Primary Source Board of Nursing Report Summary for

MELODY MARICON LAO

Thursday, February 01 2024 09:55:00 AM

The legend below provides details related to the statuses for advanced practice registered nurses (APRNs) only

Active– *ascribed to APRNs who meet the requirements for licensure, but do not meet the requirements, or have not applied for, prescribing privileges.*

Active Prescribing– *ascribed to all APRNs who have been granted authority to prescribe all legend drugs and may include Schedule CIII-V*

Active Prescribing – CII – *ascribed to all APRNs who have been granted authority to prescribe within the Schedule CII-V category, and is not required to obtain a protocol with a collaborative physician.*

Active Prescribing-CII-COLL *– ascribed to all APRNs who have been granted authority to prescribe within the Schedule CII-V category, and have provided a copy of his/her current protocol with a collaborative physician.*

Active Prescribing -D– *ascribed to all APRNs who have been granted authority to prescribe and dispense all legend drugs and may include Schedule CIII-V*

Active Prescribing – CII – D *ascribed to all APRNs who have been granted authority to prescribe and dispense within the Schedule CII-V category, and is not required to obtain a protocol with a collaborative physician.*

Active Prescribing-CII-COLL –D *ascribed to all APRNs who have been granted authority to prescribe and dispense within the Schedule CII-V category, and have provided a copy of his/her current protocol with a collaborative physician.*

APRNs must also apply with the Nevada State Board of Pharmacy and/or DEA before they can prescribe in Nevada.

If an APRN wishes to remove the protocol requirement they must submit a letter on letterhead from their employer to the Nevada State Board of Nursing verifying that they have worked a minimum of 2 years or 2,000 hours as an APRN.

Details related to License / Certificate Status can be found at the bottom of this page.

Name on License	License / Certificate Type	License / Certificate Number	License Status	Original Issue Date	Current Expiration Date	Discipline
LAO, MELODY MARICON	RN	RN61577	Active	03/10/2009	07/15/2024	NO

LAO, MELODY	RN	IP RN606308	Expired	01/07/2009	03/10/2009	NO

Primary Source Board of Nursing Messages & Notifications

- Upon request, the Board may grant an Interim Permit to a first-time examinee after the Board receives the application and documentation of graduation from an approved nursing education program. The Interim Permit allows the examinee to practice as a Graduate Nurse only in the state of Nevada and only for 90 days. -The Interim Permit expires upon notification of examination results, regardless of the time remaining on the Interim Permit. Authority to practice as a Graduate Nurse then ceases. -Interim Permits will not be extended beyond the original 90 days of issue.

License type information

- **RN:** Registered Nurse
- **PN:** Practical Nurse (aka Licensed Practical Nurse (LPN), Vocational Nurse (VN), Licensed Vocational Nurse (LVN))
- **CNP:** Certified Nurse Practitioner
- **CNS:** Clinical Nurse Specialist
- **CNM:** Certified Nurse Midwife
- **CRNA:** Certified Registered Nurse Anesthetist

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Enrique Solis hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Pharmacy Manager (title) for SW Specialty Pharmacy, LLC dba Southwest Spe (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

Section 11: Managing Pharmacist Acknowledgement, Professional/Personal History – REQUIRED TO BE COMPLETED BY THE MANAGING PHARMACIST FOR NEVADA LOCATED PHARMACY APPLICANTS ONLY

Managing Pharmacist Name: Enrique Solis Pharmacist Registration #: 16972

Pharmacy Name: SW Specialty Pharmacy, LLC dba Southwest Specialty Pharmacy

Initial each statement below to indicate you have read and agree with the following:

es — I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

es — I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

es — I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

es — I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

es — I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Lynna Ho hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the managing pharmacist (title) for SW Pharmacy,LLC dba Southwest Pharmacy (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

Section 11: Managing Pharmacist Acknowledgement, Professional/Personal History – REQUIRED TO BE COMPLETED BY THE MANAGING PHARMACIST FOR NEVADA LOCATED PHARMACY APPLICANTS ONLY

Managing Pharmacist Name: Lynna Ho Pharmacist Registration #: 16983

Pharmacy Name: SW Pharmacy, LLC dba Southwest Pharmacy

Initial each statement below to indicate you have read and agree with the following:

LH I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

LH I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

LH I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

LH I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

LH I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Personal and Professional History	Yes	No

Board of Pharmacy
431 W Plumb Ln
Reno, NV 89509

Dear Members of the Nevada Board of Pharmacy,

I am writing to you today, on the deadline of the application, as the CEO of The Center, a vital institution dedicated to the LGBTQAI+ community in Southern Nevada. At The Center, we provide a nurturing space that promotes health, well-being, and community support. As we have expanded our services to meet growing needs, it has become increasingly evident that accessible, community-focused pharmacy services are not just beneficial but essential for the population we serve.

Our clients face unique health disparities and often encounter significant barriers in accessing necessary medical and pharmaceutical care. By integrating a pharmacy within The Center, we can directly improve healthcare accessibility and ensure that our services are delivered in an environment that is both inclusive and affirming. This pharmacy is urgently needed, as many of our clients cannot afford to wait longer for the care they deserve, care that respects their unique needs and dignities.

We are committed to ensuring this pharmacy upholds the highest standards of pharmaceutical care and sensitivity to the specific issues faced by our community. To this end, we are in the final stages of preparing our facility to meet all requirements. While our Nevada business license number is forthcoming, we have already scheduled the necessary fire inspection for this coming Thursday and will be sure to submit any needed updates to our application.

In light of these pressing needs, I respectfully urge the Nevada Board of Pharmacy to consider our application with both the urgency it warrants and the compassion our community deserves. We are ready to provide not only medications but also hope to those who have often been marginalized by the very systems meant to serve them.

Thank you for considering our application to establish a pharmacy at The Center. We are eager to discuss this proposal further and to demonstrate how this pharmacy will not only fill a critical gap in healthcare services but will also embody the spirit of community care that is at the heart of all we do.

Sincerely,
John Waldron

John Waldron, Ed.D

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, John Waldron hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Chief Executive Officer (title) for The Center Community Pharmacy (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

My Appt. Expires Aug 10, 2027

Section 11: Managing Pharmacist Acknowledgement, Professional/Personal History – REQUIRED TO BE COMPLETED BY THE MANAGING PHARMACIST FOR NEVADA LOCATED PHARMACY APPLICANTS ONLY

Managing Pharmacist Name: Leana Ramirez Pharmacist Registration #: NV18036

Pharmacy Name: The Center Community Pharmacy

Initial each statement below to indicate you have read and agree with the following:

I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Personal and Professional History	Yes	No
1. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓
2. Have you been charged, arrested, or convicted of a felony or misdemeanor in any state?		✓
3. Have you been the subject of a board citation or an administrative action whether completed or pending in any state?		✓
4. Has your license been subjected to any discipline for violation of pharmacy or drug laws in any state?		✓

If you marked YES to any questions above, include the following information and provide a signed statement of explanation. Copies of any documents that identify the circumstance or contain an order, agreement or other disposition is required.

Section 9: Statement of Responsibility - MUST BE COMPLETED by an Authorized Person (NAC 639.945)

Statement of Responsibility

1. I am the Managing Pharmacist (title) for Vital Care of Summerlin (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacist engaged in providing pharmacy services into Nevada is licensed by the Nevada State Board of Pharmacy (NRS 639.100).

Section 11: Managing Pharmacist Acknowledgement, Professional/Personal History—REQUIRED TO BE COMPLETED BY THE MANAGING PHARMACIST FOR NEVADA LOCATED PHARMACY APPLICANTS ONLY

Managing Pharmacist Name: William Tamburo Pharmacist Registration #: 21963

Pharmacy Name: Vital Care of Summerlin

Initial each statement below to indicate you have read and agree with the following:

WT — I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

WT — I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

WT — I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

WT — I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

WT — I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Personal and Professional History	Yes	No
1. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓
2. Have you been charged, arrested, or convicted of a felony or misdemeanor in any state?		✓
3. Have you been the subject of a board citation or an administrative action whether completed or pending in any state?		✓
4. Has your license been subjected to any discipline for violation of pharmacy or drug laws in any state?		✓

If you marked YES to any questions above, include the following information and provide a signed statement of explanation. Copies of any documents that identify the circumstance or contain an order, agreement or other disposition is required.

Sterile Compounding Questionnaire

Rev (08/02/2022)

This application cannot be returned by fax or email.
We must have an original signature to process.

Approval of this completed questionnaire is required for an existing pharmacy, new pharmacy and/or out-sourcing facility applicant who wish to engage in preparing, compounding, dispensing, and furnishing sterile compounded products to Nevada patients or consumers.

Please provide a thorough response to the questions below and provide any necessary supporting documents.
-For a new pharmacy or out-sourcing facility applicant, submit this completed form with your application.
-For an existing pharmacy, send the completed form to the address indicated above.

Section 1: General Information

Pharmacy Name: LV Infusion and Specialty LLC DBA-Vital Care of Summerlin

NV Pharmacy or Outsourcing facility license # (if applicable): PH04508

Physical Address: 2625 S Rainbow Blvd Suite B 106

City: Las Vegas State: NV Zip: 89146

Mailing Address (if different from physical address): _____

City: _____ State: _____ Zip: _____

Fax: 725.525.9006 Contact Email: wtamburo@vitalcare.com

Website: https://vitalcare.com/locations/vital-care-of-summerlin/

Nevada Business License # (if applicable) 2007740-044-101

Supervising/Managing Pharmacist Name (NRS 639.220): William Tamburo

Supervising/Managing Pharmacist NV Pharmacist Registration #: 21963

Name of Person with direct knowledge of compounding procedures: William Tamburo

Email of Person with direct knowledge of compounding procedures: wtamburo@vitalcare.com

Telephone of Person with direct knowledge of compounding procedures: 702-677-1623

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)? ☒ Low ☒ Medium ☐ High
If you marked "High", you must also complete section 4.

2. Will you be performing sterile hazardous drug compounding? ☐ Yes ☒ No
If you marked "Yes", you must also complete section 3.

3. List the sterile compounded products that you will be compounding for Nevada patients or consumers:

Primarily sterile antibiotic/anti-infective products: Azithromycin, Carbapenems, Cephalosporins, Clindamycin, Dalbavancin, Daptomycin,Ganciclovir, Foscarnet, Fluconazole,Linezolid, Micafungin, Metronidazole,Oritavancin Penicillins etc.

Cardiovascular Medications: Dobutamine and Milrinone

Fluid Replacement (Hydration): Normal Saline and Lactated Ringers

Parental Nutrition: TPN and pre-made Clinimix in change in volume is needed.

4. Will you be utilizing beyond use dates in excess of USP-797? ☐ Yes ☒ No

5. If yes, describe the additional testing performed on your products to validate the extended BUD:

N/A

6. What laboratory performs this additional testing?

Name: _____

Address: _____

City: _____ State: _____ Zip: _____

Telephone: _____

7. What is your procedure for visual inspection of compounded sterile products?

Inspect labels that contain the following: Pharmacy name;Prescriber;Patient name;Date dispensed;Identification of dispensing pharmacist;
Assigned internal identification number (e.g.,barcode, prescription, order, or lot number);
Drug name or active ingredient(s) and their amount(s), activity(ies), or concentration(s);
Drug dosage form, concentration, total volume, and rate

Product is inspected by pharmacist for particles or obvious visual issues with the product, verifying the above is on the label. Also will use a black and white board to look for coring when applicable.

8. How often do you perform glove fingertip and medial fill testing?

On initial employment or as hired then every 6 months as of the revised 797 updated polices.

9. What is your policy if an employee fails a glove fingertip or media-fill test?

Media Fill = any turbidity, change in color, particulates
Gloved Fingertip Sampling for initial competency purposes = 0 CFUs on both hands x3 samples.

If the above action levels are failed, the employee would need to be re-trained on any deficiencies and be reevaluated after they are re-trained.

10. Describe your initial and annual training program for all personnel performing sterile compounding:

All personnel involved in the compounding of CSPs will be initially trained and qualified by demonstrating proficiency in compounding CSPs. Before beginning to prepare CSPs independently, all compounding personnel must complete training and be able to demonstrate knowledge of principles and proficiency of skills for performing sterile manipulations.
All compounding employees must complete hand hygiene and garbing (gloved fingertip/thumb sampling) assessment at least annually
All compounding personnel must complete a work surface culture to verify competence with surface cleaning procedures annually, at minimum
The results of all media fill kit specimen cultures will be documented on form.
All compounding personnel must complete written or electronic testing every 12 months.

11. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

PEC: Cleaning and disinfecting equipment and all interior surfaces daily on daily when compounding occurs and when surface contamination is known. Additionally, in a PEC, sterile 70% IPA must be applied after cleaning and disinfecting. Applying sporicidal disinfectant monthly.
SEC: The floors of both the ante and buffer are cleaned daily on days that compounding occurs, and monthly with a sporicidal disinfectant. The walls, ceiling, doors, and storage shelving and outside surfaces of the PEC are to be cleaning monthly with disinfectant and sporicidal disinfectant.
Agents Used:
Non-sterile one-step Disinfectant Cleaner for SECs only: PREempt Disinfectant
Sterile one-step Disinfectant Cleaner for SECs and PEC: Sterile Healthcare TB1-3300 Disinfectant
Sterile one-step Sporicidal Disinfectant for SECs and PECs: Peridox RTU Sporicidal Disinfectant and Cleaner
Use of low lint materials with all of the above.

12. Who performs the sterile compounding process at your facility?

Pharmacist in Charge- William Tamburo.

13. Who is responsible and accountable for the sterile compounding process at your facility?

Pharmacist in Charge- William Tamburo.

14. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

When shipping or mailing products we use insulated Kodiak Coolers for all refrigerated products, these are packed with the appropriate amount of ice packs to ensure the product is both safe and efficacious when it reaches the patient. Twice yearly a temperature shipping validation study will be done with a temperature probe once during the winter months and once during the summer months to ensure the products are within the accepted standards.

If a courier service is being used they must also meet the standards for safe shipping, and we will require the signature/confirmation of identity prior to every delivery.

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility?		
2. Is your BSC or CACI vented 100% to the outside?	☐ Yes	☐ No
3. Do you have a negative pressure buffer room at your facility?	☐ Yes	☐ No
4. Will you be compounding with antineoplastic HDs or HD API?	☐ Yes	☐ No
5. If yes, are the drugs stored in an externally ventilated, negative pressure room?	☐ Yes	☐ No
6. Will you be utilizing a closed system transfer device?	☐ Yes	☐ No
7. If yes, list the name of the device:		
8. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?		
9. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?		

Section 4: Sterile High Risk Compounding Questions (Complete this section ONLY if you will be performing High Risk Compounding.)

1. List the specific high risk sterile products that your facility compounds:

2. What sterilization methods are utilized at your facility?

3. Does your facility utilize biological indicators? ☐ Yes ☐ No

4. If yes, describe how they are utilized:

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire form and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event the form is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

Subject: Request for Meeting Regarding Sterile Pharmacy License Application

Dear Members of the Nevada State Board of Pharmacy,

I hope this letter finds you well. My name is William Tamburo, and I am writing on behalf of Vital Care of Summerlin, located at 2625 S Rainbow Blvd. Currently, we hold a retail pharmacy license and have been serving the community with dedication and commitment to quality pharmaceutical care.

I am writing to request a meeting with the Board to discuss the process and requirements for obtaining a sterile pharmacy license. Understanding the importance of adhering to the highest standards in pharmaceutical compounding, we are keen on expanding our services to include sterile compounding to better meet the healthcare needs of our community.

We believe that obtaining a sterile pharmacy license aligns with our commitment to providing safe and effective medications to our patients. The meeting would provide us with the opportunity to seek guidance, address any questions or concerns, and ensure that we fully understand and comply with the regulatory requirements set forth by the Board.

We understand the importance of adhering to regulatory standards and are dedicated to ensuring that our pharmacy meets and exceeds all requirements for sterile compounding. We have also already filled out the attached sterile compounding questionnaire, and will provide additional information needed to complete this process.

Thank you for your time and consideration. We appreciate your commitment to maintaining the highest standards of pharmaceutical care in the state of Nevada.

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		✓
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

I, William Tamburo, **certify that as the designated representative for**

Vital Care of Summerlin.,

that I (initial that you have read and meet the following requirements) (NAC 639.5005, NAC 639.5935):

1. ✓ I am at least 21 years of age;
3. ✓ I have been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.
4. ✓ I will be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
5. ✓ I will be employed full-time in a managerial level position with the pharmacy or wholesaler;
6. ✓ I will be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
7. ✓ I will serve in this representative capacity for only one pharmacy or wholesaler at a time.

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Adam Gardner hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the PIC (title) for TelyRx LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

EXPIRATION DATE: FEBRUARY 28, 2025

Your license number is PH 24558. Please verify all correspondence with your Board records. Each licensee is solely responsible for notifying the Department in writing of the licensee's current mailing address and practice location address. If you have not received your renewal notice 90 days prior to the expiration date shown on this license, please visit www.FloridaHealthSource.gov and click "Renew A License" to renew online.

The Medical Quality Assurance Online Services Portal gives you the ability to manage your license to perform address updates, name changes, renewal submittals, licensee and more.

If a complaint is ever filed, your MQA Online Services account is key to helping us help you. Select the "Account Login" button to access your account. For changes to your name, address or to request duplicate licenses, choose your selection from the dropdown list under "Manage My Licenses". Your password will expire 90 days prior to your expiration date. When the renewal period opens for your profession, the "Renew My Licenses" feature will automatically display on your license dashboard.

IMPORTANT ANNOUNCEMENTS

ARE YOU RENEWAL READY?

The Department of Health will now review your continuing education records at the time of license renewal.

To learn more, please visit www.FloridaHealthSource.gov/CERR

DISCLOSURE FOR DISCIPLINE

You should be familiar with the Statutes and Rules that govern your practice. Florida Statutes can be accessed at www.leg.state.fl.us/Statutes

VIPPS CERTIFICATION

Is the pharmacy VIPPS (Verified Internet Pharmacy Practice Sites administered be NABP) certified? Please provide a copy with application. Yes ☐ No ☒

If yes, please sign and date page 3 and you will not need to answer questions 1 through 8.

PHARMACIES LACKING VIPPS CERTIFICATION

1. Is the pharmacy licensed in each state in which the pharmacy will practice pharmacy Yes ☒ No ☐

PLEASE ATTACH A SEPARATE SHEET LISTING ALL THE STATES IN WHICH YOU ARE LICENSED, INCLUDING THE DATE OF INITIAL LICENSURE AND THE LICENSE NUMBER.

2. Does the pharmacy maintain and enforce policies and procedures that ensure the following:

A) That the pharmacy will establish the authenticity of each prescription that the pharmacy receives? Yes ☒ No ☐

B) That the pharmacy will not fill any prescription which has been previously filled by another pharmacy? Yes ☒ No ☐

C) That for each pharmacy the pharmacy fills the prescription cannot be filled by another pharmacy? Yes ☒ No ☐

D) That the pharmacy will authenticate the identity of each patient and prescribing practitioner? Yes ☒ No ☐

E) That the prescriptions will be filled in compliance with all applicable federal and state laws? Yes ☒ No ☐

F) That a patient or the caregiver of the patient may make a complaint to the pharmacy regarding a prescription? Yes ☒ No ☐

G) That if a complaint is made, the complaint will be investigated thoroughly and that the results of the investigation will be communicated to the patient or caregiver? Yes ☒ No ☐

H) That if the investigation of a complaint reveals that the operations of the pharmacy resulted in an error in the processing or filling of the prescription, appropriate remedial action was taken by the pharmacy? Yes ☒ No ☐

I) That the pharmacy will communicate to a patient or a prescribing practitioner any delay that might jeopardize or alter the drug therapy of the patient with respect to delivering the prescribed drug or device? Yes ☒ No ☐

J) That the pharmacy will communicate to a patient information regarding recalls of drugs and the appropriate means to dispose of expired, damaged or unusable drugs or devices? Yes ☒ No ☐

3. Does the pharmacy obtain and maintain patient information necessary to facilitate review of drug utilization and counseling of patients pursuant to any applicable statutes? Yes ☒ No ☐

4. Will the pharmacy provide review of drug utilization and counseling of patients pursuant to the applicable statutes in the state in which the patient resides? Yes ☒ No ☐

5. Does the pharmacy maintain controls of its computer system, information concerning patients, and other such confidential information and documents to prevent unauthorized or unlawful access to all such confidential information and documents? Yes ☒ No ☐

6. Does the pharmacy comply with applicable federal and state laws regarding the following:

   A) To the dispensing of prescription drugs? Yes ☒ No ☐

   B) To the record keeping related to the patients served by the pharmacy, the purchase of prescription drugs and the sale and dispensing of prescription drugs? Yes ☒ No ☐

   C) To the sale of over-the-counter products, including any special requirements related to products that have been identified as precursors to the manufacture or compounding of illegal drugs ? Yes ☒ No ☐

7. Does the pharmacy ship prescriptions to a patient using secure and traceable means? Yes ☒ No ☐

8. Does the pharmacy ship prescriptions to a patient using packaging or devices which will ensure that the prescription is maintained within appropriate standards pertaining to temperature, light and humidity as described in the *United States Pharmacopoeia, 25th* edition, 2002, which is hereby adopted by reference? Yes ☒ No ☐

PLEASE ATTACH A COPY OF YOUR POLICIES AND PROCEDURES.

The signature below certifies that the answers provided in this application are true, correct and complete.

Thomas McKinney (Nov 9, 2023 07:31 MST)

Signature of Owner _____ Date _____

A) The pharmacy establishes the authenticity of each prescription by following a set of standard procedures. This typically includes:

1. Verification of Prescriber Information: Ensuring that the prescription includes accurate and complete information about the prescribing healthcare professional, such as their name, license number, and contact information.
2. Patient Identification: Verifying patient information on the prescription, including name, date of birth, and address.
3. Confirmation of Prescription Details: Reviewing the medication details, dosage, and quantity to confirm they match the prescriber's instructions.
4. Contacting the Prescriber: If there are any doubts about the prescription's authenticity, the pharmacy may contact the prescriber to confirm the order.

B) Confirm that the pharmacy will not fill any prescription which has been previously filled by another pharmacy. This is achieved through several procedures:

1. Prescription Database Checks: The pharmacy maintains a comprehensive prescription database to check each prescription. This allows us to identify duplicate or overlapping prescriptions and take appropriate action.
2. Communication with Patients: Pharmacists are trained to ask patients about their medication history and existing prescriptions to ensure they are not receiving duplicate medications.
3. Collaboration with Other Pharmacies: In the event of any uncertainty, the pharmacy communicates with other pharmacies involved in the patient's care to confirm the accuracy of the prescription and to avoid duplicate dispensing.
4. Documentation and Recordkeeping: Detailed records are maintained to track all prescriptions dispensed to patients, making it possible to identify and prevent the filling of duplicate prescriptions.

C) The pharmacy diligently ensures that for each prescription it fills, the medication cannot be concurrently filled by another pharmacy. This is accomplished through a combination of measures:

1. Real-Time Prescription Monitoring: The pharmacy employs advanced prescription monitoring software, which allows us to instantly check the status of prescriptions to verify that they are not being filled at other pharmacies simultaneously.
2. Prescription History Review: Pharmacists review each patient's prescription history to confirm that the medication requested is not being filled elsewhere. This review includes checking for overlapping prescriptions or attempts to obtain the same medication from multiple sources.
3. Communication with Prescribers: In cases where there may be concerns about a prescription's legitimacy or potential duplication, we proactively communicate with the prescriber to clarify and confirm the prescription.
4. Strict Recordkeeping: The pharmacy maintains comprehensive and accurate records of all dispensed prescriptions, which aids in identifying and preventing the filling of duplicate prescriptions.

D) The pharmacy places great emphasis on authenticating the identity of each patient and prescribing practitioner as a fundamental component of its operations. This is achieved through various methods and protocols:

1. Patient Authentication: Patients are required to provide valid identification, such as a government-issued photo ID, to confirm their identity when picking up prescription medications.
2. Prescriber Verification: The pharmacy verifies the identity of prescribing practitioners by cross-referencing their credentials with relevant licensing boards and confirming their contact information as deemed necessary by the pharmacist.
3. Secure Electronic Prescriptions: When receiving electronic prescriptions, the pharmacy utilizes secure electronic transmission methods.
4. Communication with Prescribers: In cases of uncertainty or suspicious activity, the pharmacy communicates directly with the prescribing practitioner to confirm the prescription's authenticity.

E) The prescriptions will be filled in compliance with all applicable federal and state laws.

1. Licensing and Registration: The pharmacy maintains the necessary licenses and registrations both in the state of Florida, where it operates, and in Nevada, where it serves nonresident patients. These licenses are regularly updated and renewed in accordance with state regulations.
2. Federal Regulations: The pharmacy adheres to all federal laws and regulations relevant to prescription medication dispensing, record keeping and the purchase/sale of prescription drugs.
3. State-Specific Requirements: In addition to federal laws, the pharmacy follows Nevada state-specific laws and regulations governing the dispensing of prescriptions to residents of the state, record keeping and the purchase/sale of prescription drugs.
4. Recordkeeping and Reporting: Records are maintained to document all prescription-related activities.

5. Regulatory Updates: The pharmacy actively stays informed about changes and updates in federal and state regulations and promptly adjusts its procedures to remain in compliance with any new requirements.
6. The pharmacy follows federal and state-specific laws regarding the sale of over-the-counter products.

F) G) H) The pharmacy has an established process that allows patients or their caregivers to make complaints or voice concerns regarding prescriptions.

1. Complaint Reporting: Patients and caregivers can file complaints through various channels, including in-person at the pharmacy, over the phone, via email, or by submitting a written complaint.
2. Timely Response: Patients can expect to receive acknowledgment of their complaint and a timeframe within which they can expect a resolution or further communication.
3. Investigation and Resolution: Each complaint is thoroughly investigated, and appropriate action is taken to resolve the issue. This may involve communicating with the patient, reviewing prescription records, and collaborating with the pharmacy team to address the concerns.
4. Documentation: Detailed records are maintained for each complaint, including the nature of the concern, actions taken, and any recommendations for process improvement.

I) The pharmacy promptly communicates any delay that may jeopardize or alter the drug therapy of a patient with respect to delivering the prescribed drug or device. This includes the following procedures:

1. Monitoring and Anticipation: The pharmacy actively monitors its inventory and prescription processing to foresee and prevent any potential delays. The pharmacy has multiple wholesalers to proactively prevent backorders and potential delays.
2. Timely Notification: If a delay is identified, the pharmacy will notify the patient or caregiver, or the prescribing practitioner. This notification will include the reason for the delay and an estimated timeframe for when the medication can be expected.
3. Alternative Solutions: The pharmacy may also work with the prescribing practitioner to identify alternative medications or therapies to minimize disruption to the patient's treatment plan.

J) The pharmacy checks recalls when informed from the wholesaler/distributor and promptly checks dispensing history. If a prescription has been dispensed with the affected recalled lot and could still be used by the patient, the pharmacy shall attempt to contact the patient and document such attempt. The pharmacy uses a reverse distributor to dispose of expired, damaged or unusable drugs or devices when applicable.

3 & 4. The pharmacy obtains and maintains all patient information required to facilitate the review of drug utilization and provide counseling to patients as mandated by applicable statutes. This includes but is not limited to the following practices:

1. Patient Profiles: The pharmacy maintains comprehensive patient profiles that include essential information such as medical history, allergies, current medications, and relevant contact details.
2. Medication Review: Pharmacists routinely review patient profiles to assess drug utilization, identify potential drug interactions, and ensure the safe and effective use of medications.
3. Counseling Services: The pharmacy offers counseling services to patients in compliance with applicable statutes, ensuring that patients receive necessary information about their medications, proper usage, potential side effects, and any other relevant guidance.

The pharmacy maintains controls of its computer system and information concerning patients to prevent unauthorized or unlawful access by utilizing a pharmacy software management system that requires employee specific login username and password to generate daily credentials that change daily.

The pharmacy ships prescriptions to a patient by packaging the product in discrete, private packaging and utilizing tracking information to track each shipment. The pharmacy ships prescriptions using packaging that ensures the prescription is maintained within appropriate standards. (Reference Cold Shipment SOP and Shipping & Delivery SOP).

Shipping & Delivery SOP
Version: 1.0

Normal Delivery Protocols & Times:
Delivery times are dependent upon the selection of shipping service and their estimated transit times from the carrier. We use three carriers: Fedex, UPS and USPS. We offer a range of shipping options ranging from overnight to ground transit. For refrigerated products, please refer to "Cold Shipping SOP".

Procedures if patient's medication is not available at the pharmacy, or if the delivery will be delayed beyond the normal delivery time
The pharmacist shall use professional judgment to determine if the delivery delay or unavailability will impact patient therapy. The pharmacist shall communicate with the patient as necessary to keep them informed and receive input from the patient. That judgment and input from the patient should then guide the next step.

The pharmacist shall contact the patient to determine if the patient has a preferred pharmacy to transfer the prescription to if needed. The pharmacist shall make reasonable effort and accommodation to source the medication, or resend the delivery of medication if delayed.

Acute illness medications
To ensure the patient in New Mexico receives an acute illness medication at the earliest possible time, TelyRx utilizes the shipping services that have an overnight estimated transit time. The pharmacist shall make reasonable effort and accommodation to contact the patient and consider the transfer of the prescription to a local pharmacy if warranted by the patient.

Interim dosage until mailed prescription drugs becomes available
If the patient requires interim dosage, the pharmacist shall make reasonable effort and accommodation to resend the medication or to contact the patient to agree on a local pharmacy to transfer the prescription to as warranted by the patient.

Ensuring proper medication storage conditions
Please refer to "Cold Shipping SOP".

Shipping Refrigerated Products SOP
Version: 1.0

1. Products that are required to be stored refrigerated are shipped with (2) - 8 ounce frozen ice packs, in an insulated mailer.
2. The insulated mailer and two frozen ice packs are then placed into a shipping container/box.
3. The shipment option that shall be selected is Fedex Standard Overnight.
4. In the event of any shipping delays or delays for the patient receiving their package, the pharmacist is expected to do their due diligence in researching and/or contacting the manufacturer to determine to what extent excursions are allowed that won't impact the effectiveness and safety of the medication.
5. The pharmacist shall use their professional judgment & research along with the manufacturer's guidance to determine if the product needs to be redirected back to the pharmacy and/or should not be used by the patient.

Retaliation claim in which I, as the Company's lawyer, was named as an individual defendant. Original, dismissed, appeals court reinstated case which later settled out of court and all claims against me were dismissed with no payment or finding of liability.

This opinion shall not "constitute precedent or be binding upon any court." Although it is posted on the internet, this opinion is binding only on the parties in the case and its use in other cases is limited. R. 1:36-3.

SUPERIOR COURT OF NEW JERSEY
APPELLATE DIVISION
DOCKET NO. A-2904-19

MARGARET GATHMAN,

Plaintiff-Appellant,

v.

CARE ONE MANAGEMENT, LLC,
ELIZABETH STRAUS, and
THOMAS MCKINNEY,

Defendants-Respondents.

Argued December 15, 2021 – Decided February 22, 2022

Before Judges Sumners and Firko.

On appeal from the Superior Court of New Jersey, Law Division, Bergen County, Docket No. L-5015-17.

R. Armen McOmber argued the cause for appellant (McOmber McOmber & Luber, PC, attorneys; Lauren M. Hill, of counsel and on the briefs; Peter D. Valenzano and R. Armen McOmber, on the briefs).

Michael J. Dee argued the cause for respondents (O'Toole Scrivo, LLC, attorneys; Thomas P. Scrivo and Michael J. Dee, of counsel; Nicole M. DeMuro, on the brief).

PER CURIAM

Plaintiff Margaret Gathman appeals the Law Division's summary judgment order dismissing with prejudice her first amended complaint alleging that defendants Care One Management, LLC (Care One), Thomas A. McKinney, and Elizabeth Straus terminated her employment in violation of the Conscientious Employee Protection Act (CEPA), N.J.S.A. 34:19-1 to -14, and common law under Pierce v. Ortho Pharm. Corp., 84 N.J. 58 (1980). We reverse and remand for trial because we agree with Gathman that there are genuine issues of material facts regarding the reasons for her termination, and that she can decide prior to trial whether she wants to pursue her CEPA or Pierce claim.

I

In this appeal, our recitation of the facts is derived from the evidence submitted by the parties in support of, and in opposition to, the summary judgment motion, viewed in the light most favorable to the non-moving party, Gathman, and giving her the benefit of all favorable inferences. Globe Motor Co. v. Igdalev, 225 N.J. 469, 479 (2016) (citing R. 4:46-2(c)).

Care One is a management company providing services to various post-acute nursing and assisted living facilities on the east coast, including approximately thirty facilities in New Jersey. Gathman was initially employed

by Care One in 2005, as a Regional Business Office Manager. After rising to the position of Assistant Regional Controller, she resigned for personal reasons in July 2012.

In the spring of 2015, Gathman was contacted by Care One's Chief Strategy Officer, Timothy Hodges, about meeting with Straus, Care One's Executive Vice President, to discuss returning to the company. According to her, Hodges sought her out because of her past "success[] turn[ing] facilities around and collect[ing] the monies that the company needed to operate, put[ting] systems in place[,] and [doing] training on a broad scale." After meeting with company executives, Straus, Michael Shea, Controller, Daniel Straus, Chairman and Chief Executive Officer, and Alberto Lugo, Executive Vice President and General Counsel, Gathman returned to Care One as Director of the Shared Business Office on August 19, 2015.

A month or so later, Gathman discovered the company was exposed to liability for violating the law by not returning overpayments. She discovered that overpayments and security deposits owed to Medicare, Medicaid, and other entities and individuals for residents who died were overdue. In one case, she determined that $50,000 in a resident's personal needs checking account in one of their facilities was illegally retained for over a year after the resident died.

Although funds needed to be returned, she believed it was not a "number one priority" at the time because she was more focused on the "tremendous amount of outstanding receivables."

A couple of months later, Gathman determined she had to give attention to refunding overpayment as well as improving the collection of money owed to Care One. The failure to return overpayments to the federal government posed a liability to the company under Section 1128J(d) of the Patient Protection and Affordable Care Act, 124 Stat. 119 (2010).[1] In January, February, and March of 2016, Gathman issued reports regarding the extent of the unreturned overpayments and liability to her supervisor, Shea. During a meeting, Shea stated that Care One's management team would not be pleased about this problem, and she should create a plan—without having to hire additional staff—to tackle the issue before presenting it to management. According to Gathman,

[1] Section 1128J(d) of the Affordable Care Act, which took effect on March 23, 2010, requires a person who "has received an overpayment" from the federal government to report and return the overpayment and to provide, in writing, a reason for the overpayment. 42 U.S.C. § 1320a-7k(d)(1). The overpayment must be reported and returned within sixty days after the date on which the overpayment is "identified" or, if applicable, the date any corresponding cost report is due, whichever is later. Id. § 1320a-7k(d)(2). The requirement to report and return an overpayment within this deadline is defined as "an obligation" within the meaning of the False Claims Act, 31 U.S.C. §§ 3729-3733. Id. § 1320a-7k(d)(3).

she kept senior management, including Straus and Lugo, abreast of her progress on the retained funds via monthly meetings and written progress reports, and expressed concern over the company's non-compliance in returning them, estimated to be as much as $13 million with further investigation needed to settle the actual amount.

In April 2016, Shea was terminated from Care One. Lugo, who informed Gathman that Shea's termination had "to do with th[e] whole credit mess[;]" stated she would now report to him and Straus.

On August 4, Straus advised Gathman that she was being considered for the position of Vice President of Finance. The day before, Gathman emailed McKinney, Lugo, Straus, Hodges, and others a report (August 3 report) providing that she had returned "large sums of money," identified as "true credits" owed to Medicare, Medicaid, individuals, and entities, which were unlawfully held by Care One. Credits totaling approximately $3 million had been returned in the first six months of 2016, roughly $500,000 a month. Because Care One's monthly revenue for New Jersey facilities was roughly $30 to $32 million a month, Gathman believed returning the owed funds at that rate would not "have a drastic impact on [the company's] cash flow [and] it would help [the company] to get compliant within a year, year and a half."

On August 12, 2016, McKinney, Senior Vice President and Deputy General Counsel, delivered a letter—signed only by him—to Gathman stating she was terminated that day because "of certain things that have come to light recently, the organization has lost confidence in [her] ability to effectively perform in [her] role" and her position was eliminated due to restructuring. In a meeting with McKinney and Christina Lopez from Human Resources, Gathman claimed she was told Straus made the decision to terminate her. Straus, however, deposed that she did not know Gathman and was not involved in terminations. McKinney deposed that it was Lugo who made the decision to terminate Gathman, but in speaking to Lugo about the action, he did not specify the performance issues "the organization" had with her or why her position was being eliminated.

Lugo deposed that while Gathman was providing him reports documenting the refunds she was authorizing, he was also receiving financial reports from the New Jersey facilities as well as outside facilities. He identified "trends . . . concerning [her role,]" which caused him to lose confidence in her ability. In addition, he stated he spoke with a former employee, Angela Bayarovich, one of Gathman's subordinates, who indicated she would not return to Care One because she was "uncomfortable with []Gathman's managerial

style." Lugo also testified that an August 11, 2016 report (August 11 report) by Steven Lancman, the company's then-Vice President of Finance, showed that the New Jersey facilities, which Gathman oversaw, were behind all other regions in reducing the credit balance or keeping them static; New Jersey's credit balances "increased by [twenty-three percent] from January to July 2016."

II

In Gathman's first amended two-count complaint,[2] she alleges defendants wrongfully terminated her in violation of CEPA and Pierce because she advised in her August 3 report that she returned $3 million dollars in overpayments to Medicare, Medicaid, and individuals. Care One asserts she was terminated because information contained in the August 11 report conflicted with prior Gathman-authored reports regarding the status of Care One's overall credit balance in New Jersey, causing the company to lose confidence in her ability to perform her job duties.

Following discovery, defendants moved for summary judgment dismissal of all claims with prejudice. The motion court granted summary judgment, setting forth its reasoning in a ten-page, single-spaced rider to its order.

[2] Linda Martin, Alberto Lugo, and Daniel Straus were named defendants in Gathman's initial complaint but were not named defendants in the first amended complaint.

The court determined that while Gathman had "asserted a prima facie cause of action under the first three elements of CEPA[,]" she failed to make a prima facie showing of the fourth and last element: a causal connection between her whistle-blowing activity through her August 3 report and her termination on August 12. The court explained:

> [it] does not accept that the whistle[-]blowing activity began with the August 3 [report], wherein Gathman allegedly informed Care One that she returned $3 million in overpaid credits to Care One's customers. Gathman began to inform Care One about the large amount of outstanding overpaid credits, which were not being paid back in a timely manner, starting in January 2016. In January 2016, Gathman notified Care One that Care One was in possession of $6.5 million credits that were either overpaid or not reconciled with a corresponding account. Gathman was not terminated until [eight] months later in August 2016. Every month, Gathman provided Care One with a report, which noted the amount of "overpaid credits." The [c]ourt also notes that all the parties agree that credit collection is a naturally occurring phenomenon in the health care industry and managing the credits is imperative to the financial health of any health care facility.
>
> . . . .
>
> Gathman fails to present any evidence of a pattern of antagonism on behalf of Care One. Lugo's alleged failure to respond to an email that did not solicit a response is not a pattern of antagonism. . . . There is no evidence that []Lugo or any other officer of Care One objected to or refused to accept Gathman's Progress

> Reports and "Solutions" contained therein. . . . The record is devoid of any conduct or pattern of antagonism on behalf of Care One or []Straus that followed the [June 11, 2016] email to justify that retaliatory discrimination was more likely than not a determinative factor in the decision to terminate Gathman. The record is also devoid of any conduct or pattern of antagonism on behalf of Care One that followed the alleged [August 3 report], even if the court were to isolate that report from the earlier monthly Gathman[-]authored reports.

Assuming Gathman could make a prima facie showing of the causal connection between her whistle-blowing activity and her termination, the court found she could not establish "that Care One's non-discriminatory reason [for terminating her employment] was pretextual." The court reasoned that Gathman did not dispute the legitimacy of the August 11 report detailing the twenty-three percent increase in New Jersey's credit balance, and "Gathman's personal disagreement with Lugo's reliance on and interpretation of the [report] is insufficient to show pretext." The court rejected Gathman's assertion that management did not welcome reports of credits owed to federal and state entities, as well as individuals, based upon Shea's comments and her perception of McKinney's disinterest in her concerns about illegal retention of overpayments. The court also determined Gathman's assertion that Straus told her she was being considered for a promotion "does not tend to demonstrate

weaknesses in Care One's proffered business reason for Gathman's termination" because Straus knew nothing about the company's collections, and her comment about the promotion "ha[d] nothing to do with . . . Lugo's perception of [her] performance" given the credit balance issue.

Even though Gathman pointed to various encounters where Lugo ignored her or received a brush off from defendants as dispositive evidence, the court found that it did not discredit Care One's reason to terminate her.

> A factual dispute as to whether []McKinney is diligent, shrewd, or competent is not a material dispute to defeat the within motion.
>
> . . . .
>
> Such actions would not allow a jury to reasonably find that []Lugo had animosity towards Gathman. The fact that Lugo could not recall specific one-on-one interactions or dealings he had with Gathman does not tend to show that Lugo or Care One harbored discriminatory animus towards [her].

The court rejected Gathman's attack on Lugo's credibility based on differences in his deposition testimony and his summary judgment affidavit—e.g., inability to recall Lancman's position and who wrote the August 16 report—as a reason summary judgment must be denied. The court ruled it:

> decline[d] to accept Gathman's argument that Lugo's affidavit materially contradicts [his] deposition. With respect to the issue of whether a question of fact can be

> created by an affidavit contradicting the affiant's deposition, New Jersey [c]ourts have adopted the "sham affidavit" doctrine and hold that an inconsistent affidavit will not be regarded as sham, submitted for the sole purpose of defeating summary judgment if the contradiction is plausibly explained. Shelcusky v. Garjulio, 172 N.J. 185, 200-202 (2002). Any perceived "inconsistences" in Lugo's affidavit are plausibly explained by Lugo's deposition or the manner in which it was or was not conducted.

The court also granted summary judgment on the specific claims of retaliation against McKinney and Straus, holding:

> As a preliminary matter, Gathman's assertion that Straus was somehow involved in [her] termination is based entirely on hearsay. A member of Care One's HR department "was told" that Straus decided to terminate Gathman. However, Gathman failed to elicit such testimony from any other employee of Care One, including []Straus. The record is void of any evidence to show that []Straus initiated the first discussion regarding termination and the dissolution of the subject department. In fact, []Straus testified that she was not involved in the collections department and had not been involved in the decision to terminate Gathman. Moreover, Lugo testified that he did not discuss his decision to terminate Gathman with []Straus. . . . []Straus testified she never had a conversation with anyone, including Lugo, to discuss any reason for Gathman's termination.
>
> . . . .
>
> Gathman asserts that McKinney blew [her] off in June 2016[,] when [she] attempted to have a conversation about Care One's collectables, but a showing that McKinney may be, at most, cold, is not enough to establish that the proffered reason for Gathman's termination was pretextual. This [c]ourt

> also notes that Gathman's alleged dealing with McKinney occurred several months before Gathman's termination. A jury could not reasonably find a causal connection between McKinney's alleged actions and Gathman's termination. Furthermore, Gathman has not set forth any evidence to show that McKinney was actively involved or participated in [her] termination, other than him rubberstamping the termination letter containing Lugo's proffered reason for her termination.
>
> Here, Gathman presented no evidence that McKinney was aware of the August 3 [report] where Gathman allegedly reported that she returned $3 million in overstated credits.

Lastly, the court granted summary judgment dismissal of Gathman's Pierce wrongful discharge in violation of public policy claims because they were not factually distinct from the dismissed CEPA claims.

III

We review a grant of summary judgment de novo, applying the same standard as the motion court. Henry v. N.J. Dep't of Human Servs., 204 N.J. 320, 330 (2010). Summary judgment must be granted if "the pleadings, depositions, answers to interrogatories and admissions on file, together with the affidavits, if any, show that there is no genuine issue as to any material fact challenged and that the moving party is entitled to a judgment or order as a matter of law." R. 4:46-2(c). We consider whether "the competent evidential materials presented, when viewed in the light most favorable to the non-moving party, are sufficient to permit a rational factfinder to resolve the alleged disputed

issue in favor of the non-moving party." Brill v. Guardian Life Ins. Co. of Am., 142 N.J. 520, 540 (1995).

To establish a prima facie case under CEPA, a plaintiff must prove:

> (1) he or she reasonably believed that his or her employer's conduct was violating either a law, rule, or regulation promulgated pursuant to law, or a clear mandate of public policy;
>
> (2) he or she performed a "whistle-blowing" activity described in N.J.S.A. 34:19-3(c);
>
> (3) an adverse employment action was taken against him or her; and
>
> (4) a causal connection exists between the whistle-blowing activity and the adverse employment action.
>
> [Lippman v. Ethicon, Inc., 222 N.J. 362, 380 (2015) (quoting Dzwonar v. McDevitt, 177 N.J. 451, 462 (2003)).]

"The evidentiary burden at the prima facie stage is 'rather modest . . . .'" Zive v. Stanley Roberts, Inc., 182 N.J. 436, 447 (2005) (quoting Marzano v. Comput. Sci. Corp., 91 F.3d 497, 508 (3d Cir. 1996)). Moreover, "[t]hese requirements must be liberally construed to effectuate CEPA's important social goals." Maimone v. City of Atl. City, 188 N.J. 221, 230 (2006). CEPA prohibits employers from retaliating against an employee who:

a. Discloses, or threatens to disclose to a supervisor or to a public body an activity, policy or practice of the employer . . . that the employee reasonably believes:

(1) is in violation of a law, or a rule or regulation promulgated pursuant to law . . . ; or

(2) is fraudulent or criminal . . . ;

b. Provides information to, or testifies before, any public body conducting an investigation, hearing or inquiry into any violation of law, or a rule or regulation promulgated pursuant to law by the employer . . . ; or

c. Objects to, or refuses to participate in any activity, policy or practice which the employee reasonably believes:

(1) is in violation of a law, or a rule or regulation promulgated pursuant to law . . . ;

(2) is fraudulent or criminal . . . ; or

(3) is incompatible with a clear mandate of public policy concerning the public health, safety or welfare or protection of the environment.

[N.J.S.A. 34:19-3.]

CEPA defines "retaliatory action" as "the discharge, suspension or demotion of an employee, or other adverse employment action taken against an employee in the terms and conditions of employment." N.J.S.A. 34:19-2(e). Once a plaintiff establishes the four elements outlined in Dzwonar, the burden shifts to the defendant to "advance a legitimate, nondiscriminatory reason for the adverse

conduct against the employee." Klein v. Univ. of Med. & Dentistry of N.J., 377 N.J. Super. 28, 38 (App. Div. 2005). "If such reasons are proffered, plaintiff must then raise a genuine issue of material fact that the employer's proffered explanation is pretextual." Id. at 39.

Here, the motion court ruled Gathman established the first three prongs of a prima facie CEPA claim but did not satisfy the fourth prong that a causal connection existed between her whistle-blowing activity and her termination. To meet this prong, Gathman was required to demonstrate "evidence of circumstances that justify an inference of retaliatory motive." Romano v. Brown & Williamson Tobacco Corp., 284 N.J. Super. 543, 550 (App. Div. 1995); see also Maimone, 188 N.J. at 237 (noting this prong "can be satisfied by inferences that the trier of fact may reasonably draw based on circumstances surrounding the employment action"). Evidence of such circumstances may include "[t]he temporal proximity of employee conduct protected by CEPA and an adverse employment action," Maimone, 188 N.J. at 237, but "[t]emporal proximity, standing alone, is insufficient to establish causation," Hancock v. Borough of Oaklyn, 347 N.J. Super. 350, 361 (App. Div. 2002).

To establish a causal connection between the protected activity and the retaliation, causation "may be demonstrated by evidence of circumstances that

justify an inference of retaliatory motive," and the evidence of pretext may serve that function. Romano, 284 N.J. Super. at 550-52. The temporal proximity of protected activity followed by an adverse employment action is usually insufficient by itself to establish the causal connection. Young v. Hobart W. Grp., 385 N.J. Super. 448, 467 (App. Div. 2005). New Jersey applies the burden-shifting approach developed under McDonnell Douglas Corp. v. Green, 411 U.S. 792 (1973), which applies to CEPA retaliation claims. Massarano v. N.J. Transit, 400 N.J. Super. 474, 492 (App. Div. 2008).

The McDonnell Douglas approach requires a plaintiff to establish a prima facie case of discrimination. 411 U.S. at 802. Once a prima facie case is established, the second prong of the McDonnell Douglas test requires the employer "to articulate some legitimate, nondiscriminatory reason for" its action. Texas Dep't of Cmty. Affs. v. Burdine, 450 U.S. 248, 253 (1981) (quoting McDonnell Douglas, 411 U.S. at 802). That is not a burden of persuasion, which "remains at all times with the plaintiff." Ibid. The employer only needs to "articulate" a nondiscriminatory reason for its action "with sufficient clarity so that the plaintiff will have a full and fair opportunity to demonstrate pretext." Id. at 253, 255-256.

Indeed, the employer never has the burden of proving that its proffered reason was the actual reason for its action, "because the burden of proving the actual discrimination lies at all times with the plaintiff." Bray v. Marriott Hotels, 110 F.3d 986, 990 (3d Cir. 1997). The employer's articulation must be "taken as true," and the court's evaluation of it during this second part of the McDonnell Douglas test "can involve no credibility assessment." St. Mary's Honor Ctr. v. Hicks, 509 U.S. 502, 509 (1993).

If the employer articulates a nondiscriminatory reason, the plaintiff loses the benefit of the presumption established by the prima facie case. Burdine, 450 U.S. at 255-56. To survive the employer's motion for summary judgment, the plaintiff must present "evidence which: 1) casts sufficient doubt upon each of the legitimate reasons proffered by the defendant so that a factfinder could reasonably conclude that each reason was a fabrication; or 2) allows the factfinder to infer that discrimination was more likely th[a]n not a motivating or determinative cause of" the action in question. Fuentes v. Perskie, 32 F.3d 759, 762 (3d Cir. 1994).

The plaintiff's evidence of pretext may be indirect, Burdine, 450 U.S. at 256, or circumstantial, Mandel v. UBS/PaineWebber, Inc., 373 N.J. Super. 55, 75 (App. Div. 2004). It may even be simply the incredibility of the employer's

proffered reason, which, in conjunction with the prima facie case, may be legally sufficient to support the inference that the alleged discriminatory reason was an actual one. St. Mary's, 509 U.S. at 511.

The plaintiff does not have to show that the prohibited reason was the employer's sole reason, but rather that it may have been one of the employer's "but[-]for" reasons. Fuentes, 32 F.3d at 764. However, while employers may not act for a prohibited purpose, they are free, when unlawful discrimination is not a factor, to make personnel decisions objectively or subjectively, and in a manner that is unpopular with the employees. Maiorino v. Schering-Plough Corp., 302 N.J. Super. 323, 345-46 (App. Div. 1997).

Gathman contends the motion court's summary judgment dismissal of her complaint was based on its erroneous finding that she failed to establish a prima facie case of CEPA fourth prong violation — causal connection between her whistle-blowing activity and her termination. She argues summary judgment was not proper given there is a genuine issue of fact regarding why she was terminated. She emphasizes the court usurped the jury's role by acting as a factfinder to make credibility determinations in defendants' favor, concluding she was terminated for the reasons defendants contended. For support, she relies upon In re Estate of DeFrank, 433 N.J. Super. 258, 266 (App. Div. 2013), where

we held "it is ordinarily improper to grant summary judgment when a party's state of mind, intent, motive or credibility is in issue."

Gathman specifically argues the temporal proximity between her termination on August 12 and her August 3 report to management that she had returned $3 million was enough to "give[] rise to an inference of retaliation[,]" from which a jury could "reasonably determine" that defendants' given reasons for her termination were a pretext. She contends there are numerous "issues of witness credibility directly relevant to" her termination. This includes the fact that Straus told her eight days before she was terminated that she was being considered for a promotion; Lugo deposed he did not know who she was or anything about her job performance despite signing her termination letter; the company's Director of Compliance, Linda Martin, deposed that Gathman was a hard worker and she was pleased with the progress Gathman was making in resolving certain compliance-related issues, including refunding overpayments; and Gathman had not been warned or informed of any problems concerning her job performance prior to her termination.

Viewing the evidence in the light most favorable to Gathman, we conclude the motion court erred in finding she did not establish a prima facie claim that her termination was in retaliation for returning $3 million to Medicare,

Medicaid, and other entities and individuals. There was a genuine issue of material fact regarding whether there was temporal proximity between her whistle-blowing and her termination. The court found that too much time had elapsed to establish a connection between whistle-blowing and termination when Gathman initially notified Care One in her January 2016 report that the company was illegally retaining overpayments and she began making refunds, and her termination on August 12, 2016. However, Gathman was terminated within days of her August 3 report quantifying, for the first time, that she had refunded some $3 million. Granted, Lugo received a report days later, on August 11, that the credit balances in Gathman's region were twenty-three percent higher than other regions. However, she correctly questions the legitimacy of that justification by pointing out she was recruited to return to Care One because of her demonstrated competence and was on the verge of a promotion due to her performance according to her supervisor, yet she was given no opportunity to discuss the August 11 report findings and her response to that report with Lugo or any other senior executive. While her progress reports detailing the extent of the unreturned overpayments and liability commenced in January 2016, there is an important distinction between identifying the overpayment liability and advising what needs to be done versus informing

senior management in the August 3 report that she returned $3 million. As for defendants' arguments to the contrary that they lost confidence in Gathman, there is a genuine dispute of material facts and, to Gathman's favor, an inference of causality for her termination eight days after she illuminated the amount of money she refunded. Due to genuine issues of material facts, the court should not have made credibility assessments of the proffered facts and applied those findings more favorably to defendants to find that Gathman did not establish a prima facie CEPA claim of retaliation. For example, there were conflicting facts regarding Lugo's knowledge of Gathman's role in the company: his deposition asserted he was unaware of her job duties, job performance, or who evaluated her, in contrast with his summary judgment certification detailing his expectation of her job duties and performance. Yet, the court accepted his representation that she was terminated because the company lost confidence in her ability to do her job.

As for defendants McKinney and Straus, the court should not have acted as a factfinder in dismissing the claims against them. Individual defendants can be held liable for terminating an employee for "personally participat[ing] in the tort of wrongful discharge." Ballinger v. Delaware River Port Auth., 172 N.J. 586, 608 (2002). It is contended that "neither []McKinney nor []Straus was

responsible for the decision to terminate her employment[,]" claiming Lugo made the decision. The finding that there was no evidence McKinney was "actively involved or participated in Gathman's termination, other than him rubberstamping the termination letter containing Lugo's proffered reason for her termination" is disputed, as it did not credit Gathman's allegations. The record indicates that McKinney was aware of Gathman's reporting of the illegally retained overpayments and her refunding of $3 million. His letter does not assert the decision to terminate Gathman was made by Lugo or any other Care One decision maker. There appears to be no basis in the record to conclude McKinney's action was merely an administrative formality lacking any input on his part. Giving Gathman's assertions the benefit of favorable inferences, a reasonable factfinder could conclude that McKinney's signature on the letter was indicative of his input in her termination.

While the claims against Straus may not be as strong as those against McKinney, Gathman alleged that McKinney and Lopez admitted that Straus made the decision to terminate her. Straus denied any input. Straus's credibility suffers a hit given her claim that despite being an executive vice president, she had no understanding of the company's account receivables or collections and what Medicare or Medicaid are. Gathman's contention that she reported to

Straus and Lugo, and that Straus was fully aware of the $3 million in refunds she made, would certainly allow a factfinder to reasonably conclude Straus had input in the termination decision. And, if Gathman was up for a promotion on August 4, as Straus allegedly told her, why would her position be eliminated, and she be terminated days later? Considering these disputed material facts, the motion court should not have favored Straus's position in granting summary judgment, and thus dismissing Gathman's contention that Straus was involved in the decision to terminate her.

As for Gathman's Pierce claim, it is based upon our Supreme Court's recognition "that an [at-will] employee has a cause of action for wrongful discharge when the discharge is contrary to a clear mandate of public policy." Pierce, 84 N.J. at 72. "The sources of public policy include legislation; administrative rules, regulations or decisions; and judicial decisions." Ibid. CEPA falls with Pierce's ambit because the law constitutes public policy, as "[t]he Legislature enacted [it] to 'protect and encourage employees to report illegal or unethical workplace activities and to discourage public and private sector employers from engaging in such conduct.'" Dzwonar, 177 N.J. at 461 (quoting Abbamont v. Piscataway Township Bd. of Educ., 138 N.J. 405, 431

(1994)). Because we conclude Gathman's CEPA claim should not have been dismissed, her Pierce claim remains viable for the same reasons.

Under CEPA's waiver provision, however, "the institution of an action in accordance with [CEPA] shall be deemed a waiver of the rights and remedies available under any other . . . State law." N.J.S.A. 34:19-8. The provision "applies only to those causes of action that require a finding of retaliatory conduct that is actionable under CEPA. The waiver exception does not apply to those causes of action that are substantially independent of the CEPA claim." Young v. Schering Corp., 141 N.J. 16, 29 (1995). "Parallel claims based on those rights, privileges and remedies are waived because they represent multiple or duplicative claims based on retaliatory discharge." Ibid.

Since Gathman's CEPA and Pierce claims are based upon the same facts, she must elect which claim to pursue at trial. Yet, she has a right to wait until a pretrial conference to pursue her claim. Ibid. at 32 ("The meaning of 'institution of an action' [under N.J.S.A. 34:19-8] could conceivably contemplate an election of remedies with restrictions in which the election is not considered to have been made until discovery is complete or the time of a pretrial conference contemplated by Rule 4:25-1.").

We express no opinion on whether Gathman can prove adverse employment by defendants in retaliation for her whistle-blowing activity. We merely conclude summary judgment should not have been granted to defendants because there were genuine issues of material facts regarding her claims that defendants' action violated CEPA and Pierce.

Reversed and remanded for trial for proceedings consistent with this opinion. We do not retain jurisdiction.

80. This officer was on a complaint when I observed a vehicle on Parkwood Avenue. Said vehicle was travelling at a speed where the operator could not stop for the stop sign and when it made a right turn onto W 14th Street the tires were sliding. The vehicle pulled into a driveway of 282 W 14th Street. | 9

I walked up to the house and spoke with the driver. I asked the driver for his driver's license, registration card, and proof of insurance. The driver did hand me a NYS driver's license that identified him as Adam Gardner. I could smell the odor of alcoholic beverages coming from inside the car and also noticed Gardner's eyes were red and bloodshot. | 10

ADDITIONAL NARRATIVE

I asked Gardner how much alcoholic beverages he had been drinking tonight. Gardner replied "none". I asked Gardner to exit the vehicle and directed him to stand at the rear of his vehicle. When Gardner opened his driver's door I noticed a Keystone Light beer can lying in between the seat and the door. While talking with Gardner I could still smell the odor of alcoholic beverages coming from his breath. Gardner finally admitted to drinking 4 beers and his last one 1 to 2 hours ago.

I asked Gardner if he would agree to perform some field sobriety tests to determine if he was ok to be driving. Gardner agreed to take said tests.

The first test Gardner performed was the Horizontal Gaze Nystagmus Test. Gardner failed said test when his eyes had all six clues of failure present. Gardner's eyes lacked smooth pursuit in both eyes, had distinct nystagmus at maximum deviation, and had nystagmus prior to 45- degrees of onset.

Because of the hilly conditions this officer did not have Gardner perform the WAT and OLS tests.

The next test Gardner performed was the Finger to Nose Test. Gardner failed said test when he failed to touch the tip of his nose with the tip of his finger any of the 6 six times he was instructed to do so. Gardner also failed to tilt his had and keep his eyes completely closed through out the test like he was instructed to do so.

Gardner refused to take the PBT. Gardner was placed under arrest for DWI. Gardner was handcuffed, searched, and placed in the rear of patrol car 301. Gardner's vehicle was ok to be parked in the driveway as it was.

Gardner was transported to EHPD where he was video taped. On video Gardner was read his refusal/miranda warnings. Gardner refused to take the chemical test and refused to perform SFST's and answer questions.

Gardner was issued 5 utt's and is to appear in EHVJC on July 22 at 1800hrs. Gardner called a friend for a ride home.

CERTIFICATE OF DISPOSITION

STATE OF NEW YORK
CHEMUNG COUNTY

ELMIRA HEIGHTS VILLAGE COURT
CRIMINAL PART

PEOPLE OF THE STATE OF NEW YORK

VS.

ADAM M. GARDNER, Defendant

CASE NO: 09070047

Date of Birth: redacted
Date of Arrest: 07/15/2009
Adjudication Date: 08/19/2009
Disposition Date: 08/20/2009

JCS00 no: 816014389
NYSID no: 5996273H

Original Section	Disposed Section	Ticket No & Description	Disposition	Fine	Civil Fee	Surchg
VTL 1172.0A	VTL 1110.0A	EH11001LJ6 D/S TRFC DEVICE	FINE/FEE	150.00	0.00	85.00
VTL 1192.03	VTL 1192.01	EH11001QJ3 DWAI ALCOHOL	6D FINE/FEE	500.00	0.00	260.00

Upon a proper request for an official statement of disposition, I certify that the above named defendant having appeared before this court was charged as shown above. Each of the charges was disposed of as indicated.

Sentence: One year conditional discharge, obey all laws, attend DWI/Drug/Alcohol Program, license suspended for 90 days. All fines and surcharges have been paid and case was closed on 8/20/2009.

Dated this Tuesday, 2 March, 2021

Samantha J. Jochem, Court Clerk

NOTE: A copy of the request will be filed with this certificate in the case records.

CAUTION: This information must not be divulged if the case is sealed or where the defendant has been adjudicated a youthful offender.

Nevada Board of Pharmacy
To Whom It May Concern,

This letter is to provide an explanation regarding my answers to Section 8: Arrests, Detenstions, Litigations, Arbitrations.

Question 1:
On 07/18/2009, at the age of 22, I was arrested for suspected DWI in the state of New York. My case was closed on 08/20/2009 and my final disposition indicated a DWAI which was considered a traffic infraction.

The pertinent statute under which I was sentenced is New York Vehicle & Traffic Law Section 1192 Section (1): Driving While Ability Impaired. No person shall operate a motor vehicle while a person's ability to operate such motor vehicle is impaired by the consumption of alcohol.

Driving While Ability Impaired (DWAI) is a distinct and lesser category than Driving While Intoxicated. Section 1193 of the New York Vehicle & Traffic Law states that a first-time DWAI violation is simply a traffic infraction. It is not a misdemeanor or felony.

I have attached the original arrest record along with the final disposition.

Question 4:
In 2013, a friend was parked in my driveway and upon pulling out of my driveway, I hit her vehicle causing approximately $1,000 in damages. I attempted to make an offer to pay for her damage to her car. This case was settled. I have attached the case information which is labeled as Case 13-CC-029089.

Question 6: I answered no, due to my uncertainty with the specifics of this question and if my situation applies, I am disclosing out of an abundance of caution the following below:
Disclosure of disciplinary action:
Oregon Board of Pharmacy Disciplinary Action - Adam Gardner - PIC
I had disciplinary action imposed by the Oregon Board of Pharmacy on 06/15/2022 associated with completing their state pharmacist application. When the Oregon Board of Pharmacy requested information in the pharmacist application on any "crime, offense, or violation of the law," the Board did not request information on any traffic infraction. I had no intention to deceive the Board or omit anything that the application requires. I misinterpreted the question as the final conviction was a traffic infraction in the state of New York from 2009.

The disciplinary action imposed required me to pay a $150 civil penalty, and earn and submit 3 continuing education credits for 3 hours in the area of pharmacy law or ethics. I completed both of those conditions 06/20/2022.

I have attached the Consent Order, Notice of Proposed Civil Penalty, Payment Receipt, Continuing Education Certificates, and an email from the Oregon Board of Pharmacy confirming that the case was closed and all conditions met.

The Oregon State Pharmacist License was granted to me on 04/25/2022 with license number as RPH-0018912 prior to the disciplinary action being imposed on 06/15/2022.

Michigan Pending Administrative Complaint

In relation to the Oregon Board of Pharmacy discipline, I currently have an administrative complaint pending from the Michigan Board of Pharmacy as a result for reporting my disciplinary action too late to the Michigan Board of Pharmacy.

I have attached the original communication from 08/28/2023 and my initial response. I had a compliance conference with a Michigan Board of Pharmacy representative on Tuesday 09/26/2023 at 11am. They informed me that they will provide their response and recommended action in approximately 10 business days. They did not indicate whether it would lead to additional disciplinary action or not and I have yet to hear back from them with a final decision as of today.

I appreciate your time and consideration in this matter,

11/9/23

Adam Gardner

RE: Case Number 2022-0182

Enclosed is a copy of the completed consent order for case number 2022-0182. Please retain this copy with your records.

In accordance with the consent order, your civil penalty is due in the Board office by 6/25/2022. Enclosed is a remittance form; please use this when submitting your payment. If you have already submitted your payment, please disregard this form. If you would like to pay online through your eGov account, please send an invoice request to pharmacy.compliance@bop.oregon.gov.

You are required to earn and submit three (3) hours of Continuing Education (CE) in the area of pharmacy law or ethics. These must be received in the Board office by 6/25/2022. Please include a copy of this letter or clearly write the case number on the documents submitted to the Board. Once you have completed a course, you will be provided a certificate. You need to submit certificate(s) to the Board that show your name, course name, date completed, and number of hours earned. You may submit these via email to pharmacy.compliance@bop.oregon.gov.

Sincerely,

Kim Oster
Compliance Coordinator

CC: Kevin Keaney, Attorney

BEFORE THE BOARD OF PHARMACY
OF THE STATE OF OREGON

In the Matter of the Pharmacist License of	Case No. 2022-0182
ADAM GARDNER	CONSENT ORDER
Licensee	

WHEREAS, the Board of Pharmacy of the State of Oregon has filed a Notice of Proposed Civil Penalty ("Notice") regarding the licensee in the above-captioned matter; and

WHEREAS, the above-noted Notice was duly served on the licensee as required by law; and

WHEREAS, the parties are desirous of resolving and settling those matters contained in the above-noted Notice without further proceedings thereon, and

WHEREAS, the licensee is aware of the right to a hearing with the assistance of counsel and the right to judicial review of the Board's decision, and hereby freely and voluntarily waives those rights; and

WHEREAS, the licensee admits that he did not disclose an arrest on his 12/7/2021 application, and that legal cause exists pursuant to ORS 689.405 for disciplinary action by the Board; and

WHEREAS, the licensee consents to the disciplinary action as set forth herein;

The Board finds that Licensee failed to disclose an arrest on his 12/7/2021 application in violation of OAR 855-019-0205(1), and is grounds for discipline under ORS 689.405(1)(i), ORS 689.445(1)(d)(A) and ORS 689.832(1) and hereby:

1. Licensee shall pay a civil penalty in the amount of $1,000 with $850 stayed pending compliance with the terms of this Consent Order and no further violation for three (3) years. The $150 civil penalty not stayed shall be paid within ten days from the date this Consent Order becomes final. If Licensee violates any term or condition of this Consent Order, within three years of the effective date of this Consent Order, the Board may take action to lift the stayed portion of the civil penalty.

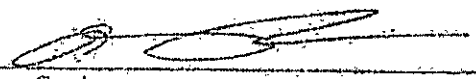
2. Licensee shall earn and submit continuing education (CE) certificates for three (3) hours of CE in the area of pharmacy law or ethics within 10 days from the date this Consent Order becomes final. The continuing education hours earned in regard to this case are in addition to the CE required for renewal and are not eligible for renewal purposes.

3. Failure of the licensee to comply with all the requirements of the final order in this

matter constitutes failure to cooperate with the Board and is grounds for revocation or any other form of discipline or sanction authorized by law.

CONSENT

I hereby acknowledge that I have read and understand the above-noted Notice and the terms of the Consent Order. I hereby acknowledge that I understand that the Consent Order with incorporated Notice is a public record and shall be available via the Board's online licensure verification; is available upon written request pursuant to public disclosure laws; and shall be reported to the National Practitioner Data Bank as required by federal law. I agree to the Board entering the Consent Order.



Adam Gardner
Licensee (License No. RPH-0018912)

6/14/22
Date

IT IS SO ORDERED.

BOARD OF PHARMACY
FOR THE STATE OF OREGON

Brianne Efremoff, Pharm.D., R.Ph.
Compliance Director

6/15/2022
Date

BOARD OF PHARMACY
OF THE STATE OF OREGON

In the Matter of the Pharmacist License of	)	Case No. 2022-0182
	)	NOTICE OF PROPOSED
ADAM GARDNER, R.Ph.	)	CIVIL PENALTY
	)	
Licensee	)	

The Oregon Board of Pharmacy proposes to impose a civil penalty pursuant to ORS 689.445, ORS 689.832, and ORS 689.405 because you violated the Oregon Pharmacy Act and the Board of Pharmacy rules as follows:

On or about 12/7/2021, you submitted an application to the Board of Pharmacy for licensure as a Pharmacist (which has been granted).

The Board of Pharmacy license application includes the question, "Have you ever been cited, arrested for, charged with or convicted of the commission of any crime, offense or violation of the law in any state or by the Federal Government even if those charges were dismissed?" You responded "No."

Moreover, as part of the application process, you wrote out by hand a statement that "I have never been arrested or cited for, charged with nor convicted of the commission of any crime, offense or violation of the law in any state or by the federal government. I have never been charged with nor disciplined for the violation of a pharmacy, liquor or drug law or regulation by a professional licensing board or agency. I have never surrendered or resigned a professional license."

Finally, you submitted the application swearing or affirming that and all information provided was true and correct and were aware to the best of your knowledge and were aware that providing false information, supplying misleading information, or withholding information is grounds for denial of a license.

Despite the language of the application, you failed to report that on or about 7/18/2009, you were arrested by the police for Driving while Intoxicated (misdemeanor).

By answering "No" to the questions regarding whether you had ever been cited for, arrested for, charged with, or convicted of any crime, offense, or violation of the law, you failed to answer all questions completely, accurately, and honestly on the application for licensure and this is grounds for discipline under OAR 855-019-0205(1) and (2), ORS 689.405(1)(i), ORS 689.445(1)(d)(A), and ORS 689.832(1).

Based on these alleged violations and pursuant to the authority outlined above, the Board proposes to impose a $1,000 civil penalty upon you.

HEARING RIGHTS

You are entitled to a hearing as provided by the Administrative Procedures Act (ORS chapter 183). If you wish to have a hearing, you must file a written request for hearing with the Board within 21 days from the date this notice was mailed. You may send or deliver a request for hearing to:

Oregon Board of Pharmacy
800 NE Oregon Street, Suite 150
Portland, OR 97232
Fax (971) 673-0002

If a request for hearing is not received within this 21-day period, your right to a hearing shall be considered waived.

If you request a hearing, you will be notified of the time and place of the hearing. Before the commencement of the hearing, you will be given information on the procedures, right of representation and other rights of parties relating to the conduct of the hearing. You may be represented by legal counsel.

If you do not request a hearing within 21 days, or if you withdraw a hearing request, notify the Board or Administrative Law Judge that you will not appear, or fail to appear at a scheduled hearing, the Board may issue a final order by default imposing discipline. If the Board issues a final order by default, it designates its file on this matter as the record.

NOTICE TO ACTIVE DUTY SERVICEMEMBERS: Active duty service members have a right to stay these proceedings under the federal Service members Civil Relief Act. For more information contact the Oregon State Bar at 800-452-8260, the Oregon Military Department at 503-584-3571 or the nearest United States Armed Forces Legal Assistance Office through http://legalassistance.law.af.mil. Good afternoon,

I am providing notification that I have met all of the requirements pertaining to the consent order from Case Number 2022-0182.

Attached is the payment receipt for the fine, and the 3 certificates for (3) hours of continuing education credits in the area of pharmacy law or ethics.

Please provide confirmation that you have received my required documentation, and please provide confirmation that I have completed all of the requirements pertaining to the consent order for Case Number 2022-0182.

Thank you,

Adam Gardner

Good morning,

Please see the attached Compliance Conference Request completed form.

I was hoping there was a chance we could discuss this situation as soon as possible.

I am licensed as a pharmacist in 14 states, and I researched all of the states that required me to submit my disciplinary actions at the time of the action in 06/2022. I submitted the disciplinary action to other state board of pharmacies as required, such as Massachusetts, Maryland, Iowa, Kansas, Ohio and Nebraska.

Upon my research for Michigan, I was under the impression that I had to submit the disciplinary action as part of the renewal process. I submitted all of the disciplinary information with my pharmacist license renewal back in December 2022. I can clearly see now that I have made a mistake, and I did not intend to deceive the Board as I still reported the disciplinary action on my pharmacist license renewal.

I am hoping that we can come to a settlement that does not involve more disciplinary action being imposed on another one of my licenses. I understand the requirements after you sent this email, and I see the requirements being 30 days for Michigan Board of Pharmacy. I hope that there can be some understanding as far as a good faith effort by acknowledging the fact that I did submit the disciplinary action to other Boards of Pharmacies within their required time frame, and I submitted the disciplinary action information with my Michigan pharmacist license renewal in December 2022.

The original disciplinary action was a result of me misinterpreting the pharmacist application for the Oregon Board of Pharmacy. I still plan to provide a fully written response, but I wanted to get this email out to you ASAP to hopefully have a discussion as soon as you're available.

Please advise as to how we can proceed,

I appreciate your time and consideration,

Adam

Re: File Number: 53-23-002879

Dear Applicant/Licensee/Registrant:

Enclosed is an Administrative Complaint (Complaint) charging you with violation(s) of the Public Health Code. **You must respond to this Complaint IN WRITING WITHIN 30 DAYS from the date you received it.** If you fail to do so, the Complaint will be sent to your Board's Disciplinary Subcommittee (DSC) to impose a sanction.

In your written response, please provide information demonstrating your compliance with the Public Health Code or explaining your conduct. Also, please select ONE of the following three options:

- **Request a settlement**. Your written response and a copy of the Complaint will be sent to a Board member who will recommend a proposed settlement.

- **Request a compliance conference**. This is an optional, informal opportunity to meet with me to present evidence or information not contained in your written response for purposes of settlement. Use the enclosed form to request a compliance conference.

- **Request a formal administrative hearing**. At a formal administrative hearing, an administrative law judge will receive evidence, take testimony, and issue a Proposal for Decision as to whether a violation of the Public Health Code has occurred. The hearing record will then be sent to the DSC for consideration in making the final decision.
  - ALL communications should be sent via email to the assigned analyst, whose address is provided below, and LARA-BPL-RegulationSection@michigan.gov.
  - If you are unable to communicate via email, you may respond via mail to 611 W. Ottawa St., P.O. Box 30670, Lansing, MI 48909 or fax 517-241-9280. Communication through mail or fax may experience delay.

To exercise any of these options, you must respond IN WRITING WITHIN 30 DAYS.

You may obtain legal representation at your expense. If you have any questions, please contact me by email or during normal business hours at the direct line listed below.

Sincerely,
Marshall Hooks

STATE OF MICHIGAN
DEPARTMENT OF LICENSING AND REGULATORY AFFAIRS
BUREAU OF PROFESSIONAL LICENSING
BOARD OF PHARMACY
DISCIPLINARY SUBCOMMITTEE

In the Matter of

ADAM GARDNER, R.Ph.
License No. 53-02-413200,
Respondent.

File No. 53-23-002879

ADMINISTRATIVE COMPLAINT

The Michigan Department of Licensing and Regulatory Affairs, Bureau of Professional Licensing, complains against Respondent as follows:

1. The Michigan Board of Pharmacy is an administrative agency established by the Public Health Code, MCL 333.1101 *et seq*. Pursuant to MCL 333.16226, the Board's Disciplinary Subcommittee is empowered to discipline persons for violations of the Public Health Code.

2. Respondent is currently licensed to practice as a pharmacist in the state of Michigan and has a controlled substance license. Respondent's address of record with the Department is St. Petersburg, Florida.

3. On June 15, 2022, the Oregon Board of Pharmacy (Oregon Board) executed a Consent Order (Oregon Order) that ordered Respondent to complete continuing education and pay a fine of $1,000.00. The Oregon Order was based on Respondent failing to disclose a July 18, 2009 arrest for Driving While Intoxicated on his

December 7, 2021, application to the Oregon Board. A copy of the Oregon Order, marked Exhibit A, is attached and incorporated.

4. Respondent failed to notify the Department of the action taken by the Oregon Board within 30 days from the date of the action.

COUNT I

The action by the Oregon Board, as set forth above, constitutes a final adverse administrative action by a licensure, registration, disciplinary, or certification board involving the holder of, or an applicant for, a license or registration regulated by another state or a territory of the United States, in violation of MCL 333.16221(b)(x).

COUNT II

Respondent's conduct, as set forth above, evidences a failure to notify the Department of the disciplinary action by the Oregon Board within 30 days from the date of the action, as required by MCL 333.16222(4), in violation of MCL 333.16221(f).

RESPONDENT IS NOTIFIED that, pursuant to MCL 333.16231(8), Respondent has 30 days from the date of receipt of this Complaint to submit a written response to the allegations contained in it. Pursuant to MCL 333.16192(2) of the Code, Respondent is deemed to be in receipt of the complaint three (3) days after the date of mailing listed in the attached proof of service. The written response shall be submitted by email to the Department of Licensing and Regulatory Affairs, Bureau of Professional Licensing to LARA-BPL-RegulationSection@michigan.gov. If unable to submit a

response by email, Respondent may submit by regular mail to the Department of Licensing and Regulatory Affairs, Bureau of Professional Licensing, P.O. Box 30670, Lansing, MI 48909.

Respondent's failure to submit an answer within 30 days is an admission of the allegations in this Complaint. If Respondent fails to answer, the Department shall transmit this Complaint directly to the Board's Disciplinary Subcommittee to impose a sanction, pursuant to MCL 333.16231(9).

BEFORE THE BOARD OF PHARMACY
OF THE STATE OF OREGON

In the Matter of the Pharmacist License of	)	Case No. 2022-0182
ADAM GARDNER	)	CONSENT ORDER
Licensee	)	

WHEREAS, the Board of Pharmacy of the State of Oregon has filed a Notice of Proposed Civil Penalty ("Notice") regarding the licensee in the above-captioned matter; and

WHEREAS, the above-noted Notice was duly served on the licensee as required by law; and

WHEREAS, the parties are desirous of resolving and settling those matters contained in the above-noted Notice without further proceedings thereon; and

WHEREAS, the licensee is aware of the right to a hearing with the assistance of counsel and the right to judicial review of the Board's decision, and hereby freely and voluntarily waives those rights; and

WHEREAS, the licensee admits that he did not disclose an arrest on his 12/7/2021 application, and that legal cause exists pursuant to ORS 689.405 for disciplinary action by the Board; and

WHEREAS, the licensee consents to the disciplinary action as set forth herein;

The Board finds that Licensee failed to disclose an arrest on his 12/7/2021 application in violation of OAR 855-019-0205(1), and is grounds for discipline under ORS 689.405(1)(i), ORS 689.445(1)(d)(A) and ORS 689.832(1) and hereby:

1. Licensee shall pay a civil penalty in the amount of $1,000 with $850 stayed pending compliance with the terms of this Consent Order and no further violation for three (3) years. The $150 civil penalty not stayed shall be paid within ten days from the date this Consent Order becomes final. If Licensee violates any term or condition of this Consent Order, within three years of the effective date of this Consent Order, the Board may take action to lift the stayed portion of the civil penalty.

2. Licensee shall earn and submit continuing education (CE) certificates for three (3) hours of CE in the area of pharmacy law or ethics within 10 days from the date this Consent Order becomes final. The continuing education hours earned in regard to this case are in addition to the CE required for renewal and are not eligible for renewal purposes.

3. Failure of the licensee to comply with all the requirements of the final order in this

matter constitutes failure to cooperate with the Board and is grounds for revocation or any other form of discipline or sanction authorized by law.

CONSENT

I hereby acknowledge that I have read and understand the above-noted Notice and the terms of the Consent Order. I hereby acknowledge that I understand that the Consent Order with incorporated Notice is a public record and shall be available via the Board's online licensure verification; is available upon written request pursuant to public disclosure laws; and shall be reported to the National Practitioner Data Bank as required by federal law. I agree to the Board entering the Consent Order.

If the answer to question 1 through 5 is "yes", a signed statement of explanation must be attached. Copies of any documents that identify the circumstance or contain an order, agreement, or other disposition may be required.

APPLICATION FOR OUT-OF STATE OUTSOURCING FACILITY - Page 3

I hereby certify that the answers given in this application and attached documentation are true and correct. I understand that any infraction of the laws of the State of Nevada regulating the operation of an authorized OUTSOURCING FACILITY may be grounds for the revocation of this permit.

I have read all questions, answers and statements and know the contents thereof. I hereby certify, under penalty of perjury, that the information furnished on this application are true, accurate and correct. I hereby authorize the Nevada State Board of Pharmacy, its agents, servants and employees, to conduct any investigation(s) of the business, professional, social and moral background, qualification and reputation, as it may deem necessary, proper or desirable. The facility must be registered with the FDA as an outsourcing facility (503B) to obtain an outsourcing facility from the Board of Pharmacy.

Federal and State law require a licensed pharmacist to supervise the compounding taking place in a registered outsourcing facility. This supervising pharmacist must be licensed by the Nevada Board of Pharmacy.

Does your outsourcing facility wholesale compounded medication for resale? Yes ☐ No ☐

The Law prohibits the resale of compounded medication. By signing this application you are attesting that your medications will be labeled with the statement "Not for Resale" and that the outsourcing facilities products will not be resold.

Licensee Information

Close Window

The Massachusetts Department of Public Health has implemented a deferral of expiration on all licenses, certifications, permits, and certificates of registration in good standing issued by the Board of Registration in Nursing, the Board of Registration of Physicians Assistants, the Board of Registration of Perfusionists and the Board of Respiratory Care in adherence to Order of the Commissioner of Public Health COVID-19 Public Health Emergency Order No. 2022-15 (issued June 14, 2022) and Order of the Commissioner of Public Health (COVID-19 Public Health Emergency Order No. 2022-18 (issued September 30, 2022).

PLEASE NOTE WHEN REVIEWING EXPIRATION DATE:

- If the license expiration date is prior to March 10, 2020, the license is expired.
- Licenses in the professions of Nursing, Physician Assistants, and Respiratory Care with an expiration date between March 10, 2020, and December 31, 2022, are current under the Commissioner's order, but will expire on December 31, 2022. If the expiration date is on or after December 31, 2022, for a license in one of these professions, the license is current and will expire on the stated date.
- MCSRs in these professions with a status of "Current COVID-19" will expire on December 31, 2022.

Please note, Emergency Medical Services certifications are not affected by the above guidance - their marked expiration date and status are accurate. See Emergency Medical Technicians (EMTs) and Paramedics for more information.

COMMONWEALTH OF MASSACHUSETTS BOARD OF REGISTRATION IN PHARMACY

Licensee Information

Close Window

The Massachusetts Department of Public Health has implemented a deferral of expiration on all licenses, certifications, permits, and certificates of registration in good standing issued by the Board of Registration in Nursing, the Board of Registration of Physicians Assistants, the Board of Registration of Perfusionists and the Board of Respiratory Care in adherence to Order of the Commissioner of Public Health COVID-19 Public Health Emergency Order No. 2022-15 (issued June 14, 2022) and Order of the Commissioner of Public Health (COVID-19 Public Health Emergency Order No. 2022-18 (issued September 30, 2022).

PLEASE NOTE WHEN REVIEWING EXPIRATION DATE:

- If the license expiration date is prior to March 10, 2020, the license is expired.
- Licenses in the professions of Nursing, Physician Assistants, and Respiratory Care with an expiration date between March 10, 2020, and December 31, 2022, are current under the Commissioner's order, but will expire on December 31, 2022. If the expiration date is on or after December 31, 2022, for a license in one of these professions, the license is current and will expire on the stated date.
- MCSRs in these professions with a status of "Current COVID-19" will expire on December 31, 2022.

Please note, Emergency Medical Services certifications are not affected by the above guidance - their marked expiration date and status are accurate. See Emergency Medical Technicians (EMTs) and Paramedics for more information.

Verification of Licensure

11/07/2023

To Whom It May Concern:

The organization named below was issued the following in the Commonwealth of Massachusetts:

Resident Outsourcing Facility License

Name of Organization: Fresenius Kabi Compounding, LLC
Registration Number: RO00002
Registration Status: Current
Issue Date: 01/19/2018
Expiration Date: 12/31/2023
Disciplinary Actions: There are no disciplinary actions against this license.

Registration verification may be obtained at http://checkahealthlicense.mass.gov/. The information provided in this "Verification" is based on the records maintained by the Massachusetts Bureau of Health Professions Licensure and its licensing boards. Individuals are deemed to be in good standing if their license is current and not subject to any disciplinary status on the date of issuance of the "Verification." Disciplinary status is defined as voluntary surrender, revocation, suspension or probation of a license. The "Verification" does not include information about the existence, absence, or status of complaints. To request such information, please submit a public record request to publicrecordsadmin@massmail.state.ma.us.

Sterile Compounding Questionnaire

Rev (08/02/2022)

This application cannot be returned by fax or email.
We must have an original signature to process.

Approval of this completed questionnaire is required for an existing pharmacy, new pharmacy and/or out-sourcing facility applicant who wish to engage in preparing, compounding, dispensing, and furnishing sterile compounded products to Nevada patients or consumers.

Please provide a thorough response to the questions below and provide any necessary supporting documents.
-For a new pharmacy or out-sourcing facility applicant, submit this completed form with your application.
-For an existing pharmacy, send the completed form to the address indicated above.

Section 1: General Information

Pharmacy Name: Fresenius Kabi Compounding, LLC dba Fagron Sterile Services

NV Pharmacy or Outsourcing facility license # (if applicable): Application review in process, license # not yet issued.

Physical Address: 20 Dan Road, Suite 1

City: Canton State: MA Zip: 02021

Mailing Address (if different from physical address): 8710 E 34th St N

City: Wichita State: KS Zip: 67226

Telephone: 316-773-0405 Toll Free # (NAC 639.708, NRS 639.23286): 877-254-5546

Fax: NA Contact Email: bostonlicensing@fagronsterile.com

Website: www.fagronsterile.com

Nevada Business License # (if applicable) NA

Supervising/Managing Pharmacist Name (NRS 639.220): Yeunhee Kim

Supervising/Managing Pharmacist NV Pharmacist Registration #: NA

Name of Person with direct knowledge of compounding procedures: Yeunhee Kim

Email of Person with direct knowledge of compounding procedures: yeunhee.kim@fagronsterile.com

Telephone of Person with direct knowledge of compounding procedures: 316-773-0405

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)? ☐ Low ■ Medium ☐ High
If you marked "High", you must also complete section 4.

2. Will you be performing sterile hazardous drug compounding? ■ Yes ☐ No
If you marked "Yes", you must also complete section 3.

3. List the sterile compounded products that you will be compounding for Nevada patients or consumers:
Please see attached. Note that Oxytocin IV bag is the only USP 800/NIOSH product compounded in this facility.

4. Will you be utilizing beyond use dates in excess of USP-797? ■ Yes ☐ No

5. If yes, describe the additional testing performed on your products to validate the extended BUD:
Full expiry studies are performed per the cGMP Guidance for 503B Outsourcing facilities.

6. What laboratory performs this additional testing?

Name: Fagron Sterile Services (our sister 503B compounding site in KS does our testing)

Address: 8710 E 34th St N

City: Wichita State: KS Zip: 67226

Telephone: 877 - 405 - 8066

7. What is your procedure for visual inspection of compounded sterile products?
Qualified manufacturing personnel will perform 100% visual inspection of each compounded sterile products that will be labeled prior to the packaging operation. Personnel who compound a batch will not perform visual inspection of that batch. Line clearance is performed prior to beginning of the inspection of a batch as well as at the end of the inspection of a batch. Only one batch can be inspected at a time per inspection line. Using an inspection hood, operator inspects one unit of CSP at a time. CSP unit should be held, slightly wiggled and/or inverted, and inspected for defects for 5 seconds against white background and 5 seconds against black background under 8,000 lux of light using calibrated inspection hood timer. Operators will only perform continuous visual inspection for 45 minutes followed by non-inspection period of 15 minutes before the next period of visual inspection.

8. How often do you perform glove fingertip and medial fill testing?
Full gowning qualification is performed annually, which includes sampling of glove fingertips, forehead, shoulders, forearms, and chest. Additionally, glove fingertip testing is performed at the end of pooling and filling process for each batch compounded. Media fill testing is performed biannually.

9. What is your policy if an employee fails a glove fingertip or media-fill test?
After a glove fingertip test failure during gowning qualification, the employee will be disqualified, and an Event Record will be initiated to determine impact on previous work and determine appropriate retraining. The employee will have to perform a new initial qualification, which consists of 3 consecutive successful tests completed on at least 2 different days. After a personnel media fill test failure, the operator is not allowed to perform aseptic processing until an initial personnel media qualification is successful, which is performing a minimum of 18 media fill units in one shift. In addition, Operations and Quality Management will determine what qualification and/or training is required.

10. Describe your initial and annual training program for all personnel performing sterile compounding:
Initial training for sterile compounding includes reading SOPs, classroom trainings, 1:1 trainings, and passing initial glove fingertip and media fill tests. Classroom trainings are provided involving cGMP compliance and aseptic processing and contamination control. All personnel receive 1:1 training in a simulated environment on how to properly gown into ISO 7 cleanroom. Then, a qualified trainer instruct on how to perform aseptic manipulations in an ISO 5 Vertical Laminar Flow Hood. After testing, trainees undergo on-the-job training by qualified trainers. For the annual training, all personnel are responsible to maintain their qualifications for media fill and glove fingertip testing, and to complete training by reading SOPs.

11. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:
Primary engineering controls: Pre-production cleaning is performed daily prior to start of working day, using sterile Vesta Syde SQ 64 (quaternary ammonium disinfectant) and sterile 70% IPA (isopropyl alcohol solution). If multiple batches are compounded in the same VLFH, between batch cleaning is performed using sterile 70% IPA. Post-production cleaning is performed daily at the end of the working day once all production has completed, using SWFI (Sterile Water for Injection) and sterile 70% IPA. Every Wednesday, weekly cleaning is performed with sterile Sporklenz (peracetic acid/hydrogen peroxide sporicidal agent) and sterile 70% IPA, which will replace post-production daily cleaning.
Secondary engineering controls: Areas of the room is cleaned in this order - ceiling (weekly), walls (weekly), VLFH or Fume Hood exterior (weekly), horizontal work surfaces (daily), and floors (daily). Monthly cleaning is also performed for the entire room. Sterile Vesta Syde SQ 64 is used for daily cleaning and SporKlenz is used for weekly and monthly cleaning.

12. Who performs the sterile compounding process at your facility?
Qualified cleanroom technicians perform the sterile compounding process under the direct supervision of room supervisors.

13. Who is responsible and accountable for the sterile compounding process at your facility?
All personnel who are authorized and trained to perform aseptic manipulations in an ISO 5 VLFH are responsible for the sterile compounding process. In addition, manufacturing management and pharmacists are responsible for creation and maintenance of the batch records and SOPs with Quality approval before implementation.

14. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?
Controlled Room Temperature and Refrigerated product studies have been completed to ensure efficacy of products during shipments. Product labeling also provides storage conditions. All products have tamper evident caps or devices. All products have primary and secondary containment to contain product. Packing of product is defined in Standard Operating Procedure and material specifications to safeguard/protect products during transport.

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility? ISO 5 Vertical Laminar Flow Hood inside an ISO 7 clean room. Our only USP800 product is Oxytocin and we manufacture using sterile to sterile vials in a virtually closed system and do not use powdered API.		
2. Is your BSC or CACI vented 100% to the outside?	☐ Yes	■ No
3. Do you have a negative pressure buffer room at your facility?	☐ Yes	■ No
4. Will you be compounding with antineoplastic HDs or HD API?	☐ Yes	■ No
5. If yes, are the drugs stored in an externally ventilated, negative pressure room?	☐ Yes	■ No
6. Will you be utilizing a closed system transfer device?	☐ Yes	■ No
7. If yes, list the name of the device: N/A		
8. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers? We do not dispense the compounded products directly to patients, all products are shipped to hospitals for administration. Secondary label of the hazarouds drug product indicates the statement "Warning: Hazardous Drug".		
9. Describe your initial process for training new employees prior to compounding sterile hazardous drugs? Refer to Question 10 in Section 2. Employees are also trained for hazardous drugs by reading SOPs about the OSHA Hazard Communication Standard and hazardous drug spills.		

NA

Section 4: Sterile High Risk Compounding Questions (Complete this section ONLY if you will be performing High Risk Compounding.)

1. List the specific high risk sterile products that your facility compounds:

2. What sterilization methods are utilized at your facility?

3. Does your facility utilize biological indicators? ☐ Yes ☐ No

4. If yes, describe how they are utilized:

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire form and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event the form is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

Ref: FEI 3013438665

Dear Mr. Pulido:

We are enclosing a copy of the Establishment Inspection Report (EIR) for the inspection conducted at your facility, Fresenius Kabi Compounding, LLC dba Fagron Sterile Services, located at 20 Dan Road, Canton, MA 02021-2809, from January 30, 2023, to March 6, 2023, by the U.S. Food and Drug Administration (FDA).

When the Agency concludes that an inspection is "closed" under 21 C.F.R. 20.64(d)(3), it will release a copy of the EIR to the inspected establishment.

The Agency continually works to make its regulatory process and activities more transparent for regulated industry. Releasing this EIR to you is part of this effort. The copy being provided to you comprises the narrative portion of the report; it may reflect redactions made by the Agency in accordance with the Freedom of Information Act (FOIA) and 21 C.F.R. Part 20. This, however, does not preclude you from requesting and possibly obtaining any additional information under FOIA.

If there is any question about the released information, please contact Compliance Officer, Juan Jimenez, at orapharm1_responses@fda.hhs.gov and juan.jimenez@fda.hhs.gov or at 973-832-9409. Please identify your communications with FEI: 3013438665.

We would appreciate your confirmation in receipt of this communication.

Sincerely,

Craig W. Swanson -S Digitally signed by Craig W. Swanson -S

Canton, MA 02021-2809	Outsourcing Facility

This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM I OBSERVED:

OBSERVATION 1

Procedures designed to prevent microbiological contamination of drug products purporting to be sterile are not established, written and followed.

Specifically, on 01/31/2023, production operators were observed performing preproduction cleaning of the interior of the ISO 5 VHLFs located in ISO 7 Room 139. During the cleaning operations, multiple operators were observed leaning their bodies inside the ISO 5 VLFHs in order to clean the interior of the VLFHs. By leaning inside the ISO 5 VLFHs, the operators blocked the path of the unidirectional airflow inside the VLFHs immediately prior to performing production operations. Operators then manufactured Rocuronium 50mg per 5mL Syringe, Lot # 654618 in VLFH # E00034.00; Phenylephrine HCl 20mg added to 250mL Bag, Lot # 654619 in VLFH E00033.00; Vancomycin HCl 2g added to 500mL Bag, Lot # 654620 in VLFH E00031.00; and Norepinephrine 4mg added to 250mL Bag, Lot # 654621 in VLFH E00035.00.

OBSERVATION 2

The accuracy, sensitivity, specificity and reproducibility of test methods have not been established.

Specifically, the USP <71> method suitability tests performed for your injectable Vancomycin drug products failed to recover *Bacillus subtilis* demonstrating that the Fluid washes were not adequately neutralizing the antibiotic in order to detect all potential microbial contamination.
Between June 11, 2021, and January 30, 2023, your firm used USP <71> to perform sterility testing on approximately 478 batches of your injectable Vancomycin drug products that were distributed for use in treating patients.

FORM FDA 483 (09/08) PREVIOUS EDITION OBSOLETE **INSPECTIONAL OBSERVATIONS** PAGE 2 of 2 PAGES

The observations of objectionable conditions and practices listed on the front of this form are reported:

1. Pursuant to Section 704(b) of the Federal Food, Drug and Cosmetic Act, or
2. To assist firms inspected in complying with the Acts and regulations enforced by the Food and Drug Administration.

Section 704(b) of the Federal Food, Drug, and Cosmetic Act (21 USC 374(b)) provides:

"Upon completion of any such inspection of a factory, warehouse, consulting laboratory, or other establishment, and prior to leaving the premises, the officer or employee making the inspection shall give to the owner, operator, or agent in charge a report in writing setting forth any conditions or practices observed by him which, in his judgment, indicate that any food, drug, device, or cosmetic in such establishment (1) consists in whole or in part of any filthy, putrid, or decomposed substance, or (2) has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health. A copy of such report shall be sent promptly to the Secretary."

RE: Responses to Inspection Observations (Form FDA 483) dated March 6, 2023 following the January 31st, 2023 – March 6, 2023 inspection of Fresenius Kabi Compounding, LLC dba Fagron Sterile Services

To Whom It May Concern:

This letter and attachments are in response to the Form FDA 483, issued March 6, 2023, presented to Fresenius Kabi Compounding, LLC dba Fagron Sterile Services, following the inspection that occurred January 31st, 2023 to March 6th, 2023. Our firm's FEI number is 3013438665 as noted on Form FDA 483; updated FEI 0810821198 from 2023 registration as part of company ownership facility name change.

FSS appreciates the time and effort of Investigator John Matrisciano for his thorough inspection and constructive comments provided to the team in Canton, MA. We welcome the opportunity to continue to improve our Quality Systems and GMP Compliance programs and are committed to continuously improving the quality of our processes with the goal of consistently producing compounded pharmaceutical products that meet the highest levels of safety and quality.

If you have any questions relating to our response or need additional information, please feel free to contact me directly, Deborah McHugh at 508-353-9279 or by e-mail at Deborah.McHugh@fagronsterile.com (previous email Deborah.McHugh@fresenius-kabi.com).

Kind Regards,

Deborah McHugh
Senior Director of Quality
Fresenius Kabi Compounding, LLC dba Fagron Sterile Services

FDA Inspectional Observation Responses

Facility name: Fresenius Kabi Compounding, LLC, dba Fagron Sterile Services

Facility location: Canton, MA

ID: 080570297

FEI: Previous: 3013438665; New: 0810821198

Inspection dates: 31Jan2023 – 06Mar2023

OBSERVATION 1

Procedures designed to prevent microbiological contamination of drug products purporting to be sterile are not established, written and followed.

Specifically, on 01/31/2023, production operators were observed performing preproduction cleaning of the interior of the ISO 5 VLFHs located in ISO 7 Room 139. During the cleaning operations, multiple operators were observed leaning their bodies inside the ISO 5 VLFHs in order to clean the interior of the VLFHs. By leaning inside the ISO VLFHs, the operators blocked the path of the unidirectional airflow inside the VLFHs immediately prior to performing production operations. Operators then manufactured Rocuronium 50mg per 5mL Syringe, Lot # 654618 in VLFH # E00034.00; Phenylephrine HCl 20mg added to 250mL Bag, Lot # 654619 in VLFH E00033.00; Vancomycin HCl 2g added to 500mL Bag, Lot # 654620 in VLFH E00031.00; and Norepinephrine 4mg added to 250mL Bag, Lot # 654621 in VLFH E00035.00.

Response

We acknowledge the observation and the importance of proper cleaning techniques to prevent microbial contamination to the aseptic processing environment to ensure sterility of product is maintained.

In addition to determining corrective actions for this process, as part of our investigation of the Observation, we assessed scope and impact and we do not consider this a risk to our product. Refer to the below information from our initial investigation.

Cleaning of the Manufacturing Vertical Laminar Flow Hoods (VLFH) is governed by SOP 14-01-00-0012 "Operation, Cleaning and Maintenance of the Walker Vertical Laminar Flow Hoods (VLFH)". Cleaning of the QC Microbiology Vertical Laminar Flow Hoods (VLFH) is governed by SOP 14-01-00-0105 "Operation, Cleaning, and Maintenance of the Baker Vertical Laminar Flow Hoods (VLFH)". Based on the identified procedural gap, the scope of this investigation is not limited to the four lots listed in FDA Observation 1. This impact assessment will consider impact to all production within the VLFH.

The QC microbiology VLFH cleaning procedure was reviewed to determine if the QC microbiology VLFHs are also within scope. Per procedure 14-01-00-0105 "Operation, Cleaning, and Maintenance of the Baker Vertical Laminar Flow Hoods (VLFH)", the VLFHs are cleaned before each day of use. Peracetic acid or Hydrogen Peroxide must be used at least one day per work week. All other days must use a Quaternary Ammonium disinfectant. A post-use cleaning is performed at the end of the working day using sterile 70% IPA. All QC hood cleanings are documented Attachment A of SOP 14-01-00-0105.

QC Micro personnel do not reach into the VLFH beyond sterile sleeves as a best practice. In addition, the design of the Microbiology Baker VLFH is different than the Manufacturing Walker VLFHs used in production. The Baker VLFH is smaller (~4 ft long vs ~6ft long) and less deep (~25in vs ~30in), allowing for easier reach of all interior sides. However, since SOP 14-01-00-0105 does not state this requirement to not reach, the QC VLFHs are also within scope and a CAPA will be opened to address the procedural gap.

There is expected to be no impact as the QC VLFHs are used for sterility testing. Any deficiency in the cleaning of the Microbiology VLFH would be detectable through routine EM, as well as the sterility testing being performed. Sterility testing is destructive, and all product used for sterility testing is disposed of upon completion of testing; therefore, there is no potential impact to patient safety.

Additionally, QC Analysts who clean VLFHs are gowning qualified per SOP 14-01-00-0018 "Gowning for Classified Areas at the Canton Compounding Facility" and SOP 14-01-00-0062 "Gowning Qualification at the US Compounding Sites." QC Analysts are fully gowned wearing sterile hoods, gowns, booties, masks, goggles, and gloves with no skin showing per SOP 14-01-00-0162, "Gowning for QC Classified Areas". Prior to entering the VLFH, sterile sleeves and gloves are additionally donned. To begin cleaning the hood, the analyst starts from the back ceiling of the VLFH (HEPA grid) and out toward the front of the VLFH, where the deck is the last section cleaned inside the VLFH prior to wiping the outer sash. Specifically, the VLFH is wiped in a sweeping motion from left to right and back to front following this order:

- Ceiling HEPA grid (taking care not to wet the filter)
- Back interior wall of the VLFH
- Interior sides of the VLFH
- Inside of the glass VLFH sash
- All external surfaces of any equipment that remained inside the VLFH using IPA
- Deck of the VLFH, ensuring area under equipment is wiped
- Outside of the glass VLFH sash
- Bottom edge of the glass VLFH sash

For the Manufacturing VLFH, per procedure 14-01-00-0012 "Operation, Cleaning and Maintenance of the Walker Vertical Laminar Flow Hoods (VLFH)", VLFH cleaning is performed prior to each day of use for production. A pre-production cleaning is performed with Sterile Vesta Syde SQ 64 and Sterile 70% IPA and a post-production cleaning is performed with Sterile Water for Injection and 70% IPA using Benchmark Sterile Suite Wipes. Once a week, all in service VLFHs are cleaned using Spor-Klenz (a sporicidal cleaning agent) and Sterile 70% IPA per SOP 14-01-00-0012. All hood cleanings are documented in SOP 14-01-00-0012-FRM-A "Vertical Laminar Flow Hood Cleaning Log." All operators who clean VLFHs are gowning qualified per SOP 14-01-00-0018 "Gowning for Classified Areas at the Canton Compounding Facility" and SOP 14-01-00-0062 "Gowning Qualification at the US Compounding Sites." All operators are fully gowned with no skin exposed while in the ISO 7 and ISO 5 areas.

To begin cleaning, the operator adjusts the height of the hood to ensure all areas of the VLFH can be reached to be cleaned. SOP 14-01-00-0012 does not have instruction regarding how far into the VLFH operators may reach. Operators ensure the VLFH is clear of equipment and materials, then turn off the particle counter and cap it to prevent damage to equipment due to exposure of cleaning agents. For pre-production cleaning, a 20-minute contact time for Vesta Syde SQ 64 is required per SOP 14-01-00-0012. For weekly cleanings, a 20-minute contact time for Spor-Klenz is required per SOP 14-01-00-0012. Surfaces are rewet as necessary to ensure a full 20-minute contact time is achieved.

After the appropriate contact time, the operator starts from the back ceiling of the VLFH (HEPA grid) and out toward the front of the VLFH, where the deck is the last section cleaned inside the VLFH prior to wiping the outer sash. Specifically, the VLFH is wiped in a sweeping motion from left to right and back to front following this order:

- Ceiling HEPA grid (taking care not to wet the filter)

- Back interior wall of the VLFH
- Interior sides of the VLFH
- Bar and hooks on the bar near the ceiling of the VLFH
- Inside of the glass VLFH sash
- Deck of the VLFH
- Outside of the glass VLFH sash
- Bottom edge of the glass VLFH sash

The VLFH is always running, supplying a steady stream of HEPA filtered air at a velocity of approximately 0.45m/s flowing. Per SOP 14-01-00-0012, if the fans supplying the HEPA filtered air are turned off, the fans must run continuously for a minimum of 30 minutes prior to using the VLFH. As the fans are running while cleaning is performed, there is a continuous flow of air downward and out through the opening of the VLFH. The deck being cleaned last minimizes the potential for contaminants from operators reaching into the VLFH as first air is exposed to all surfaces after they are cleaned. Routine environmental monitoring (EM) data collected on each day of production and during weekly monitoring support that the cleaning process for the VLFH render the VLFH in a state of control with little to no bioburden.

During the cleaning process, operators are fully gowned. Gowning requirements for ISO 7 classified clean rooms include sterile hoods, gowns, booties, goggles, and gloves. Prior to entering the ISO 5 classified VLFH for production, operators additionally don sterile sleeves and gloves. No skin is exposed in the ISO 7 classified clean rooms. Since all gowning donned in an ISO 7 is sterile and low shedding, and all personnel must pass gowning qualification prior to gaining access to the ISO 7 clean rooms, there is little to no contamination risk if operators' bodies entered the VLFH during cleaning. While performing VLFH cleaning, operators follow cleanroom behaviour requirements to ensure deliberate movements and ensure overlapping strokes are being performed to achieve total coverage of the VLFH. After each stroke, the sterile suite wipe is rotated and folded to ensure a fresh surface is used each time. This process is repeated for each cleaning agent used within the VLFH. While tools are available to aid in reaching the far sections of the VLFH, manual wiping is preferred because it allows for more control of the wipe and consistent pressure and strokes. The VLFH deck is always the last section of the VLFH to be cleaned to ensure first air is maintained to all areas of the VLFH after cleaning is completed. After the VLFH has been properly cleaned, personnel are allowed to begin production.

Production starts with the performance of pre-use line clearance, which includes documentation of the differential pressure of the VLFH from the Certificate of Performance and verification that the value is within limits. After the necessary equipment and materials have been staged into the VLFH and the particle counter is verified to be on and within limits, the settling plate is opened and aseptic processing begins. Per SOP 14-01-00-0020, any critical connections performed by the operator within the VLFH must be made at least six inches from the front opening and four inches from the back and side walls without interrupting first air. Operators must not position themselves or objects between first air and sterile components. If any components are potentially compromised, they are discarded. Any time an operator comes out of the VLFH, their gloves must be sanitized using IPA prior to re-entry. Additionally, operators periodically sanitized gloves and sleeves using IPA throughout processing. Assistants are not to reach further than 4 inches into the hood and are required stay approximately 2 feet back from the VLFH unless directly assisting the operator as detailed in SOP 14-01-00-0020 "Aseptic Technique for the VLFH at the Canton Compounding Facility". Therefore, the procedural gap is limited to the cleaning of the VLFH.

There is no concern of impact to product manufactured in the VLFH that were cleaned per SOP 14-01-00-0012. Routine environmental monitoring (EM) is performed within the VLFH,

as well as the ISO 7 background rooms, per SOP 14-01-00-0079 "Environmental Monitoring Program" and SOP 14-01-00-0056 "Viable Surface Monitoring with Contact Plates." EM includes viable and nonviable air samples, viable surface monitoring with contact plates, and passive viable air monitoring with settling plates. Additionally, personnel monitoring (PM) is performed on operators' fingertips and forearms. During production, continuous nonviable air monitoring is performed per SOP 14-01-00-0150 "Operational and Data Management Procedure for Environmental Monitoring System" using Climet particle counters connected to the Environmental Monitoring System (EMS) and continuous passive viable air sampling is performed per SOP 14-01-00-0055 "Passive Viable Air Monitoring with Settle Plates" using settling plates. There are active air samples and viable surface samples taken within the VLFH at the end of the day after personnel monitoring is completed and prior to post-production cleaning of the VLFH. The VLFH viable sampling locations are detailed in SOP 14-01-00-0079-FRM-C and include:

Sample Location	Description
A1	Center of hood deck
W1	Left wall
W2	Right wall
W3	Back left wall
W4	Back right wall
F1	Left deck
F2	Right deck

All samples are required to have 0 CFU per SOP 14-01-00-0079. If any growth is recovered from viable samples, a deviation (KabiTrack, KT) is required to investigate the occurrence and assess impact to all lots produced that day and within that VLFH. Therefore, there is high detectability of insufficient cleaning methods that may result in insufficient bioburden reduction.

A review of all VLFH EM data collected on 31Jan2023 was performed. All results were within specification, indicating the pre-production cleaning performed for Rocuronium 50mg per 5mL Syringe, Lot # 654618 in VLFH # E00034.00; Phenylephrine HCl 20mg added to 250mL Bag, Lot # 654619 in VLFH E00033.00; Vancomycin HCl 2g added to 500mL Bag, Lot # 654620 in VLFH E00031.00; and Norepinephrine 4mg added to 250mL Bag, Lot # 654621 in VLFH E00035.00 was sufficient to prevent microbial contamination of the VLFH.

A review of all 2021, 2022 and 2023 ISO 5 EM data collected to-date was performed to review minimally one year's worth of data. Data include viable air, viable contact, and settling plate data for all VLFH.

In 2021, within the ISO 5 VLFHs, there were:

- 1054 viable air samples taken with one action level recovery
  - KT 1043721 for 1(1) CFU from the A1 sample location (center of VLFH deck) on 24May21 in VLFH E00035.00 – The KT determined no expected impact to final product but as a conservative approach, the associated lot was rejected.
- 6314 contact samples taken with one action level recovery from a QC Micro VLFH .
  - KT 1186520 for 1 CFU from F1 sample location (left deck of VLFH) on 18Nov21 in VLFH E00052.00 (QC Micro VLFH) during Environmental Qualification – The KT determined no impact.
- 2122 settling plate samples with two action level recoveries
  - KT 962686 for 1 CFU during Sterility Testing in VLFH E00123.00 on 19Feb21 – The KT determined no impact but one lot of product (Calcium Gluconate 2g lot 652160) was rejected due to an associated Sterility OOS event.

