Provide explanation below:

To better position ourselves for the future, we have made the strategic and very positive decision to enter into a restructuring support agreement (RSA) with our lenders. This RSA facilitates a comprehensive financial restructuring, enabling us to drastically reduce our debt and secure the capital needed to grow the Company and continue delivering best-in-class products and solutions to our patients.

To expedite the financial restructuring process, on June 7, 2024, the Company voluntarily filed for Chapter 11 protection in the U.S. Bankruptcy Court as part of this agreement. This move allows us to improve our balance sheet quickly and efficiently, positioning us to capitalize on the numerous opportunities ahead for our company and all our stakeholders, including our strategic partners like you. Please be assured that these decisions were not made lightly; they were made after thoughtful consideration and numerous discussions with the Company's financial partners and will permit us to align our financial structure with our growth objectives. This involves growing our pharmacies, concentrating our resources on productivity, reducing costs, and improving efficiency to better serve our customers and patients.

If you need any additional information on this matter, please contact us at legal@optiorx.com or (630) 566-2636 and we'll be happy to address your questions.

IN THE CIRCUIT COURT OF THE NINETEENTH JUDICIAL CIRCUIT
LAKE COUNTY, ILLINOIS

PEOPLE OF THE STATE OF ILLINOIS)
)
vs) Case No. 20 DT 79
Leo LaFranco)
)

ORDER AND CERTIFICATE OF MISDEMEANOR PROBATION / ~~SUPERVISED SUPERVISION~~

This cause coming on for sentencing, pursuant to a: ☐ finding of guilty ☒ negotiated plea of guilty, ☐ open plea of guilty, Defendant having been adjudged guilty of Reckless Driving, being a Class A Misdemeanor.

The Court after conducting a hearing or having accepted a negotiated plea, and after considering the factors and the nature and circumstances of the offense, and the history, character, and condition of the offender, and after considering Defendant's financial ability to pay the amount hereinafter assessed,

ORDERS:

Defendant is hereby sentenced to a term of 24 months ☒ probation / ☐ ~~supervised supervision.~~ The conditions of which are that Defendant shall:

☒ 1. Not violate any laws or ordinances of any jurisdiction, including traffic regulations;

☒ 2. Not leave the State without the consent of the Court; however, upon verification and approval of the Probation Officer, the Defendant may leave the State for work, school, vacation, treatment, family emergencies and _____

_____

_____;

☒ 3. Pay all fines, fees, court costs, assessments and restitution set forth on **Exhibit A** through the Office of the Clerk of the Circuit Court in equal monthly installments by the first of each month to be paid in full not later than 90 days before the termination date unless the Court orders otherwise;

☒ 4. Obtain/continue employment and/or attend educational programs unless otherwise ordered by the Court;

☒ 5. Not use or be in possession of any illegal substance, cannabis, prescription medication of another, or use any substance designed to have the effects of an illegal substance, or be in the presence of anyone using or in possession of such substances;

☒ 6. Appear in Court on the oral or written notice of the Circuit Clerk, Compliance Officer, Probation Officer, State's Attorney, or the Court;

☒ 7. Unless otherwise ordered by this Court, not less than 90 days prior to the termination of this case, provide proof of completion of all terms and conditions of sentence to the Lake County Adult Probation Services Division;

☒ 8. Strictly comply with the terms and provisions of any and all Orders of Protection;

☒ 9. Not operate a motorized vehicle without a valid driver's license;

☒ 10. Appear immediately in person before the Lake County Adult Probation Services Division at 215 W. Water Street, Waukegan, Illinois 60085, or if in custody immediately upon release from custody, to have an intake interview and thereafter report as often as directed by the Probation Officer;

☒ 11. Notify Probation Officer of telephone contact information and notify Probation Officer immediately of any changes of telephone contact information;

☒ 12. Notify Probation Officer within 24 hours of any new arrests and/or the issuance of a citation for any violation of law including traffic tickets;

☒ 13. Upon a violation of any term or condition of this Order, the Lake County Adult Probation Services Division may invoke any sanctions from the list of intermediate sanctions adopted by the Chief Judge;

☒ 14. Permit the Probation Officer to visit Defendant at home or elsewhere to the extent necessary to discharge probation duties;

☒ 15. Consent to and submit to searches of his/her person, residence, papers, automobiles, computers, any device capable of accessing the internet or storing electronic data, and/or other personal or real property accessible to Defendant at any time such requests are made by a Probation Officer. Defendant consents to the use of anything located, found or seized as evidence in any court proceeding and consents to the destruction of any contraband seized;

☒ 16 Provide executed releases and execute such releases as requested by the Probation Officer including but not limited to all medical treatment, psychological, substance abuse, employment, financial, military, governmental, disability, phone records, internet provider, media, social network or other probation and criminal justice system records;

☒ 17. Provide such proof of Defendant's details of employment, income, job search and/or attendance at educational programs as directed by the Probation Officer;

☒ 18. Submit to random testing of urine and/or breathalyzer and/or blood testing, submitting a sample at such time and place as directed by a Probation Officer and pay the assessed fees;

☒ 19. Not change present place of residence or move outside the County or the State without prior permission of the Court or Probation Officer;

☒ 20. Upon request, provide the Probation Officer with immediate access to any e-mail, text or messaging services, internet chat rooms, blogs, and social media websites Defendant uses to communicate with anyone, as well as any electronic devices including but not limited to telephones, cellphones, smartphones, computer tablets and computers with internet capability.

IF CHECKED, THE FOLLOWING PROVISIONS APPLY

☒ 21. Defendant shall not possess any firearm or other dangerous weapon because:

☐ the offense involved the intentional or knowing infliction of bodily harm or the threat of bodily harm (mandatory for probation sentence);

☐ the offense involved a family or household member as defined in the Illinois Domestic Violence Act of 1986 (750 ILCS 60/101 *et seq.*);

☒ the court finds it is necessary and appropriate in this case.

☒ 22. Defendant shall not consume or possess alcoholic beverages and not be in any establishment whose primary purpose is the sale of alcohol.

☐ 23. Defendant shall submit a sample for DNA indexing as required by law.

☐ 24. Defendant shall register as required by law as a ☐ sex offender ☐ other _____

_____

_____

Defendant shall submit to such testing as required by law or specifically required by separate order.

☐ 25. Defendant is sentenced to a determinate term of _____ days in the custody of the County Sheriff.

☐ No good time shall be awarded as injury resulted from offense.

☐ 26. Defendant shall serve a term of periodic imprisonment to be confined for twenty-four (24) hours, seven (7) days each week for a period of _____ months ☐ in the Sheriff's Community Based Corrections Center (CBCC) and shall follow all rules of the CBCC program, or ☐ if eligible, through the Sheriff's Electronic Home Monitoring program (EHM) and shall follow all rules of the EHM program. Defendant shall follow all rules of periodic imprisonment and shall be released to ☐ seek employment ☐ work ☐ attend school ☐ obtain treatment as ordered ☐ perform public service ☐ perform probation obligations ☐ other _____

_____

_____

☐ 27. Defendant shall serve a term in the County Work Release Program for a period of _____ months, which does not exceed the statutory term of 12 months, as required by 730 ILCS 5/5-7-1(d).

☐ 28. Defendant shall pay a fee for ☐ room and board ☐ electronic home monitoring at the rate established by Lake County Board Ordinance with the concurrence of the Chief Judge pursuant to statute.

☒ 29. Defendant shall perform 240 hours of public service at a minimum rate of 15 hours per month and report immediately to and register with the Public Service Unit of the Lake County Adult Probation Services Division. Defendant shall perform this service at the time and places directed and shall comply with all Public Service Unit protocols and shall serve upon the Public Service Unit written evidence of completion of the public service hours at least 90 days prior to the termination of this sentence.

☐ 30. Good cause having been shown, Defendant shall perform _____ hours of community service at a minimum rate of _____ hours per month and report immediately to and register with the Lake County Adult Probation Services Division. Defendant shall perform this service at a self-selected not-for-profit organization, public body, religious institution, charitable organization, or individual agreeing to accept community service from offenders as verified by the Lake County Adult Probation Services Division and shall serve upon the Lake County Adult Probation Services Division written evidence of completion of the community service hours at least 90 days prior to the termination of this sentence.

☐ 31. Defendant shall complete all requirements for ☐ high school graduation ☐ GED ☐ other _____

☐ 32. Defendant shall:

- ☐ reside at _____
- ☐ not reside at _____
- ☐ not engage in any abusive, violent, or harassing conduct of any kind with _____
- ☐ not be present at _____
- ☐ not have any contact of any kind directly or indirectly with members of street gangs and drug users or dealers and not wear clothing associated with any street gang, communicate or exhibit gang signs
- ☐ not have any contact of any kind directly or indirectly with _____

☒ 33. Defendant shall comply with the following evaluations, treatment recommendations, educational or vocational requirements by approved providers including the payment of fees:

- ☐ The Cognitive Program, "Thinking for a Change"
- ☐ Mental health/psychiatric treatment
- ☐ Repatriate Project
- ☐ Physician/psychiatrist/psychologist treatment plans
- ☐ Victim impact panel
- ☒ Live victim impact panel
- ☐ Parenting classes
- ☐ Substance abuse evaluation and treatment
- ☐ Sex offender evaluation and treatment
- ☐ Domestic violence evaluation and treatment
- ☐ DCFS Service/Safety Plan
- ☐ Traffic Safety School
- ☐ Youthful Offender Program

☐ Comply with medication plan as directed by physician, taking medications only as prescribed

☒ DUI Project: ☐ Level 1 ☐ Level 2 Moderate ☒ Level 2 Significant ☐ Level 3

☒ Other: Open mandate per probation officer

Defendant shall obtain all required evaluations or be actively engaged or enrolled in treatment, educational or vocational programs as ordered above within 45 days of today's date or, if in custody, within 45 days of release date, providing proof of same to the Lake County Adult Probation Services Division. Defendant shall meet all program and treatment schedules as set by the Lake County Adult Probation Services Division and provide proof as required in Paragraph 7 of this order. Defendant must follow all programs/treatment/class rules, participate in a respectful, cooperative and constructive manner and complete all requirements.

☒ 34. Defendant shall be assessed for all risk factors and criminogenic needs by the Lake County Adult Probation Services Division at the time of his / her initial in-take interview as well as periodically throughout the term of probation, and based upon these assessments (which must include consideration of Defendant's criminal, psychological, intellectual, behavioral and social history), Defendant shall undergo all further assessments and evaluations including but not limited to, medical, psychological, psychiatric, substance abuse, anger management, domestic violence, sexual offender, educational and vocational, and successfully complete all necessary classes, programs, and treatment relating to the nature of the offense, or the rehabilitation of Defendant, or the protection of the public, or that may be beneficial to Defendant ("Rehabilitative Assessment and Services") as directed by the Lake County Adult Probation Services Division. This process requires Defendant to comply with all program and treatment schedules as set by the Lake County Adult Probation Services Division and provide proof of successful completion as set forth in Paragraph 7. Defendant must follow all programs/treatment/class rules, participate in a respectful, cooperative and constructive manner and complete all requirements including the payment of all fees.

☐ 35. Upon the approval of the receiving State, pursuant to the Interstate Compact Rules, Defendant may reside in _____. Defendant is required to pay a $125.00 processing fee prior to submission of a transfer request. The Lake County Adult Probation Services Division fees will be assessed up to the date a transfer is accepted by the receiving State, and waived thereafter. Defendant will be required to pay supervision fees imposed by the receiving State. Any subsequent out-of-state transfers must obtain the approval from the 19th Judicial Circuit Court, prior to the relocation. Defendant will continue to remain under the jurisdiction of this Court and must continue to comply with all the Lake County Adult Probation Services Division requests and directives.

☐ 36. Upon the approval of the Lake County Adult Probation Services Division and acceptance of the probation supervision by another circuit of Illinois, Defendant may reside in a county (_____) within that circuit. Defendant is responsible for all the Lake County Adult Probation Services Division fees incurred up to the date a transfer is accepted by the receiving circuit and waived thereafter. Defendant will be required to pay probation fees imposed by the receiving circuit. Defendant will continue to remain under the jurisdiction of this Court and must continue to comply with all the Lake County Adult Probation Services Division requests and directives.

☐ 37. Defendant shall comply with a daily curfew of _____ to _____ requiring Defendant to be in his/her residence except when performing probation obligations, attending treatment, working at employment approved by Probation Officer, attending court, or attending to other specific activities which have been approved in advance by his/her Probation Officer. The Defendant's Probation Officer may lessen or reinstate this curfew based upon Defendant's compliance and performance.

☒ 38. Defendant shall follow and comply with all of the additional terms and conditions of the following specialized probation supervision units as set forth in **Exhibit B** which is attached hereto and incorporated by reference:

☐ Domestic Violence Unit

☐ Sex Offender Unit

☒ DUI Unit

☐ 39. Defendant shall follow and comply with all of the additional terms and conditions of the following Therapeutic Intensive Monitoring (TIM) Court specialized probation set forth in **Exhibit B** which is attached hereto and incorporated by reference:

☐ TIM Drug Court

☐ TIM Mental Health Court

☐ TIM Veterans Treatment and Assistance Court

Additionally, Defendant must follow, comply and complete all of the obligations undertaken by him/her in the Specialty Court Contract which is attached to and incorporated into both **Exhibit B** and this Probation Order by reference.

☒ 40. Defendant shall also comply with **OTHER** requirements as follows: _____

All fines and court assessments to be paid within 24 hours of plea being accepted

Defendant shall have a BAIID installed in his vehicle and may not operate any vehicle without a BAIID

☒ 41. If the sentence is to supervised supervision, upon successful completion Defendant shall be discharged and the charges dismissed without further order of the Court.

☒ 42. Probation will terminate and the Circuit Clerk shall transfer the case to closed status on August 23, 2024 unless there is pending an unresolved petition to revoke probation or this order has been otherwise modified or extended.

☒ 43. The Clerk of this Court is directed to make all notifications and take all actions as required by law.

_____
JUDGE

Dated this _____ day of _____, 20____

Order prepared by Lawrence R. Lehuzenne

I, the above-named Defendant, acknowledge reading and receipt of this document.

I understand and have been advised in open court that if I am not a citizen of the United States, that a conviction or a sentence of supervision or probation for the offense for which I have been charged may have the consequences of deportation, exclusion from admission to the United States, or denial of naturalization under the laws of the United States.

I understand that any individual convicted of domestic battery may be subject to federal criminal penalties for possessing, transporting, shipping, or receiving any firearm or ammunition in violation of the federal Gun Control Act of 1968 [18 U.S.C. 922(g)(8) and (9)].

I understand that upon a finding of any violation of a condition contained in this Order or accompanying Exhibits, and after due notice and hearing, the Court may revoke this sentence, enter judgment of conviction and impose any penalty originally provided for by applicable statute or ordinance including a jail sentence.

I UNDERSTAND THAT FAILURE TO APPEAR IN COURT WHEN REQUIRED CONSTITUTES A **WAIVER** OF MY RIGHT TO CONFRONT WITNESSES AGAINST ME, AND A HEARING TO REVOKE MY SENTENCE CAN PROCEED IN MY ABSENCE AND RESULT IN RE-SENTENCING **WITHOUT MY BEING PRESENT.**

This is in response to Question # 5

Fill in this information to identify your case:

United States Bankruptcy Court for the:

DISTRICT OF DELAWARE

Case number *(if known)* _____ Chapter 11

☐ Check if this an amended filing

Official Form 201

Voluntary Petition for Non-Individuals Filing for Bankruptcy

06/22

If more space is needed, attach a separate sheet to this form. On the top of any additional pages, write the debtor's name and the case number (if known). For more information, a separate document, *Instructions for Bankruptcy Forms for Non-Individuals,* is available.

1. Debtor's name Optio Rx, LLC

2. All other names debtor used in the last 8 years

Include any assumed names, trade names and *doing business as* names

3. Debtor's federal Employer Identification Number (EIN) 82-5158436

4. Debtor's address

Principal place of business

3701 Commercial Avenue
Suite 14
Northbrook, IL 60062
Number, Street, City, State & ZIP Code

Cook
County

Mailing address, if different from principal place of business

P.O. Box, Number, Street, City, State & ZIP Code

Location of principal assets, if different from principal place of business

Number, Street, City, State & ZIP Code

5. Debtor's website (URL) www.optiorx.com

6. Type of debtor

■ Corporation (including Limited Liability Company (LLC) and Limited Liability Partnership (LLP))

☐ Partnership (excluding LLP)

☐ Other. Specify: _____

Debtor **Optio Rx, LLC** Case number (*if known*) _____
Name

7. Describe debtor's business

A. *Check one:*

- ☐ Health Care Business (as defined in 11 U.S.C. § 101(27A))
- ☐ Single Asset Real Estate (as defined in 11 U.S.C. § 101(51B))
- ☐ Railroad (as defined in 11 U.S.C. § 101(44))
- ☐ Stockbroker (as defined in 11 U.S.C. § 101(53A))
- ☐ Commodity Broker (as defined in 11 U.S.C. § 101(6))
- ☐ Clearing Bank (as defined in 11 U.S.C. § 781(3))
- ■ None of the above

B. *Check all that apply*

- ☐ Tax-exempt entity (as described in 26 U.S.C. §501)
- ☐ Investment company, including hedge fund or pooled investment vehicle (as defined in 15 U.S.C. §80a-3)
- ☐ Investment advisor (as defined in 15 U.S.C. §80b-2(a)(11))

C. NAICS (North American Industry Classification System) 4-digit code that best describes debtor. See http://www.uscourts.gov/four-digit-national-association-naics-codes.

4242

8. Under which chapter of the Bankruptcy Code is the debtor filing?

A debtor who is a "small business debtor" must check the first sub-box. A debtor as defined in § 1182(1) who elects to proceed under subchapter V of chapter 11 (whether or not the debtor is a "small business debtor") must check the second sub-box.

Check one:

- ☐ Chapter 7
- ☐ Chapter 9
- ■ Chapter 11. *Check all that apply:*
  - ☐ The debtor is a small business debtor as defined in 11 U.S.C. § 101(51D), and its aggregate noncontingent liquidated debts (excluding debts owed to insiders or affiliates) are less than $3,024,725. If this sub-box is selected, attach the most recent balance sheet, statement of operations, cash-flow statement, and federal income tax return or if any of these documents do not exist, follow the procedure in 11 U.S.C. § 1116(1)(B).
  - ☐ The debtor is a debtor as defined in 11 U.S.C. § 1182(1), its aggregate noncontingent liquidated debts (excluding debts owed to insiders or affiliates) are less than $7,500,000, **and it chooses to proceed under Subchapter V of Chapter 11.** If this sub-box is selected, attach the most recent balance sheet, statement of operations, cash-flow statement, and federal income tax return, or if any of these documents do not exist, follow the procedure in 11 U.S.C. § 1116(1)(B).
  - ■ A plan is being filed with this petition.
  - ☐ Acceptances of the plan were solicited prepetition from one or more classes of creditors, in accordance with 11 U.S.C. § 1126(b).
  - ☐ The debtor is required to file periodic reports (for example, 10K and 10Q) with the Securities and Exchange Commission according to § 13 or 15(d) of the Securities Exchange Act of 1934. File the *Attachment to Voluntary Petition for Non-Individuals Filing for Bankruptcy under Chapter 11* (Official Form 201A) with this form.
  - ☐ The debtor is a shell company as defined in the Securities Exchange Act of 1934 Rule 12b-2.
- ☐ Chapter 12

9. Were prior bankruptcy cases filed by or against the debtor within the last 8 years?

If more than 2 cases, attach a separate list.

- ■ No.
- ☐ Yes.

District _____ When _____ Case number _____
District _____ When _____ Case number _____

Debtor **Optio Rx, LLC** Name

Case number (*if known*) _____

10. Are any bankruptcy cases pending or being filed by a business partner or an affiliate of the debtor?

☐ No
■ Yes.

List all cases. If more than 1, attach a separate list

Debtor **See Attached Schedule** Relationship _____

District _____ When _____ Case number, if known _____

11. Why is the case filed in *this district?*

Check all that apply:

■ Debtor has had its domicile, principal place of business, or principal assets in this district for 180 days immediately preceding the date of this petition or for a longer part of such 180 days than in any other district.

☐ A bankruptcy case concerning debtor's affiliate, general partner, or partnership is pending in this district.

12. Does the debtor own or have possession of any real property or personal property that needs immediate attention?

■ No
☐ Yes. Answer below for each property that needs immediate attention. Attach additional sheets if needed.

Why does the property need immediate attention? (*Check all that apply.*)

☐ It poses or is alleged to pose a threat of imminent and identifiable hazard to public health or safety.
What is the hazard? _____

☐ It needs to be physically secured or protected from the weather.

☐ It includes perishable goods or assets that could quickly deteriorate or lose value without attention (for example, livestock, seasonal goods, meat, dairy, produce, or securities-related assets or other options).

☐ Other _____

Where is the property? _____
Number, Street, City, State & ZIP Code

Is the property insured?

☐ No
☐ Yes. Insurance agency _____
Contact name _____
Phone _____

Statistical and administrative information

13. Debtor's estimation of available funds

Check one:

■ Funds will be available for distribution to unsecured creditors.

☐ After any administrative expenses are paid, no funds will be available to unsecured creditors.

14. Estimated number of creditors

☐ 1-49	☐ 1,000-5,000	☐ 25,001-50,000
☐ 50-99	☐ 5001-10,000	☐ 50,001-100,000
☐ 100-199	☐ 10,001-25,000	☐ More than100,000
■ 200-999		

15. Estimated Assets

☐ $0 - $50,000	☐ $1,000,001 - $10 million	☐ $500,000,001 - $1 billion
☐ $50,001 - $100,000	■ $10,000,001 - $50 million	☐ $1,000,000,001 - $10 billion
☐ $100,001 - $500,000	☐ $50,000,001 - $100 million	☐ $10,000,000,001 - $50 billion
☐ $500,001 - $1 million	☐ $100,000,001 - $500 million	☐ More than $50 billion

Debtor **Optio Rx, LLC** Case number (*if known*) _____
Name

16. Estimated liabilities

☐ $0 - $50,000	☐ $1,000,001 - $10 million	☐ $500,000,001 - $1 billion
☐ $50,001 - $100,000	☐ $10,000,001 - $50 million	☐ $1,000,000,001 - $10 billion
☐ $100,001 - $500,000	☐ $50,000,001 - $100 million	☐ $10,000,000,001 - $50 billion
☐ $500,001 - $1 million	■ $100,000,001 - $500 million	☐ More than $50 billion

Request for Relief, Declaration, and Signatures

WARNING -- Bankruptcy fraud is a serious crime. Making a false statement in connection with a bankruptcy case can result in fines up to $500,000 or imprisonment for up to 20 years, or both. 18 U.S.C. §§ 152, 1341, 1519, and 3571.

17. Declaration and signature of authorized representative of debtor

The debtor requests relief in accordance with the chapter of title 11, United States Code, specified in this petition.

I have been authorized to file this petition on behalf of the debtor.

I have examined the information in this petition and have a reasonable belief that the information is true and correct.

I declare under penalty of perjury that the foregoing is true and correct.

Official Form 204

Chapter 11 or Chapter 9 Cases: List of Creditors Who Have the 30 Largest Unsecured Claims and Are Not Insiders

12/15

A list of creditors holding the 30 largest unsecured claims must be filed in a Chapter 11 or Chapter 9 case. Include claims which the debtor disputes. Do not include claims by any person or entity who is an *insider*, as defined in 11 U.S.C. § 101(31). Also, do not include claims by secured creditors, unless the unsecured claim resulting from inadequate collateral value places the creditor among the holders of the 30 largest unsecured claims.

	Name of creditor and complete mailing address, including zip code	Name, telephone number, and email address of creditor contact	Nature of the claim (for example, trade debts, bank loans, professional services, and government contracts)	Indicate if claim is contingent, unliquidated, or disputed	Amount of unsecured claim If the claim is fully unsecured, fill in only unsecured claim amount. If claim is partially secured, fill in total claim amount and deduction for value of collateral or setoff to calculate unsecured claim.		
					Total claim, if partially secured	Deduction for value of collateral or setoff	Unsecured Claim

Official Form 202

Declaration Under Penalty of Perjury for Non-Individual Debtors 12/15

An individual who is authorized to act on behalf of a non-individual debtor, such as a corporation or partnership, must sign and submit this form for the schedules of assets and liabilities, any other document that requires a declaration that is not included in the document, and any amendments of those documents. This form must state the individual's position or relationship to the debtor, the identity of the document, and the date. Bankruptcy Rules 1008 and 9011.

WARNING – Bankruptcy fraud is a serious crime. Making a false statement, concealing property, or obtaining money or property by fraud in connection with a bankruptcy case can result in fines up to $500,000 or imprisonment for up to 20 years, or both. 18 U.S.C. §§ 152, 1341, 1519, and 3571.

Declaration and signature

I am the president, another officer, or an authorized agent of the corporation; a member or an authorized agent of the partnership; or another individual serving as a representative of the debtor in this case.

I have examined the information in the documents checked below and I have a reasonable belief that the information is true and correct:

- ☐ *Schedule A/B: Assets–Real and Personal Property* (Official Form 206A/B)
- ☐ *Schedule D: Creditors Who Have Claims Secured by Property* (Official Form 206D)
- ☐ *Schedule E/F: Creditors Who Have Unsecured Claims* (Official Form 206E/F)
- ☐ *Schedule G: Executory Contracts and Unexpired Leases* (Official Form 206G)
- ☐ *Schedule H: Codebtors* (Official Form 206H)
- ☐ *Summary of Assets and Liabilities for Non-Individuals* (Official Form 206Sum)
- ☐ Amended *Schedule* _____
- ■ *Chapter 11 or Chapter 9 Cases: List of Creditors Who Have the 20 Largest Unsecured Claims and Are Not Insiders* (Official Form 204)
- ■ Other document that requires a declaration **Debtors' Consolidated Corporate Ownership Statement and List of Equity Interest Holders Pursuant to Fed. R. Bankr. P. 1007(a)(1), 1007(a)(3), and 7007.1**

I declare under penalty of perjury that the foregoing is true and correct.

Pharmacy RM LLC, a Delaware limited liability company; Rose Pharmacy SA LLC, a Delaware limited liability company; Rose Pharmacy SF LLC, a Delaware limited liability company; Baybridge Pharmacy, LLC, a Delaware limited liability company; Central Pharmacy, LLC, a Delaware limited liability company; Pro Pharmacy, LLC, a Delaware limited liability company; Healthy Choice Compounding LLC, a Delaware limited liability company ("**Healthy Choice Member**" and together with Optio Member, Pet Apothecary Member, Crestview Member, SMC Member and SBH Member, the "**Authorizing Members**"); Healthy Choice Compounding LLC, a New York limited liability company; and Oakdell Compounding Pharmacy LLC, a Texas limited liability company (collectively, the "**Subsidiaries**" and together with Optio Manager, the "**Companies**");

WHEREAS, the Optio Member is the sole member of Braun Pharma, LLC; HCP Pharmacy, LLC; Pet Apothecary Member; Crestview Member; Dr. Ike's Pharmacare LLC; Enovex Pharmacy LLC; H&H Pharmacy, LLC; SMC Pharmacy LLC; SMC Member; SBH Member; Rose Pharmacy RM LLC; Rose Pharmacy SA LLC; Rose Pharmacy SF LLC; Baybridge Pharmacy, LLC; Central Pharmacy, LLC; Pro Pharmacy, LLC; Healthy Choice Member; and Oakdell Compounding Pharmacy LLC;

WHEREAS, the Pet Apothecary Member is the sole member of The Pet Apothecary, LLC;

WHEREAS, the Crestview Member is the sole member of Crestview Pharmacy, LLC;

WHEREAS, the SMC Member is the sole member of each of Concierge Pharmacy, LLC, Firstcare Pharmacy, LLC, Easycare Pharmacy, LLC and Primecare Pharmacy, LLC;

WHEREAS, the SBH Member is the sole member of SBH Medical, Ltd.;

WHEREAS, the Healthy Choice Member is the sole member of Healthy Choice Compounding LLC;

WHEREAS, Pharmacy Manager, Optio Manager, and the Authorizing Members (collectively, the "**Governing Bodies**") have had the opportunity to consult with the management and the legal and financial advisors of such Company to fully consider, and has considered, each of the strategic alternatives available to such Company;

WHEREAS, each Governing Body desires to approve the following resolutions;

WHEREAS, Section 5.3 of the Operating Agreement of each Company provides that its Manager or Member, as applicable, may act by written consent in lieu of a meeting;

WHEREAS, Sections 18-301(d) and 18-404(d) of the Delaware Limited Liability Company Act; Sections 6.201 and 101.358 of the Texas Business Organizations Code; Sections 407(a) and 408(c) of the New York Limited Liability Law; Section 15-1(e) of the Illinois Limited Liability Company Act; Sections 605.04073(4) and (5) of the Florida Revised Limited Liability Company Act; Section 183.0407(4) of the Wisconsin Uniform Limited Liability Company Law; Section 1104.07(n)(1) of the California Revised Uniform Limited Liability Company Act; and Section 1706.30(D) of the Ohio Revised Limited Liability Company Act provide that members and managers may act by written consent in lieu of a meeting;

WHEREAS, the limited liability company acts of certain states under the laws of which certain Subsidiaries are formed require, or arguably require, member approval to file bankruptcy petitions;

I. CHAPTER 11 FILING

WHEREAS, the Governing Body of each Company, acting in its capacity as a member and/or manager, as applicable, has considered presentations by the management and the financial and legal advisors of such Company regarding the liabilities and liquidity situation of such Company, the strategic alternatives available to it and the effect of the foregoing on such Company's business, creditors, stakeholders and other parties in interest;

WHEREAS, the Governing Body of each Company has had the opportunity to consult with such Company's management and financial and legal advisors and fully consider each of the strategic alternatives available to such Company;

WHEREAS, the Governing Body of each Company, based on its review of all available alternatives and advice provided by such advisors and professionals, has determined that it is advisable and in the best interest of such Company and its stakeholders for such Company to take the actions specified in the following resolutions;

WHEREAS, the Governing Body of each Company has been presented with a proposed voluntary petition (the "**Chapter 11 Petition**") to be filed by such Company in the United States Bankruptcy Court for the District of Delaware (the "**Bankruptcy Court**") seeking relief under the provisions of Chapter 11 of title 11 of the United States Code (the "**Bankruptcy Code**"), in which the authority to operate as a debtor-in-possession will be sought;

WHEREAS, the Governing Body of each Company has had the opportunity to consult with the management and the legal and financial advisors of such Company regarding the material terms of the "first day" pleadings, applications, affidavits and other documents, in each case, in form and substance substantially similar to the form provided to the Governing Bodies as of the date hereof (collectively, the "**Chapter 11 Filings**") to be filed by such Company before the Bankruptcy Court in connection with the commencement of such Company's Chapter 11 case (the "**Bankruptcy Case**"); and

WHEREAS, the Governing Body of each Company, having considered the financial and operational aspects of such Company's business and the best course of action to maximize value, have determined that it is advisable and in the best interest of such Company, its creditors, stakeholders and other interested parties that the Chapter 11 Petition be filed by such Company seeking relief under the provisions of Chapter 11 of the Bankruptcy Code.

NOW, THEREFORE, BE IT RESOLVED, that in the judgment of the Governing Body of each Company, it is advisable and in the best interest of such Company, its creditors, stakeholders and other interested parties, that the Chapter 11 Petition and the Chapter 11 Filings be filed by such Company seeking relief under the provisions of Chapter 11 of the Bankruptcy Code, and the filing of such Chapter 11 Petition and Chapter 11 Filings is authorized hereby; and be it further

RESOLVED, that any officer of each Company or its sole member or sole manager, as applicable (each an "**Authorized Person**"), in each case, be, and each hereby is, authorized, empowered and directed, on behalf of and in the name of such Company, to execute and verify the Chapter 11 Petition and the Chapter 11 Filings in the name of such Company under Chapter 11 of the Bankruptcy Code and to cause the same to be filed in the Bankruptcy Court in such form and at such time as the Authorized Person(s) executing said Chapter 11 Petition and Chapter 11 Filings on behalf of such Company shall determine.

II. PLAN OF REORGANIZATION AND DISCLOSURE STATEMENT

WHEREAS, the Governing Body of each Company has had the opportunity to consult with the management and legal and financial advisors of such Company regarding the material terms of a proposed plan of reorganization (the "**Plan**") pursuant to which such Company would, among other things, implement a reorganization of such Company's liabilities and emerge from its Bankruptcy Case;

WHEREAS, the Governing Body of each Company has had the opportunity to consult with the management and the legal and financial advisors of such Company regarding the material terms of a proposed Disclosure Statement (the "**Disclosure Statement**") accompanying the Plan and the contents and disclosures thereof; and

WHEREAS, the Governing Body of each Company has determined that it is advisable and in the best interest of such Company, its creditors, stakeholders and other interested parties that such Company, in furtherance of a reorganization of such Company's liabilities and emergence from Chapter 11, file the Plan and Disclosure Statement with the Bankruptcy Court and to solicit acceptances and approvals thereof.

NOW, THEREFORE, BE IT RESOLVED, that the Governing Body of each Company adopts, ratifies, confirms and approves the form, terms and provisions of, and each of the transactions contemplated by the Plan and the Disclosure Statement, as each may be amended or modified from time to time; and be it further

RESOLVED, that each Company's advisors be, and each hereby is, authorized, empowered and directed, on behalf of an in the name of such Company, to prepare, finalize and file, as appropriate, procedures for the solicitation and tabulation of votes to accept or reject the Plan.

III. DIP FINANCING

WHEREAS, the Governing Body of each Company has determined that, in connection with the Bankruptcy Case, it is desirable and in the best interest of such Company, its creditors, stakeholders, and other interested parties to request that one or more potential financing sources provide such Company with post-petition debtor-in-possession financing, including, but not limited to, a multi-draw term loan facility of $10,000,000.00 (collectively "**DIP Financing**"), subject to exceptions and limitations to be set forth in any orders of the Bankruptcy Court concerning any of the DIP Financing (the "**DIP Financing Orders**");

WHEREAS, the Governing Body of each Company has been presented with and has reviewed the terms and provisions of a definitive senior secured super-priority debtor-in-possession credit agreement (the "**DIP Financing Agreement**") by and among such Company and certain of its affiliates, as debtors-in-possession, and Funds and vehicles managed by (i) MC Credit Partners LP and (ii) CION Investment Corporation, as First Out Holders under the Prepetition Credit Agreement, and Caprice Capital Partners, LLC (collectively, with the other lenders contemplated by the DIP Financing Agreement, the "**DIP Lenders**") pursuant to which the DIP Lenders have agreed to provide such Company with DIP Financing, which provides for the borrowing and reborrowing of loans, guaranteeing of obligations, granting of security and the pledging of collateral;

WHEREAS, in connection with the DIP Financing Agreement, the DIP Lenders require that each Company grant security interests in substantially all of its assets that now or hereafter come into the possession, custody or control of such Company, in order to secure the prompt and complete payment, observance, and performance of all obligations under the DIP Financing Agreement, subject to exceptions and limitations to be set forth in DIP Financing Orders and related documents contemplated thereunder (collectively, the "**DIP Documents**"); and

WHEREAS, the Governing Body of each Company has determined that it is in the best interests of such Company, its creditors, stakeholders, and other interested parties, for such Company to (i) consummate the transactions contemplated by the DIP Financing Agreement provided to the Governing Body of such Company, and (ii) empower, authorize and direct the Authorized Persons of such Company to take any and all actions as may be deemed appropriate to effect and perform the transactions contemplated thereby.

NOW, THEREFORE, BE IT RESOLVED, that the form, terms and provisions of the DIP Financing Agreement are hereby, in all respects, authorized, ratified, approved and adopted by the Governing Body of each Company on behalf of such Company; and it be further

RESOLVED, that each Company be, and hereby is, authorized to incur and to undertake any and all related transactions contemplated under the DIP Financing Agreement and the DIP Documents; and it be further

RESOLVED, that Optio Manager be, and hereby is, authorized to borrow and reborrow loans, guaranty obligations, grant security interests in collateral and pledge collateral pursuant to, and in accordance with, the DIP Documents; and it be further

RESOLVED, that each Company be, and hereby is, authorized to guaranty obligations, grant security interests in collateral and pledge collateral pursuant to, and in accordance with, the DIP Documents; and it be further

RESOLVED, that the Authorized Persons be, and each of them hereby is, empowered, authorized and directed, with full power of delegation, on behalf of and in the name of such Company, to cause such Company to negotiate, execute and deliver the DIP Financing Agreement and the related documents contemplated thereby, in such form and with such changes or amendments (substantial or otherwise) thereto as any one or more of such Authorized Persons may

deem necessary, desirable or appropriate, in order to consummate the transactions contemplated by the DIP Financing Agreement; and it be further

RESOLVED, that the Authorized Persons be, and each of them hereby is, empowered, authorized and directed, with full power of delegation, on behalf of and in the name of such Company, to take all such further actions which shall be necessary, proper or advisable to perform such Company's obligations under or in connection with the DIP Financing Agreement, the DIP Documents and the transactions contemplated therein, and to carry out fully the intent of the foregoing resolutions.

IV. RETENTION OF PROFESSIONALS

RESOLVED, that the Authorized Persons be, and each hereby is empowered, authorized and directed, on behalf of and in the name of such Company, to continue to retain and employ the law firm of Chipman Brown Cicero & Cole, LLP ("**CBCC**"), as general bankruptcy counsel, to represent and assist such Company in carrying out its duties under the Bankruptcy Code, and to take any and all actions to advance such Company's rights and obligations, including filing any motions, objections, replies, applications, or pleadings in the Bankruptcy Case and all other related matters in connection therewith, in such capacities and on such terms as the Authorized Persons of such Company, and each of them, may or shall approve and/or have previously approved; and be it further

RESOLVED, that the Authorized Persons be, and each hereby is empowered, authorized and directed, on behalf of and in the name of such Company, to continue to retain Paladin Management Group, LLC ("**Paladin**") to serve as financial advisor to such Company, and (iii) Stretto ("**Stretto**") to provide consulting services to such Company regarding noticing, claims management and reconciliation, plan solicitation, balloting, disbursements, and any other services agreed to by the parties; and be it further

RESOLVED, that the Authorized Persons be, and each hereby is, empowered, authorized and directed, on behalf of and in the name of such Company, to continue the employment and retention of professionals in the ordinary course as long as they deem appropriate and in the Bankruptcy Case to retain and employ other attorneys, accountants, and other professionals to assist in such Company's Bankruptcy Case on such terms as are deemed necessary, appropriate or advisable; and be it further

RESOLVED, that the Authorized Persons be, and each hereby is, authorized and directed, on behalf of and in the name of such Company, to execute any appropriate engagement letters and agreements and such other documents necessary to retain or continue to retain CBCC, Paladin, and Stretto, and any other or additional financial advisors, investment bankers, accountants, auditors, advisors, legal counsel, and other professionals not specifically identified herein (the "**Professionals**"), and to cause such Company to pay appropriate retainers to such Professionals prior to the filing of the Bankruptcy Case or after to the extent appropriate and permitted in the Bankruptcy Case, and to cause to be filed appropriate applications or motions seeking authority to retain and pay for the services of such Professionals; and be it further

RESOLVED, that the Authorized Persons be, and each hereby is, authorized and directed, on behalf of and in the name of such Company, to pay, or cause to be paid, all fees and expenses incurred by such Company in connection with services rendered by the Professionals and to make, or cause to be made, all payments as they, or any of them individually, shall determine to be necessary, appropriate or advisable, such payment to be conclusive evidence of their determination; and be it further

V. GENERAL

RESOLVED, that Jarlath Johnston is hereby authorized to execute these resolutions on behalf of Optio Rx, LLC in its capacity as Optio Manager and Optio Member;

RESOLVED, that the Authorized Persons be, and each hereby is, authorized, empowered and directed, on behalf of and in the name of such Company, to amend, supplement or otherwise modify from time to time the terms of any documents, certificates, instruments, agreements, financing statements, notices, undertakings or other writings referred to in the foregoing resolutions; and be it further

RESOLVED, that the Authorized Persons be, and each hereby is, authorized, empowered and directed, on behalf of and in the name of such Company, to take or cause to be taken any and all such further action and to execute, deliver, perform, verify and/or file, or cause to be executed, delivered, performed, verified and/or filed (or direct others to do so on its behalf as provided herein) all such further documents, agreements, instruments, financing statements, notices, undertakings, certificates, resolutions and other writings as they or any of them deem necessary, desirable or appropriate to effectuate the purpose and intent of any and all of the foregoing resolutions, the necessity, desirability, and appropriateness of which shall be conclusively evidenced by the action in support thereof, or the execution and delivery thereof, by such Authorized Persons (or such persons directed by such Authorized Persons); and be it further

RESOLVED, that all acts lawfully done or actions lawfully taken by any Authorized Person to seek relief on behalf of such Company under Chapter 11 of the Bankruptcy Code, or in connection with the Bankruptcy Case, or any matter related thereto, be, and hereby are, adopted, ratified, confirmed and approved in all respects as the acts and deeds of such Company in all respects by the Governing Body of such Company; and be it further

RESOLVED, that all acts lawfully done or actions lawfully taken by any Authorized Person, or by any employees or agents of such Company, on or before the date hereof in connection with the transactions contemplated by the foregoing resolutions be, and hereby are, authorized, adopted, ratified, confirmed and approved in all respects by the Governing Body of such Company; and be it further

RESOLVED, that the omission from these resolutions of any agreement, document or other arrangement contemplated by any of the agreements, instruments, filings or other documents described in the foregoing resolutions or any action to be taken in accordance with any requirement of any of the agreements, instruments, filings or other documents described in the foregoing resolutions shall in no manner derogate from the authority of the Authorized Persons to take all actions necessary, appropriate or advisable to consummate, effectuate, carry out or further the

transaction contemplated by, and the intent and purposes of, the foregoing resolutions, the necessity, appropriateness, and advisability, of which shall be conclusively evidenced by the execution and delivery thereof, or action in support thereof, by such Authorized Person; and be it further

RESOLVED, that the Governing Body of such Company has received sufficient notice of the actions and transactions relating to the matters contemplated by the foregoing resolutions, as may be required by the organizational documents of such Company, or hereby waive any right to have received such notice; and be it further

RESOLVED, that the Authorized Persons be, and each hereby is, authorized, empowered and directed, on behalf of and in the name of such Company, to execute, deliver, perform, verify and/or file, or cause to be executed, delivered, performed, verified and/or filed (or direct others to do so on their behalf as provided herein) all necessary documents, including, without limitation, all petitions, affidavits, statements, schedules, motions, lists, applications, pleadings, other papers, guarantees, reaffirmations, additional security documents, control agreements, waivers of or amendments to existing documents, and to negotiate the forms, terms and provisions of, and to execute and deliver any amendments, modifications, waivers or consent to any of the foregoing as may be approved by any Authorized Person, which amendments, modifications, waivers or consents may provide for consent payments, fees or other amounts payable or other modifications of or relief under such agreements or documents, the purpose of such amendments, modifications, waivers or consents being to facilitate consummation of the transactions contemplated by the foregoing resolutions or for any other purpose, and, in connection with the foregoing, to employ and retain all assistance by legal counsel, investment bankers, accountants, restructuring professionals or other professionals, and to take any and all action which such Authorized Person or Authorized Persons deem necessary, appropriate or advisable in connection with the Bankruptcy Case, and the DIP Financing, with a view to the successful prosecution of the Bankruptcy Case contemplated by the foregoing resolutions and the successful consummation of the transactions contemplated by the foregoing resolutions including, without limitation, any action necessary, appropriate, or advisable to maintain the ordinary course operation of such Company's business; and be it further

RESOLVED, that the Authorized Persons be, and each hereby is, authorized, empowered and directed, on behalf of and in the name of such Company, to execute, deliver and perform any and all special powers of attorney as such Authorized Person may deem necessary, appropriate or advisable to facilitate consummation of the transactions contemplated by the foregoing resolutions, pursuant to which such Authorized Person will make certain appointments of attorneys to facilitate consummation of the transactions contemplated by the foregoing resolutions as such Company's true and lawful attorneys and authorize each such attorney to execute and deliver any and all documents of whatsoever nature and description that may be necessary, appropriate or advisable to facilitate consummation of the transactions contemplated by the foregoing resolutions.

Website: https://sbhmed.com/

Nevada Business License # (if applicable) N/A

Supervising/Managing Pharmacist Name (NRS 639.220): DOUGLAS NAVARRO

Supervising/Managing Pharmacist NV Pharmacist Registration #: 24452

Name of Designated Person(s) as defined by revised USP-797 guidelines: Jason Morrison CphT

Email of Designated Person(s): jmorrison@optiorx.com

Telephone of Designated Person(s): 614-847-6007

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)?

☐ Category 1 ■ Category 2 ■ Category 3

If you marked "**Category 3**", you must also complete **section 4**.

2. If compounding Category 2 products is the location performing sterility and endotoxin testing (if required) to obtain extended beyond-use dates? ■ Yes ☐ No

3. If compounding Category 2 products is the location performing aseptically processed CSPs or terminally sterilized CSPs? ■ Aseptic ☐ Terminal

4. Is the pharmacy following the new garbing requirements listed in the revised USP-797 guidelines? ■ Yes ☐ No

5. When was the most recent certification for the ISO classified areas? 8/21/2024 next scheduled for 02/12/2024

6. What is the frequency of the recertification for the ISO classified areas? Every 6 months

7. Were there any follow-up items required from the most recent certification report? ☐ Yes ■ No

8. If preparing Category 2 or Category 3 CSPs from non-sterile starting components are the pre-sterilization procedures such as weighing and mixing completed in an ISO Class 8 or better environment? ■ Yes ☐ No

9. If compounding Category 1 CSPs and Category 2 CSPs how often is surface sampling of all classified areas and pass-through chambers conducted? Weekly

10. Will you be performing sterile hazardous drug compounding? ■ Yes ☐ No

If you marked "**Yes**", you must also complete **section 3**.

11. List the sterile compounded products that you will be compounding for Nevada patients or consumers:

Please see included attachments of Cat 2 drugs prepared in the last year. We are also in the study phase for several Cat 3 drugs that will also be listed in the included attachment.

12. What laboratory performs your sterility or endotoxin testing?

Name: ARL Bio Pharma and (Eagle Analytical 11111 S. Wilcrest Dr, S1000 Houston TX 77099 800-745-8916)

Address: 840 Research Parkway Ste 546

City: Oklahoma City State: OK Zip: 73104

Telephone: 800-393-1595

13. What is your procedure for visual inspection of compounded sterile products?

Please see included SOP S-12.001.01 Sterile Visual Inspection of Ingredients and Compounded Sterile Preps.

14. How often do you perform glove fingertip and medial fill testing?

We perform these every 3 months on personnel compounding due to Cat 3 requirements. We perform them annually on pharmacists that oversee compounding process and are not directly involved in compounding.

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:

Please see included Policy P-2.001.01 Personnel Training and Evaluation. We also recently had our Sterile compounding staff complete an ACPE approved National Sterile training class (20 hour-RPH and 40 hour-Tech). Our plan is to have all employees complete this course as part of their training.

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

Please see included SOP S-7.001.01 Sterile Non HD cleaning and Disinfecting and S-800.005.01 Sterile HD Deactivating-Decontaminating-Cleaning-Disinfecting. We clean on a daily basis instead of weekly all items required under Cat 3. We also perform the monthly cleaning requirements as included in the SOP under the requirements of USP 797 and 800. We use Sterile Isopropyl 70% alcohol and Sterile RTU Peridox as our cleaning, disinfectant, sporicidal and decontamination agent.

17. Who performs the sterile compounding process at your facility?

The compounding is performed by our Certified Pharmacy Technicians.

18. Who is responsible and accountable for the sterile compounding process at your facility?

The supervising pharmacists are responsible and accountable for the process.

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

Please see included SOP S-19.001.01 Handling Storage Packaging Shipping and Transport for Compounded Preparation Delivery. We also ship cold chain products per policy P-19.003.01 Cold Chain Distribution. We have also included our package preparation procedure for packing our cooler totes.

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility? Class II BSC.		
2. Are you complying with all USP 800 guidelines?	■ Yes	No
3. Have your employees who compound with hazardous drugs signed an acknowledgement that they understand the risks associated with this process?	■ Yes	No
4. Is your BSC or CACI vented 100% to the outside?	■ Yes	No
5. Do you have a negative pressure buffer room at your facility?	■ Yes	No
6. Will you be compounding with antineoplastic HDs or HD API?	Yes	No
7. If yes, are the drugs stored in an externally ventilated, negative pressure room?	■ Yes	No
8. Will you be utilizing a closed system transfer device?	Yes	■ No
9. If yes, list the name of the device:		

10. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?

Medications found in table 1 are placed in yellow transport bags "Caution Chemotherapy Material". The bag contains the following statements: After Use, Dispose of in accordance with established procedures. Observe Safety precautions for handling and administration. We also place auxiliary labels on all prescription containers for table 1 and table 2 that read: Caution. Follow procedures for proper handling and disposal of hazardous drugs. Caution: Hazardous drug require thorough hand washing after handling.

11. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?

Please see included Policy P-2.001.01 Personnel Training and Evaluation. We also perform additional training with regards to SOP S-800.003.01 Gown, Garb, Hand Hygiene as related to Hazardous and also perform annual Respiratory fit tests per SOP S-800.004.01

Section 4: Sterile Category 3 Compounding Questions (Complete this section ONLY if you will be performing Category 3 Compounding.)

1. List the specific Category 3 sterile products that your facility compounds:

Please see attached reference.

2. What is the frequency for ongoing garbing, gloved fingertip and thumb sampling, and media fill testing for compounding personnel?

We complete these assessments every 3 months.

3. Is the pharmacy meeting all of the additional garbing requirements for compounding Category 3 CSPs as defined by the revised USP-797 guidelines? ■ Yes No

4. What is the frequency for completing volumetric active air sampling?

We complete this on a monthly basis.

5. What is the frequency for completing surface sampling?

We perform weekly surface samples of 30 sites within our 797, 800, and ante room. We also perform a surface sample in the PEC for any Cat 3 batches.

6. What is the frequency for using sporicidal agents?

We use these on a daily basis for cleaning and disinfecting.

For question 7 and 8 below, we use Cat 2 BUD dating from USP Table 13. In our Cat 3 medications we will conduct endotoxin and sterility testing and use BUD's supported by our stability indicating analytical study.

7. Is an endotoxin test performed for all products compounded from one or more nonsterile component? Yes ■ No

8. Is the BUD assigned supported by stability data obtained using a stability-indicating analytical method? Yes ■ No

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. Section Name: Release Inspections and Testing	SOP Name: Visual Inspection of Ingredients and Compounded Sterile Preparations
SOP: S-12.001.01	Last Revision/Review: 10/31/2024
Accreditation Standards: TCRX5-G, TCRX6-H, TCRX-L, DRX7-8J.01, DRX7-8L, DRX7-8M, DRX7-N	

Policy

All pre-release inspection checks are performed by an employee who has passed the Pre-Release Inspection – Compounded Sterile Preparations competency and as permitted by the state board of pharmacy laws and regulations.

Upon completion of a compounded sterile preparation (CSP), the CSP must be visually inspected to determine if the physical appearance of the CSP is what is expected before release and dispensing.

Pre-release visual inspections include the following checking activities:

- Compounding record (CR) matches the prescription/medication order.
- Label matches the prescription/medication order.
- CSP was compounded according to the CR (e.g., ingredients, strengths, quantities, equipment, etc.).
- Presence of particulates, precipitation, or other foreign matter.
- Presence of cloudiness or color change when compared to the expected color.
- Total volume of the CSP.
- Quantity of CSP(s) prepared.
- Container-closure integrity (e.g., checking for leakage, cracks in container, or improper seals).
- Beyond-use date (BUD).
- Storage requirements.
- Special handling and warning statements (e.g., hazardous).
- Additional statements required by laws and regulations (e.g., compounded preparation).

Finished CSPs dispensed the same day of preparation and finished CSPs stored internally and dispensed other than the day of preparation must be visually inspected immediately before being released or dispensed to ensure the CSP does not exhibit any defects, such as precipitation, cloudiness, or leakage, which could have developed during storage.

At the time of a visual inspection, if the CSP exhibits signs of a defect(s), the CSP must be immediately discarded or marked and segregated from acceptable CSPs to prevent it from being released or dispensed.

Defects must be investigated to determine the root cause, and a corrective action plan must be implemented. Defects are documented electronically or using the Adverse Event/Risk Event Report form and reviewed by the designated person(s).

Definitions

None.

Procedures

Visual Inspection for Particulates and Precipitation

- Hold the CSP container under a light source, preferably over a contrasting background.
- Invert and move the container slowly from one side of the contrasting background to the other.
- Observe for particulates, precipitation, and other unexpected matter.

Visual Inspection for Clarity or Color Change

- Compare the color and clarity to that described in the CR to determine if the CSP is consistent with the expected results.

Visual Inspection of the Label

- Check the CSP label against the prescription/medication order to ensure:
- Correct patient.
- Correct prescription number or other identification number.
- Correct active ingredients, strength/concentration, and dose.
- Correct route of administration.
- Correct total volume.
- Correct quantity of CSP(s) being dispensed.
- Correct BUD and storage instructions.
- Correct instructions for use.
- Legible printing.
- Special handling and warning statements, if applicable.
- Compounding statement as required by applicable laws and regulations.

Visual Inspection of Container-Closure Integrity

- Squeeze the container and inspect for leaks.
- Inspect seals and closure mechanisms to ensure they are intact.
- Ensure tubing clamps are completely closed, if applicable.

Any CSPs that fail any pre-release inspections are placed in the quarantine area and clearly marked indicating why.

Any CSPs that fail any pre-release inspection are documented electronically or using the Adverse Event/Risk Event Report form.

All pre-release checks are documented on the CR.

When the CSP release occurs at any time other than the day the CSP is prepared, a visual inspection must be conducted immediately before it is released or dispensed to ensure the CSP does not exhibit signs of a defect(s) such as:

- Precipitation, particulates, or other foreign matter.
- Changes in clarity or color.
- Loose container closures or container leakage.

At a minimum, the pre-release inspection, conducted after the CSP process is completed, will be documented on the CR, indicating the pharmacist that performed the check and the date/time checked.

Policy

The pharmacy will have an ongoing process to assess the knowledge and competence of personnel in job-related areas deemed important to the organization. These include skills and knowledge necessary to perform specific tasks such as preparing compounded preparations, oversight of compounding, and operating various types of equipment.

Definitions

Competency Assessment: The assessment of someone's capabilities against the requirements of their job. Competency can be determined through observation, demonstration, or testing (e.g., verbal, written).

Designated Person: One or more individuals assigned to be responsible and accountable for specific aspects of the performance and operation of the facility and personnel for the preparation of compounded preparations.

Observer: The person who assesses competency using a facility-approved competency assessment tool, based on adopted policies, SOPs, and industry-recognized best practices. The observer has been deemed competent by the designated person. In facilities that have only one compounder, the compounder must obtain and maintain training and demonstrated competency by a third party per this policy.

Procedures

USP <797> Related Requirements

Before beginning to prepare compounded sterile preparations (CSPs) independently, all compounding personnel involved in or having direct oversight of preparing and dispensing must complete training and be able to demonstrate knowledge of principles and proficiency of skills for performing sterile manipulations and achieving and maintaining appropriate environmental conditions.

Competency must be demonstrated every 12 months in at least the following:

- Hand hygiene.
- Garbing.
- Cleaning and disinfection.
- Calculations, measuring, and mixing.
- Aseptic technique.
- Achieving and/or maintaining sterility and apyrogenicity if compounding with non-sterile components.

- Use of equipment.
- Documentation of the compounding process (e.g., master formulation and compounding records).
- Principles of high-efficiency particulate air (HEPA)-filtered unidirectional airflow within the ISO Class 5 area.
- Proper use of primary engineering controls (PECs).
- Principles of movement of materials and personnel within the compounding area.

All compounding personnel involved in or having direct oversight of CSPs must complete written or electronic testing every 12 months in appropriate sterile compounding principles and practices.

Any other personnel handling CSPs and/or accessing the compounding area must complete training and demonstrate competency in maintaining the quality of the environment in which they are performing their assigned task.

The designated person(s) must oversee the training of personnel and ensure that any person who enters the sterile compounding area maintains the quality of the environment.

If the facility has only one person in the compounding operation, that person must document that they have obtained training and demonstrated competency, and they must comply with the other requirements of USP <797>.

All compounding personnel must be visually observed initially, every six months for Category 1 and Category 2 CSPs, and every three months for Category 3 CSPs while performing hand hygiene and garbing procedures. The visual audit must be documented, and the documentation is maintained to provide a record of personnel competency.

Initial gloved fingertip and thumb sampling evaluates a compounder's competency in correctly performing hand hygiene and garbing.

Before being allowed to independently compound, all compounders must successfully complete an initial competency evaluation, including visual observation and gloved fingertip and thumb sampling (GFT) on both hands, no fewer than three separate times. The three successful completions must be in succession. Failure of any of the three initial GFT samples requires repeat testing until personnel successfully complete three GFT samples in a row. Each fingertip and thumb evaluation must occur after performing a separate and complete hand hygiene and full garbing procedure.

Personnel who have direct oversight of compounding personnel, but do not compound, must complete a gown, garb, and hand hygiene competency evaluation every 12 months. The competency evaluation should correspond to the type of garbing activities of the personnel they oversee. Personnel who have direct oversight of compounding personnel must not compound until they have completed the compounding competencies (e.g., gowning, garbing, and hand hygiene; media-fill testing including post-GFT sampling; and surface sampling) at the same interval required for compounding personnel.

After the initial competency evaluation, compounding personnel must successfully complete GFT on both hands after completing the media-fill test at least every six months for Category 1 and Category 2 CSPs and at least every three months for Category 3 CSPs.

Initial GFT must be performed on donned sterile gloves in a classified area or segregated compounding area (SCA).

Subsequent GFT must be performed on donned sterile gloves inside of an ISO Class 5 PEC. If conducting GFT in a compounding aseptic isolator (CAI), compounding aseptic containment isolator

(CACI), or a pharmaceutical isolator, samples must be taken from sterile gloves placed over the gloves attached to the restricted-access barrier system (RABS) sleeves.

Successful completion of the initial GFT is defined as zero colony-forming units (CFU) on all samples.

Successful completion of the subsequent GFT after media-fill testing is defined as less than three CFUs (total from both hands).

Failure is indicated by observed, improper hand hygiene and garbing procedures and/or GFT results that exceed the action levels.

Results of the evaluation and corrective actions, in the event of failure, must be documented and the documentation maintained to provide a record and long-term assessment of personnel competency. Documentation must, at a minimum, include the name of the person evaluated; the evaluation date/time; media and components used, including manufacturer name, expiration date, and lot number; starting temperature for each interval of incubation; dates of incubation; the results; and identification of the observer and the person who reads and documents the results.

All compounding personnel must perform media-fill testing to assess their sterile technique and related practices initially, every six months for Category 1 and Category 2 CSPs, and every three months for Category 3 CSPs.

Personnel compounding Category 1, Category 2, and Category 3 CSPs must perform an aseptic manipulation competency evaluation that consists of media-fill testing, followed by GFT of both hands, and then surface sampling of the direct compounding area to assess aseptic technique and related practices.

When performing a media-fill test, simulate the most difficult and challenging compounding procedures and processing conditions encountered by the person replacing all the components used in the CSPs with soybean-casein digest media.

If using commercial sterile microbial growth media, a certificate of analysis (COA) must be obtained from the supplier stating that the lot of the growth media will support the growth of microorganisms.

Store microbial growth media in accordance with manufacturer instructions and initiate the media-fill test before the expiration date of the media.

If preparing sterile microbial growth media in-house for sterile-to-sterile media-fill testing, the growth promotion capability of the media must be demonstrated for each batch and documented as described in Sterility Tests ⟨71⟩, Culture Media, and Incubation Temperatures, Growth Promotion Test of Aerobes, Anaerobes, and Fungi.

Failure is indicated by visible turbidity or other visual manifestations of growth in the media in one or more container-closure unit(s) on or before the end of the incubation period.

Results of the evaluation and corrective actions, in the event of failure, must be documented and the documentation maintained to provide a record and long-term assessment of personnel competency. Documentation must, at a minimum, include the name of the person evaluated; the evaluation date/time; media and components used, including manufacturer name, expiration date, and lot number; starting temperature for each interval of incubation; dates of incubation; the results; and the identification of the observer and the person who reads and documents the results.

USP <795> Related Requirements

All personnel involved in or having direct oversight of the preparation and handling of compounded non-sterile preparations (CNSPs) must be initially trained, demonstrate competency, and undergo refresher training every 12 months.

Training and competency of personnel must be documented.

A designated person must oversee a training program that describes the required training, the frequency of training, and the process for evaluating the competency of personnel involved in non-sterile compounding and handling of CNSPs.

This program must equip personnel with the appropriate knowledge and training in the required skills necessary to perform their assigned tasks.

Before preparing CNSPs independently, all compounding personnel must complete training and be able to demonstrate proficiency in the principles and hands-on skills of non-sterile manipulations for the type of compounding they will be performing.

Proficiency must be demonstrated every 12 months in at least the following core competencies:

- Hand hygiene.
- Garbing.
- Cleaning and sanitizing.
- Handling and transporting components and CNSPs.
- Measuring and mixing.
- Proper use of equipment and devices selected to compound CNSPs.
- Documentation of the compounding process (e.g., master formulation records and compounding records).

Steps in the training procedure must include the following:

- Read and understand USP <795>, other applicable standards, and other relevant literature.
- Understand and interpret safety data sheets (SDSs) and, if applicable, COAs.
- Read and understand procedures related to their compounding duties.

Training and observation may be performed by the designated person(s) or an assigned trainer, but personnel must be observed and guided throughout the training process.

Personnel will then be expected to repeat the procedures independently but under the direct supervision of the designated person(s) and/or trainer.

Personnel will be permitted to perform the procedure without direct supervision only after independently demonstrating understanding and competency.

Upon completion of the training program, the designated person(s) and/or trainer must document that the person has been trained and successfully completed competency assessments.

In addition to the initial and annual competency training and evaluation described, a designated person should monitor and observe compounding activities and must take immediate corrective action if deficient practices are observed.

SOPs must describe procedures for monitoring and observing compounding activities and personnel.

If the facility has only one person in the compounding operation, that person must document that they have obtained training and demonstrated competency, and they must comply with the other requirements of this chapter.

General Requirements

Personnel who prepare compounded preparations do so only after successfully completing the required competencies.

Pharmacy personnel that do not prepare compounded preparations but have direct oversight of compounding are required to successfully complete the applicable trainings and assessments as outlined in USP <797>.

Performing a self-assessment alone is not an acceptable means of documenting competence.

Personnel competency assessment occurs via a trained and competent observer who has mastered the applicable competencies listed below.

Personnel that fail to demonstrate knowledge or competency assessments are immediately reinstructed and reevaluated by the observer.

To support a culture of continuous improvement, all personnel are expected to observe coworker behavior and offer insights in enhancing that behavior as appropriate.

All training and competency assessment documents are kept by the pharmacy per pharmacy records retention requirements.

The pharmacy provides a comprehensive orientation, training, and assessment program for each employee specific to their role.

The orientation and training program must include, but not be limited to:

- Completion of items required trainings and competencies as outlined by USP standards.
- Review and understand all pharmacy policies and SOPs.
- Review of operating principles of the pharmacy, equipment, and maintenance procedures.
- Understanding all pharmacy paper and electronic forms and documentation.
- Review of the pharmacy's Performance Improvement Program and any ongoing quality improvement projects.

Orientation and training consist of didactic training (written information, web-based information, and/or video training) in addition to hands-on practical training and mentorship by observers.

Personnel receive additional or new orientation and training when new processes are introduced that impact their job.

Personnel receive additional or new orientation and training when new equipment is introduced to the pharmacy.

Personnel are required to demonstrate knowledge and skill in selected tasks before they are allowed to independently perform those tasks in the course of their job.

If an employee fails an assessment, the observer, or designee, will retrain, reassess the employee, and document these activities.

Each pharmacy position is assessed initially and at a frequency as outlined in the USP Standards.

Section Name: Cleaning, Sanitizing, Disinfecting, and Applying Sporicidal Agents	SOP Name: Cleaning and Disinfecting – Sterile Non-Hazardous Compounding
SOP: S-7.001.01	Last Revision/Review: 10/31/2024
Accreditation Standards: TCRX 3-B, TCRX6-C, TCRX6-E, TCRX6-L, TCRX6-M, TCRX6-O, DRX4-7C, DRX4-14F, DRX7-8F, DRX7-8G, DRX7-8N, DRX7-8P, DRX7-9A	

Policy

Various cleaning and disinfecting activities and tasks are performed to maintain the sterile compounding area in compliance with USP <797> and other state and federal laws and regulations. These activities must be completed according to a specified schedule and process to minimize the chance of microbial contamination of compounded sterile preparations (CSPs).

Personnel who perform cleaning and disinfecting activities in the cleanroom suite must be trained and competent in appropriate procedures to protect the environment from microbial contamination.

Pharmacy personnel are responsible for completing these tasks and activities according to a specified schedule and process.

Personnel performing these activities must wear appropriate PPE (e.g., resistant to the cleaning agents used; eye, face, and respiratory protection as warranted by the activity being performed) in accordance with USP <797>.

The designated person and pharmacist-in-charge are responsible for supervising and guaranteeing these tasks and activities are completed properly.

Definitions

Cleaning: The process of removing substances (e.g., organic and inorganic material) from objects and surfaces, normally accomplished manually or mechanically using water with detergents or enzymatic agents.
Cleaning Agent: An agent, usually containing a surfactant, used for the removal of substances such as dirt, microbes, and chemicals from surfaces.
Disinfectant or Disinfecting Agent: A chemical or physical agent used on inanimate surfaces and objects to destroy fungi, viruses, and bacteria. Sporicidal disinfectants are considered a special class of disinfectants that are also effective against bacterial and fungal spores.
Disinfection: The process of inhibiting or destroying microorganisms on surfaces.
Dwell Time: The amount of time a sanitizer or disinfectant must be in a liquid state and in contact with an object or surface to achieve its reported degree of antimicrobial action. Also known as contact time.
Sporicidal Agent: A chemical or physical agent that destroys bacterial and fungal spores when used in sufficient concentration for a specified contact time. It is expected to kill all vegetative microorganisms.
Sterile isopropyl alcohol (sIPA): A powerful disinfectant that works by removing water from microbes, leading to cell wall disruption as it evaporates; sIPA is not sporicidal and has no detergent properties. It contains, by volume, 70% USP-grade isopropyl alcohol and 30% USP-purified water that comes in sterile wipes, trigger spray bottles, squeeze bottles, gallon sizes, etc.

Procedures

USP <797> describes three steps in the cleaning and disinfection of sterile compounding areas and their contents:

- Cleaning: The process of removing substances (e.g., organic and inorganic material) from objects and surfaces, normally accomplished manually or mechanically using a cleaning agent.
- Disinfecting: A chemical or physical agent used on inanimate surfaces and objects to destroy fungi, viruses, and bacteria.
- Sporicidal Treatment: The use of a disinfectant capable of destroying bacterial and fungal spores.

Cleaning and disinfecting activities occur in three contexts regarding the creation of CSPs:

- Treatment of drugs, supplies, and other items coming into the sterile compounding facility for the compounding of CSPs.
- Treatment of gloved hands, objects, and work surfaces within the PEC during sterile compounding.
- Treatment of the sterile compounding facilities, equipment, and furnishings within the sterile compounding area. This is the primary focus of this document.

Responsibilities

- The designated person and PIC are responsible for ensuring that:
    - All processes concerned with cleaning and disinfecting the classified areas comply with this SOP.
    - Routine daily, weekly (Category 3 only), and monthly cleaning/disinfecting processes actually achieve a dwell time appropriate for the agents used.
- Cleaning and disinfecting activities must only be performed by adequately trained personnel who have passed competency assessments and gowning, garbing, and hand hygiene per policy.
- All cleaning personnel (e.g., outside vendors, housekeeping/janitorial department) must adhere to all cleaning policies and procedures.
- Cleaning and disinfecting activities must be documented properly and promptly using the appropriate cleaning and maintenance logs or compliance software.
    - "N/A" should be used when, for instance, the compounding facility does not undergo the daily regimen or during weekends and holidays rather than leaving the entry blank.
    - These records must be reviewed at least monthly by the designated person for accuracy and completeness. This review must be documented.

Choice of Agents

- The pharmacy may choose from a wide variety of commercially available cleaning, disinfecting, and sporicidal agents or an EPA-registered, one-step disinfectant cleaner, taking into consideration compatibility, effectiveness, and the potential of leaving a residue.
- There are many commercially available EPA-registered, one-step products that not only clean, disinfect, and are sporicidal, but also combine one or more traits to be effective at decontamination:
    - Chlorine-containing agents (e.g., sodium hypochlorite).
    - Accelerated hydrogen peroxide products that include surfactants, wetting agents, and chelating agents.
- All peroxide-based agents and neutral or acidic chlorine agents may be used on stainless steel without the need for a follow-up rinsing step. If sodium hypochlorite is used on stainless steel, it must be neutralized with one-percent sodium thiosulfate or, preferably, followed with an agent to remove the sodium hypochlorite (e.g., isopropyl alcohol, water for irrigation, germicidal detergent) to prevent corrosion.
- Rotation of disinfectants is not required by USP <797>, not advised by USP <1072>, nor recommended by many microbiologists.
    - https://www.pharmaceuticalonline.com/doc/should-you-rotate-disinfectants-industry-experts-weigh-in-0001
    - If a pharmacy, nonetheless, elects to rotate disinfectants, it should select agents with differing mechanisms of action.
- While sIPA is a very useful disinfectant for treating items entering the sterile compounding facility or during sterile compounding, the following limitations apply:
    - sIPA is not sporicidal.
    - sIPA is not a good cleaning agent or solvent.
    - While dwell time is not as important for sIPA because of its mechanism of action of desiccating microbes, enough must be used to wet all treated surfaces.
    - sIPA must be allowed to air dry to be effective.
- USP <797> only requires the use of sterile IPA:
    - Within the PEC.

- On objects brought into the PEC.
- Sterile IPA, sporicidal disinfectant, or an EPA-registered disinfectant is used as a pre-treatment for items being brought into the sterile compounding facility.
- Non-sterile IPA may be used for general facility cleaning.
- Some cleaning/disinfecting agents leave residues. Although these residues might have antimicrobial activity themselves, their potential to become airborne particulates means that a pharmacy should either:
  - Use an agent leaving no or very little residue visible on windows or smooth surfaces.
  - Use a secondary agent (e.g., distilled water, sterile water for injection (SWI), sterile water for irrigation (SW Irrig), sIPA) as follows:
    - PEC interior: SWI, SW Irrig, sIPA.
    - SEC and other areas and objects: Distilled water, SWI, SW Irrig, sIPA, IPA.
- Although there is no accepted standard for what an acceptable degree of residue is, the following resource provides valuable information on this topic:
- https://www.cleanroomtechnology.com/news/article_page/Challenging_disinfectant_residue_as_per_GMP_Annex_1/160751.
- The beyond-use dates of cleaning and disinfecting agents, including the agents prepared by the pharmacy, must be documented on the container of the agent and be based either on manufacturer instructions or documented stability information. Once opened, sterile cleaning and disinfection supplies (e.g., containers of sterile wipes, bottles of 70% sIPA) may be used for the period specified by the manufacturer.
- If applicable, secondary containers such as spray or pour bottles must bear labels containing but not limited to:
  - Name.
  - Strength.
  - Lot number.
  - Transfer date.
  - Beyond-use date.
  - Manufacturer or source.
- A best-practice recommendation is to purchase ready-to-use products that are small enough to not require repackaging.
- Low-lint wipes and cleaning, disinfecting, and sporicidal agents must be sterile for use within the PEC and should be sterile in classified areas outside the PEC.

Means of Application

- Mops should consist of stainless steel or other impermeable substances such as plastic. Wooden handles, even if thoroughly painted, are not to be used.
- Mops and other tools used to clean the sterile compounding areas (e.g., PEC, SEC) must be dedicated for use in their respective areas, replaced should they become damaged, and removed only for disposal.
- Reusable cleaning tools, including mop handles/tools, must be cleaned and disinfected before and after each use.
- Mop heads must be non-shedding and should be disposable.
- A best-practice recommendation is to use a microfiber cleaning tool/system.
- Mops should be hung from the anteroom wall, if possible. Buckets, if used, should be hung and inverted to allow for drying.
- It is essentially impossible to apply enough of most agents to such surfaces as floors, walls, and ceilings using only a spray bottle. The act of pouring or squirting of agents on surface or mop head may be considered.
- Spray bottles may be practical and recommended to apply an agent to furnishings such as work surfaces, sinks, or equipment.
- Spray bottles should not be used to treat the interior of PECs because of the potential for wetting the HEPA filter; if used, it must be done with the utmost caution.
- All wipes used in the sterile compounding facility must be low-lint and *must* be sterile for use within the PEC, and *should* be sterile when used in the SEC.

- Dedicated scrub brushes should be used to clean objects and areas such as exposed sink plumbing, wheels, door hinges, and the junctions of floors, walls, and ceilings.
- Disposable cleaning supplies, when used, must be discarded after each cleaning activity.

Application Strategy

- If cleaning and disinfecting are performed as separate steps, cleaning must be performed first. Use of an EPA-registered, one-step disinfectant cleaner eliminates the need for two steps.
- Because a cleaning and disinfecting agent(s) can only work if present in a liquid state, the pharmacy must determine the dwell time of the agents it uses and ensure, through observation of cleaning and disinfecting activities, that a sheen from the agent is visible on surfaces and objects for the specified dwell time.
- The ability of an agent to dissolve residue is also dependent on being in a liquid state for enough time.
- Even slight degrees of texture on ceilings, walls, and floors will significantly increase the amount of cleaning/disinfecting agent needed.
- For daily floor cleaning and disinfecting, one mop head may be used to treat the anteroom and buffer room floor if the employee begins in the buffer room and works outward into the anteroom.
- For the monthly cleaning of ceilings and walls, one mop head may be used to clean first the ceiling and then the walls, with a different mop head used to clean the floors.
- Mop heads are replaced when visibly soiled, torn, damaged, or at the end of each day's cleaning activities.
- Manufacturer instructions should be consulted prior to the use of equipment/tools and agents to assess whether they are appropriate for various surfaces.
- When applying cleaning and disinfecting agents, use a slow, uniform motion and overlapping strokes that slightly overlap by at least 25 percent.
- Personnel performing cleaning must follow the same garbing and hand hygiene process as used before compounding.
- For the monthly cleaning of walls, ceilings, and surfaces under the hinged or removable work surface of the PEC, personnel should wear face and eye protection (e.g., face shield and goggles) to prevent any splashing onto the face or into the eyes. Such protection is required if called for in the product's safety data sheet.
- A best-practice recommendation is to place a dedicated, easy-to-clean metal or plastic step stool or ladder within the anteroom for use in reaching the ceiling, shelving, and the tops of the PECs.
- Steps for PEC cleaning, disinfecting, and applying sporicidal disinfectants:
    - Remove visible particles, debris, or residue with an appropriate solution (e.g., SWI or SW Irrig) using sterile, low-lint wipes.
    - Using sterile, low-lint wipes, apply a sterile cleaning agent followed by a sterile disinfecting agent, or apply an EPA-registered (or equivalent), one-step disinfectant cleaner to the equipment and all interior surfaces of the PEC. When applying a sporicidal agent is required, after cleaning and disinfecting, use sterile low-lint wipes to apply the sterile sporicidal disinfectant. **Note:** If the sporicidal disinfectant is an EPA-registered (or equivalent), one-step disinfectant sporicidal cleaner, separate cleaning and disinfecting steps are not required.
    - Ensure the contact time specified by the manufacturer is achieved.
    - Using sterile low-lint wipes, apply sterile 70% IPA to equipment and all interior surfaces in the PEC.
    - Allow the surface to dry completely before beginning compounding.

Direction of Application

- Cleaning must be performed working in the direction from the cleanest to the dirtiest areas.
- Ceilings start at the wall opposite the room entry door and end at the door.
- Floors should be mopped using slightly overlapping (by at least 25 percent) broad strokes whenever possible, moving from the least accessible and presumably "cleanest" area of the buffer room and working toward the entrance to the buffer room and then onto the anteroom. Repeat the process in the anteroom, moving toward and ending at the exit to the anteroom.
- For walls, including doors, windows, and door frames, start at the wall opposite the room-entry door. Mop top to bottom, ending at the door.

- For work surfaces, carts, and stools, start at the top and work downward.
- For PECs with horizontal airflow, cleaning and disinfecting proceeds in the following order:
    - Interior ceiling: moving left to right, back to front.
    - HEPA grill: moving left to right, top to bottom.
    - Bar and individual hooks, if applicable.
    - Interior sides of the PEC: moving top to bottom, back to front.
    - Work surface: moving left to right, back to front.
- For PECs with vertical airflow, cleaning and disinfecting proceeds in the following order:
    - Interior ceiling: moving left to right, back to front.
    - Bar and individual hooks, if applicable.
    - Back wall: moving left to right, top to bottom.
    - Interior sides of the PEC: moving top to bottom, back to front.
    - Work surface: moving left to right, back to front.
    - Interior sash/visor: moving left to right, top to bottom.

Treatment Frequency and Locations

- Cleaning and disinfection of the buffer room, work surfaces, or equipment outside of the PEC must not occur at the same time as compounding activities. The interiors of PECs not involved in compounding may be cleaned and disinfected at any time.
- If compounding is not performed daily, cleaning and disinfecting must be completed before initiating compounding.
- Cleaning and disinfecting of the PEC must occur:
    - At the beginning of every shift.
    - Before each batch.
    - Approximately every 30 minutes, unless the compounding process takes longer than 30 minutes, in which case the compounding must not be disrupted. The work surface of the PEC must be cleaned and disinfected immediately after the compounding process is completed.
    - After spills.
- If a PEC is not running, its interior surfaces must be cleaned and disinfected before use. This should be done only after an acceptable "purge time," as defined by the manufacturer, that allows all air to be replaced with ISO Class 5 air.
- It is preferable to perform daily, weekly, and monthly cleaning and disinfection at the end of the workday to encourage the use of enough agent(s) to reach an adequate dwell time on surfaces.
- The interior of the PEC to be used and equipment inside of the PEC must be cleaned and disinfected daily, preferably in the morning or immediately prior to compounding, and when surface contamination is known or suspected. The PEC must also be cleaned and disinfected anytime a spill occurs, before and after certification, and any time voluntary interruptions occur.
- Care must be taken to clean and disinfect all exterior surfaces of PECs, stools, carts, and other equipment within sterile compounding areas.
- The table below summarizes what surfaces and objects must be treated and how often they are treated with cleaning, disinfecting, and sporicidal agents. Tasks are performed in the order shown.

		Cleaning and Disinfecting			Applying Sporicidal Disinfectant	
Order	Sterile Non-Hazardous	Every Compounding Day/Shift	Between Batches or Every 30 mins[1]	Monthly	Weekly	Monthly
1	PEC interior	x	x		Category 3	Category 1 and/or 2
2	Equipment inside of PEC	x	x		Category 3	Category 1 and/or 2
3	PEC work tray/surface	x	x			All categories
4	PEC underneath work tray/surface			x		All categories
5	Work surfaces outside of PEC	x			Category 3	Category 1 and/or 2
6	Ceiling			x		All categories
7	Walls			x		All categories
8	PEC exterior			x	Category 3	Category 1 and/or 2
9	Equipment outside of PEC			x		All categories
10	Pass-through	x			Category 3	Category 1 and/or 2
11	Storage shelving and bins/totes			x		All categories
12	Sink	x				All categories
13	Floor	x			Category 3	Category 1 and/or 2
14	Refrigerator/freezer			x		All categories

[1] At least every 30 minutes if the compounding process takes 30 minutes or less. If the compounding process takes more than 30 minutes, compounding must not be disrupted, and the work surface of the PEC must be disinfected immediately after compounding.

- As described above, the use of an EPA-registered, one-step disinfecting/cleaning agent with sporicidal activity allows the pharmacy to use only one agent for all tasks.
- If tacky mats are used outside of the entrance to the anteroom, they should be changed any day compounding occurs or the anteroom has been entered. The used layer should be carefully folded up from the edges and disposed of. Permanent tacky mats should be treated as per the manufacturer's instructions any day compounding occurs or the anteroom has been entered.
    - A best-practice recommendation is for the tacky mat to be placed vertically with the door so as to increase the number of steps taken to cross it (it should not look like a welcome mat).
- The liners of garbage containers in any classified area should be sealed before removal and promptly disposed of.
- "Daily" cleaning is not required if no compounding or other activity takes place that day, unless required by state law.
    - However, a best-practice recommendation is that the "daily" regimen should be performed no less often than weekly.
- If the air supply to the SEC is interrupted for more than 12 hours for any reason, a complete monthly cleaning cycle must be performed prior to reuse. If interrupted for more than 24 hours, a "triple clean" must be performed.

Triple Cleaning

- Triple cleaning is a process used when:
  - Classified areas have been exposed to significant amounts of unclassified air (e.g., during the removal or addition of PECs to the area, the repair of ceiling tiles or equipment, etc.).
  - SEC airflow has been interrupted for a significant period of time.
  - Viable air and surface sampling results exceed alert levels or show an unfavorable trend.
- Triple cleaning is essentially a repetition of routine monthly cleaning performed three times in immediate succession. Special care is taken to use generous amounts of cleaning/disinfecting agents and pay special attention to hard-to-reach areas such as wheels, crevices, and the junctions of floors, walls, and ceilings.
- If viable air or surface sampling has identified specific microbes, ensure that selected disinfectants are effective against them.
- Each treatment should be allowed to dry before the application of the next agent.

Objects Entering the SEC

- All items crossing into the clean side of the anteroom, entering a classified air area via pass-through, or brought into the SCA must be wiped with a low-lint wipe heavily saturated with one of the following agents by gloved personnel:
  - Sporicidal agent: Of sufficient quantity to reach all surfaces and remain in a liquid state for the agent's dwell time.
  - EPA-registered disinfectant: Of sufficient quantity to reach all surfaces and remain in a liquid state for the agent's dwell time.
  - sIPA: Of sufficient quantity to reach all surfaces and is allowed to fully dry.
  - Alternatively, these agents may be thoroughly sprayed onto objects to ensure coverage of all surfaces and then wiped off with a low-lint wipe after the agent's dwell time has passed or, in the case of sIPA, is allowed to air dry.
    The wiping procedure should not compromise the packaging integrity or render the product label unreadable.
- Cardboard of any kind should not enter the sterile compounding facility, if possible; corrugated or unsealed cardboard must never enter a classified area.
- Any objects brought into the sterile compounding facility by non-employees (e.g., equipment and carts used by certification technicians) must be subjected to the same cleaning and disinfecting regimen as anything used in compounding or cleaning/disinfecting activities.
- The diagram above summarizes for the SEC what surfaces and objects must be treated and how often they are to be treated with cleaning, disinfecting, and sporicidal agents. Tasks are performed in the order shown.

Objects Entering the PEC

- All items brought into a PEC must be thoroughly wiped with a sIPA-saturated, low-lint wipe just prior to their introduction into a PEC. The wiping procedure must not render the product label unreadable.
- The sIPA on these items must be allowed to dry prior to use.
- Sterile items enclosed in sealed packaging or containers may be removed as they are introduced into a PEC without further treatment.
- The diagram above summarizes for a PEC what surfaces and objects must be treated and how often they are to be treated with cleaning, disinfecting, and sporicidal agents. Tasks are performed in the order shown.

Major Change Summary

Date	Revision Number	Reason for Change	Section(s) Affected	Approver(s)
02/20/2024	S-7.001.01	New format and ref to new USP Standards effective 11/1/2023	N/A	Kelly Klotz
10/31/2024	S-7.001.01	Annual review.	N/A	Mike Blaine

Section Name: Cleaning, Sanitizing, Disinfecting, and Applying Sporicidal Agents	SOP Name: Deactivating, Decontaminating, Cleaning, and Disinfecting – Sterile Hazardous Compounding
SOP: S-800.005.01	Last Revision/Review: 10/31/2024
Accreditation Standards: TCRX 3-B, TCRX3-E, TCRX6-C, TCRX6-E, TCRX6-L, TCRX6-M, TCRX6-N, TCRX6-O, DRX4-7C, DRX4-14F, DRX7-8F, DRX7-8G, DRX7-8N, DRX7-8O, DRX7-8O.01, DRX7-8P, DRX7-9A	

Policy

Deactivating, decontaminating, cleaning, and disinfecting activities and tasks must be performed to maintain the hazardous sterile compounding area in compliance with USP <797>, USP <800>, and other state and federal laws and regulations. These activities must be completed according to a specified schedule and process to minimize the chance of microbial contamination of compounded sterile preparations (CSPs) and exposure of personnel and the environment to hazardous drugs (HDs).

Personnel who perform deactivating, decontaminating, cleaning, and disinfecting activities in HD handling areas must be trained and competent in appropriate procedures to protect themselves and the environment from HD and microbial contamination.

Personnel performing these activities must wear appropriate PPE (e.g., resistant and impermeable to the cleaning agents used; eye, face, and respiratory protection as warranted by the activity being performed) in accordance with USP <797> and USP <800>.

Pharmacy personnel are responsible for completing these tasks and activities according to a specified schedule and process.

The designated person and Pharmacist in Charge are responsible for supervising and guaranteeing these tasks and activities are completed properly.

Definitions

Cleaning: The process of removing substances (e.g., organic and inorganic material) from objects and surfaces, normally accomplished manually or mechanically using water with detergents or enzymatic agents.
Cleaning Agent: An agent, usually containing a surfactant, used for the removal of substances such as dirt, microbes, and chemicals from surfaces.
Deactivating Agent: An agent that transforms a HD into a less-hazardous substance.
Deactivation: Treatment of a HD contaminant on surfaces with a chemical, heat, ultraviolet light, or another agent to transform the HD into a less-hazardous agent, rendering it chemically inert.
Decontaminating Agent: A substance that inactivates, neutralizes, or removes HD contaminants on surfaces, usually by chemical means.
Decontamination: The inactivation, neutralization, or removal of HD contamination on surfaces, usually by chemical means.
Disinfectant or Disinfecting Agent: A chemical or physical agent used on inanimate surfaces and objects to destroy fungi, viruses, and bacteria. Sporicidal disinfectants are considered a special class of disinfectants that also are effective against bacterial and fungal spores.
Disinfection: The process of inhibiting or destroying microorganisms on surfaces.
Dwell Time: The amount of time a sanitizer or disinfectant must be in a liquid state and in contact with an object or surface to achieve its reported degree of antimicrobial action. Also known as contact time.
Sporicidal Agent: A chemical or physical agent that destroys bacterial and fungal spores when used in sufficient concentration for a specified contact time. It is expected to kill all vegetative microorganisms.
Sterile isopropyl alcohol (sIPA): A powerful disinfectant that works by removing water from microbes, leading to cell wall disruption as it evaporates; sIPA is not sporicidal and has no detergent properties. It contains, by volume, 70% USP-grade isopropyl alcohol and 30% USP-purified water that comes in sterile wipes, trigger spray bottles, squeeze bottles, gallon sizes, etc.

Procedures

USP <797> describes three steps in the cleaning and disinfection of sterile compounding areas and their contents:

- Cleaning: The process of removing substances (e.g., organic and inorganic material) from objects and surfaces, normally accomplished manually or mechanically using a cleaning agent.
- Disinfecting: A chemical or physical agent used on inanimate surfaces and objects to destroy fungi, viruses, and bacteria.
- Sporicidal Treatment: The use of disinfectant capable of destroying bacterial and fungal spores.

USP <800> discusses cleaning and disinfection but also introduces two new and somewhat overlapping terms:

- Deactivation: Treatment of a HD contaminant on surfaces with a chemical, heat, ultraviolet light, or another agent to transform the HD into a less-hazardous agent, rendering it chemically inert.
- Decontamination: The inactivation, neutralization, or removal of HD contamination on surfaces, usually by chemical means.

Deactivating, decontaminating, cleaning, and disinfecting activities occur in four contexts regarding the compounding and handling of HD-CSPs.

- Treatment of drugs, supplies, and other items coming into the sterile compounding facility for the compounding of HD-CSPs.
- Treatment of gloved hands, objects, and work surfaces within the C-PEC during HD sterile compounding.
- Treatment of the sterile compounding facilities, equipment, and furnishings within the HD sterile compounding area. This is the primary focus of this document.
- Decontamination of objects and surfaces containing HD residue. This is another major focus of this document.

Responsibilities

- The designated person and PIC are responsible for ensuring that:
    - All processes concerned with deactivating, decontaminating, cleaning, and disinfecting the classified areas comply with this SOP.
    - Routine daily, weekly (Category 3 only), and monthly deactivating, decontaminating, cleaning, and disinfecting processes actually achieve a dwell time appropriate for the agents used.
- Deactivating, decontaminating, cleaning, and disinfecting activities must only be performed by adequately trained personnel who have passed a competency assessments for PEC and SEC DDCD procedures and gowning, garbing, and hand hygiene per policy.
- All cleaning personnel (e.g., outside vendors, housekeeping/janitorial department) must adhere to all cleaning policies and procedures.
- Deactivating, decontaminating, cleaning, and disinfecting activities must be documented properly and promptly by using the appropriate cleaning and maintenance logs or compliance software.
    - "N/A" should be used when, for instance, the compounding facility does not undergo the daily regimen or during weekends and holidays, rather than leaving the entry blank.
    - These records must be reviewed at least monthly by the designated person for accuracy and completeness. This review must be documented.

Choice of Agents

- The pharmacy may choose from a wide variety of commercially available deactivating, decontaminating, cleaning, disinfecting, and sporicidal agents, or an EPA-registered, one-step disinfectant cleaner, taking into consideration the appropriateness for the type of HD contaminants, compatibility, effectiveness, and the potential of leaving a residue.
- Although a "universal decontaminating agent" does not exist, two types of products have the ability to deactivate many chemical substances, including HDs:
    - Oxidizing agents.
    - Agents with high or low pH values (pH <3 or >12).

- Although the deactivation of HDs is an appealing goal, the act of physical cleaning and decontaminating should be the primary means of protecting against HD contamination.
- There are many commercially available EPA-registered, one-step agents that not only clean, disinfect, and are sporicidal, but also combine one or more traits to be effective at decontamination:
    - Chlorine-containing products (e.g., sodium hypochlorite).
    - Accelerated hydrogen peroxide products that include surfactants, wetting agents, and chelating agents.
- Detailed information on this topic may be found at: https://ordspub.epa.gov/ords/pesticides/f?p=PPLS:1
- All peroxide-based agents and neutral or acidic chlorine agents may be used on stainless steel without the need for a follow-up rinsing step. If sodium hypochlorite is used on stainless steel, it must be neutralized with one-percent sodium thiosulfate or, preferably, followed with an agent to remove the sodium hypochlorite (e.g., isopropyl alcohol, water for irrigation, germicidal detergent) to prevent corrosion.
- The pharmacy should consult pharmaceutical literature to determine what type of decontaminating agent is most effective against the HDs handled by the pharmacy.
- Rotation of disinfectants is not required by USP <797>, not advised by USP <1072>, nor recommended by many microbiologists.
    - https://www.pharmaceuticalonline.com/doc/should-you-rotate-disinfectants-industry-experts-weigh-in-0001
    - If a pharmacy, nonetheless, elects to rotate disinfectants, it should select agents with differing mechanisms of action.
- While sIPA is a very useful disinfectant for treating items entering the sterile compounding facility or during sterile compounding, the following limitations apply:
    - sIPA is not sporicidal.
    - sIPA is not a good cleaning agent or solvent.
    - sIPA is not an effective deactivator of HDs.
    - While dwell time is not as important for sIPA because of its mechanism of action of desiccating microbes, enough must be used to actually wet all treated surfaces.
    - sIPA must be allowed to fully air dry to be effective.
- USP <797> only requires the use of sterile IPA:
    - Within the C-PEC.
    - On objects brought into the C-PEC.
- Sterile IPA, sporicidal disinfectant, or an EPA-registered disinfectant is used as a pre-treatment for items being brought into the sterile compounding facility.
- Non-sterile IPA may be used for general facility cleaning.
- Some cleaning/disinfecting agents leave residues. Although these residues might have antimicrobial activity themselves, their potential to become airborne particulates means that a pharmacy should either:
    - Use an agent leaving no or very little residue as visible on windows or smooth surfaces.
    - Use a secondary agent (e.g., distilled water, sterile water for injection (SWI), sterile water for irrigation (SW Irrig), sIPA) as follows:
        - C-PEC interior: SWI, SW Irrig, sIPA.
          C-SEC and other areas and objects: Distilled water, SWI, SW Irrig, sIPA, IPA.
- Although there is no accepted standard for what an acceptable degree of residue is, the following resource provides valuable information on this topic: https://www.cleanroomtechnology.com/news/article_page/Challenging_disinfectant_residue_as_per_GMP_Annex_1/160751
- The beyond-use dates of deactivating, decontaminating, cleaning, and disinfecting agents, including the agents prepared by the pharmacy, must be documented on the container of the agent and be based either on manufacturer instructions or documented stability information. Once opened, sterile cleaning and disinfection supplies (e.g., containers of sterile wipes, bottles of 70% sIPA) may be used for the period specified by the manufacturer.
- If applicable, secondary containers such as spray or pour bottles must bear labels containing but not limited to:
    - Name.
    - Strength.

    - Lot number.
    - Transfer date.
    - Beyond-use date.
    - Manufacturer or source.
- A best-practice recommendation is to purchase ready-to-use products that are small enough to not require repackaging.
- Low-lint wipes and deactivating, decontaminating, cleaning, disinfecting, and sporicidal agents must be sterile for use within the C-PEC and should be sterile in classified areas outside the C-PEC.

Means of Application

- Mops should consist of stainless steel or other impermeable substances such as plastic. Wooden handles, even if thoroughly painted, are not to be used.
- Mops and other tools used to clean the sterile hazardous compounding areas (e.g., C-PEC, C-SEC) should be dedicated for use in their respective areas, replaced should they become damaged, and removed only for disposal. The mop handle/tool must be cleaned and disinfected prior to being used in the C-PEC.
- Reusable cleaning tools, including mop handles/tools, must be deactivated, decontaminated, cleaned, and disinfected before and after each use.
- Mop heads must be non-shedding and should be disposable.
- A best-practice recommendation is to use a microfiber cleaning tool/system.
- Mops should be hung from the C-SEC wall, if possible. Buckets, if used, should be hung and inverted to allow for drying.
- It is essentially impossible to apply enough of most agents to such surfaces as floors, ceilings, and walls using only a spray bottle. The act of pouring or squirting of agents on surface or mop head may be considered.
- Spray bottles may be practical and recommended to apply an agent to furnishings such as sinks or equipment.
- Spray bottles should not be used to treat the interior of C-PECs because of the potential for wetting the HEPA filter and generating airborne HD particles.
- Additionally, spray bottles should not be used to apply liquids to flat surfaces such as work surfaces, floors, walls, or HD-receiving or storage areas because of their potential to aerosolize particulates.
- All wipes used in the sterile compounding facility must be low-lint and *must* be sterile for use within the C-PEC and *should* be sterile when used in the C-SEC.
- Used wipes are disposed of as trace or bulk hazardous waste depending on the degree of HD contamination.
- Dedicated scrub brushes should be used to clean objects and areas such as exposed sink plumbing, wheels, door hinges, and the junctions of floors, walls, and ceilings.
- Disposable cleaning supplies, when used, must be discarded after each cleaning activity in accordance with EPA regulations as trace or bulk hazardous waste depending on the level of contamination.

Application Strategy

- If cleaning and disinfecting are performed as separate steps, cleaning must be performed first. The use of an EPA-registered, one-step disinfectant cleaner eliminates the need for two steps.
- Because a decontaminating, cleaning, and disinfecting agent(s) can only work if present in a liquid state, the pharmacy must determine the dwell time of the agents it uses and ensure, through observation of decontaminating, cleaning, and disinfecting activities, that a sheen from the agent is visible on surfaces and objects for the specified dwell time.
- The designated person is responsible for ensuring that routine daily, weekly (Category 3 only), and monthly deactivating, decontaminating, cleaning, and disinfecting processes actually achieve a dwell time appropriate for the agents used.
- The ability of an agent to dissolve residue is also dependent on the agent being in a liquid state for enough time.
- The dwell time required for a decontaminating agent to deactivate HD residues is seldom known, or would require extensive and expensive chemical testing. This time must furthermore be assumed to vary

for different HDs, if effective at all. A reasonable best-practice recommendation is to assume that the deactivation dwell time is equal to its microbial dwell time.

- Even slight degrees of texture on ceilings, walls, and floors will significantly increase the amount of deactivating, decontaminating, cleaning, and disinfecting agent needed.
- For daily floor cleaning and disinfecting, a separate mop head must be used to treat the anteroom and C-SEC floors.
- For the monthly cleaning of ceilings and walls, one mop head may be used to clean first the ceiling and then the walls. However, a new mop head is required for each room.
- Mop heads are replaced when visibly soiled, torn, damaged, or at the end of each cleaning activity. They are disposed of as trace hazardous waste unless known to be significantly contaminated, in which case they are disposed of as bulk hazardous waste.
- Manufacturer instructions should be consulted prior to the use of equipment/tools and agents to assess whether they are appropriate for various surfaces.
- When applying deactivating, decontaminating, cleaning, and disinfecting agents, use a slow, uniform motion and overlapping strokes that slightly overlap by at least 25 percent.
- Personnel performing cleaning must follow the same garbing and hand hygiene process as used before compounding.
- For the monthly cleaning of walls, ceilings, and surfaces under the hinged or removable work surface of the C-PEC, personnel should wear face and eye protection (e.g., face shield and goggles) to prevent any splashing onto the face or into the eyes. Such protection is required if called for in the product's safety data sheet.
- Respirators or powered air-purifying respirators may be used for additional protection at the pharmacy's discretion.
- A best-practice recommendation is to place a dedicated, easy-to-clean metal or plastic step stool or ladder within the anteroom for use in reaching ceilings, shelving, and the tops of the C-PECs.
- Steps for C-PEC deactivating, decontaminating, cleaning, disinfecting, and applying sporicidal disinfectants:
    - Remove visible particles, debris, or residue with an appropriate solution (e.g., SWI or SW Irrig) using sterile, low-lint wipes.
    - Using sterile, low-lint wipes, apply a sterile deactivating/decontaminating agent, followed by a cleaning agent and then a sterile disinfecting agent, or apply an EPA-registered (or equivalent), one-step decontaminating disinfectant cleaner to equipment and all interior surfaces of the C-PEC. When applying a sporicidal agent is required, use sterile, low-lint wipes to apply the sterile sporicidal disinfectant after decontaminating, cleaning, and disinfecting. **Note:** If the sporicidal disinfectant is an EPA-registered (or equivalent), one-step decontaminating disinfectant sporicidal cleaner, separate decontaminating, cleaning, and disinfecting steps are not required.
    - Ensure the contact time specified by the manufacturer is achieved.
    - Using sterile, low-lint wipes, apply sterile 70% IPA to equipment and all interior surfaces in the C-PEC.
    - Allow the surface to dry completely before beginning compounding.

Direction of Application

- Deactivating, decontaminating, cleaning, and disinfecting must be performed working in the direction from the cleanest to the dirtiest areas.
- Ceilings start at the wall opposite the room-entry door and end at the door.
- Floors should be mopped using slightly overlapping (by at least 25 percent), broad strokes whenever possible, moving from the least accessible and therefore presumably "cleanest" area of the buffer room and working toward the entrance to the buffer room and then onto the anteroom. Repeat the process in the anteroom, using a new mop head, moving toward and ending at the main entrance to the anteroom.
- For walls, including doors, windows, and door frames, start at the wall opposite the room-entry door. Mop top to bottom, ending at the door.
- For work surfaces, carts, and stools, start at the top and work downward.
- For C-PECs with vertical airflow, deactivating, decontaminating, cleaning, and disinfecting proceeds in the following order:
    - Interior ceiling: moving left to right, back to front.

- Bar and individual hooks, if applicable.
- Back wall: moving left to right, top to bottom.
- Interior sides of the PEC: moving top to bottom, back to front.
- Work surface: moving left to right, back to front.
  Interior sash/visor: moving left to right, top to bottom.

Treatment Frequency and Locations

- Deactivating, decontaminating, cleaning, and disinfection of the buffer room, work surfaces, or equipment outside of the C-PEC must not occur at the same time as compounding activities. The interiors of C-PECs not involved in compounding may be deactivated, decontaminated, cleaned, and disinfected at any time.
- If compounding is not performed daily, deactivating, decontaminating, cleaning, and disinfecting must be completed before initiating compounding.
- Cleaning and disinfecting of the C-PEC must occur:
  - At the beginning of every shift.
  - Before each batch.
  - Every 30 minutes, unless the compounding process takes longer than 30 minutes, in which case the compounding must not be disrupted. The work surface of the PEC must be cleaned and disinfected immediately after the compounding process is completed.
  - After spills.
- If a C-PEC is not running for any reason, its interior surfaces must be deactivated, decontaminated, cleaned, and disinfected prior to use. This should be done only after an acceptable "purge time," as defined by the manufacturer, that allows all air to be replaced with ISO Class 5 air.
- It is preferable to perform daily, weekly, and monthly deactivating, decontaminating, cleaning, and disinfection at the end of the workday to encourage the use of enough agent(s) to reach an adequate dwell time on surfaces.
- The interior of the C-PEC to be used and equipment inside of the C-PEC must be deactivated, decontaminated, cleaned, and disinfected daily, preferably in the morning or immediately prior to compounding, and when surface contamination is known or suspected. The C-PEC must also be deactivated, decontaminated, cleaned, and disinfected anytime a spill occurs, before and after certification, any time voluntary interruptions occur, and if the ventilation tool is moved.
- Care must be taken to deactivate, decontaminate, clean, and disinfect all exterior surfaces of C-PECs, stools, carts, and other equipment within the sterile hazardous compounding areas.
- The table below summarizes what surfaces and objects must be treated, and how often they are treated with deactivating, decontaminating, cleaning, disinfecting, and sporicidal agents. Tasks are performed in the order shown.

		Deactivating, Decontaminating, Cleaning, and Disinfecting			Applying Sporicidal Disinfectant	
Order	Sterile Hazardous	Every Compounding Day/Shift	Between Batches or Every 30 mins[1]	Monthly	Weekly	Monthly
1	C-PEC interior	x	x		Category 3	Category 1 and/or 2
2	Equipment inside of C-PEC	x	x		Category 3	Category 1 and/or 2
3	C-PEC work tray/surface	x	x			All categories
4	C-PEC underneath work tray/surface			x		All categories
5	Work surfaces outside of C-PEC	x			Category 3	Category 1 and/or 2
6	Ceiling			x		All categories
7	Walls			x		All categories
8	C-PEC exterior			x	Category 3	Category 1 and/or 2
9	Equipment outside of C-PEC			x		All categories
10	Pass-through	x			Category 3	Category 1 and/or 2
11	Storage shelving and bins/totes			x		All categories
12	Sink	x				All categories
13	Floor	x			Category 3	Category 1 and/or 2
14	Refrigerator/freezer			x		All categories

[1] At least every 30 minutes if the compounding process takes 30 minutes or less. If the compounding process takes more than 30 minutes, compounding must not be disrupted, and the work surface of the C-PEC must be disinfected immediately after compounding.

- As described above, the use of an EPA-registered, one-step deactivating, decontaminating, cleaning, and disinfecting agent with sporicidal activity allows the pharmacy to use only one agent for all tasks.
- If a refrigerator must be placed in the C-SEC for HD storage, it should receive very thorough treatment at least monthly, including the cleaning and disinfecting of coils and the motor, if present and visible. Briefly unplug the refrigerator during treatment to avoid potential electrical shock.
- If tacky mats are used outside of the entrance to the anteroom, they should be changed any day compounding occurs or the anteroom has been entered. The used layer should be carefully folded up from the edges and disposed of. Permanent tacky mats should be treated as per the manufacturer's instructions any day compounding occurs or the anteroom has been entered.
    - A best-practice recommendation is for the tacky mat to be placed vertically with the door so as to increase the number of steps taken to cross it (it should not look like a welcome mat).
- The liners of garbage containers in any classified area should be sealed before removal and promptly disposed of. New liners should be placed in the garbage container slowly without whipping the liner about in the air.
- "Daily" cleaning is not required if no compounding or other activity is to take place that day, unless required by state law.

- However, a best-practice recommendation is that the "daily" regimen should be performed no less often than weekly.
- If the air supply to the C-SEC is interrupted for more than 12 hours for any reason, a complete monthly cleaning cycle must be performed prior to reuse. If interrupted for more than 24 hours minutes, a "triple clean" must be performed.
- If, however, a significant amount of unclassified air has entered the C-SEC during even a short interruption of airflow, a complete monthly cleaning cycle should be performed.

Triple Cleaning

- Triple cleaning is a process used when:
  - Classified areas have been exposed to significant amounts of unclassified air (e.g., during the removal or addition of C-PECs to the area, the repair of ceiling tiles, ungarbed persons, etc.).
  - C-SEC airflow has been interrupted for a significant period of time.
    Viable air and surface sampling results exceed alert levels or show an unfavorable trend.
- Triple cleaning is essentially a repetition of routine monthly cleaning performed three times in immediate succession. Special care is taken to use generous amounts of cleaning/disinfecting agents and pay special attention to hard-to-reach areas such as wheels, crevices, and the junctions of floors, walls, and ceilings.
- If viable air or surface sampling has identified specific microbes, ensure that selected disinfectants are effective against them.
- Each treatment should be allowed to dry before the application of the next agent.

