Date Posted: May 15, 2025

FIRST AMENDED AGENDA

◈ PUBLIC NOTICE ◈

The Nevada State Board of Pharmacy will conduct a meeting beginning Wednesday, June 4, 2025, at 9:00 am. The meeting will continue Thursday, June 5, 2025, at 9:00 am if necessary or until the Board concludes its business. Pursuant to NRS 241.023(1)(c) the meeting is being conducted by means of remote technology. The public may attend the meeting via live stream remotely or at the following location:

Hilton Garden Inn
7830 S Las Vegas Blvd
Las Vegas, NV

Via Videoconference at Zoom: https://zoom.us/j/5886256671
or
Via Teleconference at 1 (669) 900-6833
Meeting ID: 588 625 6671

Please Note:

In regulating the practice of pharmacy, the Nevada State Board of Pharmacy has a duty to carry out and enforce the provisions of Nevada law to protect the health, safety, and welfare of the public.

Please note that items on this agenda may be taken out of order, two or more agenda items may be combined for consideration, and/or items may be removed from the agenda or delayed for discussion at any time.

The Board may convene in closed session pursuant to NRS 241.030 to consider the character, alleged misconduct, professional competence or physical or mental health of any person named on this agenda.

The Board will take public comment on any matters within their jurisdiction, control, or advisory power. Public comments may be limited to three minutes per person. Public comment may also be submitted to the Board at teambc@pharmacy.nv.gov.

The Board may refuse to consider public comment related to a contested case pursuant to NRS 233B.126 until the Board has rendered a decision in the contested case.

1. Call to Order and Roll Call – Establishment of Quorum

2. Public Comment: No action may be taken upon a matter raised under this item of the agenda until the matter itself has been specifically included on a future agenda as an item. (NRS 241.020)

◈ CONSENT AGENDA ◈

The Consent Agenda contains matters of routine acceptance. The Board Members may approve the consent agenda items as written or, at their discretion, may address individual items for discussion or change.

3. Approval of the April 16-17, 2025, Board Meeting Minutes (**FOR POSSIBLE ACTION)**

Adam Porath recused himself from Consent Agenda Item 4V from the Consent Agenda.

Board discussion ensued.

Board Action:

Motion: Jade Jacobo moved to approve the Consent Agenda with exception of Agenda Item 4V.

Second: Krystal Freitas

Action: Passed unanimously.

Board Action:

Motion: Jade Jacobo moved to approve the Consent Agenda Item 4V.

Second: Krystal Freitas

Action: Passed unanimously (Porath recused).

◈ REGULAR AGENDA ◈

5. Disciplinary hearings pursuant to NRS 639.247. (**FOR POSSIBLE ACTION**)

N. Lincare, Inc (24-324-MP-N)

Jay DeVoy was present.

Gregory Zunino, Senior General Counsel for the Nevada Board of Pharmacy, prosecuted the case alleging Lincare failed to properly service the respiratory equipment furnished to a patient at least every 24 months as required by the manufacturer's product manual.

The proposed stipulated penalties for Lincare, Inc. License No. MP00015 are the following: 1) Respondent fined $1,000; and 2) Respondent assessed $1,000 in attorney's fees and costs.

Board discussion ensued.

Board Action:

Motion: Adam Porath moved to approve the Stipulation and Order for Lincare, Inc. as presented by Mr. Zunino.

Second: Jade Jacobo

Action: Passed unanimously.

N. Meta Pharmacy Services (24-125-PH-S)
O. Sean Barclay (24-125-RPH-A-S)

Richard Tomasso has recused himself from these matters.

President Park was familiar with Sean Barclay from Roseman University but could participate in this matter fairly and without bias.

Sean Barclay and William Stilling were present.

Brett Kandt, General Counsel for the Nevada Board of Pharmacy, prosecuted the case alleging that Meta Pharmacy Services and Sean Barclay as owner/managing pharmacist, and/or pharmacy employees, filled and dispensed unlawful prescriptions for controlled substances and compounded semaglutide, employed one pharmaceutical

DRAFT

technician in training (PTT) on an expired registration and another PTT without obtaining a registration to work at Meta Pharmacy.

Mr. Kandt commented that a change of ownership application had been submitted on behalf of Meta Pharmacy. The parties then presented a proposed stipulation to resolve the matter.

Board discussion ensued.

The hearing was recessed so the parties could meet to discuss proposed amendments to the stipulated penalties. The hearing resumed, and the parties presented the following proposed stipulation for the Board's consideration:

Respondent's Barclay's Certificate of Registration No. 17303 is revoked, the revocation is stayed, and respondent is placed on probation for a period of ten (10) years subject to the following conditions: 1) a public reprimand; 2) pay a $10,000 fine for the violations; 3) pay $2,000 in attorney's fees and costs; 4) 12 additional continuing education on pharmacy law and ethics within six months of the Order date; 5) shall not be a managing pharmacist at Meta Pharmacy or any pharmacy licensed by the Board during the probation period; 6) shall divest himself of any ownership interest in Meta Pharmacy within 90 days of the Order and shall not hold any ownership in any pharmacy licensed by the Board during the probation period; and 7) shall not work as a pharmacist for Meta Pharmacy for a period of two years from the effective date of the Order. Respondent Meta fined $10,000 for the violations; $2,000 in attorney's fees and costs; and quarterly inspections for a period of one (1) year not to exceed $500 at owner's expense.

Board Action:

Motion: Jade Jacobo moved to approve the Stipulation and Order for Meta Pharmacy and Sean Barclay, with the amendments presented.

Second: Adam Porath

Action: Motion passed (Tomasso recused).

N. Christopher Peters (24-125-RPH-B-S and 23-175-RPH-S)
O. Michelle Lyn Badten (24-125-RPH-C-S)

Joey Gilbert was present on behalf of Christopher Peters and Michelle Lyn Badten.

Brett Kandt, General Counsel for the Nevada Board of Pharmacy, prosecuted the case alleging that Respondent Peters in Case No. 23-175-RPH-S refused to transfer a prescription as requested by a patient and engaged in unprofessional conduct, and he knowingly filled and dispensed unlawful prescriptions for controlled substances in Case No. 24-125-RPH-B-S. It was also alleged that Respondent Badten knowingly filled and dispensed unlawful prescriptions for controlled substances.

Kandt presented proposed stipulations for each respondent.

The proposed stipulated penalties for Michelle Lyn Badten, Certificate of Registration No. 14966-B are the following: 1) Respondent's Certificate of Registration No. 14966-B is suspended for a period of one (1) year, the suspension is stayed, and Respondent is placed on probation for one (1) year subject to the following conditions: 1) public reprimand; 2) Respondent fined $1,000; and 3) Respondent assessed $1,000 in attorney's fees and costs.

Board discussion ensued.

Board Action:

Motion: Adam Porath moved to approve the Stipulation and Order for Michelle Lyn Badten, as presented by Mr. Kandt.

Second: Krystal Freitas

Action: Motion passed (Tomasso recused).

The proposed stipulated penalties for Christopher Peters, Certificate of Registration No. 16325 are the following: 1) Respondent's Certificate of Registration No. 16325 is suspended for a period of two (2) years, the suspension is stayed, and Respondent is placed on probation for two (2) years; 2) Respondent fined $2,000; and 3) Respondent assessed $2,000 in attorney's fees and costs.

Board discussion ensued.

The Board proposed that Respondent also complete ten (10) additional continuing education (CE) hours on pharmacy law and ethics within six months of the effective date of the Order.

Mr. Gilbert indicated his client consented to the additional term of the Stipulation and Order.

Board Action:

Motion: Adam Porath moved to approve the prosed Stipulation and Order for Christopher Peters, with the additional requirement that Respondent complete ten (10) additional hours of continuing education on pharmacy law and ethics, due within six (6) months of this order.

Second: Jade Jacobo

Action: Motion passed (Tomasso recused).

DRAFT

O. Heliodoro Magana (20-070-PR-N)

Heliodoro Magana and Brad Shipley were present.

Todd Weiss disclosed that he previously worked with Brad Shipley but could participate in this matter fairly and without bias.

Gregory Zunino, Senior General Counsel for the Nevada Board of Pharmacy, prosecuted the case alleging that Respondent Magana failed to pay the $10,000 fine and $544.55 in attorney's fees and costs in Case No. 20-070-PR-N ordered on April 17, 2024.

A petition to vacate was filed with the Board on behalf of Mr. Magana by his counsel.

The Board heard testimony and received evidence.

Board discussion ensued.

Board Action:

Motion: Jade Jacobo moved to deny the Petition to Vacate.

Second: Krystal Freitas

Action: Passed unanimously.

Board Action:

Motion: Jade Jacobo moved to uphold the previous terms of the Order with an amendment to include a payment plan option for Respondent Magana.

Second: Richard Tomasso

Aye: Freitas, Tomasso, Park, Jacobo, Carr
Nay: Porath

Action: Motion passed.

13. Discussion and possible action to amend, revise and/or approve proposed FY26 budget **(FOR POSSIBLE ACTION)**

David Wuest, Executive Secretary for the Nevada Board of Pharmacy, and Kiran Bains, Finance Manager for the Nevada Board of Pharmacy, reviewed the monthly budget and gave an overview of the proposed FY26 budget for the Board.

DRAFT

Board discussion ensued.

Board Action:

Motion: President Park moved to approve the FY26 budget, as presented by Board staff.

Second: Adam Porath

Action: Passed unanimously.

A. Uri Assa Krutilin (18-052-RPH-S)

No one was present on behalf of Uri Assa Krutilin.

Brett Kandt, General Counsel for Nevada Board of Pharmacy, prosecuted the Order to Show Cause alleging that Respondent Krutilin failed to pay the fine of $1,300 and $749 in attorney's fees and costs as ordered on December 1, 2021.

Mr. Kandt called Erin Miller as a witness.

Erin Miller, Administrative Assistant – Board Coordinator II, was sworn in and subject to examination.

Mr. Kandt called Jessette Phaynarikone as a witness.

Jessette Phaynarikone, Administrative Assistant – Board Coordinator I, was sworn in and subject to examination.

Mr. Kandt requested that proof of service of the Order to Show Cause and proof of service of a second notice of the show cause hearing to Respondent Krutilin be admitted into record as Exhibits 1-2.

President Park admitted Exhibits 1-2 into the record.

The Board heard testimony and received evidence.

Board discussion ensued.

Board Action:

Motion: Jade Jacobo moved to find that Uri Assa Krutilin was properly served and was in violation of the original Order by non-payment of the fine and attorney's fees and the violation shall be reported to the National Practitioner Data Bank.

DRAFT

Second: Krystal Freitas

Action: Passed unanimously.

B. Eric Math (19-083-CS-S)

No one was present on behalf of Eric Math.

Brett Kandt, General Counsel for Nevada Board of Pharmacy, prosecuted the Order to Show Cause alleging that Respondent Math failed to pay the fine of $5,000 and $812.50 in attorney's fees and costs as ordered on April 21, 2021.

Mr. Kandt called Erin Miller as a witness and reminded her she was still under oath.

Erin Miller, Administrative Assistant – Board Coordinator II, was subject to examination.

Mr. Kandt called Jessette Phaynarikone as a witness.

Jessette Phaynarikone, Administrative Assistant – Board Coordinator I, was sworn in and subject to examination.

Mr. Kandt requested that proof of service of the Order to Show Cause and proof of service of a second notice of the show cause hearing to Respondent Math be admitted into record as Exhibits 1-2.

President Park admitted Exhibits 1-2 into the record.

The Board heard testimony and received evidence.

Board discussion ensued.

Board Action:

Motion: Jade Jacobo moved to find that Eric Math was properly served and was in violation of the original Order by nonpayment of the fine and attorney's fees and the violation shall be reported to the National Practitioner Data Bank.

Second: Krystal Freitas

Action: Passed unanimously.

L. Alyssa Garcia (25-076-PT-S)

No one was present on behalf of Alyssa Garcia.

Brett Kandt, General Counsel for Nevada Board of Pharmacy, prosecuted the case alleging that the Board filed an Order of Summary Suspension based upon preliminary findings that Respondent Garcia diverted controlled substances.

Mr. Kandt called Erin Miller as a witness and reminded her she was still under oath.

Erin Miller, Administrative Assistant – Board Coordinator II, was subject to examination.

Mr. Kandt called Jessette Phaynarikone as a witness and reminded her she was still under oath.

Jessette Phaynarikone, Administrative Assistant – Board Coordinator I, was subject to examination.

Mr. Kandt requested that proof of service of the Summary Suspension Order and proof of service of a second notice of the summary suspension hearing to Respondent Garcia be admitted into record as Exhibits 1-2.

President Park admitted Exhibits 1-2 into the record.
Board discussion ensued.

Board Action:

Motion: Adam Porath moved to uphold the Order of Summary Suspension, pending the filing of an accusation with charges.

Second: Jade Jacobo

Action: Passed unanimously.

ADDITIONAL REMARKS

THIS ADDITIONAL REMARKS FORM IS A SCHEDULE TO ACORD FORM,
FORM NUMBER: ACORD 25 **FORM TITLE:** Certificate of Liability Insurance

Evidence of Coverage

As respects the Commercial General Liability Policy:
Additional Insured Managers or Lessors of Premises : as required by written contract
Additional Insured Owners, Lessees or Contractors - Scheduled Persons or Organization : as required by written contract
Coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured and shall not increase the applicable Limits of Insurance

As respects the Automobile Liability Policy:
Coverage symbol 1 (Any Auto) applies to Automobile Liability which includes coverage for Hired / Non-Owned Autos
Lessor - Additional Insured: all leased autos.
The policy will pay as interest may appear, you (Cardinal Health) and the lessor named in this endorsement for "loss" to a "leased auto".
Additional Insured Where Required under Written Contract or Agreement Endorsement

As respects General Liability, Automobile Liability, and Workers Compensation Policies:
Waiver of Subrogation is permitted as required by written contract or agreement executed prior to loss and in accordance with the terms, conditions and exclusions of the applicable policies.

Explanation Regarding Enteral supplies

In addition to any communication and advisement required pursuant to NAC 639.693 to 639.6958, inclusive, a medical products provider who provides medical gas and related equipment, or respiratory equipment, must advise the consumer receiving the medical gas and related equipment, or respiratory equipment, regarding:

(a) Cleaning of the equipment; Business does not clean or service equipment

(b) Potential hazards and warning signs of malfunctioning or inadequately functioning equipment; Information would be provided by the manufacturer of the equipment and if instructed by the manufacturer, business (as a distributor), would notify customers if directed to do so with a communication provided by the manufacturer.

(c) Maintenance procedures for the equipment N/A business does not service equipment

(d) The telephone number, contact name, and contact address for emergency servicing or repair of the equipment, and for routine servicing or repair of the equipment; and N/A would need to contact the manufacturer.

(e) The written materials about the equipment that are available from the medical products provider or the manufacturer of the equipment. Instructions/directions for use are provided in packaging supplied by manufacturer.

6. For the purposes of this section, "material safety data sheet" has the meaning ascribed to it in 29 C.F.R. § 1910.1200.

(Added to NAC by Bd. of Pharmacy by R008-01, eff. 11-1-2001; A by R033-07, 8-26-2008)

UNITED STATES OF AMERICA
STATE OF OHIO

- Please contact Drugs and Food Safety Licensing Branch at (512) 834-6727 immediately if any information on this license is incorrect.
- This license must be displayed at the address licensed.
- The license renewal application and fee are due every two years BEFORE the anniversary date. Please note that it is the responsibility of the license holder to remit the licensure fee before the expiration date, whether a payment notice is received or not. Failure to submit the renewal fee before the expiration date will result in a $100.00 delinquency fee for each location and must be remitted before the license will be issued.
- A license that is amended, including a change of name, ownership, legal entity, or a notification of a change in the location of a licensed place of business will require submission of new application and fee. Applications for these changes can be downloaded from our website at **https://www.dshs.texas.gov/drug-manufacturers-distributors/applications-forms-drug-manufacturers-distributor**
- Please submit written notice if you close or sell your business. You can email us at drugs-foodsafety@dshs.texas.gov.
- If you have any questions or desire additional information concerning the application process or this license, please contact the Drugs and Food Safety Licensing Branch at (512) 834-6727. In order to serve you better, DSHS would like you to complete the short online survey at: **https://www.surveymonkey.com/r/RLUsurvey**. The information you provide will assist DSHS in its efforts to continually improve and become more responsive to the needs of its customers. Thank you in advance for your cooperation.

Where is the facility located?	☐ Nevada	■ Out-of-State
[a]Is the business also a wholesaler? (NRS 639.016)	■ Yes	☐ No

Wholesaler" means a wholesale distributor as defined by 21 C.F.R. § 205.3(g) who supplies or distributes drugs, medicines or chemicals or devices or appliances that are restricted by federal law to sale by or on the order of a physician to a person **other than the consumer or patient**. The term includes a person who derives, produces, prepares or repackages drugs, medicines or chemicals or devices or appliances that are restricted by federal law to sale by or on the order of a physician on sales orders for resale. The term does not include a nonprofit cooperative agricultural organization which supplies or distributes veterinary drugs and medicines only to its own members.

Type of Application (check applicable box)		**MDEG Business Type (check applicable box)**

Section 4: Are any of the owners a health professional (i.e. Practitioner as defined by NRS 639.0125, Advanced Practice Registered Nurse, Physician's Assistant, Physical Therapist, Occupational Therapist, Registered Nurse, Respiratory Therapist, etc.)? If yes, please provide the name of the owner, their credentials and their percent ownership. (NAC 639.6943, NAC 693.6933)

Name: N/A Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

1. The Board will not issue a license to conduct business as a medical products provider or medical products wholesaler to:
   a) A practicing health professional; or
   b) A partnership, corporation or association in which a practicing health professional has a controlling interest or in which ownership of 10 percent or more of the available stock is held by one or more practicing health professionals.
2. As used in this section, "practicing health professional" means a health professional who performs services within the scope of his or her licensure or registration in any capacity in a health care facility other than the facility of the medical products provider or medical products wholesaler.

Attachment A

Medline Industries, LP- Discipline *Confidential*

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries' Kansas City, MO facility (#2003031660) was disciplined for failure to renew on time and for deficient temperature control procedures. Medline was placed on probation for 5 years. The state conducted multiple inspections of the facility throughout the probationary period and found Medline to comply with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialists that monitor and ensure our licenses are renewed on time. A temperature control room was constructed at the facility to ensure product is stored at the appropriate temperature and humidity. These control rooms are now a standard feature at our distribution centers. We worked closely with NABP to ensure that our temperature control facilities and procedures align with industry best practices throughout our distribution network.
12/7/2006	9101 Riverside Pkwy Lithia Springs, GA 30122	**FILE CLOSED 2008** The Florida Certified Designated Representative at the Georgia facility unexpectedly resigned. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Florida CDR was hired at the facility.	To prevent this for occurring in the future, all Florida licensed Medline facilities are required to have multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Dr. Orlando, FL 32824 401 Commerce Blvd. Oldsmar, FL 34677 4750 118th Ave N Clearwater, FL 33762	**FILE CLOSED 2008** Medline Industries was cited for several violations. Failure to pass and maintain a Florida compliant pedigree. Maintaining the wrong permit type for the activities performed in the facilities (in addition to a manufacturing permit, Florida required the facility a repackager permit). Distribution of saline to an unauthorized recipient. Additionally an Rx drug item was found at an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required by law, Medline received a fined from New York for out-of-state professional misconduct. (Cal. No. 27278)	To address the pedigree issues, Medline instituted a Florida specific pedigree system. This program ensured that any pedigree shipments within our distribution network with potential to end up in Florida has the required Florida documentation. (Note - these requirements have since been preempted by federal law). To address the issue of the wrong permit type, Medline secured the repackaging permit. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx Drug purchases- this procedure generates an automatic block for any Rx Drug order by an unlicensed customer. The Rx Drug item unintentionally stored in the raw materials facility was properly disposed of. Waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd. Gainesville, FL 32609	**FILE CLOSED 2008** Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008. In 2010, Medline made an unrelated business decision to close this facility. (Case # 2007-37412)	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, Medline implemented an internal auditing program to ensure that all distribution centers comply with internal policies and procedures and state and federal regulations.
3/5/2008	149 New Camellia Blvd. Covington, LA 70433	**FILE CLOSED 2008** Medline Industries (LA #4318) was cited for failure to properly maintain copies of current customer licenses on-site. Medline was assessed and paid a fine. (Louisiana Administrative Docket #2008006). After duly notifying state authorities, as required by law, Medline received a fine from New York for out-of-state professional misconduct. (Cal. No. 27278)	In addition to storing copies of customers' licenses at headquarters, these licenses are now stored digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave. Wausau, WI 54401	**FILE CLOSED 2009** Medline Industries (WI # 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing following a facility inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to install a dividing fence between the Medline warehouse and the hospital portion of the facility. All of the hospital products were owned by the hospital. Medline was also cited for failure to access policies and procedures during the inspection. Corrections were made and the facility re-inspected, to the satisfaction of the state (Case #08	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the faculty. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.

Attachment A (cont.)

Medline Industries, LP- Discipline *Confidential*

		PHM 037). In 2010, Medline made an unrelated business decision to close this facility. After duly notifying state authorities, as required by law, Medline received a fine from the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) for out-of-state professional misconduct.	
8/21/2008	94-1420 Moaniani St. Waipahu, HI 96797	**FILE CLOSED 2013** Medline Industries, Inc. (PWD 115) was fined $5000 and placed on probation for 5 years for failure to report disciplinary actions within 30 days. Medline submitted all required notices, but missed the 30-day deadline. The probationary period ended in August 2013. (Case # PHA 2008-17-L)	Medline implemented a new process to notify the necessary licensing boards of future disciplinary actions within the required reporting timelines.
3/19/2010	1401 N. Universal Ave. Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries, Inc. applied for a Colorado Out-of-State Wholesaler license for the Kansas City, MO distribution center. The CO Board of Pharmacy issued a conditional license until the facility's MO probation period ended. (See 8/3/2005 discipline). Medline informed the CO Board when the MO probationary period was completed. Upon completion of probation, the Board issued a full license.	See 8/3/2005 discipline for corrective actions related to the underlying sanction.
1/6/2021	1501 Harris Rd Libertyville, IL 60048	**FILE CLOSED 2021** Medline Industries, Inc. (OH License #01-1985050) received a fine of $250 from the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired. The fine was paid on January 21, 2021 and the case was closed. (Case No. A-2020-0054 I-2019-0972-B.) After duly notifying state authorities, as required by law, Medline received a $500 fine from the Alabama State Board of Pharmacy for the same underlying conduct as the Ohio matter. The fine was paid and the matter closed. (Case No:21-L-0048)	Medline takes this matter very seriously. Medline reviewed the customer licensing policies and procedures and updated internal requirements for the type of license required for customers in Ohio. Efforts were taken by Customer Licensing to research, ensure the proper type, and check license status for a large number of existing Ohio licenses. The Ohio TDDD licenses are reviewed on an annual basis to ensure compliance.
11/1/2022	1040 Enterprise Parkway South West Jefferson, OH 43162	**FILE CLOSED 2022** Medline Industries, LP (OH License #01-30000190) entered a settlement agreement and agreed to pay a fine of $1,125.00 to the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file versus a Terminal Distributor (TDDD) license. The TDDD license was added in May 2022- prior to this investigation. During the period of July 2021 to March 2022, the customer's TDDD license lapsed and Medline was unaware. Medline is in the process of notifying states of this fine.	Medline is committed to following all applicable state and federal statutes and regulations, including customer license requirements. Medline updated customer licensing requirements after the 01/06/2021 fine. This incident occurred while Medline was in the process of updating a large number of Ohio accounts. Medline is implementing additional steps to ensure compliance, including, increasing staffing, training, and resources for the customer licensing team.
12/19/2022	9670 NW 112th Ave Miami, FL 33178	**FILE CLOSED 2022** Medline Industries, LP (FL WDD# #2220297) entered a settlement agreement and agreed to pay a fine of $6,000.00 to the FL Dept. Business and Professional Regulation. Medline accepted a physician license for a facility customer, instead of the correct facility license. The second allegation relates to failure to include NDC numbers on outbound packing slips/ invoices. After duly notifying state authorities, as required by law, Medline received a reciprocal fine for disciplinary action by another state from the Hawaii Department of Consumer Affairs. The fine was paid and the matter closed. (Case PHA 2023-9-L).	Medline is addressing the customer licensing issue by expanding the customer licensing team resources and oversight. This process began after the 11/1/2022 Ohio Discipline and has been expanded to address FL and confirming other states. The packing slip/invoice error stemmed for an internal system error. The error was limited to DSCSA exempt products, i.e. IV fluids. A system fix is in progress.

Medline Industries, LP- Discipline *Confidential*

07/19/2023 07/25/2023	1040 Enterprise Parkway South West Jefferson, OH 43162 251 Hilton Drive, Jeffersonville, IN 47130	**FILE CLOSED 2023** Medline Industries, LP entered a settlement agreement with the Ohio Board of Pharmacy and agreed to pay fines of $750 and $850 for alleged sales of dangerous drugs to an unlicensed entity from the Jeffersonville, IN (OH License #01-30000158) and West Jefferson, OH locations (OH License #01-30000190). The sales occurred between July 2021 and January 2022. After duly notifying state authorities, as required by law, Medline received a reciprocal fine for disciplinary action by another state from the Hawaii Department of Consumer Affairs. The fine was paid and the matter closed. (Case PHA 2023-9-L).	This underlying issue was previously corrected. These fines related to activities between July 2021 and January 2022. At that time Medline was in the process of updating Ohio customer requirements. Medline updated Ohio customer license requirements and implemented a TDDD verification process in 2021. In addition, Medline reviewed all existing Ohio accounts to verify the correct license was on file. The review process was completed in 2022. Medline also dedicated additional resources and staff for the customer licensing team and remains committed to following all state and federal laws and regulations.

NEVADA STATE BOARD OF PHARMACY

985 Damonte Ranch Parkway, Suite 206 - Reno, NV 89521 - (775) 850-1440

Medical Products Provider- Medical Devices, Equipment and Gases (MDEG) Application

Non-Refundable $500 fee

Rev (05/12/2022)

Where is the facility located?	☐ Nevada	■ Out-of-State
[a]Is the business also a wholesaler? (NRS 639.016)	■ Yes	☐ No

Wholesaler" means a wholesale distributor as defined by 21 C.F.R. § 205.3(g) who supplies or distributes drugs, medicines or chemicals or devices or appliances that are restricted by federal law to sale by or on the order of a physician to a person **other than the consumer or patient**. The term includes a person who derives, produces, prepares or repackages drugs, medicines or chemicals or devices or appliances that are restricted by federal law to sale by or on the order of a physician on sales orders for resale. The term does not include a nonprofit cooperative agricultural organization which supplies or distributes veterinary drugs and medicines only to its own members.

Type of Application (check applicable box)		**MDEG Business Type (check applicable box)**
■ New MDEG	* If making a change, provide current license number:	☐ Publicly Traded (complete sections 1, 2, 3, 4, 5, 9)

Section 2: History of Company	Yes	No
1. Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest ever been charged, or convicted of a felony or gross misdemeanor (including by way of a guilty plea or no contest plea)?		✓
2. Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest, ever been denied a license, permit or certificate of registration?		✓
3. Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest ever been subject of an administrative action or proceeding relating to the pharmaceutical industry? This facility has not received any discipline. Please see Attachment A for Medline's corporate disciplinary history.	✓	
4. Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest ever been found guilty, pled guilty or entered a plea of nolo contendere to any offense federal or state, related to controlled substances?		✓
5. Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest ever surrendered a license, permit or certificate of registration voluntarily or otherwise (other than upon voluntary close of a facility)?		✓

If you marked YES to any of the number questions (1-5) above, a signed statement of explanation must be attached. Copies of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

Section 3: List all Medicare and Medicaid provider numbers registered to the business or its owner (NAC 639.6942(4)(i))
See Attachment B

Section 4: Are any of the owners a health professional (i.e. Practitioner as defined by NRS 639.0125, Advanced Practice Registered Nurse, Physician's Assistant, Physical Therapist, Occupational Therapist, Registered Nurse, Respiratory Therapist, etc.)? If yes, please provide the name of the owner, their credentials and their percent ownership. (NAC 639.6943, NAC 693.6933)

Name: N/A Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

1. The Board will not issue a license to conduct business as a medical products provider or medical products wholesaler to:
   a) A practicing health professional; or
   b) A partnership, corporation or association in which a practicing health professional has a controlling interest or in which ownership of 10 percent or more of the available stock is held by one or more practicing health professionals.
2. As used in this section, "practicing health professional" means a health professional who performs services within the scope of his or her licensure or registration in any capacity in a health care facility other than the facility of the medical products provider or medical products wholesaler.

Attachment A

Medline Industries, LP- Discipline *Confidential*

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries' Kansas City, MO facility (#2003031660) was disciplined for failure to renew on time and for deficient temperature control procedures. Medline was placed on probation for 5 years. The state conducted multiple inspections of the facility throughout the probationary period and found Medline to comply with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialists that monitor and ensure our licenses are renewed on time. A temperature control room was constructed at the facility to ensure product is stored at the appropriate temperature and humidity. These control rooms are now a standard feature at our distribution centers. We worked closely with NABP to ensure that our temperature control facilities and procedures align with industry best practices throughout our distribution network.
12/7/2006	9101 Riverside Pkwy Lithia Springs, GA 30122	**FILE CLOSED 2008** The Florida Certified Designated Representative at the Georgia facility unexpectedly resigned. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Florida CDR was hired at the facility.	To prevent this for occurring in the future, all Florida licensed Medline facilities are required to have multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Dr. Orlando, FL 32824 401 Commerce Blvd. Oldsmar, FL 34677 4750 118th Ave N Clearwater, FL 33762	**FILE CLOSED 2008** Medline Industries was cited for several violations. Failure to pass and maintain a Florida compliant pedigree. Maintaining the wrong permit type for the activities performed in the facilities (in addition to a manufacturing permit, Florida required the facility a repackager permit). Distribution of saline to an unauthorized recipient. Additionally an Rx drug item was found at an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required by law, Medline received a fined from New York for out-of-state professional misconduct. (Cal. No. 27278)	To address the pedigree issues, Medline instituted a Florida specific pedigree system. This program ensured that any pedigree shipments within our distribution network with potential to end up in Florida has the required Florida documentation. (Note - these requirements have since been preempted by federal law). To address the issue of the wrong permit type, Medline secured the repackaging permit. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx Drug purchases- this procedure generates an automatic block for any Rx Drug order by an unlicensed customer. The Rx Drug item unintentionally stored in the raw materials facility was properly disposed of. Waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd. Gainesville, FL 32609	**FILE CLOSED 2008** Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008. In 2010, Medline made an unrelated business decision to close this facility. (Case # 2007-37412)	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, Medline implemented an internal auditing program to ensure that all distribution centers comply with internal policies and procedures and state and federal regulations.
3/5/2008	149 New Camellia Blvd. Covington, LA 70433	**FILE CLOSED 2008** Medline Industries (LA #4318) was cited for failure to properly maintain copies of current customer licenses on-site. Medline was assessed and paid a fine. (Louisiana Administrative Docket #2008006). After duly notifying state authorities, as required by law, Medline received a fine from New York for out-of-state professional misconduct. (Cal. No. 27278)	In addition to storing copies of customers' licenses at headquarters, these licenses are now stored digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave. Wausau, WI 54401	**FILE CLOSED 2009** Medline Industries (WI # 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing following a facility inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to install a dividing fence between the Medline warehouse and the hospital portion of the facility. All of the hospital products were owned by the hospital. Medline was also cited for failure to access policies and procedures during the inspection. Corrections were made and the facility re-inspected, to the satisfaction of the state (Case #08	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the faculty. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.

Attachment A (cont.)

Medline Industries, LP- Discipline *Confidential*

		PHM 037). In 2010, Medline made an unrelated business decision to close this facility. After duly notifying state authorities, as required by law, Medline received a fine from the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) for out-of-state professional misconduct.	
8/21/2008	94-1420 Moaniani St. Waipahu, HI 96797	**FILE CLOSED 2013** Medline Industries, Inc. (PWD 115) was fined $5000 and placed on probation for 5 years for failure to report disciplinary actions within 30 days. Medline submitted all required notices, but missed the 30-day deadline. The probationary period ended in August 2013. (Case # PHA 2008-17-L)	Medline implemented a new process to notify the necessary licensing boards of future disciplinary actions within the required reporting timelines.
3/19/2010	1401 N. Universal Ave. Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries, Inc. applied for a Colorado Out-of-State Wholesaler license for the Kansas City, MO distribution center. The CO Board of Pharmacy issued a conditional license until the facility's MO probation period ended. (See 8/3/2005 discipline). Medline informed the CO Board when the MO probationary period was completed. Upon completion of probation, the Board issued a full license.	See 8/3/2005 discipline for corrective actions related to the underlying sanction.
1/6/2021	1501 Harris Rd Libertyville, IL 60048	**FILE CLOSED 2021** Medline Industries, Inc. (OH License #01-1985050) received a fine of $250 from the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired. The fine was paid on January 21, 2021 and the case was closed. (Case No. A-2020-0054 I-2019-0972-B.) After duly notifying state authorities, as required by law, Medline received a $500 fine from the Alabama State Board of Pharmacy for the same underlying conduct as the Ohio matter. The fine was paid and the matter closed. (Case No:21-L-0048)	Medline takes this matter very seriously. Medline reviewed the customer licensing policies and procedures and updated internal requirements for the type of license required for customers in Ohio. Efforts were taken by Customer Licensing to research, ensure the proper type, and check license status for a large number of existing Ohio licenses. The Ohio TDDD licenses are reviewed on an annual basis to ensure compliance.
11/1/2022	1040 Enterprise Parkway South West Jefferson, OH 43162	**FILE CLOSED 2022** Medline Industries, LP (OH License #01-30000190) entered a settlement agreement and agreed to pay a fine of $1,125.00 to the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file versus a Terminal Distributor (TDDD) license. The TDDD license was added in May 2022- prior to this investigation. During the period of July 2021 to March 2022, the customer's TDDD license lapsed and Medline was unaware. Medline is in the process of notifying states of this fine.	Medline is committed to following all applicable state and federal statutes and regulations, including customer license requirements. Medline updated customer licensing requirements after the 01/06/2021 fine. This incident occurred while Medline was in the process of updating a large number of Ohio accounts. Medline is implementing additional steps to ensure compliance, including, increasing staffing, training, and resources for the customer licensing team.
12/19/2022	9670 NW 112th Ave Miami, FL 33178	**FILE CLOSED 2022** Medline Industries, LP (FL WDD# #2220297) entered a settlement agreement and agreed to pay a fine of $6,000.00 to the FL Dept. Business and Professional Regulation. Medline accepted a physician license for a facility customer, instead of the correct facility license. The second allegation relates to failure to include NDC numbers on outbound packing slips/ invoices. After duly notifying state authorities, as required by law, Medline received a reciprocal fine for disciplinary action by another state from the Hawaii Department of Consumer Affairs. The fine was paid and the matter closed. (Case PHA 2023-9-L).	Medline is addressing the customer licensing issue by expanding the customer licensing team resources and oversight. This process began after the 11/1/2022 Ohio Discipline and has been expanded to address FL and confirming other states. The packing slip/invoice error stemmed for an internal system error. The error was limited to DSCSA exempt products, i.e. IV fluids. A system fix is in progress.

07/19/2023 07/25/2023	1040 Enterprise Parkway South West Jefferson, OH 43162 251 Hilton Drive, Jeffersonville, IN 47130	**FILE CLOSED 2023** Medline Industries, LP entered a settlement agreement with the Ohio Board of Pharmacy and agreed to pay fines of $750 and $850 for alleged sales of dangerous drugs to an unlicensed entity from the Jeffersonville, IN (OH License #01-30000158) and West Jefferson, OH locations (OH License #01-30000190). The sales occurred between July 2021 and January 2022. After duly notifying state authorities, as required by law, Medline received a reciprocal fine for disciplinary action by another state from the Hawaii Department of Consumer Affairs. The fine was paid and the matter closed. (Case PHA 2023-9-L).	This underlying issue was previously corrected. These fines related to activities between July 2021 and January 2022. At that time Medline was in the process of updating Ohio customer requirements. Medline updated Ohio customer license requirements and implemented a TDDD verification process in 2021. In addition, Medline reviewed all existing Ohio accounts to verify the correct license was on file. The review process was completed in 2022. Medline also dedicated additional resources and staff for the customer licensing team and remains committed to following all state and federal laws and regulations.

Where is the facility located?	☐ Nevada	■ Out-of-State
[a]**Is the business also a wholesaler? (NRS 639.016)**	■ Yes	☐ No

Wholesaler" means a wholesale distributor as defined by 21 C.F.R. § 205.3(g) who supplies or distributes drugs, medicines or chemicals or devices or appliances that are restricted by federal law to sale by or on the order of a physician to a person **other than the consumer or patient**. The term includes a person who derives, produces, prepares or repackages drugs, medicines or chemicals or devices or appliances that are restricted by federal law to sale by or on the order of a physician on sales orders for resale. The term does not include a nonprofit cooperative agricultural organization which supplies or distributes veterinary drugs and medicines only to its own members.

5. Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest ever surrendered a license, permit or certificate of registration voluntarily or otherwise (other than upon voluntary close of a facility)?		✓

If you marked YES to any of the number questions (1-5) above, a signed statement of explanation must be attached. Copies of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

Section 3: List all Medicare and Medicaid provider numbers registered to the business or its owner (NAC 639.6942(4)(i))
See Attachment B

Section 4: Are any of the owners a health professional (i.e. Practitioner as defined by NRS 639.0125, Advanced Practice Registered Nurse, Physician's Assistant, Physical Therapist, Occupational Therapist, Registered Nurse, Respiratory Therapist, etc.)? If yes, please provide the name of the owner, their credentials and their percent ownership. (NAC 639.6943, NAC 693.6933)

Name: N/A _____ Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

Name: _____ Credentials: _____ %: _____

1. The Board will not issue a license to conduct business as a medical products provider or medical products wholesaler to:

   a) A practicing health professional; or

   b) A partnership, corporation or association in which a practicing health professional has a controlling interest or in which ownership of 10 percent or more of the available stock is held by one or more practicing health professionals.

2. As used in this section, "practicing health professional" means a health professional who performs services within the scope of his or her licensure or registration in any capacity in a health care facility other than the facility of the medical products provider or medical products wholesaler.

Attachment A

Medline Industries, LP- Discipline *Confidential*

Date	Facility	Description of State Action	Corrective Actions
8/3/2005	1401 N. Universal Ave Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries' Kansas City, MO facility (#2003031660) was disciplined for failure to renew on time and for deficient temperature control procedures. Medline was placed on probation for 5 years. The state conducted multiple inspections of the facility throughout the probationary period and found Medline to comply with all requirements. The probationary period closed in August 2010.	Medline's Regulatory Affairs Department was significantly expanded to include a team of 7 Licensing Specialists that monitor and ensure our licenses are renewed on time. A temperature control room was constructed at the facility to ensure product is stored at the appropriate temperature and humidity. These control rooms are now a standard feature at our distribution centers. We worked closely with NABP to ensure that our temperature control facilities and procedures align with industry best practices throughout our distribution network.
12/7/2006	9101 Riverside Pkwy Lithia Springs, GA 30122	**FILE CLOSED 2008** The Florida Certified Designated Representative at the Georgia facility unexpectedly resigned. The state of Florida suspended Medline's Florida Out of State Rx Drug Wholesale Distributor Permit (#23:1470) until a new licensed Florida CDR was hired at the facility.	To prevent this for occurring in the future, all Florida licensed Medline facilities are required to have multiple Florida Certified Designated Representatives on staff.
11/16/2007	10601 Southport Dr. Orlando, FL 32824 401 Commerce Blvd. Oldsmar, FL 34677 4750 118th Ave N Clearwater, FL 33762	**FILE CLOSED 2008** Medline Industries was cited for several violations. Failure to pass and maintain a Florida compliant pedigree. Maintaining the wrong permit type for the activities performed in the facilities (in addition to a manufacturing permit, Florida required the facility a repackager permit). Distribution of saline to an unauthorized recipient. Additionally an Rx drug item was found at an unlicensed raw materials storage facility. Medline challenged several violations, resulting in most being substantially reduced or removed. Medline was assessed and paid a fine for these violations. All issues were addressed and resolved to the satisfaction of the FL DOH. After duly notifying state authorities, as required by law, Medline received a fined from New York for out-of-state professional misconduct. (Cal. No. 27278)	To address the pedigree issues, Medline instituted a Florida specific pedigree system. This program ensured that any pedigree shipments within our distribution network with potential to end up in Florida has the required Florida documentation. (Note - these requirements have since been preempted by federal law). To address the issue of the wrong permit type, Medline secured the repackaging permit. To address the sale of saline to an unauthorized person, Medline instituted a new procedure for obtaining and maintaining customer licenses for all Rx Drug purchases- this procedure generates an automatic block for any Rx Drug order by an unlicensed customer. The Rx Drug item unintentionally stored in the raw materials facility was properly disposed of. Waste disposal procedures were updated to ensure that this mistake would not recur.
11/26/2007	2708 NE Waldo Rd. Gainesville, FL 32609	**FILE CLOSED 2008** Medline Industries' FL license (# 22:1022) was suspended for violations identified during a Florida BOP facility inspection. Medline, through Counsel, addressed the issues raised in the inspection and established that the suspension was unjustified. The suspension was lifted 3 days later on January 22, 2008. In 2010, Medline made an unrelated business decision to close this facility. (Case # 2007-37412)	After this inspection, Medline conducted a thorough review of its policies and procedures. Additionally, Medline implemented an internal auditing program to ensure that all distribution centers comply with internal policies and procedures and state and federal regulations.
3/5/2008	149 New Camellia Blvd. Covington, LA 70433	**FILE CLOSED 2008** Medline Industries (LA #4318) was cited for failure to properly maintain copies of current customer licenses on-site. Medline was assessed and paid a fine. (Louisiana Administrative Docket #2008006). After duly notifying state authorities, as required by law, Medline received a fine from New York for out-of-state professional misconduct. (Cal. No. 27278)	In addition to storing copies of customers' licenses at headquarters, these licenses are now stored digitally so they can be accessed by our distribution centers.
5/9/2008	5450 W. Stewart Ave. Wausau, WI 54401	**FILE CLOSED 2009** Medline Industries (WI # 1116-045) was cited and fined by the Wisconsin Department of Regulation & Licensing following a facility inspection. Medline managed a portion of a Wisconsin hospital's warehouse. The inspector cited Medline for failure to install a dividing fence between the Medline warehouse and the hospital portion of the facility. All of the hospital products were owned by the hospital. Medline was also cited for failure to access policies and procedures during the inspection. Corrections were made and the facility re-inspected, to the satisfaction of the state (Case #08	Immediately after the inspection, Medline and the owner of the facility erected a locked fence to divide the faculty. Medline also reviewed all of its other facilities to make sure no similar situations existed. In addition, training on where and how to access current policies and procedures was increased for distribution center personnel. This training is in addition to the training they receive on the policies and procedures themselves.

Attachment A (cont.)

Medline Industries, LP- Discipline *Confidential*

		PHM 037). In 2010, Medline made an unrelated business decision to close this facility. After duly notifying state authorities, as required by law, Medline received a fine from the states of Hawaii (Case #PHA 2009-7-L) and New York (Cal. No. 27278) for out-of-state professional misconduct.	
8/21/2008	94-1420 Moaniani St. Waipahu, HI 96797	**FILE CLOSED 2013** Medline Industries, Inc. (PWD 115) was fined $5000 and placed on probation for 5 years for failure to report disciplinary actions within 30 days. Medline submitted all required notices, but missed the 30-day deadline. The probationary period ended in August 2013. (Case # PHA 2008-17-L)	Medline implemented a new process to notify the necessary licensing boards of future disciplinary actions within the required reporting timelines.
3/19/2010	1401 N. Universal Ave. Kansas City, MO 64120	**FILE CLOSED 2010** Medline Industries, Inc. applied for a Colorado Out-of-State Wholesaler license for the Kansas City, MO distribution center. The CO Board of Pharmacy issued a conditional license until the facility's MO probation period ended. (See 8/3/2005 discipline). Medline informed the CO Board when the MO probationary period was completed. Upon completion of probation, the Board issued a full license.	See 8/3/2005 discipline for corrective actions related to the underlying sanction.
1/6/2021	1501 Harris Rd Libertyville, IL 60048	**FILE CLOSED 2021** Medline Industries, Inc. (OH License #01-1985050) received a fine of $250 from the Ohio Board of Pharmacy for the sale of dangerous drugs to an unlicensed entity. Medline maintained a current and valid DEA license on file for the physician rather than the TDDD license for the facility. The facility's TDDD license at the time of the sale had expired. The fine was paid on January 21, 2021 and the case was closed. (Case No. A-2020-0054 I-2019-0972-B.) After duly notifying state authorities, as required by law, Medline received a $500 fine from the Alabama State Board of Pharmacy for the same underlying conduct as the Ohio matter. The fine was paid and the matter closed. (Case No:21-L-0048)	Medline takes this matter very seriously. Medline reviewed the customer licensing policies and procedures and updated internal requirements for the type of license required for customers in Ohio. Efforts were taken by Customer Licensing to research, ensure the proper type, and check license status for a large number of existing Ohio licenses. The Ohio TDDD licenses are reviewed on an annual basis to ensure compliance.
11/1/2022	1040 Enterprise Parkway South West Jefferson, OH 43162	**FILE CLOSED 2022** Medline Industries, LP (OH License #01-30000190) entered a settlement agreement and agreed to pay a fine of $1,125.00 to the Ohio Board of Pharmacy for alleged sales of dangerous drugs to an unlicensed entity. Medline maintained a physician license on file versus a Terminal Distributor (TDDD) license. The TDDD license was added in May 2022- prior to this investigation. During the period of July 2021 to March 2022, the customer's TDDD license lapsed and Medline was unaware. Medline is in the process of notifying states of this fine.	Medline is committed to following all applicable state and federal statutes and regulations, including customer license requirements. Medline updated customer licensing requirements after the 01/06/2021 fine. This incident occurred while Medline was in the process of updating a large number of Ohio accounts. Medline is implementing additional steps to ensure compliance, including, increasing staffing, training, and resources for the customer licensing team.
12/19/2022	9670 NW 112th Ave Miami, FL 33178	**FILE CLOSED 2022** Medline Industries, LP (FL WDD# #2220297) entered a settlement agreement and agreed to pay a fine of $6,000.00 to the FL Dept. Business and Professional Regulation. Medline accepted a physician license for a facility customer, instead of the correct facility license. The second allegation relates to failure to include NDC numbers on outbound packing slips/ invoices. After duly notifying state authorities, as required by law, Medline received a reciprocal fine for disciplinary action by another state from the Hawaii Department of Consumer Affairs. The fine was paid and the matter closed. (Case PHA 2023-9-L).	Medline is addressing the customer licensing issue by expanding the customer licensing team resources and oversight. This process began after the 11/1/2022 Ohio Discipline and has been expanded to address FL and confirming other states. The packing slip/invoice error stemmed for an internal system error. The error was limited to DSCSA exempt products, i.e. IV fluids. A system fix is in progress.

Medline Industries, LP- Discipline *Confidential*

07/19/2023 07/25/2023	1040 Enterprise Parkway South West Jefferson, OH 43162 251 Hilton Drive, Jeffersonville, IN 47130	**FILE CLOSED 2023** Medline Industries, LP entered a settlement agreement with the Ohio Board of Pharmacy and agreed to pay fines of $750 and $850 for alleged sales of dangerous drugs to an unlicensed entity from the Jeffersonville, IN (OH License #01-30000158) and West Jefferson, OH locations (OH License #01-30000190). The sales occurred between July 2021 and January 2022. After duly notifying state authorities, as required by law, Medline received a reciprocal fine for disciplinary action by another state from the Hawaii Department of Consumer Affairs. The fine was paid and the matter closed. (Case PHA 2023-9-L).	This underlying issue was previously corrected. These fines related to activities between July 2021 and January 2022. At that time Medline was in the process of updating Ohio customer requirements. Medline updated Ohio customer license requirements and implemented a TDDD verification process in 2021. In addition, Medline reviewed all existing Ohio accounts to verify the correct license was on file. The review process was completed in 2022. Medline also dedicated additional resources and staff for the customer licensing team and remains committed to following all state and federal laws and regulations.

Rev (05/12/2022)

Where is the facility located?	☐ Nevada	■ Out-of-State
[a]Is the business also a wholesaler? (NRS 639.016)	☐ Yes	■ No

Wholesaler" means a wholesale distributor as defined by 21 C.F.R. § 205.3(g) who supplies or distributes drugs, medicines or chemicals or devices or appliances that are restricted by federal law to sale by or on the order of a physician to a person **other than the consumer or patient**. The term includes a person who derives, produces, prepares or repackages drugs, medicines or chemicals or devices or appliances that are restricted by federal law to sale by or on the order of a physician on sales orders for resale. The term does not include a nonprofit cooperative agricultural organization which supplies or distributes veterinary drugs and medicines only to its own members.

Protecting the Public Since 1885

1/29/2024

Regarding: RxFunction Inc. 6509 Flying Cloud Dr; Suite 140; Eden Prairie, MN 55344 which is seeking a license in your jurisdiction

To whom it may concern:

At this time the State of Minnesota does not regulate medical device companies (manufacturers or distributors) through either the Board of Pharmacy or any other health board or division. As there is no statutory reference to this, we provide the following related FAQ information from our official website:

https://mn.gov/boards/pharmacy/resourcesfaqs/faqs/generalfaqs.jsp

Does your Board of Pharmacy license or register medical device or medical supply manufacturers, wholesale distributors, supplies or retailers?
The Board does not license or register companies that exclusively manufacture, distribute, supply or sell medical devices or supplies. If a company that handles medical devices or supplies also manufactures or distributes drugs, it must be licensed as a drug manufacturer or drug wholesaler. Exception if the drug is coated on or embedded in the device (e.g. drug-coated stents) and the resultant product is approved by the FDA as a device, the company does not have to be licensed as a manufacturer or wholesale distributor.

If you have any questions you may reach out to me at the MN Board of Pharmacy any time.

Thank you,

Aaron L Patterson PharmD; RPh **1/29/2024**

AFFIDAVIT
REGARDING

Out-Of-State Medical Devices, Equipment and Gases Application of RxFunction Inc.

I, Richard E. Offerdahl, having been duly sworn, provide this Affidavit in support of RxFunction Inc., a Minnesota corporation, and its application to the state of Nevada for an out-of-state MDEG license and state the following:

1. I reside in Incline Village, Nevada.
2. I am a member of the Board of Directors of the Applicant.
3. I own shares in excess of 10% of the outstanding shares of the Applicant.
4. I have submitted a PERSONAL HISTORY APPLICATION dated 12/20/24 in support of the Applicant and as required by the state of Neveda.
5. I responded in the affirmative to questions 4 and 5 of that PERSONAL HISTORY APPLICATION regarding my past involvement in three (3) separate lawsuits. All three (3) lawsuits involved a company identified as ZYCAD CORPORATION.
6. At no time has there ever been any relationship between the Applicant, RxFunction Inc. and ZYCAD CORPORATION.
7. ZYCAD, founded in 1981, was a pioneer in simulation acceleration technology for design verification of integrated circuits.
8. I served as Chief Executive Officer of ZYCAD from June 1981 until June 1986.
9. I retired from ZYCAD in June 1986.
10. Control Data Corporation sued ZYCAD for patent infringement on or about 1983. That lawsuit continued after I retired from ZYCAD. I had no further involvement after I retired.
11. Upon information and belief, ZYCAD eventually settled with Control Data Corporation by purchasing the patent in dispute.
12. ZYCAD sued Silicon Solutions for patent infringement on or about 1985. That lawsuit continued after I retired from ZYCAD. I had no further involvement after I retired.
13. Upon information and belief, ZYCAD eventually settled with Silicon Solutions.
14. A former employee of ZYCAD, Jane F. Bersie, sued ZYCAD on or about 1984. That lawsuit continued after I retired from ZYCAD. I had no further involvement after I retired.
15. The Bersie lawsuit against ZYCAD was ultimately adjudicated. A copy of that court opinion from the Minnesota Court of Appeals has been provided to the Nevada Board of Pharmacy.

16. Upon information and belief, ZYCAD CORPORATION changed its name to GateField Corp. in 1997. Gatefield, the company that was once Zycad, was later acquired by Actel. This all occurred years after I retired from ZYCAD.

I declare under penalty of perjury that everything I have stated in this document is true and correct to the best of my knowledge and recollection.

Bersie v. Zycad Corp.

417 N.W.2d 288 (1987)

Jane F. BERSIE, Appellant, v. ZYCAD CORPORATION, Respondent.

No. CX-87-1003.

Court of Appeals of Minnesota.

December 29, 1987.

Review Denied May 5, 1988.

Donald E. Horton, Sonja R. Peterson, Minneapolis, for appellant.

Lee A. Bernet, III, St. Paul, for respondent.

Heard, considered and decided by FORSBERG, P.J., and LANSING and NIERENGARTEN, JJ.

OPINION

NIERENGARTEN, Judge.

This is an appeal from a judgment concluding Zycad Corporation did not discharge Jane F. Bersie for reasons based on her sex, or knowingly allow her to endure an intimidating, hostile, or offensive working environment in violation of the Minnesota Human Rights Act. We affirm.

FACTS

Jane Bersie was hired by Zycad Corporation (Zycad) in March 1982 to work as a computer systems analyst/programmer. Most Zycad employees have backgrounds in electrical engineering because of the company's clientele and product focus. Bersie has a masters degree in mathematics and programming experience, but does not have an engineering background.

Bersie was responsible for maintaining some of Zycad's computer operating systems and also was required to perform certain programming tasks which became increasingly sophisticated as the months passed and the company developed. Bersie indicated to her supervisor, Harley Horsager that she felt she was not accorded the same respect as the other employees because *289 she did not have an engineering background.

Horsager concluded during the first few months of 1983 that Bersie's work was unsatisfactory and that she was incapable of performing certain technical tasks. According to Horsager, Bersie was not completing projects in a timely manner, did not relate well to co-employees, and was becoming increasingly difficult to supervise. Horsager testified about Bersie's inability to complete an important programming project despite several new deadlines. He also testified about how Bersie "lost" a bank of computer files which were needed for an important computer show and that he had to spend significant amounts of time assisting Bersie with projects. Horsager decided to change Bersie's work responsibilities so she could work on assignments at which she could succeed and which would help re-establish her self-confidence.

In July 1983, Bersie told Horsager she was having problems at work relating to other employees and that she thought she did not have a future with Zycad because she was not an engineer. Bersie said she was unhappy, indicated that maybe she should quit and suggested Zycad might consider firing her instead so she could qualify for unemployment benefits.

On August 4 Bersie gave Horsager a letter which indicated she considered herself involuntarily terminated. In a reply letter, Zycad agreed Bersie's employment was terminated as of her conversation with Horsager on July 30 and enclosed a check which included two weeks severance pay and accrued vacation pay. Several days later, Bersie's

attorney sent a letter to Zycad in which he stated Bersie had "reluctantly decided that her sex was a significant factor" in her termination.

Bersie summarized incidents of sexual harassment such as an employee calling her "sweetheart" and "doll" several times and placing his hands on her neck and shoulders on a few occasions. The employee engaged in similar conduct with other female employees. According to Bersie, another employee asked Bersie why she did not prostitute herself for a living. Bersie testified that she resented the remarks but admitted they were a failed attempt at humor. Bersie indicated that those individuals and a third employee suggested Bersie and a male customer were "really tight" and asked if they should call her husband, alluding to recent stories about Control Data which had been accused of providing prostitutes for its customers. Bersie cited an incident in which one of those employees allegedly moved his chair close to Bersie's chair and leaned his body in close proximity to Bersie's body. Bersie also referred to an incident in which magazine photographs of nude women were posted on the walls of a male employee's cubicle on that employee's fortieth birthday. The photographs were removed by the next day at the direction of the company president. Although Bersie met with Horsager on numerous occasions to complain or report about job and performance problems, Bersie admitted she never reported any of these incidents to Horsager, who claimed no knowledge of the incidents.

In March 1984, Bersie filed a lawsuit against Zycad alleging sexual discrimination and harassment in violation of the Human Rights Act. She also asserted various contract and tort claims based on fraud, misrepresentation, and defamation. An advisory jury returned a special verdict in Zycad's favor, finding no defamation and no sexual discrimination and/or sexual harassment. The trial court adopted those findings and directed entry of judgment for Zycad. On appeal, this court concluded the trial court's findings were not adequate and remanded for appropriate findings. See Bersie v. Zycad Corp., 399 N.W.2d 141 (Minn.Ct.App.1987).[1]

On remand, the trial court adopted Zycad's proposed findings and conclusions with only minor changes. The court found that Bersie's termination was based on "legitimate *290 non-discriminatory business performance-related reasons justified by the facts and circumstances taken as a whole," including Bersie's "increasing inability to cope with project deadlines and her inability to get along with co-employees and her manager." The

court concluded Bersie "failed to establish by credible evidence" the factors necessary to prove a prima facie case of sexual discrimination and harassment.

Bersie appeals from the February 1987 judgment and the denial of her post-trial motions for amended findings and a new trial.

ISSUE

Did the trial court err by concluding the appellant did not suffer sexual harassment or discrimination and that her employer did not violate the Minnesota Human Rights Act?

ANALYSIS

The trial court's findings "will not be disturbed if they are reasonably supported by evidence in the record considered as a whole." Hubbard v. United Press International, Inc., 330 N.W.2d 428, 441 (Minn. 1983). See Minn.R.Civ.P. 52.01 ("Findings of fact shall not be set aside unless clearly erroneous, and due regard shall be given to the opportunity of the trial court to judge the credibility of the witnesses").

Sexual Harassment and Discrimination Claims

Under the Minnesota Human Rights Act, it is an unfair employment practice for an employer, because of sex,

(b) to discharge an employee; or (c) to discriminate against a person with respect to his [or her] hire, tenure, compensation, terms, upgrading, conditions, facilities, or privileges of employment.

Minn.Stat. § 363.03, subd. 1(2) (1982). Sexual harassment is a form of sex-based discrimination and may include conduct or communication which "has the purpose or effect of substantially interfering with an individual's employment, * * * or creating an intimidating, hostile, or offensive employment * * * environment." See id. § 363.01, subds. 10, 10a. In employment cases, the employer must know or should have known of the harassment and fail to take timely and appropriate action. See id. § 363.01, subd. 10a(3); see also Continental Can Co., Inc. v. State, 297 N.W.2d 241, 249 (Minn.1980).

Since this is a disparate treatment claim under the Minnesota Human Rights Act, we must apply a three-part analysis established in McDonnell Douglas Corp. v. Green, 411 U.S. 792, 93 S. Ct. 1817, 36 L. Ed. 2d 668 (1973). See Sigurdson v. Isanti County, 386 N.W.2d 715, 719-20 (Minn.1986). That analysis requires the complainant to establish a prima facie case of discrimination, the employer to answer that showing, and the complainant to rebut the employer's evidence of nondiscrimination. See McDonnell Douglas, 411 U.S. at 802-04, 93 S. Ct. at 1824-25.

Five factors may demonstrate sexual harassment and may be used to establish a prima facie case.

1. Did the employee belong to a protected class? 2. Was the employee subject to unwelcome sexual harassment? 3. Was the harassment complained of based upon sex? 4. Did the harassment complained of affect a "term, condition, or privilege" of employment? (Or, more exactly, in Bersie's case did the harassment create an "intimidating, hostile, or offensive working environment?") 5. Respondeat superior (did the employer know or should the employer have been aware of the harassment?).

Bersie, 399 N.W.2d at 146 (citing Henson v. City of Dundee, 682 F.2d 897, 903-05 (11th Cir.1982)).

Bersie asserts her sex discrimination claims under the Minnesota Human Rights Act. For the purposes of our analysis, Bersie is a member of a protected class.

While some conduct of Bersie's co-employees was offensive, the evidence supports *291 the trial court's conclusion that Bersie's employment problems were caused in large part by her "increasing inability to cope with project deadlines and her inability to get along with co-employees and her manager." When viewed as a whole, the record indicates Bersie's problems were personal problems unrelated to her status as a female employee. See Continental Can Co., 297 N.W.2d at 249 ("all the circumstances surrounding the conduct alleged to constitute sexual harassment, such as the nature of the incidents and the context in which they occurred, should be examined").

The record indicates that the vast majority of Bersie's "harassment" and interpersonal problems with her co-employees were not based on sex, but were the result of Bersie's apparent lack of the requisite technical skills.[2] After reviewing the entire record, we cannot conclude the conduct of Bersie's co-employees "substantially" interfered with Bersie's employment or that the incidents were not "sufficiently severe or pervasive so as `to alter the conditions of [the victim's] employment and create an abusive working condition.'" See Klink v. Ramsey County, 397 N.W.2d 894, 901 (Minn.Ct.App.1986) pet. for rev. denied (Minn. Feb. 13, 1987) (quoting Meritor Savings Bank v. Vinson, 477 U.S. 57, ___, 106 S. Ct. 2399, 2406, 91 L. Ed. 2d 49 (1986)).

[T]he prohibition against sex discrimination in [the Human Rights Act] includes sexual harassment which impacts on the conditions of employment when the employer knew or should have known of the employees' conduct alleged to constitute sexual harassment and fails to take timely and appropriate action.

Continental Can Co., 297 N.W.2d at 249 (footnote omitted; emphasis added).

Bersie never complained or told Horsager about any of the incidents which Bersie alleges constitute sexual harassment. Horsager denies actual knowledge of the incidents, and the record does not indicate the incidents were so obvious or pervasive the employer should have known of the alleged misconduct. See Minn.Stat. § 363.01, subd. 10a(3) (the employer must know or should have known of the existence of the harassment and failed to take timely and appropriate action).

Since the evidence does not show Zycad had actual or constructive knowledge of the objectionable incidents, Bersie failed to prove a prima facie case of sex discrimination. Bersie's discrimination claims and the factual circumstances of her case were established largely by testimony which the trial court was able to hear and assess firsthand.

Employment discrimination cases often involve intricate factual issues in which only the trial court, with its opportunity to observe the witnesses firsthand, can meaningfully assess the weight and credibility of the evidence. We have traditionally accorded great deference to the trial court in making findings of fact, recognizing that much must necessarily be left to its sound judgment and discretion because it has the advantage of fully hearing the testimony and acquiring a thorough familiarity with all the circumstances of the case. An

appellate court cannot judge the credibility of a witness or the weight, if any, to be given to testimony.

Sigurdson v. Isanti County, 386 N.W.2d 715, 721 (Minn.1986) (citations omitted). Bersie's case was tried before an advisory jury which also determined there was no sexual discrimination or harassment. We must defer to the factfinders' conclusions when the findings "are reasonably supported by evidence in the record considered *292 as a whole." See Hubbard, 330 N.W.2d at 441; see also Tretter v. Liquipak International, Inc., 356 N.W.2d 713, 715 (Minn.Ct. App.1984) (an appellate court does not "weigh the evidence as if trying the matter de novo," but determines "if the evidence as a whole sustains the trial court's findings"). Based on our review of the entire record, we cannot say the trial court erred by concluding Bersie's termination was not based on her sex, or by concluding Zycad did not allow Bersie "to endure an intimidating and hostile employment environment."

Reversible Error Per Se

Bersie contends the trial court improperly adopted Zycad's proposed findings of fact and conclusions of law because the court adopted the findings almost verbatim. Such adoption by itself is not improper if the record supports the findings and shows the trial court conscientiously considered all the issues. See Sigurdson v. Isanti County, 408 N.W.2d 654, 657 (Minn. Ct.App.1987) pet. for rev. denied (Minn. Aug. 19, 1987). The record supports the trial court's findings.

DECISION

The trial court did not err by concluding the appellant did not suffer sexual harassment or discrimination in violation of the Minnesota Human Rights Act. The appellant failed to establish a prima facie case of sex discrimination.

Affirmed.

FORSBERG, Judge (concurring specially):

I concur on the basis that Bersie failed to prove steps 3, 4, and 5 of the Henson test. (See majority opinion, p. 290.)

In steps 3 and 4 reference is made to the "harassment complained of." At no time did Bersie complain to anyone, either formally or informally of the acts alleged to constitute sexual harassment. She did complain about virtually everything associated with her job, including difficulty getting along with female employees. Moreover, it is very unlikely that she would complain about these acts being sexual harassment when she, herself, testified that she was not mistreated because she is a female.

Moreover, in regard to step 5, the acts complained of were committed by co-employees. There may be a question as to Allenbaugh's status. However, Bersie, herself, testified as follows:

Q: And [Allenbaugh] is a coemployee? A: Yes. Q: As is Mr. Gilson is Mr. Olson? A: That is correct. Q: Mr. Olson and Mr. Gilson and Mr. Allenbaugh were all co-employees, correct? A: That is correct. Q: None of them were supervisors or officers of the company? A: That is correct.

In any event, Bersie did not prove Allenbaugh's status as a supervisor; but even if true, he is without doubt not Bersie's supervisor, and an unrelated supervisor is no different than a co-employee for purposes of making the employer aware of sexual acts. And certainly, acts of sexual harassment of co-employees cannot be attributed to the employer, and step 5 is so designed to prevent it. One can imagine on an assembly line the number of lawsuits a company would have to face if it was directly responsible for acts of co-employees toward each other.

LANSING, Judge (dissenting).

The record compels a finding that Jane Bersie was subjected to sexual harassment in violation of the Minnesota Human Rights Act. As a woman, Bersie was clearly a member of a class protected by the Act. Minn.Stat. § 363.03, subd. 1(2)(c) (1982). Moreover, despite the opinion's weak characterization of the facts, the record conclusively indicates that Bersie was subject to sexual harassment. Accordingly, the trial court's judgment should be reversed and the case should be remanded for a new trial.

Sexual harassment includes

*293 unwelcome * * * sexually motivated physical contact or other verbal or physical conduct or communication of a sexual nature when * * * that conduct or communication has the purpose or effect of substantially interfering with an individual's employment * * * or creating an intimidating, hostile, or offensive employment * * * environment.

Minn.Stat. § 363.01, subd. 10(a). To state that "Bersie's problems were personal problems unrelated to her status as a female employee" is to ignore the language of the Act. Under the statute, the issue is whether Bersie was subjected to sexual harassment, not whether this harassment was her primary employment problem.

The record evidences a number of acts of harassment. A Zycad supervisor[1] suggested that Bersie may have been hired only because she was a woman, and asked her why she didn't just become a prostitute for a living. Bersie v. Zycad Corporation, 399 N.W.2d 141, 142 (Minn.Ct.App.1987) (Bersie I). Calling these remarks a "failed attempt at humor" does not negate their sexually harassing character. The Act does not contain an exception for derogatory remarks that are intended to be funny, and creating such an exception here would substantially destroy the Act's purpose of protecting women from offensive conduct affecting employment conditions.

That same Zycad supervisor also participated in an incident in which he and two other employees suggested that Bersie's relationship with a customer was sexual and analogized it to prostitution on behalf of the company. Id. at 143. In addition, a Zycad founder and executive decorated an employee cubicle with pictures of nude women; although the company president saw the pictures in the morning, he did not call them inappropriate until midday and did not direct their removal. The company executive who put up the pictures also failed to intervene and appeared to approve when one of Bersie's male co-employees initiated unwelcome physical contact with Bersie and called her and other female employees "sweetheart" and "doll." Id.

A number of other incidents, set forth in Bersie I, such as turning off the computer, giving Bersie the runaround on projects and blocking her entrance to the laboratory, are less patently sexual harassment, but appear to derive from the same motives, particularly as some of them were perpetrated by the same supervisor who had made the sexually

derogatory comments. Whether or not the performance issues resulted from this atmosphere, these incidents establish that Bersie was subjected to repeated, unwelcome physical and verbal conduct based on her sex, and this conduct was sufficiently pervasive to create an abusive working environment. Compare Minneapolis Police Department v. Minneapolis Commission on Civil Rights, 402 N.W.2d 125, 131 (Minn.Ct.App. 1987), pet. for rev. granted (Minn. May 18, 1987). I cannot agree with the trial court's characterization of these events as "good-natured give and take banter that is part of any working environment."

The opinion is misleading in its characterization of Bersie I as limited to the adequacy of the findings. While the issue was framed that way, Bersie I actually centered on the adequacy of the trial court's analysis of the evidence. As Bersie I notes, a prima facie case of harassment can be established by "showing the `bare essentials' of discrimination or harassment, merely `sufficient' evidence to create the inference of unequal treatment." Id., 399 N.W.2d at 145 (citing Danz v. Jones, 263 N.W.2d 395, 399-400 (Minn.1978)).

In this case, Bersie showed at least the "bare essentials" of harassment. Uncontradicted evidence established a number of overtly sexual incidents in addition to the less patently sexual harassment to which Bersie was subjected. Nonetheless, the majority upholds the trial court's finding *294 that no prima facie case was established because this harassment did not substantially interfere with Bersie's employment or create an abusive working environment. The majority's analysis, however, focuses not on whether the harassment created an abusive environment, but rather on whether the abusive environment could have a legitimate business justification.[2] This analysis improperly places the burden on the plaintiff to prove, as part of her prima facie case, that no legitimate cause for work problems might exist.

The determination whether harassment created a hostile working environment should properly focus on the nature of the harassment rather than on other work problems. See, e.g., Moylan v. Maries County, 792 F.2d 746, 749-50 (8th Cir.1986) (sustained and nontrivial harassment sufficient to create hostile environment); Katz v. Dole, 709 F.2d 251, 254-55 (4th Cir.1983) (evidence of a "pattern of personally directed sexual insult and innuendo" sufficient to show offensive and hostile working environment); Rogers v. E.E.O.C., 454 F.2d 234, 238 (5th Cir.1971) (mere utterance of a single racial epithet would not sufficiently affect environment to support a harassment claim), cert. denied, 406 U.S. 957, 92 S. Ct.

2058, 32 L. Ed. 2d 343 (1972); Klink v. Ramsey County, 397 N.W.2d 894, 901-02 (Minn.Ct.App.1986), pet. for rev. denied (Minn. Feb. 13, 1987) (sporadic exposure to foul language and vulgar materials not directed specifically at the plaintiff not sufficiently severe or pervasive).

Unlike the isolated incident referred to in Rogers, Bersie was subjected to repeated sexually derogatory and offensive behavior. Unlike Klink, the offensive behavior was directed specifically at her. Where sustained and nontrivial sexual harassment is shown, the degree to which other factors may have influenced working conditions is irrelevant to the establishment of a prima facie case. Bersie has met her burden of showing that the acts of sexual harassment created an abusive working environment. The record in this case requires such a finding.

The record also establishes the final element of a sexual harassment claim: that Zycad knew or should have known of the harassment. The Supreme Court in Meritor declined to state a definitive rule on the question of employer liability for harassment by supervisors which creates a hostile working environment. Meritor Savings Bank, FSB v. Vinson, 477 U.S. 57, ___, 106 S. Ct. 2399, 2408, 91 L. Ed. 2d 49 (1986). Under Minnesota law, an employer will be liable if it knows or should have known of the harassment. Minn.Stat. § 363.01, subd. 10a(3); Continental Can Company, Inc. v. State, 297 N.W.2d 241, 249 (Minn. 1980).

A Zycad supervisor and a company executive were not only aware of, but perpetrated, offensive conduct. In March 1983 Bersie told her supervisor that she was treated disrespectfully, but he did not investigate her complaint or ask for any examples. According to Bersie, whenever she went to Horsager with a problem, he would tell her to handle it herself. Where acts of harassment are perpetrated by supervisory agents of an employer in the context of the work environment, the fact that no formal complaint was made to Bersie's immediate supervisor should not insulate the employer, particularly if the employer has not established an express policy against sexual harassment or any procedure for resolving harassment claims.[3]See Meritor, 477 U.S. at ___, 106 S. Ct. at 2408.

*295 The record cannot support the trial court's finding that Bersie failed to establish a prima facie case of sexual harassment based on her sex. The absence of a formal

complaint in these circumstances does not relieve Zycad of liability for these acts. Zycad did not advance, and it would be impossible to construct, a legitimate business motivation for the offensive conduct.

A showing of constructive discharge or other adverse economic impact is not required to maintain a sexual harassment suit. Id. at ___, 106 S. Ct. at 2406. Nonetheless, the trial court's finding that Bersie failed to establish a prima facie case of sexual harassment likely influenced its finding on constructive discharge, and the case should be remanded for a new trial on that issue as well.

NOTES

[1] Although this court suggested Bersie had made a prima facie showing of sex discrimination, the issue on appeal was limited only to whether the trial court's findings were adequate. See Bersie, 399 N.W.2d at 144.

[2] The dissent suggests that this opinion's characterization of the facts is weak. However, a substantial portion of the record deals only with Bersie's job performance and the difficulties she was experiencing while trying to complete tasks which required sophisticated skills she did not necessarily possess. Moreover, according to a letter from Bersie's attorney sent almost three weeks after Bersie's termination, Bersie "reluctantly decided that her sex was a significant factor in the [termination] decision," only after she could not discern other reasons for her termination or her employer's "actual motivation." According to the Human Rights Act, sexual harassment must "substantially" interfere with an individual's employment. See Minn. Stat. § 363.01, subd. 10a(3).

[1] The majority refers to Allenbaugh merely as an "employee," presumably relying on Bersie's general testimony that Allenbaugh, Olson and Gilson were "co-employees." However, Harley Horsager testified in his deposition that Allenbaugh was "responsible for" marketing and demonstrations and at least one other employee "reported to" Allenbaugh. At trial Horsager stated specifically that Allenbaugh "supervised one person at the time."

[2] Although the majority emphasizes Bersie's inability to perform "certain technical tasks," her supervisor never really criticized her work and told her an engineering degree was not

required for her job. She was given a bonus just before she left, and company president Offerdahl publicly commended her in July 1983. The record is not at all conclusive on the extent to which her employment problems resulted from gender-related harassment as opposed to "lack of the requisite technical skills." Her supervisor stated that her work for him at National Computer Systems before they both joined Zycad had been good, timely and accurate and that he was not aware that she had any problems with her co-employees there.

[3] According to Zycad president Offerdahl, Zycad has an "unwritten policy" of treating its employees fairly.

[a]Is the business also a wholesaler? (NRS 639.016)	☐ Yes	☒ No

Wholesaler" means a wholesale distributor as defined by 21 C.F.R. § 205.3(g) who supplies or distributes drugs, medicines or chemicals or devices or appliances that are restricted by federal law to sale by or on the order of a physician to a person **other than the consumer or patient**. The term includes a person who derives, produces, prepares or repackages drugs, medicines or chemicals or devices or appliances that are restricted by federal law to sale by or on the order of a physician on sales orders for resale. The term does not include a nonprofit cooperative agricultural organization which supplies or distributes veterinary drugs and medicines only to its own members.

Vantive US Healthcare, LLC Disclosures

There are no relevant disciplinary actions taken against the applicant corporation Vantive US Healthcare, LLC ("Vantive US") or the facility related to the license. Vantive US is a subsidiary of Baxter Healthcare Corporation, which in turn is a subsidiary of Baxter International Inc., a publicly traded company listed on the New York Stock Exchange with tens of thousands of employees world-wide. For purposes of transparency, we are providing disclosures pertaining to state disciplinary actions and charges against Baxter Healthcare Corporation. Additional information regarding specific Vantive US or Baxter Healthcare Corporation facilities (e.g., inspection history) can be found on the FDA website.

State Pharmacy License Disciplinary Actions

Utah, License # 12435996-1710, 2023

On February 17, 2023, The Utah Board of Pharmacy issued a citation for failure to timely notify the Board of the change in designated representative at the Baxter Byhalia, MS location. Baxter paid the fine and is waiting for the final signed order.

Utah, Pharmacy Class C License # 9451291-1710, 2022

On May 31, 2022, The Utah Department of Commerce issued a Citation and Order due to a failure to file a timely notification of the change in the designated representative at the Baxter - Hayward (W. Winton) location. Baxter resolved the matter and paid a reduced fine.

Idaho, Out of State Mail Service Pharmacy License # 36855MS, 2022

On March 3, 2022, The Idaho Board of Pharmacy issued an Order and Stipulation for violations stemming from an expired non-resident PIC registration. The registration has since been approved by the Board. Baxter has signed the Stipulation and paid the required fine.

Alabama, Permit #194460, 2022

On May 3, 2022, The Alabama Board of Pharmacy issued a citation for failure to notify the Board of the change in designated representative at the Baxter – Hayward (W. Winton location). Baxter resolved the matter and paid the required fine.

Georgia, Wholesaler Pharmacy License # PHWH001754, 2017

In January 2017, Baxter Healthcare Corporation (Baxter) agreed to resolve claims with the U.S. Department of Justice related to quality and manufacturing practices at Baxter's manufacturing facility in Marion, North Carolina in 2011-2012. Specifically, the government charged that between July 2011 and November 2012, Baxter did not follow cGMP requirements under the Federal Food, Drug, and Cosmetic Act (FDCA) when manufacturing certain large volume intravenous (IV) solutions. Briefly, a Baxter employee reported to plant personnel the presence of mold on HEPA filters installed in the ceiling,

and Baxter continued to manufacture IV solutions while those filters remained in place. There was no evidence of any impact on the IV solutions. Copies of the settlement documents, which include a deferred prosecution agreement to resolve a single misdemeanor count of noncompliance with the FDCA, are available on the U.S. Department of Justice's website at https://www.justice.gov/opa/pr/baxter-healthcare-corporation-pay-more-18-million-resolve-criminal-and-civil-liability. The deferred prosecution agreement expired in July 2019, and the misdemeanor charge was dismissed with prejudice. This issue is unrelated to Baxter's pharmacy or wholesale activities.

Baxter disclosed this issue on a renewal application for a Georgia wholesale license for its Marion, NC facility, and in October 2017, the state of Georgia issued a disciplinary order against that license (PHWH001754) based on the disclosure.

Please note that this issue is unrelated to Baxter's pharmacy or wholesale activities.

Iowa, Nonresident Pharmacy License # 4127, 2014

The Iowa Board of Pharmacy (the "Iowa Board") issued a Stipulation for Baxter's Omaha, Nebraska pharmacy due to improperly delegating final verification of prescriptions for peritoneal dialysis solutions to a pharmacy technician. The Omaha facility is licensed in Nebraska under a Delegated Dispensing Permit, and utilized multiple quality checks, including retrospective pharmacist review, to ensure proper dispensing of peritoneal dialysis products to patients. Upon request by the Iowa Board, Baxter promptly modified its operations to ensure pharmacist verification of all orders. Baxter has signed the Stipulation and paid the required fine.

Montana, License #2152, 2010

The Montana Board of Pharmacy (the "Montana Board") issued a Stipulation for violations stemming from the failure of Baxter to notify the Montana Board in the requisite time frame of a change in the designated Person-in-Charge for the Waukegan, IL facility. Baxter has signed the Stipulation and paid the required fine.

Alabama, License #191639, 2009

The Alabama Board of Pharmacy found the Buford, GA facility was in violation of Code of Alabama (1975) Section 34-23-32. The facility continued distribution operations during the time between the valid license expired and when the expired license was renewed. Baxter Healthcare renewed the license, signed a Consent Order and paid the applicable fine.

Florida, Non-Resident Drug Manufacturer Permit No.: 26:4672, 2009

The Florida Department of Health (the "Florida Department") alleged that Baxter (Memphis, TN) sold prescription drugs to an unpermitted facility in Florida in violation of Section 499.005(15), F.S. Specifically, the Florida Department alleged that Baxter sold prescription drugs to Invivo at an unpermitted location. Baxter entered into a settlement agreement, whereby it neither admitted nor denied the allegations, and paid a fine.

Louisiana, License #3691, 2008

Louisiana Board of Wholesale Drug Distributors conducted a routine inspection of the facility operated by Baxter's third party logistics provider. Inspectors concluded Baxter (Round Lake, IL) violated Louisiana Administrative Code 46:XCI.311.D, which requires a licensee to maintain copies of current licenses for its customers who are authorized to obtain and possess legend drugs and devices. Baxter obtained customer licenses, signed a Consent Order, and paid the applicable fine.

Missouri, License #2005002668, 2005

The Missouri Board of Pharmacy (the "Missouri Board") issued a restricted drug distributor license to the facility located in Memphis, TN. The Missouri Board determined the facility violated Section 338.333.1 and 338.337.1 RSMo because the facility shipped legend drugs and/or medical devices into the state without being properly licensed. The proper license was obtained. The probationary period was successfully completed on October 21, 2007 and the restriction on the license was removed.

State Non-Disciplinary Settlements for Memphis Facility

Florida, License #s 26:506 (Memphis, TN) and 26:384 (Marion, NC), 2015

In June 2015, the Florida Department of Business and Professional Regulation (the "Department") sent Notices of Violation to Baxter alleging the shipment of prescription drugs to a Baptist Health South Florida, Inc. ("Baptist"), prior to Baptist receiving its permit to operate as a restricted prescription drug distributor – health care entity. Baxter had shipped products to the Baptist address under the valid medical license of the Medical Director, in reliance on a document evidencing the Medical Director's intent that he serve as the purchaser of the product. In August 2015, Baxter and the Department resolved this matter via a non-disciplinary settlement.

Other Actions: Dismissed Charge of Drug Law Violation

In January 2017, Baxter Healthcare Corporation (Baxter) agreed to resolve claims with the U.S. Department of Justice related to quality and manufacturing practices at Baxter's manufacturing facility in Marion, North Carolina in 2011-2012. Specifically, the government charged that between July 2011 and November 2012, Baxter did not follow cGMP requirements under the Federal Food, Drug, and Cosmetic Act (FDCA) when manufacturing certain large volume intravenous (IV) solutions. Briefly, a Baxter employee reported to plant personnel the presence of mold on HEPA filters installed in the ceiling, and Baxter continued to manufacture IV solutions while those filters remained in place. There was no evidence of any impact on the IV solutions. Copies of the settlement documents, which include a deferred prosecution agreement to resolve a single misdemeanor count of noncompliance with the FDCA, are available on the U.S. Department of Justice's website at https://www.justice.gov/opa/pr/baxter-healthcare-corporation-pay-more-18-million-resolve-criminal-and-civil-liability. The deferred prosecution agreement expired in July 2019, and the misdemeanor charge was dismissed with prejudice.

Please note that this issue is unrelated to Baxter's pharmacy or wholesale activities, or the facility that is the subject of this application.

— **Division of Drugs, Devices and Cosmetics**

Does my company need a permit?

DDC permitting requirements as regards drugs, (medical) devices and cosmetics fall into two main categories:(a) manufacturing and repackaging of drugs, medical devices and cosmetics conducted in Florida, and (b) distributing drugs, medical devices and cosmetics in and into Florida.

Activity Description	Location	Permit (Generally) Required under Chapter 499?
Manufacturing a Drug, Device or Cosmetic	In Florida	Yes
Repackaging a Drug, Device or Cosmetic	In Florida	Yes
Distributing a Prescription Drug	In or Into Florida	Yes
Distributing an Over-the-Counter Drug	In or Into Florida	No
Distributing a Device	In or Into Florida	No
Distributing a Cosmetic	In or Into Florida	No

- What is a "drug", "device", or "cosmetic"?

Refer to Section 499.003, Florida Statutes: http://www.leg.state.fl.us/statutes /index.cfm?App_mode=Display_Statute&Search_String=&URL=0400-0499/0499/Sections /0499.003.html (http://www.leg.state.fl.us/statutes/index.cfm?App_mode=Display_Statute& Search_String=&URL=0400-0499/0499/Sections/0499.003.html) Please note that "drug"

REGULATION OF TRADE, COMMERCE, INVESTMENTS, AND SOLICITATIONS

Chapter 499
FLORIDA DRUG AND COSMETIC ACT

View Entire Chapter

499.015 Registration of drugs and devices; issuance of certificates of free sale.—

(1)(a) Except for those persons exempted from the definition of manufacturer in s. 499.003, any person who manufactures, packages, repackages, labels, or relabels a drug or device in this state must register such drug or device biennially with the department; pay a fee in accordance with the fee schedule provided by s. 499.041; and comply with this section. The registrant must list each separate and distinct drug or device at the time of registration.

(b) The department may not register any product that does not comply with the Federal Food, Drug, and Cosmetic Act, as amended, or Title 21 C.F.R. Registration of a product by the department does not mean that the product does in fact comply with all provisions of the Federal Food, Drug, and Cosmetic Act, as amended.

(2) The department may require the submission of a catalog and specimens of labels at the time of application for registration of drugs or devices packaged and prepared in compliance with the federal act, which submission constitutes a satisfactory compliance for registration of the products. With respect to all other drugs and devices, the department may require the submission of a catalog and specimens of labels at the time of application for registration, but the registration will not become effective until the department has examined and approved the label of the drug or device. This approval or denial must include written notification to the manufacturer.

(3) Except for those persons exempted from the definition of manufacturer in s. 499.003, a person may not sell any product that he or she has failed to register in conformity with this section. Such failure to register subjects such drug or device to seizure and condemnation as provided in s. 499.062, and subjects such person to the penalties and remedies provided in this part.

(4) Unless a registration is renewed, it expires 2 years after the last day of the month in which it was issued. Any product registration issued or renewed on or after July 1, 2016, shall expire on the same date as the manufacturer or repackager permit of the person seeking to register the product. If the first product registration issued to a person on or after July 1, 2016, expires less than 366 days after issuance, the fee for product registration shall be $15. If the first product registration issued to a person on or after July 1, 2016, expires more than 365 days after issuance, the fee for product registration shall be $30. The department may issue a stop-sale notice or order against a person that is subject to the requirements of this section and that fails to comply with this section within 31 days after the date the registration expires. The notice or order shall prohibit such person from selling or causing to be sold any drugs or devices covered by this part until he or she complies with the requirements of this section.

(5) A product regulated under this section which is not included in the biennial registration may not be sold until it is registered and complies with this section.

(6) The department may issue a certificate of free sale for any product that is required to be registered under this part.

(7) A product registration is valid only for the company named on the registration and located at the address on the registration. A person whose product is registered by the department under this section must

notify the department before any change in the name or address of the establishment to which the product is registered. If a person whose product is registered ceases conducting business, the person must notify the department before closing the business.

(8) Notwithstanding any requirements set forth in this part, a manufacturer of medical devices that is registered with the federal Food and Drug Administration is exempt from this section and s. 499.041(6) if:

(a) The manufacturer's medical devices are approved for marketing by, or listed with the federal Food and Drug Administration in accordance with federal law for commercial distribution; or

(b) The manufacturer subcontracts with a manufacturer of medical devices to manufacture components of such devices.

(9) However, the manufacturer must submit evidence of such registration, listing, or approval with its initial application for a permit to do business in this state, as required in s. 499.01, and any changes to such information previously submitted at the time of renewal of the permit. Evidence of approval, listing, and registration by the federal Food and Drug Administration must include:

(a) For Class II devices, a copy of the premarket notification letter (510K);

(b) For Class III devices, a federal Food and Drug Administration premarket approval number;

(c) For a manufacturer who subcontracts with a manufacturer of medical devices to manufacture components of such devices, a federal Food and Drug Administration registration number; or

(d) For a manufacturer of medical devices whose devices are exempt from premarket approval by the federal Food and Drug Administration, a federal Food and Drug Administration registration number.

History.—s. 34, ch. 82-225; s. 110, ch. 83-218; s. 1, ch. 83-265; s. 3, ch. 84-115; ss. 20, 52, ch. 92-69; s. 587, ch. 97-103; s. 36, ch. 98-151; s. 1, ch. 99-165; s. 41, ch. 2000-242; s. 12, ch. 2000-326; s. 18, ch. 2001-63; s. 33, ch. 2001-89; s. 88, ch. 2004-5; s. 18, ch. 2008-207; s. 63, ch. 2009-21; s. 36, ch. 2014-89; s. 10, ch. 2016-212; s. 33, ch. 2017-3; s. 1, ch. 2017-51; s. 8, ch. 2019-99.

[1]**Note.**—

A. Section 11, ch. 2019-99, provides in part that "[i]mplementation of sections 2 through 10 of this act is contingent upon authorization granted under federal law, rule, or approval." Section 11, ch. 2019-99, was codified as s. 499.02851. Section 12, ch. 2019-99, provides that "[t]his act shall take effect July 1, 2019."

B. Subject to the contingency as to implementation in s. 11, ch. 2019-99, s. 8, ch. 2019-99, amends subsection (1), to read:

(1)(a) Except for those persons exempted from the definition of manufacturer in s. 499.003, any person who manufactures, packages, repackages, labels, or relabels a drug or device in this state must register such drug or device biennially with the department; pay a fee in accordance with the fee schedule provided by s. 499.041; and comply with this section. The registrant must list each separate and distinct drug or device at the time of registration.

(b) The department may not register any product that does not comply with the Federal Food, Drug, and Cosmetic Act, as amended, or Title 21 C.F.R. Registration of a product by the department does not mean that the product does in fact comply with all provisions of the Federal Food, Drug, and Cosmetic Act, as amended.

(c) Registration under this section is not required for prescription drugs imported under the International Prescription Drug Importation Program established in s. 499.0285.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 30235006

Application/License No. _____

VANTIVE US HEALTHCARE LLC (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 7511 114th Avenue North Largo, FL 33773 (Address of Applicant/Principal), as PRINCIPAL, and WESTERN SURETY COMPANY (Surety Company), a corporation organized under the laws of the state of SD (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 151 N. Franklin Street Chicago, IL 60606 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on February 20, 2025 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

Posted February 20, 2020

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS
639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 20th day of February, 2025.

This Power of Attorney is made and executed pursuant to and by authority of the following By-Law duly adopted by the shareholders of the Company.

Section 7. All bonds, policies, undertakings, Powers of Attorney, or other obligations of the corporation shall be executed in the corporate name of the Company by the President, Secretary, and Assistant Secretary, Treasurer, or any Vice President, or by such other officers as the Board of Directors may authorize. The President, any Vice President, Secretary, any Assistant Secretary, or the Treasurer may appoint Attorneys in Fact or agents who shall have authority to issue bonds, policies, or undertakings in the name of the Company. The corporate seal is not necessary for the validity of any bonds, policies, undertakings, Powers of Attorney or other obligations of the corporation. The signature of any such officer and the corporate seal may be printed by facsimile.

This Power of Attorney is signed by Larry Kasten, Vice President, who has been authorized pursuant to the above Bylaw to execute power of attorneys on behalf of Western Surety Company.

This Power of Attorney may be signed by digital signature and sealed by a digital or otherwise electronic-formatted corporate seal under and by the authority of the following Resolution adopted by the Board of Directors of the Company by unanimous written consent dated the 27th day of April, 2022:

"RESOLVED: That it is in the best interest of the Company to periodically ratify and confirm any corporate documents signed by digital signatures and to ratify and confirm the use of a digital or otherwise electronic-formatted corporate seal, each to be considered the act and deed of the Company."

VANTIVE US HEALTHCARE LLC

POWER OF ATTORNEY

As contemplated by the resolutions adopted by the Board of Directors of Vantive US Healthcare LLC, a Delaware limited liability corporation ("the Corporation"), effective October 20, 2023 ("Resolutions"), a copy of such Resolutions is attached hereto as Exhibit A, the undersigned Matthew Rice, Assistant Secretary, an Authorized Representative of Vantive US Healthcare LLC, hereby delegates to Keegan Chamberlain, Director of Quality Management and LaToyia Martin, Manager, Quality Compliance, employees of Cardinal Health 200 LLC, the authority to sign for all documents, applications, submissions and other related instruments required for the state pharmacy, wholesale distribution, and manufacturing licenses and legally required permits filed on behalf of Vantive US Healthcare LLC.

This power of attorney shall be effective until December 31, 2024 and is subject to revocation by any officer of Vantive US Healthcare LLC at any time and shall occur automatically when Keegan Chamberlain or LaToyia Martin ceases to be an employee of Cardinal Health 200 LLC.

The undersigned further approves and ratifies any and all actions taken by Keegan Chamberlain and LaToyia Martin prior to this date, solely in connection with the execution of the above-referenced matters.

Effective: October ___, 2023

Vantive US Healthcare LLC

VANTIVE US HEALTHCARE LLC
MISCELLANEOUS RESOLUTIONS
Adopted October 20, 2023

VANTIVE US HEALTHCARE LLC

WRITTEN CONSENT
OF THE MANAGERS

Effective as of October 20, 2023 ("Effective Date")

THE UNDERSIGNED, being all of the managers (the "Managers") of Vantive US Healthcare LLC, a Delaware limited liability company (the "Company"), do hereby, pursuant to the provisions of Section 18-404 of the Delaware Limited Liability Company Act, approve, adopt, consent to and vote for the following actions and resolutions and each and every action effected thereby:

APPROVAL OF THE FORMATION AND FORMATION ACTIONS

****

MISCELLANEOUS

RESOLVED, that any Manager or officer of the Company, or such other individuals that the Company shall, by power of attorney or otherwise, determine to be necessary, appropriate or advisable (together, the "Authorized Representatives" and each, an "Authorized Representative"), be and each hereby is authorized, empowered and directed, acting jointly with one or more other Authorized Representatives, to do or cause to be done all things and acts, to negotiate, approve, execute, acknowledge, sign, deliver, file and perform or cause to be negotiated, approved, executed, acknowledged, signed, delivered, filed and performed on behalf of the Company any such agreements, instruments or other documents, make all filings, issue powers of attorney, and otherwise take any further action, which in the judgment of the Authorized Representatives are necessary, appropriate or advisable to consummate the foregoing resolutions and perform its obligations thereunder and otherwise to carry out and comply with the intent and purposes of the resolutions herein;

FURTHER RESOLVED, that all of the past acts and transactions of any Authorized Representative (or other representative or agent of the Company), including, but not limited to, preparation, execution, deliveries and filings of agreements, instruments, certificates and other documents in the name of and on behalf of the Company or any of its affiliates, and all fees and expenses (including taxes) incurred or paid by any Authorized Representative (or other representative or agent of the Company) having been deemed necessary, proper or advisable to carry out the intent and effectuate the purposes hereof, prior to the execution of these resolutions, taken in good faith in the name and on behalf of the Company or any of its affiliates pursuant to and consistent with the resolutions contained herein, be and hereby are consented to, adopted, authorized, approved, confirmed and ratified in all respects; and

FURTHER RESOLVED, that these resolutions may be executed in any number of counterparts, each of which when so executed and delivered shall be deemed an original, but all such counterparts

IN WITNESS WHEREOF, the undersigned have duly executed this Written Consent effective as of the Effective Date.

RE: Notification of Pending Ownership Changes for Vantive US Healthcare LLC
Medical Devices – License Number MP00799

Dear Sir/Madam:

This letter is intended to notify you of two upcoming changes in the ownership of Vantive US Healthcare LLC ("VH-US"), which currently holds the following license(s) issued by Nevada State Board of Pharmacy:

- Medical Devices – License Number MP00799

These upcoming ownership changes, which are further described below, are anticipated to happen in close succession. As such, we would like to request that the two changes (i) be treated as a single change of ownership for licensing purposes, (ii) be processed through the submission of a single change of ownership application (for each license referenced above), and (iii) upon approval, result in the issuance of a single new license to VH-US or continuation of existing VH-US license.

In support of these requests, we have provided below specific details regarding the two planned ownership changes as well as relevant background information.

Background

The upcoming ownership changes that are the focus of this letter follow certain corporate changes involving VH-US that have occurred over the last year. These changes are illustrated by the corporate structure charts included in Attachment A (**See Charts A and B**). In summary:

- In early 2023, Baxter International Inc. ("BII"), the parent company of Baxter Healthcare Corporation ("BHC"), publicly announced its intention to separate its Kidney Care (renal and acute therapies) business into a new, independent publicly traded company.

- In executing this separation, two new legal entities were formed: (i) Vantive Health LLC ("VH"), which was established as a direct subsidiary of BII, and (ii) VH-US, which was established as a direct subsidiary of BHC.

- Steps were then initiated to transfer all relevant state licenses previously held by BHC to VH-US, which is the current license holder.

Details of Upcoming Ownership Changes

Two ownership changes involving VH-US are now contemplated:

- Ownership Change #1 (direct change): On or around December 31, 2024, VH-US (which is currently a direct subsidiary of BHC) will become a direct subsidiary of VH (**See Chart C** in Attachment A). Accordingly, VH will be the new "parent" of VH-US, with BII remaining the "grandparent" of VH-US.

- Ownership Change #2 (indirect change): While the initial plan (as noted above) was for BII's Kidney Care business to be a public spin-off, in August 2024, BII announced that it had executed a definitive agreement to sell the Kidney Care business to funds affiliated with the global investment firm, The Carlyle Group. As a result of this transaction, which is expected to close by the end of 2024 or early 2025, Spruce Bidco, II, Inc. ("SB"), a Delaware corporation that is part of The Carlyle Group , will obtain 100% ownership in VH, thus replacing BII as the "grandparent" (i.e., indirect owner) of VH-US (**See Chart D** in Attachment A).

Of note, VH-US, the current license holder, will remain the license holder following Ownership Changes #1 and #2. In addition, these upcoming changes will not result in any change to the EIN of VH-US, nor will there be any changes to VH-US's day-to-day facility operations or the products/services currently provided.[42]

Request

Given that these upcoming ownership changes are expected to occur in close succession, we request that the two changes (i) be treated as a single change of ownership for licensing purposes, (ii) be processed through the submission of a single change of ownership application (for each license referenced above), and (iii) upon approval by Nevada State Board of Pharmacy, result in the issuance of a single new license to VH-US.

We plan to begin the license application submission process in the next ten (10) days. We therefore respectfully request that you let us know at your earliest convenience—within the next ten (10) days—if you have any concerns granting these requests, or if you require any additional information regarding the proposed ownership changes to make such determination. Otherwise, we will proceed with filing the necessary licensing application(s) and supporting document(s), as applicable, in accordance with the applicable deadlines.

[42] Although occasional and periodic changes in the VH-US Officers slate may occur, VH-US will notify Nevada State Board of Pharmacy of any such changes in accordance with the requisite state notification process.

****

We are committed to ensuring compliance with applicable statutory and regulatory licensing requirements, and look forward to aligning on our proposed approach to handling the ownership changes described in this letter. To the extent any of the timelines noted above are materially delayed and/or there is a material change to the anticipated transaction structure outlined above (and in Attachment A), we will promptly update you.

Thank you in advance for your consideration of our requests. Please do not hesitate to contact me if there are any questions or concerns.

Sincerely,

LaToyia M. Martin
Manager, Quality Compliance

To: Maria Herrera; GMB-HSCS-Facility Licensure
Subject: RE: Nevada out-of-state Wholesaler Application-RGH Enterprises, LLC dba Cardinal Health at Home Fort Worth, TX

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hi Maria,

The Fort Worth location is a new facility, so he does not have experience there until the facility goes live. His experience is at the RGH location in Grand Prairie and then will be moving to the Fort Worth location.

Thanks,

Cara Belinske
Sr. Specialist, Quality Compliance
7200 Cardinal Place, QRA, Dublin, OH 43017

Subject: Nevada out-of-state Wholesaler Application-RGH Enterprises, LLC dba Cardinal Health at Home Fort Worth, TX

External Email – Please use caution before opening attachments or clicking links

The Nevada State Board of Pharmacy received a Wholesaler application from RGH Enterprises, LLC dba Cardinal Health at Home. The application is incomplete due to the following missing item(s).

- Please note the MDEG Administrator does not list the Fort Worth, TX location on section 7?

All items must be received to move forward with processing your application.

Please let me know if you have any questions.

Thank you,

Maria Herrera
Licensing Specialist
Nevada State Board of Pharmacy

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 8-K

CURRENT REPORT

Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): March 7, 2025

Cardinal Health, Inc.

(Exact Name of Registrant as Specified in Charter)

Ohio	1-11373	31-0958666
(State or Other Jurisdiction of Incorporation)	(Commission File Number)	(IRS Employer Identification No.)

7000 Cardinal Place, Dublin, Ohio 43017
(Address of Principal Executive Offices) (Zip Code)

(614) 757-5000
(Registrant's telephone number, including area code)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions (*see* General Instruction A.2. below):

☐ Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)

☐ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)

☐ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common shares (without par value)	CAH	New York Stock Exchange

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

On March 7, 2025, the Board of Directors (the "Board") of Cardinal Health, Inc. (the "Company") elected Robert W. Musslewhite and Sudhakar Ramakrishna to the Board, effective immediately. Messrs. Musslewhite and Ramakrishna will serve until the 2025 annual meeting of shareholders and until their successors are elected and qualified or until their earlier resignation, removal from office, or death. The Board has appointed Mr. Musslewhite to serve on the Audit and Human Resources and Compensation Committees and has appointed Mr. Ramakrishna to serve on the Audit and Risk Oversight Committees. Mr. Musslewhite is the former Chief Executive Officer of Definitive Healthcare Corp., a provider of healthcare commercial intelligence. Mr. Ramakrishna is the President and Chief Executive Officer of SolarWinds Corporation, a provider of observability and information technology management software.

The Board has affirmatively determined that each of Messrs. Musslewhite and Ramakrishna is "independent" under the rules of the New York Stock Exchange and the rules and regulations under the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act").

Messrs. Musslewhite and Ramakrishna will receive compensation consistent with that received by the Company's other non-employee directors, as described in the Company's proxy statement on Schedule 14A for the 2024 annual meeting of shareholders, filed with the U.S. Securities and Exchange Commission on September 16, 2024.

There are no arrangements or understandings between either Messrs. Musslewhite or Ramakrishna and any other person pursuant to which they were appointed as a director. At this time, there are no transactions in which either Messrs. Musslewhite or Ramakrishna has or will have an interest that would be required to be disclosed pursuant to Item 404(a) of Regulation S-K under the Exchange Act.

Item 7.01. Regulation FD Disclosure.

The Company issued a news release on March 10, 2025 announcing the election of Messrs. Musslewhite and Ramakrishna to the Board, which is being furnished as Exhibit 99.1 to this Form 8-K.

Item 9.01. Financial Statements and Exhibits.

Robert Musslewhite and Sudhakar Ramakrishna to join Cardinal Health Board of Directors

DUBLIN, Ohio, March 10, 2025 – Cardinal Health (NYSE:CAH) announced today that its Board of Directors has elected Robert Musslewhite, former Chief Executive Officer of Definitive Healthcare Corp., and Sudhakar Ramakrishna, President and Chief Executive Officer of SolarWinds Corporation, as independent directors, effective March 7, 2025.

With more than 20 years of leadership experience, including serving as CEO for two publicly traded companies, Mr. Musslewhite brings to the board unique expertise in advanced analytics, data, and technology across the healthcare ecosystem. Mr. Musslewhite is also an experienced board member, currently serving on the Board of Directors of CoStar Group, Inc., and previously serving as a board member for companies within the healthcare industry, including Definitive Healthcare Corp., The Advisory Board Company and Evolent Health, Inc. Mr. Musslewhite will serve as a member of the board's Audit and Human Resources and Compensation Committees.

Mr. Ramakrishna is an experienced CEO and global technology leader with more than two decades of technology and business expertise. Mr. Ramakrishna has a history of helping matrixed organizations implement effective cybersecurity measures and navigate crises. Mr. Ramakrishna currently serves on the Board of Directors of SolarWinds Corporation and previously served on the Board of Directors of other technology companies, including Enterprise 4.0 Technology Acquisition Corp., SailPoint Technologies Holdings, Inc., Mitel Networks Corporation and Meru Networks, Inc. Mr. Ramakrishna will serve as a member of the Audit and Risk Oversight Committees.

"Robert brings decades of experience in leading technology-oriented healthcare companies and successfully driving rapid growth and innovation," said Gregory Kenny, Chairman of the Board for Cardinal Health. "Robert's expertise in strategic uses of data across healthcare systems and navigating complex business environments will be a great contribution to the board. Likewise, Sudhakar's proven leadership in both technology and business strategy, combined with his ability to collaborate and drive results, will be a tremendous asset to the company. We are pleased to welcome them to our board and look forward to their valuable insights."

"Robert and Sudhakar bring extensive experience and proven leadership with strong backgrounds in technology, which will be instrumental in helping us navigate complex and rapidly evolving environments," said Jason Hollar, CEO of Cardinal Health. "Their track records of delivering results align with our culture, and we look forward to the contributions they will make to Cardinal Health."

Robert Musslewhite – Brief Bio

Mr. Musslewhite currently serves as an advisor to a private equity firm and previously served as Chief Executive Officer of Definitive Healthcare Corp. Prior to that, he served as the Chief Executive Officer of OptumInsight, a division of UnitedHealth Group Incorporated, and before that was the Chair and Chief Executive Officer of The Advisory Board Company. He also previously held multiple positions at McKinsey & Company.

Mr. Musslewhite holds a degree in Economics from Princeton University and is a graduate of Harvard Law School.

Sudhakar Ramakrishna – Brief Bio

Mr. Ramakrishna currently serves as the President and Chief Executive Officer of SolarWinds Corporation. He previously served as the Chief Executive Officer of Pulse Secure, LLC, and prior to that he served in senior leadership roles at Citrix Systems, Inc. Mr. Ramakrishna also has held senior leadership roles at a variety of other technology companies, including Polycom, Inc., Motorola, Inc., Stoke, Inc., 3COM Corporation and U.S. Robotics Corporation.

Mr. Ramakrishna holds a Bachelor of Engineering in Computer Science and Engineering from Osmania University, a Master of Science in Computer Science from Kansas State University and a Master of Management from Northwestern University.

Attachment to Emergent Devices Inc.'s Out-of-State Wholesaler Application (Nevada Board of Pharmacy)

Description of Operations

Emergent Devices Inc. ("Emergent") is an OTC virtual manufacturer headquartered in Plymouth Meeting, Pennsylvania.

Emergent is also a (virtual) distributor of a non-controlled Rx drug through a marketing agreement with Hikma Pharmaceuticals for the (virtual) distribution in the US of Hikma's Rx product.