- KT 1138792 for 3 CFU during filling in VLFH E00031.00 on 24Sep21 – The KT determined potential risk to product and the lot was rejected.

Out of approximately 9490 samples, 4 samples (1 viable air, 1 contact plates and 2 settle plates) exceeded the limit of 0 CFU/plate for an action level recovery rate of 0.04% ((4/9490)* 100) for 2021. The contamination recovery rate was calculated as # CFU recovered divided by total number of samples taken (plates) based on USP <1116>. The contamination recovery rate is 0.06% ((6/9490)*100) for 2021. Refer to Observation 1, Attachment 1 for 2021 EM data.

In 2022, within the ISO 5 VLFHs, there were:

- 1115 viable air samples taken with no action level recoveries
- 5697 contact samples taken with two action level recoveries
  - KT 1333843 for 3 CFU from F1 sample location (left deck of VLFH) on 25May22 in VLFH E00031.00 – The KT determined no impact to final product.
  - KT 1422486* for 1 CFU from F1 sample location (left deck of VLFH) on 28Sep22 in VLFH E00034.00 – The KT determined likely no impact to final product.
- 2009 settling plate samples with four action level recoveries of 1 CFU each
  - KT 1422482 for 1 CFU during filling in VLFH E00031.00 on 29Sep22 – The KT determined likely no impact to final product.
  - KT 1435236 for 1 CFU during pooling in VLFH E00035.00 on 18Oct22 – The KT determined no impact to final product.
  - KT 1483332* for 1 CFU during filling in VLFH E00034.00 on 19Dec22 – The KT determined no impact to final product.
  - KT 1483422* for 1 CFU during filling in VLFH E00034.00 on 20Dec22 – The KT determined likely no impact to final product.

**These KT events were provided during the 2023 audit.*

Out of approximately 8821 samples, 6 samples (2 contact plates and 4 settle plates) exceeded the limit of 0 CFU/plate for an action level recovery rate of 0.07% ((6/8821)*100) for 2022. The contamination recovery rate was calculated as # CFU recovered divided by total number of samples taken (plates) based on USP <1116>. The contamination recovery rate is 0.09% ((8/8821)*100) for 2022. Refer to Observation 1, Attachment 2 for 2022 EM data.

In 2023 to-date (Jan to Mar), within the ISO 5 VLFHs, there were:

- 250 viable air samples taken with no action level recoveries
- 1500 contact samples taken with one action level recovery
  - KT 1534807 for 1 CFU from F2 sample location (right deck of VLFH) on 01Mar2023 in VLFH E00035.00 – Investigation pending as of 13Mar2023.
- 390 settling plate samples with no action level recoveries

Data from Jan to Mar 2023 were reviewed to capture a time period from directly before, during, and directly after the observation made on 31Jan2023. Thus far in 2023, approximately 2140 samples have been taken. Out of approximately 2140 samples, there was one contact plate sample that exceeded the limit of 0 CFU/plate for an action level recovery rate of 0.05% ((1/2140)*100) for 2023 to date. The contamination recovery rate was calculated as # CFU recovered divided by total number of samples taken (plates) based on USP <1116>. The contamination recovery rate is 0.05% ((1/2140)*100) for 2022. Refer to Observation 1, Attachment 3 for 2023 EM data.

Per USP <1116> "Microbiological Control and Monitoring of the Aseptic Processing Environments", "Within the ISO 5 critical zone, airborne and surface contamination recovery rates of 1% or less should be attainable with current methods. Contamination recovery rates

for closed RABS and isolator systems should be significantly lower still and can be expected to be <0.1%, on the basis of published monitoring results." The VLFH is considered an ISO 5 critical processing area. The low frequency of contamination recovery rates within the VLFH (<0.1% contamination recovery rate from all VLFH samples, annually) demonstrate that the cleaning method used is sufficient to control microbiological contamination within the hood and provide an acceptable aseptic processing area for production of sterile product.

In addition, SOP 14-01-00-0012 "Operation, Cleaning and Maintenance of the Walker Vertical Laminar Flow Hoods (VLFH)" will be updated to address the procedural gap identified through Observation 1.

In summary, we will complete the following actions as a result of this Observation:

Corrective and Preventive Actions:

1. Complete investigation in Trackwise™ (KabiTrack).

   Due Date: 06Apr2023 – Closure of Trackwise™ (KabiTrack) Record 1533809

2. Complete corrective action to update SOP 14-01-00-0012 "Operation, Cleaning and Maintenance of the Walker Vertical Laminar Flow Hoods (VLFH)" with new cleaning process to ensure personnel do not reach into the VLFH and to utilize a reaching tool for areas of the VLFH that cannot be reached without leaning into the VLFH.

   Due Date: 27Apr2023 - Closure of Trackwise™ (KabiTrack) record 1546426

3. Complete corrective action to update Quality Control SOP 14-01-00-0105 to clearly state that personnel may not reach into the VLFH beyond sterile sleeve at any point during pre-testing cleaning or testing.

   Due Date: 27Apr2023 - Closure of Trackwise™ (KabiTrack) record 1546427

4. Complete Effectiveness check: ISO 5 VLFH (both QC and Manufacturing) EM will be trended for 3 months. All data will be reviewed to ensure there is a less than 1% recovery rate from all viable contact samples and less than 1% recovery rate from all viable air samples per USP <1116>. If the recovery rate is 1% or greater, an additional 3 months of EM sampling will be reviewed. If a recovery rate of less than 1% for viable contact and 1% for viable air cannot be met over the course of 6 months, this effectiveness check will fail and an assessment of the current cleaning methods will be conducted. No additional sample locations are required based on historical data and the initial assessment determining little to no potential contamination from operators cleaning the VLFH using the existing method.

   Due Date: 29Nov2023 - Closure of associated Effectiveness Check record for Trackwise™ (KabiTrack) record 1533809

OBSERVATION 2

The accuracy, sensitivity, specificity and reproducibility of test methods have not been established.

Specifically, the USP <71> method suitability tests performed for your injectable Vancomycin drug products failed to recover Bacillus subtilis demonstrating tat the Fluid washes were not adequately neutralizing the antibiotic in order to detect all potential microbial contamination.

Between June 11, 2021, and January 30, 2023, your firm used USP <71> to perform sterility testing on approximately 478 batches of your injectable Vancomycin drug products that were distributed for use in treating patients.

Response

We acknowledge the observation and the importance of obtaining acceptable results during sterility testing method suitability data for compounded sterile products for patient use.

To assess potential impact to product as well as determine corrective actions, a KabiTrack (KT) system investigation has been initiated. The results of the investigation and corrective actions determined to date has been outlined below.

Background:
During the FDA inspection, the request was to provide USP <71> Sterility Test method suitability data for our Vancomycin compounded sterile products (CSPs) from both internal and Contract laboratory.

The data from the final testing runs was provided, which showed failing results for *Bacillus Subtilis* with both laboratories. Some of the additional data was obtained and provided for the internal testing performed but not all testing or justifications were able to be gathered for both internal and contract laboratory in the inspection timeline.

Contract Laboratory (Element) testing review:
Additional test data was obtained from the Contract laboratory and all testing completed by the Contract testing laboratory is detailed in Attachment 4 - Sterility Testing Summary.

As outlined in Attachment 4, *Bacillus subtilis* failed repeatedly during the Element contract laboratory method suitability as no growth occurred in all four (4) testing scenarios for test sample (but positive control passed). *Staphylococcus aureus* also showed failures with the original two test scenarios but passed the final two tests after method modifications.

The two method changes made by the contract laboratory were: increase of fluid wash volume and change in fluid wash. Per USP <71>, if the product has antimicrobial properties, wash the membrane not less than three times but do not exceed a washing cycle of five times 100mL even if during method suitability it has been demonstrated that such a cycle does not fully eliminate the antimicrobial activity. In addition, per USP<71>, Fluid A is the fluid wash test solution used for most products for sterility testing and is the starting point for method suitability; Fluid D can be used for the fluid washes for antibiotic molecules as it includes a neutralizing substance.

Method suitability testing was initiated on the Vancomycin 750mg (equivalent to 0.75g) product as this was the first CSP available for testing. Vancomycin 1.25g CSP was available shortly after and provided to the contract laboratory. As Vancomycin 1.25g added to 250mL Bag is the most concentrated of the Vancomycin compounded sterile products manufactured, it represents a worst case for sterility testing. Due to the gram-positive antimicrobial activity of the Vancomycin molecule, the most concentrated product would lead to the highest chance growth inhibition during sterility test of Vancomycin. Therefore, method suitability is at minimum required to be performed on the Vancomycin 1.25g CSP; additional Vancomycin CSP concentration products can also be tested.

The FDA was also concerned that the laboratory had referenced USP <61> on their CoAs to support the method suitability as acceptable, despite the *Bacillus subtilis* failures. During the inspection, it was clarified that the listing of USP <61> was to provide supporting language for the absence of growth and was not how the testing was performed by the Contract Laboratory (CoA stated, "Under similar circumstances," as a preface to the USP <61> reference).

After examination of all the Element contract laboratory data, the process for resolving failures during USP <71> method suitability testing was reviewed. Per USP <71>, if growth is not obtained then the product possesses antimicrobial activity that has not been satisfactorily eliminated under the conditions of the test and to modify the conditions in order to eliminate the antimicrobial activity. The contract laboratory data showed two changes with wash fluids and wash volume as part of their method suitability testing for Vancomycin. Both changes are outlined in USP <71> as method modifications.

Although the Element contract laboratory completed multiple attempts (and changes) for method suitability with Vancomycin, as they were not able to obtain passing results for the *Bacillus subtilis* organism and the FSS-Boston internal laboratory was able to, FSS-Boston will only continue with sterility testing internally. The sterility testing of Vancomycin compounded sterile products at the Element contract laboratory will be further assessment and only used if acceptable results are obtained.

This only impacts Vancomycin as all other products qualified by Element acceptably passed all organism challenges.

Internal Laboratory (FSS-Boston in Canton, MA) testing review:

Method suitability was performed internally at the Canton facility per SOP 14-01-00-0193, Sterility Product and Method Suitability Using Steritest Symbio Pump. (USP <71> compendial sterility testing in general was not initiated internally until after the contract laboratory was established.)

The sample canister used for the method suitability and sterility testing is Steritest™ NEO Devices for Antibiotics Low Binding PVDF Membrane 0.45µm. Per the vendor (Millipore), this filter has a PVDF (polyvinylidene fluoride) membrane which has a broad range for chemical compatibility and has low binding properties. The membrane thickness (0.45µm) is suitable for rinsing and reduces the risk of false negatives. The design is also suitable for rinsing residual antimicrobial agents. (The sample canister CoA as well as the vendor information was supplied during the inspection.)

Attachment 4 also provides details for the Internal testing and failure investigations.

Bacillus subtilis passed on two of the seven testing attempts. The first passing results were invalidated due to the unclear documentation of volumes; the second passing result was invalidated due to other organisms failing. This invalidation was unnecessary and was due to a misinterpretation of the SOP that all organism results must be passing. After additional testing was completed, the error was recognized but the data had already been invalidated and therefore was not presented as the final testing data.

Although multiple tests, including method changes, were performed, a consistent result for *Bacillus subtilis* sample or control growth was not obtained. As discussed in USP Microbiology FAQs, if it's not possible to neutralize the antimicrobial properties of a product during method suitability, it can be assumed that the failure to isolate the inoculated organism/s is attributable to the antimicrobial activity of the product.

For the Vancomycin 1.25g CSP manufactured at the FSS-Boston (Canton, MA) facility, the concentration of Vancomycin active ingredient is 5 µg/mL (0.005 g/mL), producing a high residual load of Vancomycin on the canister filter.

The FDA was also concerned that the lab had referenced USP <61> in our SOP and used similar wording in our justifications for acceptance. As discussed during the Contract laboratory testing data review, it was also clarified during internal testing review that the listing of USP <61> was to provide supporting language for the absence of growth; USP <71> was how the testing was performed.

The USP also provides similar language to USP <61> in the FAQs section (http://www.usp.org/frequently-asked-questions/microbiology):

> 2. What are you supposed to do when it is not possible to neutralize the antimicrobial properties of a product during method suitability demonstration of Sterility Tests despite the use of all suitable methods (dilution, chemical / enzymatic neutralization, membrane filtration)?
>
> If no suitable neutralizing method can be found, it can be assumed that the failure to isolate the inoculated organism/s is attributable to the antimicrobial activity of the product. This information serves to indicate that the article is not likely to be contaminated with the given species of the non-recovered microorganism(s). However, it is possible that the product inhibits only some of the microorganisms specified, but does not inhibit others not included among the test. Then, perform the test under the conditions compatible with microbial growth or recovery of most of the challenge microorganisms.

Impact to product:

To assess potential impact of Vancomycin sterility test method suitability not passing for the organism *Bacillus subtilis*, a review of environmental monitoring data which ranged from Jan2019 to Mar2023 was performed. The review included searching for *Bacillus* genus.

The data from Jan2019 to Mar2023 shows a total of 1977 total recoveries for all ISO classifications, of which 16 (0.8%) were of the *Bacillus* genus. Only one was recovered from the ISO 5 environment, which was on 29Nov2021. The only recovery of the *Bacillus* genus in the ISO 5 environment, had occurred 29Nov2021 during Environmental Qualification and was located in the Sterility testing suite (Attachment 5 KT 1186520). Per USP <1116> Microbiological Control and Monitoring of Aseptic Processing Environments, the limits for the

ISO 5 environment are <1.0%. For the specific *Bacillus* genus, the recovery rate meets requirements as well as the data overall reflects that there is currently no concern for contamination for spore forming organisms.

Therefore, there is low risk to previous Vancomycin sterility testing performed both at the Contract laboratory as well as In-House due to the *Bacillus subtilis* issues based on the Environmental monitoring data.

Batch data collected for personnel monitoring, environmental monitoring – viable and nonviable particulates, as well as environmental controls such as temperature and humidity support that the product was aseptically manufactured. In addition, FSS-Boston manufactures the Vancomycin CSP by using sterile FDA approved finished drug products which are aseptically handled for reconstitution, pooling, and compounding for the final product.

Additionally, there has been one customer complaint (Attachment 6 – CO20-00035182) and no product recalls for the Vancomycin compounded sterile product.

Although the method suitability had some failures, a passing result was obtained for each organism. Per USP <71> there is known effects of the active ingredient from the compounded sterile product on microorganisms and method suitability failures may occur. Due to the high concentration of our Vancomycin product, these failures are more likely.

Therefore, there is low risk to continued Vancomycin sterility testing performed In-House as method suitability testing reflected passing testing with *Bacillus subtilis*.

As discussed in the investigation completed to date, we will complete the following activities as part of our corrective and preventive actions.

Corrective and Preventive Actions:

1. Immediately revise documents to only allow for all Vancomycin products to be tested internally. The Form FSSBOS-WI-0003 (14-01-00-0061-FRM-B) lists Element testing from contract laboratory options for sample sterility testing for all Vancomycin concentrations and will be removed. Additionally, all Vancomycin product specifications with language including the Element laboratory for sterility testing will be removed.

   Due Date: 05Apr2023 – Closure of Trackwise™ (KabiTrack) Record 1546409

2. Complete investigation (record 1533819) in Trackwise™ (KabiTrack) for Vancomycin Method Suitability per USP<71>.

   Due Date: 06Apr2023 – Closure of Trackwise™ (KabiTrack) Record 1533819

3. Complete a summary report for internal testing reflecting the incorrect invalidation of all data in acceptable runs due to individual organism failures.

   Due Date: 20Apr2023 – Closure of Trackwise™ (KabiTrack) Record 1546425

4. Update Internal SOP 14-01-00-0193 to remove reference to <USP 61> and provide additional information for repeat testing.

   Due Date: 04May2023 – Closure of Trackwise™ (KabiTrack) Record 1545487

5. Assess additional method modifications for contract laboratory Element. Add Element testing as a testing option if acceptable results are obtained.

   Due Date: 30Jun2023 – Closure of Trackwise™ (KabiTrack) Record 1545500

VERBAL DISCUSSION ITEM

DISCUSSION ITEM 1

The FDA requested that "Aseptically don" be defined. *Although no personnel were observed by the FDA to complete the action incorrectly, the SOP 14-01-00-0018, Gowning for Classified Areas at the Canton Compounding Center, and associated training did not provide a well-defined process/action.*

Response
We acknowledge the discussion item and understand that our SOPs should reflect and define our processes.

In addition to determining corrective actions for this discussion item, as part of our investigation, we assessed scope and impact as outlined below.

All personnel who enter the cleanroom or perform aseptic processing (both Manufacturing and QC) are gowning qualified per SOP 14-01-00-0018 "Gowning for Classified Areas at the Canton Compounding Center". All personnel who perform aseptic processing are personnel monitored (PMed), allowing high detectability of potential contamination events. Any growth recovered from PM samples results in an event record which assesses impact to any product or test results. Additional controls will be further explained below.

Procedure 14-01-00-0018 "Gowning for Classified Areas at the Canton Compounding Center" defines "aseptic technique" as "Methods used to protect against contamination by microorganisms." The SOP does not include a definition of "aseptic donning" nor provide additional instruction regarding the technique required to aseptically don gowning materials.

All personnel who will work in the ISO 7 areas of the cleanrooms are required to attend an instructor-led training 14-ASEPWRKSHP-001, "Intro to Aseptic Processing," which addresses the importance of proper gowning, the risk personnel pose as a source of contamination in the cleanroom due to improper gowning, and the severity of the consequences of those risks. This training also includes a written assessment, required to be passed by all learners.

After being assigned job-specific curricula, potential operators/analysts must read and understand all SOPs relevant to performing duties in cleanrooms, including the ISO 7 and ISO 5 environments. The SOPs include, but are not limited to, the following:

- 14-01-00-0020 "Aseptic Technique for the VLFH at the Canton Compounding Facility" (part of curriculum 14-MFG-100 – Manufacturing Core and 14-MICRO-100 – QC Microbiology Core)
- 14-01-00-0022 "Cleanroom Behavior Procedure at the Canton Compounding Facility" (part of curriculum 14-CMPD-100 –Gowning Qualification)
- 14-01-00-0062 "Gowning Qualification at US Compounding Sites" (part of curriculum 14-CMPD-100 –Gowning Qualification)
- 14-01-00-0018 "Gowning for Classified Areas at the Canton Compounding Center" (part of curriculum 14-CMPD-100 –Gowning Qualification)
- 14-01-00-0113 "Personnel and Process Media Fill Qualification of the Aseptic Filling Process" (part of curriculum 14-MEDIA-100 –Media Fill Qualification)

As a best practice and part of an informal pre-requisite training, senior level operators perform hands on training with trainees. In the training room, a Senior Operator or Supervisor instructs the trainee on proper aseptic gowning after first demonstrating the proper method to follow. The trainee practices these techniques in the training room under observation by a Senior Operator or Supervisor, who provide oversight and feedback. When trainees are deemed ready after training is observed by a Senior Operator or Supervisor, a gowning qualification is scheduled. The trainee must then demonstrate that they can independently perform aseptic gowning through the cleanrooms as it is performed for production. This is witnessed by a Manufacturing Pharmacist, Manufacturing Technician 4, Manufacturing/ Packaging Supervisor, or QC Senior Scientist per SOP 14-01-00-0062 "Aseptic Gowning Evaluation", during which time the trainee is independently evaluated for gowning technique throughout their performance. All observations are documented on SOP 14-01-00-0062 Attachment A, including that the trainee does not touch the outside of sterile gowning materials with gloves when donned, which ensures personnel are being assessed consistently. When fully gowned, the candidate is sampled at 8 sites on their gowning, including each glove and forearm, which could be impacted if aseptic donning technique was not used. This is performed 3 times over at least a 2-day period. Only after these samples have been incubated and read, shown to be passing, and the documentation verified by Quality Assurance, may the trainee proceed to the next step of the aseptic operator pre-requisites.

In addition to the general gowning qualification, aseptic operators have additional required training and qualification. Operators undergo personnel media fill qualifications and partake in routine semi-annual process media fill qualifications. In the training room, a Senior Operator or Supervisor instructs the candidate on how to properly execute a Personnel Media Fill. As part of this training, they are instructed on how to properly don sterile sleeves by a Senior Operator or Supervisor, who details the proper method including stepwise instructions and further explanation of aseptic technique. Thereafter, the candidate practices these techniques in the training room under observation by a Senior Operator or Supervisor. When this skill set is deemed acceptable by the Senior Operator or Supervisor, the candidate is scheduled for a personnel media fill under observation of a Senior Operator or Supervisor. Personnel media fills are conducted per SOP 14-01-00-0113. The personnel media fill is performed in an ISO 7 room inside an ISO 5 VLFH and requires three successful operator media fill executions. The three executions must occur on the same day per SOP 14-01-00-0113 (to simulate operator fatigue) and, as a best practice, require at least one full exit from the cleanroom and a full regown in between attempts. The candidate must don new sterile sleeves and secondary gloves before each attempt and are under constant observation by the Senior Operator or Supervisor. Media fill samples produced are incubated for 14 days and inspected for turbidity every 7 days. In order for the candidate to pass this qualification, none of the samples produced may exhibit turbidity.

Once successfully qualified, aseptic operators are required to perform routine gowning and personnel requalification through the execution of annual gowning requalification and semi-annual operator media fill qualifications per SOP 14-01-00-0062 and 14-01-00-0113, respectively.

Based on this information, we do not consider this discussion item a risk to our products.

We will complete the following corrective and preventive actions to ensure our procedures reflect our processes.

Corrective and Preventive Actions:

1. Revise SOP 14-01-00-0018, "Gowning for Classified Areas at the Canton Compounding Center', to include a definition for "aseptic donning" and to revise the definition of "aseptic technique".

   Due Date: 06Apr2023 - Closure of Trackwise™ (KabiTrack) record KT 1533939

2. Create an On the Job Training (OJT) for sterile gowning, with a specific section on donning sterile sleeves/gloves.

   Due Date: 27Apr2023 - Closure of Trackwise™ (KabiTrack) record 1546433

3. Effective check for proper training by completing a self-inspection 3 months after implementation of the SOP update and a second check 3 months after implementation of the new training program.

   Due Date: 29Nov2023 - Closure of Trackwise™ (KabiTrack) record 1546435

Sterile Compounding Questionnaire

Rev (08/02/2022)

This application cannot be returned by fax or email.
We must have an original signature to process.

Approval of this completed questionnaire is required for an existing pharmacy, new pharmacy and/or out-sourcing facility applicant who wish to engage in preparing, compounding, dispensing, and furnishing sterile compounded products to Nevada patients or consumers.

Please provide a thorough response to the questions below and provide any necessary supporting documents.
-For a new pharmacy or out-sourcing facility applicant, submit this completed form with your application.
-For an existing pharmacy, send the completed form to the address indicated above.

Section 1: General Information

Pharmacy Name: Dolan Central IL Compounding Pharmacy DBA Preckshot Pharmacy

NV Pharmacy or Outsourcing facility license # (if applicable): _____

Physical Address: 5832 N.Knoxville Ave Suite E

City: Peoria State: IL Zip: 61614

Mailing Address (if different from physical address): _____

Website: preckshot.com

Nevada Business License # (if applicable) _____

Supervising/Managing Pharmacist Name (NRS 639.220): Andrew Roseboom

Supervising/Managing Pharmacist NV Pharmacist Registration #: 24024

Name of Person with direct knowledge of compounding procedures: Andrew Roseboom

Email of Person with direct knowledge of compounding procedures: aj@preckshot.com

Telephone of Person with direct knowledge of compounding procedures: 309-679-2047

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)? ■ Low ■ Medium ■ High
If you marked "High", you must also complete section 4.

2. Will you be performing sterile hazardous drug compounding? ■ Yes ☐ No
If you marked "Yes", you must also complete section 3.

3. List the sterile compounded products that you will be compounding for Nevada patients or consumers:

Testosterone injection
Progesterone injecton
Papaverine injection
Phentolamine injection
Alprostadil injection
Atropine injection/opthalmic drops
Cyclosporin opthalmic drops

4. Will you be utilizing beyond use dates in excess of USP-797? ☐ Yes ■ No

5. If yes, describe the additional testing performed on your products to validate the extended BUD:

We submit samples from all anticipatory batches of CSPs that we produce to Eagle Analytical Services for sterility and endotoxin testing. However, we do not utilize beyond use dates for these batches in excess of USP-797 guidelines.

6. What laboratory performs this additional testing?

Name: Eagle Analytical Labs

Address: 11111 S. Wilcrest Drive, Suite 1000

City: Houston State: TX Zip: 77099

Telephone: 800-745-8916

7. What is your procedure for visual inspection of compounded sterile products?

Visual inspection first takes place at the time of filtration to ensure proper medicaton, amount, container, and filter are being used. Once this is complete the final product leaves the sterile area via the one way pass through window where the pharmacist initially recomfirms all the above information, then visually checks the product against the Black/White Light/Background box before it is released.

8. How often do you perform glove fingertip and medial fill testing?
We perform gloved fingertip testing and Media Fill tests every 3 months

9. What is your policy if an employee fails a glove fingertip or media-fill test?
A failure of GFT or Media fill would trigger an investigation into the cause of the failure. The employees' technique and procedure would be examined and remediated where necessary. Environmental conditions at the time of the failure would also be investigated. The employee would not be allowed to prepare any compounded sterile preparations until a media fill test has been passed and three consecutive gloved fingertip tests have been passed.

10. Describe your initial and annual training program for all personnel performing sterile compounding:
Initial training for personnel performing sterile compounding includes study of USP <797> and review of our Standard Operating Procedures relevant to sterile compounding, competency assessments for garbing procedure, gloved fingertip, and aseptic technique (Media Fill), and may include structured course work provided through various educational services (ex. PCCA, Critical Point). Ongoing assessments, after initial training, are performed every 3 months.

11. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:
All interior surfaces and equipment of the PEC(s) are cleaned and disinfected with a sterile EPA registered one-step cleaner/disinfectant on days when compounding occurs at the beginning of each shift, before each batch preparation, in 30 minute intervals during continuous compounding, when spills occur and when contamination is known or suspected. A sterile sporicidal agent is used to clean and disinfect the interior of the PEC(s) on a weekly basis. Secondary engineering controls are cleaned and disinfected with an EPA registered one-step disinfectant/cleaner daily on days when compounding occurs. Secondary engineering controls are cleaned and disinfected with a sporicidal agent on a weekly basis.
Cleaner/Disinfectant: TB1-3300 (Sterile), Area(s) of use: PEC(s), SEC(s), pass-thru's, sink
70% IPA: CiDehol ST (Sterile), Area(s) of use: PEC(s), SEC(s), Equipment inside/outside the PEC(s), pass-thru's, floors
Sporicidal Agent: Peridox RTU (Sterile), Area(s) of use: PEC(s), SEC(s), Equipment inside/outside the PEC(s), pass-thru's, floors, walls, sink

12. Who performs the sterile compounding process at your facility?
Andrew Roseboom
Clayton Moore

13. Who is responsible and accountable for the sterile compounding process at your facility?
Andrew Roseboom

14. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?
Shipped products are kept at their required temperature and shipped in a manner to timely deliver the product whiile maintaining required temperature. I.E. Frozen compounds are overnight shipped UPS in a cooler with dry ice.

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility? Hazardous negative pressure ante room and Hazardous negative pressure Biological safety cabinet buffer room.		
2. Is your BSC or CACI vented 100% to the outside?	☒ Yes	☐ No
3. Do you have a negative pressure buffer room at your facility?	☒ Yes	☐ No
4. Will you be compounding with antineoplastic HDs or HD API?	☒ Yes	☐ No
5. If yes, are the drugs stored in an externally ventilated, negative pressure room?	☒ Yes	☐ No
6. Will you be utilizing a closed system transfer device?	☐ Yes	☒ No
7. If yes, list the name of the device:		
8. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers? Patients that will not be coming into the pharmacy are handed off to a pharmacist when ordering their medication for initial counseling. Usage, expectations, side effects, storage, handling, disposal, and any other questions are addressed with the patient at that time. Each compounded prescription comes with a general guide to compounded medications and refers them to us regarding any specific questions regarding their compound.		
9. Describe your initial process for training new employees prior to compounding sterile hazardous drugs? Initial training for personnel performing HD sterile compounding includes study of USP <797> and review of our Standard Operating Procedures relevant to HD sterile compounding, competency assessments for garbing procedure, gloved fingertip, and aseptic technique (Media Fill), and may include structured course work provided through various educational services (ex. PCCA, Critical Point). Ongoing assessments, after initial training, are performed every 3 months.		

Section 4: Sterile High Risk Compounding Questions (Complete this section ONLY if you will be performing High Risk Compounding.)

1. List the specific high risk sterile products that your facility compounds:

**We do perform category 3 compounding.

Testosterone injection
Progesterone injecton
Papaverine injection
Phentolamine injection
Alprostadil injection
Atropine injection/opthalmic drops
Cyclosporin opthalmic drops

2. What sterilization methods are utilized at your facility?

Filter sterilization

3. Does your facility utilize biological indicators? ☐ Yes ■ No

4. If yes, describe how they are utilized:

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire form and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event the form is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

Sterile Compounding Inspection Supplement

Business Name: Prackshot Professional Pharmacy	License Number: 054.020600
Inspection Date: 11-16-23	Type of Pharmacy: Retail/Community 797 & 795
Last Inspection: 3-31-21	Designated Person: Andrea Rosebloom

Compounding Overview

CSP Product Types:
- ☑ Category 1 (BUD 12hr RT/24hr Ref)
- ☑ Category 2 (BUD >12hr RT/> 24hr Ref)
- ☑ Category 3 (BUD > Default but <180 days)
- ☐ Immediate-Use (Admin begins within 4 hr)

- ☑ Hazardous (see USP 800)
- ☐ Compounding CSP for Office Use
- ☐ Bulk Compounding (RX Obtained)
- ☑ Mailing of CSP (packaging, carrier, temp control)
- ☑ States Licensed in: See attached list

Facility Design	C	NC	D
Temp monitored and documented at 20 C or 68 F or cooler, calibrated Q 12 Months	✓		
Humidity monitored and documented below 60 %, calibrated Q 12 Months	✓		
Clean Room Suite			
☐ Air Supply from HEPA filters in ceiling	✓		
☐ No sink or floor drain in Buffer/Clean room	✓		
☐ Incoming air ducts near ceiling and return ducts low on wall	✓		
☐ Pressure differential monitoring system	✓		
☐ Ante-Room with Line of Demarcation to separate clean and dirty sides	✓		
☐ Sink with hot/cold water is located on the clean side of the line of demarcation in the ante room	✓		
☐ Ante-Room is entered on Dirty side, clean side enters into buffer space	✓		
☐ Passthroughs have interlocking doors (can't open at same time)	✓		
☐ Access doors should be hands free			✓
☐ Surfaces, carts, shelves, stools, chairs, etc. are stainless steel, or non-permeable, non-carpeted, non-upholstered, low particles	✓		
☐ Walls are epoxy painted or impermeable and seamless, without cracks	✓		
☐ Floors of wide sheet vinyl or impermeable surface, seamless or heat sealed seems,	✓		
☐ Light fixtures smooth, flush mounted, sealed	✓		
☐ Ceiling tiles vinyl, impermeable with seams caulked and sealed	✓		
☐ Separate carts for dirty side and clean side	✓		
☐ Manipulations for non-sterile ingredients in ISO 8 or better environment	✓		
Segregated Compounding Area (SCA)			
PEC located in unclassified area (no ante-room or buffer room)			
Located away from unsealed windows, outside doors and traffic flow N/A			
Not located near sinks, drains, restrooms, food or drinks			
Sink not within 1 meter of PEC			
Must have a Visible perimeter for SCA			
Laminar airflow system			
(LAFS) LAFW & BSC (RABS) CAI, CACI & Isolator			
Placed out of traffic patterns	✓		
Certification of PEC & SEC	C	NC	D
All PECs and Clean rooms certified every 6 months or when moved	✓		
Total non-viable particle counts measured during dynamic conditions	✓		
Viable particle counts measured during dynamic conditions	✓		
Surface sampling-Monthly	✓		
Smoke pattern test initially and every 6 months	✓		
Outcome reported with clear indication as Pass or Fail	✓

All HEPA filters in the secondary engineering controls are tested at each certification. Maximum allowable leakage is 0.01% of the upstream aerosol concentration.	✓		
Staff understands how to utilize unidirectional airflow to maintain first air at DCA	✓		
30 total HEPA-filtered ACPH must be supplied to ISO Class 7 (15 from HVAC)	✓		
20 total HEPA-filtered ACPH must be supplied to ISO Class 8	✓		
Total ACPH and source must be documented on certification report	✓		
0.02-inch pressure differential between unclassified space-ante-room and buffer room	✓		
Training	**C**	**NC**	**D**
Documentation of ability to perform calculations accurately (Initial and Annual)	✓		
Documentation of written competency evaluations (Initial and Annual)	✓		
Documentation of hand hygiene (Initial and Annual)	✓		
Documentation of gowning competency (Initial and Every 6 months)	✓		
Documentation of aseptic technique skills test (Initial and Annual)	✓		
Documentation of media fill under dynamic conditions (Initial and Annual)	✓		
Principals of high efficiency particulate air (HAPA) filtered unidirectionally	✓		
Principals of movement of materials and personnel within compounding area	✓		
Proper use of primary engineering control (PEC's)	✓		
Media fill vials must be incubated for 14 days. Pharmacy should have an incubator on-site.	✓		
Corrective action plans and re-evaluation for failure of any testing, glove fingertip validation or media fill	✓		
Documentation of glove fingertip validation (Initial is 3x then every 6 months)	✓		
Compounding personnel are appropriately trained in equipment, cleaning & disinfection	✓		
No makeup or cosmetics, hand, wrist, ear, facial jewelry, trimmed nails, artificial or polish	✓		
Single dose vials in class 5 air used within 6 hours of initial puncture	✓		
MDV assigned BUD of 28 days or manufacturer specified after initial puncture	✓		
Every admixture visually examined for clarity, particles, identity and ingredients.	✓		
SOP's reviewed every 12 months	✓		
Cleaning & Disinfection	**C**	**NC**	**D**
PEC-Each shift, before and after each batch, after spills Q 30 min during use, contamination	✓		
Floors, Counters and Work Surfaces- Daily	✓		
Walls, ceilings and storage shelves/compartments-Monthly	✓		
Cleaning tools are non-shedding, labeled and dedicated to buffer/clean room use	✓		
SEC-Cleaning agent, Disinfectant Agent, (or EPA one-step), sporicidal agent monthly	✓		
PEC- Sterile water, sterile cleaning agent, Sterile disinfectant i.e. sterile 70 % IPA, (or EPA one step), sporicidal monthly	✓		
All Items Entering ISO Class 5 area Wiped a second time with Sterile 70% IPA	✓		
Necessary Supplies	**C**	**NC**	**D**
Sterile Gloves, hair cover, shoe cover, beard cover,	✓		
Compounding references	✓		
USP-NF (USP 42 NF 37)	✓		
Record Keeping	**C**	**NC**	**D**
A pharmacy generated patient profile of medication record system shall be maintained	✓		
Master Formulation Record-prepared in a batch for more than 1 patient or non-sterile ingr.	✓		
Compounding record created for all CSP's with dates, times, lot#, Exp, DUB, personnel, etc.	✓		

Comments/Observations

SOP's have been a "living document" for the last year + a half per DR Planning for yearly reviews in January every year but will update as needed. DR will add a signature page to SOP manual noting when reviews or updates are made going forward.

Illinois Department of Financial and Professional Regulation

Division of Professional Regulation

CONTROLLED SUBSTANCE INSPECTION

Date: 11-16-23 Inspector: J. Kirby

Name: DOCAN Central Illinois Compounding LLC dba Preckshot Professional Pharmacy

ILCS No.: 320.012548 Exp: 3-31-24

DEA No.: FD7319204 Exp: 6-30-26

3100.310	Applicants and licensees shall provide effective controls and procedures to guard against theft and diversion.	☑ Yes ☐ No
	Security System that detects unauthorized entry.	☑ Yes ☐ No
	Security System Used: Seico Alarm System	
	Security System includes any of the following:	
	☑ Separate key code access for each licensee ☑ Cameras	
	☑ Motion Sensors ☑ Glass Break Sensors	
	Personal bags in a designated area away from CS handling and storage.	☑ Yes ☐ No
3100.340	Controlled Substances shall be stored in a securely locked substantially constructed cabinet. Type of cabinet utilized by the licensee:	
	☑ Safe ☐ Substantially Constructed Cabinet	
	☑ Affixed to Floor and/or Wall ☐ Keys	
	☑ Electronic Pin Code ☐ Combination	
	CII medications are locked and secure unless actively dispensing.	☑ Yes ☐ No
	CII safe keys or combinations is limited to Pharmacist access only.	☑ Yes ☐ No
21 CFR 1304.04 (h)(1) (2)	CII Inventories and Prescriptions maintained in separate files.	☑ Yes ☐ No
21 CFR 1304.04 (h)(3) (4)	CIII – CV Inventories and Prescriptions maintained in separate files or readily retrievable from the ordinary business records of the pharmacy.	☑ Yes ☐ No

21 CFR 1304.21 (c) Return Records properly maintained in a separate file. ☑ Yes ☐ No

21 CFR 1305.04 & 05 CII orders completed with; DEA 222 Forms_____

CSOS Y

If CSOS is used, who orders CII medications? Andrew Roseboom & Corey Dolan

Is there a POA(s) on-site? (Corey) ☑ Yes ☐ No ☐ N/A

3100.360 Every licensee shall conduct an **annual** inventory that includes an inventory with an actual count of the inventory on hand for all Schedule II Controlled Substances and an approximate inventory for all Schedule III, IV and V Controlled Substances. The inventory shall be maintained for a period of not less than 5 years. Inventory requirements are listed in 21 CFR 1304.11.

Date of Last Annual Inventory: March 3, 2023 BOB

Signed by: Andrew Roseboom & Corey Dolan

In every instance that a licensee is required by 21 CFR 1301.76 (April 1, 2014) to file with the DEA a Report of Theft or Loss of Controlled Substances (Form 106), a copy shall be sent to the Division within one business day after submission to the DEA, along with the printed name of the person who signed the form.

How many DEA 106 Forms submitted in the last year: Loss 0

Theft 0

Was the loss due to employee diversion? ☐ Yes ☐ No ☑ N/A

For theft, was a police report filed with Local PD? ☐ Yes ☐ No ☑ N/A

720 ILCS 570/312 Controlled Substances are dispensed in Good Faith? ☑ Yes ☐ No

Does the Pharmacy regularly access PMP data? ☑ Yes ☐ No

Controlled Substance Prescriptions must contain the following:

1. Name and Address of the Patient ☑ Yes ☐ No ☐ N/A
2. Date of Issuance ☑ Yes ☐ No ☐ N/A
3. Practitioner's Name/Written Signature and DEA Number ☑ Yes ☐ No ☐ N/A
4. Dispensing Pharmacist's Written Signature or Initials ☑ Yes ☐ No ☐ N/A
5. Date of Filling ☑ Yes ☐ No ☐ N/A

	6.	A prescription for a Schedule II controlled substance must include both a written and numerical notation of quantity on the face of the prescription 720 ILCS 570/309	☑ Yes ☐ No ☐ N/A
	7.	No Schedule III, IV, V controlled substance filled or refilled more than 5 times more than 6 months after the date thereof or refilled more than 5 times unless renewed, in writing, by the prescriber.	☑ Yes ☐ No ☐ N/A
	8.	A prescription for a Schedule II controlled substance shall not be filled more than 90 days after the date of issuance	☑ Yes ☐ No ☐ N/A
	Schedule V Controlled Substances Dispensed in Good Faith		☐ Yes ☐ No ☑ N/A
	1.	Dispensed only by a pharmacist to a person over 21 with two sources of identification	☐ Yes ☐ No ☑ N/A
	2.	RPH shall record the name and address, name and quantity of the product, the date and time of the sale, and the dispenser's signature.	☐ Yes ☐ No ☑ N/A
	3.	No more than 120 milliliters dispensed in any 96 hour period	☐ Yes ☐ No ☑ N/A
	CV sales records are appropriately maintained		☐ Yes ☐ No ☑ N/A
3100.410	Each refilling of a prescription of a controlled substance listed in Schedules III, IV or V:		
	1.	Be entered on the back of the prescription or in the electronic prescription record;	☑ Yes ☐ No ☐ N/A
	2.	Indicate the date, quantity and name or initials of the dispensing pharmacist for each prescription;	☑ Yes ☐ No ☐ N/A
	3.	Be dated by the pharmacist as of the date of dispensing	☑ Yes ☐ No ☐ N/A
	4.	State the amount dispensed.	☑ Yes ☐ No ☐ N/A
21 CFR 1306.22	Maintains a daily printout verifying the accuracy of each days CS refills signed by the dispensing RPH(s) or a bound logbook or a separate file in which each pharmacist involved in the day's dispensing signs a statement, verifying that the refill information entered into the computer that day has been reviewed by him/her and is correct as shown.		☑ Yes ☐ No ☐ N/A

Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

I, Andrew Roseboom, **certify that as the designated representative for**

Dolan Central IL Compounding Pharmacy DBA Prechshot Professional Pharmacy,

that I (initial that you have read and meet the following requirements) (NAC 639.5005, NAC 639.5935):

1. ✓ I am at least 21 years of age;
3. ✓ I have been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.
4. ✓ I will be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
5. ✓ I will be employed full-time in a managerial level position with the pharmacy or wholesaler;
6. ✓ I will be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
7. ✓ I will serve in this representative capacity for only one pharmacy or wholesaler at a time.

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		X
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		X
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		X
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		X
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		X
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		X
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		X
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		X
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		X
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		X

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Good day,

We do not have any assigned officers or directors, only the owners. Our company is fairly small so we do not have a structure like that.

Is there additional information you need?

Thanks!

Mrs. Nally

I'm sorry for the license confusion. I attached two documents with each of us owners listed. I wasn't sure if there was a preferred document or not so I sent both of these but I'd be happy to fill out a different one if needed.

Each of the owners filled out the personal history application that was included with the application.

Thank you!

Statement of Responsibility

1. I am the Co-Manager (title) for Seven Hills Pharmacy, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacist engaged in providing pharmacy services into Nevada is licensed by the Nevada State Board of Pharmacy (NRS 639.100).

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Paul Greenall hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Co-Manager (title) for Seven Hills Pharmacy, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

1) Initial Inspection Information

3) What is the name and current version of the dispensing software being used by the pharmacy?

Observation
Pharmacy uses both Pioneer and TruePill operating system. Operating systems are client specific in their use. Pharmacy is phasing out use of Pioneer.

5) Facility description

Observation
Facility is a retail pharmacy servicing the patients of various online prescriber entities. Pharmacy has the ability to serve the community (walk-in patient). Pharmacy does not accept insurance. Pharmacy has limited drug stock. Pharmacy processes approximately 150 prescriptions per day. Pharmacy employs two pharmacists and one certified pharmacy technician. Pharmacy ships prescriptions to patients in Ohio and in other states using USPS, UPS, and FedEx.

2) * Licensing, Responsible Person and DEA Registration

1) Have there been any changes in the facility's ownership, business name or trade name, category, or address without submitting a new application to the Board?

No

2) Does the responsible person match what is indicated in eLicense?

Yes

3) Does the pharmacy have a valid registration issued by the Drug Enforcement Administration?

Yes

Observation
FS1293884 expires 2/28/2025

3) * Minimum Standards

1) Does the pharmacy have internet access to current federal and state laws, regulations, and rules governing the legal distribution of drugs in Ohio?

Yes

2) Does the pharmacy have access to the telephone number of a poison control center?

Yes

3) Are the pharmacy's hours publicly posted?

Yes

4) Are all pharmacy staff wearing name tags/badges that include the employee's job title?

Yes

7) Are the library and equipment housed in a suitable, well-lit and well-ventilated room or department and maintained in a clean, sanitary and orderly condition?

Yes

8) Are areas where drugs and devices are stored and prepared dry, well-lit, well-ventilated, and maintained in a clean, sanitary and orderly condition?

Yes

9) Are storage areas maintained at temperatures and conditions which will ensure the integrity of the drug stock?

Yes

4) Personnel

1) Are staff working at the pharmacy properly licensed/registered with the Board?

Yes

5) Are certified pharmacy technicians working within their applicable scope of practice?

Yes

8) Are pharmacy support personnel working within their permitted scope?

Not Applicable - No support personnel working or employed during inspection.

Observation

List of support personnel responsibilities: www.pharmacy.ohio.gov/supportres

OAC 4729:3-1-01 (Z)

(1) An individual employed or performing contracted services at a location licensed as a terminal distributor of dangerous drugs, trained to perform clerical duties associated with the practice of pharmacy, including pricing, cashiering, drug purchasing, delivering, scheduling deliveries, answering non-professional telephone inquiries, transportation of dispensed medications within a hospital, documenting and processing third-party billing information for reimbursement, or any other activity as determined by the board.

(2) An individual contracted by a terminal distributor of dangerous drugs to perform drug inventories.

(3) Except for those responsible for the delivery of dangerous drugs, support personnel shall not have unsupervised access to dangerous drugs.

(4) Support personnel shall not perform the tasks of a pharmacist, pharmacy intern, certified pharmacy technician, registered pharmacy technician, or pharmacy technician trainee.

(5) Support personnel may have access to or retrieve information from patient records, including a database or patient profile to perform clerical duties associated with the practice of pharmacy. Support personnel shall not enter prescription information into a patient profile.

(6) Support personnel may perform the following:

(a) Transporting dangerous drugs from a loading dock, warehouse or other area that receives shipments from a licensed wholesaler or other person licensed in accordance with section 4729.52 of the Revised Code; and

(b) Stocking and retrieving from inventory non-controlled dangerous drugs that are not dispensed by the pharmacy.

(7) The terminal distributor of dangerous drugs shall be responsible for ensuring all support personnel comply with state and federal requirements to ensure the confidentiality of patient health records.

(8) Stocking of automated drug dispensing units and floor stock with intravenous fluids that are non-controlled dangerous drugs and are not dispensed by an institutional pharmacy.*

(9) Overwrapping/placing in plastic dangerous drugs that have been compounded or dispensed (i.e. appropriately labeled) by a terminal distributor of dangerous drugs.*

(10) Entering demographic and insurance information into a patient's profile.*

10) Drug Purchases

1) Does the licensee maintain complete and accurate records of drugs purchased?

Yes

Observation
Wholesalers:

- McKesson
- TopRx
- Keysource
- Anda

2) Has the licensee performed and documented an annual query of eLicense prior to purchasing drugs at wholesale?

Yes

11) * Security, Control, and Storage of Dangerous Drugs

1) Is a pharmacist providing supervision of the dangerous drugs, hypodermics, D.E.A. controlled substance order forms, and all records relating to the distribution of dangerous drugs in the pharmacy?

Yes

3) Are all dangerous drugs, controlled substances, and hypodermics that are delivered onto the premises of the store or business are immediately placed and secured in the pharmacy under the physical control?

Yes

4) Are there any unauthorized persons present in the pharmacy?

No

7) Can the pharmacy be secured by a physical barrier or alarm system?

Yes

Observation
The only change to the barricade since March 2022 inspection was the replacement of the garage-style door. Door was replaced with a metal roll down bay-style door. Door is secured by the alarm system. No other changes to the barricade have been made since inspection in March 2022. Barricade is adequate.

8) Is a licensed pharmacist the only person with access to keys or other methods for accessing the pharmacy?

Yes

10) Does the pharmacy have a secure area only accessible by pharmacists for customers to deposit new or refill prescription orders when the pharmacy is closed?

No - Not applicable

11) Does the pharmacy maintain dangerous drugs or hypodermics outside of the confines of the pharmacy?

No

12) Does the pharmacy provide services by means of a secured drive-through facility?

No

12) Temperature Controls

1) Are refrigerators and/or freezers used for the storage of drugs maintained at the proper temperature?

Yes

Observation
Pharmacy has one refrigerator for vaccine storage. Pharmacy uses TempAlert to monitor the temperature of the refrigerator. Observed refrigerator to be at appropriate temperature. Pharmacy does not have vaccine stock or any refrigerator/freezer drug stock on site at the time of inspection.

2) Does the pharmacy have a policy to respond to any out of range individual temperature readings or excursions to ensure the integrity of stored drugs?

Yes

3) Are refrigerators and freezers use for the storage of drugs free of food or beverage products?

No

13) *Theft or Significant Loss of Drugs and Drug Documents

1) Has the licensee experienced any theft or significant loss of any dangerous drugs in the past twenty-four months?

No

3) REMINDER: Theft or significant loss of dangerous drugs and drug documents.

Observation
REMINDER

A licensee is required to report to the the Board and law enforcement authorities of any theft or significant loss of dangerous drugs (controlled and non-controlled prescription drugs) immediately upon discovery of the theft or significant loss. This includes dangerous drugs in transit that were either shipped from or to a prescriber, terminal distributor, or drug distributor.

A licensee is required to report, immediately upon discovery, to the Board and law enforcement authorities any theft or loss of uncompleted prescription blank(s) used for writing a prescription, D.E.A. controlled substance order forms (Form 222), written prescription order(s) not yet dispensed, and original prescription order(s) that have been dispensed.

For more information on reporting, visit: www.pharmacy.ohio.gov/theft

14) * Controlled Substance Inventory

1) Does the licensee conduct an annual inventory of controlled substances?

Yes

Observation
Pharmacy does not have any controlled substance drug stock on site at the time of inspection.
OAC 4729:5-3-07
All Category III licensees must complete an annual inventory even if drugs are not on-site (zero balance). Records of inventories must be maintained for at least three years. Inventories must follow the process for conducting a DEA controlled substance inventory.

16) Drug Collection Receptacles

1) Does the pharmacy operate a drug take back program (i.e. collection receptacle)?

No

17) Drug Samples

1) Does the pharmacy have sample drugs as part its inventory?

No

23) Return to Stock

4) Does the pharmacy use delivery agents?

Yes - Compliant

Observation
Pharmacy uses USPS, UPS, and FedEx. Pharmacy does not return any delivered drugs back to stock for redispensing. All drug stock returned from delivery agents are sent to Inmar for destruction.

8) REMINDER: The contents of a prescription vial or container shall not be returned to the manufacturer's stock bottle.

Observation
REMINDER: The contents of a prescription vial or container shall not be returned to the manufacturer's stock bottle.
OAC 4729:5-5-22 (B)(4)

25) Customized Medication Packaging (Adherence Packaging)

1) Does the pharmacy dispense customized patient medication packages (sometimes referred to as adherence packaging)?

No

27) Charitable Pharmacies

1) Is this pharmacy a charitable pharmacy?

No

31) *Expired/Adulterated Drugs

2) Are there expired/adulterated drugs present in the licensee's active drug stock?

No

33) Prescription Pick-Up Station

1) Does the pharmacy accept prescriptions from pick-up stations or other intermediaries?

No

39) Drug Repository Program

1) Does this pharmacy operate a drug repository program?

No

40) Temporary Removal of Drugs

1) Does the licensee engage in the temporary off-site storage of dangerous drugs?

No

46) Substance Abuse and Mental Health Resources for Healthcare Professionals

1) Substance Abuse and Mental Health Resources for Healthcare Professionals

Observation

The healthcare profession is not immune to substance use disorder and mental health conditions. Such medical conditions impair a healthcare professional's competency, ability, and judgment. Substance use disorder and/or mental health conditions that are left untreated may not only cause a healthcare professional to risk their career, but may also endanger the life of a patient.
These medical conditions can be effectively treated, and it is possible for healthcare professionals that are in treatment or recovery to return to practice.

The State of Ohio Boar of Pharmacy encourages all healthcare professionals who may be struggling with substance use disorder or mental health condition to seek help. The following are resources that can assist healthcare professionals in getting help: (the resources listed here are for informational purposes only and do not constitute an endorsement by the State of Ohio Board of Pharmacy. They do not represent a complete list of the resources available)

Ohio Careline 1-800-720-9616, emotional support, with referral to other resources if needed.
Crisis text line, text "4hope" to 741 741 to speak with a crisis counselor.
Treatment Bridge 1-877-275-6364, for addiction and mental health srevices.
National Suicide prevention dial 988, or call 1-800-273-8255.
Ohio Domestic Violence Network 1-800-934-9840
Pharmacist Rehabilitation Organization (www.ohiopro.org) for pharmacists and pharmacy interns.
Ohio Physicians Health Program (www.ophp.org)

50) Inspection Affirmation

1) Inspection Affirmation

Observation

As the person in charge at the time of this inspection, I affirm that I have reviewed this inspection report with the Specialist/Agent/Inspector, and understand its content.

If this inspection report requires a written response, I understand, per OAC 4729:5-3-03, that either of the following must be submitted to the State of Ohio Board of Pharmacy within 30 days of this inspection:

(1) The action(s) the licensee or applicant has taken to correct the violation(s) and the date of implementation of the corrective action(s); or

(2) An explanation disputing the observed violations.

I understand that if I am not the responsible person documented on this site's Ohio terminal distributor of dangerous drugs license, I will ensure the responsible person is provided a complete copy of this inspection report in a timely manner.

I further acknowledge that a written response does not release the licensee listed in this inspection report from potential disciplinary action.

Responses must be either emailed (with a copy of the inspection report) to writtenresponse@pharmacy.ohio.gov or mailed to 77 South High Street, 17th Floor, Columbus, Ohio 43215.

Alaska Board of Pharmacy

The Alaska Board issued the pharmacy a Consent Order of Discipline effective **February 15, 2024** resolving alleged violations of the Alaska Pharmacy Practice Act stemming from disciplinary actions by proper licensing authority of another state. As per the terms of the Consent Order, Pharmacy has agreed to pay a $5,000 administrative fine to the Alaska State Board of Pharmacy.

Pennsylvania Board of Pharmacy

The Pennsylvania Board issued the pharmacy a Consent Order of Discipline effective **November 7, 2023** resolving alleged violations of the Pennsylvania Pharmacy Practice Act stemming from disciplinary actions by proper licensing authority of another state. As per the terms of the Consent Order, Pharmacy has agreed to pay a $3,500 administrative fine to the Pennsylvania State Board of Pharmacy.

DEA Order to Show Cause
On December 15, 2022, the federal Drug Enforcement Agency ("DEA") issued Postmeds, Inc ("Truepill-Hayward") an administrative Order to Show Cause ("OSC") regarding revocation of its DEA registration FP6189725. **On September 28, 2023,** Truepill-Hayward and DEA reached a non-monetary resolution of the OSC proceedings through a Memorandum of Agreement ("MOA"). Under the MOA, Truepill-Hayward will maintain its active DEA registration without paying a fine and without suspension or revocation of its registration, while making certain agreed changes to its processes and procedures going forward. The MOA is specific to Truepill-Hayward and does not involve other Truepill pharmacies commonly owned by or affiliated with Truepill-Hayward.

Alabama Board of Pharmacy

The Alabama Board issued the pharmacy a Consent Order of Discipline dated **June 6, 2023.** The Pharmacy has resolved alleged violations of the Alabama Pharmacy Practice Act through entry of a Consent Order with the Alabama State Board of Pharmacy on June 8, 2023. As per the terms of the Consent Order, Pharmacy has agreed to pay a $3,000 administrative fine to the Alabama State Board of Pharmacy.

Kansas Board of Pharmacy
The Kansas Board of Pharmacy issued the pharmacy an amended Summary Order effective **February 8, 2023.** The pharmacy did not report the change of ownership in a timely manner, and paid a fine. The Kansas Board of Pharmacy approved the change of ownership application, and issued license 22-117859 on May 20, 2022.

Louisiana Board of Pharmacy

The Louisiana Board of Pharmacy issued the pharmacy a Consent Order of Discipline dated **May 11, 2022**. The pharmacy did not report the change of ownership in a timely manner. The Louisiana Board of Pharmacy approved the change of ownership application with a new permit number PHY.008479-NR as a successor to permit number PHY.007761-NR.

North Carolina Board of Pharmacy

The North Carolina Board of Pharmacy issued the pharmacy a Consent Order of Discipline dated **March 8, 2022**. The pharmacy made inaccurate statements about its ownership and officers on its initial application in November 2017 and did not correct this until November 2021. The North Carolina Board of Pharmacy approved the change of ownership application with a new permit number 14900 as a successor to permit number 13413.

Maine Board of Pharmacy

The Maine Board of Pharmacy notified the pharmacy on **March 30, 2022** that its non-resident license was terminated effective November 6, 2019 for reporting deficiencies related to its ownership. The pharmacy submitted a change of ownership application for licensure, and has been issued a new pharmacy license on November 2, 2022.

California Board of Pharmacy

The California Board of Pharmacy issued the pharmacy a letter of admonishment CI 2019 84877 dated **January 23, 2020**, concluding an investigation that found the pharmacy shipped a prescription to the wrong patient and shipped two prescriptions with the wrong return address.

The California Board of Pharmacy issued the pharmacy a modified citation and fine CI 2019 78633 dated **June 16, 2020**, with the fine amount of $0.00. In 2018, certain prescriptions were issued to the pharmacy by prescribers that were either not yet licensed to prescribe in California or who had not yet entered into an established standardized procedure or protocol developed by a supervising physician.

Also, The California Board of Pharmacy issued the pharmacy a citation and fine order of abatement CI 2020 89223 dated **August 25, 2021**, with the fine amount of $5,000. The pharmacy was in violation when dangerous drugs were stored in temperatures exceeding the recommended storage temperatures Truepill did not consider the manufacturer's stability data for drugs which may have been adulterated by heat.

Anchorage, Alaska 99501-3567
Telephone 907-269-8160 Fax 907-269-8195

CONSENT AGREEMENT

IT IS HEREBY AGREED by the Department of Commerce, Community and Economic Development, Division of Corporations, Business and Professional Licensing (Division) and TRUEPILL (Respondent) as follows:

1) **Licensure.** Respondent is currently registered as an Out-of-State Pharmacy in the State of Alaska and holds License number #166601. This license was first issued on 08/27/2020 and will lapse unless renewed by 06/30/2024.

2) **Admission/Jurisdiction**. Respondent admits and agrees that the Board of Pharmacy has jurisdiction over the subject matter of their license in Alaska and over this Consent Agreement.

3) **Admission/Facts.** Respondent admits to the following facts:

a) On September 25, 2017, Staff Pharmacist working for TRUEPILL, Curtis Ancar, received a disciplinary order from the California Board of Pharmacy for failure to exercise corresponding responsibility and excessive furnishing of controlled substances.

b) On January 24, 2019, the California Board of Pharmacy cited former Pharmacist-in-Charge and former owner of TRUEPILL, Mohammad Umar Afridi, for failure to provide documentation substantiating completion of continuing education and knowingly making or signing a document with false information.

c) On December 16, 2019, the California Board of Pharmacy cited former Pharmacist-in-Charge and former owner of TRUEPILL, Mohammad Umar Afridi, for furnishing and dispensing dangerous drugs without a prescription and dispensing on order of nurse practitioner (or person of similar status).

d) On January 23, 2020, the California Board of Pharmacy issued a letter of admonishment to Respondent for shipping a prescription to the wrong address and shipping two prescriptions with the wrong return address.

e) On June 16, 2020, the California Board of Pharmacy issued a modified citation and fine CI 2019 78633 with the fine amount of $0.00 for receiving prescriptions by prescribers that were not licensed or have not entered into procedures with supervising physicians.

f) On April 08, 2022, Respondent submitted an Out-of-State Pharmacy Registration Ownership Change Application from license no. 166601 to license no. 193858 (now withdrawn) to the Division. Professional Fitness Question #1 was marked "Yes" indicating disciplinary actions had been issued against their license as listed above in sections a) through e).

g) Subsequent background investigation revealed Respondent failed to disclose the abovementioned 2017, 2019, and 2020 licensing actions from the California Board of Pharmacy on previous State of Alaska applications for TRUEPILL (formerly DBA Postmeds, Inc.) for licenses 137655 and 166601 dated June 08, 2018, August 06, 2020, and August 27, 2020.

h) Respondent admits that as a result of the above facts, grounds exist for possible suspension, revocation, or other disciplinary sanctions of their license pursuant to AS 08.01.075, AS 08.80.261(a)(1), AS 08.80.261(a)(6), AS 08.80.261(a)(9), AS 08.80.261(a)(11)(12)(14), 12 AAC 52.920(a)(13), and 52.920(a)(14)(c).

4) **Formal Hearing Process.** It is the intent of the parties to this Consent Agreement to provide for the compromise and settlement of all issues addressed in Paragraph 3 (above) that could be raised by an Accusation to revoke, suspend, or impose disciplinary sanctions against Respondent's license through a formal hearing process.

5) **Waiver of Rights.** Respondent understands they have the right to consult with an attorney of their own choosing and has a right to an administrative hearing on the facts in this case. Respondent understands and agrees that by signing this Consent Agreement, Respondent is waiving their rights to counsel and to a hearing. Further, Respondent understands and agrees that they are relieving the Division of any burden it has of proving the facts admitted above. Respondent further understands and agrees that by signing this Consent Agreement they are voluntarily and knowingly giving up their right to present oral and documentary evidence, to present rebuttal evidence, to cross-examine witnesses against Respondent, and to appeal the Board's decision to Superior Court.

6) **Effect of Non-Acceptance of Consent Agreement.** Respondent and the Division agree that this Consent Agreement is subject to the approval of the Board. They agree that, if the Board rejects this Consent Agreement, it will be void, and an Accusation may be filed. If this Consent Agreement is rejected by the Board, it will not constitute a waiver of Respondent's right to a hearing on the matters alleged in an Accusation and the admissions contained herein will have no effect. Respondent agrees that, if the Board rejects this Consent Agreement, the Board may decide the matter after a hearing, and its consideration of this Consent Agreement shall not alone be grounds for claiming that the Board is biased against Respondent, that it cannot fairly decide the case, or that it has received ex parte communication.

7) **Consent Agreement, Decision, and Order.** Respondent agrees that the Board has the authority to enter into this Consent Agreement and to issue the following Decision and Order.

PROPOSED DECISION AND ORDER

IT IS HEREBY ORDERED that any license issued to Respondent by the Board shall be subject to the following terms and conditions:

A. Violation of Agreement

If Respondent fails to comply with any term or condition of this Consent Agreement, the Division may enforce this agreement by immediately suspending Respondent's license, without an additional order from the Board or without a prior hearing, for a violation of this agreement. In addition, any suspended portion of the civil fine will be immediately due.

If Respondent's license is suspended under this paragraph, as provided above, they will be entitled to a hearing, on an expedited basis, regarding the issue of the suspension. If Respondent's license is suspended, they will continue to be responsible for all license requirements pursuant to AS 08.80.

Respondent shall maintain an active license for the entire duration of this Consent Agreement. If the Respondent lets their license lapse, and after receiving adequate notice from the Board fails to correct the problem, the failure to maintain active licensure will be considered a violation of this Consent Agreement.

B. Respondent Address

It is the responsibility of the Respondent to keep the Board's agent advised, in writing, at all times of their current mailing address, physical address, telephone number, current employment and any change in employment.

Failure to provide notice of any changes within 10 calendar days will constitute grounds for suspension of his or her license in accordance with paragraph 'B' above.

C. Compliance with Laws

Respondent shall obey all federal, state and local laws governing their license.

D. Authorization

Within 10 calendar days of a request by the Board agent, Respondent will sign all authorizations necessary for the release of information required by this Consent Agreement.

E. Good Faith

All parties agree to act in good faith in carrying out the stated intentions of this Consent Agreement.

F. Address of the Board

All required reports or other communication concerning compliance with this Consent Agreement shall be addressed to:

CONSENT AGREEMENT AND ORDER

PARTIES

The Commonwealth of Pennsylvania, Department of State, Bureau of Professional and Occupational Affairs ("Commonwealth") and **PostMeds Inc** ("Respondent") stipulate as follows in settlement of the above-captioned case.

APPLICABLE LAW

1. This matter is before the Pennsylvania State Board of Pharmacy ("Pennsylvania Board") pursuant to the Pharmacy Act, act of September 27, 1961, P.L. 1700, ("Act"), *as amended*, 63 P.S. §§ 390-1 to 390-13; and/or 63 Pa.C.S. Chapter 31 ("Chapter 31").

LICENSURE STATUS

2. At all relevant and material times, Respondent held the following registration to practice as a nonresident pharmacy in the Commonwealth of Pennsylvania: registration no. NP000931, which was originally issued on July 3, 2017, and which is currently set to expire on August 31, 2023.

STIPULATED FACTS

3. Respondent admits the following:

Prothonotary Filed On:
Nov 08 2023 12:04 PM
Department of State

a. Absent additional Pennsylvania Board action, Respondent's registration may be continually reactivated or reinstated upon the filing of the required documentation and payment of the applicable fees.

b. Respondent's address is: 3121 Diablo Ave, Hayward, CA 94545.

c. At all relevant and material times, Respondent was authorized to practice as a nonresident pharmacy in the State of North Carolina.

d. On or about March 8, 2022, the State of North Carlina Board of Pharmacy ("North Carolina Board"), by way of Consent Order of Discipline, found Respondent to be in violation of the laws, rules, code and/or regulations of the State of North Carolina because Respondent failed to report a restructuring of ownership to the North Carolina Board.

e. In the March 8, 2022 Consent Order of Discipline, the North Carolina Board voided Respondent's permit from the time it was issued until the time the restructuring began and approved Respondent's change of ownership application as a successor permit.

f. A true and correct copy of the North Carolina Board's March 8, 2022 Consent Order of Discipline is attached as **EXHIBIT A** and is incorporated by reference.

g. At all relevant and material times, Respondent was authorized to practice as a nonresident pharmacy in the State of Louisiana.

h. On or about May 11, 2022, the State of Louisiana Board of Pharmacy ("Louisiana Board"), by way of Consent Agreement at Louisiana Board Case Number 21-0456, found Respondent to be in violation of the laws, rules, code

DOS Prothonotary:
Nov 08 2023

and/or regulations of the State of Louisiana because Respondent failed to report a restructuring of ownership to the Louisiana Board.

i. In the May 11, 2022 Consent Agreement, the Louisiana Board imposed a ten thousand dollar ($10,000.00) fine, two hundred fifty dollars ($250.00) in administrative costs, and three hundred twenty-four dollars and forty-eight cents ($324.48) in investigative costs.

j. A true and correct copy of the Louisiana Board's May 11, 2022 Consent Agreement, Louisiana Board Case Number 21-0456, is attached as **EXHIBIT B** and is incorporated by reference.

k. At all relevant and material times, Respondent was authorized to practice as a nonresident pharmacy in the State of Kansas.

l. On or about January 20, 2023, the State of Kansas Board of Pharmacy ("Kansas Board"), by way of Amended Summary Order at Kansas Board Case Number 22-183, found Respondent to be in violation of the laws, rules, code and/or regulations of the State of Kansas because Respondent failed to report a restructuring of ownership to the Kansas Board and failed to report disciplinary actions from North Carolina, Alabama, and California which also pertained to a failure to report a restructuring of ownership to each respective Board.

m. In the January 20, 2023 Amended Summary Order, the Kansas Board imposed a three thousand five hundred dollar ($3,500.00) fine.

n. A true and correct copy of the Kansas Board's January 20, 2023 Amended Summary Order, Kansas Board Case Number 22-183, is attached as **EXHIBIT C** and is incorporated by reference.

DOS Prothonotary:
Nov 08 2023

AUTHORITY OF THE BOARD

4. The Pennsylvania Board is authorized to suspend or revoke, or otherwise restrict Respondent's registration under section 4.1(e) of the Act, 63 P.S. §§ 390-4.1(e); impose a civil penalty under 63 Pa.C.S. § 3108(b)(4); and/or impose the costs of investigation upon Respondent under section 63 Pa.C.S. § 3108(b)(5).

PROPOSED ORDER

5. The parties, intending to be legally bound, consent to the issuance of the following Order in settlement of this matter:

a. **VIOLATIONS:** Respondent violated the Act at section 4.1(g), 63 P.S. § 390-4.1(g), in that Respondent had a permit to conduct a pharmacy suspended or revoked or the nonresident pharmacy was otherwise disciplined by the proper licensing authority of another state.

b. **CIVIL PENALTY:** Respondent shall pay a civil penalty of three thousand five hundred dollars ($3,500.00).

c. Payment of the civil penalty is subject to the following terms:

(1) The full civil penalty shall be tendered to the prosecution division of the Department of State with the executed consent agreement;

(2) The civil penalty shall be **paid by certified check, cashier's check, attorney's check, or money order** issued by a usual, customary, and reputable issuer (e.g. U.S. Postal Money Order, Western Union Money Order, etc.);

DOS Prothonotary:
Nov 08 2023

(3) Payment shall be valid for a period of at least 180 days and shall be **made payable to the "Commonwealth of Pennsylvania"**; and

(4) Respondent agrees that payment shall only be made by one of the methods indicated and shall not be made by uncertified personal or corporate check.

d. This Order constitutes disciplinary action by the Pennsylvania Board. This Order will be reported to other licensing authorities and any applicable national licensing databank as a disciplinary action by the Pennsylvania Board.

e. This case shall be deemed settled and discontinued upon the Pennsylvania Board issuing an order adopting this Consent Agreement.

ADMISSIBILITY OF CONSENT AGREEMENT IN FUTURE PROCEEDINGS

6. Respondent agrees that this Consent Agreement and Order shall be admitted into evidence, without objection, in any proceeding before the Department of State.

ACKNOWLEDGMENT OF NOTICE AND WAIVER OF HEARING

7. Respondent acknowledges receipt of an Order to Show Cause in this matter. Respondent knowingly and voluntarily waives the right to an administrative hearing in this matter and the following rights related to that hearing: to be represented by counsel; to present witnesses and testimony in defense or in mitigation of any sanction that may be imposed for a violation; to cross-examine witnesses and to challenge evidence presented by the Commonwealth; to present legal arguments by means of a brief; and to take an appeal from any adverse final decision.

ACKNOWLEDGMENT OF RIGHT TO ATTORNEY

8. Respondent acknowledges the right to consult with and be represented by private legal counsel of Respondent's choosing and at Respondent's expense when reviewing, considering, and

DOS Prothonotary
Nov 08 2023

accepting the terms of this Consent Agreement. To the extent that Respondent is not represented by legal counsel, Respondent has knowingly elected to proceed without the assistance of legal counsel.

WAIVER OF CLAIMS

9. Should the Pennsylvania Board vote not to adopt the Order proposed in this Consent Agreement, the presentation and consideration of this Consent Agreement shall not prejudice the Pennsylvania Board or any of its members from further participation in the adjudication of this matter. Respondent expressly waives the right to raise any claims or issues, including any and all constitutional claims or issues, which may arise or have arisen during the review, presentation and deliberation of this Consent Agreement. These claims or issues include, but are not limited to, bias, the commingling of prosecutorial and adjudicative functions by the Pennsylvania Board or its counsel, and the Pennsylvania Board, in its discretion, recommending a different sanction based upon the facts set forth in the Consent Agreement. If a hearing is subsequently held, neither this Consent Agreement nor the proposed terms of settlement may be admitted into evidence and any facts, averments, and allegations contained in the Consent Agreement must be proven at a hearing unless otherwise separately stipulated.

LIMITS ON MODIFICATION OF ORDER

10. Respondent agrees not to seek modification of the Order adopting and implementing this Consent Agreement without first obtaining the express written permission from the prosecution division. Any modification is at the sole discretion of the Pennsylvania Board.

AGREEMENT NOT BINDING UNTIL APPROVED

11. This Consent Agreement is between the Commonwealth and Respondent. The Office of General Counsel has approved this Consent Agreement as to form and legality. The disciplinary

DOS Prothonotary:
Nov 08 2023

provisions of this Consent Agreement do not take effect unless and until the Pennsylvania Board issues an order adopting this Consent Agreement.

ENTIRE AGREEMENT

12. This Consent Agreement contains the entire agreement between the parties. There are no other terms, obligations, covenants, representations, statements, or conditions, oral or otherwise, of any kind whatsoever concerning this agreement.

AGREEMENT DOES NOT PREVENT FUTURE DISCIPLINE

13. Nothing in this Order shall preclude the prosecution division of the Department of State from filing charges, or the Pennsylvania Board from imposing disciplinary or corrective measures, for violations or facts not contained in this Consent Agreement.

VERIFICATION OF FACTS AND STATEMENTS

14. Respondent verifies that the facts and statements set forth in this Consent Agreement are true and correct to the best of Respondent's knowledge, information, and belief. Respondent understands that statements in this Consent Agreement are made subject to the criminal penalties of 18 Pa.C.S.A. §4904 relating to unsworn falsification to authorities.

Re: [Truepill] Postmeds, Inc in Hayward, California (DEA COR No. FP6189725), Non-Resident License No. [PH03813]

Dear Mr. Keegan:

As requested, enclosed, as **Exhibit A**, is summary of the U.S. Drug Enforcement Administration ("DEA") Memorandum of Agreement ("MOA") entered into with Truepill-Hayward on September 28, 2023. The MOA is enclosed as **Exhibit B**.

Please let us know if you should require additional information.

Very truly yours,

EXHIBIT A

SUMMARY OF MEMORANDUM OF AGREEMENT

Relevant Background. The DEA issued an Order to Show Cause ("OSC") to Truepill's Hayward, California pharmacy (for purposes of this Exhibit, "Truepill-Hayward") on December 15, 2022. Truepill-Hayward is located at 3121 Diablo Avenue in Hayward, California and holds DEA Certificate of Registration Number FP6189725. The OSC was issued to Truepill-Hayward only. The OSC was not issued to and made no allegations about any other Truepill pharmacy.

The OSC concerned Truepill-Hayward's dispensing of controlled substances during the period September 2020 to September 2022. During that time, controlled substances accounted for only 1% of Truepill-Hayward's total dispensing volume; 99% of Truepill-Hayward's dispensing volume was for non-controlled substances. Consistent with its historical focus on non-controlled substances, even before the issuance of the OSC, Truepill-Hayward had made the decision to stop dispensing controlled substances. Truepill-Hayward voluntarily stopped dispensing Schedule II controlled substances in May 2022. And the last federally controlled substance Truepill-Hayward dispensed was on December 12, 2022. Truepill-Hayward has dispensed only federal non-controlled substances since then.

Effective September 28, 2023, Truepill-Hayward and DEA entered into a Memorandum of Agreement ("MOA") to resolve the OSC proceedings. Under the MOA, Truepill-Hayward will maintain its active DEA registration without paying a fine or monetary penalty and without suspension or revocation of its registration, while making certain agreed changes to its processes and procedures going forward. Below we discuss the issues addressed in the MOA, which were disclosed to DEA during the OSC proceedings.

Online Pharmacy Registration. The MOA states that Truepill-Hayward did not register with DEA as an "online pharmacy" under the Ryan Haight Act of 2008 ("RHA"). The RHA requires a pharmacy whose dispensing of controlled substances is caused or facilitated by means of the internet to register as an "online pharmacy." The RHA was passed in 2008, and DEA issued final regulations implementing the RHA in 2020. To our knowledge, DEA has never issued an online pharmacy registration under the RHA before.

Given the lack of DEA guidance and industry precedent, and out of a desire to comply with the RHA without DEA prompting, Truepill-Hayward applied in 2019 for an online pharmacy modification of its DEA registration. In response, DEA visited Truepill-Hayward's pharmacy twice in early 2019 and collected information about the pharmacy from employees. Following those visits and discussions with DEA, Truepill-Hayward understood that it operated as a mail-order pharmacy and did not need to obtain an online pharmacy modification. As a result, Truepill-Hayward withdrew its application for an online pharmacy modification in May 2019. DEA was aware of Truepill-Hayward's withdrawal of its modification application, and raised no issue with Truepill-Hayward's decision.

In the intervening years, the use of telemedicine in the prescribing of controlled substances increased because of the COVID-19 pandemic and regulatory flexibilities enacted by DEA and

DocuSign Envelope ID: 27161B0C-85A1-4BE8-866F-7EBF208AABE2

state regulators to increase patient access to healthcare. With the filing of the OSC, DEA signaled that now Truepill-Hayward should apply to register as an online pharmacy. Truepill-Hayward has no objection to that registration and has committed in the MOA to apply to register with DEA as an online pharmacy.

Additional information may be relevant to understanding Truepill's operations. Truepill's corporate website (https://truepill.com/) is for informational purposes only. No patient can order a medication, submit a prescription, or contact a prescriber through Truepill's corporate website. Truepill-Hayward has no involvement with patients until after they receive a prescription from an independent prescriber and choose to have the prescription filled by Truepill-Hayward. A patient must first see a prescriber of their choosing, who in the exercise of his or her medical judgment will decide whether to prescribe the patient a medication. If the prescriber issues the patient a prescription, the patient must choose to have the prescription filled by Truepill-Hayward. Only once the patient chooses to have Truepill-Hayward fill the prescription will the prescriber send an electronic prescription to Truepill-Hayward through industry recognized means (Surescripts). Upon receiving the prescription, Truepill-Hayward reviews and validates the prescription, and, if appropriate as determined by a licensed pharmacist, dispenses the medication and ships it to the patient in compliance with industry standards—Truepill-Hayward's operations are NABP, LegitScript, and URAC accredited. This same process existed when Truepill submitted its online pharmacy application to DEA in 2019.

90 Days' Supply. The MOA acknowledges that in certain historical instances, Truepill-Hayward dispensed Schedule II controlled substances pursuant to prescriptions written by an individual practitioner on a single date that together exceeded a 90-day supply. Truepill-Hayward and DEA investigated this issue and determined it occurred in a limited number of instances during a limited time. Specifically, this issue occurred in 36 instances for electronic prescriptions written by 6 prescribers between August 2020 and December 2021. The prescriptions were all written during the COVID-19 pandemic and none occurred after December 2021. None of these prescriptions were issued to patients in Nevada. Note: All these scripts were dispensed to patients only in California. In each instance, Truepill-Hayward dispensed the prescriptions only at therapeutically appropriate intervals and according to the prescriber's instructions (e.g., at 30-day intervals for multiple 30-day prescriptions). Truepill-Hayward never dispensed more than one prescription at a time and never filled a prescription early. Although Truepill-Hayward used a leading pharmacy software, PioneerRx, its controls did not consistently identify and reject such electronic prescriptions. As reflected in the MOA, Truepill-Hayward has revised its controls to ensure prescriptions like this will be consistently identified and rejected going forward.

Prescriber Licensure. The MOA reflects that during the COVID-19 pandemic, in more than 113 and up to 403 instances, Truepill-Hayward filled prescriptions for patients in California written by prescribers without sufficient licensure or emergency authorization to issue controlled substance prescriptions in California. Truepill-Hayward had attempted to address this issue by contractually requiring telehealth companies whose prescribers submitted prescriptions to Truepill-Hayward to ensure their prescribers held appropriate state licensure. The OSC proceedings revealed that Truepill-Hayward's controls did not consistently identify and reject such prescriptions. Through the MOA, Truepill-Hayward has committed to implementing controls that ensure prescribers possess the appropriate state authority.

DocuSign Envelope ID: 27161B0C-85A1-4BE8-866F-7EBF208AABE2

DEA Audit. In September 2022, DEA audited Truepill-Hayward's records relating to eight controlled substances. The MOA indicates that during the onsite visit, Truepill-Hayward could not locate certain records relating to dextroamphetamine-amphetamine ER 20 mg. Within about a week of DEA's onsite visit, Truepill-Hayward identified the unaccounted-for records – two DEA Form 222s – within its pharmacy. One was in the controlled substances document box, where it had been inadvertently overlooked; the other was in the controlled substances cage, where it was being kept because it related to an open order still awaiting shipment from the manufacturer. Truepill-Hayward regularly conducts controlled substances inventories under both DEA requirements and California law, and will continue doing so. The MOA also reflects Truepill-Hayward's agreement to go beyond that requirement by retaining a reputable third-party consultant to conduct regular audits of Truepill-Hayward's controlled substances and annual trainings on Truepill-Hayward's controlled substances policies.

Conclusion. DEA thoroughly investigated the issues in the OSC and determined it did not need to take action against Truepill-Hayward's registration. Although Truepill-Hayward is not currently dispensing controlled substances, the MOA confirms that Truepill has the processes and procedures to appropriately dispense controlled substances should it choose to resume doing so.

Truepill has always prided itself on its commitment to providing the highest quality pharmacy services and compliance with state and federal law. The resolution between Truepill-Hayward and DEA coincides with a redoubling of efforts at Truepill in that regard. Over the last year, Truepill has strategically restructured its corporate governance; overhauled leadership overseeing its compliance, pharmacy operations, and legal functions; and quadrupled its headcount and spend in compliance, quality, standards, and legal – all to ensure Truepill not only meets but exceeds its legal, regulatory, and contractual requirements. These changes will enable Truepill to continue performing to the high standards it has set for itself into the future.

MEMORANDUM OF AGREEMENT

This Memorandum of Agreement ("Agreement") is entered into by and between the United States Department of Justice, Drug Enforcement Administration ("DEA"), and Postmeds, Inc. d/b/a Truepill, on behalf of its Hayward, California pharmacy operating under DEA Certificate of Registration FP6189725 (for purposes of this Agreement, "Hayward") (DEA and Hayward each a "Party" and together the "Parties"), through their authorized representatives.

FINDINGS OF FACT

Background

1. Postmeds, Inc. d/b/a Truepill is a Delaware corporation with a principal place of business in Hayward, California. Hayward is operated by Postmeds, Inc.

2. Hayward is registered with DEA as a retail pharmacy to handle controlled substances in Schedules II through V under DEA COR number FP6189725. For purposes of this Agreement, the term "controlled substances" means substances scheduled under 21 U.S.C. § 812. Hayward's registered location is 3121 Diablo Avenue, Hayward, California, 94545. Hayward's COR expires by its own terms on November 30, 2025.

3. Hayward is not registered with DEA as an online pharmacy.

4. Hayward is currently licensed by the California Department of Consumer Affairs as a Community Pharmacy operating under the name Truepill under license number PHY 58585. This license expires on March 1, 2024.

5. On December 15, 2022, DEA issued an Order to Show Cause to Hayward pursuant to Sections 303 and 304 of the Controlled Substances Act, 21 U.S.C. §§ 823 & 824, seeking to revoke Hayward's DEA COR number FP6189725.

DocuSign Envelope ID: 27161B0C-85A1-4BE8-866F-7EBF208AABE2

6. On January 13, 2023, Hayward requested a hearing on the Order to Show Cause pursuant to 21 U.S.C. § 824 and 21 C.F.R. § 1316.47. The matter was docketed as *In the Matter of Truepill*, Docket No. 23-18.

Dispensing Controlled Substances by Means of the Internet

7. Hayward dispensed controlled substances pursuant to prescriptions issued by practitioners affiliated with Hayward's corporate customers, including telehealth companies that delivered, distributed, or dispensed, or offered to deliver, distribute or dispense, controlled substances by means of the Internet. Hayward provided an application programming interface (API) to its corporate customers to assist in dispensing and delivering medications, including controlled substances.

8. As of the Effective Date of this Agreement, the last Schedule II controlled substance Hayward dispensed was on May 16, 2022. The last controlled substance of any kind Hayward dispensed was on December 12, 2022.

9. In 2019, Hayward submitted an application for an online pharmacy modification of its DEA registration. In response to the application being submitted, DEA visited Hayward's registered location and collected information from Hayward regarding its business model. Following these visits, on June 25, 2019, Hayward withdrew its application.

10. Hayward failed to put on its Internet site the following information:

a. A statement on its homepage that Hayward complies with the requirements of 21 U.S.C. § 831 with respect to the delivery or sale or offer for sale of controlled substances. 21 U.S.C. § 831(a) and 21 C.F.R. § 1304.45(a).

b. A visible and clear statement on its homepage, or a page clearly linked from its homepage, of the following information:

DocuSign Envelope ID: 27161B0C-85A1-4BE8-866F-7EBF208AABE2

i. the name, professional degree, and states of licensure of its pharmacist-in-charge;

ii. a telephone number at which its pharmacist-in-charge can be contacted;

iii. a list of states in which Hayward is licensed to dispense controlled substances;

iv. a certification that Hayward is licensed under the CSA to deliver, distribute, or dispense controlled substances by means of the Internet; and

v. the following statement: "This online pharmacy is obligated to comply fully with the Controlled Substances Act and DEA regulations. As part of this obligation, this online pharmacy has obtained a modified DEA registration authorizing it to operate as an online pharmacy. In addition, this online pharmacy will only dispense a controlled substance to a person who has a valid prescription issued for a legitimate medical purpose based upon a medical relationship with a prescribing practitioner. This includes at least one prior in-person medical evaluation in accordance with section 309 of the Controlled Substances Act (21 U.S.C. 829) or a medical evaluation via telemedicine in accordance with section 102(54) of the Controlled Substances Act (21 U.S.C. 802(54))."

21 U.S.C. § 831(c) and 21 C.F.R. § 1304.45.

11. Hayward did not notify the DEA Administrator of the information listed in ¶ 10.b., *supra*, through the submission of an application for a modified registration thirty days before offering a controlled substance for sale, delivery, distribution, or dispensing together with a certification that such information is true and accurate. 21 U.S.C. § 831(d) and 21 C.F.R

§ 1304.40(a)(1). Hayward also did not notify the DEA Administrator of each Internet site address it used, nor of the DEA registration numbers of every pharmacy that delivers, distributes or dispenses controlled substances pursuant to orders made through each of those identified websites. 21 U.S.C. § 831(d); 21 C.F.R. § 1304.40(b)(3) and (4).

12. Hayward failed to display on the homepage of its Internet site that it had made an appropriate notification to the DEA Administrator under 21 U.S.C. § 831(d) and 21 C.F.R. § 1304.40(b).

13. Hayward failed to the provide the DEA Administrator with any monthly reports under 21 C.F.R. § 1304.55.

Dispensing of Schedule II Controlled Substances Pursuant to Prescriptions for Greater Than a 90-Day Supply

14. Between September 14, 2020, and April 1, 2022, in 36 instances, Hayward dispensed Schedule II controlled substances pursuant to prescriptions where an individual practitioner had written multiple prescriptions on a single date to an individual patient that together exceeded a 90-day supply. An individual practitioner is not authorized to issue, on a single occasion, multiple prescriptions that together provide a patient with more than a 90-day supply of a Schedule II controlled substance. *See* 21 C.F.R. § 1306.12(b). In none of these instances did Hayward dispense more than one prescription at a time or fill a prescription early. During this time, Hayward did not have sufficient controls in place to consistently identify and reject such prescriptions. Through this Agreement, Hayward is committing to ensure such controls are in place.

Dispensing of Controlled Substances Pursuant to Prescriptions Issued by Practitioners Without State Authority

15. Between September 30, 2020, and April 25, 2022, in more than 113 instances and up to 403 instances, Hayward dispensed controlled substances to patients located in California pursuant to prescriptions written by practitioners who were neither sufficiently licensed in California to issue the controlled substance prescriptions they issued, nor holders of an Authorization for Out-of-State Health Care Practitioner issued by the California Emergency Medical Services Authority (Temporary Emergency Authorization). During this time, Hayward did not have sufficient controls in place to consistently identify and reject such prescriptions. Through this Agreement, Hayward is committing to ensure such controls are in place.

Records Related to Dextroamphetamine-Amphetamine ER 20 mg

16. In September and October of 2022, DEA investigators conducted an audit of, among other things, Hayward's dextroamphetamine-amphetamine ER 20 mg records. DEA investigators conducted this audit during its onsite inspection of Hayward's registered location from September 13 through September 15, 2022, by inventorying the dextroamphetamine-amphetamine ER 20 mg present at Hayward's registered location, and comparing that inventory to the records maintained and provided by Hayward during the onsite inspection. During DEA's onsite inspection Hayward was unable to demonstrate recordkeeping related to over 1,600 dosage units of dextroamphetamine-amphetamine extended release (ER) 20 mg.

STIPULATION, TERMS, AND CONDITIONS

17. In consideration of the mutual promises and obligations of this Agreement, the Parties agree and covenant as follows:

18. Hayward represents that it has had an opportunity to seek advice of counsel prior to entering into this Agreement and that it has knowledge of the events described herein.

DocuSign Envelope ID: 27161B0C-85A1-4BE8-866F-7EBF208AABE2

19. Hayward agrees that the above Findings of Fact are true and accurate, and fully accepts responsibility for the conduct described therein.

20. Hayward agrees to and will comply with the compliance measures set forth in Paragraphs 21 through 34 of this Agreement for a period of four years from the Effective Date of this Agreement.

21. Not later than 30 days after the Effective Date of this Agreement, Hayward will apply for a modified DEA registration authorizing it to operate as an online pharmacy and, when that modification is granted, will meet the requirements applicable to online pharmacies under 21 C.F.R. §§ 1304.40–1304.55. Hayward will implement policies and procedures to meet these requirements applicable to online pharmacies under 21 C.F.R. §§ 1304.40–1304.55 by no later than the date upon which a modified DEA registration authorizing it to operate as on online pharmacy is granted.

22. Within each report that Hayward submits to the Administrator under 21 C.F.R. § 1304.55, Hayward shall also identify, in a sortable format, the prescriber of the controlled substance, the corporate customer associated with each dispensed prescription, and the delivery address zip code.

23. Hayward shall report to DEA, on a monthly basis, identifying information (*e.g.*, prescriber name, prescriber DEA registration number, prescriber address, associated corporate customer, controlled substance form, controlled substance quantity, patient name, patient address, delivery address, date prescription issued, etc.) for all rejected controlled substance fills, together with documentation indicating why the fills were rejected, not later than the fifteenth day of the month succeeding the month for which the report is submitted. In addition, if based on a rolling 30-day period, Hayward rejects 10 such controlled substance fills for an individual

DocuSign Envelope ID: 27161B0C-85A1-4BE8-866F-7EBF208AABE2

prescriber, or rejects 50 such controlled substance fills for one or more prescribers associated with a single corporate customer, Hayward will report this information within 24 hours of the rejection of the tenth fill for an individual prescriber, or the fiftieth fill for a single corporate customer, together with documentation of why the fills were rejected.

24. Not later than 30 days after the Effective Date of this Agreement, Hayward will implement controls to identify and prevent the dispensing of Schedule II controlled substance prescription(s) issued to a patient on a single day by an individual prescriber where those prescription(s) together provide the patient in excess of a 90-day supply of a Schedule II controlled substance. Specifically, Hayward's controls will include the following:

a. Hayward's pharmacy system will direct prescriptions for controlled substances into a specific controlled substances workflow;

b. As part of the controlled substances workflow, Hayward's pharmacy system will apply a hold to prescriptions for Schedule II controlled substances, which will require a designated controlled substance pharmacist review and approval for the prescription to proceed to dispensing;

c. As part of the pharmacist's review, the pharmacy system will require the pharmacist to review the previous six-month dispensing history, confirm that the patient did not receive multiple Schedule II controlled substance prescriptions that were issued on a single day by an individual prescriber and that together provide the patient with more than a 90-day supply of a Schedule II controlled substance, and document this was completed;

d. To assist, but not substitute for, the pharmacist's review, Hayward's pharmacy system will also alert the pharmacist to all Schedule II controlled substance

prescriptions within the same Group Product Identifier ("GPI") 14 that were written on the same day by placing a hold that requires approval or cancellation prior to proceeding in the workflow;

e. In any instance where Hayward identifies that an individual prescriber issued a patient Schedule II controlled substance prescription(s) on a single day that provide the patient with a greater than 90-day supply, Hayward will reject the prescriptions and notify the patient, the prescriber, and, if Hayward has entered into a contractual relationship with a company affiliated with the prescriber, such company, of the basis for the rejection;

f. In addition, Hayward's pharmacy system will not allow any Schedule II controlled substance prescription to proceed to dispensing if, based on the GPI 14, the patient received greater than a 60-day supply of medications with the same GPI 14 written on the same day.

25. Not later than 30 days after the Effective Date of this Agreement, Hayward will revise its written policies and procedures to reflect the processes described above in Paragraph 24.

26. Hayward will retain a reputable third-party consultant ("DEA Compliance Consultant"), initially Susannah Herkert of Guidepost Solutions LLC, or her designee. Starting with the first full quarter after the Effective Date of this Agreement, each quarter the DEA Compliance Consultant will audit five percent of the total Schedule II controlled substances dispensed in the prior quarter (up to 500 prescriptions per audit) to ensure that Hayward did not fill prescriptions for Schedule II controlled substances issued to a patient on the same day by an individual prescriber where such prescriptions issued on the same day by an individual prescriber

DocuSign Envelope ID: 27161B0C-85A1-4BE8-866F-7EBF208AABE2

provided the patient with greater than a 90-day supply. Each audit set will be obtained using a commonly accepted randomization technique. Hayward will provide the results of these audits to DEA by notifying DEA whether it identified any Schedule II controlled substance prescriptions written on a single day providing a patient with greater than a 90-day supply that Hayward filled and, if such prescriptions are identified, of details related to the prescriptions. If the audit indicates that Hayward filled Schedule II controlled substance prescriptions written on a single day that, in total, provided a patient with greater than a 90-day supply, the DEA Compliance Consultant will conduct a root cause analysis to determine why such prescriptions were not rejected, and Hayward will take appropriate steps to remediate the identified cause.

27. Not later than 30 days after the Effective Date of this Agreement, Hayward will implement a control to identify and prevent the dispensing of controlled substance prescriptions where the prescriber is not licensed in the state to which the patient has specifically requested the medication be mailed (hereinafter, "patient delivery state") and is not otherwise authorized to write prescriptions to a patient located in that state. Specifically, Hayward will implement the following:

a. When Hayward enters into contractual relationships with companies affiliated with prescribers and the contractual formulary of drugs Hayward may dispense for such companies includes controlled substances, Hayward will contractually require those companies to identify all affiliated prescribers who may submit controlled substance prescriptions to Hayward and the state(s) in which each prescriber is licensed. Hayward will independently verify all state license information of the prescribers so identified, to confirm the accuracy of such information; will contractually require such companies to provide monthly

DocuSign Envelope ID: 27161B0C-85A1-4BE8-866F-7EBF208AABE2

updates on such prescriber state licensure information; and will independently verify all such prescriber state licensure information no less than every six months.

b. Hayward will create and maintain an internal database of the state licensure information provided by companies and verified by Hayward pursuant to Paragraph 27.a.;

c. As described above, Hayward's pharmacy system will direct prescriptions for all controlled substances to a controlled substance workflow and place such prescriptions on hold pending pharmacist review for the designated controlled substance pharmacist team;

d. As part of that review, the pharmacist will verify, based on reference to Hayward's internal database described above in Paragraph 27.b, that the prescriber has authority to write controlled substance prescriptions in the patient delivery state;

e. Before the prescription may be filled, Hayward's pharmacy system will require the pharmacist to input the prescriber's state license number into a designated field to approve. The designated controlled substance pharmacist will reject the prescription if the prescriber's state license number cannot be verified based on Hayward's internal database;

f. In any instance where Hayward's pharmacy system or pharmacist identifies a controlled substance prescription issued by a prescriber not authorized to write prescriptions in the patient delivery state, Hayward will reject the prescription and notify the patient, the prescriber, and, if Hayward has entered into a contractual

relationship with a company affiliated with the prescriber, such company, of the basis for the rejection.

28. Not later than 30 days after the Effective Date of this Agreement, Hayward will revise its written policies and procedures to reflect the processes described above in Paragraph 27.

29. Starting with the first full quarter after the Effective Date of this Agreement, the DEA Compliance Consultant will audit five percent of the total controlled substances dispensed (up to 500 prescriptions per audit) to verify that Hayward did not fill controlled substance prescriptions where the prescriber was not licensed in the patient delivery state. This may be the same set of prescriptions described above in Paragraph 26, and in any event, will be obtained using a commonly accepted randomization technique. Hayward will provide the results of these audits to DEA by notifying DEA whether it identified any controlled substance prescriptions written by prescribers who were not licensed in the patent delivery state and, if such prescriptions are identified, of details of the prescriptions. If the audit indicates that Hayward filled controlled substance prescriptions written by prescribers who were not licensed in the patent delivery state, the DEA Compliance Consultant will conduct a root cause analysis to determine why such prescriptions were not rejected, and Hayward will take appropriate steps to remediate the identified cause.

30. Hayward currently performs full Schedule II controlled substances inventory reconciliations each quarter, and the DEA Compliance Consultant will continue doing so. Each audit set will be obtained using a commonly accepted randomization technique. Starting with the first full quarter after the Effective Date of this Agreement, Hayward will provide the results of those audits to DEA within two weeks of the audit being completed.

31. Hayward's existing pharmacists and pharmacy technicians/clerks will undergo an annual training on the policies referenced in Paragraphs 21 through 30, and Hayward will train all newly hired pharmacists and pharmacy technicians/clerks on those policies.

32. Hayward's existing pharmacists and pharmacy technicians/clerks will undergo an annual training on Hayward's controlled substances inventory policies, and Hayward will train all newly hired pharmacists and pharmacy technicians/clerks on those policies.

33. The DEA Compliance Consultant will conduct an annual training for Hayward's pharmacists and pharmacy technicians/clerks on Hayward's controlled substances policies, including but not limited to those described above, and on the identification and resolution of red flags for diversion. Hayward will provide confirmation to DEA that this training has occurred within two weeks of the training being completed.

34. Hayward will provide the information required to be provided to DEA under Paragraphs 23, 26, 29, 30, and 33 to the Diversion Program Manager of the San Francisco Division. Such information will be provided on behalf of Hayward by the Senior Vice President of Pharmacy Operations, or, if such position is vacant, by another management-level employee, within two weeks of the quarter close or two weeks after the annual training, as applicable.

35. Within three business days of the Effective Date of this Agreement, DEA will move to discontinue the Order to Show Cause proceedings.

36. Within three business days of the Effective Date of this Agreement, Postmeds, Inc. will move to dismiss the proceedings in *Postmeds, Inc. v. Drug Enf't Admin.* No. 1:23-cv-648 (E.D.Va.).

37. DEA will not file any other Order to Show Cause based on the facts alleged in the December 15, 2022 Order to Show Cause unless Hayward does not fulfill its obligations under this Agreement.

38. Hayward acknowledges and agrees that breach or violation of any term of this Agreement may be grounds to immediately suspend any DEA registration associated with Hayward pursuant to 21 U.S.C. § 824(d) and may therefore result in administrative action in DEA's sole discretion. Furthermore, nothing in this Agreement shall be construed as a waiver on the part of DEA to utilize any other grounds for revocation or denial of any DEA registration associated with Hayward, nor shall it be construed as waiver of any defense or reservation of rights by Hayward.

39. DEA and Hayward will bear their own legal and other costs incurred in connection with this matter, including the preparation and performance of this Agreement.

40. This Agreement constitutes the complete agreement between the Parties related to the subject matter herein. This Agreement may not be amended except by written consent of the Parties.

41. This Agreement is binding on Hayward's successors, transferees, and assigns.

42. DEA, Hayward, and each signatory to this Agreement represents that it freely and voluntarily enters into this Agreement without any degree of duress or compulsion.

43. The undersigned represent and warrant that they are fully authorized to execute this Agreement on behalf of the entities indicated below.

44. For purposes of construing this Agreement, this Agreement shall be deemed to have been drafted by all Parties to this Agreement and shall not, therefore, be construed against any Party for that reason in any subsequent dispute.

DocuSign Envelope ID: 27161B0C-85A1-4BE8-866F-7EBF208AABE2

45. This Agreement may be executed in counterparts, each of which constitutes an original and all of which constitute one and the same Agreement.

46. This Agreement will become final and binding only upon signing by all Parties.

47. This Agreement is effective on the date of signature of the last signatory to the Agreement ("Effective Date of this Agreement"). Facsimiles and electronic transmissions of signatures will constitute acceptable, binding signatures for purposes of this Agreement.

ADDENDUM TO MEMORANDUM OF AGREEMENT

Under the Memorandum of Agreement executed between the Drug Enforcement Administration and Hayward, Hayward may retain whomever it chooses to fill the role of DEA Compliance consultant as identified in Paragraph 26. The selection of that third party consultant is entirely within the discretion of Hayward, so long as the selected consultant can fulfill the obligations set forth in the MOA.

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, Postmeds, Inc. (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact Postmeds, Inc.:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: ari@truepill.com

To advise Postmeds, Inc. of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at ari@truepill.com and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from Postmeds, Inc.

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to ari@truepill.com and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with Postmeds, Inc.

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to ari@truepill.com and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify Postmeds, Inc. as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by Postmeds, Inc. during the course of your relationship with Postmeds, Inc..

IN THE MATTER OF:	)	
	)	**BEFORE THE ALABAMA STATE**
POSTMEDS INC. dba TRUEPILL and/or TRUEPILL f/k/a POSTMEDS INC.	)	**BOARD OF PHARMACY**
	)	
Non-Resident Pharmacy Permit Number: 114861	)	**CASE NO: 22-L-0114**

CONSENT ORDER

THIS MATTER comes before the Alabama State Board of Pharmacy (hereinafter referred to as the "Board") on a complaint against **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.** which resulted in the filing of a Statement of Charges and Notice of Hearing ("Statement") alleging violations of the Alabama Pharmacy Practice Act as are more particularly set out in the Statement which is attached hereto as **Exhibit "A."**

Prior to a hearing in this cause, and pursuant to Code of Alabama (1975), § 41-22-12(f), the matters at issue were resolved informally by the parties and the parties negotiated a Consent Order, the terms of which are as follows:

1. The Board finds that **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.** has violated the provisions of law set out in the Statement.

2. **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.** shall pay an administrative fine in the amount of Three Thousand Dollars ($3,000.00) within thirty (30) days of the effective date of this consent order that being the day the same is signed on behalf of the Board. This payment shall not be subject to discharge in bankruptcy nor shall **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.** attempt to discharge the same. Payments shall be made payable to Alabama State Board of Pharmacy and mailed to 111 Village Street, Birmingham, Alabama 35242.

3. **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.** expressly waives its rights pursuant to the Alabama Pharmacy Practice Act, the Alabama

Administrative Procedure Act and the Alabama Uniform Controlled Substances Act, including but not limited to the Code of Alabama (1975), §34-23-34 and §34-23-92(12), Code of Alabama (1975), §41-22-12 and §40-22-20 and Code of Alabama (1975), §20-2-50 et seq., and including but not limited to the opportunity for a hearing before the Board in connection with any charges against it and any judicial review. **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.** further waives any objection to the attorney for the Board preparing, drafting, or making this Order, including the waiver of any objection or right pursuant to Code of Alabama (1975), §41-22-18.

4. By execution of this Consent Order, **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.** hereby releases the Board, its members, agents, representatives, servants, and employees from any and all liability, claims, damages, fees, or expenses arising out of or made in connection with the matters relating to this Consent Order and Statement.

5. **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.** acknowledges and agrees that any future violation of the Alabama Pharmacy Practice Act, the laws that regulate the sale and/or dispensing of prescription or legend drugs and/or narcotics or any Rules and regulations of the Alabama State Board of Pharmacy or the pharmacy law or rules of the Board of Pharmacy of another state or any other applicable laws may, upon proof and hearing thereof, result in further disciplinary sanctions against **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.'s** permit, including, but not limited to revocation.

6. **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.** acknowledges and agrees that it has read this Consent Order and that it fully understands the terms, conditions, and contents of the same. **PostMeds Inc. dba Truepill and/or**

Truepill f/k/a PostMeds Inc. acknowledges and agrees that it voluntarily and of its own free will accepts the terms and conditions set out in this Consent Order and agrees that it had the right to seek advice of counsel before executing this Consent Order.

BEFORE THE KANSAS BOARD OF PHARMACY

In the Matter of	)	
	)	Case No. 22-183
PostMeds, Inc dba Truepill	)	
	)	
Registration No. 22-117859	)	

AMENDED SUMMARY ORDER

NOW on this 20th day of January, 2023, comes before the Kansas Board of Pharmacy (the "Board"), through its Executive Director, the matter of PostMeds, Inc dba Truepill ("Respondent").

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq.*, and in accordance with the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq.*, the Board's Executive Secretary enters this Amended Summary Order in the above-captioned matter. After reviewing the investigation materials and being otherwise duly advised in the premises, makes the following findings, conclusions and order:

FINDINGS OF FACT

1. The Board has previously issued Respondent Registration No. 22-104228 which entitled Respondent to operate as a non-resident pharmacy in the State of Kansas.

2. On November 6, 2019, the ownership of Respondent's non-resident pharmacy changed.

3. On May 22, 2020, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 3, 2020 with an expiration date of June 30, 2021. Respondent answered "No" to the question; "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?"

DOS Prothonotary
Nov 08 2023

DocuSign Envelope ID: 7A09DD9B-58F8-40F8-A3B1-420613335C37

Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

4. On June 1, 2021, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 21, 2021 with an expiration date of June 30, 2022. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?" Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

5. Due to staffing challenges, personnel turnover and administrative oversight resulting from its early, rapid growth and restructuring and the corresponding COVID-19 pandemic, Respondent mistakenly failed to report the 2019 ownership change and related disclosures to the Board in its May 22, 2020 and June 1, 2021 renewal applications.

6. On April 18, 2022, the Board received notification from Respondent of an ownership change and several past disciplinary actions not previously reported to the Board including: North Carolina Board of Pharmacy Consent Order of Discipline dated March 8, 2022; California State Board of Pharmacy Letter of Admonishment dated January 23, 2020; California State Board of Pharmacy Citation and Fine dated June 16, 2020; California State Board of Pharmacy Citation and Fine Order of Abatement dated August 25, 2021; Alabama State Board of Pharmacy Final Order dated October 25, 2021; California State Board of Pharmacy Citation and Fine dated January 24, 2019; and California State Board of Pharmacy Citation dated December 16, 2019.

DOS Prothonotary
Nov 08 2023

DocuSign Envelope ID: 7A09DD9B-58F8-40F8-A3B1-420613335C37

7. On April 28, 2022, the Board received from Respondent a Form BA-22 Non-Resident Pharmacy Registration Application ("Respondent's Application"), notifying of the change in ownership effective November 6, 2019, and applying for a new non-resident pharmacy registration under the new ownership.

8. On May 20, 2022, the Board approved Respondent's Application and issued Respondent the new Non-Resident Pharmacy Registration No. of 22-117859 ("Respondent's Registration") under their new ownership.

9. Prior to receiving the ownership change application, registrant provided a letter notifying of the late ownership change, as well as unreported discipline. Ownership change application completed indicating discipline had occurred and providing details of discipline (5 occurrences).

10. In mitigation, Respondent states that it has invested in additional staff, engaged internal and external legal counsel and implemented training efforts to prevent any such reporting oversights in the future.

CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.S.A. 65-1627(f), the Board may take action against a registration on any ground that would authorize the board to take action against the registration of a pharmacy under K.S.A. 65-1627, and amendments thereto.

3. Pursuant to K.S.A. 65-1627(e)(1), the Board may take action against the registration of a pharmacy upon a finding that such pharmacy has been operated in such manner

DOS Prothonotary
Nov 08 2023

DocuSign Envelope ID: 7A09DD9B-58F8-40F8-A3B1-420613335C37

that violations of the provisions of the pharmacy act of the state of Kansas or of the rules and regulations of the board have occurred in connection therewith.

4. Pursuant to K.S.A. 65-1627(e)(4), the Board may take action against the registration of a pharmacy upon a finding that the registrant has had a registration revoked, suspended or limited, has been censured or has had other disciplinary action taken, or an application for registration denied, by the proper registering authority of another state, territory, District of Columbia or other country.

5. Pursuant to K.S.A. 65-1657, no nonresident pharmacy shall ship, mail, or deliver, in any manner, prescription drugs to a patient in this state unless registered with the Board as a nonresident pharmacy.

6. Pursuant to K.S.A. 65-1645(f), registrations shall not be transferable.

7. Pursuant to K.A.R. 68-2-9, each registrant shall notify the executive secretary of the Board in writing of any change in majority ownership of the operation for which the registration was issued within five days after the date the change in ownership becomes effective.

8. Pursuant to K.A.R. 68-2-23, each pharmacy owner shall notify the board in writing within 30 days of any denial, limitation, suspension, revocation, voluntary surrender, or other disciplinary action taken by the state of Kansas or another jurisdiction against the pharmacy or the pharmacy owner or any application, license, registration, or permit held by the pharmacy owner.

9. Respondent's registered facility changed ownership on November 6, 2019 but Respondent did not provide notification or file a new application with the Board until April 18 and 28, 2022, respectively.

10. Respondent's failure to submit the complete change of ownership to the Board until April 2022 is a violation pursuant to K.A.R. 68-2-9 and an unlawful transfer of the previous

D06 Prothonotary
Nov 08 2023

DocuSign Envelope ID: 7A09DD9B-58F8-40F8-A3B1-420613335C37

registration to the new ownership. Respondent's actions are a violation pursuant to K.S.A. 65-1657 and K.S.A. 65-1627(e)(1), and a basis to take action against Respondent's Registration.

11. Respondent failed to notify the Board of the six disciplinary actions by North Carolina, California, and Alabama until April 18, 2022, nearly one to two years after they were effective, is a violation of K.A.R. 68-2-23 and a basis to take action against Respondent's Registration pursuant to K.S.A. 65-1627(e)(1) and (e)(4).

ORDER

Taking into account the mitigating and corrective actions of Respondent, the Board finds and concludes that Respondent's conduct, as described above, violates the Act and such conduct warrants the imposition of a fine pursuant to K.S.A. 65-1658, in the amount of $3,500.00. Respondent has 30 days from the date of this order to pay the fine.

NOTICES

The Respondent is hereby notified as follows:

1. The Respondent may request a hearing pursuant to the Kansas Administrative Procedure Act by filing a written request with the Kansas Board of Pharmacy, 800 SW Jackson, Suite 1414, Topeka, KS 66612-1231 within fifteen (15) days after service of this order.

2. If a hearing is not requested as described above, the Order shall become a final order of the Board, effective upon the expiration of the time to request a hearing.

3. Within fifteen (15) days after entry of a final agency order, either party may file a petition for reconsideration pursuant to K.S.A. 77-529.

4. Within the time limits established in K.S.A. 77-613, either party may seek judicial review of a final agency order, pursuant to said statute. The agency officer designated to receive service of a petition for judicial review is:

IN THE MATTER OF: **CONSENT ORDER**

POSTMEDS, INC.

LOUISIANA PHARMACY PERMIT NO. 7761 **Case No. 21-0456**

CONSENT AGREEMENT

WHEREAS, an informal conference was conducted by the Violations Committee of the Louisiana Board of Pharmacy (hereinafter referred to as the "Board") on March 16, 2022 at the Board office, 3388 Brentwood Drive, Baton Rouge, LA 70809, in the matter of POSTMEDS, INC. (hereinafter referred to as "Respondent"), holding Louisiana Pharmacy Permit No. 7761, 3121 Diablo Ave., Hayward, CA 94545-2701, with attorney Skip Philips and Postmeds Corporate Counsel Donnie Simkin appearing on behalf of Respondent.