Objects Entering the C-SEC

- All items crossing into the clean side of the anteroom, entering a classified air area via pass-through, or brought into the C-SCA must be wiped with a low-lint wipe heavily saturated with one of the following agents by gloved personnel:
  - Sporicidal agent: Of sufficient quantity to reach all surfaces and remain in a liquid state for the agent's dwell time.
  - EPA-registered disinfectant: Of sufficient quantity to reach all surfaces and remain in a liquid state for the agent's dwell time.
  - sIPA: Of sufficient quantity to reach all surfaces and is allowed to fully dry.
  - Alternatively, these agents may be thoroughly sprayed onto objects to ensure coverage of all surfaces and wiped off with a low-lint wipe after the agent's dwell time has passed, or in the case of sIPA, is allowed to air dry.
    The wiping procedure should not compromise the packaging integrity or render the product label unreadable.
- Cardboard of any kind should not enter the sterile compounding facility if possible; corrugated or unsealed cardboard must never enter a classified area.
- Any objects brought into the sterile hazardous compounding facility by non-employees (e.g., equipment and carts used by certification technicians) must be subjected to the same cleaning and disinfecting regimen as anything used in compounding or cleaning/disinfecting activities.
- The table above summarizes for the C-SEC what surfaces and objects must be treated and how often they are to be treated with deactivating, decontaminating, cleaning, disinfecting, and sporicidal agents. Tasks are performed in the order shown.

Objects Entering the C-PEC

- All items brought into a C-PEC must be thoroughly wiped with a sIPA-saturated, low-lint wipe just prior to their introduction into a C-PEC. The wiping procedure must not render the product label unreadable.
- The sIPA on these items must be allowed to dry prior to use.
- Sterile items enclosed in sealed packaging or containers may be removed as they are introduced into a C-PEC without further treatment.
- The table above summarizes for a C-PEC what surfaces and objects must be treated and how often they are to be treated with deactivating, decontaminating, cleaning, disinfecting, and sporicidal agents. Tasks are performed in the order shown.

Objects Leaving the C-PEC

- Finished hazardous CSPs must be wiped just prior to removing them from the C-PEC with a wipe saturated with a decontaminating/cleaning agent to remove any hazardous residue.
- The decontaminating/cleaning agent should not be sprayed on the CSPs to avoid aerosolizing any HD residue.

Objects Leaving the C-SEC

- Any objects brought into the sterile hazardous compounding area by non-employees (e.g., equipment and carts used by certification technicians) must be subjected to the same deactivating, decontaminating, cleaning, and disinfecting protocols prior to leaving the C-SEC area as anything used in hazardous compounding activities.

Major Change Summary

Date	Revision Number	Reason for Change	Section(s) Affected	Approver(s)
02/20/2024	S-800.005.01	New format and ref to new USP Standards effective 11/1/2023	N/A	Kelly Klotz
10/31/2024	S-800.005.01	Annual review.	N/A	Mike Blaine

Section Name: Handling, Storage, Packaging, Shipping, and Transport	SOP Name: Compounded Preparation Delivery
SOP: S-19.001.01	Last Revision/Review: 10/31/2024
Accreditation Standards: TCRX6-D, DRX7-9B	

Policy

Packaging materials must protect prescription medications and compounded preparations from damage, leakage, contamination, degradation, and absorption while preventing inadvertent exposure to transport personnel. The pharmacy must select appropriate shipping containers and packaging materials based on the prescription medication and/or compounded preparation specifications, information from vendors, and the mode of transport.

Alternative modes of transport and/or special packaging (e.g., tamper-evident closures) may be needed to protect the quality of compounded preparations and prescription medications. Light-resistant packaging materials must be used if the compounded preparation is sensitive to light. In some cases, the compounded preparation or prescription medication must be packaged in a particular container (e.g., a cooler) to protect it from temperature fluctuations.

After compounding, and before releasing and dispensing, the compounded preparation must be visually inspected to determine whether the physical appearance of the compounded preparation is as expected (e.g., color, no cracks in container, improper seals, appropriate storage temperature, the label is legible, no evidence of inappropriate visible particulates or other foreign matter, or other defects).

The pharmacy uses a national third-party shipper (e.g., FedEx, UPS, USPS). Shipping lanes may be tested via internal studies for the environmental extremes experienced by transported pharmaceuticals. Testing takes into consideration the product's start temperature, and various ambient temperatures experienced by the package in transit to keep the pharmaceutical at the temperature described by the manufacturer, USP, and/or other applicable regulatory requirements. A best-practice recommendation is to conduct the test during the hottest and coldest times of the year for all the various storage temperatures (e.g., controlled room temperature, refrigerated, frozen) that the pharmacy is shipping under.

The pharmacy will communicate expected turnaround and update patient or designee if there will be delays. Delays may consist of out of stock issues, weather or other unplanned events out of control of the pharmacy. The patient may not agree to the expected turnaround date and will need to contact the provider to arrange for an alternative pharmacy. If a shipment is lost, damaged or in any other way adulterated, the product will be replaced as quickly as possible.

Definitions

PMS-Pharmacy Management System (I.e. PionerRx).

Procedures

When a compounded preparation will not be released or dispensed on the day of preparation:

- The compounded preparation(s) will be moved to the appropriate storage area necessary to maintain the compounded preparation at the correct storage temperature and conditions (e.g., protected from light).
- A visual inspection according to Visual Inspection of Ingredients and Compounded Sterile Preparations or Visual Inspection of Ingredients and Compounded Non-Sterile Preparations SOPs must be conducted immediately before it is released or dispensed to make sure the compounded preparation does not exhibit any defects, such as a cracked container, discoloration, precipitation, cloudiness, or leakage, which could develop during storage.
- Following the final release check and documentation on the compounding record, the compounded preparation may be placed in the appropriate shipping/delivery container. All controlled temperature items are packaged according to Cold Chain Distribution Policy.

When a compounded preparation will be released and dispensed on the same day of preparation:

- A visual inspection according to Visual Inspection of Ingredients and Compounded Sterile Preparations or Visual Inspection of Ingredients and Compounded Non-Sterile Preparations SOPs must be conducted immediately before it is released or dispensed to make sure the compounded preparation does not exhibit any defects, such as a cracked container, discoloration, precipitation, cloudiness, or leakage, which could develop prior to packaging.
    - Following the final release check and documentation on the compounding record, the compounded preparation may be placed in the appropriate shipping/delivery container. All controlled temperature items are packaged according to Cold Chain Distribution Policy.

Pharmacy personnel must select modes of transport that are expected to deliver properly packed compounded preparations and prescription medications in undamaged, stable conditions while maintaining sterility, if applicable. Inappropriate modes of transport can adversely affect the quality of compounded preparations and prescription medications. For example, preparation-specific considerations should be given to undue exposure to heat, cold, or light. Pharmacy shall ensure the preparations are shipped in a manner to maintain their integrity.

Package containers will protect pharmacy personnel and their representatives (e.g., local couriers) who handle and transport prescription medications and compounded preparations.

When shipping or transporting compounded preparations and prescription medications that require special handling (e.g., refrigerate upon arrival, handle with care, chemotherapy-special handling), pharmacy personnel shall include specific handling instructions on the exterior of the packaging container.

Containers used for delivery will be properly labeled with the beneficiary to whom it is to be delivered, instructions on what must be done upon receipt (e.g., refrigerate upon arrival), and marked for the number of shipping containers (e.g., 1 of 2, 2 of 2).

Delivery Container Care

- Delivery personnel will return any shipping-related materials to the pharmacy.
- Upon receipt, any materials that are not reusable will be discarded.
- Upon receipt, any reusable materials will be cleaned inside and out with an appropriate cleaning and disinfecting agent, taking care to keep the surface of the item being cleaned wet long enough to meet the dwell time of the product used.
- Any returned materials in disrepair will be discarded.

The pharmacist intervenes, when necessary, to ensure that appropriate conditions are achieved or maintained during the delivery process.

When it is known that a compounded preparation has been exposed to temperatures either below or above the storage temperature limits for the compounded preparation, the designated person(s) must determine (e.g., by consulting literature or analytical testing) whether the compounded preparation is expected to retain its integrity or quality. If the designated person cannot determine, due to one or more temperature excursion(s), that the compounded preparation will retain its integrity or quality through its BUD, it must be discarded. The review and investigation is documented using the Adverse Event/Risk Event Report Form.

In the event that a patient reports any abnormal physical changes or signs of instability of their compounded preparation such as grittiness, crystallization, abnormal odor or changes in color a review and investigation is documented. The review may include but is not limited to shipping duration, temperature exposures, storage of compounded medication and dating. The pharmacist will inform the patient to stop taking and to notify their healthcare provider as needed. The pharmacy may replace the compounded prescription if indicated and will be determined on a case by case basis.

Unsuccessful Delivery

- When the pharmacy attempts, but is unable, to deliver a compounded preparation or prescription medication, the following will be followed:
    - If by the pharmacy's own delivery personnel or an approved common carrier, the compounded preparation(s) may be returned if:
        - The delivery remains in its original packaging for transport, including, when applicable, original sealed and tamper-evident packaging.
        - The delivery is returned within the validated window for cold chain, when applicable.
        - The delivery is not past the BUD for compounded preparations or the expiration date for non-compounded prescription medications.
        - The return delivery is approved by a pharmacist at the site.
        - The return delivery is permissible by state law.

Documentation
The delivery ticket, signed by the beneficiary or designee, or the delivery ticket affixed with the shipping tracking number of a national third-party shipper (e.g., FedEx, UPS, USPS) and the ability to capture the signature obtained by the national third-party shipper will be proof of delivery.

For shipments performed by a national third-party shipper (e.g., FedEx, UPS, USPS), the pharmacy may release the national third-party shipper from the obligation of obtaining a patient's signature when permissible by laws and regulations of the applicable regulatory jurisdiction and payer, if applicable.

For shipments performed by a national third-party shipper (e.g., FedEx, UPS, USPS), the tracking info is integrated with the PMS and auto-populates delivery and tracking information.

For shipments performed by pharmacy personnel or local couriers, proof of delivery will include the signature of the beneficiary and the date of receipt. When this is not feasible, the person authorized to receive the delivery will sign their name, relationship to the beneficiary, and the date of receipt. A copy of the form will be left with the beneficiary.

Equipment and Materials

Materials will vary and may include the following:
Reusable thermal coolers (e.g., plastic Igloo cooler).
Thermal shipping cooler (e.g., Styrofoam inserts or cooler in a corrugated shipping container).
Foam or gel ice packs in the appropriate size(s) based on the third-party vendor or internal validation study.
Corrugated shipping containers or similar containers.
Bubble wrap or similar material.
Temperature-sensing devices (e.g., strips, data recorders).
Tamper-evident tape.
Shipping label.
Special handling labels (e.g., refrigerate upon arrival, handle with care, chemotherapy-special handling).

Cleaning and sanitizing/disinfecting agents for reusable containers.

Date	Revision Number	Reason for Change	Section(s) Affected	Approver(s)
11/29/2023	S-19.001.01	Initial release for new formatting, review & USP Standards update.	N/A	Kelly Klotz
10/31/2024	S-19.001.01	Annual review.	N/A	Mike Blaine

Section Name: Handling, Storage, Packaging, Shipping, and Transport	Policy Name: Cold Chain Distribution
Policy: P-19.003.01	Last Revision/Review: 10/31/2024
Accreditation Standards: TCRX6-D, DRX7-8F, DRX7-9B	

Policy

The pharmacy uses a shipping system that has been either validated by a third party or by internal studies for the environmental extremes experienced by transported pharmaceuticals. The validation takes into consideration the initial product's start temperature, types of insulation/packaging used, and various ambient temperatures experienced by the package in transit to keep the pharmaceutical at the temperature described by the manufacturer, USP, and/or other applicable regulatory requirements.

Shipping methods are tested initially and periodically thereafter to ensure compounded preparations and prescription medications stay within specified temperature requirements. A best-practice recommendation is to conduct the test during the hottest and coldest times of the year for all the various storage temperatures (e.g., controlled room temperature, refrigerated, frozen) that the pharmacy ships under.

When it is known that a compounded preparation has been exposed to temperatures either below or above the storage temperature limits for the compounded preparation, the designated person(s) must determine (e.g., by consulting literature or analytical testing) whether the compounded preparation is expected to retain its integrity and quality. If the designated person cannot determine—due to one or more temperature excursion(s)—that the compounded preparation will retain its integrity or quality through its BUD, it must be discarded. The review and investigation are documented using the Adverse Event/Risk Event Report Form.

Any pharmaceutical required to be maintained at refrigerated temperature, unless otherwise specified by the manufacturer, will be maintained between 2°C and 8°C (36°F and 46°F) during storage and transport.

Any pharmaceutical required to be maintained at controlled room temperature, unless otherwise specified by the manufacturer, will be maintained as follows:

- Storage: Between 20°C and 25°C (68°F and 77°F), allowing excursions from 15°C to 30°C (59°F to 86°F), provided the mean kinetic temperature does not exceed 25°C (77°F) and the excursion is no longer than 24 hours.
- Transport: Between 20°C and 25°C (68°F and 77°F), allowing excursions from 15°C to 30°C (59°F to 86°F). Provided the mean kinetic temperature does not exceed 25°C (77°F), transient spikes up to 40°C (104°F) are permitted as long as they do not exceed 24 hours. Spikes above 40°C (104°F) may be permitted only if the manufacturer so instructs.

Any pharmaceutical required to be maintained at frozen temperature, unless otherwise specified by the manufacturer, will be maintained between -25°C and -10°C (-13°F and 14°F).

Definitions

Ambient Temperature: The air temperature of an environment (e.g., the temperature conditions the shipping container is exposed to, including the temperature in the delivery vehicle, delivery hub, and at the residence of the patient prior to opening the package).
Ambient Temperature Profile: A range of temperatures a shipment may encounter. These profiles should adequately capture the expected summer and winter extreme conditions specific to your distribution channels. Typically, there are multiple ambient temperature profiles. One example includes profiles for less than 4°C (25°F), 4°C to 7°C (25°F to 45°F), 8°C to 21°C (46°F to 70°F), 22°C to 32°C (71°F to 90°F), and greater than 32°C (90°F).
Pack-Out Procedure: A detailed set of packing instructions based on the container size and the ambient temperature profile the container will encounter.

Procedures

Materials and packing methods used in the transport of pharmaceuticals will be appropriate to keep products at the correct temperature while in transit. Documentation of cold chain distribution will be tested/recorded using the Internal Study- Distributed Pharmaceutical Temperature Data Form.

Container sizes shall be tested against applicable ambient temperature profiles the product will encounter. The specific ambient temperature profiles will be described in the pack-out procedure. If the pharmacy adopts different packaging, packing materials, or methods of delivery or expands its service area thus requiring transport time that exceeds the current known information, the pharmacy, prior to shipping, shall perform updated studies that will take into consideration the new materials, methods, or transportation time.

Validation methods include:

- May use distribution processes validated by other reputable sources as long as the pharmacy retains the records of the validation process and results. Some reputable sources accepted include:
  - ASTM: American Society for Testing and Materials.
  - FDA: U.S. Food and Drug Administration.
  - ISO: International Organization for Standardization.
  - ISPE: International Society of Pharmaceutical Engineers.
  - ISTA: International Safe Transit Association.
  - PDA: Parenteral Drug Association.
  - WHO: World Health Organization.
- May use a distribution system that is internally studied as follows:
  - The pharmacy will conduct tests to test the packaging product or product's ability to maintain the appropriate temperature range.
  - The pharmacy will follow the packaging manufacturer's guidelines and packaging instructions for each box/container size to create the selected number of "test packages."
  - The pharmacy will place a digital temperature-data-logging device inside each "test package."
  - As medications have different appropriate temperature ranges, the pharmacy must test each box at the temperature profiles pharmaceuticals are shipped (e.g., controlled room temperature, refrigerated, frozen).
  - The pharmacy will ship the test packages per their normal shipping routine to preselected locations and/or back to the pharmacy. These shipments must occur within the ambient temperature profiles selected for the pack-out.
  - Once the "test package" reaches its intended location, it will be opened and the temperature device downloaded.
    - If the temperatures are within the appropriate ranges, then the packaging will be considered successful, and the pharmacy will move forward using this pack-out.
    - If temperatures are outside the appropriate ranges, the designated person(s) must be notified to determine the outcome of the test, implement corrective actions, and retest as appropriate.
  - The pharmacy may document all internal validation studies on the Internal Study-Distributed Pharmaceutical Temperature Data form.

- The pharmacy will summarize the study results, relevant ambient temperature profiles, and pack-out definitions.
- Any system selected to be used by the pharmacy will be taught to the appropriate staff.
- Any validated system will have the appropriate pack-out per box/container size and ambient temperature profile displayed in the shipping area.

- All staff will be trained on the transit time limits each package/container is approved at for each ambient temperature profile.
- If a package is not delivered within the validated window, the designated person(s) must determine (e.g., by consulting literature or analytical testing) whether the pharmaceutical or compounded preparation is expected to retain its integrity and quality. If this cannot be determined, the product must be discarded.
- All shipping containers must be clearly labeled with storage instructions to ensure that proper storage conditions occur after the shipment is received (e.g., refrigerate upon arrival).

Concerns/complaints related to the transportation of pharmaceuticals are to be reported electronically or using the Complaint/Grievance/Concern Report Form.

Delivery issues resulting in the discarding of pharmaceuticals or compounded preparations are documented using the Adverse Event/Risk Event Report Form and reported to the Operations team. Quality assurance or the Compliance Officer may be informed as needed.

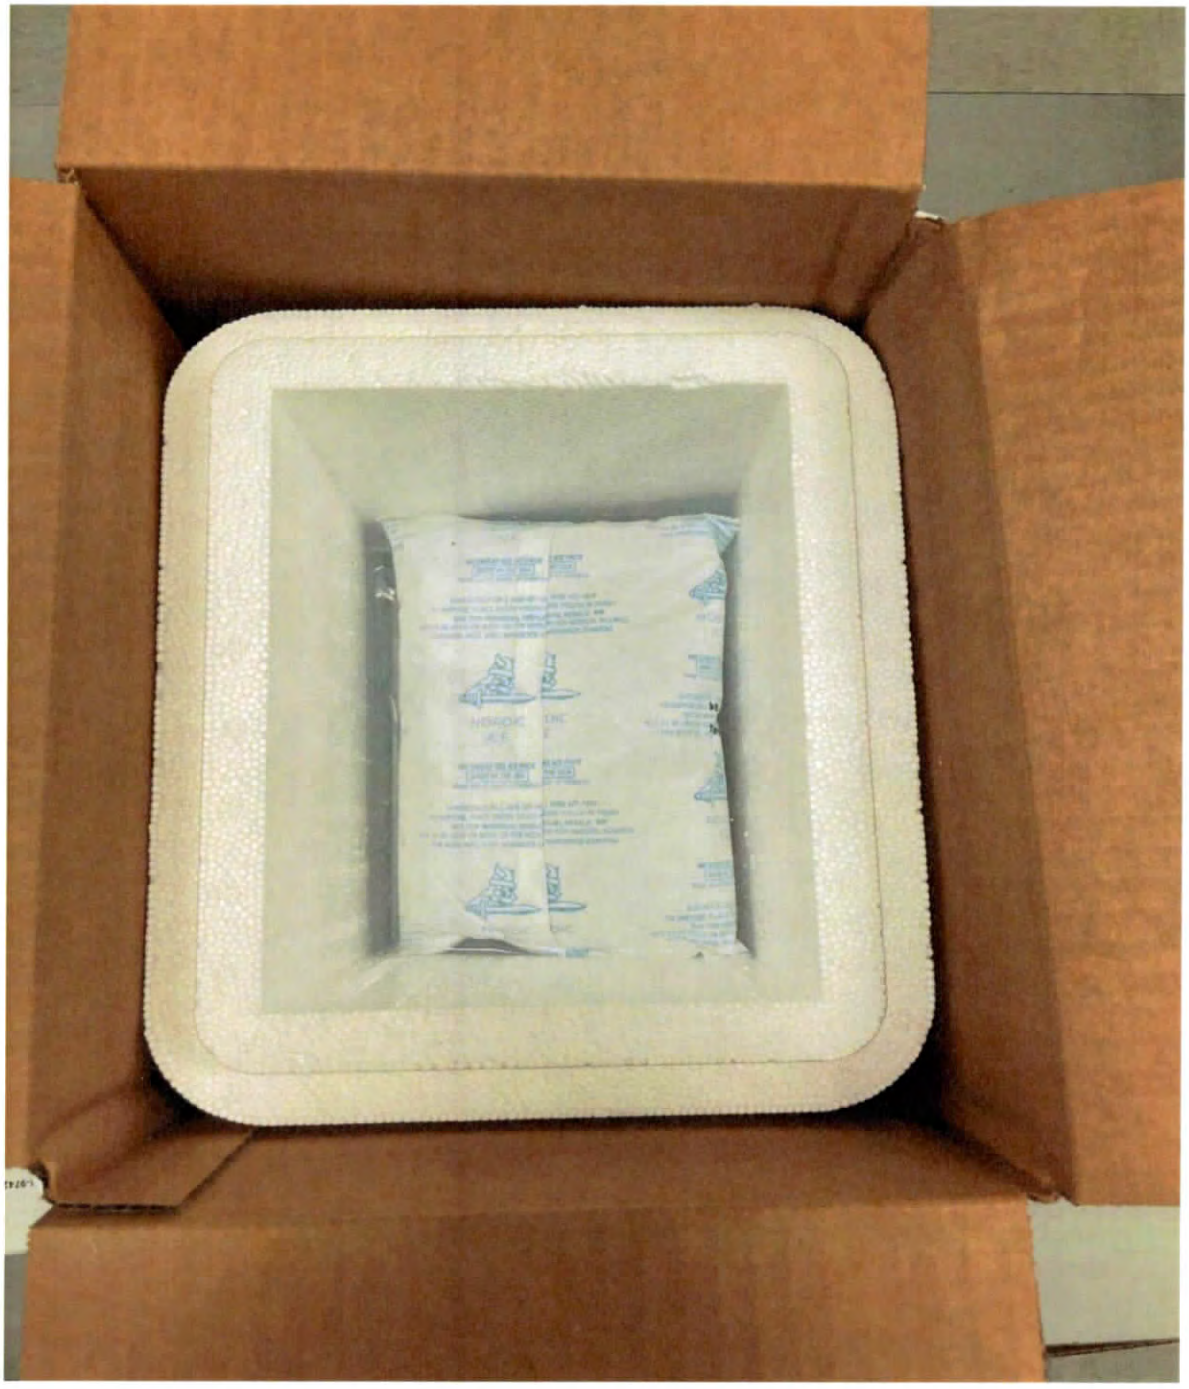
Frozen Shipping Procedure

Items Needed:

1. Frozen shipping container
2. Two ice packs
3. Tape
4. Frozen Labels
5. Shipping Label



Procedure:

1. Scan your shipping label through the UPS platform, grab a frozen shipping container
2. Grab two ice packs, place one ice pack at the bottom of the shipping container
3. Place another ice pack on top of the frozen item, to create a sandwich
4. Add bubble wrap on top of the ice pack
5. Place lid back on top of shipping container and add the receipt on top
6. Seal the package with tape, place shipping label on the side stating, "shipping from" and add a frozen label onto the box for visibility

Section Name: Personal Hygiene and Garbing	SOP Name: Gown, Garb, and Hand Hygiene – Sterile Hazardous Compounding
SOP: S-800.003.01	Last Revision/Review: 10/31/2024
Accreditation Standards: TCRX3-E, TCRX6-N, DRX7-6B, DRX7-8O.01	

Policy

Proper gowning, garbing, and hand hygiene and personal protective equipment (PPE) will be used to protect hazardous sterile compounded preparations (CSPs) from microbial contamination, and personnel from hazardous drug (HD) contamination.

Definitions

Anteroom: A transition area to ensure proper air classification and pressure relationships are maintained between classified and unclassified areas. The anteroom is where personnel perform hand hygiene and garbing procedures, component staging, and other activities that potentially generate higher levels of particulates. Anterooms providing access to positive-pressure buffer rooms must meet at least ISO Class 8 classifications. Anterooms providing access to negative-pressure buffer rooms must meet at least ISO Class 7 classifications.

Buffer Room: An ISO Class 7 or cleaner room with fixed walls and doors where primary engineering controls (PECs) that generate and maintain an ISO Class 5 environment are physically located. The buffer room may only be accessed through the anteroom or another buffer room.

Containment Primary Engineering Control (C-PEC): A ventilated device designed and operated to minimize worker and environmental exposures to HDs by controlling emissions of airborne contaminants through the following:

- The full or partial enclosure of a potential containment source.
- The use of airflow capture velocities to trap and remove airborne contaminants near their point of generation.
- The use of air pressure relationships that define the direction of airflow into the cabinet.
- The use of HEPA filtration on all potentially contaminated exhaust streams.

Containment Secondary Engineering Control (C-SEC): A room with fixed walls under negative pressure in which the C-PEC is placed. The room incorporates specific design and operational parameters required to contain the potential hazard within the compounding room.

Containment Segregated Compounding Area (C-SCA): A type of C-SEC with nominal requirements for airflow and room pressurization as they pertain to HD compounding. A designated, unclassified space, area, or room with a defined perimeter that contains a C-PEC and is suitable for preparations of Category 1 CSPs only.

Personal Protective Equipment (PPE): Items such as gloves, gowns, respirators, goggles, face shields, and others that protect individual workers from hazardous physical or chemical exposure.

Pharmaceutical Isolator: An enclosure that provides HEPA-filtered ISO Class 5 unidirectional air operated at a continuously higher pressure than its surrounding environment and is decontaminated using an automated system. It uses only decontaminated interfaces or rapid transfer ports for materials transfer.

Note: A compounding aseptic isolator (CAI) or compounding aseptic containment isolator (CACI) is not a pharmaceutical isolator.

Powered Air-Purifying Respirator (PAPR): A device that forces filtered, purified air into an enclosed space around the user's face. Most PAPRs can be fitted with activated charcoal cartridges when there is the potential for exposure to HD vapors and gases.

Restricted-Access Barrier System (RABS): An enclosure that provides HEPA-filtered ISO Class 5 unidirectional air that allows for the ingress and/or egress of material through defined openings that have been designed and validated to preclude the transfer of contamination, and that generally are not to be opened during operations. Examples of RABS include CAIs and CACIs.

Sterile Compounding Facility (SCF): Room(s) or areas devoted exclusively to sterile compounding, consisting of either a cleanroom suite or a C-SCA.

Procedures

Preparation

- Personnel who have passed competency testing concerning gowning, garbing, and hand hygiene (see Gown, Garb, and Hand Hygiene – Sterile Hazardous Compounding Competency), or are being trained in this regard, may enter the hazardous SCF. Other personnel or visitors (e.g., auditors, inspectors, regulators, surveyors, and student observers) must comply with gowning, garbing, and hand hygiene SOPs, but they do not need to prove competency in order to enter the hazardous SCF.
    - Prior to entering the anteroom or C-SCA, personnel must remove:
        - Personal outer garments such as bandanas, coats, hats, jackets, sweaters, vests, etc.
        - Cosmetics, as applicable.
        - All hand, wrist, and other exposed jewelry, including piercings that may compromise the effectiveness of PPE or otherwise increase the risk of contamination of the HD-CSP. Cover any jewelry that cannot be removed.
        - Earbuds, headphones, or headsets, as applicable.
    - Additionally:
        - Fingernails must be kept clean and closely trimmed.
        - Nail polish, artificial nails, or extenders must not be worn.
        - Eyeglasses are washed with water and soap, preferably using disinfectant soap, and dried with a low-lint wipe.
        - Personnel with rashes, sunburns, recent tattoos, oozing sores, and/or eye, skin, or respiratory infections must report these conditions to the designated person for assessment.
        - Chewing gum, lozenges, etc., must not be used while in the cleanroom suite or C-SCA.
    - The designated person may permit accommodations concerning these issues as long as the quality of the HD-CSP and environment are not compromised. Examples include canes, crutches, or wheelchairs needed by employees with disabilities, clothing requirements for various religions, and/or the use of throat lozenges for medical purposes. Accommodations must be documented.
    - Garb and PPE used during the compounding of CSPs containing HDs must serve the dual purpose of protecting the preparation from microbial contamination by personnel and protecting personnel from chemical contamination by the HD.
    - Additional garbing requirements for Category 3 CSPs must be continuously met for all personnel regardless of whether Category 3 CSPs are compounded on a given day:
        - No exposed skin is allowed in the buffer room (face and neck must be covered).
        - All garb must be sterile.
        - Garb must not be reused

Hand Hygiene

- Hands and forearms up to the elbows are thoroughly washed prior to donning a gown using liquid soap from a non-refillable container for at least 30 seconds, using a timing device if available.
- Use a disposable nail pick under warm running water to remove debris from underneath fingernails.
- Scrub brushes must not be used because of their potential for causing skin irritation and the shedding of skin particles.
- Rinse hands and forearms over the sink with hands facing upward so the water flows away from the fingertips down to the elbows.
- Dry hands and forearms using disposable low-lint wipes. Hand dryers must not be used.
- Allow hands to air dry without waving them.
- Hand hygiene must be repeated whenever an employee leaves and reenters the SCF.

Gloves

- Two pairs of chemotherapy-rated gloves must be used when compounding HD-CSPs.
- At least the outer gloves used for sterile compounding must be sterile.
- A best-practice recommendation is for both pairs of gloves to be sterile to avoid confusion and the need for two types of gloves.
- Gloves used for the compounding of HDs must meet the requirements of the American Society for Testing and Materials (ASTM) standard D6978 or its successor.
- Gloves must be powder-free because powder can absorb HDs and contaminate the compounding environment.
- Inner gloves are donned after the first gown and after applying the manufacturer's recommended quantity of an alcohol-based hand sanitizer on the hands and rubbing the hands together, covering all surfaces of hands and fingers, until hands are dry. Do not wave hands.
- Outer gloves are donned; this may occur on the clean side of the anteroom, upon entering the buffer room, or on the clean side of the C-SCA, but not in the C-PEC.
    - They must be pulled up over the cuff of the gown.
- Gloved hands are disinfected by applying sIPA and allowing them to air dry:
    - Prior to compounding the first preparation.
    - Between preparations.
    - Frequently, during the compounding process.
    - Whenever hands are removed from the direct compounding area (DCA).
    - Whenever non-sterile surfaces or objects are touched.
- sIPA is allowed to dry by holding hands still without waving them.
- If using a RABS such as a CACI:
    - Disposable gloves should be worn directly on the hands as per the manufacturer's recommendations.
    - Sterile gloves as described above must be placed over the permanent gloves attached to the RABS sleeve.
    - The integrity of the RABS sleeves and gloves must be checked prior to performing any compounding of HD-CSPs.
    - The sleeves and gloves of the RABS must be replaced according to the manufacturer's guidelines or immediately upon detecting defects such as punctures, tears, holes, etc.
- All gloves must be inspected for holes, punctures, or tears and must be replaced immediately if such defects are detected, and gloves must be replaced:
    - When visibly soiled.
    - Every 30 minutes unless the manufacturer's instructions allow for a longer period of use.
    - When personnel leave the C-SEC buffer room or C-SCA.
    - When cross-contamination between preparations is suspected.
- Outer gloves are removed and discarded immediately into a waste container approved for trace contaminated waste inside the C-PEC or are contained in a sealable disposal bag within the C-PEC and disposed of with other materials from the preparation at the end of the compounding process after wiping the HD-CSP container with a decontaminating agent.
- A best-practice recommendation is to wipe the outer gloves down with a decontaminating agent prior to wiping the HD-CSP container to avoid transfer from the contaminated gloves.
- Gloves are disposed of as trace or bulk waste[1] depending upon the level of suspected or known contamination by HDs upon them.
- The inner gloves remain on after the outer gloves are removed. The inner gloves are used to affix labels and place compounded HDs in a zip-lock bag for transport.

Note: Transport bags must never be placed in the DCA during compounding to avoid contamination of the bag's outer surface.

- Inner gloves used within a RABS are removed and disposed of as regular waste.
- Outer gloves used over the permanent gloves of a RABS are disposed of with other materials from the preparation at the end of the compounding process.
    - They are treated as trace or bulk waste[1] depending upon the level of suspected or known contamination by HDs.
- When removing gloves, the contaminated glove fingers must only touch the contaminated outer surface of the gloves, never the inner surface. If the inner gloves become contaminated, both pairs of gloves must be changed.
- Inner gloves are removed after leaving the C-SEC buffer room on the clean side of the anteroom or prior to leaving the C-SCA.
- Hands must be washed with suitable liquid soap and water after removing gloves.

Gowns

- One sterile gown must be worn whenever personnel are within the C-SEC buffer room or C-SCA, including during the compounding of HD-CSPs.
- Gowns for all categories of CSPs must:
    - Be sterile.
    - Be low lint.
    - Be long sleeved.
    - Have cuffs that fit snugly around the wrist.
    - Have an enclosed neck.
    - Be large enough to fully cover the back.
- Additional requirements if any Category 3 compounding occurs in the buffer room:
    - All exposed skin, including the face and neck, must be covered.
    - All low-lint garb must be sterile.
- Additionally, gowns used must:
    - Be disposable.
    - Resist permeation by HDs.
    - Close in the back.
    - Lack seams or closures that could retain HDs.
    - Be made of polyethylene-coated polypropylene or other laminate materials.
    - Not made of cloth.
- Coverall ("bunny suit") systems may be used if they meet all criteria for garb described in this document.
- Gowns should be donned so as to avoid personal contamination and without touching the floor on the clean side of the anteroom, or prior to crossing the line of demarcation inside the C-SCA.
- Gowns are removed while on the contaminated side of the line of demarcation at the entrance to the C-SEC buffer room or C-SCA.
    - It should be removed slowly and carefully, rolling the gown from inside out into a ball prior to placing it in a disposal container.
- Inner gowns are removed after leaving the C-SEC buffer room on the clean side of the anteroom or prior to leaving the C-SCA.
- Gowns are disposed of as trace or bulk waste[1], unless significantly contaminated by HDs.

Sleeve Coverings

- Sleeve covers, if used:
    - Must be disposable.
    - Resist permeation by HDs.
    - Are made of polyethylene-coated polypropylene or other laminate materials.
    - Should be sterile for Category 1 and 2 CSPs and must be sterile for Category 3 CSPs.
- Sleeve covers are donned after gowns but before gloves.

- Sleeve coverings must be replaced:
  - When visibly soiled, torn, or otherwise damaged.
  - When personnel leave the C-SEC buffer room or C-SCA.
  - When cross-contamination between preparations is suspected.
- Sleeve covers are removed and discarded immediately into a waste container approved for trace contaminated waste inside the C-PEC or are contained in a sealable disposal bag within the C-PEC and disposed of with other materials from the preparation at the end of the compounding process.
- Sleeve covers are disposed of as trace or bulk waste[1] depending on the presence of significant HD contamination.

Respiratory Protection

- Face masks ("surgical masks") or other acceptable masks (e.g., N95) must be worn whenever employees are on the clean side of the anteroom, within the C-SEC buffer room, or within the C-SCA.
- Surgical masks do not provide respiratory protection from drug exposure and must not be used when respiratory protection from HD exposure is required.
- N95 respirators provide additional respiratory protection should this be desired against airborne particles. N95 respirators offer no protection against gases and vapors (refer to the CDC's Respiratory Protection Information Trusted Source). If used, N95 respirators follow the same protocols as face masks ("surgical masks").
- N95 masks, if used, must be fit tested to comply with OSHA respiratory standard 29 CFR 1910.34.
- A full facepiece, chemical cartridge-type respirator or PAPR should be worn when there is a risk of HD respiratory exposure, including when:
  - Attending to HD spills larger than what can be contained with a spill kit.
  - Deactivating, decontaminating, and cleaning underneath the work surface of a C-PEC.
  - There is known or suspected airborne exposure to powders, gases, or vapors.
- Nose and mouth coverings are donned on the dirty side of the anteroom or upon entering the C-SCA.
- Face masks should be worn with the outside folds in the material facing down.
- Nose and mouth coverings must be replaced:
  - If visibly soiled, torn, or otherwise damaged.
  - Each time personnel leave the C-SEC buffer room or C-SCA.
- Nose and mouth coverings are removed after leaving the C-SEC buffer room and after crossing into the clean side of the anteroom or before leaving the C-SCA.
- Nose and mouth coverings are disposed of as trace or bulk waste depending on the presence or absence of significant HD contamination.
- Chemical cartridge-type respirators and PAPRs must be deactivated, decontaminated, cleaned, and disinfected after each use.
- The manufacturer's instructions are followed for deactivating, decontaminating, cleaning, and disinfecting the respirator. When manufacturer instructions are not available, deactivating, decontaminating, cleaning, and disinfecting will be conducted as follows:
  - While wearing a clean pair of ASTM D6978-rated gloves along with other appropriate PPE, remove filters, cartridges, or canisters. Disassemble facepieces by removing speaking diaphragms, demand and pressure-demand valve assemblies, hoses, or any other components.
  - Wipe the components using a low-lint wipe saturated with an EPA-registered, one-step deactivating, decontaminating, cleaning, and disinfecting agent approved by the manufacturer. Follow the manufacturer's instructions for the dwell time of the deactivating, decontaminating, cleaning, and disinfecting agent.
  - Thoroughly rinse the components with sterile water for injection or sterile water for irrigation. Drain.
  - Dry components with low-lint wipes.

- Reassemble the facepiece, replacing filters, cartridges, and canisters when necessary.

Eye Protection

- Eye protection is not required during the compounding of HD-CSPs, however Recommended and encouraged for compounder safety. Safety Data Sheets will be referenced as needed.
- Eye protection is strongly recommended when cleaning any surface higher than eye level (e.g., upper walls and ceilings).
- Eye protection is required when performing major cleaning of a C-PEC such as removing the work surface tray.
- If used, eye protection must provide complete protection. Devices capable of such protection include:
  - Wrap-around goggles.
  - Full-facepiece respirators.
  - PAPR units.
- Must be deactivated, decontaminated, cleaned, and disinfected before being reused.
- The manufacturer's instructions are followed for deactivating, decontaminating, cleaning, and disinfecting goggles. When the manufacturer's instructions for deactivating, decontaminating, cleaning, and disinfecting goggles are not available, deactivating, decontaminating, cleaning, and disinfecting will be conducted as follows:
  - While wearing a clean pair of ASTM D6978-rated gloves along with other appropriate PPE, carefully wipe the inside of the goggles, followed by the outside of the goggles using a low-lint clean wipe saturated with a mild soap solution.
  - Carefully wipe the outside of the goggles using a low-lint wipe saturated with an EPA-registered, one-step deactivating, decontaminating, cleaning, and disinfecting agent.
  - Wipe the outside of the goggles with sIPA to remove the residue.
  - Allow to fully dry (air dry or dry with a low-lint wipe).

Head and Facial Hair Coverings

- Head and facial hair coverings must be worn whenever personnel are on the clean side of the anteroom, C-SEC buffer room, or C-SCA.
- These items must:
  - Be low lint.
  - Be disposable.
  - Fully cover all hair and ears.
- Head and facial hair coverings are donned on the dirty side of the anteroom, or upon entering the C-SCA.
- These items must cover all head or facial hair, which should be confirmed by the use of a mirror or coworker.
- Head and facial hair coverings must be replaced:
  - If visibly soiled, torn, or otherwise damaged.
  - Each time personnel leave the C-SEC buffer room or C-SCA.
- Head and facial hair coverings are removed after leaving the C-SEC buffer room after crossing into the dirty side of the anteroom or before leaving the C-SCA.
- Head and facial hair coverings are disposed of as trace or bulk waste[1] depending on the presence or absence of significant HD contamination.

Foot Coverings

- Foot coverings with the characteristics described below must be worn:
  - On the clean side of the anteroom.
  - In the C-SEC buffer room.
  - In the C-SCA.

- Foot coverings may be accomplished in the following ways:
  - Dedicated shoes.
  - Disposable shoe covers.
- Dedicated shoes, if used:
  - Must be easily cleaned.
  - Must be nonporous.
  - Must be smooth and free of holes.
  - Should be white or black to make soiling more visible.
  - Should be cleaned and disinfected periodically, preferably with an EPA-registered, one-step cleaning and disinfecting agent.
- Shoe covers:
  - Must be low lint.
  - Must be disposable.
- Shoe covers that are part of a coverall ("bunny suit') system:
  - Must be low lint.
  - Must be disposable.
- A set of disposable outer shoe covers must be donned prior to entering the C-SEC buffer room or C-SCA in addition to any primary foot covering with the traits described above. These shoe covers may be donned at the same time as the primary foot coverings.
- Outer disposable shoe covers must be replaced:
  - If visibly soiled, torn, or otherwise damaged.
  - Each time personnel leave the C-SEC buffer room or C-SCA.
- Dedicated shoes must be replaced if unfit for use or unable to be cleaned.
- Shoe covers that are part of a coverall ("bunny suit") system must be replaced if visibly soiled, torn, or otherwise damaged.
- Outer shoe covers must be removed when stepping over the line of demarcation that separates the contaminated and uncontaminated areas of the C-SEC buffer room or C-SCA.
- Outer disposable shoe covers are treated as trace or bulk waste[1] based on the presence or absence of significant HD contamination.
- Inner disposable shoe covers or dedicated shoes are removed when stepping over the line of demarcation into the dirty side of the anteroom or C-SCA.
- Inner shoe covers, if applicable, are disposed of as regular waste.
- Dedicated shoes, if used, should be placed on the clean side of the line of demarcation near the entrance to the anteroom or C-SCA to be convenient for personnel.

Surgical Scrubs

- A best-practice recommendation is for personnel to wear surgical scrubs beneath required gowns.
- Scrubs should be worn at least during compounding and cleaning activities within the sterile compounding suite of the SCA.
- A freshly laundered pair of scrubs should be worn each workday. Under no circumstances should potentially contaminated surgical scrubs be taken home to be laundered.
- Scrubs are preferably liquid resistant.
- Replace scrubs when worn or torn.

Storage of Garb

- Reasonable quantities for the number of compounders (i.e., 7-day, 30-day) supply of disposable garb and PPE may be stored in the anteroom or C-SCA, away from any sink, and stored so as not to collect dust and in a manner that minimizes the potential for contamination.
- A reasonable supply of sterile gloves may be stored in the C-SEC buffer room or C-SCA.

- Reusable personal protective eye and respiratory equipment (e.g., goggles, full-facepiece respirators, and PAPR units) may be stored in the C-SEC buffer room or C-SCA unless removal for other uses or cleaning and decontamination is required.
- Dedicated shoes, if used, should be placed on the clean side of the line of demarcation near the entrance to the anteroom or C-SCA to be convenient for personnel.

[1] PPE used during the cleaning of a hazardous chemical spill needs to be disposed of as bulk waste.

Gown, Garb and Hand Hygiene Sequence of Events Based on Location of the Sink and LOD

Sink on the Clean Side of the LOD in the Anteroom	Sink on the Dirty Side of the LOD in the Anteroom	Sink Outside of the Anteroom or C-SCA
Donning		
Don head covering, facial hair covering, and face mask on dirty side of anteroom.	Don head covering, facial hair covering, and face mask on dirty side of anteroom.	Clean debris from under fingernails using warm running water and a disposable nail cleaner.
Don dedicated cleanroom shoes plus one pair of shoe covers or two pairs of shoe covers as stepping over LOD into clean side of anteroom.	Clean debris from under fingernails using warm running water and a disposable nail cleaner.	Wash hands and forearms up to elbows for at least 30 seconds with soap and water.
Clean debris from under fingernails using warm running water and a disposable nail cleaner.	Wash hands and forearms up to elbows for at least 30 seconds with soap and water.	Enter dirty side of anteroom or C-SCA and apply manufacturer's recommended amount of alcohol-based hand sanitizer, rub hands together, covering all surfaces of hands and fingers, and allow to air dry.
Wash hands and forearms up to elbows for at least 30 seconds with soap and water.	Don dedicated cleanroom shoes plus one pair of shoe covers or two pairs of shoe covers as stepping over LOD into clean side of anteroom.	Don head covering, facial hair covering, and face mask on dirty side of anteroom or C-SCA.
Don inner gown on clean side of anteroom.	Apply alcohol-based hand sanitizer, rub hands together, covering all surfaces of hands and fingers, and allow to air dry on clean side of anteroom	Don dedicated cleanroom shoes plus one pair of shoe covers, or two pairs of shoe covers as stepping over LOD into clean side of anteroom for C-SEC or across threshold into C-SCA.
Apply alcohol-based hand sanitizer, rub hands together, covering all surfaces of hands and fingers, and allow to air dry on clean side of anteroom.	Don gown on clean side of anteroom.	Apply manufacturer's recommended amount of alcohol-based hand sanitizer, rub hands together, covering all surfaces of hands and fingers, and allow to air dry upon entering the clean side of anteroom or C-SCA.
Don first pair of chemo ASTM-rated gloves on clean side of anteroom.	Apply alcohol-based hand sanitizer, rub hands together, covering all surfaces of hands and fingers, and allow to air dry on clean side of anteroom.	Don gown on clean side of anteroom or C-SCA.
Don, as applicable, sleeve covers on clean side of anteroom.	Don first pair of chemo ASTM-rated gloves on clean side of anteroom.	Apply alcohol-based hand sanitizer, rub hands together, covering all surfaces of hands and fingers, and allow to air dry on clean side of anteroom or C-SCA.
Don 2nd pair of chemo ASTM-rated sterile gloves on clean side of anteroom or upon entering the C-SEC buffer room.	Don, as applicable, sleeve covers on clean side of anteroom.	Don first pair of chemo ASTM-rated gloves on clean side of anteroom or C-SCA.
	Don second pair of chemo ASTM-rated sterile gloves on clean side of anteroom or upon entering C-SEC buffer room.	Don, as applicable, sleeve covers on clean side of anteroom or C-SCA.
		Don second pair of chemo ASTM-rated sterile gloves on clean side of anteroom or upon entering C-SEC buffer room or C-SCA.

Sink on the Clean Side of the LOD in the Anteroom	Sink on the Dirty Side of the LOD in the Anteroom	Sink Outside of the Anteroom or C-SCA
Doffing		
Remove and dispose of outer pair of gloves in the C-PEC.	Remove and dispose of outer pair of gloves in the C-PEC.	Remove and dispose of the outer pair of gloves in the C-PEC.
Remove and dispose of sleeve covers in the C-PEC.	Remove and dispose of sleeve covers in the C-PEC.	Remove and dispose of sleeve covers in the C-PEC.
Remove and dispose of gown while on contaminated side of LOD for C-SEC buffer room.	Remove and dispose of gown while on contaminated side of LOD of C-SEC buffer room.	Remove and dispose of gown while on contaminated side of C-SEC or C-SCA.
Remove and dispose of outer shoe covers while stepping over LOD from contaminated side into uncontaminated side of C-SEC buffer room.	Remove and dispose of outer shoe covers while stepping over LOD from contaminated side into uncontaminated side of C-SEC buffer room.	Remove and dispose of outer shoe covers while stepping over LOD from contaminated side into uncontaminated side of C-SEC or C-SCA.
Remove and dispose of inner pair of gloves in clean side of anteroom after leaving C-SEC buffer room.	Remove and dispose of inner pair of gloves in clean side of anteroom after leaving C-SEC buffer room.	Remove and dispose of inner pair of gloves in clean side of anteroom or C-SCA after leaving C-SEC buffer room.
Wash hands using soap and water for 30 seconds and dry thoroughly.	Remove dedicated shoes or inner shoe covers as stepping over LOD into dirty side of anteroom.	Remove dedicated shoes or inner shoe covers as stepping over LOD into dirty side of anteroom or C-SCA.
Remove dedicated shoes or inner shoe covers as stepping over LOD into dirty side of anteroom.	Remove and dispose of head covering, facial hair covering, and face mask on dirty side of anteroom.	Remove and dispose of head covering, facial hair covering, and face mask on dirty side of anteroom or C-SCA.
Remove and dispose of head covering, facial hair covering, and face mask on the dirty side of anteroom.	Wash hands using soap and water for 30 seconds and dry thoroughly.	Wash hands using soap and water for 30 seconds and dry thoroughly.

Equipment and Materials

- Liquid soap and water,
- Alcohol-based hand sanitizer.
- Disposable nail picks.
- Disposable low-lint wipes/towelettes.
- Sterile gloves, ASTM D6978-rated, powder-free, in a variety of sizes.
- Sterile gloves, powder-free in a variety of sizes.
- Gowns or coveralls ("bunny suit") in a variety of sizes.
- HD-resistant gowns made of polyethylene-coated polypropylene or other laminate material, in a variety of sizes.
- Disposable HD-resistant sleeve coverings, optional.
- Dedicated shoes and/or disposable shoe covers.
- Head and face coverings (e.g., bouffant, N95 mask, beard cover, face shield).
- Eye protection (e.g., wrap-around goggles).
- Respiratory protection (e.g., full-facepiece cartridge-type respirator, PAPR).
- Sterile 70% isopropyl alcohol (sIPA).

Major Change Summary

Date	Revision Number	Reason for Change	Section(s) Affected	Approver(s)
01/30/2024	S-800.003.01	New format, new official USP Standards 11/1/2023	N/A	Kelly Klotz
10/31/2024	S-800.003.01	Annual review.	N/A	Mike Blaine

Section Name: Personal Hygiene and Garbing	Policy Name: Respiratory Protection
Policy: S-800.004.001	Last Revision/Review: 10/31/2024
Accreditation Standards: TCRX-3-E, DRX7-6B	

Policy

Proper respiratory protection will be used to protect from hazardous chemicals during compounding and cleaning procedures, where applicable. Some pharmacy members may routinely handle, or work in the vicinity of, chemicals classified as hazardous drugs by the National Institute for Occupational Safety and Health (NIOSH) guidelines.

Definitions

NIOSH: National Institute for Occupational Safety and Health
Personal Protective Equipment (PPE): Items such as gloves, gowns, respirators, goggles, face shields, and others that protect individual workers from hazardous physical or chemical exposure.
Powered Air-Purifying Respirator (PAPR): A device that forces filtered, purified air into an enclosed space around the user's face. Most PAPRs can be fitted with activated charcoal cartridges when there is the potential for exposure to HD vapors and gases.

Procedures

1. Who policy and procedure applies to
    a. Personal Respiratory Protection—in the form of a respirator--is required for pharmacy team members who compound with hazardous chemicals and/or who clean the hazardous compounding designated areas as a part of their job responsibilities.
    b. A respirator may also be necessary for duties performed in the non-hazardous compounding areas.
    c. Pharmacy team members classified as at-risk for exposure are: All Pharmacists, as well as any Pharmacy Technicians who may enter, or clean the negative pressure lab. In addition, the Pharmacist in Charge may designate other team members to be classified as "at risk." For example, team members who may receive hazardous chemicals upon delivery.
    d. The pharmacy will make training available to all employees classified as "at risk" for exposure to hazardous drugs. Training will take place at orientation and annually.
2. Steps to ensure employee safety and correct respirator selection.
    a. Upon new hire or job change, if an employee will work with hazardous chemicals, they will complete a medical evaluation per OSHA standards to ensure they are medically capable to wear a respirator.
    b. If medical evaluation indicated employee has the ability to wear a respirator, the PIC or designated person will conduct a respirator fit test to determine best size and fit. This will be completed prior to handling or exposure to any hazardous materials.
    c. The type of hazardous materials that an employee may be exposed to determines what type of respirator is appropriate.
        i. N-95 is indicated to reduce exposure to particles and liquid or non-oil based particles from sprays that do not emit oil aerosols or vapors. Do not use N-95s for gases and vapors and oil aerosols.
        ii. Powered air-purifying respirators (PAPR) may be indicated when a higher level or eye and face protection may be required due to potential sprays, splashes, vapors or gases.
        iii. Surgical masks-do NOT provide respiratory protection from drug exposure and MUST NOT be used when respiratory protection from HD exposure is required.

3. Respirator fit test procedure.
    a. When to complete
        i. Upon new hire or job change to handle hazardous materials.
        ii. The fit test will be repeated on an annual basis.
        iii. A fit test may need to be repeated in the event facial structure has changed. For example, significant weight loss or gain, any injury or surgery that may have changed the structure of the face for a respirator to be well-fitted.
    b. A respirator is intended to provide a good seal. Facial hair, such as a beard or sideburns may prevent a good seal. Shaving may need to take place to ensure respiratory protection.
    c. Complete fit test with all PPE (goggles) or personal items (glasses) that will be worn at the same time to ensure that equipment is compatible and does not reduce the effectiveness of the respirator.
    d. Follow instructions of Fit test Kit to complete Fit Test
    e. Document results on Qualitative Respirator Fit Test Record form
        i. Documentation includes employee name, employee signature, respirator make/model, style and size and affirmative pass or fail.
        ii. If an employee fails, do not use that make/ model or size. Repeat testing procedure until correct make/model or size is determined.
4. Storage
    a. Store per manufacturer's recommendations. This is generally, room temperature in less than 80% relative humidity. Shelf-life is typically 3-5 years from date of manufacture.
    b. Do not use past expiration date.
    c. Do not use if damaged (during delivery, while wearing or during storage).

1) *Initial Inspection Information

1) Personnel conducting inspection

Observation
Compliance Specialist Alex Seminara

2) Were multiple inspection guides used during this inspection?

No

3) Facility Description

Observation
Category 3 - Fluid Therapy Pharmacy. Sterile and Non Sterile Compounding Present. Hazardous Compounding Included

4) Have there been any changes in the TDDD's ownership, business name or trade name, category, or address without submitting a new application to the Board?

No

5) *Does the TDDD have a valid registration issued by the Drug Enforcement Administration?

Yes

Observation
BS7232046

6) Is the Responsible Person present during the inspection?

Yes

7) How often is the Responsible Person at the TDDD?

Observation
Full Time

9) Does the TDDD ensure all individuals are acting within their scope of practice?

Yes

37.1) Definitions – pharmacy compounding (OAC 4729:7-2-01)

1) Does the pharmacy compound?

Yes: Non-sterile Compounding

Yes: Sterile Compounding

Yes: Hazardous Compounding

37.2) Sterile compounding exemptions (OAC 4729:7-2-02)

1) Does the pharmacy compound non-hazardous, conventionally manufactured sterile products in accordance with the directions contained in approved labeling provided by the product's manufacturer?

Yes

2) Do the conventionally manufactured non-hazardous sterile products compounded in accordance with the manufacturer approved labeling meet the requirements of the rule to be exempted from OAC 4729:7-2 Pharmacy Compounding?

No

37.3) Drugs compounded in a pharmacy (OAC 4729:7-2-03)

1) Does the pharmacy compound non-sterile drug products?

Yes: The pharmacy prepares non-hazardous, conventionally manufactured non-sterile products in accordance with the directions contained in the approved labeling provided by the product's manufacturer (e.g., reconstitution) and these products are exempt from USP<795>

Yes: The pharmacy compounds non-sterile drug products and must be in compliance with USP<795>

2) Does the pharmacy compound sterile drug products?

Yes: Pharmacy compounds sterile drug preparations and must comply with USP<797>

3) Does the pharmacy compound antineoplastic hazardous drug preparations listed in table 1 of the NIOSH list?

Yes.

4) Does the pharmacy compound non-antineoplastic hazardous drugs listed in NIOSH table 1, and/or compounds with hazardous drug preparations listed in NIOSH table 2 or 3?

Yes.

5) How does the pharmacy comply with OAC 4729:7-2-03 for non-antineoplastic compounded hazardous drug preparations listed in NIOSH table 1 and/or for compounded hazardous drug products listed in NIOSH table 2 or 3?

Pharmacy states it complies with USP 800

8) Do only appropriate personnel engage in compounding at a pharmacy?

Yes: Pharmacist

Yes: Certified certified pharmacy technician, registered pharmacy technician, or pharmacy technician trainee under the personal supervision of a pharmacist

9) Is a pharmacist responsible for compounded drug preparations?

Yes: A pharmacist conducts the final check of a compounded drug preparation

Yes: A pharmacist is responsible for dispensing compounded drug preparations

Yes: A pharmacist maintains all compounding records

Yes: A pharmacist is responsible for the proper maintenance, cleanliness and use of all equipment used in compounding

10) Are drugs compounded pursuant to a patient specific prescription issued by a licensed health professional authorized to prescribe drugs?

Yes.

14) Do compounded drugs labeled for outpatients include the additional labeling requirements of the rule?

Yes: Contains the statement "compounded drug" or similar statement

Yes: Contains the name and address of the pharmacy as it appears on the TDDD license

Yes: Contains the full name of the patient, or if an animal, the last name of the owner, the animal name and species.

Yes: Contains the directions for use of the drug

Yes: Contains the date of dispensing

Yes: Contains any cautions required by federal law

Yes: Contains the serial number of the prescription

Yes: Contain the proprietary name, if any, or the generic name and the name of the distributor or national drug code of the drug dispensed, and the strength, if more than one strength of the drug is marketed. The dispensing pharmacist may omit the name and strength of the drug only if the prescriber specifically requests omission and such request is documented

Yes: Contain the quantity of the drug dispensed

16) Does the pharmacy maintain a system for the safe disposal of drug waste?

Yes

17) Does the pharmacy comply with the drug database reporting requirements for compounded drugs?

Yes: OARRS reportable compounded patient specific drugs are reported to OARRS within 24-hours of being dispensed

18) Does the pharmacy report to the board within 72-hours upon discovery any product quality issue attributed to a compounded drug preparation dispensed by the pharmacy?

No: The pharmacy has not experienced any reportable product quality issues, but understands the reporting requirements.

19) Does the pharmacy report to the board within 72-hours of receipt any warning letters, injunctions, or decrees issued in relation to the pharmacy by the FDA?

No: The pharmacy has not received a warning letter, injunction or decree from the FDA, but understands the reporting requirement.

37.4) Record keeping (OAC 4729:7-2-04)

1) Do records of drugs compounded in a pharmacy include all of the required elements?

Yes: Includes the patient name

Yes: Includes the drug name, strength or activity, and dosage form

Yes: Includes the assigned internal identification number (e.g., prescription, order, lot number)

Yes: Includes the date and time of preparation

Yes: Includes the name of each ingredient

Yes: Includes the vendor, lot number, and expiration date for each ingredient for compounded drug preparations prepared for more than one patient and for any sterile compounded product prepared from nonsterile ingredients

Yes: Includes the weight or volume of each ingredient

Yes: Includes the total quantity compounded

Yes: Includes the disposition of unused controlled substances drug(s), and amount

Yes: Includes the assigned beyond-use date

Yes: Inlcudes the positive identification of the pharmacy personnel responsible for preparing the compounded drug preparation

Yes: Includes the positive identification of the pharmacist conducting the final check of the compounded preparation

Yes: Includes the positive identification of the pharmacist who dispensed the compounded drug preparation

Yes: Includes records that are compliant to USP 795, 797 and 800 requirements

2) Compounding records are readily retrievable and uniformly maintained for at least 3 years.

Yes, records are readily retrievable

Yes; records are uniformly maintained

Yes; records are maintained for at least 3 years

3) Are all records maintained for at least 3 years?

Yes: Records are kept on-site for 3 years

37.5) Drugs compounded for veterinarian office use (OAC 4729:7-2-05)

1) Does the pharmacy compound drugs intended for animal use by licensed veterinarians?

Yes: Ohio licensed pharmacy

2) Does the pharmacy compound non-patient specific drugs pursuant to a request made by a veterinarian for direct administration to patients in the course of the veterinarian's practice?

Yes

3) Does the pharmacy only provide non-commercially available non-patient specific compounded drugs to veterinarians for the permitted reasons?

Yes: To treat an emergency situation

Yes: For an unanticipated procedure or treatment for which a time delay would negatively affect a patient outcome

Yes: For diagnostic purposes

4) Are only limited quantities of non-patient specific compounded drugs provided to veterinarians in compliance with the rule?

Yes: The quantity supplied is sufficient for that veterinarian's office use consistent with the beyond use date of the preparation

Yes: The quantity supplied is reasonable considering the intended use of the compounded preparation and nature of the veterinarian's practice

Yes: The pharmacist who provides the veterinarian with the compounded drug exercised professional judgement as to whether the quantity of the drug supplied was appropriate

6) Does pharmacy sell compounded drugs to another pharmacy or facility registered as a drug distributor?

No

8) Reminder: Pharmacy sale of a non-patient specific compounded drug preparation is an occasional sale pursuant to OAC 4729:5-3-09 Occasional sale and drug transfers.

37.6.1) Introduction and Scope

3) Does the facility compound CNSPs (compounded nonsterile products)?

Yes: Solid oral preparations

Yes: Liquid oral preparations

Yes: Rectal preparations

Yes: Vaginal preparations

Yes: Topical preparations (i.e., creams, gels, and ointments)

Yes: Nasal and sinus preparations intended for local application (i.e., nasal sprays and nasal irrigations)

Yes: Otic preparations (excluding use in perforated ear drums)

4) Does the facility perform any practies that are not considered compounding, and are therefore not subject to the requirements of USP 795?

No: The facility does not perform any practices not subject to the requirements of USP 795.

5) Are compounding leadership and all personnel involved in preparing, storing, transporting, packaging, and dispensing CNSPs responsible for compliance with USP 795?

Yes: Compounding personnel are responsible for ensuring that the applicable practices and quality standards in USP 795 are continually and consistently applied to their operations.

Yes: Compounding personnel proactively identify and remedy potential problems within their operations.

Yes: Personnel engaged in compounding and dispensing of CNSPs comply withy laws and regulations of the applicable regulatory jurisdiction.

6) Has the facility appointed a designated person?

Yes

Observation
Alyssa Turner

7) What activities is the designated person responsible for?

Oversees a training program to ensure competency of personnel involved in compounding, handling, and preparing CNSPs

Selecting components

Monitoring and observing compounding activities and taking immediate corrective action if deficient practices are observed

Ensuring that standard operating procedures (SOPs) are fully implemented.

Ensuring that follow-up is carried out if problems, deviations, or errors are identified

Establishing, monitoring, and documenting procedures for the handling and storage of CNSPs and/or components of CNSPs

37.6.2) Personnel Training and Evaluation

1) Do all personnel who compound or have direct oversight of compounding receive initial training before being allowed to perform their job functions independently?

Yes

2) Has the designated person created and implemented a training program that equips personnel with knowledge and training in the required skills necessary to perform their assigned tasks?

Yes: Frequency of training is described

Yes: Process for evaluating the competency of personnel is described

Yes: Equips personnel with the skills to perform their assigned tasks.

3) Do personnel who compound or have direct oversight with compounding personnel complete training initially and at least every 12 months?

Yes

4) Do SOPs describe training requirements for personnel who do not compound and only perform functions such as in-process checks, final verification, or dispensing?

Yes

5) Does facility training demonstrate knowledge and competency initially and at least annually in the core competencies?

Yes: Hand hygiene

Yes: Garbing

Yes: Cleaning and sanitizing

Yes: Handling and transporting components and CNSPs

Yes: Mixing and measuring

Yes: Proper use of equipment and devices selected to compound CNSPs

Yes: Documentation of the compounding process

6) Do training procedures include a review of appropriate written materials?

Yes: USP 795

Yes: Staff understand and interpret safety data sheets (SDSs)

Yes: Staff understandi certificates of analysis (CofA)

Yes: Staff read and understand procedures related to their compounding duties

7) Does the training process document personnel have been trained and successfully completed competency assessments?

Yes: Personnel are observed and guided throughout the training process.

Yes: Personnel are expected to repeat procedures independently under direct supervision.

Yes: Personnel are permitted to perform the procedure without direct supervision only after independently demonstrating understanding and competency.

Yes: Upon completion of the training program the designated person or assigned trainer documents personnel have been successfully trained and completed competency assessments.

8) Does the designated person monitor and observe compounding activities?

Yes: Routinely monitors and observes compounding activities

Yes: Takes immediate corrective action if deficient practices are observed.

9) Does the facility have SOPs that describe the procedures for monitoring and observing compounding activities and personnel?

Yes

37.6.3) Personal Hygiene and Garbing

1) Does the facility require that individuals entering the compounding area maintain appropriate personal hygiene?

Yes: Individuals are trained to report conditions that present a personal risk of potential contamination to the compounding environment and CNSP to the designated person.

Yes: The designated person evaluates whether individuals should be excluded from working in the compounding area until personal conditions resolve.

2) Do personnel remove items that are not easily cleanable and that might interfere with garbing prior to entering the compounding area?

Yes: Personnel remove outer garments (e.g., bandanas, coats, hats and jackets) prior to engaging in compounding.

Yes: Personnel remove all hand, wrist, and other exposed jewelry, including piercings that could interfere with the effectiveness of garbing or hand hygiene (e.g., watches, rings) prior to engaging in compounding.

Yes: Personnel remove earbuds/headphones prior to engaging in compounding.

3) Does the designated person permit accommodations for personal items provided that the quality of the environment and CNSP are not affected?

No accommodations for personal items are provided.

4) Do compounding staff perform appropriate hand hygiene procedures when entering the compounding area?

Yes: Personnel wash hands with soap and water for at least 30 seconds

Yes: Personnel dry hands completely with disposable towels or wipers

Yes: Personnel don gloves

5) Does the facility wipe or replace other items before beginning to compound a CNSP that has different components?

Yes

6) Do compounding personnel inspect gloves for holes, punctures or tears?

Yes: Gloves are replaced immediately if defects are detected.

7) Are gloves worn for all compounding activities?

Yes

8) Is other garb appropriate for the type of compounding performed?

Yes: Garb protects personnel from chemical exposures

Yes: Garb prevents CNSP contamination

Yes: Garbing requirements are determined by the facility and documented in the SOPs.

Yes: Frequency of changing garbing is determined by the facility and documented in the facility's SOPs.

9) Is garbing replaced immediately if it becomes visibly soiled or if its integrity is compromised?

Yes

10) Is garb stored in a manner that minimizes contamination?

Yes

11) Is garb removed and discarded when leaving the compounding area?

Yes: All garb, except gowns (as applicable), are removed and discarded when leaving the compounding area.

Yes: Unsoiled/undamaged gowns remain in the compounding area for reuse during the same shift.

12) Do facility SOPs describe cleaning and sanitization procedures for reusing goggles, respirators, and other reusable equipment?

Yes

13) Is appropriate PPE worn and disposed of in accordance with USP 800 for hazardous drug compounding?

Yes

37.6.4) Buildings and Facilities

1) COMPOUNDING AREA: Is there a designated area for nonsterile compounding?

Yes: The method of designation is described in the facility's SOPs.

Yes: Other activities are not occurring in the compounding area at the same time as compounding.

2) Is the compounding area suitable?

Yes: The compounding area is well lit, clean, orderly, and sanitary condition

Yes: The compounding area is in a good state of repair.

Yes: The compounding area is not carpeted.

4) STORAGE AREA: Are temperatures monitored and recorded in the compounding area?

Yes: Temperature readings are documented on a log.

Yes: Temperatures are monitored with a continuous recording device.

Yes: Temperatures are stored in the continuous temperature device and are retrievable.

5) Is temperature monitoring equipment calibrated or verified for accuracy?

Yes: As recommended by the manufacturer

Yes: Every 12 months if not specified by the manufacturer.

6) Does the facility have a process to evaluate CNSPs exposed to temperature excursions?

Yes

7) Are all CNSPS, components, equipment and containers stored off the floor?

Yes

8) WATER SOURCES: Does the facility have an easily accessible sink with hot and cold water?

Yes

9) Is the sink empty of all items unrelated to compounding?

Yes

10) Is the sink cleaned when visibly soiled before being used to clean compounding equipment?

Yes

11) Are plumbing systems free of defects that may contribute to CNSP contamination?

Yes

12) Is purified water used for rinsing equipment and utensils?

No

37.6.5) Cleaning and Sanitizing

1) Are work surfaces cleaned at appropriate intervals?

Yes: Beginning and end of each shift

Yes: After spill/splash contamination is known or suspected

Yes: Between compounding CNSPs with different components

2) Are floors cleaned at appropriate intervals?

Yes: On days compounding occurs

Yes: After spills

Yes: When surface contamination is known or suspected

3) Are walls cleaned at appropriate intervals?

Yes: When visibly soiled

Yes: After spills

Yes: When surface contamination is known or suspected

4) Are ceilings cleaned at appropriate intervals?

Yes: When visibly soiled

Yes: When surface contamination is known or suspected

5) Is storage shelving cleaned at appropriate intervals?

Yes: at least every 3 months

Yes: After spills

Yes: When surface contamination is known or suspected

6) Are surfaces resistant to damage caused by cleaning and sanitizing agents?

Yes

7) Are floors in the compounding area easily cleanable?

Yes: Floors are non-porous.

Yes: Floors are not particle generating.

8) Are appropriate cleaning and sanitizing agents used?

Yes

37.6.6.1) Equipment

1) Is the equipment used in the compounding process suitable?

Yes: Equipment surfaces are not reactive, additive or sorptive.

Yes: Equipment surfaces do not alter the quality of the CNSP.

Yes: Disposable or dedicated equipment is used to reduce the chance of bioburden and cross contamination.

2) Is the equipment used in compounding stored in a manner that minimizes the risk of contamination?

Yes. Equipment is stored in a manner that minimizes contamination risk.

Yes: Equipment is located to facilitate use, maintenance and cleaning.

3) Is equipment used in compounding or testing of compounded preparations properly inspected and maintained?

Yes: Inspected prior to use

Yes: Equipment is verified for accuracy as recommended by the manufacturer or at least every 12-months.

Yes: Equipment is cleaned after compounding

4) Are activities that generate airborne chemical particles performed in a closed-system processing device?

Yes: There is a process in place to identify components that could generate airborne chemical particles.

Yes: Particle generating components are manipulated in a closed system processing device

Yes: Facility SOPs document the assessment of particle generating components.

5) Are CVSs and/or BSCs certified at least every 12-months?

Yes: The CVE or BSC is certified according to manufacturer specifications.

6) CVE: Is the CVE cleaned and sanitized according to minimum USP frequencies?

Yes: Beginning and end of each shift on days when compounding occurs

Yes: After spills/surface contamination is known or suspected

Yes: The horizontal work surface of the CVE is cleaned between compounding CNSPs with different components.

8) Are other devices and equipment used in compounding cleaned according to USP minimum frequencies?

Yes: Before their first use

Yes: According to manufacturer recommendations

Yes: Cleaned between compounding CNSPs with different components, if no manufacturer recommendation is available

37.6.6.2) Components

1) Does the facility have written SOPs for the selection and inventory control of all components from receipt to use in a CNSP?

Yes

2) Are SDSs readily accessible to all personnel working with components?

Yes

3) Is the designated person responsible for component selection?

Yes

4) API COMPONENT SELECTION: Do APIs used in compounding comply with USP 795?

Yes: Components comply with USP monographs, if one exists.

Yes: Components have a COA that includes specifications and test results showing the API meets expected quality.

Yes: Components are manufactured at an FDA-registered facility.

5) COMPONENTS OTHER THAN APIs: Do other components used in compounding comply with USP 795?

Yes: Components are accompanied by a COA that verifies the component meets the criteria in the USP/NF, if one exists.

Yes: Components are manufactured in an FDA-registered facility.

Yes: If a component cannot be obtained form an FDA-registered facility, the designated person selects a component for suitable for the intended use.

6) WATER: Is purified water or better quality used for compounding nonsterile drug preparations?

Yes

7) COMPONENT RECEIPT: Is the COA of non-conventionally manufactured products reviewed?

Yes: Review documents the receipt date, quantity received, and supplier name.

Yes: Review documents the lot number and expiration date.

Yes: Review documents the results of any in-house or third-party testing performed.

8) COMPONENT RECEIPT: Does the facility has a process to identify and label components that lack a vendor expiration date?

Yes: Marks components with the date of receipt.

Yes: Assigns a BUD of not more than 3 years from the date of receipt.

Yes: APIs and added substances that are used in sterile compounding are assigned a BUD of not more than 1-year from the date of receipt.

Yes: APIs and added substances known to be susceptible to degradation are assigned a 1-year expiration date.

9) COMPONENT RECEIPT: Are components found to of unacceptable quality are promptly rejected?

Yes: labeled as rejected and segregated from active stock

Yes: Other lots of rejected components from the same vendor are examined

10) COMPONENT EVALUATION: Are components visually inspected prior to use?

Yes

11) COMPONENT EVALUATION: Is a process in place to ensure components are of the correct identity and were properly stored prior to each use?

Yes

12) COMPONENT HANDLING: Are components handled in accordance with manufacturer instructions and/or pre applicable laws and regulations?

Yes

13) COMPONENT HANDLING: Are components removed from the original container discarded if not used?

Yes

14) COMPONENT SPILL AND DISPOSAL: Does the facility maintain current chemical hazard and disposal information?

Yes

15) COMPONENT SPILL AND DISPOSAL: Is the facility prepared to handle a nonhazardous component spill?

Yes: The management and documentation of nonhazardous component spills and disposal is described in the facility SOPs.

Yes: Spill kit is readily accessible in the compounding area.

Yes: Personnel required to remediate spills receive training in spill management of chemicals used and stored in the compounding facility.

Yes: Spill training is conducted and documented at least every 12 months for all personnel required to clean up spills.

16) COMPONENT SPILL AND DISPOSAL: Is component waste disposed of in accordance with laws and regulations?

Yes

37.6.7) Master Formulation and Compounding Records

1) MASTER FORMULAS: Does the facility have a master formula for each unique formulation of a CNSP?

Yes: Changes and alterations are approved and documented

Yes: SOPs describe how master formulas are created, altered and approved

2) MASTER FORMULAS: Do master formulas contain all required elements?

Yes: Contain the name, strength or activity, and dosage form

Yes: Contain the identities and amounts of all components

Yes: Contain the relevant characteristics of components (e.g., particle size, salt form, purity grade, solubility, etc.), if appliable

Yes: Contain the container closure system

Yes: Contain complete instructions for preparing the CNSP

Yes: Contain the equipment and supplies needed

Yes: Contain a description of the compounding process

Yes: Contain a physical description of the final CNSP

Yes: Contain beyond-use date and storage requirements

Yes: Contain a reference source for assigned BUD

Yes: Contain calculations to determine and verify quantities and/or concentrations of components and strength or activity of the API(s), where appliable

Yes: Contain labeling requirements (e.g. shake well)

Yes: Contain quality control (QC) procedures (e.g., pH testing, visual inspection, etc.) and expected results

Yes: Contain other information needed to describe the compounding process and ensure repeatability (e.g., adjusting pH, temperature, etc.)

3) COMPOUNDING RECORDS: Does the facility create a compounding record for each CNSP?

Yes

4) COMP0OUNDING RECORDS: Do compounding records contain all the required elements?

Yes: Contain the name, strength or activity, and dosage form

Yes: Contain the date (or date and time) of preparation

Yes: Contain an assigned internal identification number (Rx number or lot number)

Yes: Contain a method to identify individuals involved in the compounding process

Yes: Contain a method to identify the individual(s) verifying the final CNSP

Yes: Include the name, vendor or manufacturer, lot number, and expiration date of each component

Yes: Include the weight or measurement of each component

Yes: Include the total quantity of CNSP compounded

Yes: Contain the assigned beyond-use date

Yes: Contain the storage requirements of the CNSP

Yes: Contain calculations to determine and verify quantities and/or concentrations of components and strength or activity of the API(s), where applicable

Yes: Contain a physical description of the final CNSP

Yes: Contain the results of quality control procedures (e.g., pH testing, visual inspection, etc.)

Yes: Contain a reference to the master formula record for the CNSP

37.6.8) Release Inspections and Testing

1) Are all release inspections included in the facility's documentation?

Yes

2) Do visual inspections confirm the CNSP is ready for releasing and dispensing?

Yes

3) Are CNSPs not dispensed or released on day of preparation visually inspected before being dispensed?

Yes

37.6.9) Labeling

2) Do prepared CNSP contain a label with the minimum required information in USP 795?

Yes: Contain the assigned internal identification number

Yes: Contain the active ingredients and their amounts, activities, or concentrations

Yes: Contain the storage conditions, if other than controlled room temperature

Yes: Contain the beyond use date

Yes: Contain the dosage form

Yes: Contain the total amount or volume, if it is not obvious from the container

Observation
(Lot number, Rx number, etc.)

3) Do labels on dispensed CNSPs contain all information required by USP 795?

Yes: Contain the route of administration

Yes: Indicate the preparation was compounded

Yes: Include any applicable special handling instructions

Yes: Iclude any applicable warning statements

Yes: Contain the compounding facility name and contact information if the CNSP is sent outside the facility or healthcare system in which it was compounded

4) Do facility SOPs describe labeling procedures?

Yes: Labeling procedures are defined in facility SOPs.

Yes: Procedures include processes to prevent labeling errors.

Yes: CNSP label verification includes confirmation of the prescription or medication order.

Yes: CNSP label verification includes confirmation of the master formula record and compounding record.

37.6.10.1) Terminology and Parameters

2) Does the facility consider parameters which may affect CNSP quality when assigning a BUD?

Yes: Include a review of chemical and physical stability properties of the API

Yes: Include a review of the chemical and physical stability of any added substances in the preparation

Yes: Include a review of the compatibility of the container closure system with the finished preparation

Yes: Include a review of the degradation of the container closure system which can lead to a reduction of the integrity of the CNSP

Yes: Include a review of the potential for microbial proliferation in the CNSP

Yes: Include a review for significant deviations from essential compounding steps and procedures which may impact the stability of the formulation?

37.6.10.2) Establishing a BUD

4) Does the facility assign BUDs in accordance with USP 795?

Yes, non-preserved aqueous dosage forms in the absence of a USP/NF monograph or CNSP specific stability information are assigned a BUD of 14 days refrigerated.

Yes, preserved aqueous dosage forms in the absence of a USP/NF monograph or CNSP specific stability information are assigned a 35-day BUD.

Yes, non-aqueous oral liquids in the absence of a USP/NF monograph or CNSP specific stability information are assigned a 90 day BUD.

Yes, other non-aqueous dosage forms in the absence of a USP/NF monograph or CNSP specific stability information are assigned a 180 day BUD.

Yes, in the absence of specific storage conditions, CNSPs are protected from moisture, freezing, and excessive heat, and where necessary, from light.

37.6.10.3) CNSPs Requiring a Shorter BUD

1) Does the facility have a process to determine if data shows a CNSP requires a shorter BUD?

Yes, processes are in place to determine if a shorter BUD is required for a compounded CNSP.

2) Are assigned BUDs shorter than the shortest remaining expiration date of any commercially available starting components?

Yes.

3) Are BUDs shorter than the shortest BUD of any of the individual compounded components?

Yes.

37.6.10.4) Extending BUDs for CNSPs

1) Are all CNSPs with a USP-NF monograph assigned a BUD that does not exceed the BUD specified in the monograph?

Yes:

37.6.11) SOPs

1) Does the facility have SOPs on all aspects of the compounding operation?

Yes.

2) Are all personnel who conduct or oversee compounding activities trained in the facility SOPs?

Yes. SOP training is on file.

3) Is an employee designated to ensure facility SOPs are fully implemented?

Yes, one (or more) person(s) are designated to ensure the facility SOPs are fully implemented.

37.6.12) Quality Assurance and Quality Control

2) Are QA and QC programs formally established?

Yes, QA and QC programs are documented in the facility's SOPs.

Yes,. QA and QC programs ensure all aspects of CNSP compounding are conducted in accordance with USP 795.

Yes, QA and QC programs ensure all aspects of CNSP compounding are conducted in accordance with state and federal laws.

3) Are QA and QC programs complete?

Yes, programs establish a system to ensure adherence to procedures.

Yes, programs establish a system to prevent and detect errors and other quality problems.

Yes, programs establish a system to evaluate complaints and adverse events.

Yes, programs establish a system for appropriate investigations and corrective actions.

4) Do facility SOPs describe each aspect of the QA program?

Yes, SOPs describe the roles, duties, and training of personnel responsible for each aspect of the QA program.

Yes, the designated person responsible for the QA program has training, experience, and authority to perform QA duties.

5) Is the QA and QC program reviewed annually by the designated person?

Yes, the results of the review is documented.

Yes, appropriate action is taken if needed.

6) RECALL PROCEDURES: Does the facility have recall procedures in place?

Yes, there is a procedure to determine if a recall must be initiated.

Yes, procedures include immediate notification to prescribers if a compounded product fails specifications and may result in patient harm.

Yes, procedures include the recall of any unused dispensed CNSPs.

Yes, procedures include the quarantine of any remaining stock in the facility.

Yes, procedures include the investigation of other lots for recall.

Yes, other lots are recalled if necessary.

7) RECALL PROCEDURES: Do SOPs for recalls of dispensed CNSPs contain all elements required by USP 795?

Yes, SOPs describe procedures to determine the severity of the problem and the urgency for implementation and completion of a recall.

Yes, SOPs describe procedures to determine the distribution on any affected CNSP, including the data and quantity of distribution.

Yes, SOPs describe procedures to identify patients who have received the CNSP.

Yes, SOPs describe methods for disposal and documentation of the recalled CNSP.

Yes, SOPs describe procedures for investigation and documentation of the recall.

8) RECALL PROCEDURES: Do SOPs for recalls require documentation and notification to the appropriate regulatory bodies?

Yes, the facility has a policy to report recalls to the appropriate regulatory body, but no recalls have occurred.

9) COMPLAINT HANDLING: Does the facility have a SOP for handling complaints?

Yes, there is an SOP for complaint handling.

10) COMPLAINT HANDLING: Are complaints reviewed to identify potential quality problems?

Yes, the designated person reviews all complaints to determine if there is a quality problem with the CNSP.

Yes, nnvestigations identify the root cause of the problem.

Yes, investigations consider if the quality problem extends to other CNSPs.

Yes, corrective actions are taken for all potentially affected CNSPs.

Yes, the complaint is evaluated to determine if a recall of potentially affected CNSPs is required.

Yes, the complaint is evaluated to determine if the facility should cease some or all non-sterile compounding processes until the problem has been identified and corrected.

11) COMPLAINT HANDLING: Are records of complaints readily retrievable and complete?

Yes, a record of each complaint is maintained in a readily retrievable format.

Yes, records contain the name of the complainant or other unique identifier.

Yes, records contain the date the complaint was received.

Yes, records identify the nature of the complaint.

Yes, records contain the response to the complaint.

Yes, records include the name and strength of the CNSP involved in the complaint.

Yes, records include the CNSP internal identification number (Rx number or lot number).

12) COMPLAINT HANDLING: Do complaint records include the findings of investigation?

Yes, records include the findings of the investigation.

Yes, records document post investigation follow up.

Yes, records are readily retrievable.

Yes, records are evaluated for possible trends.

13) COMPLAINT HANDLING: Are CNSPs returned in connection with a complaint quarantined and destroyed?

Yes, CNSPs returned in conjunction with a complaint are quarantined.

Yes, CNSPs returned in conjunction with a complaint are destroyed after completion of the investigation.

14) ADVERSE EVENT REPORTING: Are adverse events properly reported?

Yes, there is a policy to report adverse events which reveal CNSP quality problems to those patients and prescribers potentially affected, but no such events have occurred.

37.6.13) CNSP Packaging and Transporting

1) Do facility SOPs include CNSP packaging requirements?

Yes, packing materials maintain the physical and chemical integrity of the CNSP.

Yes, packing materials maintain the stability of the CNSP.

Yes, packing materials protect from damage, leakage, contamination and degradation.

Yes, packing materials protect personnel from exposure.

2) Do SOPs describe CNSP transport?

Yes, SOPs describe the mode of CNSP transportation.

Yes, SOPs describe CNSP special handling instructions.

Yes, SOPs instruct when temperature monitoring devices are needed.

37.6.14) Documentation

1) Does the facility maintain written or electronic documentation demonstrating compliance with USP 795?

Yes, the facility maintains documentation of personnel training, competency assessments, and qualification records including corrective actions for any failures.

Yes, the facility maintains equipment records (e.g., calibration, verification, maintenance reports).

Yes, the facility maintains COAs and all documentation required for components not conventionally manufactured.

Yes, the facility maintains records of receipt for all components.

Yes, the facility maintains all SOPs, master formula records, and compounding records.

Yes, the facility maintains all release inspection and testing records.

Yes, the facility maintains all information related to complaints and adverse events including corrective actions taken.

Yes, the facility maintains results of all investigations and corrective actions.

Yes, the facility maintains all records of cleaning and sanitizing the designated compounding area.

Yes, the facility maintains all temperature logs.

Yes, the facility maintains records of all accommodations to personnel compounding CNSPs.

Yes, the facility maintains records of all required routine reviews (e.g., yearly review of QA and QC programs, yearly review of chemical hazard and disposal information, etc.)

2) Does the facility maintain required documentation in a readily retrievable manner for at least 2 years?

Yes, records are legible.

Yes, records are stored in a manner that prevents deterioration or loss.

Yes, all compounding records are readily retrievable for at least 2 years (3 for Ohio).

37.7.1.1) Scope/Administration/Immediate Use CSPs/Prep per Approved Labeling/ CSP Categories

13) PROPRIETARY BAG AND VIAL SYSTEMS: Does the facility prepare proprietary bag and vial systems which are exempt from USP 797?

No.

37.7.2.1) Knowledge and Competency of Core Skills

1) Does the designated person ensure personnel who compound are initially and annually trained and qualified to sterile compound?

Yes. The designated person creates and implements a training program for personnel.

Yes. The designated person ensures compounders are trained and qualified before being able to perform their job functions independently.

Yes. The designated person ensures personnel who have direct oversight over compounding are trained and qualified before being able to perform their job functions independently.

Yes. The designated person ensures personnel who perform restocking or cleaning and disinfection duties are trained and qualified before being able to perform their job functions independently.

Yes. Training and observation is performed by the designated person or an assigned trainer.

Yes. Training is completed initially and at least every 12 months in appropriate sterile compounding practices. .

Yes. Personnel who perform only restocking or cleaning and disinfecting duties outside the PEC complete ongoing training according to facility SOPs

Yes. Personnel who compound only immediate use CSPs are trained according to facility SOPs. q

2) Does the facility have a written training program?

Yes. the program describes the required training.

Yes. The program describes the frequency of training.

Yes. The program describes the process for evaluating the performance of individuals who compound.

Yes. The program describes the process for evaluating the performance of individuals who have direct oversight of compounding personnel.

Yes. The program describes the process for evaluating the performance of individuals who perform in-process checks.

Yes. The program describes the process for evaluating the performance of individuals who perform final verification.

Yes. The program describes the process for evaluating the performance of individuals who perform the final dispensing of CSPs.

Yes. The program equips personnel with appropriate knowledge and skills to perform their assigned tasks.

Yes. SOPS specify the training required for each task.

Yes. Training and evaluation are documented.

3) Does initial training for compounding personnel and those with oversight of compounding personnel include all required elements in USP 797?

Yes. Knowledge of principals and competency of skills is assessed for hand hygiene.

Yes. Knowledge of principals and competency of skills is assessed for garbing.

Yes. Knowledge of principals and competency of skills is assessed for cleaning and disinfection.

Yes. Knowledge of principals and competency of skills is assessed for calculations, measuring, and mixing.

Yes. Knowledge of principals and competency of skills is assessed for aseptic technique.

Yes. Knowledge of principals and competency of skills is assessed for achieving and maintaining sterility (and apyrogenicity if applicable).

Yes. Knowledge of principals and competency of skills is assessed for use of equipment.

Yes. Knowledge of principals and competency of skills is assessed for documentation of the compounding process.

Yes. Knowledge of principals and competency of skills is assessed for principals of HEPA filtered unidirectional airflow within the ISO Class 5 area.

Yes. Knowledge of principals and competency of skills is assessed for proper use of PECs.

Yes. Knowledge of principals and competency of skills is assessed for principals of movement of materials and personnel within the compounding area.

4) Does the facility conduct initial training competencies for persons ancillary staff according to facility SOPs?

Yes. There are SOPS and initial training for personnel who restock and disinfect the compounding area.

Yes. There are SOPs and initial training for personnel who perform in-process checks or final verification of CSPs.

Yes. There are SOPs and initial training for personnel who only compound immediate use CSPs.

Yes. There are SOPs and initial training for other personnel (E.g., maintenance, certifiers, contractors, inspectors, surveyors).

5) Does the facility conduct ongoing training and competency evaluations according to facility SOPs?

Yes. Compounders complete ongoing training and competency evaluations in the principals of sterile compounding every 12 months

Yes. Compounders complete ongoing garbing and media fill competencies with gloved fingertip sampling and surface sampling every 6 months for category I & II compounding.

Yes. The designated person and personnel with direct oversight of compounding personnel complete training in sterile compounding principals, practices, garbing, and media fill testing with gloved fingertip testing and surface sampling at least every 12 months.

Yes. Personnel who restock or clean and disinfect the compounding area complete ongoing training and competencies according to facility SOPs.

Yes. Personnel who perform in-process checks or final verification of CSPs complete ongoing training and competencies according to facility SOPs

Yes. Personnel who only compound immediate use CSPs complete ongoing training and competencies according to facility SOPs.

Yes. Ancillary personnel (e.g., maintenance, certifiers, contractors, inspectors, surveyors) complete ongoing training and competencies according to facility SOPs

37.7.2.2) Garbing and Hand Hygiene

1) Is an initial garbing competency completed no fewer than 3 separate times prior to compounding Category I, II, or III CSPs?

Yes. Personnel successfully complete three initial garbing competencies in succession prior to compounding category I, II, or III CSPs.

Yes. Failure of any 3 initial garbing competency evaluations requires repeat testing until personnel successfully complete 3 evaluations in a row.

Yes. Garbing competency evaluations consist of visual observation and gloved fingertip and thumb sampling of both hands.

Yes. Each of the 3 initial competency evaluations occurs after performing a separate and complete hand hygiene and full garbing procedure.

Yes. All garbing competencies are completed with gloved fingertip and thumb sampling after garbing.

Yes. All garbing competencies are a documented visual audit.

Yes. All gloved fingertip and thumb sampling occurs after garbing but before applying sterile 70% IPA to gloves.

Yes. Gloved fingertip sampling is performed on donned sterile gloves on both hands in a classified area or segregated compounding area.

2) Are failed glove fingertip tests are properly identified and recorded?

Yes. Failure is indicated by visual observation of improper hand hygiene and garbing procedures.

Yes. Failure is indicated by gloved fingertip and thumb sampling results that exceed allowable action levels.

Yes. Results of failed evaluations and corrective actions are documented and maintained.

Yes. Documentation includes the name of the person evaluated.

Yes. Documentation includes the date and time of the evaluation.

Yes. Documentation includes the media and components used, including manufacturer, expiration date, and lot number .

Yes. Documentation contains the starting temperature for each interval of incubation and the dates of incubation.

Yes. Documentation contains the results of incubation.

Yes. Documentation contains the identification of the observer.

Yes. Documentation contains the identification of the person reading and documenting the results.

NOTE: Identification of the CFUs tis not required for glove fingertip testing.

3) Are repeat garbing competencies completed in accordance with USP 797?

Yes. Garbing competencies are repeated every 6 months for personnel who compound Category I and Category II CSPs.

Yes. Personnel who have direct oversight of compounding personnel but do not compound complete garbing competencies every 12-months.

Yes. Evaluations for personnel who have direct oversight of compounding personnel but do not compound correspond to the type of garbing activities of the personnel they oversee.

Yes. Personnel who have direct oversight of compounding who occasionally compound complete garbing competencies at the same interval as required for the category of CSP they compound.

4) Does the facility employ accurate gloved fingertip and thumb sampling procedures?

Yes. One sampling media device is used per hand containing general microbial growth agar that supports both bacterial and fungal growth.

Yes. Each media device is labeled with a personal identifier, right or left hand, and the date and time of sampling.

Yes. Sterile 70% IPS is not applied to gloves before touching the media device.

Yes. Samples are collected from all gloved fingertips and thumbs from both hands.

Yes. Collection includes rolling the fingertip pads and thumb pad over the surface area.

Yes. Samples are incubated at 30-35 C for no less than 48-hours and then at 20-25 C for no less than 5 additional days.

Yes. All samples (sample temperatures) are incubated in an incubator.

Yes. Sample plates are inverted.

Yes. Documentation includes the number of CFU per hand. (each hand)

Yes. CFU action levels are determined by counting the total number of CFU from both hands.

37.7.2.3) Aseptic Manipulation

1) Do personnel successfully complete an aseptic manipulation competency evaluation before beginning to compound or before overseeing compounding?

Yes. Aseptic manipulation competencies are completed by personnel prior to compounding Category I, II, or III CPS.

Yes. Aseptic manipulation competencies are completed by personnel who have direct oversight of compounding personnel.

Yes. The aseptic manipulation consists of a visual observation.

Yes. The aseptic manipulation consists of media fill testing followed by a gloved fingertip and thumb sampling on both hands, and surface sampling of the direct compounding area.

2) Do aseptic manipulation competencies occur at appropriate intervals?

Yes. Aseptic manipulation competencies occur every 6 months for personnel compounding category I and II CSPs.

Yes. Aseptic manipulation competencies occur every 12 months for personnel who have direct oversight of compounding.

Yes. Evaluations for personnel with direct oversight of compounding corresponds to the type of activities overseen, but does not require the same quantities.

Yes. People who have direct oversight of compounding do not compound unless they have completed aseptic compounding competencies at the same intervals and level of difficulty of compounding personnel.

3) Do media fill tests simulate the most difficult and challenging aseptic compounding procedures encountered by the compounder?

Yes. Simulations capture elements that could potentially affect the sterility of the CSP.

Yes. Simulations include the length of time needed to complete compounding.

Yes. Simulations include the number of aseptic additions or transfers.

Yes. Simulations include the number, type and complexity of manipulations.

Yes. Simulations include the number of personnel in the buffer room or SCA.

4) Is sterile microbial growth media appropriately handled and stored?

Yes. A CofA is obtained from the supplier stating the lot will support the growth of microorganisms.

Yes. Media is stored in accordance with manufacturer specifications.

Yes. Media is used discarded if expired.

Yes. If prepared inhouse the growth promotion capability of the media is demonstrated for each batch and documented per USP 71.

5) Does the facility document the results of a media fill test?

Yes. Failure is indicated by visible turbidity or other visual signs of growth in any container.

Yes. Failure is identified on or before the end of the incubation period.

Note: Microbial identification of the CFU is not required for media fill testing.

6) Is gloved fingertip and thumb sampling performed after media fill testing?

Yes. Gloved fingertip and thumb sampling is performed on both hands after media fill testing.

Yes. Sampling occurs in the ISO Class 5 PEC.

Yes. Gloved fingertip and thumb sampling in a CAI or CACI is performed on the sterile gloves placed over the gloves attached to the RABS or pharmaceutical isolator sleeves.

Yes. Successful completion of the sampling is defined as equal to or less than 3 CFU total for both hands.

Note: Microbial identification of the CFU is not required for gloved fingertip and thumb testing.

7) Does the facility correctly assess media fill competencies for pass/fail?

Yes. Surface sampling of the direct compounding area is completed with media fill testing.

Yes. A failure in the media fill, gloved fingertip and thumb sampling, or surface sampling constitutes an overall failure of the aseptic manipulation competency.

8) Are media fill competencies accurately documented?

Yes. Competencies record the name of the person evaluated.

Yes. Competencies record the evaluation date and time.

Yes. Competencies record the media components used, including their manufacturer and supplier.

Yes. Competencies record the expiration date and lot numbers.

Yes. Competencies record the starting temperature for each interval of incubation.

Yes. Competencies record the date of incubation.

Yes. Competencies record the results.

Yes. Competencies record the name or other identification of the obsrever.

Yes. Competencies record the name or other identification of he person who reads and documents the results.

9) Are media fill testing procedures compliant with USP 797?

Yes. For sterile to sterile manipulations the media is transferred into container closure systems commonly used by the facility, and media is not further diluted unless specified by the manufacturer.

Yes. For nonsterile to sterile compounding nonsterile soybean-casein digest is dissolved in nonbacteriosttic water to make a 3% solution.

Yes. for nonsterile to sterile compounding at least one container is prepared as a positive control.

Yes. When compounding is complete, a gloved fingertip and thumb sample is performed on each hand.

Yes. When compounding is complete, a surface sample is collected from the direct compounding area inside the PEC.

Yes. Direct surface samples and glove samples are taken prior to disinfecting.

Yes. Samples are handled to avoid contamination and are stored inverted.

Yes. Final containers are incubated at 20-25 C and 30-35 C for a minimum of 7 days each.

Yes. All incubation occurs in an incubator.

Yes. The order of incubation is described in the facility SOPs.

Yes. Failure is indicated by visible turbidity or other visual manifestations of growth in the media on or before day 14.

37.7.3) Personal Hygiene and Garbing

1) Are individuals with a higher risk of contaminating CSPs and the compounding environment evaluated by the designated person prior to entering a compounding area?

Yes. Individuals with conditions such as rashes, recent tattoos, oozing sores, conjunctivitis, or active respiratory infections report them to the designated person.

Yes. Individuals with conditions such as rashes, recent tattoos, oozing sores, conjunctivitis, or active respiratory infections are restricted from compounding areas.

2) Does the facility adhere to the minimum requirements for staff to enter a compounding area?

Yes. No food, including mints/gum are permitted in compounding areas.

Yes. Staff remove all personal outer garments prior to entering compounding areas.

Yes. Staff remove all cosmetics prior to entering compounding areas.

Yes. Staff remove all hand, wrist and other exposed jewelry that could interfere with the effectiveness of garbing, or otherwise increase the risk of contamination of the CSP.

Yes. Staff cover any jewelry that cannot be removed.

Yes. Staff to not ware earbuds or headphones.

Yes. Staff do not bring electronic devices that are not necessary for compounding or other required tasks into the compounding area.

Yes. Staff nails are clean, neatly trimmed and free of nail products (e.g., polish, artificial nails, extenders, etc.).

Yes. Staff wipe eye glasses if worn.

Yes. Any accommodations to personal preparations granted by the designated person are documented.

3) Do staff entering compounding areas where category I, II, or III CSPs are prepared complete hand washing?

Yes. Hands and forearms up to the elbows are washed with soap and water for at least 30 seconds.

Yes. Brushes are not used for hand hygiene.

Yes. Hand dryers are not used.

Yes. Disposable soap containers are not refilled to topped off.

Yes. Personnel clean underneath fingernails with warm running water and a disposable nail cleaner.

Yes. Personnel dry hands and forearms up to the elbows completely with low-lint disposable towels or wipers.

Yes. Personnel apply an alcohol-based hand rub to dry skin.

Yes. Personnel apply hand rub to one hand and rub hands together, covering all surfaces of hands and fingers, until hands are dry.

Yes. Hands are allowed to thoroughly dry before donning sterile gloves.

Yes. The order of handwashing and garbing is determined by the placement of the sink and is documented in the facility's SOPs.

Yes. Hands are sanitized with alcohol-based hand rub before donning sterile gloves. .

Yes. Sterile gloves are donned in a classified room or SCA.

4) For Category I and II CSPs do staff don and doff garb in specified areas in the specified order?

Yes. Garbing order reduces the risk of contamination.

Yes. Garb is donned in a classified area before entering the buffer room.

Yes. If hand hygiene is completed outside of a classified area, alcohol-based hand rub is used prior to donning garb.

Yes. Skin is not exposed inside the ISO 5 Class PEC.

Yes. Garb is not donned and doffed at the same time.

5) Does the facility follow the minimum garbing requirements for category I & 2 CSPs?

YEs. Personnel wear low lint garments with sleeves that fit snugly around the wrists and an enclosed neck.

Yes. Personnel wear low-lint covers for shoes.

Yes. Personnel wear low-lint head covers that cover the hair and ears.

Yes. If applicable, covers for facial hair are worn.

Yes. Low lint face masks are worn.

Yes. Sterile powder-free gloves are worn.

6) Is garb stored, replaced, disinfected and reused in a manner that prevents contamination?

Yes. Garb is replaced immediately if visibly soiled.

Yes. Garb is stored in a manner that minimizes contamination (e.g. away from sinks).

Yes. For Category I & II CSPs, gowns are reused during the same shift by the same person.

Yes. Gowns which are reused are stored in a classified area or adjacent to, or within the SCA in a manner that prevents contamination.

Yes. When exiting the compounding area all garb except for gowns is discarded.

Yes. .Facility SOPs describe disinfection procedures for reusing goggles, respirators, and other reusable equipment.

9) Are gloves inspected and changed at appropriate intervals?

Yes. Gloves are sterile and powder free.

Yes. Application of sterile 70% IPA occurs immediately before compounding.

Yes. Application of sterile 70% IPA occurs regularly throughout the compounding process.

Yes. Gloves are inspected for holes, punctures, and tears, and replaced immediately if defects are detected.

37.7.4) Facilities and Engineering Controls

4) Does the facility monitor and document appropriate temperature and humidity of the cleanroom suite?

Yes. The cleanroom suite is maintained at 20C (68F) or cooler.

Yes. The relative humidity of the cleanroom suite is maintained at 60% or below.

Yes. Temperature and humidity are monitored in each room of the cleanroom suite each day that compounding is performed by a manual or continuous recording device.

Yes. The results of temperature and humidity readings are documented at least once daily or retrievable from a continuous recording device.

Yes. Temperature and humidity readings are reviewed according to facility SOPs.

Yes. Temperature and humidity are controlled through a HVAC system.

Yes. Free standing air conditioners, humidifiers, and dehumidifiers are not used in the classified area or the SCA.

Yes. Monitoring devices are verified for accuracy at least every 12 months, or as required by the manufacturer.

Yes. The designated person ensures areas related to CSP preparation meet air quality and temperature standards.

5) Is the cleanroom suite design 797 compliant?

Yes. The anteroom and buffer room are separated from the surrounding unclassified areas by fixed walls and doors.

Yes. Controls are in place to minimize the flow of lower-quality air into the more controlled areas.

Yes. Classified rooms have a pressure differential monitoring system.

Yes. HEPA filtered air is introduced through the ceiling of anteroom and buffer room.

Yes. Air returns are low on the walls in the anteroom and buffer room.

Yes. There is a line of demarcation to separate the clean side and the dirty side of the anteroom.

Yes. The anteroom is entered through the dirty side and the clean side is the area closest to the buffer room.

Yes. There is a dirty anteroom which leads to a separate clean anteroom, which leads to the buffer room.

Yes. Tacky mats are NOT placed in ISO classified areas.

7) Are PECs used in sterile compounding certified to meet ISO Class 5 or better conditions?

Yes. The PECs are certified to meet ISO Class 5 or better conditions.

Yes. PECS are certified under dynamic operating conditions.

Yes. PECS are designed to minimize the risk of contamination during compounding.

Yes. Unidirectional air flow is maintained in the PEC.

Yes. HEPA filtered air is supplied by the PEC.

Yes. Air velocities are sufficient to sweep particles away from the critical sites and maintain unidirectional airflow during operations.

Yes. Proper design, control and use minimizesturbulence and creation of eddies or stagnant air in the PEC.

8) Identify the type of PECs the facility maintains.

Laminar Airflow Workbench

Class II Biological Safety Cabinet.

9) Are Laminar Airflow systems appropriately placed?

Yes. LAFS are located outside of traffic patterns.

Yes. LAFS are located away from room air currents that could disrupt airflow within the PEC.

Yes. If used to prepare Category II and III CSPs, the LAFs are located in a cleanroom suite with an ISO 7 or better buffer room and an ISO 8 or better anteroom.

Yes. Dynamic airflow smoke pattern tests are performed in the PEC initially and at least every 6 months.

14) Do ISO 7 Class rooms meet air change requirements?

Yes. A minimum of 30 ACPH of HEPA filtered air is supplied.

Yes. The total HEPA filtered ACPGH maintains ISO Class 7 during dynamic operating conditions.

Yes. At least 15 ACPH comes from the HVAC through HEPA filters located in the ceiling.

Yes. HEPA filtered air from the PEC increases the total ACPH to 30.

Yes. ACPH from the HVAC, PEC and the total ACPH are documented on certification reports.

15) Do ISO Class 8 rooms meet air exchange requirements?

Yes. A total of 20 ACPH of HEPA filtered air is supplied to ISO Class 8 rooms.

Yes. The HEPA filtered air exchange rate maintains ISO Class 8 conditions under dynamic operating conditions.

Yes. At least 15 ACPH of the total air exchange is supplied through the HVAC system.

Yes. The total ACPH is documented on the certification report.

16) Are pressure differentials continuously monitored, recorded, and sufficient to minimize airflow from areas with lower air-quality to areas of higher air quality?

Yes. A minimum differential positive pressure of 0.02 inch water column between adjacent ISO-classified areas.

Yes. The pressure differential between the anteroom and the unclassified space is not less than 0.02 inch water column.

Yes. Pressure differentials are continuously monitored.

Yes. Results from pressure monitoring devices are reviewed and documented at least daily on days when compounding occurs.

18) Is the cleanroom suite constructed of smooth, impervious surfaces, free from cracks, crevices and non-shedding materials for easy cleaning and disinfection?

Yes. Surfaces are resistant to damage by cleaning agents (e.g., rust, cleaning tools).

Yes. Junctures between the ceiling and walls and between walls and floors are sealed.

Yes. Ceiling panels are caulked around each panel.

Yes. Walls are constructed or covered with a durable material (e.g., epoxy painted, heavy-gauge polymer).

Yes. Wall panels are joined together and sealed.

Yes. Floors include coving to the side wall, or the juncture between the floor and the wall is caulked.

Yes. Classified areas minimize dust-collecting overhangs.

Yes. Dust collecting overhangs are easily cleanable.

Yes. The exterior lens surfaces of ceiling light fixtures are smooth, flush mounted, and sealed.

Yes. Other penetrations thorough ceilings or walls are sealed.

