BEFORE THE STATE BOARD OF PHARMACY

STATE OF COLORADO

Case No. 2019-3775

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE NON-RESIDENT WHOLESALER REGISTRATION IN THE STATE OF COLORADO OF J. KNIPPER AND COMPANY, INC., REGISTRATION NO. WHO-7269,

Respondent Outlet.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and J. Knipper and Company, Inc., ("Respondent Outlet") to resolve all matters pertaining to Board Case Number 2019-3775, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Outlet, its registration as a non-resident wholesaler, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2018).

2. Respondent Outlet was originally registered in the State of Colorado on or about June 20, 2007, being issued registration #WHO-7269, and has been so registered at all times relevant to this disciplinary action.

3. Respondent Outlet's address of record with the Board and current location is 1550 Oak St, Lakewood, NJ 08701.

4. Respondent Outlet admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

5. Respondent Outlet failed to timely submit an application to the Board detailing a change in designated representative and fee. In this case, 189 days transpired between November 13, 2018, the date the previous designated representative ceased the position, and May 21, 2019, the date the application and fee were received.

6. On or about June 3, 2019, the Board initiated a complaint against Respondent Outlet because of the delay of 189 days in submitting an application detailing a change in designated representative and fee.

7. Respondent Outlet's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes and Board Regulations:

Colorado Revised Statutes

12-42.5-123. Unprofessional conduct - grounds for discipline. (1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(II) The lawful rules of the board.

Pharmacy Board Rules and Regulations

15.01.14 Change of name, location, or ownership, or designated representative.

c. Any change in the designated representative of a wholesaler shall be reported to the board on a form supplied by the board within 14 calendar days of such change. The incoming designated representative must undergo the required background check.

8. The Board finds and concludes, and Respondent Outlet agrees, that based upon Respondent Outlet's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances.

TERMS OF DISCIPLINE

9. Fine with Surcharge. Pursuant to section 12-42.5-124(5)(a)(I), C.R.S., Respondent Outlet shall pay a fine of One Thousand Dollars and No Cents ($1,000.00). Respondent Outlet understands and acknowledges that, pursuant to section 24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies may impose an additional surcharge of 15% of this fine. Respondent Outlet shall therefore pay a total amount of One Thousand One Hundred Fifty Dollars and No Cents ($1,150.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Outlet submits this signed Final Agency Order to the Board.

10. **Compliance**. Respondent Outlet shall submit all future applications and appropriate fees to the Board detailing changes in its designated representative within the required time frame specified by Board rule or statute in effect at the time of such designated representative change.

11. **Other Requirements**. Respondent Outlet acknowledges and agrees that, as a condition of this Final Agency Order, Respondent Outlet shall:

    a. promptly pay all Respondent Outlet's own fees and costs associated with this Final Agency Order;

    b. comply fully with this Final Agency Order; and

    c. comply fully with the Pharmacists, Pharmacy Businesses and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

12. **Advisements and Waivers**. Through its undersigned Authorized Representative, Respondent Outlet enters into this Final Agency Order freely and voluntarily, after having the opportunity to consult with legal counsel and/or choosing not to do so. Respondent Outlet acknowledges its understanding that it has the following rights:

    a. to have formal notice of hearing and charges served upon it;

    b. to respond to said formal notice of charges;

    c. to have a formal disciplinary hearing pursuant to sections 12-42.5-123 and 12-42.5-124, C.R.S.; and

    d. to appeal this Final Agency Order.

    Respondent Outlet freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against Respondent Outlet to the sanctions imposed herein.

13. **Acknowledgments**. The undersigned Authorized Representative of Respondent Outlet has read this Final Agency Order in its entirety and acknowledges, after having the opportunity to consult with legal counsel and/or choosing not to do so, that Respondent Outlet understands the legal consequences and agrees that none of the terms or conditions herein is unconscionable. Respondent Outlet is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Outlet further acknowledges that it is not entering into this Final Agency Order under any duress.

14. Violations. Time is of the essence in this Final Agency Order. It is the responsibility of Respondent Outlet to take all appropriate steps to comply fully with this Final Agency Order. Respondent Outlet acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under sections 12-42.5-124(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent Outlet's registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Outlet to comply with all terms and conditions of this Final Agency Order.

15. Integration and Severability. Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

16. Public Record. Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

17. Effective Date. This Final Agency Order shall become effective upon signature by a Board representative.

BEFORE THE STATE BOARD OF PHARMACY

STATE OF COLORADO

Case No. 2019-3775

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE NON-RESIDENT WHOLESALER REGISTRATION IN THE STATE OF COLORADO OF J. KNIPPER AND COMPANY, INC., REGISTRATION NO. WHO-7269,

Respondent Outlet.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and J. Knipper and Company, Inc., ("Respondent Outlet") to resolve all matters pertaining to Board Case Number 2019-3775, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Outlet, its registration as a non-resident wholesaler, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2018).

2. Respondent Outlet was originally registered in the State of Colorado on or about June 20, 2007, being issued registration #WHO-7269, and has been so registered at all times relevant to this disciplinary action.

3. Respondent Outlet's address of record with the Board and current location is 1550 Oak St, Lakewood, NJ 08701.

4. Respondent Outlet admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

5. Respondent Outlet failed to timely submit an application to the Board detailing a change in designated representative and fee. In this case, 189 days transpired between November 13, 2018, the date the previous designated representative ceased the position, and May 21, 2019, the date the application and fee were received.

6. On or about June 3, 2019, the Board initiated a complaint against Respondent Outlet because of the delay of 189 days in submitting an application detailing a change in designated representative and fee.

7. Respondent Outlet's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes and Board Regulations:

Colorado Revised Statutes

12-42.5-123. Unprofessional conduct - grounds for discipline. (1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(II) The lawful rules of the board.

Pharmacy Board Rules and Regulations

15.01.14 Change of name, location, or ownership, or designated representative.

c. Any change in the designated representative of a wholesaler shall be reported to the board on a form supplied by the board within 14 calendar days of such change. The incoming designated representative must undergo the required background check.

8. The Board finds and concludes, and Respondent Outlet agrees, that based upon Respondent Outlet's above-described violations of the Pharmaceuticals and Pharmacists Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances.

TERMS OF DISCIPLINE

9. Fine with Surcharge. Pursuant to section 12-42.5-124(5)(a)(I), C.R.S., Respondent Outlet shall pay a fine of One Thousand Dollars and No Cents ($1,000.00). Respondent Outlet understands and acknowledges that, pursuant to section 24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies may impose an additional surcharge of 15% of this fine. Respondent Outlet shall therefore pay a total amount of One Thousand One Hundred Fifty Dollars and No Cents ($1,150.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Outlet submits this signed Final Agency Order to the Board.

10. Compliance. Respondent Outlet shall submit all future applications and appropriate fees to the Board detailing changes in its designated representative within the required time frame specified by Board rule or statute in effect at the time of such designated representative change.

11. Other Requirements. Respondent Outlet acknowledges and agrees that, as a condition of this Final Agency Order, Respondent Outlet shall:

    a. promptly pay all Respondent Outlet's own fees and costs associated with this Final Agency Order;

    b. comply fully with this Final Agency Order; and

    c. comply fully with the Pharmacists, Pharmacy Businesses and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

12. Advisements and Waivers. Through its undersigned Authorized Representative, Respondent Outlet enters into this Final Agency Order freely and voluntarily, after having the opportunity to consult with legal counsel and/or choosing not to do so. Respondent Outlet acknowledges its understanding that it has the following rights:

    a. to have formal notice of hearing and charges served upon it;

    b. to respond to said formal notice of charges;

    c. to have a formal disciplinary hearing pursuant to sections 12-42.5-123 and 12-42.5-124, C.R.S.; and

    d. to appeal this Final Agency Order.

    Respondent Outlet freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against Respondent Outlet to the sanctions imposed herein.

13. Acknowledgments. The undersigned Authorized Representative of Respondent Outlet has read this Final Agency Order in its entirety and acknowledges, after having the opportunity to consult with legal counsel and/or choosing not to do so, that Respondent Outlet understands the legal consequences and agrees that none of the terms or conditions herein is unconscionable. Respondent Outlet is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Outlet further acknowledges that it is not entering into this Final Agency Order under any duress.

