Board is hereby placed on notice that Respondent objects to the use of Affidavits, Declarations or Reports, as substantive evidence or as testimony in this manner under Crawford v. Washington, City v. Walsh, the Confrontation Clause of the United States Constitution and Nevada Constitution, as well as all other applicable statutes.

Objection is also made under NRS 622A.370(2) and NRS 233B.123.

SIXTH DEFENSE

The allegations against Respondent are vague and ambiguous and do not adequately provide the Respondent with notice and an opportunity to defend themselves.

SEVENTH DEFENSE

The evidence obtained in this investigation was obtained in violation of the Respondent's constitutional rights.

EIGHTH DEFENSE

Pursuant to NRCP 11, as amended, all possible defenses may not have been alleged herein insofar as sufficient facts were not available after reasonable inquiry upon the filing of Respondent's Answer, and therefore Respondent reserves the right to amend this Answer to allege additional defenses if subsequent investigation warrants.

COMPLAINT

The Investigative Committee[1] (IC) of the Nevada State Board of Medical Examiners (Board), by and through Donald K. White, J.D., Senior Deputy General Counsel and attorney for the IC, having a reasonable basis to believe that Michael Scott Mall, M.D., (Respondent) violated the provisions of Nevada Revised Statutes (NRS) Chapter 630 and Nevada Administrative Code (NAC) Chapter 630 (collectively, the Medical Practice Act), hereby issues its Complaint, stating the IC's charges and allegations as follows:

1. Respondent was at all times relative to this Complaint a medical doctor holding an active license to practice medicine in the State of Nevada (License No. 6074). Respondent was originally licensed by the Board on July 1, 1990.

PATIENT A

2. Patient A was a twenty-nine (29) year old female patient during the events in question. Her identity is not disclosed herein to protect her privacy but is disclosed in the Patient Designation served upon Respondent, along with a copy of this Complaint, and filed under seal.

3. Patient A visited Respondent, a family practice physician, for treatment on or about October 1, 2013, until approximately January 6, 2014.

Reno, Nevada 89521
(775) 688-2559

4. Patient A was seen for back pain, depression, anxiety, sleeplessness, parenting conflicts and mood swings.

5. The medical records do not contain a patient history, physical exam notes, a list of medications, nor was a psychiatric exam performed on Patient A during her visits. Urine drug screening was conducted with no documented evidence as to why the screen was performed nor how the test was to be used.

6. Additionally, there is no evidence that Respondent consulted a mental health practitioner for the medical treatment and plan of care for Patient A.

COUNT I

NRS 630.301(4) - Malpractice

7. All the allegations contained in the above paragraphs are hereby incorporated by reference as though fully set forth herein.

8. NRS 630.301(4) provides that malpractice of a physician is grounds for initiating disciplinary action against a licensee.

9. NAC 630.040 defines malpractice as "the failure of a physician, in treating a patient, to use the reasonable care, skill, or knowledge ordinarily used under similar circumstances."

10. As demonstrated by, but not limited to, the above-outlined facts, Respondent failed to use the reasonable care, skill or knowledge ordinarily used under similar circumstances when treating Patient A.

11. By reason of the foregoing, Respondent is subject to discipline by the Board as provided in NRS 630.352.

COUNT II

NRS 630.3062(1)(a) - Failure to Maintain Proper Medical Records

14. Respondent failed to maintain complete medical records relating to the diagnosis, treatment, and care of Patient A, by failing to correctly document his actions when he treated Patient A.

15. By reason of the foregoing, Respondent is subject to discipline by the Board as provided in NRS 630.352.

PATIENT B

16. All the allegations contained in the above paragraphs are hereby incorporated by reference as though fully set forth herein.

17. Patient B was a nine (9) year old male patient during the events in question. His identity is not disclosed herein to protect his privacy but is disclosed in the Patient Designation served upon Respondent along with a copy of this Complaint and filed under seal.

18. Patient B was seen by Respondent for medical treatment from on or about March 27, 2014, until on or about August 24, 2016.

19. The medical records in Patient B's chart do not contain vital sign checks, evidence of a physical exam, any indication that weight or growth was followed, nor an adequate patient history. Respondent diagnosed Patient B with Attention Deficit Hyperactivity Disorder (ADHD), Mood Disorder, and Autism, but there is no analysis, criteria or testing for how these diagnoses were reached by Respondent.

20. Respondent prescribed Abilify and Risperidone to Patient B, while he was already taking Stratera, but there is no indication of the child's size or why both drugs were started instead of only one. Additionally, there were no notes regarding a discussion of risks, benefits, side effects or potential drug interactions with Patient B's parents.

COUNT III

NRS 630.306(1)(b)(2) - Violation of Standards of Practice Established by Regulation

21. All the allegations contained in the above paragraphs are hereby incorporated by reference as though fully set forth herein.

22. Violation of a standard of practice adopted by the Board is grounds for disciplinary action pursuant to NRS 630.306(1)(b)(2).

24. Respondent failed to timely seek consultation of a mental health provider regarding Patient B's medical conditions from March 27, 2014, through August 24, 2016. Respondent should have consulted with an appropriate mental health care provider to address the doubtfulness and difficulty of Patient B's diagnoses and medical conditions, which may have enhanced the quality of medical care provided to Patient B.

25. By reason of the foregoing, Respondent is subject to discipline by the Board as provided in NRS 630.352.

COUNT IV

NRS 630.306(1)(e) - Practice Beyond Scope of License

26. All of the allegations contained in the above paragraphs are hereby incorporated by reference as though fully set forth herein.

27. NRS 630.306(1)(e) provides that practicing or offering to practice beyond the scope permitted by law or performing services which the licensee knows or has reason to know that he or she is not competent to perform, or which are beyond the scope of his or her training constitutes grounds for initiating disciplinary action.

28. Patient B required a comprehensive psychiatric evaluation, which was beyond the scope of Respondent's training as a family practice physician. Instead, Patient B should have been referred to a mental health practitioner for this evaluation.

36. Patient B visited Respondent for treatment from on or about May 2013 until approximately December 26, 2013.

37. Respondent did not document the patient's weight, provided no documentation or justification for the reason(s) he prescribed a higher dosage. Additionally, there was no documentation that cardiac risk factors, benefits, contra-indications, nor medication side effects were ever discussed with the parents of Patient D.

53. Further, Respondent prescribed Seroquel, a medication usually prescribed for schizophrenia or bipolar disorder with no documentation or justification for prescribing this kind of medication for Patient D. Moreover, Seroquel should not be prescribed to patients under ten (10) years of age.

Dear Dr. Alvear:

The Nevada State Board of Pharmacy (Board) has determined that you had been convicted of a felony related to drugs on November 28, 2023.

Please be advised that pursuant to NRS 639.2121 the conviction of a federal felony offense involving drugs operates as an immediate suspension of your certificate of registration to prescribe controlled substances. ECF Nos. 273, 274. Avelar's counsel did not reply. For the reasons set forth herein, both of Alvear's motions are denied.

I. Background

This case stems from an undercover investigation between March and May of 2020. At the time, defendant Alvear was a licensed medical doctor in the State of Nevada. As a result of the investigation, Alvear was charged with eight violations of the Controlled Substances Act (CSA). Second Superseding Indictment, ECF No. 201.[1] Specifically, counts one through three charged Alvear with unlawfully prescribing a confidential human source (CHS) opioids, and counts four through eight charged Alvear with unlawfully dispensing Xanax pills. *Id.* A seven-day jury trial on the charges commenced on November 14, 2023. Mins., ECF No. 242. At the conclusion of the trial,

[1] Alvear was initially charged with eight violations of the CSA. Indictment, ECF No. 1. The government later superseded and added 35 additional charges. *See* Superseding Indictment, ECF No. 59. On October 25, 2023, the government superseded a second time. Second Superseding Indictment, ECF No. 201. In the second superseding indictment, Alvear was charged with eight violations of the CSA. *Id.* These are the charges that proceeded to trial in November of 2023.

the jury returned a verdict of guilty on all eight charges. Verdict Form, ECF No. 261. Sentencing is set for May 15, 2024. ECF No. 276.

II. Summary of the evidence introduced at trial.

During the trial, the Government introduced undercover video evidence of Alvear's interactions with two CHSs[2] on three different days between March and May of 2020. *See* Govt.'s Exs. 1–6 (admitted 11/15/2023). The videos captured by the CHSs show Alvear meeting with the CHSs in his personal office (not in an examination room), during which time he prescribed CHS-2 opioids at the request of CHS-1 without taking any sort of medical form or conducting any sort of medical examination of CHS-2,[3] and he dispensed individual Xanax pills to both CHSs.[4] In the video of the CHSs' first visit to Alvear's medical office, CHS-1 told Alvear that CHS-2 needed pain pills due to a recent breast surgery, and CHS-1 offered to pay him a $200 "tip" instead of the $60 standard office visit fee. While Alvear asked some questions and made some comments about the dangers of opioid medication, he ultimately accepted the offer and wrote a prescription for an opioid for CHS-2. This video also showed Alvear removing individual pills from a bottle and placing them on a tissue or napkin at the front of his desk and the CHSs taking the tissues or napkins containing the Xanax pills. The subsequent videos were similar: Alvear took the CHSs' "tip" money in exchange for an opioid prescription and/or giving them Xanax pills, although he never conducted a medical examination of either CHS or reviewed their medical history. In the second video, CHS-2's reason for needing an opioid changed from recent breast surgery to "back pain." Still, Alvear did not conduct a medical examination nor review her medical history. Video evidence showed Alvear telling CHS-1 that if CHS-2 died from the prescription pills that he gave CHS-2, that it would be CHS-1's fault. The video evidence also captured Alvear pulling out cash,

[2] The two CHS are identified separately as CHS-1 (initials M.L) and CHS-2 (initial A.A.).

[3] This evidence related to the three counts of Distribution of a Controlled Substance in violation of 21 U.S.C. §§ 841(a)(1) and 841(b)(1)(C).

[4] This evidence related to the Distribution or Dispensing of a Controlled Substance in violation of 21 U.S.C. §§ 841(a)(1) and 841(b)(2) set forth in counts 4–8 of the second superseding indictment.

then approaching, hugging, and groping CHS-1's buttocks and looking down CHS-1's shirt.[5] He then propositioned CHS-1 for sex in exchange for money. While propositioning her, Alvear told CHS-1 that he "would wear a condom."

FBI Special Agent (SA) Courtney Brooks testified regarding the standard operating CHS procedures. In sum, the CHSs met with agents before each undercover visit. In these meetings, the FBI searched each CHS for contraband and equipped them with recording devices and cash to use for the visit. *See generally*, Trial Tr., Day 2 (TT2), ECF No. 279 at 58–66, 72–75, 80–84. At the conclusion of each undercover visit, the agents would retrieve the recording devices, the prescriptions for CHS-2, and the Xanax pills. *See generally id.* at 59–63, 73–78, 82–87. All pills given to the CHSs by Alvear were impounded and later submitted to a Drug Enforcement Agency (DEA) laboratory for testing. *See* Govt.'s Exs. 8–13 (impounded prescriptions and pills).

Both case agents[6] were extensively questioned by Alvear's trial counsel. *See generally* TT2, ECF No. 279 at 95–152. The case agents were questioned, and at times impeached, about their recollections regarding this investigation, what sort of documents they obtained and/or reviewed during this investigation, what was seized from Alvear's clinic during a search warrant related to the investigation, if they were aware that CHS-1 had a preexisting relationship with Alvear, their knowledge of text exchanges between CHS-1 and Alvear during the spring of 2020, and whether Alvear was a licensed medical doctor during the relevant time period, amongst other subjects.

DEA Senior Forensic Chemist Alexandra Ambriz testified as an expert in forensic chemistry. Trial Tr., Day 3 (TT3), ECF No. 280 at 159. Ambriz testified about the process she used to test the Xanax pills that were impounded during the investigation in this case. *See generally id.* at 160–66 (identifying Govt.'s Exs. 9-D, 11-C, and 13-C, identified on 11/15/23, admitted on 11/16/23). She opined that each pill contained alprazolam,[7] which is a controlled substance. TT3, ECF No. 280 at 164. Ambriz was cross-examined by Alvear's counsel. *See generally id.* at 166–67.

---

[5] CHS-1 also provided testimony regarding what happened during this interaction. *See* Trial Tr., Day 4 (TT4), ECF No. 281 at 39–40.

[6] *See infra*, pg. 7.

[7] Alprazolam is more commonly known as Xanax.

Dr. Timothy Munzing also testified during the trial as an expert witness in family medicine, pain management, and the legitimate and lawful prescribing and dispensing of controlled substances. *See generally* TT2, ECF No. 279 at 163–71; TT3, ECF No. 280 at 5–141. Dr. Munzing opined about the standard of care in prescribing opioids in Nevada and elsewhere, including physically evaluating a patient in order to diagnose them, collecting a comprehensive medical (including prescription) history and records, conducting laboratory testing, creating treatment plans, and more. *See generally*, TT3, ECF No. 280 at 8–31. He also testified about appropriate doctor/patient relationships, and how Alvear's meetings and relationships with both CHSs were "red flags"—including Alvear's acceptance of cash "tips" and not conducting any sort of physical examination. *Id.* at 28–47. Munzing walked through all three undercover videos and testified regarding red flags and other concerns about what was recorded. *Id.* at 47–55. Munzing testified that each interaction with the CHSs was "far below the floor" of the standard of care doctors should provide to their patients. *Id.* at 55. He further testified on re-direct that the prescriptions Alvear wrote for CHS-2 were not medically legitimate. *Id.* at 140. Munzing was extensively cross-examined. *Id.* at 56–138.[8]

The Government introduced testimony from two witnesses[9] who testified that during the time period alleged in the indictment, Alvear was not licensed to dispense medication. TT2, ECF No. 279 at 54–55. The Government also introduced a letter from the Nevada Board of Pharmacy showing that Alvear was not licensed to dispense medication during the relevant time-period. *See* Letter from the Nevada Board of Pharmacy, Govt.'s Ex. 23.