20) Are water sources restricted to authorized areas?

Yes. Surfaces of sinks are cleaned and disinfected daily each day of use.

Yes. A sporicidal agent is applied to sinks at least monthly.

Yes. In a cleanroom suite, the sink is inside the anteroom.

Yes. In a cleanroom suite, the sink is outside the anetroom.

Yes. If the sink is outside the anteroom it minimizes the risk of bringing contaminants into the anteroom.

Yes. The buffer room does not contained plumbed water sources.

Yes. The anteroom does not contain floor drains.

21) Are materials in the classified area or SCA appropriate?

Yes. Only furniture and equipment necessary for compounding are in the classified area or SCA.

Yes. Materials are low shedding and easily cleaned and disinfected.

Yes. The quantity, location, design, and instillation of equipment and materials does not impact environmental air quality.

Yes. No shipping cartons or corrugated or uncoated cardboard are allowed in classified areas or the SCA.

Yes. Carts used to transport components/equipment are nonporous and have easily cleanable casters/wheels.

Yes. Carts are not moved from the dirty to the clean side of the anteroom unless cleaned and disinfected.

22) Are equipment and materials in the PEC cleaned, disinfected and verified prior to entering the PEC?

Yes. Only equipment necessary for compounding is permitted in the PEC.

Yes. Placement of equipment is initially verified by dynamic airflow smoke pattern tests.

Yes. Dynamic airflow smoke pattern tests are repeated if equipment is placed in a different location.

Yes. Equipment is not moved/removed except for servicing, cleaning, calibration or other maintenance.

Yes. Equipment is cleaned and wiped with sterile 70% IPA or a suitable disinfectant before being returned to the classified area or SCA.

Yes. Materials exposed to patient care areas/treatment areas do not enter anterooms, buffer rooms or SCAs unless they are cleaned and disinfected.

Yes. If the designated person permits accommodations, they are documented.

37.7.5) Certification and Recertification

1) Are compounding areas initially and annually certified?

Yes. Airflow testing is performed to determine air velocity, air exchange rates, and pressure differentials.

Yes.. Airflow testing documents ACPH from HVAC, from the PEC, and total ACPH.

Yes. HEPA filter integrity testing is performed.

Yes. Total particle count testing is performed under dynamic operating conditions.

Yes. Dynamic airflow smoke pattern testing is performed for each PEC during dynamic operating conditions demonstrating unidirectional airflow and sweeping action away form the preparation.

2) Are classified areas recertified if there are changes to the area?

Yes. Classified areas are recertified if there is a redesign.

Yes. Classified areas are recertified if there is construction.

Yes. Classified areas are recertified if there is replacement or relocation of any PEC.

Yes. Classified areas are recertified if there is a change in room configuration which may affect airflow or air quality.

3) Does the designated person review certification reports to ensure proper documentation and corrective action is taken if needed?

Yes. The designated person reviews certification and recertification reports.

Yes. The designated person ensures the number of personnel present in each PEC and SEC during total particle count tests and dynamic airflow smoke pattern tests is documented.

Yes. A corrective action plan is implemented and documented in response to any out-of-range results.

Yes. Data collected from actions taken is reviewed to confirm effectiveness.

4) Are airborne particle counts conducted in all classified areas during dynamic operating conditions at least every 6 months?

Yes. Counts are taken in all classified areas during dynamic operating conditions.

Yes. Counts are taken at least every 6 months.

Yes. Measurements are taken in each PEC at locations where there is greatest risk to the exposed CSPs, containers, and closures.

Yes. When sampling care is taken to avoid disturbing unidirectional airflow in the PEC.

Yes. Sampling locations and procedures are described in the facility SOPs.

Yes. Measurements in other classified areas (not PECs) are taken in areas that reflect the quality of room air.

5) Does the facility investigate causes and take corrective action if air sampling results exceed the ISO criteria for the area sampled?

Yes. If particle counts exceed USP criteria an investigation is completed.

Yes. Corrective action is taken and documented if particle counts exceed USP criteria.

Yes. Data collected in response to corrective action confirms the corrective actions were effective.

Yes. The extent of the investigation is consistent with the deviation.

Yes. The corrective action includes an evaluation of trends.

37.7.6.1) General Monitoring Requirements

1) Does the facility have SOPs for microbiological air and surface monitoring?

Yes. Procedures are documented.

Yes. Test results are documented.

Yes. Corrective actions are documented.

Yes. Records are maintained in a manner that prevents deterioration and loss.

Yes. Records are maintained for 3 years.

Observation

USP 797 requirement is 2 years- Ohio requirement is 3-years.

2) Does the microbiological air and surface monitoring program include a documented review of air and surface sampling trends.

Yes. The program includes viable impact volumetric airborne particulate sampling.

Yes. The program includes surface sampling.

Yes. The program includes an evaluation of samples to detect contaminants.

Yes. The data is used to assess contamination risks (e.g., route, cleaning agents, etc.)

Yes. The results are reviewed in conjunction with personnel data.

Yes. The results of the review are documented.

Yes. Corrective actions are taken to maintain environmental quality.

Yes. Data following corrective actions is reviewed to confirm the effectiveness of corrections made.

3) Is air and surface sampling conducted in all classified areas during dynamic operating conditions?

Yes. Sampling is conducted in all classified areas.

Yes. Sampling is conducted under dynamic operating conditions.

Yes. Sampling is performed in conjunction with the certification of new facilities and equipment.

Yes. Sampling is conducted after any servicing of facilities or equipment.

Yes. Sampling is conducted in response to identified problems.

Yes. Sampling is conducted in response to identified trends.

Yes. Sampling is conducted in response to changes that could impact the sterile compounding environment.

4) Is the microbiological air and surface sampling program clearly defined in the facilities SOPs?

Yes. SOPs include a diagram of sampling locations.

Yes. SOPs include procedures for collecting samples.

Yes. SOPs include sampling frequency.

Yes. SOPs include the size of samples (e.g., surface area, volume of air).

Yes. SOPs include the time of day for sampling in relation to compounding activities.

Yes. SOPs include action levels that trigger corrective action.

Yes. Sampling locations include areas of highest possible risk of CSP contamination.

Yes. All samples are obtained during dynamic operating conditions.

Yes.. Surface sampling is performed at the end of compounding activity or a shift, but before areas are cleaned and disinfected.

Yes. The program minimizes risk that the sampling will contribute to CSP contamination.

Yes. Impact samplers area serviced and calibrated as recommended by the manufacturer.

37.7.6.2) Monitoring Air Quality for Viable Airborne Particles

1) Is volumetric active air sampling measured at the correct time and locations?

Yes. Sampling is conducted in each classified area.

Yes. Sampling is conducted during dynamic operating conditions.

Yes. For Category I & II CSPs sampling is completed every 6 months.

2) Are air sampling procedures appropriate?

Yes. A general microbiological growth media supporting the growth of bacteria and fungi is sued (e.g.,TSA).

Yes.. CofAs verify growth promotion, pH, and sterilization requirements.

Yes. Manufacturer directions are followed for operation of the impaction air sampler.

Yes. At least one cubic meter or 1000L of air is sampled at each location.

Yes. At the end of sampling, plates are inverted.

Yes. Plates are incubated at 30-35C for not less than 48 hours and CFUs are recorded if present.

Yes. Plates are then incubated at 20-25C fort not less than 5 additional days.

Yes. The total number of CFUs from both incubation times are recorded on a form which documents the sample type, location and date.

Yes. Two sampling media devices are collected for each sample location and incubated concurrently at separate temperatures.

Yes. If two media devices are used, the fungal media device (E.g., MEA/SDA) is incubated at 20-25C for no less than 5 days.

Observation

The facility is using an alternative sampling method, where two media devices are sampled simultaneously and incubated at separate temperatures/times. All other requirements are the same.

(TSA would be incubated for 48 hours at 30-35C)

3) Is the data evaluation and action plan for viable airborne particle testing appropriate?

Yes. Counts are examined in relation to previous data.

Yes. If two sampling media devices are collected, all recovered growth on each sample is documented, and action levels are applied to each device separately.

Yes. If action levels are exceeded corrective action is taken.

Yes. If corrective action is taken data is collected to confirm actions were effective.

Yes. Action plans are dependent on the CFU count and microorganism recovered.

Yes. The extend of evaluation is consistent with the deviation and includes an evaluation of trends.

Yes. Corrective acdtion plans are documented and include resampling of failed areas.

Yes. An attempt is made to identify any microorganisms recovered to the genus level.

37.7.6.3) Monitoring Surfaces for Viable Particles

1) Is surface sampling conducted at the proper time and in the proper locations?

Yes. Sampling occurs in each classified room, in each ISO 5 PEC, and in each pass-through chamber connecting classified areas.

Yes. Surface sampling in the DCA is conducted in conjunction with media-fill testing.

Yes. For Category I & II CSPs sampling is conducted at least monthly.

2) Is proper equipment used during surface sampling?

Yes. COAs from the manufacturer verify sampling media devices meet growth promotion, pH, and sterilization requirements.

Yes. Media contain general microbial growth media (e.g., TSA) supplemented with neutralizing additives (lecithin adn polysorbate 80).

Yes. Media has a raised convex surface.

Yes. Sterile swabs wetted with sterile water or a sterile neutralizing buffer are used to sample irregular surfaces and/or difficult-to-reach locations.

Yes. The incubator temperature is monitored manually or by a continuous recording device during incubation.

Yes. The incubator is located outside the sterile compounding area.

3) Are surface sampling procedures appropriate?

Yes. Using a rolling motion media is firmly pressed to the sampling surface.

Yes. After sampling the surface is cleaned and disinfected.

Yes. Media devices are covered and inverted.

Yes. Media is incubated at 30-35C for not less than 48 hours and the total number of CFU is recorded on the environmental sampling form.

Yes. Media is then incubated at 20-25C for no less than 5 additional days, and the total number of CFU is recorded on the environmental sampling form.

Yes. The total number of CFU is counted on each device and recorded separately.

Yes. All sampling results are recorded on an environmental sampling form and contain the type of sample, the sate and sample location.

4) Is the data evaluation and action plan for viable surface sampling appropriate?

Yes. CFU counts are examined in relation to previous data.

Yes. If action levels are exceeded the cause is investigated and corrective action is taken.

Yes. Data collected from corrective action is reviewed.

Yes. Corrective action plans are dependent upon the CFU count and microorganism recovered.

Yes. The investigation is consistent with the deviation and includes an evaluation of trends.

Yes. The corrective action plan is documented.

Yes. If action levels are exceeded, an attempt is made to identify microorganisms to the genus level.

37.7.7) Cleaning, Disinfecting, and Applying Sporicidal Disinfectants and Sterile 70% IPA

1) Is 70% sterile IPA applied after cleaning and disinfecting?

Yes. Sterile IPA is applied in the PEC after cleaning and disinfecting.

Yes. Sterile IPA is applied immediately before initiating compounding.

Yes. Sterile IPA is applied to the horizontal work surface and any removable work trays in the PEC every 30 minutes during compounding.

Yes. IF compounding takes more than 30 minutes, the work surface of the PEC is cleaned immediately after compounding.

Yes. Sterile IPA is allowed to dry.

3) Are surfaces cleaned and disinfected according to USP 797?

Yes. Surfaces are cleaned with a cleaning agent containing a surfactant prior to disinfecting.

Yes. Surfaces are disinfected with an EPA-registered disinfectant after cleaning.

Yes. Surfaces are cleaned and disinfected with an EPA approved one-step cleaner and disinfectant.

Yes. A sporicidal disinfectant is also applied.

Yes. Surfaces are cleaned and disinfected with an EPA approved one-step cleaner, disinfectant, sporicidal agent.

Yes. Cleaning and disinfecting is performed by trained and garbed personnel.

Yes. The facility has cleaning SOPs.

Yes. Cleaning is performed in the direction of cleanest to dirtiest.

Yes. Floor mops used in the buffer and anteroom are used in that order.

Yes. Manufacturer's directions or published data are used to establish the minimum contact time for each cleaning/disinfecting agent.

4) Are the minimum cleaning frequencies met?

Yes. PECs and equipment inside the PEC are cleaned and disinfected daily when compounding occurs.

Yes. PECs and equipment inside the PEC is cleaned and disinfected when contamination is known or suspected.

Yes. A sporicidal agent is applied to PECs and equipment inside the PEC monthly for Category I and II CSP compounding.

Yes. The work surface of removable work trays in the PEC is cleaned and disinfected daily when compounding occurs.

Yes. All surfaces and the area underneath the work tray are cleaned and disinfected monthly.

Yes. A sporicidal is applied to all work surfaces of the PEC tray monthly.

Yes. A sporicidal is applied to all surfaces and the area underneath the work tray monthly.

Yes. Passthrough chambers are cleaned and disinfected daily when compounding occurs.

Yes. A sporicidal agent is applied to passthrough chambers monthly for category I and category II CSPs.

Yes. Worksurfaces outside the PEC are cleaned and disinfected daily when compounding occurs.

Yes. A sporicidal agent is applied to work surfaces outside the PEC monthly for category I and II CSPs.

Yes. Floors are cleaned and disinfected daily on days compounding occurs.

Yes. A sporicidal agent is applied to floors monthly for category I and II compounding.

Yes. Walls, doors, door frames, ceilings, storage shelving, bins and equipment outside the PEC is cleaned and disinfected monthly.

Yes. A sporicidal agent is applied to walls, doors, door frames, ceilings, storage shelving, bins, and equipment outside the PEC monthly.

5) Are sterile cleaning and disinfecting agents used in the PEC?

Yes Cleaning, disinfecting, and sporicidal agents used within the PEC are sterile.

Yes. When diluting concentrated agents used in the PEC, sterile water is used.

6) Are cleaning and disinfecting supplies appropriate for use in classified areas?

Yes. All supplies are low-lint.

Yes. All supplies used in the PEC are sterile (except tool handles).

Yes. All tool handles/holders are cleaned and disinfected prior to use in a PEC.

Yes. Disposable wipers, sponges, pads, and mop heads are discarded after each use.

Yes. Reusable cleaning tools are made of cleanable materials.

Yes. Reusable cleaning tools are cleaned and disinfected before and after each use.

Yes. Reusable cleaning tools are dedicated to use in the classified areas or SCA, and are not removed except for disposal.

Yes. Reusable cleaning tools are discarded based on the condition of the tool.

Yes. Once opened cleaning and disinfecting supplies are used/reused according to the manufacturer specifications or facility SOPs.

7) Do procedures for cleaning and disinfecting the PEC comply with USP 797?

Yes. Visible particles, debris or residue is removed with an appropriate solution (e.g. sterile water) and low lint wipes.

Yes. Sterile cleaning agents are applied using a sterile low-lint wipe, followed by an EPA-registered disinfectant to all interior surfaces of the PEC and equipment within. .

Yes. An EPA registered on-step disinfectant-cleaner is applied to all interior surfaces of the PEC and equipment within.

Yes. Contact time specified by the manufacturer is achieved.

Yes. Sterile 70% IPA is applied to the PEC and equipment within after cleaning and disinfecting with a sterile low-lint wiper.

Yes. Surfaces are allowed to completely dry before compounding begins.

8) Do procedures for applying a sporicidal disinfectant in the PEC comply with USP 797?

Yes. Visible particles, debris, and residue is removed with an appropriate sterile solution and sterile low-lint wipers.

Yes. After cleaning and disinfecting a sporicidal disinfectant is applied using a sterile low-lint wiper to all surfaces of the PEC and the area under the work tray.

Yes. The sporicidal used is a one-step disinfectant sporicidal cleanser applied with sterile low-lint wipes.

Yes. The contact time specified by the manufacturer is achieved.

Yes. Using a sterile low-lint wiper sterile 70% IPA is applied to all interior surfaces, including underneath the work tray.

Yes. Surfaces are allowed to dry completely before beginning compounding.

37.7.8) Introducing items into the SEC and PEC

1) Are items introduced into the SCA, the clean side of the anteroom or placed in a passthrough wiped with an appropriate solution?

Yes. Items are wiped with sterile 70% IPA and allowed to dry.

Yes. Items are wiped with low-lint wipers by gloved personnel.

Yes. Wiping procedures do not compromise package integrity or render labels unreadable.

2) Are items introduced into the PEC wiped with sterile 70% IPA?

Yes. Sterile 70% IPA and sterile low-lint wipers are used to wipe all items just before introduction into the PEC.

Yes. The sterile 70% IPA is allowed to dry before items are introduced into the PEC.

Yes. The overwrap covering sterile supplies is removed as supplies are introduced into the PEC without wiping the individual sterile supply items.

Yes. Wiping procedures do not render product labels unreadable.

3) Are critical sites wiped with sterile 70% IPA in the PEC prior to use.

Yes. Vial stoppers, ampule necks, and IV bag septums are wiped with sterile 79% IPA in the PEC.

Yes. Sterile 70% IPA is allowed to dry before use.

37.7.9) Equipment, Supplies, and Components

1) Does the facility compound with conventionally manufactured sterile products when available and appropriate for the intended CSP?

Yes.

5) Are components inspected upon receipt?

Yes. External packaging is examined.

Yes. The labeling and condition of components is examined.

Yes. Components of unacceptable quality are rejected, labeled as such, and segregated from active drug stock.

Yes. If a component is rejected, other lots from the same vendor are examined for defects.

Yes. The date of receipt by the compounding facility is clearly marked on each API or added substance package that lacks a vendor expiration date.

Yes. Packages of components that lack a vendor's expiration date are assigned an expiration date that does not exceed 1-year from the date of receipt.

6) Are components evaluated before use?

Yes. All components are reinspected before use to ensure the correct identity, quantity, expiration date and storage conditions.

Yes. All component packages are inspected to detect container breaks, looseness of the cap/closure.

Yes. All component packages are inspected to detect deviations from the expected aroma, appearance, texture, etc. that might have occurred during storage.

Yes. Sterile container closures are visually inspected.

Yes. Components found to be of unacceptable quality are rejected, labeled as such, and segregated from active drug stock.

Yes. All lots of a rejected component are inspected for safe use.

7) Are components appropriately stored?

Yes. Components are stored in closed containers.

Yes. Components are stored under appropriate temperature, humidity, and lighting per manufacturer specifications.

Yes.. Temperatures are monitored in component storage areas daily when the facility is open or by a continuous temperature monitoring device.

Yes. Results of temperature readings are documented on a temperature log or stored in the continuous monitoring device.

Yes. Temperatures stored in a continuous monitoring device are retrievable.

Yes. Temperature monitoring equipment is calibrated or verified for accuracy as recommended by the manufacturer, or every 12 months.

37.7.11) Master Formulation and Compounding Records

1) Does the facility have a master formulas for CSP preparation?

Yes. The facility has master formulas for all CSPs prepared from nonsterile ingredients.

Yes. The facility has master formulas for all CSPs prepared for more than one patient.

Yes. Changes to master formulas are approved and documented.

3) Does the facility generate compounding records for each CSP?

Yes. Compounding records are created for all category I, II & III CSPs.

Yes. A compounding record is created for all immediate use CSPs prepared for more than one patient.

Yes. The compounding record documents the compounding process.

Yes. Compounding records are stored electronically. (e.g., ACD workflow or similar equipment)

Yes. The master formula record serves as the basis for preparing a compounding record.

4) Do compounding records contain the required information?

Yes. Compounding records contain the name, strength or activity, and dosage form of the CSP

Yes. Compounding records contain the date and time of preparation.

Yes. Compounding records contain the assigned internal identification number.

Yes. Compounding records contain a method to identify the individuals involved in the compounding process and the individuals verifying the final CSP.

Yes. Compounding records contain the name of each component.

Yes. Compounding records contain the vendor, lot number and expiration date for each component for CSPs prepared for more than one patient and for CSPs prepared from nonsterile ingredients.

Yes. Compounding records contain the weight or volume of each component.

Yes. Compounding records contain the strength or activity of each component.

Yes. Compounding records contain the total quantity compounded.

Yes. Compounding records contain the final yield (quantity, containers, number of units).

Yes. Compounding records contain the assigned BUD and storage requirements.

Yes. Compounding records contain the results of QC procedures (e.g., visual inspection, filter integrity testing, pH testing, etc.)

Yes. If applicable, compounding records contain the master formula reference for the CSP.

Yes. If applicable, compounding records contain calculations made to determine and verify the quantities and or concentrations of componenets.

37.7.12) Release Inspections and Testing

2) Are CSPs visually inspected at the completion of compounding, before release and dispensing?

Yes. The physical appearance is inspected.

Yes. The CSP labeling is inspected to ensure it matches the prescription and medication order.

Yes. Inspection includes a visual inspection of container closure integrity.

Yes. CPSs found unacceptable are rejected, labeled as such, and segregated from active drug stock.

3) Are CSPs prepared in advance of need reinspected prior to dispensing?

Yes. A visual inspection is conducted to identify CSP defects that developed during storage.

Yes. CSPs found unacceptable are rejected, labeled as such, and segregated from active drug stock.

Yes. Defects that indicate sterility or stability problems are investigated to determine the cause.

37.7.13) Labeling

2) To labels on the immediate container of the CSP contain the minimum required information?

Yes. Labels contain the assigned internal identification number.

Yes. Labels contain the active ingredients and their amounts, activities, or concentrations.

Yes. Labels contain the storage conditions if other than controlled room temperature.

Yes. Labels contain the BUD.

Yes. Labels contain the dosage form.

Yes. Labels contain the total amount or volume if it's not obvious from the container.

Yes. When space permits single-dose containers are labeled as such.

Yes. A statement if the CSP is a multidose container.

3) Are CSPs labeled with the following information if applicable?

Yes. Route of administration.

Yes. Special handling instructions.

Yes. Warning statements.

Yes. Compounding facility name and contact information if the CSP is sent outside the facility or healthcare system where it was compounded.

Yes. A statement that the preparation was compounded

4) Do SOPs describe labeling procedures?

Yes. SOPs describe verification of the CSP label to the prescription or medication order.

Yes. SOPs describe verification of the CSP label to the master formula record if required.

Yes. SOPs describe verification of the CSP label to the compounding record if required.

37.7.14.2) Establishing a BUD for a CSP- All Categories

1) Are shorter BUDs assigned when the stability of the CSP or its components is less than the USP allowed BUDs based on category?

Yes. BUDs do not exceed the shortest remaining expiration date of any commercially available starting components.

Yes. BUDs do not exceed the shortest BUD of any individual compounded components used.

2) Are CSP storage times within the original BUD placed on the CSP for it's labeled storage condition?

Yes. The storage time of a CSP does not exceed the original BUD placed on the CSP for its original storage condition.

Yes. BUDs are not additive.

Yes. Once a CSP is stored under a condition which requires a shorter BUD, the CSP is used within the time frame for that storage condition.

3) Does the facility correctly assign BUDs for Category I CSPs?

Yes. Category I CSPs stored at a controlled room temperature as assigned a BUD of not more than 12 hours.

Yes. Category I CSPs stored at a refrigerated temperature are assigned a BUD of not more than 24 hours.

Reminder: Category I CSPs may be prepared in an SCA or Cleanroom suite.

4) Does the facility correctly assign BUDs for Category II CSPs?

Yes. Aseptically processed CSPs prepared from only sterile starting components which are not sterility tested are assigned BUDs based on storage conditions: Controlled room Temp = 4 days, Refrigerator = 10 days, Freezer = 45 days.

Reminder: A shorter BUD must be assigned when the physical and chemical stability of the CSP is less than the USP BUD limits.

Reminder: All terminally sterilized Category II CSPs which are sterility tested also require an endotoxin test to use the extended BUDs in this section.

Reminder: The maximum batch size for all CSPs requiring sterility testing must be limited to 250 final yield units.

37.7.15) Use of Conventionally Manufactured Products as Components

1) Are conventionally manufactured single dose containers used within the allowable period after puncture?

Yes. Single dose containers are punctured/entered only in ISO Class 5 or cleaner air.

Yes. Single dose containers are used for up to 12 hours after initial entry.

Yes. Single dose containers are stored according to package labeling for up to 12-hours after puncture.

Yes. Single-dose ampules are not stored after opening.

2) Are conventionally manufactured multiple dose containers used within the allowable period after puncture?

Yes. After initial entry multiple dose containers are not used for more than 28 days.

Yes. After initial entry multiple dose containers are used according to manufacturer labeling.

37.7.16) Use of CSPs as Components

1) Does the facility use CSPs as components of final CSPs?

No.

37.7.17) SOPs

1) Does the facility have properly developed SOPs?

Yes. There are SOPs for compounding processes and support activities.

Yes. SOPs include the types of CSPs that are prepared.

Yes. The designated person ensures SOPS are appropriate and implemented.

Yes. The designated person ensures personnel are competent in all procedures related to their job function.

Yes. The designated person follows up on corrective actions taken when problems are identified.

Yes. Corrective actions are documented.

2) Are personnel who perform, oversee, or support compounding activities trained to recognize and report problems?

Yes. Potential problems, deviations, failures, and errors are reported to the designated person./

3) Are SOPs reviewed initially and every 12 months by the designated person?

Yes. Review of SOPs is documented by the designated person.

Yes. Changes or alterations to SOPs are made only by the designated person.

Yes. Changes to SOPs are documented.

Yes. Revisions to SOPs are communicated to all personnel involved in the process or procedure.

Yes. Personnel document acknowledgement of SOP changes.

37.7.18) Quality Assurance and Quality Control

1) Does the facility have a formal, written QA and QC program?

Yes. The program establishes a system of adherence to procedures.

Yes. The program establishes a system to prevent and detect errors and other quality problems.

Yes. The program establishes a system to evaluate complaints and adverse events.

Yes. The program establishes a system for investigations and corrective actions.

2) Do SOPs describe the roles, duties, and training of personnel involved in the QA program, and are they reviewed annually?

Yes. The designated person(s) responsible for the QA program have training, experience, responsibility, and authority to perform these duties.

Yes. SOPs are reviewed at least once every 12 months by the designated person.

Yes. Review of SOPs is documented.

4) Do SOPs for out-of-specification dispensed CSPs contain the required elements?

Yes. There is a procedure to determine the severity of the problem and the urgency for implementation and completion of the recall.

Yes. There is a procedure to determine the distribution of affected CSPs, including date and quantity distributed.

Yes. There is a procedure to identify patients who have received the CSP.

Yes./ There is a procedure for disposal and documentation of the recalled CSP.

Yes. There is a procedure to investigate and document the reason for the failure.

5) Are recalls documented and reported to the appropriate regulatory authorities?

Yes. Recalls are documented.

Yes,. Recalls are reported to the appropriate regulatory body.

6) Do facility SOPs for complaint handling include an investigative process?

Yes. Complaints are reviewed by a designated person(s).

Yes. If a potential CSP quality problem is identified an investigation is initiated and completed.

Yes. Investigations consider whether the problem extends to other CSPs.

Yes. Corrective action is implemented for all potentially affected CSPs.

Yes. Recalls are considered based on the investigation.

Yes. The facility evaluates whether or not to cease sterile compounding until underlying problems are identified and corrected.

7) Do records of complaints contain the required information in a readily retrievable manner?

Yes. Records contain the name or unique identifier of the complainant.

Yes. Records contain the date the complaint was received.

Yes. Records contain the nature of the complaint.

Yes. Records contain the response to the complaint.

Yes. Records contain the name and strength of the CSP and it's assigned internal identification number.

Yes. Records include the findings of the investigation.

Yes. Records include any investigation follow up.

Yes. Records are readily retrievable for review and evaluation of possible trends.

Yes. Records are retained for the required time.

Yes. Returned CSPs are quarantined until they are destroyed.

Yes. CSPs are not destroyed until after the completion of the investigation.

8) Does the facility report adverse events to the appropriate people/organizations?

Yes. Adverse events are reported according to the facility SOPs.

Yes. Adverse events are reported to regulatory authorities if applicable.

Yes. Affected patients are informed of adverse events if applicable.

Yes. Prescribers are informed of adverse events if applicable.

37.7.19) CSP Handling, Storage, Packaging, Shipping, and Transport

1) Are staff trained according to SOPs for handling, storage, packaging, shipping and transport of CSPs?

Yes. There are SOPs for handling, storage, packaging, shipping and transport of CSPs.

Yes. Staff training is documented.

2) Are processes in place to ensure CSP quality is maintained during storage at the compounding facility?

Yes. A controlled temperature is established and monitored.

Yes. Temperature monitoring is conducted daily manually or by a continuous recording device.

Yes. The results of temperature readings are documented in a temperature log or stored in the continuous monitoring device.

Yes. Data from continuous recording devices is retrievable.

Yes. Temperature monitoring devices are verified for accuracy at least every 12 months or as required by the manufacturer.

3) Does the facility evaluate CSPs if/when storage temperature excursions occur?

No. There have been no temperature excursions documented.

4) Are packaging materials sufficient to protect a CSP during shipping and transport?

Yes. Packaging materials protect the CSP from damage, leakage, contamination, degradation, and adsorption.

Yes. Packaging materials protect transport personnel.

Yes. Packaging materials and shipping containers are based on product specifications, information from vendors, and mode of transport.

Yes. Alternative modes of transport and/or packaging are used if needed to protect the quality of the CSP. .

5) Do modes of CSP transportation delivery CSPs in an undamaged, sterile and stable condition?

Yes. Specific handling instructions are included on the exterior of shipping containers when necessary.

37.7.20) Documentation

1) Does the facility maintain required compounding documentation?

Yes. There is documentation of personnel training, competency assessments, and qualification records, including corrective actions for any failures.

Yes. There are certification reports, including corrective actions for any failures.

Yes. There are environmental air and surface monitoring procedures and results.

Yes. There are equipment records (e.g., calibration, verification, and maintenance reports).

Yes. There are records for component receipt.

Yes. There are records for SOPs, MFRs (if required) and CRs (if required).

Yes. There are records for release and inspection testing.

Yes. There are records of complaints and adverse events, including corrective actions.

Yes. There are records of investigative results and corrective actions.

2) Are records properly maintained?

Yes. Records are stored in a manner that prevents their deterioration.

Yes. Records are stored in a manner that prevents their loss.

Yes. Records are readily retrievable for at least 2 years (3 for Ohio) after preparation.

48) Substance Abuse and Mental Health Resources for Healthcare Professionals

1) Substance Abuse and Mental Health Resources for Healthcare Professionals

Observation

The healthcare profession is not immune to substance use disorder and mental health conditions. Such medical conditions impair a healthcare professional's competency, ability, and judgment. Substance use disorder and/or mental health conditions that are left untreated may not only cause a healthcare professional to risk their career, but may also endanger the life of a patient. These medical conditions can be effectively treated, and it is possible for healthcare professionals that are in treatment or recovery to return to practice.

The State of Ohio Board of Pharmacy encourages all healthcare professionals who may be struggling with substance use disorder or mental health condition to seek help. The following are resources that can assist healthcare professionals in getting help: (The resources listed here are for informational purposes only and do not constitute an endorsement by the State of Ohio Board of Pharmacy. They do not represent a complete list of the resources available)

Ohio Careline 1-800-720-9616, emotional support, with referral to other resources if needed.
Crisis text line, text "4hope" to 741 741 to speak with a crisis counselor.
Treatment Bridge 1-877-275-6364, for addiction and mental health services.
National Suicide prevention dial 988, or call 1-800-273-8255.
Ohio Domestic Violence Network 1-800-934-9840
Pharmacist Rehabilitation Organization (www.ohiopro.org) for pharmacists and pharmacy interns.
Ohio Physicians Health Program (www.ophp.org)

49) Inspection Affirmation

1) Inspection Affirmation

Observation
As the person in charge at the time of this inspection, I affirm that I have reviewed this inspection report with the Specialist/Agent/Inspector, and understand its content.

If this inspection report requires a written response, I understand, per OAC 4729:5-3-03, that either of the following must be submitted to the State of Ohio Board of Pharmacy within 30 days of this inspection:
(1) The action(s) the licensee or applicant has taken to correct the violation(s) and the date of implementation of the corrective action(s); or
(2) An explanation disputing the observed violations.

I understand that if I am not the responsible person documented on this site's Ohio terminal distributor of dangerous drugs license, I will ensure the responsible person is provided a complete copy of this inspection report in a timely manner.

I further acknowledge that a written response does not release the licensee listed in this inspection report from potential disciplinary action.

Responses must be either emailed (with a copy of the inspection report) to WRITTENRESPONSE@PHARMACY.OHIO.GOV or mailed to 77 South High Street, 17th Floor, Columbus, Ohio 43215.

Section 9: Statement of Responsibility - MUST BE COMPLETED by an Authorized Person (NAC 639.945)

Statement of Responsibility

1. I am the Manager & PIC (title) for AMRx (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Jonathan Hamer hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Manager & Pharmacist in Charge (title) for AMRx (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

The requirements of TSBP Rule 291.11 and Section 565.0591 of the Pharmacy Act regarding the operation of a pharmacy within 6 months of becoming licensed.	*Yes*
Corresponding Responsibility and the Red Flags checklist using references from the DEA RPh Manual, the Texas Controlled Substances Act, and TSBP Rules 291.29 and 291.34 (b).	*Yes*
Pharmacy will need to conduct an opening inventory on the first day of business.	*Yes*
Pharmacy will need to report all controlled substances to the PMP as required.	*Yes*

Signatures

An agent of the Texas State Board of Pharmacy has inspected your pharmacy. The results of this inspection have been noted.

- Items designated as "Refer to Legal" must be rectified immediately. In addition, the matter discovered during the inspection and deemed to be a serious violation by the inspector will be referred to the Legal Division for review and possible disciplinary action; and
- Items designated as "Warning Notice" must be corrected by the deadline noted to ensure compliance with the laws and rules governing the practice of pharmacy (Note: A "Warning Notice" is issued for a minor violation, and does not equate to disciplinary action).

Statement of Responsibility

1. I am the Sundeep Thakrar (title) for Pharmacist in Charge (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Sundeep Thakrar hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Pharmacist in Charge (title) for CareFirst Specialty Pharmacy (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

RE: Carefirst Specialty Pharmacy, LLC

Regarding the explanation of disciplinary actions taken against CareFirst Specialty Pharmacy, please review the following information as well as the previously disclosed documentation of all disciplinary and preliminary disciplinary findings.

- The New Jersey Board of Pharmacy inspection conducted a routine inspection of the facility on March 26, 2019. As a result, the NJBOP cited CareFirst Specialty Pharmacy for three deficiencies. All deficiencies were immediately rectified. Please see attached information regarding full explanations and final disciplinary documents.
- On May 16, 2022, the New Jersey Board of Pharmacy conducted an inspection as a result of the change of location for CareFirst Specialty Pharmacy. The inspection resulted in preliminary findings that are still being reviewed by the New Jersey Board of Pharmacy. There has been no finalized disciplinary action currently. CareFirst Specialty Pharmacy has previously disclosed these preliminary findings, and corresponding documents are attached for review.
- CareFirst Specialty Pharmacy was inspected by the FDA beginning on November 15, 2022, and ending on November 30, 2022. As a result of the inspection, the FDA issued an FDA 483 letter noting 1 observation to be addressed. After addressing the concerns outlined in the observation, the FDA issued an EIR and Closeout letter with no disciplinary actions issued. All the previously disclosed documents regarding the inspection results as well as the closeout letter issued from the FDA are attached for review.

For full explanation of all disciplinary actions, please review the previously disclosed documentation.

Sincerely,

[redacted]

Sundeep Thakrar

Manager, Pharmacist in Charge

CareFirstRx Specialty Pharmacy

Re: New Jersey Board of Pharmacy Citations

On 1/27/2020, we proactively notified all boards of pharmacy (in which we were licensed at the time), a notice of disciplinary action issued by our home state board of pharmacy. This was a result of an on-site inspection conducted March 26, 2019 at CareFirst Specialty Pharmacy located at 2200 Garry Rd, Cinnaminson, NJ. Three citations were issued as a result of this inspection and all correspondence to and from the NJ Board of Pharmacy relating to the citations were included with these notices. Also included, were statements of corrective actions implemented to meet the board's requirements. A copy of the notice along with all applicable correspondence with the board is attached.

Please note all citations have been resolved and closed with the NJ Board of Pharmacy. A summary of citations and event history is provided below:

***CITE #1: N.J.A.C. 13:39-6.7 (b)*- Pharmacy Technician registrations were not conspicuously displayed in the pharmacy in view of the public.** Notified via certified letter issued by the NJ Board of Pharmacy on 9/13/2019.

We did not contest this citation. Payment was made for the applicable fine on 10/11/2019. Corrective action was immediately performed to meet the board's requirements. The pharmacy technician registrations that were in obstructed view have been relocated to be in clear view of the public.

***CITE #2: N.J.A.C. 13:39-5.8(a)1*- The pharmacy failed to maintain a current pharmacy reference library. The reference for the General Practice of Pharmacy, The Pharmacological Basis of Therapeutics, was published more then ten (10) years ago. The pharmacy had the 11th edition, which was published in 2006.** Notified via certified letter issued by the NJ Board of Pharmacy on 9/13/2019.

We did not contest this citation. Payment was made for the applicable fine on 10/11/2019. Corrective action was immediately performed to meet the board's requirements. The pharmacy library has been updated to include the newest edition of the Pharmacological Basis of Therapeutics.

***CITE #3: N.J.A.C. 13:39-6.15(d) and N.J.A.C. 13:39-11A.14(a)*- Pharmacists failed to provide immediate supervision to pharmacy technicians engaged in non-sterile compounding.** Notified via certified letter issued by the NJ Board of Pharmacy on 9/13/2019.

We did contest this citation with regards to removing this citation for reasons detailed in our original notice and attached here.

Per a certified letter sent to us on our about 11/21/2019, the board denied mitigation for this citation. Subsequently, the applicable fine was paid on 12/06/2019. In addition, corrective actions were implemented to meet the board's requirement. Processes were updated to ensure a pharmacist is stationed and always present in the non sterile lab for immediate personal supervision of pharmacy technicians engaged in non-sterile compounding at all times. Prior to the inspection, our pharmacists would be present and provide supervision while rotating in/out of the laboratory. This has been updated so that a pharmacist is assigned a physical station in the lab and present at all times during compounding.

Re: CareFirst Specialty Pharmacy
Non- Resident Pharmacy Permit

To Whom It May Concern,

Please accept this as written notification of disciplinary action taken by the New Jersey Board of Pharmacy for NJ Pharmacy Permit Registration #28RS00740200. This is the result of three citations issued by the NJ Board of Pharmacy a result of an on-site inspection. We have attached a list of the closed citations.

In addition, we have included all associated documentation and correspondence with the New Jersey Board of Pharmacy starting with the board's initial letter dated 9/13/2019 up to our certification letter dated 12/2/2019.

If you have any questions, please feel free to contact me at [redacted] or email info@cfspharmacy.com.

The medications that were present for the filling of prescriptions have been examined for their compliance to the regulatory standards for quality assurance. The medications that were selected to be examined could potentially have been dispensed, and did not include any segments of the inventory that may already have been separated for future return to their respective manufacturers, or had been placed aside for proper disposal. The medications that were found to be in violation of the regulatory disciplines were segregated by the inspector, and then recorded below. The line entries are categorized by the deficiency for which the medication had been set apart, along with the appropriate regulatory cite. It is requested that you accept your option to compare each package of medication that has been separated as deficient against its collateral entry and, if you concur, place your initials in the left-hand column. The inspector will delete any deficiencies for which there are plausible explanations.

COMMENTS: No deficiencies noted

I hereby acknowledge and attest to the accuracy of the inventory deficiencies reported above.

Report of Inspection

Name of Pharmacy: Wayne Specialty Pharmacy

Address: 3307 Hamburg Rd. Suite 1, Wyckoff, NJ 07477

Name and registration number of pharmacist-in-charge:

Sudeep Sharma RPH0257500

(If pharmacist-in-charge not present, give name and # of R.P. on duty)

The following deficiencies have been noted: Since it's a home infusion

① [13:39 6.7(B)] - Not viewed a written or visual warning that is prominently displayed in the pharmacy in view of the public. (obstructed in back of store)

② [13:39-5.5(a)1]. The Pharmacy is not using primary sources (Physician Office) to document & verify with the (4th Edition).

③ [13:39 6.15(d)(e)]. The Pharmacist is employing four (4) technicians but only three (3) technicians on duty at the time of the inspection Activity.

Additional deficiencies may be cited by the Investigator or the Board of Pharmacy subsequent to the inspection activity upon further investigation of documents & records provided.

This is to acknowledge that I have been present during this inspection and concur with the findings, as so noted, with the following exceptions; if any.

COMMENTS: The above noted deficiencies will be remedied immediately and all corrective actions if necessary will be done and completed with my supervision

Re: Inspection #8-6514-18-286
Date of Inspection: 3/26/19

Dear Sundeep Thakrar:

This letter is to advise you that the New Jersey State Board of Pharmacy has had an opportunity to review information concerning the above inspection report.

Upon review of all available information, the Board has preliminarily found that you have violated those items listed on Attachment A.

The Board has determined that it will offer you an opportunity to settle this matter and thereby avoid the initiation of further disciplinary proceedings. Should you wish to avail yourself of this opportunity, you **MUST SIGN THE ATTACHED CERTIFICATION** and agree to the following:

> **PAY A PENALTY IN THE AMOUNT OF $2,000.00** and **PROVIDE TO THE BOARD A LETTER OF CORRECTIVE ACTION.** (To be paid immediately upon your signing of the attached acknowledgment.)

Alternatively you may waive your right to a hearing and submit a written statement or explanation to the Board. The Board will then consider your submission and render a final decision, which may include any of the terms set forth above. This disposition will be a public record. Please take notice that if the Board determines that the initial inspection findings require a re-inspection to ensure that cited deficiencies have been properly addressed, you may be subject to any costs associated with the re-inspection.

If you do not wish to settle this matter, you may request a hearing. In that event, this letter will serve as notice of the charges against you and a hearing will be scheduled before the

Board. At that hearing you may, either personally or with the assistance of an attorney, submit determination concerning the charges of unlawful activity. You should be aware that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that herein offered in this letter. Additionally, the Board may, if the facts are found to so warrant, enter an order, requiring you to reimburse certain monies, direction you to cease and desist from engaging in unlawful acts and/or requiring you to pay costs incurred by the Board. Should you have any questions concerning this letter or the settlement offer herein, I suggest that you contact the Board at (973) 504-6450.

The enclosed Certification **MUST** be completed and returned to the Board within fifteen (15) days following your receipt of this letter. In the event that the Board receives no response from you within this time, the Board's settlement offer will be withdrawn, and the allegations contained herein shall be deemed admitted, and the Board will proceed to finally review that matter and enter an appropriate order.

NEW JERSEY STATE BOARD OF PHARMACY

Anthony Rubinaccio, RPh
Executive Director

AR/rh
(8/19)

ATTACHMENT A

3. **Carefirst Specialty Pharmacy, LLC, Permit #28RS00740200** – 2200 Garry Road, Suite 1, Cinnaminson, NJ 08077
Pharmacist-In-Charge: Sundeep Thakrar
Bureau File #8-6514-18-286, **Period:** 3/26/19
Reference: Board of Pharmacy inspection conducted per N.J.S.A.45:1-18 and a Memorandum dated March 12, 2018 from Anthony Rubinaccio, Executive Director, Board of Pharmacy, to Cyndy M. Gohl, Chief, Enforcement Bureau, requesting an inspection of the subject pharmacy in connection with an application for **Remodeling**. A routine inspection of the subject pharmacy was also conducted.

Details

CITE	DESCRIPTION	FINE
N.J.A.C.13:39-6.7(b)	Pharmacy technician registrations were not conspicuously displayed in the pharmacy in view of the public. They were displayed in the back of the office in a manner that obstructs the view. Sixteen (16) technician registrations were displayed in this manner.	**$800.00**
N.J.A.C.13:39-5.8(a)1	The pharmacy failed to maintain a current pharmacy reference library. The reference for the General Practice of Pharmacy, The Pharmacological Basis of Therapeutics, was published more than ten (10) years ago. The pharmacy had the 11th edition, which was published in 2006.	**$200.00**
N.J.A.C.13:39-6.15(d) **N.J.A.C.13:39-11A.14(a)**	Pharmacists failed to provide immediate personal supervision to pharmacy technicians engaged in non-sterile compounding in the compounding laboratory. Pharmacists utilize cameras to supervise technicians. Pharmacists were rotating in the laboratory when the technicians required an in-progress check from the pharmacist. Mr. Thakrar verbalized that the pharmacists spend half their time in the lab and the other half performing verification outside of the lab.	**$500.00**
	It should be noted that a Verified Pharmacy Program inspection was conducted at the pharmacy by the National Association of Boards of Pharmacy on September 14, 2018.	
TOTAL: $1,500.00		

CERTIFICATION

I, Sundeep Thakrar, hereby acknowledge that I have read and reviewed the Board's letter dated September 13, 2019 regarding allegations of violations of the Board's enabling act and/or regulations.

Please Check One:

[ ] I acknowledge the conduct which has been charged and agree to:

1. **Cease and desist from engaging in the conduct alleged and pay a penalty in the amount of $2,000.00** (to be paid upon signing of this Certification).

2. **Send a Letter of Corrective Action**, as requested by the Board, with this Certification.

I am also aware that the action taken against me by the Board herein is a matter of public record, and that the Board's letter and this Certification are public documents.

[✓] I hereby waive any rights I may have to a hearing in this matter and defend myself against any charges, but ask the Board to consider my explanation before rendering its final decisions. I understand that the Board may order any of the terms specified in its letter and that the Certification are public documents.

[ ] I request a formal administrative hearing to contest the charges specified by the Board. I understand that I will be advised of the time, date and place for that hearing at another time. I am aware that I may be represented by an attorney and that at the time of the hearing I may submit to the Board testimony and documentation relevant to the charges. I understand that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that herein offered in its letter and may order such other remedies as it may deem appropriate. I am also aware that this proceeding is a matter of public record and that the Board's letter and this Certification are public documents.

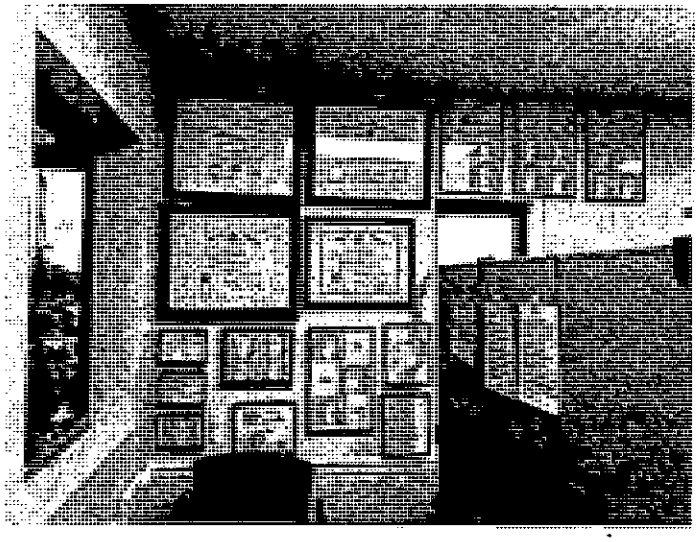
Re: Inspection #8-6514-18-286
Date of Inspection 3/26/2019

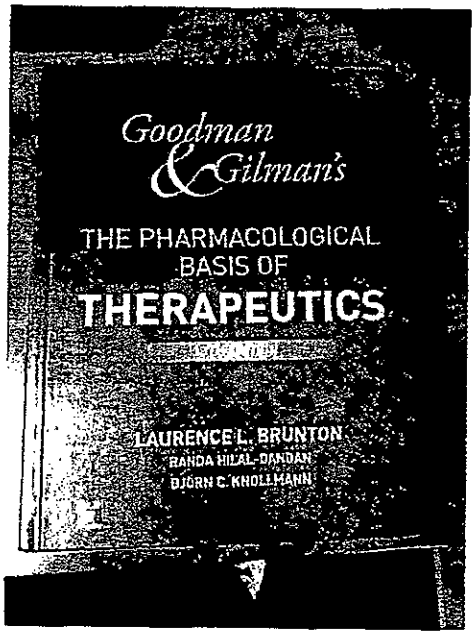


Dear Mr. Rubinaccio,

I am submitting a written statement and explanation to the board in response to your letter dated 9/13/2019 regarding the inspection findings. We would like to submit, for the Board's consideration, detailed explanations (and supporting documentation) that CareFirst Specialty Pharmacy demonstrated compliance with **N.J.A.C.13:39-6.15 (d) (e)** and **N.J.A.C.13:39-6.15(d), N.J.A.C.13:39-11A.14 (a).**

*Please note, I am not contesting CITE **N.J.A.C.13:39-6.7(b)** or CITE **N.J.A.C.13:39-5.8(a)1.** I have provided details regarding corrective actions implemented for these citations.*

In reference to CITE N.J.A.C.13:39-6.7(b):

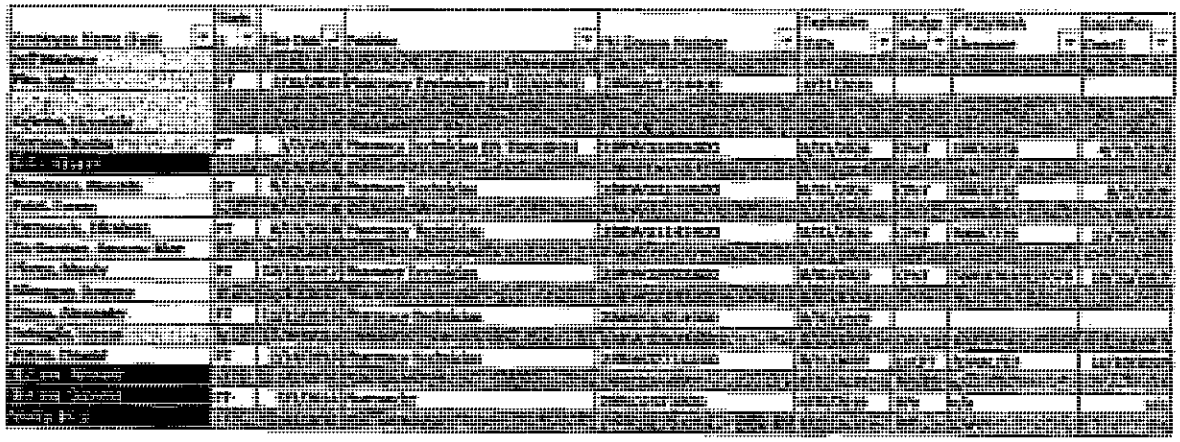


I do not contest this finding. The Pharmacy Technician Registrations have since been relocated so that they are now in public view next to our Pharmacist licenses. I have attached a photo indicating the new location below:

2200 Garry Road, Suite 1
Cinnaminson, NJ 08077
Tel: 844-822-7379
Fax: 844-922-7379

In reference to CITE N.J.A.C.13:39-5.18(a)1:

I do not contest this finding. Our reference library has been updated to include current versions of *General Practice of Pharmacy*, and *The Pharmacological Basis of Therapeutics McGraw-Hill Education / Medical; 13 edition (December 5, 2017).* I have attached a photo for your review below:



In reference to CITE N.J.A.C.13:39-6.15(d)(e):

I find that we were not in violation of this statute. As documented in the citation details, it is correct that we staffed 4 pharmacists and 9 supportive personnel (pharmacy technicians) on the date of the inspection. However, of the 9 technicians, one was a registered technician in training. It is our understanding that under regulation 13:39-6.15(d), a pharmacy technician in training shall be excluded from the 2:1 ratio provided that the training period does not exceed 210 days and the pharmacy technician is registered. At the time of the inspection, the technician did meet these criteria. I have attached a list of Pharmacy Technicians on staff on the date of the inspection along with their technician registration information and date of hire:

OCT 17 2019

2200 Garry Road, Suite 1
Cinnaminson, NJ 08077
Tel: 844-822-7379
Fax: 844-922-7379

Employee List
3/26/2019

[redacted] 4 RPh

Technicians

[redacted] Technician in Training (<210 days) or Non Tech Employee

Ratio 4 RPh: 8 Technicians = 1:2

In reference to CITE N.J.A.C. 13:39-6.15(d) and N.J.A.C. 13.39 - 11A.14(a)

Our pharmacists provide immediate personal supervision of technicians that are conducting Non-Sterile Compounding. I have referenced our procedures below to demonstrate that we meet this requirement. Our process for allowing non-sterile compounding technicians to compound is as follows:

1. We conduct training and routinely evaluate Pharmacy Technician competency of non-sterile compounding by:
    a. Having the Pharmacy Technician observe compounding of a given dosage form with a PIC assigned Compounding Trainer.
    b. Having the Pharmacy Technician independently perform compounding of a given dosage form with direct, personal supervision of a Pharmacist. Documentation of training and competency assessment is recorded in our Training Compliance System called Pestle.
    c. Only if performed correctly and having demonstrated proficiency, the technician is permitted to perform applicable compounding activities. Note: Every preparation must meet certain quality checks that require documentation on the batch record that is reviewed by a Pharmacist. Additionally, the Technician in Training will have a random preparation(s) sent to an outside laboratory for testing during the training period.

CareFirstRx Specialty Pharmacy

2200 Garry Road, Suite 1
Cinnaminson, NJ 08077
Tel: 844-822-7379
Fax: 844-922-7379

d. This training is performed initially, before the technician is permitted to compound a given dosage form, and at least every 12 months thereafter in which the Technician's competency is evaluated. All such training and competency evaluations are documented in our Training Compliance System called Pestle. Only a fully trained Compounding Pharmacist can conduct annual competencies. An example of documentation is attached.

2. ONLY AFTER training and competencies have been successfully completed by the technician, he or she is permitted to perform nonsterile compounding under Pharmacist supervision. Our Pharmacist supervision includes:
   a. Per 13:39-11A.14, "...the checking of each ingredient used and lot number, the quantity of each ingredient whether weighed, measured, or counted, and the finished label."
   b. The supervision and checking of each of these items occurs during the appropriate step of the compounding process and is documented in EVERY batch record.
   c. The pharmacist checks that proper equipment and setup is followed and the technician wears proper garbing.
   d. The pharmacist will randomly observe the compounding technicians' technique in performing non-sterile compounding and conducts quality checks in the lab throughout the day.
   e. Upon completion, the pharmacist will check the final preparation, review the final batch record, review and confirm that all of the quality checks were conducted and documented prior to dispensing.
   f. The Pharmacist will double check calculations for the compounded preparation prior to dispensing to confirm accuracy.

Our process was assessed by our consultant, Denise M. Frank, BPharm, RPh, FACA, who found it to be compliant.

It was noted on the citation that cameras are used to supervise technicians. However, we use the cameras for ***training purposes only*** and not for actual RPh verification checks which are done in person. As noted in the Attachment A of the CITE, Pharmacists were rotating in the lab and conducting in-progress checks. Additionally, as noted on the CITE, Pharmacists spend approximately half of their time in the lab supervising the technicians during the compounding process.

We have included payment in the amount of $1000.00 for CITES N.J.A.C.13:39-6.7(b) and N.J.A.C.13:39-5.8(a)1. We will await your response regarding the other 2 citations and will follow up accordingly. Please contact me for any additional information or documentation.

Sincerely,

Sundeep Thakrar, RPh
Pharmacist in Charge

Re: Inspection #8-6514-18-286
Date of Inspection 3/26/2019

Dear Mr. Rubinaccio,

I recently submitted a written statement dated 9/26/2019 in response to the Board's findings regarding our above referenced inspection. I would like to submit for your consideration, this addendum to our initial response in reference to **CITE N.J.A.C. 13:39-6.15(d)** and **N.JA.C. 13.39-11A.14(a):**

As noted previously, every batch made is physically supervised and verified by a pharmacist during key identified steps in the compounding process. This supervision and verification is documented along with any applicable notes by a pharmacist during the compounding process for every batch. Batch logs/records were provided on the date of the inspection for the inspector's review. I have included a sample batch record to show the documentation of the pharmacist direct supervision conducting in-process quality checks that are performed for each compounded preparation.

It is important to note that many other measures are taken in addition to the direct pharmacist supervision of our compounding technicians to ensure accuracy of our non-sterile compounded medications at CareFirst Specialty Pharmacy:

- All scales are fully integrated with the laboratory compounding software to document all actions performed on the scale.
- All scales have tolerances set to ensure accuracy of all measurements.
- All scales all locked until a calibration is first performed and recorded in the laboratory software.
- All ingredients used to compound including actives, in-actives, and flavors are barcoded, verified and signed and approved by a pharmacist prior to placement into inventory for use in compounding.

I appreciate your consideration in this matter and if there are any additional questions regarding our submitted materials, please do not hesitate to contact me.

Sincerely, [redacted]

Re: Inspection #8-6514-18-286
Date of Inspection: 3/26/19

Dear Mr. Thakrar:

The New Jersey State Board of Pharmacy, at the November 13, 2019 meeting, reviewed correspondence submitted requesting mitigation relating to the above-referenced inspection.

The Board moved to deny mitigation of N.J.A.C.13:39-6.15(d) and N.J.A.C.13:39-11A.14(a). The Board also moved to remove N.J.A.C.13:39-6.15(d)(e).

We are in receipt of your check in the amount of $1,000.00. Please complete the attached **Certification** form and submit the balance of **$500.00** for fines incurred to the Board within fifteen (15) days receipt of this letter.

Inspection #8-6514-18-286

AR/rh
(7/19)

DEC 06 2019

August, 1 2023

Nebraska Board of Pharmacy,

Regarding Relocation Inspection for CareFirst Specialty Pharmacy

NJ Registration Number: 28RS00740200
Date of Inspection: 05/16/2022
Performed By: New Jersey Board of Pharmacy

Please note that the final inspection findings are preliminary and still being reviewed by the New Jersey Board of Pharmacy. Current there are no disciplinary actions finalized by the New Jersey Board of Pharmacy regarding recent inspection. We understand that we are required to keep the Board apprised of any disciplinary action. Please note our remarks below regarding each item:

(1) 13:39-5.11(d) 4 - The pharmacy failed to contain verbiage in the temperature monitoring policies and procedures for calibration of thermometers at intervals consistent with the manufacturer's recommendations.

We have a complete temperature/humidity/differential pressure monitoring system installed by Aegis Scientific for the compounding spaces, drug storage areas, and refrigerators. The installed system will provide us with all data and alerts for temperature/humidity/differential pressure in the areas. The probes used for monitoring are NIST certified and are also monitored by the system to alert us when the annual replacement is due and automatically send us new NIST-certified probes. The system will alert us 6 weeks before the annual replacement. Although we have a Temperature/Humidity/Differential pressure monitoring SOP including any temperature excursion, it did not specifically reference the annual probe updates. Attached is our current annual NIST certification of the probes and annual probe contract with Aegis where you will see that we had the calibrations and monitoring in place. These measures were in place prior to the relocation and inspection. We have updated our SOP to reflect that the probes will be changed annually per the manufacturer.

(2) 13:39-5.3 (c) - The pharmacy failed to have exterior signage visible noting the presence of a pharmacy.

Our sign is placed to be viewed from the entrance of the building, but the board requires the sign to be viewed from a public roadway, conspicuously identifying the pharmacy. However, due to the location of the pharmacy in the business park, there is no direct entrance access from Fellowship Road. In addition, the local municipal ordinance does not allow a sign at the easement of our entrance road to our pharmacy.
The board investigator has confirmed this and requested we file for a waiver which will be acceptable.

(3) 13:39-6.10 (a) Pharmacy technicians Abigail Gadiano, Donald Vuong, and Valeria Torres Reyes failed to notify the Board of Pharmacy within thirty (30) days of the change of address.

We are working with the technicians to confirm if they had previously made the changes on the board's website/made notification of their address change if applicable and if any corrections are needed.

Fields/Hueller
Inspector

The medications that were present for the filling of prescriptions have been examined for their compliance to the regulatory standards for quality assurance. The medications that were selected to be examined could potentially have been dispensed, and did not include any segments of the inventory that may already have been separated for future return to their respective manufacturers, or had been placed aside for proper disposal. The medications that were found to be in violation of the regulatory disciplines were segregated by the inspector, and then recorded below. The line entries are categorized by the deficiency for which the medication had been set apart, along with the appropriate regulatory cite. It is requested that you accept your option to compare each package of medication that has been separated as deficient against its collateral entry and, if you concur, place your initials in the left-hand column. The inspector will delete any deficiencies for which there are plausible explanations.

Initials of Registered Pharmacist	Quantity or Commercial Package Size	Name and Potency of Item	Manufacturer / Distributor	Lot Number	Expiration Date	Deficiencies [13:39-7.18] [13:39-6.2(f)7] Expired (1 day - 4 months)	Expired (4 months - 1 year)	Expired (more than 1 year)	Misbranded	"Sample" Medications (13:39-7.18)	Improperly Stored (13:39-6.2(f)7 and 8)	Other (See comments)

Report of Inspection

Name of Pharmacy: CareFirst Specialty Pharmacy
Address: 400 Fellowship Rd, Ste 100, Mt. Laurel, N.J. 08054
Name and registration number of pharmacist-in-charge:
Sandeep Thakral, 18RS 03571500
(If the Pharmacist-in-Charge is not present, give the name and registration number of the Registered Pharmacist (R.P.) on duty.)

The following deficiencies have been noted: Rebecca Lux / Kristine.
Additional deficiencies may be cited by the Board Office or Pharmacy Inspector upon further examination if necessary pursuant to law.

1) ~~(13:39-5.11(d)4)~~ (13:39-5.11(d)4) – The pharmacy failed to ensure that use of the computer maintains patient and prescriber confidentiality. Pharmacists do not have their own unique user name and password.

2) (13:39-5.3(c)) – The pharmacy failed to have a current display of the pharmacy's pharmacist-in-charge.

3) (13:39-6.10(a) – Pharmacists Jessica Cano, Edward Godiano, Donald Hung, and Valeria Torres Reyes failed to notify the Board of Pharmacy within thirty (30) days of a change of address.

This is to acknowledge that I have been present during this inspection and concur with the findings, as so noted, with the following exceptions; if any.

COMMENTS: Thank you. I will review the details of the report of inspection and make any changes and updates as required.

Response to 483

Dear Director Harlan:

Please be advised that I represent the above referenced pharmacy. Please accept this submission in response to the 483 issued to CareFirst Specialty Pharmacy LLC ("CareFirst Specialty Pharmacy"), located at 400 Fellowship Road, Ste. 100, Mount Laurel, New Jersey. A copy of the form FDA 483 is attached, as Exhibit A.

The dates of inspection were November 15, 2022 (***beginning at approximately 10:30, and approximately 90 minutes after the pharmacy's operations for the day commenced***), November 16, 2022, November 17, 2022, November 21, 2022, November 23, 2022, and November 30, 2022. During the inspection, CareFirst Specialty Pharmacy engaged cooperatively and constructively with FDA. We would like to assure FDA that CareFirst Specialty Pharmacy is committed to providing patients with the highest quality non-sterile compounded medications prepared in compliance with all applicable standards and that, as demonstrated herein, the pharmacy takes its professional responsibilities very seriously.

For the reasons set forth below, the pharmacy respectfully disputes portions of the FDA's factual and/or legal findings.

Please note that CareFirst Specialty Pharmacy makes this submission without conceding the relevancy, materiality, existence, or admissibility of any document or document request, and without prejudice as to its rights to further contest the FDA's findings. In producing or making available for inspection documents in connection with this action, CareFirst Specialty Pharmacy reserved, and continues to reserve, all claims of privilege and other such protections and further hereby expressly reserves the right to demand the return of all copies of, and object to the use of, any documents or information subject to a claim of privilege or other such protections that are inadvertently disclosed.

Additionally, insofar as the information contained in the enclosed documents includes protected health information, we request the FDA to maintain the same as confidential documents. The records are being produced pursuant to your representations and the HIPAA exception found at 45 C.F.R. 164.512 (b)(1).

Please also be advised that CareFirst Specialty Pharmacy reserves the right to supplement this response and/or submit additional information as it pertains to this matter and the 483 that has been issued. This letter does not waive any rights CareFirst Specialty Pharmacy may assert under applicable law. Furthermore, this submission should not be construed as a waiver of CareFirst Specialty Pharmacy's rights.

As an initial matter, we also note that the pharmacy fully and voluntarily cooperated with FDA throughout the course of this matter. In addition to responding to multiple requests for documentation, the pharmacy and its staff were also made available for multiple interviews. The pharmacy did not refuse to provide any information.

The Form 483 observation attempts to hold CareFirst Specialty Pharmacy to cGMP standards with which, as a matter of law, CareFirst Specialty Pharmacy is not required to comply. See 21 U.S.C. § 353a(a)(1)-(2). CareFirst Specialty Pharmacy objects to the observation in the Form 483 which inappropriately applies cGMP standards. While CareFirst Specialty Pharmacy is addressing all of FDA's inspectional findings, its cooperation with FDA should not be construed as CareFirst Specialty Pharmacy agreeing that it is required to comply with cGMP.

CareFirst Specialty Pharmacy is not a manufacturer. CareFirst Specialty Pharmacy is a retail pharmacy licensed by the New Jersey Board of Pharmacy that compounds non-sterile medications pursuant to patient specific prescriptions for humans and compounds non-sterile medications for veterinary use. Furthermore, CareFirst Specialty Pharmacy holds an unrestricted license which is in good standing.

To this end, we note that the category of establishment FDA lists on the Form 483 - "Producer of Non-Sterile Drug Products" - is not a category recognized in any statute, rule, or guidance. Similarly, FDA also has not published any regulations or even non-binding agency guidance that would provide inspection standards. Congress passed Section 503A, which, along with its exemption from cGMP, applies to this Pharmacy.

FDA's Observation ignores the fact that this pharmacy - which complies with the requirements set forth in Section 503A - is exempt from cGMP regulations. Pharmacies operating under Section 503A of the FDCA are exempt from cGMP in accordance with the Drug Quality and Security Act. Specifically, on November 27, 2013, President Obama signed into law the Drug Quality and Security Act ("DQSA"), Pub. L. No. 113-54. Title I of the DQSA, the Compounding Quality Act, eliminated certain unconstitutional advertising provisions from Section 503A, thus effectively re-enacting those provisions and allowing Section 503A unequivocally to go into effect. The statutory provisions, however, do not

expand FDA's inspection authority or alter in any way applicable standards for compounding pharmacies that comply with FDCA Section 503A.

A critical aspect of Section 503A is the explicit recognition that pharmacies acting in compliance with Section 503A are exempt from certain provisions of the FDCA. In light of this Congressional mandate, FDA must adhere to Section 503A and cannot impose more stringent standards on CareFirst Specialty Pharmacy, such as the cGMP. Section 503 A provides:

> Sections 501(a)(2)(B), 502(f)(l) and 505 shall not apply to a drug product if the drug product is compounded for an identified individual patient based on the receipt of a valid prescription order or a notation, approved by the prescribing practitioner....[1]

FDA's non-binding guidance, published July 2, 2014,[2] is completely consistent with the statute. It reiterates that drugs compounded in compliance with Section 503A will be exempt from certain sections of the FDCA including cGMP requirements (Section 503(a)(2)(B)); labeling with adequate directions for use (Section 502(1)(1)); and new drug requirements (Section 505)). Guidance at 2.

The Form 483 also appears to improperly hold CareFirst Specialty Pharmacy to standards outside applicable State and federal law to determine if its compounds are prepared under insanitary conditions and are therefore adulterated under Section 501(a)(2)(A) of the Federal Food, Drug, and Cosmetic Act ("Section 501(a)(2)(A)"). CareFirst Specialty Pharmacy is entitled to Section 503A's exemption from cGMP as a pharmacy acting within its requirements, and therefore FDA should only hold CareFirst Specialty Pharmacy to State law standards when evaluating the conditions under which CareFirst Specialty Pharmacy's compounds are prepared. As such, to the extent it is doing so, FDA cannot use Section 501(a)(2)(A) to apply cGMP or some other standards outside of State law to evaluate CareFirst Specialty Pharmacy.

Preparation of this Response to FDA's observation does not constitute an admission or agreement by this Pharmacy to the alleged deficiency or conclusions set forth in FDA's Observation. None of the actions that may be taken by this Pharmacy pursuant to its response should be considered an admission that an Observation existed or that additional measures should have been in place at the time of the inspection. Without conceding that any of the Observations are applicable, set forth below is Pharmacy's Response to the single observation. CareFirst Specialty Pharmacy respectfully requests that if FDA posts the Form 483 issued to

---

[1] Section 503A(b) further provides that a drug may be compounded if the pharmacist uses bulk substances that (1) comply with the standards of an applicable United States Pharmacopeia ("USP.,) or National Formulary ("NF") Monograph, if a monograph exists, and the USP chapter on pharmacy compounding; (2) if such a monograph does not exist, are substances that are components of approved drug products; or (3) if neither of the above, then the drug appears on a shortage list developed by the FDA through regulations.

[2] Final Guidance; Pharmacy Compounding of Human Drug Products under Section 503A of the Federal Food, Drug, and Cosmetic Act; Availability; 79 Fed. Reg. 37742 (July 2. 2014).

this Pharmacy, then FDA shall post this Response along with it, and also provide this Response when FDA provides the Observation to third parties.

Notwithstanding the inappropriate application of federal manufacturing regulations to a retail pharmacy, we would like to assure FDA that CareFirst Specialty Pharmacy is committed to providing patients with the highest quality compounded medications prepared in compliance with all applicable standards and that, as demonstrated herein, the pharmacy takes its professional responsibilities very seriously.

To that end, patient safety is CareFirst Specialty Pharmacy's primary concern, and the pharmacy strives to provide the highest quality preparations and services. CareFirst Specialty Pharmacy has an impeccable safety record concerning the compounded medications that it prepares according to the applicable standards.

Its quality assurance and standard operating procedures ("SOPs") follow demonstrated pharmacy best practices and are designed to produce high-quality compounded non-sterile preparations. CareFirst Specialty Pharmacy's practices are based upon New Jersey Board of Pharmacy requirements and other standards applicable to retail pharmacies so that its patients can continue to access high-quality compounded medications to meet their individual medical needs.

Moreover, the Form 483 and FDA's observation is on its face incorrect. There is a material error of fact and the observation premised on this error should be withdrawn or amended to reflect the actual facts.

In light of the above, without waiving its right to contest FDA's application of cGMPs, CareFirst Specialty Pharmacy provides the following responses to the Observation set forth in the 483.

OBSERVATION 1

Non-microbial contamination was observed in your production area.

Specifically, unidentified residue buildup was observed during the walkthrough conducted on 11/15/2022 in both corners of the back wall of Bench 101 which was used to produce drug products.

RESPONSE

We acknowledge your observation but disagree with your conclusion, both factually and as a matter of law. As stated, CareFirst Specialty Pharmacy is a registered pharmacy practicing under the authority of the New Jersey Board of Pharmacy (NJBOP), complying with both NJBOP and USP General Chapter <795>- *Pharmaceutical Compounding – Nonsterile Preparations*, guidance for Environmental Quality and Control of our compounding rooms.

FDA's Observation is factually incorrect. The residue identified was created in the normal and routine course of the compounding process and contained within the Controlled Ventilated Enclosure (CVE), commonly referred to as a "powder hood," identified and marked as "Bench 101." Note that Bench 101 is located in CareFirst Specialty Pharmacy's Non-Hazardous Non-Sterile (Non-USP 800) compounding room. The investigators observed compounding activities in multiple benches during their inspection of the compounding room and Bench 101 was observed to contain powder and residue. The powder and any residues were created by the normal daily use of the CVE. The compounds made that day at that particular bench used the same active ingredient from the same lot number.

The walk-through by the FDA inspectors occurred during the compounding day, not at the beginning of the compounding day; the CVE was in-use and not terminally cleaned. Upon the identification of this condition of the CVE, once the compounding was completed for that particular and the CVE was no longer being used for compounding, the trained staff cleaned the CVE pursuant to its policies and procedures and removed any residues of the active pharmaceutical ingredients (API) or other components being prepared within. Attached as Exhibit B are photo(s) of "Bench 101" post-cleaning to demonstrate the usual end-of-day condition of the device.

In closing, we respectfully submit this response to explain and distinguish CareFirst Specialty Pharmacy's operational processes and to clarify what may have been misinterpreted by the FDA field investigator who visited the pharmacy.

CareFirst Specialty Pharmacy emphasizes that it takes patient safety and its professional responsibilities very seriously. CareFirst Specialty Pharmacy shares FDA's goal of ensuring that patients in need of custom compounded medications receive quality preparations. To that end, and although it is not required to do so, CareFirst Specialty Pharmacy has voluntarily taken corrective measures identified herein.

We respectfully submit that these measures more than adequately address FDA's observations, and otherwise should exceed FDA's expectations in this matter. We look forward to discussing this matter with you.

In the interim, please do not hesitate to contact me should you have any questions.

Very truly yours,

SATISH V. POONDI

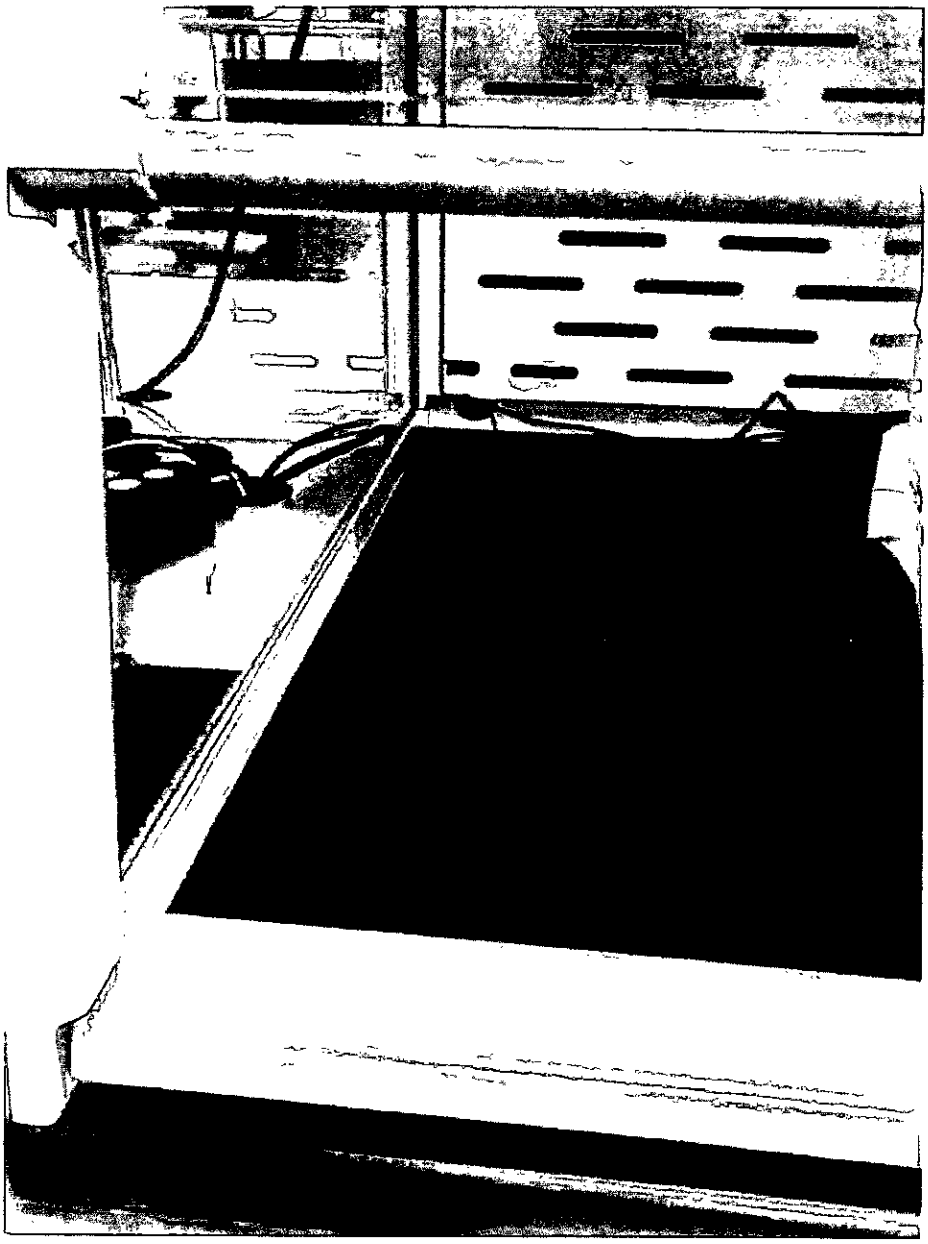
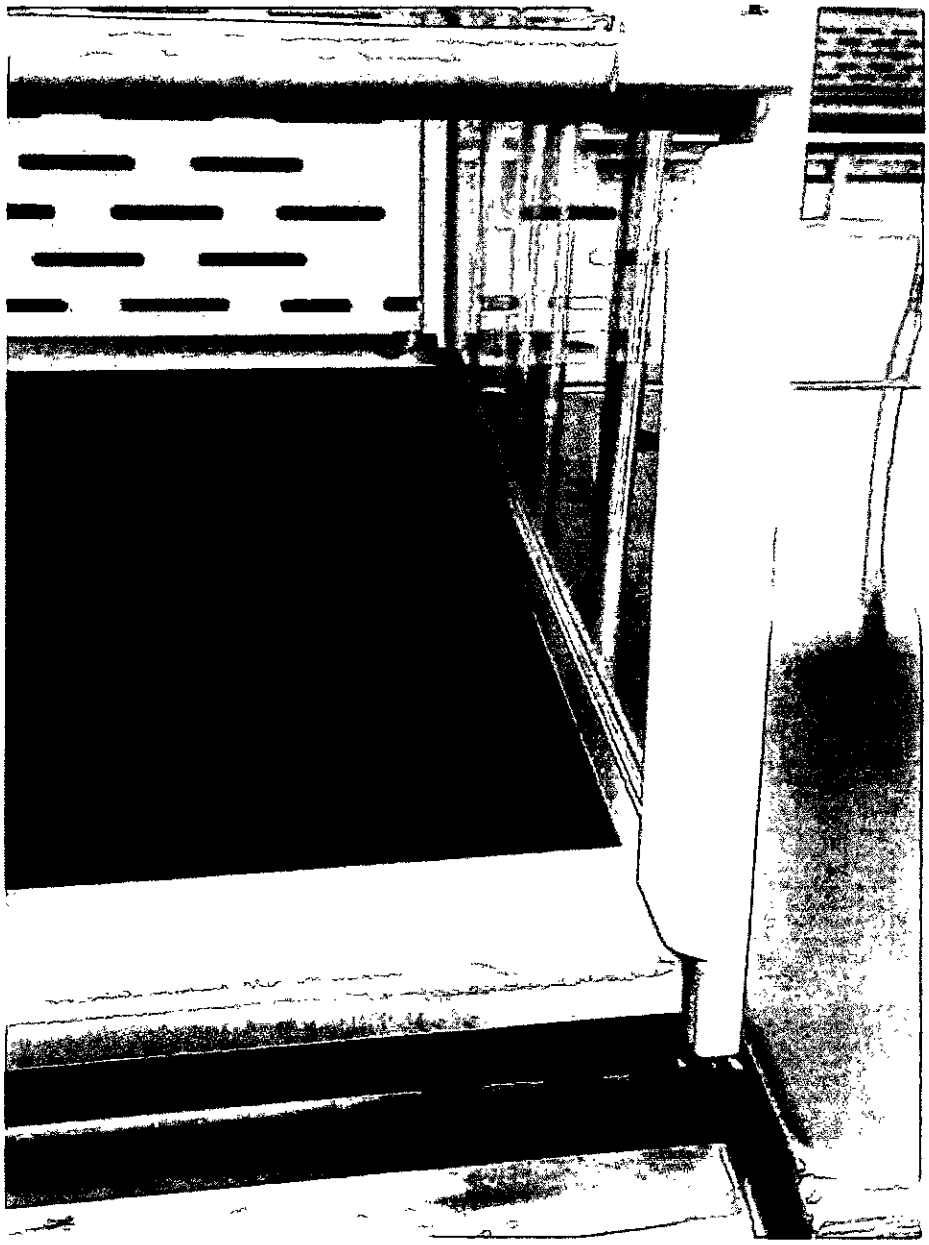
FORM FDA 483 (09/08) PREVIOUS EDITION OBSOLETE **INSPECTIONAL OBSERVATIONS** PAGE 1 of 1 PAGES



The observations of objectionable conditions and practices listed on the front of this form are reported:



1. Pursuant to Section 704(b) of the Federal Food, Drug and Cosmetic Act, or
2. To assist firms inspected in complying with the Acts and regulations enforced by the Food and Drug Administration.

Section 704(b) of the Federal Food, Drug, and Cosmetic Act (21 USC 374(b)) provides:

"Upon completion of any such inspection of a factory, warehouse, consulting laboratory, or other establishment, and prior to leaving the premises, the officer or employee making the inspection shall give to the owner, operator, or agent in charge a report in writing setting forth any conditions or practices observed by him which, in his judgment, indicate that any food, drug, device, or cosmetic in such establishment (1) consists in whole or in part of any filthy, putrid, or decomposed substance, or (2) has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health. A copy of such report shall be sent promptly to the Secretary."

Dear Mr. Thakrar:

We are enclosing a copy of the Establishment Inspection Report (EIR) for the inspection conducted at your facility, CareFirst Specialty Pharmacy, LLC, located at 400 Fellowship Road, Suite 100, Mount Laurel, NY 08054, from November 15, 2022, to November 30, 2022, by the U.S. Food and Drug Administration (FDA). In addition, we are enclosing the letter sent to the New Jersey State Board of Pharmacy for follow up.

When the Agency considers an inspection to be "closed" under 21 C.F.R. 20.64(d)(3), it will release a copy of the EIR to the inspected establishment.

The Agency continually works to make its regulatory process and activities more transparent for regulated industry. Releasing this EIR to you is part of this effort. The copy being provided to you comprises the narrative portion of the report; it may reflect redactions made by the Agency in accordance with the Freedom of Information Act (FOIA) and 21 C.F.R. Part 20. This, however, does not preclude you from requesting and possibly obtaining any additional information under FOIA.

If there is any question about the released information, please contact Yvette Johnson, Compliance Officer at Yvette.Johnson@fda.hhs.gov.

Sincerely,

Lisa M. Harlan -S Digitally signed by Lisa M. Harlan -S

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?	✓	
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # 6. Provide all the following *where applicable*:

To Whom It May Concern:

The New Jersey Board of Pharmacy has been requested by CAREFIRST SPECIALTY PHARMACY, LLC to forward a letter of good standing regarding the Pharmacy's registration to practice in the State of New Jersey.

A review of the Board's files indicates that CAREFIRST SPECIALTY PHARMACY, LLC was issued a New Jersey registration 28RS00740200 on or about 05/05/2015 and is currently Active and in good standing with an expiration date of 06/30/2025. A review of the Board's files further indicates that public disciplinary action has been taken against this Pharmacy. A certified, true copy of the reportable action(s) filed with the New Jersey Board of Pharmacy is attached.

Very truly yours,

Anthony Rubinaccio, RPh

Re: Inspection #8-6514-18-286
Date of Inspection: 3/26/19

Dear Sundeep Thakrar:

This letter is to advise you that the New Jersey State Board of Pharmacy has had an opportunity to review information concerning the above inspection report.

Upon review of all available information, the Board has preliminarily found that you have violated those items listed on Attachment A.

The Board has determined that it will offer you an opportunity to settle this matter and thereby avoid the initiation of further disciplinary proceedings. Should you wish to avail yourself of this opportunity, you **MUST SIGN THE ATTACHED CERTIFICATION** and agree to the following:

PAY A PENALTY IN THE AMOUNT OF $2,000.00 and **PROVIDE TO THE BOARD A LETTER OF CORRECTIVE ACTION.** (To be paid immediately upon your signing of the attached acknowledgment.)

Alternatively you may waive your right to a hearing and submit a written statement or explanation to the Board. The Board will then consider your submission and render a final decision, which may include any of the terms set forth above. This disposition will be a public record. Please take notice that if the Board determines that the initial inspection findings require a re-inspection to ensure that cited deficiencies have been properly addressed, you may be subject to any costs associated with the re-inspection.

If you do not wish to settle this matter, you may request a hearing. In that event, this letter will serve as notice of the charges against you and a hearing will be scheduled before the

Board. At that hearing you may, either personally or with the assistance of an attorney, submit determination concerning the charges of unlawful activity. You should be aware that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that herein offered in this letter. Additionally, the Board may, if the facts are found to so warrant, enter an order, requiring you to reimburse certain monies, direction you to cease and desist from engaging in unlawful acts and/or requiring you to pay costs incurred by the Board. Should you have any questions concerning this letter or the settlement offer herein, I suggest that you contact the Board at (973) 504-6450.

The enclosed Certification **MUST** be completed and returned to the Board within fifteen (15) days following your receipt of this letter. In the event that the Board receives no response from you within this time, the Board's settlement offer will be withdrawn, and the allegations contained herein shall be deemed admitted, and the Board will proceed to finally review that matter and enter an appropriate order.

CERTIFICATION

I, Sundeep Thakrar, hereby acknowledge that I have read and reviewed the Board's letter dated September 13, 2019 regarding allegations of violations of the Board's enabling act and/or regulations.

Please Check One:

[ ] I acknowledge the conduct which has been charged and agree to:

1. **Cease and desist from engaging in the conduct alleged and pay a penalty in the amount of $2,000.00** (to be paid upon signing of this Certification).

2. **Send a Letter of Corrective Action**, as requested by the Board, with this Certification.

I am also aware that the action taken against me by the Board herein is a matter of public record, and that the Board's letter and this Certification are public documents.

[✓] I hereby waive any rights I may have to a hearing in this matter and defend myself against any charges, but ask the Board to consider my explanation before rendering its final decisions. I understand that the Board may order any of the terms specified in its letter and that the Certification are public documents.

[ ] I request a formal administrative hearing to contest the charges specified by the Board. I understand that I will be advised of the time, date and place for that hearing at another time. I am aware that I may be represented by an attorney and that at the time of the hearing I may submit to the Board testimony and documentation relevant to the charges. I understand that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that herein offered in its letter and may order such other remedies as it may deem appropriate. I am also aware that this proceeding is a matter of public record and that the Board's letter and this Certification are public documents.

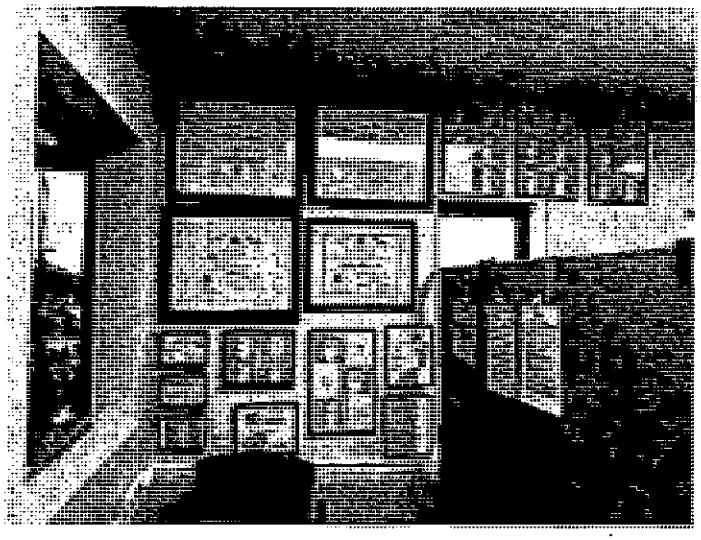
Re: Inspection #8-6514-18-286
Date of Inspection 3/26/2019



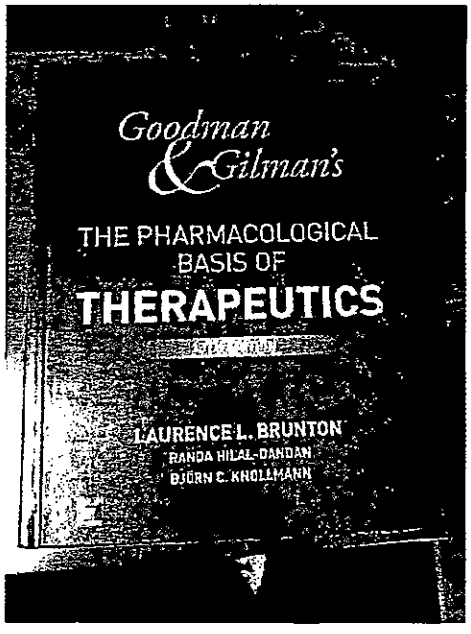
Dear Mr. Rubinaccio,

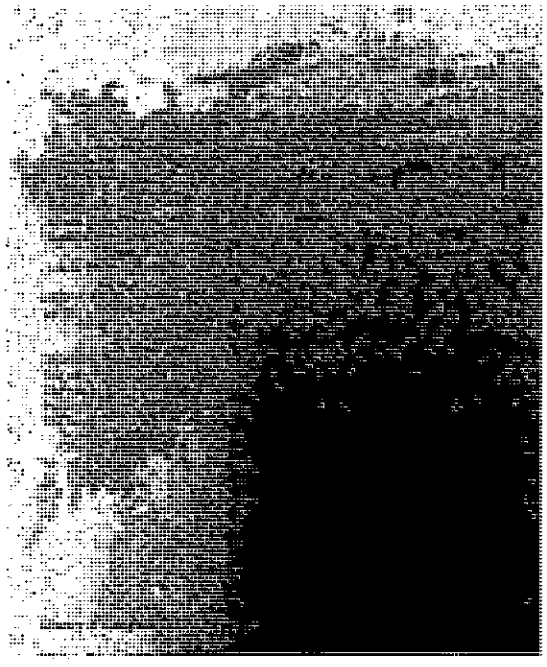
I am submitting a written statement and explanation to the board in response to your letter dated 9/13/2019 regarding the inspection findings. We would like to submit, for the Board's consideration, detailed explanations (and supporting documentation) that CareFirst Specialty Pharmacy demonstrated compliance with **N.J.A.C.13:39-6.15 (d) (e)** and **N.J.A.C.13:39-6.15(d), N.J.A.C.13:39-11A.14 (a).**

*Please note, I am not contesting CITE **N.J.A.C.13:39-6.7(b)** or CITE **N.J.A.C.13:39-5.8(a)1.** I have provided details regarding corrective actions implemented for these citations.*

In reference to CITE N.J.A.C.13:39-6.7(b):

I do not contest this finding. The Pharmacy Technician Registrations have since been relocated so that they are now in public view next to our Pharmacist licenses. I have attached a photo indicating the new location below:





CareFirstRx Specialty Pharmacy

2200 Garry Road, Suite 1
Cinnaminson, NJ 08077
Tel: 844-822-7379
Fax: 844-922-7379

In reference to CITE N.J.A.C.13:39-5.18(a)1:

I do not contest this finding. Our reference library has been updated to include current versions of *General Practice of Pharmacy*, and *The Pharmacological Basis of Therapeutics McGraw-Hill Education / Medical; 13 edition (December 5, 2017).* I have attached a photo for your review below:

In reference to CITE N.J.A.C.13:39-6.15(d)(e):

I find that we were not in violation of this statute. As documented in the citation details, it is correct that we staffed 4 pharmacists and 9 supportive personnel (pharmacy technicians) on the date of the inspection. However, of the 9 technicians, one was a registered technician in training. It is our understanding that under regulation 13:39-6.15(d), a pharmacy technician in training shall be excluded from the 2:1 ratio provided that the training period does not exceed 210 days and the pharmacy technician is registered. At the time of the inspection, the technician did meet these criteria. I have attached a list of Pharmacy Technicians on staff on the date of the inspection along with their technician registration information and date of hire:

In reference to CITE N.J.A.C. 13:39-6.15(d) and N.J.A.C. 13.39 - 11A.14(a)

Our pharmacists provide immediate personal supervision of technicians that are conducting Non-Sterile Compounding. I have referenced our procedures below to demonstrate that we meet this requirement. Our process for allowing non-sterile compounding technicians to compound is as follows:

1. We conduct training and routinely evaluate Pharmacy Technician competency of non-sterile compounding by:
    a. Having the Pharmacy Technician observe compounding of a given dosage form with a PIC assigned Compounding Trainer.
    b. Having the Pharmacy Technician independently perform compounding of a given dosage form with direct, personal supervision of a Pharmacist. Documentation of training and competency assessment is recorded in our Training Compliance System called Pestle.
    c. Only if performed correctly and having demonstrated proficiency, the technician is permitted to perform applicable compounding activities. Note: Every preparation must meet certain quality checks that require documentation on the batch record that is reviewed by a Pharmacist. Additionally, the Technician in Training will have a random preparation(s) sent to an outside laboratory for testing during the training period.

CareFirstRx Specialty Pharmacy

2200 Garry Road, Suite 1
Cinnaminson, NJ 08077
Tel: 844-822-7379
Fax: 844-922-7379

d. This training is performed initially, before the technician is permitted to compound a given dosage form, and at least every 12 months thereafter in which the Technician's competency is evaluated. All such training and competency evaluations are documented in our Training Compliance System called Pestle. Only a fully trained Compounding Pharmacist can conduct annual competencies. An example of documentation is attached.

2. ONLY AFTER training and competencies have been successfully completed by the technician, he or she is permitted to perform nonsterile compounding under Pharmacist supervision. Our Pharmacist supervision includes:
   a. Per 13:39-11A.14, "...the checking of each ingredient used and lot number, the quantity of each ingredient whether weighed, measured, or counted, and the finished label."
   b. The supervision and checking of each of these items occurs during the appropriate step of the compounding process and is documented in EVERY batch record.
   c. The pharmacist checks that proper equipment and setup is followed and the technician wears proper garbing.
   d. The pharmacist will randomly observe the compounding technicians' technique in performing non-sterile compounding and conducts quality checks in the lab throughout the day.
   e. Upon completion, the pharmacist will check the final preparation, review the final batch record, review and confirm that all of the quality checks were conducted and documented prior to dispensing.
   f. The Pharmacist will double check calculations for the compounded preparation prior to dispensing to confirm accuracy.

Our process was assessed by our consultant, Denise M. Frank, BPharm, RPh, FACA, who found it to be compliant.

It was noted on the citation that cameras are used to supervise technicians. However, we use the cameras for ***training purposes only*** and not for actual RPh verification checks which are done in person. As noted in the Attachment A of the CITE, Pharmacists were rotating in the lab and conducting in-progress checks. Additionally, as noted on the CITE, Pharmacists spend approximately half of their time in the lab supervising the technicians during the compounding process.

We have included payment in the amount of $1000.00 for CITES N.J.A.C.13:39-6.7(b) and N.J.A.C.13:39-5.8(a)1. We will await your response regarding the other 2 citations and will follow up accordingly. Please contact me for any additional information or documentation.

Sincerely,

[redacted]

Re: Inspection #8-6514-18-286
Date of Inspection 3/26/2019

Dear Mr. Rubinaccio,

I recently submitted a written statement dated 9/26/2019 in response to the Board's findings regarding our above referenced inspection. I would like to submit for your consideration, this addendum to our initial response in reference to **CITE N.J.A.C. 13:39-6.15(d) and N.J.A.C. 13.39-11A.14(a):**

As noted previously, every batch made is physically supervised and verified by a pharmacist during key identified steps in the compounding process. This supervision and verification is documented along with any applicable notes by a pharmacist during the compounding process for every batch. Batch logs/records were provided on the date of the inspection for the inspector's review. I have included a sample batch record to show the documentation of the pharmacist direct supervision conducting in-process quality checks that are performed for each compounded preparation.

It is important to note that many other measures are taken in addition to the direct pharmacist supervision of our compounding technicians to ensure accuracy of our non-sterile compounded medications at CareFirst Specialty Pharmacy:

- All scales are fully integrated with the laboratory compounding software to document all actions performed on the scale.
- All scales have tolerances set to ensure accuracy of all measurements.
- All scales all locked until a calibration is first performed and recorded in the laboratory software.
- All ingredients used to compound including actives, in-actives, and flavors are barcoded, verified and signed and approved by a pharmacist prior to placement into inventory for use in compounding.

I appreciate your consideration in this matter and if there are any additional questions regarding our submitted materials, please do not hesitate to contact me.

Sincerely,

[redacted]

inactive ingredients, this will give you total weight of ingredients.
b. Then divide the sum of the weight of the active ingredients by the total weight of ingredients.
c. Multiply the number in previous step to give you the percentage. If the answer is below 80 then additional mixing is required.

DOCUMENT IF MAZ IS REQUIRED: (Y) N

9. If no additional mixing is required, mix powder for a total of 5 minutes. If additional mixing required, mix using mortar and pestle for total of 2 minutes then proceed by using Promixer OR Mazerustar:

Promixer Instructions:
1. Add powder into Promixer shell and close securely
2. Run Promixer for 20 min.
Note: See Tech Verification below

Mazerustar Instructions:
1. Add active and inactive powders into Mazerustar jar and add to Maz mixer
2. Add water into separate jar that is equal in weight to powder then add to Maz mixer
3. Run Maz mixer at 3 Revolutions/6 Rotations for 120 seconds
4. If clumping is present, run again at 3 Revolutions/6 Rotations for 60 seconds
Note: See Tech Verification below

Note: Powder should be homogenous and static free
Note: If splitting for multiple batches is required, follow splitting procedure provided by RPh.

10. Using Promixer-Encapsulator, encapsulate in appropriate size capsule using instructions found in ProFiller 1000 Manual v1.3.1.
11. Randomly weigh 5 individual capsules per each 100 capsules made. If less than 100 capsules are made randomly weigh 5 individual capsules. Average of 5 capsules weighed must weigh +/- 10% of target weight.
12. Each capsule should weigh **_101_** mg, plus weight of empty capsule.

#1 weight 99 with in 10%
#2 weight 104 with in 10%

13. Dispense in appropriate size packer bottle and label.
14. Promptly, spray any powder containing equipment being taken out of hood with bleach.
15. Clean hood upon completion of compounding
16. Complete verification procedures

Tech Verification:

1. Circle which mixer was used: Mazerustar / Promixer / Not Applicable due to concentration of actives
2. Batch label matches lot number on log worksheet: _____

RPh Verification:

1. Verified to be white / oblong capsule: _____
2. Batch label matches lot number on log worksheet: _____

Manual pharmacist check documented as final step prior to filling

Warning! Safety when compounding:
Precautions should be taken when compounding hormone and other steroids, as they can be absorbed through skin, mucous membranes and lungs. Wear appropriate lab apparel, eye protection and respirator. Use an appropriate filter system to reduce the amount of airborne chemical particles in your lab. Monitor to ensure there is no direct exposure to the compounder. Pregnant women and compounders with hormone related cancer should not compound hormone therapy.

Note: Appearance: Fully filled capsules
Note: Protect from light.
Note: Store at room temperature

Note: Beyond Use Dates of preparations are conservative estimates by the formulator using reference books, peer reviewed literature, intended duration of therapy, formulation from commercially available products, organoleptic stability observations and current USP guidelines. Compounders may have stability tests performed by a reputable lab.

Note: Beyond used per USP 795 non aqueous preparation is 180 days.

Status:	Compliant
Last Update:	---

Field Name	Value
Employee Name	Foram Patel
Date of Assessment	08/12/2019
Pharmacist/Manager conducting assessment	Sunny Thakrar
Performs pharmaceutical calculations required to accurately compound various non-sterile dosage forms	Yes
Accurately and effectively utilizes various pieces of equipment available in our compounding practice	Yes
Demonstrates ability to compound SOLUTIONS AND SUSPENSIONS using appropriate techniques	Yes
Demonstrates ability to compound CREAMS, OINTMENTS and GELS using appropriate techniques	Yes
Demonstrates ability to compound LOTIONS using appropriate techniques	Yes
Demonstrates ability to compound SOLID DOSAGE FORMS (INCLUDING SUPPOSITORIES & TROCHES) using appropriate techniques	Yes
Demonstrates ability to compound CAPSULES using appropriate techniques	Yes
Demonstrates ability to compound TABLETS using appropriate techniques	NA
Demonstrates ability to compound LOLLIPOPS using appropriate techniques	NA
Demonstrates ability to compound OTHER NOVEL DOSAGE FORMS using appropriate techniques	Yes
Demonstrates how to perform relevent calculations (Example: Capsule Weights, Split Batches)	Yes

Field Name	Value
Identifies the most appropriate calculation method to use	Yes
Understands the Equipment Cleaning Procedure and Documentation before and after Compounding	Yes
Knows proper storage and delivery requirements for shipping medication (i.e. Where to place refrigerated compound, cold packs for shipping, etc)	Yes
Dispenses Compounded Medication accurately and efficiently by choosing and properly using available molds and dispensing devices	Yes
Identifies and performs the required calculations and Quality Checks required for the Formulation Record	Yes
Demonstrates understanding of USP 795 and assigning appropriate BUD	Yes
Demonstrates the ability to use Pharmacy Software	Yes
Identifies proper handling technique for NON-HAZARDOUS DRUGS and HAZARDOUS DRUGS	Yes
Knows proper GOWNING procedures for NON-HAZARDOUS DRUGS and HAZARDOUS DRUGS	Yes
Knows proper RECEIPT procedures for NON-HAZARDOUS DRUGS and HAZARDOUS DRUGS	Yes
Understands proper STORAGE requirements for NON-HAZARDOUS DRUGS and HAZARDOUS DRUGS	Yes
Demonstrates proper COMPOUNDING TECHNIQUE with HAZARDOUS DRUGS	Yes
Notes	
Did employee successfully demonstrate competency in all areas observed?	Yes
Pharmacist/Manager Signature	Sunny Thakrar

Re: Inspection #8-6514-18-286
Date of Inspection: 3/26/19

Dear Mr. Thakrar:

The New Jersey State Board of Pharmacy, at the November 13, 2019 meeting, reviewed correspondence submitted requesting mitigation relating to the above-referenced inspection.

The Board moved to deny mitigation of N.J.A.C.13:39-6.15(d) and N.J.A.C.13:39-11A.14(a). The Board also moved to remove N.J.A.C.13:39-6.15(d)(e).

We are in receipt of your check in the amount of $1,000.00. Please complete the attached **Certification** form and submit the balance of **$500.00** for fines incurred to the Board within fifteen (15) days receipt of this letter.

(7/19)

CERTIFICATION

I, SUNDEEP 'SUNNY' THAKRAR, hereby acknowledge that I have read and reviewed the Board's letter dated November 21, 2019 regarding allegations of violations of the Board's enabling act and/or regulations.

Please Check:

[✓] I acknowledge the conduct which has been charged and agree to:

1. **Cease and desist from engaging in the conduct alleged and pay a penalty in the amount of $500.00** (to be paid upon signing of this Certification).

I am also aware that the action taken against me by the Board herein is a matter of public record, and that the Board's letter and this Certification are public documents.

[redacted]

ATTACHMENT A

3. **Carefirst Specialty Pharmacy, LLC, Permit #28RS00740200** – 2200 Garry Road, Suite 1, Cinnaminson, NJ 08077
Pharmacist-In-Charge: Sundeep Thakrar
Bureau File #8-6514-18-286, **Period:** 3/26/19
Reference: Board of Pharmacy inspection conducted per N.J.S.A.45:1-18 and a Memorandum dated March 12, 2018 from Anthony Rubinaccio, Executive Director, Board of Pharmacy, to Cyndy M. Gohl, Chief, Enforcement Bureau, requesting an inspection of the subject pharmacy in connection with an application for **Remodeling.** A routine inspection of the subject pharmacy was also conducted.