14. Violations. Time is of the essence in this Final Agency Order. It is the responsibility of Respondent Outlet to take all appropriate steps to comply fully with this Final Agency Order. Respondent Outlet acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under sections 12-42.5-124(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent Outlet's registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Outlet to comply with all terms and conditions of this Final Agency Order.

15. Integration and Severability. Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

16. Public Record. Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

17. Effective Date. This Final Agency Order shall become effective upon signature by a Board representative.

AND
PLAN OF MERGER

THIS AGREEMENT AND PLAN OF MERGER, dated as of November 11, 2024 (this "Plan of Merger"), is between Kuehne + Nagel Investment LLC, a New Jersey Limited Liability Company ("Merged LLC"), and Kuehne + Nagel Holdings, Inc., a Delaware corporation ("Surviving Corporation").

W I T N E S S E T H:

WHEREAS, Merged LLC has a single member to wit, the Surviving Corporation; and

WHEREAS, Surviving Corporation is authorized to issue a total of 100 shares of capital stock, consisting of 200 shares of common stock, par value $0.01 per share ("Surviving Corporation Common Stock"), of which, as of the date hereof, 100 shares of Common Stock are issued and outstanding; and

WHEREAS, the sole member and the Managers of the Merged LLC and the Board of Directors of the Surviving Corporation, respectively, approve and deem it advisable that Merged LLC and Surviving Corporation, respectively, consummate the Merger (as defined below).

NOW, THEREFORE, in consideration of the mutual agreements contained in this Plan of Merger, the parties to this Plan of Merger hereby agree that Merged LLC shall be merged (the "Merger") with and into Surviving Corporation in accordance with applicable laws and upon the terms and subject to the conditions set forth as follows:

1. The Merger. At such time agreed between Merged LLC and Surviving Corporation, a certificate of merger evidencing the Merger shall be filed with each of the Office of the Secretary of State of the State of New Jersey pursuant to the Title 42 of the New Jersey Revised Statutes and of the State of Delaware General Corporation Law. The Certificates of Merger shall specify that the Merger shall become effective on December 1, 2024 ("Effective Time"). At the Effective Time, Merged LLC shall be merged with and into Surviving Corporation, and Surviving Corporation shall continue as the surviving corporation. The Surviving Corporation's name shall remain Kuehne + Nagel Holdings, Inc.

2. Certificate of Incorporation and By-laws. The Certificate of Incorporation and By-laws of Surviving Corporation in effect immediately prior to the Effective Time shall be and remain the Certificate of Incorporation and By-laws, respectively, of Surviving Corporation, as the surviving corporation, after the Effective Time, until amended as provided by law.

3. Officers and Directors. From and after the Effective Time, and until they shall have resigned or shall have been legally removed or until their respective successors shall have been elected or appointed and qualified, those persons who are the officers and directors of Surviving Corporation immediately prior to the Effective Time shall be the officers and directors of Surviving Corporation.

4. Effect of the Merger.

4.1 All assets, rights, privileges, immunities, powers, franchises and interests of Merged LLC in and to every type of property (real, personal and mixed) and choses in action, as they exist as of the Effective Time, shall pass and be transferred to and vest in Surviving Corporation, as the surviving corporation, by virtue of the Merger at the Effective Time without any deed, conveyance or other transfer, and all such interests of Surviving Corporation as they exist as of the Effective Time shall remain with Surviving Corporation upon consummation of the Merger. The corporate existence of Surviving Corporation shall continue unaffected and unimpaired upon consummation of the Merger and the separate corporate existence of Merged LLC shall cease at and as of the Effective Time.

4.2 From and after the Effective Time, Surviving Corporation, as the surviving corporation, shall be responsible and liable for all of the liabilities and obligations of Surviving Corporation and Merged LLC existing as of the Effective Time. Any claim existing or action or proceeding pending by or against Surviving Corporation or Merged LLC at the Effective Time may, thereafter, be prosecuted by or against Surviving Corporation, as the surviving corporation, as if the Merger had not taken place or, in connection with any such action or proceeding to which Merged LLC is a party, Surviving Corporation, as the surviving corporation, may be substituted in place of Merged LLC. Neither the rights of creditors nor any liens upon the property of either Surviving Corporation or Merged LLC shall be impaired by reason of the Merger.

5. Effect of Merger on Outstanding Shares.

6. Further Assurances. From time to time after the Effective Time, as and when requested by Surviving Corporation, and to the extent permitted by law, the former managers of Merged LLC and the officers and directors of Surviving Corporation shall execute and deliver such assignments, deeds and other instruments and shall take or cause to be taken such further or other action as shall be necessary in order to consummate the Merger, vest or perfect in or to confirm of record or otherwise to Surviving Corporation, as the surviving corporation, title to, and possession of, all of the assets, rights, privileges, immunities, powers, franchises and interests of Merged LLC and Surviving Corporation in and to every type of property (real, personal and

mixed) and choses in action, and otherwise to carry out the purposes of this Plan of Merger, and the proper officers and directors of Surviving Corporation, as the surviving corporation, are fully authorized to take any and all such action in the name of Merged LLC or Surviving Corporation or otherwise.

7. Termination and Amendment. Prior to the Effective Time, this Plan of Merger may be terminated or amended by the mutual consent of the Managers of Merged LLC and the Board of Directors of Surviving Corporation.

8. Counterparts. This Plan of Merger may be signed in any number of counterparts, each of which shall be deemed an original, and all of which shall be deemed but one and the same instrument.

Final

As previously disclosed by UPS Supply Chain Solution, Inc. (UPS SCS), to your agency in 2010, the Colorado Board of Pharmacy's Stipulation and Final Agency Order ("Colorado Order") was effective October 18, 2010, with regard to UPS SCS's Duluth, GA facility's Colorado Out-of-State Wholesaler License # WHO-7462. UPS SCS's Duluth facility did not file Colorado's required notice of change of Designated Representative within Colorado's required 14-day timeframe to file such notice. UPS SCS implemented corrective actions and has successfully completed the terms of the Colorado order. Please note, UPS SCS's Colorado Out-of-State Wholesaler License # WHO-7462 was not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Colorado Case No. 2011-000273 documentation related to the Colorado Order on file with the UPS SCS Regulatory Affairs Department.

Final

On November 15, 2011, UPS SCS informed your agency of the Iowa Board of Pharmacy's (IBoP) action concerning Iowa Wholesale Drug License #5820 and which became effective November 11, 2011. This Iowa Stipulation and Consent Order (the "Iowa Order") relates to the Colorado Order and the untimely filing of notice regarding the Colorado Order to the IBoP. UPS SCS has successfully completed the terms of the Iowa Order and Iowa Wholesale Drug License #5820 has not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Iowa Case No. 2010-162 documentation on file with the UPS SCS Regulatory Affairs Department. Note: This Iowa matter is a spin-off of the Colorado matter summarized above. UPS SCS dispenses medical devices, including diabetes-related pumps, to consumers from its Kentucky licensed pharmacy facility. Not all states recognize the Durable Medical Equipment or Home Medical Equipment provider category for entities that dispense medical devices rather than drugs. Those states that do not recognize these categories require a non-resident or out of state pharmacy permit for dispensing medical devices. Accordingly, UPS SCS obtained a home-state pharmacy permit in Kentucky and numerous non-resident pharmacy permits and DME/HME permits in other states. On September 12, 2012, the Kentucky Board of Pharmacy ("KYBoP") and UPS SCS executed final Agreed Orders relating to minor violations under Kentucky Administrative Regulations 2:270 and Kentucky Revised Statutes Sec. 315.121(6) in connection with late filing of pharmacy technician registrations at UPS SCS's Louisville, Kentucky facility (the "Kentucky Orders"). UPS SCS and the KYBoP agreed to address the Kentucky Orders informally by entering in the aforementioned Agreed Orders in lieu of the KYBoP filing a formal complaint. UPS SCS self-reported this action to your agency on September 18, 2012. UPS SCS takes this and all regulatory matters seriously and has implemented corrective action. Moreover, UPS SCS has instituted internal safeguards to ensure that applicable regulatory compliance is maintained in the future. UPS SCS's Kentucky pharmacy license (Kentucky Pharmacy License #P07277) remains current and in good standing and was not and has not been restricted, modified, revoked, or limited in any way.