WHEREAS, WHEREAS, on August 27, 2018, the Louisiana Board of Pharmacy issued a non-resident pharmacy permit, PHY.007761-NR, to Postmeds Inc. At that time, Postmeds Inc. was 31.5% owned by Mohammad Umar Afridi, 31.5% owned by Siddharth Viswanathan, 16.5% owned by Initialized III L.P., and 20.5% owned by others with no individual owner holding more than 4%. On December 17, 2021 the Board received an "Application for New Louisiana Pharmacy Permit for Nonresident Pharmacy" from Postmeds, Inc. d/b/a Truepill. Accompanying correspondence and organization chart detailed a 100% change in the ownership structure of Postmeds Inc., effective November 6, 2019. Postmeds Inc. went from being owned 31.5% by Mohammad Umar Afridi, 31.5% by Siddharth Viswanathan, 16.5% by Initialized III L.P., and 20.5% by others with no individual owner holding more than 4%, to being owned 100% by Truepill, Inc.

WHEREAS, the Board alleges that such actions constitute violations of the following:

La. R.S. 37:1241 (A)(1): Practiced or assisted in the practice of pharmacy, or knowingly permitted or has permitted anyone in his employ or under his supervision to practice or assist in the practice of pharmacy, in violation of the provisions of this Chapter and any rules and regulations promulgated thereto in accordance with the Administrative Procedure Act.

La. R.S. 37:1221(B). No out-of-state pharmacy providing pharmacy services to residents of this state shall open, establish, operate, or maintain a pharmacy, located out-of-state, unless the pharmacy is issued a permit by the board.

La. R.S. 37:1222(A). A person applying for a permit to open, establish, operate, or maintain a pharmacy, within or outside of this state, shall complete an application in such form and contain such data as the board may require, and complete such other requirements as deemed necessary by the board, including but not limited to designation and identification of a pharmacist-in-charge.

DOS Prothonotary
Nov 08 2023

DocuSign Envelope ID: 7A09DD9B-58F8-40F8-A3B1-420613335C37

La. R.S. 37:1222(E). A permit to operate a pharmacy shall not be transferable.

La. R.S. 37:1232(A). A pharmacy located outside this state which does business in this state within the meaning of this Chapter, shall hold a current pharmacy permit as provided in this Chapter. The pharmacy shall be designated a "nonresident pharmacy" and the permit shall be designated a "nonresident pharmacy permit."

LAC, Title 46: LIII §1101(A). Individuals, partnerships, corporations, limited liability companies, or associations desiring to operate a pharmacy in Louisiana, or outside the state where prescriptions drugs/devices are dispensed and delivered to Louisiana residents, shall execute an application for a pharmacy permit for their particular classification of pharmacy.

LAC, Title 46: LIII §1135(A)(1)(e). The holder of a pharmacy permit shall notify the board, in writing, prior to the transfer of ownership, in order for the board to complete an inspection of the pharmacy premises. A change of ownership of a pharmacy is evident under the following conditions: a 50 percent, or more, change in ownership of a corporation, limited liability company, or association since the issuance of the original permit or the last renewal application.

LAC, Title 46: LIII §1135(A)(2). The new owner(s) of the pharmacy shall submit a properly completed pharmacy permit application, with appropriate fee, to the board.

LAC, Title 46: LIII §1135(A)(4). Pharmacy permits are not transferable from the original holder(s) of the permit to the new owner(s).

LAC, Title 46: LIII §2305(A). The out-of-state pharmacy shall apply for a permit and annual permit renewals on forms provided by the board.

LAC, Title 46: LIII §2307(C). Authority and Accountability. The designated pharmacist-in-charge of the pharmacy and the pharmacy owner(s), or partners, or corporate officer(s) of the permit holder, where applicable, shall be responsible for the complete supervision, management, and compliance with all federal and state pharmacy laws and regulations pertaining to the practice of pharmacy of the entire prescription department. This responsibility necessarily includes accountability for any violation involving federal or state laws or regulations occurring within the prescription department supervised by a pharmacist-in-charge.

To facilitate the submission of this Consent Agreement, Respondent does not contest the allegations and agrees that there is sufficient evidence upon which to predicate a finding of those violations.

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

DOS Prothonotary

DocuSign Envelope ID: 7A09DD9B-58F8-40F8-A3B1-420613335C37

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

In order to avoid further administrative and judicial proceedings, Respondent hereby consents to accept and abide by the following order of the Board:

POSTMEDS, INC., holder of Louisiana Pharmacy Permit No. 7761, is ordered to pay a fine of $10,000.00 and to reimburse the Board $250.00 for administrative costs, and $324.48 for investigative costs with total payment due the Board of $10,574.80, due by *certified check or money order* to be paid simultaneously with the execution of this Consent Agreement by Respondent.

By signing this Consent Agreement, Respondent agrees that the Board has jurisdiction in this matter, waives all rights to informal conference, to Notice of Hearing, to a formal Administrative Hearing and to judicial review of this Consent Agreement. Moreover, at no time shall Respondent request the expungement, rescission or removal of this Consent Agreement.

By signing this Consent Agreement, Respondent agrees that any failure to comply with the terms of this Agreement is a basis for discipline by the Board.

Both Respondent and the Board stipulate that this Consent Order shall not become effective and shall not become binding on the Board unless and until approved by the Board at formal meeting. However, Respondent agrees that this Consent Order shall be effective and binding upon Respondent without recourse upon its authorized representative signing said Order.

Respondent agrees to authorize the Board to report this action to the National Practitioner Data Bank – Healthcare Integrity and Protection Data Bank (NPDB-HIPDB) as required by law.

I, Matt Davis-Ratner, authorized to act on behalf of and acting on behalf of **POSTMEDS, INC.**, understand that this Consent Agreement is effective as a Board Order upon affirmative vote by the Board at formal hearing. It is also understood that, should the Board not approve this Consent Agreement, the agreement therein does not preclude the Louisiana Board of Pharmacy from requiring a formal hearing of this case.

It is further understood that, should this Consent Agreement not be accepted by the Board, the presentation to and consideration by the Board of this Agreement, including presented documentary evidence and information, shall not unfairly or illegally prejudice or preclude the Board or any of its members from further participation in hearings or resolution of these proceedings.

STATE OF NORTH CAROLINA
NORTH CAROLINA BOARD OF PHARMACY

IN THE MATTER OF	)	
	)	
POSTMEDS, INC. d/b/a Truepill,	)	**CONSENT ORDER**
	)	**OF DISCIPLINE**
Permit No. 13413 and Its Successor Permit(s).	)	

THIS MATTER came to be considered before a member of the North Carolina Board of Pharmacy (hereinafter, the "Board") pursuant to 21 N.C.A.C. 46 .2008. The Conference was scheduled for Thursday, February 24, 2022, and, after appropriate notice, was heard on that day by Board member Wallace E. Nelson. Respondent PostMeds, Inc. was informed of its right to be present at the pre-hearing conference and declined. The Board's General Counsel, Clinton R. Pinyan, represented the Board.

Respondent has agreed to waive a formal hearing in the above-referenced matter. It stipulates and agrees to the findings of fact and conclusions of law recited herein and to the order of discipline imposed. By its consent, Respondent also stipulates that it waives its right to appeal this Consent Order or challenge in any way the sufficiency of the findings of this Order as a basis for the action taken. Based upon the consent of the parties, the Board hereby enters the following:

FINDINGS OF FACT

1. On November 20, 2017, the Board issued Permit No. 13413 to Respondent PostMeds, Inc. d/b/a Truepill (Permit No. 13413) ("PostMeds").

2. On PostMeds' initial permit application, its then-pharmacist manager, Mohammad Umar Afridi, submitted an inaccurate statement that he was the sole owner and officer of PostMeds. In fact, PostMeds now acknowledges that Afridi and Siddharth

DOS Prothonotary
Nov 08 2023

Viswanathan each owned 47 percent of PostMeds on November 20, 2017, with others owning six percent, and that Viswanathan was also an officer of PostMeds.

3. Viswanathan and the minority owners' interests would not have raised questions about the permit application in this particular case. If PostMeds had disclosed the true ownership and officers of PostMeds, the Board still would have granted PostMeds a permit. However, it was an inaccurate statement that Afridi, as the person who submitted the application, knew was inaccurate. That statement prevented the Board from vetting Viswanathan as the owner of the pharmacy. Because of the inaccuracy of the representations, the initial permit was void ab initio.

4. In November 2019, PostMeds went through a corporate restructuring. During that restructuring, Truepill, Inc. was created as a holding company for PostMeds. At that time, Truepill, Inc. became the sole owner of PostMeds. Afridi, Viswanathan and the other former direct owners of PostMeds became indirect owners with the same ownership interests in the holding company, Truepill, Inc., that they had before the transfer of ownership.

5. This restructuring required PostMeds to submit a transfer of ownership application and have that application granted before the restructuring closed. PostMeds failed to do this. Therefore, even if the initial permit had been valid (which it was not), it would have become invalid upon the corporate restructuring.

6. Insertion of a new holding company between the ultimate owners and PostMeds would not have raised questions about the permit application in this particular case. The ownership interests of the ultimate owners did not change. If PostMeds had disclosed the new holding company, the Board still would have granted the transfer of ownership. However,

DOS Prothonotary:
Nov 08 2023

PostMeds failed to submit the transfer of ownership application or otherwise disclose the interests of Truepill, Inc.

7. In each of its subsequent renewals, PostMeds failed to correct the ownership information that it had inaccurately submitted on its initial application or to list Truepill, Inc., as the direct owner of the pharmacy.

8. On November 4, 2021, counsel for PostMeds informed the Board that its "current ownership information on file with the North Carolina Board of Pharmacy is out of date." Upon follow-up questioning, the next day, PostMeds disclosed that it should have submitted a transfer of ownership application in November 2019. It further was apparent from the ownership information that PostMeds provided that Afridi made inaccurate representations about ownership and officers on PostMed's initial application that had never been corrected.

9. PostMeds agreed to stop shipping any drugs, devices or medical equipment into the State of North Carolina until the matter was resolved. It further agreed to stop shipping or dispensing any drugs, devices or medical equipment from six other pharmacies under its ownership until the matter was resolved (even though those pharmacies did not receive permits until after the transfer of ownership had occurred, and so did not suffer from the same problem).

10. PostMeds submitted a transfer of ownership application promptly.

11. Although PostMed's disclosure of its inaccuracies was tardy, its remedial actions are a mitigating factor in this matter.

CONCLUSIONS OF LAW

1. Reporting of correct and complete ownership information on an initial pharmacy permit application or a renewal application is material, indeed essential, to the Board's ability to ensure that a pharmacy will provide services safely and competently to the public.

DOI Prothonotary
Nov 08 2023

2. PostMeds made inaccurate statements about its ownership and officers on its initial application, which it failed to correct at any point through its 2022 renewal. That initial permit was therefore void ab initio and violated G.S. § 90-85.38(b).

3. The creation of Truepill, Inc. as a holding company further triggered a requirement to report the ownership change and obtain a successor permit, and to do so before the closing of the transaction that created Truepill, Inc. The transaction "result[ed] in a different person . . . owning more than 50 percent interest in the permit holder . . . ." 21 NCAC 46.1603. Failure to apply for and obtain a successor permit prior to the transaction, and a continuing failure to disclose the ownership interest of Truepill, Inc., violated G.S. § 90-85.38(b).

IT IS THEREFORE ORDERED:

PostMeds was in violation of G.S. § 90-85.38(b) in North Carolina from November 20, 2017 until at least November 4, 2021. Respondent PostMed's Permit No. 13413 was **VOID** from the time that it was granted on November 20, 2017. G.S. § 90-85.38(c).

Respondent PostMed's change of ownership application is **APPROVED** as a successor permits to Permit No. 13413 (the "Successor Permit") with the following **CONDITIONS**:

1. PostMeds shall provide timely advance notice of any contemplated change in ownership to the current pharmacist-manager and any future pharmacist-manager(s) of the Successor Permit. PostMeds shall consult with the Successor Permit's pharmacist-manager(s) to determine whether any contemplated transaction triggers the need to obtain new permits. PostMeds shall authorize the Successor Permit's pharmacist-manager(s) to take any necessary action to update that ownership information with the Board or to apply for new permits. If a contemplated transaction triggers the need for new permits, PostMeds shall not complete that

DOS Prothonotary:
Nov 08 2023

2657

transaction unless and until either the Board issues new permits or PostMeds ceases all practice of pharmacy at the permitted location.

2. The Successor Permit shall violate no laws governing the practice of pharmacy or the distribution of drugs.

3. The Successor Permit shall violate no rules or regulations of the Board.

4. If the Successor Permit fail to comply with any term or condition of this Order, it may be subject to additional disciplinary action by the Board.

STATE OF NORTH CAROLINA
NORTH CAROLINA BOARD OF PHARMACY

IN THE MATTER OF	)	
	)	
POSTMEDS, INC. d/b/a Truepill,	)	**CONSENT ORDER**
	)	**OF DISCIPLINE**
Permit No. 13413 and Its Successor Permit(s).	)	

THIS MATTER came to be considered before a member of the North Carolina Board of Pharmacy (hereinafter, the "Board") pursuant to 21 N.C.A.C. 46 .2008. The Conference was scheduled for Thursday, February 24, 2022, and, after appropriate notice, was heard on that day by Board member Wallace E. Nelson. Respondent PostMeds, Inc. was informed of its right to be present at the pre-hearing conference and declined. The Board's General Counsel, Clinton R. Pinyan, represented the Board.

Respondent has agreed to waive a formal hearing in the above-referenced matter. It stipulates and agrees to the findings of fact and conclusions of law recited herein and to the order of discipline imposed. By its consent, Respondent also stipulates that it waives its right to appeal this Consent Order or challenge in any way the sufficiency of the findings of this Order as a basis for the action taken. Based upon the consent of the parties, the Board hereby enters the following:

FINDINGS OF FACT

1. On November 20, 2017, the Board issued Permit No. 13413 to Respondent PostMeds, Inc. d/b/a Truepill (Permit No. 13413) ("PostMeds").

2. On PostMeds' initial permit application, its then-pharmacist manager, Mohammad Umar Afridi, submitted an inaccurate statement that he was the sole owner and officer of PostMeds. In fact, PostMeds now acknowledges that Afridi and Siddharth

Viswanathan each owned 47 percent of PostMeds on November 20, 2017, with others owning six percent, and that Viswanathan was also an officer of PostMeds.

3. Viswanathan and the minority owners' interests would not have raised questions about the permit application in this particular case. If PostMeds had disclosed the true ownership and officers of PostMeds, the Board still would have granted PostMeds a permit. However, it was an inaccurate statement that Afridi, as the person who submitted the application, knew was inaccurate. That statement prevented the Board from vetting Viswanathan as the owner of the pharmacy. Because of the inaccuracy of the representations, the initial permit was void ab initio.

4. In November 2019, PostMeds went through a corporate restructuring. During that restructuring, Truepill, Inc. was created as a holding company for PostMeds. At that time, Truepill, Inc. became the sole owner of PostMeds. Afridi, Viswanathan and the other former direct owners of PostMeds became indirect owners with the same ownership interests in the holding company, Truepill, Inc., that they had before the transfer of ownership.

5. This restructuring required PostMeds to submit a transfer of ownership application and have that application granted before the restructuring closed. PostMeds failed to do this. Therefore, even if the initial permit had been valid (which it was not), it would have become invalid upon the corporate restructuring.

6. Insertion of a new holding company between the ultimate owners and PostMeds would not have raised questions about the permit application in this particular case. The ownership interests of the ultimate owners did not change. If PostMeds had disclosed the new holding company, the Board still would have granted the transfer of ownership. However,

PostMeds failed to submit the transfer of ownership application or otherwise disclose the interests of Truepill, Inc.

7. In each of its subsequent renewals, PostMeds failed to correct the ownership information that it had inaccurately submitted on its initial application or to list Truepill, Inc., as the direct owner of the pharmacy.

8. On November 4, 2021, counsel for PostMeds informed the Board that its "current ownership information on file with the North Carolina Board of Pharmacy is out of date." Upon follow-up questioning, the next day, PostMeds disclosed that it should have submitted a transfer of ownership application in November 2019. It further was apparent from the ownership information that PostMeds provided that Afridi made inaccurate representations about ownership and officers on PostMed's initial application that had never been corrected.

9. PostMeds agreed to stop shipping any drugs, devices or medical equipment into the State of North Carolina until the matter was resolved. It further agreed to stop shipping or dispensing any drugs, devices or medical equipment from six other pharmacies under its ownership until the matter was resolved (even though those pharmacies did not receive permits until after the transfer of ownership had occurred, and so did not suffer from the same problem).

10. PostMeds submitted a transfer of ownership application promptly.

11. Although PostMed's disclosure of its inaccuracies was tardy, its remedial actions are a mitigating factor in this matter.

CONCLUSIONS OF LAW

1. Reporting of correct and complete ownership information on an initial pharmacy permit application or a renewal application is material, indeed essential, to the Board's ability to ensure that a pharmacy will provide services safely and competently to the public.

2. PostMeds made inaccurate statements about its ownership and officers on its initial application, which it failed to correct at any point through its 2022 renewal. That initial permit was therefore void ab initio and violated G.S. § 90-85.38(b).

3. The creation of Truepill, Inc. as a holding company further triggered a requirement to report the ownership change and obtain a successor permit, and to do so before the closing of the transaction that created Truepill, Inc. The transaction "result[ed] in a different person . . . owning more than 50 percent interest in the permit holder . . . ." 21 NCAC 46.1603. Failure to apply for and obtain a successor permit prior to the transaction, and a continuing failure to disclose the ownership interest of Truepill, Inc., violated G.S. § 90-85.38(b).

IT IS THEREFORE ORDERED:

PostMeds was in violation of G.S. § 90-85.38(b) in North Carolina from November 20, 2017 until at least November 4, 2021. Respondent PostMed's Permit No. 13413 was **VOID** from the time that it was granted on November 20, 2017. G.S. § 90-85.38(c).

Respondent PostMed's change of ownership application is **APPROVED** as a successor permits to Permit No. 13413 (the "Successor Permit") with the following **CONDITIONS**:

1. PostMeds shall provide timely advance notice of any contemplated change in ownership to the current pharmacist-manager and any future pharmacist-manager(s) of the Successor Permit. PostMeds shall consult with the Successor Permit's pharmacist-manager(s) to determine whether any contemplated transaction triggers the need to obtain new permits. PostMeds shall authorize the Successor Permit's pharmacist-manager(s) to take any necessary action to update that ownership information with the Board or to apply for new permits. If a contemplated transaction triggers the need for new permits, PostMeds shall not complete that

transaction unless and until either the Board issues new permits or PostMeds ceases all practice of pharmacy at the permitted location.

2. The Successor Permit shall violate no laws governing the practice of pharmacy or the distribution of drugs.

3. The Successor Permit shall violate no rules or regulations of the Board.

4. If the Successor Permit fail to comply with any term or condition of this Order, it may be subject to additional disciplinary action by the Board.

LOUISIANA BOARD OF PHARMACY

BATON ROUGE, LOUISIANA

IN THE MATTER OF: **CONSENT ORDER**

POSTMEDS, INC.

LOUISIANA PHARMACY PERMIT NO. 7761 **Case No. 21-0456**

****

CONSENT AGREEMENT

WHEREAS, an informal conference was conducted by the Violations Committee of the Louisiana Board of Pharmacy (hereinafter referred to as the "Board") on March 16, 2022 at the Board office, 3388 Brentwood Drive, Baton Rouge, LA 70809, in the matter of POSTMEDS, INC. (hereinafter referred to as "Respondent"), holding Louisiana Pharmacy Permit No. 7761, 3121 Diablo Ave., Hayward, CA 94545-2701, with attorney Skip Philips and Postmeds Corporate Counsel Donnie Simkin appearing on behalf of Respondent.

WHEREAS, WHEREAS, on August 27, 2018, the Louisiana Board of Pharmacy issued a non-resident pharmacy permit, PHY.007761-NR, to Postmeds Inc. At that time, Postmeds Inc. was 31.5% owned by Mohammad Umar Afridi, 31.5% owned by Siddharth Viswanathan, 16.5% owned by Initialized III L.P., and 20.5% owned by others with no individual owner holding more than 4%. On December 17, 2021 the Board received an "Application for New Louisiana Pharmacy Permit for Nonresident Pharmacy" from Postmeds, Inc. d/b/a Truepill. Accompanying correspondence and organization chart detailed a 100% change in the ownership structure of Postmeds Inc., effective November 6, 2019. Postmeds Inc. went from being owned 31.5% by Mohammad Umar Afridi, 31.5% by Siddharth Viswanathan, 16.5% by Initialized III L.P., and 20.5% by others with no individual owner holding more than 4%, to being owned 100% by Truepill, Inc.

WHEREAS, the Board alleges that such actions constitute violations of the following:

La. R.S. 37:1241 (A)(1): Practiced or assisted in the practice of pharmacy, or knowingly permitted or has permitted anyone in his employ or under his supervision to practice or assist in the practice of pharmacy, in violation of the provisions of this Chapter and any rules and regulations promulgated thereto in accordance with the Administrative Procedure Act.

La. R.S. 37:1221(B). No out-of-state pharmacy providing pharmacy services to residents of this state shall open, establish, operate, or maintain a pharmacy, located out-of-state, unless the pharmacy is issued a permit by the board.

La. R.S. 37:1222(A). A person applying for a permit to open, establish, operate, or maintain a pharmacy, within or outside of this state, shall complete an application in such form and contain such data as the board may require, and complete such other requirements as deemed necessary by the board, including but not limited to designation and identification of a pharmacist-in-charge.

La. R.S. 37:1222(E). A permit to operate a pharmacy shall not be transferable.

La. R.S. 37:1232(A). A pharmacy located outside this state which does business in this state within the meaning of this Chapter, shall hold a current pharmacy permit as provided in this Chapter. The pharmacy shall be designated a "nonresident pharmacy" and the permit shall be designated a "nonresident pharmacy permit."

LAC, Title 46: LIII §1101(A). Individuals, partnerships, corporations, limited liability companies, or associations desiring to operate a pharmacy in Louisiana, or outside the state where prescriptions drugs/devices are dispensed and delivered to Louisiana residents, shall execute an application for a pharmacy permit for their particular classification of pharmacy.

LAC, Title 46: LIII §1135(A)(1)(e). The holder of a pharmacy permit shall notify the board, in writing, prior to the transfer of ownership, in order for the board to complete an inspection of the pharmacy premises. A change of ownership of a pharmacy is evident under the following conditions: a 50 percent, or more, change in ownership of a corporation, limited liability company, or association since the issuance of the original permit or the last renewal application.

LAC, Title 46: LIII §1135(A)(2). The new owner(s) of the pharmacy shall submit a properly completed pharmacy permit application, with appropriate fee, to the board.

LAC, Title 46: LIII §1135(A)(4). Pharmacy permits are not transferable from the original holder(s) of the permit to the new owner(s).

LAC, Title 46: LIII §2305(A). The out-of-state pharmacy shall apply for a permit and annual permit renewals on forms provided by the board.

LAC, Title 46: LIII §2307(C). Authority and Accountability. The designated pharmacist-in-charge of the pharmacy and the pharmacy owner(s), or partners, or corporate officer(s) of the permit holder, where applicable, shall be responsible for the complete supervision, management, and compliance with all federal and state pharmacy laws and regulations pertaining to the practice of pharmacy of the entire prescription department. This responsibility necessarily includes accountability for any violation involving federal or state laws or regulations occurring within the prescription department supervised by a pharmacist-in-charge.

To facilitate the submission of this Consent Agreement, Respondent does not contest the allegations and agrees that there is sufficient evidence upon which to predicate a finding of those violations.

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

In order to avoid further administrative and judicial proceedings, Respondent hereby consents to accept and abide by the following order of the Board:

POSTMEDS, INC., holder of Louisiana Pharmacy Permit No. 7761, is ordered to pay a fine of $10,000.00 and to reimburse the Board $250.00 for administrative costs, and $324.48 for investigative costs with total payment due the Board of $10,574.80, due by *certified check or money order* to be paid simultaneously with the execution of this Consent Agreement by Respondent.

By signing this Consent Agreement, Respondent agrees that the Board has jurisdiction in this matter, waives all rights to informal conference, to Notice of Hearing, to a formal Administrative Hearing and to judicial review of this Consent Agreement. Moreover, at no time shall Respondent request the expungement, rescission or removal of this Consent Agreement.

By signing this Consent Agreement, Respondent agrees that any failure to comply with the terms of this Agreement is a basis for discipline by the Board.

Both Respondent and the Board stipulate that this Consent Order shall not become effective and shall not become binding on the Board unless and until approved by the Board at formal meeting. However, Respondent agrees that this Consent Order shall be effective and binding upon Respondent without recourse upon its authorized representative signing said Order.

Respondent agrees to authorize the Board to report this action to the National Practitioner Data Bank – Healthcare Integrity and Protection Data Bank (NPDB-HIPDB) as required by law.

I, Matt Davis-Ratner, authorized to act on behalf of and acting on behalf of **POSTMEDS, INC.**, understand that this Consent Agreement is effective as a Board Order upon affirmative vote by the Board at formal hearing. It is also understood that, should the Board not approve this Consent Agreement, the agreement therein does not preclude the Louisiana Board of Pharmacy from requiring a formal hearing of this case.

It is further understood that, should this Consent Agreement not be accepted by the Board, the presentation to and consideration by the Board of this Agreement, including presented documentary evidence and information, shall not unfairly or illegally prejudice or preclude the Board or any of its members from further participation in hearings or resolution of these proceedings.

VIA CERTIFIED MAIL

LETTER OF ADMONISHMENT

TRUEPILL
ATTN: MOHAMMAD UMAR AFRIDI, CEO
3121 DIABLO AVE
HAYWARD, CA 94545

RE: CI 2019 84877
TRUEPILL
PHY 56100

This LETTER OF ADMONISHMENT is being issued pursuant to Business and Professions Code section 4315 for failure to comply with the laws and regulations that govern the practice of pharmacy in California. (For exact language refer to the California Pharmacy Law and Index, located on the board's website at www.pharmacy.ca.gov, under Forms and Publications.)

The Board of Pharmacy has completed its investigation in the above referenced matter. All documentation and/or statements relating to the investigation have been accepted and included in an Investigation Report on file in this office. Facts contained in this report lead to the conclusion that the following violations of pharmacy laws or regulations have occurred:

JURISDICTION: Bus. & Prof. Code § 4315; 1764/56.10(a) - Unauthorized disclosure of prescription and medical information

Unauthorized disclosure of prescriptions: California Code of Regulations section 1764 states in pertinent part that no pharmacist shall exhibit, discuss, or reveal the contents of any prescription or any medical information furnished by the prescriber with any person other than the patient or his or her authorized representative and Civil Code section 56.10 subdivision (a) states, in pertinent part, no provider of health care shall disclose medical information regarding a patient of the provider of health care without first obtaining an authorization. Truepill Pharmacy was not in compliance with these regulations. Specifically, on 4/17/2019, Truepill Pharmacy (PHY56100) located at 3121 Diablo Avenue in Hayward, CA shipped prescription RX#1186395 to the wrong person. The prescription was intended for AR but was shipped to the address of MS in error. Also, Truepill Pharmacy shipped prescriptions to patients with a shipping label showing the return address of NuRx located at 6838 Ellicott Drive in East Syracuse, NY and from Apostrophe located at 330 2nd Street in Oakland, CA. NuRx and Apostrophe are not licensed pharmacies and prescription packages returned as undeliverable to these locations would cause the disclosure of medical information without authorization.

Shipping prescriptions to an unauthorized person violates California Code of Regulations section 1764 and Civil Code 56.10.

If you wish to contest this Letter of Admonishment, you may do so by submitting, within 30 days of the date of service of this Letter of Admonishment, namely February 22, 2020, the attached "Request for an Office Conference" form. If an office conference is not requested, compliance with the Letter of Admonishment shall not constitute an admission of the violations described in the Letter of Admonishment.

Unless it is dismissed following an office conference or you receive other instructions from the Board in writing, Pharmacy Law requires that you maintain and have readily available for inspection a copy of this Letter of Admonishment and any written corrective action plan, if any, for at least three years from the date of issuance at the top of this letter. The Letter of Admonishment will be considered a public record for purposes of disclosure for three years from issuance. The issuance of this Letter of Admonishment does not limit the board's ability to pursue other disciplinary or administrative action under Business and Professions Code section 4315, subdivision (f).

If you have any questions regarding this Letter of Admonishment, please contact Barbera Schleicher, Public Inquiry Analyst at (916) 518-3081.

Sincerely

Virginia Herold

MODIFIED CITATION AND FINE

Citation Number	Name, License No
CI 2017 78633	TRUEPILL (FORMERLY POSTMEDS INC.), PHY 56100

JURISDICTION: Bus. & Prof. Code § 4314; CCR, title 16, § 1775; Bus. & Prof. Code § 4301, subd. (o)

VIOLATION CODE SECTION	OFFENSE	AMT OF FINE
Bus. & Prof. Code § 4059 subd. (a)/Bus. & Prof. Code § 4067 subd. (a)	**Furnishing dangerous drugs without a prescription/Internet; Dispensing Dangerous Drugs or Devices without Prescription; No person shall dispense or furnish, or cause to be furnished dangerous drugs...on the internet...without a prescription issued pursuant to a good faith examination**	**Citation without a fine**
Bus. & Prof. Code § 4174	**Dispensing on order of nurse practitioner or person of similar status.**	**Citation without a fine**

CONDUCT:

Furnishing Dangerous Drugs or Devices Prohibited Without Prescription: Business and Professions Code 4059 (a) states in pertinent part a person may not furnish any dangerous drug, except upon the prescription of a physician, dentist, podiatrist, optometrist, veterinarian, or naturopathic doctor pursuant to Section 3640.7. A person may not furnish any dangerous device, except upon the prescription of a physician, dentist, podiatrist, optometrist, veterinarian, or naturopathic doctor pursuant to Section 3640.7. In conjunction with Business and Professions Code 4067 (a) which states no person or entity shall dispense or furnish, or cause to be dispensed or furnished, dangerous drugs or dangerous devices, as defined in Section 4022, on the Internet for delivery to any person in this state without a prescription issued pursuant to a good faith prior examination of a human or animal for whom the prescription is meant if the person or entity either knew or reasonably should have known that the prescription was not issued pursuant to a good faith prior examination of a human or animal, or if the person or entity did not act in accordance with Section 1761 of Title 16 of the California Code of Regulations and (f) for the purposes of this section, "good faith prior examination" includes the requirements for a physician and surgeon in Section 2242. In conjunction with Business and Professions Code 2290.5 (a) For purposes of this division, the following definitions shall apply: (3) "Health care provider" means either of the following: (A) a person who is licensed under this division. Between 4/1/2018 to 10/31/2018, Postmeds Inc. (PHY56100) located at 3121 Diablo Ave. Hayward, CA dispensed prescriptions issued by prescribers who were not licensed in California. Specifically, 2 prescriptions were issued by Nurse Practitioner Jenny Ingle; 9 prescriptions were issued by Dr. Brook Randal; 6 prescriptions were issued by Dr. Jessica Rubino and 4 prescriptions were issued by Dr. Sudhi Trye. These prescribers were not licensed in California at the time the prescriptions were initiated and shipped to a California resident. Postmeds pharmacy dispensed the prescriptions issued by unlicensed prescribers to

California residents in violation of Business and Professions Code 4059 (a) and Business and Professions Code 4067 (a).

Dispensing by Pharmacist Upon Order of Nurse Practitioner: Business and Professions Code 4174 states in pertinent part notwithstanding any other law, a pharmacist may dispense drugs or devices upon the drug order of a nurse practitioner functioning pursuant to Section 2836.1 or a certified nurse-midwife functioning pursuant to Section 2746.51, a drug order of a physician assistant functioning pursuant to Section 3502.1 or a naturopathic doctor functioning pursuant to Section 3640.5, or the order of a pharmacist acting under Section 4052.1, 4052.2, 4052.3, or 4052.6. Postmeds Inc. (PHY56100) located at 3121 Diablo Ave. Hayward, CA dispensed prescriptions issued by Nurse Practitioners and Physicians Assistants who had not yet entered into an established standardized procedure or protocol developed by a supervising physician. Between 4/1/2018 and 10/31/2018, the following prescribers issued prescriptions to Postmeds without an established protocol in place: Physician's Assistant Leanne Mays issued 8 prescriptions and Physician's Assistant Susan Owen issued 6 prescriptions. Between 4/1/2018 and 10/31/2018, the following prescribers issued prescriptions to Postmeds entering into a protocol after the prescriptions were issued: Nurse Practitioner Joni Gunzburger issued 4,782 prescriptions; Nurse Practitioner Cristin Hackel issued 10,819 prescriptions and Nurse Practitioner Jessica Horwitz issued 4,711 prescriptions. Postmeds Pharmacy dispensed the prescriptions issued by Nurse Practitioners and Physicians Assistants who had not yet entered into standardized procedures or protocols as required by Business and Professions Code 4174.

RE: CI 2020 89223
TRUEPILL
PHY 56100

The attached Citation CI 2020 89223, has been issued to TRUEPILL, PHY 56100. A copy has been sent to the pharmacy, and a copy is being sent to the pharmacist-in-charge for informational purposes only. As pharmacist in charge it is your responsibility to insure the pharmacy's compliance with the term(s) and condition(s) of the citation by the date(s) ordered, and to ensure the pharmacy's compliance with all pharmacy laws.

The Citation references the specific statutes and regulations violated, and defines each violation charged. The Citation details the conduct that resulted in the issuance of the citation. In addition the citation may also include information regarding fine(s) assessed. If fine(s) have been assessed, the citation specifies the amount and the specific violation for which the fine was levied.

If you have any questions please contact Joshua Monforte, Citation and Fine Analyst at (916) 518-3014.

Sincerely

BOARD OF PHARMACY
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA

CITATION AND FINE
ORDER OF ABATEMENT

COPY

Citation Number	Name, License No
CI 2020 89223	TRUEPILL, PHY 56100

JURISDICTION: Bus. & Prof. Code § 4314; CCR, title 16, § 1775; Bus. & Prof. Code § 4301, subd. (o)

VIOLATION CODE SECTION	OFFENSE	AMT OF FINE
CCR, Title 16, § 1714 subd. (b)	Operational Standards and Security; pharmacy responsible for pharmacy security	$5,000.00
Bus. & Prof. Code § 4169 subd. (a)(2)/Health & Safety Code § 111295	Prohibited Acts; Purchase, trade, sell, or transfer dangerous drugs to that the person knew or reasonably should have known were adulterated.../It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any drug or device that is adulterated	Citation without a fine

CONDUCT:

California Code of Regulations 1714, section b states, (b) Each pharmacy licensed by the board shall maintain its facilities, space, fixtures, and equipment so that drugs are safely and properly prepared, maintained, secured and distributed. The pharmacy shall be of sufficient size and unobstructed area to accommodate the safe practice of pharmacy. Specifically, Truepill Pharmacy, PHY56100, located at 3121 Diablo Ave, Hayward, CA 94545 was in violation when they failed to keep dangerous drugs stored according to policy and procedure 2001.4, Oversight of Pharmacy Safety, which states: "The Pharmacy will make all attempts at maintaining a room temperature below 85F and ideally between 68-77F". Between 7/1/2020 and 9/14/2020, on numerous occasions, dangerous drug storage temperatures, summarized in Table 2, exceeded the recommended storage temperatures. The most egregious of these temperature spikes were:

a)On 8/13/2020, in the cage area of the warehouse, dangerous drugs were stored approximately 161 hours over 77 F and 47 hours over 85F.
b)On 9/6/2020, in the cage area of the warehouse, dangerous drugs were stored approximately 59 hours over 77 F and 17 hours above 85F.
c)On 8/13/2020, in the Parata Automated dispensing machine located in the warehouse, dangerous drugs were stored for approximately 163 hours above 77 F and 44 hours above 85 F.

Business and Professions Code 4169 section (a), subdivision (2) states, A person or entity shall not do any of the following: (2) Purchase, trade, sell, or transfer dangerous drugs that the person knew or reasonably should have known were adulterated, as set forth in Article 2 (commencing with Section 111250) of Chapter 6 of Part 5 of Division 104 of the Health and Safety Code as it relates to Health and Safety Code 111295 which states, It is unlawful for any person to manufacture, sell, deliver, hold or offer for sale any drug or device that is adulterated. Specifically, Truepill Pharmacy, PHY56100, located at3121 Diablo Ave, Hayward, CA 94545 was in violation when they used the MKT calculation alone instead of in conjunction with manufactures stability data as stated in USP <1079>, which provides guidance for assessing possible adulteration to dangerous drugs stored at the pharmacy due to excessive heat. In particular, USP<1079> states, "Knowing the MKT for an excursion is useful for evaluating the potential impact on product quality. However, it is also essential to know the upper and lower temperature limits of any excursion. If these extreme temperatures are outside available stability data, it may not be possible to predict the quality impact of the excursion with any confidence regardless of the MKT. At higher temperatures the kinetics of degradation may change or new degradation reactions may occur. Truepill Pharmacy did not consider the manufacture's stability data for at least 72 dangerous drugs stored in the cage area of the warehouse which were held and offered for sale when determining if a dangerous drug was adulterated by the extreme heat, summarized in Table 3. For each one of the 72 dangerous drugs, the maximum temperature for storage was listed by the manufacturer as 77F or storage information was not listed. As there was no stability temperature for at least the 72 drugs in question and per USP<1079>, the MKT cannot be without the stability data, these drugs which were held and offered for sale were adulterated.

ORDER OF ABATEMENT

By the Abatement date/payment date submit to the Board the following:

- Either (1) full payment of the assessed fine(s) in the amount of $5,000.00; or payment in the amount of $1,000.00 and (2) provide proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within ninety (90) days.

COPY

If you choose option (2), within 90 days of this citation, you shall submit proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations. Any failure to do so shall be deemed a failure to meet the abatement requirements of this citation.

If you timely submit proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within 90 days from the date the citation was issued, this citation shall be reduced to $1,000.00 and proof of compliance of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations shall be considered satisfactory abatement of the citation.

If you fail to submit proof of compliance of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within 90 days from the date the citation was issued, the stay shall be lifted and the fine(s) in the amount of $5,000.00 shall be due and owing from you within thirty (30) days of any such failure.

CITATION ISSUED ON: August 25, 2021 | **TOTAL AMOUNT OF FINE(S): $5,000.00**

PROOF OF ABATEMENT AND PAYMENT OF FINE(S) DUE BY: September 24, 2021

IN THE MATTER OF

Truepill
3121 Diablo Ave
Hayward, CA 94545

DEA Certificate of Registration FP6189725

ORDER TO SHOW CAUSE

Telemedicine is an important tool for providing increased access to medical treatment that has been relied upon by hundreds of millions of Americans since the onset of the COVID-19 pandemic in 2020. Unfortunately, this access is being exploited by a subset of medical practitioners and businesses seeking opportunities to profit by wrongfully providing controlled substances without a legitimate medical purpose.

DEA has an obligation to protect the public by ensuring that pharmacists only fill prescriptions for controlled substances which are prescribed for legitimate medical purposes by practitioners acting in the usual course of professional practice. It is critical that entities engaged in the practice of online pharmacy are appropriately registered and subject to reporting, disclosure, and other requirements imposed under law. These requirements allow entities engaged in the legitimate practice of telemedicine to continue safely providing critical services and protect the safety and health of the American public.

The Ryan Haight Online Pharmacy Consumer Protection Act of 2008 (Ryan Haight Act) and its implementing regulations prohibit actors from operating as an "online pharmacy" without the appropriate DEA registration. Truepill does not have the requisite registration to act as an online pharmacy. But since September 2020, it has acted as an online pharmacy, and in a two-year period filled 72,000 controlled substance prescriptions, of which 60% were for stimulants, such as amphetamines used in the treatment of Attention Deficit/Hyperactivity Disorder (ADHD).

Truepill was the pharmacy for telehealth companies, including Cerebral, that marketed ADHD treatments, including Adderall ® and its generic forms, directly to consumers using Internet advertisements and social media. Cerebral arranged for patients to receive prescriptions for ADHD treatments through a telehealth visit, and for Truepill to fill those prescriptions. In numerous instances, Truepill dispensed controlled substances pursuant to prescriptions that were not issued for a legitimate medical purpose in the usual course of professional practice. Many of these prescriptions were written by providers that lacked the requisite state certifications to prescribe and who issued multiple prescriptions for a patient to receive more than a 90-day supply of a

Schedule II controlled substance, including prescriptions for the treatment of ADHD, in violation of federal regulations.

Accordingly,

PURSUANT to Sections 303 and 304 of the Controlled Substances Act, Title 21, United States Code, Sections 823 and 824,

NOTICE is hereby given to afford Truepill an opportunity to Show Cause before the Drug Enforcement Administration (DEA), at the DEA Hearing Facility, 700 Army Navy Drive, 2nd Floor, Arlington, Virginia 22202, or a location designated by the Administrative Law Judge, on March 21, 2023, or on such a subsequent date designated by the Administrative Law Judge (if Truepill requests such a hearing), as to why DEA should not revoke Truepill's DEA Certificate of Registration (COR or registration), Number FP6189725, pursuant to 21 U.S.C. § 824(a)(4), and deny any applications for any other DEA registrations, because Truepill's registration would be inconsistent with the public interest, as that term is defined in 21 U.S.C. § 823(f).

As detailed below, this Order states DEA's basis to revoke the above-referenced DEA registration, including a ***non-exhaustive summary*** of the matters of fact and law at issue, as well as citations to laws and regulations that Truepill has violated (*see* 21 C.F.R. §§ 1301.36(e) and 1301.37(c), which DEA construes *in pari materia*). In order to preserve Truepill's rights in this proceeding, Truepill may appear in these revocation proceedings by filing a notice of appearance or request for hearing in the manner prescribed by regulations within 30 days from the receipt of this Order. On or before the date of Truepill's appearance, Truepill may submit a corrective action plan that will be considered by DEA in accordance with 21 U.S.C. § 824(c).

LEGAL REQUIREMENTS

Entities That Must Register as Online Pharmacies

Federal law proscribes any person from distributing or dispensing a controlled substance except as authorized by the Controlled Substances Act (CSA). *See* 21 U.S.C. §§ 841(a)(1); 842(a)(1). Federal law further explicitly provides that it is unlawful for "any person" to "deliver, distribute, or dispense a controlled substance by means of the Internet, except as authorized" by the CSA. 21 U.S.C. § 841(h)(1).

An "online pharmacy" is "a person, entity, or Internet site . . . that knowingly or intentionally delivers, distributes, or dispenses, or offers or attempts to deliver, distribute, or dispense, a controlled substance by means of the Internet." 21 U.S.C. § 802(52)(A); *see also* 21 C.F.R. § 1300.04(h) (same). Further, the term "'deliver, distribute, or dispense by means of the Internet' refers, respectively, to any delivery, distribution, or dispensing of a controlled substance that is caused or facilitated by means of the Internet." 21 U.S.C. § 802(51). To act as an online pharmacy, a pharmacy must "request that the Administrator modify its registration to authorize the pharmacy to dispense controlled substances by means of the Internet as an online pharmacy." 21 C.F.R. § 1301.19(a); *see* 21 C.F.R. § 1301.11(b).

The CSA instructs that "it is unlawful for any person who falls within the [CSA's] definition of 'online pharmacy' . . . to deliver, distribute, or dispense a controlled substance by means of the

Internet" unless that person is "validly registered with a modification of such registration authorizing such activity." 21 C.F.R. § 1301.11(b). "Accordingly, any pharmacy registered" with DEA "that falls within the definition of an online pharmacy and proposes to dispense controlled substances by means of the Internet must obtain a modification of its registration authorizing such activity." *Id.*; *see also* 21 C.F.R. § 1301.19(f) ("No person . . . required to obtain a modification of a registration . . . authorizing it to operate as an online pharmacy may engage in any activity for which such modification of registration is required until the application for such modified registration is granted and an active Certificate of Registration indicating the modification of the registration has been issued by the Administrator to such person."). The CSA explicitly provides that "delivering, distributing, or dispensing a controlled substance by means of the Internet by an online pharmacy that is not validly registered with a modification authorizing such activity" is a violation of section 841(h)(1). 21 U.S.C. § 841(h)(2)(A).

Requirements Applicable to Online Pharmacies

An online pharmacy is subject to a number of requirements under the CSA. Among other things, an online pharmacy must:

- "[D]isplay in a visible and clear manner on its homepage a statement that it complies with the requirements of this section with respect to the delivery or sale or offer for sale of controlled substances." 21 U.S.C. § 831(a); 21 C.F.R. § 1304.45(a); *see also* 21 U.S.C. § 802(53) ("The term 'homepage' means the opening or main page or screen of the website of an online pharmacy that is viewable on the Internet.").

- Post "in a visible and clear manner" on its homepage or a page clearly linked from its homepage, the following information:

    - "The name, professional degree, and States of licensure of the pharmacist-in-charge, and a telephone number at which the pharmacist-in-charge can be contacted."

    - "A list of the States in which the pharmacy is licensed to dispense controlled substances."

    - "A certification that the pharmacy is registered under" the CSA "to deliver, distribute, or dispense" controlled substances "by means of the Internet."

    - The following statement: "This online pharmacy is obligated to comply fully with the Controlled Substances Act and DEA regulations. As part of this obligation, this online pharmacy has obtained a modified DEA registration authorizing it to operate as an online pharmacy. In addition, this online pharmacy will only dispense a controlled substance to a person who has a valid prescription issued for a legitimate medical purpose based upon a medical relationship with a prescribing practitioner. This includes at least one prior in-person medical evaluation in accordance with section 309 of the Controlled Substances Act (21 U.S.C. 829) or a medical evaluation via telemedicine in

accordance with section 102(54) of the Controlled Substances Act (21 U.S.C. 802(54))."

See 21 U.S.C. § 831(c); 21 C.F.R. § 1304.45.

- Notify the DEA Administrator, thirty days before offering a controlled substance for sale, delivery, distribution, or dispensing, of, among other things: the information the online pharmacy is required to post on its Internet site under 21 U.S.C. § 831(c), and 21 C.F.R. § 1304.45; each Internet site address used by the online pharmacy; the DEA registration numbers of every pharmacy that delivers, distributes or dispenses controlled substances pursuant to orders made through each of those identified websites; and a certification that the information provided on its Internet site under 21 U.S.C. § 831(c), and 21 C.F.R. § 1304.45 is true and accurate. *See* 21 U.S.C. § 831(d); 21 C.F.R. § 1304.40(b).

- Display on its homepage a declaration that it has made an appropriate notification to the DEA Administrator. *See* 21 U.S.C. § 831(e); 21 C.F.R. § 1304.40(d).

- Monthly report to the DEA Administrator of the total quantity of controlled substances the online pharmacy has dispensed for each calendar month in which it dispenses either 100 or more controlled substance prescriptions, or 5,000 or more dosage units of controlled substances. If the pharmacy's dispensing does not meet either threshold in a given month, it must report a negative response for that month. *See* 21 C.F.R. § 1304.55.

Requirements Applicable to All Pharmacies

A "prescription for a controlled substance may only be filled by a pharmacist, acting in the usual course of his professional practice." 21 C.F.R. § 1306.06. A pharmacist is only permitted to fill prescriptions "issued for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice." 21 C.F.R. § 1306.04(a). Although "[t]he responsibility for the proper prescribing and dispensing of controlled substances is upon the prescribing practitioner, . . . a corresponding responsibility rests with the pharmacist who fills the prescription." *Id.*

"DEA has consistently interpreted this provision as prohibiting a pharmacist from filling a prescription for a controlled substance when [s]he either knows or has reason to know that the prescription was not written for a legitimate medical purpose." *Wheatland Pharmacy*, 78 Fed. Reg. 69,441, 69,445 (2013) (internal quotation marks and citation omitted, alternation in original). Section 1306.04(a) "expressly requires pharmacists to identify and resolve suspicions that a prescription is illegitimate." *Trinity Pharmacy II*, 83 Fed. Reg. 7304, 7331 (2018).

A violation of these regulations is a violation of federal law. *See* 21 U.S.C. § 842(a)(1) (making it unlawful to dispense controlled substances in violation of 21 U.S.C. § 829, whose scope is defined in part by 21 C.F.R. §§ 1306.04, 1306.06). Any attempt to violate these regulations is also a violation of federal law. *See* 21 U.S.C. § 846.

Additionally, DEA may find that a registrant's DEA COR is inconsistent with the public interest if the registrant acted carelessly or negligently in handling controlled substances, even if the registrant did not intend to violate the Controlled Substances Act. *See, e.g.*, *Med. Shoppe*, 79 Fed. Reg. 59,504, 59,506 (2014) ("Careless or negligent handling of controlled substances creates the opportunity for diversion and [can] justify revocation or denial." (quoting *Paul J. Caragine, Jr.*, 63 Fed. Reg. 51,592, 51,601 (1998))).

Pharmacies are also required to keep appropriate records as set forth in the CSA. "Recordkeeping is one of the CSA's principal tools for preventing the diversion of controlled substances." *Wayne Pharmacy*, 85 Fed. Reg. 63,579, 63,582 (2020). Such recordkeeping is one of the central features of the CSA's regulatory regime because "a registrant's accurate and diligent adherence to this obligation is absolutely essential to protect against the diversion of controlled substances." *Superior Pharmacy I & Superior Pharmacy II*, 81 Fed. Reg. 31,310, 31,337 (2016). Thus, a finding that a registrant "failed to maintain complete and accurate records . . . supports the conclusion that [the registrant] has committed such acts as to render its continued registration 'inconsistent with the public interest.'" *Id.* at 31,338 (quoting 21 U.S.C. § 824(a)(4)).

Pharmacies are also required to, among other things, "maintain, on a current basis, a complete and accurate record of each [controlled] substance . . . received, sold, delivered, or otherwise disposed of." 21 U.S.C. § 827(a)(3); 21 C.F.R. § 1304.21(a); *see also* 21 C.F.R. § 1304.22(c) (specific recordkeeping requirements for dispensers).

An individual practitioner is not authorized, on a single occasion, to issue multiple prescriptions for a patient to receive more than a 90-day supply of a Schedule II controlled substance. *See* 21 C.F.R. § 1306.12(b).

State of California Authority to Dispense Controlled Substances

As noted above, a pharmacy may only fill valid prescriptions. *See* 21 U.S.C. § 829; 21 C.F.R. § 1306.06.

California law provides that to practice as a nurse practitioner in California, a nurse practitioner must hold, among other things, a valid and active registered nursing license issued by the Board of Registered Nursing (Nursing Board). Cal. Bus. & Prof. Code § 2835.5. Additionally, for a nurse practitioner licensed in California to prescribe a controlled substance, the Nursing Board must certify that the nurse practitioner satisfactorily completed a course in pharmacology covering the controlled substances to be prescribed and must issue a Furnishing Number to the nurse practitioner. *See id.* §§ 2836.1(g)(1), 2836.2, 2836.3.

To practice as a doctor of naturopathic medicine in California, one must hold a valid and active naturopathic medicine license issued by the California Naturopathic Medicine Committee. *See* Cal. Bus. & Prof. Code §§ 3630, 3633, 3644(d)(2). Schedule III through V controlled substances may only be dispensed by a naturopathic doctor under supervision by a physician or surgeon and pursuant to standardized procedures or protocols established between them. *See* Cal. Bus. & Prof. Code § 3640.5(f).

To practice as a physician assistant in California, one must hold a valid physician assistant license issued by the California Physician Assistant Board. *See* Cal. Bus. & Prof. Code § 3519;

see also Cal. Bus. & Prof. Code §§ 3501, 3503, 3516. Schedule II through V controlled substances may only be prescribed by a physician assistant under supervision by a physician or surgeon and pursuant to a practice agreement. *See* Cal. Bus. & Prof. Code §§ 3502.1 and 3516.

Additionally, practitioners licensed outside California may only be authorized to practice within California by the California Director of Emergency Medical Services Authority during a gubernatorially declared state of emergency. *See* Cal. Bus. and Prof. Code § 900.

BACKGROUND

1. Truepill is registered as a retail pharmacy under DEA COR Number FP6189725 in Schedules II through V with a registered address of 3121 Diablo Avenue, Hayward, California 94545. Truepill's registration expires by its own terms on November 30, 2025.

2. Truepill is not registered as an online pharmacy with DEA.

3. Truepill is licensed by the State of California as a community pharmacy with license number PHY58585. Truepill's pharmacy license expires by its own terms on March 1, 2023.

4. Between on or about September 14, 2020, and September 13, 2022, of the more than 72,000 controlled substances Truepill filled, nearly 46,000 were stimulants, accounting for more than 60% of the controlled substances Truepill dispensed.

5. Truepill's DEA COR should be revoked, and any applications for registration should be denied, because Truepill has committed such acts as would render its registration inconsistent with the public interest. *See* 21 U.S.C. §§ 823(f), 824(a)(4). Specifically, Truepill has acted as an online pharmacy without obtaining an appropriate DEA registration and without meeting a number of legal requirements applicable to online pharmacies. Truepill has, on numerous occasions, unlawfully filled controlled stimulant prescriptions issued by prescribers with no state authority to issue such prescriptions. Truepill has also repeatedly filled controlled stimulant prescriptions there were for more than a 90-day supply, in violation of 21 C.F.R. § 1306.12(b).

6. Dextroamphetamine-amphetamine, which is often sold under the brand names Adderall® and Adderall XR®, is a Schedule II stimulant.

7. Methylphenidate, which is often sold under the brand name Ritalin®, is a Schedule II stimulant.

OPERATING AS AN ONLINE PHARMACY WITHOUT DEA REGISTRATION

8. Truepill provides both pharmacy and technical services to corporate customers, including telehealth companies such as Cerebral. Moreover, Truepill employs a number of customer service representatives to assist its corporate customers.

9. On its Internet site, Truepill describes itself as a "virtual pharmacy," providing "[a]n end-to-end virtual pharmacy experience." Furthermore, Truepill claims that "Truepill's virtual pharmacy enables you to create the convenient experience your customers want."

10. Truepill provides its corporate customers with a software platform containing, among other things, patient information, prescriber information, and prescription information to facilitate the delivery of prescriptions by means of the Internet.

11. Truepill's Internet site also extensively describes how its software programs assist its corporate customers in providing patients with prescriptions. Among other things, the Truepill's Internet site includes the following statements:

    a. Truepill states that it can help companies "[d]eliver medications to your patients using powerful programmatic APIs [Application Programing Interfaces] that give you full control." It further states that these companies can "[p]air our pharmacy fulfillment services with our telehealth solutions to make your programs more accessible to patients who may find it difficult to commute to a doctor's office."

    b. Truepill informs that it provides other software that uses the Internet to facilitate the filling of prescriptions, including, among others, telehealth APIs to help practitioners create and update patient records, and to provide the practitioners' patients with patient health questionnaires, all in "the Truepill ecosystem." Truepill makes clear that its telehealth API customers are "third-party provider networks and physician groups that that can diagnose, treat and prescribe for your patient population. These providers are all part of licensed professional medical corporations who are independently owned and operated."

    c. Truepill explains that it uses a "fulfillment API" to assist providers to "efficiently get medications to your patient's door across all 50 states." Truepill goes on to explain how its software platform uses the Internet to electronically create patient records, obtain prescriptions, and allow practitioners to create fill requests that they submit to Truepill electronically.

    d. Truepill states that it offers a "team of marketers, merchandisers, and fulfillment experts" to help telehealth companies "maximize the value of your e-commerce program."

12. Through these services, Truepill "deliver[ed], distribute[ed], or dispense[ed]" "a controlled substance by means of the Internet," despite not being registered as an online pharmacy, in violation of 21 U.S.C. § 841(h)(1) and 21 C.F.R. §§ 1301.11(b) & 1301.19(f).

FAILURE TO MAKE AND DISPLAY REQUIRED REPORTS AND NOTIFICATIONS

13. Despite operating as an online pharmacy, Truepill failed to put on its Internet site information required by the CSA, including:

a. A statement on its homepage that Truepill complies with the requirements of 21 U.S.C. § 831 with respect to the delivery or sale or offer for sale of controlled substances, in violation of 21 U.S.C. § 831(a) and 21 C.F.R. § 1304.45(a).

b. A visible and clear statement on its homepage, or a page clearly linked from its homepage including:

   i. the name, professional degree, and states of licensure of its pharmacist-in-charge;

   ii. a telephone number at which its pharmacist-in-charge can be contacted;

   iii. a list of states in which Truepill is licensed to dispense controlled substances;

   iv. a certification that Truepill is licensed under the CSA to deliver, distribute, or dispense controlled substances by means of the Internet; and

   v. the following statement: "This online pharmacy is obligated to comply fully with the Controlled Substances Act and DEA regulations. As part of this obligation, this online pharmacy has obtained a modified DEA registration authorizing it to operate as an online pharmacy. In addition, this online pharmacy will only dispense a controlled substance to a person who has a valid prescription issued for a legitimate medical purpose based upon a medical relationship with a prescribing practitioner. This includes at least one prior in-person medical evaluation in accordance with section 309 of the Controlled Substances Act (21 U.S.C. 829) or a medical evaluation via telemedicine in accordance with section 102(54) of the Controlled Substances Act (21 U.S.C. 802(54)).";

all in violation of 21 U.S.C. § 831(c) and 21 C.F.R. § 1304.45.

14. Truepill failed to notify the DEA Administrator of the information listed in 13.b., *supra*, through the submission of an application for a modified registration thirty days before offering a controlled substance for sale, delivery, distribution, or dispensing together with a certification that such information is true and accurate, in violation of 21 U.S.C. § 831(d) and 21 C.F.R § 1304.40(a)(1). Truepill also did not notify the DEA Administrator of each Internet site address it used, nor of the DEA registration numbers of every pharmacy that delivers, distributes or dispenses controlled substances pursuant to orders made through each of those identified websites, in violation of 21 U.S.C. § 831(d) and 21 C.F.R. § 1304.40(b)(3) and (4).

15. Truepill failed to display on the homepage of its Internet site that it had made an appropriate notification to the DEA Administrator under 21 U.S.C. § 831(d) and 21 C.F.R. § 1304.40(b), in violation of 21 U.S.C. § 831(e) and 21 C.F.R. § 1304.40(d).

16. Truepill failed to the provide the DEA Administrator with any of the monthly reports required by 21 C.F.R. § 1304.55.

UNLAWFUL DISPENSING OF SCHEDULE II CONTROLLED SUBSTANCES PURSUANT TO PRESCRIPTIONS FOR GREATER THAN 90-DAY SUPPLY

17. Between on or about September 13, 2020, and September 13, 2022, in dozens of instances, Truepill dispensed Schedule II controlled substances for prescriptions written on a single date by an individual practitioner to an individual patient for a greater than 90-day supply. A non-exhaustive set of examples is provided below.

18. On August 24, 2020, a practitioner issued **Patient N.S.** five prescriptions amounting to a 150-day supply of dextroamphetamine-amphetamine extended release (ER) 10 mg capsules, which are often sold under the brand name Adderall XR®, a total of 300 capsules, which Truepill dispensed.

19. On January 12, 2021, a practitioner issued **Patient L.H.** four prescriptions amounting to a 120-day supply of methylphenidate 20 mg tablets, which are often sold under the brand name Ritalin®, a total of 120 tablets, which Truepill dispensed.

20. On January 12, 2021, a practitioner issued **Patient L.H.** four prescriptions amounting to a 120-day supply of methylphenidate ER 54 mg tablets, which are often sold under the brand name Ritalin®, a total of 120 tablets, which Truepill dispensed.

21. On February 11, 2021, a practitioner issued **Patient D.K.** two prescriptions amounting to a 120-day supply of dextroamphetamine-amphetamine 20 mg tablets, which are often sold under the brand name Adderall®, a total of 120 tablets, which Truepill dispensed.

22. On February 11, 2021, a practitioner issued **Patient D.K.** two prescriptions amounting to a 180-day supply of dextroamphetamine-amphetamine ER 30 mg capsules, which are often sold under the brand name Adderall XR®, a total of 180 capsules, which Truepill dispensed.

23. On March 9, 2021, a practitioner issued **Patient H.M.** three prescriptions amounting to a 210-day supply of dextroamphetamine-amphetamine 10 mg tablets, which are often sold under the brand name Adderall®, a total of 315 tablets, which Truepill dispensed.

24. On November 8, 2021, a practitioner issued **Patient N.B.** four prescriptions amounting to a 120-day supply of dextroamphetamine-amphetamine ER 15 mg capsules, which are often sold under the brand name Adderall XR®, a total of 120 capsules, which Truepill dispensed.

25. On November 8, 2021, a practitioner issued **Patient N.B.** four prescriptions amounting to a 120-day supply of dextroamphetamine-amphetamine 5 mg tablets, which are often sold under the brand name Adderall®, a total of 120 tablets, which Truepill dispensed.

UNLAWFUL DISPENSING OF CONTROLLED SUBSTANCES PURSUANT TO PRESCRIPTIONS ISSUED BY PRACTITIONERS WITHOUT STATE AUTHORITY

26. Between on or about September 13, 2020, and September 13, 2022, Truepill dispensed controlled substances to patients located in California pursuant to prescriptions written by numerous practitioners who were neither sufficiently licensed in California to do so nor holders of an Authorization for Out-of-State Health Care Practitioner issued by the California Emergency Medical Services Authority (Temporary Emergency Authorization). These practitioners included nurse practitioners, physician assistants, and doctors of naturopathic medicine.

27. A non-exhaustive set of insufficiently licensed practitioners who also did not hold a Temporary Emergency Authorization include: **Nurse Practitioner N.B.**; **Nurse Practitioner T.C.**; **Nurse Practitioner D.S.**; **Nurse Practitioner H.M.**; **Nurse Practitioner J.M.**; **Nurse Practitioner A.N.**; **Nurse Practitioner S.O.**; **Nurse Practitioner A.S.**; and **Nurse Practitioner N.S.**

RECORDKEEPING AND AUDIT FINDINGS

28. In September and October of 2022, DEA investigators conducted an audit of Truepill's controlled substance records by conducting an inventory of certain controlled substances present at Truepill's registered location and comparing that inventory to the records maintained and provided by Truepill. DEA's audit identified 1,674 missing dosage units of dextroamphetamine-amphetamine ER 20 mg, often sold under the brand name Adderall XR®, for which Truepill was unable to account, in violation of 21 C.F.R. §§ 1304.21(a) and 1304.22(c). *See Bill Lloyd Drug*, 64 Fed. Reg. 1,823, 1,824 (1999) ("The shortages and overages revealed by the accountability audit show that Respondent does not keep complete and accurate records of its controlled substance handling as required by 21 U.S.C. 827 and 21 CFR 1304.21.").

29. This shortage of 1,674 units constituted over two percent of the dextroamphetamine-amphetamine ER 20 mg, often sold under the brand name Adderall XR®, for which Truepill was accountable during the audit period. Truepill's failure to account for a significant number of dosage units of controlled substances not only violated its obligation to maintain accurate records, but also constituted a failure to comply with its obligation to maintain effective controls against the diversion of controlled substances into illicit channels. *See, e.g.*, *Superior Pharmacy*, 81 Fed. Reg. at 31,337.

THE following procedures are available to Truepill in this matter:

1. Within 30 days after the date of receipt of this Order to Show Cause, Truepill may file with DEA a written request for a hearing in the form set forth in 21 C.F.R. § 1316.47. *See* 21 C.F.R. § 1301.43(a). If Truepill fails to file such a request, the hearing shall be cancelled in accordance with paragraph 3, below.

2. Within 30 days after the date of receipt of this Order to Show Cause, Truepill may file with DEA a waiver of hearing together with a written statement regarding its position on the matters of fact and law involved. *See* 21 C.F.R. § 1301.43(c).

3. Should Truepill decline to file a request for a hearing, or should Truepill request a hearing and then fail to appear at the designated hearing, Truepill shall be deemed to

have waived the right to a hearing, and DEA may cancel such hearing and may enter a final order in this matter without a hearing based upon the evidence presented. *See* 21 C.F.R. §§ 1301.43(d), 1301.43(e).

Requests for hearing should be filed by email with the Office of Administrative Law Judges at the following address: ECF-DEA@dea.gov, with a copy simultaneously provided to the Government at the following address: DEA.Registration.Litigation@dea.gov. Except as provided below with respect to a corrective action plan, correspondence concerning this matter, including requests referenced in paragraphs 1 and 2 above, should be addressed to the Hearing Clerk, Office of Administrative Law Judges, Drug Enforcement Administration, 8701 Morrissette Drive, Springfield, VA 22152. A copy of the same shall also be served on Government counsel, Edward O. Siclari, and be addressed to the Office of Chief Counsel, Diversion and Regulatory Litigation Section, 8701 Morrissette Drive, Springfield, VA 22152. Matters are deemed filed upon receipt by the Hearing Clerk. *See* 21 C.F.R. § 1316.45.

OPPORTUNITY TO SUBMIT CORRECTIVE ACTION PLAN

In addition to the procedural options set forth in paragraphs 1 and 2 above, in accordance with 21 U.S.C. § 824(c)(2)(C), Truepill has the opportunity to submit a corrective action plan, which must be received by the Acting Assistant Administrator, Diversion Control Division, on or before the date of its appearance. Truepill is not required to submit a corrective action plan, nor will any adverse inference be drawn if Truepill chooses not to do so. If Truepill wishes to submit a corrective action plan, it must be submitted directly to the Acting Assistant Administrator, Diversion Control Division, who will decide whether, in view of the plan and the allegations set forth in this Order to Show Cause, the proceedings to revoke Truepill's registration should be discontinued, or deferred for the purposes of modification, amendment, or clarification of such plan. Any corrective action plan should be clearly labeled "Corrective Action Plan" and submitted by email to Thomas W. Prevoznik, Acting Assistant Administrator, Diversion Control Division, at the following address: CAPresponse@usdoj.gov.

A copy of the corrective action plan shall also be served on Government counsel, Edward O. Siclari, and be addressed to the Office of Chief Counsel, Diversion and Regulatory Litigation Section, 8701 Morrissette Drive, Springfield, VA 22152.

In the event Truepill submits a corrective action plan and the Acting Assistant Administrator decides not to discontinue or postpone the proceedings, please note that such a decision is not a final determination by the agency regarding Truepill's corrective action plan or registration. In such circumstances, the Administrator may nonetheless consider the corrective action plan in issuing the final order at the conclusion of the proceedings.

Finally, please be advised that the submission of a corrective action plan shall not constitute a request for a hearing under paragraph 1 above or a written statement regarding Truepill's position on the matters of fact and law involved under paragraph 2 above. As indicated, if Truepill chooses to submit a corrective action plan and also wishes to proceed under paragraph 1 or 2 above, it must separately submit its request for a hearing (paragraph 1) or written statement (paragraph 2) in accordance with the instructions above.

BEFORE THE KANSAS BOARD OF PHARMACY

In the Matter of	)	
	)	Case No. 22-183
PostMeds, Inc dba Truepill	)	
	)	
Registration No. 22-117859	)	

AMENDED SUMMARY ORDER

NOW on this 20th day of January, 2023, comes before the Kansas Board of Pharmacy (the "Board"), through its Executive Director, the matter of PostMeds, Inc dba Truepill ("Respondent").

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq.*, and in accordance with the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq.*, the Board's Executive Secretary enters this Amended Summary Order in the above-captioned matter. After reviewing the investigation materials and being otherwise duly advised in the premises, makes the following findings, conclusions and order:

FINDINGS OF FACT

1. The Board has previously issued Respondent Registration No. 22-104228 which entitled Respondent to operate as a non-resident pharmacy in the State of Kansas.

2. On November 6, 2019, the ownership of Respondent's non-resident pharmacy changed.

3. On May 22, 2020, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 3, 2020 with an expiration date of June 30, 2021. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?"

Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

4. On June 1, 2021, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 21, 2021 with an expiration date of June 30, 2022. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?" Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

5. Due to staffing challenges, personnel turnover and administrative oversight resulting from its early, rapid growth and restructuring and the corresponding COVID-19 pandemic, Respondent mistakenly failed to report the 2019 ownership change and related disclosures to the Board in its May 22, 2020 and June 1, 2021 renewal applications.

6. On April 18, 2022, the Board received notification from Respondent of an ownership change and several past disciplinary actions not previously reported to the Board including: North Carolina Board of Pharmacy Consent Order of Discipline dated March 8, 2022; California State Board of Pharmacy Letter of Admonishment dated January 23, 2020; California State Board of Pharmacy Citation and Fine dated June 16, 2020; California State Board of Pharmacy Citation and Fine Order of Abatement dated August 25, 2021; Alabama State Board of Pharmacy Final Order dated October 25, 2021; California State Board of Pharmacy Citation and Fine dated January 24, 2019; and California State Board of Pharmacy Citation dated December 16, 2019.

7. On April 28, 2022, the Board received from Respondent a Form BA-22 Non-Resident Pharmacy Registration Application ("Respondent's Application"), notifying of the change in ownership effective November 6, 2019, and applying for a new non-resident pharmacy registration under the new ownership.

8. On May 20, 2022, the Board approved Respondent's Application and issued Respondent the new Non-Resident Pharmacy Registration No. of 22-117859 ("Respondent's Registration") under their new ownership.

9. Prior to receiving the ownership change application, registrant provided a letter notifying of the late ownership change, as well as unreported discipline. Ownership change application completed indicating discipline had occurred and providing details of discipline (5 occurrences).

10. In mitigation, Respondent states that it has invested in additional staff, engaged internal and external legal counsel and implemented training efforts to prevent any such reporting oversights in the future.

CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.S.A. 65-1627(f), the Board may take action against a registration on any ground that would authorize the board to take action against the registration of a pharmacy under K.S.A. 65-1627, and amendments thereto.

3. Pursuant to K.S.A. 65-1627(e)(1), the Board may take action against the registration of a pharmacy upon a finding that such pharmacy has been operated in such manner

that violations of the provisions of the pharmacy act of the state of Kansas or of the rules and regulations of the board have occurred in connection therewith.

4. Pursuant to K.S.A. 65-1627(e)(4), the Board may take action against the registration of a pharmacy upon a finding that the registrant has had a registration revoked, suspended or limited, has been censured or has had other disciplinary action taken, or an application for registration denied, by the proper registering authority of another state, territory, District of Columbia or other country.

5. Pursuant to K.S.A. 65-1657, no nonresident pharmacy shall ship, mail, or deliver, in any manner, prescription drugs to a patient in this state unless registered with the Board as a nonresident pharmacy.

6. Pursuant to K.S.A. 65-1645(f), registrations shall not be transferable.

7. Pursuant to K.A.R. 68-2-9, each registrant shall notify the executive secretary of the Board in writing of any change in majority ownership of the operation for which the registration was issued within five days after the date the change in ownership becomes effective.

8. Pursuant to K.A.R. 68-2-23, each pharmacy owner shall notify the board in writing within 30 days of any denial, limitation, suspension, revocation, voluntary surrender, or other disciplinary action taken by the state of Kansas or another jurisdiction against the pharmacy or the pharmacy owner or any application, license, registration, or permit held by the pharmacy owner.

9. Respondent's registered facility changed ownership on November 6, 2019 but Respondent did not provide notification or file a new application with the Board until April 18 and 28, 2022, respectively.

10. Respondent's failure to submit the complete change of ownership to the Board until April 2022 is a violation pursuant to K.A.R. 68-2-9 and an unlawful transfer of the previous

registration to the new ownership. Respondent's actions are a violation pursuant to K.S.A. 65-1657 and K.S.A. 65-1627(e)(1), and a basis to take action against Respondent's Registration.

11. Respondent failed to notify the Board of the six disciplinary actions by North Carolina, California, and Alabama until April 18, 2022, nearly one to two years after they were effective, is a violation of K.A.R. 68-2-23 and a basis to take action against Respondent's Registration pursuant to K.S.A. 65-1627(e)(1) and (e)(4).

ORDER

Taking into account the mitigating and corrective actions of Respondent, the Board finds and concludes that Respondent's conduct, as described above, violates the Act and such conduct warrants the imposition of a fine pursuant to K.S.A. 65-1658, in the amount of $3,500.00. Respondent has 30 days from the date of this order to pay the fine.

NOTICES

The Respondent is hereby notified as follows:

1. The Respondent may request a hearing pursuant to the Kansas Administrative Procedure Act by filing a written request with the Kansas Board of Pharmacy, 800 SW Jackson, Suite 1414, Topeka, KS 66612-1231 within fifteen (15) days after service of this order.

2. If a hearing is not requested as described above, the Order shall become a final order of the Board, effective upon the expiration of the time to request a hearing.

3. Within fifteen (15) days after entry of a final agency order, either party may file a petition for reconsideration pursuant to K.S.A. 77-529.

4. Within the time limits established in K.S.A. 77-613, either party may seek judicial review of a final agency order, pursuant to said statute. The agency officer designated to receive service of a petition for judicial review is:

Alexandra Blasi
Executive Secretary
Kansas Board of Pharmacy
800 SW Jackson, Suite 1414
Topeka, KS 66612

IT IS SO ORDERED.

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		✓
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

POST IN A CONSPICUOUS PLACE

FIRST AMENDMENT TO LEASE

This FIRST AMENDMENT TO LEASE (the "**Agreement**") is entered into and made effective as of the 22 day of February, 2023, between **USCLP NV SPEEDWAY, LLC**, a Delaware limited liability company, successor in interest to DPIF2 NV5 SPEEDWAY, LLC, a Delaware limited liability company ("**Landlord**"), and **NOBLE SUPPLY & LOGISTICS, LLC**, a Delaware corporation ("**Tenant**").

RECITALS:

WHEREAS, by that certain Lease dated June 25, 2020 (the "**Lease**"), Landlord leased to Tenant certain premises containing approximately 64,400 square feet located in the building commonly known as 6565 Nascar Street, North Las Vegas, Nevada 89115 (the "**Premises**"); and

WHEREAS, Landlord and Tenant desire to acknowledge Tenant's successor in interest and subsidiary operating in the Premises, amend the address of the Building, amend the suite number of the Premises, replace the Site Plan, and otherwise amend the terms of the Lease; and

WHEREAS, Landlord and Tenant have agreed to amend the Lease as follows:

WITNESETH:

NOW, THEREFORE, for valuable consideration, the receipt and adequacy of which are expressly acknowledged, Landlord and Tenant agree, effective as of the date hereof, the Lease is hereby amended as follows:

1. Landlord acknowledges and agrees that Noble Supply & Logistics, LLC, a Delaware limited liability company, has succeeded in interest to Noble Sales Co., Inc, a Massachusetts corporation, as Tenant under the Lease.

2. Landlord hereby acknowledges that Tenant's subsidiary Tactical & Survival Specialties, LLC, a Delaware limited liability company, will also be operating from the Premises.

3. In the definition of Premises set forth on page 1 of the Lease, "Suite 500/600" is hereby deleted and "Suite 160" is hereby inserted in lieu thereof.

4. In the definition of Building set forth on page 1 of the Lease, "6565 Nascar Street, North Las Vegas, Nevada" is hereby deleted and "6565 Nascar Street, Las Vegas, Nevada 89115" is hereby inserted in lieu thereof.

5. Paragraph 7. In the last sentence of Paragraph 7 of the Lease, "Suite 500" is hereby deleted and "Suite 160" is hereby inserted in lieu thereof and "Suite 600" is hereby deleted and "Suite 160" is hereby inserted in lieu thereof.

6. Exhibit A - Site Plan. Exhibit A - Site Plan attached to the Lease is hereby deleted in its entirety and Exhibit A - Site Plan attached hereto is hereby inserted in lieu thereof.

7. Landlord and Tenant hereby agree that the U.S. Postal Service address for the Premises is 6565 Nascar Street, Suite 160, Las Vegas, NV 89115.

8. This Agreement may be executed in any number of counterparts, each of which when so executed

and delivered shall be deemed to be an original and all of which taken together shall constitute one and the same instrument, respectively. Executed copies of the signature pages of this Agreement sent by facsimile or transmitted electronically in Portable Document Format ("PDF") or via DocuSign shall be treated as originals, fully binding and with full legal force and effect, and the parties waive any rights they may have to object to such treatment. Any party delivering an executed counterpart of this Agreement by facsimile or PDF also shall deliver a manually executed counterpart of this Agreement, but the failure to deliver a manually executed counterpart shall not affect the validity, enforceability, and binding effect of this Agreement.

9. Capitalized terms used but not defined in this Agreement shall have the meanings given to such terms in the Lease. All other terms and conditions of the Lease between Landlord and Tenant shall remain unchanged and in full force and effect throughout the term of the Lease.

IN WITNESS WHEREOF, Landlord and Tenant have executed this First Amendment to Lease as of the day and year first above written.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. PA11526600005

Application/License No. _____

Noble Supply & Logistics, LLC (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is One Marina Park Drive, Suite 220, Boston, MA 02210 (Address of Applicant/Principal), as PRINCIPAL, and Philadelphia Indemnity Insurance Company (Surety Company), a corporation organized under the laws of the state of PA (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is One Bala Plaza, Suite 100, Bala Cynwyd, PA 19004-0950 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on April 4, 2024 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

Posted February 20, 2020

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS
639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 4th day of April, 2024.

PHILADELPHIA INDEMNITY INSURANCE COMPANY
One Bala Plaza, Suite 100
Bala Cynwyd, PA 19004-0950

Power of Attorney

Surety Bond Number: PA11526600005
Principal: Noble Supply & Logistics, LLC
Obligee: Nevada State Board of Pharmacy

KNOW ALL PERSONS BY THESE PRESENTS: That **PHILADELPHIA INDEMNITY INSURANCE COMPANY** (the Company), a corporation organized and existing under the laws of the Commonwealth of Pennsylvania, does hereby constitute and appoint Jessica Hedrick its true and lawful Attorney-in-fact with full authority to execute on its behalf bonds, undertakings, recognizances and other contracts of indemnity and writings obligatory in the nature thereof, issued in the course of its business and to bind the Company thereby, in an amount not to exceed **$75,000,000.**

This Power of Attorney is granted and is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of PHILADELPHIA INDEMNITY INSURANCE COMPANY on the 14th of November, 2016.

RESOLVED: That the Board of Directors hereby authorizes the President or any Vice President of the Company: (1) Appoint Attorney(s) in Fact and authorize the Attorney(s) in Fact to execute on behalf of the Company bonds and undertakings, contracts of indemnity and other writings obligatory in the nature thereof and to attach the seal of the Company thereto; and (2) to remove, at any time, any such Attorney-in-Fact and revoke the authority given. And, be it

FURTHER RESOLVED: That the signatures of such officers and the seal of the Company may be affixed to any such Power of Attorney or certificate relating thereto by facsimile, and any such Power of Attorney so executed and certified by facsimile signatures and facsimile seal shall be valid and binding upon the Company in the future with respect to any bond or undertaking to which it is attached.

IN TESTIMONY WHEREOF, PHILADELPHIA INDEMNITY INSURANCE COMPANY HAS CAUSED THIS INSTRUMENT TO BE SIGNED AND ITS CORPORATE SEALTO BE AFFIXED BY ITS AUTHORIZED OFFICE THIS 5TH DAY OF MARCH, 2021

(Seal)

John Glomb, President & CEO
Philadelphia Indemnity Insurance Company

On this 5th day of March, 2021 before me came the individual who executed the preceding instrument, to me personally known, and being by me duly sworn said that he is the therein described and authorized officer of the **PHILADELPHIA INDEMNITY INSURANCE COMPANY**; that the seal affixed to said instrument is the Corporate seal of said Company; that the said Corporate Seal and his signature were duly affixed.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. CBE1036254

Application/License No. _____

Boswell Pharmacy Services, LLC (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 131 Schoolhouse Rd, Jennerstown PA 15547-9155 (Address of Applicant/Principal), as PRINCIPAL, and The Cincinnati Insurance Company (Surety Company), a corporation organized under the laws of the state of Ohio (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 6200 S. Gilmore Road, Fairfield OH 45014-5141 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on November 29, 2023 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS
639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 1st day of December, 20 23.

THE CINCINNATI CASUALTY COMPANY

Fairfield, Ohio CBE1036254

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That THE CINCINNATI INSURANCE COMPANY and THE CINCINNATI CASUALTY COMPANY, corporations organized under the laws of the State of Ohio, and having their principal offices in the City of Fairfield, Ohio (herein collectively called the "Companies"), do hereby constitute and appoint

Shaun Styer

of BEDFORD PA

their true and legal Attorney(s)-in-Fact, each in their separate capacity if more than one is named above, to sign, execute, seal and deliver on behalf of the Companies as Surety, any and all bonds, policies, undertakings or other like instruments, as follows:

One Hundred Thousand Dollars $ 100,000.00

This appointment is made under and by authority of the following resolutions adopted by the Boards of Directors of The Cincinnati Insurance Company and The Cincinnati Casualty Company, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the President or any Senior Vice President be hereby authorized, and empowered to appoint Attorneys-in-Fact of the Company to execute any and all bonds, policies, undertakings, or other like instruments on behalf of the Corporation, and may authorize any officer or any such Attorney-in-Fact to affix the corporate seal; and may with or without cause modify or revoke any such appointment or authority. Any such writings so executed by such Attorneys-in-Fact shall be binding upon the Company as if they had been duly executed and acknowledged by the regularly elected officers of the Company.

RESOLVED, that the signature of the President or any Senior Vice President and the seal of the Company may be affixed by facsimile on any power of attorney granted, and the signature of the Secretary or Assistant Vice-President and the Seal of the Company may be affixed by facsimile to any certificate of any such power and any such power of certificate bearing such facsimile signature and seal shall be valid and binding on the Company. Any such power so executed and sealed and certified by certificate so executed and sealed shall, with respect to any bond or undertaking to which it is attached, continue to be valid and binding on the Company.

IN WITNESS WHEREOF, the Companies have caused these presents to be sealed with their corporate seals, duly attested by their President or any Senior Vice President this 16th day of March, 2021.

THE CINCINNATI INSURANCE COMPANY
THE CINCINNATI CASUALTY COMPANY

Stephen A. Ventre

STATE OF OHIO)SS:
COUNTY OF BUTLER)

On this 16th day of March, 2021 before me came the above-named President or Senior Vice President of The Cincinnati Insurance Company and The Cincinnati Casualty Company, to me personally known to be the officer described herein, and acknowledged that the seals affixed to the preceding instrument are the corporate seals of said Companies and the corporate seals and the signature of the officer were duly affixed and subscribed to said instrument by the authority and direction of said corporations.

Keith Collett, Attorney at Law
Notary Public – State of Ohio
My commission has no expiration date.
Section 147.03 O.R.C.

I, the undersigned Secretary or Assistant Vice-President of The Cincinnati Insurance Company and The Cincinnati Casualty Company, hereby certify that the above is the Original Power of Attorney issued by said Companies, and do hereby further certify that the said Power of Attorney is still in full force and effect.

Given under my hand and seal of said Companies at Fairfield, Ohio, this 1st day of December, 2023

Nevada State Board of Pharmacy

Statement of Explanation for
Section 8: Arrests, Detentions, Litigations, Arbitrations.

Question 4:

Jacqueline Martella was named as a defendant in a civil lawsuit completely unrelated to any pharmacy or wholesale distribution business. Specifically, defendants were sued for personal injuries allegedly sustained on residential real estate owned by Ms. Martella and her brother. The plaintiff is a former tenant on that property. The case is captioned *Moench v. Jacqueline Martella et al.*, No. 2022-4406, Court of Common Pleas of Cambria County, Pennsylvania. The lawsuit is ongoing, so there is no final order, agreement or other disposition for this matter.

Question 5:

Jacqueline Martella is a member and part owner of Martella's Pharmacy of Parkhill, LLC ("Martella's Pharmacy"), a retail pharmacy in Johnstown, Pennsylvania. In August 2022, it was discovered that controlled substances were missing at Martella's Pharmacy, likely due to employee theft. Martella's Pharmacy promptly complied with DEA regulations and reported the theft to local law enforcement, who arrested and prosecuted pharmacy tech Matthew Miller. In late 2022, the Commonwealth of Pennsylvania, Bureau of Professional and Occupational Affairs ("BPOA") issued an Order to Show Cause against Martella's Pharmacy of Parkhill, LLC, t/d/b/a Martella's Pharmacy, and Irvin A. Meredith, R.Ph., Case Nos. 22-54-014900 and 22-54-014901, before the Commonwealth of Pennsylvania, State Board of Pharmacy. Mr. Meredith was at all relevant times the Pharmacist-in-Charge at the pharmacy. This proceeding resulted from the Mr. Miller's theft of controlled substances. The proceeding was settled by Consent Agreement approved by Order of the State Board of Pharmacy on June 30, 2023, a copy of which is attached hereto. Respondents did not admit to the factual assertions of BPOA in the Order to Show Cause, but entered into the Consent Agreement "to resolve disputed claims and avoid the uncertainty and cost associated with litigation." See Consent Agreement, ¶6(j). On December 13, 2023, Mr. Miller pled guilty to felony charges and, on January 2, 2024, he was sentenced to 18-36 months in prison and ordered to pay restitution to Martella's Pharmacy.

Question 6:

See response to Question 5.

APPLICABLE LAW

1. This matter is before the State Board of Pharmacy ("Board") pursuant to the Pharmacy Act, act of September 27, 1961, P.L. 1700, ("Act"), *as amended*, 63 P.S. §§ 390-1 to 390-13; and/or 63 Pa.C.S. Chapter 31 ("Chapter 31").

LICENSURE STATUS

2. At all relevant and material times, Respondent Irvin A. Meredith (hereinafter "Mr. Meredith") held the following license to practice as a pharmacist in the Commonwealth of Pennsylvania: license no. RP031265L, which was originally issued on August 15, 1980, and which is currently set to expire on September 30, 2024.

Commonwealth Docket
on 30 2023 02:07 PM
Department of State

3. At all relevant and material times, Respondent Martella's Pharmacy held the following permit to operate as a pharmacy in the Commonwealth of Pennsylvania: permit no. PP411767L, which was originally issued on July 12, 1977, and which is currently set to expire on August 31, 2023.

4. At all relevant and material times, Mr. Meredith was the pharmacist manager of Martella's Pharmacy.

FACTUAL ASSERTIONS

5. The Respondents neither admit nor deny the following factual assertions, and the Commonwealth avers that it could prove the following factual assertions if the matters were taken to a hearing:

a. Absent additional Board action, Respondents' licenses and permits may be continually reactivated or reinstated upon the filing of the required documentation and payment of the applicable fees.

b. Mr. Meredith's address is: [redacted]

c. Martella's Pharmacy's address is: 1932 William Penn Avenue, Johnstown, PA 15909.

d. On or about August 23, 2022, Respondents filed a DEA-106 form indicating Martella's Pharmacy experienced a theft or loss of approximately 20,000 tablets/capsules/patches/films/vials, in total, of the following controlled substances: Amphetamine/Dextroamphetamine, Amphetamine, Dexmethylphenidate, Endocet, Hydrocodone, Morphine Sulfate, Oxycodone, Oxycodone/Acetaminophen, Oxycodone/Apap, Oxycontin, Alprazolam, Buprenorphine, Buprenorphine/Naloxone, Carisoprodol, Diazepam, Lorazepam, Phentermine, Temazepam, Tramadol, Zolpidem, and Testosterone.

e. These lost substances had a collective acquisition value of approximately $6,800.00.

f. The lost substances are a result of theft by a pharmacy technician.

g. The pharmacy technician stole the substances between February 2021 and August 2022.

RESPONDENTS' ASSERTIONS

6. Respondents assert that the following assertions are true, and the Commonwealth neither admits nor denies the following assertions offered by the Respondents:

a. The pharmacy technician who stole the above-referenced substances was terminated upon discovery of the theft.

b. The theft was promptly reported to law enforcement.

c. Following questioning by law enforcement, the pharmacy technician confessed to the theft.

d. The pharmacy technician, following his arrest, waived any preliminary hearing, thus, conceding probable cause to be held over for trial.

e. The pharmacy technician is currently being prosecuted for multiple crimes including felony theft and other violations of the Crimes Code, 18 Pa. C.S. § 101, *et seq.*, and violations of the Controlled Substance Drug Device and Cosmetic Act, 35 P.S. § 780-101, *et seq.*, including, but not limited to, possession with intent to deliver and/or delivery (Felony), and violations of the Pharmacy Act, 63 P.S. § 390-1, *et seq.*

f. Martella's Pharmacy participated in regular inspections by the Board during the course of the pharmacy technician's employment and passed each inspection, including on March 30, 2021 and May 2, 2022.

g. During all above-referenced inspections, the Board found that Martella's Pharmacy met all security requirements and that Schedule II controlled substances were stored in compliance with all requirements in applicable regulations.

h. Respondents now store controlled substances in locked cabinets and only pharmacists have a key.

i. Respondent Martella's Pharmacy of Parkhill is in the process of hiring a compliance officer to assist with inventory.

j. Respondents do not admit that the Factual Assertions (paragraphs 5a – 5g) are a sufficient basis upon which the Board may impose discipline and enter into this Consent Agreement to resolve disputed claims and avoid the uncertainty and cost associated with litigation.

AUTHORITY OF THE BOARD

7. The Board is authorized to suspend or revoke, or otherwise restrict Respondents' license and permit under section 5(a) and/or (b) & (8) of the Act, 63 P.S. §§ 390-5(a) and/or (b) & 390-8; impose a civil penalty upon Respondents under sections 5(a) and/or (b) & (8) of the Act, 63 P.S. §§ 390-5(a) and/or (b) & 390-8; or impose a civil penalty under section 63 Pa.C.S. § 3108(b)(4); and/or impose the costs of investigation under 63 Pa.C.S. § 3108(b)(5).

PROPOSED ORDER

8. The parties, intending to be legally bound, consent to the issuance of the following Order in settlement of this matter:

a. **VIOLATIONS:**

(1) Mr. Meredith violated Section 5(a)(12) of the Act, 63 P.S. § 390-5(a)(12), in that he did not conform to the standards of acceptable and prevailing pharmacy practice by

failing to promptly detect the theft of controlled substances described above by a pharmacy technician; and

(2) Martella's Pharmacy violated Section 5(b)(2) of the Act, 63 P.S. § 390-5(b)(2), because the pharmacy, as a permit holder, was operated in a manner that resulted in pharmacy personnel violating Section 5(a)(12), 63 P.S. § 390-5(a)(12), by engaging in conduct that departed from the standards of acceptable and prevailing pharmacy practice.

b. **PUBLIC REPRIMAND:** A public reprimand shall be placed on Respondents' permanent disciplinary records with the Board.

c. **CIVIL PENALTY:** Respondents shall jointly and severally pay a civil penalty of sixteen thousand dollars ($16,000.00).

d. **COSTS OF INVESTIGATION:** Respondents shall jointly and severally pay costs of investigation in the amount of seven hundred fifteen dollars and ninety-nine cents ($715.99).

e. Payment of the civil penalty and costs of investigation is subject to the following terms:

(1) The full civil penalty and costs of investigation amounts shall be tendered to the prosecution division of the Department of State with the executed consent agreement;

(2) The civil penalty and costs of investigation shall be **paid by certified check, cashier's check, attorney's check, or money order** issued by a usual, customary, and

USPS Postmark
Jan 30 2015

reputable issuer (e.g. U.S. Postal Money Order, Western Union Money Order, etc.);

(3) Payment shall be valid for a period of at least 180 days and shall be **made payable to the "Commonwealth of Pennsylvania"**;

(4) Respondents agree that payment shall only be made by one of the methods indicated and shall not be made by uncertified personal or corporate check; and

(5) Payment of the civil penalty and costs of investigation may be made in a single payment instrument.

f. This Order constitutes disciplinary action by the Board. This Order will be reported to other licensing authorities and any applicable national licensing databank as a disciplinary action by the Board.

g. This case shall be deemed settled and discontinued upon the Board issuing an order adopting this Consent Agreement.

ADMISSIBILITY OF CONSENT AGREEMENT IN FUTURE PROCEEDINGS

9. Respondents agree that this Consent Agreement and Order may be admitted into evidence, without objection, in any proceeding before the Department of State.

ACKNOWLEDGMENT OF NOTICE AND WAIVER OF HEARING

10. Respondents acknowledge receipt of an Order to Show Cause in this matter. Respondents knowingly and voluntarily waive the right to an administrative hearing in this matter and the following rights related to that hearing: to be represented by counsel; to present witnesses and testimony in defense or in mitigation of any sanction that may be imposed for a violation; to

cross-examine witnesses and to challenge evidence presented by the Commonwealth; to present legal arguments by means of a brief; and to take an appeal from any adverse final decision.

ACKNOWLEDGMENT OF RIGHT TO ATTORNEY

11. Respondents acknowledge the right to consult with and be represented by private legal counsel of Respondents' choosing and at Respondents' expense when reviewing, considering, and accepting the terms of this Consent Agreement. Respondents have had an opportunity to discuss the contents of this Consent Agreement with Attorneys Jayson R. Wolfgang, Esq. and Christopher M. Capozzi, Esq.

WAIVER OF CLAIMS

12. Should the Board vote not to adopt the Order proposed in this Consent Agreement, the presentation and consideration of this Consent Agreement shall not prejudice the Board or any of its members from further participation in the adjudication of this matter. Respondents expressly waive the right to raise any claims or issues, including any and all constitutional claims or issues, which may arise or have arisen during the review, presentation and deliberation of this Consent Agreement. These claims or issues include, but are not limited to, bias, the commingling of prosecutorial and adjudicative functions by the Board or its counsel, and the Board, in its discretion, recommending a different sanction based upon the facts set forth in the Consent Agreement. If a hearing is subsequently held, neither this Consent Agreement nor the proposed terms of settlement may be admitted into evidence and any facts, averments, and allegations contained in the Consent Agreement must be proven at a hearing unless otherwise separately stipulated.

LIMITS ON MODIFICATION OF ORDER

13. Respondents agree not to seek modification of the Order adopting and implementing this Consent Agreement without first obtaining the express written permission from the prosecution division. Any modification is at the sole discretion of the Board.

AGREEMENT NOT BINDING UNTIL APPROVED

14. This Consent Agreement is between the Commonwealth and Respondents. The Office of General Counsel has approved this Consent Agreement as to form and legality. The disciplinary provisions of this Consent Agreement do not take effect unless and until the Board issues an order adopting this Consent Agreement.

ENTIRE AGREEMENT

15. This Consent Agreement contains the entire agreement between the parties. There are no other terms, obligations, covenants, representations, statements, or conditions, oral or otherwise, of any kind whatsoever concerning this agreement.

AGREEMENT DOES NOT PREVENT FUTURE DISCIPLINE

16. Nothing in this Order shall preclude the prosecution division of the Department of State from filing charges, or the Board from imposing disciplinary or corrective measures, for violations or facts not contained in this Consent Agreement.

VERIFICATION OF FACTS AND STATEMENTS

17. Respondents verify that the facts and statements set forth in this Consent Agreement are true and correct to the best of Respondents' knowledge, information and belief. Respondents

understand that statements in this Consent Agreement are made subject to the criminal penalties of 18 Pa.C.S.A. §4904 relating to unsworn falsification to authorities.

Nevada State Board of Pharmacy

Statement of Explanation for
Section 8: Arrests, Detentions, Litigations, Arbitrations.

Question 4:

Jacqueline Martella was named as a defendant in a civil lawsuit completely unrelated to any pharmacy or wholesale distribution business. Specifically, defendants were sued for personal injuries allegedly sustained on residential real estate owned by Ms. Martella and her brother. The plaintiff is a former tenant on that property. The case is captioned *Moench v. Jacqueline Martella et al.*, No. 2022-4406, Court of Common Pleas of Cambria County, Pennsylvania. The lawsuit is ongoing, so there is no final order, agreement or other disposition for this matter.

Question 5:

Jacqueline Martella is a member and part owner of Martella's Pharmacy of Parkhill, LLC ("Martella's Pharmacy"), a retail pharmacy in Johnstown, Pennsylvania. In August 2022, it was discovered that controlled substances were missing at Martella's Pharmacy, likely due to employee theft. Martella's Pharmacy promptly complied with DEA regulations and reported the theft to local law enforcement, who arrested and prosecuted pharmacy tech Matthew Miller. In late 2022, the Commonwealth of Pennsylvania, Bureau of Professional and Occupational Affairs ("BPOA") issued an Order to Show Cause against Martella's Pharmacy of Parkhill, LLC, t/d/b/a Martella's Pharmacy, and Irvin A. Meredith, R.Ph., Case Nos. 22-54-014900 and 22-54-014901, before the Commonwealth of Pennsylvania, State Board of Pharmacy. Mr. Meredith was at all relevant times the Pharmacist-in-Charge at the pharmacy. This proceeding resulted from the Mr. Miller's theft of controlled substances. The proceeding was settled by Consent Agreement approved by Order of the State Board of Pharmacy on June 30, 2023, a copy of which is attached hereto. Respondents did not admit to the factual assertions of BPOA in the Order to Show Cause, but entered into the Consent Agreement "to resolve disputed claims and avoid the uncertainty and cost associated with litigation." See Consent Agreement, ¶6(j). On December 13, 2023, Mr. Miller pled guilty to felony charges and, on January 2, 2024, he was sentenced to 18-36 months in prison and ordered to pay restitution to Martella's Pharmacy.

Question 6:

See response to Question 5.

Jacqueline M. Martella, R.Ph.

Date:

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF STATE
BEFORE THE STATE BOARD OF PHARMACY

Commonwealth of Pennsylvania **Bureau of Professional and** **Occupational Affairs**		
vs.	**Case Nos.**	**22-54-014900** **22-54-014901**
Martella's Pharmacy of Parkhill, LLC t/d/b/a Martella's Pharmacy and Irvin A. Meredith, R.Ph. **Respondents**		

CONSENT AGREEMENT AND ORDER

PARTIES

The Commonwealth of Pennsylvania, Department of State, Bureau of Professional and Occupational Affairs ("Commonwealth") and **Martella's Pharmacy of Parkhill, LLC t/d/b/a Martella's Pharmacy and Irvin A. Meredith, R.Ph.** ("Respondents") stipulate as follows in settlement of the above-captioned case.

APPLICABLE LAW

1. This matter is before the State Board of Pharmacy ("Board") pursuant to the Pharmacy Act, act of September 27, 1961, P.L. 1700, ("Act"), *as amended*, 63 P.S. §§ 390-1 to 390-13; and/or 63 Pa.C.S. Chapter 31 ("Chapter 31").

LICENSURE STATUS

2. At all relevant and material times, Respondent Irvin A. Meredith (hereinafter "Mr. Meredith") held the following license to practice as a pharmacist in the Commonwealth of Pennsylvania: license no. RP031265L, which was originally issued on August 15, 1980, and which is currently set to expire on September 30, 2024.

Commonwealth of PA
Jan 30 2023 02:07 PM
Department of State

3. At all relevant and material times, Respondent Martella's Pharmacy held the following permit to operate as a pharmacy in the Commonwealth of Pennsylvania: permit no. PP411767L, which was originally issued on July 12, 1977, and which is currently set to expire on August 31, 2023.

4. At all relevant and material times, Mr. Meredith was the pharmacist manager of Martella's Pharmacy.

FACTUAL ASSERTIONS

5. The Respondents neither admit nor deny the following factual assertions, and the Commonwealth avers that it could prove the following factual assertions if the matters were taken to a hearing:

a. Absent additional Board action, Respondents' licenses and permits may be continually reactivated or reinstated upon the filing of the required documentation and payment of the applicable fees.

b. Mr. Meredith's address is: [redacted]

c. Martella's Pharmacy's address is: 1932 William Penn Avenue, Johnstown, PA 15909.

d. On or about August 23, 2022, Respondents filed a DEA-106 form indicating Martella's Pharmacy experienced a theft or loss of approximately 20,000 tablets/capsules/patches/films/vials, in total, of the following controlled substances: Amphetamine/Dextroamphetamine, Amphetamine, Dexmethylphenidate, Endocet, Hydrocodone, Morphine Sulfate, Oxycodone, Oxycodone/Acetaminophen, Oxycodone/Apap, Oxycontin, Alprazolam, Buprenorphine, Buprenorphine/Naloxone, Carisoprodol, Diazepam, Lorazepam, Phentermine, Temazepam, Tramadol, Zolpidem, and Testosterone.

e. These lost substances had a collective acquisition value of approximately $6,800.00.

f. The lost substances are a result of theft by a pharmacy technician.

g. The pharmacy technician stole the substances between February 2021 and August 2022.

RESPONDENTS' ASSERTIONS

6. Respondents assert that the following assertions are true, and the Commonwealth neither admits nor denies the following assertions offered by the Respondents:

a. The pharmacy technician who stole the above-referenced substances was terminated upon discovery of the theft.

b. The theft was promptly reported to law enforcement.

c. Following questioning by law enforcement, the pharmacy technician confessed to the theft.

d. The pharmacy technician, following his arrest, waived any preliminary hearing, thus, conceding probable cause to be held over for trial.

e. The pharmacy technician is currently being prosecuted for multiple crimes including felony theft and other violations of the Crimes Code, 18 Pa. C.S. § 101, *et seq.*, and violations of the Controlled Substance Drug Device and Cosmetic Act, 35 P.S. § 780-101, *et seq.*, including, but not limited to, possession with intent to deliver and/or delivery (Felony), and violations of the Pharmacy Act, 63 P.S. § 390-1, *et seq.*

f. Martella's Pharmacy participated in regular inspections by the Board during the course of the pharmacy technician's employment and passed each inspection, including on March 30, 2021 and May 2, 2022.

g. During all above-referenced inspections, the Board found that Martella's Pharmacy met all security requirements and that Schedule II controlled substances were stored in compliance with all requirements in applicable regulations.

h. Respondents now store controlled substances in locked cabinets and only pharmacists have a key.

i. Respondent Martella's Pharmacy of Parkhill is in the process of hiring a compliance officer to assist with inventory.

j. Respondents do not admit that the Factual Assertions (paragraphs 5a – 5g) are a sufficient basis upon which the Board may impose discipline and enter into this Consent Agreement to resolve disputed claims and avoid the uncertainty and cost associated with litigation.

AUTHORITY OF THE BOARD

7. The Board is authorized to suspend or revoke, or otherwise restrict Respondents' license and permit under section 5(a) and/or (b) & (8) of the Act, 63 P.S. §§ 390-5(a) and/or (b) & 390-8; impose a civil penalty upon Respondents under sections 5(a) and/or (b) & (8) of the Act, 63 P.S. §§ 390-5(a) and/or (b) & 390-8; or impose a civil penalty under section 63 Pa.C.S. § 3108(b)(4); and/or impose the costs of investigation under 63 Pa.C.S. § 3108(b)(5).

PROPOSED ORDER

8. The parties, intending to be legally bound, consent to the issuance of the following Order in settlement of this matter:

a. **VIOLATIONS:**

(1) Mr. Meredith violated Section 5(a)(12) of the Act, 63 P.S. § 390-5(a)(12), in that he did not conform to the standards of acceptable and prevailing pharmacy practice by

Jun 30 2015

failing to promptly detect the theft of controlled substances described above by a pharmacy technician; and

(2) Martella's Pharmacy violated Section 5(b)(2) of the Act, 63 P.S. § 390-5(b)(2), because the pharmacy, as a permit holder, was operated in a manner that resulted in pharmacy personnel violating Section 5(a)(12), 63 P.S. § 390-5(a)(12), by engaging in conduct that departed from the standards of acceptable and prevailing pharmacy practice.

b. **PUBLIC REPRIMAND:** A public reprimand shall be placed on Respondents' permanent disciplinary records with the Board.

c. **CIVIL PENALTY:** Respondents shall jointly and severally pay a civil penalty of sixteen thousand dollars ($16,000.00).

d. **COSTS OF INVESTIGATION:** Respondents shall jointly and severally pay costs of investigation in the amount of seven hundred fifteen dollars and ninety-nine cents ($715.99).

e. Payment of the civil penalty and costs of investigation is subject to the following terms:

(1) The full civil penalty and costs of investigation amounts shall be tendered to the prosecution division of the Department of State with the executed consent agreement;

(2) The civil penalty and costs of investigation shall be **paid by certified check, cashier's check, attorney's check, or money order** issued by a usual, customary, and

Jan 30 2023

reputable issuer (e.g. U.S. Postal Money Order, Western Union Money Order, etc.);

(3) Payment shall be valid for a period of at least 180 days and shall be **made payable to the "Commonwealth of Pennsylvania"**;

(4) Respondents agree that payment shall only be made by one of the methods indicated and shall not be made by uncertified personal or corporate check; and

(5) Payment of the civil penalty and costs of investigation may be made in a single payment instrument.

f. This Order constitutes disciplinary action by the Board. This Order will be reported to other licensing authorities and any applicable national licensing databank as a disciplinary action by the Board.

g. This case shall be deemed settled and discontinued upon the Board issuing an order adopting this Consent Agreement.

ADMISSIBILITY OF CONSENT AGREEMENT IN FUTURE PROCEEDINGS

9. Respondents agree that this Consent Agreement and Order may be admitted into evidence, without objection, in any proceeding before the Department of State.

ACKNOWLEDGMENT OF NOTICE AND WAIVER OF HEARING

10. Respondents acknowledge receipt of an Order to Show Cause in this matter. Respondents knowingly and voluntarily waive the right to an administrative hearing in this matter and the following rights related to that hearing: to be represented by counsel; to present witnesses and testimony in defense or in mitigation of any sanction that may be imposed for a violation; to

cross-examine witnesses and to challenge evidence presented by the Commonwealth; to present legal arguments by means of a brief; and to take an appeal from any adverse final decision.

ACKNOWLEDGMENT OF RIGHT TO ATTORNEY

11. Respondents acknowledge the right to consult with and be represented by private legal counsel of Respondents' choosing and at Respondents' expense when reviewing, considering, and accepting the terms of this Consent Agreement. Respondents have had an opportunity to discuss the contents of this Consent Agreement with Attorneys Jayson R. Wolfgang, Esq. and Christopher M. Capozzi, Esq.

WAIVER OF CLAIMS

12. Should the Board vote not to adopt the Order proposed in this Consent Agreement, the presentation and consideration of this Consent Agreement shall not prejudice the Board or any of its members from further participation in the adjudication of this matter. Respondents expressly waive the right to raise any claims or issues, including any and all constitutional claims or issues, which may arise or have arisen during the review, presentation and deliberation of this Consent Agreement. These claims or issues include, but are not limited to, bias, the commingling of prosecutorial and adjudicative functions by the Board or its counsel, and the Board, in its discretion, recommending a different sanction based upon the facts set forth in the Consent Agreement. If a hearing is subsequently held, neither this Consent Agreement nor the proposed terms of settlement may be admitted into evidence and any facts, averments, and allegations contained in the Consent Agreement must be proven at a hearing unless otherwise separately stipulated.

LIMITS ON MODIFICATION OF ORDER

13. Respondents agree not to seek modification of the Order adopting and implementing this Consent Agreement without first obtaining the express written permission from the prosecution division. Any modification is at the sole discretion of the Board.

AGREEMENT NOT BINDING UNTIL APPROVED

14. This Consent Agreement is between the Commonwealth and Respondents. The Office of General Counsel has approved this Consent Agreement as to form and legality. The disciplinary provisions of this Consent Agreement do not take effect unless and until the Board issues an order adopting this Consent Agreement.

ENTIRE AGREEMENT

15. This Consent Agreement contains the entire agreement between the parties. There are no other terms, obligations, covenants, representations, statements, or conditions, oral or otherwise, of any kind whatsoever concerning this agreement.

AGREEMENT DOES NOT PREVENT FUTURE DISCIPLINE

16. Nothing in this Order shall preclude the prosecution division of the Department of State from filing charges, or the Board from imposing disciplinary or corrective measures, for violations or facts not contained in this Consent Agreement.

VERIFICATION OF FACTS AND STATEMENTS

17. Respondents verify that the facts and statements set forth in this Consent Agreement are true and correct to the best of Respondents' knowledge, information and belief. Respondents

understand that statements in this Consent Agreement are made subject to the criminal penalties of 18 Pa.C.S.A. §4904 relating to unsworn falsification to authorities.

04/04/2024

To: Nevada Board of Pharmacy

I am submitting my application for a change in pharmacist for two separate locations, Dignity St. Rose Dominican North Las Vegas Campus and Dignity St. Rose Dominican West Flamingo Campus.

I have a pending investigation, Investigative Case 23-168 that was dated 06/20/2023. I have included both the letter from the Nevada Board of Pharmacy along with my written response back to the board. There was a misunderstanding from Summerlin Hospital about a pharmacy key to a pharmacy technician.

I had contacted Dena McClish (Investigator with the Nevada State Board of Pharmacy) on 04/02/2024 and she stated that the attorney is backed up and I would be notified about the case whenever it was reviewed.

If you have any questions, please feel free to reach out to me.

Thank you,

Amber Houghland

Subject: Pharmacy manager request

Good morning Dave,

I am in the process of applying for additional pharmacy licenses for our outpatient pharmacy and Lake's crossing center.
May I request permission to be pharmacy manager of all three locations:
Northern Nevada Adult Mental Health Services (IA00246, I am the current manager)
Northern Nevada Adult Mental Health Services Outpatient Pharmacy (application in progress)
Lake's Crossing Center Pharmacy (application in progress)

Thank you,

Bryan Hoang, RPh

I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

I attest to the knowledge of and compliance with the guidelines of the Centers for Disease Control and Prevention concerning the prevention of transmission of infectious agents through safe and appropriate injection practices. NRS 639.132

I understand that Nevada law requires a registered pharmacist who, in their professional or occupational capacity, knows or has reasonable cause to believe a child has been abused/neglected to report the abuse/neglect to an agency which provides child welfare services or to a local law enforcement agency, and make such a report as soon as reasonably practicable but not later than 24 hours after the person knows or has reasonable cause to believe that the child has been abused/neglected. NRS 432B.220.

AGREED BOARD ORDER #J-12-015

RE: IN THE MATTER OF
TAMMY ROXANNE DESSIEUX
(PHARMACIST LICENSE #42113)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy ("Board") the matter of pharmacist license number 42113 issued to Tammy Roxanne Dessieux ("Respondent").

By letter dated June 22, 2012, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

> Section 565.001(a)(1), (2), (9)(A), (12), (13) and (15) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Subtitle J (2009);
>
> Section 281.7(a)(2)(A)(ii), (12), (13) and (20); and Section 291.29 of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2011);
>
> Section 481.071(a); and Section 481.074(h) of the Texas Controlled Substances Act, TEX. HEALTH & SAFETY CODE ANN. (2009);
>
> Section 829(b); and Section 841(a)(1) of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. Section 801 et seq.; and
>
> Section 1306.04(a) of the Rules of the Federal Drug Enforcement Agency, TITLE 21 OF THE CODE OF FEDERAL REGULATIONS, in that allegedly:

COUNT

On or about October 3, 2011 through, on or about January 27, 2012, Tammy Dessieux, while employed as pharmacist-in-charge of Farmacia #1, 6055-C Bissonnet, Houston, Texas 77081, was responsible for the dispensing of 331 prescriptions for hydrocodone, carisoprodol, and alprazolam products pursuant to invalid prescription drug orders.