CHS-1 testified during the trial. Trial Tr., Day 4, ECF No. 281 at 19–82. CHS-1 testified that she was an opioid addict when she first became Alvear's patient in 2016. *Id.* at 22–23. CHS-1

[8] Alvear's counsel questioned Munzing about the fact that he never practiced medicine in Nevada; the fact that he has only testified as an expert for the government and has received millions of dollars in fees; about his testimony in other cases and if he had a prior working relationship with the case agents and whether he noted in a biography that it was his "secret goal" to lecture at the FBI Academy; the completeness and accuracy of his report for this case; and more. *Id.*

[9] The first witness was one of the co-case agents, FBI Special Agent Courtney Brooks. The second witness was Leo Basch. *See infra*, pg. 6.

testified that she went to Alvear to obtain "pain pills" and paid Alvear in cash for the pain pills. *Id.* at 23. CHS-1 further testified that Alvear charged $60 for an office visit, but she usually paid between $100 and $150 per visit. *Id.* She also testified that she texted Alvear throughout their relationship, up until 2020 when he ceased being her doctor. *Id.* at 25. CHS-1 explained what she did as a CHS for this investigation and what was going on during each of the undercover videos. *See generally id.* at 33–51.

Under cross-examination by Alvear's counsel, CHS-1 testified that she became a CHS for the FBI in 2018. *Id.* at 58. She further testified that Alvear became her doctor in 2016, initially seeing him to get pain pills to feed her addiction, but that at some point Alvear helped her "get clean[.]" *Id.* at 58–65. She also testified that she had a "friendly" relationship with Alvear, and that they would text each other, even prior to her working as a CHS. *Id.* at 64–65. CHS-1 testified that she suggested that Alvear give CHS-2 oxycodone, and Alvear gave her Xanax during the CHSs first meeting in Alvear's office. *Id.* at 67–68. She further testified that she got paid to work as a CHS in this case,[10] and that the FBI helped her with her immigration status. *Id.* at 70–72. CHS-1 was impeached about providing different dates of birth to Alvear and the FBI. *Id.* at 75–78.

Leo Basch, a pharmacist and employee of the Nevada State Board of Pharmacy, testified during the trial as an expert "in the distributing and dispensing of controlled substances and for the identification and use of controlled substances." *See id.* at 84–108; 117–137. Basch testified about Nevada's Prescription Monitoring Program (PMP), explaining that doctors, pharmacies, and pharmacists have access to the PMP database. I*d.* at 96–98. He further testified that the purpose behind the database is to "help practitioners and also pharmacies know if a patient has [ ] gotten a controlled substance from another practitioner or another pharmacy and help prevent overuse and – of opioids and other controlled substances, even benzodiazepines." *Id.* at 99. He also testified that practitioners are required to check the PMP database prior to issuing a patient a prescription for a controlled substance, and noted that in reviewing the undercover videos, it did

[10] Counsel asked if she was paid $3,000 for her work as a CHS, but she responded she could not recall how much she was paid. TT4, ECF No. 281 at 70.

not appear that Alvear checked the CHSs' PMP records before writing them opioid prescriptions. *Id.* at 124. Basch also testified that a "dispensing practitioner license" is required to dispense medication. *Id.* at 100. To be a dispensing practitioner, a doctor must apply for a license and renew it every two years. *Id.* at 100–01. He further testified about the requirements for dispensing and storing the medication, as well as labeling and documenting what is dispensed. *Id.* at 103–04. He testified that Alvear's license to dispense medication expired on October 21, 2018, and was not active in 2020—the time he was dispensing benzodiazepine pills to the CHSs. *Id.* at 106; *see also* Letter from Nevada Board of Pharmacy, admitted 11/15/2023, Govt.'s Ex. 23. Basch further testified about the "red flags" he saw in reviewing the undercover videos in this case and opined that the Xanax pills were improperly given out (noting that it would even qualify as being dispensed), and were not provided for a legitimate medical purpose. *Id.* at 121–22.

Basch was also cross-examined during the trial. *Id.* at 131–37. Alvear's counsel questioned Basch about (1) the PMP database and timeline of its creation/existence, (2) whether one purpose behind the PMP was preventing "doctor shopping," (3) overdose risk scores, and more. *Id.* At the conclusion of Basch's testimony, the Government rested its case-in-chief. *Id.* at 138. Thereafter, Alvear moved for a Federal Rule of Criminal Procedure 29(a) motion, which was denied. *Id.* at 139–141.

Alvear elected to present a defense case. First, Alvear called Leticia Cardenas, a woman who worked in Alvear's office performing administrative duties between 2009 and July of 2018. Trial Tr., Day 6 (TT6), ECF No. 284 at 40–41. Cardenas testified that one of her roles was maintaining and retrieving medical records. *Id.* at 41–42. She testified that she was a records custodian for the office's medical records and explained how records were created and then stored. *Id.* at 42–45. She further testified that she was responsible for giving intake forms to patients. *Id.* at 45. Through Cardenas, the defense moved in CHS-1's intake sheet from 2016, where she reported coming in to see Alvear for a UTI,[11] and other medical records. ECF No. 46–47; *see*

[11] "UTI" stands for Urinary Tract Infection.

also Def.'s Exs. 511–516 (admitted 11/27/23). Cardenas was asked about what year CHS-1 listed as her year of birth on her intake form. *Id.* at 48–49. She also testified that while working for Alvear, part of her job was to run the PMP on patients, and that at the time CHS-1 came in to see Alvear in 2016, she ran her PMP database but got no result. *Id.* at 55–56. The Government cross-examined Cardenas. *Id.* at 58–61. During cross-examination, Cardenas testified that CHS-1 paid $60 for her first office visit with Alvear in 2016. *Id.* at 60.

Alvear then called FBI Special Agent Zach Carey, who was the co-case agent, to testify. TT6, ECF No. 284 at 62–171. SA Carey testified about meetings with the U.S. Attorney's Office and preparing witnesses for trial. *Id.* at 62–77. He was questioned about what he could and could not recall about information included in an FBI 302[12] about CHS-1's pretrial interview. *Id.* He was further questioned about the items seized during a search warrant at Alvear's office and what he could remember about those items (including pill bottles from within Alvear's personal office). *Id.* at 78–85. During his testimony, SA Carey discussed assisting CHS-1 with her immigration status (*id* at 86, 96–97) and certain documentation regarding that assistance. *Id.* at 88–92, 95–97, 105–06, 136–37. SA Carey was also questioned about maintenance of CHS-1's file. *Id.* at 93–97. He further testified about guidelines and policies associated with how to handle CHSs, the vetting of CHSs, what may or may not qualify someone to work as a CHS, and what happened when the FBI learned CHS-1 had violated certain provisions of her CHS agreement. *Id.* at 100–03, 128–36. SA Carey was questioned about monitoring CHS-1 and her activities, as well as questions about CHS-1's source agreement, including the provision that discusses "otherwise illegal activity." *Id.* at 113–17, 140–41. SA Carey was also questioned about whether he was aware that CHS-1 was going to see Alvear without the FBI's authorization, and about paying CHS-1 for her work on this case. *Id.* at 118–126, 137–38. And SA Carey was asked whether he was "signalling" to CHS-1 during her testimony, to which he explained that he was reacting to what he believed was a

[12] "After FBI agents conduct a formal interview, they incorporate their handwritten notes into a more complete report of the interview on the FBI's Interview Report Form FD-302, known colloquially as a '302.'" *United States v. Lloyd*, 807 F.3d 1128, 1159 (9th Cir. 2015) (internal quotation marks, citation, and alterations omitted).

misrepresentation of the facts in a question posed to CHS-1 during her cross-examination, and that he had no intent to signal. *Id.* at 142–43.

During cross-examination, SA Carey testified about why the agency utilized CHSs instead of undercover agents for this investigation (*id.* at 149–50), what he did prior to and after sending the CHSs to Alvear's office, and his review of the recordings captured by the CHSs. *See generally id.* at 151–70.

Alvear also called CHS-1 in his case-in-chief. *Id.* at 172–99. During her testimony, CHS-1 testified what was going on during certain snippets of the undercover recordings. *Id.* at 173–75. She was questioned about whether she saw other doctors between March and September of 2020, and whether her memory was impacted by certain medication she was taking during the investigation into Alvear. *Id.* at 176–81. She was again questioned about her immigration status and about her struggle with addiction. *Id.* at 182. CHS-1 also testified about meeting the prosecutors for pretrial preparation (*id.* at 183–85) and whether she had a driver's license before working with the FBI as a CHS. *Id.* at 187.

The Government cross-examined CHS-1, asking about paying Alvear "cash tips" in exchange for opioids and what occurred during her visits with Alvear. *Id.* at 190–91. She also testified about what she was told during pretrial meetings with the prosecutors. *Id.* at 191.

CHS-1 was redirected by Alvear's counsel. During redirect, CHS-1 testified that she did not tell anyone at Alvear's office about her opioid addiction when she first began seeing him as a patient (*id.* at 198) and answered some additional questions about what occurred during some of her visits to Alvear's office. *See generally id.* at 193–97.

The last witness called by Alvear was former detective Timothy Beck. *Id.* at 199–251; Trial Tr. Day 7 (TT7) ECF No. 285 at 20–24. Beck testified about his law enforcement career, including his involvement in undercover investigations into medical practitioners, his experience handling and vetting CHSs, the challenges of utilizing CHSs who have a history of substance use disorders, entrapment, and the particular concerns of utilizing CHS-1 because of her prior

relationship with the target of an investigation, in this case, Alvear. *See generally* TT6 at 199–227. During his testimony, he was qualified to testify as an expert regarding the use of confidential human sources or informants and regarding undercover narcotics investigations. *Id.* at 228. Beck testified about his review of the evidence in this case and critiqued the FBI's handling of CHS-1 and the investigation. *Id.* at 229–39; 241–47. Beck stated that there is a risk of a target being "highly susceptible" to the influence of a CHS if they have a prior relationship (*id.* at 240) and testified that he would not have utilized CHS-1, especially after watching the video of CHS-1 and Alvear interacting in the first undercover video. *Id.* at 245–46. He also opined that it was not a good idea to utilize two CHSs at the same time. *Id.* at 246–47.

The Government cross-examined Beck. *Id.* at 248–54. During cross, Beck discussed that he had never used a CHS or an informant in any of the four cases about which he specifically testified during direct examination. *Id.* at 248–49. He was questioned about whether he was an FBI agent or if he had ever worked on an FBI Task Force, to which he responded no. *Id.* at 249–50. Beck was questioned about what he reviewed in preparation for his report and his testimony.[13] *Id.* at 251. Beck was also questioned about why he left a DEA Task Force he was previously assigned. *Id.* at 250.

Prior to the defense resting its case, Alvear was canvassed about whether he was going to testify at trial. TT6, ECF No. 284 at 271–73. Based on the advice of counsel, Alvear did not testify. *Id.* at 273. The defense rested its case on day seven of the trial. TT7, ECF No. 285 at 32.

The Government presented a rebuttal case. They called FBI language specialist Alfredo Brunet-Vera, who testified about translating certain text messages recovered from Alvear's cellphone. *See generally* TT7, ECF No. 285 at 33–37. Brunet-Vera was not cross-examined. The Government then recalled SA Brooks, who also testified about text messages seemingly

[13] There was a dispute regarding what had been reviewed and disclosed regarding Beck's testimony. This required the court to take an overnight break to resolve the dispute. *See id.* at 252–54; 256–70; TT7, ECF No. 285 at 6–13.

discussing Alvear providing prescription medication to other persons that were recovered from Alvear's cellphone. *Id.* at 44–50. SA Brooks was cross-examined. *Id.* at 48–50.

The Government then rested its case and jury instructions were finalized. One instruction provided to the jury was the entrapment instruction.[14] It read as follows:

> The defendant contends that he was entrapped by a Government agent. The Government has the burden of proving beyond a reasonable doubt that the defendant was not entrapped. The Government must prove either:
>
> 1. The defendant was predisposed to commit the crime before being contacted by Government agents; or
>
> 2. The defendant was not induced by the Government agents to commit the crime.
>
> When a person, independent of and before Government contact, is predisposed to commit the crime, it is not entrapment if the Government agents merely provide an opportunity to commit the crime.
>
> In determining whether the defendant was predisposed to commit the crime before being approached by Government agents, you may consider the following:
>
> First, whether the defendant demonstrated a reluctance to commit the crime;
>
> Second, the defendant's character and reputation;
>
> Third, whether the Government's agents initially suggested the criminal activity;
>
> Fourth, the nature of the Government's inducement or persuasion.
>
> In determining whether the defendant was induced by Government agents to commit the offense, you may consider any Government conduct creating a substantial risk that an otherwise innocent person would commit an offense including persuasion, fraudulent misrepresentations, threats, coercion tactics, harassment, promises of reward or pleas based on need, sympathy, or friendship.
>
> It is not entrapment if a person is tempted into committing a crime solely on the hope of obtaining ill-gotten gain. That is often the motive to commit a crime. However, in deciding whether a law enforcement agent induced the defendant to commit the crime, the jury may consider all of the factors that shed light on how the agent supposedly persuaded or pressured the defendant to commit the crime.

TT7, ECF No. 285 at 94–95; *see also* Jury Instructions, ECF No. 224 at 30–31.

After receiving all the instructions and hearing closing arguments from the parties, the jury was released to deliberate the case. Approximately three hours later, the jury returned a verdict of guilty on all counts. TT7, ECF No. 285 at 150–55; *see also* Verdict Form, ECF No. 261.

[14] The defense advised the government and the court it would be arguing entrapment in pre-trial filings (*see* Notice of Expert Testimony, ECF No. 99) and at calendar call (*see generally* Transcript from calendar call, ECF No. 237). The defense also requested an entrapment instruction be given. Joint Proposed Jury Instructions, ECF No. 224 at 30–31.

III. Legal Standard

A. Motion for judgment of acquittal

Federal Rule of Criminal Procedure 29 provides that "the court may set aside the verdict and enter an acquittal." Fed. R. Crim. P. 29(c). When evaluating a motion for judgment of acquittal the court "review[s] the evidence presented against the defendant in the light most favorable to the government to determine whether any rational trier of fact could have found the essential elements of the crime beyond a reasonable doubt." *United States v. Hernandez-Herrera*, 273 F.3d 1213, 1216 (9th Cir. 2001) (internal quotation marks and citation omitted). "[I]t is not the district court's function to determine witness credibility when ruling on a Rule 29 motion" (*United States v. Alarcon–Simi*, 300 F.3d 1172, 1176 (9th Cir. 2002)), that is within the exclusive function of the jury. *United States v. Rojas*, 554 F.2d 938, 943 (9th Cir. 1977). Rather, "after viewing the evidence in the light most favorable to the government," the relevant question is whether "any rational trier of fact could have found the essential elements of the crime beyond a reasonable doubt." *United States v. Cordova Barajas*, 360 F.3d 1037, 1040 (9th Cir. 2004) (quoting *Jackson v. Virginia*, 443 U.S. 307, 319 (1979)). If a rational trier of fact could find the essential elements of the crime(s) beyond a reasonable doubt, then motion must be denied. *United States v. Nevils*, 598 F.3d 1158, 1164 (9th Cir. 2010) (en banc).