Emergent sells the Rx prescription and OTC drug products to state, local and county government agencies, federal agencies, nonprofit organizations, pharmacies, licensed practitioners, wholesalers, retailers, and business to business customers, schools, law enforcement, treatment center and community-based organizations.

These products are manufactured by contract manufacturers and then shipped directly to a third-party logistics provider for warehousing and distribution. No drugs are or will be manufactured, stored, or distributed at the Plymouth Meeting, Pennsylvania, facility.

The Plymouth Meeting, Pennsylvania, facility is the corporate headquarters for Emergent Devices Inc. Hours of operation are Monday – Friday from 9:00 a.m. to 5:30 p.m.

Registrant's Telephone Number, Including Area Code: (240) 631-3200

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	*Trading Symbol(s)*	*Name of Each Exchange on Which Registered*
Common stock, $0.001 par value per share	**EBS**	**New York Stock Exchange**

Securities registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of Securities Act. Yes ☐ No ☒

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "non-accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐ Accelerated filer ☒ Non-accelerated filer ☐ Smaller reporting company ☐ Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. Yes ☒ No ☐

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The aggregate market value of voting and non-voting common equity held by non-affiliates of the registrant as of June 30, 2023 was approximately $380.7 million based on the price at which the registrant's common stock was last sold on that date as reported on the New York Stock

Exchange.

As of February 28, 2024, the registrant had 52,203,433 shares of common stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's definitive proxy statement for its 2024 annual meeting of stockholders which is expected to be filed with the Securities and Exchange Commission not later than 120 days after the end of the registrant's fiscal year ended December 31, 2023, are incorporated by reference into Part III of this Annual Report on Form 10-K. With the exception of the portions of the registrant's definitive proxy statement for its 2024 annual meeting of stockholders that are expressly incorporated by reference into this Annual Report on Form 10-K, such proxy statement shall not be deemed filed as part of this Annual Report on Form 10-K.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K and the documents we incorporate by reference include forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, including statements regarding the future performance of Emergent BioSolutions Inc. or any of our businesses, our business strategy, future operations, future financial position, future revenues and earnings, projected costs, prospects, plans and objectives of management, are forward-looking statements. We generally identify forward-looking statements by using words like "anticipate," "believe," "continue," "could," "estimate," "expect," "forecast," "future", "goal," "intend," "may," "plan," "position," "possible," "potential," "predict," "project," "should," "target", "will," "would," and similar expressions or variations thereof, or the negative thereof, but these terms are not the exclusive means of identifying such statements. These forward-looking statements are based on our current intentions, beliefs, assumptions and expectations regarding future events based on information that is currently available. You should realize that if underlying assumptions prove inaccurate or unknown risks or uncertainties materialize, actual results could differ materially from our expectations. You are, therefore, cautioned not to place undue reliance on any forward-looking statement contained herein. Any forward-looking statement speaks only as of the date on which such statement is made and, except as required by law, we do not undertake any obligation to update any forward-looking statement to reflect new information, events or circumstances.

There are a number of important factors that could cause our actual results to differ materially from those indicated by such forward-looking statements, including, among others:

- the availability of U.S. Government ("USG") funding for contracts related to procurement of our medical countermeasures ("MCM"), including CYFENDUS® (Anthrax Vaccine Adsorbed, Adjuvanted), previously known as AV7909, BioThrax® (Anthrax Vaccine Adsorbed) and ACAM2000® (Smallpox (Vaccinia) Vaccine, Live) among others, as well as contracts related to development of medical countermeasures;
- the availability of government funding for our other commercialized products, including Ebanga™ (ansuvimab-zykl), BAT® (Botulism Antitoxin Heptavalent (A,B,C,D,E,F,G)-(Equine)) and RSDL® (Reactive Skin Decontamination Lotion Kit);
- our ability to meet our commitments to quality and compliance in all of our manufacturing operations;
- our ability to negotiate additional USG procurement or follow-on contracts for our MCM products that have expired or will be expiring;
- the commercial availability and acceptance of over-the-counter NARCAN® (naloxone HCl) Nasal Spray;
- the impact of a generic and competitive marketplace on NARCAN® Nasal Spray and future NARCAN® Nasal Spray sales;
- our ability to perform under our contracts with the USG, including the timing of and specifications relating to deliveries;
- our ability to provide bioservices for the development and/or manufacture of product and/or product candidates of our customers at required levels and on required timelines;
- the ability of our contractors and suppliers to maintain compliance with current good manufacturing practices and other regulatory obligations;
- our ability to negotiate further commitments related to the collaboration and deployment of capacity toward future commercial manufacturing under our existing Bioservices contracts;
- our ability to collect reimbursement for raw materials and payment of service fees from our Bioservices customers;
- the results of pending stockholder litigation and government investigations and their potential impact on our business;
- our ability to comply with the operating and financial covenants required by our revolving credit facility (the "Revolving Credit Facility") and our term loan facility (the "Term Loan Facility" and, together with the Revolving Credit Facility, the "Senior Secured Credit Facilities") under a senior secured credit agreement, dated October 15, 2018, between the Company and multiple lending institutions, as amended from time to time, as well as our 3.875% Senior Unsecured Notes due 2028 ("Senior Unsecured Notes");
- our ability to remediate a material weakness in our internal control over financial reporting and to prepare accurate financial statements in a timely manner;

- our ability to resolve the going concern qualification in our consolidated financial statements and otherwise successfully manage our liquidity in order to continue as a going concern;
- the procurement of our product candidates by USG entities under regulatory authorities that permit government procurement of certain medical products prior to United States Food and Drug Administration ("FDA") marketing authorization, and corresponding procurement by government entities outside of the United States;
- our ability to realize the expected benefits of the sale of our travel health business to Bavarian Nordic;
- the impact of the organizational changes we announced in January 2023 and August 2023;
- the success of our commercialization, marketing and manufacturing capabilities and strategy;
- our ability to identify and acquire companies, businesses, products or product candidates that satisfy our selection criteria;
- the impact of cybersecurity incidents, including the risks from the unauthorized access, interruption, failure or compromise of our information systems or those of our business partners, collaborators or other third parties; and
- the accuracy of our estimates regarding future revenues, expenses, capital requirements and needs for additional financing.

The foregoing sets forth many, but not all, of the factors that could cause actual results to differ from our expectations in any forward-looking statement. When evaluating our forward-looking statements, you should consider this cautionary statement along with the risk factors identified in the sections entitled "Risk Factor Summary," "Risk Factors" in Part I, Item 1A of this Annual Report on Form 10-K and the risk factors identified in our other periodic reports filed with the SEC when evaluating our forward-looking statements. New factors emerge from time to time, and it is not possible for management to predict all such factors, nor can it assess the impact of any such factor on the business or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement.

NOTE REGARDING COMPANY REFERENCES

Emergent®, BioThrax®, BaciThrax®, RSDL®, BAT®, Trobigard®, Anthrasil®, CNJ-016®, ACAM2000®, NARCAN®, CYFENDUS®, TEMBEXA® and any and all Emergent BioSolutions Inc. brands, products, services and feature names, logos and slogans are trademarks or registered trademarks of Emergent BioSolutions Inc. or its subsidiaries in the United States or other countries. All other brands, products, services and feature names or trademarks are the property of their respective owners.

PART I

ITEM 1. BUSINESS

OVERVIEW

We are a global life sciences company focused on providing innovative preparedness and response solutions addressing accidental, deliberate and naturally occurring public health threats ("PHTs"). Our solutions include a product portfolio, a product development portfolio, and a Bioservices portfolio. The types of PHTs we are currently addressing are focused on the following four categories:

- chemical, biological, radiological, nuclear and explosives ("CBRNE");
- emerging infectious diseases ("EID");
- public health crises (such as the opioid crisis); and
- acute, emergency and community care.

Our revenues are derived from a combination of the sale and procurement of our product/product candidate portfolio (described below), the provision of our bioservices to external customers, and non-dilutive contract and grant funding for research and development ("R&D") projects from various third-party sources.

OUR OPERATING SEGMENTS

In the fourth quarter of 2023, we realigned our reportable operating segments to reflect recent changes in our internal operating and reporting process. The revised reporting structure reflects the internal reporting and review process used by our Chief Operating Decision Maker, for making decisions and assessing performance, and is consistent with how we currently manage the business.

We now manage our business with a focus on three reportable segments:

- our Commercial Products Segment consisting of NARCAN® and other commercial products which were sold as part of our travel health business in the second quarter of 2023;
- our MCM Products Segment consisting of Anthrax—MCM products, Smallpox—MCM products and Other Products (as discussed below); and
- our Services Segment consisting of our Bioservices portfolio.

Additionally, we have a centralized R&D organization and an enterprise-wide governance approach to managing our portfolio of R&D projects.

Commercial Products Segment

In the U.S. and international markets, our Commercial business primarily focuses on sales of NARCAN® (naloxone HCl) Nasal Spray. NARCAN® Nasal Spray is sold commercially over-the-counter at retail pharmacies and digital commerce websites as well as through physician-directed or standing order prescriptions at retail pharmacies, health departments, local law enforcement agencies, community-based organizations, substance abuse centers and other federal agencies.

On May 15, 2023, we completed the sale of our products segment's travel health business, including rights to Vivotif®, the licensed typhoid vaccine; Vaxchora®, the licensed cholera vaccine; the development-stage chikungunya vaccine candidate CHIKV VLP; the Company's manufacturing site in Bern, Switzerland; and certain of its development facilities in San Diego, California. In connection with the divestiture, the Company entered into a Transition Services Agreement ("TSA") with Bavarian Nordic to help support its ongoing operations. Under the TSA, the Company provides certain transition services to Bavarian Nordic, including information technology, finance and enterprise resource planning, research and development, human resources, employee benefits and other limited services. Services pursuant to the TSA remain ongoing. For additional information, refer to Note 3, "Divestiture."

MCM Products Segment

Our Government - MCM business focuses primarily on procurement of MCM products and procured product candidates by domestic and international government customers, with an emphasis on the United States ("U.S.") Government ("USG"), which is our largest customer. We also sell MCM products and procured product candidates to domestic and international non-government organizations and to governments outside of the U.S.

Services Segment

Our portfolio of Bioservices consists of three distinct but interrelated service pillars: development services (process and analytical development); drug substance manufacturing; and drug product manufacturing (fill/finish). These services, which we collectively refer to as a "molecule-to-market" offering, employ diverse technology platforms across a network of development and manufacturing sites operated by us. These Bioservices support all phases of the drug development life cycle, from pre-clinical development programs through commercial manufacturing of approved pharmaceutical products. The customer base for Bioservices is primarily innovators in the biotechnology and pharmaceutical segments.

OUR STRATEGY

The Company continues to execute the three-year strategic plan (2023-2025) adopted by management to strengthen the Company's financial position and adapt to new strategic priorities. We expected this strategy would refocus the business and increase the Company's ability to make more aggressive investments for future growth.

Specifically, throughout 2023 the Company has taken significant steps to strengthen our financial position and de-risk the business. We have executed the travel health divestiture, implemented actions intended to save over $160 million of annualized operating expense, and announced a strategic shift to de-emphasize our CDMO business as a source of growth. At the same time, we have achieved a number of positive milestones in our core products business, including the receipt of approximately $250 million of USG orders for ACAM2000® (discussed more fully below), VIGIV CNJ-016® and BAT®, the FDA approvals of CYFENDUS® and NARCAN® over-the-counter, new long-term contracts for RSDL® and Ebanga™ and the growth of NARCAN® Nasal Spray.

PRIMARY PRODUCTS AND PRODUCT CANDIDATES

Government - MCM Products

The current portfolio of our Government - MCM business consists of the following products:

GOVERNMENT - MCM PRODUCTS		
Product	**Indication(s)**	**Regulatory Approvals, Licensures or Clearances**
ACAM2000®, (Smallpox (Vaccinia) Vaccine, Live)	Vaccine for active immunization against smallpox disease for persons determined to be at high risk for smallpox infection.	United States, Australia, Singapore, Canada
ANTHRASIL® [Anthrax Immune Globulin Intravenous (human)]	Treatment of inhalational anthrax in adult and pediatric patients in combination with appropriate antibacterial drugs.	United States, Canada
BAT® [Botulism Antitoxin Heptavalent (A,B,C,D,E,F,G)-(Equine)]	Treatment of symptomatic botulism following documented or suspected exposure to botulinum neurotoxin serotypes A, B, C, D, E, F, or G in adults and pediatric patients.	United States, Canada, Ukraine, Singapore
BioThrax® (Anthrax Vaccine Adsorbed)	Vaccine for active immunization for the prevention of disease caused by *Bacillus anthracis* in persons 18 through 65 years of age. BioThrax® is approved for: 1. Pre-exposure prophylaxis of disease in persons at high risk of exposure. 2. Post-exposure prophylaxis of disease following suspected or confirmed *Bacillus anthracis* exposure, when administered in conjunction with recommended antibacterial drugs.	United States, Canada, France (where it is known as BaciThrax®), Germany, Italy, the Netherlands, Poland, Singapore and UK
CYFENDUS® (Anthrax Vaccine Adsorbed Adjuvanted)	Previously known as AV7909, approved by the FDA for post-exposure prophylaxis of disease following suspected or confirmed exposure to Bacillus anthracis in persons 18 through 65 years of age when administered in conjunction with recommended antibacterial drugs.	United States
Ebanga™ (ansuvimab-zykl), for injection	Treatment of infection caused by *Zaire ebolavirus* in adult and pediatric patients, including neonates born to a mother who is RT-PCR positive for *Zaire ebolavirus* infection.	United States
Raxibacumab injection	Treatment of adult and pediatric patients with inhalational anthrax due to *Bacillus anthracis* in combination with appropriate antibacterial drugs and for prophylaxis of inhalational anthrax when alternative therapies are not available or are not appropriate.	United States
RSDL® (Reactive Skin Decontamination Lotion Kit)	Intended to remove or neutralize chemical warfare agents and T-2 Toxin from the skin.	United States (510k), Australia, Canada, European Union and Israel
TEMBEXA® (brincidofovir), (tablet and oral suspension)	Treatment of human smallpox disease caused by variola virus in adult and pediatric patients, including neonates.	United States, Canada
Trobigard® Auto-injector atropine sulfate, obidoxime chloride auto-injector	Indicated for the emergency treatment of known or suspected exposure to nerve agents or toxic organophosphates in adults > 18 years of age.	Belgium*
VIGIV CNJ-016® [Vaccinia Immune Globulin Intravenous (Human)]	Treatment of complications due to vaccinia vaccination, including: • Eczema vaccinatum • Progressive vaccinia; • Severe generalized vaccinia; • Vaccinia infections in individuals who have skin conditions; and • Aberrant infections induced by vaccinia virus (except in cases of isolated keratitis). VIGIV is not indicated for postvaccinial encephalitis.	United States, Canada
**TROBIGARD® is not approved by the FDA. It is only approved by the Belgian Health Authority but has been procured by various government entities for emergency preparedness purposes.*		

Description of MCM Products

ACAM2000® (Smallpox (Vaccinia) Vaccine, Live). ACAM2000® vaccine is a smallpox vaccine licensed by the FDA for active immunization against smallpox disease for persons determined to be at high risk for smallpox infection and comprises the largest percentage of the current USG stockpile in the Strategic National Stockpile ("SNS") designated for use in a bioterrorism emergency. On December 5, 2023, ACAM2000® vaccine received a Notice of Compliance from Health Canada for its Extraordinary Use New Drug Submission (EUNDS) for the indication of active immunization against smallpox disease for persons determined to be at high risk for smallpox infection. On October 27, 2023, Emergent submitted a supplemental Biological License Application (sBLA) to the US FDA seeking approval for the expansion of the indication for ACAM2000® to include immunization against mpox virus. ACAM2000® vaccine is currently stockpiled both in the U.S. and internationally. Smallpox is a highly contagious disease caused by the Variola virus. According to the Centers for Disease Control and Prevention ("CDC"), smallpox is a devastating disease, with a mortality rate as high as 30%. The vaccine stimulates a person's immune system to develop antibodies and cells in the blood and elsewhere that can then help the body fight off a smallpox infection if exposure to smallpox occurs. On September 3, 2019, we announced the award by the USG of a contract valued at up to approximately $2 billion over 10 years for the continued supply of ACAM2000® vaccine into the SNS, assuming all contract options are exercised. This multiple-year contract is intended to support the replacement of the smallpox vaccine stockpile and included a one-year base period of performance in 2019 valued at approximately $170.0 million, and nine option years. The number of doses under the base period were delivered by year end 2019. On May 28, 2020, we announced the exercise by the U.S. Department of Health and Human Services ("HHS") of the first contract option, valued at $176.0 million, to procure doses of ACAM2000® vaccine. The number of doses under the first contract option were delivered by year end 2020. On July 13, 2021, we announced the exercise by HHS of the second contract option, valued at $182.2 million, to procure doses of ACAM2000® vaccine. We completed the delivery of all ACAM2000® doses in 2022. The USG chose to not exercise its option year in 2022. On May 26, 2023, the Company, through its wholly-owned subsidiary, Emergent Product Development Gaithersburg Inc., received a contract modification from the Office of the Assistant Secretary for Preparedness and Response ("ASPR"), an agency of the U.S. Department of Health and Human Services ("HHS"), exercising and funding the third of nine annual contract term extension options (the "Third Option Exercise") for Emergent to supply ACAM2000® to the SNS. The Third Option Exercise is valued at approximately $120 million and was made under a bilateral modification of Emergent's existing 10-year contract awarded by ASPR on August 30, 2019. The period of performance under the Third Option Exercise required Emergent to deliver doses of ACAM2000® into the SNS by June 30, 2023 and the Company achieved delivery in this period.

ANTHRASIL®. ANTHRASIL® (Anthrax Immune Globulin Intravenous (human)) is the only polyclonal antibody therapeutic licensed by the FDA for the treatment of inhalational anthrax in adult and pediatric patients in combination with appropriate antibacterial drugs. We currently have two contracts with HHS for Anthrasil Anthrax IGIV: 1) a development and procurement contract which has been extended to expire in September 2024 for possible additional scope, and 2) a multiple award, indefinite delivery/indefinite quantity contract for the collection of anti-anthrax plasma, as well as the manufacture of such plasma into bulk drug substance and finished drug product; such contract covered extended plasma storage, and the options for manufacturing and delivery of finished product into the SNS to be exercised by HHS through September 2023. We anticipate that the direct disposition of the plasma and close out activities will be completed before July 31, 2025. In addition to domestic USG sales, Anthrasil solution has been sold to several foreign governments, including the Canadian government.

BAT® [Botulism Antitoxin Heptavalent (A, B, C, D, E, F, G) – (Equine)]. BAT® antitoxin is the only equine plasma antitoxin licensed by the FDA and Health Canada for the treatment of all seven botulinum neurotoxin serotypes. BAT® antitoxin is licensed by the FDA for the treatment of symptomatic botulism following suspected or documented exposure to botulinum neurotoxin serotypes A, B, C, D, E, F or G in adults and pediatric patients. It is also licensed in Canada pursuant to Health Canada's Extraordinary Use New Drugs regulations. BAT® antitoxin is the only heptavalent botulism antitoxin available in the U.S. and Canada for treating naturally occurring botulism in adults or pediatric patients. Botulinum toxin is a nerve toxin produced by the bacterium Clostridium botulinum that causes botulism, a serious paralytic illness. On May 8, 2020, we announced the finalization of a previously announced contract with HHS, valued at up to $550.0 million, if all options under the contract are exercised. The contract has two deliverables. The first deliverable, negotiated in September 2019 and valued at up to approximately $90.0 million, is to supply annual doses of BAT® antitoxin into the SNS for 10 years by converting existing bulk drug substance into final drug product. This deliverable also includes options for additional doses valued at up to approximately $94.0 million over 10 years. The second deliverable, valued at up to approximately $366.0 million, is for the production of additional doses of bulk drug substance over 10 years to maintain the plasma collection and production capability for botulism response planning. In addition to domestic government sales, BAT® antitoxin continues to be sold internationally, with deliveries to 15 foreign governments in 2023.

BioThrax® (Anthrax Vaccine Adsorbed). BioThrax® vaccine is the only vaccine licensed by the FDA for pre-exposure prophylaxis of anthrax disease in persons at high risk of exposure. BioThrax® vaccine is also approved by the FDA for post-exposure prophylaxis administration in combination with antimicrobial therapy in the event of suspected or confirmed exposure to *Bacillus anthracis*. Anthrax is a potentially fatal disease caused by the spore-forming bacterium, *Bacillus anthracis*. Inhalational anthrax is the most lethal form of anthrax. In the U.S., BioThrax® vaccine is administered in a pre-exposure prophylaxis setting by intramuscular

injection as a three-dose primary series over a six-month period. Per the U.S. label, booster doses are administered six and 12 months after completion of the primary series and at 12-month intervals thereafter. BioThrax® vaccine is administered in a post-exposure prophylaxis setting as three subcutaneous injections two weeks apart in conjunction with recommended antibacterial drugs following suspected or confirmed *Bacillus anthracis* exposure. When we report the revenue associated with "anthrax vaccines," it reflects the combined revenue from the procurement and sale of BioThrax® vaccine as well as CYFENDUS® vaccine (formerly known as AV7909, described below).

In December 2016, we signed a follow-on contract with the CDC for the supply of up to approximately 29.4 million doses of BioThrax® vaccine for delivery into the SNS, over a five-year period ending in September 2021. On September 29, 2021, we were granted a no-cost contract extension, which extended the date through which the USG procured BioThrax® vaccine to March 31, 2022. On June 16, 2022, the contract's period of performance was extended to June 30, 2022. All deliveries under this contract were completed in August 2022. On January 11, 2024, the Company announced that it has secured an indefinite-delivery, indefinite-quantity ("IDIQ") procurement contract with a maximum value up to $235.8 million to supply BioThrax® vaccine for use by all branches of the U.S. military as Pre-Exposure Prophylaxis (PrEP) for anthrax disease. The new contract with the U.S. Department of Defense ("DoD") and led by the Joint Program Executive Office for Chemical, Biological, Radiological and Nuclear Defense, is comprised of a five-year base agreement ending on September 30, 2028, and an additional five-year option that would extend the contract to September 30, 2033.

CYFENDUS® (Anthrax Vaccine Adsorbed, Adjuvanted) (known as AV7909 prior to FDA approval in July 2023). CYFENDUS® vaccine was approved by the FDA for post-exposure prophylaxis of disease following suspected or confirmed exposure to Bacillus anthracis in persons 18 through 65 years of age when administered in conjunction with recommended antibacterial drugs. In 2021, AV7909 was granted orphan drug designation by the FDA. Studies have shown that CYFENDUS® elicits a stronger immune response using fewer doses than BioThrax® vaccine, which is expected to allow patients to reach a protective level of immunity more rapidly. CYFENDUS® is designed to provide protection with a two-dose regimen (versus the BioThrax® three-dose regimen) for post-exposure prophylaxis of anthrax disease, when administered in combination with the recommended antibacterial drugs. In September 2016, we signed a combination development and procurement contract with Biomedical Advanced Research and Development Authority ("BARDA"), which included a five-year base period of performance to develop CYFENDUS® for post-exposure prophylaxis of anthrax disease and to deliver to the SNS an initial two million doses, subsequently modified to three million doses in March 2017. The contract also includes procurement options for the delivery of an additional 7.5 million to 50.0 million doses of CYFENDUS® into the SNS and options for an additional clinical study and post marketing commitments. In 2019, we initiated and completed enrollment of a Phase 3 study; the 3,850 subject trial evaluating safety, immunogenicity and lot consistency was completed in 2020. In collaboration with us, the CDC filed with the FDA a pre-EUA submission package related to CYFENDUS®. Following this submission, BARDA began procuring CYFENDUS® , exercising its first contract option in July 2019 (valued at approximately $261.0 million) to procure doses to be delivered to the SNS through June of 2020, its second contract option in July 2020 (valued at $258.0 million) to procure additional doses of CYFENDUS® for delivery into the SNS over 12 months, in September 2021 funding another contract option (valued at approximately $399.0 million) to deliver doses of CYFENDUS® to the SNS over 18 months. Two contract modifications (each valued at $75 million) were executed with BARDA in 2023; the first modification was filled during 2023 and the second modification expires in March 2024. In April 2022, we completed our submission of a Biologics License Application ("BLA") for CYFENDUS® to the FDA and received BLA approval in July 2023. When we report the revenue associated with "anthrax vaccines," it reflects the combined revenue from the procurement and sale of CYFENDUS® as well as BioThrax® (described above).

Ebanga™ (ansuvimab-zykl), for injection. Ebanga™ (ansuvimab-zykl) is a monoclonal antibody with antiviral activity provided through a single IV infusion (over 60 minutes) for the treatment of Zaire ebolavirus in adult and pediatric patients, including neonates born to a mother who is RT-PCR positive for Zaire ebolavirus. On July 1, 2022, we entered into an asset purchase agreement and a license agreement with Ridgeback Biotherapeutics ("Ridgeback") to expand the availability of Ebanga™ (ansuvimab-zykl). This included a license to the Ebanga™ trademark and to certain patent rights related to Ebanga™ (ansuvimab-zykl). We will be responsible for manufacturing, selling and distributing Ebanga™ (ansuvimab-zykl) in the U.S. and Canada and Ridgeback will serve as the global access partner. In July 2023, the Company announced it was awarded a 10-year contract by BARDA, valued at up to a maximum of $704 million, for advanced development, manufacturing scale-up, and procurement of Ebanga™.

Raxibacumab injection. Our raxibacumab product is the first fully human monoclonal antibody therapeutic licensed by the FDA for the treatment and prophylaxis of inhalational anthrax due to *Bacillus anthracis*. Our raxibacumab product is indicated for the treatment of adult and pediatric patients with inhalational anthrax in combination with appropriate antibacterial drugs and for prophylaxis of inhalational anthrax when alternative therapies are not available or appropriate.

RSDL® (Reactive Skin Decontamination Lotion Kit). RSDL® kit is cleared by the FDA and is intended to remove or neutralize chemical warfare agents from the skin, including tabun, sarin, soman, cyclohexyl sarin, VR, VX, mustard gas and T-2 toxin. RSDL® kit has also been cleared as a medical device by Health Canada, has a current European Conformity ("CE") mark under European Directives, and is licensed by the Israel Ministry of Health and by Australia's Therapeutic Goods Administration. To date, the

principal customers for RSDL® kits have been agencies of the USG, including the DoD and the National Guard. Our current contract with the DoD awarded in December 2022 is a five-year contract including a base year period and four single year option periods, valued at up to $379.6 million to supply RSDL® kits for use by all branches of the U.S. military. We also sold RSDL® kits to ten foreign countries outside the U.S. in 2023. In November 2022, three lots of our RSDL® kits was recalled due to leakage, which could cause the product not to perform as effectively as intended. There have been no reports of injuries or death related to this recall of which we are aware. We identified and remediated the cause leading to the November 2022 recall, as well as completed all required actions, notices and report submissions related to the recalled batch. We are currently awaiting formal closure of the recall from FDA.

TEMBEXA® (brincidofovir) tablets and oral suspension. TEMBEXA® is the first oral antiviral approved by the FDA for the treatment of smallpox disease caused by variola virus in adult and pediatric patients, including neonates. On September 26, 2022, we acquired exclusive worldwide rights to brincidofovir from Chimerix Inc. for the treatment of any human smallpox disease or any other disease caused by any orthopox virus. Following the acquisition, the 10-year contract with BARDA, valued at up to $680.0 million, to supply up to 1.7 million tablet and suspension formulations of TEMBEXA® was novated to the Company. On December 11, 2023, Emergent received a Notice of Compliance from Health Canada for its Extraordinary Use New Drug Submission (EUNDS) for indication of the treatment of human smallpox disease in adults and pediatric patients, including newborn infants. The Company has 2 patent families relating to the TEMBEXA® product including but not limited to, those listed in the Orange Book: 8,962,829, 9,303,051, 9,371,344, 10,112,909, and 10,487,061. The latest expiring United States composition of matter patents expires in 2034.

TROBIGARD® atropine sulfate, obidoxime chloride auto-injector. TROBIGARD® auto-injector was approved by the Federal Agency for Medicines and Health Products of the Belgium Health Authority on February 18, 2021. TROBIGARD® auto-injector is not currently approved or cleared by the FDA. TROBIGARD® auto-injector is only distributed to authorized government buyers for use outside the U.S. In Belgium, the TROBIGARD® auto-injector is indicated for the emergency treatment of known or suspected exposure to nerve agents or toxic organophosphates in adults (> 18 years of age). In February 2019, Emergent was awarded a 10-year contract, valued at up to approximately $100.0 million, by the U.S. Department of State, to procure our TROBIGARD® product, training auto-injectors and RSDL® kits for emergency use outside of the U.S. The contract consists of a five-year base period of performance with five one-year option periods.

VIGIV CNJ-016® (Vaccinia Immune Globulin Intravenous (Human)). VIGIV is the only polyclonal antibody therapeutic licensed by the FDA and Health Canada to address certain complications from replicating virus smallpox vaccination. The principal customer for VIGIV is the USG, specifically HHS. In June 2019, we announced a contract award by HHS valued at approximately $535.0 million over 10 years for the continued supply of VIGIV into the SNS for smallpox preparedness. VIGIV has also been procured by a limited number of foreign governments.

Commercial Products

Our current Commercial portfolio consists of the following products:

COMMERCIAL PRODUCTS		
Product	**Indication(s)**	**Regulatory Approvals**
NARCAN® (naloxone HCl) Nasal Spray	Emergency treatment of known or suspected opioid overdose as manifested by respiratory and/or central nervous system depression.	United States, Canada

Description of Commercial Products

NARCAN® Nasal Spray. NARCAN® Nasal Spray, a product we obtained in connection with our acquisition of Adapt Pharma Inc. in 2018, is an intranasal formulation of naloxone approved by the FDA and Health Canada for the emergency treatment of known or suspected opioid overdose as demonstrated by respiratory and/or central nervous system depression. We have rights to formulations of naloxone used in NARCAN® Nasal Spray from Indivior PLC (f/k/a Opiant Pharmaceuticals Inc.). The primary customers for NARCAN® Nasal Spray are state health departments, local law enforcement agencies, community-based organizations, substance abuse centers, federal agencies, and consumers. We completed two important product life cycle improvements in 2020. First, we launched the Generation II NARCAN® Nasal Spray device, which has a claim for enhanced temperature excursions and storage below 25°C. Second, we gained FDA approval for an extension of the shelf life of NARCAN® Nasal Spray from 24 months to 36 months. On January 18, 2024, the Company announced that the FDA has acknowledged the shelf-life extension of NARCAN® Nasal Spray from 36 months to 48 months based on the company's four-year stability data.

In the fourth quarter of 2022, we filed our supplemental New Drug Application ("sNDA") for NARCAN® Nasal Spray, as an over-the-counter ("OTC") emergency treatment for known or suspected opioid overdose. The FDA accepted the application and also granted Priority Review. On February 15, 2023, the U.S. Food and Drug Administration (FDA) Nonprescription Drugs Advisory Committee and the Anesthetic and Analgesic Drug Products Advisory Committee unanimously voted in favor (a total of 19 votes) that the benefit-risk profile of NARCAN® Nasal Spray was supportive of its use as a nonprescription opioid overdose reversal agent.

NARCAN® Nasal Spray was approved as an OTC medication on March 29, 2023. It was the first 4 mg naloxone nasal spray available OTC in the U.S. The new OTC product was shipped out to retailers and e-commerce providers nationwide in August of 2023. Emergent is prepared to supply all segments and customers of the business with OTC product.

Product Candidates

The table below highlights our current portfolio of product candidates:

PRODUCT CANDIDATES	
Product Candidate	**Target Indication**
CGRD-001 (Pralidoxime chloride/atropine auto-injector)	Treatment of poisoning by organophosphorus nerve agents or organophosphorus compounds.
EBS-LASV (rVSV-vectored vaccine for Lassa fever)	Active immunization to prevent Lassa fever.
EBS-MARV (rVSV-vectored vaccine for Marburg virus disease)	Active immunization to prevent Marburg virus disease.
EBS-SUDV (rVSV-vectored vaccine for Sudan virus disease)	Active immunization to prevent Sudan virus disease.
Pan-Ebola mAbs	Treatment of ebola virus disease caused by infection in patients with confirmed Sudan virus.
SIAN (stabilized isoamyl nitrite)	Antidote for initial treatment of certain or suspected acute cyanide poisoning.
UniFlu (Universal influenza vaccine)	Intended to induce broad and supra-seasonal immunity against influenza A and B viruses.
WEVEE-VLP	To prevent disease caused by Western, Eastern, and Venezuelan equine encephalitis virus infections.

Description of Product Candidates

CGRD-001. The CGRD-001 auto-injector is being developed for treatment of poisoning by organophosphorus nerve agents, as well as organophosphorus compounds for use by military personnel. CGRD-001 is being developed as an auto-injector for delivery of 600 mg of pralidoxime and 2 mg of atropine for intramuscular injection following nerve agent exposure. The product is being designed for injection by non-medical personnel, including self-injection or buddy aid by service members.

EBS-LASV. This vaccine candidate is a recombinant, vesicular stomatitis virus vectored, monovalent vaccine encoding the surface glycoprotein precursor gene of Lassa virus. The development program is partnered with the Coalition for Epidemic Preparedness Innovations ("CEPI"). We have completed our Phase 1 clinical trial and are currently analyzing the data.

EBS-MARV. This vaccine candidate is a recombinant, vesicular stomatitis virus vectored, monovalent vaccine encoding the surface glycoprotein precursor gene of Marburg virus. The development program is partnered with Auro Vaccines and is currently in IND-enabling stage. NIAID is funding Auro Vaccines program with contract options through Phase 1 development.

EBS-SUDV. This vaccine candidate is a recombinant, vesicular stomatitis virus vectored, monovalent vaccine encoding the surface glycoprotein precursor gene of Sudan virus. The development program is partnered with Auro Vaccines and is currently in IND-enabling stage. NIAID is funding Auro Vaccines program with contract options through Phase 1 development.

Pan-Ebola mAbs. IBT-T02 is a cocktail comprised of two chimeric mAbs, FVM04 and CA45. The mAb cocktail candidate targets two highly conserved and non-overlapping epitopes on the glycoprotein of Sudan ebolavirus (SUDV) and other ebolaviruses. The preclinical program is in partnership with Integrated Biotherapeutics with a BARDA funded non-human primate study in progress.

SIAN. We are developing SIAN (stabilized Isoamyl nitrate) as an antidote for initial treatment of acute poisoning of cyanide that is judged to be serious or life threatening. The USG consistently identifies cyanide ("CN") as a high-priority threat, most recently in the Public Health Emergency Medical Countermeasure Enterprise 2022 Strategy and Implementation Plan. Historically, CN has been used as a chemical warfare agent and could be an agent for a terrorist attack. CN also represents a threat from accidental poisoning, such as industrial accidents or exposure during building fires. The SIAN program is funded by BARDA and is focused on the development of a single-use intranasal spray device that can be rapidly deployed and easily dispensed so that it will deliver SIAN following a cyanide incident or in a mass exposure setting. We have completed our Phase 1 clinical trial to assess the safety, tolerability, pharmacokinetics and pharmacodynamics, and are currently analyzing the data.

UniFlu. We are developing a universal influenza vaccine candidate based on a nanoparticle technology involving a cross-reactive hemagglutinin (HA) antigen for active immunization against influenza virus A and B. The nanoparticle technology was developed by and licensed from the NIAID Vaccine Research Center. Using this technology, we are seeking to develop a universal influenza

0309

vaccine designed to confer protection against numerous strains and subtypes of influenza virus. We have completed our Phase 1 clinical trial to assess safety, tolerability, and immunogenicity and are currently analyzing the data.

WEVEE-VLP. WEVEE VLP vaccine is a recombinant VLP vaccine. The development program is in partnership with NIAID Vaccine Research Center (VRC), who has already completed a Phase 1 clinical trial of the trivalent vaccine, in addition to a monovalent Phase 1 clinical study of the VEEV VLP component only.

Description of Services

Bioservices. Our Bioservices are based on our established development and manufacturing infrastructure, technology platforms and expertise, as well as continuing capital expenditure projects to expand our capabilities and increase capacity.

Our Bioservices consist of development services, bulk drug substance manufacturing, fill, finish, and packaging of final drug product. Collectively, this portfolio of services provides "molecule-to-market" solutions to clients engaged in all stages of drug development and commercialization. These services are provided to innovator biopharmaceutical companies and non-governmental organizations ("NGOs").

We currently have 8 development and manufacturing sites located in the U.S. and Canada. These sites allow us to meet our internal manufacturing needs as well as performing services for our external customers. Six of these sites currently provide bioservices to customers.

- Our Winnipeg and Gaithersburg sites house our development services expertise;
- Our Lansing and Winnipeg sites house our drug substance expertise; and
- Our Camden, Winnipeg, Rockville and Hattiesburg sites house our drug product and packaging expertise.

We currently have over 55 active Bioservices customers.

Marketing and Sales

We have dedicated sales channels for each of our products and service offerings.

Government - MCM Products

We partner with stakeholders in the USG and domestic NGOs to support procurement of our MCM products and procured product candidates.

We also partner with foreign governments and international NGOs to support procurement of MCM products and procured product candidates internationally.

Our specialized team has expertise and experience in the public and private sector, dealing with counter terrorism, CBRNE preparedness and public health.

The following table lists the registered trademarks for our MCM products:

Provide explanation below:

Question 3: Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been subject of an administrative action or proceeding relating to the pharmaceutical industry?

Response: Yes. Based on currently available records/information, and although not necessarily responsive or applicable to the question, Henry Schein, Inc. discloses the following information:

In May 2008, Henry Schein, Inc. resolved a matter with the Florida Department of Health ("DOH") (Case No. 2008-08770; prescription drug wholesaler permit # 22:1315) in connection with a Notice of Violation, alleging that Henry Schein, Inc. sold and/or shipped prescription drugs to an unauthorized recipient, in violation of Chapter 499, Florida Statutes. Henry Schein, Inc. entered into a settlement agreement which resolved the matter without any admission of liability and agreed to make a payment of $5,000. The matter was closed by order dated May 15, 2008.

In July 2011, Henry Schein, Inc. resolved a matter with the Colorado Board of Pharmacy ("BOP") which alleged that Henry Schein, Inc. did not timely submit an application for a change of designated representative in violation of Colorado state statutes and BOP rules (Case No. 2011-1806; non-resident prescription drug wholesaler registration # WHO 7115). Henry Schein, Inc. made a payment of $5,000 to resolve the matter plus a $500 surcharge.

In November 2011, the Iowa Board of Pharmacy alleged that Henry Schein, Inc. violated Iowa state statutes and regulations in connection with the sale of controlled substances to Des Moines University, whose Iowa Controlled Substances Registration had expired at the time of shipment. (Case No. 2010-35; Wholesale Drug License No. 5328) Henry Schein, Inc. denied the allegations. Henry Schein, Inc. agreed to a Citation and Warning, resolving the matter in April 2012 without any admission of liability and agreed to make a payment of $5,000.

DEPARTMENT OF HEALTH,

Petitioner,

Case No.: 2008-08770

vs.

HENRY SCHEIN, INC.,

Respondent.
_____/

FINAL ORDER

A Notice of Violation letter was sent to the Respondent by the Department on April 17, 2008. Having received an Offer of Settlement, which is attached hereto as Exhibit A, this matter is before the Department of Health for the entry of a final order.

The Offer of Settlement was executed on or about May 13, 2008 and submitted together with the payment.

The Offer of Settlement is accepted and incorporated by reference. The parties are directed to comply with the terms of the Agreement.

It is, therefore, ORDERED that this matter and proceeding be CLOSED.

DONE and ORDERED this 15 day of May 2008, in Tallahassee, Leon County, Florida.

SETTLEMENT AGREEMENT
Henry Schein
Case No: 2008-08770

Pursuant to S. 120.57(4), Florida Statutes, the above named party hereby enters into this stipulation as disposition of the attached administrative action, in lieu of any other administrative proceedings authorized in Chapter 120, Florida Statutes. The terms herein become effective upon rendition of the final order which shall incorporate the Settlement Agreement.

STIPULATED FACTS

1) Henry Schein, neither admits nor denies the violations alleged in the Notice of Violation.

2) During the time the violations allegedly occurred, Henry Schein was a permitted Prescription Drug Wholesaler within the state of Florida having been issued permit number 22:1315.

3) The Department is charged with regulating Drugs, Devices, and Cosmetics pursuant to Section 20.43, Florida Statutes and Chapter 499, Florida Statutes.

CONCLUSIONS OF LAW

4) Henry Schein, by and through its undersigned agent, admits that it is subject to the provisions of Chapter 499, Florida Statutes, and the jurisdiction of the Department.

5) Henry Schein, admits that the findings set forth in the Notice of Violation, if proven, would constitute a violation of Chapter 499, Florida Statutes.

6) Henry Schein, agrees that the Department's acceptance of the Settlement Agreement constitutes disciplinary action within the meaning of Section 499.066, Florida Statutes and Rule 64F-12.024, Florida Administrative Code.

SETTLEMENT

7) Henry Schein, agrees to pay a fine of FIVE THOUSAND DOLLARS ($5,000.00), and acknowledges that the total payment is enclosed with this agreement.

8) Henry Schein, affirms the alleged violations cited the Notice of Violation letter issued under this case number have not continued and that it has taken corrective actions to prevent a recurrence.

EXHIBIT
A

9) Henry Schein, affirms that it shall comply with all provisions of the Florida Drug and Cosmetic Act, Chapter 499, Florida Statutes, and the rules adopted thereunder.

10) It is expressly understood that a violation of the terms of this Settlement Agreement shall be considered a violation of Chapter 499, Florida Statutes, for which disciplinary actions may be taken in compliance with Chapters 120 and 499, Florida Statutes.

11) Henry Schein, expressly waives all further procedural steps and expressly waives all rights to seek judicial review of, or to otherwise challenge or contest the validity of, this Settlement Agreement incorporated in the Final Order.

12) Henry Schein, waives the right to seek any attorney's fees or costs from the Department in connection with this disciplinary proceeding.

BEFORE THE STATE BOARD OF PHARMACY
STATE OF COLORADO

Case No. 2011-1806

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF PROCEEDING REGARDING THE NON-RESIDENT PRESCRIPTION DRUG WHOLESALER REGISTRATION OF HENRY SCHEIN, INC., REGISTRATION NO. WHO 7115,

Respondent Wholesaler.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Henry Schein, Inc. ("Respondent Wholesaler") to resolve all matters pertaining to Board Case Number 2011-1806, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Wholesaler, its registration as a non-resident prescription drug wholesaler, and the subject matter of this Stipulation and Final Agency Order ("Stipulation") pursuant to the provisions of the Pharmaceuticals and Pharmacists Act at Title 12, Article 22, C.R.S.

2. Respondent Wholesaler was originally registered as a non-resident prescription drug wholesaler in the State of Colorado on January 5, 2007, being issued registration number WHO 7115, and has been so registered at all times relevant to this case.

3. Respondent Wholesaler admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

4. Respondent Wholesaler failed to timely submit an application to the Board detailing a change in designated representative and fee. In this case, 76 days transpired between the date the previous designated representative ceased the position and the date the application and fee were received.

5. The parties agree that the following Board statutes and rules are relevant to this case:

12-22-802. Wholesaler license requirements.

(2)(b) An applicant for a license shall pay any reasonable fee required by the accreditation body or the board and comply with any rules promulgated by the board;

(3)(VII) The name of the applicant's designated representative for the facility, the fingerprints of the designated representative, and a personal information statement for the designated representative that includes information as required by the board, including but not limited to the information in subsection (5) of this section; and

(5)(i) Update all of the information required in this part 8 whenever changes occur.

* * *

Pharmacy Board Rules

15.01.11 Minimum required information for registration.

a. The following minimum information shall be required from each wholesaler as part of the registration:

... (8) The name of the applicant's designated representative, who must meet the following requirements:

(a) Be at least twenty-one years of age;

(b) Have at least three years of full-time employment history with a pharmacy or a wholesaler in a capacity related to the dispensing and distribution of and the recordkeeping related to prescription drugs;

(c) Be employed by the applicant in a full-time managerial position;

(d) Be actively involved in and aware of the actual daily operation of the wholesaler;

(e) Be physically present at the facility of the applicant during regular business hours, except when the absence of the designated representative is authorized, including, but not limited to, sick leave and vacation leave;

(f) Serve in the capacity of a designated representative for only one applicant or wholesaler at a time, except where more than one licensed wholesaler is co-located in the same facility and the wholesalers are members of an affiliated group as defined by section 1504 of the federal "Internal Revenue code of 1986."

(g) Not have any convictions under federal, state, or local law relating to wholesale or retail prescription drug distribution or controlled substances;

(h) Not have an felony convictions pursuant to federal, state, or local law; and

(i) Undergo a background check as required by CRS 12-22-803.

b. Changes in any information in section 15.01.11 shall be submitted to the Colorado Board of Pharmacy within fourteen calendar days thereof.

15.01.14 Change of name, location, or ownership, or designated representative.

c. Any change in the designated representative of a wholesaler shall be reported to the board on a form supplied by the board within 14 calendar days of such change. The incoming designated representative must undergo the required background check.

* * *

6. The parties agree that the following disposition is just and appropriate under the circumstances.

DISPOSITION

7. Pursuant to §12-22-806, C.R.S., Respondent Wholesaler shall remit Five Thousand Dollars and No Cents ($5,000.00). Respondent Wholesaler understands and acknowledges that, pursuant to §24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies may impose an additional surcharge of 10%. Respondent Wholesaler shall therefore pay a total amount of Five Thousand Five Hundred Dollars and No Cents ($5,500.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Wholesaler submits this signed Stipulation to the Board.

8. **Compliance.** Respondent Wholesaler shall submit all future applications detailing a change in designated representative and fee to the Board within fourteen (14) days, or as otherwise required by the then-controlling provisions of Board statute, rule or policy, of the previous designated representative ceasing the position.

9. **Other Requirements.** Respondent Wholesaler acknowledges and agrees that, as a condition of this Stipulation, Respondent Wholesaler shall:

   a. promptly pay all its own fees and costs associated with this Stipulation;

   b. comply fully with this Stipulation; and

   c. comply fully with the Pharmaceuticals and Pharmacists Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

10. **Advisements and Waivers.** Respondent Wholesaler enters into this Stipulation freely and voluntarily, after having consulted with legal counsel. Respondent Wholesaler acknowledges its understanding that it has the following rights:

a. to have formal notice of hearing and charges served upon it;

b. to respond to said formal notice of charges;

c. to have a formal disciplinary hearing pursuant to Sections 12-22-125 and 12-22-125.2(2)(a), C.R.S.; and

d. to appeal this Stipulation.

Respondent Wholesaler freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against Respondent Wholesaler to the actions imposed herein.

11. **Acknowledgments.** Respondent Wholesaler has read this Stipulation in its entirety and acknowledges, after having consulted with legal counsel, that Respondent Wholesaler understands its legal consequences and agrees that none of its terms or conditions is unconscionable. Respondent Wholesaler is not relying on any statements, promises or representations from the Board other than as may be contained in this Stipulation. Respondent Wholesaler further acknowledges that it is not entering into this Stipulation under any duress.

12. **Violations.** Time is of the essence in this Stipulation. It is the responsibility of Respondent Wholesaler to take all appropriate steps to comply fully with this Stipulation. Respondent Wholesaler acknowledges and agrees that any violation of this Stipulation may constitute a willful violation of a lawful Board order, may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent Wholesaler's registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Stipulation shall not affect the obligation of Respondent Wholesaler to comply with all terms and conditions of this Stipulation.

13. **Integration and Severability.** Upon execution by all parties, this Stipulation shall represent the entire and final agreement of and between the parties. In the event any provision of this Stipulation is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Stipulation shall be given full force and effect.

14. **Public Record.** Upon execution by all parties, this Stipulation shall be a public record, maintained in the custody of the Board and handled as a discipliney document.

15. **Effective Date.** This Stipulation shall become effective upon signature by a Board representative.

ACCEPTED AND AGREED BY

Respondent Wholesaler

BEFORE THE IOWA BOARD OF PHARMACY

Re:	)	
Wholesale Drug License of	)	Case No. 2010-35
HENRY SCHEIN, INC.,	)	
License No. 5328,	)	**CITATION AND**
Respondent.	)	**WARNING**

Pursuant to Iowa Code §§ 17A.10 and 272C.3(4) (2011), the Iowa Board of Pharmacy (hereinafter, the "Board") and Henry Schein, Inc. (hereinafter, "Respondent"), have agreed to settle a contested case currently on file with the Board. The Statement of Charges filed against Respondent on November 10, 2011 and the licensee disciplinary proceeding shall be resolved without a hearing, as the Board and Respondent stipulate to the following:

1. Respondent's license to operate as a wholesale distributor of drugs in Iowa is evidenced by Wholesale Drug License Number 5328, recorded in the permanent records of the Board.

2. Wholesale Drug License Number 5328 was renewed November 21, 2010, for the year 2011.

3. The Board has jurisdiction over the parties and the subject matter herein.

4. A Statement of Charges was filed against Respondent on March 8, 2011. The Statement of Charges contained two charges: Count I, "Unauthorized Delivery," and Count II, "Violations of Controlled Substance Laws."

5. Respondent denies the allegations contained in the Statement of Charges and hereby enters into this Citation and Warning to resolve the charges without making any admission against its interests. Respondent acknowledges, however,

that the allegations, if proven in a contested case proceeding, would constitute grounds for the discipline described herein.

6. Upon the Board's approval of this Citation and Warning, (a) Count II of the Statement of Charges ("Violations of Controlled Substance Laws) shall be dismissed with prejudice and (b) Respondent shall be assessed a civil penalty in the amount of $5,000. The civil penalty payment shall be made payable to the Treasurer of Iowa and mailed to the executive director of the Board within 10 days after Respondent's receipt of notice of the Board's approval of this Citation and Warning. All civil penalty payments shall be deposited into the State of Iowa general fund. Upon the Board's receipt of the civil penalty, this disciplinary proceeding shall be concluded without further order of the Board.

7. Respondent represents that it shall, in the future, comply with all provisions of Iowa law, including the administrative rule prohibiting shipment of controlled substances to persons not authorized to possess the controlled substances.

8. Should Respondent violate or fail to comply with any of the terms or conditions of this Citation and Warning, the Board may initiate further action to impose licensee discipline as authorized by Iowa Code chapters 272C and 155A (2011), and 657 Iowa Administrative Code § 36.1.

9. This Citation and Warning is the resolution of a contested case. By entering into this Citation and Warning, Respondent waives all rights to a contested case hearing on the allegations contained in the Statement of Charges, and waives any objections to this Citation and Warning.

10. This proposed settlement is subject to approval by a majority of the full Board. If the Board fails to approve this settlement, it shall be of no force or effect to either party. If the Board approves this Citation and Warning, it shall be the full and final resolution of this matter.

11. The State's counsel may present this Citation and Warning to the Board.

12. The Board's approval of this Citation and Warning shall constitute a FINAL ORDER of the Board in a disciplinary action.

This Citation and Warning is voluntarily submitted by Henry Schein, Inc., to the Iowa Board of Pharmacy for its consideration on this 17th day of April 2012.

HENRY SCHEIN, INC.,
Respondent

Subscribed and sworn to before me by Marjorie Hahn, who has stated to me that he/she is authorized to sign this Citation and Warning on behalf of Henry Schein, Inc., on this 17 day of April 2012.

PART I

ITEM 1. Business

General

Henry Schein, Inc. is a solutions company for health care professionals powered by a network of people and technology. We believe we are the world's largest provider of health care products and services primarily to office-based dental and medical practitioners, as well as alternate sites of care. Our philosophy is grounded in our commitment to help customers operate a more efficient and successful business so the practitioner can provide better clinical care.

With more than 91 years of experience distributing health care products, we have built a vast set of small, mid-sized and large customers in the dental and medical markets, serving more than one million customers worldwide across dental practices, laboratories, physician practices, and ambulatory surgery centers, as well as government, institutional health care clinics and other alternate care clinics.

We are headquartered in Melville, New York and employ more than 25,000 people. Approximately 55% of our workforce is based in the United States and approximately 45% is based outside of the United States. We have operations or affiliates in 33 countries and territories. Our broad global footprint has evolved over time through our organic success as well as through contribution from strategic acquisitions.

We stock a comprehensive selection of more than 300,000 branded products and Henry Schein corporate brand products through our main distribution centers. Our infrastructure, including over 5.3 million square feet of space in 36 strategically located distribution and 22 manufacturing facilities around the world, enables us to historically provide rapid and accurate order fulfillment, better serve our customers and increase our operating efficiency. This infrastructure, together with broad product and service offerings at competitive prices, and a strong commitment to customer service, enables us to be a single source of supply for our customers' needs.

We conduct our business through two reportable segments: (i) health care distribution and (ii) technology and value-added services. These segments offer different products and services to the same customer base. Our dental businesses serve office-based dental practitioners, dental laboratories, schools, government and other institutions. Our medical businesses serve physician offices, urgent care centers, ambulatory care sites, emergency medical technicians, dialysis centers, home health, federal and state governments and large enterprises, such as group practices and integrated delivery networks, among other providers across a wide range of specialties.

The health care distribution reportable segment, combining our global dental and medical operating segments, distributes consumable products, small equipment, laboratory products, large equipment, equipment repair services, branded and generic pharmaceuticals, vaccines, surgical products, dental specialty products (including implant, orthodontic and endodontic products), diagnostic tests, infection-control products, personal protective equipment products ("PPE") and vitamins. While our primary go-to-market strategy is in our capacity as a distributor, we also market and sell under our own corporate brand portfolio of cost-effective, high-quality consumable merchandise products, and manufacture certain dental specialty products in the areas of oral surgery, implants, orthodontics and endodontics.

The technology and value-added services reportable segment provides software, technology and other value-added services to health care practitioners. Henry Schein One, the largest contributor of sales to this category, offers dental practice management solutions for dental and medical practitioners. In addition, we offer dentists and physicians a broad suite of electronic health records, patient communication services including electronic marketing and website design, analytics and patient demand generation. Our value-added practice solutions include practice consultancy, education, integrated revenue cycle management and the facilitation of financial service offerings (on a non-recourse basis) to help dentists and physicians operate and expand their business operations, e-services, practice technology, network and hardware services, as well as consulting, and continuing education services for practitioners. We believe our hands-on consultative approach to provide solutions to support practice decision-making is a key differentiator for our business.

Recent Developments

See "Management's Discussion and Analysis of Financial Condition and Results of Operations – Recent Developments" herein for a discussion related to recent Company developments.

Industry

The global health care distribution industry, as it relates to office-based health care practitioners, is fragmented and diverse. The industry ranges from sole practitioners working out of relatively small offices to mid-sized and large group practices ranging in size from a few practitioners to several hundred practices owned or operated by dental support organizations ("DSOs"), medical group purchasing organizations ("GPOs"), hospital systems or integrated delivery networks.

Due in part to the limited capacity of office-based health care practitioners to store and manage large quantities of supplies in their offices, the distribution of health care supplies and small equipment to office-based health care practitioners has been characterized by frequent, small quantity orders, and a need for rapid, reliable and substantially complete order fulfillment. The purchasing decisions within an office-based health care practice are typically made by the practitioner, hygienist or office manager. Supplies and small equipment are generally purchased from more than one distributor, with one generally serving as the primary supplier.

The health care distribution industry continues to experience growth due to demand driven by the aging population, increased health care awareness and the importance of preventative care, an increasing understanding of the connection between good oral health and overall health, improved access to care globally, the proliferation of medical technology and testing, new pharmacology treatments and expanded third-party insurance coverage, partially offset by the effects of unemployment on insurance coverage and technological improvements, including the advancement of software and services, prosthetic solutions and telemedicine. In addition, the non-acute market continues to benefit from the shift of procedures and diagnostic testing from acute care settings to alternate-care sites, particularly physicians' offices and ambulatory surgery centers.

We believe that consolidation within the industry will continue to result in a number of distributors, particularly those with limited financial, operating and marketing resources, seeking to combine with larger companies that can provide growth opportunities. This consolidation also may continue to result in distributors seeking to acquire companies that can enhance their current product and service offerings or provide opportunities to serve a broader customer base.

In addition, customer consolidation will likely lead to multiple locations under common management and the movement of more procedures from the hospital setting to the physician or alternate care setting as the health care industry is increasingly focused on efficiency and cost containment. This trend has benefited distributors capable of providing a broad array of products and services at low prices. It also has accelerated the growth of health maintenance organizations ("HMOs"), group practices, other managed care accounts and collective buying groups, which, in addition to their emphasis on obtaining products at competitive prices, tend to favor distributors capable of providing specialized management information support. We believe that the trend towards cost containment has the potential to favorably affect demand for technology solutions, including software, which can enhance the efficiency and facilitation of practice management.

Competition

The distribution and manufacture of health care supplies and equipment is highly competitive. Many of the health care products we sell are available to our customers from a number of suppliers. In addition, our competitors could obtain exclusive rights from manufacturers to market particular products. Manufacturers also could seek to sell directly to end-users, and thereby eliminate or reduce our role and that of other distributors. In certain parts of the dental end market, such as those related to dental specialty products, and medical end market manufacturers already sell directly to end customers.

In North America, we compete with other distributors, as well as several manufacturers, of dental and medical products, primarily on the basis of price, breadth of product line, e-commerce capabilities, customer service and

value-added products and services. In the dental market, our primary competitors in the U.S. are the Patterson Dental division of Patterson Companies, Inc. and Benco Dental Supply Company. In addition, we compete against a number of other distributors that operate on a national, regional and local level. Our primary competitors in the U.S. medical market, which accounts for the large majority of our global medical sales, are McKesson Corporation and Medline Industries, Inc., which are national distributors. We also compete with a number of regional and local medical distributors, as well as a number of manufacturers that sell directly to physicians and patients in their homes. With regard to our dental software, we compete against numerous companies, including the Patterson Dental division of Patterson Companies, Inc., Carestream Health, Inc., Carestream Dental LLC, Centaur Software Development Co Pty Ltd. (d.b.a. dental4windows, dental4web), Open Dental Software, Inc., PlanetDDS LLC, Good Methods Global Inc. (d.b.a. CareStack) and Curve Dental, LLC. In other software end markets, including revenue cycle management, patient relationship management and patient demand generation, we compete with companies such as Vyne Therapeutics Inc., EDI-Health Group, Inc. (d.b.a. Dental X Change, Inc.), Weave Communications, Inc., and Solutionreach, Inc. The medical practice management and electronic medical records market is fragmented and we compete with numerous companies such as the NextGen division of Quality Systems, Inc., eClinicalWorks, Allscripts Healthcare Solutions, Inc. and Epic Systems Corporation.

Outside of the U.S., we believe we are the only global distributor of supplies and equipment to dental practices and our competitors are primarily local and regional companies. We also face significant competition internationally, where we compete on the basis of price and customer service against several large competitors, including the GACD Group, Proclinic SA, Lifco AB, Planmeca Oy and Billericay Dental Supply Co. Ltd., as well as a large number of other dental and medical product distributors and manufacturers in international countries and territories we serve.

Competitive Strengths

We have more than 91 years of experience in distributing products to health care practitioners resulting in strong awareness of the Henry Schein® brand. Our competitive strengths include:

A focus on meeting our customers' unique needs. We are committed to providing customized solutions to our customers that are driven by our understanding of the end markets we serve and reflect the technology-driven products and services best suited for their practice needs. We are committed to continuing to enhance these offerings through organic investment in our products and our teams, as well as through the acquisition of new products and services that may help us better serve our customers.

Direct sales and marketing expertise. Our sales and marketing efforts are designed to establish and solidify customer relationships through personal or virtual visits by field sales representatives, frequent direct marketing and telesales contact, emphasizing our broad product lines, including exclusive distribution agreements, competitive prices and ease of order placement, particularly through our e-commerce platforms. The key elements of our direct sales and marketing efforts are:

- *Field sales consultants.* Our field sales consultants, including equipment sales specialists, covering major North American, European and other international markets. These consultants complement our direct marketing and telesales efforts and enable us to better market, service and support the sale of more sophisticated products and equipment.

- *Marketing.* We market to existing and prospective office-based health care providers through a combination of owned, earned and paid digital channels, tradeshows, as well as through catalogs, flyers, direct mail and other promotional materials. Our strategies include an emphasis on educational content through webinars and content marketing initiatives. We continue to enhance our marketing technology to improve our targeting capability and the relevance of messaging and offers.

- *Telesales.* We support our direct marketing effort with inbound and outbound telesales representatives, who facilitate order processing, generate new sales through direct and frequent contact with customers and stay abreast of market developments and the hundreds of new products, services and technologies introduced each year to educate practice personnel.

- *Electronic commerce solutions.* We provide our customers and sales teams with innovative and competitive e-commerce solutions. We continue to invest in our e-commerce platform to offer enhanced content management so customers can more easily find the products they need and to enable an engaging purchase experience, supported by excellent customer service.

- *Social media.* Our operating entities and employees engage our customers and supplier partners through various social media platforms, which are an important element of our communications and marketing efforts. We continue to expand our social media presence to raise awareness about issues, engage customers beyond a sale and deliver services and solutions to specialized audiences.

Broad product and service offerings at competitive prices. We offer a broad range of products and services to our customers, at competitive prices, in the following categories:

- *Consumable supplies and equipment.* We distribute consumable products, small equipment, laboratory products, large equipment, equipment repair services, branded and generic pharmaceuticals, vaccines, dental specialty products, diagnostic tests, infection-control products and vitamins. We stock a comprehensive selection of more than 300,000 branded products and Henry Schein corporate brand products through our main distribution centers. We also market and sell our own corporate brand portfolio of cost-effective, high-quality consumable merchandise products and manufacture certain dental specialty products in the areas of implants, orthodontics and endodontics.

- *Technology and other value-added products and services.* We sell practice management, business analytics, patient engagement and patient demand creation software solutions to our dental customers. Our practice management solutions provide practitioners with electronic medical records, patient treatment history, analytics, billing, accounts receivable analyses and management, appointment calendars, electronic claims processing and word processing programs, network and hardware services, e-commerce and electronic marketing services, sourcing third party patient payment plans, transition services and training and education programs for practitioners. We also sell medical software for practice management, certified electronic health records ("EHR") and e-Prescribe medications and prescription solutions. We have technical representatives supporting customers using our practice management solutions and services. As of December 30, 2023, we had an active user base of approximately 110,000 practices and 350,000 consumers, including users of AxiUm, Dentally®, Dentrix Ascend®, Dental Vision®, Dentrix® Dental Systems, Dentrix® Enterprise, Easy Dental®, EndoVision®, Evolution® and EXACT®, Gesden®, Jarvis Analytics™, Julie® Software, Oasis, OMSVision®, Orisline®, PBS Endo®, PerioVision®, Power Practice® Px, PowerDent, and Viive® and subscriptions for Demandforce®, Sesame, and Lighthouse360® for dental practices and DentalPlans.com® for dental patients.

- *Repair services.* We have 119 equipment sales and service centers worldwide that provide a variety of repair, installation and technical services for our health care customers. Our technicians provide installation and repair services for dental handpieces, dental and medical small equipment, table-top sterilizers and large dental equipment.

- *Financial services.* We offer our customers solutions in operating their practices more efficiently by providing access to a number of financial services and products provided by third party suppliers (including non-recourse financing for equipment, technology and software products, non-recourse practice financing for leasehold improvements, business debt consolidation and commercial real estate, non-recourse patient financing and credit card processing) at rates that we believe are generally lower than what our customers would be able to secure independently. We also provide staffing services, dental practice valuation and brokerage services.

Commitment to superior customer service. We maintain a strong commitment to providing superior customer service. We frequently monitor our customer service through customer surveys, focus groups and statistical reports. Our customer service policy primarily focuses on:

- *Exceptional order fulfillment.* We ship an average of approximately 141,000 cartons daily.

- *Comprehensive ordering process*. Customers may place orders 24 hours a day, 7 days a week via e-commerce solutions, telephone, fax, e-mail and mail.

Integrated management information systems. Certain of our information systems generally allow for centralized management of key functions, including accounts receivable, inventory, accounts payable, payroll, purchasing, sales, order fulfillment and financial and operational reporting. These systems allow us to manage our growth, deliver superior customer service, properly target customers, manage financial performance and monitor daily operational statistics.

Cost-effective purchasing. We believe that cost-effective purchasing is a key element to maintaining and enhancing our position as a competitively priced provider of health care products. We continuously evaluate our purchase requirements and suppliers' offerings and prices in order to obtain products at the lowest possible cost. In 2023, our top 10 health care distribution suppliers and our single largest supplier accounted for approximately 24% and 4%, respectively, of our aggregate purchases.

Efficient distribution. We distribute our products from our 36 strategically located distribution centers. We strive to maintain optimal inventory levels in order to satisfy customer demand for prompt delivery and complete order fulfillment. These inventory levels are managed on a daily basis with the aid of our management information systems. Once an order is entered, it is electronically transmitted to the distribution center nearest the customer's location for order fulfillment.

Products and Services

The following table sets forth the percentage of consolidated net sales by principal categories of products and services offered through our health care distribution and technology and value-added services reportable segments:

	December 30, 2023	December 31, 2022	December 25, 2021
Health care distribution:			
Dental products [1]	61.1%	59.1%	60.8%
Medical products [2]	32.4	35.2	34.0
Total health care distribution	93.5	94.3	94.8
Technology and value-added services:			
Software and related products and other value-added products [3]	6.5	5.7	5.2
Total	100.0	100.0	100.0

(1) Includes infection-control products, handpieces, preventatives, impression materials, composites, anesthetics, teeth, dental implants, gypsum, acrylics, articulators, abrasives, dental chairs, delivery units and lights, X-ray supplies and equipment, PPE products, equipment repair and high-tech and digital restoration equipment.

(2) Includes branded and generic pharmaceuticals, vaccines, surgical products, diagnostic tests, infection-control products, X-ray products, equipment, PPE products and vitamins.

(3) Consists of practice management software and other value-added products, which are distributed primarily to health care providers, and financial services on a non-recourse basis, e-services, continuing education services for practitioners, consulting and other services.

Business Strategy

Our mission is to provide innovative, integrated health care products and services; and to be trusted advisors and consultants to our customers - enabling them to deliver the best quality patient care and enhance their practice management efficiency and profitability. Our BOLD+1 Strategic Plan consists of the following:

- **Build ("B")** Complementary software, specialty, and services businesses for high growth
- **Operationalize ("O")** One Distribution to deliver exceptional customer experience, increased efficiency, and growth
- **Leverage ("L")** One Schein to broaden and deepen relationships with our customers
- **Drive ("D")** Drive digital transformation for our customers and for Henry Schein
- **+1** Create Value for our stakeholders

To accomplish this, we apply our competitive strengths in executing the following strategies:

- *Increase penetration of our existing customer base.* We have over one million customers worldwide and we intend to increase sales to our existing customer base and enhance our position as their primary supplier. We believe our offering of a broad range of products, services and support, including software solutions that can help drive improved workflow efficiency and patient communications for practices, coupled with our full-service value proposition, helps us to retain and grow our customer base.

- *Increase the number of customers we serve.* This strategy includes increasing the productivity of our field sales consultants and telesales team, as well as using our customer database to focus our marketing efforts in all of our operating segments. In the dental business, we provide products and services to independent practices, mid-market groups, and large DSOs as well as community health centers and government sites of care. Leveraging our broad array of assets and capabilities, we offer solutions to address these new markets. In the medical business, we have expanded to serve customers located in settings outside of the traditional office, such as urgent care clinics, retail, occupational health and home health settings. As settings of health care shift, we remain committed to serving these practitioners and providing them with the products and services they need.

- *Leverage our value-added products and services.* We continue to increase cross-selling efforts for key product lines utilizing a consultative selling process. In the dental business, we have significant cross-selling opportunities between our dental software users and our dental customers. In the medical business, we have opportunities to expand our vaccine, injectables and other pharmaceuticals sales to health care practitioners, as well as cross-selling EHR systems and software when we sell our core products. Our strategy extends to providing health systems, integrated delivery networks and other large group and multi-site health care organizations, including physician clinics, these same value added products and services. As physicians and health systems closely align, we have increased access to opportunities for cross-marketing and selling our product and service portfolios.

- *Pursue strategic acquisitions and joint ventures.* Our acquisition strategy is focused on investments in companies that add new customers and sales teams, increase our geographic footprint (whether entering a new country, such as emerging markets, or building scale where we have already invested in businesses), and finally, those that enable us to access new products and technologies.

Markets Served

Demographic trends indicate that our markets are growing, as an aging U.S. population is increasingly using health care services. According to the U.S. Census Bureau's International Database, between 2023 and 2033, the 45 and older population is expected to grow by approximately 11%. Between 2023 and 2043, this age group is expected to grow by approximately 21%. This compares with expected total U.S. population growth rates of approximately 6% between 2023 and 2033 and approximately 11% between 2023 and 2043.

In the dental industry, there is predicted to be a rise in oral health care expenditures as the 45-and-older segment of the population increases. There is increasing demand for new technologies that allow dentists to increase productivity, and this is being driven in the U.S. by lower insurance reimbursement rates. At the same time, there is an expected increase in dental insurance coverage.

In the medical market, there continues to be a migration of procedures from acute-care settings to physicians' offices and home health settings, a trend that we believe provides additional opportunities for us. There also is the continuing use of vaccines, injectables and other pharmaceuticals in alternate-care settings. We believe we have established a leading position as a vaccine supplier to the office-based physician practitioner.

We support our dental and medical professionals through the many SKUs that we offer, as well as through important value-added services, including practice management software, electronic claims processing, financial services and continuing education, all designed to help maximize a practitioner's efficiency.

Additionally, we seek to expand our dental full-service model and medical offerings in countries where opportunities exist. We do this through both direct sales and by partnering with local distribution and manufacturing companies.

For information on revenues and long-lived assets by geographic area, see Note 4 – Segment and Geographic Data of "Notes to Consolidated Financial Statements."

Seasonality and Other Factors Affecting Our Business and Quarterly Results

We experience fluctuations in quarterly earnings. As a result, we may fail to meet or exceed the expectations of securities analysts and investors, which could cause our stock price to decline.

Our business is subject to seasonal and other quarterly fluctuations. Sales and profitability generally have been higher in the third and fourth quarters due to the timing of sales of seasonal products (including influenza vaccine), purchasing patterns of office-based health care practitioners for certain products (including equipment and software) and year-end promotions. Sales and profitability may also be impacted by the timing of certain annual and biennial dental tradeshows where equipment promotions are offered. In addition, some dental practices delay equipment purchases in the U.S. until year-end due to tax incentives. We expect our historical seasonality of sales to continue in the foreseeable future.

Governmental Regulations

We strive to be compliant in all material respects with the applicable laws, regulations and guidance described below, and believe we have effective compliance programs and other controls in place to ensure substantial compliance. However, compliance is not guaranteed either now or in the future, as certain laws, regulations and guidance may be subject to varying and evolving interpretations that could affect our ability to comply, as well as future changes, additions and enforcement approaches, including political changes. When we discover situations of non-compliance we seek to remedy them and bring the affected area back into compliance. President Biden's administration (the "Biden Administration") has indicated that it will be more aggressive in its pursuit of alleged violations of law, and has revoked certain guidance that would have limited governmental use of informal agency guidance to pursue potential violations, and has stated that it is more prepared to pursue individuals for corporate law violations, including an aggressive approach to anti-corruption activities. Federal, state and certain foreign governments have also increased enforcement activity in the health care sector, particularly in areas of fraud and abuse, anti-bribery and corruption, controlled substances handling, medical device regulations and data privacy and security standards.

Changes to applicable laws, regulations and guidance described below, as well as related administrative or judicial interpretations, may require us to update or revise our operations, services, marketing practices and compliance programs and controls, and may impose additional and unforeseen costs on us, pose new or previously immaterial risks to us, or may otherwise have a material adverse effect on our business.

Government

Certain of our businesses involve the distribution, manufacturing, importation, exportation, marketing, sale and promotion of pharmaceuticals and/or medical devices, and in this regard, we are subject to extensive local, state, federal and foreign governmental laws and regulations, including as applicable to our wholesale distribution of pharmaceuticals and medical devices, manufacturing activities, and as part of our specialty home medical supply businesses that distribute and sell medical equipment and supplies directly to patients. Federal, state and certain foreign governments have also increased enforcement activity in the health care sector, particularly in areas of fraud and abuse, anti-bribery and anti-corruption, controlled substances handling, medical device regulations and data privacy and security standards.

Certain of our businesses involve pharmaceuticals and/or medical devices, including in vitro diagnostic devices, that are paid for by third parties and must operate in compliance with a variety of burdensome and complex coding, billing and record-keeping requirements in order to substantiate claims for payment under federal, state and commercial healthcare reimbursement programs.

Government and private insurance programs fund a large portion of the total cost of medical care, and there have been efforts to limit such private and government insurance programs, including efforts, thus far unsuccessful, to seek repeal of the entire United States Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act, each enacted in March 2010 (as amended, the "ACA").

Certain of our businesses are subject to various additional federal, state, local and foreign laws and regulations, including with respect to the sale, transportation, importation, storage, handling and disposal of hazardous or potentially hazardous substances; "forever chemicals" such as per-and polyfluoroalkyl substances; and safe working conditions. In addition, activities to control medical costs, including laws and regulations lowering reimbursement rates for pharmaceuticals, medical devices, medical supplies and/or medical treatments or services, are ongoing. The Centers for Medicare & Medicaid Services ("CMS") recently released the 2024 durable medical equipment, prosthetics, orthotics and supplies ("DMEPOS") reimbursement schedule, which, effective January 1, 2024, reduced the DMEPOS reimbursement rates for non-rural suppliers, such as us, by removing the Coronavirus Aid, Relief, and Economic Security (aka CARES) Act relief rates in effect during the COVID-19 pandemic. This and other laws and regulations are subject to change and their evolving implementation may impact our operations and our financial performance.

Our businesses are generally subject to numerous laws and regulations that could impact our financial performance, and failure to comply with such laws or regulations could have a material adverse effect on our business.

Operating, Security and Licensure Standards

Certain of our businesses are subject to local, state and federal governmental laws and regulations relating to the distribution of pharmaceuticals and medical devices and supplies. Among the United States federal laws applicable to us are the Controlled Substances Act, the Federal Food, Drug, and Cosmetic Act, as amended ("FDC Act"), Section 361 of the Public Health Service Act and Section 401 of the Consolidated Appropriations Act of the Social Security Act, as well as laws regulating the billing of and reimbursement from government programs, such as Medicare and Medicaid, and from commercial payers. We are also subject to comparable foreign regulations.

The FDC Act, the Controlled Substances Act, their implementing regulations, and similar foreign laws generally regulate the introduction, manufacture, advertising, marketing and promotion, sampling, pricing and reimbursement, labeling, packaging, storage, handling, returning or recalling, reporting, and distribution of, and record keeping for, pharmaceuticals and medical devices shipped in interstate commerce, and states may similarly regulate such activities within the state. Furthermore, Section 361 of the Public Health Service Act, which provides authority to prevent the introduction, transmission or spread of communicable diseases, serves as the legal basis for the United States Food and Drug Administration's ("FDA") regulation of human cells, tissues and cellular and tissue-based products, also known as "HCT/P products."

The Federal Drug Quality and Security Act of 2013 brought about significant changes with respect to pharmaceutical supply chain requirements. Title II of this measure, known as the Drug Supply Chain Security Act ("DSCSA"), was enacted in November 2013, and had a planned "phase in" schedule over a period of ten years, resulting in a national electronic, interoperable system to identify and trace certain prescription drugs as they are distributed in the United States that went into effect on November 27, 2023. Those DSCSA requirements that were scheduled to change on November 27, 2023, and include requiring trading partners to provide, receive and maintain documentation about products and ownership only "electronically" (and not via paper) are now subject to a one-year "stabilization period" announced by FDA through two guidance documents in late August 2023. FDA is permitting the stabilization period to accommodate an additional year, until November 27, 2024, to allow trading partners to implement, troubleshoot and mature their electronic (versus paper), interoperable systems, during which time the FDA does not intend to take action to enforce the requirements for the interoperable, electronic, package level product tracing. Additionally, the FDA announced that it does not intend to take action to enforce the portion of the FDC Act with respect to drug product that is introduced in a transaction into commerce by the product's manufacturer or repackager before November 27, 2024, and for subsequent transactions of such product through the product's expiry. FDA states this stabilization period is intended to avoid disruption to the supply chain, and ensure continued patient access to drug products as trading partners move towards full implementation of the DSCSA's enhanced drug security requirements. The law's track and trace requirements applicable to manufacturers, wholesalers, third-party logistics providers (e.g., trading partners), repackagers and dispensers (e.g.,

pharmacies) of prescription drugs took effect in January 2015, and, as stated, continues to be implemented. The DSCSA product tracing requirements replace the former FDA drug pedigree requirements and pre-empt certain state requirements that are inconsistent with, more stringent than, or in addition to, the DSCSA requirements.

The DSCSA also establishes certain requirements for the licensing and operation of prescription drug wholesalers and third-party logistics providers ("3PLs"), and includes the eventual creation of national wholesaler and 3PL licenses in cases where states do not license such entities. The DSCSA requires that wholesalers and 3PLs distribute drugs in accordance with certain standards regarding the recordkeeping, storage and handling of prescription drugs. The DSCSA requires wholesalers and 3PLs to submit annual reports to the FDA, which include information regarding each state where the wholesaler or 3PL is licensed, the name and address of each facility, and contact information. According to FDA guidance, states are pre-empted from imposing any licensing requirements that are inconsistent with, less stringent than, directly related to, or covered by the standards established by federal law in this area. Current state licensing requirements concerning wholesalers will remain in effect until the FDA issues new regulations as directed by the DSCSA. FDA issued a proposed rule establishing wholesaler and 3PL national standards for licensing and other requirements in February 2022, but that rule has not yet been finalized. In addition, with respect to our specialty home medical supply business, we are subject to certain state licensure laws (including state pharmacy laws), and also certain accreditation standards, including to qualify for reimbursement from Medicare and other third-party payers.

The Food and Drug Administration Amendments Act of 2007 and the Food and Drug Administration Safety and Innovation Act of 2012 amended the FDC Act to require the FDA to promulgate regulations to implement a unique device identification ("UDI") system for medical devices. The UDI rule phased in the implementation of the UDI regulations, generally beginning with the highest-risk devices (i.e., Class III medical devices) and ending with the lowest-risk devices. Most compliance dates were reached as of September 24, 2018, with a final set of requirements for low risk devices being reached on September 24, 2022, which completed the phase in. However, in May 2021, the FDA issued an enforcement policy stating that it does not intend to object to the use of legacy identification numbers on device labels and packages for finished devices manufactured and labeled prior to September 24, 2023. The UDI regulations require "labelers" to include unique device identifiers ("UDIs"), with a content and format prescribed by the FDA and issued under a system operated by an FDA-accredited issuing agency, on the labels and packages of medical devices (including, but not limited to, certain software that qualifies as a medical device under FDA rules), and to directly mark certain devices with UDIs. The UDI regulations also require labelers to submit certain information concerning UDI-labeled devices to the FDA, much of which information is publicly available on an FDA database, the Global Unique Device Identification Database. On July 22, 2022, the FDA posted the final guidance regarding the Global Unique Device Identification Database called Unique Device Identification Policy Regarding Compliance Dates for Class I and Unclassified Devices, Direct Marketing, and Global Unique Device Identification Database Requirements for Certain Devices. The UDI regulations and subsequent FDA guidance regarding the UDI requirements provide for certain exceptions, alternatives and time extensions. For example, the UDI regulations include a general exception for Class I devices exempt from the Quality System Regulation (other than record-keeping requirements and complaint files). Regulated labelers include entities such as device manufacturers, repackagers, reprocessors and relabelers that cause a device's label to be applied or modified, with the intent that the device will be commercially distributed without any subsequent replacement or modification of the label and include certain of our businesses.

As a distributor of controlled substances, we are required, under the Controlled Substances Act, to obtain and renew annually registrations for our facilities from the United States Drug Enforcement Administration ("DEA") permitting us to handle controlled substances. We are also subject to other statutory and regulatory requirements relating to the storage, sale, marketing, handling, reporting, record-keeping and distribution of such drugs, in accordance with the Controlled Substances Act and its implementing regulations, and these requirements have been subject to heightened enforcement activity in recent times. We are subject to inspection by the DEA. Certain of our businesses are also required to register for permits and/or licenses with, and comply with operating and security standards of, the DEA, the FDA, the United States Department of Health and Human Services ("HHS"), and various state boards of pharmacy, state health departments and/or comparable state agencies as well as comparable foreign agencies, and certain accrediting bodies, depending on the type of operations and location of product distribution, manufacturing or sale. These businesses include those that distribute, manufacture, relabel, and/or repackage prescription pharmaceuticals and/or medical devices and/or HCT/P products, or own pharmacy operations, or install, maintain or repair equipment.

In addition, Section 301 of the National Organ Transplant Act, and a number of comparable state laws, impose civil and/or criminal penalties for the transfer of human organs, as defined in the regulations, for valuable consideration, while generally permitting payments for the reasonable costs incurred in their procurement, processing, storage and distribution. We are also subject to foreign government regulation of such products. The DEA, the FDA and state regulatory authorities have broad inspection and enforcement powers, including the ability to suspend or limit the distribution of products by our distribution centers, seize or order the recall of products and impose significant criminal, civil and administrative sanctions for violations of these laws and regulations. Foreign regulations subject us to similar foreign enforcement powers.

EU Regulation of Medicinal and Dental Products

European Union ("EU") member states regulate their own healthcare systems, as does EU law. The latter regulates certain matters, most notably medicinal products and medical devices. Medicinal products are defined, broadly, as substances or combinations of substances having certain functionalities and may not include medical devices. EU "regulations" apply in all member states, whereas "directives" are implemented by the individual laws of member states.

On medicines for humans, we are regulated under Directive No. 2001/83/EC of 6 November 2001, as amended by Directive 2003/63/EC of 25 June 2003, and EU Regulation (EC) No. 726/2004 of 31 March 2004. These rules provide for the authorization of products, and regulate their manufacture, importation, marketing and distribution. It implements requirements which may be implemented without warning, as well as a national pharmacovigilance system under which marketing authorizations may be withdrawn, and includes potential sanctions for breaches of the rules, and on other bases such as harmfulness or lack of efficacy.

EU Regulation No. 1223/2009 of 30 November 2009 *on cosmetic products* requires that cosmetic products (which includes dental products) be safe for human health when used under normal or reasonably foreseeable conditions of use and comply with certain obligations which apply to manufacturer, importer and distributor. It includes market surveillance, and non-compliance may result in the recall or withdrawal of products, along with other sanctions.

In the EU, the EU Medical Device Regulation No. 2017/745 of 5 April 2017 ("EU MDR") covers a wide scope of our activities, from dental material to X-ray machines, and certain software. It was meant to become applicable three years after publication (i.e., May 26, 2020). However, on April 23, 2020, to allow European Economic Area ("EEA") national authorities, notified bodies, manufacturers and other actors to focus fully on urgent priorities related to the COVID-19 pandemic, the European Council and Parliament adopted Regulation 2020/561, postponing the date of application of the EU MDR by one year (to May 26, 2021).

The EU MDR significantly modifies and intensifies the regulatory compliance requirements for the medical device industry as a whole. Among other things, the EU MDR:

- strengthens the rules on placing devices on the market and reinforces surveillance once they are available;
- establishes explicit provisions on manufacturers' responsibilities for the follow-up of the quality, performance and safety of devices placed on the market;
- improves the traceability of medical devices throughout the supply chain to the end-user or patient through a unique identification number;
- sets up a central database to provide patients, healthcare professionals and the public with comprehensive information on products available in the EU;
- strengthens rules for the assessment of certain high-risk devices, such as implants, which may have to undergo an additional check by experts before they are placed on the market; and
- identifies importers and distributors and medical device products through registration in a database (EUDAMED, which is not fully functional for the time being and might not be so before the end of 2027 at the earliest; therefore, the use of this database is only possible through a voluntary basis and, by a way of consequence, is currently not mandatory).

In particular, the EU MDR imposes strict requirements for the confirmation that a product meets the regulatory requirements, including regarding a product's clinical evaluation and a company's quality systems, and for the distribution, marketing and sale of medical devices, including post-market surveillance.

Regulation 2023/607 of the European Parliament and of the Council of *amending Regulations (EU) 2017/745 and (EU) 2017/746 as regards the transitional provisions for certain medical devices and in vitro diagnostic medical devices* has, notably, extended the EU MDR transitional periods applicable to certain medical devices that have been assessed and/or certified under the Directive No. 93/42/EEC of 1993 *concerning medical devices* ("EU Medical Device Directive"). Subject to certain conditions, medical devices that (i) obtained a certificate under the EU Medical Device Directive from May 25, 2017, (ii) which was still valid on May 26, 2021, and (iii) has not been subsequently withdrawn may, for the moment, continue to be placed on the market or put into service until December 31, 2027 for higher risk devices or December 31, 2028 for medium and lower risk devices. Nevertheless, EU MDR requirements regarding the distribution, marketing and sale including quality systems and post-market surveillance have to be observed by manufacturers, importers and distributors as of the application date (i.e., since May 26, 2021).

Other EU regulations that may apply under appropriate circumstances include EU Regulation No. 1907/2006 of 18 December 2006 *concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals*, which requires importers to register substances or mixtures that they import in the EU beyond certain quantities, and the EU Regulation No. 1272/2008 of 16 December 2008 *on classification, labelling and packaging of substances and mixtures* (currently under revision), which sets various obligations with respect to the labelling and packaging of concerned substances and mixtures.

Furthermore, compliance with legal requirements has required and may in the future require us to delay product release, sale or distribution, or institute voluntary recalls of, or other corrective action with respect to products we sell, each of which could result in regulatory and enforcement actions, financial losses and potential reputational harm. Our customers are also subject to significant federal, state, local and foreign governmental regulation, which may affect our interactions with customers, including the design and functionality of our products.

Certain of our businesses are subject to various additional federal, state, local and foreign laws and regulations, including with respect to the sale, transportation, storage, handling and disposal of hazardous or potentially hazardous substances, and safe working conditions. In addition, certain of our businesses must operate in compliance with a variety of burdensome and complex billing and record-keeping requirements in order to substantiate claims for payment under federal, state and commercial healthcare reimbursement programs.

Certain of our businesses also maintain contracts with governmental agencies and are subject to certain regulatory requirements specific to government contractors.

Antitrust and Consumer Protection

The federal government of the United States, most U.S. states and many foreign countries have antitrust laws that prohibit certain types of conduct deemed to be anti-competitive, as well as consumer protection laws that seek to protect consumers from improper business practices. At the U.S. federal level, the Federal Trade Commission oversees enforcement of these types of laws, and states have similar government agencies. Violations of antitrust or consumer protection laws may result in various sanctions, including criminal and civil penalties. Private plaintiffs may also bring civil lawsuits against us in the United States for alleged antitrust law violations, including claims for treble damages. EU law also regulates competition and provides for detailed rules protecting consumers. The Biden Administration has indicated increased antitrust enforcement and has been more aggressive in enforcement activities, including investigation and challenging non-compete restrictions and other restrictive contractual terms that it believes harm workers and competition.

Health Care Fraud

Certain of our businesses are subject to federal and state (and similar foreign) health care fraud and abuse, referral and reimbursement laws and regulations with respect to their operations. Some of these laws, referred to as "false claims laws," prohibit the submission or causing the submission of false or fraudulent claims for reimbursement to federal, state and other health care payers and programs. Other laws, referred to as "anti-kickback laws," prohibit soliciting, offering, receiving or paying remuneration in order to induce the referral of a patient or ordering, purchasing, leasing or arranging for, or recommending, ordering, purchasing or leasing of, items or services that are paid for by federal, state and other health care payers and programs. Certain additional state and federal laws, such

as the federal Physician Self-Referral Law, commonly known as the "Stark Law," prohibit physicians and other health care professionals from referring a patient to an entity with which the physician (or family member) has a financial relationship, for the furnishing of certain designated health services (for example, durable medical equipment and medical supplies), unless an exception applies. Violations of Anti-Kickback Statutes or the Stark Law may be enforced as violations of the federal False Claims Act.

The fraud and abuse laws and regulations have been subject to heightened enforcement activity over the past few years, and significant enforcement activity has been the result of "relators" who serve as whistleblowers by filing complaints in the name of the United States (and if applicable, particular states) under applicable false claims laws, and who may receive up to 30% of total government recoveries. Penalties under fraud and abuse laws may be severe, including treble damages and substantial civil penalties under the federal False Claims Act, as well as potential loss of licenses and the ability to participate in federal and state health care programs, criminal penalties, or imposition of a corporate integrity agreement or corporate compliance monitor which could have a material adverse effect on our business. Also, these measures may be interpreted or applied by a prosecutorial, regulatory or judicial authority in a manner that could require us to make changes in our operations or incur substantial defense and settlement expenses. Even unsuccessful challenges by regulatory authorities or private relators could result in reputational harm and the incurring of substantial costs. Most states have adopted similar state false claims laws, and these state laws have their own penalties, which may be in addition to federal False Claims Act penalties, as well as other fraud and abuse laws.

With respect to measures of this type, the United States government (among others) has expressed concerns about financial relationships between suppliers on the one hand and physicians, dentists and other healthcare professionals on the other. As a result, we regularly review and revise our marketing practices as necessary to facilitate compliance.

We also are subject to certain United States and foreign laws and regulations concerning the conduct of our foreign operations, including the U.S. Foreign Corrupt Practices Act, the U.K. Bribery Act, German anti-corruption laws and other anti-bribery laws and laws pertaining to the accuracy of our internal books and records, which have been the focus of increasing enforcement activity globally in recent years.

While we believe that we are substantially compliant with applicable fraud and abuse laws and regulations, and have adequate compliance programs and controls in place to ensure substantial compliance, we cannot predict whether changes in applicable law, or interpretation of laws, or changes in our services or marketing practices in response to changes in applicable law or interpretation of laws, or failure to comply with applicable law, could have a material adverse effect on our business.

Affordable Care Act and Other Insurance Reform

The ACA increased federal oversight of private health insurance plans and included a number of provisions designed to reduce Medicare expenditures and the cost of health care generally, to reduce fraud and abuse, and to provide access to increased health coverage. The ACA also materially expanded the number of individuals in the United States with health insurance.

The ACA has faced frequent legal challenges, including litigation seeking to invalidate and Congressional action seeking to repeal some of or all of the law or the manner in which it has been implemented. In 2012, the United States Supreme Court, in upholding the constitutionality of the ACA and its individual mandate provision requiring that people buy health insurance or else face a penalty, simultaneously limited ACA provisions requiring Medicaid expansion, making such expansion a state-by-state decision. In addition, one of the major political parties in the United States remains committed to seeking the ACA's legislative repeal, but legislative efforts to do so have previously failed to pass both chambers of Congress. Under President Trump's administration, a number of administrative actions were taken to materially weaken the ACA, including, without limitation, by permitting the use of less robust plans with lower coverage and eliminating "premium support" for insurers providing policies under the ACA. The Tax Cuts and Jobs Act enacted in 2017, which contains a broad range of tax reform provisions that impact the individual and corporate tax rates, international tax provisions, income tax add-back provisions and deductions, also effectively repealed the ACA's individual mandate by zeroing out the penalty for non-compliance. An ACA lawsuit decided by the federal Fifth Circuit Court of Appeals found the individual mandate to be

unconstitutional, and returned the case to the District Court for the Northern District of Texas for consideration of whether the remainder of the ACA could survive the excision of the individual mandate. The Fifth Circuit's decision was appealed to the United States Supreme Court. The Supreme Court issued a decision on June 17, 2021. Without reaching the merits of the case, the Supreme Court held that the plaintiffs in the case did not have standing to challenge the ACA. Any outcomes of future cases that change the ACA, in addition to future legislation, regulation, guidance and/or Executive Orders that do the same, could have a significant impact on the U.S. healthcare industry. For instance, the American Rescue Plan Act of 2021 enhanced premium tax credits, which has resulted in an expansion of the number of people covered under the ACA. These changes were time-limited, with some enhancements in place for 2021 only and others available through the end of 2022.

An ACA provision, generally referred to as the Physician Payments Sunshine Act or Open Payments Program (the "Sunshine Act"), imposes annual reporting and disclosure requirements for drug and device manufacturers and distributors with regard to payments or other transfers of value made to certain covered recipients (including physicians, dentists, teaching hospitals, physician assistants, nurse practitioners, clinical nurse specialists, certified registered nurse anesthetists, and certified nurse midwives), and for such manufacturers and distributors and for group purchasing organizations, with regard to certain ownership interests held by covered recipients in the reporting entity. CMS publishes information from these reports on a publicly available website, including amounts transferred and physician, dentist, teaching hospital, and non-physician practitioner identities. The Sunshine Act pre-empts similar state reporting laws, although we or our subsidiaries may be required to report under certain state transparency laws that address circumstances not covered by the Sunshine Act, and some of these state laws, as well as the federal law, can be unclear. We are also subject to foreign regulations requiring transparency of certain interactions between suppliers and their customers.

In the United States, government actions to seek to increase health-related price transparency may also affect our business. For example, hospitals are currently required to publish online a list of their standard charges for all items and services, including discounted cash prices and payer-specific and de-identified negotiated charges, in a publicly accessible online file. Hospitals are also required to publish a consumer-friendly list of standard charges for certain "shoppable" services (i.e., services that can be scheduled by a patient in advance) and associated ancillary services or, alternatively, maintain an online price estimator tool. CMS may impose civil monetary penalties for noncompliance with these price transparency requirements. Additionally, the No Surprises Act ("NSA"), generally effective January 1, 2022, imposes additional price transparency requirements. The NSA is intended to reduce the number of "out-of-network" patients. This will result in fewer out-of-network payments to physicians and other providers, which may cause financial stress to those providers who are dependent on higher out-of-network fees.

Another notable Medicare health care reform initiative, the Medicare Access and CHIP Reauthorization Act of 2015 ("MACRA"), enacted on April 16, 2015, established a new payment framework, which modified certain Medicare payments to "eligible clinicians," including physicians, dentists and other practitioners. Under MACRA, certain eligible clinicians are required to participate in Medicare through the Merit-Based Incentive Payment System ("MIPS") or Advanced Alternative Payment Models, through which Medicare reimbursement to eligible clinicians includes both positive and negative payment adjustments that take into account quality, promoting interoperability, cost and improvement activities. Data collected in the first MIPS performance year (2017) determined payment adjustments that began January 1, 2019. MACRA standards and payment levels continue to evolve, and reflect a fundamental change in physician reimbursement that is expected to provide substantial financial incentives for physicians to participate in risk contracts, and to increase physician information technology and reporting obligations. The implications of the implementation of MACRA are uncertain and will depend on future regulatory activity and physician activity in the marketplace. New state-level payment and delivery system reform programs, including those modeled after such federal programs, are also increasingly being rolled out through Medicaid administrators, as well as through the private sector, which may further alter the marketplace and impact our business.

Recently, in addition to other government efforts to control health care costs, there has been increased scrutiny on drug pricing and concurrent efforts to control or reduce drug costs by Congress, the President, executive branch agencies and various states. At the state level, several states have adopted laws that require drug manufacturers (including relabelers and repackagers) to provide advance notice of certain price increases and to report information relating to those price increases, while others have taken legislative or administrative action to establish prescription drug affordability boards or multi-payer purchasing pools to reduce the cost of prescription drugs. Please note that the disciplinary actions described below do NOT pertain to operations at the location set forth in this application.

McKesson Corporation and its wholly owned subsidiaries (hereinafter "McKesson") delivers pharmaceutical and medical products and business services to retail pharmacies and institutional providers like hospitals and health systems throughout North America and globally. Over the past 185 years, McKesson has developed multiple businesses that operate pharmacies, medical supply distribution centers, wholesale drug distribution centers, 3PL facilities, repackaging facilities, and other entities subject to federal and state regulation. Currently, McKesson owns and operates over 100 facilities in the United States that are licensed, permitted, or registered with the respective state agency with jurisdiction over its business type. Due to the breadth of its operations, it is practical that we limit this summary to disciplinary actions taken against these facilities during the last five years or the time frame specified in the question. ***The information in this statement is provided to the best of our knowledge and belief and includes all public disciplinary actions. This statement does not include any fines that are deemed non-disciplinary by the issuing state (for example, it does not include non-disciplinary Citations and Fines issued by California). Please let us know if your state requires information regarding non-disciplinary fines.***

On January 7, 2020, **McKesson Corporation** entered into a Consent Agreement and Final Order with the Iowa Board of Pharmacy regarding pseudoephedrine products that had not been included in the McKesson's Clear Lake, IA facility's annual controlled substance inventory and butalbital products that continued to be treated as legend drugs after such products became schedule III products in the state on June 26, 2019 (the "2020 Clear Lake Consent").

On January 14, 2020, **McKesson Medical-Surgical Inc.** entered into a Consent Agreement with the Arizona State Board of Pharmacy, regarding its Tempe, AZ distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $1,000 was imposed and paid on January 14, 2020.

On February 20, 2020, in response to the DEA Settlement, **McKesson Corporation** entered into a final agreement with the Indiana Board of Pharmacy. The agreement applies to the McKesson distribution center located in Washington Court House, Ohio. The facility's right to distribute controlled substances into Indiana has been placed on indefinite probation until the facility's DEA Registration is fully re-instated on or about February 16, 2021. The suspension period imposed by Indiana aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

On May 29, 2020, the Colorado Department of Regulatory Agencies cited **McKesson Medical-Surgical Inc.** concerning its Roseville, CA distribution center for failure to submit in a timely manner, an application to the Board detailing a change of designated representative. A fine of $1,150 was imposed and paid on July 1, 2020.

On April 20, 2021, **McKesson Medical-Surgical Inc.** entered into a Consent Agreement with the Ohio Board of Pharmacy, regarding its Leetsdale, PA distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $1,125 was imposed and paid on April 20, 2021.

On May 05, 2021, **McKesson Medical-Surgical Inc.** entered into a Consent Agreement with the Maine Board of Pharmacy, regarding its Roseville, CA distribution center, in relation to the late reporting of a disciplinary action that was imposed by the Colorado Board of Pharmacy, for failure to report a change of designated representative within the required timeframe. A $500 civil penalty/fine was paid on 5/7/2021.

On May 27, 2021, **McKesson Corporation** entered into a consent agreement with the Maine Board of Pharmacy regarding its Aurora, IL distribution center failing to report the Colorado disciplinary action to the

Maine Board of Pharmacy within 10 days as required. The Colorado disciplinary action is now reported to the Maine Board of Pharmacy. The terms of the consent agreement included a fine in the amount of $500.00.

On June 6, 2021, **McKesson Medical-Surgical Inc.** entered into a Settlement Agreement with the Ohio Board of Pharmacy, regarding its Leetsdale, PA distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $500 was imposed and paid on June 8, 2021.

On June 15, 2021, **McKesson Medical-Surgical Inc.** entered into a Settlement Agreement with the Ohio Board of Pharmacy, regarding its Urbancrest, OH distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $3000.00 was imposed and paid on June 15, 2021.

On June 23, 2021, **McKesson Medical-Surgical Inc.** entered into a Settlement Agreement with the Ohio Board of Pharmacy, regarding its Urbancrest, OH distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $125 was imposed and paid on June 23, 2021.

On October 1, 2021, **McKesson Corporation** ("McKesson") entered into a non-disciplinary agreement with the Connecticut Department of Consumer Protection, regarding its Memphis, TN distribution center. The agreement resolves allegations that, from January 2015 – January 2021, McKesson sold controlled substances to a practitioner that did not have an active Connecticut Controlled Substances Certificate of Registration. McKesson made no admission of liability and there were no findings of any violation of law. A monetary penalty of $4,500 was imposed.

On October 14, 2021, in response to the DEA Settlement, **McKesson Corporation** entered into a Settlement Agreement with the Ohio Board of Pharmacy (the "WCH Ohio Settlement"). The WCH Ohio Settlement applies to the McKesson distribution center located in Washington Court House, Ohio. The Ohio Settlement also resolved allegations of suspicious order reporting violations related to sales occurring between 2011 and 2017. Under the terms of terms of the WCH Ohio Settlement, there were no findings of any violation of law and McKesson made no admissions to the same. McKesson was subject to a reprimand and a fine of twenty-thousand dollars ($20,000).

On December 20, 2021, **McKesson Corporation** entered into a Consent Order with the Division of Professional Regulation of the Illinois Department of Financial and Professional Regulation (the "IDFPR") based on reciprocal state action from the 2020 Clear Lake Consent. The Illinois Consent applied to McKesson's Clear Lake, IA distribution center. Under the terms of the Illinois Consent Order, the facility was subject to a public reprimand by the IDFPR.

On January 18, 2022, **McKesson Medical-Surgical Inc.** entered into a Settlement Agreement with the Ohio Board of Pharmacy, regarding its Urbancrest, OH distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $500 was imposed and paid on January 18, 2022.

On March 24, 2022, **McKesson Corporation** and the California Board of Pharmacy (the "Board") entered into a settlement agreement which resolved allegations against McKesson relating to the sale of controlled substances in 2017 and 2018 to an outpatient hospital pharmacy that the pharmacy discovered were being stolen by a pharmacy employee. Pursuant to the settlement agreement, the Board publicly reproved McKesson's Santa Fe Springs distribution center permit, and McKesson agreed to pay the board's costs related to the investigation and enforcement of the matter. As set forth in the settlement agreement, McKesson denies any allegation that it violated California laws regarding the distribution of controlled substances and there are no findings of any violation of state or federal laws.

On May 20, 2022, **McKesson Medical Surgical, Inc.**'s Urbancrest, Ohio facility entered into a consent order with the MI Dept of Licensing in connection with an Administrative Compliant from January 2022. The Administrative Complaint is a result of two settlement agreements with the Ohio BOP. Michigan states that these settlement agreements violated MCL 333.17768(2)(d). A $500.00 fine was imposed and paid.

On July 19, 2022, **McKesson Medical Surgical, Inc.**'s Urbancrest, Ohio facility entered into a settlement agreement with the Alabama Board of Pharmacy. The Alabama discipline was in response to discipline the facility received from the Ohio Board of Pharmacy in 2021 McKesson paid a $3,000 fine under the Alabama settlement.

On September 16, 2022, **McKesson Medical-Surgical Inc.'s** Leetsdale, PA facility entered into a consent order with the MI Dept of Licensing in connection with an Administrative Compliant from January 2022. The Administrative Complaint is a result of two settlement agreements with the Ohio BOP. Michigan states that these settlement agreements violated MCL 333.17768(2)(d). A $500.00 fine was imposed and paid.

On December 20, 2022, **McKesson Medical-Surgical Inc.**'s Roseville, CA facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with an Administrative Complaint from November 2022. The Administrative Complaint is a result of alleged reciprocal discipline for failure to notify the Board of Designated Representative changes that occurred at the facility in violation Rule 680-X-2.23(2)(h)(1)(ii). Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed in 12/31/2023 upon compliance with the Deferral Agreement and payment of $2,500.00 costs to the Board.

On December 20, 2022, **McKesson Corporation**'s Aurora, IL facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with an Administrative Complaint from September 2022. The Administrative Complaint is a result of alleged failure comply with certain licensing requirements required to maintain a license in violation of Rule 680-X-2.23(g)(3). Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed in 12/31/2023 upon compliance with the Deferral Agreement and payment of $2,500.00 costs to the Board.

On December 20, 2022, **McKesson Medical-Surgical Inc.**'s Manteno, IL facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with an Administrative Compliant from September 2022. The Administrative Complaint is a result of alleged reciprocal discipline for failure to notify the Board of Designated Representative changes that occurred at the facility in violation of Rule 680-X-2.23(2)(h)(1)(ii). Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed in 12/31/2023 upon compliance with the Deferral Agreement and payment of $2,500.00 costs to the Board.

On April 14, 2023, **McKesson Corporation**'s Memphis, TN facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with alleged reciprocal discipline for failure to notify the Board of Designated Representative changes that occurred at the facility in violation Rule 680-X-2.23(2)(h)(1)(ii). Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed in 12/31/2023, upon compliance with the Deferral Agreement and payment of $4,000.00 costs to the Board.

On July 10, 2023, **McKesson Medical-Surgical Inc.**'s Bethlehem, PA facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with an alleged discipline for failure to notify the Board of Designated Representative changes that occurred at the facility in violation of Rule 680-X-2.23(2)(h)(1)(ii). Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed in 12/31/2023 upon compliance with the Deferral Agreement and payment of $5,000.00 costs to the Board.

On July 22, 2023, **McKesson Corporation**'s Santa Fe Springs, CA distribution center entered into a Consent Order with the Alabama Board of Pharmacy. The Consent Order constitutes reciprocal disciplinary action that was based entirely on a February 22, 2022, Decision and Order from the California Board of Pharmacy. There were no new facts giving rise to the Alabama Consent. Your office was notified of the California Order on or about 03/25/2022. Pursuant to the terms of the Alabama Consent, McKesson agreed to pay a fine of $25,000.

On August 29, 2023, **McKesson Medical-Surgical Inc.**'s Hanover Park, IL's facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with failing to provide notice of a change of ownership on a permit that the Board itself has deemed unnecessary. Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed in 12/31/2023, upon compliance with the Deferral Agreement and payment of $4,000 costs to the Board.

On April 12, 2024, **McKesson Corporation**'s Duluth, GA distribution center entered into a Public Consent Agreement with the Georgia State Board of Pharmacy. McKesson Corporation was disciplined for failure to maintain prescription drugs securely and assessed a fine of $10,000.