The invalid prescriptions were issued from various pain management clinics by various physicians or mid-level practitioners. The prescriptions were written for controlled substances for the purported treatment of pain and/or anxiety. The controlled substances were dispensed pursuant to prescriptions that were invalid because the prescribers issued prescriptions for controlled substances that were not necessary or required for the patients' valid medical need or therapeutic purpose, or the prescribers issued the prescriptions outside the usual course of medical practice, in that the prescriber failed to use medical reasoning in issuing the prescriptions.

An informal conference was held in the office of the Texas State Board of Pharmacy on July 19, 2012, with Respondent in attendance. The informal conference was rescheduled for September 6, 2012, with Respondent and Webb M. Jones, Legal Counsel for Respondent, in attendance. The informal conference was heard by a Board panel comprised of: W. Benjamin Fry, R.Ph., Board Member; Gay Dodson, R.Ph., Executive Director/Secretary; and Carol Fisher, R.Ph., M.P.A., Director of Enforcement; with Kerstin E. Arnold, General Counsel. Caroline K. Hotchkiss, Staff Attorney, was also in attendance.

By appearing at the informal conference and by signing this Order, Respondent and Respondent's counsel neither admit nor deny the truth of the matters previously set out in this Order, and agree that the Board has jurisdiction in this matter and waive the right to notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Respondent shall pay an administrative penalty of seven thousand five hundred dollars ($7,500) due six (6) months after the entry of this Order.

(2) If Respondent fails to pay the administrative penalty within six (6) months after the entry of this Order, said license issued to Respondent shall be suspended, effective six (6) months after the entry of this Order, until such payment is received by Board staff. In the event that said license issued to Respondent is suspended, Respondent shall:

   (a) not practice pharmacy in this state or have access to prescription drugs during the period said license is suspended; and

   (b) surrender to the Board the license and any renewal certificate and personal identification card pertaining to said license as specified by Board staff.

(3) If within one (1) year after the entry of this Order, Respondent fails to pay the administrative penalty, said license issued to Respondent shall be revoked, effective one (1) year after the entry of this Order. In the event that said license number is revoked, Respondent shall not practice pharmacy in this state or have access to prescription drugs during the period said license is revoked.

(4) Respondent shall, within one (1) year of the entry of this Order, successfully pass the Multistate Pharmacy Jurisprudence Examination that is required of applicants for licensure with a grade of 75 or better, and shall submit proof of a passing grade to Board staff. If Respondent does not submit proof of passing the Multistate Pharmacy Jurisprudence Examination within one year after the entry of this Order, Respondent's license, shall be immediately suspended until such time as Respondent submits proof of passing said examination. During the period of suspension, Respondent shall:

(a) not practice pharmacy in this state or have access to prescription drugs during the period said license is suspended; and

(b) surrender to the Texas State Board of Pharmacy, said license and any renewal certificate and personal identification card pertaining to said license as specified by Board staff.

(5) Respondent shall be responsible for all costs relating to compliance with the requirements of this Order.

(6) Respondent shall allow Board staff to directly contact Respondent on any matter regarding the enforcement of this Order.

(7) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2011), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2012).

And it is so ORDERED.

THIS ORDER IS A PUBLIC RECORD.

SIGNED AND ENTERED ON THIS 5th day of February, 2013.

Re: Daniel Hays
Petition for Reinstatement of Pharmacist Registration

Dear Mr. Wuest:

Please find enclosed the resubmitted request submitted on behalf of Mr. Daniel Hays (formerly Niel[1]) for reinstatement of his pharmacist registration in the state of Nevada. We would note, as further discussed below, that Mr. Hays does not wish his registration to be reinstated to "active" status, but rather would request that the registration be reinstated to "inactive" status.

Enclosed with this letter are exhibits A through C which pertain to the noted exhibits A and B which pertain to this letter followed by Mr. Hays' application, supporting materials and the fingerprint cards which were missing from his original submission in addition to the cashier's check required.

Mr. Hays held a registration with the Nevada State Board of Pharmacy ("Board") as a registered pharmacist under certificate registration no. 19767. On October 21, 2020, the Board issued a Notice of Intended Action and Accusation, alleging that in early 2020, Mr. Hays had diverted certain dangerous drugs from the hospital at which he was then employed; the drugs diverted did not include any controlled substances.

Mr. Hays, through the undersigned counsel, entered into a Stipulated Findings of Fact, filed with the Board on February 19, 2021, in which Mr. Hays stipulated to certain facts in the matter which were presented to during a hearing in the matter at a regularly scheduled board meeting on March 3, 2021. At the conclusion of the hearing, the Board voted to revoke Mr. Hays' certificate of registration in addition to the imposition of a $5,000 fine and $1,300 in recoverable costs. Mr. Hays was prohibited from petitioning for reinstatement for a period of two years from

[1] Mr. Hays' prior registration was issued in the name of Daniel Niel. Mr. Hays legally changed his last name from Niel to Hays in February 2021 through the Arizona Superior Court, Conchise County. A copy of the Order Changing Name for an Adult is attached as Exhibit A to this letter.

M 316 California Ave #863 • Reno Nevada 89509 P 775.432.1918 F 775.473.3801 E lyn@lbeggslaw.com

the effective date of the Findings of Fact, Conclusions of Law and Order which were filed on March 3, 2021. (A copy is attached with Mr. Hays application materials).

Mr. Hays now petitions the Board for reinstatement of his revoked registration. Mr. Hays has completed an application for licensure/registration which is enclosed with this letter in addition to a credit card authorization for the application fees.

While Mr. Hays has provided explanatory answers in his application to certain declaration questions, we have summarized some of Mr. Hays activities over the last two and half years.

At the time of the revocation of this Nevada registration, Mr. Hays held a license to practice as a pharmacist in the state of Arizona (license no. S016835). After the revocation of his Nevada registration, Mr. Hays timely disclosed the revocation to the Arizona State Board of Pharmacy ("Arizona Board"). Based on the Nevada revocation, the Arizona Board initiated proceedings against Mr. Hays which resulted in Mr. Hays entering into a Consent Agreement and Order for Probation, Treatment, Rehabilitation, and Monitoring which was approved by the Arizona Board on June 24, 202. The Consent Agreement, a copy of which is attached to Mr. Hays' application and is further discussed in his application answers, placed him on probation for a period of five years.

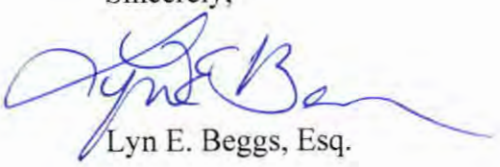
Pursuant to the terms of his Arizona probation, Mr. Hays, who currently resides in the state of Washington, was to continue to participate in, and be monitored by, the Arizona Pharmacy Foundation's Professionals Assisting Professionals of Arizona Monitoring Program ("Monitoring Program"). The Monitoring Program monitors Mr. Hays' compliance with the terms of his probation and he remains in compliance with all terms and conditions. A recent letter from the Monitoring Program confirming that fact is attached hereto as Exhibit B.

Mr. Hays continues to actively participate in CoDA (Co-Dependents Anonymous) and other mental health support groups in addition to continuing with his therapist and other treatment providers. We are happy to provide letters of support from these individuals if requested.

Mr. Hays respectfully requests that his Petition for Reinstatement be placed before the Board for consideration. He does not intend to return to the Nevada nor work as a pharmacist in any capacity in the state and therefore is requesting that his registration be reinstated to inactive status rather than active. While Mr. Hays does not intend on returning to work in Nevada, he does wish to restore his registration for both personal and professional reason.

Due to Mr. Hays residing in Washington, we would request that Mr. Hays be allowed to appear remotely by Zoom if possible. Please do not hesitate to contact me should you need any additional information regarding this Petition for Reinstatement.

Sincerely,



Lyn E. Beggs, Esq.

This is in response to Question # 3. Provide all the following *where applicable*:

Date of Event/Arrest	Disposition Date	State	City	County
Case #		**Governing, licensing, Arresting Presiding Body/Agency/Court**		
Reason/Charge				
Plaintiff/Defendant/Claimant/Respondent			**Lawsuit/Arbitration/Bankruptcy**	
Name of Business/Industry/Entity				

Provide explanation below:

On September 10th, 2020, the Nevada State Board of Pharmacy ("NVBOP") summarily suspended my pharmacist registration due to my hospitalization for mental health treatment. The registration was reinstated on October 22, 2020, after I appeared before the NVBOP. A copy of the suspension and reinstatement are attached.

On October 21, 2020, the NVBOP filed an Accusation against me alleging that I had diverted drugs in early 2020 while employed by Henderson Hospital in its pharmacy. I stipulated to certain facts regarding the matter and appeared before the NVBOP on March 3, 2021 with counsel. The NVBOP ultimately revoked my pharmacist registration and prohibited me from applying for reinstatement for a period of two years.

On March 5, 2021 I timely notified the Arizona State Board of Pharmacy ("AZBOP") where I held an active license and was practicing at the time, of the revocation of my Nevada registration. I voluntarily entered into the Arizona Pharmacy Foundation: Professionals Assisting Professional ("APFPAP") program on the same day I notified the AZBOP of the Nevada action.

In June 24, 2021, the AZBOP approved a Consent Agreement (a copy of which is attached) placing my license on probation for a minimum of five years. Pursuant to the terms of probation, I was ordered to continue with the APFPAP monitoring contract; I was ordered to establish with a sleep specialist, psychiatrist and psychologist who were to provide reports to the APFPAP regarding my ongoing treatment; I was prohibited from acting as a preceptor or PIC; I was ordered to complete 400 hours of community service within five years; and I must provide a copy of the Consent Agreement to any employer which was confirm receipt with the AZBOP. Currently I remain in compliance with all terms and conditions of my probation, I have attached a recent letter confirming compliance with those terms. I have been allowed to continue complying with the terms of my probation while residing in the state of Washington.

Original Signature (electronic, copies or stamps not accepted)

Reason/Charge

Plaintiff/Defendant/Claimant/Respondent	Lawsuit/Arbitration/Bankruptcy

Name of Business/Industry/Entity

Provide explanation below:

In July 2019, I sought treatment for severe depression and suicidal ideations at the University of Utah Neuropsychiatric Unit (now the Huntsman Mental Health Institute). I spent two weeks inpatient at the facility and upon discharge continued seeing a therapist and psychiatrist. I have continued with both my therapist and psychiatrist since that time except for short period of time in which I was unable to afford therapy.

I continue with treating providers and therapist in Washington state where I currently reside and participate in CoDA (Co-Dependents Anonymous) groups and other mental health groups typically three times per week in on-line meetings due to the remoteness of my current residence. I also submit to random drug screening one time per month pursuant to monitoring contract in place with the state of Arizona as further explained in the answer to Question #3 of Section 9.

Original Signature (electronic, copies or stamps not accepted)

Reason/Charge				
Plaintiff/Defendant/Claimant/Respondent			**Lawsuit/Arbitration/Bankruptcy**	
Name of Business/Industry/Entity				

Provide explanation below:

The action taken by the NVBOP as described in the explanatory answer to Question #3 was taken for violations of pharmacy/drug laws as described in the Findings of Fact, Conclusions of Law and Order related to diversion of substances for my personal use and the use of another. The action taken by the AZBOP was based primarily on the action taken by the NVBOP.

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **DANIEL NIEL, AKA DANIEL HAYS, RPH, Certificate of Registration No. 19767,** **Respondent.**	**CASE NO. 20-090-RPH-S** **STATEMENT TO THE RESPONDENT AND NOTICE OF HEARING**

TO THE RESPONDENT ABOVE-NAMED: PLEASE TAKE NOTICE THAT:

I.

Pursuant to the authority and jurisdiction conferred upon the Nevada State Board of Pharmacy (Board) by NRS 639.241 to NRS 639.2576, inclusive, and NRS chapter 233B and 622A, a Notice of Intended Action and Accusation has been filed with the Board by the Petitioner, J. David Wuest, Executive Secretary for the Board, alleging grounds for imposition of disciplinary action by the Board against you, as is more fully explained and set forth in the Notice of Intended Action and Accusation served herewith and hereby incorporated reference herein.

II.

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3); NRS 639.241. To do so, you must complete and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Statement and Notice, and of the Notice of Intended Action and Accusation served within. NRS 622A.320; NRS 639.243.

III.

The Board has scheduled your hearing on this matter for Wednesday, December 2, 2020, 9:00 a.m. or soon thereafter. Pursuant to Governor Steve Sisolak's Emergency Directive 006, there will be no physical location for this meeting. The meeting can be listened to or viewed live over Zoom.

Via Videoconference at Zoom: https://zoom.us/j/5886256671
or
Via Teleconference at 1 (669) 900-6833
Meeting ID: 588 625 6671

IV.

Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. The Board at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session.

V.

Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350.

DATED this 21st day of October, 2020.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **DANIEL NIEL, AKA DANIEL HAYS, RPH, Certificate of Registration No. 19767,** **Respondent.**	**CASE NO. 20-090-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under Nevada Revised Statutes ("NRS") 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Daniel Niel, aka Daniel Hays, R.Ph., Certificate of Registration 19767, was a pharmacist registered by the Board.

FACTUAL ALLEGATIONS

2. Respondent was employed as a pharmacist by Henderson Hospital at the time of the events alleged herein.

3. On or about February 19, 2020, Evelyn Chu, Director of Pharmacy at Henderson Hospital, and Michele Norton, HR Generalist at Henderson Hospital, commenced an investigation into allegations that Respondent had diverted dangerous drugs from the hospital pharmacy.

4. The subsequent investigation produced evidence that Respondent diverted the following dangerous drugs from the hospital pharmacy:

- 1 tube of metronidazole vaginal gel
- 8 metronidazole 500mg tablets
- 1 bottle of polytrim ophthalmic
- 8 benzonatate 100mg capsules

- 1 cup of lidocaine oral topical liquid
- 80 famotidine 20mg tablets
- 1 tube metronidazole gel topical
- 2 fluconazote 200mg tablets
- 2 doxepin 25mg capsules
- 3 ondansetron tablets
- 1 vial succinyt choline

5. Respondent diverted some of the dangerous drugs for his personal use and furnished some of the diverted dangerous drugs to at least one other person.

6. Henderson Hospital terminated Respondent's employment on February 24, 2020.

7. On or about August 20, 2020, Respondent admitted to diverting dangerous drugs from the hospital pharmacy to Board investigators.

FIRST CAUSE OF ACTION

Unlawful Acquisition of Dangerous Drugs

8. "A person . . . who knowingly or intentionally obtains or attempts to obtain possession of a dangerous drug . . . by misrepresentation, fraud, forgery, deception, subterfuge or alteration is guilty of a category E felony." NRS 454.311(1).

9. By diverting dangerous drugs as alleged herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.311(1) and is subject to discipline pursuant to NRS 639.210(12).

SECOND CAUSE OF ACTION

Unlawful Possession of Dangerous Drugs

10. "A person who possesses a dangerous drug, except that furnished to the person by a pharmacist pursuant to a legal prescription or by a practitioner, is guilty of a gross misdemeanor." NRS 454.316(1).

11. By diverting dangerous drugs as alleged herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.316(1) and is subject to discipline pursuant to NRS 639.210(12).

THIRD CAUSE OF ACTION

Unlawful Furnishing of Dangerous Drugs to Another Person

12. "A person who furnishes any dangerous drug [to another person] except upon the prescription of a practitioner is guilty of a category D felony... unless the dangerous drug was obtained originally by a legal prescription." NRS 454.221(1).

13. By furnishing dangerous drugs to another person as alleged herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.221(1) and is subject to discipline pursuant to NRS 639.210(12).

FOURTH CAUSE OF ACTION

Unprofessional Conduct - Diversion

14. "Supplying or diverting drugs . . . which are legally sold in pharmacies . . . so that unqualified persons can circumvent any law pertaining to the legal sale of such articles" constitutes "unprofessional conduct and conduct contrary to the public interest." NAC 639.945(1)(g). Conduct that is unprofessional or contrary to the public interest is grounds for suspension or revocation of any certificate, license or permit licensed by the Board. NRS 639.210(4).

15. By diverting dangerous drugs as alleged herein, Respondent engaged in unprofessional conduct and conduct contrary to the public interest pursuant to NAC 639.945(1)(g) and is subject to discipline pursuant to NRS 639.210(4).

FIFTH CAUSE OF ACTION

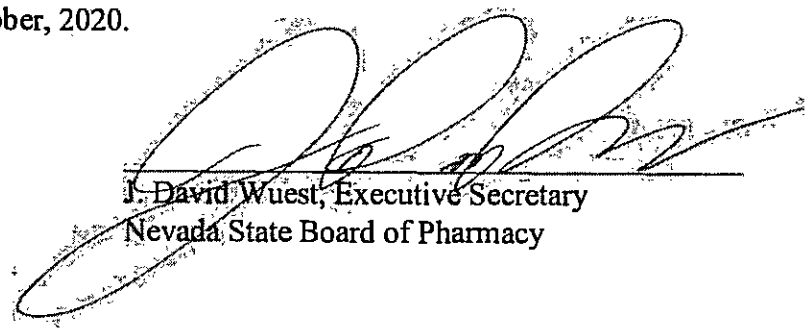
Unprofessional Conduct - Deceitful Practice

16. "Performing or in any way being a party to any fraudulent or deceitful practice or transaction" constitutes "unprofessional conduct and conduct contrary to the public interest." NAC 639.945(1)(h). Conduct that is unprofessional or contrary to the public interest is grounds for suspension or revocation of any certificate, license or permit licensed by the Board. NRS 639.210(4).

17. By diverting dangerous drugs as alleged herein, Respondent was a party to a fraudulent or deceitful practice or transaction, engaged in unprofessional conduct and conduct contrary to the public interest pursuant to NAC 639.945(1)(h), and is subject to discipline pursuant to NRS 639.210(4).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this Respondent.

Signed this 21st day of October, 2020.



J. David Wuest, Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3); NRS 639.241. To do so, you must complete and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350.

NEVADA STATE BOARD OF PHARMACY

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. DANIEL NIEL, AKA DANIEL HAYS, RPH, Certificate of Registration No. 19767, Respondent.	CASE NO. 20-090-S FINDINGS OF FACT, CONCLUSIONS OF LAW AND ORDER

This matter came before the Nevada State Board of Pharmacy (Board) at its regularly scheduled meeting on Wednesday, March 3, 2021. Brett Kandt, Esq., prosecuted the case before the Board. Respondent Daniel Niel, aka Daniel Hays, R.Ph., Certificate of Registration No. 19767, appeared with counsel, Lyn E. Beggs, Esq. The Board heard the case and, based on the evidence presented, the Board makes the following Findings of Fact, Conclusions of Law and Order.

FINDINGS OF FACT

1. At the time of the events set forth herein, Respondent Daniel Niel, aka Daniel Hays, R.Ph., Certificate of Registration 19767, was a pharmacist registered by the Board.

2. Respondent was employed as a pharmacist by Henderson Hospital at the time of the events alleged herein.

3. On or about February 19, 2020, Evelyn Chu, Director of Pharmacy at Henderson Hospital, and Michele Norton, HR Generalist at Henderson Hospital, commenced an investigation into allegations that Respondent had diverted dangerous drugs from the hospital pharmacy.

4. The subsequent investigation produced evidence that Respondent diverted the following dangerous drugs from the hospital pharmacy:

- 1 tube of metronidazole vaginal gel
- 8 metronidazole 500mg tablets
- 1 bottle of polytrim ophthalmic
- 8 benzonatate 100mg capsules

- 1 cup of lidocaine oral topical liquid
- 80 famotidine 20mg tablets
- 1 tube metronidazole gel topical
- 2 fluconazote 200mg tablets
- 2 doxepin 25mg capsules
- 3 ondansetron tablets
- 1 vial succinyt choline

5. Respondent diverted some of the dangerous drugs for his personal use and furnished some of the diverted dangerous drugs to at least one other person.

6. Henderson Hospital terminated Respondent's employment on February 24, 2020.

7. On or about August 20, 2020, Respondent admitted to diverting dangerous drugs from the hospital pharmacy to Board investigators.

8. On September 10, 2020, Respondent's Certificate of Registration No. 19767 was suspended by operation of law pursuant to NRS 639.211. Respondent petitioned for reinstatement pursuant to NRS 639.212.

9. On October 14, 2020, Respondent appeared before the Board on his petition, provided a physician's note in support of his reinstatement, and gave testimony in closed session at which time he admitted to diverting dangerous drugs from the hospital pharmacy. The Board granted the petition and ordered that Respondent's Certificate of Registration No. 19767 be reinstated effective immediately.

10. Board staff incurred at least $1300.00 in attorney's fees and recoverable costs from investigating and prosecuting this administrative action. The attorney's fees and costs are reasonable based upon legal counsel's professional qualities, the nature of this administrative enforcement action, the work performed, and the result as evidenced by this Order.

CONCLUSIONS OF LAW

Based on the forgoing findings of fact, the Board concludes as a matter of law:

1. The Board has jurisdiction over this matter and this respondent, because at the time of the events herein, Respondent was a pharmacist registered with the Board.

2. The applicable law in this matter is as follows:

a. "A person . . . who knowingly or intentionally obtains or attempts to obtain possession of a dangerous drug . . . by misrepresentation, fraud, forgery, deception, subterfuge or alteration is guilty of a category E felony." NRS 454.311(1).

b. "A person who possesses a dangerous drug, except that furnished to the person by a pharmacist pursuant to a legal prescription or by a practitioner, is guilty of a gross misdemeanor." NRS 454.316(1).

c. "A person who furnishes any dangerous drug [to another person] except upon the prescription of a practitioner is guilty of a category D felony... unless the dangerous drug was obtained originally by a legal prescription." NRS 454.221(1).

d. "Supplying or diverting drugs . . . which are legally sold in pharmacies . . . so that unqualified persons can circumvent any law pertaining to the legal sale of such articles" constitutes "unprofessional conduct and conduct contrary to the public interest." NAC 639.945(1)(g).

e. "Performing or in any way being a party to any fraudulent or deceitful practice or transaction" constitutes "unprofessional conduct and conduct contrary to the public interest." NAC 639.945(1)(h).

f. Conduct that is unprofessional or contrary to the public interest is grounds for suspension or revocation of any certificate, license or permit licensed by the Board. NRS 639.210(4).

3. By diverting dangerous drugs as set forth herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.311(1) and is subject to discipline pursuant to NRS 639.210(12).

4. By diverting dangerous drugs as set forth herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.316(1) and is subject to discipline pursuant to NRS 639.210(12).

5. By furnishing dangerous drugs to another person as set forth herein, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate NRS 454.221(1) and is subject to discipline pursuant to NRS 639.210(12).

6. By diverting dangerous drugs as set forth herein, Respondent engaged in unprofessional conduct and conduct contrary to the public interest pursuant to NAC 639.945(1)(g) and is subject to discipline pursuant to NRS 639.210(4).

7. By diverting dangerous drugs as set forth herein, Respondent was a party to a fraudulent or deceitful practice or transaction, engaged in unprofessional conduct and conduct contrary to the public interest pursuant to NAC 639.945(1)(h), and is subject to discipline pursuant to NRS 639.210(4).

ORDER

THEREFORE, THE BOARD HEREBY ORDERS AS FOLLOWS:

1. The certificate of registration of Respondent Daniel Niel, aka Daniel Hays, R.Ph., Certificate of Registration 19767, is hereby revoked pursuant to NRS 639.255(1)(d).

2. Respondent may not work for any facility licensed by the Board, including a pharmacy, in any capacity unless and until he has petitioned the Board for reinstatement pursuant to NRS 639.257 and the Board reinstates his certificate of registration.

3. Pursuant to NRS 622A.410(1) and 639.257(1), Respondent may not petition for reinstatement of his certificate of registration for a period of two (2) years from the effective date of this Order.

4. In the event Respondent applies for reinstatement, or for any other registration or certificate with the Board, he shall appear before the Board to answer questions and give testimony regarding his application, his compliance with this Order, and the facts and circumstances underlying this matter.

5. Pursuant to NRS 639.255(1)(f) and NAC 639.955(5), Respondent shall pay a fine of Five-Thousand Dollars ($5,000.00) for the violations, by *cashier's check* or *certified check* or

money order made payable to "State of Nevada, Office of the Treasurer," to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within ninety (90) days of the effective date of this Order.

6. Pursuant to NRS 622.400, Respondent shall pay One-Thousand Three-Hundred Dollars ($1300.00) to partially reimburse the Board for reasonable attorney's fees and recoverable costs incurred in investigating and prosecuting this matter. Payment shall be made by *cashier's check, certified check* or *money order* made payable to the "Nevada State Board of Pharmacy" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within ninety (90) days of entry of this Order.

7. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly-scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapter 453 and/or NRS Chapter 639.

8. This Order is effective immediately.

IT IS SO ORDERED.

Entered this 3rd day of March, 2021.

Helen Park, President
Nevada State Board of Pharmacy

BEFORE THE ARIZONA STATE BOARD

OF PHARMACY

In the Matter of: **DANIEL PETER HAYS** **Aka DANIEL DRAVEN NIEL, RPh** **Holder of License No. S016835** **As a Pharmacist** **In the State of Arizona,** **Respondent**	**BOARD CASE NO. 21-0143** **CONSENT AGREEMENT AND ORDER FOR PROBATION, TREATMENT, REHABILITATION, AND MONITORING**

In the interest of a prompt and judicious settlement of this case, consistent with the public interest, statutory requirements and the responsibilities of the Arizona State Board of Pharmacy ("Board") under A.R.S. § 32-1901, *et seq.*, Daniel Peter Hays aka Daniel Draven Niel ("Respondent"), holder of Pharmacist License Number S016835 in the State of Arizona, and the Board enter into the following Recitals, Findings of Fact, Conclusions of Law and Order ("Consent Agreement") as a final disposition of this matter.

RECITALS

1. Respondent has read and understands this Consent Agreement and has had the opportunity to discuss this Consent Agreement with an attorney, or has waived the opportunity to discuss this Consent Agreement with an attorney.

2. Respondent understands that he has a right to a public administrative hearing concerning this matter at which hearing he could present evidence and cross examine witnesses. By entering into this Consent Agreement, Respondent knowingly and voluntarily relinquishes all right to such an administrative hearing, as well as rights

of rehearing, review, reconsideration, appeal, judicial review or any other administrative and/or judicial action, concerning the matters set forth herein.

3. Respondent affirmatively agrees that this Consent Agreement shall be irrevocable.

4. Respondent understands that this Consent Agreement or any part of the agreement may be considered in any future disciplinary action by the Board against him.

5. Respondent understands this Consent Agreement deals with Board complaint number 21-0143 involving allegations of unprofessional conduct against Respondent. The investigation into these allegations against Respondent shall be concluded upon the Board's adoption of this Consent Agreement.

6. Respondent acknowledges and agrees that the acceptance of this Consent Agreement is solely to settle this Board matter and does not preclude the Board from instituting other proceedings as may be appropriate now or in the future.

7. Respondent understands that this Consent Agreement does not constitute a dismissal or resolution of any other matters currently pending before the Board, if any, and does not constitute any waiver, express or implied, of the Board's statutory authority or jurisdiction regarding any other pending or future investigation, action or proceeding.

8. Furthermore, and notwithstanding any language in this Consent Agreement, this Consent Agreement does not preclude in any way any other state agency or officer or political subdivision of this state from instituting proceedings, investigating claims, or taking legal action as may be appropriate now or in the future relating to this matter other matters concerning Respondent, including violations of Arizona's Consumer Fraud Act. Respondent acknowledges that, other than with respect to the Board, this Consent Agreement makes no representations, implied or otherwise, about the views or intended actions of any other state agency or officer or political subdivision of the state relating to this matter or other matters concerning Respondent.

DocuSign Envelope ID: 1A3D1E7A-42B9-4184-ADD2-05FF2DA4C130

9. This Consent Agreement is subject to the approval of the Board and is effective only when accepted by the Board and signed by the Executive Director. In the event that the Board does not approve this Consent Agreement, it is withdrawn and shall be of no evidentiary value and shall not be relied upon nor introduced in any action by any party, except that the parties agree that should the Board reject this Consent Agreement and this case proceeds to hearing, Respondent shall assert no claim that the Board was prejudiced by its review and discussion of this document or any records relating thereto.

10. If a court of competent jurisdiction rules that any part of this Consent Agreement is void or otherwise unenforceable, the remainder of the Consent Agreement shall remain in full force and effect.

11. Respondent understands that this Consent Agreement is a public record that will be publicly disseminated as a formal action of the Board and may be reported as required by law to the National Practitioner Data Bank and the Healthcare Integrity and Protection Data Bank.

12. Respondent understands that any violation of this Consent Agreement constitutes unprofessional conduct and may result in disciplinary action. A.R.S. §§ 32-1901.01(B)(20), -1927(A)(1).

13. Respondent agrees that the Board will adopt the following Findings of Fact, Conclusions of Law and Order.

ACCEPTED AND AGREED BY RESPONDENT

DocuSigned by:
Daniel Hays
467E01E28C1B4E2...

Dated: 6/21/2021

Daniel Draven Niel
Aka Daniel Peter Hays, Pharmacist

FINDINGS OF FACT

1. The Board is the duly constituted authority for licensing and regulating the practice of pharmacy in the State of Arizona.

2. Respondent is the holder of License No. S016835 to practice as a pharmacist in the State of Arizona. Respondent was first licensed in Arizona in August of 2008. He is currently employed by Tucson Medical Center but has worked in Las Vegas for the last few years. He submitted his most recent application for renewal on June 8, 2020.

3. On or about March 5, 2021, Respondent notified the Board that his Nevada Pharmacist license was **REVOKED** by the Nevada Board of Pharmacy on March 3, 2021. Specifically, the Nevada Board ordered a 2 year revocation of Respondent's license, imposed a civil penalty of $5,000 and assessed a $1,300 fee for reimbursement of attorneys' fees and investigative costs. At this time of this matter, Respondent was employed in a hospital pharmacy in Las Vegas.

4. The factual basis for the above-referenced discipline includes, but is not limited to, diversion of dangerous drugs from the hospital pharmacy; diversion of the drugs for his own personal use as well as for the use of at least one other person; he was terminated from his employment on February 20, 2020; he admitted to the diversion on August 20, 2020; and Respondent's license was suspended for approximately 4.5 weeks in September/October of 2020.

5. Respondent entered into a confidential treatment and monitoring contract with the Arizona Pharmacy Foundation: Professionals Assisting Professionals on March

5, 2021 and was evaluated pursuant to that contract, the result of which are contained in the Board's files.

6. On May 5, 2021, the Board met in open session to discuss this matter. At the conclusion of its consideration of all documents and testimony from Respondent, the Board voted to offer the Consent Agreement to Respondent in lieu of additional administrative proceedings.

CONCLUSIONS OF LAW

1. The Board possesses subject matter and personal jurisdiction over Respondent pursuant to A.R.S. § 32-1901 *et seq.*

2. Pursuant to A.R.S. § 32-1927(A)(1), the Board may discipline a pharmacist who has engaged in unprofessional conduct.

3. The conduct and circumstances described above constitutes unprofessional conduct pursuant to A.R.S. § 32-1901.01(B)(5), which is having the licensee's license to practice pharmacy denied or disciplined in another jurisdiction.

ORDER

Based on the Findings of Fact and Conclusions of Law, the Board under issues the following Order:

1. **IT IS HEREBY ORDERED THAT:** Respondent's pharmacy license no. S016835 is hereby placed on **PROBATION** for a minimum period of (5) years. **The effective date of the probation shall be the date the Consent Agreement is signed by Executive Director.**

2. The Board acknowledges that on March 24, 2021, Respondent entered into a Contract with Arizona Pharmacy Foundation: Professionals Assisting Professionals for

his treatment, rehabilitation and monitoring. This entity shall inform the Board staff if Respondent fails to abide by any term of his monitoring contract. **The monitoring entity shall ensure that the contract entered into by Respondent is appropriate given his evaluation. The contract shall be Board-mandated and non-confidential.**

3. **The PROBATION** is subject to the following conditions:

a. Respondent shall establish himself with a sleep specialist, a psychiatrist and a psychologist and follow all recommendations. Each of those professionals shall report to the contracted monitoring entity on treatment recommendations and goals and the Respondent's progression toward each.

b. During the term of probation, Respondent shall not serve as a preceptor or as a Pharmacist-in-Charge.

c. Within five (5) years from the effective date of this Consent Agreement, Respondent shall complete 400 hours of community service approved by the entity with which Respondent contracted to oversee his treatment, rehabilitation and monitoring. The community service performed by Respondent must be altruistic in nature and not serve any of Respondent's personal goals or obligations. Respondent shall ensure that all entities to which he provides community service verify in writing to the monitoring entity the number of hours completed within 30 days of Respondent completing the community service.

d. Respondent shall pay all necessary fees and expenses relating to this probation, including all costs associated with the treatment and monitoring contract.

e. Respondent shall furnish all pharmacy employers with a copy of this Board Order throughout the term of his probation. Respondent shall furnish an executed copy of this Consent Agreement within five (5) business days of

its effective date or within five (5) business days of starting a new position. Respondent shall ensure that all pharmacy employers submit to the Board a written acknowledgement that they have received a copy of this Consent Agreement within ten (10) days of entering into an employment relationship with Respondent or being provided a copy of this Consent Agreement and Order by Respondent.

f. Respondent shall advise the Board immediately of any change in pharmacy employment status throughout the term of his probation

g. Respondent shall furnish the Board with a list of all jurisdictions in which he maintains or has maintained licensure in the profession of pharmacy along with the registration numbers of said licenses.

h. Respondent shall obey all federal and state laws and rules governing the practice of pharmacy

i. Throughout the term of Respondent's probation, Respondent shall personally appear before the Board when requested to do so by the Board or Board staff.

j. Respondent shall execute all appropriate releases of information forms to permit the Respondent's treatment professionals to communicate with the Board regarding Respondent's treatment and monitoring.

k. Failure to comply with any provision of this Consent Agreement and Order is an act of unprofessional conduct pursuant to A.R.S. §32-1901.01(B)(20),which is violating a formal order, terms of probation, a consent agreement or a stipulation issued or entered into by the Board. **Such noncompliance shall result in the automatic surrender of Respondent's license. By entering into this Consent Agreement, Respondent waives his**

right to notice and a hearing as it relates to his violation of the Order and the resulting automatic surrender of his license.

l. Respondent shall appear before the Board at a regularly scheduled Board meeting five (5) years after the effective date of this Order to request that the probation imposed by this Order be terminated. Respondent's failure to petition the Board to terminate the probation shall extend the probation period.

m. **If, during the pendency of this matter, Respondent fails to renew his license, Respondent affirmatively agrees that that the license does not expire but rather shall be automatically voluntarily surrendered with no prior notice or opportunity for a hearing. Thereafter, should Respondent want to be licensed again in Arizona, Respondent shall submit a new application for licensure and meet all of the requirements that are set forth in statute and rule at the time the application is submitted, and shall provide sufficient proof that all of the requirements of this Order have been successfully completed. By entering into this Consent Agreement, Respondent waives his right to notice and a hearing as it relates to the automatic surrender of his license.**

BOARD ACCEPTS, SIGNS AND DATES THIS CONSENT AGREEMENT

Dated this 24th day of June, 2021.

Re: Daniel Hays

To whom it may concern,

This letter is offered as an endorsement of Daniel Hays who has been a participant in the Arizona Pharmacy Foundation's Professionals Assisting Professionals of Arizona (PAPA) Monitoring Program since March 2021.

He has been actively monitored by our program and is compliant with all program requirements which are highlighted below:

- Random urine drug screens (1/month).
- Attendance at a minimum of twelve support group meetings each month where attendance is tracked and monitored through a mobile GPS app.
- Monthly therapist progress summary report.
- Community Service (400 total hours).
- Semi-annual meeting with program staff and steering committee for accountability and assessment of program compliance.

If I can be of further assistance or provide more information, please feel free to reach out to me directly.

Sincerely,

Kelly L Fine

Remedial Plan				
Plaintiff/Defendant/Claimant/Respondent			Lawsuit/Arbitration/Bankruptcy	
Carrie Carda, MD				
Name of Business/Industry/Entity				

Provide explanation below:

To whom it may concern,

In December 2023, I agreed to a remedial plan with the Texas Board of Medicine resulting from a patient complaint made against an employee of an IV Bar to which I provide Medical Director supervision services.

The remedial plan is a non-reportable, non-disciplinary plan in which I agreed to successfully retake the Texas jurisprudence exam and complete 16 hours of continuing medical education in medical record keeping, delegation, risk management, and complimentary and alternative medicine within 12 months. I expect that this remedial plan will become effective in March 2024.

I have included the documents available to me regarding the remedial plan at this time.

Thank you,

Carrie Lynn Carda, MD

TEXAS MEDICAL BOARD

REMEDIAL PLAN
CARRIE LYNN CARDA, M.D.
LICENSE NO. Q9793

On the _____ day of _____, 2023, this matter came on to be heard before the Texas Medical Board (Board). On November 27, 2023, Respondent appeared at an Informal Show Compliance Proceeding and Settlement Conference (ISC) in response to a letter of invitation from the staff of the Board. This Remedial Plan was offered by Sherif Z. Zaafran, M.D., and Sharon J. Barnes, members of the Board. Michael Gilmour, J.D., represented Board Staff and prepared this Remedial Plan. Respondent was represented by Nadia Sheikh, J.D.

FINDINGS

Respondent failed to properly delegate to and adequately supervise the administration of intravenous medication to one patient, who developed complications thereafter. Respondent also aided and abetted the unlicensed practice of medicine, failed to first establish a proper professional relationship with the patient, and failed to maintain an adequate medical record.

Respondent does not admit or deny the Findings and Conclusions of Law contained herein but, rather, has agreed to settle in good faith to avoid the cost, expense, and uncertainty of litigation.

BOARD HISTORY

Respondent has not had a prior Order or Remedial Plan with the Board.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over the subject matter and Respondent pursuant to Medical Practice Act, Title 3, Subtitle B, Texas Occupations Code (Act).

2. Section 164.051(a)(6) of the Act, as further defined by Board Rule 190.8(1)(A), authorizes the Board to take action against Respondent.

3. Section 164.0015 of the Act authorizes the Board to resolve this matter with a Remedial Plan.

4. Section 164.002(d) of the Act provides that this Remedial Plan is a settlement agreement under the Texas Rules of Evidence for purposes of civil litigation.

REMEDIAL PLAN TERMS

Based on the above, Respondent shall:

1. Within one year following the date of the entry of this Order, Respondent shall take and pass with a score of 75 or above the Jurisprudence Examination (JP Exam) given by the Board. Respondent is allowed three attempts to successfully pass this examination.

Respondent's failure to take and pass the JP Exam within three attempts within one year following the date of the entry of this Order shall constitute a violation of this Agreed Order. After a committee of the Board or a panel of Board representatives (Board Representatives), has considered the information related to Respondent's violation of this provision and has determined that Respondent has not fulfilled the requirements of this provision, Respondent's license shall be **IMMEDIATELY SUSPENDED** pursuant to correspondence to Respondent from the Executive Director or Secretary-Treasurer of the Board indicating that Board Representatives have considered the information related to Respondent's violation of this provision and have determined that Respondent has not fulfilled the requirements of this provision. Although Respondent shall be invited to provide information or testimony to the Board Representatives, Respondent specifically waives any administrative due process under the Act, or the Administrative Procedure Act, for the Board Representatives to consider this information. **THIS SUSPENSION SHALL BE EFFECTIVE WITHOUT THE NEED FOR A HEARING AT THE STATE OFFICE OF ADMINISTRATIVE HEARINGS OR OTHER ADMINISTRATIVE DUE PROCESS UNDER THE ACT OR THE ADMINISTRATIVE PROCEDURE ACT, AND RESPONDENT SPECIFICALLY WAIVES ANY SUCH HEARING OR DUE PROCESS AND ALL RIGHTS OF APPEAL.** Respondent shall be notified of any suspension by certified mail, return receipt requested to Respondent's last known address on file with the Board. If

Respondent's license is suspended on such a basis, the suspension shall remain in effect until such time as Respondent takes and passes the JP Exam and subsequently appears before the Board in person and provides sufficient evidence which, in the discretion of the Board, is adequate to show that Respondent possesses the skills and knowledge to safely practice in Texas and is otherwise physically and mentally competent to resume the practice in this state.

2. Within one year following the date of the entry of this Remedial Plan, Respondent shall enroll in and successfully complete at least sixteen (16) hours of continuing medical education (CME) divided as follows: Four (4) hours in the topic medical recordkeeping; four (4) hours in the topic of delegation; four (4) hours in the topic of risk management; and four (4) hours in the topic of complimentary and alternative medicine. The CME shall be approved for Category I credits by the American Medical Association or the American Osteopathic Association and approved in writing in advance by the Executive Director or their designee. To obtain approval for the course, Respondent shall submit in writing to the Compliance Division of the Board information on the course, to include at least a reasonably detailed description of the course content and faculty, as well as the course location and dates of instruction. Respondent shall submit documentation of attendance and successful completion of this requirement to the Compliance Division of the Board on or before the expiration of the time limit set forth for completion of the course. The CME requirements set forth in this paragraph shall be in addition to all other CME required for licensure maintenance.

3. The cost of administering the Remedial Plan will be $500 per year. Payment of this cost is due no later than 60 days after the date of entry of this Remedial Plan. The cost shall be paid by cashier's check or money order payable to the Texas Medical Board and shall be submitted to the Executive Director for the Board for routing so as to be remitted to the Comptroller of Texas for deposit in the general revenue fund.

4. Respondent shall be permitted to supervise and delegate prescriptive authority to physician assistants and advanced practice nurses and to supervise surgical assistants.

5. The terms of this Remedial Plan are not subject to modification or early termination.

6. Respondent shall comply with all the provisions of the Act and other statutes regulating Respondent's practice.

7. Respondent shall fully cooperate with the Board attorneys, investigators, compliance officers, consultants, and other employees or agents of the Board in any way involved in investigation, review, or monitoring associated with Respondent's compliance with this Remedial Plan.

8. Any violation of the terms, conditions, or requirements of this Remedial Plan by Respondent shall constitute unprofessional conduct likely to deceive or defraud the public, or to injure the public, and shall constitute a basis for disciplinary action by the Board against Respondent pursuant to the Act.

9. This Remedial Plan shall automatically terminate upon Respondent's submission to the Board of evidence deemed to be sufficient by the Compliance Division of the Board that Respondent successfully completed the requirements set forth in the Remedial Plan Terms Paragraph Nos. 1, 2, and 3.

THIS REMEDIAL PLAN IS A PUBLIC RECORD.

THIS REMEDIAL PLAN IS NON-DISCIPLINARY.

(SIGNATURE PAGES FOLLOW)

I, CARRIE LYNN CARDA, M.D., HAVE READ AND UNDERSTAND THE FOREGOING REMEDIAL PLAN. I UNDERSTAND THAT BY SIGNING, I WAIVE CERTAIN RIGHTS. I SIGN IT VOLUNTARILY. I UNDERSTAND THIS REMEDIAL PLAN IS A FINAL, NON-APPEALABLE AGREEMENT THAT CONTAINS THE ENTIRE AGREEMENT AND THERE IS NO OTHER AGREEMENT OF ANY KIND, VERBAL, WRITTEN OR OTHERWISE.

CARRIE LYNN CARDA, M.D.
Respondent

ISC Hearing - Remedial Plan - TMB Matter

1 message

Sheikh, Nadia [redacted]
To: Carrie Carda [redacted]
Cc: Debra Phillips <debbiephillipswhs@gmail.com>

Hey Dr. Carda,

As promised, below is an overview for what the Panel laid out for the non-disciplinary remedial plan for you as it relates to the investigation:

1. The Texas Medical Jurisprudence Exam;
2. Continuing Medical Education (CMEs):
   a. 4 hours in medical record keeping and documentation
   b. 4 hours in proper delegation
   c. 4 hours in risk management
   d. 4 hours in complementary & alternative medicine in Texas
3. $ 500 administrative fee

The above must be completed within 1 year from the date the Remedial Plan goes into effect, which is the date the TMB signs off on it. From here, Michael Gilmour (staff attorney) will send o meeting to sign off on our plan. I will reach out once I get the formal Remedial Plan and we can go from there.

I will continue to work with you as the Remedial Plan is finalized and be more than happy to provide you with any documentation you may need moving forward. It truly has been such a pleas tough but we made it through and achieved our best case scenario!

Safe travels and I'll be in touch!

THOMPSON COE

This is in response to Question # 3 . **Provide all the following *where applicable*:**

Date of Event/Arrest	Disposition Date	State	City	County
June 2018	June 2018	OR	Portland	multnomah
Case # MD 23891		**Governing, licensing, Arresting Presiding Body/Agency/Court** Oregon Medical Board		
Reason/Charge Unproffessional conduct				
Plaintiff/Defendant/Claimant/Respondent Defendant			**Lawsuit/Arbitration/Bankruptcy** Lawsuit	
Name of Business/Industry/Entity State agency				

Provide explanation below:

Applicant (Murphy) was accused by the Oregon Medical Board of alleged unproffessional conduct, this resulted in the revocation of applicant's Oregon medical liciense.

The medical board complaint derived primarily from the alleged violation of confidentialialty of a female member's medical information that was contained in an investigative report that was introduced into court. The female member was the adverse party in a defamation lawsuit that the applicant filed as a miltary member regarding a fraudulent claim by the female member . (an alleged unauthorized cervical cancer screening exam).

The medical board found the member's claim unsubstaniated, however the board alleges that the member's privacy was violated (the female member had signed a HIPPA release for the information in the report).The board also alleged that the applicant provided false information on a 2013 renewal application , but did not on a 2015 application (in spite of the fact that both renewals had the exact same information in question) .

The Oregon Medical Board has never challanged the competency or patient care skills of the applicant. There have been no substance abuse or misuse allegations raised . The applicant has maintained board certification in Anesthesiology and has recently been issued a liciense in Nevada.

The applicant had been issued a unrestricted liciense in Nevada in the past (2004-2008) , liciense number 10812 , which expired while working out of state.

The agency order in Oregon, revoking the applicant's medical liciense, remains under appeal in the Oregon State court system.

Original Signature (electronic, copies or stamps not accepted) Date 3/25/2024

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

DECLARATION OF JOHN M. MANN

I, John Michael Mann declare that:

1) In 2016, while serving as interim chief and a presiding Administrative Law Judge (ALJ) for the Oregon Office of Administrative Hearings (OAH), I issued a ruling denying a recusal request filed by [redacted], in a case before the Oregon State Board for Nursing (ONB). The Board, following a hearing on merits, issued a final order to revoke her license. Ms Pulito appealed the Board's final order, claiming denial of her request for a different ALJ was an error and that the former OAR 471-060-0005 was 'invalid' because it did not impose a 'time limitation' within the scope of ORS 183.645, its authorizing statute. Because it lacked anticipated 'time limitations' to inform a party when to submit a request for change of ALJ, it created an inconsistency and a potential lack of fairness.

2) I am personally familiar with the factual and legal background and final disposition of the *Pulito v. Oregon State Board of Nursing, Or Sup Ct , 366 Or 612 (2020)* case. My ruling on the request for change of ALJ was invalidated by the State Supreme Court (July 2020) because of the inconsistency of time limitations.

3) Nurse Pulito's license was never revoked and the Supreme Court held;

The rule that the chief ALJ has established is OAR 471-060-0005, which provides, in part: " Every party and agency in a contested case is entitled to request a change of administrative law judge. *The first request of that party or agency shall be automatically granted."*

It follows that the final order of the board must be reversed, because the fairness of the proceedings *may* have been impaired when the chief ALJ relied on an invalid rule to deny licensee's request for a different ALJ, and because the board acted under an erroneous interpretation of law when it issued a final order that assumed the validity of that rule. (*Pulito v ONB , Or Sup Ct 366 Or 612 (2020) p 627*)

4) On June 13, 2017, while serving as the interim chief ALJ for the OAH, I personally reassigned a contested case (involving James M. Murphy MD and the Oregon Medical Board) to myself , due to the unexpected unavailability of Senior ALJ Bernadette Bignon. ALJ Bignon had conducted a hearing, lasting several days, in July of 2016 but had not reconciled the record and was yet to issue a Proposed Final Order.

5) After learning that I had assumed responsibility for the case, Dr. Murphy, within hours, emailed a request for my recusal (a change in ALJ) and submitted a written request within a week to the retiring Chief ALJ. Dr. Murphy also requested a *de novo* hearing before a new ALJ. I denied the request for a de novo hearing because I did not believe that such a remedy was required under the Oregon Administrative Procedures Act. The Oregon Administrative Procedures Act is silent on situations where the tribunal becomes 'unavailable' after taking witness testimony where credibility is an issue.

6) Because I believed that it would have been improper for me to rule on a request to recuse myself from a hearing, I assigned Dr. Murphy's request to Presiding ALJ Donna Brann and instructed her to rule on the request in a neutral manner. I made no attempt to influence the outcome of the ruling. I do not recall the precise timing of Dr. Murphy's request for a change of ALJ, but I believe that it was made within a week or so from the time he learned that I was assigned to the case.

7) On July 7 2017, ALJ Brann denied Dr. Murphy's request to recuse me; determined it was 'untimely' under the standards of former OAR 471-060-0005. That same rule was subsequently found to be invalid by the Oregon Supreme Court in *Pulito v. ONB* in July 2020 resulting in a reversal of the ONB's final order for revocation.

8) Following ALJ Brann's ruling, I subsequently reviewed the entire record of Dr. Murphy's case, including all admitted exhibits and the entire hearing transcript. I did not consult with ALJ Bignon regarding the case. I later issued a Proposed Final Order based on that review with no input from ALJ Bignon.

9) It is my understanding that the Oregon Medical Board adopted my Proposed Final Order and in June of 2018, the Board revoked Dr. Murphy's medical license and imposed a civil penalty of $10,000 plus an additional penalty of $ 112,140.63 for the costs of the proceeding.

10) In light of the unusual procedural history of Dr. Murphy's case, and in light of the State Supreme Court ruling in *Pulito v. Oregon State Board of Nursing (2020)*, I believe it would be equitable for the 2018 final order in Dr. Murphy's case before the Oregon Medical Board to be set aside and the revocation of his license reversed. It would also be equitable for the Oregon Medical Board to consider either dismissing the matter or to allow Dr. Murphy a *de novo* hearing before a new ALJ.

11) Dr. Murphy has provided me with documentation indicating that the USAF/ Oregon ANG had changed the characterization of his discharge status to 'Honorable' in 2021. There is no question that the nexus of Dr Murphy's issues with the Oregon Medical Board arose from what I determined to be an unsubstantiated allegation during his service to the Oregon Air National Guard.

12) Dr Murphy has also provided documentation which strongly suggests that he did not violate a circuit court protective order, did not commit perjury , did not inappropriately divulge a professional or patient's secret, and did not commit fraud in connection with the renewal of his license. If Dr. Murphy is provided a new hearing, it is probable that another ALJ would rule in his favor on these issues and re-evaluate the licensee's conduct in light of the findings of more recent military actions.

13) I have personal knowledge of, and I am competent to testify to the facts contained herein. I hearby declare that the above statements are true to the best of my knowledge and belief, and I understand they could be used as evidence in a court of law and are subject to penalty of perjury.

Signed and Dated _____th day of April 2024

/s/ John M. Mann

BEFORE THE

OREGON MEDICAL BOARD

STATE OF OREGON

IN THE MATTER OF:	)	
	)	**FINAL ORDER UPON**
JAMES MICHAEL MURPHY, MD	)	**RECONSIDERATION**
LICENSE NO. MD23891	)	

HISTORY OF THE CASE

On August 10, 2015, the Oregon Medical Board (Board) issued a Complaint & Notice of Proposed Disciplinary Action (Notice) to James Michael Murphy, MD. The Notice proposed imposing up to the maximum range of potential sanctions identified in ORS 677.205(2), to include the revocation of Dr. Murphy's license, to impose a $10,000 fine, and to assess the costs of the proceeding. On or about August 16, 2015, Licensee requested a hearing. The Board referred the matter to the Office of Administrative Hearings (OAH) on September 21, 2015. The OAH assigned the case to Senior Administrative Law Judge (ALJ) Bernadette Bignon.

ALJ Bignon convened a telephone prehearing conference on October 29, 2015. Attorney Thomas Cooney represented Licensee. Senior Assistant Attorney General Warren Foote represented the Board. ALJ Bignon scheduled the hearing for March 14 through 17, 2016.

On November 4, 2015, the Board filed a Motion for a Qualified Protective Order. Mr. Cooney responded to the Board's Motion for a Qualified Protective Order on November 13, 2015. On November 18, 2015, ALJ Bignon issued a Qualified Protective Order Limiting Use and Disclosure.

On January 15, 2016, the Board filed a Motion for Summary Determination (Board's Motion) with supporting documents marked as Attachments A through K. On February 10, 2016, Mr. Cooney filed a Response to the Board's Motion for Summary Determination (Response) with a supporting affidavit and Exhibit 1. In his Response, Mr. Cooney indicated that he would be withdrawing as attorney of record in this matter, but would remain available for any oral argument on the Board's Motion.

On February 12, 2016, Licensee filed a Motion for Summary Determination (Licensee's Motion). Between February 12 and 15, 2016, Licensee also filed supporting exhibits, a certificate of mailing, and an exhibit key.

Thereafter, the OAH assigned the matter to Senior ALJ Monica A. Whitaker for purposes of ruling on the Board's Motion and Licensee's Motion.

///

On February 22, 2016, ALJ Whitaker convened a telephone conference for purposes of hearing oral argument on the Board's Motion. Mr. Foote represented the Board. Mr. Cooney represented Licensee. Licensee did not appear. As advised in his filings of February 10, 2016 on behalf of Licensee, Mr. Cooney's withdrawal from representing Licensee became effective at the close of oral argument on February 22, 2016. Licensee proceeded *pro se*.

On February 23, 2016, in response to Licensee's Motion, the Board filed its Response to Motion for Summary Determination (Board's Response). Also on February 23, 2016, Licensee filed a request for oral argument. On February 24, 2016, ALJ Whitaker denied Dr. Murphy's request. On February 25, 2016, ALJ Whitaker issued a Ruling on Board's Motion for Summary Determination and Respondent's Motion for Summary Determination. ALJ Whitaker denied both the Board's Motion for Summary Determination and Licensee's Motion for Summary Determination. The matter remained scheduled for hearing on March 14 through March 17, 2016.

On February 26, 2016, the Board issued an Amended Complaint and Notice of Proposed Disciplinary Action (Amended Notice). As with the original Notice, the Amended Notice proposed imposing up to the maximum range of potential sanctions identified in ORS 677.205(2), to include the revocation of Dr. Murphy's license, to impose a $10,000 fine, and to assess the costs of the proceeding. The Amended Notice reiterated the allegations contained in the original Notice, but added an allegation that Dr. Murphy had engaged in a pattern of belligerent and obstructive behavior which, the Board alleged, amounted to unprofessional or dishonorable conduct under ORS 677.190(1)(a).

On February 26, 2016, Dr. Murphy filed a request to postpone the hearing. The Board also informed ALJ Bignon that it had received a copy of Dr. Murphy's request to postpone the hearing. Although the Board did not object to the request, the Board requested a prehearing conference to select new hearing dates.

On February 29, 2016, ALJ Bignon granted Dr. Murphy's request, unopposed by the Board, to postpone the hearing. On March 2, 2016, ALJ Bignon held a prehearing conference by telephone. Mr. Foote, accompanied by Eric Brown and Michelle Provinsal, represented the Board. Dr. Murphy appeared and represented himself. The hearing was rescheduled to be held July 12 through July 15, 2016 at the Board's offices in Portland.

On June 29, 2016, the Board issued a Second Amended Complaint and Notice of Proposed Disciplinary Action (Second Amended Notice). The Second Amended Notice, as with the Amended Notice, proposed imposing up to the maximum range of potential sanctions identified in ORS 677.205(2), to include the revocation of Dr. Murphy's license, to impose a $10,000 fine, and to assess the costs of the proceeding. The Second Amended Notice removed an allegation that Dr. Murphy had failed to provide fingerprints, as requested by the Board, and some corrections and clarifications of citation to statutes and administrative rules.

A hearing was held July 12 through July 15, 2016 at the Board's offices in Portland, Oregon. Dr. Murphy appeared without counsel and testified on his own behalf. The Board was represented by Mr. Foote. Dr. Murphy presented testimony from William Powell, Colonel

Heidi Kjos, Colonel Thomas Patton, Roger Ludwig, MD, David Kim, MD, Karen Kwong, MD, Patrick O'Leary, Steve Cullen, MD, Captain Taylor Vice, MD, Senior Master Sergeant Vaughn Rains, Kathleen Haley (Board Executive Director), and Terry Lewis (Board investigator). The Board presented testimony from Colonel Marshall Wilde, Kathryne Gilbert, Patient A, Laura Mazzucco (Board Executive Support Specialist), Terry Lewis, Colonel Richard Wedan, Barry Egener, MD, Technical Sergeant Rachel Albright, Joseph Thaler, MD, and John Sparks. The record closed on September 7, 2016 following receipt of closing briefs from the parties.

On June 13, 2017, Presiding ALJ John Mann informed the parties that ALJ Bignon was unexpectedly unavailable to complete the proposed order in this case. Presiding ALJ Mann therefore informed the parties that he had reassigned the case to himself and would review the record and issue a proposed order.

On June 21, 2016, Dr. Murphy, pursuant to ORS 183.645 and OAR 471-060-0005(3), filed a request for a change in the administrative law judge assigned to the case with then-Chief ALJ Gary Tyler. However, due to Chief ALJ Tyler's retirement and absence from the office beginning June 23, 2017, Governor Brown appointed Presiding ALJ Mann to serve as Interim Chief ALJ, pending the appointment of a permanent Chief ALJ. Given his new role, Interim Chief ALJ Mann determined that it would be inappropriate for him to rule on the motion and therefore delegated it to Presiding ALJ Donna Moursund Brann for a ruling. On June 28, 2017, the Board, through Mr. Foote, submitted an objection to Dr. Murphy's request. Later on June 28, 2017, Dr. Murphy submitted a response to the objection.

On July 7, 2017, Presiding ALJ Brann issued a ruling denying Dr. Murphy's request to reassign the case. Interim Chief ALJ Mann then took the matter under advisement, completed his review of the record, and issued a proposed order on September 6, 2017 finding and recommending:

(1) The Board did not prove the following allegations by a preponderance of the evidence:

- Conducting an unauthorized pap smear;
- Unprofessional or dishonorable conduct or willful violation of ORS chapter 677 by failing to comply with a board request, for the incorrect information Dr. Murphy provided on his license application;
- Violations of HIPAA;
- Impersonating a Board licensee.

(2) The Board did prove the following allegations by a preponderance of the evidence:

- Dr. Murphy violated ORS 677.190(8) by providing false information on his October 29, 2013 renewal application;
- Dr. Murphy violated ORS 677.190(1)(a), committing unprofessional and dishonorable conduct by submitting a declaration to the Multnomah County Circuit Court, alleging the United States National Guard Office of Complex Investigations (OCI) investigation found the allegations against him unsubstantiated when, in fact, the OCI investigation found they were substantiated;
- Dr. Murphy violated ORS 677.190(5) by willfully divulging a professional secret without the patient's consent, by publicly divulging Patient A's private health information and

confidential medical records without Patient A's consent;

- Dr. Murphy also thereby violated ORS 677.190(1)(a), committing unprofessional and dishonorable conduct;
- Dr. Murphy violated ORS 677.190(17) by refusing to comply with a Board investigator's request for documentation;
- Dr. Murphy violated ORS 677.190(1)(a), committing unprofessional and dishonorable conduct by asking witnesses not to cooperate with the Board's investigation, to impede such investigation;
- Dr. Murphy violated ORS 677.190(1)(a), as defined in ORS 677.188(4)(a), committing unprofessional and dishonorable conduct by belittling a patient, mocking his colleagues and Board staff, and making public comments (including to a reporter) that detracted from public trust in the medical community.

(3) For the violations the Board proved by a preponderance of the evidence, the Board should revoke Dr. Murphy's medical license, assess a civil penalty of $10,000 against him, and assess the costs of the proceeding ($112,140.62) against him.

Dr. Murphy timely filed written exceptions[1], was scheduled to present oral exceptions on October 5, 2017, but ultimately did not appear to present oral exceptions, reporting that he had developed a scheduling conflict. The Board has considered Dr. Murphy's exceptions, to the extent they did not attempt to introduce new facts or evidence, or advance arguments on facts or evidence not in the record, and finds they are without merit.

On March 2, 2018, the Board issued a Final Order adopting the findings of fact and conclusions of law in the Proposed Order by ALJ Mann, and ordered the revocation of Dr. Murphy's Oregon medical license, as well as an assessment of a $10,000 civil penalty and the costs of the proceeding against Dr. Murphy. On or about April 27, 2018, Dr. Murphy petitioned the Oregon Court of Appeals for judicial review of the Final Order and, on May 3, 2018, the Board voted to withdraw its final order for reconsideration, to consider the bill of costs in the case. On May 7, 2018, the Board issued a bill of costs to Dr. Murphy with the right to present exceptions, which Dr. Murphy timely presented. The Board has considered Dr. Murphy's additional exceptions, to the extent they did not attempt to introduce new facts or evidence or advance arguments on facts or evidence not in the record, and finds that these exceptions are also without merit.

EX PARTE COMMUNICATIONS

Between July 11 and August 17, 2017, Dr. Murphy sent multiple unsolicited emails to ALJ Mann that were not sent to Mr. Foote or to the Board. ALJ Mann did not read nor respond to the emails and did not consider their content in reaching the decision in this case. However, because the emails were clear attempts at ex parte communications, the emails have been made part of the record and will be sent to the parties under separate cover[2].

[1] Dr. Murphy attempted to file additional exceptions multiple times after the window for filing exceptions had closed on September 16, 2017, but the Board considered only the exceptions timely filed.

[2] Although Dr. Murphy's ex parte communications were made part of the record, they were not made part of the evidentiary record and were not, therefore, considered.

ISSUES

1. Whether Dr. Murphy engaged in unprofessional conduct, in violation of ORS 677.190(1)(a), as defined by ORS 677.188(4)(a), and/or conduct that does or might constitute a danger to a patient and gross negligence, in violation of ORS 677.190(13), by performing an unauthorized Pap smear on a patient on November 19, 2011.

2. Whether Dr. Murphy provided false, misleading, and deceptive information in connection with his October 29, 2013 application to renew his medical license by stating that his highest level of education was an associate's degree and that he could speak and understand Quechua sufficiently to communicate for clinical purposes in violation of OAR 847-008-0058, ORS 677.190(8) and/or ORS 677.190(1)(a) and (17).

3. Whether Dr. Murphy acted in a manner contrary to recognized standards of ethics of the medical profession, in violation of ORS 677.190(1)(a) as defined by ORS 677.188(4)(a), by filing a false or misleading declaration in connection with a proceeding in Multnomah County Circuit Court.

4. Whether Dr. Murphy, or individuals acting on his behalf, disclosed private health information and confidential medical records of a patient in violation of HIPAA privacy regulations (45 CFR 164.502), ORS 677.190(5) and/or ORS 677.190(1)(a), as defined by ORS 677.188(4)(a).

5. Whether Dr. Murphy violated ORS 677.080(3) and ORS 677.190(10) by calling a nurse supervisor at Tuality Healthcare in 2015 while representing himself by the name of "Dr. Hanson."

6. Whether Dr. Murphy violated ORS 677.190(17) and OAR 847-001-0024(1) by failing to comply with a Board investigator's request for medical records in connection with an investigation into Dr. Murphy's alleged prescribing of controlled substances to two patients.

7. Whether Dr. Murphy violated ORS 677.190(1)(a) as defined by ORS 677.188(4)(a) by asking individuals not to cooperate with the Board's investigation thereby impeding that investigation.

8. Whether Dr. Murphy engaged in a pattern of belligerent and obstructive behavior during the course of the Board's investigation and, if so, whether that pattern of behavior constitutes unprofessional or dishonorable conduct in violation of ORS 677.190(1)(a) as defined by ORS 677.188(4)(a).

9. If one or more violations are proven, whether the Board may revoke Dr. Murphy's Oregon medical license, assess a $10,000 civil penalty, and assess the costs of the proceedings. ORS 677.205(1) and (2).

EVIDENTIARY RULINGS

The Board offered Exhibits A1 through A57, which were admitted into the record without objection.

Dr. Murphy offered exhibits marked with letters A through W. Dr. Murphy's Exhibits A1 through A4 therefore are marked similar to the Board's Exhibits. To avoid confusion, those exhibits are now marked for the records as Exhibits L-A1 through L-A4. The remainder of Dr. Murphy's Exhibits are marked using their original designations.

///

Dr. Murphy's Exhibits L-A1 through L-A4, D1 through D5, E2, F1 through F3, F5 (page 1 only), G1 through G3, H1 through H2, J2 through J5, K1, MC2 through MC6, R1 through R6, S1, T, and W2, W3 and W5 were admitted into the record without objection.

The Board's objections to Dr. Murphy's Exhibits B1 through B4, C1 through C6, E1, F5 (page 2), J1, K2 through K5, L1, M1 through M4, MC1, P1, P2, and U2 were sustained and the exhibits were not admitted into the record.

Dr. Murphy withdrew Exhibits E3, F4, G4, I1 through I4, N1, Q1, U1, V1 through V4, and W1.

FINDINGS OF FACT

(1) Dr. Murphy graduated medical school in 1996. He completed his anesthesiology residency in 2002. Dr. Murphy also completed a year of family practice as a resident, and two years of residency in general surgery. (Ex. A27 at 392)

2013 License Renewal Application

(2) Board licensees are required to submit a license renewal application every two years. Initial and renewal applications may be submitted on-line. In October 2013, Laura Mazzucco, a Board Executive Support Specialist, was responsible for reviewing renewal applications for completion. (Test. of Mazzucco, tr. at 194; Ex. A36 at 1-4.)

(3) On October 29, 2013, Dr. Murphy submitted an on-line application for renewal of his medical license. (Test. of Mazzucco, tr. at 194; Ex. A36a at 1-11.) Dr. Murphy completed the question "Highest Level of Education" by selecting "Associate Degree" from a drop-down menu. Dr. Murphy indicated that he was not currently practicing medicine and that his future plans included "Leaving the field (with intention to work in another field)." (Test. of Mazzucco, tr. at 194-195, 204-206; Ex. A36a at 1, 4, 5.)

(4) Dr. Murphy earned an Associate of Science degree in nursing on January 17, 1990. (Ex. G3.)

(5) The renewal application also includes the following question: "Please enter Language(s), other than English, in which you can communicate adequately for clinical purposes." Underneath the question, Dr. Murphy entered "Quechua" in a box for "Other Language 1." (Test. of Mazzucco at 195; Ex. A36a at 1.) Immediately below the language selection tabs, applicants are informed that "The Board may make language information available to those who are seeking providers with specific language competencies." (Test. of Mazzucco, tr. at 196, 202, 204-205; Ex. A36b at 4.)

(6) At the time he completed his renewal application, Dr. Murphy was not fluent in Quechua. Dr. Murphy knew a few words in Quechua that he learned from a computer language program that he used on a single flight to Ecuador and from being around native speakers of the language while volunteering in Ecuador. (Test. of Murphy, tr. at 1329-1335.)

(7) Ms. Mazzucco forwarded Dr. Murphy's renewal application to the Board's investigations unit because his practice address needed to be verified and because she believed other information in the renewal application was questionable. (Test. of Mazzucco, tr. at 198.) Ms. Mazzucco did not have authority to reject an application if the application was complete on its face. (Ex. A36 at 3-4.)

(8) The Board initially placed Dr. Murphy's license in inactive status because his renewal application indicated that he was not currently practicing medicine and that he intended to leave the field. In addition, Dr. Murphy's renewal form showed "zero" number of hospital and non-hospital hours and listed no other activities related to his practice. (Test. of Mazzucco, tr. at 199, 206-207; Exs. A36a at 4, A36c at 11.) His license was subsequently returned to active status after he informed the Board that he was practicing medicine with the military. (Ex. W3.)

(9) On August 27, 2015, Dr. Murphy sent an email to Ms. Mazzucco and several other Board employees to address the answers he gave on his October 29, 2013 renewal application. In that email, Dr. Murphy wrote, in part:

a. Quechua is my primary spoken language when I am doing medical work in the Andes – only I must have originally started out filing the renewal when I was in Equator [*sic*] or Peru – can you make that correction or just put an asterisk by my answer for me. English is the answer I believe is on my initial application – I assumed that would be referenced if there were any questions and you would have called me to clarify.

b. The highest 'grade/degree * * * that I graduated from was: college or an off shore med school - but I don't really think that is totally accurate – I just

took about 12 years to complete the BA and MD – life got in the way and I had to earn a living. So again - junior college is really where I stopped collecting degrees and went to work full time and did the school / training part time from that point forward[.]

(Test. of Mazzucco; Ex. A36c at 1-2.)

(10) Patient A is a female who at all times relevant to this decision was an active member of the Oregon Air National Guard (ORANG). (Test. of Patient A, tr. at 137.)

(11) On November 19, 2011, Patient A reported to the ORANG 142nd Medical Group facility for a preventative health assessment (PHA). She was examined by Dr. Murphy. (Test. of Patient A, tr. at 138; Ex. A4 at 2-3.) Dr. Murphy completed a Chronological Record of Medical Care form documenting the examination. (Ex. A1.) Under a section labeled "Provider Exam," Dr. Murphy wrote "No medical issues." (*Id.* at 1.) The form contains no indication that a gynecological examination was performed in connection with the PHA. (*Id.*)

(12) In early December 2013, Patient A attended an Air National Guard training session in Tennessee. (Test. of Patient A, tr. at 141; Exs. A9 at 37, A27 at 124). Technical Sergeant (TSgt.) Rachel Albright, from the 142nd Medical group, also attended the training. Prior to the training, TSgt. Albright was casually acquainted with Patient A from working on the base but they were not friends. (Test. of Albright, tr. at 487-488; Exs. A9 at 9 and 31, A27 at 124, 200 and 202; Test. of Patient A, tr. at 142.)

(13) One evening, while discussing people from work with Patient A, TSgt. Albright mentioned Dr. Murphy's name among the flight surgeons with whom she worked. Patient A immediately commented that Dr. Murphy was "weird." (Test. of Albright, tr. at 489; Exs. A9 at 10, A27 at 207.) TSgt. Albright asked Patient A why she would say that. (Test. of Albright, tr. at 489; Exs. A9 at 10, A27 at 206.) Patient A told TSgt. Albright that she felt awkward and embarrassed when Dr. Murphy asked her if she needed a chaperone when he performed a Pap smear on her in connection with a PHA. (Test. of Albright, tr. at 489; Exs. A9 at 10, A27 at 206.)

(14) TSgt. Albright asked Patient A why she had a Pap smear on the base because those were not done during PHAs. Patient A insisted that such procedures were performed because she had one. (Test. of Albright, tr. at 489-90.) TSgt. Albright showed Patient A Dr. Murphy's picture on Facebook to make sure Patient A was not mistaken in identifying Dr. Murphy as the doctor who performed her 2011 PHA. (Exs. A9 at 70, A27 at 203.) Patient A confirmed that she was referring to the same person that TSgt. Albright showed her on Facebook. (*Id.*)

///

(15) After hearing TSgt. Albright say that such exams were not done at the clinic, Patient A appeared to be angry and upset. (Test. of Albright, tr. at 490, A27 at 207.) TSgt. Albright agreed to call the head medical technician at the base, to see if Patient A's chart notes documented the Pap exam during the 2011 PHA. (Test. of Albright, tr. at 490-491, test. of Patient A, tr. at 143-144; Ex. A9 at 38, 76.)

(16) TSgt. Albright called Master Sergeant (MSgt.) Brian Frederick, the head medical technician at the 142nd Air Group facility, that same night and asked whether or not PAP smears were done at the base medical clinic. MSgt. Frederick told her that the clinic had not done them for a while. (Test. of Albright, tr. at 490-91; Exs. A9 at 76, A27 at 266-267.) TSgt. Albright explained that Patient A said that she had been given a Pap smear during her five-year PHA and wanted someone to look at her records to verify if it was documented. (Test. of Albright, tr. at 490-491, test. of Patient A, tr. at 143-144; Ex. A9 at 38, 76.) MSgt. Frederick told TSgt. Albright that he would look at Patient A's records, but later realized he could not do so without Patient A's consent. (Ex. A27 at 267.)

(17) On December 7, 2013, TSgt. Albright sent a text to MSgt. Frederick stating that Patient A was "freaking out" and needed to know what was in her medical records. (Exs. A9 at 76, A27 at 267.) MSgt. Frederick told TSgt. Albright he could not talk to her about the record but that he could talk directly to Patient A if she completed and returned a signed release. MSgt. Frederick told her to have the patient contact him the next day and he could send her the necessary release so that he could talk to Patient A about her records. (Test. of Albright, tr. at 490-491; Exs. A9 at 31, A27 at 208-209, 267-268.)

(18) The following morning, December 7, 2013, Patient A received, signed and returned a release to allow MSgt. Frederick to look at her records. (Test. of Patient A, tr. at 144; Ex. A4 at 5.) MSgt. Frederick reviewed Patient A's records and verified that Dr. Murphy had performed a PHA on Patient A in November 2011, but there was no documentation of a Pap smear. (Exs. A9 at 76, A27 at 266-269.) MSgt. Frederick later spoke with Patient A on the phone and told her what he had learned. MSgt. Frederick thought that Patient A was shocked by his answer. MSgt. Frederick asked if she intended to pursue the matter. Patient A replied with something like "Hell, yes, I don't want him to do this to anybody else." (Ex. A27 at 270.) MSgt. Frederick informed Patient A that he had asked about her intent because he needed to take her allegations to his commander. (*Id.*)

(19) MSgt. Frederick later reported the allegation to Colonel (Col.) Heidi Kjos, the ORANG Medical Group Commander. (Test. of Kjos, tr. at 771-772.) Col. Kjos called Patient A to discuss the allegation. Patient A, who sounded tearful on the phone, told her that Dr. Murphy had conducted a Pap smear on her in connection with a PHA "a couple years ago." (Test. of Kjos, tr. at 773-774.) Patient A apologized for not coming forward sooner, but said that she did not realize that it was unusual to get a Pap smear. When Col. Kjos asked if Dr. Murphy had used a speculum, Patient A stated that she did not know "the tools" but confirmed there had been penetration. (*Id.* at 774.) Col. Kjos asked Patient A

to put her allegation in writing and to send it to her via email. (Test. of Patient A, tr. at 145; test. of Kjos, tr. at 775).

(20) On December 8, 2013 at 12:05 p.m., Patient A emailed a written statement outlining her allegation. The statement included a description of a brief social interaction that Patient A had with Dr. Murphy and other people from the base in December 2010. (Ex. A9 at 37, 40.) With regard to the events of November 19, 2011, Patient A wrote:

> I had an appointment at the clinic on drill weekend. I believe it was for my 5 year physical. Dr. Murphy was my provider. During the appointment, he asked me when the last time I had a Pap smear. I told him it was before I had my son, who was born [in] January 2009. He said that I needed one. I felt uncomfortable since I knew him but said ok anyways. He then said "You don't need a female in here, do you?" I remember the exact phrase because of the way it made me feel. I felt obligated to say no, giv[en] the fact that we had a social interaction almost a year prior. Also the way he asked me made me feel that if I said yes, there was something wrong with me.
>
> He proceeded to do the pap. I was extremely uncomfortable and felt this situation was odd. Afterwards, I told Tess Jaeger about it and she told me she didn't think that our base does those. But I told her, yes they do, Maj. Murphy just did one. She also thought it was weird that he was the one doing it, considering the prior social interaction. I also told my husband about it and told him how weird and uncomfortable it was because I knew the[] doctor.

(Ex. A9 at 37.)

(21) Patient A remained visibly upset and emotional during the remainder of the training. (Test. of Albright, tr. at 492; Ex. A9 at 72.)

(22) Following her conversation with Patient A, Col. Kjos called her supervisor, Col. Richard Wedan[3] and told him about Patient A's complaint. Afterward, Col. Kjos and MSgt. Frederick met with Col. Wedan. (Test. of Kjos, tr. at 786; test of Wedan, tr. at 368-360.) Because the nature of the complaint was out of the ordinary, Wedan called in his leadership team and legal staff for the meeting with Col. Kjos and MSgt. Frederick. (Test. of Wedan, tr. at 369-370, Ex. A27 at 336-337.) MSgt. Frederick and Col. Kjos briefed the group on the situation. (Test. of Wedan, tr. at 369-370; Ex. A27 at 336-337.)

(23) After the meeting, Wedan elected to refer the matter to the National Guard's Office of Complex Investigations (OCI). The OCI was formed in response to increased public scrutiny and dissatisfaction with military investigations in which

[3] Col. Richard Wedan was, at that time, the 142nd Fighter Wing Commander, Oregon Air National Guard. (Test. of Wedan, tr. at 367.)

there were reports that findings adverse to the military had sometimes been overturned by higher level command. (Test. of Wedan, tr. at 371-373; Ex. A29 at 338-339.)

(24) On December 8, 2013, Col. Kjos met with Dr. Murphy and informed him that a patient had filed a complaint alleging that Dr. Murphy had performed a Pap smear, an inappropriate medical examination, during a PHA, and that Dr. Murphy had failed to document it in Patient A's chart. (Exs. A9 at 48, 64, A27 at 398-399.)

(25) During the December 8, 2013 meeting, Col. Kjos gave Dr. Murphy a written memorandum explaining that the ORANG was initiating a Command Directed Investigation (CDI) into the allegations. (Exs. A5, A27 at 399.) In that memorandum, Col. Kjos informed Dr. Murphy that he was prohibited from performing unchaperoned physicals while the CDI was pending and that he was prohibited from retaliating against anyone who had made a complaint or who was involved in an investigation. The memorandum also advised Dr. Murphy not to discuss any matter related to the investigation or the underlying facts of the complaint with anyone other than his counsel. The memorandum also provided the name and telephone number of military defense counsel Major Michael Adams, who Dr. Murphy could contact once the CDI was formally initiated.[4] (Ex. A5.)

(26) Dr. Murphy was angry about the allegation and denied having performed a Pap smear on Patient A as alleged. (Exs. A9 at 48, A27 at 399.)

(27) Patient A returned to the base immediately after training. TSgt. Albright returned several days later. (Ex. A27 at 155-56.) After TSgt. Albright returned to the base, Patient A asked if she would be willing to come with her to look at exam rooms to see if it would help her with the memory of what had happened. Patient A and TSgt. Albright entered a room and found gynecological equipment in a drawer under the exam table. The equipment looked old and dirty. Patient A told TSgt. Albright that Dr. Murphy had examined her in that room. (Test. of Albright; tr. at 493-495.) After discovering the equipment, Patient A asked that it be collected and taken for DNA testing. (Ex. A9 at 71.) The equipment was collected; however the lab that examined it found insufficient DNA for analysis. (Ex. A17 at3.)

(28) The exam room where Patient A and TSgt. Albright found the equipment was normally used by Col. Kjos. On November 19, 2011, Col. Kjos was scheduled to see a patient at 11:00 a.m. Dr. Murphy was scheduled to examine Patient A at 10:30 a.m. (Ex. MC6.)

[4] At the time the memorandum was issued, Major Adams was in a defense counsel position with the ORANG, however Major Adams and Dr. Murphy did not form an attorney – client relationship. In fact, Major Adams immediately asked his supervisor to have someone else assigned to represent Dr. Murphy, as Major Adams had just finished training to be the victim rights coordinator for the region, and was subsequently assigned to Patient A.

(29) On December 30, 2013, Dr. Murphy went to the Board offices and spoke with Board investigator Terry Lewis. Dr. Murphy told Mr. Lewis about Patient A's allegation and that the military was investigating the matter. (Ex. A6.) Dr. Murphy emailed Mr. Lewis and Eric Brown (another Board investigator) to notify them that the military's investigation would take longer than he expected. He also provided the Board investigators with the name and contact number of his military legal counsel, Col. Thomas Patton. (Ex. A8.)

(30) In early January 2014, Dr. Murphy met with Col. Wedan to discuss the investigation. Col. Wedan recalls that Dr. Murphy thought that the investigation should be conducted locally, rather than by OCI. Col. Wedan explained that he believed it was best to have it conducted by OCI to ensure that the investigation was professional and unbiased. (Test. of Wedan; tr. at 378-79.) At one point in the conversation, Col. Wedan recalled that Dr. Murphy said something to the effect of "I just don't know why we will hang a guy out to dry for conducting a procedure that he didn't know he wasn't supposed to do." (*Id.;* tr. at 379.) The statement struck Col. Wedan as "odd;" he told three different people, including his attorney, about the statement and made a note of it. (*Id.)*

(31) OCI staff conducted an investigation in Portland from February 6 through 12, 2014. The team collected documentary evidence and interviewed 10 witnesses, including Patient A and Dr. Murphy. (Ex. A9 at 4.)

(32) OCI investigators interviewed Patient A on February 7, 2014. Patient A told investigators that during the November 19, 2011 PHA, Dr. Murphy asked her when she had her last Pap smear. She stated that after she told him that it had been over three years, he told her that one was due. Patient A told investigators that Dr. Murphy took her to another exam rooms and asked her "[Y]ou don't need a female in here, do you?" (Ex. A9 at 30.)

(33) Patient A told investigators that the Pap smear seemed to be a normal procedure except that she did not feel any pain as she had in previous exams. She told them that Dr. Murphy used instruments that were in the exam room and inserted something inside her, but she could not remember if he inserted his fingers or whether he wore gloves. She told the investigators that the exam lasted approximately 10-15 minutes and she never received lab results following the exam. (Ex. A9 at 30-31.)

(34) A summary of Patient A's interview also states:

> A few months after the Pap smear, the victim was talking to her friend, SSgt Tess Jaeger. She said to SSgt Jaeger, "I forgot to tell you. Guess who gave me a Pap smear? Maj Murphy did." * * * SSgt Jaeger told her that Pap smears are not performed at the base. The victim told her they were because she had one by the reported perpetrator.

(Ex. A9 at 31.)

(35) OCI investigators interviewed Staff Sergeant (SSgt.) Jaeger on February 9, 2014. A summary of that interview states:

> SSgt Jaeger became aware of the allegations four to five months ago when she and the victim were driving to lunch. * * * For reasons SSgt Jaeger cannot recall, the reported perpetrator's name was mentioned during their conversation. (SSgt Jaeger supposes the reported perpetrator may have called or dropped by the finance office earlier in the day.) The victim believed it awkward that, before the reported perpetrator performed a Pap smear on her during her five year physical health assessment (PHA), he stated "You don't need a female in here do you?" The victim then explained it was awkward because the way he "asked" the question made her feel as though she could not ask for a chaperone without appearing to mistrust the doctor. Therefore, she agreed to have the exam without a chaperone.
>
> SSgt Jaeger was surprised and confused when she heard that a doctor on base performed a Pap exam. She wondered why the victim would agree to this exam since the medical clinic does not perform Pap exams. SSgt Jaeger stated there would be no reason for a provider to perform a Pap exam because AGR members have their own civilian healthcare providers "for those exams."
>
> SSgt Jaeger told the victim she did not believe the base medical clinic was supposed to perform Pap exams. The victim seemed embarrassed, and the two even made jokes about it. However, because neither were medical professionals, they convinced themselves they did not know for sure. They did both agree that the incident was "creepy," "awkward," and "gross" particularly given the statement the doctor made about not having a chaperone in the room.

(Ex. A9 at 66-67.)

(36) On April 6, 2014, Colonel Kjos prepared a memorandum documenting the results of interviews with 25 women who had been examined by Dr. Murphy at ORANG over the previous four years.[5] All 25 women reported that they had not received a pelvic exam or a Pap smear at the clinic in the last five years. (Ex. A9 at 93.)

(37) The OCI issued a report on August 21, 2014. In a cover letter accompanying an executive summary of the report, Maj. Bayne C. Johnston, Acting Chief of OCI wrote, in part:

> **The investigative team determined the report of sexual assault is substantiated based on a preponderance of the evidence.** This finding is

[5] According to the memorandum, Dr. Murphy had examined a total of 30 women at ORANG during that period. Of the five women who were not interviewed, one had been transferred to another state, another one was retired, and ORANG was not able to contact the remaining three. (Ex. A9 at 93.)

> based upon the victim's credibility as demonstrated in the consistency of her recitation of the sexual assault to others, her physical and emotional reaction to the assault, her demeanor during her interview, the electronic communications provided by the victim and witnesses, the statements of witnesses as to their observations of the victim's behavior before and after the victim learned she had been purposefully assaulted, and the absence of any apparent reason for the victim to make a false allegation.

(Ex. A9 at 3; emphasis in original.)

(38) On September 6, 2014, Col. Marshall Wilde sent an email, accompanied by a copy of the OCI investigation as an attachment, to Col. Patton and to Patient A's military attorney, Maj. Michael Adams (who represented Patient A in the OCI investigation), to be reviewed with their respective clients. Col. Wilde's cover email included a set of orders from Brigadier General (Brig. Gen.) Michael Stencel, ORANG Commander, instructing Dr. Murphy and Patient A not to discuss the report or the matters it contained with witnesses listed in the report, except as required for preparation for any related disciplinary actions, for one year or until further ordered. Brig. Gen. Stencel also ordered that the matters contained in the report were for official use only (FOUO) and contained PII (personally identifiable information), not to be disclosed except for official purposes. (Ex. A15 at 1-2.)

(39) Later on September 6, 2014, Col. Patton, forwarded Col. Wilde's email to Dr. Murphy. (Ex. A15; test. of Patton, tr. at 900.) In a message accompanying the forwarded email, Col. Patton wrote, in part:

> I just got off the phone with Col. Wilde. Bad news: he said they found [Patient A's] accusation substantiated. He said they decided to believe her because she didn't have a motive to lie. I'll hopefully have it by tomorrow and I'll give you a call.

(Ex. A15 at 1; emphasis added.)

(40) Col. Patton received a copy of the report summary the following day. (Test. of Patton, tr. at 901.) Dr. Murphy later called Col. Patton to discuss the report, but specifically asked not to be provided a copy. (Test. of Patton, tr. at 860.) Col. Patton told Dr. Murphy that the OCI had found against him. (Test. of Patton, tr. at 902.) Dr. Murphy asked Col. Patton if OCI investigators had "substantiated" the allegations with any evidence. (Test. of Patton, tr. at 861.) Col. Patton told him that they had not. (Test. of Patton, tr. at 861.)

(41) On September 8, 2014, Dr. Murphy emailed Board investigators Eric Brown and Terry Lewis to inform them that OCI had issued its report. In that email, Dr. Murphy wrote (among other things):

> My understanding is that the OCI, after 9 mo[nths] of investigation, because they could not establish the patient's motive for the false allegation,

> concluded their report on the complaint as 'substantiated'. I have no idea why, because they could not establish a motive, they would therefore leap to the conclusion that her complaint was 'substantiated'.

(Ex. A16; quotations marks in original.)

Defamation Lawsuit

(42) On June 10, 2014, Dr. Murphy, acting without an attorney, filed a lawsuit in Multnomah County Circuit Court alleging that Patient A had defamed him by bringing what he asserted was a false allegation that he had performed a Pap smear on her in November 2011. The lawsuit sought $300,000 in damages, plus court costs and legal fees. (Ex. A12.)

(43) Sometime in June or July of 2014, Dr. Murphy contacted an Oregonian Reporter, Maxine Bernstein, to see if she was interested in writing an article about false allegations in the military. Dr. Murphy spoke to Ms. Bernstein by phone approximately two or three times about the issue. (Test. of Murphy, tr. at 1318-1320.)

(44) On September 14, 2014, Patient A's civilian defense attorney, Joel Shapiro, filed a Special Motion to Strike Pursuant to ORS 31.150, a statute that permits a court to dismiss a civil action that arises out of statements made in the context of certain legislative, executive or judicial proceedings. (Ex. A14.)

(45) On October 3, 2014, Dr. Murphy filed Plaintiff's Response to Defendant's Special Motion to Strike Pursuant to ORS 31.150. (Ex. A18.) Within the response, Dr. Murphy wrote (among other things): "Since the complaint was filed, a 10 month investigation ensued which determined that there was no evidence to support the accusation." (*Id.* at 3.) He also wrote:

> Plaintiff can show that an extensive ten month long investigation conducted by the Washington DC based ORANG Office of Complex Investigations found *no* evidence to support Defendant's claims and stated that Defendant's claims were completely unsubstantiated.

(*Id.* at 4; emphasis in original.) Dr. Murphy signed the response directly under a paragraph that stated:

> I HEREBY DECLARE THAT THE ABOVE STATEMENTS ARE TRUE TO THE BEST OF MY KNOWLEDGE AND BELIEF. I UNDERSTAND IT IS MADE FOR USE AS EVIDENCE IN COURT AND IS SUBJECT TO PENALTY FOR PERJURY.

(*Id.* at 7.)

///

(46) Patient A's military counsel, Major Adams, asked Col. Wilde whether it would be permissible to provide a copy of an 18 page OCI summary report to the Multnomah County Circuit Court. Col. Wilde told Major Adams that because he was not Major Adams' supervisor, he could not authorize the release. However, he told him that he believed that releasing it to the court would be a permissible use. (Test. of Wilde; tr. at 44-45 and 63-65.)

(47) Major Adams provided the 18 page OCI summary to the Multnomah County Circuit Court to demonstrate that the report actually found Patient A's allegation to be substantiated. The summary report, unlike the full 274 page OCI report, did not include Patient A's protected health information. (Test. of Lewis; tr. at 255-57.)

(48) Dr. Murphy and Mr. Shapiro appeared before the Honorable Judith H. Matarazzo on October 10, 2014 to present oral argument on Mr. Shapiro's motion to Strike. At the conclusion of the hearing, Judge Matarazzo told the parties that she was inclined to grant the motion and asked Mr. Shapiro to prepare an order for her signature and to provide a copy to Dr. Murphy before he submitted it to her. (Ex. A19 at 20-21.)

(49) On October 17, 2014, Dr. Murphy emailed Col. Wilde to express his concern that Maj. Adams had released the OCI report to the Multnomah County Circuit Court. Dr. Murphy stated that he had been advised to have the court record sealed "to protect my professional reputation." (Ex. A13 at 15.) Dr. Murphy asked Col. Wilde whether ORANG would support a motion to have the record sealed. Dr. Murphy asserted that he would be filing a complaint against Maj. Adams and accused him of acting unethically. (*Id.*) In addition, Dr. Murphy criticized Col. Kjos as wanting to "ride the political wave and make [Dr. Murphy] into a villain." (*Id.* at 16.) Dr. Murphy also wrote that "unlike Kjos, I was not given a princess pass in life." (*Id.*)

Administrative Discharge Proceedings

(50) By letter dated October 23, 2014, Brig. Gen. Stencel notified Dr. Murphy that he recommended that Dr. Murphy be discharged from ORANG for his "pattern of misconduct, professional dereliction, and substandard performance of duty[.]" (Ex. A27, Recorder's Ex. 2.) Brig. Gen. Stencel alleged that Dr. Murphy knew or should have known to refrain from conducting the Pap smear on Patient A, and that he negligently failed to do so; that he negligently failed to document the Pap smear; that Dr. Murphy knowingly gave a false statement to OCI investigators when he denied performing the Pap smear; and that he made a false unsworn declaration in a court proceeding claiming that a military investigation had concluded that Patient A's allegation was unsubstantiated. (Ex. A27, Recorder's Ex.2 at 1-2.)

///

(51) The Notification Letter also advised Dr. Murphy of his right to an administrative hearing to contest the discharge and his right to counsel. On December 5, 2014, Dr. Murphy requested a hearing. (Ex. A27, Recorder's Ex.3.)

(52) On October 25, 2014, at 7:47 p.m., Dr. Murphy emailed the Oregon National Guard Adjutant General (TAG) to request a copy of the OCI report. (Ex. A13 at 20.) Dr. Murphy stated that the report "apparently was ordered by the TAG office and approved for public release." (Ex. A13 at 20.) Dr. Murphy also asserted that he had not seen the entire report, but had only seen a "biased, edited version provided by a Maj. Michael Adams, which he placed in the public record of Multnomah County." (*Id.*)

(53) On October 25, 2014, at 7:47 p.m., Dr. Murphy emailed Chief Master Sergeant Eddings to express a number of concerns. Dr. Murphy wrote, in part:

> [H]ey chief – funny that OCI did not talk to you? the clinic chief? funny that they asked Albright the bulk of their questions about PHAs. Albright who probably knows the least about medical personal [*sic*] (not a medic or nurse) and the physical exam process.
> That investigator should be shot – he is worthless.
>
> * * * * *
>
> So do you really think that it would even be imaginable – all the exam beds have stirrups – why change rooms? Crazy story – did she hide the instruments in the
>
> wrong room? * * * I will bet that Kjos was in the room that they 'found' the instruments that day – Kjos thinks she is going to make General off of this.
>
> * * * * *
>
> I should have been more like [name deleted] – make it all about me. 'What an' suck up' [*sic*] piece of shit.
>
> How come you are not speaking up??? Did you tell Wedan how crazy this is? I know you are an honorable person – I am surprised by your silence.
>
> I may lose my job on Monday – it is a government (military) contract and I think they found out about the investigation. I will probably never work as a doc again – no matter what happens.
>
> Tell Jim, I am getting my guns and heading out to Eastern Oregon with him – civilization sucks.

///

///

What happened to honor??

I am going to take all these assholes down – one way or the other.

(Ex. A13 at 19-20.)

(54) On October 30, 2014 Dr. Murphy emailed a number of people at ORANG along with Board investigator Eric Brown. In the email, Dr. Murphy again questioned the release of the OCI report and stated that Maj. Adams had released it "to the public record (presumably to the media as well[.]" (Ex. A13 at 21.) He also wrote that he would be reporting Col. Kjos to the Board for failure to report the alleged incident between Dr. Murphy and Patient A, along with allegations that Col. Kjos unlawfully prescribed medication for financial gain, and had performed unnecessary medical examinations. Dr. Murphy also asserted that Brig. Gen. Stencel was under investigation for allegedly abusing his authority to pressure Dr. Murphy and medical clinic command to hire a nurse. Because of this alleged investigation, Dr. Murphy asserted that Brig. Gen. Stencel should be removed from participation in any disciplinary actions against him. (*Id.*)

(55) On October 31, 2014, Dr. Murphy submitted to Judge Matarazzo a Motion to Vacate Proposed Order, Alternatively Amend the Findings and provide Corrections to the record prior to the Order Granting Defendant's Special Motion to Strike (Motion to Vacate). (Ex. A21.) Dr. Murphy's submission sought to correct the record with regard to some statements he had included in his response to Mr. Shapiro's Special Motion to Strike. Among those corrections, Dr. Murphy wrote:

(56) The plaintiff also unintentionally stated that the OCI did not 'substantiate' the defendant's allegation of sexual assault when in fact the report did come to that conclusion. However, the report failed to 'substantiate' any evidence to support the allegation and even noted the absurdity of the alleged contact.

(*Id.* at 3.)

(57) On November 1, 2014, Dr. Murphy sent an email to Col. Wilde and others at ORANG with a copy also sent to Mr. Brown. (Ex. A13 at 23-24.) In that email, Dr. Murphy stated that he would be filing a bar complaint against Col. Wilde for failure to report the alleged incident between Dr. Murphy and Patient A, and a bar complaint against Maj. Michael Wetzle (his military attorney at that time[6]) for alleged failure to communicate with Dr. Murphy and for alleged "ex parte contacts with opposing parties." (*Id.* at 23.) As result of these complaints, Dr. Murphy asked that Col. Wilde recuse himself from further involvement in the case and stated that Maj. Wetzle was "fired as my defense counsel." (*Id.* at 24.)

[6] Col. Patton resigned as Dr. Murphy's defense counsel at the end of the OCI investigation. (Test. of Patton, tr. at 870.)

(58) On November 3, 2014, Dr. Murphy emailed Col. Wilde and several other members of the military. (Ex. A13 at 27.) Dr. Murphy wrote, in part:

> I hope you are all proud of yourself [*sic*]. This has psych case written all over it. How many psych meds has she been on? All her gyn dates are messed up? Her screwed up relationship with her husband. I love the fact that they sent her back to the pharmacy to dispose of the valium and Percocet because she was pregnant and did not know it. What happen[ed] to that pregnancy was it the one in 2008. Did she stick the instruments (that she put in the drawer) inside her vagina before she 'found' them – is that the DNA test you are sending to my mil?[7]

(Ex. A13 at 27.) Dr. Murphy concluded the email with "The cops will get it from you, they are coming, so are the bar investigators." (*Id.* at 28.)

(59) On or around November 4, 2014, Maj. Adams emailed Board investigator Terry Lewis a copy of Dr. Murphy's October 31, 2014 Motion to Vacate. Maj. Adams noted that Dr. Murphy had corrected his previous mischaracterization of the OCI report and now conceded that OCI had found Patient A's allegations to be substantiated. Maj. Adams opined that Dr. Murphy did so because he had received the notification letter from Brig. Gen. Stencel which included an allegation that Dr. Murphy had misled the court. (Ex. A13 at 29.)

(60) On November 9, 2014, Dr. Murphy emailed Col. Wilde to address, among other things, his intention to pursue "any and all means to exonerate [his] professional reputation." (Ex. A13 at 34.) Dr. Murphy also informed Col. Wilde that he had "provided the court with a copy of the report" and that it was "now part of the public record alongside Maj. Adams's edited version." (*Id.*)

(61) On November 12, 2014, Col. Wedan issued a Debarment Letter to Dr. Murphy, denying him access to Portland Air National Guard Base. The letter was sent, via certified mail, to Dr. Murphy's home in Oregon. Col. Wedan issued the letter after he was shown Dr. Murphy's October 25, 2014 email in which Dr. Murphy stated that an investigator should be shot, called another physician a "piece of shit," and wrote that he would "take all these assholes down –one way or the other." (Ex. A13 at 70.)

(62) On November 19, 2014, Dr. Murphy sent a lengthy email to Col. Wilde to discuss the status of his legal action and to express several points of disagreement with the OCI report. (Ex. A13 at 36-39.) He complained about Maj. Adams' conduct in connection with his legal action and asked Col. Wilde to have him removed from the case for misconduct. He wrote that Maj. Adams had acted inappropriately by submitting what Dr. Murphy claimed was an edited version of the report and told Col. Wilde that he planned "to submit the entire report to the court as an addendum to [his] motion in pursuit of fairness and justice." (*Id.* at 37.)

[7] The term "mil" likely refers to a .mil email address extension used by members of the armed forces.

(63) Also on November 19, 2014, Dr. Murphy emailed Judge Matarazzo's judicial assistant, Tiffany Fox, to discuss scheduling a hearing on his Motion to Vacate. (Ex. A13 at 51-52.) In that email, Dr. Murphy told Ms. Fox that he would like to submit the entire OCI report, and not "the edited version that Michael (Maj.) Adams submitted." (*Id.* at 51.) Mr. Shapiro responded to the email and told Ms. Fox that he had no objection to Dr. Murphy submitting the report. In addition, Mr. Shapiro clarified that the portion of the report that he had submitted earlier was "excerpted, rather than edited." (*Id.* at 50.) Dr. Murphy later filed the full report with the Court. (Test. of Murphy, tr. at 1323.) That full report included Patient A's National Guard medical records and other personal information. (Ex. A44 at 1.)

(64) The full OCI report submitted by Dr. Murphy, and the summary report provided by Mr. Adams, was reviewed in-camera in Judge Matarazzo's chambers. They were not made part of the court record and were not available to the public. The exhibits, medical records, and transcripts associated with the case were destroyed by the court in June 2015 per an order signed by the Presiding Judge. (Ex. A58.)

(65) On November 24, 2014, Dr. Murphy emailed Col. Patton, Col. Wilde, Maj. Adams, and others at ORANG to inform them that the Board had opened an investigation. Dr. Murphy asked that ORANG fully cooperate with the Board and to provide any requested documents concerning his military service and the military's ongoing investigative process. The email also noted that the OCI report showed that Patient A had taken two anti-depressants in the past. (Ex. A13 at 40-41.)

(66) In an email to Mr. Lewis dated November 28, 2014 Dr. Murphy provided information related to his civil action against Patient A. (Ex. A44 at 4-6.) In the email, Dr. Murphy wrote that he filed suit against Patient A with the goal of "having [her] recant her false allegation or risk financial consequences." (*Id.* at 6.) He also confirmed that he had provided a full copy of the OCI report to the court which, he asserted, was "now part of a public record." (*Id.*)

(67) Also in the November 28, 2014 email, Dr. Murphy wrote, regarding physician chaperone policies: "[F]rom past experience, I know that the OMB places a greater value on policies (even policies that don't apply) than physician training and judgment." (*Id.* at 4.)

(68) On November 29, 2014, Dr. Murphy emailed Col. Wilde, Col. Patton and Linda Beuckens of ORANG with various observations about his upcoming discharge proceeding and the Board's investigation. Dr. Murphy also copied Ms. Bernstein (Oregonian reporter) on the email. (Ex. A13 at 56-57.) Among his observations, Dr. Murphy wrote that Maj. Adams might be "unethically involving himself in something that does not concern him – the OMB investigation." (*Id.* at 57.) He also wrote:

By the way did BG Stencel have time to review the responses in my other pending litigation to see if there was anything else from the civil courts or small claims court that he wanted to add to his conclusions regarding my [dereliction] of duty?

Only hope the State [Inspector General] or the Oregonian are taking note of how due process and justice is served in the ORANG.

Just out of curiosity, are you getting help for the emotionally distraught SSgt? Contact Dr. Kjos – she is a physician, I think.

* * * * *

If the OMB starts calling my jobs with this allegation – I will immediately be terminated. Maj. Adams will really get to know me at that point.

(*Id.*)

(69) On December 15, 2014, Dr. Murphy emailed Col. Wilde and several other ORANG personnel in which he reported that he had just learned "via forwarded email" that he had been restricted from the Portland Air National Guard base. (Ex. A13 at 66.) In the email, Dr. Murphy asked for the names of people who felt threatened by him and asked whether he should stay out of the city of Portland or perhaps out of the entire state of Oregon. (*Id.*) Dr. Murphy also requested various documents and information from Col. Wilde as "part of a discovery process." (*Id.* at 67.) Among his requests, Dr. Murphy asked for Patient A's medication lists along with the names of the providers who prescribed her "psych meds." (*Id.*) He also asked for a copy of an alleged investigation of a relationship between Patient A and another married officer who Dr. Murphy identified by name. (*Id.*)

(70) On December 21, 2014, Dr. Murphy emailed Col. Wilde, with copies to Col. Beuckens, Col. Patton, Captain Joni Carlisle,[8] Maj. Adams, and Maj. Kyle Abraham. Dr. Murphy reported that his Motion to Vacate had been denied resulting in the dismissal of the case. However, Dr. Murphy wrote that he intended to refile the case the following week. He also stated that he intended to file a lawsuit, a bar complaint, and a complaint with the inspector general against Maj. Adams. (Ex. A13 at 79.)

(71) Also on December 21, 2014, Dr. Murphy emailed Col. Wilde, Col. Beuckens, and Ms. Bernstein, and copied several other military personnel. (Ex. A13 at 88-89.) In the email, Dr. Murphy asserted that either Patient A or her attorney had told a reporter (Ms. Bernstein) that Patient A had requested that civilian law enforcement investigate her allegation. Dr. Murphy noted that this was inconsistent with a letter previously issued by the Adjutant General. Dr.

[8] On November 4, 2014, Col. Wilde appointed Captain Carlisle as Dr. Murphy's military counsel effective January 15, 2015. (Ex. A13 at 27.)

Murphy wrote "Who is lying here? * * * I assume the Oregonian will be seeking an answer to this question. I will also request that the Governor's office investigate [the Adjutant General] to determine the true nature of the alleged victim's request regarding notification of local law enforcement." (*Id.* at 89.) In addition, Dr. Murphy wrote that he intended to depose the Adjutant General when he refiled his lawsuit against Patient A. He wrote that he suspected that the deposition would demonstrate that Patient A "was again perjuring herself and misleading the press" but that he doubted that ORANG would take any action against her for her "criminal actions." (*Id.*)

(72) On December 24, 2014, Dr. Murphy emailed Mr. Shapiro and Ms. Bernstein, with a copy to Col. Wilde. Dr. Murphy asked Mr. Shapiro whether Patient A had previously requested a law enforcement investigation. Dr. Murphy wrote that he intended to refile his lawsuit and that he would seek disciplinary actions by the court against Mr. Shapiro and Maj. Adams if he determined that they had concealed a law enforcement investigation. (Ex. A13 at 83-84.)

(73) On December 30, 2014, Maj. Adams emailed Board investigator Lewis to outline the various complaints and actions that Dr. Murphy had taken since Patient A made her allegations. Maj. Adams listed the following:

- Inspector General complaints either filed or threatened against Col. Kjos, Col. Wedan, Brig. Gen. Stencel, and Maj. Adams.
- Threatened congressional complaints and suggesting that the Adjutant General be removed by the Governor.
- Filed a civil action against Patient A and misled the court about the outcome of the OCI investigation.
- Attempted to file the entire OCI report with the Multnomah County Court so that it would become part of the public record. The report contained many of Patient A's personal medical records.

(Ex. A13 at 104.) Maj. Adams then opined:

> [Dr. Murphy] acts like a bully on the playground to coerce others to take the actions he desires. He keeps cc'ing Maxine Bernstein the Oregonian Reporter. Again, everyone else's fault, while taking no responsibility. * * *. With this much stress, I am not sure how he can be that stable. I think it is only a matter of time before he implodes.

(*Id.*)

(74) Maj. Adams attached a document from Dr. Murphy to his December 30, 2014 email. In that document, Dr. Murphy accused Maj. Adams and Patient A of fraud and extortion. He also wrote "Your fraudulent behavior should result in disciplinary actions by the Court and the Oregon Bar. (Ex. A13 at 106.)

(75) On February 5, 2015, Dr. Murphy sent an email to Dr. Joseph Thaler (the Board's Medical Director) and Dr. Lisa Snyder.[9] (Ex. A44 at 11.) In that email, Dr. Murphy wrote that he had submitted a comment to the Oregonlive.com website commenting on Patient A's allegations. Dr. Murphy wrote that he submitted the comment because "this accusation is apparently being tried in the court of public opinion." (*Id.*) The comment read, in part:

> I am very familiar with this case which was unethically made part of the public record by the accuser's [military attorney]. The article failed to mention the following –
>
> the accuser has been on psych medication for over 10 years without disclosing it to the military (no wonder the military has so many of these friendly fire/active shooter incidents.)
>
> the accuser previously received a breast and gyn exam from a male flight surgeon at that same clinic in the past, flight surgeons are general medical officers and as such are qualified to do physical exams (including gyn and rectal exams)
>
> the physician has never been a complaint of inappropriate contact or relations with patients in almost 30 yrs of working as a healthcare worker
>
> * * * * *
>
> the gyn instruments were 'found' in a female physician's exam room (not Murphy's exam room) and all the exam rooms are configured with the same stirrups on the exam table.
>
> the accuser was previously involved in an affair with a married officer, she sent a flirtatious email to Murphy which he ignored, weeks later she came up with this alleged gyn exam stating it occurred years earlier – which she had never noted in her medical history (in fact she sought out a gyn exam in 2013 even though she would not have been due, if she truly believed that she had received one in 2011.)

(*Id.* at 11-12.)

(76) On February 6, 2015, Judge Matarazzo issued a General Judgement of Dismissal, dismissing Dr. Murphy's defamation action and awarding costs and attorney fees to Patient A. (Ex. A23.)

Phone Call to Tuality Hospital

(77) On a Saturday in February 2015, Dr. Murphy called Tuality Hospital in an attempt to reach Kathryn Gilbert, R.N. (Test. of Gilbert, tr. at 125-126.) The

[9] It is unclear from the record who Dr. Snyder is or what her role was in this case.

switchboard referred the call to John Sparks, the administrative nurse supervisor on duty at that time. (Test. of Sparks, tr. at 554-555.) The switchboard operator forwarded the call to Mr. Sparks because the caller, who identified himself as a physician, was very insistent. However, the operator did not recognize the name the caller provided. (*Id.*)

(78) When Sparks answered the phone, the caller identified himself as a doctor on staff, and used the name that Sparks recalled as "Hansen," "Hamson," or something similar. The caller wanted Ms. Gilbert's phone number, but Mr. Sparks would not provide it. Due to the caller's insistence that he was trying to reach Gilbert about an urgent medical matter, Sparks took the caller's phone number and then called or paged Ms. Gilbert, who was not then on duty. (Test. of Sparks, tr. at 555-557, 559.)

(79) Ms. Gilbert was at a gym when she received the page from Mr. Sparks. She called Mr. Sparks who told her that a "Dr. Hanson" was trying to reach her regarding a "cath lab order set" for a patient. (Test. of Gilbert, tr. at 125-126; Ex. A37 at 1.) Sparks gave her the telephone number the caller had provided. Gilbert did not recognize the name Sparks had relayed but recalled that she worked with a Dr. Hamdon and thought that he might be the caller. (Test. of Gilbert, tr. at 126.)

(80) When Ms. Gilbert called the number provided by Mr. Sparks, her cell phone identified the number as that of Dr. Murphy. Dr. Murphy formerly worked with Ms. Gilbert at Tuality Hospital and Ms. Gilbert had socialized with Dr. Murphy and his wife on occasion. When Dr. Murphy answered the telephone, Ms. Gilbert recognized his voice. Ms. Gilbert asked Dr. Murphy why he told the hospital he was someone else but does not recall his answer. Dr. Murphy did not discuss any medical issues, but engaged in some small talk and also told Ms. Gilbert about some difficulty he was having with someone in the National Guard who had alleged that he had sexually assaulted her. (Test. of Gilbert, tr. at 126-129; Ex. A37 at 1-2.)

Public Disclosure of Confidential Information

(81) On March 17, 2015, Dr. Murphy filed an 11 page document with the Multnomah County Circuit Court that was titled "Settlement Offer – Murphy v. [Patient A]." (*Id.* at 14-25.) The settlement offer contained Dr. Murphy's extensive discussion of Dr. Murphy's view of the facts of his dispute with Patient A, including a detailed account of Patient A's allegations regarding the alleged Pap smear. The document also includes a section labeled "**THE DEFENDANT'S HISTORICAL LACK OF HONESTY-CONCEALING PSYCHOLOGICAL PROBLEMS FROM THE MILITARY.**" (*Id.* at 19; emphasis in original.) Dr. Murphy wrote in the document that Patient A failed to notify the military of a psychological issue and her past use of anti-depressant medications. The document also contains a detailed account of Patient A's self-reported online health assessments, including discussions of past Pap smears, a C-

section, a list of psychiatric medications, and an assertion that Patient A used a psychiatric medication while she was pregnant. (*Id.* at 22.) The settlement offer was included in the official court record and was available to members of the public through the court's electronic information system, OJIN. (Test. of Lewis; tr. at 621.)

