7. Respondent does not contest that the conduct described above constitutes a violation of section 12-22-125(1)(c)(II), C.R.S., and Regulation 5.00.70(b) and that such conduct provides grounds for disciplinary action against Respondent:

12-22-125. Unprofessional conduct – grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(II) The lawful rules of the board.

Regulation 5.00.70. Change in Pharmacist Manager.

b. The registration of any in-state and non-resident prescription drug outlet shall become void if the pharmacist manager in whose name the registration was issued ceases to be engaged as the manager, and the owner shall close the outlet unless such owner has employed a pharmacist manager and, within fourteen days after termination of the former manager's employment, has made application to transfer the registration to the new pharmacist manager and has paid the transfer fee therefor.

DISPOSITION

$1,000.00 Fine with Surcharge and Terms

8. **Fine with Surcharge**. Pursuant to section 12-22-125.2(5), C.R.S., Respondent shall pay a fine of One Thousand Dollars and No Cents ($1,000.00). Respondent understands and acknowledges that, pursuant to section 24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 10% of this fine. Respondent shall therefore pay a total amount of One Thousand One Hundred Dollars and No Cents ($1,100.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent submits this signed Final Agency Order to the Board.

9. **Compliance**. Respondent shall submit all future applications to the Board detailing changes in pharmacist manager and fees within fourteen (14) days of the previous pharmacist manager ceasing the position.

10. **Acknowledgments**. The undersigned authorized agent for Respondent has read this Stipulation and Final Agency Order in its entirety and acknowledges, whether or

not Respondent has consulted with legal counsel, that Respondent understands its legal consequences and agrees that none of its terms or conditions are unconscionable.

11. **Advisements and Waivers**. Respondent enters into this Stipulation and Final Agency Order freely and voluntarily, whether or not it has consulted with legal counsel. The undersigned authorized agent for Respondent acknowledges Respondent's understanding that it has the following rights:

    a. To have formal notice of hearing and charges served upon it;
    b. To respond to said formal notice of charges;
    c. To have a formal disciplinary hearing pursuant to section 12-22-125, C.R.S.; and
    d. To appeal this Board order.

    Respondent freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against it to the sanctions imposed herein.

12. **Violations**. Time is of the essence to this Stipulation and Final Agency Order. It is the responsibility of Respondent to take all appropriate steps to comply fully with this Stipulation and Final Agency Order. Respondent acknowledges and agrees that any violation of this Stipulation and Final Agency Order may be sanctioned as provided under section 12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Stipulation and Final Agency Order shall not affect the obligation of Respondent to comply with all terms and conditions of this Stipulation and Final Agency Order.

13. **Integration and Severability**. Upon execution by all parties, this Stipulation and Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Stipulation and Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Stipulation and Final Agency Order shall be given full force and effect.

14. **Public Record**. Upon execution by all parties, this Stipulation and Final Agency Order shall be a public record, maintained in the custody of the Board.

15. **Effective Date**. This Stipulation and Final Agency Order shall become effective upon signature of a Board member or representative.

2010 NOV 23 P 1:36

Agent of the Board

BEFORE THE STATE BOARD OF PHARMACY

STATE OF COLORADO

Case No. 2011-000518

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF THE DISCIPLINARY PROCEEDING REGARDING THE NON-RESIDENT PRESCRIPTION DRUG OUTLET REGISTRATION OF WALGREENS SPECIALTY PHARMACY, LLC, DBA WALGREENS SPECIALTY PHARMACY #13625, REGISTRATION NO. OSP 5004,

RESPONDENT PHARMACY.

IT IS HEREBY STIPULATED by and between the Colorado State Board of Pharmacy ("Board") and Walgreens Specialty Pharmacy, LLC, DBA Walgreens Specialty Pharmacy #13625 ("Respondent Pharmacy"), to resolve all matters pertaining to Board Case Number 2011-000518 as follows:

1. On August 7, 1998, Respondent Pharmacy became registered by the Board as a non-resident prescription drug outlet in the State of Colorado and was issued Registration No. OSP 5004 ("Colorado Registration").