Final

On May 14, 2013, UPS SCS informed your agency of the Texas Board of Pharmacy's (TXBoP) action concerning UPS SCS Texas Class E Nonresident Pharmacy License #26160 and which became effective May 7, 2013. As already disclosed to you, on May 14, 2013, the Texas Board of Pharmacy (TXBoP) and UPS SCS executed a final Agreed Board Order (the "Texas Order") relating to the above-mentioned Kentucky Pharmacy License Agreed Orders. Pursuant to the Texas Agreed Board Order, the TXBoP reprimanded UPS SCS's Nonresident Pharmacy License. The Texas Board of Pharmacy did not levy a fine or any other penalty on the License. The License was not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Texas Agreed Board Order # L-13-004 on file with the UPS SCS Regulatory Affairs Department. Note: The Texas Order is directly related to the Kentucky pharmacy license matter summarized above. It is based on the same underlying facts that gave rise to the Kentucky matter. It is **not** based on an independent set of facts.

Final

On April 22, 2014, UPS SCS informed your agency of the Consent Order and Stipulation between the Michigan Board of Pharmacy (BOP) and UPS SCS based on the Kentucky Order summarized above, which was adopted by the Michigan BOP on April 9, 2014 (the "Michigan Order"). As previously disclosed to you, pursuant to this Consent Order, UPS SCS paid a fine of two hundred fifty dollars. The Consent Order and Stipulation specifically provided that "no patient safety issues were involved," and the BOP did not impose any other penalty. UPS SCS's Michigan licenses have not been restricted, modified, revoked, or limited in any way. Note: The Michigan Order is directly related to the Kentucky matter summarized above. It is based on the same underlying facts that gave rise to the Kentucky matter. It is not based on an independent set of facts.

Re: Third Party Logistics Providers

Per H.R. 3204, DQSA, Uniform National Policy, Sec. 585 (b)(2) New Jersey does not regulate third-party logistics providers as wholesale distributors. To qualify for a wholesale drug or medical device registration, a facility must conduct regulated wholesale distribution or manufacturing activity as defined in N.J.A.C. 8:21-3A.3, therefore New Jersey does not issue or require registration of third party logistics providers.

WHOLESALE LICENSE

Matters Related to Colorado Order
1645 Satellite Blvd, Duluth, GA

Final
As previously disclosed by UPS Supply Chain Solution, Inc. (UPS SCS), to your agency in 2010, the Colorado Board of Pharmacy's Stipulation and Final Agency Order ("Colorado Order") was effective October 18, 2010, with regard to UPS SCS's Duluth, GA facility's Colorado Out-of-State Wholesaler License # WHO-7462. UPS SCS's Duluth facility did not file Colorado's required notice of change of Designated Representative within Colorado's required 14-day timeframe to file such notice. UPS SCS implemented corrective actions and has successfully completed the terms of the Colorado order. Please note, UPS SCS's Colorado Out-of-State Wholesaler License # WHO-7462 was not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Colorado Case No. 2011-000273 documentation related to the Colorado Order on file with the UPS SCS Regulatory Affairs Department.

Final
On November 15, 2011, UPS SCS informed your agency of the Iowa Board of Pharmacy's (IBoP) action concerning Iowa Wholesale Drug License #5820 and which became effective November 11, 2011. This Iowa Stipulation and Consent Order (the "Iowa Order") relates to the Colorado Order and the untimely filing of notice regarding the Colorado Order to the IBoP. UPS SCS has successfully completed the terms of the Iowa Order and Iowa Wholesale Drug License #5820 has not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Iowa Case No. 2010-162 documentation on file with the UPS SCS Regulatory Affairs Department. Note: This Iowa matter is a spin-off of the Colorado matter summarized above. It is based on the same underlying facts that gave rise to the Colorado matter. It is **not** based on an independent set of facts.

Final
On October 18, 2013, UPS SCS informed your agency of the Consent Order and Stipulation between the Michigan Board of Pharmacy (BOP) and UPS SCS based on the underlying Colorado matter summarized above, which was executed by the Michigan BOP on October 9, 2013 (the "Michigan Order"). As previously disclosed to you, pursuant to this Consent Order, UPS SCS paid a fine of two thousand five hundred dollars. The Consent Order and Stipulation specifically provided that "no patient safety issues were involved," and the BOP did not impose any other penalty. UPS SCS's Michigan licenses have not been restricted, modified, revoked, or limited in any way. Note: The Michigan Order is directly related to the Colorado matter summarized above. It is based on the same underlying facts that gave rise to the Colorado matter. It is not based on an independent set of facts.

PHARMACY LICENSE

Matters Related to Kentucky Agreed Orders
1860 Outer Loop Road, Louisville, KY

Final

UPS SCS dispenses medical devices, including diabetes-related pumps, to consumers from its Kentucky licensed pharmacy facility. Not all states recognize the Durable Medical Equipment or Home Medical Equipment provider category for entities that dispense medical devices rather than drugs. Those states that do not recognize these categories require a non-resident or out of state pharmacy permit for dispensing medical devices. Accordingly, UPS SCS obtained a home-state pharmacy permit in Kentucky and numerous non-resident pharmacy permits and DME/HME permits in other states. On September 12, 2012, the Kentucky Board of Pharmacy ("KYBoP") and UPS SCS executed final Agreed Orders relating to minor violations under Kentucky Administrative Regulations 2:270 and Kentucky Revised Statutes Sec. 315.121(6) in connection with late filing of pharmacy technician registrations at UPS SCS's Louisville, Kentucky facility (the "Kentucky Orders"). UPS SCS and the KYBoP agreed to address the Kentucky Orders informally by entering in the aforementioned Agreed Orders in lieu of the KYBoP filing a formal complaint. UPS SCS self-reported this action to your agency on September 18, 2012. UPS SCS takes this and all regulatory matters seriously and has implemented corrective action. Moreover, UPS SCS has instituted internal safeguards to ensure that applicable regulatory compliance is maintained in the future. UPS SCS's Kentucky pharmacy license (Kentucky Pharmacy License #P07277) remains current and in good standing and was not and has not been restricted, modified, revoked, or limited in any way.

Final

On May 14, 2013, UPS SCS informed your agency of the Texas Board of Pharmacy's (TXBoP) action concerning UPS SCS Texas Class E Nonresident Pharmacy License #26160 and which became effective May 7, 2013. As already disclosed to you, on May 14, 2013, the Texas Board of Pharmacy (TXBoP) and UPS SCS executed a final Agreed Board Order (the "Texas Order") relating to the above-mentioned Kentucky Pharmacy License Agreed Orders. Pursuant to the Texas Agreed Board Order, the TXBoP reprimanded UPS SCS's Nonresident Pharmacy License. The Texas Board of Pharmacy did not levy a fine or any other penalty on the License. The License was not and is not restricted, modified, revoked or limited in any way. UPS SCS has a copy of the Texas Agreed Board Order # L-13-004 on file with the UPS SCS Regulatory Affairs Department. Note: The Texas Order is directly related to the Kentucky pharmacy license matter summarized above. It is based on the same underlying facts that gave rise to the Kentucky matter. It is **not** based on an independent set of facts.

Final

On April 22, 2014, UPS SCS informed your agency of the Consent Order and Stipulation between the Michigan Board of Pharmacy (BOP) and UPS SCS based on the Kentucky Order summarized above, which was adopted by the Michigan BOP on April 9, 2014 (the "Michigan Order"). As previously disclosed to you, pursuant to this Consent Order, UPS SCS paid a fine of two hundred fifty dollars. The Consent Order and Stipulation specifically provided that "no patient safety issues were involved," and the BOP did not impose any other penalty. UPS SCS's Michigan licenses have not been restricted, modified, revoked, or limited in any way. Note: The Michigan Order is directly related to the Kentucky matter summarized above. It is based on the same underlying facts that gave rise to the Kentucky matter. It is not based on an independent set of facts.