Further, a Rule 29 motion for a new trial is "directed to the discretion of the district judge and should be granted only in exceptional cases in which the evidence preponderates heavily against the verdict." *U.S.A. v. Perez*, 2019 WL 4573488, at *2 (C.D. Cal. Sept. 19, 2019) (citing *Pimentel*, 654 F.2d at 545) (internal quotation marks removed).

B. Motion for a new trial

Federal Rule of Criminal Procedure 33 permits a district court to vacate any judgment and grant a new trial if the interest of justice so requires. Fed. R. Crim. P. 33(a). "A district court's power to grant a motion for a new trial is much broader than its power to grant a motion for judgment of acquittal," and the court may thus weigh the evidence itself and judge the credibility

of witnesses. *United States v. A. Lanoy Alston, D.M.D., P.C.*, 974 F.2d 1206, 1211 (9th Cir. 1992). However, Rule 33 motions are generally disfavored and should only be granted in "exceptional" cases. *United States v. Del Toro-Barboza*, 673 F.3d 1136, 1153 (9th Cir. 2012) (citing *United States v. Pimentel*, 654 F.2d 538, 545 (9th Cir. 1981)). The heavy burden of proving a new trial is warranted rests with the defendant. *See United States v. Halali*, 2017 WL 3232566, at *2 (N.D. Cal. July 28, 2017) (quoting *United States v. McCourty*, 562 F.3d 458, 475 (2d Cir. 2009)).

III. Discussion

Before deciding Alvear's motions on the merits, the court must address a concern. Both of Alvear's motions were filed by his new counsel—not his trial counsel[15]—without first obtaining a copy of the transcript. The transcripts (which remain under seal) were not released until January 29, 2024. *See* ECF Nos. 277–87. Both motions require consideration of the evidence and references to the evidence as an important component of the motions. While not a basis to deny either motion, the court addresses this issue as a reminder of counsel's need to fully comply with Local Rule 7-2(a) which mandates that "[a]ll motions—unless made during a hearing or trial—must be… supported by a memorandum of points and authorities." Without the benefit of the transcript, Alvear's motions are certainly lacking key points.

Turning to the merits of the motion for judgment of acquittal, Alvear's argument that there was no evidence that he "knowingly or intentionally prescribed controlled substances without evidence of medical necessity (or outside of the normal course of the doctor's practice)" is unconvincing. ECF No. 269 at 3. As established by the video evidence and the testimony of CHS-1, Alvear prescribed opioids in his personal office, in the presence of both CHSs, without conducting any sort of medical examination, obtaining past medical records, verifying the CHSs' purported medical ailments, or checking the PMP database, amongst other issues. Stated otherwise—he prescribed medication without evidence of medical necessity. Thus, in considering the trial evidence in the light most favorable to the Government, the record clearly establishes

[15] *See* Order granting motion to substitute counsel, ECF No. 266.

that any rational trier of fact could have found beyond a reasonable doubt that Alvear violated 21 U.S.C. § 841(a)(1) and (b)(1)(C) as alleged in counts 1–3 of the second superseding indictment. *See* Second Superseding Indictment, ECF No. 201 at 4.

Further, the Government introduced evidence that Alvear was not licensed to dispense medication during the relevant time period. There was no evidence to the contrary introduced. Consequently, in considering the lack of proper licensing together with the video evidence showing Alvear dispensing individual Xanax pills to the CHSs in the light most favorable to the Government, the record clearly establishes any rational trier of fact could have found beyond a reasonable doubt that Alvear violated 21 U.S.C. § 841(a)(1) and (b)(2) as set forth counts 4–6 of the second superseding indictment. *Id.* at 5.

Alvear's argument that the government failed to demonstrate that he was not entrapped is belied by the verdict itself. "[W]hether a defendant was entrapped is a question for the jury." *United States v. Jones*, 231 F.3d 508, 516 (9th Cir. 2000). To succeed on an entrapment defense as a matter of law defense, the defendant must persuade the court that "viewing the evidence in the light most favorable to the government, no reasonable jury could have found in favor of the government as to inducement or lack of predisposition." *United States v. Poehlman*, 217 F.3d 692, 698 (9th Cir. 2000). Alvear fails to meet this burden. At trial, Alvear's counsel argued entrapment in opening and closing statements. During both direct and cross-examinations of witnesses, Alvear's counsel presented evidence about text conversations, meetings, and alleged romantic interests between CHS-1 and Alvear. The parties disputed the relevance and that evidence, and argued their respective positions on whether or not it showed that Alvear was entrapped. Further, in the Government's rebuttal case, they provided evidence of Alvear's seeming predisposition to provide controlled substances to individuals who were not his patient, and seemingly without any sort of medical examination. The jury was provided the entrapment instruction, together with other jury instructions, and was therefore able to consider and weigh the various factual disputes and entrapment defense in reaching its verdict. That alone establishes Alvear was not entrapped as a

matter of law. The verdict also demonstrates that the jury rejected the argument that Alvear was not predisposed to commit the acts alleged in the second superseding indictment or it found that the Government did not induce him. The jury's verdict supports that finding that Alvear was not entrapped. Consequently, Alvear's motion for judgment of acquittal fails and I do not find this to be an exceptional case where the evidence preponderates heavily against the verdict. Rather, the evidence heavily supports the verdict.

Alvear's motion for a new trial fails for much of the same reasoning. In weighing the evidence (in particular, the video evidence) and the credibility of the witnesses (some of which is bolstered by the video evidence), I do not find that the interests of justice entitle Alvear to a new trial. The video evidence clearly shows Alvear's violations of the Title 21 offenses set forth in the second superseding indictment. The witness testimony and other evidence only aggravates what is depicted in the videos. Accordingly, Alvear fails to meet his burden demonstrating a new trial is warranted, much less that his case falls into the "exceptional" category under Rule 33. Thus, his motion for a new trial is denied.

IV. Conclusion

IT IS THEREFORE ORDERED that Alvear's motion for a judgment of acquittal **[ECF No. 269] is denied**.

IT IS FURTHER ORDERED that Alvear's motion for a new trial **[ECF No. 271] is denied**.

D. Respondent shall comply with all federal and state statutes and regulations regarding controlled substances and dangerous drugs, and have no additional charges filed against him while on probation.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **NEGAR SAFAVI, RPH,** **Certificate of Registration No. 18099,** **and,** **CVS PHARMACY # 6717,** **Pharmacy License No. PH01932,** **Respondents.**	**Case Nos. 20-133-PH-S** **20-133-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has personal jurisdiction over Respondent Negar Safavi ("Respondent Safavi"), because Respondent Safavi holds a certificate of registration issued by the Board pursuant to NRS 639.127, authorizing her to engage in the practice of pharmacy in the state of Nevada.

2. The Board has personal jurisdiction over Respondent CVS Pharmacy #6717 ("Respondent CVS"), because Respondent CVS holds a license issued by the Board pursuant to NRS 639.230, authorizing Respondent CVS to operate a pharmacy located at 60 N. Valle Verde Drive in Henderson, Nevada.

3. The Board has jurisdiction over the subject matter of this accusation because the violations alleged herein involve the practice of pharmacy at a pharmacy location operated by Respondent CVS in Henderson, Nevada.

FACTUAL ALLEGATIONS

4. In June 2020, Respondent Safavi was a registered pharmacist employed by Respondent CVS at its pharmacy on North Valle Verde Drive in Henderson, Nevada.

5. On or about June 24, 2020, while on duty at the pharmacy location on North Valle Verde Drive, Respondent Safavi dispensed, or caused to be dispensed to patient T.E., a total of 14 tablets of Oxycodone 10 mg.

6. The 14 tablets were dispensed pursuant to a prescription written by T.E.'s physician, who provided instructions for T.E. to take 1 tablet by mouth every 12 hours. Respondent CVS assigned prescription number 888727 to that order. A CVS pharmacist or pharmacy technician entered the relevant details about the prescription into the CVS computer system.

7. As of June 24, 2020, Respondent CVS had not previously filled a prescription for T.E. for Oxycodone. Accordingly, the CVS computer system alerted pharmacy staff that patient counseling was required by Nevada law before dispensing the drug.

8. T.E. unknowingly left the pharmacy with just 14 tablets even though T.E.'s physician had written the prescription for 56 tablets. When T.E. later discovered that she had not received the full supply of Oxycodone as prescribed by her physician, she complained to CVS pharmacy employees. T.E. later submitted a lengthy complaint to the Board in which she alleged, among other things, that someone had stolen her Oxycodone.

9. Respondent Safavi neglected to counsel T.E. before T.E. left the pharmacy on June 24, 2020, with 14 tablets instead of 56 tablets as prescribed.

10. Between June 24, 2020, and June 26, 2020, Respondent Safavi investigated T.E.'s complaints concerning the alleged theft of her Oxycodone. Having reviewed pharmacy records, Respondent Safavi determined that there had been no theft of T.E.'s Oxycodone. Respondent Safavi explained to T.E. and/or to T.E.'s physician that T.E. had received just 14 tablets, as opposed to 56 tablets, because T.E.'s insurance would not agree to pay for more than a 7-day supply.

11. T.E. insisted that her insurance would have paid for 56 tablets had pharmacy employees requested preauthorization to fill the full 28-day supply. Respondent Safavi and/or other CVS employees explained that the insurance company would not have processed a request for preauthorization until after she had received the initial 7-day supply. T.E. continued to demand a full 28-day supply of Oxycodone.

12. Between June 24, 2020, and 26, 2020, Respondent Safavi attempted to resolve T.E.'s complaints about having received a short supply of Oxycodone. Respondent Safavi states that she attempted to edit the entry in the CVS computer system for prescription number 88727, and to obtain preauthorization from T.E.'s insurance company. Ultimately, it was determined that T.E.'s insurance would not pay for a 28-day supply of Oxycodone.

13. According to Respondent Safavi, her edits to the data entry for prescription number 88727 were intended to reflect that the prescribed 28-day supply had been partially dispensed on June 24, 2020, and/or to reflect that T.E. would pay cash for the balance of the drug rather than use insurance.

14. Respondent Safavi states that she tried but was unable to edit the data entry for prescription number 88727 to reflect that the prescription had been partially and not fully dispensed. Consequently, the description of the prescribed drug, the dose, and the dosage remained in the system without amendment or modification.

15. Due to Respondent Safavi's edits and/or attempted edits as described above, the CVS computer system automatically prompted another CVS pharmacist, Todd Spears, to fill prescription number 88727 according to the prescription information that remained in the system. That information conformed to the prescription as originally written by T.E.'s physician, without any indication that the prescription had been partially dispensed on June 24, 2020.

16. On or about June 26, 2020, acting in reliance upon the information in the CVS computer system, Spears filled prescription number 88727 with a full 28-day supply of Oxycodone tablets. Spears placed the filled prescription in the pharmacy's waiting bin. Spears stated that he had not previously interacted with T.E. or been made aware of any issues with her prescription.

17. On or about July 24, 2020, T.E. picked up a full 28-day supply of Oxycodone tablets. According to T.E., a pharmacy employee handed her a bag without asking her to sign for the receipt of the contents or present photo identification. Respondent CVS was unable to produce a record of the July 24, 2020, transaction.

18. At no time between June 24, 2020, and July 24, 2020, did T.E.'s physician write her a second prescription for Oxycodone. According to Respondent Safavi, the CVS computer system did not generate a record of the transaction on July 24, 2020, because the system had already been programmed to reflect that prescription number 88727 was fully dispensed on June 24, 2020. As indicated above, Respondent Safavi was unable to modify or amend the applicable data entry.

19. As of October 16, 2020, Respondent CVS had not corrected pharmacy records to reflect that prescription number 88727 was only partially filled on June 24, 2020, and then filled a second time on July 24, 2020, with an excess number of Oxycodone 10 mg tablets.

APPLICABLE LAW

20. The Board may revoke or suspend the registration of any pharmacist who has been guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4). Likewise, the Board may revoke or suspend the registration of any pharmacist who has violated any provision of Nevada law relating to prescription drugs. NRS 639.210(12). In lieu of revoking or suspending a pharmacist's registration, the Board may impose fines as a disciplinary measure. NRS 639.255; NAC 639.955.

21. A pharmacist's conduct is deemed unprofessional if the pharmacist fails to strictly follow the instructions of the person writing, making, or ordering a prescription as to its filling or refilling. NAC 639.945(1)(d). Additionally, a pharmacist's conduct is deemed unprofessional if the pharmacist performs his or her duties in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

22. Unless otherwise provided by law, a pharmacist must verbally provide a patient or a person caring for the patient with information about each prescription drug or device dispensed to the

patient. Failure to provide appropriate counseling to the patient constitutes a violation of NRS 639.707(1). Pursuant to NRS 639.210(12), the Board may discipline a pharmacist who violates NRS 639.707(1).

23. Pursuant to NAC 639.910, a computerized system used by a pharmacy for recording information concerning prescriptions must be designed in such a manner that it provides a readily retrievable printed record of the information relating to a prescription or a patient which the pharmacy is required to maintain pursuant to state or federal law, including, without limitation, information relating to the original prescription or the refill or modification of that prescription.

24. Pursuant to NRS 639.230(5), NAC 639.702 and NAC 639.945(2), pharmacies, pharmacy managers, and/or pharmacists are responsible for the acts and omissions of the pharmacy workers under their supervision and/or in their employ.

COUNT ONE
Failure to Counsel
(Respondents Safavi and CVS)

25. On or about June 24, 2020, Respondent Safavi dispensed, or caused to be dispensed to patient T.E., a total of 14 tablets of Oxycodone 10 mg. This was 42 fewer tablets than what had been prescribed by T.E.'s physician.

26. Respondent Safavi neglected to counsel T.E. before T.E. left the pharmacy with 14 tablets of Oxycodone.

27. Had Respondent Safavi properly counseled T.E., she would have alerted T.E. to the discrepancy between the number of tablets dispensed versus the number of tablets prescribed. This, in turn, would have alerted Respondent Safavi to correct the entry in the CVS computer system before it ostensibly became irreversible.

28. Respondent Safavi's conduct as alleged above violated NRS 639.707(1). Further, Respondent's conduct as alleged above was negligent. Accordingly, Respondent Safavi is subject to discipline pursuant to NRS 629.210(4), NRS 639.210(12), and NAC 639.945(1)(i).

29. As the owner/operator of the pharmacy at which Respondent Safavi was employed, Respondent CVS is responsible for Respondent Safavi's conduct as alleged above. Accordingly, the Board may discipline Respondent CVS pursuant to NRS 639.230(5), NAC 639.702 and NAC 639.945(2).