(82) Also on March 17, 2015, Dr. Murphy sent an email to multiple people, including Mr. Shapiro, Ms. Bernstein, several members of the military, and several others. (Ex. A44 at 27.) The email included the 11 page settlement agreement as an attachment and had the subject line "Public Record – filed with Circuit Court – Settlement Offer in 15CV02439." (*Id.*) At the end of the email, Dr. Murphy asked the recipients to "Please forward this settlement offer to any interested party, ask them to contact the Oregon State Military Office or the Governor's office to put an end to this non-sense." (*Id.*)

(83) On March 18, 2015, Dr. Murphy sent an email to his military attorney, Captain Carlisle, and another military attorney, Col. Monique DeSpain. He also copied Board investigators Lewis and Brown, Board Medical Director Dr. Thaler, several members of the military, and Ms. Bernstein. (Ex. A24.) In the email, Dr. Murphy stated that he wished to separate from ORANG and asked Captain Carlisle to send him the appropriate paperwork. He asserted that he wanted to focus his effort on litigating claims against the Board, including harassment and retaliation. He accused the Board of "intentionally delaying" its investigation. (*Id.* at 1.) Dr. Murphy further wrote:

> I suspect the delay is a direct result of the inept but malicious investigative and legal staff at OMB/DOJ, who did not have the courage or integrity to respond with an explanation.
>
> By removing the separation hearing, it will provide one less excuse for the investigator's continued harassment and retaliation. The OMB investigative staff are a group of non-professionals who lead physicians like Joe Thaler around by the nose, making the OMB's entire process almost as absurd as that report produced by the OCI.
>
> Obviously, this has been a frustrating process, when a mentally deranged patient with an absurd complaint manages to convert a routine established complaint process into a 1 ½ year circus. The main clowns being Heidi Kjos and Monique DeSpain – who made a patient[']s complaint into something it wasn't, just to bring attention to themselves as female activists (politically popular). And of course OMB's Terry Lewis is always interested in undermining physicians in order to justify his existence (bad idea for a morbidly obese male with no doubt some underlying pathology that will require medical assistance someday soon).

(*Id.* at 2.)

(84) On April 11, 2015, Dr. Murphy sent an email to MSgt. Frederick, Chief Master Sergeant Michelle Marshall (both of ORANG leadership), and to Board Investigators Lewis and Brown. In that email, Dr. Murphy wrote:

> I was contacted by a patient who I saw in the medical clinic sometime back. The patient told me that they had been contacted regarding my care. I formally request that if any of my patients (any patients) are contacted by the investigators from the Oregon Medical Board that they do NOT cooperate. [T]he OMB has no investigative authority outside of license holders. If there is a question regarding patient care, the investigator can contact me. This is a significant infringement on patient confidentiality. This of course applies to any and all medical records as well.

(Ex. A25; emphasis in original.)

Administrative Discharge Hearing

(85) The Oregon Military Department's Administrative Discharge Board held a hearing on Dr. Murphy's appeal of the recommended discharge from May 7 through 9, 2015 in Portland, Oregon. Legal Advisor Col. William D. Bunch presided at the hearing. The Board was comprised of three voting members, all of whom were colonels in the Air National Guard. Dr. Murphy participated in the hearing and was represented by his military counsel, Captain Carlisle. Both Dr. Murphy and Patient A, among others, testified at the hearing. (Ex. A27.)

(86) At the conclusion of the hearing, the Administrative Discharge Board found against Dr. Murphy on all charges. Specifically, the Board concluded:

- Dr. Murphy was derelict in the performance of his duties by negligently failing to refrain from conducting a genital exam or Pap smear on Patient A;
- Dr. Murphy was derelict in the performance of his duties by failing to document the genital exam or Pap smear on a Patient A;
- Dr. Murphy knowingly made a false statement to an OCI investigator by asserting that he did not perform a Pap smear or similar procedure on Patient A; and
- Dr. Murphy knowingly made a false statement in an unsworn declaration that claimed that a military investigation had found Patient A's allegation to be unsubstantiated.

///

///

(Ex. A27, Ex. 1[10].) As a result of these findings, the Administrative Discharge Board recommended that Dr. Murphy be separated from the National Guard with an other than honorable conditions discharge. (*Id.*)

Board Request for Records

(87) On May 12, 2015, Mr. Lewis sent Dr. Murphy a request for information, pursuant to the Board's authority under ORS 677.320, asking Dr. Murphy to provide the following:

> A complete copy of the medical record[s] for your care and treatment for patients [B] and [C]. Please include all information regarding your prescribing for these patients in 2013-2014.

(Ex. A29.) Dr. Murphy did not provide the requested medical records to the Board. (Test. of Lewis, tr. at 1264-65.)

(88) A subcommittee of the Board's Investigative Committee interviewed Dr. Murphy on June 4, 2015. (Ex. A31 at 4.) The Board's Medical Director, Dr. Thaler, Board Investigator Lewis, and Mr. Foote were also present for the interview. (*Id.*)

(89) Dr. Murphy had copies of documents at the interview that he believed the subcommittee might ask about, including medical records of Patients B and C. Dr. Murphy did not tell anyone that he had the medical records with him, nor did he offer them to the subcommittee. (Test. of Murphy, tr. at 1269-1271; test. of Lewis, tr. at 1264-1265.)

(90) At the conclusion of the interview, when Dr. Murphy asked if he should continue to provide any additional evidence to Mr. Lewis, Mr. Foote replied "Well, he's your point of contact if you have anything further * * * [because] these things will be considered by the Board so if there's something you want to submit, go through him." (Ex. A31 at 39.) Other than an affidavit of Col. Patton, Dr. Murphy did not offer, or attempt to offer, any other documents to the subcommittee or to Mr. Lewis before leaving the interview. (Test. of Murphy; tr. at 1265; Ex. A31 at 37-39.)

(91) Prior to submitting exhibits in preparation for the current contested case hearing, Dr. Murphy failed to produce the documents requested by the Board in Mr. Lewis's May 30, 2015 letter. . (Test. of Murphy, tr. at 1263; Exs. MC2, MC3, MC4, and MC5.)

///

///

[10] Ex. A27 is a transcript of Dr. Murphy's Administrative Discharge Board hearing. The information in Finding of Fact 86 is derived from Exhibit 1 from that hearing.

E-Mail Communication with the Board

(92) On August 15, 2015, Dr. Murphy sent an email to Mr. Lewis, Mr. Brown, and Mr. Foote. (Ex. A34.) In that email Dr. Murphy wrote, in part:

> Mr. Lewis,
>
> When do you imagine that you folks might finish fabricating these unsupported violations? How long does it take to 'finalize' BS?
>
> As you are obviously aware, I am currently in litigation regarding the medical board's last illegal and unethical action and I want to make sure the court is aware of the OMB's latest attempt at retaliation.
>
> So Terry, if you are going to 'get me back' or 'teach me a lesson' (try to intimidate me), you need to stop stuffing your face, put down your comic books and use your crayons to come up with something in writing – pronto. Oh hey – thanks again for lying to me about having to report a patient's complaint in 10 days, [etc.] * * * [Patient A's] allegation is false and she is going to go to jail for making it. This is pathetic, I try to help people and make a difference every[]day and all you folks can do is make up non sense [*sic*] to justify your own existence. And of course you retaliate against anyone who calls you out on your Emperor's clothing.
>
> Dr. Thaler and the other physicians involved in this – shame on you.
>
> * * * * *
>
> oh yea – good morning Mr. Lewis – the great and powerful Oz has spoken.

(*Id.* at 1.)

(93) On August 22, 2015, Dr. Murphy emailed Kevin Danielson, an attorney in the United States Attorney's Office in Oregon, and Mr. Foote. (Ex. A35.) Dr. Murphy informed Mr. Danielson that he "gave up on [his] civil suit" against Patient A because "[s]he does not have any money and your office and the federal court system made it too cost prohibitive and complicated to continue." (*Id.*) In addition, Dr. Murphy informed Mr. Danielson of the Board's investigation, writing "Now the board (mostly a morbidly obese investigator with a high school diploma and a chip on his shoulder) is mounting some kind of vendetta." (*Id.*) He also wrote:

> The Board is now going beyond the so called "casting a wide net" approach and is actually posting complete nonsense on their website. The OMB (maybe other medical boards as well) functions via blatant intimidation of licensed providers, because the board does not feel that they have to answer to anyone who works under the banner of 'public safety'.

> Currently I am pursuing litigation against the State for damages from a previous false claim by the OMB (supported by a[n] Oregon State Court of Appeals ruling). But clearly there is **collusion between the State AG office in their efforts to "persuade me to drop it" and the OMB (Kathy Haley)** who is aware of or is encouraging their investigator Terry Lewis to simply fabricate issues like he did previously.
>
> *I think it is unethical, maybe illegal. I believe it would take a federal prosecutor to make that determination.* What are your thoughts? I have copied Ms. Haley and Mr. Foote in order to be transparent. I am not an attorney (although I have enrolled in an on-line JD course), so I really don't know.

(*Id.;* emphasis in original.)

(94) In an August 27, 2015 email to Ms. Mazzucco, Dr. Murphy responded to some questions about his 2013 license renewal application. (Ex. A36c.) In that email, Dr. Murphy wrote, in part:

> Now in the summer of 2015, one of the board members (a chiropractor – a non MD with the usual low self esteem of going to a 'medical' school in a shopping center) is questioning some of the answers on my renewal application from way back then as part of a medical board vendetta.
>
> * * * * *
>
> It is tough to give the 'right answers' when you are working class and not some silver spoon "Doctor or Lawyer" who has never done real work and had some fancy graduation from a frat house. The Board does not understand working during the day, then doing the school thing only when time and money allowed.
>
> * * * The medical board has no idea about how the building they are sitting in – was built, where the food that Terry Lewis stuffs his face with comes from, or how even the garbage is handled, [etc.].

(*Id.* at 1-2)

Ethical Standards of the Medical Profession

(95) Joseph Thaler, MD, is board certified in internal medicine. He practiced internal medicine for 29 years. He was a member of the Board from 1999 to 2006, and was the Board chair in 2005. He has been the Board's Medical Director since 2012. (Ex. A52.)

(96) In his role as Medical Director, Dr. Thaler often reviews records from Board licensees to determine if the licensees are meeting standards of care and standards of ethics that apply to the medical profession. In making such determinations, Dr.

Thaler, and the Board, will look to the American Medical Association (AMA) Code of Medical Ethics for guidance. The Board also relies on other sources including professional literature. (Test. of Thaler, tr. at 515-516.)

(97) The AMA has published formal ethical opinions which pertain to the professional and ethical obligations of physicians. AMA Opinion 8.02 is titled "Ethical Guidelines for Physicians in Administrative or Other Non-clinical Roles." (Ex. A33 at 1.) The opinion provides, in part:

> Throughout their formal education and their practice of medicine, physicians profess and are therefore held to standards of medical ethics and professionalism such as those expressed in the AMA Code of Medical Ethics. Complying with these standards enables physicians to earn the trust of their patients and the general public. This trust is essential to successful healing relationships and, therefore, to the practice of medicine.
>
> The ethical obligations of physicians are not suspended when a physician assumes a position that does not directly involve patient care. Rather, these obligations are binding on physicians in non-clinical roles to the extent that they rely on their medical training, experience, or perspective. When physicians make decisions in non-clinical roles, they should strive to protect the health of individuals and communities.

(*Id.*)

(98) AMA Opinion 9.07 is titled "Medical Testimony." (Ex. A33 at 3.) The opinion provides, in part:

> As citizens and as professionals with specialized knowledge and experience, physicians have an obligation to assist in the administration of justice.
>
> When a legal claim pertains to a patient the physician has treated, the physician must hold the patient's medical interests paramount, including the confidentiality of the patient's health information, unless the physician is authorized or legally compelled to disclose the information.
>
> Physicians who serve as fact witnesses must deliver honest testimony. This requires that they engage in continuous self-examination to ensure that their testimony represents the facts of the case.
>
> * * * * *
>
> Organized medicine, including state and specialty societies and medical licensing boards can help maintain high standards for medical witnesses by assessing claims of false or misleading testimony and issuing disciplinary sanctions as appropriate.

(*Id.*)

(99) AMA Opinion 5.05 is titled "Confidentiality." (Ex. A39.) The opinion provides, in part:

> The information disclosed to a physician by a patient should be held in confidence. The patient should feel free to make a full disclosure of information to the physician in order that the physician may most effectively provide needed services. The patient should be able to make this disclosure with the knowledge that the physician will respect the confidential nature of the communication. The physician should not reveal confidential information without the express consent of the patient, subject to certain exceptions which are justified because of overriding considerations.
>
> When a patient threatens physical harm to another person or to him or herself and there is a reasonable probability that the patient may carry out the threat, the physician should take reasonable precautions for the protection of the intended victim[.] * * *
>
> When the disclosure of confidential information is required by law or court order, physicians generally should notify the patient. Physicians should disclose the minimal information required by law, advocate for the protection of confidential information and, if appropriate, seek a change in the law. * * *

(*Id.*)

(100) AMA Opinion 5.04 is titled "Communications Media: Standards of Professional Responsibility." (Ex. A38.) The opinion provides, in part:

> Physicians are ethically and legally required to protect the personal privacy and other legal rights of patients. When information concerning a specific patient is requested by the media, the physician must obtain the consent of the patient or an authorized representative before releasing such information. The physician may release only the authorized information or that which is public knowledge. The patient-physician relationship and its confidential nature must be maintained.
>
> * * * * *
>
> Certain news that is part of the public record, such as deaths, may be made available without the consent of the patient or authorized representative. * * *

(*Id.*)

(101) AMA Opinion 10.0.15 is titled "The Patient-Physician Relationship." (Ex. A45.) The opinion provides, in part:

> The practice of medicine, and its embodiment in the clinical encounter between a patient and a physician, is fundamentally a moral activity that arises from the imperative to care for patients and to alleviate suffering.
>
> A patient-physician relationship exists when a physician serves a patient's medical needs, generally by mutual consent between physician and patient (or surrogate). In some instances the agreement is implied, such as in emergency care or when physicians provide services at the request of the treating physician. * * * Nevertheless, the physician's obligations to the patient remain intact. The relationship between patient and physician is based on trust and gives rise to physicians' ethical obligations to place patients' welfare above their own self-interest and above obligations to other groups, and to advocate for their patient's welfare.

(*Id.*) Within the patient-physician relationship, a physician is ethically required to use sound medical judgment, holding the best interests of the patient as paramount. (*Id.*)

(102) Barry Egener, MD, is board certified in internal medicine and has been practicing medicine for over 34 years. At the time of the hearing in this case, Dr. Egener was the Medical Director for both the Foundation for Medical Excellence and its subdivision, the Northwest Center for Physician-Patient Communication. He was also a member of the faculty in internal medicine for Legacy Health Systems. (Test. of Egener, tr. at 422-23; Ex. A51 at 1.) In addition, he was a faculty member of the American Academy on Physician and Patient, and a clinical assistant professor in public health at the Oregon Health Sciences University (OHSU). (Ex. A51 at 2.) Dr. Egener has authored numerous journal articles on the topics of professionalism and physician-patient communication. (Test. of Egener, tr. at 423-24; Ex. A51 at 4.) Dr. Egener believes that the essence of professionalism is for the professional (including physicians) to execute a fiduciary responsibility to the more vulnerable party. In Dr. Egener's view, in all professional relationships patients or clients rely on the unique expertise of the professional to make judgments about the patient or client's best interest. It is this imbalance of expertise that gives rise to the fiduciary responsibility. Dr. Egener has identified three separate domains of physician professionalism: 1) the relationship between the physician and the patient; 2) the relationship between the physician and other members of a healthcare team; and 3) the relationship between the profession of medicine and society as a whole. (Test. of Egener, tr. at 425-26 and 430.)

(103) *Medical Professionalism in the New Millennium: A Physician's Charter* (the Charter), published by the American Board of Internal Medicine in 2004, is a well-respected document that has been cited in at least 600 published articles. (Test. of Egener, tr. at 427; Ex. A49.) The preamble to the Charter states, in part:

> **Professionalism is the basis of medicine's contract with society.** It demands placing the interests of patients above those of the physician, setting and

> maintaining standards of competence and integrity, and providing expert advice to society on matters of health. The principles and responsibilities of medical professionalism must be clearly understood by both the profession and society. Essential to this contract is public trust in physicians, which depends on the integrity of both individual physicians and the whole profession.

(Ex. A49 at 1; emphasis in original.) Among the principles enumerated in the Charter are a commitment to patient confidentiality, a commitment to maintaining trust by managing conflicts of interest, and a commitment to professional responsibilities. (*Id.* at 1-2.) As part of the commitment to professional responsibilities, the Charter states:

> As members of a profession, physicians are expected to work collaboratively to maximize patient care, be respectful of one another, and participate in the process of self regulation, including remediation and discipline of members who have failed to meet professional standards. * * * These obligations include engaging in internal assessment and accepting external scrutiny of all aspects of their professional performance.

(*Id.* at 2.)

(104) In an article titled "Toward a Normative Definition of Medical Professionalism," published in the journal *Academic Medicine* in June 2000, Herbert M. Zwick, MD, noted that medical professionalism is comprised of the following sets of behaviors:

- *Physicians subordinate their own needs to the interests of others.* * * *
- *Physicians adhere to high ethical and moral standards.* * * *
- *Physicians respond to societal needs, and their behaviors reflect a social contract with communities served.* * * *
- *Physicians evince core humanistic values, including honesty and integrity, caring for others, and trustworthiness.* * * *
- *Physicians exercise accountability for themselves and for their colleagues.* * * *
- *Physicians demonstrate a continuing commitment to excellence.*
- *Physicians exhibit a commitment to scholarship and to advancing their field.* * * *
- *Physicians deal with levels of complexity and uncertainty.* * * *
- *Physicians reflect upon their actions and decisions.*

(*Id.* at 3-4; italics in original.)

(105) Dr. Egener reviewed numerous emails from Dr. Murphy directed toward colleagues, members of the military, attorneys, the Board, and others. In Dr. Egener's view, Dr. Murphy's October 25, 2014 email to Chief Master Sergeant Eddings (Ex. A13) (in which he wrote that an investigator should be shot, implied that Dr. Kjos was using Patient A's allegation to try to secure a promotion, referred to another person as a "piece of shit," stated that he was taking guns and

going out to eastern Oregon, and that he was going to "take all these assholes down,") was "denigrating, [showed a] lack of respect [and had] some element of arrogance." (Test. of Egener, tr. at 434.) Dr. Egener believed that this email demonstrated unprofessional behavior. In particular, Dr. Egener believed that the comments in the email undermined collegiality that is necessary to the smooth functioning of a health care team. (*Id.*)

(106) Dr. Egener also reviewed Dr. Murphy's March 18, 2015 email (Ex. A24), sent to numerous recipients including members of the military, members and employees of the Board, and a reporter, in which Dr. Murphy referred to Patient A as "mentally deranged," referred to a Board Investigator as "morbidly obese" with "an underlying pathology," and referred to two colleagues as "female activists" who were "trying to bring attention to themselves." (Test. of Egener, tr. at 435.) Dr. Egener viewed this email as unprofessional in the way that it referred to Patient A, by undermining the role of the Board and the credibility of the medical profession, and by undermining his relationship with his colleagues. Dr. Egener also believed that the email demonstrated arrogance which, he opined, detracted from Dr. Murphy's ability to be professional. (*Id.* at 436-39.)

CONCLUSIONS OF LAW

The Board adopts ALJ Mann's conclusions of law, his supporting opinion except as noted in the Board's discussion of one of Dr. Murphy's violations of ORS 677.190(1)(a), dishonorable and unprofessional conduct, and ALJ Mann's recommendation that Dr. Murphy's license be revoked, Dr. Murphy be assessed a civil penalty of $10,000, and Dr. Murphy be assessed the cost of these proceedings

1. The evidence did not establish that Dr. Murphy performed an unauthorized Pap smear on a patient on November 19, 2011 in violation of ORS 677.190(1)(a), as defined by ORS 677.188(4)(a), and/or conduct that does or might constitute a danger to a patient and gross negligence, in violation of ORS 677.190(13).

2. Dr. Murphy provided false, misleading, and deceptive information in connection with his October 29, 2013 application to renew his medical license by stating that his highest level of education was an associate's degree and that he could speak and understand Quechua sufficiently to communicate for clinical purposes in violation of ORS 677.190(8). Dr. Murphy did not violate OAR 847-008-0058 because the rule was not in effect at the time that he submitted his application. The record did not establish that Dr. Murphy's false answers on his October 29, 2013 renewal application violated ORS 677.190(1)(a) and (17).

3. Dr. Murphy acted in a manner contrary to recognized standards of ethics of the medical profession, in violation of ORS 677.190(1)(a) as defined by

ORS 677.188(4)(a), by filing a false or misleading declaration in connection with a proceeding in Multnomah County Circuit Court.

4. Dr. Murphy disclosed private health information and confidential medical records of a patient in violation of ORS 677.190(1)(a) and (5), as defined by ORS 677.188.(4)(a). The record did not establish that Dr. Murphy violated HIPAA privacy regulations (45 CFR 164.502).

5. Dr. Murphy did not violate ORS 677.080(3) and ORS 677.190(10) by calling a nurse supervisor at Tuality Healthcare in 2015 while representing himself by the name of "Dr. Hanson."

6. Dr. Murphy violated ORS 677.190(17) and OAR 847-001-0024(1) by failing to comply with a Board investigator's request for medical records in connection with an investigation into Dr. Murphy's alleged prescribing of controlled substances to two patients.

7. Dr. Murphy violated ORS 677.190(1)(a) as defined by ORS 677.188(4)(a) by asking individuals not to cooperate with the Board's investigation thereby impeding that investigation.

8. Dr. Murphy engaged in a pattern of belligerent and obstructive behavior during the course of the Board's investigation and that pattern of behavior constitutes unprofessional or dishonorable conduct in violation of ORS 677.190(1)(a) as defined by ORS 677.188(4)(a).

9. The Board may revoke Dr. Murphy's Oregon medical license, assess a $10,000 civil penalty, and assess the costs of the proceedings.

OPINION

The Board alleges that Dr. Murphy committed several violations of the Medical Practices Act, for which the Board has proposed revocation of his medical license, a $10,000 civil penalty, and assessment of the costs of the disciplinary proceeding. The Board has the burden of establishing by a preponderance of the evidence that the violations alleged in the Second Amended Notice occurred and that the proposed sanctions are appropriate. ORS 183.450(2) ("The burden of presenting evidence to support a fact or position in a contested case rests on the proponent of the fact or position"); *Harris v. SAIF*, 292 Or 683, 690 (1982) (general rule regarding allocation of burden of proof is that the burden is on the proponent of the fact or position); *Metcalf v. AFSD*, 65 Or App 761, 765 (1983) (in the absence of legislation specifying a different standard, the standard of proof in an administrative hearing is preponderance of the evidence). Proof by a preponderance of the evidence means that the fact finder is persuaded that the facts asserted are more likely than not true. *Riley Hill General Contractor v. Tandy Corp.*, 303 Or 390, 402 (1987).

///

Pursuant to ORS 677.265, the Board is vested with the authority to regulate the practice of medicine in Oregon. ORS 677.190 authorizes the Board to discipline an Oregon physician for any of several delineated reasons. The Board has proposed disciplining Dr. Murphy under the following provisions of ORS 677.190:

> The Oregon Medical Board may refuse to grant, or may suspend or revoke a license to practice for any of the following reasons:
>
> (1)(a) Unprofessional or dishonorable conduct.
>
> * * * * *
>
> (5) Willfully or negligently divulging a professional secret without the written consent of the patient.
>
> ///
>
> * * * * *
>
> (8) Fraud or misrepresentation in applying for or procuring a license to practice in this state, or in connection with applying for or procuring registration.
>
> * * * * *
>
> (10) Impersonating another licensee licensed under this chapter or permitting or allowing any person to use the license.
>
> * * * * *
>
> (17) Willfully violating any provision of this chapter or any rule adopted by the board, board order, or failing to comply with a board request pursuant to ORS 677.320.

In addition, ORS 677.188(4)(a) defines "unprofessional or dishonorable conduct" for purposes of ORS 677.190(1)(a). ORS 677.188(4)(a) provides:

> (4) "Unprofessional or dishonorable conduct" means conduct unbecoming a person licensed to practice medicine or podiatry, or detrimental to the best interests of the public, and includes:
>
> (a) Any conduct or practice contrary to recognized standards of ethics of the medical or podiatric profession or any conduct or practice which does or might constitute a danger to the health or safety of a patient or the public or any conduct, practice or condition which does or might adversely affect a physician's ability safely and skillfully to practice medicine or podiatry[.]

///

1. Unauthorized Pap Smear

The central issue in dispute in this case is whether Dr. Murphy performed a Pap smear on Patient A during a five-year preventative health assessment (PHA) in November 2011. While there is no dispute that Dr. Murphy conducted a PHA on Patient A, Dr. Murphy vehemently denies Patient A's allegation that he performed a Pap smear.

Recently, the Oregon Court of Appeals has reiterated that "credibility depends not only on demeanor but also on such factors as inherent probability, or improbability of the testimony, the possible internal inconsistencies, the fact that it is or is not corroborated, that it is contradicted by other testimony or evidence and finally that human experience demonstrates it is logically incredible." *Osuna-Bonilla v. Teacher Standards and Practices Comm.*, 282 Or App 260, 268-269 (2016), *citing with approval Preferred Funding, Inc. v. Jackson*, 185 Or App 693, 699 (2003).

With regard to the allegations in this case, there is nothing inherently probable or improbable with either Patient A's allegation, nor with Dr. Murphy's denial. Nor is there anything about the allegation or the denial that is logically incredible. Furthermore, both Patient A and Dr. Murphy have been relatively consistent in their accounts of the events of November 19, 2011. The only contemporaneous evidence of the PHA is the medical record prepared by Dr. Murphy. That record contains no indication that a Pap smear was performed. The absence of such a record is consistent with Dr. Murphy's denial. However, it is also consistent with the Board's allegation that the procedure was unauthorized because it is unlikely that Dr. Murphy would have documented a procedure that he knew was improper.

The following evidence is consistent with Dr. Murphy's denial:

- Dr. Murphy denies any memory of the PHA. He has not offered a competing version of events to try to rebut Patient A's allegations. This would be expected if, as he asserts, nothing out of the ordinary occurred during the PHA.
- There is no evidence that Dr. Murphy has ever engaged in, or been accused of, similar conduct in the past.
- The incident was alleged to have occurred in an exam room that Dr. Murphy normally did not use, but that was often used by another physician who also performed PHAs that day.
- The National Guard interviewed 25 of the 30 women that Dr. Murphy had examined over a four year period. None of them reported that Dr. Murphy had performed a pelvic exam or a Pap smear on them.

The following evidence, however, is consistent with Patient A's allegations:

- Patient A told TSgt. Albright that Dr. Murphy performed a Pap smear. At the time she relayed this information, Patient A contends that she did not believe that the procedure was unauthorized. Patient A appeared to be shocked to learn that Pap smears were not performed at the ORANG base.

- Patient A appeared visibly upset when she learned that there was no record of the procedure.

- Patient A identified the exam room in which she asserts the procedure occurred. She and Albright discovered gynecological examination equipment in that room.

- Patient A insisted that the equipment be seized by authorities for DNA testing; a request which she would be unlikely to make if she did not believe that the equipment had been used to examine her.

- SSgt. Jaeger and Patient A recall a conversation, sometime prior to December 2013, in which Patient A disclosed that Dr. Murphy had performed a Pap smear on Patient A during a PHA.

However, there are some aspects of the above evidence that casts doubt on its reliability. First, it is unclear from the record whether Patient A immediately and correctly identified the room in which the procedure allegedly took place. Patient A did not search the exam rooms with TSgt. Albright until TSgt. Albright returned from training, several days after Patient A returned. While it is true that Patient A and TSgt. Albright found gynecological equipment in an examination room, it was not the room normally used by Dr. Murphy when he performed PHAs.

Second, at the hearing in this case Patient A testified that Dr. Murphy spent approximately five to ten minutes in an exam room for an initial examination. She testified that he told her that they would need to go to separate exam room only after determining that she needed a Pap smear. However, in a written report to Col. Kjos on December 8, 2013, Patient A did not mention having changed rooms. TSgt. Albright testified in the administrative discharge proceeding that Patient A told her that Dr. Murphy first took her into one room and then said "Oh no, let's go in this one." Ex. A27 at 244. At the Board's hearing in this case, TSgt. Albright testified that Patient A identified the exam room where the alleged Pap smear took place, and remembered passing by a couple of different rooms before getting to the room where the exam allegedly took place. At no time did TSgt. Albright testify that Patient A mentioned having changed rooms. Indeed, despite TSgt. Albright's role in assisting Patient A to locate the exam room, nothing in the record suggests that Patient A ever told TSgt. Albright that she had changed exam rooms.

In addition, if Dr. Murphy had intended to perform a Pap smear on Patient A that day, and knew that the tools were in another exam room, it is not clear why he would not have simply taken her to that room initially, or perhaps moved the tools into his own exam room. Col. Kjos, who normally used the exam room where the gynecological equipment was found was also conducting PHAs that day, and was scheduled to see a patient at 11:00 a.m., close in time to Dr. Murphy's examination of Patient A. It is unlikely that Dr. Murphy, if he had intended to perform

an unauthorized Pap smear, would have moved to this exam room which he would have known would significantly increase his chances of being caught.

While it is true that Patient A found gynecological equipment in an exam room, several witnesses testified that they were not surprised that such equipment was there. The base was previously used by the Air Force Reserves and many of the rooms contained equipment that may have been used at that time. TSgt. Albright testified that the equipment looked as though it had not been used in some time. There is also no direct evidence that Dr. Murphy knew that the equipment was in that room. Nor is there any direct evidence that the equipment was in the room in November 2011, two years before it was located by Patient A and TSgt. Albright.

Finally, Patient A gave contradictory accounts of when she told her friend, SSgt. Jaeger, about the Pap smear. In a December 8, 2013 written report to Col. Kjos, Patient A wrote that she told SSgt. Jaeger about the exam shortly afterwards. When SSgt. Jaeger told her that she did not think that Pap smears were performed on base, Patient A wrote that she told her "yes they do, Maj. Murphy just did one." Emphasis added. Patient A later testified that she told SSgt. Jaeger about the Pap smear a few months afterward, not immediately. SSgt. Jaeger gave yet another account, placing the conversation four or five months prior to February 2014, near in time when Patient A disclosed the information to TSgt. Albright. SSgt. Jaeger's testimony regarding the alleged conversation was more detailed, including a description of the location and circumstance of the exchange. If SSgt. Jaeger's time estimate is accurate, then the conversation would have taken place in September or October of 2013, two to three months prior to Patient A's conversation with TSgt. Albright. Both SSgt. Jaeger and Patient A assert that SSgt. Jaeger told Patient A that she did not believe that Pap smears were performed on base. To the extent that SSgt. Jaeger's timing is accurate, it casts additional doubt on the reliability of Patient A's assertion that she was surprised when TSgt. Albright confirmed that Pap smears were not performed on base.

In short, the record contains evidence that supports both Patient A's allegation and Dr. Murphy's denial. However, given the unreliability of some of the evidence, and the long passage of time between the alleged incident and the report, the record simply does not demonstrate by a preponderance of the evidence that Dr. Murphy performed an unauthorized Pap smear as alleged in the Board's notice.

In finding that Patient A's allegation was substantiated, the OCI placed great weight on Patient A's lack of any apparent motive to fabricate the incident. Oregon law recognizes consideration of a witness's motive in determining credibility. ORS 44.370 provides, in part:

> A witness is presumed to speak the truth. This presumption, however, may be overcome by the manner in which the witness testifies, by the character of the testimony of the witness, or by evidence affecting the character or motives of the witness, or by contradictory evidence[.]

Emphasis added. In this case, Dr. Murphy has a clear motive to deny that he performed an unauthorized Pap smear; an allegation that has led to disciplinary actions in the military and now threatens the loss of his medical license. In contrast, the record does not contain any evidence

that Patient A had any motive to fabricate her allegation. Nevertheless, the absence of evidence of such a motive is insufficient to overcome the unresolved conflicts in the evidence offered in support of the allegation.

The Board asserts that Patient A's conduct after TSgt. Albright informed her that Pap smears were not performed on base lends additional weight to her allegations. It is true that several witnesses testified that Patient A had a strong emotional reaction to learning that the Pap smear was unauthorized. However, Dr. Murphy's behavior after the allegation was made is also consistent with his denial. He has consistently, aggressively, and often inappropriately, denied Patient A's allegation. He claims not to remember what happened on November 19, 2011 and thus offered no counter-explanation for what occurred that day. This is consistent with his assertion that nothing noteworthy occurred during the PHA. To the extent that the behavior of Patient A and Dr. Murphy bears on the reliability of Patient A's accusation, the evidence of such behavior does not provide a basis for concluding that Dr. Murphy performed an unauthorized Pap smear.

Col. Wedan testified that, during a conversation in January 2014, Dr. Murphy told him something to the effect that he could not believe that the military would "hang a guy out to dry for conducting a procedure that he didn't know he wasn't supposed to do." However, other than this single statement, Dr. Murphy has consistently denied performing a Pap smear. He has never asserted that he performed the procedure under the mistaken belief that it was authorized. Despite the implicit admission entailed in Dr. Murphy's alleged statement, there is no indication in the record that Col. Wedan followed up on this question or asked for any clarification. Col. Wedan did not appear to recall the exact words that Dr. Murphy used, or the context in which the statement was made. Without that context, and given the absence of any similar statements, it is not appropriate to rely on that single statement to infer that Dr. Murphy was admitting to having performed the Pap smear.

Given the nature of this allegation, and the long passage of time between the November 2011 PHA and the December 2013 report, it is impossible to establish what occurred with any reasonable degree of reliability. The evaluation of evidence in this record should not be interpreted as a definitive finding of what occurred. Nor should it be interpreted as casting aspersions on Patient A's credibility. There are only two witnesses to what occurred during the PHA in November 2011, and their testimony is in direct conflict. Dr. Murphy has consistently denied having performed a Pap smear on Patient A. The Board has simply not provided sufficient evidence to overcome that denial.

2. Providing false, misleading, and deceptive information to the Board

The evidence is undisputed that Dr. Murphy submitted a renewal application to the Board that listed his highest level of education was an associate's degree. It is also undisputed that in that same application Dr. Murphy indicated that he could communicate in the Quechua language adequately for clinical purposes. Both statements were false.

In an August 27, 2015 email to the Board, Dr. Murphy, who holds an MD, did not contend that he listed associate degree as an error or an oversight. Rather, he contended that he was referring to an associate degree in nursing that he earned prior to becoming a physician. It is unclear in the record precisely why Dr. Murphy chose to deliberately omit his highest

educational degree, and the one most clearly relevant to his renewal application. Dr. Murphy, as a licensed physician, was likely aware that the Board already knew of his educational background from his previous applications.

The evidence also established that, at the time he answered the question, Dr. Murphy was not fluent in Quechua. Nor could he communicate in that language adequately for clinical purposes. His sole education in the language, according to Dr. Murphy, came from listening to a computer language program during a flight to Ecuador and from interacting with local residents of Ecuador. He admitted that he was not fluent in the language; however, he testified that his Quechua language skills, when he was in Ecuador, were sufficient to allow him to say things like "open your mouth" and "take a deep breath." Dr. Murphy believed that this was sufficient for his purposes as an anesthesiologist.

Despite his belief, however, Dr. Murphy's response was, at the very least, misleading. The renewal application asked for languages in which he could communicate for clinical purposes. It also indicated that the Board might provide information about language available to those seeking providers with specific language competencies. Dr. Murphy's rudimentary Quechua language skills, picked up from listening to a computer language program on a single flight and augmented by sporadic communication with local residents, could not reasonably be considered sufficient for clinical purposes. Nor would it be reasonable for the Board to represent to others that Dr. Murphy was a provider with a "specific language competenc[y]" in Quechua.

The Board alleged that Dr. Murphy's false answers violated ORS 677.190(8) which allows the Board to discipline a licensee based upon:

> Fraud or misrepresentation in applying for or procuring a license to practice in this state, or in connection with applying for or procuring registration.

The evidence established that Dr. Murphy's answers with regard to his education and his language proficiency were false, misleading, and deceptive. The Board has therefore demonstrated that Dr. Murphy violated ORS 677.190(8).

In addition, however, the Board alleged that Dr. Murphy's conduct violated OAR 847-008-0058(1) which provides:

> Omissions or false, misleading or deceptive statements or information on any Board application, affidavit or registration is a violation of ORS 677.190(8) and is grounds for a $195 fine for the first violation, a $250 fine for the second violation, and a $500 fine for the third or subsequent violation. The applicant or licensee may be subject to further disciplinary action by the Board.

However, the Board may not rely upon OAR 847-008-0058 in imposing discipline in this case because the rule was first adopted effective October 8, 2014, nearly one year after Dr. Murphy submitted the application.

The Board also asserted that Dr. Murphy's conduct violated ORS 677.190(1)(a) and (17). ORS 677.190(1)(a) prohibits "Unprofessional or dishonorable conduct." ORS 677.190(17) prohibits "Willfully violating any provision of this chapter or any rule adopted by the board, board order, or failing to comply with a board request pursuant to ORS 677.320." While the

Board demonstrated that information Dr. Murphy provided on the renewal application was false and misleading, the Board did not specifically articulate how those answers constituted unprofessional or dishonorable conduct. Nor did the Board provide evidence that Dr. Murphy's misrepresentations were willful violations.

Nevertheless, the record demonstrated that Dr. Murphy violated ORS 677.190(8) by providing false information on his October 29, 2013 renewal application. The Board may therefore impose discipline on that basis.

3. Filing a False or Misleading Declaration in Multnomah County Circuit Court.

In June of 2014, Dr. Murphy filed a lawsuit against Patient A alleging defamation. Patient A's attorney subsequently filed a motion seeking to have the lawsuit dismissed. On October 3, 2014, in a response to the motion, Dr. Murphy filed a declaration in which he asserted, among other things:

> Plaintiff [Dr. Murphy] can show that an extensive, ten month long investigation conducted by the Washington DC based ORANG Office of Complex
> ///
> Investigations found *no* evidence to support Defendant's [Patient A's] claims and stated that Defendant's claims were completely unsubstantiated.

(Ex. A18 at 4.)

That statement was false. In fact, the OCI concluded that the allegation was "substantiated based upon a preponderance of the evidence." (Ex. A9 at 3) Dr. Murphy does not dispute the language of the report, but he contends that he used the word "unsubstantiated" in a different sense than was used in the report. Dr. Murphy asserts that what he was trying to convey to the court was that the investigation found no evidence to "substantiate" the request. In this regard, he appears to assert that he meant to use the word "substantiate" as synonymous with "corroborate." Given what he was trying to convey, Dr. Murphy asserts that his statement was not false nor was it an attempt to mislead the court.

The difficulty with that position is that Dr. Murphy consciously chose to use the word "unsubstantiated," a word that directly contradicted the actual word used in the report in bold type. Dr. Murphy contends that he did not actually read the report prior to this filing, but instead relied on his attorney's characterization of the report. However, in a September 2014 email to Dr. Murphy disclosing the results of the report, Dr. Murphy's attorney wrote that OCI found the allegation to be "substantiated." Dr. Murphy was aware of that conclusion, and actually reported to the Board's investigator on September 8, 2014 that OCI had concluded that the allegation was substantiated. Given the use of the term "substantiated" in the OCI report, by Dr. Murphy's attorney, and by Dr. Murphy himself, it is simply implausible that Dr. Murphy believed that the term "unsubstantiated" had a different meaning or that it was at all consistent with the actual findings of the report.

It is true that Dr. Murphy later informed the court that his earlier statement was false, writing that he had "unintentionally stated that the OCI did not 'substantiate' the defendant's

allegation of sexual assault when in fact the report did come to that conclusion." Ex. A21 at 3. However, he did not make that correction until after he was informed that the National Guard had instituted discharge proceedings against him based, in part, on his false statement to the court.

Even if he did mean to use the term "substantiated" in a more limited sense, however, the unambiguous impression left by his court filing is that OCI found the allegation to be baseless and that he had been cleared by investigators after "an extensive, ten month long, investigation." (Ex. A18 at 4.) Indeed, Dr. Murphy went further than to state that the allegations were, in fact, unsubstantiated in a narrow sense. He actually wrote that OCI "stated" that the allegations were unsubstantiated. However, the report stated precisely the opposite. Dr. Murphy's statement to the court was false and misleading.

The Board asserts that Dr. Murphy's misrepresentation to the court constituted unprofessional or dishonorable conduct in violation of ORS 677.190(1)(a). ORS 677.180(4)(a) defines "unprofessional or dishonorable conduct," in part as "[a]ny conduct or practice contrary to recognized standards of ethics of the medical * * * profession." In its Second Amended Notice, the Board asserted that Dr. Murphy's conduct violated (among other standards) AMA ethics opinion 9.07 which provides, in pertinent part:

> In various legal and administrative proceedings, medical evidence is critical. As citizens and as professionals with specialized knowledge and experience, physicians have an obligation to assist in the administration of justice.
>
> * * * * *
>
> Physicians who serve as fact witnesses must deliver honest testimony. This requires that they engage in continuous self-examination to ensure that their testimony represents the facts of the case. * * *
>
> * * * * *
>
> Organized Medicine, including state and specialty societies, and medical licensing boards can help maintain high standards for medical witnesses by assessing the claims of false or misleading testimony and issuing disciplinary sanctions as appropriate.

Exhibit A33 at 3.

Dr. Murphy submitted a document to the court that included a false and misleading statement concerning the OCI report. Dr. Murphy signed that document under penalty of perjury and acknowledged to the court that the statement was intended for use as evidence. His conduct was contrary to the standards of the medical profession as demonstrated by AMA ethics opinion 9.07. The Board has therefore established that his conduct constituted unprofessional and dishonorable conduct in violation of ORS 677.190(1)(a).

4. Disclosing Private Health Information and Confidential Medical Records

The Board alleged that Dr. Murphy disclosed private health information and confidential medical records pertaining to Patient A, to the media and to other individuals, without Patient A's consent. Dr. Murphy does not deny that he disclosed Patient A's medical information, including disclosing it to an Oregonian reporter. Rather, he contends that the information was not confidential because it became a matter of public record after the OCI report (which included Patient A's medical records) was filed with the Multnomah County Circuit Court.

However, Dr. Murphy had no reasonable basis to believe that the full report, including Patient A's medical information, was a matter of public record. Patient A's military attorney, Major Adams, provided an 18 page summary of the OCI report to the court in order to counter Dr. Murphy's false assertion that OCI had concluded Patient A's allegation was unsubstantiated. That summary did not include Patient A's medical records. In response, Dr. Murphy filed the entire report – which included summaries of witness interviews, Patient A's National Guard medical records, and significantly more information about Patient A's allegations. Both reports were reviewed by the court in camera and were never made available to the public. Had Dr. Murphy inquired with the court he would have learned that neither the OCI report summary, nor the full report, were matters of public record.

Dr. Murphy's disclosures went well beyond releasing a report to the court. He disclosed information about Patient A's medical records and purported use of medication to multiple parties (including an Oregonian reporter) in the form of a "settlement offer." In that document, Dr. Murphy alleges that Patient A concealed mental-health issues from the military, lists multiple prescription medications taken by Patient A, discloses Patient A's self-reported history of Pap smears, and discloses Patient A's prior pregnancy. Not only did he send the settlement offer to multiple different people, but he also urged them to forward it to "any interested party." Ex. A44 at 27.

The Board alleged that Dr. Murphy's conduct constituted a willful or negligent divulgence of a professional secret without the written consent of the patient, in violation of ORS 677.190(5); an unpermitted use and disclosure of protected health information in violation of HIPPA (Health Insurance Portability and Accountability Act) privacy regulations, 45 CFR § 164.502; and revealing a patient's confidential communications or information without the consent of the patient, in violation of the American Medical Association (AMA) Ethical Opinion 10.01. The Board also determined the conduct was contrary to recognized standards of ethics and conduct that does or might constitute a danger to the patient in violation of ORS 677.190(1)(a), as defined by ORS 677.188(4)(a).

A physician's obligation to maintain the confidentiality of a patient's medical information is well established in law. ORS 677.190(5) prohibits a licensee from "Willfully or negligently divulging a professional secret without the written consent of the patient." In *Humphers v. First Interstate Bank*, 298 Or 706, 720-721, (1985) the Oregon Supreme Court noted "A physician's duty to keep medical and related information about a patient in confidence is beyond question. It is imposed by statute. ORS 677.190(5) provides for disqualifying or

otherwise disciplining a physician for 'willfully or negligently divulging a professional secret.' * * * The actionable wrong is the breach of duty in a confidential relationship[.]"

That obligation not to disclose a patient's confidential information is also a recognized ethical principal as noted in AMA Opinion 5.05. The opinion states, in part, that a physician "should not reveal confidential information without the express consent of the patient, subject to certain exceptions which are justified because of overriding considerations." Ex. A39. Such overriding considerations include the need to protect others when a patient threatens to harm someone, or when disclosure is required by law or by a court order. Even in those situations, AMA Opinion 5.05 states that physicians should "disclose the minimal information required by law, advocate for the protection of confidential information and, if appropriate, seek a change in the law." (*Id.*)

The obligation to protect confidential information is also included in AMA Opinion 5.04 is titled "Communications Media: Standards of Professional Responsibility." (Ex. A38. That opinion specifically addresses disclosure of patient information to the media, noting:

> Physicians are ethically and legally required to protect the personal privacy and other legal rights of patients. When information concerning a specific patient is requested by the media, the physician must obtain the consent of the patient or an authorized representative before releasing such information. The physician may release only the authorized information or that which is public knowledge. The patient-physician relationship and its confidential nature must be maintained.

(*Id.*)

Dr. Murphy argues that he did not violate his ethical duties in releasing Patient A's confidential information. First, he asserts that he had never established a physician-patient relationship because, he claims, "[b]y definition a physician patient relationship is not established by a physician performing screening examination." Murphy Closing Argument at 5. However, Dr. Murphy cites no authority for that proposition. The evidence established that the military required Patient A, and other members of the National Guard, to undergo regular preventative health examinations. The record also established that the military provided medical doctors (including Dr. Murphy) to conduct such examinations. In that context, Dr. Murphy was performing a military *medical* examination that Patient A was required to undergo. In that context, Patient A was clearly relying on Dr. Murphy's medical expertise and his status as a physician.

AMA Opinion 10.0.15 provides that "A patient-physician relationship exists when a physician serves a patient's *medical needs*, generally by mutual consent between physician and patient (or surrogate)." Emphasis added. Although Patient A may not have been seeking medical *treatment*, her need to undergo a health examination by a physician was sufficient to constitute a "medical need" as used in AMA Opinion 10.0.15. The record therefore established that Dr. Murphy had a physician-patient relationship with Patient A.

Dr. Murphy next argued that he did not disclose confidential health information until it became part of the public record, and only with the approval of Patient A's attorney. This

contention is not supported by the record. While it is true that Patient A's attorney provided the Multnomah County Circuit Court a summary of the OCI report, that summary did not include Patient A's confidential information. Second, although it is true that Patient A's attorney did not object to Dr. Murphy providing the full report to the court, he did not consent to the confidential health information being disseminated further. Third, the information provided to the court, contrary to Dr. Murphy's belief, was *not* part of the public record. The OCI reports were reviewed by the judge in camera and were never made available to the general public. Dr. Murphy appears to have assumed that the information was publicly available, but took no steps to confirm that assumption. Dr. Murphy was apparently sufficiently concerned about what he thought was the public disclosure of the OCI summary report that he considered requesting that the record be sealed. Notably, however, this was not out of any concern for Patient A's confidentiality, but out of a concern for his own professional reputation.

In addition, Dr. Murphy argued that he had "the right to defend himself * * * against legal attacks" and that he had "no alternative" other than to disclose the entire report, both to the court and to the public, to "point out all the latent inconsistencies to a public that was now aware of the OCI's conclusions." Murphy Closing Argument at 5. However, it is important to note that Dr. Murphy was the plaintiff in the lawsuit and was therefore not "defending himself" against a legal attack. Secondly, Patient A's attorney filed the summary report to demonstrate that Dr. Murphy had falsely asserted that OCI had "stated" that Patient A's allegations were "unsubstantiated." That use of the summary report did not constitute a "legal attack."

But more significantly, Dr. Murphy's belief that he needed to disclose the full report in order to point out inconsistencies to the *public* is clearly based on his assumption that the OCI summary report was part of the public record.[11] As noted above, that assumption was false. Given the well-established ethical obligation not to disclose patient information, Dr. Murphy should have sought clarification from the court before proceeding on the false assumption that the OCI reports were publicly available. Had he done so, he would have discovered that his assumption was incorrect.

The Board also asserted that Dr. Murphy's disclosure violated HIPPA privacy regulations. However, the record does not establish that Dr. Murphy's conduct in this case fell under those regulations. It is true that HIPAA generally prohibits the disclosure of patient information by "covered entities" except under specifically enumerated circumstances. 45 CFR §164.502(a)(1). An individual physician can be a "covered entity," but only when the physician "transmits any health information in electronic form in connection with a transaction covered [by HIPAA regulations.]" Such transactions generally include "the transmission of information between two parties to carry out financial or administrative activities related to health care." 45 CFR §160.103. While Dr. Murphy did disclose Patient A's confidential information through electronic means (email), the record does not include evidence that he transmitted such electronic information "to carry out financial or administrative activities related to health care." The evidence is therefore insufficient to establish that Dr. Murphy's disclosures violated HIPAA.

[11] It is also important to note that Dr. Murphy first contacted a reporter to discuss Patient A's allegations in June or July 2014, several months before Mr. Adams provided the OCI summary report to the court. While the record does not indicate precisely what information Dr. Murphy disclosed to the reporter, it is clear that he was attempting to bring the matter to the public's attention well before the OCI report was provided to the court.

Nevertheless, Dr. Murphy's disclosures violated ORS 677.190(5). In addition, such disclosures were contrary to well-established ethical standards of the medical profession and thus constituted unprofessional and dishonorable conduct in violation of ORS 677.190(1)(a).

5. Using a False Name when Contacting Tuality Hospital

ORS 677.080(3) provides that no person shall "Impersonate anyone to whom a license has been granted by the Oregon Medical Board." Similarly, ORS 677.190(10) prohibits a licensee from "Impersonating another licensee licensed under this chapter or permitting or allowing any person to use the license."

The evidence established that Dr. Murphy called Tuality Hospital in February of 2015 and asked to speak with Kathryn Gilbert, a registered nurse with whom he used to work and who he knew socially.

However, while Dr. Murphy did not use his own name, the evidence did not establish that he impersonated any specific licensee. In this case, neither Mr. Sparks nor the operator who took the call recognized the name used by the caller. Indeed, Mr. Sparks could not even recall what name was used, other than to say that it sounded like "Hansen," or "Hansom" or something similar. Ms. Gilbert likewise did not recognize the name, but thought it could be a physician she knew named Hamdon. ORS 677.080(3), by its terms, prohibits impersonating "anyone" licensed by the Board. Similarly, ORS 677.190(10) prohibits impersonation of "another licensee." Neither statute expressly prohibits using a fictitious name.

The Board provided evidence that there are a number of physicians licensed by the Board with the last name of Hanson. However, there is no evidence that Dr. Murphy intentionally tried to persuade anyone that he was one of those specific individuals. At most, the record established that Dr. Murphy used a false name – not referring to any specific licensed person – in order to speak with Ms. Gilbert. While such actions are undoubtedly deceptive, they do not violate ORS 677.080(3) or ORS 677.190(10).

6. Failure to Provide Records Requested by the Board

By letter dated May 12, 2015, Board investigator Terry Lewis requested that Dr. Murphy provide a complete copy of the medical records for his treatment and care of two patients, including all records of prescriptions he wrote for the patients in 2013-2014. The letter asked for a response by May 22, 2015. Dr. Murphy never provided the records.

Dr. Murphy testified that he brought the requested records with him to a meeting of the Board's Investigative Committee on June 4, 2015. However, he did not provide them either to the Committee or to Mr. Lewis. After the meeting, Dr. Murphy met with Mr. Lewis and provided him an affidavit from his military attorney. However, Mr. Lewis did not specifically ask for the previously requested medical records and Dr. Murphy did not provide them.

ORS 670.190(17) prohibits "failing to comply with a board request pursuant to ORS 677.320." ORS 677.320(2)(e) allows Board investigators to "compel the production of books,

papers, accounts, documents and testimony pertaining to the matters under investigation." OAR 847-002-0024(1) provides:

> Licensees and applicants must comply with a Board investigation, including responding to inquiries and providing requested materials within the time allowed and complying with a subpoena. Failure to comply with a Board investigation violates ORS 677.190(17) and is grounds for disciplinary action.

Mr. Lewis, as a Board investigator, had the authority to compel Dr. Murphy to provide the requested medical records. Dr. Murphy failed to provide them. Therefore, the record establishes that Dr. Murphy violated ORS 670.190(17).

7. Asking Others to Not Cooperate with the Board's Investigation

The Board alleged that Dr. Murphy attempted to impede its investigation by asking individuals not to cooperate with the Board. The Board asserts that this violated ORS 677.190(1)(a) as defined by ORS 677.188(4)(a). The evidence supports that allegation.

On April 11, 2015, Dr. Murphy sent an email to three members of ORANG leadership and wrote:

> I formally request that if any of my patients (any patients) are contacted by the investigators from the Oregon Medical Board that they do NOT cooperate. [T]he OMB has no investigative authority outside of license holders. If there is a question regarding patient care, the investigator can contact me. This is a significant infringement on patient confidentiality. This of course applies to any and all medical records as well.

Ex. A25; emphasis in original.

As an initial matter, Dr. Murphy's statement that the Board has "no investigative authority outside of license holders" is incorrect. ORS 677.320(1) allows the Board to investigate "any alleged violation of this chapter." ORS 677.080[12] prohibits "any person" from

---

[12] ORS 677.080 prohibits provides:

> No person shall:
>
> (1) Knowingly make any false statement or representation on a matter, or willfully conceal any fact material to the right of the person to practice medicine or to obtain a license under this chapter.
>
> (2) Sell or fraudulently obtain or furnish any medical and surgical diploma, license, record or registration, or aid or abet in the same.
>
> (3) Impersonate anyone to whom a license has been granted by the Oregon Medical Board.

engaging in certain proscribed acts, including the unlicensed practice of medicine. It therefore follows, as general principal, that the Board does have authority under ORS 677.320(1) to investigate non-license holders.

Furthermore, the Board has specific statutory authority to contact witnesses. ORS 677.320(2) provides:

> In the conduct of investigations, the board or its designated representative may:
>
> (a) Take evidence;
> (b) Take the depositions of witnesses, including the person charged;
> (c) Compel the appearance of witnesses, including the person charged;
> (d) Require answers to interrogatories; and
> (e) Compel the production of books, papers, accounts, documents and testimony pertaining to the matter under investigation.

Dr. Murphy's email, "formally" asking that witnesses not cooperate with the Board was a clear attempt to impede the Board's investigation. The Board asserts that this constituted unprofessional or dishonorable conduct in violation of ORS 677.190(1)(a) as defined by ORS 677.188(4)(a).

As noted by Dr. Egener, and supported by *Medical Professionalism in the New Millennium: A Physician's Charter*, and the article by Dr. Zwick, "Toward a Normative Definition of Medical Professionalism," the ethical obligations of physicians include a standard of professional conduct owed not just to patients, but to society as a whole. Logically entailed in that obligation, is a duty to cooperate with the Board in its statutory obligation to regulate the practice of medicine, including the Board's duty to investigate allegations of unprofessional conduct. *See* ORS 677.015 and 677.320. That important public duty is seriously undermined when a physician attempts to prevent or discourage others from cooperating with a Board investigation into the physician's conduct. By formally asking patients not to cooperate, Dr. Murphy attempted to undermine the Board's investigation and thus engaged in unprofessional and dishonorable conduct in violation of ORS 677.190(1)(a).

8. Pattern of Belligerent and Obstructive Behavior

The Board alleged that Dr. Murphy engaged in a pattern of belligerent and obstructive behavior during the course of the Board's investigation and that such behavior constituted unprofessional or dishonorable conduct in violation of ORS 677.190(1)(a) as defined by ORS 677.188(4)(a). The evidence supports that allegation.

Dr. Murphy self-reported Patient A's allegations to the Board. His initial contacts with the Board were professional and appropriate. However, over the course of the investigation his communications became increasingly hostile, belligerent, and offensive. He refused to cooperate with the Board's investigation and "formally" encouraged witnesses to do the same

---

(4) Except as provided in ORS 677.060, practice medicine in this state without a license required by this chapter.

He stated that Patient A was going to jail, and ended the email with "the great and powerful Oz has spoken." *Id.*

His emails to members of the military, including former colleagues and those involved in investigating Patient A's allegations, were hostile, belligerent, and unprofessional, including his suggestion that a military investigator "be shot." He accused female officers of acting as politically popular "female activists." He implied that Colonel Kjos was using the allegation as a way to advance her career. His communication with Mr. Shapiro was often hostile and unprofessional. Over the course of the litigation (which he initiated) and the various investigations, he either filed or threatened to file numerous complaints with the state bar, with the Inspector General's office, and with Congress.

The Board asserts that this constituted unprofessional or dishonorable conduct in violation of ORS 677.190(1)(a) as defined by ORS 677.188(4)(a). In support of that assertion, the Board provided testimony from Barry Egener, MD, a board certified internist and the medical director for both the Foundation for Medical Excellence and its subdivision, the Northwest Center for Physician-Patient Communication, and the author of numerous journal articles on the topics of medical professionalism and physician-patient communication. Dr. Egener identified three broad domains of medical professionalism, focused on a physician's relationship with patients, with colleagues, and with society. In Dr. Egener's view, Dr. Murphy's hostile, demeaning, and belittling behavior fell far short of his obligations as a professional.

In addition, both the Board and Dr. Egener placed great emphasis on concepts of professionalism outlined in *Medical Professionalism in the New Millennium: A Physician's Charter* (the Charter), published by the American Board of Internal Medicine in 2004. Like Dr. Egener, the Charter emphasizes the societal obligations of a physician as a professional, including the obligation to maintain standards of competence and integrity, and to promote public trust in physicians. Notably, the Charter emphasizes the physician's duty to:

> [W]ork collaboratively to maximize patient care, be respectful of one another, and participate in the process of self regulation, including remediation and discipline of members who have failed to meet professional standards. * * * These obligations include engaging in internal assessment and accepting external scrutiny of all aspects of their professional performance.

Ex. A49 at 2.

The Board also relied on the professional obligations set forth in the article "Toward a Normative Definition of Medical Professionalism," published in the journal *Academic Medicine* in June 2000, by Herbert M. Zwick, MD. The obligations identified in the article include a responsibility to adhere to high ethical and moral standards, to act with honesty and integrity, to exercise accountability for themselves, and to reflect upon their actions and decisions.

///

///

In addition, the Board relied on AMA Opinion 8.02 which emphasizes the professional obligations of physicians outside of the clinical setting. The opinion notes that physicians must be held to standards of professionalism in order to earn the trust of both patients and the general public.

Dr. Murphy's conduct fell well short of his obligations as a professional. He openly mocked and belittled his colleagues, Patient A, and numerous attorneys.[13]. He referred to Patient A, in an email to multiple recipients (including a reporter), as "mentally deranged." He threatened numerous people with complaints to various regulatory bodies. In short, his conduct was hostile, belligerent and not consistent with his obligations as a physician and a professional. Indeed, his conduct violated his professional obligations in the three domains identified by Dr. Egener: he belittled a patient, he mocked his colleagues, and he made public comments (including to a reporter) that detracted from public trust in the medical community. The evidence therefore established that Dr. Murphy engaged in a pattern of belligerent and obstructive behavior during the course of the Board's investigation and that his behavior constituted unprofessional or dishonorable conduct in violation of ORS 677.190(1)(a) as defined by ORS 677.188(4)(a).

9. Sanction

ORS 677.205 authorizes the Board to sanction a licensee for violations of the Medical Practices Act as follows:

> (1) The Oregon Medical Board may discipline as provided in this section any person licensed, registered or certified under this chapter who has:
>
> * * * * *
>
> (b) Been found to be in violation of one or more of the grounds for disciplinary action of a licensee as set forth in this chapter;
>
> * * * * *
>
> (2) In disciplining a licensee as authorized by subsection (1) of this section, the board may use any or all of the following methods:
>
> (a) Suspend judgment.
>
> (b) Place the licensee on probation.
>
> (c) Suspend the license.

[13] The Board has removed discussion of Dr. Murphy's rude and insulting comments made to and about Board personnel, as well as his non-violent threats against the Board and personnel. Although Dr. Murphy failed to demonstrate civility or respect in his dealings with and comments about Board personnel, Dr. Murphy was exercising his 1st Amendment right to speak out against the government. While the Board finds Dr. Murphy's *manner* of exercising that right regrettable, it is not a basis for professional license discipline.

(d) Revoke the license.

(e) Place limitations on the license.

(f) Take such other disciplinary action as the board in its discretion finds proper, including assessment of the costs of the disciplinary proceedings as a civil penalty or assessment of a civil penalty not to exceed $10,000, or both.

The Board has proposed revocation of Dr. Murphy's medical license, assessment of a $10,000 civil penalty, and assessment of the costs of the proceedings.

Recommending revocation of a physician's medical license is a serious matter. Here, the determination of whether revocation is appropriate comes down to whether the Board can meet its statutory obligations to the public while still allowing Dr. Murphy to remain licensed.

The Board proposed revocation of Dr. Murphy's license on multiple grounds; revocation of Dr. Murphy's license would be appropriate for any one of a number of those grounds, including inappropriately disclosing confidential patient information, failing to provide documents properly requested by the Board, asking witnesses not to cooperate with the Board's investigation, and engaging in a course of belligerent, unprofessional, and dishonorable conduct[14]. That he committed so many of them, certainly warrants revocation of Dr. Murphy's license.

By his behavior, Dr. Murphy has not demonstrated the sound judgment and professional responsibility required of physicians. Notably, he treated his ethical obligation to safeguard a patient's confidential information in a cavalier and unprofessional manner. In the name of protecting *himself* in the eyes of the public, Dr. Murphy used Patient A's medical records to smear her and to portray her as "mentally deranged." He filed a defamation action against the patient before the military had even concluded its investigation. After the military issued the results of the investigation, Dr. Murphy intentionally misled the court as to the results of that investigation in an ultimately unsuccessful attempt to keep the case from being dismissed.

His communication with and about his colleagues has been unnecessarily vituperative and unprofessional. If he were ever to practice medicine in the future, it would likely be difficult for him to reestablish professional relationships with colleagues based on mutual respect and trust.

He urged others not to cooperate with the Board and he failed to provide documents that the Board requested during the course of its investigation. While going through an investigation is undoubtedly a stressful ordeal for a physician, the Board must be able to rely on the cooperation and professionalism of licensees in order for the Board to perform its statutory obligation to regulate the medical profession.

[14] The Board removed the ALJ's editorial comment regarding which of the alleged violations he believed to be most notable. Any of the serious grounds for discipline found in this case would make revocation appropriate.

The Board has established sufficient grounds for revocation of Dr. Murphy's license, and that the sanction is appropriate under the circumstances. Moreover, it is within the scope of the Board's authority to assess a $10,000 civil penalty and the costs of the proceeding against Dr. Murphy. In light of the number of serious violations, and Dr. Murphy's repeated instances of unprofessional and belligerent actions, those penalties are also appropriate. The costs for this proceeding are as follows:

Total Dept. of Justice costs		$ 58,383.05
AAG – 252.7 hours @ $175/hr:	44,222.50	
AAG – 31.2 hours @ $182/hr:	5,678.40	
Paralegal – 81.7 hours @ $90/hr:	7,353.00	
Paralegal – 1.3 hours @ $91/hr:	118.30	
Admin staff – 16.4 hours @ $55/hr:	902.00	
Other DOJ Charges (motor pool/witness fee/postage):	108.85	
Office of Administrative Hearings costs		$ 43,511.34
OAH Direct Charges:	26,597.70	
OAH Admin. Charges:	16,803.43	
OAH working capital charge:	110.21	
AT&T Charges		$ 5.35
Witness Accommodations		$ 229.45
Security		$ 4,927.50
Court Reporter Appearance - Naegeli Corp.		$ 5,083.93
TOTAL COSTS:		**$ 112,140.62**

ORDER

After considering all of the above, the Oregon Medical Board adopts the findings of fact and conclusions of law in the Proposed Order by ALJ Mann, as reflected in this document, and issues the following order:

1. The Oregon medical license of Licensee James Michael Murphy, MD is revoked.
2. Licensee is assessed a civil penalty of $10,000, which is due and payable as outlined in ORS 183.745(2).

///

///

///

3. Licensee is assessed the cost of these proceedings, in the amount of $112,140.62. Costs are due within 60 days of the issuance of this Final Order upon Reconsideration by the Board.

DATED this 28th day of June, 2018.

OREGON MEDICAL BOARD
State of Oregon

Via U.S. Mail

James Michael Murphy, M.D.
[redacted] Riordan Hill Dr.
Hood River, OR 97031

Dr. Murphy:

The Nevada State Board of Medical Examiners (Board) received your Request for Copies of Public Records form on April 11, 2024, requesting copies for "Malpractice" and "Board Disciplinary Action" for James Michael Murphy, License No. 25399.

The Board responds as follows:

1. There are no "Malpractice" documents to provide; and
2. There are no "Board Disciplinary Action" documents to provide.

Please note that pursuant to NRS 630.336 a complaint filed with the Board, and any and all documents compiled as a result of an investigation conducted to determine whether to initiate disciplinary action are confidential. *See* NRS 630.336(4).

This completes your request, if you have any further questions or concerns, please do not hesitate to contact me at [redacted]

Respectfully,

Mercedes Fuentes
Legal Assistant
Nevada State Board of Medical Examiners

Provide explanation below:

I am writing to provide a sincere and transparent account of the events leading to my 2012 conviction as outlined in my Controlled Substance Application for the Nevada State Board of Pharmacy. On March 9, 2012, at the age of 18, I became involved in an unfortunate situation, involving my older brother, [redacted], who was serving a prison sentence for carjacking. In order to protect my brother' s safety while in prison, I was pressured into transporting contraband into prison grounds. Fearful for Harris's safety, I reluctantly complied with his request, receiving a package at my home that contained illicit substances. Subsequently, during a family visiting prison check-in, the illegal package was discovered, leading to my conviction under Penal Code section 182(A)(1) for conspiracy and Health and Safety Code section 11351 for possession of a controlled substance for sale. I want to highlight that I fully cooperated with law enforcement during the investigation and subsequent legal proceedings. The court sentenced me to 6 months of house arrest/work release, an experience that profoundly impacted my life.

Since that regrettable incident, I have dedicated myself to personal growth and professional development. I completed my undergraduate degree in Anthropology with a minor in Neuroscience from the University of California, Riverside, in December 2015. Subsequently, I earned my Medical degree from St. George University's School of Medicine in May 2021, achieving commendable scores on USMLE Step 1, Step 2 and Step 3. Currently, I am close to completing my third and final year of Internal Medicine residency at Sunrise GME MountainView Hospital in Las Vegas, Nevada, with additional awards received for Physician Excellence, and Best Overall Resident PGY-1 & PGY-2 as well as Most Professional Resident PGY-1 and PGY-2.

I acknowledge the gravity of my past mistake and take full responsibility for my actions. Since 2012, I have actively sought rehabilitation, developed peer mentorship programs and earned positive recommendations from professors while obtaining my undergraduate and medical degree. Tragically, in 2019 my brother lost his life battling against drug addiction. I have dedicated my life' s work to providing excellent patient care with emphasis on behavioral health and addiction management, in honor of my brother. I am eager to contribute to the medical community in Nevada and uphold excellent standard of care. Attached please find all related and required documentation of the charges as well as the expungement/dismissal that was granted in 2016. Your attention to this matter is appreciated and I look forward to your response.

Re: Sean Darmal, Applicant – MD Application Criminal Detention Disclosure Statement.

To Whom It May Concern:

This letter will confirm that our law firm has been retained to represent Mr. Sean Darmal in potential Nevada Board of Medical Examiners ("Board" or "BME") disciplinary proceedings should the attached application be denied. This correspondence shall serve as a formal written explanation of my client's Medical Doctor ("MD") License Application criminal conviction disclosure statement. My client submits this statement formally disclosing facts relating to his March 9, 2012, conviction for a violation of Penal Code section 182(A)(1) 'conspiracy to commit crime' and Health and Safety Code section 11351 'possess controlled substance for sale.' (*See*: Ex. 1 "Case No.: RIF 1102980 Complaint, Declaration, Plea Form and Sentencing Memorandum.")

I.
STATEMENT OF FACTS LEADING TO CONVCITION

The facts leading to the conviction are as follows: Mr. Darmal was only 18 years old when his now-deceased older brother, [redacted] with whom he was very close, was serving a jail sentence for carjacking. The carjacking occurred when [redacted] was 18 years old, which was his second strike, and he was serving a 13 year prison sentence. At the time the events which led to conviction occurred, Mr. Darmal's brother [redacted] was 26 years old and had spent his adult life in prison. Although Mr. Darmal was the younger brother, Mr. Darmal was the person his brother [redacted] relied upon the most, including, but not limited to, sending

him care packages to prison and putting money on his 'books.' Mr. Darmal was eight years younger than his brother and was still very naïve at that time.

While in prison, [redacted] had negotiated some sort of deal with another inmate that involved getting contraband into the prison. [redacted] manipulated Mr. Darmal into getting involved in the situation by using Mr. Darmal's loyalty towards [redacted] to leverage him into breaking the law. [redacted] had arranged for a third-party to drop off a package to Mr. Darmal which he would bring the contents back to [redacted] in the prison. This unknown individual came to Mr. Darmal's home and dropped off a small package that was tightly wrapped with duct tape and approximately the size of a Snickers bar. Mr. Darmal did not know what was in the package, having no personal experience with drugs or drug deals, but did assume that it was something illicit. Mr. Darmal was fearful and did not want to break the law, and he contacted his brother [redacted] and begged him to get out of bringing the contents back to the prison. Once again, [redacted] played on Mr. Darmal's naivety and loyalty by telling Mr. Darmal that his life was in "imminent danger" if Mr. Darmal did not go through with the delivery. Unfortunately, Mr. Darmal's youthful innocence and fear for his brother's safety overwhelmed his sensibilities and he was duped into committing an illegal act in effort to protect his brother's safety from other prison inmates.

During the prison check-in process, Mr. Darmal was searched, and the illegal package was discovered. Mr. Darmal fully cooperated with prison officials and law enforcement. Consequently, Mr. Darmal was convicted and sentenced to 6 months of house arrest/work release. Mr. Darmal just wanted to help his incarcerated brother but ultimately changed the course of his life and he will have to live with the ramifications of his mistake for the rest of his personal and professional life. Mr. Darmal successfully completed the terms of his criminal sentence and has expunged the conviction. (*See*: Ex. 2. "June 7, 2016, Order for Dismissal.")

Mr. Darmal's father is a Child Psychiatrist and, many years later, explained that [redacted] suffered from Bipolar Disorder which led to his substance abuse and criminal behavior. Mr. Darmal's brother was released from prison in 2018 and, at that time, he admitted to Mr. Darmal that he had been using heroin during his incarceration until one year before his release but was "clean and sober" upon his release. Unfortunately, [redacted] began

using heroin again after his release from prison and died of a drug overdose May 1, 2019.

II.
PROFESSIONAL BACKGROUND AND EVIDENCE OF ABILITY TO SAFELY PRACTICE MEDICINE

In December 2015, Mr. Darmal obtained his undergraduate degree in Anthropology, with a minor in Neuroscience, from the University of California, Riverside ("UC Riverside."). (*See*: Ex. 3. "UC Riverside Transcripts," and Ex. 4. "Curriculum Vitae of Mr. Sean Darmal.") In 2017, Mr. Darmal was accepted into medical school at St. George University's School of Medicine ("SGU"), graduating in May 2021 with a cumulative average of 87.31% (B+ weighted letter grade). (*See*: Ex. 5. "SGU Transcripts.") Mr. Darmal has also completed both USMLE Step 1 and Step 2 with a score of 225 and 235. (*See*: Ex. 6. "USMLE Step 1 and Step 2 Test Results.") After Mr. Darmal's experiences with and personal loss of his brother to addiction, Mr. Darmal was compelled to learn more about behavioral health and addiction management. Mr. Darmal discovered his passion for helping others, bringing awareness to addiction related issues and providing proper medical treatment to those who are marginalized and/or disenfranchised. During Mr. Darmal's clinical trials he had the opportunity to work, intimately, with surgeons, psychiatrists and primary care specialists, many of whom continue to be his mentors and support his MD application.

Due to his extremely positive experiences with professional mentors, Mr. Darmal has a passion to provide mentorship to other aspiring medical students. Mr. Darmal has developed, through the YouTube platform, videos that address mental health issues that many students face while in school and provides preparedness and coping skills educational instruction. (*See*: Ex. 4. "Curriculum Vitae of Mr. Sean Darmal.") Through these online videos, Mr. Darmal has been able to help thousands of students who are pursuing a career in medicine. Additionally, Mr. Darmal has personally helped hundreds of students with medical school applications, personal statements and general guidance for their preparation for medical school.

III.
CONCLUSION

Mr. Darmal knows what he did 10 years ago was wrong and accepts full accountability for his youthful indiscretion and criminal actions. Mr. Darmal has suffered

years of crippling stress, anxiety, depression and PTSD due to his brother's insistence that he attempt to smuggle illicit substances into his prison, but instead of giving up Mr. Darmal pushed himself to overcome the hurdles created by his poor choices that resulted in the conviction. For the past decade, Mr. Darmal has worked tirelessly to rehabilitate and become the best version of himself. Learning from his experience, instead of allowing the misstep in judgment as a youth bring him down, Mr. Darmal has focused his desire to help others in a productive and positive fashion by volunteering at hospitals, founding a peer mentorship program at his undergraduate college, and is highly regarded by his professors and peers. (*See*: Ex. 7. "Letters of Professional Recommendation.")

Mr. Darmal is an exceptional professional who has earned the right to begin his medical career, despite the prior conviction, and will be a contributing member of the Nevada medical community upholding the BME's expected level of excellence and has no criminal record aside from the single conviction leading to this disclosure statement. Mr. Darmal has grown and matured, learning from his mistake. Mr. Darmal deeply desires to begin his professional career as an MD in Nevada and is willing to provide the Board with any additional information or documentation needed to successfully process and approve his application for a medical license. Please confirm receipt of this correspondence and provide notice of approval or denial of Mr. Darmal's MD Application, or your request for additional information or documentation, at your earliest opportunity.

Thank you for your attention and anticipated cooperation. Should any of your representatives have any need, please do not hesitate to contact me at our San Diego offices. I look forward to hearing back from your agency and working to resolve this matter favorably for all involved parties.

Sincerely,

Kevin C. Murphy

AUG 04 2011

People of the State of California	Case #: CRC-ISU-11-06-0122
v.	Declaration in Support of Arrest Warrant
DARMAL, SEAN	AUG 19 2011

The undersigned, Michael Vega declares that he is a Correctional Peace Officer with the California Department of Corrections.

On June 11, 2011, at approximately 0945 hours, the California Rehabilitation Center's (CRC) Investigative Services Unit (ISU), concluded a conspiracy to introduce narcotics into CRC for distribution and sales investigation involving Inmate [redacted] V5094T Dormitory 214 bed 83U, and his approved civilian visitor Sean Darmal CDL#E2166009.

During the course of the intelligence gathering, CRC ISU determined while housed at CRC, Inmate Darmal, conspired with his approved visitor civilian Sean Darmal (brother) to introduce suspected Heroin into CRC for the purpose of distribution and sales, utilizing CRC's Men's Visiting Room during a scheduled contact visit. The information gathered during this investigation included information obtained from an illegal cellular telephone utilized by Inmate Darmal while housed at CRC along with departmental records.

On June 12, 2011, at approximately 0945 hours, CRC ISU was notified that civilian Sean Darmal was at the CRC Visiting Processing Center with the intent to visit Inmate [redacted]. ISU staff contacted Sean Darmal at the Visiting Center and escorted him to the ISU Office located in module "D".

Upon arrival in the ISU Office, Officer Ellis and I advised Sean Darmal that ISU had reasonable suspicion to believe that he was in possession of contraband intended for Inmate [redacted]. Sean Darmal responded by saying, "I do have something." Sean then asked, "Am I going to jail?" Officer Ellis presented Sean Darmal with a California Department of Corrections and Rehabilitation (CDCR) 888 Form, Notice of Request for Search, and asked him if he would consent to an unclothed body search by two male correctional officers. Sean Darmal agreed to the search and voluntarily signed the Notice of Request for Search Form.

Officer Ellis and I escorted Sean Darmal to the ISU staff restroom to conduct the unclothed body search. During the search, Sean Darmal retrieved a latex bindle secreted underneath his scrotum. I ordered Sean Darmal to place the bindle into a plastic bag I was holding. Sean Darmal then retrieved a second latex bindle that was concealed between his buttocks. Sean Darmal relinquished the second bindle to me by placing it into the plastic bag I was holding. Officer Ellis and I completed the unclothed body search with no additional contraband discovered.

At the completion of the search, Officer Ellis and I escorted Sean Darmal back to the ISU Office. Sean Darmal remained in the custody of Officer Ellis while I processed the two latex bindles.

I photographed the latex bindles and weighed each of the bindles individually utilizing an Acculab Portable Electronic scale.

Bindle #1: 26.1 Grams total weight, inclusive of packaging.

As I began removing the outer latex packaging of the bindle, I discovered two additional layers of packaging concealing a clear cellophane bindle of a brown tar like substance I suspected to be Heroin. I tested a small portion of brown tar like substance utilizing a Narcotics Analysis Reagent Kit II (NARK II), specifically for Heroin. The test yielded a positive result for Heroin.

Bindle #2: 28.6 Grams total weight, inclusive of packaging.

As I began removing the outer latex packaging of the bindle, I discovered an additional layer of packaging concealing a clear cellophane bindle containing a brown tar like substance I suspected to be Heroin.

I photographed, marked and placed all evidence into Evidence Envelopes and relinquished custody of the containers to ISU Evidence Officer Ellis for placement in the ISU Evidence Room.

I advised Officer Ellis that the latex bindles recovered from Sean Darmal contained suspected Heroin.

I witnessed as Officer Ellis I advised Sean Darmal of his rights pursuant to the Miranda Decision, due to being in violation of Penal Code section 182, "Conspiracy", Penal Code 4573, "Penalty for Smuggling Controlled Substance into Prison or Jail", Penal Code 4573.5, "Felony to Bring Drugs or Alcohol Beverages into Penal Institution", Penal Code 4573.6, "Felony to Possess Controlled Substances Where Prisoners are Kept, Penal Code 4573.8, "Felony to Possess Drug or Paraphernalia in Prison or Jail" and Health and Safety Code section 11351, "Possession for Sale or Purchase for Purpose of Sale".

Sean Darmal acknowledged he understood his rights and elected to answer the following question:

Q1: Who did you come to visit?
A1: [redacted]

Although Sean Darmal agreed to be interviewed, after he responded to the first question asked he requested to have a lawyer present prior to answering any further questions. Sean Darmal specifically said, "My parents told me to ask for an attorney". Based on Sean Darmal's request, no other questions were asked and the interview was terminated.

ISU Lieutenant J. Cleland and Officer Garza transported Sean to the Robert Presley Detention Center for booking.

Wherefore, declarant prays that an Arrest Warrant issue for the arrest, day or night, for DARMAL, SEAN Description of Sean Darmal: [redacted]

MAR 1 9 2012

SUPERIOR COURT OF CALIFORNIA, COUNTY OF RIVERSIDE
FELONY PLEA FORM

People v. Sean Daemal Case Number RIF1102980

FILED
SUPERIOR COURT OF CALIFORNIA
COUNTY OF RIVERSIDE
MAR 09 2012

A. ADVISEMENT OF RIGHTS:

SD 1. I have the right to a speedy and public trial by a judge or jury.
SD 2. At my trial, I have the right to face and cross-examine any witnesses against me.
SD 3. I have the right to ask the court to compel witnesses to attend my trial at no expense to me, and to present evidence in my defense.
SD 4. I have the right against self-incrimination. I cannot be forced to testify against myself, but I also have the right to testify in my own defense if I choose to do so.
SD 5. I have the right to be represented by a lawyer throughout my trial. If I cannot afford one, the court will appoint one to represent me at no cost to me.

B. CONSEQUENCES OF PLEA (1 through 5 apply to everyone):

SD 1. As a convicted felon, I will not be able to own or possess any firearm. I will be ordered to pay restitution to the victim(s) if the victim(s) suffered economic harm. I agree that the amount of victim restitution is _____. If the parties do not agree, the probation department will determine the amount. If I disagree with the amount, I must promptly request a hearing.
SD 2. Charges and/or enhancements may have been dismissed as part of this negotiated disposition with the District Attorney's Office. I agree that I will be ordered to pay restitution to the victim(s) of the dismissed charges and/or enhancements if the victim(s) suffered economic harm.
SD 3. I will be ordered to pay a restitution fine of at least $200 and not more than $10,000. There are several other fines and fees that will be imposed as a result of this guilty plea.
SD 4. If I am not a citizen of the United States, I understand that this conviction may have the consequences of deportation, exclusion from admission to the United States, or denial of naturalization pursuant to the laws of the United States.
SD 5. If I receive a state prison term, I will be placed on parole or local community supervision after completing the term. Parole or local community supervision will be for the term specified by law. Generally, parole is for up to five years and local community supervision is for up to three years. If my term of imprisonment is life, and I am ever granted parole, it may be for life. If I violate any of the terms of parole, I could be returned to state prison for up to one year per violation. If I violate any of the terms of local community supervision, I could be incarcerated in county jail for up to 180 days per violation.
SD 6. If I am sentenced to county jail, a portion of my term may be suspended and, upon release from jail, I may be placed on supervised release. If I violate any of the terms and conditions of my supervised release, I could be returned to county jail for up to the remainder of my suspended jail term.
SD 7. I will be required to give a DNA sample.
X 8. My driving privileges will be suspended or revoked by the Department of Motor Vehicles.
_____ 9. I understand that because I am pleading guilty to a qualifying offense, I will be ordered to register with law enforcement as a(n) HS 11590 and that if I fail to register or to keep my registration current for any reason, new criminal charges may be filed against me. I understand that registration as a sex offender is a life long requirement.
X 10. I will be required to undergo AIDS testing.
X 11. Being under the influence of alcohol or drugs, or both, impairs your ability to safely operate a motor vehicle. Therefore, it is extremely dangerous to human life to drive while under the influence of alcohol or drugs, or both. If I drive while under the influence of alcohol or drugs, or both, and as a result of that driving, someone is killed, I can be charged with murder.
X 12. Other _____.

C. DEFENDANT'S STATEMENT:

SD 1. All the promises made to me are written on this form, or stated in open court.
SD 2. No one has made any threats to me or anyone close to me, or placed any pressure of any kind on me in order to make me plead guilty.
SD 3. I understand that if I violate any of my probation terms, I could be sentenced to the maximum custody term possible under these charges as set forth under "Plea Agreement", Item 2.
SD 4. I have had adequate time to discuss with my attorney (1) my constitutional rights, (2) the consequences of any guilty plea, and (3) any defenses I may have to the charges against me.
SD 5. As part of this plea, I (circle one) do / do not waive any right to appeal that I may have.

SS 6. Factual Basis. I agree that I did the things that are stated in the charges that I am admitting.

D. **PLEA AGREEMENT:**

1 I will enter a guilty plea to the following charges and enhancements:

CT 2: PC 182(a)(1), CONSPIRACY TO COMMIT A VIOLATION OF H&S 11351.

The Prosecutor will dismiss any charges and enhancements that I do not admit.

2. The maximum possible custody commitment for the admitted charges and enhancements is: 4 YRS

3 My guilty pleas are conditional on receiving the following considerations as to sentence:

a) Formal probation will (circle one) be 1) denied; 2) granted; 3) decided by the court. If granted, the length of formal probation may be up to five years. If probation is granted, a suspended state prison sentence or felony county jail term (circle one) will/will not be imposed. A suspended felony county jail term may include a period of supervised release for up to the remainder of the suspended jail term. The following legal restrictions apply to a decision to grant probation in this case:

b) The custody term will be 180 DAYS - WEEKEND (stip)

The custody term shall not be more than ____ (top)

The custody term shall not be less than ____ (floor)

c) Fines:

d) Other:

e) Credit for time served will be 1 days actual; 0 days 4019/2933; 1 total.

E. **SIGNATURES**

District Attorney: The above is a correct statement of the Plea Agreement between defense and prosecution.

3.9.2012 / 3-8-2012 — Date — BRYAN BOUTWELL — Print Name — Sign Name

Defendant: I have read and understand this entire document. I waive and give up all of the rights that I have initialed. I accept this Plea Agreement.

3/9/12 — Date — Sean Oajmal — Print Name — Sign Name

Defense Attorney: I am the attorney for the defendant. I am satisfied that (1) the defendant understands his/her constitutional rights and understand that a guilty plea would be a waiver of these rights; (2) the defendant has had an adequate opportunity to discuss his/her case with me, including any defenses he/she may have to the charges; and (3) the defendant understands the consequences of his/her guilty plea. I join in the decision of the defendant to enter a guilty plea.

3/9/12 — Date — Gregory Comings — Print Name — Sign Name

Interpreter: Having been duly sworn, I have translated this form to the defendant in the ____ language. The defendant has stated that he/she fully understood the contents of the form prior to signing.

☑ TFG Pay restitution fine of $ 240 (PC § 1202.4(b))
☐ TVC4 Pay 10% of the restitution fine for administrative fee of $_____ (PC § 1202.4(l))
☑ TVF1 Pay probation revocation restitution fine of $ 240 (PC § 1202.44) (Stayed)
☐ TVF3 The stay of your obligation to pay the probation revocation restitution fine of $_____ is dissolved (PC § 1202.44) Payment is due immediately
☐ PDT Payment of fines due by _____ or appear at 7:30 am on that date in this court.

☐ TCE Pay victim restitution of $_____ (PC § 1203.1(a)(3))
☐ TCDZ Pay victim restitution, amount to be determined by the Probation Department, disputes as to the amount to be resolved at a court hearing. (PC § 1203.1(a)(3))
☐ TCO Pay interest on restitution of 10% per annum from _____ (PC § 1202.4(f)(3)(G))
☐ TCH1 Pay restitution of $_____ _____ to DPSS and report to DPSS Recovery Unit within 5 days of sentencing
☐ TXT4 Complete and return a Financial Disclosure form to the Court on or before _____, or within 5 days of release
☑ TYGA If your fine(s) or actual restitution is not paid in full more than 120 days before completion of probation you are ordered to re-contact Enhanced Collections and complete a new Financial Disclosure Statement form. (PC § 1202.4(f)(11))
☑ DORFS Report to cooperate with Enhanced Collections immediately or within five business days of release from custody

ALCOHOL / DUI / DRIVING LICENSE

☐ TDA Do not consume alcoholic beverages, do not frequent places where they are main item of sale.
☐ TDE Do not drive with any measurable amount of alcohol or drugs in your blood, or within 8 hours of consuming alcohol or any drugs
☐ TDF If arrested for driving under the influence of intoxicants, submit to blood, breath, or urine test as requested by the arresting officer
☐ TDH Do not drive without valid license, insurance & registration
☐ TDU1A Install an ignition interlock device in each vehicle you own or operate by _____ and maintain for a period of _____ months from the date of reinstatement of your driving privilege.
☐ TDM2 File proof of installation of IID by _____
☐ TDM12 IID installation is stayed as long as you do not own or operate any vehicle.
☐ PHC Provide proof of installation of IID by returning the verification form to the Court by _____ or appear in _____ in Dept. _____ on that date.

☐ TDG1 Enroll within 5 days and then complete:
AB541 - 1st Offender Drinking Driver Program
☐ TDG3 AB1353 - 1st Offender Drinking Driver Program (w/alcohol)
☐ TDG2 SB38 - 18 month Offender Drinking Driver Program
☐ TDG4 UB1176 - Alcohol and drug education class.
☐ TDG7 Enroll in the TEMPO / Hemm Program by _____
☐ TDN1/A Enroll by _____ and successfully complete, at your expense, the Secure Continuous Remote Alcohol Monitor (SCRAM) Program, through LCA Client Services
☐ TDN1B Pay the SCRAM monitoring and installation fees in an amount and manner as determined by LCA Client Services, and as directed by the Probation Officer.
☐ DMVNSR DMV shall not issue a restricted drivers license
Your license:
☐ TXD3 Is suspended for ____ months. Surrender license to the Court.
☐ TXG1 Shall be revoked by DMV (VC § 13202(b))
☐ TXG4A Is revoked for _____ months and until you complete the SB38 drinking driver program, if ordered
☐ THV Enroll in dealing safely classes by _____

DRUG / SEARCH / TEST PROGRAM TERMS

☑ TDL1 Do not knowingly use or possess any controlled substances, unless lawfully prescribed for you.
☑ TEC Submit to chemical test of your blood, saliva, breath or urine or any reasonable physical test upon request of any law enforcement or probation officer
☑ TEA1 Submit to immediate search of person/auto/home/premises/garage/storage areas & personal/leased property, with or without cause, by PO or law enforcement officer.
☐ TEA1A Search for the detection of _____
☑ TCF9 Provide a DNA sample as directed by Probation or law enforcement personnel (PC § 296(a))
☐ TXJ1A Submit to HIV/AIDS testing by RSO (In-custody)/County Health Department within 5 days of this order (PC § 1202.1)
☐ THP Enroll in AIDS education program by _____ and complete by _____

☐ THK1 Register with local law enforcement within 5 days from today or within 5 days upon release from custody.
PC § 290
☑ THK2 H&S § 11590
☐ THK3 PC § 457.1
☐ THK4 PC § 186.30
☐ TDB Attend _____ AA meetings or approved alternative program. Provide proof of completion to probation/court by _____
☐ TDB3 Attend _____ NA meetings or approved alternative program. Provide proof of completion to probation/court by _____
☐ THC Reside at _____, cooperate with staff and do not leave without permission
☑ THF1A Participate and complete at your expense any counseling rehabilitation/treatment, program deemed appropriate by probation officer, and authorize release of information relative to progress.

Dated 3/1/12 IT IS SO ORDERED David Gunn JUDICIAL OFFICER

NOTICE TO DEFENDANT: If you have been placed on probation, you have the right to ask the court either (1) to allow you to withdraw your plea of guilty or of nolo contendere and to enter a plea of not guilty, or (2), if you were convicted after a plea of not guilty, to set aside the verdict of guilty. (For details, see Penal Code section 1203.4.) If you have been convicted of a misdemeanor and not placed on probation, and one year has passed since pronouncement of judgment, you have the right to make a similar request. (For details, see Penal Code section 1203.4a.) Forms on which to make such requests are available in the clerk's office.

PEOPLE OF THE STATE OF CALIFORNIA
v.
DEFENDANT: Sean Darmal [redacted]

ORDER FOR DISMISSAL
(Pen. Code, §§ 17(b), 17(d)(2), 1203.4, 1203.4a, 1203.41, 1203.49)

CASE NUMBER:
RIF1102980

The court finds from the records on file in this case, and from the foregoing petition, that the petitioner *(the defendant in the above-entitled criminal action)* is eligible for the following requested relief:

1. The court **GRANTS** the petition for reduction of a felony to a misdemeanor (maximum punishment of 364 days per Pen. Code, § 18.5) under Penal Code section 17(b) and/or for reduction of a misdemeanor to an infraction under Penal Code section 17(d)(2) and reduces the following convictions:
   - ☐ ALL FELONY CONVICTIONS in the above-entitled action;
   - ☐ ALL MISDEMEANOR CONVICTIONS in the above-entitled action; OR
   - ☐ Only the following convictions in the above-entitled action *(specify charges and date of conviction)*:

2. The court **DENIES** the petition for reduction of a felony to a misdemeanor under Penal Code section 17(b) and/or for reduction of a misdemeanor to an infraction under Penal Code section 17(d)(2) for:
   - ☐ ALL FELONY CONVICTIONS in the above-entitled action;
   - ☐ ALL MISDEMEANOR CONVICTIONS in the above-entitled action; OR
   - ☐ Only the following convictions in the above-entitled action *(specify charges and date of conviction)*:

3. The court **GRANTS** the petition for dismissal regarding the following convictions under Penal Code ☒ § 1203.4, or ☐ § 1203.4a, or ☐ § 1203.41, or ☐ § 1203.49, and it is ordered that the pleas, verdicts, or findings of guilt be set aside and vacated and a plea of not guilty be entered and that the complaint be, and is hereby, dismissed for:
   - ☒ ALL CONVICTIONS in the above-entitled action; or
   - ☒ Only the following convictions in the above-entitled action *(specify charges and date of conviction)*:

4. The court **DENIES** the petition for dismissal regarding the following convictions under Penal Code ☐ § 1203.4, or ☐ § 1203.4a, or ☐ § 1203.41, or ☐ § 1203.49 for:
   - ☐ ALL CONVICTIONS in the above-entitled action; or
   - ☐ Only the following convictions in the above-entitled action *(specify charges and date of conviction)*:

5. In granting this order under the provisions of Penal Code section 1203.49:
   a. The court finds that the petitioner was a victim of human trafficking when he or she committed the crime.
   b. ☐ The court orders the relief described in section 1203.4, or
      ☐ The court orders the relief described in section 1203.4, with the following exceptions *(specify)*:

Form Approved for Optional Use
Judicial Council of California
CR-181 [Rev. January 1, 2016]

Penal Code, §§ 17(b), 17(d)(2), 1203.4, 1203.4a, 1203.41, and 1203.49
www.courts.ca.gov

PEOPLE OF THE STATE OF CALIFORNIA v DEFENDANT:	CASE NUMBER:
Sean Darmal	RIF1102980

6. If this order is granted under the provisions of Penal Code section 1203.4 or 1203.41:
   a. The petitioner is required to disclose the above conviction in response to any direct question contained in any questionnaire or application for public office, or for licensure by any state or local agency, or for contracting with the California State Lottery Commission.
   b. Dismissal of the conviction does not *automatically* relieve petitioner from the requirement to register as a sex offender. (See, e.g., Pen. Code, § 290.5.)

7. If the order is granted under the provisions of Penal Code section 1203.49, the Department of Justice is hereby notified that the petitioner was a victim of human trafficking when he or she committed the crime, and the relief ordered.

8. If the order is granted under the provisions of either Penal Code section 1203.4, 1203.4a, 1203.41, or 1203.49, the petitioner is released from all penalties end disabilities resulting from the offense except as provided in Penal Code sections 29800 and 29900 (formerly sections 12021 and 12021.1) and Vehicle Code section 13555. In any subsequent prosecution of the petitioner for any other offense, the prior conviction may be pleaded and proved and shall have the same effect as if probation had not been granted or the accusation or information dismissed. The dismissal does not permit a person to own, possess, or heve in his or her control a firearm if prevented by Penal Code sections 29800 or 29900 (formerly sections 12021 and 12021.1). Dismissal of a conviction does not permit a person prohibited from holding public office as a result of that conviction to hold public office.

9. In addition, as required by Penal Code section 299(f), relief under Penal Code sections 17(b), 17(d)(2), 1203.4, 1203.4a, 1203.41, or 1203.49 does *not* release petitioner from the separate administrative duty to provide specimens, samples, or print impressions under the DNA and Forensic Identification Database and Data Bank Act (Pen. Code, § 295 et seq.) if petitioner was found guilty by a trier of fact, not guilty by reason of insanity, or pled no contest to a qualifying offense as defined in Penal Code section 296(a).

Proposed Regulation of the Nevada State Board of Pharmacy

Workshop – May 29, 2024

EXPLANATION – Matter in ***italics*** is new; matter in brackets **[**~~omitted material~~**]** is material to be omitted. and language in ***green text*** indicates prior Board-approved amendments that are in the process of being codified.

AUTHORITY: NRS 639.070; NRS 639.1371

A REGULATION relating to pharmacy; minimum staffing requirements in the pharmacy; restriction on supervision; and providing other matters properly relating thereto.

The proposed regulation is a result of the Nevada Pharmacists Workplace and Patient Safety Survey. There were three main recuring themes that needs to be addressed based on the results of the survey:

1. The pharmacies need to eliminate workload productivity metrics.
2. The pharmacies need more staff, particularly pharmacists, but pharmaceutical technicians as well.
3. The pharmacies need to separate dispensing services from non-dispensing services.

This is supported by the results of the following survey questions:

7-*"To keep up with work related tasks, how often do you continue working after your scheduled/paid shift hours have been completed."* - The top answer amongst Retail Chain Pharmacists was "Always" and "Usually" (55%). While only 28% and 26% of Institutional/Hospital Pharmacists and pharmacists in other practice settings answered, "Always" and "Usually," respectively.

16- *"Do you believe your primary practice setting is sufficiently staffed to meet the demands of the pharmacy while meeting patient care and safety standards?"* - The top answer amongst the Retail Chain Pharmacists and Institutional/Hospital Pharmacists was "No" (74.6% and 52.3%, respectively.)

17- *"Do you believe the current staffing in your primary practice setting poses a risk to patient safety?"* – The top answer amongst the Retail Chain Pharmacists was "Yes" (68.3%) while the top answer for Institutional/Hospital Pharmacists was "No" (51.7%).

18- *"If you could choose to add more staff to assist in the demands of your pharmacy to ensure patient care and safety is prioritized, which would you choose?"* – The top answer amongst all the pharmacists was "Additional Pharmacists."

19- *"I feel that my work environment has sufficient pharmacy technicians staffing that allows for safe patient care?"* - The top answer amongst Retail Chain Pharmacists were "Strongly disagree" or "Disagree" (63%). While only 38% and 18% of Institutional/Hospital Pharmacists and pharmacists in other practice settings answered, "Strongly disagree" or "Disagree," respectively.

20- *"I feel that my work environment has sufficient pharmacist staffing that allows for safe patient care."* - The top answer amongst Retail Chain Pharmacists was "Disagree." While the top answer amongst Institutional/Hospital Pharmacists and pharmacists in other practice settings was "Agree" or "Strongly Agree."

21- *"I feel that staffing at my pharmacy is adequate to prevent delays in patients receiving medications in a timely manner."* – The top answers amongst Retail Chain Pharmacists were "Strongly Disagree" and "Disagree."

28 – *"In your opinion, how does completing non-dispensing services affect your ability to dispense prescriptions effectively?"* - The top answer amongst Retail Chain Pharmacists were "It somewhat diminishes my ability to dispense prescriptions effectively" or "It greatly diminishes my ability to dispense prescriptions effectively" (83%). While only 27% and 22% of Institutional/Hospital Pharmacists and pharmacists in other practice settings answered, "It somewhat diminishes my ability to dispense prescriptions effectively" or "It greatly diminishes my ability to dispense prescriptions effectively," respectively.

29- *"In your opinion, how does completing non-dispensing services while also engaged in processing prescriptions affect your ability to practice safely?"* – The top answer amongst Retail Chain Pharmacists were "It somewhat diminishes my ability to practice safely" or "It greatly diminishes my ability to practice safely" (83%). While only 36% and 21% of Institutional/Hospital pharmacist and pharmacists in other practice settings answered, "It somewhat diminishes my ability to practice safely" or "It greatly diminishes my ability to practice safely," respectively.

30- "*In your opinion, how does completing non-dispensing services while also engaged in processing prescriptions affect patient from getting their medications in a timely manner?"* - The top answer amongst the Retail Chain Pharmacists were "It greatly diminishes patients from getting their medications in a timely manner" or "It somewhat diminishes patients from getting their medications in a timely manner" (89%). While only 40% and 22% of Institutional/Hospital Pharmacists and pharmacists in other practice settings answered, "It greatly diminishes patients from getting their medications in a timely manner" or "It somewhat diminishes patients from getting their medications in a timely manner," respectively.

32- "*Do you feel that you have been pressured by your employer or supervisor to meet standards or metrics that may interfere with safe patient care?"* - The top answers amongst the Retail Chain Pharmacists were "Yes" or "Somewhat" (86%). While only 37% and 19% of Institutional/Hospital Pharmacists and pharmacists in other practice settings answer, "Yes" or "Somewhat," respectively.

38 – *"In your opinion, how would an increase in the number of pharmaceutical technicians (PT) and pharmaceutical technicians in training (PTT) you may supervise in your primary practice setting affect patient safety?* - The top answer amongst the Retail Chain Pharmacists was "Improve patient safety" (69%).

40- *"In your opinion, how would an increase in the number of pharmacists in your primary practice setting affect patient safety?"* - The top answer amongst all pharmacists was "Improve patient safety."

45 – *"In your opinion, are you able to comfortably take meals and rest periods without feeling like you will fall behind or compromise patient care or safety."* – The top answer amongst the Retail Chain Pharmacists was "No" (70%). While only 42% and 23% of Institutional/Hospital Pharmacists and pharmacists in other practice settings answered, "No," respectively.

47- *"Please rank the following from 1 to 7 on their impact on patient safety (1 having the most positive impact on patient safety and 7 having the least positive impact on patient safety"* – The top 3 answers amongst all the pharmacists survey participants were 1) Eliminating workload productivity metrics, 2) Increasing the number of pharmacists staffed, and 3) Eliminating non-dispensing responsibility for pharmacists processing prescriptions.

48 – *"My current workload is:"* The top answer amongst Retail Chain Pharmacists were "High" or "Excessively High" (82%). While only 58% and 24% of Institutional/Hospital Pharmacists or pharmacists in other practice settings answered, "High" or "Excessively High, "respectively.

54- *"In your opinion, what is the number of prescriptions ONE pharmacist should be able to reasonably and safely fill on a given weekday, working from 9am to 7pm, in a general retail pharmacy setting, with the assistance of one to three pharmaceutical technicians or pharmaceutical technicians in training IF non-dispensing services such as medication therapy management, vaccinations, point-of-care testing, chronic disease management, collaborative practice agreements, staff education and quality improvement projects ARE EXCLUDED?"* - The top answer amongst all pharmacist survey participants was 101-200 prescriptions.

Free-fill responses for questions 55, 56, and 57- majority of the responses were

1. The pharmacies need to eliminate workload productivity metrics.
2. The pharmacies need more staff, particularly pharmacists, but pharmaceutical technicians as well.
3. The pharmacies need to separate dispensing services from non-dispensing services.

To address the above issues, minimum staffing standards should be required of retail community pharmacies. If the proposed regulation is adopted it will address items 2 and 3 of the survey. Addressing items 2 and 3 will address the issue regarding item 1, workload productivity metrics.

NAC Chapter 639 is hereby amended by adding thereto a new section to read as follows:

1. *A pharmacy, as defined in NRS 639.012, except an institutional pharmacy, as defined by NRS 639.0085, and a pharmacy in a correctional institution, as defined by NRS 639.0123 engaged in the dispensing of controlled substances or dangerous drugs shall staff a pharmacy in a manner that meets the demand of the pharmacy while prioritizing patient care and safety.*

   a. *The following are the minimum pharmacist staffing requirements:*

      i. *A pharmacy shall staff the pharmacy with a minimum of two (2) pharmacists for every hour the pharmacy is filling greater than or equal to twenty (20) prescriptions per hour; (see survey results for questions 7, 16, 17, 18, 20, 21, 40, 45, 47, 48, 54, 55, 56, 57)*

      ii. *The pharmacy shall add, at a minimum, an additional pharmacist for every twenty (20) prescriptions filled per hour thereafter by the pharmacy; and (see survey results for questions 7, 16, 17, 18, 20, 21, 40, 45, 47, 48, 54, 55, 56, 57)*

      iii. *If the pharmacy is engaged in providing non-dispensing services during the hours the pharmacy is also providing dispensing services, the pharmacy must add an additional pharmacist designated to perform the non-dispensing services. (see survey results for questions 28, 29, 30, 40, 47, 55, 56, 57)*

         1. *The pharmacist designated to perform the non-dispensing services may assist in the dispensing of controlled substances or dangerous drugs if in the professional judgement of the pharmacist time permits and patient care and safety is not compromised, but this pharmacist may not be used to meet the minimum requirements as specified in paragraphs i and ii of subsection (a) of this section.*
         2. *Except as specified in subsection iv, a pharmacy must cease providing non-dispensing services if there is no pharmacist solely designated to perform the non-dispensing services.*

      iv. *A pharmacist while engaged in the dispensing of controlled substances or dangerous drugs shall not engage in any non-dispensing services, except when the pharmacy is staffed with one pharmacist and the pharmacy is filling less than ten (10) prescriptions per hour.*

Example (Ex) 1: A pharmacy filling 10-19 RXs/h (~ 100-190 RXs in a 10h shift) will need **1 pharmacist** during those hours. A pharmacy providing non-dispensing services during the same hours will need **2 pharmacists**.

Ex 2: A pharmacy filling 20-39 RXs/h (~ 200-390 RXs in a 10hr shift) will need **2 pharmacists** during those hours. A pharmacy providing non-dispensing services during the same hours will need **3 pharmacists**.

Ex 3: A pharmacy filling 40-59 RXs/h (~ 400-590 RXs in a 10h shift) will need **3 pharmacists** during those hours. A pharmacy providing non-dispensing services during the same hours will need **4 pharmacists**, etc.

Ex 4: A pharmacy filling 0-9 RXs/h (~ 0-90 RXs in a 10h shift) will need **1 pharmacist** during those hours. The same pharmacist may provide non-dispensing services during the same hours.

DRAFT

b. Except as otherwise provided in NAC 639.250, the following are the minimum pharmaceutical technician and pharmaceutical technician in training staffing requirements: (see survey results for questions 16, 19, 21, 38, 55, 56, 57)

i. A pharmacy shall staff the pharmacy with a minimum of one (1) pharmaceutical technician or pharmaceutical technician in training for every hour the pharmacy is filling greater than five (5) but less than ten (10) prescriptions per hour;

Ex 1: A pharmacy filling 5-9 RXs/h (~ 50-90 RXs in a 10h shift) will need **1 PT or PTT** during those hours.

ii. A pharmacy shall staff the pharmacy with a minimum of two (2) pharmaceutical technician or pharmaceutical technician in training for every hour the pharmacy is filling greater than or equal to ten (10) prescriptions but less than twenty (20) prescriptions per hour;

Ex 2: A pharmacy filling 10-19 RXs/h (~ 100-190 RXs in a 10h shift) will need **2 PTs or PTT**s during those hours.

iii. A pharmacy shall staff the pharmacy with a minimum of three (3) pharmaceutical technicians or pharmaceutical technicians in training for every hour the pharmacy is filling greater than or equal to twenty (20) prescriptions per hour; and

Ex 3: A pharmacy filling 20-39 RXs/h (~ 200-390 RXs in a 10h shift) will need **3 PTs or PTTs** during those hours.

iv. The pharmacy shall add, at a minimum, an additional pharmaceutical technician or pharmaceutical technician for every twenty (20) prescriptions filled per hour thereafter by the pharmacy.

Ex 4: A pharmacy filling 40-59 RXs/h (~ 400-590 RXs in a 10h shift) will need **4 PTs or PTTs** during those hours, etc.

2. The managing pharmacist has the duty to enforce the provisions in these sections and maintain documentation of hourly compliance with these sections, including, but not limited the name of the pharmacist, and the name of the pharmaceutical technician or pharmaceutical technician staffed each hour and day, and is responsible for ensuring there is documentation of each hour and day the pharmacy fails to maintain minimum staffing requirements. This document must be readily retrievable and maintained for at least 2 years.

3. The pharmacy, managing pharmacist, and all registered pharmacists have the duty to report to the Board when the pharmacy fails to maintain minimum staffing requirements for any hours during three (3) consecutive days.

4. As used in this section "non-dispensing services" means all activities that a registered pharmacist may perform except for the filling, dispensing, and counseling of prescriptions.

DRAFT

NAC 639.250 is amended to read as follows ***(see survey results for questions 16, 19, 21, 38, 55, 56, 57)*****:**

NAC 639.250 Restrictions on supervision. (NRS 639.070**,** 639.0727**,** 639.1371**)** Except as otherwise provided in NAC 639.258:

1. Except as otherwise provided in subsection 5, in a***n*** ~~[hospital]~~ ***institutional pharmacy or a pharmacy in a correctional institution***, a pharmacist who is dispensing prescriptions may not supervise more than a total of three pharmaceutical technician at one time. A pharmacist who is supervising distributive functions may not supervise more than a total of two pharmaceutical technicians and one pharmaceutical technician in training while the trainee is performing technician functions in on-the-job training.

2. ~~[Except as otherwise provided in subsection 5,]~~ ~~[i]~~***I***n any pharmacy, other than a***n*** ~~[hospital]~~ ***institutional*** pharmacy, ***a pharmacy in a correctional institution,*** telepharmacy, remote site, satellite consultation site or nondispensing pharmacy, a pharmacist may not supervise more than a total of ~~[three]~~ ***four*** pharmaceutical technicians or ~~**[one]**~~ ***two*** pharmaceutical technician and two pharmaceutical technicians in training at one time.

3. In any telepharmacy, remote site or satellite consultation site, a pharmacist may not supervise more than a total of three pharmaceutical technicians at one time.

4. In any nondispensing pharmacy, a pharmacist may not supervise more than a total of eight pharmaceutical technicians or six pharmaceutical technicians and two pharmaceutical technicians in training at one time.

5. A pharmacist may supervise more pharmaceutical technicians and pharmaceutical technicians in training at one time than are otherwise allowed pursuant to subsections 1 and 2 if:

(a) Not more than three of the pharmaceutical technicians or pharmaceutical technicians in training are performing the duties of a pharmaceutical technician as set forth in NAC 639.245; and
(b) The record kept by the pharmacy pursuant to NAC 639.245 identifies the pharmaceutical technicians and pharmaceutical technicians in training who are performing the duties of a pharmaceutical technician as set forth in NAC 639.245.]

6. As used in this section, "nondispensing pharmacy" means a pharmacy that is licensed pursuant to this chapter and chapter 639 of NRS that does not dispense, including, without limitation, drugs, controlled substances, poisons, medicines or chemicals.

7. The pharmacy, managing pharmacist, and all registered pharmacists have the duty to immediately report to the Board when the pharmacy exceeds restriction on supervision.

DRAFT

Nevada Pharmacists Workplace and Patient Safety Survey

In 2023, patient safety as it relates to workplace conditions in licensed pharmacies grew to be a primary concern of the Nevada State Board of Pharmacy (Board).