Details

CITE	DESCRIPTION	FINE
N.J.A.C.13:39-6.7(b)	Pharmacy technician registrations were not conspicuously displayed in the pharmacy in view of the public. They were displayed in the back of the office in a manner that obstructs the view. Sixteen (16) technician registrations were displayed in this manner.	$800.00
N.J.A.C.13:39-5.8(a)1	The pharmacy failed to maintain a current pharmacy reference library. The reference for the General Practice of Pharmacy, The Pharmacological Basis of Therapeutics, was published more than ten (10) years ago. The pharmacy had the 11th edition, which was published in 2006.	$200.00
N.J.A.C.13:39-6.15(d) N.J.A.C.13:39-11A.14(a)	Pharmacists failed to provide immediate personal supervision to pharmacy technicians engaged in non-sterile compounding in the compounding laboratory. Pharmacists utilize cameras to supervise technicians. Pharmacists were rotating in the laboratory when the technicians required an in-progress check from the pharmacist. Mr.Thakrar verbalized that the pharmacists spend half their time in the lab and the other half performing verification outside of the lab.	$500.00
	It should be noted that a Verified Pharmacy Program inspection was conducted at the pharmacy by the National Association of Boards of Pharmacy on September 14, 2018.	
TOTAL: $1,500.00

Verified Pharmacy Program® Inspection Form

General Pharmacy Inspection

The information and comments obtained in the Nonsterile Compounding, Sterile Compounding Inspections, and Hazardous Drug Compounding are based on USP Chapters <795>, <797>, and <800>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
	General Pharmacy		
1.00	Is the PIC (or pharmacy manager/director) present for the inspection? *If no, list the pharmacist on duty.*	Yes	
2.00	Is the PIC employed full-time at the pharmacy? *List the number of hours worked per week onsite.*	Yes	Approximately 70
3.00	Are there any other businesses located at this address? *If yes, note type of business and name.*	No	
4.00	Does the pharmacy have any other websites? *Provide list of other names/URLs.*	Yes	www.csppharmacy.com
4.01	Does the pharmacy hold .pharmacy verification?	Yes	
5.00	Do any other websites link to the pharmacy website (such as a provider, or other affiliate)? *If yes, list.*	No	
6.00	Does the pharmacy allow patients to securely enter/update profile and medical information through the website (such as through a secure patient portal)?	No	
7.00	Are patients able to order or refill prescriptions through the website? *If yes, describe.*	Yes	Website has a link where the patient can order refills and ask the pharmacy to contact them.
8.00	Are photographs allowed during the inspection (no PHI)?	Yes	No photos taken
9.00	List of additional personnel **interviewed as part of the inspection, including name and title:**		Michael Vuong- Pharmacy Manager, Jessica Mullenax-Administrative and Compliance Manager, Charles Glatz-Pharmacist and Lisa Batastini

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
	General Operations and Licensure If any part of a question is no, enter "No" and explain the observation.		
15.00	Are pharmacy licenses, permits, and registrations (state, controlled substance, DEA, etc) posted in customers' view and current? *If no, provide details such as closed-door pharmacy, expired licenses, etc.*	Yes	All pharmacy and employee licenses are posted on the wall in the lobby in a locked cabinet as you enter the pharmacy. Doc01_GP_15.00
16.00	Is the most recent board of pharmacy inspection report available for review? *Record the date of the last inspection and how frequently the pharmacy is routinely inspected by the board.*	Yes	Last inspection by the NJ Board of Pharmacy was on 05/16/2022. Inspections are conducted on a random basis.
17.00	Were any deficiencies noted? *Indicate the deficiencies and note whether they were corrected.*	Yes	P&P on temperature monitoring was not complete, no exterior signage noting a pharmacy, and three technicians had failed to notify the Board of a change of address were noted on the inspection. However there has been no final determination from the Board.
18.00	Does the pharmacy hold ANY wholesale, distributor, or manufacturer licenses? *Document information in the license grid above for Resident State and in the Notes for Non-Resident States.*	No	Per PIC Thakrar
19.00	Has this pharmacy been inspected by any other state for which it holds a license? *If yes, note the state and the date of the inspection and frequency of inspections by other states.*	No	Per PIC Thakrar
20.00	Is the pharmacy operating under an exemption or restriction granted by the state in which the pharmacy is located or by any other state in which the pharmacy is licensed? *If yes, note the exemption or restriction.*	No	Per PIC Thakrar
21.00	Is the pharmacy operating under a waiver or variance granted by the state in which the pharmacy is located or by any other state in which the pharmacy is licensed? *If yes, note the waiver or variance.*	Yes	On June 26, 2019 NJ Board approved CareFirst Pharmacy Technician Program. On September 10, 2024 NJ Board is allowing the pharmacy to lower the temperature to a low of 65 degrees F.
22.00	Does the pharmacy have any additional restrictions, limitations, or waivers with regards to any federal licenses or registrations (FDA, DEA, etc)? *If yes, note the agency and additional item.*	No	Per PIC Thakrar
23.00	Has the pharmacy been inspected or visited by the DEA? *If yes, indicate the inspection/visit date and note any deficiencies. Also note how frequently the pharmacy is inspected/visited by the DEA.*	No	Per PIC Thakrar
24.00	Has the pharmacy been inspected by the FDA? *If yes, indicate the inspection date and note any deficiencies, significant correspondence, or if a "483" was issued and date, and response and date. Also note how frequently the pharmacy is inspected by the FDA.*	Yes	Dates of inspection were from 11/15/22-11/30/22 and a 483 was issued on 11/30/22 for non-microbial contamination in the production area. The pharmacy issued a response to the 483 on 12/04/22. This is the only inspection by the FDA and a letter was issued by the FDA closing this inspection on 12/16/22.

		Observation	Notes
25.00	Does the pharmacy hold any accreditations or certifications? *If yes, indicate which and collect most recent date of survey.*	Yes	NABP Digital Pharmacy-Valid from 10/27/22-10/26/25, NABP Healthcare Merchant. ACHC PCAB-Valid from 09/08/22-07/07/25 and LegitScript
26.00	Has the pharmacy held any accreditations or certifications in the past that they no longer hold? *Provide a list and the reasons for such.*	No	Per PIC Thakrar
27.00	Does the pharmacy perform patient lab testing such as blood glucose tests, cholesterol tests, etc? *Verify that the lab director is current (usually the PIC is the lab director named). If yes, record the Clinical Laboratory Improvement Amendments (CLIA) waiver information, expiration date, and the name of lab director listed.*	No	Per PIC Thakrar
28.00	Does the pharmacy maintain all required records, including but not limited to prescription files and invoices on site? *Record how long records are kept. If not on site, where?*	Yes	All records are maintained for a minimum of 5 years.
28.01	Are written and verbal prescriptions (reduced to writing) kept on site for the entire retention period? *If not, explain including how long they are stored on site?*	Yes	
28.02	Are electronic prescriptions (such as fax, e-scripts) kept on site for the entire retention period? *Describe how they are kept (electronically or printed and kept in hard copy).*	Yes	Maintained electronically.
28.03	Are all dispensing records (such as refills, verifications, DUR overrides) kept on site for the entire retention period? *Describe how they are kept (electronically or printed and kept in hard copy).*	Yes	Maintained electronically.
28.04	Are there systems in place to prevent a pharmacy record from being deleted after the prescription has been dispensed? *Describe how they are kept (electronically or printed and kept in hard copy).*	Yes	Maintained electronically.
28.05	If record are stored off site are they secure in a HIPAA compliant manner and readily retrievable?	N/A	Currently all records are maintained onsite.
29.00	Is there a statement in the P&P, or are other means used to ensure that the most stringent laws/regulations are followed? *Describe system details.*	Yes	This is addressed in the P&Ps. This is also Ms Mullenax's responsibility to ensure that the pharmacy is operating under the most stringent law or regulation.

		Observation	Notes
	Personnel If any part of a question is no, enter "No" and explain the observation.		
30.00	Are all pharmacist, pharmacy intern, and pharmacy technician (if applicable) licenses or registrations with the board current and in good standing? *Describe how this is documented.*	Yes	The pharmacy utilizes LicenseTrak to electronically monitor employee and state pharmacy licenses. This is conducted monthly. The pharmacy also utilizes a manual verification of state licenses quarterly and employees licenses annually.
31.00	Is there a process for periodic verification of validity of licenses? *Describe the process.*	Yes	The pharmacy utilizes LicenseTrak to electronically monitor employee and state pharmacy licenses. This is conducted monthly. The pharmacy also utilizes a manual verification of state licenses quarterly and employees licenses annually.
32.00	If pharmacists are providing patient services that require additional training or certification, are they appropriately trained and certified? *(Immunization, CPR, MTM, etc.). Mark NA if no patient services that require additional training/certification. If yes, list certifications and if current?*	No	Per PIC Thakrar
33.00	Does the pharmacy maintain the proper technician-to-pharmacist ratio? *Mark N/A if not required by resident state. Indicate ratio used and the maximum number of staff who work at the same time.*	N/A	When all technicians are certified there is no ratio. Normally 2:1 in the State of NJ.
	Facility and Security If any part of a question is no, enter "No" and explain the observation.		
34.00	Does the pharmacy have a working security/alarm system in place? *If yes, describe.*	Yes	The pharmacy uses Vector Security for monitoring. The pharmacy is divided into three different zones for security purposes. The pharmacy has glass breakage, door contacts, motion detectors and access control. The pharmacy also has an in-house camera system for security.
35.00	Are Schedule II controlled substances secured in a locked cabinet or safe? *If not, describe how controlled substances are secured or stored.*	Yes	Locked in a safe. (Only one C-II)
36.00	Are there contingency plans in the event the pharmacy cannot be secured? *Describe how the drug products will be secured and handled.*	Yes	The PIC or Pharmacy Manager would remain onsite until the building could be secured.
37.00	Is the pharmacy clean and sanitary, and is there appropriate space for the prescription volume? *Look for clutter, or crowded counters or stacks of prescriptions to be checked. If no, document with photo.*	Yes	
37.01	Is the working area well lit and free of tripping hazards? *If no, document with photo.*	Yes

		Observation	Notes
37.02	Is there a sink with hot and cold running water?	Yes	
37.03	If the pharmacy destroys prescription products on site (such as expired, damaged, recalled, etc), do they appropriately document the destruction? *View destruction logs. Mark NA if no destruction on site.*	No	Per PIC Thakrar. No destruction onsite.
37.04	Does the pharmacy return prescription products to the manufacturer, distributor, or send to a reverse distributor for destruction? *If yes, indicate name of reverse distributor used.*	Yes	This pharmacy utilizes Med-Flex for non-controls and Rx Exchange for controlled drugs.
37.05	Does the pharmacy have a hazardous waste handling and collection system? For example, empty bottles that contained chemotherapy medications or warfarin, or hazardous drug compounding waste. *If yes, indicate how often the bin is emptied/collected and the vendor used.*	Yes	BioServe picks up the hazardous waste when called.
38.00	Does the pharmacy have a private area for patient counseling and providing patient services? *Describe.*	Yes	The patient must ring a bell and be allowed to enter the pharmacy. If another patient is present the patient can be moved to a private counseling room.
39.00	Is temperature in the drug storage area maintained to provide controlled room temperature of 20° to 25°C (68° to 77 °F), or more restrictive if warranted by specific drug product storage requirements? *Describe. Record the temperature at the time of inspection.*	Yes	The temperatures in the three areas where drugs are stored was 69, 72 and 72 degrees F at the time of inspection. The temperatures are maintained indefinitely electronically at the present time.
39.01	Is temperature monitoring in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max? Temperature records are maintained. *If yes, describe the process*	Yes	Aegis and TempGenius monitors the temperature, humidity, and pressure 24/7/365. An email and text is sent to PIC Thakrar. The temperature is also being manually recorded twice a day.
39.02	Are excursion action plans in place including evaluating excursion effects on drug product integrity?	Yes	
40.00	Are the refrigerator and freezer restricted to drug products only (no food)?	Yes	
41.00	Does the pharmacy have a process for how the refrigerator temperature is monitored for excursions 24/7? *If yes, describe the process. Indicate range. How are excursions detected? How long are records maintained?*	Yes	The alerts are set for a for a low of 2.4 and a high of 7.7 degrees C. Records are maintained electronically indefinitely at the present time.

Verified Pharmacy Program® Inspection Form

General Pharmacy Inspection

The information and comments obtained in the Nonsterile Compounding, Sterile Compounding Inspections, and Hazardous Drug Compounding are based on USP Chapters <795>, <797>, and <800>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
41.01	Is the temperature in the refrigerator within the USP range (2°-8°C or 36°-46 °F) or as specified by FDA approved labeling for drug product storage? *Record the temperature of the refrigerator at the time of inspection.*	Yes	The pharmacy has four refrigerators. The temperatures at the time of inspection were 41, 41, 42, and 42 degrees F. Records are maintained electronically indefinitely at the present time.
42.00	Does the pharmacy have a process for how the freezer temperature is monitored for excursions 24/7? *If yes, describe the process. Indicate range. How are excursions detected? How long are records maintained?*	N/A	No frozen items at the present time.
42.01	Is the temperature in the freezer within the USP range (between −25° to −10°C or −13° to 14 °F) or as specified by FDA approved labeling for drug product storage? *Record the temperature of the freezer at the time of inspection.*	N/A	
43.00	Are there contingency plans in the event of power outage or refrigerator/freezer failure? *Describe process.*	Yes	The pharmacy has four refrigerators and a back-up diesel generator that will power the entire pharmacy for 3-7 days.
44.00	Are there contingency plans in the event of heating or air conditioning failure? *Describe processes.*	Yes	Pharmacy has a service contract with a HVAC.
45.00	Is there a plan of action if there are any temperature or humidity excursions to determine if the integrity of the products has been compromised?	Yes	
46.00	Does the pharmacy utilize any automated apparatuses for prescription processing/counting (such as robotics, Baker cells, etc)? *List numbers and types.*	Yes	4 Kirby Lester
46.01	If yes, do they have and follow policies and procedures addressing cross-contamination and identification of drug products?	Yes

		Observation	Notes
	Product Receipt and Inventory If any part of a question is no, enter "No" and explain the observation.		
47.00	Does the pharmacy have a documented process for establishing sources (vendors) of prescription drugs? *Describe.*	Yes	Source must purchase directly from the manufacturer or a wholesaler who purchased the drug directly from the manufacturer.
47.01	Does the pharmacy purchase all prescription drugs directly from the manufacturer?	No	
47.02	Does the pharmacy purchase (obtain) prescription drugs from other pharmacies? *If yes, list pharmacy source information, and circumstances leading to the purchase.*	No	
47.03	Does the pharmacy purchase (obtain) prescription drugs from wholesale distributors (non-manufacturer sources)? *List non-manufacturer sources.*	Yes	Anda, Patterson, Independent Pharmacy Distributor, Smart, ParMed and PBA Health. See Nonsterile for list of API suppliers
47.04	Does the pharmacy require wholesale distributor sources to purchase prescription drugs directly from the manufacturer? *If yes, how is this verified?*	Yes	All commercial product must be received with transaction statement or transaction history.
47.05	Does the pharmacy purchase drugs from wholesale distributors that purchased the drug from other wholesale distributors? *If yes, Describe the due diligence steps to determine the source's legitimacy and legitimacy of the drugs sold by the vendor. (For instance, does the pharmacy examine transaction histories and limit the number of movements of drugs between wholesale distributors, and look for pharmacies in the supply chain?)*	Yes	Transaction history must be provided with each product. Must be from manufacturer to wholesaler number one then to wholesaler number two.
47.06	Does the pharmacy determine that all sources listed on transaction histories have requisite state licensing? *If yes, describe the process.*	Yes	Ms. Mullenax maintains a 3 ring binder with all required licenses.
47.07	Does the pharmacy determine that all sources listed on transaction histories have reported to FDA's Wholesale Distributor database? *If yes, describe the process.*	Yes	Ms. Mullenax maintains a 3 ring binder with documentation of reporting.
47.08	Does the pharmacy have a process to handle suspect and illegitimate product investigations? *If yes, describe the process.*	Yes	The product would be quarantined and the manufacturer would be contacted.
47.09	Has the pharmacy conducted any suspect or illegitimate product investigations? *If yes, describe the details, including the drug, circumstances, outcome, and identification of agencies to whom reported.*	No	None to date per PIC Thakrar

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
47.10	Does the pharmacy ensure transaction data (transaction history, transaction information, transaction statement, also known as 3T data) is received at the same time or before the product is received? *Examine recent purchases to determine if the pharmacy is receiving and maintaining 3T data for a minimum of 6 years.*	Yes	3T is printed with each product received and attached to the invoice.
47.11	Does the pharmacy have a procedure to verify product (suspect or illegitimate) including quarantine of product and reporting?	Yes	Any suspect or illegitimate product would be immediately quarantined and the manufacturer contacted.
48.00	Does the pharmacy utilize paper DEA-222 forms to procure Schedule II substances? *If yes, how are they secured? Who has the authority (Power of Attorney) to sign the DEA 222 forms?*	Yes	222s are locked up in the safe. Only PIC Thakrar can sign the 222s.
49.00	Does the pharmacy utilize CSOS (electronic Schedule II ordering) to procure Schedule II substances? *If yes, who can place orders in CSOS?*	No	CSOS was not active at the time of this inspection.
50.00	Is the receipt of Schedule II orders documented appropriately? *DEA-222 has the quantity and date on each line of product received, the CSOS record (electronic or paper printout) indicates verification of receipt and staff performing verification.*	Yes	Only purchased a C-II one time.
51.00	Are invoices for controlled substances (Schedules I-V) that are received filed separately and are the invoices signed/initialed and dated upon receipt and every item checked in?	Yes	Reviewed by this Inspector.
52.00	Are all orders received when the pharmacy is open? *Verify the orders are brought directly to the pharmacy still sealed and not delivered before the pharmacy is open.*	Yes	
53.00	Does the pharmacy purchase any compounded products from other entities for dispensing to patients? *If so, describe which products and from where they are purchase (collect name and license of other entity).*	No	Per PIC Thakrar
54.00	Does the pharmacy have a system in place to track prescription drug products in order to detect diversion or theft? *Describe (for example, inventory or shrink report tools used, perpetual inventory in computer, etc).*	Yes	Perpetual inventory of commercial products in Prime Rx and of APIs in PK.

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
54.01	Are incidents of diversion or resignation/termination of personnel for cause reported? *Indicate agencies/law enforcement to whom reports are made.*	Yes	No diversions. If non-controlled the State Board and the local authorities and if a controlled substance the DEA would also be notified.
55.00	Does the pharmacy keep a perpetual inventory log of all Schedule II controlled substances (including APIs, if applicable)?	Yes	
56.00	Is the Schedule II perpetual inventory log reconciled regularly? *Indicate how often the Schedule II controlled substances are counted. View the perpetual log and verify that reconciliation is taking place.*	Yes	Verified annually as there has been no dispensing of Schedule IIs.
57.00	Is the most recent complete controlled substances inventory available for review? *Indicate the date of the last inventory and frequency taken (minimum every two years).*	Yes	Last inventories were on 01/04/2024 and 01/03/2025
57.01	Does the pharmacy maintain other required inventories (such as change in PIC, theft/loss, etc)?	Yes	Reviewed by this Inspector.
58.00	Does the pharmacy stock and sell OTC pseudoephedrine (and/or ephedrine) products? If yes, indicate if the sale is recorded electronically or manually in a logbook.	No	Per PIC Thakrar
58.01	Are these products mailed, sent, or delivered into other states? *View logs. If yes, list the other states.*	N/A	
59.00	Does the pharmacy stock and sell other OTC restricted products for which ID is required and a log kept of the sale? *If yes, indicate product types.*	No	Per PIC Thakrar
59.01	Are these products mailed, sent, or delivered into other states? *View logs. If yes, list the other states.*	N/A	
60.00	Are outdated, damaged, or recalled products segregated? *If yes, how often does the pharmacy check for out-of-date products? Does it include OTC products?*	Yes	Out-of-dates are checked for on a monthly basis.
60.01	Are all drugs within active-stock within expiration date? *Examine shelves, refrigerator and freezer.*	Yes

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
60.02	How often is active-stock examined for drugs past the expiration date?		With each dispensing.
61.00	Does the pharmacy **prepackage** bulk containers of prescription medications into smaller containers for ease of use? *What BUD is used on the prepackaged container?*	No	Per PIC Thakrar
62.00	Does the pharmacy **prepack** multiple drugs into a single container for compliance packaging? *What BUD is used on the prepacked containers?*	No	Per PIC Thakrar
63.00	Does the pharmacy return to stock prescription drugs that were filled but never picked up?	No	No return to stock. The prescription would be sent for destruction.
63.01	If yes, are they maintained in the appropriate container, with PHI removed and BUD adjusted?	N/A	
	Prescription Processing **If any part of a question is no, enter "No" and explain the observation.**		
64.00	**Patient Profile:** Is patient profile data organized and readily accessible to facilitate consultation with the prescriber, patient, or caregiver? *Indicate who enters patient profile data into the computer system and how often it is updated?*	Yes	A customer service representative enters the data and the data is confirmed by the pharmacist when the pharmacist speaks to the patient. Data is updated with patient contacts.
64.01	If the pharmacy dispenses veterinary prescriptions, does the information gathered and recorded include the species, and name of the animal/owner as required by resident state law? *Describe how it is indicated in the computer system that the patient is an animal? And how is it indicated in the system the prescription is a veterinary prescription?*	Yes	Animals are documented at two places in the Prime Rx system.
65.00	**Prescription:** Are adequate processes in place to assure the integrity, legitimacy, and authenticity of prescription orders? *Staff is familiar with detecting fraud in hard copy, faxed, verbal, and electronic prescriptions.*	Yes	
65.01	Is there a procedure to follow when a prescription is suspected of (or actually is) fraudulent? *Describe the steps and reporting process.*	Yes	Contact the prescriber and if fraudulent contact local authorities.

		Observation	Notes
65.02	Are adequate processes in place for assuring that prescription medications are not prescribed or dispensed based on online medical consultations without there being a pre-existing prescriber-patient/client relationship? *Describe. Do the processes include comparing the physical addresses of the patient and prescriber?*	Yes	Patient and prescribers addresses are compared and the pharmacist talks to the patient before the prescription is compounded and dispensed. Patients and prescribers are asked when the last visit was if any questions.
65.03	Does the pharmacy have electronic prescription capability? *Indicate whether it is for non-controlled substances, controlled substances, or both.*	Yes	Both controlled and non-controlled substances.
65.04	If the pharmacy accepts electronic prescriptions for controlled substances, are they in compliance with federal regulations?	Yes	
66.00	**Accuracy:** Is the accuracy of the information entered into the computer system verified (patient information and prescription information)? *Indicate how and by whom.*	Yes	By the pharmacy after talking to the patient.
67.00	**DUR:** Does staff conduct prospective DUR prior to the dispensing of a medication or product? *Describe at what point in the process does the DUR take place?*	Yes	At both PV1 and PV2.
67.01	Does the DUR include: • drug-drug interaction (Prescription and OTC), • drug-allergy interaction, • therapeutic duplication, • under- or over-utilization (including clinical abuse/misuse), • disease state or condition contraindication, • Incorrect dosage or duration of therapy, and • gender or age related contraindications. *Indicate if there are other parameters routinely included in the DUR.*	Yes	Correct dose for weight of patient.
67.02	In addition to the pharmacy DUR software, does the pharmacy staff obtain other information to use in the DUR process? *Describe.*	Yes	Weight of patient.
67.03	Does the pharmacy have adequate resources/references related to the type of pharmacy practice it operates?	Yes	Numerous online resources.

		Observation	Notes
67.04	Does the pharmacy report required data to the state PMP (in this state and the other states in which the pharmacy is licensed)? *Describe.*	Yes	Reported electronically daily.
67.05	Does the pharmacy access state PMP/PDMP data for specific patients? *Verify there is a policy regarding access and follow-up or reporting and that pharmacist can access the PMP data.*	Yes	
67.06	Are DUR overrides/bypasses documented? *Indicate how the override is documented and who has override capability.*	Yes	Only pharmacist can override a DUR and the override is documented in the Prime Rx system.
67.07	Is the DUR process performed electronically by the computer system? ***Identify integrated drug database used.***	Yes	GSDD (Gold Standard Drug Database)
67.08	If the DUR is manual, is there a system to document: • How manual DUR is performed • Specific issues that were identified • Pharmacist that considered the identified issues and gave the okay to proceed	Yes	Documented in the Prime Rx system.
67.09	If the pharmacy dispenses veterinary prescriptions, does it have a veterinary drug database integrated into the computer system for electronic DUR? *List veterinary product electronic database used. If not, list compendia used for performing manual DUR.*	No	Veterinary DUR is a manual process and documented in the Prime Rx system. The pharmacy has numerous online references if needed.
68.00	Are filled prescriptions verified for accuracy prior to dispensing? *Indicate process, by whom, and how documented.*	Yes	At PV2 by the pharmacist and documented in the Prime Rx system.
69.00	Are filled prescriptions appropriately labeled? *Describe.*	Yes	Per state law
70.00	**Confidentiality:** Does the system have adequate safeguards to prevent a user from performing functions under a different user account or beyond what they are authorized to perform? *Password protected, access limited by job type, access revoked as appropriate such as upon termination. Record name/brand of pharmacy computer system used.*	Yes	Rx Prime for the dispensing function and PK for the compounding function.

General Pharmacy Inspection

The information and comments obtained in the Nonsterile Compounding, Sterile Compounding inspections, and Hazardous Drug Compounding are based on USP Chapters <795>, <797>, and <800>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
	Quality Assurance/Quality Improvement Program If any part of a question is no, enter "No" and explain the observation.		
87.00	Is there a documented continuous quality improvement (CQI) Program for the purpose of detecting, documenting, assessing, and preventing quality related events (QREs)? *If yes, list who oversees the program.*	Yes	RPh Vuong
87.01	Policies and procedures for the program are maintained in the pharmacy in an immediately retrievable form. *Indicate if hard copy, electronic, or both.*	Yes	Electronically
87.02	"Quality-Related Event" (QRE) is defined to mean any departure from the appropriate dispensing of a prescribed medication that is or is not corrected prior to the delivery and/or administration of the medication including (but not limited to): 1. a variation from the prescriber's prescription drug order such as incorrect drug, strength, form, or patient; or inadequate or incorrect packaging, labeling, or directions; 2. a failure to identify and manage over-utilization or under-utilization; therapeutic duplication; drug-disease contraindications; drug-drug interactions incorrect drug dosage or duration of drug treatment; drug-allergy interactions; or clinical abuse/misuse. 3. packaging or warnings that fail to meet recognized standards, the delivery of a medication to the wrong patient, or the failure to detect and appropriately manage a significant actual or potential problem with a patient's drug therapy.	Yes	
87.03	There is documentation of initial/ongoing (at least yearly) review and training of all pharmacy employees on the CQI program and processes. *For example, may be formal training or reviewed at a yearly meeting.*	Yes	Quarterly
88.00	**Documentation of QREs** starts as soon as possible, but no more than three days, after determining their occurrence. *Indicate if documentation/forms are hard copy or electronic.*	Yes	Electronically
88.01	Documentation includes all the pertinent data about the prescription involved including personnel involved at each step.	Yes	
88.02	Documentation includes documenting the type of QRE details and how/who discovered the QRE.	Yes

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
88.03	Documentation incudes possible contributing factors such as day and time the QRE occurred, number of pharmacists and technicians on duty, prescription volume that day, equipment failure, or other factors affecting work-flow at the time.	Yes	
88.04	Documentation includes steps taken to remediate including communications with the patient and the provider, and if the medication was ingested, disposition of the patient.	Yes	
89.00	**QRE data** collected is analyzed to assess causes and any contributing factors (root cause). *Indicate who performs the analysis and frequency (with each event, weekly, monthly, quarterly, etc).*	Yes	RPh Vuong with each event and is analyzed quarterly.
89.01	The pharmacy uses the findings of the analysis to formulate an appropriate response and develop pharmacy systems and workflow processes designed to prevent QREs and increase good outcomes for patients.	Yes	
89.02	For pharmacies utilizing a drug formulary, a periodic review of such formulary is undertaken to ensure that appropriate medications are being offered/selected in the best interest of patients.	N/A	No formulary
90.00	**Quality meetings** are held at least annually by staff members of the pharmacy to consider the effects on quality of the pharmacy system due to staffing levels, workflow, and technological support.	Yes	Quarterly
90.01	The meeting reviews data showing evidence of the quality of care for patients and develops plans for improvements to increase good outcomes for patients.	Yes	
90.02	Improvements or changes made are evaluated for performance to measure the effectiveness of the CQI program.	Yes

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
91.00	**Reporting:** Incidents of QREs are reported to a nationally recognized error reporting program, an outside peer review committee, or a patient safety organization. *Indicate which organizations are reported including if the pharmacy reports QREs to the board of pharmacy.*	Yes	Pharmapod
91.01	Adverse events are reported to the appropriate entities such as the board of pharmacy, MedWatch, FDA, VAERS, etc?	Yes	
91.02	Incidents involving malfunctioning or defective medical equipment or devices (blood glucose meters, DME, injection devices, etc) are documented and reported to the manufacturer or distributor.	N/A	
92.00	**Quality Self-Audits** are performed by the pharmacy at least quarterly (and upon change in PIC) to determine whether the occurrence of QREs has decreased and whether there has been compliance with preventative procedures, and to develop a plan for improved adherence with the CQI program in the future.	Yes	
93.00	**Consumer Surveys** are conducted at least yearly of patients who receive pharmaceutical products and services at the pharmacy. A statistically valid sampling technique may be used in lieu of surveying every patient. Each pharmacy should use the results of its consumer survey to evaluate its own performance at a particular time and over a period of time.	Yes	
94.00	**Patient Complaints** are documented, tracked, and investigated as appropriate and the information is used as part of the CQI program.	Yes

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
	Standard Operating Procedures for Compounded Nonsterile Preparations (CNSPs)		**Please note NABP did not review each SOP for alignment on USP <795>. The SOP(s) described below is/are a reflection of any self-assessment completed by the pharmacy and/or shared with the inspector during the onsite inspection.**	
1.0	Does the pharmacy have standard operating procedures (SOPs) on all aspects of the compounding operation that cover the minimum topic requirements in USP <795> standards? ***If no, document "missing" in Inspector Notes*** ***If yes, document the name, number, and version of each SOP in the Inspector Notes.***	Yes	Per PIC Thakrar	11
1.1	**Buildings and Facilities:** The pharmacy has an SOP for the compounding facility. ***Inspector note: Per USP <795>, there is a written SOP for "the method of designation" for the area designated specifically for nonsterile compounding and processes for maintaining, cleaning, and sanitizing the compounding area and equipment.***		Under SOP Number 3	4.1, 5, 11
1.2	**Personnel Training and Evaluation:** The pharmacy has an SOP describing the training program, the frequency of training, and the process for evaluating the competency of personnel. ***Inspector note: Per USP <795>, "Facility SOPs must describe procedures for monitoring and observing of compounding activities and personnel."***		Under SOP Number 7.95 and 11.01	2, 11
1.3	**Personal Hygiene and Garbing:** The pharmacy has an SOP regarding personal hygiene, glove, and garbing requirements consistent with compounding activities. ***Inspector note: Per USP <795>, "Garbing requirements and frequency of changing garb must be determined by the facility and documented in the facility's SOPs."***		Under SOP 9.09 and 9.13	3.3, 11
1.4	**Components:** The pharmacy has an SOP describing selection, handling, storage, and inventory control of all components used in compounding. ***Inspector note: Per USP <795>, "The compounding facility must have written SOPs for the selection and inventory control of all components from receipt to use in a CNSP."***		Under SOP 11.04 and 6.10	6.2, 11

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
1.5	**Temperature Monitoring:** The pharmacy has an SOP regarding temperature monitoring and handling of excursions. ***Inspector note: Per USP <795>, "The compounding facility must adhere to SOPs to detect and reduce the risk of temperature excursions within the storage area(s)."***		Under SOP 3.80	4.2, 11
1.6	**Equipment**: The pharmacy has an SOP for assessment of need for closed system processing devices (based on the types of CNSPs prepared). ***Inspector note: Per USP <795>, "Weighing, measuring, or otherwise manipulating components that could generate airborne chemical particles (e.g., active pharmaceutical ingredients [APIs], added substances, and conventionally manufactured products) must be evaluated to determine if these activities must be performed in a closed-system processing device to reduce the potential exposure to personnel or contamination of the facility or CNSPs. Examples of closed-system processing devices include containment ventilated enclosures (CVEs), biological safety cabinets (BSCs), and single-use containment glove bags. The process evaluation must be carried out in accordance with the facility's SOPs, and the assessment must be documented."***		Under SOP 4	6.1, 11
1.7	**Safety Data Sheet (SDS)/Spill Management:** The pharmacy has an SOP describing spill management and disposal. ***Inspector note: Per USP <795>, "The management and documentation of nonhazardous component spills and disposal must be described in the facility's SOPs."***		Under SOP 7.05 and 11.08	6.2.5, 11
1.8	**Master Formulation Records (MFR):** The pharmacy has an SOP on the process for MFR creation and content. ***Inspector note: Per USP <795>, "Any changes or alterations to a Master Formulation Record are approved and documented in accordance with the facility's written SOP."***		Under SOP 9.04	7.1, 11
1.9	**Labeling:** The pharmacy has an SOP on the processes for labeling, label verification (confirming against the prescription or medication order, the MFR, and the compounding record (CR)) in order to prevent errors and CNSP mix-ups and required displayed information. ***Inspector note: Per USP <795>, "Labeling procedures must be followed as described in the facility's SOPs to prevent labeling errors and CNSP mix-ups."***		Under SOP 6.02	9, 11

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
1.10	**Quality Assurance (QA)/Quality Control (QC) Program:** The pharmacy has an SOP regarding its QA and QC program, including roles of the designated person(s), trainers, compounding personnel; adherence to procedures; and prevention and detection of errors and quality issues. ***Inspector note: Per USP <795>, "QA and QC programs must be formally established and documented in SOPs that ensure that all aspects of the preparation of CNSPs are conducted in accordance with this chapter, and laws and regulations of the applicable regulatory jurisdiction."***		Under SOP 9	11, 12 USP <1163>
1.11	**QA/QC Program Complaint Handling and Adverse Event Reporting:** The pharmacy has an SOP for evaluation of complaints and adverse events, including investigations and corrective actions. ***Inspector note: Per USP <795>, the pharmacy, "must develop and implement SOPs for complaint handling." SOPs are to include any state or federal requirements for reporting to government agencies (example adverse event reporting). Further, "Consider whether to initiate a recall of potentially affected CNSPs and whether to cease compounding until problems have been identified and corrected."***		Under SOP 9	1.1.3, 11, 12.1, 12.2, 12.3
1.12	**Packaging:** The pharmacy has an SOP describing packaging CNSPs. ***Inspector note: Per USP <795>, "SOPs must describe packaging of CNSPs."***		Under SOP 6.06	11, 13.1
1.13	**Transporting:** The pharmacy has an SOP describing transporting CNSPs. ***Inspector note: Per USP <795>, there must be "written SOPs to describe the mode of transportation, any special handling instructions, and whether temperature monitoring devices are needed."*** ***If the pharmacy does not transport CNSPs, inspector should answer statement as N/A.***		Under SOP 13.11 and 3.11	11, 13.2

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
3.1	All personnel who compound CNSPs have been initially trained and qualified before being allowed to independently compound (eg, perform their job functions). ***Inspector note: Per USP, compounding personnel are defined as "Personnel trained to compound or oversee compounding of preparations."*** ***If questions 1.0-1.12 in the records review tab for compounding personnel are answered "no" or "missing," this statement should be answered as no. For details, see Records Review module.***	Yes		2, 14
3.2	All personnel who have direct oversight, perform in-process checks, final verification of a CNSP, and/or dispense a CNSP have been initially trained and qualified (according to SOPs) being allowed to independently perform their job functions. ***If questions 1.0-1.12 in the records review tab for compounding personnel are answered "no" or "missing," this statement should be answered as no. For details, see Records Review module.***	Yes		2, 14
3.3	All compounding personnel, including those who have direct oversight of compounding personnel, have completed an initial training and at least every 12 months thereafter. ***Inspector note: Per USP, "Other personnel, who do not compound and only perform functions such as in-process checks, final verification, or dispensing of CNSPs must undergo training as required by the facility's SOPs."*** ***If questions 2.0-2.12 in the records review tab for compounding personnel or personnel who have direct oversight over compounding personnel are answered "no" or "missing," this statement should be answered no. For details, see the Records Review module.***	Yes		2, 14
4.0	Does the designated person(s) have a documented (periodic) evaluation of their direct observations for compounding activities and documentation of any deficiencies in the record? ***Inspector note: Per USP, this is a recommendation, "the designated person(s) should monitor and observe compounding activities and must take immediate corrective action if deficient practices are observed. Facility SOPs must describe procedures for monitoring and observing compounding activities and personnel."*** ***Inspector should complete the <795> Records Review module question 3.0.***	Yes		2, 14

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
	Compounding Personal Hygiene and Garbing			
5.0	Does the pharmacy have a process to ensure all personnel entering the compounding area adhere to restrictions intended to minimize the risk of contamination in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		3
5.1	Compounding personnel are required to report to the designated person(s)conditions that may contaminate the compounding preparation area. ***Inspector note: Per USP <795>, examples of conditions that have a higher risk of contaminating the CNSP include: rashes, recent tattoos, open sores, conjunctivitis, and active respiratory infection.***	Yes		
5.2	The designated person(s) is responsible for evaluating whether compounding personnel should be excluded from working in the compounding areas before their conditions have resolved.	Yes		3
5.3	Personnel removes any unnecessary items (outer garments, jewelry that could interfere with garbing, and earbuds/headphones) before entering the compounding area. ***Inspector note: Inspector should also observe compounding area to identify any items stored that do not belong (ie, dirty garments, jackets, or electronics).***	Yes		3.1
5.4	If personnel do not remove an item, the designated person has determined that the quality of the environment and CNSPs are not adversely affected by the accommodation.	Yes		3.1
6.0	Do personnel perform hand hygiene, wear required garb and gloves, and follow requirements in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		3.3
6.1	All personnel entering the compounding area complete hand hygiene procedures.	Yes		3.2 Box 1

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
10.0	Does the pharmacy's storage area (for CNSPs, components, equipment, and containers) meet requirements in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		4.2
10.1	The pharmacy records the temperature of the compounding storage area on days when the pharmacy is open. ***Inspector note: Per USP, "Compounding personnel must monitor temperatures in the storage area(s) either manually at least once daily on days that the facility is open, or continuously with a temperature recording device to ensure the temperature remains within the appropriate range for the CNSPs and components."*** ***If pharmacy does not use a continuous recording system, describe the frequency of temperature recording in the notes.***	Yes	The temperature is continuously monitored electronically.	4.2
10.2	The pharmacy's temperature monitoring records are readily retrievable. ***Inspector note: Per USP, "The results of the temperature readings must be documented on a temperature log or stored in the continuous temperature recording device and must be retrievable."***	Yes		4.2
10.3	Temperature monitoring devices are verified for accuracy at least every 12 months or as required by the manufacturer. ***Inspector note: Per USP, "All temperature monitoring equipment must be calibrated or verified for accuracy as recommended by the manufacturer or every 12 months if not specified by the manufacturer." USP reports that these devices may be verified against a calibrated device.*** ***Monitoring devices are typically calibrated or replaced.***	Yes	All probes are replaced annually. Last replacement was on April 9, 2024.	4.2
10.4	Pharmacy has a process to evaluate temperature excursions. ***Inspector note: Per USP, "When it is known that a CNSP or component has been exposed to temperatures either below or above the storage temperature limits for the CNSP or component, personnel must determine whether the CNSP or component integrity or quality has been compromised and if so, the CNSP or component must be discarded."***	Yes	Alerts are set for below 68.1 and above 76.9 degrees F.	4.2
10.5	CNSPs, components, equipment, and containers are stored off the floor.	Yes		4.2

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
10.6	CNSPs, components, equipment, and containers are stored in a manner that permits inspection and cleaning of the storage area(s).	Yes		4.2
10.7	CNSPs, components, equipment, and containers are stored in a clean environment (free of dirt, dust, and debris, and rodent/pest/insect free) to prevent contamination.	Yes		4.2
11.0	What is the current temperature of the nonsterile compounding storage area? ***Record in the Inspector Notes.***		The temperature was 72 in the compounding area and 69 degrees F in the hazardous compounding area at time of inspection.	4.2
12.0	Are plumbing fixtures, water sources, and cleanliness of sink in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		4.3
12.1	The pharmacy staff can easily access a sink within or nearby the nonsterile compounding area.	Yes		4.3
12.2	There is hot and cold running water available at the sink within or nearby the nonsterile compounding area.	Yes		4.3
12.3	The sink is emptied of all items unrelated to compounding and before being used to clean any equipment used in nonsterile compounding.	Yes		4.3
12.4	The sink is cleaned when visibly soiled (before being used to clean equipment used in nonsterile compounding).	Yes		4.3
12.5	The plumbing system is free of any defects that may contribute to contamination of CNSPs.	Yes		4.3
13.0	Is purified water, distilled water, or reverse osmosis water used for rinsing equipment and utensils used in nonsterile compounding? ***Inspector note: This is a USP recommendation.***	Yes	Purified water is utilized.	4.3 USP <1231>

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
	Cleaning and Sanitizing			
14.0	What agent(s) are used for cleaning and sanitizing the nonsterile compounding area? ***Inspector note: Per USP <795>, "agents must be selected and used with consideration of compatibilities, effectiveness, and minimal potential to leave residues."*** ***List the agents in the Inspector Notes.***		Water, Clorox Healthcare Peroxide, Clorox Healthcare Bleach and IPA 70%	5
15.0	Does the pharmacy perform cleaning and sanitizing activities on all surfaces at the minimum frequency per Table 1 and documented in a log or other record in compliance with USP <795> standards? ***Review compounding cleaning logs.*** ***If no, go to compliance statements.***	Yes	Reviewed by this Inspector.	5 Table 1
15:1	All work surfaces are cleaned and sanitized at the **beginning of each shift** on days when compounding occurs.	Yes		5 Table 1
15.2	All work surfaces are cleaned and sanitized at the **end of each shift** on days when compounding occurs.	Yes		5 Table 1
15.3	All work surfaces are cleaned and sanitized **between compounding CNSPs with different components.**	Yes		5 Table 1
15.4	Floors are cleaned and sanitized daily on days when compounding occurs.	Yes		5 Table 1
15.5	Walls and ceilings are cleaned and sanitized when visibly soiled. ***Inspector note: No specific frequency is specified by USP. View compounding area walls and ceilings. If inspector observes soiled walls or ceilings, inspector should answer statement as no.***	Yes		5 Table 1
15.6	All work surfaces, floors, walls, ceilings and storage shelving are cleaned and sanitized when surface contamination (eg, splashes) or spills are known or suspected.	Yes		5 Table 1
15.7	Storage shelving is cleaned and sanitized at least every three months.	Yes	Monthly	5 Table 1
16.0	Are floors in the compounding area easily cleanable, non-porous, and non-particle generating? ***Inspector note: This is a USP recommendation. Per USP, "Surfaces should be resistant to damage by cleaning and sanitizing agents."***	Yes		5

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
	Equipment and Components FDA defines manufacturer... as used in section 510 of the Federal Food, Drug, and Cosmetic Act, includes the activities of relabelers, repackers, and salvagers. When not modified by "domestic" or "foreign," the term includes both domestic manufacturers and foreign manufacturers.			
17.0	Does the pharmacy use a closed-system processing device (eg, CVE, BSC, and single-use containment glove bags)? ***Inspector note: Per USP, examples of closed-system processing devices include: containment ventilated enclosures (CVEs), biological safety cabinets (BSCs), and single-use containment glove bags.*** ***If yes, list the type(s) in the Inspector Notes.***	Yes	BSC	6.1
18.0	Does the pharmacy select, store, clean, and maintain equipment in compliance with USP <795> standards? ***Inspector note: Per USP <795>, "Equipment surfaces that contact components are not reactive, additive, or sorptive, and must not alter the quality of CNSPs."*** ***Review certification reports, calibration records, and cleaning logs.*** ***If no, go to compliance statements.***	Yes	Reviewed by this Inspector.	6.1
18.1	Equipment and supplies are readily available at the pharmacy for the types of CNSPs prepared. ***Inspector note: For example, if the pharmacy compounds with API as a component, which must be weighed, a scale or balance would be expected.***	Yes		6.1
18.2	Pharmacy has evaluated and documented the nonsterile compounding pharmacy activities for weighing, measuring, and otherwise manipulating for an assessment of risk. ***Inspector note: Per USP, "components that could generate airborne chemical particles (eg, active pharmaceutical ingredients [APIs], added substances, and conventionally manufactured products) must be evaluated to determine if these activities must be performed in a closed-system processing device to reduce the potential exposure to personnel or contamination of the facility or CNSPs."*** ***If no, inspector should describe observations.***	Yes		6.1

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
18.3	The equipment and devices used for compounding CNSPs are clean and stored in a manner and frequency that minimizes the risk of contamination. ***Inspector note: Per USP <795>, "After compounding, the equipment must be cleaned to prevent cross contamination of the next preparation." Additionally, per Table 2:*** ***- CVE/BSC are cleaned and sanitized at the beginning and end of each shift when compounding occurs, after spills, and when surface contamination (e.g., from splashes) is known or suspected;*** ***- CVE/BSC horizontal surfaces are cleaned and sanitized between compounding of different components;*** ***- Under the work surface of a BSC is cleaned and sanitized at least monthly; and*** ***- Other devices and equipment used in compounding are cleaned before initial use, in between compounding CNSPs with different components, and following manufacturer recommendations.*** ***If no, inspector should describe observations.***	Yes		6.1 Table 2
18.4	Equipment and devices used in compounding or testing of CNSPs are inspected prior to use (to ensure they are in good working order). ***Inspector note: For example, the pharmacy may need to tare a scale and/or balance prior to use.***	Yes		6.1
18.5	Equipment and devices are verified for accuracy as recommended by the manufacturer (at the frequency recommended by the manufacturer or at least every 12 months, whichever is more frequent). ***If the pharmacy does not compound CNSPs that require equipment or devices that must be calibrated for accuracy (such as ones needed for weighing or measuring), the inspector should answer this statement as N/A.***	Yes	Last verification for scales and Kirby Lesters were May 13, 2024.	6.1
18.6	If a CVE or BSC is used by the pharmacy, it is certified at least every 12 months, according to the manufacturer specifications or regulations of the applicable regulatory jurisdiction. ***If the pharmacy does not have the record or documentation of the certification and maintenance of the CVE/BSC, the inspector should answer this statement as no. If the pharmacy does not have a CVE or BSC, the inspector should answer this statement as N/A.***	Yes	Most hoods were last certified in April 2024 and 4 were certified in September 2024.	6.1

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
19.0	Does the pharmacy compounding CNSPs use APIs?	Yes		6.2
20.0	Does the pharmacy select APIs that comply with the requirements in USP <795> standards? ***Verify by selecting products from the shelf from different suppliers and ask to see the COAs for those products.*** ***If no, go to compliance statements.***	Yes	API Solutions, Darmerica, Letco, Medisca, PCCA, Spectrum, Willow Birch, Pharma Source Direct. Doc01_NS_20.0.	6.2.1
20.1	APIs comply with criteria in the USP-NF monograph, if one exists. ***If the pharmacy does not compound any CSPs that have an available USP monograph, the inspector should answer this statement as N/A.***	Yes		6.2.1
20.2	All APIs used have a COA that includes the specifications (eg, compendial requirements for quality) and that the test results for the component show the API meets expected quality. ***Inspector note: Per USP, the API should be checked to ensure it is pharmaceutical grade and meets the requirements in the chemical monograph. COA will report an assay has been performed and will include water content (so any corrections/calculations can be performed).***	Yes		6.2.1
20.3	All APIs used are manufactured by an FDA-registered facility. ***Inspector note: This is a Federal Food, Drug, and Cosmetic Act, Section 503A, requirement as well. Inspector should verify the pharmacy looks up the name of the manufacturer listed on the COA to determine if they are registered as an FDA drug establishment https://dps.fda.gov/decrs.***	Yes	PCCA COA lists the name of the FDA registered Drug Establishment - repackager (manufacturer).	6.2.1
21.0	When formulations indicate the inclusion of water, is purified water or better quality (eg, sterile water for irrigation) used in compliance with USP <795> standards?	Yes		6.2.1
22.0	What type(s) of water is used for compounding CNSP? ***List the type(s) in the Inspector Notes.***		Sterile water for irrigation	6.2.1

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
23.0	Do the pharmacy's component receipt processes comply with the requirements in USP <795> standards? ***If no, go to compliance statements.***	Yes		6.2.2
23.1	For non-conventionally manufactured components, the COA is reviewed upon receipt. ***Inspector note: Per USP, "the COA must be reviewed to ensure that the component has met the acceptance criteria in an appropriate USP–NF monograph, if one exists." Pharmacy's review should be documented. Alternatively, the pharmacy can demonstrate how it's been reviewed (for example, there are notes to show a water content calculation back to 100% based on the specific COA). Inspector can verify the COA is retrievable.***	Yes		6.2.2
23.2	The pharmacy documents specific information according to the facility's SOP, including: receipt date, quantity received, supplier name, lot number, expiration date, and the results of any testing performed (whether performed in-house or through a third-party).	Yes		6.2.2; 14
23.3	For all components that lack a vendor expiration date, the pharmacy clearly and indelibly marks on each packaging system received the date the component must no longer be used by the pharmacy. ***Inspector note: Per USP, "Packaging systems of components (i.e., API and added substances) that lack a vendor's expiration date must not be used by the compounding facility after 3 years from the date of receipt. A shorter expiration date must be assigned according to Pharmaceutical Compounding—Sterile Preparations 797 , 9.3.2 Component receipt if the same component container is also used in sterile compounding or if the ingredient is known to be susceptible to degradation."***	Yes		6.2.2
23.4	Any component found to be of unacceptable quality upon receipt or reinspection prior to use is promptly rejected, clearly labeled as rejected, and segregated from active stock to prevent use before appropriate disposal.	Yes		6.2.2
23.5	Any other lots of that (rejected) component from that vendor are examined to determine whether other lots have the same defect.	Yes		6.2.2

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
24.0	Does the pharmacy re-inspect all components before use and handle them in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		6.2.3, 6.2.4
24.1	Compounding personnel visually re-inspect each component, including packaging system (any evidence of container breakage, looseness of cap or closure) and deviation from the expected appearance or texture of the contents (that might have changed during storage).	Yes		6.2.3
24.2	Compounding personnel ascertain before use that components are the correct identity based on labeling, that they have been stored under required conditions, and there is no evidence of deterioration or other aspects of unacceptable quality before use of component.	Yes		6.2.3
24.3	Components where correct identity, strength, purity, and quality cannot be confirmed (eg, containers with damaged or incomplete labeling), are immediately rejected and if not immediately discarded, labeled as rejected and segregated from active stock.	Yes		6.2.3
24.4	Compounding personnel handle all components following facility SOPs, manufacturer's instructions/labeling, and laws/regulations of the applicable regulatory jurisdiction.	Yes		1.1.3, 6.2.4
24.5	All components are handled in a manner that minimizes the risk of contamination, mix-ups, and deterioration.	Yes		6.2.4
25.0	When components are removed from the original container and not used in compounding (eg, excess after weighing), are they discarded and not returned to the original container (to minimize risk of contamination of the original component container)? ***Inspector note: This is a USP recommendation.***	N/A		6.2.4

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
26.0	Does the pharmacy maintain a chemical hazard, spill management, and disposal information program in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		6.2.5
26.1	Pharmacy staff have access to safety data sheets (SDS).	Yes		6.2.5
26.2	Pharmacy staff have documented, annual training for those who might have to clean up a spill.	Yes		6.2.5, 14
26.3	The pharmacy has a readily accessible spill kit in the compounding area.	Yes		6.2.5
26.4	The pharmacy has a process to manage and document any nonhazardous spills and disposal.	Yes		6.2.5
26.5	Waste of any component is disposed of in accordance with laws and regulations of the applicable regulatory jurisdiction.	Yes		1.1.3, 6.2.5
	Master Formulation Records (MFR) and Compounding Records (CR) **Inspector should review a minimum of five (5) MFRs and five (5) CRs.**			
27.0	Is an MFR created for each unique formulation of a CNSP in compliance with USP <795> standards? ***Inspector note: Per USP, an MFR is a detailed record of procedures that describes how the CNSP is to be prepared.*** ***If no, go to compliance statements.***	Yes	Reviewed by this Inspector.	7.1
27.1	An MFR is created for each unique formulation.	Yes		7.1 Box2
27.2	Any changes or alterations to the MFR are approved and documented.	Yes		7.1

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
27.3	Does the designated person(s) or designee evaluate CNSP's characteristics when considering the assigned BUD for an MFR? ***Inspector note: Per USP, "When establishing a BUD for a CNSP, compounders must consider parameters that may affect quality, including but not limited to the following:*** ***- Chemical and physical stability properties of the API and any added substances in the preparation (e.g., if the API and added substances in the preparation are known to rapidly degrade over time and/or under certain storage conditions, reduce the strength of the preparation, or produce harmful impurities)*** ***- Compatibility of the container closure system with the finished preparation (e.g., leachables, interactions, adsorption, and storage conditions)*** ***- Degradation of the container closure system, which can lead to a reduction in integrity of the CNSP*** ***- Potential for microbial proliferation in the CNSP (and)*** ***- Significant deviations from essential compounding steps and procedures; changes to essential compounding steps may have an impact on the stability of the formulation."***	Yes		7.1, 10.2 Table 4
28.0	Does the pharmacy's MFRs contain all requirements in compliance with USP <795> standards? ***If no; go to compliance statements. Additionally, collect a copy of the MFR and include as an attachment.***	Yes		7.1
28.1	MFR includes the name, strength or activity, and dosage form of the CNSP.	Yes		7.1
28.2	MFR identifies the identities and amounts of all components and, if applicable, relevant characteristics of components (eg, particle size, salt form, purity grade, solubility).	Yes		7.1
28.3	MFR includes the type of container–closure system(s).	Yes		7.1

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
28.4	MFR has complete instructions for preparing the CNSP, including equipment, supplies, and a description of the compounding steps. ***Inspector note: Per USP, the MFR will also include, "Other information needed to describe the compounding process and ensure repeatability (e.g., adjusting pH, temperature)." MFRs will include the detailed instructions necessary for an experienced compounder. Some examples of other details to ensure repeatability include, but are not limited to: speed duration, settings on equipment, and specific order of mixing (if applicable).*** ***Inspector should review several MFRs for completeness of instructions.***	Yes	This Inspector reviewed 5 MFRs and 5 CR.	7.1
28.5	MFR has a physical description of the final CNSP.	Yes		7.1
28.6	MFR includes the assigned beyond-use date (BUD) and storage requirements.	Yes		7.1
28.7	MFR contains the reference source to support the assigned BUD.	Yes		7.1
28.8	Labeling requirements (eg, shake well) are described on the MFR.	Yes		7.1
28.9	If applicable, the MFR contains the calculations to determine and verify quantities and/or concentrations of components and strength or activity of APIs.	Yes		7.1
28.10	An MFR has QC procedures (eg, pH testing, visual inspection) and expected results.	Yes		7.1
29.0	Does the pharmacy complete a Compounding Record (CR) for all CNSPs in compliance with USP <795> standards? ***If no, go to compliance statements. Additionally, collect a copy of the MFR and the CR (no PHI or PII is to be collected).***	Yes	Reviewed by this Inspector.	7.2, 14
29.1	A CR is completed for each CNSP prepared.	Yes		7.2, 14
29.2	The CR includes the name, strength or activity, and dosage form of the CNSP.	Yes		7.2, 14

e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
29.3	The CR includes the date (or date and time) the CNSP was prepared.	Yes		7.2, 14
29.4	The CR includes the assigned internal identification number (eg, prescription, order, or lot number).	Yes		7.2, 14
29.5	The CR has a method to identify the individuals involved in the compounding process of the CNSP.	Yes		7.2, 14
29.6	The CR has a method to identify the individual who completed the review and verified the final CNSP.	Yes		7.2, 14
29.7	The CR includes: name, vendor or manufacturer, lot number, and expiration date of each component.	Yes		7.2, 14
29.8	The CR includes the weight or measurement of each component.	Yes		7.2, 14
29.9	The CR identifies the total quantity compounded.	Yes		7.2, 14
29.10	The CR lists the assigned BUD and storage requirements.	Yes		7.2, 14
29.11	If applicable, the CR contains the calculations to determine and verify quantities and/or concentrations of components and strength or activity of API.	Yes		7.2, 14
29.12	The CR has a physical description of the final CNSP.	Yes		7.2, 14
29.13	The CR includes the results of quality control procedures (eg, pH testing, visual inspection).	Yes		7.2, 14
29.14	The CR contains a MFR reference for the CNSP.	Yes		7.2, 14
29.15	Each CR is reviewed for completeness before the CNSP is released.	Yes		7.2, 8
29.16	The CR shows traceability of all components in the case of a recall or known quality issue.	Yes		7.2, 12.1, 14

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
30.0	Are there procedures for in-process checks performed by a pharmacist? ***Inspector note: In-process checks are safety steps for complex, multi-step compounding processes. These checks indicate that appropriate procedures for measuring/mixing are followed for each step, including pharmacist verification of steps performed by non-pharmacists and visual inspection of preparation. Inspector should describe their observations in the Inspector Notes.***	Yes	Pharmacist are physically located in both compounding areas to perform in-process checks.	2, 7.2, 8
	Labeling			
31.0	Are the pharmacy's labels for CNSPs in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		9
31.1	Information on the label is prominently and legibly displayed. ***Inspector note: Per USP, labeling includes other accompanying materials along with the CSP, which is defined as "All labels and other written, printed, or graphic matter on the immediate container or on or inside any packaging system or wrapper in which the article is enclosed, except for any outer shipping container."***	Yes		9
31.2	The labeling meets any state or federal regulatory requirements.	Yes		1.1.3, 9
31.3	The label on the immediate container includes an assigned internal identification number (eg, barcode, prescription, order, or lot number).	Yes		9
31.4	The label on the immediate container includes the active ingredients and their amount(s), activity(ies), or concentration(s).	Yes		9
31.5	The label on the immediate container includes the storage conditions, if other than controlled room temperature.	Yes		9
31.6	The label on the immediate container includes the BUD. ***If no, please describe whether the pharmacy instead used the term "expiration date" or similar language or if this information was not included on the label.***	Yes	Use by and the date.	9

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
31.7	The label on the immediate container includes the dosage form.	Yes		9
31.8	The label on the immediate container includes the total amount or volume, if it is not obvious from the container.	Yes		9
32.0	Does the labeling on the dispensed CNSP include the route of administration? ***Inspector note: This is a USP recommendation.***	Yes		9
33.0	Does the labeling contain information identifying the CNSP as a compounded preparation? ***Inspector note: Per USP, this is a recommendation.***	Yes		9 USP <7>
34.0	Does the labeling on the dispensed CNSP display any applicable special handling instructions or warning statements? ***Inspector note: This is a USP recommendation.***	Yes		9
35.0	Does the labeling on the dispensed CNSP display the name of the compounding facility and contact information if the CNSP was to be sent outside of the facility or health care system? ***Inspector note: This is a USP recommendation.*** ***If the pharmacy only compounds CNSPs for patient use onsite (eg, a health care facility), inspector should answer this question as N/A .***	Yes		9
	Establishing Beyond Use Dating (BUDs)			
36.0	Is each CNSP assigned and labeled with a BUD in compliance with USP <795> standards? ***Inspector note: Per USP, the BUD is defined as, "The date, or hour and date, after which a CNSP must not be used, stored, or transported. The date is determined from the date or time the preparation is compounded." This is not the same term as "expiration date."*** ***If no, go to compliance statements.***	Yes		10 USP <7>
36.1	CNSP label has a BUD that specifies the date, or the hour and date, beyond which the preparation cannot be used and must be discarded.	Yes		10.1
36.2	CNSP labels do not list an "expiration date" or equivalent language.	Yes	Use by and the date.	10.1

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
36.3	BUDs are assigned from the date (and time) of preparation.	Yes		10.1
36.4	BUDs are assigned based on dispensing in tight, light resistant containers/overpacks. ***Inspector note: Per USP, the Table 4 maximum limits for BUD are, "based on the ability of the CNSP to maintain chemical and physical stability and to suppress microbial growth. These BUDs represent the limit for CNSPs that are packaged in tight, light-resistant containers unless conditions in 10.4 CNSPs Requiring Shorter BUDs or 10.5 Extending BUDs for CNSPs apply."***	Yes		10.3
36.5	The BUD assigned to the CNSP does not exceed the shortest remaining expiration date of any of the commercially available starting components.	Yes		10.4
37.0	Does the pharmacy ensure the assigned BUD does not exceed the shortest BUD of any individual compounded components? ***Inspector note: Per USP, "For CNSPs prepared from one or more compounded components, the BUD should generally not exceed the shortest BUD of any of the individual compounded components. However, there may be acceptable instances when the BUD of the final CNSP exceeds the BUD assigned to compounded components (e.g., pH-altering solutions). If the assigned BUD of the final CNSP exceeds the BUD of the compounded components, the physical, chemical, and microbiological quality of the final CNSP must not be negatively impacted." Another example of these "acceptable instances" (similar to pH-altering components mentioned above) inspectors may see are stock solutions (and other formulas within a formula) such as methocel 1%.*** ***If no, inspector should describe the observations, including the name of the component whose BUD was shorter than the assigned BUD of the final CSP.***	Yes		10.4
38.0	Does the designated person(s) evaluate a CNSP formulation to establish the maximum BUD? ***If no, who establishes the maximum BUD for a MFR?***	Yes		7.1, 10.2, 10.3
39.0	Does the pharmacy compound CNSPs with a USP monograph?	No		10.5

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
40.0	Does the pharmacy compound CNSPs following the USP monograph precisely? ***If no, go to compliance statements.***	N/A		10.5
40.1	Pharmacy staff have access to the USP monograph for reference.	N/A		10.5
40.2	CNSPs are prepared in accordance with the USP monographs. ***If no, inspector to collect a copy of the compounding record, label; and describe what specific steps of the monograph were not followed.***	N/A		10.5
40.3	Components used by the compounder match those listed in the monograph. ***If no, describe the source of the component in monograph and the source that the pharmacy used.***	N/A		10.5
40.4	The maximum BUD specified in the USP monograph is not exceeded. ***If no, identify the drug, monograph-stated BUD, and the BUD used by the pharmacy.***	N/A		10.5
41.0	Does the pharmacy compound CNSPs that are not available from a USP monograph?	Yes		10.4
42.0	Does the pharmacy adhere to the BUD (maximum) limits established in Table 4 for CNSPs in compliance with USP <795> standards? ***Inspector note: This question is for the CNSPs compounded that are <u>not</u> following a USP monograph or those CNSPs where extending BUD requirements were applied (where pharmacy has completed or has access to CNSP-Specific Stability Information). Per USP, the pharmacy is not required to measure water activity (A_w) for a CNSP.*** ***If no, go to compliance statements.*** ***If <u>all</u> CNSPs compounded at the pharmacy are following a USP monograph or the pharmacy is following a stability study that used a stability-indicating assay analytical method for the API, CNSP formulation, and material of composition of the container closure system, then the inspector should answer this question as N/A.***	Yes		10.4

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
44.4	The pharmacy has a copy of the cited stability study, which used a stability-indicating analytical method, for extending BUDs. ***Per USP, any stability study that meets the requirements of a stability-indicating assay method can be used (whether it is published or unpublished, such as a study provided by a chemical supplier) to extend BUDs up to 180 days for a CNSP.*** ***If pharmacy only conducts their own stability studies (does not use published or unpublished study performed by another entity) for extending BUDs, inspector should answer this question as N/A.*** ***If no, please describe the inspector observations.***	Yes		10.5
44.5	The cited stability study (which uses a stability-indicating analytical method for extending BUDs) describes the API(s), CNSP formulation, and material composition of the container closure used. ***If pharmacy only conducts their own stability studies (does not use published or unpublished study performed by another entity) for extending BUDs, inspector should answer this question as N/A.*** ***If no, please describe the inspector observations.***	Yes		10.5
44.6	If the cited stability study (which uses a stability-indicating analytical method for extending BUDs) is bracketed, the pharmacy's CNSP formulation is at or within the low and high concentration of each active ingredient within the stability study. ***If no, describe the concentrations cited in the stability study and the concentration of the CNSP compounded by the pharmacy.*** ***If pharmacy only conducts their own stability studies (does not use published or unpublished study performed by another entity) for extending BUDs, inspector should answer this question as N/A.***	Yes	Progesterone Cream in VersaPro 1-40%, Estradiol 0.025-0.25%, Estriol 0.025-0.25% and Testosterone 1-10% in VersaPro, Estriol 0.01-10% in VersaPro, Estradiol 0.01-10% in VersaPro, and Estradiol 0.01-0.2%, Estriol 0.04-0.8%, Progesterone 1-20%, Testosterone 0.025-0.5% and DHEA 0.2-4% in VersaPro. BUDs are 180 days.	10.5

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
44.7	Aqueous CNSPs whose labeled BUDs are extended beyond Table 4, have: - been tested for antimicrobial effectiveness at least once for each formulation in the type of (with the same material composition of the) container closure system that will be used; - received study results from an FDA-registered facility (for the same CNSP formulation using the same material composition of the container closure system); or - a study published from peer-reviewed literature (for the same CNSP formulation using the same material composition of the container closure system). ***Inspector note: Pharmacy may rely on a bracketed study from the above options as long as the bracketed study information includes the low and high concentration of each active ingredient in the formulation. Per USP, this is "to establish preservative effectiveness across various strengths of the same formulation (e.g., bracketing). The concentration of all other ingredients (including preservatives) must fall within the bracketed range.***	Yes		10.5
	Quality Assurance (QA), Quality Control (QC), and Quality Management (QM) Inspector to review at least one complaint, one adverse event, and one recall (if applicable).			
45.0	Does the pharmacy have a QA/QC program to ensure that CNSPs are prepared per the requirements in USP <795> standards and any applicable regulatory requirements? ***If no, go to compliance statements.***	Yes	Reviewed by this Inspector.	1.1.3, 12
45.1	The pharmacy has a formal QA/QC program with documented activities. ***Inspector note: Per USP, "A facility's QA and QC programs must be formally established and documented in the facility's SOPs that ensure that all aspects of the preparation of CNSPs are conducted in accordance with the requirements in this chapter (<795>) and the laws and regulations of the applicable regulatory jurisdiction."***	Yes		12
45.2	The QA/QC programs address adherence to procedures.	Yes		12
45.3	The QA/QC programs address prevention and detection of errors and other quality problems.	Yes		12

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
45.4	The QA/QC programs address evaluation of complaints and adverse events. ***Review at least one complaint and one adverse event. If there are no complaints or adverse events, review the process that the pharmacy would follow in the event of a complaint or adverse event.***	Yes	Reviewed by this Inspector.	12
45.5	The QA/QC programs address appropriate investigations and corrective actions.	Yes		12
46.0	Has the pharmacy received any complaints related to CNSPs within the past year?	Yes		12
47.0	Does the pharmacy follow complaint handling requirements in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		12.2
47.1	The pharmacy has a complete written or electronic record of each complaint made. ***Inspector note: Per USP, "The record must contain the name of the complainant or other unique identifier, the date the complaint was received, the nature of the complaint, and the response to the complaint. In addition, to the extent that the information is known, the following should be recorded: the name and strength of the CNSP and the assigned internal identification number (e.g., prescription, order, or lot number). The record must also include the findings of any investigation and any follow-up. Records of complaints must be easily retrievable for review and evaluation for possible trends and must be retained."***	Yes		12.2
47.2	Complaints are reviewed in accordance with SOPs by the designated person for the QA program.	Yes		12.2
47.3	Complaints are reviewed to determine whether it indicates a potential quality problem with the CNSP.	Yes		12.2
47.4	Complaints are fully investigated.	Yes		12.2
47.5	Complaint investigations consider whether the quality problem extends to other CNSPs.	Yes		12.2

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
47.6	Corrective action, if necessary, is implemented for all potentially affected CNSPs. ***Inspector note: Per USP, the pharmacy is to, "Consider whether to initiate a recall of potentially affected CNSPs and whether to cease nonsterile compounding processes until all underlying problems have been identified and corrected."***	Yes		12, 14
47.7	A CNSP that is returned in connection with a complaint is quarantined until it is destroyed after the completion of the investigation and in accordance with the laws and regulations of the applicable regulatory jurisdiction.	Yes		1.1.3, 12.2
48.0	Has the pharmacy initiated any recalls of CNSPs within the past two years? ***Inspector note: Per USP <795> requires all records to be readily retrievable for two years, including recalls; However, the state/jurisdictional regulator may require records to be kept for a longer period of time.*** ***Review most recent recall and describe in the Inspector Notes.*** ***If the pharmacy has not had any recalls within the past two years, Inspector should answer the question as No.***	No	None since 2021.	12.1, 14
49.0	Does the pharmacy follow recall and adverse event procedures for CNSPs in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		12.1, 12.2, 12.3
49.1	The pharmacy has procedures to determine when recalls must be initiated.	Yes		12.1
49.2	The pharmacy documents the implementation of the recall.	Yes		12.1
49.3	Pharmacy reports recalled CNSPs to the appropriate regulatory bodies (as required by laws and regulations of the applicable regulatory jurisdiction).	Yes		1.1.3, 12.1
49.4	Investigations into an adverse event that reveals a quality problem with a CNSP that is likely to affect other patients are reported to both patients and their prescribers.	Yes		12.3
50.0	Does the pharmacy procedures include a step to immediately notify the prescriber of a failure of specifications with potential to cause harm (eg, strength, purity, or other quality attributes)? ***Inspector note: This is a USP recommendation.***	Yes		12.1

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
	CNSP Packaging			
51.0	Does the pharmacy's packaging processes and materials meet the requirements in USP <795>? ***If no, go to compliance statements.***	Yes		13.1
51.1	The packaging materials protect CNSPs from damage, leakage, contamination, and degradation.	Yes		13.1
51.2	The packaging materials used protects personnel from exposure (from the packaged CNSP).	Yes		13.1
52.0	The packaging materials selected by the pharmacy maintain the physical and chemical integrity and stability needed for CNSPs (eg, protect from light).	Yes		13.1
	Compounding Personnel Observations - *Inspector must observe personnel performing compounding and related activities. This section will require the inspector to observe the staff while performing compounding and related activities. It is acceptable for pharmacy staff to perform mock compounding activities (with two creams or other drugs) as long as all observations can be viewed.*			
53.0	**Personal Preparation Observation:** Before entering the compounding area, do personnel remove any items that are not easily cleanable or are not necessary for compounding in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes	Observed by this Inspector.	
53.1	Personnel removed all outer garments (eg, hats, scarves, bandanas, vests, coats, and jackets).	Yes		3.1
53.2	Personnel removed all items that are not easily cleanable and that might interfere with garbing.	Yes		3.1
53.3	Personnel removed all hand, wrist, and other exposed jewelry, including piercings, that could interfere with the effectiveness of garbing and hand hygiene (eg, watches, rings that may tear gloves).	Yes		3.1
53.4	Personnel removed earbuds or headphones.	Yes		3.1

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
57.0	List the name(s) of the CNSPs observed by the inspector as part of live compounding demonstration.		Naltrexone 4.5mg capsules	
58.0	**Compounding Observation:** Are compounding personnel using appropriate nonsterile compounding techniques for CNSPs in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		2 Box 3
58.1	The compounding personnel enter the nonsterile compounding area in accordance with the SOPs.	Yes		3.1, 4.1
58.2	The compounding personnel started with a clean compounding area for CNSPs.	Yes		4.1, 4.3, 5 Table 1
58.3	The compounding personnel selected the correct MFR for the CNSP to be prepared.	Yes		7, 7.1 Box 2
58.4	The compounding personnel performed hand hygiene. ***Inspector note: Per USP <795>, Box 1, personnel are to: wash hands with soap and water for at least 30 seconds, dry hands completely with disposable towels or wipers, and then don gloves.***	Yes		3.2 Box 1
58.5	The compounding personnel are appropriately garbed for the type of CNSP prepared.	Yes		3.3
58.6	The compounding personnel obtained the proper ingredients (APIs and/or components). ***Inspector note: All ingredients must be within date and match what is listed in the MFR. If the ingredient is an API, the COA must have already been reviewed and approved for use.***	Yes		6.2 (6.2.1 - 6.2.5)
58.7	The compounding personnel gathered all necessary materials, equipment, and supplies necessary and/or specified in the MFR and is in good working order prior to use for the CNSP. ***Inspector note: All items must be clean prior to use. If equipment requires calibration and/or certification, compounder must ensure the equipment or device is within proper specifications (eg, tare scales and/or balances).***	Yes		6.1 Table 2

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
58.8	The compounding personnel have knowledge of and access to any SDS.	Yes		6.2
58.9	The compounding personnel only compound one CNSP at a time (to proactively prevent mix-ups, errors, and cross contamination).	Yes		1.1.3
58.10	The compounding personnel compound the CNSP according to the MFR. ***If no, inspector needs to describe in detail their observations in the Inspector Notes and collect a copy of the MFR and CR (no PHI or PII to be collected).***	Yes		7.1, 7.2 Box 2
58.11	The compounding personnel document any required steps listed in the MFR on the CR. ***Inspector note: This would include any weights, volume, and any in-process checks needed.***	Yes		7.2, 14 Box 3
58.12	Documentation in the CR is legible. ***If no, collect copy of record that is illegible. Redact any PHI on record.***	Yes		14
58.13	The compounding personnel verify the correct BUD in accordance with the MFR requirements in USP <795>.	Yes		10 Table 3, Table 4
58.14	The compounding personnel performed any quality control steps specified in the MFR. ***Inspector note: Examples of this include, but are not limited to: testing of pH for a suspension, weighing of capsules, and visual inspection against product description specifications.*** ***If no, describe observations in Inspector Notes.***	Yes		7.2, 8, 8.1, 12 Box 3
58.15	The compounding personnel placed the CNSP into the proper container closure system.	Yes		8.1 Box 2
58.16	The compounding personnel labeled the CNSP. ***Inspector note: Storage requirements must be included on the label if refrigerated or frozen (so patient can identify the storage temperature requirements).***	Yes		9

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
58.17	The compounding personnel completed any documentation on the CR. ***If no, describe observations of what was missing or omitted in Inspector Notes.***	Yes		7.2, 8, 14 Box 3
58.18	The compounding personnel cleaned and sanitized the compounding area before the next CNSP (with differing ingredients) is prepared.	Yes		5
59.0	**Final CNSP check observation**: Does the visual inspection of the CNSP by the pharmacist confirm all USP <795> requirements? ***Observe a pharmacist check several CNSP prescriptions. List the name of CNSPs release inspection observed in the Inspector Notes.*** ***If no, go to compliance statements.***	Yes	Naltrexone 4.5mg capsules, doxycycline capsules, fexofenadine capsules, HRT Dream and naltrexone 3.0 capsules	8, 8.1, 9
59.1	CNSP was visually inspected to determine the physical appearance of the CNSP is as expected (eg, color, texture, physical uniformity), including any special characteristics listed in the MFR (eg, emulsions must be checked for phase separation).	Yes		8, 8.1
59.2	Visual inspection included checking for container closure integrity (eg, leakage, cracks, improper seals).	Yes		8, 8.1
59.3	CNSP label was verified against the prescription or medication order.	Yes		8, 8.1, 9
59.4	CNSP label was verified against the MFR.	Yes		8, 8.1, 9
59.5	CNSP label was verified against the CR.	Yes		8, 8.1, 9
59.6	If a CNSP will not be released or dispensed on the day the preparation was made, a visual inspection was conducted immediately before it is released or dispensed to make sure the CNSP did not develop any defects during storage.	Yes		8, 8.1
59.7	All checks and inspection that are performed are properly documented.	Yes		8.1, 14

Nonsterile Compounding Inspection for USP <795>

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Inspector Notes	USP Reference(s)
59.8	CNSP that do not meet requirements, are promptly rejected, clearly labeled as rejected, and segregated from active stock to prevent use before disposal	Yes		8.1
60.0	Inspect several different finished compounded nonsterile preparations. Are all the finished compounded preparations free from any evidence of signs of contamination? ***Inspector note: If found, request the compounded preparation to be quarantined and notify NABP immediately.*** ***Additionally, list the name(s) of the compounded preparation(s) observed; description of type of contamination suspected (eg, particulates, dirt/debris/(suspected) mold within container closure); number of preparations affected (eg, two of the five containers on the shelf); lot or batch information; BUD assigned; and collect photographs, copy of MFR, and CR.***	Yes		12
61.0	**Cleaning and Disinfection Observation:** Does the pharmacy perform cleaning and sanitizing activities in the compounding area in compliance with USP <795> standards? ***Document observations while pharmacy staff are performing live compounding activities in Inspector Notes.*** ***If no, go to compliance statements.***	Yes		5
61.1	Pharmacy staff starts with a clean and sanitized work surface prior to compounding a CNSP.	Yes		5 Table 1
61.2	Pharmacy staff perform cleaning and sanitizing between compounding CNSPs with different components. ***Inspector note: Per USP, "If cleaning and sanitizing are performed as separate steps, cleaning must be performed first."***	Yes		5 Table 1
61.3	Pharmacy staff ensure equipment and devices used in compounding activities are clean and sanitized after use (to prevent cross contamination of the next preparation).	Yes		6.1 Table 2
61.4	Pharmacy staff perform cleaning and sanitizing on work surfaces when visibly soiled, after spills, and/or when surface contamination is known or suspected.	Yes		5 Table 1

Nonsterile <795> Employee File Records Review

Select the PIC, designated person, a staff pharmacist that checks compounded preparations, and two to three compounding pharmacy technicians. *Do not record the employee name, list only their title or position.
From the drop-down List:
*Mark as "Yes" if the document is present in the records and the competency evaluation was conducted in compliance with USP <795> requirements.
*Mark as "No" if the document is present in the records but is not in compliance with USP <795> requirements.
*Mark as "Missing" if any part of the record is missing and explain in Notes column.
*Mark as "N/A" if the training does not apply (eg, long-term employee may not have initial training available). Document further in the Notes column.

		Employee Records #1	Employee Records #2	Employee Records #3	Employee Records #4	Employee Records #5	
	Employee Title	DR	PIC	Tech	Tech	Tech	Notes
1.0	The training program provides initial training, evaluation, and documentation on the core competencies listed below:						
1.1	Compounding personnel are trained on facility SOPs.	Yes	Yes	Yes	Yes	Yes	
1.2	Compounding personnel are trained on USP <795> standards.	Yes	Yes	Yes	Yes	Yes	
1.3	The training record for hand hygiene is complete.	Yes	Yes	Yes	Yes	Yes	
1.4	The training record for garbing is complete.	Yes	Yes	Yes	Yes	Yes	
1.5	The training record for cleaning and sanitizing is complete.	Yes	Yes	Yes	Yes	Yes	
1.6	The training record for handling and transporting components and CNSPs is complete.	Yes	Yes	Yes	Yes	Yes	
1.7	The training record for measuring and mixing is complete.	Yes	Yes	Yes	Yes	Yes	
1.8	The training record for proper use of equipment is complete.	Yes	Yes	Yes	Yes	Yes	
1.9	The training record for documentation of compounding processes (eg, Master Formulation Records or Compounding Records) is complete.	Yes	Yes	Yes	Yes	Yes	
1.10	The training record for interpreting a Certification of Analysis (COA) is complete.	Yes	Yes	Yes	Yes	Yes	
1.11	The training record for how to read/interpret a Safety Data Sheet (SDS) is complete.	Yes	Yes	Yes	Yes	Yes	
1.12	The training record for spill management is complete.	Yes	Yes	Yes	Yes	Yes	
2.0	The annual competency assessment was evaluated and documented on the following topics:

Glossary & References	USP <795>
Active Pharmaceutical Ingredient (API)	Any substance or mixture of substances intended to be used in the compounding of a preparation, thereby becoming the active ingredient in that preparation and furnishing pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, or prevention of disease in humans or animals or affecting the structure and function of the body. Also referred to as a bulk drug substance. A conventionally manufactured drug product is not an API but is typically manufactured from an API(s).
Added Substance	An ingredient that is necessary to compound a preparation but is not intended or expected to cause a pharmacologic response if administered alone in the amount or concentration contained in a single dose of the compounded preparation. The term is used synonymously with inactive ingredient, excipient, and pharmaceutical ingredient.
Administration	The preparation of a nonsterile pharmacologic or other therapeutic agent for ingesting, inserting, applying, or otherwise providing a nonsterile medication in its final form to a single patient. This includes crushing a tablet(s) or opening a capsule(s) to mix with food or liquids to facilitate patient dosing.
Alcohol-based hand rub	An alcohol-containing preparation (liquid, gel, or foam) designed for application to the hands of health care personnel to inactivate microorganisms and/or temporarily suppress their growth. Such preparations may contain one or more types of alcohol, other active ingredients, excipients, and humectants.
Assigned trainer	One or more individuals assigned by the designated person(s) to be responsible and accountable for directly providing the training, observation, and/or evaluation of personnel for the preparation of CNSPs.
Beyond-use date (BUD)	The date, or hour and date, after which a CNSP must not be used, stored, or transported. The date is determined from the date or time the preparation is compounded.
Biological Safety Cabinet (BSC)	A ventilated cabinet that may be used for compounding. These cabinets are divided into three general classes (Class I, Class II, and Class III). Class II BSCs are further divided into types (Type A1, Type A2, Type B1, Type B2, and Type C1).
Bulk drug substance	See the entry for Active Pharmaceutical Ingredient.
Certificate of analysis (COA)	A report from the supplier of a component, container, or closure that accompanies the supplier's material and contains the specifications and results of all analyses and a description of the material.
Cleaning	The process of removing substances (eg, organic and inorganic material) from objects and surfaces, normally accomplished by manually or mechanically using water with detergents or enzymatic products.
Cleaning agent	An agent, usually containing a surfactant, used for the removal of substances (eg, dirt, debris, microbes, and residual drugs or chemicals) from surfaces.
Closed-system processing device	A device designed to reduce the potential exposure to personnel or contamination of the facility or CNSPs. Examples include CVEs, BSCs, or single-use containment glove bags.
Component	Any ingredient used in the compounding of a preparation, including any API, added substance, or conventionally manufactured product.
Compounded nonsterile preparation (CNSP)	A preparation not intended to be sterile that is created by combining, admixing, diluting, pooling, reconstituting other than as provided in the manufacturer's labeling, or otherwise altering a drug product or bulk drug substance.
Compounding	The process of combining, admixing, diluting, pooling, reconstituting other than as provided in the manufacturer's labeling, or otherwise altering a drug product or bulk drug substance to create a nonsterile preparation.

Disclosure of this form to a third party or use of the form by a third party is strictly prohibited without NABP's prior written authorization.

Glossary & References	USP <795>
Compounding area	An area that is specifically designated for nonsterile compounding.
Compounding personnel	Personnel trained to compound or oversee compounding of preparations.
Compounding record (CR)	Documents the compounding of each CNSP.
Container closure system	Packaging system components that together contain and protect the dosage form. This includes primary packaging system components and secondary packaging system components if the latter are intended to provide additional protection.
Containment glove bag	A single-use disposable glove bag that is capable of containing airborne chemical particles.
Containment ventilated enclosure (CVE)	A full or partial enclosure that uses ventilation principles to capture, contain, and remove airborne contaminants through high-efficiency particulate air (HEPA) filtration and to prevent their release into the work environment.
Conventionally manufactured product	A pharmaceutical dosage form, usually the subject of an application approved by the applicable national regulatory agency, that is manufactured under current good manufacturing practice conditions.
Designated person(s)	One or more individuals assigned to be responsible and accountable for the performance and operation of the facility and personnel as related to the preparation of CNSPs.
FDA	US Food and Drug Administration
Formulation	The specific qualitative and quantitative composition of the final CNSP.
Hazardous Drug (HD)	Any drug identified by at least one of the following criteria: carcinogenicity, teratogenicity or developmental toxicity; reproductive toxicity in humans; organ toxicity at low dose in humans or animals; genotoxicity or new drugs that mimic existing HDs in structure or toxicity. See <800>.
Label	The part of the labeling on the immediate container.
Labeling	All labels and other written, printed, or graphic matter on the immediate container or on or inside any packaging system or wrapper in which the article is enclosed, except for any outer shipping container.
Master formulation record (MFR)	A detailed record of procedures that describes how the CNSP is to be prepared.
Monograph	A quality documentary standard within USP–NF that articulates the quality expectations for a medicine including for its identity, strength, purity, and performance. It also describes the tests to validate that a medicine and its ingredients meet these criteria.
Oversight	The review, monitoring, and supervision of actions taken by personnel; bearing responsibility for those actions; and being available if and when needed for consultation, even if not physically present.
Preservative	A substance added to inhibit microbial growth.
Purified water	The minimal quality of source water for the production of Purified Water is drinking water whose attributes are prescribed by the US Environmental Protection Agency (EPA), the European Union, Japan, or the World Health Organization (WHO). This source water may be purified using unit operations that include deionization, distillation, ion exchange, reverse osmosis, filtration, or other suitable purification procedures. (See <1231>, 3.1.1 Purified Water.)
Quality Assurance (QA)	A system of procedures, activities, and oversight that ensures that the compounding process consistently meets quality standards.

Glossary & References	USP <795>
Quality Control (QC)	The sampling, testing, and documentation of results that, taken together, ensure that specifications have been met for the CNSP.
Reconstitution	The process of adding a diluent to a conventionally manufactured product to prepare a solution or suspension.
Release inspection and testing	Visual inspection and testing performed to ensure that a preparation meets appropriate quality characteristics.
Sanitizing agent	An agent for reducing, on inanimate surfaces, the number of microorganisms (eg, 70% isopropyl alcohol).
SDS	Safety data sheet.
SOP	Standard operating procedure.
Specification	The tests, analytical methods, and acceptance criteria to which any components, CNSP, container closure system, equipment, or other material used in the compounding of CNSPs must conform to be considered acceptable for its intended use.
Stability	The extent to which a product or preparation retains physical and chemical properties and characteristics within specified limits throughout its expiration or BUD.
Verify	To confirm that a method, process, system, or equipment will perform as expected under the conditions of actual use.
Water activity (a_w)	A measure of the fraction of total water that is unbound and freely available to participate in chemical, biochemical, or physicochemical reactions or provide an environment that can support microbial growth. Note that a_w is not water content.

Hazardous Drugs - Handling in Health Care Settings

The information and comments obtained in the Hazardous Drugs - Handling in Health Care Settings Inspection is based on USP Chapter <800>.
Any items marked "Recommendation" are considered "best practices" and are not considered requirements for compliance with USP standards, but the information is collected as it may be a requirement under state law.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
	General Information and Scope:		
1.00	Does the pharmacy handle any drugs on the National Institute for Occupational Safety and Health (NIOSH) list that **require** all the containment requirements of USP <800>?	Yes	
1.01	Does the pharmacy handle any ***hazardous drug*** active pharmaceutical ingredients (HD API)? *If yes, please list.*	Yes	Doc03_HD_1.01 - a list of hazardous drugs.
1.02	Does the pharmacy handle any antineoplastic requiring manipulations (which can produce particles, aerosols, or gasses)? *If yes, please list.*	Yes	Doc04 _HD_1.02
2.00	Does the pharmacy handle any drugs on the NIOSH list that **do not** require all containment requirements of <800>?	No	
2.01	Does the pharmacy handle any final dosage forms of HDs (either compounded or manufactured unless required by the manufacturer) that do not require further manipulation other than counting and repackaging? *If yes, please list.*	Yes	Doc03_HD_1.01 - a list of commercial hazardous drugs.
2.02	Does the pharmacy handle any dosage forms of other HDs **that are handled in full compliance** with containment requirements of <800>? *If yes, please list.*	No	
2.03	Does the pharmacy handle any dosage forms of other HDs **that are not handled** using all containment requirements of <800>? *If yes, please list.*	No

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
	List of Hazardous Drugs		
3.00	The pharmacy maintains a list of any items it handles that are included on the current NIOSH list of antineoplastic and other HDs. ***Review and attach list.*** *Verify that pharmacy has access to a copy of current NIOSH list.*	Yes	
4.00	The pharmacy reviews this list at least every 12 months for additions, deletions, or other changes and documents the review. *Verify documentation and* ***list date*** *of last change/review.*	Yes	Last updated on 01/14/2025.
5.00	The pharmacy reviews this list whenever the pharmacy adds a new agent or dosage form to the items it handles.	Yes	
6.00	The pharmacy has a system in place for the evaluation of new drugs (purchased, stored, handled, and/or dispensed) to determine whether they are considered HD.	Yes	
6.01	Pharmacy evaluates the drugs against the current version of the NIOSH list.	Yes	
6.02	In the absence of information, the pharmacy treats any new drug as an HD.	Yes	
7.00	If the pharmacy handles any HDs not using all containment requirements of <800>, an assessment of risk was performed for each drug and dosage form individually to determine alternative containment strategies, if needed, and work practices for each. *Review documentation of assessment and SOPs related to work practices/alternative containment.*	Yes

Hazardous Drugs - Handling in Health Care Settings

The information and comments obtained in the Hazardous Drugs - Handling in Health Care Settings Inspection is based on USP Chapter <800>.

Any items marked "Recommendation" are considered "best practices" and are not considered requirements for compliance with USP standards, but the information is collected as it may be a requirement under state law.

An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
12.00	SOPs are readily available to all who may need to handle HD or respond to a spill (pharmacy employees, housekeeping, nursing personnel, delivery personnel, etc). *Describe whether P&Ps are available electronically, by paper, or both.*	Yes	Both electronic and hard copy.
13.00	SOPs address at a minimum: *If no, document "missing" in Inspector Notes for each SOP topic*		**Please note NABP did not review each SOP for alignment on USP <800>. The SOP(s) described below is/are a reflection of any self-assessment completed by the pharmacy and/or shared with the inspector during the onsite inspection.**
13.01	Hazard communication program plan	Yes	Under SOP 12.00
13.02	Competent personnel	Yes	
13.03	Occupational safety program	Yes	
13.04	Designation of HD areas	Yes	
13.05	Receiving HDs, including handling of damaged shipping containers/breakages	Yes	
13.06	A list of HDs	Yes	
13.07	Storage of HDs	Yes	
13.08	Compounding of HDs	Yes	
13.09	Use and maintenance of proper engineering controls (eg, containment primary engineering control [C-PECs], containment secondary engineering control [C-SECs], and closed system drug transfer device [CSTDs]) to include SOPs for repairs, loss of power, moving, etc.	Yes

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
13.10	Hand hygiene and proper use of appropriate PPE based on activity (eg, receipt, transport, compounding, administration, spill, disposal).	Yes	
13.11	Deactivation, decontamination, cleaning, disinfection SOPs include all of the following:		
13.11.01	Agents used	Yes	
13.11.02	Dilutions, if used	N/A	
13.11.03	Frequency	Yes	
13.11.04	PPE to be worn (appropriate PPE resistant to the agents used, two pairs of chemotherapy gloves, impermeable disposable gowns, and eye, face, and respiratory protection if warranted--addressed in SOPs)	Yes	
13.11.05	Documentation requirements	Yes	
13.12	Receiving SOPs to include communications with suppliers about packaging and visual/other inspection of shipping containers for signs of damage and how to handle damaged containers.	Yes	
13.13	If a shipping container appears damaged and **does not need to be opened:**		Under SOP 12.15
13.13.01	It is sealed without opening and wrapped in impervious plastic;	Yes	
13.13.02	Labeled as "hazardous"; and	Yes	
13.13.03	Returned to the supplier after contacting the supplier or disposed of as hazardous waste if supplier declines return.	Yes

		Observation	Notes
13.14	If a damaged shipping container **must be opened:**		
13.14.01	Container is sealed in plastic or an impervious container;	Yes	
13.14.02	It is transported to the C-PEC before opening, preferably nonsterile compounding C-PEC, if available;	Yes	
13.14.03	container is placed on a plastic-backed preparation mat;	Yes	
13.14.04	It is opened and undamaged items are removed and wiped down with a disposable wipe;	Yes	
13.14.05	Damaged item is enclosed in an impervious container and labeled "hazardous";	Yes	
13.14.06	Damaged item is returned to the supplier or disposed of as hazardous waste;	Yes	
13.14.07	Deactivate, decontaminate, and clean the C-PEC in accordance with SOPs; and	Yes	
13.14.08	If a sterile compounding C-PEC must be used, it is also disinfected after cleaning prior to resuming any sterile compounding activities.	N/A	No sterile compounding is conducted at this pharmacy.
13.15	Safe work Practices SOPs	Yes	
13.16	Dispensing SOPs	Yes	
13.17	Packaging and labeling SOPs	Yes	
13.18	Transport SOPs	Yes

		Observation	Notes
13.19	Administering SOPs, if applicable	Yes	
13.20	***Recommendation: Environmental monitoring (eg, wipe sampling) SOPs***	No	
13.21	HD waste segregation and disposal (including reference to following local, state, and federal regulations) SOPs	Yes	
13.22	Spill prevention and direction of spill cleanup and control SOPs must address the following:		Under SOP 7.03
13.22.01	Size and scope of spill;	Yes	
13.22.02	Responsible person for handling spills;	Yes	
13.22.03	Location of spill kits and clean-up materials;	Yes	
13.22.04	Capacity of the spill kits;	Yes	
13.22.05	PPE to be worn during spills;	Yes	
13.22.06	Handling of worn PPE and any exposed clothing under PPE;	Yes	
13.22.07	Use of appropriate full-face, chemical cartridge-type respirator or powered air-purifying respirators (PAPR) if capacity of spill kit is exceeded or known or suspected airborne exposure to vapors/gases; and	Yes	
13.22.08	Medical evaluation/incident reporting/documentation/other handling of persons potentially exposed or with direct skin/eye contact to the HD.	Yes

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
13.23	***Recommendation:*** *Does the pharmacy have a medical surveillance program? (a comprehensive control program to monitor and identify potential worker health care issues from HD exposure.)*	No	
14.00	The **hazard communication program** SOP has policies and procedures that ensure worker safety in all aspects of HD handling relevant to the pharmacy and ensure effective personnel training in proper labeling, transport, storage, and disposal of HDs, use of Safety Data Sheets (SDSs), based on the Globally Harmonized System of Classification and Labeling of Chemicals (GHS).	Yes	
15.00	The pharmacy's hazard communication program includes, at a minimum, all of the following:		
15.01	A written plan that describes how the standard will be implemented;	Yes	
15.02	How containers of HDs/hazardous chemicals will be labeled, tagged, or marked with the identity of the material and appropriate hazard warnings;	Yes	
15.03	SDSs are maintained for each hazardous chemical they use (29 CFR 1910.1200);	Yes	
15.04	How SDSs are readily accessible to personnel during each work shift and when they are in their work areas;	Yes	
15.05	Information and training provided to personnel prior to initial assignment to work with a hazardous chemical and whenever the hazard changes; and	Yes	
15.06	Personnel of reproductive capability confirm in writing that they understand the risks of handling HDs.	Yes

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
	Personnel Training —*Check four employee files for documentation*		
16.00	All personnel handling HDs are trained based on their job function prior to independently handling HDs.	Yes	
17.00	Personnel file contains the employee's acknowledgement of the risk of handling HD (as part of the hazardous communication program).	Yes	
18.00	For non-sterile HD compounding, personnel competency is observed and assessed at least annually for proper compounding technique, with no concerns identified.	Yes	
19.00	For sterile HD compounding, personnel competency is observed and assessed at least annually for proper sterile compounding aseptic technique, with no concerns identified.	N/A	No sterile compounding is conducted at this pharmacy.
20.00	After initial HD training, personnel are trained prior to introduction of any new HD or new equipment, or prior to any significant change in process or SOP.	Yes	
21.00	All HD training and assessments are documented for each employee who transports, compounds, or administers HDs, and meets Occupational Safety and Health Administration Standard 1910.120 and any other requirements of law or regulation.	Yes	
22.00	All personnel who perform custodial HD waste removal and cleaning in HD handling areas are trained in appropriate procedures to protect themselves and the environment.	Yes	
23.00	HD training, based on employee file review, all of the following are present:		
23.01	Overview of pharmacy's HD list and their risks;	Yes

23.02	Review of the SOPs related to HDs;	Yes	
23.03	Proper use of PPE;	Yes	
23.04	Proper use of equipment and devices (eg, engineering controls);	Yes	
23.05	Appropriate procedures for deactivation, decontamination, cleaning, and disinfection (if applicable);	Yes	
23.06	Response to known or suspected HD exposure;	Yes	
23.07	Spill management;	Yes	
23.08	Proper disposal of HDs and trace-contaminated materials; and	Yes	
23.09	New HD drug/new equipment or prior to any significant change in process or SOP.	Yes	
24.00	If respiratory protection is needed for any HDs handled, personnel are fit tested and trained in the proper use of the respirator.	Yes	
	Personal Protective Equipment		
25.00	For sterile and nonsterile compounding with HDs, personnel wear gowns; head, hair, and shoe covers; and two pairs of chemotherapy gloves.	Yes	
26.00	Appropriate PPE is readily accessible where HD is handled, include all of the following:

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
29.00	**Gloves**: The pharmacy is using appropriate gloves for the activities conducted (chemotherapy gloves meet ASTM standard D6978 -- or its successor -- and are resistant to cleaning agents used) and are resistant to cleaning agents used.	Yes	
29.01	**Recommendation**: Are *chemotherapy gloves worn for handling all HDs including non-antineoplastics and for reproductive risk only HDs?*	Yes	
29.02	Chemotherapy gloves are powder-free.	Yes	
29.03	Chemotherapy gloves are inspected for physical defects before use and defective gloves (eg, pin holes, tears, weak spots) are discarded.	Yes	
29.04	For sterile compounding, the outer chemotherapy gloves are sterile.	N/A	No sterile compounding is conducted at this pharmacy.
29.05	Chemotherapy gloves are changed when torn, punctured, or contaminated.	Yes	
29.06	**Recommendation**: Are *chemotherapy gloves changed every 30 minutes (unless otherwise recommended by the manufacturer)?*	Yes	
29.07	Hands are washed with soap and water after removing chemotherapy gloves.	Yes	
30.00	**Gowns**: The pharmacy is using appropriate gowns for the activities conducted (if required for type of compounding based on standards or assessment of risk).	Yes	
30.01	Gowns are disposable.	Yes

e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
30.02	Gowns resist permeability of HDs and are not laboratory coats, surgical scrubs, or isolation gowns (selected based on HDs handled).	Yes	
30.03	Gowns close in the back, are long sleeved, and have closed cuffs that are elastic or knit.	Yes	
30.04	Gowns do not have seams or closures that will allow HDs to pass through.	Yes	
30.05	Gowns are changed in accordance with the manufacturer's instructions, or if no permeation information is available, they are changed every two to three hours or immediately after a spill or splash.	Yes	
30.06	Gowns worn in HD areas are not worn to other areas.	Yes	
31.00	**Head, hair** (beard and moustache, if appropriate), **and shoe and sleeve covers.** The pharmacy is using appropriate head, hair, and shoe and sleeve covers for the type of compounding based on standards or assessment of risk to provide protection from contact with HD residue, if required.	Yes	
31.01	When HD compounding, a second pair of shoe covers are donned before entering the C-SEC and doffed when exiting the C-SEC.	Yes	First pair of shoe covers are blue and the second pair are white.
31.02	Shoe covers worn in HD areas are not worn into other areas of the facility.	Yes	
32.00	**Eye and Face Protection:** The pharmacy is using appropriate eye and face PPE protection for the activities conducted (based on assessment of risk that HDs are irritating to the eyes and mucous membranes, where there is risk of spills or splashes when working outside of a C-PEC), if required.	Yes

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
	Facilities and Engineering Controls		
38.00	There are signs prominently displayed before the entrance to all HD handling areas designating the hazard.	Yes	
38.01	Access to these areas are restricted to authorized personnel who have been appropriately trained.	Yes	
38.02	HD areas are located away from breakrooms/refreshment areas for personnel, patients, and/or visitors.	Yes	
39.00	There are designated HD areas for any of the following:		
39.01	Receiving and unpacking of HDs	Yes	
39.02	Storage of HDs	Yes	
39.03	Nonsterile HD compounding (if performed by the pharmacy)	Yes	
39.04	Sterile HD compounding (if performed by the pharmacy)	N/A	No sterile compounding is conducted at this pharmacy.
40.00	***Recommendation**: If there is a requirement for certain designated areas to have negative pressure from surrounding areas, is there an uninterrupted power source (UPS) to the ventilation systems in order to maintain negative pressure in the case of power loss?*	Yes	Diesel generator
41.00	**Receipt**: Are HDs received and unpacked (removed from external shipping containers) in an appropriate environment? *Describe.*	Yes	In a neutral pressure room under a BSC.

Hazardous Drugs - Handling in Health Care Settings

The information and comments obtained in the Hazardous Drugs - Handling in Health Care Settings Inspection is based on USP Chapter <800>.

Any items marked "Recommendation" are considered "best practices" and are not considered requirements for compliance with USP standards, but the information is collected as it may be a requirement under state law.

An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
41.01	Antineoplastics and HD APIs are unpacked in an area with air pressure relative to surrounding areas that is either neutral or negative pressure. *Indicate the type of environment. If the environment is positive pressure, it is non-compliant.*	Yes	In a neutral pressure room under a BSC.
41.01.01	Neutral	Yes	
41.01.02	Negative	No	
42.00	HDs are not unpacked in a sterile compounding area (eg, no external containers are brought into C-SEC).	N/A	No sterile compounding is conducted at this pharmacy.
43.00	**Storage**: Are HDs stored in a manner to minimize accidental exposure? *Describe.*	Yes	All HDs are stored in a negative pressure room until their final dosage form.
43.01	HDs are not stored on the floor.	Yes	
43.02	HDs are stored in a manner to minimize breakage and spillage.	Yes	
43.03	If facility is in an area prone to specific types of natural disasters, appropriate precautions are taken (eg, raised front lips on shelving in earthquake prone areas).	N/A	The shelves are 15 inches deep and liquids are stored in a bin. All HDs are stored within arms reach.
44.00	Antineoplastic HDs that require manipulation (other than counting and repackaging final dosage forms) and HD API are stored separately from non-HDs.	Yes	
44.01	These HDs are stored in an externally ventilated, negative pressure room.	Yes

Any items marked "Recommendation" are considered "best practices" and are not considered requirements for compliance with USP standards, but the information is collected as it may be a requirement under state law.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
44.02	The HD storage room has at least 12 air changes per hour (ACPH).	Yes	
44.03	Refrigerated antineoplastic HDs are stored in a dedicated refrigerator in a negative pressure area with at least 12 ACPH (eg, storage room, buffer room, or containment segregated compounding area [C-SCA]).	Yes	
44.04	**Recommendation:** *If the refrigerator is located in a buffer room, is an exhaust located adjacent to the refrigerator's compressor and behind the refrigerator?*	Yes	
45.00	If non-antineoplastic, reproductive risk only, and final dosage forms of antineoplastics are stored with other non-HD inventory, there is a written policy/SOP addressing it.	Yes	
46.00	**Compounding:** There are appropriate engineering controls to protect the HD preparation from cross-contamination, and if sterile compounding, from microbial contamination, during all phases of the compounding process.	Yes	
47.00	All HD compounding are performed within a C-PEC located in a C-SEC room.	Yes	
47.01	The C-SEC for both sterile and nonsterile HD compounding has all of the following:		
47.01.01	Has fixed walls;	Yes	
47.01.02	Is externally vented;	Yes

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
47.01.03	Is able to meet (12) or exceed ACPH requirements;	Yes	
47.01.04	Is physically separated (ie, a different room) from other preparation areas; and	Yes	
47.01.05	Has a negative pressure differential of between 0.01 inches and 0.03 inches of water column relative to all adjacent areas.	Yes	
48.00	The C-PEC operates continuously if it supplies some or all of the negative pressure in the C-SEC or if it is used for sterile compounding.	Yes	
49.00	There is a sink readily available for handwashing on the hazardous side.	Yes	
49.01	There is an eyewash station readily available.	Yes	
49.02	Water sources and drains are a minimum of 1 meter away from the C-PEC.	Yes	
50.00	Does the pharmacy engage in **nonsterile HD compounding**? If yes, complete 50.01-54. If no, skip to 55:	Yes	
50.01	Select the location where **nonsterile HD compounding** is performed type(s):		
50.01.01	C-PECs used for sterile HD compounding are located in a different room than C-PECs used for nonsterile HD compounding	N/A	No sterile compounding is conducted at this pharmacy.