2. The Board has jurisdiction over Respondent Pharmacy, its Colorado Registration, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of title 12, article 22, C.R.S. (2009), otherwise known as the Pharmaceuticals and Pharmacists Act.

3. Respondent Pharmacy's address of record with the Board and current location is 7164 Technology Dr., #100, Frisco, TX 75034.

4. Respondent Pharmacy neither admits nor denies these findings, but does not contest that the Board alleges these findings. Respondent Pharmacy hereby waives any further proof in this proceeding before the Board regarding the following facts.

5. On April 14, 2010, Board staff initiated a Complaint against Respondent Pharmacy because it failed to comply with the data submission requirements of Colorado's Electronic Prescription Drug Monitoring Program ("PDMP") for the reporting period(s) of April 1 through April 10, 2010.

6. Respondent Pharmacy subsequently failed to submit the required data to the PDMP reporting dispensing transactions of controlled substances in the State of Colorado for the reporting period(s) of July 1 through July 10, 2010, and did not submit a

EXHIBIT "3"

"zero" report indicating no dispensing transactions for said reporting period(s) as required by Board rule.

7. Respondent Pharmacy does not contest that the conduct described above may constitute a violation of §§12-22-125(1)(c) and 12-22-708, C.R.S. and that such conduct provides grounds for disciplinary action against Respondent Pharmacy's Colorado Registration pursuant to Board Policy 30-8.

DISPOSITION

$5,000.00 Fine with 10% Surcharge and Terms

8. **Fine with Surcharge**. Respondent Pharmacy accepts the following discipline: Pursuant to §12-22-125.2(5), C.R.S. Respondent Pharmacy shall pay a fine of **Five Thousand Dollars and No Cents ($5,000.00).** Respondent Pharmacy understands and acknowledges that, pursuant to §24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 10% of this fine. Respondent Pharmacy shall therefore pay a total amount of **Five Thousand, Five Hundred Dollars and No Cents ($5,500.00).** The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Pharmacy submits this signed Final Agency Order to the Board

9. **Compliance with PDMP**. At all times Respondent Pharmacy is registered with the Colorado State Board of Pharmacy, it shall comply with the data submission requirements of the PDMP. Respondent Pharmacy understands and acknowledges that future violations of PDMP reporting requirements, including failure to submit a "zero" report in the event of no dispensing transactions in Colorado during the relevant reporting period, shall lead to additional penalties pursuant to Board Policy 30-8.

10. **Advisements and Waivers.** Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having had the opportunity to consult with its own legal counsel and/or choosing not to do so. Respondent Pharmacy acknowledges its understanding that it has the following rights:

    a. To have a formal notice of hearing and charges served upon it;

    b. To respond to said formal notice of charges;

    c. To have a formal disciplinary hearing pursuant to §12-22-125, C.R.S.; and

    d. To appeal this Board order.

Respondent Pharmacy freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against it to the sanctions imposed herein.

11. **Acknowledgments.** The undersigned authorized agent of Respondent Pharmacy has read this Final Agency Order in its entirety and acknowledges, after having had the opportunity to consult with its own legal counsel and/or choosing not to do so, that Respondent Pharmacy understands the legal consequences and agrees that none of the terms or conditions herein is unconscionable. Respondent Pharmacy is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Pharmacy further acknowledges that it is not entering into this Final Agency Order under any duress.

12. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Respondent Pharmacy to take all appropriate steps to comply fully with this Final Agency Order. Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

13. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties in this case. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

14. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

15. **Effective Date.** This Final Agency Order shall become effective upon signature of a Board member or representative.