To examine workplace factors and conditions that may be affecting accurate and timely pharmaceutical care, the Board created a 61-question survey known as the **Nevada Pharmacists Workplace and Patient Safety Survey**. The survey was distributed to 2,761 Nevada licensed pharmacists on November 17, 2023, and responses were collected through December 31, 2023. Responses to the survey were optional. Of the 2,761 surveys distributed, the Board received 945 responses. After removing responses not linked to a Nevada pharmacist license number and duplicated responses from the same licensee, 824 responses (30% of surveys distributed) were included in the results of this report.

Survey Questions

Nevada Pharmacists Workplace and Patient Safety Survey

ATTENTION PHARMACISTS

The Nevada State Board of Pharmacy (Board) is concerned about patient safety as it relates to workplace conditions in licensed pharmacies. We are seeking to better understand the safety concerns.

The Board is requesting that you complete the following survey. Your responses will allow the Board to examine workplace factors and conditions that may be affecting accurate and timely pharmaceutical care. Your response to this survey is extremely important and is completely anonymous. Only aggregated, non-identifiable data from the report will be made available to the public. Your responses can change the practice of pharmacy and will directly guide the Board in what new regulations will need to be promulgated to protect and improve patient care. The survey should only take a few minutes to complete. We appreciate your participation.

1. Provide your pharmacist license number. Your responses will not be calculated into the results of the survey if your license number is not provided. Your license number will be used strictly as a means of (1) limiting the population of survey participants to Nevada-registered pharmacists and (2) excluding duplicate surveys. It will not be used to correlate individual responses with an identifiable survey participant. _____

2. How many years have you been in the practice of pharmacy?
    a. 0-10 years
    b. 11-20 years
    c. 21-30 years
    d. 30+ years

3. Which of the following most closely describes your primary practice setting?
    a. Institutional/Hospital Pharmacy
    b. Retail Chain Pharmacy
    c. Independent Pharmacy
    d. Department of Defense or Veterans Affairs Pharmacy
    e. Non-pharmacy practice setting (i.e., a practitioner's office, at home, at a college or university, etc.)
    f. Consultant Pharmacist
    g. None of the above. I am currently unemployed or retired.

4. Are you the owner of the pharmacy where you primarily practice?
    a. Yes
    b. No

5. What is your employment status?
    a. Full-time
    b. Part-time
    c. As needed (PRN)
    d. Unemployed
    e. Retired
    f. Not currently practicing due to my choice

6. How many hours per week do you work at your primary practice setting (please include paid and unpaid hours)?
    a. >60 hours
    b. 51-60 hours
    c. 41-50 hours
    d. 31-40 hours
    e. 20-30 hours
    f. <20 hours
    g. Not applicable

7. To keep up with work related tasks, how often do you continue working after your scheduled/paid shift hours have been completed?
    a. Always
    b. Usually
    c. Sometimes
    d. Rarely
    e. Never
    f. Not applicable

8. What is your role at your primary practice setting?
    a. Pharmacist-in-charge (PIC)
    b. Staff Pharmacist
    c. Consultant Pharmacist
    d. Floater
    e. Not applicable

9. If you are the designated PIC, do you feel you have sufficient autonomy and power to fulfill your duties as the PIC?
    a. Yes
    b. No
    c. Not applicable

10. How long is a typical work shift at your primary practice setting?
    a. < 8 hours
    b. 8 hours
    c. 10 hours
    d. 12 hours
    e. > 12 hours
    f. It varies
    g. Not applicable

11. Which of the following most closely describes the shift you work at your primary practice setting?
    a. First Shift (Begins and ends around 7-9 AM to 4-5 PM)
    b. Second Shift (Begins and ends around 11 AM to 7 PM or 3 PM to 10 PM)
    c. Third Shift (Begins and ends around 10 PM or 12 AM to 7-9 AM)
    d. Rotating shifts
    e. Not applicable

12. Provide the number of pharmacists that work during your shift?
    a. 1
    b. 2

c. 3
d. 4
e. 5
f. >5
g. Not applicable

13. Provide the number of interns that work during your shift?
    a. 0
    b. 1
    c. 2
    d. 3
    e. 4
    f. 5
    g. >5
    h. Not applicable

14. Provide the number of pharmaceutical technicians and pharmaceutical technicians in training that work during your shift?
    a. 0
    b. 1
    c. 2
    d. 3
    e. 4
    f. 5
    g. 6
    h. 7
    i. 8
    j. 9
    k. 10
    l. >10
    m. Not applicable

15. Provide the number of clerks/cashiers that work during your shift.
    a. 0
    b. 1
    c. 2
    d. 3
    e. 4
    f. 5
    g. 6
    h. 7
    i. 8
    j. 9
    k. 10
    l. >10
    m. Not applicable

16. Do you believe your primary practice setting is sufficiently staffed to meet the demands of the pharmacy while meeting patient care and safety standards?
    a. Yes
    b. No

c. Not applicable

17. Do you believe the current staffing in your primary practice setting poses a risk to patient safety?
    a. Yes
    b. No
    c. Not applicable

18. If you could choose to add more staff to assist in the demands of the pharmacy to ensure patient care and safety is prioritized, which would you choose?
    a. Additional pharmacists
    b. Additional pharmaceutical technicians
    c. Additional cashiers or clerks
    d. None. There is sufficient number of staff to meet the demands of the pharmacy.
    e. Not applicable

19. I feel that my work environment has sufficient pharmacy technician staffing that allows for safe patient care.
    a. Strongly disagree
    b. Disagree
    c. Neither agree nor disagree
    d. Agree
    e. Strongly agree
    f. Not applicable

20. I feel that my work environment has sufficient pharmacist staffing that allows for safe patient care.
    a. Strongly disagree
    b. Disagree
    c. Neither agree nor disagree
    d. Agree
    e. Strongly agree
    f. Not applicable

21. I feel that staffing at my pharmacy is adequate to prevent delays in patients receiving medications in a timely manner.
    a. Strongly disagree
    b. Disagree
    c. Neither agree nor disagree
    d. Agree
    e. Strongly agree
    f. Not applicable

22. On average, what number of prescriptions or chart orders do YOU process during your shift?
    a. 1-100
    b. 101-200
    c. 201-300
    d. 301-400
    e. 401-500
    f. 501-600
    g. 601-700
    h. >700
    i. Unsure/Varies

j. Not applicable

23. On average, how many vaccines do YOU administer or supervise the administration of during your shift?
    a. 1-20
    b. 21-40
    c. 41-60
    d. 61-80
    e. 81-100
    f. >100
    g. Unsure/Varies
    h. Not applicable

24. Does your primary practice setting perform sterile or non-sterile compounding?
    a. Yes
    b. No
    c. Not applicable

25. Which of the following services are provided at your primary practice setting?
    a. Immunization
    b. Administration of medications and biologics
    c. CLIA waived tests
    d. Hormonal Contraception
    e. Smoking Cessation
    f. PrEP and PEP prescribing and dispensing
    g. Medication Therapy Management
    h. Other
    i. Not applicable
    j. None of the above

26. Does your employer require you to complete non-dispensing related services, such as medication therapy management, vaccinations, point-of-care testing, chronic disease management, collaborative practice agreements, staff education or quality improvement projects?
    a. Yes
    b. No
    c. Not applicable

27. On average, what percentage of your time is spent on non-dispensing services?
    a. 1-25%
    b. 26-50%
    c. 51-75%
    d. 76-100%
    e. Not applicable

28. In your opinion, how does completing non-dispensing services affect your ability to dispense prescriptions effectively?
    a. It greatly diminishes my ability to dispense prescriptions effectively.
    b. It somewhat diminishes my ability to dispense prescriptions effectively.
    c. It does not affect my ability to dispense prescriptions effectively.
    d. Not applicable

29. In your opinion, how does completing non-dispensing services while also engaged in processing prescriptions affect your ability to practice safely?
    a. It greatly diminishes my ability to practice safely.
    b. It somewhat diminishes my ability to practice safely.
    c. It does not affect my ability to practice safely.
    d. Not applicable

30. In your opinion, how does completing non-dispensing services while also engaged in processing prescriptions affect patients from getting their medications in a timely manner?
    a. It greatly diminishes patients from getting their medications in a timely manner.
    b. It somewhat diminishes patients from getting their medications in a timely manner.
    c. It does not affect patients from getting their medications in a timely manner.
    d. Not applicable

31. Does your employer at your primary practice setting use workload metrics to measure one or more of following areas: number of immunizations, number of refill requests, number of patients enrolled in autofill, number of prescriptions filled, number of MTM services completed, average time to fill a new prescription, average time to fill a refill, average wait time for prescriptions, OR other metrics?
    a. Yes
    b. No
    c. Not applicable

32. Do you feel that you have been pressured by your employer or supervisor to meet standards or metrics that may interfere with safe patient care?
    a. Yes
    b. Somewhat
    c. No
    d. Not applicable

33. On average, how frequently are you interrupted while processing a prescription?
    a. Always
    b. Usually
    c. Sometimes
    d. Rarely
    e. Never
    f. Not applicable

34. Do you fear that interruptions while processing a prescription may lead to a medication error?
    a. Yes
    b. No
    c. Not applicable

35. In your opinion, how do interruptions while processing a prescription affect your ability to practice safely?
    a. It greatly affects my ability to practice safely.
    b. It somewhat affects my ability to practice safely.
    c. It does not affect my ability to practice safely.
    d. Not applicable

    According to the National Coordinating Council for Medication Error Reporting and Prevention, a "medication error" is defined as "any preventable event that ***may cause*** or ***lead*** to inappropriate

medication use or patient harm while the medication is in the control of the health care professional, patient, or consumer. Such events may be related to professional practice, health care products, procedures, and systems, including prescribing, order communication, product labeling, packaging, and nomenclature, compounding, dispensing, distribution, administration, education, monitoring and use."

36. What is the average number of medication errors **that leave the pharmacy**, if any, do you believe occur monthly at your primary practice setting?
    a. 1-5
    b. 6-10
    c. 11-15
    d. 16-20
    e. 21-25
    f. 26-30
    g. >30
    h. None
    i. Unknown
    j. Not applicable

37. What is the average number of medication errors **that were caught before it left the pharmacy**, if any, do you believe occur monthly at your primary practice setting?
    a. 1-5
    b. 6-10
    c. 11-15
    d. 16-20
    e. 21-25
    f. 26-30
    g. >30
    h. None
    i. Unknown
    j. Not applicable

38. In your opinion, how would an increase in the number of Pharmaceutical Technicians (PT) and Pharmaceutical Technicians in Training (PTT) you may supervise in your primary practice setting affect *patient safety*?
    a. Improve patient safety
    b. Worsen patient safety
    c. No impact on patient safety
    d. No opinion
    e. Not applicable

39. In your opinion, how would an increase in the number of PTs and PTTs you may supervise in your primary practice setting affect *medication errors*?
    a. Decrease medication errors
    b. Increase medication errors
    c. No effect on the number of medication errors
    d. No opinion
    e. Not applicable

40. In your opinion, how would an increase in the number of pharmacists in your primary practice setting affect *patient safety*?
    a. Improve patient safety

b. Worsen patient safety
c. No impact on patient safety
d. No opinion
e. Not applicable

41. In your opinion, how would an increase in the number of pharmacists in your primary practice setting affect *medication errors*?
    a. Decrease medication errors
    b. Increase medication errors
    c. No effect on the number of medication errors
    d. No opinion
    e. Not applicable

42. In your opinion, is your primary practice setting a safe work environment that prioritizes patient care and safety?
    a. Yes
    b. No
    c. Not applicable

43. Does your pharmacy employer provide you with meal periods and rest periods?
    a. Yes
    b. No
    c. Not applicable

44. Are your meal periods and rest periods uninterrupted?
    a. Yes
    b. No
    c. Not applicable

45. In your opinion, are you able to comfortably take meals and rest periods without feeling like you will fall behind or compromise patient care or safety?
    a. Yes
    b. No
    c. Not applicable

46. Did your employer require you to voluntarily agree to forego any rest period or meal period as a condition of your employment?
    a. Yes
    b. No
    c. Not applicable

47. Please rank the following from 1 to 7 on their impact on patient safety (1 having the most positive impact on patient safety and 7 having the least positive impact on patient safety).
    a. Eliminating workload productivity metrics
    b. Eliminating non-dispensing responsibilities for pharmacists processing prescriptions
    c. Eliminating non-patient related interruptions for pharmacists processing prescriptions
    d. Beginning your workday without a backlog of work from the previous shift or day
    e. Increasing the number of pharmacists staffed
    f. Increasing the number of pharmaceutical technicians staffed
    g. Increasing the number of cashiers staffed

48. My current workload is:
    a. Excessively low
    b. Low
    c. About Right
    d. High
    e. Excessively High
    f. Not applicable

49. Compared to pre-pandemic, my workload has:
    a. Significantly decreased
    b. Decreased
    c. Remained the same
    d. Increased
    e. Significantly increased
    f. Not applicable

50. I feel my employer provides a work environment that allows for safe patient care.
    a. Strongly disagree
    b. Disagree
    c. Neither agree nor disagree
    d. Agree
    e. Strongly agree
    f. Not applicable

51. I feel safe voicing any workplace concerns to my employer.
    a. Strongly disagree
    b. Disagree
    c. Neither agree nor disagree
    d. Agree
    e. Strongly agree
    f. Not applicable

52. Have you quit or left a pharmacy employment due to patient safety concerns?
    a. Yes
    b. No
    c. Not applicable

53. If you answered "yes" to question 52, what pharmacy practice setting did you leave?
    a. Institutional/Hospital Pharmacy
    b. Retail Chain Pharmacy
    c. Independent Pharmacy
    d. Department of Defense or Veterans Affairs Pharmacy
    e. Non-pharmacy practice setting (i.e., a practitioner's office, at home, at a college or university, etc.)
    f. Consultant Pharmacist Position
    g. Not applicable

54. In your opinion, what is the number of prescriptions ***ONE*** pharmacist should be able to **reasonably and safely fill** on a given weekday, working from 9am to 7pm, in a **general retail pharmacy** setting, with the assistance of one to three pharmaceutical technicians or pharmaceutical technicians in training ***IF*** non-dispensing services such as medication therapy management, vaccinations, point-of-

care testing, chronic disease management, collaborative practice agreements, staff education or quality improvement projects **ARE EXCLUDED**?

a. <100 prescriptions
b. 101-200 prescriptions
c. 201-300 prescriptions
d. 301-400 prescriptions
e. 401-500 prescriptions
f. 501-600 prescriptions
g. 601-700 prescriptions
h. >700 prescriptions
i. Unknown
j. Not applicable

55. What workplace conditions, if any, do you believe should be addressed at your primary practice setting to promote patient safety? What suggestions do you have for improving the condition?

56. What other recommendations for changes do you have that you believe would lead to improved patient care or patient safety?

57. Please share any other comments you may have:

Well-Being Index Questions

58. Have you felt burned out from your work?
    a. Yes
    b. Somewhat
    c. No
    d. Not applicable
59. Does your job often negatively affect your mental or physical health?
    e. Yes
    f. Somewhat
    g. No
    h. Not applicable
60. Have you often been bothered by feeling down, anxious, irritable, depressed, or hopeless because of work?
    i. Yes
    j. Somewhat
    k. No
    l. Not applicable
61. Have you felt all things you had to do at work were piling up so high you could not overcome them?
    m. Yes
    n. Somewhat
    o. No
    p. Not applicable

Survey Results

Question 1 of the survey was removed from the results as it is confidential. Question 1 asked the pharmacist completing the survey to provide their Nevada pharmacist license number. The results of Question 1 were used strictly as a means to (1) limit the population of survey participants to Nevada-registered pharmacists and (2) excluding duplicate surveys.

Additionally, with the exception of survey question 3, four statistical results are provided for each survey question depending on how the pharmacist answered question 3 of the survey. The four statistical results represent the following:

1. **All Responses** – is the statistical results from all survey participants
2. **Retail Chain Pharmacists** – is the statistical results from pharmacists that indicated their primary practice setting is in a Retail Chain Pharmacy
3. **Institutional/Hospital Pharmacist** – is the statistical results from pharmacists that indicated their primary practice setting is in an Institutional/Hospital Pharmacy
4. **Other** – is the statistical results from pharmacists from all other practice settings
    - Independent Pharmacy,
    - Consultant Pharmacist,
    - Department of Defense or Veterans Affairs Pharmacy,
    - Non-pharmacy practice setting (i.e., a practitioner's office, at home, at a college or university, etc.), and
    - None of the above. I am currently unemployed or retired.

3. Which of the following most closely describes your primary practice setting?

Survey Responses	# Responses	% Responses
Retail Chain Pharmacy	479	58.2%
Institutional/Hospital Pharmacy	150	18.2%
Independent Pharmacy	92	11.2%
None of the above. I am currently unemployed or retired.	42	5.1%
Non-pharmacy practice setting (i.e., a practitioner's office, at home, at a college or university, etc.)	31	3.8%
Consultant Pharmacist	20	2.4%
Department of Defense or Veterans Affairs Pharmacy	9	1.1%
Total	**823**	**100.0%**

According to the National Coordinating Council for Medication Error Reporting and Prevention, a "medication error" is defined as "any preventable event that may cause or lead to inappropriate medication use or patient harm while the medication is in the control of the health care professional, patient, or consumer. Such events may be related to professional practice, health care products, procedures, and systems, including prescribing, order communication, product labeling, packaging, and nomenclature, compounding, dispensing, distribution, administration, education, monitoring and use."

	A
1	**Question 55: What workplace conditions, if any, do you believe should be addressed at your primary practice setting to promote patient safety? What suggestions do you have for improving the condition?**
2	**Question 3: Which of the following most closely describes your primary practice setting? b. Retail Chain Pharmacy**
3	**Responses**
4	1) increase rph and tech help. 2) move testing and vaccinations out of the pharmacy to it's own mini clinic.
5	1. Eliminate workload metrics (hours of tech help are being based on script counts/sales). Our community is primarily retired seniors and the volume/quality of patient care is more demanding/time consuming. Since the pandemic, Vons has "CUT" 10 hours of pharmacist on duty/week....leaving us very short staffed to upkeep the volume and demands which has increased tremendously with overwhelming vaccines, scripts, phone calls. Our location demands for more patient care, more questions, more EVERYTHING and with the cut of pharmacist hours, the entire staff is overwhelmed feeling defeated on the daily. 2. Our layout of the pharmacy is not safe for staff nor does it allow the pharmacy dept to safely and efficiently perform pharmacy tasks. The front counter is jumpable at 3 feet tall and wide open to encourage anyone to jump over at anytime. Majority of staff are females who works the night shift and we do not feel safe. Along with the wide open layout, the pharmacist and techs are widely displayed to welcome "all customers in sight" to stop and interrupt the staff in the middle of processing/dispensing prescriptions to ask where things (bread, cheese, soda, napkins, etc) are in the grocery store and being majority of clients elderly...you have to stop and go escort them to the item in the store. And this is a constant disruption in the pharmacy staff performing pharmacy tasks. Safety concerns of the floor plan has been voiced multiple times with State Board but still no result.
6	1:1 ratio of pharmacist:tech should be the LAW for safety so big companies cannot use shrinking of hours to minimize technician help for to forgo safety and maximize workload for profit
7	13 hours shifts Waived lunch breaks, no time to take breaks and not falling behind work load
8	A legal minimum of pharmacist to technician ratio based on the # of Rx filled on average for that day of the week. Techs in training do not count.
9	Add more technicians
10	Add pharmacist
11	Adding an additional Pharmacy Technician in order for me to not feel rushed in the verification of each prescription and medication dispensed.
12	Addition of staff and elimination of distractions would greatly improve patient safety. A closed room or section in the pharmacy for pharmacists especially in retail would be helpful in decreasing interruptions. A maximum limit of prescriptions processed by a pharmacist in a day would also be beneficial to decrease the pressure in filling prescriptions without further checking their efficacy and safety for the patients' therapies. Business metrics should not pressure pharmacists. Chairs for staff in retail pharmacies can also be helpful in reducing fatigue. There should be assigned staff separately for dispensing and non-dispensing services for the day.
13	Adequate experience technicians
14	Adequate pharmacy staff (cashiers,Pharmacy techs to take care inside store and DRIVE THROUGH Patients. There should be a day set for immunization and a pharmacist to do Immunization so that the verifying pharmacist can concentrate.
15	Allowing more pharmacist overlap
16	Allowing more time to address mild to moderate drug interactions when counseling
17	As a PIC at my current employer we are required to work 9.5 hours per day 5 days per week. This is a long day/week of high pace work and forceful concentration to not make any mistakes. There should be a limit to how many hours a day or how many hours per week a salaried pharmacist can work, 40 MAX! Either four 10 hour shifts or five 8 hour shifts, even as salaried. The employer mandates PIC work 45 hours per week - which is a safety concern in my opinion. By the end of the day I'm finding myself making more errors, and especially by the end of the week.
18	As pharmacists in retail chain, we often find ourselves in a relentless cycle of multitasking and extended work hours due to the demanding nature of our work, which is exacerbated by a shortage of pharmacy technicians. This shortage compels us to undertake additional roles, including technician tasks, administering vaccinations, and handling non-patient related interruptions, all while ensuring patient safety. The pressure to meet efficiency metrics further intensifies this issue, making breaks seem impractical. Consequently, I often forego rest and meal periods, not explicitly required by my employer, but out of necessity to manage the workload. This situation impacts both our well-being and the quality of patient care, underscoring the need for a more balanced and sustainable work environment in pharmacies.
19	Assign extra help
20	At my particular retail pharmacy, we are extremely understaffed and cannot even begin to keep up with the workflow. Corporate only cares about how we can keep up with imposed metrics, patient safety is secondary to everything. Patient safety and concerns are only validated when they start to affect metrics or the bottom dollar.

	A
21	At my workplace there is not enough staff at certain times of the day to support the inflow of prescriptions that come in, answer the calls, ship medication, et . There should a standard minimum number of staff at all times of the day. My company does not allow for sufficient hours for all staff to maintain the pharmacy. Employee hours are held hostage by how well we perform towards metrics (i.e. number of vaccine given, calls to patients get more vaccines, etc).
22	Being able to focus on one task at a time would be the biggest safety improvement. Not sure how to make it happen but better staffing would be a great place to start.
23	Being able to focus without interruption.
24	Being consistently understaffed needs to be addressed by retail chain pharmacies. A legal statute that requires a minimum number of techs on during business hours depending on script volume would make sure the pharmacy is staffed.
25	Better phone systems to deter basic functions that can be done electronically.
26	Better workflow with each patient's meds being grouped together. Little interruptions and distractions. The phone calls are out of control since it rings a lot and not enough bodies to be at many stations from register to drop off to fill and answering the 4 or 5 lines that constantly rings. We in the pharmacy world are burdened by metrics and workload and the lack of breaks. Somedays I work 7am to 8pm and w/o one single break. Prescriptions are lined up everywhere and it's easy to mix up meds among patients. Corporations want more money each yr to satisfy growth and PBM want to pay out less so easiest way for corp to grow each yr is to cut cut cut labor hours. It's sad and I wish I had gone into dentistry instead when I went to college for pharmacy. I am happy to hear enrollments are down and hopefully enrollment will decrease even more.
27	Bottom line is more pharmacist/technician help. or limit number of prescription for pharmacist to verify per 8 hour shift
28	Cap on the number of prescriptions a pharmacy can fill. Cap on the number of calls that can come in. Hundreds of calls come in
29	central phone system-off site phone employees
30	clerk help and phones not ringing every 6 seconds and mgmnt getting upset cause you cannot answer all the phone calls! better phone system easier to use
31	Coaching
32	Companies should not continue to pile up more and more duties on pharmacists and the techs without providing extra help, especially when it comes to higher volume stores. There is already enough work to be done filling 1000+ scripts daily, administering shots, counseling patients, giving OTC recommendations, and then there are more tasks being given as if there is not already enough work to do. The extra tasks are being given or added to a day without extra help. There should be more pharmacists to help, especially at busier stores. Having more technicians will help, but that also gets more stress on the pharmacist having to watch over 3 techs plus the cashiers.
33	Constant interruptions of Pharmacist only tasks along with unreasonable mandatory metric goals
34	constantly adding additional metrics and tasks. excessive pressuring to reach goals. Pushing for excessive amount of vaccines and comparing other stores. Constantly made to feel we are under performing even when doing more than last year with less help. It takes a toll on everyones mental health. Its about profits but pharmacists pay increases are not keeping up with inflation. Does not make any sense these days to take on 225k in student loans and spend 8 years going to school. Return on investment is better becoming a technician with no school, no loans. Techs might get a raise of 5-10%. Pharmacist are lucky to ever see 1%, and that is over a few years.
35	Consultations are not conducted confidently and effectively due to time constraints. A separate window or area should be made available for private consultations.
36	Continue to promote the use a of technology that is being developed and the Board should be more proactive to amend regulations to broadly allow the use of these technologies
37	Corporate and district managers should stop threatening pharmacists to fill all c2 medications without speaking to the prescriber about the patient's pain management therapy plan especially if it is their first time and they are starting off with a 30 day supply. Patient safety is important but corporate tells us not to delay therapy by talking to the prescriber first.
38	Decrease phone calls and patient traffic in the pharmacy so the pharmacy has more uninterrupted time to finish task in a timely and safe manner.
39	Decrease the required paperwork and excessive processing we have to do for all control prescriptions
40	Decrease workload for pharmacists, increase ratio of tech:pharmacist, decrease the interruption while pharmacist is verifying the prescriptions, no vaccination (we are pharmacy, not immunization clinic), increase tech hour (they cut hour so sometime pharmacist has to be alone in the pharmacy or just have 1 tech for 2 hours, or all day)
41	Decreasing or eliminating pharmacist interruptions, decreasing or eliminating the amount of non-dispensing responsibilities pharmacists have.
42	Designate 1 to 2 hours a day where we only do vaccines and then no other vaccines can be administered after that time window.
43	Do not have enough technician help, meeting metrics and provide non-dispensing work are greatly affecting patient safety. If corporation could eliminate metrics including flu shot goal that would help pharmacists have more time to focus on patient safety.

	A
44	Do the math it is simple. There is only one question to be asked and answered all of the previous questions were of no consequence. The only question is how long does it take to safely fill one prescription from data entry to final verification?Do the math genius.
45	Doing or testing that shouldn't be pharmacist like point of care and test to treat for flu , covid and strep throat testing
46	Don't give us the CVS corporate answer. Be honest that there is a problem by acknowledging it. Then fix the issue as opposed to sugar coating the issue with positivity. Workplace conditions that needs addressing are hour cuts, lack of help, & metrics quo
47	Due away with metrics and non-dispensing tasks. Without metrics being used to evaluation my performance, which affects paid rate and raises, I will be able to focus on patient safety and not have to worry about non-patient related tasks or concerns.
48	Eliminatating the need for the pharmacist to be the main person answering calls while doing so many other tasks, constant interruptions by working alone for 3-5 hours while answering every question, consultation, and maintaining workload plus metrics, having 2 or more pharmacists per shift to alleviate the stress and workload .
49	Eliminate all metrics.
50	Eliminate metrics
51	Eliminate mtm tasks, have a mid pharmacist with the volume we fill.
52	Eliminate non dispensing responsibilities for pharmacists and metrics.
53	eliminate phone calls and phone metrics, all phone related items.
54	Eliminate the practice of staffing the pharmacy with 1 pharmacist for a 12 hour shift. Provide adequate staffing (whether pharmacist or technician) to allow staff to take a break/meal period without totally overwhelming remaining staff. Eliminate the
55	Eliminate vaccine targets Script targets Rph overlap More tech hours
56	Eliminating COVID testing, strep testing and flu testing. These tests take up to 45 minutes to an hour
57	Eliminating high metric expectations regarding immunizations, as it creates many disturbances in workflow and encourages mistakes due to limited space within pharmacy; especially at peak hours.
58	Eliminating metrics and increasing pharmacy tech hours
59	Eliminating non-dispensing pharmacy related work
60	eliminating timing of checking and reviewing rxs
61	Eliminating workload metrics
62	Employee Burn out. Need. More techs
63	enough pharmacist and technician staffing
64	enough staff
65	Enough staffs
66	Even though the tech to pharmacist ratio is set by the State Board of Pharmacy, we get around it by saying the techs who are ringing out prescriptions are cashiers, thereby being in compliance with state regulations. The truth is they are techs.
67	Extra help
68	Faster response time with providers
69	For non-dispensing services should be scheduled on weekends ehen an extra pharmacist can give the said services so complete focus and attention can be given to appropriate services
70	Get rid of metric, increase number of pharmacist
71	Get rid of twelve hour shifts. Increase pharmacist hours. Allow for better pharmacist overlap of shifts to make calls, perform daily tasks and counsel patients.
72	Get supervision out of the practice of Pharmacy
73	Getting extra staff for Managing incoming phone calls..managing patients problems..
74	Give extra time to complete the requirements and training for for additional tasks that have been added.
75	Give more time for pharmacist to review and communicate with MD and patient

	A
76	Give pharmacist more power less bosses less accountability from people that are making $ from the pharmacy . There are numerous people that have never worked in a pharmacy , don't know the law or what it takes to fill a rx safely and completely . Many of these corporate executives , district managers , store managers , and assistant managers all make $ and have financial motive to push a pharmacist to fill a rx faster , give more vaccines , do more MTM's , sell more OTC's , get all your paper work done faster and many other duties that are irrelevant to the practice of filling actual rx's . All on the back of the pharmacist license . Why I ask ? What have not all but most of these people done to profit from me going through 6 yrs of pharmacy school ,busting my backside , coming in early ,staying late , and working in a very high stressed environment . At the very least NVBOP should make it law that Pharmacist clock in and out and get overtime pay for anything over 8 hrs/day and 40hrs/week . Salary should be done away with . 30 min for lunch is a joke . Every pharmacist should get a full hr lunch by law plus a 15 min break in AM and eve . No supervisor ,district manager or store manager should have any authority over a pharmacist if they are not licensed and approved by the NVBOP . With that the NVBOP should develop a set of rules and standards said supervisors have to follow. If someone is in charge of a pharmacist they are essentially in control of work load , quotas, and how much a pharmacist is pushed to meet financial goals . As it stands now pharmacist have to meet unreasonable goals or get reprimanded , bonus with held and or terminated . I know nothing will probably get done because this survey is probably just fluff for someone that wants to look good for there supervisor . Again someone thats making $ off of pharmacists . Very ironic .
77	Giving consideration to give enough time to focus and fill prescription
78	Have additional pharmacist working to share the workload of counseling, therefore limiting the times of being interrupted while verifying medication¨s and data verification
79	Have enough Rph and techs depending on how many scripts Pharmacy fills per day
80	Have more technicians trained for immunizations, especially during flu season.
81	Have non-pharmacy staff prohibited from assigning any tasks to PT , PTT and cashiers; also be prohibited to tell Pharmacist to change focus or priorities.
82	Have not worked in a pharmacy for over 10 years.
83	Having additonal help, prohibition of metrics/quotas, pharmacists shouldn't be required perform non dispensing duties that allow the retailer's bank account to grow exponentially without any regard for patient safety.
84	Having more technician hours, our pharmacist shouldn't be working alone at any one time during the day. Law should require a minimum amount of man hours based off of prescriptions filled to help prevent retail pharmacies from creating understaffed condit
85	Having more technicians and giving the PIC enough technician hours to be able to schedule them.
86	Having more technicians or another pharmacist to help process and fill prescriptions and answer phone calls would allow the verifying pharmacist to have more time and not feel œrushed when verifying prescriptions.
87	Having more than 1 pharmacist scheduled during weekdays .
88	Having one pharmacist doing non dispensing duties for a designated amount of time (ex: 10a-3p). Also having patients make appointment to this designated non dispensing clinic time and not accepting walk-ins. There's distractions as soon as someone walks up and requests this shot or that shot.
89	Having sufficient tech hours so that a pharmacist should NOT have to open or close or work any of their shift without at least 2 technician
90	Having the freedom to discharge patients who are abusive to pharmacy staff.
91	hire pharmacists to take care of the mtm tasks and other non-dispensing related services, such as vaccinations, point-of-care testing, chronic disease management, collaborative practice agreements, staff education or quality improvement projects
92	Hours should be based on a yearly calendar. We should be able to utilize hours that are unused from one week to another and hours should be based on productivity. Meaning you should get more hours with newer staff as they cannot prefer at the same level as experienced technicians.
93	How many technicians are allowed per pharmacist.
94	I am answering survey questions based on my experience in retail pharmacy. I am currently at a remote hospital pharmacy where our only need is more pharmacists and uninterrupted breaks. In retail. Testing services should be completely separate from vaccination services (not the same building). Testing should not be allowed to be done through the drive-thru. Testing should be outside or have a separate entrance from all other patients and have a separate staff for all these procedures with appropriate sizes of all PPE necessary.
95	I believe my employer should place the responsibility of their flu/vaccination models on someone else for flu seasons, or it needs to be wildly decreased. For the month of October, we were expected to do up to 150 vaccines per day on top of meeting pharmacy demands
96	I believe patient care calls and prescriber follow-up calls are an over burdensome metric. In my practice setting, we communicate with patients via automated phone calls and text messages. There is redundancy all ready built into the system. We communica

	A
97	I believe that the addition of technician hours would be most beneficial to my practice. Starting this year, the budget was significantly cut, leaving the pharmacist alone most of the time the pharmacy was open.
98	I believe there should be a 1:1 ratio of pharmacist:technician at all times. A lot of times as a pharmacist, I am working alone for 6 out of the 10 hours I am there. It is hard to promote patient safety when I'm being pulled to do 6 different things duri
99	I do not want or think it is a good idea to have patients come into retail stores for disease testing.
100	I feel like most stresses are coming from corporate pushing for us to meet certain goals (metrics) ei, increasing our script count, vaccine goals, Clinical numbers, autorefill, 90 days fills, Medication Therapy Management. I spend most days worrying about meeting metrics rather than focusing what I went to pharmacy school for, taking care of patients, drug interactions and accuracy. Hopefully the board can step in and do something about this issue.
101	I feel that it is important to take breaks and we are not able to do that. My store is busier now than when I first took over the store. Before the pandemic we use to have 3 pharmacist scheduled Monday through Friday, now that I am busier because we even
102	I need one pharmacist just for consulting with all the medications we are expected to consult on, then another pharmacist just for vaccines and phone calls, and then a third pharmacist just for verifying and product review of medications. Sure, technicians can vaccinate but they do not want to without being incentivized as they feel they do not get paid enough for the risks that come with being a vaccinator. I think it should be a requirement for companies to have a cleaning service to clean the pharmacy. There is not enough time in the day for pharmacists and/or technicians to clean and it is also not our job. We are a health care environment that should have a cleanliness standard. My pharmacy has reeked of sewage for months. This smell is so bad that we wear masks and are getting headaches. I have put in ticket after ticket with our fix it center. Plumbers have come by to check on it with no help. Finally someone came to smoke out the pipes to see if there was a leak and the whole pharmacy became so smoky that the staff members could not breathe. Higher up members were upset when the floating pharmacist shut down the pharmacy while the smoke was in there. These conditions are not workable sometimes. I do not know any patient that would want their medications that they ingest to come from a pharmacy that reeks of sewage and has smoke everywhere.
103	I think every chain should have a call center about pt counseling over the phone
104	I think the company that I work at is great and it gives us a huge support.
105	I was a pharmacy manager for 14 years. At first I would have three technicians scheduled throughout the day. Around 2015, I was down to being able to only schedule one pharmacy technician every day and I was doing more prescriptions and more non-dispensing tasks. I feel that I am a very good pharmacist that can multi-task. With one technician, there is no way that I can handle the in-window, out-window, phones, typing prescriptions, filling prescriptions, checking them, and doing vaccinations. I simply can't be in each spot at the same time. When you have a line of patients staring at you and the phone ringing, your stress level goes way up and mistakes are made. I had to quit and move to another pharmacy setting, even though I feel that community pharmacy is my calling. Towards the end of my time as a community pharmacist I started to have panic attacks while driving to the pharmacy. I knew that I would not have enough help and that I would be under stress all day. (Don't forget, I was trying to do all of these things by myself before and after the technicians shift or when they were on break and lunch. Also, the technicians called out a lot because the way that they were treated by the company.) Patient safety was clearly affected by the lack of concern by the company.
106	If additional responsibilities are given to the pharmacists extra overlap and technician help should be given right away not told it will get adjusted in a few months automatically by the system
107	If our PIC/Rxmanager would stop being rude and disrespectful to our patients.
108	If we are going to be expected to be clinicians with our patients and counseling is being required, then an adequate amount of time needs to be given to actually review patient's info, contact doctor's, review guidelines, etc. We should not be held resp
109	If we became hourly then we'd be entitled to our breaks and 30 min lunches right now technicans are allowed but for us no one cares but it doesn't make sense we need them more to catch mistakes , or make mandatory brakes after two hours even as salary, r
110	If we can have 4 techs/ 1 pharmacist ratio
111	illegally be asked by corporate to increase the number of vaccination and metrics, and have nonstop cut technicians hours.
112	Immunization technician on schedule all day to eliminate pharmacist doing all vaccinations 4 or more technicians on schedule or another pharmacist
113	Impossible to meet payroll standards. Front end store using rx payroll dollars and forcing rx to cut help. Minimum staffing requirements enforced by state.
114	Improve staffing levels and allow for proper training of technicians
115	Improve staffing, preferably a midshift pharmacist, and adding at least one more technician to the afternoon/night shift to allow prescriptions to get filled continuously throughout the day and not leave a large load on the following day.
116	Improved staffing will help with the work load. As well as reducing non-dispensing duties like numerous calls that should be replaced with electronic communication.

	A
117	Improved telephone answering system, more automation
118	Improvements to the computer system to help prevent errors
119	in our setting, at our current fill level, we need to have 2 techs (8 hr shifts) per day. I think a single tech on the weekend is sufficient at the fill levels we are at. currently we are at 1 tech per day and 1 pharmacist trying to fill 160 average per day, including all duties. fill, dispense, phone, shots, counseling ect. there is a real question about making so many split second decisions in the course of a day is did i make every one correctly? I sincerely hope so. however the stress on some days due to work load can be overwilling.
120	In the beginning, I would like to discuss the pressure from the pharmacy manager. There is pressure that will lead to better improvement, but there is pressure that will lead to an unsafe environment to work. This exactly happened at the retail pharmacy currently. The pharmacy manager demanded staff pharmacists verify the prescriptions at unusual and inappropriate times. Staff pharmacist had to verify and work faster than normal process, so the pharmacy manager could get the payment bonus from the corporation. This leads to extreme events that can cause medication errors and an unsafe environment to work. The pharmacy manager demanded staff pharmacists counsel prescriptions and give vaccinations as quick as possible in as few seconds. This is not the right way to practice pharmacy, pharmacy manager should understand the importance of the necessary steps to practice pharmacy. In the normal process, the pharmacist needs to take time to discuss with the patient the usage of the medication, side effects, the dosage, drug-drug interaction, allergies, the history of the vaccinations, and so on. The pharmacy manager forced the staff pharmacist to skip most of the steps and work as fast as possible. There is a very high risk for staff pharmacists to practice and work in this condition. Secondly, I would like to mention pharmacy manager did not know how to train a new technician or technician-in-training. As a new hire, technicians will need several months to practice and perform hands-on experience at the pharmacy. The pharmacy manager forced them to work faster and threatened to write them up for any mistakes at the pharmacy. This contributed greatly to the medication errors that can lead to serious events. As a result, I would like to recommend not putting pressure on the new staff and letting them have enough time to practice and get used to the environment. In addition, the pharmacy manager did not know how to divide tasks between the staff. The staff pharmacist had to take on more responsibilities than normal due to the new staff did not have enough train. As a result, the normal process of the pharmacist such as typing the prescriptions, pre-verification of the prescriptions, product dispensing, final verification, and even the insurance process. The staff pharmacist had to do all the steps instead of dividing the tasks among all the staff. This contributed to medication errors as well. Lastly, the pharmacy manager kept track of how many times the staff went to the restroom every day at work. I do not know why the pharmacy manager was doing it as her policy. This is an unusual policy compared to other retail chain pharmacies, and it leads to unexpected pressure on the mentality of all staff at the pharmacy.
121	Increase help in the pharmacy, i.e more staffing. Removal of metrics and non pharmacist related tasks.
122	Increase hours
123	Increase in pharmacist overlap/ hours. Increase in technician hours. Maybe Increase the tech ratio to 4 to 1 but nothing more than that. I believe more would lead to a bottle neck and errors.
124	Increase in technicians and cashiers hours all throughout the day. Not just mornings, but evenings as well
125	Increase in the pharmacist staffed. there should be an opening, mid, and closing pharmacist every day except the weekends to ensure adequate overlap to help ensure more patient safety and better clinical conversations between patient and pharmacist.
126	increase internet speed computer systems/programs, better organization for medication pick up
127	Increase number of pharmacists staffed, allow for budget to do so, bonuses or salary raises that are greater than the cost of living percentage increase
128	Increase number of pharmacy technicians
129	Increase number of technicians, proper training of technicians before engaging in working in the pharmacy, move some of the non prescription dispensing activities to call centers.
130	Increase of immunizing pharmacy technicians.
131	Increase pharmachy technician and add a midshift pharmacist. The other day we did over 800 prescriptions with four technicians and two pharmacist with no overlapping schedule. In addition, we are required to do patient calls for mtms, adherence calls, de
132	Increase pharmacist staffing or overlapping shifts.
133	Increase Pharmacist staffing. CVS Walgreens Walmart need to be accountable
134	Increase staff
135	increase tech help. solve the problem of patients using good rx because their prices dont match pharmacy prices. It disrupts flow and increases chances of mistakes
136	Increase tech ratio. This will support rph in being able to reduce distractions, provide best patient care and practice at the top of your license while still providing essential services for the community.
137	Increase technician and pharmacist hours so that no one has to overwork and get burnt out.

	A
138	INCREASE TECHNICIAN HOURS, PAY THEM A FAIR WAGE, AND STOP INTENTIONALLY AND REGULARLY USING SALARIED PHARMACISTS TO WORK OVER BASE HOURS TO KEEP YOUR PROFITS HIGH.
139	Increase the number of techs who vaccinate. Pay techs more for vaccinating.
140	Increase work hours allocated to the week. Pharmacist, PT and PTT increased. You can have all the PT's in the country, but if you are short on staffing hours you're allowed, makes no difference.
141	Increased amount of technician help, Immunization clinics without designated immunizer should not be allowed
142	Increased pharmacist hours would help to alleviate the interruptions for the dispensing pharmacist.
143	Increased staff across the board to manage point of care services and prescription work load. Technician pay increased to increase retention and quality of work.
144	Increased staffing and directing non-dispensing and non-patient responsibilities away from pharmacists to improve patient safety. Suggest scheduling more shifts or more staff to focus on non-dispensing and non-patient responsibilities.
145	Increased staffing is a must. At the retail pharmacy we need time to call doctors to address interactions and the opioid epidemic. Instead we are making call after call to patients who have already expressed they don't want to be called for pharmacy programs such as MTM or Save a Trip refill. Metrics such as verified by promise time is insane. Time and time again I find myself taking short cuts in order to get the prescriptions done in time rather than prioritizing doing it safely.
146	Increasing pharmacist staffing would reduce interruption during verifying process that would promote patient safety.
147	Increasing ratio of technicians to pharmacists. Decreasing the non dispensing tasks that the dispensing pharmacist should do during the shift
148	Increasing Technician help to schedule every service offered at the pharmacy and manage waiting times accordingly. That will free the pharmacist to focus in patient care.
149	Increasing the pharmacy technicians allowed to work. Currently have 1 technician (maybe 2 if there's one overlap day) and they want us to cut an hour from each of them so the pharmacist is alone for an hour. I'm currently typing RX, verifying, filling co
150	Increasing the tech to rph ratio would be extremely helpful in assisting with removing tasks that technicians can do from the rphs
151	Interruptions by customers wanting to know the location of a product or to check out.
152	Interruptions coupled with excessive workload with added services required to be provided by pharmacists along with supervising technicians who are providing pt. care has dramatically increased the risk for medication errors. Chains insist they have SOPs and technology in place to alleviate the strain of the workload and ensure pt. safety however, they and the Board are well aware that IF these SOPs are followed, there are not enough hours in the day to dispense meds within the time they want with the pharmacist staffing provided. The management pressures the staff into complying with the imposed metrics (which increase year over year with a corresponding need to 'cut hours') with various penalties for non-compliance. Yet they will not hesitate to implicate the pharmacist before a Board hearing as being at fault and 'If they'd only followed our SOPs this wouldn't have happened'. This is true of ALL chains. With that said, pharmacist staffing must be addressed long before any contemplation of increasing the tech/pharmacist ratio as pharmacists are the rate limiting step in this process.
153	It would be great if we had pharmacies with a front of the house and back of the house design. The front of the house could handle interruptions, counseling and questions. The back of the house would just concentrate on verification, dispensing, etc
154	larger pharmacy with today's needs in mind
155	Less emphasis on non-dispensing responsibilities and increase emphasis on dispensing, counseling, and patient care with relation to medication accuracy, ADRs, safety and efficacy. (Which also happens to be what we went to school for).
156	Less focus on metrics
157	Less focus on vaccinations and other ancillary services. They make all the money now since the PBMs take all our profit, but it still doesn't make it right that we need to do them on top of actual pharmacy work. My primary concern is filling prescription
158	Less interruptions and with enough time to finish my IV infusions before I go back to benching
159	Less interruptions while processing prescriptions, less non- dispensing duties (manager likes to delegate her responsibilities to us without taking us out of the work flow to complete them, or not coming forward to take care an angry or difficult patient
160	Less interruptions with vaccines, fixing drug shortages, more staff to answer phone calls or having a call center. Well trained pharmacists, consistent scheduling to lessen burnout.
161	Less interruptions, better technology to help on prescription errors and more staff.
162	Less interruptions. Pharmacists are responsible for everything going on in and around the pharmacy area and keeping an eye out so people don't jump the counter or cut in line or pick fights with other people in line while working on filling prescriptions
163	Less restrictions on payroll.

	A
164	Lessen non prescription filling activities
165	Locked cases getting constant interruption by public about open locked cases
166	Longer lunch break. We usually work 11 hours a day with only 30 minutes lunch. Sometimes patients do show up 1 minute before lunchtime to pick up their medications. In that case we only have 25 minutes left to eat our lunch. That's not enough time.
167	Lunch breaks. Albertsons pharmacy refuses to allow me a lunch break on a 12 hour shift.
168	Mainly just enough staffing and extra pharmacist. Counseling requires time and with just 1 pharmacist, it's hard to not fall back on time.
169	Mainly to have adequate staffing. I believe if a pharmacy is filling over 300 RX's a day it should be mandatory to have to staff another RPH for at least an 8 hour shift.
170	Mandatory brakes for pharmacists . Additional manpower just to answer the phone calls .
171	Mandatory staffing requirements for cashiers in a retail setting and separation of non-dispensing activities from dispensing activities (additional pharmacist staffing specifically for the purpose of completing non-dispensing activities)
172	Metric pushing despite false claims that they are not monitored and stymieing promotion of œextra services to gain more profits and volume of patients that burdens safety due to numbers and workload
173	Metrics
174	Metrics are oppressive and staffing is too low
175	Metrics out of your control should be eliminated because prhs are evaluated on performance ot goal instead of focusing on safe prescription dispensing by continuous measurement for : 1) increased vaccines goals despite vaccine hesitancy after covid 2) increase in number of new patients to the pharmacy 3)number of patients that become rx filling patients that you converted after receiving immunization 4) MTM ratings determined by lost points from patients who do no answer the phone (avoiding spam calls), from patients that refuse to agree to a complete medication review and discuss their private medications from a pharmacist/pharmacy they have never used (cold calls), from not wanting to fill 90 days for adherence under insurance when they cannot afford or when the pharmacy's cash discount offers 30 days for free, from prescribers or patients who decline to add/change prescriptions based on disease state even despite having tried and failed therapy in the past . All of these metrics are used to evaluate performance and raise and are required to be completed within hours allotted to pharmacy in addition to administering vaccines and filling prescriptions
176	More bodies to take care of phones and patients picking up. The techs who fill and the pharmacists who verify should be the ones uninterrupted to focus on their tasks. Getting rid of metrics and timing how long it takes to complete a prescription order would also reduce stress levels and allow more focus on completing the order correctly.
177	More help
178	More help needed
179	More help, from pharmacists and techs. The high stress and low pay is not enough to convince anyone to work retail, and the best way to lower the stress is to have more employees. There should be mandated breaks for pharmacists (there is no period of time I can sit and eat a snack without a counsel or phone call needing me, my company does not let us close for lunch because we have one hour of shift overlap which could be avoided by increasing pharmacist hours) Even the locations that close for lunch do not have a break for the closing shift pharmacist that is still working 8 hours. My managing pharmacist and I are both stressed by the end of our shift and a small break could greatly reduce that and improve attentiveness.
180	More help,dedicated cashier,no metrics
181	More pharmacist help
182	More pharmacist overlap and more technicians
183	More pharmacist overlap, fewer interruptions, breaks, better training
184	More pharmacist overlap, less focus on metrics
185	More pharmacists
186	More pharmacists and pharmacy tech help, eliminate metrics.
187	More pharmacists and technicians
188	More pharmacists on duty to fulfill vital patient consultation function. All pharmacies must have a bilingual staffer on duty during all open hours.
189	More pharmacists to overlook technicians and interns. Better systems that help RPh with verification.
190	More RPH overlap
191	More staff, less focus on numbers more focus on patients
192	More staffing . And if we can actually take our break decency without worrying that we are behind and need to finish our food in a hurry to go back to work
193	More staffing both pharmacists and technicians
194	More staffing. Less daily non- dispensing responsibilities.

	A
195	More tech hours is a must! Or at least a minimum of 1 technician at all time while the pharmacy is open. On most days, in the middle of flu season, we are open for 10 hours and there's only 4 hours with a tech. The other 6 hrs, pharmacist is working alone due to tech hours cut by corporate.
196	More technicians so pharmacists can focus on pre-verifying and verifying prescriptions. The expectation that pharmacists should also be doing technician duties such as filling, insurance issues, and checking out patients at the register while also be able to do vaccines and MTM on top of our regular duties.
197	More techs
198	More techs trained to vaccinate. Offer monetary incentives for training
199	More than 1 pharmacist for at least most of the day because so many tasks are œpharmacist only and it is exhausting when all those go to solely you and lead to massive amounts of interruptions or frustrations without the ability to stop for a minute.
200	More than 1 pharmacist should be on duty when the prescription volume is higher than 400.
201	More than 1 pharmacist. Depending upon the diagram of the pharmacy, such as drive thru, counseling rooms, robotics etc, increase pharmacist overlap.
202	More training for technicians
203	My biggest concern currently is the volume of vaccinations we are performing. This is not year round but has greatly affected my practice from Sept to Dec. I highly recommend/encourage vaccinations but it is not feasible to do 60-100 vaccinations in one day, verify an average of 400 prescriptions, and all the other activities that are needed in a pharmacy when you are the ONLY pharmacist and immunizer. The proposed solution has been to allow technicians to immunize, which I am grateful for to an extent but it does not solve the problem as much as my employer would like to believe. Many of my technicians do not feel comfortable immunizing. They chose their professions for a reason and many of them did not expect to need to perform this task. My opinion is if my technician that day feels comfortable helping me, that is great but I will not pressure someone to do something they are not comfortable with. It is not good for the patient or my technician. For an example, if my technician is not comfortable giving a 5 year old a flu shot, it will result in me spending the next 10-15 min trying to calm the child down. This takes up a lot of time away from dispensing drugs and it all adds up. I wish we had another pharmacist/nurse that would purely do immunizations Sept to Dec.
204	My concern is Performance "meterics" and an insult to the profession. It creates the sense that one must work faster to move on to the next prescription to meet "expectations" from corporate. We have 15 seconds to perform data entry correctness (pt name,DOB, prescriber, Drug name and strength, Directions, qty, day supply and 5 seconds for clinical review which includes history review, drug directions and interactions. Considering some patients have 20+ medications one can consider that an absurd metric!
205	My current workplace, I am very happy with. My prior pharmacy, which was much busier, always felt like we needed more staffing to safely meet patient needs. I was not the PIC at my prior pharmacy and had no control over changing the situation.
206	N
207	N/A
208	Na
209	Need better pharmacist pay and technician pay due to inflation. Better staffing for hours and pay for overtime for pharmacy teams. Cut back on excess ready-fill prescriptions and eliminate more with corporate metric demands. Advocate for more supportive services and provide more technician support if there is a call-out. Provide better pharmacy training for new hires.
210	Need cashiers
211	Need extra tech Or even train clerks to handle constant line at the Rey or answer non stop phone
212	Need more technicians
213	Need to have more than 1 Rph on duty for a good portion of the day to meet duty to counsel requirements.
214	Need to schedule more technician to Help pharmacist to fulfill duty
215	None
216	NOT APPLICABLE; SMALL VOLUME PHARMACY
217	Not enough staff during flu season
218	Not having to do vaccines appointment every 10 minutes and also employer asking to add more vaccines or take walk in patients for immunizations
219	not interupted per phone call
220	Number of days a pharmacist can work in a row before having a day off..
221	Of course we would all benefit from more staffing, whether it be technicians or pharmacists. The pharmacoeconomics of retail pharmacy simply does not allow for the staffing levels that are needed to provide QUALITY patient care which will expand our prac
222	Of course, we need to have enough staffs for a busy store with high volume >300+

	A
223	On my opinion adding more Rphs and technicians would be beneficial. One Rph can't verify, fill, counsel, answer phone, doing immunization, calling patients if they have questions, doing exception counts and other added responsibilities all in just one s
224	On site test and treat services. We do not have appropriate pharmacist staffing available to do that and safely fill prescriptions for patients. We either need more staff or to do less non dispensing activities.
225	Only do prescriptions, eliminate vaccines and MTM to another location.
226	Our volume is increasing and our management is requiring that tech hours be cut. They are using a 15 year old of better labor grid which does not account for all the tasks we are required to do. Also if a tech calls out they office does not find us help. we are expected to work the pharmacy with one RPh and one tech which is completely UNSAFE and the patients cannot be taken care of in my eyes. Plus we have a great deal of failures of the computer system that burn our time. Some can even create errors that we have to address. I constantly ask for fixes but nothing ever gets done.
227	Overlapping hours for pharmacists to have adequate help from other pharmacists. More techs can help but at the end of the day they cannot verify prescriptions and they can make mistakes but not liable for them since pharmacists are still their supervisors. To promote patient safety we have to have pharmacists working and enough coverage for consultations, drug therapy checks, immunizations, calling doctor offices for changes, etc.
228	Periodic breaks for pharmacists where we can sit down and clear our minds. Uninterrupted meal breaks would be nice. More support for answering phone calls would be nice.
229	Pharmacist is too accessible leading to many interruptions
230	Pharmacist overalp
231	Pharmacist should be paid from the point of entry to the pharmacy to exit, including extra hours worked to create a smooth workflow. More pharmacist should be allocated based on rx processed per pharmacy. There is no incentive to work at a pharmacy that processes 600+ or 1000+ per day vs one that has 200 rx per day. Companies need to increase tech pay for better retention and quality candidates.
232	Pharmacist should have a place to work uninterrupted by the public. At my employment this is a constant problem. Non pharmacy questions interrupting my work. People asking where is the peanut butter, etc. The technician can obtain my attention when needed for counseling or a problem. (Not shoppers)
233	Pharmacist should never be in the pharmacy alone. For pharmacist safety and ensuring that there will not be an error bec the pharmacist will have to type the rx, fill the rx and verify everything. The pharmacist working on prescriptions received that day
234	Pharmacist should not be doing point of care testing on top of dispensing responsibility
235	Pharmacist should not have to work alone during operating hours
236	Pharmacist staffing - we regularly have only 1 pharmacist on duty per full day while filling 300+ (commonly close to 400 or more) prescriptions a day on top of non-prescription tasks while trying to man more stations than we have bodies for (ie. drop off, filling, pick up, drive-thru, and pharmacist queues, someone out giving immunizations, etc). Our own metric system for scheduling will suggest 4-5 techs a day with that single pharmacist, which is illegal per the current pharmacist:tech ratio laws. I think the Board should set a law for at what point is when pharmacist overlap is required (ie. certain number of rx's per day, certain number of immunizations in a week, etc) as well as potentially increase pharmacist:tech ration to 1:4.
237	Pharmacist to technician and technician in training ratio is often exceeded therefore more difficult to oversee all dispensing transactions. An additional pharmacist during a staff pharmacist's 12 hour shift will greatly improve workflow and patient care
238	Pharmacist to technician ratio should be reduced to 1:2, and employers should be prohibited from hiring cashiers. Employers should be required to hire 1 pharmacist for every 2 technicians on shift instead of sending more cashiers to help with workload. Supervising too many technicians and cashiers can cause more interruptions for pharmacists especially if not adequately trained, and there are too many tasks that only a pharmacist can complete. More technicians are needed in order to handle current workload however it is not helpful without more pharmacists.
239	Pharmacists are overly accessible. Instead of being seen as a resource for medical advice, we are now seen as the store directory and are interrupted constantly by questions regarding product location, complaints about OTC lockups or stock issues, and we can barely process a single prescription without an interruption. Certain chains are even cutting down on non-pharmacy staff with the expectation that pharmacy pick up the slack.
240	Pharmacists shouldnt be working over 8 hours per day. Due to fatigue more medication errors occur. Pharmacies like Costco, CVS and Walgreens have made it a common practice to require pharmacists to work mandatory 45 + hours every week. That is minumum 9 hours a day
241	Pharmacy has become too metric centered and companies apply pressure by constantly sending reminders of targets. The amount of non dispensing activities are increasing all the time without any addition of time to compete tasks. With the introduction of t

	A
242	Pharmacy tech help and ratio increase. Of course adding a pharmacist would help but I don't think it's realistic that companies could pay. Having any extra help is crucial. Non dispensing tasks need to be deferred to a specific tech/pharmacist. We have n
243	Pharmacy technicians are not compensated for providing vaccinations and putting themselves at risk for needle sticks and significant errors voluntarily without more pay. Technicians need to be compensated for the job they do so turnover is reduced. Turnover directly impacts patient care and more time must be spent to train new technicians, which also affects patients loyalty. More issues can arise it patients do not trust staff and use multiple pharmacies
244	Phone call center
245	Phone calls asking for pharmacist advice should be charged with a fee.
246	Phone calls should be handled by a different team.
247	Please Increase number or technicians and clerks. Please make it a legal requirement for the employer to follow minimum number of techs to at least 2 technicians/clerks per day. There were times we pharmacist working alone or with only 1 tech per day. That was very challenging to ensure patient safety when we had to rush to help eveyone.
248	Please remove non medication services from pharmacy and let pharmacist only focus on patient medication and safety
249	Please require pharmacies staff 2 pharmacists per shift.
250	Post fill audit to do one final check on high risk prescriptions before leaving the pharmacy
251	Prevent a pharmacist from working without a technician and having to receive, transcribe, review, fill, review and dispense prescriptions by themselves.
252	Provide adequate staffing. Smith's needs to increase pay and benefits for technicians to attract more competent applicants. This pharmacy has been working extremely shorthanded for over 3 years. Safety of patients is extremely compromised. Although management says patient safety is the most important, the metrics imposed and pharmacist/ tech hours earned based on metrics show otherwise.
253	Provide enough staffing
254	put more emphasis on doing things correctly the first time an individual works on a prescription
255	Realistic expectations for staffs and Rph's to adhere to: our job can not reflect base on numbers the board should put both the pharmacy staffs health and patient health at their priorities by protecting the healthcare sector equally! Given the pharmacy
256	Recruit and hire more Pharmacists. So , increase the salary and benefits of Pharmacists, which will help in the long run to decrease the turnover rate.
257	Reduce the amount of immunization appointments. Allow us to have at least 1 hour after opening and 2 hours before closing with no appointments to catch up on work or clean up the pharmacy. Reduce the amount of appointments to 1 person per appointment tim
258	Reduce the call volume to pharmacy so staff can concentrate on more urgent or critical tasks.
259	Removal of metrics, more technician help, adequate training
260	Remove corporate metrics
261	Remove metrics especially vaccination requirements. I would love to promote vaccinations without the pressure of a required number.
262	Remove metrics or have extra staff that can complete the needed metrics or items not pertaining to a patient care
263	Remove performance metrics. At least 2 pharmacists each day for locations that fill more than 200 scripts a day
264	removing metrics and increasing pharmacist staffing
265	Removing practice metrics. This is EXTREMELY important with respect to œnon-dispensing services"there should NEVER be time limits/quantity requirements on these direct patient care activities. This only leads directly to patient harm.
266	Removing the metric to answers phone calls in under 60 secs. We have 9 separate phone lines and they ring all the time.
267	Removing value of metrics. Patient safety is more essential than profit.
268	Required that employer provide more pharmacist if they are adding more none dispensing tasks such as immunization, point of care testing, doing diagnostic and prescribing
269	Review number and intensity of government regulations involved in each and every prescription
270	Scheduling overlap and days off
271	Separate area and staff for typing and billing insurance
272	Separate non-dispensing activities from processing prescriptions. Adding more pharmacists would make a huge difference. One could handle prescriptions and the other could handle MTM, vaccines and patient consults and questions. Every hour the pharmacy is open should have a minimum of 2 pharmacists on duty with additional pharmacists added for increasing volume. For example 1 RPh for every 200 Rxs.
273	Set hours to just do non dispensing tasks ...separate from a day of dispensing
274	Sit down station for pharmacists to reduce fatigue
275	Staff Training for new technicians - standardized requirement for training hours Rph overlap with high volume stores to help with counseling and imz

	A
276	Staffing
277	staffing for pharmacists, techs, cashiers
278	Staffing issues. People don't want to work, they know it's going to be a rough shift because of missing coworkers.
279	Staffing of both rph and techs have been anemic for years. Increase staff & find a way to keep good staff.
280	Staffing to meet patient needs. Most of the time you have multiple areas to assist with only a small number of staff.
281	Staffing, Workload,
282	Staffing,backlog of work,additional responsibilities. We have to stop the mindset of doing more with less. Yes, we have robots and tools to simplify and automate processes but they still need staff intervention to maintain and calibrate.
283	Stop all the Covid shots and all of the testing for Covid. Too many shots. PBMs stole all of the money so now pharmacies have no choice but to do all of this nonsense MTMs, infectious disease testing, vaccinations, just to stay in business. The actual work that we need to be doing (filling prescriptions) is falling by the wayside and patients are suffering as a result.
284	Stop basing performance reviews based off of metrics like verify by promised time, number of vaccinations, number of prescriptions sold, MTM engagement etc. the main focus should be of patient safety and engagement. When the company and higher ups are al
285	Supportive personnel metrics are not equal based on Rx volume. While I believe the company I work for is the best out there and is committed to pt safety and care for their associates, pt satisfaction will always be tied to getting their medications in a timely manor. Other stores which do less volume are allotted more supportive personnel hours. Having more cashiers and techs would improve outcomes.
286	Take away the metrics that leads to unrealistic expectations from the pharmacists.The staffing model that the company is implementing is unrealistic . Pharmacy staff should be treated like a human being not like a filling / dispensing machine. We need to
287	Tech hours. It is extremely unsafe to have a pharmacist work solely by themselves.
288	Technician help is a must at my workplace setting
289	The amount of Rx's that are expected to be filled before days end is excessive. There is constant pressure to meet our metrics that focus on Rxs filled, vaccinations, PCCs (so pointless), and patient surveys where the must indicate they would come back t
290	The amount of staffing they provide. Increasing staff would help with the high workload that is given and expected from us.
291	The biggest issue with retail pharmacies in Nevada is staffing issues and unrealistic expectations from corporate.
292	The emphasis on achieving increases on immunizations, travel medications, hormonal contraceptives and OTC sales growth often comes at the expense of dispensing prescriptions. From August to November, my pharmacy becomes an immunization clinic and completing the 3000+ prescriptions weekly in a timely manner becomes extremely challenging. The attitude that my staff and I "have to find a way to do it all" is becoming common place. I have been in pharmacy for over 30 years, am exceptional at finding ways to expand our practice and meet the needs of our community SAFELY AND EFFICIENTLY. I have been a top immunizer for the company. I have been at the top of the leaderboard for many corporate focuses. The current work environment and expectations tied to corporate goals has put me in a position to decide which goal to achieve: their numbers or patient's prescriptions completed in a timely and accurate manner while supporting my staff in efforts to prevent burn out. This year, with absurd goals, I chose my staff's well being. I was harassed for not being competitive, accused of not caring about my job, and threatened with disciplinary action.
293	The expectation of metrics, volume of prescriptions, control paperwork, vaccinations, and giving great service and being a great clinician is unreasonable. I think the first thing to go is outlawing metrics. Second is hiring more pharmacists. Third is changing the expectations of patients that pharmacists are pharmacy machines.
294	The expectations set by my current employer have raised significant red flags, particularly regarding the review of prescription data and drug utilization reviews. As a remote pharmacist, I find myself pressured to review prescription data within an average of 18 seconds per prescription and conduct drug utilization reviews within an average of 7 seconds per prescription. These metrics are not just impractical but pose a serious risk to patient safety. In the course of my daily responsibilities, I come across numerous errors made by technicians and pharmacists that, in my opinion, could be avoided if we were granted more reasonable time to thoroughly review prescriptions and patient profiles. The current metrics create an environment that prioritizes speed over accuracy, a perilous approach in the field of pharmacy. Moreover, the time restraints contribute significantly to a stressful environment, making it mentally draining to constantly operate under such high-pressure conditions. Patient well-being is our top priority, and the strain to adhere to such stringent timeframes not only jeopardizes our ability to ensure the safe dispensing of medications but also takes a toll on our mental well-being.

	A
295	The high amount of various tasks required to be completed daily. There is only one pharmacist who has to review (both data entry and product verification) scripts, take verbal scripts over the phone, sign off of new scripts going out at the register, provide patient consultation, performing MTM and new therapy follow-up patient calls, check-in controlled medication orders, verify vaccines (if not giving them), while also backing up the technicians on all their roles (data entry, production, answering phones, running the register) and any managing duties (PIC). Multitasking is required to work in this environment, but it's multitasking that leads to medication errors. That's a lot of things for one person to be expected to do normally, without patient safety involved. A second rph on duty would be the first thing to help with all of these tasks. It's hard to keep up with all of it normally, but especially when you're constantly falling behind. A call center to screen for calls that actually require pharmacy assistance/a call center to perform the numerous outgoing calls we are required to perform. Onsite testing and vaccines are fine, if there is a dedicated person to do them. Having the technicians be able to give vaccines is nice, but they are usually already busy doing their normal technician duties to really be able to help.
296	The number of pharmacists working at a site should never be 1. There should be at least 2 pharmacist, particularly during busy hours.
297	The pharmacist is the neck of the bottle for all tasks, overseeing technicians, counselling, verifying, immunizations, which leads to constant interruptions and multitasking. There is no time to do it all. Have to do this all while being monitored on everything from wait times, verified by promised, immunization goals, calling patients for PCQ/adherence calls in order to make goals and keep your job. Have to work through lunch to get caught up as the prescriptions are still coming in. and stay late an come in early so don't fall further behind. Technicians can help but are barely educated and trained. Therefore turnover is high. Get constant pressure from above, as more tasks are added no additional pharmacists are given. No overlap in order to get tasks done. Pharmacists should not be allowed work "off the clock" most pharmacists have to come in early (as prescriptions are DUE as early as 15 minutes after opening) and stay late as if they have carry over prescriptions can lead to discipline. this leads to dangerously long shifts. But since most pharmacists/managers are "salaried" it is allowed/expected.
298	The pharmacist verifying accuracy and f the scrips being entered and filled does not do any of the other requirements for patient care calls and or mtm
299	The pharmacy reduced the staff pharmacist hours from 40 to 32 and the pharmacy manager from 40 to 36 hours per week with same volume of prescriptions as before. We never get caught up.. running all day.Pharmacists should only do a certain number of prescriptions per hour. Air traffic controllers , doctors have a limit of workload..otherwise mistakes get made . The pharmacy chain corporations are still ending up with high profits after expenses are paid. Allowing more hours to do my job tasks would promote patient education and safety.The large pharmacy retail chains have made it a stressful environment. Money is the bottom line . Pharmacy career has become a big disappointment compared to 20 years ago. Thank you to the board for listening.
300	The pharmacy should have increased # of pharmacist and technician, with a dedicated phone service
301	The volume and pressure to fill 400 to 500 scripts in 1 day by 1 pharmacist.
302	The workload is so intense. Many technicians do not last because the workload is so intense and it's just not worth the money. Meanwhile the one pharmacist on duty is pulled in 6-12 different directions at any one time. Yesterday I had 6 phone calls all
303	There are too many interruptions when reviewing a patient's profile and new orders coming into the pharmacy. Sometimes I have to come back to the same prescription 3 or 4 times when doing data review (double checking what the technician entered with regards to correct patient, drug, strength, dose, directions and physician) More pharmacist hours would allow one RPh to focus on the data review while the other pharmacist could focus w/ speaking to patients and physicians.
304	There is not enough time to finish everything expected of us. A higher tech ratio or requiring a minimum amount of technicians on duty at any given time depending on script count or other factors.
305	There should be another pharmacist in between a 12.5 hour shift of the main pharmacist to help out with the workload (dispensing, vaccinations, MTM calls, verification)
306	There should be designated person for phone calls and mtm, vaccines . Techs and rph must be sufficiently trained
307	There should not be days where pharmacist is left alone for whole day without any technician help
308	They keep adding tasks only a pharmacist can do, but don't provide extra pharmacist coverage. Requiring two pharmacists at all times should help with this. One can focus on dispensing tasks and another one on counseling and non-dispensing tasks.
309	This surgery is exclusively for Walgreens. I worked as both a floater and a pharmacy manager. We do not have sufficient overlap. Many of us go without bathroom breaks, lunches, and 15 minute breaks because the company wants to save money on pharmacists.
310	Too much work load for 8 shifts for 1 Pharmacist (PIC/Staff duty) Need 3 technicians help OR 2 technicians +1 clerk
311	Understaff issues at chain retail are due to unfair compensation for techs. Their pay rate is so low compare to other industries but was expected to have many responsibilities. Even a fast food restaurant pay their cashier better than a tech that has 3 y

	A
312	Understaffed of pharmacists and technicians, the ridiculous metrics and number of questions at the cash register.
313	Understaffing needs to be addressed. [redacted] pharmacy supervisor for NV, needs to be replaced with someone who will be honest with pharmacists, someone more concerned with hiring pharmacists instead of forcing them into pic positions they don't want, and someone who assists in getting open shifts covered. Technician training programs need to be implemented and pay increased to encourage techs to stay through all the stress of pharmacy. It would be extremely helpful to have more than 1 pharmacist at an open pharmacy so that one may focus on dispensing functions and the other on vaccines/other tasks.
314	Unreasonable metrics/workload. Retaliation. Hostile management / work environment. Erratic schedules lacking work life balance.
315	Until non-dispensing interruptions and non-patient interruptions are eliminated or decreased, NOTHING will change or improve
316	Updated equipment (scanners, computers, filling machines)
317	Utilizing a software system that is completely integrated and not a cobbed array if modules that one must exit and access another portion, obtain an answer, write it down and re-enter is the original field. Simplify.
318	We are not provided with enough consistent technician hours to maintain a proper staff, so technician increase. Removing metrics. Removal of mandatory daily call lists
319	We have a space issue in our pharmacy. Too many bodies filling too many prescriptions combined with an inefficient work flow is cause for errors. Medications are stored in wrong places, too many hands are touching the medications, baskets are falling all over the place, not enough shelving for required documents. Our volume is too high and there's no room to add more technicians, pharmacists, or cashiers.
320	We need breaks, more staffing. Constantly being on œgo go go is mentally, emotionally, and physically exhausting.
321	We need mid shift Pharmacists because 1 pharmacists can't handle 3 cashier, 3 tech, plus phone call from patients with questions concerning their prescriptions.
322	We need more hours provided by the retail pharmacies to staff a pharmacy appropriately. It is unreasonable to have 1 pharmacist 1 technician to hold down a pharmacy doing 200-300+ scripts a day plus vaccinations and all other side tasks including regulatory, and inventory. Retail pharmacy companies need to supply the workforce to have a full functioning pharmacy that meets patient safety needs
323	We need more staffs like pharmacist to help with verify prescriptions and medication, also more technicians to help answer phone calls, ring up customers and help with vaccinations.
324	We need more technician hours and more pharmacist overlap to safely fill all prescriptions for the day. We should be able to schedule as many technicians as it's necessary to fully staff the pharmacy and perform our duties safely. Non-dispensing duties s
325	We need to have our allotted number of pharmacists daily. Most of the time our mid shift pharmacist gets pulled to another pharmacy due to staffing shortages. We also need permanent pharmacists staffing our location. We should have 5.4 pharmacists on staff but we only have 2.
326	Wearing of masks if coughing
327	Well Staffed at all times
328	when i was a pharmacy manager, i voiced my opinion on pharmacy workload was too heavy on annual pharmacy board inspection.
329	While I believe immunization and medication management are essential to patient care, retail pharmacy should not be the primary point of service. Interruptions and increased non-dispensing workload lead to dispensing errors. The level of patient attention is also diminished for non-dispensing tasks because there is not adequate time to spend. Increasing the number of pharmacists on duty when dispensing and non-dispensing tasks are to be performed would greatly decrease medication errors and increase patient care. Allowing Nevada pharmacists to work from home or not within the confines of a retail pharmacy to perform some duties may help reduce workloads.
330	With only one staff pharmacist on duty during a shift during which 400 prescriptions are filled, the expectations are: Clinical Services are discussed and offered to patients; Controlled Substance Stewardship, including detailed reports and contacts with Drs and Pts are documented; Immunizations are given, and we are pressed to do more; the new Test To Treat is being rolled out so that we now perform testing for Flu, Covid and Strep as well and write the prescription for needed medication and dispensing it. This in addition to standard procedures such as verifying Rx's and making sure medications are dispensed accurately.
331	Worked at cvs for a couple years and got burnt out quickly. They don't support pharmacist or technicians. Days at cvs 8819 would at times have one pharmacist fill at least 500-750, some days with one pharmacist and other days overlap for 4 hours. Still s
332	Workload
333	Workload metrics are dangerous, staffing hours need to be increased and [redacted] needs to put people before profits.
334	No response.

	A
1	**Question 55: What workplace conditions, if any, do you believe should be addressed at your primary practice setting to promote patient safety? What suggestions do you have for improving the condition?**
2	**Question 3: Which of the following most closely describes your primary practice setting?** **a. Institutional/Hospital Pharmacy**
3	**Responses**
4	Adequate breaks for retail folks
5	BETTER ACCESS TO PT EHRS
6	Better communication and training
7	Better communication between management and staff and firm standards that are clear and concise implemented.
8	BETTER EMAR. INCREASED STAFFING. PHARMACIST:PATIENT RATIO REDUCTION (CURRENTLY 1:200+)
9	Better software and computers
10	Better staffing of pharmacists. Less corporate metrics that are not aligned with patient safety, and instead aligned with profitability.
11	Bigger space, consolidating workload on each individual pharmacist, more uninterrupted workflow (the phones!), more staff for the amount of work we do
12	Break time
13	Competant Director who understands the workload and role of staff Rph with experience
14	Compliance with state and federal laws
15	Continue to focus on the work in front of you. Standardizing processes.
16	Decrease patient to pharmacist ratio; have clinical specialists being able to focus on their specialty
17	Decrease phone calls. Have a way to screen non pharmacist questions to technicians
18	Direct involvement of pharmacists in doing medication reconciliation. Provide the necessary hours to perform this function
19	Enough staff to do the work without being constantly rushed.
20	Equally distributing workload, amongst unit base pharmacists
21	Hard to say...the hospital is always trying to reduce safety issues, whether it's pharmacist or technician based concerns (ie, spreading out workload if a job becomes to big for one position, increasing staffing, improving new employee training, etc)
22	Having enough Pharmacists and technicians working. The staffing for the day in the hospital is based off of census. The census for the day is based off of patients admitted by midnight. It does not include the patients that come to the ER(emergency room) and the surgery patients. However, most of the stat medications are from these patients. The staffing should not only be based on census but also on how sick the patients are and requiring stat medications.
23	Having left [redacted] pharmacy at peak of COVID vaccine and testing administration it was difficult to verify prescriptions and maintain safety as the sole vaccinator. Oftentimes I would come into work an hour before my shift was set to begin in order to catch up from the numerous backlog that was left for me the day before. [redacted] notoriously will have one pharmacist work a 12-13 hour shift and expect them to verify 300+ prescriptions while vaccinating, consulting, and clarifying confusing prescriptions from providers. Oftentimes I would work through my lunch and find myself feeling incredibly anxious that I could not provide the level of care or customer service that I wanted to. Having additional pharmacist to complete tasks would have greatly increased work satisfaction and promote patient safety.
24	having managers who actually listen, build quality INTO each process
25	Hiring a cashier/clerk to do the check in and out
26	Hospital corporations should not rely on only the number of patients (œcensus) as the defining factor of how many pharmacist and technicians to staff but they should also account for severity of illness and number of prescription orders requiring veri
27	I think there should be a standard for operating systems. For example, our system is antiquated, it types different directions on the label vs the recording/ checking portion. There should be stricter and more regulated requirements for these systems
28	Improve ease of communications with the Licensed Medical Professional
29	In my previous experience within retail pharmacy, I encountered a multitude of challenges that significantly impacted workplace safety and ethics. The insufficient number of pharmacists and the excessive workload created an environment that compromised safety standards. This situation has led to a collective effort in various states to establish unions, reflecting the growing concern within the industry. One major concern that requires urgent attention is the conflict of interest within the Nevada Board of Pharmacy (NBOP). Members of this board simultaneously serve as representatives for large retail chains while also operating within the Board of Pharmacy. This dual role presents an evident conflict, potentially undermining the impartiality of decisions made. Retail chains are pursuing strategies that prioritize cost-cutting measures over employee welfare and patient safety. There's a concerning trend of advocating for reduced pharmacist wages, increased workloads, and the downsizing of experienced technicians in favor of hiring and training less experienced staff. Regrettably, many initiatives proposed by the Board of Pharmacy seem to align more with maximizing corporate profits rather than prioritizing safer work environments for employees or ensuring optimal patient care

	A
30	Increase in pay for technicians so we can focus on quality and retaining employees instead of constantly training and losing staff to higher paying jobs.
31	Increase in staffing. Overnight I am the only pharmacist responsible for all admitted adult patients of a hospital with nearly 800 beds. Some days I do not have the ability to take a lunch break. On top of verifying all orders, I also must check IVs, cover the pediatric and ED pharmacists lunch breaks, and answer telephones. A technician dedicated to the phone, like the day and swing shift have, has been requested and denied repeatedly. Even just that one technician would alleviate my tasks and help me focus on patient safety. Requests for any extra staffing is repeatedly denied due to budget and currently we are required to flex and attempt to work short staffed during what is typically the busiest time of year.
32	Increase number of pharmacists and remove nursing management over pharmacists
33	Increase number of pharmacists and technicians. Eliminate entirely metric system in Retail Pharmacy. In the retail setting, one pharmacist should not fill more than 200 Rx a day
34	increase staffing
35	Increase the number of staff.
36	Increased local pipeline of qualified pharmacists
37	Increased staffing based on a set minimum staffing grid. Productivity based on census does not appropriately reflect patient acuity or amount of orders being processed daily.
38	Increased staffing, possibly a requirement for a certain number of pharmacists per inpatient per day
39	It's not that we do not have enough employees most of the time. It's that work related duties aren't aligned the best to get the work done that needs to get done in an unfustrating manner.
40	Lack of pharmacy staffing for both pharmacists and technicians should be seriously addressed.
41	Lack of staffing and additional budget for additional pharmacists.
42	Learning environment , better staffed pharmacists and technicians
43	Making sure there is enough staffing and pharmacists and technicians with the specialized knowledge areas. For example, we need a tech who is Med Rec trained to do that in the ED, we need enough residency trained pharmacists to cover all the auditing, medication, patient safety and regulatory requirements. Currently so much is required that it is hard to balance it all while keeping patient's safe and making the needed interventions and follow up with prescribers to optimize patient care.
44	med rec
45	Medication education to staff including nurses, pharmacists, all providers; EHR system modifications
46	Medication History FTE, Oncology FTE, Antibiotic Stewardship FTE
47	More pharmacist to patient ratio on med surge units and ICUs. Right now there is 1 pharmacist to 100+ patients on gen floors, and up to 1 pharmacist to 36 icu patients, including rounding. With such large workloads, detailed work can just not get done.
48	More pharmacists
49	More pharmacists on nursing units.
50	More QUALIFIED staff, not just any staff hired out of desperation. Proper training, less concern for metrics.
51	More staff
52	More staffing
53	More staffing that are trained properly and motivated to work.
54	My new job is great. No issues
55	N/A
56	N/A. Many open positions for pharmacists with sign on bonus and referral bonus, no applicants.
57	Na
58	None
59	none my practice is safe
60	None.
61	Overall medication and order adherence. Multiple bodies of administration are aware of nursing protocols not being followed in terms of medication use and it is very slow moving to fix them, causing potential risk and harm.
62	Pharmacies should be properly staffed with 1 pharmacist and 3 techs for every 100 prescriptions filled per day. Example 400 prescriptions in a day equals 4 pharmacists and 12 techs
63	Pharmacist to patient ratio
64	Physical conditions can be improved by decreasing the amount of noise Provide enough FTE's to cover the hours needed, also to include coverage for vacations ~ the answer is not to just work short to allow for time off. Decrease constant interruptio
65	Prescribers should get popups for duplications , incorrect dose , nonformulary products. Error is allowed into the system because œ we don't want to bother the doctors œ. The pharmacist is to contact prescribers to notify of the error. But Pharmacis
66	provide needed staff, equipment, technology.

	A
67	Reasonable workloads for time allotted, less distractions by adding more pharmacists who will focus on different tasks so that each pharmacist will not be distracted much from their primary duty, doctors being required and held accountable for putting a diagnosis on each prescription for less medical errors, doctors being required and being held accountable for cancelling remaining refills on prescriptions they no longer want the patient to take (i have seen many patients taking duplicate medication or the wrong doses), caps on how many rxs a pharmacist can process a day requiring companies to hire more pharmacists depending on how busy they are and/or how many other non dispensing services they provide
68	Reduce the amount of continuing education required during work
69	Replace the current pharmacy software with more user friendly software
70	Retail pharmacy is a disaster. The chains have too much power and don't treat the pharmacists like health care professionals.
71	Schedule more help during busy times
72	Short staffing of pharmacists and technicians. EPIC is often not updated with correct medication builds and this can lead to serious med errors. Suggestions to improve including hiring more pharmacists and hiring an IT/EPIC pharmacist
73	Staffing of highly skilled clinical pharmacists.
74	Staffing. Training.
75	The amount of orders pharmacist have to process in the inpatient setting along with dispensing duties. More pharmacists in the inpatient setting and not allow manager pharmacist hours to contribute to productivity and technician/intern oversight. A law for minimum pharmacist to patient ratios inside a healthcare institution.
76	The primary goal is to get the meds to the patient safely. If we do not have the staff (due to call out etc), we need to cut back on rounding.
77	The promotion of patient safety will be enhanced by education and knowledge.
78	too much reliance of metrics instead of patient safety
79	Toxic positivity from managers prevents staff from speaking up about staffing concerns. More staff to accommodate increased workload. Need to be allowed to scale back services as staffing allows
80	We need to change to less manual paper work.
81	We need to have separate time to do the disease management and clinical pharmacy consults & infusions, rather than having a laptop open with a computer for reviewing scrips and having to go back and forth between the two in order to complete tasks. We used to have separation and would rotate between the office for patient management and going into workflow.
82	No response.

	A
1	**Question 55: What workplace conditions, if any, do you believe should be addressed at your primary practice setting to promote patient safety? What suggestions do you have for improving the condition?**
2	**Question 3: Which of the following most closely describes your primary practice setting?** **c. Independent Pharmacy** **d. Department of Defense or Veterans Affairs Pharmacy** **e. Non-pharmacy practice setting (i.e., a practitioner's office, at home, at a college or university, etc.)** **f. Consultant Pharmacist** **g. None of the above, I am currently unemployed or retired.** **No Response**
3	**Responses**
4	1st) thank you for conducting this survey. 2nd) the order for question #47 is the correct order as it is listed in my opinion, so I didn't skip it, I left it in the order it was on purpose, 3rd) the attitude that I pay you a lot of money so I can work your ass off & don't complain is part of the causes of all of our misery as pharmacists. No, there is so much more to that is involved in the task of filling prescriptions in a retail pharmacy than what the bean counters do by looking at metrics of just lick, stick, count, & check prescriptions. There has to be a way for the board to use metrics to say enough is enough for abusing pharmacists. I say 200 rx's/day per pharmacist with a couple techs is enough. 4) I am so sick of hearing about metrics & quotas & could just barf! There is no more such thing as patient care in retail pharmacy. That concept is dead!
5	A push to not encourage a "drive-thru" mentality. We (the pharmacy profession) have shot ourselves in the foot because we push the fact that medications can be given to you in 5 mins or less. The pharmacy community in whole needs to encourage marketing pharmacies for safety and precision and less on how fast the pills get to you.
6	All pharmacists should get an uninterrupted lunch break and time to go to the restroom when needed.
7	DIR Reform, Pharmacy Bill of rights, PBM reform, all so that a pharmacist can help patients instead of getting ulcers about negative reimbursements and keeping the lights on.
8	Divide rph pts equally
9	Drop all sales metric measuring pharmacist performance per prescription filed.
10	Electronic prescriptions and transitioning to all electronic. The amount of time wasted on reaching out to the doctors office to clarify poorly hand written prescriptions would be essential to finishing other tasks. Transitioning to an all electronic system, although some clarification would still be needed, would be a great benefit for reduction in errors from look alike sound alike medications as well as time saving within the pharmacy.
11	Eliminate none licensed personel and hire trained and licensed employees.
12	Eliminate pharmacist distractions and interruptions.
13	Eliminate vaccinations
14	Elimination of metrics, avoidance of mandatory unpaid overtime
15	Employer to allow more staffing during open hours " BOP could help by allowing more than 3 techs per RPh , but ultimately the the staffing œmodels that corporate employs are designed by œ bean counters œ and put too much pressure to perform at
16	Have more technicians
17	Having a call center, or adding technicians
18	Having weekly and monthly staff meetings to address patient safety concerns.
19	Hire more pharmacists.
20	I have no issues with my current workplace; however my per-diem retail pharmacy job definitely needs improved work conditions. The staffing and performance metrics seen in retail are ridiculous and do not allow for patient safety.
21	I retired early at 62 years of age because the retail pharmacy I worked for didn't give us lunch break and the previous retail gave us only half hour lunch break and we don't exactly close on time for lunches
22	I think the number one reason for errors in the pharmacy is being understaffed and not having pharmacist overlap and still having to complete prescriptions within a specific timeframe. This leads to errors and pharmacist burnout because they are not being supported. Retail pharmacies need to staff their pharmacies with more pharmacists which in turn would allow more technician help.
23	I work in close door long term care phsrmacy
24	I'm unsure. I'm sure there are areas to be improved, but compared to retail chain, this is the best place I've ever worked. I have TIME to catch errors/typos, I have TIME to call doctors or to call patients regarding questions I have on their meds. I feel much more diligent/thorough here compared to [redacted].
25	Importance of techs paying attention to patient notes
26	In retail, reduce interruptions while doing data entry, prescription checking, echoing call in prescriptions are very important. Maintaining as much quiet in the pharmacy as possible and emphasizing to techs, techs in training & cashiers their importance in maintaining as quiet an environment as possible for accuracy.
27	Increase ratio of pharmacist to technician

	A
28	Increased staffing and not putting all job responsibilities on the pharmacists
29	Less interruptions, or phone calls
30	Make transfers easier
31	More direct patient education.
32	more pharmacist which will lead to less interruptions which leads to less errors
33	More pharmacists. We have so many pharmacist-dependent tasks (many not legally required to be a pharmacist, but employer mandated) at my job that are extremely manual and labor intensive and we frequently have just one pharmacist on duty. Sometimes we have 2 pharmacists, which is much more adequate but can still seem like not enough if there are many phone calls and interruptions and new referrals. Our computer system does not allow scanning of medication, everything enters and leaves the pharmacy with manual entry and check.
34	More Pharmacists. Get rid of work metrics. Spend more time filling out time forms than doing a proper patient care experience.
35	More space
36	More techs
37	My primary practice is good, but when I worked for Walgreens full time as a central utility RPH, I brought out concerns of Pt. Safety constantly, they were ignored. I was pressured to verify under 10seconds, and threatened with termination weekly.
38	My work site and position are not in a retail setting however I have many friends that work in that setting and there is a lot pressure to complete all the tasks as quickly as possible with minimal staff, that breds patient safety situations. I have prior extensive experience in institutional settings and staffing is also highly scrutinized, not so much by pharmacy leadership but by those in C Suite positions. Many times those individuals are not pharmacists and have no frame of reference as to what is needed or appropriate. Staffing models in hospitals cannot be based on same metrics as nursing or other departments. There is no real direct conversion for pharmacy productivity in that setting.
39	N/A
40	Na
41	Need pharmacist double coverage to complete management tasks. Another pharmacy technician to help process prescriptions.
42	no suggestion
43	No suggestions for my current workplace. My current job is very fulfilling and why I chose pharmacy. However, I used to work for a big box retail company. The expectations they have on one pharmacist are absolutely unrealistic. When I used to work fo
44	None
45	None and my current practice
46	None at the moment
47	None at this time
48	none right now
49	None.
50	None. Be able to work at your own pace and not be rushed
51	Non-stop demand for more, faster. Eliminate greed driven mentalities and hiding behind the excuse of: œcost of operations.
52	Not applicable
53	Not enough staff. Hire more staff
54	Provide support structure that enables the pharmacist to provide non-dispensing functions the appropriate time to provide direct patient clinical services without dispensing interruptions.
55	Publishing prescription counseling metrics for all pharmacies. For example, at pharmacy xyz 68% of all new prescriptions were counseled by a pharmacist for the past 3 months.
56	Reduce phone interruptions. Reduce paperwork.
57	reduced pressure to process all waiting prescriptions within 15 minutes
58	The biggest concern is the number of technician working. I believe in my DHA/DOD setting that Active Duty Service Members should not be transferred without a replacement. We have had two civilians change jobs and three active duty members transferred overseas since October of 2022 and have just hired two civilian replacements but no Active Duty Technicians to replace the ones that have left. I have 3 people (myself included) running a 7 staff pharmacy. I am doing more technician duties than pharmacist duties after close of business just to keep up. I left a retail job where the last straw was being the only pharmacist on duty from 8 am to 2pm while administering over 100 COVID vaccines plus flu and pneumonia and zoster vaccines.
59	There is biased against employees and managers will discipline employees of their choosing and not reprimand employees who actually caused patient harm.

	A
60	To improve patient care, companies should conisder overlapping pharmacists for 4 hours or more; another option is to have pharmacists working together; lack of breaks/relief for pharmacist is another big problem which increase fatigue in a pharmacist and that increases the potential for errors reaching the public.
61	Treatment of staff in retail chains
62	Utilizing all employees to their fullest capabilities. Ensuring everyone is held accountable for their responsibilities so others don't have take on more work to ensure patient safety.
63	we need more pharmacist to further assist patients. We need to eliminate metrics as those metrics are not in the patients best interest. Metrics are being used by big companies to add additional pressures to pharmacist forcing them to work faster or else that would lead to coaching metrics. Everyone works at a different level of comfort. And there are circumstances arise during a work day that may interrupt those metrics. We are not pharmacists but we are machines trying to beat the clock each and every prescription. If patient's knew the stress we are under and with medications that they're ingesting and the possible errors that occurring on a daily basis. We are only promoting mortality for them and we are not taking the steps needed to better our profession.
64	working on prescriptions uninterrupted with calls, transfers, new phone rx, insurance calls. manditory electronic prescriptions
65	Workload is too high, targets for pharmacy metrics are too high, as these all compromise patient safety. There should also be a mandatory UNINTERRUPTED lunch break for the Pharmacist.
66	Workload left over from other pharmacists that don't complete task or cherry pick. This puts an extreme strain on the pharmacists that are left to complete tasks.
67	No response.

	A
1	**Question 56: What other recommendations for changes do you have that you believe would lead to improved patient care or patient safety?**
2	**Question 3: Question 3: Which of the following most closely describes your primary practice setting?** **b. Retail Chain Pharmacy**
3	**Reponses**
4	1 hour lunch
5	1. I work multiple locations and practice hours within the same company. I have to address over 800+ scripts during a shift with other services. I work the overnight with heavy emergency room orders. 2. It is harder to help patients in a safe and quality manner the more interactions you have to supervise. (Aka why I am in opposition to increase in ratio) not about extra help. It is the missed opportunities to stop errors and improve patient care. 3. Improved patient care and safety requires the ability to answer patient questions and build confidence. My recommendation is to not change the ratio of technicians to pharmacist in my practice setting. I recommend that no company should demand phone hold time or other metrics/surveys be used in pharmacy as indications. I recommend adequate in store pharmacist staffing by volume. 200 to 250 per pharmacist with minimum of 2 technicians plus 1 if there is a drive thru. I recommend signage to remind patients that we are not a fast food restaurant. I recommend adequate compensation for dispensing presciptions (insurance companies) to afford the necessary staffing. Non-pharmacists should not be supervisor of pharmacists. Zero understanding and training lead to patient safety gaps and decreases in overall patient care needs.
6	1.Ratio rph: tech increase to 4:1. 2. Rx volumes will dictate minimum staffing of : cashiers and tech and rphs that is fair and safe for patients and associates
7	1hr lunch, clocking in and out plus OT pay like California and less Chiefs over the pharmacist . Every boss or supervisor takes time to explain why or why not something can be done . If you cant see that as a distraction then im talking to the wall. If you think I am being overly dramatic you should do a survey asking pharmacy employees 1 question . Have you ever broke down and cried because of work and if so how many times .
8	2 pharmacist minimum per shift
9	2 pharmacists at a site
10	2 technicians to a pharmacist at all times, except within the last 2 hours of the workday where only one may be required
11	A designated employee to give immunizations who is not the dispensing pharmacist. Eliminating metrics that measure productivity verse last year or œplan and constantly leave the pharmacy focused on pushing services instead of safely dispensing medicat
12	A retail pharmacy should be a pharmacy; the pharmacist should not be assigned management of the rest of the store, nor should the store staff have access to the pharmacy at all.
13	A wage minimum for technicians state wide. Clerks at gas stations make more, and techs have peoples lives in their hands. It hard to expect techs to truly care about their profession when the industry doesnt value their role enough to pay them more t
14	œApply online œ doesnt work.
15	Actual private area for counseling. Allowed to close drive-through or lobby service in low staff situations.
16	ACTUALLY FOCUS ON PATIENT CARE INSTEAD OF METRICS AND PROFITS.
17	Added workload=needs more staff.
18	Additional staffing to ease the workload for pharmacy staffs
19	Adequate staff, no increase to the tech ratio (I dont need another person showering me with more work) and 8 hour shifts with adequate breaks. More than 1 pharmacist on duty in any store filling more than 200 prescriptions per day.
20	Adequate staffing. Reasonable expectations. Reasonable and humane pharmacist schedules.
21	Adjust tech ratio to unlimited.
22	Again, I think better staffing is the biggest help.
23	All metric should be removed, they serve no purpose for patient care or patient safety
24	All pharmacies open for more than 10 hours should have three pharmacist scheduled to provide assistance and truly uninterrupted breaks as well as actual time for PICs to handle additional duties required to design, audit, train and implement safety related SOPs.
25	All technicians supposed properly trained to help on any appropriate stations such as RTS, QT, Inventory, cycle counts, not just at the cash register and production. But some technicians are not trained enough on some other stations or do not know how perform particular functions. This raises workload for pharmacist and might impact safety.
26	Allow more staffing and overlapping so that pharmacist can focus on their jobs and avoid interruptions from customers/phone calls.

	A
27	Allow technicians to ask patients if they would like counseling. While I love talking to patients and going over their medication a large percentage refuse the consult. With all the duties and expectations put on us it would be nice to continue working rather than leaving my station and thoughts just to be told they've had the medication before or they're just not interested. My technicians are capable of offering consultation and then bringing those interested down to the pharmacist. When counseling first started it was novel and patients were willing and wanting to listen, however nowadays most just say no.
28	Allow the pharmacists time to truly consult on a new prescription. We have 2 drive thru lanes and 3 walk up counter lanes. Not able to consult all at once.
29	Allow the PIC to decide how many technicians that they can safely supervise based on practice setting...with technology not all pharmacies operate the same so regulations should not have a one size fits all approach like they do today.
30	Allowing ALL staff to take a break/lunch. Also, designating a person(s) to do non-dispensing responsibilities.
31	Allowing for patients to be able to accept or decline counseling to a cashier or technician or even electronically. Or having a better way of making sure we are only requiring counseling on truly new prescriptions versus new prescription numbers that are linked to a drug the patient has been on long term with no changes.
32	any and all phone items, such as MTM, reminders, refills, etc. no phone at all. it is too hard to handle. get a call center. get a pharmacist to give vaccines or a tech only to do the coals and vaccines
33	Appropriate staffing. At least 1 tech hr per 8 scripts filled in 1 hr
34	Aside for more staffing, we need someone to answer the phone ton ensure that the Pharmacists can answer the phone that is needed by the patient or other medical practitioner that only the Pharmacists can do and also someone will be in charge as the cashier rather than the Pharmacist do it and getting behind to our job as a Pharmacist
35	Being constantly interrupted is the and fatigue are the major problems with patient safety. Having additional pharmacist staff per 11-12 hour shift would greatly help. Also, 1 30 minute meal break on an 11-13 hour shift is not enough.
36	Better behavior from patients
37	Better pharmacy software to catch DDIs more accurately
38	Better scheduled hours for the staff throughout the entire work day
39	Better system esp with CAP counseling with Walgreens intercom. Also need faster speed to get things done faster.
40	Better trained pharmacy technicians...better qualified because training them while dispensing is also very distracting
41	Better training for technicians
42	Better training programs for incoming technicians. It's hard to train a new technician hire on site. It actually takes away from the workflow and available technician help to reach and train, which just creates a more unsafe environment.
43	Better work environment
44	Board of pharmacy should implement how rxs can be done by one pharmacist
45	BOP should further regulate and limit the providers' pain prescriptions to solve the opioid epidemic.
46	Break time
47	Chain pharmacies need to focus less on metrics and more on patient safety. Only way to do that is by allowing pharmacies to have enough staff on any given day to safely fill prescriptions. Pharmacists should not feel obligated to come super early, skip l
48	Clean working environment and better health and safety conditions in the pharmacy. There's not time to clean when processing 600 or more prescriptions a day and our clientele are demanding.
49	Clinical/MTM services should be done by non-dispensing pharmacists. Impossible to do both effectively and safely
50	Close on Sundays Close earlier surprising the week No more 12 hour shifts
51	COMPLETE and ABSOLUTE separation of dispensing services and non-dispensing services. Non-dispensing services are great opportunities for patients but MUST be treated/respected as such, not just another number in a metric.
52	Corporate companies giving the appropriate budgeted hours for pharmacists and technicians. For safety the tech/ cashier hours to rph hours should not be 7:1.
53	Corporate to treat as professionals' healthcare not sales to make them rich.
54	Decrease the number of non-dispensing related activities.
55	Decrease workload
56	designate specific staff for specific task during the shift, reduce amount of multitasking like jumping around from stations
57	directly phone call to provider for rx concerned about
58	Do a script volume to RPH to Tech ratio regulation. At 1 location I did 900 a day with 1 RPH for a 11.5 hours shifts. So basically each script I will only have 46 seconds to verify (assuming I dont do anything else in a pharmacy), so to set a limit o
59	Dont allow unrealistic metrics. Allow enough help for Day to day pharmacy practices.
60	Eliminate metric lead mindset completely..
61	Eliminate metrics

	A
62	Eliminate metrics , eliminate flu shots goal or immunization goal, provide more technician help will greatly increase patient safety.
63	Eliminate metrics based on volume of prescriptions
64	Eliminate non dispensing responsibilities and the constant threat of disciplinary action if metrics arent achieved or individualize the responsibilities to realistic expectations.
65	Eliminating COVID testing at pharmacies or having dedicated locations, not approving flu testing, increased staffing during flu shot season, improved training, measures to reduce burnout and turnover in staff
66	Eliminating metrics. Prioritizing pharmacist well being.
67	Eliminating vaccines in the retail setting. Eliminating MTMs and phone calls to patients.
68	Employee training
69	Enforcing practitioners to adhere to gdmt. Especially for opioids.
70	Enforcing the counseling laws.
71	Engaging more pharmacist in upper pharmacy management in the companies as against using non pharmacist who do not know nitty-gritty of processing prescriptions and optimal clinical patients' care services .
72	Extra help at least on counter. so tech do data entry , one tech do counting and answer the phone and Pharmacist can focus on verification and counsel rather that filling , typing verification all to gather in rush ,besides doing vaccination or mtm Staffing model is very unrealistic 1 pharmacist 2 techs w,t,f One tech constantly on counter so one tech and pharmacist work inside to everything from order to typing to answering phone , counting , insurance problems etc. constantly in rush and pressure to finish things in suggested time line
73	Extra help for non dispensing related work load
74	Fewer metrics overall. Also, vaccine "goals" should not trump shared clinical decision making for appropriate vaccines for individual patients. Corporate needs to stop trying to make us do everything for everyone. Flu/COVID vaccines? Sure. But is a stressed out retail pharmacy really the appropriate place for pediatric vaccinations? I don't think so. Also you could mandate a way to make them give us the time, resources and help to let us do our jobs and actually talk to every patient like we want to.
75	Finally, I would like to mention the kindness of a pharmacist during practice. The pharmacy manager demanded all pharmacy staff not give any discount to the patient (without insurance) unless they ask because this will affect the profit and bonus of the
76	Fire the manager
77	Focus on patient safety and production quality rather than metrics and bottom line
78	Get back to filling prescriptions. Reform the PBMs.
79	Get rid of metrics.
80	Get rid of metrics. Pharmacists are forced to buzz through drug interaction warnings because corporate and management wants us to finish a certain amount of prescriptions each day.
81	Get rid of the metrics, make greater staffing levels mandatory to be open for business, and level the playing field so that independent pharmacies can be profitable again and increase the amount of choices patients have for where they can fill their pres
82	Getting rid of metrics that our company requires. Let us just attend to our patients, be staffed enough to have conversations with our patients without feeling rushed.
83	Getting rid of the rxom position a lot of times that technician will try to boss the pharmacist around even the store manager will try to boss the pharmacist around but its our license. No one should be able to boss us around when it comes to us making
84	Give more time for vaccines, 10 minute windows is not enough when some patients are new and getting multiple vaccines, inputing insurance info and drawing up multiple vaccines can easily take more than 10 minutes. Less calls to patients for MTM when we barely have time to help the patients within the pharmacy.
85	Give pharmacist more power to reject and modify medication management. MDs now cooperating with Rp
86	good language translation services are required.
87	Happy employees make happy & safe patients. Something has to change, the big pharmacy's are great at promising change & then slowly pulling them away or never even implementing.
88	Have a pharmacist and technician work an hour before the pharmacy opens PAID and get a head start for the day. This time, there will be no interruptions, focusing on dispensing safely. Again, never allow a pharmacist to be alone. Employers should not pus
89	Having a proper workload set by the pharmacy board would enhance patient safety and care.
90	Having a way for pharmacists to better communicate with patients doctor to clarify, discuss prescriptions
91	Having either an extra RPh or tech or clerk

	A
92	Having more staff to deal with constant phone calls, ringing out / counseling patients, giving vaccines, doing MTMs, all while verifying and processing prescriptions. If retail chains want us to do more, they need to provide more staffing to ensure patient safety and also prevent us from burning out from the workload.
93	Having more than one pharmacist in busy stores
94	Having the PIC have enough time to do PIC workload instead of trying to do PIC workload during a staff pharmacist shift. If PIC is part of the workload for the day but has other tasks, they are constantly getting interrupted which then increases workload for other staff pharmacists.
95	Help with more technician help and reducing non dispensing responsibilities.
96	How long does it take to safely fill 1 prescription ?
97	I believe more help, be it pharmacists or technicians, would have the greatest impact on improving patient care and safety.
98	I believe patient care would be improved if the pharmacist didnt have to administer so many vaccines. There are days when 40-50 vaccines are administered without additional pharmacist help.
99	I believe that there should always be a pharmacist that can just focus on safety, especially for the more complicated patient cases. One that does not run the risk of getting interruptions and has time to thoroughly review a patient and guidelines and m
100	I believe there should be more education on how to maintain health rather than take a pill for everything. Pain management has gotten out of hand especially with the use of narcotics. Doctors need to re evaluate what they are prescribing across the board.
101	I can only think of more labor. Maybe having one or two people that are only focusing on non dispensing activities. I understand the need for these services but they cannot be added to the already overwhelmed dispensing pharmacist.
102	I do not like where these questions were heading with what seems to be leaning toward removing non-dispensing activities from a dispensing pharmacist. Efficiency can be achieved to provide quality patient care but there are fewer practitioners with that capability here. The most effective non-dispensing interventions come from the pharmacists who dispense that patients medications. We have seen a large drop off in the quality of these services when moved to centralized services!
103	I have noticed instances where patients, upon receiving new prescriptions, do not consistently receive the level of counseling that is crucial for their understanding and adherence to prescribed regimens. Patient counseling is a cornerstone of responsible pharmacy practice, serving as a vital means of empowering individuals with the knowledge they need to safely and effectively manage their medications. In the retail setting, where accessibility and patient interaction are paramount, the impact of comprehensive counseling cannot be overstated. Because retail pharmacists often face time constraints and high workload demands, the observed lack of counseling represents a potential gap in patient safety and care. Patients may not be fully informed about their medications, including important details such as usage instructions, potential side effects, and other relevant information that could impact their well-being. By increasing the staffing levels, retail pharmacies can mitigate the impact of time constraints and high workload demands on individual pharmacists. Additional personnel can contribute to a more efficient workflow, allowing pharmacists the necessary time to dedicate to patient counseling without compromising on the overall operational efficiency of the pharmacy.
104	I have to work a whole day shift without a technician. I have to process insurance, Good Rx, give shots, run a cash register and answer the phone¦¦alone! Not safe for patients.
105	I honetsly believe that pharamcists shouldnt be working more than 8 hours in a retail setting. Its go go go like a fast food place from the minute you walk in and creates a perfect environmnet for mistakes to be made. This is also leading to less job satisfaction and pharmacists are just so burnt out that its affecting patient care and their personal lives.
106	I know that you guys have no control over this but if we were able to retain quality technicians in retail it would improve patient safety. But the reality is that they are overworked and underpaid. We are asking them to be immunizers without additional
107	I see multiple filled prescriptions for the same drug on a daily basis and when management is asked about it we are told "yes, but it gets deleted at the end of the day". Any and all prescriptions are entered either by technicians or by an automated system without regard to patient history review. As a clinical review pharmacist we are given seconds to review, fix and/or return Rx's for corrections. It is obvious that Rxs are "pushed out of the queue" just to get rid of it to avoid time spent.
108	I suggest better staffing and advocating support services for the pharmacy team. Cut back on high demands for non-dispensing services (MTM services, immunizations, and point-of-care testing) to focus more on the individual pharmacy teams for better retention. Most people tend to leave due to harsh work conditions (listed above)
109	I think all prescriptions should be electronically from practitioners to pharmacy
110	I think doctors should be required to provide patient's weight, height, and/or lab work that could be relevant to the prescription, especially for children dosing. On inventory day, another pharmacist needs to be scheduled. This is currently not a requirement and we are expected to count all of the inventory while doing our normal duties which is next to impossible so we all end up staying past our paid hours to get it done while the next shift pharmacist is there.

	A
111	I think that having a minimum set number of technician and pharmacist staff per number of prescriptions filled, that could not be decreased by the employer would be beneficial. I also think that the extremely unrealistic expectations with regard to our metrics needs to change. I got into this to help people, not to be a salesman, cold-caller, or any of the many other, non-pharmacist hats that we are required to wear.
112	I think we should discuss/decide what is a safe number of prescriptions/vaccinations ONE pharmacist can safely perform and staff the correct number of pharmacists. I don't always believe increasing the tech:rph ratio will help. It helps a little but it can also lead to more attention diverted to supervising more technicians. In the end, everything funnels down to the pharmacist.
113	I want mandatory longer lunch hours. At least 45 minutes. We work long shifts, give us a break!
114	I would like to recommend All Prescribes should be sending prescriptions now electronically not just for controlled substances. The fax submission should be eliminated because the ink smears letters and numbers. Examples: 5 may look as 6 or the other way. We have to call and verify each time.
115	I would like to see [redacted] work from home division remove their metrics for reviewing prescriptions and assessing DURs. I understand why work from home requires some monitoring to make sure people are actually working, but they are always on us about making sure we are reviewing prescriptions faster. The department goal is to review a prescription in 16.6 seconds or less and complete a DUR in around 6 seconds. I have zero quality events, am a very dedicated worker (no non-work tasks on company time), and cannot meet this expectation. I'm being threatened with write ups, etc to go faster. I'm a great pharmacist and I shouldn't be forced to review a prescription in a certain amount of time or face discipline. I want to make sure the prescription is safe for the patient. [redacted] rushing us and constantly putting pressure on us to go faster is risking patient safety. Patient safety should come above all else.
116	I would recommend less paperwork required to be printed and kept on file. Pharmacy spaces are crammed full of paperwork for vaccines, prescription processing, etc. It makes it very problematic when we are constantly asked to inventory stacks after stacks of paperwork required by all the different corporate regulations on top of DEA and BOP requirements
117	I would say if the company should be required to staff the pharmacy as the pharmacy manager deems. The people sitting in the office only see numbers and not the total experience we are expected to deliver to the patient. Also computer systems should be required to run properly. If the company cannot fix the issues the system should be removed.
118	If retail pharmacies want to provide clinical services to patients, pharmacists should be required do that in a clinical, uninterrupted setting.
119	Immunizations at the pharmacy is important due to it's accessibiliy. I feel that it really requires a dedicated space and a dedicated staff, if we are to continue to focus on this as large source of revenue.
120	Immunizer should not be part of the workflow or limit immunization.
121	Improved relationships with other healthcare professionals and re-establishment of our profession as doctors of pharmacy. We have become a œswap meet of healthcare¦.we need to re-establish our profession as being the medication experts.
122	Improved response time with providers as most calls go to voicemail or have to leave a message
123	Incorporating a separate entity to perform medication treatment management calls.
124	Increase amount of pharmacists on duty during a shift.
125	Increase in pharmacists/decrease in individual workload. More paid time off would lead to more refreshed pharmacists. Nurses that have a high work load have more days off (usually they work three 12 hour days and have 4 days off) We are easily as high paced as the nurses.
126	Increase number of pharmacist and technicians
127	Increase overlap pharmacist hours and increase technician hours
128	Increase paid rate for technician to reduce turn over (keep experienced technician)
129	Increase Pharmacist Staffing
130	Increase pharmacist to technician ratio. Require all pharmacy technicians get nationally certified.
131	Increase reimbursement from insurance companies
132	Increase staffing with fair scheduling, not to use productivity numbers (and how fast you are) to mentally stress us out. So we dont rush to do things.
133	Increase staffing.
134	Increase tech ratio (4/1) is good
135	Increase technician and cashier help
136	Increase technician to pharmacist ratio
137	increase the number of pharmacists per shift
138	Increase the number of pharmacists per shift.
139	increase the number of techs and pharmacists and offer training hours in addition to tech hours
140	Increase the technician to pharmacist ratio
141	Increased in the amount staff both pharmacists and technicians
142	Increased pay to match current inflation rates.