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
50.01.02	C-PECs used for sterile HD compounding are located in the same room as C-PECs used for nonsterile HD compounding.	N/A	No sterile compounding is conducted at this pharmacy.
50.02	Select the type(s) of containment primary engineering control(s) used for **nonsterile HD compounding**:		
50.02.01	Class I biological safety cabinet (BSC)	Yes	
50.02.02	Class II BSC	No	
50.02.03	Containment ventilated enclosure (CVE)	No	
50.02.04	Compounding aseptic containment isolator (CACI)	No	
50.02.05	Other, describe	No	
51.00	Indicate if the C-PEC used for **nonsterile HD compounding** (must be one of two below in order to be compliant):		
51.01	Is externally vented *(preferred)* ; **and/or**	No	
51.02	Has redundant High Efficiency Particulate Air (HEPA) filters in series	Yes	
52.00	Does the pharmacy use the same C-PEC (Class II BSC or CACI) used for sterile HD compounding and nonsterile HD compounding?	N/A	No sterile compounding is conducted at this pharmacy.
52.01	Is **nonsterile HD compounding** only "occasional"? / *If yes, please describe frequency and quantity.*	No

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
52.02	Is the **nonsterile HD compounding** activity only occurring when sterile HD compounding is not being performed?	N/A	No sterile compounding is conducted at this pharmacy.
52.03	Is the C-PEC decontaminated, cleaned, and disinfected prior to resuming sterile compounding?	N/A	No sterile compounding is conducted at this pharmacy.
53.00	The C-SEC has at least 12 ACPH. *Verify documentation and monitoring.*	Yes	Last certified on April 15, 2024.
54.00	The ceilings, walls, floors, fixtures, shelving, counters, and cabinets are smooth, impervious, free from cracks and crevices, and non-shedding. *If non-compliant describe.*	Yes	
55.00	Does the pharmacy engage in **sterile HD compounding**? If yes, complete 55.01-61.02.03. If no, skip to 62.	No	
55.01	Select the type(s) of containment primary engineering control(s) used for **sterile HD compounding**:		
55.01.01	CACI	N/A	
55.01.02	Class II BSC, Type A1 (formerly Type A and not suitable for volatile toxic chemicals and volatile radionuclides)	N/A	
55.01.03	Class II BSC, Type A2 (formerly Type B3)	N/A	
55.01.04	Class II BSC, Type B1	N/A	
55.01.05	Class II BSC, Type B2 (total exhaust for volatile components)	N/A

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
55.01.06	Class III BSC	N/A	
55.01.07	LAFW (not for antineoplastics)	N/A	
55.01.08	CAI (not for antineoplastics)	N/A	
56.00	The C-PEC maintains ISO Class 5 or better air quality and is under continuous operation, unless power loss or repair occurs.	N/A	
57.00	Is the C-PEC used for **sterile HD compounding** externally vented?	N/A	
58.00	If a BSC or CACI that is used for **sterile HD compounding** is also used for non-HD preparations, is the non-HD preparation placed into a protective outer wrapper during removal from the C-PEC?	N/A	
58.01	If used for both, is the non-HD preparation labeled to require PPE handling precautions?	N/A	
59.00	If the C-SEC is an unclassified containment segregated HD compounding area (C-SCA: enclosed separate room with fixed walls, but not ISO classified), beyond-use dates (BUDs) are limited in accordance with <797> as Category 1 compounded sterile preparations.	N/A	
59.01	The C-SEC (C-SCA) has at least 12 ACPH. *Verify documentation and monitoring.*	N/A	
59.02	A handwashing sink is at least one meter or more away from the C-PEC	N/A

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
59.02.01	Describe whether the sink is inside the C-SCA or directly outside the C-SCA		
60.00	If BUDs are longer than the Category 1 BUDs specified in <797>, the PEC is located in a C-SEC, which is an ISO Class 7 buffer room adjacent to an ISO Class 7 anteroom.	N/A	
60.01	The buffer room has fixed walls.	N/A	
60.02	The buffer room is externally vented.	N/A	
60.03	The buffer room has HEPA-filtered supply air.	N/A	
60.04	The buffer room has at least 30 ACPH.	N/A	
60.05	The buffer room has a negative pressure differential of between 0.01 inches and 0.03 inches of water column relative to the anteroom.	N/A	
60.06	The anteroom has fixed walls.	N/A	
60.07	The ante room has a minimum of 30 ACPH of HEPA-filtered supply air.	N/A	
60.08	The ante room maintains positive pressure of at least 0.02 inches water column relative to any adjacent unclassified areas.	N/A	
60.09	The handwashing sink is located in the anteroom at least 1 meter or more away from the door to the buffer room to prevent contamination into the negative pressure buffer room.	N/A

Facility Name: CareFirst Specialty Pharmacy LLC dba CareFirst Specialty Pharmacy LLC
e-Profile ID: 1182848
Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
61.00	If the negative-pressure HD buffer room is entered through a positive-pressure non-HD buffer room, there is a line of demarcation within the buffer room for donning and doffing PPE.	N/A	
61.01	There is a design and method to contain and minimize HD contamination when **transporting** HDs, HD CSPs, and HD waste into and out of the negative pressure buffer room:	N/A	
61.02	Indicate how HD contamination is minimized:		
61.02.01	Pass-through chamber between negative pressure buffer room and adjacent space included in the facility's certification not compromising air quality in the buffer room *(verified in the facility's semi-annual certification report that pass through has not compromised air quality in the buffer room).*	N/A	
61.02.02	Use of sealed containers	N/A	
61.02.03	Other, *describe*	N/A	
	Environmental Quality and Control - Surface wipe sampling		
62.00	**Recommendation: Surface wipe sampling** is performed routinely (initially and at least every six months) to monitor HD containment processes and trends, which includes all of the following:	No	
62.01	Interior of C-PEC and equipment within the C-PEC	N/A	
62.02	Pass-through chambers	N/A	
62.03	Surfaces in staging or work areas near the C-PEC	N/A	
62.04	Areas adjacent to the C-PEC (eg,. floors directly under, staging, and dispensing areas)	N/A	
62.05	Areas immediately outside the HD buffer room or the C-SCA	N/A

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
	Receiving		
63.00	**Recommendation**: HDs are packaged by the supplier in impervious plastic to segregate them from other drugs and decrease possibility of exposure during unpacking and internal transfer.	Yes	
64.00	HDs are delivered to the HD storage area immediately after unpacking.	Yes	
65.00	A spill kit is readily accessible in the receiving area.	Yes	
66.00	Containers are visually examined for signs of damage or breakage prior to opening.	Yes	
67.00	If a shipping container appears damaged and does not need to be opened, it is sealed, enclosed in an impervious container, labeled "hazardous" on the outside, and returned to the supplier after contact or disposed of as hazardous waste.	Yes	
67.01	If a damaged shipping container must be opened, it is done so according to SOPs, to include sealing the container in plastic or an impervious container, transporting it to the C- PEC for unpacking, removing, and wiping the outside of the undamaged items with disposable wipes, resealing the damaged items in an impervious container and marking it "hazardous," returning it to the supplier after contact or disposing as hazardous waste, and deactivating, decontaminating, and cleaning the C-PEC.\	Yes	
68.00	Damaged packages are considered spills and reported to the designated person. ***List last date of damaged package receipt.***	Yes	No damaged package has been received from a vendor at the time of this inspection.

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
	Labeling, Packaging, Transport, and Disposal		
69.00	HDs requiring special HD handling are always clearly labeled as hazardous during transport and in accordance with any laws related to labeling of HDs.	Yes	
70.00	Labeling processes do not introduce contamination into non-HD handling areas.	Yes	
71.00	Packaging materials are chosen that protect the HD and healthcare worker against damage, leakage, contamination, and degradation during transport, but also maintains the physical integrity, stability, and sterility of the HD.	Yes	
72.00	Pneumatic tubes are not used for transporting any liquid HDs or antineoplastic HDs.	N/A	No pneumatic tubes in pharmacy.
73.00	Labeling on HDs shipped outside the pharmacy meets all of the following requirements:		No shipping of HDs that require labeling on the outside per PIC Thakrar.
73.01	Labeling specified in SDS for transport;	N/A	
73.02	Storage and disposal instructions; and	N/A	
73.03	Labeled with HD category.	N/A

Inspection Date: 1/23/2025 & 1/27/2025

		Observation	Notes
	Dispensing, Packaging, and Compounding Processes		
74.00	Counting of antineoplastics is done by hand (eg, not placed into automated counting devices).	Yes	
75.00	Clean, dedicated (not used for non-HD purposes), or disposable equipment is used for counting, packaging, and compounding of HDs.	Yes	
75.01	**Recommendation:** Equipment is decontaminated after every use.	Yes	Clorox Healthcare Hydrogen Peroxide Cleaner Disinfectant and IPA 70%
75.02	**Recommendation:** When compounding, a plastic-backed preparation mat is placed on the C-PEC work surface and changed and discarded appropriately as HD waste. All of the following should apply in order to make this a Yes.	Yes	
75.02.01	Immediately if a spill occurs	Yes	
75.02.02	Regularly during use	Yes	
75.02.03	At the end of a shift	Yes	
76.00	APIs or other powdered HDs are handled in a C-PEC during particle-generating activities, such as crushing, opening capsules, and weighing powders.	Yes

		Observation	Notes
	Deactivating and Decontaminating (Cleaning and Disinfecting are performed in accordance with Chapters <795> and <797>)		
77.00	The pharmacy has chosen appropriate oxidizing agent(s) for deactivation and decontamination and proven effective by testing.	Yes	Clorox Healthcare Bleach Germicidal Cleaner and Clorox HealthcareHydrogen Peroxide Cleaner Disinfectant
78.00	Wipes or other appropriate delivery mechanisms (eg, not a spray bottle) are used for deactivation and decontamination.	Yes	
79.00	The C-PEC must be decontaminated. *All of the following must be done to be compliant:*	Yes	
79.01	Between compounding of different HDs	Yes	
79.02	At least daily when used	Yes	
79.03	Any time a spill occurs	Yes	
79.04	Before and after certification	Yes	
79.05	Any time voluntary interruption occurs	Yes	
79.06	If the ventilation tool is moved	Yes	
80.00	HD containers are wiped down prior to placing them in the C-PEC and the solution used does not alter the product label.	Yes

Statement of Responsibility

1. I am the Vice President (title) for Flexcare Specialty Services, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, David Vermeulen hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Vice President (title) for Flexcare Specialty Services, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

TEXAS STATE BOARD OF PHARMACY

Re:	Kathleen Kimball-Doyle, R.Ph.
License No.:	26081
Date Issued:	March 3, 1982
Licensure Status:	Active
Expiration Date:	June 30, 2025
Granted by:	Examination
Prior Disciplinary Orders:	Yes

The Texas State Board of Pharmacy maintains records regarding licensure and disciplinary action against a licensee. Kathleen Kimball-Doyle, R.Ph. (Texas Pharmacist License #26081) has been subject to disciplinary action by the Texas State Board of Pharmacy (see attached).

Form Completed by:

Eamon D. Briggs
Deputy General Counsel
Texas State Board of Pharmacy

September 19, 2023
Date

1801 Congress Avenue Suite 13.100 Austin, Texas 78701-1319 512-305-8000 (voice) 512-305-6778 (fax) www.pharmacy.texas.gov

AGREED BOARD ORDER #H-03-027-A

RE: IN THE MATTER OF KATHLEEN ANN KIMBALL-DOYLE (PHARMACIST LICENSE #26081)

BEFORE THE TEXAS STATE BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy the matter of pharmacist license number 26081 issued to Kathleen Ann Kimball-Doyle, [redacted]

By letter dated October 23, 2003, the Texas State Board of Pharmacy gave preliminary notice to Kathleen Ann Kimball-Doyle of its intent to take disciplinary action with respect to pharmacist license number 26081 issued to Kathleen Ann Kimball-Doyle. This action was taken as a result of an investigation which produced evidence indicating that Kathleen Ann Kimball-Doyle may have violated:

Section 565.001(a)(1), (2), (12), and (13) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Subtitle J (Vernon 2001);

Section 281.7(a)(12), (13), and (29); Section 291.31(1), (17), and (18); Section 291.32(b)(1)(D) and (E); Section 291.32(b)(2)(B), (C), and (D); Section 291.33(c)(7)(A)(xiii); and Section 295.3(b) of the Texas Pharmacy Rules of Procedure, 22 TEX. ADMIN. CODE (2002); and

Section 431.003; Section 431.021(a), (b), and (r); and Section 431.112(a)(1) of the Texas Food Drug and Cosmetic Act, TEX. HEALTH AND SAFETY CODE ANN. (Vernon 2001), in that, allegedly:

COUNT

On or about July 22, 2002, Kathleen Ann Kimball-Doyle, while acting as an employee (staff pharmacist) of PharMerica, 1289 North Post Oak Boulevard, #130, Houston, Texas, 77055, dispensed 120 Glyburide 5mg tablets to patient J.B., a fifty-year-old mentally retarded patient, on a new telephonic prescription calling for 120 Oxybutynin 5mg tablets. The prescription container was a prepackaged unit labeled as containing 120 Glyburide 5mg tablets. The prescription label affixed to the prepackaged unit at the time of delivery indicated that 120 Oxybutynin 5mg tablets was dispensed. After taking approximately sixteen doses of the incorrect medication, patient J.B.'s blood sugar level was low. Patient J.B, who was not a diabetic, became unresponsive and was admitted into Memorial Hermann

Hospital on August 7, 2002. The medical records of patient J.B. indicate a diagnosis of hypoglycemia with elevations; the patient was discharged on August 9, 2002, with instructions to follow-up in the clinic at the group home. The prescription was assigned prescription #4480786.

An informal conference was held in the office of the Texas State Board of Pharmacy on December 10, 2003, with Kathleen Ann Kimball-Doyle, R.Ph., and William L. Mertz, Legal Counsel for Kathleen Ann Kimball-Doyle, in attendance. The informal conference was heard by a Board panel comprised of: W. Michael Brimberry, R.Ph., M.B.A., Board Member; Gay Dodson, R.Ph., Executive Director/Secretary; and Carol Fisher, R.Ph., M.P.A., Director of Enforcement; with Kerstin E. Arnold, General Counsel. Also in attendance were: Stephanie C. Chambers, Assistant General Counsel, and Joe Lewis, Chief Investigator.

At the aforementioned conference, William L. Mertz stated he was present for and on behalf of Kathleen Ann Kimball-Doyle. By their appearance at the informal conference and by their signatures on this Order, Kathleen Ann Kimball-Doyle and William L. Mertz agree that the Texas State Board of Pharmacy has jurisdiction in this matter and do hereby waive the right to notice of hearing, to a formal administrative hearing, and to judicial review of this Order.

After discussion of the matters previously outlined in this Order, and subsequent communications, Kathleen Ann Kimball-Doyle and William L. Mertz agreed to the entry of an Order disposing of the need for further disciplinary action in this matter. By their signatures on this Order, Kathleen Ann Kimball-Doyle and William L. Mertz neither admit nor deny the truth of the matters previously set out in this Order with respect to the above alleged violations.

Should this Order not be accepted by the Board, it is agreed that neither the presentation of the Order to the Board nor the Board's consideration of the Order, will be deemed to have unfairly or illegally prejudiced the Board or its individual members and, therefore, will not be grounds for precluding the Board or any individual member of the Board from further participation in proceedings related to the matters set forth in the Order.

Kathleen Ann Kimball-Doyle and William L. Mertz understand that any failure to comply with the terms of this Order is a basis for discipline under the Texas Pharmacy Act.

At the conclusion of the aforementioned conference, and subsequent communications, it was agreed among the parties that Kathleen Ann Kimball-Doyle shall comply with the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Texas State Board of Pharmacy does hereby ORDER that pharmacist license number 26081 held by Kathleen Ann Kimball-Doyle (hereinafter referred to as "Respondent") shall be, and such license is hereby reprimanded.

It is further ORDERED that Respondent shall obtain twelve (12) hours of continuing education with a portion of such hours relating to the prevention of dispensing errors, which shall be in addition to the hours of continuing education required for relicensure. Respondent shall submit proof of completion of the continuing education hours to the Texas State Board of Pharmacy, Enforcement Division, within one (1) year of the entry of this Order. All continuing education must be in compliance with the continuing education requirements set forth in Section 295.8 of the Texas Pharmacy Rules, and must be completed after the entry of this Order and before one (1) year after the entry of this Order.

It is finally ORDERED that failure to comply with any of the terms and conditions in this Order constitutes a violation and shall be grounds for further disciplinary action against the Texas pharmacist license held by Respondent.

And it is so ORDERED.

THIS ORDER IS A PUBLIC RECORD.

SIGNED AND ENTERED ON THIS 5th day of May, 2004.

Signatures

An agent of the Texas State Board of Pharmacy has inspected your pharmacy. The results of this inspection have been noted.

- Items designated as "Refer to Legal" must be rectified immediately. In addition, the matter discovered during the inspection and deemed to be a serious violation by the inspector will be referred to the Legal Division for review and possible disciplinary action; and
- Items designated as "Warning Notice" must be corrected by the deadline noted to ensure compliance with the laws and rules governing the practice of pharmacy (Note: A "Warning Notice" is issued for a minor violation, and does not equate to disciplinary action).

Statement of Responsibility

1. I am the Senior Vice President & Secretary (title) for HealthDyne Specialty Colorado, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Phillip P. Bisesi hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Senior Vice President & Secretary (title) for HealthDyne Specialty Colorado, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		✓
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

Section 9: Statement of Responsibility - MUST BE COMPLETED by an Authorized Person (NAC 639.945)

Statement of Responsibility

1. I am the SVP & Secretary (title) for HealthDyne Pharmacy CO, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Phillip P. Bisesi hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the SVP & Secretary (title) for HealthDyne Pharmacy CO, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

Form DEA-223 (9/2016)

LIMITED LIABILITY COMPANY OPERATING AGREEMENT
OF
HEALTHDYNE PHARMACY CO, LLC

This LIMITED LIABILITY COMPANY OPERATING AGREEMENT (this "Agreement") of HealthDyne Pharmacy CO, LLC, a Florida limited liability company (the "Company"), is effective as of November 5, 2024, by and between the Company and WellDyneRx, LLC, a Florida limited liability company (the "Member"), as the sole member of the Company.

W I T N E S E T H:

WHEREAS, the Company was formed as a Florida limited liability company when the Articles of Organization of the Company (the "Articles of Organization") became effective upon filing with the Florida Department of State, Division of Corporations (the "DOC") pursuant to and in accordance with the Florida Revised Limited Liability Company Act, as amended (the "LLC Act"); and

WHEREAS, the Member desires that the Company operate as a Florida limited liability company upon the terms and conditions hereinafter set forth.

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt, adequacy and sufficiency of which is hereby acknowledged, the parties agree as follows:

ARTICLE I.
DEFINED TERMS; EXHIBITS, SCHEDULES, ETC.

1.1 DefinitionsAs used in this Agreement, the following terms shall have the meanings indicated below:

"Capital Contribution" means, with respect to the Member, the amount of money or property contributed to the Company by the Member from time to time.

"Membership Interest" means the Member's entire interest in the Company, which shall entitle the Member to (i) an interest in the profits, losses, distributable cash, and net proceeds of liquidation of the Company, as set forth herein; (ii) any right to vote as set forth herein or as required under the LLC Act; and (iii) any right to participate in the management of the Company as set forth herein or as required under the LLC Act. A Membership Interest is personal property and the Member shall have no interest in the specific assets or property of the Company.

"Membership Percentage" means, with respect to the Member, the Member's percentage ownership interest in the Company set forth on **Exhibit A** attached hereto, as the same may be amended from time to time to reflect the relative Capital Contribution of the Member.

"Person" means any individual, corporation, general partnership, limited partnership, limited liability company, joint venture, trust, business trust, cooperative, association or other legal entity.

1.2 ReferencesReferences to an "Exhibit" are, unless otherwise specified, to one of the exhibits attached to this Agreement, and references to an "Article" or a "Section" are, unless otherwise specified, to one of the articles or sections of this Agreement.

ARTICLE II.
ORGANIZATIONAL MATTERS

2.1 Formation of CompanyPursuant to the Articles of Organization duly filed with the DOC on November 5, 2024, the Company has been formed as a limited liability company for the purposes and upon the terms and conditions hereinafter set forth. Except as provided herein, the rights, duties and liabilities of the Member of the Company shall be as provided in the LLC Act.

2.2 NameThe name of the Company is HealthDyne Pharmacy CO, LLC, or such other name as may be selected from time to time by the Member.

2.3 PurposeThe purpose and business of the Company is to engage in any lawful business or activity permitted by the LLC Act.

2.4 TermThe term of the Company commenced on November 5, 2024 and shall continue perpetually unless earlier terminated pursuant to Section 10.1 hereof.

2.5 Principal OfficeThe location of the Company's principal office is 500 Eagles Landing Drive, Lakeland, Florida 33810 as selected by the Member. The Company may conduct business at such additional places as the Member shall deem advisable.

2.6 Registered Agent and Registered OfficeThe initial registered agent of the Company for service of process in the State of Florida and the registered office of the Company in the State of Florida shall be that person and location reflected in the Articles of Organization or such other person and location as the Member may determine from time to time. In the event the registered agent or registered office shall change, the Member shall promptly notify the DOC of such change in any manner allowed by the LLC Act.

2.7 Fiscal YearThe fiscal year of the Company shall commence on January 1 and end on December 31 of each year or such other date as the Member may select in its discretion from time to time.

ARTICLE III.
CAPITAL CONTRIBUTIONS; ETC.

3.1 Capital ContributionsThe Member shall be deemed for purposes of this Agreement to have contributed to the capital of the Company the consideration set forth opposite the Member's name on **Exhibit A** attached hereto. The Member shall not be obligated to make any additional Capital Contributions to the Company.

3.2 Withdrawal; Return of CapitalExcept as specifically provided herein, the Member shall not be entitled to any distributions from the Company or to withdraw any part of the Member's Capital Contribution prior to the Company's dissolution and liquidation or, when such withdrawal of

capital is permitted, to demand distribution of property other than money. The Member shall not be entitled to interest on its Capital Contribution.

3.3 No Appraisal RightsThe Member shall not have any appraisal rights under the LLC Act.

ARTICLE IV.
DISTRIBUTIONS AND ALLOCATIONS

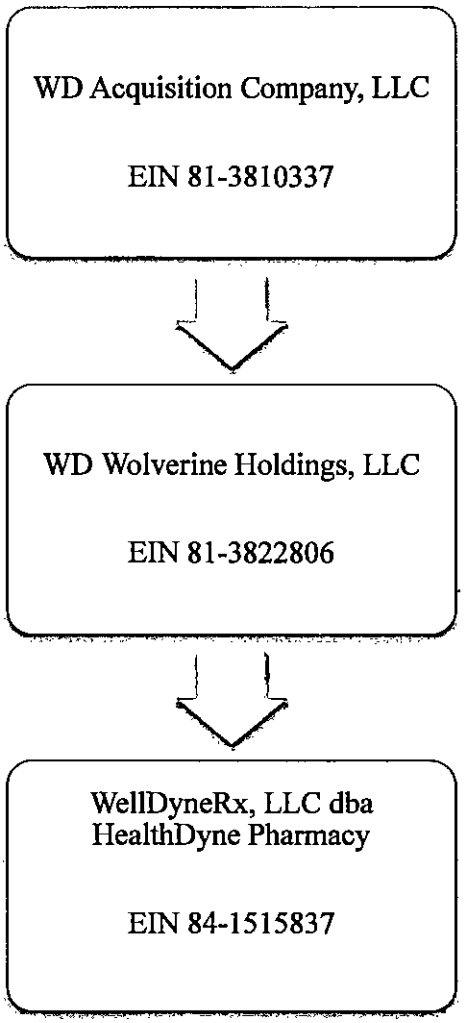
4.1 DistributionsThe timing and amount of distributions shall be determined by the Member.

4.2 AllocationsThe profits and losses of the Company shall be allocated to the Member.

ARTICLE V.
ACCOUNTING AND ADMINISTRATIVE MATTERS

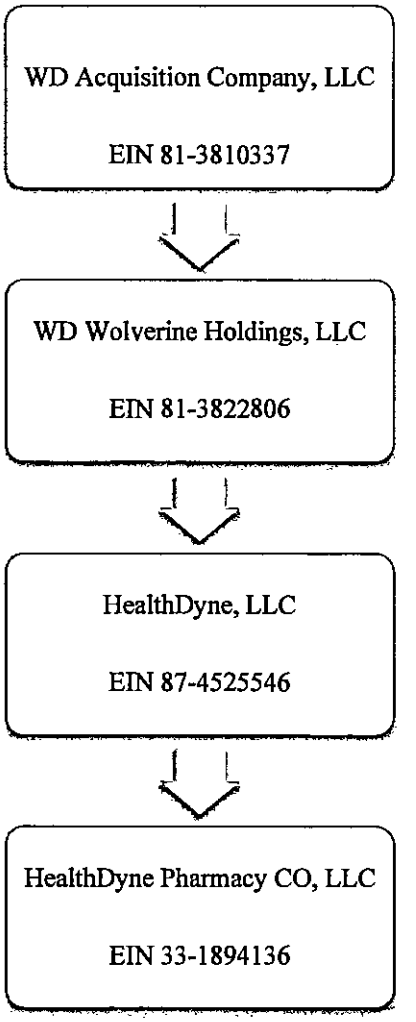
5.1 Books and RecordsThe Company will maintain true, complete and correct books of account of the Company, all in accordance with generally accepted accounting principles applied on a consistent basis. The books of account shall contain particulars of all monies, goods or effects belonging to or owing to or by the Company, or paid, received, sold or purchased by the Company, and all of such other transactions, matters and things relating to the business of the Company as are usually entered in books of accounts kept by Persons engaged in a business of a like kind and character or as otherwise required pursuant to the LLC Act.

ARTICLE VI.
MANAGEMENT OF COMPANY



6.1 Member-ManagedExcept as specifically provided herein, the management and control of the Company shall be vested exclusively in the Member. The Member shall have the authority to appoint and remove, with or without cause, and replace, officers and assign to them such duties and provide them with such authority as it deems appropriate.

ARTICLE VII.
OFFICERS



7.1 Officers: Election and Term of OfficeThe Member may (but shall not be obligated to), at any time or from time to time, designate officers of the Company (each, an "Officer"), including a Chief Executive Officer, a President or another senior officer, e.g., a Chief Operating Officer, one or more Vice Presidents, a Secretary, one or more Assistant Secretaries and a Treasurer. Vacancies may be filled or new offices may be created and filled by the Member. Each Officer shall hold office until the earlier of his or her resignation or removal, or until his or her successor shall have been duly appointed and qualified in accordance herewith. Each Officer shall perform such duties as specified in this Agreement or as may be prescribed from time to time by the Member. An individual may serve as an Officer in more than one office. The Officers of the Company are as set forth on **Exhibit B** attached hereto.

7.2 Officers: General Rights and DutiesSubject to the authority of the Member as provided in Article VI hereof, the Officers are hereby directed and authorized (which direction and authorization is revocable at any time by the Member), on behalf of and in the name of the

Pre-Close

Post-Close

Company, to implement all decisions approved by the Member and to conduct the following functions of the Company consistent with action taken by the Member:

(a) operate the day-to-day business of the Company in the ordinary course;

(b) protect and preserve the titles and interests of the Company with respect to the assets owned by or dedicated to the Company;

(c) keep all books of account and other records of the Company, in accordance with the terms of this Agreement and applicable law;

(d) carry out the responsibilities of the Company under the leasing, financing, partnership, management, operating and other contractual agreements to which it is a party;

(e) prepare and file (or cause to be prepared and filed) all necessary reports, statements, tax returns and other documents with local, state, federal, provincial, territorial, or foreign agencies or departments in connection with the business of the Company;

(f) procure and maintain insurance;

(g) employ, retain and enter into business relationships, on behalf of the Company, which are necessary or appropriate to carry out the business of the Company as shall be designated by the Member; and

(h) distribute the cash of the Company as provided in Article IV hereof and as directed by the Member.

7.3 Officers: Description of OfficesThe Officers shall have the duties and powers as set forth below:

(a) Chief Executive Officer. The Chief Executive Officer shall be the principal executive officer of the company and shall be responsible for the general care, supervision, control and direction of the business and the officers of the Company, subject only to the power and authority of the Member. The Chief Executive Officer may sign with or without the Secretary, or any other proper Officer of the Company thereunto authorized by the Member, any deeds, mortgages, bonds, contracts, or other instruments that the Member has authorized to be executed, except in cases where the signing and execution thereof shall be expressly delegated by the Member to some other Officer or agent of the Company, or shall be required by law to be otherwise signed or executed, and in general shall perform all duties incident to the office of Chief Executive Officer and such other duties as may be prescribed by the Member from time to time.

(b) President. The President shall be the principal executive officer of the company and shall be responsible for the general care, supervision, control and direction of the business of the Company, unless some other officer has been elected Chief Executive Officer of the Company. The President may sign with or without the Secretary, or any other proper Officer of the Company thereunto authorized by the Member, any deeds, mortgages, bonds, contracts, or other instruments that the Member has authorized to be

executed, except in cases where the signing and execution thereof shall be expressly delegated by the Member to some other Officer or agent of the Company, or shall be required by law to be otherwise signed or executed, and in general shall perform all duties incident to the office of President and such other duties as may be prescribed by the Member or the Chief Executive Officer from time to time.

(c) Vice Presidents. The Vice Presidents may assume and perform the duties of the President in the absence or disability of the President or whenever the office of President is vacant. The Vice Presidents shall perform other duties commonly incident to their office and shall also perform such other duties and have such other powers as the Member, the Chief Executive Officer or the President shall designate from time to time.

(d) Secretary. The Secretary shall: (i) keep and be the custodian of the books and records of the Company; (ii) see that all notices are duly given in accordance with the provisions of this Agreement or as required by the LLC Act or other applicable law; (iii) keep a register of the address of each Member, which shall be furnished to the Company by such Member; and (iv) in general perform all duties incident to the office of Secretary and such other duties as may be prescribed by the Member, the Chief Executive Officer or the President from time to time.

(e) Assistant Secretaries. The Assistant Secretaries may assume and perform the duties of the Secretary in the absence or disability of the Secretary or whenever the office of the Secretary is vacant. The Assistant Secretaries shall also perform such other duties and have such other powers as the Member, the Chief Executive Officer or the President shall designate from time to time.

(f) Treasurer. The Treasurer shall: (i) have charge and custody of and be responsible for all funds and securities of the Company; (ii) receive and give receipts of moneys due and payable to the Company from any source whatsoever, and deposit all such moneys not otherwise employed in the name of the Company in such bank, savings and loan association, trust company or other depositories as shall be selected by the Member; and (iii) in general perform all the duties incident to the office of Treasurer and such other duties as may be prescribed by the Member, the Chief Executive Officer or the President from time to time. If required by the Member, the Treasurer shall give a bond for the faithful discharge of the Treasurer's duties in such sum and with such surety or sureties as the Member shall determine.

7.4 CompensationThe Officers of the Company shall receive such compensation, if any, as may be fixed from time to time by the Member. No Officer shall be prevented from receiving such compensation by reason of the fact that such Officer is also an officer of the Member.

7.5 ResignationsAny Officer may resign at any time by giving notice to the Member. A resignation of an Officer need not be accepted in order to be effective.

7.6 RemovalAny Officer may be removed, with or without cause, by the Member.

7.7 VacanciesA vacancy in any office may be filled by the Member.

ARTICLE VIII.
LIMITATION ON LIABILITY AND INDEMNIFICATION

8.1 Limitation on LiabilityExcept as otherwise required by the LLC Act, the debts, obligations and liabilities of the Company, whether arising in contract, tort or otherwise, shall be solely the debts, obligations and liabilities of the Company, and no Indemnified Person (as defined below) shall be obligated for any such debt, obligation or liability of the Company solely by reason of being a Member or officer, director, manager, partner, principal, equity holder, employee, or affiliate of a Member or the Company. The failure of the Company to observe any formalities or requirements relating to the exercise of its powers or the management of its business or affairs under this Agreement or the LLC Act shall not be grounds for imposing personal liability on the Member or Officers for any debts, liabilities, or obligations of the Company. Except as otherwise expressly required by law, the Member, in such Member's capacity as such, shall have no liability in excess of (a) the amount of such Member's net Capital Contributions, (b) such Member's share of any assets and undistributed profits of the Company, and (c) the amount of any distributions required to be returned under Florida Statutes, §605.0406. Except as otherwise expressly required by law, no Officer, in such Officer's capacity as such, shall have liability in excess of the amount of any distributions required to be returned under Florida Statutes, §605.0406.

8.2 Indemnification and ContributionNeither the Member nor any officer, director, manager, partner, principal, equity holder, employee or affiliate of the Member or the Company (each, an "Indemnified Person"), as the case may be, shall be liable, responsible or accountable, whether directly or indirectly, in contract or tort or otherwise, to the Company or to the Member (or to any affiliate thereof), as applicable, for any losses, claims, damages, liabilities or expenses, including but not limited to, reasonable attorneys' fees (collectively, "Damages"), asserted against, suffered or incurred by the Company or by the Member (or by any affiliate thereof) arising out of, relating to or in connection with any action taken or omitted by the Indemnified Person within the scope of the authority conferred upon such Indemnified Person by this Agreement or the LLC Act, provided that such Indemnified Person shall have acted in good faith and in the belief that such act or omission was in the best interests of the Company and, provided further, that such Indemnified Person shall not have engaged in fraud, willful misconduct or gross negligence. The Company shall, and hereby does, indemnify and hold harmless and agrees to defend each Indemnified Person from and against any Damages asserted by any Person (whether against the Company, the Member or such Indemnified Person) or otherwise incurred by such Indemnified Person by reason of any act performed by such Indemnified Person in accordance with the standards set forth in this Section 8.2 or in enforcing the provisions of the indemnities contained in this Section 8.2. Notwithstanding anything to the contrary contained in this Agreement, the Member shall have no personal liability with respect to the indemnities set forth in this Section 8.2, and any such indemnities shall be satisfied solely out of the assets of the Company.

8.3 Payment of Expenses in AdvanceExpenses incurred in defending a civil or criminal action, suit or proceeding shall be paid out of Company funds in advance of the final disposition of such

action, suit or proceeding upon receipt of an undertaking by the Indemnified Person to repay such amount unless it shall ultimately be determined that it is entitled to be indemnified by the Company.

8.4 Provisions Not ExclusiveThe exculpation of liability and indemnification provided by this Article VIII shall not be deemed exclusive of any other limitation on liability or rights to which those seeking indemnification may be entitled under any statute, agreement, Member vote or otherwise.

ARTICLE IX.
TRANSFER OF MEMBERSHIP INTERESTS

9.1 No Restriction on TransferThe Member may assign, sell, pledge, encumber, give or otherwise transfer, dispose of or alienate ("Transfer") all or any portion of its Membership Interest as allowable by the LLC Act and applicable law.

9.2 Admission of New Member.

(a) Upon a Transfer or other event resulting in more than one Member of the Company, this Agreement shall be amended to reflect such multiple Members' respective rights, interests and obligations.

(b) Any transferee, assignee, designee, pledgee or legal representative (each a "Transferee") of the Member, pursuant to a Transfer permitted under this Agreement, shall execute and deliver such other instruments and documents necessary to cause the Transferee to become a Member, and pay all reasonable expenses in connection with such Transferee's admission as a Member, including, but not limited to, the cost of preparation and filing of any amendment of this Agreement.

(c) A Transferee who is admitted as a Member pursuant to this Section 9.2 shall have, to the extent transferred, the rights and powers, and shall be subject to the restrictions and liabilities, of the Member under this Agreement, as amended, and the LLC Act.

(d) In the event the Member makes any Transfer, the Member agrees to provide (and to cause the Transferee to provide) to the Company such information regarding the consideration or transfer price of such Membership Interests, and any other information that the Company may reasonably request to permit the Company to prepare financial statements and tax returns in a timely manner.

9.3 Terms of Admission of New Member; Creation of Preferred or Special InterestsThe Member shall have the right to admit new Members in exchange for property, cash or services on such terms as the Member may determine, and in connection therewith the Member may create series or classes or groups of Members (including the existing Member) having such relative rights, powers and duties as the Member may from time to time establish, including rights, powers and duties senior to the existing Member and may amend **Exhibit A** hereto to reflect changes in Membership Percentages in exchange for any such property, cash or services or resulting from the redemption of Membership Interests.

ARTICLE X.
DISSOLUTION AND TERMINATION

10.1 Dissolution.The Company shall continue in perpetuity unless earlier dissolved upon the first to occur of the following:

(a) the execution by the Member of a written instrument of dissolution;

(b) the entry of a decree of judicial dissolution of the Company under Section 605.0705 of the LLC Act; or

(c) the sale or other disposition of all or substantially all of the Company's assets.

10.2 Liquidating DistributionIn the event of the dissolution of the Company for any reason, the assets of the Company shall be liquidated for distribution in the following rank and order:

(a) first, to the payment and discharge of all the debts and liabilities in the order of priority as provided by the LLC Act;

(b) second, to the establishment of any necessary reserves to provide for contingent liabilities, if any; and

(c) third, to the Member.

10.3 Liquidating Trustee.Upon the dissolution of the Company, the affairs of the Company shall be wound up and terminated and its assets shall be distributed exclusively by the Person as is selected at the time of dissolution by the Member (the "Liquidating Trustee"). The Liquidating Trustee shall be empowered to give and receive notices, reports and payments in connection with the dissolution, liquidation and/or winding-up of the Company and shall hold and exercise such other rights and powers as are necessary or required to permit all parties to deal with the Liquidating Trustee in connection with the dissolution, liquidation, and/or winding-up of the Company and to effectuate the termination of the Company. Upon the dissolution of the Company and/or the winding up of the Company, the Member shall file a statement of termination with the DOC in accordance with the LLC Act.

ARTICLE XI.
MISCELLANEOUS

11.1 AmendmentThis Agreement may be modified or amended at any time by the written approval of the Member.

11.2 Further AssurancesThe Member agrees to execute, acknowledge, deliver, file, record and publish such further certificates, instruments and documents, and do such other acts and things as may be required by law or to carry out the intent and purposes of this Agreement.

11.3 NoticesAny and all notices or other communications provided for herein shall be in writing and shall be considered duly given upon the earliest to occur of (a) personal delivery, (b) two (2)

days after being delivered to a nationally recognized overnight courier or service, (c) three (3) days after being mailed by registered or certified mail, return receipt requested, postage prepaid or (d) the delivering party's receipt of a written confirmation of an electronic transmission. All notices shall be addressed to the Company at its principal office and to the Member at its address contained on the books of the Company. Either party may change its address by giving notice to the other party as provided herein.

11.4 Governing LawThis Agreement shall be construed and enforced in accordance with and governed by the laws of the State of Florida, without regard to the principles of conflicts of law. In the event of a conflict between any provision of this Agreement and any non-mandatory provision of the LLC Act, the provisions of this Agreement shall control and take precedence.

11.5 Captions; PronounsAll articles and section headings or captions contained in this Agreement are inserted only as a matter of convenience and for reference and in no way define, limit, extend or describe the scope of this Agreement or the intent of any provision hereof. As used herein, all pronouns shall include the masculine, feminine, neuter, singular and plural thereof wherever the context and facts require such construction.

11.6 Successor and AssignsThis Agreement shall be binding upon the parties hereto and their respective executors, administrators, legal representatives, heirs, successors and assigns, and shall inure to the benefit of the parties hereto, and, except as otherwise herein expressly provided, their respective executors, administrators, legal representatives, successors and assigns.

11.7 SeverabilityIf any provision of this Agreement or application to any party or circumstances shall be determined by any court of competent jurisdiction to be invalid or unenforceable to any extent, the remainder of this Agreement or the application of such provision to any other party or circumstances shall not be affected thereby, and each provision shall be valid and shall be enforced to the fullest extent permitted by law.

11.8 Entire AgreementThis Agreement, including any exhibits and schedules thereto, contains the entire understanding and agreement of the parties hereto relating to the subject matter and supersedes all prior agreements relative hereto which are not contained herein.

11.9 CounterpartsThis Agreement may be executed in one or more counterparts, each of which shall be deemed an original, and all of which, when taken together, shall be deemed one agreement.

Signature page follows.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be duly executed as of the date first above written.

Section 9: Statement of Responsibility - MUST BE COMPLETED by an Authorized Person (NAC 639.945)

Statement of Responsibility

1. I am the Senior Vice President & Secretary (title) for HealthDyne Specialty Florida, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Phillip P. Bisesi hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Senior Vice President & Secretary (title) for HealthDyne Specialty Florida, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

Statement of Responsibility

1. I am the CEO & PRESIDENT (title) for LEMED SPECIALTY PHARMACY ARIZONA LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, SHALEEN PATEL hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the CEO & PRESIDNET (title) for LEMED SPECIALTY PHARMACY ARIZONA (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

Provide explanation below:

This case arose out of my employment with Foothills Pharmacy, which ended On November 22, 2018. At that time, I submitted the employment change and notified Kansas of my role as incoming PIC (Form LA-50) with my new employer, [redacted] The Kansas Board of Pharmacy received these notifications. However, Foothills Pharmacy and I did not complete the form (BA-50) stating I was departing as PIC. I was incorrect that notification of my role as incoming PIC to my new employer via Form LA-50 sufficed as notification that I was departing my role as PIC at Foothills Pharmacy. Upon notification by the Kansas Board of Pharmacy I promptly remitted the $200 payment for the fine.

I regret this oversight and am committed to following all state and federal licensing rules and regulations. As always, should you have any questions, please do not hesitate to contact me at Melissa.Ann9@me.com.

RE: Letter of Explanation for Kansas Summary Order, Case No. 19-030

Dear Sir or Madam:

The purpose of this letter explains the facts surrounding the Summary Order signed on January 30, 2019 for the above-referenced case number.

This case arose out of my employment with [redacted] which ended On November 22, 2018. At that time, I submitted the employment change and notified Kansas of my role as incoming PIC (Form LA-50) with my new employer, [redacted] The Kansas Board of Pharmacy received these notifications. However, Foothills Pharmacy and I did not complete the form (BA-50) stating I was departing as PIC. I was incorrect that notification of my role as incoming PIC to my new employer via Form LA-50 sufficed as notification that I was departing my role as PIC at Foothills Pharmacy. Upon notification by the Kansas Board of Pharmacy I promptly remitted the $200 payment for the fine.

I regret this oversight and am committed to following all state and federal licensing rules and regulations. As always, should you have any questions, please do not hesitate to contact me at Melissa.Ann9@me.com.

Kind Regards,

[redacted]

Melissa Duchscherer, PharmD

BEFORE THE KANSAS BOARD OF PHARMACY

JAN 30 2019

BOARD OF PHARMACY

In the Matter of	)	
	)	Case No. 19-030
Melissa Duchscherer	)	
	)	
Registration No. 1-106903	)	

SUMMARY ORDER

NOW on this 30 day of January, 2019 comes before the Kansas Board of Pharmacy (the "Board"), through its Executive Secretary, the matter of Melissa Duchscherer (1-106903) ("Respondent").

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq.*, and in accordance with the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq.*, the Board's Executive Secretary enters this Summary Order in the above-captioned matter. After reviewing the investigation materials and being otherwise duly advised in the premises, makes the following findings, conclusions and order:

FINDINGS OF FACT

1. The Board has previously issued Respondent Registration No. 1-106903 which entitles Respondent to practice as a pharmacist in the State of Kansas ("Respondent's Registration").

2. On November 22, 2018, Respondent resigned as Pharmacist-in-Charge ("PIC") from Foothills Professional Pharmacy, LTD, effective immediately.

3. On January 17, 2019, the Board received a Change in PIC Form BA-50, notifying of the resignation of Respondent as PIC, effective November 22, 2018.

4. Respondent had not signed the BA-50 received by the Board.

5. To date, the Board has not received any notification from Respondent regarding her resignation as PIC from Foothills Professional Pharmacy, LTD.

CONCLUSIONS OF LAW

6. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

7. Pursuant to K.A.R. 68-2-5, each pharmacist shall notify the board in writing within five days of ceasing to serve as the pharmacist-in-charge at a pharmacy or registrant required to have a pharmacist-in-charge. The notice shall include the pharmacist's name, the name and address of the pharmacy or registrant, and the date the pharmacist ceased to serve as the pharmacist-in-charge.

8. Respondent had five days to notify the Board of her resignation as PIC effective November 22, 2018, or until November 27, 2018.

9. Respondent failed to notify the Board of her resignation as PIC.

10. Respondent violated K.A.R. 68-2-5 when she failed to notify the Board of her resignation as PIC within five days.

ORDER

Based upon the foregoing findings of fact and conclusions of law, Respondent is ordered to pay a fine to the Board. A violation of K.A.R. 68-2-5 warrants a base fine of $5.00 per day that Respondent is in violation of the regulation, not to exceed $200.00. Because Respondent has not notified the Board of her resignation as PIC to date, the total fine is $200.00. Respondent has 30 days from the date of this order to pay the full $200.00.

NOTICES

The Respondent is hereby notified as follows:

1. The Respondent may request a hearing pursuant to the Kansas Administrative Procedure Act by filing a written request with the Kansas Board of Pharmacy, 800 SW Jackson, Suite 1414, Topeka, KS 66612-1231 within fifteen (15) days after service of this order.

2. If a hearing is not requested as described above, the Order shall become a final order of the Board, effective upon the expiration of the time to request a hearing.

3. Within fifteen (15) days after entry of a final agency order, either party may file a petition for reconsideration pursuant to K.S.A. 77-529.

4. Within the time limits established in K.S.A. 77-613, either party may seek judicial review of a final agency order, pursuant to said statute. The agency officer designated to receive service of a petition for judicial review is:

Alexandra Blasi
Executive Secretary
Kansas Board of Pharmacy
800 SW Jackson, Suite 1414
Topeka, KS 66612

IT IS SO ORDERED.

1/30/19
Date

Alexandra Blasi, JD, MBA
Executive Secretary
Kansas Board of Pharmacy

CERTIFICATE OF SERVICE

I hereby certify that I did, on the 30 day of January, 2019 deposit in the United States Mail, postage prepaid, a copy of the foregoing Summary Order, properly addressed to the following:

Melissa Duchscherer
[redacted]

and the original hand delivered to:

Alexandra Blasi

GENERIC NAME: General Monograph
Brand Name:
IDENTIFICATION:
IMPORTANT NOTE: This generalized information is a limited summary of diagnosis, treatment, and/or medication information. It is not meant to be comprehensive and should be used as a tool to help the user understand and/or assess potential diagnostic and treatment options. It does NOT include all information about conditions, treatments, medications, side effects, or risks that may apply to a specific patient. It is not intended to be medical advice or a substitute for the medical advice, diagnosis, or treatment of a health car provider based on the health care provider's examination and assessment of a patient's specific and unique circumstances. Patients must speak with a health care provider for complete information about their health, medical questions, and treatment options, including any risks or benefits regarding use of medications. This information does not endorse any treatments or medications as safe, effective, or approved for treating a specific patient. UpToDate, Inc. and its affiliates disclaim any warranty or liability relating to this information the use thereof. The use of this information is governed by the Terms of Use, available at https://www.wolterskluwer.com/en/know/clinical-effectiveness-terms.
What is this drug used for?: - It is used to treat or prevent health problems as decided by your doctor. Ta with the doctor.
How is this drug best taken?: Use this drug as ordered by your doctor. Read all information given to you. Follow all instructions closely.

- Talk with your doctor or pharmacist if you have questions about how to use this drug.
What do I do if I miss a dose?

- Take a missed dose as soon as you think about it.
- If it is close to the time for your next dose, skip the missed dose and go back to your normal time.
- Do not take 2 doses at the same time or extra doses.
What are some other side effects of this drug?: All drugs may cause side effects. However, many peopl have no side effects or only have minor side effects. Call your doctor or get medical help if any of these side effects or any other side effects bother you or do not go away:
These are not all of the side effects that may occur. If you have questions about side effects, call your docto Call your doctor for medical advice about side effects.
You may report side effects to the FDA at 1-800-332-1088. You may also report side effects at https://www.fda.gov/medwatch.
What are some things I need to know or do while I take this drug?: - Tell all of your health care provide that you take this drug. This includes your doctors, nurses, pharmacists, and dentists.
- Tell your doctor if you are pregnant or plan on getting pregnant. You will need to talk about the benefits an risks of using this drug while you are pregnant.
- Tell your doctor if you are breast-feeding. You will need to talk about any risks to your baby.
DRUG INTERACTIONS:
If OVERDOSE is suspected: If you think there has been an overdose, call your poison control center or ge medical care right away. Be ready to tell or show what was taken, how much, and when it happened.
Consumer Information Use and Disclaimer: - If your symptoms or health problems do not get better or if they become worse, call your doctor.
- Do not share your drugs with others and do not take anyone else's drugs.
- Some drugs may have another patient information leaflet. Check with your pharmacist. If you have any questions about this drug, please talk with your doctor, nurse, pharmacist, or other health care provider.
- If you think there has been an overdose, call your poison control center or get medical care right away. Be ready to tell or show what was taken, how much, and when it happened.
How do I store and/or throw out this drug?: - Store this drug as it says on the label or as you have been

METFORMIN HCL 625MG TABS

told by your doctor or pharmacist.
- Keep all drugs in a safe place. Keep all drugs out of the reach of children and pets.
- Throw away unused or expired drugs. Do not flush down a toilet or pour down a drain unless you are told to do so. Check with your pharmacist if you have questions about the best way to throw out drugs. There may be drug take-back programs in your area.

Pharmacy Technicians Training Guideline

1. Purpose

The purpose of this guideline is to establish standardized training procedures for our Pharmacy Technicians to ensure they possess the necessary skills, knowledge, and competencies to perform their duties safely and effectively.

2. Scope

The operating guideline applies to all pharmacy technician and pharmacy technician trainees employed by LeMed Specialty Pharmacy.

3. Policy Statement

LeMed Specialty Pharmacy is committed to providing comprehensive training for pharmacy technician's to ensure high standards of practice and compliance with regulatory requirements. All pharmacy technician's must complete the required training program before performing their duties independently.

4. Training Objectives

- Ensure pharmacy technicians understand and comply with all relevant laws, regulations, and standards.
- Equip pharmacy technicians with the skills necessary for accurate prescription processing, medication dispensing, and patient interaction.
- Promote patient safety through thorough training in pharmacy operations and protocols.
- Foster continuous professional development and competency.

5. Training Components

The training program for pharmacy technicians consists of the following components:

5.1. Orientation

- Introduction to LeMed Specialty Pharmacy, its mission, vision, and values.
- Overview of pharmacy layout, workflow, and staff roles.
- Review of employee handbook, including policies on attendance, dress code, and confidentiality.

5.2. Regulatory Compliance and Ethics

- Training on federal and state pharmacy laws and regulations.
- HIPAA (Health Insurance Portability and Accountability Act) training.
- Review of LeMed Specialty Pharmacy's code of ethics and professional conduct.
- Accreditation training

5.3. Prescription Processing

- Instruction on receiving and interpreting prescriptions.
- Data entry procedures in the pharmacy management system.
- Verification of patient information and insurance processing.
- Overview of common drug interactions and contraindications.

5.4. Medication Dispensing

- Techniques for accurate counting and measuring.
- Labeling and packaging of medications.
- Understanding of medication storage requirements and inventory management.

5.5. Patient Interaction

- Effective communication skills for interacting with patients and healthcare providers.
- Procedures to effectively offer pharmacist medication counseling and education.
- Handling patient inquiries and resolving issues.

5.6. Safety and Quality Assurance

- Medication error prevention strategies.
- Reporting and documenting up medication errors and adverse reactions to the pharmacist
- Procedures for maintaining a clean and safe work environment.
- Regular quality checks and audits.

5.7. Continuing Education

- Encouragement of ongoing education through workshops, seminars, and online courses.
- Maintenance of certification through accredited programs (e.g., PTCB).
- Participation in regular staff meetings and training updates.

6. Training Timeline

- **Orientation:** First week or two of employment.
- **Regulatory Compliance and Ethics:** Completed within the first week.
- **Prescription Processing:** Ongoing, with initial competency achieved within three months.
- **Medication Dispensing:** Ongoing, with initial competency achieved within three months.
- **Patient Interaction:** Initial training within the first month, ongoing development.
- **Safety and Quality Assurance:** Integrated throughout the training period, with specific modules completed within three months.
- **Continuing Education:** Encouraged throughout employment, with mandatory updates as required by certification bodies.

7. Training Evaluation and Competency Assessment

- Regular assessments through verbal discussions, practical demonstrations, and peer reviews.
- Monthly progress reviews with the supervising pharmacist.
- Final competency evaluation at the end of the training period.
- Ongoing performance evaluations and feedback sessions.

8. Documentation and Record-Keeping

- Maintain detailed training records for each pharmacy technician.
- Document completion of all training modules, assessments, and evaluations.
- Ensure records are kept confidential and secure, in compliance with regulatory requirements.

9. Review and Updates

- These guidelines will be reviewed and updated as necessary to ensure compliance with new regulations and best practices.
- Feedback from pharmacy technicians and supervisors will be considered in policy updates.

10. Approval and Implementation

This guideline is approved by LeMed Specialty Pharmacy's management and will be implemented by the pharmacy manager. All pharmacy technicians are required to adhere to this training guideline.

11. Attestation

By signing below, I acknowledge that I have received, read, and understood the Pharmacy Technician Training Guidelines. I agree to adhere to these policies and procedures and understand that failure to comply may result in disciplinary action, up to and including termination. I acknowledge receipt of the respective State Boad of Pharmacy Law manual.

Trainer/Pharmacy Manager:

Name: _____

Signature: _____

Date: _____

Policy Number: 2	Policy Name: Human Resources	Approval Authority: The Quality Management Committee (QMC)
Effective Date: 9/6/16	Previous Review Dates: 9/6/16, 7/26/17, 8/30/18, 7/26/19, 7/22/20,7/22/21, 5/23/22, 5/25/22, 5/26/22, 5/31/22, 6/24/22, 07/15/23	Last Revision Date: 6/21/16, 7/26/17, 8/30/18, 7/16/19, 7/22/20, 1/4/21,7/22/21, 5/23/22, 5/25/22, 5/26/22, 5/31/22, 6/20/22, 6/24/22, 07/15/23
Approval Date: 07/15/23	Notation:	

I. **Scope:** Human resources will apply these principles to all staff hired on a full time, part-time, and contractual basis.

II. **Purpose:** This policy guides the Human Resource staff to apply some basic guidelines in the hiring, orientation and ongoing training of staff and contracted employees. Staff will be assessed periodically in performance appraisals measured against established.

III. **Policy:** LeMed Specialty Pharmacy's Human Resource department will ensure that all staff hired meet qualifications described in job descriptions. Job Descriptions will include job duties and responsibilities, as well as minimum required qualifications, experience, education, license/certifications, and training. Background checks and primary source verifications will be conducted in accordance with job descriptions requirements prior to an employee's hire date. Following a contractual engagement, hired staff will be oriented and receive on-going training.

IV. **Definitions**

A. **Certification:** A professional credential, granted by a national organization, signifying that an individual has met the qualifications established by that organization. To qualify under these standards, the certification program must:
   1. Establish standards through a recognized, validated program;
   2. Be research-based; and
   3. Be based (at least partially) on passing an examination.

B. **Clinical Staff:** Employees or contracted consultants of the health care organization who are clinically qualified to perform clinical triage and provide health information services.

C. **Contractor:** A business entity that performs delegated functions on behalf of the Organization. For the purposes of these standards, the term "contractor" includes;

D. **Only those contractors that perform functions related to the key processes of the Organization.** It is not URAC's intent to include contractors that provide services unrelated to key processes. For example, a contractor that provides catering services would not fall within the definition of "contractor" in these standards. Conversely, a company that provides specialty physician reviewers to a UM organization would clearly fall within the definition of "contractor."

E. **Non-Clinical Staff:** Employees or contracted consultants of a healthcare organization who do not perform clinical assessments or provide callers with clinical advice. They may be responsible for obtaining demographic information, providing benefit information, and redirecting callers.

F. **Primary Source Verification** ("PSV"): Verification of a practitioner's credentials based upon evidence obtained from the issuing source of the credential. Also known as "Primary Source."

G. **Staff:** The Organization's employees, including full-time employees, part-time employees, consultants, and temporary staff.

V. Procedures

A. Job Descriptions/Qualifications

1. Human resources will develop job descriptions for all full-time, part-time consultants and temporary employees. Consulting or temporary contributors will have their duties and qualifications outlined either in a job description or in the contract's service of work (SOW).
2. The Supervising Pharmacist will participate in the hire of clinical staff either through the interview process or the development of the clinical staff's job description(s). This participation oversees the process of hiring qualified clinical staff.
3. All current and active job descriptions will be maintained in the employees' personnel file.
4. All job descriptions will include at a minimum:
   a. Current scope of roles and responsibilities
   b. Required education, training and/or professional experience.
   c. Current and unrestricted licenses/certifications (if applicable); and
   d. Expected professional competencies.
5. Potential hires and staff considered for job role changes will submit and update resumes, CVs, bios, and/or job applications to reflect that their qualifications meet the requirements in job descriptions. These documents will be maintained in personnel files.
6. All prospective employees will complete a signed withholding statement and I-9 Form.

B. Verification of Qualifications

1. To ensure qualified staff is hired based on job descriptions, the reviewer requests an updated resume from the candidate and review the resume against the job description. If the reviewer decided to proceed, they will send the job application to the candidate and set up an interview. After the interview is completed, the reviewer contacts the references on the job application.
2. Once an individual has been deemed appropriate for hire, but prior to contracting with the individual, LeMed Specialty Pharmacy's human resources department completes the following checks that includes:
   a. Background checks (Pharmacy only)
   b. Criminal background checks will be performed using a third-party verification service, HireRight, including identification check, criminal record, sex offender
   c. Drug testing/screening by LabCorp for potential hires that will handle pharmaceuticals (not limited to illicit drugs)
3. License/certification verification
   a. Primary source verification (PSV) of licensure, certification and/or registration is performed upon hire prior to the start date and thereafter no less than every three (3) years.
   b. Verification of current licensure or certification, including expiration date, date of verification, and whether there are any sanctions, must be from the body issuing the license or certificate, through one of the following methods:
      i. Electronic (e.g. internet)
      ii. Written verification verified from the issuing source (e.g., document from the issuing entity to LeMed Specialty Pharmacy on source's letterhead or Board or Certification's form); or
      iii. Telephone (documented with the name and signature of the staff person making the call, date of call, and name of the person at the issuing identity to whom the staff person spoke).

4. It is the responsibility of each staff member to notify immediately his/her supervisor of any adverse changes related to licensure and/or certification or if the employee fails to renew the license/certification status. The supervisor will send notice of the issue via email to the Compliance Officer for review to review and determine next steps.
5. Failure to report a change in licensure and/or certification status shall result in disciplinary action up to and including suspension. The supervisor will send notice of the issue via email to the Compliance Officer for review to review and determine next steps with the CEO.
6. Failure to maintain a current and unrestricted license and/or certification shall result in immediate suspension or reassignment to a position not requiring the affected licensure and/or certification until such licensure and/or certification can be verified through primary source. The supervisor will send notice of the issue to the Compliance Officer for review to review and determine next steps with the CEO.

C. Training

1. **New Hire Orientation**
   a. Corporate Orientation

      Corporate-wide orientation is provided by the Compliance Officer prior to staff assuming assigned roles and responsibilities. It is designed to acquaint newly hired employees with various aspects of working within LeMed Specialty Pharmacy including its mission statement, values, organizational structure, privacy and security of information protections, ethics in health care, code of ethical business conduct, compliance, fire and safety procedures, incident and accident reporting procedures, and general policies and procedures necessary for the safe and effective performance of their responsibilities.

   b. Department Level Orientation

      Once corporate training is complete, all staff will complete department level training to learn their specific roles and duties prior to assuming their responsibilities. Staff will receive the most current policies and procedures, guidelines, and workflows for their duties.

   c. Compliance

      Compliance training includes:

      i. Privacy and security of information protections [Confidentiality including HIPAA & HITECH, security rules including administrative, technical, and physical safeguards, privacy rule, and breach notification rule]
      ii. Ethics in health care.
      iii. Health Care Ethics, Business Ethics Standards Policy training which reviews and covers the Code of Conduct. The Code of ethical business conduct addresses:
         1) Conflict of interest;
         2) False claims;
         3) Fraud and abuse; and
         4) Illegal activities.
         5) A requirement to report practitioners that are impaired, incompetent, or unethical;
         6) Prohibition of discrimination based on color, race, national origin, religion, age, sex, genetic information, pregnancy, disability;
         7) Prohibition of harassment, sexual or otherwise;
         8) Professional use of digital media; and

9) Compliance with the LeMed Specialty Pharmacy's legal requirements and code of conduct acknowledgement statement
    a) All staff and members of oversight committees must sign a statement to acknowledge that they:
    b) Have access to a copy of the Code of Conduct;
    c) Have received training on the Code of Conduct;
    d) Understand the consequences for failing to comply with LeMed Specialty Pharmacy's compliance program(s) as set for the in the Code of Conduct, LeMed Specialty Pharmacy's policies and procedures, as well as laws and regulations applicable to LeMed Specialty Pharmacy's business; and
    e) Have access to methods of reporting legal and regulatory breaches and/or violations. As well as nonconformance to the Code of Conduct.

d. Safety Training

   Each staff member must complete safety training which includes OSHA Requirements. Initial review of policies includes additional required safety training.

e. URAC/ACHC Training

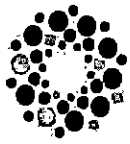
   Each staff member must be trained in the most current version of URAC & ACHC standards applicable to his/her job responsibilities. This occurs upon hire and then ongoing thereafter as changes to the standards or the organization's procedures occur.

f. Employee Handbook/Personnel Policies
    i. Are reviewed annually.
    ii. Are in accordance with applicable laws and regulations.
    iii. Show evidence of non-discriminatory practices
    iv. Include activities and information on:
        1. Wages
        2. Benefits
        3. Complaints and grievances
        4. Recruitment/hiring/retention
        5. Disciplinary action/termination of employment
        6. Professional boundaries
        7. Conflict of interest
        8. Performance expectations and evaluations

2. **Ongoing Training to Maintain Competency in Assigned Roles and Responsibilities**
    a. On-going training is provided as needed and annually when there are changes to policies, laws and regulations, shifts in business functions or strategy or changes in accreditation standards.
    b. Staff must have access to the most current policies and procedures applicable to their duties on an ongoing basis. Staff can find this resource on LeMed's Team SharePoint site.
    c. Ongoing training and annual competency assessment will be completed on staff who set up, train, clean, test, repair and/or educate on the use of medication, equipment, and/or supplies.

3. **Documentation of Training**
   a. The Compliance Officer will track and/or log the training of staff at the time of orientation (on training checklists, attestations, and/or through printed certifications) and for ongoing training. Documentation of training will include, but not be limited to, the topics outlined in section 1 a-e of this policy. Employees are assigned training via email for them to enroll or take classes enrolled for them through Insperity (PEO)'s training portal or through a compliance program (ie: Cardinal Learning Bridge). All documentation will be filed within the individual employee file.

D. Performance Appraisal



1. Annually to the quarter (Q1), each member of the staff will undergo a formal documented performance appraisal.
2. Performance appraisals are based on established expectations in their job description, documentation completed by the staff member, and/or any goals established prior to appraisal.
3. A template is used and is included in Attachment A.

E. Personnel File

1. Each personnel file will include the following:
   a. Evidence of the hire date
   b. Job description
   c. Background check (if applicable)
   d. Licensure/certification verification (PSV: The original and the most current PSV will be maintained in the file.)
   e. Corporate Orientation (on training checklists, attestations, and/or through printed certifications)
   f. Code of ethical business conduct training including: (COI) Conflict of interest, false claims fraud and abuse, illegal activities
   g. Acknowledgement Statement for training in the Code of Conduct
   h. Training in privacy and security of information protections (on training checklists, attestations, and/or through printed certifications)
   i. Training in ethics in healthcare (on training checklists, attestations, and/or through printed certifications)
   j. Evidence of training in policies, process, and procedures applicable to one's job duties and responsibilities
   k. Evidence of training in URAC standards applicable to one's job duties and responsibilities
   l. Ongoing training to maintain professional competence.
   m. Staff performance reviews
2. Personnel Records
   a. Personnel files and records are stored in a confidential location.
   b. Only certain individuals with appropriate authority have access to the files.
   c. Employees have access to their individual personnel file following the appropriate procedures.
   d. Retention of personnel files is 6 years.

F. **Direct Care Personnel**

1. LeMed Specialty Pharmacy does not employ direct care personnel, but if we do, they will have access to Hepatitis B vaccination according to CDC and OSHA standards.
   a. Declination statements will be signed within ten (10) business days of employment if vaccination is declined.
2. Exemptions for the vaccination include:
   a. Hepatitis B vaccination series previously received.
   b. Antibody testing shows immunity.
   c. Individual medical reasons
3. All direct care personnel have initial Tuberculosis (TB) testing and are reassessed annually.
   a. Test can be skin or blood.
   b. Risk will be evaluated annually

Section 9: Statement of Responsibility - MUST BE COMPLETED by an Authorized Person (NAC 639.945)

Statement of Responsibility

1. I am the President (title) for Metro Drugs Pharmacy Department (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Joseph Tawil hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the President (title) for Metro Drugs Pharmacy Department (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Nathan Lam hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the OWNER/CEO (title) for Phoenix Pharmacy (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

attachment 1

As a pharmacy owner, I am responsible for a wide range of duties to ensure the smooth operation of the business while maintaining compliance with healthcare regulations. Some of the key responsibilities include:

1. Business Management

- **Financial oversight**: Managing the pharmacy's budget, including expenses, revenue, and profits.
- **Inventory management**: Ensuring that medications and supplies are well-stocked and regularly ordered to meet patient demand.
- **Employee management**: Hiring, training, and managing staff, including pharmacists, pharmacy technicians, and other personnel.
- **Customer service**: Ensuring high-quality service and patient satisfaction.
- **Marketing and growth**: Promoting the pharmacy's services, including community outreach, promotions, or partnerships with local health professionals.

2. Regulatory Compliance

- **Adherence to laws**: Complying with state, federal, and local regulations regarding the dispensing of medications, health and safety, and business operations.
- **Record keeping**: Keeping accurate records of prescriptions, inventory, and sales for auditing and compliance purposes.
- **Licensing**: Maintaining proper licenses for operating a pharmacy and the certification of all pharmacists and staff as required by law.

3. Quality Control and Safety

- **Risk management**: Identifying and mitigating any risks associated with pharmacy operations, whether related to safety, security, or customer health.

5. Technology Management

- **Pharmacy software**: Overseeing the pharmacy management system, including prescription processing, patient records, and inventory management.
- **Data protection**: Ensuring the privacy and security of patient information in compliance with HIPAA or other applicable laws.

6. Community Involvement

- **Public health promotion**: Engaging in initiatives like immunizations, health screenings, and wellness programs for the local community.
- **Patient education**: Offering seminars, workshops, or materials that educate patients on health and wellness topics.
-

- Being a pharmacy owner means balancing the clinical aspects of healthcare with the financial and managerial duties of running a business, ensuring you can deliver high-quality care while maintaining a sustainable and compliant operation.

Attachment 2

As a healthcare assistant administrator, my responsibilities was broad and encompass both operational and strategic tasks. I was essentially responsible for support overseeing the day-to-day management of a healthcare organizations, ensuring that everything runs smoothly, efficiently, and in compliance with relevant regulations with my administrator. Here are some of my key responsibilities as a healthcare assistant administrator.

1. Support Operational Management

- **Ssupport Staff Management**: Oversee the recruitment, hiring, training, and performance management of medical, administrative, and support staff.
- **Facility Management**: Ensure that the healthcare facility is properly maintained and that equipment is functioning.

2. Support Financial Oversight

- **Budgeting**: Develop and manage budgets for the facility, ensuring resources are allocated appropriately and that the organization remains financially viable.
- **Cost Control**: Monitor expenditures and find ways to reduce unnecessary costs while maintaining quality care.

3. Support Regulatory Compliance

- **Legal and Ethical Compliance**: Ensure that the healthcare organization complies with federal, state, and local regulations, including healthcare laws (HIPAA, patient safety laws, etc.).

4. Support Quality Assurance and Improvement.

- **Patient Satisfaction**: Measure patient satisfaction and address any complaints or concerns to improve service.

5. Support Strategic Planning and Development

- **Long-term Planning**: Participate in or lead efforts to set long-term goals and strategies for the healthcare organization, including expansion, service improvements, or new offerings.
- **Innovation and Technology**: Stay updated with healthcare trends and technological advancements to improve patient care and operational efficiency.
- **Data Analysis**: Use data analytics to assess the performance of the organization and make informed decisions.

6. Support Human Resources Management

Employee Relations: Handle employee concerns, create a positive work environment, and foster professional development opportunities for staff.

- **Compliance with Employment Laws**: Ensure adherence to employment laws, including fair labor practices and employee rights.

7. Support Technology and Systems Management

- **Data Security**: Ensure that patient information is securely stored and handled, in compliance with privacy laws like HIPAA.

8. Support Crisis Management

- **Business Continuity**: Develop and implement business continuity plans to ensure that the facility can operate even during adverse situations.

9.Support Budgeting and Resource Allocation

- **Resource Management**: Ensure that the healthcare facility has the necessary equipment, supplies, and human resources to function effectively.
- **Financial Performance**: Manage the financial health of the organization, aiming to reduce costs while maintaining a high level of care.

10. Support Leadership

- **Leadership Development**: Provide leadership to staff, motivating teams, setting goals, and ensuring that the organization's mission and vision are upheld.
- **Decision-making**: Make crucial decisions regarding operational processes, personnel, and resource allocation.

See attachment 3

The Pharmacy Clerk is responsible for performing various administrative and clerical duties in a pharmacy setting. This includes assisting customers, managing inventory, processing transactions, and ensuring that the pharmacy operates efficiently and in compliance with all relevant regulations. The pharmacy clerk plays a key role in maintaining a clean, organized, and customer-friendly environment.

Key Responsibilities:

1. **Customer Service**
   - Greet customers and assist with general inquiries.
   - Answer the phone and address patient concerns or direct them to the pharmacist or pharmacy technician as needed.
   - Assist customers with locating over-the-counter products and medications.
   - Provide information on pharmacy hours, services, and policies.
2. **Clerical and Administrative Tasks**
   - Process prescription orders, including verifying customer information and entering data into the pharmacy system.
   - Maintain accurate records of prescription orders and patient information.
   - File and organize prescriptions and other documentation in an orderly manner.
   - Handle cash, credit, and insurance payments and process transactions accurately.
   - Ensure that customer receipts and prescription records are printed and provided to patients.
3. **Inventory Management**
   - Assist with receiving and stocking medication deliveries.
   - Monitor stock levels and report shortages or expired medications to the pharmacist.
   - Organize shelves and ensure medications are stored in accordance with safety and regulatory standards.
   - Assist in preparing inventory orders and managing stockroom cleanliness.
4. **Prescription Support**
   - Prepare and label prescription medication under the guidance of the pharmacist or pharmacy technician.
   - Ensure that the correct medication is dispensed, and all labels are accurate and comply with regulatory requirements.
   - Verify and maintain records for refills and patient prescriptions.
5. **Regulatory Compliance**
   - Ensure all activities comply with state and federal laws, including confidentiality regulations (HIPAA).
   - Maintain a clean and organized pharmacy area, following safety and health protocols.
6. **Customer Education and Assistance**
   - Educate customers on the proper storage of medications and over-the-counter products.
   - Provide guidance on proper usage of non-prescription items when appropriate.
   - Direct patients to the pharmacist for in-depth consultations or medication counseling.

7. **General Support**
    - Assist the pharmacist and pharmacy technician with tasks as needed, including preparation of medication orders.
    - Handle clerical duties such as faxing, emailing, and other paperwork.
    - Perform other related duties as assigned to ensure the smooth operation of the pharmacy.

Qualifications:

- High school diploma or equivalent required.
- Previous experience in a customer service role, preferably in a pharmacy or healthcare setting, is a plus.
- Basic knowledge of pharmacy operations, medications, and medical terminology is an advantage.
- Strong attention to detail and the ability to follow instructions accurately.
- Ability to multitask and work efficiently in a fast-paced environment.
- Excellent communication and interpersonal skills.
- Ability to work as part of a team and provide excellent customer service.

Skills and Abilities:

- **Communication:** Strong verbal and written communication skills to interact with customers and team members.
- **Organizational Skills:** Ability to manage multiple tasks and keep the pharmacy organized.
- **Attention to Detail:** Ensuring that all prescription orders, labels, and inventory are accurate.
- **Customer Service:** Providing friendly, helpful, and efficient service to customers and patients.

INSPECTION REPORT

Pharmacy X Hospital Pharmacy ___ Clinic ___ Exempt Hospital ___ Wholesaler ___ Hypodermic ___

Date: 1/22/2025 Inspector: Valerie Sakamura

Firm: PHOENIX PHARMACY Phone: (714) 690-0349

Address: 7872 WALKER ST STE 106 City: LA PALMA Zip: 90623

Ownership: CORPORATION

Permit #: PHY59620 Permit Exp: 4/1/2025 DEA#: FF8244573 DEA Exp: 3/31/2027

Date of Self Assessment Form: 2/26/2024 Other Permit #: N/A Date of DEA Inventory: ___

Hours M-F: 830-17 Hours Saturday CLOSED Hours Sunday: CLOSED

PIC JEREMY HANA RPH84156 Administrator ___

RPH Consultant ___

Staff RPH Name:	License #:	Staff Name:	License #:
		CRYSTAL AGUILAR	TCH171997
		NATHAN LAM	OWNER
		SANDRA GOMEZ	CLERK

Inspector Remarks:

Independent pharmacy recent change of ownership in October. Previous owner nurse Chris changed ownership to her son, Nathan Lam. Last inspected 4/30/24 under PHY58891. New license is PHY 59620. Pharmacy closed for lunch during inspection-stayed on premises with PIC.

PREMISES:
Pharmacy on first floor of medical building, free parking under building and around building. No drive thru. Hot water takes a long time to get hot-I had to run it for a while and it only became warm. This was previously noted during the last inspection. Later during the inspection after the water was used for a while, it got hot quicker.

STAFFING/WORKLOAD: Normal staffing: 1 RPH; 1 TCH: 1 CLK. About 30-80 prescriptions per PIC. Refill labels kept in book.

Wholesalers: In between getting new accounts, Used to have Bergen but now switching to Mckesson, Uses Quest Pharm, Buyline, API, Hygen, Keysource
Reverse distributor: Reverse Distributors /Pharmalogisitics
Computer: Prime Rx

SERVICES:
Delivery: personal (done by employee Sandra)-goes to LA, Palmdale
Meds to beds: mostly indigent.
Immunizations, oral contraception, Narcan,
LTC: Bubble packs for SNF, and Arms open wide, Colarc.

RECORDKEEPING:
Offsite waiver available

ORDER OF CORRECTION

Date: 1/22/2025 Permit #: PHY59620

Time of Day: 11:27 AM

Name as shown on permit: **PHOENIX PHARMACY**

Address: 7872 WALKER ST STE 106 City: LA PALMA

Please be advised it appears there is a failure to comply with the following laws governing the practice of pharmacy, and/or the rules and regulations of the Board of Pharmacy:

1. **CCR 1715(b)(1)**	Self-Assessment of a Pharmacy by the Pharmacist-in-Charge. In addition to the self-assessment required in subdivision (a) of this section, the pharmacist-in-charge shall complete a self-assessment within 30 days whenever: A new pharmacy permit has been issued, or A new license was issued but there is no new self-assessment. Please complete one and send to me within 7 days.

I have reviewed, discussed, understand and received a copy of this form.

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Jessica Patrone hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the President (title) for ProCompounding LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

I, Jessica Patrone, **certify that as the designated representative for**

Procompounding Pharmacy,

that I (initial that you have read and meet the following requirements) (NAC 639.5005, NAC 639.5935):

1. JP I am at least 21 years of age;
3. JP I have been employed for at least 6,000 hours in a pharmacy or with a wholesaler in a capacity related to the dispensing and distribution of, and recordkeeping related to, prescription drugs.
4. JP I will be actively involved in and aware of the actual daily operations of the pharmacy or wholesaler;
5. JP I will be employed full-time in a managerial level position with the pharmacy or wholesaler;
6. JP I will be physically present at site of the pharmacy or at the facility of the wholesaler during regular business hours, except when the absence of the representative is authorized, including sick leaves, vacation leaves and other authorized absences; and
7. JP I will serve in this representative capacity for only one pharmacy or wholesaler at a time.

Jessica Patrone

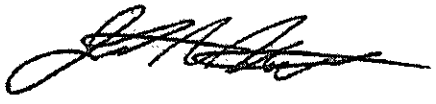
ProCompounding LLC
527 North State of Franklin Rd, Suite 2
Johnson City, TN 37604
Attention: Tandy Branham

Dear ProCompounding LLC:



On behalf of Accreditation Commission for Health Care (ACHC), it is my pleasure to inform you that ProCompounding LLC has been ***approved for accreditation*** for the PCAB Program for patient-specific prescriptions of non-sterile compounds. PCAB is a service of ACHC.

In granting accreditation, ACHC finds that your company has demonstrated that it operates at a level of quality, integrity, and effectiveness consistent with ACHC Accreditation Standards. Your accreditation is effective May 3, 2022 through May 2, 2025. Of course, maintaining accreditation is contingent upon continued compliance with the standards during this period.

If you have any questions, please feel free to contact your organization's Account Advisor, Jasmine Johnson.

Again, ACHC extends its congratulations to ProCompounding LLC for being awarded accreditation. It is an achievement of which your organization can be proud of and one that marks your commitment to quality in the provision of care.

Sincerely,

Jon Pritchett, Pharm.D., RPh., BCSCP
Program Director

Nonsterile Compounding Inspection

The information and comments obtained in the Nonsterile Compounding and Sterile Compounding Inspections are based on USP Chapters <795> and <797>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: ProCompounding LLC dba ProCompounding

Inspection Date: 05/22/2023

		Finding	Notes
	General Operations and Information		
1.00	Does the pharmacy **dispense** nonsterile compounded preparations pursuant to a prescription?	Yes	
1.01	Are patient profiles complete and DUR performed for each prescription? *View selected files for profile to include allergies, disease states/conditions, other medications taken not dispensed by this pharmacy.*	Yes	reviewed 3 patient files for information, allergies, disease states noted where pertinent
1.02	Do the compounded prescriptions produce a significant difference from a commercially available drug that is justified by a documented medical need of the individual patient as determined by the prescribing practitioner?	Yes	
1.03	Are nonsterile compounded prescriptions picked up at the pharmacy?	Yes	
1.04	Are nonsterile compounded prescriptions delivered to patients in their homes or residential facilities?	Yes	
1.05	Are nonsterile compounded prescriptions mailed to patients in their homes or residential facilities?	Yes	
1.06	Are nonsterile compounded prescriptions delivered to the practitioner for administration to the patient in the office, clinic, or facility?	Yes	Cantharidin to local providers
1.07	Are nonsterile compounded prescriptions mailed to the practitioner for administration to the patient in the office, clinic, or facility?	Yes	Cantharidin to local providers
2.00	Does the pharmacy **distribute** nonsterile compounded preparations? *Not pursuant to a prescription, not labeled by the pharmacy with a patient name.*	No	
2.01	Does the pharmacy distribute nonsterile compounded preparations to practitioners for office use?	No	
2.02	Does the pharmacy distribute nonsterile compounded preparations to hospitals, clinics, or surgery centers?	No	
2.03	Does the pharmacy have a sales force that promotes compounded preparations? *List compounds promoted.*	Yes	promote services and not specific compounds other than provide copies of preprinted prescriptions for commonly prescribed non-sterile compounded products
2.04	Does the pharmacy distribute non-patient specific compounded preparations for promotional purposes? *List compounds provided.*	No	
2.05	If yes, does the sales force hand-deliver these compounds? *List compounds provided.*	No	
2.06	If yes, are any of these controlled substances? *List compounds provided.*	No	
3.00	Does the pharmacy provide nonsterile compounded preparations to other pharmacies for dispensing?	No	
3.01	If so, does the pharmacy have central fill/shared services contracts or agreements with these pharmacies for patient specific preparations? *Provide List.*	N/A	
4.00	Does the pharmacy compound oral preparations (tablets, capsules, liquids, lozenges, etc.)? *Provide List.*	Yes	capsules, liquids. Troches, lozenge/lollipop
5.00	Does the pharmacy compound topicals (gels, creams, ointments, inserts, suppositories, patches, sprays including nasal sprays, etc.)? *Provide List.*	Yes	gels, cream, ointments, suppositories, nasal sprays, ear solutions for non-perforated ear drum

An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: ProCompounding LLC dba ProCompounding

Inspection Date: 05/22/2023

		Finding	Notes
6.00	Does the pharmacy compound vitamin or nutritional supplements? *Provide List.*	No	
7.00	Does the pharmacy sell any compounds over-the-counter? *Provide list.*	Yes	Ivermectin with Collaborative Practice Act Agreement per TN state law
8.00	Does the pharmacy compound investigational drugs? *Provide List.*	No	
9.00	Does the pharmacy only make essential copies of a commercially available drug product on the Drug Shortage List or that is justified by a documented medical need of the individual patient as determined by the prescribing practitioner? *Indicate volume or percent compounded currently.*	Yes	zero percent compounded currently
9.01	If yes, products are verified as appearing on the Drug Shortage List in effect under 506E of the Federal Act at the time of compounding, distribution, and dispensing.	Yes	
9.02	If yes, the Drug Shortage List is monitored and when a drug product is no longer on the list, any remaining stock is quarantined and not available for distribution or dispensing. *Note: Per FDA guidance, 503B facilities may continue to distribute for 60 days following drug shortage list removal for existing orders.*	Yes	
10.00	Does the pharmacy perform compounding identified as **simple?** *Indicate percentage of simple compounding.* 1. Making a preparation that has a USP compounding monograph or that appears in a peer-reviewed journal article that contains specific quantities of all components, compounding procedure and equipment, and stability data for that formulation with appropriate beyond-use dates (BUD)s. 2. Reconstituting or manipulating commercial products that may require the addition of one or more ingredients as directed by the manufacturer. *Examples include Captopril Oral Solution, Indomethacin Topical precautions. Gel, and Potassium Bromide Oral Solution (Veterinary).*	Yes	75%
11.00	Does the pharmacy perform compounding identified as **moderate?** *Indicate percentage of moderate compounding.* 1. Making a preparation that requires special calculations or procedures (such as calibration of dosage unit mold cavities) to determine quantities of components per preparation or per individualized dosage units. 2. Making a preparation for which stability data for that specific formula is not available. *Examples include Morphine Sulfate Suppositories, diphenhydramine hydrochloride troches, and mixing two or more manufactured cream products when the stability of the mixture is not known.*	Yes	15%
12.00	Does the pharmacy perform compounding identified as **complex**? *Indicate percentage of complex compounding.* Making a preparation that requires special training, environment, facilities, equipment, and procedures to ensure appropriate therapeutic outcomes. *Examples of possible complex preparation types include transdermal dosage forms, modified-release preparations, and some inserts and suppositories for systemic effects.*	Yes	10%

The National Association of Boards of Pharmacy (NABP) developed this inspection form for sole use by NABP and its member boards of pharmacy for inspection of facilities licensed by a member board. Facility Name: ProCompounding LLC dba ProCompounding
Inspection Date: 05/22/2023

		Finding	Notes
13.00	Does the pharmacy perform compounding with **hazardous drugs**? *Indicate percentage of compounding with hazardous drugs.* NIOSH list of hazardous drugs including chemotherapy, hormones, etc.	Yes	40%
13.01	Is the pharmacy aware of the more stringent requirements of the proposed USP Chapter <800>?	Yes	
14.00	Are Safety Data Sheets (SDS) [formerly known as Material Safety Data Sheets (MSDS)] available to personnel for drugs and chemicals used in the pharmacy (including those for compounding, if applicable)? *Verify that personnel can access them and are familiar with the format.*	Yes	
15.00	Does the pharmacy compound using any **controlled substances**? *Indicate percentage of controlled substance nonsterile compounding.*	Yes	15%
16.00	**APIs:** Does the pharmacy make any nonsterile compounded preparations using bulk powder Active Pharmaceutical Ingredients (APIs)?	Yes	
16.01	Does the pharmacy purchase APIs directly from the manufacturer/repackager? *Indicate the source of APIs.*	Yes	Medisca, Letco, Fagron, PCCA and Darmerica
16.02	Does the pharmacy verify that the manufacturer/repackager of the API is an FDA-registered facility? *If so, list how this verified.*	Yes	review annually, information kept in binder
16.03	Does the pharmacy use active ingredients that are not from an FDA-registered facility? *If so, indicate sources.*	Yes	
16.04	Does the computer track on-hand quantities of APIs used for compounding? *If not, explain.*	Yes	
17.00	Does the pharmacy perform any testing in-house (not sent to an outside lab)? *If so, what tests are performed in house?*	Yes	weight checks for capsules, troches and suppositories. pH testing for some liquids
18.00	Does the pharmacy send samples to an outside lab to perform testing? *If so, provide the name of the lab performing testing for the pharmacy and what testing is performed.*	Yes	ARRL, Quality testing for techs capsules, cream, liquid and molded product annually, also test triturates for hormones (for potency)
19.00	Does the pharmacy use scales/balances for nonsterile compounding?	Yes	
19.01	If so, what type of scale/balanced is used? *List manufacturer and model number*		AND 6-GX-2000, 5-GH-200, 1-EK-6100i, 1-FZ-1200I, Ohaus 2-EX224, 2-EX2202
19.02	If the scale/balance is electronic, does the pharmacy use the automatic calibration? *Describe process and indicate frequency*	Yes	scale is calibrated daily and may be repeated during day when needed.
19.03	Describe the pharmacist checks for the measurement of each ingredient		yes

The National Association of Boards of Pharmacy (NABP) developed this inspection form for sole use by NABP and its member boards of pharmacy for inspection of facilities licensed by a member board. Disclosure of the form to or use of the form by a third party, other than a facility being inspected by NABP or a member board, is strictly prohibited without NABP's prior written permission or unless required by state law.

		Finding	Notes
20.00	**Quality Assurance/Quality Improvement:** Does the pharmacy continuous quality improvement program include nonsterile compounding measures? **Note: If the facility indicates "yes", please ask each question below to verify.**	Yes	software requires measurements fall within standards, pharmacist verify liquid quntities before compounding
20.01	Does the pharmacy continuous quality improvement program include QREs related to the preparation of compounded products?	Yes	
20.02	Does the pharmacy continuous quality improvement program include personnel testing and verification?	Yes	
20.03	Does the pharmacy continuous quality improvement program include equipment calibration, testing, etc?	Yes	
20.04	Does the pharmacy continuous quality improvement program include end product testing (such as: pH, weight, potency, particulates, consistency, etc.)?	Yes	
20.05	Does the pharmacy continuous quality improvement program include patient or prescriber reports or complaints regarding nonsterile compounded products?	Yes	
20.06	Does the facility QA program identify action limits or thresholds and the appropriate follow-up mechanisms when action limits or thresholds are exceeded including a recall system?	Yes	
20.07	Does the recall system include communication with both the patient and the physician/prescriber regarding the affected nonsterile compounded preparation?	Yes	
20.08	Are QREs involving nonsterile compounded preparations or are recalled by the pharmacy reported to the Board of Pharmacy?	Yes	
	Component Selection and Use		
	Total Non-Compliant (Includes Unknowns)	**0**	
21.00	**Active Pharmaceutical Ingredients (APIs), bulk drug substances:** All bulk drug substances (APIs) used are: 1) Compliant with the standards of an applicable USP or NF monograph, if one exists; or 2) A component of an FDA-approved human drug product; or 3) On the list of bulk drug substances for use in compounding developed by the FDA and issued through regulation (note: must comply with (1) or (2) above until the FDA list is issued)	Compliant	

The National Association of Boards of Pharmacy (NABP) developed this inspection form for sole use by NABP and its member boards of pharmacy for inspection of facilities licensed by a member board. An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: ProCompounding LLC dba ProCompounding
Inspection Date: 05/22/2023

		Finding	Notes
21.01	Certificates of analysis (COAs) obtained for all bulk APIs used for compounding. *Verify by selecting products from the shelf from different suppliers and ask to see the COAs for those products.* NOTE: The COA for an API should be reviewed upon receipt of the API to verify the quality of the API before using to compound.	Compliant	
21.02	USP- or NF-grade substances used, if available	Compliant	
21.03	If compendia quality components are not available, chemically pure, analytical reagent grade or American Chemical Society-certified components are used and are determined to be free from impurities.	Compliant	
21.04	APIs or other components have labeling indicating use for pharmaceutical compounding or manufacturing. Labels do not indicate "for research purposes only", "not for drug use", or are handwritten labels from other pharmacies. *Photograph and describe if found. Request copies of the invoices for products with questionable labels.*	Compliant	
21.05	If compounding for both humans and animals, APIs or other components that are labeled for veterinary use only are segregated or marked in such a way to prevent them from being used for human compounding	Compliant	
21.06	All substances and components have a complete label including a batch control or lot number, and an expiration date.	Compliant	
21.07	For APIs without an expiration date assigned by the manufacturer or supplier, the pharmacy assigns a conservative expiration date. The expiration date assigned does not exceed three (3) years for ingredients used for non-sterile compounding and does not exceed one (1) year for ingredients used for sterile compounding. *Note: purity and quality testing may be performed to extend.*	Compliant	
21.08	All APIs and components received without an expiration date are labeled with the date they were received.	Compliant	
21.09	If the pharmacy repackages APIs into smaller containers for ease of use, the expiration date assigned is conservative (typically the lesser of one year or the actual expiration from the original container). Product may be tested to extend the expiration date but may not exceed the original package expiration date.	Compliant	six months unless expires sooner
21.10	Bulk component containers are labeled with appropriate OSHA hazard communication labels and hazardous substances are segregated (including hormones).	Compliant	all hazardous chemicals are kept in USP 800 room. Final products are segregated in hazardous area per an assessment of risk.
22.00	Where water is an ingredient, purified or distilled water is used.	Compliant	
23.00	Ingredients used for dietary or nutritional supplements meet USP, Food Chemicals Codex (FCC), or NF standards, or the pharmacy has alternate means to determine if the ingredients meet food-grade quality.	Compliant	
24.00	Pharmacy confirms that there are no preparations for human use made or ingredients used that appear on the FDA list of drug products withdrawn or removed from the market for safety reasons (facility has a copy of the list or other way to determine).	Compliant	

The National Association of Boards of Pharmacy (NABP) developed this inspection form for sole use by NABP and its member boards of pharmacy for inspection of facilities licensed by a member board. Disclosure of the form to or use of the form by a third party, other than a facility being inspected by NABP or a member board, is strictly prohibited without NABP's prior written permission or unless required by state law.

Facility Name: ProCompounding LLC dba ProCompounding
Inspection Date: 05/22/2023

		Finding	Notes
25.00	When manufactured products are used for compounding, all the other excipients in the product are considered relative to the use, effectiveness, and stability of the compounded preparation to be made.	Compliant	
26.00	For **animal compounding:** The compounding meets the same standards as compounding for human patients.	Compliant	
26.01	The pharmacist is knowledgeable or has references regarding the individual species' limitations in physiology and metabolic capacity that can result in toxicity when certain drugs or excipients are used.	Compliant	
26.02	It is determined and documented if the animal is used for food (meat, milk, eggs, etc.) or that the animal is a pet.	Compliant	pet animals only
26.03	The pharmacist familiar with, or has a reference regarding drug residues in the food chain and withdrawal times if compounding for food-producing animals.	N/A	
26.04	The facility has a list of drugs and components not allowed when compounding for food-producing animals.	N/A	
26.05	The pharmacist is familiar with, or has a reference regarding regulations for drug use in performance animals (e.g., race or show horses, racing dogs)	N/A	
	Beyond Use Dating (BUD)		
	Total Non-Compliant (Includes Unknowns)	**0**	
27.00	BUDs are assigned from the day of preparation.	Compliant	
28.00	BUDs are assigned based on dispensing in tight, light-resistant containers/overpacks.	Compliant	
29.00	Extended BUDs are supported by testing data. *View documentation used, preparation must exactly match formulation upon which data was obtained.*	Compliant	Fagron and PCCA studies for BUD assignment for topical hormones
29.01	Extended BUDs are assigned and the facility has performed its own stability testing. *View records, preparation must exactly match the preparation tested by the facility including concentration of all active ingredients, excipients, etc.*	N/A	Use of studies from above to assign BUD
30.00	BUDs for nonaqueous formulations are not later than the remaining time until the earliest expiration date of any API and not later than six (6) months.	Compliant	
31.00	BUDs for water-containing oral formulations are not later than 14 days when stored at controlled cold temperatures (refrigerated).	Compliant	
32.00	BUDs for water-containing topical/dermal and mucosal liquid and semisolid formulations not later than 30 days.	Compliant	
	Environment		
	Total Non-Compliant (Includes Unknowns)	**0**	
33.00	The non-sterile compounding area is a controlled environment and separate from the general pharmacy.	Compliant

Facility Name: ProCompounding LLC dba ProCompounding

Inspection Date: 05/22/2023

		Finding	Notes
34.00	There sufficient space available for the type and amount of compounding performed and the space is orderly to prevent mix-ups between ingredients, containers, labels, in-process materials, and finished preparations.	Compliant	
35.00	Only one preparation compounded at a time.	Compliant	
36.00	Procedures are implemented to prevent cross-contamination, especially when compounding with drugs such as hazardous drugs and known allergens like penicillin that require special precautions.	Compliant	Clean after use, save for end of day
37.00	The compounding area is well lit.	Compliant	
38.00	The pharmacy performs **hazardous** non-sterile compounding in a ventilated cabinet such as a BSC, CAI, or CACI. *Note: CAI may not be used for hazardous drugs that may volatilize.(NIOSH requirement referenced in USP<795>. Note that proposed USP Chapter <800> will change hazardous drug compounding requirements.)*	Compliant	
38.01	Ventilated cabinets (BSC, CAI, CACI) used for hazardous compounding are certified or tested periodically.	Compliant	
38.02	If the hoods or isolators are not located in a closed, controlled room environment, there is documentation from the manufacturer and site testing to verify proper functioning of equipment under dynamic conditions for the safety of personnel.	N/A	
39.00	Appropriate protective attire (gowns, gloves, masks, etc.) is available.	Compliant	
39.01	If hazardous drugs are used, appropriate protective attire is available (gowns, gloves, hair and shoe covers, eye and face protection, etc.).	Compliant	
40.00	There is a sink in the compounding area with hot and cold potable water, soap or detergent, and air-driers or single-use towels.	Compliant	
41.00	There is adequate space to wash equipment and utensils including access to water for rinsing. *(Purified water is **recommended** - not required)*	compliant	
42.00	The temperature of the compounding area is controlled by a thermostat and an air conditioning system is in place.	Compliant	
43.00	**Temperature** in the compounding area is maintained to provide controlled room temperature of 20° to 25°C (68° to 77 °F), or more restrictive if warranted by specific drug product storage requirements.	Compliant	
43.01	Temperature monitoring is in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max. Temperature records are maintained.	Compliant	
43.02	Excursion action plan in place including evaluating excursion effects on drug product integrity.	Compliant	
43.03	Temperature monitoring is also performed in **drug storage areas** (if separate from the compounding areas) and maintained within 20° to 25°C (68° to 77 °F), or more restrictive if warranted by specific drug product storage requirements.	Compliant	

The National Association of Boards of Pharmacy (NABP) developed this inspection form for sole use by NABP and its member boards of pharmacy for inspection of facilities licensed by a member board. Disclosure of the form to or use of the form by a third party, other than a facility being inspected by NABP or a member board, is strictly prohibited without NABP's prior written permission or unless required by state law.

National Association of Boards of Pharmacy®
Universal Inspection Form

Nonsterile Compounding Inspection

The information and comments obtained in the Nonsterile Compounding and Sterile Compounding Inspections are based on USP Chapters <795> and <797>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: ProCompounding LLC dba ProCompounding
Inspection Date: 05/22/2023

		Finding	Notes
43.04	Temperature monitoring is in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max. Temperature records are maintained.	Compliant	
43.05	Excursion action plan in place including evaluating excursion effects on drug product integrity.	Compliant	
44.00	**Humidity** in the compounding area is maintained to provide humidity in the ranges warranted by specific drug product storage requirements. If drug products require storage in a "dry place", humidity is not to exceed 40%. Generally **recommended** range is 35-60%.	Compliant	
44.01	Humidity monitoring in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max. Humidity records are maintained.	Compliant	
44.02	Excursion action plan in place including evaluating excursion effects on drug product integrity.	Compliant	
44.03	Humidity monitoring is also performed in **drug storage areas** (if separate from the compounding areas) to provide humidity in the ranges warranted by specific drug product storage requirements. If drug products require storage in a "dry place", humidity is not to exceed 40%. Generally recommended range is 35-60%.	Compliant	
44.04	Humidity monitoring is in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max. Humidity records are maintained.	Compliant	
44.05	Excursion action plan in place including evaluating excursion effects on drug product integrity.	Compliant	
45.00	The bulk component storage area is adequately arranged and maintained in a clean and sanitary condition.	Compliant	
46.00	All components, equipment, and containers are stored off the floor, and handled and stored to prevent contamination.	Compliant	
47.00	All components and packaging containers and closures are properly rotated to use oldest first.	Compliant	
48.00	Hazardous drugs are appropriately identified and marked, received, handled and stored by appropriately trained personnel. (OSHA regulations and NIOSH Alerts)	Compliant	
49.00	Trash is disposed of in a safe, sanitary, and timely manner.	Compliant	
49.01	Hazardous waste is disposed of in a safe, sanitary, and timely manner.	Compliant	
	Training *-Verify records of all compounding personnel (up to 10).*		
	Total Non-Compliant (Includes Unknowns)	**0**	
50.00	Have all personnel of reproductive capability who handle or compound hazardous drugs or chemicals confirmed in writing that they understand the risks of handling hazardous drugs? Teratogenicity, carcinogenicity, reproductive issues.	Compliant	

The National Association of Boards of Pharmacy (NABP) developed this inspection form for sole use by NABP and its member boards of pharmacy for inspection of facilities licensed by a member board. Nonsterile Compounding Inspection

The information and comments obtained in the Nonsterile Compounding and Sterile Compounding Inspections are based on USP Chapters <795> and <797>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: ProCompounding LLC dba ProCompounding

Inspection Date: 05/22/2023

		Finding	Notes
51.00	There is documentation that all personnel that perform compounding are appropriately trained including policies and procedures, documentation, hazardous drug handling, and compounding technique and not allowed to compound or supervise compounding until training is successfully completed.	Compliant	
52.00	There is documentation that the training process for the preparation of compounds includes demonstration of the compounding procedure first, followed by the trainee performing the procedure under supervision successfully before being allowed to perform compounding.	Compliant	
53.00	There is documentation that training includes the operation of any equipment that may be used when preparing compounded products. *Documentation includes operation and troubleshooting.*	Compliant	
54.00	There is documentation available showing employees performing non-sterile compounding are evaluated at least annually.	Compliant	
54.01	If performing hazardous nonsterile compounding, there is documentation available showing employees are evaluated at least annually.	Compliant	
55.00	If the pharmacy uses relief personnel from outside agencies to perform non-sterile compounding there is documentation that training is verified.	Compliant	
	Compounding Equipment		
	Total Non-Compliant (Includes Unknowns)	**0**	
56.00	Appropriate equipment and utensils are available, clean, and in good working order. *Automated, mechanical, or electronic equipment (including capsule machines, autoclaves, ovens, etc.) are periodically inspected and calibrated.*	Compliant	
57.00	Scales, balances, or other types of equipment used for measurement shall be routinely inspected, calibrated as necessary (per manufacturer instructions), and checked to ensure proper performance. *Describe procedure used.*	Compliant	scales calibrated every June, hoods certified every November, and internal calibration of thermometers and hot plates annually
58.00	Powder hoods used for nonsterile compounding are certified or tested periodically to ensure proper function.	Compliant	
58.01	Hood filters are checked regularly and replaced when necessary.	Compliant	
59.00	All equipment is cleaned promptly after each use. *Equipment and utensils washed using potable water with a soap or detergent, and rinsed.* ***Recommended*** *rinsed with purified water.*	Compliant	

The National Association of Boards of Pharmacy (NABP) developed this inspection form for sole use by NABP and its member boards of pharmacy for inspection of facilities licensed by a member board. Nonsterile Compounding Inspection

The information and comments obtained in the Nonsterile Compounding and Sterile Compounding Inspections are based on USP Chapters <795> and <797>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: ProCompounding LLC dba ProCompounding
Inspection Date: 05/22/2023

		Finding	Notes
60.00	The pharmacy uses separate equipment and utensils to compound allergenic, cytotoxic, or hazardous products, or has detailed procedures for meticulous cleaning of equipment and utensils immediately after use to prevent cross-contamination or exposure.	Compliant	New Beta-Lactam SOP established to segregate these compounds and procedure for all other compounds
	Documentation		
	Total Non-Compliant (Includes Unknowns)	**0**	
61.00	The pharmacy creates a master formulation record the first time before compounding a new preparation	Compliant	
61.01	Every formulation is evaluated for incompatibilities and the potential for being ineffective or toxic.	Compliant	
61.02	The **master formulation record** includes:		
61.03	Official or assigned name, strength, and dosage form	Compliant	
61.04	All necessary calculations	Compliant	
61.05	Description of all ingredients and their quantities	Compliant	
61.06	Compatibility and stability information including references (when available)	Compliant	
61.07	Equipment used for the preparation	Compliant	
61.08	Mixing instructions (order of mixing, temperatures, duration of mixing, and other pertinent factors)	Compliant	
61.09	Container used and packaging requirements	Compliant	
61.10	Assigned BUD information	Compliant	
61.11	Labeling information including the name of and quantity or concentration of each active ingredient	compliant	
61.12	Description of the finished preparation	Compliant	
61.13	Storage requirements	Compliant	
61.14	Quality control procedures and expected results (e.g. dose measurement of capsule in the dose calibrator).	Compliant	
62.00	The pharmacy creates a compounding record for each compound prepared	Compliant	
62.01	The **compounding record** includes:		
62.02	Official or assigned name, strength and dosage of the preparation	Compliant	
62.03	Master Formulation Record reference	Compliant	
62.04	Sources, lot numbers, and expiration dates of all components	Compliant	
62.05	Total quantity or number of dosage units compounded	Compliant	
62.06	Person compounding the preparation	Compliant	
62.07	Person performing the quality control procedures	Compliant	

The National Association of Boards of Pharmacy (NABP) developed this inspection form for sole use by NABP and its member boards of pharmacy for inspection of facilities licensed by a member board. Disclosure of the form to or use of the form by a third party, other than a facility being inspected by NABP or a member board, is strictly prohibited without NABP's prior written permission or unless required by state law.

Facility Name: ProCompounding LLC dba ProCompounding
Inspection Date: 05/22/2023

		Finding	Notes
62.08	Person who approved the preparation	Compliant	
62.09	Date of compounding	Compliant	
62.10	Assigned internal identification number or prescription number	Compliant	
62.11	Description of the final preparation	Compliant	
62.12	Assigned BUD	Compliant	
62.13	Duplicate label	Compliant	
62.14	Results of quality control procedures (weight range of filled capsules, pH of aqueous liquids, etc.)?	Compliant	
62.15	Documentation of any quality control issues and any adverse reactions or preparation problems reported by the patient or caregiver including investigation and recall, if appropriate	Compliant	
	Compounding Procedures		
	Total Non-Compliant (Includes Unknowns)	**0**	
63.00	The Master Formulation Record and the Compounding Record has been reviewed by the compounder to ensure it is error free.	Compliant	
64.00	Compounding personnel ascertain that ingredients for compounded preparations are of the correct identity and appropriate quality including a unit-by-unit inspection of the components.	Compliant	
65.00	The containers and closures selected meet USP standards (from container supplier).	Compliant	
66.00	Container selection determined by physical and chemical properties of the preparation.	Compliant	
67.00	Compounding personnel maintain good hand hygiene and wear clean and appropriate clothing for the compounding being performed.	Compliant	
68.00	Personnel don appropriate protective garb when performing compounding.	Compliant	
68.01	If hazardous compounding, personnel don appropriate protective garb when compounding.	Compliant	
69.00	Routine compounding procedures for batch preparation completed and verified according to written procedures. Including: *Calculations correct, weighing and measuring performed correctly, order of mixing correct, compounding techniques performed correctly*	Compliant	
70.00	Procedures for in-process checks followed. *These checks indicate that appropriate procedures and packaging are followed for each step, including addressing pharmacist verification of steps performed by non-pharmacists that includes visual inspection of product, and documentation of the compounding accuracy is performed to ensure proper measurement, reconstitution and component usage.* ***Recommended:*** *compounding accuracy checked by a person other than the compounder.*	Compliant

Nonsterile Compounding Inspection

The information and comments obtained in the Nonsterile Compounding and Sterile Compounding Inspections are based on USP Chapters <795> and <797>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: ProCompounding LLC dba ProCompounding
Inspection Date: 05/22/2023

		Finding	Notes
71.00	There are no deviations from the master formulation record, unless they are approved and deemed appropriate by a pharmacist and a new master formulation record is created.	Compliant	
72.00	There is a procedure for cleaning which is followed. *After each preparation, daily tasks, monthly tasks, etc.*	Compliant	
73.00	Personnel are appropriately garbed for protection when cleaning.	Compliant	
74.00	Compounding employees are using appropriate techniques. *Inspector to observe compounding procedures, documentation, appropriate garb, cleanliness of compounding area and equipment. **Compounding MUST be observed**, if compounding is not being performed at the time of survey, mark as "Non-Compliant"*	Compliant	
74.01	If compounding is not being performed at the time of survey, ask that a compounding pharmacist or technician prepare a compound for you to observe the compounding process. *If the pharmacy staff refuses or is unable to perform compounding for you to observe, document on the "**Denial of Authorization**" form. List individual who signs the Denial of Authorization*		
	Finished Preparation Release Checks and Tests		
	Total Non-Compliant (Includes Unknowns)	**0**	
75.00	The finished preparation is observed to appear as expected in the master formulation record and documented.	Compliant	
76.00	As appropriate, the final completed preparation assessed for quality control and is documented, such as weight, mixing, clarity, odor, color, consistency, pH, and strength.	Compliant	
77.00	There are established written processes that describe test or examinations conducted on the compounded preparation (degree of weight variation in capsules, for example) to ensure uniformity and integrity.	Compliant	
78.00	Preparations with extended BUDs that are not supported by testing data are sampled and tested for physical, chemical, and microbiological characteristics.	Compliant	
78.01	If any failed tests or discrepancies are observed, there is an investigation and appropriate corrective actions taken before dispensing to patient	Compliant	
78.02	If products being tested are dispensed or distributed before the test results are obtained, there is a recall procedure if the test results indicate an issue.	Compliant	
79.00	There are appropriate quality control procedures to monitor the output and to verify the performance of compounding processes and equipment that may be responsible for causing variability in the final compounded preparations. *Review validation of equipment and personnel performance documentation.*	Compliant	
80.00	Labels on immediate patient-specific containers include identifiers for the persons preparing the compound and performing the final verification, BUD, an indication that this is a compounded preparation, special requirements for storage, and appropriate packaging and labeling of hazardous materials.	Compliant

An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: ProCompounding LLC dba ProCompounding

Inspection Date: 05/22/2023

		Finding	Notes
80.01	Labeling contains generic name and quantity or concentration of each active ingredient.	Compliant	
80.02	Labeling contains assigned BUD.	Compliant	
80.03	Labeling contains storage and handling information.	Compliant	
80.04	If hazardous, labeling contains storage and handling information.	Compliant	
80.05	Labeling contains prescription or control number, whichever is applicable.	Compliant	
81.00	Batch preparations (in anticipation of prescriptions) are of an appropriate volume and batch products in stock are all within their BUD (not outdated).	Compliant	
82.00	Labels on batch preparations include the name and quantity of all contents, date and time of preparation (or internal code/lot number indicating this information), preparer and verification pharmacist identifiers, stability (BUD), and any auxiliary labels indicated including appropriate packaging and labeling of hazardous materials.	Compliant	
83.00	Preparations are stored and secured properly prior to dispensing based upon conditions upon which BUD was assigned.	Compliant	
84.00	Preparations are examined immediately after preparation **AND** again immediately prior to dispensing for any signs of instability.	Compliant	
	Patient Counseling and Communication		
	Total Non-Compliant (Includes Unknowns)	**0**	
85.00	Do patient/caregiver training programs or materials contain information and precautions regarding the handling and disposal of products such as fentanyl, hormones and chemotherapy medications?	Compliant	
86.00	Are the required printed drug information materials (drug information sheets, Patient Package Inserts, MedGuides, etc.) provided for the compounded products?	Compliant	not required for compounded products, custom handouts are provided, for example nasal rinse or topical cream, how to use, ingredents, etc
87.00	Are patients instructed on the signs of product instability or contamination (as appropriate) and to report any changes in the physical characteristics of the product to the pharmacy?	Compliant	
88.00	Product recalls include documentation that both the patient AND the physician/prescriber of the potentially contaminated compounded product are notified of the potential risk.	Compliant

General Pharmacy Inspection

The information and comments obtained in the Nonsterile Compounding and Sterile Compounding Inspections are based on USP Chapters <795> and <797>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: ProCompounding LLC dba ProCompounding

Inspection Date: 05/22/2023

		Finding	Notes
	General Pharmacy		
1.00	Is the PIC (or pharmacy manager/director) present for the inspection? *If no, list the pharmacist on duty.*	Yes	
2.00	Is the PIC employed full-time at the pharmacy? *List the number of hours worked per week onsite.*	Yes	40
3.00	Are there any other businesses located at this address? *If yes, note type of business and name.*	No	LTC Pharmacy located in suite next to pharmacy. Pharmacy Network Services has agreement to share areas of pharmacy required for sterile compounding only.
4.00	Does the pharmacy have any other websites? *Provide list of other names/URLs.*	Yes	ProCompounding.com
4.01	Does the pharmacy hold .pharmacy verification?	No	previously held
5.00	Do any other websites link to the pharmacy website (such as a provider, or other affiliate)? *If yes, list.*	No	Emerson Wellevate
6.00	Does the pharmacy allow patients to securely enter/update profile and medical information through the website (such as through a secure patient portal)?	No	
7.00	Are patients able to order or refill prescriptions through the website? *If yes, describe.*	Yes	refill thru portal on website Procompounding.com
8.00	Are photographs allowed during the inspection (no PHI)?	Yes	no photos were taken
9.00	List of additional personnel **interviewed as part of the inspection, including name and title:**		PIC Tandy Branham, Laura Beth Jenks, staff pharmacists
	Types of Practice Additional Questions **If any part of a question is no, enter "No" and explain the observation.**		
10.00	If the pharmacy mails or delivers filled prescriptions (patient specific, labeled with patient name when it leaves the pharmacy), are any of the deliveries to a provider or facility for administration to the patient? *If yes, indicate volume or percentage of deliveries going to a provider or facility in this state, and volume or percentage of deliveries going to a provider or facility in other states.*	Yes	Only with drugs dangerous to patient, Cantharidin compounded prescriptions are sent to the provider's office. Dispensed once or twice a month.
11.00	Does the pharmacy provide prescription products to a provider or facility for "office use" (not pursuant to a prescription received prior to delivery, not patient specific, not labeled with the patient name)? *If yes, indicate volume or percentage provided to a provider or facility within this state, and volume or percentage provided to a provider or facility in other states.*	Yes	The pharmacy distributes apporximately one order every other month for Testosterone 200mg MDV to prescriber for office use. Order quantity varies from 1 to 25 vials
12.00	Does the pharmacy provide prescription products to providers or facilities (including other pharmacies) as a wholesale distributer (sold to the provider or facility for their use, administration, or providing/dispensing to patients)?	No	
13.00	If yes, is the percentage of product distributed at wholesale to providers or facilities within this state less than 5%? *Indicate actual percentage and if the percentage is based on number of units, number of prescriptions, dollar volume of total sales or dollar volume of prescription sales.*	N/A	

The National Association of Boards of Pharmacy (NABP) developed this inspection form for sole use by NABP and its member boards of pharmacy for inspection of facilities licensed by a member board. Disclosure of the form to or use of the form by a third party, other than a facility being inspected by NABP or a member board, is strictly prohibited without NABP's prior written permission or unless required by state law.