COPY

CITATION AND FINE
ORDER OF ABATEMENT

Citation Number	Name, License No
CI 2021 93653	ALLIANCERX WALGREENS PHARMACY #15443, NRP 1589

VIOLATION CODE SECTION	OFFENSE	AMT OF FINE
Bus. & Prof. Code § 4301/Bus. & Prof. Code § 733 subd. (a)	Unprofessional Conduct.../Dispensing prescription drugs and devices- No licentiate shall obstruct a patient in obtaining a prescription	$2,000.00

CONDUCT:

Unprofessional Conduct-Obstructing a Patient from Obtaining Prescription: Business and Professions Code Section 4301 as it related to Business and Professions Code Section 733(a). Business and Professions Code Section 4301 states the board shall take action against any holder of a license who is guilty of unprofessional conduct or whose license has been issued by mistake. Business and Professions Code Section 733 (a) states a licentiate shall not obstruct a patient in obtaining a prescription drug or device that has been legally prescribed or ordered for that patient. A violation of this section constitutes unprofessional conduct by the licentiate and shall subject the licentiate to disciplinary or administrative action by his or her licensing agency. Specifically, between 10/29/2021 and 11/10/2021, AllianceRx Walgreens Prime # 15443 (NRP1589) located at 10530 John W Elliot Dr Ste 100, Frisco, TX 75033 obstructed patient CS from obtaining her prescription for Verzenio 150mg which caused a delay in therapy for the following reasons:

- AllianceRx employee misinterpreted the billing directions and kept billing incorrectly which resulted in the claim rejection.
- Each time the pharmacy got a rejected insurance claim, the pharmacy did not contact the prescriber nor the patient regarding the rejected claim.
- When the prescriber's office called the pharmacy for the status of the prescription several times, the pharmacy staff noted to call them back with the status however no one from the pharmacy called back.
- The timeline provided by AllianceRx showed a consistent pattern of the prescriber's office contacting the pharmacy for the status of CS's Verzenio.

Obstructing a patient from obtaining a prescription was a violation of Business and Professions Code Section 4301 as it related to 733(a).

JAN 29 2021

BEFORE THE VIRGINIA BOARD OF PHARMACY

IN RE: WALGREENS SPECIALTY PHARMACY, LLC D/B/A ALLIANCERX WALGREENS PRIME #15443

Permit Number: 0214-000307
Case Number: 203205

CONSENT ORDER

JURISDICTION AND PROCEDURAL HISTORY

The Virginia Board of Pharmacy ("Board") and Thomas J. Matthews, Pharmacist-in-Charge of Walgreens Specialty Pharmacy, LLC DBA AllianceRX Walgreens Prime #15443 ("AllianceRX"), Frisco, Texas, as evidenced by their signatures hereto, in lieu of proceeding to informal conference, enter into the following Consent Order affecting AllianceRX's permit to conduct a non-resident pharmacy delivering in the Commonwealth of Virginia.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

1. On July 16, 1998, the Board issued Permit Number 0214-000307 to AllianceRX to conduct a non-resident pharmacy delivering in the Commonwealth of Virginia. Said permit is scheduled to expire on July 31, 2021. At all times relevant hereto, said permit was in full force and effect.

2. AllianceRX violated Virginia Code § 54.1-3316(1) and (13) in that it failed to provide Patient A's physician with a prescription for a life-saving medication, Revlimid, on or before April 10, 2019, as requested by Patient A on April 2, 2019. When Patient A requested shipment of a prescription for Revlimid to his physician's office for April 10, 2019 administration, a hold, which had previously been placed on the prescription due to side effects reported by Patient A, was not removed from the prescription, causing the prescription not to be processed.

3. AllianceRX reported that it has changed the process for placing these types of prescriptions on hold to prevent this situation from happening again.

CONSENT

AllianceRX, by affixing the signature of a representative hereon to this Order, agrees to the following:

1. AllianceRX has been advised to seek advice of counsel prior to signing this document.

2. AllianceRX is fully aware that without its consent, no legal action can be taken against it or its permit except pursuant to the Virginia Administrative Process Act, Virginia Code § 2.2-4000 *et seq.*;

3. AllianceRX acknowledges that it has the following rights, among others: the right to an informal fact-finding conference before the Board; and the right to representation by counsel;

4. AllianceRX waives its right to an informal conference;

5. AllianceRX admits to the Findings of Fact and Conclusions of Law contained herein and waives its right to contest such Findings of Fact and Conclusions of Law and any sanction imposed hereunder in any future judicial or administrative proceeding in which the Board is a party;

6. AllianceRX consents to the entry of the following Order affecting its right to conduct a non-resident pharmacy delivering in the Commonwealth of Virginia.