On May 29, 2024, **McKesson Medical-Surgical Inc.**'s Jacksonville, FL facility entered into a Consent Agreement with the Georgia State Board of Pharmacy due to the facility changing ownership and updating their licensure prior to receiving board approval. Under O.C.G.A § 26-4-40, the Georgia State Board of Pharmacy is authorized to deny Applicants application for licensure due to changing ownership without Board Approval. Based on the Consent Agreement, McKesson Medical-Surgical Inc shall submit a payment of One-Thousand Seven-Hundred Dollars ($1,700) for the violation. The Board agrees to grant the ownership change and licensure update once the terms and conditions of the agreement are met.

On August 29, 2024, the Ohio Board of Pharmacy issued a Final Order to **McKesson Corporation** for activities that occurred at McKesson's former distribution center previously located in Washington Courthouse, OH for purchases of dangerous drugs from an unlicensed entity from July 2019 to April 2021. The Board imposed a monetary fine in the amount of $2,750.00.

On August 30, 2024, **McKesson** (in addition to Cardinal Health, Inc. and Cencora, Inc. (f/k/a AmerisourceBergen Corporation) (collectively, the "Distributors")) has agreed to enter into a settlement agreement with third party payor ("TPP") plaintiffs to resolve certain opioid-related claims.

On September 12, 2024, the Idaho Board of Pharmacy ("BOP") entered into a Stipulation and Consent Order with **McKesson Medical-Surgical Inc.** ("MMS") whereby the parties mutually agree to settle two separate matters from MMS' Chino, CA and Roseville, CA distribution centers in 2020 and 2021 involving a deficient Designated Representative application and failure to timely renew its license application, respectively. The parties agree that sufficient mitigating factors exist (including the COVID-19 pandemic and various stay-at-home orders) to warrant resolution of these matters via the Stipulation and Consent Order without an admission of guilt by MMS and whereby the Stipulation and Consent Order requires MMS to pay a fine to the BOP in the amount of $6,000 and to reimburse the BOP for investigative costs in the amount of $5,200.

On September 25, 2024, **McKesson Corporation's** Montgomery, NY facility entered into a Settlement Agreement with the Connecticut Department of Consumer Protection Drug Control Division. Pursuant the terms of the Agreement, the Department of Consumer Protection alleged that McKesson's contracted courier failing to maintain prescription drugs securely in violation of Section 21a-115-32(b)(4) of the Regulations of Connecticut State Agencies. The Settlement Agreement shall neither be considered an admission of liability or a violation of law for any purpose, nor as evidence supporting the allegations of the Department of Consumer Protection. Per the Settlement Agreement, McKesson Corporation shall submit a payment of One Thousand Five Hundred Dollars ($1,500) to the Department of Consumer Protection and shall be issued a Letter of Reprimand.

On November 14, 2024, **McKesson Corporation's** Montgomery, NY facility entered into a Settlement Agreement with the Connecticut Department of Consumer Protection Drug Control Division. Pursuant the terms of the Agreement, the Department of Consumer Protection alleged that McKesson's contracted courier failing to maintain prescription drugs securely in violation of Section 21a-115-32(b)(4) of the Regulations of Connecticut State Agencies. The Settlement Agreement shall neither be considered an admission of liability or a violation of law for any purpose, nor as evidence supporting the allegations of the Department of Consumer Protection. Per the Settlement Agreement, McKesson Corporation shall submit a payment of Five Thousand Dollars ($5,000) to the Department of Consumer Protection and shall be issued a Letter of Reprimand.

- **Your license must be available for inspections during business hours.**
- **Permit holder(s) must display permit in the location to which it is issued.**
- **Please note it is your responsibility to keep this license/permit current.**

Important Information

LICENSE HOLDER (pharmacist, intern, technician, technician-trainee)

- Holder of this license number, printed above, is authorized in accordance with A.A.C. R4-23-201(A), A.A.C. R4-23-301(A) or A.A.C R4-23-1101(A), to perform the duties associated within their profession. By holding this license, the licensee agrees to comply with state & federal law.
- You are required by law to notify the Board of any home address and/or employment change within 10 business days

PERMIT HOLDER (pharmacy, non-prescription retailer (OTC), wholesale, manufacture, CMG, DME)

- Holder of this permit number, printed above, is authorized to conduct business according to the classification specified in A.R.S. § 32-1908(A); A.A.C. R4-23-601 and A.A.C. R4-23-607. By holding this permit, the permittee agrees to comply with state & federal law
- In-state pharmacy, wholesaler & manufacture permit holder(s) who plan to remodel or move locations, must submit a change-of-location/remodel form within 30 days prior to move/remodel. In-state non-prescription (OTC), compressed medical gas (CMG) & DME providers who plan to move locations must notify the board within 10 business days of move.
- Out-of-State permit holders must notify the Board of location changes, in writing, within 10 business days of move. A revised copy of your state permit shall be submitted to the Board, when available.
- Permits are non-transferable. Ownership changes of more than 30% require that a new application be submitted to the Board.

McKesson Medical-Surgical Inc. located at 1717 South 91st Ave, Tolleson, AZ 85353 is a wholesale distributor of prescription drugs, devices, over the counter medications and medical supplies and equipment to the primary care and extended care markets.

The facility is approximately 300,000 square feet. The entire facility is temperature controlled and utilizes the Vaisala Continuous Monitoring System to monitor temperature and humidity on a 24/7 basis. The security system is a Honeywell system which includes access controlled gates and doors, electrified door hardware, video surveillance with interior and exterior IP cameras, intercom, and alarm monitoring including door contacts, motion and glass break detection, and audible sounder strobes for emergency notification of unauthorized egress. The system is monitored and serviced by Everon Solutions, who is also the installation vendor, and by the McKesson SOC located in Atlanta.

SUMMARY OF EXPERIENCE

A professional and exceptional employee, with extensive experience in PPSD, quality assurance, shipping lead, and outbound supervisor duties. Other skills include replying to company inquiries (via phone and email) in a timely fashion, pipeline management, fulfillment requests, and safety/security. A detail oriented and effective team player in a non-stop competitive environment.

EXPERIENCE

McKesson — Jan. 2022 – Present
Outbound Supervisor

- Supervise packers and dock workers on their day-to-day duties. Manage payroll, PTO, and flex time. Conduct regional QA and Safety calls for the western region. Manage LUM and Bulk QA.

McKesson — Feb. 2021 – Jan. 2022
Bulk/Shipping Dock Lead

- Help Bulk and Shipping team members do their day-today duties. Help train new hires and or struggling team members.
- Print work for the Bulk team and ensure they are working in a timely manner. Move team members around to different areas to ensure all our work is completed each day.

McKesson — Feb. 2021 – Jan. 2022
Quality Assurance

- Setup a quality assurance process to hold accurately track discrepancies in our shipping processes.
- Review previous days customer complaints and compare them to our RF page to determine who caused a shipping error. Follow up with the team's supervisor and leads for a coaching opportunity with the team member.

McKesson — Aug. 2020 – Feb. 2021
Material Handler

- Operated PIT equipment to help pick Bulk cases.
- Helped pack out and sort on the shipping dock.

EDUCATION

Ex'pression College for Digital Arts, Emeryville, CA — Graduated
Bachelor of Applied Science, Sound Arts — Jun. 2012
Received Honors and Salutatorian

Please note that the disciplinary actions described below do NOT pertain to operations at the location set forth in this application.

McKesson Corporation and its wholly owned subsidiaries (hereinafter "McKesson") delivers pharmaceutical and medical products and business services to retail pharmacies and institutional providers like hospitals and health systems throughout North America and globally. Over the past 185 years, McKesson has developed multiple businesses that operate pharmacies, medical supply distribution centers, wholesale drug distribution centers, 3PL facilities, repackaging facilities, and other entities subject to federal and state regulation. Currently, McKesson owns and operates over 100 facilities in the United States that are licensed, permitted, or registered with the respective state agency with jurisdiction over its business type. Due to the breadth of its operations, it is practical that we limit this summary to disciplinary actions taken against these facilities during the last five years or the time frame specified in the question. ***The information in this statement is provided to the best of our knowledge and belief and includes all public disciplinary actions. This statement does not include any fines that are deemed non-disciplinary by the issuing state (for example, it does not include non-disciplinary Citations and Fines issued by California). Please let us know if your state requires information regarding non-disciplinary fines.***

On January 7, 2020, **McKesson Corporation** entered into a Consent Agreement and Final Order with the Iowa Board of Pharmacy regarding pseudoephedrine products that had not been included in the McKesson's Clear Lake, IA facility's annual controlled substance inventory and butalbital products that continued to be treated as legend drugs after such products became schedule III products in the state on June 26, 2019 (the "2020 Clear Lake Consent").

On January 14, 2020, **McKesson Medical-Surgical Inc.** entered into a Consent Agreement with the Arizona State Board of Pharmacy, regarding its Tempe, AZ distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $1,000 was imposed and paid on January 14, 2020.

On February 20, 2020, in response to the DEA Settlement, **McKesson Corporation** entered into a final agreement with the Indiana Board of Pharmacy. The agreement applies to the McKesson distribution center located in Washington Court House, Ohio. The facility's right to distribute controlled substances into Indiana has been placed on indefinite probation until the facility's DEA Registration is fully re-instated on or about February 16, 2021. The suspension period imposed by Indiana aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

On May 29, 2020, the Colorado Department of Regulatory Agencies cited **McKesson Medical-Surgical Inc.** concerning its Roseville, CA distribution center for failure to submit in a timely manner, an application to the Board detailing a change of designated representative. A fine of $1,150 was imposed and paid on July 1, 2020.

On January 27, 2021, Ohio Board of Pharmacy chose to issue a warning rather than take formal disciplinary action against **McKesson Medical-Surgical Inc.'s** Grove City, OH license.

The Board conducted an investigation regarding McKesson Specialty Care Distribution LLC's sale of 3 vials of Dangerous Drugs to an unlicensed Terminal Distributor of Dangerous Drugs on August 14, 2019. This is a non-disciplinary action.

On April 20, 2021, **McKesson Medical-Surgical Inc.** entered into a Consent Agreement with the Ohio Board of Pharmacy, regarding its Leetsdale, PA distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $1,125 was imposed and paid on April 20, 2021.

On May 05, 2021, **McKesson Medical-Surgical Inc.** entered into a Consent Agreement with the Maine Board of Pharmacy, regarding its Roseville, CA distribution center, in relation to the late reporting of a disciplinary action that was imposed by the Colorado Board of Pharmacy, for failure to report a change of designated representative within the required timeframe. A $500 civil penalty/fine was paid on 5/7/2021.

On May 22, 2021, in response to the DEA Settlement, **McKesson Corporation** entered into a final agreement with the Illinois Department of Financial and Professional Regulation. The Illinois Consent Order applies to the McKesson distribution centers located in Aurora, Colorado, Livonia, Michigan and Washington Court House, Ohio.

- Aurora, Colorado - the facility's Illinois controlled substance was restricted. The facility was prohibited from distributing controlled substances into the state until 1/17/2020 except for various exceptions that mirror exceptions in the DEA settlement;
- Livonia, Michigan - the facility's Illinois controlled substance was restricted. The facility was prohibited from distributing controlled substances into the state until 1/17/2019 except for various exceptions that mirror exceptions in the DEA settlement; and
- Washington Court House, Ohio - the facility's Illinois controlled substance was restricted. The facility was prohibited from distributing controlled substances into the state until 1/18/2021 except for various exceptions that mirror exceptions in the DEA settlement.

On May 27, 2021, **McKesson Corporation** entered into a consent agreement with the Maine Board of Pharmacy regarding its Aurora, IL distribution center failing to report the Colorado disciplinary action to the Maine Board of Pharmacy within 10 days as required. The Colorado disciplinary action is now reported to the Maine Board of Pharmacy. The terms of the consent agreement included a fine in the amount of $500.00.

On June 6, 2021, **McKesson Medical-Surgical Inc.** entered into a Settlement Agreement with the Ohio Board of Pharmacy, regarding its Leetsdale, PA distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $500 was imposed and paid on June 8, 2021.

On June 15, 2021, **McKesson Medical-Surgical Inc.** entered into a Settlement Agreement with the Ohio Board of Pharmacy, regarding its Urbancrest, OH distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $3000.00 was imposed and paid on June 15, 2021.

On June 23, 2021, **McKesson Medical-Surgical Inc.** entered into a Settlement Agreement with the Ohio Board of Pharmacy, regarding its Urbancrest, OH distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $125 was imposed and paid on June 23, 2021.

On October 1, 2021, **McKesson Corporation** ("McKesson") entered into a non-disciplinary agreement with the Connecticut Department of Consumer Protection, regarding its Memphis, TN distribution center. The agreement resolves allegations that, from January 2015 – January 2021, McKesson sold controlled substances to a practitioner that did not have an active Connecticut Controlled Substances Certificate of Registration. McKesson made no admission of liability and there were no findings of any violation of law. A monetary penalty of $4,500 was imposed.

On October 14, 2021, in response to the DEA Settlement, **McKesson Corporation** entered into a Settlement Agreement with the Ohio Board of Pharmacy (the "WCH Ohio Settlement"). The WCH Ohio Settlement applies to the McKesson distribution center located in Washington Court House, Ohio. The Ohio Settlement also resolved allegations of suspicious order reporting violations related to sales occurring between 2011 and 2017. Under the terms of terms of the WCH Ohio Settlement, there were no findings of any violation of law and McKesson made no admissions to the same. McKesson was subject to a reprimand and a fine of twenty-thousand dollars ($20,000).

On December 20, 2021, **McKesson Corporation** entered into a Consent Order with the Division of Professional Regulation of the Illinois Department of Financial and Professional Regulation (the "IDFPR") based on reciprocal state action from the 2020 Clear Lake Consent. The Illinois Consent applied to McKesson's Clear Lake, IA distribution center. Under the terms of the Illinois Consent Order, the facility was subject to a public reprimand by the IDFPR.

On January 18, 2022, **McKesson Medical-Surgical Inc.** entered into a Settlement Agreement with the Ohio Board of Pharmacy, regarding its Urbancrest, OH distribution center, for shipping prescription drugs to an entity that was not properly licensed to receive them. A monetary civil penalty of $500 was imposed and paid on January 18, 2022.

On January 20, 2022, **McKesson Medical-Surgical Inc.** was fined by the California Board of Pharmacy related to the fact that its Middletown, PA distribution center failed to timely notify the state of California when their designated representative left the company. The designated representative required by the home state was always in place. The new designated representative is now fully licensed. McKesson Medical-Surgical Inc. paid $700 fine. The fine is related to a non-disciplinary action.

On March 24, 2022, **McKesson Corporation** and the California Board of Pharmacy (the "Board") entered into a settlement agreement which resolved allegations against McKesson relating to the sale of controlled substances in 2017 and 2018 to an outpatient hospital pharmacy that the pharmacy discovered were being stolen by a pharmacy employee. Pursuant to the settlement agreement, the Board publicly reproved McKesson's Santa Fe Springs distribution center permit, and McKesson agreed to pay the board's costs related to the investigation and

enforcement of the matter. As set forth in the settlement agreement, McKesson denies any allegation that it violated California laws regarding the distribution of controlled substances and

On May 20, 2022, **McKesson Medical Surgical, Inc.**'s Urbancrest, Ohio facility entered into a consent order with the MI Dept of Licensing in connection with an Administrative Compliant from January 2022. The Administrative Complaint is a result of two settlement agreements with the Ohio BOP. Michigan states that these settlement agreements violated MCL 333.17768(2)(d). A $500.00 fine was imposed and paid.

On July 19, 2022, **McKesson Medical Surgical, Inc.**'s Urbancrest, Ohio facility entered into a settlement agreement with the Alabama Board of Pharmacy. The Alabama discipline was in response to discipline the facility received from the Ohio Board of Pharmacy in 2021 McKesson paid a $3,000 fine under the Alabama settlement.

On September 16, 2022, **McKesson Medical-Surgical Inc.'s** Leetsdale, PA facility entered into a consent order with the MI Dept of Licensing in connection with an Administrative Compliant from January 2022. The Administrative Complaint is a result of two settlement agreements with the Ohio BOP. Michigan states that these settlement agreements violated MCL 333.17768(2)(d). A $500.00 fine was imposed and paid.

On October 28, 2022, **McKesson Corporation**'s Aurora, IL facility received a non-disciplinary confidential letter of concern from the Colorado State Board of Pharmacy in relation to the late reporting of the 2021 Maine Board of Pharmacy discipline. No formal action or penalty was imposed.

On December 20, 2022, **McKesson Medical-Surgical Inc.**'s Roseville, CA facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with an Administrative Complaint from November 2022. The Administrative Complaint is a result of alleged reciprocal discipline for failure to notify the Board of Designated Representative changes that occurred at the facility in violation Rule 680-X-2.23(2)(h)(1)(ii). Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed in 12/31/2023 upon compliance with the Deferral Agreement and payment of $2,500.00 costs to the Board.

On December 20, 2022, **McKesson Corporation**'s Aurora, IL facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with an Administrative Complaint from September 2022. The Administrative Complaint is a result of alleged failure comply with certain licensing requirements required to maintain a license in violation of Rule 680-X-2.23(g)(3). Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed in 12/31/2023 upon compliance with the Deferral Agreement and payment of $2,500.00 costs to the Board.

On December 20, 2022, **McKesson Medical-Surgical Inc.**'s Manteno, IL facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with an Administrative Compliant from September 2022. The Administrative Complaint is a result of alleged reciprocal discipline for failure to notify the Board of Designated Representative changes that occurred at the facility in violation of Rule 680-X-2.23(2)(h)(1)(ii). Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed

in 12/31/2023 upon compliance with the Deferral Agreement and payment of $2,500.00 costs to the Board.

On April 14, 2023, **McKesson Corporation**'s Memphis, TN facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with alleged reciprocal discipline for failure to notify the Board of Designated Representative changes that occurred at the facility in violation Rule 680-X-2.23(2)(h)(1)(ii). Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed in 12/31/2023, upon compliance with the Deferral Agreement and payment of $4,000.00 costs to the Board.

On July 10, 2023, **McKesson Medical-Surgical Inc.**'s Bethlehem, PA facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with an alleged discipline for failure to notify the Board of Designated Representative changes that occurred at the facility in violation of Rule 680-X-2.23(2)(h)(1)(ii). Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed in 12/31/2023 upon compliance with the Deferral Agreement and payment of $5,000.00 costs to the Board.

On July 22, 2023, **McKesson Corporation**'s Santa Fe Springs, CA distribution center entered into a Consent Order with the Alabama Board of Pharmacy. The Consent Order constitutes reciprocal disciplinary action that was based entirely on a February 22, 2022, Decision and Order from the California Board of Pharmacy. There were no new facts giving rise to the Alabama Consent. Your office was notified of the California Order on or about 03/25/2022. Pursuant to the terms of the Alabama Consent, McKesson agreed to pay a fine of $25,000.

On August 29, 2023, **McKesson Medical-Surgical Inc.**'s Hanover Park, IL's facility entered into a Deferral Agreement with the Alabama State Board of Pharmacy in connection with failing to provide notice of a change of ownership on a permit that the Board itself has deemed unnecessary. Pursuant to the Deferral Agreement, the alleged violation will be deferred, deemed non-disciplinary and will be dismissed in 12/31/2023, upon compliance with the Deferral Agreement and payment of $4,000 costs to the Board.

On April 12, 2024, **McKesson Corporation**'s Duluth, GA distribution center entered into a Public Consent Agreement with the Georgia State Board of Pharmacy. McKesson Corporation was disciplined for failure to maintain prescription drugs securely and assessed a fine of $10,000.

On May 29, 2024, **McKesson Medical-Surgical Inc**.'s Jacksonville, FL facility entered into a Consent Agreement with the Georgia State Board of Pharmacy due to the facility changing ownership and updating their licensure prior to receiving board approval. Under O.C.G.A § 26-4-40, the Georgia State Board of Pharmacy is authorized to deny Applicants application for licensure due to changing ownership without Board Approval. Based on the Consent Agreement, McKesson Medical-Surgical Inc shall submit a payment of One-Thousand Seven-Hundred Dollars ($1,700) for the violation. The Board agrees to grant the ownership change and licensure update once the terms and conditions of the agreement are met.

On August 29, 2024, the Ohio Board of Pharmacy issued a Final Order to **McKesson Corporation** for activities that occurred at McKesson's former distribution center previously

located in Washington Courthouse, OH for purchases of dangerous drugs from an unlicensed entity from July 2019 to April 2021. The Board imposed a monetary fine in the amount of $2,750.00.

On August 30, 2024, **McKesson** (in addition to Cardinal Health, Inc. and Cencora, Inc. (f/k/a AmerisourceBergen Corporation) (collectively, the "Distributors")) has agreed to enter into a settlement agreement with third party payor ("TPP") plaintiffs to resolve certain opioid-related claims.

On September 12, 2024, the Idaho Board of Pharmacy ("BOP") entered into a Stipulation and Consent Order with **McKesson Medical-Surgical Inc.** ("MMS") whereby the parties mutually agree to settle two separate matters from MMS' Chino, CA and Roseville, CA distribution centers in 2020 and 2021 involving a deficient Designated Representative application and failure to timely renew its license application, respectively. The parties agree that sufficient mitigating factors exist (including the COVID-19 pandemic and various stay-at-home orders) to warrant resolution of these matters via the Stipulation and Consent Order without an admission of guilt by MMS and whereby the Stipulation and Consent Order requires MMS to pay a fine to the BOP in the amount of $6,000 and to reimburse the BOP for investigative costs in the amount of $5,200.

On September 25, 2024, **McKesson Corporation's** Montgomery, NY facility entered into a Settlement Agreement with the Connecticut Department of Consumer Protection Drug Control Division. Pursuant the terms of the Agreement, the Department of Consumer Protection alleged that McKesson's contracted courier failing to maintain prescription drugs securely in violation of Section 21a-115-32(b)(4) of the Regulations of Connecticut State Agencies. The Settlement Agreement shall neither be considered an admission of liability or a violation of law for any purpose, nor as evidence supporting the allegations of the Department of Consumer Protection. Per the Settlement Agreement, McKesson Corporation shall submit a payment of One Thousand Five Hundred Dollars ($1,500) to the Department of Consumer Protection and shall be issued a Letter of Reprimand.

On November 14, 2024, **McKesson Corporation's** Montgomery, NY facility entered into a Settlement Agreement with the Connecticut Department of Consumer Protection Drug Control Division. Pursuant the terms of the Agreement, the Department of Consumer Protection alleged that McKesson's contracted courier failing to maintain prescription drugs securely in violation of Section 21a-115-32(b)(4) of the Regulations of Connecticut State Agencies. The Settlement Agreement shall neither be considered an admission of liability or a violation of law for any purpose, nor as evidence supporting the allegations of the Department of Consumer Protection. Per the Settlement Agreement, McKesson Corporation shall submit a payment of Five Thousand Dollars ($5,000) to the Department of Consumer Protection and shall be issued a Letter of Reprimand.

Irving, TX 75039
(Address of principal executive offices, including zip code)
(972) 446-4800
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

(Title of each class)	*(Trading Symbol)*	*(Name of each exchange on which registered)*
Common stock, $0.01 par value	MCK	New York Stock Exchange
1.500% Notes due 2025	MCK25	New York Stock Exchange
1.625% Notes due 2026	MCK26	New York Stock Exchange
3.125% Notes due 2029	MCK29	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☒ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	☒	Accelerated filer	☐
Non-accelerated filer	☐	Smaller reporting company	☐
		Emerging growth company	☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☒

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the registrant, computed by reference to the closing price as of the last business day of the registrant's most recently completed second fiscal quarter, September 30, 2023, was approximately $57.8 billion.

Number of shares of common stock outstanding on April 30, 2024: 129,985,514

General

McKesson Corporation together with its subsidiaries (collectively, the "Company," "McKesson," "we," "our," or "us" and other similar pronouns), which traces its business roots to 1833, is a diversified healthcare services leader dedicated to advancing health outcomes for patients everywhere. Our teams partner with biopharma companies, care providers, pharmacies, manufacturers, governments, and others to deliver insights, products, and services to help make quality care more accessible and affordable.

The Company's fiscal year begins on April 1 and ends on March 31. Unless otherwise noted, all references in this document to a particular year refers to the Company's fiscal year. The Company was incorporated on July 7, 1994 in the State of Delaware.

Our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (the "Exchange Act"), are available free of charge on the Company's website (www.mckesson.com under the "Investors — Financials — SEC Filings" caption) as soon as reasonably practicable after such material is electronically filed with, or furnished to, the Securities and Exchange Commission ("SEC"). The content on any website referred to in this Annual Report on Form 10-K ("Annual Report") is not incorporated by reference into this report, unless expressly noted otherwise. The SEC maintains a website that contains reports, proxy and information statements, and other information regarding issuers, including the Company, that file electronically with the SEC. The address of the website is www.sec.gov.

Business Segments

The Company operates its business in four reportable segments: U.S. Pharmaceutical, Prescription Technology Solutions ("RxTS"), Medical-Surgical Solutions, and International.

Our U.S. Pharmaceutical segment distributes branded, generic, specialty, biosimilar and over-the-counter ("OTC") pharmaceutical drugs, and other healthcare-related products in the United States ("U.S."). This segment provides practice management, technology, clinical support, and business solutions to community-based oncology and other specialty practices. In addition, the segment sells financial, operational, and clinical solutions to pharmacies (retail, hospital, alternate sites) and provides consulting, outsourcing, technological, and other services.

Our Prescription Technology Solutions segment helps solve medication access, affordability, and adherence challenges for patients by working across healthcare to connect patients, pharmacies, providers, pharmacy benefit managers, health plans, and biopharma. RxTS serves our biopharma and life sciences partners, delivering innovative solutions that help people get the medicine they need to live healthier lives. RxTS also offers prescription price transparency, benefit insight, dispensing support services, as well as third-party logistics and wholesale distribution support designed to benefit stakeholders.

Our Medical-Surgical Solutions segment provides medical-surgical supply distribution, logistics, and other services to healthcare providers, including physician offices, surgery centers, nursing homes, hospital reference labs, and home health care agencies. We offer more than 245,000 national brand medical-surgical products as well as McKesson's own line of high-quality products through a network of distribution centers in the U.S.

Our International segment provides distribution and services to wholesale, institutional, and retail customers in Canada and Europe where we own, partner, or franchise with retail pharmacies, and support better, safer patient care by delivering vital medicines, supplies, and information technology solutions.

U.S. Pharmaceutical Segment:

Our U.S. Pharmaceutical segment provides distribution and logistics services for branded, generic, specialty, biosimilar, and OTC pharmaceutical drugs along with other healthcare-related products to customers. This business provides solutions and services to pharmacies, hospitals, oncology and other specialty practices, pharmaceutical manufacturers, biopharma partners, physicians, payors, and patients throughout the U.S. We also source generic pharmaceutical drugs through our ClarusONE Sourcing Services LLP joint venture with Walmart Inc. ("ClarusONE").

Our U.S. Pharmaceutical segment operates and serves customers through a network of 27 distribution centers in the U.S., including two strategic redistribution centers. We invest in technology and other systems at all of our distribution centers to enhance safety, reliability, and product availability. For example, we offer McKesson Connect℠, an internet-based ordering system that provides item look-up and real-time inventory availability as well as ordering, purchasing, third-party reconciliation, and account management functionality. We make extensive use of technology as an enabler to ensure customers have the right products at the right time in the right place.

To maximize distribution efficiency and effectiveness, we follow the Six Sigma methodology, which is an analytical approach that emphasizes setting high-quality objectives, collecting data, and analyzing results to a fine degree in order to improve processes, reduce costs, and enhance service accuracy and safety. We provide solutions to our customers including supply management technology, world-class marketing programs, managed care, repackaging products, and services to help them meet their business and quality goals. We continue to implement information systems to help achieve greater consistency and accuracy both internally and for our customers, as well as make investments to increase capacity and automation.

We have four primary customer pharmaceutical distribution channels: (i) retail national accounts, which include national and regional retail chains, food and drug combinations, mail order pharmacies, and mass merchandisers, (ii) community pharmacies and health (formerly described as independent, small, and medium chain retail pharmacies), (iii) institutional healthcare providers such as hospitals, health systems, integrated delivery networks, and long-term care providers, and (iv) oncology, biopharma, and other specialty partners.

Retail National Accounts: We provide business solutions that help our retail national account customers increase revenues and profitability. Solutions include:

- Central Fill℠ – Prescription refill service that enables pharmacies to more quickly refill prescriptions remotely, more accurately, and at a lower cost, while reducing inventory levels and improving customer service.
- Strategic Redistribution Centers – Two facilities totaling over 740,000 square feet that offer access to inventory for single source warehouse purchasing, including pharmaceuticals and biologics. These distribution centers also provide the foundation for a two-tiered distribution network that supports best-in-class direct store delivery.
- McKesson SynerGx® – Generic pharmaceutical purchasing program and inventory management that helps pharmacies maximize their cost savings with a broad selection of generic drugs, competitive pricing, and one-stop shopping.
- Inventory Management – An integrated solution comprised of forecasting software and automated replenishment technologies that reduce inventory-carrying costs.
- ExpressRx Track™ – Pharmacy automation solution featuring state-of-the-art robotics, upgraded imaging, and expanded vial capabilities, and industry-leading speed and accuracy in a small footprint.

Community Pharmacy and Health: We strengthen the overall health of community pharmacies and elevate the role they play in people's lives. We accomplish this by providing supply chain excellence, pharmacy and patient solutions, as well as supporting independent pharmacies through industry and legislative advocacy. Our pharmacy and patient solutions include:

- Health Mart® – A national network of approximately 4,500 independently-owned pharmacies and one of the industry's most comprehensive pharmacy franchise programs. Health Mart provides franchisees support for operational excellence, managed care contracting, marketing, merchandising solutions, and clinical programs to enhance patient care.
- Health Mart Atlas® – Comprehensive managed care services that help community pharmacies save time, access competitive reimbursement rates, and improve cash flow.
- McKesson Reimbursement Advantage℠ ("MRA") – MRA is one of the industry's most comprehensive reimbursement optimization packages, comprising financial services (automated claim resubmission), analytic services, and customer care.
- McKesson Provider Pay® – Provider Pay is an automated reconciliation and payment management solution designed to maximize third-party cash flow and pursue unpaid claims.
- McKesson OneStop Generics® – Generic pharmaceutical purchasing program that helps pharmacies maximize their cost savings with a broad selection of generic drugs, competitive pricing, and one-stop shopping.
- Pinpoint Community Solutions – McKesson's perpetual inventory management system targeted to independent pharmacy owners with five or fewer stores. The solution provides customers the opportunity to improve cash flow and increase efficiency with inventory visibility to help maximize operational performance.
- FrontEdge™ – Strategic planning, merchandising, and price maintenance program that helps community pharmacies maximize store profitability.
- McKesson RxOwnership Program – A confidential, no-fee resource for pharmacists and pharmacy owners interested in buying, starting, or selling an independent pharmacy, regardless of their pharmacy affiliation.

Institutional Healthcare Providers: At McKesson, we are relentless in our pursuit of opportunities to achieve operational efficiency, reduce waste, and improve the financial performance of our customers so they can achieve more of their goals today and into the future. Solutions include:

- RxO Advisory Services – A suite of supply chain management, pharmacy optimization, and 340B program advisory services driven by data and analytics.

- McKesson Plasma and Biologics – Specialty and plasma drug distributor that leads in market exclusive drug access; partner to health systems customers in navigating the complexities of limited distribution drug; and optimization of McKesson Distribution benefits.
- Outpatient and Specialty Pharmacy – A portfolio of services and solutions customized to each customer's business and clinical strategy.
- Contracting and Contract/Purchasing Optimization – Solutions across generics, specialty, branded products, biosimilars, and 340B products, for inpatient and outpatient settings.
- Supply Assurance – Solutions and strategies to enhance product availability and proactively manage inventory of critical items.
- Patient Assistance Solutions – Technologies and services that enable health systems and providers to better financially support their patients and community benefit programs.

The U.S. Pharmaceutical segment also offers solutions which enable its customers to drive greater efficiencies in their day-to-day operations, effectively managing their inventories and complying with complex government regulations. Solutions include McKesson Pharmacy Systems, MacroHelix, and Supply Logix, all of which provide innovative software technology and services that support retail pharmacies and hospitals.

Oncology, Biopharma, and Other Specialty Partners:

The U.S. Pharmaceutical segment provides a range of solutions to oncology and other specialty practices and offers community specialists (oncologists, rheumatologists, ophthalmologists, urologists, neurologists, and other specialists) an extensive set of customizable solutions and services designed to strengthen core practice operations, enhance value-based care delivery, and expand their service offering to patients. Community-based physicians in this business have broad flexibility and discretion to select the products and commitment levels that best meet their practice needs. Services in provider solutions include specialty drug distribution, group purchasing organizations ("GPO") like Onmark®, technology solutions, practice consulting services, and vaccine distribution, including our exclusive distributor relationship with the Centers for Disease Control and Prevention's ("CDC") Vaccines for Children program. Additionally, McKesson has proudly supported the U.S. efforts to fight the pandemic caused by the SARS-CoV-2 coronavirus ("COVID-19") by distributing certain COVID-19 vaccines since December 2020 at the direction of the U.S. government. This program concluded in the second quarter of fiscal 2024, at which point we began transitioning the distribution of COVID-19 vaccines commercially through our customer pharmaceutical distribution channels.

This business provides a variety of solutions, including practice operations, healthcare information technology, revenue cycle management and managed care contracting solutions, evidence-based guidelines, and quality measurements to support The U.S. Oncology Network ("USON"), one of the nation's largest networks of physician-led, integrated, community-based oncology practices dedicated to advancing high-quality, evidence-based cancer care. SCRI Oncology, LLC, an oncology research business in which we own a 51% controlling interest, is one of the nation's largest research networks and specializes in enhancing clinical trial access and availability across the country.

This segment includes Ontada®, McKesson's oncology technology and insights business providing software to support the clinical, financial, and operational needs of our oncology practice customers. Ontada also partners with oncology providers and biopharma partners to perform real-world evidence studies, retrospective research, and to provide clinical data insights, advisory solutions and education opportunities.

When we discuss specialty products or services, we consider the following factors: diseases requiring complex treatment regimens such as cancer and rheumatoid arthritis; plasma and biologics products; ongoing clinical monitoring requirements, high-cost, special handling, storage, and delivery requirements and, in some cases, exclusive distribution arrangements. Our use of the term "specialty" may not be comparable to that used by other industry participants, including our competitors.

Prescription Technology Solutions Segment:

Our Prescription Technology Solutions segment works across healthcare to connect patients, pharmacies, providers, pharmacy benefit managers, health plans, and biopharma to deliver medication access solutions that support patients from first prescription fill to ongoing therapy, regardless of their insurance coverage. RxTS has connections with most electronic health record systems, over 50,000 pharmacies, approximately 950,000 providers, most pharmacy benefit managers and health plans, and has supported over 650 biopharma brands representing most therapeutic areas. Through its industry connections and ability to navigate the healthcare ecosystem, RxTS offers innovative solutions created to benefit healthcare stakeholders. Its comprehensive solution suites span across the entire patient journey, including medication access and affordability, prescription decision support, prescription price transparency, benefit insight and dispensing support services, as well as third-party logistics and wholesale distribution support, to help increase speed to therapy, reduce prescription abandonment, and support improved health outcomes for the patient. In the past year, RxTS helped patients save more than $8.8 billion on brand and specialty medications, helped to prevent an estimated 10.7 million prescriptions from being abandoned due to affordability challenges, and helped patients access their medicine more than 94 million times.

Medical-Surgical Solutions Segment:

Our Medical-Surgical Solutions segment delivers medical-supply distribution, logistics, biomedical maintenance, and other services to healthcare providers across the alternate-site spectrum. Our more than 285,000 customers include physician offices, surgery centers, post-acute care facilities, hospital reference labs, and home health agencies. We partner with manufacturers and channel partners to support our key target end-markets, including primary care, extended care, government, and other markets. We distribute medical-surgical supplies (such as gloves, needles, syringes, and wound care products), infusion pumps, laboratory equipment, and pharmaceuticals. Through a network of distribution centers in the U.S., we offer more than 245,000 products from national brand manufacturers and McKesson's own brand of high-quality products. Through the right mix of products and services, we help improve efficiencies, profitability, and compliance. We also never lose focus on helping customers improve patient and business outcomes. We develop customized plans to address the product, operational, and clinical support needs of our customers, including inventory management, reducing administrative burdens, and training and educating clinical staff. We deliver for our customers, so they can deliver and care for their patients.

International Segment:

Our International segment provides distribution and services to wholesale, institutional, and retail customers in Canada and Europe where we own, partner, or franchise with retail pharmacies. Our operations in Canada also support better, safer patient care by delivering vital medicines, supplies, and information technology solutions to customers, and through several retail health and wellness brands, across Canada.

McKesson Canada is one of the largest pharmaceutical wholesale and retail distributors in Canada. The wholesale business delivers products to retail pharmacies, hospitals, long-term care centers, clinics and institutions in Canada through a national network of distribution centers and provides logistics and distribution services for manufacturers.

Beyond wholesale pharmaceutical logistics and distribution, McKesson Canada provides automation and technology solutions to its retail and hospital customers. Additionally, McKesson Canada provides comprehensive specialty health services to Canadians and provides biopharma services to manufacturers, including a national network of specialty pharmacies, personalized patient care and support programs, and INVIVA, Canada's first and largest accredited network of private infusion clinics. McKesson Canada also owns and operates PDCI, Canada's leading market access consultancy, supporting manufacturers as they introduce new products into the Canadian market.

The Canada retail business includes approximately 2,700 banner pharmacies under the IDA®, Guardian®, The Medicine Shoppe®, Remedy'sRx®, Proxim®, and Uniprix® banners, and approximately 400 owned pharmacies under the Rexall™ brand where we provide patients with greater choice and access, integrated pharmacy care and industry-leading service levels. McKesson Canada also owns and operates Well.ca™, a leading Canadian online health and wellness retailer.

In July 2021, we announced our intention to exit our businesses in Europe. We divested the majority of our European businesses during fiscal 2022 and fiscal 2023. Our remaining operations in Europe provide distribution and services to wholesale and retail customers in Norway where we own, partner, or franchise with retail pharmacies. We continue to evaluate suitable exit alternatives for our retail and distribution businesses in Norway. Refer to Financial Note 2, "Business Acquisitions and Divestitures," to the consolidated financial statements included in this Annual Report for additional information on our European divestitures.

Investments, Restructuring, Business Combinations, and Divestitures

We invest in new and existing distribution centers to increase scale and capacity, improve efficiency through automation and technology, and enhance regulatory compliance capabilities. Additionally, we invest in data and analytics to support our growth priorities, including artificial intelligence ("AI"). We are in the early stages of exploring potential AI capabilities and related data and analytics across our enterprise to improve productivity and efficiency, as well as enhance our products and services to better support patients, employees, and customers.

We have undertaken additional strategic initiatives in recent years designed to increase operational efficiencies, focus on our core healthcare businesses, execute our business strategy, and enhance our competitive position. These initiatives are detailed in Financial Note 2, "Business Acquisitions and Divestitures," and Financial Note 3, "Restructuring, Impairment, and Related Charges, Net," to the consolidated financial statements included in this Annual Report.

Competition

We operate in highly competitive environments in North America and Norway. In recent years, the healthcare industry has been subject to increasing consolidation. In the pharmaceutical distribution environment in which our U.S. Pharmaceutical and International segments operate, we face strong competition from international, national, regional, and local full-line, short-line, and specialty distributors, service merchandisers, self-warehousing chain drug stores, manufacturers engaged in direct distribution, third-party logistics companies, and large payer organizations. We consider our largest competitors in distribution, wholesaling, and logistics to be Cencora, Inc. and Cardinal Health, Inc. Our retail businesses, which primarily operate in our International segment, face competition from various global, national, regional, and local retailers, including chain and independent pharmacies.

Our RxTS business experiences substantial competition from many companies, including other biopharma services companies, software services firms, consulting firms, shared service vendors, and internet-based companies with technology applicable to the healthcare industry. Competition in this business varies in size from large to small companies, in geographical coverage, and in scope and breadth of products and services offered.

Our Medical-Surgical Solutions segment provides medical-surgical supply distribution, logistics, and other services to healthcare providers, including physician offices, surgery centers, nursing homes, hospital reference labs, home health care agencies, and other alternative sites with competition from a wide range of national and regional medical supply and equipment distributors throughout the U.S.

In addition, we compete with other service providers and healthcare manufacturers, as well as other potential customers of our businesses, which may from time to time decide to develop, for their own internal needs, supply management capabilities that might otherwise be provided by our businesses. We believe that our scale and diversity of product and service offerings are our primary competitive advantages. In all areas, key competitive factors include price, quality of service, breadth of product lines, innovation, adoption of new and evolving technologies, and, in some cases, convenience to the customer.

Patents, Trademarks, Copyrights, and Licenses

McKesson and its subsidiaries hold patents, copyrights, trademarks, and trade secrets related to McKesson products and services. We pursue patent protection for our innovations and obtain copyright protection for our original works of authorship when such protection is advantageous. Through these efforts, we have developed a portfolio of patents and copyrights in the U.S. and worldwide. In addition, we have registered or applied to register certain trademarks and service marks in the U.S. and in foreign countries.

We believe that, in the aggregate, McKesson's confidential information, patents, copyrights, trademarks, and intellectual property licenses are important to its operations and market position, but we do not consider any of our businesses to be dependent upon any one patent, copyright, trademark, or trade secret, or any family or families of the same. We cannot guarantee that our intellectual property portfolio will be sufficient to deter misappropriation, theft, or misuse of our technology, nor that we can successfully enjoin infringers. We periodically receive notices alleging that our products or services infringe on third-party patents and other intellectual property rights. These claims may result in McKesson entering settlement agreements, paying damages, discontinuing use or sale of accused products, or ceasing other activities. While the outcome of any litigation or dispute is inherently uncertain, we do not believe that the resolution of any of these infringement notices would have a material adverse impact on our results of operations.

We hold inbound licenses for certain intellectual property that is used internally, and in some cases, utilized in McKesson's products or services. While in the future it may be necessary to seek or renew licenses relating to various aspects of our products and services, we believe, based upon past experience and industry practice, such licenses generally can be obtained on commercially reasonable terms. We believe our operations as well as our products and services are not materially dependent on any single license or other agreement with any third party.

Human Capital

Everything we do at McKesson begins with our employees, who bring our mission and purpose to life every day. As of March 31, 2024, we had approximately 51,000 employees worldwide, which includes 6,000 part-time employees. We had approximately 35,000 employees in the U.S., 13,000 employees in Canada, and 3,000 employees in Europe. Our employees in Europe primarily support our operations in Norway. We also supplement our workforce with contractors and/or consultants for certain business projects, processes, and/or operations as demand requires.

Inclusion and Belonging: As a company, we believe building a more inclusive future is everyone's responsibility. We build successful teams by fostering a culture of inclusion and belonging and ensuring we attract and retain the best talent at all levels of our organization. To help strengthen our company, we offer various learning opportunities, such as our company-wide inclusion curriculum and additional initiatives to recognize, value and leverage the diversity of our workforce, enhance the inclusiveness of our culture and candidly discuss important topics happening in the world around us. We also offer employees the opportunity to join employee resource groups ("ERGs"), which are voluntary, employee-led, company-sponsored networks that aim to make a positive impact on our employees' lives. Our ERGs focus on helping employees make authentic connections, share and affirm their identities and perspectives, showcase leadership skills and find ways to nurture and support belonging and empowerment. Our 11 ERGs provide a sense of community and insights into the perspectives and experiences across different ethnicities, genders, generations, abilities, and/or military/veteran status, as well as supporting members and allies of the LGBTQIA+ community.

At March 31, 2024, women and people of color represented the following:

Metric [1]	McKesson Overall	McKesson Leadership [2]
Women	62 %	43 %
People of Color [3][4]	49 %	28 %

(1) The data for our metrics is derived from our voluntary self-identification process as of March 31, 2024 and therefore represents our best estimate at this time.

(2) Represents our leadership at the vice president level and above.

(3) Represents U.S. employees only because the data for Canada and Europe is not available.

(4) People of Color includes the following self-identification categories: American Indian or Alaska Native, Asian, Black or African American, Hispanic or Latino, Native Hawaiian or Other Pacific Islander, or Two or More Races.

Culture and Leadership: One of McKesson's defining characteristics is our strong culture. Every day, we bring our employee value proposition to life by taking pride in fostering a sense of belonging, finding meaning in our work, and caring for each other, our customers, and all those who depend on us. More than two decades ago, our leadership team created a foundational set of values grounded in the belief that the way we do business is just as important as the business itself. Today, our I²CARE values (Integrity, Inclusion, Customer-First, Accountability, Respect, Excellence) and ILEAD leadership behaviors (Inspire, Leverage, Execute, Advance, Develop) continue to stand the test of time and remain at the core of our daily actions – from how we interact with each other and our customers, to how we make decisions, both big and small. As we work to shape the future of health and embrace the ongoing evolution of our company, we will continue to utilize our strengths to drive lasting change while remaining deeply rooted in our purpose of Advancing Health Outcomes for All®.

Investment in Employees: As an industry leader, we are committed to investing in our people, so that they, in turn, can focus on making better health possible for people everywhere. We are committed to nurturing a culture of wellbeing that empowers our employees to be at their best, including offering health and wellness benefits to advance their physical, mental, and social well-being, savings programs to help prepare them for retirement and flexible work arrangements, among other offerings, when possible. To support growth and career development, we offer employees regular training, coaching, and 360-degree assessments, and financial assistance programs for higher education opportunities.

To provide compensation that is focused on attracting and retaining talent with the skills and experience necessary for a specific role, our compensation program is built on a set of quantifiable factors defined by our guiding principles of internal equity, market competitiveness and pay for performance. We operate in several countries and our benefits vary accordingly. Our compensation philosophy is rooted in a commitment to our people by offering a fair and transparent program that regularly assesses the competitive job market based on geography and cost of labor. We use external resources to provide competitive benchmarking analyses against other companies and set pay ranges around the median of the competitive market. As part of our commitment to pay transparency, the majority of our employees can view the competitive base pay range for their roles as well as for internal and external job postings. Also, the pay range for external job postings is included on McKesson's website (www.mckesson.com under the "Careers" caption).

As we strive to become the best place to work in healthcare, we actively seek employee feedback through annual and mid-year employee opinion surveys, which assesses our employees' levels of engagement, commitment and overall satisfaction using industry benchmarks, and then design action plans to improve those metrics. We also seek feedback on our people leaders through our annual manager quality survey, which is an opportunity for employees to help their managers grow professionally and build valuable leadership skills that help to promote a positive and productive workplace.

Health and Safety: Our security and safety teams employ systems designed to continually monitor our facilities and work environment to help identify and prevent or mitigate potential risks. This includes having procedures in place and investing in equipment for both physical and electronic security. We routinely assess facilities to closely monitor adherence to established security and safety standards. If we identify a vulnerability, it is documented, and the facility prepares an action plan. Our employees receive specialized training related to their role, work setting, and equipment used in their work environment. As our processes evolve, we update relevant safety training modules, which may include new employee training programs.

Government Regulation

We operate in many highly regulated industries and are subject to oversight by various federal, state, and local governmental entities in the U.S. and elsewhere. We incur significant expense and make large capital expenditures and investments to enable us to comply with regulations and guidance promulgated by governmental entities. See "Risk Factors" in Item 1A of Part I below for information regarding material risks associated with our compliance with governmental regulations.

Controlled Substances: We are subject to the operating and security standards of the U.S. Drug Enforcement Administration ("DEA"), the U.S. Food and Drug Administration ("FDA"), the U.S. Department of Health and Human Services ("HHS"), the Centers for Medicare & Medicaid Services ("CMS"), various state boards of pharmacy, state health departments, and comparable agencies in the U.S. and other countries. Certain of our businesses may be required to register for permits and/or licenses with government agencies, depending upon the type of operations and location of product development, manufacture, distribution, and sale. For example, we are required to hold valid DEA and state-level registrations and licenses, meet various security and operating standards, and comply with the Controlled Substances Act and its accompanying regulations governing the sale, marketing, packaging, holding, distribution, and disposal of controlled substances. We maintain extensive controlled substance monitoring and reporting programs at considerable expense in order to help us meet those standards.

Government Contracts: Our contracts with government entities typically are subject to procurement laws that include socio-economic, employment practices, environmental protection, recordkeeping and accounting, and other requirements. These statutory and regulatory requirements complicate our business and increase our compliance burden. We are subject to audits, investigations, and oversight proceedings about our compliance with contractual and legal requirements.

Federal, state, and local governmental entities in the U.S. and elsewhere continue to strengthen their position and scrutiny of practices that may indicate fraud, waste, and abuse affecting government healthcare programs such as Medicare and Medicaid. Our relationships with pharmaceutical and medical surgical product manufacturers, healthcare providers, and other companies and individuals, as well as our provision of products and services to government entities, subject our business to statutes, regulations, and government guidance that are intended to prevent fraud and abuse. Among other things, those laws: (1) prohibit persons from soliciting, offering, receiving, or paying any remuneration in order to induce the referral of an individual for, or to induce the ordering or purchasing of, items or services that are in any way paid for by Medicare, Medicaid, or other government healthcare programs; (2) impose many restrictions upon referring physicians and providers of designated health services under Medicare and Medicaid programs; and (3) prohibit the knowing submission of a false or fraudulent claim for payment to, and knowing retention of an overpayment by, a federal healthcare program such as Medicare and Medicaid. Many of these laws are vague or indefinite and are often subject to varied and evolving interpretations by courts, regulators, and enforcing agencies and, as such, may be interpreted or applied by a prosecutorial, regulatory, or judicial authority in a manner that could require us to make changes in our operations at added expense.

Healthcare Program Regulation: In the U.S., the Patient Protection and Affordable Care Act ("ACA") significantly expanded health insurance coverage to uninsured Americans and changed the way healthcare is financed by both governmental and private payors. The implementation of the Inflation Reduction Act of 2022 (the "IRA") has begun to change benefit design and how Medicare pays for drugs, which are all intended to reduce the price of drugs. Three central features of the IRA have authorized the government to negotiate drug prices for certain Parts B and D drugs over time, establish an inflation rebate program, and cap patient cost sharing under Medicare Part D.

Provincial governments in Canada that provide partial funding for the purchase of pharmaceuticals and independently regulate the sale and reimbursement of drugs have sought to reduce the costs of publicly funded health programs. For example, provincial governments have taken steps to reduce consumer prices for generic pharmaceuticals and, in some provinces, change professional allowances paid to pharmacists by generic drug manufacturers.

McKesson continues to advocate for policies that would improve drug cost transparency under a patient's drug plan to better inform prescribing decisions, and also address access to care, affordability, and treatment regimen adherence, all designed to improve clinical outcomes and reduce the health spending burden.

FDA Regulation and Supply Chain Integrity: In the U.S., the FDA is the principal federal authority that regulates the safety, efficacy, quality, testing, premarket approval, manufacture, labeling, storage, distribution, and post-market surveillance of healthcare products, such as drugs and medical devices, foods, and cosmetics.

Certain federal and state laws regulate the pharmaceutical drug supply chain in order to prevent the distribution of counterfeit, stolen, contaminated, or otherwise harmful prescription drugs in interstate commerce. At the federal level, the Drug Supply Chain Security Act ("DSCSA") requires standardized, unit-level traceability of pharmaceutical products along the entire drug supply chain and requires all trading partners to cooperate in an electronic, interoperable prescription drug traceability system. In August 2023, the FDA established a one-year stabilization period to certain DSCSA requirements that allows trading partners to implement, troubleshoot, and mature their electronic interoperable systems until the stabilization period ends on November 27, 2024. The FDA has also issued a proposed rule that would establish national standards for the licensure of wholesale drug distributors and third-party logistic providers and other requirements applicable to these entities. These federal and state regulatory requirements increase our compliance burden and our distribution costs.

Cybersecurity, Data Security, and Privacy: We are subject to many cybersecurity, privacy, and data protection laws that change frequently and have requirements that vary from jurisdiction to jurisdiction. Our efforts to comply with these laws complicates our operations and adds to our costs. We are subject to significant compliance obligations under privacy laws such as the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), the General Data Protection Regulation ("GDPR") in the European Union, the Personal Information Protection and Electronic Documents Act ("PIPEDA") in Canada, and an expanding list of comprehensive state privacy laws in the U.S. Some privacy laws prohibit the transfer of personal information to certain other jurisdictions or otherwise limit our use of data. Many of these laws also require us to provide access or other data rights (modification, deletion, portability, etc.) to consumers' and patients' individual personal data records within specified periods of time. Cybersecurity laws such as the federal Cyber Incident Reporting for Critical Infrastructure Act of 2022, proposed Federal Acquisition Regulations, and recent amendments to SEC reporting requirements may require us to provide notifications of certain cybersecurity incidents before our investigations are complete and within short timeframes. Regulations and guidance targeting critical infrastructure entities, including McKesson, continue to be a focus of regulators. We are subject to privacy and data protection compliance audits or investigations by various government agencies. The introduction of new technologies, such as AI, may result in additional regulation.

Environmental Regulation: We are subject to many environmental and hazardous materials regulations, including those relating to radiation-emitting equipment operated at U.S. Oncology Network practices. Additionally, our operations are subject to regulations under various federal, state, local and foreign laws concerning the environment, including laws addressing the discharge of pollutants into the air and water, the management and disposal of hazardous substances and wastes, and the cleanup of contaminated sites.

We sold our chemical distribution operations in 1987 and retained responsibility for certain environmental obligations. Agreements with the U.S. Environmental Protection Agency and certain states have required and may require environmental assessments and cleanups at several closed sites. These matters are described further in Financial Note 17, "Commitments and Contingent Liabilities," to the consolidated financial statements included in this Annual Report.

Climate Change Regulation: Governments in the U.S. and abroad have adopted or are considering new or expanded policies and laws to address climate change. Such policies and laws may require or necessitate reductions of greenhouse gas ("GHG") emissions, mandates that companies implement processes and controls to monitor and disclose climate-related matters, additional taxes or offset charges on specified energy sources, and other requirements. Compliance with climate-related policies and laws may be further complicated by disparate regulatory approaches in various jurisdictions. Methodologies for reporting climate-related information may change and previously reported information may be retroactively adjusted, if required. New or expanded climate-related policies and laws could impose costs on us, including capital expenditures to develop data gathering and reporting systems, costly third-party attestations, and additional GHG reduction measures. Until the timing and extent of climate-related policies and laws are clarified, including due to legal challenges, we cannot predict their potential effect on our capital expenditures, results of operations, or competitive position.

Other Information about the Business

Customers: During fiscal 2024, sales to our ten largest customers, including group purchasing organizations ("GPOs") accounted for approximately 69% of our total consolidated revenues. Sales to our largest customer, CVS Health Corporation ("CVS"), accounted for approximately 28% of our total consolidated revenues in fiscal 2024. In fiscal 2023, we extended our pharmaceutical distribution partnership with CVS to June 2027. Our ten largest customers comprised approximately 43%, and CVS was approximately 24%, of our total trade accounts receivable at March 31, 2024. We also have agreements with GPOs, each of which functions as a purchasing agent on behalf of member hospitals, pharmacies, and other healthcare providers, as well as with government entities and agencies. The accounts receivable balances are with individual members of the GPOs, and therefore no significant concentration of credit risk exists. Substantially all of these revenues and accounts receivable are included in our U.S. Pharmaceutical segment.

Suppliers: We obtain pharmaceutical and other products from manufacturers and our largest supplier accounted for 12% of our total purchases in fiscal 2024. The loss of a supplier could adversely affect our business if alternate sources of supply are unavailable. We believe that our relationships with our suppliers are generally sound. The ten largest suppliers in fiscal 2024 accounted for approximately 67% of our total purchases.

Some of our distribution arrangements with manufacturers provide us consideration based on a percentage of our purchases. In addition, we have certain distribution arrangements with pharmaceutical manufacturers that include an inflation-based consideration component whereby we benefit when the manufacturers increase their prices as we sell our existing inventory at the new higher prices. For these manufacturers, a reduction in the frequency and magnitude of price increases, as well as restrictions in the amount of inventory available to us, could have an adverse impact on our gross profit margin.

Research and Development: Research and development expenses were $77 million, $89 million, and $70 million for the years ended March 31, 2024, 2023, and 2022, respectively.

Financial Information About Foreign and Domestic Operations: Certain financial information relating to foreign and domestic operations is discussed in Financial Note 20, "Segments of Business," to the consolidated financial statements included in this Annual Report as well as in "Foreign Operations" in Item 7 of Part II of this Annual Report. See "Risk Factors" in Item 1A of Part I below for information regarding risks associated with our foreign operations.

Forward-Looking Statements

This Annual Report, including "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Item 7 of Part II of this report and the "Risk Factors" in Item 1A of Part I of this report, contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 ("Securities Act") and Section 21E of the Exchange Act. Forward-looking statements may be identified by their use of terminology such as "believes," "expects," "anticipates," "may," "will," "should," "seeks," "approximately," "intends," "projects," "plans," "estimates," "targets," or the negative of these words or other comparable terminology. The discussion of financial trends, strategy, plans, assumptions, expectations, or intentions may also include forward-looking statements. Forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected, anticipated, or implied. Although it is not possible to predict or identify all such risks and uncertainties, they include, but are not limited to, the factors discussed in Item 1A of Part I of this report under "Risk Factors" and in our publicly available SEC filings and press releases. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date such statements were first made. Except to the extent required by federal securities laws, we undertake no obligation to publicly release the result of any revisions to any forward-looking statements to reflect events or circumstances after the date the statements are made, or to reflect the occurrence of unanticipated events.

Available Information

We routinely post on our company website, and via our social media channels, information that may be material to investors, including details and updates to information disclosed elsewhere, which may include business developments, earnings and financial performance, sustainability matters, and materials for presentations to investors and financial analysts. Investors are encouraged to monitor our website www.mckesson.com. Interested parties can sign up on our website, including our Investor Relations site, to receive automated e-mail alerts, such as via RSS newsfeed, when we post certain information. Interested parties can also follow our social media feed @McKesson on X, formerly known as Twitter. The content on any website or social media channel is not incorporated by reference into this report, unless expressly noted otherwise.

Item 1A. Risk Factors.

INDEX TO RISK FACTORS

Section	Page
Litigation and Regulatory Risks	14
Company and Operational Risks	16
Industry and Economic Risks	21
General Risks	24

The discussion below identifies certain representative risks that might cause our actual business results to materially differ from our estimates. It is not practical to identify or describe all risks and uncertainties that might materially impact our business operations, reputation, financial position, or results of operations. Our business could be materially affected by risks that we have not yet identified or that we currently consider to be immaterial. This is not a complete discussion of all potential risks and uncertainties.

Litigation and Regulatory Risks

We experience costly and disruptive legal disputes.

We are routinely named as a defendant in litigation or regulatory proceedings and other legal disputes, which may include asserted class action litigation, such as those described in Financial Note 17, "Commitments and Contingent Liabilities," to the consolidated financial statements included in this Annual Report. Regulatory proceedings involve allegations such as false claims, healthcare fraud and abuse, and antitrust violations. Civil litigation proceedings involve commercial, employment, environmental, intellectual property, tort, and other claims. Despite valid defenses that we assert, legal disputes are often costly, time-consuming, distracting to management, and disruptive to normal business operations. The uncertainty and expense associated with unresolved legal disputes might harm our business and reputation even if the matter ultimately is favorably resolved. The outcome of legal disputes is difficult to predict, and outcomes may occur that we believe are not justified by the evidence or existing law. Outcomes include monetary damages, penalties and fines, and injunctive or other relief that requires us to change our business operations and incur significant expense. Accordingly, legal disputes might have a materially adverse impact on our reputation, our business operations, and our financial position or results of operations.

We experience losses not covered by insurance or indemnification.

Our business exposes us to risks that are inherent in the distribution, manufacturing, dispensing, and administration of pharmaceuticals and medical-surgical supplies, the provision of ancillary services, the conduct of our payer businesses, practice support services, and the provision of products that assist clinical decision-making and relate to patient medical histories and treatment plans. For example, pharmacy operations are exposed to risks such as improper filling of prescriptions, mislabeling of prescriptions, inadequacy of warnings, unintentional distribution of counterfeit drugs, and expiration of drugs. Although we seek to maintain adequate insurance coverage, such as property insurance for inventory and professional and general liability insurance, coverages on acceptable terms might be unavailable, or coverages might not cover our losses. We generally seek to limit our contractual exposure, but limitations of liability or indemnity provisions in our contracts may not be enforceable or adequately protect us from liability. Uninsured or non-indemnified losses might have a materially adverse impact on our business operations and our financial position or results of operations.

We experience costly legal disputes, government actions, and adverse publicity regarding our role in distributing controlled substances such as opioids.

The Company is a defendant in many litigation matters alleging claims related to the distribution of controlled substances (opioids), as described in Financial Note 17, "Commitments and Contingent Liabilities," to the consolidated financial statements in this Annual Report. We are sometimes named as a defendant in similar, new cases. The plaintiffs in those cases include governmental entities (such as states, provinces, counties, and municipalities) as well as businesses, groups, and individuals. The cases allege violations of controlled substance laws and other laws, and they make common law claims such as negligence and public nuisance. Many of these cases raise novel theories of liability and can have unexpected outcomes that we believe are not justified by evidence or existing law. Legal proceedings such as these often involve significant expense, management time and distraction, and risk of loss that can be difficult to predict or quantify. It is not uncommon for claims to be resolved over many years. Outcomes include monetary damages, penalties and fines, and injunctive or other relief that requires us to change our business operations and incur significant expense. Although the Company has valid defenses and is vigorously defending itself, some proceedings have been and others may be resolved by negotiated outcome. For example, we are subject to consent decrees issued by state courts that govern our distribution of controlled substances. Not all proceedings, however, are resolved by settlement. Our reputation has been and may continue to be impacted by publicity regarding opioids litigation and related allegations. An adverse outcome of any such legal proceedings might have a materially adverse impact on our business operations and our financial position or results of operations.

We experience increased costs to distribute controlled substances such as opioids.

Legislative, regulatory, or industry measures related to the distribution of controlled substances such as prescription opioids could affect our business in ways that we may not be able to predict. For example, some states have passed legislation that could require us to pay taxes or assessments on the distribution of opioid medications in those states and other states have considered similar legislation. Liabilities for taxes or assessments or other costs of compliance under any such laws might have a materially adverse impact on our reputation, our business operations, and our financial position or results of operations.

We are subject to extensive, complex, and challenging healthcare, environmental, and other laws.

As described in "Government Regulation" in Item 1 of Part I above, our industry is highly regulated, and further regulation of our distribution businesses, technology products, and services could impose increased costs, negatively impact our profit margins and the profit margins of our customers, delay the introduction or implementation of our new products, or otherwise negatively impact our business and expose the Company to litigation and regulatory investigations. We incur cleanup costs under environmental laws and may incur additional costs under environmental laws. Additionally, we are subject to various routine and ad hoc inspections and requests for information by government agencies to determine compliance with various statutes and regulations. Any noncompliance by us with applicable laws or the failure to maintain, renew, or obtain necessary permits and licenses could lead to enforcement actions or litigation and might have a materially adverse impact on our business operations and our financial position or results of operations.

We are subject to extensive and frequently changing laws relating to healthcare fraud, waste, and abuse.

As described in "Government Regulation" in Item 1 of Part I above, federal, state, and local governmental entities in the U.S. and elsewhere continue to strengthen their position and scrutiny over practices that may indicate fraud, waste, and abuse affecting government healthcare programs such as Medicare and Medicaid. Those laws may be interpreted or applied in a manner that could require us to make changes in our operations at added expense. Failures to comply with those laws, including the federal Anti-Kickback Statute, might expose us to federal or state government investigations or qui tam actions, and to liability for damages and civil and criminal penalties. Such failures might result in the loss of licenses or our ability to participate in Medicare, Medicaid, or other federal and state healthcare programs, or pursue government contracts. These sanctions might have a materially adverse impact on our business operations and our financial position or results of operations.

ITEM 1. BUSINESS

OUR BUSINESSES

Overview

The terms "we," "our," "us," "its," "UnitedHealth Group," or the "Company" used in this report refer to UnitedHealth Group Incorporated and its subsidiaries.

UnitedHealth Group Incorporated is a health care and well-being company with a mission to help people live healthier lives and help make the health system work better for everyone. Our two distinct, yet complementary businesses — Optum and UnitedHealthcare — are working to help build a modern, high-performing health system through improved access, affordability, outcomes and experiences for the individuals and organizations we are privileged to serve.

The ability to analyze complex data and apply deep health care expertise and insights allows us to serve patients, consumers, care providers, businesses, communities and governments with more innovative products and complete, end-to-end offerings for many of the biggest challenges facing health care today.

Optum seeks to create a higher-performing, value-oriented and more connected approach to health care. Bringing together clinical expertise, technology and data to make care simpler, more effective and more affordable, we seek to advance whole-person health, creating a seamless consumer experience and supporting clinicians with insights to deliver personalized, evidence-based care. Optum serves the broad health care marketplace, including patients and consumers, payers, care providers, employers, governments and life sciences companies, through its Optum Health, Optum Insight and Optum Rx businesses. These businesses improve overall health system performance by optimizing health care quality and delivery, reducing costs and improving patient, consumer and provider experience, leveraging distinctive capabilities in data and analytics, pharmacy care services, health care operations, population health and health financial services.

UnitedHealthcare offers a full range of health benefits, designed to simplify the health care experience and make it more affordable for consumers to access high-quality care. UnitedHealthcare Employer & Individual serves consumers and employers, ranging from sole proprietorships to large, multi-site and national employers and public sector employers. UnitedHealthcare Medicare & Retirement delivers health and well-being benefits to seniors and other Medicare eligible consumers. UnitedHealthcare Community & State serves consumers who are economically disadvantaged, the medically underserved and those without the benefit of employer sponsored health benefits coverage.

We have four reportable segments:

- Optum Health;
- Optum Insight;
- Optum Rx; and
- UnitedHealthcare, which includes UnitedHealthcare Employer & Individual, UnitedHealthcare Medicare & Retirement and UnitedHealthcare Community & State.

Optum

Optum is an information and technology-enabled health services business serving the broad health care marketplace, including:

- Those who need care: patients who need the right care, information, resources, products and engagement to improve their health, achieve their health goals and receive an improved patient experience that is personalized, comprehensive and delivered in all care settings, including in-home and virtually.
- Those who provide care: physicians, hospitals, pharmacies and others seeking to improve the health system and reduce the administrative burden, allowing for providers to focus time on patients leading to the best possible patient care and experiences while achieving better health outcomes at lower costs. Improved health outcomes are achieved by utilizing our clinical expertise, data and analytics to better understand, treat and prevent consumers' health conditions and ensure they receive the best evidence-based care.
- Those who pay for care: consumers; employers; health plans; and state, federal and municipal agencies devoted to ensuring the people they sponsor receive high-quality care, administered and delivered efficiently and effectively, all while driving health equity so that every individual, family and community has access to the care they need.
- Those who innovate for care: global life sciences organizations dedicated to developing more effective approaches to care, enabling technologies and medicines to improve care delivery and health outcomes.

0462

Optum operates three business segments which combine distinctive capabilities in value-based care, population health, health care operations, data and analytics and pharmacy care services:

- Optum Health delivers patient-centered care, care management, wellness and consumer engagement, and health financial services;
- Optum Insight offers data, analytics, research, consulting, technology and managed services solutions; and
- Optum Rx provides diversified pharmacy care services.

Optum Health

Optum Health provides comprehensive and patient-centered care, addressing the physical, mental, social, and financial well-being of 100 million consumers and serves more than 100 health payer partners. We engage people in the most appropriate care settings, including clinical sites, in-home and virtual. Optum Health delivers primary, specialty and surgical care; helps patients and providers navigate and address complex, chronic and behavioral health needs; offers post-acute care planning services; and serves consumers and care providers through advanced, on-demand digital health technologies, such as telehealth and remote patient monitoring, and innovative health care financial services. Optum Health works directly with patients, consumers, care delivery systems, providers, employers, payers, and public-sector entities to provide high quality, accessible and equitable care with improved health outcomes and reduced total cost of care. Optum Health enables care providers to transition from traditional fee-for-service payment models to performance-based delivery and payment models designed to improve patient health outcomes and experience through value-based care.

Optum Health offerings include fully accountable value-based arrangements, where Optum Health assumes responsibility for health care costs in exchange for a monthly premium. Offerings also include administrative fee arrangements, where Optum Health manages or administers products and services in exchange for a monthly fee, and fee-for-service arrangements, where Optum Health delivers health-related products and medical services for patients at a contracted fee.

Optum Financial, including Optum Bank, serves consumers through more than 27 million consumer accounts with $24 billion in assets under management as of December 31, 2024. Organizations across the health system rely on Optum Financial to manage and improve payment flows through its highly automated, scalable, end-to-end digital payment and financing systems and integrated card solutions. For financial services offerings, Optum Financial charges fees and earns investment income on managed funds.

Optum Health sells its products primarily through its direct sales force, strategic collaborations and external producers in three key areas: employers, including large, mid-sized and small employers; payers including health plans, third-party administrators (TPAs), underwriter/stop-loss carriers and individual product intermediaries; and public entities, including the U.S. Departments of Health and Human Services (HHS), Veterans Affairs, Defense, and other federal, state and local health care agencies.

Optum Insight

Optum Insight connects the health care system with services, analytics and platforms that make clinical, administrative and financial processes simpler and more efficient for all participants in the health care system. Hospital systems, physicians, health plans, public entities, life sciences companies and other organizations comprising the health care industry depend on Optum Insight to help them improve performance and reduce costs through administrative efficiency and payment simplification, advance care quality through evidence-based standards built directly into clinical workflows, meet compliance mandates and modernize their core operating systems to meet the changing needs of the health system.

Health Systems. Serves hospitals, physicians and other care providers to improve operating performance, better coordinate care and reduce administrative costs through technology and services to improve population health management, patient engagement, revenue cycle management and strategic growth plans.

Health Plans. Serves health plans by improving financial performance and enhancing outcomes through proactive analytics, a comprehensive payment integrity portfolio and technology-enabled and staff-supported risk and quality services. Optum Insight helps health plans navigate a dynamic environment defined by shifts in employer vs. public-sector coverage, the demand for affordable benefit plans and the need to leverage new technology to reduce complexity.

State Governments. Provides advanced technology and analytics services to modernize the administration of critical safety net programs, such as Medicaid, while improving cost predictability.

Life Sciences Companies. Combines data and analytics expertise with comprehensive technologies and health care knowledge to help life sciences companies, including those in pharmaceuticals and medical technology, adopt a more comprehensive approach to advancing therapeutic discoveries and improving clinical outcomes.

Many of Optum Insight's software and information products and professional services are delivered over extended periods, often several years. Optum Insight maintains an order backlog to track unearned revenues under these long-term arrangements. The backlog consists of estimated revenue from signed contracts, other legally binding agreements and anticipated contract renewals based on historical experience with Optum Insight's customers. Optum Insight's aggregate backlog as of December 31, 2024 was approximately $32.8 billion, of which $19.8 billion is expected to be realized within the next 12 months. The aggregate backlog includes $12.5 billion related to affiliated agreements. Optum Insight's aggregate backlog as of December 31, 2023, was $32.1 billion, including $11.9 billion related to affiliated agreements.

Optum Insight's products and services are sold primarily through a direct sales force. Optum Insight's products are also supported and distributed through an array of alliances and business partnerships with other technology vendors, who integrate and interface Optum Insight's products with their applications.

Optum Rx

Optum Rx provides a full spectrum of pharmacy care services through its network of more than 65,000 retail pharmacies, through home delivery, specialty and community health pharmacies, the provision of in-home and community-based infusion services and through rare disease and gene therapy support services. It also offers direct-to-consumer solutions.

Optum Rx manages a broad range of prescription drug spend, including widely available retail drugs as well as limited and ultra-limited distribution drugs in oncology, HIV, pain management and ophthalmology. Optum Rx serves the growing pharmacy needs of people with behavioral health and substance use disorders. In 2024, Optum Rx managed $178 billion in pharmaceutical spending, including $74 billion in specialty pharmaceutical spending.

Optum Rx serves health benefits providers, large national employer plans, unions and trusts, purchasing coalitions and public-sector entities. Optum Rx sells its services through direct sales, health insurance brokers and other health care consultants.

Optum Rx offers multiple clinical programs, digital tools and services to help clients manage overall pharmacy and health care costs in a clinically appropriate manner which are designed to deliver improved consumer experiences, better health outcomes and a lower total cost of care. Optum Rx provides various utilization management, medication management, quality assurance, adherence and counseling programs to complement each client's plan design and clinical strategies. Optum Rx is accelerating the integration of medical, pharmacy and behavioral care and treating the whole patient by embedding our pharmacists as key members of the patient care team.

UnitedHealthcare

Through its health benefits offerings, UnitedHealthcare is enabling better health, creating a better health care experience for its customers and helping to control rising health care costs. UnitedHealthcare's market position is built on:

- strong local-market relationships;
- the breadth of product offerings, based upon extensive expertise in distinct market segments in health care;
- service and advanced technology, including digital consumer engagement;
- competitive medical and operating cost positions;
- effective clinical engagement; and
- innovation for customers and consumers.

UnitedHealthcare arranges for discounted access to care through its extensive networks and uses Optum's capabilities to help coordinate and provide patient care, improve affordability of medical care, analyze cost trends, manage pharmacy care services, work with care providers more effectively and create a simpler and more satisfying consumer and physician experience.

UnitedHealthcare is subject to extensive government regulation. See further discussion of our regulatory environment below under "Government Regulation" and in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations."

UnitedHealthcare Employer & Individual

Domestically, UnitedHealthcare Employer & Individual offers a comprehensive array of consumer-oriented health benefit plans and services for large national employers, public sector employers, mid-sized employers, small businesses, and individuals. As of December 31, 2024, UnitedHealthcare Employer & Individual provides access to medical services for 29.7 million people.

Through its risk-based product offerings, UnitedHealthcare Employer & Individual assumes the risk of both medical and administrative costs for its customers in return for a monthly premium which is typically a fixed rate per individual served for a one-year period. Through its administrative and other management services arrangements to customers who elect to self-fund the health care costs of their employees and employees' dependents, UnitedHealthcare Employer & Individual receives a fixed

monthly service fee per individual served. These customers retain the risk of financing medical benefits for their employees and employees' dependents, while UnitedHealthcare Employer & Individual provides services such as coordination and facilitation of medical and related services to customers, consumers and health care professionals, administration of transaction processing and access to a contracted network of physicians, hospitals and other health care professionals, including dental and vision professionals. UnitedHealthcare Employer & Individual is focused on providing informed benefit solutions that create customized plan designs and clinical programs for employers that contribute to well-being and reduce the total cost of care along with providing simpler consumer experiences in response to market dynamics.

UnitedHealthcare Employer & Individual typically distributes its products through a variety of channels, dependent upon the specific product, including: through consultants or direct sales, in collaboration with brokers and agents, through wholesale agents or agencies who contract with health insurance carriers to distribute individual or group benefits, through professional employer organizations and associations and through both multi-carrier and its own proprietary private exchange marketplaces.

UnitedHealthcare Employer & Individual's major product families include consumer engagement products, such as high-deductible consumer driven benefit plans and a variety of innovative consumer centric products; traditional products; clinical and pharmacy products; and specialty benefits, such as vision, dental, accident protection, critical illness, disability and hospital indemnity offerings.

UnitedHealthcare Medicare & Retirement

UnitedHealthcare Medicare & Retirement provides health and well-being services to seniors and other Medicare eligible consumers, addressing their unique needs. UnitedHealthcare Medicare & Retirement has distinct benefit designs, pricing, underwriting, clinical program management and marketing capabilities dedicated to health products and services in this market.

UnitedHealthcare Medicare & Retirement offers a selection of products allowing people choice in obtaining the health coverage and services they need as their circumstances change. These offerings include care management and health system navigator services, clinical management programs, nurse health line services, 24-hour access to health care information, access to discounted health services from a network of care providers and administrative services.

UnitedHealthcare Medicare & Retirement has extensive distribution capabilities and experience, including direct marketing to consumers on behalf of its key clients, a membership organization, and state and U.S. government agencies. Products are also offered through agents, employer groups and digital channels.

Major product categories include:

Medicare Advantage. Provides health care coverage for seniors and other eligible Medicare beneficiaries through the Medicare Advantage program administered by the Centers for Medicare & Medicaid Services (CMS), including Medicare Advantage HMO plans, Preferred Provider Organization (PPO) plans, Point-of-Service plans, Private-Fee-for-Service plans and Special Needs Plans (SNPs). Under the Medicare Advantage program, UnitedHealthcare Medicare & Retirement provides health benefits coverage in exchange for a fixed monthly premium per member from CMS plus, in some cases, monthly consumer premiums. Premium amounts received from CMS vary based on the geographic areas in which individuals reside; demographic factors such as age, gender and institutionalized status; and the health status of the individual. UnitedHealthcare Medicare & Retirement served 7.8 million people through its Medicare Advantage products as of December 31, 2024.

We have continued to enhance our offerings, focusing on more digital and physical care resources in the home, expanding our concierge navigation services and enabling the home as a safe and effective setting for care. For example, through our HouseCalls program, nurse practitioners performed 2.9 million clinical preventive home care visits in 2024 to address unmet care opportunities and close gaps in care.

Medicare Part D. Provides Medicare Part D benefits to beneficiaries through its Medicare Advantage and stand-alone Medicare Part D plans. The stand-alone Medicare Part D plans address a large spectrum of people's needs and preferences for their prescription drug coverage, including low-cost prescription options. As of December 31, 2024, UnitedHealthcare enrolled 10.1 million people in the Medicare Part D programs, including 3.1 million individuals in stand-alone Medicare Part D plans, with the remainder in Medicare Advantage plans incorporating Medicare Part D coverage.

Medicare Supplement. Provides a full range of supplemental products at diverse price points. These products cover various levels of coinsurance and deductible gaps to which seniors are exposed in the traditional Medicare program. UnitedHealthcare Medicare & Retirement served 4.3 million seniors nationwide through various Medicare Supplement products as of December 31, 2024.

Premium revenues from CMS represented 40% of UnitedHealth Group's total consolidated revenues for the year ended December 31, 2024, most of which were generated by UnitedHealthcare Medicare & Retirement.

UnitedHealthcare Community & State

UnitedHealthcare Community & State is dedicated to serving state programs caring for the economically disadvantaged, the medically underserved and those without the benefit of employer-funded health care coverage, typically in exchange for a monthly premium per member from the state program. UnitedHealthcare Community & State's primary customers oversee Medicaid plans, including Temporary Assistance to Needy Families; Children's Health Insurance Programs (CHIP); Dual SNPs (DSNPs); Long-Term Services and Supports (LTSS); Aged, Blind and Disabled; and other federal, state and community health care programs. As of December 31, 2024, UnitedHealthcare Community & State participated in programs in 33 states and the District of Columbia, and served more than 7.4 million people; including 1.2 million people through Medicaid expansion programs in 20 states under the Patient Protection and Affordable Care Act (ACA).

States using managed care services for Medicaid beneficiaries select health plans by using a formal bid process or by awarding individual contracts. These health plans and care programs are designed to address the complex needs of the populations they serve, including the chronically ill, people with disabilities and people with a higher risk of medical, behavioral and social conditions. UnitedHealthcare Community & State administers benefits for the unique needs of children, pregnant women, adults, seniors and those who are institutionalized or are nursing home eligible. These individuals often live in medically underserved areas and are less likely to have a consistent relationship with the medical community or a care provider. They also often face significant social and economic challenges.

GOVERNMENT REGULATION

Our businesses are subject to comprehensive U.S. federal and state and international laws and regulations. We are regulated by agencies which generally have discretion to issue regulations and interpret and enforce laws and rules. U.S. federal and state and international governments continue to consider and enact various legislative and regulatory proposals which could materially impact certain aspects of the health care system. New laws, regulations and rules, or changes in the interpretation of existing laws, regulations and rules, including as a result of changes in the political environment, could adversely affect our businesses.

See Part I, Item 1A, "Risk Factors" for a discussion of the risks related to our compliance with U.S. federal and state and international laws and regulations.

U.S. Federal Laws and Regulation

When we contract with the federal government, we are subject to federal laws and regulations relating to the award, administration and performance of U.S. government contracts. CMS regulates our UnitedHealthcare businesses and certain aspects of our Optum businesses. Payments by CMS to our businesses are subject to regulations, including those governing fee-for-service and the submission of information relating to the health status of enrollees for purposes of determining the amounts of certain payments to us. CMS also has the right to audit our performance to determine our compliance with CMS contracts and regulations and the quality of care we provide to Medicare beneficiaries. Our commercial business is further subject to CMS audits related to medical loss ratios (MLRs) and risk adjustment data.

UnitedHealthcare Community & State has Medicaid and CHIP contracts, which are subject to federal regulations regarding services to be provided to Medicaid enrollees, payment for those services and other aspects of these programs. There are many regulations affecting Medicare and Medicaid compliance, and the regulatory environment with respect to these programs is complex.

Our businesses are also subject to laws and regulations relating to consumer protection, anti-fraud and abuse, anti-kickbacks, false claims, prohibited referrals, inappropriate reduction or limitation of health care services, anti-money laundering and securities and antitrust compliance.

Privacy, Security and Data Standards Regulation. Certain of our operations are subject to regulation under the administrative simplification provisions of the Health Insurance Portability and Accountability Act of 1996, as amended (HIPAA), which apply to both the group and individual health insurance markets, including self-funded employee benefit plans. Federal regulations related to HIPAA contain minimum standards for electronic transactions and code sets and for the privacy and security of protected health information.

Our businesses must comply with the Health Information Technology for Economic and Clinical Health Act (HITECH), which regulates matters relating to privacy, security and data standards. HITECH imposes requirements on uses and disclosures of health information; includes contracting requirements for HIPAA business associate agreements; extends parts of HIPAA privacy and security provisions to business associates; adds federal data breach notification requirements for covered entities and business associates and reporting requirements to HHS and the Federal Trade Commission (FTC) and, in some cases, to the local media; strengthens enforcement and imposes higher financial penalties for HIPAA violations and, in certain cases, imposes criminal penalties for individuals, including employees. In the conduct of our business, depending on the circumstances, we may act as either a covered entity or a business associate.

Optum operates three business segments which combine distinctive capabilities in value-based care, population health, health care operations, data and analytics and pharmacy care services:

- Optum Health delivers patient-centered care, care management, wellness and consumer engagement, and health financial services;
- Optum Insight offers data, analytics, research, consulting, technology and managed services solutions; and

Optum Rx is accelerating the integration of medical, pharmacy and behavioral care and treating the whole patient by embedding our pharmacists as key members of the patient care team.

UnitedHealthcare

Through its health benefits offerings, UnitedHealthcare is enabling better health, creating a better health care experience for its customers and helping to control rising health care costs. UnitedHealthcare's market position is built on:

- strong local-market relationships;
- the breadth of product offerings, based upon extensive expertise in distinct market segments in health care;
- service and advanced technology, including digital consumer engagement;
- competitive medical and operating cost positions;
- effective clinical engagement; and
- innovation for customers and consumers.

UnitedHealthcare arranges for discounted access to care through its extensive networks and uses Optum's capabilities to help coordinate and provide patient care, improve affordability of medical care, analyze cost trends, manage pharmacy care services, work with care providers more effectively and create a simpler and more satisfying consumer and physician experience.

UnitedHealthcare is subject to extensive government regulation. See further discussion of our regulatory environment below under "Government Regulation" and in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations."

UnitedHealthcare Employer & Individual

Domestically, UnitedHealthcare Employer & Individual offers a comprehensive array of consumer-oriented health benefit plans and services for large national employers, public sector employers, mid-sized employers, small businesses, and individuals. As of December 31, 2024, UnitedHealthcare Employer & Individual provides access to medical services for 29.7 million people.

Through its risk-based product offerings, UnitedHealthcare Employer & Individual assumes the risk of both medical and administrative costs for its customers in return for a monthly premium which is typically a fixed rate per individual served for a one-year period. Through its administrative and other management services arrangements to customers who elect to self-fund the health care costs of their employees and employees' dependents, UnitedHealthcare Employer & Individual receives a fixed

monthly service fee per individual served. These customers retain the risk of financing medical benefits for their employees and employees' dependents, while UnitedHealthcare Employer & Individual provides services such as coordination and facilitation of medical and related services to customers, consumers and health care professionals, administration of transaction processing and access to a contracted network of physicians, hospitals and other health care professionals, including dental and vision professionals. UnitedHealthcare Employer & Individual is focused on providing informed benefit solutions that create customized plan designs and clinical programs for employers that contribute to well-being and reduce the total cost of care along with providing simpler consumer experiences in response to market dynamics.

UnitedHealthcare Employer & Individual typically distributes its products through a variety of channels, dependent upon the specific product, including: through consultants or direct sales, in collaboration with brokers and agents, through wholesale agents or agencies who contract with health insurance carriers to distribute individual or group benefits, through professional employer organizations and associations and through both multi-carrier and its own proprietary private exchange marketplaces.

UnitedHealthcare Employer & Individual's major product families include consumer engagement products, such as high-deductible consumer driven benefit plans and a variety of innovative consumer centric products; traditional products; clinical and pharmacy products; and specialty benefits, such as vision, dental, accident protection, critical illness, disability and hospital indemnity offerings.

UnitedHealthcare Medicare & Retirement

UnitedHealthcare Medicare & Retirement provides health and well-being services to seniors and other Medicare eligible consumers, addressing their unique needs. UnitedHealthcare Medicare & Retirement has distinct benefit designs, pricing, underwriting, clinical program management and marketing capabilities dedicated to health products and services in this market.

UnitedHealthcare Medicare & Retirement offers a selection of products allowing people choice in obtaining the health coverage and services they need as their circumstances change. These offerings include care management and health system navigator services, clinical management programs, nurse health line services, 24-hour access to health care information, access to discounted health services from a network of care providers and administrative services.

UnitedHealthcare Medicare & Retirement has extensive distribution capabilities and experience, including direct marketing to consumers on behalf of its key clients, a membership organization, and state and U.S. government agencies. Products are also offered through agents, employer groups and digital channels.

Major product categories include:

Medicare Advantage. Provides health care coverage for seniors and other eligible Medicare beneficiaries through the Medicare Advantage program administered by the Centers for Medicare & Medicaid Services (CMS), including Medicare Advantage HMO plans, Preferred Provider Organization (PPO) plans, Point-of-Service plans, Private-Fee-for-Service plans and Special Needs Plans (SNPs). Under the Medicare Advantage program, UnitedHealthcare Medicare & Retirement provides health benefits coverage in exchange for a fixed monthly premium per member from CMS plus, in some cases, monthly consumer premiums. Premium amounts received from CMS vary based on the geographic areas in which individuals reside; demographic factors such as age, gender and institutionalized status; and the health status of the individual. UnitedHealthcare Medicare & Retirement served 7.8 million people through its Medicare Advantage products as of December 31, 2024.

We have continued to enhance our offerings, focusing on more digital and physical care resources in the home, expanding our concierge navigation services and enabling the home as a safe and effective setting for care. For example, through our HouseCalls program, nurse practitioners performed 2.9 million clinical preventive home care visits in 2024 to address unmet care opportunities and close gaps in care.

Medicare Part D. Provides Medicare Part D benefits to beneficiaries through its Medicare Advantage and stand-alone Medicare Part D plans. The stand-alone Medicare Part D plans address a large spectrum of people's needs and preferences for their prescription drug coverage, including low-cost prescription options. As of December 31, 2024, UnitedHealthcare enrolled 10.1 million people in the Medicare Part D programs, including 3.1 million individuals in stand-alone Medicare Part D plans, with the remainder in Medicare Advantage plans incorporating Medicare Part D coverage.

Medicare Supplement. Provides a full range of supplemental products at diverse price points. These products cover various levels of coinsurance and deductible gaps to which seniors are exposed in the traditional Medicare program. UnitedHealthcare Medicare & Retirement served 4.3 million seniors nationwide through various Medicare Supplement products as of December 31, 2024.

Premium revenues from CMS represented 40% of UnitedHealth Group's total consolidated revenues for the year ended December 31, 2024, most of which were generated by UnitedHealthcare Medicare & Retirement.

The use and disclosure of individually identifiable health data by our businesses are also regulated in some instances by other federal laws, including the Gramm-Leach-Bliley Act (GLBA) or state statutes implementing GLBA. These federal laws and state statutes generally require insurers to provide customers with notice regarding how their non-public personal health and financial information is used and the opportunity to "opt out" of certain disclosures before the insurer shares such information with a third party, and generally prescribe safeguards for the protection of personal information. Neither the GLBA nor HIPAA privacy regulations preempt more stringent state laws and regulations, which may apply to us, as discussed below. Federal consumer protection laws may also apply in some instances to privacy and security practices related to personally identifiable information.

ERISA. The Employee Retirement Income Security Act of 1974, as amended (ERISA), regulates how our services are provided to or through certain types of employer-sponsored health benefit plans. ERISA is a set of laws and regulations subject to interpretation by the U.S. Department of Labor (DOL) as well as the federal courts. ERISA sets forth standards on how our business units may do business with employers who sponsor employee health benefit plans, particularly those who maintain self-funded plans. Regulations established by the DOL subject us to additional requirements for administration of benefits, claims payment and member appeals under health care plans governed by ERISA.

State Laws and Regulation

Health Care Regulation. Our insurance and HMO subsidiaries must be licensed by the jurisdictions in which they conduct business. All of the states in which our subsidiaries offer insurance and HMO products regulate those products and operations. The states require periodic financial reports and establish minimum capital or restricted cash reserve requirements. The National Association of Insurance Commissioners (NAIC) has adopted model regulations, which require expanded governance practices and risk and solvency assessment reporting. Most states have adopted these or similar measures to expand the scope of regulations relating to corporate governance and internal control activities of HMOs and insurance companies. We are required to maintain a risk management framework and file a confidential self-assessment report with state insurance regulators. We file reports annually with Connecticut, our lead regulator, and with New York, as required by the state's regulation.

Our health plans and insurance companies are regulated under state insurance holding company regulations. Such regulations generally require registration with applicable state departments of insurance and the filing of reports describing capital structure, ownership, financial condition, certain affiliated transactions and general business operations. Most state insurance holding company laws and regulations require prior regulatory approval of acquisitions and material affiliated transfers of assets, as well as transactions between the regulated companies and their parent holding companies or affiliates. These laws may restrict the ability of our regulated subsidiaries to pay dividends to our holding companies.

Some of our business activity is subject to other health care-related regulations and requirements, including PPO, Managed Care Organization (MCO), utilization review (UR), TPA, pharmacy care services, durable medical equipment or care provider-related regulations and licensure requirements. These regulations differ from state to state and may contain network, contracting, product and rate, licensing and financial and reporting requirements. Health care-related laws and regulations set specific standards for delivery of services, appeals, grievances and payment of claims, adequacy of health care professional networks, fraud prevention, protection of consumer health information, pricing and underwriting practices and covered benefits and services. State health care anti-fraud and abuse prohibitions encompass a wide range of activities, including kickbacks for referral of members, billing for unnecessary medical services and improper marketing. Certain of our businesses are subject to state general agent, broker and sales distribution laws and regulations. UnitedHealthcare Community & State and certain of our Optum businesses are subject to regulation by state Medicaid agencies which oversee the provision of benefits to our Medicaid and CHIP beneficiaries and to our beneficiaries dually eligible for Medicare and Medicaid. We also contract with state governmental entities and are subject to state laws and regulations relating to the award, administration and performance of state government contracts.

State Privacy and Security Regulations. A number of states have adopted laws and regulations which may affect our privacy and security practices, such as state laws governing the use, disclosure and protection of social security numbers and protected health information or which are designed to implement GLBA or protect credit card account data. State and local authorities increasingly focus on the importance of protecting individuals from identity theft, with a significant number of states enacting laws requiring businesses to meet minimum cyber-security standards and notify individuals of security breaches involving personal information. State consumer protection laws may also apply to privacy and security practices related to personally identifiable information, including information related to consumers and care providers. Different approaches to state privacy and insurance regulation and varying enforcement philosophies may materially and adversely affect our ability to standardize our products and services across state lines. See Part I, Item 1A, "Risk Factors" for a discussion of the risks related to compliance with state privacy and security regulations.

Corporate Practice of Medicine and Fee-Splitting Laws. Certain of our businesses function as direct medical service providers and, as such, are subject to additional laws and regulations. Some states have corporate practice of medicine laws prohibiting specific types of entities from practicing medicine or employing physicians to practice medicine. Moreover, some states prohibit certain entities from engaging in fee-splitting practices, which involve sharing in the fees or revenues of a professional practice. These prohibitions may be statutory or regulatory, or may be imposed through judicial or regulatory interpretation. The laws, regulations and interpretations in certain states have been subject to limited judicial and regulatory interpretation and are subject to change.

Pharmacy and Pharmacy Benefits Management (PBM) Regulations

Optum Rx's businesses include home delivery, specialty and compounding pharmacies, as well as clinic-based pharmacies which must be licensed as pharmacies in the states in which they are located. Certain of our pharmacies must also register with the U.S. Drug Enforcement Administration (DEA) and individual state controlled substance authorities to dispense controlled substances. In addition to adhering to the laws and regulations in the states where our pharmacies are located, we also are required to comply with laws and regulations in some non-resident states where we deliver pharmaceuticals, including those requiring us to register with the board of pharmacy in the non-resident state. These non-resident states generally expect our pharmacies to follow the laws of the state in which the pharmacies are located, but some non-resident states also require us to comply with their laws where pharmaceuticals are delivered. Additionally, certain of our pharmacies which participate in programs for Medicare and state Medicaid providers are required to comply with applicable Medicare and Medicaid provider rules and regulations. Other laws and regulations affecting our pharmacies include federal and state statutes and regulations governing the labeling, packaging, advertising and adulteration of prescription drugs and dispensing of controlled substances. See Part I, Item 1A, "Risk Factors" for a discussion of the risks related to our pharmacy care services businesses.

Federal and state legislation regulating PBM activities affects both our ability to limit access to a pharmacy provider network or remove network providers. Additionally, many states limit our ability to manage and establish maximum allowable costs for generic prescription drugs. With respect to formulary services, a number of government entities, including CMS, HHS and state departments of insurance, regulate the administration of prescription drug benefits offered through federal or state exchanges. Many states also regulate the scope of prescription drug coverage, as well as the delivery channels to receive such prescriptions, for insurers, MCOs and Medicaid managed care plans. These regulations could limit or preclude (i) certain plan designs, (ii) limited networks, (iii) use of particular care providers or distribution channels, (iv) copayment differentials among providers and (v) formulary tiering practices.

Legislation seeking to regulate PBM activities introduced or enacted at the federal or state level could impact our business practices with others in the pharmacy supply chain, including pharmaceutical manufacturers and network providers. In addition, organizations like the NAIC periodically issue model regulations while credentialing organizations, like the National Committee for Quality Assurance (NCQA) and the Utilization Review Accreditation Commission (URAC), may establish standards impacting PBM pharmacy activities. Although these model regulations and standards do not have the force of law, they may influence states to adopt their recommendations and impact the services we deliver to our clients.

Consumer Protection Laws

Certain of our businesses participate in direct-to-consumer activities and are subject to regulations applicable to online communications and other general consumer protection laws and regulations such as the Federal Tort Claims Act, the Federal Postal Service Act and the FTC's Telemarketing Sales Rule. Most states also have similar consumer protection laws.

Certain laws, such as the Telephone Consumer Protection Act, give the FTC, the Federal Communications Commission (FCC) and state attorneys general the ability to regulate, and bring enforcement actions relating to, telemarketing practices and certain automated outbound contacts such as phone calls, texts or emails. Under certain circumstances, these laws may provide consumers with a private right of action. Violations of these laws could result in substantial statutory penalties and other sanctions.

Banking Regulation

Optum Bank is subject to regulation by federal banking regulators, including the Federal Deposit Insurance Corporation (FDIC), which performs annual examinations to ensure the bank is operating in accordance with federal safety and soundness requirements, and the Consumer Financial Protection Bureau, which may perform periodic examinations to ensure the bank is in compliance with applicable consumer protection statutes, regulations and agency guidelines. Optum Bank is also subject to supervision and regulation by the Utah State Department of Financial Institutions, which carries out annual examinations to ensure the bank is operating in accordance with state safety and soundness requirements and performs periodic examinations of the bank's compliance with applicable state banking statutes, regulations and agency guidelines. In the event of unfavorable examination results from any of these agencies, the bank could become subject to increased operational expenses and capital requirements, enhanced governmental oversight and monetary penalties.

Non-U.S. Regulation

Certain of our businesses operate internationally and are subject to regulation in the jurisdictions in which they are organized or conduct business. These regulatory regimes vary from jurisdiction to jurisdiction. In addition, our non-U.S. businesses and operations are subject to U.S. laws regulating the conduct and activities of U.S.-based businesses operating outside the United States, such as the Foreign Corrupt Practices Act (FCPA), which prohibits offering, promising, providing or authorizing others to give anything of value to a foreign government official to obtain or retain business or otherwise secure a business advantage.

COMPETITION

As a diversified health care company, we operate in highly competitive markets across the full expanse of health care benefits and services. Our competitors include organizations ranging from startups to highly sophisticated Fortune 50 global enterprises, for-profit and non-profit companies, and private and government-sponsored entities. New entrants to our markets and business combinations among our competitors and suppliers also contribute to a dynamic and competitive environment. We compete fundamentally on the quality and value we provide to those we serve which can include elements such as product and service innovation; use of technology; consumer and provider engagement and satisfaction; and sales, marketing and pricing. See Part I, Item 1A, "Risk Factors" for additional discussion of our risks related to competition.

INTELLECTUAL PROPERTY RIGHTS

We have obtained trademark registration for the UnitedHealth Group, Optum and UnitedHealthcare names and logos. We own registrations for certain of our other trademarks in the United States and abroad. We hold a portfolio of patents and have patent applications pending from time to time. We are not substantially dependent on any single patent or group of related patents.

Unless otherwise noted, trademarks appearing in this report are trademarks owned by us. We disclaim any proprietary interest in the marks and names of others.

HUMAN CAPITAL RESOURCES

Our nearly 400,000 employees, as of December 31, 2024, including more than 140,000 clinical professionals, are guided by our mission to help people live healthier lives and help make the health system work better for everyone. Our mission and cultural values of integrity, compassion, inclusion, relationships, innovation, performance and quality align with our long-term business strategy to increase access to care, make care more affordable, enhance the care experience, improve health outcomes and advance health equity. Our mission and values attract individuals who are determined to make a difference – individuals whose talent, innovation, engagement and empowerment are critical in our ability to achieve our mission.

We are committed to developing our people and culture by creating an inclusive environment where people of diverse talents, backgrounds, experiences and perspectives make us better. Our approach is data-driven and leader-led and uses enterprise and business scorecards to ensure our leaders are accountable for a consistent focus on hiring, developing, advancing and retaining diverse talent. We have embedded inclusion and diversity throughout our culture, including in our talent acquisition and talent management practices; leadership development; careers; learning and skills; and systems and processes. We strive to maintain a skilled, sustainable and diverse talent pipeline by building strong strategic partnerships and outreach through early career programs, internships and apprenticeships. We support career coaching, mentorship and accelerated leadership development programs to ensure mobility and advancement for our diverse talent. To foster an engaged workforce and an inclusive culture, we invest in a broad array of skills-based learning and culture development programs. We rely on a shared leadership framework, which clearly and objectively defines our expectations, enables an environment where everyone has the opportunity to learn and grow, and helps us identify, develop and deploy talent to help achieve our mission.

We prioritize pay equity by objectively and regularly evaluating and reviewing our compensation practices by performance, age, experience, gender, ethnicity and race. Receiving on-going feedback from our team members is another way to strengthen and reinforce a culture of inclusion. Our Employee Experience Index measures an employee's sense of commitment and belonging to our company and is a metric in the Stewardship section of our annual incentive plan. Our Sustainability Report, which can be accessed on our website at www.unitedhealthgroup.com, provides further information about our people and culture.

INFORMATION ABOUT OUR EXECUTIVE OFFICERS

The following sets forth certain information regarding our executive officers as of February 27, 2025, including the business experience of each executive officer during the past five years:

Name	Age	Position
Andrew Witty	60	Chief Executive Officer
John Rex	63	President and Chief Financial Officer
Heather Cianfrocco	51	Chief Executive Officer, Optum
Erin McSweeney	60	Executive Vice President and Chief People Officer
Timothy Noel	53	Chief Executive Officer, UnitedHealthcare
Thomas Roos	52	Senior Vice President and Chief Accounting Officer
Christopher Zaetta	53	Executive Vice President and Chief Legal Officer and Corporate Secretary

Our Board of Directors elects executive officers annually. Our executive officers serve until their successors are duly elected and qualified, or until their earlier death, resignation, removal or disqualification.

Andrew Witty has served as Chief Executive Officer and a member of the Board of Directors of UnitedHealth Group since February 2021. Previously, Andrew served as Chief Executive Officer of Optum from July 2018 to April 2021, President of UnitedHealth Group from November 2019 to February 2021 and as a UnitedHealth Group director from August 2017 to March 2018. Prior to joining UnitedHealth Group, he was Chief Executive Officer and a board member of GlaxoSmithKline, a global pharmaceutical company, from 2008 to 2017.

John Rex has served as President and Chief Financial Officer of UnitedHealth Group since April 2024. Previously, John served as Chief Financial Officer of UnitedHealth Group since June 2016. From March 2012 to June 2016, he served as Executive Vice President and Chief Financial Officer of Optum. Prior to joining Optum in 2012, John was a Managing Director at JP Morgan, a global financial services firm.

Heather Cianfrocco has served as Chief Executive Officer of Optum since April 2024. Previously, Heather served as Optum's President and held numerous leadership roles since joining UnitedHealth Group from 2008 until April 2024, including serving as Chief Executive Officer of Optum Rx, Chief Executive Officer for Optum's Health Services and Chief Executive Officer of UnitedHealthcare Community & State.

Erin McSweeney has served as Executive Vice President and Chief People Officer of UnitedHealth Group since March 2022. From February 2021 to March 2022, Erin served as chief of staff to UnitedHealth Group's Office of the Chief Executive. From January 2017 to February 2021, she served as Executive Vice President and Chief Human Resources Officer at Optum. Prior to joining UnitedHealth Group, Erin was Executive Vice President and Chief Human Resources Officer for EMC Corporation, an international technology company.

Tim Noel has served as Chief Executive Officer of UnitedHealthcare since January 2025. Previously, Tim served as Chief Executive Officer of UnitedHealthcare's Medicare & Retirement business and held numerous leadership roles since joining UnitedHealth Group from 2007 until January 2025, including serving as Chief Financial Officer and Senior Vice President of federal products for Medicare & Retirement.

Tom Roos has served as Senior Vice President and Chief Accounting Officer of UnitedHealth Group since August 2015. Prior to joining UnitedHealth Group, Tom was a Partner at Deloitte & Touche LLP, an independent registered public accounting firm.

Chris Zaetta has served as Executive Vice President, Chief Legal Officer and Corporate Secretary of UnitedHealth Group since May 2024. Previously, Chris served as Chief Legal Officer of Optum from September 2020 until May 2024. Prior to joining Optum in 2020, Chris was Vice President at Johnson & Johnson, a pharmaceutical company. Chris also held several leadership roles at UnitedHealth Group from May 2011 to September 2019, including Head of Litigation and General Counsel of the organization's government businesses.

ADDITIONAL INFORMATION

Our executive offices are located at 1 Health Drive, Eden Prairie, Minnesota 55344 and 655 New York Avenue, Washington, DC 20001; our telephone number is (800) 328-5979. You can access our website at www.unitedhealthgroup.com to learn more about our company. We make periodic and current reports and amendments available, free of charge, on our website, as soon as reasonably practicable after we file or furnish these reports to the Securities and Exchange Commission (SEC). Information on or linked to our website is neither part of nor incorporated by reference into this Annual Report on Form 10-K or any other SEC filings.

ITEM 1A. RISK FACTORS

CAUTIONARY STATEMENTS

The statements, estimates, projections or outlook contained in this Annual Report on Form 10-K include forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA). When used in this Annual Report on Form 10-K and in future filings by us with the SEC, in our news releases, presentations to securities analysts or investors, and in oral statements made by or with the approval of one of our executive officers, the words "believe," "expect," "intend," "estimate," "anticipate," "forecast," "outlook," "plan," "project," "should" or similar words or phrases are intended to identify such forward-looking statements. These statements are intended to take advantage of the "safe harbor" provisions of the PSLRA. These forward-looking statements involve risks and uncertainties which may cause our actual results to differ materially from the expectations expressed or implied in the forward-looking statements. Any forward-looking statement in this report speaks only as of the date of this report and, except as required by law, we undertake no obligation to update any forward-looking statement to reflect events or circumstances, including unanticipated events, after the date of this report.

The following discussion contains cautionary statements regarding our business, which investors and others should consider. We do not undertake to address in future filings with the SEC or other communications regarding our business or results of operations how any of these factors may have caused our results to differ from discussions or information contained in our previous filings or communications. In addition, any of the matters discussed below may have affected past, as well as current, forward-looking statements about future results. Any or all forward-looking statements in this Annual Report on Form 10-K and in any other SEC filings or public statements we make may turn out to be wrong. Our forward-looking statements can be affected by inaccurate assumptions we might make or by known or unknown risks and uncertainties. Many factors discussed below will be important in determining our future results. By their nature, forward-looking statements are not guarantees of future performance or results and are subject to risks, uncertainties and assumptions which are difficult to predict or quantify.

Risks Related to Our Business and Our Industry

If we fail to estimate, price for and manage our medical costs or design benefits in an effective manner, the profitability of our risk-based products and services could decline and could materially and adversely affect our results of operations, financial position and cash flows.