Respondent is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent further acknowledges that it is not entering into this Final Agency Order under any duress.

13. **Violations.** Time is of the essence in this Final Agency Order. It is the responsibility of Respondent to take all appropriate steps to comply fully with this Final Agency Order. Respondent acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent's registration. Provide explanation below:

Regarding an arrest in 2006 related to traffic violations, specifically operating a motor vehicle that was not insured, not registered, and while my driver's license was suspended due to failure to attend traffic school.

At the time, I made a series of poor decisions regarding my responsibilities as a driver. My license had been suspended due to missed school for prior traffic citations, and unfortunately, I did not take the necessary steps to resolve the situation in a timely manner. Additionally, the vehicle I was operating was not properly registered or insured, which further compounded the issue.

Since then, all obligations and fines have been resolved, and my driver's license has been fully restored.

7. What is your procedure for visual inspection of compounded sterile products?

Each compounded sterile product undergoes a thorough visual inspection under appropriate lighting to check for particulate matter, discoloration, and container integrity. Any discrepancies are documented, and the product is quarantined until further evaluation.

8. How often do you perform glove fingertip and medial fill testing?

Glove fingertip testing is conducted initially during training and semi-annually thereafter. Media-fill testing is performed semi-annually, however we also perform these testings as needed

9. What is your policy if an employee fails a glove fingertip or media-fill test?

If an employee fails a glove fingertip or media-fill test, they are immediately removed from compounding duties. The individual undergoes retraining in aseptic techniques, followed by re-evaluation and testing. Compounding privileges are reinstated only upon successful completion of these steps.

10. Describe your initial and annual training program for all personnel performing sterile compounding:

Initial Training:
Comprehensive education on USP <797> guidelines, aseptic techniques, and facility protocols.
Hands-on training in gowning, gloving, and compounding procedures.
Initial competency assessments, including written tests and practical evaluations.

Annual Training:
Refresher courses on aseptic techniques and updated protocols.
Annual competency assessments to ensure ongoing proficiency.

11. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

Primary Engineering Controls (PECs):
Cleaned at the beginning of each shift, before each batch, and every 30 minutes during continuous compounding using sterile 70% Isopropyl Alcohol (IPA).

Secondary Engineering Controls (SECs):
Daily: Work surfaces and floors are cleaned with a disinfectant solution.
Monthly: Walls, ceilings, and storage shelving are cleaned with a sporicidal agent to prevent microbial contamination.

12. Who performs the sterile compounding process at your facility?

Licensed pharmacists and trained pharmacy technicians who have demonstrated competency in sterile compounding procedures.

13. Who is responsible and accountable for the sterile compounding process at your facility?

The Pharmacist-in-Charge (PIC) holds ultimate responsibility for the sterile compounding process, ensuring compliance with all regulatory standards and overseeing staff performance.

14. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

Compounded sterile products are shipped using temperature-controlled packaging with ice packs to maintain required storage conditions. Shipments are scheulded for overnight delivery to minimize the duration of transport.

Table 1

Process	Package	Quantity Distributed per Unit	Maximum Time Compounder will Spend Dosing Drug	Number of Units Produced
Media fill #1	10 mL clear glass vials, 250 vials with round stoppers 2 Controls	10 mL	4 hours	2.5 Liter Batch (yield approx. 250 units)

a) Preparation:

i) Compound the drug according to this SOP. Prior to starting compound, obtain a media fill form.

ii) Each person completing a media fill must notify management and ensure a pharmacist or designated technician is available for direct observation.

iii) Record all lot numbers, expiration dates, manufacturers and quantity used for each item in this media fill on the form.

iv) Alchemist Pharma technicians do not take breaks during a compounding run; however, there may be a need to change gloves.

v) The media fill shall be performed for the specified duration of time or until the given number of units is obtained to represent worst case scenario.

vi) Cleaning and disinfecting observation record must accompany each media fill form.

b) Media Fill with Post-GFT and Surface Sampling:

Surface sampling in the DCA must be conducted in conjunction with media-fill testing to assess aseptic manipulation competency. surface sampling should be performed at the end of a compounding activity but before the area has been cleaned and disinfected.

i) Procedures

(1) Take contact plate samples of the ISO 5 hood working surface at the completion of the media fill with a TSA+ and MEA+ contact plate.

(2) Contact plates shall be taken in the DCA for all personnel dependent media fills.

(3) Take TSA+ contact plate samples of compounders both right and left gloves at the end of media fill.

(4) Incubate TSA+ for 3-5 days at 30° – 35°C.Incubate MEA+ plates for 5-7 days at 20° - 25°C.

ii) Interpretation

(1) The action level for gloved fingertip and thumb sampling after media-fill testing is more than 3 CFU total count from both hands.

(2) Successful completion of the gloved fingertip and thumb sampling after media-fill testing is defined as ≤3 cfu as a total from both hands.

(3) Successful completion of DCA sampling after media-fill testing is defined as ≤3 cfu per media device.

c) Media Fill Details:

i) Procedures

(1) Weigh out required Soybean Casein Digest powder.

(2) In a 5 Liter beaker with a spin bar, add powder and sterile water geometrically.

(3) Mix well and let Soybean Casein powder completely dissolve into sterile water.

(4) Set up a Baxter repeater pump with sterile tubing.

(5) Dispense 2 control vials with no filtration as a control vial to confirm growth of media.

(6) Attach appropriate size 0.2-micron filter and filter remaining TSB broth into sterile bag.

(7) Set up Baxter pump and dose total desired volume amount of TSB bag into sterile 10mL clear vials.

(8) Dose 10mL into 250 clear sterile depyrogenated vials.

(9) During the filling process, a pharmacist will do in process volume check to make sure proper volume is dosed.

(10) Use tweezers to stopper the vials.

(11) Cap all 250 vials.

ii) Microbial Analysis:

(1) Incubate samples at 20°C to 25° for seven days, observe and document any growth.

(2) Transfer samples to 30° to 35°C and incubate for seven days.

(3) Failure is indicated by visible turbidity in the medium on or before the total 14 days.

iii) Interpretation:

(1) All units must be sterile.

(2) If any unit has growth, compounder must repeat media fill and cannot sterile compound until a passed media fill is achieved.

(3) Take appropriate corrective and preventive action.

d) Frequency:

i) CSP Category 1 and Category 2:

Media fill test will be done every 6 months.

ii) For category 3 CSP:

Media fill test will be done every 3 months.

RESPONSIBILITIES:

Any compounding pharmacist or technician who will compound and package drug product in the media fill listed must successfully perform this media fill.

The pharmacist must assign compounding responsibilities only to those pharmacy technicians who have passed the requisite media fill.

It is the responsibility of the compounding technician to follow this procedure.

Title: Cleaning and Disinfecting of Clean Room Compounding Areas		
Effective Date:	**Supersedes**	**Page:** Page **1** of **5**
Author: Ahmad Zaiter Pharmacist	**Revised by:** ----------	**Approved by:** Ahmad Zaiter Pharmacist

PURPOSE:

The purpose of this standard operating procedure is to establish appropriate procedure for cleaning and disinfecting sterile compounding areas.

EQUIPMENT AND SUPPLIES

A. Quick Clean Mopping System
B. Disposable mop heads and covers.
C. Lint free wipes (single use)
D. Sticky Mop Roller
E. Sterile 70% IPA
F. Sterile Peridox RTU or sporicidal equivalent

PROCEDURE:

1. **Clean Room Start Up and Cleaning**

   a. Generously spray all horizontal work surfaces in all sterile compounding rooms with sterile 70% IPA. Spray all surfaces and sterile lint free wipe, wipe in a top to bottom, side to side motion. Do not overlap strokes. Allow 30 seconds to dry.

b. Generously spray working surface of cleanroom. Allow 30 seconds to pass and wipe from the back to front in a side-to-side motion with a lint free wipe. Do not overlap strokes.