ORDER

Based on the foregoing Findings of Fact and Conclusions of Law, the Virginia Board of Pharmacy hereby ORDERS as follows:

1. AllianceRX is assessed a MONETARY PENALTY of $500.00. This penalty shall be paid to the Board by certified check or money order made payable to the Treasurer of Virginia within 60 days from the date of entry of this Order. Failure to pay the full monetary penalty by the due date may cause the matter to be sent for collection and constitutes grounds for an administrative proceeding and further discipline.

2. AllianceRX shall comply with all laws and regulations governing the practice of non-resident pharmacies delivering in the Commonwealth of Virginia.

3. Any violation of the foregoing terms and conditions of this Order or any statute or regulation governing the practice of non-resident pharmacies delivering in the Commonwealth of Virginia shall constitute grounds for further disciplinary action.

Pursuant to Virginia Code §§ 2.2-4023 and 54.1-2400.2, the signed original of this Order shall remain in the custody of the Department of Health Professions as a public record, and shall be made available for public inspection and copying upon request.

BEFORE THE STATE BOARD OF PHARMACY

STATE OF COLORADO

Case No. 2011-000518

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF THE DISCIPLINARY PROCEEDING REGARDING THE NON-RESIDENT PRESCRIPTION DRUG OUTLET REGISTRATION OF WALGREENS SPECIALTY PHARMACY, LLC, DBA WALGREENS SPECIALTY PHARMACY #13625, REGISTRATION NO. OSP 5004,

RESPONDENT PHARMACY.

IT IS HEREBY STIPULATED by and between the Colorado State Board of Pharmacy ("Board") and Walgreens Specialty Pharmacy, LLC, DBA Walgreens Specialty Pharmacy #13625 ("Respondent Pharmacy"), to resolve all matters pertaining to Board Case Number 2011-000518 as follows:

1. On August 7, 1998, Respondent Pharmacy became registered by the Board as a non-resident prescription drug outlet in the State of Colorado and was issued Registration No. OSP 5004 ("Colorado Registration").

2. The Board has jurisdiction over Respondent Pharmacy, its Colorado Registration, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of title 12, article 22, C.R.S. (2009), otherwise known as the Pharmaceuticals and Pharmacists Act.

3. Respondent Pharmacy's address of record with the Board and current location is 7164 Technology Dr., #100, Frisco, TX 75034.

4. Respondent Pharmacy neither admits nor denies these findings, but does not contest that the Board alleges these findings. Respondent Pharmacy hereby waives any further proof in this proceeding before the Board regarding the following facts.

5. On April 14, 2010, Board staff initiated a Complaint against Respondent Pharmacy because it failed to comply with the data submission requirements of Colorado's Electronic Prescription Drug Monitoring Program ("PDMP") for the reporting period(s) of April 1 through April 10, 2010.

6. Respondent Pharmacy subsequently failed to submit the required data to the PDMP reporting dispensing transactions of controlled substances in the State of Colorado for the reporting period(s) of July 1 through July 10, 2010, and did not submit a

"zero" report indicating no dispensing transactions for said reporting period(s) as required by Board rule.

7. Respondent Pharmacy does not contest that the conduct described above may constitute a violation of §§12-22-125(1)(c) and 12-22-708, C.R.S. and that such conduct provides grounds for disciplinary action against Respondent Pharmacy's Colorado Registration pursuant to Board Policy 30-8.