	A
143	Increased staff, especially pharmacists. But we also need better incentives for technicians
144	Increased staffing
145	Increased staffing and adequate training time is most important.
146	Increased staffing and directing non-dispensing and non-patient responsibilities away from pharmacists to improve patient safety. Suggest scheduling more shifts or more staff to focus on non-dispensing and non-patient responsibilities.
147	Increasing staff, have mandatory two 15 minute breaks and 30 min lunch and midshift pharmacist to allow this to happen.
148	Increasing technician pay will help retain and attract more quality applicants, which will lead to improved patient care.
149	injections are stressed by cooperate because of profit margin increases from them. Yet no additional staffing, time, or safety issues are addressed for the increased work load. of course extreme pressure is constantly put on the pharmacy to increase injection numbers because of the greater profitability.
150	It would be nice to have another pharmacist on duty to focus more on patient counselling/immunization counselling, therefore not rushing to keep up with the dispensing workload.
151	Just appropriate staffing levels in the pharmacy and stop pressuring pharmacist with ¨metrics.
152	Just fill prescriptions
153	Keep equipment current and in working order.
154	Keep safety items in stock
155	Legal regulations should be made to make sure that no pharmacist work alone with no help. Also, the pharmacist should be allowed to leave pharmacy during lunch break while the gates are closed. We are still required to stay in the pharmacy or in the store building.
156	Less controlled substance volume. Only allowing certain amounts of opioids/gfds done daily because these are very time consuming prescriptions to handle, verify, fill, and put documentation from the doctors.
157	Less interruption so pharmacist can have time to talk with patients, extending lunch hour for staffs (30 mins not enough to have lunch and rest), less non-dispensing service
158	Less interuption to the pharmacist..more staff ..better training for technicians
159	Less metrics especially for non dispensing activities. We need to be able to focus on safely filling scripts in a timely manner.
160	Less metrics expectations.
161	Less workload to be able to actually verify scripts and minimize errors
162	Limit vaccination schedule ,but if the can schedule more help Like Cashier or tech we can do vaccination
163	Longer breaks, 30 minutes isnt sufficient.
164	Maintaining 3:1 tech to Rph ratio and encouraging staffing to be 1 Rph (8 hour shift) for every 200 prescriptions processed to ensure safety. (Eg. 500 prescriptions = 2.5 pharmacist shifts)
165	Making it mandatory for more than 1 pharmacist per shift for every 300 scripts per day.
166	Mandated breaks
167	Mandatory 1 hour lunch to prevent burnout.
168	Mandatory meal lunch for all pharmacist
169	Maximum # of prescriptions that can be filled by one pharmacist. Metrics that are used to push speed over safety. It is all about the #'s not safety. Retail pharmacy is not set up for safety, but getting the most out of each employee: Each employee at the pharmacy is expected to multitask(answer the phone while typing or filling, ring out customers and run back to fill, or type. Pharmacists are giving immunizations then running(literally in some cases) then verifying prescriptions answering the phone and running to do a new drug consultation. All being monitored and timed.
170	Maximum 8 hour shift for pharmacists and treat anything extra as overtime just like in California, so that retail companies would ensure having two pharmacists present each day. Eliminating metrics would drastically help with patient safety as well becau
171	Maybe starting for, and paying for, shifts that begin before opening. It can allow a good start on the day to not feel like you are starting the day already being behind on workflow and then having things pile up as the day goes on. Emploers could reduce hours that the pharmacy is open, but still have the employees work, closed door, to get good uninterrupted work done which would increase focus and safety.
172	More adequate cleaning of pharmacy interior and exterior and the onboarding of more experienced pharmaceutical technicians.
173	More effective text and messaging capabilities rather than phones
174	-More guidelines/requirements on staffing (ie when multiple pharmacists on required, staffing/labor requirements) -No metrics -Requiring cashier options (ie some companies do not allow cashiers whatsoever and really should be required to create systems that allow for cashiers)
175	More help
176	more help with non pharmaceutical help such call center to help with non stop phone calls

	A
177	more patient understanding md tells patients their script will be done in 20 mins without checking ie if it's in stock if we are at lunch or even not open yet or multiple controls being filled early and we say no after checking pmp and calling Dr back only to leave a message as they are completely unaware 120mme or that is 12 days early.
178	More pharmacist on duty
179	More pharmacists in same shift.
180	More pharmacists per shift in a 24 hour store.
181	More pharmacists required to be staffed
182	More pharmacists should be staffed in pharmacies that have high demands. It is dangerous for one pharmacist to handle >300 prescriptions and supervise > 3 technicians during a shift.
183	More staff
184	More staffing
185	More staffing all around, but must hire 1 pharmacist to every 2 technicians. Safe measures must be taken so that employers cannot find a loophole and just hire more technicians or cashiers without additional pharmacist help. Pharmacists should be able to complete non-dispensing roles without the pressure of meeting metrics for dispensing. Employers should be required to have different pharmacists completing different tasks rather than having one pharmacist complete dispensing roles as well as non-dispensing roles. Employers should have clinical pharmacists on staff to complete non-dispensing roles such as immunizations, patient education (diabetes, smoking cessation, PrEP/PEP, contraception), MTM, and all other tasks that require more than 10 minutes of undivided attention from pharmacist. Employers should be prohibited from requiring dispensing pharmacist to complete any tasks that will take away from processing prescriptions and providing first fill consultations.
186	More staffing that companies must adhere to (provide hours). If we had enough staffing throughout the day, the pharmacist can truly focus on patient care. Increasing the number of techs we can supervise as an rph will not change the problem of the compan
187	More staffing with both pharmacist and technicians. Less metrics and that alone I feel will make huge strides in employee turnover and create less stressful work place environments
188	More staffs
189	More support from pharmacists and technicians
190	More tech help
191	More tech help required, pharmacist should not have to work alone, extend their to fill prescription
192	More tech hours
193	More techs
194	More techs or clerk help at the counter
195	More than 3 technicians per 1 pharmacist should be allowed.
196	More than one pharmacist on duty at a time. Well trained support staff
197	More time for counseling, I feel rushed to get to the next patient
198	More time for patient counseling ergo more pharmacist hours.
199	Move all waiting areas far away from hearing and watching all patient interactions
200	Multiple pharmacist on duty.
201	N
202	N/A
203	Na
204	Needs to remove CLIA services from the pharmacy which is affecting and delaying patient getting medication due to pharmacist is busy providing CLIA services.
205	No metrics or goals
206	No pressuring for metrics
207	Non dispensing activities have to be a dedicated task and should not be required to be completed between processing prescriptions
208	None
209	Not allowing customers to verbally abuse pharmacy staff.
210	Not allowing other store departments (deli, bakery, etc) to use our profits to cover their loss in sales, causing pharmacy to have to cut available tech hours even more.
211	Not doing immunizations
212	Not to focus too much on non pharmacy related tasks and numbers.
213	OTC recommendations from non prescription customers are a nuisance when trying to deal with our own patients prescriptions. Also, because of our relationship in the community, we have patients that come and take up our time counseling on prescriptions th
214	Outlaw metrics

	A
215	Outsource refill calls, delivery orders.Eliminate covid/flu testing at retail pharmacies
216	overlap pharmacists
217	overworked/harassed pharmacists = deadly mistakes
218	Patients getting tested for diseases in a place that can also treat them if they were in fact positive.
219	Patients no longer respect the work we do. Our employers have reduced the profession to a glorified cashier. When people walk up to the counter they don't understand the importance and the magnitude of the work we do. They expect quick service and our employer demands it through metrics and unrealistic expectations. Vaccinations are something we are expected to promote without any consideration for patient safety. Appointments are scheduled at all times of day and night and regardless of staffing levels. Feels like we're just throwing darts when vaccinating and just billing insurance, ringing up people, and listening to complaints.
220	Patients over profit
221	Patients should be more realistic about their expectations we deal with insurance rejection daily and we could not find enough people to help resolve insurance and they want the pharmacy to bring in more scripts make more calls give more immunization! Pl
222	Penalizing pharmacy supervisors and companies harshly
223	Pharmacist overlap Dedicated Rph or tech for vaccines Dedicated Rph for calls and mtm
224	Pharmacists do not have time to drink water. I remember once mentioning to a pharmacy manager that Im trying to remember to drink water more. She said- but how can you drink water? Because then youll have to go to the bathroom and you dont have tim
225	Pharmacists have been forced to stay and work without pay in order to keep up with workflow and keep conditions in the pharmacy "adequate" to care for patient safety. It has been an open secret in the industry for decades. Due to fluctuations in the current economy, pharmacists' pay is now decreasing rather than increasing, leading to a crisis point in the industry.
226	Pharmacists or technicians whose primary job is everything except dispensing.
227	Pharmacy employees need to feel valued by their employers. Taking care of your staff goes a long way for workplace productivity. [redacted] pharmacy was the BEST company I ever worked for. They took care of us and no one ever left. The minute [redacted] bought [redacted] out, everything went downhill.
228	Pharmacy guilds,chains respecting pharmacists,board inspectors surprise visits to problem stores unanounced ti see what really goes on
229	pharmacy need more staff or eliminating metrics
230	Pharmacy staff cannot legally work until they clock-in and receive pay. This will prevent pharmacists from arriving early to work several hours early to catch up while being off the clock. This is often abused by district managers, who knowingly have their employees come in early off the clock. A possibility of how it can be enforced is to make it a legal requirement to clock-in after logging into a computer. I wish there were better ways to enforce this.
231	Pharmacy technician pay needs to be increased,so that the best can be recruited.
232	Please expand technician to pharmacist ratio, Increase number of technicians allowed per day, please add the legal minimum number of 2 technician required per rph as a requirement so that the employer would not allow to cut technician hours too low. Please also increase technician pay. They deserve to get pay $18 minimum with this type of setting.
233	Please require pharmacies staff 2 pharmacists per shift.
234	Pls remove metrics
235	Provide enough hours
236	Pt safety starts with enough help. Having 2 pharmacist on duty is a huge help even if the overlap is only half of the day. There are simply too many questions or situations that need to be resolved by RPh which being alone definitely leads to interruptions and distractions.
237	Putting a cap on how many vaccine appts per hour.
238	Read above
239	Reduce the amount of phone interruptions in and outbound. Allow pharmacists the right to deny disruptive patients like a doctors office will by severing them from the practice.
240	Reduce the metrics or the expectations the company is using to measure performance. It's a lot of pressure to try to get 80% of prescriptions out on time, expecially when your averaging 400 rx a day w/ no pharmacist overlap.
241	Reducing pharmacist to tech/ cashier ratio back to 2 to 1
242	Reducing pressure to immunize and pressure from district managers to speed up workflow while also managing other tasks
243	Refer to question 55.
244	Reform or eliminate third party insurance. The technology is there
245	Regarding to patient care and patient safety, working with a super busy pharmacy, we absolutely need to have at least 2 pharmacist to counseling & answers all the questions related to the therapy.

	A
246	Remote verification should be addressed. My company allows pharmacists in other states to review rxs and I have found countless errors they have approved upon product verification in the store. If I did not look back at the hardcopy for every single rx I physically check at product review, the errors would have been dispensed. And at that point the NV BOP would not be able to discipline the pharmacist that is responsible but licensed in another state. The workload placed on me requires me to use remote verification but if I had more help I would be able to not use it.
247	Removal of pharmacy metrics
248	Remove customer service surveys as a factor of how good a pharmacist is. My employer wants every Rx to be filled in 10 min or less if patient is waiting in store regardless on how many Rx has been dropped off . Fearful of a bad customer service we have to work super fast. Total time to prepare RX under 5 min . We should not be pressured to multi task . Answer the phone , while preparing vaccines and verifying Rx all at the same time
249	Remove metrics from retail pharmacy.
250	Remove metrics or unrealistic metric goals
251	Removing metric based performance review processes would put the focus back on safely dispensing as opposed to dispensing quickly.
252	Removing ridiculous goals
253	Removing the requirement for digital enrollment, auto refills, mtm and specialty refills. Everything we do is a metric and is monitored. This all takes away from patient care and safety.
254	Require at least 1 pharmacy technician be staffed during all open hours
255	Require call centers for patient requests
256	Require more pharmacist overlap Give more tech hours Require certain amount os scripts per rph
257	Respect for Pharmacists and eliminate the chaotic work environment.
258	Retail chains are cutting hours and increasing workload on all staff to the determinant of patient care.
259	Review protective PTO policy for techs, they can call in anytime even right before the shifts and come late too
260	See #55. Substitute insurance for government.
261	See above
262	Significant education and additional training. Gaining experience as a new grad pharmacist should come with less potential for patient harm.
263	Space is an issue--We are currently performing Clinical Services in a makeshift 5'X3' booth next to the bathrooms at the [redacted] Market. Something more accommodating and sterile not to mention more comfortable for Patients would be welcome by all.
264	Spending adequate time counseling patient on new medications. Give patients an option to text or email on questionable use of medications, directions, dosage and side effects.
265	Staffing
266	Stop MTM, disease testing by the staff in retail stores.
267	Stop putting us on time limit to fill prescriptions .
268	Stop the majority distraction of pharmacist, for exaple cash registration and phone calls activity
269	Stop treating us like we work at McDonalds.
270	Take away goals and metrics for vaccinations. We spend so much time pushing vaccines, that we wear ourselves thin with other tasks. Everything gets backed up because I dont have any immunizing technicians on site. Pharmacist only things like consultat
271	Take out the metrics, lessen non-dispensing duties for pharmacists.
272	The board should get feedback from rph using their personal email and not the work email. The rph needs to feel free to express themselves.
273	The board should require that those none dispensing tasks should require one pharmacist doing only that particular tasks especially for those pharmacies that are doing more than 200 scripts per day.
274	The design of the pharmacy needs to change. We still need to be accessible but there should also be an area the isn't accessible to everyone so no interruptions
275	The greatest safety concern that should be implemented in all retail pharmacy settings is the minimum number of tech hours employers must be required to give pharmacists based on the number of prescriptions filled in addition to providing services and vaccines. It will not make a difference whether 3 or 4 technicians are allowable under one rph supervision if the amount of technician hours your company allows you to schedule in a day is 10-20 hours. The real issue is not how many technicians you can supervise safely, but how many technician hours are actually given to you to complete the workload and goals that assigned to you. Any workload requires the number of hours to complete the work; the number of people is useless without the hours.

	A
276	The number one thing that would help me was if my company gave me more technician hours. Having one technician per day simply wasn't enough. Also, the stress of having metrics and upper management holding you accountable needs to go away. I would love to have been able to take a break or lunch without fearing falling behind even more. A pharmacist should never be scheduled alone in a pharmacy. If my prescription volume was higher, I would say that having pharmacist overlap needed to happen.
277	The ratio of techs + cashiers to 1 pharmacist should be 4 or less. There are days when my tech to pharmacist ratio is 1:8 for several hours during the day. Many times when I do have a 2nd pharmacist, if they get pulled to work at another store for a sick call out, then I work a 12 hour day with 1 pharmacist 8 techs/cashiers, 4 opening 4 closing. However if I didn't have that many techs the whole operation would be in jeopardy of collapsing. If even 1 tech calls in sick it takes 2 to 3 days to catch back up. That happened this week, one tech called out on Wednesday, another tech came in part of the day to cover, but due to that and high volume of new prescriptions the last few days today (Friday) when I left at 2pm we had 300 prescriptions still to fill from Wed-Fri, not counting the 200+ that the prescribers probably would be sending in before they left for the weekend at 4pm. Then if today was anything like last night, there would be a lot of acute medications coming in from the urgent care and prescribers due to a lot of respiratory illnesses going around the town. It is a recipe for failure, or misfills, or patient harm.
278	The retail chains have too much power over pharmacy. The business metrics are now more important than patient safety.
279	there is no way for a pharmacist to meet corporate standards or metrics when being forced to work solo; MTM phone calls, immunizations, patient dialogue is strictly compromised when forced to answer the vast majority of telephone calls, being forced to f
280	There is not a 'one size fits all' approach that will resolve this problem. The practice at one pharmacy is far different than another. This is true within the same chain as one pharmacy located near a hospital will deal with far greater new and complex Rx's vs. a pharmacy within the same chain located in a suburban residential area, which will primarily deal with well established pt's and primarily refill Rx's. Extrapolate this to closed-door pharmacies, hospital pharmacies, compounding pharmacies, etc. and the 'one size fits all' solution becomes woefully inadequate to address the profound variability of workload and safety issues facing pharmacists and pharmacies. The chains and privately owned pharmacies will give you various cost reasons as to why they cannot accommodate increased pharmacist staffing however, they did not hesitate to jump on the $4 Rx band wagon over a decade ago. Given this fact alone, the argument is without merit. The simple fact is they have calculated what is the acceptable financial risk they are willing to accept to maximize profits at the expense of pt safety. I am in no way saying we should eliminate all the risk. This would be impossible and financially astronomical. But there is however, an ideal place where the risk to the pt is appropriately mitigated and we are currently nowhere near that as of today. Some representatives from both the Retail Association and some chains would like to tell you the simple fix is just eliminating the tech ratio. They provide supposed studies and statistics from other states such as Arizona. Let's address the Arizona study first: it does not exist. [redacted] the former Executive Director admitted this to be the case after he retired. As to the increased ratio, most pharmacies in Nevada are not operating at the current allowed ratio of 3:1. In most cases it is 1:1 or 2:1. Arizona which has no ratio limit sees the exact same. Most pharmacies rarely ever exceed 3:1. The key to remember in all of this is that the pharmacist IS the rate limiting step in the operation of the pharmacy. For good reason. Increasing the number of people they must supervise will funnel more work to the pharmacist further compounding the problem. I have seen it first-hand. This is the profound challenge facing the Board when crafting such regulations. How does one craft a regulation that is broad enough in scope, yet tailored to adequately address the various practice settings? It wasn't until the Colgan Air disaster that the FAA finally addressed a very similar conundrum but unfortunately, the 'wrong' people (politically connected) had to lose their lives in order for this to happen. Commercial air travel in many ways is like operating a pharmacy: airplanes and operations come in many shapes, sizes, and provide a wide range of services with the responsibility for the safe operation ultimately falling on the shoulders of the PIC. In this case, the Pilot In Command; better known to the public as the Captain. In the absence of the Captain, this falls to the first officer. There is very much a direct correlation to the practice of pharmacy and commercial aviation. If an agency such as the FAA could get this done through the creation of the complex regulation known as FAR Part 117, pharmacy Boards should be equally adept in crafting something very similar. The template has already been created and we shouldn't have to wait for the 'wrong' people to lose their lives before something is finally done.
281	There should be 2 Pharmacists on duty overlaping shift at least every Monday and Tuesday. Workload & Productivity metrics and quotas of immunizations is stressful, with 1 or 2 technicians help only. There should have a clek or cashier to avoid too much Interuption in workflow.
282	There should be a limit on number of prescriptions per pharmacist
283	There should be a minimum amount of overlap between pharmacist working per day (not zero)!
284	There should be a minimum number of techs required to work in a practice setting based on volume
285	There should be requirements of how many pharmacist should be staffed, And also technicians according to volume of prescriptions being filled

	A
286	To enhance patient care and safety in pharmacies, addressing several critical issues is imperative. The most pressing concern is the unrealistic metric standards set by corporations, which significantly impact patient safety. These metrics often prioritize speed over accuracy in prescription verification, creating a high-pressure environment that can lead to errors. Revising these metrics to focus more on the quality and accuracy of prescription verification is essential for improving patient care. In addition to adjusting metric standards, streamlining the hiring process and boosting recruitment efforts for pharmacy technicians is crucial. The current complex hiring procedures can be a deterrent, leading to staff shortages. Simplifying these processes and actively recruiting more technicians would help in adequately staffing pharmacies, thus distributing the workload more evenly. Furthermore, providing more technician hours is vital. Many pharmacists currently find themselves multitasking and handling multiple roles due to inadequate staffing. By allocating more hours to pharmacy technicians, pharmacists can focus more on their primary responsibilities, such as patient consultation and medication management, enhancing both patient care and safety. Implementing these changes, starting with the revision of corporate metric standards, followed by improved hiring processes and increased technician hours, would alleviate the pressure on pharmacists. This approach would create a more efficient and safer environment for patients, leading to significant improvements in patient care and safety in the pharmacy sector.
287	Transfers from one pharmacy to another can be a difficult, long process because the out-going pharmacist is too busy to answer the phone to do a transfer. We need an approved electronic or fax request that can be sent from pharmacy to pharmacy. I should not have to wait 45 minutes on hold to speak to a pharmacist to transfer prescriptions or transfer profile
288	Until Pharmacists have more control of pharmacies nothing will change
289	Upgraded software
290	Vaccines, especially travel vaccines and,birth control prescribing require alot of time that take the pharmacist away from dispensing for a good amount of time
291	Very important to provide meal breaks for pharmacists because they have a lot of responsibilities. Working for 7-9 days straight and providing only 1 day rest leaves room for mistakes. Pharmacist is extremely exhausted and needs enough days or rest to recuperate from the straight days of work and Walgreens tries to separate days off to make sure RPhs are working more hours than resting
292	[redacted] uses off site pharmacists to validate rxs, which has become the excuse for eliminating on site help. These pharmacists do not help with the hundreds of consults that may be necessary per day. Many errors have also been found with their verifications. Many errors have also been found from the [redacted] central fill facility, along with pharmacies being unable to keep needed medications in stock and ONLY being able to obtain them from the centralized pharmacy. As a result, proper and timely care is extremely diminished. The call center is also a hot mess. Patients are often given incorrect information and transferred to staff in store without proper introductions or bridges and this leave the patient and staff members frustrated. [redacted] only cares about profit and the level of care over the years has SIGNIFICANTLY diminished. They may say they don't review based on metrics, but in the end it all factors into reviews. Leaders in the front end of the store have been given titles without proper training and have no idea what's happening in pharmacy. Leaders for [redacted] in Las Vegas do not care about staff, which is why many staff members participated in walk outs in October. Due to so many centralized services, pharmacists on site often have no idea what is going on and out of the pharmacy. Corporate employees are extremely disconnected from what happens in store, coming ay employees to preach or discipline them, but have no idea how to put any off what they preach into practice. Several leaders are also backstabbers, talking poorly about employees to others. We also had a store manager who we believed was drinking on the job, but he was never really investigated. It seems these things all get brushed under the rug. More and more is constantly expected from employees, but corporate never gives back.
293	We have been keeping asking for Flex systems back. They only give us 2 months and takeaway. We cant keep up
294	We need a MANDATE to require corporations to staff with a MINIMUM of 3 techs to open/close per day. A MINIMUM OF 3 TECHS AT OPEN AND CLOSING EVERYDAY!!!! We have an IN window, an OUT window, multiple phones constantly ringing, vaccines galore. Vaccines are corporate scheduling of 20 vaccines every 15 minutes NO JOKE during flu season. 20 VACCINES EVERY 15 MINUTES and REQUIRING us TO WALK IN anyone that requests as well. AND NOT TO MENTION THE COPIOUS AMOUNT OF BILLING AND REBILLING TO MULTIPLE DISCOUNT CARDS AKA GOODRX.
295	We need more power to turn away excessive amounts of opioid prescriptions. Must constantly tip toe around conversations and hope a complaint is not submitted. If we accepted every opioid prescription/patient that calls here or comes in daily¦wed be se
296	We need requirements for breaks, a fully staffed team of pharmacists and technicians. If a store is offering other services such as immunizations, we need to always have a second pharmacist there to handle those patients and issues separately. We need da
297	We need security at every pharmacy and we need to have a pharmacist never left alone

	A
298	We should have more paid offstage hours. It is hard to take care of administrative and clinical duties when you are always in need for dispensing responsibilities. We should also be able to be staffed before opening to public and we should have the autonomy to adjust schedules bassed on individual store needs. Patients have different patterns in different neighborhoods. i should be able to make the right business decisions for my team and my patients especially since it is my name and my leagal responsibility.
299	We were given a 30 minute break for lunch and supposed to have 2 breaks in between but never able to take breaks due to the workload . We need extra / enough help fulfill the demand in the retail pharmacy. What happen to the 3 techs to 1 pharmacist ratio?
300	Work hours should be adjusted for pharmacists, like an overlapping schedule or shorter work hours. Additional pharmaceutical technicians but no additional pharmacists may lead to more medication errors. More problems may be caused bh too many staff to supervise
301	You should have 1 pharmacist verifying prescriptions, 1 pharmacist product verifying medications another pharmacist to counsel on prescriptions and making sure lunches and breaks are being followed, 1 pharmacist to handle doctor calls, transfers and other duties that include ordering meds and handling the other functions that are required of the pharmacy (Legal requirements and also Corporate requirements) ex. Inventory, audit and waste.
302	No response.

	A
1	**Question 56: What other recommendations for changes do you have that you believe would lead to improved patient care or patient safety?**
2	**Question 3: Which of the following most closely describes your primary practice setting?** **a. Institutional/Hospital Pharmacy**
3	**Reponses**
4	2 lane drive throughs should be outlawed.
5	Adding clinical activities that complement dispensing, to provide high level of care. For example, having a separate pharmacist to consult and provide flu shots, while one pharmacist focuses on dispensing safely.
6	Adequate reimbursement for non-dispensing pharmacist services. Consideration of limited tech check tech activities to eliminate need for unnecessary pharmacist oversight (cart fill activities)
7	Adequate staffing and better pay will decrease the turnover of staff , hence improving patient care and safety.
8	As someone who has worked in both retail and hospital setting in the past 3 years, the biggest issue I have seen across the board is staffing. Many colleagues are trying to leave the field of pharmacy due to feeling overworked to the point of burnout. It
9	Basically more staffing and mandatory breaks and that is a pipe dream.
10	Better communication between corporate and the pharmacy staff
11	Better communication between management and employees
12	Better physicians
13	Care should be given that
14	Change productivity metrics that reflect pharmacy practice not census
15	De-centralized pharmacy model. Adding a patient safety pharmacist, not using another pharmacies EPIC program or hiring an informatics pharmacist on site. IV team instead of a different person everyday
16	de-emphasis on metrics
17	Duties keep being added without additional staff . Anticoag , electrolyte, renal dosing, med rec , off site emergency depts , etc Limit prescriber drug selection to formulary stock .
18	Eliminate non-dispensing services that can be done in an actual provider setting
19	ELIMINATION OF ANY METRIC NOT DIRECTLY RELATED TO PT CARE, INCLUDING VACCINATIONS
20	Employer would review the daily task and try to estimate the reasonable time required
21	Establishing reasonable staffing levels for pharmacists based on prescription volume is crucial. Implementing thresholds that require additional pharmacists on duty during peak prescription levels can alleviate workload stress and improve patient safety. Increasing technician wages to ensure competitive compensation is essential for fostering long-term commitment and expertise. This step can elevate the quality of service and retain experienced technicians. Revising or eliminating excessive metrics that primarily prioritize profit over patient care is pivotal. Emphasizing quality of care and safety rather than solely focusing on metrics can lead to better outcomes for both patients and staff. Shifting decision-making processes from a top-down approach to a ground-up model is imperative. Allowing input and involvement from frontline pharmacy professionals can lead to more effective and practical solutions that address the actual challenges faced at store levels. Enabling retail pharmacies to have a voice in legislative changes that directly impact their operations is crucial. Providing avenues for retail pharmacy stakeholders to vote or contribute to proposed legal modifications ensures that laws are shaped with consideration for real-world implications rather than abstract intentions.
22	Fewer budgetary constraints with pharmacy.
23	Focus on the patient first instead of the bottom line
24	Hire more pharmacy technicians to help answer phones and complete simpler tasks so pharmacists are not constantly interrupted while processing orders
25	Holding corporations accountable for the mistakes they force their employees to make to keep up with work load.
26	I work in hospital setting¦ our computer system is hosted by a larger facility and we have no autonomy to make changes in this system, which has lead to multiple patient safety issues. This model is a significant contributor to increased errors amd nega
27	If the diabetes management is going to be billed as clinical pharmacy consult, it should be done by a pharmacist, not nurses, who then ask the pharmacist about the billing and refills, as if that is managing or consulting anything.
28	In retail settings that I have worked definitely get rid of matrix. Companies should not tell you how long it should take to get a script out vs patient safety.
29	Increase number of pharmacist per shift and perhaps reduce shifts at high volume stores from 12-13 hours to 8.
30	Increased pharmacist technician ratio for HOSPITALS only
31	INCREASED PHARMACY STAFFING IN BOTH TECHNICIANS AND PHARMACISTS THAT ARE COMPETENTLY TRAINED FOR VARIOUS TASKS THROUGHOUT THE HOSPITAL PHARMACY
32	Increasing the number of pharmacists would lead to improved patient care/patient safety. Pharmacist will focus on one area at a time such as immunizations, MTM, and processing prescriptions. Pharmacist can also focus on clinical activities to help improve patient safety.
33	Inpatient pharmacists to review all discharge medications upon discharge.

	A
34	input from the hourly workers - dont really feel anyone listens to what we say -
35	Less interruptions
36	Less pharmacist involvement with USP 797 and 800 and more involvement with clinical functions
37	Lessening non pharmacist duty while on shift
38	Limiting the amount of techs a pharmacist may supervise at a given time. Supervising more and more technicians without additional pharmacists to help only compiles the problem onto individual staff pharmacist. Interruptions also come from technicians to take care of problems they cannot and should not solve (ex clinical judgement).
39	Making it mandatory for companies to exhaust the pharmacist to tech ratio with every shift is each pharmacist is fully processing over 200 prescriptions. There needs to be increased industry standard base pay for pharmacists and technicians in order for people to stay motivated to be used like mules with no end ever in sight.
40	Meaningful reduction of alerts- Pharmacists get alert fatigue
41	Minimum pharmacist / tech staffing required for hospital bed size - independent of census. There have been times where census is so low, but we could not cut staffing further for fear of patient safety & care.
42	More pharmacists, eliminate metrics. Focus on patient care.
43	More respect and collaboration with physician partners. Less drug shortages.
44	N/A
45	Na
46	New graduates and pharmacists are not receiving a salary or the hours they require to live and pay their student loans. Pharmacist salaries have not kept pace with the work and inflation. It causes pharmacists to work multiple jobs and shifts, compromising their health and preventing them from providing better patient care or acquiring up-to-date knowledge.
47	No metrics. No timed filling of scripts.
48	None
49	Northern Nevada needs more formal pharmacy technician training programs to meet the demand. May be the state board could help in reaching that goal?
50	Not increasing technicians technician to pharmacist ratio and enforce this in institutional pharmacy. Technicians have limited scope with their license and everything they do is the ultimate responsibility of the pharmacist. It is unlikely the amount of oversight for patient safety is optimal with current ratios let alone increasing ratios. With the expectation of pharmacists doing more than dispensing and processing prescription orders and complexity of medical care now there just simply needs to be more pharmacists staffed. Equivalent sized or even smaller institutions outside of Nevada have sometimes twice as many staffing/clinical pharmacists than Nevada institutions.
51	On yearly inspection take closer look at condition pharmacy counter space pharmacist work stations general room in pharmacy also competency of director to be in that postion
52	Our institution absolutely needs to allocate money into hiring more pharmacists. Specialty pharmacists are responsible for orders and clinicals outside their specialties and causes increased work loads.
53	PCC computers from LTC facilities to help assess patients care
54	Pharmacist rounding is good (improve patient safety), but not at the expense of getting the meds to the patients,
55	Pharmacists should not be forced to choose between breaking the law and keeping their job. This is a struggle in all institutional settings due to reporting to non pharmacists. A pharmacist reporting to a nurse is an extreme safety concern
56	Pressure from employer for time spent on counseling calls, after call time, metrics
57	Purchasing more premade/commercially available products.
58	Recognition of the immense value of the pharmacy team from the overall C-suite etc.
59	Reducing the amount of national drug shortages. Continue effects to attract high quality technician candidates.
60	Remove additional MTM responsibilities from the retail pharmacists. Have more staffing for any vaccine seasons or clinics.
61	Remove productivity metrics
62	Review current patient medication profile before dispensing
63	See above
64	Showing your pharmacists that you value them! Leadership
65	Somehow eliminate the "insurance" time suck.
66	Technicians need to answer and triage phone calls and do missing dose queue
67	The board doesn't seem to care about the quality of pharmacies. Seems like no changes have been made nor repercussions to retail pharmacies for understaffing pharmacies. It's a real issue and like it or not the board is our representing body.
68	try to have a limit on work load each pharmacist can do in a shift.
69	Universal use of barcoding within the hospital
70	Unsure. Staffing seems to be the glaring issue. Just numbers of pharmacist:patient doesnt accurately reflect the difficulty of the job or workload. Other things like dealing with residents, new nurses, etc also have a large impact on our ability to
71	We need to be more electronic based: emar, automated filling, ect
72	No response.

	A
1	**Question 56: What other recommendations for changes do you have that you believe would lead to improved patient care or patient safety?**
2	**Question 3: Which of the following most closely describes your primary practice setting?** **c. Independent Pharmacy** **d. Department of Defense or Veterans Affairs Pharmacy** **e. Non-pharmacy practice setting (i.e., a practitioner's office, at home, at a college or university, etc.)** **f. Consultant Pharmacist** **g. None of the above, I am currently unemployed or retired.** **No Response**
3	**Reponses**
4	1 to 4 tech ratio
5	1) if the board can mandate bathrooms for pharmacies surely, they can mandate uninterrupted lunch breaks too & supper breaks. 2) the board should really treat pharmacists a lot easier when they make mistakes. And the employer should be fined & punished much harsher than the pharmacist especially when you look at the working conditions, they make us work. A sliding scale of punishment for the employer should look at the staffing level, the PT, PTT, clerks, # of rx's/hour the pharmacist was working under, how many days straight they were working, whether they were under the weather at the time because they couldn't get relief, how many hours that week they worked and start sending the message to the employer that you treat pharmacist with respect & dignity in this state or you will be fined more & more. The way the courts have pre-sentencing report provided by P&P which looks at the totality of the circumstances in which the crime occurred & the background & history of the convicted, is how the board should be looking at the poor pharmacist & the greedy employer when something goes wrong with a stated goal of reducing the responsibility & punishment to the pharmacist & increasing it on his/her employer for setting up & creating the conditions in which this occurred. I see how the board treats pharmacists & there isn't much sympathy, caring or compassion for us. Gone are the days where a simple mistake is just that. Now the board goes after us for blood & money. Please chill out & treat us with a little pity & mercy for what we have to go through on a daily basis.
6	10 to 15 years ago, if our pharmacy was doing 3000 Rxs/week we would be allowed to have about 160+ hours of RPh/ week" when I left , we were allowed 98 " with the shift to put more of the workload on techs and computer advances that have helped effi
7	Adding patient safety ce for techs and Rph
8	Adequate rest time and uninterrupted meal periods o give time to unwind and rest, increased tech to pharmacist ratio
9	all electronic rx with insurance company interface to eliminate or greatly reduce non covered items
10	An extra pharmacist should be employed with overlapping shifts
11	Better pay
12	Don't have one at the moment
13	Eliminate mtm
14	Eliminating workplace metrics
15	fewer technicians per pharmacist
16	Get rid of performance metrics in retail settings.
17	Getting rid of the drive through option; that additional workflow adds unnecessary burden to the pharmacy staff.
18	Greater PBM regulation
19	Have a separate verification queue pre fill and post fill
20	Have more efficient work flow designs.
21	I have nothing but wonderful feedback regarding my current workplace. However, my previous workplace could use much improvement. I decided to leave it because of the unrealistic expectations they have on the pharmacy staff. Pre covid times were alrea
22	I struggle to keep competent, and well-trained pharmacy technicians in my pharmacy because pharmacies aren't getting reimbursed for the "dispensing" process of medications. Therefore, we are being forced to come up with non-dispensing opportunities to help pay for the technicians and pharmacy staff to do the job they were originally hired to perform.
23	If pharmacists were empowered to counsel all patients/care givers every time a prescription is dispensed. We would decrease errors and increase patient understanding and compliance, but this cannot be done when only one pharmacist is working.

	A
24	In general: chains delegate a certain amount of "tech hours" to their pharmacies based on the PREVIOUS year's amount of prescriptions SOLD (including vaccines). With chains always encouraging bringing in new patients, transfer-in's, and and pushing more vaccines every year, how can they think that providing the previous year's tech hours would suffice for THIS year? It's unfair not only to the employees but the patients as well. Many will wait days to get an antibiotic from an urgent care because these chains are so behind because they're only allocated a certain amount of tech or RPh hours. This is probably one of the worst things (in my opinion) that could have happened to pharmacy. Regional managers need to understand that they need to base their hours off the CURRENT need of the pharmacy - not just a "projected" need. ALSO... Pharmacy metrics (which most chains use) lead to massive amounts of anxiousness and when inadequately staffed lead to a decline in employees' mentality. I myself used to be so anxious in the pharmacy DUE TO METRICS and even was depressed at home thinking about the metrics we COULDN'T meet because WE WERE INADEQUATELY STAFFED, and even felt anxious before and arriving to my pharmacy because I knew we were behind in our day, ever single day.
25	Increase in pharmacists per shift
26	Increased staffing in general.
27	Increasing the number of pharmacist and not continually attempting to increase the number of technicians and technicians in training; for the benefit of for profit companies that lobby the board.
28	Just because a technician is certified does not mean that they can do the job. Personnel is unable to pick capable staff.
29	Less focus on metrics in retail pharmacies
30	Ltc - by fixing consulting hour to asnwer question
31	Making a pharmacist to prescription verification law, that factors both dispensing and non-dispensing duties. The law can have different ratios depending on the type of pharmacy and other workload factors (such as drive thru availability, number of pharmacy phone calls per day, etc.). Also, while eliminating non-dispensing duties for a pharmacist may free up time, sometimes performing those duties can help a pharmacist catch errors and improve patient care as well. Therefore, it would be great if a law could be implemented that focused more on increasing pharmacist staffing instead of focusing on eliminating a pharmacist's tasks. While increasing the number of non-pharmacist staff can help improve workflow, I only see that increasing drug errors since the pharmacist is the final check point.
32	Making sure all staff members have a sense of responsibility to the community they serve to provide the best pharmacy care possible & reminding them when standards are slipping, providing constructive advice to improve pharmacy care, and educate all staff to how important it is for accuracy to maintain the trust & confidence of the community they serve. What may appear as an unimportant detail to a staff member such as a wrong doctors name on a prescription label may alarm a patient because they think the medication in the bottle is for someone else, since they know they never saw the prescriber on the label.
33	Making sure that pharmacists get lunch and breaks regularly, and do not allow the big chains to avoid providing these basic needs
34	Measure patient care outcomes and overall wellness and safety
35	Monitor providers/physician poly pharmacy closely & not be afraid to question their rxs
36	MORE COUNSELING TIME
37	more pharmacist which will lead to less interruptions which leads to less errors
38	More scrutiny on retail chain to treat pharmacist and techs better
39	More staffing
40	More workforce
41	N/A
42	Na
43	NO drive thrus.
44	no metrics hanging over pharmacist and staff
45	No metrics. Totally trained technicians. Do not increase RPh / tech ratio
46	no suggestion
47	None
48	None at this time
49	None in present setting
50	Not applicable
51	Other states have transitioned into giving technicians more duties, such as the ability to check refills for prescriptions. Giving more responsibilities to technicians and having more technicians to help would free up the pharmacist to help in more clinical areas that are needed.
52	Our pharmacy dispensing system would greatly help patient care.
53	Pharmacist consults are important to me as this is my last check for patient safety and some pharmacists I worked with dont do the proper counseling

	A
54	pharmacists should be given the flexibility of their workday to ensure good communication with patients especially since their expertise as a healthcare provider is so valuable
55	Providing overlap pharmacist hours, increasing technician hours and technician ratio to allow the pharmacist to determine the pharmacy staffing needs to ensure safe dispensing practices.
56	Reduce inventory mgt by rph
57	Reduce work load for retail pharmacists
58	Remove the extreme level of micromanaging that exists. I cannot use my professional judgement to improve patient care because my job would be in danger if I chose to do something against employers policy
59	Removing metrics. Retail pharmacies put a lot of emphasis on meeting specific metrics within a timeframe and then get reprimanded for not meeting those metrics and in some cases are unattainable.
60	Separate pharmacist to handle phone calls and interruptions than the one responsible for checking outgoing Rx's. Computer systems that scan barcodes to enter inventory items and to check them as they leave.
61	Sexual education in the school system.
62	Staff that care about the job they perform.
63	target certain interactions between patients and pharmacist and pay a Pharmacist for completing these interactions
64	The adage of doing more with less has got to go. This cannot be what the world needs for proper, safe, effective patient care.
65	the retail chain pharmacists need more help.the pharmacists are over worked. there should be 2 pharmasists on each shift.
66	There should be more pharmacists in retail establishments. The work should not be primarily performed by technicians.
67	Treat human beings with respect. Eliminate non-stop alerts to handle more calls. Alert fatigue is real.
68	Try to complete task before they are due to reduce having to rush to finish work.
69	Unfortunately, we cannot safely multi task. Pharmacists should be assigned a task and then rotate but when I was in retail I was expected to do vaccines, fills, answer calls, pt consults, customer questions, drive thru, communicate with other prescribers, pharmacies, insurance.
70	Walgreens needs to remove metrics. Data verification under 12 seconds and clinical review under 5 seconds is a safety risk to Pt.
71	We could use more space in out dispensing area
72	We need more pharmacist to assist with the work load so we can safely dispense the medications for patients. With added pharmacist during the day can also increase technician staffing. We should have clinics days where we can provide vaccinations and pharmacist can alternate between filling and complete vaccinations at the same time. Large corporations are closing down retail pharmacies and decreasing staff levels so they have more profitability. We need to do better to have more pharmacist during the day (even mid shift) so that we can service our patients more effectively and safely
73	While we are human more staff in general that can have built in safety check processes would reduce patient safety errors.
74	No response.

	A
1	**Question 57: Please share any other comments you may have:**
2	**Question 3: Which of the following most closely describes your primary practice setting?** **b. Retail Chain Pharmacy**
3	**Responses**
4	15 breaks for rph in addition to 30 min lunch when working 10 or more hrs
5	30 minute lunch never is 30 minutes. We always close late and its more of a time to catch up.
6	A direct line of anonymous tips/complaints for pharmacists regarding employers could be helpful. Unfortunately the threat of retaliation and termination does not allow pharmacists/technicians to express their concerns in the current environment.
7	Add one 15 minute break on top of the lunch break which is 30 mins. When I work for 13 hours, starting from 8am, and take a lunch at 1:30-2pm, and it gets busier at 4-7pm.. pharmacist should be allowed a 15 min break in the evening just to breathe, use t

9	All pharmacies in NV (not only new ones or freshly renovated ones) should have a private bathroom for Pharmacy staff; this would decrease the diversion of drugs, and prolonged unnecessary breaks by PTs, and most of all, it would dignify the Pharmacy Staff, because at pharmacies without bathrooms, Pharmacist and Technicians alike have to use public restrooms that are often unsanitary, with biological hazards such as urine, feces, diapers, and even used hypodermic needles throughout the restroom.
10	Also, pharmacists are given so many responsibilities and are given little leeway to delegate these to other properly trained staff. Doctors and other clinicians are trusted to delegate many of their tasks, yet pharmacists are not treated the same. In a
11	Always have 2 pharmacists on a busy day
12	as a floater, I have witnessed there were many toxic work environments in every store location, low moral, not treating each other as humans, high employee turnaround, lack of training staff
13	Background checks need to be efficient, not taking a month to process.
14	Better training for new grad pharmacists. Disappointed with the amount of follow-up training is required for next gen pharmacists.
15	changing the required number of technicians and pharmacist required to fill a certain # of scripts per day / time frame, would be a big help. I see 2 options that would help with pharmacy to patient safety issues. 1. if pharmacist were to unionize across the state or 2 if the state were to put in restrictions to help. unfortunately, I think it is the nature of large corporations to push for every possibility of increased margins regardless of patient safely and more importantly employee safety. I sincerely hope the state is helpful to not only the public but the people who serve them in this capacity.
16	Companies are putting a lot of pressure to pharmacist on increasing prescription and vaccines and testing and this only going to get worst on patients safety
17	Competitive pay minimum $60 or more per hour We are salary and sometimes have to come in early or leave late to finish job Not every shift gets a lunch break every day No chairs available
18	Corporate metrics as a priory instead of patient safety should stop
19	Corporate pharmacy is only about the dollar. Making them money to facilitate their bonuses. We need to take it back and focus on whats important and thats building patient relationships and safety. Why do we have to rush and move them along like c
20	[redacted], [redacted], [redacted] want to increase Technicians but the issue is we need more pharmacist staffing.
21	Drs are the cause of drug abuse. They are the ones prescribing the drugs of abuse.
22	During busy hours we need additional cashier/s but often do not have it or front store is unable to provide. To have additional staff for busy hours such as from 11-30-1 pm and 4-6 pm.
23	efficient workload and safety working environment
24	Eliminate metric based practice and let us focus on providing quality and safe patient practice and interaction
25	Employer does not care about patient safety. They only want you to do more with less help.

	A
26	Every single year corporate cuts our hours to bare minimum in the summer saying because the pharmacy is slower in summer However, this year with Covid making a comeback, Covid testing for travel and school starting at the beginning of August, there is no summer slowdown. We suffer through it, then once we get flu vaccines in we get hours restored. This year of course though, the new Covid vaccine (Omicron variant) came out at the same time as the new RSV vaccine along with the seasonal Flu vaccine. So now this year it was a triple whammy. Many people were getting all three at the same time. This is terrific for the public, but a difficult challenge for pharmacies, since instead of just flu vaccines we are the main source for the public to get vaccinated. We also do other vaccines so our work load pre-school starting is extremely high due to school vaccines. Then as soon as school starts, the kids get sick and then the whole family is on antibiotics, steroids, cough medicine and albuterol inhalers. These days pharmacies are a lab, an immunization center, a MTM hub, a training center for new diabetes patients, a walk in medical advice hub, a place where you can get your blood pressure checked for free-so you can send your results in to the Tele-doc, as well as doing more prescriptions than ever. Today I had to apologize to an elderly lady at least 7 times because she had to sit in the waiting room for a while to get a vaccine. I was trained to do all of this, but I can not do it all at the same time, as well as giving good counsel on prescriptions, and verifying them accurately and be polite, kind courteous, helpful and be in a good mood as I am expected to be.
27	Everyone I work with feels burned out all the time. And we have more staff then some of the other chains- it's the fast pace environment and increase in additional duties (vaccinations, BCP prescribing, etc) and LONG daily and weekly hours that is causing this.
28	Front end management shouldn't try to pressure pharmacists to fill narcotic rx just to meet script volume demands.
29	Give employees incentives. Stop asking for more without appreciating what we are already doing
30	Give us a one or two page summary of the changes to pharmacy law each year.
31	Hard to find technicians and cashiers who will stay longer.
32	Have 2 rph on duty or 1 rph and intern to help with counseling and managing techs
33	have one pharmacist or tech be in charge of all calls and vaccines
34	Have the rest period longer than 30 minutes. Have enough staff to answer the phones, give immunizations, put away drugs on truck delivery days.
35	Have to get rid of the metrics , Very high goals and increase labor help . Must have mandatory so many hours of help for said amount of prescriptions, Vaccines and MTM and other Clinical Engagements.

37	How long does it take to fill one prescription?
38	I actually quit the retail job because of safety. I felt safety is definitely not built into the system and the flow. I don't want to hurt someone unintentionally from work so I had to quit. I want to be able to go to sleep everyday because I don't know what I would do if a wrong dispensing causes great harm or death to a patient.
39	I am concerned about the current corporate focus on PROFITS over PATIENT CARE!! [redacted] IS REPORTING RECORD PROFITS WHILE CUTTING PHARMAIST'S AND TECHNICIAN'S HOURS.
40	I am just filling this as a pharmacist who worked for [redacted] for two years and quit in july,2023 becuase of horrible work conditions. I am doing this in support of my colleagues who work at a chain pharmacy
41	I am personally disappointed with my employer. Today for example was ridiculous. The other pharmacist called in sick, thus making me do the work of 2 pharmacists. I asked scheduler for help she said there is none available. I told her that the pharmacist to tech ratio was off, she told me to send them home.
42	I and my coworkers have been sick often due to unsafe work conditions. We have complained about space issues, tripping over mats/totes/trash bins, and not having clean air vents (filters have not been changed in the 9 years I've worked at my location). Supervisors are told and all they want to do is add another computer here or there to process more orders.
43	I appreciate that the NV board of pharmacy has sent out a survey to evaluate the current sentiments of working pharmacists in the state.
44	I believe there should be a heavier fine for pharmacies that break the law. The $5,000 or $10,000 fines are nothing to these companies that make 20 billion dollars a year in profit. California and Illinois hits pharmacies with heavier fines. I just believe that would help these companies get the memo and make changes for the better.
45	I can see why the world of pharmacy is not a favorable career as before as 15 years ago. Too much student loans, with less pay, and its a high stressful job!
46	I do not support increasing pharmacist to tech ratio, I think it adds risk to my license.
47	I don't feel safe working in retail. The patients should definitely not feel safe either.
48	I enjoy the people I work with Techs and rph work as a team [redacted] was the worst employer I worked for with regards to not being allowed a lunch break and disregarding patient safety
49	I feel All pharmacists should punch a clock. As a previous PIC, I worked an immense number of hours over my scheduled workshift for non dispensing task, paperwork & trying to catch up.

	A
50	I feel that if we have a hard time staffing or finding hires, district leaders and corporate leaders should greatly reduce our metrics or goals. District managers often tell us that the only way we can get more staffing œhours for our store is to sell
51	I feel that patient safety has been put on the back burner and all that is the focus is profits. I refuse to come in early, stay later, or close late and open at regular time for lunch (cutting out 30 min short) especially without pay or proper staffing.
52	I feel unsafe operating a pharmacy by myself without a technician staffed
53	I feel very burnt out and its very sad that it has come to this. If I could I would change my profession. I dont recommend anyone becoming a pharmacist anymore. Its just too much pressure for us to handle. I have had to start antidepressants to get
54	I feel, in recent months, especially with some brave colleagues threatening to walk off the job, things are slowly beginning to improve, but after 10+ years I have never been able to wonder why State Boards and professional pharmacy organizations (APhA)
55	I genuinely believe that the Board of Pharmacy has a responsibility to address these concerns and advocate for standards that prioritize patient safety over productivity goals. Your attention to this matter is crucial in maintaining the integrity of pharmaceutical care and, ultimately, safeguarding the well-being of those we serve. Additionally, I urge the Board to consider the importance of fostering safe work environments for pharmacy staff. The current high-pressure conditions, characterized by unrealistic timeframes for prescription reviews and drug utilization assessments, contribute to a stressful workplace that is mentally draining for pharmacists and support staff alike. Addressing these concerns is not only essential for patient safety but also integral to ensuring the overall health and well-being of the pharmacy workforce.
56	I graduated in 2014. At that time my preceptor, a full professor and chair of the residency program, told me that she left a major retail chain long ago (for her) because a good day was being able to get the correct drug to the correct patient. I relish the opportunities I have to touch a patient's life and treat them like a real patient and not just a script number. But those days are so few and far between while I'm working at a major chain. It's disgusting. I love being a retail pharmacist. It is my calling. I left my first career to become a retail pharmacist. I don't want to regret that decision.
57	i have answered this survey based on my previous employer that i have recently just left 3 months ago. i had stayed with this certain 3 letter chain pharmacy company for about 14 years and was given so much responsibilities with no compensation (ie. raises for 5 years or no acknowledgement of appreciation).. just more work, with the same amount of pay. the turnover of pharmacy technicians were very high because either the company was desperate for help and all these new people did not even go to pharmacy tech school because it became no longer a "requirement" to be a pharmacy technician. we were just hiring people who was willing to work and learn pharmacy. i think thats where BOP's requirements of becoming a technician failed. if an rph have to go to school and learn the foundation of pharmacy, there should be a requirement for technicians to at least learn BASIC pharmacy (ie. sig codes, brand and generic meds, calculations) knowledge. i felt as an rph i was teaching a pharmacy tech how to do pharmacy, instead of checking the accuracy of prescriptions. since i have left that employer and joined another pharmacy that does way more prescriptions with less non-dispensing duties and no metrics to go by, i have felt more at ease and less stressed. the new employer has equipped us pharmacists with better high performing technicians.
58	I hope something changes for the better & SOON. The profession of pharmacy has become a shame over the years. I really hope the board is going to do something that will make a difference & not just slap some lipstick on a pig. Talk is cheap.
59	I need to contact you because my retail chain of 25 years recently terminated me due to not doing enough metrics (even though I was).
60	I recently stepped down from management after 15 years. My answers today are somewhat different than when I was managing earlier this year. My experience and views on how to deal with customers and staff have changed over the years and it has made our jobs in retail more difficult on many different levels. I still love pharmacy and will continue to work as a pharmacist but yes something must be done to make the workplace better for everyone.
61	I think increased staffing would fix almost all the problems. I also believe insurances contracting with certain pharmacies leads to a decrease in patient care. I know patients who want to leave a pharmacy but cant because of insurance preferences and her budget
62	I think our staffing hours should not be based on unattainable scorecards. a cut in man hours lengthens time for pts to get med at right time

	A
63	I think people forget that we are clinicians, not money makers. We have no degree in business. We have a doctorate and a license to dispense. Someone with a bachelors degree and no dispensing license should not have a say in what I do in the pharmacy and should not push any numbers on me. No one with just a high school diploma who is a store manager should be my boss. I don't mean for this to sound condescending. I worked hard for my degree. I want the best for my patients. This is why I went to school. I do not understand how a store manager can have any say about the pharmacy. I do not understand how a district manager can have no pharmacy background but also have a say in my pharmacy. If you are going to be higher up in a corporate retail chain, it should be required for you to have a PharmD or equivalent because they make decisions that are not best for patients but are best for business because they are not clinicians. They should not be able to hold policies and business models over any pharmacist because it is our license that we are using. It is up to us whether we dispense a medication or not and to use our best judgement. If a district manager wants to run a pharmacy a certain way, they can use their dispensing license to do so.
64	I used to work 10 hours a day, but now it is only 8 hours, so much better
65	I will never work retail pharmacy again. Big chain companies care only about the bottom line. I developed anxiety because every day I went to work, I was afraid I was going to harm a patient. I was so overworked, under staffed and spent countless hours working off the clock just to finish my daily work. Retail pharmacy has turned into fast food mentality. There is zero respect for our profession from customers and other health care professionals. Its incredibly sad.
66	I wish I had known what I was getting myself into early on before accumulating hundreds of thousands in debt for education and be forced to work
67	I work consistently 4 or even 7 hours extra for free, on top of my regular 12 hours day shift. Without a slip of water or food or restroom break for those paid 12 hours shift. I cannot keep giving my free time to the company that has priority for profit over patient. Please help the pharmacy professionals. We are so helpless. Please.
68	I work in a high volume retail pharmacy. The processing and filling of prescriptions is essentially like playing an intense video game. For those who understand that, imagine someone constantly chatting in your ear, 5 phone lines ringing, and you need to leave your computer frequently. How successful was your game?
69	I would like 4 tech ratio to accomplish and delegate tasks to increase patient related needs and requests. Also volume related staffing of rphs and supportive personnel. I have been given what I need but I would like more to provide even better care and service for my patients
70	I would like to express my deep concerns regarding the current state of retail chain pharmacy, particularly the impact of corporate practices on staff well-being and patient safety. A significant change is urgently needed in the retail pharmacy sector. The relentless pursuit of profits by corporations is not only detrimental to the health and well-being of the pharmacy staff but also poses a serious risk to patient safety. The intense pressure to meet corporate expectations often leads to a work environment where pharmacists and technicians are stretched to their limits. This situation is not sustainable and is counterproductive to the primary goal of any healthcare profession: ensuring the safety and well-being of patients. The well-being of staff in retail pharmacies should be a top priority. When pharmacists and their teams are adequately supported and have the necessary resources, they are in a better position to provide high-quality care. This includes ensuring reasonable workloads, fair compensation, adequate rest periods, and a supportive work environment, eliminating metrics. By shifting the focus towards taking care of pharmacists and pharmacy technicians, we can create a more positive and productive work environment. This change will not only improve the morale and job satisfaction of the pharmacy staff but will also lead to better patient outcomes. In conclusion, I urge the board to consider the serious implications of the current corporate practices in retail pharmacies. It is imperative to recognize that prioritizing the well-being of pharmacy staff will ultimately lead to improved patient safety and care. A reevaluation of these practices and a commitment to positive change are essential for the future of the pharmacy profession and the health of the communities we serve. I remain dedicated to upholding the oath I took as a pharmacist, prioritizing patient care and safety above all else.
71	I would like to see the NVBOP try and have at least an annual paid high end dinner drinks maybe a well know guest speaker and live band at a decent casino in Vegas. You could even put an optional $100 entry fee for those that wanted to attend when we get licensed every 2 yrs. Pharmacist are hermits mostly and could really use a push in a group organization direction like the AMA .
72	Ive been a pharmacist for 11 years and Im deeply saddened with how retail pharmacy has fallen to these big corporations. I truly hope that nevada law can make the necessary changes to help better protect our patients and pharmacists. Its been a lo
73	Ive only been a pharmacist for 3 years, but Ive changed employment settings 5 times and at all 5 locations, we arent properly staffed. Employers do not care about us and we are constantly undermined and under appreciated. There are so many days wh
74	If I had a skill set that would translate into an income within the same realm of a pharmacist I would have left pharmacy already. However, my skillset is specialized and cannot easily lead into another career path. I have stayed with my company only because I do not want to work for either of the leaders of our industry known as [redacted] and [redacted]. It is my understanding that it is a couple horror show working for them. I was also told during a board visit that at least I do not work for one of them and that the groceries stores were much better.

	A
75	if you have more techs it just adds to the pharmacist having to monitor, check, review, and answer questions.
76	I'm not sure how to fix things, but pharmacy does not appear to be moving in a positive direction for patients or pharmacists or technicians.
77	Immunizations and other non dispensing administrations should be done at times that do not slow or disrupt normal pharmacy dispensing duties
78	In closing, pharmacist base salary and 40K benefits need to be addressed, so that the best Pharmacists can be hired.
79	In the retail setting we have selling, filling, and other services. Let's be clear that adequate staffing should be on entering not sold status.
80	Increase rate of pay
81	Increasing non-pharmacist staff in the pharmacy can actually increase the burden on the pharmacist on duty to provide proper supervision.
82	Increasing staff would greatly help with providing the best patient care so you have time to actually focus on each prescription/patient that comes in without feeling rushed or stressed. There were numerous times I was told I take too long with one patie
83	increasing tech hours at bigger retain chains especially during the winter season and having a second pharmacist on helps with work load and allows for better patient care. patient and pharmacy won't feel rush or stress to meet certain criterias
84	Interruptions effect my accuracy the most.
85	It appears the developers of this survey do not or have not worked in the "trenches" of our profession.
86	It is extremely difficult to find and hire competent cashiers and technicians. The job is very stressful and the pay doesnt encourage qualified and dedicated applicants.
87	It was impossible to get to know my patients medical needs and truly take care of them like pharmacists should. Proper counseling hardly ever happened. Patients and patient safety need to take priority over company profits.
88	It wasn't until I left chain retail that I realized how negative work had made me. After some time away, I no longer believe the worst in everybody and instead believe there is good in people again. I feel like the "public" needs changing. Not just staffing, metrics, etc. And I don't know how to do that.
89	Its a tough work not easy at all but job opportunity for RpH now is very limited so far I dont see any job for me but retail
90	Let pharmacist and technicians focus on filling medications correctly. Phone calls for mtms, delayed picked up should have dedicated additional staff focusing on these tasks as opposed to doing multiple task in verifying prescriptions and doing calls causing increase in error incident.
91	Many pharmacists are burnt out which is leading to a decrease in productivity which then increases the workload for other pharmacists. This creates a viscous, exhausting, cycle of burnout.
92	Miss you guys ;)
93	More adequate RPh and techs and clerks help
94	More help
95	More inspections, questions and requirements on the companies and their metrics/requirements themselves, rather than just the physical pharmacies and their PIC's alone. Corporations should have to answer more directly to the BOP in each state they're operating pharmacies in, considering they set the expectations and requirements on the pharmacists themselves at the threat of job loss/wage loss/bonus loss/etc if those expectations aren't met, no matter how dangerous those working conditions are to the patients and employees themselves.
96	More pharmacists and technicians hours during any given shift, increase pay for our hard working technicians so the experienced technician will stay with us
97	More power to the pharmacist to decide staffing needs, not the company, less money going to corporations and more staying in the community
98	More staffing to help patient care and not rushing. Also better working environment for trainees.
99	More technicians would provide a safer and more calm environment, allowing them to time to focus and not make errors. When our technicians make errors it affects the patient and the pharmacist has to spend time correcting the issues. The technicians face a lot of pressure and are often interrupted too
100	Most employers today use black and white method of using numbers/ metrics to schedule staffs without realizing that pharmacists today have to take on so many non-dispensing services. And that leads to short staffs. Employers always push to improve customer service while trimming down hours.
101	My employer requires us to work 9.5 hrs a day 5 days a week. This in my opinion leads to burnout and an imbalanced work/life balance. No flexibility to work longer hours and have more days off. This would GREATLY improve work satisfaction and less burnout having that option.
102	My priority is always patient safety and care over the number of prescriptions I verify, but as a conscientious employee I cant help but feel stressed at the pharmacist work load.

	A
103	My store is probably one of the better staffed stores, but it wasn't always like that. We've recently been given more hours for staffing, but that was only after issues arose from the increased demand in vaccines/scripts. While we are in a safer position now than other pharmacies, we haven't always been there, and it won't always be like that. And while I don't work as many extra hours now as others, it's because I've given up. I've worked 14 hours days when it was supposed to be only 11 to get all my tasks caught up. I could easily do that now, but I choose to not let work run my life. Just because I don't, doesn't mean that I couldn't, or shouldn't.
104	N
105	N/A
106	NA
107	Needs rule by state like California to increase safety
108	Nevada require much more counseling log than other states that require interrupt pharmacist work too frequently
109	New companies are remotely staffing multiple hospital pharmacies and have already reached levels that rival retail chain pharmacy workloads. I would suggest this be the next area of concern after making sure retail chain pharmacies are appropriately staffed and structured to avoid obvious breaks in the chain of public and patient safety for testing, vaccinations and dispensing.
110	Next thing you know the chains will want to get rid of pharmacists in the pharmacy and have all the checks done remotely or by AI. This profession used to be so great. Why has pharmacy leadership allowed all of this to happen? Plus how can you say this s
111	no comment
112	Non
113	Non Pharmacists (non licensed) personnel should not be allowed to override decisions made by licensed pharmacists regarding the safe operation of the pharmacy at any time.
114	None
115	None at this time.
116	Not having to worry about non-patient/dispensing tasks will improve patient safety.
117	One of the biggest current problems is dealing with the abuse and general time consumption of dealing with drug shortages.
118	Opioid crisis is out of control. We as pharmacists need help in this area.
119	Our industry is evolving rapidly. Especially with fulfillment methods, most of our chains are trying to ease the burden of the balance of dispensing vs nondispensing activities with microfilfillment which is not yet a well oiled machine just yet but at least is being addressed proactively. I really feel the best possible support is anti-PBM legislation and make Nevada open access and drug price transparency.
120	Our profession has become very undesirable leaving high turn over rates of underpaid/overworked techs and testament to our local pharmacy program enrolling "70% less" pharmD candidates than usual. We feel defeated everyday on duty due to understaffing to support the demands of our community safely and efficiently. I see the trend of people leaving the profession due to frustration causing more stress on those who stay. And the last 3 years the ones who stayed are slowly leaving. This cycle is causing unsafe/inefficient patient care across the nation. Please please please help our profession.
121	Our retail chain recently implemented 30 minutes pharmacy lunch break. Due to the workload, I use this time to catch-up because the phones are off and the gates are closed at the pharmacy. I've only actually eaten twice since they started our 30 minute meal break few months ago.
122	Outline the quantity and MME that can be prescribed exclusively for dental purposes and migraines. A lot of patients that take narcotics for chronic pain are using them for migraines. Legislate that post surgical pain prescriptions should be sent to the pharmacy only post surgery. I see people send in and fill prescriptions for post surgical pain management 2-4 weeks before surgery. Some of the surgery might never happen and how do you determine how much medicine to prescribe for a surgery you did not perform?
123	Patient safety is number one priority for me and adding extra tasks all this non medication services CLIA services affecting pharmacist to focus on medication therapy and its increase stress and work load which affect patient safety
124	Patients do not respect pharmacist anymore the amount of verbal abuse, license threatening and corporate threatening in a retail setting is unacceptable. Corporate surveys for patient œretention should be eliminated. Retention is not based on servic
125	Pay the technicians and pharmacist well enough to boost their morale and motivation.
126	People and Patient driven instead of metrics.. Focus on right behaviors and forget metrics completely..
127	People generally and understandably, do not want to wait. Metrics focused on prescriptions but does not count, as this survey has put it, non-dispensing services, phones, customer/patients and other variables does not make sense. I understand metrics, why there is one but not including everything makes it an unfair measure of practice. Customer surveys, metrics, non-dispensing services are all factors, among others, in pharmacy practice now.
128	Pharmaceutical technicians should not give consultation or suggestions to patients just because the pharmacist is too busy attending to non-dispensing services

	A
129	Pharmacies should be required to access Webiz before administering vaccines. Too many times I have seen unnecessary or duplicate vaccines administered.
130	Pharmacists are valuable - stop replacing pharmacists with techs - fight for the profession for adequate reimbursement that allows more than 1 pharmacist serving the public
131	Pharmacists need to be union and have someone protecting their rights. Unfortunately, all the bad practice and illegality is well known by Nevada Bord but they really Do Not Care!
132	Pharmacists should be allowed to sit down. We are not robots . We deserve to sit . Some times we are so pressed we dont even use the bathroom for ours . Fearful that a patient maybe upset waiting for the pharmacist for consultation
133	Pharmacy corporations should not be allowed to pressure pharmacist to verify prescriptions by promised time it is a unnecessary metric, when caring for the patient is more important
134	Pharmacy has become a rat race from the time the pharmacy opens until it closes...it has become a race to finish and fill as many prescriptions as possible. Drive thru services made it like fast food instead of safety. Maybe if there were more pharmacies so all the work wasn't all in one place. More pharmacist working at a time.
135	Pharmacy insurance or discount coupons from manufacturers should be made available to participating pharmacies prior to drop off or pick up to avoid any delay.
136	Pharmacy run score card to compare the all the store every week, Performance measure or time takes for each stage. 56 Seconds to verify? How many mtm ? Vaccination, per week , compare all store increases every week , comparing increases stress, anxiety if you behind then others. ,since all store has different thing to deal .comparison does not help rather than increase stress The time set up by System is very unrealistic ,put pharmacist in rush that cause errors
137	PHARMACY SUPERVISORS AND MANAGEMENT SHOULD NOT BE IN PLACE TO DRIVE PHARMACY PROFITS THROUGH DRIVING METRICS. THEY USED TO BE THERE FOR ACTUAL SUPPORT.
138	Pharmacy Technicians should get salary increase specially if they can help with immunization.
139	Please enforce my mandatory 30 minute break.
140	Please make a legal requirement for each pharmacy to operate safely with at least 2 to 3 technician minimum per 1 pharmacist so that the employer would not cut too many hours leaving us having a few hours of tech per day, 10 hour shift. Due to low number of tech hours budget weekly, we do not have enough number of technicians to assist all customers.
141	Please read through topic discussions on www.reddit.com/r/pharmacy and www.reddit.com/r/pharmacist
142	Please require pharmacies staff 2 pharmacists per shift.
143	Prescribers are difficult to reach when verifying prescriptions. Medical assistants have become an obstacle that impairs the efficient verification of prescriptions.
144	Proper compensation would be nice to avoid burnout of technicians and Pharmacists, though this appears to be an issue with corporate and their stance where patient safety matters only when it doesn't affect their profits.
145	Proper workload balance
146	Pushed too hard to reach unattainable metric/goals and told its all to keep patients healthy when its most about profits. Too much to constantly keep up with as a PIC: Compliance audits/inspections, metrics, BOP inspections, inventory, excessive amounts
147	Really hope the Board of Pharmacy is able to do something about current work conditions as it not only affects the employees but patients. I have been a pharmacist for 25 years and it has been great in the beginning but has become a multi-tasking nightmare. Companies are only looking at the profit and # of patients that can be processed. Not processed safely. If something happens then it is the pharmacist's fault as they shouldn't have rushed.... but they have to in order to hit the "goals". I am actively pursuing goals to get out of the profession that I used to love.
148	Regarding the idea of increasing the number of technicians a pharmacist can supervise, I believe it could suffer from diminishing returns. Time that could be spent doing clinical tasks, such as consultation and communicating with other healthcare providers, may be used to supervise additional staff instead. I don't believe this is where the role of a pharmacist should be going.
149	Respect for pharmacist, some management treat them like a home servant
150	Retail pharmacy has become unbearable. I've left a large chain because of the impossible expectations.
151	Retail pharmacy makes one feel as if they are on the brink of capsizing on a sinking boat. More pharmacists are required to solve issues regarding patient safety (consultations) and all non pharmacy related services like immunizations.
152	Retail Rphs are overworked and under paid. Performance evaluations are just ridiculous and unfair. Even if your manager gave you a good review but the other people involved in giving a raise will mandatory lower your score or since youve been in the c
153	Salaried pharmacists should have overtime pay too since a lot of us stay behind after our shift just to clear it up for the people working the next day. Or just have two pharmacists scheduled in a day so theres no work left behind after shifts.
154	Should be a regulation for the chain pharmacies to always have technician on duty. Im considering going to the state legislature about this concern.

	A
155	Should pay for pharmacist work after hours. Should have all electronic prescriptions, no more handwritten prescriptions. Hand written prescriptions are not safe most of the time.
156	Since COVID I have struggled with mental health and work continues to expect more and more without taking anything off the plate. They say they are helping but they arent. They budget for a skeleton crew at all times and expect you to constantly do the
157	Technicians need to make more than a gas station attendee
158	Technicians should be required to do all vaccinations.

160	Thank you for doing this.
161	Thank you for sending out this survey and listening to our concerns.
162	Thank you from the bottom of my heart for this survey. The questions asked here have been well thought-out and inquired about a variety of topics.
163	Thank you NV BOP for this initiative! I hope there would be changes implemented after this survey as soon as possible. The demands and responsibilities for pharmacists are always increasing. While I am happy to do extra tasks to help serve our patients, additional help is needed from the company and government to ensure the patient's care and safety. I feel that the laws and policies are not fast enough to adapt to the changing landscape of the pharmacy practice. Increase communication from the BOP to pharmacy staff and public would be beneficial; consistent monthly newsletters would be nice; regular open dialogues or public forums would be favorable.
164	Thank you so much for doing this. It really feels good to feel like someone is listening, after feeling like we dont matter. My first job was at a Taco Bell when I was young. I hated it, and determined to never work there again. Pharmacy has become
165	The board of pharmacy needs to protect retail community chain pharmacists unsafe workplace conditions to improve patient safety. In Nevada, community chain pharmacists need to be required to staff the pharmacies to complete workflow daily.
166	The board of pharmacy was slow to implement laws and care about pharmacist to help and prevent errors.
167	The BOP should care more and investigate when a pharmacist files a complaint about working conditions in a pharmacy. The way a company runs its businesses has a direct effect on patient safety. It is discouraging to be told that BOP cannot do anything for us when patient safety is on the line. Our patients deserve better.
168	The disrespect and hostility for doing our job should not be tolerated
169	The metric system and management style mainly contributed the ability to verify the prescription effectively and safely for the patients. In addition, the pharmacy manager puts more pressure on pharmacy staff for the bonus payment, which even puts more burden on the pharmacists to promote patient safety. Therefore, I would recommend the Board of Pharmacy set a guideline for a certain number of prescriptions for pharmacists to verify per day or week. In addition, pharmacists must have enough time to verify and check the prescriptions in the best condition. If any pharmacy manager takes advantage of his or her power to pressure his or her staff to verify faster and provide unsafe working conditions. Please have a phone number or specific forms for the staff pharmacists to express their concerns and present complaints to the Board of Pharmacy about the management. Thank you,
170	The metrics is super stressful
171	The primary practice setting that I listed was with [redacted] retail pharmacy (my previous employer). There were days and weeks when I could not relax even on my days off. I would come to work anxious about the workload and metrics that my employer demanded from us, dealing with multiple situations unprepared by my employer, and constantly worrying whether or not, my mental health is more important than the company's values. Due to my large workload and multiple tasks at the pharmacy, I felt like it was easy to make a medication error, which led to increased stress levels and anxiety at work. My healthcare physicians suggested I quit my job due to poor work conditions at my retail pharmacy company, which led to taking medications for anxiety, depression, and eczema flares due to work stress. I have floated to several different [redacted] locations and the work conditions are the same or worse with less pharmacy support.
172	The safe number per day really depends on the system. At [redacted] you can safely fill more because their computer system is designed to prevent medication errors. Other places, not so much.
173	The solution is simple, but many BoPs refuse to act. Require big companies to ensure adequate help isnt asking a lot when you are dealing with patient safety. Just ask the this question to any other medical professionals: Have you EVER seen another whi
174	The workload that has been put on us is unfair and unsafe on top of tech hours being cut so badly we are working by ourselves. Pharmacy never used to be like this. We have lost so many great techs because of cut hours/wages and lost great pharmacists due

	A
175	There are not enough labor laws to help protect labor rights of pharmacists in Nevada. Salaried pharmacists are expected to complete work/hours outside of work in addition to scheduled pharmacy hours without pay. Pay increases even for the highest performers have barely made it to 2-3% yearly increase which to is not enough to help offset inflation. New graduates or pharmacists changing companies are offered $50-60 hourly with many given less than 25 hours weekly. It is disappointing this is the same offer from 15-20 years ago with significantly more competition entering the workforce, despite school tuition hikes in the last decade. The working conditions, minimal labor protection, and no incentive in pay guarantee to offset the expenses/commitment has plummeted interest in the profession, as seen in the lack of applicants in the pharmacy school. Great candidates are looking into other professions, and sadly pharmacists are discouraging their own family and friends from our profession due to the bleak job outlook and poor working conditions. Our community needs good pharmacists to guarantee their medication safety, and a lot needs to be changed to regain a positive interest in our profession. Our neighboring state California has taken strides in the profession, gaining workforce rights like requiring pharmacists to clock in and out during working hours and during lunch to protect from interruptions so they are adequately paid for their time. They are not allowed to open the pharmacy without a technician present. The Board no longer allows companies to use business metrics and goals to be evaluated because it affects patient safety. The bottom line is that this the safest process that we can do to ensure errors are kept minimal without interruptions and the stress of meeting metrics so that pharmacist can fully focus on preventing errors and identifying safety issues. I truly believe that not allowing quantitative measurements that pharmacists stress to add in addition to dispensing and requiring at least minimal technician hours (not more technicians allowable) will vastly decrease the number of errors and patients hurt so we do not compromise their care.
176	There should always be at least 1 technician working with a pharmacist at all times (like in California) to promote patient safety and safety in the workplace. Its scary to work by yourself in the pharmacy. Sometimes we get a last minute rush, or a fam
177	There should be a Pharmacist assign for MTM and equip so less interuptions in filling, dispensing and verification of Prescription.
178	They do not have hours for sick call. I think mental health is extremely important for pharmacists as well. All pharmacists need mental health breaks
179	Things need to change!! We have to stop big retail chains dictate what we do without regard to patient safety.
180	This is not the same profession that I began 28 years ago. Had I known it would become what it is, I never would have become a pharmacist
181	This survey failed to address the pharmacy profession other than retail. Expectaion to fill Rx's as quickly as possible puts patient safety at risk. For example, I would like to know how patient safety is paramount when doing clinical review and one is only given 6 seconds to perform a proper review.
182	Transfer of prescription must be limited, or needs to go back to the old way of limiting rx to be transferred only if rx has filled at least once in the pharmacy. If Md send rx to wrong pharmacy, they need to resend to the right pharmacy instead having pharmacy to transfer for their mistake.
183	Travel vaccines/meds consultations and immunizations have taken out a lot of time from our work flow. Then we still have to clear the queues for that day. We have to follow companys protocols to accept or deny new patients but sometimes feeling the com
184	Twelve hour shifts with one thirty-minute lunch break are ridiculous. Also, expecting one pharmacist to deal with dispensing prescriptions, vaccines, patient consults, answer customer questions, handle drive-thu issues, ring register, deal with inventory and ordering and everything else we do with no errors is insane. I'm old enough and experienced enough to say "no" if necessary but most pharmacists won't and errors will become more common and more serious it the current situation continues.
185	Ultimately the safety of the patients is our number one priority and secondly the pharmacist and technicians well being & mental sanity need to be addressed due to unrealistic expectations and pressure from the companies metrics! The outrageous workl
186	Unrelated to the board, but the pay scale for pharmacy is also not very good for chain retail pharmacies, which exacerbates staffing issues.
187	Unsafe to voice concerns without feeling that I put my job at risk.
188	Until ALL interruptions are eliminated or decreased and third party is reformed or eliminated, NOTHING will change or improve
189	[redacted] caused me to have psychological damage from the stress, weight gain, lack of rest periods (because of no overlap) lack of bathroom breaks and constantly being berated by patients with no repercussions from corporate when my life was threatened on multiple accounts
190	[redacted]
191	[redacted] greed is excessive . Managers and technicians are incentivized to pushing vaccines
192	[redacted] in Las Vegas is the employer referred to above

	A
193	We get a designated lunch, but no additional rest periods for pharmacists, only technicians get breaks. Employees don't have enough vacation/sick time to take well-deserved breaks and take time off when sick, and we don't have any coverage when we do need time off, which leads to people working when sick, injured, in pain etc and increases stress and burnout. Increasing the number of techs increases my stress and workload in a different way. I work very hard to stay focused so as not to make a mistake, but it is exhausting to keep track of everything going on. And yet I wouldn't be able to fill all those prescriptions without them. Which means we need another pharmacist if we need more technicians. And with staffing where it is, we are almost always "behind."
194	We have a central fill location which is supposed to help us with workload but it cause many problems which includes customer complaints. It also automatically pull in non maintenance medications such as Ibuprofen and other medications and when the customers come in to pick up their medication, we have to pull it back and it takes extra time which could have been avoided
195	We need more breaks or lunch should be longer than 30 minutes
196	We need more specializes pharmacy and pharmacist to offer a better service. We are trying to do to much at one setting
197	While my current employer is not as bad, I had to quit my previous employer Walgreens due to such stressful job environment, more goals/quotas to be met, pressure from store managers and district managers who some dont event have pharmacist degree but di
198	Without enough staffs to accommodate work flow and patient care, there is higher chance to make errors because everyone has to work faster and harder to meet metrics. Besides that limited staff also affected the time patient has to wait in pharmacy to pick up their medications.
199	working less hours per week is the key for my life change
200	Yes, pharmacy is a business but also a means for patients to get life saving medication. This should be taken seriously. Pharmacists should be able to safely evaluate each prescription and not push for completion due to time constraints from the company and deal with constant interruptions that open the door for numerous medication errors.
201	You cannot tell me that a pharmacist being pulled in 6-12 directions at any one time will never make a mistake. You cannot tell me that a technician trying to multitask at the same level wont make a mistake. My company likes to say that some techs act
202	No response.

	A
1	**Question 57: Please share any other comments you may have:**
2	**Question 3: Which of the following most closely describes your primary practice setting?** **a. Institutional/Hospital Pharmacy**
3	**Responses**
4	Allergies!!!
5	Allow pharmacists to make clinical judgements regarding medications. (Ie; 2 lisinopril 2.5mg daily instead of one 5mg tablet
6	Before our current management took over, we had amazing outcomes with our diabetic patients and hypertension patients because we had in person visits with them, the pandemic changed that to telephone visits, which are often no show and not effective. We need to go back to being 50% clinical & 50% retail like we were; this will greatly improve patient safety & outcomes, in addition to eliminating errors. We also need to be less cluttered; our manager focuses on ordering things and overfilling the pharmacy, rather than anything to do with patients; he does not care about the patients at all, sadly. We need a major refocus in our management, but this has been a struggle, he distracts more than he ever helps, unfortunately.
7	better understanding of pharmacist work from physicians and Nurses. Also from general public.
8	[redacted] is a patient safety nightmare. Please do something about it!!! Staff is scared to work here and management doesnt care
9	Dea caps on scheduled rxs dispensed without the pharmacy knowing what that cap is does not help with the opioid crisis but instead compromise patient safety for those in need of these medications for legitimate reasons
10	Even though more tech would be helpful to get things done, if the ratio is too great, it is hard to check everything safely (without rushing which could lead to more errors).
11	Hospital pharmacy is 200% less stressful than retail pharmacy. Workload is about half with more staff.
12	Hospital setting is very different than retain setting for patient safety, but the priority is still number 1.
13	I do other projects for the company I work for outside of pharmacy hours, that can be stressful, but the pharmacy work during business hours is easily accomplished. My biggest stress is the computers going down.
14	I know retail pharmacies are massively overwhelmed, especially during vaccination times. But I wish that the board of pharmacy paid better attention to hospital pharmacies. We are also massively understaffed in Nevada and we are also looking into unionizing.
15	I only work part time currently due to a past pharmacy job of high stress, high workload, and spending 60 hrs a week working, when only being compensated for a 40 hour week. Basically I burnt out
16	I quit retail about 2 years ago. The big companies will never come with more help unless forced. Its as bad as youve heard.
17	I realize that the healthcare system is struggling, in my setting the administration is so far out of touch with the daily needs and struggles of our department ~ we are unseen and unrecognized.
18	I switched careers from [redacted] to [redacted] pharmacy. Both pharmacies processed the same amount of prescriptions, but the biggest difference is that instead of having one pharmacist working an 10+ shift there are sometimes 3-4 pharmacist each working an overlapped 8 hour shift. This allows the pharmacists to spread the amount of consultations, vaccines and other non-dispensing activities amongst themselves. Moreover, the pharmacist is not pressured to spend such little time on prescription verification, but rather can safely analyze DUR and seek clarification without sacrificing on getting patients their medications in timely manner. My work life balance has been greatly increased since making the switch.
19	I want to love where I work, but some days it worries me to be there when I see how little administration cares about us and in turn how little they actually care for patient safety.
20	I would prefer to hire more technicians than less but it could have a positive or negative impact on patient safety and medication errors. Some technicians are not very detail oriented and make a lot of mistakes whereas others are very accurate. Hiring more pharmacists concurrently would help pharmacists spread the workload and not feel overwhelmed with the amount of items to check that techs have prepared. I believe both hiring more pharmacists and more technicians would improve patient safety and reduce med errors
21	It would be so nice to feel like we have a board that cares for us. It feels like it works against us and any time I have called I get an "you're a pharmacist, you should know" attitude.
22	Its not necessarily the number of techs working. Its their work responsibilities that need updated.
23	KEEP IN MIND I WORK IN A HOSPITAL WITH 800+ BEDS ADMITTED ON THE ADULT SIDE. BUT THERE IS ALSO CHILDRENS HOSPITAL AND THE ER PATIENTS TO CONSIDER. ON DAY SHIFT, THERE IS MORE STAFFING, ON SWING SHIFT STAFFING DECREASES, AND ON 3RD SHIFT - WE ARE BARE BONES SKELETON CREW BUT PATIENT VOLUME AND DEMAND DOES NOT CHANGE. AND FREQUENTLY INCREASES.
24	Lots of pharmacists feel they are not supported by their own governing organization and are left to rot. Whereas nursing and physician groups at least try to support their profession. The liabilities of the law, the additional responsibilities, and the ever increasing risk of patient safety that we carry on our broken backs just isn't worth proceeding in this profession anymore. The non-existant pay increases over the past couple of decades does not match up all the additional responsibilities and work we all have to endure.

	A
25	Many of these questions are not applicable for hospital and clinical pharmacists so consider a separate survey for them to address
26	N/A
27	NA
28	NA.
29	Nevada is also behind other states in what pharmacists are able to do within their scope of practice. Many more states have outpatient/inpatient prescribing, more liberal collective practice agreements, etc. As more of these practices (such as COVID immunizations, Paxlovid prescribing, vancomycin AUC/MIC dosing, etc) have been slowly introduced in Nevada the number of pharmacists staffing has stayed the same. And employers and institutions haven't appeared to show any interest in providing more FTEs for the additional work. This will only get worse as other states expand pharmacists scope of practice. And allowing technicians to do pharmacist duties (such as immunize) under pharmacist supervision just allows employers to not staff more pharmacists but carry more of a liability being responsible for the activities an individual without even a 4-year degree which we have to directly supervise anyway.
30	No other comments
31	None
32	not at this time
33	Over my 30+ years in pharmacy I have seen an increased emphasis on patient safety, so much so that I earned a credentialing in patient safety. However, the emphasis on USP 797 and 800 , though extremely important and does add dimensions of patient safety, has created delays in patient care due to the "extra steps" in creating a sterile/accurate dose. These delays add extra stress to an already busy patient care process.
34	Pharmacy has gone downhill, we let employers push us around to much and for too long.
35	Pharmacy has not been what I imagined it would be¦these companies make sooooo much money off the backs of our hard work. Its very easy and quick to lose motivation (I see sooo many pharmacists and especially techs who do the bare minimum) this means
36	Pharmacy has not really changed and retail always drive for profit and under staffing due to management greed and lack of empathy.
37	PROVIDERS NEED TO BE HELD ACCOUNTABLE - THEY DO NOT ANSWER THE PHONES, THEY ALLOW UNEDUCATED MA'S TO GIVE RX'S OVER THE PHONE, AND GIVE MEDICATIONS WITHOUT A PHARMACIST REVIEW AND NO KNOWLEDGE OF THE PT'S OTHER MEDICATIONS LEADING TO ERRORS
38	Receive meal break required by law , but zero additional breaks
39	Reflecting on my entry into retail pharmacy about 15 years ago, the staffing levels were reasonable, enabling us to manage our workload efficiently. I could dedicate time to addressing issues, conducting follow-ups with healthcare providers, and ensuring comprehensive patient care. With my background in hospital and ambulatory care pharmacy, I comfortably balanced the demands of retail until I transitioned to an ambulatory care role in a hospital. However, during my five years in retail pharmacy, I witnessed concerning changes in the work dynamics. There was a persistent push to reduce technician hours and replace experienced technicians with lower-cost hires and minimal training. This restructuring impacted workflow, forcing unreasonable speed expectations on the remaining staff, leading to psychological and physical burnout for both technicians and pharmacists. The high turnover resulted in constant changes within the team, disrupting continuity and patient care. The working conditions deteriorated to a point where the well-being of healthcare staff was compromised. It became evident that caring for patients necessitates a supportive environment that prioritizes the well-being of the healthcare team. Despite being offered roles of higher responsibility based on performance, I chose not to continue in retail pharmacy due to the discordance between the work environment and my personal values, particularly in the treatment of technicians. I firmly believe that a healthy and supportive work environment is essential for delivering quality patient care, and regrettably, the current conditions in retail pharmacy diverge significantly from these principles
40	some of these questions are difficult to answer related to a hospital clinical pharmacy setting, but sometimes noise levels and interruptions while processing medication orders can be an issue. I've grown accustom to this setting and have personal mental checks to keep myself from putting through orders that I haven't evaluated thoroughly due to distractions/interruptions. I feel like there is very little one can do about it in this setting, unfortunately.
41	Some patient safety issues get swept under the carpet by administration
42	Stop increasing the number of techs per pharmacists. Its more stress on the pharmacists to have to be responsible for them.
43	Survey difficult need more explanation boxes to cover questions things like flex schedule due to census without out reguard to patient aquity
44	Thank you
45	Thank you so much for doing this survey. Timely and important!
46	The increased number of pharmaceutical technicians may pose a threat to patient safety as pharmacists are required to supervise more technician duties
47	Time for patient counseling and developing personal professional relationships.

	A
48	We must put into law minimum staffing for pharmacy size and/or workload - orders processed/dispensed. And not based on quantity of patient.
49	We need more advocates for Pharmacists and patient safety in all types of pharmacy settings
50	No response.

	A

2	**Question 3: Which of the following most closely describes your primary practice setting?** **c. Independent Pharmacy** **d. Department of Defense or Veterans Affairs Pharmacy** **e. Non-pharmacy practice setting (i.e., a practitioner's office, at home, at a college or university, etc.)** **f. Consultant Pharmacist** **g. None of the above, I am currently unemployed or retired.** **No Response**
3	**Responses**
4	1) I am lucky I can work for a small independent retail store. I would change careers overnight (to my other non-pharmacy part time job which I do work once or twice a month) if I had to work for a chain. They make the pharmacists at the other chain retails in town work 12-13+ hours a day & have to fill over 300 rx's/day. I have filled in on emergency for them & would never do it full time. That is absolutely insane. It is chaos all day. It is horrible for your health. We pharmacists (in general) are treated like fast food restaurant workers flipping burgers all day. I have it easy compared to them and am still burned out. You know how hard it is to get a day off? Nearly impossible. You have to work when you are sick & miserable cause there is no coverage for you. No other profession in the USA abuses their employees like pharmacists are abused. And if I had it to do all over again, I would NOT become a pharmacist. 2) we need to start training employers & pharmacists that in the name of patient safety, only those who truly need their prescription filled right this second (mother with sick kid in her arms) gets special treatment. All other customers need to wait their turn in line & we will get to later in the day. If we would start training everyone that this is a major way to reduce chaos (& the subsequent med errors) life would be better. I have started doing that at my pharmacy & the med errors have dropped dramatically. I repeat dramatically. Catering to every patient right here right now does nothing but create chaos & med errors. Patients are not entitled to have everyone stop what they are doing & fill their rx right now. But that is how it is in a lot of pharmacies & that is the attitude of a lot of patients. That is a disservice to everyone, all in the name creating a competitive edge is getting your script volume up so you can make someone else rich. Again. What ever happened to patient care. Lastly, I am grateful in that I don't have to administer vaccines & all that other non-prescription related stuff otherwise I would leave even this job. Listen, we are tied to preparing a product (prescriptions) for sale to a customer. Until that non-sense is no longer our job, all that other stuff they tout as patient care is just window dressing & has no business detracting from the safe & accurate filling of prescriptions.
5	As mentioned above, with the shifting of more workload to the techs, their pay scale should have been elevated more than it has 16 to 20 bucks an hour is in line with fast food , and the last time I checked, we were healthcare ¦ does that mean anything
6	Being professional in a community pharmacy: requires looking, acting, & speaking professionally. Being ready to work and on time when starting a shift. Help other staff members to perform their best and always remember you will never be appreciated by everyone you serve, since many in our current culture resent anyone standing between them and their drugs.
7	Does the patient truly benefit from a corporate mentality that is driven by œnot how but how many? Why is quality sacrificed for the mere sake of productivity?
8	Don't have one at the moment
9	excessive DEA policy against opiates to the extent patients with severe pain are being grossly under treated for fear of the DEA
10	Hopefully in the future - one day: Dramatically decrease dispensing functions of a pharmacist (which probably will be taken over by AI) and emphasize clinical knowledge/ patient consultation and education regarding patient lifestyle changes, nutrition, and possible drug- drug adverse interactions as well as patient discussions utilizing complementary medicine and assist in the development of an integrative health care approach.
11	I am glad this Problem is finally making an impression on the board as they have always preached patient and public safety while neglecting and not supporting pharmacists who are clearly overwhelmed and have asked for their help.
12	I am so grateful our BOP cares enough about patient safety to send this survey. It gives me hope for our pharmacy profession in Nevada.
13	I answered question 58,59, 60, and 61 based on my experience at a retail pharmacy
14	I feel for the community pharmacists who were being abused by the large chains and denied technician help, all in the quest for decreased cost and increased profit. There has to be a way to balance profit with patient safety, and unsafe working conditions is not it. I feel lucky to have escaped that career choice for much of my career, although poorly-managed hospital pharmacies aren't a picnic either. Gone are the days of employer-employee loyalty and fidelity. I'm glad to have landed a job in IT after 37 years as a clerk, tech, intern and pharmacist in various settings.
15	i hope the board will pass some regulations
16	I left retail pharmacy 10 years ago due to the expectations at that time and they have only gotten worse. I believe errors are frequently not caught because patients don't know to ask questions.
17	I left retail the day I was physically and verbally threatened by a patient and will never work in retail again. The company I worked for had such a poor response.

	A
18	I left retail this year after COVID pandemic due to increased pressures for providing vaccinations with no additional support in pharmacy staffing, training, roll-out of vaccination preparedness and then after providing over 5,000 shots in a year, having overlap pharmacists hours cut, technician hours cut, increased demands on non-dispensing patient services and metrics. I no longer felt safe dispensing medications for patient care.
19	I left Walgreens when I was sure that I was going to injure a patient or have a stroke due to the amount of hours I worked off the clock. I am certain that the majority of pharmacists who work at Walgreens and CVS now feel the same way. 58 thru 61 were all yes when I worked chain, and all somewhat when I worked at a grocery store.
20	I love being an Infectious Disease Consultant Pharmacist and Consultant Pharmacist
21	I love my current full time position, but do not see myself ever returning full time to a retail setting due to severe staffing shortages and performance metrics.
22	I support removing any metrics for retail pharmacists.
23	I wish that I did not pick "not applicable" because I am retired. If I were to answer these questions, I would answer them as negative responses. All the places that I have worked, the Chief was more concerned about a bonus than patient care.
24	I wish you had sent this survey out a year ago. My current employer is an independent pharmacy and it is amazing. My previous employer was the 3 letter. I worked for them from the time they took over Target pharmacy in 2016 until I quit in August 2022. From the moment [redacted] became my employer, I always told myself I would stop working for them once I felt like conditions were unsafe. I think I stayed a few years longer than that. Even before the pandemic hit, they were reducing technician hours to unsafe levels/stressful levels. Every single day I was scheduled to work I went in one hour before open just to try and set the pharmacy up for success (try to clear out QT, fridge temps, make sure the computers were up and running for the day, etc) and then many days I'd stay late just to clean thing up (put away the order, clear out QP that was overdue, file hard copies, etc) I know I diminished my value as a pharmacist by working off the clock but even with an experienced pharmacy team we could not physically handle taking care of patients and a business with the amount of help they said we were allotted. The quotas they expected were ridiculous - I remember one year [redacted] gave us a flu shot quota of around 1200. Well we reached that goal around late October so they gave us an "extended goal" - nothing was ever good enough for them. The real craziness started when the covid vaccine became available and we were expected to vaccinate all day long while continuing to dispense prescriptions. Sure, they made some technological upgrades which helped make some things faster. However, when you have a diabetic patient being counseled on how to use supplies for the first time and you want to spend 20 minutes helping them out by giving them that human connection you can't because you have vaccine appointments and a million other things to do. It's disheartening. If you really want to see some interesting things you should get your hands on the colleague survey [redacted] gives their employees every year. I'm sure I'm not the only one that begged for more help every year. I became a pharmacist to help people. By the time I finished with [redacted] in 2022, I felt like the only one I was helping was [redacted] to pad their bottom line. They didn't care about their team or their patients. I was just a number making them X amount of profit.
25	I work at an independent pharmacy with other pharmacists. I feel bad for RPhs who work at chains burdened with a lot of work.
26	I worked 14 years in one retail pharmacy and I quit because they cant find relief pharmacist so I can go on vacation (staffing problems)
27	Ive worked at [redacted] and have felt that I didnt have enough help to fill prescriptions safely. Didnt have enough help to be able to take a break, also couldnt get a break to pump while lactating. [redacted] burnt me out and affected my physical
28	If you increase the tech ratio, you are only worsening the problem. All that work is still falling on the ONE pharmacist. That ONE pharmacist will be the bottle neck and will feel pressured to finish all the tasks as quickly as possible. Someone WILL mak
29	Increasing Pharmacy tech ratio will lead to better patient care and safety. By having more techs they will reduce the busy work a pharmacist is doing allowing RPh to do only Rph duties. Final verification and counseling. Increasing or Eliminating the ratio has been shown to work in other states. Every Pharmacist have different abilities those abilities limit how many they can do safely on a individual basis there should be no quota for what they must get done.
30	Most of these questions do not represent my current conditions. We compound. I feel the survey should include an œother option with space for comment.
31	My pharmacy collaborates with nursing and we also have "on call" hours outside of our regularly scheduled shifts.

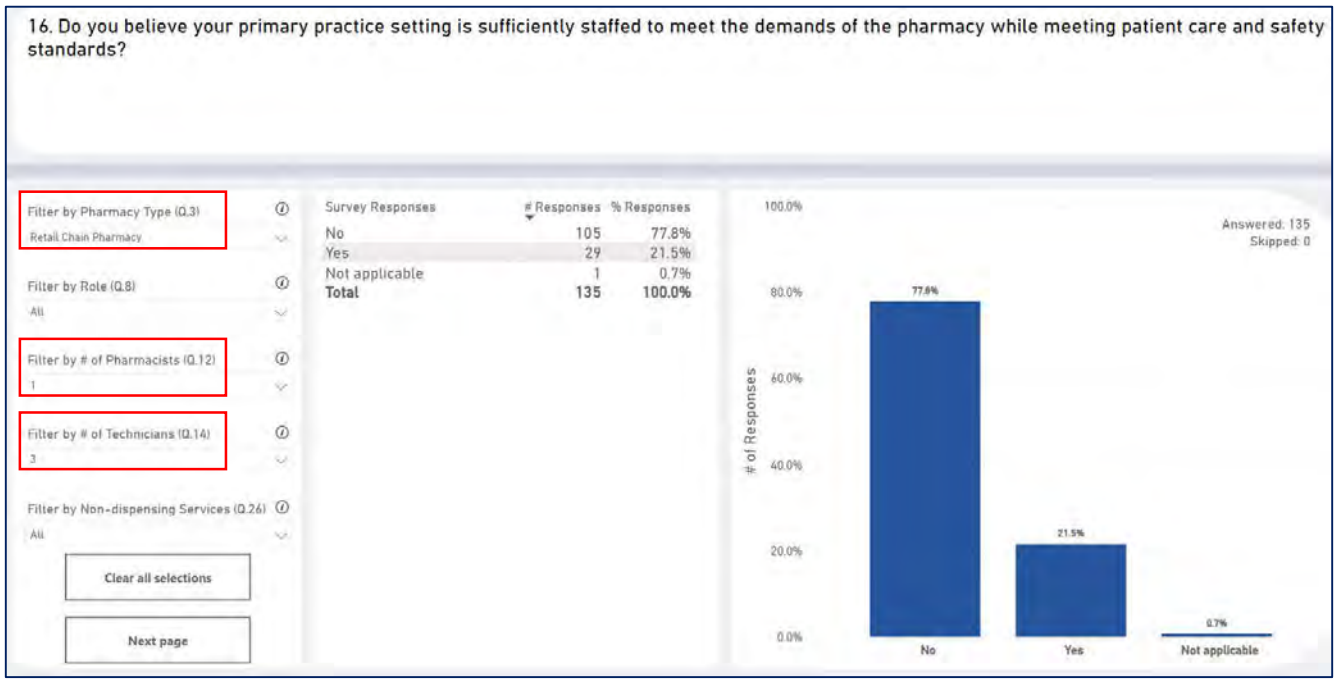
37	None

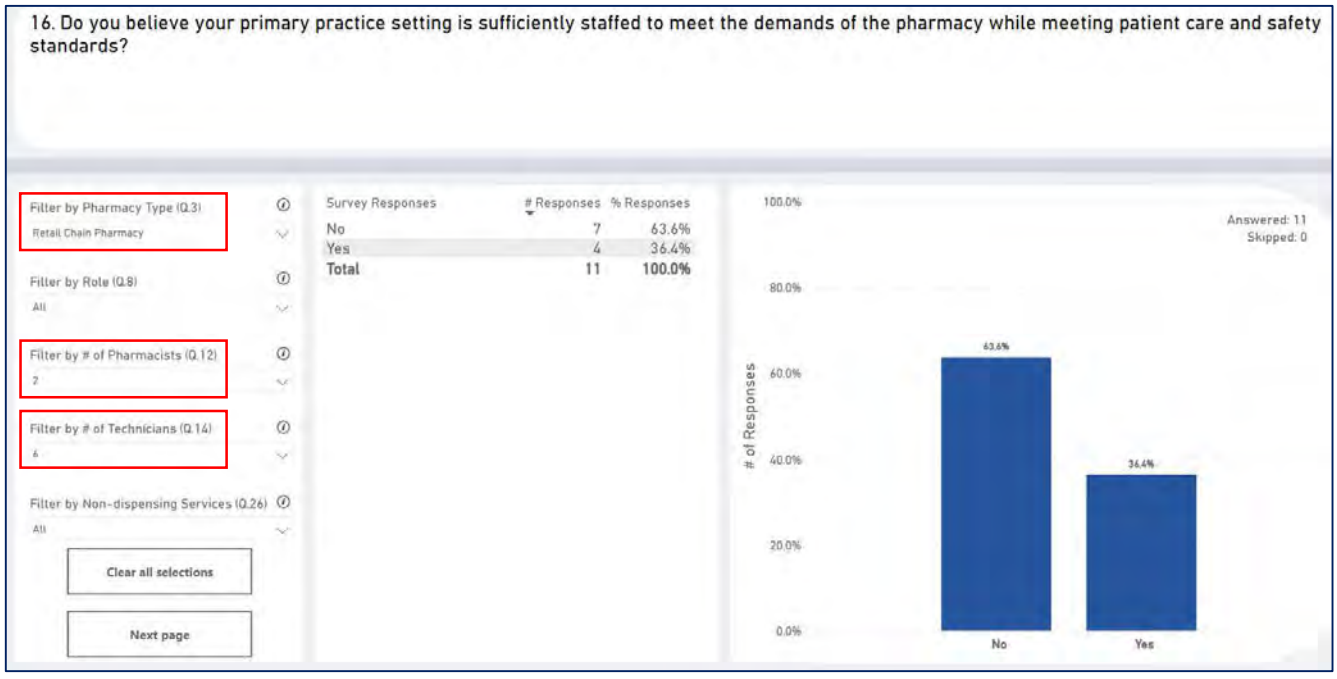
	A
38	Pharmacist and pharmacy personnel have got be more valued by the community, prescribers, and business. Patients of all classes, health status, and financial wellness will wait hours/months if necessary for a doctor appointment but cannot be bothered to wait 5 minutes for their medications???? The pharmacy world is broken by greed of money and time. All medical services were given a great and mighty disservice when they became a business and not healthcare. My position with DHA/DOD is much better that it was in RETAIL, but there is still room for much improvement. My job in retail and here has been reduced to be an editor of my technicians, the doctors, and even the patients. I feel my degree as a pharmacist is being only about 10% of the time, yet I am still paying for a $200,000 education that brings me very little reward other than a pay check.
39	Pharmacy cannot be treated like a fast food situation although some of those business have implemented strong quality check measures to ensure accuracy.
40	Q47. Remove eliminate and use decrease to describe the factors distracting RPh when processing orders in community & hospital RX
41	see the above comments. We need to have more pharmacist to assist our patients. Do NOT increase technician ratio's. A pharmacist cannot have a high metrics, flu shots, patient questions, increase technician & cashier ratio; increase phone calls, consults to better serve our patients. There is a mass exodus of people leaving the pharmacy career.. There is definitely no work and home life balance. We can't say anything because pharmacist are trying to pay off the loans we have incurred to enter this career. Take a survey: not many pharmacist are happy with their career choices.
42	since the vast majority of errors occur at input, this is where the pharmacist should be, not a tech
43	The practice of pharmacy in a chain retail setting is becoming too stressful and leads to a case of burnout for the Pharmacist
44	There is a limit to what one pharmacist, even with competent PharmTech help, can reasonably safely process. That limit can change from day to day or even hour to hour based on multiple factors: health of pharmacist or PharmTech that day, unique prescription problems, temperature in the pharmacy, pressure from waiting patients and the looming workload metrics. Most times, you can only complete what you can get done and if that completion rate leaves unfilled prescriptions, then the next day starts off behind. I have a limit and a safe speed and that speed varies based on some of the above items and the competency of the PharmTechs working with me.
45	There is no shortage of Pharmacists but rather, there is a shortage of good paying pharmacist jobs and also a high shortage of conducive work environment.
46	This is an independent pharmacy whos main emphasis is quality service to our patients. We have a small staff that all work well together to provide a good service to our patients. More important than quantity of staff is the quality of staff.
47	TOO MANY TECHNICIANS FOR TOO FEW PHARMACISTS.
48	Unreasonable metric standards should be discontinued , need more pharmacists to do multiple jobs
49	Vaccinations and mtm have no place in a pharmacy setting. Too distracting. Too many interruptions. Main reason I quit practicing pharmacy. These could be addressed by a separate pharmacist, whose job was to vaccinate or do mtms
50	Vaccinations should not be forced requirement of employment especially Covid boosters that are dangerous. Give RPh discretion to give or not give vaccinations. COVID boosters are dangerous and this is documented.
51	Walgreens metrics are a Pt. Safety risk
52	When I was with CVS (2017-2019), I was so run-down and burned out I almost decided to go BACK to school for a non-healthcare related career. I was depressed. I didn't love pharmacy like I used to. I'm so happy I was able to find a different employer and brought my love for pharmacy back to life.
53	No response.

Additional Reports

Report 1

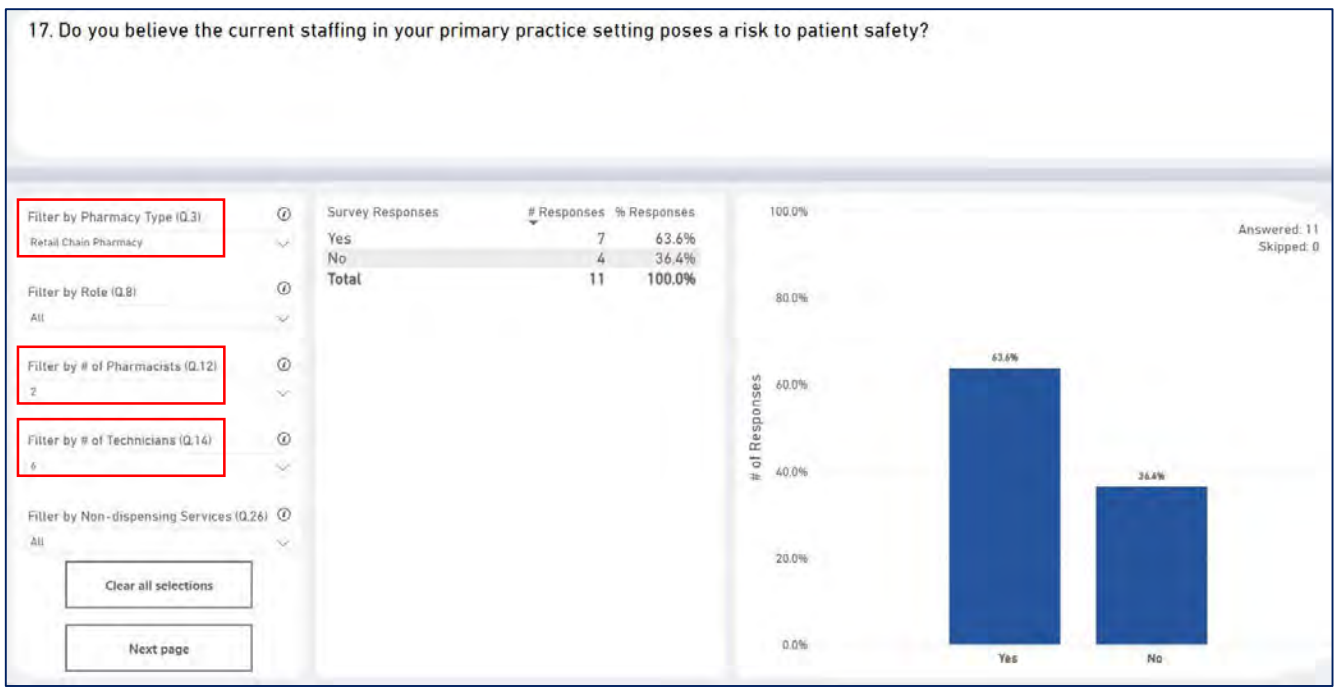
This report provides a view to certain survey questions depending on the staffing model in a Retail Chain Pharmacy setting. This report specifically looks at the responses to questions 16, 17, 18 and 47 based on Retain Chain Pharmacies staffed with one (1) pharmacist and three (3) pharmaceutical technicians vs two (2) pharmacists and six (6) pharmaceutical technicians. (As a reminder, the results of **question 12** demonstrated that most Retail Chain Pharmacies staff their pharmacy with one (1) pharmacist per shift (67.2% of responses) or two (2) pharmacists per shift (21.5% of responses) and the results of **question 14** demonstrated that most Retail Chain Pharmacies staff their pharmacy with three (3) pharmaceutical technicians per shift.)