2. **In Process Cleaning:**

a. At the conclusion of each drug compounding, clear the hood of all previous product and packaging components.

b. Generously spray the work surface area with sterile 70% IPA and allow contact time for at least 60 seconds.

c. Wipe with a lint free wipe top/ceiling from the back of the hood towards the front in a straight parallel motion without overlapping strokes. Then clean the sides followed by countertop of hood in same motion.

d. Spray work surfaces with IPA during production any time a spill has occurred or frequently during the compounding process.

e. When compounding hazardous in BSC-1 and/or powder hood at the conclusion of each drug compounding, clear hood of all previous product and packaging components then cleans with Peridox RTU or sporicidal equivalent (contact time based on respective manufacturer guidelines), if using Peridox RTU the contact time is 10 minutes before following up with sterile 70% IPA (60 seconds contact time) wipe down.

f. Turn the Laminar Flow Hood Workbench (LFHW) on for 30 minutes prior to compounding. Begin cleaning by using a sterile lint free wipe saturated with sterile 70% isopropyl alcohol. Start back in long horizontal strokes beginning at the top to bottom without overlapping, then sides vertically from back to front of the hood. Cleaning the roof the HEPA filter should never be sprayed directly; use a sterile lint free wipe saturated with sterile 70% isopropyl alcohol and lightly wipe over the HEPA filter in long horizontal strokes from the back to the front

without overlapping. Clean the rod and hooks, then bench long horizontal strokes from back to the front. Use a new Sterile 70% alcohol saturated wipe for each wall of the LFHW.

g. When working in between compounds clean the Laminar Flow Hood Workbench (LFHW) of all items with Sterile Peridox RTU (10 minutes contact time) to wipe stainless steel surfaces followed by sterile 70% IPA for 60 seconds. Use Peridox RTU followed by sterile 70% IPA between compounds when working in Hazardous clean room to prevent cross contamination.

3. **End of Day Cleaning ISO 5, ISO 7, ISO8 and Prep Room:**

a. Remove all trash from clean room (last step)

b. Sterile Peridox RTU (ready to use) to wipe stainless steel surfaces (10 Minutes kill time) followed by sterile 70% IPA. Use Sterile Peridox RTU or sporicidal equivalent daily on floors.

c. When disinfecting the cleanroom always work cleanest to dirtiest, top to bottom, and back to front of the room or hood; this includes walls and ceilings. Always begin in the critical compounding sites first and workout outward toward the dirty areas of the room. Do not overlap strokes. Use new sterile lint free wipe any time one moves from clean to dirty area.

d. Wipe down the tops of all work surfaces with lint free wipe moistened with sterile Peridox RTU. When applicable, saturating a surface by spraying will supersede using a moistened wipe. Include any touch pads for scales and pumps and other hand contact surfaces such as doorknobs and pass through handles. Spray buckets and totes with alcohol daily.

e. Once sterile Peridox RTU solution has had a minimum of 10 minutes of contact time (or other specified by manufacturer) on the surfaces, change sterile gloves and disinfect with sterile 70% IPA wipe. Using the same procedures as described in 3.d.

f. Using sticky floor roller, start from back of room to front using a rolling motion to pick up any loose debris.

g. Starting from the back of the clean room (the spot furthest from the door), mop in a back-and-forth motion without overlapping strokes. Continue until reaching the exit door.

h. Allow the Peridox RTU to air dry on the floor (10 minutes Contact time).

i. This procedure, as applicable, shall be repeated in the anteroom.

j. After mopping replace mop head and cover. Reusable cleaning tools (e.g., mop frames) are cleaned and disinfected before and after each use. Reusable mops are dedicated for use in the classified areas or SCA and are not removed. Mops used in HD compounding areas, are dedicated for use only in those areas.

4. **Monthly Cleaning**

a. Use Peridox RTU or sporicidal equivalent.

b. Monthly undertray cleaning: Area under the work tray of a C-PEC is deactivated, decontaminated, and cleaned monthly.

c. Same as daily cleaning but including a wipe down ceiling from back of room to door. Then work way down the walls from back of room to door from top to bottom. Do not allow mop head to touch floor. Make sure to change gloves prior to cleaning rest of room.

d. Clean tops of hoods, chairs, tables, bins, legs and lower shelves of tables and other equipment in the clean room with Sterile Peridox RTU (ready to use) to wipe stainless steel surfaces (10 mins kill time) followed by sterile 70% IPA.

e. Document cleaning on "Clean Rooms Monthly Cleaning and Disinfecting Log".

RESPONSIBILITIES

1. Compounding personnel are responsible for performing daily, weekly, and monthly cleaning.
2. Designated Pharmacist will assure proper documentation of cleaning and disinfection.

Title: Visual Inspection, Particulate Testing, and Reconciliation of Sterile Preparations		
Effective Date:	**Supersedes**	**Page:** Page **1** of **4**
Author: Ahmad Zaiter Pharmacist	**Revised by:** ----------	**Approved by:** Ahmad Zaiter Pharmacist

PURPOSE:

The purpose of this standard operating procedure is to specify the process used to visually inspect compounded sterile drug preparations for the presence of particulates and other defects.

DEFINITIONS:

A. Particles: visible, insoluble extraneous substances, other than gas bubbles Common sources of particulates include chemicals (undissolved substances, trace contaminants), solvent impurities, packaging components (glass, plastic, rubber, intravenous administration sets), environmental contaminants (air, surfaces, insect parts), processing equipment (glass, stainless steel, rubber, rust), fibers, and people (skin, hair).

EQUIPMENT/SUPPLIES:

- Light Box, White/Black background (well-illuminated) with magnifying glass.
- Non-linting wipes
- Powder free gloves

PROCEDURE:

1. Clear area of all items and ensure previously inspected compound has been completely cleared from visual inspection area.
2. Observations generally include checks for precipitation, cloudiness, leakage, and gas formation, as indicated by a stopper's bulging outward, cracks in the container, and particulates, as described above.
3. Inspect the preparation immediately after preparation and before labeling. If the preparation is not dispensed immediately, also inspect it just before it leaves the pharmacy.
4. Inspect the contents, container, and closure during this procedure. *Note: The container should be free of labels or attachments.*
5. Use a dampened, non-linting wipe to remove any external particles.
6. Put on powder free gloves
7. Hold the container by its top and carefully swirl the contents by rotating the wrist in a circular motion. *Note: Avoid vigorous swirling. Air bubbles will rise to the top and can be discounted.*
8. Hold the container horizontally about four inches above the light source against the white/black background and move the container slowly back and forth between the white and the black backgrounds.
9. Slowly invert the container, even if you observe no particles, and watch for heavy particles that may be on the bottom of the container and that may slide down the container walls.
10. Visually inspect the vials to ensure the following:
    I. Proper fill volume

II. physical appearance of the CSP is as expected (e.g., free of inappropriate visible particulates or other foreign matter, discoloration, or other defects

III. Container closure integrity is intact. (e.g., checking for leakage, cracks in the container, or improper seals)

IV. Correct, pharmaceutically elegant crimp.

11. Record the results of the observation on the quarantine Sheet for review by the pharmacist. Clearly flag the rejected vials and place all vials with defects in a bag clearly marked as defective and segregated from active stock.
12. Ensure all vials of batch are accounted for and match quarantine sheet. Report any discrepancies to the pharmacist.
13. Clear the area of all compounded sterile products from the visually inspected batch.

RESPONSIBILITIES:

Sterile Compounding technician performs this test.

Supervising Pharmacist confirms that the test is properly performed and reviewed.

All floors are wiped daily using sterile SEC specific floor mop with floor pads wet with PREempt Plus. Once per week, all ceilings and walls are cleaned using the designated SEC ceiling and wall mop wet with Peridox RTU starting with the cleanest area and cleaning into the dirtiest area. Once per week the SEC floors are cleaned using the designated SEC floor mop wet with Peridox RTU starting with cleanest area and working way toward the dirtiest area. All surfaces of pass-through, outer surfaces of the PEC, and all vertical surfaces, sink surface, all storage shelving, garbage bins, tables, chairs, doors, handles and vents are cleaned with low lint wipes wet with Peridox RTU and then 70% isopropyl alcohol. All three PECs are cleaned daily and with each shift change. They are cleaned clean to dirty. We first use a sterile Easy reach pad wet with Sterile TB1 3300. Irregular surfaces are wiped first. Pre-saturated Sterile 70% IPA is used to wipe down all equipment. Sterile Easy Reach Pads soaked with TB1 3300 are used to clean the PEC ceiling, the n back, then walls, then front face, then the deck. All sections are wiped using horizontal passes cleaning from clean to dirty. The same sequence is followed using pre-saturated Sterile 70% wipes for irregular surfaces, and Sterile Easy Reach pads wet with Sterile 70% IPA for the ceiling, back, walls, front face, and deck. Between compounds the PEC is wiped down with pre-saturated sterile 70% IPA.