DISPOSITION

$5,000.00 Fine with 10% Surcharge and Terms

8. **Fine with Surcharge.** Respondent Pharmacy accepts the following discipline: Pursuant to §12-22-125.2(5), C.R.S. Respondent Pharmacy shall pay a fine of **Five Thousand Dollars and No Cents ($5,000.00).** Respondent Pharmacy understands and acknowledges that, pursuant to §24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 10% of this fine. Respondent Pharmacy shall therefore pay a total amount of **Five Thousand, Five Hundred Dollars and No Cents ($5,500.00).** The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Pharmacy submits this signed Final Agency Order to the Board.

9. **Compliance with PDMP.** At all times Respondent Pharmacy is registered with the Colorado State Board of Pharmacy, it shall comply with the data submission requirements of the PDMP. Respondent Pharmacy understands and acknowledges that future violations of PDMP reporting requirements, including failure to submit a "zero" report in the event of no dispensing transactions in Colorado during the relevant reporting period, shall lead to additional penalties pursuant to Board Policy 30-8.

10. **Advisements and Waivers.** Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having had the opportunity to consult with its own legal counsel and/or choosing not to do so. Respondent Pharmacy acknowledges its understanding that it has the following rights:

    a. To have a formal notice of hearing and charges served upon it;

    b. To respond to said formal notice of charges;

    c. To have a formal disciplinary hearing pursuant to §12-22-125, C.R.S.; and

    d. To appeal this Board order.

Respondent Pharmacy freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against it to the sanctions imposed herein.

11. **Acknowledgments.** The undersigned authorized agent of Respondent Pharmacy has read this Final Agency Order in its entirety and acknowledges, after having had the opportunity to consult with its own legal counsel and/or choosing not to do so, that Respondent Pharmacy understands the legal consequences and agrees that none of the terms or conditions herein is unconscionable. Respondent Pharmacy is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Pharmacy further acknowledges that it is not entering into this Final Agency Order under any duress.

12. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Respondent Pharmacy to take all appropriate steps to comply fully with this Final Agency Order. Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

13. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties in this case. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

14. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

15. **Effective Date.** This Final Agency Order shall become effective upon signature of a Board member or representative.

ACCEPTED AND AGREED BY

WALGREENS SPECIALTY PHARMACY, LLC

SENSITIVE INFORMATION ENCLOSED

To: CEO or President
WALGREENS SPECIALTY PHARMACY, LLC
7164 TECHNOLOGY DR #100

FRISCO, TX 75034

From: The Healthcare Integrity and Protection Data Bank
Re: Notification of a Report in the Data Bank(s)

This notice is to inform you that the enclosed report of an action taken against you was recently submitted to the Healthcare Integrity and Protection Data Bank (HIPDB).

What is the HIPDB? Section 1128E of the Social Security Act as added by Section 221(a) of the Health Insurance Portability and Accountability Act of 1996, established the HIPDB. Section 1128E mandates that information on certain final adverse actions (e.g., licensure, civil judgment and criminal convictions related to health care, exclusions from Federal or State health care programs and certain other adjudicated actions and decisions) taken against health care practitioners, providers and suppliers be reported to the HIPDB. Federal and State government agencies and health plans are authorized to query the HIPDB.

Confidentiality.

All information in the HIPDB is considered confidential and is disclosed only to legally authorized queriers for specified uses. Disclosure or use of confidential information for other purposes is a violation of Federal law. Health care practitioners, providers and suppliers may query the Data Bank about themselves (self-query) and may share their self-query results with anyone they choose. Information in the Data Bank is NOT available to the public.

What does the report mean to you?

The enclosed report summarizes an action taken against you. The HIPDB may contain more than one report on a particular incident, if two or more actions were taken that related to that one incident, e.g., an adverse licensure action and an exclusion from the Medicare and Medicaid programs. A report in the Data Bank does not necessarily reflect adversely on your professional competence or conduct. Those entities authorized to access the HIPDB use the information in conjunction with information from other sources, including you, when granting clinical privileges or making employment, affiliation or licensure decisions. This report is being sent to you so that you can check its accuracy. This is important because the Data Bank is a clearinghouse for reports, which are maintained exactly as submitted.