Through our risk-based benefit products, we assume the risk of both medical and administrative costs for our customers in return for monthly premiums. The profitability of our products depends in large part on our ability to predict and effectively price for and manage medical costs. Our Optum Health business also enters into fully accountable value-based arrangements with payers. Premium revenues from risk-based products constitute nearly 80% of our total consolidated revenues. Estimates of benefit expense payments involve extensive judgement and are subject to considerable inherent variability. Relatively small differences between predicted and actual medical costs, or utilization rates as a percentage of revenues, have resulted and in the future may result in significant changes in our financial results. If we fail to predict accurately, or effectively price for or manage, the costs of providing care under risk-based arrangements, our results of operations could be materially and adversely affected.

We manage medical costs through underwriting criteria, product design, negotiation of competitive provider contracts and care management programs. Total medical costs are affected by the number of individual services rendered, the cost of each service and the type of service rendered. Although we base the premiums we charge on our estimates of future medical costs over the fixed contract period, many factors may cause, and have previously caused, actual costs to exceed those estimated and reflected in premiums or bids. These factors may include medical cost inflation, increased use of services, business mix, unexpected differences among new customer populations, increased cost of individual services, costs to deliver care, large-scale medical emergencies, the potential effects of climate change, pandemics, the introduction of new or costly drugs or increases in drug prices, treatments and technology, new treatment guidelines, newly mandated benefits or other regulatory changes and insured population characteristics. Cost increases in excess of our forecasts typically cannot be recovered in the fixed premium period through higher premiums. For Optum Health's fully accountable value-based care, any inability to provide higher-quality outcomes and better experiences at lower costs or to integrate our care delivery models could impact our results of operations, financial positions and cash flows.

In addition, the financial results we report for any particular period include estimates of costs incurred for which claims are still outstanding. These estimates involve an extensive degree of judgment. If these estimates prove inaccurate, our results of operations could be materially and adversely affected.

If we fail to maintain properly the integrity or availability of our data or successfully consolidate, integrate, upgrade or expand our existing information systems, or if our technology products do not operate as intended, our business could be materially and adversely affected.

Our business depends on the integrity and timeliness of the data we use to serve our members, customers and health care professionals and to operate our business. If the data we rely upon to run our businesses is found to be inaccurate or unreliable or if we fail to effectively maintain or protect the integrity of our data and information systems, including systems powered by or incorporating artificial intelligence and machine learning (AI/ML), we could experience failures in our health, wellness and information technology products; lose existing customers; have difficulty attracting new customers; experience problems in determining medical cost estimates and establishing appropriate pricing; have difficulty preventing, detecting and controlling fraud; have disputes with customers, physicians and other health care professionals; become subject to regulatory sanctions, penalties, investigations or audits; incur increases in operating expenses; or suffer other adverse consequences.

The volume of health care data generated, and the uses of data, including electronic health records, are rapidly expanding. We depend on the integrity of the data in our information systems to implement new and innovative services, automate and deploy new technologies to simplify administrative processes and clinical decision making, price our products and services adequately, provide effective service to our customers and consumers in an efficient and uninterrupted fashion, provide timely payments to care providers, and accurately report our results of operations. In addition, increasing connectivity among technologies and recent trends toward greater consumer engagement in health care require new and enhanced technologies, including more sophisticated applications for mobile devices and new tools and products that leverage AI/ML to improve the customer experience. We anticipate that fast-evolving AI/ML technologies, including generative AI, will play an increasingly important role in our information systems and customer-facing technology products. Our ability to protect and enhance existing systems and develop new systems to keep pace with changes in information processing technology (including AI/ML), regulatory standards and changing customer preferences will require an ongoing commitment of significant development and operational resources. If these commitments fail to provide the anticipated benefits, if we are unable to successfully anticipate future technology developments, or if the cost to keep pace with the technological changes exceeds our estimates, we could be exposed to reputational harm and experience adverse effects on our business.

We may not successfully implement our initiatives to consolidate the number of systems we operate, upgrade and expand our information systems' capabilities, integrate and enhance our systems and develop new systems to keep pace with recent regulations and changes in information processing technology. Failure to protect, consolidate and integrate our systems successfully could result in higher than expected costs.

Some of our businesses sell and install software products which may contain unexpected design defects or may encounter unexpected complications during installation or when used with other technologies utilized by the customer. A failure of our technology products to operate as intended and in a seamless fashion with other products could materially and adversely affect our results of operations, financial position and cash flows.

Uncertain and rapidly evolving U.S. federal and state, non-U.S. and international laws and regulations related to health data and health information technologies, including those powered by or incorporating AI/ML, may alter the competitive landscape or impose new compliance requirements and could materially and adversely affect the configuration of our information systems and platforms, and our ability to compete in our markets.

If we or third parties we rely on sustain cyberattacks or other privacy or data security incidents resulting in disruption to our operations or the disclosure of protected personal information or proprietary or confidential information, we could suffer a loss of revenue and increased costs, negative operational effects, exposure to significant liability, reputational harm and other serious negative consequences.

We routinely process, store and transmit large amounts of data in our operations, including protected personal information subject to privacy, security or data breach notification laws, as well as proprietary or confidential information relating to our business or third parties. Some of the data we process, store and transmit may be outside of the United States due to our information technology systems and international business operations. We are regularly the target of attempted cyberattacks and other security threats and have previously been, and may in the future be, subject to compromises of the information technology systems we use, information we hold, or information held on our behalf by third parties. For example, we previously reported our Change Healthcare business, which we had recently acquired, was subject to a cyberattack in 2024, in which the data involved contained protected health information or personally identifiable information.

While we have programs in place to detect, contain and respond to data security incidents and provide employee awareness training regarding phishing, malware and other cyber threats to protect against cybersecurity risks and incidents, we expect that we will continue to experience these incidents, some of which may negatively affect our business. Further, because the techniques used to obtain unauthorized access, disable or degrade service, or sabotage systems change frequently and are increasing in sophistication, in part due to use of evolving AI/ML technologies (including generative AI), and because our businesses are changing as well, we may be unable to anticipate these techniques and threats, timely detect data security

incidents or implement adequate preventive measures. Threat actors and hackers have previously been, and may in the future be, able to negatively affect our operations by penetrating our security controls and causing system and operational disruptions or shutdowns, accessing, misappropriating or otherwise compromising protected personal information or proprietary or confidential information or that of third parties, and developing and deploying viruses, ransomware and other malware that can attack our systems, exploit any security vulnerabilities, and disrupt or shutdown our systems and operations. In addition, hardware, software, or applications we develop or procure from third parties may contain defects or other problems which could unexpectedly compromise our information security controls. Our systems may also be vulnerable to financial fraud schemes, misplaced or lost data, error, malicious social engineering, or other events which could negatively affect the data or financial accounts, proprietary or confidential information relating to our business or third parties, or our operations. There have previously been and may be in the future heightened vulnerabilities due to recently-acquired or non-integrated businesses. We rely in some circumstances on third-party vendors to process, store and transmit large amounts of data for our business. The operations of these vendors are subject to similar risks, but are outside our direct oversight and control.

The costs to eliminate or address the foregoing security threats and vulnerabilities before or after a cybersecurity incident could be material. We have business continuation and resiliency plans which we maintain, update and test regularly in an effort to contain and remediate potential disruptions or cybersecurity events. If our remediation efforts are not successful, we may experience operational interruptions, delays, or cessation of service and loss of existing or potential customers. In addition, compromises of our security measures or the unauthorized dissemination of sensitive personal information, proprietary information or confidential information about us, our customers or other third parties, previously and in the future, could expose us or them to the risk of financial or medical identity theft, negative operational impacts, and loss or misuse of this information, result in litigation and liability, including regulatory penalties, for us, damage our brand and reputation, or otherwise harm our business.

If we fail to develop and maintain satisfactory relationships with health care payers, physicians, hospitals and other service providers, our business could be materially and adversely affected.

We depend substantially on our continued ability to contract with health care payers (as a service provider to those payers), as well as physicians, hospitals, pharmaceutical benefit service providers, pharmaceutical manufacturers and other care and service providers at competitive prices. If we fail to develop and maintain satisfactory relationships with health care providers, whether in-network or out-of-network, our failure to do so could materially and adversely affect our business, results of operations, financial position and cash flows. In addition, some of our activities related to network design, provider participation in networks and provider payments could result in disputes, which may be costly and attract negative publicity.

In any particular market, physicians and health care providers could refuse to contract with us, demand higher payments, or take other actions which could result in higher medical costs, less desirable products for customers or difficulty meeting regulatory or accreditation requirements. In some markets, certain health care providers, particularly hospitals, physician and hospital organizations or multi-specialty physician groups, may have significant market positions which could diminish our bargaining power. In addition, Accountable Care Organizations (ACOs); physician group management services organizations (which aggregate physician practices for administrative efficiency); and other organizational structures adopted by physicians, hospitals and other care providers may change the way in which these providers do business with us and may change the competitive landscape. Such organizations or groups of physicians may compete directly with us, which could adversely affect our business, and our results of operations, financial position and cash flows by impacting our relationships with these providers or affecting the way we price our products and estimate our costs, which might require us to incur costs to change our operations in an effort to mitigate these impacts. In addition, if these providers refuse to contract with us, use their market position to negotiate favorable contracts or place us at a competitive disadvantage, our ability to market products or to be profitable in those areas could be materially and adversely affected.

Our health care benefits businesses have risk-based arrangements with some physicians, hospitals and other health care providers. These arrangements limit our exposure to the risk of increasing medical costs, but expose us to risk related to the adequacy of the financial and medical care resources of the health care providers. To the extent a risk-based health care provider organization faces financial difficulties or otherwise is unable to perform its obligations under the arrangement, we may be held responsible for unpaid health care claims which should have been the responsibility of the health care provider and for which we have already paid the provider. Further, payment or other disputes between a primary care provider and specialists with whom the primary care provider contracts could result in a disruption in the provision of services to our members or a reduction in the services available to our members. Health care providers with which we contract may not properly manage the costs of services, maintain financial solvency or avoid disputes with other providers. They may also fail to provide us with the information we need to effectively conduct our businesses, such as information enabling us to estimate costs of care. Any of these events could have a material adverse effect on the provision of services to our members and our operations.

Some providers that render services to our members do not have contracts with us. In some instances, those providers may dispute the payment for these services and may institute litigation or arbitration relying on state and federal laws that define the compensation that must be paid to out-of-network providers in some circumstances.

The success of some of our businesses depends on maintaining satisfactory relationships with employed, affiliated, and independently contracted physicians and joint venture partners. The physicians who practice medicine or contract with our affiliated physician organizations could terminate their provider contracts or otherwise become unable or unwilling to continue practicing medicine or contracting with us. We face and will likely continue to face heightened competition to acquire or manage physician practices or to employ or contract with individual physicians. Our revenues could be materially and adversely affected if we are unable to maintain or expand satisfactory relationships with physicians, to acquire, recruit or, in some instances, employ physicians, or to retain enrollees following physician departures. In addition, our affiliated physician organizations contract with competitors of UnitedHealthcare. Our businesses could suffer if our affiliated physician organizations fail to maintain relationships with or fail to adequately price their contracts with these third-party payer competitors.

Further, physicians, hospitals, pharmaceutical benefit service providers, pharmaceutical manufacturers and certain health care providers are customers of our Optum businesses. Physicians also provide medical services at facilities owned by our Optum businesses. Given the importance of health care providers and other constituents to our businesses, failure to maintain satisfactory relationships with them could materially and adversely affect our results of operations, financial position and cash flows.

If we fail to compete effectively to maintain or increase our market share, including maintaining or increasing enrollments in businesses providing health benefits, our results of operations, financial position and cash flows could be materially and adversely affected.

Our businesses face significant competition in all of the markets in which we operate. In many geographies or product segments, our competitors have and may continue to have certain competitive advantages. Our competitive position may also be adversely affected by significant merger and acquisition activity in the industries in which we operate, among both our competitors and suppliers. Consolidation among competitors may make it more difficult for us to retain or increase our customer base, maintain or improve the terms on which we do business with our suppliers, or maintain or increase our profitability.

In addition, our success in the health care marketplace and future growth depends on our ability to develop and deliver innovative and potentially disruptive products and services to satisfy evolving market demands. If we do not continue to innovate and provide products and services which are useful and relevant to health care payers, consumers and our customers, we may not remain competitive and risk losing market share to existing competitors and disruptive new market entrants. We may face risks from new technologies and market entrants which could affect our existing relationship with health plan enrollees in the affected markets. We could sustain competitive disadvantages and loss of market share if we fail to continue developing innovative care models, including by accelerating the transition of care to value-based models that achieve higher quality outcomes and better experiences at lower costs and expand access to virtual and in-home care. If health care payers or providers are unwilling or unable to enter into value-based agreements with us, we may be unable to successfully establish or maintain the contractual or employment relationships necessary to achieve the quality and cost objectives we have for value-based contracting. Additionally, our competitive position could be adversely affected by any failure to develop and apply innovative technologies and other effective data and analytics capabilities or to provide services to our clients focused on these technologies and capabilities.

Our business, results of operations, financial position and cash flows also could be materially and adversely affected if we do not compete effectively in our markets, if our reputation suffers harm, if we set rates too high or too low in highly competitive markets, if we do not design and price our products properly and competitively, if we are unable to innovate and deliver products and services demonstrating value to our customers, if we do not provide a satisfactory level of services, if membership or demand for other services does not increase as we expect or declines, or if we lose accounts with more profitable products while retaining or increasing membership in accounts with less profitable products.

We are routinely subject to various private party and governmental legal actions and investigations, which could damage our reputation and, if resolved unfavorably, could result in substantial penalties or monetary damages and materially and adversely affect our results of operations, financial position and cash flows.

We are routinely made party to a variety of private party and governmental legal actions and investigations related to, among other matters, the design, management and delivery of our product and service offerings. Any failure by us to adhere to the laws and regulations applicable to our businesses could subject us to civil and criminal penalties.

Legal actions to which we are a party have included and in the future could include matters related to health care benefits coverage and payment of claims (including disputes with enrollees, customers and contracted and non-contracted physicians, hospitals and other health care professionals), tort claims (including claims related to the delivery of health care services, such as medical malpractice by personnel at our affiliates' facilities, or by health care practitioners who are employed by us, have contractual relationships with us, or serve as providers to our managed care networks, including as a result of a failure to adhere to applicable clinical, quality and/or patient safety standards), antitrust claims (including as a result of changes in the

enforcement of antitrust laws), whistleblower claims (including claims under the False Claims Act or similar statutes), matters related to our use of or alleged failure to adequately safeguard personal information or other proprietary data, claims related to alleged failure of our technology products to operate properly or fairly, contract and labor disputes, tax claims and claims related to disclosure of certain business practices. In addition, some of our pharmacy services operations are subject to clinical quality, patient safety and other risks inherent in the dispensing, packaging and distribution of drugs, including claims related to purported dispensing and other operational errors. We may also be party to certain class action lawsuits brought by health care professional groups and consumers. We operate in jurisdictions outside of the United States where contractual rights, tax positions and applicable regulations may be subject to interpretation or uncertainty to a greater degree than in the United States, and therefore subject to dispute by customers, government authorities or others.

We are largely self-insured with regard to litigation risks, including claims of medical malpractice against our affiliated physicians and us. Although we record liabilities for our estimates of the probable costs resulting from self-insured matters, it is possible the level of actual losses will significantly exceed the liabilities recorded. Additionally, physicians and other healthcare providers have become subject to an increasing number of legal actions alleging medical malpractice and general professional liabilities. Even in states that have imposed caps on damages for such actions, litigants are seeking recoveries under theories of liability that might not be subject to the caps on damages. These actions involve significant defense costs and could result in substantial monetary damages or damage to our reputation.

We cannot predict the outcome of significant legal actions in which we are involved. Even in situations where we engage external insurers, our coverage may be disputed or may not be sufficient to cover the entirety of certain claims. We incur expenses to resolve these matters and current and future legal actions could further increase our cost of doing business, require us to potentially change the way we conduct our business, and materially and adversely affect our results of operations, financial position and cash flows. Moreover, certain legal actions could result in adverse publicity which could damage our reputation and materially and adversely affect our ability to retain our current business or grow our market share in some markets and businesses.

Our business could suffer, and our results of operations, financial position and cash flows could be materially and adversely affected, if we fail to successfully manage our strategic alliances, or to complete, manage or integrate acquisitions and other significant strategic transactions or relationships.

As part of our business strategy, we frequently engage in discussions with third parties regarding possible investments, acquisitions, divestitures, strategic alliances, joint ventures and outsourcing transactions and often enter into agreements relating to such transactions. If we fail to meet the needs of our alliance or joint venture partners, including by developing additional products and services, providing high levels of service, pricing our products and services competitively or responding effectively to applicable federal and state regulatory changes, our alliances and joint ventures could be damaged or terminated, which in turn could adversely impact our reputation, business and results of operations. Further, governmental actions, such as actions by the FTC or DOJ, may affect our ability to complete strategic transactions, which could adversely affect our future growth. If we fail to identify and successfully complete transactions to meet our strategic objectives, including as a result of antitrust regulatory enforcement actions, such as those that have been brought against us in the past, we may be required to expend resources to develop products and technology internally, be placed at a competitive disadvantage or be adversely affected by negative market perceptions, any of which may have a material adverse effect on our results of operations, financial position or cash flows.

Successful acquisitions also require us to effectively integrate the acquired business into our existing operations, including our internal control environment and culture, or otherwise leveraging its operations which may present risks different from those presented by organic growth and may be difficult for us to manage. For example, we have experienced and in the future may encounter more acute information technology system vulnerabilities or different litigation risk profiles in recently acquired business than we have historically managed. We may be unable to address such vulnerabilities, inadequacies, differences, or failures soon after acquiring a business, which could undermine integration activities, delay launch of acquired products, and increase infrastructure risk. In addition, even with appropriate diligence, pre-acquisition practices of an acquired business have exposed us in the past and may expose us in the future to legal challenges and investigations that could subject us to criminal fines or reputational harm. Even if we are ultimately successful in resolving these matters, defending such claims may be costly and result in negative publicity. If we cannot successfully integrate our acquired businesses and realize contemplated revenue growth opportunities, cost savings and other synergies, our business, prospects, results of operations, financial position and cash flows could be materially and adversely affected.

We are subject to risks associated with public health crises arising from large-scale medical emergencies, pandemics, natural disasters and other extreme events, which have had and could have an adverse effect on our business, results of operations, financial condition and financial performance.

Large-scale medical emergencies, pandemics, natural disasters, public health crises and other extreme events could have a material adverse effect on our business operations, cash flows, financial conditions and results of operations. For example, disruptions in public and private infrastructure resulting from such events could increase our operating costs and impair our ability to provide services to our clients and customers. In addition, as a result of these events, the premiums and fees we charge may not be sufficient to cover our medical and administrative costs, deferred medical care could be sought in future periods at potentially higher acuity levels, we could experience reduced demand for our services, and our clinical and non-clinical workforce could be affected and sustain a reduced capacity to handle demand for care. Public health crises arising from natural disasters, such as wildfires, hurricanes, and snowstorms, or effects of climate change could impact our business operations and result in increased medical care costs. Government enactment of emergency powers in response to public health crises could disrupt our business operations, including by restricting availability of, or our ability to deliver, pharmaceuticals or other supplies, and could increase the risk of shortages of necessary items.

Our sales performance will suffer if we do not adequately attract, retain and provide support to a network of independent producers and consultants.

Our products and services are sold in part through nonexclusive producers and consultants for whose services and allegiance we must compete. Our sales could be materially and adversely affected if we are unable to attract, retain and support independent producers and consultants or if our sales strategy is not appropriately aligned across distribution channels. Our relationships with producers could be impaired by changes in our business practices and the terms of our relationships, including commission levels.

Our businesses are subject to risks associated with unfavorable economic conditions.

Unfavorable economic conditions may have a range of impacts on the demand for our products and services. Such conditions also have caused and in future periods could continue to cause employers to stop offering certain health care coverage as an employee benefit or elect to offer particular coverage on a voluntary, employee-funded basis to reduce their operating costs. In addition, unfavorable economic conditions could adversely impact our ability to increase premiums or result in the cancellation by certain customers of our products and services. These conditions could lead to a decrease in people served and in the premium and fee revenues we generate.

A prolonged unfavorable economic environment could constrain state and federal budgets and result in reduced reimbursements or payments in our federal and state government health care coverage programs, including Medicare, Medicaid and CHIP. A reduction in state Medicaid reimbursement rates could be implemented retroactively to apply to payments already negotiated or received from the government. In addition, state and federal budgetary pressures could cause the affected governments to impose new or a higher level of taxes or assessments for our commercial programs, such as premium taxes on health insurance and surcharges or fees on select fee-for-service and capitated medical claims. Any of these developments or actions could materially and adversely affect our results of operations, financial position and cash flows.

A prolonged unfavorable economic environment could also adversely impact the financial position of hospitals and other care providers which could negatively affect our contracted rates with these parties and increase our medical costs or materially and adversely affect their ability to purchase our service offerings. Further, unfavorable economic conditions could have a material adverse effect on our financial results by impacting the customers of our Optum businesses, including health plans, hospitals, care providers, employers and others.

Our failure to attract, develop, retain, and manage the succession of key employees and executives could adversely affect our business, results of operations and future performance.

We depend on our ability to attract, develop and retain qualified employees and executives, including those with diverse talents, backgrounds, experiences and perspectives, to operate and expand our business. While we have development and succession plans in place for our key employees and executives, these plans do not guarantee that the services of our key employees and executives will continue to be available to us. If we are unable to attract, develop, retain and effectively manage the development and succession plans for key employees and executives, our business, results of operations and future performance could be adversely affected. Experienced and highly skilled employees and executives in the health care and technology industries are in high demand and the market for their services is competitive. We may have difficulty in replacing key executives because of the limited number of qualified individuals in these industries with the breadth of skills and experience required to operate and successfully expand our business. Adverse changes to our corporate culture could harm our business operations and our ability to retain key employees and executives.

Protecting the Public Since 1885

October 16, 2024

Jonathan A. Keller
Faegre Drinker Biddle & Reath, LLP.
600 Campus Drive
Florham Park, New Jersey 07932

Re: Surmodics MD Operations, LLC

Dear Mr. Keller and To Whom it May Concern,

The Minnesota Board of Pharmacy does not license or register companies that exclusively manufacture, distribute, supply, or sell medical devices or supplies. If a company that handles medical devices or supplies also manufactures or distributes drugs, it must be licensed as a drug manufacturer or drug wholesaler. Exception if the drug is coated on or embedded in the device (e.g. drug-coated stents) and the resultant product is approved by the FDA as a device, the company does not have to be licensed as a manufacturer or wholesale distributor.

Based upon information provided to the Board and as of the date of this letter, it is the Board's understanding Surmodics, Inc., a Minnesota corporation located at 9700 W 76th Street, Eden Prairie, Minnesota, 55344, does not meet the definition of either a drug manufacturer or drug wholesaler set forth in Minnesota Statutes, Chapter 151. Accordingly, the Board would not issue to it a drug manufacturer's or drug wholesaler's license.

Sincerely,

Brian A. Park, J.D.
Associate Director for Enforcement
Minnesota Board of Pharmacy

Cc: Jill Phillips, Executive Director
Minnesota Board of Pharmacy

Forward-looking Statements

Certain statements contained in this Form 10-K, or in other reports of the Company and other written and oral statements made from time to time by the Company, do not relate strictly to historical or current facts. As such, they are considered "forward-looking statements" that provide current expectations or forecasts of future events. These forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements include, but are not limited to, the expected results of clinical studies, future clinical studies, and their potential timing; our strategies for growth, including our ability to sign new license agreements, conduct clinical evaluations, complete process and manufacturing validations, and bring new products to market; planned limited market evaluations or commercial launches for our products; the development of future products and their anticipated attributes; regulatory submissions and approvals; our intent to pursue certain regulatory actions, including to expand the field of use for our thrombectomy products; the potential impact of U.S. Food and Drug Administration ("FDA") communications; our initiations for product evaluation activities; expected timing of the commercialization in the U.S. of our SurVeil™ drug-coated balloon ("DCB"); revenue potential related to sales and commercialization of the *SurVeil* DCB; opportunities for the clinical development and future commercialization of our other DCB products; potential partnership opportunities for our DCB products; future revenue growth, our longer-term valuation-creation strategy, and our future potential; plans for future clinical investment in new products; potential future disease rates; future opportunities and goals related to new product offerings; future gross margins and operating expenses; estimated future amortization expense; expectations regarding operating expenses and interest expense; recognition of unrecognized compensation costs; anticipated patent expirations and their potential impacts on our royalties and license fee revenue; potential future customer actions; research and development plans and expenses, including the estimated cost associated with the TRANSCEND clinical trial; expectations regarding clinical follow up and completion of the TRANSCEND trial; anticipated cash requirements; future cash flow and sources of funding, and their ability together with existing cash, cash equivalents, and investments to provide liquidity sufficient to meet our cash needs and fund our operations and planned capital expenditures for the next twelve months; the availability of funds under our debt arrangements; future property and equipment investment levels; expectations regarding declaring or paying dividends; plans regarding our securities investments and the potential impact of interest rate fluctuations; expectations regarding the maturity of debt; the impact of potential lawsuits or claims; where our manufacturing activities will take place for various categories of products; the impact of potential change in raw material prices, sources of raw materials and our ability to manufacture raw materials ourselves; the impact of Abbott and Medtronic, as well as other significant customers; our ability to recognize the expected benefits of our acquisitions; our strategic transformation to become a provider of vascular intervention medical device products; future income tax expense (benefit), including from the Coronavirus Aid, Relief and Economic Security Act (the "CARES Act"); the future impact of off-balance sheet arrangements and contractual obligations; and the impact of the adoption of new accounting pronouncements. Without limiting the foregoing, words or phrases such as "anticipate," "believe," "could," "estimate," "expect," "forecast," "intend," "may," "plan," "possible," "project," "will" and similar terminology, generally identify forward-looking statements. Forward-looking statements may also represent challenging goals for us. These statements, which represent our expectations or beliefs concerning various future events, are based on current expectations that involve a number of risks and uncertainties that could cause actual results to differ materially from those of such forward-looking statements. We caution that undue reliance should not be placed on such forward-looking statements, which speak only as of the date made. Some of the factors which could cause results to differ from those expressed in any forward-looking statement are set forth under "Risk Factors" in Part I, Item 1A of this Annual Report on Form 10-K. We disclaim any intent or obligation to update publicly these forward-looking statements, whether because of new information, future events or otherwise.

Although it is not possible to create a comprehensive list of all factors that may cause actual results to differ from our forward-looking statements, such factors include, among others:

1. ongoing operating losses, interest expense, and failure to generate cash flows from operations, which could impact expected expenditures and investments in growth initiatives;
2. our reliance on a small number of significant customers, including our largest customers, Abbott and Medtronic, which causes our financial results and stock price to be subject to factors affecting those significant customers and their products, the timing of market introduction of their or competing products, product safety or efficacy concerns and intellectual property litigation impacting such customers, which could adversely affect our growth strategy and the revenue we derive;
3. our ability to successfully manufacture at commercial volumes our *SurVeil* DCB, and our ability to successfully develop, obtain regulatory approval for, commercialize, and manufacture at commercial volumes our other DCB products, including our reliance on clinical research organizations to manage the TRANSCEND clinical trial and uncertainty related to the impacts of any clinical research relative to drug-coated balloons, including our other DCB products and other catheter and balloon-based products;
4. general economic conditions that are beyond our control, such as the impact of recession, inflation, rising interest rates, customer mergers and acquisitions, business investment, changes in consumer confidence, and medical epidemics or pandemics such as the COVID-19 pandemic, which negatively impacted our business and results of operations;
5. our ability to successfully and profitably commercialize our vascular intervention products, including our Pounce™ Venous Thrombectomy System, through our direct salesforce, or otherwise;

6. our ability to comply with the covenants in our credit facility;
7. the difficulties and uncertainties associated with the lengthy and costly new product development and foreign and domestic regulatory approval processes, such as delays, difficulties or failures in achieving acceptable clinical results or obtaining foreign or FDA marketing clearances or approvals, which may result in lost market opportunities, failure to bring new products to market or postpone or preclude product commercialization by licensees or ourselves;
8. whether operating expenses that we incur related to the development and commercialization of new technologies and products are effective;
9. our ability to successfully perform product development activities, the related research and development expense impact, and governmental and regulatory compliance activities, with which we do not have extensive experience;
10. impairment of goodwill and intangible assets or the establishment of reserves against other assets on our balance sheet; and
11. other factors described under "Risk Factors" in Part I, Item 1A of this Annual Report on Form 10-K, which you are encouraged to read carefully.

Many of these factors are outside our control and knowledge and could result in increased volatility in period-to-period results. Investors are advised not to place undue reliance upon our forward-looking statements and to consult any further disclosures by us on this subject in our filings with the SEC.

PART I

ITEM 1. BUSINESS.

OVERVIEW

Surmodics, Inc. (referred to as "Surmodics," the "Company," "we," "us," "our" and other like terms) is a leading provider of performance coating technologies for intravascular medical devices and chemical and biological components for in vitro diagnostic ("IVD") immunoassay tests and microarrays. Surmodics also develops and commercializes highly differentiated vascular intervention medical devices that are designed to address unmet clinical needs and engineered to the most demanding requirements. This key growth strategy leverages the combination of the Company's expertise in proprietary surface modification and drug-delivery coating technologies, along with its device design, development and manufacturing capabilities. The Company's mission is to improve the detection and treatment of disease. Surmodics is headquartered in Eden Prairie, Minnesota.

SURMODICS' REPORTABLE SEGMENTS:

MEDICAL DEVICE	IN VITRO DIAGNOSTICS ("IVD")
Manufacture and licensing of **performance coatings**, including **surface modification coating technologies** to improve access, deliverability and predictable deployment of medical devices and **drug-delivery coating technologies** to provide site-specific drug-delivery from the surface of a medical device, with end markets that include neurovascular, peripheral, coronary, and structural heart, among others. Manufacture of **vascular intervention medical devices**, including drug-coated balloons, mechanical thrombectomy devices, and radial access balloon catheters and guide sheaths.	Manufacture of **chemical and biological components** used in **in vitro diagnostic immunoassay and molecular tests** within the diagnostic and biomedical research markets. Component products include protein stabilizers, substrates, surface coatings and antigens.

SURMODICS' PRIMARY REVENUE SOURCES:

PRODUCT SALES	ROYALTIES & LICENSE FEES	RESEARCH & DEVELOPMENT
• **IVD chemical and biological components**, including protein stabilizers, substrates, surface coatings and antigens to the diagnostic and biomedical research markets (IVD segment) • **Performance coating reagents**, the chemicals used in performance coatings by licensees (Medical Device segment) • **Vascular intervention medical devices** and related products to original equipment manufacturer suppliers and distributors, as well as directly to healthcare providers (Medical Device segment)	• **Performance coating royalties and license fees** from licensing of our proprietary performance coating technologies to medical device manufacturers (Medical Device segment) • **SurVeil™ DCB license fees** associated with upfront and milestone payments received pursuant to our Development and Distribution Agreement with Abbott Vascular, Inc. (Medical Device segment)	• Contract coating services and commercial development feasibility services (Medical Device segment) • Commercial development services (IVD segment)

Revenue fluctuates from quarter to quarter depending on, among other factors: our customers' success in selling products incorporating our technologies; our and our customers' success in selling our vascular intervention products; the occurrence of milestone events under our development contracts; the timing of introductions of licensed products by our customers and proprietary products by us and our distributors; the timing of introductions of products that compete with our products and our customers' products; the number and activity level associated with customer development projects; the number and terms of new license agreements that are finalized; and the value of reagent chemicals, medical device and diagnostic products sold to our customers.

The information below provides an overview of the principal products, services and markets for each of our two reportable segments. The discussion of other aspects of our business, including patents and proprietary rights, significant customers, manufacturing, government regulation, and our human capital, applies to our business in general, and we describe material segment information within these sections where relevant.

MEDICAL DEVICE SEGMENT

Our Medical Device segment consists of two interrelated product platforms:

- **Vascular Intervention Medical Devices.** We develop and manufacture our own proprietary vascular intervention medical device products, which leverages the combination of our expertise in proprietary surface modification and drug-delivery coating technologies, along with our device design, development and manufacturing capabilities. We believe our strategy of developing our own medical device products has increased, and will continue to increase, our relevance in the medical device industry. This strategy is key to our future growth and profitability, providing us with the opportunity to capture more revenue and operating margin with vascular intervention medical device products than we would by licensing our device-enabling technologies.

- **Performance Coatings**. Surmodics is an established market leader in proprietary surface modification coating technologies that impart lubricity, pro-healing and biocompatibility characteristics, as well as drug-delivery capabilities (together, "performance coatings" or "performance coating technologies") to medical devices and delivery systems. We develop and commercialize our performance coatings through license agreements with medical device manufacturers for use in their medical devices.

OVERVIEW: VASCULAR INTERVENTION MEDICAL DEVICES — MEDICAL DEVICE SEGMENT

Our strategy is to develop a portfolio of highly differentiated medical devices for vascular interventional treatment. We invest in the development and commercialization of devices that serve large, under-penetrated markets; address unmet clinical needs; improve clinical outcomes for patients; and reduce procedure costs. Our portfolio and pipeline of vascular intervention medical device products includes the following primary platforms:

- **Drug-coated balloons** ("DCBs") which combine a pharmaceutical drug with a medical device to treat narrowing of the blood vessels supplying the peripheral vasculature (most commonly in the legs), known as peripheral artery disease ("PAD");
- **Mechanical thrombectomy devices** to remove clots from arteries and veins in the peripheral vasculature; and
- **Radial access devices** to enable treatment of arterial lesions in the lower extremities via radial (wrist) access, and which can also be used in alternative access sites, including femoral and pedal access.

In addition to these primary platforms, our device manufacturing operations include:

- **Specialty catheters.** We have successfully developed, received U.S. and European Union ("E.U.") regulatory approvals, and executed commercialization partnerships for several specialty catheter products. We have partnered with Medtronic plc ("Medtronic") to distribute our *Telemark* microcatheter in the U.S. and Europe for coronary applications. We have partnered with Cook Medical to distribute our 0.014" and 0.018" low-profile percutaneous transluminal angioplasty ("PTA") balloon catheters in the U.S. and Europe.

  In addition, we leverage our proprietary balloon catheter technology to deliver contract-manufactured balloon catheter products to original equipment manufacturers ("OEMs") on a limited scale.

We commercialize our medical device products using two strategies:

- **Direct sales.** We have a direct salesforce, which was established in fiscal 2022, that sells our mechanical thrombectomy and radial access devices directly to healthcare providers.
- **Strategic partnerships.** For certain of our products, including our DCB products, our clinical development and commercialization strategy utilizes distribution partnerships with large, strategic medical device companies. The exclusive distribution partner for our *SurVeil* DCB is Abbott Vascular, Inc.

For all of our products under development, as further described under the caption "Government Regulation" below, the expected timing and potential success of regulatory approval and commercialization for the products pending regulatory approval can vary greatly given the significant uncertainty inherent in the product development and regulatory approval processes.

Vascular Intervention Medical Devices – Drug Coated Balloons ("DCBs") **MEDICAL DEVICE SEGMENT**

We have leveraged our performance coating technologies to successfully develop multiple DCB devices for use in vascular interventions for the treatment of PAD. DCBs are used by physicians to expand the diameter (lumen) of a narrowed vessel, thus improving or restoring blood flow. The drug coating helps to prevent the vessel from narrowing again (restenosis) after treatment. PAD is a serious and under-diagnosed circulatory condition caused by build-up of plaque, most commonly in the legs. Over 8 million Americans are affected by PAD, which increases risk of coronary artery disease, heart attack and stroke. PAD can impair the ability to walk and, if left untreated, can lead to gangrene and limb amputation.

The following is a brief description of each of these devices and their stage of clinical development, with additional information about each device provided further below.

- ***SurVeil* DCB** is a paclitaxel-coated DCB to treat PAD in the upper leg (superficial femoral artery). Our *SurVeil* DCB utilizes a proprietary paclitaxel drug-excipient formulation for a durable balloon coating and is manufactured using an innovative process to improve coating uniformity.

  In June 2023, the *SurVeil* DCB received U.S. Food and Drug Administration ("FDA" or the "Agency") premarket approval ("PMA") and may now be marketed and sold in the U.S. by our exclusive distribution partner, Abbott Vascular, Inc. ("Abbott"). Abbott has exclusive worldwide commercialization rights for the *SurVeil* DCB under a Development and Distribution Agreement that we entered into in fiscal 2018 (the "Abbott Agreement"), as further discussed below. Abbott has discretion as to when to begin commercialization in the U.S., which is expected to occur in the first half of calendar 2024.

- **Sundance™ DCB** is a sirolimus-coated DCB used for the treatment of below-the-knee PAD, including critical limb ischemia ("CLI"). Our SWING first-in-human, 35-patient, 36-month clinical study was designed to evaluate the safety and performance of our *Sundance* DCB when used to treat occlusive disease of the infra-popliteal arteries. SWING study data at 24 months demonstrated an excellent safety profile and promising signals of potential performance. We continue to evaluate our strategy for further clinical investment in the *Sundance* DCB based on the experience we have gained from the PMA application process for the *SurVeil* DCB.

Our DCB products are required to go through clinical studies in order for us to obtain regulatory approval or clearance to market the product in the U.S. Each clinical study includes one or more primary endpoints, which measure the effectiveness and/or safety of a device based on the product's ability to achieve one or more pre-specified outcomes. Primary endpoints are selected based on the proposed intended use of the medical device. A pivotal trial is a definitive study designed to gather evidence to evaluate the safety and effectiveness of a product prior to its marketing.

***SurVeil* DCB.** Our *SurVeil* DCB product is a paclitaxel-coated DCB to treat PAD in the upper leg (superficial femoral artery). The *SurVeil* DCB is a next-generation device that utilizes best-in-class technology for the treatment of PAD, including a proprietary paclitaxel drug-excipient formulation for a durable balloon coating manufactured using an innovative process to improve coating uniformity. The design of the *SurVeil* DCB is intended to provide more uniform drug distribution, better efficiency of drug transfer, and fewer downstream particulates and downstream embolization.

Our *SurVeil* DCB product has the necessary regulatory approval for commercialization in the U.S. (PMA from the FDA was received in June 2023), as well as the necessary regulatory approval for commercialization in the E.U. (Conformité Européenne Mark, or CE Mark, received in fiscal 2020). The timing of commercialization is at the discretion of Abbott, subject to the terms of the Abbott Agreement, and U.S. commercialization is expected to occur in the first half of calendar 2024.

TRANSCEND Pivotal Clinical Trial. The TRANSCEND pivotal clinical trial has been used to support the regulatory approval for the *SurVeil* DCB in the U.S. by providing the data necessary to evaluate the safety and effectiveness of our *SurVeil* DCB compared with the Medtronic IN.PACT® Admiral® DCB in treating PAD in the upper leg (superficial femoral artery). The trial enrolled 446 subjects at 65 global sites. The trial's primary efficacy endpoint is primary patency, defined as a composite of freedom from restenosis and clinically-driven target lesion revascularization through 12 months post-index procedure. TRANSCEND enrollment was completed in fiscal 2019, and all randomized subjects will be followed through 60 months post-index procedure.

- In January 2021, we announced the TRANSCEND 12-month pivotal clinical trial met both the primary safety and primary efficacy endpoints, and the *SurVeil* DCB was found to be non-inferior in those endpoints to the Medtronic IN.PACT® Admiral® DCB, while delivering a substantially lower drug dose.

- TRANSCEND 36-month data demonstrated comparable, sustained clinical outcomes between the *SurVeil* DCB and IN.PACT® Admiral® DCB cohorts through 36 months, including rates of clinically driven target lesion revascularization, major limb amputation, thrombosis at the target lesion, and major adverse events.

Abbott Agreement. In fiscal 2018, we entered into the Abbott Agreement, which provided Abbott with exclusive worldwide commercialization rights for the *SurVeil* DCB.

- Pursuant to the terms of the Abbott Agreement, the Company has received upfront and milestone payments totaling $87.8 million as of September 30, 2023. These payments are recognized as *SurVeil* DCB license fee revenue as costs are incurred over the five-year TRANSCEND pivotal clinical trial. There are no additional potential milestone payments available under the Abbott Agreement.
- Under the Abbott Agreement, Abbott has the right to purchase commercial units of the *SurVeil* DCB from Surmodics. Upon shipment of *SurVeil* DCB units to Abbott, we will recognize product revenue, which will include (i) an agreed-upon transfer price and (ii) a share of net profits resulting from product sales by Abbott to third parties.
- Surmodics is responsible for conducting all necessary clinical trials and other activities required to obtain and maintain U.S. and E.U. regulatory clearances for the *SurVeil* DCB, including completion of the ongoing TRANSCEND pivotal clinical trial. Expenses related to these activities are paid by Surmodics. Abbott and Surmodics participate on a joint development committee charged with providing guidance on the Company's clinical and regulatory activities related to the *SurVeil* DCB product.

***Sundance* DCB**. Our sirolimus-coated *Sundance* DCB is used for the treatment of below-the-knee PAD, including CLI. CLI is estimated to impact between 2.1 million and 3.8 million Americans, a number that could grow to between 2.4 million and 4.7 million by 2030. Rates of amputation and death are significant for CLI patients, and there are currently no DCB devices approved to treat the condition in the U.S.

Sirolimus has potent anti-inflammatory and anti-proliferative effects to inhibit cell division, without creating vascular toxicity, and has a proven history of safety and efficacy in vascular anatomy. We leveraged our expertise in performance coatings in the innovative design of our *Sundance* DCB, which in pre-clinical benchtop and animal testing has shown clear advantages over competitive technologies, including superior drug coating durability, higher levels of drug transfer, and a unique ability to achieve sustained therapeutic levels in the tissue.

Below is a summary of our clinical and regulatory progress related to the *Sundance* DCB.

- In October 2019, the FDA designated the *Sundance* DCB as a "Breakthrough Device" under the FDA's Breakthrough Devices Program, which is designed to streamline the market clearance/approval process for products that have the potential to provide for more effective treatment or diagnosis of life-threatening or irreversibly debilitating diseases or conditions.
- Our SWING first-in-human, 35-patient, 36-month clinical study was designed to evaluate the safety and performance of our *Sundance* DCB when used to treat occlusive disease of the infra-popliteal arteries. Enrollment and six-month follow up visits were completed in fiscal 2021. The clinical report for the SWING study was completed in fiscal 2022, which demonstrated promising early safety data and performance insights. SWING study data demonstrated an excellent safety profile at 24 months, with no major amputations and low rates of major adverse events. There were no clinically driven target lesion revascularizations in study participants between six- and 24-months post procedure. SWING study data also showed promising signals of potential performance of the device, with target lesion primary patency maintained in 80% of per protocol patients at 12 months and in 71% of per protocol patients at 24 months.

We continue to evaluate our strategy for further clinical investment in the *Sundance* DCB based on the experience we have gained from the PMA application process for the *SurVeil* DCB.

Vascular Intervention Medical Devices – Mechanical Thrombectomy **MEDICAL DEVICE SEGMENT**

We have successfully developed, internally and through acquisitions, multiple FDA 510(k)-cleared mechanical thrombectomy devices for the non-surgical removal of thrombi and emboli (clots) from the peripheral vasculature. We believe that the ease of use, intuitive design and efficient performance of our thrombectomy products make these devices viable first-line treatment options for interventionalists. These devices include:

- **Pounce™ Arterial Thrombectomy System** is designed for the removal of clots from arteries in the peripheral vasculature, which is known as peripheral arterial occlusion ("PAO") and is associated with PAD. During fiscal 2022, we established a direct salesforce and commenced commercial sales of our *Pounce* Arterial Thrombectomy System to hospitals and clinics.
- ***Pounce* Venous Thrombectomy System** is designed for the removal of clots from veins in the peripheral vasculature generally associated with venous thromboembolism ("VTE"). We conducted limited market evaluations in fiscal 2023 to obtain physician feedback across a variety of cases and clinical conditions. Completion of limited market evaluations of the *Pounce* Venous Thrombectomy System and transition to commercial launch are targeted for fiscal 2024.

Our thrombectomy devices represent a core offering within our vascular intervention product strategy, providing the opportunity for:

- Rapid growth in large, under-penetrated markets; and
- Improved clinical outcomes and reduced healthcare costs, with single session treatment for removal of difficult clots, no capital equipment, and the potential to reduce the need for thrombolytic drugs.

PAO, the blocking of arteries by clots or plaque, is a peripheral vascular condition commonly associated with CLI. Often, these arterial clots require surgical intervention and have proven difficult to remove with currently available medical device technologies. Depending on the age and magnitude of the occlusion and the viability of the threatened limb, existing treatments for this condition may include catheter-directed thrombolysis, surgical embolectomy, and/or percutaneous mechanical thrombectomy. In cases in which the occlusion has caused irreversible damage to the limb, acute limb ischemia can result in the amputation of a lower extremity.

VTE, a blood clot in the veins, is an under-diagnosed and serious, yet treatable, medical condition that can cause disability and death. VTE includes deep vein thrombosis ("DVT"), which occurs when a blood clot forms in a deep vein, usually in the lower leg, thigh, or pelvis, and pulmonary embolism ("PE"), which occurs when a clot breaks loose and travels through the bloodstream to the lungs. VTE affects approximately 1.2 million U.S. patients each year, of which approximately 800,000 are affected by DVT. The current standard of care for treating VTE is conservative medical management with anticoagulant drugs designed to prevent further blood clotting. While anticoagulation remains the most widespread therapy for DVT, interventional treatment has demonstrated the potential for better outcomes in select patients.

We believe our proprietary *Pounce* arterial and venous thrombectomy devices provide physicians with the opportunity to treat PAD and VTE in a more effective, cost-efficient manner than currently available treatments. The devices offer innovative designs that may reduce the need for the use of thrombolytic drugs. Thrombolytic drugs are often associated with complications, which can include bleeding complications, longer hospital stays and higher cost of treatment. Our *Pounce* arterial and venous thrombectomy devices are designed to reduce procedure time, efficiently remove large volumes of clot, and eliminate the need for additional external capital equipment, thereby providing an easy-to-use, on-the-table, single-session solution for clinicians.

***Pounce* Arterial Thrombectomy System.** Our *Pounce* Arterial Thrombectomy System, which received FDA 510(k) clearance in fiscal 2020, is a mechanical thrombectomy device intended for the non-surgical removal of thrombi and emboli from the peripheral arterial vasculature. Commercial sales began in the first quarter of fiscal 2022.

In fiscal 2023, we received FDA 510(k) clearance for the low-profile (LP) model of the *Pounce* Arterial Thrombectomy System, which will allow for clot removal in below-the-knee peripheral arteries (2 mm to 4 mm in diameter), expanding the addressable market for the *Pounce* arterial platform. Limited market evaluations of the *Pounce* LP device and transition to commercial launch are targeted for fiscal 2024.

The *Pounce* Arterial Thrombectomy device consists of three components: a 5 Fr basket delivery catheter, a basket wire, and a funnel assembly. After the basket wire is delivered distal to the location of the thrombus, two nitinol self-expanding baskets are deployed to collect and entrain the clot into a funnel-shaped nitinol wire mesh. With the clot entrained, the funnel assembly is then collapsed into a 7 Fr procedure guide sheath through which the clot is withdrawn and removed from the body. Physician feedback indicates the *Pounce* Arterial Thrombectomy System is capable of achieving positive outcomes with minimal blood loss and with minimal use of thrombolytics. The device offers an intuitive, grab-and-go design to simplify setup and reduce the physician's learning curve.

***Pounce* Venous Thrombectomy System.** Our *Pounce* Venous Thrombectomy System, which received FDA 510(k) clearance in fiscal 2021, is a mechanical thrombectomy catheter for use in venous vascular beds that is specifically designed to remove large, mixed-morphology blood clots commonly found with VTE. The *Pounce* Venous Thrombectomy System has also received CE Mark approval, which is a prerequisite for commercialization in the E.U. The device's dual-action technology features a constant spring tension basket, which provides optimal wall apposition over a range of vessel diameters, to engage and collect the clot, while the motor-driven Archimedes screw macerates and removes the collected clot. As with our *Pounce* arterial device, the *Pounce* Venous Thrombectomy System is intuitive and approachable to facilitate widespread adoption, with a low learning curve for the physician.

We acquired the venous thrombectomy device technology with our fiscal 2021 acquisition of Vetex Medical Limited ("Vetex"), which was privately held and is based in Galway, Ireland. We acquired Vetex with an upfront cash payment of $39.9 million and deferred, guaranteed consideration of $3.5 million to be paid in two equal installments in the fourth quarter of fiscal 2024 and 2027.

Limited market evaluations for the *Pounce* Venous Thrombectomy System were conducted in fiscal 2023, and are expected to continue in fiscal 2024, to obtain physician feedback across a variety of cases and clinical conditions. Completion of limited market evaluations of the *Pounce* Venous Thrombectomy System and transition to commercial launch are targeted for fiscal 2024.

The FDA requires specific indications for devices to be marketed for treatment of certain aspects of VTE, such as DVT and PE. The *Pounce* Venous Thrombectomy System is indicated for mechanical de-clotting and controlled and selected infusion of physician specified fluids, including thrombolytics, in the peripheral vasculature. The device currently is not indicated for the treatment of DVT or PE. We intend to pursue development and regulatory actions that would expand the field of use for our thrombectomy products, which may include specific indications, and which may include DVT and PE.

Vascular Intervention Medical Devices – Radial Access **MEDICAL DEVICE SEGMENT**

We have successfully developed and received FDA 510(k) regulatory clearance for our Sublime™ portfolio of devices designed for vascular intervention via radial (wrist) access that can also be used via alternative access sites, including femoral (thigh) and pedal (foot) access. Our *Sublime* devices are used to access and treat narrowed arteries both above and below the knee, commonly associated with PAD. During fiscal 2022, we established a direct salesforce and commenced commercial sales of our *Sublime* device portfolio to hospitals and clinics. These radial access devices include:

- ***Sublime* guide sheath** to provide the conduit for peripheral intervention with an access point at the wrist that enables treatment all the way to the pedal loop of the foot;
- ***Sublime* .014 RX PTA dilatation catheter** for treatment of lesions in arteries below the knee all the way to the patient's foot and around the pedal loop;
- ***Sublime* .018 RX PTA dilatation catheter** for treatment of lesions in arteries above and below the knee; and
- ***Sublime microcatheter***, peripheral microcatheters with multiple configurations (compatible with .014, .018 and .035 guidewires) for access to arterial lesions above and below the knee. Limited market evaluations of the *Sublime* microcatheter began in the third quarter of fiscal 2023 and are expected to continue in fiscal 2024.

Our *Sublime* device portfolio is unique in that each of these devices are purpose built for above and below the knee peripheral interventions that can employ a transradial approach *and* alternative access sites, including conventional femoral access and pedal access. Our *Sublime* guide sheath performance is enhanced by our recent generation hydrophilic coating. We believe that radial access procedures offer significant benefits by improving patient comfort, reducing recovery and ambulation times, and potentially lowering access site complications. Our *Sublime* device portfolio meets an unmet clinical need by providing longer, lower-profile devices that are robust enough to deliver treatment from the wrist all the way to the pedal loop in the foot.

We believe the *Sublime* device portfolio is uniquely positioned to lead the market for dedicated devices that facilitate a radial-to-peripheral approach. Below are a few of the unique advantages of our *Sublime* devices.

- Our *Sublime* guide sheath is the only 5F guide sheath available in a length up to 150cm, making it an ideal device for operators who seek a smaller profile sheath to help minimize radial artery spasm or to treat smaller patients when performing peripheral interventions via radial access. Physician feedback has indicated our *Sublime* guide sheath offers a low-profile design for patient comfort, superior trackability through tortuous anatomy, and resistance to kinking when compared to alternative devices.
- Our *Sublime* .014 RX PTA dilatation catheter is the longest catheter of its kind in the U.S. market, at 250 cm. Physician feedback has indicated both our *Sublime* .014 and .018 catheters provide superb deliverability and the ability to cross challenging lesions.

OVERVIEW: PERFORMANCE COATINGS — MEDICAL DEVICE SEGMENT

Surmodics' industry-leading performance coatings are used in a minimally invasive procedure every minute of every day. Surmodics' surface-enhancing performance coatings add differentiated value to more than 150 medical, biotechnology and pharmaceutical product families worldwide. Our customers use Surmodics' performance coatings to enable, optimize and differentiate their device products. These performance coatings include:

- **Hydrophilic coatings** enable vascular device performance and maneuverability by reducing friction by imparting the necessary lubricity (smoothness or slipperiness) for minimally invasive, intravascular procedures. Surmodics' low-particulate, hydrophilic coatings have a proven track record, meeting demanding regulatory requirements in the following clinical segments: neurovascular, peripheral, coronary, and structural heart devices.
- **Drug-delivery coatings** enable a device to achieve the desired biological effect through the precisely controlled transfer of a pharmaceutical drug to targeted tissues. Surmodics possesses expertise across a range of compounds to meet a variety of clinical needs.
- **Hemocompatible coatings** improve the safety and function of devices by reducing the risk of thrombus (clot) formation actively (heparin) or passively (non-heparin).

Surmodics generates royalties and license fee revenue by licensing our performance coating technologies to medical device manufacturers, product revenue from sales to licensees of the chemical reagents used in coatings, and R&D revenue from commercial development feasibility services and contract coating services.

Our performance coatings are differentiated by their flexibility, durability and ease of use. In terms of flexibility, coatings can be applied to many kinds of surfaces and can immobilize a variety of chemical, pharmaceutical and biological agents. Additionally, the surface modification process can be tailored to provide customers with the ability to improve their devices' performance by choosing the specific coating properties desired for particular applications. Our performance coating technologies can also be combined to deliver multiple surface-enhancing characteristics on the same device.

The continuing trend toward minimally invasive surgical procedures, which often employ catheter-based delivery technologies, has increased the demand for hydrophilic (i.e., lubricious or slippery) coatings and other coating technologies, including drug-delivery coatings. For example, stents, particularly drug-eluting stents, have significantly reduced the need for repeat intravascular procedures or more invasive cardiac bypass surgery. Transcatheter heart valve repair, or replacement via a minimally invasive catheter-based system, has enabled the treatment of patients suffering from heart valve disease who are too ill to undergo open-heart surgery.

Hydrophilic Coatings. Our proprietary PhotoLink™ coating technology ("*PhotoLink* Technology") is a versatile, easily applied, coating technology that modifies medical device surfaces by creating covalent bonds between device surfaces and a variety of chemical agents. *PhotoLink* Technology can impart many performance-enhancing characteristics, such as advanced lubricity (slipperiness or smoothness) and hemocompatibility (preventing blood clot formation), when bound onto surfaces of medical devices or other biological materials without materially changing the dimensions or other physical properties of devices.

PhotoLink Technology reagents can be applied to a range of substrates. The coating formulations are easily applied to the material surface by a variety of methods including, but not limited to, dipping, spraying, roll-coating and ink-jetting. We continue to expand our proprietary reagent portfolio for use by our customers. These reagents enable our customers to develop novel surface features for their devices, satisfying the expanding healthcare industry requirements. We are also continually working to expand the list of materials that are compatible with our surface modification and device drug-delivery reagents. Additionally, we develop coating processes and coating equipment to meet the device quality, manufacturing throughput, and cost requirements of our customers.

The *PhotoLink* Technology coating process is relatively simple to use and is easily integrated into the customer's manufacturing operations. In addition, the process does not subject the coated products to harsh chemical or temperature conditions, produces no hazardous byproducts, and does not require lengthy processing or curing time. Further, coatings incorporating the *PhotoLink* Technology are generally compatible with accepted sterilization processes, so the surface attributes are not lost when the medical device is sterilized.

Our Serene™ hydrophilic coating platform, which uses our *Photolink* Technology, improves lubricity and durability, while significantly reducing particulates generation. This *PhotoLink* Technology-enabled coating has demonstrated excellent lubricity on a wide range of substrates and has been used on FDA-cleared coronary, peripheral and structural heart devices.

In October 2023, we announced the commercial launch of our most advanced hydrophilic medical device coating technology, Preside™ hydrophilic coatings. *Preside* hydrophilic coatings complement our existing *Serene* hydrophilic coatings by providing customers with a unique low-friction and low-particulate generation coating to further enhance distal access for neuro-vascular applications, as well as improved crossing for challenging coronary lesions or chronic total occlusions. *Preside* hydrophilic coatings are specifically formulated to meet the challenge of achieving the right balance of enhanced lubricity (reduction in friction) and excellent coating durability (resulting in low particulates) for the next generation of neurovascular, coronary and peripheral vascular devices. Our *Preside* and *Serene* hydrophilic coatings both allow customers to leverage their existing coating process to apply these innovative surface treatments.

Drug-delivery Coatings. Our device drug-delivery coating technologies allow therapeutic drugs to be incorporated within our proprietary polymer matrices to provide controlled, site-specific release of the drug into the surrounding environment. The drug release can be tuned to elute quickly (within minutes to a few days) or slowly (from several months to over a year), illustrating the wide range of release profiles that can be achieved with our coating systems. On a wide range of devices, drug-eluting coatings can help improve device performance, increase patient safety, and enable innovative new treatments. DCBs are a typical example of short-term use drug-delivery devices. An example of longer-term drug-delivery devices is drug-eluting stents. We work with companies in the medical device and biotechnology industries to develop specialized coatings that allow for the controlled release of drugs from device surfaces. We see at least three primary areas with strong future potential:

(1) improving the function of a device which itself is necessary to treat the medical condition;

(2) enabling site-specific drug delivery while limiting systemic exposure; and

(3) enhancing the biocompatibility of a medical device to ensure that it continues to function over a long period of time.

Performance Coatings – Licensing Arrangements — MEDICAL DEVICE SEGMENT

We commercialize our performance coating technologies primarily through licensing arrangements with medical device manufacturers. We believe this approach allows us to focus our resources on further developing new technologies and expanding our licensing activities. Many of our technologies have been designed to allow manufacturers to implement them easily into their own manufacturing processes so customers can control production and quality internally without the need to send their products to a contract manufacturer. We generate the largest proportion of our revenue through licensing arrangements. Revenue from these licensing arrangements typically includes royalties based on a percentage of licensees' product sales, with a contractual minimum, and license fees upon achievement of regulatory and commercialization milestones. Royalties and license fee revenue from our performance coatings represented 25%, 31% and 29% of our total revenue in fiscal 2023, 2022 and 2021, respectively. In fiscal 2023, 2022 and 2021, we saw double-digit year-over-year growth in revenue associated with our *Serene* hydrophilic coating technology driven by customer product launches and resulting market share increases associated with the customer device applications that incorporate the *Serene* coating technology.

The licensing process for our performance coating technologies begins with the customer specifying a desired product feature to be created, such as lubricity or drug delivery. Because each device and coating application is unique, we routinely conduct a feasibility study to qualify each new potential product application, often generating commercial development revenue. Feasibility studies can range in duration from several months to a year. After we complete a feasibility study, our customers cannot market their product until they receive regulatory approval. As further described under the caption "Government Regulation," the regulatory approval process varies in each country and ranges from several months to four or more years. At any time prior to a customer's commercial launch, a license agreement may be executed granting the licensee rights to use our technology. We often support our customers by providing coating assistance for parts required in animal tests and human clinical trials. Typically, we complete a technology transfer to most customers which enables those customers to apply the coating at their own facilities. We also generate revenue from reagent chemical product sales to licensees for use in their coating processes, as well as from providing contract coating services.

License agreement terms are generally for a specified number of years or our patent's life, whichever is longer, although a license generally may be terminated by the licensee for any reason with advance written notice. In cases where the royalty obligation extends beyond the life of the applicable patent, it is because the license also includes rights to our know-how or other proprietary rights. Under these circumstances, the royalty obligation typically continues at a reduced royalty rate for a specified number of years, generally tied to the date on which the licensee's medical device product was first sold.

Our license agreements may include certain license fees and/or milestone payments. Substantially all our licensed performance coating technology applications are nonexclusive, allowing us to license each technology to multiple customers. Moreover, even exclusive performance coating technology licenses generally are limited to a specific "field of use," allowing us the opportunity to further license technology to other customers. The royalty rate on a substantial number of the coatings agreements has traditionally been in the range of two to three percent, but there are certain contracts with lower or higher rates. In certain agreements, our royalty is based on an agreed-upon amount per unit. License fees, milestone payments, and royalty rates are based on various factors, including the licensed product's or technology's stage of development, the perceived value of our technology to the customer's product, the size of the potential market, and whether the arrangement is exclusive or nonexclusive. Our agreements often incorporate a minimum royalty to be paid by the licensee. Royalty payments generally commence one quarter after the customer's actual product sales occur because of the delay in reporting sales by our licensees. We estimate and recognize sales-based royalties revenue from our performance coating licensees in the same quarter that the underlying customer product sale occurs.

We have over 150 licensed product classes (customer products utilizing Surmodics technology) already in the market generating royalties and greater than 100 customer product classes incorporating our technology in various stages of pre-commercialization.

Under our performance coating technology license agreements, the responsibility for securing regulatory approval for and ultimately commercializing these products rests with our customers. Our reliance on our customers in this regard and the potential risks to our operations as a result are discussed in "Risk Factors" in Part I, Item IA of this Annual Report on Form 10-K. Moreover, we are often contractually obligated to keep the details concerning our customers' R&D efforts (including the timing of expected regulatory filings, approvals and market introductions) confidential.

Our licensing agreements generally require us to keep our customers' identities confidential, unless they approve of such disclosure. Licensed customers that allow the use of their name include: Abbott Laboratories and Abbott Vascular, Inc., Boston Scientific Corporation ("Boston Scientific"), Cook Medical, Cordis Corporation, Covidien PLC (a subsidiary of Medtronic), Edwards Lifesciences Corporation, Evalve, Inc. (a subsidiary of Abbott), ev3 Inc. (a subsidiary of Medtronic), Medtronic, OrbusNeich Medical, Inc., and Spectranetics Corporation (a subsidiary of Koninklijke Philips N.V.).

Performance Coatings – R&D Services for Customers — MEDICAL DEVICE SEGMENT

For our medical device performance coating customers, we have distinct, specifically-dedicated R&D facilities and personnel to support delivery of R&D services. We work with our customers to integrate the best possible surface modification and device drug-delivery technologies with their products, not only to meet their performance requirements, but also to perform services quickly so that the product may reach the market ahead of the competition. To quickly solve problems that might arise during the development and optimization process, we offer extensive capabilities in analytical chemistry and surface characterization within our R&D organization. Our state-of-the-art instrumentation and extensive experience allow us to test the purity of coating reagents, to monitor the drug elution rate from coatings, to measure coating thickness and smoothness, and to map the distribution of chemicals throughout coatings. We believe our capabilities in this area exceed those of our competitors. Our R&D staff support our business development staff and business units in performing feasibility studies, as well as providing technical assistance to existing and potential customers. These services, which generate R&D and other revenue, include optimizing the relevant technologies for specific customer applications; supporting clinical trials; training customers; and integrating our technologies and know-how into customer manufacturing operations.

Competition — MEDICAL DEVICE SEGMENT

We are developing and commercializing differentiated vascular intervention medical devices that integrate our performance coatings, catheter, balloon and other proprietary technologies. This high degree of differentiation is strategically designed to capture market share in a highly competitive, dynamic industry. Our vascular intervention products compete with the global leaders in the vascular medical device market. We believe our vascular intervention products will be competitive on the basis of their safety and efficacy as a result of the innovative design and differentiated coating and device design technology. We believe these innovations will enable our vascular intervention products to demonstrate improvements in patient outcomes through reduced invasiveness compared to other devices used for comparable procedures.

We believe that the intense competition within the medical device market creates opportunities for our performance coating technologies as medical device manufacturers seek to differentiate their products through new enhancements or to remain competitive with enhancements offered by other manufacturers. Because a significant portion of our revenue depends on royalties and license fees derived from our customers' medical device product sales incorporating our performance coating technologies, we are also affected by competition within the markets for such devices. As we typically license our performance coating technologies on a non-exclusive basis, we benefit by offering our technologies to multiple competing manufacturers of a device. However, competition in the medical device market could also have an adverse effect on us. While we seek to license our coatings products to established manufacturers, in certain cases, our performance coating licensees may compete directly with larger, dominant manufacturers with extensive product lines and greater sales, marketing and distribution capabilities.

We also are unable to control other factors that may impact commercialization of our vascular intervention products and licensees with medical devices that utilize our performance coatings, such as regulatory approval, marketing and sales efforts of our customers and licensees, and competitive pricing pressures within the particular market. Many of our existing and potential competitors have greater financial, technical and marketing resources than we have.

The ability of performance coating technologies to improve the performance of medical devices and drugs and to enable new product categories has resulted in increased competition in these markets. Some of our competitors offer device drug-delivery technologies, while others specialize in lubricious or hemocompatible coating technology. Some of these companies target cardiovascular, peripheral or other medical device applications. In addition, because of the many product possibilities afforded by performance coatings, many of the large medical device manufacturers have developed, or are engaged in efforts to develop, internal competency in the area of performance coatings, including drug-delivery technologies.

We differentiate ourselves from our performance coatings competitors by providing what we believe is a high value-added approach. We have a proven track record of our customers successfully navigating the regulatory approval process with devices utilizing our enabling technology. We believe that the primary factors customers consider in choosing a particular technology include performance (e.g., flexibility, ability to fine tune drug elution profiles, biocompatibility), ease of manufacturing, time-to-market, intellectual property protection, ability to produce multiple products from a single process, compliance with manufacturing regulations, ability to manufacture clinical and commercial products, customer service, and total cost of goods (including manufacturing process labor). We believe our technologies deliver exceptional performance in these areas, allowing us to compete favorably with respect to these factors. With respect to our licensed performance coating technologies, we believe that the cost and time required to obtain the necessary regulatory approvals significantly reduces the likelihood of a customer changing the manufacturing process it uses once a device or drug has been approved for sale.

R&D Strategy — MEDICAL DEVICE SEGMENT

Our significant R&D investments over the past several years reflect our ongoing commitment to strengthen our proprietary product pipeline and broaden our capacity for medical device R&D activities. In fiscal 2023, 2022 and 2021, consolidated R&D expense as a percentage of consolidated revenue was 35%, 51% and 45%, respectively. In fiscal 2023, R&D expense was largely associated with our investments in vascular intervention product development; costs associated with the *SurVeil* DCB; and regulatory infrastructure, facilities and personnel. R&D expenses primarily consist of research, development, clinical and regulatory activities related to the design, development and commercialization of our products, as well as costs associated with our R&D services revenue.

We intend to continue our development efforts to expand our proprietary medical device offerings, including advancing our performance coating technologies to better meet these needs across multiple medical markets and to capture more of the final product value. We anticipate R&D expenses will continue to be significant in fiscal 2024 and beyond, primarily related to medical device product development, including continued investment in our thrombectomy and radial access platforms.

To strengthen our licensing business model, R&D personnel and facilities for our *Pounce* thrombectomy and *Sublime* radial access vascular intervention products are fully segregated from those for our performance coatings to preserve confidential information of our coatings customers (licensees). In our Medical Device segment, we conduct manufacturing and R&D in multiple facilities. Two of those separate facilities are located in Eden Prairie, Minnesota. We also utilize external contract manufacturers for certain device products.

We have robust procedures to ensure that we protect our coatings customers' (licensees) intellectual property and avoid conflicts of interest. R&D personnel have specific roles and are part of distinct teams, clearly segregated between (i) performance coating technologies R&D, including customer development to support our licensing partnership model; and (ii) internal R&D activities to further advance our vascular intervention product portfolio. Our procedures include strict restrictions for physical access to customers' products and records and limitations on computer file access based on an R&D team member's role.

IN VITRO DIAGNOSTICS SEGMENT

Surmodics' In Vitro Diagnostics ("IVD") segment provides leading in vitro diagnostic companies with the critical components for developing sensitive, reproducible immunoassays to enable our customers' diagnostic tests to detect the absence or presence of disease. We develop, manufacture, and sell chemical and biological components for in vitro diagnostic immunoassay tests and molecular diagnostic tests for the diagnostic and biomedical research markets.

Our portfolio of IVD chemical and biological component products includes:

- **Protein Stabilizers.** We offer a full line of stabilization products for the IVD market. These products increase sensitivity and specificity and reduce false positive and false negative results, while extending the diagnostic test's shelf life, thereby producing more consistent assay results. Our stabilization products are ready-to-use, eliminating the in-house manufacturing preparation time and cost of producing stabilization and blocking reagents.

- **Substrates.** We provide colorimetric and chemiluminescent substrates to the IVD market under our BioFX® trademark. A substrate is the diagnostic test kit component that detects and signals that a reaction has taken place so that a result can be recorded. Colorimetric substrates signal a positive diagnostic result through a color change. Chemiluminescent substrates signal a positive diagnostic result by emitting light. We believe that our substrates offer a high level of stability, sensitivity and consistency.

- **Surface Coatings for Molecular Diagnostic Applications.** We offer custom coatings for molecular diagnostic applications, including DNA, RNA and protein microarrays. Our TRIDIA™ surface coatings bind molecules to a variety of surfaces and geometries and may be customized for selectivity using passivating polymers and reactive groups. This proprietary technology immobilizes DNA and protein to adhere to testing surfaces. We offer other surface coatings that improve flow characteristics through membranes and microfluidic channels on diagnostic devices, including point-of-care components.

- **Antigens and Antibodies.** We are the exclusive distributor in the U.S., Canada and Puerto Rico (and non-exclusive distributor in Japan) of the BBI Solutions' DIARECT™ line of antigens and antibodies ("DIARECT"). DIARECT produces the majority of these antigens and antibodies using recombinant technology.

Our IVD products address the following customer needs:

- **Immunoassay Diagnostics.** Surmodics develops, manufactures and sells high-performing, consistent-quality and stable immunoassay component products to enable our customers' diagnostic tests to detect the absence or presence of disease. An immunoassay is a biochemical test that measures the presence or concentration of a target molecule, or analyte, in a biological fluid or sample. Analyte levels are correlated to the patient's disease state or medical condition to diagnose the presence, absence or severity of disease. Analytes can range from large molecules such as proteins to small molecules such as hormones. Immunoassays are developed and produced using multiple components. The component's selection and optimization confer the quality and performance of the assay in terms of sensitivity and specificity. IVD companies select these critical biochemical and reagent components to meet the assay's diagnostic specifications.

- **Molecular Diagnostics – DNA and Protein Immobilization.** Surmodics has developed various surface chemistries for both DNA and protein immobilization. Our TRIDIA™ product optimizes DNA, RNA, protein, and cell attachment for molecular diagnostic and immunoassay applications, reducing non-specific background and improving sensitivity. Surmodics' versatile coatings bind molecules to a variety of surfaces and geometries and may be customized for selectivity using passivating polymers and reactive groups. Both DNA and protein microarrays are useful tools for the pharmaceutical, diagnostic and research industries. During a DNA gene analysis, typically thousands of different probes need to be placed in a pattern on a surface, called a DNA microarray. These microarrays are used by the pharmaceutical industry to screen for new drugs; by genome mappers to sequence human, animal or plant genomes; or by diagnostic companies to search a patient sample for disease-causing bacteria or viruses. However, DNA does not readily adhere to most surfaces. Protein microarrays are used as diagnostic and research tools to determine the presence and/or quantity of proteins in a biological sample. The most common type of protein microarray is the antibody microarray, where antibodies are spotted onto a surface and used as capture molecules for protein detection.

Customer R&D. The sales cycle for our IVD products generally begins when an IVD company initiates the process to develop a new, or improve a current, diagnostic test. During product development, these companies seek to source the test's critical components with reagents that it produces internally or with reagents from a supplier, such as Surmodics.

As IVD tests are developed and various reagents are tested, companies will generally seek to optimize the sensitivity (false negative reductions), specificity (false positive reductions), speed (time from sample to results), convenience (ideally as few steps as possible), and cost effectiveness. Upon regulatory approval or clearance, the customer's diagnostic test can be sold in the marketplace. It may take several years after approval or clearance for the test to achieve peak market share and optimize Surmodics' revenue.

New Product R&D. Our R&D efforts to grow our IVD business segment include identifying and addressing unmet needs that exist in the global IVD marketplace. Our pipeline of IVD products includes components for immunoassay and molecular diagnostic applications, such as new protein stabilizers, detection technologies, accessory reagents and surface coatings that have the potential to add greater sensitivity, specificity, speed, convenience, and lower cost for IVD test manufacturers.

Competition. The diagnostics market is highly fragmented. In the product lines in which we compete, we face an array of competitors ranging from large manufacturers with multiple business lines to small manufacturers that offer a limited selection of products. Some of our competitors have substantially more capital resources, marketing experience, R&D resources and production facilities than we do. We believe that our products compete on performance, stability (shelf life), sensitivity (lower levels detected, faster results), consistency and price. We believe that our continued competitive success will depend on our ability to gain market share, develop or acquire new proprietary products, obtain patent or other protection for our products, and successfully market our products directly or through partners.

OTHER FACTORS IMPACTING OUR OPERATIONS

Patents and Proprietary Rights

OTHER FACTORS IMPACTING OUR OPERATIONS

Patents and other forms of proprietary rights are an essential part of Surmodics' business. We aggressively pursue patent protection covering the proprietary technologies that we consider strategically important to our business. In addition to seeking patent protection in the U.S., we also generally file patent applications in European countries and, on a selective basis, other foreign countries. We strategically manage our patent portfolio in a manner designed to ensure that we have valid and enforceable patent rights protecting our technological innovations. As of September 30, 2023, Surmodics owned or had exclusive rights to 161 issued U.S. patents and 303 issued international patents. As of the same date, we also owned or had exclusive rights to 37 U.S. pending patent applications and 62 foreign pending patent applications.

We have licensed our *PhotoLink* Technology on a non-exclusive basis to a number of our customers for use in a variety of medical device surface applications, including those described above. In particular, we have 35 issued U.S. patents, four pending U.S. patent applications, 79 issued international patents, and 18 pending international patent applications protecting various aspects of these technologies, including compositions, methods of manufacture and methods of coating devices. The expiration dates for these patents and anticipated expiration dates of the patent applications range from fiscal 2025 to 2042. These patents and patent applications represent distinct families, with each family generally covering a successive generation of the technology, including improvements that enhance coating performance, manufacturability, or other important features desired by our customers. For additional details, refer to the caption "Performance Coatings – Licensing Arrangements" within this section of this Annual Report on Form 10-K.

We also rely upon trade secrets, trademarks and other un-patented proprietary technologies. We seek to maintain the confidentiality of such information by requiring employees, consultants and other parties to sign confidentiality agreements and by limiting access by parties outside the Company to such information. There can be no assurance, however, that these measures will prevent the unauthorized disclosure or use of this information, or that others will not be able to independently develop such information. Additionally, there can be no assurance that any agreements regarding confidentiality and non-disclosure will not be breached, or, in the event of any breach, that adequate remedies would be available to us.

Significant Customers

OTHER FACTORS IMPACTING OUR OPERATIONS

Revenue from Abbott and Medtronic represented approximately 27% and 10%, respectively, of our consolidated revenue for fiscal 2023. Revenue from these customers was generated from multiple products and fields of use, including revenue from the Abbott Agreement, substantially all of which were recognized in our Medical Device segment. No other customer accounted for more than 8% of our consolidated revenue in fiscal 2023.

With respect to our Medical Device segment, revenue from Abbott and Medtronic represented approximately 35% and 12%, respectively, of our Medical Device segment revenue for fiscal 2023, and revenue from one additional customer represented approximately 9% of our Medical Device segment revenue for fiscal 2023. No other customer accounted for greater than 4% of Medical Device segment revenue for fiscal 2023.

With respect to our IVD segment, revenue from two customers represented approximately 21% and 12%, respectively, of our IVD segment revenue for fiscal 2023. No other customer accounted for greater than 8% of IVD segment revenue for fiscal 2023.

Manufacturing — OTHER FACTORS IMPACTING OUR OPERATIONS

We manufacture the reagent chemicals used in our performance coatings and our IVD products in one of our Eden Prairie, Minnesota facilities. In certain limited circumstances, we also provide contract manufacturing services for our customers, including, for example, coating their medical devices that are intended for pre-clinical and clinical development (including human clinical trials), and products that are sold for commercial use by our customers. We manufacture PTA balloon catheters and microcatheters in our Ballinasloe, Ireland facility, which offers a suite of capabilities, including balloon forming, extrusion, coating, braiding and assembly of finished products. We manufacture our vascular intervention products in our Ireland and U.S. facilities, and we also utilize contract manufacturers for our vascular intervention products. At our Ballinasloe, Ireland manufacturing facility, we perform a limited volume of contract manufacturing of medical devices for our customers.

We attempt to maintain multiple sources of supply for the key raw materials used to manufacture our products. We do, however, purchase some raw materials from single sources, but we believe that additional sources of supply are readily available. Further, to the extent additional sources of supply are not readily available, we believe that we could manufacture such raw materials.

We follow quality management procedures in accordance with applicable regulations and guidance for the development and manufacture of materials and device, biotechnology or combination products that support clinical trials and commercialization. In order to meet our customers' needs in this area, all of our manufacturing facilities in Eden Prairie, Minnesota and Ballinasloe, Ireland are certified to ISO 13485 and registered with the U.S. FDA as "Contract Manufacturers." In addition, one of our manufacturing facilities and our warehouse facility in Eden Prairie, Minnesota are certified to ISO 9001.

Government Regulation — OTHER FACTORS IMPACTING OUR OPERATIONS

Medical device and in vitro diagnostic products are required to undergo regulatory review processes that are governed by the FDA and other international regulatory authorities. The process of regulatory review and approval is often prolonged, expensive and uncertain. New medical devices can only be marketed in the U.S. after a pre-market notification for 510(k) clearance or a PMA by the FDA. These processes can take anywhere from several months (e.g., for medical device products seeking regulatory approval under the 510(k) clearance process) to several years (e.g., for medical device products seeking regulatory approval under the PMA application process). In the E.U., regulatory approval is signified by the CE Mark, which is generally granted by one of several competent authorities and is based on the submission of a design dossier, a manufacturer validation assessment, a third-party assessment, and review of the design dossier by a "Notified Body." In 2017, the E.U. authorized a new medical device regulation. The new regulation, which imposes significant additional pre-market and post-market requirements, became effective for devices submitted for CE Mark after May 2021. Medical devices granted CE Mark prior to May 2021 may continue to be sold until December 2027 for class III and class IIb devices and until December 2028 for class IIa and class I devices, or until the CE Mark expires, whichever comes first, providing there are no significant changes to the design or intended use of the device.

For our customers' products that incorporate our performance coating and IVD technologies, the burden of securing regulatory approval typically rests with the customer, as the medical device manufacturer. For our vascular intervention products, the burden of securing regulatory approval rests on us, unless we contract with other organizations to pursue such approval.

In support of our customers' and our own regulatory filings, we maintain various confidential Device Master Files with the FDA and provide technical information to other regulatory agencies outside the U.S. regarding the nature, chemical structure and biocompatibility of our reagents. Our licensees generally do not have direct access to these files. However, they may, with our permission, reference these files in their various regulatory submissions to these agencies. This approach allows regulatory agencies to understand the details of our technologies without our having to share this highly confidential information with our customers.

U.S. legislation allows companies, prior to obtaining FDA clearance or approval to market a medical product in the U.S., to manufacture medical products in the U.S. and export them for sale in international markets. This generally allows us to realize earned royalties sooner and may result in opportunities to market our vascular intervention products in other countries. However, sales of medical products outside the U.S. are subject to international requirements that vary from country to country. The time required to obtain approval for sale internationally may be longer or shorter than that required by the FDA.

Human Capital

OTHER FACTORS IMPACTING OUR OPERATIONS

As of September 30, 2023, we had 376 employees, of which 101 were employed outside the U.S., primarily in manufacturing functions. We are not a party to any collective bargaining agreements.

Our success depends upon our ability to retain and attract highly qualified management and technical personnel. Talent management is critical to our ability to execute on our long-term growth strategy. Through our history of technological innovation, we appreciate the importance of retention, growth and development of our employees. We are committed to an inclusive culture which values equality, opportunity, and respect. In support of our inclusive culture, we believe we offer competitive compensation and benefits, including an annual pay gap assessment; provide respectful workplace training to strengthen employee understanding; and strive to recruit a diverse talent pool across all levels of the organization. We are focused on the engagement and empowerment of our employees through demonstration of our foundational values, which we refer to as the five Cs: we have *courage* to face challenges with determination, honesty and resourcefulness; *candor* to speak openly and respectfully; *collaboration* that recognizes teamwork as the key to success; *camaraderie* that is genuine and supportive; and *commitment* to our cause.

SEC FILINGS

We file annual reports, quarterly reports, proxy statements, and other documents with the SEC under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The SEC maintains a website that contains reports, proxy and information statements, and other information regarding issuers, including the Company, that file electronically with the SEC. The public may obtain any documents that we file with the SEC at http://www.sec.gov.

We make available, free of charge, copies of our annual report on Form 10-K, proxy statement, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act on our website, www.surmodics.com, as soon as reasonably practicable after filing such material electronically or otherwise furnishing it to the SEC. We are not including the information on our website as a part of, or incorporating it by reference into, our Form 10-K.

INFORMATION ABOUT OUR EXECUTIVE OFFICERS

As of November 17, 2023, the names, ages and positions of the Company's executive officers were as follows:

Name	Age	Position
Gary R. Maharaj	60	President and Chief Executive Officer
Timothy J. Arens	56	Senior Vice President of Finance and Information Technology and Chief Financial Officer
Charles W. Olson	59	Senior Vice President and President, Medical Device Coatings
Teryl L.W. Sides	54	Senior Vice President and President, Vascular Interventions
Joseph J. Stich	58	Senior Vice President Human Resources and President, In Vitro Diagnostics
Gordon S. Weber	60	Senior Vice President of Legal, General Counsel and Secretary

Gary R. Maharaj joined the Company in December 2010 as President and Chief Executive Officer and was also appointed to the Surmodics Board of Directors at such time. Prior to joining Surmodics, Mr. Maharaj served as President and Chief Executive Officer of Arizant Inc., a provider of patient temperature management systems in hospital operating rooms, from 2006 to 2010. Previously, Mr. Maharaj served in several senior-level management positions for Augustine Medical, Inc. (predecessor to Arizant Inc.) from 1996 to 2006, including Vice President of Marketing, and Vice President of Research and Development. During his over 35 years in the medical device industry, Mr. Maharaj has also served in various management and research positions for the orthopedic implant and rehabilitation divisions of Smith & Nephew, PLC.

Timothy J. Arens joined the Company in February 2007 as Director, Business Development and became Senior Director of Financial Planning and Analysis and General Manager, In Vitro Diagnostics in October 2010. He was promoted to Vice President of Finance and Interim Chief Financial Officer in August 2011 and in February 2013 became Vice President Corporate Development and Strategy. In May 2018, Mr. Arens was named interim Vice President of Finance and Chief Financial Officer for a second time and in February 2019 he was named Vice President of Finance and Chief Financial Officer. In April 2020, he was promoted to Senior Vice President of Finance and Information Technology and Chief Financial Officer. Prior to joining Surmodics, Mr. Arens was employed at St. Jude Medical, Inc., a medical technology company, from 2003 to 2007, in positions of increasing responsibility related to business development and strategic planning functions.

Charles W. Olson joined the Company in July 2001 as Market Development Manager, was promoted in December 2002 to Director, Business Development, named General Manager of the Hydrophilic Technologies business unit in April 2004, and promoted to Vice President and General Manager, Hydrophilic Technologies in October 2004. In April 2005, the position of Vice President, Sales was added to his responsibilities. In November 2008, Mr. Olson was named Vice President of our Cardiovascular business unit, in October 2010, he was named Senior Vice President and General Manager, Medical Device, and in August 2016 he was named Senior Vice President of Commercial and Business Development, Medical Devices. In May 2022, Mr. Olson was named Senior Vice President and President, Medical Device Coatings. Prior to joining Surmodics, Mr. Olson was employed as General Manager at Minnesota Extrusion from 1998 to 2001 and at Lake Region Manufacturing in project management and technical sales from 1993 to 1998.

Teryl L.W. Sides joined the Company in November 2018 as Senior Vice President and Chief Marketing Officer. In April 2020, Ms. Sides was promoted to Senior Vice President of Product Development and Chief Marketing Officer. In May 2022, Ms. Sides was named Senior Vice President and President, Vascular Interventions. Before joining Surmodics, Ms. Sides served as Founder and Chief Executive Officer of Projectory, a consulting firm that provides strategic marketing services to medical technology clients, ranging from start-ups to global businesses, from 2011 to 2018. Prior to joining Projectory, Ms. Sides was the Vice President of Marketing and Product Development for Arizant, Inc. from 1998 to 2011.

Joseph J. Stich joined the Company in March 2010 as Vice President of Corporate Development and Strategy. In August 2011, Mr. Stich became Vice President, Business Operations and General Manager In Vitro Diagnostics. In September 2013, Mr. Stich's role was adjusted to Vice President and General Manager, In Vitro Diagnostics. In April 2020, Mr. Stich was promoted to Senior Vice President of Human Resources and General Manager, In Vitro Diagnostics. In May 2022, Mr. Stich was named Senior Vice President Human Resources and President, In Vitro Diagnostics. Prior to joining Surmodics, Mr. Stich was Vice President of Corporate Development for Abraxis BioScience, LLC, a biotechnology company focused on oncology therapeutics, from 2009 to 2010. Prior to joining Abraxis, he was a Vice President for MGI Pharma, Inc., a biopharmaceutical company, from 2005 to 2009. Mr. Stich's prior experience also includes serving as President/COO of Pharmaceutical Corp. of America (a subsidiary of Publicis Healthcare Specialty Group), and positions of increasing responsibility in sales and marketing at Sanofi-Aventis Pharmaceuticals.

Gordon S. Weber joined the Company in May 2020 as Senior Vice President of Legal, General Counsel and Secretary. Prior to joining Surmodics, Mr. Weber served as the Founder and President of Sapere Aude, LLC, a consulting firm, from 2018 to 2020. From 2017 to 2018, Mr. Weber served as Vice President, General Counsel and Secretary of CHF Solutions, Inc., which manufactures and markets ultrafiltration systems for patients suffering from fluid overload. Mr. Weber served as Vice President, General Counsel and Secretary of Vascular Solutions, Inc., a medical device company focused on products treating coronary and peripheral vascular disease, from 2013 until the company was acquired by Teleflex Incorporated in 2017. Mr. Weber practiced law for 13 years with Faegre & Benson LLP (now Faegre Drinker Biddle & Reath LLP), where he was Partner. Mr. Weber began his career with the accounting firm now known as KPMG and has served as Corporate Controller for Osmonics, Inc., an NYSE-listed manufacturer of fluid filtration equipment.

The executive officers of the Company are elected by and serve at the discretion of the Board of Directors. None of our executive officers are related to any other executive officer or any of our directors.

General

McKesson Corporation together with its subsidiaries (collectively, the "Company," "McKesson," "we," "our," or "us" and other similar pronouns), which traces its business roots to 1833, is a diversified healthcare services leader dedicated to advancing health outcomes for patients everywhere. Our teams partner with biopharma companies, care providers, pharmacies, manufacturers, governments, and others to deliver insights, products, and services to help make quality care more accessible and affordable.

The Company's fiscal year begins on April 1 and ends on March 31. Unless otherwise noted, all references in this document to a particular year refers to the Company's fiscal year. The Company was incorporated on July 7, 1994 in the State of Delaware.

Our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (the "Exchange Act"), are available free of charge on the Company's website (www.mckesson.com under the "Investors — Financials — SEC Filings" caption) as soon as reasonably practicable after such material is electronically filed with, or furnished to, the Securities and Exchange Commission ("SEC"). The content on any website referred to in this Annual Report on Form 10-K ("Annual Report") is not incorporated by reference into this report, unless expressly noted otherwise. The SEC maintains a website that contains reports, proxy and information statements, and other information regarding issuers, including the Company, that file electronically with the SEC. The address of the website is www.sec.gov.

Business Segments

The Company operates its business in four reportable segments: U.S. Pharmaceutical, Prescription Technology Solutions ("RxTS"), Medical-Surgical Solutions, and International.

Our U.S. Pharmaceutical segment distributes branded, generic, specialty, biosimilar and over-the-counter ("OTC") pharmaceutical drugs, and other healthcare-related products in the United States ("U.S."). This segment provides practice management, technology, clinical support, and business solutions to community-based oncology and other specialty practices. In addition, the segment sells financial, operational, and clinical solutions to pharmacies (retail, hospital, alternate sites) and provides consulting, outsourcing, technological, and other services.

Our Prescription Technology Solutions segment helps solve medication access, affordability, and adherence challenges for patients by working across healthcare to connect patients, pharmacies, providers, pharmacy benefit managers, health plans, and biopharma. RxTS serves our biopharma and life sciences partners, delivering innovative solutions that help people get the medicine they need to live healthier lives. RxTS also offers prescription price transparency, benefit insight, dispensing support services, as well as third-party logistics and wholesale distribution support designed to benefit stakeholders.

Our Medical-Surgical Solutions segment provides medical-surgical supply distribution, logistics, and other services to healthcare providers, including physician offices, surgery centers, nursing homes, hospital reference labs, and home health care agencies. We offer more than 245,000 national brand medical-surgical products as well as McKesson's own line of high-quality products through a network of distribution centers in the U.S.

Our International segment provides distribution and services to wholesale, institutional, and retail customers in Canada and Europe where we own, partner, or franchise with retail pharmacies, and support better, safer patient care by delivering vital medicines, supplies, and information technology solutions.

U.S. Pharmaceutical Segment:

Our U.S. Pharmaceutical segment provides distribution and logistics services for branded, generic, specialty, biosimilar, and OTC pharmaceutical drugs along with other healthcare-related products to customers. This business provides solutions and services to pharmacies, hospitals, oncology and other specialty practices, pharmaceutical manufacturers, biopharma partners, physicians, payors, and patients throughout the U.S. We also source generic pharmaceutical drugs through our ClarusONE Sourcing Services LLP joint venture with Walmart Inc. ("ClarusONE").

Our U.S. Pharmaceutical segment operates and serves customers through a network of 27 distribution centers in the U.S., including two strategic redistribution centers. We invest in technology and other systems at all of our distribution centers to enhance safety, reliability, and product availability. For example, we offer McKesson Connect℠, an internet-based ordering system that provides item look-up and real-time inventory availability as well as ordering, purchasing, third-party reconciliation, and account management functionality. We make extensive use of technology as an enabler to ensure customers have the right products at the right time in the right place.

To maximize distribution efficiency and effectiveness, we follow the Six Sigma methodology, which is an analytical approach that emphasizes setting high-quality objectives, collecting data, and analyzing results to a fine degree in order to improve processes, reduce costs, and enhance service accuracy and safety. We provide solutions to our customers including supply management technology, world-class marketing programs, managed care, repackaging products, and services to help them meet their business and quality goals. We continue to implement information systems to help achieve greater consistency and accuracy both internally and for our customers, as well as make investments to increase capacity and automation.

We have four primary customer pharmaceutical distribution channels: (i) retail national accounts, which include national and regional retail chains, food and drug combinations, mail order pharmacies, and mass merchandisers, (ii) community pharmacies and health (formerly described as independent, small, and medium chain retail pharmacies), (iii) institutional healthcare providers such as hospitals, health systems, integrated delivery networks, and long-term care providers, and (iv) oncology, biopharma, and other specialty partners.

Retail National Accounts: We provide business solutions that help our retail national account customers increase revenues and profitability. Solutions include:

- Central Fill℠ – Prescription refill service that enables pharmacies to more quickly refill prescriptions remotely, more accurately, and at a lower cost, while reducing inventory levels and improving customer service.
- Strategic Redistribution Centers – Two facilities totaling over 740,000 square feet that offer access to inventory for single source warehouse purchasing, including pharmaceuticals and biologics. These distribution centers also provide the foundation for a two-tiered distribution network that supports best-in-class direct store delivery.
- McKesson SynerGx® – Generic pharmaceutical purchasing program and inventory management that helps pharmacies maximize their cost savings with a broad selection of generic drugs, competitive pricing, and one-stop shopping.
- Inventory Management – An integrated solution comprised of forecasting software and automated replenishment technologies that reduce inventory-carrying costs.
- ExpressRx Track™ – Pharmacy automation solution featuring state-of-the-art robotics, upgraded imaging, and expanded vial capabilities, and industry-leading speed and accuracy in a small footprint.

Community Pharmacy and Health: We strengthen the overall health of community pharmacies and elevate the role they play in people's lives. We accomplish this by providing supply chain excellence, pharmacy and patient solutions, as well as supporting independent pharmacies through industry and legislative advocacy. Our pharmacy and patient solutions include:

- Health Mart® – A national network of approximately 4,500 independently-owned pharmacies and one of the industry's most comprehensive pharmacy franchise programs. Health Mart provides franchisees support for operational excellence, managed care contracting, marketing, merchandising solutions, and clinical programs to enhance patient care.
- Health Mart Atlas® – Comprehensive managed care services that help community pharmacies save time, access competitive reimbursement rates, and improve cash flow.
- McKesson Reimbursement Advantage℠ ("MRA") – MRA is one of the industry's most comprehensive reimbursement optimization packages, comprising financial services (automated claim resubmission), analytic services, and customer care.
- McKesson Provider Pay® – Provider Pay is an automated reconciliation and payment management solution designed to maximize third-party cash flow and pursue unpaid claims.
- McKesson OneStop Generics® – Generic pharmaceutical purchasing program that helps pharmacies maximize their cost savings with a broad selection of generic drugs, competitive pricing, and one-stop shopping.
- Pinpoint Community Solutions – McKesson's perpetual inventory management system targeted to independent pharmacy owners with five or fewer stores. The solution provides customers the opportunity to improve cash flow and increase efficiency with inventory visibility to help maximize operational performance.
- FrontEdge™ – Strategic planning, merchandising, and price maintenance program that helps community pharmacies maximize store profitability.
- McKesson RxOwnership Program – A confidential, no-fee resource for pharmacists and pharmacy owners interested in buying, starting, or selling an independent pharmacy, regardless of their pharmacy affiliation.

Institutional Healthcare Providers: At McKesson, we are relentless in our pursuit of opportunities to achieve operational efficiency, reduce waste, and improve the financial performance of our customers so they can achieve more of their goals today and into the future. Solutions include:

- RxO Advisory Services – A suite of supply chain management, pharmacy optimization, and 340B program advisory services driven by data and analytics.

- McKesson Plasma and Biologics – Specialty and plasma drug distributor that leads in market exclusive drug access; partner to health systems customers in navigating the complexities of limited distribution drug; and optimization of McKesson Distribution benefits.
- Outpatient and Specialty Pharmacy – A portfolio of services and solutions customized to each customer's business and clinical strategy.
- Contracting and Contract/Purchasing Optimization – Solutions across generics, specialty, branded products, biosimilars, and 340B products, for inpatient and outpatient settings.
- Supply Assurance – Solutions and strategies to enhance product availability and proactively manage inventory of critical items.
- Patient Assistance Solutions – Technologies and services that enable health systems and providers to better financially support their patients and community benefit programs.

The U.S. Pharmaceutical segment also offers solutions which enable its customers to drive greater efficiencies in their day-to-day operations, effectively managing their inventories and complying with complex government regulations. Solutions include McKesson Pharmacy Systems, MacroHelix, and Supply Logix, all of which provide innovative software technology and services that support retail pharmacies and hospitals.

Oncology, Biopharma, and Other Specialty Partners:

The U.S. Pharmaceutical segment provides a range of solutions to oncology and other specialty practices and offers community specialists (oncologists, rheumatologists, ophthalmologists, urologists, neurologists, and other specialists) an extensive set of customizable solutions and services designed to strengthen core practice operations, enhance value-based care delivery, and expand their service offering to patients. Community-based physicians in this business have broad flexibility and discretion to select the products and commitment levels that best meet their practice needs. Services in provider solutions include specialty drug distribution, group purchasing organizations ("GPO") like Onmark®, technology solutions, practice consulting services, and vaccine distribution, including our exclusive distributor relationship with the Centers for Disease Control and Prevention's ("CDC") Vaccines for Children program. Additionally, McKesson has proudly supported the U.S. efforts to fight the pandemic caused by the SARS-CoV-2 coronavirus ("COVID-19") by distributing certain COVID-19 vaccines since December 2020 at the direction of the U.S. government. This program concluded in the second quarter of fiscal 2024, at which point we began transitioning the distribution of COVID-19 vaccines commercially through our customer pharmaceutical distribution channels.

This business provides a variety of solutions, including practice operations, healthcare information technology, revenue cycle management and managed care contracting solutions, evidence-based guidelines, and quality measurements to support The U.S. Oncology Network ("USON"), one of the nation's largest networks of physician-led, integrated, community-based oncology practices dedicated to advancing high-quality, evidence-based cancer care. SCRI Oncology, LLC, an oncology research business in which we own a 51% controlling interest, is one of the nation's largest research networks and specializes in enhancing clinical trial access and availability across the country.

This segment includes Ontada®, McKesson's oncology technology and insights business providing software to support the clinical, financial, and operational needs of our oncology practice customers. Ontada also partners with oncology providers and biopharma partners to perform real-world evidence studies, retrospective research, and to provide clinical data insights, advisory solutions and education opportunities.

When we discuss specialty products or services, we consider the following factors: diseases requiring complex treatment regimens such as cancer and rheumatoid arthritis; plasma and biologics products; ongoing clinical monitoring requirements, high-cost, special handling, storage, and delivery requirements and, in some cases, exclusive distribution arrangements. Our use of the term "specialty" may not be comparable to that used by other industry participants, including our competitors.

Prescription Technology Solutions Segment:

Our Prescription Technology Solutions segment works across healthcare to connect patients, pharmacies, providers, pharmacy benefit managers, health plans, and biopharma to deliver medication access solutions that support patients from first prescription fill to ongoing therapy, regardless of their insurance coverage. RxTS has connections with most electronic health record systems, over 50,000 pharmacies, approximately 950,000 providers, most pharmacy benefit managers and health plans, and has supported over 650 biopharma brands representing most therapeutic areas. Through its industry connections and ability to navigate the healthcare ecosystem, RxTS offers innovative solutions created to benefit healthcare stakeholders. Its comprehensive solution suites span across the entire patient journey, including medication access and affordability, prescription decision support, prescription price transparency, benefit insight and dispensing support services, as well as third-party logistics and wholesale distribution support, to help increase speed to therapy, reduce prescription abandonment, and support improved health outcomes for the patient. In the past year, RxTS helped patients save more than $8.8 billion on brand and specialty medications, helped to prevent an estimated 10.7 million prescriptions from being abandoned due to affordability challenges, and helped patients access their medicine more than 94 million times.

Medical-Surgical Solutions Segment:

Our Medical-Surgical Solutions segment delivers medical-supply distribution, logistics, biomedical maintenance, and other services to healthcare providers across the alternate-site spectrum. Our more than 285,000 customers include physician offices, surgery centers, post-acute care facilities, hospital reference labs, and home health agencies. We partner with manufacturers and channel partners to support our key target end-markets, including primary care, extended care, government, and other markets. We distribute medical-surgical supplies (such as gloves, needles, syringes, and wound care products), infusion pumps, laboratory equipment, and pharmaceuticals. Through a network of distribution centers in the U.S., we offer more than 245,000 products from national brand manufacturers and McKesson's own brand of high-quality products. Through the right mix of products and services, we help improve efficiencies, profitability, and compliance. We also never lose focus on helping customers improve patient and business outcomes. We develop customized plans to address the product, operational, and clinical support needs of our customers, including inventory management, reducing administrative burdens, and training and educating clinical staff. We deliver for our customers, so they can deliver and care for their patients.

International Segment:

Our International segment provides distribution and services to wholesale, institutional, and retail customers in Canada and Europe where we own, partner, or franchise with retail pharmacies. Our operations in Canada also support better, safer patient care by delivering vital medicines, supplies, and information technology solutions to customers, and through several retail health and wellness brands, across Canada.

McKesson Canada is one of the largest pharmaceutical wholesale and retail distributors in Canada. The wholesale business delivers products to retail pharmacies, hospitals, long-term care centers, clinics and institutions in Canada through a national network of distribution centers and provides logistics and distribution services for manufacturers.

Beyond wholesale pharmaceutical logistics and distribution, McKesson Canada provides automation and technology solutions to its retail and hospital customers. Additionally, McKesson Canada provides comprehensive specialty health services to Canadians and provides biopharma services to manufacturers, including a national network of specialty pharmacies, personalized patient care and support programs, and INVIVA, Canada's first and largest accredited network of private infusion clinics. McKesson Canada also owns and operates PDCI, Canada's leading market access consultancy, supporting manufacturers as they introduce new products into the Canadian market.

The Canada retail business includes approximately 2,700 banner pharmacies under the IDA®, Guardian®, The Medicine Shoppe®, Remedy'sRx®, Proxim®, and Uniprix® banners, and approximately 400 owned pharmacies under the Rexall™ brand where we provide patients with greater choice and access, integrated pharmacy care and industry-leading service levels. McKesson Canada also owns and operates Well.ca™, a leading Canadian online health and wellness retailer.

In July 2021, we announced our intention to exit our businesses in Europe. We divested the majority of our European businesses during fiscal 2022 and fiscal 2023. Our remaining operations in Europe provide distribution and services to wholesale and retail customers in Norway where we own, partner, or franchise with retail pharmacies. We continue to evaluate suitable exit alternatives for our retail and distribution businesses in Norway. Refer to Financial Note 2, "Business Acquisitions and Divestitures," to the consolidated financial statements included in this Annual Report for additional information on our European divestitures.

Investments, Restructuring, Business Combinations, and Divestitures

We invest in new and existing distribution centers to increase scale and capacity, improve efficiency through automation and technology, and enhance regulatory compliance capabilities. Additionally, we invest in data and analytics to support our growth priorities, including artificial intelligence ("AI"). We are in the early stages of exploring potential AI capabilities and related data and analytics across our enterprise to improve productivity and efficiency, as well as enhance our products and services to better support patients, employees, and customers.

We have undertaken additional strategic initiatives in recent years designed to increase operational efficiencies, focus on our core healthcare businesses, execute our business strategy, and enhance our competitive position. These initiatives are detailed in Financial Note 2, "Business Acquisitions and Divestitures," and Financial Note 3, "Restructuring, Impairment, and Related Charges, Net," to the consolidated financial statements included in this Annual Report.

Competition

We operate in highly competitive environments in North America and Norway. In recent years, the healthcare industry has been subject to increasing consolidation. In the pharmaceutical distribution environment in which our U.S. Pharmaceutical and International segments operate, we face strong competition from international, national, regional, and local full-line, short-line, and specialty distributors, service merchandisers, self-warehousing chain drug stores, manufacturers engaged in direct distribution, third-party logistics companies, and large payer organizations. We consider our largest competitors in distribution, wholesaling, and logistics to be Cencora, Inc. and Cardinal Health, Inc. Our retail businesses, which primarily operate in our International segment, face competition from various global, national, regional, and local retailers, including chain and independent pharmacies.

Our RxTS business experiences substantial competition from many companies, including other biopharma services companies, software services firms, consulting firms, shared service vendors, and internet-based companies with technology applicable to the healthcare industry. Competition in this business varies in size from large to small companies, in geographical coverage, and in scope and breadth of products and services offered.

Our Medical-Surgical Solutions segment provides medical-surgical supply distribution, logistics, and other services to healthcare providers, including physician offices, surgery centers, nursing homes, hospital reference labs, home health care agencies, and other alternative sites with competition from a wide range of national and regional medical supply and equipment distributors throughout the U.S.

In addition, we compete with other service providers and healthcare manufacturers, as well as other potential customers of our businesses, which may from time to time decide to develop, for their own internal needs, supply management capabilities that might otherwise be provided by our businesses. We believe that our scale and diversity of product and service offerings are our primary competitive advantages. In all areas, key competitive factors include price, quality of service, breadth of product lines, innovation, adoption of new and evolving technologies, and, in some cases, convenience to the customer.

Patents, Trademarks, Copyrights, and Licenses

McKesson and its subsidiaries hold patents, copyrights, trademarks, and trade secrets related to McKesson products and services. We pursue patent protection for our innovations and obtain copyright protection for our original works of authorship when such protection is advantageous. Through these efforts, we have developed a portfolio of patents and copyrights in the U.S. and worldwide. In addition, we have registered or applied to register certain trademarks and service marks in the U.S. and in foreign countries.

We believe that, in the aggregate, McKesson's confidential information, patents, copyrights, trademarks, and intellectual property licenses are important to its operations and market position, but we do not consider any of our businesses to be dependent upon any one patent, copyright, trademark, or trade secret, or any family or families of the same. We cannot guarantee that our intellectual property portfolio will be sufficient to deter misappropriation, theft, or misuse of our technology, nor that we can successfully enjoin infringers. We periodically receive notices alleging that our products or services infringe on third-party patents and other intellectual property rights. These claims may result in McKesson entering settlement agreements, paying damages, discontinuing use or sale of accused products, or ceasing other activities. While the outcome of any litigation or dispute is inherently uncertain, we do not believe that the resolution of any of these infringement notices would have a material adverse impact on our results of operations.

We hold inbound licenses for certain intellectual property that is used internally, and in some cases, utilized in McKesson's products or services. While in the future it may be necessary to seek or renew licenses relating to various aspects of our products and services, we believe, based upon past experience and industry practice, such licenses generally can be obtained on commercially reasonable terms. We believe our operations as well as our products and services are not materially dependent on any single license or other agreement with any third party.

Human Capital

Everything we do at McKesson begins with our employees, who bring our mission and purpose to life every day. As of March 31, 2024, we had approximately 51,000 employees worldwide, which includes 6,000 part-time employees. We had approximately 35,000 employees in the U.S., 13,000 employees in Canada, and 3,000 employees in Europe. Our employees in Europe primarily support our operations in Norway. We also supplement our work-force with contractors and/or consultants for certain business projects, processes, and/or operations as demand requires.