An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: ProCompounding LLC dba ProCompounding

Inspection Date: 05/22/2023

		Finding	Notes
14.00	If yes, is the percentage of product distributed at wholesale to providers or facilities in other states less than 5%? *Indicate actual percentage and if the percentage is based on number of units, number of prescriptions, dollar volume of total sales or dollar volume of prescription sales.*	N/A	
	General Operations and Licensure **If any part of a question is no, enter "No" and explain the observation.**		
15.00	Are pharmacy licenses, permits, and registrations (state, controlled substance, DEA, etc) posted in customers' view and current? *If no, provide details such as closed-door pharmacy, expired licenses, etc.*	Yes	
16.00	Is the most recent board of pharmacy inspection report available for review? *Record the date of the last inspection and how frequently the pharmacy is routinely inspected by the board.*	Yes	Last inspection 12/20/2021. VPN inspection performed 11/16/2020
17.00	Were any deficiencies noted? *Indicate the deficiencies and note whether they were corrected.*	No	
18.00	Does the pharmacy hold ANY wholesale, distributor, or manufacturer licenses? *Document information in the license grid above for Resident State and in the Notes for Non-Resident States.*	No	
19.00	Has this pharmacy been inspected by any other state for which it holds a license? *If yes, note the state and the date of the inspection and frequency of inspections by other states.*	No	
20.00	Is the pharmacy operating under an exemption or restriction granted by the state in which the pharmacy is located or by any other state in which the pharmacy is licensed? *If yes, note the exemption or restriction.*	No	
21.00	Is the pharmacy operating under a waiver or variance granted by the state in which the pharmacy is located or by any other state in which the pharmacy is licensed? *If yes, note the waiver or variance.*	Yes	Waiver for Pharmacist to Tech ratio from 1:4 to 1:5.
22.00	Does the pharmacy have any additional restrictions, limitations, or waivers with regards to any federal licenses or registrations (FDA, DEA, etc)? *If yes, note the agency and additional item.*	No	
23.00	Has the pharmacy been inspected or visited by the DEA? *If yes, indicate the inspection/visit date and note any deficiencies. Also note how frequently the pharmacy is inspected/visited by the DEA.*	No	
24.00	Has the pharmacy been inspected by the FDA? *If yes, indicate the inspection date and note any deficiencies, significant correspondence, or if a "483" was issued and date, and response and date. Also note how frequently the pharmacy is inspected by the FDA.*	No	
25.00	Does the pharmacy hold any accreditations or certifications? *If yes, indicate which and collect most recent date of survey.*	Yes	PCAB, valid from 5/3/2022 to 5/20/2025
26.00	Has the pharmacy held any accreditations or certifications in the past that they no longer hold? *Provide a list and the reasons for such.*	Yes	the .pharmacy accreditation was not renewed due to cost and transistion to new ownership.

The National Association of Boards of Pharmacy (NABP) developed this inspection form for sole use by NABP and its member boards of pharmacy for inspection of facilities licensed by a member board. Facility Name: ProCompounding LLC dba ProCompounding

Inspection Date: 05/22/2023

		Finding	Notes
27.00	Does the pharmacy perform patient lab testing such as blood glucose tests, cholesterol tests, etc? *Verify that the lab director is current (usually the PIC is the lab director named). If yes, record the Clinical Laboratory Improvement Amendments (CLIA) waiver information, expiration date, and the name of lab director listed.*	No	
28.00	Does the pharmacy maintain all required records, including but not limited to prescription files and invoices on site? *Record how long records are kept. If not on site, where?*	No	Electronic records are maintained, printed records greater than 2 years old are archived in pharmacy office
28.01	Are written and verbal prescriptions (reduced to writing) kept on site for the entire retention period? *If not, explain including how long they are stored on site?*	No	electronic records are maintained, printed records greater than 2 years old are archived in pharmacy office
28.02	Are electronic prescriptions (such as fax, e-scripts) kept on site for the entire retention period? *Describe how they are kept (electronically or printed and kept in hard copy).*	Yes	Electronic records are kept on RxDispense website. All records are backed up daily and stored in the cloud on their website
28.03	Are all dispensing records (such as refills, verifications, DUR overrides) kept on site for the entire retention period? *Describe how they are kept (electronically or printed and kept in hard copy).*	Yes	Electronic records are maintained, printed records greater than 2 years old are moved to storage in another building in office complex.
28.04	Are there systems in place to prevent a pharmacy record from being deleted after the prescription has been dispensed? *Describe how they are kept (electronically or printed and kept in hard copy).*	Yes	Electronic records cannot be deleted once dispensed, plus stored on back up
28.05	If record are stored off site are they secure in a HIPAA compliant manner and readily retrievable?	No	no longer stored offsite
29.00	Is there a statement in the P&P, or are other means used to ensure that the most stringent laws/regulations are followed? *Describe system details.*	Yes	Pharmacy follows the most stringent law in any of the 8 states it serves. SOP 1.20 vs 6.0 Pharmacy requirements, pg 5
	Personnel **If any part of a question is no, enter "No" and explain the observation.**		
30.00	Are all pharmacist, pharmacy intern, and pharmacy technician (if applicable) licenses or registrations with the board current and in good standing? *Describe how this is documented.*	Yes	Current license available for inspection
31.00	Is there a process for periodic verification of validity of licenses? *Describe the process.*	Yes	T Branham reviews monthly
32.00	If pharmacists are providing patient services that require additional training or certification, are they appropriately trained and certified? *(Immunization, CPR, MTM, etc.). Mark NA if no patient services that require additional training/certification. If yes, list certifications and if current?*	N/A	
33.00	Does the pharmacy maintain the proper technician-to-pharmacist ratio? *Mark N/A if not required by resident state. Indicate ratio used and the maximum number of staff who work at the same time.*	Yes	waiver of 5:1

The National Association of Boards of Pharmacy (NABP) developed this inspection form for sole use by NABP and its member boards of pharmacy for inspection of facilities licensed by a member board. Inspection Date: 05/22/2023

		Finding	Notes
	Facility and Security **If any part of a question is no, enter "No" and explain the observation.**		
34.00	Does the pharmacy have a working security/alarm system in place? *If yes, describe.*	Yes	Door, window and motion detector alarms
35.00	Are Schedule II controlled substances secured in a locked cabinet or safe? *If not, describe how controlled substances are secured or stored.*	N/A	no CII's are stocked
36.00	Are there contingency plans in the event the pharmacy cannot be secured? *Describe how the drug products will be secured and handled.*	Yes	PIC would be contacted in case of an emergency
37.00	Is the pharmacy clean and sanitary, and is there appropriate space for the prescription volume? *Look for clutter, or crowded counters or stacks of prescriptions to be checked. If no, document with photo.*	Yes	
37.01	Is the working area well lit and free of tripping hazards? *If no, document with photo.*	Yes	
37.02	Is there a sink with hot and cold running water?	Yes	
37.03	If the pharmacy destroys prescription products on site (such as expired, damaged, recalled, etc), do they appropriately document the destruction? *View destruction logs. Mark NA if no destruction on site.*	N/A	reverse distributor handles destruction/returns
37.04	Does the pharmacy return prescription products to the manufacturer, distributor, or send to a reverse distributor for destruction? *If yes, indicate name of reverse distributor used.*	Yes	Return Solutions, Clean Harbors
37.05	Does the pharmacy have a hazardous waste handling and collection system? For example, empty bottles that contained chemotherapy medications or warfarin, or hazardous drug compounding waste. *If yes, indicate how often the bin is emptied/collected and the vendor used.*	Yes	Return Solutions
38.00	Does the pharmacy have a private area for patient counseling and providing patient services? *Describe.*	Yes	Private Counseling Room
39.00	Is temperature in the drug storage area maintained to provide controlled room temperature of 20° to 25°C (68° to 77 °F), or more restrictive if warranted by specific drug product storage requirements? *Describe. Record the temperature at the time of inspection.*	Yes	69 degrees Farenheit
39.01	Is temperature monitoring in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max? Temperature records are maintained. *If yes, describe the process*	Yes	Eco-Bee, monitors calibrated yearly
39.02	Are excursion action plans in place including evaluating excursion effects on drug product integrity?	Yes	SOP 1.30 vs 3.0 Environmental Monitoring of Non-sterile Compounding Areas, pg 12
40.00	Are the refrigerator and freezer restricted to drug products only (no food)?	Yes	
41.00	Does the pharmacy have a process for how the refrigerator temperature is monitored for excursions 24/7? *If yes, describe the process. Indicate range. How are excursions detected? How long are records maintained?*	Yes	Temperatures are monitored by thermometer that also records max and min temps during previous 24 hrs. Records are maintained for two years. NIST traceable thermometer, replaced annually

		Finding	Notes
41.01	Is the temperature in the refrigerator within the USP range (2°-8°C or 36°-46 °F) or as specified by FDA approved labeling for drug product storage? *Record the temperature of the refrigerator at the time of inspection.*	Yes	Lab 34° F, USP 800 room 40°F, POS 38°F
42.00	Does the pharmacy have a process for how the freezer temperature is monitored for excursions 24/7? *If yes, describe the process. Indicate range. How are excursions detected? How long are records maintained?*	N/A	
42.01	Is the temperature in the freezer within the USP range (between −25° to −10°C or −13° to 14 °F) or as specified by FDA approved labeling for drug product storage? *Record the temperature of the freezer at the time of inspection.*	N/A	
43.00	Are there contingency plans in the event of power outage or refrigerator/freezer failure? *Describe process.*	Yes	Back-up diesel generator that will run for 48 hours on a full load, three refrigerators on site
44.00	Are there contingency plans in the event of heating or air conditioning failure? *Describe processes.*	Yes	Contract with SB White, Could move to alternate site.
45.00	Is there a plan of action if there are any temperature or humidity excursions to determine if the integrity of the products has been compromised?	Yes	SOP 4.50 Vs 3.0 Quality Control
46.00	Does the pharmacy utilize any automated apparatuses for prescription processing/counting (such as robotics, Baker cells, etc)? *List numbers and types.*	No	
46.01	If yes, do they have and follow policies and procedures addressing cross-contamination and identification of drug products?	N/A	
	Product Receipt and Inventory **If any part of a question is no, enter "No" and explain the observation.**		
47.00	Does the pharmacy have a documented process for establishing sources (vendors) of prescription drugs? *Describe.*	Yes	Only purchase from VAWD Accredited wholesalers, keep binder of VAWD accreditations and other license information
47.01	Does the pharmacy purchase all prescription drugs directly from the manufacturer?	No	
47.02	Does the pharmacy purchase (obtain) prescription drugs from other pharmacies? *If yes, list pharmacy source information, and circumstances leading to the purchase.*	No	
47.03	Does the pharmacy purchase (obtain) prescription drugs from wholesale distributors (non-manufacturer sources)? *List non-manufacturer sources.*	Yes	American Pharmaceutical distribution, ANDA, Auburn, B&B, Prescriptin supply, Masters and Amerisource Bergen. API's from Fagron, Letco, Medisca, Darmerica and PCCA
47.04	Does the pharmacy require wholesale distributor sources to purchase prescription drugs directly from the manufacturer? *If yes, how is this verified?*	No	
47.05	Does the pharmacy purchase drugs from wholesale distributors that purchased the drug from other wholesale distributors? *If yes, Describe the due diligence steps to determine the source's legitimacy and legitimacy of the drugs sold by the vendor. (For instance, does the pharmacy examine transaction histories and limit the number of movements of drugs between wholesale distributors, and look for pharmacies in the supply chain?)*	No

Inspection Date: 05/22/2023

		Finding	Notes
47.06	Does the pharmacy determine that all sources listed on transaction histories have requisite state licensing? *If yes, describe the process.*	Yes	verified online, information in binder
47.07	Does the pharmacy determine that all sources listed on transaction histories have reported to FDA's Wholesale Distributor database? *If yes, describe the process.*	yes	verfied online
47.08	Does the pharmacy have a process to handle suspect and illegitimate product investigations? *If yes, describe the process.*	Yes	Quarantine product until investigation is complete, SOP 3.10 vs 3.0 Inventory Control
47.09	Has the pharmacy conducted any suspect or illegitimate product investigations? *If yes, describe the details, including the drug, circumstances, outcome, and identification of agencies to whom reported.*	No	
47.10	Does the pharmacy ensure transaction data (transaction history, transaction information, transaction statement, also known as 3T data) is received at the same time or before the product is received? *Examine recent purchases to determine if the pharmacy is receiving and maintaining 3T data for a minimum of 6 years.*	Yes	available on WD website
47.11	Does the pharmacy have a procedure to verify product (suspect or illegitimate) including quarantine of product and reporting?	Yes	SOP SOP 3.10 vs 3.0 Inventory Control
48.00	Does the pharmacy utilize paper DEA-222 forms to procure Schedule II substances? *If yes, how are they secured? Who has the authority (Power of Attorney) to sign the DEA-222 forms?*	N/A	do not dispense
49.00	Does the pharmacy utilize CSOS (electronic Schedule II ordering) to procure Schedule II substances? *If yes, who can place orders in CSOS?*	N/A	
50.00	Is the receipt of Schedule II orders documented appropriately? *DEA-222 has the quantity and date on each line of product received, the CSOS record (electronic or paper printout) indicates verification of receipt and staff performing verification.*	N/A	
51.00	Are invoices for controlled substances (Schedules I-V) that are received filed separately and are the invoices signed/initialed and dated upon receipt and every item checked in?	Yes	
52.00	Are all orders received when the pharmacy is open? *Verify the orders are brought directly to the pharmacy still sealed and not delivered before the pharmacy is open.*	Yes	
53.00	Does the pharmacy purchase any compounded products from other entities for dispensing to patients? *If so, describe which products and from where they are purchase (collect name and license of other entity).*	No	
54.00	Does the pharmacy have a system in place to track prescription drug products in order to detect diversion or theft? *Describe (for example, inventory or shrink report tools used, perpetual inventory in computer, etc).*	Yes	monthly CS inventory, technicians notify pharmacist of empty containers, inventory is verified at that time. Inventory is adjusted, small amounts of shrinkage due to compounding process.
54.01	Are incidents of diversion or resignation/termination of personnel for cause reported? *Indicate agencies/law enforcement to whom reports are made.*	Yes	contact local law enforcement, report loss of control substances to DEA/Board of Pharmacy
55.00	Does the pharmacy keep a perpetual inventory log of all Schedule II controlled substances (including APIs, if applicable)?	N/A	

The National Association of Boards of Pharmacy (NABP) developed this inspection form for sole use by NABP and its member boards of pharmacy for inspection of facilities licensed by a member board. 		Finding	Notes
56.00	Is the Schedule II perpetual inventory log reconciled regularly? *Indicate how often the Schedule II controlled substances are counted. View the perpetual log and verify that reconciliation is taking place.*	N/A	
57.00	Is the most recent complete controlled substances inventory available for review? *Indicate the date of the last inventory and frequency taken (minimum every two years).*	Yes	23-May-23
57.01	Does the pharmacy maintain other required inventories (such as change in PIC, theft/loss, etc)?	Yes	
58.00	Does the pharmacy stock and sell OTC pseudoephedrine (and/or ephedrine) products? If yes, indicate if the sale is recorded electronically or manually in a logbook.	No	
58.01	Are these products mailed, sent, or delivered into other states? *View logs. If yes, list the other states.*	N/A	
59.00	Does the pharmacy stock and sell other OTC restricted products for which ID is required and a log kept of the sale? *If yes, indicate product types.*	No	
59.01	Are these products mailed, sent, or delivered into other states? *View logs. If yes, list the other states.*	N/A	
60.00	Are outdated, damaged, or recalled products segregated? *If yes, how often does the pharmacy check for out-of-date products? Does it include OTC products?*	Yes	monthly
60.01	Are all drugs within active-stock within expiration date? *Examine shelves, refrigerator and freezer*	Yes	
60.02	How often is active-stock examined for drugs past the expiration date?		monthly
61.00	Does the pharmacy **prepackage** bulk containers of prescription medications into smaller containers for ease of use? *What BUD is used on the prepackaged container?*	Yes	Six months unless expiration date is sooner
62.00	Does the pharmacy **prepack** multiple drugs into a single container for compliance packaging? *What BUD is used on the prepacked containers?*	No	
63.00	Does the pharmacy return to stock prescription drugs that were filled but never picked up?	Yes	
63.01	If yes, are they maintained in the appropriate container, with PHI removed and BUD adjusted?	Yes	
	Prescription Processing **If any part of a question is no, enter "No" and explain the observation.**		
64.00	**Patient Profile:** Is patient profile data organized and readily accessible to facilitate consultation with the prescriber, patient, or caregiver? *Indicate who enters patient profile data into the computer system and how often it is updated?*	Yes	Intake PT enters data. Updated with each contact. Disease/diagnosis is noted if provided by prescriber or patient
64.01	If the pharmacy dispenses veterinary prescriptions, does the information gathered and recorded include the species, and name of the animal/owner as required by resident state law? *Describe how it is indicated in the computer system that the patient is an animal? And how is it indicated in the system the prescription is a veterinary prescription?*	Yes	Computer software allows notation of animal data, profile for pet and profile for owner are linked together

Inspection Date: 05/22/2023

		Finding	Notes
65.00	**Prescription:** Are adequate processes in place to assure the integrity, legitimacy, and authenticity of prescription orders? *Staff is familiar with detecting fraud in hard copy, faxed, verbal, and electronic prescriptions.*	Yes	
65.01	Is there a procedure to follow when a prescription is suspected of (or actually is) fraudulent? *Describe the steps and reporting process.*	Yes	contact local law enforcement
65.02	Are adequate processes in place for assuring that prescription medications are not prescribed or dispensed based on online medical consultations without there being a pre-existing prescriber-patient/client relationship? *Describe. Do the processes include comparing the physical addresses of the patient and prescriber?*	Yes	Prescriptions are from prescribers that have been vetted by the sales force. Prescriptions are for quantities commiserate for use for one patient.
65.03	Does the pharmacy have electronic prescription capability? *Indicate whether it is for non-controlled substances, controlled substances, or both.*	Yes	both
65.04	If the pharmacy accepts electronic prescriptions for controlled substances, are they in compliance with federal regulations?	Yes	
66.00	**Accuracy:** Is the accuracy of the information entered into the computer system verified (patient information and prescription information)? *Indicate how and by whom.*	Yes	RPh verifies data entry before prescription is compounded
67.00	**DUR:** Does staff conduct prospective DUR prior to the dispensing of a medication or product? *Describe at what point in the process does the DUR take place?*	Yes	RPh performs DUR prior to compounding of medication and when counseling patient on medication
67.01	Does the DUR include: • drug-drug interaction (Prescription and OTC), • drug-allergy interaction, • therapeutic duplication, • under- or over-utilization (including clinical abuse/misuse), • disease state or condition contraindication, • Incorrect dosage or duration of therapy, and • gender or age related contraindications. *Indicate if there are other parameters routinely included in the DUR.*	Yes	Staff conducts interview to collect information when first contacted by patient
67.02	In addition to the pharmacy DUR software, does the pharmacy staff obtain other information to use in the DUR process? *Describe.*	Yes	Any and all date provided by the patient or the provider
67.03	Does the pharmacy have adequate resources/references related to the type of pharmacy practice it operates?	Yes	
67.04	Does the pharmacy report required data to the state PMP (in this state and the other states in which the pharmacy is licensed)? *Describe.*	Yes	daily
67.05	Does the pharmacy access state PMP/PDMP data for specific patients? *Verify there is a policy regarding access and follow-up or reporting and that pharmacist can access the PMP data.*	Yes	TN Law requires review of record twice a year. Once when first filling a new prescription and at least once more within 12 months.
67.06	Are DUR overrides/bypasses documented? *Indicate how the override is documented and who has override capability.*	Yes	Software records name of pharmacist performing override
67.07	Is the DUR process performed electronically by the computer system? ***Identify integrated drug database used.***	Yes	Medispan

		Finding	Notes
67.08	If the DUR is manual, is there a system to document: • How manual DUR is performed • Specific issues that were identified • Pharmacist that considered the identified issues and gave the okay to proceed	Yes	only for veterinary prescriptions
67.09	If the pharmacy dispenses veterinary prescriptions, does it have a veterinary drug database integrated into the computer system for electronic DUR? *List veterinary product electronic database used. If not, list compendia used for performing manual DUR.*	No	Manually-Plumb Veterinary online
68.00	Are filled prescriptions verified for accuracy prior to dispensing? *Indicate process, by whom, and how documented.*	Yes	By second pharmacist
69.00	Are filled prescriptions appropriately labeled? *Describe.*	Yes	Per state regulations
70.00	**Confidentiality**: Does the system have adequate safeguards to prevent a user from performing functions under a different user account or beyond what they are authorized to perform? *Password protected, access limited by job type, access revoked as appropriate such as upon termination. Record name/brand of pharmacy computer system used.*	Yes	Rx Dispense
70.01	Does the pharmacy destroy PHI including labeled prescription vials?	Yes	HIPPA shred bin
71.00	**Mail/Delivery:** If applicable, are packing materials designed to maintain the physical integrity, stability, and purity of prescription medications and compounded preparations in transport?	Yes	
72.00	**Off-Site Processes:** Are any portions of the prescription processing (in the questions below) performed at a different location? ***Note: Please ask each question below to verify.***	No	COVID rules have been rescinded allowing work from home
72.01	If yes, is the other location under common ownership? *If not commonly owned, explain if there is a central fill/shared services or other agreement in place. Record the name and license number for the other location.*	N/A	
72.02	If yes, is that location in a different state than this facility? *If so, explain.*	N/A	
72.03	If yes, are there policies and procedures for identifying who is responsible for each step of prescription processing?	N/A	
73.00	**Off-Site Inventory:** Does the pharmacy maintain any emergency kits in nursing homes, long-term care facilities, or other entities (such as hospice, EMTs, ambulances)? *Note name(s) of facilities or entities.*	No	
73.01	Do the emergency kits contain any compounded products? *If so, indicate whether sterile and/or nonsterile and are these stored, non-patient specific?*	N/A	
74.00	**Off-Site Inventory:** Does the pharmacy maintain any automated prescription dispensing devices outside the pharmacy such as Pyxis in a nursing home, or a secure mailbox device that patients access after hours, etc? *Note types and locations*	No	

The National Association of Boards of Pharmacy (NABP) developed this inspection form for sole use by NABP and its member boards of pharmacy for inspection of facilities licensed by a member board. Disclosure of the form to or use of the form by a third party, other than a facility being inspected by NABP or a member board, is strictly prohibited without NABP's prior written permission or unless required by state law.

		Finding	Notes
88.04	Documentation includes steps taken to remediate including communications with the patient and the provider, and if the medication was ingested, disposition of the patient.	Yes	
89.00	**QRE data** collected is analyzed to assess causes and any contributing factors (root cause). *Indicate who performs the analysis and frequency (with each event, weekly, monthly, quarterly, etc).*	Yes	T Branham reviews incident reports monthly, quarterly review with pharmacist staff
89.01	The pharmacy uses the findings of the analysis to formulate an appropriate response and develop pharmacy systems and workflow processes designed to prevent QREs and increase good outcomes for patients.	Yes	Plan of corrections
89.02	For pharmacies utilizing a drug formulary, a periodic review of such formulary is undertaken to ensure that appropriate medications are being offered/selected in the best interest of patients.	N/A	
90.00	**Quality meetings** are held at least annually by staff members of the pharmacy to consider the effects on quality of the pharmacy system due to staffing levels, workflow, and technological support.	Yes	every other week
90.01	The meeting reviews data showing evidence of the quality of care for patients and develops plans for improvements to increase good outcomes for patients.	Yes	
90.02	Improvements or changes made are evaluated for performance to measure the effectiveness of the CQI program.	Yes	
91.00	**Reporting:** Incidents of QREs are reported to a nationally recognized error reporting program, an outside peer review committee, or a patient safety organization. *Indicate which organizations are reported including if the pharmacy reports QREs to the board of pharmacy.*	No	
91.01	Adverse events are reported to the appropriate entities such as the board of pharmacy, MedWatch, FDA, VAERS, etc?	Yes	
91.02	Incidents involving malfunctioning or defective medical equipment or devices (blood glucose meters, DME, injection devices, etc) are documented and reported to the manufacturer or distributor.	N/A	
92.00	**Quality Self-Audits** are performed by the pharmacy at least quarterly (and upon change in PIC) to determine whether the occurrence of QREs has decreased and whether there has been compliance with preventative procedures, and to develop a plan for improved adherence with the CQI program in the future.	Yes	
93.00	**Consumer Surveys** are conducted at least yearly of patients who receive pharmaceutical products and services at the pharmacy. A statistically valid sampling technique may be used in lieu of surveying every patient. Each pharmacy should use the results of its consumer survey to evaluate its own performance at a particular time and over a period of time.	Yes	Survey is an ongoing process, sent out with every new prescription

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Robert J McLaughlin Jr. hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the President (title) for Realo Specialty Care Pharmacy (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

Date

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # 1 . Provide all the following *where applicable*:

Date of Event/Arrest	Disposition Date	State	City	County
05/02/2009	10/26/2009	NC	Chapel Hill	Orange
Case #		**Governing, licensing, Arresting Presiding Body/Agency/Court**		
09CR51705		Orange County Court		
Reason/Charge				
DUI				
Plaintiff/Defendant/Claimant/Respondent			**Lawsuit/Arbitration/Bankruptcy**	
Charles Frye			N/A	
Name of Business/Industry/Entity				
N/A				

Provide explanation below:

On October 26, 2009 I plead guilty to DUI in Chapel Hill, North Carolina. I received the least severe penalty of DUI as there were no mitigating factors. The conviction was before I was a pharmacist. Therefore, it has never had any influence on my licensing or the status of my license. I have included the court documents from my hearing. Also, the conviction will appear on my criminal background check. If there is any additional information or documentation you require please let me know.

[redacted]

Original Signature (electronic, copies or stamps not accepted)

3/7/2025

Date

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

File No. 09 CR 51705

ORANGE County

In The General Court Of Justice
☒ District ☐ Superior Court Division

STATE VERSUS

Name Of Defendant

Charles Douglas Frye

IMPAIRED DRIVING DETERMINATION OF SENTENCING FACTORS

G.S. 20-179

☒ **District Court:** The defendant has been convicted of impaired driving (G.S. 20-138.1). Based upon the evidence presented at the trial and sentencing hearing in District Court, the Court determines that (1) the State has proved the grossly aggravating factors and aggravating factors marked below beyond a reasonable doubt and (2) the defendant has proved the mitigating factors marked below by a preponderance of the evidence.

☐ **Superior Court:** The defendant has been convicted of impaired driving (G.S. 20-138.1). Based upon the evidence presented at the trial and sentencing hearing in Superior Court, (1) the jury has determined that the State has proved the grossly aggravating factors and aggravating factors marked below beyond a reasonable doubt, or the defendant has admitted to these grossly aggravating factors and aggravating factors, and (2) the Court determines that the defendant has proved the mitigating factors marked below by a preponderance of the evidence. If grossly aggravating factor No. 1.a., 1.b., 1.c., 1.d., 1.e., or 1.f. is marked below, the Court determines that the State has proved that grossly aggravating factor beyond a reasonable doubt. If aggravating factor No. 8 or 9 is marked below, the Court determines that the State has proved that aggravating factor beyond a reasonable doubt *(applies to offenses committed on or after August 30, 2007).*

I. GROSSLY AGGRAVATING FACTORS - G.S. 20-179(c)

(NOTE: *Either Nos. 1 and 2 or No. 3 apply in each case except aiders and abettors. If No. 1 is checked, No. 2.a. or No. 2.b. must also be checked.)*

☐ 1. The defendant
- ☐ a. has been convicted of a prior offense involving impaired driving which conviction occurred within seven (7) years before the date of this offense.
- ☐ b. has two or more convictions as described in No. 1.a. (Level One punishment is required.)
- ☐ c. has been convicted of an offense involving impaired driving which conviction occurred after the date of the offense for which the defendant is being sentenced but before or contemporaneously with the sentencing in this case.
- ☐ d. has two or more convictions as described in No. 1.c. (Level One punishment is required.)
- ☐ e. has a prior conviction in District Court for an offense involving impaired driving, the conviction was appealed to Superior Court, the appeal has been withdrawn or the case has been remanded back to District Court, and a new sentencing hearing for the case has not been held pursuant to G.S. 20-38.7. *(Applies to offenses committed on or after August 30, 2007.)*
- ☐ f. has two or more convictions as described in No.1.e. (Level One punishment is required.) *(Applies to offenses committed on or after August 30, 2007.)*
- ☐ g. drove, at the time of the current offense, while the defendant's drivers license was revoked under G.S. 20-28 and the revocation was an impaired driving revocation under G.S. 20-28.2(a).
- ☐ h. caused, by the defendant's impaired driving at the time of the current offense, serious injury to another person.
- ☐ i. drove, at the time of the current offense, while a child under the age of 16 years was in the vehicle.

☐ 2. Therefore, the following level of punishment shall be imposed:
- ☐ a. **Level One** punishment, because at least two grossly aggravating factors in No. 1 apply to this defendant. **(NOTE:** *Each prior conviction is a separate grossly aggravating factor.)*
- ☐ b. **Level Two** punishment, because only one grossly aggravating factor in No. 1 applies to this defendant.

☐ 3. There are no grossly aggravating factors.

II. AGGRAVATING AND MITIGATING FACTORS - G.S. 20-179(d) AND (e)

AGGRAVATING FACTORS - G.S. 20-179(d):

(NOTE: *Except for the factors in subdivisions 8 and 9 below, the conduct constituting the aggravating factor must occur during the same transaction or occurrence as this impaired driving offense.)*

☐ 1. The defendant's faculties were grossly impaired at the time the defendant was driving.

☑ 2. The defendant had an alcohol concentration of at least ☐ 0.16 ☑ 0.15 *(use for offenses committed on or after December 1, 2007)* within a relevant time after the driving.

☐ 3. The driving of the defendant was especially reckless.

☐ 4. The driving of the defendant was especially dangerous.

☐ 5. The negligent driving of the defendant led to an accident causing property damage of $1,000.00 or more, or property damage of any amount to a vehicle seized pursuant to G.S. 20-28.3.

☐ 6. The negligent driving of the defendant led to an accident causing personal injury.

☐ 7. The defendant was driving while the defendant's drivers license was revoked.

☐ 8. The defendant had at least two prior convictions of a motor vehicle offense not involving impaired driving, which occurred within five (5) years of this offense, and
- ☐ a. all were offenses for which at least three (3) points were assigned under G.S. 20-16.
- ☐ b. all were offenses for which the defendant's drivers license was subject to revocation.
- ☐ c. at least one was an offense for which at least three (3) points were assigned under G.S. 20-16 and at least one was an offense for which the defendant's drivers license was subject to revocation.

☐ 9. The defendant had at least one prior conviction of an offense involving impaired driving that occurred more than seven (7) years before the date of this offense.

☐ 10. The defendant has been convicted under G.S. 20-141.5 of speeding while fleeing or attempting to elude apprehension.

☐ 11. The defendant has been convicted under G.S. 20-141 of speeding by at least 30 m.p.h. over the legal limit.

☐ 12. The defendant passed a stopped school bus in violation of G.S. 20-217.
☐ 13. Additional factors that aggravate the seriousness of this offense:

☐ 14. There are no aggravating factors.

MITIGATING FACTORS - G.S. 20-179(e):

NOTE: *Except for the factors in subdivisions 4, 6, and 7 below, the conduct constituting the mitigating factor must occur during the same transaction or occurrence as this impaired driving offense.*

☐ 1. There was a slight impairment of the defendant's faculties resulting solely from alcohol; and, the defendant's alcohol concentration did not exceed 0.09 at any relevant time after the driving.

☐ 2. There was a slight impairment of the defendant's faculties resulting solely from alcohol; and, no chemical test was made available to the defendant.

☑ 3. The driving of the defendant was safe and lawful except for the impairment of the defendant's faculties.

☑ 4. The defendant has a safe driving record, having no convictions of any motor vehicle offense for which at least four points are assigned under G.S. 20-16 or for which the defendant's license is subject to revocation within five (5) years of the date of this offense.

☐ 5. The impairment of the defendant's faculties was caused primarily by a lawfully prescribed drug for an existing medical condition, and the amount of the medical drug taken was within the prescribed dosage.

☑ 6. After being charged in this case with impaired driving, the defendant voluntarily submitted himself/herself to a mental health facility for assessment and has voluntarily participated in any treatment recommended by such facility, if such treatment was recommended.

☐ 6a. The defendant completed a substance abuse assessment, complied with its recommendations, and simultaneously maintained 60 days of continuous abstinence from alcohol consumption, as proven by a continuous alcohol monitoring system of a type approved by the Department of Correction. *(Applies to offenses committed on or after December 1, 2007.)*

☐ 7. Additional factors that mitigate the seriousness of this offense:

☐ 8. There are no mitigating factors.

DETERMINATION - G.S. 20-179(f):

(NOTE: *Check only one.*)

☐ 1. The aggravating factors marked above substantially outweigh any mitigating factors marked above. Therefore, Level Three punishment shall be imposed.

☐ 2. There are no aggravating or mitigating factors. Therefore, Level Four punishment shall be imposed.

☐ 3. The aggravating factors marked above are substantially counterbalanced by the mitigating factors marked above. Therefore, Level Four punishment shall be imposed.

☑ 4. The mitigating factors marked above substantially outweigh any aggravating factors marked above. Therefore, Level Five punishment shall be imposed.

☐ 5. No findings of mitigating or aggravating factors were made because the defendant is an aider and abetter. Therefore, Level Five punishment shall be imposed.

Date Of Offense	Attorney For State		Attorney For Defendant	
5-2-09	Steve Motta	☐ Def. Found Not Indigent ☒ Def. Waived Attorney	F. Bataglia	☐ Appointed ☒ Retained

Offense: ☒ Impaired Driving (G.S. 20-138.1). ☐ Impaired Driving in a commercial vehicle (G.S. 20-138.2). ☐ Operating a commercial vehicle after consuming alcohol and this was the defendant's second or subsequent conviction of this offense (G.S. 20-138.2A). ☐ Operating a school bus, school activity bus, child care vehicle after consuming alcohol and this was the defendant's second or subsequent conviction of this offense (G.S. 20-138.2B).

The defendant appeared in open court and ☒ freely, voluntarily, and understandingly pled guilty to ☐ was found guilty by the Court of ☐ was found guilty by a jury of ☐ pled no contest to the offense specified above. The Court, based upon the determinations as shown on the attached Determination of Sentencing Factors form (AOC-CR-311), has imposed the following punishment level.

☐ **Level One.** ☐ **Level Two.** ☐ **Level Three.** ☐ **Level Four.** ☒ **Level Five.**

The Court, having considered evidence, arguments of counsel and statement of defendant, ORDERS that defendant be imprisoned

for a minimum term of	for a maximum term of	In the custody of the
30 Days	30 Days	☒ N.C. Department of Correction. ☐ Sheriff of _____ County.

☐ This sentence shall run at the expiration of sentence imposed in file number _____.

The defendant shall be given credit for 0 days spent in confinement prior to the date of this Judgment as a result of this charge ☐ and as an inpatient at a facility operated or licensed by the State for the treatment of alcoholism or substance abuse after the commission of the above offense. Credit shall be applied against the ☐ minimum and maximum terms above, ☐ imprisonment for special probation below. (**NOTE:** *No credit may be given for the first 24 hours spent in confinement.*)

SUSPENSION OF SENTENCE

Subject to the conditions set out below, the execution of this sentence is suspended and the defendant is placed on
☒ unsupervised probation for 12 months.
☐ supervised probation for _____ months, the Court having received evidence and having found as a fact that supervision is necessary.

SPECIAL PROBATION - G.S. 15A-1351

☐ As a condition of special probation, the defendant shall ☐ serve an active term of _____ ☐ days ☐ months in the custody of the ☐ N.C. DOC. ☐ Sheriff of this County. ☐ *(for offenses committed prior to December 1, 1997)* submit to a combination of imprisonment and house arrest per attached AOC-CR-603, Page Two. ☐ pay jail fees.

(**NOTE:** *This term shall NOT be reduced by good time, gain time or parole, or, unless provided above, by jail or treatment time.*)

The defendant shall report in a sober condition to begin serving this term on:	Day	Date	Hour ☐ AM ☐ PM	and shall remain in custody until:	Day	Date	Hour ☐ AM ☐ PM

☐ The defendant shall again report in a sober condition to continue serving this term on the same day of the week for the next _____ consecutive weeks, and shall remain in custody during the same hours each week.

☐ The defendant shall serve the active term above as an inpatient in *(Name treatment facility)* _____ and shall follow the rules of that facility until discharged and not leave its premises except as authorized under those rules.

MONETARY CONDITIONS

The defendant shall pay to the Clerk of Superior Court the "Total Amount Due" shown below, plus the probation supervision fee, pursuant to a schedule ☐ determined by the probation officer. ☐ set out by the court as follows: _____

Costs	Fine	Restitution*	Attorney's Fee	Community Service Fee	EHA Fee/CAM Fee	Total Amount Due
$ 130.00	$ 100	$	$	$ 225.00	$	$ 455.00

*See attached "Restitution Worksheet, Notice And Order (Initial Sentencing)" AOC-CR-611, which is incorporated by reference.

☐ All payments received by the Clerk shall be distributed pro rata among the persons entitled to restitution in this priority: first among all G.S. 7A-304(d) priorities ☐ and before payment of community service and probation supervision fees.

☐ Upon payment of the "Total Amount Due," the probation officer may transfer the defendant to unsupervised probation.

REGULAR CONDITIONS OF PROBATION - G.S. 15A-1343(b)

NOTE: *Any probationary judgment may be extended pursuant to G.S. 15A-1342.*

The defendant shall: (1) Commit no criminal offense in any jurisdiction. (2) Possess no firearm, explosive device or other deadly weapon listed in G.S. 14-269. (3) Remain gainfully and suitably employed or faithfully pursue a course of study or of vocational training that will equip the defendant for suitable employment, and abide by all rules of the institution. (4) Satisfy child support and family obligations, as required by the Court.

If the defendant is on supervised probation, the defendant shall also: (5) Remain within the jurisdiction of the Court unless granted written permission to leave by the Court or the probation officer. (6) Report as directed by the Court or the probation officer to the officer at reasonable times and places and in a reasonable manner, permit the officer to visit at reasonable times, answer all reasonable inquiries by the officer and obtain prior approval from the officer for, and notify the officer of, any change in address or employment. (7) Notify the probation officer if the defendant fails to obtain or retain satisfactory employment. (8) At a time to be designated by the probation officer, visit with the probation officer a facility maintained by the Division of Prisons.

If the defendant is to serve an active sentence as a condition of special probation, the defendant shall also: (9) Obey the rules and regulations of the Department of Correction governing the conduct of inmates while imprisoned. (10) Report to a probation officer in the State of North Carolina within 72 hours of the defendant's discharge from the active term of imprisonment.

SPECIAL CONDITIONS OF PROBATION - G.S. 15A-1343(b1); 20-179

☑ 11. Obtain a substance abuse assessment and all recommended education or treatment. *(Mandatory for offenses committed on or after December 1, 1997.)* Pretrial

☑ 12. Surrender the defendant's drivers license to the Clerk of Superior Court for transmittal/notification to the Division of Motor Vehicles; and not operate a motor vehicle until the defendant's driving privilege is restored by that Division, except as may be permitted in a limited privilege.

☑ 13. Complete 24 hours of community service within 120 days from this date as directed by the Community Service Coordinator, and pay to the Clerk the community service fee prescribed by law ☐ pursuant to the schedule set out under "Monetary Conditions" above ☐ within _____ days of this date. ☐ Fee shall be paid before beginning service.

☐ 14. Not use, possess, or control any illegal drug or controlled substance unless it has been prescribed for the defendant by a licensed physician and is in the original container with the prescription number affixed on it; not knowingly associate with any previously convicted users, possessors or sellers of any such illegal drug or controlled substances; and not knowingly be present at or frequent any place where such illegal drugs or controlled substances are sold, kept or used.

☐ 15. Submit, upon the request of any law enforcement or probation officer, to any physical, chemical, blood, or breath test or to a urinalysis for the detection of alcohol or controlled substances.

☐ 16. Abstain from alcohol consumption for _____ days, as verified by a continuous alcohol monitoring system of a type approved by the Department of Correction. ☐ The defendant shall pay to the Clerk the fees associated with the system, as set by the entity providing the system, but not to exceed a total cost of $1,000. ☐ The court finds, upon good cause shown, that the defendant should not be required to pay the costs of the continuous alcohol monitoring system and _____, the local government entity responsible for the incarceration of the defendant in the local confinement facility, has agreed to pay the costs of the system to the Clerk. *(Applies to offenses committed on or after December 1, 2007.)*

☐ 17. Other:

☐ 18. Comply with the Additional Conditions of Probation which are set forth on AOC-CR-603, Page Two, attached.

[Check any that apply - G.S. 20-179(r)]

☐ The probation officer may transfer the defendant to unsupervised probation upon completion of ☐ the community service required by Special Condition No. 13 above. ☐ payment of all fines, costs and fees required above.

☐ A hearing was held in open court in the presence of the defendant at which time a fee, including expenses, was awarded the defendant's appointed counsel or assigned public defender.

SPECIAL ALCOHOL CONCENTRATION FINDING

☑ The defendant's alcohol concentration was ☐ 0.16 ☑ 0.15 *(use for offenses committed on or after December 1, 2007)* or greater.

☐ Other: _____.

ORDER OF COMMITMENT/APPEAL ENTRIES

☐ 1. It is ORDERED that the Clerk deliver two certified copies of this Commitment on Special Probation to the sheriff or other qualified officer and that the officer cause the defendant to be delivered with these copies to the custody of the agency named on the reverse to serve the sentence imposed or until the defendant shall have complied with the conditions of release pending appeal.

☐ 2. The defendant gives notice of appeal from the judgment of the District Court to the Superior Court. The current pretrial release order is modified as follows: _____.
NOTE: ***Upon notice of appeal, the District Court sentence is vacated. Withdrawal of appeal or remand to District Court requires that a new sentencing hearing be scheduled.***

☐ 3. The defendant gives notice of appeal from the judgment of the Superior Court to the appellate division. Appeal entries and any conditions of post conviction release are set forth on form AOC-CR-350.

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Paul Greenall hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Co-Manager (title) for Seven Hills Pharmacy LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

POSTMEDS, INC. DBA TRUEPILL DISCIPLINARY SUMMARY

California resident license PHY 60061

California old resident license numbers: PHY 58585, PHY 56100

Illinois Board of Pharmacy

The Illinois Board issued the pharmacy (non-resident license #054.022249) a Consent Order of Discipline effective **August 8, 2024** resolving alleged violations of the Illinois Pharmacy Practice Act stemming from disciplinary actions by proper licensing authority of another state. As per the terms of the Consent Order, Pharmacy has agreed to pay a $5,000 administrative fine to the Illinois State Board of Pharmacy.

Alaska Board of Pharmacy

The Alaska Board issued the pharmacy (non resident license #166601) a Consent Order of Discipline effective **February 15, 2024** resolving alleged violations of the Alaska Pharmacy Practice Act stemming from disciplinary actions by proper licensing authority of another state. As per the terms of the Consent Order, Pharmacy has agreed to pay a $5,000 administrative fine to the Alaska State Board of Pharmacy.

Pennsylvania Board of Pharmacy

The Pennsylvania Board issued the pharmacy (non resident license #NP000931) a Consent Order of Discipline effective **November 7, 2023** resolving alleged violations of the Pennsylvania Pharmacy Practice Act stemming from disciplinary actions by proper licensing authority of another state. As per the terms of the Consent Order, Pharmacy has agreed to pay a $3,500 administrative fine to the Pennsylvania State Board of Pharmacy.

Alabama Board of Pharmacy

The Alabama Board issued the pharmacy (non resident license #114861) a Consent Order of Discipline dated **June 6, 2023**. The Pharmacy has resolved alleged violations of the Alabama Pharmacy Practice Act through entry of a Consent Order with the Alabama State Board of Pharmacy on June 8, 2023. As per the terms of the Consent Order, Pharmacy has agreed to pay a $3,000 administrative fine to the Alabama State Board of Pharmacy.

Kansas Board of Pharmacy

The Kansas Board of Pharmacy issued the pharmacy (non resident license #22-117859) an amended Summary Order effective **February 8, 2023**. The pharmacy did not report the change of ownership in a timely manner, and paid a fine. The Kansas Board of Pharmacy approved the change of ownership application, and issued license 22-117859 on May 20, 2022.

Louisiana Board of Pharmacy

The Louisiana Board of Pharmacy issued the pharmacy (non resident license #PHY.007761-NR) a Consent Order of Discipline dated **May 11, 2022**. The pharmacy did not report the change of ownership in a timely manner. The Louisiana Board of Pharmacy approved the change of ownership application with a new permit number PHY.008479-NR as a successor to permit number PHY.007761-NR.

North Carolina Board of Pharmacy

The North Carolina Board of Pharmacy issued the pharmacy a Consent Order of Discipline dated **March 8, 2022**. The pharmacy made inaccurate statements about its ownership and officers on its initial application in November 2017 and did not correct this until November 2021. The North Carolina Board of Pharmacy approved the change of ownership application with a new permit number 14900 as a successor to permit number 13413.

Maine Board of Pharmacy

The Maine Board of Pharmacy notified the pharmacy on **March 30, 2022** that its non-resident license (#MO40002429) was terminated effective November 6, 2019 for reporting deficiencies related to its ownership. The pharmacy submitted a change of ownership application for licensure, and has been issued a new pharmacy license (#MO40003167) on November 2, 2022.

California Board of Pharmacy

The California Board of Pharmacy issued the pharmacy (former license #PHY 56100) a letter of admonishment CI 2019 84877 dated **January 23, 2020**, concluding an investigation that found the pharmacy shipped a prescription to the wrong patient and shipped two prescriptions with the wrong return address.

The California Board of Pharmacy issued the pharmacy (former license #PHY 56100) a modified citation and fine CI 2019 78633 dated **June 16, 2020**, with the fine amount of $0.00. In 2018, certain prescriptions were issued to the pharmacy by prescribers that were either not yet licensed to prescribe in California or who had not yet entered into an established standardized procedure or protocol developed by a supervising physician.

Also, The California Board of Pharmacy issued the pharmacy (former license #PHY 56100) a citation and fine order of abatement CI 2020 89223 dated **August 25, 2021**, with the fine amount of $5,000. The pharmacy was in violation when dangerous drugs were stored in temperatures exceeding the recommended storage temperatures Truepill did not consider the manufacturer's stability data for drugs which may have been adulterated by heat.

PENDING MATTERS

The following Actions are currently pending or threatened against the Company. The below Actions are currently subject to ongoing discussions, negotiations, and developments.

California Board of Pharmacy

California CI 2024 105307: On August 9, 2024, the California State Board of Pharmacy sent notice of a pending citation along with information on contesting or appealing. Truepill is in process of requesting an informal hearing to contest the citation.

South Carolina Board of Pharmacy

South Carolina 2022-49: On May 3, 2023, Postmeds agreed in principle to a proposed consent order with the South Carolina Board of Pharmacy to resolve inaccuracies in prior ownership information provided to the Board. The agreement would be categorized as a public reprimand but would not be a public document and would not be reported to the National Practitioner Data Bank. The negotiated fine was $30,000. The South Carolina Board of Pharmacy has not finalized this consent order or initiated formal disciplinary proceedings.

STATE OF ILLINOIS
DEPARTMENT OF FINANCIAL AND PROFESSIONAL REGULATION
DIVISION OF PROFESSIONAL REGULATION

IN RE: The Application of POSTMEDS INC DBA TRUEPILL, 054-app-4237687	)) APPLICANT.)	Case No. 2023-00783

CONSENT ORDER

The Division of Professional Regulation of the Illinois Department of Financial and Professional Regulation ("Department"), by its attorney Nicholas V. Gallo, and Applicant POSTMEDS INC ("Applicant"), by its attorney Marc N. Wagner, hereby agree to the following:

STIPULATIONS

On or about August 22, 2022, Applicant submitted to the Department a change of ownership application (the "application") for Illinois licensed pharmacy license no. 054.022350.

On or about June 16, 2020, the California State Board of Pharmacy issued Applicant a disciplinary modified citation and fine ("California Citation and Fine") under case no. 2017-78633 for Applicant filling prescriptions issued to Applicant by prescribers that were either not yet licensed to prescribe in California or who had not yet entered into an established standardized procedure or protocol developed by a supervising physician. The California Citation and Fine constitutes grounds for disciplinary action against Applicant on the authority of the Illinois Pharmacy Practice Act ("Act") at 225 ILCS 85/30(a)(8) as the grounds for action in the California Citation and Fine are the same or substantially equivalent to, including but not limited to 225 ILCS 85/30(a)(2) via 225 ILCS 85/4(g).

On or about August 25, 2021, the California State Board of Pharmacy issued Applicant a disciplinary citation and fine order of abatement ("California Citation and Fine Order of Abatement") under case no. 2020-89223 for, including but not limited to, Applicant storing dangerous drugs in temperatures exceeding the recommended storage temperatures. The California Citation and Fine Order of Abatement constitutes grounds for disciplinary action against Applicant on the authority of the Act at 225 ILCS 85/30(a)(8)

as the grounds for action in the California Citation and Fine Order of Abatement are the same or substantially equivalent to, including but not limited to 225 ILCS 85/30(a)(2) via 225 ILCS 85/3(d)(12).

On or about March 8, 2022, Applicant and the North Carolina Board of Pharmacy entered into a Consent Order of Discipline for, including but not limited to, Applicant failing to report change of ownership in a timely manner. The North Carolina Agreement constitutes grounds for disciplinary action against Applicant on the authority of the Act at 225 ILCS 85/30(a)(8) as the grounds for action in the North Carolina Agreement are the same or substantially equivalent to, including but not limited to 225 ILCS 85/30(a)(2) via the Act's Administrative Rules ("Rules") at 68 IAC 1330.780(a)(1).

On or about May 11, 2022, Applicant and the Louisiana Board of Pharmacy entered into a disciplinary Consent Agreement ("Louisiana Agreement") under case no. 21-0456 for, including but not limited to, Applicant failing to report change of ownership in a timely manner. The Louisiana Agreement constitutes grounds for disciplinary action against Applicant on the authority of the Act at 225 ILCS 85/30(a)(8) as the grounds for action in the Louisiana Agreement are the same or substantially equivalent to, including but not limited to 225 ILCS 85/30(a)(2) via 68 IAC 1330.780(a)(1).

On or about February 15, 2024, Applicant and the Board of Pharmacy for the State of Alaska entered into a disciplinary Consent Agreement ("Alaska Agreement") under case no. 2022-000434 for, including but not limited to, Applicant failing to disclose prior disciplines from another state within the required timeframe. The Alaska Agreement constitutes grounds for disciplinary action against Applicant on the authority of the Act at 225 ILCS 85/30(a)(8) as the grounds for action in the Alaska Agreement are the same or substantially equivalent to, including but not limited to 225 ILCS 85/30(a)(2) via 68 IAC 1330.40(c).

Pursuant to 68 IAC 1130.300(a) the following factor is considered in aggravation: (a) the presence of multiple adverse actions taken by other states against Applicant.

Pursuant to 68 IAC 1130.300(b) the following factors are considered in mitigation: (a) Applicant has cooperated with the Department in its investigation; and (b) Applicant has no prior disciplinary history with the Department.

At all times material to the matter set forth in this Consent Order, the Department had jurisdiction over the subject matter and the parties herein. Applicant has been advised of the right to have any allegation(s) reduced to written charges, to a hearing where the Department bears the burden to prove its allegations by clear and convincing evidence, to contest any charges brought and present mitigating evidence, and to administrative review of any order resulting from a hearing. Applicant knowingly waives each of these rights, as well as any right to administrative review of this Consent Order. Such waiver ceases if this Consent Order is rejected by the Secretary or the Secretary's designee or the Board. Applicant acknowledges that it has entered into this Consent Order freely and of Applicant's own will without threat or coercion by the Department or any person, and has not relied upon any representation made by or on behalf of the Department other than those specifically included herein. Applicant acknowledges that the Department attorney may be requested to communicate with the Board or the Secretary or the Secretary's designee in furtherance of the approval of this Consent Order. Applicant acknowledges that this Consent Order will be presented to the Secretary or the Secretary's designee. If this Consent Order is not approved, Applicant waives any right to raise any prejudice resulting from the Secretary or the Secretary's designee's consideration of this Consent Order. Applicant understands that this Consent Order is not effective unless and until it is adopted by the Secretary or the Secretary's designee. A copy of any original signature(s) affixed to this Consent Order shall be given the full force and effect of an original signature(s) affixed to this Consent Order.

Applicant and the Department agree, in order to resolve this case, that the Applicant be permitted to enter into a Consent Order with the Department providing for the terms and conditions contained herein which are fair and equitable in the circumstances and which are consistent with the best interests of the people of the State of Illinois.

CONDITIONS

Wherefore, the Department, by its attorney Nicholas V. Gallo, and Applicant, by its attorney Marc N. Wagner, agree:

A. Applicant's Illinois licensed pharmacy license no. 054.022350 shall be issued with a Reprimand.

B. Applicant shall pay a five-thousand-dollar ($5,000.00 USD) disciplinary fine within sixty (60) days of the effective date of this Consent Order.

C. All fines issued pursuant to this Consent Order are to be paid by personal check, company check, cashier's check, or personal money order. Said monetary instrument(s) shall be made payable to "Illinois Department of Financial and Professional Regulation," clearly indicate on the face of the monetary instrument the case number of 2023-00783 as well as license no. 054.022350, and be mailed to the following address:

Illinois Department of Financial and Professional Regulation
SSC – Accounts Receivable Section - Fines
P.O. Box 7086
Springfield, IL 62791-7086

D. Prior to the satisfaction of subsections B and C, above, Applicant shall not violate any state or federal law, rule, or regulation concerning controlled substances or the practice of wholesale drug distribution.

E. Applicant agrees that any violation of this Consent Order permits the Secretary or Secretary's designee to issue an Order forthwith mandating the automatic, indefinite, and immediate suspension of Applicant's license for a minimum period of twelve (12) months. This suspension shall not preclude the Department from taking any other disciplinary or other action it deems appropriate. In the event that Applicant(s) contest(s) in writing (by the filing with the Department within thirty (30) days the effective date of the suspension, a Petition complying with the Department's Rules of Practice in Administrative Hearings) the factual basis underlying said suspension, then Applicant(s) shall be afforded a hearing on the merits in accordance with the Department's Rules of Practice in Administrative Hearings, 68 Ill. Admin. Code 1110/et seq.

F. Applicant acknowledges that this Consent Order is a public disciplinary action and will be made available to the public. It will be reported to all applicable reporting databases.

G. This Consent Order is a final administrative order. This Consent Order shall become effective upon the signature of the Secretary or the Secretary's designee below unless otherwise stated herein.

In the Matter of:)
)
Postmeds, Inc. doing business as (Dba) TRUEPILL)
Respondent)
Case No. 2022-000434

CONSENT AGREEMENT

IT IS HEREBY AGREED by the Department of Commerce, Community and Economic Development, Division of Corporations, Business and Professional Licensing (Division) and TRUEPILL (Respondent) as follows:

1) **Licensure.** Respondent is currently registered as an Out-of-State Pharmacy in the State of Alaska and holds License number #166601. This license was first issued on 08/27/2020 and will lapse unless renewed by 06/30/2024.

2) **Admission/Jurisdiction**. Respondent admits and agrees that the Board of Pharmacy has jurisdiction over the subject matter of their license in Alaska and over this Consent Agreement.

3) **Admission/Facts.** Respondent admits to the following facts:

a) On September 25, 2017, Staff Pharmacist working for TRUEPILL, Curtis Ancar, received a disciplinary order from the California Board of Pharmacy for failure to exercise corresponding responsibility and excessive furnishing of controlled substances.

b) On January 24, 2019, the California Board of Pharmacy cited former Pharmacist-in-Charge and former owner of TRUEPILL, Mohammad Umar Afridi, for failure to provide documentation substantiating completion of continuing education and knowingly making or signing a document with false information.

c) On December 16, 2019, the California Board of Pharmacy cited former Pharmacist-in-Charge and former owner of TRUEPILL, Mohammad Umar Afridi, for furnishing and dispensing dangerous drugs without a prescription and dispensing on order of nurse practitioner (or person of similar status).

550 West 7th Avenue, Suite 1500
Anchorage, Alaska 99501-3567
Telephone 907-269-8160 Fax 907-269-8195

d) On January 23, 2020, the California Board of Pharmacy issued a letter of admonishment to Respondent for shipping a prescription to the wrong address and shipping two prescriptions with the wrong return address.

e) On June 16, 2020, the California Board of Pharmacy issued a modified citation and fine CI 2019 78633 with the fine amount of $0.00 for receiving prescriptions by prescribers that were not licensed or have not entered into procedures with supervising physicians.

f) On April 08, 2022, Respondent submitted an Out-of-State Pharmacy Registration Ownership Change Application from license no. 166601 to license no. 193858 (now withdrawn) to the Division. Professional Fitness Question #1 was marked "Yes" indicating disciplinary actions had been issued against their license as listed above in sections a) through e).

g) Subsequent background investigation revealed Respondent failed to disclose the abovementioned 2017, 2019, and 2020 licensing actions from the California Board of Pharmacy on previous State of Alaska applications for TRUEPILL (formerly DBA Postmeds, Inc.) for licenses 137655 and 166601 dated June 08, 2018, August 06, 2020, and August 27, 2020.

h) Respondent admits that as a result of the above facts, grounds exist for possible suspension, revocation, or other disciplinary sanctions of their license pursuant to AS 08.01.075, AS 08.80.261(a)(1), AS 08.80.261(a)(6), AS 08.80.261(a)(9), AS 08.80.261(a)(11)(12)(14), 12 AAC 52.920(a)(13), and 52.920(a)(14)(c).

4) **Formal Hearing Process.** It is the intent of the parties to this Consent Agreement to provide for the compromise and settlement of all issues addressed in Paragraph 3 (above) that could be raised by an Accusation to revoke, suspend, or impose disciplinary sanctions against Respondent's license through a formal hearing process.

5) **Waiver of Rights.** Respondent understands they have the right to consult with an attorney of their own choosing and has a right to an administrative hearing on the facts in this case. Respondent understands and agrees that by signing this Consent Agreement, Respondent is waiving their rights to counsel and to a hearing. Further, Respondent understands and agrees that they are relieving the Division of any burden it has of proving the facts admitted above. Respondent further understands and agrees that by signing this Consent Agreement they are voluntarily and knowingly giving up their right to present oral and documentary evidence, to present rebuttal evidence, to cross-examine witnesses against Respondent, and to appeal the Board's decision to Superior Court.

6) **Effect of Non-Acceptance of Consent Agreement.** Respondent and the Division agree that this Consent Agreement is subject to the approval of the Board. They agree that, if the Board rejects this Consent Agreement, it will be void, and an Accusation may be filed. If this Consent Agreement is rejected by the Board, it will not constitute a waiver of Respondent's right to a hearing on the matters alleged in an Accusation and the admissions contained herein will have no effect. Respondent agrees that, if the Board rejects this Consent Agreement, the Board may decide the matter after a hearing, and its consideration of this Consent Agreement shall not alone be grounds for claiming that the Board is biased against Respondent, that it cannot fairly decide the case, or that it has received ex parte communication.

7) **Consent Agreement, Decision, and Order.** Respondent agrees that the Board has the authority to enter into this Consent Agreement and to issue the following Decision and Order.

PROPOSED DECISION AND ORDER

IT IS HEREBY ORDERED that any license issued to Respondent by the Board shall be subject to the following terms and conditions:

A. Violation of Agreement

If Respondent fails to comply with any term or condition of this Consent Agreement, the Division may enforce this agreement by immediately suspending Respondent's license, without an additional order from the Board or without a prior hearing, for a violation of this agreement. In addition, any suspended portion of the civil fine will be immediately due.

If Respondent's license is suspended under this paragraph, as provided above, they will be entitled to a hearing, on an expedited basis, regarding the issue of the suspension. If Respondent's license is suspended, they will continue to be responsible for all license requirements pursuant to AS 08.80.

Respondent shall maintain an active license for the entire duration of this Consent Agreement. If the Respondent lets their license lapse, and after receiving adequate notice from the Board fails to correct the problem, the failure to maintain active licensure will be considered a violation of this Consent Agreement.

550 West 7th Avenue, Suite 1500
Anchorage, Alaska 99501-3567
Telephone 907-269-8160 Fax 907-269-8195

B. Respondent Address

It is the responsibility of the Respondent to keep the Board's agent advised, in writing, at all times of their current mailing address, physical address, telephone number, current employment and any change in employment.

Failure to provide notice of any changes within 10 calendar days will constitute grounds for suspension of his or her license in accordance with paragraph 'B' above.

C. Compliance with Laws

Respondent shall obey all federal, state and local laws governing their license.

D. Authorization

Within 10 calendar days of a request by the Board agent, Respondent will sign all authorizations necessary for the release of information required by this Consent Agreement.

E. Good Faith

All parties agree to act in good faith in carrying out the stated intentions of this Consent Agreement.

F. Address of the Board

All required reports or other communication concerning compliance with this Consent Agreement shall be addressed to:

Attn: Holly Handley, Investigator
Division of Corporations, Business and Professional Licensing
550 West 7th Avenue, Suite 1500
Anchorage, Alaska 99501-3567
(907) 269-8124 Fax (907) 269-8195

G. Civil Fine

Respondent shall pay a fine of five thousand dollars ($5,000.00). This civil fine is due within 180 days of the adoption of this agreement and is payable to the "State of Alaska" in cash, certified check, or money order or via credit card.

All payments required by this Consent Agreement shall be addressed to:

IT IS HEREBY FURTHER ORDERED that this Decision and Order shall take effect immediately upon its adoption by the Board of Pharmacy and is a public record of the Board of Pharmacy and the State of Alaska. The State may provide a copy of it to any person or entity, professional licensing board, federal, state, or local government, or other entity making a relevant inquiry.

The action taken by the Board of Pharmacy in this Consent Agreement will be reported to the National Association of Boards of Pharmacy (NABP) and the National Practitioner Data Bank (NPDB) other entities as required by law.

DATED this 5 day of October 2023, at Anchorage, Alaska.

ORDER

The Board of Pharmacy for the State of Alaska, having examined the Consent Agreement and Proposed Decision and Order, Case No. 2022-000434, Respondent, license number #166601, adopts the Consent Agreement and Decision and Order in this matter.

This Consent Agreement takes effect immediately upon signature of this Order in accordance with the approval of the Board of Pharmacy.

The Division may enforce the Consent Agreement by immediately suspending Respondent's license, without an additional order from the Board or without a prior hearing, for a violation of the Consent Agreement.

DATED this 15th day of February, 2024, at Anchorage, Alaska.

NOTICE

Formal disciplinary action has been filed against you. You may lose your license, certificate, registration or permit to practice your profession or occupation. You may be subject to civil penalties of up to $10,000 for each violation, and the imposition of costs of investigation.

If you wish to defend against the charges in the attached order to show cause or to present evidence to mitigate any penalty that may be imposed, the procedures for doing so are explained in the Order to Show Cause.

You have the right to retain an attorney. Although you may represent yourself without an attorney, you are advised to seek the help of an attorney. You also have the right to have an interpreter provided should you request one.

All proceedings are conducted under the Administrative Agency Law and the General Rules of Administrative Practice and Procedures.

You are directed to respond to the charges by filing a written answer within thirty (30) days of the date on the most recent Certificate of Service associated with this Order to Show Cause. IF YOU DO NOT FILE AN ANSWER, DISCIPLINARY ACTION MAY BE TAKEN AGAINST YOU WITHOUT A HEARING. Any answer submitted in this matter must be filed with the Prothonotary for the Department of State via one of the following methods:

By Mail:
Prothonotary

vs.	**Case Nos.**	**21-54-004050** **22-54-008273**
PostMeds Inc **Respondent**		

ORDER TO SHOW CAUSE

AND NOW, this 10th day of May 2023, **PostMeds Inc** ("Respondent") is hereby ORDERED TO SHOW CAUSE why the Pennsylvania State Board of Pharmacy ("Pennsylvania Board"), upon consideration of the Factual Allegations and the applicable law, should not suspend, revoke or otherwise restrict Respondent's registration, impose a civil penalty, or impose the costs of investigation. This action is brought pursuant to the Pharmacy Act, act of September 27, 1961, P.L. 1700, ("Act"), *as amended*, 63 P.S. §§ 390-1 to 390-13; and 63 Pa.C.S. Chapter 31 ("Chapter 31"); and will be conducted in accordance with the Administrative Agency Law, 2 Pa. C.S. §§ 501-508, 701-704, Chapter 31, and the General Rules of Administrative Practice and Procedure ("GRAPP"), 1 Pa. Code §§ 31.1-35.251.

IT IS FURTHER ORDERED that Respondent file an Answer to this Order to Show Cause in writing within thirty (30) days of the date on the most recent Certificate of Service associated with this Order to Show Cause, in accordance with Rule 35.37 of GRAPP, 1 Pa. Code § 35.37, *as amended.*

FACTUAL ALLEGATIONS

1. Respondent holds the following registration to practice as a nonresident pharmacy in the Commonwealth of Pennsylvania: registration no. NP000931.

DOS Prothonotary.
May 10 2023

2. Respondent's registration was originally issued on July 3, 2017, and it is currently set to expire on August 31, 2023.

3. Absent further action by the Pennsylvania Board, the Respondent's registration may be renewed or reactivated upon the filing of the appropriate documentation and payment of the necessary fees.

4. At all times pertinent to the Factual Allegations, Respondent held a registration to practice as a nonresident pharmacy in the Commonwealth of Pennsylvania.

5. Respondent's last known address on file with the Board is: 3131 Diablo Ave, Hayward, CA 94545.

COUNT ONE

6. Paragraphs 1 through 5 are incorporated by reference.

7. At all relevant and material times, Respondent was authorized to practice as a nonresident pharmacy in the State of North Carolina.

8. On or about March 8, 2022, the State of North Carlina Board of Pharmacy ("North Carolina Board"), by way of Consent Order of Discipline, found Respondent to be in violation of the laws, rules, code and/or regulations of the State of North Carolina because Respondent failed to report a restructuring of ownership to the North Carolina Board.

9. In the March 8, 2022 Consent Order of Discipline, the North Carolina Board voided Respondent's permit from the time it was issued until the time the restructuring began and approved Respondent's change of ownership application as a successor permit.

10. A true and correct copy of the North Carolina Board's March 8, 2022 Consent Order of Discipline is attached as **EXHIBIT A** and is incorporated by reference.

DOS Prothonotary
May 10 2023

11. At all relevant and material times, Respondent was authorized to practice as a nonresident pharmacy in the State of Louisiana.

12. On or about May 11, 2022, the State of Louisiana Board of Pharmacy ("Louisiana Board"), by way of Consent Agreement at Louisiana Board Case Number 21-0456, found Respondent to be in violation of the laws, rules, code and/or regulations of the State of Louisiana because Respondent failed to report a restructuring of ownership to the Louisiana Board.

13. In the May 11, 2022 Consent Agreement, the Louisiana Board imposed a ten thousand dollar ($10,000.00) fine, two hundred fifty dollars ($250.00) in administrative costs, and three hundred twenty-four dollars and forty-eight cents ($324.48) in investigative costs.

14. A true and correct copy of the Louisiana Board's May 11, 2022 Consent Agreement, Louisiana Board Case Number 21-0456, is attached as **EXHIBIT B** and is incorporated by reference.

15. At all relevant and material times, Respondent was authorized to practice as a nonresident pharmacy in the State of Kansas.

16. On or about January 20, 2023, the State of Kansas Board of Pharmacy ("Kansas Board"), by way of Amended Summary Order at Kansas Board Case Number 22-183, found Respondent to be in violation of the laws, rules, code and/or regulations of the State of Kansas because Respondent failed to report a restructuring of ownership to the Kansas Board and failed to report disciplinary actions from North Carolina, Alabama, and California which also pertained to a failure to report a restructuring of ownership to each respective Board.

17. In the January 20, 2023 Amended Summary Order, the Kansas Board imposed a three thousand five hundred dollar ($3,500.00) fine.

DOS Prothonotary
May 10 2023

18. A true and correct copy of the Kansas Board's January 20, 2023 Amended Summary Order, Kansas Board Case Number 22-183, is attached as **EXHIBIT C** and is incorporated by reference.

19. Based upon the foregoing Factual Allegations, the Pennsylvania Board is authorized to suspend or revoke, or otherwise restrict Respondent's nonresident pharmacy registration under section 4.1(e) of the Act, 63 P.S. §§ 390-4.1(e); or impose a civil penalty under section 63 Pa.C.S. § 3108(b)(4), and/or impose the costs of investigation under 63 Pa.C.S. § 3108(b)(5), because Respondent violated the Act at section 4.1(g), 63 P.S. § 390-4.1(g), in that Respondent had a permit to conduct a pharmacy suspended or revoked or the nonresident pharmacy was otherwise disciplined by the proper licensing authority of another state.

PENALTIES

If the Pennsylvania Board finds that the Factual Allegations are true and correct, and determines that it has the authority to suspend or revoke the Respondent's registration, the Pennsylvania Board may, in its discretion, impose one or more of the following penalties:

- The revocation, suspension or other restriction of any licenses, certifications, registrations, permits or other authorizations to practice a profession held by Respondent in the Commonwealth of Pennsylvania, or the imposition of any other disciplinary or corrective action that the Act authorizes the Board to impose.
- The imposition of a civil penalty of up to ten thousand dollars ($10,000.00) for each and every violation of the Act. Where criminal proceedings are a basis for a violation of the Act, each count for which the Respondent was convicted may be considered a separate violation of the Act.

DOS Prothonotary
May 10 2023

PROCEDURES

All proceedings are conducted in accordance with the Administrative Agency Law, 2 Pa. C.S. §§ 501-508, 701-704; Chapter 31; and the General Rules of Administrative Practice and Procedure, 1 Pa. Code §§ 31.1-35.251. **RESPONDENT IS HEREBY ORDERED TO FILE A WRITTEN ANSWER TO THIS ORDER TO SHOW CAUSE WITHIN THIRTY (30) DAYS OF THE DATE ON THE MOST RECENT CERTIFICATE OF SERVICE ASSOCIATED WITH THIS ORDER TO SHOW CAUSE.** The Answer shall specifically admit or deny each of the Factual Allegations made herein, and shall set forth the facts and state concisely the matter of law upon which Respondent relies. If Respondent fails to file an Answer within the time allowed herein, the Factual Allegations may be deemed admitted, and the Pennsylvania Board will issue an Order which may impose penalties as set forth above.

If Respondent desires a formal administrative hearing, at which Respondent may defend against the allegations in the Order to Show Cause or to present evidence in mitigation of any penalty which may be imposed upon Respondent or any of Respondent's licenses, certifications, registrations, permits or other authorizations to practice a profession, a written request for hearing must be filed within thirty (30) days of the date on the most recent Certificate of Service associated with this Order to Show Cause. **IF RESPONDENT FAILS TO FILE A WRITTEN REQUEST FOR HEARING WITHIN THIRTY (30) DAYS OF THE DATE ON THE MOST RECENT CERTIFICATE OF SERVICE ASSOCIATED WITH THIS ORDER TO SHOW CAUSE, RESPONDENT WILL BE DEEMED TO HAVE WAIVED HIS OR HER RIGHT TO A HEARING AND FINAL JUDGMENT MAY BE ENTERED WITHOUT A HEARING.**

If a hearing is scheduled, Respondent will be notified of the specific time and place of the hearing. The hearing will be held before the Board or its duly designated Presiding Officer, in

DOS Prothonotary
May 10 2023

accordance with Section 35.185 of GRAPP, 1 Pa. Code § 35.185. Respondent may appear, with or without counsel, offer testimony or other evidence on his or her behalf, and confront and cross-examine the Commonwealth's witnesses.

Answers, requests for hearings, preliminary motions, protests, petitions to intervene, or any other pleading must be filed with the Prothonotary for the Department of State via one of the following methods:

	)	**OF DISCIPLINE**
Permit No. 13413 and Its Successor Permit(s).	)	

THIS MATTER came to be considered before a member of the North Carolina Board of Pharmacy (hereinafter, the "Board") pursuant to 21 N.C.A.C. 46 .2008. The Conference was scheduled for Thursday, February 24, 2022, and, after appropriate notice, was heard on that day by Board member Wallace E. Nelson. Respondent PostMeds, Inc. was informed of its right to be present at the pre-hearing conference and declined. The Board's General Counsel, Clinton R. Pinyan, represented the Board.

Respondent has agreed to waive a formal hearing in the above-referenced matter. It stipulates and agrees to the findings of fact and conclusions of law recited herein and to the order of discipline imposed. By its consent, Respondent also stipulates that it waives its right to appeal this Consent Order or challenge in any way the sufficiency of the findings of this Order as a basis for the action taken. Based upon the consent of the parties, the Board hereby enters the following:

FINDINGS OF FACT

1. On November 20, 2017, the Board issued Permit No. 13413 to Respondent PostMeds, Inc. d/b/a Truepill (Permit No. 13413) ("PostMeds").

2. On PostMeds' initial permit application, its then-pharmacist manager, Mohammad Umar Afridi, submitted an inaccurate statement that he was the sole owner and officer of PostMeds. In fact, PostMeds now acknowledges that Afridi and Siddharth

DOS Prothonotary:
May 10 2023

Viswanathan each owned 47 percent of PostMeds on November 20, 2017, with others owning six percent, and that Viswanathan was also an officer of PostMeds.

3. Viswanathan and the minority owners' interests would not have raised questions about the permit application in this particular case. If PostMeds had disclosed the true ownership and officers of PostMeds, the Board still would have granted PostMeds a permit. However, it was an inaccurate statement that Afridi, as the person who submitted the application, knew was inaccurate. That statement prevented the Board from vetting Viswanathan as the owner of the pharmacy. Because of the inaccuracy of the representations, the initial permit was void ab initio.

4. In November 2019, PostMeds went through a corporate restructuring. During that restructuring, Truepill, Inc. was created as a holding company for PostMeds. At that time, Truepill, Inc. became the sole owner of PostMeds. Afridi, Viswanathan and the other former direct owners of PostMeds became indirect owners with the same ownership interests in the holding company, Truepill, Inc., that they had before the transfer of ownership.

5. This restructuring required PostMeds to submit a transfer of ownership application and have that application granted before the restructuring closed. PostMeds failed to do this. Therefore, even if the initial permit had been valid (which it was not), it would have become invalid upon the corporate restructuring.

6. Insertion of a new holding company between the ultimate owners and PostMeds would not have raised questions about the permit application in this particular case. The ownership interests of the ultimate owners did not change. If PostMeds had disclosed the new holding company, the Board still would have granted the transfer of ownership. However,

DOS Prothonotary:
May 10 2023

3983

PostMeds failed to submit the transfer of ownership application or otherwise disclose the interests of Truepill, Inc.

7. In each of its subsequent renewals, PostMeds failed to correct the ownership information that it had inaccurately submitted on its initial application or to list Truepill, Inc., as the direct owner of the pharmacy.

8. On November 4, 2021, counsel for PostMeds informed the Board that its "current ownership information on file with the North Carolina Board of Pharmacy is out of date." Upon follow-up questioning, the next day, PostMeds disclosed that it should have submitted a transfer of ownership application in November 2019. It further was apparent from the ownership information that PostMeds provided that Afridi made inaccurate representations about ownership and officers on PostMed's initial application that had never been corrected.

9. PostMeds agreed to stop shipping any drugs, devices or medical equipment into the State of North Carolina until the matter was resolved. It further agreed to stop shipping or dispensing any drugs, devices or medical equipment from six other pharmacies under its ownership until the matter was resolved (even though those pharmacies did not receive permits until after the transfer of ownership had occurred, and so did not suffer from the same problem).

10. PostMeds submitted a transfer of ownership application promptly.

11. Although PostMed's disclosure of its inaccuracies was tardy, its remedial actions are a mitigating factor in this matter.

CONCLUSIONS OF LAW

1. Reporting of correct and complete ownership information on an initial pharmacy permit application or a renewal application is material, indeed essential, to the Board's ability to ensure that a pharmacy will provide services safely and competently to the public.

DOS Prothonotary:
May 10 2023

2. PostMeds made inaccurate statements about its ownership and officers on its initial application, which it failed to correct at any point through its 2022 renewal. That initial permit was therefore void ab initio and violated G.S. § 90-85.38(b).

3. The creation of Truepill, Inc. as a holding company further triggered a requirement to report the ownership change and obtain a successor permit, and to do so before the closing of the transaction that created Truepill, Inc. The transaction "result[ed] in a different person . . . owning more than 50 percent interest in the permit holder . . . ." 21 NCAC 46.1603. Failure to apply for and obtain a successor permit prior to the transaction, and a continuing failure to disclose the ownership interest of Truepill, Inc., violated G.S. § 90-85.38(b).

IT IS THEREFORE ORDERED:

PostMeds was in violation of G.S. § 90-85.38(b) in North Carolina from November 20, 2017 until at least November 4, 2021. Respondent PostMed's Permit No. 13413 was **VOID** from the time that it was granted on November 20, 2017. G.S. § 90-85.38(c).

Respondent PostMed's change of ownership application is **APPROVED** as a successor permits to Permit No. 13413 (the "Successor Permit") with the following **CONDITIONS:**

1. PostMeds shall provide timely advance notice of any contemplated change in ownership to the current pharmacist-manager and any future pharmacist-manager(s) of the Successor Permit. PostMeds shall consult with the Successor Permit's pharmacist-manager(s) to determine whether any contemplated transaction triggers the need to obtain new permits. PostMeds shall authorize the Successor Permit's pharmacist-manager(s) to take any necessary action to update that ownership information with the Board or to apply for new permits. If a contemplated transaction triggers the need for new permits, PostMeds shall not complete that

DOS Prothonotary:
May 10 2023

3985

transaction unless and until either the Board issues new permits or PostMeds ceases all practice of pharmacy at the permitted location.

2. The Successor Permit shall violate no laws governing the practice of pharmacy or the distribution of drugs.

3. The Successor Permit shall violate no rules or regulations of the Board.

4. If the Successor Permit fail to comply with any term or condition of this Order, it may be subject to additional disciplinary action by the Board.

This is the 8th day of March, 2022

LOUISIANA BOARD OF PHARMACY

BATON ROUGE, LOUISIANA

IN THE MATTER OF: **CONSENT ORDER**

POSTMEDS, INC.

LOUISIANA PHARMACY PERMIT NO. 7761 **Case No. 21-0456**

****

CONSENT AGREEMENT

WHEREAS, an informal conference was conducted by the Violations Committee of the Louisiana Board of Pharmacy (hereinafter referred to as the "Board") on March 16, 2022 at the Board office, 3388 Brentwood Drive, Baton Rouge, LA 70809, in the matter of POSTMEDS, INC. (hereinafter referred to as "Respondent"), holding Louisiana Pharmacy Permit No. 7761, 3121 Diablo Ave., Hayward, CA 94545-2701, with attorney Skip Philips and Postmeds Corporate Counsel Donnie Simkin appearing on behalf of Respondent.

WHEREAS, WHEREAS, on August 27, 2018, the Louisiana Board of Pharmacy issued a non-resident pharmacy permit, PHY.007761-NR, to Postmeds Inc. At that time, Postmeds Inc. was 31.5% owned by Mohammad Umar Afridi, 31.5% owned by Siddharth Viswanathan, 16.5% owned by Initialized III L.P., and 20.5% owned by others with no individual owner holding more than 4%. On December 17, 2021 the Board received an "Application for New Louisiana Pharmacy Permit for Nonresident Pharmacy" from Postmeds, Inc. d/b/a Truepill. Accompanying correspondence and organization chart detailed a 100% change in the ownership structure of Postmeds Inc., effective November 6, 2019. Postmeds Inc. went from being owned 31.5% by Mohammad Umar Afridi, 31.5% by Siddharth Viswanathan, 16.5% by Initialized III L.P., and 20.5% by others with no individual owner holding more than 4%, to being owned 100% by Truepill, Inc.

WHEREAS, the Board alleges that such actions constitute violations of the following:

La. R.S. 37:1241 (A)(1): Practiced or assisted in the practice of pharmacy, or knowingly permitted or has permitted anyone in his employ or under his supervision to practice or assist in the practice of pharmacy, in violation of the provisions of this Chapter and any rules and regulations promulgated thereto in accordance with the Administrative Procedure Act.

La. R.S. 37:1221(B). No out-of-state pharmacy providing pharmacy services to residents of this state shall open, establish, operate, or maintain a pharmacy, located out-of-state, unless the pharmacy is issued a permit by the board.

La. R.S. 37:1222(A). A person applying for a permit to open, establish, operate, or maintain a pharmacy, within or outside of this state, shall complete an application in such form and contain such data as the board may require, and complete such other requirements as deemed necessary by the board, including but not limited to designation and identification of a pharmacist-in-charge.

DOS Prothonotary:
May 10 2023

3990

La. R.S. 37:1222(E). A permit to operate a pharmacy shall not be transferable.

La. R.S. 37:1232(A). A pharmacy located outside this state which does business in this state within the meaning of this Chapter, shall hold a current pharmacy permit as provided in this Chapter. The pharmacy shall be designated a "nonresident pharmacy" and the permit shall be designated a "nonresident pharmacy permit."

LAC, Title 46: LIII §1101(A). Individuals, partnerships, corporations, limited liability companies, or associations desiring to operate a pharmacy in Louisiana, or outside the state where prescriptions drugs/devices are dispensed and delivered to Louisiana residents, shall execute an application for a pharmacy permit for their particular classification of pharmacy.

LAC, Title 46: LIII §1135(A)(1)(e). The holder of a pharmacy permit shall notify the board, in writing, prior to the transfer of ownership, in order for the board to complete an inspection of the pharmacy premises. A change of ownership of a pharmacy is evident under the following conditions: a 50 percent, or more, change in ownership of a corporation, limited liability company, or association since the issuance of the original permit or the last renewal application.

LAC, Title 46: LIII §1135(A)(2). The new owner(s) of the pharmacy shall submit a properly completed pharmacy permit application, with appropriate fee, to the board.

LAC, Title 46: LIII §1135(A)(4). Pharmacy permits are not transferable from the original holder(s) of the permit to the new owner(s).

LAC, Title 46: LIII §2305(A). The out-of-state pharmacy shall apply for a permit and annual permit renewals on forms provided by the board.

LAC, Title 46: LIII §2307(C). Authority and Accountability. The designated pharmacist-in-charge of the pharmacy and the pharmacy owner(s), or partners, or corporate officer(s) of the permit holder, where applicable, shall be responsible for the complete supervision, management, and compliance with all federal and state pharmacy laws and regulations pertaining to the practice of pharmacy of the entire prescription department. This responsibility necessarily includes accountability for any violation involving federal or state laws or regulations occurring within the prescription department supervised by a pharmacist-in-charge.

To facilitate the submission of this Consent Agreement, Respondent does not contest the allegations and agrees that there is sufficient evidence upon which to predicate a finding of those violations.

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

DOS Prothonotary:
May 10 2023

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

In order to avoid further administrative and judicial proceedings, Respondent hereby consents to accept and abide by the following order of the Board:

POSTMEDS, INC., holder of Louisiana Pharmacy Permit No. 7761, is ordered to pay a fine of $10,000.00 and to reimburse the Board $250.00 for administrative costs, and $324.48 for investigative costs with total payment due the Board of $10,574.80, due by *certified check or money order* to be paid simultaneously with the execution of this Consent Agreement by Respondent.

By signing this Consent Agreement, Respondent agrees that the Board has jurisdiction in this matter, waives all rights to informal conference, to Notice of Hearing, to a formal Administrative Hearing and to judicial review of this Consent Agreement. Moreover, at no time shall Respondent request the expungement, rescission or removal of this Consent Agreement.

By signing this Consent Agreement, Respondent agrees that any failure to comply with the terms of this Agreement is a basis for discipline by the Board.

Both Respondent and the Board stipulate that this Consent Order shall not become effective and shall not become binding on the Board unless and until approved by the Board at formal meeting. However, Respondent agrees that this Consent Order shall be effective and binding upon Respondent without recourse upon its authorized representative signing said Order.

Respondent agrees to authorize the Board to report this action to the National Practitioner Data Bank – Healthcare Integrity and Protection Data Bank (NPDB-HIPDB) as required by law.

I, Matt Davis-Ratner, authorized to act on behalf of and acting on behalf of **POSTMEDS, INC.**, understand that this Consent Agreement is effective as a Board Order upon affirmative vote by the Board at formal hearing. It is also understood that, should the Board not approve this Consent Agreement, the agreement therein does not preclude the Louisiana Board of Pharmacy from requiring a formal hearing of this case.

It is further understood that, should this Consent Agreement not be accepted by the Board, the presentation to and consideration by the Board of this Agreement, including presented documentary evidence and information, shall not unfairly or illegally prejudice or preclude the Board or any of its members from further participation in hearings or resolution of these proceedings.

In the Matter of	)	
	)	Case No. 22-183
PostMeds, Inc dba Truepill	)	
	)	
Registration No. 22-117859	)	

AMENDED SUMMARY ORDER

NOW on this 20th day of January, 2023, comes before the Kansas Board of Pharmacy (the "Board"), through its Executive Director, the matter of PostMeds, Inc dba Truepill ("Respondent").

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq.*, and in accordance with the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq.*, the Board's Executive Secretary enters this Amended Summary Order in the above-captioned matter. After reviewing the investigation materials and being otherwise duly advised in the premises, makes the following findings, conclusions and order:

FINDINGS OF FACT

1. The Board has previously issued Respondent Registration No. 22-104228 which entitled Respondent to operate as a non-resident pharmacy in the State of Kansas.

2. On November 6, 2019, the ownership of Respondent's non-resident pharmacy changed.

3. On May 22, 2020, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 3, 2020 with an expiration date of June 30, 2021. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?"

DOS Prothonotary:
May 10 2023

Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

4. On June 1, 2021, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 21, 2021 with an expiration date of June 30, 2022. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?" Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

5. Due to staffing challenges, personnel turnover and administrative oversight resulting from its early, rapid growth and restructuring and the corresponding COVID-19 pandemic, Respondent mistakenly failed to report the 2019 ownership change and related disclosures to the Board in its May 22, 2020 and June 1, 2021 renewal applications.

6. On April 18, 2022, the Board received notification from Respondent of an ownership change and several past disciplinary actions not previously reported to the Board including: North Carolina Board of Pharmacy Consent Order of Discipline dated March 8, 2022; California State Board of Pharmacy Letter of Admonishment dated January 23, 2020; California State Board of Pharmacy Citation and Fine dated June 16, 2020; California State Board of Pharmacy Citation and Fine Order of Abatement dated August 25, 2021; Alabama State Board of Pharmacy Final Order dated October 25, 2021; California State Board of Pharmacy Citation and Fine dated January 24, 2019; and California State Board of Pharmacy Citation dated December 16, 2019.

DOS Prothonotary:
May 10 2023

3995

7. On April 28, 2022, the Board received from Respondent a Form BA-22 Non-Resident Pharmacy Registration Application ("Respondent's Application"), notifying of the change in ownership effective November 6, 2019, and applying for a new non-resident pharmacy registration under the new ownership.

8. On May 20, 2022, the Board approved Respondent's Application and issued Respondent the new Non-Resident Pharmacy Registration No. of 22-117859 ("Respondent's Registration") under their new ownership.

9. Prior to receiving the ownership change application, registrant provided a letter notifying of the late ownership change, as well as unreported discipline. Ownership change application completed indicating discipline had occurred and providing details of discipline (5 occurrences).

10. In mitigation, Respondent states that it has invested in additional staff, engaged internal and external legal counsel and implemented training efforts to prevent any such reporting oversights in the future.

CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.S.A. 65-1627(f), the Board may take action against a registration on any ground that would authorize the board to take action against the registration of a pharmacy under K.S.A. 65-1627, and amendments thereto.

3. Pursuant to K.S.A. 65-1627(e)(1), the Board may take action against the registration of a pharmacy upon a finding that such pharmacy has been operated in such manner

DOS Prothonotary:
May 10 2023

3996

that violations of the provisions of the pharmacy act of the state of Kansas or of the rules and regulations of the board have occurred in connection therewith.

4. Pursuant to K.S.A. 65-1627(e)(4), the Board may take action against the registration of a pharmacy upon a finding that the registrant has had a registration revoked, suspended or limited, has been censured or has had other disciplinary action taken, or an application for registration denied, by the proper registering authority of another state, territory, District of Columbia or other country.

5. Pursuant to K.S.A. 65-1657, no nonresident pharmacy shall ship, mail, or deliver, in any manner, prescription drugs to a patient in this state unless registered with the Board as a nonresident pharmacy.

6. Pursuant to K.S.A. 65-1645(f), registrations shall not be transferable.

7. Pursuant to K.A.R. 68-2-9, each registrant shall notify the executive secretary of the Board in writing of any change in majority ownership of the operation for which the registration was issued within five days after the date the change in ownership becomes effective.

8. Pursuant to K.A.R. 68-2-23, each pharmacy owner shall notify the board in writing within 30 days of any denial, limitation, suspension, revocation, voluntary surrender, or other disciplinary action taken by the state of Kansas or another jurisdiction against the pharmacy or the pharmacy owner or any application, license, registration, or permit held by the pharmacy owner.

9. Respondent's registered facility changed ownership on November 6, 2019 but Respondent did not provide notification or file a new application with the Board until April 18 and 28, 2022, respectively.

10. Respondent's failure to submit the complete change of ownership to the Board until April 2022 is a violation pursuant to K.A.R. 68-2-9 and an unlawful transfer of the previous

DOS Prothonotary:
May 10 2023

3997

registration to the new ownership. Respondent's actions are a violation pursuant to K.S.A. 65-1657 and K.S.A. 65-1627(e)(1), and a basis to take action against Respondent's Registration.

11. Respondent failed to notify the Board of the six disciplinary actions by North Carolina, California, and Alabama until April 18, 2022, nearly one to two years after they were effective, is a violation of K.A.R. 68-2-23 and a basis to take action against Respondent's Registration pursuant to K.S.A. 65-1627(e)(1) and (e)(4).

ORDER

Taking into account the mitigating and corrective actions of Respondent, the Board finds and concludes that Respondent's conduct, as described above, violates the Act and such conduct warrants the imposition of a fine pursuant to K.S.A. 65-1658, in the amount of $3,500.00. Respondent has 30 days from the date of this order to pay the fine.

NOTICES

The Respondent is hereby notified as follows:

1. The Respondent may request a hearing pursuant to the Kansas Administrative Procedure Act by filing a written request with the Kansas Board of Pharmacy, 800 SW Jackson, Suite 1414, Topeka, KS 66612-1231 within fifteen (15) days after service of this order.

2. If a hearing is not requested as described above, the Order shall become a final order of the Board, effective upon the expiration of the time to request a hearing.

3. Within fifteen (15) days after entry of a final agency order, either party may file a petition for reconsideration pursuant to K.S.A. 77-529.

4. Within the time limits established in K.S.A. 77-613, either party may seek judicial review of a final agency order, pursuant to said statute. The agency officer designated to receive service of a petition for judicial review is:

CONSENT ORDER

THIS MATTER comes before the Alabama State Board of Pharmacy (hereinafter referred to as the "Board") on a complaint against **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.** which resulted in the filing of a Statement of Charges and Notice of Hearing ("Statement") alleging violations of the Alabama Pharmacy Practice Act as are more particularly set out in the Statement which is attached hereto as **Exhibit "A."**

Prior to a hearing in this cause, and pursuant to Code of Alabama (1975), § 41-22-12(f), the matters at issue were resolved informally by the parties and the parties negotiated a Consent Order, the terms of which are as follows:

1. The Board finds that **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.** has violated the provisions of law set out in the Statement.

2. **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.** shall pay an administrative fine in the amount of Three Thousand Dollars ($3,000.00) within thirty (30) days of the effective date of this consent order that being the day the same is signed on behalf of the Board. This payment shall not be subject to discharge in bankruptcy nor shall **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.** attempt to discharge the same. Payments shall be made payable to Alabama State Board of Pharmacy and mailed to 111 Village Street, Birmingham, Alabama 35242.

3. **PostMeds Inc. dba Truepill and/or Truepill f/k/a PostMeds Inc.** expressly waives its rights pursuant to the Alabama Pharmacy Practice Act, the Alabama

BEFORE THE KANSAS BOARD OF PHARMACY

In the Matter of	)	
	)	Case No. 22-183
PostMeds, Inc dba Truepill	)	
	)	
Registration No. 22-117859	)	

AMENDED SUMMARY ORDER

NOW on this 20th day of January, 2023, comes before the Kansas Board of Pharmacy (the "Board"), through its Executive Director, the matter of PostMeds, Inc dba Truepill ("Respondent").

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq.*, and in accordance with the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq.*, the Board's Executive Secretary enters this Amended Summary Order in the above-captioned matter. After reviewing the investigation materials and being otherwise duly advised in the premises, makes the following findings, conclusions and order:

FINDINGS OF FACT

1. The Board has previously issued Respondent Registration No. 22-104228 which entitled Respondent to operate as a non-resident pharmacy in the State of Kansas.

2. On November 6, 2019, the ownership of Respondent's non-resident pharmacy changed.

3. On May 22, 2020, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 3, 2020 with an expiration date of June 30, 2021. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?"

Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

4. On June 1, 2021, the Board received a renewal application for Respondent's Registration No. 22-104228, which was approved on June 21, 2021 with an expiration date of June 30, 2022. Respondent answered "No" to the question: "Has any license or registration, currently or previously held by the applicant or the PIC been surrendered to, denied, disciplined, censured, suspended, limited, placed on probation, or revoked by any state of federal government?" Respondent certified the information submitted was true, correct, and complete to the best of Respondent's knowledge.

5. Due to staffing challenges, personnel turnover and administrative oversight resulting from its early, rapid growth and restructuring and the corresponding COVID-19 pandemic, Respondent mistakenly failed to report the 2019 ownership change and related disclosures to the Board in its May 22, 2020 and June 1, 2021 renewal applications.

6. On April 18, 2022, the Board received notification from Respondent of an ownership change and several past disciplinary actions not previously reported to the Board including: North Carolina Board of Pharmacy Consent Order of Discipline dated March 8, 2022; California State Board of Pharmacy Letter of Admonishment dated January 23, 2020; California State Board of Pharmacy Citation and Fine dated June 16, 2020; California State Board of Pharmacy Citation and Fine Order of Abatement dated August 25, 2021; Alabama State Board of Pharmacy Final Order dated October 25, 2021; California State Board of Pharmacy Citation and Fine dated January 24, 2019; and California State Board of Pharmacy Citation dated December 16, 2019.

7. On April 28, 2022, the Board received from Respondent a Form BA-22 Non-Resident Pharmacy Registration Application ("Respondent's Application"), notifying of the change in ownership effective November 6, 2019, and applying for a new non-resident pharmacy registration under the new ownership.

8. On May 20, 2022, the Board approved Respondent's Application and issued Respondent the new Non-Resident Pharmacy Registration No. of 22-117859 ("Respondent's Registration") under their new ownership.

9. Prior to receiving the ownership change application, registrant provided a letter notifying of the late ownership change, as well as unreported discipline. Ownership change application completed indicating discipline had occurred and providing details of discipline (5 occurrences).

10. In mitigation, Respondent states that it has invested in additional staff, engaged internal and external legal counsel and implemented training efforts to prevent any such reporting oversights in the future.

CONCLUSIONS OF LAW

1. Pursuant to K.S.A. 65-1658, the Board may assess a civil fine not to exceed $5,000, after notice and an opportunity to be heard, to any registrant for violation of the pharmacy act of the state of Kansas or any other rules or regulations of the state board of pharmacy.

2. Pursuant to K.S.A. 65-1627(f), the Board may take action against a registration on any ground that would authorize the board to take action against the registration of a pharmacy under K.S.A. 65-1627, and amendments thereto.

3. Pursuant to K.S.A. 65-1627(e)(1), the Board may take action against the registration of a pharmacy upon a finding that such pharmacy has been operated in such manner

that violations of the provisions of the pharmacy act of the state of Kansas or of the rules and regulations of the board have occurred in connection therewith.

4. Pursuant to K.S.A. 65-1627(e)(4), the Board may take action against the registration of a pharmacy upon a finding that the registrant has had a registration revoked, suspended or limited, has been censured or has had other disciplinary action taken, or an application for registration denied, by the proper registering authority of another state, territory, District of Columbia or other country.

5. Pursuant to K.S.A. 65-1657, no nonresident pharmacy shall ship, mail, or deliver, in any manner, prescription drugs to a patient in this state unless registered with the Board as a nonresident pharmacy.

6. Pursuant to K.S.A. 65-1645(f), registrations shall not be transferable.

7. Pursuant to K.A.R. 68-2-9, each registrant shall notify the executive secretary of the Board in writing of any change in majority ownership of the operation for which the registration was issued within five days after the date the change in ownership becomes effective.

8. Pursuant to K.A.R. 68-2-23, each pharmacy owner shall notify the board in writing within 30 days of any denial, limitation, suspension, revocation, voluntary surrender, or other disciplinary action taken by the state of Kansas or another jurisdiction against the pharmacy or the pharmacy owner or any application, license, registration, or permit held by the pharmacy owner.

9. Respondent's registered facility changed ownership on November 6, 2019 but Respondent did not provide notification or file a new application with the Board until April 18 and 28, 2022, respectively.

10. Respondent's failure to submit the complete change of ownership to the Board until April 2022 is a violation pursuant to K.A.R. 68-2-9 and an unlawful transfer of the previous

registration to the new ownership. Respondent's actions are a violation pursuant to K.S.A. 65-1657 and K.S.A. 65-1627(e)(1), and a basis to take action against Respondent's Registration.

11. Respondent failed to notify the Board of the six disciplinary actions by North Carolina, California, and Alabama until April 18, 2022, nearly one to two years after they were effective, is a violation of K.A.R. 68-2-23 and a basis to take action against Respondent's Registration pursuant to K.S.A. 65-1627(e)(1) and (e)(4).

ORDER

Taking into account the mitigating and corrective actions of Respondent, the Board finds and concludes that Respondent's conduct, as described above, violates the Act and such conduct warrants the imposition of a fine pursuant to K.S.A. 65-1658, in the amount of $3,500.00. Respondent has 30 days from the date of this order to pay the fine.

NOTICES

The Respondent is hereby notified as follows:

1. The Respondent may request a hearing pursuant to the Kansas Administrative Procedure Act by filing a written request with the Kansas Board of Pharmacy, 800 SW Jackson, Suite 1414, Topeka, KS 66612-1231 within fifteen (15) days after service of this order.

2. If a hearing is not requested as described above, the Order shall become a final order of the Board, effective upon the expiration of the time to request a hearing.

3. Within fifteen (15) days after entry of a final agency order, either party may file a petition for reconsideration pursuant to K.S.A. 77-529.

4. Within the time limits established in K.S.A. 77-613, either party may seek judicial review of a final agency order, pursuant to said statute. The agency officer designated to receive service of a petition for judicial review is:

Alexandra Blasi
Executive Secretary
Kansas Board of Pharmacy
800 SW Jackson, Suite 1414
Topeka, KS 66612

IT IS SO ORDERED.

LOUISIANA BOARD OF PHARMACY

BATON ROUGE, LOUISIANA

IN THE MATTER OF: **CONSENT ORDER**

POSTMEDS, INC.

LOUISIANA PHARMACY PERMIT NO. 7761 **Case No. 21-0456**

****

CONSENT AGREEMENT

WHEREAS, an informal conference was conducted by the Violations Committee of the Louisiana Board of Pharmacy (hereinafter referred to as the "Board") on March 16, 2022 at the Board office, 3388 Brentwood Drive, Baton Rouge, LA 70809, in the matter of POSTMEDS, INC. (hereinafter referred to as "Respondent"), holding Louisiana Pharmacy Permit No. 7761, 3121 Diablo Ave., Hayward, CA 94545-2701, with attorney Skip Philips and Postmeds Corporate Counsel Donnie Simkin appearing on behalf of Respondent.

WHEREAS, WHEREAS, on August 27, 2018, the Louisiana Board of Pharmacy issued a non-resident pharmacy permit, PHY.007761-NR, to Postmeds Inc. At that time, Postmeds Inc. was 31.5% owned by Mohammad Umar Afridi, 31.5% owned by Siddharth Viswanathan, 16.5% owned by Initialized III L.P., and 20.5% owned by others with no individual owner holding more than 4%. On December 17, 2021 the Board received an "Application for New Louisiana Pharmacy Permit for Nonresident Pharmacy" from Postmeds, Inc. d/b/a Truepill. Accompanying correspondence and organization chart detailed a 100% change in the ownership structure of Postmeds Inc., effective November 6, 2019. Postmeds Inc. went from being owned 31.5% by Mohammad Umar Afridi, 31.5% by Siddharth Viswanathan, 16.5% by Initialized III L.P., and 20.5% by others with no individual owner holding more than 4%, to being owned 100% by Truepill, Inc.

WHEREAS, the Board alleges that such actions constitute violations of the following:

La. R.S. 37:1241 (A)(1): Practiced or assisted in the practice of pharmacy, or knowingly permitted or has permitted anyone in his employ or under his supervision to practice or assist in the practice of pharmacy, in violation of the provisions of this Chapter and any rules and regulations promulgated thereto in accordance with the Administrative Procedure Act.

La. R.S. 37:1221(B). No out-of-state pharmacy providing pharmacy services to residents of this state shall open, establish, operate, or maintain a pharmacy, located out-of-state, unless the pharmacy is issued a permit by the board.

La. R.S. 37:1222(A). A person applying for a permit to open, establish, operate, or maintain a pharmacy, within or outside of this state, shall complete an application in such form and contain such data as the board may require, and complete such other requirements as deemed necessary by the board, including but not limited to designation and identification of a pharmacist-in-charge.

La. R.S. 37:1222(E). A permit to operate a pharmacy shall not be transferable.

La. R.S. 37:1232(A). A pharmacy located outside this state which does business in this state within the meaning of this Chapter, shall hold a current pharmacy permit as provided in this Chapter. The pharmacy shall be designated a "nonresident pharmacy" and the permit shall be designated a "nonresident pharmacy permit."