>> **If the report is accurate**, you need not respond to this mailing. The report will be available to authorized queriers exactly as submitted.
>> **If the mailing address in this report is incorrect**, you may update your mailing address as maintained by the Data Banks using the on-line Report Response Service, available at http://www.npdb-hipdb.hrsa.gov. Future correspondence from the Data Banks will be mailed to you at the address specified. Please be advised that this does not change your address as reflected in the report. Only the entity that originally submitted the report can modify or correct information provided in the report.
>> **You may add a statement** expressing your view of the events described in the report using the on-line Report Response Service, available at http://www.npdb-hipdb.hrsa.gov.
>> **You may dispute the report** using the on-line Report Response Service, available at http://www.npdb-hipdb.hrsa.gov. You may NOT dispute the reported action itself or the appropriateness of any finding or judgment.

REPORT RESPONSE SERVICE LOGIN INSTRUCTIONS

To access the on-line Report Response Service, go to http://www.npdb-hipdb.hrsa.gov and click Respond to a Report. The Welcome to the Report Response Service screen displays. Click the Respond to a Report icon on this page to proceed to the Report Response Log In screen.

As the subject of a report, you are assigned a unique Report Password. This Report Password applies to all reports on file with the Data Bank(s) for which you are the subject.

If you have more than one report for which you wish to dispute report information (add, modify, or remove a Subject Statement, initiate or withdraw a dispute or request for Secretarial Review, or modify your address as maintained by the Data Bank(s)), you must enter one Report Number in the appropriate field on the Report Response Login screen, along with your Report Password. Once you have completed your transaction for that report, return to the Report Response Login screen and enter the next Report Number for which you wish to dispute report information. Use the same Report Password for all Report Numbers.

Report Number: 5500000065148843

Report Password: b7rr3gfw23

NOTE: Enter the Report Password exactly as it appears here. The Report Password is case-sensitive. File this information in a secure place for future access to the on-line Report Response Service.

The Data Bank News, quarterly newletter, is available electronically. If you would like to receive the Data Banks e-newsletter, check the box on the *Report Response Options* page. Enter your e-mail address and click **Save**.

In the Matter of the Miscellaneous Permits of WALGREENS SPECIALTY PHARMACY, LLC, individually and doing business as WALGREENS SPECIALTY PHARMACY #12314, WALGREENS SPECIALTY PHARMACY #15438, and WALGREENS SPECIALTY PHARMACY #15443, Respondent.	PHA 2015-62-L, PHA 2015-90-L AND PHA 2015-91-L SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER; EXHIBITS "1" THROUGH "3"

241042211

SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION
FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER

Petitioner, DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS' REGULATED INDUSTRIES COMPLAINTS OFFICE (hereinafter "RICO" or "Petitioner"), through its undersigned attorney(s), and Respondent WALGREENS SPECIALTY PHARMACY, LLC, individually and doing business as WALGREENS SPECIALTY PHARMACY #12314, WALGREENS SPECIALTY PHARMACY #15438, and WALGREENS SPECIALTY PHARMACY #15443 (hereinafter "Respondent"), enter into this Settlement Agreement on the terms and conditions set forth below.

//

//

//

I HEREBY CERTIFY THAT THE ATTACHED IS A TRUE AND CORRECT COPY OF THE ORIGINAL ON FILE IN THE DEPARTMENT OF COMMERCE & CONSUMER AFFAIRS.

A. UNCONTESTED FACTS:

1. At all relevant times herein, Respondent was permitted by the Board of Pharmacy (hereinafter the "Board") as a miscellaneous permit holder under permit number PMP 547 issued to WALGREENS SPECIALTY PHARMACY, LLC, individually and doing business as WALGREENS SPECIALTY PHARMACY #12314. The permit was issued on or about January 17, 2008 and will expire or forfeit on or about December 31, 2017.