Inclusion and Belonging: As a company, we believe building a more inclusive future is everyone's responsibility. We build successful teams by fostering a culture of inclusion and belonging and ensuring we attract and retain the best talent at all levels of our organization. To help strengthen our company, we offer various learning opportunities, such as our company-wide inclusion curriculum and additional initiatives to recognize, value and leverage the diversity of our workforce, enhance the inclusiveness of our culture and candidly discuss important topics happening in the world around us. We also offer employees the opportunity to join employee resource groups ("ERGs"), which are voluntary, employee-led, company-sponsored networks that aim to make a positive impact on our employees' lives. Our ERGs focus on helping employees make authentic connections, share and affirm their identities and perspectives, showcase leadership skills and find ways to nurture and support belonging and empowerment. Our 11 ERGs provide a sense of community and insights into the perspectives and experiences across different ethnicities, genders, generations, abilities, and/or military/veteran status, as well as supporting members and allies of the LGBTQIA+ community.

At March 31, 2024, women and people of color represented the following:

	McKesson Overall	McKesson Leadership [2]
Metric [1]		
Women	62 %	43 %
People of Color [3][4]	49 %	28 %

(1) The data for our metrics is derived from our voluntary self-identification process as of March 31, 2024 and therefore represents our best estimate at this time.

(2) Represents our leadership at the vice president level and above.

(3) Represents U.S. employees only because the data for Canada and Europe is not available.

(4) People of Color includes the following self-identification categories: American Indian or Alaska Native, Asian, Black or African American, Hispanic or Latino, Native Hawaiian or Other Pacific Islander, or Two or More Races.

Culture and Leadership: One of McKesson's defining characteristics is our strong culture. Every day, we bring our employee value proposition to life by taking pride in fostering a sense of belonging, finding meaning in our work, and caring for each other, our customers, and all those who depend on us. More than two decades ago, our leadership team created a foundational set of values grounded in the belief that the way we do business is just as important as the business itself. Today, our I²CARE values (Integrity, Inclusion, Customer-First, Accountability, Respect, Excellence) and ILEAD leadership behaviors (Inspire, Leverage, Execute, Advance, Develop) continue to stand the test of time and remain at the core of our daily actions – from how we interact with each other and our customers, to how we make decisions, both big and small. As we work to shape the future of health and embrace the ongoing evolution of our company, we will continue to utilize our strengths to drive lasting change while remaining deeply rooted in our purpose of Advancing Health Outcomes for All®.

Investment in Employees: As an industry leader, we are committed to investing in our people, so that they, in turn, can focus on making better health possible for people everywhere. We are committed to nurturing a culture of wellbeing that empowers our employees to be at their best, including offering health and wellness benefits to advance their physical, mental, and social well-being, savings programs to help prepare them for retirement and flexible work arrangements, among other offerings, when possible. To support growth and career development, we offer employees regular training, coaching, and 360-degree assessments, and financial assistance programs for higher education opportunities.

To provide compensation that is focused on attracting and retaining talent with the skills and experience necessary for a specific role, our compensation program is built on a set of quantifiable factors defined by our guiding principles of internal equity, market competitiveness and pay for performance. We operate in several countries and our benefits vary accordingly. Our compensation philosophy is rooted in a commitment to our people by offering a fair and transparent program that regularly assesses the competitive job market based on geography and cost of labor. We use external resources to provide competitive benchmarking analyses against other companies and set pay ranges around the median of the competitive market. As part of our commitment to pay transparency, the majority of our employees can view the competitive base pay range for their roles as well as for internal and external job postings. Also, the pay range for external job postings is included on McKesson's website (www.mckesson.com under the "Careers" caption).

As we strive to become the best place to work in healthcare, we actively seek employee feedback through annual and mid-year employee opinion surveys, which assesses our employees' levels of engagement, commitment and overall satisfaction using industry benchmarks, and then design action plans to improve those metrics. We also seek feedback on our people leaders through our annual manager quality survey, which is an opportunity for employees to help their managers grow professionally and build valuable leadership skills that help to promote a positive and productive workplace.

Health and Safety: Our security and safety teams employ systems designed to continually monitor our facilities and work environment to help identify and prevent or mitigate potential risks. This includes having procedures in place and investing in equipment for both physical and electronic security. We routinely assess facilities to closely monitor adherence to established security and safety standards. If we identify a vulnerability, it is documented, and the facility prepares an action plan. Our employees receive specialized training related to their role, work setting, and equipment used in their work environment. As our processes evolve, we update relevant safety training modules, which may include new employee training programs.

Government Regulation

We operate in many highly regulated industries and are subject to oversight by various federal, state, and local governmental entities in the U.S. and elsewhere. We incur significant expense and make large capital expenditures and investments to enable us to comply with regulations and guidance promulgated by governmental entities. See "Risk Factors" in Item 1A of Part I below for information regarding material risks associated with our compliance with governmental regulations.

Controlled Substances: We are subject to the operating and security standards of the U.S. Drug Enforcement Administration ("DEA"), the U.S. Food and Drug Administration ("FDA"), the U.S. Department of Health and Human Services ("HHS"), the Centers for Medicare & Medicaid Services ("CMS"), various state boards of pharmacy, state health departments, and comparable agencies in the U.S. and other countries. Certain of our businesses may be required to register for permits and/or licenses with government agencies, depending upon the type of operations and location of product development, manufacture, distribution, and sale. For example, we are required to hold valid DEA and state-level registrations and licenses, meet various security and operating standards, and comply with the Controlled Substances Act and its accompanying regulations governing the sale, marketing, packaging, holding, distribution, and disposal of controlled substances. We maintain extensive controlled substance monitoring and reporting programs at considerable expense in order to help us meet those standards.

Government Contracts: Our contracts with government entities typically are subject to procurement laws that include socio-economic, employment practices, environmental protection, recordkeeping and accounting, and other requirements. These statutory and regulatory requirements complicate our business and increase our compliance burden. We are subject to audits, investigations, and oversight proceedings about our compliance with contractual and legal requirements.

Federal, state, and local governmental entities in the U.S. and elsewhere continue to strengthen their position and scrutiny of practices that may indicate fraud, waste, and abuse affecting government healthcare programs such as Medicare and Medicaid. Our relationships with pharmaceutical and medical surgical product manufacturers, healthcare providers, and other companies and individuals, as well as our provision of products and services to government entities, subject our business to statutes, regulations, and government guidance that are intended to prevent fraud and abuse. Among other things, those laws: (1) prohibit persons from soliciting, offering, receiving, or paying any remuneration in order to induce the referral of an individual for, or to induce the ordering or purchasing of, items or services that are in any way paid for by Medicare, Medicaid, or other government healthcare programs; (2) impose many restrictions upon referring physicians and providers of designated health services under Medicare and Medicaid programs; and (3) prohibit the knowing submission of a false or fraudulent claim for payment to, and knowing retention of an overpayment by, a federal healthcare program such as Medicare and Medicaid. Many of these laws are vague or indefinite and are often subject to varied and evolving interpretations by courts, regulators, and enforcing agencies and, as such, may be interpreted or applied by a prosecutorial, regulatory, or judicial authority in a manner that could require us to make changes in our operations at added expense.

Healthcare Program Regulation: In the U.S., the Patient Protection and Affordable Care Act ("ACA") significantly expanded health insurance coverage to uninsured Americans and changed the way healthcare is financed by both governmental and private payors. The implementation of the Inflation Reduction Act of 2022 (the "IRA") has begun to change benefit design and how Medicare pays for drugs, which are all intended to reduce the price of drugs. Three central features of the IRA have authorized the government to negotiate drug prices for certain Parts B and D drugs over time, establish an inflation rebate program, and cap patient cost sharing under Medicare Part D.

Provincial governments in Canada that provide partial funding for the purchase of pharmaceuticals and independently regulate the sale and reimbursement of drugs have sought to reduce the costs of publicly funded health programs. For example, provincial governments have taken steps to reduce consumer prices for generic pharmaceuticals and, in some provinces, change professional allowances paid to pharmacists by generic drug manufacturers.

McKesson continues to advocate for policies that would improve drug cost transparency under a patient's drug plan to better inform prescribing decisions, and also address access to care, affordability, and treatment regimen adherence, all designed to improve clinical outcomes and reduce the health spending burden.

FDA Regulation and Supply Chain Integrity: In the U.S., the FDA is the principal federal authority that regulates the safety, efficacy, quality, testing, premarket approval, manufacture, labeling, storage, distribution, and post-market surveillance of healthcare products, such as drugs and medical devices, foods, and cosmetics.

Certain federal and state laws regulate the pharmaceutical drug supply chain in order to prevent the distribution of counterfeit, stolen, contaminated, or otherwise harmful prescription drugs in interstate commerce. At the federal level, the Drug Supply Chain Security Act ("DSCSA") requires standardized, unit-level traceability of pharmaceutical products along the entire drug supply chain and requires all trading partners to cooperate in an electronic, interoperable prescription drug traceability system. In August 2023, the FDA established a one-year stabilization period to certain DSCSA requirements that allows trading partners to implement, troubleshoot, and mature their electronic interoperable systems until the stabilization period ends on November 27, 2024. The FDA has also issued a proposed rule that would establish national standards for the licensure of wholesale drug distributors and third-party logistic providers and other requirements applicable to these entities. These federal and state regulatory requirements increase our compliance burden and our distribution costs.

Cybersecurity, Data Security, and Privacy: We are subject to many cybersecurity, privacy, and data protection laws that change frequently and have requirements that vary from jurisdiction to jurisdiction. Our efforts to comply with these laws complicates our operations and adds to our costs. We are subject to significant compliance obligations under privacy laws such as the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), the General Data Protection Regulation ("GDPR") in the European Union, the Personal Information Protection and Electronic Documents Act ("PIPEDA") in Canada, and an expanding list of comprehensive state privacy laws in the U.S. Some privacy laws prohibit the transfer of personal information to certain other jurisdictions or otherwise limit our use of data. Many of these laws also require us to provide access or other data rights (modification, deletion, portability, etc.) to consumers' and patients' individual personal data records within specified periods of time. Cybersecurity laws such as the federal Cyber Incident Reporting for Critical Infrastructure Act of 2022, proposed Federal Acquisition Regulations, and recent amendments to SEC reporting requirements may require us to provide notifications of certain cybersecurity incidents before our investigations are complete and within short timeframes. Regulations and guidance targeting critical infrastructure entities, including McKesson, continue to be a focus of regulators. We are subject to privacy and data protection compliance audits or investigations by various government agencies. The introduction of new technologies, such as AI, may result in additional regulation.

Environmental Regulation: We are subject to many environmental and hazardous materials regulations, including those relating to radiation-emitting equipment operated at U.S. Oncology Network practices. Additionally, our operations are subject to regulations under various federal, state, local and foreign laws concerning the environment, including laws addressing the discharge of pollutants into the air and water, the management and disposal of hazardous substances and wastes, and the cleanup of contaminated sites.

We sold our chemical distribution operations in 1987 and retained responsibility for certain environmental obligations. Agreements with the U.S. Environmental Protection Agency and certain states have required and may require environmental assessments and cleanups at several closed sites. These matters are described further in Financial Note 17, "Commitments and Contingent Liabilities," to the consolidated financial statements included in this Annual Report.

Climate Change Regulation: Governments in the U.S. and abroad have adopted or are considering new or expanded policies and laws to address climate change. Such policies and laws may require or necessitate reductions of greenhouse gas ("GHG") emissions, mandates that companies implement processes and controls to monitor and disclose climate-related matters, additional taxes or offset charges on specified energy sources, and other requirements. Compliance with climate-related policies and laws may be further complicated by disparate regulatory approaches in various jurisdictions. Methodologies for reporting climate-related information may change and previously reported information may be retroactively adjusted, if required. New or expanded climate-related policies and laws could impose costs on us, including capital expenditures to develop data gathering and reporting systems, costly third-party attestations, and additional GHG reduction measures. Until the timing and extent of climate-related policies and laws are clarified, including due to legal challenges, we cannot predict their potential effect on our capital expenditures, results of operations, or competitive position.

Other Information about the Business

Customers: During fiscal 2024, sales to our ten largest customers, including group purchasing organizations ("GPOs") accounted for approximately 69% of our total consolidated revenues. Sales to our largest customer, CVS Health Corporation ("CVS"), accounted for approximately 28% of our total consolidated revenues in fiscal 2024. In fiscal 2023, we extended our pharmaceutical distribution partnership with CVS to June 2027. Our ten largest customers comprised approximately 43%, and CVS was approximately 24%, of our total trade accounts receivable at March 31, 2024. We also have agreements with GPOs, each of which functions as a purchasing agent on behalf of member hospitals, pharmacies, and other healthcare providers, as well as with government entities and agencies. The accounts receivable balances are with individual members of the GPOs, and therefore no significant concentration of credit risk exists. Substantially all of these revenues and accounts receivable are included in our U.S. Pharmaceutical segment.

Suppliers: We obtain pharmaceutical and other products from manufacturers and our largest supplier accounted for 12% of our total purchases in fiscal 2024. The loss of a supplier could adversely affect our business if alternate sources of supply are unavailable. We believe that our relationships with our suppliers are generally sound. The ten largest suppliers in fiscal 2024 accounted for approximately 67% of our total purchases.

Some of our distribution arrangements with manufacturers provide us consideration based on a percentage of our purchases. In addition, we have certain distribution arrangements with pharmaceutical manufacturers that include an inflation-based consideration component whereby we benefit when the manufacturers increase their prices as we sell our existing inventory at the new higher prices. For these manufacturers, a reduction in the frequency and magnitude of price increases, as well as restrictions in the amount of inventory available to us, could have an adverse impact on our gross profit margin.

Research and Development: Research and development expenses were $77 million, $89 million, and $70 million for the years ended March 31, 2024, 2023, and 2022, respectively.

Financial Information About Foreign and Domestic Operations: Certain financial information relating to foreign and domestic operations is discussed in Financial Note 20, "Segments of Business," to the consolidated financial statements included in this Annual Report as well as in "Foreign Operations" in Item 7 of Part II of this Annual Report. See "Risk Factors" in Item 1A of Part I below for information regarding risks associated with our foreign operations.

Forward-Looking Statements

This Annual Report, including "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Item 7 of Part II of this report and the "Risk Factors" in Item 1A of Part I of this report, contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 ("Securities Act") and Section 21E of the Exchange Act. Forward-looking statements may be identified by their use of terminology such as "believes," "expects," "anticipates," "may," "will," "should," "seeks," "approximately," "intends," "projects," "plans," "estimates," "targets," or the negative of these words or other comparable terminology. The discussion of financial trends, strategy, plans, assumptions, expectations, or intentions may also include forward-looking statements. Forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected, anticipated, or implied. Although it is not possible to predict or identify all such risks and uncertainties, they include, but are not limited to, the factors discussed in Item 1A of Part I of this report under "Risk Factors" and in our publicly available SEC filings and press releases. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date such statements were first made. Except to the extent required by federal securities laws, we undertake no obligation to publicly release the result of any revisions to any forward-looking statements to reflect events or circumstances after the date the statements are made, or to reflect the occurrence of unanticipated events.

Available Information

We routinely post on our company website, and via our social media channels, information that may be material to investors, including details and updates to information disclosed elsewhere, which may include business developments, earnings and financial performance, sustainability matters, and materials for presentations to investors and financial analysts. Investors are encouraged to monitor our website www.mckesson.com. Interested parties can sign up on our website, including our Investor Relations site, to receive automated e-mail alerts, such as via RSS newsfeed, when we post certain information. Interested parties can also follow our social media feed @McKesson on X, formerly known as Twitter. The content on any website or social media channel is not incorporated by reference into this report, unless expressly noted otherwise.

Item 1A. Risk Factors.

INDEX TO RISK FACTORS

Section	Page
Litigation and Regulatory Risks	14
Company and Operational Risks	16
Industry and Economic Risks	21
General Risks	24

The discussion below identifies certain representative risks that might cause our actual business results to materially differ from our estimates. It is not practical to identify or describe all risks and uncertainties that might materially impact our business operations, reputation, financial position, or results of operations. Our business could be materially affected by risks that we have not yet identified or that we currently consider to be immaterial. This is not a complete discussion of all potential risks and uncertainties.

Litigation and Regulatory Risks

We experience costly and disruptive legal disputes.

We are routinely named as a defendant in litigation or regulatory proceedings and other legal disputes, which may include asserted class action litigation, such as those described in Financial Note 17, "Commitments and Contingent Liabilities," to the consolidated financial statements included in this Annual Report. Regulatory proceedings involve allegations such as false claims, healthcare fraud and abuse, and antitrust violations. Civil litigation proceedings involve commercial, employment, environmental, intellectual property, tort, and other claims. Despite valid defenses that we assert, legal disputes are often costly, time-consuming, distracting to management, and disruptive to normal business operations. The uncertainty and expense associated with unresolved legal disputes might harm our business and reputation even if the matter ultimately is favorably resolved. The outcome of legal disputes is difficult to predict, and outcomes may occur that we believe are not justified by the evidence or existing law. Outcomes include monetary damages, penalties and fines, and injunctive or other relief that requires us to change our business operations and incur significant expense. Accordingly, legal disputes might have a materially adverse impact on our reputation, our business operations, and our financial position or results of operations.

We experience losses not covered by insurance or indemnification.

Our business exposes us to risks that are inherent in the distribution, manufacturing, dispensing, and administration of pharmaceuticals and medical-surgical supplies, the provision of ancillary services, the conduct of our payer businesses, practice support services, and the provision of products that assist clinical decision-making and relate to patient medical histories and treatment plans. For example, pharmacy operations are exposed to risks such as improper filling of prescriptions, mislabeling of prescriptions, inadequacy of warnings, unintentional distribution of counterfeit drugs, and expiration of drugs. Although we seek to maintain adequate insurance coverage, such as property insurance for inventory and professional and general liability insurance, coverages on acceptable terms might be unavailable, or coverages might not cover our losses. We generally seek to limit our contractual exposure, but limitations of liability or indemnity provisions in our contracts may not be enforceable or adequately protect us from liability. Uninsured or non-indemnified losses might have a materially adverse impact on our business operations and our financial position or results of operations.

We experience costly legal disputes, government actions, and adverse publicity regarding our role in distributing controlled substances such as opioids.

The Company is a defendant in many litigation matters alleging claims related to the distribution of controlled substances (opioids), as described in Financial Note 17, "Commitments and Contingent Liabilities," to the consolidated financial statements in this Annual Report. We are sometimes named as a defendant in similar, new cases. The plaintiffs in those cases include governmental entities (such as states, provinces, counties, and municipalities) as well as businesses, groups, and individuals. The cases allege violations of controlled substance laws and other laws, and they make common law claims such as negligence and public nuisance. Many of these cases raise novel theories of liability and can have unexpected outcomes that we believe are not justified by evidence or existing law. Legal proceedings such as these often involve significant expense, management time and distraction, and risk of loss that can be difficult to predict or quantify. It is not uncommon for claims to be resolved over many years. Outcomes include monetary damages, penalties and fines, and injunctive or other relief that requires us to change our business operations and incur significant expense. Although the Company has valid defenses and is vigorously defending itself, some proceedings have been and others may be resolved by negotiated outcome. For example, we are subject to consent decrees issued by state courts that govern our distribution of controlled substances. Not all proceedings, however, are resolved by settlement. Our reputation has been and may continue to be impacted by publicity regarding opioids litigation and related allegations. An adverse outcome of any such legal proceedings might have a materially adverse impact on our business operations and our financial position or results of operations.

We experience increased costs to distribute controlled substances such as opioids.

Legislative, regulatory, or industry measures related to the distribution of controlled substances such as prescription opioids could affect our business in ways that we may not be able to predict. For example, some states have passed legislation that could require us to pay taxes or assessments on the distribution of opioid medications in those states and other states have considered similar legislation. Liabilities for taxes or assessments or other costs of compliance under any such laws might have a materially adverse impact on our reputation, our business operations, and our financial position or results of operations.

We are subject to extensive, complex, and challenging healthcare, environmental, and other laws.

As described in "Government Regulation" in Item 1 of Part I above, our industry is highly regulated, and further regulation of our distribution businesses, technology products, and services could impose increased costs, negatively impact our profit margins and the profit margins of our customers, delay the introduction or implementation of our new products, or otherwise negatively impact our business and expose the Company to litigation and regulatory investigations. We incur cleanup costs under environmental laws and may incur additional costs under environmental laws. Additionally, we are subject to various routine and ad hoc inspections and requests for information by government agencies to determine compliance with various statutes and regulations. Any noncompliance by us with applicable laws or the failure to maintain, renew, or obtain necessary permits and licenses could lead to enforcement actions or litigation and might have a materially adverse impact on our business operations and our financial position or results of operations.

We are subject to extensive and frequently changing laws relating to healthcare fraud, waste, and abuse.

As described in "Government Regulation" in Item 1 of Part I above, federal, state, and local governmental entities in the U.S. and elsewhere continue to strengthen their position and scrutiny over practices that may indicate fraud, waste, and abuse affecting government healthcare programs such as Medicare and Medicaid. Those laws may be interpreted or applied in a manner that could require us to make changes in our operations at added expense. Failures to comply with those laws, including the federal Anti-Kickback Statute, might expose us to federal or state government investigations or qui tam actions, and to liability for damages and civil and criminal penalties. Such failures might result in the loss of licenses or our ability to participate in Medicare, Medicaid, or other federal and state healthcare programs, or pursue government contracts. These sanctions might have a materially adverse impact on our business operations and our financial position or results of operations.

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-5, you have marked "YES" to in section 2 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # 3. **Provide all the following *where applicable*:**

Provide explanation below:

On December 17, 2018, in response to the DEA Settlement, McKesson Corporation entered into a consent agreement with the Virginia Board of Pharmacy (the "Virginia Consent"). The Virginia Consent applies to the McKesson distribution center located in Livonia, Michigan. The Livonia facility's right to distribute controlled substances into Virginia was suspended until 1/17/2019. The suspension period imposed by Virginia aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

Provide explanation below:

On January 14, 2019, McKesson Corporation entered into a settlement for a payment of $10,000 on behalf of a now-closed facility in Connecticut. This settlement arose from the failure of employees of McKesson's contracted local delivery carrier to secure their vehicles when making deliveries within Connecticut. Importantly, there were never any reports of theft or loss based on this failure and McKesson's contract with the local delivery carrier specifically required security measures, including the securing of vehicles.

On February 27, 2019, in response to the DEA Settlement, McKesson Corporation entered into a consent agreement with the Wisconsin Pharmacy Examining Board (the "Wisconsin Consent"). Under the terms of the consent, the Livonia, Michigan facility was fined and the facility's right to distribute controlled substances into Wisconsin was suspended from 1/17/17 to 1/17/19. The Washington Court House, Ohio facility was fined and the facility's ability to distribute controlled substances into Wisconsin has been suspended effective 1/17/19 to 1/17/2021. The suspension period imposed by Wisconsin aligns with the federal DEA suspensions and with those imposed by other states that have taken reciprocal action based on the DEA Settlement.

On June 10, 2019, in response to the DEA Settlement, McKesson Corporation entered into a consent agreement with the Virginia Board of Pharmacy (the "WCH Virginia Consent"). The WCH Virginia Consent applies to the McKesson distribution center located in Washington Court House, Ohio. The facility's right to distribute controlled substances into Virginia has been suspended from June 10, 2019 to February 16, 2021. The WCH Virginia Consent originates from McKesson's report to Virginia of settlements that McKesson entered into with the DEA and Louisiana Board of Pharmacy.

Provide explanation below:

On March 24, 2022, McKesson Corporation and the California Board of Pharmacy (the "Board") entered into a settlement agreement which resolved allegations against McKesson relating to the sale of controlled substances in 2017 and 2018 to an outpatient hospital pharmacy that the pharmacy discovered were being stolen by a pharmacy employee. Pursuant to the settlement agreement, the Board publicly reproved McKesson's Santa Fe Springs distribution center permit, and McKesson agreed to pay the board's costs related to the investigation and enforcement of the matter. As set forth in the settlement agreement, McKesson denies any allegation that it violated California laws regarding the distribution of controlled substances and there are no findings of any violation of state or federal laws.

Provide explanation below:

On July 22, 2023, McKesson Corporation's Santa Fe Springs, CA distribution center entered into a Consent Order with the Alabama Board of Pharmacy. The Consent Order constitutes reciprocal disciplinary action that was based entirely on a February 22, 2022, Decision and Order from the California Board of Pharmacy. There were no new facts giving rise to the Alabama Consent. Your office was notified of the California Order on or about 03/25/2022. Pursuant to the terms of the Alabama Consent, McKesson agreed to pay a fine of $25,000.

BEFORE THE VIRGINIA BOARD OF PHARMACY

IN RE: **MCKESSON DRUG COMPANY**
Permit Number: 0219-000374
Case Number: 184655

CONSENT ORDER

JURISDICTION AND PROCEDURAL HISTORY

The Virginia Board of Pharmacy ("Board") and Scott Miller, authorized representative, McKesson Drug Company, as evidenced by their signatures hereto, in lieu of proceeding to an informal conference, enter into the following Consent Order affecting McKesson Drug Company's permit to operate as a non-resident wholesale distributor in the Commonwealth of Virginia.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

1. On January 19, 2000, the Board issued Permit Number 0219-000374 to McKesson Drug Company ("McKesson") to operate as a non-resident wholesale distributor in the Commonwealth of Virginia. Said permit is scheduled to expire on February 28, 2019. At all times relevant hereto, said permit was in full force and effect.

2. McKesson violated Virginia Code § 54.1-3316(8) in that on January 17, 2017, by settlement with the United States Drug Enforcement Administration ("DEA"), McKesson's authority to distribute controlled substances from its Livonia, Michigan, distribution center, DEA Certificate of Registration PM0030849, was suspended for a period of two years. Not included in this suspension was McKesson's authority to distribute, or operations involving, List I Chemical products at or from the Livonia, Michigan, distribution center, which are authorized under DEA registration number PM0030849. Also not included in this suspension was McKesson's authority to, at its option, continue to possess and distribute controlled substances to federal customers that purchase controlled substances

from McKesson's Livonia, Michigan distribution center under McKesson's exclusive contract with the U.S. Department of Veteran's Affairs.

3. McKesson violated Virginia Code § 54.1-3316(10) in that on October 17, 2017, by Consent Agreement, the Louisiana Board of Pharmacy suspended McKesson's Louisiana Controlled Dangerous Substance License for McKesson's Livonia, Michigan, distribution center from June 29, 2017 to January 17, 2019. Additionally, on March 14, 2018, by Consent Agreement, the Iowa Board of Pharmacy suspended McKesson's Controlled Substances Act Registration for McKesson's Livonia, Michigan, distribution center from March 14, 2018 to January 17, 2019. Actions by the Louisiana Board of Pharmacy and the Iowa Board of Pharmacy did not include the suspension of McKesson's authority to distribute, or operations involving, List I Chemical products at or from the Livonia, Michigan distribution center, which are authorized under DEA registration number PM0030849. These Actions also did not affect McKesson's authority to, at its option, continue to possess and distribute controlled substances to federal customers that purchase controlled substances from McKesson's Livonia, Michigan distribution center under McKesson's exclusive contract with the U.S. Department of Veteran's Affairs.

CONSENT

McKesson Drug Company, by affixing the signature of a representative hereon to this Order, agrees to the following:

1. McKesson has been advised to seek advice of counsel prior to signing this document and is represented by Roger Morris, Esq.;

2. McKesson is fully aware that without its consent, no legal action can be taken against it or its permit except pursuant to the Virginia Administrative Process Act, Virginia Code § 2.2-4000 *et seq.*;

3. McKesson acknowledges that it has the following rights, among others: the right to an informal fact-finding conference before the Board; and the right to representation by counsel;

4. McKesson waives its right to an informal conference;

5. McKesson admits to the Findings of Fact and Conclusions of Law contained herein and waives its right to contest such Findings of Fact and Conclusions of Law and any sanction imposed hereunder in any future judicial or administrative proceeding in which the Board is a party;

6. McKesson consents to the entry of the following Order affecting its right to operate as a non-resident wholesale distributor in the Commonwealth of Virginia.

ORDER

Based on the foregoing Findings of Fact and Conclusions of Law, the Virginia Board of Pharmacy hereby ORDERS as follows:

1. McKesson Drug Company shall not distribute Schedule II-V controlled substances from its Livonia, Michigan, distribution center into the Commonwealth of Virginia from the date of entry of this Order until January 17, 2019. This restriction shall not apply to or limit McKesson's authority to distribute, or operations involving, List I Chemical products at or from the Livonia, Michigan, distribution center, which are authorized under the DEA registration number PM0030849. This restriction also shall not apply to or limit McKesson's authority to, at its option, continue to possess and distribute controlled substances to federal customers that purchase controlled substances from McKesson's Livonia, Michigan distribution center under McKesson's exclusive contract with the U.S. Department of Veteran's Affairs.

2. McKesson Drug Company shall comply with all laws and regulations governing the practice of a non-resident wholesale distributor in the Commonwealth of Virginia.

3. Any violation of the foregoing terms and conditions of this Order or any statute or regulation governing the practice of a non-resident wholesale distributor shall constitute grounds for further disciplinary action.

Pursuant to Virginia Code §§ 2.2-4023 and 54.1-2400.2, the signed original of this Order shall remain in the custody of the Department of Health Professions as a public record, and shall be made available for public inspection and copying upon request.

McKesson Corporation		2018-143
		2018-731

Settlement Agreement Concerning

Wholesaler / Distributor of Drugs License of McKesson Corporation

This Settlement Agreement Concerning Wholesaler / Distributor of Drugs License of McKesson Corporation ("Settlement Agreement") is entered into by the duly authorized representative for McKesson Corporation ("Licensee") and the Commissioner of the Department of Consumer Protection ("Commissioner") in accordance with Sections 4-177(c), 21a-8 and 21a-70 of the Connecticut General Statutes.

PARAGRAPH ONE: Licensee is the holder of Connecticut Wholesaler / Distributor of Drugs License No. CSW 369 for a distribution center located at 280 Dividend Road, Rocky Hill, Connecticut.

PARAGRAPH TWO: The Department of Consumer Protection's Drug Control Division ("Department") has conducted an investigation and alleges the following violations committed from in or around May 2016 to January 2018:

1. Licensee is subject to an enforcement action, in particular suspension, revocation, probation or refusal to renew their registration for a violation of provisions of federal or state statutes or regulations concerning drugs in accordance with Section 21a-70(d)(5) of the Connecticut General Statutes;
2. Licensee, through its contracted carrier, failed to operate in compliance with applicable federal state and local statutes, regulations and ordinances, including any applicable laws concerning controlled substances, drug product salvaging or reprocessing in violation of Section 21a-70(e) of the Connecticut General Statutes;

3. Licensee, through its contracted carrier, failed to provide adequate control against the diversion, theft, and loss of drugs in violation of Section 21a-70(d)(4) of the Connecticut General Statutes and Sections 21a-262-4(c) and 21a-262-2(b) of the Regulations of Connecticut State Agencies; and
4. Licensee, through its contracted carrier, failed to maintain all equipment used for storage of controlled substances securely locked except for the actual time required to remove or replace needed items in violation of Sections 21a-262-4(c) and 21a-262-2(c) of the Regulations of Connecticut State Agencies.

PARAGRAPH THREE: In lieu of a hearing and without making any admission of guilt, Licensee has:

1. Provided the Department with its policies and procedures for training their delivery drivers and securing their delivery vehicles and the drugs contained therein; and
2. Participated in a Department training on May 9, 2018 regarding policies and procedures, best practices and Connecticut laws for Licensee's delivery drivers and securing delivery vehicles and the drugs contained therein.

PARAGRAPH FOUR: In lieu of a hearing and without making any admission of guilt, Licensee agrees to:

1. Maintain all records generated pursuant to the terms of this Settlement Agreement and have said records readily available for inspection by the Department, understanding that due to the closure of Licensee's distribution center in September 2018 that all records have been transferred to a New York distribution center; and

2. Pay a civil penalty of Ten Thousand Dollars ($10,000.00). This civil penalty shall be made payable to "Treasurer, State of Connecticut" and be deposited into the Consumer Protection Enforcement Fund (Account #35125) in accordance with Connecticut General Statutes, Section 21a-8a.

PARAGRAPH FIVE: Licensee agrees to waive:

1. any right to seek judicial review or otherwise challenge or contest the validity of this Settlement Agreement;
2. any requirement that this Settlement Agreement contain findings of fact and conclusions of law; and
3. any right to a hearing or other procedural requirements of the Uniform Administrative Procedure Act, Connecticut General Statutes, Section 4-166 et seq.

PARAGRAPH SIX: This Settlement Agreement is a revocable offer of settlement that may be modified by mutual agreement or withdrawn by the Department at any time prior to its being executed and shall not become binding unless and until it is accepted and approved by the Commissioner of the Department.

STATE OF WISCONSIN
BEFORE THE PHARMACY EXAMINING BOARD

IN THE MATTER OF DISCIPLINARY PROCEEDINGS AGAINST MCKESSON DRUG COMPANY, RESPONDENT.	:	FINAL DECISION AND ORDER 000083

Division of Legal Services and Compliance Case No. 17 PHM 014

The parties to this action for the purpose of Wis. Stat. § 227.53 are:

McKesson Drug Company
38220 Plymouth Road
Livonia, MI 48150

Wisconsin Pharmacy Examining Board
P.O. Box 8366
Madison, WI 53708-8366

Division of Legal Services and Compliance
Department of Safety and Professional Services
P.O. Box 7190
Madison, WI 53707-7190

The parties in this matter agree to the terms and conditions of the attached Stipulation as the final disposition of this matter, subject to the approval of the Pharmacy Examining Board ("Board"). The Board has reviewed this Stipulation and considers it acceptable.

Accordingly, the Board in this matter adopts the attached Stipulation and makes the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

1. Respondent, McKesson Drug Company, is licensed in the state of Wisconsin as a wholesale distributor of prescription drugs, having license number 2228-45, first issued on May 29, 2009, and current through May 31, 2020 (This wholesale distribution license, through its owner, McKesson Drug Company, is hereinafter referred to as "Respondent"). Respondent's most recent address on file with the Wisconsin Department of Safety and Professional Services ("Department") is 38220 Plymouth Road, Livonia, Michigan 48150.

2. At all times relevant to this proceeding, Respondent was a wholesale distributor of prescription drugs, located in Livonia, Michigan.

3. In 2008, McKesson Corporation ("McKesson") entered into a Settlement and Release Agreement and an Administrative Memorandum of Agreement with the United States Department of Justice, Drug Enforcement Administration ("DEA") ("the 2008 Agreement"). The 2008 Agreement arose out of, among other things, allegations regarding McKesson's failure to report suspicious orders of controlled substances, as required by 21 C.F.R. § 1301.74(b) and 21 U.S.C. § 842(a)(5). As part of the 2008 Agreement, McKesson paid a $13.25 million civil penalty and created a Controlled Substance Monitoring Program ("CSMP").

4. On January 17, 2017, Respondent self-reported to the Board that McKesson entered into a Settlement Agreement and Release and an Administrative Memorandum of Agreement with the DEA ("the 2017 Agreement"), based on allegations that McKesson, including Respondent, had failed to adequately monitor and or report suspicious orders of controlled substances.

5. In the 2017 Agreement, the DEA alleged the following:

   a. McKesson failed to properly monitor its sales of controlled substances, including:

      i. failure to follow the procedures and polices set forth in the CSMP;
      ii. failure to conduct adequate due diligence of its customers;
      iii. failure to keep complete and accurate records in the CSMP files maintained for many of its customers;
      iv. bypassing suspicious order reporting procedures set forth in the CSMP; and
      v. failure to report suspicious orders—including orders of unusual size, orders deviating substantially from normal patterns, and orders of unusual frequency.

   b. Certain McKesson distribution centers distributed controlled substances to pharmacies even though those distribution centers should have known that the pharmacists practicing at those pharmacies had failed to fulfill their corresponding responsibility to ensure that the controlled substances were dispensed pursuant to prescriptions issued for legitimate medical purposes.

   c. McKesson violated the 2008 Agreement and federal law.

6. The DEA's allegations were limited to certain of McKesson's distribution centers, including Respondent.

7. The DEA's allegations were also against the following distribution centers licensed in Wisconsin: Aurora, Illinois (License No. 2230-45, Current, Active from June 3, 2009 to May 31, 2020); West Sacramento, California (License No. 1366-45, Current, Active from February 13, 2002 to May 31, 2020); LaCrosse, Wisconsin (License No. 868-45, Not Current, Active from November 12, 1996 to May 31, 2018); LaVista, Nebraska (License No. 2572-45, Not Current, Active from November 11, 2013 to May 31, 2018). The DEA took no action against these facilities and these distribution centers are not subject to this Final Decision and Order.

8. Pursuant to the 2017 Agreement, McKesson acknowledged that, at various times from January 1, 2009, through January 17, 2017, it did not identify or report to the DEA certain orders placed by certain pharmacies which McKesson should have detected as suspicious in a manner fully consistent with the requirements set forth in the 2008 Agreement.

9. The 2017 Agreement required McKesson to pay a settlement payment of $150 million and provided for a time-limited suspension of the DEA Certification of Registrations of four (4) of McKesson's distribution centers, including Respondent.

10. The suspension included an exception that permits, but does not require, Respondent, during the period of suspension, to continue to distribute controlled substances to federal customers that purchase controlled substances from Respondent under McKesson's exclusive contract with the United States Department of Veteran Affairs. The suspensions also do not apply or limit McKesson's authority to distribute, or operations involving, List 1 Chemical products from any of its distribution centers.

11. Respondent neither admits nor denies wrong-doing. In resolution of this matter, and to avoid the expense and uncertainty of litigation, Respondent consents to the entry of the following Conclusions of Law and Order.

CONCLUSIONS OF LAW

1. The Wisconsin Pharmacy Examining Board has jurisdiction to act in this matter pursuant to Wis. Stat. § 450.10(1), and is authorized to enter into the attached Stipulation pursuant to Wis. Stat. § 227.44(5).

2. By the conduct described in the Findings of Fact, Respondent, license no. 2228-45, engaged in unprofessional conduct as defined by Wis. Admin. Code § Phar 10.03(17), by having been subject to disciplinary action by another licensing authority.

3. As a result of the above violations, Respondent, license no. 2228-45, is subject to discipline pursuant to Wis. Stat. § 450.10(1)(b)1.

4. Pursuant to Wis. Stat. § 450.10(2), in addition to a limitation or suspension, the Board may, for violations of Wis. Stat. § 450.10(1), assess a forfeiture of not more than $1,000.00 for each separate offense, with each day of violation constituting a separate offense.

ORDER

1. The attached Stipulation is accepted.

2. Except as provided in paragraph 3 of this Order, the ability to distribute controlled substances under the license to practice as a wholesale distributor of prescription drugs in the state of Wisconsin issued to Respondent, license no. 2228-45, is SUSPENDED for a period of two (2) years, effective from January 17, 2017, to January 17, 2019, or for the same effective dates as the suspension of the DEA Certificate of Registration for this distribution center under the 2017 Agreement. The suspension will terminate

automatically on either January 17, 2019, or upon the date the suspension of the DEA Certificate of Registration for this facility terminates. In the event that Respondent's DEA Certificate of Registration will remain suspended beyond January 17, 2019, Respondent shall notify the Board prior to January 17, 2019, of the continued suspension of its DEA Certificate of Registration and the date that the suspension of its DEA Certification of Registration will terminate.

3. This suspension shall not apply to or limit Respondent's authority to distribute, or Respondent's operations involving, List 1 chemical products at or from Respondent which are authorized under Respondent's DEA Certificate of Registration. Respondent is permitted, at its option, to possess and distribute controlled substances to federal customers under McKesson's exclusive contract with the United States Department of Veterans Affairs.

4. The license to practice as a wholesale distributor of prescription drugs in the state of Wisconsin, issued to Respondent, license no. 2228-45, is further LIMITED to require Respondent to fully comply with Administrative Memorandum of Agreement and any amendments or modifications thereto, entered into by Respondent and the United States Department of Justice, Drug Enforcement Administration and effective on January 17, 2017.

5. Within one-hundred and twenty (120) days from the date of this Order, Respondent, license no. 2228-45, shall pay a FORFEITURE in the amount of fifty thousand dollars ($50,000.00).

6. Within one-hundred and twenty (120) days from the date of this Order, Respondent, license no. 2228-45, shall pay costs in the amount of $1,959.00.

7. Any payments, requests, petitions, reports, and other information required by this Order may be mailed, faxed, or emailed to:

Department Monitor
Division of Legal Services and Compliance
Department of Safety and Professional Services
P.O. Box 7190, Madison, WI 53707-7190
Telephone (608) 267-3817; Fax (608) 266-2264
DSPSMonitoring@wisconsin.gov

You may also submit this information online via DSPS' Monitoring Case Management System, here:

https://app.wi.gov/DSPSMonitoring

8. In the event that Respondent violates any term of this Order, Respondent's license, license no. 2228-45, to practice as a wholesale distributor in the state of Wisconsin may, in the discretion of the Board or its designee, be SUSPENDED, without further notice or hearing, until Respondent has complied with the terms of this Order. The Board may, in addition

and/or in the alternative, refer any violation of this Order to the Division of Legal Services and Compliance for further investigation and action.

9. This Order is effective on the date of its signing.

WISCONSIN PHARMACY EXAMINING BOARD

by: _____ 2/25/2013
A Member of the Board Date

STATE OF WISCONSIN
BEFORE THE PHARMACY EXAMINING BOARD

IN THE MATTER OF DISCIPLINARY PROCEEDINGS AGAINST	:	
MCKESSON DRUG COMPANY, RESPONDENT.	:	STIPULATION
	:	0006083

Division of Legal Services and Compliance Case No. 17 PHM 014

Respondent McKesson Drug Company, license no. 2228-45, and the Division of Legal Services and Compliance, Department of Safety and Professional Services stipulate as follows:

1. This Stipulation is entered into as a result of a pending investigation by the Division of Legal Services and Compliance. Respondent consents to the resolution of this investigation by Stipulation.

2. Respondent understands that by signing this Stipulation, Respondent voluntarily and knowingly waives the following rights:

- the right to a hearing on the allegations against Respondent, at which time the State has the burden of proving those allegations by a preponderance of the evidence;
- the right to confront and cross-examine the witnesses against Respondent;
- the right to call witnesses on Respondent's behalf and to compel their attendance by subpoena;
- the right to testify on Respondent's own behalf;
- the right to file objections to any proposed decision and to present briefs or oral arguments to the officials who are to render the final decision;
- the right to petition for rehearing; and
- all other applicable rights afforded to Respondent under the United States Constitution, the Wisconsin Constitution, the Wisconsin Statutes, the Wisconsin Administrative Code, and other provisions of state or federal law.

3. Respondent is aware of Respondent's right to seek legal representation and has been provided an opportunity to obtain legal counsel before signing this Stipulation. Respondent is represented by Attorneys Roger N. Morris and Susan Brichler Trujillo.

4. Respondent agrees to the adoption of the attached Final Decision and Order by the Wisconsin Pharmacy Examining Board ("Board"). The parties to the Stipulation consent to the entry of the attached Final Decision and Order without further notice, pleading, appearance or consent of the parties. Respondent waives all rights to any appeal of the Board's order, if adopted in the form as attached.

5. If the terms of this Stipulation are not acceptable to the Board, the parties shall not be bound by the contents of this Stipulation, and the matter shall then be returned to the Division of Legal Services and Compliance for further proceedings. In the event that the Stipulation is not accepted by the Board, the parties agree not to contend that the Board has been prejudiced or biased in any manner by the consideration of this attempted resolution.

6. The parties to this Stipulation agree that the attorney or other agent for the Division of Legal Services and Compliance and any member of the Board ever assigned as an advisor in this investigation may appear before the Board in open or closed session, without the presence of Respondent or Respondent's attorney, for purposes of speaking in support of this agreement and answering questions that any member of the Board may have in connection with deliberations on the Stipulation. Additionally, any such advisor may vote on whether the Board should accept this Stipulation and issue the attached Final Decision and Order.

7. Respondent is informed that should the Board adopt this Stipulation, the Board's Final Decision and Order is a public record and will be published in accordance with standard Department procedure.

8. The Division of Legal Services and Compliance joins Respondent in recommending the Board adopt this Stipulation and issue the attached Final Decision and Order.

BEFORE THE BOARD OF PHARMACY
OF THE STATE OF NEW MEXICO

IN THE MATTER OF:

Case No. 2018-047

McKESSON CORPORATION,
CS 19948,

Respondent.

STIPULATED AGREEMENT

The New Mexico Board of Pharmacy ("Board") received self-reports from McKesson Corporation ("Respondent") which stated that Respondent entered into a settlement agreement with the U.S. Department of Justice ("DOJ") on or about January 17, 2017 (the "Settlement Agreement"). The Settlement Agreement suspended the registration for the Respondent's Washington Court House Ohio location for two (2) years, effective from February 16, 2019 to February 16, 2021. The Respondent also self-reported disciplinary actions imposed by other state boards.

In lieu of instituting formal proceedings against Respondent, and in accordance with the New Mexico Controlled Substances Act, NMSA 1978 Sections 30-31-1 to -41, the New Mexico Uniform Licensing Act ("ULA"), NMSA 1978 Sections 61-1-1 to -34, and the New Mexico Pharmacy Act, NMSA 1978 Sections 61-11-1 to -29, the Board and the Respondent have agreed to resolve this matter as outlined in this Stipulated Agreement.

Findings of Fact

1. Respondent was issued a controlled substance registration and is authorized to distribute and operate in New Mexico under CS 19948. The Respondent's permit is active and will expire on January 31, 2020.

2. The Respondent is located in Washington Court House Ohio and distributes prescription drugs, including controlled drug substances into New Mexico.
3. On or about January 17, 2017, the Respondent entered into a Settlement Agreement with the DOJ based on the DOJ's allegations that McKesson failed to properly monitor its sales of controlled substances; failed to conduct adequate due diligence and keep accurate records of its sales; failed to maintain effective controls against diversion of particular controlled substances into channels other than legitimate medical, scientific and industrial channels; and failed to report suspicious orders of controlled substances to the U.S. Drug Enforcement Administration ("DEA").
4. Twelve (12) McKesson distribution centers were referenced in the Settlement Agreement, including the distribution center located in Washington Court House, Ohio.
5. Under the terms of the Settlement Agreement, the DEA registrations issued to the Aurora, Livonia, and Washington Court House distribution centers were suspended for certain periods of time on a staggered basis. Specifically, the DEA registration issued to the Respondent Washington Court House distribution center is suspended from February 16, 2019 to February 16, 2021, with the exceptions that the Respondent may possess and distribute controlled substances to federal customers which purchase controlled substances from the Respondent under the exclusive contract with the U.S. Department of Veteran's Affairs ("VA"). In addition, the suspension does not apply to or limit Respondent's authority to distribute or operations involving, List 1 Chemical products at or from Respondent's Washington Court House distribution center.
6. The Board was also notified that the following state boards of pharmacy took action that mirrors the restrictions imposed by the Settlement Agreement: Idaho Board of Pharmacy,

Louisiana Board of Pharmacy, New Hampshire Board of Pharmacy, Iowa Board of Pharmacy, Maryland Board of Pharmacy, Utah Board of Pharmacy, Oregon Board of Pharmacy and the Wisconsin Board of Pharmacy.

7. Respondent admits that the Board has jurisdiction over the Respondent and the subject matter herein.
8. Respondent acknowledges that if the allegations in the Findings of Fact were proven in a contested hearing, it would constitute grounds for disciplinary action, including suspension or revocation, of Respondent's controlled substance registration.
9. Respondent enters into this Agreement voluntarily and waives Respondent's right to have these matters heard in the manner described in the ULA, including the right to a full evidentiary hearing, and the right to appeal any decision of the board following such hearing.
10. Respondent also waives any and all time limitations set forth in the ULA, including all rights to have this matter heard within the time frame established in the ULA.
11. Respondent waives Respondent's right to assert a claim of bias or move to excuse any Board member based on the Board member's consideration of this agreement.
12. Upon execution of this Agreement, Respondent releases the Board from any and all claims potentially arising out of the Board's decision to take the actions described herein.
13. Respondent's waiver of these rights is made knowingly, intentionally, and voluntarily.
14. Respondent affirmatively states that Respondent has read this entire document and understands Respondent's responsibilities and duties in reference to this Agreement. Respondent agrees and stipulates to all of the terms of this agreement. Respondent knowingly, intentionally and voluntarily enters into and executes this Agreement and

affirms that no promises or representations have been made other than the terms and conditions expressly stated herein.

It is hereby **ORDERED** that:

A. The Respondent, McKesson Corporation, CS#19948, shall be prohibited from distributing controlled substances into New Mexico effective from the date of this order to February 16, 2021. If the effective suspension dates in the Settlement Agreement referenced herein for the Washington Court House distribution center are changed, the Respondent shall immediately notify the Board of such change and the change will automatically be incorporated into this Stipulated Agreement without the need for further Board action or approval;

B. The above prohibition does not apply to or limit the Respondent's authority to distribute, or operations involving, List I Chemical Products at or from the Respondent that are authorized under the Respondent's DEA registration and the Settlement Agreement. The Respondent is also permitted, at its option, to possess and distribute controlled substances to federal customers that purchase controlled substances from the Respondent under an exclusive contract with the VA;

C. The Respondent shall comply with all laws and regulations governing the operation of a wholesale distributor in New Mexico, which includes federal and State laws governing the proper handling and distribution of controlled dangerous substances; and

D. Failure to abide by these terms shall be grounds for summary suspension of Respondent's controlled substance registration.

E. This agreement will be included in Respondent's licensing file and is a public record open to inspection by the public.

F. This agreement constitutes disciplinary action against the Respondent by the Board and is reportable to the Healthcare Integrity and Protection Data Bank.

G. This agreement is effective as of the date it is signed by the Board Chair or his designee.

SO ORDERED on this 10th day of ~~April~~ May, 2019.

CONSENT ORDER

THIS MATTER comes before the Alabama State Board of Pharmacy (hereinafter referred to as the "Board") on a complaint against McKesson Corporation d/b/a McKesson Drug Company, McKesson Drug Company, McKesson Drug Co. and McKesson Corporation (hereinafter referred to collectively as "McKesson") which resulted in the filing of a Statement of Charges and Notice of Hearing ("Statement"), alleging violations of the Alabama Pharmacy Practice Act. These allegations with particularity are set out in the Statement which is attached hereto as **Exhibit "A."**

Pursuant to Code of Alabama (1975) Section 41-22-12(f) the parties through counsel have agreed to informally resolve this matter by the entry of this Consent Order, the terms of which are as follows:

1. The parties stipulate that McKesson denies the allegations of the Statement. The Board finds that McKesson permit numbers 192158, 191852, and 193420 violated the applicable provisions based upon the conduct set out in each and every Count of the Statement. The charges against permit number 192010 shall be dismissed with prejudice.

2. McKesson shall pay to the Board an administrative fine in the amount of Fifteen Thousand dollars ($15,000.00) as to each applicable permit (192158, 191852 and 193420) within thirty (30) days of the effective date of this Order which is the date it is executed on behalf of the Board. This obligation of payment to the Board shall not be dischargeable in bankruptcy and McKesson shall not attempt to discharge the same in any bankruptcy proceeding.

3. That McKesson expressly waives its rights pursuant to the Alabama Pharmacy Practice Act, the Alabama Administrative Procedures Act and the Alabama Uniform Controlled Substances Act, including but not limited to the Code of Alabama (1975), §34-23-34 and §34-23-92(12), Code of Alabama (1975), §41-22-12 and §40-22-20 and Code of Alabama (1975), § 20-2-50 et seq., and including but not limited to the opportunity for a hearing before the Board in connection with any charges against it and any judicial review. McKesson further waives any objection to the attorney for the Board preparing, drafting or making this Order, including the waiver of any objection or right pursuant to Code of Alabama (1975), §41-22-18.

4. By execution of this Consent Order, McKesson hereby releases the Board, its members, agents, representatives, servants and employees from any and all liability, claims, damages, fees or expenses arising out of or made in connection with the matters relating to this Consent Order and Statement.

5. That McKesson agrees that any further violation of the Alabama Pharmacy Practice Act, the rules and regulations of the Alabama State Board of Pharmacy or any other applicable laws may, upon proof and hearing thereof, result in further disciplinary sanctions against its license.

6. That McKesson acknowledges, stipulates and agrees that it has read this Consent Order and that it fully understands the terms, conditions and contents of the same. McKesson acknowledges, stipulates and agrees that it voluntarily and of its own free will accepts the terms and conditions set out in this Consent Order and is executing this Consent Order freely and voluntarily without coercion, duress, or threats or pursuant to any promises and on the advice of its attorney.

Pursuant to the provisions of Code of Alabama (1975), § 34-23-32, § 34-23-32.1, § 34-23-34, § 34-23-92(11) and (12) and Code of Alabama (1975), § 41-22-12, you are hereby notified and requested to appear before the Alabama State Board of Pharmacy (hereinafter referred to as the "Board") on June 21st, 2018 at 8:00 a.m., at the State Board of Pharmacy Conference Room, 111 Village Street, Birmingham, Alabama 35242, and from time to time thereafter as may be required by the Board for the purpose of a hearing to determine why the permit to operate McKesson Corporation d/b/a McKesson Drug Company, McKesson Drug Company, McKesson Drug Co., and McKesson Corporation (hereinafter referred to collectively as "McKesson") as a Wholesale Distributor should not be revoked, suspended or placed on probation or a monetary penalty imposed and/or a renewal of the same should be granted in that it is alleged that McKesson has been guilty of the following, to-wit:

1. Board Rule 680-X-2.23 is entitled Drug Manufacturers, Wholesale Distributors.

2. Board Rule 680-X-2.23(3) provides that the Board of Pharmacy shall consider, at a minimum, certain factors in reviewing the qualifications of those who engage in the wholesale distribution of drugs within Alabama. Those minimum factors include:

(a) Compliance with licensing requirements under previously granted license, if any.

(b) Compliance with the requirements to maintain records required to

be maintained.

(c) Any other factors or qualifications the Board of Pharmacy considers relevant to and consistent with public health and safety.

3. Board Rule 680-X-2.23(3)(k)(1) provides that it shall be a violation of this Rule to operate in such a manner as to endanger public health.

4. Board Rule 680-X-2.23(3)(k)(2) provides any violation of this Rule may be grounds for the revocation, suspension, probation or refusal to issue the permit and/or to impose a fine not to exceed the sum of One Thousand and no/100 Dollars ($1,000) for each violation.

5. Board Rule 680-X-2.23(3)(k)(3) provides that must operate in compliance with applicable Federal and State law.

COUNT ONE

As to Permit No. 191258, based upon the (a) Settlement Agreement and Release by and between the United States of America acting through the United States Department of Justice and the Drug Enforcement Administration (USA) and McKesson Corporation (McKesson) entered in or about December 2016, and/or January 2017, including but not limited to the Covered Conduct (III), Acceptance of Responsibility (IV) and/or the payment by McKesson on One Hundred Fifty Million Dollars ($150,000,000.00) the (b) Administrative Memorandum of Agreement by and between the United States Department of Justice, Drug Enforcement Administration (DEA) and McKesson Corporation as required as a term of the Settlement referenced above, these documents being attached hereto and made a part hereof as Exhibits "A" and "B".

The Board alleges that each and every instance of the deficiencies or failures

and/or the failure to comply with the applicable statutes or Rules as set out in the above is a separate and distinct violation.

COUNT TWO

As to Permit No. 193420, based upon the (a) Settlement Agreement and Release by and between the United States of America acting through the United States Department of Justice and the Drug Enforcement Administration (USA) and McKesson Corporation (McKesson) entered in or about December 2016, and/or January 2017, including but not limited to the Covered Conduct (III), Acceptance of Responsibility (IV) and/or the payment by McKesson on One Hundred Fifty Million Dollars ($150,000,000.00) the (b) Administrative Memorandum of Agreement by and between the United States Department of Justice, Drug Enforcement Administration (DEA) and McKesson Corporation as required as a term of the Settlement referenced above, these documents being attached hereto and made a part hereof as Exhibits "A" and "B".

The Board alleges that each and every instance of the deficiencies or failures and/or the failure to comply with the applicable statutes or Rules as set out in the above is a separate and distinct violation.

COUNT THREE

As to Permit No. 192010, based upon the (a) Settlement Agreement and Release by and between the United States of America acting through the United States Department of Justice and the Drug Enforcement Administration (USA) and McKesson Corporation (McKesson) entered in or about December 2016, and/or January 2017, including but not limited to the Covered Conduct (III), Acceptance of Responsibility (IV) and/or the payment by McKesson on One Hundred Fifty Million Dollars

($150,000,000.00) the (b) Administrative Memorandum of Agreement by and between the United States Department of Justice, Drug Enforcement Administration (DEA) and McKesson Corporation as required as a term of the Settlement referenced above, these documents being attached hereto and made a part hereof as Exhibits "A" and "B".

The Board alleges that each and every instance of the deficiencies or failures and/or the failure to comply with the applicable statutes or Rules as set out in the above is a separate and distinct violation.

COUNT FOUR

As to Permit No. 191852, based upon the (a) Settlement Agreement and Release by and between the United States of America acting through the United States Department of Justice and the Drug Enforcement Administration (USA) and McKesson Corporation (McKesson) entered in or about December 2016, and/or January 2017, including but not limited to the Covered Conduct (III), Acceptance of Responsibility (IV) and/or the payment by McKesson on One Hundred Fifty Million Dollars ($150,000,000.00) the (b) Administrative Memorandum of Agreement by and between the United States Department of Justice, Drug Enforcement Administration (DEA) and McKesson Corporation as required as a term of the Settlement referenced above, these documents being attached hereto and made a part hereof as Exhibits "A" and "B".

The Board alleges that each and every instance of the deficiencies or failures and/or the failure to comply with the applicable statutes or Rules as set out in the above is a separate and distinct violation.

At the aforesaid time and place and from time to time thereafter as may be directed by the Board, you may be represented by an attorney, if you so desire, cross-

examine all witnesses who testify against you and present such evidence in your own behalf in response to these charges as you consider necessary and appropriate.

Dated this the 16th day of February, 2018.

ALABAMA STATE BOARD OF PHARMACY

By: Susan Alverson
Secretary

EXHIBIT A

SETTLEMENT AGREEMENT AND RELEASE

I. PARTIES

This Settlement Agreement and Release ("Settlement Agreement" or "Agreement") is entered into between the United States of America, acting through the United States Department of Justice ("DOJ"),[1] and on behalf of the Drug Enforcement Administration ("DEA") (collectively referred to herein as the "United States"), and McKesson Corporation ("McKesson").

II. RECITALS

A. McKesson is a corporation organized and existing under the laws of the State of Delaware. McKesson's corporate headquarters and principal place of business is located at One Post Street, San Francisco, California.

B. McKesson is a wholesale distributor of pharmaceuticals, including controlled substances and non-controlled prescription medications. McKesson distributes pharmaceuticals through a network of distribution centers located throughout the United States, including distribution centers located in the following areas: Aurora, Colorado; Aurora, Illinois; Delran, New Jersey; La Crosse, Wisconsin; Lakeland, Florida; Livonia, Michigan; Methuen, Massachusetts; Santa Fe Springs, California; Washington Courthouse, Ohio; and West Sacramento, California. McKesson formerly distributed pharmaceuticals through a distribution center located in Landover, Maryland, which closed in January 2012 (the "Landover Distribution Center"), and in La Vista, Nebraska, which closed in October 2016. A list of all McKesson U.S. Pharmaceutical distribution

[1] The Department of Justice is represented by the following 12 U.S. Attorney's Offices: Central District of California; Eastern District of California; District of Colorado; Middle District of Florida; Eastern District of Kentucky; Northern District of Illinois; District of Massachusetts; Eastern District of Michigan; District of Nebraska; District of New Jersey; Northern District of West Virginia; and Western District of Wisconsin.

centers that hold a DEA Certificate of Registration as of the Effective Date of this Agreement is attached hereto as Appendix A. Collectively, the distribution centers listed in Appendix A and the Landover Distribution Center are referred to herein as the "McKesson Distribution Centers."

C. At times relevant to this Agreement, the McKesson Distribution Centers were required to operate in accordance with the statutory provisions of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. §§ 801 *et seq.* (the "CSA" or the "Act"), and the regulations promulgated thereunder, 21 C.F.R. Part 1300 *et seq.*

D. The DEA is the DOJ component agency primarily responsible for administering the CSA and the regulations promulgated thereunder, and is vested with the responsibility of investigating CSA violations.

E. The Attorney General, through the United States Attorneys, has primary authority to bring civil actions to enforce the CSA and the regulations promulgated thereunder. *See* 21 U.S.C. § 871 and 28 C.F.R. § 0.55(c).

F. The regulations promulgated under the CSA include a requirement to design and operate a system to detect and report "suspicious orders" for controlled substances, as that term is defined in the regulation. *See* 21 C.F.R. § 1301.74(b).

G. The CSA authorizes the imposition of a civil penalty of up to $10,000 for each violation of 21 C.F.R. § 1301.74(b). *See* 21 U.S.C. §§ 842(a)(5) and (c)(1)(B).

III. COVERED CONDUCT

The United States contends that it has certain civil claims against McKesson under 21 U.S.C. §§ 821, 823, 827, and 842(a)(5) for engaging in the following conduct (the "Covered Conduct") from January 1, 2009, through the Effective Date as that term is defined in Section

VI(F) (the "Covered Time Period"):

A. McKesson failed to maintain effective controls against diversion of particular controlled substances into other than legitimate medical, scientific, and industrial channels by sales to certain of its customers in violation of the CSA and the CSA's implementing regulations at McKesson Distribution Centers, including the following specific centers:

Aurora, Colorado;
Aurora, Illinois;
Delran, New Jersey;
La Crosse, Wisconsin;
Lakeland, Florida;
Landover, Maryland;
La Vista, Nebraska;
Livonia, Michigan;
Methuen, Massachusetts;
Santa Fe Springs, California;
Washington Courthouse, Ohio; and
West Sacramento, California.

B. In 2008, McKesson entered into a settlement agreement with the DOJ and a Memorandum of Agreement with the DEA (collectively referred to herein as the "2008 Agreements") arising out of, among other things, McKesson's failure to report suspicious orders of controlled substances to the DEA when discovered, as required by and in violation of 21 C.F.R. § 1301.74(b) and 21 U.S.C. § 842(a)(5). As a result of the 2008 Agreements, McKesson developed a Controlled Substance Monitoring Program ("CSMP") in which McKesson recognized that it had a duty to monitor its sales of all controlled substances and report suspicious orders to the DEA. McKesson failed to properly monitor its sales of controlled substances and/or report suspicious orders to the DEA, in accordance with McKesson's obligations under the 2008 Agreements, the CSA, and 21 C.F.R. § 1301.74(b).

C. McKesson failed to follow the procedures and policies set forth in the McKesson

CSMP to detect and disclose suspicious orders of controlled substances. Among other things, McKesson failed to conduct adequate due diligence of its customers, failed to keep complete and accurate records in the CSMP files maintained for many of its customers, and bypassed suspicious order reporting procedures set forth in the McKesson CSMP.

D. In addition, McKesson failed to inform the DEA Field Division Offices and/or DEA Headquarters of suspicious orders of controlled substances made by its customers during the Covered Time Period, including orders of unusual size, orders deviating substantially from normal patterns, and orders of unusual frequency, as required by and in violation of 21 C.F.R. §1301.74(b), 21 U.S.C. § 842(a)(5), and the 2008 Agreements.

E. McKesson failed to report suspicious orders for controlled substances in accordance with the standards identified and outlined by the DEA in three letters from the DEA's Deputy Assistant Administrator, Office of Diversion Control sent to every registered manufacturer and distributor, including McKesson, on September 27, 2006, February 7, 2007, and December 27, 2007.

F. Certain McKesson Distribution Centers distributed controlled substances to pharmacies even though those Distribution Centers should have known that the pharmacists practicing within those pharmacies had failed to fulfill their corresponding responsibility to ensure that controlled substances were dispensed pursuant to prescriptions issued for legitimate medical purposes by practitioners acting in the usual course of their professional practice, as required by 21 C.F.R § 1306.04(a).

IV. ACCEPTANCE OF RESPONSIBILITY

A. On or about September 27, 2006, February 7, 2007, and December 27, 2007, DEA's

Deputy Assistant Administrator, Office of Diversion Control, sent letters to every entity in the United States that was registered with DEA to manufacture or distribute controlled substances, including McKesson (the "DEA Letters"). The DEA Letters contained, among other things, guidance for the identification and reporting of suspicious orders to DEA, as required by 21 C.F.R. § 1301.74(b). McKesson acknowledges that, at various times during the Covered Time Period, it did not identify or report to DEA certain orders placed by certain pharmacies which should have been detected by McKesson as suspicious based on the guidance contained in the DEA Letters about the requirements set forth in 21 C.F.R. § 1301.74(b) and 21 U.S.C. § 842(a)(5). McKesson has taken steps to prevent such conduct from occurring in the future, including the measures delineated in the Compliance Addendum. The Compliance Addendum is an attachment to the Administrative Memorandum of Agreement (the "2017 MOA") entered into by McKesson and DEA contemporaneously with this Agreement. The Compliance Addendum and the 2017 MOA are attached hereto as Appendix B.

B. On or about May 2, 2008, DEA and McKesson entered into an Administrative Memorandum of Agreement (the "2008 MOA"). The 2008 MOA provided, among other things, that McKesson maintain a compliance program designed to detect and prevent the diversion of controlled substances, inform DEA of suspicious orders as required by 21 C.F.R. § 1301.74(b), and follow procedures established by its CSMP. McKesson acknowledges that, at various times during the Covered Time Period, it did not identify or report to DEA certain orders placed by certain pharmacies, which should have been detected by McKesson as suspicious, in a manner fully consistent with the requirements set forth in the 2008 MOA. McKesson has taken steps to

prevent such conduct from occurring in the future, including the measures delineated in the Compliance Addendum.

V. TERMS AND CONDITIONS

In consideration of the mutual promises, covenants, and obligations set forth in this Settlement Agreement, the United States and McKesson agree as follows:

A. McKesson shall pay the United States the sum of One Hundred Fifty Million Dollars ($150,000,000.00) (the "Settlement Amount") within five (5) business days of the Effective Date of this Settlement Agreement, by electronic funds transfer ("EFT") pursuant to written instructions to be provided by the United States.

B. In consideration of the fulfillment of the payment of the Settlement Amount, the United States agrees to:

1. Fully and finally release McKesson and all McKesson facilities, including McKesson subsidiary entities, affiliates, and registrants, (collectively, the "Released Parties") from any and all civil penalty claims under 21 U.S.C. § 842 that the United States could have asserted, or may assert in the future, against McKesson related to the Covered Conduct; and

2. Refrain from filing any action for civil penalty claims under 21 U.S.C. § 842 by any U.S. Attorney's Office and/or DOJ based on the Covered Conduct.

C. Nothing in this Settlement Agreement shall prohibit or limit any other agency within DOJ or any other law enforcement, administrative, or regulatory agency of the United States from initiating administrative, civil, or criminal proceedings with respect to the Covered Conduct. DEA shall, as obligated in fulfilling its statutory duties, assist and cooperate with any agency that has initiated or initiates an investigation, action, or proceeding involving the Covered Conduct, but will not otherwise initiate or refer any civil action to any U.S. Attorney's Office or to any

component of DOJ, based on the Covered Conduct.

D. McKesson fully and finally releases the United States, its agencies, employees, servants, and agents from any claims (including for attorney's fees, costs, and expenses of every kind and however denominated) which McKesson has asserted, could have asserted, or may assert in the future against the United States, its agencies, employees, servants, and agents, related to the Covered Conduct and the investigation and prosecution thereof by the United States.

E. Notwithstanding any term of this Settlement Agreement, specifically reserved and excluded from the scope and terms of this Settlement Agreement, and the releases set forth herein, as to any entity or person (including McKesson) are the following:

1. Any potential criminal liability;

2. Any civil, criminal, or administrative liability arising under Title 26, United States Code (the Internal Revenue Code);

3. Any civil or administrative liability to the United States for any conduct other than the Covered Conduct, as described in paragraph III(A)-(F); and

4. Any liability based upon any obligation created by or arising under this Settlement Agreement.

F. Contemporaneously with the execution of this Settlement Agreement, McKesson will enter into the 2017 MOA, which will resolve administrative claims that DEA has or may have against McKesson related to the Covered Conduct. *See* Appendix B. McKesson acknowledges that it is required to comply with the controlled substance record keeping and reporting requirements of the CSA. McKesson represents that it has taken, is taking, and will be taking further good faith actions to detect and prevent diversion. *See* Compliance Addendum attached hereto in Appendix B.

G. Nothing in this Settlement Agreement shall prevent, preclude, limit, or prejudice the right of the United States to enforce the CSA by commencing a civil or administrative action against McKesson for violations of the CSA, and regulations promulgated thereunder, unrelated to the Covered Conduct as described in Section III of this Settlement Agreement or which occur after the Effective Date of this Settlement Agreement.

H. McKesson agrees that any and all costs it has, will, or may incur in connection with this matter – including payment of the Settlement Amount under this Settlement Agreement, attorney's fees, costs of investigation, negotiation, future compliance efforts, and remedial action - shall be unallowable costs (as defined in the Federal Acquisition Regulation, 48 C.F.R. § 31.205-47; and in Titles XVIII and XIX of the Social Security Act, 42 U.S.C. §§ 1395-1395kkk-1 and 1396-1396w-5; and the regulations and official program directives promulgated thereunder) for government contracting accounting and for purposes of any government reimbursement program.

I. McKesson warrants that it has reviewed its financial situation and that it currently is solvent within the meaning of 11 U.S.C. §§ 547(b)(3) and 548(a)(1)(B)(ii)(I), and will remain solvent following its payment to the United States of the Settlement Amount. Furthermore, the Parties warrant that, in evaluating whether to execute this Settlement Agreement, they (a) intended that the mutual promises, covenants, and obligations set forth herein constitute a contemporaneous exchange for new value given to McKesson, within the meaning of 11 U.S.C. § 547(c)(1); and (b) concluded that the mutual promises, covenants, and obligations set forth herein do, in fact, constitute such a contemporaneous exchange. In addition, the Parties warrant that the mutual promises, covenants, and obligations set forth herein are intended to and do, in fact, represent a reasonably equivalent exchange of value which is not meant to hinder or delay payment to, or to

defraud any entity to which McKesson was or became indebted on or after the date of this transfer, all within the meaning of 11 U.S.C. § 548(a)(1).

J. If, within 91 days of the Effective Date of this Settlement Agreement or of any payment made hereunder, McKesson commences, or a third-party commences, any case, proceeding, or other action under any law relating to bankruptcy, insolvency, reorganization, or relief of debtors, (i) seeking to have any order for relief of McKesson's debts, or seeking to adjudicate McKesson as bankrupt or insolvent; or (ii) seeking appointment of a receiver, trustee, custodian, or other similar official for McKesson or for all or any substantial part of McKesson's assets, McKesson agrees as follows:

1. McKesson's obligations under this Settlement Agreement may not be avoided pursuant to 11 U.S.C. §§ 547 or 548, and McKesson will not argue or otherwise take the position in any such case, proceeding, or action that: (i) McKesson's obligations under this Settlement Agreement may be avoided under 11 U.S.C. §§ 547 or 548; (ii) McKesson was insolvent at the time this Settlement Agreement was entered into, or became insolvent as a result of the payment made to the United States hereunder; or (iii) the mutual promises, covenants, and obligations set forth in this Settlement Agreement do not constitute a contemporaneous exchange for new value given to McKesson;

2. If McKesson's obligations under this Settlement Agreement are avoided for any reason, including, but not limited to, through the exercise of a trustee's avoidance powers under the Bankruptcy Code, the United States, at its sole option, may rescind the releases in this Settlement Agreement, and bring any civil claims that would otherwise be covered by the release provided in Paragraph 2, above. McKesson agrees that (i) any such claims, actions, or proceedings brought by the United States are not subject to an "automatic stay" pursuant to 11 U.S.C. § 362(a) as a result of the action, case, or proceeding described in the first clause of this Paragraph, and that McKesson will not argue or otherwise contend that the United States' claims, actions, or proceedings are subject to an automatic stay; (ii) that McKesson will not plead, argue, or otherwise raise any defenses under the theories of statute of limitations, laches, estoppel, or similar theories, to any such civil or administrative claims, actions, or proceeding which are brought

by the United States within 90 calendar days of written notification to McKesson that the releases herein have been rescinded pursuant to this Paragraph, except to the extent such defenses were available on the Effective Date of the Settlement Agreement; and (iii) the United States may pursue any and all claims it had as of July 1, 2014, in the case, action, or proceeding referenced in the first clause of this Paragraph, as well as in any other case, action, or proceeding; and

3. McKesson acknowledges that its agreements in this Paragraph are provided in exchange for valuable consideration provided by and through this Settlement Agreement.

K. Each Party to this Settlement Agreement will bear its own legal expenses and other costs incurred in connection with this matter, including those for the preparation and performance of this Settlement Agreement.

L. This Settlement Agreement is intended to be for the benefit of the Parties only.

M. McKesson represents that this Settlement Agreement is freely and voluntarily entered into, without any degree of duress or compulsion whatsoever. McKesson also acknowledges that it was represented by legal counsel of its choosing throughout the negotiation and execution of this Settlement Agreement.

N. McKesson consents to the disclosure of this Settlement Agreement, information about this Settlement Agreement, and the settlement memorialized herein by the United States to the public.

O. Nothing in this Settlement Agreement constitutes an agreement by the United States concerning characterization of the Settlement Amount for purposes of Title 26 of the United States Code (Internal Revenue Code).

VI. GENERAL PROVISIONS

A. Governing Law: This Settlement Agreement is governed by the laws of the United States of America. The Parties agree that the exclusive jurisdiction and venue for any dispute arising between and among the Parties regarding this Settlement Agreement and its terms shall be the United States District Court for the Northern District of West Virginia.

B. Headings: The section and paragraph headings in this Settlement Agreement are inserted solely for the convenience of the Parties and shall not be construed to be part of or in any way affect the substantive provisions of this Settlement Agreement.

C. Merger Clause: This Settlement Agreement, including Attachments, constitutes the complete agreement and understanding by and between the United States and McKesson with respect to the settlement of claims against McKesson arising out of the Covered Conduct and no promises, agreements, or understandings, written or oral, not contained herein shall be of any force or effect. This Settlement Agreement may be amended at any time by mutual consent of the parties hereto, with any such amendment to be invalid, unless in writing, signed by an authorized agent of McKesson and an authorized representative of the United States.

D. Counterparts: This Settlement Agreement may be executed in counterparts, each of which constitutes an original and all of which constitute one and the same agreement. Copies or facsimiles of signatures shall constitute acceptable, binding signatures for purposes of this Settlement Agreement.

E. Binding: This Settlement Agreement is binding on McKesson and its successors, transferees, and assigns.

F. Effective Date: This Settlement Agreement shall be effective when the last signatory to this Settlement Agreement executes the Agreement.

G. Drafting: For purposes of construing this Settlement Agreement, this Agreement shall be deemed to have been drafted by all Parties to this Agreement and shall not, therefore, be construed against any Party for that reason in any subsequent dispute.

H. Authority to Sign: Each person who signs this Settlement Agreement in a representative capacity warrants that he or she is fully authorized to do so. The government signatories represent that they are signing this Settlement Agreement in their official capacities.

IN WITNESS WHEREOF, the United States and McKesson have duly executed this Settlement Agreement with the intent to be bound by the terms, conditions, and representations herein.

EXHIBIT B

ADMINISTRATIVE MEMORANDUM OF AGREEMENT

This Administrative Memorandum of Agreement ("Agreement") is entered into by and between the United States Department of Justice, Drug Enforcement Administration ("DEA") and McKesson Corporation ("McKesson") (each a "Party" and collectively the "Parties").

APPLICABILITY

This Agreement shall be applicable to McKesson and any facility owned or operated by McKesson US Pharmaceutical registered, or who may become registered, with DEA to distribute, or otherwise handle controlled substances. The current list of applicable facilities is identified in Appendix A.

BACKGROUND

1. McKesson is registered with DEA at the facilities listed in Appendix A as distributors of Schedule II-V controlled substances under provisions of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. § 801 *et seq.*, ("CSA" or "the Act"). *See* Appendix A. Collectively, the distribution centers listed in Appendix A and the former Landover, Maryland distribution center are referred to herein as the "McKesson Distribution Centers."

2. In May 2008, McKesson entered into a Settlement and Release Agreement and Administrative Memorandum of Agreement ("2008 MOA") with DEA. *See* Appendix B.

3. McKesson's Aurora, Colorado, distribution facility ("McKesson Aurora"), located at 14500 East 39th Ave., Aurora, Colorado 80011, is registered with DEA as a distributor of Schedule II-V controlled substances pursuant to DEA Certificate of Registration PM0018425.

4. On March 12, 2013, DEA executed an Administrative Inspection Warrant ("AIW") at McKesson Aurora.

5. Between March 2013 and the present, DEA executed one (1) additional AIW and served numerous administrative subpoenas and conducted a number of cyclic inspections at various McKesson US Pharmaceutical distribution centers nationwide including McKesson's Washington Court House, Ohio, distribution center ("McKesson WCH"), DEA Certificate of Registration RM0220688, located at 3000 Kenskill Avenue, Washington Court House, Ohio 43160; McKesson's Livonia, Michigan, distribution center ("McKesson Livonia"), DEA Certificate of Registration 0030849, located at 38220 Plymouth Road, Livonia, Michigan 48150; McKesson's Lakeland, Florida, distribution center ("McKesson Lakeland"), DEA Certificate of Registration PM0000771, located at 1515 Kendrick Lane, Lakeland, Florida 33805; McKesson's Methuen distribution center ("McKesson Methuen"), DEA Certificate of Registration PM0020850, located at 9 Aegean Drive, Methuen, Massachusetts 01844; McKesson's Chicago distribution center ("McKesson Chicagoland"), DEA Certificate of Registration RM0380484, located at 1955 McKesson Street, Suite 101, Aurora, Illinois 60502; McKesson's Delran, New Jersey, distribution center ("McKesson Delran"), DEA Certificate of Registration RM0173055, located at 400 Delran Parkway, Delran, New Jersey 08075; McKesson's LaCrosse, Wisconsin

distribution center, ("McKesson LaCrosse"), DEA Certificate of Registration RM0220537, located at 3003 Airport Road, LaCrosse, Wisconsin 54603; McKesson's La Vista, Nebraska, distribution center ("McKesson La Vista"), DEA Certificate of Registration PM0038693, located at 7009 South 108th Street, La Vista, Nebraska 68128; McKesson's Ruther Glen, Virginia, distribution center ("McKesson Ruther Glen"), DEA Certificate of Registration RM0424363, located at 10504 McKesson Drive, Ruther Glen, Virginia 22546; and McKesson's West Sacramento, California, distribution center ("McKesson West Sacramento"), DEA Certificate of Registration PM0021535, located at 3775 Seaport Boulevard, West Sacramento, California 95691

6. On or about August 13, 2014, McKesson received a letter from the U.S. Attorney for the District of Colorado (the "August 13, 2014 Letter") setting forth allegations that McKesson failed to "maintain[] . . . effective controls against diversion of particular controlled substances," 21 U.S.C. § 823(b)(1), and failed to "design and operate a system to disclose to the registrant suspicious orders of controlled substances," 21 C.F.R. § 1301.74(b). This letter described certain civil penalties that the U.S. Attorney for the District of Colorado could seek in Colorado and elsewhere in connection with that alleged conduct.

7. On or about November 14, 2014, McKesson received a letter (dated November 4, 2014) from the DEA Office of Chief Counsel, Diversion Regulatory and Litigation Section, stating that DEA was separately pursuing administrative action against McKesson Aurora for the conduct outlined in the August 13, 2014 Letter. DEA also stated that the allegations regarding McKesson's failure to "maintain[] . . . effective controls against diversion of particular controlled substances," 21 U.S.C. § 823(b)(1), and failure to "design and operate a system to disclose to the registrant suspicious orders of controlled substances," 21 C.F.R. § 1301.74(b) was national in scope, and that DEA was also pursuing administrative investigations of such alleged failures at McKesson WCH, McKesson Livonia, McKesson Lakeland, McKesson Methuen, McKesson Chicagoland, McKesson Delran, McKesson LaCrosse, McKesson La Vista, McKesson Ruther Glen, and McKesson West Sacramento.

8. As of the date of this Agreement, DEA has not issued Orders to Show Cause ("OTSCs") against any of McKesson's DEA-registered distribution centers.

STIPULATION AND AGREEMENT

In lieu of commencing and pursuing administrative litigation against the DEA registrations of an unknown number of McKesson's distribution centers, McKesson and DEA agree as follows:

I. General

1. Intention of Parties to Effect Settlement. In order to avoid the uncertainty and expense of litigation, and in furtherance of the Parties' belief that a settlement is in the public interest, the Parties desire to settle and resolve, and hereby do settle and resolve, the administrative matters within DEA's enforcement authority as those matters relate to the conduct described further

below. The Parties further believe that the terms and conditions of this settlement as set forth below represent a complete resolution of this matter.

2 Acceptance of Responsibility. On or about September 27, 2006, February 7, 2007 and December 27, 2007, DEA's Deputy Assistant Administrator, Office of Diversion Control, sent letters to every entity in the United States that was registered with DEA to manufacture or distribute controlled substances, including McKesson (the "DEA Letters"). The DEA Letters contained, among other things, guidance for the identification and reporting of suspicious orders to DEA, as required by 21 C.F.R. § 1301.74(b). McKesson acknowledges that, at various times during the period from January 1, 2009 up through and including the Effective Date of this Agreement (the "Covered Time Period"), it did not identify or report to DEA certain orders placed by certain pharmacies which should have been detected by McKesson as suspicious based on the guidance contained in the DEA Letters about the requirements set forth in 21 C.F.R. § 1301.74(b) and 21 U.S.C. § 842(a)(5). McKesson has taken steps to prevent such conduct from occurring in the future, including the measures delineated in the Compliance Addendum.

On or about May 2, 2008, DEA and McKesson entered into an Administrative Memorandum of Agreement (the "2008 MOA"). The 2008 MOA provided among other things, that McKesson maintain a compliance program designed to detect and prevent the diversion of controlled substances, inform DEA of suspicious orders as required by 21 C.F.R. § 1301.74(b), and follow procedures established by its Controlled Substance Monitoring Program ("CSMP"). McKesson acknowledges that, at various times during the Covered Time Period, it did not identify or report to DEA certain orders placed by certain pharmacies, which should have been detected by McKesson as suspicious, in a manner fully consistent with the requirements set forth in the 2008 MOA. McKesson has taken steps to prevent such conduct from occurring in the future, including the measures delineated in the Compliance Addendum.

3. Covered Conduct. For purposes of this Agreement, "Covered Conduct" shall mean the following conduct alleged by the Government for the Covered Time Period:

a. McKesson failed to maintain effective controls against diversion of particular controlled substances into other than legitimate medical, scientific and industrial channels by sales to certain of its customers in violation of the CSA and the CSA's implementing regulations, 21 C.F.R. Part 1300 *et seq.*, at the McKesson Distribution Centers, including the following:

Aurora, Colorado;
Aurora, Illinois;
Delran, New Jersey;
LaCrosse, Wisconsin;
Lakeland, Florida;
Landover, Maryland;
La Vista, Nebraska;
Livonia, Michigan;
Methuen, Massachusetts;
Santa Fe Springs, California;

Washington Courthouse, Ohio; and
West Sacramento, California.

b. In 2008, McKesson entered into a Settlement Agreement with the Department of Justice and a Memorandum of Agreement with DEA (collectively referred to herein as the "2008 Agreements") related to, among other things, McKesson's failure to report suspicious orders of controlled substances to DEA when discovered, as required by and in violation of 21 C.F.R. § 1301.74(b) and 21 U.S.C. § 842(a)(5). As a result of the 2008 Agreements, McKesson developed a Controlled Substance Monitoring Program ("CSMP"), in which McKesson recognized that it had a duty to monitor its sales of all controlled substances and report suspicious orders to DEA. McKesson failed to properly monitor its sales of controlled substances and/or report suspicious orders to DEA, in accordance with McKesson's obligations under the 2008 Agreements, the Act, and 21 C.F.R. § 1301.74(b);

c. McKesson failed to follow the procedures and policies set forth in the McKesson CSMP to detect and disclose suspicious orders of controlled substances. Among other things, McKesson failed to conduct adequate due diligence of its customers, failed to keep complete and accurate records in the CSMP files maintained for many of its customers, and bypassed suspicious order reporting procedures set forth in the McKesson CSMP;

d. In addition, McKesson failed to inform the DEA Field Division Offices and/or DEA Headquarters of certain suspicious orders of controlled substances made by its customers during the relevant time period, including orders of unusual size, orders deviating substantially from normal patterns, and orders of unusual frequency, as required by and in violation of 21 C.F.R. § 1301.74(b), 21 U.S.C. § 842(a)(5), and the 2008 Agreements;

e. McKesson failed to report suspicious orders for certain controlled substances in accordance with the standards identified and outlined in the DEA Letters; and

f. The McKesson Distribution Centers distributed controlled substances to pharmacies even though those McKesson Distribution Centers should have known that the pharmacists practicing within those pharmacies had failed to fulfill their corresponding responsibility to ensure that controlled substances were dispensed pursuant to prescriptions issued for legitimate medical purposes by practitioners acting in the usual course of their professional practice, as required by 21 C.F.R § 1306.04(a).

4. Effect of 2008 MOA. To the extent that there are obligations contained in the 2008 MOA that survived the expiration of the stated term of the 2008 MOA, those terms are superseded by the obligations contained in this Agreement.

5 Term of Agreement The obligations contained in this Agreement shall remain in full force and effect for a period of five (5) years from the Effective Date of this Agreement unless DEA agrees in writing to an earlier termination

II Terms and Conditions

1 Obligations of McKesson.

a. McKesson agrees to maintain a compliance program intended to detect and prevent diversion of controlled substances as required under the CSA and applicable implementing regulations. McKesson acknowledges and agrees that the obligations undertaken in this Agreement and the Compliance Addendum are designed, in part, to meet its obligations under the CSA and its implementing regulations

b. Beginning on the first full calendar month after the Effective Date, McKesson shall provide DEA Headquarters with an unedited file of all transactions of non-ARCOS reportable controlled substances. This information will be in the format that Automation of Reports and Consolidated Orders System ("ARCOS") data is submitted to DEA, and will be uploaded to the following web address: https://www.deadiversion.usdoj.gov/dearepports/. The files shall be due by the 15th of each calendar month for the previous calendar month's report. This requirement does not supplant the requirement to report ARCOS data in the time and manner required by DEA regulations. The Parties agree that the report does not otherwise constitute the basis for McKesson's compliance with recordkeeping and reporting requirements under the CSA or applicable implementing regulations. The Parties agree that such report is not required under the CSA or its implementing regulations and that the accuracy of the report or the failure to file such a report is not a basis for a violation of 21 U.S.C. § 842(a)(5).

c. In satisfaction of its obligation under the CSA's implementing regulations and as agreed to pursuant to this Agreement for each McKesson distribution center registrant to "inform the Field Division Office of the Administration in [its] area of suspicious orders," 21 C.F.R. § 1301.74(b), McKesson shall transmit Suspicious Order Reports to DEA Headquarters at the end of each business day McKesson shall submit the daily Suspicious Order Reports in the format that ARCOS data is submitted to DEA, and the reports will be uploaded to the following web address: https://www.deadiversion.usdoj.gov/dearepports/. This obligation will continue during the term of this Agreement unless and until DEA advises McKesson otherwise in writing

d. McKesson agrees that its authority to distribute all controlled substances from its McKesson Aurora distribution center, DEA Certificate of Registration PM0018425, will be suspended for a period of three (3) years commencing from the Effective Date of this Agreement (the "Aurora Suspension Period"). This suspension shall not apply to or limit McKesson's authority to distribute, or

operations involving, List I Chemical products at or from the Aurora distribution center, which are authorized under the DEA registration number PM0018425.

e. McKesson agrees that its authority to distribute all controlled substances from its McKesson Livonia distribution center, DEA Certificate of Registration PM0030849, will be suspended for a period of two (2) years commencing from the Effective Date of this Agreement, except for orders placed by Permitted Registrants ("the Livonia Suspension Period").[1] This suspension shall not apply to or limit McKesson's authority to distribute, or operations involving, List I Chemical products at or from the Livonia distribution center, which are authorized under the DEA registration number PM0030849. McKesson agrees that during this period of suspension, on the 15th of the month following the applicable calendar quarter, it will deliver to DEA, *Detroit Field Division*, Diversion Regulatory Unit, 431 Howard Street, Detroit, Michigan 48226, a compact disc containing an excel spreadsheet, in a readable format, of all distributions of controlled substances aggregated by drug code from its McKesson Livonia distribution center, Certification of Registration PM0030849, for each previous quarter. McKesson shall notify the Detroit Field Office by email if there are no sales for the applicable period. Within thirty (30) days of the Effective Date, DEA will provide the e-mail address to which McKesson will report to DEA if there are no sales for the applicable period. The data that comprises this spreadsheet shall be taken directly from McKesson's sales data and shall be sorted by the DEA Certification of Registration of the purchaser of the controlled substance.

f. McKesson agrees that its authority to distribute all controlled substances from its McKesson WCH distribution center, DEA Certificate of Registration RM0220688, will be suspended for a period of two (2) years commencing thirty (30) days from the date upon which the DEA Certificate of Registration for the McKesson Livonia distribution center is reinstated, except for orders placed by Permitted Registrants (the "WCH Suspension Period"). In the event the McKesson Livonia distribution center is not reinstated within one hundred and eighty (180) days of completion of the Livonia Suspension Period due to McKesson (i) failing to cure a compliance requirement as identified by DEA in its thirty (30) day advance notice letter described in Section II.2., or (ii) electing to permanently terminate the Livonia registration, the WCH Suspension Period will commence no later than two (2) years and one hundred eighty (180) days from the Effective Date of this Agreement. The McKesson WCH distribution center suspension shall not apply to or limit McKesson's authority to distribute, or operations involving, List I Chemical products at or from the WCH distribution center, which are authorized under the DEA registration number RM0220688. McKesson agrees that during this period of suspension, on the 15th of the month following the applicable calendar quarter, it will deliver to DEA, Detroit Field

[1] For purposes of this agreement "Permitted Registrants" shall include registrants identified in Appendix C. McKesson shall include updates to the Permitted Registrants in the quarterly reports provided to DEA local offices under II 1 e-g.

Division, Diversion Regulatory Unit, 431 Howard Street, Detroit, Michigan 48226, a compact disc containing an excel spreadsheet, in a readable format, of all distributions of controlled substances aggregated by drug code from its McKesson WCH distribution center, Certification of Registration RM0220688, for each previous quarter. McKesson shall notify the Detroit Field Office by email if there are no sales for the applicable period. Within thirty (30) days of the Effective Date, DEA will provide the e-mail address to which McKesson will report to DEA if there are no sales for the applicable period. The data that comprises this spreadsheet shall be taken directly from McKesson's sales data and shall be sorted by the DEA Certification of Registration of the purchaser of the controlled substance.

g. McKesson agrees that its authority to distribute controlled substances containing the drug code for Schedule II hydromorphone products, that is, DEA drug code 9150, from its McKesson Lakeland distribution center, DEA Certificate of Registration PM0000771, will be suspended for a period of one (1) year commencing from the Effective Date of the Agreement, except for orders placed by Permitted Registrants (the "Lakeland Suspension Period"). McKesson agrees that during this period of suspension, on the 15th of the month following the applicable calendar quarter, it will deliver to DEA, Miami Field Division, Diversion Regulatory Unit, 2100 North Commerce Parkway, Weston, Florida 33326, a compact disc containing an excel spreadsheet, in a readable format, of all distributions of hydromorphone (drug code 9150) from its McKesson Lakeland distribution center, Certification of Registration PM0000771, for each previous quarter. McKesson shall notify the Miami Field Office by email if there are no sales for the applicable period. Within thirty (30) days of the Effective Date, DEA will provide the e-mail address to which McKesson will report to DEA if there are no sales for the applicable period. The data that comprises this spreadsheet shall be taken directly from McKesson's sales data and shall be sorted by the DEA Certification of Registration of the purchaser of the hydromorphone.

h. McKesson agrees to reasonably cooperate with DEA, United States Attorneys' Offices, and any other Federal, state, or local law enforcement agency investigating or prosecuting McKesson's customers for alleged violations or activities related to the Covered Conduct unless such matters would affect the rights or obligations of McKesson in regard to any pending or threatened litigation. Such cooperation shall include, but is not limited to, producing records and making employees available for interviews by DEA or other law enforcement authorities, subject to appropriate requests, e.g., administrative subpoena. However, nothing in this paragraph shall be construed as a waiver by McKesson or its employees of any constitutional rights or rights that the company would have as a party to a matter involving pending or threatened litigation with the government or a third party, including without limitation attorney-client or attorney work product privileges

i. Pursuant to the 2017 Settlement Agreement and Release, McKesson agrees to a settlement payment to the United States of America in the amount of $150,000,000.00 in settlement of claims or potential claims made by the United States of America for failing to report suspicious orders of controlled substances McKesson agrees to execute the 2017 Settlement Agreement and Release simultaneously with the execution of this Agreement and to execute any other documents necessary to fully and finally settle all claims of the United States of America under this subparagraph, and to fully pay said settlement payment penalties within five (5) days of the Effective Date of this Agreement.

j. Any material breach by any McKesson facility of subsections II.1.b-g of this Agreement by McKesson after the Effective Date of this Agreement, where McKesson has not cured such breach as may be allowed under relevant law, regulation, this Agreement and Compliance Addendum may be a basis upon which DEA takes administrative action seeking the revocation and/or the suspension of the DEA Certificates of Registration of any of McKesson's distribution centers. However, nothing in this Agreement or the Compliance Addendum shall be deemed a waiver of McKesson's Due Process rights.

k. In any case where a supplier inadvertently ships controlled substances to any McKesson suspended facility, McKesson shall promptly return the product to the supplier. McKesson shall maintain a record of such receipt and return for two (2) years.

l. In any case where a customer inadvertently returns controlled substances to any McKesson suspended facility, McKesson shall promptly send the product to another McKesson DC for processing. McKesson shall maintain a record of such receipt and transfer for two (2) years.

m. Any McKesson suspended facility receiving a DEA Order Form 222 shall promptly endorse such Order Form to another, non-suspended McKesson facility pursuant to 21 C.F.R. § 1305.14. McKesson shall maintain a record of any endorsement and transfer of an order form for two (2) years.

n. In the event that any controlled substance maintained at a suspended McKesson facility is no longer required to be stocked or sold to a Permitted Registrant, the suspended McKesson facility may transfer such controlled substance to another non-suspended McKesson facility. Such transaction shall be reflected in the quarterly transaction report submitted to the appropriate local DEA field office as described in subsection II 1.e-g of this Agreement.

2. Obligations of DEA.

a. DEA does not endorse or approve of any specific system or approach implemented by DEA registrants to satisfy their obligations under 21 C.F.R § 1301.74(b) or 21 U.S.C. § 823(b)(1). DEA has taken no action during the

negotiation of this Agreement, and is taking no action by entering into this Agreement, that can be interpreted to be directly or indirectly endorsing or approving the system that McKesson is currently utilizing to meet its obligations under the CSA and the implementing regulations. Going forward, DEA's actions in fulfilling the oversight of McKesson under this Agreement, including the receipt of information and/or its participation in meetings with McKesson representatives, shall not be construed or interpreted to be directly or indirectly endorsing or approving the system that McKesson is utilizing to meet its obligations under the CSA and the implementing regulations.

b. DEA agrees to accept at DEA Headquarters the information regarding suspicious orders as described in subsection II.1.c. of this Agreement.

c. In the event that DEA discovers information about conduct during the Covered Time Period that may warrant administrative action, and which is not otherwise included under the Covered Conduct, DEA shall favorably consider McKesson's entry into this Agreement, the Compliance Addendum, and the civil penalties paid pursuant to the Settlement Agreement and Release; all actions taken by McKesson pursuant to this Agreement and Compliance Addendum; any remedial actions taken by McKesson to address the alleged or perceived violative conduct; and the compliance history of McKesson at the particular facility, and at other McKesson facilities.

d. Unless DEA determines that McKesson is in noncompliance with the terms of this Agreement, after providing McKesson with prior written notice of alleged noncompliance with the terms of this Agreement and providing McKesson with at least thirty (30) days to respond to any such notice, DEA agrees that it will lift the suspension of McKesson Aurora's distribution center, DEA Certificate of Registration PM0018425, and, if needed, grant any requisite registration renewal, no later than the end of the Aurora Suspension Period.

e. Unless DEA determines that McKesson is in noncompliance with the terms of this Agreement, after providing McKesson with prior written notice of alleged noncompliance with the terms of this Agreement and providing McKesson with at least thirty (30) days to respond to any such notice, DEA agrees that it will lift the suspension of McKesson Livonia distribution center, DEA Certificate of Registration PM0030849, and, if needed, grant any requisite registration renewal, no later than the end of the Livonia Suspension Period.

f. Unless DEA determines that McKesson is in noncompliance with the terms of this Agreement, after providing McKesson with prior written notice of alleged noncompliance with the terms of this Agreement and providing McKesson with at least thirty (30) days to respond to any such notice, DEA agrees that it will lift the suspension of McKesson WCH distribution center, DEA Certificate of Registration RM0220688, and, if needed, grant any requisite registration renewal, no later than the end of the WCH Suspension Period.

g. Unless DEA determines that McKesson is in noncompliance with the terms of this Agreement, after providing McKesson with prior written notice of alleged noncompliance with the terms of this Agreement and providing McKesson with at least thirty (30) days to respond to any such notice, DEA agrees that it will reinstate the ability of the McKesson Lakeland distribution center, DEA Certificate of Registration PM0000771, to distribute the controlled substances containing the drug code for Schedule II hydromorphone products, that is, DEA drug code 9150, no later than the end of the Lakeland Suspension Period.

3. Release by DEA. In consideration of the fulfillment of the obligations of McKesson under this Agreement, DEA agrees to:

a. Fully and finally release McKesson, together with its subsidiary entities, distribution facilities, and registrants, along with its officers, directors, employees, successors, and assigns (collectively, the "Released Parties") from any and all administrative claims within DEA's enforcement authority under 21 U.S.C. §§ 823 & 824 related to the Covered Conduct; and

b. Refrain from filing or taking any administrative actions against the Released Parties within DEA's enforcement authority under 21 U.S.C. §§ 823 & 824, based on the Covered Conduct only to extent that such conduct was or could have been discovered by DEA through the exercise of due diligence through the examination of open investigations and inspections in existence as of the Effective Date of this Agreement, and the review of the reports and records McKesson submitted to DEA prior to the Effective Date of this Agreement. This release applies only to administrative actions brought before or by DEA.

Notwithstanding the releases by DEA contained in this Paragraph, DEA reserves the right to seek to admit evidence of the Covered Conduct for proper evidentiary purposes in any other administrative proceeding against the Released Parties for non-Covered Conduct. Further, nothing in this Paragraph shall prohibit or limit any other agency within the Department of Justice, any State attorney general, or any other law enforcement, administrative, or regulatory agency of the United States or any State thereof, from initiating administrative, civil, or criminal proceedings with respect to the Covered Conduct. DEA shall, as obligated in fulfilling its statutory duties, assist and cooperate with any agency that initiates an investigation, action, or proceeding involving the Covered Conduct. At McKesson's request, DEA agrees to disclose the terms of this Agreement to any other agency and will represent, assuming McKesson is in compliance with this Agreement, that the allegations raised by DEA, as defined in the Covered Conduct, have been adequately addressed. This release is applicable only to the Released Parties and is not applicable in any manner to any other individual, partnership, corporation, or entity.

4. Release by McKesson. McKesson fully and finally releases the United States of America, its agencies, employees, servants, and agents from any claims (including attorney's fees, costs, and expenses of every kind and however denominated) which McKesson has asserted, could have asserted, or may assert in the future against the United States of America, its

agencies, employees, servants, and agents, related to the Covered Conduct and the United States' investigation and prosecution thereof.

5. Reservation of Claims. Notwithstanding any term of this Agreement, specifically reserved and excluded from the scope and terms of this Agreement as to any entity or person (including McKesson) are the following:

a. Any potential criminal liability;

b. Any civil, criminal or administrative liability arising under Title 26, U.S. Code (Internal Revenue Code);

c. Any administrative liability to the United States other than administrative claims released in Paragraph II.3.a. and b.

d Any civil liability to the United States, other than the civil claims released in the 2017 Settlement Agreement and Release; or

e. Any liability based upon any obligation created by or arising under this Agreement

III. Miscellaneous

1 Binding on Successors. This Agreement is binding on McKesson, and its respective successors, heirs, transferees, and assigns.

2 Costs. Each Party to this Agreement shall bear its own legal and other costs incurred in connection with this matter, including the preparation and performance of this Agreement.

3. No Additional Releases. This Agreement is intended to be for the benefit of the Parties and the Released Parties only, and by this instrument the Parties do not release any claims against any other person or entity other than the Released Parties.

4. Effect of Agreement. This Agreement constitutes the complete agreement between the Parties. All material representations, understandings, and promises of the Parties are contained in this Agreement, and each of the parties expressly agrees and acknowledges that, other than those statements expressly set forth in this Agreement, it is not relying on any statement, whether oral or written, of any person or entity with respect to its entry into this Agreement or to the consummation of the transactions contemplated by this Agreement. Any modifications to this Agreement shall be set forth in writing and signed by all Parties. McKesson represents that this Agreement is entered into with advice of counsel and knowledge of the events described herein. McKesson further represents that this Agreement is voluntarily entered into in order to avoid litigation, without any degree of duress or compulsion.

5 Execution of Agreement. This Agreement shall become effective (i.e., final and binding) on the date of signing by the last signatory (the "Effective Date"). The government agrees to notify McKesson immediately when the final signatory has executed this Agreement

6. Notices. All communications and notices pursuant to this Agreement shall be made in writing to the following individuals, which notice information may be altered from time to time by either Party by written notification:

a. For DEA or DOJ:

Drug Enforcement Administration, Diversion Control Division, 8701 Morrissette Drive, Springfield, Virginia 22152;

Drug Enforcement Administration, Office of Chief Counsel, Diversion and Regulatory Litigation Section, 8701 Morrissette Drive, Springfield, Virginia 22152; and

U.S. Department of Justice, Criminal Division, Narcotic and Dangerous Drug Section, 145 N St. NE (2 Constitution Square), 2nd Floor, East Wing, Washington, D.C. 20530

b. For McKesson:

Senior Vice President, US Pharmaceutical, Regulatory Affairs and Compliance
McKesson Corporation
One Post Street, 36th Floor
San Francisco, CA 94104

with copies to:

Vice President, U.S. Pharmaceutical, Regulatory Affairs & Compliance
McKesson Corporation
6535 State Highway 161
Irving, TX 75039-2402

Asaistant General Counsel, US Pharmaceuticul
McKesson Corporation
One Post Street, 36th Floor
San Francisco, CA 94104

7 Disclosure. McKesson and DEA may each disclose the existence of this Agreement and information about this Agreement to the public except for information designated as confidential.

8 Confidentiality and Designation of Information. McKesson and DEA agree that all transaction reports submitted to DEA contain information this is commercial or financial and privileged or confidential, and therefore exempt from disclosure under the Freedom of

Information Act ("FOIA"), 5 U.S.C. § 552. Such information may be exempt from disclosure under the Freedom of Information Act and any other state or federal law or regulation protecting such information from public disclosure and, upon receipt of a request to release such, DEA agrees to provide McKesson reasonable opportunity to respond to any such requests.

9 Execution in Counterparts. This Agreement may be executed in counterparts, each of which constitutes an original, and all of which shall constitute one and the same agreement. Copies or facsimiles of signatures shall constitute acceptable, binding signatures for purposes of this Agreement.

10. Authorizations. The individuals signing this Agreement on behalf of McKesson represent and warrant that they are authorized by McKesson to execute this Agreement. The individuals signing this Agreement on behalf of DEA represent and warrant that they are signing this Agreement in their official capacities and that they are authorized by DEA to execute this Agreement.

11. Choice of Law and Venue. This Settlement Agreement and Release shall be construed in accordance with the laws of the United States, and either Party may seek judicial enforcement of this Agreement upon a material breach by the other Party. The Parties agree that the jurisdiction and venue for any dispute arising between and among the Parties to this Agreement shall be any federal court of competent jurisdiction. This provision, however, shall not be construed as a waiver of the jurisdictional provisions of the CSA, as amended.

BEFORE THE VIRGINIA BOARD OF PHARMACY

IN RE: **MCKESSON DRUG COMPANY**
Permit Number: **0219-000202**
Case Number: **194092**

CONSENT ORDER

JURISDICTION AND PROCEDURAL HISTORY

The Virginia Board of Pharmacy ("Board") and Scott Miller, authorized representative, McKesson Drug Company, as evidenced by their signatures hereto, in lieu of proceeding to an informal conference, enter into the following Consent Order affecting McKesson Drug Company's permit to operate as a non-resident wholesale distributor in the Commonwealth of Virginia.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

1. On 2/25/1997, the Board issued Permit Number 0219-000202 to McKesson Drug Company ("McKesson") to operate as a non-resident wholesale distributor in the Commonwealth of Virginia. Said permit is scheduled to expire on 2/29/2020. At all times relevant hereto, said permit was in full force and effect.