LAC, Title 46: LIII §1101(A). Individuals, partnerships, corporations, limited liability companies, or associations desiring to operate a pharmacy in Louisiana, or outside the state where prescriptions drugs/devices are dispensed and delivered to Louisiana residents, shall execute an application for a pharmacy permit for their particular classification of pharmacy.

LAC, Title 46: LIII §1135(A)(1)(e). The holder of a pharmacy permit shall notify the board, in writing, prior to the transfer of ownership, in order for the board to complete an inspection of the pharmacy premises. A change of ownership of a pharmacy is evident under the following conditions: a 50 percent, or more, change in ownership of a corporation, limited liability company, or association since the issuance of the original permit or the last renewal application.

LAC, Title 46: LIII §1135(A)(2). The new owner(s) of the pharmacy shall submit a properly completed pharmacy permit application, with appropriate fee, to the board.

LAC, Title 46: LIII §1135(A)(4). Pharmacy permits are not transferable from the original holder(s) of the permit to the new owner(s).

LAC, Title 46: LIII §2305(A). The out-of-state pharmacy shall apply for a permit and annual permit renewals on forms provided by the board.

LAC, Title 46: LIII §2307(C). Authority and Accountability. The designated pharmacist-in-charge of the pharmacy and the pharmacy owner(s), or partners, or corporate officer(s) of the permit holder, where applicable, shall be responsible for the complete supervision, management, and compliance with all federal and state pharmacy laws and regulations pertaining to the practice of pharmacy of the entire prescription department. This responsibility necessarily includes accountability for any violation involving federal or state laws or regulations occurring within the prescription department supervised by a pharmacist-in-charge.

To facilitate the submission of this Consent Agreement, Respondent does not contest the allegations and agrees that there is sufficient evidence upon which to predicate a finding of those violations.

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

In order to avoid further administrative and judicial proceedings, Respondent hereby consents to accept and abide by the following order of the Board:

POSTMEDS, INC., holder of Louisiana Pharmacy Permit No. 7761, is ordered to pay a fine of $10,000.00 and to reimburse the Board $250.00 for administrative costs, and $324.48 for investigative costs with total payment due the Board of $10,574.80, due by *certified check or money order* to be paid simultaneously with the execution of this Consent Agreement by Respondent.

By signing this Consent Agreement, Respondent agrees that the Board has jurisdiction in this matter, waives all rights to informal conference, to Notice of Hearing, to a formal Administrative Hearing and to judicial review of this Consent Agreement. Moreover, at no time shall Respondent request the expungement, rescission or removal of this Consent Agreement.

By signing this Consent Agreement, Respondent agrees that any failure to comply with the terms of this Agreement is a basis for discipline by the Board.

Both Respondent and the Board stipulate that this Consent Order shall not become effective and shall not become binding on the Board unless and until approved by the Board at formal meeting. However, Respondent agrees that this Consent Order shall be effective and binding upon Respondent without recourse upon its authorized representative signing said Order.

Respondent agrees to authorize the Board to report this action to the National Practitioner Data Bank – Healthcare Integrity and Protection Data Bank (NPDB-HIPDB) as required by law.

I, Matt Davis-Ratner, authorized to act on behalf of and acting on behalf of **POSTMEDS, INC.**, understand that this Consent Agreement is effective as a Board Order upon affirmative vote by the Board at formal hearing. It is also understood that, should the Board not approve this Consent Agreement, the agreement therein does not preclude the Louisiana Board of Pharmacy from requiring a formal hearing of this case.

It is further understood that, should this Consent Agreement not be accepted by the Board, the presentation to and consideration by the Board of this Agreement, including presented documentary evidence and information, shall not unfairly or illegally prejudice or preclude the Board or any of its members from further participation in hearings or resolution of these proceedings.

APPROVED FOR SUBMISSION TO THE LOUISIANA BOARD OF PHARMACY:

CARLOS M. FINALET, III
General Counsel, Louisiana Board of Pharmacy

ACCEPTANCE OF THE CONSENT AGREEMENT BY THE LOUISIANA BOARD OF PHARMACY:

By a majority vote of the Board members voting in favor of the foregoing Consent Agreement at the Board meeting on May 11, **2022**, the Board hereby adopts said Agreement as a Final Order of the Board.

FOR THE BOARD:

Marty R. McKay
Hearing Officer for the Board

STATE OF NORTH CAROLINA
NORTH CAROLINA BOARD OF PHARMACY

IN THE MATTER OF	)	
	)	
POSTMEDS, INC. d/b/a Truepill,	)	**CONSENT ORDER**
	)	**OF DISCIPLINE**
Permit No. 13413 and Its Successor Permit(s).	)	

THIS MATTER came to be considered before a member of the North Carolina Board of Pharmacy (hereinafter, the "Board") pursuant to 21 N.C.A.C. 46 .2008. The Conference was scheduled for Thursday, February 24, 2022, and, after appropriate notice, was heard on that day by Board member Wallace E. Nelson. Respondent PostMeds, Inc. was informed of its right to be present at the pre-hearing conference and declined. The Board's General Counsel, Clinton R. Pinyan, represented the Board.

Respondent has agreed to waive a formal hearing in the above-referenced matter. It stipulates and agrees to the findings of fact and conclusions of law recited herein and to the order of discipline imposed. By its consent, Respondent also stipulates that it waives its right to appeal this Consent Order or challenge in any way the sufficiency of the findings of this Order as a basis for the action taken. Based upon the consent of the parties, the Board hereby enters the following:

FINDINGS OF FACT

1. On November 20, 2017, the Board issued Permit No. 13413 to Respondent PostMeds, Inc. d/b/a Truepill (Permit No. 13413) ("PostMeds").

2. On PostMeds' initial permit application, its then-pharmacist manager, Mohammad Umar Afridi, submitted an inaccurate statement that he was the sole owner and officer of PostMeds. In fact, PostMeds now acknowledges that Afridi and Siddharth

Viswanathan each owned 47 percent of PostMeds on November 20, 2017, with others owning six percent, and that Viswanathan was also an officer of PostMeds.

3. Viswanathan and the minority owners' interests would not have raised questions about the permit application in this particular case. If PostMeds had disclosed the true ownership and officers of PostMeds, the Board still would have granted PostMeds a permit. However, it was an inaccurate statement that Afridi, as the person who submitted the application, knew was inaccurate. That statement prevented the Board from vetting Viswanathan as the owner of the pharmacy. Because of the inaccuracy of the representations, the initial permit was void ab initio.

4. In November 2019, PostMeds went through a corporate restructuring. During that restructuring, Truepill, Inc. was created as a holding company for PostMeds. At that time, Truepill, Inc. became the sole owner of PostMeds. Afridi, Viswanathan and the other former direct owners of PostMeds became indirect owners with the same ownership interests in the holding company, Truepill, Inc., that they had before the transfer of ownership.

5. This restructuring required PostMeds to submit a transfer of ownership application and have that application granted before the restructuring closed. PostMeds failed to do this. Therefore, even if the initial permit had been valid (which it was not), it would have become invalid upon the corporate restructuring.

6. Insertion of a new holding company between the ultimate owners and PostMeds would not have raised questions about the permit application in this particular case. The ownership interests of the ultimate owners did not change. If PostMeds had disclosed the new holding company, the Board still would have granted the transfer of ownership. However,

PostMeds failed to submit the transfer of ownership application or otherwise disclose the interests of Truepill, Inc.

7. In each of its subsequent renewals, PostMeds failed to correct the ownership information that it had inaccurately submitted on its initial application or to list Truepill, Inc., as the direct owner of the pharmacy.

8. On November 4, 2021, counsel for PostMeds informed the Board that its "current ownership information on file with the North Carolina Board of Pharmacy is out of date." Upon follow-up questioning, the next day, PostMeds disclosed that it should have submitted a transfer of ownership application in November 2019. It further was apparent from the ownership information that PostMeds provided that Afridi made inaccurate representations about ownership and officers on PostMed's initial application that had never been corrected.

9. PostMeds agreed to stop shipping any drugs, devices or medical equipment into the State of North Carolina until the matter was resolved. It further agreed to stop shipping or dispensing any drugs, devices or medical equipment from six other pharmacies under its ownership until the matter was resolved (even though those pharmacies did not receive permits until after the transfer of ownership had occurred, and so did not suffer from the same problem).

10. PostMeds submitted a transfer of ownership application promptly.

11. Although PostMed's disclosure of its inaccuracies was tardy, its remedial actions are a mitigating factor in this matter.

CONCLUSIONS OF LAW

1. Reporting of correct and complete ownership information on an initial pharmacy permit application or a renewal application is material, indeed essential, to the Board's ability to ensure that a pharmacy will provide services safely and competently to the public.

2. PostMeds made inaccurate statements about its ownership and officers on its initial application, which it failed to correct at any point through its 2022 renewal. That initial permit was therefore void ab initio and violated G.S. § 90-85.38(b).

3. The creation of Truepill, Inc. as a holding company further triggered a requirement to report the ownership change and obtain a successor permit, and to do so before the closing of the transaction that created Truepill, Inc. The transaction "result[ed] in a different person . . . owning more than 50 percent interest in the permit holder . . . ." 21 NCAC 46.1603. Failure to apply for and obtain a successor permit prior to the transaction, and a continuing failure to disclose the ownership interest of Truepill, Inc., violated G.S. § 90-85.38(b).

IT IS THEREFORE ORDERED:

PostMeds was in violation of G.S. § 90-85.38(b) in North Carolina from November 20, 2017 until at least November 4, 2021. Respondent PostMed's Permit No. 13413 was **VOID** from the time that it was granted on November 20, 2017. G.S. § 90-85.38(c).

Respondent PostMed's change of ownership application is **APPROVED** as a successor permits to Permit No. 13413 (the "Successor Permit") with the following **CONDITIONS:**

1. PostMeds shall provide timely advance notice of any contemplated change in ownership to the current pharmacist-manager and any future pharmacist-manager(s) of the Successor Permit. PostMeds shall consult with the Successor Permit's pharmacist-manager(s) to determine whether any contemplated transaction triggers the need to obtain new permits. PostMeds shall authorize the Successor Permit's pharmacist-manager(s) to take any necessary action to update that ownership information with the Board or to apply for new permits. If a contemplated transaction triggers the need for new permits, PostMeds shall not complete that

transaction unless and until either the Board issues new permits or PostMeds ceases all practice of pharmacy at the permitted location.

2. The Successor Permit shall violate no laws governing the practice of pharmacy or the distribution of drugs.

3. The Successor Permit shall violate no rules or regulations of the Board.

4. If the Successor Permit fail to comply with any term or condition of this Order, it may be subject to additional disciplinary action by the Board.

This is the 8th day of March, 2022

Respondent PostMeds, Inc. has full knowledge that it has the right to a formal hearing, at which it would have the right to be represented at its expense by counsel, in this matter. Respondent freely, knowingly and voluntarily waives its right to such a hearing by entering into this Consent Order.

Respondent understands and agrees that by entering into this Consent Order, it certifies that it has read the foregoing Consent Order and that it voluntarily consents to the terms and conditions set forth therein and relinquishes any right to judicial review of Board actions that may be taken concerning this matter.

Respondent further understands that should it violate the terms and conditions of this Consent Order, the Board may take additional action.

Respondent understands and agrees that this Consent Order will not become effective unless and until approved by the Board.

Respondent understands that it has the right to have counsel of its choice review and advise them with respect to their rights and this Consent Order, and represents that it enters this Consent Order after consultation with counsel or after knowingly and voluntarily choosing not to consult with counsel. Respondent further agrees that the person who is executing this Consent Order has been duly authorized by any required corporation action to execute on behalf of Respondent.

JURISDICTION: Bus. & Prof. Code § 4314; CCR, title 16, § 1775; Bus. & Prof. Code § 4301, subd. (o)

VIOLATION CODE SECTION	OFFENSE	AMT OF FINE
CCR, Title 16, § 1714 subd. (b)	Operational Standards and Security; pharmacy responsible for pharmacy security	$5,000.00
Bus. & Prof. Code § 4169 subd. (a)(2)/Health & Safety Code § 111295	Prohibited Acts; Purchase, trade, sell, or transfer dangerous drugs to that the person knew or reasonably should have known were adulterated.../It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any drug or device that is adulterated	Citation without a fine

CONDUCT:

California Code of Regulations 1714, section b states, (b) Each pharmacy licensed by the board shall maintain its facilities, space, fixtures, and equipment so that drugs are safely and properly prepared, maintained, secured and distributed. The pharmacy shall be of sufficient size and unobstructed area to accommodate the safe practice of pharmacy. Specifically, Truepill Pharmacy, PHY56100, located at 3121 Diablo Ave, Hayward, CA 94545 was in violation when they failed to keep dangerous drugs stored according to policy and procedure 2001.4, Oversight of Pharmacy Safety, which states: "The Pharmacy will make all attempts at maintaining a room temperature below 85F and ideally between 68-77F". Between 7/1/2020 and 9/14/2020, on numerous occasions, dangerous drug storage temperatures, summarized in Table 2, exceeded the recommended storage temperatures. The most egregious of these temperature spikes were:

a)On 8/13/2020, in the cage area of the warehouse, dangerous drugs were stored approximately 161 hours over 77 F and 47 hours over 85F.
b)On 9/6/2020, in the cage area of the warehouse, dangerous drugs were stored approximately 59 hours over 77 F and 17 hours above 85F.
c)On 8/13/2020, in the Parata Automated dispensing machine located in the warehouse, dangerous drugs were stored for approximately 163 hours above 77 F and 44 hours above 85 F.

Business and Professions Code 4169 section (a), subdivision (2) states, A person or entity shall not do any of the following: (2) Purchase, trade, sell, or transfer dangerous drugs that the person knew or reasonably should have known were adulterated, as set forth in Article 2 (commencing with Section 111250) of Chapter 6 of Part 5 of Division 104 of the Health and Safety Code as it relates to Health and Safety Code 111295 which states, It is unlawful for any person to manufacture, sell, deliver, hold or offer for sale any drug or device that is adulterated. Specifically, Truepill Pharmacy, PHY56100, located at3121 Diablo Ave, Hayward, CA 94545 was in violation when they used the MKT calculation alone instead of in conjunction with manufactures stability data as stated in USP <1079>, which provides guidance for assessing possible adulteration to dangerous drugs stored at the pharmacy due to excessive heat. In particular, USP<1079> states, "Knowing the MKT for an excursion is useful for evaluating the potential impact on product quality. However, it is also essential to know the upper and lower temperature limits of any excursion. If these extreme temperatures are outside available stability data, it may not be possible to predict the quality impact of the excursion with any confidence regardless of the MKT. At higher temperatures the kinetics of degradation may change or new degradation reactions may occur. Truepill Pharmacy did not consider the manufacture's stability data for at least 72 dangerous drugs stored in the cage area of the warehouse which were held and offered for sale when determining if a dangerous drug was adulterated by the extreme heat, summarized in Table 3. For each one of the 72 dangerous drugs, the maximum temperature for storage was listed by the manufacturer as 77F or storage information was not listed. As there was no stability temperature for at least the 72 drugs in question and per USP<1079>, the MKT cannot be without the stability data, these drugs which were held and offered for sale were adulterated.

ORDER OF ABATEMENT

By the Abatement date/payment date submit to the Board the following:

- Either (1) full payment of the assessed fine(s) in the amount of $5,000.00; or payment in the amount of $1,000.00 and (2) provide proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within ninety (90) days.

COPY

If you choose option (2), within 90 days of this citation, you shall submit proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations. Any failure to do so shall be deemed a failure to meet the abatement requirements of this citation.

If you timely submit proof of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within 90 days from the date the citation was issued, this citation shall be reduced to $1,000.00 and proof of compliance of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations shall be considered satisfactory abatement of the citation.

If you fail to submit proof of compliance of new temperature control systems in addition to central HVAC systems installed throughout the pharmacy and 30 days of temperature log from the various drug storage locations within 90 days from the date the citation was issued, the stay shall be lifted and the fine(s) in the amount of $5,000.00 shall be due and owing from you within thirty (30) days of any such failure.

CITATION ISSUED ON: August 25, 2021	TOTAL AMOUNT OF FINE(S): $5,000.00
PROOF OF ABATEMENT AND PAYMENT OF FINE(S) DUE BY: September 24, 2021

GOVERNOR EDMUND G. BROWN JR.

January 23, 2020

VIA CERTIFIED MAIL

LETTER OF ADMONISHMENT

TRUEPILL
ATTN: MOHAMMAD UMAR AFRIDI, CEO
3121 DIABLO AVE
HAYWARD, CA 94545

RE: CI 2019 84877
TRUEPILL
PHY 56100

This LETTER OF ADMONISHMENT is being issued pursuant to Business and Professions Code section 4315 for failure to comply with the laws and regulations that govern the practice of pharmacy in California. (For exact language refer to the California Pharmacy Law and Index, located on the board's website at www.pharmacy.ca.gov, under Forms and Publications.)

The Board of Pharmacy has completed its investigation in the above referenced matter. All documentation and/or statements relating to the investigation have been accepted and included in an Investigation Report on file in this office. Facts contained in this report lead to the conclusion that the following violations of pharmacy laws or regulations have occurred:

JURISDICTION: Bus. & Prof. Code § 4315; 1764/56.10(a) - Unauthorized disclosure of prescription and medical information

Unauthorized disclosure of prescriptions: California Code of Regulations section 1764 states in pertinent part that no pharmacist shall exhibit, discuss, or reveal the contents of any prescription or any medical information furnished by the prescriber with any person other than the patient or his or her authorized representative and Civil Code section 56.10 subdivision (a) states, in pertinent part, no provider of health care shall disclose medical information regarding a patient of the provider of health care without first obtaining an authorization. Truepill Pharmacy was not in compliance with these regulations. Specifically, on 4/17/2019, Truepill Pharmacy (PHY56100) located at 3121 Diablo Avenue in Hayward, CA shipped prescription RX#1186395 to the wrong person. The prescription was intended for AR but was shipped to the address of MS in error. Also, Truepill Pharmacy shipped prescriptions to patients with a shipping label showing the return address of NuRx located at 6838 Ellicott Drive in East Syracuse, NY and from Apostrophe located at 330 2nd Street in Oakland, CA. NuRx and Apostrophe are not licensed pharmacies and prescription packages returned as undeliverable to these locations would cause the disclosure of medical information without authorization.

Shipping prescriptions to an unauthorized person violates California Code of Regulations section 1764 and Civil Code 56.10.

If you wish to contest this Letter of Admonishment, you may do so by submitting, within 30 days of the date of service of this Letter of Admonishment, namely February 22, 2020, the attached "Request for an Office Conference" form. If an office conference is not requested, compliance with the Letter of Admonishment shall not constitute an admission of the violations described in the Letter of Admonishment.

Unless it is dismissed following an office conference or you receive other instructions from the Board in writing, Pharmacy Law requires that you maintain and have readily available for inspection a copy of this Letter of Admonishment and any written corrective action plan, if any, for at least three years from the date of issuance at the top of this letter. The Letter of Admonishment will be considered a public record for purposes of disclosure for three years from issuance. The issuance of this Letter of Admonishment does not limit the board's ability to pursue other disciplinary or administrative action under Business and Professions Code section 4315, subdivision (f).

If you have any questions regarding this Letter of Admonishment, please contact Barbera Schleicher, Public Inquiry Analyst at (916) 518-3081.

Sincerely

Virginia Herold

MODIFIED CITATION AND FINE

Citation Number	Name, License No
CI 2017 78633	TRUEPILL (FORMERLY POSTMEDS INC.), PHY 56100

JURISDICTION: Bus. & Prof. Code § 4314; CCR, title 16, § 1775; Bus. & Prof. Code § 4301, subd. (o)

VIOLATION CODE SECTION	OFFENSE	AMT OF FINE
Bus. & Prof. Code § 4059 subd. (a)/Bus. & Prof. Code § 4067 subd. (a)	Furnishing dangerous drugs without a prescription/Internet; Dispensing Dangerous Drugs or Devices without Prescription; No person shall dispense or furnish, or cause to be furnished dangerous drugs...on the internet...without a prescription issued pursuant to a good faith examination	Citation without a fine
Bus. & Prof. Code § 4174	Dispensing on order of nurse practitioner or person of similar status.	Citation without a fine

CONDUCT:

Furnishing Dangerous Drugs or Devices Prohibited Without Prescription: Business and Professions Code 4059 (a) states in pertinent part a person may not furnish any dangerous drug, except upon the prescription of a physician, dentist, podiatrist, optometrist, veterinarian, or naturopathic doctor pursuant to Section 3640.7. A person may not furnish any dangerous device, except upon the prescription of a physician, dentist, podiatrist, optometrist, veterinarian, or naturopathic doctor pursuant to Section 3640.7. In conjunction with Business and Professions Code 4067 (a) which states no person or entity shall dispense or furnish, or cause to be dispensed or furnished, dangerous drugs or dangerous devices, as defined in Section 4022, on the Internet for delivery to any person in this state without a prescription issued pursuant to a good faith prior examination of a human or animal for whom the prescription is meant if the person or entity either knew or reasonably should have known that the prescription was not issued pursuant to a good faith prior examination of a human or animal, or if the person or entity did not act in accordance with Section 1761 of Title 16 of the California Code of Regulations and (f) for the purposes of this section, "good faith prior examination" includes the requirements for a physician and surgeon in Section 2242. In conjunction with Business and Professions Code 2290.5 (a) For purposes of this division, the following definitions shall apply: (3) "Health care provider" means either of the following: (A) a person who is licensed under this division. Between 4/1/2018 to 10/31/2018, Postmeds Inc. (PHY56100) located at 3121 Diablo Ave. Hayward, CA dispensed prescriptions issued by prescribers who were not licensed in California. Specifically, 2 prescriptions were issued by Nurse Practitioner Jenny Ingle; 9 prescriptions were issued by Dr. Brook Randal; 6 prescriptions were issued by Dr. Jessica Rubino and 4 prescriptions were issued by Dr. Sudhi Trye. These prescribers were not licensed in California at the time the prescriptions were initiated and shipped to a California resident. Postmeds pharmacy dispensed the prescriptions issued by unlicensed prescribers to

California residents in violation of Business and Professions Code 4059 (a) and Business and Professions Code 4067 (a).

Dispensing by Pharmacist Upon Order of Nurse Practitioner: Business and Professions Code 4174 states in pertinent part notwithstanding any other law, a pharmacist may dispense drugs or devices upon the drug order of a nurse practitioner functioning pursuant to Section 2836.1 or a certified nurse-midwife functioning pursuant to Section 2746.51, a drug order of a physician assistant functioning pursuant to Section 3502.1 or a naturopathic doctor functioning pursuant to Section 3640.5, or the order of a pharmacist acting under Section 4052.1, 4052.2, 4052.3, or 4052.6. Postmeds Inc. (PHY56100) located at 3121 Diablo Ave. Hayward, CA dispensed prescriptions issued by Nurse Practitioners and Physicians Assistants who had not yet entered into an established standardized procedure or protocol developed by a supervising physician. Between 4/1/2018 and 10/31/2018, the following prescribers issued prescriptions to Postmeds without an established protocol in place: Physician's Assistant Leanne Mays issued 8 prescriptions and Physician's Assistant Susan Owen issued 6 prescriptions. Between 4/1/2018 and 10/31/2018, the following prescribers issued prescriptions to Postmeds entering into a protocol after the prescriptions were issued: Nurse Practitioner Joni Gunzburger issued 4,782 prescriptions; Nurse Practitioner Cristin Hackel issued 10,819 prescriptions and Nurse Practitioner Jessica Horwitz issued 4,711 prescriptions. Postmeds Pharmacy dispensed the prescriptions issued by Nurse Practitioners and Physicians Assistants who had not yet entered into standardized procedures or protocols as required by Business and Professions Code 4174.

CITATION ISSUED ON: June 16, 2020	TOTAL AMOUNT OF FINE(S): $0.00
PAYMENT OF FINE(S) DUE BY: July 16, 2020

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✔
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		✔
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✔
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✔
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✔
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✔
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✔
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✔
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✔
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✔

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

Section 8: Arrests, Detentions, Litigations, Arbitrations:	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)	✓	
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		✓
3. Have you ever had a civil or criminal record expunged or sealed by a court order?	✓	
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # 1 & 3 . Provide all the following *where applicable*:

Date of Event/Arrest	Disposition Date	State	City	County
06/01/2007	06/01/2007	MN	Metropolitan Airport	Hennepin
Case #		**Governing, licensing, Arresting Presiding Body/Agency/Court**		
225001		Metropolitan Airport		
Reason/Charge				
Petty Misdemeanor - Airport Ordinance Violation				
Plaintiff/Defendant/Claimant/Respondent		**Lawsuit/Arbitration/Bankruptcy**		
Self		N/A		
Name of Business/Industry/Entity				
N/A				

Provide explanation below:

Petty Misdemeanor Airport Ordinance Violation with $300 fine, expunged 9/27/2021 by State Statute. Original documentation unavailable due to fire loss.

MN Statute 609.2 - "Petty misdemeanor" a petty offense which is prohibited by ordinance or statute, which does not constitute a crime and for which a sentence of a fine of not more than $300 may be imposed.

1) *Initial Inspection Information

1) Personnel conducting inspection

Observation
Compliance Specialist Elizabeth Bond, RPh

2) Were multiple inspection guides used during this inspection?

No

3) Facility Description

Observation
Facility is a retail pharmacy servicing the patients of various online prescriber entities. Pharmacy has the ability to serve the community (walk-in patient). Pharmacy does not accept insurance. Pharmacy has limited drug stock and focuses on veterinary medicine, women's health, non-controlled weight loss and Zepbound. Pharmacy processes approximately 2,000 prescriptions per day. Pharmacy employs 12 pharmacists, 9 pharmacy technicians and 17 delivery/support personnel. Pharmacy ships prescriptions to patients in Ohio and 48 other states using USPS, UPS, and FedEx. The site doesn't currently house any controlled substances.

4) Have there been any changes in the TDDD's ownership, business name or trade name, category, or address without submitting a new application to the Board?

No

5) *Does the TDDD have a valid registration issued by the Drug Enforcement Administration?

Yes

Observation
FS1293884 EXP: 2/28/2025

6) Is the Responsible Person present during the inspection?

Yes

Observation
RP: Christopher Spitzer, RPh

7) How often is the Responsible Person at the TDDD?

Observation
40 hours per week

8) Does the TDDD distribute dangerous drugs outside of Ohio?

Yes

Observation
The pharmacy is licensed in 48 states in addition to Ohio.

9) Does the TDDD ensure all individuals are acting within their scope of practice?

Yes

12) Additional Observations

Observation
This routine inspection was conducted at the request of the licensee for out of state license renewals. No issues noted.

17.1) Disposal of controlled substances (OAC 4729:5-3-01)

1) Does the facility dispose of controlled substances?

No

Primarily utilizes reverse distributor

Observation

Pharmacy has not disposed of any controlled substances to date but would utilize Inmar (reverse distributor) for destruction.

2) REMINDER: Facility is required to dispose of controlled substance dangerous drugs in accordance with 21 C.F.R. 1317.

Observation

Facility is required to dispose of controlled substance dangerous drugs in accordance with 21 C.F.R. 1317.

The method of destruction must render the controlled substances to a state of non-retrievable. Records of controlled substance destruction that are required pursuant to 21 C.F.R. 1304 (9/25/2023) shall be maintained for a minimum of three years and made readily retrievable.

Non-retrievable means, for the purpose of destruction, the condition or state to which a controlled substance shall be rendered following a process that permanently alters that controlled substance's physical or chemical condition or state through irreversible means and thereby renders the controlled substance unavailable and unusable for all practical purposes. The process to achieve a non-retrievable condition or state may be unique to a substance's chemical or physical properties. A controlled substance is considered "non-retrievable" when it cannot be transformed to a physical or chemical condition or state as a controlled substance or controlled substance analogue. The purpose of destruction is to render the controlled substance(s) to a non-retrievable state and thus prevent diversion of any such substance to illicit purposes.

3) Does the method of destruction render the controlled substances to a state of non-retrievable?

Yes

4) Are records of controlled substance destruction maintained for a minimum of three years?

No

Observation

For Information:
Rule 4729:5-3-01 | Disposal of controlled substances. Effective 7/1/24
(B) A terminal distributor of dangerous drugs shall dispose of controlled substance dangerous drugs in accordance with 21 C.F.R. 1317 (9/25/2023). The method of destruction must render the controlled substances to a state of non-retrievable. Records of controlled substance destruction that are required pursuant to 21 C.F.R. 1304 (9/25/2023) shall be maintained for a minimum of three years and made readily retrievable.

21 CFR 1304 is extensive. Form 41 is required for destruction.
1304.21 General requirements of continuing records
(e) Record of destruction. In addition to any other recordkeeping requirements, any registered person that destroys a controlled substance pursuant to § 1317.95(d), or causes the destruction of a controlled substance pursuant to § 1317.95(c), shall maintain a record of destruction on a DEA Form 41. The records shall be complete and accurate, and include the name and signature of the two employees who witnessed the destruction. Except, destruction of a controlled substance dispensed by a practitioner for immediate administration at the practitioner's registered location, when the substance is not fully exhausted (e.g., some of the substance remains in a vial, tube, or syringe after administration but cannot or may not be further utilized), shall be properly recorded in accordance with § 1304.22(c), and such record need not be maintained on a DEA Form 41.

17.2) *Report theft/significant loss: dangerous drug, controlled substance, drug document(OAC 4729:5-3-02)

1) *REMINDER: Theft or significant loss of dangerous drugs and drug documents

Observation
A terminal distributor of dangerous drugs shall notify the following upon discovery of the theft or significant loss of any dangerous drug or controlled substance, including drugs in transit that were either shipped from or to the licensed location: (1) The state board of pharmacy, by telephone or other method determined by the board, immediately upon discovery of the theft or significant loss; (2) If a controlled substance, the drug enforcement administration (DEA) pursuant to 21 C.F.R. 1301.76 (9/9/2014); (3) Law enforcement authorities pursuant to section 2921.22 of the Revised Code.

A terminal distributor of dangerous drugs shall, immediately upon discovery, notify the state board of pharmacy, in a manner determined by the board, and law enforcement authorities of any theft or loss of uncompleted prescription blank(s) used for writing a prescription, written prescription order(s) not yet dispensed and original prescription order(s) that have been dispensed.

A terminal distributor of dangerous drugs shall, immediately upon discovery, notify the state board of pharmacy, in a manner determined by the board, law enforcement authorities and the drug enforcement administration (DEA) pursuant to 21 C.F.R. 1305.16 (9/9/2014) of the theft or loss of any DEA form 222.

For more information on reporting, visit: www.pharmacy.ohio.gov/theft

2) *Has the TDDD experienced any theft or significant loss of any dangerous drugs in the past twenty-four months?

No

3) Controlled Substances: Was the theft or significant loss of controlled substances reported using the federal DEA report?

Not Applicable

4) Non-Controls: Was the theft or significant loss of non-controlled dangerous drugs reported to the board?

Not Applicable

5) Has the TDDD experienced any theft or loss of uncompleted prescription blank(s), written prescription order (s) not yet dispensed, or original prescription order(s) that have been dispensed in the past twenty-four months?

No.

6) Has the TDDD reported any theft or loss of any DEA form 222 in the past twenty-four months?

No. No losses have occurred.

8) Reporting Theft or Loss Guidance Document

Observation
The guidance document "Reporting Theft or Loss of Dangerous Drugs and Drug Documents" can be found here: www.pharmacy.ohio.gov/theft

17.4) Verification of licensure prior to sale or purchase (OAC 4729:5-3-04)

1) What drug distributors does the TDDD purchase from?

Observation
Wholesalers:

- McKesson
- TopRx
- Keysource
- Anda
- Drug Manufacturers (Merck Vet Health, BI, and Zoetis)

2) Purchase: Has the TDDD completed an annual query of the board's online roster prior to purchase of dangerous drugs at wholesale?

Yes

17.6) Storage of adulterated drugs (OAC 4729:5-3-06)

1) Does the facility have expired/adulterated drugs on site?

No

Observation
Randomly audited stock and no expired medications were identified.

17.7) Controlled substances inventory requirements (OAC 4729:5-3-07)

1) Are controlled substance inventory records maintained as required by rule?

Yes: Initial inventory completed

Yes: Annual inventory is completed

Yes: Inventory records are maintained for three years and are readily retrievable

Observation

Observed inventories dated September 6, 2022, January 10, 2023, and January 24, 2024
For Information:
CFR Requirements as of 3/2/22:
-The inventory may be taken either as of opening of business or as of the close of business on the inventory date and it shall be indicated on the inventory.
-If no initial inventory- record zero balance
-DEA biennial inventory may be done on date within two years of previous biennial inventory
-If drug becomes scheduled that previously was not: every registrant required to keep records who possesses that substance shall take an inventory of all stocks of the substance on hand.
-Inventories of dispensers: In determining the number of units of each finished form of a controlled substance in a commercial container that has been opened, the dispenser shall do as follows:
(i) Schedules I or II: make an exact count or measure of contents; or
(ii) Schedule III, IV, or V, make an estimated count or measure of contents, unless the container holds more than 1,000 tablets or capsules in which case he/she must make an exact count of the contents.

Rule 4729:5-3-07 | Controlled substances inventory requirements. Effective 3/1/19
(A) Unless otherwise stated in this division of the Administrative Code, all category III terminal distributor licensees shall complete a controlled substances inventory in accordance with 21 CFR 1304.11 (9/9/2014).
(B) All controlled substance inventories performed in accordance with this rule shall be conducted on an annual basis. The annual inventory may be taken on any date which is within thirteen months of the previous inventory date.
(C) The terminal distributor's responsible person shall be responsible for completing and maintaining this inventory record at the location licensed as a terminal distributor of dangerous drugs.
(D) All inventory records shall be maintained for a period of three years from the completion date of the inventory and made readily retrievable.
(E) When a drug or compound is added to the schedule of controlled substances by state or federal law, rule or regulation, a terminal distributor shall complete an inventory pursuant to this rule of all stocks of such drug or compound no later than ten days of the drug or compound being added to the schedule.
(F) In the event a terminal distributor of dangerous drugs commences business with no controlled substances on hand, this fact shall be recorded as the initial inventory.

17.14) General security requirements (OAC 4729:5-3-14)

1) Does the TDDD provide effective controls and procedures to deter and detect the theft and diversion of dangerous drugs?

Yes

2) Observations of Overall Security System

Observation

The pharmacy is located in a single story building of solid construction and is the sole occupant of the space. Pharmacy has ten exterior entry doors. All doors have turn key locks. All doors are electronically alarmed. Two of the back doors have lock plates. Walls and floors are solid and all walls go deck to ceiling. Pharmacy space has non-opening windows. Pharmacy has one metal roll down bay-style door that is secured by the alarm system. The keys are under the control of licensed pharmacists only. Once unlocking the door, a pharmacist has to badge tap to disarm the alarm. Only pharmacist badges are programmed to disarm the alarm. Pharmacy is equipped with cameras throughout on the interior and exterior of the building. Motion sensors are located throughout. Each section of windows is equipped with a glass break. Pharmacy alarm system alerts the responsible person when the alarm is triggered or has not been set. Pharmacy barricade is adequate with no issues noted.

18.2.1) Minimum Standards (OAC 4729:5-5-02)

1) Does the TDDD ensure sufficient personnel are scheduled to work at all times?

Yes

2) Does the TDDD provide sufficient tools and equipment in updated and good repair?

Yes

3) Does the TDDD provide pharmacy personnel access to the required references?

Yes: Internet access to the board's website

Yes: Internet access Ohio laws and administrative rules (https://codes.ohio.gov)

Yes: Internet access to the code of laws of the United States of America (variously abbreviated to Code of Laws of the United States, United States Code, U.S. Code, U.S.C., or USC)

Yes: Internet access to the code of federal regulations

Yes: Access to hard copy or internet access to appropriate pharmacy reference materials

Yes: Access of telephone number of a poison control center

Observation

Micromedex and Plums

4) Does the TDDD ensure pharmacy personnel are sufficiently trained to safely and adequately perform their assigned duties?

Yes

5) Does the TDDD maintain a stock of drugs sufficient to compound and prepare the types of prescriptions offered by the pharmacy?

Yes

6) Does the TDDD maintain stock of prescription containers necessary to dispense drugs in accordance with federal and state laws?

Yes

7) *Does the TDDD ensure all areas where drugs and devices are stored and prepared are dry, welllit, well-ventilated, and maintained in a clean, sanitary, and orderly condition?

Yes

Observation

Current controlled room temperature was 69.2 degrees F and humidity was 54%.

8) *Are hours of operation of the pharmacy department posted?

Yes

9) *Are all employees of the pharmacy identified by a name tag?

Yes: Name tag includes job title

10) Does the TDDD provide adequate security for all dangerous drugs?

Yes

11) Does the TDDD provide sufficient time for pharmacists to complete professional duties and responsibilities?

Yes

18.8) *Prospective drug utilization review (OAC 4729:5-5-08)

1) Do pharmacists review the patient profile prior to dispensing a prescription?

Yes: Reviews over-utilization or under-utilization
Yes: Reviews therapeutic duplication
Yes: Reviews drug-disease state contraindications
Yes: Reviews drug-drug interactions
Yes: Reviews incorrect drug dosage
Yes: Reviews drug-allergy interactions
Yes: Reviews abuse/misuse
Yes: Reviews inappropriate duration of drug treatment
Yes: Reviews food-nutritional supplements-drug interactions

2) Do pharmacists take appropriate steps to avoid or resolve the potential problem identified during prospective drug utilization review?

Yes: Requests and reviews an OARRS report or another state's prescription drug monitoring report
Yes: Consults with the prescriber
Yes: Counsels the patient

4) Do pharmacists request and review an OARRS report covering at least one year time period prior to dispensing an outpatient prescription in specific circumstances?

Other

Observation
The site does not dispense controlled substances or reportable drugs. The site would follow applicable regulations if doing so.

5) REMINDER: Professional Judgment regarding OARRS

Observation
In the event an OARRS report is not immediately available, the pharmacist shall use professional judgment in determining whether it is appropriate and in the patient's best interest to dispense the prescription prior to reviewing a report

6) *Do any of the pharmacists use delegates to request OARRS reports?

No

7) *REMINDER: A pharmacist shall not dispense a prescription of doubtful, questionable, or suspicious origin.

Observation
Based upon information obtained during a prospective drug utilization review, a pharmacist shall use professional judgment when making a determination about the legitimacy of a prescription. A pharmacist shall not dispense a prescription of doubtful, questionable, or suspicious origin.

8) *REMINDER: OARRS reports cannot be provided directly to a patients or other health care professionals.

Observation
REMINDER: OARRS reports may be reviewed with the patient or another health care provider, however a copy may not be provided to the patient. Patients requesting a copy of their OARRS report must submit a notarized request to the Board of Pharmacy in person or by mail, and the report must be received in person at the Board office during normal business hours. Proof of identity is required to obtain an OARRS report.

18.9) Patient counseling (OAC 4729:5-5-09)

1) Do Pharmacists or pharmacists designee verbally offer to provide the service of counseling for any prescription, new or refills, dispensed?

Yes

Observation
The company has a call center located at in CA and remote services to provide verbal counseling via telephone to all patients.

3) Does the Pharmacist or Pharmacy Intern counsel the patient or caregiver when requested?

Yes

4) Are other forms of information used to supplement counseling by the Pharmacist or Intern?

Yes

Observation
Drug information sheets and/or MedGuides if applicable are sent to the patient with each dispensing.

18.14) Prescription pick-up station (OAC 4729:5-5-14)

1) PHARMACY: Does the pharmacy act as a "pick-up" station or intermediary for the purpose of having prescriptions filled?

No

2) PHARMACY: Does the pharmacy dispense dangerous drugs to a PHARMACY which offers, in any manner, its services as a "pick-up station" or intermediary for the purpose of having prescriptions filled or delivered?

No

18.17) Drugs repackaged or relabeled by a pharmacy

1) Does the pharmacy repackage dangerous drugs?

No

18.18) Dispensing customized patient medication packages by an outpatient pharmacy (OAC 4729:5-5-18)

1) Does the pharmacy dispense customized patient medication packages?

No

18.23) *Security, control and storage of dangerous drugs in an outpatient pharmacy (OAC 4729:5-5-23)

1) *Does a pharmacist provide supervision of the dangerous drugs, hypodermics, D.E.A. controlled substance order forms, and all records relating to the distribution of dangerous drugs?

Yes

2) Is the pharmacy separated from the merchandising or public areas?

Yes

Observation
In the event a patient was in-house, the patient would remain in the OTC area of the pharmacy and would be supervised by pharmacy personnel at all times. The pharmacy distribution area is separated from the OTC area by double doors.

3) Is the pharmacist on duty responsible for the security of the pharmacy and supervision of pharmacy personnel?

Yes: Pharmacist is physically present at TDDD

5) Is a pharmacist present at all times a person enters the pharmacy?

Yes

6) *Are all schedule II controlled substance dangerous drugs stored in a securely locked, substantially constructed cabinet or safe?

Not Applicable

Observation
The site does not house controlled substances. The site obtained a DEA Registration for contractual reasons and to allow for possible future growth.

7) *How is the pharmacy secured when a pharmacist cannot be present and responsible for security?

A physical barrier with suitable locks

An alarm system approved by the board

Observation
Kastle is the alarm monitoring company.
Suitable locks are approved by the board. Except for extraordinary circumstances beyond the pharmacy's control, a pharmacy shall notify the board of any installation or modification to a physical barrier prior to implementation.

Except for extraordinary circumstances beyond the pharmacy's control, a pharmacy shall notify the board of any installation or modification to an alarm system prior to implementation. This notification requirement does not apply if a pharmacy also utilizes an approved physical barrier

8) Does the alarm system and testing meet the requirements of the rule?

Yes: It is monitored by a central station for control and can detect unauthorized access to the pharmacy

Yes: The alarm system is tested on a biannual basis.

Yes: Testing records are maintained for three years

Observation
Kastle is the alarm monitoring company. The alarm is tested on an annual basis.

9) Does the pharmacy contain all dangerous drugs, hypodermics, and D.E.A. controlled substance order forms and every other item or product that requires the supervision or sale by a pharmacist?

Yes

10) *Does only a licensed pharmacist have access to keys or other methods of gaining access to the pharmacy?

Yes

12) Are records relating to the distribution of dangerous drugs only maintained in the pharmacy?

Yes

14) Does only a pharmacist have access to the pharmacy or stock of dangerous drugs or assume responsibility for the security of dangerous drugs, hypodermics, and any other item or product that requires the supervision or sale by a pharmacist?

Yes

18) *Does the pharmacy provide services by means of a drive-through facility that can be secured?

No: No drive-thru facilities

19) *Do refrigerators and freezers used for the storage of dangerous drugs monitor the temperature?

Yes: Uses temperature monitoring system capable of detecting and alerting staff of a temperature excursion

Observation
Pharmacy uses SmartSense by Digi (TempAlert) to monitor the temperatures of the refrigerators. The current refrigerated temperature was 39.7 degrees F.

20) *Does the TDDD have policies and procedures to respond to any out of range individual temperature readings or excursions to ensure the integrity of stored drugs in the refrigerator(s) and freezer(s)?

Yes

21) *Does the TDDD have a policy that no food or beverage products are permitted to be stored in refrigerators or freezers used to store dangerous drugs?

Yes

18.24) *Drug inventory records and other record keeping provisions (OAC 4729:5-5-24)

9) *Are all records readily retrievable and uniformly maintained for a period of three years?

Yes

10) Are all records within the past 3 years maintained on site?

Yes

Observation
The site was licensed in March of 2022 and has all applicable records on-site since license issuance.

11) *Are all records maintained under appropriate supervision and control to restrict unauthorized access?

Yes

Observation
All records are under the supervision of a licensed pharmacist.

49) Substance Abuse and Mental Health Resources for Healthcare Professionals

1) Substance Abuse and Mental Health Resources for Healthcare Professionals

Observation
The healthcare profession is not immune to substance use disorder and mental health conditions. Such medical conditions impair a healthcare professional's competency, ability, and judgment. Substance use disorder and/or mental health conditions that are left untreated may not only cause a healthcare professional to risk their career, but may also endanger the life of a patient. These medical conditions can be effectively treated, and it is possible for healthcare professionals that are in treatment or recovery to return to practice.

The State of Ohio Board of Pharmacy encourages all healthcare professionals who may be struggling with substance use disorder or mental health condition to seek help. The following are resources that can assist healthcare professionals in getting help: (The resources listed here are for informational purposes only and do not constitute an endorsement by the State of Ohio Board of Pharmacy. They do not represent a complete list of the resources available)

Ohio Careline 1-800-720-9616, emotional support, with referral to other resources if needed.
Crisis text line, text "4hope" to 741 741 to speak with a crisis counselor.
Treatment Bridge 1-877-275-6364, for addiction and mental health services.
National Suicide prevention dial 988, or call 1-800-273-8255.
Ohio Domestic Violence Network 1-800-934-9840
Pharmacist Rehabilitation Organization (www.ohiopro.org) for pharmacists and pharmacy interns.
Ohio Physicians Health Program (www.ophp.org)

50) Inspection Affirmation

1) Inspection Affirmation

Observation
As the person in charge at the time of this inspection, I affirm that I have reviewed this inspection report with the Specialist/Agent/Inspector, and understand its content.

If this inspection report requires a written response, I understand, per OAC 4729:5-3-03, that either of the following must be submitted to the State of Ohio Board of Pharmacy within 30 days of this inspection:
(1) The action(s) the licensee or applicant has taken to correct the violation(s) and the date of implementation of the corrective action(s); or
(2) An explanation disputing the observed violations.

I understand that if I am not the responsible person documented on this site's Ohio terminal distributor of dangerous drugs license, I will ensure the responsible person is provided a complete copy of this inspection report in a timely manner.

I further acknowledge that a written response does not release the licensee listed in this inspection report from potential disciplinary action.

Responses must be either emailed (with a copy of the inspection report) to WRITTENRESPONSE@PHARMACY.OHIO.GOV or mailed to 77 South High Street, 17th Floor, Columbus, Ohio 43215.

Statement of Responsibility

1. I am the Pharmacist in Charge (title) for Synergy Apothecary, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

Section 10: Affidavit for Pharmacies- MUST BE COMPLETED by pharmacies NOT CURRENTLY PERFORMING Sterile Compounding

Affidavit for Pharmacy License

I, Theresa Bergh hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Pharmacist in Charge (title) for Synergy Apothecary LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

Facility Response to Verified Pharmacy Program® (VPP®) Inspection

Type of Response (Choose from Drop Down)	VPP Inspection Report Page No.	VPP Inspection Report Item No.	Facility Response/Corrective Action/Comments	Estimated Date of Completion For Corrective Action Taken	Attachment Included Y/N	Title of Document (Must be indicated at top of document attachment)
Updates/New SOPs or P&Ps	18	47.00	Policy for Product Inventory now updated to include the process of validating that a wholesaler has completed their annual report with the FDA. PIC was already obtaining a copy of the wholesaler licenses and DEA registrations and provided copies to inspector.	2/24/25	Y	Green coversheet labeled 47.0 starts with Policy 5.06 which now updated on process to establish vendors. Policy includes DSCSA steps for how to validate a vendor with the FDA. Copy of FDA searches shows our vendors to be registered with the FDA. Guidance and websites included at the end of the policy plus a copy of DSCSA info . We are currently a small dispenser with only 2 employees in start up mode so policies are in line with current DSCSA guidelines. Our policies are in compliance currently but are also updated in anticipation of full implementation in 2026. Our 4 wholesalers were verified in the database. Printscreens include Darmerica, Letco/Fagron, Medisca andTopRx to show proof of process.
Updates/New SOPs or P&Ps	18	47.04-47.07, 47.10	TopRx has given Synergy Apothecary access to the Pedigree of Orders (3T data of commercially available products) Attached is the process and screenshot after our login	2/24/25	Y	Green coversheet labeled 47.04-47.07 - We are a compounding pharmacy with very minimal commercial Rx products. TopRx is a typical supplier for smaller pharmacies such as ours. PIC was told by TopRx that at this point in time, TopRx prefers to purchase direct from manufacture but can't always promise ed in this goal. Therefore, distributors are also used. TopRx is NABP accredited and PIC has been given access to the Synchrony Pedigree Viewer to verify the supply chain intregrity. P&P updated to include 3 or 10% of products receive. We now have access our API powders from Darmerica, Letco/Fagron and Medisca. Manufacturer of powders validated via FDA website. See copies of CofA with manufacturer cross referenced to FDA website. Also see copy of Syncrony Pedigree Process.
Clarification or Further Explanation	22	65.02	Inspector answer is Yes that we have an adequate process in place already. Unsure of reason that it is on report.	2/21/25	N	n/a
Clarification or Further Explanation	25	71.00	We have process in place for testing packaging and temperature integrity and will send a log tag to a warm climate for testing with an API free sample troche tray. Log Tags are in house and were shown to inspector.	2/27/25	Y	Green cover sheet labeled 71.0 that starts with LogTagRecorder (12 pages total). Sample sent to Florida with drug free sample to assess how product arrives after shippiing conditions.

Facility Response to Verified Pharmacy Program® (VPP®) Inspection

Type of Response (Choose from Drop Down)	VPP Inspection Report Page No.	VPP Inspection Report Item No.	Facility Response/Corrective Action/Comments	Estimated Date of Completion For Corrective Action Taken	Attachment Included Y/N	Title of Document (Must be indicated at top of document attachment)
Updates/New SOPs or P&Ps	36	3.0-3.3	Standard is to review 5 personnel records but we are in a start up mode and only have 2 employeees, so answer was no but was review was 100% of staff. Additional input from inspector provided some advice on how to improve our forms and will be used as we hire our first employees in March. We didn't have a completed employee packet to show as we haven't hired yet but are now interviewing and hiring. Training logs we did have were shown to inspector.	2/21/25	Y	Green coversheet labeled 3.0-3.3 contains Synergy Apothecary Orientation checklist +10 pages. Attached are updated training signoff sheets and a sample of our training and validation process called a Standard Work that goes step through step on a process that requires training and validation before being considered qualified and competent to do a role independently.
Clarification or Further Explanation	42	13.0	To clarify, use of purified water, distilled water or RO water is recommended, not required but our policy is to use those options for rinsing glassware or utensils. Distilled water was already in bottles in the compounding lab for the final rinse after cleaning those items. A dishwasher is planned for larger equipment and items once we are in full operation.	2/21/25	Y	Green coversheet labeled 13.0 includes Policy 4.05 that is attached - 6 pages
Clarification or Further Explanation	44	18.0	Equipment is chosen with cleaning, ease of use, purpose and maintainence in mind for 795 guidelines. As we are a new pharmacy, we've had no maintainence needs yet. Log sheets already exist for equipment we use and standard works include the cleaning and calibration of equipment. Standard works in place for all active equipment and new ones to be created as we add new equipment to more accurately and efficiently make troches . The equipment must be calibrated potency/accuracy tests with an independent lab. but we can't order controlled substances yet. Therefore, Standard work for cleaning, use and maintainence of new equipment is not finished until we get our DEA license.	2/21/25	Y	Green coversheet labeled 18.0 Equipment/Balance Mantenance/Repair Log . Samples of equipment logs attached. - 3 pages
Updates/New SOPs or P&Ps	45	18.3	Underside of BSC, per policy, is cleaned monthly and was done in February prior to visit and handwritten on montly log but log sheet was an old copy that inspector saw. Correct log sheets now in the compounding room	2/21/25	y	Green coversheet labeled 18.3 - Synergy Apothecary Non-Sterile Compounding Lab Log 2 pages, old and new formatting plus a copy of our policy 4.050 with cleaning frequencies - 6 pages

This VPP Inspection response and documentation has been provided directly by the pharmacy in response to its VPP Inspection. The content of this response has not been verified or modified by NABP at this point in time, except to check for completeness of any attachments provided.

Facility Response to Verified Pharmacy Program® (VPP®) Inspection

Type of Response (Choose from Drop Down)	VPP Inspection Report Page No.	VPP Inspection Report Item No.	Facility Response/Corrective Action/Comments	Estimated Date of Completion For Corrective Action Taken	Attachment Included Y/N	Title of Document (Must be indicated at top of document attachment)
Updates/New SOPs or P&Ps	46	20.0 + 20.3	C of A were all readily available based on PIC interpretation of DSCA. Based on inspector interpretation, the original manufacturer C of A is also needed. These now obtained and process is part of policy. Manufacturers are now confirmed as FDA approved.	2/21/25	Y	Green cover sheet labeled 20.0 + 20.3. All suppliers were able and willing to provide the manufacturer C of A. Letco will now routinely provide both CofA for our shipments and sent copies via email of products we already had in stock. Medisca website offers both options and both will be printed. Darmerica is able to to routinely provide both CofA to us. All C of A to be downloaded and saved to our shared drive for ready access. Manufacturer info provided in C of A to be verified in FDA. website. Policy 5.06 updated (same policy as line item labeled 47.00 above. Sample of each wholesalers "original" that was provided to us plus the manufacturers CofA for comparison purposes per policy (10 pages) are included in this response.
Updates/New SOPs or P&Ps	49	26.0, 26.2	Related to drug spills, information was under Hazardous Spill management in the event we pursued USP 800 and also under Safety policy 3.160. That information was not directly labelled as non-hazardous so policy and Standard Work were updated to reflect how to handle a drug/chemical spill	2/21/25	Y	Green coversheet labeled 26.0, 26.2 See original policy 3.160 secton 4.5, updated policy 2.05, Standard work labeled Non hazardous spill clean up (6 pages) for detailed process of cleaning a spill, and orientation checklist which includes training/education plus annual review on how to handle a drug or chemical spill.
Clarification or Further Explanation	53, 54	31.0 & 31.6 36.0-36.2	Labeling of CSP compliance all related to one issue of using "EXP" instead of BUD for verbiage to match the MFR. PIC contacted the software vendor and labelling for both patient prescription labels and compound batch labels were updated.	2/21/25	Y	Green coversheet labelled 31.0-31.6 and 36.0-36.2 - See updated old versus new labels. Both label types now updated to now reflect the verbiage of BUD-Discard after. This was done to reflect BUD verbiage but also to provide a lay language wording of what BUD implies.
Clarification or Further Explanation	58	44.0-44.2	This category should be labeled as N/A or Yes. The only non-aqueous product that has been made is a cream and that was given a 30 day BUD	2/21/25	Y	Green coversheet labeled 44.0-44.2. Logged Formula Worksheet is a copy of actual Rx Compound record provided with PHI crossed off shows the 30 day BUD.
Clarification or Further Explanation	62	50.0	Regarding prescriber notification in case of recall, policy 3.08 stated that patient is informed but process noted for MD notification. This was verbally described to inspector as this process is noted in policy 3.010 with medication errors and notification of MD is described there.	2/24/25	Y	Green coversheet labelled 50.0 contains Old and new copies of Policies 3.010 and 3.080 provided to show cross coverage and updates to show process of MD being notified of drug recall situations when immediate notification is needed due to potential caus of harm. Of note, this is a recommendation, not a requirement but it is a good way of cross referencing that incorrect potency or purity are part of a potential medication error.

Business Licensure Information for State of Residence and Federal (board of pharmacy, state controlled substance, DEA, FDA, etc)

License/Registration Agency	Business Name on License/Registration	Registration/License Type	Registration/License Number & Expiration Date
Wisconsin Pharmacy Examining Board	Synergy Apothecary LLC DBA Synergy Apothecary	Pharmacy	10097-42 & 5/31/2026

Inspector Notes: Non-Resident licenses are held in New York, Pennsylvania and Arizona. Synergy Apothecary's status with California as a Non-Resident Pharmacy is "Pending", as is their application for a DEA registration. Compounding with controlled substances, specifically ketamine, will begin once the pharmacy obtains their DEA registration. The majority of their compounding will be batch production of ketamine troches. Between the months of December 2024 and January 2025, the pharmacy dispensed just 17 prescriptions. The low volume can be attributed to being in start-up mode.

Documents collected as part of the inspection.
To obtain a copy of these documents please contact the facility directly. They are not included in the final report.

Definitions: DISPENSE means to provide a prescription drug or compounded preparation pursuant to a patient-specific prescription. DISTRIBUTE means to provide a prescription drug or compounded preparation to a prescriber, another pharmacy, or health care entity for office use or stock and is NOT patient-specific, is not labeled with the patient name at the pharmacy.

States to which the pharmacy mails/delivers prescription drugs and volume dispensed, and volume distributed per day (or week or month):
Note: if not available, request information be sent to VPP and note that information was requested in grid.

General Pharmacy Inspection

The information and comments obtained in the Nonsterile Compounding, Sterile Compounding Inspections, and Hazardous Drug Compounding are based on USP Chapters <795>, <797>, and <800>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
General Pharmacy			
1.00	Is the PIC (or pharmacy manager/director) present for the inspection? *If no, list the pharmacist on duty.*	Yes	
2.00	Is the PIC employed full-time at the pharmacy? *List the number of hours worked per week onsite.*	Yes	40
3.00	Are there any other businesses located at this address? *If yes, note type of business and name.*	No	
4.00	Does the pharmacy have any other websites? *Provide list of other names/URLs.*	No	
4.01	Does the pharmacy hold .pharmacy verification?	No	
5.00	Do any other websites link to the pharmacy website (such as a provider, or other affiliate)? *If yes, list.*	No	
6.00	Does the pharmacy allow patients to securely enter/update profile and medical information through the website (such as through a secure patient portal)?	No	
7.00	Are patients able to order or refill prescriptions through the website? *If yes, describe.*	No	
8.00	Are photographs allowed during the inspection (no PHI)?	Yes	
9.00	List of additional personnel **interviewed as part of the inspection, including name and title:**		N/A

		Observation	Notes
	Types of Practice Additional Questions If any part of a question is no, enter "No" and explain the observation.		
10.00	If the pharmacy mails or delivers filled prescriptions (patient specific, labeled with patient name when it leaves the pharmacy), are any of the deliveries to a provider or facility for administration to the patient? *If yes, indicate volume or percentage of deliveries going to a provider or facility in this state, and volume or percentage of deliveries going to a provider or facility in other states.*	No	
11.00	Does the pharmacy provide prescription products to a provider or facility for "office use" (not pursuant to a prescription received prior to delivery, not patient specific, not labeled with the patient name)? *If yes, indicate volume or percentage provided to a provider or facility within this state, and volume or percentage provided to a provider or facility in other states.*	No	
12.00	Does the pharmacy provide prescription products to providers or facilities (including other pharmacies) as a wholesale distributer (sold to the provider or facility for their use, administration, or providing/dispensing to patients)?	No	
13.00	If yes, is the percentage of product distributed at wholesale to providers or facilities within this state less than 5%? *Indicate actual percentage and if the percentage is based on number of units, number of prescriptions, dollar volume of total sales or dollar volume of prescription sales.*	N/A	
14.00	If yes, is the percentage of product distributed at wholesale to providers or facilities in other states less than 5%? *Indicate actual percentage and if the percentage is based on number of units, number of prescriptions, dollar volume of total sales or dollar volume of prescription sales.*	N/A

		Observation	Notes
General Operations and Licensure	**If any part of a question is no, enter "No" and explain the observation.**		
15.00	Are pharmacy licenses, permits, and registrations (state, controlled substance, DEA, etc) posted in customers' view and current? *If no, provide details such as closed-door pharmacy, expired licenses, etc.*	No	Posted in front lobby. This is a closed-door pharmacy.
16.00	Is the most recent board of pharmacy inspection report available for review? *Record the date of the last inspection and how frequently the pharmacy is routinely inspected by the board.*	N/A	The Wisconsin Board of Pharmacy has not been out for an on-site inspection to follow-up on the self-inspection that was submitted by the pharmacy. Per PIC Bergh, after the initial inspection the Wisconsin Board of Pharmacy does not conduct routine inspections. The only cause for a visit would likely be to investigate a complaint.
17.00	Were any deficiencies noted? *Indicate the deficiencies and note whether they were corrected.*	N/A	
18.00	Does the pharmacy hold ANY wholesale, distributor, or manufacturer licenses? *Document information in the license grid above for Resident State and in the Notes for Non-Resident States.*	No	
19.00	Has this pharmacy been inspected by any other state for which it holds a license? *If yes, note the state and the date of the inspection and frequency of inspections by other states.*	No	
20.00	Is the pharmacy operating under an exemption or restriction granted by the state in which the pharmacy is located or by any other state in which the pharmacy is licensed? *If yes, note the exemption or restriction.*	No	
21.00	Is the pharmacy operating under a waiver or variance granted by the state in which the pharmacy is located or by any other state in which the pharmacy is licensed? *If yes, note the waiver or variance.*	No	
22.00	Does the pharmacy have any additional restrictions, limitations, or waivers with regards to any federal licenses or registrations (FDA, DEA, etc)? *If yes, note the agency and additional item.*	No	
23.00	Has the pharmacy been inspected or visited by the DEA? *If yes, indicate the inspection/visit date and note any deficiencies. Also note how frequently the pharmacy is inspected/visited by the DEA.*	Yes	Two DEA agents visited the pharmacy on 1/16/2025, as part of the new applicant registration process. No deficiencies were noted. The pharmacy is still awaiting approval of their application to obtain a DEA registration number.
24.00	Has the pharmacy been inspected by the FDA? *If yes, indicate the inspection date and note any deficiencies, significant correspondence, or if a "483" was issued and date, and response and date. Also note how frequently the pharmacy is inspected by the FDA.*	No

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
25.00	Does the pharmacy hold any accreditations or certifications? *If yes, indicate which and collect most recent date of survey.*	No	
26.00	Has the pharmacy held any accreditations or certifications in the past that they no longer hold? *Provide a list and the reasons for such.*	No	
27.00	Does the pharmacy perform patient lab testing such as blood glucose tests, cholesterol tests, etc? *Verify that the lab director is current (usually the PIC is the lab director named). If yes, record the Clinical Laboratory Improvement Amendments (CLIA) waiver information, expiration date, and the name of lab director listed.*	No	
28.00	Does the pharmacy maintain all required records, including but not limited to prescription files and invoices on site? *Record how long records are kept. If not on site, where?*	Yes	There is a secure office area where documents can be stored in locked cabinets. Electronic patient records are stored/backed-up every 15 minutes by Pioneers to offsite servers.
28.01	Are written and verbal prescriptions (reduced to writing) kept on site for the entire retention period? *If not, explain including how long they are stored on site?*	Yes	
28.02	Are electronic prescriptions (such as fax, e-scripts) kept on site for the entire retention period? *Describe how they are kept (electronically or printed and kept in hard copy).*	Yes	E-scripts are kept electronically as are faxed prescriptions.
28.03	Are all dispensing records (such as refills, verifications, DUR overrides) kept on site for the entire retention period? *Describe how they are kept (electronically or printed and kept in hard copy).*	Yes	Dispensing records are maintained electronically.
28.04	Are there systems in place to prevent a pharmacy record from being deleted after the prescription has been dispensed? *Describe how they are kept (electronically or printed and kept in hard copy).*	Yes	While the PioneerRx system does allow for deletion of a prescription after it has been filled, PIC Bergh requested for PioneerRx to deactivate that feature for anyone without administrator privileges. If deleted by an administrator, PioneerRx is still able to retrieve the record for 90 days. PIC Bergh has instituted a policy that administrators must print an image of any Rx to be deleted and provide it to he for manual storage in the event the record would need to be reviewed in the future.
28.05	If record are stored off site are they secure in a HIPAA compliant manner and readily retrievable?	N/A	
29.00	Is there a statement in the P&P, or are other means used to ensure that the most stringent laws/regulations are followed? *Describe system details.*	Yes	PIC Bergh has created a spreadsheet that outlines state-specific rules. Additionally, notes can be added to the "Critical Comments" field in the PioneerRx system to alert pharmacists performing prescription verifications of unique rules.

Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
Personnel	**If any part of a question is no, enter "No" and explain the observation.**		
30.00	Are all pharmacist, pharmacy intern, and pharmacy technician (if applicable) licenses or registrations with the board current and in good standing? *Describe how this is documented.*	Yes	Pharmacy has a subscription with PRS Pharmacy Services ComplianceTrack/LicenseTrack software. The LicenseTrack module monitors the license and registration expiration dates of the employees. Additionally, it runs checks through the Office of Inspector General's Exclusion List and the Wisconsin Board of Pharmacy's discipline database. This check is done on a monthly basis and documented online within the LicenseTrack platform.
31.00	Is there a process for periodic verification of validity of licenses? *Describe the process.*	Yes	LicenseTrack sends an email to PIC Bergh on a monthly basis after license and registration verifications are complete.
32.00	If pharmacists are providing patient services that require additional training or certification, are they appropriately trained and certified? *(Immunization, CPR, MTM, etc.). Mark NA if no patient services that require additional training/certification. If yes, list certifications and if current?*	N/A	
33.00	Does the pharmacy maintain the proper technician-to-pharmacist ratio? *Mark N/A if not required by resident state. Indicate ratio used and the maximum number of staff who work at the same time.*	Yes	Wisconsin's maximum technician to pharmacist ratio is 4:1. At the time of inspection, PIC Bergh was the only pharmacist on staff and no technicians had been hired.
Facility and Security	**If any part of a question is no, enter "No" and explain the observation.**		
34.00	Does the pharmacy have a working security/alarm system in place? *If yes, describe.*	Yes	Pharmacy's security system is through ADT's commercial platform know as Everon. There are 13 video cameras mounted throughout the pharmacy and at the front and back doors. PIC Bergh can access all real-time video footage through an app on her phone. Motion and glass break sensors are also installed.
35.00	Are Schedule II controlled substances secured in a locked cabinet or safe? *If not, describe how controlled substances are secured or stored.*	N/A	The pharmacy does not have any controlled substances in stock as they do not have a DEA registration yet. The pending registration is for Schedule III, IV and V controlled substances.
36.00	Are there contingency plans in the event the pharmacy cannot be secured? *Describe how the drug products will be secured and handled.*	Yes	Per PIC Bergh, drug products, APIs and finished compounded nonsterile preparations would be packed up and transferred to a secure location able to provide CRT until the facility can be secured. The pharmacy will call the Wisconsin Board of Pharmacy to receive approval to move the inventory to another location. This alternate location could possibly be SmartScript Pharmacy in Oshkosh, WI, which is the sister pharmacy to Synergy Apothecary.

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
37.00	Is the pharmacy clean and sanitary, and is there appropriate space for the prescription volume? *Look for clutter, or crowded counters or stacks of prescriptions to be checked. If no, document with photo.*	Yes	
37.01	Is the working area well lit and free of tripping hazards? *If no, document with photo.*	Yes	
37.02	Is there a sink with hot and cold running water?	Yes	
37.03	If the pharmacy destroys prescription products on site (such as expired, damaged, recalled, etc), do they appropriately document the destruction? *View destruction logs. Mark NA if no destruction on site.*	Yes	Pharmacy plans to engage in on-site destruction of expired or damaged compounded nonsterile products that do not contain any controlled substances as ingredients. They will employ a destruction log that identifies the items destroyed, the date destroyed, and the individual responsible for the destruction. Any controlled substance compounded preparations will be sent to a reverse distributor for destruction.
37.04	Does the pharmacy return prescription products to the manufacturer, distributor, or send to a reverse distributor for destruction? *If yes, indicate name of reverse distributor used.*	Yes	PharmaLogic
37.05	Does the pharmacy have a hazardous waste handling and collection system? For example, empty bottles that contained chemotherapy medications or warfarin, or hazardous drug compounding waste. *If yes, indicate how often the bin is emptied/collected and the vendor used.*	N/A	
38.00	Does the pharmacy have a private area for patient counseling and providing patient services? *Describe.*	No	This is a closed-door pharmacy.
39.00	Is temperature in the drug storage area maintained to provide controlled room temperature of 20° to 25°C (68° to 77 °F), or more restrictive if warranted by specific drug product storage requirements? *Describe. Record the temperature at the time of inspection.*	Yes	24 hour temperature reporting is attached to the security system. If the temperature goes out of the programmed range of 59-77 degrees Celsius, PIC Bergh will be contacted by the security company (Everon). Temperature in the drug storage room at time of inspection was 74 degrees Fahrenheit.
39.01	Is temperature monitoring in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max? Temperature records are maintained. *If yes, describe the process*	Yes	Retroactive temperature monitoring of CRT spaces is tied to the pharmacy's alarm system. Per PIC Bergh, 59-77 degrees Fahrenheit is the programmed min/max range. PIC Bergh will receive a phone call from Everon security alerting her of any excursion. A manual check of the CRTs in the building is completed and logged every business day. During the manual CRT check, if the temperature in the compounding room is not between 68 and 77 degrees Fahrenheit they will cease compounding operations until an in-range temperature can be achieved.

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
39.02	Are excursion action plans in place including evaluating excursion effects on drug product integrity?	Yes	Per PIC Bergh, a visual inspection of the compounded medication will be completed, and no assessment of altered potency would be done because potency was verified during the compounding process.
40.00	Are the refrigerator and freezer restricted to drug products only (no food)?	N/A	The pharmacy does not have any drug products or APIs that require storage at either refrigerated or frozen temperatures. There is a functional refrigerator in the compounding lab that could be used for drug storage if need be.
41.00	Does the pharmacy have a process for how the refrigerator temperature is monitored for excursions 24/7? *If yes, describe the process. Indicate range. How are excursions detected? How long are records maintained?*	Yes	Retroactive temperature monitoring of the 1 refrigerator earmarked by drug storage is tied to the pharmacy's alarm system. Per PIC Bergh, 2-8 degrees Celsius is the programmed min/max range. PIC Bergh will receive a phone call from Everon security alerting her of any excursion. A manual check of the refrigerator temperature is completed and logged every business day. The logs will be kept for at least 2 years.
41.01	Is the temperature in the refrigerator within the USP range (2°-8°C or 36°-46 °F) or as specified by FDA approved labeling for drug product storage? *Record the temperature of the refrigerator at the time of inspection.*	Yes	4.6 degrees Celsius.
42.00	Does the pharmacy have a process for how the freezer temperature is monitored for excursions 24/7? *If yes, describe the process. Indicate range. How are excursions detected? How long are records maintained?*	N/A	This pharmacy does not have any drugs in stock that are required to be stored in a freezer.
42.01	Is the temperature in the freezer within the USP range (between −25° to −10°C or −13° to 14 °F) or as specified by FDA approved labeling for drug product storage? *Record the temperature of the freezer at the time of inspection.*	N/A	This pharmacy does not have any drugs in stock that are required to be stored in a freezer.
43.00	Are there contingency plans in the event of power outage or refrigerator/freezer failure? *Describe process.*	Yes	There is a natural gas backup generator on the roof of the building.
44.00	Are there contingency plans in the event of heating or air conditioning failure? *Describe processes.*	Yes	Per PIC Bergh, if they have to move products out of the pharmacy due to extreme temperatures, they would like take them to their sister pharmacy, SmartScript Pharmacy, in Oshkosh WI.

An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
45.00	Is there a plan of action if there are any temperature or humidity excursions to determine if the integrity of the products has been compromised?	Yes	Per PIC Bergh, a visual assessment for any damages would be completed to validate the product is safe and consistent.
46.00	Does the pharmacy utilize any automated apparatuses for prescription processing/counting (such as robotics, Baker cells, etc)? *List numbers and types.*	No	
46.01	If yes, do they have and follow policies and procedures addressing cross-contamination and identification of drug products?	N/A	
	Product Receipt and Inventory If any part of a question is no, enter "No" and explain the observation.		
47.00	Does the pharmacy have a documented process for establishing sources (vendors) of prescription drugs? *Describe.*	No	Per PIC Bergh, there is not any official policy, but they will develop one.
47.01	Does the pharmacy purchase all prescription drugs directly from the manufacturer?	No	
47.02	Does the pharmacy purchase (obtain) prescription drugs from other pharmacies? *If yes, list pharmacy source information, and circumstances leading to the purchase.*	No	
47.03	Does the pharmacy purchase (obtain) prescription drugs from wholesale distributors (non-manufacturer sources)? *List non-manufacturer sources.*	Yes	TopRx (for commercially available drug products) PCCA, Medisca, Fagron/Letco, Darmerica (for APIs)
47.04	Does the pharmacy require wholesale distributor sources to purchase prescription drugs directly from the manufacturer? *If yes, how is this verified?*	No	
47.05	Does the pharmacy purchase drugs from wholesale distributors that purchased the drug from other wholesale distributors? *If yes, Describe the due diligence steps to determine the source's legitimacy and legitimacy of the drugs sold by the vendor. (For instance. does the pharmacy examine transaction histories and limit the number of movements of drugs between wholesale distributors, and look for pharmacies in the supply chain?)*	Unknown	Per PIC Bergh, the only DSCSA drug products they have purchased since the pharmacy opened came from TopRx, and TopRx has not given them access to their interoperable system. The invoices received by Synergy Pharmacy for the products they purchased do not show the Transaction History. Per PIC Bergh, TopRx told them they would not give them access to that until they have a DEA registration.

		Observation	Notes
47.06	Does the pharmacy determine that all sources listed on transaction histories have requisite state licensing? *If yes, describe the process.*	No	
47.07	Does the pharmacy determine that all sources listed on transaction histories have reported to FDA's Wholesale Distributor database? *If yes, describe the process.*	No	
47.08	Does the pharmacy have a process to handle suspect and illegitimate product investigations? *If yes, describe the process.*	Yes	If the pharmacy receives stock they question to be suspect or illegitimate, it will be put into the quarantine box. The supplier will be contacted and the product will remain in quarantine until the supplier gives further direction to the pharmacy.
47.09	Has the pharmacy conducted any suspect or illegitimate product investigations? *If yes, describe the details, including the drug, circumstances, outcome, and identification of agencies to whom reported.*	No	
47.10	Does the pharmacy ensure transaction data (transaction history, transaction information, transaction statement, also known as 3T data) is received at the same time or before the product is received? *Examine recent purchases to determine if the pharmacy is receiving and maintaining 3T data for a minimum of 6 years.*	No	TopRx is the wholesaler used to obtain commercially available prescription drugs. Per PIC Bergh, TopRx will not grant them access to their 3T/DSCSA data portal without having a valid DEA registration.
47.11	Does the pharmacy have a procedure to verify product (suspect or illegitimate) including quarantine of product and reporting?	Yes	
48.00	Does the pharmacy utilize paper DEA-222 forms to procure Schedule II substances? *If yes, how are they secured? Who has the authority (Power of Attorney) to sign the DEA-222 forms?*	N/A	Pharmacy does not have DEA registration, and they have no plans to stock Schedule II controlled substances.
49.00	Does the pharmacy utilize CSOS (electronic Schedule II ordering) to procure Schedule II substances? *If yes, who can place orders in CSOS?*	N/A	Pharmacy does not have DEA registration, and they have no plans to stock Schedule II controlled substances.
50.00	Is the receipt of Schedule II orders documented appropriately? *DEA-222 has the quantity and date on each line of product received, the CSOS record (electronic or paper printout) indicates verification of receipt and staff performing verification.*	N/A

General Pharmacy Inspection

The information and comments obtained in the Nonsterile Compounding, Sterile Compounding Inspections, and Hazardous Drug Compounding are based on USP Chapters <795>, <797>, and <800>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
51.00	Are invoices for controlled substances (Schedules I-V) that are received filed separately and are the invoices signed/initialed and dated upon receipt and every item checked in?	N/A	
52.00	Are all orders received when the pharmacy is open? *Verify the orders are brought directly to the pharmacy still sealed and not delivered before the pharmacy is open.*	N/A	
53.00	Does the pharmacy purchase any compounded products from other entities for dispensing to patients? *If so, describe which products and from where they are purchase (collect name and license of other entity).*	No	
54.00	Does the pharmacy have a system in place to track prescription drug products in order to detect diversion or theft? *Describe (for example, inventory or shrink report tools used, perpetual inventory in computer, etc).*	Yes	A manual perpetual inventory of all controlled substance medications will be maintained.
54.01	Are incidents of diversion or resignation/termination of personnel for cause reported? *Indicate agencies/law enforcement to whom reports are made.*	Yes	The Wisconsin Board of Pharmacy and local law enforcement would be contacted.
55.00	Does the pharmacy keep a perpetual inventory log of all Schedule II controlled substances (including APIs, if applicable)?	N/A	The pharmacy does not have a DEA registration at this time, and therefore does not have any controlled substances as part of their inventory.
56.00	Is the Schedule II perpetual inventory log reconciled regularly? *Indicate how often the Schedule II controlled substances are counted. View the perpetual log and verify that reconciliation is taking place.*	N/A	
57.00	Is the most recent complete controlled substances inventory available for review? *Indicate the date of the last inventory and frequency taken (minimum every two years).*	N/A	
57.01	Does the pharmacy maintain other required inventories (such as change in PIC, theft/loss, etc)?	N/A	Pharmacy does not have a DEA registration at this time.

e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
58.00	Does the pharmacy stock and sell OTC pseudoephedrine (and/or ephedrine) products? If yes, indicate if the sale is recorded electronically or manually in a logbook.	No	
58.01	Are these products mailed, sent, or delivered into other states? *View logs. If yes, list the other states.*	N/A	
59.00	Does the pharmacy stock and sell other OTC restricted products for which ID is required and a log kept of the sale? *If yes, indicate product types.*	No	
59.01	Are these products mailed, sent, or delivered into other states? *View logs. If yes, list the other states.*	N/A	
60.00	Are outdated, damaged, or recalled products segregated? *If yes, how often does the pharmacy check for out-of-date products? Does it include OTC products?*	Yes	Pharmacy plans to check for out-of-date products on a quarterly basis. Pharmacy does not stock any OTC products.
60.01	Are all drugs within active-stock within expiration date? *Examine shelves, refrigerator and freezer.*	Yes	
60.02	How often is active-stock examined for drugs past the expiration date?		Will check quarterly. If anything is to expire within the next 3 months it will be pulled from the shelf and put into quarantine.
61.00	Does the pharmacy **prepackage** bulk containers of prescription medications into smaller containers for ease of use? *What BUD is used on the prepackaged container?*	No	
62.00	Does the pharmacy **prepack** multiple drugs into a single container for compliance packaging? *What BUD is used on the prepacked containers?*	No	
63.00	Does the pharmacy return to stock prescription drugs that were filled but never picked up?	N/A	All prescriptions are mailed out after they are prepared. If any prescription drug were to be returned to the pharmacy from the United States Postal Service as "undeliverable" it would be placed in quarantine for future destruction.
63.01	If yes, are they maintained in the appropriate container, with PHI removed and BUD adjusted?	N/A

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
Prescription Processing	**If any part of a question is no, enter "No" and explain the observation.**		
64.00	**Patient Profile:** Is patient profile data organized and readily accessible to facilitate consultation with the prescriber, patient, or caregiver? *Indicate who enters patient profile data into the computer system and how often it is updated?*	Yes	Until technicians are hired, patient profile data will be entered by PIC Bergh. As explained by PIC Bergh, there is Artificial Intelligence (AI) functionality that helps auto-populate some data fields. The Joyous practitioner group (see 65.02) has given them access to their EMR. With that visibility, staff at Synergy Apothecary will be able to update data on a regular basis.
64.01	If the pharmacy dispenses veterinary prescriptions, does the information gathered and recorded include the species, and name of the animal/owner as required by resident state law? *Describe how it is indicated in the computer system that the patient is an animal? And how is it indicated in the system the prescription is a veterinary prescription?*	N/A	
65.00	**Prescription:** Are adequate processes in place to assure the integrity, legitimacy, and authenticity of prescription orders? *Staff is familiar with detecting fraud in hard copy, faxed, verbal, and electronic prescriptions.*	Yes	
65.01	Is there a procedure to follow when a prescription is suspected of (or actually is) fraudulent? *Describe the steps and reporting process.*	Yes	The pharmacy would contact the prescriber's office to determine if the prescription is legitimate. If it is not, the local police would be alerted, as would other area pharmacies.
65.02	Are adequate processes in place for assuring that prescription medications are not prescribed or dispensed based on online medical consultations without there being a pre-existing prescriber-patient/client relationship? Describe. Do the processes include comparing the physical addresses of the patient and prescriber?	Yes	Per PIC Bergh, the majority of their prescriptions will be for low-dose ketamine troches from prescribers affiliated with a telehealth subscription program called Joyous (www.joyous.team). The owner of Synergy Apothecary is related to one of the co-founders of Joyous. PIC Bergh explained that patients affected by such mental health conditions as PTSD, anxiety and depression can apply to have an video consultation with a Joyous provider. A participating practitioner from the same state the patient resides in will be assigned to the consult. If the practitioner determines the patient is a good candidate for very low-dose ketamine treatment, the patient must agree to Joyous' subscription requirements. Those requirements include responding to provider-initiated daily text messages used for the purpose of assessing for tolerability and side effects. PIC Bergh, Synergy Apothecary and SmartScript Pharmacy (Oshkosh, WI) are the preferred pharmacies for Joyous. Synergy Apothecary is able to login to Joyous' EMR and has visibility into provider documentation.

An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
65.03	Does the pharmacy have electronic prescription capability? *Indicate whether it is for non-controlled substances, controlled substances, or both.*	Yes	Both
65.04	If the pharmacy accepts electronic prescriptions for controlled substances, are they in compliance with federal regulations?	N/A	Pharmacy does not have a DEA registration at this time, and, therefore, are not filing any prescriptions for controlled substances.
66.00	**Accuracy:** Is the accuracy of the information entered into the computer system verified (patient information and prescription information)? *Indicate how and by whom.*	Yes	A pharmacist will verify all elements of patient and prescription data entered during the pre-verification step.
67.00	**DUR:** Does staff conduct prospective DUR prior to the dispensing of a medication or product? *Describe at what point in the process does the DUR take place?*	Yes	If a technician performed the intake portion/data entry for a prescription received for a Joyous patient, a pharmacist will complete the DUR during pre-verification. If the prescription is for a medication prescribed by a Joyous practitioner, the pharmacist can access the EMR in order to assist in the DUR. If a prescription is being filled for an individual that did not obtain a prescription through Joyous, the pharmacist will contact the patient by phone to inquire about other medications the patient takes and if the patient has any know medication allergies.
67.01	Does the DUR include: • drug-drug interaction (Prescription and OTC), • drug-allergy interaction, • therapeutic duplication, • under- or over-utilization (including clinical abuse/misuse), • disease state or condition contraindication, • Incorrect dosage or duration of therapy, and • gender or age related contraindications. *Indicate if there are other parameters routinely included in the DUR.*	Yes	
67.02	In addition to the pharmacy DUR software, does the pharmacy staff obtain other information to use in the DUR process? *Describe.*	Yes	Per PIC Bergh, information from the Joyous EMR will also be used to complete a Drug Utilization Review.
67.03	Does the pharmacy have adequate resources/references related to the type of pharmacy practice it operates?	Yes

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
67.04	Does the pharmacy report required data to the state PMP (in this state and the other states in which the pharmacy is licensed)? *Describe.*	N/A	PIC Bergh stated that until the pharmacy receives their DEA registration number, they are not given permission by the PDMP administrator (Bamboo Health) to submit reports, even "zero reports".
67.05	Does the pharmacy access state PMP/PDMP data for specific patients? *Verify there is a policy regarding access and follow-up or reporting and that pharmacist can access the PMP data.*	Yes	PIC Bergh has a personal account to check the PDMP in the states in which she is licensed.
67.06	Are DUR overrides/bypasses documented? *Indicate how the override is documented and who has override capability.*	Yes	The PioneerRx prescription dispensing software will electronically log the identification of the employee who approved an override. Only pharmacists are authorized to override.
67.07	Is the DUR process performed electronically by the computer system? ***Identify integrated drug database used.***	Yes	First Databank
67.08	If the DUR is manual, is there a system to document: • How manual DUR is performed • Specific issues that were identified • Pharmacist that considered the identified issues and gave the okay to proceed	Yes	Per PIC Bergh, there is an "Annotations" field in each prescription record within the PioneerRx software system that is not able to be deleted once populated. Any DUR-related notes are entered into this field.
67.09	If the pharmacy dispenses veterinary prescriptions, does it have a veterinary drug database integrated into the computer system for electronic DUR? *List veterinary product electronic database used. If not, list compendia used for performing manual DUR.*	N/A	
68.00	Are filled prescriptions verified for accuracy prior to dispensing? *Indicate process, by whom, and how documented.*	Yes	During entry of prescription data, a technician will select a lot number from a pull-down tab of the medication to be dispensed. Another technician will manually fill the prescription and bring it out for final verification by a pharmacist. During that final verification the pharmacist will scan the barcode on the label of the selected compound and then scans the barcode on the patient label to ensure a match. A technician will package the patient's prescription, but before sealing up the mailer, a pharmacist will check to make sure the patient name on the medication matches that on the mailing label.

Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
69.00	Are filled prescriptions appropriately labeled? *Describe.*	Yes	Prescription labels include all required elements including federal law "Caution" statement, the word "Compound" if it is a CNSP, and the compound's lot number.
70.00	**Confidentiality:** Does the system have adequate safeguards to prevent a user from performing functions under a different user account or beyond what they are authorized to perform? *Password protected, access limited by job type, access revoked as appropriate such as upon termination. Record name/brand of pharmacy computer system used.*	Yes	PioneerRx is the pharmacy's prescription processing software platform. Logins for each individual require entry of a unique password and a pin number.
70.01	Does the pharmacy destroy PHI including labeled prescription vials?	Yes	
71.00	**Mail/Delivery:** If applicable, are packing materials designed to maintain the physical integrity, stability, and purity of prescription medications and compounded preparations in transport?	Unknown	Per PIC Bergh, their proposed packing process will be tested by the pharmacy once in a full-service, operational mode.
72.00	**Off-Site Processes:** Are any portions of the prescription processing (in the questions below) performed at a different location? ***Note: Please ask each question below to verify.***	No	
72.01	If yes, is the other location under common ownership? *If not commonly owned, explain if there is a central fill/shared services or other agreement in place. Record the name and license number for the other location.*	N/A	
72.02	If yes, is that location in a different state than this facility? *If so, explain.*	N/A	
72.03	If yes, are there policies and procedures for identifying who is responsible for each step of prescription processing?	N/A	
73.00	**Off-Site Inventory:** Does the pharmacy maintain any emergency kits in nursing homes, long-term care facilities, or other entities (such as hospice, EMTs, ambulances)? *Note name(s) of facilities or entities.*	No	
73.01	Do the emergency kits contain any compounded products? *If so, indicate whether sterile and/or nonsterile and are these stored, non-patient specific?*	N/A

Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
74.00	**Off-Site Inventory:** Does the pharmacy maintain any automated prescription dispensing devices outside the pharmacy such as Pyxis in a nursing home, or a secure mailbox device that patients access after hours, etc? *Note types and locations.*	No	
74.01	If yes, are the automated devices appropriately licensed, registered, or approved by the board of pharmacy? *Provide details.*	N/A	
74.02	Do the automated dispensing devices contain any compounded products? *If so, indicate whether sterile and/or nonsterile and are these stored, non-patient specific?*	N/A	
	Patient Counseling and Communication If any part of a question is no, enter "No" and explain the observation.		
75.00	Does the pharmacist provide counseling for all <u>new</u> prescriptions picked up at the pharmacy (proactively, no "offer")?	N/A	This is a closed-door pharmacy. No patients pick up their prescriptions. All prescriptions are mailed out.
75.01	Is an "offer" to counsel made for all <u>new</u> prescriptions picked up at the pharmacy? *Indicate who makes the "offer".*	N/A	
76.00	Does the pharmacist provide counseling for all <u>refilled</u> prescriptions picked up at the pharmacy (proactively, no "offer")?	N/A	
76.01	Is an "offer" to counsel made for all <u>refilled</u> prescriptions picked up at the pharmacy? *Indicate who makes the "offer"*	N/A	
77.00	Does the pharmacist provide counseling for <u>refilled</u> prescriptions picked up at the pharmacy when there is a change in therapy or other issue determined by the pharmacist (proactively, no "offer")?	N/A

Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
77.01	Is an "offer" to counsel made for all refilled prescriptions picked up at the pharmacy when there is a change in therapy or other issue determined by the pharmacist? *Indicate who makes the "offer"*	N/A	
78.00	Is patient counseling provided for delivered prescriptions? *Printed information sent to patient, toll-free number for patients to call, pharmacist calls patients directly, etc? Describe how.*	N/A	
79.00	Is patient counseling provided for mailed prescriptions? *Printed information sent to patient, toll-free number for patients to call, pharmacist calls patients directly, etc? Describe how.*	Yes	Printed prescription information is mailed to the patient with their compounded medication. The information includes the pharmacy's toll-free number. Per PIC Bergh, an offer to counsel is sufficient in Wisconsin.
80.00	Are patient package inserts (PPIs) provided with every fill and refill of medications for which they are required (such as hormone products, inhalers, etc)? *Describe how.*	Yes	PPIs will automatically print off with the label for any commercially-available product that is dispensed at this pharmacy. This feature is standard in the PioneerRx software program.
81.00	Are MedGuides provided with every fill and refill of medications for which they are required (such as NSAIDS, antidepressants, etc)? *Describe how.*	Yes	MedGuides will automatically print off with the label for any commercially available product that is dispensed at this pharmacy. This feature is standard in the PioneerRx software program.
82.00	Are REMS (Risk Evaluation Mitigation Strategy) implementation programs performed? Confirm that procedures are in place. *List programs (such as iPledge for isotretinoin, or Tikosyn).*	N/A	
83.00	Is patient counseling, the offer to counsel, or the refusal of patient counseling documented? *Describe how.*	N/A	Per PIC Bergh, pharmacies are not required by the state of Wisconsin to document the offer or refusal of counseling.
84.00	Do patients have 24-hour access to a pharmacist? *Note: may not be required by the resident state. Describe how (such as posted contact information and hours of operation).*	No	Per PIC Bergh, this is not required by the state of Wisconsin for retail pharmacies.

		Observation	Notes
85.00	Are processes in place to handle a drug recall?	Yes	
86.00	Does the pharmacy accept prescription drugs back for destruction as part of a drug take-back program?	No	
86.01	Does the take-back program include controlled substances?	N/A	
86.02	Does the pharmacy have a modified DEA registration for controlled substance take-back? *If yes, list.*	N/A	
	Quality Assurance/Quality Improvement Program **If any part of a question is no, enter "No" and explain the observation.**		
87.00	Is there a documented continuous quality improvement (CQI) Program for the purpose of detecting, documenting, assessing, and preventing quality related events (QREs)? *If yes, list who oversees the program.*	Yes	PIC Bergh oversees the QA program.
87.01	Policies and procedures for the program are maintained in the pharmacy in an immediately retrievable form. *Indicate if hard copy, electronic, or both.*	Yes	
87.02	"Quality-Related Event" (QRE) is defined to mean any departure from the appropriate dispensing of a prescribed medication that is or is not corrected prior to the delivery and/or administration of the medication including (but not limited to): 1. a variation from the prescriber's prescription drug order such as incorrect drug, strength, form, or patient; or inadequate or incorrect packaging, labeling, or directions; 2. a failure to identify and manage over-utilization or under-utilization; therapeutic duplication; drug-disease contraindications; drug-drug interactions incorrect drug dosage or duration of drug treatment; drug-allergy interactions; or clinical abuse/misuse. 3. packaging or warnings that fail to meet recognized standards, the delivery of a medication to the wrong patient, or the failure to detect and appropriately manage a significant actual or potential problem with a patient's drug therapy.	Yes

Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
87.03	There is documentation of initial/ongoing (at least yearly) review and training of all pharmacy employees on the CQI program and processes. *For example, may be formal training or reviewed at a yearly meeting.*	Yes	
88.00	**Documentation of QREs** starts as soon as possible, but no more than three days, after determining their occurrence. *Indicate if documentation/forms are hard copy or electronic.*	Yes	Per policy, QREs need to be brought to the PIC immediately and it must be documented within 24 hours of discovery. If the QRE involves ingestion of an incorrect medication by the patient, the doctor would need to be contacted within the next business day.
88.01	Documentation includes all the pertinent data about the prescription involved including personnel involved at each step.	Yes	
88.02	Documentation includes documenting the type of QRE details and how/who discovered the QRE.	Yes	
88.03	Documentation incudes possible contributing factors such as day and time the QRE occurred, number of pharmacists and technicians on duty, prescription volume that day, equipment failure, or other factors affecting work-flow at the time.	Yes	
88.04	Documentation includes steps taken to remediate including communications with the patient and the provider, and if the medication was ingested, disposition of the patient.	Yes	
89.00	**QRE data** collected is analyzed to assess causes and any contributing factors (root cause). *Indicate who performs the analysis and frequency (with each event, weekly, monthly, quarterly, etc).*	Yes	PIC Bergh will be completing the analysis on a quarterly basis.
89.01	The pharmacy uses the findings of the analysis to formulate an appropriate response and develop pharmacy systems and workflow processes designed to prevent QREs and increase good outcomes for patients.	Yes

National Association of Boards of Pharmacy®
Verified Pharmacy Program® Inspection Form

General Pharmacy Inspection

The information and comments obtained in the Nonsterile Compounding, Sterile Compounding Inspections, and Hazardous Drug Compounding are based on USP Chapters <795>, <797>, and <800>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
89.02	For pharmacies utilizing a drug formulary, a periodic review of such formulary is undertaken to ensure that appropriate medications are being offered/selected in the best interest of patients.	N/A	This pharmacy does not use a drug formulary.
90.00	**Quality meetings** are held at least annually by staff members of the pharmacy to consider the effects on quality of the pharmacy system due to staffing levels, workflow, and technological support.	Yes	
90.01	The meeting reviews data showing evidence of the quality of care for patients and develops plans for improvements to increase good outcomes for patients.	Yes	PIC Bergh anticipates that quarterly meetings will look items such as, but not limited to, medication errors, complaints, trends in potency via spectrometer readings, and reminders about simple math calculations.
90.02	Improvements or changes made are evaluated for performance to measure the effectiveness of the CQI program.	Yes	
91.00	**Reporting:** Incidents of QREs are reported to a nationally recognized error reporting program, an outside peer review committee, or a patient safety organization. *Indicate which organizations are reported including if the pharmacy reports QREs to the board of pharmacy.*	Yes	ISMP National Medication Error Reporting Program
91.01	Adverse events are reported to the appropriate entities such as the board of pharmacy, MedWatch, FDA, VAERS, etc?	Yes

e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Notes
91.02	Incidents involving malfunctioning or defective medical equipment or devices (blood glucose meters, DME, injection devices, etc) are documented and reported to the manufacturer or distributor.	N/A	
92.00	**Quality Self-Audits** are performed by the pharmacy at least quarterly (and upon change in PIC) to determine whether the occurrence of QREs has decreased and whether there has been compliance with preventative procedures, and to develop a plan for improved adherence with the CQI program in the future.	Yes	
93.00	**Consumer Surveys** are conducted at least yearly of patients who receive pharmaceutical products and services at the pharmacy. A statistically valid sampling technique may be used in lieu of surveying every patient. Each pharmacy should use the results of its consumer survey to evaluate its own performance at a particular time and over a period of time.	Yes	Per PIC Bergh they will be sending out patient surveys on an annual basis.
94.00	**Patient Complaints** are documented, tracked, and investigated as appropriate and the information is used as part of the CQI program.	Yes	Have a dedicated "Customer Complaint Log" and a "Customer/Internal Complaint Record".