17. Who performs the sterile compounding process at your facility?

Pharmacists and Pharmacy Interns

18. Who is responsible and accountable for the sterile compounding process at your facility?

Hazardous Drugs - Handling in Health Care Settings

The information and comments obtained in the Hazardous Drugs - Handling in Health Care Settings inspection is based on USP Chapter <800>.
Any items marked "Recommendation" are considered "best practices" and are not considered requirements for compliance with USP standards, but the information is collected as it may be a requirement under state law.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

		Finding	Notes
	General Information and Scope:		
1.00	Does the pharmacy handle any drugs on the National Institute for Occupational Safety and Health (NIOSH) list that require all the containment requirements of USP <800>?	Yes	
1.01	Does the pharmacy handle any ***hazardous drug*** active pharmaceutical ingredients (HD API)? *If yes, please list.*	Yes	Testosterone, Progesterone, Methimazole, Estradiol are the most compounded. The complete list is attached.
1.02	Does the pharmacy handle any antineoplastic requiring manipulations (which can produce particles, aerosols, or gasses)? *If yes, please list.*	No	
2.00	Does the pharmacy handle any drugs on the NIOSH list that do not require all containment requirements of <800>?	No	The general HD policy is to treat all non-sterile compounding process per USP 800. This process includes the receipt of APIs, opening of boxes, taking to the negative pressure hoods for further examination. If the APIs are HD, they are moved to a negative pressure venting cabinet. All four non-sterile compounding rooms are in negative pressure. Each room is dedicated to specific dosage forms. Both rooms and hoods can be used for both HD and non-HD compounds. The PIC stated that the cleaning process is in compliance to USP 800. Cleaning uses PeridoxRTU followed by dwell time. Garbing gowning is the only area that differentiates. If compound API is deemed as HD on the list, extra pair of ASTM chemo grade glove and extra layer of chemo impermeable gown are applied. Doffing process was also reviewed.
2.01	Does the pharmacy handle any final dosage forms of HDs (either compounded or manufactured unless required by the manufacturer) that do not require further manipulation other than counting and repackaging? *If yes, please list.*	No	
2.02	Does the pharmacy handle any dosage forms of other HDs **that are handled in full compliance** with containment requirements of <800>? *If yes, please list.*	Yes	See the list from 1.01
2.03	Does the pharmacy handle any dosage forms of other HDs **that are not handled** using all containment requirements of <800>? *If yes, please list.*	No

Dear members of the Board,

I am writing to explain the situation involving the disciplinary action I have received during my pharmacy career. My records indicate that the Kentucky Board of Pharmacy issued a fine in 2015, because I attempted to renew my license before completing the required CE. I did, however, complete the CE necessary to renew in my home state (which is Tennessee). The requirements are different, the renewal periods are different, and I did not perform the due diligence to verify I had met the requirements before renewing. My intent was not out of maliciousness or lack of caring. Later on, in 2016 when I was renewing my Louisiana and Maryland licenses, I neglected to note on my renewals for those permits that I had been reprimanded by another State Board, which resulted in reprimands by those state boards. Specifically, in my Maryland renewal, I detailed the Kentucky reprimand, but not the Louisiana reprimand. It was an oversight, and not my intent to hide punishment. I know that punishments are published to NABP, so I know that attempting to misrepresent myself is futile and unprofessional. I have been forthright with other boards of pharmacy. I have since paid my fines and have been allowed to renew my license in each state. I have no restrictions in any state that I am licensed in. I did not try to appeal to the boards of pharmacy to lessen or remove punishment because the fault was mine, but I believe that issues in my personal life had led to oversights in my professional life. During this period, I experienced the rigors of divorce, which unfortunately dominated the focus of every aspect of my life. Since resolving that issue, my personal and professional life has been in balance. Thank you for considering me for licensure in your state. I welcome the opportunity to provide exceptional service and care to patients in your state.

Professionally yours,

Dr. Benjamin Myatt, PharmD, BCSCP

CONSENT ORDER

Background

The Maryland Board of Pharmacy (the "Board") received credible information indicating that Benjamin Myatt, R.Ph. (the "Respondent"), License Number 22267, had been disciplined by the Kentucky and Louisiana Boards of Pharmacy, based on failure to complete continuing education credits and failure to report disciplinary action, respectively. In addition, the Respondent failed to report the Louisiana disciplinary action to the Board.

In lieu of instituting formal proceedings against the Respondent, in accordance with the Maryland Pharmacy Act, Md. Code Ann., Health Occ. § 12-101 *et seq.*, the Board and Respondent, have agreed to resolve this matter as set forth in this Consent Order.

FINDINGS OF FACT

1. On or about March 19, 2014, the Respondent was issued a license to practice pharmacy in Maryland. The Respondent's license is active and will expire on September 30, 2019.
2. The Respondent is the designated Maryland licensed pharmacist for a non-resident pharmacy permit holder located in Tennessee in accordance with Md. Code Ann., Health Occ. Art. § 12-403(e).

3. On or about September 11, 2015, the Kentucky Board of Pharmacy entered into an Agreed Order with the Respondent in which he agreed to pay a fine of $500. The Agreed Order was based on the Respondent's failure to complete the required continuing education credits for renewal.
4. On or about May 4, 2016, the Louisiana Board of Pharmacy entered into a Consent Agreement with the Respondent in which he was reprimanded and ordered to pay a fine of $1,000 and reimburse the board $250 for administrative costs. The Consent Order was based on the Respondent's failure to report the Kentucky Board disciplinary action as required.
5. On the Respondent's August 23, 2017 renewal application to the Board, he answered the question, "Has any state licensing or disciplinary board (including Maryland) or any similar agency in the Armed Forces, denied your application for registration, reinstatement or renewal, or taken any action against any registration or licensed held by you? Such actions include, but are not limited to, limitations on the registration, additional education, admonishment, reprimand, suspension or revocation," by reporting the Kentucky Board disciplinary action, but failed to report the disciplinary action imposed by the Louisiana Board.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the Board concludes that Benjamin Myatt, R.Ph., License Number 22267, is subject to discipline in accordance with Md. Code Ann., Health Occ. § 12-313(b)(1) and (24).

ORDER

Based upon an affirmative vote of the Board under the authority of Md. Code Ann., Health Occ. Art. § 12-313, it this 26th day of February, 2018, hereby,

ORDERED that Respondent, License No. 22267, shall pay a FINE in the amount of $250, within sixty (60) days of the date of the effective date of this Order, payable to the Maryland Board of Pharmacy and mailed to P.O. Box 2051, Baltimore, MD 21203-2051, with a reference to Case No. 18-022; and be it further,

ORDERED that in the event that Respondent violates any of the terms above, the Board, after notice and an opportunity for a hearing, and a determination of a violation, may impose any further disciplinary sanction it deems appropriate, including probation, suspension and revocation, or the imposition of a civil fine, said violation being proven by a preponderance of the evidence; and be it further,

ORDERED that this is a formal order and as such is a public document pursuant to Md. Code Ann., General Provisions Article § 4-333.

2. Respondent acknowledges the validity of this Consent Order as if it were made after a hearing in which Respondent would have had the right to counsel, to confront witnesses, and to all other substantial procedural protections provided by law.

3. Respondent acknowledges that, by entering into this Consent Order, Respondent is waiving his right to appeal any adverse ruling of the Board that might have followed such an evidentiary hearing.

9.6.1 Ensure all compounding operations are completed and all equipment has been removed from the isolator/LAFW/BSC prior to sanitization.

9.6.2 The operator must clean and sanitize the exposed work surfaces (counters and walls) of the isolator/LAFW/BSC after each workday and the counter between each batch preparation, and immediately should a spill occur.