COUNT TWO
Failure to Follow Physician's Instructions
(Respondents Safavi and CVS)

30. On or about June 24, 2020, Respondent Safavi dispensed, or caused to be dispensed to patient T.E., a total of 14 tablets of Oxycodone 10 mg. This was 42 fewer tablets than what had been prescribed by T.E.'s physician.

31. Respondent Safavi did not obtain T.E.'s consent, nor the consent of T.E.'s physician, to deviate from the instructions on the prescription.

32. Having failed to obtain consent to deviate from the instructions on the prescription, Respondent Safavi failed to strictly follow the instructions of the person writing, making, or ordering a prescription as to its filling or refilling.

33. Having failed to obtain consent to deviate from the instructions on the prescription, Respondent Safavi performed her duties in a negligent manner.

34. Respondent Safavi's negligent conduct as alleged above was unprofessional. Accordingly, Respondent Safavi is subject to discipline pursuant to NRS 639.210(4) and NAC 639.945(1)(d) and (i).

35. As the owner/operator of the pharmacy at which Respondent Safavi was employed, Respondent CVS is liable for Respondent Safavi's' negligent conduct as described above. Accordingly, the Board may discipline Respondent CVS pursuant to NRS 639.230(5) and NAC 639.945(2).

COUNT THREE
Failure to Follow Physician's Instructions
(Respondents Safavi and CVS)

36. On or about June 24, 2020, Respondent Safavi dispensed, or caused to be dispensed to patient T.E., a total of 14 tablets of Oxycodone 10 mg. This was 42 fewer tablets than what had been prescribed by T.E.'s physician.

37. Between June 24 and 26, 2020, Respondent Safavi attempted without success to edit pharmacy records to reflect that prescription number prescription number 88727 was partially and not fully dispensed on June 24, 2020. Although Respondent Safavi knew that her attempts to edit pharmacy records were unsuccessful, Respondent Safavi neglected to monitor the status of prescription number 88727.

38. As a result of Respondent Safavi's failure to monitor the status of prescription number 88727, another CVS pharmacist erroneously filled the prescription a second time by adding 56 Oxycodone tablets to the 14 tablets that had already been dispensed to T.E. This, in turn, caused Respondent CVS and/or its employees to dispense too many tablets to T.E, thus deviating from the instructions of the person writing, making, or ordering prescription number 88727 as to its filling or refilling.

39. Respondent Safavi's conduct as alleged above was negligent. Accordingly, she is subject to discipline for having engaged in unprofessional conduct. NRS 639.210(4); NAC 639.945(1)(d) and (i).

40. As the owner/operator of the pharmacy at which Respondent Safavi was employed, Respondent CVS is liable for Respondent Safavi's conduct as described above. Accordingly, the Board may discipline Respondent CVS pursuant to NRS 639.230(5) and NAC 639.945(2).

COUNT FOUR
Failure to Maintain Accurate Records
(Respondent CVS)

41. On or about June 24, 2020, Respondent Safavi dispensed, or caused to be dispensed to patient T.E., a total of 14 tablets of Oxycodone 10 mg. This was 42 fewer tablets than what had been prescribed by T.E.'s physician.

42. On information and belief, Respondent CVS designed its computer system in such a way as to make it difficult if not impossible for Respondent Safavi to correct the history and status of prescription number 88727 as it appeared in pharmacy records.

43. As of October 16, 2020, Respondent CVS had not corrected pharmacy records to reflect that prescription number 88727 was only partially filled on June 24, 2020, and then filled a second time on July 24, 2020, with an excess number of Oxycodone 10 mg tablets.

44. Acting by and through its officers, employees, consultants, and/or independent contractors, Respondent CVS designed a computerized system that was incapable of providing a readily retrievable printed record of relevant information relating to prescription number 88727. Through this conduct, Respondent CVS violated NAC 639.910.

45. Based on the foregoing, Respondent CVS may be disciplined pursuant to NRS 639.210(12).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Safavi and the pharmacy license of Respondent CVS.

Case Nos. 20-133-PH-S
20-133-RPH-S

NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has personal jurisdiction over Respondent Negar Safavi ("Respondent Safavi"), because Respondent Safavi holds a certificate of registration issued by the Board pursuant to NRS 639.127, authorizing her to engage in the practice of pharmacy in the state of Nevada.

2. The Board has personal jurisdiction over Respondent CVS Pharmacy #6717 ("Respondent CVS"), because Respondent CVS holds a license issued by the Board pursuant to NRS 639.230, authorizing Respondent CVS to operate a pharmacy located at 60 N. Valle Verde Drive in Henderson, Nevada.

3. The Board has jurisdiction over the subject matter of this accusation because the violations alleged herein involve the practice of pharmacy at a pharmacy location operated by Respondent CVS in Henderson, Nevada.

FACTUAL ALLEGATIONS

4. In June 2020, Respondent Safavi was a registered pharmacist employed by Respondent CVS at its pharmacy on North Valle Verde Drive in Henderson, Nevada.

5. On or about June 24, 2020, while on duty at the pharmacy location on North Valle Verde Drive, Respondent Safavi dispensed, or caused to be dispensed to patient T.E., a total of 14 tablets of Oxycodone 10 mg.

6. The 14 tablets were dispensed pursuant to a prescription written by T.E.'s physician, who provided instructions for T.E. to take 1 tablet by mouth every 12 hours. Respondent CVS assigned prescription number 888727 to that order. A CVS pharmacist or pharmacy technician entered the relevant details about the prescription into the CVS computer system.

7. As of June 24, 2020, Respondent CVS had not previously filled a prescription for T.E. for Oxycodone. Accordingly, the CVS computer system alerted pharmacy staff that patient counseling was required by Nevada law before dispensing the drug.

8. T.E. unknowingly left the pharmacy with just 14 tablets even though T.E.'s physician had written the prescription for 56 tablets. When T.E. later discovered that she had not received the full supply of Oxycodone as prescribed by her physician, she complained to CVS pharmacy employees. T.E. later submitted a lengthy complaint to the Board in which she alleged, among other things, that someone had stolen her Oxycodone.

9. Respondent Safavi neglected to counsel T.E. before T.E. left the pharmacy on June 24, 2020, with 14 tablets instead of 56 tablets as prescribed.

10. Between June 24, 2020, and June 26, 2020, Respondent Safavi investigated T.E.'s complaints concerning the alleged theft of her Oxycodone. Having reviewed pharmacy records, Respondent Safavi determined that there had been no theft of T.E.'s Oxycodone. Respondent Safavi explained to T.E. and/or to T.E.'s physician that T.E. had received just 14 tablets, as opposed to 56 tablets, because T.E.'s insurance would not agree to pay for more than a 7-day supply.

11. T.E. insisted that her insurance would have paid for 56 tablets had pharmacy employees requested preauthorization to fill the full 28-day supply. Respondent Safavi and/or other CVS employees explained that the insurance company would not have processed a request for preauthorization until after she had received the initial 7-day supply. T.E. continued to demand a full 28-day supply of Oxycodone.

12. Between June 24, 2020, and 26, 2020, Respondent Safavi attempted to resolve T.E.'s complaints about having received a short supply of Oxycodone. Respondent Safavi states that she attempted to edit the entry in the CVS computer system for prescription number 88727, and to obtain preauthorization from T.E.'s insurance company. Ultimately, it was determined that T.E.'s insurance would not pay for a 28-day supply of Oxycodone.

13. According to Respondent Safavi, her edits to the data entry for prescription number 88727 were intended to reflect that the prescribed 28-day supply had been partially dispensed on June 24, 2020, and/or to reflect that T.E. would pay cash for the balance of the drug rather than use insurance.

14. Respondent Safavi states that she tried but was unable to edit the data entry for prescription number 88727 to reflect that the prescription had been partially and not fully dispensed. Consequently, the description of the prescribed drug, the dose, and the dosage remained in the system without amendment or modification.

15. Due to Respondent Safavi's edits and/or attempted edits as described above, the CVS computer system automatically prompted another CVS pharmacist, Todd Spears, to fill prescription number 88727 according to the prescription information that remained in the system. That information conformed to the prescription as originally written by T.E.'s physician, without any indication that the prescription had been partially dispensed on June 24, 2020.

16. On or about June 26, 2020, acting in reliance upon the information in the CVS computer system, Spears filled prescription number 88727 with a full 28-day supply of Oxycodone tablets. Spears placed the filled prescription in the pharmacy's waiting bin. Spears stated that he had not previously interacted with T.E. or been made aware of any issues with her prescription.

17. On or about July 24, 2020, T.E. picked up a full 28-day supply of Oxycodone tablets. According to T.E., a pharmacy employee handed her a bag without asking her to sign for the receipt of the contents or present photo identification. Respondent CVS was unable to produce a record of the July 24, 2020, transaction.

18. At no time between June 24, 2020, and July 24, 2020, did T.E.'s physician write her a second prescription for Oxycodone. According to Respondent Safavi, the CVS computer system did not generate a record of the transaction on July 24, 2020, because the system had already been programmed to reflect that prescription number 88727 was fully dispensed on June 24, 2020. As indicated above, Respondent Safavi was unable to modify or amend the applicable data entry.

19. As of October 16, 2020, Respondent CVS had not corrected pharmacy records to reflect that prescription number 88727 was only partially filled on June 24, 2020, and then filled a second time on July 24, 2020, with an excess number of Oxycodone 10 mg tablets.

APPLICABLE LAW

20. The Board may revoke or suspend the registration of any pharmacist who has been guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4). Likewise, the Board may revoke or suspend the registration of any pharmacist who has violated any provision of Nevada law relating to prescription drugs. NRS 639.210(12). In lieu of revoking or suspending a pharmacist's registration, the Board may impose fines as a disciplinary measure. NRS 639.255; NAC 639.955.

21. A pharmacist's conduct is deemed unprofessional if the pharmacist fails to strictly follow the instructions of the person writing, making, or ordering a prescription as to its filling or refilling. NAC 639.945(1)(d). Additionally, a pharmacist's conduct is deemed unprofessional if the pharmacist performs his or her duties in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

22. Unless otherwise provided by law, a pharmacist must verbally provide a patient or a person caring for the patient with information about each prescription drug or device dispensed to the

patient. Failure to provide appropriate counseling to the patient constitutes a violation of NRS 639.707(1). Pursuant to NRS 639.210(12), the Board may discipline a pharmacist who violates NRS 639.707(1).

23. Pursuant to NAC 639.910, a computerized system used by a pharmacy for recording information concerning prescriptions must be designed in such a manner that it provides a readily retrievable printed record of the information relating to a prescription or a patient which the pharmacy is required to maintain pursuant to state or federal law, including, without limitation, information relating to the original prescription or the refill or modification of that prescription.

24. Pursuant to NRS 639.230(5), NAC 639.702 and NAC 639.945(2), pharmacies, pharmacy managers, and/or pharmacists are responsible for the acts and omissions of the pharmacy workers under their supervision and/or in their employ.

COUNT ONE
Failure to Counsel
(Respondents Safavi and CVS)

25. On or about June 24, 2020, Respondent Safavi dispensed, or caused to be dispensed to patient T.E., a total of 14 tablets of Oxycodone 10 mg. This was 42 fewer tablets than what had been prescribed by T.E.'s physician.

26. Respondent Safavi neglected to counsel T.E. before T.E. left the pharmacy with 14 tablets of Oxycodone.

27. Had Respondent Safavi properly counseled T.E., she would have alerted T.E. to the discrepancy between the number of tablets dispensed versus the number of tablets prescribed. This, in turn, would have alerted Respondent Safavi to correct the entry in the CVS computer system before it ostensibly became irreversible.

28. Respondent Safavi's conduct as alleged above violated NRS 639.707(1). Further, Respondent's conduct as alleged above was negligent. Accordingly, Respondent Safavi is subject to discipline pursuant to NRS 629.210(4), NRS 639.210(12), and NAC 639.945(1)(i).

29. As the owner/operator of the pharmacy at which Respondent Safavi was employed, Respondent CVS is responsible for Respondent Safavi's conduct as alleged above. Accordingly, the Board may discipline Respondent CVS pursuant to NRS 639.230(5), NAC 639.702 and NAC 639.945(2).

COUNT TWO
Failure to Follow Physician's Instructions
(Respondents Safavi and CVS)

30. On or about June 24, 2020, Respondent Safavi dispensed, or caused to be dispensed to patient T.E., a total of 14 tablets of Oxycodone 10 mg. This was 42 fewer tablets than what had been prescribed by T.E.'s physician.

31. Respondent Safavi did not obtain T.E.'s consent, nor the consent of T.E.'s physician, to deviate from the instructions on the prescription.

32. Having failed to obtain consent to deviate from the instructions on the prescription, Respondent Safavi failed to strictly follow the instructions of the person writing, making, or ordering a prescription as to its filling or refilling.

33. Having failed to obtain consent to deviate from the instructions on the prescription, Respondent Safavi performed her duties in a negligent manner.

34. Respondent Safavi's negligent conduct as alleged above was unprofessional. Accordingly, Respondent Safavi is subject to discipline pursuant to NRS 639.210(4) and NAC 639.945(1)(d) and (i).

35. As the owner/operator of the pharmacy at which Respondent Safavi was employed, Respondent CVS is liable for Respondent Safavi's' negligent conduct as described above. Accordingly, the Board may discipline Respondent CVS pursuant to NRS 639.230(5) and NAC 639.945(2).

COUNT THREE
Failure to Follow Physician's Instructions
(Respondents Safavi and CVS)

36. On or about June 24, 2020, Respondent Safavi dispensed, or caused to be dispensed to patient T.E., a total of 14 tablets of Oxycodone 10 mg. This was 42 fewer tablets than what had been prescribed by T.E.'s physician.

37. Between June 24 and 26, 2020, Respondent Safavi attempted without success to edit pharmacy records to reflect that prescription number prescription number 88727 was partially and not fully dispensed on June 24, 2020. Although Respondent Safavi knew that her attempts to edit pharmacy records were unsuccessful, Respondent Safavi neglected to monitor the status of prescription number 88727.

38. As a result of Respondent Safavi's failure to monitor the status of prescription number 88727, another CVS pharmacist erroneously filled the prescription a second time by adding 56 Oxycodone tablets to the 14 tablets that had already been dispensed to T.E. This, in turn, caused Respondent CVS and/or its employees to dispense too many tablets to T.E, thus deviating from the instructions of the person writing, making, or ordering prescription number 88727 as to its filling or refilling.

39. Respondent Safavi's conduct as alleged above was negligent. Accordingly, she is subject to discipline for having engaged in unprofessional conduct. NRS 639.210(4); NAC 639.945(1)(d) and (i).