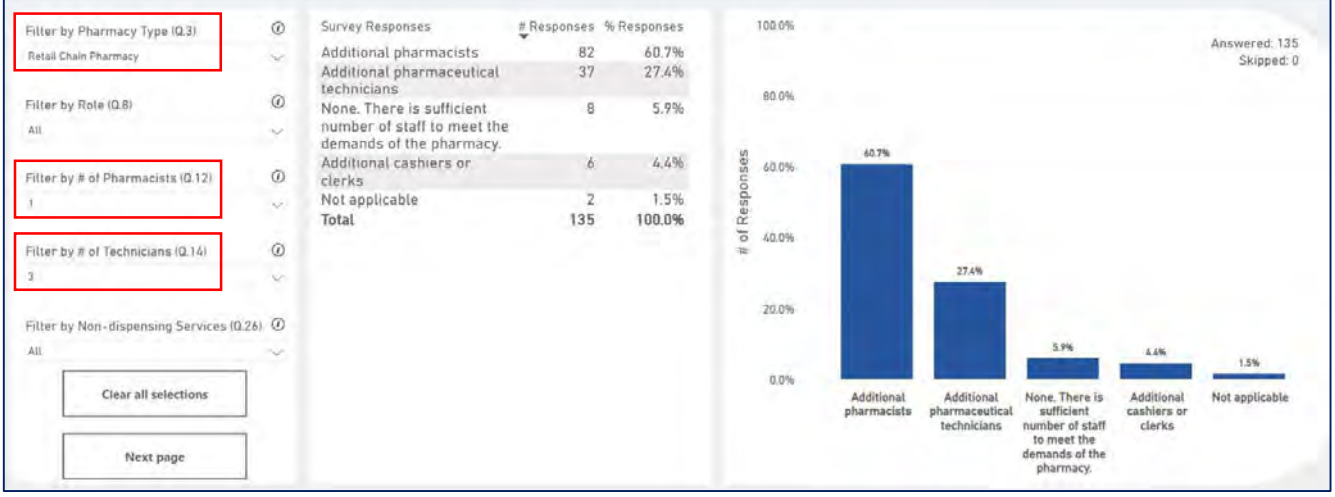


17. Do you believe the current staffing in your primary practice setting poses a risk to patient safety?

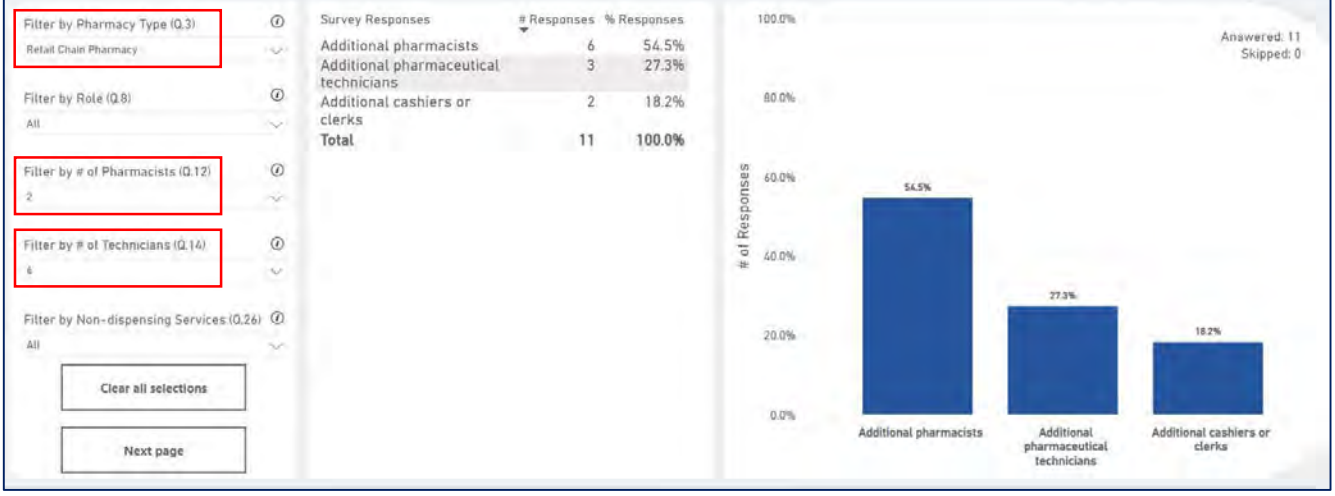
17. Do you believe the current staffing in your primary practice setting poses a risk to patient safety?



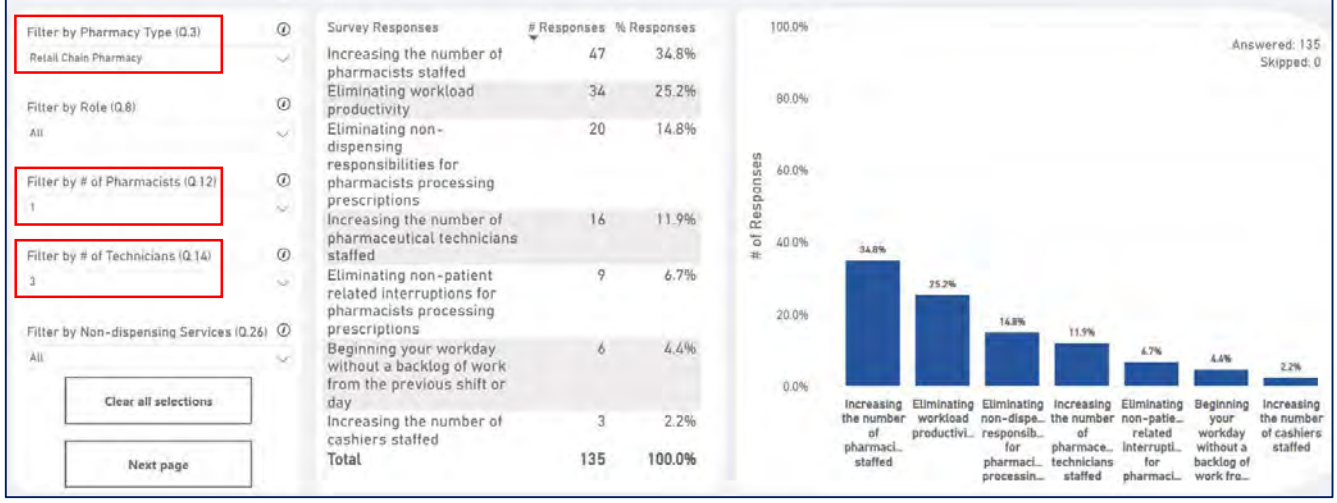
18. If you could choose to add more staff to assist in the demands of the pharmacy to ensure patient care and safety is prioritized, which would you choose?



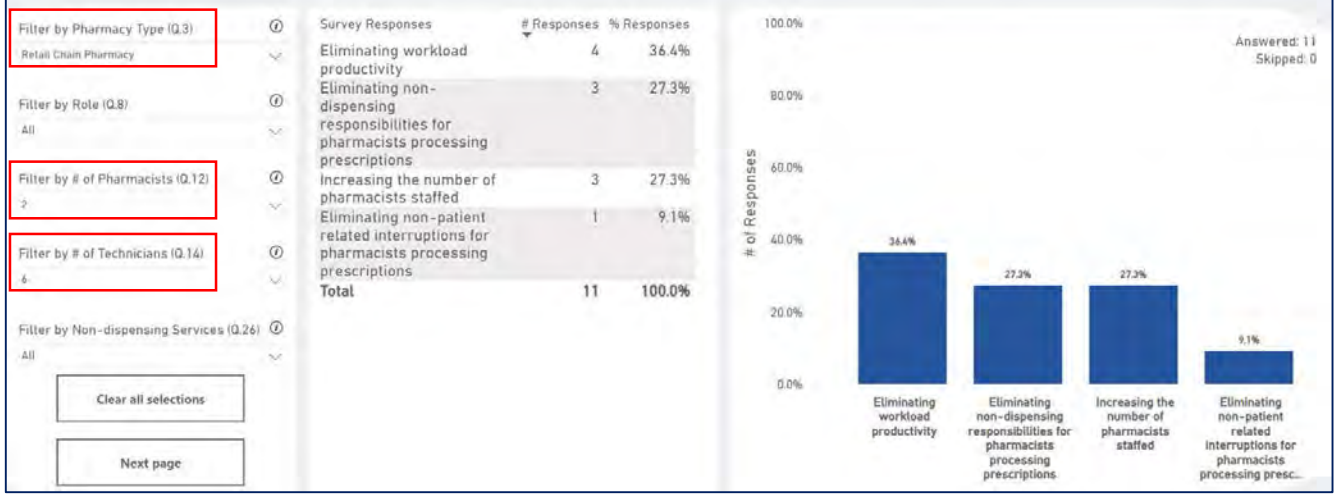
18. If you could choose to add more staff to assist in the demands of the pharmacy to ensure patient care and safety is prioritized, which would you choose?



47.1 The reponses below were ranked as 1 (1 having the most positive impact on patient safety and 7 having the least positive impact on patient safety).

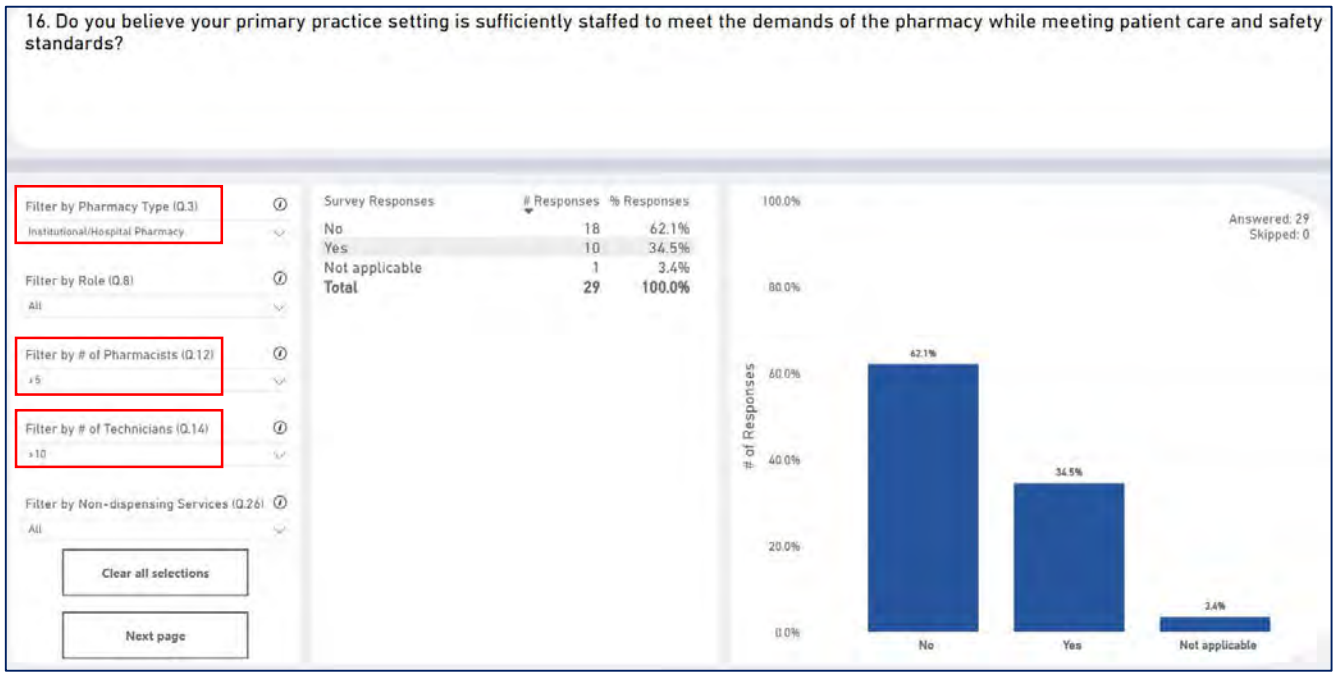


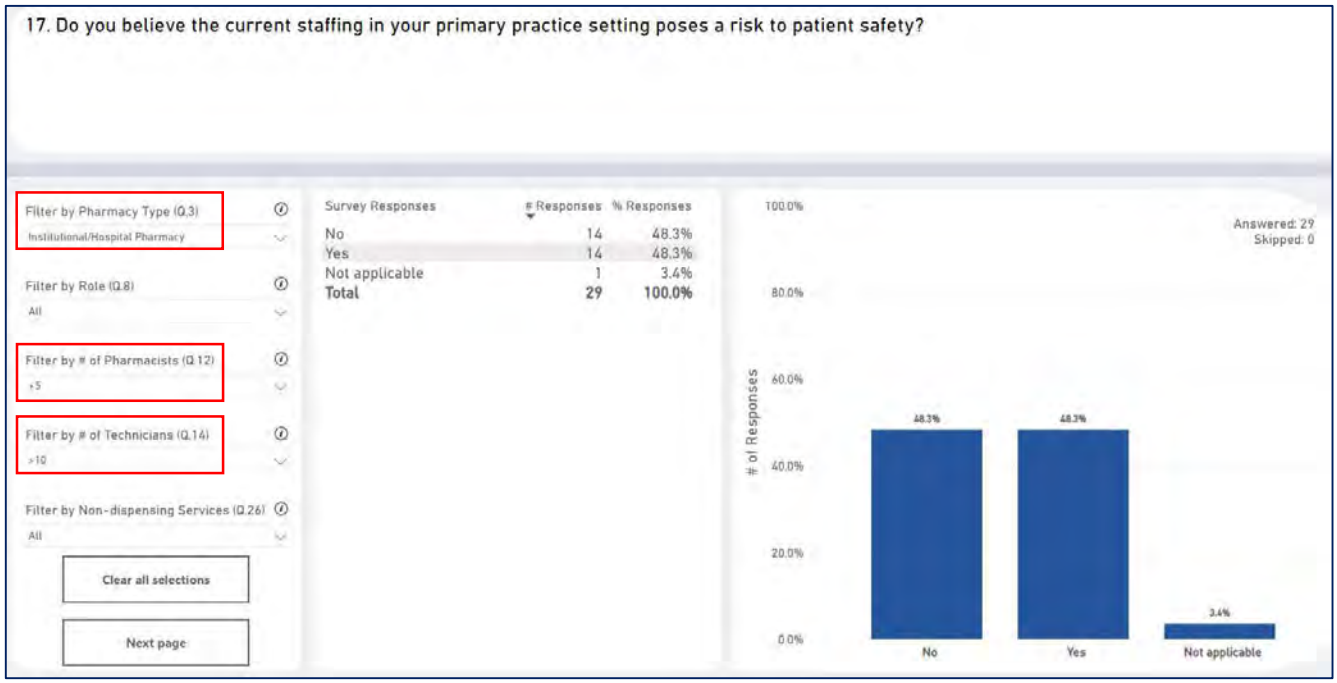
47.1 The reponses below were ranked as 1 (1 having the most positive impact on patient safety and 7 having the least positive impact on patient safety).



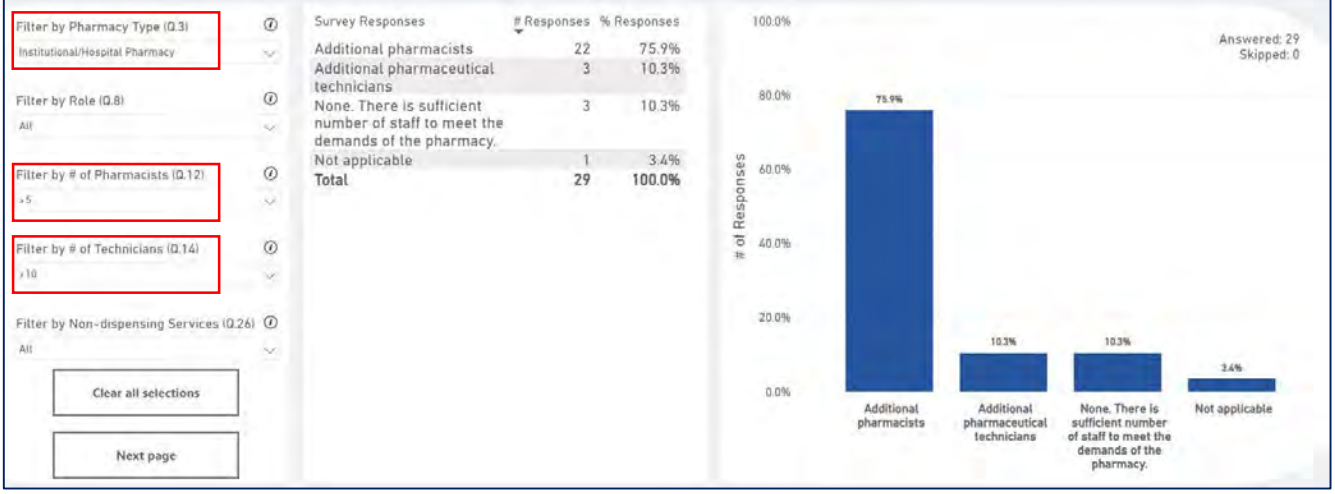
Report 2

This report provides a view to certain survey questions depending on the staffing model in an Institutional/Hospital Pharmacy setting. This report specifically looks at the responses to questions 16, 17, 18 and 47 based on Institutional/Hospital Pharmacies staffed with greater than five (5) pharmacists and greater than ten (10) pharmaceutical technicians. (As a reminder, the results of **question 12** demonstrated that most Institutional/Hospital Pharmacies staff their pharmacy with greater than five (5) pharmacists per shift (36.7% of responses) and the results of **question 14** demonstrated that most Institutional/Hospital Pharmacies staff their pharmacy with greater than ten (10) pharmaceutical technicians per shift.)





18. If you could choose to add more staff to assist in the demands of the pharmacy to ensure patient care and safety is prioritized, which would you choose?



47.1 The reponses below were ranked as 1 (1 having the most positive impact on patient safety and 7 having the least positive impact on patient safety).

PROPOSED REGULATION OF THE

STATE BOARD OF PHARMACY

LCB File No. R052-24

April 1, 2024

EXPLANATION – Matter in ***italics*** is new; matter in brackets **[**~~omitted material~~**]** is material to be omitted.

AUTHORITY: §§ 1 and 2, NRS 639.070.

A REGULATION relating to medical products; making certain provisions governing medical products applicable to certain pressurized stockings; prohibiting a medical products provider or other person from selling, leasing or otherwise providing certain pressurized stockings without an order from a practitioner; requiring a medical products provider or other person to provide certain training concerning any pressurized stocking sold, leased or otherwise provided to a consumer; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the State Board of Pharmacy to adopt regulations governing the storage, handling, sanitation and security of medical devices. (NRS 639.070) Existing regulations prescribe certain requirements applicable to a medical products provider or other person who sells, leases or otherwise provides medical products to a consumer with regard to medical products sold by the medical products provider or other person. (NAC 639.6946, 639.6948-639.6952) Existing regulations provide that pressurized stockings that have a pressure rating of less than 20 millimeters of mercury are not medical products for the purposes of those requirements. Existing regulations thereby exempt a medical products provider or other person from requirements relating to medical products when the provider or other person provides such pressurized stockings. (NAC 639.6935) **Section 1** of this regulation removes that exemption, thereby requiring a medical products provider or other person to comply with those requirements when providing such pressurized stockings.

Existing regulations prohibit the sale, lease or provision to a consumer of a pressurized stocking that has a pressure rating of 20 millimeters of mercury or more without an order from a practitioner. (NAC 639.69545) **Section 2** of this regulation revises this prohibition to instead apply to any pressurized stocking for which such an order is required by the United States Food and Drug Administration or according to the label of the stocking, regardless of its pressure rating.

Existing regulations require a medical products provider or other person who sells, leases or otherwise provides a pressurized stocking to a consumer that has a pressure rating of 20 millimeters of mercury or more to provide certain training concerning the stocking to the

consumer or his or her family, caregiver or agent. (NAC 639.69545) **Section 2** requires such a medical products provider or other person to provide such training when selling, leasing or otherwise providing to a consumer any pressurized stocking, regardless of its pressure rating.

Section 1. NAC 639.6935 is hereby amended to read as follows:

1. "Medical products" includes medical devices, equipment, supplies and gases intended for use in the diagnosis, cure, mitigation, treatment or prevention of disease.

2. The term does not include:

(a) Controlled substances;

(b) Dangerous drugs, except medical gases and supplies that facilitate the use of a dangerous drug, including, without limitation, normal saline and other similar inert liquids; ***or***

(c) Medical devices, equipment, supplies or gases the regulation of which is governed by any other board or agency other than the Board **.** ~~[; and~~

~~(d) Pressurized stockings that have a pressure rating of less than 20 millimeters of mercury.]~~

Sec. 2. NAC 639.69545 is hereby amended to read as follows:

1. A pressurized stocking ~~[that has a pressure rating of 20 millimeters of mercury or more]~~ may not be sold, leased or otherwise provided to a consumer without an order from a practitioner ~~[.]~~ ***if:***

(a) The United States Food and Drug Administration requires the pressurized stocking to be sold only upon a prescription or order of a practitioner; or

(b) The pressurized stocking is labeled in a manner which directs that the pressurized stocking be sold only upon a prescription or order of a practitioner.

2. A medical products provider that sells, leases or otherwise provides to a consumer a pressurized stocking ~~[that has a pressure rating of 20 millimeters of mercury or more]~~ shall provide training to the consumer or the consumer's family, caregiver or agent in the use,

maintenance and potential problems in the use of the stocking. The training must be provided by a person who is certified by the manufacturer of the pressurized stocking in the fitting and use of the stocking.

PROPOSED REGULATION OF THE

STATE BOARD OF PHARMACY

LCB File No. R054-24

April 1, 2024

EXPLANATION – Matter in ***italics*** is new; matter in brackets **[~~omitted material~~]** is material to be omitted.

AUTHORITY: § 1, NRS 453.146, 453.2182 and 639.070.

A REGULATION relating to controlled substances; revising the list of substances contained in schedule I; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the State Board of Pharmacy to adopt regulations to add, delete or reschedule substances listed as controlled substances in schedules I, II, III, IV and V of the Uniform Controlled Substances Act. (NRS 453.146) Existing regulations set forth the drugs and substances that are enumerated in schedule I. (NAC 453.510) This regulation revises the list of drugs and substances contained in schedule I to include: (1) certain fentanyl-related substances; (2) certain hallucinogenic substances which are structurally related to hallucinogenic substances currently contained in schedule I; and (3) tianeptine.

Section 1. NAC 453.510 is hereby amended to read as follows:

453.510 1. Schedule I consists of the drugs and other substances listed in this section by whatever official, common, usual, chemical or trade name designated.

2. Unless specifically excepted or unless listed in another schedule, any of the following opiates, including, without limitation, their isomers, esters, ethers, salts and salts of isomers, esters and ethers, whenever the existence of such isomers, esters, ethers and salts is possible within the specific chemical designation:

Acetyl-alpha-methylfentanyl (N-[1-(1-methyl-2-phenethyl)-4-piperidinyl]-N-phenylacetamide);

Acetylmethadol;

Acryl fentanyl (N-(1-phenethylpiperidin-4-yl)-N-phenylacrylamide) (some trade or other names: acryloylfentanyl);

Allylprodine;

Alphacetylmethadol (except levo-alphacetylmethadol, commonly referred to as levo-alpha-acetylmethadol, levomethadyl acetate or "LAAM");

Alphameprodine;

Alphamethadol;

Alpha'-methyl butyryl fentanyl (2-methyl-N-(1-phenethylpiperidin-4-yl)-N-phenylbutanamide);

Alphamethylfentanyl (N-[1-(alpha-methyl-beta-phenyl)ethyl-4-piperidyl] propionanilide; 1-(1-methyl-2-phenylethyl)-4-(N-propanilido) piperidine);

Alpha-methylthiofentanyl (N-[1-methyl-2-(2-thienyl)ethyl-4-piperidinyl]-N-phenylpropanamide);

Benzethidine;

Betacetylmethadol;

Beta-hydroxyfentanyl (N-[1-(2-hydroxy-2-phenethyl)-4-piperidinyl]-N-phenylpropanamide);

Beta-hydroxy-3-methylfentanyl (other name: N-[1-(2-hydroxy-2-phenethyl)-3-methyl-4-piperidinyl]-N-phenylpropanamide);

Beta-hydroxythiofentanyl (trade or other names: N-[1-[2-hydroxy-2-(thiophen-2-yl)ethyl]piperidin-4-yl]-N-phenylpropionamide; N-[1-[2-hydroxy-2-(2-thienyl)ethyl]-4-piperidinyl]-N-phenylpropanamide);

Betameprodine;

Betamethadol;

Betaprodine;

Butyryl fentanyl (trade or other names: N-(1-phenethylpiperidin-4-yl)-N-phenylbutyramide; N-(1-phenethylpiperidin-4-yl)-N-phenylbutanamide);

Clonitazene;

Cyclopentyl fentanyl (N-(1-phenethylpiperidin-4-yl)-N-phenylcyclopentanecarboxamide);

Cyclopropyl fentanyl (N-(1-phenethylpiperidin-4-yl)-N-phenylcyclopropanecarboxamide);

Dextromoramide;

Diampromide;

Diethylthiambutene;

Difenoxin;

Dimenoxadol;

Dimepheptanol;

2',5'-dimethoxyfentanyl (N-(1-(2,5-dimethoxyphenethyl)piperidin-4-yl)-N-phenylpropionamide)

Dimethylthiambutene;

Dioxaphetyl butyrate;

Dipipanone;

Ethylmethylthiambutene;

Etonitazene;

Etoxeridine;

Eutylone (bk-EBDB, 1-(1,3-Benzodioxol-5-yl)-2-(ethylamino)butan-1-one, b-keto-ethylbenzodioxolylbutanamine);

Fentanyl carbamate (Ethyl-(1-phenethylpiperidin-4-yl)(phenyl)carbamate);

Fluoro furanyl fentanyl;

Fluoroacryl fentanyl;

Fluorobutyryl fentanyl;

Fluorofentanyl (N-(4-fluorophenyl)-N-[1-(2-phenethyl)-4-piperidinyl]propanamide);

Fluoroisobutyryl fentanyl (N-(4-fluorophenyl)-N-(1-phenethylpiperidin-4-yl)isobutyramide);

Furanyl fentanyl (N-(1-phenethylpiperidin-4-yl)-N-phenylfuran-2-carboxamide);

3-Furanyl fentanyl (N-(1-phenethylpiperidin-4-yl)-N-phenylfuran-3-carboxamide);

Furethidine;

Hydroxypethidine;

Isobutyryl fentanyl (N-(1-phenethylpiperidin-4-yl)-N-phenylisobutyramide);

Isotonitazene;

Isovaleryl fentanyl (3-methyl-N-(1-phenethylpiperidin-4-yl)-N-phenylbutanamide);

Ketobemidone;

Levomoramide;

Levophenacylmorphan;

Meta-fluorofentanyl (N-(3-fluorophenyl)-N-(1-phenethylpiperidin-4-yl)propionamide);

Meta-fluoroisobutyryl fentanyl (N-(3-fluorophenyl)-N-(1-phenethylpiperidin-4-yl) isobutyramide);

Methoxyacetyl fentanyl;

Methyl acetyl fentanyl;

Methyl methoxyacetyl fentanyl (some trade or other names: 2-methoxy-N-(2-methylphenyl)-N-(1-phenethylpiperidin-4-yl)acetamide (ortho-methyl methoxyacetylfentanyl; 2-methyl methoxyacetyl fentanyl));

Methylfentanyl;

Methylthiofentanyl;

Morpheridine;

MPPP (1-methyl-4-phenyl-4-propionoxypiperidine);

Noracymethadol;

Norlevorphanol;

Normethadone;

N-(1-(2-fluorophenethyl)piperidin-4-yl)-N-(2-fluorophenyl)propionamide (2'-fluoro ortho-fluorofentanyl; 2'-fluro 2'-fluorofentanyl);

Norpipanone;

Ocfentanil (N-(2-fluorophenyl)-2-methoxy-N-(1-phenethylpiperidin-4-yl)acetamide;

Ortho-fluorofuranyl fentanyl (N-(2-fluorophenyl)-N-(1-phenethylpiperidin-4-yl)furan-2-carboxamide);

Para-chloroisobutyryl fentanyl (N-(4-chlorophenyl)-N-(1-phenethylpiperidin-4-yl)isobutyramide);

Para-fluorobutyryl fentanyl (N-(4-fluorophenyl)-N-(1-phenethylpiperidin-4-yl)butyramide);

Para-methoxybutyryl fentanyl (N-(4-methoxyphenyl)-N-(1-phenethylpiperidin-4-yl)butyramide);

Para-methoxyfuranyl fentanyl (N-(4-methoxyphenyl)-N-(1-phenethylpiperidin-4-yl)furan-2-carboxamide);

Para-methylcyclopropyl fentanyl (N-(4-methylphenyl)-N-(1-phenethylpiperidin-4-yl)cyclopropanecarboxamide);

PEPAP (1-(-2-phenethyl)-4-phenyl-4-acetoxypiperidine);

Phenadoxone;

Phenampromide;

Phenomorphan;

Phenoperidine;

Phenyl fentanyl (some trade or other names: benzoyl fentanyl);

Phenylpropanoyl fentanyl;

Piritramide;

Proheptazine;

Properidine;

Propiram;

Racemoramide;

Tetrahydrofuranyl fentanyl (N-(1-phenethylpiperidin-4-yl)-N-phenyltetrahydrofuran-2-carboxamide);

Thiofentanyl (N-phenyl-N-[1-(2-thienyl)ethyl-4-piperidinyl]-propanamide);

Thiofuranyl fentanyl (some trade or other names: thiophene fentanyl);

Tianeptine;

Tilidine;

Trimeperidine; or

Valeryl fentanyl (N-(1-phenethylpiperidin-4-yl)-N-phenylpentanamide).

3. Unless specifically excepted or unless listed in another schedule, any of the following opium derivatives, including, without limitation, their salts, isomers and salts of isomers, whenever the existence of such salts, isomers and salts of isomers is possible within the specific chemical designation:

Acetorphine;

Acetyl fentanyl;

Acetyldihydrocodeine;

Benzylmorphine;

Codeine methylbromide;

Codeine-N-Oxide;

Cyprenorphine;

Desomorphine;

Dihydromorphine;

Drotebanol;

Etorphine (except hydrochloride salt);

Heroin;

Hydromorphinol;

Methyldesorphine;

Methyldihydromorphine;

Morphine methylbromide;

Morphine methylsulfonate;

Morphine-N-Oxide;

Myrophine;

Nicocodeine;

Nicomorphine;

Normorphine;

Pholcodine; or

Thebacon.

4. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture or preparation which contains any quantity of the following hallucinogenic substances, including, without limitation, their salts, isomers and salts of isomers, whenever the existence of such salts, isomers and salts of isomers is possible within the specific chemical designation:

ADB-BUTINACA (some trade or other names: N-(1-amino-3,3-dimethyl-1-oxobutan-2-yl)-1-butyl-1H-indazole-3-carboxamide;

Adinazolam (some trade or other names: 8-chloro-1-((dimethylamino)methyl)-6-phenyl-4H-s-triazolo(4,3-a)(1,4)benzodiazepine; adinazolamum; Deracyn);

Alpha-ethyltryptamine (some trade or other names: ET, Trip);

Alpha-methyltryptamine (some trade or other names: AMT);

Alpha-PiHP (some trade or other names: 4-methyl-1-phenyl-2-(pyrrolidin-1-yl)pentan-1-one);

Bromazolam (some trade or other names: 8-bromo-1-methyl-6-phenyl-4H[1,2,4]triazolo[4,3-a][1,4]benzodiazepine; XLI-268);

1,4-Butanediol (some trade or other names: 1,4-butyleneglycol, dihydroxybutane, tetramethylene glycol, butane 1,4-diol, SomatoPro, Soma Solutions, Zen);

4-bromo-2,5-dimethoxyamphetamine (some trade or other names: 4-bromo-2,5-dimethoxy-alpha-methylphenethylamine; 4-bromo-2,5-DMA);

4-bromo-2,5-dimethoxyphenethylamine (some trade or other names: Nexus, 2C-B);

1-Butyl-3-(1-naphthoyl)indole-7173 (some trade or other names: JWH-073);

2-(4-Chloro-2,5-dimethoxyphenyl)ethanamine (some trade or other names: 2C-C);

4-(2-chlorophenyl)-2-ethyl-9-methyl-6H-thieno[3,2-f][1,2,4]triazolo[4,3-a][1,4]diazepine (some trade or other names: Etizolam);

Clonazolam (some trade or other names: 6-(2-chlorophenyl)-1-methyl-8-nitro-4H-[1,2,4]triazolo[4,3-a][1,4]benzodiazepine; clonitrazolam);

1-cyclohexylethyl-3-(2-methoxyphenylacetyl)indole (some trade or other names: SR-18; BTM-8; RCS-8);

Diclazepam (some trade or other names: 7-chloro-5-(2-chlorophenyl)-1,3-dihydro-1-methyl-2H-1,4-benzodiazepin-2-one; 7-chloro-5-(2-chlorophenyl)-1-methyl-1,3-dihydro-2H-benzo[e][1,4]diazepin-2-one; 2'-chlorodiazepam; Chlorodiazepam; Ro 5-3448);

2,5-dimethoxyamphetamine (some trade or other names: 2,5-dimethoxy-alpha-methylphenethylamine; 2,5-DMA);

2,5-dimethoxy-4-ethylamphet-amine (some trade or other names: DOET);

2-(2,5-Dimethoxy-4-ethylphenyl)ethanamine (some trade or other names: 2C-E);

2-(2,5-Dimethoxy-4-methylphenyl)ethanamine (some trade or other names: 2C-D);

2-(2,5-Dimethoxy-4-nitro-phenyl)ethanamine (some trade or other names: 2C-N);

2,5-Dimethoxy-N-(2-methoxybenzyl) phenethylamine (NBOMe) and any derivative thereof (some trade or other names: 2C-X-NBOMe; N-benzylated phenethylamines; N-o-methoxybenzyl analogs; NBOMe; 25H-NBOMe; 25B-NBOMe; 25C-NBOMe; 25D-NBOMe; 25E-NBOMe; 25I-NBOMe; 25N-NBOMe; 25P-NBOMe; 25T2-NBOMe; 25T4-NBOMe; 25T7-NBOMe);

2-(2,5-Dimethoxy-4-(n)-propylphenyl)ethanamine (some trade or other names: 2C-P);

2,5-dimethoxy-4-(n)-propylthiophenethylamine (some trade or other names: 2C-T-7);

2-(2,5-Dimethoxyphenyl)ethanamine (some trade or other names: 2C-H);

3-[(2-Dimethylamino)ethyl]-1H-indol-4-yl acetate (some trade or other names: 4-acetoxy-N, N-dimethyltryptamine;4-AcO-DMT; psilacetin; O-acetylpsilocin; 4-acetoxy-DMT);

5-(1,1-Dimethylheptyl)-2-[(1R,3S)-3-hydroxycyclohexyl]-phenol-7297 (some trade or other names: CP-47,497);

5-(1,1-Dimethyloctyl)-2-[(1R,3S)-3-hydroxycyclohexyl]-phenol-7298 (some trade or other names: cannabicyclohexanol; CP-47,497 C8 homologue);

Ethyl 2-(1-(5-fluoropentyl)-1H-indazole-3-carboxamido)-3,3-dimethylbutanoate (some trade or other names: 5F-EDMB-PINACA);

4-ethylnaphthalen-1-yl-(1-pentylindol-3-yl)methanone (some trade or other names: (4-ethyl-1-naphthalenyl)(1-pentyl-1H-indol-3-yl)-methanone; JWH-210);

2-[4-(Ethylthio)-2,5-dimethoxyphenyl]ethanamine (some trade or other names: 2C-T-2);

Flualprazolam (some trade or other names: 8-chloro-6-(2-fluorophenyl)-1-methyl-4H-[1,2,4]triazolo[4,3-a][1,4]benzodiazepine; 8-chloro-6-(2-fluoro-phenyl)-1-methyl-4h-benzo[f][1,2,4]triazolo[4,3-a][1,4]diazepine; 2'-fluoro alprazolam; ortho-fluoro alprazolam);

Flubromazepam (some trade or other names: 7-bromo-5-(2-fluorophenyl)-1,3-dihydro-2H-1,4-benzodiazepin-2-one; 7-Bromo-5-(2-fluorophenyl)-1H-benzo[e][1,4]diazepin-2(3H)-one; 7-bromo-5-(2-fluorophenyl)-1,3-dihydro-1,4-benzodiazepin-2-one);

Flubromazolam (some trade or other names: 8-bromo-6-(2-fluorophenyl)-1-methyl-4H-(1,2,4)triazolo(4,3-a)(1,4)benzodiazepine);

Flunitrazolam (some trade or other names: 6-(2-fluorophenyl)-1-methyl-8-nitro-4H-benzo[f][1,2,4]triazolo[4,3-a][1,4]diazepine);

(1-(4-fluorobenzyl)-1H-indol-3-yl)(2,2,3,3-tetramethylcyclopropyl)methanone (some trade or other names: FUB-144);

2-(1-(4-fluorobenzyl)-1H-indazole-3-carboxamido)-3-methylbutanoate (Some trade or other names: FUB-AMB; MMB-FUBINACA);

[1-(5-fluoropentyl)-1H-indazol-3-yl](naphthalen-1-yl)methanone (some trade or other names: THJ-2201; 5-fluoro THJ 018; AM2201 indazole analog; fluorpentyl JWH-018 indazole);

[1-(5-fluoropentyl)-1H-indol-3-yl]-1-naphthalenyl-methanone (some trade or other names: 1-(5-fluoropentyl)-3-(1-naphthoyl)indole; AM-2201);

[1-(5-fluoropentyl)-1H-indol-3-yl]-(2-iodophyenyl)-methanone (some trade or other names: 1-(5-fluoropentyl)-3-(2-iodobenzoyl)indole; AM-694);

(1-(5-fluoropentyl)-1H-indol-3-yl)(2,2,3,3-tetramethylcyclopropyl)methanone (some trade or other names: XLR-11);

1-(5-fluoropentyl)-N-(2-phenylpropan-2-yl)-1H-indazole-3-carboxamide (some trade or other names: 5F-CUMYL-PINACA; SGT-25);

1-(5-fluoropentyl)-N-(tricyclo[3.3.1.13,7]dec-1-yl)-1H-indazole-3-carboxamide (some trade or other names: N-((3s,5s,7s)-adamantan-1-yl)-1-(5-fluoropentyl)-1H-indazole-3-carboxamide; APINACA 5-fluoropentyl analog; 5F-AKB48; 5-Fluoro-AKB48; 5F-APINACA; 5-Fluoro-APINACA;

1-(5-fluoropentyl)-8-quinolinyl ester-1H-indole-3-carboxylic acid (some trade or other names: 1-(5-fluoropentyl)-1H-indole-3-carboxylic acid 8-quinolinyl ester; 5-Fluoro-PB-22; 5F-PB-22);

Flutoprazepam (some trade or other names: 7-chloro-1-(cyclopropylmethyl)-5-(2-fluorophenyl)-1,3-dihydro-2H-1,4-benzodiazepin-2-one);

2-(4-Iodo-2,5-dimethoxyphenyl)ethanamine (some trade or other names: 2C-I);

2-[4-(Isopropylthio)-2,5-dimethoxyphenyl]ethanamine (some trade or other names: 2C-T-4);

1-hexyl-3-(1-naphthoyl)indole (some trade or other names: JWH-019);

Meclonazepam (some trade or other names: (3S)-5-(2-chlorophenyl)-1,3-dihydro-3-methyl-7-nitro-2H-1,4-benzodiazepin-2-one; Ro 11-3128);

Methoxetamine (some trade or other names: MXE; 2-(3-methoxyphenyl)-2-(ethylamino)cyclohexanone)

3-MMC (some trade or other names: 3-methylmethcathinone; 2-(methylamino)-1-(3-methylphenyl)propan-1-one);

4-methoxyamphetamine (some trade or other names: 4-methoxy-alpha-methylphenethylamine; para-methoxyamphetamine; PMA);

(4-methoxy-1-naphthalenyl)(1-pentyl-1H-indol-3-yl)-methanone (some trade or other names: JWH-081);

5-methoxy-3,4-methylenedioxyamphetamine (some trade or other names: MMDA);

5-methoxy-N, N-diisopropyltryptamine (some trade or other names: 5-meO-DIPT);

4-methyl-2,5-dimethoxyamphetamine (some trade or other names: 4-methyl-2,5-dimethoxy-alpha-methylphenethylamine; “DOM”; “STP”);

(4-methyl-1-naphthalenyl)(1-pentyl-1H-indol-3-yl)-methanone (some trade or other names: JWH-122);

Methyl 2-(1-(5-fluoropentyl)-1H-indazole-3-carboxamido)-3,3-dimethylbutanoate (some trade or other names: 5F-ADB; 5F-MDMB-PINACA);

Methyl 2-(1-(5-fluoropentyl)-1H-indole-3-carboxamido)-3,3-dimethylbutanoate (some trade or other names: 5F-MDMB-PICA);

Methylenedioxyamphetamine (some trade or other names: MDA);

Methylenedioxymethamphetamine (MDMA);

Methylenedioxy-N-ethylamphetamine (commonly referred to as N-ethyl-alpha-methyl-3,4(methylenedioxy) phenethylamine, N-ethyl MDA, MDE, MDEA);

1-[2-(4-Morpholinyl)ethyl]-3-(1-naphthoyl)indole-7200 (some trade or other names: JWH-200);

N-(adamantan-1-yl)-1-(4-fluorobenzyl)-1H-indazole-3-carboxamide (some trade or other names: FUB-AKB48; FUB-APINACA; AKB48 N-(4-fluorobenzyl);

N-(1-adamantyl)-1-pentyl-1H-indazole-3-carboxamide (some trade or other names: 1-pentyl-N-tricyclo[3.3.1.13,7]dec-1-yl-1H-indazole-3-carboxamide; APINACA; AKB48);

N-(1-amino-3,3-dimethyl-1-oxobutan-2-yl)-1-(cyclohexylmethyl)-1H-indazole-3-carboxamide (trade or other names: ADB-CHMINACA; MAB-CHMINACA);

N-(1-amino-3,3-dimethyl-1-oxobutan-2-yl)-1-pentyl-1H-indazole-3-carboxamide (trade or other name: ADB-PINACA);

N-(1-amino-3-methyl-1-oxobutan-2-yl)-1-pentyl-1H-indazole-3-carboxamide (some trade or other names: AB-PINACA);

N-(1-amino-3-methyl-1-oxobutan-2-yl)-1-(4-fluorobenzyl)-1H-indazole-3-carboxamide (trade or other name: AB-FUBINACA);

N-[(1S)-1-(aminocarbonyl)-2-methylpropyl]-1-(cyclohexylmethyl)-1H-indazole-3-carboxamide (trade or other name: AB-CHMINACA);

N-hydroxy-3,4-methylenedioxyamphetamine (commonly referred to as N-hydroxy-alpha-methyl-3,4(methylenedioxy) phenethylamine, N-hydroxy MDA);

2-(2-methoxyphenyl)-1-(1-pentylindol-3-yl)ethanone (some trade or other names: 1-(1-pentyl-1H-indol-3-yl)-2-(2-methoxyphenyl)-ethanone; 1-pentyl-3-(2-methoxyphenylacetyl)indole; JWH-250);

Nifoxipam (some trade or other names: 5-(2-fluorophenyl)-1,3-dihydro-3-hydroxy-7-nitro-2H-1,4-benzodiazepin-2-one; 1,3-Dihydro-5-(2-fluorophenyl)-3-hydroxy-7-nitro-2H-1,4-benzodiazepin-2-one; 3-hydroxydesmethylflunitrazepam; DP 370);

Nitrazolam (some trade or other names: 1-methyl-8-nitro-6-phenyl-4H-[1,2,4]triazolo[4,3-a][1,4]benzodiazepine);

Norflurazepam (some trade or other names: 7-chloro-5-(2-fluorophenyl)-1,3-dihydro-2H-1,4-benzodiazepin-2-one; nor-Flurazepam; N-Desalkylflurazepam; Desalkylflurazepam; Ro 5-3367);

1-Pentyl-3-(2-chlorophenylacetyl)indole (some trade or other names: JWH-203);

1-Pentyl-3-(4-cholor-1-naphthoyl)indole (some trade or other names: JWH-398);

1-Pentyl-3-[(4-methoxy)-benzoyl]indole (some trade or other names: SR-19; BTM-4; RCS-4);

1-Pentyl-3-(1-naphthoyl)indole-7118 (some trade or other names: JWH-018; AM678);

(1-pentylindol-3-yl)-(2,2,3,3-tetramethylcyclopropyl)methanone (some trade or other names: UR-144);

1-pentyl-N-(tricyclo[3.3.1.1^{3,7}]dec-1-yl-1H-indole-3 carboxamide (some trade or other names: APICA; JWH-018 adamantyl carboxamide; 2NE1; SDB-001);

1-pentyl-8-quinolinyl ester-1H-indole-3-carboxylic acid (some trade or other names: 1-pentyl-1H-indole-3-carboxylic acid 8-quinolinyl ester; PB-22; QUPIC);

Phenazepam (some trade or other names: 7-bromo-5-(2-chlorophenyl)-1,3-dihydro-2H-1,4-benzodiazepin-2-one; 7-bromo-5-(2-chlorophenyl)-1,2-dihydro-3H-1,4-benzodiazepin-2-one; BD 98; Fenazepam; Elzepam; Phezipam; Phenorelaxan; Phenzitat);

Pyrazolam (some trade or other names: 8-bromo-1-methyl-6-(2-pyridinyl)-4H-(1,2,4)triazolo(4,3-a)(1,4)benzodiazepine; 8-bromo-1-methyl-6-(pyridin-2-yl)-4H-benzo[f][1,2,4]triazolo[4,3-a][1,4]diazepine; Pirazolam);

3,4,5-trimethoxyamphetamine;

Bufotenine (some trade or other names: 3-(beta-dimethylaminoethyl)-5-hydroxyindole; 3-(2-dimethyl-aminoethyl)-5-indolol; N, N-dimethylserotonin; 5-hydroxy-N, N-dimethyltryptamine; mappine);

Diethyltryptamine (some trade or other names: DET; N,N-Diethyltryptamine);

Dimethyltryptamine (some trade or other names: DMT; N,N-DMT; N,N-Dimethyltryptamine);

Fluorophenylpiperazine (some trade or other names: FPP, pFPP, 2-fluorophenylpiperazine, 3-fluorophenylpiperazine, 4-fluorophenylpiperazine);

Gamma butyrolactone (some trade or other names: GBL, Gamma Buty Lactone, 4-butyrolactone, dihydro-2(3H)-furanone, tetrahydro-2-furanone, Gamma G, GH Gold);

Gamma hydroxy butyric acid (some trade or other names: GHB);

Ibogaine (some trade or other names: 7-ethyl-6, 6 beta, 7, 8, 9, 10, 12, 13-octahydro-2-methoxy-6, 9-methano-5H-pyrido (1',2':1,2) azepino (5,4-b) indole; *Tabernanthe iboga*);

Lysergic acid diethylamide;

Marijuana;

Mescaline;

Methoxyphenylpiperazine (some trade or other names: MeOPP, pMPP, 4-MPP, 2-MeOPP, 3-MeOPP, 4-MeOPP);

Parahexyl (some trade or other names: 3-Hexyl-1-hydroxy-7, 8, 9, 10-tetrahydro-6,6,9-trimethyl-6H-dibenzo[b,d]pyran; Synhexyl);

Peyote (meaning all parts of the plant presently classified botanically as *Lophophora williamsii Lemaire*, whether growing or not, the seeds thereof, any extract from any part of such plant, and every compound, manufacture, salts, derivative, mixture, or preparation of such plant, its seeds or extracts);

N-benzylpiperazine (some trade or other names: BZP, 1-benzylpiperazine);

N-ethyl-3-piperidyl benzilate;

N-methyl-3-piperidyl benzilate;

Psilocybin;

Psilocin;

Salvinorin A (some trade or other names: Divinorin A; Methyl (2S,4aR,6aR,7R,9S,10aS,10bR)-9-(acetyloxy)-2-(furan-3-yl)-6a,10b-dimethyl-4,10-dioxododecahydro-2H-benzo[f]isochromene-7-carboxylate);

Ethylamine analog of phencyclidine (some trade or other names: N-ethyl-1-phenylcyclohexylamine; (1-phenylcyclohexyl) ethylamine; N-(1-phenylcyclohexyl) ethylamine; cyclohexamine; PCE);

Pyrrolidine analog of phencyclidine (some trade or other names: 1-(1-phenylcyclohexyl)-pyrrolidine; PCPy; PHP);

1-(1-(2-thienyl)-cyclohexyl)-pyrrolidine (some trade or other names: TCPy);

Thiophene analog of phencyclidine (some trade or other names: 1-(1-(2-thienyl)-cyclohexyl)-piperidine; 2-thienyl analog of phencyclidine; TPCP; TCP); or

Trifluoromethylphenylpiperazine (some trade or other names: 1-(3-trifluoromethylphenyl)piperazine; 3-trifluoromethylphenylpiperazine; TFMPP).

For the purposes of this subsection, "isomer" includes, without limitation, the optical, position or geometric isomer.

5. All parts of the plant presently classified botanically as *Datura*, whether growing or not, the seeds thereof, any extract from any part of such plant or plants, and every compound, manufacture, salt derivative, mixture or preparation of such plant or plants, its seeds or extracts, unless substances consistent with those found in such plants are present in formulations that the Food and Drug Administration of the United States Department of Health and Human Services has approved for distribution.

6. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture or preparation which contains any quantity of phencyclidine, mecloqualone or methaqualone having a depressant effect on the central nervous system, including, without limitation, their salts, isomers and salts of isomers, whenever the existence of such salts, isomers and salts of isomers is possible within the specific chemical designation.

7. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system, including, without limitation, their salts, isomers and salts of isomers:

Alpha-PBP (some trade or other names: 1-phenyl-2-(pyrrolidin-1-yl)butan-1-one, alpha-pyrrolidinobutiophenone);

Alpha-PVP (some trade or other names: 1-phenyl-2-(1-pyrrolidinyl)-1-pentanone, alpha-pyrrolidinopentiophenone, alpha-pyrrolidinovalerophenone, O-2387);

Alpha-pyrrolidinoheptaphenone (some trade or other names: PV8);

Alpha-pyrrolidinohexanophenone (some trade or other names: alpha-PHP);

Aminorex;

Butylone (some trade or other names: 1-(1,3-benzodioxol-5-yl)-2-(methylamino)butan-1-one, β-keto-N-methylbenzodioxolylpropylamine, bk-MBDB);

Cathinone (some trade or other names: 2-amino-1-phenyl-1-propanone; alpha-aminopropiophenone; 2-aminopropiophenone; norephedrone);

4-chloro-alpha-pyrrolidinovalerophenone (some trade or other names: 4-chloro-a-PVP);

Dimethylone (some trade or other names: 3,4-methylenedioxy-N,Ndimethylcathinone; N,N-dimethyl MDCATH; N,N-dimethyl-3,4- methylenedioxycathinone; N,N-dimethyl-β-keto-3,4-methylenedioxyamphetamine; 1-(1,3-benzodioxol-5-yl)-2-(dimethylamino)propan-1-one; bk-MDDMA);

N-ethylhexedrone;

Ethylone (some trade or other names: N-ethyl-3,4-methylenedioxycathinone; 1-(1,3-benzodioxol-5-yl)-2-(ethylamino)propan-1-one; MDEC; bk-MDEA);

N-ethylpentylone (1-(1,3-benzodioxol-5-yl)-2-ethylamino)-pentan-1-one) (some trade or other names: ephylone);

Fenethylline;

Fluoroamphetamine (some trade or other names: 2-fluoroamphetamine, 3-fluoroamphetamine, 4-fluoroamphetamine, 2-FA, 3-FA, 4-FA, PFA);

Fluoromethcathinone (some trade or other names: 4-Fluoro-N-methylcathinone, 1-(4-fluorophenyl)-2-(methylamino)propan-1-one, 4-Fluoromethcathinone (Flephedrone), 4-FMC, 3-Fluoro-N-methylcathinone, 1-(3-fluorophenyl)-2-2(methylamino)propan-1-one, 3-Fluoromethcathinone, 3-FMC, 2-Fluoro-N-methylcathinone, 1-(2-fluorophenyl)-2-(methylamino)propan-1-one, 2-FMC);

Mephedrone (some trade or other names: Methylmethcathinone, 4-Methylmethcathinone, 4-MMC, 4-Methylephedrone);

Methamphetamine;

Methcathinone (some trade or other names: N-Methylcathinone, cat);

Methedrone (some trade or other names: Methoxymethcathinone, 4-Methoxymethcathinone, bk-PMMA, methoxyphedrine);

4-methyl-alpha-ethylaminopentiophenone (some trade or other names: 4-MEAP);

4'-methyl-alpha-pyrrolidinohexiophenone (some trade or other names: MPHP);

4-methyl-alpha-pyrrolidinopropiophenone (some trade or other names: 1-(4-methylphenyl)-2-(pyrrolidin-1-yl)-propan-1-one, 4-MePPP);

(±)cis-4-methylaminorex ((+)cis-4,5-dihydro-4-methyl-5-phenyl-2-oxazolamine);

Methylenedioxypyrovalerone (some trade or other names: 3,4-Methylenedioxypyrovalerone, MDPV);

Methylethcathinone (some trade or other names: 2-(ethylamino)-1-(4-methylphenyl)propan-1-one, 4-MEC, 4-methyl-N-ethylcathinone);

Methylone (some trade or other names: Methylenedioxy-N-methylcathinone, Methylenedioxymethcathinone, 3,4-Methylenedioxy-N-methylcathinone, bk-MDMA);

N,N-dimethylamphetamine (commonly referred to as N,N-alpha-trimethyl-benzeneethanamine; N,N-alpha-trimethylphenethylamine);

N-ethylamphetamine;

Naphyrone (some trade or other names: 1-(naphthalen-2-yl)-2(pyrrolidin-1-yl)pentan-1-one, naphthylpyrovalerone, naphpyrovalerone, NRG-1, O-2482);

Pentedrone (some trade or other names: 2-(methylamino)-1-phenylpentan-1-one, α-methylaminovalerophenone); or

Pentylone (trade or other names: 1-(1,3-benzodioxol-5-yl)-2-(methylamino)pentan-1-one; beta-keto-methylbenzodioxolylpentanamine; bk-MBDP; bk-methyl-K).

8. Unless specifically listed in another schedule, coca leaves, cocaine base or free base, or a salt, compound, derivative, isomer or preparation thereof which is chemically equivalent or

identical to such substances, and any quantity of material, compound, mixture or preparation which contains coca leaves, cocaine base or cocaine free base or its isomers or any of the salts of cocaine, except decocainized coca leaves or extractions which do not contain cocaine or ecgonine.

9. Unless specifically listed in another schedule, Tetrahydrocannabinols (natural or synthetic equivalents of substances contained in the plant, or in the resinous extractives of Cannabis, sp. or synthetic substances, derivatives and their isomers with similar chemical structure and pharmacological activity such as the following:

Delta 9 cis or trans tetrahydrocannabinol, and their optical isomers, also known as Delta 1 cis or trans tetrahydrocannabinol, and their optical isomers;

Delta 8 cis or trans tetrahydrocannabinol, and their optical isomers, also known as Delta 6 cis or trans tetrahydrocannabinol, and their optical isomers;

Delta 3, 4 cis or trans tetrahydrocannabinol, and its optical isomers;

Tetrahydrocannabinols contained in the genus Cannabis or in the resinous extractives of the genus Cannabis;

Synthetic equivalents of tetrahydrocannabinol substances or synthetic substances, derivatives and their isomers with a similar chemical structure; and

Since nomenclature of these substances is not internationally standardized, compounds of these structures, regardless of numerical designation of atomic positions covered).

10. Unless specifically listed in another schedule and except as otherwise provided in subsection 11, any material, compound, mixture or preparation which contains any quantity of

CBD (natural or synthetic equivalents of the substances contained in the plant or in the resinous extractives of Cannabis sp. or synthetic substances, derivatives and their isomers with similar chemical structure and pharmacological activity).

11. A drug product which:

(a) Has been approved by the United States Food and Drug Administration;

(b) Contains CBD derived from any plant in the genus Cannabis or the resinous extractives thereof; and

(c) Contains not more than 0.1 percent residual THC by weight,

➥ is not a controlled substance.

Alliance for Pharmacy Compounding

Compounding the Joy of Living®

April 9, 2024

Nevada Board of Pharmacy
985 Damonte Ranch Pkwy Ste 206
Reno, NV 89521

Dear members of the Nevada Board of Pharmacy:

I am writing on behalf of the Alliance for Pharmacy Compounding regarding the proposed regulation LCB File No. R100-23. The proposed regulation potentially conflicts with FDA guidance and Nevada law, and clarification is necessary.

Section 7: 1(b) of the proposed regulation states "The compounded drugs are not sold or otherwise provided by the pharmacy or pharmacist to any person other than the ultimate user of the drugs, the agent of the ultimate user of the drugs or a practitioner who will be administering the drugs to a patient." Section 7: 4 states "A pharmacy shall not sell or otherwise provide a compounded drug to a retail pharmacy or a practitioner." It is unclear if these sections are intended to apply to 503B Outsourcing Facilities, which are allowed to wholesale medications to certain entities under Nevada law.

Section 5 of Nevada SB 161, signed into law on June 12, 2023, states "Any person or entity authorized to dispense controlled substances and dangerous drugs, including, without limitation, a pharmacy, institutional pharmacy or practitioner, may: (a) Purchase or otherwise acquire controlled substances and dangerous drugs compounded or repackaged by an outsourcing facility directly from the outsourcing facility without an order from a practitioner."

Furthermore, existing regulations prohibit a pharmacy from providing a compounded drug to a retail pharmacy or practitioner, except under certain circumstances. (NAC 639.757) Section 7 of the proposed regulation eliminates this exception, thereby prohibiting a pharmacy from providing a compounded drug to a retail pharmacy or practitioner in any circumstance. While removal of these provisions is consistent with the Drug Quality and Security Act (DQSA) requirement that compounded medications for office-use only be provided by 503B Outsourcing Facilities for human use, it does not allow for the provision of compounded preparations for office-use by veterinarians.

Surveys conducted by the American Veterinary Medical Association and other associations found that over 90% of veterinarians felt that access to compounded medications for office-use was important or very important to their ability to provide care for their patients. Previous Board regulations allowed veterinarians access to compounded preparations for office-use. Likewise, provision of compounded prescriptions for veterinary office-use is expressly allowed by FDA Guidance for Industry #256, which became effective April 1, 2023.

While several 503B Outsourcing Facilities provide compounded preparations to veterinarians, due to the restraints imposed by cGMP, their offerings are limited to just a few active ingredients, dosage forms and strengths. Because of the cGMP requirement, 503B Outsourcing Facilities lack the flexibility necessary to provide office-use medications for all of the different species and disease states veterinarians encounter. Therefore, we respectfully request the inclusion of a carve-out for 503A

pharmacies to provide compounded medications for veterinary office-use when the drug cannot be sourced from a 503B.

In addition, the terms “sold” and “sell” should be replaced with more precise language. The Food, Drug & Cosmetic Act states that 503A pharmacies can *dispense* medications pursuant to patient-specific prescriptions. 503B outsourcing facilities can *distribute* medications without a patient-specific prescription to healthcare facilities.

For these reasons, we urge you to clarify and update the proposed regulation accordingly.

Thank you for this opportunity to comment on this proposed regulation. Please direct any questions to me at scott@a4pc.org.

Best,

Scott Brunner, CAE
Chief Executive Officer

The Alliance for Pharmacy Compounding is the voice for pharmacy compounding, representing more than 500 compounding small businesses – including compounding pharmacists and technicians in both 503A and 503B settings – as well as prescribers, educators, researchers, and suppliers.

REVISED PROPOSED REGULATION OF THE

STATE BOARD OF PHARMACY

LCB File No. R100-23

March 6, 2024

EXPLANATION – Matter in ***italics*** is new; matter in brackets **[**~~omitted material~~**]** is material to be omitted.

AUTHORITY: §§ 1-9, NRS 639.070.

A REGULATION relating to pharmacy; removing requirements that certain applicants appear before the State Board of Pharmacy and receive certain instructions; revising provisions governing the administration of immunizations by pharmacists; revising provisions governing the transfer of prescriptions by facsimile machine; removing provisions authorizing a pharmacy to sell or otherwise provide a compound drug to a retail pharmacy or practitioner; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the State Board of Pharmacy to adopt regulations governing the practice of pharmacy. (NRS 639.070) Existing regulations require certain applicants for a license to operate a pharmacy in the State of Nevada to appear before the Board in support of the application. (NAC 639.215) **Section 1** of this regulation removes this requirement and instead authorizes the Board to require the same such applicants to appear before the Board in support of the application. Under existing regulations, certain applicants who appear before the Board in support of an application are required to receive instructions relative to the pharmacy laws. (NAC 639.215) **Section 1** removes this requirement.

Existing regulations require certain physician assistants who apply for a registration certificate to prescribe and dispense controlled substances, poisons, dangerous drugs and devices or to prescribe and dispense poisons, dangerous drugs and devices to personally appear before the Board for a determination and an assignment of the specific authority to be granted to the physician assistant. (NAC 639.272) **Section 2** of this regulation removes this requirement and instead authorizes the Board to require the same such physician assistants to personally appear before the Board.

Existing regulations prohibit a physician assistant from writing a prescription in the form of an order on the chart of a patient in a hospital unless the physician assistant: (1) is authorized by the hospital's rules; and (2) has filed a copy of his or her form for prescriptions with the pharmacy of the hospital. Under existing regulations, the form for prescriptions of a physician assistant must be approved by the Board. (NAC 639.283) **Section 3** of this regulation eliminates the requirement that the Board approve this form.

Existing regulations: (1) authorize a physician to establish a written protocol authorizing pharmacists to administer certain immunizations; and (2) require that any such protocol include a

restriction that a pharmacist may not administer an immunization except at an authorized location. (NAC 639.2971) **Section 4** of this regulation removes this requirement.

Existing regulations: (1) authorize a registered pharmacist to apply to the Board to engage in the practice of pharmacy at a site other than a licensed pharmacy; and (2) require the Board to consider any such application at a hearing before the Board. (NAC 639.403, 639.406) **Section 5** of this regulation removes the requirement that the Board hold a hearing to consider such an application and instead authorizes the Board, at its discretion, to hold a hearing on an application.

Existing law requires the Board to adopt regulations concerning the electronic transmission of certain prescriptions by facsimile machine. (NRS 639.0745) Among other requirements, existing regulations authorize a pharmacy to transfer prescriptions by facsimile machine to another pharmacy if the transmission includes certain information. Existing regulations authorize the Board to exempt a pharmacy from this requirement if the Board is satisfied that: (1) the pharmacy's computer system will accurately represent the identity of the pharmacist responsible for the transfer; and (2) the identity of the pharmacist responsible for the transfer cannot be falsified, modified, added or otherwise provided without the knowledge and assent of that pharmacist. (NAC 639.7145) **Section 6** of this regulation removes provisions authorizing the Board to exempt a pharmacy from the requirement that a transmission include certain information. Instead, **section 6** authorizes a pharmacy to transfer prescriptions by facsimile machine to another pharmacy without including certain information if the pharmacy determines that it meets the criteria previously considered by the Board in determining whether to grant an exemption.

Existing regulations prohibit a pharmacy from selling or otherwise providing a compounded drug to a retail pharmacy or practitioner, except under certain circumstances. (NAC 639.757) **Section 7** of this regulation eliminates this exception, thereby prohibiting a pharmacy from selling or otherwise providing a compounded drug to a retail pharmacy or practitioner in any circumstance.

Existing law authorizes an advanced practice registered nurse to prescribe controlled substances, poisons, dangerous drugs and devices if the advanced practice registered nurse obtains a certificate of registration from the Board and meets certain other requirements (NRS 639.2351) Existing regulations authorize the Board to require each advanced practice registered nurse who applies for such a certificate of registration to appear personally before the Board for a determination and an assignment of the specific authority to be granted to the advanced practice registered nurse. (NAC 639.850) **Section 8** of this regulation removes the requirement that an advanced practice registered nurse who applies for such a certificate of registration and is required to appear before the Board must appear personally. **Section 8** also removes certain limitations on the purposes for which the Board may require such an appearance.

Existing law authorizes an advanced practice registered nurse to dispense controlled substances, poisons, dangerous drugs and devices if the advanced practice registered nurse obtains a certificate of registration from the Board and meets certain other requirements. (NRS 639.1375) Existing regulations require certain advanced practice registered nurses who apply for such a certificate of registration and the collaborating physicians of such nurses to appear personally before the Board for a determination and an assignment of the specific authority to be granted to the advanced practice registered nurse. (NAC 639.870) **Section 9** of this regulation removes this requirement and instead authorizes the Board to require the same such advanced practice registered nurses and collaborating physicians to appear before the Board for a

determination and an assignment of the specific authority to be granted to the advanced practice registered nurse.

Section 1. NAC 639.215 is hereby amended to read as follows:

639.215 1. ~~[An]~~ ***The Board may require an*** applicant for a license to operate a pharmacy in the State of Nevada ~~[must]~~ ***to*** appear before the Board in support of the application ~~[and must receive instructions relative to the pharmacy laws if]~~ ***:***

(a) If the applicant:

~~[(a)]~~ ***(1)*** Is applying for a license to operate a pharmacy in this State for the first time;

~~[(b)]~~ ***(2)*** Responded affirmatively to any of the questions on the application regarding his or her character or competency; ***or***

~~[(c)]~~ ***(3)*** Is applying for the licensure of a pharmacy located outside the State that will be shipping compounded parenteral products into this State; or

~~[(d) Is requested to do so by]~~

(b) Any time the Board ~~[.]~~ ***determines an appearance is necessary to evaluate the application.***

2. If an applicant who is required to appear before the Board is:

(a) A partnership, all partners must appear.

(b) A corporation, a designated representative of the corporation must appear. If the designated representative is not an officer of the corporation, a letter authorizing him or her to appear on behalf of the corporation that is signed by an officer of the corporation must be submitted with the application. Documentation of the status of the person signing the letter of authorization must be submitted with the application.

3. If the applicant is a partnership or corporation, the application must be signed by a partner or by an officer of the corporation. Documentation of the status of the person signing the application must be submitted with the application.

4. A special meeting of the Board will not be called for the purpose of considering an application for a license to operate a pharmacy until the applicant has paid the Executive Secretary sufficient money to defray all expenses of the meeting.

Sec. 2. NAC 639.272 is hereby amended to read as follows:

639.272 1. The application of a physician assistant for:

(a) A registration certificate to prescribe controlled substances, poisons, dangerous drugs and devices or to prescribe poisons, dangerous drugs and devices; or

(b) A registration certificate to prescribe and dispense controlled substances, poisons, dangerous drugs and devices or to prescribe and dispense poisons, dangerous drugs and devices,

➥ must be in writing and filed with the Executive Secretary.

2. Each application for a registration certificate to prescribe controlled substances, poisons, dangerous drugs and devices or to prescribe poisons, dangerous drugs and devices must include:

(a) The name, address, social security number and telephone number of the applicant;

(b) A copy of the license issued by the Board of Medical Examiners or certificate issued by the State Board of Osteopathic Medicine that authorizes the applicant to prescribe controlled substances, poisons, dangerous drugs and devices or to prescribe poisons, dangerous drugs and devices;

(c) The name, address and telephone number of the applicant's supervising physician; and

(d) Any other information requested by the Board.

3. Each application for a registration certificate to prescribe and dispense controlled substances, poisons, dangerous drugs and devices or to prescribe and dispense poisons, dangerous drugs and devices must include:

(a) The name, address, social security number and telephone number of the applicant;

(b) A copy of the license issued by the Board of Medical Examiners or certificate issued by the State Board of Osteopathic Medicine that authorizes the applicant to prescribe and dispense controlled substances, poisons, dangerous drugs and devices or to prescribe and dispense poisons, dangerous drugs and devices;

(c) The name, address and telephone number of the applicant's supervising physician; and

(d) Any other information requested by the Board.

4. ~~[Each]~~ ***The Board may require a*** physician assistant who applies for a registration certificate pursuant to subsection 3 ~~[must:~~

~~(a) Personally]~~ ***to personally*** appear before the Board for ***a*** determination and ***an*** assignment of the specific authority to be granted to the physician assistant ~~[if]~~ ***:***

(a) If the physician assistant ~~[:~~

~~(1) Responded]~~ ***responded*** affirmatively to any of the questions on the application regarding his or her character or competency; or

~~[(2) Is requested to do so by]~~

(b) Any time the Board ~~[,]~~ ***determines an appearance is necessary to evaluate the application.***

5. Each applicant who applies for a registration certificate pursuant to subsection 3 must:

(a) Personally appear before the Board if an appearance is required pursuant to subsection 4; and

(b) Pass an examination administered by the Board on the law relating to pharmacy.

~~[5.]~~ ***6.*** Each physician assistant to whom a registration certificate is issued must be registered to a supervising physician.

Sec. 3. NAC 639.283 is hereby amended to read as follows:

639.283 A physician assistant shall not write a prescription in the form of an order on the chart of a patient in a hospital unless the physician assistant is authorized by the hospital's rules and has filed a copy of his or her form for prescriptions with the pharmacy of the hospital. ~~[The form must be approved by the Board.]~~

Sec. 4. NAC 639.2971 is hereby amended to read as follows:

639.2971 1. A physician may establish a written protocol authorizing pharmacists to administer immunizations by an intranasal, intramuscular or subcutaneous injection. Except as otherwise limited by the physician pursuant to subsection 5, any pharmacist who is trained and certified in accordance with NAC 639.2973 may subscribe to the written protocol and administer immunizations in compliance with the protocol. Such a protocol must contain:

(a) The name of the physician who is authorizing the administration of immunizations by a pharmacist;

(b) The immunizations that may be administered by a pharmacist;

(c) Detailed policies and procedures that a pharmacist must follow while administering immunizations, including, without limitation, procedures to follow in the case of adverse reactions or emergencies following administration;

(d) A procedure for the review of the protocol and its operation by the physician at least once annually, and the making and keeping of a record of the review;

(e) When appropriate, specific instructions related to the age of the patient;

(f) Except as otherwise provided in subsections 2 and 3, a restriction that a pharmacist may not delegate his or her authority to administer an immunization;

(g) ~~[A restriction that a pharmacist may not administer an immunization except at an authorized location, which location may not be the home of the patient, unless the patient resides in a licensed facility for long-term care or in a hospital;~~

~~(h)]~~ A requirement that the immunizations will be administered according to all applicable federal, state and local laws; and

~~[(i)]~~ ***(h)*** The signature of the physician authorizing the administration of the immunizations and the time period for which the written protocol is effective.

2. An intern pharmacist may administer immunizations by an intranasal, intramuscular or subcutaneous injection under the direct and immediate supervision of a pharmacist who has subscribed to a written protocol established by a physician.

3. A pharmaceutical technician may administer immunizations by an intranasal, intramuscular or subcutaneous injection under the direct and immediate supervision of a pharmacist who has subscribed to a written protocol established by a physician if the pharmacist has determined, in his or her professional judgment, that the patient should be immunized. A record of each immunization administered by the pharmaceutical technician must be maintained in the manner prescribed by NAC 639.2977.

4. If a physician orders a deviation from the written protocol for the benefit of a specific patient, the physician shall note the deviations from the written protocol in the record of the patient.

5. A physician may include restrictions to a written protocol established by the physician pursuant to subsection 1 by limiting the protocol to any of the following:

(a) A specific pharmacist or pharmacists;

(b) A specific location or locations;

(c) The administration of a specific immunization or immunizations; or

(d) Other limitations as the physician determines necessary.

Sec. 5. NAC 639.406 is hereby amended to read as follows:

639.406 1. ~~[Upon submission of an]~~ ***The Board will consider each*** application ***submitted*** pursuant to NAC 639.403 ~~[, the Board will schedule a hearing before the Board. At the hearing, the Board will consider the application and any other relevant information]~~ to determine whether the practice and services proposed in the application will be provided in a manner that is safe and in the best interests of the health, safety and welfare of the public. ~~[The Board may consider, without limitation, the following factors in]~~ ***In*** determining whether to approve, deny or modify such an application ~~[:]~~ ***, the Board may consider, without limitation, the following factors:***

(a) The information contained in the application;

(b) The education, experience and expertise of the applicant;

(c) The disciplinary history of the applicant, if any; and

(d) Whether the applicant has sufficient malpractice or other liability insurance.

2. At ***its discretion,*** the ***Board may schedule a hearing on an application. At any such*** hearing, the Board ~~[may]~~ ***:***

(a) Will consider the application and any other relevant information; and

(b) May request that the applicant modify his or her application.

3. If the Board approves an application, the Board will provide the applicant with documentation indicating the approval and setting forth the terms and conditions, in addition to

those prescribed by NAC 639.408, under which the applicant may provide the services approved by the Board.

4. If the Board denies an application, the Board will provide the applicant with a written notice of the denial indicating the reasons for the denial and identifying any deficiencies in the application.

Sec. 6. NAC 639.7145 is hereby amended to read as follows:

639.7145 1. Information relating to a prescription may be transferred from a pharmacy to another pharmacy by a facsimile machine pursuant to NAC 639.713 if:

(a) The transmission from the transferring pharmacy:

(1) Includes the information required by subsection 2 of NRS 639.2353, which may be provided in the form of an accurate printout of the pharmacy's computerized record of the prescription; and

(2) Except as otherwise provided in subsection 2, includes:

(I) A copy of the original prescription maintained in the records of the transferring pharmacy on which the pharmacist at the transferring pharmacy has signed the copy and written his or her license number; or

(II) The signature and handwritten license number of the pharmacist at the transferring pharmacy and a notation that specifically indicates that the pharmacist intends to transfer the prescription.

(b) The transmission is prepared and transmitted by a pharmaceutical technician or pharmacist at the transferring pharmacy.

2. A pharmacy may transfer prescriptions by facsimile machine to another pharmacy without complying with the provisions of subparagraph (2) of paragraph (a) of subsection 1 only

~~[upon application to and authorization by the Board. The Board may grant that authority to a pharmacy]~~ if the ~~[Board is satisfied]~~ ***pharmacy determines*** that:

(a) The pharmacy's computer system will accurately represent the identity of the pharmacist responsible for the transfer; and

(b) The identity of the pharmacist responsible for the transfer cannot be falsified, modified, added or otherwise provided without the knowledge and assent of that pharmacist.

3. A pharmacy which maintains its records of prescriptions in a computer system shall invalidate in its system a prescription transferred by a facsimile machine to another pharmacy.

Sec. 7. NAC 639.757 is hereby amended to read as follows:

639.757 1. A pharmacy or pharmacist is not required to obtain a license as a manufacturer to compound drugs if:

(a) The compounded drugs are prepared in a quantity that is:

(1) Necessary to fill a prescription or chart order; or

(2) Reasonably necessary to fill future prescriptions or chart orders based upon the previous history of practitioners and patients who regularly use the pharmacy;

(b) The compounded drugs are not sold or otherwise provided by the pharmacy or pharmacist to any person other than the ultimate user of the drugs, the agent of the ultimate user of the drugs or a practitioner who will be administering the drugs to a patient;

(c) The compounded drugs are dispensed pursuant to a prescription or chart order;

(d) Except as otherwise provided in paragraph (e) and subsection 2, the active ingredients used to compound the drugs:

(1) Have a monograph in and meet or exceed the standards of the *United States Pharmacopoeia - National Formulary*, as adopted by reference in paragraph (c) of subsection 1 of NAC 639.670;

(2) Have been components of drugs approved by the Food and Drug Administration; or

(3) Are authorized to be used in pharmacy compounding pursuant to 21 U.S.C. § 353a(b)(1) or the regulations adopted pursuant thereto; and

(e) Except as otherwise provided in subsection 2, for an active ingredient used to compound the drugs that does not have a monograph in the *United States Pharmacopoeia - National Formulary*, as adopted by reference in paragraph (c) of subsection 1 of NAC 639.670, the active ingredient is:

(1) Prepared by a manufacturer or distributed by a distributor registered with the Food and Drug Administration;

(2) Accompanied by a certificate of analysis provided by the manufacturer or distributor of the ingredient; and

(3) Prepared to a grade that, at a minimum, satisfies the requirements set forth in:

(I) The *Food Chemicals Codex*, as adopted by reference in paragraph (d) of subsection 1 of NAC 639.670; or

(II) *Reagent Chemicals: Specifications and Procedures*, as adopted by reference in paragraph (e) of subsection 1 of NAC 639.670, if the active ingredient is a certified analytical reagent, is for use in high pressure liquid chromatography, is for use in spectrophotometric applications or is a primary standard grade for use in standard solutions for analytical purposes.

2. In compounding a drug product, a pharmacy or pharmacist may use an active ingredient that does not satisfy the requirements of paragraphs (d) and (e) of subsection 1 if the pharmacy

or pharmacist establishes the purity and safety of the ingredient by reasonable means, satisfactory to the Board, which include, without limitation, analysis of the lot in which the ingredient was packaged, the reputation of the manufacturer of the ingredient and the reliability of the source of the ingredient. A pharmacy shall make and maintain a record of the means that the pharmacy relied upon in determining that an ingredient was pure and safe pursuant to this subsection.

3. Except as otherwise provided in this subsection, a pharmacy or pharmacist shall not compound a drug that has been withdrawn or removed from the market because the drug was found to be unsafe or ineffective. A pharmacy or pharmacist may compound a drug for veterinary use that has been withdrawn or removed from the market because the drug was found to be unsafe or ineffective for use in humans if the drug remains available for veterinary use.

4. A pharmacy shall not sell or otherwise provide a compounded drug to a retail pharmacy or a practitioner . ~~[, except that a pharmacy may sell or otherwise provide a compounded drug to:~~

~~(a) A practitioner who will be administering the drug to a patient; or~~

~~(b) A practitioner or another pharmacy if the compounded drug is:~~

~~(1) A highly concentrated drug product that is not commercially available; or~~

~~(2) Needed to fill a particular prescription or chart order in the possession of the receiving pharmacy at the time the receiving pharmacy orders the compounded drug from the compounding pharmacy.~~

~~5. The quantity of a compounded drug that is sold or otherwise provided to a practitioner or pharmacy pursuant to subsection 4 must not exceed the amount necessary for the practitioner or pharmacy to serve the present needs of the patients of the practitioner or pharmacy.]~~

Sec. 8. NAC 639.850 is hereby amended to read as follows:

639.850 1. The application of an advanced practice registered nurse for a certificate of registration to prescribe controlled substances, poisons, dangerous drugs and devices must include:

(a) The name, address, social security number and telephone number of the applicant;

(b) A copy of the certificate issued by the State Board of Nursing which authorizes the applicant to prescribe controlled substances, poisons, dangerous drugs and devices;

(c) The name, address and telephone number of the applicant's collaborating physician, if the applicant is required to have a collaborating physician pursuant to NRS 632.237; and

(d) Any other information requested by the Board.

2. ~~[Each]~~ ***The Board may require an*** advanced practice registered nurse who applies for a certificate of registration ~~[may be required by the Board]~~ to appear ~~[personally]~~ before the Board ***.*** ~~[for a determination and an assignment of the specific authority to be granted to the advanced practice registered nurse.]~~

Sec. 9. NAC 639.870 is hereby amended to read as follows:

639.870 1. The application of an advanced practice registered nurse for a certificate of registration to dispense controlled substances, poisons, dangerous drugs and devices must include:

(a) The name, address, social security number and telephone number of the applicant;

(b) A copy of the certificate issued by the State Board of Nursing which authorizes the applicant to dispense controlled substances, poisons, dangerous drugs and devices;

(c) The name, address and telephone number of the applicant's collaborating physician, if any;

(d) Written verification from the State Board of Nursing that the applicant has passed an examination on Nevada law relating to pharmacy; and

(e) Any other information requested by the Board.

2. Each application for the issuance or the biennial renewal of a certificate of registration must be accompanied by a nonrefundable fee of $300. The biennial certificate of registration covers the period beginning on November 1 of each even-numbered year.

3. ~~[Each]~~ ***The Board may require an*** advanced practice registered nurse who applies for a certificate of registration and his or her collaborating physician, if any, ~~[must]~~ ***to*** appear ~~[personally]~~ before the Board for a determination and an assignment of the specific authority to be granted to the advanced practice registered nurse ~~[if]~~ ***:***

(a) If the advanced practice registered nurse:

~~[(a)]~~ ***(1)*** Will be operating in a practice not previously licensed by the Board; ***or***

~~[(b)]~~ ***(2)*** Responded affirmatively to any of the questions on the application regarding his or her character or competency; or

~~[(c) Is requested to do so by]~~

(b) Any time the Board ~~[,]~~ ***determines an appearance is necessary to evaluate an application.***

4. Each advanced practice registered nurse to whom a certificate of registration is issued must be registered to a collaborating physician unless:

(a) The advanced practice registered nurse is not required to have a collaborating physician pursuant to subsection 3 of NRS 632.237; or

(b) The advanced practice registered nurse will not prescribe any controlled substance listed in schedule II.

5. An advanced practice registered nurse who fails to renew his or her certificate of registration within the time prescribed by statute or regulation must pay, in addition to the fee for renewal required by subsection 2, a fee equal to 50 percent of the fee for the renewal of the certificate.

21D

PROPOSED REGULATION OF THE

STATE BOARD OF PHARMACY

LCB File No. R013-24

February 26, 2024

EXPLANATION – Matter in ***italics*** is new; matter in brackets **[**~~omitted material~~**]** is material to be omitted.

AUTHORITY: §§ 1, 2 and 4-6, NRS 639.070, 639.0727 and 639.074; § 3, NRS 639.070, 639.0727, 639.074 and 639.170.

A REGULATION relating to pharmacy; establishing the procedure for a registered nurse who is engaged in the performance of any public health program approved by the State Board of Pharmacy to obtain a certificate of registration to dispense dangerous drugs; establishing certain duties and limitations of such a registered nurse; prescribing the fees for the issuance and renewal of a certificate authorizing such a registered nurse to dispense dangerous drugs for human consumption; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes a registered nurse to dispense dangerous drugs when the nurse is engaged in the performance of any public health program approved by the State Board of Pharmacy. (NRS 454.215) Existing law authorizes the Board to adopt regulations as may be necessary to ensure that proper and adequate safeguards, including dispensing procedures, are followed to protect a registered nurse who participates in a public health program approved by the Board. (NRS 639.074)

Existing regulations require a practitioner who wishes to dispense controlled substances or dangerous drugs to apply to the Board on an application provided by the Board for a certificate of registration to dispense controlled substances or dangerous drugs. (NAC 639.742) **Section 1** of this regulation similarly requires a registered nurse who participates in a public health program approved by the Board and who wishes to dispense dangerous drugs to apply to the Board on an application provided by the Board for a certificate of registration. **Section 1** also sets forth certain limitations applicable to a registered nurse who is issued such a certificate of registration. **Section 3** of this regulation establishes the fees for the issuance or renewal of such a certificate, which are equal to the fees for the issuance or renewal of a certificate for other types of dispensing practitioners.

Existing regulations require a dispensing practitioner to: (1) counsel patients under certain circumstances; and (2) maintain certain records. (NAC 639.707, 639.708, 639.745) **Section 2** of this regulation includes registered nurses who have been issued a certificate pursuant to **section 1** within the definition of "dispensing practitioner," thereby making those requirements applicable to such a registered nurse.

Sections 4 and 5 of this regulation make conforming changes to ensure that certain provisions of existing regulations are not in conflict with the provisions of **section 1**.

Section 6 of this regulation makes a conforming change relating to the discipline of a dispensing practitioner for a violation of the provisions of **section 1**.

Section 1. Chapter 639 of NAC is hereby amended by adding thereto a new section to read as follows:

1. A registered nurse who wishes to dispense dangerous drugs for human consumption pursuant to subsection 4 of NRS 454.215 must apply to the Board on an application provided by the Board for a certificate of registration to dispense dangerous drugs for human consumption. A certificate of registration issued pursuant to this section:

(a) Entitles the registered nurse to dispense dangerous drugs for human consumption only when he or she is engaged in the performance of any public health program approved by the Board.

(b) Must be renewed at the same time and in the same manner as certificates of registration by other practitioners.

(c) Is a revocable privilege, and no holder of such a certificate of registration acquires any vested right therein or thereunder.

2. The operator of a public health program through which a registered nurse wishes to dispense dangerous drugs for human consumption pursuant to subsection 4 of NRS 454.215 must also submit an application to the Board on a form provided by the Board. The application must include, without limitation, a protocol for accomplishing the objective set forth in subsection 2 of NRS 454.00973. The Board will approve the protocol if:

(a) The applicant submits evidence that the protocol:

(1) Has been developed or approved by the Division of Public and Behavioral Health of the Department of Health and Human Services; or

(2) Has previously been approved by the Board; or

(b) The Board determines that the protocol is designed to accomplish the objective set forth in subsection 2 of NRS 454.00973.

3. A registered nurse who is issued a certificate of registration pursuant to this section shall:

(a) Ensure that all drugs are dispensed only to the patient personally at a facility or vehicle of the public health program;

(b) Comply with all applicable requirements that apply to practitioners who are registered pursuant to NAC 639.742, including, without limitation, requirements concerning labeling, recordkeeping or counseling; and

(c) Dispense drugs only in accordance with the protocol approved pursuant to subsection 2.

4. A registered nurse who is issued a certificate of registration pursuant to this section shall not:

(a) Prescribe a dangerous drug;

(b) Prescribe or dispense a controlled substance;

(c) Compound a drug product;

(d) Employ or use the services of a dispensing technician or supervise a dispensing technician in training; or

(e) Operate a remote site.

5. As used in this section, "public health program" has the meaning ascribed to it in NRS 454.00973.

Sec. 2. NAC 639.010 is hereby amended to read as follows:

639.010 As used in this chapter, unless the context otherwise requires:

1. "Automated drug dispensing system" means a system that performs operations, other than compounding or administration, related to the storage and dispensing of drugs.

2. "Board" means the State Board of Pharmacy.

3. "Controlled substance" has the meaning ascribed to it in NRS 0.031.

4. "Dangerous drug" has the meaning ascribed to it in NRS 454.201.

5. "Direct supervision" means the direction given by a supervising pharmacist or dispensing practitioner who is:

(a) On the premises of the pharmacy or telepharmacy at all times when the person he or she is supervising is working at the pharmacy or telepharmacy or at a remote site or satellite consultation site; and

(b) Aware of the activities of that person related to the preparation and dispensing of medications, including the maintenance of appropriate records.

6. "Dispensing practitioner" means:

(a) A practitioner to whom the Board has issued a certificate of registration pursuant to NAC 639.742 to dispense controlled substances or dangerous drugs, or both, for human consumption; ~~[or]~~

(b) A licensed veterinarian to whom the Board has issued a certificate of registration pursuant to NAC 639.7423 to dispense controlled substances or dangerous drugs, or both, not for human consumption ~~[.]~~ *; or*

(c) A registered nurse to whom the Board has issued a certificate of registration pursuant to section 1 of this regulation to dispense dangerous drugs for human consumption.

7. "Dispensing technician" means a person who performs technical services in a pharmacy under the direct supervision of a dispensing practitioner and is registered with the Board pursuant to NAC 639.7425.

8. "Dispensing technician in training" means a person who is registered with the Board pursuant to NAC 639.7424 in order to obtain the training and experience required to be a dispensing technician pursuant to subparagraph (1) of paragraph (c) of subsection 2 of NAC 639.7425.

9. "Executive Secretary" means the Executive Secretary employed by the Board pursuant to NRS 639.040.

10. "Federally-qualified health center" has the meaning ascribed to it in 42 U.S.C. § 1396d(l)(2)(B).

11. "Federally-qualified health center vehicle" means a vehicle that meets the requirements of paragraph (c) of subsection 1 of NAC 639.7422.

12. "Licensed veterinarian" has the meaning ascribed to it in NRS 638.007.

13. "Oncology group practice" means two or more dispensing practitioners who practice oncology in a group practice.

14. "Pharmaceutical technician" means a person who performs technical services in a pharmacy under the direct supervision of a pharmacist and is registered with the Board pursuant to NAC 639.240.

15. "Pharmaceutical technician in training" means a person who is registered with the Board pursuant to NAC 639.242 in order to obtain the training and experience required to be a

pharmaceutical technician pursuant to subparagraph (3) of paragraph (d) of subsection 2 of NAC 639.240, or who is enrolled in a program of training for pharmaceutical technicians that is approved by the Board.

16. "Practitioner" has the meaning ascribed to it in NRS 639.0125.

17. "Prescription drug" means a drug or medicine as defined in NRS 639.007 which:

(a) May be dispensed only upon a prescription order that is issued by a practitioner; and

(b) Is labeled with the symbol "Rx only" pursuant to federal law or regulation.

18. "Public or nonprofit agency" means a health center as defined in 42 U.S.C. § 254b(a) which:

(a) Provides health care primarily to medically underserved persons in a community;

(b) Is receiving a grant issued pursuant to 42 U.S.C. § 254b or, although qualified to receive such a grant directly from the Federal Government, is receiving money from such a grant under a contract with the recipient of that grant; and

(c) Is not a medical facility as defined in NRS 449.0151.

19. "Reproductive healthcare center" means a health facility owned and operated by a nonprofit corporation or a public health center, as defined in subsection 8 of NRS 449.260, principally engaged in providing family planning services and reproductive healthcare, including, without limitation, the testing, diagnosis and treatment of, or providing of medication to prevent, a sexually transmitted infection or other infection of the urogenital system.

20. "Surgical center for ambulatory patients" has the meaning ascribed to it in NRS 449.019.

21. "User-based access technology" means software or hardware that restricts access to an automated drug dispensing system to authorized users by requiring two-factor authentication.

Authentication factors may include, without limitation, knowledge, hardware tokens or biometric information.

Sec. 3. NAC 639.220 is hereby amended to read as follows:

639.220 1. The Board hereby adopts the following schedule of fees:

For the examination of an applicant for registration as a pharmacist ..... Actual cost of the examination

For the investigation or registration of an applicant as a registered pharmacist..... $200

For the investigation, examination or registration of an applicant as a registered pharmacist by reciprocity..... 200

For the investigation or issuance of an original license to conduct a retail pharmacy 500

For the biennial renewal of a license to conduct a retail pharmacy 500

For the investigation or issuance of an original license to conduct an institutional pharmacy 500

For the biennial renewal of a license to conduct an institutional pharmacy 500

For the investigation or issuance of an original license to conduct a pharmacy in a correctional institution 500

For the biennial renewal of a license to conduct a pharmacy in a correctional institution..... 500

For the investigation or issuance of an original license to conduct a pharmacy in a recovery center or ambulatory surgical center licensed pursuant to chapter 449 of NRS 500

For the biennial renewal of a license to conduct a pharmacy in a recovery center or ambulatory surgical center licensed pursuant to chapter 449 of NRS 500

For the issuance of an original or duplicate certificate of registration as a registered pharmacist 50

For the biennial renewal of registration as a registered pharmacist 200

For the reinstatement of a lapsed registration (in addition to the fees for renewal for the period of lapse) 100

For the initial registration of a pharmaceutical technician, pharmaceutical technician in training, dispensing technician or dispensing technician in training 50

For the biennial renewal of registration of a pharmaceutical technician, pharmaceutical technician in training, dispensing technician or dispensing technician in training 50

For the investigation or registration of an intern pharmacist 40

For the biennial renewal of registration as an intern pharmacist 40

For the investigation or registration of an advanced practice registered nurse or a physician assistant to prescribe drugs that are not controlled substances 80

For the biennial renewal of registration of an advanced practice registered nurse or a physician assistant to prescribe drugs that are not controlled substances 80

For authorization of a physician, advanced practice registered nurse, physician assistant, euthanasia technician, facility for treatment with narcotics, researcher, instructional user or any other authorized person, except a practitioner who is a medical intern or resident physician, to prescribe or possess controlled substances 200

For the biennial renewal of authorization of a physician, advanced practice registered nurse, physician assistant, euthanasia technician, facility for treatment with narcotics, researcher, instructional user or any other authorized person, except a practitioner who is a medical intern or resident physician, to prescribe or possess controlled substances 200

For authorization of a practitioner who is a medical intern or resident physician to prescribe or possess controlled substances 80

For the biennial renewal of authorization of a practitioner who is a medical intern or resident physician to prescribe or possess controlled substances 80

For the investigation or issuance of an original license to engage in business as an authorized warehouse or medical products provider 500

For the biennial renewal of a license to engage in business as an authorized warehouse or medical products provider 500

For the investigation or issuance of an original license to a manufacturer or wholesaler..... 1,000

For the biennial renewal of a license for a manufacturer or wholesaler 1,000

For the reissuance of a license issued to a pharmacy, when no change of ownership is involved, but the license must be reissued because of a change in the information required thereon..... 50

For authorization of a practitioner, other than a licensed veterinarian, to dispense controlled substances or dangerous drugs, or both, for human consumption for each location where the practitioner will dispense controlled substances or dangerous drugs, or both, for human consumption..... 300

For the biennial renewal of authorization of a practitioner, other than a licensed veterinarian, to dispense controlled substances or dangerous drugs, or both, for human consumption for each location where the practitioner will dispense controlled substances or dangerous drugs, or both, for human consumption..... 300

For authorization of a licensed veterinarian to dispense controlled substances or dangerous drugs, or both, not for human consumption..... 150

For the biennial renewal of authorization of a licensed veterinarian to dispense controlled substances or dangerous drugs, or both, not for human consumption..... 150

For authorization of a registered nurse to dispense dangerous drugs for human consumption while engaged in the performance of a public health program approved by the Board..... 300

For the biennial renewal of authorization of a registered nurse to dispense dangerous drugs for human consumption while engaged in the performance of a public health program approved by the Board..... 300

For the investigation or issuance of an original license for an automated drug dispensing system..... 500

For the biennial renewal of a license for an automated drug dispensing system..... 500

For the investigation or issuance of an original license to a pharmacy authorizing the use of a mechanical device to furnish drugs and medications for administration to patients at a medical facility..... 250

For the biennial renewal of a license to a pharmacy authorizing the use of a mechanical device to furnish drugs and medications for administration to patients at a medical facility..... 250

2. The penalty for failure to pay the renewal fee for any license, permit or certificate within the statutory period, as provided in subsection 6 of NRS 639.170, is 50 percent of the renewal fee for each period of delinquency in addition to the renewal fee for each period of delinquency.

3. Any person who has been registered as a pharmacist in this State for at least 50 years is not required to pay the fee for the biennial renewal of a certificate of registration as a registered pharmacist.

4. The provisions of this section concerning the fee for the biennial renewal of the authorization to dispense controlled substances or dangerous drugs do not apply to an advanced practice registered nurse who is required to pay a fee pursuant to NAC 639.870.

5. A practitioner employed by or serving as an independent contractor of a health center:

(a) Which is a federally-qualified health center that provides health care primarily to medically underserved persons in a community; and

(b) Which is not a medical facility as defined in NRS 449.0151,

➥ is not required to pay a fee to the Board for a change of address or for an additional address at which the practitioner dispenses drugs.

6. A practitioner who is exempt from the payment of a fee pursuant to subsection 5 shall notify the Board in writing of each change of address or additional address, or both.

7. In addition to any other fees paid by an applicant for a certificate, license or permit issued pursuant to chapter 639 of NRS, the Board may require that the applicant pay the actual costs of inspection incurred by the Board.

Sec. 4. NAC 639.742 is hereby amended to read as follows:

639.742 1. Except as otherwise provided in NAC 639.7421 and 639.7423 ~~[,]~~ ***and section 1 of this regulation,*** a practitioner who wishes to dispense controlled substances or dangerous drugs, or both, for human consumption must apply to the Board on an application provided by the Board for a certificate of registration to dispense controlled substances or dangerous drugs. A practitioner must submit a separate application for each site of practice, including, without

limitation, a telepharmacy, remote site or satellite consultation site, from which the practitioner wishes to dispense controlled substances or dangerous drugs, or both, for human consumption. A certificate of registration to dispense controlled substances or dangerous drugs, or both, for human consumption is a revocable privilege, and no holder of such a certificate of registration acquires any vested right therein or thereunder.

2. Except as otherwise provided in NAC 639.7421, 639.7422 and 639.7423 ~~[,]~~ ***and section 1 of this regulation,*** if a facility from which the practitioner intends to dispense dangerous drugs or controlled substances, or both, for human consumption is not wholly owned and operated by the practitioner, the owner or owners of the facility must also submit an application to the Board on a form provided by the Board.

3. Except as otherwise provided in this section and NRS 639.23277 and NAC 639.395, 639.648, 639.719 and 639.7423 ~~[,]~~ ***and section 1 of this regulation,*** the dispensing practitioner and, if applicable, the owner or owners of the facility and any federally-qualified health center vehicle, shall ensure that:

(a) All drugs are ordered by the dispensing practitioner;

(b) All drugs are received and accounted for by the dispensing practitioner;

(c) All drugs are stored in a secure, locked room or cabinet to which the dispensing practitioner has the only key or lock combination;

(d) All drugs are dispensed in accordance with NAC 639.745;

(e) No prescription is dispensed to a patient unless the dispensing practitioner is on-site at the facility or federally-qualified health center vehicle, as applicable;

(f) All drugs are dispensed only to the patient personally at the facility or federally-qualified health center vehicle, as applicable;

(g) The price of each drug dispensed to a patient is separately itemized on any bill or statement provided to the patient;

(h) All drugs are dispensed only for medically necessary purposes and according to prevailing standards of care for practitioners practicing in the specialty claimed or practiced by the dispensing practitioner; and

(i) The certificate for each dispensing technician employed at the facility is displayed in the room or cabinet in which drugs are stored.

4. Except as otherwise provided in NAC 639.648, 639.719, 639.7423 and 639.7424 ~~[,]~~ ***and section 1 of this regulation,*** with regard to the filling and dispensing of a prescription at a facility, only the dispensing practitioner or a dispensing technician may:

(a) Enter the room or cabinet in which drugs are stored;

(b) Remove drugs from stock;

(c) Count, pour or reconstitute drugs;

(d) Place drugs into containers;

(e) Produce and affix appropriate labels to containers that contain or will contain drugs;

(f) Fill containers for later use in dispensing drugs; or

(g) Package or repackage drugs.

5. Except as otherwise provided in NAC 639.7423 ~~[,]~~ ***and section 1 of this regulation,*** a dispensing practitioner may compound drug products if he or she complies with the provisions of NAC 639.661 to 639.690, inclusive, as if:

(a) He or she were a pharmacist;

(b) His or her practice site was a pharmacy; and

(c) Any dispensing technician involved in the compounding was a pharmaceutical technician.

6. Except as otherwise provided in subsection 6 of NAC 639.746, the dispensing practitioners of an oncology group practice or a group of practitioners practicing at a reproductive healthcare center registered pursuant to NAC 639.746 are jointly responsible for ensuring that the requirements of subsection 3 are met.

Sec. 5. NAC 639.744 is hereby amended to read as follows:

639.744 ~~[A]~~ ***Except as otherwise provided in section 1 of this regulation, a*** dispensing practitioner may employ more than one dispensing technician at a time, except that only one of those dispensing technicians, including, without limitation, a dispensing technician staffing a remote site or satellite consultation site, may be designated and allowed to perform the functions described in subsection 4 or 5 of NAC 639.742 at one time. A dispensing practitioner shall make and maintain a document on which must be recorded for each day the name of the dispensing technician so designated and allowed to perform the functions described in subsection 4 or 5 of NAC 639.742, and maintain the record for not less than 2 years.

Sec. 6. NAC 639.7445 is hereby amended to read as follows:

639.7445 If a dispensing practitioner allows any person to perform any act in violation of NAC 639.742 to 639.7445, inclusive, ***and section 1 of this regulation,*** the dispensing practitioner is subject to discipline relating to his or her registration as a dispensing practitioner, including, without limitation, the temporary and immediate suspension of his or her registration as a dispensing practitioner until:

1. The violation is remedied; or

2. If an accusation has been made pursuant to NRS 639.241, the Board holds a hearing.

21E

PROPOSED REGULATION OF

THE STATE BOARD OF PHARMACY

LCB File No. R051-24

April 10, 2024

EXPLANATION – Matter in ***italics*** is new; matter in brackets **[**~~omitted material~~**]** is material to be omitted.

AUTHORITY: §§ 1-6, NRS 453.221 and 639.070.

A REGULATION relating to certified registered nurse anesthetists; requiring a certified registered nurse anesthetist to obtain a certificate of registration to order, prescribe, possess and administer controlled substances, poisons, dangerous drugs and devices under certain circumstances; prescribing the procedure and fees for the issuance and renewal of such a certificate; requiring a certified registered nurse anesthetist to notify the State Board of Pharmacy of a change in location of practice; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the State Board of Pharmacy to adopt regulations: (1) relating to the registration and control of the dispensing of controlled substances within this State; and (2) governing the dispensing of poisons, drugs, chemicals and medicines. (NRS 453.221, 639.070) Existing law authorizes a certified registered nurse anesthetist working under the supervision of a physician to order, prescribe, possess and administer controlled substances, poisons, dangerous drugs and devices to treat a patient under the care of a physician in a critical access hospital before, during and after surgery or childbirth. (Section 2.6 of Senate Bill No. 336, chapter 229, Statutes of Nevada 2023, at page 1444)

Section 3 of this regulation prohibits a certified registered nurse anesthetist from ordering, prescribing, possessing and administering controlled substances, poisons, dangerous drugs and devices under such circumstances unless he or she has been issued a certificate of registration by the Board. **Section 3** prescribes: (1) the process for the issuance and renewal of such a certificate; and (2) certain conditions applicable to such a certificate. **Section 6** of this regulation prescribes the fee for the issuance or renewal of such a certificate. **Section 5** of this regulation sets forth the grounds for denial, suspension or revocation of such a certificate.

Section 4 of this regulation requires a certified registered nurse anesthetist to notify the Board of a change in the location of the practice of the certified registered nurse anesthetist not later than 10 days after the change occurs. **Section 2** of this regulation defines "certified registered nurse anesthetist" for purposes of **sections 3, 4 and 5**.

Section 1. Chapter 639 of NAC is hereby amended by adding thereto the provisions set forth as sections 2 to 5, inclusive, of this regulation.

Sec. 2. ***As used in sections 3, 4 and 5 of this regulation, unless the context otherwise requires, "certified registered nurse anesthetist" has the meaning ascribed to it in NRS 632.014, as amended by section 2.8 of Senate Bill No. 336, chapter 229, Statutes of Nevada 2023, at page 1445.***

Sec. 3. ***1. A certified registered nurse anesthetist shall not order, prescribe, possess and administer controlled substances, poisons, dangerous drugs and devices in accordance with paragraph (a) of subsection 1 of section 2.6 of Senate Bill No. 336, chapter 229, Statutes of Nevada 2023, at page 1444, unless he or she holds a certificate of registration issued by the Board.***

2. Each application of a certified registered nurse anesthetist for the issuance or renewal of a certificate of registration to order, prescribe, possess and administer controlled substances, poisons, dangerous drugs and devices in accordance with paragraph (a) of subsection 1 of section 2.6 of Senate Bill No. 336, chapter 229, Statutes of Nevada 2023, at page 1444, must be accompanied by the fee prescribed by NAC 639.220 and include:

(a) The name, address, social security number and telephone number of the applicant;

(b) A copy of his or her:

(1) License as a registered nurse; and

(2) Certificate of registration as a certified registered nurse anesthetist; and

(c) Any other information requested by the Board.

3. The Board may require a certified registered nurse anesthetist who applies for a certificate of registration to appear personally before the Board for a determination and an assignment of the specific authority to be granted to the certified registered nurse anesthetist.

4. Any certificate of registration issued pursuant to this section is a revocable privilege and no holder of such a certificate acquires any vested right therein or thereunder.

5. A certificate of registration issued pursuant to this section must be renewed biennially.

Sec. 4. *A certified registered nurse anesthetist shall notify the Board in writing of a change in the location of the practice of the certified registered nurse anesthetist not later than 10 days after the change occurs.*

Sec. 5. *The Board may deny the application of a certified registered nurse anesthetist for a certificate of registration or suspend or revoke his or her certificate of registration if the certified registered nurse anesthetist:*

1. Is not of good moral character;

2. Is guilty of habitual intemperance;

3. Becomes or is under the influence of liquor, any depressant drug or a controlled substance while on duty, unless the drug or substance has been taken pursuant to a practitioner's prescription;

4. Is guilty of unprofessional conduct or conduct contrary to the public interest;

5. Is addicted to the use of any controlled substance;

6. Has been convicted of a violation of any federal law or law of this or any other state relating to controlled substances;

7. Has been convicted of a felony or other crime involving moral turpitude, dishonesty or corruption;

8. Has willfully made to the Board or its authorized representative any false written statement which is material to the administration or enforcement of any provision of chapter 453, 454 or 639 of NRS;

9. Has obtained a certificate of registration by filing any application, record or affidavit or any information in support thereof, which is false or fraudulent;

10. Has violated any provision of the Federal Food, Drug, and Cosmetic Act or any other state or federal law or regulation relating to prescription drugs;

11. Has failed to renew his or her certificate of registration by failing to pay the renewal fee;

12. Has failed to maintain the security of his or her drug supply;

13. Has supplied patients with prescriptions that are presigned in blank;

14. Has violated section 2.6 of Senate Bill No. 336, chapter 229, Statutes of Nevada 2023, at page 1444, any provision of chapter 453, 454, 585 or 639 of NRS or any regulation pertaining to the practice of pharmacy, controlled substances, dangerous drugs or devices; or

15. Has had his or her license as a registered nurse or certificate of registration as a certified registered nurse anesthetist issued pursuant to chapter 632 of NRS suspended or revoked.

Sec. 6. NAC 639.220 is hereby amended to read as follows:

639.220 1. The Board hereby adopts the following schedule of fees:

For the examination of an applicant for registration as a pharmacist ..... Actual cost of the examination

For the investigation or registration of an applicant as a registered pharmacist.....$200

For the investigation, examination or registration of an applicant as a registered pharmacist by reciprocity.....200

For the investigation or issuance of an original license to conduct a retail pharmacy 500

For the biennial renewal of a license to conduct a retail pharmacy 500

For the investigation or issuance of an original license to conduct an institutional pharmacy 500

For the biennial renewal of a license to conduct an institutional pharmacy 500

For the investigation or issuance of an original license to conduct a pharmacy in a correctional institution 500

For the biennial renewal of a license to conduct a pharmacy in a correctional institution.....500

For the investigation or issuance of an original license to conduct a pharmacy in a recovery center or ambulatory surgical center licensed pursuant to chapter 449 of NRS 500

For the biennial renewal of a license to conduct a pharmacy in a recovery center or ambulatory surgical center licensed pursuant to chapter 449 of NRS 500

For the issuance of an original or duplicate certificate of registration as a registered pharmacist.....50

For the biennial renewal of registration as a registered pharmacist 200

For the reinstatement of a lapsed registration (in addition to the fees for renewal for the period of lapse) 100

For the initial registration of a pharmaceutical technician, pharmaceutical technician in training, dispensing technician or dispensing technician in training 50

For the biennial renewal of registration of a pharmaceutical technician, pharmaceutical technician in training, dispensing technician or dispensing technician in training 50

For the investigation or registration of an intern pharmacist 40

For the biennial renewal of registration as an intern pharmacist 40

For the investigation or registration of an advanced practice registered nurse or a physician assistant to prescribe drugs that are not controlled substances 80

For the biennial renewal of registration of an advanced practice registered nurse or a physician assistant to prescribe drugs that are not controlled substances 80

For authorization of a physician, advanced practice registered nurse, physician assistant, euthanasia technician, researcher, instructional user or any other authorized person, except a practitioner who is a medical intern or resident physician, to prescribe or possess controlled substances 200

For the biennial renewal of authorization of a physician, advanced practice registered nurse, physician assistant, euthanasia technician, researcher, instructional user or any other authorized person, except a practitioner who is a medical intern or resident physician, to prescribe or possess controlled substances.....200

For authorization of a certified registered nurse anesthetist to order, prescribe, possess and administer controlled substances, poisons, dangerous drugs and devices in accordance with paragraph (a) of subsection 1 of section 2.6 of Senate Bill No. 336, chapter 229, Statutes of Nevada 2023, at page 1444 200

For biennial renewal of authorization of a certified registered nurse anesthetist to order, prescribe, possess and administer controlled substances, poisons, dangerous drugs and devices in accordance with paragraph (a) of subsection 1 of section 2.6 of Senate Bill No. 336, chapter 229, Statutes of Nevada 2023, at page 1444.....200

For authorization of a practitioner who is a medical intern or resident physician to prescribe or possess controlled substances 80

For the biennial renewal of authorization of a practitioner who is a medical intern or resident physician to prescribe or possess controlled substances 80

For the investigation or issuance of an original license to engage in business as an authorized warehouse or medical products provider 500

For the biennial renewal of a license to engage in business as an authorized warehouse or medical products provider.....500

For the investigation or issuance of an original license to a manufacturer or wholesaler.....1,000

For the biennial renewal of a license for a manufacturer or wholesaler 1,000

For the reissuance of a license issued to a pharmacy, when no change of ownership is involved, but the license must be reissued because of a change in the information required thereon.....50

For authorization of a practitioner, other than a licensed veterinarian, to dispense controlled substances or dangerous drugs, or both, for human consumption for each location where the practitioner will dispense controlled substances or dangerous drugs, or both, for human consumption.....300

For the biennial renewal of authorization of a practitioner, other than a licensed veterinarian, to dispense controlled substances or dangerous drugs, or both, for human consumption for each location where the practitioner will dispense controlled substances or dangerous drugs, or both, for human consumption.....300

For authorization of a licensed veterinarian to dispense controlled substances or dangerous drugs, or both, not for human consumption.....150

For the biennial renewal of authorization of a licensed veterinarian to dispense controlled substances or dangerous drugs, or both, not for human consumption.....150

For the investigation or issuance of an original license for an automated drug dispensing system.....500

For the biennial renewal of a license for an automated drug dispensing system.....500

For the investigation or issuance of an original license to a pharmacy authorizing the use of a mechanical device to furnish drugs and medications for administration to patients at a medical facility.....250

For the biennial renewal of a license to a pharmacy authorizing the use of a mechanical device to furnish drugs and medications for administration to patients at a medical facility.....250

For the investigation or issuance of an original license for a facility for treatment with narcotics to administer opioid agonist treatment medication.....80

For the biennial renewal of a license for a facility for treatment with narcotics to administer opioid agonist treatment medication.....80

2. The penalty for failure to pay the renewal fee for any license, permit or certificate within the statutory period, as provided in subsection 6 of NRS 639.170, is 50 percent of the renewal fee for each period of delinquency in addition to the renewal fee for each period of delinquency.

3. Any person who has been registered as a pharmacist in this State for at least 50 years is not required to pay the fee for the biennial renewal of a certificate of registration as a registered pharmacist.

4. The provisions of this section concerning the fee for the biennial renewal of the authorization to dispense controlled substances or dangerous drugs do not apply to an advanced practice registered nurse who is required to pay a fee pursuant to NAC 639.870.

5. A practitioner employed by or serving as an independent contractor of a health center:

(a) Which is a federally-qualified health center that provides health care primarily to medically underserved persons in a community; and

(b) Which is not a medical facility as defined in NRS 449.0151,

➥ is not required to pay a fee to the Board for a change of address or for an additional address at which the practitioner dispenses drugs.

6. A practitioner who is exempt from the payment of a fee pursuant to subsection 5 shall notify the Board in writing of each change of address or additional address, or both.

7. In addition to any other fees paid by an applicant for a certificate, license or permit issued pursuant to chapter 639 of NRS, the Board may require that the applicant pay the actual costs of inspection incurred by the Board.