2. McKesson violated Virginia Code § 54.1-3316(8) in that on January 17, 2017, by settlement with the United States Drug Enforcement Administration ("DEA"), McKesson's authority to distribute controlled substances from its Washington Court House, Ohio, distribution center, DEA Certificate of Registration RM0220688, was suspended for a period of two years from February 16, 2019 to February 16, 2021. Not included in this suspension was McKesson's authority to distribute, or operations involving, List I Chemical products at or from the Washington Court House, Ohio, distribution center, which are authorized under DEA registration number RM0220688. Also not included in this suspension was McKesson's authority to, at its option, continue to possess and

distribute controlled substances to federal customers that purchase controlled substances from McKesson's Washington Court House, Ohio, distribution center under McKesson's exclusive contract with the U.S. Department of Veteran's Affairs.

3. McKesson violated Virginia Code § 54.1-3316(10) in that on October 17, 2017, by Consent Agreement, the Louisiana Board of Pharmacy suspended McKesson's Louisiana Controlled Dangerous Substance License for McKesson's Washington Court House, Ohio, distribution center from January 18, 2019 to January 18, 2021. The action by the Louisiana Board of Pharmacy did not include the suspension of McKesson's authority to distribute, or operations involving, List I Chemical products at or from the Washington Court House, Ohio, distribution center, which are authorized under DEA registration number RM0220688. These Actions also did not affect McKesson's authority to, at its option, continue to possess and distribute controlled substances to federal customers that purchase controlled substances from McKesson's Washington Court House, Ohio, distribution center under McKesson's exclusive contract with the U.S. Department of Veteran's Affairs.

CONSENT

McKesson Drug Company, by affixing the signature of a representative hereon to this Order, agrees to the following:

1. McKesson has been advised to seek advice of counsel prior to signing this document and is represented by Roger Morris, Esq.;

2. McKesson is fully aware that without its consent, no legal action can be taken against it or its permit except pursuant to the Virginia Administrative Process Act, Virginia Code § 2.2-4000 *et seq.*;

3. McKesson acknowledges that it has the following rights, among others: the right to an informal fact-finding conference before the Board; and the right to representation by counsel;

4. McKesson waives its right to an informal conference;

5. McKesson admits to the Findings of Fact and Conclusions of Law contained herein and waives its right to contest such Findings of Fact and Conclusions of Law and any sanction imposed hereunder in any future judicial or administrative proceeding in which the Board is a party;

6. McKesson consents to the entry of the following Order affecting its right to operate as a non-resident wholesale distributor in the Commonwealth of Virginia.

ORDER

Based on the foregoing Findings of Fact and Conclusions of Law, the Virginia Board of Pharmacy hereby ORDERS as follows:

1. McKesson Drug Company shall not distribute Schedule II-V controlled substances from its Washington Court House, Ohio, distribution center into the Commonwealth of Virginia from the date of entry of this Order until February 16, 2021. This restriction shall not apply to or limit McKesson's authority to distribute, or operations involving, List 1 Chemical products at or from the Washington Court House, Ohio, distribution center, which are authorized under the DEA registration number RM0220688. This restriction also shall not apply to or limit McKesson's authority to, at its option, continue to possess and distribute controlled substances to federal customers that purchase controlled substances from McKesson's Washington Court House, Ohio, distribution center under McKesson's exclusive contract with the U.S. Department of Veteran's Affairs.

2. McKesson Drug Company shall comply with all laws and regulations governing the practice of a non-resident wholesale distributor in the Commonwealth of Virginia.

3. Any violation of the foregoing terms and conditions of this Order or any statute or regulation governing the practice of a non-resident wholesale distributor shall constitute grounds for further disciplinary action.

Pursuant to Virginia Code §§ 2.2-4023 and 54.1-2400.2, the signed original of this Order shall remain in the custody of the Department of Health Professions as a public record, and shall be made available for public inspection and copying upon request.

BEFORE THE
BOARD OF PHARMACY
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA

In the Matter of the First Amended Accusation Against: **MCKESSON CORPORATION** **3000 Kenskill Ave.** **Washington Court House, OH 43160** **Out of State Distributor License No. OSD 3275** **And** **MCKESSON DRUG CO.** **38220 Plymouth Rd.** **Livonia, MI 48150** **Out of State Distributor License No. OSD 4086** Respondents.	Case No. 6413 OAH No. 2019010083 **STIPULATED SETTLEMENT AND DISCIPLINARY ORDER FOR PUBLIC REPROVAL** **[Bus. & Prof. Code § 495]**

IT IS HEREBY STIPULATED AND AGREED by and between the parties to the above-entitled proceedings that the following matters are true:

PARTIES

1. Anne Sodergren (Complainant) is the Interim Executive Officer of the Board of Pharmacy (Board). She brought this action solely in her official capacity and is represented in this matter by Xavier Becerra, Attorney General of the State of California, by Kevin W. Bell, Deputy Attorney General.

2. Respondent John Hammergren[1], McKesson Corporation and McKesson Drug Co. (Respondents) are represented in this proceeding by attorney Alissa Brice Castaneda, whose address is: Renaissance One, Two North Central Avenue, Phoenix, AZ 85004-2391.

JURISDICTION

3. On or about August 11, 2000, the Board issued Out of State Distributor License No. OSD 3275 to John Hammergren, McKesson Corporation, and Out of State Distributor License No. OSD 4086 to John Hammergren, McKesson Drug Co. The Out of State Distributor Licenses were in full force and effect at all times relevant to the charges brought in Accusation No. 6413 and will expire on August 1, 2020, unless renewed.

4. First Amended Accusation No. 6413 was filed before the Board and is currently pending against Respondents. The Accusation and all other statutorily required documents were properly served on Respondents on May 15, 2019. Respondents timely filed his Notice of Defense contesting the Accusation. A copy of First Amended Accusation No. 6413 is attached as exhibit A and incorporated herein by reference.

ADVISEMENT AND WAIVERS

5. Respondents have carefully read, fully discussed with counsel, and understand the charges and allegations in First Amended Accusation No. 6413. Respondents have also carefully read, fully discussed with counsel, and understand the effects of this Stipulated Settlement and Disciplinary Order for Public Reproval.

6. Respondents are fully aware of their legal rights in this matter, including the right to a hearing on the charges and allegations in the Accusation; the right to be represented by counsel at their own expense; the right to confront and cross-examine the witnesses against them; the right to present evidence and to testify on their own behalf; the right to the issuance of subpoenas to compel the attendance of witnesses and the production of documents; the right to reconsideration and court review of an adverse decision; and all other rights accorded by the California Administrative Procedure Act and other applicable laws.

[1] The Board has recently discovered that John Hammergren, CEO of both Respondents McKesson Corporation and McKesson Drug Company, disassociated with Respondents on April 1, 2019. Because Respondents have not provided the identity of the new CEO, John Hammergren remains as the CEO of record.

7. Respondents voluntarily, knowingly, and intelligently waive and give up each and every right set forth above.

CULPABILITY

8. Respondents understand and agree that the charges and allegations in First Amended Accusation No. 6413, if proven at a hearing, constitute cause for imposing discipline upon their Out of State Distributor Licenses.

9. For the purpose of resolving the First Amended Accusation without the expense and uncertainty of further proceedings, Respondents hereby give up their right to contest the charges in the First Amended Accusation.

10. Respondents agree that their Out of State Distributor Licenses are subject to discipline and they agree to be bound by the Disciplinary Order below.

CONTINGENCY

11. This stipulation shall be subject to approval by the Board of Pharmacy. Respondents understand and agree that counsel for Complainant and the staff of the Board of Pharmacy may communicate directly with the Board regarding this stipulation and settlement, without notice to or participation by Respondents or their counsel. By signing the stipulation, Respondents understand and agree that they may not withdraw their agreement or seek to rescind the stipulation prior to the time the Board considers and acts upon it. If the Board fails to adopt this stipulation as its Decision and Order, the Stipulated Settlement and Disciplinary Order for Public Reproval shall be of no force or effect, except for this paragraph, it shall be inadmissible in any legal action between the parties, and the Board shall not be disqualified from further action by having considered this matter.

12. The parties understand and agree that Portable Document Format (PDF) and facsimile copies of this Stipulated Settlement and Disciplinary Order for Public Reproval, including Portable Document Format (PDF) and facsimile signatures thereto, shall have the same force and effect as the originals.

///

///

13. This Stipulated Settlement and Disciplinary Order for Public Reproval is intended by the parties to be an integrated writing representing the complete, final, and exclusive embodiment of their agreement. It supersedes any and all prior or contemporaneous agreements, understandings, discussions, negotiations, and commitments (written or oral). This Stipulated Settlement and Disciplinary Order for Public Reproval may not be altered, amended, modified, supplemented, or otherwise changed except by a writing executed by an authorized representative of each of the parties.

14. This Stipulated Settlement and Disciplinary Order is dispositive of any and all known and extant violations of California law that the Board of Pharmacy has asserted or could have asserted against Respondents relating to the 2017 DEA Settlement and underlying facts. It is the complete, final, and exclusive embodiment of claims related to First Amended Accusation No. 6413, including any past or future nondisciplinary or disciplinary actions taken by other Federal or state entities related to the 2017 DEA Settlement referenced in the First Amended Accusation and underlying facts.

15. In consideration of the foregoing admissions and stipulations, the parties agree that the Board may, without further notice or formal proceeding, issue and enter the following Disciplinary Order:

DISCIPLINARY ORDER

IT IS HEREBY ORDERED that Out of State Distributor License No. OSD 3275 issued to John Hammergren, McKesson Corporation, and Out of State Distributor License No. OSD 4086 issued to John Hammergren, McKesson Drug Co. shall be publicly REPROVED by the Board of Pharmacy under Business and Professions Code section 495 in resolution of First Amended Accusation No. 6413, attached as exhibit A.

Cost Recovery. Respondents shall pay $4,000.00 to the Board, jointly and severally, for its costs associated with the investigation and enforcement of this matter. Respondents shall be permitted to pay these costs in a payment plan approved by the Board. If Respondents fail to pay the Board costs as ordered, Respondents shall not be allowed to renew their Out of State Distributor Licenses until Respondents pay costs in full.

Community Service. Respondents shall provide $1.5 million (wholesale value) worth of Naloxone, jointly and severally, to be distributed at no charge to California entities such as First Responders or to similar non-profit entities.

Respondents must submit to the Board within 120 days of the effective date of the Order a proposal for the distribution of the Naloxone. The proposal must specify the entities within California that will receive the Naloxone, the manner and timing in which the entities will receive the Naloxone, and the quantities of Naloxone distributed to each entity. Respondents will determine at their sole discretion the manner and timing in which the entities will receive the Naloxone, and the quantities of Naloxone distributed to each entity.

Respondents shall submit to the Board a report every six months detailing the progress in distributing the Naloxone, which shall include the names of the entities to which the Naloxone has been distributed and the quantities of Naloxone distributed. The first report shall be due 180 days after Respondents' proposal has been submitted to the Board.

This community service requirement shall be completed within 4 years of the effective date of the Order.

Failure to abide by any term of this Disciplinary Order shall constitute grounds for discipline against Respondents, up to and including Revocation.

ACCEPTANCE

Respondents have carefully read the above Stipulated Settlement and Disciplinary Order for Public Reproval and have fully discussed it with their attorney, Alissa Brice Castaneda. Respondents understand the stipulation and the effect it will have on the Out-of State Distributor License No. OSD 3275, and Out of State Distributor License No. OSD 4086. Respondents enter into this Stipulated Settlement and Disciplinary Order for Public Reproval voluntarily, knowingly, and intelligently, and agree to be bound by the Decision and Order of the Board of Pharmacy.

DATED: May 23, 2019

for MCKESSON CORPORATION
and MCKESSON DRUG CO.
Respondents

I have read and fully discussed with Respondent John Hammergren, McKesson Corporation/McKesson Drug Co. the terms and conditions and other matters contained in the above Stipulated Settlement and Disciplinary Order for Public Reproval. I approve its form and content.

DATED: 5/21/19 Alissa Brice Castaneda

Alissa Brice Castaneda
Attorney for Respondents

ENDORSEMENT

The foregoing Stipulated Settlement and Disciplinary Order for Public Reproval is hereby respectfully submitted for consideration by the Board of Pharmacy of the Department of Consumer Affairs.

Attorneys for Complainant

BEFORE THE
BOARD OF PHARMACY
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA

In the Matter of the Accusation Against: **MCKESSON CORPORATION** **3000 Kenskill Ave.** **Washington Court House, OH 43160** **Out of State Distributor License** **No. OSD 3275** **And** MCKESSON DRUG CO. **38220 Plymouth Rd.** **Livonia, MI 48150** **Out of State Distributor License** **No. OSD 4086** Respondents.	Case No. 6413 OAH No. 2019010083 **FIRST AMENDED ACCUSATION**

Complainant alleges:

PARTIES

1. Ann Sodergren (Complainant) brings this First Amended Accusation solely in her official capacity as the Interim Executive Officer of the Board of Pharmacy, Department of Consumer Affairs (Board).

2. On or about August 11, 2000, the Board issued Out of State Distributor License Number OSD 3275 to McKesson Corporation, John Hammergren, CEO[1]. The License will expire on August 1, 2019 unless otherwise renewed.

3. On or about July 1, 2002, the Board issued Out of State Distributor License Number OSD 4086 to McKesson Corporation to do business as McKesson Drug Co., John Hammergren, CEO. The License will expire on July 1, 2019, unless otherwise renewed.

REGULATORY AND STATUTORY AUTHORITY

4. This Accusation is brought before the Board under the authority of the following laws. All section references are to the Business and Professions Code unless otherwise indicated.

5. Section 141 of the Code states:

> (a) For any licensee holding a license issued by a board under the jurisdiction of the department, a disciplinary action taken by another state, by any agency of the federal government, or by another country for any act substantially related to the practice regulated by the California license, may be a ground for disciplinary action by the respective state licensing board. A certified copy of the record of the disciplinary action taken against the licensee by another state, an agency of the federal government, or another country shall be conclusive evidence of the events related therein.
>
> (b) Nothing in this section shall preclude a board from applying a specific statutory provision in the licensing act administered by that board that provides for discipline based upon a disciplinary action taken against the licensee by another state, an agency of the federal government, or another country.

6. Section 4300 of the Code states:

> (a) Every license issued may be suspended or revoked.
>
> (b) The board shall discipline the holder of any license issued by the board . . .whose case has been heard by the board and found guilty, by any of the following methods:
>
> (1) Suspending judgment.
>
> (2) Placing him or her upon probation.
>
> (3) Suspending his or her right to practice for a period not exceeding one year.
>
> (4) Revoking his or her license.

[1] The Board has recently discovered that John Hammergren, CEO of both Respondents McKesson Corporation and McKesson Drug Company, disassociated with Respondents on April 1, 2019. Because Respondents have not provided the identity of the new CEO, John Hammergren remains as the CEO of record.

(5) Taking any other action in relation to disciplining him or her as the board in its discretion may deem proper.

7. Section 4300.1 of the Code states:

The expiration, cancellation, forfeiture, or suspension of a board-issued license by operation of law or by order or decision of the board or a court of law, the placement of a license on a retired status, or the voluntary surrender of a license by a licensee shall not deprive the board of jurisdiction to commence or proceed with any investigation of, or action or disciplinary proceeding against, the licensee or to render a decision suspending or revoking the license.

8. Section 4301 of the Code states in pertinent part:

The board shall take action against any holder of a license who is guilty of unprofessional conduct or whose license has been issued by mistake. Unprofessional conduct shall include, but is not limited to, any of the following:

. . . .

(n) The revocation, suspension, or other discipline by another state of a license to practice pharmacy, operate a pharmacy, or do any other act for which a license is required by this chapter that would be grounds for revocation, suspension, or other discipline under this chapter. Any disciplinary action taken by the board pursuant to this section shall be coterminous with action taken by another state, except that the term of any discipline taken by the board may exceed that of another state, consistent with the board's enforcement guidelines. The evidence of discipline by another state is conclusive proof of unprofessional conduct.

(o) Violating or attempting to violate, directly or indirectly, or assisting in or abetting the violation of or conspiring to violate any provision or term of this chapter or of the applicable federal and state laws and regulations governing pharmacy, including regulations established by the board or by any other state or federal regulatory agency.

. . . ."

COST RECOVERY

9. Section 125.3 of the Code states, in pertinent part, that the Board may request the administrative law judge to direct a licentiate found to have committed a violation or violations of the licensing act to pay a sum not to exceed the reasonable costs of the investigation and enforcement of the case.

FIRST CAUSE FOR DISCIPLINE

(Unprofessional Conduct)

10. Respondents McKesson Corporation and McKesson Drug Co are subject to disciplinary action under section 4301(o) for violating or attempting to violate, directly or

indirectly, or assisting in or abetting the violation of or conspiring to violate any provision or term of the applicable federal and state laws and regulations governing pharmacy, including regulations established by the board or by any other state or federal regulatory agency. The circumstances are as follows:

11. On or about May 2, 2008, Respondents entered into an Administrative Memorandum of Agreement (2008 MOA) with the United States Drug Enforcement Administration (DEA). The MOA provided, amongst other things, that Respondents maintain a compliance program designed to detect and prevent the diversion of controlled substances, and inform the DEA of suspicious orders as required by 21 C.F.R. § 1301.74(b).

12. On or about January 17, 2017, Respondents entered into a Settlement Agreement with the United States Department of Justice and the DEA. In the Settlement Agreement, Respondents acknowledged that, at various times during the period covered by the Settlement Agreement, it did not identify or report to the DEA certain orders placed by certain pharmacies which should have been detected as suspicious in a manner fully consistent with the requirements set forth on the 2008 MOA, and based on the guidance contained in letters sent by the DEA about the requirements of 21 C.F.R. § 1301.74(b) and 21 U.S.C. § 842(a)(5). As a part of the Settlement Agreement, Respondents agreed to pay $150 million to the United States, and the DEA suspended the DEA registration of Respondent McKesson Corporation (OSD3275) from January 18, 2019 to January 18, 2021, and suspended Respondent McKesson Drug Co. (OSD4086) from January 17, 2017 to January 17, 2019.

SECOND CAUSE FOR DISCIPLINE

(Discipline by an Agency of the Federal Government and/or Another State)

13. Respondents McKesson Corporation and McKesson Drug Co are subject to disciplinary action under sections 141 and 4301 (n) for a disciplinary action taken by any agency of the federal government and by another state for any act substantially related to the practice regulated by the California license, as set forth in paragraph 12 above and incorporated by reference. In addition to the disciplinary action taken by the federal government, other state regulatory agencies disciplined Respondents for violations of state laws or regulations as a result

the disciplinary action taken by the federal government. Those states include, but are not limited to the following: the Idaho Board of Pharmacy, Case Nos. BOP 17-054 and BOP 17-055; and the State of Oregon, Board of Pharmacy, Case No. 2017-0291.

PRAYER

WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged, and that following the hearing, the Board of Pharmacy issue a decision:

1. Revoke or Suspend Out of State Distributor License Number OSD 3275, issued to Respondent McKesson Corporation, John Hammergren, CEO;

2. Revoke or Suspend Out of State Distributor License Number OSD 4086, issued to Respondent McKesson Drug Co., John Hammergren, CEO;

3. Ordering Respondents to pay the Board of Pharmacy the reasonable costs of the investigation and enforcement of this case, pursuant to Business and Professions Code section 125.3; and,

4. Taking such other and further action as deemed necessary and proper.

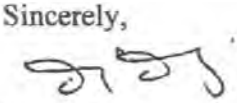
RE: License Number: WHO.7035
Case Number: 2019-3776

Dear Mr. Morford:



This letter is McKesson Corporation's ("McKesson") response to the Colorado State Board of Pharmacy's ("Board") Complaint (Case Number 2019-3776), dated June 3rd, 2019[1]. The Complaint alleges that McKesson's O'Fallon, Missouri distribution center (License Number: WHO.7035) failed to provide timely notice of a change in the Designated Representative in violation of Colo. Code Regs. 719-1:15.01.14(c). I acknowledge the untimely notification and sincerely apologize for the oversight. As explained below, procedures were in place to properly notify the Board of the change.

I assumed the duties of Designated Representative of the O'Fallon distribution center in place of Tom Hughes on April 1, 2019. Upon the change, our internal licensing team prepared all required notices to state boards and regulatory authorities, including Colorado. These notices and forms were sent to me for my final review. Upon my review and signature, the notices were mailed to the respective boards. Unfortunately, this was not the case with Colorado. There was an internal misunderstanding of where and how to submit the registration and fingerprints cards and that led to the untimely notification. Upon discovery we immediately took steps to correct the problem and submitted the application that same day.

Again, I acknowledge the untimely notification and sincerely apologize for this oversight. I understand the notification requirements under the law and I take my responsibility as Designated Representative seriously. McKesson has appropriate procedures in place to ensure compliance with applicable laws and regulations; the failure to provide timely notice to the Board in this instance was due to human error.

I look forward to working with the Board to promptly resolve this matter. If you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

Travis Flieg

[1] Please note that the Board's letter, which was sent to McKesson via email on July 24, 2019, was dated June 3, 2019.

Re: License Number: WHO.0007035
Case Number: 2019-3776

Dear: Designated Representative,

The Colorado Board of Pharmacy ("Board") reviewed the available material concerning the above referenced case. After thorough review, the Board found probable cause to believe you violated the Pharmacy Practice Act and issues this Letter of Admonition in accordance with 12-42.5-124(6)(a).

51 days transpired between the 4/1/19 date the previous designated representative of Respondent Wholesaler ceased that position and the 5/22/19 date Respondent Wholesaler submitted an application and fee detailing a change in its designated representative. Pursuant to Board Rule 15.01.11(b), changes in any information in section 15.01.11 shall be submitted to the Board within thirty calendar days thereof. The Board did not receive the required notification.

By this letter, the Board takes the formal disciplinary action of admonishing you for the conduct specified above, and warns you that repetition of such practice may lead to imposition of more severe disciplinary action. This letter is an open public record and a reportable action to individuals or entities requesting disciplinary information. The Board strongly encourages you to review and understand the Pharmacy Practice Act requirements and obligations for the practice of pharmacy in Colorado.

In accordance with 12-42.5-124(6)(b), the Board advises you that you have the right to make a written request that the Board initiate formal disciplinary proceedings in order to adjudicate the conduct or acts upon which this letter is based. You must make your written request within twenty (20) days after receipt of this letter and address your request to Dmitry Kunin, Program Director, at the address listed below. If you make a timely request, the Board will deem this letter of admonition vacated and may proceed with disciplinary and/or injunctive proceedings in accordance with 12-42.5-124(c), C.R.S., and applicable rules.

A Letter of Admonition, when accepted, becomes a permanent, public portion of your record. It is not, however, a restriction on your practice as a professional pharmacist.

If you have further questions or concerns, please visit our website at https://www.colorado.gov/dora/dpo or you can contact our office at dora_pharmacyboard@state.co.us or by calling (303) 894-7800.

Sincerely,

FOR THE COLORADO STATE BOARD OF PHARMACY

RE: Case No. 2019-5119 - Stipulation and Final Agency Order

Dear Pharmacy Manager:

Staff for the Colorado State Board of Pharmacy ("Board") has reviewed the terms and conditions of the above listed Stipulation and Final Agency Order effective October 4, 2019.

After due consideration, and pursuant to Board Policy 10-6, staff for the Board released you from the terms and conditions of the October 4, 2019, Stipulation and Final Agency Order and restored your Registration No. WHO.0007154 to unencumbered status.

Although this disciplinary action will remain a public document, our records show that the requirements of your Order are complete. Please retain this letter for your records.

Your cooperation during the pendency of this matter is sincerely appreciated.

Respectfully,

FOR THE COLORADO STATE BOARD OF PHARMACY

RE: License Number: WHO.7154
Case Number: 2019-5119

Dear Ms. Hyatte:

This letter is McKesson Corporation's ("McKesson") response to the Colorado State Board of Pharmacy's ("Board") July 24, 2019[1] Complaint (Case Number: 2019-5119). The Complaint alleges that McKesson's Chicagoland, Illinois distribution center (License Number: WHO.7154) failed to provide timely notice of a change in the Designated Representative in violation of Colo. Code Regs. 719-1:15.01.14(c). I acknowledge the untimely notification and sincerely apologize for the oversight. As explained below, procedures were in place to properly notify the Board of the change. However, there was an internal misunderstanding of the need to submit background check results with the notice of change that led to the untimely notification.

I assumed the duties of Designated Representative of the Chicagoland distribution center in place of Robert Perrich on May 1, 2019. Upon the change, our internal licensing team prepared all required notices to state boards and regulatory authorities, including Colorado. These notices and forms were sent to me for my final review. Upon my review and signature, the notices were mailed to the respective boards. Unfortunately, this was not the case with Colorado. Our internal licensing team was under the impression that we needed to receive the fingerprint results from IdentoGo before we could submit the Change of Designated Representative application to the Board.

On July 7, 2019, I received a phone call from the Colorado Bureau of Investigations to let me know they had received the fingerprint cards but the results had not yet been "pulled" by the Board. It was not until then that I realized our licensing team had not sent the Change of

[1] Please note, the Board's letter, which was sent to McKesson via email on July 24, 2019, is erroneously dated as June 3, 2019.

Designated Representative application to the Board. Upon discovery we immediately took steps to correct the problem and submitted the application that same day.

Again, I acknowledge the untimely notification and sincerely apologize for this oversight. I understand the notification requirements under the law and I take my responsibility as Designated Representative seriously. McKesson has appropriate procedures in place to ensure compliance with applicable laws and regulations. Our failure to provide timely notice to the Board in this instance was due to human error and a misunderstanding.

I look forward to working with the Board to promptly resolve this matter. If you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

Nicholas Davis

BEFORE THE STATE BOARD OF PHARMACY

STATE OF COLORADO

Case No. 2019-5119

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE OUT-OF-STATE PRESCRIPTION DRUG WHOLESALER REGISTRATION IN THE STATE OF COLORADO OF MCKESSON CORPORATION, REGISTRATION NO. WHO 7154,

Respondent Outlet.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and McKesson Corporation ("Respondent Outlet") to resolve all matters pertaining to Board Case Number 2019-5119, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Outlet, its registration as an out-of-state prescription drug wholesaler, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2018).

2. Respondent Outlet was originally registered in the State of Colorado on or about January 24, 2007, being issued registration #WHO 7154, and has been so registered at all times relevant to this disciplinary action.

3. Respondent Outlet's address of record with the Board and current location is 1995 McKesson St, Ste 101, Aurora, IL 60502.

4. Respondent Outlet admits these findings and hereby waives any further proof in this proceeding before the Board regarding the following facts.

5. Respondent Outlet failed to timely submit to the Board an application detailing a change in designated representative and fee. In this case, 76 days transpired between May 1, 2019, the date the previous designated representative ceased the position, and July 16, 2019, the date the application and fee were received.

6. On or about July 24, 2019, the Board initiated a complaint against Respondent Outlet because of the delay of 76 days in submitting an application detailing a change in designated representative and fee.

7. Respondent Outlet's conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes and Board Regulations:

Colorado Revised Statutes

12-42.5-123. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(II) The lawful rules of the board.

* * *

Pharmacy Board Rules and Regulations

15.01.14 Change of name, location, or ownership, or designated representative.

c. Any change in the designated representative of a wholesaler shall be reported to the Board on a form supplied by the Board within thirty calendar days of such change. The incoming designated representative must undergo the required background check.

TERMS OF DISCIPLINE

8. **Fine with Surcharge.** Pursuant to section 12-42.5-124(5)(a)(I), C.R.S., Respondent Outlet shall pay a fine of One Thousand Dollars and No Cents ($1,000.00). Respondent Outlet understands and acknowledges that, pursuant to section 24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies may impose an additional surcharge of 15% of this fine. Respondent Outlet shall therefore pay a total amount of **One Thousand One Hundred Fifty Dollars and No Cents ($1,150.00)**. The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Outlet submits this signed Final Agency Order to the Board.

9. **Compliance.** Respondent Outlet shall submit all future applications and appropriate fees to the Board detailing changes in designated representative within the required time frame specified by Board rule or statute in effect at the time of such designated representative change.

10. **Other Requirements.** Respondent Outlet acknowledges and agrees that, as a condition of this Final Agency Order, Respondent Outlet shall:

    a. promptly pay all Respondent Outlet's own fees and costs associated with this Final Agency Order;

    b. comply fully with this Final Agency Order; and

    c. comply fully with the Pharmacists, Pharmacy Businesses and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmacists and pharmaceuticals in the State of Colorado.

11. **Advisements and Waivers.** Through its undersigned Authorized Representative, Respondent Outlet enters into this Final Agency Order freely and voluntarily, after having the opportunity to consult with legal counsel and/or choosing not to do so. Respondent Outlet acknowledges its understanding that it has the following rights:

    a. to have formal notice of hearing and charges served upon it;

    b. to respond to said formal notice of charges;

    c. to have a formal disciplinary hearing pursuant to sections 12-42.5-123 and 12-42.5-124, C.R.S.; and

    d. to appeal this Final Agency Order.

    Respondent Outlet freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against Respondent Outlet to the sanctions imposed herein.

12. **Acknowledgments.** The undersigned Authorized Representative of Respondent Outlet has read this Final Agency Order in its entirety and acknowledges, after having the opportunity to consult with legal counsel and/or choosing not to do so, that Respondent Outlet understands the legal consequences and agrees that none of the terms or conditions herein is unconscionable. Respondent Outlet is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Outlet further acknowledges that it is not entering into this Final Agency Order under any duress.

13. **Violations.** Time is of the essence in this Final Agency Order. It is the responsibility of Respondent Outlet to take all appropriate steps to comply fully with this Final Agency Order. Respondent Outlet acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under section 12-42.5-124(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent Outlet's registration. The pendency of any suspension

or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Outlet to comply with all terms and conditions of this Final Agency Order.

14. **Integration and Severability**. Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

15. **Public Record**. Upon execution by all parties, this Stipulation and Final Agency Order shall be a public record, maintained in the custody of the Board.

16. **Effective Date**. This Final Agency Order shall become effective upon (a) mailing by first-class mail to Respondent Outlet at Respondent Outlet's address of record with the Board, or (b) service by electronic means on Respondent Outlet at Respondent Outlet's electronic address of record. Respondent Outlet hereby consents to service by electronic means if Respondent Outlet has an electronic address on file with the Board.

ACCEPTED AND AGREED BY

BEFORE THE IOWA BOARD OF PHARMACY

RE: Wholesaler License and Controlled Substances Act Registration of **MCKESSON DRUG COMPANY** License No. 7987 Registration No. 2212001 Respondent	CASE NO. 2019-0047 **COMBINED STATEMENT OF CHARGES, SETTLEMENT AGREEMENT, AND FINAL ORDER**

COME NOW the Iowa Board of Pharmacy ("Board") and McKesson Drug Company ("Respondent"), 2101 12th Ave S, Clear Lake IA 50428, and enter into this Combined Statement of Charges, Settlement Agreement, and Final Order ("Order") pursuant to Iowa Code sections 17A.10 and 272C.3(4), and 657 IAC 35.5. The Board has jurisdiction over Respondent and the subject matter of this case pursuant to Iowa Code chapters 17A, 124, 155A, and 272C (2019), and 657 IAC 36.

A. STATEMENT OF CHARGES

COUNT I
FAILURE TO TAKE COMPLETE INVENTORY

1. Respondent is charged with failing to comply with the requirements in 657 IAC 10.19 to take a complete and accurate inventory of all stocks of controlled substances, and may be disciplined pursuant to Iowa Code sections 124.304(1)(d) and 155A.17(4), and 657 IAC 10.44(5), 36.6(28).

B. FACTUAL CIRCUMSTANCES

2. Respondent's wholesaler license number 7987 is currently active through December 31, 2019. Respondent's Controlled Substances Act registration number 2212001 is currently active through January 31, 2021.

3. Respondent failed to include pseudoephedrine products in the annual controlled substance inventory.

4. Respondent failed to take an initial inventory of butalbital products after such products became schedule III controlled substances on June 26, 2019.

C. SETTLEMENT AGREEMENT AND FINAL ORDER

5. The Board has jurisdiction over the parties and the subject matter of these proceedings.

6. Respondent acknowledges that the allegations in the Statement of Charges, if proven in a contested case hearing, would constitute grounds for the discipline agreed to in this Order.

7. Execution of this Order constitutes the resolution of a contested case. Respondent has a right to hearing before the Board on the charges, but Respondent waives the right to hearing and all attendant rights, including the right to appeal or seek judicial review of the Board's action, by freely and voluntarily entering into this Order. Once entered, this Order shall have the force and effect of a disciplinary order entered following a contested case hearing.

8. Respondent acknowledges that it has the right to be represented by counsel on this matter.

9. Respondent agrees that the State's counsel may present this Order to the Board and may have *ex parte* communications with the Board while presenting it.

10. This Order is subject to approval by a majority of the full Board. If the Board does not approve this Order, it shall be of no force or effect to either party, and shall not be admissible for any purpose in further proceedings in this matter. If the Board approves this Order, it shall be the full and final resolution of this matter.

11. This Order shall be part of Respondent's permanent record and shall be considered by the Board in determining the nature and severity of any disciplinary action to be imposed in the event of any future violations.

12. Respondent understands the Board is required by federal law to report any adverse action to the National Association of Boards of Pharmacy's Disciplinary Clearinghouse and the National Practitioner Data Bank. These reports shall be the only reports or publications the Board will make regarding this settlement.

13. This Order, when fully executed, is a public record and is available for inspection and copying in accordance with the requirements of Iowa Code chapters 22 and 272C.

14. The Board's approval of this Order shall constitute a **FINAL ORDER** of the Board.

IT IS THEREFORE ORDERED:

15. Respondent is hereby **CITED** for failing to comply with the requirements in 657 IAC 10.19 to take a complete and accurate inventory of all stocks of controlled substances and **WARNED** that future violations of the laws and rules governing wholesalers can result in further disciplinary action.

16. Respondent shall pay a **CIVIL PENALTY** in the amount of five thousand dollars ($5,000) within sixty (60) days of this Order. The check shall be made payable to the "Treasurer of Iowa" and shall be deposited in the general fund. The civil penalty should be mailed to the Iowa Board of Pharmacy, Attn: Amanda Woltz, 400 SW 8th St, Ste E, Des Moines IA 50309.

17. Should Respondent violate the terms of this Order, the Board may initiate action to impose other licensee discipline as authorized by Iowa Code chapters 155A and 272C and 657 IAC 36.

By the signature below, Ammie McAsey acknowledges s/he is the SVP Distribution Operations for Respondent and is authorized to sign this Combined Statement of Charges, Settlement Agreement, and Final Order on behalf of Respondent.

BEFORE THE INDIANA BOARD OF PHARMACY
CAUSE NUMBER: 2019 IBP 0041

IN THE MATTER OF THE LICENSE OF:)
)
McKESSON DRUG COMPANY)
LICENSE NO: 48000550A)

FINAL ORDER ACCEPTING PROPOSED FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

The State of Indiana ("Petitioner"), by counsel Timothy M. Weber, Deputy Attorney General, and McKesson Drug Company ("Respondent"), by counsel Randall Fearnow, signed a Proposed Settlement Agreement ("Agreement") which purports to resolve all issues involved in the action regarding Respondent's license before the Indiana Board of Pharmacy ("Board"), and which Agreement has been submitted to the Board for approval.

The Board, after reviewing the Agreement at the January 13, 2020 meeting held in Room W064 of the Indiana Government Center South, 402 West Washington Street, Indianapolis, Indiana, now finds it has been entered into fairly and without fraud, duress, or undue influence, and is fair and equitable between the parties. The Board hereby incorporates the Agreement which is attached hereto and incorporated herein as **Exhibit A** and approves and adopts in full the Agreement as a resolution of this matter. The Board approved this Agreement by a vote of 6-0-0. Incorporated into the Agreement was the consensus of both parties to Findings of Fact, Conclusions of Law, and Order.

WHEREFORE, the Board hereby accepts and approves the Agreement, settling all matters in this case consistent with the terms of the Agreement between the parties, and Respondent is hereby **ORDERED** to abide by all the terms of the Agreement as set forth below:

1. Respondent's license to practice as a wholesale drug distributor in the state of Indiana shall be placed on **INDEFINITE PROBATION**. As a term of this probation, and with the exception of the activities discussed in Paragraph 3 below, Respondent may not distribute controlled substances into Indiana effective as of the effective date of the Agreement until Respondent's DEA Registration is fully re-instated on or about February 16, 2021. In the event that Respondent's DEA Registration will remain suspended beyond February 16, 2021, Respondent shall notify the Board prior to the date of the continued suspension of its DEA Registration and the date that the suspension of its DEA Registration will terminate.

2. After the DEA Registration is fully re-instated, Respondent may submit a Petition to Withdraw the Probation to request that the probation be lifted.

3. The restriction of Respondent's ability to distribute controlled substances in the state of Indiana shall not apply to or limit Respondent's authority to distribute, or Respondent's operations involving, List 1 chemical products at or from Respondent which are authorized under Respondent's DEA Registration. Respondent is permitted, at its option, to possess and distribute controlled substances to federal customers under Respondent's exclusive contract with the United States Department of Veteran Affairs.

4. Respondent shall fully comply with the 2017 Agreements and any amendments or modifications thereto, entered into by Respondent and the United States Department of Justice and Drug Enforcement Administration, and effective on January 17, 2017.

5. Within **NINETY (90) DAYS** of the final order in this matter, Respondent shall pay a **FINE** in the amount of **ONE THOUSAND DOLLARS ($1,000.00)**. This fine shall be paid by check or money order payable to the Indiana Professional Licensing Agency, and submitted to the following address:

Indiana Professional Licensing Agency
Attn: Board of Pharmacy
402 W. Washington Street, Room W072
Indianapolis, IN 46204

6. Within **NINETY (90) DAYS** of the final order in this matter, Respondent shall, pursuant to Ind. Code § 4-6-14-10(b), pay a **FEE** in the amount of **FIVE DOLLARS ($5.00)** to be deposited into the Health Records and Personal Identifying Information Protection Trust Fund. This fee shall be paid by check or money order payable to the State of Indiana, and submitted to the following address:

Office of the Indiana Attorney General
Attn: Executive Assistant, Consumer Protection Division
302 West Washington Street, 5th Floor
Indianapolis, IN 46204

7. A violation of the Final Order, any non-compliance with the statutes or regulations regarding the practice of wholesale drug distribution, or any violation of this Agreement may result in Petitioner requesting a summary suspension of Respondent's license, an Order to Show Cause as may be issued by the Board, or a new cause of action pursuant to Ind. Code § 25-1-9-4, any or all of which could lead to additional sanctions, up to and including a revocation of Respondent's license.

SO ORDERED, this 19th day of February 2020.

McKESSON DRUG COMPANY)
LICENSE NO: 48000550A)

FILED
JAN 08 2020
Indiana Professional Licensing Agency

SETTLEMENT AGREEMENT

The State of Indiana ("Petitioner"), by Timothy M. Weber, Deputy Attorney General, and McKesson Drug Company ("Respondent"), by counsel, Randall Fearnow, hereby execute this Settlement Agreement ("Agreement") to resolve all issues raised by the filing of the Petitioner's Complaint in the above captioned matter and the Respondent's objections thereto. This Agreement is subject to the review and approval of the Indiana Board of Pharmacy ("Board") pursuant to Ind. Code § 25-1-9 and Ind. Code § 4-21.5-3.

STIPULATED FACTS

1. Respondent is a licensed wholesale drug distributor in the State of Indiana having been issued license number 48000550A.

2. Respondent's address is 2000 Kenskill Ave., Washington Court House, Ohio 43160.

3. Respondent is one of several wholesale distribution centers operated by its parent company, McKesson Corporation (parent company hereinafter referred to as "McKesson").

4. On January 17, 2017, McKesson entered into a Settlement Agreement and Release and an Administrative Memorandum of Agreement (collectively, the "2017 Agreement") with the Drug Enforcement Agency ("DEA") and the Department of Justice ("DOJ"). Pursuant to the terms of the 2017 Agreement, the parties agreed in relevant part.

EXHIBIT A

a. At times relevant to the 2017 Agreement, McKesson's distribution centers were required to operate in accordance with the statutory provisions of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. §§ 801 *et seq.* ("CSA"), and the regulations promulgated thereunder, 21 C.F.R. Part 1300 *et seq.*

b. The regulations promulgated under the CSA include a requirement to design and operate a system to detect and report "suspicious orders" for controlled substances, as that term is defined in the regulation.

c. In 2006 and 2007, the DEA sent letters to every entity in the United States that was registered with the DEA to manufacture or distribute controlled substances, including McKesson (the "DEA Letters"). The letters contained guidance for the identification and reporting of suspicious orders to DEA, as required by 21 C.F.R. § 1301.74(b).

d. In 2008, McKesson entered into a settlement with the DOJ and a Memorandum of Agreement with the DEA (collectively referred to as the "2008 Agreements").

e. The 2017 Agreement covers the time period of January 1, 2009 through the date of the last signatory to the 2017 Agreement, which was on January 17, 2017 ("Covered Time Period").

5. Pursuant to the 2017 Agreement, Respondent's DEA Certificate of Registration ("DEA Registration") will be suspended between February 16, 2019 and February 16, 2021 with a partial exception to possess and distribute controlled substances related to servicing federal customers that purchase from Respondent under an exclusive contract with the United States Department of Veterans

Affairs. The suspension does not apply to or limit McKesson's authority to distribute, or operations involving List 1 Chemical products.

6. Indiana Code § 25-1-9-4(a)(3) allows the Board to discipline a practitioner if the Board finds that the practitioner has knowingly violated any state statute or rule, or federal statute or regulation, regulating the profession in question.

7. Indiana Code § 25-26-14-17(10) requires a wholesale distributor, if involved in the distribution of controlled substances, to maintain registration with the federal Drug Enforcement Agency.

STIPULATED CONCLUSION OF LAW

The parties further stipulate Respondent's Indiana license is subject to discipline in accordance with Indiana Code § 25-1-9-4(a)(3) because Respondent's DEA Registration was suspended; therefore, it did not maintain registration with the DEA as required by Indiana Code § 25-26-14-17(10).

AGREED DISPOSITION

It is now therefore agreed by Respondent and Petitioner as follows:

1. Both parties voluntarily waive their rights to a public hearing on the Complaint and all other proceedings in this action to which either party may be entitled by law, including judicial review and appeal.

2. This Agreement resolves any and all pending claims or allegations relating to disciplinary action against the Respondent's Indiana wholesale drug distributor license.

3. Respondent's license to practice as a wholesale drug distributor in the state of Indiana is hereby placed on INDEFINITE PROBATION. As a term of this probation, and with the exception of the activities discussed in Paragraph 5 below, Respondent may not distribute controlled substances into Indiana effective as of the effective date of this Agreement until Respondent's DEA Registration is fully

re-instated on or about February 16, 2021. In the event that Respondent's DEA Registration will remain suspended beyond February 16, 2021, Respondent shall notify the Board prior to the date of the continued suspension of its DEA Registration and the date that the suspension of its DEA Registration will terminate.

4. After the DEA Registration is fully re-instated, Respondent may submit a Petition to Withdraw the Probation to request that the probation be lifted.

5. The restriction of Respondent's ability to distribute controlled substances in the state of Indiana shall not apply to or limit Respondent's authority to distribute, or Respondent's operations involving, List 1 chemical products at or from Respondent which are authorized under Respondent's DEA Registration. Respondent is permitted, at its option, to possess and distribute controlled substances to federal customers under McKesson's exclusive contract with the United States Department of Veterans Affairs.

6. Respondent shall fully comply with the 2017 Agreement and any amendments or modifications thereto, entered into by Respondent and the United States Department of Justice, Drug Enforcement Administration and effective on January 17, 2017.

7. Within ninety (90) days of the Board's Final Order accepting this Agreement, Respondent shall pay a **FINE** in the amount of **ONE THOUSAND DOLLARS ($1,000.00).** This fine shall be paid by check or money order payable to the Indiana Professional Licensing Agency, and submitted to the following address:

Indiana Professional Licensing Agency
Attn: Board of Pharmacy
402 W. Washington Street, Room W072
Indianapolis, Indiana 46204

8. Within **NINETY (90) DAYS** of the Final Order, Respondent shall, pursuant to Ind. Code § 4-6-14-10(b), pay a **FEE** in the amount of **FIVE DOLLARS ($5.00)** to be deposited into the Health Records and Personal Identifying Information Protection Trust Fund. This fee shall be paid by check or money order payable to the State of Indiana, and submitted to the following address:

Office of the Indiana Attorney General
Attn: Teresa Henson
302 West Washington Street, 5th Floor
Indianapolis, IN 46204

9. Respondent has carefully read and examined this Agreement and fully understands its terms and that, subject to approval by the Board, this Agreement is a final disposition of the Allegations.

10. The hearing set in this matter shall be vacated upon approval of the Board.

IN WITNESS WHEREOF, the undersigned, authorized representatives of the parties, affix their signatures hereto evidencing their acceptance of this Agreement.

BEFORE THE
BOARD OF PHARMACY
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA

In the Matter of the First Amended Accusation Against: **MCKESSON CORPORATION, DBA MCKESSON DRUG COMPANY** **9501 Norwalk Boulevard** **Santa Fe Springs, CA 90670** **Designated Representative No. EXC 17318,** **and** **JOHN F. BOHLINGER** **9501 Norwalk Blvd.** **Santa Fe Springs, CA 90670** **Designated Representative No. EXC 17318** Respondents.	Case No. 6850 OAH No. 2021050035 **STIPULATED SETTLEMENT AND DISCIPLINARY ORDER FOR PUBLIC REPROVAL (AS TO JOHN F. BOHLINGER, ONLY)** **[Bus. & Prof. Code § 495]**

IT IS HEREBY STIPULATED AND AGREED by and between the parties to the above-entitled proceedings that the following matters are true:

PARTIES

1. Anne Sodergren (Complainant) is the Executive Officer of the Board of Pharmacy (Board). She brought this action solely in her official capacity and is represented in this matter by Rob Bonta, Attorney General of the State of California, by Christina Thomas, Deputy Attorney General.

2. Respondent John F. Bohlinger is represented in this proceeding by attorney Alissa Brice Castaneda, whose address is: Quarles & Brady LLP One Renaissance Square Two North Central Avenue Phoenix, AZ 85004-2391

JURISDICTION

3. On or about January 21, 2004, the Board issued Designated Representative License No. EXC 17318 to John F. Bohlinger. The Designated Representative License was in full force and effect at all times relevant to the charges brought in First Amended Accusation No. 6850 and will expire on January 1, 2023, unless renewed.

4. First Amended Accusation No. 6850 was filed before the Board of Pharmacy, Department of Consumer Affairs and is currently pending against Respondent. The First Amended Accusation and all other statutorily required documents were properly served on Respondent on January 4, 2021. Respondent timely filed his Notice of Defense contesting the First Amended Accusation. A copy of First Amended Accusation No. 6850 is attached as exhibit A and incorporated herein by reference.

ADVISEMENT AND WAIVERS

5. Respondent has carefully read, fully discussed with counsel, and understands the charges and allegations in First Amended Accusation No. 6850. Respondent has also carefully read, fully discussed with counsel, and understands the effects of this Stipulated Settlement and Disciplinary Order for Public Reproval.

6. Respondent is fully aware of his legal rights in this matter, including the right to a hearing on the charges and allegations in the First Amended Accusation; the right to be represented by counsel at his own expense; the right to confront and cross-examine the witnesses against him; the right to present evidence and to testify on his own behalf; the right to the issuance of subpoenas to compel the attendance of witnesses and the production of documents; the right to reconsideration and court review of an adverse decision; and all other rights accorded by the California Administrative Procedure Act and other applicable laws.

///

7. Respondent voluntarily, knowingly, and intelligently waives and gives up each and every right set forth above.

CULPABILITY

8. Respondent denies the allegations in First Amended Accusation No. 6850.

9. For the purpose of resolving the First Amended Accusation without the expense and uncertainty of further proceedings, Respondent hereby gives up his right to contest those charges.

10. Respondent agrees that his Designated Representative is subject to discipline and he agrees to be bound by the Disciplinary Order below.

CONTINGENCY

11. This stipulation shall be subject to approval by the Board of Pharmacy. Respondent understands and agrees that counsel for Complainant and the staff of the Board of Pharmacy may communicate directly with the Board regarding this stipulation and settlement, without notice to or participation by Respondent or his counsel. By signing the stipulation, Respondent understands and agrees that he may not withdraw his agreement or seek to rescind the stipulation prior to the time the Board considers and acts upon it. If the Board fails to adopt this stipulation as its Decision and Order, the Stipulated Settlement and Disciplinary Order for Public Reproval shall be of no force or effect, except for this paragraph, it shall be inadmissible in any legal action between the parties, and the Board shall not be disqualified from further action by having considered this matter.

12. The parties understand and agree that Portable Document Format (PDF) and facsimile copies of this Stipulated Settlement and Disciplinary Order for Public Reproval, including PDF and facsimile signatures thereto, shall have the same force and effect as the originals.

13. This Stipulated Settlement and Disciplinary Order for Public Reproval is intended by the parties to be an integrated writing representing the complete, final, and exclusive embodiment of their agreement. It supersedes any and all prior or contemporaneous agreements, understandings, discussions, negotiations, and commitments (written or oral). This Stipulated Settlement and Disciplinary Order for Public Reproval may not be altered, amended, modified,

supplemented, or otherwise changed except by a writing executed by an authorized representative of each of the parties.

14. In consideration of the foregoing admissions and stipulations, the parties agree that the Board may, without further notice or formal proceeding, issue and enter the following Disciplinary Order:

DISCIPLINARY ORDER

IT IS HEREBY ORDERED that Designated Representative License No. EXC 17318 issued to Respondent John F. Bohlinger shall be publicly reproved by the Board of Pharmacy under Business and Professions Code section 495 in resolution of First Amended Accusation No. 6850, attached as exhibit A.

Coursework. No later than six months from the effective date of the public reproval, Respondent, at his own expense, shall enroll, successfully complete and submit verification of a six- hour course relevant to the Drug Supply Chain Security as specified by the Board. Respondent shall obtain prior approval from the Board before enrolling in the course. Respondent shall submit to the Board the original transcripts or certificates of completion for the above-required course.

Full Compliance. As a resolution of the charges in First Amended Accusation No. 6850, this stipulated settlement is contingent upon Respondent's full compliance with all conditions of this Order. If Respondent fails to satisfy any of these conditions, such failure to comply constitutes cause for discipline, including outright revocation, of Respondent's Designated Representative License No. EXC 17318.

ACCEPTANCE

I have carefully read the above Stipulated Settlement and Disciplinary Order for Public Reproval and have fully discussed it with my attorney, Alissa Brice Castaneda. I understand the stipulation and the effect it will have on my Designated Representative License. I enter into this Stipulated Settlement and Disciplinary Order for Public Reproval voluntarily, knowingly, and intelligently, and agree to be bound by the Decision and Order of the Board of Pharmacy.

STATE OF CALIFORNIA

In the Matter of the Accusation Against: **MCKESSON CORPORATION, DBA MCKESSON DRUG COMPANY** **9501 S. Norwalk** **Santa Fe Springs, CA 90670** **Wholesale Permit No. WLS 3076,** **and** **JOHN F. BOHLINGER** **9501 Norwalk Blvd.** **Santa Fe Springs, CA 90670** **Designated Representative No. EXC 17318** Respondents.	Case No. 6850 **FIRST AMENDED ACCUSATION**

PARTIES

1. Anne Sodergren (Complainant) brings this First Amended Accusation solely in her official capacity as the Executive Officer of the Board of Pharmacy, Department of Consumer Affairs.

2. On or about October 2, 1995, the Board of Pharmacy issued Wholesale Permit Number WLS 3076 to McKesson Corporation, dba McKesson Drug Company (Respondent

McKesson). The Wholesale Permit was in full force and effect at all times relevant to the charges brought herein and will expire on October 1, 2021, *unless renewed.*

3. On or about January 21, 2004, the Board of Pharmacy issued Original Certificate Number EXC 17318 to John F. Bohlinger (Respondent Bohlinger) to act as a Designated Representative. The certificate was in full force and effect at all times relevant to the charges brought herein and will expire on January 1, 2021, unless renewed.

JURISDICTION

4. This Accusation is brought before the Board of Pharmacy (Board), Department of Consumer Affairs, under the authority of the following laws. All section references are to the Business and Professions Code (Code) unless otherwise indicated.

5. Section 4300 of the Code states:

> (a) Every license issued may be suspended or revoked.
>
> (b) The board shall discipline the holder of any license issued by the board, whose default has been entered or whose case has been heard by the board and found guilty, by any of the following methods:
>
> (1) Suspending judgment.
>
> (2) Placing him or her upon probation.
>
> (3) Suspending his or her right to practice for a period not exceeding one year.
>
> (4) Revoking his or her license.
>
> (5) Taking any other action in relation to disciplining him or her as the board in its discretion may deem proper.

6. Section 4307 of the Code states:

> (a) Any person who has been denied a license or whose license has been revoked or is under suspension, or who has failed to renew his or her license while it was under suspension, or who has been a manager, administrator, owner, member, officer, director, associate, partner, or any other person with management or control of any partnership, corporation, trust, firm, or association whose application for a license has been denied or revoked, is under suspension or has been placed on probation, and while acting as the manager, administrator, owner, member, officer, director, associate, partner, or any other person with management or control had knowledge of or knowingly participated in any conduct for which the license was denied, revoked, suspended, or placed on probation, shall be prohibited from serving as a manager, administrator, owner, member, officer, director, associate, partner, or in any other position with management or control of a licensee as follows:

(1) Where a probationary license is issued or where an existing license is placed on probation, this prohibition shall remain in effect for a period not to exceed five years.

(2) Where the license is denied or revoked, the prohibition shall continue until the license is issued or reinstated.

(b) "Manager, administrator, owner, member, officer, director, associate, partner, or any other person with management or control of a license" as used in this section and Section 4308, may refer to a pharmacist or to any other person who serves in such capacity in or for a licensee.

(c) The provisions of subdivision (a) may be alleged in any pleading filed pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of the Government Code. However, no order may be issued in that case except as to a person who is named in the caption, as to whom the pleading alleges the applicability of this section, and where the person has been given notice of the proceeding as required by Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of the Government Code. The authority to proceed as provided by this subdivision shall be in addition to the board's authority to proceed under Section 4339 or any other provision of law.

STATUTORY PROVISIONS

7. Section 4301 of the Code states, in pertinent part:

The board shall take action against any holder of a license who is guilty of unprofessional conduct or whose license has been issued by mistake. Unprofessional conduct shall include, but is not limited to, any of the following:

...

(e) The clearly excessive furnishing of controlled substances in violation of subdivision (a) of Section 11153.5 of the Health and Safety Code. Factors to be considered in determining whether the furnishing of controlled substances is clearly excessive shall include, but not be limited to, the amount of controlled substances furnished, the previous ordering pattern of the customer (including size and frequency of orders), the type and size of the customer, and where and to whom the customer distributes its product.

...

(j) The violation of any of the statutes of this state, of any other state, or of the United States regulating controlled substances and dangerous drugs.

...

(*o*) Violating or attempting to violate, directly or indirectly, or assisting in or abetting the violation of or conspiring to violate any provision or term of this chapter or of the applicable federal and state laws and regulations governing pharmacy, including regulations established by the board or by any other state or federal regulatory agency.

///

8. California Health and Safety Code section 11153.5 states, in pertinent part:

(a) No wholesaler or manufacturer, or agent or employee of a wholesaler or manufacturer, shall furnish controlled substances for other than legitimate medical purposes."

...

(c) Factors to be considered in determining whether a wholesaler or manufacturer, or agent or employee of a wholesaler or manufacturer, furnished controlled substances knowing or having a conscious disregard for the fact that the controlled substances are for other than legitimate medical purposes shall include, but not be limited to, whether the use of controlled substances was for purposes of increasing athletic ability or performance, the amount of controlled substances furnished, the previous ordering pattern of the customer (including size and frequency of orders), the type and size of the customer, and where and to whom the customer distributes the product.

9. Section 4169.1 of the Code (effective January 1, 2018), states:

A wholesaler, upon discovery, shall notify the board in writing of any suspicious orders of controlled substances placed by a California-licensed pharmacy or wholesaler by providing the board a copy of the information that the wholesaler provides to the United States Drug Enforcement Administration. Suspicious orders include, but are not limited to, orders of unusual size, orders deviating substantially from a normal pattern, and orders of unusual frequency.

10. Section 4059.5, subsection (a), of the Code states:

(a) Except as otherwise provided in this chapter, dangerous drugs or dangerous devices may only be ordered by an entity licensed by the board and shall be delivered to the licensed premises and signed for and received by a pharmacist. Where a licensee is permitted to operate through a designated representative, or in the case of a reverse distributor a designated representative-reverse distributor, that individual shall sign for and receive the delivery.

REGULATORY PROVISIONS

11. Code of Federal Regulations, title 21, section 1301.74, subsection (b), states:

The registrant shall design and operate a system to disclose to the registrant suspicious orders of controlled substances. The registrant shall inform the Field Division Office of the Administration in his area of suspicious orders when discovered by the registrant. Suspicious orders include orders of unusual size, orders deviating substantially from a normal pattern, and orders of unusual frequency.

12. California Code of Regulations, title 16, section 1783, states, in pertinent part:

(a) A manufacturer or wholesaler shall furnish dangerous drugs or devices only to an authorized person; prior to furnishing dangerous drugs and devices to a person not known to the furnisher, the manufacturer or wholesaler shall contact the board or, if the person is licensed or registered by another government entity, that entity, to confirm the recipient is an authorized person.

(b) "Authorized person" means a person to whom the board has issued a permit which enables the permit holder to purchase dangerous drugs or devices for use within the scope of its permit. "Authorized person" also means any person in this state or in another jurisdiction within the United States to the extent such furnishing is authorized by the law of this state, any applicable federal law, and the law of the jurisdiction in which that person is located. The manufacturer or wholesaler furnishing to such person shall, prior to furnishing the dangerous drugs and devices, establish the intended recipient is legally authorized to receive the dangerous drugs or devices.

(c) Dangerous drugs or devices furnished by a manufacturer or wholesaler shall be delivered only to the premises listed on the permit; provided that a manufacturer or wholesaler may furnish drugs to an authorized person or an agent of that person at the premises of the manufacturer or wholesaler if (1) the identity and authorization of the recipient is properly established and (2) this method of receipt is employed only to meet the immediate needs of a particular patient of the authorized person. Dangerous drugs or devices may be furnished to a hospital pharmacy receiving area provided that a pharmacist or authorized receiving personnel signs, at the time of delivery, a receipt showing the type and quantity of the dangerous drugs or devices so received. Any discrepancy between the receipt and the type and quantity of dangerous drugs and devices actually received shall be reported to the delivering manufacturer or wholesaler by the next business day after the delivery to the pharmacy receiving area.

COST RECOVERY

13. Section 125.3 of the Code states, in pertinent part, that the Board may request the administrative law judge to direct a licentiate found to have committed a violation or violations of the licensing act to pay a sum not to exceed the reasonable costs of the investigation and enforcement of the case.

CONTROLLED SUBSTANCES / DANGEROUS DRUGS

14. Section 4021 of the Code states: "'Controlled substance' means any substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code."

15. Section 4022 of the Code states: "'Dangerous drug' or 'dangerous device' means any drug or device unsafe for self use, except veterinary drugs that are labeled as such, and includes the following:

(a) Any drug that bears the legend: 'Caution: federal law prohibits dispensing without prescription,' 'Rx only,' or words of similar import.

...

(c) Any other drug or device that by federal or state law can be lawfully dispensed only on prescription or furnished pursuant to Section 4006."

16. Phenergan with Codeine Syrup 6.25 mg – 10 mg / 5 ml is the brand name for promethazine with codeine syrup 6.25 mg-10 mg / 5 ml (P/C), a Schedule V controlled substance designated by California Health and Safety Code section 11058(c)(1) and a dangerous drug designated by California Business and Professions Code section 4022. It is used to treat coughing.

17. Xanax is the brand name for alprazolam, a Schedule IV controlled substance designated by California Health and Safety Code section 11057(d)(1) and a dangerous drug designated by California Business and Professions Code section 4022. It is used to treat anxiety.

FACTUAL ALLEGATIONS – CHILDREN'S MEDICAL CENTER PHARMACY

18. At all times relevant herein, the Children's Medical Center Pharmacy, also known as the Rady Children's Outpatient Pharmacy (Rady Pharmacy), was part of the Rady Children's Hospital of San Diego. According to its website, it is the only hospital in the San Diego area dedicated exclusively to pediatric healthcare.

19. Between May 7, 2017 and June 26, 2018, the Rady Pharmacy could not account for an inventory shortage of approximately 119 pints of P/C and 5,300 tablets of alprazolam 2mg. A pharmacy technician at the Rady Pharmacy had stolen these dangerous drugs and controlled substances for herself and her friends.

Promethazine with codeine syrup 6.25 mg-10 mg / 5 ml (P/C)

20. Based on Lexicomp Online, a collection of clinical database and clinical decision support tools, P/C is not recommended in pediatrics due to risk of adverse effects, such as slowed or difficult breathing, misuse, abuse, addiction, overdose, and death.

21. According to the pharmacy manager, the Rady Pharmacy did not use or dispense P/C because pediatric doctors did not prescribe P/C to children. On the rare occasion the doctor prescribed P/C, it would be during the winter season according to the pharmacy manager.

22. According to Respondent McKesson's sales records, Respondent McKesson sold, on average, less than two 16-ounce bottles of P/C **per year** to the Rady Pharmacy between January 2014 and August 2017. Beginning in September 2017, the sales of P/C displayed an irregular pattern compared to the previous ordering pattern:

P/C Sold from Respondent McKesson to the Rady Pharmacy	
Date	**Bottles (16oz) of P/C Sold**
September 2017	11
October 2017	7
November 2017	7
December 2017	10
January 2018	14
February 2018	10
March 2018	15
April 2018	10
May 2018	18
June 2018	17

23. When calculating the monthly percentage change in sales, there were sales of P/C which varied from 40% to 80% more than the sale from the previous month.

24. The orders for P/C beginning in September 2017 were significantly larger and were shipped in consecutive months from September 2017 to June 2018, which totaled approximately 119 pints or 56,287 ml of P/C.

Alprazolam 2mg

25. Alprazolam is available in dosages of 0.25 mg, 0.5 mg, 1 mg, and 2mg.

26. According to Lexicomp Online, alprazolam should be titrated and used at the lowest effective dose. Lexicomp provided the following dosing information: "*Children ≥ 7 years and Adolescents < 18 years: Limited data available... Initial: 0.005 to 0.02 mg/kg/dose 3 times daily... maximum of 0.02 mg/kg/dose.*" For example, if a child is 40 kg (about 88 pounds), the dosing range is from 0.2 to 0.8 mg per dose.

27. According to Respondent McKesson's sales records, Respondent McKesson sold, on average, one bottle of 100-count alprazolam 2mg **per year** between January 2014 and September 2017. Beginning in October 2017, the sales of alprazolam 2mg displayed an irregular pattern compared to the previous ordering pattern:

///

///

///

///

Alprazolam 2mg Sold from Respondent McKesson to the Rady Pharmacy	
Date	**Bottles (100-count) of alprazolam 2mg Sold**
October 2017	7
November 2017	9
December 2017	8
January 2018	4
February 2018	4
March 2018	4
April 2018	0
May 2018	15

28. When calculating the monthly percentage change in sales, there were sales of alprazolam 2mg which varied from 250% to 275% more than the sale from the previous month.

29. The orders for alprazolam 2mg beginning in October 2017 were significantly larger and were shipped in consecutive months (except April 2018) from October 2017 to May 2018, which totaled approximately 5,100 tablets of alprazolam 2 mg.

FIRST CAUSE FOR DISCIPLINE

(Unprofessional Conduct – Excessive Furnishing of Controlled Substances)

30. Respondents are subject to disciplinary action under Code section 4301, subsection (e), in that Respondents clearly and excessively furnished controlled substances in violation of California Health and Safety Code section 11153.5, subsection (a), as follows:

a. Respondents furnished the Rady Pharmacy one to two pints of P/C in non-consecutive months from January 2014 to August 2017. Sales increased to seven to 18 pints ordered in consecutive months from September 2017 to June 2018.

b. Respondents furnished the Rady Pharmacy 100 to 200 tablets of alprazolam 2mg in non-consecutive months from January 2014 to September 2017. Sales increased to 400 to 1,500 tablets ordered in consecutive months from October 2017 to May 2018 (except April 2018).

c. Respondents furnished the Rady Pharmacy large quantities of controlled substances (P/C and alprazolam 2mg) that are not typically distributed to pediatric patients.

d. The P/C and alprazolam 2mg furnished by Respondents were not dispensed to patients for legitimate medical purposes but were diverted by a pharmacy technician.

Paragraphs 18 to 29 are re-alleged as if fully set forth herein.

///

FACTUAL ALLEGATIONS – CARING PHARMACY

31. On January 7, 2020, a Board inspector conducted an inspection of Caring Pharmacy (Caring Pharmacy), located at 25802 Hemingway Avenue #103, Stevenson Ranch, CA 91381. K.F. is a licensed pharmacist and the owner of Caring Pharmacy. S.F. is K.F's wife and is an unlicensed individual.

32. During this inspection at approximately 9:30 a.m., the Board inspector observed Respondent McKesson's delivery driver bring a drug tote (Drug Tote) to S.F.'s car in front of Caring Pharmacy. S.F. signed for the delivery, and the delivery driver left. S.F. subsequently brought the Drug Tote into Caring Pharmacy.

33. Shortly thereafter, the Board inspector entered Caring Pharmacy, and S.F. stated that no pharmacist was present at Caring Pharmacy at that time. The invoice that accompanied the Drug Tote revealed that the Drug Tote consisted of Emgality and Repatha, both of which are dangerous drugs under California Business and Professions Code section 4022.

SECOND CAUSE FOR DISCIPLINE

(Violation of Statute Regulating Dangerous Drugs)

34. Respondents are subject to disciplinary action under Code section 4301, subsection (j), in that Respondents committed unprofessional conduct by violating California Business and Professions Code section 4059.5, subsection (a). Specifically, on or about January 7, 2020, Respondents delivered dangerous drugs to Caring Pharmacy, but the drugs were not signed for or received by a pharmacist. The drugs were signed for by an unlicensed individual.

THIRD CAUSE FOR DISCIPLINE

(Violation of Pharmacy Law)

35. Respondents are subject to disciplinary action under Code section 4301, subsection (o), in that Respondents committed unprofessional conduct by violating the following Pharmacy Law and regulations:

///

///

///

a. California Business and Professions Code section 4059.5, subsection (a): On or about January 7, 2020, Respondents delivered dangerous drugs to Caring Pharmacy, but the drugs were not signed for and received by a pharmacist. The drugs were signed for by an unlicensed individual.

b. California Code of Regulations, title 16, section 1783: On or about January 7, 2020, Respondents delivered dangerous drugs to an unlicensed person at Caring Pharmacy who was not an "authorized person" under California Code of Regulations, title 16, section 1783, subsection (b).

DISCIPLINARY CONSIDERATIONS

36. On April 5, 2018, the Board issued Citation No. CI 2014 63111 to Respondent McKesson for violating California Health and Safety Code section 11153.5 [wholesaler furnishing controlled substance other than for legitimate medical purposes] and assessed a fine of $5,000.00. Respondent McKesson has paid the fine.

37. On June 27, 2018, the Board issued a Letter of Admonishment to Respondent McKesson for violating California Business and Professions Code sections 4163(a) [unauthorized furnishing by wholesaler]; 4169(a)(1) [prohibited acts; purchase, trade, sell, or transfer dangerous drugs to unlicensed person or entity]; and 4059.5 [who may order dangerous drugs or devices].

38. On September 21, 2018, the Board issued a Letter of Admonishment to Respondent McKesson for violating California Business and Professions Code section 4059.5(a) [dangerous drugs and devices may only be ordered by and shall be delivered to licensed premises and signed for and received by a pharmacist].

39. On June 27, 2018, the Board issued a Letter of Admonishment to Respondent Bohlinger for violating California Business and Professions Code sections 4163(a) [unauthorized furnishing by wholesaler]; 4169(a)(1) [prohibited acts; purchase, trade, sell, or transfer dangerous drugs to unlicensed person or entity]; and 4059.5 [who may order dangerous drugs or devices].

///

///

///

40. On September 21, 2018, the Board issued a Letter of Admonishment to Respondent Bohlinger for violating California Business and Professions Code section 4059.5(a) [dangerous drugs and devices may only be ordered by and shall be delivered to licensed premises and signed for and received by a pharmacist].

OTHER MATTERS

41. Pursuant to Code section 4307, if discipline is imposed on Wholesale Permit Number WLS 3076 issued to McKesson Corporation, McKesson Corporation shall be prohibited from serving as a manager, administrator, owner, member, officer, director, associate, or partner of a licensee for five years if Wholesale Permit Number WLS 3076 is placed on probation or until Wholesale Permit Number WLS 3076 is reinstated if it is revoked.

PRAYER

WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged, and that following the hearing, the Board of Pharmacy issue a decision:

1. Revoking or suspending Wholesale Permit Number WLS 3076, issued to McKesson Corporation, dba McKesson Drug Company;

2. Revoking or suspending Designated Representative Number EXC 17318, issued to John F. Bohlinger;

3. Prohibiting McKesson Corporation from serving as a manager, administrator, owner, member, officer, director, associate, or partner of a licensee for five years if Wholesale Permit Number WLS 3076 is placed on probation or until Wholesale Permit Number WLS 3076 is reinstated if Wholesale Permit Number WLS 3076 issued to McKesson Corporation is revoked;

4. Ordering McKesson Corporation and John F. Bohlinger to pay the Board of Pharmacy the reasonable costs of the investigation and enforcement of this case, pursuant to Business and Professions Code section 125.3; and,

///

///

///

///

5. Taking such other and further action as deemed necessary and proper.

CONSENT ORDER

THIS MATTER comes before the Alabama State Board of Pharmacy (hereinafter referred to as the "Board") on a complaint against **MCKESSON DRUG COMPANY** which resulted in the filing of a Notice of Hearing and Statement of Charges ("Statement") alleging violations of the Alabama Pharmacy Practice Act as are more particularly set out in the Statement which is attached hereto as **Exhibit "A."**

Prior to a hearing in this cause, and pursuant to Code of Alabama (1975), § 41-22-12(f), the matters at issue were resolved informally by the parties and the parties negotiated a Consent Order, the terms of which are as follows:

1. The Board finds that **MCKESSON DRUG COMPANY** has violated the provisions of law based upon the conduct set out in the Statement.

2. **MCKESSON DRUG COMPANY** shall pay an administrative fine in the amount of Twenty-Five Thousand Dollars ($25,000.00) within thirty (30) days of the effective date of this consent order that being the day the same is signed on behalf of the Board. This payment shall not be subject to discharge in bankruptcy nor shall **MCKESSON DRUG COMPANY** attempt to discharge the same.

3. **MCKESSON DRUG COMPANY** expressly waives its rights pursuant to the Alabama Pharmacy Practice Act, the Alabama Administrative Procedure Act and the Alabama Uniform Controlled Substances Act, including but not limited to the Code of Alabama (1975), §34-23-34 and §34-23-92(12), Code of Alabama (1975), §41-22-12 and

DocuSign Envelope ID: 1A8FC009-0269-41DB-90F7-1A6AA60086C4

§40-22-20 and Code of Alabama (1975), §20-2-50 et seq., and including but not limited to the opportunity for a hearing before the Board in connection with any charges against it and any judicial review. **MCKESSON DRUG COMPANY** further waives any objection to the attorney for the Board preparing, drafting or making this Order, including the waiver of any objection or right pursuant to Code of Alabama (1975), §41-22-18.

4. By execution of this Consent Order, **MCKESSON DRUG COMPANY** hereby releases the Board, its members, agents, representatives, servants, and employees from any and all liability, claims, damages, fees or expenses arising out of or made in connection with the matters relating to this Consent Order and Statement.

5. **MCKESSON DRUG COMPANY** acknowledges and agrees that any future violation of the Alabama Pharmacy Practice Act, the laws that regulate the sale and/or dispensing of prescription or legend drugs and/or narcotics or any Rules and regulations of the Alabama State Board of Pharmacy or the pharmacy law or rules of the Board of Pharmacy of another state or any other applicable laws may, upon proof and hearing thereof, result in further disciplinary sanctions against **MCKESSON DRUG COMPANY's** permit, including, but not limited to revocation.

6. **MCKESSON DRUG COMPANY** acknowledges and agrees that it has read this Consent Order and that it fully understands the terms, conditions and contents of the same. **MCKESSON DRUG COMPANY** acknowledges and agrees that it voluntarily and of its own free will accepts the terms and conditions set out in this Consent Order and is signing this Consent Order on the advice of its attorney.

DONE this the 19th of July, 2023.

STATEMENT OF CHARGES AND NOTICE OF HEARING

TO: McKesson Drug Company
9501 Norwalk Boulevard
Santa Fe Springs, California 90670

Pursuant to the provisions of Code of Alabama (1975), § 34-23-32, § 34-23-92(12) and Code of Alabama (1975), § 41-22-12, you are hereby notified and requested to appear before the Alabama State Board of Pharmacy (hereinafter referred to as the "Board") on June 20, 2023 at 8:00 a.m., at the State Board of Pharmacy Conference Room, 111 Village Street, Birmingham, Alabama 35242, and from time to time thereafter as may be required by the Board for the purpose of a hearing to determine why the permit to operate McKesson Drug Company as a Wholesale Distributor should not be subject to the discipline set out in Board Rule 680-X-2.23(h)(2)(i)(2) based upon any or all of the following, to-wit:

1. Pursuant to Board Rule 680-X-2.23(g)(3), the Board of Pharmacy shall consider, at a minimum, the following factors in reviewing the qualifications of those entities (a wholesaler) permitted for operation within the State of Alabama:

   a. Compliance with licensing requirements under previously granted licenses ((g)(3)(vi)).

   b. Any other factors or qualifications the Board of Pharmacy considers relevant to and consistent with public health and safety.

DocuSign Envelope ID: 1A8FC009-0269-41DB-90F7-1A6AA60086C4

((g)(3)(viii)).

2. It is a violation of these rules should any permitted entity operate in such a manner as to endanger the public health. (Board Rule 680-X-2.23(h)(2)(i)(1)).

3. Permitted entities shall operate in compliance with applicable state laws.

4. The Board alleges you have not complied with the licensing requirements under previously granted licenses, you have not operated consistent with public health and safety, you have operated in such a manner as to endanger the public health and/or you have not complied with applicable State law based upon the following:

(a) The entry of a Decision and Order on February 22, 2022 by the California State Board of Pharmacy attached hereto as Exhibit "A" and/or the excessive furnishing of controlled substances as set out in the First Cause for Discipline, and/or delivering drugs when not signed for or received by a pharmacist as set out in the Second and Third Cause for Discipline, those being separate and distinct violations as more particularly described in the First Amended Accusation included in Exhibit "A" hereto[1].

At the aforesaid time and place and from time to time thereafter as may be directed by the Board, you may be represented by an attorney, if you so desire, cross-examine all witnesses who testify against you and present such evidence in your own behalf in response to these charges as you consider necessary and appropriate.

[1] This Rule was amended effective October 15, 2020 to add additional entities now regulated by the Board; however, the Rule prior to the Amendment applied to and was in full force and effect as to the permit held by the Respondent at the time of the referenced discipline.

IT IS HEREBY STIPULATED AND AGREED by and between the parties to the above-entitled proceedings that the following matters are true:

PARTIES

1. Anne Sodergren (Complainant) is the Executive Officer of the Board of Pharmacy (Board). She brought this action solely in her official capacity and is represented in this matter by Rob Bonta, Attorney General of the State of California, by Christina Thomas, Deputy Attorney General.

DocuSign Envelope ID: 1A8FC009-0269-41DB-90F7-1A6AA60086C4

2. Respondent McKesson Corporation, dba McKesson Drug Company (Respondent) is represented in this proceeding by attorney Alissa Brice Castenada, whose address is: Quarles & Brady LLP One Renaissance Square Two North Central Avenue Phoenix, AZ 85004-2391

JURISDICTION

3. On or about October 2, 1995, the Board issued Wholesale Permit No. WLS 3076 to McKesson Corporation, dba McKesson Drug Company. The Wholesale Permit was in full force and effect at all times relevant to the charges brought in First Amended Accusation No. 6850 and will expire on October 1, 2022, unless renewed.

4. First Amended Accusation No. 6850 was filed before the Board of Pharmacy, Department of Consumer Affairs and is currently pending against Respondent. The First Amended Accusation and all other statutorily required documents were properly served on Respondent on January 4, 2021. Respondent timely filed its Notice of Defense contesting the First Amended Accusation. A copy of First Amended Accusation No. 6850 is attached as exhibit A and incorporated herein by reference.

ADVISEMENT AND WAIVERS

5. Respondent has carefully read, fully discussed with counsel, and understands the charges and allegations in First Amended Accusation No. 6850. Respondent has also carefully read, fully discussed with counsel, and understands the effects of this Stipulated Settlement and Disciplinary Order for Public Reproval.

6. Respondent is fully aware of its legal rights in this matter, including the right to a hearing on the charges and allegations in the First Amended Accusation; the right to be represented by counsel at its own expense; the right to confront and cross-examine the witnesses against them; the right to present evidence and to testify on its own behalf; the right to the issuance of subpoenas to compel the attendance of witnesses and the production of documents; the right to reconsideration and court review of an adverse decision; and all other rights accorded by the California Administrative Procedure Act and other applicable laws.

DocuSign Envelope ID: 1A8FC009-0269-41DB-90F7-1A6AA60086C4

7. Respondent voluntarily, knowingly, and intelligently waives and gives up each and every right set forth above.

CULPABILITY

8. Respondent denies the allegations in First Amended Accusation No. 6850.

9. For the purpose of resolving the First Amended Accusation without the expense and uncertainty of further proceedings, Respondent hereby gives up its right to contest those charges.

10. Respondent agrees that its Wholesale Permit is subject to discipline and they agree to be bound by the Disciplinary Order below.

CONTINGENCY

11. This stipulation shall be subject to approval by the Board of Pharmacy. Respondent understands and agrees that counsel for Complainant and the staff of the Board of Pharmacy may communicate directly with the Board regarding this stipulation and settlement, without notice to or participation by Respondent or its counsel. By signing the stipulation, Respondent understands and agrees that they may not withdraw its agreement or seek to rescind the stipulation prior to the time the Board considers and acts upon it. If the Board fails to adopt this stipulation as its Decision and Order, the Stipulated Settlement and Disciplinary Order for Public Reproval shall be of no force or effect, except for this paragraph, it shall be inadmissible in any legal action between the parties, and the Board shall not be disqualified from further action by having considered this matter.

12. The parties understand and agree that Portable Document Format (PDF) and facsimile copies of this Stipulated Settlement and Disciplinary Order for Public Reproval, including PDF and facsimile signatures thereto, shall have the same force and effect as the originals.

13. This Stipulated Settlement and Disciplinary Order for Public Reproval is intended by the parties to be an integrated writing representing the complete, final, and exclusive embodiment of their agreement. It supersedes any and all prior or contemporaneous agreements, understandings, discussions, negotiations, and commitments (written or oral). This Stipulated Settlement and Disciplinary Order for Public Reproval may not be altered, amended, modified,

DocuSign Envelope ID: 1A8FC009-0269-41DB-90F7-1A6AA60086C4

supplemented, or otherwise changed except by a writing executed by an authorized representative of each of the parties.

14. In consideration of the foregoing admissions and stipulations, the parties agree that the Board may, without further notice or formal proceeding, issue and enter the following Disciplinary Order:

DISCIPLINARY ORDER

IT IS HEREBY ORDERED that Wholesale Permit No. WLS 3076 issued to Respondent McKesson Corporation, dba McKesson Drug Company, shall be publicly reproved by the Board of Pharmacy under Business and Professions Code section 495 in resolution of First Amended Accusation No. 6850, attached as exhibit A.

Cost Recovery. No later than 60 days from the effective date of the Decision, Respondent shall pay $147,780.00 to the Board for its costs associated with the investigation and enforcement of this matter pursuant to Business and Professions Code section 125.3. If Respondent fails to pay the Board costs as ordered, Respondent shall not be allowed to renew its Wholesale Permit Number until Respondent pays costs in full. In addition, the Board may enforce this order for payment of its costs in any appropriate court, in addition to any other rights the Board may have.

Full Compliance. As a resolution of the charges in First Amended Accusation No. 6850, this stipulated settlement is contingent upon Respondent's full compliance with all conditions of this Order. If Respondent fails to satisfy any of these conditions, such failure to comply constitutes cause for discipline, including outright revocation, of Respondent's Wholesale Permit No. WLS 3076.

ACCEPTANCE

I have carefully read the above Stipulated Settlement and Disciplinary Order for Public Reproval and have fully discussed it with my attorney, Alissa Brice Castaneda. I understand the stipulation and the effect it will have on my Wholesale Permit. I enter into this Stipulated Settlement and Disciplinary Order for Public Reproval voluntarily, knowingly, and intelligently, and agree to be bound by the Decision and Order of the Board of Pharmacy.

BEFORE THE
BOARD OF PHARMACY
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA

In the Matter of the Accusation Against: **MCKESSON CORPORATION, DBA MCKESSON DRUG COMPANY** **9501 S. Norwalk** **Santa Fe Springs, CA 90670** **Wholesale Permit No. WLS 3076,** **and** **JOHN F. BOHLINGER** **9501 Norwalk Blvd.** **Santa Fe Springs, CA 90670** **Designated Representative No. EXC 17318** Respondents.	Case No. 6850 **FIRST AMENDED ACCUSATION**

PARTIES

1. Anne Sodergren (Complainant) brings this First Amended Accusation solely in her official capacity as the Executive Officer of the Board of Pharmacy, Department of Consumer Affairs.

2. On or about October 2, 1995, the Board of Pharmacy issued Wholesale Permit Number WLS 3076 to McKesson Corporation, dba McKesson Drug Company (Respondent

DocuSign Envelope ID: 1A8FC009-0269-41DB-90F7-1A6AA60086C4

McKesson). The Wholesale Permit was in full force and effect at all times relevant to the charges brought herein and will expire on October 1, 2021, unless renewed.

3. On or about January 21, 2004, the Board of Pharmacy issued Original Certificate Number EXC 17318 to John F. Bohlinger (Respondent Bohlinger) to act as a Designated Representative. The certificate was in full force and effect at all times relevant to the charges brought herein and will expire on January 1, 2021, unless renewed.

JURISDICTION

4. This Accusation is brought before the Board of Pharmacy (Board), Department of Consumer Affairs, under the authority of the following laws. All section references are to the Business and Professions Code (Code) unless otherwise indicated.

5. Section 4300 of the Code states:

(a) Every license issued may be suspended or revoked.

(b) The board shall discipline the holder of any license issued by the board, whose default has been entered or whose case has been heard by the board and found guilty, by any of the following methods:

(1) Suspending judgment.

(2) Placing him or her upon probation.

(3) Suspending his or her right to practice for a period not exceeding one year.

(4) Revoking his or her license.

(5) Taking any other action in relation to disciplining him or her as the board in its discretion may deem proper.

6. Section 4307 of the Code states:

(a) Any person who has been denied a license or whose license has been revoked or is under suspension, or who has failed to renew his or her license while it was under suspension, or who has been a manager, administrator, owner, member, officer, director, associate, partner, or any other person with management or control of any partnership, corporation, trust, firm, or association whose application for a license has been denied or revoked, is under suspension or has been placed on probation, and while acting as the manager, administrator, owner, member, officer, director, associate, partner, or any other person with management or control had knowledge of or knowingly participated in any conduct for which the license was denied, revoked, suspended, or placed on probation, shall be prohibited from serving as a manager, administrator, owner, member, officer, director, associate, partner, or in any other position with management or control of a licensee as follows:

DocuSign Envelope ID: 1A8FC009-0269-41DB-90F7-1A6AA60086C4

(1) Where a probationary license is issued or where an existing license is placed on probation, this prohibition shall remain in effect for a period not to exceed five years.

(2) Where the license is denied or revoked, the prohibition shall continue until the license is issued or reinstated.

(b) "Manager, administrator, owner, member, officer, director, associate, partner, or any other person with management or control of a license" as used in this section and Section 4308, may refer to a pharmacist or to any other person who serves in such capacity in or for a licensee.

(c) The provisions of subdivision (a) may be alleged in any pleading filed pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of the Government Code. However, no order may be issued in that case except as to a person who is named in the caption, as to whom the pleading alleges the applicability of this section, and where the person has been given notice of the proceeding as required by Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of the Government Code. The authority to proceed as provided by this subdivision shall be in addition to the board's authority to proceed under Section 4339 or any other provision of law.

STATUTORY PROVISIONS

7. Section 4301 of the Code states, in pertinent part:

The board shall take action against any holder of a license who is guilty of unprofessional conduct or whose license has been issued by mistake. Unprofessional conduct shall include, but is not limited to, any of the following:

...

(e) The clearly excessive furnishing of controlled substances in violation of subdivision (a) of Section 11153.5 of the Health and Safety Code. Factors to be considered in determining whether the furnishing of controlled substances is clearly excessive shall include, but not be limited to, the amount of controlled substances furnished, the previous ordering pattern of the customer (including size and frequency of orders), the type and size of the customer, and where and to whom the customer distributes its product.

...

(j) The violation of any of the statutes of this state, of any other state, or of the United States regulating controlled substances and dangerous drugs.

...

(*o*) Violating or attempting to violate, directly or indirectly, or assisting in or abetting the violation of or conspiring to violate any provision or term of this chapter or of the applicable federal and state laws and regulations governing pharmacy, including regulations established by the board or by any other state or federal regulatory agency.

///

DocuSign Envelope ID: 1A8FC009-0269-41DB-90F7-1A6AA60086C4

8. California Health and Safety Code section 11153.5 states, in pertinent part:

(a) No wholesaler or manufacturer, or agent or employee of a wholesaler or manufacturer, shall furnish controlled substances for other than legitimate medical purposes."

...

(c) Factors to be considered in determining whether a wholesaler or manufacturer, or agent or employee of a wholesaler or manufacturer, furnished controlled substances knowing or having a conscious disregard for the fact that the controlled substances are for other than legitimate medical purposes shall include, but not be limited to, whether the use of controlled substances was for purposes of increasing athletic ability or performance, the amount of controlled substances furnished, the previous ordering pattern of the customer (including size and frequency of orders), the type and size of the customer, and where and to whom the customer distributes the product.

9. Section 4169.1 of the Code (effective January 1, 2018), states:

A wholesaler, upon discovery, shall notify the board in writing of any suspicious orders of controlled substances placed by a California-licensed pharmacy or wholesaler by providing the board a copy of the information that the wholesaler provides to the United States Drug Enforcement Administration. Suspicious orders include, but are not limited to, orders of unusual size, orders deviating substantially from a normal pattern, and orders of unusual frequency.

10. Section 4059.5, subsection (a), of the Code states:

(a) Except as otherwise provided in this chapter, dangerous drugs or dangerous devices may only be ordered by an entity licensed by the board and shall be delivered to the licensed premises and signed for and received by a pharmacist. Where a licensee is permitted to operate through a designated representative, or in the case of a reverse distributor a designated representative-reverse distributor, that individual shall sign for and receive the delivery.

REGULATORY PROVISIONS

11. Code of Federal Regulations, title 21, section 1301.74, subsection (b), states:

The registrant shall design and operate a system to disclose to the registrant suspicious orders of controlled substances. The registrant shall inform the Field Division Office of the Administration in his area of suspicious orders when discovered by the registrant. Suspicious orders include orders of unusual size, orders deviating substantially from a normal pattern, and orders of unusual frequency.

12. California Code of Regulations, title 16, section 1783, states, in pertinent part:

(a) A manufacturer or wholesaler shall furnish dangerous drugs or devices only to an authorized person; prior to furnishing dangerous drugs and devices to a person not known to the furnisher, the manufacturer or wholesaler shall contact the board or, if the person is licensed or registered by another government entity, that entity, to confirm the recipient is an authorized person.

DocuSign Envelope ID: 1A8FC009-0269-41DB-90F7-1A6AA60086C4

> (b) "Authorized person" means a person to whom the board has issued a permit which enables the permit holder to purchase dangerous drugs or devices for use within the scope of its permit. "Authorized person" also means any person in this state or in another jurisdiction within the United States to the extent such furnishing is authorized by the law of this state, any applicable federal law, and the law of the jurisdiction in which that person is located. The manufacturer or wholesaler furnishing to such person shall, prior to furnishing the dangerous drugs and devices, establish the intended recipient is legally authorized to receive the dangerous drugs or devices.
>
> (c) Dangerous drugs or devices furnished by a manufacturer or wholesaler shall be delivered only to the premises listed on the permit; provided that a manufacturer or wholesaler may furnish drugs to an authorized person or an agent of that person at the premises of the manufacturer or wholesaler if (1) the identity and authorization of the recipient is properly established and (2) this method of receipt is employed only to meet the immediate needs of a particular patient of the authorized person. Dangerous drugs or devices may be furnished to a hospital pharmacy receiving area provided that a pharmacist or authorized receiving personnel signs, at the time of delivery, a receipt showing the type and quantity of the dangerous drugs or devices so received. Any discrepancy between the receipt and the type and quantity of dangerous drugs and devices actually received shall be reported to the delivering manufacturer or wholesaler by the next business day after the delivery to the pharmacy receiving area.

COST RECOVERY

13. Section 125.3 of the Code states, in pertinent part, that the Board may request the administrative law judge to direct a licentiate found to have committed a violation or violations of the licensing act to pay a sum not to exceed the reasonable costs of the investigation and enforcement of the case.

CONTROLLED SUBSTANCES / DANGEROUS DRUGS

14. Section 4021 of the Code states: "'Controlled substance' means any substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code."

15. Section 4022 of the Code states: "'Dangerous drug' or 'dangerous device' means any drug or device unsafe for self use, except veterinary drugs that are labeled as such, and includes the following:

> (a) Any drug that bears the legend: 'Caution: federal law prohibits dispensing without prescription,' 'Rx only,' or words of similar import.
>
> ...
>
> (c) Any other drug or device that by federal or state law can be lawfully dispensed only on prescription or furnished pursuant to Section 4006."

DocuSign Envelope ID: 1A8FC009-0269-41DB-90F7-1A6AA60086C4

16. Phenergan with Codeine Syrup 6.25 mg – 10 mg / 5 ml is the brand name for promethazine with codeine syrup 6.25 mg-10 mg / 5 ml (P/C), a Schedule V controlled substance designated by California Health and Safety Code section 11058(c)(1) and a dangerous drug designated by California Business and Professions Code section 4022. It is used to treat coughing.

17. Xanax is the brand name for alprazolam, a Schedule IV controlled substance designated by California Health and Safety Code section 11057(d)(1) and a dangerous drug designated by California Business and Professions Code section 4022. It is used to treat anxiety.

FACTUAL ALLEGATIONS – CHILDREN'S MEDICAL CENTER PHARMACY

18. At all times relevant herein, the Children's Medical Center Pharmacy, also known as the Rady Children's Outpatient Pharmacy (Rady Pharmacy), was part of the Rady Children's Hospital of San Diego. According to its website, it is the only hospital in the San Diego area dedicated exclusively to pediatric healthcare.

19. Between May 7, 2017 and June 26, 2018, the Rady Pharmacy could not account for an inventory shortage of approximately 119 pints of P/C and 5,300 tablets of alprazolam 2mg. A pharmacy technician at the Rady Pharmacy had stolen these dangerous drugs and controlled substances for herself and her friends.

Promethazine with codeine syrup 6.25 mg-10 mg / 5 ml (P/C)

20. Based on Lexicomp Online, a collection of clinical database and clinical decision support tools, P/C is not recommended in pediatrics due to risk of adverse effects, such as slowed or difficult breathing, misuse, abuse, addiction, overdose, and death.

21. According to the pharmacy manager, the Rady Pharmacy did not use or dispense P/C because pediatric doctors did not prescribe P/C to children. On the rare occasion the doctor prescribed P/C, it would be during the winter season according to the pharmacy manager.

22. According to Respondent McKesson's sales records, Respondent McKesson sold, on average, less than two 16-ounce bottles of P/C **per year** to the Rady Pharmacy between January 2014 and August 2017. Beginning in September 2017, the sales of P/C displayed an irregular pattern compared to the previous ordering pattern:

DocuSign Envelope ID: 1A8FC009-0269-41DB-90F7-1A6AA60086C4

P/C Sold from Respondent McKesson to the Rady Pharmacy	
Date	**Bottles (16oz) of P/C Sold**
September 2017	11
October 2017	7
November 2017	7
December 2017	10
January 2018	14
February 2018	10
March 2018	15
April 2018	10
May 2018	18
June 2018	17

23. When calculating the monthly percentage change in sales, there were sales of P/C which varied from 40% to 80% more than the sale from the previous month.

24. The orders for P/C beginning in September 2017 were significantly larger and were shipped in consecutive months from September 2017 to June 2018, which totaled approximately 119 pints or 56,287 ml of P/C.

Alprazolam 2mg

25. Alprazolam is available in dosages of 0.25 mg, 0.5 mg, 1 mg, and 2mg.

26. According to Lexicomp Online, alprazolam should be titrated and used at the lowest effective dose. Lexicomp provided the following dosing information: "*Children ≥ 7 years and Adolescents < 18 years: Limited data available... Initial: 0.005 to 0.02 mg/kg/dose 3 times daily... maximum of 0.02 mg/kg/dose.*" For example, if a child is 40 kg (about 88 pounds), the dosing range is from 0.2 to 0.8 mg per dose.

27. According to Respondent McKesson's sales records, Respondent McKesson sold, on average, one bottle of 100-count alprazolam 2mg per year between January 2014 and September 2017. Beginning in October 2017, the sales of alprazolam 2mg displayed an irregular pattern compared to the previous ordering pattern:

///

DocuSign Envelope ID: 1A8FC009-0269-41DB-90F7-1A6AA60086C4

Alprazolam 2mg Sold from Respondent McKesson to the Rady Pharmacy	
Date	**Bottles (100-count) of alprazolam 2mg Sold**
October 2017	7
November 2017	9
December 2017	8
January 2018	4
February 2018	4
March 2018	4
April 2018	0
May 2018	15

28. When calculating the monthly percentage change in sales, there were sales of alprazolam 2mg which varied from 250% to 275% more than the sale from the previous month.

29. The orders for alprazolam 2mg beginning in October 2017 were significantly larger and were shipped in consecutive months (except April 2018) from October 2017 to May 2018, which totaled approximately 5,100 tablets of alprazolam 2 mg.

FIRST CAUSE FOR DISCIPLINE

(Unprofessional Conduct – Excessive Furnishing of Controlled Substances)

30. Respondents are subject to disciplinary action under Code section 4301, subsection (e), in that Respondents clearly and excessively furnished controlled substances in violation of California Health and Safety Code section 11153.5, subsection (a), as follows:

a. Respondents furnished the Rady Pharmacy one to two pints of P/C in non-consecutive months from January 2014 to August 2017. Sales increased to seven to 18 pints ordered in consecutive months from September 2017 to June 2018.

b. Respondents furnished the Rady Pharmacy 100 to 200 tablets of alprazolam 2mg in non-consecutive months from January 2014 to September 2017. Sales increased to 400 to 1,500 tablets ordered in consecutive months from October 2017 to May 2018 (except April 2018).

c. Respondents furnished the Rady Pharmacy large quantities of controlled substances (P/C and alprazolam 2mg) that are not typically distributed to pediatric patients.

d. The P/C and alprazolam 2mg furnished by Respondents were not dispensed to patients for legitimate medical purposes but were diverted by a pharmacy technician.

Paragraphs 18 to 29 are re-alleged as if fully set forth herein.

///

FACTUAL ALLEGATIONS – CARING PHARMACY

31. On January 7, 2020, a Board inspector conducted an inspection of Caring Pharmacy (Caring Pharmacy), located at 25802 Hemingway Avenue #103, Stevenson Ranch, CA 91381. K.F. is a licensed pharmacist and the owner of Caring Pharmacy. S.F. is K.F's wife and is an unlicensed individual.

32. During this inspection at approximately 9:30 a.m., the Board inspector observed Respondent McKesson's delivery driver bring a drug tote (Drug Tote) to S.F.'s car in front of Caring Pharmacy. S.F. signed for the delivery, and the delivery driver left. S.F. subsequently brought the Drug Tote into Caring Pharmacy.

33. Shortly thereafter, the Board inspector entered Caring Pharmacy, and S.F. stated that no pharmacist was present at Caring Pharmacy at that time. The invoice that accompanied the Drug Tote revealed that the Drug Tote consisted of Emgality and Repatha, both of which are dangerous drugs under California Business and Professions Code section 4022.

SECOND CAUSE FOR DISCIPLINE

(Violation of Statute Regulating Dangerous Drugs)

34. Respondents are subject to disciplinary action under Code section 4301, subsection (j), in that Respondents committed unprofessional conduct by violating California Business and Professions Code section 4059.5, subsection (a). Specifically, on or about January 7, 2020, Respondents delivered dangerous drugs to Caring Pharmacy, but the drugs were not signed for or received by a pharmacist. The drugs were signed for by an unlicensed individual.

THIRD CAUSE FOR DISCIPLINE

(Violation of Pharmacy Law)

35. Respondents are subject to disciplinary action under Code section 4301, subsection (o), in that Respondents committed unprofessional conduct by violating the following Pharmacy Law and regulations:

///

///

///

DocuSign Envelope ID: 1A8FC009-0269-41DB-90F7-1A6AA60086C4

a. California Business and Professions Code section 4059.5, subsection (a): On or about January 7, 2020, Respondents delivered dangerous drugs to Caring Pharmacy, but the drugs were not signed for and received by a pharmacist. The drugs were signed for by an unlicensed individual.

b. California Code of Regulations, title 16, section 1783: On or about January 7, 2020, Respondents delivered dangerous drugs to an unlicensed person at Caring Pharmacy who was not an "authorized person" under California Code of Regulations, title 16, section 1783, subsection (b).

DISCIPLINARY CONSIDERATIONS

36. On April 5, 2018, the Board issued Citation No. CI 2014 63111 to Respondent McKesson for violating California Health and Safety Code section 11153.5 [wholesaler furnishing controlled substance other than for legitimate medical purposes] and assessed a fine of $5,000.00. Respondent McKesson has paid the fine.

37. On June 27, 2018, the Board issued a Letter of Admonishment to Respondent McKesson for violating California Business and Professions Code sections 4163(a) [unauthorized furnishing by wholesaler]; 4169(a)(1) [prohibited acts; purchase, trade, sell, or transfer dangerous drugs to unlicensed person or entity]; and 4059.5 [who may order dangerous drugs or devices].

38. On September 21, 2018, the Board issued a Letter of Admonishment to Respondent McKesson for violating California Business and Professions Code section 4059.5(a) [dangerous drugs and devices may only be ordered by and shall be delivered to licensed premises and signed for and received by a pharmacist].

39. On June 27, 2018, the Board issued a Letter of Admonishment to Respondent Bohlinger for violating California Business and Professions Code sections 4163(a) [unauthorized furnishing by wholesaler]; 4169(a)(1) [prohibited acts; purchase, trade, sell, or transfer dangerous drugs to unlicensed person or entity]; and 4059.5 [who may order dangerous drugs or devices].

///

///

///

DocuSign Envelope ID: 1A8FC009-0269-41DB-90F7-1A6AA60086C4

40. On September 21, 2018, the Board issued a Letter of Admonishment to Respondent Bohlinger for violating California Business and Professions Code section 4059.5(a) [dangerous drugs and devices may only be ordered by and shall be delivered to licensed premises and signed for and received by a pharmacist].

OTHER MATTERS

41. Pursuant to Code section 4307, if discipline is imposed on Wholesale Permit Number WLS 3076 issued to McKesson Corporation, McKesson Corporation shall be prohibited from serving as a manager, administrator, owner, member, officer, director, associate, or partner of a licensee for five years if Wholesale Permit Number WLS 3076 is placed on probation or until Wholesale Permit Number WLS 3076 is reinstated if it is revoked.

PRAYER

WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged, and that following the hearing, the Board of Pharmacy issue a decision:

1. Revoking or suspending Wholesale Permit Number WLS 3076, issued to McKesson Corporation, dba McKesson Drug Company;

2. Revoking or suspending Designated Representative Number EXC 17318, issued to John F. Bohlinger;

3. Prohibiting McKesson Corporation from serving as a manager, administrator, owner, member, officer, director, associate, or partner of a licensee for five years if Wholesale Permit Number WLS 3076 is placed on probation or until Wholesale Permit Number WLS 3076 is reinstated if Wholesale Permit Number WLS 3076 issued to McKesson Corporation is revoked;

4. Ordering McKesson Corporation and John F. Bohlinger to pay the Board of Pharmacy the reasonable costs of the investigation and enforcement of this case, pursuant to Business and Professions Code section 125.3; and,

BEFORE THE GEORGIA STATE BOARD OF PHARMACY
STATE OF GEORGIA

IN THE MATTER OF:	)	
	)	
MCKESSON DRUG COMPANY,	)	**DOCKET NO.**
License No. PHWH000056,	)	
	)	
Respondent.	)	

GEORGIA STATE BOARD OF PHARMACY
APR 12,2024
DOCKET NO. 2024-0056

PUBLIC CONSENT ORDER

By agreement of the Georgia State Board of Pharmacy ("Board") and McKesson Drug Company, ("Respondent"), the following disposition of this matter is entered pursuant to the provisions of O.C.G.A. T. 26, Ch. 4, and T. 43, Ch. 1.

FINDINGS OF FACT

1.

Respondent is licensed to operate as a wholesaler pharmacy in the State of Georgia. Respondent's license was issued on April 22, 1993, and expires on June 30, 2025.

2.

On or about September 16, 2022, during an inspection of Coffee Regional Medical Center by the Georgia Drugs and Narcotics Agency ("GDNA"), it was discovered that Respondent had failed to maintain prescription drugs securely. Specifically, Respondent had 1) left a delivery truck unattended at a loading dock at the rear of Coffee Regional Medical Center, with its rear roll-up door open, and totes of prescription drugs exposed, for more than 10 minutes; 2) left the truck's keys in the ignition; 3) left the truck box unlocked; and 4) did not have a lock to secure the box. Prescription drugs left unsecured in the truck included, but were not limited to, controlled substances such as diazepam, midazolam, hydrocodone, fentanyl, amphetamine, and oxycodone.

3.

Respondent waives any further findings of fact.

DocuSign Envelope ID B2A463A0-D57C-4E22-93B6-8C262A6F225E

CONCLUSIONS OF LAW

Under O.C.G.A. T. 26, Ch. 4 and § 43-1-19, the Georgia State Board of Pharmacy is authorized to discipline Respondent's license to operate as a pharmacy for the conduct stated above. Respondent waives any further conclusions of law with respect to this matter.

ORDER

The Board, having considered the particular facts and circumstances of this case, hereby ORDERS, and Respondent hereby AGREES, that Respondent's license shall be disciplined as follows:

1.

Respondent shall submit to the Board a fine in the amount of **Ten-Thousand Dollars ($10,000.00)** for failure to maintain prescription drugs securely. Such fine shall be payable within sixty (60) days from the effective date of this Public Consent Order. Payment shall be in the form of a cashier's check or money order made payable to the Georgia State Board of Pharmacy and sent to: Georgia State Board of Pharmacy, Attention: Executive Director, 2 Martin Luther King, Jr. Drive SE, East Tower, 11th Floor, Atlanta, GA 30334. Respondent's failure to pay the fine by the sixtieth day shall subject Respondent's license to further disciplinary action, including revocation.

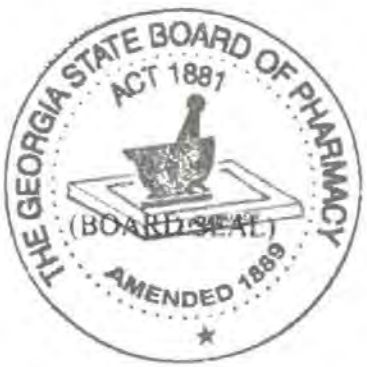
2.

Respondent shall comply with all State and Federal laws relating to drugs and otherwise regulating pharmacies. Respondent shall also comply with the Rules and Regulations of the Georgia State Board of Pharmacy. The Board hereby puts Respondent on notice that Respondent is required to maintain the integrity and security of drugs being delivered to customers. Failure to comply with all laws and rules relating to the practice of pharmacy may result in further sanction or other discipline as deemed appropriate by the Board.

3.

Approval of this Public Consent Order by the Georgia State Board of Pharmacy shall in no way be construed as condoning Respondent's conduct, and shall not be construed as a waiver of any of the lawful rights possessed by the Board. This Public Consent Order shall not become effective until approved and docketed by the Georgia State Board of Pharmacy.

4.



Agent of Respondent, McKesson Drug Company, acknowledges that Agent has read this Public Consent Order and understands its contents. Respondent understands that Respondent has a right to a hearing in this matter, and Respondent freely, knowingly, and voluntarily waives such right by entering into this Public Consent Order. Respondent understands that this Public Consent Order will not become effective until approved and docketed by the Georgia State Board of Pharmacy. Respondent further understands and agrees that the Board shall have the authority to review the investigative file and all relevant evidence in considering this Public Consent Order. Respondent further understands that this Public Consent Order, once approved, shall constitute a public record of the Board. Respondent further understands that if this Public Consent Order is not approved, it shall not constitute an admission against interest in this proceeding or prejudice the ability of the Board to adjudicate this matter. Respondent consents to the terms and sanctions contained herein.

FINAL ORDER OF THE OHIO BOARD OF PHARMACY

McKesson Corporation ("Respondent") was issued a license as a wholesale distributor of dangerous drugs by the Ohio Board of Pharmacy on November 12, 1996. The Board issued a Notice of Opportunity for Hearing ("Notice") to Respondent on September 30, 2022, via certified mail, return receipt requested. Respondent received the Notice on October 3, 2022. Pursuant to Ohio Revised Code (ORC) Section 119.07, Respondent had a right to a hearing if requested within 30 days of mailing. Respondent failed to do so. Accordingly, no hearing was held, and the matter was brought before the Board on August 5, 2024, for final adjudication pursuant to ORC 119.07, and 4729.56(D).