42. On information and belief, Respondent CVS designed its computer system in such a way as to make it difficult if not impossible for Respondent Safavi to correct the history and status of prescription number 88727 as it appeared in pharmacy records.

43. As of October 16, 2020, Respondent CVS had not corrected pharmacy records to reflect that prescription number 88727 was only partially filled on June 24, 2020, and then filled a second time on July 24, 2020, with an excess number of Oxycodone 10 mg tablets.

44. Acting by and through its officers, employees, consultants, and/or independent contractors, Respondent CVS designed a computerized system that was incapable of providing a readily retrievable printed record of relevant information relating to prescription number 88727. Through this conduct, Respondent CVS violated NAC 639.910.

45. Based on the foregoing, Respondent CVS may be disciplined pursuant to NRS 639.210(12).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Safavi and the pharmacy license of Respondent CVS.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has personal jurisdiction over Respondent Ravi Ramanathan, M.D. ("Respondent") because Respondent holds a certificate of registration issued by the Board authorizing him to prescribe controlled substances in Nevada. Respondent holds certificate of registration no. CS14526, which was issued by the Board pursuant to NRS 453.226 and NRS 453.231

2. The Board has jurisdiction over the subject matter of the violations alleged herein because they involve the prescribing of controlled substances.

FACTUAL ALLEGATIONS

3. Respondent is a physician licensed by the Nevada State Board of Medical Examiners ("NSBME") to practice medicine in Nevada. During the time periods discussed herein, Respondent was a "practitioner" as that term is defined at NRS 453.126.

4. Since 2006, Respondent has held a certificate of registration to prescribe controlled substances in Nevada. Between August 2009 and November 2017, Respondent also held a certificate of registration to sell and/or directly dispense dangerous drugs and controlled substances to his patients.

5. Between January 1, 2015, and December 31, 2019, Respondent owned, operated, and/or participated in a medical practice known as Family Doctors of Green Valley ("FDGV"), located in Henderson, Nevada.

6. In 2015, Respondent traveled on one or more occasions to destinations outside of the United States. Although FDGV employed other practitioners at the time, Respondent was the only member of the practice who held a certificate of registration to sell and/or directly dispense dangerous to patients of FDGV. In Respondent's absence, and with Respondent's knowledge and consent, these other practitioners sold and/or dispensed dangerous drugs and/or controlled substances using Respondent's certificate of registration and/or credentials.

7. In 2019, the Board disciplined Respondent for the conduct described in paragraph 6 above. In 2022, the NSBME disciplined Respondent for the same conduct.

8. In 2018 and 2019, while the Board's disciplinary action was pending against him, Respondent traveled on two or more occasions to destinations outside of the United States. Respondent's overseas travel encompassed the periods from: 1) December 23, 2018, to December 30, 2018; and 2) July 7, 2019, to July 22, 2019.

9. Between December 23, 2018, and December 30, 2018, while Respondent was engaged in overseas travel as alleged above, eleven of Respondent's patients obtained controlled substances using prescriptions that were ostensibly written by Respondent during the same time frame. These included prescriptions for phentermine and diazepam, both Schedule IV controlled substances.

10. Between July 7, 2019, and July 22, 2019, while Respondent was engaged in overseas travel as alleged above, three of Respondent's patients obtained controlled substances using prescriptions that were ostensibly written by Respondent during the same time frame. These included prescriptions for phentermine, a Schedule IV controlled substance, dextroamphetamine-amphetamine, a Schedule II controlled substance, and hydrocodone-acetaminophen, also a Schedule II controlled substance.

11. Respondent authorized or directed one or more persons under his supervision or control to issue the prescriptions described in paragraphs 9 and 10 above. Respondent pre-signed prescription blanks for this purpose, leaving them with other FDGV employees and/or practitioners to fill out and issue in Respondent's absence.

APPLICABLE LAW

12. Every practitioner who prescribes controlled substances in Nevada must secure and maintain a certificate of registration issued by the Board. NRS 453.226(1)(a); NRS 453.231(3). NRS 453.232; NRS 453.553; NRS 453.5531.

13. The Board may revoke or suspend the registration of any practitioner who has violated, attempted to violate, assisted, or abetted in the violation of, or conspired to violate any of the provisions of NRS chapter 639 or any state or federal law or regulation relating to drugs, the manufacture or distribution of drugs, or the practice of pharmacy. BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **RAVI RAMANATHAN, M.D.,** **Certificate of Registration No. CS14526,** **Respondent.**	**Case No. 20-076-CS-S** **STIPULATION AND ORDER**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through counsel, Gregory L. Zunino, Esq., and Respondent Ravi Ramanathan. M.D. ("Respondent"), by and through counsel, John A. Hunt, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. The Board and Respondent agreed to delay the date for submitting a Notice of Answer and Defense as the parties pursued settlement negotiations.

4. Respondent acknowledges that he understands the terms of this Stipulation and Proposed Order ("Stipulation"), and that he has executed it knowingly and voluntarily.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, NRS Chapter 639, the Nevada Pharmacy Act, and NRS Chapter 453, the Nevada Uniform Controlled Substances Act.

6. Conditioned on the acceptance of this Stipulation by the Board, and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this

Stipulation, Respondent hereby freely and voluntarily waives his right to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

7. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in the Accusation. The parties agree that the offenses alleged in the Accusation relate to Respondent's issuance of pre-signed prescriptions in 2018 and 2019.

8. Respondent represents and warrants that Respondent's paramount concern was always to make sure his patients' health care needs were met in his absence, and that he established and maintained bona fide therapeutic relationships with the patients to whom prescriptions were issued in 2018 and 2019. Respondent now unequivocally acknowledges the pre-signing of the prescriptions in question was inappropriate and he takes full responsibility for his poor judgment.

9. Further, Respondent has provided reasonable assurances that since 2019, he has implemented appropriate remedial measures to ensure he will never issue pre-signed prescriptions in the future. Respondent's remedial measures can be corroborated by a review of Respondent's prescription monitoring profile during the time periods when he has been out of the county since July 22, 2019.

10. Now, therefore, to resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agrees to the imposition of the following penalties:

A. Respondent accepts the Stipulation as a public reprimand imposed pursuant to NRS 639.255(1)(e).

B. Respondent shall pay an administrative fine of **Five Thousand and No/100 Dollars ($5,000.00)**, payable by *cashier's check, certified check,* or *money order* written to the **"State of Nevada, Office of the Treasurer."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before June 30, 2024.

C. Respondent shall pay the sum of **One Thousand Five Hundred and 00/100 Dollars ($1,500.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the **"Nevada State Board of Pharmacy."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before June 30, 2024.

11. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 20-076-CS-S. However, Respondent understands and acknowledges that his failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

12. The Board's Senior General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on May 29, 2024, in Las Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear for the meeting.

13. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

14. If the Board rejects any part or all this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

15. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **RAVI RAMANATHAN, M.D.,** **Certificate of Registration No. CS14526,** **Respondent.**	**Case No. 20-076-CS-S** **STIPULATION AND ORDER**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through counsel, Gregory L. Zunino, Esq., and Respondent Ravi Ramanathan. M.D. ("Respondent"), by and through counsel, John A. Hunt, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. The Board and Respondent agreed to delay the date for submitting a Notice of Answer and Defense as the parties pursued settlement negotiations.

4. Respondent acknowledges that he understands the terms of this Stipulation and Proposed Order ("Stipulation"), and that he has executed it knowingly and voluntarily.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, NRS Chapter 639, the Nevada Pharmacy Act, and NRS Chapter 453, the Nevada Uniform Controlled Substances Act.

6. Conditioned on the acceptance of this Stipulation by the Board, and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this

Stipulation, Respondent hereby freely and voluntarily waives his right to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

7. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in the Accusation. The parties agree that the offenses alleged in the Accusation relate to Respondent's issuance of pre-signed prescriptions in 2018 and 2019.

8. Respondent represents and warrants that Respondent's paramount concern was always to make sure his patients' health care needs were met in his absence, and that he established and maintained bona fide therapeutic relationships with the patients to whom prescriptions were issued in 2018 and 2019. Respondent now unequivocally acknowledges the pre-signing of the prescriptions in question was inappropriate and he takes full responsibility for his poor judgment.

9. Further, Respondent has provided reasonable assurances that since 2019, he has implemented appropriate remedial measures to ensure he will never issue pre-signed prescriptions in the future. Respondent's remedial measures can be corroborated by a review of Respondent's prescription monitoring profile during the time periods when he has been out of the county since July 22, 2019.

10. Now, therefore, to resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agrees to the imposition of the following penalties:

A. Respondent accepts the Stipulation as a public reprimand imposed pursuant to NRS 639.255(1)(e).

B. Respondent shall pay an administrative fine of **Five Thousand and No/100 Dollars ($5,000.00)**, payable by *cashier's check, certified check,* or *money order* written to the **"State of Nevada, Office of the Treasurer."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before June 30, 2024.

C. Respondent shall pay the sum of **One Thousand Five Hundred and 00/100 Dollars ($1,500.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the **"Nevada State Board of Pharmacy."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before June 30, 2024.

11. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 20-076-CS-S. However, Respondent understands and acknowledges that his failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

12. The Board's Senior General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on May 29, 2024, in Las Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear for the meeting.

13. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

14. If the Board rejects any part or all this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

15. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation

on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the effective date of this Order.

AGREED:

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **GEORGE JAMES MAIORANO, PT,** **Certificate of Registration No. PT18868,** **Respondent.**	**Case No. 21-207-PT-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy hereby files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and/or NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has personal jurisdiction over Respondent George James Maiorano ("Maiorano"), because at the time of the events alleged herein, Respondent Maiorano held Pharmaceutical Technician Registration No. PT18868, issued by the Board, pursuant to NRS 639.170, on January 31, 2018, which authorized Respondent Maiorano to engage in the limited practice of pharmacy within the State of Nevada, as specified by NRS 639.1371(3)(c) and the regulations adopted thereunder.

2. The Board has subject matter jurisdiction over this matter because at the time of the events alleged herein Respondent Maiorano was engaged in the practice of pharmacy as a pharmaceutical technician at Precision Specialty Pharmacy Corp. which dispensed dangerous drugs and controlled substances to Nevada patients.

FACTUAL ALLEGATIONS

3. On or about December 9, 2021, the Board conducted its annual inspection of Precision Specialty Pharmacy Corp. ("Precision Pharmacy") located at 2775 S. Jones Blvd., Suite 100A, Las Vegas, Nevada 89146. During the inspection it was discovered that Respondent Maiorano, who was an owner of Precision Pharmacy, was in possession of a pharmacy key.

4. In an emailed statement dated April 4, 2022, that was provided to the Board's investigator, Respondent Maiorano stated that he only had possession of a key to Precision Pharmacy during staffing changes involving Precision Pharmacy's managing pharmacists on October 21, 2021, October 25-26, 2021, and October 28, 2021 through November 1, 2021.

5. In July of 2019, Respondent Maiorano had possession of a key to the pharmacy.

6. Respondent Maiorano knew the combination to the safe where the pharmacy keys were kept at various times, including but not limited to October 21, 2021, October 25-26, 2021, and October 28, 2021 through November 1, 2021.

APPLICABLE LAW

7. The registered pharmacist on duty shall maintain possession of the key to the prescription department. Any additional keys to the prescription department must be kept in a locked box which is accessible only to licensed pharmacists and maintained to prevent access by unauthorized persons. NAC 639.520(2).

8. The Board may suspend or revoke any certificate, license, registration, or permit, pursuant to NRS 639.210(4), upon a finding that the holder or an owner of a business or an entity licensed by the Board performed their duties in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

9. The Board may suspend or revoke any certificate, license, registration, or permit, pursuant to NRS 639.210(4), upon a finding that the holder or an owner of a business or an entity licensed by the Board performed any act, task, or operation for which, licensure, certification or registration is required without the required license, certificate, or registration. NAC 639.945(1)(k).

10. The Board may suspend or revoke any certificate, license, registration, or permit, pursuant to NRS 639.210(9), upon a finding that the holder or an owner of a business or an entity licensed by the Board willfully made to the Board or its authorized representative a false statement

which is material to the administration or enforcement of any of the provisions of NRS or NAC Chapter 639.

11. Any violation of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy under the supervision of the managing pharmacist is cause for suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5).

12. The owner of any business or facility licensed, certified, or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

13. The owner of a pharmacy, the managing pharmacist of the pharmacy and the registered pharmacist on duty are responsible for the acts and omissions of pharmaceutical technicians and other personnel who are not pharmacists working in or for the pharmacy, including, but not limited to, any errors committed or unauthorized work performed by such personnel, if the owner, managing pharmacist or registered pharmacist knew or reasonably should have known of the act or omission. NAC 639.702.

14. The Board may impose a fine upon the holder of a certificate, license, or permit issued by the Board for up to $10,000.00 for each violation. NRS 639.255(3).

COUNT ONE

Unprofessional Conduct – Incompetent, Unskillful, or Negligent Conduct and Unauthorized Acts (Respondent Maiorano)

15. By possessing the keys to Precision Pharmacy and/or knowledge of the combination to the pharmacy safe without holding a Pharmacist Certificate, Respondent Maiorano violated NAC 639.520(2), which constitutes unprofessional conduct and/or incompetent, unskillful, or negligent conduct contrary to the public interest pursuant to NRS 639.210(4) as further defined by NAC 639.945(1)(i).

\\\

\\\

\\\

16. By possessing the keys to Precision Pharmacy and/or knowledge of the combination to the pharmacy safe without holding a Pharmacist Certificate, Respondent Maiorano violated NAC 639.520(2), which constitutes unprofessional conduct and acts in excess of the limited scope of practice of pharmacy authorized by a pharmaceutical technician registration pursuant to NRS 639.210(4) as further defined by NAC 639.945(1)(k). Respondent Maiorano is therefore subject to discipline pursuant to NRS 639.210(4); NRS 639.255(3).

17. As an owner of Precision Pharmacy, Respondent Maiorano is responsible for the conduct of its employees pursuant to NRS 639.230(5), NAC 639.702, and NAC 639.945(2). Respondent Maiorano is also therefore subject to discipline pursuant to NRS 639.210(4) and/or NRS 639.255(3).

COUNT TWO
Willful False Statement to Board Investigator
(Respondent Maiorano)

18. Respondent Maiorano's April 7, 2022, emailed statement contained a willfully false statement to the Board's investigator that he only had possession of keys to Precision Pharmacy between October 21, 2021 and November 1, 2021. Therefore, Respondent Maiorano violated NRS 639.210(9), and is subject to discipline thereto and pursuant to NRS 639.255(3).