9.7 The order of cleaning within the clean room facility is as follows (procedure included):

9.7.1 Isolator/LAFW/BSC (ISO 5)

9.7.1.1 Ceiling: start at rear left corner (closest to back wall of hood) and wipe >right> with a horizontal motion maintaining pressure the entire motion across the ceiling. Then pull toward you slightly and wipe <left< across the ceiling (your passes should overlap each other by approximately 1/3rd to ensure that no part of the ceiling is skipped). Continue in this manner working towards you until you have wiped the entire ceiling. Discard the wipe.

9.7.1.2 Rear Wall: start at upper left corner of the wall and wipe and wipe >right> with a horizontal motion maintaining pressure the entire motion across the wall. Then wipe down slightly and wipe <left< across the wall (your passes should overlap each other by approximately 1/3rd to ensure that no part of the wall is skipped). Continue in this manner working downwards you until you have wiped the entire wall. Discard the wipe.

9.7.1.3 Side Walls: start at the rear upper corner of the wall and wipe down in a vertical motion maintaining pressure the entire motion down the wall. Then pull toward you slightly and wipe up the wall (your passes should overlap each other by approximately 1/3rd to ensure that no part of the wall is skipped). Continue in this manner working towards you until you have wiped the entire wall. Discard the wipe. Repeat this procedure for the other wall and discard the wipe.

9.7.1.4 Hood Surface: start at the rear left corner of the surface (closest to back wall of hood) and wipe >right> with a horizontal motion maintaining pressure the entire motion across the surface. Then pull toward you slightly and wipe <left< across the surface (your passes should overlap each other by approximately 1/3rd to ensure that no part of the surface is skipped). Continue in this manner working towards you until you have wiped the entire surface. Discard the wipe.

9.7.2 Buffer room (ISO 7)

9.7.2.1 Ceiling: start at rear left corner (above the hood) and wipe >right> with a horizontal motion maintaining pressure the entire motion across the ceiling. Then pull toward you slightly and wipe <left< across the ceiling (your passes should overlap each other by approximately 1/3rd to ensure

that no part of the ceiling is skipped). Continue in this manner working towards you until you have wiped the entire ceiling. Discard the wipe.

9.7.2.2 Walls (1st: Rear Wall behind hood, 2nd: Side Walls and Outer surface of Passthrough, 3rd: Room Entry Wall): start at the rear upper corner of the wall (closest to hood) and wipe down in a vertical motion maintaining pressure the entire motion down the wall. Then pull toward you slightly and wipe up the wall (your passes should overlap each other by approximately 1/3rd to ensure that no part of the wall is skipped). Continue in this manner working towards you until you have wiped the entire wall. Discard the wipe. Repeat this procedure for the other walls and discard the wipe after each wall.

9.7.2.3 Floor: start at the rear left corner of the floor (closest to back wall behind hood) and wipe >right> with a horizontal motion maintaining pressure the entire motion across the floor. Then pull toward you slightly and wipe <left< across the floor (your passes should overlap each other by approximately 1/3rd to ensure that no part of the floor is skipped). Continue in this manner working towards you until you have wiped the entire floor (you should end at the entry door). Discard the wipe.

9.7.3 Hazardous Buffer room (ISO 7)

9.7.3.1 Includes all requirements and procedures listed in section 9.7.2.

9.7.3.2 For the Hazardous Buffer Room, Deactivation and Decontamination with an appropriate agent must occur before the cleaning and sanitization procedure.

9.7.3.3 Leave the designated hazardous mop in the hazardous buffer room and discard the additional hazardous garb before proceeding to clean the Anteroom.

9.7.4 Anteroom (ISO 8)

9.7.4.1 Ceiling: start at rear left corner (above the sink) and wipe >right> with a horizontal motion maintaining pressure the entire motion across the ceiling. Then pull toward you slightly and wipe <left< across the ceiling (your passes should overlap each other by approximately 1/3rd to ensure that no part of the ceiling is skipped). Continue in this manner working towards you until you have wiped the entire ceiling. Discard the wipe.

9.7.4.2 Walls (1st: Rear Wall behind sink, 2nd: Side Walls and Outer surface of Passthrough, 3rd: Room Entry Wall): start at the rear upper corner of the wall (closest to hood) and wipe down in a vertical motion maintaining pressure the entire motion down the wall. Then pull toward you slightly and wipe up the wall (your passes should overlap each other by approximately 1/3rd to ensure that no part of the wall is skipped). Continue in this manner working towards you until you have wiped the entire wall. Discard the wipe. Repeat this procedure for the other walls and discard the wipe after each wall.

9.7.4.3 Floor: start at the rear left corner of the floor (closest to back wall under sink) and wipe >right> with a horizontal motion maintaining pressure the entire motion across the floor. Then pull toward you slightly and wipe <left< across the floor (your passes should overlap each other by approximately 1/3rd to ensure that no part of the floor is skipped).

Continue in this manner working towards you until you have wiped the entire floor (you should end at the entry door). Discard the wipe.

9.8 Daily Requirements (when sterile compounding has occurred)

9.8.1 Empty all waste receptacles by removing the filled plastic bag. Wipe the receptacle with cleaning solution, let dry and place a clean plastic bag in the receptacle. Use an appropriate bag for the type of waste being removed (e.g. for hazardous waste, use a clearly labeled bag designated for hazardous waste material). **Do not remove or relocate receptacles within the clean room facility.**

9.8.2 Temperature, humidity, and air differential pressure readings shall be taken in all areas of the clean room facility.

9.8.2.1 The temperature and humidity in the clean room facility can be monitored electronically.

9.8.2.2 The humidity should be maintained in the range of 30%–65%.

9.8.2.3 The temperature in the clean room shall be maintained at 20°C (68°F) or cooler. The temperature stability of the APIs shall be determined.

9.8.2.4 Document results on the Temperature and Humidity Monitoring of the Clean Room Facility form (Attachment 2) or other designated form or attach printout and date and initial.

9.8.3 Clean and sanitize the isolator/LAFW/BSC including all equipment.

9.8.4 Clean and sanitize counter tops.

9.8.5 Wipe down equipment and devices.

9.8.6 Peel off soiled tacky mat and replace with a fresh tacky mat.

9.8.7 Mop the floors starting from a far corner and working toward the center of the room from each sidewall toward the door.

9.8.8 Allow all rooms and equipment to air dry before sterile compounding resumes.

9.8.9 Document all activities on the Cleaning and Maintenance of the Clean Room Facility form (Attachment 3) or other designated form. If the equipment is not in use, write "N/A" in the appropriate location on the form.

9.9 Monthly Requirements

9.9.1 Includes all requirements listed in section 9.8.

9.9.1.1 For the Hazardous Buffer Room, Deactivation and Decontamination with an appropriate agent must occur before the cleaning and sanitization procedure.

9.9.2 Clean and sanitize the ceiling first (when scheduled) beginning at the farthest point from the door and working toward the door.

9.9.3 Clean and sanitize the walls next (when scheduled) beginning with the wall farthest from the door and working toward the door.

9.9.4 Remove all supplies from shelving and carts and clean and sanitize the storage units.

9.9.5 Clean and sanitize the floor last beginning at the far corner and working toward the center of the room from each sidewall toward the door.

9.9.6 Allow all rooms and equipment to air dry before sterile compounding resumes.

9.9.7 Document all activities on the Cleaning and Maintenance of the Clean Room Facility form (Attachment 3) or other designated form. If the equipment is not in use, write "N/A" in the appropriate location on the form.

9.10 All cleaning should be performed upon completion of compounding, so the clean room facility is always stored cleaned. Cleaning can be performed as often as needed, but the minimum requirement is at the end of the day after compounding.

9.11 The Pharmacist-in-charge or compliance officer shall ensure the completion of tasks daily and shall review and sign/date Attachment 1 or other designated form at the end of each month. The form shall be retained in a cleaning/maintenance binder.