WHEREFORE, after review of the administrative record, the Board finds that Respondent was legally served with the Notice and informed of the allegations contained therein and the rights afforded pursuant to ORC Chapter 119.

WHEREFORE, after review of the administrative record and pursuant to ORC 4729.56(A) and Ohio Administrative Code (OAC) 4729:6-4-01(A), the Board finds and concludes that Respondent engaged in conduct set forth in ORC 4729.56, OAC 4729:6-3-04, OAC 4729:6-4-01, and all violations of law as described in the Notice. Based on the findings contained herein, the Board ORDERS as follows:

1. The Board hereby imposes a written reprimand on Respondent's terminal distributor of dangerous drugs registration no. 01-0977250.

2. The Board hereby imposes a fine in the amount of $2,750.00. This fine will be attached to the registration record and must be paid no later than 180 days from the effective date of this Agreement. To pay this fine, login to www.elicense.ohio.gov and process the items in the cart.

3. This Board disciplinary action must be disclosed to the proper licensing authority of any state or jurisdiction in which Respondent currently holds a professional license, including to the Board on renewal applications or applications for a new license or registration.

Service of this Order shall be perfected in accordance with the requirements of ORC Chapter 119.

Trina Buettner, RPh, moved for the findings and decision of the Board. Jason George, RPh, seconded the motion. Motion passed (Yes-6/No-0).
SO ORDERED.

It is hereby certified by this Board that the above language is a copy of the Order entered upon its journal in this case.

TIME AND METHOD TO PERFECT AN APPEAL

Any party desiring to appeal shall file a Notice of Appeal with the Ohio Board of Pharmacy, 77 South High Street, 17th Floor, Columbus, OH 43215, setting forth the order appealed from and stating that the agency's order is not supported by reliable, probative, and substantial evidence and is not in accordance with law. The notice of appeal may, but need not, set forth the specific grounds of the party's appeal beyond the statement that the agency's order is not supported by reliable, probative, and substantial evidence and is not in accordance with law. The Notice of Appeal shall also be filed by the appellant in the court of common pleas of the county in which the place of business of the licensee is located or the county in which the licensee is a resident. If the appellant is not a resident of and has no place of business in this state, the party may appeal to the court of common pleas of Franklin County. Such notices of appeal shall be filed within fifteen (15) days after the service of the Ohio Board of Pharmacy's Order as provided in Section 119.12 of the Ohio Revised Code.

DEPARTMENT OF CONSUMER PROTECTION

BEFORE THE COMMISSION OF PHARMACY

In the Matter of

McKesson Corporation Case No. 2023-477

Settlement Agreement Concerning

Wholesaler of Drugs, Cosmetics and Medical Devices License of McKesson Corporation

This Settlement Agreement by and between McKesson Corporation, hereinafter referred to as "Respondent," and the duly authorized representative of the Commissioner of Consumer Protection, is entered into in accordance with Sections 4-177(c) of the Connecticut General Statutes. In accordance herewith, the parties agree that:

PARAGRAPH ONE: Respondent is the holder of Connecticut Wholesaler of Drugs, Cosmetics, & Medical Devices License No. CSW.0003956.

PARAGRAPH TWO: The Department of Consumer Protection has alleged that Respondent failed to limit entry to only authorized personnel in areas where drugs are held, in violation of Section 21a-115-32(b)(4) of the Regulations of Connecticut State Agencies.

PARAGRAPH THREE: Respondent enters into this Settlement Agreement solely for the purposes of settlement. This Settlement Agreement shall neither be considered an admission of liability or a violation of law for any purpose, nor as evidence supporting the allegations of the Department of Consumer Protection.

PARAGRAPH FOUR: Respondent shall pay, prior to the approval of this Settlement Agreement by the Commissioner, a monetary payment in the amount of One Thousand Five

Hundred Dollars ($1,500.00) into the Consumer Protection Enforcement Account, Account No. 35125.

PARAGRAPH FIVE: Respondent shall be issued a Letter of Reprimand.

PARAGRAPH SIX: Respondent waives:

a) Any right to seek judicial review or otherwise challenge or contest the validity of this Settlement Agreement;

b) Any requirement that this Settlement Agreement contain findings of fact and conclusions of law; and

c) Any right to a hearing or other procedural requirements of the Uniform Administrative Procedure Act, Connecticut General Statutes, Section 4-166 et seq.

PARAGRAPH SEVEN: This Settlement Agreement is a revocable offer of settlement that may be modified by mutual agreement or withdrawn by the Department of Consumer Protection at any time prior to its being executed and shall not become binding unless and until it is accepted and approved by the Commission of Pharmacy.

STATE OF ILLINOIS
DEPARTMENT OF FINANCIAL AND PROFESSIONAL REGULATION
DIVISION OF PROFESSIONAL REGULATION

DIVISION OF PROFESSIONAL REGULATION OF THE ILLINOIS DEPARTMENT OF FINANCIAL AND PROFESSIONAL REGULATION,	Complainant,	) Case No. 2017-03162
v.		
MCKESSON CORPORATION, License No. 004.002044, License No. 004.001511, License No. 004.000755,	Respondent.	

CONSENT ORDER

The Division of Professional Regulation of the Illinois Department of Financial and Professional Regulation ("Department"), by attorney Brandon R. Thom, and Respondent McKesson Corporation ("Respondent"), by attorney Roger N. Morris of Quarles & Brady LLP, agree to the following:

STIPULATIONS

Respondent holds multiple Wholesale Drug Distributor licenses in the State of Illinois, including license numbers 004.002044 (Aurora, Colorado), 004.001511 (Livonia, Michigan), and 004.000755 (Washington Court House, Ohio). On January 17, 2017, Respondent entered into a Settlement Agreement and Administrative Memorandum of Agreement with the U.S. Department of Justice-Drug Enforcement Administration ("DEA"). The January 17, 2017 Memorandum of Agreement is attached herein as **Exhibit 1.** The DEA alleged various conduct which the DEA alleged would constitute violations of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. § 801 et sequ (the "Act") and regulations promulgated under the Act at 21 C.F.R. Part 1300 *et seq.* To resolve the matter, Respondent made no admissions of liability but agreed to pay a settlement payment of one hundred fifty million dollars ($150,000,000) and agreed to a time-limited suspension of the DEA Certification of Registrations of four (4) of Respondent's distribution centers, including those listed herein. Respondent's actions and/or omissions, if proven true, would constitute violations of the Illinois Wholesale Drug Distribution Licensing Act, 225 ILCS 120/55(a)(1) and (5).

At all times material to the matter set forth in this Consent Order, the Department had jurisdiction over the subject matter and parties herein. Respondent acknowledges that Respondent has entered into this Consent Order freely and of Respondent's own will without threat or coercion by the Department or any person and has not relied upon any representation made by or on behalf of the Department other than those specifically included

herein. Respondent has been advised of the right to accept or reject this Consent Order. Respondent has been advised of the right to a hearing on the Petition for Restoration, the right to contest any charges brought, and the right to administrative review of any Order resulting from a hearing. Respondent knowingly waives each of these rights, as well as any right to administrative review of this Consent Order. Such waiver ceases if this Consent Order is rejected by either the Board of Pharmacy ("Board") or Director. Respondent acknowledges that the Department attorney may be requested to communicate with the Board or Director in furtherance of the approval of this Consent Order. Respondent has been informed that this Consent Order will be presented to the Director for final approval. If this Consent Order is not approved, Respondent waives any right to raise any prejudice resulting from the Director's consideration of this Consent Order. Respondent understands that this Consent Order is not effective unless and until it is adopted by the Director. A copy of any original signature(s) shall be given the full force and effect of any original signature(s) affixed to this Consent Order.

Respondent and the Department have agreed, in order to resolve this matter, that Respondent be permitted to enter into a Consent Order with the Department.

CONDITIONS

Wherefore, the Department, by attorney Brandon R. Thom, and Respondent, by attorney Roger N. Morris of Quarles & Brady LLP, agree:

A Respondent's Illinois Wholesale Drug Distributor license no. 004.002044 (Aurora, Colorado), shall be placed on probation for a definite period of three (3) years, effective January 17, 2017 to January 17, 2020. Throughout the term of this probation, Respondent's Illinois Wholesale Drug Distributor license no. 004.002044 (Aurora, Colorado) shall be prohibited from distributing controlled substances in the State of Illinois. This probationary restriction shall not apply to or limit Respondent's authority to distribute, or operations involving, List 1 Chemical products at or from Respondent's Aurora, Colorado distribution center.

B Respondent's Illinois Wholesale Drug Distributor license no. 004.001511 (Livonia, Michigan), shall be placed on probation for a definite period of two (2) years, effective January 17, 2017 to January 17, 2019.

Throughout the term of this probation, Respondent's Illinois Wholesale Drug Distributor license no. 004.001511 (Livonia, Michigan) shall be prohibited from distributing controlled substances in the State of Illinois. This probationary restriction shall not apply to or limit Respondent's authority to distribute, or operations involving, List I Chemical products at or from Respondent's Livonia, Michigan distribution center. Respondent's Livonia, Michigan distribution center is permitted, at its option, to possess and distribute controlled substances to federal customers under McKesson's exclusive contract with the U.S. Department of Veterans Affairs.

C. Respondent's Illinois Wholesale Drug Distributor license no. 004.000755 (Washington Court House, Ohio), shall be placed on probation for a definite period of two (2) years, effective February 16, 2019 to February 16, 2021. Throughout the term of this probation, Respondent's Illinois Wholesale Drug Distributor license no. 004.000755 (Washington Court House, Ohio) shall be prohibited from distributing controlled substances in the State of Illinois. This probationary restriction shall not apply to or limit Respondent's authority to distribute, or operations involving, List I Chemical products at or from Respondent's Washington Court House, Ohio distribution center. Respondent's Washington Court House, Ohio distribution center is permitted, at its option, to possess and distribute controlled substances to federal customers under McKesson's exclusive contract with the U.S. Department of Veterans Affairs.

D. Respondent shall comply with all terms and conditions imposed upon Respondent in the January 17, 2017 DEA Memorandum of Agreement, attached hereto as Exhibit 1. Any violation of the Memorandum of Agreement by Respondent shall be deemed a violation of this Consent Order.

E. Respondent shall comply with all terms and conditions of the Wholesale Drug Distribution Licensing Act 225 ILCS 120/1 et seq. and the Rules enacted in furtherance thereof. Respondent's failure to do so shall be deemed a violation of the terms of this Consent Order.

F. Failure by Respondent to comply fully with the terms and conditions of this Consent Order may be grounds for the Director of the Division of Professional Regulation of the Illinois Department of Financial and Professional Regulation to issue an Order mandating the immediate and automatic indefinite suspension of Respondent's Illinois Wholesale Drug Distributor Licenses, numbers 004.002044, 004.001511, and 004.000755. Respondent may file an appropriate Petition within thirty (30) days from date the order was entered to contest the

underlying factual basis of the indefinite suspension. Respondent shall be afforded a hearing on the merits following the filing of the Petition. Respondent waives any statute of limitations defense in any hearing on the indefinite suspension.

G. This Consent Order is a public disciplinary action and will be reported to all applicable public indexes. This Consent Order will be available to the general public.

H. This Consent Order shall become effective upon the Director's approval and signature, as dated below.

ADMINISTRATIVE MEMORANDUM OF AGREEMENT

This Administrative Memorandum of Agreement ("Agreement") is entered into by and between the United States Department of Justice, Drug Enforcement Administration ("DEA") and McKesson Corporation ("McKesson") (each a "Party" and collectively the "Parties").

APPLICABILITY

This Agreement shall be applicable to McKesson and any facility owned or operated by McKesson US Pharmaceutical registered, or who may become registered, with DEA to distribute, or otherwise handle controlled substances. The current list of applicable facilities is identified in Appendix A.

BACKGROUND

1. McKesson is registered with DEA at the facilities listed in Appendix A as distributors of Schedule II-V controlled substances under provisions of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. § 801 *et seq.*, ("CSA" or "the Act"). *See* Appendix A. Collectively, the distribution centers listed in Appendix A and the former Landover, Maryland distribution center are referred to herein as the "McKesson Distribution Centers."

2. In May 2008, McKesson entered into a Settlement and Release Agreement and Administrative Memorandum of Agreement ("2008 MOA") with DEA. *See* Appendix B.

3. McKesson's Aurora, Colorado, distribution facility ("McKesson Aurora"), located at 14500 East 39th Ave., Aurora, Colorado 80011, is registered with DEA as a distributor of Schedule II-V controlled substances pursuant to DEA Certificate of Registration PM0018425.

4. On March 12, 2013, DEA executed an Administrative Inspection Warrant ("AIW") at McKesson Aurora.

5. Between March 2013 and the present, DEA executed one (1) additional AIW and served numerous administrative subpoenas and conducted a number of cyclic inspections at various McKesson US Pharmaceutical distribution centers nationwide including McKesson's Washington Court House, Ohio, distribution center ("McKesson WCH"), DEA Certificate of Registration RM0220688, located at 3000 Kenskill Avenue, Washington Court House, Ohio 43160; McKesson's Livonia, Michigan, distribution center ("McKesson Livonia"), DEA Certificate of Registration 0030849, located at 38220 Plymouth Road, Livonia, Michigan 48150; McKesson's Lakeland, Florida, distribution center ("McKesson Lakeland"), DEA Certificate of Registration PM0000771, located at 1515 Kendrick Lane, Lakeland, Florida 33805; McKesson's Methuen distribution center ("McKesson Methuen"), DEA Certificate of Registration PM0020850, located at 9 Aegean Drive, Methuen, Massachusetts 01844; McKesson's Chicago distribution center ("McKesson Chicagoland"), DEA Certificate of Registration RM0380484, located at 1955 McKesson Street, Suite 101, Aurora, Illinois 60502; McKesson's Delran, New Jersey, distribution center ("McKesson Delran"), DEA Certificate of Registration RM0173055, located at 400 Delran Parkway, Delran, New Jersey 08075; McKesson's LaCrosse, Wisconsin

distribution center, ("McKesson LaCrosse"), DEA Certificate of Registration RM0220537, located at 3003 Airport Road, LaCrosse, Wisconsin 54603; McKesson's La Vista, Nebraska, distribution center ("McKesson La Vista"), DEA Certificate of Registration PM0038693, located at 7009 South 108th Street, La Vista, Nebraska 68128; McKesson's Ruther Glen, Virginia, distribution center ("McKesson Ruther Glen"), DEA Certificate of Registration RM0424363, located at 10504 McKesson Drive, Ruther Glen, Virginia 22546; and McKesson's West Sacramento, California, distribution center ("McKesson West Sacramento"), DEA Certificate of Registration PM0021535, located at 3775 Seaport Boulevard, West Sacramento, California 95691.

6. On or about August 13, 2014, McKesson received a letter from the U.S. Attorney for the District of Colorado (the "August 13, 2014 Letter") setting forth allegations that McKesson failed to "maintain[] . . . effective controls against diversion of particular controlled substances," 21 U.S.C. § 823(b)(1), and failed to "design and operate a system to disclose to the registrant suspicious orders of controlled substances," 21 C.F.R. § 1301.74(b). This letter described certain civil penalties that the U.S. Attorney for the District of Colorado could seek in Colorado and elsewhere in connection with that alleged conduct.

7. On or about November 14, 2014, McKesson received a letter (dated November 4, 2014) from the DEA Office of Chief Counsel, Diversion Regulatory and Litigation Section, stating that DEA was separately pursuing administrative action against McKesson Aurora for the conduct outlined in the August 13, 2014 Letter. DEA also stated that the allegations regarding McKesson's failure to "maintain[] . . . effective controls against diversion of particular controlled substances," 21 U.S.C. § 823(b)(1), and failure to "design and operate a system to disclose to the registrant suspicious orders of controlled substances," 21 C.F.R. § 1301.74(b) was national in scope, and that DEA was also pursuing administrative investigations of such alleged failures at McKesson WCH, McKesson Livonia, McKesson Lakeland, McKesson Methuen, McKesson Chicagoland, McKesson Delran, McKesson LaCrosse, McKesson La Vista, McKesson Ruther Glen, and McKesson West Sacramento.

8. As of the date of this Agreement, DEA has not issued Orders to Show Cause ("OTSCs") against any of McKesson's DEA-registered distribution centers.

STIPULATION AND AGREEMENT

In lieu of commencing and pursuing administrative litigation against the DEA registrations of an unknown number of McKesson's distribution centers, McKesson and DEA agree as follows:

I. General

1. Intention of Parties to Effect Settlement. In order to avoid the uncertainty and expense of litigation, and in furtherance of the Parties' belief that a settlement is in the public interest, the Parties desire to settle and resolve, and hereby do settle and resolve, the administrative matters within DEA's enforcement authority as those matters relate to the conduct described further

below. The Parties further believe that the terms and conditions of this settlement as set forth below represent a complete resolution of this matter.

2. Acceptance of Responsibility. On or about September 27, 2006, February 7, 2007 and December 27, 2007, DEA's Deputy Assistant Administrator, Office of Diversion Control, sent letters to every entity in the United States that was registered with DEA to manufacture or distribute controlled substances, including McKesson (the "DEA Letters"). The DEA Letters contained, among other things, guidance for the identification and reporting of suspicious orders to DEA, as required by 21 C.F.R. § 1301.74(b). McKesson acknowledges that, at various times during the period from January 1, 2009 up through and including the Effective Date of this Agreement (the "Covered Time Period"), it did not identify or report to DEA certain orders placed by certain pharmacies which should have been detected by McKesson as suspicious based on the guidance contained in the DEA Letters about the requirements set forth in 21 C.F.R. § 1301.74(b) and 21 U.S.C. § 842(a)(5). McKesson has taken steps to prevent such conduct from occurring in the future, including the measures delineated in the Compliance Addendum.

On or about May 2, 2008, DEA and McKesson entered into an Administrative Memorandum of Agreement (the "2008 MOA"). The 2008 MOA provided among other things, that McKesson maintain a compliance program designed to detect and prevent the diversion of controlled substances, inform DEA of suspicious orders as required by 21 C.F.R. § 1301.74(b), and follow procedures established by its Controlled Substance Monitoring Program ("CSMP"). McKesson acknowledges that, at various times during the Covered Time Period, it did not identify or report to DEA certain orders placed by certain pharmacies, which should have been detected by McKesson as suspicious, in a manner fully consistent with the requirements set forth in the 2008 MOA. McKesson has taken steps to prevent such conduct from occurring in the future, including the measures delineated in the Compliance Addendum.

3. Covered Conduct. For purposes of this Agreement, "Covered Conduct" shall mean the following conduct alleged by the Government for the Covered Time Period:

a. McKesson failed to maintain effective controls against diversion of particular controlled substances into other than legitimate medical, scientific and industrial channels by sales to certain of its customers in violation of the CSA and the CSA's implementing regulations, 21 C.F.R. Part 1300 *et seq.*, at the McKesson Distribution Centers, including the following:

Aurora, Colorado;
Aurora, Illinois;
Delran, New Jersey;
LaCrosse, Wisconsin;
Lakeland, Florida;
Landover, Maryland;
La Vista, Nebraska;
Livonia, Michigan;
Methuen, Massachusetts;
Santa Fe Springs, California;

Washington Courthouse, Ohio; and
West Sacramento, California.

b. In 2008, McKesson entered into a Settlement Agreement with the Department of Justice and a Memorandum of Agreement with DEA (collectively referred to herein as the "2008 Agreements") related to, among other things, McKesson's failure to report suspicious orders of controlled substances to DEA when discovered, as required by and in violation of 21 C.F.R. § 1301.74(b) and 21 U.S.C. § 842(a)(5). As a result of the 2008 Agreements, McKesson developed a Controlled Substance Monitoring Program ("CSMP"), in which McKesson recognized that it had a duty to monitor its sales of all controlled substances and report suspicious orders to DEA. McKesson failed to properly monitor its sales of controlled substances and/or report suspicious orders to DEA, in accordance with McKesson's obligations under the 2008 Agreements, the Act, and 21 C.F.R. § 1301.74(b);

c. McKesson failed to follow the procedures and policies set forth in the McKesson CSMP to detect and disclose suspicious orders of controlled substances. Among other things, McKesson failed to conduct adequate due diligence of its customers, failed to keep complete and accurate records in the CSMP files maintained for many of its customers, and bypassed suspicious order reporting procedures set forth in the McKesson CSMP;

d. In addition, McKesson failed to inform the DEA Field Division Offices and/or DEA Headquarters of certain suspicious orders of controlled substances made by its customers during the relevant time period, including orders of unusual size, orders deviating substantially from normal patterns, and orders of unusual frequency, as required by and in violation of 21 C.F.R. § 1301.74(b), 21 U.S.C. § 842(a)(5), and the 2008 Agreements;

e. McKesson failed to report suspicious orders for certain controlled substances in accordance with the standards identified and outlined in the DEA Letters; and

f. The McKesson Distribution Centers distributed controlled substances to pharmacies even though those McKesson Distribution Centers should have known that the pharmacists practicing within those pharmacies had failed to fulfill their corresponding responsibility to ensure that controlled substances were dispensed pursuant to prescriptions issued for legitimate medical purposes by practitioners acting in the usual course of their professional practice, as required by 21 C.F.R § 1306.04(a).

4. Effect of 2008 MOA. To the extent that there are obligations contained in the 2008 MOA that survived the expiration of the stated term of the 2008 MOA, those terms are superseded by the obligations contained in this Agreement.

5. Term of Agreement. The obligations contained in this Agreement shall remain in full force and effect for a period of five (5) years from the Effective Date of this Agreement unless DEA agrees in writing to an earlier termination.

II. Terms and Conditions

1 Obligations of McKesson.

a. McKesson agrees to maintain a compliance program intended to detect and prevent diversion of controlled substances as required under the CSA and applicable implementing regulations. McKesson acknowledges and agrees that the obligations undertaken in this Agreement and the Compliance Addendum are designed, in part, to meet its obligations under the CSA and its implementing regulations.

b. Beginning on the first full calendar month after the Effective Date, McKesson shall provide DEA Headquarters with an unedited file of all transactions of non-ARCOS reportable controlled substances. This information will be in the format that Automation of Reports and Consolidated Orders System ("ARCOS") data is submitted to DEA, and will be uploaded to the following web address: https://www.deadiversion.usdoj.gov/deareports/. The files shall be due by the 15th of each calendar month for the previous calendar month's report. This requirement does not supplant the requirement to report ARCOS data in the time and manner required by DEA regulations. The Parties agree that the report does not otherwise constitute the basis for McKesson's compliance with recordkeeping and reporting requirements under the CSA or applicable implementing regulations. The Parties agree that such report is not required under the CSA or its implementing regulations and that the accuracy of the report or the failure to file such a report is not a basis for a violation of 21 U.S.C. § 842(a)(5).

c. In satisfaction of its obligation under the CSA's implementing regulations and as agreed to pursuant to this Agreement for each McKesson distribution center registrant to "inform the Field Division Office of the Administration in [its] area of suspicious orders," 21 C.F.R. § 1301.74(b), McKesson shall transmit Suspicious Order Reports to DEA Headquarters at the end of each business day. McKesson shall submit the daily Suspicious Order Reports in the format that ARCOS data is submitted to DEA, and the reports will be uploaded to the following web address: https://www.deadiversion.usdoj.gov/deareports/. This obligation will continue during the term of this Agreement unless and until DEA advises McKesson otherwise in writing.

d. McKesson agrees that its authority to distribute all controlled substances from its McKesson Aurora distribution center, DEA Certificate of Registration PM0018425, will be suspended for a period of three (3) years commencing from the Effective Date of this Agreement (the "Aurora Suspension Period"). This suspension shall not apply to or limit McKesson's authority to distribute, or

operations involving, List I Chemical products at or from the Aurora distribution center, which are authorized under the DEA registration number PM0018425.

e. McKesson agrees that its authority to distribute all controlled substances from its McKesson Livonia distribution center, DEA Certificate of Registration PM0030849, will be suspended for a period of two (2) years commencing from the Effective Date of this Agreement, except for orders placed by Permitted Registrants ("the Livonia Suspension Period").[1] This suspension shall not apply to or limit McKesson's authority to distribute, or operations involving, List I Chemical products at or from the Livonia distribution center, which are authorized under the DEA registration number PM0030849. McKesson agrees that during this period of suspension, on the 15th of the month following the applicable calendar quarter, it will deliver to DEA, Detroit Field Division, Diversion Regulatory Unit, 431 Howard Street, Detroit, Michigan 48226, a compact disc containing an excel spreadsheet, in a readable format, of all distributions of controlled substances aggregated by drug code from its McKesson Livonia distribution center, Certification of Registration PM0030849, for each previous quarter. McKesson shall notify the Detroit Field Office by email if there are no sales for the applicable period. Within thirty (30) days of the Effective Date, DEA will provide the e-mail address to which McKesson will report to DEA if there are no sales for the applicable period. The data that comprises this spreadsheet shall be taken directly from McKesson's sales data and shall be sorted by the DEA Certification of Registration of the purchaser of the controlled substance.

f. McKesson agrees that its authority to distribute all controlled substances from its McKesson WCH distribution center, DEA Certificate of Registration RM0220688, will be suspended for a period of two (2) years commencing thirty (30) days from the date upon which the DEA Certificate of Registration for the McKesson Livonia distribution center is reinstated, except for orders placed by Permitted Registrants (the "WCH Suspension Period"). In the event the McKesson Livonia distribution center is not reinstated within one hundred and eighty (180) days of completion of the Livonia Suspension Period due to McKesson (i) failing to cure a compliance requirement as identified by DEA in its thirty (30) day advance notice letter described in Section II.2., or (ii) electing to permanently terminate the Livonia registration, the WCH Suspension Period will commence no later than two (2) years and one hundred eighty (180) days from the Effective Date of this Agreement. The McKesson WCH distribution center suspension shall not apply to or limit McKesson's authority to distribute, or operations involving, List I Chemical products at or from the WCH distribution center, which are authorized under the DEA registration number RM0220688. McKesson agrees that during this period of suspension, on the 15th of the month following the applicable calendar quarter, it will deliver to DEA, Detroit Field

[1] For purposes of this agreement "Permitted Registrants" shall include registrants identified in Appendix C. McKesson shall include updates to the Permitted Registrants in the quarterly reports provided to DEA local offices under II.1 e-g.

Division, Diversion Regulatory Unit, 431 Howard Street, Detroit, Michigan 48226, a compact disc containing an excel spreadsheet, in a readable format, of all distributions of controlled substances aggregated by drug code from its McKesson WCH distribution center, Certification of Registration RM0220688, for each previous quarter. McKesson shall notify the Detroit Field Office by email if there are no sales for the applicable period. Within thirty (30) days of the Effective Date, DEA will provide the e-mail address to which McKesson will report to DEA if there are no sales for the applicable period. The data that comprises this spreadsheet shall be taken directly from McKesson's sales data and shall be sorted by the DEA Certification of Registration of the purchaser of the controlled substance.

g. McKesson agrees that its authority to distribute controlled substances containing the drug code for Schedule II hydromorphone products, that is, DEA drug code 9150, from its McKesson Lakeland distribution center, DEA Certificate of Registration PM0000771, will be suspended for a period of one (1) year commencing from the Effective Date of the Agreement, except for orders placed by Permitted Registrants (the "Lakeland Suspension Period"). McKesson agrees that during this period of suspension, on the 15th of the month following the applicable calendar quarter, it will deliver to DEA, Miami Field Division, Diversion Regulatory Unit, 2100 North Commerce Parkway, Weston, Florida 33326, a compact disc containing an excel spreadsheet, in a readable format, of all distributions of hydromorphone (drug code 9150) from its McKesson Lakeland distribution center, Certification of Registration PM0000771, for each previous quarter. McKesson shall notify the Miami Field Office by email if there are no sales for the applicable period. Within thirty (30) days of the Effective Date, DEA will provide the e-mail address to which McKesson will report to DEA if there are no sales for the applicable period. The data that comprises this spreadsheet shall be taken directly from McKesson's sales data and shall be sorted by the DEA Certification of Registration of the purchaser of the hydromorphone.

h. McKesson agrees to reasonably cooperate with DEA, United States Attorneys' Offices, and any other Federal, state, or local law enforcement agency investigating or prosecuting McKesson's customers for alleged violations or activities related to the Covered Conduct unless such matters would affect the rights or obligations of McKesson in regard to any pending or threatened litigation. Such cooperation shall include, but is not limited to, producing records and making employees available for interviews by DEA or other law enforcement authorities, subject to appropriate requests, *e.g.*, administrative subpoena. However, nothing in this paragraph shall be construed as a waiver by McKesson or its employees of any constitutional rights or rights that the company would have as a party to a matter involving pending or threatened litigation with the government or a third party, including without limitation attorney-client or attorney work product privileges.

i. Pursuant to the 2017 Settlement Agreement and Release, McKesson agrees to a settlement payment to the United States of America in the amount of $150,000,000.00 in settlement of claims or potential claims made by the United States of America for failing to report suspicious orders of controlled substances. McKesson agrees to execute the 2017 Settlement Agreement and Release simultaneously with the execution of this Agreement and to execute any other documents necessary to fully and finally settle all claims of the United States of America under this subparagraph, and to fully pay said settlement payment penalties within five (5) days of the Effective Date of this Agreement.

j. Any material breach by any McKesson facility of subsections II.1.b-g of this Agreement by McKesson after the Effective Date of this Agreement, where McKesson has not cured such breach as may be allowed under relevant law, regulation, this Agreement and Compliance Addendum may be a basis upon which DEA takes administrative action seeking the revocation and/or the suspension of the DEA Certificates of Registration of any of McKesson's distribution centers. However, nothing in this Agreement or the Compliance Addendum shall be deemed a waiver of McKesson's Due Process rights.

k. In any case where a supplier inadvertently ships controlled substances to any McKesson suspended facility, McKesson shall promptly return the product to the supplier. McKesson shall maintain a record of such receipt and return for two (2) years.

l. In any case where a customer inadvertently returns controlled substances to any McKesson suspended facility, McKesson shall promptly send the product to another McKesson DC for processing. McKesson shall maintain a record of such receipt and transfer for two (2) years.

m. Any McKesson suspended facility receiving a DEA Order Form 222 shall promptly endorse such Order Form to another, non-suspended McKesson facility pursuant to 21 C.F.R. § 1305.14. McKesson shall maintain a record of any endorsement and transfer of an order form for two (2) years.

n. In the event that any controlled substance maintained at a suspended McKesson facility is no longer required to be stocked or sold to a Permitted Registrant, the suspended McKesson facility may transfer such controlled substance to another non-suspended McKesson facility. Such transaction shall be reflected in the quarterly transaction report submitted to the appropriate local DEA field office as described in subsection II.1.e-g of this Agreement.

2. Obligations of DEA.

a. DEA does not endorse or approve of any specific system or approach implemented by DEA registrants to satisfy their obligations under 21 C.F.R. § 1301.74(b) or 21 U.S.C. § 823(b)(1). DEA has taken no action during the

negotiation of this Agreement, and is taking no action by entering into this Agreement, that can be interpreted to be directly or indirectly endorsing or approving the system that McKesson is currently utilizing to meet its obligations under the CSA and the implementing regulations. Going forward, DEA's actions in fulfilling the oversight of McKesson under this Agreement, including the receipt of information and/or its participation in meetings with McKesson representatives, shall not be construed or interpreted to be directly or indirectly endorsing or approving the system that McKesson is utilizing to meet its obligations under the CSA and the implementing regulations.

b. DEA agrees to accept at DEA Headquarters the information regarding suspicious orders as described in subsection II.1.c. of this Agreement.

c. In the event that DEA discovers information about conduct during the Covered Time Period that may warrant administrative action, and which is not otherwise included under the Covered Conduct, DEA shall favorably consider McKesson's entry into this Agreement, the Compliance Addendum, and the civil penalties paid pursuant to the Settlement Agreement and Release; all actions taken by McKesson pursuant to this Agreement and Compliance Addendum; any remedial actions taken by McKesson to address the alleged or perceived violative conduct; and the compliance history of McKesson at the particular facility, and at other McKesson facilities.

d. Unless DEA determines that McKesson is in noncompliance with the terms of this Agreement, after providing McKesson with prior written notice of alleged noncompliance with the terms of this Agreement and providing McKesson with at least thirty (30) days to respond to any such notice, DEA agrees that it will lift the suspension of McKesson Aurora's distribution center, DEA Certificate of Registration PM0018425, and, if needed, grant any requisite registration renewal, no later than the end of the Aurora Suspension Period.

e. Unless DEA determines that McKesson is in noncompliance with the terms of this Agreement, after providing McKesson with prior written notice of alleged noncompliance with the terms of this Agreement and providing McKesson with at least thirty (30) days to respond to any such notice, DEA agrees that it will lift the suspension of McKesson Livonia distribution center, DEA Certificate of Registration PM0030849, and, if needed, grant any requisite registration renewal, no later than the end of the Livonia Suspension Period.

f. Unless DEA determines that McKesson is in noncompliance with the terms of this Agreement, after providing McKesson with prior written notice of alleged noncompliance with the terms of this Agreement and providing McKesson with at least thirty (30) days to respond to any such notice, DEA agrees that it will lift the suspension of McKesson WCH distribution center, DEA Certificate of Registration RM0220688, and, if needed, grant any requisite registration renewal, no later than the end of the WCH Suspension Period.

g. Unless DEA determines that McKesson is in noncompliance with the terms of this Agreement, after providing McKesson with prior written notice of alleged noncompliance with the terms of this Agreement and providing McKesson with at least thirty (30) days to respond to any such notice, DEA agrees that it will reinstate the ability of the McKesson Lakeland distribution center, DEA Certificate of Registration PM0000771, to distribute the controlled substances containing the drug code for Schedule II hydromorphone products, that is, DEA drug code 9150, no later than the end of the Lakeland Suspension Period.

3. Release by DEA. In consideration of the fulfillment of the obligations of McKesson under this Agreement, DEA agrees to:

a. Fully and finally release McKesson, together with its subsidiary entities, distribution facilities, and registrants, along with its officers, directors, employees, successors, and assigns (collectively, the "Released Parties") from any and all administrative claims within DEA's enforcement authority under 21 U.S.C. §§ 823 & 824 related to the Covered Conduct; and

b. Refrain from filing or taking any administrative actions against the Released Parties within DEA's enforcement authority under 21 U.S.C. §§ 823 & 824, based on the Covered Conduct only to extent that such conduct was or could have been discovered by DEA through the exercise of due diligence through the examination of open investigations and inspections in existence as of the Effective Date of this Agreement, and the review of the reports and records McKesson submitted to DEA prior to the Effective Date of this Agreement. This release applies only to administrative actions brought before or by DEA.

Notwithstanding the releases by DEA contained in this Paragraph, DEA reserves the right to seek to admit evidence of the Covered Conduct for proper evidentiary purposes in any other administrative proceeding against the Released Parties for non-Covered Conduct. Further, nothing in this Paragraph shall prohibit or limit any other agency within the Department of Justice, any State attorney general, or any other law enforcement, administrative, or regulatory agency of the United States or any State thereof, from initiating administrative, civil, or criminal proceedings with respect to the Covered Conduct. DEA shall, as obligated in fulfilling its statutory duties, assist and cooperate with any agency that initiates an investigation, action, or proceeding involving the Covered Conduct. At McKesson's request, DEA agrees to disclose the terms of this Agreement to any other agency and will represent, assuming McKesson is in compliance with this Agreement, that the allegations raised by DEA, as defined in the Covered Conduct, have been adequately addressed. This release is applicable only to the Released Parties and is not applicable in any manner to any other individual, partnership, corporation, or entity.

4. Release by McKesson. McKesson fully and finally releases the United States of America, its agencies, employees, servants, and agents from any claims (including attorney's fees, costs, and expenses of every kind and however denominated) which McKesson has asserted, could have asserted, or may assert in the future against the United States of America, its

agencies, employees, servants. and agents, related to the Covered Conduct and the United States' investigation and prosecution thereof.

5. Reservation of Claims. Notwithstanding any term of this Agreement, specifically reserved and excluded from the scope and terms of this Agreement as to any entity or person (including McKesson) are the following:

a. Any potential criminal liability;

b. Any civil, criminal or administrative liability arising under Title 26, U.S. Code (Internal Revenue Code);

c. Any administrative liability to the United States other than administrative claims released in Paragraph II.3.a. and b.

d. Any civil liability to the United States, other than the civil claims released in the 2017 Settlement Agreement and Release; or

e. Any liability based upon any obligation created by or arising under this Agreement.

III. Miscellaneous

1. Binding on Successors. This Agreement is binding on McKesson, and its respective successors, heirs, transferees, and assigns.

2. Costs. Each Party to this Agreement shall bear its own legal and other costs incurred in connection with this matter, including the preparation and performance of this Agreement.

3. No Additional Releases. This Agreement is intended to be for the benefit of the Parties and the Released Parties only, and by this instrument the Parties do not release any claims against any other person or entity other than the Released Parties.

4. Effect of Agreement. This Agreement constitutes the complete agreement between the Parties. All material representations, understandings, and promises of the Parties are contained in this Agreement, and each of the parties expressly agrees and acknowledges that, other than those statements expressly set forth in this Agreement, it is not relying on any statement, whether oral or written, of any person or entity with respect to its entry into this Agreement or to the consummation of the transactions contemplated by this Agreement. Any modifications to this Agreement shall be set forth in writing and signed by all Parties. McKesson represents that this Agreement is entered into with advice of counsel and knowledge of the events described herein. McKesson further represents that this Agreement is voluntarily entered into in order to avoid litigation, without any degree of duress or compulsion.

5. Execution of Agreement. This Agreement shall become effective (*i.e.*, final and binding) on the date of signing by the last signatory (the "Effective Date"). The government agrees to notify McKesson immediately when the final signatory has executed this Agreement.

6. Notices. All communications and notices pursuant to this Agreement shall be made in writing to the following individuals, which notice information may be altered from time to time by either Party by written notification:

a. For DEA or DOJ:

Drug Enforcement Administration, Diversion Control Division, 8701 Morrissette Drive, Springfield, Virginia 22152;

Drug Enforcement Administration, Office of Chief Counsel, Diversion and Regulatory Litigation Section, 8701 Morrissette Drive, Springfield, Virginia 22152; and

U.S. Department of Justice, Criminal Division, Narcotic and Dangerous Drug Section, 145 N St. NE (2 Constitution Square), 2nd Floor, East Wing, Washington, D.C. 20530

b. For McKesson:

Senior Vice President, US Pharmaceutical, Regulatory Affairs and Compliance
McKesson Corporation
One Post Street, 36th Floor
San Francisco, CA 94104

with copies to:

Vice President, U.S. Pharmaceutical, Regulatory Affairs & Compliance
McKesson Corporation
6535 State Highway 161
Irving, TX 75039-2402

Assistant General Counsel, US Pharmaceutical
McKesson Corporation
One Post Street, 36th Floor
San Francisco, CA 94104

7. Disclosure. McKesson and DEA may each disclose the existence of this Agreement and information about this Agreement to the public except for information designated as confidential.

8. Confidentiality and Designation of Information. McKesson and DEA agree that all transaction reports submitted to DEA contain information this is commercial or financial and privileged or confidential, and therefore exempt from disclosure under the Freedom of

Information Act ("FOIA"), 5 U.S.C. § 552. Such information may be exempt from disclosure under the Freedom of Information Act and any other state or federal law or regulation protecting such information from public disclosure and, upon receipt of a request to release such, DEA agrees to provide McKesson reasonable opportunity to respond to any such requests.

9 Execution in Counterparts. This Agreement may be executed in counterparts, each of which constitutes an original, and all of which shall constitute one and the same agreement. Copies or facsimiles of signatures shall constitute acceptable, binding signatures for purposes of this Agreement.

10. Authorizations. The individuals signing this Agreement on behalf of McKesson represent and warrant that they are authorized by McKesson to execute this Agreement. The individuals signing this Agreement on behalf of DEA represent and warrant that they are signing this Agreement in their official capacities and that they are authorized by DEA to execute this Agreement.

11. Choice of Law and Venue. This Settlement Agreement and Release shall be construed in accordance with the laws of the United States, and either Party may seek judicial enforcement of this Agreement upon a material breach by the other Party. The Parties agree that the jurisdiction and venue for any dispute arising between and among the Parties to this Agreement shall be any federal court of competent jurisdiction. This provision, however, shall not be construed as a waiver of the jurisdictional provisions of the CSA, as amended.

Re: Complaint No. 2021-PHA-17215

Dear Ms. Lau:

Enclosed please find the fully executed consent agreement between you, the Maine Board of Pharmacy, and the Office of the Attorney General in the above referenced matter.

This letter also acknowledges receipt of your fine payment in the amount of $500.00. Your fine is paid in full. As all conditions of the consent agreement have been fulfilled, this complaint file is now closed.

Please feel free to contact our office at (207) 624-8651 with any questions.

Sincerely,

Jessica Gowell

IN RE:	)	
	)	
MCKESSON CORPORATION	)	CONSENT AGREEMENT
	)	
Case No. 2021-PHA-17215	)	

PARTIES

This document is a Consent Agreement regarding the pending application of McKesson Corporation for the renewal of its prescription drug wholesaler license. The parties to this Consent Agreement are: McKesson Corporation ("McKesson"), the Maine Board of Pharmacy ("the Board"), and the Office of the Maine Attorney General ("the Attorney General"). This Consent Agreement is entered into pursuant to 10 M.R.S. § 8003(5-A).

STATEMENT OF FACTS

1. Since October 17, 2011, McKesson has been licensed in Maine as a prescription drug wholesaler with a registered location of 1995 McKesson Street, Suite 101, Aurora, Illinois (license number **WH70001735**).

2. On October 4, 2019, the Colorado State Board of Pharmacy imposed discipline against McKesson's Colorado registration as an out-of-state prescription drug wholesaler (Registration # WHO 7154) in Case No. 2019-5119.

3. McKesson then failed to report the Colorado disciplinary action to the Board within 10 days as required by 10 M.R.S. § 8003-G(2)(C).

4. On November 22, 2019, McKesson submitted an application for renewal of its Maine license and reported to the Board for the first time that it had been disciplined by the Colorado State Board of Pharmacy.

5. Pursuant to 10 M.R.S. § 8003(5-A)(A)(11) and 10 M.R.S. § 8003-G(2)(C), the Board may deny, refuse to renew, suspend, or revoke a license and impose other discipline for failing to report a license disciplinary action to the Board within 10 days of that action.

6. At its meeting on January 7, 2021, the Board reviewed the above information and voted to preliminarily deny McKesson's application for renewal of its license to be a prescription drug wholesaler. In lieu of the denial, the Board also voted to offer McKesson this Consent Agreement. Unless McKesson either requests, in writing, a hearing regarding the appeal of the preliminary denial within thirty (30) days of receipt of the Notice of Preliminary Denial, or accepts this Consent Agreement by signing and dating it and returning it to Maine Board of Pharmacy, Compliance Division, Office of Professional and Occupational Regulation, 35 State House Station, Augusta, Maine 04333, by **May 16, 2021,** the preliminary denial of McKesson's application for licensure as a prescription drug wholesaler will become final.

COVENANTS

7. McKesson admits to the facts above and admits that such conduct constitutes grounds for denial of or refusal to renew its license and for the imposition of discipline pursuant to 10 M.R.S. § 8003(5-A)(A)(11) and 10 M.R.S. § 8003-G(2)(C) for failing to report disciplinary action taken in another jurisdiction against a professional license no later than 10 days after the action was taken.

8. As discipline for the violation admitted to in paragraph 7 above, McKesson agrees to accept the following DISCIPLINARY ACTION:

a) A REPRIMAND; and

b) A CIVIL PENALTY in the amount of five hundred dollars ($500.00) payment of which shall be made payable to the "Treasurer, State of Maine" and delivered to Maine Board of Pharmacy, Compliance Division, Office of Professional and Occupational Regulation, 35 State House Station, Augusta, Maine 04333, and must be submitted with the signed Consent Agreement.

9. Upon receipt of the signed Consent Agreement with the enclosed payment of the civil penalty from McKesson, the Board will renew McKesson's license contingent upon it meeting all other eligibility criteria.

10. Violation of any of the terms or conditions of this Consent Agreement by McKesson shall constitute grounds for discipline, including but not limited to modification, suspension, or revocation of licensure or the denial of licensure or re-licensure.

11. The Board and McKesson agree that no further agency action will be initiated against its license by the Board based upon the specific violations admitted to herein, except or unless McKesson fails to comply with the terms and conditions of this Consent Agreement. The Board may however consider the conduct described above as evidence of a pattern of misconduct if other allegations are brought against McKesson, and this Consent Agreement will be admitted into evidence in any future adjudicatory hearing involving McKesson. The Board may also consider the fact that discipline was imposed by this Consent Agreement in determining appropriate discipline in any further complaints against McKesson.

12. This Consent Agreement is not appealable and is effective until modified or terminated by the parties hereto.

13. The Board and the Attorney General may communicate and cooperate regarding any matter related to this Consent Agreement.

14. This Consent Agreement is a public record within the meaning of 1 M.R.S. § 402 and will be available for inspection and copying by the public pursuant to 1 M.R.S. § 408-A.

15. Nothing in this Consent Agreement shall be construed to affect any right or interest of any person not a party hereto.

16. McKesson acknowledges by its duly authorized representative's signature hereto that it has had an opportunity to consult with an attorney before executing this Consent Agreement, that it executes this Consent Agreement voluntarily, and that it agrees to abide by all terms and conditions set forth herein.

DEPARTMENT OF FINANCIAL AND PROFESSIONAL REGULATION
DIVISION OF PROFESSIONAL REGULATION

DIVISION OF PROFESSIONAL REGULATION OF THE ILLINOIS DEPARTMENT OF FINANCIAL AND PROFESSIONAL REGULATION, Complainant,	)	
v.	)	Case No. 2020-00770
MCKESSON CORPORATION D/B/A MCKESSON DRUG COMPANY, License No. 004.004206, Respondent.	)	

CONSENT ORDER

The Division of Professional Regulation of the Illinois Department of Financial and Professional Regulation ("Department"), by Chief of Health-Related Prosecutions Mary C. Meehan, and Respondent McKesson Corporation d/b/a McKesson Drug Company ("Respondent") through its attorney Alex Cooper of Quarles & Brady, LLP, agree to the following:

STIPULATIONS

Respondent holds Illinois licensed wholesale drug distributor license no. 004.004206, which is currently in active status. On or about January 7, 2020, the Iowa Board of Pharmacy disciplined Respondent based on allegations that Respondent failed to take a full inventory of products in violation of 657 Iowa Administrative Code 10.19. The grounds cited by the Iowa Board of Pharmacy are substantially similar to the 77 Illinois Administrative Code 1510.120(f). Respondent's actions and/or omissions are grounds for discipline under the Pharmacy Practice Act ("Act") at 225 ILCS 120/55(a)(5). Respondent neither admits nor denies the allegations but Respondent acknowledges that should this matter proceed to a contested hearing, the Illinois State Board of Pharmacy ("Board") could find a violation of the Illinois Wholesale Drug Distributor Act. The Department and Respondent stipulate that the above acknowledgement is made only for the purposes of this Consent Order. In the event that this Consent Order is not approved by the Board or the Director of the Division of Professional Regulation of the Department ("Director"), this acknowledgement shall not be admissible in any proceeding and the matter will be set for an evidentiary hearing on the merits as if this Consent Order had not been submitted.

At all times material to the matter set forth in this Order, the Department had jurisdiction over the subject matter and the parties herein. Respondent has been advised of the right to a hearing where the Department bears the burden to prove its allegations by clear and convincing evidence, the right to contest the pending charges and present mitigating evidence, and the right to administrative review of any order resulting from a hearing. Respondent knowingly waives each of these rights, as well as any right to administrative review of this Consent Order. Such waiver ceases if this Consent Order is rejected by either the Board or Director. Respondent acknowledges that Respondent has entered into this Consent Order freely and of Respondent's own will without threat or coercion by the Department or any person, and has not relied upon any representation made by or on behalf of the Department other than those specifically included herein. Respondent acknowledges that the Department attorney may be requested to communicate with the Board or Director in furtherance of the approval of this Consent Order. Respondent acknowledges this Consent Order will be presented to the Director. If this Consent Order is not approved, Respondent waives any right to raise any prejudice resulting from the Director's consideration of this Consent Order. Respondent understands that this Consent Order is not effective unless and until it is adopted by the Director. A copy of any original signature(s) affixed to this Consent Order shall be given the full force and effect of an original signature(s) affixed to this Consent Order.

Respondent and the Department agree in order to resolve this case that Respondent be permitted to enter into a Consent Order with the Department, providing for the terms and conditions contained herein which are fair and equitable in the circumstances and which are consistent with the best interests of the people of the State of Illinois.

CONDITIONS

Wherefore, the Department, by Chief of Health-Related Prosecutions Mary C. Meehan, and Respondent, by its attorney Alex Cooper of Quarles & Brady, LLP agree:

A. Respondent's Illinois licensed wholesale drug distributor license no. 004.004206 shall be reprimanded.

B. This Consent Order is a public disciplinary action and will be reported to all applicable public indexes.

C. This Consent Order shall become effective upon the signature of the Director, as dated below.

McKesson Drug Company
Attn: Sandra Zamora
9501 S Norwalk
Santa Fe Springs, CA 90670

RE: Administrative Case No. 6850
McKesson Corporation dba McKesson Drug Company, WLS 3076

Dear Ms. Zamora:

Attached is the Board of Pharmacy's Stipulated Settlement and Disciplinary Order for Public Reproval regarding the above-referenced matter. Your attention is directed to page 4 of the document.

Effective at 5:00 p.m. on March 24, 2022, Wholesale Permit No. WLS 3076 issued to McKesson Drug Company shall be publicly reproved by the Board and shall also be subject to terms and conditions in the decision.

If you wish to file a petition for reconsideration pursuant to Government Code section 11521, the petition must be received prior to the effective date of the decision. However, please be aware the Board needs approximately five days to process a petition for reconsideration. Attached is a copy of the Government Code section for your review. **Please note that reconsideration is NOT available to you if you entered into a stipulated settlement with the Board.**

If you have any questions concerning this matter, you may contact Lupe Baltazar, at lupe.baltazar@dca.ca.gov or (916) 518-3009. Should you have any questions related to litigation of this matter, please contact the Deputy Attorney General handling this matter.

Sincerely,

ANNE SODERGREN
Executive Officer

DECLARATION OF SERVICE BY CERTIFIED MAIL

RE: Administrative Case No. 6850
McKesson Drug Company, WLS 3076

I am over 18 years of age, and not a party to the within cause; my business address is 2720 Gateway Oaks Drive, Suite 100, Sacramento, California 95833. I served a copy of the:

LETTER AND DECISION

on each of the following, by placing same in an envelope(s) addressed to as follows:

NAME	CERTIFIED NO.
McKesson Drug Company Attn: Sandra Zamora 9501 S Norwalk Santa Fe Springs, CA 90670	7017 0190 0000 4212 5618
Amy Levine Heiserman, Esq. Quarles & Brady LLP One Renaissance Square Two North Central Avenue, Suite 600 Phoenix, AZ 85004-2322	7017 0190 0000 4212 5625

and that said envelope was then sealed and deposited and certified in the United States Post Office at Sacramento, California, on February 22, 2022, as certified mail with postage fully prepaid thereon and return receipt service by United States mail between the place of mailing and the place so addressed.

I declare under penalty of perjury that the foregoing is true and correct. Executed on February 22, 2022 at Sacramento, California.

In the Matter of the First Amended Accusation Against: **MCKESSON CORPORATION, DBA MCKESSON DRUG COMPANY** **9501 Norwalk Boulevard** **Santa Fe Springs, CA 90670** **Wholesale Permit No. WLS 3076,** **and** **JOHN F. BOHLINGER** **9501 Norwalk Blvd.** **Santa Fe Springs, CA 90670** **Designated Representative No. EXC 17318** Respondents.	Case No. 6850 OAH No. 2021050035 **STIPULATED SETTLEMENT AND DISCIPLINARY ORDER FOR PUBLIC REPROVAL (AS TO MCKESSON CORPORATION, DBA MCKESSON DRUG COMPANY, ONLY)** **[Bus. & Prof. Code § 495]**

IT IS HEREBY STIPULATED AND AGREED by and between the parties to the above-entitled proceedings that the following matters are true:

PARTIES

1. Anne Sodergren (Complainant) is the Executive Officer of the Board of Pharmacy (Board). She brought this action solely in her official capacity and is represented in this matter by Rob Bonta, Attorney General of the State of California, by Christina Thomas, Deputy Attorney General.

2. Respondent McKesson Corporation, dba McKesson Drug Company (Respondent) is represented in this proceeding by attorney Alissa Brice Castenada, whose address is: Quarles & Brady LLP One Renaissance Square Two North Central Avenue Phoenix, AZ 85004-2391

JURISDICTION

3. On or about October 2, 1995, the Board issued Wholesale Permit No. WLS 3076 to McKesson Corporation, dba McKesson Drug Company. The Wholesale Permit was in full force and effect at all times relevant to the charges brought in First Amended Accusation No. 6850 and will expire on October 1, 2022, unless renewed.

4. First Amended Accusation No. 6850 was filed before the Board of Pharmacy, Department of Consumer Affairs and is currently pending against Respondent. The First Amended Accusation and all other statutorily required documents were properly served on Respondent on January 4, 2021. Respondent timely filed its Notice of Defense contesting the First Amended Accusation. A copy of First Amended Accusation No. 6850 is attached as exhibit A and incorporated herein by reference.

ADVISEMENT AND WAIVERS

5. Respondent has carefully read, fully discussed with counsel, and understands the charges and allegations in First Amended Accusation No. 6850. Respondent has also carefully read, fully discussed with counsel, and understands the effects of this Stipulated Settlement and Disciplinary Order for Public Reproval.

6. Respondent is fully aware of its legal rights in this matter, including the right to a hearing on the charges and allegations in the First Amended Accusation; the right to be represented by counsel at its own expense; the right to confront and cross-examine the witnesses against them; the right to present evidence and to testify on its own behalf; the right to the issuance of subpoenas to compel the attendance of witnesses and the production of documents; the right to reconsideration and court review of an adverse decision; and all other rights accorded by the California Administrative Procedure Act and other applicable laws.

7. Respondent voluntarily, knowingly, and intelligently waives and gives up each and every right set forth above.

CULPABILITY

8. Respondent denies the allegations in First Amended Accusation No. 6850.

9. For the purpose of resolving the First Amended Accusation without the expense and uncertainty of further proceedings, Respondent hereby gives up its right to contest those charges.

10. Respondent agrees that its Wholesale Permit is subject to discipline and they agree to be bound by the Disciplinary Order below.

CONTINGENCY

11. This stipulation shall be subject to approval by the Board of Pharmacy. Respondent understands and agrees that counsel for Complainant and the staff of the Board of Pharmacy may communicate directly with the Board regarding this stipulation and settlement, without notice to or participation by Respondent or its counsel. By signing the stipulation, Respondent understands and agrees that they may not withdraw its agreement or seek to rescind the stipulation prior to the time the Board considers and acts upon it. If the Board fails to adopt this stipulation as its Decision and Order, the Stipulated Settlement and Disciplinary Order for Public Reproval shall be of no force or effect, except for this paragraph, it shall be inadmissible in any legal action between the parties, and the Board shall not be disqualified from further action by having considered this matter.

12. The parties understand and agree that Portable Document Format (PDF) and facsimile copies of this Stipulated Settlement and Disciplinary Order for Public Reproval, including PDF and facsimile signatures thereto, shall have the same force and effect as the originals.

13. This Stipulated Settlement and Disciplinary Order for Public Reproval is intended by the parties to be an integrated writing representing the complete, final, and exclusive embodiment of their agreement. It supersedes any and all prior or contemporaneous agreements, understandings, discussions, negotiations, and commitments (written or oral). This Stipulated Settlement and Disciplinary Order for Public Reproval may not be altered, amended, modified,

supplemented, or otherwise changed except by a writing executed by an authorized representative of each of the parties.

14. In consideration of the foregoing admissions and stipulations, the parties agree that the Board may, without further notice or formal proceeding, issue and enter the following Disciplinary Order:

DISCIPLINARY ORDER

IT IS HEREBY ORDERED that Wholesale Permit No. WLS 3076 issued to Respondent McKesson Corporation, dba McKesson Drug Company, shall be publicly reproved by the Board of Pharmacy under Business and Professions Code section 495 in resolution of First Amended Accusation No. 6850, attached as exhibit A.

Cost Recovery. No later than 60 days from the effective date of the Decision, Respondent shall pay $147,780.00 to the Board for its costs associated with the investigation and enforcement of this matter pursuant to Business and Professions Code section 125.3. If Respondent fails to pay the Board costs as ordered, Respondent shall not be allowed to renew its Wholesale Permit Number until Respondent pays costs in full. In addition, the Board may enforce this order for payment of its costs in any appropriate court, in addition to any other rights the Board may have.

Full Compliance. As a resolution of the charges in First Amended Accusation No. 6850, this stipulated settlement is contingent upon Respondent's full compliance with all conditions of this Order. If Respondent fails to satisfy any of these conditions, such failure to comply constitutes cause for discipline, including outright revocation, of Respondent's Wholesale Permit No. WLS 3076.

ACCEPTANCE

I have carefully read the above Stipulated Settlement and Disciplinary Order for Public Reproval and have fully discussed it with my attorney, Alissa Brice Castaneda. I understand the stipulation and the effect it will have on my Wholesale Permit. I enter into this Stipulated Settlement and Disciplinary Order for Public Reproval voluntarily, knowingly, and intelligently, and agree to be bound by the Decision and Order of the Board of Pharmacy.

BEFORE THE
BOARD OF PHARMACY
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA

In the Matter of the Accusation Against: **MCKESSON CORPORATION, DBA MCKESSON DRUG COMPANY** **9501 S. Norwalk** **Santa Fe Springs, CA 90670** **Wholesale Permit No. WLS 3076,** **and** **JOHN F. BOHLINGER** **9501 Norwalk Blvd.** **Santa Fe Springs, CA 90670** **Designated Representative No. EXC 17318** Respondents.	Case No. 6850 **FIRST AMENDED ACCUSATION**

PARTIES

1. Anne Sodergren (Complainant) brings this First Amended Accusation solely in her official capacity as the Executive Officer of the Board of Pharmacy, Department of Consumer Affairs.

2. On or about October 2, 1995, the Board of Pharmacy issued Wholesale Permit Number WLS 3076 to McKesson Corporation, dba McKesson Drug Company (Respondent

McKesson). The Wholesale Permit was in full force and effect at all times relevant to the charges brought herein and will expire on October 1, 2021, unless renewed.

3. On or about January 21, 2004, the Board of Pharmacy issued Original Certificate Number EXC 17318 to John F. Bohlinger (Respondent Bohlinger) to act as a Designated Representative. The certificate was in full force and effect at all times relevant to the charges brought herein and will expire on January 1, 2021, unless renewed.

JURISDICTION

4. This Accusation is brought before the Board of Pharmacy (Board), Department of Consumer Affairs, under the authority of the following laws. All section references are to the Business and Professions Code (Code) unless otherwise indicated.

5. Section 4300 of the Code states:

> (a) Every license issued may be suspended or revoked.
>
> (b) The board shall discipline the holder of any license issued by the board, whose default has been entered or whose case has been heard by the board and found guilty, by any of the following methods:
>
> (1) Suspending judgment.
>
> (2) Placing him or her upon probation.
>
> (3) Suspending his or her right to practice for a period not exceeding one year.
>
> (4) Revoking his or her license.
>
> (5) Taking any other action in relation to disciplining him or her as the board in its discretion may deem proper.

6. Section 4307 of the Code states:

> (a) Any person who has been denied a license or whose license has been revoked or is under suspension, or who has failed to renew his or her license while it was under suspension, or who has been a manager, administrator, owner, member, officer, director, associate, partner, or any other person with management or control of any partnership, corporation, trust, firm, or association whose application for a license has been denied or revoked, is under suspension or has been placed on probation, and while acting as the manager, administrator, owner, member, officer, director, associate, partner, or any other person with management or control had knowledge of or knowingly participated in any conduct for which the license was denied, revoked, suspended, or placed on probation, shall be prohibited from serving as a manager, administrator, owner, member, officer, director, associate, partner, or in any other position with management or control of a licensee as follows:

(1) Where a probationary license is issued or where an existing license is placed on probation, this prohibition shall remain in effect for a period not to exceed five years.

(2) Where the license is denied or revoked, the prohibition shall continue until the license is issued or reinstated.

(b) "Manager, administrator, owner, member, officer, director, associate, partner, or any other person with management or control of a license" as used in this section and Section 4308, may refer to a pharmacist or to any other person who serves in such capacity in or for a licensee.

(c) The provisions of subdivision (a) may be alleged in any pleading filed pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of the Government Code. However, no order may be issued in that case except as to a person who is named in the caption, as to whom the pleading alleges the applicability of this section, and where the person has been given notice of the proceeding as required by Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of the Government Code. The authority to proceed as provided by this subdivision shall be in addition to the board's authority to proceed under Section 4339 or any other provision of law.

STATUTORY PROVISIONS

7. Section 4301 of the Code states, in pertinent part:

The board shall take action against any holder of a license who is guilty of unprofessional conduct or whose license has been issued by mistake. Unprofessional conduct shall include, but is not limited to, any of the following:

...

(e) The clearly excessive furnishing of controlled substances in violation of subdivision (a) of Section 11153.5 of the Health and Safety Code. Factors to be considered in determining whether the furnishing of controlled substances is clearly excessive shall include, but not be limited to, the amount of controlled substances furnished, the previous ordering pattern of the customer (including size and frequency of orders), the type and size of the customer, and where and to whom the customer distributes its product.

...

(j) The violation of any of the statutes of this state, of any other state, or of the United States regulating controlled substances and dangerous drugs.

...

(*o*) Violating or attempting to violate, directly or indirectly, or assisting in or abetting the violation of or conspiring to violate any provision or term of this chapter or of the applicable federal and state laws and regulations governing pharmacy, including regulations established by the board or by any other state or federal regulatory agency.

///

8. California Health and Safety Code section 11153.5 states, in pertinent part:

(a) No wholesaler or manufacturer, or agent or employee of a wholesaler or manufacturer, shall furnish controlled substances for other than legitimate medical purposes."

...

(c) Factors to be considered in determining whether a wholesaler or manufacturer, or agent or employee of a wholesaler or manufacturer, furnished controlled substances knowing or having a conscious disregard for the fact that the controlled substances are for other than legitimate medical purposes shall include, but not be limited to, whether the use of controlled substances was for purposes of increasing athletic ability or performance, the amount of controlled substances furnished, the previous ordering pattern of the customer (including size and frequency of orders), the type and size of the customer, and where and to whom the customer distributes the product.

9. Section 4169.1 of the Code (effective January 1, 2018), states:

A wholesaler, upon discovery, shall notify the board in writing of any suspicious orders of controlled substances placed by a California-licensed pharmacy or wholesaler by providing the board a copy of the information that the wholesaler provides to the United States Drug Enforcement Administration. Suspicious orders include, but are not limited to, orders of unusual size, orders deviating substantially from a normal pattern, and orders of unusual frequency.

10. Section 4059.5, subsection (a), of the Code states:

(a) Except as otherwise provided in this chapter, dangerous drugs or dangerous devices may only be ordered by an entity licensed by the board and shall be delivered to the licensed premises and signed for and received by a pharmacist. Where a licensee is permitted to operate through a designated representative, or in the case of a reverse distributor a designated representative-reverse distributor, that individual shall sign for and receive the delivery.

REGULATORY PROVISIONS

11. Code of Federal Regulations, title 21, section 1301.74, subsection (b), states:

The registrant shall design and operate a system to disclose to the registrant suspicious orders of controlled substances. The registrant shall inform the Field Division Office of the Administration in his area of suspicious orders when discovered by the registrant. Suspicious orders include orders of unusual size, orders deviating substantially from a normal pattern, and orders of unusual frequency.

12. California Code of Regulations, title 16, section 1783, states, in pertinent part:

(a) A manufacturer or wholesaler shall furnish dangerous drugs or devices only to an authorized person; prior to furnishing dangerous drugs and devices to a person not known to the furnisher, the manufacturer or wholesaler shall contact the board or, if the person is licensed or registered by another government entity, that entity, to confirm the recipient is an authorized person.

(b) "Authorized person" means a person to whom the board has issued a permit which enables the permit holder to purchase dangerous drugs or devices for use within the scope of its permit. "Authorized person" also means any person in this state or in another jurisdiction within the United States to the extent such furnishing is authorized by the law of this state, any applicable federal law, and the law of the jurisdiction in which that person is located. The manufacturer or wholesaler furnishing to such person shall, prior to furnishing the dangerous drugs and devices, establish the intended recipient is legally authorized to receive the dangerous drugs or devices.

(c) Dangerous drugs or devices furnished by a manufacturer or wholesaler shall be delivered only to the premises listed on the permit; provided that a manufacturer or wholesaler may furnish drugs to an authorized person or an agent of that person at the premises of the manufacturer or wholesaler if (1) the identity and authorization of the recipient is properly established and (2) this method of receipt is employed only to meet the immediate needs of a particular patient of the authorized person. Dangerous drugs or devices may be furnished to a hospital pharmacy receiving area provided that a pharmacist or authorized receiving personnel signs, at the time of delivery, a receipt showing the type and quantity of the dangerous drugs or devices so received. Any discrepancy between the receipt and the type and quantity of dangerous drugs and devices actually received shall be reported to the delivering manufacturer or wholesaler by the next business day after the delivery to the pharmacy receiving area.

COST RECOVERY

13. Section 125.3 of the Code states, in pertinent part, that the Board may request the administrative law judge to direct a licentiate found to have committed a violation or violations of the licensing act to pay a sum not to exceed the reasonable costs of the investigation and enforcement of the case.

CONTROLLED SUBSTANCES / DANGEROUS DRUGS

14. Section 4021 of the Code states: "'Controlled substance' means any substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code."

15. Section 4022 of the Code states: "'Dangerous drug' or 'dangerous device' means any drug or device unsafe for self use, except veterinary drugs that are labeled as such, and includes the following:

(a) Any drug that bears the legend: 'Caution: federal law prohibits dispensing without prescription,' 'Rx only,' or words of similar import.

...

(c) Any other drug or device that by federal or state law can be lawfully dispensed only on prescription or furnished pursuant to Section 4006."

16. Phenergan with Codeine Syrup 6.25 mg – 10 mg / 5 ml is the brand name for promethazine with codeine syrup 6.25 mg-10 mg / 5 ml (P/C), a Schedule V controlled substance designated by California Health and Safety Code section 11058(c)(1) and a dangerous drug designated by California Business and Professions Code section 4022. It is used to treat coughing.

17. Xanax is the brand name for alprazolam, a Schedule IV controlled substance designated by California Health and Safety Code section 11057(d)(1) and a dangerous drug designated by California Business and Professions Code section 4022. It is used to treat anxiety.

FACTUAL ALLEGATIONS – CHILDREN'S MEDICAL CENTER PHARMACY

18. At all times relevant herein, the Children's Medical Center Pharmacy, also known as the Rady Children's Outpatient Pharmacy (Rady Pharmacy), was part of the Rady Children's Hospital of San Diego. According to its website, it is the only hospital in the San Diego area dedicated exclusively to pediatric healthcare.

19. Between May 7, 2017 and June 26, 2018, the Rady Pharmacy could not account for an inventory shortage of approximately 119 pints of P/C and 5,300 tablets of alprazolam 2mg. A pharmacy technician at the Rady Pharmacy had stolen these dangerous drugs and controlled substances for herself and her friends.

Promethazine with codeine syrup 6.25 mg-10 mg / 5 ml (P/C)

20. Based on Lexicomp Online, a collection of clinical database and clinical decision support tools, P/C is not recommended in pediatrics due to risk of adverse effects, such as slowed or difficult breathing, misuse, abuse, addiction, overdose, and death.

21. According to the pharmacy manager, the Rady Pharmacy did not use or dispense P/C because pediatric doctors did not prescribe P/C to children. On the rare occasion the doctor prescribed P/C, it would be during the winter season according to the pharmacy manager.

22. According to Respondent McKesson's sales records, Respondent McKesson sold, on average, less than two 16-ounce bottles of P/C **per year** to the Rady Pharmacy between January 2014 and August 2017. Beginning in September 2017, the sales of P/C displayed an irregular pattern compared to the previous ordering pattern:

P/C Sold from Respondent McKesson to the Rady Pharmacy	
Date	**Bottles (16oz) of P/C Sold**
September 2017	11
October 2017	7
November 2017	7
December 2017	10
January 2018	14
February 2018	10
March 2018	15
April 2018	10
May 2018	18
June 2018	17

23. When calculating the monthly percentage change in sales, there were sales of P/C which varied from 40% to 80% more than the sale from the previous month.

24. The orders for P/C beginning in September 2017 were significantly larger and were shipped in consecutive months from September 2017 to June 2018, which totaled approximately 119 pints or 56,287 ml of P/C.

Alprazolam 2mg

25. Alprazolam is available in dosages of 0.25 mg, 0.5 mg, 1 mg, and 2mg.

26. According to Lexicomp Online, alprazolam should be titrated and used at the lowest effective dose. Lexicomp provided the following dosing information: "*Children ≥ 7 years and Adolescents < 18 years: Limited data available... Initial: 0.005 to 0.02 mg/kg/dose 3 times daily... maximum of 0.02 mg/kg/dose.*" For example, if a child is 40 kg (about 88 pounds), the dosing range is from 0.2 to 0.8 mg per dose.

27. According to Respondent McKesson's sales records, Respondent McKesson sold, on average, one bottle of 100-count alprazolam 2mg **per year** between January 2014 and September 2017. Beginning in October 2017, the sales of alprazolam 2mg displayed an irregular pattern compared to the previous ordering pattern:

///

///

///

///

Alprazolam 2mg Sold from Respondent McKesson to the Rady Pharmacy	
Date	**Bottles (100-count) of alprazolam 2mg Sold**
October 2017	7
November 2017	9
December 2017	8
January 2018	4
February 2018	4
March 2018	4
April 2018	0
May 2018	15

28. When calculating the monthly percentage change in sales, there were sales of alprazolam 2mg which varied from 250% to 275% more than the sale from the previous month.

29. The orders for alprazolam 2mg beginning in October 2017 were significantly larger and were shipped in consecutive months (except April 2018) from October 2017 to May 2018, which totaled approximately 5,100 tablets of alprazolam 2 mg.

FIRST CAUSE FOR DISCIPLINE

(Unprofessional Conduct – Excessive Furnishing of Controlled Substances)

30. Respondents are subject to disciplinary action under Code section 4301, subsection (e), in that Respondents clearly and excessively furnished controlled substances in violation of California Health and Safety Code section 11153.5, subsection (a), as follows:

a. Respondents furnished the Rady Pharmacy one to two pints of P/C in non-consecutive months from January 2014 to August 2017. Sales increased to seven to 18 pints ordered in consecutive months from September 2017 to June 2018.

b. Respondents furnished the Rady Pharmacy 100 to 200 tablets of alprazolam 2mg in non-consecutive months from January 2014 to September 2017. Sales increased to 400 to 1,500 tablets ordered in consecutive months from October 2017 to May 2018 (except April 2018).

c. Respondents furnished the Rady Pharmacy large quantities of controlled substances (P/C and alprazolam 2mg) that are not typically distributed to pediatric patients.

d. The P/C and alprazolam 2mg furnished by Respondents were not dispensed to patients for legitimate medical purposes but were diverted by a pharmacy technician.

Paragraphs 18 to 29 are re-alleged as if fully set forth herein.

///

FACTUAL ALLEGATIONS – CARING PHARMACY

31. On January 7, 2020, a Board inspector conducted an inspection of Caring Pharmacy (Caring Pharmacy), located at 25802 Hemingway Avenue #103, Stevenson Ranch, CA 91381. K.F. is a licensed pharmacist and the owner of Caring Pharmacy. S.F. is K.F's wife and is an unlicensed individual.

32. During this inspection at approximately 9:30 a.m., the Board inspector observed Respondent McKesson's delivery driver bring a drug tote (Drug Tote) to S.F.'s car in front of Caring Pharmacy. S.F. signed for the delivery, and the delivery driver left. S.F. subsequently brought the Drug Tote into Caring Pharmacy.

33. Shortly thereafter, the Board inspector entered Caring Pharmacy, and S.F. stated that no pharmacist was present at Caring Pharmacy at that time. The invoice that accompanied the Drug Tote revealed that the Drug Tote consisted of Emgality and Repatha, both of which are dangerous drugs under California Business and Professions Code section 4022.

SECOND CAUSE FOR DISCIPLINE

(Violation of Statute Regulating Dangerous Drugs)

34. Respondents are subject to disciplinary action under Code section 4301, subsection (j), in that Respondents committed unprofessional conduct by violating California Business and Professions Code section 4059.5, subsection (a). Specifically, on or about January 7, 2020, Respondents delivered dangerous drugs to Caring Pharmacy, but the drugs were not signed for or received by a pharmacist. The drugs were signed for by an unlicensed individual.

THIRD CAUSE FOR DISCIPLINE

(Violation of Pharmacy Law)

35. Respondents are subject to disciplinary action under Code section 4301, subsection (o), in that Respondents committed unprofessional conduct by violating the following Pharmacy Law and regulations:

///

///

///

a. California Business and Professions Code section 4059.5, subsection (a): On or about January 7, 2020, Respondents delivered dangerous drugs to Caring Pharmacy, but the drugs were not signed for and received by a pharmacist. The drugs were signed for by an unlicensed individual.

b. California Code of Regulations, title 16, section 1783: On or about January 7, 2020, Respondents delivered dangerous drugs to an unlicensed person at Caring Pharmacy who was not an "authorized person" under California Code of Regulations, title 16, section 1783, subsection (b).

DISCIPLINARY CONSIDERATIONS

36. On April 5, 2018, the Board issued Citation No. CI 2014 63111 to Respondent McKesson for violating California Health and Safety Code section 11153.5 [wholesaler furnishing controlled substance other than for legitimate medical purposes] and assessed a fine of $5,000.00. Respondent McKesson has paid the fine.

37. On June 27, 2018, the Board issued a Letter of Admonishment to Respondent McKesson for violating California Business and Professions Code sections 4163(a) [unauthorized furnishing by wholesaler]; 4169(a)(1) [prohibited acts; purchase, trade, sell, or transfer dangerous drugs to unlicensed person or entity]; and 4059.5 [who may order dangerous drugs or devices].

38. On September 21, 2018, the Board issued a Letter of Admonishment to Respondent McKesson for violating California Business and Professions Code section 4059.5(a) [dangerous drugs and devices may only be ordered by and shall be delivered to licensed premises and signed for and received by a pharmacist].

39. On June 27, 2018, the Board issued a Letter of Admonishment to Respondent Bohlinger for violating California Business and Professions Code sections 4163(a) [unauthorized furnishing by wholesaler]; 4169(a)(1) [prohibited acts; purchase, trade, sell, or transfer dangerous drugs to unlicensed person or entity]; and 4059.5 [who may order dangerous drugs or devices].

///

///

///

40. On September 21, 2018, the Board issued a Letter of Admonishment to Respondent Bohlinger for violating California Business and Professions Code section 4059.5(a) [dangerous drugs and devices may only be ordered by and shall be delivered to licensed premises and signed for and received by a pharmacist].

OTHER MATTERS

41. Pursuant to Code section 4307, if discipline is imposed on Wholesale Permit Number WLS 3076 issued to McKesson Corporation, McKesson Corporation shall be prohibited from serving as a manager, administrator, owner, member, officer, director, associate, or partner of a licensee for five years if Wholesale Permit Number WLS 3076 is placed on probation or until Wholesale Permit Number WLS 3076 is reinstated if it is revoked.

PRAYER

WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged, and that following the hearing, the Board of Pharmacy issue a decision:

1. Revoking or suspending Wholesale Permit Number WLS 3076, issued to McKesson Corporation, dba McKesson Drug Company;

2. Revoking or suspending Designated Representative Number EXC 17318, issued to John F. Bohlinger;

3. Prohibiting McKesson Corporation from serving as a manager, administrator, owner, member, officer, director, associate, or partner of a licensee for five years if Wholesale Permit Number WLS 3076 is placed on probation or until Wholesale Permit Number WLS 3076 is reinstated if Wholesale Permit Number WLS 3076 issued to McKesson Corporation is revoked;

4. Ordering McKesson Corporation and John F. Bohlinger to pay the Board of Pharmacy the reasonable costs of the investigation and enforcement of this case, pursuant to Business and Professions Code section 125.3; and,

///

///

///

///

5. Taking such other and further action as deemed necessary and proper.

CERTIFIED MAIL

John F. Bohlinger
9501 Norwalk Blvd.
Santa Fe Springs, CA 90670

RE: Administrative Case No. 6850
John F. Bohlinger, EXC 17318

Dear Mr. Bohlinger:

Attached is the Board of Pharmacy's Stipulated Settlement and Disciplinary Order for Public Reproval regarding the above-referenced matter. Your attention is directed to page 4 of the document.

Effective at 5:00 p.m. on March 24, 2022, Designated Representative No. EXC 17318 issued to John F. Bohlinger shall be publicly reproved by the Board and shall also be subject to terms and conditions in the decision.

If you wish to file a petition for reconsideration pursuant to Government Code section 11521, the petition must be received prior to the effective date of the decision. However, please be aware the Board needs approximately five days to process a petition for reconsideration. Attached is a copy of the Government Code section for your review. **Please note that reconsideration is NOT available to you if you entered into a stipulated settlement with the Board.**

If you have any questions concerning this matter, you may contact Lupe Baltazar, at lupe.baltazar@dca.ca.gov or (916) 518-3009. Should you have any questions related to litigation of this matter, please contact the Deputy Attorney General handling this matter.

Sincerely,

ANNE SODERGREN
Executive Officer

DECLARATION OF SERVICE BY CERTIFIED MAIL

RE: Administrative Case No. 6850
John F. Bohlinger, EXC 17318

I am over 18 years of age, and not a party to the within cause; my business address is 2720 Gateway Oaks Drive, Suite 100, Sacramento, California 95833. I served a copy of the:

LETTER AND DECISION

on each of the following, by placing same in an envelope(s) addressed to as follows:

NAME	CERTIFIED NO.
John F. Bohlinger 9501 Norwalk Blvd. Santa Fe Springs, CA 90670	7017 0190 0000 4212 5632
Amy Levine Heiserman, Esq. Quarles & Brady LLP One Renaissance Square Two North Central Avenue, Suite 600 Phoenix, AZ 85004-2322	7017 0190 0000 4212 5625

and that said envelope was then sealed and deposited and certified in the United States Post Office at Sacramento, California, on February 22, 2022, as certified mail with postage fully prepaid thereon and return receipt service by United States mail between the place of mailing and the place so addressed.

I declare under penalty of perjury that the foregoing is true and correct. Executed on February 22, 2022 at Sacramento, California.

- Please contact Drugs and Food Safety Licensing Branch at (512) 834-6727 immediately if any information on this license is incorrect.
- This license must be displayed at the address licensed.
- The license renewal application and fee are due every two years BEFORE the anniversary date. Please note that it is the responsibility of the license holder to remit the licensure fee before the expiration date, whether a payment notice is received or not. Failure to submit the renewal fee before the expiration date will result in a $100.00 delinquency fee for each location and must be remitted before the license will be issued.
- A license that is amended, including a change of name, ownership, legal entity, or a notification of a change in the location of a licensed place of business will require submission of new application and fee. Applications for these changes can be downloaded from our website at **https://www.dshs.texas.gov/drug-manufacturers-distributors/applications-forms-drug-manufacturers-distributor**
- Please submit written notice if you close or sell your business. You can email us at drugs-foodsafety@dshs.texas.gov.
- If you have any questions or desire additional information concerning the application process or this license, please contact the Drugs and Food Safety Licensing Branch at (512) 834-6727. In order to serve you better, DSHS would like you to complete the short online survey at: **https://www.surveymonkey.com/r/RLUsurvey**. The information you provide will assist DSHS in its efforts to continually improve and become more responsive to the needs of its customers. Thank you in advance for your cooperation.

Experienced and Accomplished
Biotech Executive

Forward thinking, senior executive with 23+ years experience in pharmaceuticals marketing, sales, and operations, with broad reaching clinical experience across 13 products within ten therapeutic areas. Therapeutic emphasis includes CNS, Neurology, Cardiovascular, Diabetes, Urology, Oncology, Respiratory, GI, Pain, and Rare Disease.

Deep experience in small and large organizations from pre-commercialization to launch and post-launch, with demonstrated success building commercialization and launch plans for US and global markets, and managing P&L. Experience securing funding from both private and public sources, with successful IPO experience.

Demonstrated ability in building and leading marketing and sales teams, building commercial organizations, and building great company culture, with an emphasis on strong leadership and development and cross-functional collaboration. Developed and led 15+ launch plans and successfully launched 10 products, new indications, and line extensions, in varying leadership roles.

Professional Experience

Chief Operating Officer September 2023 - Present
Chief Commercial Officer May 2021 – Present
ALPHA COGNITION, Dallas, TX

As a member of the executive leadership team and first commercial hire, spearhead the global commercial strategy and roadmap to enable growth of newly-formed pharma start-up company innovating in Alzheimer's disease and neurodegenerative diseases.

- Establish and oversee organizations for corporate communications, global marketing, sales, market access, the product lifecycle, business analytics, forecasting, market research/planning, business development, PR, medical affairs, regulatory, CMC, human resources and IT.
- Develop, refine and deliver strategic communications to investors, bankers and Wall Street analysts to secure funding for the company; closed $32 million in financing in 2021 and 2022.
- Lead all corporate and business development activities by supporting assessments of in-licensing/acquisition opportunities and consult across the organization to ensure alignment with commercial plans and advise on strategies for clinical trial design/protocols, medical activities, and research and development.

Chief Operating Officer July 2023 – Present
ALPHA SEVEN THERAPEUTICS, Dallas, TX
Founding member of Alpha Seven Therapeutics, Inc. , a private company formed as a spin-off from Alpha Cognition in July 2023 to develop and commercialize its lead asset in TBI and related disorders.

Vice President, Marketing and Commercial Strategy Oct 2017 – May 2021
Interim Chief Commercial Officer (CCO) Aug 2018 – Aug 2020
UROVANT SCIENCES, Irvine, CA

Joined the organization as first commercial hire and employee #3, building the company from the ground up. Built the commercial infrastructure, investor presentations, corporate branding, launch strategy and tactical plans, sales launch readiness, and responsible for every aspect of the launch of GEMTESA, the company's first asset in Urology. Led business insights, sales, sales training, and marketing, including HCP, consumer, digital, and KOL marketing. Led managed markets function, including strategy development, pricing, and discount strategies for payers. Commercial lead and core team member for all clinical development/life-cycle management activities. Led early commercialization strategy and assessment of business development opportunities, as well as long term strategic planning across the company.

- Completed a successful IPO, resulting in $140M total gross proceeds in October 2018; Led the diligence p[redacted] and

secured up to $100 million in debt financing capacity with Hercules Capital in February 2019; Company acquired by Sumitovant Biopharma, with an enterprise value of $680M in April 2021.

- Delivered a successful pre-launch, non-branded promotional campaign with over 6 million unique engagements, and 25,000 patients captured in CRM database for launch.
- Recruited and hired 2 salesforces (Specialty and Long Term Care) from top to bottom in 6 months. (3 Area Vice Presidents, 16 Regional Sales Managers, 158 sales representatives)
- Led and secured 2 co-promotion deals with Sunovion Pharmaceuticals. (Distribution; PCP sales co-promotion)

Senior Director, Head of Marketing Oct 2015 – Oct 2017
AVANIR PHARMACEUTICALS, Aliso Viejo, CA

Led the NUEDEXTA brand team consisting of 14 marketers responsible for Avanir's largest asset within the neuroscience space. Responsible for all HCP, consumer, digital, key customer, and managed care marketing initiatives that included neurologists, primary care (IM/PCP), and the Long-Term Care (LTC) sector, with full P&L accountability. Collaborated with executive leadership, and cross-functional partners including finance, sales, managed markets, medical, supply chain, R&D, clinical, regulatory, compliance and legal, to maximize brand visibility and growth.

- Designed and implemented strategic marketing plans that grew top line U.S. sales to over 40% YoY growth.
- Strategically shifted brand resources toward digital; developed and implemented digital strategy, increased digital spend by 1000%, and enhanced brand presence and customer interactions across digital channels, while achieving a 300% ROI.
- Created, executed and optimized direct to consumer campaign(s) for non-branded PBA (Danny Glover) and branded NUEDEXTA across television, radio, print, and digital platforms.

Director, Head of Oncology and Urology Marketing Jul 2014 – Oct 2015
MEDIVATION, San Francisco, CA

Launched XTANDI and delivered HCP and patient brand strategy and promotions in Urology and Oncology, with direct P&L ownership. Collaborated with Astellas to maximize the effectiveness and alignment of the co-promotion partnership, including representing commercial leadership as Chair on Joint Commercialization Committee.

- Led and developed key brand deliverables such as launch readiness reviews, brand plans, tactical plans, quarterly business assessments, brand performance updates, and board presentations.
- Significantly exceeded sales forecast and delivered over a billion dollars in sales within a year of launch.

Group Product Director, HCP and Key Customer Apr 2012 - Jul 2014
GENENTECH, San Francisco, CA

Led pre-launch market development activities and brand launch readiness including positioning, disease state campaign development, branding, creative concept development, internal campaign, key customer and congress activities, and the creation and implementation of all pre-launch market development and promotional strategies and tactics.

- Led the Customer Facing Organization (CFO); established customer facing roles and internal infrastructure support, defined a comprehensive plan for an effective field organization, designed company-wide Market Access model and infrastructure, and delivered a best-in-class customer facing team structure to launch Bitopertin.
- US Commercial representative on the Global Product Team, Medical Team, Global Publications Team, and ENTA (global team consisting of key leaders across various countries to prepare Genentech for "Entering New Therapeutic Areas".)

HCP/Consumer Brand Director Aug 2010 - Apr 2012
ASTRAZENECA PHARMACEUTICALS, Wilmington, DE

Developed the branding, positioning, messaging and pricing strategies for the US launch of TC-5214 and NKTR-118 (Phase III products), and delivered a fully integrated launch plan across all customer groups. Provided U.S. commercial views into target product profiles, target product claims, global brand strategy, product naming, trademarks, packaging, clinical trial primary and secondary end point selection, and life cycle management programs.

- Confirmed US business opportunity and strategic scenarios around target product profiles, provided commercial input into NDA submission, and conducted label scenario planning.

- Contributed to shaping the clinical and development strategy by integrating market dynamics, competitive intelligence and input from external experts.
- Cultivated and enhanced external relationships by engaging key opinion leaders, national professional organizations and patient associations.

Senior Brand Manager Apr 2009 - Aug 2010

Led marketing activities for the CERTRIAD product launch (co-promotion with Abbott), including positioning, strategies, messaging, logo development, the creation of launch and market development campaigns, sales training, peer-to-peer programs, advisory boards, conventions, sales force integration, and launch meeting planning.

- Developed the CRESTOR/CERTRIAD Franchise Strategy; led the CV portfolio planning team, with an emphasis on launching CERTRIAD into the cardiovascular market with other CV portfolio products.

Brand Planning Manager, Strategy April 2008 – April 2009

Key member of the CRESTOR leadership team (Chief of Staff to Franchise Leader) that provided leadership and direction for all brand activities, maximized the long and short-term value of the brand, optimized and delivered the P&L, and managed the allocation of resources to ensure the most efficient and effective brand investments possible.

- Led, managed and contributed to all key aspects of the Brand Team's strategic and operational planning resulting in the development of an integrated brand strategy and an aligned operational plan across all customer groups (budget 250M).
- Led and developed the launch strategy for the atherosclerosis and primary prevention indications, as well as the CRESTOR 10-year growth strategy and plan.

Additional AstraZeneca Experience:

Regional Sales & Marketing Manager (2007 - 2008) | **Medical Care District Sales Manager** (2004 - 2007) | **Regional Business Analyst** (2003 - 2004) | **Pharmaceutical Sales Specialist** (2002-2003)
PricewaterhouseCoopers, Management Consultant (2000-2002)

Make copies of this page OR use a separate piece of paper if additional space is needed.

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		X
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		N/A
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		X
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		X
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		X
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		X
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		X
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		X
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		X
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		X

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # N/A . **Provide all the following *where applicable*:**

Date of Event/Arrest	Disposition Date	State	City	County
Case #		Governing, licensing, Arresting Presiding Body/Agency/Court		
Reason/Charge				
Plaintiff/Defendant/Claimant/Respondent			Lawsuit/Arbitration/Bankruptcy	
Name of Business/Industry/Entity				

Provide explanation below:

I, Roy Ware, Jr., **certify that as the designated representative for**

Chimerix, Inc.,

that I (initial that you have read and meet the following requirements) (NAC 639.5005, NAC 639.5935):

1. RW I am at least 21 years of age;
3. RW I have been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.
4. RW I will be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
5. RW I will be employed full-time in a managerial level position with the pharmacy or wholesaler;
6. RW I will be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
7. RW I will serve in this representative capacity for only one pharmacy or wholesaler at a time.

[redacted]

CHIEF MANUFACTURING AND TECHNOLOGY OFFICER

Creative and results-oriented leader focused on delivering maximum results in dynamic environments that demand continuous improvement, innovation, and strategic thinking. Successful in driving assets from discovery stage to clinical candidate selection and developing supply chains to support phase 1-3 clinical studies and commercial production. Respected for building, motivating, inspiring and empowering multi-functional teams that consistently exceed corporate expectations while demonstrating core corporate values of accountability, innovation, integrity, respect, and transparency.

Areas of Expertise

- Executive Leadership
- Strategic Planning and Execution
- Intellectual Property Creation & Extension
- Medicinal & Process Chemistry
- Non-GMP and cGMP Manufacturing
- Pre-IND/IND, IMPD, NDA, MAA, NDS Preparation
- Technology Evaluation/Due Diligence
- Process Development and Optimization
- International CRO/CDMO Selection/Management
- Global Supply Chain Management
- Budgeting/Forecasting

Therapeutic Areas/Technologies

- Infectious Diseases
- Respiratory Diseases
- Oncology
- Central Nervous System
- Rheumatoid Arthritis
- Drug Addiction Therapy
- Drug Delivery Technologies
- Platform Technologies
- Scale-up Technologies

PROFESSIONAL EXPERIENCE

Chimerix, Inc., Durham, NC
December 2007 – Present
2505 Meridian Parkway, Durham, NC 27713
(919) 806-1074

Chief Manufacturing and Technology Officer

- Lead and develop strategic vision for Chemistry, Manufacturing, and Global Supply Chain operations for Dordaviprone® (ONC201), ONC206, and CMX521.
- Led Tembexa® (brincidofovir, BCV) CMC technical team activities for NDA submission which was granted approval for smallpox by the FDA in June 2022; ~$35M USD in sales internationally in 2022 prior to out-licensing.
- CMC strategic discussion leader with the World Health Organization (WHO), European Medicines Agency (EMA), Health Emergency preparedness and Response Authority (HERA), Health Canada, and multiple other international regulatory agencies before and during monkeypox global health emergency in 2022.
- Member of the Chimerix Executive Team, Policy and Strategy Team (PSC), Sr. Staff, and Patent Committee
- Present chemistry, manufacturing, and supply chain strategies to C-level executives, Board of Directors, investors, analysts, and key stakeholders
- Develop functional and operational strategies to transition drug candidates from discovery into clinical development and regulated manufacturing environments.
- Responsible for building and maintaining a highly talented, high-performing, flexible Chemistry, Manufacturing and Supply Chain (CMSC) Team
- Manage CMC due diligence activities for evaluating in-/out-licensing opportunities.

Vice President, Chemistry

- Directly supervised the daily operations of drug product development activities, including solid oral dose, suspension, and intravenous formulations.
- Head of drug substance and drug product manufacturing for Tembexa®

- Directed medicinal chemistry activities from hit to lead and lead optimization for preclinical assets.
- Managed and directed all internal and outsourced chemistry and manufacturing activities.
- Managed analytical chemistry activities related to drug substance and drug product method validations, release, and stability testing.
- Directed supply chain activities and sourced bulk raw materials to support manufacturing activities for BCV, CMX203 (late-stage BCV intermediate), and CMX521 (norovirus candidate)
- Developed CMC development plans and budget and ensure projects are completed on time and within budget.
- Compiled and communicated project risks and status to the management team.
- Directed R&D efforts and liaised with outside patent counsel to significantly extend the composition of matter patents for BCV to 2034 and CMX157 (out-licensed to Contravir) to 2033.
- Chimerix Patent Committee Member and active participant in determining corporate patent strategy; review and approve patent related office actions.
- Ensured patent strategy aligned with corporate goals and initiatives.
- Authored, reviewed, and approved drug substance, drug product, and analytical methods sections for regulatory submissions, INDs, NDA, IMPDs, Canadian CTA, NDS etc.
- Oversight of packaging, labeling, and worldwide distribution of CTM for clinical studies and compassionate use requests
- Chemistry/manufacturing representative for evaluating in/out-licensing opportunities.

Senior Director, Chemistry
Director, Chemistry

- Head of drug substance manufacturing for BCV
- Drug Substance Manufacturing Control Account Manager (CAM) for Biomedical Advanced Research and Development Authority (BARDA) for Chimerix's BCV Smallpox Program
- Developed a process to identify and select HPAPI manufacturers suitable to manufacture BCV.
- Lead the technical transfer and validation campaigns of BCV at two different manufacturing sites.
- Interacted with contract manufacturers and third-party logistics providers to develop strategies and tactical plans to meet supply chain performance measures.
- Advised management and BARDA of the current and future status of product supply.
- Managed the Chimerix intellectual property docket, liaison with in-house and outside patent counsel on all patent related issues.
- Participated on acquisition/new product introduction team to ensure product availability and subcontractor systems are aligned in support of timelines.
- Identified and sourced bulk raw materials to support manufacturing campaign.
- Conducted technical audits of potential CROs and CMOs in the US, Europe, and Asia
- Established secondary sources for all key raw materials used in commercial manufacturing.
- Coordinated the outsourcing and preparation of bioanalytical/analytical reference standards and markers, including radiolabeled and stable-labeled materials.
- Managed and directed the daily operations of the Chimerix Chemistry Laboratory which included the supervision of both in-house and contract scientists (BS, MS, and PhD levels), purchasing capital equipment, developing, and maintaining annual budget, managing process development and medicinal chemistry projects.

Group Leader, Chemistry
Senior Research Scientist

- Managed and actively lead the chemistry in the non-GMP and cGMP chemical development of BCV from laboratory scale to manufacturing scale.
- Managed and actively lead the non-GMP and cGMP chemical development of CMX157 from laboratory scale to multi-kilogram scale to provide material for toxicology studies and clinical trials.
- Managed and actively lead the chemical development of CMX203 from laboratory scale to manufacturing scale.
- Lead the domestic and international outsourcing of process development and medicinal chemistry projects involving multiple teams of chemists.

- Prepared market analysis reports, including S.W.O.T. diagrams, niche market space projections, and competitive and patent landscape analyses of targeted therapeutic areas.
- Prepared chemical manufacturing sections of Investigational New Drug Applications (INDs).
- Evaluated internal and competitor intellectual property positions to guide patent strategy.
- Drafted patent applications and liaison with patent attorneys on strategy and filings.
- Key initiator and driver of the development of Chimerix's Chemical/Biology Database.
- Conduct on-site audits of CROs and CMOs non-GMP and cGMP research facilities.
- Co-inventor on multiple patent applications covering Chimerix's technology, chemical processes, and new compound entities.

Pharmacore, Inc., High Point, NC
Acquired by Cambrex in October 2016
4170 Mendenhall Oaks Parkway, High Point, NC 27265
(336) 841-5250

Research Scientist, April 2007 – December 2007

- Managed the process development and scale-up of multiple Advanced Pharmaceutical Ingredients (API's), clinical trial candidates, reference standards, and final drug products under both cGMP and non-GMP conditions for assets across multiple therapeutic areas.
- Synthesized a wide range of proprietary therapeutic scaffolds/medicinal chemistry analogs for research and commercial purposes.
- Consistently beat project timeline goals and allotted budgets.
- Prepared technical reports, Certificates of Analyses, and project presentations.
- Conveyed results/challenges to international clients on a daily/weekly basis.

Scynexis, Inc., Durham, NC
Acquired by Avista Pharma Solutions in Jul 2015
Avista Pharma Solutions acquired by Cambrex in January 2019
3501 Tricenter Blvd., Suite C, Durham, NC 27713
(919) 544-8600

Process Development Chemist (*Contractor*), March 2006 – April 2007

- Performed process development and scale-up of Advanced Pharmaceutical Ingredients (API's) and clinical trial candidates for commercial clients across multiple therapeutic areas.
- Increased overall process yield by 117% for an oncology clinical candidate which allowed for phase 3 development.
- Synthesized and characterized medicinal chemistry libraries for industrial clients.
- Conveyed results/challenges to clients on a daily/weekly basis.
- Compiled client-specific reports including weekly updates, Final Reports, Certificate of Analyses, Material Safety Data Sheets, and all other accompanying analytical data.
- Presented research results at weekly Process Development Group meetings.

Serenex, Inc., Durham, NC
Acquired by Pfizer in March 2008

Research Scientist/Research Chemist, May 2002 – March 2005

- Evaluated internal and competitor intellectual property positions on given assets.
- Conducted literature and market research on competitors' products and drug pipelines.
- Involved in evaluating and determining strategy surrounding drug discovery projects.
- Designed synthetic routes which were applied to the scale up of nucleoside mono-, di-, and triphosphate derivatives to support the innovation and advancement of proprietary platform technology.
- Medicinal Chemistry leader on oncology, malaria, and rheumatoid arthritis (RA) projects.
- Designed and synthesized multiple highly potent kinase inhibitors (1, 8-naphthyridine derivatives) to support multiple oncology and RA discovery projects.
- Designed and synthesized lead compound for malaria project targeted at quinone reductase II.

- Supervised scientific staff of MS and PhD scientists.

Research Triangle Institute, RTP, NC
3040 Cornwallis Rd., Durham, NC 27709
(919) 541-6000
Postdoctoral Chemist (Dr. F. Ivy Carroll), January 2001 – May 2002

- Designed and executed a more expedient synthetic route to proposed epibatidine analogs (pain relief). This improvement led to a safer and accelerated method of preparation for novel fluorinated epibatidine derivatives.
- Proposed and synthesized tropane (cocaine) derivatives designed to interact with dopamine, serotonin, and norepinephrine transporters.
- Designed and synthesized most potent cocaine analog to date (>200,000 times more active).

DISSERTATION EXPERIENCE

Wake Forest University, Winston-Salem, NC
Department of Chemistry, Salem Hall
30 Gulley Dr., Winston-Salem, NC 27109
(336) 758-6139
Doctoral Candidate Research Assistant, August 1996 – December 2000

- Designed and synthesized organophosphorus heterocycles and phosphorus-containing amino acids which acted as inhibitor of nitric oxide synthase and demonstrated anti-cancer activity.
- Designed and prepared new sulfonyl-, xanthyl-, and phosphoryl-based amino acids as nitric oxide synthase inhibitors.
- Selected as the graduate student representative on the Chemistry Department Review Board.
- Mentored undergraduate research assistants and tutored organic chemistry students.

EDUCATION

The University of North Carolina, Chapel Hill, NC
Kenan-Flagler Business School
Master of Business Administration

Wake Forest University, Winston-Salem, NC
Ph. D. Organic Chemistry

- American Institute of Chemists Award

The University of North Carolina at Greensboro, Greensboro, NC
Bachelor of Arts in Chemistry, magna cum laude

- Phi Beta Kappa
- University Student Excellence Award, University Marshall
- Several Chemistry Departmental Awards for Outstanding Chemistry Student

or

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from to
Commission file number: 001-35867

Chimerix, Inc.

(Exact Name of Registrant as Specified in its Charter)

Delaware **(State or Other Jurisdiction of Incorporation or Organization)**	**33-0903395** **(I.R.S. Employer Identification No.)**
2505 Meridian Parkway, Suite 100 **Durham, North Carolina** **(Address of Principal Executive Offices)**	**27713** **(Zip Code)**

(919) 806-1074
(Registrant's Telephone Number, Including Area Code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value $0.001 per share	CMRX	The Nasdaq Global Market

Securities registered pursuant to Section 12(g) of the Act: None

---

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.:

Large accelerated filer ☐
Non-accelerated filer ☒

Accelerated filer ☐
Smaller reporting company ☒
Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☐

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Securities Exchange Act of 1934). Yes ☐ No ☒

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the registrant based upon the closing price of its Common Stock on The Nasdaq Global Market on June 28, 2024 was $74,314,290.

The number of outstanding shares of the registrant's common stock, par value $0.001 per share, as of March 14, 2025 was 93,803,846.

DOCUMENTS INCORPORATED BY REFERENCE

Document Description	10-K Part
Portions of the registrant's notice of annual meeting of stockholders and proxy statement to be filed pursuant to Regulation 14A within 120 days after registrant's fiscal year end of December 31, 2024 are incorporated by reference into Part III of this annual report. If such proxy statement is not filed within 120 days after the fiscal year end of December 31, 2024, such information will be included in an amendment to this annual report to be filed within such 120-day period.	III

Forward-Looking Statements

This Annual Report on Form 10-K (Annual Report) may contain "forward-looking statements" within the meaning of the federal securities laws made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth below under Part I, Item 1A, "Risk Factors" in this Annual Report. Except as required by law, we assume no obligation to update these forward-looking statements, whether as a result of new information, future events or otherwise. These statements, which represent our current expectations or beliefs concerning various future events that are subject to risks and uncertainties, may contain words such as "may," "will," "would," "could," "expect," "anticipate," "intend," "plan," "believe," "estimate," "project" or other words indicating future results. Such statements may include, but are not limited to, statements concerning the following:

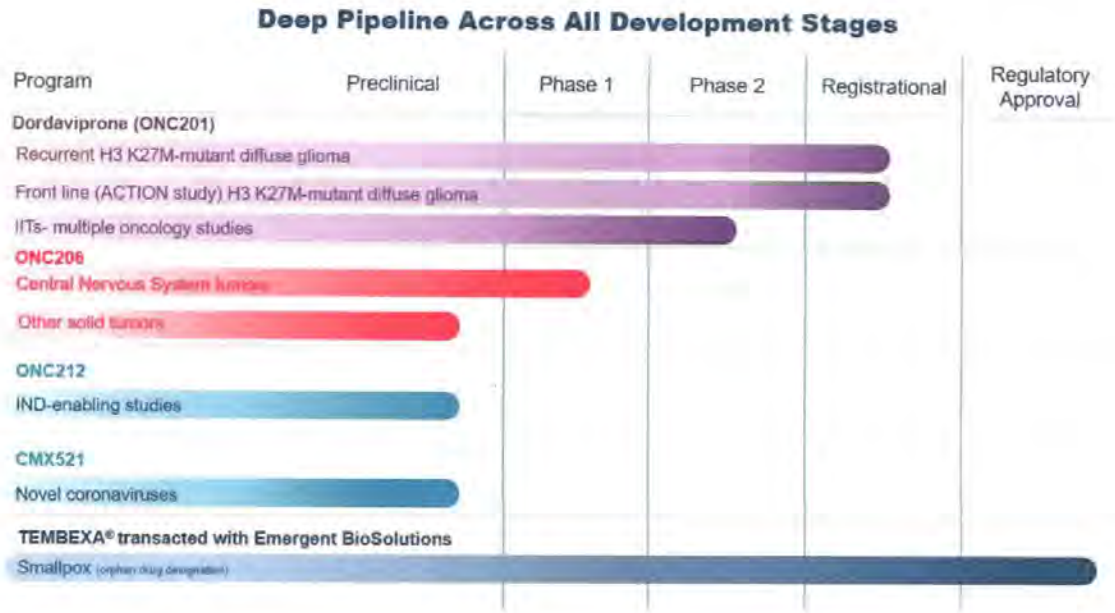
- the initiation, cost, enrollment, timing, progress and results of our research and development activities, preclinical studies and future clinical trials;
- our ability to obtain and maintain regulatory approval of our current and future product candidates, such as dordaviprone, and any related restrictions, requirements, including the need to develop a companion diagnostic, limitations, and/or warnings in the label of an approved product candidate;
- our ability to obtain funding for our operations;
- our ability to leverage external capital to develop our early-stage pipeline of product candidates;
- the election of the U.S. government to exercise future procurement options for TEMBEXA®;
- the potential for royalty and milestone revenue from our strategic collaborations;
- our plans to research, develop and commercialize our future product candidates;
- our strategic alliance partners' election to pursue development and commercialization;
- our ability to attract collaborators with development, regulatory and commercialization expertise;
- our ability to obtain and maintain intellectual property protection for our future product candidates;
- the size and growth potential of the markets for our current and future product candidates, and our ability to serve those markets;
- our ability to successfully commercialize our current and future product candidates, such as dordaviprone if approved;
- the rate and degree of market acceptance of our current and future product candidates, including dordaviprone's potential to rapidly become a standard of care and a meaningful therapy for patients with limited treatment options;
- our ability to develop sales and marketing capabilities, whether alone or with potential future collaborators;
- regulatory developments in the United States and foreign countries;
- the performance of our third-party suppliers and manufacturers;
- the success of competing therapies that are or become available;
- the loss of key scientific or management personnel;
- our use of the proceeds from our public offerings;
- our ability to enter into transactions to build our product candidate pipeline;
- the accuracy of our estimates regarding expenses, future revenues, capital requirements and need for additional financing; and
- the anticipated occurrence, manner and timing of Jazz Pharmaceuticals Public Limited Company (Jazz)'s proposed acquisition of us and its effects on our relationships with employees, customers, suppliers, other business partners or governmental entities.