19. As an owner of Precision Pharmacy, Respondent Maiorano is responsible for the conduct of its employees pursuant to NRS 639.230(5), NAC 639.702, and NAC 639.945(2). Respondent Maiorano is also therefore subject to discipline pursuant to NRS 639.210(4) and/or NRS 639.255(3).

WHEREFORE, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the pharmacy license of this Respondent Maiorano.

Signed this 9th day of January 2024.

Nevada State Board of Pharmacy

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has personal jurisdiction over Respondent DVH Hospital Alliance, LLC ("Respondent DVH"), because Respondent DVH is licensed by the Board to dispense dangerous drugs and controlled substances in Nevada. Respondent DVH holds pharmacy license number PH02587.

2. The Board has personal jurisdiction over Respondent Elliott Asarch ("Respondent Asarch") because Respondent Asarch is a registered pharmacist authorized by the Board to dispense dangerous drugs and controlled substances in Nevada. Respondent Asarch holds certificate of registration no. 19265.

3. The Board has personal jurisdiction over Respondent Matthew Huntington ("Respondent Huntington") because Respondent Huntington is a registered pharmacist authorized by the Board to dispense dangerous drugs and controlled substances in Nevada. Respondent Huntington holds certificate of registration no. 18203.

4. The Board has personal jurisdiction over Respondent Marissa Crain ("PT Crain") because PT Crain was formerly registered by the Board to work as a pharmacy technician. The allegations below relate to PT Crain's employment as a pharmacy technician between December 2019 and February 2022. PT Crain held certificate of registration no. PT14524, which expired on October 31, 2022.

5. The Board has jurisdiction over the subject matter of this accusation because it alleges violations pertaining to the possession, control, and distribution of dangerous drugs and controlled substances.

FACTUAL ALLEGATIONS

6. At all times relevant to this accusation, Respondent DVH operated a pharmacy within the Desert View Hospital ("DVH Hospital"), located at 360 South Lola Lane in Pahrump, Nevada.

7. Between October 28, 2019, and February 18, 2022, Respondent DVH employed PT Crain as a pharmacy technician.

8. During her employment with Respondent DVH, PT Crain stole a large quantity of controlled substances. The stolen items included at least 3,243 tablets of hydrocodone, oxycodone, and alprazolam, 103 vials of fentanyl, 218 vials of morphine, and 50 vials of lorazepam, meperidine, and midazolam.

9. In February 2022, PT Crain admitted to stealing controlled substances from DVH Hospital. Respondent DVH thereafter terminated PT Crain's employment at DVH Hospital. In September 2022, PT Crain pleaded guilty to felony charges of unlawful possession of a controlled substance and embezzlement.

10. Between November 13, 2020, and October 5, 2021, Respondent DVH employed Respondent Asarch as its managing pharmacist. During this time frame, while under Respondent Asarch's direct or indirect supervision, PT Crain stole a large percentage of the controlled substances described in paragraph 8 above.

11. Between October 6, 2021, and February 18, 2022, Respondent DVH employed Respondent Huntington as its managing pharmacist. During this time frame, while under Respondent Huntington's direct or indirect supervision, PT Crain stole a large percentage of the controlled substances described in paragraph 8 above.

12. At all times relevant to this accusation, Respondent DVH owned or leased a Pyxis automated medication dispensing system. Respondent DVH used the Pyxis system to store and dispense dangerous drugs and controlled substances.

13. The Pyxis system consisted of a Pyxis CII safe, which was located in the pharmacy of the DVH Hospital. The Pyxis system also consisted of Pyxis MedStations, which were located at different places outside the pharmacy but inside the DVH Hospital where designated medical practitioners had access to them.

14. The Pyxis CII safe served as the central vault for storing dangerous drugs and controlled substances in the hospital pharmacy. The Pyxis MedStations served as automated dispensing devices from which medical practitioners removed dangerous drugs and controlled substances for administering to patients of the DVH Hospital.

15. The Pyxis system is equipped with digital technology that tracks dangerous drugs and controlled substances when they are removed from the Pyxis CII safe and then transferred to the Pyxis MedStations. The system also tracks removals from and/or deposits to the Pyxis MedStations. The Pyxis system is capable of generating a report that identifies in real time all such transactions involving dangerous drugs and controlled substances. If used properly, the Pyxis system provides the means by which a hospital pharmacy can maintain a perpetual inventory of controlled substances.

16. During her employment at DVH Hospital, PT Crain was responsible for restocking the Pyxis MedStations. This required her to remove dangerous drugs and controlled substances from the Pyxis CII safe and then transport them to the Pyxis MedStations.

17. While performing her restocking duties, PT Crain frequently worked without supervision. PT Crain was rarely if ever accompanied by another hospital employee when she removed inventory from the Pyxis CII safe and/or transported it to the Pyxis MedStations.

18. While performing her restocking duties, PT Crain often pretended to restock the Pyxis MedStations with inventory removed from the Pyxis CII safe. In fact, PT Crain stole much of the inventory that she removed from the Pyxis CII safe, never transferring it to the Pyxis MedStations and/or never returning it to the Pyxis CII safe.

19. During his tenure as managing pharmacist at DVH Hospital, Respondent Asarch neglected to familiarize himself with the Pyxis technology described in paragraph 15 above. As a result, Respondent DVH did not maintain an automated inventory system for tracking dangerous drugs and controlled substances. Respondent DVH manually tracked its inventory of dangerous drugs and controlled substances. Working without supervision, PT Crain easily falsified these records of inventory.

20. During his tenure as managing pharmacist at DVH Hospital, Respondent Huntington neglected to familiarize himself with the Pyxis technology described in paragraph 15 above. As a result, Respondent DVH did not maintain an automated inventory system for tracking dangerous drugs and controlled substances. Instead, Respondent DVH manually tracked its inventory of dangerous drugs and controlled substances. Working without supervision, PT Crain easily falsified these records of inventory.

21. In February 2022, Board Inspector Luis Curras met with Respondent Huntington to discuss some deficiencies that were noted during a previous inspection of the hospital pharmacy. During that meeting, Inspector Curras explained the technology described in paragraph 15 above. Respondent Huntington thereafter generated a report using the technology. Based on the report,

Respondent Huntington determined that PT Crain had been stealing controlled substances from the Pyxis CII safe.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has personal jurisdiction over Respondent Maurice Vargas, D.D.S. (Respondent), because the violations alleged herein, weigh on Respondent's character to hold a certificate of registration issued by the Board pursuant to NRS 453.226, authorizing Respondent to write prescriptions for controlled substances. Since August 31, 2007, Respondent has held certificate of registration no. CS15506, allowing Respondent to prescribe controlled substances issued by the Board pursuant to NRS 453.226.

2. The Board has jurisdiction over the subject matter of this accusation because the alleged violations involve the dispensing of poisons, drugs, chemicals and medicines. NRS 639.070.

FACTUAL ALLEGATIONS

3. Respondent is a dentist who practices at North Vegas Dental, located at 1631 W. Craig Rd., North Las Vegas, NV 89032.

4. Respondent has been registered by the Board to prescribe controlled substances since August 31, 2007. NRS 453.226. Such a registration authorizes the holder to write prescriptions for controlled substances. NRS 453.226.

5. A requirement of possessing a controlled substance registration with the Board is to maintain and actively use a prescription monitoring program (PMP) account. NRS 453.162.

6. Respondent's PMP account was activated on or about June 29, 2015.

7. Board PMP Compliance Coordinator Dave Jones conducts audits of practitioners to ensure that they are compliant with state law related to the PMP. The audits are conducted to ensure compliance with NRS 453.164(7) and NRS 639.23507.

8. Board PMP Compliance Coordinator Jones conducted an audit of Respondent's PMP account.

9. Board PMP Compliance Coordinator Jones found that Respondent conducted a "MyRx" review of all the prescriptions Respondent had written as required by NRS 453.164(7) on the following dates: June 26, 2023, May 17, 2023, June 13, 2022, February 21, 2022, June 14, 2021, June 18, 2019, June 29, 2017, and June 29, 2015.

10. Respondent was not in compliance for the entire calendar years of 2016, 2018, and 2020.

11. Additionally, Respondent was not in compliance for part of the calendar years of 2017, 2019, and 2021.

12. Board PMP Compliance Coordinator Jones also found that Respondent conducted individual patient queries a grand total of nine (9) times as required by NRS 639.23507, despite writing over 890 prescriptions for 651 unique patients during that period.

13. This means that Respondent failed to conduct individual patient inquires at least over 640 times during this period.

APPLICABLE LAW

14. Each practitioner who is authorized to write prescriptions for human consumption of controlled substances listed in schedule II, III, IV or V shall access the database of the (PMP) program at least once every 6 months to review the information concerning the practitioner that is listed in the database, including, without limitation, information concerning prescriptions issued by the practitioner, and notify the Board if any such information is not correct, and to verify to the Board that he or she

continues to have access to and has accessed the database as required by this subsection. NRS 453.164(7).

15. A practitioner shall, before issuing an initial prescription for a controlled substance listed in schedule II, III or IV or an opioid that is a controlled substance listed in schedule V and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, obtain a patient utilization report regarding the patient from the computerized program established by the Board. NRS 639.23507.

16. The Board may suspend or revoke any registration if the holder or applicant is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

17. Unprofessional conduct includes, "performing any duties as the holder of a license issued by the Board in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

18. In lieu of a suspension or revocation, the Board may impose a fine of up to $10,000 for each violation committed. NRS 639.255(1)(f) and (3).

COUNT ONE

Unprofessional Conduct – Failure to Query PMP Every 6 Months

19. Respondent established his PMP account on June 29, 2015. Between these dates, Respondent failed to review his PMP account every six (6) months for the entire calendar years of 2016, 2018, and 2020 to ensure that the information in the account concerning the practitioner, including the legitimacy or validity of the prescriptions Respondent is shown as having written was correct. Respondent also failed to do this for part of the calendar years of 2017, 2019, and 2021. Respondent was and is still required to do so every six (6) months. NRS 453.164(7).

20. Because of these actions, Respondent has engaged in unprofessional conduct. NRS 639.210(4). Respondent engaged in unprofessional conduct because Respondent, as the holder of a certificate of registration issued by the Board, performed his duties in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

21. Respondent performed his duties as the holder of a certificate of registration issued by the Board in an incompetent, unskillful or negligent manner because Respondent failed to query his PMP account every six (6) months to review the information in the account regarding the practitioner as is required by law. *See* NRS 453.164(7) and NAC 639.945(1)(i). The information regarding the practitioner that Respondent was and still is required to look at includes information concerning the prescriptions written by the practitioner. *See* NRS 453.164(7). A check of the PMP account at least once every six (6) months ensures that a practitioner has not had their credentials stolen or duplicated and that, if they have been stolen or duplicated, the Board is notified of any potentially forged prescriptions by the practitioner in a timely manner. *See* NRS 453.164(7). The required six (6) month check of a practitioner's PMP account guards against forged controlled substance prescriptions and allows practitioners to work with the Board to stop them in real time. *See* NRS 453.164(7).

22. Having engaged in unprofessional conduct as alleged above, Respondent is subject to discipline by the Board. NRS 639.210(4); NRS 639.255; NAC 639.945.

COUNT TWO

Unprofessional Conduct – Failure to Query Patients Prior to Issuing an Initial Prescription for a Controlled Substance

23. Between the period of time from January 1, 2018, to September 18, 2023, Respondent only queried individual patients given unique prescriptions nine (9) times. During the same period, Respondent wrote over 890 prescriptions for over 650 unique patients. Respondent failed to query the PMP regarding individual patient information when prescribing them controlled substances over 640 times.

24. Because of these actions, Respondent has engaged in unprofessional conduct. NRS 639.210(4). Respondent engaged in unprofessional conduct because Respondent, as the holder of a certificate of registration issued by the Board, performed his duties in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

25. Respondent performed his duties as the holder of a certificate of registration issued by the Board in an incompetent, unskillful or negligent manner because Respondent failed to conduct patient queries on over 640 patients given initial prescriptions for controlled substances in schedule I-IV, or for an opioid that is a controlled substance and listed in schedule V. *See* NRS 639.23507 and NAC 639.945(1)(i). Respondent failed to query over 640 patients that should have been queried as PMP records reflect that Respondent only queried nine patients since Respondent's PMP account has been active. *See* NRS 639.23507.

26. Having engaged in unprofessional conduct as alleged above, Respondent is subject to discipline by the Board. NRS 639.210(4); NRS 639.255; NAC 639.945.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this respondent.

DATED this 25th day of January 2024.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **MICHAEL STELLMACHER, PA,** **Certificate of Registration Nos. CS21884,** **Respondent.**	**CASE NO. 23-260-CS-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has personal jurisdiction over Respondent Michael Stellmacher, P.A. (Respondent), because the violations alleged herein, weigh on Respondent's character to hold a certificate of registration issued by the Board pursuant to NRS 453.226, authorizing Respondent to write prescriptions for controlled substances. Since May 1, 2014, Respondent has held certificate of registration no. CS21884.

2. The Board has jurisdiction over the subject matter of this accusation because the alleged violations involve the dispensing of poisons, drugs, chemicals and medicines. NRS 639.070.

FACTUAL ALLEGATIONS

3. Respondent has been licensed by the Board to prescribe controlled substances since May 1, 2014. NRS 453.226. Such a license authorizes the holder to write prescriptions for controlled substances. NRS 453.226.

4. A requirement of possessing a controlled substance registration with the Board is to maintain and actively use a prescription monitoring program (PMP) account. NRS 453.162.

5. Respondent's PMP account was activated on or about May 25, 2015.

6. Board PMP Compliance Coordinator Dave Jones (Ret.) conducted audits of practitioners to ensure that they are compliant with state law related to the PMP. The audits are conducted to ensure compliance with NRS 453.164(7) and NRS 639.23507.

7. Board PMP Compliance Coordinator Jones conducted an audit of Respondent's PMP account.

8. Board PMP Compliance Coordinator Jones found that Respondent never conducted a "MyRx" review of all the prescriptions Respondent had written as required by NRS 453.164(7) prior to December 27, 2022.

9. Respondent was not in compliance for the entire calendar years of 2015, 2016, 2017, 2018, 2019, 2020, and 2021.

10. During this period, Respondent wrote at least 4,693 prescriptions for at least 1,809 unique patients.

11. Board PMP Compliance Coordinator Jones also found that Respondent failed to conduct individual patient queries as required by NRS 639.23507 for the period from October 1, 2018, to September 14, 2022.