		Observation	Inspector Notes	USP Reference(s)
37.0	Does the pharmacy assign the beyond-use date (BUD) based on stability data or any relevant peer-reviewed literature specific to the drug, dosage form, and storage conditions for the compounded preparation? *Inspector note: Per USP, "For CNSPs prepared from one or more nonsterile components, the BUD should generally not exceed the shortest BUD of any of the individual nonsterile components; however, there may be acceptable instances when the BUD of the final CNSP exceeds the BUD assigned to compounded components (e.g., pH-altering solutions). If the assigned BUD of the final CNSP exceeds the BUD of the constituted components, the physical, chemical, and microbiological quality of the final CNSP must not be adversely impacted." Another example of these "acceptable instances" (similar to pH-altering components mentioned above) inspectors may see and track: solutions (and other formulas within a formula) such as methocel 10% ointment, which is a combination of two components, including the name of the component whose BUD was shorter was the assigned BUD of the final CSP.*	Yes		10.4

Glossary & References	USP <795>
Active Pharmaceutical Ingredient (API)	Any substance or mixture of substances intended to be used in the compounding of a preparation; thereby becoming the active ingredient in that preparation and exhibiting pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, or prevention of disease in humans or animals or affecting the structure and function of the body. Also referred to as a bulk drug substance. A commercially manufactured drug product is not an API but is typically manufactured from an API(s).
Added Substance	An ingredient that is necessary to compound a preparation but is not intended or expected to cause a pharmacologic response if administered alone in the amount or concentration contained in a single dose of the compounded preparation. The term is used synonymously with inactive ingredient, excipient, and pharmaceutical ingredient.
Administration	The preparation of a nonsterile pharmacologic or other therapeutic agent for ingesting, inhaling, applying, or otherwise providing a nonsterile medication in its final form in a single patient. This includes crushing a tablet(s) or opening a capsule(s) to mix with food or liquids for facility patient dosing.
Alcohol-based hand rub	An alcohol-containing preparation (liquid, gel, or foam) designed for application to the hands of health care personnel to inactivate microorganisms and/or temporarily suppress their growth. Such preparations may contain one or more types of alcohol, other active ingredients, excipients, and humectants.

		Observation	Inspector Notes	USP Reference(s)
74.0	Does the pharmacy ensure the assigned BUD does not exceed the shortest beyond use date of any individual compounded components? *Inspector note: Per USP, "the BUD should generally not exceed the shortest BUD of any of the individual compounded components. However, there may be acceptable instances when the BUD of the final CSP exceeds the BUD assigned to compounded components (eg, pH-altering solutions). If the assigned BUD of the final CSP exceeds the BUD of the compounded components, the physical, chemical, and microbiological quality of the final CSP must not be negatively impacted." Other examples where this may occur, formulation a formula, preservative-free compounded component used in a preserved final CSP, "in-use" rules for pharmacy bulk packages, and cyclosporine ophthalmic stock solution.* *If no, inspector should describe the observations, including the name of the component whose BUD was shorter than the assigned BUD of the final CSP.*	Yes		14.3

Sterile Compounding Personnel Records Review

Select personnel with compounding responsibilities for your records review; preferably select staff performing compounding duties at time of inspection or staff identified during CR review.
- Recommend also pulling supervising personnel file;
- Inspector can consider pulling non-compounder employee file ("Other") who cleans and stocks compounding area but who does not compound

(Note: frequency of competency assessment will be defined by pharmacy SOPs).

Review for personnel files and document your observations. (For applications making a Class 5-8 Non-Buffered Sterile Compounding Inspection [Terse Direction], review a total of 10 personnel records.)

Inspector Instructions	Competency Assessment of Core Skills (Section 2.1)
1. Use the drop-down list and make the appropriate selections for the Employee Title, Personnel Function, and CSP Category Type for the files reviewed. *Do not record the employee name, only the role or position.* 2. Review the selected files to verify that the required training and competency records are present in the personnel file and comply with USP <797> standards for training and competency assessments. 3. Select the appropriate response for each item reviewed. Select "Yes" if the document is present in the records and the competency evaluation was conducted in compliance USP <797> standards. If select "No" if the document is present but is not compliant with USP <797> standards (eg, lacks frequency of task, GHT and duties to include this task specific for media fill, failed hand, did not train as a preceptee before, etc). Document the event(s) of non-compliance in the notes column. Select "Missing" if the document is not present in the file. Select "N/A" if the training does not apply, (ie, female sterile compounder does not have to do final gowning inspection). Document further in the notes column. 4. Use the notes column to document any pertinent information.	USP <797> requirements 1. Designated Representative Application

Rev (05/12/2022)

An application for a license, or a licensee with a license, to conduct a pharmacy or to operate as a wholesaler shall designate at least one natural person to serve as the representative of the pharmacy or wholesaler. The Board will not issue or renew a license of an applicant or licensee that is required to designate a representative of a pharmacy or wholesaler unless the Board determines that the designated natural person meets the following qualifications per NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler):

1. Is at least 21 years of age;
2. Has been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.

The designated representative of a pharmacy or a wholesaler:

1. Must be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
2. Must be employed full-time in a managerial level position with the pharmacy or wholesaler;
3. Must be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
4. May serve in this representative capacity for only one pharmacy or wholesaler at a time

A pharmacy or wholesaler that is required to designate a natural person as its representative shall not open or operate the pharmacy or wholesaler unless that representative is actually employed full-time in the operation of the pharmacy or wholesaler and is physically present at the site of the pharmacy or wholesaler during regular working hours, not including sick leave, vacation leave and other authorized absences from work. If the natural person designated as the representative of a pharmacy leaves the employ of the pharmacy or wholesaler, thus leaving the pharmacy or wholesaler without a representative in violation of this section, the pharmacy or wholesaler shall:

1. Immediately cease conducting business until another qualified natural person is approved by the Board to serve as the representative of the pharmacy or wholesaler; and
2. Not later than 48 hours after that person leaves its employ, notify the Board that the person designated as the representative of the pharmacy or wholesaler has left the employ of the pharmacy or wholesaler.

Before a pharmacy or wholesaler, that is in violation of NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler) because the natural person designated as the representative of the pharmacy or wholesaler left the employ of the pharmacy or wholesaler, may continue conducting business:

1. The pharmacy or wholesaler must designate, on a form provided by the Board, a new natural person to serve as the representative of the pharmacy; and
2. The Board must approve the natural person so designated.

Designated Representative Application

Rev (05/12/2022)

An application for a license, or a licensee with a license, to conduct a pharmacy or to operate as a wholesaler shall designate at least one natural person to serve as the representative of the pharmacy or wholesaler. The Board will not issue or renew a license of an applicant or licensee that is required to designate a representative of a pharmacy or wholesaler unless the Board determines that the designated natural person meets the following qualifications per NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler):

1. Is at least 21 years of age;
2. Has been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.

The designated representative of a pharmacy or a wholesaler:

1. Must be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
2. Must be employed full-time in a managerial level position with the pharmacy or wholesaler;
3. Must be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
4. May serve in this representative capacity for only one pharmacy or wholesaler at a time

A pharmacy or wholesaler that is required to designate a natural person as its representative shall not open or operate the pharmacy or wholesaler unless that representative is actually employed full-time in the operation of the pharmacy or wholesaler and is physically present at the site of the pharmacy or wholesaler during regular working hours, not including sick leave, vacation leave and other authorized absences from work. If the natural person designated as the representative of a pharmacy leaves the employ of the pharmacy or wholesaler, thus leaving the pharmacy or wholesaler without a representative in violation of this section, the pharmacy or wholesaler shall:

1. Immediately cease conducting business until another qualified natural person is approved by the Board to serve as the representative of the pharmacy or wholesaler; and
2. Not later than 48 hours after that person leaves its employ, notify the Board that the person designated as the representative of the pharmacy or wholesaler has left the employ of the pharmacy or wholesaler.

Before a pharmacy or wholesaler, that is in violation of NAC 639.5005 (Pharmacy) or NAC 639.5935 (Wholesaler) because the natural person designated as the representative of the pharmacy or wholesaler left the employ of the pharmacy or wholesaler, may continue conducting business:

1. The pharmacy or wholesaler must designate, on a form provided by the Board, a new natural person to serve as the representative of the pharmacy; and
2. The Board must approve the natural person so designated.