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
	Standard Operating Procedures for Compounded Nonsterile Preparations (CNSPs)		**Please note NABP did not review each SOP for alignment on USP <795>. The SOP(s) described below is/are a reflection of any self-assessment completed by the pharmacy and/or shared with the inspector during the onsite inspection.**	
1.0	Does the pharmacy have standard operating procedures (SOPs) on all aspects of the compounding operation that cover the minimum topic requirements in USP <795> standards? ***If no, document "missing" in Inspector Notes*** ***If yes, document the name, number, and version of each SOP in the Inspector Notes.***	Yes		11
1.1	**Buildings and Facilities:** The pharmacy has an SOP for the compounding facility. ***Inspector note: Per USP <795>, there is a written SOP for "the method of designation" for the area designated specifically for nonsterile compounding and processes for maintaining, cleaning, and sanitizing the compounding area and equipment.***		4.05 - Section 8.0 to end of P&P	4.1, 5, 11
1.2	**Personnel Training and Evaluation:** The pharmacy has an SOP describing the training program, the frequency of training, and the process for evaluating the competency of personnel. ***Inspector note: Per USP <795>, "Facility SOPs must describe procedures for monitoring and observing of compounding activities and personnel."***		2.010 and 2.02 - Entire policies	2, 11
1.3	**Personal Hygiene and Garbing:** The pharmacy has an SOP regarding personal hygiene, glove, and garbing requirements consistent with compounding activities. ***Inspector note: Per USP <795>, "Garbing requirements and frequency of changing garb must be determined by the facility and documented in the facility's SOPs."***		1.050 and 3.09 - Section 4	3.3, 11
1.4	**Components:** The pharmacy has an SOP describing selection, handling, storage, and inventory control of all components used in compounding. ***Inspector note: Per USP <795>, "The compounding facility must have written SOPs for the selection and inventory control of all components from receipt to use in a CNSP."***		5.06 - Section 4.02 and onward	6.2, 11

National Association of Boards of Pharmacy®
Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
1.5	**Temperature Monitoring:** The pharmacy has an SOP regarding temperature monitoring and handling of excursions. ***Inspector note: Per USP <795>, "The compounding facility must adhere to SOPs to detect and reduce the risk of temperature excursions within the storage area(s)."***		4.051, 4.050 - Section 8.5 plus log sheet	4.2, 11
1.6	**Equipment**: The pharmacy has an SOP for assessment of need for closed system processing devices (based on the types of CNSPs prepared). ***Inspector note: Per USP <795>, "Weighing, measuring, or otherwise manipulating components that could generate airborne chemical particles (e.g., active pharmaceutical ingredients [APIs], added substances, and conventionally manufactured products) must be evaluated to determine if these activities must be performed in a closed-system processing device to reduce the potential exposure to personnel or contamination of the facility or CNSPs. Examples of closed-system processing devices include containment ventilated enclosures (CVEs), biological safety cabinets (BSCs), and single-use containment glove bags. The process evaluation must be carried out in accordance with the facility's SOPs, and the assessment must be documented."***		4.01 - Section 4 and onward	6.1, 11
1.7	**Safety Data Sheet (SDS)/Spill Management:** The pharmacy has an SOP describing spill management and disposal. ***Inspector note: Per USP <795>, "The management and documentation of nonhazardous component spills and disposal must be described in the facility's SOPs."***		5.015, SW for spill - Section 4.19	6.2.5, 11
1.8	**Master Formulation Records (MFR):** The pharmacy has an SOP on the process for MFR creation and content. ***Inspector note: Per USP <795>, "Any changes or alterations to a Master Formulation Record are approved and documented in accordance with the facility's written SOP."***		5.05 - 4.1, 4.4, 4.5	7.1, 11
1.9	**Labeling:** The pharmacy has an SOP on the processes for labeling, label verification (confirming against the prescription or medication order, the MFR, and the compounding record (CR)) in order to prevent errors and CNSP mix-ups and required displayed information. ***Inspector note: Per USP <795>, "Labeling procedures must be followed as described in the facility's SOPs to prevent labeling errors and CNSP mix-ups."***		5.015, 4.012 - Section 4.4	9, 11

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
1.10	**Quality Assurance (QA)/Quality Control (QC) Program:** The pharmacy has an SOP regarding its QA and QC program, including roles of the designated person(s), trainers, compounding personnel, adherence to procedures, and prevention and detection of errors and quality issues. ***Inspector note: Per USP <795>, "QA and QC programs must be formally established and documented in SOPs that ensure that all aspects of the preparation of CNSPs are conducted in accordance with this chapter, and laws and regulations of the applicable regulatory jurisdiction."***		3.01 - Entire policy	11, 12 USP <1163>
1.11	**QA/QC Program Complaint Handling and Adverse Event Reporting:** The pharmacy has an SOP for evaluation of complaints and adverse events, including investigations and corrective actions. ***Inspector note: Per USP <795>, the pharmacy, "must develop and implement SOPs for complaint handling." SOPs are to include any state or federal requirements for reporting to government agencies (example adverse event reporting). Further, "Consider whether to initiate a recall of potentially affected CNSPs and whether to cease compounding until problems have been identified and corrected."***		5.02, 5.05 - 4.2 complaints (5.02) 4.2 quarantine, recalls	1.1.3, 11, 12.1, 12.2, 12.3
1.12	**Packaging:** The pharmacy has an SOP describing packaging CNSPs. ***Inspector note: Per USP <795>, "SOPs must describe packaging of CNSPs."***		5.015 - Entire policy	11, 13.1
1.13	**Transporting:** The pharmacy has an SOP describing transporting CNSPs. ***Inspector note: Per USP <795>, there must be "written SOPs to describe the mode of transportation, any special handling instructions, and whether temperature monitoring devices are needed."*** ***If the pharmacy does not transport CNSPs, inspector should answer statement as N/A.***		5.015 - Section 4.19	11, 13.2

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
2.2	The designated person(s) reviews facility SOPs at least every 12 months to ensure that they reflect current practice and such review is documented. ***Inspector note: Per USP, "The facility's SOPs must describe the roles, duties, and training of the personnel responsible for each aspect of the QA program... The overall QA and QC program must be reviewed at least once every 12 months by the designated person(s). The results of the review must be documented, and appropriate action must be taken if needed."***	Yes	SOPs indicate annual reviews will be conducted	1.1.4, 12
2.3	The designated person(s) is responsible for overseeing a training program to ensure competency of personnel involved in compounding, handling, and preparing CNSPs.	Yes		1.1.4, 2
2.4	The designated person(s) is responsible for selecting components used by the pharmacy.	Yes		1.1.4, 6.2.1
2.5	The designated person(s) is responsible for monitoring and observing compounding activities and taking immediate corrective action if deficient practices are observed.	Yes		1.1.4
2.6	The designated person(s) is responsible for ensuring SOPs are fully implemented and following up if problems, deviations, or errors are identified.	Yes		1.1.4, 11
2.7	The designated person(s) is responsible for establishing, monitoring, and documenting procedures for the handling and storage of CNSPs and/or components of CNSPs.	Yes		1.1.4
3.0	Has the pharmacy created and implemented a training program that is in compliance with USP <795> standards? ***Inspector note: Per USP, "Training and competency of personnel must be documented."*** ***Inspector is to review a minimum of five personnel records and document their observations (see <795> Records Review module).*** ***If no, go to compliance statements.***	No	This startup pharmacy only has 2 employees that are compounding.	2, 14

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
3.1	All personnel who compound CNSPs have been initially trained and qualified before being allowed to independently compound (eg, perform their job functions). ***Inspector note: Per USP, compounding personnel are defined as "Personnel trained to compound or oversee compounding of preparations."*** ***If questions 1.0-1.12 in the records review tab for compounding personnel are answered "no" or "missing," this statement should be answered as no. For details, see Records Review module.***	No		2, 14
3.2	All personnel who have direct oversight, perform in-process checks, final verification of a CNSP, and/or dispense a CNSP have been initially trained and qualified (according to SOPs) being allowed to independently perform their job functions. ***If questions 1.0-1.12 in the records review tab for compounding personnel are answered "no" or "missing," this statement should be answered as no. For details, see Records Review module.***	No		2, 14
3.3	All compounding personnel, including those who have direct oversight of compounding personnel, have completed an initial training and at least every 12 months thereafter. ***Inspector note: Per USP, "Other personnel, who do not compound and only perform functions such as in-process checks, final verification, or dispensing of CNSPs must undergo training as required by the facility's SOPs."*** ***If questions 2.0-2.12 in the records review tab for compounding personnel or personnel who have direct oversight over compounding personnel are answered "no" or "missing," this statement should be answered no. For details, see the Records Review module.***	No		2, 14
4.0	Does the designated person(s) have a documented (periodic) evaluation of their direct observations for compounding activities and documentation of any deficiencies in the record? ***Inspector note: Per USP, this is a recommendation, "the designated person(s) should monitor and observe compounding activities and must take immediate corrective action if deficient practices are observed. Facility SOPs must describe procedures for monitoring and observing compounding activities and personnel."*** ***Inspector should complete the <795> Records Review module question 3.0.***	N/A	Nothing is currently in place, yet PIC Bergh stated there will be annual samples sent out to Analytical Research Labs for all compounding staff to assess potency of each type of preparation they are trained to prepare.	2, 14

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
	Compounding Personal Hygiene and Garbing			
5.0	Does the pharmacy have a process to ensure all personnel entering the compounding area adhere to restrictions intended to minimize the risk of contamination in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		3
5.1	Compounding personnel are required to report to the designated person(s)conditions that may contaminate the compounding preparation area. ***Inspector note: Per USP <795>, examples of conditions that have a higher risk of contaminating the CNSP include: rashes, recent tattoos, open sores, conjunctivitis, and active respiratory infection.***	Yes		
5.2	The designated person(s) is responsible for evaluating whether compounding personnel should be excluded from working in the compounding areas before their conditions have resolved.	Yes		3
5.3	Personnel removes any unnecessary items (outer garments, jewelry that could interfere with garbing, and earbuds/headphones) before entering the compounding area. ***Inspector note: Inspector should also observe compounding area to identify any items stored that do not belong (ie, dirty garments, jackets, or electronics).***	Yes		3.1
5.4	If personnel do not remove an item, the designated person has determined that the quality of the environment and CNSPs are not adversely affected by the accommodation.	N/A		3.1
6.0	Do personnel perform hand hygiene, wear required garb and gloves, and follow requirements in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		3.3
6.1	All personnel entering the compounding area complete hand hygiene procedures.	Yes		3.2 Box 1

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
10.0	Does the pharmacy's storage area (for CNSPs, components, equipment, and containers) meet requirements in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		4.2
10.1	The pharmacy records the temperature of the compounding storage area on days when the pharmacy is open. ***Inspector note: Per USP, "Compounding personnel must monitor temperatures in the storage area(s) either manually at least once daily on days that the facility is open, or continuously with a temperature recording device to ensure the temperature remains within the appropriate range for the CNSPs and components."*** ***If pharmacy does not use a continuous recording system, describe the frequency of temperature recording in the notes.***	Yes		4.2
10.2	The pharmacy's temperature monitoring records are readily retrievable. ***Inspector note: Per USP, "The results of the temperature readings must be documented on a temperature log or stored in the continuous temperature recording device and must be retrievable."***	Yes		4.2
10.3	Temperature monitoring devices are verified for accuracy at least every 12 months or as required by the manufacturer. ***Inspector note: Per USP, "All temperature monitoring equipment must be calibrated or verified for accuracy as recommended by the manufacturer or every 12 months if not specified by the manufacturer." USP reports that these devices may be verified against a calibrated device.*** ***Monitoring devices are typically calibrated or replaced.***	Yes		4.2
10.4	Pharmacy has a process to evaluate temperature excursions. ***Inspector note: Per USP, "When it is known that a CNSP or component has been exposed to temperatures either below or above the storage temperature limits for the CNSP or component, personnel must determine whether the CNSP or component integrity or quality has been compromised and if so, the CNSP or component must be discarded."***	Yes	Per PIC Bergh, a visual assessment would be completed to validate the product is safe and consistent.	4.2
10.5	CNSPs, components, equipment, and containers are stored off the floor.	Yes		4.2

e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
10.6	CNSPs, components, equipment, and containers are stored in a manner that permits inspection and cleaning of the storage area(s).	Yes		4.2
10.7	CNSPs, components, equipment, and containers are stored in a clean environment (free of dirt, dust, and debris, and rodent/pest/insect free) to prevent contamination.	Yes		4.2
11.0	What is the current temperature of the nonsterile compounding storage area? ***Record in the Inspector Notes.***		74 degrees Celsius	4.2
12.0	Are plumbing fixtures, water sources, and cleanliness of sink in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		4.3
12.1	The pharmacy staff can easily access a sink within or nearby the nonsterile compounding area.	Yes		4.3
12.2	There is hot and cold running water available at the sink within or nearby the nonsterile compounding area.	Yes		4.3
12.3	The sink is emptied of all items unrelated to compounding and before being used to clean any equipment used in nonsterile compounding.	Yes		4.3
12.4	The sink is cleaned when visibly soiled (before being used to clean equipment used in nonsterile compounding).	Yes		4.3
12.5	The plumbing system is free of any defects that may contribute to contamination of CNSPs.	Yes		4.3
13.0	Is purified water, distilled water, or reverse osmosis water used for rinsing equipment and utensils used in nonsterile compounding? ***Inspector note: This is a USP recommendation.***	No		4.3 USP <1231>

National Association of Boards of Pharmacy®
Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
	Cleaning and Sanitizing			
14.0	What agent(s) are used for cleaning and sanitizing the nonsterile compounding area? ***Inspector note: Per USP <795>, "agents must be selected and used with consideration of compatibilities, effectiveness, and minimal potential to leave residues."*** ***List the agents in the Inspector Notes.***		70% Isopropyl Alcohol and RTU Neutral Disinfectant	5
15.0	Does the pharmacy perform cleaning and sanitizing activities on all surfaces at the minimum frequency per Table 1 and documented in a log or other record in compliance with USP <795> standards? ***Review compounding cleaning logs.*** ***If no, go to compliance statements.***	Yes		5 Table 1
15.1	All work surfaces are cleaned and sanitized at the **beginning of each shift** on days when compounding occurs.	Yes		5 Table 1
15.2	All work surfaces are cleaned and sanitized at the **end of each shift** on days when compounding occurs.	Yes		5 Table 1
15.3	All work surfaces are cleaned and sanitized **between compounding CNSPs with different components**.	Yes		5 Table 1
15.4	Floors are cleaned and sanitized daily on days when compounding occurs.	Yes		5 Table 1
15.5	Walls and ceilings are cleaned and sanitized when visibly soiled. ***Inspector note: No specific frequency is specified by USP. View compounding area walls and ceilings. If inspector observes soiled walls or ceilings, inspector should answer statement as no.***	Yes		5 Table 1
15.6	All work surfaces, floors, walls, ceilings and storage shelving are cleaned and sanitized when surface contamination (eg, splashes) or spills are known or suspected.	Yes		5 Table 1
15.7	Storage shelving is cleaned and sanitized at least every three months.	Yes		5 Table 1
16.0	Are floors in the compounding area easily cleanable, non-porous, and non-particle generating? ***Inspector note: This is a USP recommendation. Per USP, "Surfaces should be resistant to damage by cleaning and sanitizing agents."***	Yes		5

National Association of Boards of Pharmacy®
Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
	Equipment and Components FDA defines manufacturer, as used in section 510 of the Federal Food, Drug, and Cosmetic Act, includes the activities of relabelers, repackers, and salvagers. When not modified by "domestic" or "foreign," the term includes both domestic manufacturers and foreign manufacturers.			
17.0	Does the pharmacy use a closed-system processing device (eg, CVE, BSC, and single-use containment glove bags)? ***Inspector note: Per USP, examples of closed-system processing devices include: containment ventilated enclosures (CVEs), biological safety cabinets (BSCs), and single-use containment glove bags.*** ***If yes, list the type(s) in the Inspector Notes.***	Yes	BSC is being used for weighing powders	6.1
18.0	Does the pharmacy select, store, clean, and maintain equipment in compliance with USP <795> standards? ***Inspector note: Per USP <795>, "Equipment surfaces that contact components are not reactive, additive, or sorptive, and must not alter the quality of CNSPs."*** ***Review certification reports, calibration records, and cleaning logs.*** ***If no, go to compliance statements.***	No		6.1
18.1	Equipment and supplies are readily available at the pharmacy for the types of CNSPs prepared. ***Inspector note: For example, if the pharmacy compounds with API as a component, which must be weighed, a scale or balance would be expected.***	Yes		6.1
18.2	Pharmacy has evaluated and documented the nonsterile compounding pharmacy activities for weighing, measuring, and otherwise manipulating for an assessment of risk. ***Inspector note: Per USP, "components that could generate airborne chemical particles (eg, active pharmaceutical ingredients [APIs], added substances, and conventionally manufactured products) must be evaluated to determine if these activities must be performed in a closed-system processing device to reduce the potential exposure to personnel or contamination of the facility or CNSPs."*** ***If no, inspector should describe observations.***	Yes		6.1

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
18.3	The equipment and devices used for compounding CNSPs are clean and stored in a manner and frequency that minimizes the risk of contamination. ***Inspector note: Per USP <795>, "After compounding, the equipment must be cleaned to prevent cross contamination of the next preparation." Additionally, per Table 2:*** ***- CVE/BSC are cleaned and sanitized at the beginning and end of each shift when compounding occurs, after spills, and when surface contamination (e.g., from splashes) is known or suspected;*** ***- CVE/BSC horizontal surfaces are cleaned and sanitized between compounding of different components;*** ***- Under the work surface of a BSC is cleaned and sanitized at least monthly; and*** ***- Other devices and equipment used in compounding are cleaned before initial use, in between compounding CNSPs with different components, and following manufacturer recommendations.*** ***If no, inspector should describe observations.***	No	Most equipment is cleaned right after use, but the underside tray of the BSC is not listed as being cleaned either daily, weekly or monthly.	6.1 Table 2
18.4	Equipment and devices used in compounding or testing of CNSPs are inspected prior to use (to ensure they are in good working order). ***Inspector note: For example, the pharmacy may need to tare a scale and/or balance prior to use.***	Yes		6.1
18.5	Equipment and devices are verified for accuracy as recommended by the manufacturer (at the frequency recommended by the manufacturer or at least every 12 months, whichever is more frequent). ***If the pharmacy does not compound CNSPs that require equipment or devices that must be calibrated for accuracy (such as ones needed for weighing or measuring), the inspector should answer this statement as N/A.***	Yes		6.1
18.6	If a CVE or BSC is used by the pharmacy, it is certified at least every 12 months, according to the manufacturer specifications or regulations of the applicable regulatory jurisdiction. ***If the pharmacy does not have the record or documentation of the certification and maintenance of the CVE/BSC, the inspector should answer this statement as no. If the pharmacy does not have a CVE or BSC, the inspector should answer this statement as N/A.***	Yes	Certification of the BSC was completed on 10/31/2024 by Northern Air Flow.	6.1

National Association of Boards of Pharmacy®
Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
19.0	Does the pharmacy compounding CNSPs use APIs?	Yes		6.2
20.0	Does the pharmacy select APIs that comply with the requirements in USP <795> standards? ***Verify by selecting products from the shelf from different suppliers and ask to see the COAs for those products.*** ***If no, go to compliance statements.***	No		6.2.1
20.1	APIs comply with criteria in the USP-NF monograph, if one exists. ***If the pharmacy does not compound any CSPs that have an available USP monograph, the inspector should answer this statement as N/A.***	N/A		6.2.1
20.2	All APIs used have a COA that includes the specifications (eg, compendial requirements for quality) and that the test results for the component show the API meets expected quality. ***Inspector note: Per USP, the API should be checked to ensure it is pharmaceutical grade and meets the requirements in the chemical monograph. COA will report an assay has been performed and will include water content (so any corrections/calculations can be performed).***	Yes		6.2.1
20.3	All APIs used are manufactured by an FDA-registered facility. ***Inspector note: This is a Federal Food, Drug, and Cosmetic Act, Section 503A, requirement as well. Inspector should verify the pharmacy looks up the name of the manufacturer listed on the COA to determine if they are registered as an FDA drug establishment https://dps.fda.gov/decrs.***	Unknown	Discussed with PIC Bergh - this is not currently being done by staff when COAs are received and reviewed.	6.2.1
21.0	When formulations indicate the inclusion of water, is purified water or better quality (eg, sterile water for irrigation) used in compliance with USP <795> standards?	Yes		6.2.1
22.0	What type(s) of water is used for compounding CNSP? ***List the type(s) in the Inspector Notes.***		Distilled Water	6.2.1

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
23.0	Do the pharmacy's component receipt processes comply with the requirements in USP <795> standards? ***If no, go to compliance statements.***	Yes		6.2.2
23.1	For non-conventionally manufactured components, the COA is reviewed upon receipt. ***Inspector note: Per USP, "the COA must be reviewed to ensure that the component has met the acceptance criteria in an appropriate USP–NF monograph, if one exists." Pharmacy's review should be documented. Alternatively, the pharmacy can demonstrate how it's been reviewed (for example, there are notes to show a water content calculation back to 100% based on the specific COA). Inspector can verify the COA is retrievable.***	Yes		6.2.2
23.2	The pharmacy documents specific information according to the facility's SOP, including: receipt date, quantity received, supplier name, lot number, expiration date, and the results of any testing performed (whether performed in-house or through a third-party).	Yes		6.2.2, 14
23.3	For all components that lack a vendor expiration date, the pharmacy clearly and indelibly marks on each packaging system received the date the component must no longer be used by the pharmacy. ***Inspector note: Per USP, "Packaging systems of components (i.e., API and added substances) that lack a vendor's expiration date must not be used by the compounding facility after 3 years from the date of receipt. A shorter expiration date must be assigned according to Pharmaceutical Compounding—Sterile Preparations 797, 9.3.2 Component receipt if the same component container is also used in sterile compounding or if the ingredient is known to be susceptible to degradation."***	Yes		6.2.2
23.4	Any component found to be of unacceptable quality upon receipt or reinspection prior to use is promptly rejected, clearly labeled as rejected, and segregated from active stock to prevent use before appropriate disposal.	Yes		6.2.2
23.5	Any other lots of that (rejected) component from that vendor are examined to determine whether other lots have the same defect.	Yes		6.2.2

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
24.0	Does the pharmacy re-inspect all components before use and handle them in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		6.2.3, 6.2.4
24.1	Compounding personnel visually re-inspect each component, including packaging system (any evidence of container breakage, looseness of cap or closure) and deviation from the expected appearance or texture of the contents (that might have changed during storage).	Yes		6.2.3
24.2	Compounding personnel ascertain before use that components are the correct identity based on labeling, that they have been stored under required conditions, and there is no evidence of deterioration or other aspects of unacceptable quality before use of component.	Yes		6.2.3
24.3	Components where correct identity, strength, purity, and quality cannot be confirmed (eg, containers with damaged or incomplete labeling) are immediately rejected and if not immediately discarded, labeled as rejected and segregated from active stock.	Yes		6.2.3
24.4	Compounding personnel handle all components following facility SOPs, manufacturer's instructions/labeling, and laws/regulations of the applicable regulatory jurisdiction.	Yes		1.1.3, 6.2.4
24.5	All components are handled in a manner that minimizes the risk of contamination, mix-ups, and deterioration.	Yes		6.2.4
25.0	When components are removed from the original container and not used in compounding (eg, excess after weighing), are they discarded and not returned to the original container (to minimize risk of contamination of the original component container)? ***Inspector note: This is a USP recommendation.***	Yes		6.2.4

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
26.0	Does the pharmacy maintain a chemical hazard, spill management, and disposal information program in compliance with USP <795> standards? ***If no, go to compliance statements.***	No		6.2.5
26.1	Pharmacy staff have access to safety data sheets (SDS).	Yes		6.2.5
26.2	Pharmacy staff have documented, annual training for those who might have to clean up a spill.	No	Documentation of training on use of spill kits was not able to be produced.	6.2.5, 14
26.3	The pharmacy has a readily accessible spill kit in the compounding area.	Yes		6.2.5
26.4	The pharmacy has a process to manage and document any nonhazardous spills and disposal.	Yes		6.2.5
26.5	Waste of any component is disposed of in accordance with laws and regulations of the applicable regulatory jurisdiction.	Yes		1.1.3, 6.2.5
	Master Formulation Records (MFR) and Compounding Records (CR) **Inspector should review a minimum of five (5) MFRs and five (5) CRs.**			
27.0	Is an MFR created for each unique formulation of a CNSP in compliance with USP <795> standards? ***Inspector note: Per USP, an MFR is a detailed record of procedures that describes how the CNSP is to be prepared.*** ***If no, go to compliance statements.***	Yes		7.1
27.1	An MFR is created for each unique formulation.	Yes		7.1 Box2
27.2	Any changes or alterations to the MFR are approved and documented.	Yes		7.1

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
27.3	Does the designated person(s) or designee evaluate CNSP's characteristics when considering the assigned BUD for an MFR? ***Inspector note: Per USP, "When establishing a BUD for a CNSP, compounders must consider parameters that may affect quality, including but not limited to the following:*** ***- Chemical and physical stability properties of the API and any added substances in the preparation (e.g., if the API and added substances in the preparation are known to rapidly degrade over time and/or under certain storage conditions, reduce the strength of the preparation, or produce harmful impurities)*** ***- Compatibility of the container closure system with the finished preparation (e.g., leachables, interactions, adsorption, and storage conditions)*** ***- Degradation of the container closure system, which can lead to a reduction in integrity of the CNSP*** ***- Potential for microbial proliferation in the CNSP (and)*** ***- Significant deviations from essential compounding steps and procedures; changes to essential compounding steps may have an impact on the stability of the formulation."***	Yes		7.1, 10.2 Table 4
28.0	Does the pharmacy's MFRs contain all requirements in compliance with USP <795> standards? ***If no, go to compliance statements. Additionally, collect a copy of the MFR and include as an attachment.***	Yes		7.1
28.1	MFR includes the name, strength or activity, and dosage form of the CNSP.	Yes		7.1
28.2	MFR identifies the identities and amounts of all components and, if applicable, relevant characteristics of components (eg, particle size, salt form, purity grade, solubility).	Yes		7.1
28.3	MFR includes the type of container–closure system(s).	Yes		7.1

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
28.4	MFR has complete instructions for preparing the CNSP, including equipment, supplies, and a description of the compounding steps. ***Inspector note: Per USP, the MFR will also include, "Other information needed to describe the compounding process and ensure repeatability (e.g., adjusting pH, temperature)." MFRs will include the detailed instructions necessary for an experienced compounder. Some examples of other details to ensure repeatability include, but are not limited to: speed duration, settings on equipment, and specific order of mixing (if applicable).*** ***Inspector should review several MFRs for completeness of instructions.***	Yes		7.1
28.5	MFR has a physical description of the final CNSP.	Yes		7.1
28.6	MFR includes the assigned beyond-use date (BUD) and storage requirements.	Yes		7.1
28.7	MFR contains the reference source to support the assigned BUD.	Yes		7.1
28.8	Labeling requirements (eg, shake well) are described on the MFR.	Yes		7.1
28.9	If applicable, the MFR contains the calculations to determine and verify quantities and/or concentrations of components and strength or activity of APIs.	Yes		7.1
28.10	An MFR has QC procedures (eg, pH testing, visual inspection) and expected results.	Yes		7.1
29.0	Does the pharmacy complete a Compounding Record (CR) for all CNSPs in compliance with USP <795> standards? ***If no, go to compliance statements. Additionally, collect a copy of the MFR and the CR (no PHI or PII is to be collected).***	Yes		7.2, 14
29.1	A CR is completed for each CNSP prepared.	Yes		7.2, 14
29.2	The CR includes the name, strength or activity, and dosage form of the CNSP.	Yes		7.2, 14

e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
29.3	The CR includes the date (or date and time) the CNSP was prepared.	Yes		7.2, 14
29.4	The CR includes the assigned internal identification number (eg, prescription, order, or lot number).	Yes		7.2, 14
29.5	The CR has a method to identify the individuals involved in the compounding process of the CNSP.	Yes		7.2, 14
29.6	The CR has a method to identify the individual who completed the review and verified the final CNSP.	Yes		7.2, 14
29.7	The CR includes: name, vendor or manufacturer, lot number, and expiration date of each component.	Yes		7.2, 14
29.8	The CR includes the weight or measurement of each component.	Yes		7.2, 14
29.9	The CR identifies the total quantity compounded.	Yes		7.2, 14
29.10	The CR lists the assigned BUD and storage requirements.	Yes		7.2, 14
29.11	If applicable, the CR contains the calculations to determine and verify quantities and/or concentrations of components and strength or activity of API.	Yes		7.2, 14
29.12	The CR has a physical description of the final CNSP.	Yes		7.2, 14
29.13	The CR includes the results of quality control procedures (eg, pH testing, visual inspection).	Yes		7.2, 14
29.14	The CR contains a MFR reference for the CNSP.	Yes		7.2, 14
29.15	Each CR is reviewed for completeness before the CNSP is released.	Yes		7.2, 8
29.16	The CR shows traceability of all components in the case of a recall or known quality issue.	Yes		7.2, 12.1, 14

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
30.0	Are there procedures for in-process checks performed by a pharmacist? ***Inspector note: In-process checks are safety steps for complex, multi-step compounding processes. These checks indicate that appropriate procedures for measuring/mixing are followed for each step, including pharmacist verification of steps performed by non-pharmacists and visual inspection of preparation. Inspector should describe their observations in the Inspector Notes.***	Yes		2, 7.2, 8
	Labeling			
31.0	Are the pharmacy's labels for CNSPs in compliance with USP <795> standards? ***If no, go to compliance statements.***	No		9
31.1	Information on the label is prominently and legibly displayed. ***Inspector note: Per USP, labeling includes other accompanying materials along with the CSP, which is defined as "All labels and other written, printed, or graphic matter on the immediate container or on or inside any packaging system or wrapper in which the article is enclosed, except for any outer shipping container."***	Yes		9
31.2	The labeling meets any state or federal regulatory requirements.	Yes		1.1.3, 9
31.3	The label on the immediate container includes an assigned internal identification number (eg, barcode, prescription, order, or lot number).	Yes		9
31.4	The label on the immediate container includes the active ingredients and their amount(s), activity(ies), or concentration(s).	Yes		9
31.5	The label on the immediate container includes the storage conditions, if other than controlled room temperature.	Yes		9
31.6	The label on the immediate container includes the BUD. ***If no, please describe whether the pharmacy instead used the term "expiration date" or similar language or if this information was not included on the label.***	No	"Expiration Date" is the verbiage used on the immediate container label. The MFR uses "BUD".	9

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
31.7	The label on the immediate container includes the dosage form.	Yes		9
31.8	The label on the immediate container includes the total amount or volume, if it is not obvious from the container.	Yes		9
32.0	Does the labeling on the dispensed CNSP include the route of administration? ***Inspector note: This is a USP recommendation.***	Yes		9
33.0	Does the labeling contain information identifying the CNSP as a compounded preparation? ***Inspector note: Per USP, this is a recommendation.***	Yes		9 USP <7>
34.0	Does the labeling on the dispensed CNSP display any applicable special handling instructions or warning statements? ***Inspector note: This is a USP recommendation.***	No		9
35.0	Does the labeling on the dispensed CNSP display the name of the compounding facility and contact information if the CNSP was to be sent outside of the facility or health care system? ***Inspector note: This is a USP recommendation.*** ***If the pharmacy only compounds CNSPs for patient use onsite (eg, a health care facility), inspector should answer this question as N/A***	Yes		9
	Establishing Beyond Use Dating (BUDs)			
36.0	Is each CNSP assigned and labeled with a BUD in compliance with USP <795> standards? ***Inspector note: Per USP, the BUD is defined as, "The date, or hour and date, after which a CNSP must not be used, stored, or transported. The date is determined from the date or time the preparation is compounded." This is not the same term as "expiration date."*** ***If no, go to compliance statements.***	No		10 USP <7>
36.1	CNSP label has a BUD that specifies the date, or the hour and date, beyond which the preparation cannot be used and must be discarded.	No	Labels on CNSPs list an "Expiration Date"	10.1
36.2	CNSP labels do not list an "expiration date" or equivalent language.	No	Labels on CNSPs list an "Expiration Date"	10.1

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
36.3	BUDs are assigned from the date (and time) of preparation.	Yes		10.1
36.4	BUDs are assigned based on dispensing in tight, light resistant containers/overpacks. ***Inspector note: Per USP, the Table 4 maximum limits for BUD are, "based on the ability of the CNSP to maintain chemical and physical stability and to suppress microbial growth. These BUDs represent the limit for CNSPs that are packaged in tight, light-resistant containers unless conditions in 10.4 CNSPs Requiring Shorter BUDs or 10.5 Extending BUDs for CNSPs apply."***	Yes		10.3
36.5	The BUD assigned to the CNSP does not exceed the shortest remaining expiration date of any of the commercially available starting components.	Yes		10.4
37.0	Does the pharmacy ensure the assigned BUD does not exceed the shortest BUD of any individual compounded components? ***Inspector note: Per USP, "For CNSPs prepared from one or more compounded components, the BUD should generally not exceed the shortest BUD of any of the individual compounded components. However, there may be acceptable instances when the BUD of the final CNSP exceeds the BUD assigned to compounded components (e.g., pH-altering solutions). If the assigned BUD of the final CNSP exceeds the BUD of the compounded components, the physical, chemical, and microbiological quality of the final CNSP must not be negatively impacted." Another example of these "acceptable instances" (similar to pH-altering components mentioned above) inspectors may see are stock solutions (and other formulas within a formula) such as methocel 1%.*** ***If no, inspector should describe the observations, including the name of the component whose BUD was shorter than the assigned BUD of the final CSP.***	Yes		10.4
38.0	Does the designated person(s) evaluate a CNSP formulation to establish the maximum BUD? ***If no, who establishes the maximum BUD for a MFR?***	Yes		7.1, 10.2, 10.3
39.0	Does the pharmacy compound CNSPs with a USP monograph?	No		10.5

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
40.0	Does the pharmacy compound CNSPs following the USP monograph precisely? ***If no, go to compliance statements.***	N/A		10.5
40.1	Pharmacy staff have access to the USP monograph for reference.	N/A		10.5
40.2	CNSPs are prepared in accordance with the USP monographs. ***If no, inspector to collect a copy of the compounding record, label; and describe what specific steps of the monograph were not followed.***	N/A		10.5
40.3	Components used by the compounder match those listed in the monograph. ***If no, describe the source of the component in monograph and the source that the pharmacy used.***	N/A		10.5
40.4	The maximum BUD specified in the USP monograph is not exceeded. ***If no, identify the drug, monograph-stated BUD, and the BUD used by the pharmacy.***	N/A		10.5
41.0	Does the pharmacy compound CNSPs that are not available from a USP monograph?	Yes		10.4
42.0	Does the pharmacy adhere to the BUD (maximum) limits established in Table 4 for CNSPs in compliance with USP <795> standards? ***Inspector note: This question is for the CNSPs compounded that are <u>not</u> following a USP monograph or those CNSPs where extending BUD requirements were applied (where pharmacy has completed or has access to CNSP-Specific Stability Information). Per USP, the pharmacy is not required to measure water activity (A_w) for a CNSP.*** ***If no, go to compliance statements.*** ***If <u>all</u> CNSPs compounded at the pharmacy are following a USP monograph or the pharmacy is following a stability study that used a stability-indicating assay analytical method for the API, CNSP formulation, and material of composition of the container closure system, then the inspector should answer this question as N/A.***	Yes		10.4

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
42.1	**Non-preserved, Aqueous Dosage Forms:** The non-preserved, aqueous dosage form CNSP is labeled with a BUD that does not exceed 14 days with refrigerated storage temperature. ***Inspector note: Per USP <795>, Aqueous dosage forms are ones that have a Aw ≥ 0.6, eg, emulsions, gels, creams, solutions, sprays, or suspensions.*** ***If pharmacy does not compound non-preserved aqueous dosage forms, inspector should answer statement as N/A.*** ***If no, describe your observations including but not limited to: the name of the compounded preparation, the labeled BUD, and the storage environment. Additionally, collect a copy of the master formulation record, the compounding record, and a copy of a label without PHI.***	N/A		10.4 Table 4 USP <659>
42.2	**Preserved, Aqueous Dosage Forms:** The preserved, aqueous dosage form CNSP is labeled with a BUD that does not exceed 35 days with controlled room temperature or refrigerated storage temperature. ***Inspector note: Per USP <795>, Aqueous dosage forms are ones that have a Aw ≥ 0.6, eg, emulsions, gels, creams, solutions, sprays, or suspensions.*** ***If pharmacy does not compound preserved aqueous dosage forms, inspector should answer statement as N/A.*** ***If no, describe your observations including but not limited to: the name of the compounded preparation, the labeled BUD, and the storage environment. Additionally, collect a copy of the master formulation record, the compounding record, and a copy of a label without PHI.***	N/A		10.4 Table 4 USP <659>
42.3	**Nonaqueous, Oral Liquid Dosage Forms:** The nonaqueous, oral liquid dosage form CNSP is labeled with a BUD that does not exceed 90 days with controlled room temperature or refrigerated storage temperature. ***Inspector note: Per USP <795>, Nonaqueous oral liquid dosage forms are ones that have a A_w < 0.6. Some examples of oral liquids that are nonaqueous include: oil-based oral solution or suspension.*** ***If pharmacy does not compound nonaqueous dosage forms, inspector should answer statement as N/A.*** ***If no, describe your observations including but not limited to: the name of the compounded preparation, the labeled BUD, and the storage environment. Additionally, collect a copy of the master formulation record, the compounding record, and a copy of a label without PHI.***	N/A		10.4 Table 4 USP <659>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
42.4	**Nonaqueous Dosage Forms:** The nonaqueous dosage form CNSP is labeled with a BUD that does not exceed 180 days with controlled room temperature or refrigerated storage temperature. ***Inspector note: Per USP <795>, Nonaqueous (Solid) dosage forms are ones that have a A_w < 0.6. Some examples include capsules, tablets, granules, powders, nonaqueous topicals, suppositories, and troches or lozenges.*** ***If pharmacy does not compound other nonaqueous solid dosage forms, inspector should answer statement as N/A.*** ***If no, describe your observations including but not limited to: the name of the compounded preparation, the labeled BUD and the storage environment. Additionally, collect a copy of the master formulation record, the compounding record, and a copy of a label without PHI.***	Yes		10.4 Table 4 USP <659>
43.0	Does the pharmacy label any CNSPs with BUDs that extend beyond the maximum limits in Table 4 USP <795>?	No		10.5 Table 4
44.0	Does the pharmacy follow the requirements for labeling a CNSP with a BUD that exceeds Table 4 in compliance with USP <795> standards? ***If no, go to compliance statements.***	No		10.5
44.1	The labeled BUD for an aqueous dosage form does not exceed 180 days. ***If no, collect a copy of the MFR, the CR, and a copy of a label without PHI.***	No	Labels on CNSPs list an "Expiration Date"	10.5
44.2	The labeled BUD for a nonaqueous dosage form does not exceed 180 days. ***If no, collect a copy of the MFR, the CR, and a copy of a label without PHI.***	No	Labels on CNSPs list an "Expiration Date"	10.5
44.3	Pharmacy is following the results of their own stability study. ***If the pharmacy only follows cited stability studies (does not conduct their own stability studies) for extending BUDs, answer this question as N/A.*** ***If pharmacy is following a bracketed study, inspector may mark this statement as yes if concentrations of CNSPs are at or within the concentrations specified within the study.*** ***If pharmacy is following a bracketed study and is using a concentration outside the study, answer this question as a no and describe observations.***	N/A		10.5

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
44.4	The pharmacy has a copy of the cited stability study, which used a stability-indicating analytical method, for extending BUDs. ***Per USP, any stability study that meets the requirements of a stability-indicating assay method can be used (whether it is published or unpublished, such as a study provided by a chemical supplier) to extend BUDs up to 180 days for a CNSP.*** ***If pharmacy only conducts their own stability studies (does not use published or unpublished study performed by another entity) for extending BUDs, inspector should answer this question as N/A.*** ***If no, please describe the inspector observations.***	N/A		10.5
44.5	The cited stability study (which uses a stability-indicating analytical method for extending BUDs) describes the API(s), CNSP formulation, and material composition of the container closure used. ***If pharmacy only conducts their own stability studies (does not use published or unpublished study performed by another entity) for extending BUDs, inspector should answer this question as N/A.*** ***If no, please describe the inspector observations.***	N/A*		10.5
44.6	If the cited stability study (which uses a stability-indicating analytical method for extending BUDs) is bracketed, the pharmacy's CNSP formulation is at or within the low and high concentration of each active ingredient within the stability study. ***If no, describe the concentrations cited in the stability study and the concentration of the CNSP compounded by the pharmacy.*** ***If pharmacy only conducts their own stability studies (does not use published or unpublished study performed by another entity) for extending BUDs, inspector should answer this question as N/A.***	N/A		10.5

National Association of Boards of Pharmacy®
Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
44.7	Aqueous CNSPs whose labeled BUDs are extended beyond Table 4, have: - been tested for antimicrobial effectiveness at least once for each formulation in the type of (with the same material composition of the) container closure system that will be used; - received study results from an FDA-registered facility (for the same CNSP formulation using the same material composition of the container closure system); or - a study published from peer-reviewed literature (for the same CNSP formulation using the same material composition of the container closure system). ***Inspector note: Pharmacy may rely on a bracketed study from the above options as long as the bracketed study information includes the low and high concentration of each active ingredient in the formulation. Per USP, this is "to establish preservative effectiveness across various strengths of the same formulation (e.g., bracketing). The concentration of all other ingredients (including preservatives) must fall within the bracketed range.***	N/A		10.5
	Quality Assurance (QA), Quality Control (QC), and Quality Management (QM) Inspector to review at least one complaint, one adverse event, and one recall (if applicable).			
45.0	Does the pharmacy have a QA/QC program to ensure that CNSPs are prepared per the requirements in USP <795> standards and any applicable regulatory requirements? ***If no, go to compliance statements.***	Yes		1.1.3, 12
45.1	The pharmacy has a formal QA/QC program with documented activities. ***Inspector note: Per USP, "A facility's QA and QC programs must be formally established and documented in the facility's SOPs that ensure that all aspects of the preparation of CNSPs are conducted in accordance with the requirements in this chapter (<795>) and the laws and regulations of the applicable regulatory jurisdiction."***	Yes		12
45.2	The QA/QC programs address adherence to procedures.	Yes		12
45.3	The QA/QC programs address prevention and detection of errors and other quality problems.	Yes		12

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
45.4	The QA/QC programs address evaluation of complaints and adverse events. ***Review at least one complaint and one adverse event. If there are no complaints or adverse events, review the process that the pharmacy would follow in the event of a complaint or adverse event.***	Yes		12
45.5	The QA/QC programs address appropriate investigations and corrective actions.	Yes		12
46.0	Has the pharmacy received any complaints related to CNSPs within the past year?	No		12
47.0	Does the pharmacy follow complaint handling requirements in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		12.2
47.1	The pharmacy has a complete written or electronic record of each complaint made. ***Inspector note: Per USP, "The record must contain the name of the complainant or other unique identifier, the date the complaint was received, the nature of the complaint, and the response to the complaint. In addition, to the extent that the information is known, the following should be recorded: the name and strength of the CNSP and the assigned internal identification number (e.g., prescription, order, or lot number). The record must also include the findings of any investigation and any follow-up. Records of complaints must be easily retrievable for review and evaluation for possible trends and must be retained."***	Yes		12.2
47.2	Complaints are reviewed in accordance with SOPs by the designated person for the QA program.	Yes		12.2
47.3	Complaints are reviewed to determine whether it indicates a potential quality problem with the CNSP.	Yes		12.2
47.4	Complaints are fully investigated.	Yes		12.2
47.5	Complaint investigations consider whether the quality problem extends to other CNSPs.	Yes		12.2

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
47.6	Corrective action, if necessary, is implemented for all potentially affected CNSPs. ***Inspector note: Per USP, the pharmacy is to, "Consider whether to initiate a recall of potentially affected CNSPs and whether to cease nonsterile compounding processes until all underlying problems have been identified and corrected."***	Yes		12, 14
47.7	A CNSP that is returned in connection with a complaint is quarantined until it is destroyed after the completion of the investigation and in accordance with the laws and regulations of the applicable regulatory jurisdiction.	Yes		1.1.3, 12.2
48.0	Has the pharmacy initiated any recalls of CNSPs within the past two years? ***Inspector note: Per USP <795> requires all records to be readily retrievable for two years, including recalls; However, the state/jurisdictional regulator may require records to be kept for a longer period of time.*** ***Review most recent recall and describe in the Inspector Notes.*** ***If the pharmacy has not had any recalls within the past two years, inspector should answer the question as No.***	No		12.1, 14
49.0	Does the pharmacy follow recall and adverse event procedures for CNSPs in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		12.1, 12.2, 12.3
49.1	The pharmacy has procedures to determine when recalls must be initiated.	Yes		12.1
49.2	The pharmacy documents the implementation of the recall.	Yes		12.1
49.3	Pharmacy reports recalled CNSPs to the appropriate regulatory bodies (as required by laws and regulations of the applicable regulatory jurisdiction).	Yes		1.1.3, 12.1
49.4	Investigations into an adverse event that reveals a quality problem with a CNSP that is likely to affect other patients are reported to both patients and their prescribers.	Yes		12.3
50.0	Does the pharmacy procedures include a step to immediately notify the prescriber of a failure of specifications with potential to cause harm (eg, strength, purity, or other quality attributes)? ***Inspector note: This is a USP recommendation.***	No	Recall SOP 3.08 does not list this as an included step.	12.1

e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
	CNSP Packaging			
51.0	Does the pharmacy's packaging processes and materials meet the requirements in USP <795>? ***If no, go to compliance statements.***	Yes		13.1
51.1	The packaging materials protect CNSPs from damage, leakage, contamination, and degradation.	Yes		13.1
51.2	The packaging materials used protects personnel from exposure (from the packaged CNSP).	Yes		13.1
52.0	The packaging materials selected by the pharmacy maintain the physical and chemical integrity and stability needed for CNSPs (eg, protect from light).	Yes		13.1
	Compounding Personnel Observations - *Inspector must observe personnel performing compounding and related activities. This section will require the inspector to observe the staff while performing compounding and related activities. It is acceptable for pharmacy staff to perform mock compounding activities (with two creams or other drugs) as long as all observations can be viewed.*			
53.0	**Personal Preparation Observation:** Before entering the compounding area, do personnel remove any items that are not easily cleanable or are not necessary for compounding in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		
53.1	Personnel removed all outer garments (eg, hats, scarves, bandanas, vests, coats, and jackets).	Yes		3.1
53.2	Personnel removed all items that are not easily cleanable and that might interfere with garbing.	Yes		3.1
53.3	Personnel removed all hand, wrist, and other exposed jewelry, including piercings, that could interfere with the effectiveness of garbing and hand hygiene (eg, watches, rings that may tear gloves).	Yes		3.1
53.4	Personnel removed earbuds or headphones.	Yes		3.1

		Observation	Inspector Notes	USP Reference(s)
53.5	Any accommodations permitted by the designated person(s) should be documented. ***Inspector note: Per USP <795>, accommodations may be permitted as long as the quality of the CSP and environment will not be affected.***	Yes		3.1
54.0	**Hand Hygiene Observation:** Were personnel who enter the compounding area to compound observed performing the appropriate hand washing procedures in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		3.2, Box 1
54.1	All personnel who enter the compounding area to compound performed hand hygiene.	Yes		3.2 Box 1
54.2	Personnel wash hands with soap and water for at least 30 seconds.	Yes		3.2
54.3	Personnel dry their hands completely with disposable towels or wipers.	Yes		3.2
54.4	Personnel do not solely rely on the use of alcohol hand sanitizers.	Yes		3.2
55.0	***Garbing Observation:*** Were compounding personnel observed following the appropriate garbing procedures in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		3.3 Box 1
55.1	All personnel entering the compounding area are fully garbed (with the required garb as determined by the facility SOPs).	Yes		3.3 Box 1
55.2	All personnel who perform compounding activities don gloves. ***Inspector note: Per USP, "Gloves must be worn for all compounding activities."***	Yes		3.2, 3.3 Box 1
55.3	Gloves are inspected periodically for holes, punctures, or tears and replaced immediately if a defect is detected.	Yes		3.3 Box 1
56.0	Are gloves wiped or replaced before beginning compounding a CNSP with a different component or when other objects were touched (eg, pens, keyboards) to minimize risk of cross contamination with other CNSPs? ***Inspector note: This is a USP recommendation.***	Unknown		3.3

Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
57.0	List the name(s) of the CNSPs observed by the inspector as part of live compounding demonstration.	[redacted]	Sildenafil 60mg troche	
58.0	**Compounding Observation:** Are compounding personnel using appropriate nonsterile compounding techniques for CNSPs in compliance with USP <795> standards? ***If no, go to compliance statements.***	Yes		2 Box 3
58.1	The compounding personnel enter the nonsterile compounding area in accordance with the SOPs.	Yes		3.1, 4.1
58.2	The compounding personnel started with a clean compounding area for CNSPs.	Yes		4.1, 4.3, 5 Table 1
58.3	The compounding personnel selected the correct MFR for the CNSP to be prepared.	Yes		7, 7.1 Box 2
58.4	The compounding personnel performed hand hygiene. ***Inspector note: Per USP <795>, Box 1, personnel are to: wash hands with soap and water for at least 30 seconds, dry hands completely with disposable towels or wipers, and then don gloves.***	Yes		3.2 Box 1
58.5	The compounding personnel are appropriately garbed for the type of CNSP prepared.	Yes		3.3
58.6	The compounding personnel obtained the proper ingredients (APIs and/or components). ***Inspector note: All ingredients must be within date and match what is listed in the MFR. If the ingredient is an API, the COA must have already been reviewed and approved for use.***	Yes		6.2 (6.2.1 - 6.2.5)
58.7	The compounding personnel gathered all necessary materials, equipment, and supplies necessary and/or specified in the MFR and is in good working order prior to use for the CNSP. ***Inspector note: All items must be clean prior to use. If equipment requires calibration and/or certification, compounder must ensure the equipment or device is within proper specifications (eg, tare scales and/or balances).***	Yes		6.1 Table 2

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
58.17	The compounding personnel completed any documentation on the CR. ***If no, describe observations of what was missing or omitted in Inspector Notes.***	Yes		7.2, 8, 14 Box 3
58.18	The compounding personnel cleaned and sanitized the compounding area before the next CNSP (with differing ingredients) is prepared.	Yes		5
59.0	**Final CNSP check observation:** Does the visual inspection of the CNSP by the pharmacist confirm all USP <795> requirements? ***Observe a pharmacist check several CNSP prescriptions. List the name of CNSPs release inspection observed in the Inspector Notes.*** ***If no, go to compliance statements.***	Yes		8, 8.1, 9
59.1	CNSP was visually inspected to determine the physical appearance of the CNSP is as expected (eg, color, texture, physical uniformity), including any special characteristics listed in the MFR (eg, emulsions must be checked for phase separation).	Yes		8, 8.1
59.2	Visual inspection included checking for container closure integrity (eg, leakage, cracks, improper seals).	Yes		8, 8.1
59.3	CNSP label was verified against the prescription or medication order.	Yes		8, 8.1, 9
59.4	CNSP label was verified against the MFR.	Yes		8, 8.1, 9
59.5	CNSP label was verified against the CR.	Yes	MFR and CR are one-in-the-same.	8, 8.1, 9
59.6	If a CNSP will not be released or dispensed on the day the preparation was made, a visual inspection was conducted immediately before it is released or dispensed to make sure the CNSP did not develop any defects during storage.	Yes		8, 8.1
59.7	All checks and inspection that are performed are properly documented.	Yes		8.1, 14

Verified Pharmacy Program Inspection Form

Nonsterile Compounding Inspection for USP <795>

Facility Name: Synergy Apothecary LLC dba Synergy Apothecary
e-Profile ID: 1856106
Inspection Date: 2/10/2025 - 2/12/2025

		Observation	Inspector Notes	USP Reference(s)
59.8	CNSP that do not meet requirements are promptly rejected, clearly labeled as rejected, and segregated from active stock to prevent use before disposal.	Yes		8.1
60.0	Inspect several different finished compounded nonsterile preparations. Are all the finished compounded preparations free from any evidence of signs of contamination? ***Inspector note: If found, request the compounded preparation to be quarantined and notify NABP immediately.*** ***Additionally, list the name(s) of the compounded preparation(s) observed; description of type of contamination suspected (eg, particulates, dirt/debris/(suspected) mold within container closure); number of preparations affected (eg, two of the five containers on the shelf); lot or batch information; BUD assigned; and collect photographs, copy of MFR, and CR.***	Yes		12
61.0	**Cleaning and Disinfection Observation:** Does the pharmacy perform cleaning and sanitizing activities in the compounding area in compliance with USP <795> standards? ***Document observations while pharmacy staff are performing live compounding activities in Inspector Notes.*** ***If no, go to compliance statements.***	Yes		5
61.1	Pharmacy staff starts with a clean and sanitized work surface prior to compounding a CNSP.	Yes		5 Table 1
61.2	Pharmacy staff perform cleaning and sanitizing between compounding CNSPs with different components. ***Inspector note: Per USP, "If cleaning and sanitizing are performed as separate steps, cleaning must be performed first."***	Yes		5 Table 1
61.3	Pharmacy staff ensure equipment and devices used in compounding activities are clean and sanitized after use (to prevent cross contamination of the next preparation).	Yes		6.1 Table 2
61.4	Pharmacy staff perform cleaning and sanitizing on work surfaces when visibly soiled, after spills, and/or when surface contamination is known or suspected.	Yes		5 Table 1

Nonsterile <795> Employee File Records Review

Select the PIC, designated person, a staff pharmacist that checks compounded preparations, and two to three compounding pharmacy technicians. *Do not record the employee name; list only their title or position.
From the drop-down List:
*Mark as "Yes" if the document is present in the records and the competency evaluation was conducted in compliance with USP <795> requirements.
*Mark as "No" if the document is present in the records but is not in compliance with USP <795> requirements.
*Mark as "Missing" if any part of the record is missing and explain in Notes column.
*Mark as "N/A" if the training does not apply (eg, long-term employee may not have initial training available). Document further in the Notes column.

		Employee Records #1	Employee Records #2	Employee Records #3	Employee Records #4	Employee Records #5	
	Employee Title	PIC	CIO				Notes
1.0	The training program provides initial training, evaluation, and documentation on the core competencies listed below:						
1.1	Compounding personnel are trained on facility SOPs.	Yes	Yes				
1.2	Compounding personnel are trained on USP <795> standards.	Yes	Yes				
1.3	The training record for hand hygiene is complete.	Yes	Yes				
1.4	The training record for garbing is complete.	Yes	Yes				
1.5	The training record for cleaning and sanitizing is complete.	No	No				
1.6	The training record for handling and transporting components and CNSPs is complete.	No	No				There is a form entitled "Staff Training and Validation - Receiving Chemicals/Devices", but a copy of it has not filled out for PIC or CIO.
1.7	The training record for measuring and mixing is complete.	No	No				There is a form/checklist entitled "Staff Training and Validation - Weighing and Mixing" but it was not completed for PIC or CIO.
1.8	The training record for proper use of equipment is complete.	Yes	Yes				For scale use
1.9	The training record for documentation of compounding processes (eg, Master Formulation Records or Compounding Records) is complete.	Yes	Yes				Via SOP and Standard Works review during orientation training
1.10	The training record for interpreting a Certification of Analysis (COA) is complete.	Yes	Yes				
1.11	The training record for how to read/interpret a Safety Data Sheet (SDS) is complete.	Yes	Yes

	Employee Title	PIC	CIO				Notes
1.12	The training record for spill management is complete.	Yes	Yes				Via Non-Hazardous Spill Clean up SOP
2.0	The annual competency assessment was evaluated and documented on the following topics:						This pharmacy has only been open since November 2024. PIC Bergh plans to re-assess compounding personnel on a yearly basis.
2.1	Compounding personnel are re-trained on facility SOPs.	N/A	N/A				
2.2	Compounding personnel are re-trained on USP <795> standards.	N/A	N/A				
2.3	The annual competency assessment for hand hygiene is complete.	N/A	N/A				
2.4	The annual competency assessment for garbing is complete.	N/A	N/A				
2.5	The annual competency assessment for cleaning and sanitizing is complete.	N/A	N/A				
2.6	The annual competency assessment for handling and transporting components and CNSPs is complete.	N/A	N/A				
2.7	The annual competency assessment for measuring and mixing is complete.	N/A	N/A				
2.8	The annual competency assessment for proper use of equipment is complete.	N/A	N/A				
2.9	The annual competency assessment for documentation of compounding processes (eg, Master Formulation Records or Compounding Records) is complete.	N/A	N/A				
2.10	The annual competency assessment for interpreting a COA is complete.	N/A	N/A				
2.11	The annual competency assessment for how to read/interpret a SDS is complete.	N/A	N/A				
2.12	The annual competency assessment for spill management is complete.	N/A	N/A				
3.0	The designated person(s) has documented a (periodic) evaluation of their direct observations for compounding activities and documented any deficiencies in the record. *Inspector note: if there are not observations documented, the inspector should answer this question as N/A.* *Per USP, "the designated person(s) should monitor and observe compounding activities and must take immediate corrective action if deficient practices are observed. Facility SOPs must describe procedures for monitoring and observing compounding activities and personnel."*	N/A	N/A

Glossary & References	USP <795>
Active Pharmaceutical Ingredient (API)	Any substance or mixture of substances intended to be used in the compounding of a preparation, thereby becoming the active ingredient in that preparation and furnishing pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, or prevention of disease in humans or animals or affecting the structure and function of the body. Also referred to as a bulk drug substance. A conventionally manufactured drug product is not an API but is typically manufactured from an API(s).
Added Substance	An ingredient that is necessary to compound a preparation but is not intended or expected to cause a pharmacologic response if administered alone in the amount or concentration contained in a single dose of the compounded preparation. The term is used synonymously with inactive ingredient, excipient, and pharmaceutical ingredient.
Administration	The preparation of a nonsterile pharmacologic or other therapeutic agent for ingesting, inserting, applying, or otherwise providing a nonsterile medication in its final form to a single patient. This includes crushing a tablet(s) or opening a capsule(s) to mix with food or liquids to facilitate patient dosing.
Alcohol-based hand rub	An alcohol-containing preparation (liquid, gel, or foam) designed for application to the hands of health care personnel to inactivate microorganisms and/or temporarily suppress their growth. Such preparations may contain one or more types of alcohol, other active ingredients, excipients, and humectants.
Assigned trainer	One or more individuals assigned by the designated person(s) to be responsible and accountable for directly providing the training, observation, and/or evaluation of personnel for the preparation of CNSPs.
Beyond-use date (BUD)	The date, or hour and date, after which a CNSP must not be used, stored, or transported. The date is determined from the date or time the preparation is compounded.
Biological Safety Cabinet (BSC)	A ventilated cabinet that may be used for compounding. These cabinets are divided into three general classes (Class I, Class II, and Class III). Class II BSCs are further divided into types (Type A1, Type A2, Type B1, Type B2, and Type C1).
Bulk drug substance	See the entry for Active Pharmaceutical Ingredient.
Certificate of analysis (COA)	A report from the supplier of a component, container, or closure that accompanies the supplier's material and contains the specifications and results of all analyses and a description of the material.
Cleaning	The process of removing substances (eg, organic and inorganic material) from objects and surfaces, normally accomplished by manually or mechanically using water with detergents or enzymatic products.
Cleaning agent	An agent, usually containing a surfactant, used for the removal of substances (eg, dirt, debris, microbes, and residual drugs or chemicals) from surfaces.
Closed-system processing device	A device designed to reduce the potential exposure to personnel or contamination of the facility or CNSPs. Examples include CVEs, BSCs, or single-use containment glove bags.
Component	Any ingredient used in the compounding of a preparation, including any API, added substance, or conventionally manufactured product.
Compounded nonsterile preparation (CNSP)	A preparation not intended to be sterile that is created by combining, admixing, diluting, pooling, reconstituting other than as provided in the manufacturer's labeling, or otherwise altering a drug product or bulk drug substance.

Copyright © July 2024 National Association of Boards of Pharmacy® (NABP®). All rights reserved. NABP developed this inspection form for sole use by NABP, boards of pharmacy, government agencies that regulate drug distributors, and for internal use by the named facility participating in the VPP. Glossary & References	USP <795>
Compounding	The process of combining, admixing, diluting, pooling, reconstituting other than as provided in the manufacturer's labeling, or otherwise altering a drug product or bulk drug substance to create a nonsterile preparation.
Compounding area	An area that is specifically designated for nonsterile compounding.
Compounding personnel	Personnel trained to compound or oversee compounding of preparations.
Compounding record (CR)	Documents the compounding of each CNSP.
Container closure system	Packaging system components that together contain and protect the dosage form. This includes primary packaging system components and secondary packaging system components if the latter are intended to provide additional protection.
Containment glove bag	A single-use disposable glove bag that is capable of containing airborne chemical particles.
Containment ventilated enclosure (CVE)	A full or partial enclosure that uses ventilation principles to capture, contain, and remove airborne contaminants through high- efficiency particulate air (HEPA) filtration and to prevent their release into the work environment.
Conventionally manufactured product	A pharmaceutical dosage form, usually the subject of an application approved by the applicable national regulatory agency, that is manufactured under current good manufacturing practice conditions.
Designated person(s)	One or more individuals assigned to be responsible and accountable for the performance and operation of the facility and personnel as related to the preparation of CNSPs.
FDA	US Food and Drug Administration
Formulation	The specific qualitative and quantitative composition of the final CNSP.
Hazardous Drug (HD)	Any drug identified by at least one of the following criteria: carcinogenicity, teratogenicity or developmental toxicity; reproductive toxicity in humans; organ toxicity at low dose in humans or animals; genotoxicity or new drugs that mimic existing HDs in structure or toxicity. See <800>.
Label	The part of the labeling on the immediate container.
Labeling	All labels and other written, printed, or graphic matter on the immediate container or on or inside any packaging system or wrapper in which the article is enclosed, except for any outer shipping container.
Master formulation record (MFR)	A detailed record of procedures that describes how the CNSP is to be prepared.
Monograph	A quality documentary standard within USP–NF that articulates the quality expectations for a medicine including for its identity, strength, purity, and performance. It also describes the tests to validate that a medicine and its ingredients meet these criteria.
Oversight	The review, monitoring, and supervision of actions taken by personnel, bearing responsibility for those actions, and being available if and when needed for consultation, even if not physically present.
Preservative	A substance added to inhibit microbial growth.
Purified water	The minimal quality of source water for the production of Purified Water is drinking water whose attributes are prescribed by the US Environmental Protection Agency (EPA), the European Union, Japan, or the World Health Organization (WHO). This source water may be purified using unit operations that include deionization, distillation, ion exchange, reverse osmosis, filtration, or other suitable purification procedures. (See <1231>, 3.1.1 Purified Water.)

Glossary & References	USP <795>
Quality Control (QC)	The sampling, testing, and documentation of results that, taken together, ensure that specifications have been met for the CNSP.
Reconstitution	The process of adding a diluent to a conventionally manufactured product to prepare a solution or suspension.
Release inspection and testing	Visual inspection and testing performed to ensure that a preparation meets appropriate quality characteristics.
Sanitizing agent	An agent for reducing, on inanimate surfaces, the number of microorganisms (eg, 70% isopropyl alcohol).
SDS	Safety data sheet.
SOP	Standard operating procedure.
Specification	The tests, analytical methods, and acceptance criteria to which any components, CNSP, container closure system, equipment, or other material used in the compounding of CNSPs must conform to be considered acceptable for its intended use.
Stability	The extent to which a product or preparation retains physical and chemical properties and characteristics within specified limits throughout its expiration or BUD.
Verify	To confirm that a method, process, system, or equipment will perform as expected under the conditions of actual use.
Water activity (a_w)	A measure of the fraction of total water that is unbound and freely available to participate in chemical, biochemical, or physicochemical reactions or provide an environment that can support microbial growth. Note that a_w is not water content.

Scan VPP response

part 1 of 2

General Pharmacy Portion

5.060 SOP PRODUCT INVENTORY (Version 1.0)

Synergy Apothecary

1.0 Purpose

1.1 The purpose of this procedure is to establish requirements for proper inventory of active and inactive raw pharmaceutical products, manufactured products, components and devices used in compounded preparations. No pharmaceuticals are used that are listed on the FDA's "list of drug products that have been withdrawn or removed from the market for reasons of safety or effectiveness".

1.2 All receiving and inspecting of chemicals, devices, containers, closures, and other components or supplies used for compounding operations will be completed in the area designated "Receiving" which is identified by signage.

1.3 Formal product inventories must be taken according to state and federal laws.

1.4 The purpose of this procedure is to establish requirements for product procurement, receipt and inspection.

1.5 To reduce the amount of particulate matter and airborne microbial contamination all products and new inventory are removed from the external packaging before entering the compounding area.

1.6 A complete inventory is confirmed at least annually (or as needed) per PIC.

2.0 Responsibility

2.1 All personnel at Synergy Apothecary are responsible for following this procedure.

2.2 The Pharmacist-in-charge shall supervise this procedure or document that another staff member has been designated to complete the task of completing the quarterly inventory.

2.3 The PIC is responsible to input the inventory into the software.

2.4 The PIC will train the relief pharmacist to maintain the inventory into the software.

3.0 Definitions

3.1 SDS – Safety Data Sheet

3.2 Components – Any ingredient used in the compounding of a drug preparation, including any active ingredient or added substance that is used in its preparation.

3.3 C of A – Certificate of Analysis

3.4 NOISH – National Institute for Occupational Safety and Health

3.5 OSHA – Occupational Safety and Health Administration

3.6 PPE – Personal Protective Equipment

3.7 SW – Standard Work

3.8 http://www.fda.gov/drugs/developmentapprovalprocess/howdrugsaredevelopedandapproved/approvalapplications/investigationalnewdrugindapplicaions/ucm368736htm.

4.0 Procedure

4.1 EQUIPMENT & SUPPLIES

- 4.1.1 Certificate(s) of analysis
- 4.1.2 Quarantine area
- 4.1.3 Purchase order

4.2 FREQUENCY & SUPPLIERS

- 4.2.1 Unless specified by the manufacturer, the expiration date is three years from receipt. Upon receipt of product, pharmacy staff member signs or stickers bottle with date of delivery in MM/DD/YEAR format.
- 4.2.2 All invoices shall be maintained for at least six (6) years according to the Drug Supply Chain Security Act. A separate file is maintained for each supplier of any controlled substance invoices that are received. As we don't stock C-II, only one controlled substance invoice file is needed per supplier
- 4.2.3 Appropriate inspection or testing of the material may indicate that the substance has retained its purity and quality for use in the preparation.
- 4.2.4 No components may be utilized that have been pulled or withdrawn from the market for safety reasons. The Food and Drug Administration will provide, in the form of a "Negative List," all medication recalls. Monthly e-mails are received by Pharmacist-in-Charge and/or Quality Control Officer from MedWatch and ISMP that alert of changes to this list.
- 4.2.5 Suppliers shall be FDA registered for all prescription drugs and if applicable, comply with current GOOD Manufacturing Practices. They are to have licenses in good standing with applicable state and federal agencies. C of A and SDS shall be supplied with bulk chemicals, obtained from wholesaler or readily accessible on their website if not included with the packing list. FDA requires that wholesalers complete an annual report and steps to obtain and review these are found in appendix labeled Drug Supply Chain Security Act.
  - 4.2.5.1 Quality of chemicals received from another pharmacy shall be ensured by confirming C of A, chemical grade, appropriate handling and appropriate storage. Of note this would be very rare and would only be done in an emergency drug shortage situation.
  - 4.2.5.2 C of A is to be obtained for every new lot of an API. If C of A is not from original manufacturer, PIC or delegate will obtain the original C of A from wholesaler and compare accuracy. For example, Letco provides a statement certifying that the provided C of A is a true duplication of the original, but this should also be obtained to ensure chain of custody of the product. See attachments labeled CofAExamples. Manufacturer of product must be registered with the FDA for product to be USP 795 compliant. Use FDA website https://dps.fda.gov/decrs to confirm manufacturer is approved.
  - 4.2.5.3 Commercially available components utilized in compounded preparations shall be visually inspected to ensure they are free from defects and are otherwise suitable for their intended use.
  - 4.2.5.4 Commercially available prescription products obtained from a wholesaler shall be validated by confirming wholesaler state license, confirming active status in the FDA database as described above. Also, audit is to be done reviewing the pedigree of 3 products or 10% of items received, whichever is greater, to assess compliance. TopRx has given access to the Synchrony Pedigree viewer. This to be done annually.

4.2.5.5 In the event components are not available from the primary vendor due to back-order, a second wholesaler will be used to acquire back-ordered items

4.2.5.6 When USP or NF ingredients are not available, the pharmacist-in-charge may employ professional judgment in choosing an alternative high-quality ingredient which may include.

4.2.5.6.1 Analytical Reagent (AR)

4.2.5.6.2 Certified American Chemical Society (ACS)

4.2.5.6.3 3.4.3 Food Chemicals Codex (FCC) (when appropriate)

4.2.5.6.4 3.4.4 Dietary and nutritional supplements that are "Generally Recognized as Safe"

4.2.5.7 Shipments shall be quarantined in the receiving area and released upon satisfactory inspection as defined per the "Product Receiving" SW

4.2.5.7.1 Hazardous products will be stored in a separate receiving area (of note, not currently doing HD products)

4.2.5.7.2 Appropriate handling and storage determined by hazard code on label or SDS.

4.2.5.7.3 SDS shall be available and readily retrievable for all chemicals. Any new products SDS to be added to the binder for that area and any area it would be used.

4.2.5.7.4 Upon receipt, chemicals are checked, and the C of A should be reviewed per the process defined by the "Product Receiving" SW

4.2.5.7.4.1 Special considerations, such as unusual water content, shall be entered into compounding software when calculations are necessary.

4.2.5.7.4.2 C of A shall be retained for six (6) years from the date that the product is all used.

4.2.5.7.4.3 The acceptable assay range is defined in the C of A of each chemical. Anything found to be outside of this range will be rejected upon receipt.

4.2.5.7.5 Pharmacist-in-charge shall be notified if inspection is not satisfactory and:

4.2.5.7.5.1 Shipment shall be quarantined.

4.2.5.7.5.1.1 The manufacturer or supplier shall be contacted for advice on return of shipment.

4.2.5.7.6 Components and applicable supplies shall be entered into compounding software and include the following information:

4.2.5.7.6.1.1 Name

4.2.5.7.6.1.2 Manufacturer

4.2.5.7.6.1.3 NDC

4.2.5.7.6.1.4 Quantity

4.2.5.7.6.1.5 Purity assay if not within 3% purity

4.2.5.7.6.1.6 Lot number

4.2.5.7.6.1.6.1 The lot number is entered into the compounding software at the time of receiving each product, and the correct lot number is chosen at time of compounding.

4.2.5.7.6.1.6.2 Non-drug product and device lot numbers will be kept in the "Non-drug Product Lot Number" binder. These invoices will be written to reflect the date range that we dispensed these products to patients. These invoices are retained for one year from the date that the product is all used.

4.2.5.7.6.1.7 Expiration-Will not accept inventory if product will expire in less than 1 year unless there are drug shortages and short dated drug will be expected to be used within that time frame. Items will be highlighted with stickers noting the short dating and BUD dating will be reduced as appropriate for the dating of the ingredients.

4.2.5.7.6.1.8 Hazard codes or special handling

4.2.5.7.6.1.9 Special storage requirements

4.2.6 Non-sterile ingredients and components

4.2.6.1 It is preferable to utilize official USP or NF articles for non-sterile active ingredients, added substances or excipients.

4.2.6.2 When non-official ingredients are used, certificates of analysis from their supplier shall accompany the ingredients.

4.3 MEDICATION STORAGE

4.3.1 All medications and devices will be stored off the floor in such a manner to ensure their integrity, stability, and effectiveness, and in a manner consistent with US Pharmacopeia/National Formulary (USP/NF) standard, legal or accreditation requirements, and/or manufacturer's recommendations.

4.3.1.1 Controlled substances shall be stored according to state law.

4.3.2 Acids and Bases should not be stored next to each other.

4.3.3 Drug storage areas will be well lit, neat, organized, clear of obstructions, free of any material not for the storage, preparation, dispensing, or administration process; and located where personnel preparing drugs for dispensing and/or administration will not be interrupted or distracted.

4.3.4 Medications will be stored under the proper conditions of sanitation, temperature, light and moisture. The medication storage area will have proper ventilation, organization, segregation, safety, and security. Temperatures and ventilation in

the work areas shall ensure the integrity of the drugs and the comfort of the personnel working with them. Drugs will be stored in stock bottles until the time of dispensing.

4.3.5 Food should ***NOT*** be stored in areas designated for medication storage and/or preparation or dispensing of medications.

4.3.6 NIOSH Sample list of drugs that shall be handled as hazardous (Attachment 2) should be stored in "Hazardous Storage." Refer to SOP 6.010 "Handling Hazardous Drug Compounds" for more information regarding hazardous drugs.

4.3.7 Flammable Chemical Inventory components in excess of ten gallons shall be stored in an approved flammable cabinet.

4.3.8 Corrosive Chemical Inventory should be stored below eye level on a corrosive-resistant container labeled "Corrosive Storage".

4.3.9 Medications, unless they have more specific requirements for storage, will be stored at controlled room temperature 59° to 77° Fahrenheit {F}). This will be measured by personal comfort, with additional monitoring of ambient air temperatures as appropriate. Humidity should be maintained between 20-60% as based on personal comfort and adjusted if affecting compounding drying times. Temperature monitoring is being done continuously via ADT and management is alerted of temperatures or humidities out of the approved range.

4.3.10 Medications that must be refrigerated or frozen:

4.3.10.1 Medications requiring refrigeration will be stored in a refrigerator that maintains a temperature of 2° to 8° C (36° to 46° F). *The refrigerator will be marked for "Medication Storage Only".

4.3.10.2 Medications that require that they be frozen for storage will be stored in a freezer that maintains a temperature of at least -20° to -10° Celsius (C) (-4° to 14° F).

4.3.10.3 Medication refrigerator and freezer temperatures will be monitored and recorded daily when the pharmacy is open.

4.3.10.4 If there is a temperature variation outside the normal limits the refrigerator will be checked again one (1) hour later. If the temperature variation is not resolved, the items will be removed and placed in cooler with ice or moved to another secured refrigeration unit and a service repair person will be called.

4.3.11 Medication storage areas will be inspected monthly by a member of the pharmacy staff.

4.3.11.1 FDA inspections of wholesaler and manufacturers facilities should be available and requested yearly for review and retention at pharmacy.

4.3.11.2 All medications will be inspected, and the following will be removed:

4.3.11.2.1 Expired

4.3.11.2.2 Recalled

4.3.11.2.3 Defective, contaminated, or deteriorated

4.3.11.2.4 Broken or damaged

4.3.11.2.5 Mislabeled (according to standards, law or policy. Labels must include the entire description of the medication, including drug or chemical name, strength or concentration, expiration date, applicable warnings and lot number or

otherwise unsuitable for administration or use as determined by pharmacy staff

4.3.11.2.6 Unusable drugs or devices will not be dispensed or administered. Pharmacy staff will dispose of these drugs or devices in accordance with the law and manufacturer's recommendations.

4.3.11.2.7 If any compounding material is expired, destroy the material according to SOP 3.070, "Destruction of Expired Product and Reagents."

4.3.11.2.8 If waiting for any manufacturer's recommendations, the product for reasons of expiration, recall, or compromise will be placed into quarantine. The labeled "Quarantine" container is located in the office.

4.3.12 A formal inventory shall be conducted annually, or as required by governing State Board of Pharmacy requirements.

4.3.12.1 For API inventory which also includes controlled API' inventory "tare weight will be utilized. The pharmacist will subtract the weight of an empty container (like a vial or pill jar) from the total weight, enabling them to accurately measure the net weight of the medication inside, without including the container's weight in the reading; essentially, it lets them "zero out" the container before adding the medication to ensure precise dosage calculations. Addition options for obtaining the weight of a partial container controlled substance powders as follows:

4.3.12.2 Maintain an emptied bottle for use as an actual tare and label as "for tare weight purposes only"

4.3.12.3 Keep a spreadsheet of size/brand/drug for each API added to inventory with the tare weights as different products are used by the pharmacy so that tare can be subtracted from the total weight of the partial container.

4.3.12.4 Compare the weight of a full unopened container if one is in stock and subtract the weight of the partial. The difference reflects the amount that has been removed from the container.

4.3.12.5 Write the original weight of any new unopened product onto a spreadsheet to allow any of the above options for calculating what is iin a partial container of controlled substance powder. Of note the same premise exists for any powder but has less significance in drug diversion and legal concerns.

Key points about using tare weight in a pharmacy:

- Accuracy:
  - The tare feature is crucial for accurate medication dispensing, as it eliminates potential errors from weighing containers alongside the medication.
- Procedure:
  - Place the empty container on the scale.
  - Press the "tare" button to set the scale to zero, effectively "ignoring" the weight of the container.
  - Add the medication to the container.

- The scale will now display only the weight of the medication.

4.3.13 – Drug Supply Chain Security Act compliance

The FDA provides some degree of exemption for compounding ingredients and for small dispensers (a company with 25 or fewer full-time employees licensed as pharmacists or qualified as pharmacy technicians. See attached FDA guidance.

Current exemption for small dispensers has been extended to November 2026 but based on steps in Policy, Synergy Apothecary will review FDA site at least annually for manufacturers and distributors in active use fand use only DSCSA compliant wholesalers for any commercially available medications

Annually, wholesalers must submit a report to the FDA reporting compliance of the DSCSA. This to be requested Annually

Websites: https://dps.fda.gov/decrs , and https://dps.fda.gov/wdd3plreporting.

These to be checked annually but as an additional safeguard, PIC to be added to email list server with FDA for any letters, advisors and Medwatch concerns. Of note each wholesaler and manufacturer may have differing expiration/renewal dates. Annual review added to PRS software and current suppliers now have added additional support to maintain CofA support, FDA manufacturer and distributor updates.

U.S. FOOD & DRUG ADMINISTRATION

Date Issued: July 12, 2024

Subject: DSCSA Exemptions from Certain Requirements Under Section 582 of the FD&C Act for Small Business Dispensers (revised with clarifying edits to June 12, 2024, letter)

The Food and Drug Administration (FDA, Agency, or we) is using authority under section 582(a)(3) of the Food, Drug, and Cosmetic Act (FD&C Act) to grant exemptions for small business dispensers[1] - and, where noted, small business dispensers' trading partners[2] - as outlined in these exemptions, from certain requirements in section 582 of the FD&C Act[3] until November 27, 2026.

In August 2023, FDA announced two compliance policy guidances[4] that explained, among other things, FDA's enforcement policy with respect to: (a) the enhanced drug distribution security requirements[5] in section 582(g)(1) of the FD&C Act; and (b) verification requirements for dispensers regarding suspect or illegitimate product in sections 582(d)(4)(A)(ii)(II) and (d)(4)(B)(iii) of the FD&C Act, that went into effect on November 27, 2023. Together, the compliance policy guidances establish a 1-year stabilization period, from November 27, 2023, through November 27, 2024, to accommodate additional time that trading partners in the pharmaceutical supply chain need to implement, troubleshoot, and mature systems and processes to fully implement the Drug Supply Chain Security Act (DSCSA) enhanced drug distribution security requirements.

Since publishing the 2023 Compliance Policy guidances, FDA has continued to receive comments and feedback from stakeholders and trading partners, particularly small business dispensers, expressing concern with readiness to implement requirements under section 582(g)(1) of the FD&C Act at the conclusion of the stabilization period on November 27, 2024. Specifically, small business dispensers have described challenges related to the time, costs, and resources needed to further develop the robust technologies and processes to enable data exchange, establish business relationships with their trading partners and operationalize business practices. FDA recognizes that small business dispensers may still need additional time beyond November 27, 2024, when the enforcement policy set forth in the 2023 Compliance Policies expires, to focus resources and efforts on refining systems and technological infrastructures. Accordingly, FDA is issuing these exemptions to accommodate the additional time beyond November 27, 2024, that may be needed by small business dispensers to fully transition to interoperable, electronic

[1] Section 582(g)(2)(B)(i) of the FD&C Act specifically refers to agency authority to create alternative timelines for compliance with section 582(g)(1) of the FD&C Act requirements for "small business dispensers with 25 or fewer full-time employees."

[2] *Trading partner* is defined in section 581(23)(A) of the FD&C Act. Although third-party logistics providers are also considered trading partners under section 581(23)(B) of the FD&C Act, they are not subject to the same product tracing requirements of section 582 of the FD&C Act.

[3] Pursuant to section 582(a)(3) of the FD&C Act, FDA has issued guidance on waivers, exceptions, and exemptions from section 582 of the FD&C Act requirements, that includes descriptions of circumstances and processes by which FDA may establish exceptions or exemptions on its own initiative. As noted in that guidance, if FDA establishes an exception or exemption to address a particular issue, it "intends to communicate the information in writing using a method appropriate for the circumstances (e.g., a letter to the affected trading partners or - if an exception or exemption applied to a broad segment of industry - a posting on its website). An exception or exemption that is established by FDA may be limited in duration or valid until further notice from FDA." Consistent with that guidance, we are posting these exemptions on our website.

[4] For more information, see the compliance policy guidances for industry, *Enhanced Drug Distribution Security Requirements Under Section 582(g)(1) of the Federal Food, Drug, and Cosmetic Act — Compliance Policies* (August 2023) and *Wholesale Distributor Verification Requirement for Saleable Returned Drug Product and Dispenser Verification Requirements When Investigating a Suspect or Illegitimate Product — Compliance Policies, Revision 1* (August 2023).

[5] *Enhanced drug distribution security requirements* refer to the requirements for interoperable, electronic, package-level product tracing, including systems and processes, in section 582(g)(1) of the FD&C Act.

product tracing at the package level under the DSCSA. The FDA has determined these exemptions are appropriate to maintain public health and help ensure continued patient access to certain prescription drugs in the United States.

For the purpose of this exemption, a dispenser[6] is considered a small business dispenser if the corporate entity that owns the dispenser has a total[7] of 25 or fewer full-time employees[8] licensed as pharmacists or qualified as pharmacy technicians according to the applicable state board of pharmacy requirements. We believe this definition best incorporates small business pharmacy operations and those who are most in need of additional time to comply with the requirements of section 582(g)(1) of the FD&C Act outlined below.

If a small business dispenser relies on the exemptions outlined here, we recommend communicating such reliance to its trading partners as needed to further facilitate distribution of product without difficulty or delay. The exemptions described herein do not apply to other requirements in section 582 of the FD&C Act.

FDA has determined that the following FD&C Act exemptions for small business dispensers - and, where noted, their trading partners - are appropriate for products they transact with each other from November 27, 2024, until November 27, 2026:

- The requirements under sections 582(d)(4)(A)(ii)(II) and (B)(iii) of the FD&C Act for dispensers to verify the product identifier of the statutorily designated proportion of suspect or illegitimate product in the dispenser's possession or control. Small business dispensers are still obligated to meet all other verification requirements of section 582(d)(4) of the FD&C Act.
- The requirement under section 582(g)(1)(A) of the FD&C Act that the transaction information and the transaction statements be exchanged in a secure, interoperable, electronic manner in accordance with the standards established under the guidance issued pursuant to paragraphs (3) and (4) of section 582(h) of the FD&C Act. Small business dispensers and their trading partners may continue to rely on current methods for providing, capturing, and maintaining transaction information and transaction statements[9] for transactions of product .
- The requirement under section 582(g)(1)(B) of the FD&C Act that the transaction information required to be exchanged include the product identifier at the package level for each package included in the transaction. Small business dispensers and their trading partners may continue exchange transaction information that does not include the product identifier at the package level for each package included in the transaction.
- The requirement under section 582(g)(1)(C) of the FD&C Act that systems and processes for verification of product at the package level, including the standardized numerical identifier, be in accordance with the standards established under the guidance issued pursuant to section 582(a)(2) of the FD&C Act and the guidances issued pursuant to paragraphs (2), (3), and (4) of section 582(h) of the FD&C Act. Small business dispensers and their trading partners may continue to rely on current methods for verification activities
- The requirement under section S82(g)(1)(D) of the FD&C Act for systems and processes necessary to promptly respond with the transaction information and transaction statement for a product upon a request by the Secretary, or other appropriate Federal or State official, in the event of a recall or for the purposes of

(X) we track lots of API in case of recall

[6] See Section 581(3) of the FD&C Act for the definition of *dispenser*.

[7] The total number of employees as of November 27, 2024.

[8] The Internal Revenue Service defines a *full-time employee* as "for a calendar month, an employee employed on average at least 30 hours of service per week, or 130 hours of service per month." For additional information on identifying full-time employees, see https://www.irs.gov/affordable-care-act/employers/identifying-full-time-employees.

[9] Beginning on November 27, 2023, section 582(k)(1) of the FD&C Act effectively ended the requirement for trading partners to provide and receive transaction history.

investigating a suspect product or an illegitimate product. Small business dispensers and their trading partners may continue to rely on current methods to respond to such requests for such information.

- The requirement under section 582(g)(1)(E) of the FD&C Act for systems and processes necessary to promptly facilitate gathering the information necessary to produce the transaction information for each transaction going back to the manufacturer, as applicable (i) in the event of a request by the Secretary, or other appropriate Federal or State official, on account of a recall or for the purposes of investigating a suspect product or an illegitimate product; or (ii) in the event of a request by an authorized trading partner, in a secure manner that ensures the protection of confidential commercial information and trade secrets, for purposes of investigating a suspect product or assisting the Secretary, or other appropriate Federal or State official, with a request described in clause (i). Small business dispensers and their trading partners may use current methods respond to such requests with their relevant transaction information if they directly transacted the product(s) subject to the request.
- The requirement under section 582(g)(1)(F) of the FD&C Act that each person accepting a saleable return have systems and processes in place to allow acceptance of such product and may accept saleable returns only if such person can associate the saleable return product with the transaction information and transaction statement for the product. Small business dispensers' trading partners may use current methods to accept saleable returns.

The exemptions described in this notification are not intended to provide, and should not be viewed as providing, a justification for delaying efforts by small dispensers to implement the enhanced drug distribution security requirements under section 582(g)(1) of the FD&C Act. FDA strongly urges small dispensers to continue their efforts to implement necessary measures to satisfy these enhanced drug distribution security requirements. Small dispensers and their trading partners who utilize these exemptions do not need to submit anything to FDA.

Sincerely,

Michael M. Levy -S Digitally signed by Michael M. Levy -S Date: 2024.07.12 11:08:17 -04'00'

Attachment 5- 060

Drug Supply Chain Security Act

To verify if a **wholesaler** has completed their **annual report with the FDA**, follow these steps:

1. Check the FDA Drug Establishments Database

- The **FDA's Drug Establishment Registration and Listing System (DRLS)** maintains records of drug wholesalers, manufacturers, and repackagers.
- **Search here:** FDA Drug Establishment Registration Database
- Enter the **wholesaler's name or FEI (Facility Establishment Identifier)** to check their **registration status.**
- Go to this website to check https://dps.fda.gov/decrs

2. Verify in the FDA's Wholesale Distributor & 3PL Database

- If the company is distributing **prescription drugs,** they must be compliant with **DSCSA (Drug Supply Chain Security Act)** regulations.
- **Check their status here:** FDA Wholesale Distributor & 3PL Database
- https://dps.fda.gov/wdd3plreporting

3. Request Proof of FDA Compliance from the Wholesaler

- **Ask for their latest Annual Report submission confirmation** or **FDA Registration Certificate.**
- **Contact the FDA** directly via email: druginfo@fda.hhs.gov or call **1-855-543-3784** for verification.

4. Check the FDA Warning Letters Database

- If the wholesaler has **failed to submit reports or comply with regulations,** they may have received a **warning letter.**
- **Search here:** FDA Warning Letters
- https://www.fda.gov/inspections-compliance-enforcement-and-criminal-investigations/compliance-actions-and-activities/warning-letters

Sildenafil Citrate USP

Product Name : Sildenafil Citrate
Mfg. Date : Mar 2024
CAS No. : 171599-83-0
Lot No. : DR8084
Exp. Date : Feb 2029
Batch Qty : 263.16 kg

TESTS	SPECIFICATIONS		RESULTS
Description	White or almost white, slightly hygroscopic, crystalline powder		White, slightly hygroscopic, crystalline powder
Solubility	Slightly soluble in water and in methanol, practically insoluble in hexane		Complies
Identification	IR <197K>		Complies
Limit of Imidazole <621>	≤ 0.10%		< 0.10%
Organic Impurities (HPLC)	Sildenafil Related Compound A	≤ 0.30%	Below Quantification Limit
	Any Other Unspecified Individual Impurity	≤ 0.10%	Below Quantification Limit
	Total Unspecified Impurities	≤ 0.30%	Below Quantification Limit
	Total Impurities	≤ 0.50%	Below Quantification Limit
Water Content (KF) <921> (Method I)	≤ 2.50% w/w		1.40% w/w
Residue on Ignition <281>	≤ 0.10% w/w		0.02% w/w
Assay (On Anhydrous and Solvent-Free Basis) (HPLC) <621>	98.0 – 102.0% w/w		100.4% w/w
Citric Acid Content (Titration) (In-House)	27.5 – 30.5% w/w		28.7% w/w
Residual Solvents	Methanol	≤ 3000 ppm	Not Detected
	Methylene Dichloride	≤ 600 ppm	Not Detected
	Triethyl Amine (GC)	≤ 320 ppm	Below Quantification Limit
X-Ray Diffraction (In-House)	X-Ray diffraction pattern of test sample should match with 2θ value - 8.08, 10.29, 14.40, 19.87, 22.66 ± 0.2.		Complies
Conclusion: The product meets the USP Monograph specifications. Long Term Storage: Store in a sealed container at room temperature. ID Test was confirmed by FT-IR on-site. Distributed by Darmerica.

Certificate of Analysis

Sildenafil Citrate USP

Product Name : Sildenafil Citrate
Mfg. Date : Mar 2024
CAS No. : 171599-83-0

Lot No. : DR8084
Exp. Date : Feb 2029
Batch Qty : 263.16 kg

TESTS	SPECIFICATIONS		RESULTS
Description	White or almost white, slightly hygroscopic, crystalline powder		White, slightly hygroscopic, crystalline powder
Solubility	Slightly soluble in water and in methanol, practically insoluble in hexane		Complies
Identification	IR <197K>		Complies
Limit of Imidazole <621>	≤ 0.10%		< 0.10%
Organic Impurities (HPLC)	Sildenafil Related Compound A	≤ 0.30%	Below Quantification Limit
	Any Other Unspecified Individual Impurity	≤ 0.10%	Below Quantification Limit
	Total Unspecified Impurities	≤ 0.30%	Below Quantification Limit
	Total Impurities	≤ 0.50%	Below Quantification Limit
Water Content (KF) <921> (Method I)	≤ 2.60% w/w		1.40% w/w
Residue on Ignition <281>	≤ 0.10% w/w		0.02% w/w
Assay (On Anhydrous and Solvent-Free Basis) (HPLC) <621>	98.0 – 102.0% w/w		100.4% w/w
Citric Acid Content (Titration) (In-House)	27.5 – 30.5% w/w		28.7% w/w
Residual Solvents	Methanol	≤ 3000 ppm	Not Detected
	Methylene Dichloride	≤ 600 ppm	Not Detected
	Triethyl Amine (GC)	≤ 320 ppm	Below Quantification Limit
X-Ray Diffraction (In-House)	X-Ray diffraction pattern of test sample should match with 2θ value - 8.08, 10.29, 14.40, 19.87, 22.66 ± 0.2.		Complies
Conclusion: The product meets the USP Monograph specifications. Long Term Storage: Store in a sealed container at room temperature. ID Test was confirmed by FT-IR on-site. Distributed by Darmerica.			

Note: Analytical results transcribed from the original COA provided by Amoli Organics (A Division of Umedica Laboratories Pvt. Ltd.) (Luna) (India); Lot No. B24410H021.

Based on the review of above information, the lot stands released.

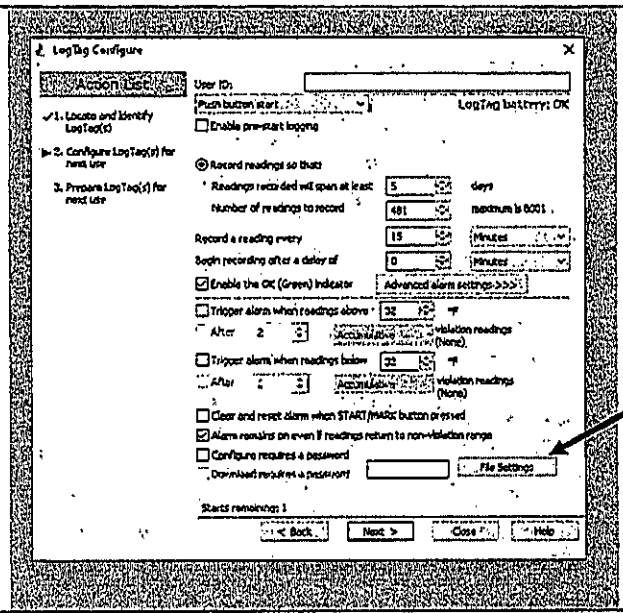
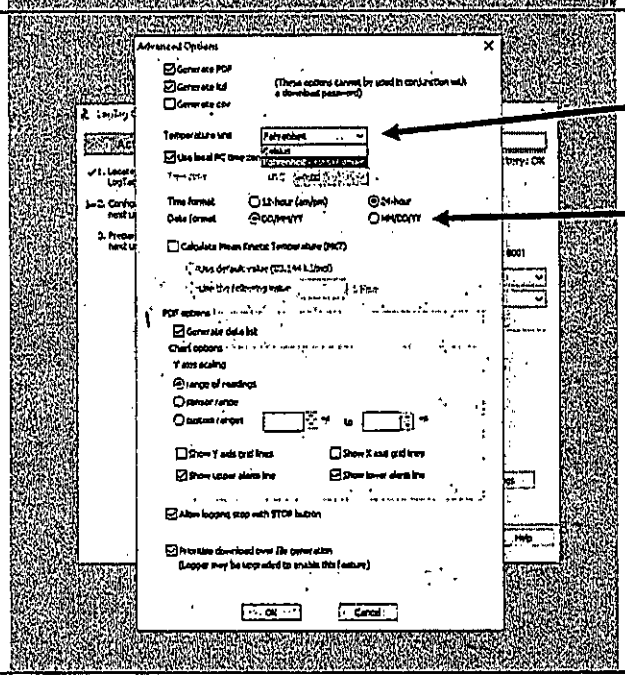
Synergy Apothecary SOP:	LogTag Temperature Recorder		
Trigger:	Semi-annual Receiver compliance check needed		
Done:	Completed test is returned from Receiver		
Applies to:	All Staff	*Rev #:*	0001
Revised By:	Theresa Bergh RPH	*Effective Date:*	11/01/2024
Written By:	Patti Luedtke RPh, Wendy Buehring	*Original Date:*	03/02/2020

	Process Step	Reference	Time
1.	**CONFIGURE LOGTAG** (if LogTag is already configured skip to step 24)		
2.	Double click on LogTag Analyzer icon on computer where software is located.		
3.	LogTag Analyzer window will open on computer		
4.	Take unconfigured LogTag out of red bubble wrap		
5.	Remove protective cover from USB plug-in on the LogTag		
6.	Put LogTag in USB port of computer where software is located. (Note: might need to push it in and jiggle LogTag a bit to get it into the port. This is normal as it is a tight fit.)		





Synergy Apothecary SOP:	**LogTag Temperature Recorder**		
Trigger:	**Semi-annual Receiver compliance check needed**		
Done:	**Completed test is returned from Receiver**		
Applies to:	**All Staff**	*Rev #:*	**0001**

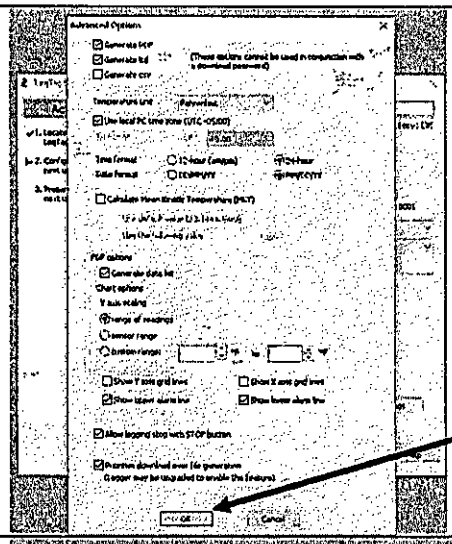
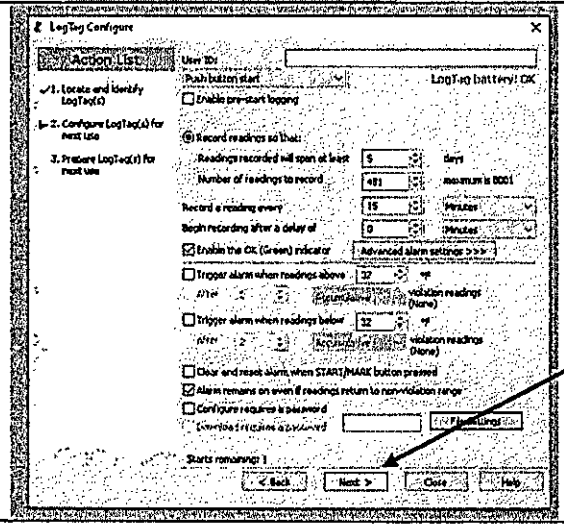
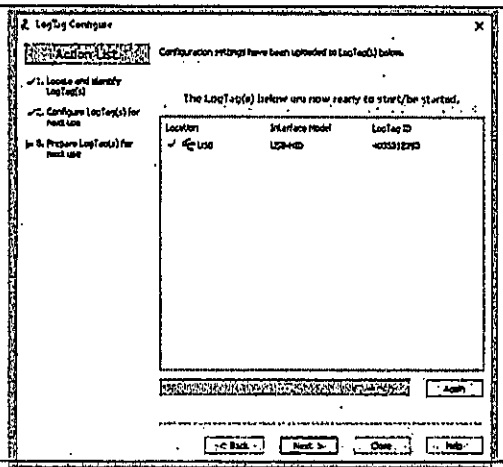
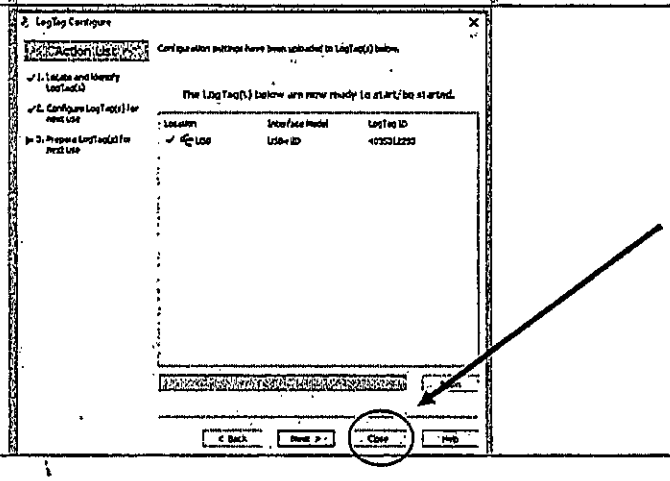
Written By:	**Patti Luedtke RPh, Wendy Buehring**	*Original Date:*	**03/02/2020**





7.	Once the LogTag is in the USB port 2 screens will appear on computer monitor.	 	
8.	Click "LogTag" on top portion of screen, and drag down to "Configure"		
9.	Click LogTag to be configured		





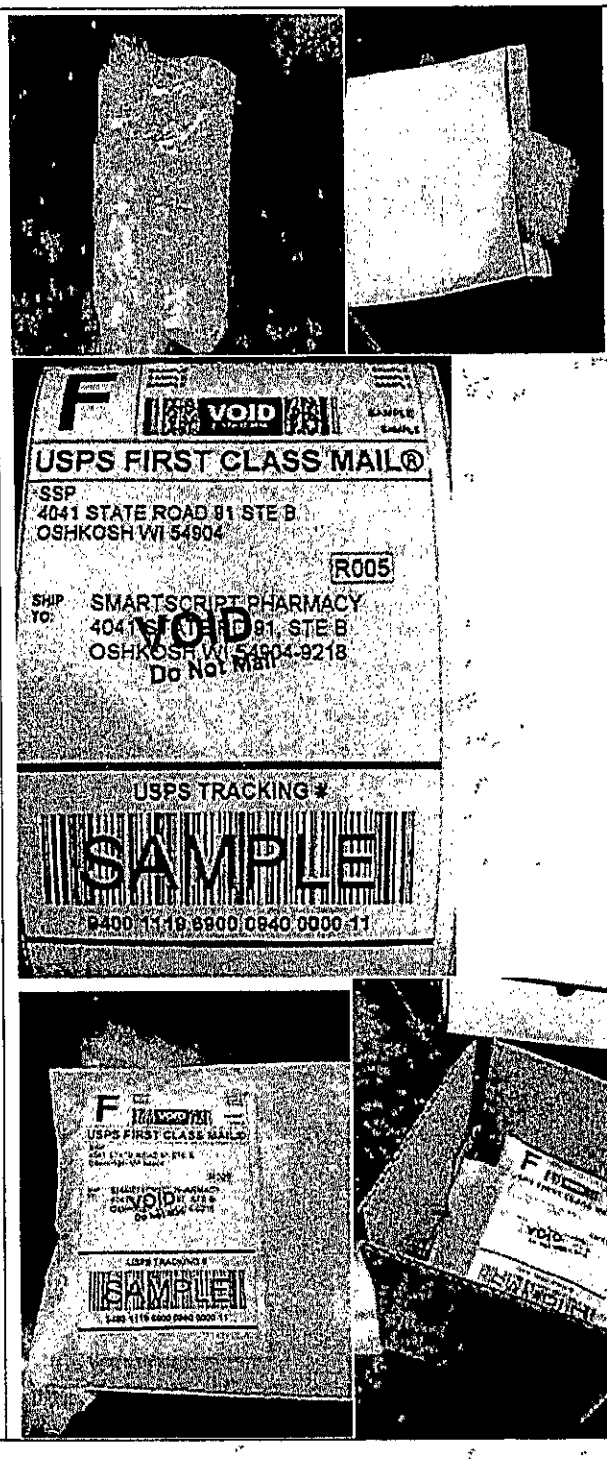
Synergy Apothecary SOP:	**LogTag Temperature Recorder**		
Trigger:	**Semi-annual Receiver compliance check needed**		
Done:	**Completed test is returned from Receiver**		
Applies to:	**All Staff**	*Rev #:*	**0001**
Revised By:	**Theresa Bergh RPH**	*Effective Date:*	**11/01/2024**
Written By:	**Patti Luedtke RPh, Wendy Buehring**	*Original Date:*	**03/02/2020**

10.	Click "Next"		
11.	Under "Record readings so that:" section, 1. change days to 15 days 2. change record a reading every 15 minutes		

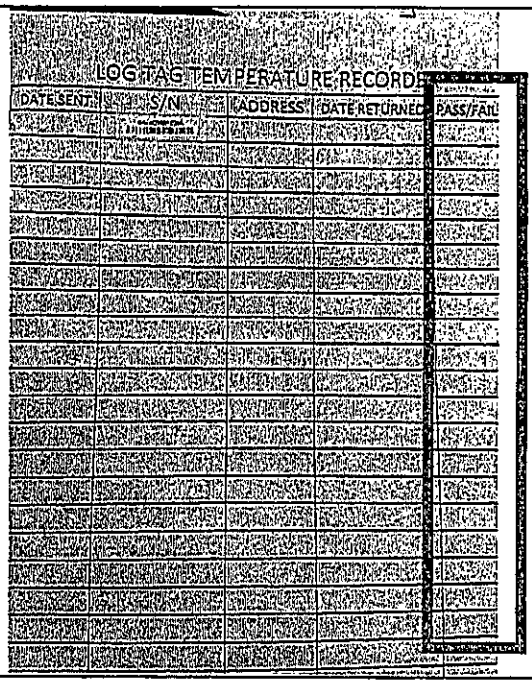
Synergy Apothecory SOP:	**LogTag Temperature Recorder**		
Trigger:	**Semi-annual Receiver compliance check needed**		
Done:	**Completed test is returned from Receiver**		
Applies to:	**All Staff**	*Rev #:*	**0001**
Revised By:	**Theresa Bergh RPH**	*Effective Date:*	**11/01/2024**
Written By:	**Patti Luedtke RPh, Wendy Buehring**	*Original Date:*	**03/02/2020**

12.	Click "File Settings"		
13.	1.Change Temperature unit to be Fahrenheit. 2.Change Date format to be MM/DD/YY		

14.	Click "OK"		
15.	Click "Next"		
16.	As the LogTag is being configured the percentage bar shows when done.		



17.	This screen shows when complete.		
18.	Click Close		
19.	Exit the application		
20.	Physically remove LogTag from computer		
21.	Replace cover on the USB port		
22.	**PREPARE MONITOR FOR SHIPPING**		



Synergy Apothecary SOP:	**LogTag Temperature Recorder**		
Trigger:	**Semi-annual Receiver compliance check needed**		
Done:	**Completed test is returned from Receiver**		
Applies to:	**All Staff**	*Rev #:*	**0001**
Revised By:	**Theresa Bergh RPH**	*Effective Date:*	**11/01/2024**
Written By:	**Patti Luedtke RPh, Wendy Buehring**	*Original Date:*	**03/02/2020**

23.	Peel back film and remove		
24.	Remove extra serial number (S/N) and place on Log Tag Temperature Recorder log. Be sure to log the date sent and address of receiver		

25.	Press Start			

Synergy Apothecary SOP:	**LogTag Temperature Recorder**		
Trigger:	**Semi-annual Receiver compliance check needed**		
Done:	**Completed test is returned from Receiver**		
Applies to:	**All Staff**	*Rev #:*	**0001**

Staff Training and Validation – Weighing and Mixing

Employee _____ Received reminder list? ☐ Yes ☐ No

Balance (AND Scale, OHAUS EXPLORER Scale and OHAUS ADVENTURER PRO Scale)
Employee experience level with equipment ☐ Beginner ☐ Intermediate ☐ Advanced
Training
1) SOP_____ read for procedure on operating, cleaning, calibrating and maintenance. Date_____
2) Demonstration of procedure on operating, cleaning, calibrating and maintenance performed by supervisor or experienced user. Date _____ Demonstrated by_____
Validation of Training
Staff member was observed by supervisor or experienced user operating, cleaning, calibrating and maintaining equipment per procedure.
Balance level? ☐ Yes ☐ No
Balance calibrated? ☐ Yes ☐ No
Balance tared? (tare recorded, if applicable)? ☐ Yes ☐ No
Chemical scanned (if applicable) and weight recorded/double-checked? ☐ Yes ☐ No
Weight accurate? ☐ Yes ☐ No
Date _____ Observed by _____
Comments:

_____

Powder Hood
Employee experience level with equipment ☐ Beginner ☐ Intermediate ☐ Advanced
Training
1) SOP_____ read for procedure on operating, cleaning, calibrating and maintenance. Date_____
2) Demonstration of procedure on operating, cleaning, calibrating and maintenance performed by supervisor or experienced user. Date _____ Demonstrated by_____
Validation of Training
Staff member was observed by supervisor or experienced user operating, cleaning, calibrating and maintaining equipment per procedure. Date _____ Observed by _____
Hood on and shield in place? ☐ Yes ☐ No
Potential for cross-contamination minimized? ☐ Yes ☐ No
Powder containment maximized? ☐ Yes ☐ No
Hood clean? ☐ Yes ☐ No
Date _____ Observed by _____
Comments:

Mixing in mortar using Principles of Geometric Dilution
Demonstration of procedure performed by supervisor or experienced user.
Date _____ Demonstrated by_____
Validation of Training
Staff member was observed by supervisor or experienced user performing procedure.
Procedure performed accurately? ☐ Yes ☐ No
Date _____ Observed by _____
Comments:

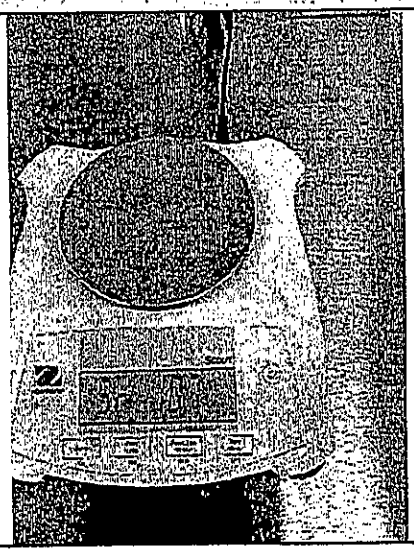
Staff Training and Validation – Weighing and Mixing Reminders 5/4

Powder Containment/Cross-Contamination

1. Hoods must be kept on with the safety shield in place.
2. Powders need to be weighed, mixed to the wet stage or made into capsules in a powder containment hood wearing full garb (including N95 mask). Add eye protection if compounding with hazardous liquids or cleaning with bleach or hazardous chemicals.
3. Cover weigh boats.
4. Blenders/Grinders need to be operated in the powder hood. Tablets need to be crushed in the hood.
5. Troches/Suppositories need to be mixed in hood. Either bring melted base into hood when pouring in powder or move hot plate to hood.
6. Capsule machine, mortars, utensils, weigh boats etc. need to be wet with water before leaving the hood.
7. Close all chemical containers before removing them from the hood. Open one container at a time in hood.
8. Do not store excess chemicals or supplies (including weigh boats or spatulas) in hood.
9. Wash capsule machine plates and thoroughly wipe down capsule machine when active ingredients change.
10. Think about ways to reduce the risk of cross-contamination:

- Best to use a clean utensil for each chemical weighed. If utensil is reused, make sure all surfaces are wiped with isopropyl alcohol and a clean towel or Kleenex. Towels (paper or cloth) and Kleenex must be changed between each chemical. Do not leave scoops in containers.
- Evaluate bulk transfer process. Dipping from large container adds to the risk of cross contamination. Make sure lot numbers match when containers are refilled. Wash containers between lot numbers.
- Syringes left in bottles or rubber-banded to bottle add to risk of cross-contamination.
- Store glassware upside down
- Store utensils, devices, etc. in closed drawers or covered.
- Do not re-use weigh boats.
- Replace chipped spatulas.
- Do not use re-usable brushes to clean powders from hood. Use disposable q-tips or similar.

Compounding



1. Double-check needed on chemicals, weights and volumes if performed by technician. Scanning the chemical into the pharmacy software works for a double check. Make sure all chemicals are scanned. Need double-check on volumes done with camera or by second person.
2. Ensure balance is level.
3. Record tares.
4. Compound one preparation at a time. Clean balance and hood between compounds and right away if a spill occurs using a clean towel or Kleenex. Towels (paper or cloth) and Kleenex are one use.
5. Processes need to be standardized for consistency. Is everyone following the same process?

Principles of Geometric Dilution

Use to ensure uniformity when mixing two or more components.
Select a mortar large enough for the entire quantity.
Add the smallest quantity to mortar. Add an equivalent amount of the next smallest quantity and mix until uniform using pestle. Add a quantity equal to the combined quantities and mix until uniform. Repeat as necessary to mix all components.
Note: A small amount of color is sometimes added to ensure uniform mixing.
Note: When a very small quantity is mixed into a large quantity, the mortar may be coated with a small amount of the large quantity to fill any fissures before adding the small quantity.
Note: Wedgewood or ceramic mortars are a better choice over glass mortars for reducing particle size but tend to trap particles so careful cleaning is needed.

Synergy Apothecary	**OHAUS Scout Scale (Both SPX and SJX Models)**		
Trigger:	**Received prescription orders**		
Done:	**Product ready to go through a final mix**		
Applies to:	**All compounding staff**	*Rev #:*	**0001**
Revised By:	**Theresa Bergh**	*Effective Date:*	**11/01/2024**
Written By:	**Jennifer Beaudoin**	*Original Date:*	**11/01/2024**

1.			
	Clean stainless weigh pan with 70% alcohol and allow to dry. Do as needed between products as any residual powders affect accuracy:		
3.	Turn on scale by pressing power button		
4.			
5.	See attached on calibration process Step 1 – Press and hold Menu til menu is displayed		

Synergy Apothecary	**OHAUS Scout Scale (Both SPX and SJX Models)**		
Trigger:	**Received prescription orders**		
Done:	**Product ready to go through a final mix**		
Applies to:	**All compounding staff**	*Rev #:*	**0001**
Revised By:	**Theresa Bergh**	*Effective Date:*	**11/01/2024**
Written By:	**Jennifer Beaudoin**	*Original Date:*	**11/01/2024**

	Step 2. Release the button, display will show (CAL) Step 3 Press Yes to accept (SPAN) will be shown. Step 4 Press Yes to begin span calibration. Zero reading is stored automatically Step 5 Press the specified span calibration mass or press NO to select an alternat weight The display will show (done) if the calibration is successful. The scale is now ready for use.		
6.	Zero out the scale then place appropriately sized weighing container on the scale. Press Tare		

Synergy Apothecary	**OHAUS Scout Scale (Both SPX and SJX Models)**

Rev #:	**0001**
Effective Date:	**11/01/2024**
Original Date:	**11/01/2024**

7.	Ensure that scale now reads zero so the appropriate amount of product is weighed		
	Once appropriate amount has been weighed, print label to allow attaching to the compounding document		
9.	Return all parts when ready for reuse.		
10	Daily cleaning: After each prescription and at end of the day. (Approved cleaning solutions 70% alcohol.)		
	Weekly cleaning: Same as daily cleaning		
	Preventative/Required: Clean after each use and at end of the day.

13	Defect/Out for repair: If machine has become defective or needs to be repaired, arrange with Pharmacist to ship to repair facility. Place/Tape "Out of Service" card on piece of equipment (preferably the front of the unit) to show it is not usable. Out of Service cards can be found in Lab Equipment Manuals Binder. Out of Service machine should be moved to closet area in main pharmacy until unit can be shipped out for repair. You may need to move extra working equipment to your area. (Check log to see if additional units are available)		
14	Get Equipment Maintenance Log Book and log on the equipment log which machine is going out of service, the date and the reason that it is out of service. When the machine is returned, you will need to get the book out again and log that it was returned/ if it was put back into service and if a repair sheet was included, place a copy of that sheet under the tab of the binder

10/11

Synergy Apothecary SOP:	**Proper hand washing protocol.**		
Trigger:	**Per protocol.**		
Done:	**When hands are properly washed**		
Applies to:	**All Staff**	*Rev #:*	**0001**
Revised By:	**Theresa Bergh**	*Effective Date:*	**11/01/2024**
Written By:	**Abigail Tritt**	*Original Date:*	**01/19/2018**

	Process Step	Reference	Time
1.	Hands should be properly washed: - Before start of shift - When leaving the compounding area - Before and after using the restroom - Before and after break - After removing gloves - At end of shift before leaving the clean room facility		
2.	Personnel must remove all makeup and jewelry prior to entering the compounding facility.		
3.	Turn water on to lukewarm.		
4.	Push the sleeves of the gown above the elbows and allow the water to soak your arms from the fingertips to the elbow.		
5.	Apply a liberal amount of hand soap into the palm of the hands. (If necessary, a pick shall be used to thoroughly clean under the fingernails.)		
6.	Assure to wash the "four sides" of the hands and fingertips, paying particular attention to the skin in between each finger. Liberally scrub hands and fingers for at least 30 seconds.		
7.	After each finger has been washed, proceed to clean the forearm, using a circular motion, from the wrist to the elbow. -Apply this process to both hands/arms.		
8.	Once both arms have been thoroughly washed, place arms under the running water to rinse away the soap. Make sure to rinse with the palm of hands remaining upwards so the water always runs from the fingertips to the elbows.