12. Again, during this period, Respondent wrote at least 4,693 prescriptions for at least 1,809 unique patients.

APPLICABLE LAW

13. Each practitioner who is authorized to write prescriptions for human consumption of controlled substances listed in schedule II, III, IV or V shall access the database of the (PMP) program at least once every 6 months to review the information concerning the practitioner that is listed in the database, including, without limitation, information concerning prescriptions issued by the practitioner, and notify the Board if any such information is not correct, and to verify to the Board that he or she continues to have access to and has accessed the database as required by this subsection. NRS 453.164(7).

14. A practitioner shall, before issuing an initial prescription for a controlled substance listed in schedule II, III or IV or an opioid that is a controlled substance listed in schedule V and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, obtain a patient utilization report regarding the patient from the computerized program established by the Board. NRS 639.23507.

15. The Board may suspend or revoke any registration if the holder or applicant is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

16. Unprofessional conduct includes, "performing any duties as the holder of a license issued by the Board in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

17. In lieu of a suspension or revocation, the Board may impose a fine of up to $10,000 for each violation committed. NRS 639.255(1)(f) and (3).

COUNT ONE

Unprofessional Conduct – Failure to Query PMP Every 6 Months

18. Respondent established his PMP account on May 25, 2015. Between the period of time from May 25, 2015, to December 27, 2022, Respondent never reviewed his PMP account to ensure that the information in the account concerning the practitioner, including the legitimacy or validity of the prescriptions Respondent is shown as having written was correct. Respondent was and is still required to do so every six (6) months. NRS 453.164(7).

19. Because of these actions, Respondent has engaged in unprofessional conduct. NRS 639.210(4). Respondent engaged in unprofessional conduct because Respondent, as the holder of a certificate of registration issued by the Board, performed his duties in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

20. Respondent performed his duties as the holder of a certificate of registration issued by the Board in an incompetent, unskillful or negligent manner because Respondent failed to query his PMP account every six (6) months to review the information in the account regarding the practitioner

as is required by law. *See* NRS 453.164(7) and NAC 639.945(1)(i). The information regarding the practitioner that Respondent was and still is required to look at includes information concerning the prescriptions written by the practitioner. *See* NRS 453.164(7). A check of the PMP account at least once every six (6) months ensures that a practitioner has not had their credentials stolen or duplicated and that, if they have been stolen or duplicated, the Board is notified of any potentially forged prescriptions by the practitioner in a timely manner. *See* NRS 453.164(7). The required six (6) month check of a practitioner's PMP account guards against forged controlled substance prescriptions and allows practitioners to work with the Board to stop them in real time. *See* NRS 453.164(7).

21. Having engaged in unprofessional conduct as alleged above, Respondent is subject to discipline by the Board. NRS 639.210(4); NRS 639.255; NAC 639.945.

COUNT TWO

Unprofessional Conduct – Failure to Query Patients Prior to Issuing an Initial Prescription and/or for a Controlled Substance

22. Respondent established his PMP account on May 25, 2015. Between the period from October 1, 2018, to December 27, 2022, Respondent never conducted an individual patient PMP query. Practitioners are required to do so pursuant to NRS 639.23507 on every new prescription and/or at least once every 90 days after an initial prescription for the duration of the course of treatment using the controlled substance.

23. Because of these actions, Respondent has engaged in unprofessional conduct. NRS 639.210(4). Respondent engaged in unprofessional conduct because Respondent, as the holder of a certificate of registration issued by the Board, performed his duties in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

24. Respondent performed his duties as the holder of a certificate of registration issued by the Board in an incompetent, unskillful or negligent manner because Respondent failed to conduct patient queries on over 1,809 patients given initial prescriptions for controlled substances in schedule I-IV, or for an opioid that is a controlled substance and listed in schedule V. *See* NRS 639.23507 and

NAC 639.945(1)(i). Respondent failed to query over 1,809 patients that should have been queried as PMP records reflect that Respondent did not query any patients between October 1, 2018, and September 14, 2022. *See* NRS 639.23507.

25. Having engaged in unprofessional conduct as alleged above, Respondent is subject to discipline by the Board. NRS 639.210(4); NRS 639.255; NAC 639.945.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this respondent.

DATED this 27th day of FEBRUARY 2024.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **JOSHUA HAMILTON, APRN,** **Certificate of Registration No. CS17584,** **Respondent.**	**Case No. 23-335-CS-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has personal jurisdiction over Respondent Joshua Hamilton, APRN (Respondent Hamilton), because the violations alleged herein, weigh on Respondent's character to hold a certificate of registration issued by the Board pursuant to NRS 453.226, authorizing Respondent to write prescriptions for controlled substances. Since October 27, 2008, Respondent has held certificate of registration no. CS17584, allowing Respondent to prescribe controlled substances issued by the Board pursuant to NRS 453.226.

2. The Board has jurisdiction over the subject matter of this accusation because the alleged violations involve the dispensing of poisons, drugs, chemicals and medicines. NRS 639.070.

FACTUAL ALLEGATIONS

3. Respondent has been registered by the Board to prescribe controlled substances since October 27, 2008. NRS 453.226. Such a registration authorizes the holder to write prescriptions for controlled substances. NRS 453.226.

4. A requirement of possessing a controlled substance registration with the Board is to maintain and actively use a prescription monitoring program (PMP) account. NRS 453.162.

5. Respondent's PMP account was activated on or about September 21, 2016.

6. Board PMP Compliance Coordinator Dave Jones conducts audits of practitioners to ensure that they are compliant with state law related to the PMP. The audits are conducted to ensure compliance with NRS 453.164(7) and NRS 639.23507.

7. Board PMP Compliance Coordinator Jones conducted an audit of Respondent's PMP account.

8. Board PMP Compliance Coordinator Jones found that Respondent had not conducted a "MyRx" review of all the prescriptions Respondent had written as required by NRS 453.164(7) for the entire calendar years of 2017, 2018, 2019, 2020, and 2021.

9. Respondent was also found to have only conducted one "MyRx" query for the calendar years of 2022 and 2023.

10. Board PMP Compliance Coordinator Jones also found that Respondent conducted individual patient queries as required by NRS 639.23507 a grand total of seven (7) times between the dates of January 1, 2018, and August 14, 2023.

11. Between January 1, 2018, and August 14, 2023, Respondent had written over 1,500 prescriptions for controlled substances to at least 61 unique patients.

12. This means that Respondent failed to conduct individual patient inquires at least over 54 times during this period.

APPLICABLE LAW

13. Each practitioner who is authorized to write prescriptions for human consumption of controlled substances listed in schedule II, III, IV or V shall access the database of the (PMP) program at least once every 6 months to review the information concerning the practitioner that is listed in the database, including, without limitation, information concerning prescriptions issued by the practitioner, and notify the Board if any such information is not correct, and to verify to the Board that he or she continues to have access to and has accessed the database as required by this subsection. NRS 453.164(7).

14. A practitioner shall, before issuing an initial prescription for a controlled substance listed in schedule II, III or IV or an opioid that is a controlled substance listed in schedule V and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, obtain a patient utilization report regarding the patient from the computerized program established by the Board. NRS 639.23507.

15. The Board may suspend or revoke any registration if the holder or applicant is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

16. Unprofessional conduct includes, "performing any duties as the holder of a license issued by the Board in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

17. In lieu of a suspension or revocation, the Board may impose a fine of up to $10,000 for each violation committed. NRS 639.255(1)(f) and (3).

COUNT ONE

Unprofessional Conduct – Failure to Query PMP Every 6 Months

18. Respondent established his PMP account on September 21, 2016. Between these dates, Respondent failed to review his PMP account every six (6) months for the entire calendar years of 2017, 2018, 2019, 2020, and 2021 to ensure that the information in the account concerning the practitioner, including the legitimacy or validity of the prescriptions Respondent is shown as having written was correct. Respondent also conducted a "MyRx" query of all the prescriptions he had written only one time during the calendar years of 2022 and 2023. Respondent was and is still required to do so every six (6) months. NRS 453.164(7).

19. Because of these actions, Respondent has engaged in unprofessional conduct. NRS 639.210(4). Respondent engaged in unprofessional conduct because Respondent, as the holder of a certificate of registration issued by the Board, performed his duties in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

20. Respondent performed his duties as the holder of a certificate of registration issued by the Board in an incompetent, unskillful or negligent manner because Respondent failed to query his PMP account every six (6) months to review the information in the account regarding the practitioner as is required by law for the calendar years of 2017, 2018, 2019, 2020, and 2021, and for part of the calendar years of 2022 and 2023. *See* NRS 453.164(7) and NAC 639.945(1)(i). The information regarding the practitioner that Respondent was and still is required to look at includes information concerning the prescriptions written by the practitioner. *See* NRS 453.164(7). A check of the PMP account at least once every six (6) months ensures that a practitioner has not had their credentials stolen or duplicated and that, if they have been stolen or duplicated, the Board is notified of any potentially forged prescriptions by the practitioner in a timely manner. *See* NRS 453.164(7). The required six (6) month check of a practitioner's PMP account guards against forged controlled substance prescriptions aud allows practitiouers to work with the Board to stop them in real time. *See* NRS 453.164(7).

21. Having engaged in unprofessional conduct as alleged above, Respondent is subject to discipline by the Board. NRS 639.210(4); NRS 639.255; NAC 639.945.

COUNT TWO

Unprofessional Conduct – Failure to Query Patients Prior to Issuing an Initial Prescription for a Controlled Substance

22. Between the period of time from January 1, 2018, to August 14, 2023, Respondent only queried individual patients given unique prescriptions seven (7) times. During the same period, Respondent wrote over 1,500 prescriptions for controlled substances to at least sixty-one (61) unique patients. Respondent failed to query the PMP regarding individual patient information when prescribing them controlled substances at least fifty-four (54) times.

\\\

\\\

23. Because of these actions, Respondent has engaged in unprofessional conduct. NRS 639.210(4). Respondent engaged in unprofessional conduct because Respondent, as the holder of a certificate of registration issued by the Board, performed his duties in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

24. Respondent performed his duties as the holder of a certificate of registration issued by the Board in an incompetent, unskillful or negligent manner because Respondent failed to conduct patient queries on at least 54 patients given initial prescriptions for controlled substances in schedule I-IV, or for an opioid that is a controlled substance and listed in schedule V and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance. *See* NRS 639.23507 and NAC 639.945(1)(i). Respondent failed to query at least 54 patients that should have been queried as PMP records reflect that Respondent only queried seven (7) patients since Respondent's PMP account has been active. *See* NRS 639.23507.

25. Having engaged in unprofessional conduct as alleged above, Respondent is subject to discipline by the Board. NRS 639.210(4); NRS 639.255; NAC 639.945.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this respondent.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **JOSHUA HAMILTON, APRN,** **Certificate of Registration No. CS17584,** **Respondent.**	**Case No. 23-335-CS-S** **ANSWER AND NOTICE OF DEFENSE**

Respondent above named, in answer to the Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, declares:

1. That his/her objection to the Notice of Intended Action and Accusation as being incomplete or failing to state clearly the charges against him/her, is hereby interposed on the following grounds: (State specific objections or insert "none").

Regarding the "FACTUAL ALLEGATIONS," Page 1, I will stipulate to the accuracy of Items 3, 4 and 5.

It is my understanding that Compliance Coordinator Dave Jones retired from the Nevada Board of Pharmacy on December 26, 2023. I am unclear about the timing of the current action, considering the 6+ week lag time between investigator Jones' retirement and the generation of this Notice of Intended Action. Based upon the lack of detail about the timing of the alleged audit, I can neither confirm nor deny the factual nature of items 6 and 7 (nor the detail of the findings of the audit as outlined in Items 8-12).

In my answer (Page 2), I will summarize and present documentation that challenges the accuracy of Items 8-12, based upon my ongoing use of an electronic health record (EHR) that purports to integrate the Nevada State Prescription Monitoring Program (PMP AWARxE/ Bamboo Health) into my daily workflow. This documentation will show that *I made a consistent good faith effort to comply* with NRS 453.164(7) and NRS 639.23507 for the years cited in the allegations and counts (2017, 2018, 2019, 2020 and 2021 and part of 2022 and 2023).

Since these items form the basis for COUNT ONE and COUNT TWO, I respectfully contend that *I did not willfully engage in unprofessional conduct* (NRS 639.210(4)); nor did I perform my duties in an incompetent, unskillful or negligent manner (NRS 453.164(7) and NAC 639.945(1)(i)).

2. That, in answer to the Notice of Intended Action and Accusation, he/she admits, denies and alleges as follows:

I have attached documentation from my EHR vendor (Valant) that demonstrates an integration/API between the Nevada state PMP/PDMP and DrFirst, the vendor for ePrescribing and EPCS/PDMP (Exhibits 1-3). Since the law was enacted, I have always (without fail) relied upon the "Show Medication History" workflow in DrFirst to query ALL patient medication history, including any controlled substance history, regardless of whether the patient discloses previous controlled substance use (and whether or not I intend to prescribe a controlled substance) (Exhibit 4). I have used this system several times each week for more than seven (7) years. My patients would attest to the fact that I do this during every visit so that we can discuss and clarify any new or duplicate prescription(s), including scheduled medications. The attached invoices clearly reflect my subscription to EPCS/PDMP services for Nevada (Exhibits 5 & 6). I have also attached example queries that show controlled substance history for both a new and established patient (names redacted) (Exhibits 7 & 8). I trusted that this information was legitimately sourced from the Nevada PMP. On the rare occasion that a chart was not yet created in the EMR when I first encountered a patient, I logged in directly to PMP AWARxE/Bamboo Health to check the history there.

Upon receipt of the *Notice of Intended Action and Accusation*, I immediately opened a support ticket with Valant to seek an answer as to why these queries aren't reflected in the "MyRx" history at Bamboo Health/PMP AWARxE (attached Exhibit 9). The vendor indicated a programming anomaly that led to an "incomplete configuration" of the account; therefore, query metadata are apparently not available. As such, I changed my workflow to ensure that I am directly querying Bamboo Health/Nevada State PMP for all new and renewal controlled substance prescriptions.

Insofar as my character is concerned, my commitment to ethical, responsible and legal prescribing is a matter of the local and national public record. I routinely speak and publish about the importance of fully utilizing the state PMP, particularly in this era of prescription drug abuse and the opioid epidemic. I recently served on the psychiatric medication working group at the Center of Excellence in Regulatory Science and Innovation, a FDA-sponsored project at the University of Maryland (see CV, Exhibit 10).