Summary of Risk Factors

Below is a summary of material factors that make an investment in our common stock speculative or risky. Importantly, this summary does not address all of the risks and uncertainties that we face. Additional discussion of the risks and uncertainties summarized in this risk factor summary, as well as other risks and uncertainties that we face, can be found under "Risk Factors" in Part I, Item 1A of this Annual Report. The below summary is qualified in its entirety by that more complete discussion of such risks and uncertainties. You should consider carefully the risks and uncertainties described under "Risk Factors" in Part I, Item 1A of this Annual Report as part of your evaluation of an investment in our common stock.

- The pending merger with Jazz is subject to a number of conditions beyond our control. We may not complete the merger within the time frame we anticipate or at all, which could have an adverse effect on our business, financial results, and/or operations.

- The pendency of the merger with Jazz could adversely affect our business, financial results and/or results of operations and may impair our ability to attract and retain qualified employees or retain or maintain relationships with our customers, suppliers, other business partners or governmental entities.
- While the Merger Agreement with Jazz is in effect, we are subject to restrictions on our business activities.
- We anticipate that we will continue to incur significant losses for the foreseeable future, and we may never achieve or maintain profitability.
- All of our product candidates are still under clinical development and may not obtain regulatory approval or be successfully commercialized.
- We may be unable to obtain, or may be delayed in obtaining, regulatory approval for our clinical candidates, including our most advanced clinical candidate, dordaviprone.
- Our ability to generate future revenues from product sales is uncertain and depends upon our ability to successfully develop, obtain regulatory approval for, and commercialize product candidates, and even if we generate future revenues, they may not be sufficient to lead to profitability.
- Following regulatory approval for any of our product candidates, including dordaviprone, we will still face extensive regulatory requirements and our products may face future development and regulatory difficulties.
- We rely on third-party manufacturers to produce our preclinical drug supplies and clinical drug supplies, and intend to rely on third parties to produce commercial supplies of any approved product candidates.
- We routinely evaluate external assets to build our pipeline of product candidates and there can be no assurance that we will be successful in identifying or completing a transaction for a candidate, that any such transaction will result in additional value for our stockholders or that the process will not have an adverse impact on our business.
- The anticipated benefits of the sale of our TEMBEXA assets to Emergent Biodefense Operations Lansing LLC, (Emergent) may not be realized fully or at all or may take longer to realize than expected.
- Our ability to receive future contingent consideration from the sale of TEMBEXA depends on, among other things, Emergent's ability to successfully develop and commercialize TEMBEXA.
- If we are unable to obtain or protect intellectual property rights related to our products and product candidates, we may not be able to compete effectively in our market.
- Increasing demand for compassionate use or third-party supply of our unapproved therapies could impair or delay the completion of our controlled clinical trials or otherwise result in losses.
- If we fail to comply with the extensive legal and regulatory requirements affecting the health care industry, we could face increased costs, delays in the development of our product candidates, penalties and a loss of business.
- Our common stock may be delisted from The Nasdaq Global Market which could negatively impact the price of our common stock, liquidity and our ability to access the capital markets.



Market, Industry and Other Data

This Annual Report contains estimates, projections and other information concerning our industry, our business and relevant markets, including data regarding the estimated size of relevant markets, patient populations, projected diagnosis rates and the perceptions and preferences of patients and physicians regarding certain therapies, as well as data regarding market research and estimates. Information that is based on estimates, forecasts, projections, market research or similar methodologies is inherently subject to uncertainties and actual events or circumstances may differ materially from events and circumstances that are assumed in this information. Unless otherwise expressly stated, we obtained this industry, business, market and other data from reports, research surveys, studies and similar data prepared by market research firms and other third parties, industry, medical and general publications, government data and similar sources that we believe to be reliable. In some cases, we do not expressly refer to the sources from which this data is derived. In that regard, when we refer to one or more sources of this type of data in any paragraph, you should assume that other data of this type appearing in the same paragraph are derived from the same sources, unless otherwise expressly stated or the context otherwise requires.

ITEM 1. BUSINESS

Chimerix Overview

Chimerix (Chimerix, we, our, us or the Company) is a biopharmaceutical company whose mission it is to develop medicines that meaningfully improve and extend the lives of patients facing deadly diseases. The Company is focused on developing imipridones as a potential new class of selective cancer therapies. The most advanced imipridone is dordaviprone (ONC201), which is in clinical-stage development for H3 K27M-mutant diffuse glioma as its lead indication. In addition, a second-generation imipridone (ONC206) is currently in dose escalating clinical trials for adult and pediatric patients with primary central nervous system tumors.

Agreement and Plan of Merger

On March 4, 2025, we entered into an Agreement and Plan of Merger (the Merger Agreement) with Jazz Pharmaceuticals Public Limited Company, an Irish public limited company (Jazz), and Pinetree Acquisition Sub, Inc., a Delaware corporation and an indirect wholly owned subsidiary of Jazz (Purchaser). Pursuant to the Merger Agreement, and upon the terms and subject to the conditions thereof, Jazz has agreed to cause Purchaser to commence a tender offer to acquire all of our outstanding shares at a price of $8.55 per share in cash, without interest and subject to reduction for any applicable withholding taxes (the Offer Price), representing a total consideration of approximately $935 million. Upon the successful completion of the tender offer, Jazz will acquire all shares not acquired in the tender through a second-step merger for the same consideration per share paid in the tender offer. Our Board of Directors unanimously recommended that our shareholders tender their shares in the tender offer.

The transaction is subject to customary closing conditions, including the tender of a majority of the outstanding shares of our voting common stock and other conditions. At the Effective Time (as defined in the Merger Agreement), each outstanding share of the Company (other than certain exceptions as described therein) will automatically be converted into the right to receive the Offer Price, without any interest thereon and subject to any withholding of applicable taxes. We anticipate the transaction will close in the second quarter of 2025. Following the completion of the tender offer and subject to the terms and conditions of the Merger Agreement, the Company will survive as a wholly owned subsidiary of Jazz and cease to be a publicly traded company.

The Merger Agreement contains customary termination rights for us and Jazz. If the Merger Agreement is terminated under specified circumstances, we will be required to pay Jazz a termination fee of $35 million in cash.

Additional Information and Where to Find It

The tender offer referenced in this Annual Report has not yet commenced. This Annual Report is for informational purposes only and is not a substitute for the tender offer materials that Jazz and Purchaser are expected to file with the SEC upon the commencement of the tender offer. The solicitation and offer to tender and the offer to buy Chimerix stock will only be made pursuant to the tender offer statement on Schedule TO, including an Offer to Purchase and related tender offer materials that Jazz and Purchaser are expected to file with the SEC. CHIMERIX'S STOCKHOLDERS AND OTHER INVESTORS ARE URGED TO READ CAREFULLY THE TENDER OFFER MATERIALS (INCLUDING AN OFFER TO PURCHASE, A RELATED LETTER OF TRANSMITTAL AND CERTAIN OTHER TENDER OFFER DOCUMENTS), AS WELL AS THE SOLICITATION/RECOMMENDATION STATEMENT ON SCHEDULE 14D-9 BECAUSE THEY EACH CONTAIN IMPORTANT INFORMATION THAT HOLDERS OF CHIMERIX SECURITIES AND OTHER INVESTORS SHOULD CONSIDER BEFORE MAKING ANY DECISION WITH RESPECT TO THE TENDER OFFER. The Offer to Purchase, the

related Letter of Transmittal, certain other tender offer documents, as well as the Solicitation/Recommendation Statement on Schedule 14D-9, will be available to all stockholders of Chimerix at no expense to them and will also be available for free at the SEC's website at www.sec.gov. Additional copies may be obtained for free by contacting either Jazz or Chimerix. Copies of the documents filed with the SEC by Chimerix will be available free of charge on Chimerix's website at https://www.chimerix.com or by contacting Chimerix at IR@chimerix.com. Copies of the documents filed with the SEC by Jazz will be available free of charge on Jazz's website at https://investor.jazzpharma.com or by contacting Jazz's Investor Relations Department at investorinfo@jazzpharma.com.

In addition to the Offer to Purchase, the related Letter of Transmittal and certain other tender offer documents, as well as the Solicitation/Recommendation Statement on Schedule 14D-9, Jazz and Chimerix each file annual, quarterly and current reports, proxy statements and other information with the SEC, which are available to the public over the internet at the SEC's website at http://www.sec.gov.

Imipridones and Dordaviprone

New Drug Application for Accelerated Approval of Dordaviprone

On February 14, 2025, the U.S. Food and Drug Administration (FDA) accepted for filing our New Drug Application (NDA) seeking accelerated approval of dordaviprone for the treatment of patients with recurrent H3 K27M-mutant diffuse glioma. In its acceptance, FDA confirmed that the NDA will receive Priority Review under the terms of the Prescription Drug User Fee Act (PDUFA). The target date for completion of FDA's review of the NDA (i.e. the PDUFA date) is August 18, 2025. FDA has indicated that it is not planning to hold an Oncologic Drug Advisory Committee (ODAC) meeting at this time.

Background

In December 2024, the Company announced its submission of an NDA seeking accelerated approval of dordaviprone for the treatment of patients with recurrent H3 K27M-mutant diffuse glioma. The NDA was based on recent program milestones and additional supportive data:

- Substantial enrollment of the Phase 3 ACTION study;
- Phase 2 objective response rate of the 50-patient primary efficacy analysis assessed by blinded independent central review as the primary basis of efficacy in the NDA;
- Several response assessments, including the most contemporary response assessment criteria for gliomas, Response Assessment in Neuro-Oncology 2.0 (RANO 2.0), under which dordaviprone demonstrated an objective response rate of 28%, a median duration of response of 10.4 months and a median time to response of 4.6 months;
- Additional clinical data sets and patient narratives supportive of the primary efficacy analysis observed to date;
- Clinical and nonclinical demonstration of dordaviprone-driven reversal of the central hallmark of H3 K27M-mutant glioma, H3K27 trimethyl loss;
- Comprehensive safety database of glioma patients and healthy volunteers that supports a favorable benefit/risk profile observed to date; and
- Comprehensive clinical pharmacology and chemistry, manufacturing, and controls studies.

Additionally, dordaviprone for H3 K27M-mutant diffuse glioma has received FDA rare pediatric disease designation. Should the Company be awarded a rare pediatric disease priority review voucher with approval of the NDA and subsequently sell such rare pediatric disease priority review voucher to a third party, 50% of the net proceeds from such sale would be payable to the former securityholders of Oncoceutics, Inc. pursuant to the Agreement and Plan of Merger with Oncoceutics, Inc., dated as of January 7, 2021.

Phase 3 ACTION Study of Dordaviprone

Dordaviprone is currently in a global randomized Phase 3 trial (the ACTION Study) for patients with diffuse glioma, or diffuse midline glioma (DMG), which harbor a H3 K27M mutation. Frontline radiotherapy is the standard of care for these patients. DMGs that harbor the H3 K27M mutation are considered Grade IV by the World Health Organization. This patient population has few treatment options and poor prognoses.

The Phase 3 ACTION Study is currently enrolling H3 K27M-mutant glioma patients in 18 countries in North and South America, Europe, the UK, Israel, Australia and Asia. Management expects interim overall survival (OS) data from the trial to be available in 2026. The ACTION Study enrolls patients shortly after they have completed front-line radiation therapy that is the standard of care for glioma. The study is designed to enroll 450 patients randomized 1:1:1 to receive dordaviprone at one of

two dosing frequencies or placebo. Participants are randomized to receive either: (i) 625mg of dordaviprone once per week, (ii) 625mg twice per week on two consecutive days or (iii) placebo. The study is open to pediatric and adult patients >10kg body weight and the dose will be scaled by body weight for patients weighing less than 52.5kg. Primary endpoints include OS and progression-free survival (PFS). OS will be assessed for efficacy at three alpha-allocated timepoints consisting of two interim assessments by the Independent Data Monitoring Committee (IDMC) at 164 events and 246 events, respectively, and a final assessment at 327 events. The final PFS analysis will be performed after 286 events, with progression assessed using response assessment in neuro-oncology-high grade glioma (RANO) criteria by blinded independent central review (BICR). Secondary endpoints include corticosteroid response, performance status response, change from baseline in quality of life (QoL) assessments and change from baseline in neurologic function as assessed by the Neurologic Assessment in Neuro-Oncology (NANO) scale. A pre-specified safety review of patients in the ACTION Study was conducted by the IDMC, which did not identify any safety concerns, and recommended that the study continue as planned and designed. The ACTION study remains an important study as it is evaluating dordaviprone in a different line of therapy (front-line/pre-recurrence) than the potential accelerated approval NDA in the recurrent H3 K27M-mutant diffuse glioma setting. Additionally, should the currently submitted NDA for dordaviprone lead to an accelerated approval in the recurrent setting, it is possible the FDA may identify the ACTION study as a confirmatory study for full approval.

Significant Peer Reviewed Journal Publications and Presentations

In November 2024, we presented an updated Phase 2 response assessment of dordaviprone in recurrent H3 K27M glioma at the 2024 Society for Neuro Oncology (SNO) meeting. The presentation provided an updated assessment of objective response to dordaviprone previously reported in the BICR cohort in recurrent H3 K27M-mutant diffuse glioma using RANO 2.0, the most recently established criteria for this disease currently. The updated analysis demonstrated an overall response rate of 28.0%, a median time to response of 4.6 months plus a median duration of response of 10.4 months.

In February 2024, "ONC201 (dordaviprone) in Recurrent H3 K27M-mutant Diffuse Midline Glioma" was published in the Journal of Clinical Oncology (JCO), a peer reviewed journal of the American Society of Clinical Oncology (ASCO). The manuscript reports in detail the results of 50 patients with recurrent H3 K27M-mutant diffuse midline gliomas (H3K27M-DMG) treated with monotherapy dordaviprone who were evaluable for objective response by RANO high grade glioma (HGG) criteria. Dordaviprone demonstrated a median overall survival (mOS) of 13.7 months (95% CI: 8.0-20.3), with an overall two-year rate of survival of 35% (95% CI: 21-49) from the start of dordaviprone treatment post-recurrence. We previously conducted a natural disease history study (n=43) in the recurrent setting evaluating patients who did not receive dordaviprone which showed an mOS of 5.1 months (95% CI: 3.9-7.1) with an overall two-year survival rate of 11% (95% CI: 3.3-24.2). We had previously disclosed the top-line data from this JCO publication.

In August 2023, data in support of dordaviprone as a treatment for H3K27M-DMG appeared in the peer-reviewed journal, Cancer Discovery, a journal of the American Association for Cancer Research. The manuscript titled, "Clinical efficacy of ONC201 in H3K27M-mutant diffuse midline gliomas is driven by disruption of integrated metabolic and epigenetic pathways," reported survival analyses of 71 patients with H3K27M-DMG treated with dordaviprone, which demonstrated promising results in a patient population with a poor prognosis and few treatment options. In addition to assessing clinical outcomes, the study corroborated mechanistic findings from laboratory models in samples from treated patients that demonstrated the ability of dordaviprone to disrupt metabolic pathways and reverse a molecular signature of the H3 K27M mutation in patient's tumor samples. According to the survival analyses in this study, dordaviprone frontline treatment, administered post radiation therapy, demonstrated a significant increase in mOS from diagnosis in dordaviprone-treated versus in historical controls (21.7 months mOS vs. 12 months mOS, $p<0.0001$). The study was led by a team of researchers from the University of Michigan and other collaborators including several authors from Chimerix.

Eligibility for Primary Efficacy Analysis Aligned with FDA

We aligned with the FDA on the eligibility requirements to evaluate monotherapy efficacy of dordaviprone in recurrent H3K27M-DMG by dual-reader BICR in the first 50 subjects who met the agreed upon criteria. The data submitted in the NDA to the FDA included primary efficacy analysis by RANO 2.0, RANO high grade glioma (RANO HGG) and RANO low grade glioma (RANO LGG). The table below summarizes the findings by all three criteria.

n=50	RANO 2.0	RANO-HGG	RANO-LGG
Objective Response Rate, n (%) [95% CI]	**14 (28.0) [16.2-42.5]**	**10 (20.0) [10.0-33.7]**	**13 (26.0) [14.6-40.3]**
Complete Response	0	1 (2.0)	0
Partial Response	10 (20.0)	9 (18.0)	6 (12.0)
Minor Response	4 (8.0)	NA	7 (14.0)
Stable Disease	6 (12.0)[1]	10 (20.0)	8 (16.0)
Not Evaluable	11 (22.0)	8 (16.0)[2]	11 (22.0)[3]
Progressive Disease	15 (30.0)	18 (36.0)	14 (28.0)
Not Applicable	4 (8.0)	4 (8.0)	4 (8.0)
Disease Control Rate, n (%) [95% CI]	20 (40.0) [26.4-54.8]	20 (40.0) [26.4-54.8]	21 (42.0) [28.2-56.8]
Median Time to Response, months [range]	4.6 [1.6-15.9]	8.3 [1.9-15.9]	3.6 [1.6-17.8]
Median Duration of Response, months, [95% CI]	10.4 [7.4-15.4]	11.2 [3.8-NR]	10.4 [3.6-12.7]
Overall Survival, months, median [95% CI]		14.0 [8.0-26.1]	
12-month survival estimate, [95% CI]		57.5% [41.7-70.5]	
24-month survival estimate, [95% CI]		37.6% [23.2-51.9]	

[1] Includes one patient with unconfirmed response by RANO 2.0.
[2] Five overall radiographic SD accompanied by increase in corticosteroids; three overall radiographic PD accompanied by decrease in corticosteroids.
[3] Eight overall radiographic SD accompanied by increase in corticosteroids; three overall radiographic PD accompanied by decrease in corticosteroids.

Dordaviprone Clinical Pharmacology and Safety Assessment

In clinical pharmacology studies comprising 245 participants, dordaviprone was well tolerated at dose levels ranging from 125mg to 750mg. The majority of treatment-related adverse events were Grade 1 (mild) and transient. The most common treatment-related adverse events (AE) were Grade 1 nausea and dizziness.

In completed glioma patient studies, the most common AEs were fatigue, headache, vomiting and nausea. The majority of the adverse events were mild to moderate. Investigators reported serious adverse events they considered possibly related to dordaviprone in only 15 patients (3.6%). Overall, only 10 patients (2.4%) experienced a treatment-related AE that led to study drug modification or discontinuation.

Fast Track Designation by FDA

The FDA has granted dordaviprone Fast Track Designation for the treatment of adult recurrent H3 K27M-mutant high-grade glioma, Rare Pediatric Disease Designation for treatment of H3K27M-DMG, and Orphan Drug Designations for the treatment of glioblastoma and for the treatment of malignant glioma.

ONC206

ONC206 is a second generation imipridone ClpP agonist and DRD2 antagonist that has demonstrated monotherapy activity in advanced solid tumor models. Oral ONC206 was well tolerated and achieved prolonged exposures above target thresholds in Phase 1 dose escalation trials at dose frequencies up to twice per day on three consecutive days per week (BID TIW).

The dose escalation studies of ONC206 have enrolled over 100 pediatric and adult patients with CNS tumors. Thus far, a similar safety profile has been observed in the pediatric and adult populations, with the majority of treatment-related adverse events (fatigue, lymphocyte count decrease and vomiting) being mild to moderate. No significant change in the overall safety profile has been reported to date as dosing has escalated and intensified in frequency from once per week to twice per day on three consecutive days per week. Completion of dose escalation is expected to occur in Q2 of 2025.

Nonclinical studies remain ongoing to identify additional oncology indications for further development of ONC206.

Early Pipeline Development, ONC212 and CMX521

ONC212 is an imipridone, investigational agonist of the orphan GPCR tumor suppressor GPR132, as well as ClpP. Similar to the potential downstream effects of dordaviprone and ONC206, in vitro studies of ONC212 demonstrate activation of integrated stress response, inhibition of Ras signaling and selective killing of tumor cells.

Initial IND-enabling studies with ONC212 have been completed and pre-clinical studies are on-going in collaborations with the University of Texas MD Anderson Cancer Center and Brown University. These preclinical studies look to evaluate potential oncology indications and predictive ONC212 biomarkers that could be suitable for clinical development.

CMX521 is a nucleoside analog antiviral drug candidate for the treatment of novel coronaviruses. CMX521 is not mutagenic, clastogenic, or associated with mitochondrial toxicity. In addition, oral CMX521 demonstrated a favorable profile in GLP toxicology studies and was well-tolerated up to 2,400 mg in a healthy volunteer Phase 1 study for a different indication.

Pursuant to a 2006 agreement between the Company and The Regents of the University of Michigan (UM), the Company obtained an exclusive, worldwide license to UM's patent rights in certain inventions related to certain compounds originally synthesized at UM, including CMX521 (the UM Patent Rights). Under the license agreement, the Company is permitted to research, develop, manufacture and commercialize products utilizing the UM Patent Rights, and to sublicense such rights subject to certain sublicensing fees and royalty payments.

We are currently working with the Rapidly Emerging Antiviral Drug Development Initiative (READDI) at the University of North Carolina at Chapel Hill (UNC) for the development of CMX521 as a potential treatment for novel coronaviruses. UNC is the co-recipient of a grant for approximately $1.7 million from the state of North Carolina which will defray the majority of the costs on this effort. The grant is expected to fund prodrug synthesis and animal studies to optimize delivery of CMX521 to the lungs via a convenient oral formulation. Multiple prodrugs have been synthesized and efforts are underway to determine efficacy against a diverse panel of coronaviruses including circulating and pre-emergent strains. In addition, UNC intends to conduct coronavirus disease mouse efficacy model studies and evaluate lung delivery of the active antiviral.

Chimerix Antiviral Chemical Library

The Chimerix Chemical Library contains over 10,000 heterocyclic ring systems and nucleosides. This library includes approximately 3,500 nucleoside analog compounds, most of which are candidates for lipid conjugation. In a collaboration with the scientists at UNC and the University of Wisconsin-Madison, we continue to evaluate our library of antiviral molecules to identify candidates that may have the potential to accelerate pandemic preparedness or response to SARS-CoV-2 (for example, COVID-19) or other potential future pandemics.

TEMBEXA (brincidofovir, BCV)

TEMBEXA is a lipid conjugate which acts via inhibition of viral DNA synthesis that is a medical countermeasure for smallpox. On June 4, 2021, the FDA granted TEMBEXA approval for the treatment of smallpox. TEMBEXA is available in tablets and oral suspension. It is approved for adult and pediatric patients, including neonates. TEMBEXA was developed as a medical countermeasure for the treatment of smallpox under a collaboration with Biomedical Advanced Research and Development Authority (BARDA).

On September 26, 2022, the Company sold its exclusive worldwide rights to brincidofovir, including TEMBEXA® and specified related assets (the Asset Sale) to Emergent. Upon closing of the Asset Purchase Agreement for the Asset Sale, the Company received $238 million upfront and could receive additional milestone payment of up to $136.5 million to be paid contingent upon the execution of optional future procurement awards from BARDA and other development milestones. The Company may also earn a 20% royalty on future gross profit of TEMBEXA in the United States associated with volumes above 1.7 million treatment courses of therapy during the exclusivity period of TEMBEXA. The agreement also allows the Company to earn a 15% royalty on all gross profit associated with TEMBEXA sales outside of the United States during the exclusivity period of TEMBEXA on a market-to-market basis. In September 2024, BARDA and Emergent agreed to amend the terms of the BARDA Agreement for sales of TEMBEXA. We are currently evaluating our next steps with respect to Emergent regarding the effect of the amended BARDA Agreement on the achievement of the sales milestones set forth in the Asset Purchase Agreement.

Our Strategy

The principal components of our business strategy are to:

- **Successfully commercialize dordaviprone.** Dordaviprone could receive marketing authorization in the United States as soon as August 18, 2025. Therefore, we plan to build a platform to support a potential commercial launch in the United States in the third quarter of 2025. Patients with H3 K27M mutant diffuse glioma are faced with a terminal disease with no known effective therapeutic options beyond radiation. In the current neuro-oncology community, there exists high awareness of dordaviprone which we believe will aid in the potential commercialization.
- **Successfully execute the randomized controlled Phase 3 ACTION Study.** Dordaviprone is being developed for H3 K27M-mutant diffuse glioma. Currently, we are enrolling Phase 3 ACTION Study, a randomized, double-blind, placebo-controlled, multi-center Phase 3 international trial for newly diagnosed patients with H3 K27M-mutant diffuse glioma shortly following radiation with targeted enrollment of approximately 450 patients randomized 1:1:1 to receive dordaviprone at one of two dosing frequencies or placebo. Available Phase 2 data demonstrate durable responses (as measured by RANO 2.0, RANO HGG and RANO LGG) in recurrent H3 K27M-mutant diffuse midline glioma associated with other forms of clinical benefit. Results from both independent and company sponsored natural disease history studies are consistent with the existence of a potential survival advantage. The genetically selected patient population limits patient heterogeneity. In the current neuro-oncology community there exists high awareness of dordaviprone that has aided in the enrollment of Phase 3 ACTION Study.
- **Complete the Phase 1 ONC206 study and evaluate Phase 2 development indications.**
- **Maintain corporate capability and financial flexibility.** Our leadership team has successfully executed large-scale clinical studies and regulatory approvals of investigational agents. We intend to continue to leverage external capital to develop our early-stage pipeline consisting of ONC212 and derivatives of CMX521.
- **Seek opportunities to in-license other development programs.** We continue to review transactions designed to build our product candidate pipeline, including, but not limited to, merger or acquisition transactions, or the license, purchase or sale of specific assets, in addition to other potential actions aimed at maximizing stockholder value. There can be no assurance that this review will result in the identification or consummation of any additional transaction.

Significant Agreements

Emergent Biodefense Operations Lansing LLC

On September 26, 2022, the Company completed the Asset Sale to Emergent of the Company's exclusive worldwide rights to brincidofovir, including TEMBEXA® and specified related assets (the Asset Sale). Emergent paid the Company an upfront cash payment of approximately $238 million upon the closing of the Asset Sale. In addition, pursuant to the Asset Purchase Agreement, the Company is eligible to receive from Emergent: (i) up to an aggregate of approximately $124 million in milestone payments payable upon the exercise of the options under the BARDA Agreement for the delivery of up to 1.7 million treatment courses of tablet and suspension formulations of TEMBEXA to the U.S. government; (ii) royalty payments equal to 15% of the gross profits from the sales of TEMBEXA made outside of the United States; (iii) royalty payments equal to 20% of the gross profits from the sales of TEMBEXA made in the United States in excess of 1.7 million treatment courses; and (iv) up to an additional $12.5 million upon the achievement of certain other developmental milestones.

The period under which we were contracted to provide the majority of operational support services to Emergent in furtherance of its obligations under the Asset Purchase Agreement and the BARDA Agreement concluded on March 26, 2023, except for certain services which the parties agreed would continue until the occurrence of a specific event, or in some cases a predetermined end date. The BARDA Agreement was novated to Emergent in December 2022.

Merger Agreement with Oncoceutics

On January 7, 2021, we entered into an agreement to acquire Oncoceutics, a privately-held, clinical-stage biotechnology company developing imipridones, a novel potential class of compounds. As consideration for the acquisition, we (a) paid an upfront cash payment of approximately $25.0 million, (b) issued an aggregate of 8,723,769 shares of our common stock, (c) made an additional cash payment of $14.0 million upon the one year anniversary of the closing of the acquisition, and (d) agreed to make contingent payments up to an aggregate of $360.0 million based on the achievement of certain development, regulatory and commercialization events, as well as additional tiered royalty payments based upon combined future net sales of ONC201 and ONC206 products of 15% up to $750 million in annual revenue and 20% above $750 million in annual revenue.

subject to certain reductions, and a contingent payment in the event we receive any proceeds from the sale of a rare pediatric disease priority review voucher based on the Oncoceutics products. Pursuant to the merger agreement we have certain diligence obligations with respect to further development and commercialization of the Oncoceutics product candidates.

Ohara Pharmaceutical Co., Ltd. (Ohara)

In 2019, Oncoceutics entered into a license, development and commercialization agreement with Ohara Pharmaceutical Co., Ltd. for ONC201 in Japan. We are entitled to receive up to $2.5 million in nonrefundable regulatory milestone payments, and to tiered royalties based on the aggregate annual net sales of all products, as defined in the agreement, in Japan.

In September 2024, we entered into an addendum to such license, development and commercialization agreement with Ohara in which the parties agreed to collaboratively conduct development activities for dordaviprone in Japan, including expanding the ACTION Study into Japan (the Ohara License Addendum). Under the Ohara License Addendum, Ohara agreed to reimburse us for certain of its development costs incurred from its sponsorship of the ACTION Study in Japan, including fixed overhead payments totaling $3.3 million paid in quarterly installments through December 31, 2026, as well as site activation and subject enrollment-based payments. Amounts due under the Ohara License Addendum will be recognized in accordance with ASC 808 *Collaborative Arrangements*, as this agreement meets both requirements of a collaborative arrangement outlined in that guidance.

China Resources Sanjiu Medical & Pharmaceutical Co., Ltd. (CR Sanjiu)

In December 2020, Oncoceutics entered into a license, development and commercialization agreement for ONC201 with China Resources Sanjiu Medical & Pharmaceutical Co., Ltd. (CR Sanjiu). Oncoceutics granted CR Sanjiu an exclusive royalty bearing license to develop and commercialize ONC201 in China, Hong Kong, Macau and Taiwan (CR Sanjiu Territory). We are entitled to receive up to $5.0 million in nonrefundable regulatory milestone payments, and to tiered royalties based on the aggregate annual net sales of all licensed products, as defined in the agreement, in the CR Sanjiu Territory.

Commercial Operations

If dordaviprone is approved for H3 K27M-mutant diffuse glioma, we plan to build a platform to support a potential commercial launch for dordaviprone in the United States in the third quarter of 2025. We anticipate that commercialization would entail a relatively small commercial infrastructure, which may include a contract sales force, partner sales force, or an internally developed commercial organization.

Outside of the United States, subject to obtaining necessary marketing approvals, we may seek to commercialize dordaviprone ourselves or through distribution or other collaboration arrangements. If we elect to develop dordaviprone for other indications, we will plan to do so selectively either on our own or by establishing alliances with one or more pharmaceutical company collaborators, depending on, among other things, the applicable indications, the related development costs, reimbursement complexities and our available resources.

Competition

Our industry is highly competitive and subject to rapid and significant technological change. While we believe that our therapeutic experience, scientific and commercial knowledge provide us with competitive advantages, we will face competition from large and small pharmaceutical and biotechnology companies, including specialty pharmaceutical and generic drug companies, and other emerging technologies.

We believe that the key competitive factors that will affect the commercial success of dordaviprone and our other product candidates are the efficacy, safety and tolerability profile and the risk-benefit trade-off compared to alternative therapies or procedures. Securing market access and reimbursement will be an important element of product uptake and market penetration. Our commercial opportunity could be negatively impacted if our competitors develop or market products or other technologies that are more effective, better tolerated, safer, more convenient or have greater market access than dordaviprone or any product candidate, or obtain regulatory approval for their products more rapidly than we do. In addition, our ability to compete will be affected by the availability of generic products.

Dordaviprone is the most clinically advanced program in the industry for potentially treating tumors which harbor the H3 K27M mutation. If approved, treatment with dordaviprone is expected to be targeted to patients whose tumor harbors the H3 K27M mutation. There are currently no commercially available treatments that target the H3 K27M mutant patient population.

If approved, dordaviprone could compete with a number of existing products, new products in development and possible combination therapies used for brain cancers including generic drugs such as chemotherapy, targeted agents, immunotherapies, and other therapies. Select products that are currently used, or being developed for use, to treat brain cancers include, but are not limited to:

- Systemic therapies approved to treat brain cancer: temozolomide, lomustine, carmustine, everolimus, and bevacizumab;
- Tumor-treating fields such as Optune®; and
- Other investigational agents for the treatment of brain cancer: immunotherapies (CAR-T, durvalumab, VBI-1901, etc), viral therapies (DCVax-L, etc.), targeted agents (selinexor, paxalisib, MDNA55), and other therapies.

Changes in the health care system may limit our ability to price dordaviprone and our other product candidates at a level that would allow recovery of our research and development costs and may impede our ability to generate or maintain a profit.

We believe that dordaviprone has potential benefits over existing and potential competitive products, and, as a result, we believe that our products should be well positioned to gain adoption if we obtain the required regulatory approvals. However, even with those benefits, we may not be able to make promotional claims that these products are superior to competing products without conducting additional studies, which delivers differentiated data. See "Risk Factors – Risks Related to Commercialization of Our Product Candidates."

Our Intellectual Property

We strive to protect and enhance the proprietary technologies we believe are important to our business, including by seeking and maintaining patents intended to cover our products and compositions, their methods of use and any other inventions that are important to the development of our business. We also rely on trade secrets to protect aspects of our business that are not amenable to, or that we do not consider appropriate for, patent protection.

Our success will depend significantly on our ability to obtain and maintain patent and other proprietary protection for commercially important technology, inventions and know-how related to our business, defend and enforce our patents, maintain licenses to our intellectual property owned by third parties, preserve the confidentiality of our trade secrets and operate without infringing the valid and enforceable patents and proprietary rights of third parties.

Imipridone Patent Portfolio

At February 17, 2025, our worldwide imipridone patent portfolio included:

- 632 patents or patent applications related to imipridones that we have acquired rights to through our merger with Oncoceutics, Inc. (owned or in-licensed by Oncoceutics);
- This includes 350 US and foreign issued patents and 77 pending US and foreign applications related to dordaviprone; and
- Patent protection for dordaviprone's lead indication is expected to extend into 2037 in the U.S., with the potential for additional patent term extension.

Antiviral Patent Portfolio

At February 17, 2025, our worldwide antiviral patent portfolio included:

- 26 patents or patent applications that we own or have in-licensed from academic institutions, related to antivirals, which is the same as the number of patents in our patent portfolio at the end of fiscal year 2024;
- This includes 18 US and foreign exclusively and jointly owned patents and 8 US and foreign applications related to antivirals. Granted European patents are counted as one patent and have been validated throughout Europe;
- Eight jointly-owned US and foreign patents and five jointly-owned US patent applications related to our agreement with UM regarding our proprietary Chemical Library; and
- One US patent, two US patent applications, and one European patent exclusively owned by Chimerix directed to a morphic form of a compound from the Chemical Library.

Patents generally have a term of twenty years from the date they are filed. As our patent portfolio has been built over time, the remaining terms of the individual patents across our patent portfolio vary. We believe that our patents and patent applications are important for maintaining the competitive differentiation of our portfolio, enhancing our freedom of action to exclusively

sell our products, upon appropriate regulatory approvals, in markets in which we choose to participate, and maximizing our return on research and development investments. No single patent is itself essential to the conduct of our business as a whole.

We also seek to expand our intellectual property portfolio through licensing intellectual property from third parties as we deem appropriate. We have granted, and will continue to grant to others, licenses under our patents when we consider these arrangements to be in our interest.

Manufacturing

We do not own or operate, and we do not expect to own or operate, facilities for product manufacturing, storage and distribution, or testing. In the past, we have relied on third-party manufacturers for supply of our product candidates.

We expect that in the future we will rely on such manufacturers for supply of drug substance and drug product that will be used in clinical trials of dordaviprone, our expanded access program for dordaviprone and other clinical trials as well as for commercial purposes should dordaviprone be approved. When produced on a commercial scale, we expect that cost-of-goods-sold relating to the imipridone class of assets will generally be in-line with that of other targeted oncology therapies.

The manufacturing processes for dordaviprone drug substance and drug product are relatively straight-forward and generally in-line with other small molecule pharmaceutical compounds in terms of cost and complexity. The processes are robust and reproducible and do not require dedicated reactors or specialized equipment. The drug substance process uses common synthetic chemistry and readily available materials, including off-the-shelf and made-to-order starting materials, and is readily transferable. The drug product process uses common excipients and readily available materials, and is also readily transferable.

Manufacturers of drug components must meet certain FDA qualifications with respect to manufacturing standards. At present, we have qualified only one firm as a supplier of drug substance for dordaviprone. We continually assess our manufacturing needs and may seek to engage additional qualified vendors as circumstances dictate. To ensure continuity in our supply chain, we plan to establish supply arrangements with alternative suppliers for certain portions of our supply chain, as appropriate.

Manufacturing is subject to extensive regulations that impose various procedural and documentation requirements, which govern record keeping, manufacturing processes and controls, personnel, quality control and quality assurance, among others. Our systems and contractors are required to be in compliance with these regulations, and this is assessed regularly through monitoring of performance and a formal audit program. We have personnel with extensive technical, manufacturing, analytical and quality experience and strong project management discipline to oversee contract manufacturing and testing activities, and to compile manufacturing and quality information for our regulatory submissions.

Government Regulation and Product Approval

Government authorities in the United States, at the federal, state and local level, and government authorities of member states of the EU and other countries extensively regulate, among other things, the research, development, testing, manufacture, quality control, approval, labeling, packaging, storage, record-keeping, promotion, advertising, distribution, post-approval monitoring and reporting, marketing and export and import of products such as those we are developing. Any product candidate that we develop must be approved by the FDA or European Medicines Agency (the EMA) before it may be legally marketed in the United States, EU or in other countries by the responsible national regulatory agency.

U.S. Drug Development Process

In the United States, the FDA regulates drugs under the Federal Food, Drug and Cosmetic Act (FDCA), and implementing regulations. Drugs are also subject to other federal, state and local statutes and regulations. The process of obtaining regulatory approvals and the subsequent compliance with appropriate federal, state, local and foreign statutes and regulations require the expenditure of substantial time and financial resources. Failure to comply with the applicable U.S. requirements at any time during the product development process, FDA approval process or after FDA approval, may subject an applicant to administrative or judicial civil or criminal sanctions. FDA sanctions could include refusal to approve pending applications, withdrawal of an approval, clinical hold, warning letters, product recalls, product seizures, total or partial suspension of production or distribution, injunctions, fines, refusals of government contracts, debarment, restitution, disgorgement or civil or criminal penalties. Any agency or judicial enforcement action, whether before or after the FDA approval process, could have a

material adverse effect on us. The process required by the FDA before a drug may be marketed in the United States generally involves the following:

- completion of nonclinical laboratory tests, animal studies and formulation studies according to good laboratory practices (GLP), or other applicable regulations;
- submission to the FDA of an application for an IND, which must become effective before human clinical trials may begin;
- performance of adequate and well-controlled human clinical trials according to the FDA's regulations commonly referred to as current good clinical practices (GCPs), to establish the safety and efficacy of the proposed drug for its intended use;
- submission to the FDA of an NDA for a new drug;
- satisfactory completion of an FDA inspection of the manufacturing facility or facilities where the drug is produced to assess compliance with the FDA's current good manufacturing practice standards (cGMP), to assure that the facilities, methods and controls are adequate to preserve the drug's identity, strength, quality and purity;
- potential FDA inspection of the nonclinical and clinical trial sites that generated the data in support of the NDA; and FDA review of the NDA.

The lengthy process of seeking required approvals and the continuing need for compliance with applicable statutes and regulations require the expenditure of substantial resources and approvals are inherently uncertain.

Before testing any compounds with potential therapeutic value in humans, the drug candidate enters the preclinical testing stage. Preclinical tests, also referred to as nonclinical studies, include laboratory evaluations of product chemistry, toxicity and formulation, as well as animal studies to assess the potential safety and activity of the drug candidate. The conduct of the preclinical tests must comply with federal regulations and requirements including GLP. The sponsor must submit the results of the preclinical tests, together with manufacturing information, analytical data, any available clinical data or literature and a proposed clinical protocol to the FDA as part of an investigational new drug (IND). The IND automatically becomes effective 30 days after receipt by the FDA, unless the FDA places the clinical trial on a clinical hold within that 30-day time period. In such a case, the IND sponsor and the FDA must resolve any outstanding concerns before the clinical trial can begin. The FDA may also impose clinical holds on a drug candidate at any time before or during clinical trials due to safety concerns or non-compliance. Accordingly, we cannot be sure that submission of an IND will result in the FDA allowing clinical trials to begin, or that, once begun, issues will not arise that suspend or terminate such trial.

Clinical trials involve the administration of the drug candidate to healthy subjects or affected patients under the supervision of qualified investigators, generally physicians not employed by or under the trial sponsor's control. Clinical trials are conducted under protocols detailing, among other things, the objectives of the clinical trial, dosing procedures, subject selection and exclusion criteria, and the parameters to be used to monitor subject safety. Each protocol must be submitted to the FDA as part of the IND. Patients not meeting protocol inclusion and exclusion criteria may be considered for our expanded access program under the IND. Clinical trials must be conducted in accordance with the FDA's regulations comprising the good clinical practices requirements. Further, each clinical trial must be reviewed and approved by an independent institutional review board (IRB), at or servicing each institution at which the clinical trial will be conducted. An IRB is charged with protecting the welfare and rights of trial participants and considers such items as whether the risks to individuals participating in the clinical trials are minimized and are reasonable in relation to anticipated benefits. The IRB also approves the form and content of the informed consent that must be signed by each clinical trial subject or his or her legal representative and must monitor the clinical trial until completed.

Human clinical trials are typically conducted in three sequential phases that may overlap or be combined:

- Phase 1. The drug is initially introduced into healthy human subjects and tested for safety, dosage tolerance, absorption, metabolism, distribution and excretion. In the case of some products for severe or life-threatening diseases, especially when the product may be too inherently toxic to ethically administer to healthy volunteers, the initial human testing is often conducted in patients.
- Phase 2. The drug is evaluated in a limited patient population to identify possible adverse effects and safety risks, to preliminarily evaluate the efficacy of the product for specific targeted diseases and to determine dosage tolerance, optimal dosage and dosing schedule.
- Phase 3. Clinical trials are undertaken to further evaluate dosage, clinical efficacy and safety in an expanded patient population at geographically dispersed clinical trial sites. These clinical trials are intended to establish the overall risk/benefit ratio of the product and provide an adequate basis for product labeling. Generally, two adequate and well-controlled Phase 3 clinical trials are required by the FDA for approval of an NDA.

Inspected 03/19/2025
By: Angela Harrison

History of Business

Chimerix, Inc., is a biopharmaceutical company focusing on oncology therapy with its headquarters located in Durham, North Carolina. The company was incorporated in the state of Delaware in 2000. Chimerix, Inc. applied for a virtual manufacturers license with the NCDA&CS on February 24, 2025.

Corporate Address

Chimerix, Inc.
2505 Meridian Parkway, Suite 100
Durham, NC 27713

Corporate Officers

Michael T. Andriole	President and Chief Executive Officer
Thomas Riga	Chief Operating and Commercial Officer
Roy W. Ware, PhD	Chief Manufacturing and Technology Officer
Michelle LaSpaluto	Chief Financial Officer

Person(s) Interviewed and Individual Responsibility

Credentials were presented to and Notice of Inspection issued to Mr. Norlonn Sturdivant, Executive Director, Quality Assurance. He, Mr. Roy W. Ware, Chief Manufacturing and Technology Officer, Ms. Jennifer Butler Ervin, Senior Director, Global Supply Chain, and Ms. Erica Sumner, Director Quality Assurance GMP, accompanied me during a tour of the facility and responded to all questions concerning future operations and the handling of drug products and supplied the requested documents.

Background

This visit was the initial inspection of this virtual prescription drug manufacturer following receipt of an application for licensure as a Virtual Manufacturer. The purpose of this inspection was to verify compliance with North Carolina General Statutes §106 Article 12 (Food, Drugs and Cosmetics) and Article 12A (Wholesale Prescription Drug Distributors) prior to approval and release of the license.

Operations

This facility consists of 7,700 square feet of administrative space, located on the first floor and 14,489 square feet of administrative space on the third floor. The office building is equipped with a continuously monitored security system, consisting of door access controls located on the first and third floors. The entry door to Suite 100 is locked and only accessible via employee issued access cards. Guests visiting Chimerix, Inc. must announce themselves at the front door of the suite. The Chimerix, Inc. front desk receptionist visually identifies the guest before granting access into the office. Guests entering and exiting are required to sign in and out.

The firm utilizes a contract organization for manufacturing and packaging and a third-party logistics (3PL) provider for drug product storage and distribution; there are no prescription drug products manufactured, received, or stored for distribution at this location. A written policy has been established defining the appropriate steps to be taken should any prescription drug product be presented for delivery at this location. A metal file cabinet is designated for non-routine secure storage and quarantine of drug products, if necessary; this cabinet is located within a file room. Access into this room and storage cabinet is limited to authorized personnel. Environmental conditions are maintained using a conventional thermostatically controlled HVAC system. Any drug products inadvertently shipped to this location will be manually logged onto a controlled form, secured in the cabinet and will not re-enter the commercial supply chain.

Standard Operating Procedures for this facility have been established in compliance with the requirements provided in NCGS§106 Article 12A (Wholesale Prescription Drug Distributors) applicable to firms operating as a virtual manufacturer.

Observations

There were no significant objectionable conditions noted during this inspection, and the Virtual Manufacturer license (092-1929) is approved for release as Active-Conditional; the license status will be revised as Active-In Good Standing following approval for commercial manufacturing by the FDA.

Compliance

Future NCDA&CS inspections of this facility will be conducted on a routine or as-needed basis.

Dentsply North America LLC	

Name of Business/Industry/Entity
Dentsply North America LLC

Provide explanation below:

Dentsply North America LLC primarily distributes professional dental solutions that include medical devices such as dental filling and crown materials, implants, imaging devices, dental instruments, orthodontic devices, and the like. Dentsply North America LLC also distributes a small number of prescription pharmaceutical products for use by dental professionals during procedures such as Xylocaine, Nupro Fluoride Rinse, and Topex Anesthetic Gel in certain jurisdictions.
While we are not certain that this matter qualifies as a "discipline" for purposes of our application, we are disclosing this matter out of an abundance of caution. On June 8, 2021, our Pennsylvania location received a letter from the Georgia Board of Pharmacy indicating that Dentsply North America LLC's distribution of prescription pharmaceutical products triggered a requirement to possess a Drug Wholesale Distribution License in the State of Georgia. After receiving the letter from the Georgia Board of Pharmacy, Dentsply North America LLC placed all product shipment to the State of Georgia on hold and prepared an application for the State of Georgia's Drug Wholesale Distribution License. We submitted the application on June 17, 2021. Dentsply North America LLC also signed a Voluntary Cease and Desist Order dated July 6, 2021, (Docket No. 2021-0051) stating that we will voluntarily stop any practice requiring a Georgia license until licensed. The original letter and Order are attached.

On August 19, 2021, the State of Georgia Board of Pharmacy granted the Pennsylvania location of Dentsply North America LLC a license, Wholesaler Pharmacy License No. PHWH005100.

We made every effort to remedy this situation as soon as it was brought to our attention. We are not aware of any disciplinary or further action under consideration related to this lapse in licensure. This matter predated our establishment of distribution operations in North Carolina and licensure by the State of North Carolina. Dentsply North America LLC has had no additional issues that could be considered to fall under the definition of "discipline."

QUESTION 3 Explanation

Dentsply North America LLC primarily distributes professional dental solutions that include medical devices such as dental filling and crown materials, implants, imaging devices, dental instruments, orthodontic devices, and the like. Dentsply North America LLC also distributes a small number of prescription pharmaceutical products for use by dental professionals during procedures such as Xylocaine, Nupro Fluoride Rinse, and Topex Anesthetic Gel in certain jurisdictions.

While we are not certain that this matter qualifies as a "discipline" for purposes of our Nevada application, we are disclosing this matter out of an abundance of caution. On June 8, 2021, our Pennsylvania location received a letter from the Georgia Board of Pharmacy indicating that Dentsply North America LLC's distribution of prescription pharmaceutical products triggered a requirement to possess a Drug Wholesale Distribution License in the State of Georgia. After receiving the letter from the Georgia Board of Pharmacy, Dentsply North America LLC placed all product shipment to the State of Georgia on hold and prepared an application for the State of Georgia's Drug Wholesale Distribution License. We submitted the application on June 17, 2021. Dentsply North America LLC also signed a Voluntary Cease and Desist Order dated July 6, 2021, (Docket No. 2021-0051) stating that we will voluntarily stop any practice requiring a Georgia license until licensed. The original letter and Order are attached.

On August 19, 2021, the State of Georgia Board of Pharmacy granted the Pennsylvania location of Dentsply North America LLC a license, Wholesaler Pharmacy License No. PHWH005100.

We made every effort to remedy this situation as soon as it was brought to our attention. We are not aware of any disciplinary or further action under consideration related to this lapse in licensure. This matter predated our establishment of distribution operations in North Carolina and licensure by the State of North Carolina. Dentsply North America LLC has had no additional issues that could be considered to fall under the definition of "discipline." If you have questions, please do not hesitate to call me at 717-849-4480 or email me at Laura.Duquette@dentsplysirona.com.

DOCKET NO. 2021-0051

IN THE MATTER OF: *

*

Dentsply North America, LLC *

*

Respondent. *

VOLUNTARY CEASE AND DESIST ORDER

Respondent, Dentsply North America, LLC, operating at 221 W. Philadelphia Street, Suite 60W, York, PA 17401,

is not licensed to engage in the distribution of drugs or devices in the State of Georgia, pursuant to the Official Code of Georgia Annotated (O.C.G.A.) T. 26, Ch. 4 or T. 16, Ch. 13, as amended. Potential violations of O.C.G.A. T. 26, Ch. 4 and T. 16, Ch. 13 having been called to Respondent's attention, Respondent, through the signing agent, hereby agrees to voluntarily cease and desist from any practice that would require licensure under O.C.G.A. T. 26, Ch. 4, or T. 16, Ch. 13, as amended, until such time as Respondent may become properly licensed or registered by the Georgia State Board of Pharmacy ("Board"). Respondent, through the signing agent, agrees that this includes distribution or delivery of drugs or devices to or receipt of drugs or devices from any person or firm in this state other than intracompany transfers to or from a licensed firm in this state under common ownership.

The Agent of Respondent understands that he/she has a right to a hearing in this matter, and hereby freely, knowingly, and voluntarily waives such right. The Agent of Respondent also understands that should he/she apply for licensure with the Board, the Board shall have access to this Order and to the entire investigative file on this matter.

This Order shall become effective immediately upon acceptance thereof and docketing by the Georgia State Board of Pharmacy and shall remain in effect until such time as the

Respondent becomes licensed with the Board, or until further order. The Agent of Respondent understands that this document will be considered to be a public record entered as the final disposition of any injunction or cease and desist proceedings presently pending or which could be brought against Respondent by the Board, and that this action shall be considered to be and may be recorded as a final order of the Board. **This Order is not intended and shall not be construed as prohibiting the prosecution of Respondent by any other state or federal agency for Respondent's conduct nor shall it be construed as limiting the Board's authority to subsequently impose a fine or conditions upon licensure with the Board.**

Any violation of this Order shall subject the Respondent to a fine not to exceed $500.00 for each transaction constituting a violation thereof, pursuant to O.C.G.A. § 43-1-20.1.

Re: Voluntary Cease and Desist

Dear Agent of Dentsply North America, LLC:

The Georgia Board of Pharmacy ("Board") has been made aware that Dentsply North America, LLC has shipped prescription drugs into Georgia without obtaining proper licensure to conduct such business. See O.C.G.A. §§ 16-13-35, 16-13-72, 26-4-110(a), 26-4-113, and 26-4-115. Shipping drugs into Georgia without proper licensure is a criminal offense. To date the Board has not received an application for licensure.

Please find enclosed a Voluntary Cease and Desist from the Georgia Board of Pharmacy. This document should be reviewed by Dentsply North America, LLC's independent counsel, signed by a representative with the authority to do so, and returned to the Board. If Dentsply North America, LLC chooses not to sign the cease and desist voluntarily, please respond with a statement to the Board containing an explanation so next steps can be determined.

Please return the signed form or explanation statement by June 25, 2021.

If you have any questions regarding this matter or any other matter related to the practice of pharmacy in Georgia, please contact the staff at the Board's office at your convenience: (404) 651-8000.

Sincerely,

Georgia State Board of Pharmacy

NORTH CAROLINA
Department of the Secretary of State

CERTIFICATE OF AUTHORIZATION
(Limited Liability Company)

I, ELAINE F. MARSHALL, Secretary of State of the State of North Carolina, do hereby certify that

DENTSPLY NORTH AMERICA LLC

is a limited liability company formed under the laws of Delaware as Dentsply North America LLC and was authorized to transact business in the State of North Carolina by issuance of a certificate of authority on 27th day of July, 2018.

I FURTHER certify that, as of the date of this certificate, (i) the said limited liability company has not withdrawn from the State of North Carolina, (ii) the said limited liability company's certificate of authority has not been suspended for failure to comply with the Revenue Act of the State of North Carolina, (iii) that said limited liability company is not administratively revoked for failure to comply with the provisions of the North Carolina Limited Liability Company Act, (iv) that this office has not filed any decree of judicial revocation, withdrawal, articles of merger, or articles of conversion for said limited liability company.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal at the City of Raleigh, this 9th day of February, 2024.

Elaine F. Marshall

Secretary of State

Date

I, Mandrell McGill, **certify that as the MDEG Administrator for** Dentsply Sirona,

that I (initial that you have read and meet the following requirements):

1. MM Have a high school diploma or its equivalent;
2. MM Have
   a. At least 1,500 hours of verifiable work experience relating to the products provided by the medical products provider or medical products wholesaler; or
   b. An associate's degree or higher degree from an accredited college or university in a field of study that is directly related to patient health care;
3. MM Will be employed by the medical products provider or medical products wholesaler at the place of business or facility of the employer at least 40 hours per week or during all regular business hours if the business or facility is regularly open less than 40 hours per week; and
4. MM Will ensure that the operation of the business or facility complies with all applicable federal, state and local laws, regulations and rules.

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

For the fiscal year ended **December 31, 2022**

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number **0-16211**

DENTSPLY SIRONA Inc.

(Exact name of registrant as specified in its charter)

Delaware	**39-1434669**
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
13320 Ballantyne Corporate Place, Charlotte, North Carolina	**28277-3607**
(Address of principal executive offices)	(Zip Code)

Registrant's telephone number, including area code: **(844) 848-0137**

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of each exchange on which registered
Common Stock, par value $.01 per share	**XRAY**	**The Nasdaq Stock Market LLC**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes ☐ No ☒

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.
Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.
Yes ☒ No ☐

Indicate by check mark whether the Registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).
Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer ☒ Accelerated Filer ☐ Non-Accelerated Filer ☐ Smaller Reporting Company ☐
Emerging Growth Company ☐ If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C.7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☒

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act) Yes ☐ No ☒

The aggregate market value of the voting common stock held by non-affiliates of the registrant computed by reference to the closing price as of the last business day of the registrant's most recently completed second quarter ended June 30, 2022, was $7,664,602,549. Based on the closing price on June 30, 2022. For purpose of this calculation only, without determining whether the following are affiliates of the registrant, the registrant has assumed that (i) its directors and executive officers are affiliates, and (ii) no party who has filed a Schedule 13D or 13G is an affiliate.

The number of shares of the registrant's common stock outstanding as of the close of business on February 16, 2023 was 215,361,909.

FORWARD-LOOKING STATEMENTS

Information included in or incorporated by reference in this Form 10-K, and other filings with the U.S. Securities and Exchange Commission (the "SEC") and the Company's press releases or other public statements, contains or may contain forward-looking statements. Please refer to a discussion of our forward-looking statements and associated risks in Item 1 "Business- Forward-Looking Statements and Associated Risks" and Item 1A "Risk Factors" of this Form 10-K.

GENERAL

Unless otherwise stated herein or the context otherwise indicates, reference throughout this Form 10-K to "Dentsply Sirona", or the "Company," "we," "us" or "our" refers to financial information and transactions of DENTSPLY SIRONA Inc., together with its subsidiaries on a consolidated basis.

INDUSTRY AND MARKET DATA

Unless indicated otherwise, the information concerning our industry contained in this Form 10-K is based on our general knowledge of and expectations concerning the industry. The Company's market position, market share and industry market size are based on data from various industry analyses, our internal research and data, and adjustments and assumptions we believe to be reasonable. The Company has not independently verified data from industry analyses and cannot guarantee their accuracy or completeness. In addition, we believe that data regarding the industry, market size and its market position and market share within such industry provide general guidance but are inherently imprecise. Further, the Company's estimates and assumptions involve risks and uncertainties and are subject to change based on various factors, including those discussed in Item 1A "Risk Factors" of this Form 10-K. These and other factors could cause results to differ materially from those expressed in the estimates and assumptions.

Item 1. Business

Overview

DENTSPLY SIRONA Inc. ("Dentsply Sirona" or the "Company") is the world's largest manufacturer of professional dental products and technologies, with a 136-year history of innovation and service to the dental industry and patients worldwide. Dentsply Sirona develops, manufactures, and markets comprehensive solutions including technologically-advanced dental equipment as well as dental and healthcare consumable products under a strong portfolio of world class brands. Dentsply Sirona's products provide innovative, high-quality and effective solutions to advance patient care and deliver better, safer and faster dentistry. The Company introduced the first dental electric drill over 131 years ago, the first dental X-ray unit approximately 100 years ago, the first dental computer-aided design/computer-aided manufacturing ("CAD/CAM") system approximately 30 years ago, and numerous other significant innovations including pioneering ultrasonic scaling to increase the speed, effectiveness and comfort of cleaning and revolutionizing both file and apex locater technology to make root canal procedures easier and safer. Dentsply Sirona continues to make significant investments in research and development ("R&D"), and its track record of innovative and profitable new products continues today. Dentsply Sirona's worldwide headquarters is located in Charlotte, North Carolina and its shares of common stock are listed in the United States on Nasdaq under the symbol XRAY.

The Company conducts its business through two reportable segments: (1) Technologies & Equipment ("T&E") and (2) Consumables. For the year ended December 31, 2022, T&E net revenues represented approximately 59.1% of worldwide net revenues, while Consumables net revenues represented the remaining 40.9% of worldwide net revenues.

The business is conducted in the United States of America ("U.S." or "United States"), as well as in over 150 foreign countries, principally through its foreign subsidiaries. Dentsply Sirona has a long-established presence in the European market, particularly in Germany, Sweden, France, the United Kingdom ("UK"), Switzerland and Italy. The Company also has a significant market presence in the Asia-Pacific region, Central and South America, the Middle-East region, and Canada.

Principal Products and Product Categories

The worldwide professional dental industry encompasses the diagnosis, treatment and prevention of disease and ailments of the teeth, gums and supporting bone. The Company offers a broad suite of products which together provide digital workflows for dental practitioners to make the highest use of technological advancements throughout each stage of patient care. Dentsply Sirona's principal product categories are dental technology and equipment products and dental consumable products. Additionally, the Company manufactures and sells healthcare consumable products for urological applications. As part of its technology and equipment solutions, the Company also offers an open, cloud-based platform for digital services. These products and solutions are produced by the Company globally and are distributed throughout the world under some of the most well-established brand names and trademarks in these industries, including but not limited to: AH PLUS, ANKYLOS, AQUASIL ULTRA, ARTICADENT, ASTRA TECH, ATLANTIS, AXANO, AXEOS, BYTE, CALIBRA CEMENTS, CAULK, CAVITRON, CELTRA, CERAMCO, CERCON, CEREC, CEREC MCX, CITANEST, CONFORM FIT, DAC, DELTON, DENTSPLY, DETREY, DS CORE, DYRACT, ESTHET.X, FRIOS, IMPLANT EV, INLAB, INTEGO, IPN, LOFRIC, LUCITONE, MAILLEFER, MIDWEST, MIS, MTM, NAVINA, NUPRO, OMNICAM, OMNITAPER EV, ORAQIX, ORIGO, ORTHOPHOS, OSSEOSPEED, OSSIX, PALODENT, PRIME & BOND, PROFILE, PRIMEMILL, PRIMEPRINT, PRIMESCAN, PRIMETAPER EV, PROGLIDER, PROTAPER ULTIMATE, RECIPROC, PUREVAC, SANI-TIP, SCHICK, SIDEXIS, SIMPLANT, SINIUS, SIROLASER, SIRONA, SLIMLINE, SMARTLITE PRO, SPECTRA ST, STYLUS, SULTAN, SUREFIL, SURESMILE, SYMBIOS, T1, T2, T3, T4, TENEO, THERMAFIL, TRIODENT, TRUBYTE, TRUNATOMY, VDW, VIPI, WAVEONE, WELLSPECT, XENO, XIVE, XYLOCAINE and ZHERMACK.

Technologies & Equipment Segment

Equipment & Instruments

The Equipment & Instruments product category consists of basic and high-tech dental equipment such as treatment centers, imaging equipment, motorized dental handpieces, and other instruments for dental practitioners and specialists. Imaging equipment serves as the starting point for the Company's digital workflow offerings and consists of a broad range of diagnostic imaging systems for 2D or 3D, panoramic, and intra-oral applications. Treatment centers comprise a broad range of products from basic dental chairs to sophisticated chair-based units with integrated diagnostic, hygiene and ergonomic functionalities, as well as specialist centers used in preventive treatment and for training purposes. This product group also includes other lab equipment such as amalgamators, mixing machines and porcelain furnaces.

Implants

The Implants product offering includes technology to support signature digital workflows for implant systems, a portfolio of innovative dental implant products, bone regenerative and restorative solutions, and educational programs, all of which provide dental professionals with a completely new way of practicing implantology. The Implants business is supported by key technologies including custom abutments, advanced tapered immediate load screws and regenerative bone growth factor.

CAD/CAM

Dental CAD/CAM technologies are products designed for dental offices to support numerous digital dental procedures including dental restorations. This product category includes a full-chairside economical restoration of esthetic ceramic dentistry offering called CEREC, as well as stand-alone CAD/CAM, digital impressions ("DI") intra-oral scanners, mills, and services. The full-chairside offering enables dentists to practice same day or single visit dentistry.

Orthodontics

The Company's Orthodontics product category primarily includes a dentist-directed aligner solution, SureSmile, and a direct-to-consumer aligner solution, Byte. The Orthodontics product category also includes a High Frequency Vibration ("HFV") technology device known as VPro or as HyperByte within Byte's product offering. The aligner offerings include software technology that enables aligner treatment planning and for SureSmile seamless connectivity of a digital workflow from diagnostics through treatment delivery.

Healthcare

This category consists mainly of urology catheters and other healthcare-related consumable products.

Consumables Segment

Dental consumable products consist of value-added dental supplies and small equipment used in dental offices for the treatment of patients. It also includes specialized treatment products used within the dental office and laboratory settings including products used in the preparation of dental appliances by dental laboratories.

Endodontic & Restorative Products

The Company's Endodontic & Restorative products frequently work together to provide a tandem solution in high-tech dental procedures. The Endodontic products include drills, filers, sealers, irrigation needles and other tools or single-use solutions which support root canal procedures. Restorative products include dental prosthetics, such as artificial teeth, dental ceramics, digital dentures, precious metal dental alloys, and crown and bridge porcelain products.

Other Consumables

The remaining consumables products include small equipment products such as intraoral curing light systems, dental diagnostic systems and ultrasonic scalers and polishers, as well as other dental supplies including dental anesthetics, prophylaxis paste, dental sealants, impression materials, teeth whiteners and topical fluoride.

Net sales for each product category as a percentage of the Company's total net sales for the year ended December 31, 2022, were as follows:

	% of Net Sales
Equipment & Instruments	17.3 %
Implants	14.5 %
CAD/CAM	12.8 %
Orthodontics	7.6 %
Healthcare	6.9 %
Technology & Equipment segment revenue	59.1 %
Endodontic & Restorative	29.8 %
Other consumables	11.1 %
Consumables segment revenue	40.9 %
Total net sales	100.0 %

Dental Industry, Sales and Distribution

The Company believes that the dental industry is attractive and will grow over the long-term based on the following factors:

- Increasing worldwide population, including a shift towards aging demographics, which will require greater dental care.
- Natural teeth are being retained longer - individuals with natural teeth are much more likely to visit a dentist than those without any natural teeth.
- Increasing demand for aesthetic dentistry and the use of aligners as an orthodontic treatment.
- Continued opportunities in emerging markets related to the rise in discretionary incomes making dental services an increasing priority.
- Increasing demand for single visit dentistry versus historical multi-visit procedure requirements, and for higher quality of patient care in terms of comfort and ease of product use and handling.
- Increasing demand for earlier preventive care - dentistry has evolved from a profession primarily dealing with pain, infections, and tooth decay to one with increased emphasis on earlier diagnosis, preventive care, and the role oral health plays in overall health.

- Increasing opportunity for digital collaboration between General Practitioners ("GPs"), specialists, labs, and patients is creating widening demand for fully integrated solutions such as cloud-based platforms and services facilitated by GPs.
- Increasing demand for more efficiency and better workflow in the dental office, including digital tools such as the enhanced power of diagnostic equipment through 3D imaging. The rapid pace of digital technology adoption including the digitization of clinical workflows is becoming a category standard versus traditional manual processes.

The Company is able to navigate macroeconomic challenges and is well positioned to execute on its strategy of enabling dentists to have superior integrated workflows through its robust market offerings in all key areas of dental procedures (implants, endodontic, restorative and aligners) as well as digital infrastructure (CAD/CAM and imaging) utilized in dental practices around the globe.

As of December 31, 2022, Dentsply Sirona employed approximately 5,000 highly-trained, sales and technical staff specialized in each of our various products and solutions to provide comprehensive marketing, sales, and technical support services to meet the needs of our distributors, dealers and end-users.

Sales and Distribution

Dentsply Sirona distributes approximately two-thirds of its dental consumable and technology and equipment products through third-party distributors. Certain highly technical products such as dental technology equipment, dental ceramics, crown and bridge porcelain products, endodontic instruments and materials, orthodontic aligners and appliances, and dental implants are often sold directly to the dental laboratory or dental professionals in some markets. Additionally, the Company's Byte business produces aligners which are sold direct to consumers under doctor-directed, personalized treatment plans.

For the year ended December 31, 2021, no customer accounted for 10% or more of consolidated net sales or consolidated accounts receivable balance. Customers that accounted for 10% or more of net sales and accounts receivable for the years ended December 31, 2022 and 2020 were as follows:

	2022		2020	
	% of net sales	% of accounts receivable	% of net sales	% of accounts receivable
Henry Schein, Inc.	11 %	15 %	14 %	N/A
Patterson Companies, Inc.	N/A	12 %	10 %	18 %

Although a significant portion of the Company's sales are made to distributors, dealers and importers, Dentsply Sirona focuses much of its marketing efforts on the dentists, dental hygienists, dental assistants, dental laboratories and dental schools which are the end-users of its products. As part of this end-user "pull through" marketing approach, the Company conducts extensive distributor, dealer and end-user marketing programs. Additionally, the Company trains laboratory technicians, dental hygienists, dental assistants and dentists in the proper use of its products and introduces them to the latest technological developments at its educational courses conducted throughout the world. The Company also maintains ongoing consulting and educational relationships with various dental associations and recognized worldwide opinion leaders in the dental field.

Operating Principles

The Company's focus includes the creation of more meaningful solutions for dentists built around the following five key operating principles:

- *Approach customers as one:* Put the customer at the center of how Dentsply Sirona is organized. The Company has an integrated approach to customer service, direct and indirect selling, and clinical education to strengthen the relationship with the customer and better serve the customers' needs.
- *Create innovative solutions that customers love to use:* A comprehensive R&D program that prioritizes strategic spending building the next generation of digital workflow technologies and service offerings, resulting in more impactful innovations each year.
- *Think and act with positive intent and the highest integrity:* Execute the business in a way that empowers our people, respects the communities in which we do business, and establishes trust with our partners and stakeholders.

- *Operate sustainably in everything we do:* Take a thoughtful, proactive approach to creating a sustainable company through investments in our employees, customers, and the environment.
- *Use size and global breadth to our advantage:* The Company is focused on integrating its dental product portfolios to unlock operational efficiencies, including performance improvements in procurement, logistics, manufacturing, sales force and marketing programs; and at the same time simplifying the business on a worldwide scale. In combination, these initiatives will improve organizational efficiency and better leverage the Company's selling, general and administrative infrastructure.

Product Development

While the Company enjoys market leadership in several of its product categories, continuous innovation and product development are critical for it to continue to grow its share in markets it serves. Many of Dentsply Sirona's existing products are undergoing brand extensions, and the Company also continues to focus efforts on successfully launching innovative products that have a more significant impact on how dental and clinical professionals treat their patients. In particular, the Company has continued to prioritize investments supporting digitally enhanced workflows through each stage of patient care, including imaging and scanning technologies used in diagnosis, treatment planning software, and customized products to deliver treatment. During 2022, the Company unveiled its cloud solution DS Core, an open platform developed in collaboration with Google Cloud that integrates digital dentistry workflows across its devices, services, and technologies. The DS Core digital platform is designed to enable more precise and simplified cloud storage, optimize diagnostic capabilities, and streamline existing workflows and collaboration with laboratory partners and specialists. Through R&D investments, the Company has accelerated a number of other new product developments during the year which enhance the digital dentistry offering for both equipment and consumables products. Innovations include the Company's Primeprint Solution to provide medical-grade 3D printing, Primescan Connect which offers a laptop-based version of Primescan, the SmartLite Pro EndoActivator which serves as a new irrigation solution for root canal procedures, and the Axano treatment center combining smart design with efficient workflows. During the year, the Company also introduced its premium EV Implants System for providing implants that are harmonized, simplified and digitally enabled, as well as its enhanced orthodontic offering SureSmile Solutions that includes the addition of a whitening kit, retainers, and the VPro orthodontic device which uses high-frequency vibration to reduce discomfort in aligner treatment.

During 2021, product launches included software upgrades for CEREC and SureSmile introduction of PrimeTaper, a self-tapping implant with a tapered design; and ProTaper Ultimate, the next generation of endodontic files. The Company also acquired key supporting technologies in OSSIX bone regenerative collagen through the purchase of Datum Dental, and the new VPro aligner treatment devices through the acquisition of substantially all of the assets of Propel Orthodontics LLC ("Propel"). During 2020, the Company introduced Axeos, a new digital imaging product with a 3D wide field of view and Primemill, a time saving grinding and milling restoration machine. New products introduced within the past three years accounted for approximately 14% of 2022 sales.

R&D investments include activities to accelerate product and clinical innovation and discipline, and develop potential improvements to the manufacturing process. These investments also support engineering efforts that incorporate customer feedback into continuous improvement for current and next-generation products, with an objective to achieve more frequent development and release cycles. The Company also undertakes pre-commercialization trials and testing of technological improvements prior to inception of the manufacturing process. As is true across its other functions, the Company is continually transforming how R&D is conducted by identifying best practices, driving efficiencies, and optimizing cost structure to enable a more effective development process with a strategic focus on innovation process discipline. We are also looking to increasingly utilize an enterprise approach to funding that employs a returns-based mindset and allocates R&D spend towards those areas with the highest return.

In addition to internal product development, the Company also pursues external R&D opportunities, including acquisitions, licensing, or other arrangements with third parties. Initiatives to support technological development also include collaborations with research institutions and dental and medical schools. The Company annually supports the achievements of dental students conducting innovative research through its *Student Competition for Advancing Dental Research and its Application Awards* program. The Company is also committed to participation in clinical research demonstrating the efficacy of our products prior to market introduction, and in supporting the clinical education and technical training of dental professionals. Dentsply Sirona has 55 academies and education centers that are home to state-of-the-art training facilities for dental professionals who seek a comprehensive variety of clinical and technical continuing education curriculum. The academies offering hands-on teaching, live lectures, and on-demand webinars and courses which are taught by a diverse range of internationally known experts in all fields of dentistry. The Company provides over 7,000 training courses through our DS Academy annually, with approximately 300,000 dental professionals participating.

Through our internal research centers as well as through our collaborations with external research institutions, dental and medical schools, the Company directly invests in the development of new products, improvement of existing products and advances in technology. These investments include an emphasis on research in digital data sharing technology, including the incorporation of long-term artificial intelligence and machine learning. The continued development of these areas is a critical step in meeting the Company's strategic goal as a leader in defining the future of dentistry. The Company's long-term plans for investment in product development include an objective to maintain a level of R&D spend that is at least 4% of annual net sales with a focus on innovation and expansion of digital, software, services, and other platform offerings.

Acquisition Activities

Dentsply Sirona believes that the dental technology and consumable products industries continue to experience consolidation with respect to both product manufacturing and distribution, although they remain fragmented thereby creating a number of acquisition opportunities.

The Company views acquisitions as a key part of its long-term growth strategy. These acquisition activities are intended to supplement the Company's organic growth and assure ongoing expansion of its business to capitalize on significant growth drivers, including new technologies, additional products, organizational strength and geographic breadth. During the first quarter of the year ended December 31, 2021, the Company purchased Datum Dental, Ltd., a producer and distributor of specialized regenerative dental material based in Israel, which provided the Company with a key technology to serve the implants markets. The Company followed in the second quarter of the year ended December 31, 2021 with the purchase of substantially all of the assets of Propel, a U.S. based company which manufactures and sells orthodontic devices and provides in-office and at-home orthodontic accessory devices, this investment is expected to further accelerate the growth and profitability of the Company's combined aligners business. In the third quarter of the year ended December 31, 2021, the Company completed its acquisition of a partially owned affiliate based in Switzerland that primarily develops highly specialized software, which is expected to further accelerate the development of the Company's specialized software related to CAD/CAM systems. During the year ended December 31, 2020, the Company made various investments, including the acquisition of Byte, a direct-to-consumer aligners business, which complements the Company's existing aligner product by adding a digital component and is expected to enhance scale and accelerate the growth of the Company's combined aligners business going forward. This acquisition was representative of the Company's strategy of matching technological advancement in digital dentistry with innovative marketing and delivery in order to reach areas of high-growth potential for customer demand. For more information regarding the Company's acquisition activity, refer to Note 6, Business Combinations, in the Notes to the Consolidated Financial Statements in Part II, Item 8 of this Form 10-K.

Operating and Technical Expertise

Dentsply Sirona believes that its manufacturing capabilities are important to its success. The manufacturing processes of the Company's products require substantial and varied technical expertise. Complex materials technology and processes are necessary to manufacture the Company's products. Where the Company can improve quality and customer service and lower costs, we endeavor to automate our global manufacturing operations.

Financing

Information about Dentsply Sirona's working capital, liquidity and capital resources is provided in Part II, Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" of this Form 10-K.

Competition

The Company conducts its operations, both domestic and foreign, under highly competitive market conditions. Competition in the dental and healthcare consumable products and dental technology and equipment products industries is based primarily upon product performance, quality, safety and ease of use, as well as price, customer service, innovation and acceptance by clinicians, technicians and patients. Dentsply Sirona believes that its principal strengths include its well-established brand names, its reputation for high quality and innovative products, its leadership in product development and manufacturing, its global sales force, the breadth of its product line and distribution network, its commitment to customer satisfaction and support of the Company's products by dental and medical professionals.

The size and number of the Company's competitors vary by product line and from region to region. There are many companies that produce some, but no competitor produces all of the same types of products as those produced by the Company.

Regulation

The development, manufacture, sale and distribution of the Company's products are subject to comprehensive governmental regulation both within and outside the U.S. The following sections describe certain, but not all, of the significant regulations that apply to the Company. For a description of the risks related to the regulations that the Company is subject to, please refer to Item 1A. "Risk Factors" of this Form 10-K.

The majority of the Company's products are classified as medical devices and are subject to restrictions under domestic and foreign laws, rules, regulations, self-regulatory codes, circulars and orders, including, but not limited to, the U.S. Food, Drug, and Cosmetic Act (the "FDCA"), Council Directive 93/42/EEC on Medical Devices ("MDD") (1993) in the European Union ("EU"), which will be updated to the EU Medical Device Regulation ("MDR") in 2021 (and implementing and local measures adopted thereunder) and similar international laws and regulations. The FDCA requires these products, when sold in the U.S., to be safe and effective for their intended use and to comply with the regulations administered by the U.S. Food and Drug Administration ("FDA"). Certain medical device products are also regulated by comparable agencies in non-U.S. countries in which they are produced or sold.

Dental and medical devices sold by the Company in the U.S. are generally classified by the FDA into a category that renders them subject to the same controls that apply to all medical devices, including regulations regarding alteration, misbranding, notification, record-keeping and good manufacturing practices. In the EU, the Company's products are subject to the medical device laws of the various member states, which are based on a Directive of the European Commission. Such laws generally regulate the safety of the products in a similar way to the FDA regulations. The Company products in Europe bear the CE mark showing that such products comply with European regulations. The Company's products classified by EU MDD were mandated to be certified under the new MDR. These regulations also applied to all medical device manufacturers who market their medical devices in the EU and all such manufacturers had to perform significant upgrades to quality systems and processes including technical documentation and subject them to new certification under EU MDR in order to continue to sell those products in the EU. Although all medical device manufacturers were required to certify their Class I (as defined in the EU MDR regulations) products by May 2021, the EU MDR regulations for additional Classes of medical devices is mandated to be fully enforceable by May 2024. This also includes completion of certified quality management systems to manufacturers quality management systems. The Company remains focused on ensuring that all its products that are considered to be medical devices will be fully certified as required by the EU MDR dates and timelines.

Recently, the Chinese government launched a national program for volume-based, centralized medical device and consumables procurement with minimum quantity commitments in an attempt to negotiate lower prices from drug manufacturers and reduce the price of medical devices and other products. Under the program, the government will award contracts to the lowest bidders who are able to satisfy the quality and quantity requirements. The successful bidders will be guaranteed a sale volume for at least a year, giving the winner an opportunity to gain or increase market share. The volume guarantee is intended to make manufacturers more willing to cut their prices in order to win a bid and may also enable successful bidders to lower their distribution and commercial costs. Many types of drugs are covered under the program, including drugs made by international pharmaceutical companies and generics made by domestic Chinese manufacturers. The program, which is anticipated to take effect in the first half of 2023, could in the future result in reduced margins on covered devices and products, required renegotiation of distributor arrangements, and incurrence of inventory-related charges. The Company currently expects that sales of our Implants products in China will be negatively affected by price reductions.

The Company is also subject to domestic and foreign laws, rules, regulations, self-regulatory codes, circulars and orders regarding anti-bribery and anti-corruption, including, but not limited to, the U.S. Foreign Corrupt Practices Act ("FCPA"), the U.S. Federal Anti-Kickback Statute ("AKS"), the UK's Bribery Act 2010 (c.23), Brazil's Clean Company Act 2014 (Law No. 12,846) China's National Health and Family Planning Commission ("NHFPC") circulars No. 40 and No. 50, and similar international laws and regulations. The FCPA and similar anti-bribery and anti-corruption laws applicable in non-U.S. jurisdictions generally prohibit companies and their intermediaries from improperly offering or paying anything of value to foreign government officials for the purpose of obtaining or retaining business. Some of the Company's customer relationships are with governmental entities and therefore may be subject to such anti-bribery laws. The AKS and similar fraud and abuse laws applicable in non-U.S. jurisdictions prohibit persons from knowingly and willfully soliciting, offering, receiving or providing remuneration, directly or indirectly, in exchange for or to induce either the referral of an individual, or the furnishing or arranging for a good or service, for which payment may be made under a health care program, such as, in the U.S., Medicare or Medicaid.

The Company's production and sale of products is further subject to regulations concerning the supply of conflict minerals, various environmental regulations such as the Federal Water Pollution Control Act (the "Clean Water Act") and others enforced by the Environmental Protection Agency ("EPA") or equivalent state agencies, and the Patient Protection and Affordable Care Act as amended by the Health Care and Education Reconciliation Act (the "Health Care Reform Law"). In the sale, delivery and servicing of the Company's products to other countries, it must also comply with various domestic and foreign export control and trade embargo laws and regulations, including those administered by the Department of Treasury's Office of Foreign Assets Control ("OFAC"), the Department of Commerce's Bureau of Industry and Security ("BIS") and similar international governmental agencies, which may require licenses or other authorizations for transactions relating to certain countries and/or with certain individuals identified by the respective government. Despite the Company's internal compliance program, policies and procedures may not always protect it from reckless or criminal acts committed by its employees or agents. Violations of these requirements are punishable by criminal or civil sanctions, including substantial fines and imprisonment. Due in part to its direct-to-consumer model, the Company's Byte aligner business in the U.S. is subject to various state laws, rules and policies which govern the practice of dentistry within such state. Byte contracts with an expansive nationwide network of independent licensed dentists and orthodontists for the provision of clinical services, including the oversight and control of each customer's clinical treatment in order to comply with these regulations and ensure that the business does not violate rules pertaining to the corporate practice of dentistry.

The Company is subject to domestic and foreign laws, rules, regulations, self-regulatory codes, circulars and orders governing data privacy and transparency, including, but not limited to, the Health Insurance Portability and Accountability Act of 1996 ("HIPAA") as amended by the Health Information Technology for Economic and Clinical Health Act of 2009 (the "HITECH Act"), the California Consumer Privacy Act, the European General Data Protection Regulation (the "GDPR"), China's Personal Information Protection Law, the Physician Payments Sunshine Provisions of the Patient Protection and Affordable Care Act, the EU Directive 2002/58/EC (and implementing and local measures adopted thereunder), France's Data Protection Act of 1978 (rev. 2004) and France's Loi Bertrand, certain rules issued by Denmark's Health and Medicines Authority, and similar international laws and regulations. HIPAA, as amended by the HITECH Act, the GDPR and similar data-privacy laws applicable in non-U.S. jurisdictions, restrict the use and disclosure of personal health information, mandate the adoption of standards relating to the privacy and security of individually identifiable health information and require us to report certain breaches of unsecured, individually identifiable health information. The Physician Payments Sunshine Provisions of the Patient Protection and Affordable Care Act require the Company to record all transfers of value to physicians and teaching hospitals and to report this data to the Centers for Medicare and Medicaid Services for public disclosure. Similar reporting requirements have also been enacted in several states, and an increasing number of countries worldwide either have adopted or are considering similar laws requiring transparency of interactions with health care professionals.

The Company believes it is in substantial compliance with the laws and regulations that regulate its business. There are, however, significant uncertainties involving the application of various legal requirements, the violation of which could result in, among other things, sanctions. See Item 1A, "Risk Factors" of this Form 10-K for additional detail.

Sources and Supply of Raw Materials and Finished Goods

The Company manufactures the majority of the products that it sells. The Company sources the necessary raw materials from various suppliers, and no single supplier accounts for more than 10% of our supply requirements.

Intellectual Property

Products manufactured by Dentsply Sirona are sold primarily under its own tradenames and trademarks. Dentsply Sirona also owns and maintains more than 5,000 patents throughout the world and has also licensed a number of patents owned by others.

Our policy is to protect its products and technology through patents and trademark registrations both in the U.S. and in significant international markets. The Company monitors trademark use worldwide and promotes enforcement of its patents and trademarks in a manner that is designed to balance the cost of such protection against obtaining the greatest value for the Company. Dentsply Sirona believes its patents and trademark properties are important and contribute to the Company's marketing position but it does not consider its overall business to be materially dependent upon any individual patent or trademark. Additional information regarding certain risks related to our intellectual property is included in Item 1A "Risk Factors" of this Form 10-K and is incorporated herein by reference.

Human Capital

Our employees are core to our Company, and their contributions enable the success of our business. As of December 31, 2022, our organization and its subsidiaries employed over 15,000 employees across the globe. Of these employees, approximately 3,600 were employed in the U.S. Some employees outside of the U.S. and particularly in Europe are covered by collective bargaining, union contracts, worker councils or other similar programs. Our talent strategy prioritizes attracting, engaging, developing, and retaining talent to support our business strategy. We strive to foster a diverse and inclusive environment where every employee can grow and perform at their best.

Attract, Engage, Develop & Retain

In 2022, we continued to evolve our talent strategy to support business priorities. We continued deployment of our Emerging Talent program focused on attracting early-career employees through strategic partnerships with Historically Black Colleges and Universities and local trade schools. The comprehensive program provides rotational assignments, on-the-job experiences, networking events, development sessions and executive interactions. We offer global learning and development opportunities including a partnership with LinkedIn Learning which offers thousands of on-demand learning modules in multiple languages and our custom leadership development framework to assess, develop and coach leaders at multiple levels. Our robust set of tools for goal setting and development planning is designed to support future-focused growth including our employee-led career mapping and global mentor matching programs. We also offer regular performance feedback, development planning and talent review processes in an automated format for our professional employees.

To keep employees connected, engaged and informed, we continued to hold virtual town halls and live video chats. These events provide multiple opportunities for our global workforce to submit questions to our executive leadership team. Employee feedback is an important element of our culture. We launch global engagement surveys at least every 18 months and strategically deploy pulse and lifecycle surveys throughout the year. We leverage insights from these surveys to drive actions that improve the employee experience, supporting talent attraction, engagement, and retention.

Compensation and Benefits

As part of the our total rewards philosophy, we offer competitive compensation and benefit programs designed to attract and retain top talent. We are committed to providing and administering these programs in a way that treats our employees at all levels fairly and equitably. Our total rewards offerings vary by country and include an array of programs that support our employees' financial, physical, and mental well-being, including annual performance incentive opportunities, pension and retirement savings programs, health and welfare benefits, paid time off (including for charitable actions), leave programs, flexible work schedules and employee assistance programs.

Diversity, Equity & Inclusion

Diversity in our organization is a source of great strength. We provide opportunities for all employees to bring their perspective, experience, and lens to the workplace. Our commitment to a diverse workforce helps us create robust solutions to our customers' challenges and drive innovation. We strive to foster an environment in which our teams feel inspired and empowered to do their best work and bring new ideas to the table. We have a Diversity, Equity & Inclusion strategy focused on embedding diversity, equity & inclusion into our culture.

As part of our sustainability program, BEYOND-Taking Action for a Brighter World, we are striving to achieve global gender pay equity and global gender parity by 2025. We are members of the Paradigm for Parity cross-sector diversity commitment – a coalition of more than 130 CEOs, executives, board members, founders and experts dedicated to providing women and men equal opportunity and power and achieving gender parity by 2030.

Diversity, Equity & Inclusion Council

Our Diversity, Equity & Inclusion Council is a group of demographically and functionally diverse employees from across the world dedicated to enabling our diversity, equity & inclusion efforts and championing initiatives that support the organization internally and externally. A top priority of the Diversity, Equity & Inclusion Council is to equip leaders to discuss and be accountable for driving sustained diversity, equity, and inclusion progress.

Employee Resource Groups

The purpose of our employee resource groups is to foster a diverse, equitable, and inclusive environment enabling employees to bring their best to work as they participate in successfully executing our strategy. As of December 31, 2022, our employees have led the successful establishment of seven employee resource groups consisting of approximately 2,000 members from across the globe. Our employee resource groups focus on developing talent, increasing employee engagement, and creating awareness through allyship. We consistently recognize high participation in employee resource group-led events.

Training and Awareness

We offer a catalog of on-demand diversity, equity & inclusion training options aimed at strengthening awareness. A standout offering is our ongoing "Conversations of Understanding" sessions. Employees are invited to register for these small group discussions where internal volunteers share experiences on varying diversity, equity, & inclusion topics to generate healthy discussion and awareness.

Talent Acquisition

Our organization has talent sourcing guidelines requiring diverse and internal candidate interview slates for Director-level and above roles. To increase internal mobility, we offer career development options and utilize our talent review processes to highlight diverse talent. We educate our hiring managers on inclusive hiring practices.

Measuring Progress

Our executive leadership team regularly monitors and actions on diversity metrics, including attraction, engagement, advancement, and retention of diverse talent. We actively partner with an external consultancy to identify available talent pools in all our geographic markets and establish benchmarks for diverse representation across function, geography and level. All executive leaders create annual action plans and progress is reviewed quarterly.

Employee Health & Safety Matters

The health and safety of our employees are of utmost importance to us. We have a dedicated Employee Health & Safety ("EHS") program that provides global processes and trainings and monitors our progress against set goals. Our actions are in line with EHS frameworks and certifications such as OHSAS 18001 and ISO 45001. We also have a Corporate Crisis Management Team, prepared to respond to crisis situations we may be confronted on a global scale with in a prompt and efficient manner.

Other Factors Affecting the Business

The Company's business is subject to quarterly fluctuations in demand due to price changes, marketing and promotional programs, management of inventory levels by distributors, and implementation of strategic initiatives which may impact sales levels in any given period. Demand can also fluctuate based on the timing of dental tradeshows where promotions are offered, major new product introductions, and variability in dental patient traffic, which can be exacerbated by seasonal or severe weather patterns, or other demographic disruptions such as the recent COVID-19 pandemic. Some dental practices in certain countries may also delay purchasing equipment and restocking consumables until year-end due to tax planning which can impact the timing of our consolidated net sales, net income and cash flows. Sales for the industry and the Company are generally strongest in the second and fourth quarters and weaker in the first and third quarters, due to the effects of the items noted above and due to the impact of holidays and vacations, particularly throughout Europe.

Although the backlog on products is generally not material to the financial statements due in part to the Company's efforts to maintain short lead times within its manufacturing, levels can fluctuate and affect sales in certain periods due to supply chain disruption and unavailability of required inputs.

Securities Exchange Act Reports

The SEC maintains a website that contains reports, proxy and information statements, and other information regarding issuers, including the Company, that file electronically with the SEC. The public can obtain any documents that the Company files with the SEC at http://www.sec.gov. The Company files annual reports, quarterly reports, proxy statements and other documents with the SEC under the Securities Exchange Act of 1934, as amended ("Exchange Act").

Dentsply Sirona also makes available free of charge through the investor section of its website at www.dentsplysirona.com its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to these reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after such materials are filed with or furnished to the SEC. The information contained on, or that may be accessed through, the Company's website is not incorporated by reference into, and is not a part of, this report.

Forward-Looking Statements and Associated Risks

All statements in this Form 10-K that do not directly and exclusively relate to historical facts constitute "forward-looking statements." These statements represent current expectations and beliefs, and no assurance can be given that the results described in such statements will be achieved. Such statements are subject to numerous assumptions, risks, uncertainties and other factors that could cause actual results to differ materially from those described in such statements, many of which are outside of our control. No assurance can be given that any expectation, belief, goal or plan set forth in any forward-looking statement can or will be achieved, and readers are cautioned not to place undue reliance on such statements which speak only as of the date they are made. We do not undertake any obligation to update or release any revisions to any forward-looking statement or to report any events or circumstances after the date of this Form 10-K or to reflect the occurrence of unanticipated events.

You should carefully consider these and other relevant factors, including those risk factors in Item 1A, "Risk Factors" of this Form 10-K and any other information included or incorporated by reference in this report, and information which may be contained in the Company's other filings with the SEC, when reviewing any forward-looking statement. Investors should understand it is impossible to predict or identify all such factors or risks. As such, you should not consider either the foregoing lists, or the risks identified in the Company's SEC filings, to be a complete discussion of all potential risks or uncertainties associated with an investment in the Company.

Item 1A. Risk Factors

Summary

The following is a summary of the significant risk factors that could materially impact our business, financial condition or future results, including risks related to our businesses, our international operations, our regulatory environments, ownership of our common stock, COVID-19, and other general risks:

- Management identified material weaknesses in our internal control over financial reporting that resulted in errors in previously issued financial statements. If we fail to remediate these material weaknesses or experiences additional material weaknesses in the future, we may be unable to accurately and timely report financial results or comply with the requirements of being a public company, which could cause the price of our common stock to decline and harm our business.
- We restated certain of our previously issued consolidated financial statements, which resulted in unanticipated costs and may affect investor confidence and raise reputational issues.
- We may be subject to litigation and regulatory examinations, investigations, proceedings or court orders as a result of or relating to our internal investigation and if any of these items are resolved adversely against us, it could harm our business, financial condition and results of operations.
- Our failure to timely file our periodic reports with the SEC limits our access to the public markets to raise debt or equity capital, and restricts our ability to issue equity securities.
- Lack of global standardized processes, centralization of transaction management and/or execution could result in control deficiencies and impact management's assertions and financial reporting.
- We rely heavily on information and technology to operate both our businesses and our technology dependent product solutions portfolios, and any continued cyber incidents with respect to our supporting information and technology infrastructure, whether by deliberate attacks or unintentional events, could harm our operations.
- Privacy concerns and laws, evolving regulation of cross-border data transfer restrictions and other regulations may adversely affect our business.
- We may be unable to develop innovative products and solutions or stimulate customer demand.
- Our ongoing business operations may be disrupted for a significant period of time, resulting in material operating costs and financial losses.
- We may be unable to execute key strategic initiatives due to competing priorities and strategies of our distribution partners and other factors, which may result in financial losses and operational inefficiencies.
- The success of our business depends in part on achieving our strategic objectives, including through acquisitions, dispositions, and strategic investments and initiatives.
- We may fail to realize the expected benefits of our strategic initiatives, including announced or potential future restructuring and transformation efforts.
- We have recognized substantial goodwill and indefinite-lived intangible asset impairment charges, most recently in Q3 and Q4 2022, and may be required to recognize additional goodwill and indefinite-lived intangible asset impairment charges in the future.
- Our failure to obtain patents and, consequently, to protect our proprietary technology could have an adverse impact on our competitive position.
- Our profitability could suffer if third parties infringe upon our intellectual property rights or if our products are found to infringe upon the intellectual property rights of others.
- Changes in our credit ratings or macroeconomic impacts on credit markets may increase our cost of capital and limit financing options.
- A breach of the covenants under our debt instruments outstanding from time to time could result in an event of default under the applicable agreement.
- We may not be able to repay our outstanding debt in the event that we do not generate sufficient cash flow to service our debts and cross default provisions may be triggered due to a breach of covenants under our existing indebtedness.
- Our foreign currency hedging and cash management transactions may be ineffective or only partially mitigate the impact, exposing us to unexpected interest rate volatility.
- Due to the international nature of our business, including increasing exposure to markets outside of the U.S., political or economic changes or other factors could harm our business and financial performance.
- Due to our international operations, we are exposed to the risk of changes in foreign exchange rates.
- Changes in or interpretations of tax rules, operating structures, transfer pricing regulations, country profitability mix and regulations may adversely affect our effective tax rate.
- We may be unable to obtain necessary product approvals and marketing clearances.
- Inadequate levels of reimbursement from governmental or other third-party payers for procedures using our products may cause our revenue to decline.

- Challenges may be asserted against our products due to real or perceived quality, health or environmental issues.
- If we fail to comply with laws and regulations relating to health care fraud, we could suffer penalties or be required to make significant changes to our operations, which could adversely affect our business.
- Our business is subject to extensive, complex and changing domestic and foreign laws, rules, regulations, self-regulatory codes, directives, circulars and orders that failure to comply with which, if not complied with, could subject us to civil or criminal penalties or other liabilities.
- Our quarterly operating results and market price for our common stock may continue to be volatile.
- Certain provisions in our governing documents, and of Delaware law, may make it more difficult for a third party to acquire us.
- Our revenue, results of operations, cash flow, and liquidity may be materially adversely impacted by the ongoing COVID-19 outbreak.
- Our business may be adversely affected by changes in global economic conditions, including inflation, rising interest rates, and supply chain shortages.
- The loss of members of our senior management and the resulting management transition might have an adverse impact on our future operating results.
- Talent gaps and failure to manage and retain top talent may impact our ability to grow the business.
- We face the inherent risk of litigation and claims.
- Climate change and related natural disasters could negatively impact our business and financial results.
- Expectations relating to environmental, social and governance considerations may expose us to potential liabilities, increased costs, reputational harm, and other adverse effects on our business.

Below is a full description of each of such significant risk factors.

RISKS RELATED TO OUR RESTATEMENT AND INTERNAL CONTROLS

Management identified material weaknesses in our internal control over financial reporting that resulted in errors in previously issued financial statements. If we fail to remediate these material weaknesses or experiences additional material weaknesses in the future, we may be unable to accurately and timely report financial results or comply with the requirements of being a public company, which could cause the price of our common stock to decline and harm our business.

Management identified material weaknesses in internal controls over financial reporting in conjunction with the Audit and Finance Committee's investigation as described in the Explanatory Note of Amendment No. 1 to the Annual Report on Form 10-K for the fiscal year ended December 31, 2021 (the "2021 Form 10-K/A"). The description of the material weaknesses that were determined to exist as of December 31, 2021 is included under Item 8 of this Form 10-K. Management began implementing the remediation efforts in 2022; however, as of December 31, 2022, the material weaknesses previously identified have not yet been remediated.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected in a timely basis.

While we are devoting substantial resources to the planning and ongoing implementation of remediation efforts to address the identified material weaknesses and prevent additional material weaknesses from occurring, it cannot be assured that the measures we have taken to date, and are continuing to implement, will be sufficient to remediate these material weaknesses or to avoid potential future material weaknesses. We cannot estimate how long the remediation process will take at this time, and may identify deficiencies or other material weaknesses, in addition to the ones already identified, that we may not be able to remediate in a timely manner. Accordingly, there is a reasonable possibility that the material weaknesses identified, or other material weaknesses or deficiencies identified in the future, could result in a misstatement of accounts or disclosures that would result in a material misstatement of our financial statements that would not be prevented or detected on a timely basis or cause us to fail to meet our obligations under securities laws, stock exchange listing rules, or debt instrument covenants to file periodic financial reports on a timely basis.

Further, because of its inherent limitations, including the possibility of human error, the circumvention or overriding of controls, or fraud, even our remediated and effective internal control over financial reporting may not prevent or detect all misstatements and may not provide reasonable assurances with respect to the preparation and presentation of financial statements. In addition, projections of any evaluation of effectiveness of internal control over financial reporting to future periods are subject to the risk that the control may become either obsolete or inadequate as a result of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Johnson & Johnson reports Q1 2025 results

- *2025 First-Quarter reported sales growth of 2.4% to $21.9 Billion with operational growth of 4.2%* and adjusted operational growth of 3.3%**
- *2025 First-Quarter earnings per share (EPS) increased to $4.54 which includes the reversal of special charges and adjusted EPS increased to $2.77 or 2.2%**
- *Significant new product pipeline progress including approval of TREMFYA in Crohn's disease, data for RYBREVANT/LAZCLUZE overall survival in non-small cell lung cancer and icotrokinra in plaque psoriasis, and initiation of the clinical trial for a general surgery robotic system, OTTAVA*
- *Company increases Full-Year 2025 operational sales[2,5] guidance to reflect the addition of CAPLYTA following the completion of the Intra-Cellular Therapies acquisition*
- *Including tariff costs, dilution from the Intra-Cellular Therapies acquisition, and updated foreign exchange, Company maintains Full-Year 2025 adjusted reported EPS[4] outlook of 6.2%* growth at the mid-point*

New Brunswick, N.J. (April 15, 2025) – Johnson & Johnson (NYSE: JNJ) today announced results for first-quarter 2025. "The power of Johnson & Johnson's uniquely diversified portfolio was on full display this quarter, with strong operational sales growth reinforcing our confidence in 2025 guidance," said Joaquin Duato, Chairman and Chief Executive Officer, Johnson & Johnson. "During the quarter, we fortified our position as an innovation powerhouse with major advancements across our pipeline, including TREMFYA in IBD, RYBREVANT plus LAZCLUZE in non-small-cell lung cancer, and OTTAVA, our soft tissue surgical robotic system, and further enhanced our leading neuroscience portfolio with the completion of the Intra-Cellular Therapies acquisition."

Overall financial results

	Q1		
($ in Millions, expect EPS)	**2025**	**2024**	**% Change**

First-Quarter 2025 segment commentary:

Operational sales* reflected below excludes the impact of translational currency.

Innovative Medicine

Innovative Medicine worldwide operational sales grew 4.2%* driven primarily by DARZALEX, CARVYKTI, ERLEADA, and RYBREVANT/LAZCLUZE in Oncology, TREMFYA and SIMPONI/SIMPONI ARIA in Immunology, SPRAVATO in Neuroscience, and XARELTO in Cardiovascular/Metabolism/Other. Growth was partially offset by an approximate (810) basis points impact from STELARA in Immunology.

MedTech

MedTech worldwide operational sales grew 4.1%*, with net acquisitions and divestitures positively impacting growth by 2.8%. Growth was driven primarily by Abiomed in Cardiovascular and wound closure products in General Surgery. Growth was partially offset by Spine, Sports & Other in Orthopaedics.

Full-year 2025 guidance:

Johnson & Johnson does not provide GAAP financial measures on a forward-looking basis because the company is unable to predict with reasonable certainty the ultimate outcome of legal proceedings, unusual gains and losses, acquisition-related expenses, and purchase accounting fair value adjustments without unreasonable effort. These items are uncertain, depend on various factors, and could be material to Johnson & Johnson's results computed in accordance with GAAP.

($ in Billions, except EPS)	April 2025	January 2025
Adjusted Operational Sales[1,2,5] Change vs. Prior Year / Mid-point	2.0% – 3.0% / 2.5%	2.0% – 3.0% / 2.5%
Operational Sales[2,5] / Mid-point Change vs. Prior Year / Mid-point	$91.6B – $92.4B / $92.0B 3.3% – 4.3% / 3.8%	$90.9B – $91.7B / $91.3B 2.5% – 3.5% / 3.0%
Estimated Reported Sales[3,5]/ Mid-point Change vs. Prior Year / Mid-point	$91.0B – $91.8B / $91.4B 2.6% – 3.6% / 3.1%	$89.2B – $90.0B / $89.6B 0.5% – 1.5% / 1.0%
Adjusted Operational EPS (Diluted)[2,4] / Mid-point Change vs. Prior Year / Mid-point	$10.50 – $10.70 / $10.60 5.2% – 7.2% / 6.2%	$10.75 – $10.95 / $10.85 7.7% – 9.7% / 8.7%
Adjusted EPS (Diluted)[3,4] / Mid-point Change vs. Prior Year / Mid-point	$10.50 – $10.70 / $10.60 5.2% – 7.2% / 6.2%	$10.50 – $10.70 / $10.60 5.2% – 7.2% / 6.2%

1 Non-GAAP financial measure; excludes the net impact of acquisitions and divestitures
2 Non-GAAP financial measure; excludes the impact of translational currency
3 Calculated using Euro Average Rate: April 2025 = $1.10 and January 2025 = $1.04 (Illustrative purposes only)
4 Non-GAAP financial measure; excludes intangible amortization expense and special items
5 Excludes COVID-19 Vaccine

Note: percentages may have been rounded

Other modeling considerations will be provided on the webcast

Webcast information:

Johnson & Johnson will conduct a conference call with investors to discuss this earnings release today at 8:30 a.m., Eastern Time. A simultaneous webcast of the call for investors and other interested parties may be accessed by visiting the Johnson & Johnson website. A replay and podcast will be available approximately two hours after the live webcast in the Investor Relations section of the company's website at events-and-presentations.

About Johnson & Johnson:

At Johnson & Johnson, we believe health is everything. Our strength in healthcare innovation empowers us to build a world where complex diseases are prevented, treated, and cured, where treatments are smarter and less invasive, and solutions are personal. Through our expertise in Innovative Medicine and MedTech, we are uniquely positioned to innovate across the full spectrum of healthcare solutions today to deliver the breakthroughs of tomorrow, and profoundly impact health for humanity. Learn more at www.jnj.com.

Non-GAAP financial measures:

* "Operational sales growth" excluding the impact of translational currency, "adjusted operational sales growth" excluding the net impact of acquisitions and divestitures and translational currency, as well as "adjusted net earnings", "adjusted diluted earnings per share" and "adjusted operational diluted earnings per share" excluding after-tax intangible amortization expense and special items, are non-GAAP financial measures and should not be considered replacements for, and should be read together with, the most comparable GAAP financial measures. Except for guidance measures, reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures can be found in the accompanying financial schedules of the earnings release and the Investor Relations section of the company's website at quarterly results.

Copies of the financial schedules accompanying this earnings release are available on the company's website at quarterly results. These schedules include supplementary sales data, a condensed consolidated statement of earnings, reconciliations of non-GAAP financial measures, and sales of key products/franchises. Additional information on Johnson & Johnson, including adjusted income before tax by segment, an Innovative Medicine pipeline of selected compounds in late stage development and a copy of today's earnings call presentation can also be found in the Investor Relations section of the company's website at quarterly results.

Note to investors concerning forward-looking statements:

This press release contains "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995 regarding, among other things: future operating and financial performance, product development, and market position and business strategy. The reader is cautioned not to rely on these forward-looking statements. These statements are based on current expectations of future events. If underlying assumptions prove inaccurate or known or unknown risks or uncertainties

materialize, actual results could vary materially from the expectations and projections of Johnson & Johnson. Risks and uncertainties include, but are not limited to: economic factors, such as interest rate and currency exchange rate fluctuations or changes to applicable laws and regulations; competition, including technological advances, new products and patents attained by competitors; challenges inherent in new product research and development, including uncertainty of clinical success and obtaining regulatory approvals; uncertainty of commercial success for new and existing products; challenges to patents; the impact of patent expirations; the ability of the Company to successfully execute strategic plans, including restructuring plans; the impact of business combinations and divestitures; manufacturing difficulties or delays, internally or within the supply chain; product efficacy or safety concerns resulting in product recalls or regulatory action; significant adverse litigation or government action, including related to product liability claims; changes to applicable laws and regulations, including tax laws and global health care reforms; trends toward health care cost containment; changes in behavior and spending patterns of purchasers of health care products and services; financial instability of international economies and legal systems and sovereign risk; and increased scrutiny of the health care industry by government agencies. A further list and descriptions of these risks, uncertainties and other factors can be found in Johnson & Johnson's most recent Annual Report on Form 10-K, including in the sections captioned "Cautionary Note Regarding Forward-Looking Statements" and "Item 1A. Risk Factors," and in Johnson & Johnson's subsequent Quarterly Reports on Form 10-Q and other filings with the Securities and Exchange Commission. Copies of these filings are available online at www.sec.gov, www.jnj.com or on request from Johnson & Johnson. Any forward-looking statement made in this release speaks only as of the date of this release. Johnson & Johnson does not undertake to update any forward-looking statement as a result of new information or future events or developments.