I am deeply distressed by this situation; and I will take all required actions to ensure that my reputation and practice are not adversely affected in the process of resolving this matter to the Board's satisfaction. Under the circumstances, I humbly ask the Board for grace and leniency – as well as an opportunity to clarify and answer any additional questions.

I hereby declare, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to the best of my knowledge.

EHR Workflow Integration with PDMP

The Valant integration within the EHR workflow allows:

- Intervention at the earliest signs of controlled substance abuse
- Provision of better care
- Adherence to state regulations
- Great efficiency and time savings

PDMPs are one of the most impactful tools available addressing prescription opioid misuse and abuse and are part of the larger Electronic Prescribing of Controlled Substances (EPCS) initiatives. Using Valant's PDMP integration is a safer, faster, and more secure way for prescribers to comply with state PDMP mandates—without ever leaving the e-prescribing workflow.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **NGAN TAN, RPH,** **Certificate of Registration No. 23478,** **and,** **RALEY'S DRUG CENTER #105,** **Pharmacy License No. PH01965,** **Respondents.**	**CASE NOS. 23-365-RPH-N** **23-365-PH-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has personal jurisdiction over Respondent Ngan Tan ("Respondent Tan"), because Respondent Tan holds a certificate of registration issued by the Board pursuant to NRS 639.127, authorizing him to engage in the practice of pharmacy in the state of Nevada.

2. The Board has personal jurisdiction over Respondent Raley's Drug Center #105 ("Respondent Raley's"), because Respondent Raley's holds a license issued by the Board pursuant to NRS 639.230, authorizing Respondent Raley's to operate a pharmacy located at 1630 Robb Drive in Reno, Nevada.

3. The Board has jurisdiction over the subject matter of this accusation because, at the time of the violations alleged herein, Respondent Tan was a Nevada-registered pharmacist engaged in the practice of pharmacy at a business location operated by Respondent Raley's in Reno, Nevada.

FACTUAL ALLEGATIONS

4. In September 2023, Respondent Tan was a registered pharmacist employed by Respondent Raley's at its pharmacy on Robb Drive in Reno, Nevada.

5. On September 9, 2023, while on duty at the pharmacy location on Robb Drive, Respondent Tan filled a prescription for patient JN ("JN"), a 16-month-old toddler. The prescription was issued by JN's health care provider for amoxicillin, an antibiotic often administered as an oral solution to treat infections in small children. The prescription was assigned Rx# 6364412.

6. JN's provider prescribed oral solution amoxicillin for what she diagnosed to be an eye infection. However, she mistakenly wrote the prescription for an adult dose as opposed to a pediatric dose. The adult dose was large enough to treat a 290-pound adult. JN weighed just 29 pounds.

7. Respondent Tan, or a pharmacy technician acting under Respondent Tan's supervision, transferred the prescription information into Respondent Raley's drug utilization review (DUR) system. The DUR system signaled a "high dose" alert. Respondent Tan overrode the alert and filled RX# 6364412 as incorrectly written by JN's health care provider.

8. According to Respondent Tan, he attempted to contact JN's health care provider to inquire about the unusually large dose, but he was unable to reach her. Respondent Tan filled the prescription as written even though he knew or should have known that the dosing instruction was incorrect.

9. On September 9, 2023, JN's mother was out of the country and had left JN in the care of family members. According to Respondent Tan, one or more family members were in a hurry to leave with JN's prescription and pressured Respondent Tan to fill the prescription before he had an opportunity to speak with JN's health care provider. JN's family member(s) left the pharmacy with instructions to give JN 16.7 ml dose of amoxicillin once every 12 hours for 10 days. Based upon JN's weight, this was roughly ten times the correct dose.

10. When JN's mother returned home, she observed that JN was suffering from diaper rash and diarrhea. Earlier, JN's health care provider had re-diagnosed JN's eye condition as a stye, not an

infection. Consequently, JN's family members discontinued the amoxicillin after giving JN just one dose in accordance with the dosing instructions on the label. JN's mother attributes JN's diaper rash and diarrhea to this extra-large dose of amoxicillin.

APPLICABLE LAW

11. The Board may revoke or suspend the registration of any pharmacist who has been guilty of unprofessional conduct or conduct contrary to the public interest. *See* NRS 639.210(4). In lieu of revoking or suspending a pharmacist's registration, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

12. A pharmacist's conduct is unprofessional if the pharmacist fails to "confer with the person writing, making or ordering a prescription or chart order if there is an error or omission in it which should be questioned." NAC 639.945(1)(e). Additionally, a pharmacist's conduct is unprofessional if the pharmacist performs his or her duties in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

13. Pursuant to NRS 639.230(5), NAC 639.702 and NAC 639.945(2), pharmacies, pharmacy managers, and/or pharmacists are responsible for the acts and omissions of the pharmacy workers under their supervision and/or in their employ.

COUNT ONE
Unprofessional Conduct by a Pharmacist

14. On or about September 9, 2023, Respondent Tan filled JN's prescription for amoxicillin oral solution even though he knew or should have known that the health care provider's dosing instructions were incorrect. Respondent's conduct was unprofessional because he failed to confer with JN's health care provider regarding the correct dose.

15. Respondent's unprofessional conduct caused harm to JN.

16. For this unprofessional conduct, the Board may discipline Respondent Tan pursuant to NRS 639.210(4), NRS 639.255(1), NAC 639.945, and NAC 639.955.

17. As the owner/operator of the pharmacy at which Respondent Tan worked, Respondent Raley's is liable for Respondent Tan's unprofessional conduct. Accordingly, the Board may discipline Respondent Raley's pursuant to NRS 639.210(4), NRS 639.255(1), NAC 639.945, and NAC 639.955.

COUNT TWO

Unprofessional Conduct by a Pharmacist

18. On or about September 9, 2023, Respondent Tan filled JN's prescription for amoxicillin oral solution even though he knew or should have known that the health care provider's dosing instructions were incorrect. Respondent Tan's conduct was unprofessional because he failed to exercise independent professional judgment regarding the correct dose. Having failed to exercise independent professional judgment, Respondent Tan performed his duties in an incompetent, unskillful or negligent manner.

19. Respondent Tan's unprofessional conduct caused harm to JN.

20. For the unprofessional conduct as described above, the Board may discipline Respondent Tan pursuant to NRS 639.210(4), NRS 639.255(1), NAC 639.945, and NAC 639.955.

21. As the owner/operator of the pharmacy at which Respondent Tan worked, Respondent Raley's is liable for Respondent Tan's unprofessional conduct as described above. Accordingly, the Board may discipline Respondent Raley's pursuant to NRS 639.210(4), NRS 639.255(1), NAC 639.945, and NAC 639.955.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Tan and the pharmacy license of Respondent Raley's.

DATED this 25th day of January 2024.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through its Senior General Counsel, Gregory L. Zunino, and Respondent Raley's Drug Center #105 ("Respondent Raley's"), Pharmacy License No. PH01965, by and through counsel Kevin Lazar, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent Raley's and this matter.

2. The Board's staff properly served Respondent Raley's with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. The Board and Respondent Raley's agreed to delay the date for submitting a Notice of Answer and Defense as both parties pursued settlement negotiations.

4. Respondent Raley's acknowledges that after having consulted with counsel, its authorized representatives understand the terms of this Stipulation and Proposed Order ("Stipulation"), and they have executed it knowingly and voluntarily.

5. Respondent Raley's is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent Raley's under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, NRS Chapter 639, the Nevada Pharmacy Act, and NRS Chapter 453, the Nevada Uniform Controlled Substances Act.

6. Conditioned on the acceptance of this Stipulation by the Board, and excluding the right to challenge any determination that Respondent Raley's has failed to comply with the provisions of this Stipulation, Respondent Raley's hereby freely and voluntarily waives the rights to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

7. Respondent Raley's admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in Count One of the Accusation. The parties agree that as it pertains to Respondent Raley's, Count Two of the Accusation is duplicative of Count One. Therefore, upon approval of this Stipulation by the Board, Count Two of the Accusation shall be dismissed with prejudice as to Respondent Raley's.

8. To resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent Raley's agree to the imposition of the following penalties:

A. Respondent Raley's shall pay an administrative fine of One Thousand and 00/100 Dollars ($1000.00). B. Respondent Raley's shall pay the sum of Five Hundred and 00/100 Dollars ($500.00) to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *cashier's check, certified check* or *money order* written to the **"Nevada State Board of Pharmacy."** Respondent Raley's shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before May 31, 2024

9. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 23-365-PH-N as to Respondent Raley's. However, any failure by Respondent Raley's to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause,

pursuant to NAC 639.965, directing Respondent Raley's to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent Raley's, the Board may impose additional discipline upon Respondent Raley's not inconsistent with the provisions of NRS Chapter 639.

10. The Board's Senior General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on April 17, 2024, in Reno, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent Raley's or its attorney fails to appear for the meeting.

11. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

CITATION-AND-FINE: Case No. 23-003-DV-S – Unlicensed Prescribing Activity in Nevada

Dear Dr. Johnson:

The Nevada State Board of Pharmacy (Board) has determined that between January 9, 2020, and January 9, 2023, you issued 93 prescriptions for controlled substances, including prescriptions for Phenobarbital and Tramadol. During the above time frame, you had applied for, but had not yet received a Nevada certificate of registration to prescribe controlled substances. The processing of your application was delayed because you did not submit proof of a registration number issued to you by the federal Drug Enforcement Administration.

In Nevada, it is unlawful to dispense a controlled substance except as authorized by NRS Chapter 453. NRS 453.321(1)(a). "Dispense" is defined to include the act of prescribing a controlled substance. NRS 453.056. Every practitioner who intends to prescribe controlled substances in Nevada must first apply for and obtain a certificate of registration from the Board. NRS 453.226(1)(a); NRS 453.231(3). A practitioner who prescribes controlled substances without having obtained a Nevada certificate of registration (or who prescribes on an expired certificate of registration) is potentially subject to criminal and/or civil penalties for prescribing controlled substances in Nevada without authorization. NRS 453.232; NRS 453.553; NRS 453.5531; NRS 639.100(1).

In light of the foregoing, this letter shall serve as a **CITATION** pursuant to NRS 639.2895(2) for prescribing controlled substances without having obtained the required certificate of registration issued by the Board. Based on the above evidentiary summary, the Board has assessed an **administrative fine** against you in the amount of **Five Thousand and 00/100 Dollars ($5000.00).**

If you do not intend to contest the above fine, please pay the fine within 30 days of receipt of this citation, or otherwise contact Board staff to request an extension for good cause shown. Payment must be made by *certified check, cashier's check,* or *money order* payable to **"State of Nevada, Office of the Treasurer,"** and it must be received at the Board's Reno office, located at 985 Damonte Ranch Parkway – Suite 206, Reno, NV 89521.

You may appeal this citation by submitting a notice of appeal requesting a public hearing before the Board. You must submit any such notice of appeal not later than 30 days after receipt of this citation. NRS 639.2895(2). Please mail or personally deliver any notice of appeal to the Reno address listed on the letterhead.

Pursuant to the Nevada Public Records Act, this citation constitutes a public record that must be released to anyone who makes a proper request for it. However, unless this citation is affirmed by the Board on appeal, this matter will not be reported to the National Practitioner Data Bank. If you have any questions, please contact the Board's Assistant General Counsel, Gustaf Vanderdonck, at 775-850-1440, ext. 132, or *via* email at gvanderdonck@pharmacy.nv.gov.

Surety Bond
Suppliers of Durable Medical Equipment, Prosthetics, Orthotics and Supplies
Medicare Program

KNOW ALL PERSONS BY THESE PRESENTS, that subject to the terms, conditions and limitations of this bond, Z-O MEDICAL SUPPLIES LLC, as Principal, and Philadelphia Indemnity Insurance Company One Bala Plaza, Suite 100 BALA CYNWYD PA 19004, a corporation organized and existing under the laws of Pennsylvania, as Surety, are held and firmly bound unto the Centers for Medicare & Medicaid Services ("CMS"), an agency of the United States Department of Health and Human Services, as Obligee, in the Penal Sum of fifty thousand dollars Dollars ($ $50,000.00) for the payment of which Principal and Surety bind themselves, their heirs, executors, administrators and assigns, jointly and severally, by these presents.

WHEREAS, Principal is enrolled in or is seeking to be enrolled in the Medicare program as a supplier of durable medical equipment, prosthetics, orthotics and supplies ("DMEPOS"); and

WHEREAS, pursuant to Section 4312(a) of the Balanced Budget Act of 1997 (Pub. L. 105-33) and 42 CFR § 424.57, the Principal is required to provide a surety bond as a condition of participation in the Medicare program, and this bond is provided in compliance with the supplier's obligations as set forth in those authorities.

NOW THEREFORE, the condition of this Bond is that if the Principal shall pay the Obligee any unpaid claims, civil money penalties and assessments (as such terms are defined by 42 CFR § 424.57(a)) then this Bond shall be null and void, otherwise to remain in full force and effect, subject, however, to the following:

1. Principal and Surety are liable under this Bond for only the amount of any unpaid claim, civil money penalty or assessment imposed by CMS or the Office of Inspector General, plus accrued interest, for which the Principal is responsible and for which, subject to Paragraph 7, the Obligee first demands payment from the Surety during the term of this Bond; provided, however, that any claim under this Bond must be related to overpayments or other events that occurred on or after March 3, 2009.

2. Surety agrees to pay a claim within 30 days of receiving written notice of the claim and sufficient evidence (as such term is defined by 42 CFR § 424.57(a)) to establish Surety's liability under this Bond.

3. CMS is the sole Obligee of this Bond, and no action may be brought on it by, or for the use or benefit of, any person or entity other than CMS or its contractors.

4. Regardless of the number of years this Bond is in effect, the number of premiums paid, or the number of claims made, the Surety's aggregate liability shall not be more than the penal sum of this Bond.

5. Subject to Paragraph 7, the Surety's liability under this Bond shall terminate and the Surety shall have no further liability upon the effective date of cancellation or expiration of this Bond by the Surety or Principal in accordance with Paragraph 6 of this Bond.

6. The Surety or Principal may cancel this Bond by providing written notice of such cancellation to the Obligee. Cancellation or expiration shall be effective 30 days after notice of cancellation or expiration is sent to the Obligee's contractor, the National Supplier Clearinghouse, provided such notice is actually received.

7. In the event this Bond is cancelled or expires, and the Principal fails to submit a new bond to the Obligee, the Surety remains liable for unpaid claims, civil money penalties or assessments that were imposed or assessed by CMS or the Office of Inspector General during the 2 years following the effective date of cancellation or expiration of this Bond.

In witness whereof, the undersigned Principal and Surety have set their hands and seals on this 04th day of January, 2024.