2. At all relevant times herein, Respondent was permitted by the Board as a miscellaneous permit holder under permit number PMP 644, issued to WALGREENS SPECIALTY PHARMACY, LLC, individually and doing business as WALGREENS SPECIALTY PHARMACY #15438. The permit was issued on or about April 12, 2010 and will expire or forfeit on or about December 31, 2017.

3. At all relevant times herein, Respondent was permitted by the Board as a miscellaneous permit holder under permit number PMP 669, issued to WALGREENS SPECIALTY PHARMACY, LLC, individually and doing business as WALGREENS SPECIALTY PHARMACY #15443. The permit was issued on or about September 23, 2010 and will expire or forfeit on or about December 31, 2017.

4. Respondent's mailing address for purposes of this action is P.O. Box 901, Deerfield, Illinois 60015.

5. RICO received a request for investigation from the Board after Respondent reported disciplinary actions by the State of Colorado.

6. Respondent provided a copy of a Final Agency Order from the Colorado Board of Pharmacy issued to Respondent in Case No. 2011-000522 (hereinafter "the Colorado Order in Case No. 2011-000522") (Exhibit "1"). The Colorado Order in Case No. 2011-000522 was based on action in Colorado and imposed a $5,000.00 fine.

7. Respondent also provided a copy of a Final Agency Order from the Colorado Board of Pharmacy issued to Respondent in Case No. 2010-003719 (hereinafter "the Colorado Order in Case No. 2010-003719 ") (Exhibit "2"). The Colorado Order in Case No. 2010-003719 was based on allegations related to reporting changes in pharmacist manager and imposed a $1,000.00 fine.

8. Respondent also provided a copy of a Final Agency Order from the Colorado Board of Pharmacy issued to Respondent in Case No. 2011-000518 (hereinafter "the Colorado Order in Case No. 2011-000518") (Exhibit "3"). The Colorado Order in Case No. 2011-000518 was based on disciplinary action in Colorado and imposed a $5,000.00 fine.

9. RICO alleges that disciplinary action was taken against Respondent in other states.

10. The foregoing allegations, if proven at an administrative hearing before the Board, would constitute violations of the following statute(s) and/or rule(s): Hawaii Revised Statutes ("HRS") § 436B-19(13) (disciplinary action by another state or federal agency).

11. The Board has jurisdiction over the subject matter herein and over the parties hereto.

B. REPRESENTATIONS BY RESPONDENT:

1. Respondent is fully aware that Respondent has the right to be represented by an attorney and voluntarily waives that right.

2. Respondent enters into this Settlement Agreement freely, knowingly, voluntarily, and under no coercion or duress.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent being at all times relevant herein permitted as a miscellaneous permit holder by the Board acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the permits and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent represents Exhibit "1" is a true and correct copy of a Final Agency Order from the Colorado Board of Pharmacy issued to Respondent in Case No. 2011-000522; Exhibit "2" is a true and correct copy of a Final Agency Order from the Colorado Board of Pharmacy issued to Respondent in Case No. 2010-003719; and Exhibit "3" is a true and correct copy of a Final Agency Order from the Colorado Board of Pharmacy issued to Respondent in Case No. 2011-000518.

6. Respondent understands that any false or untrue statement or any material misrepresentation or omission of fact by Respondent in this settlement agreement may be grounds for further disciplinary action under HRS chapters 436B and 461.

7. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's permits.

8. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

9. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case Numbers PHA 2015-62-L (PMP 547), PHA 2015-90-L (PMP 644) and PHA 2015-91-L (PMP 669).

10. Respondent understands that this Settlement Agreement may be subject to reporting requirements.

11. Respondent understands this Settlement Agreement is public record pursuant to Hawaii Revised Statutes chapter 92F.

C. TERMS OF SETTLEMENT:

1. Administrative fine. Respondent agrees to pay administrative fines in the amount of TWO THOUSAND HUDNRED AND NO/100 DOLLARS ($2,000.00). Payment shall be made by **cashier's check or money order made payable to "DCCA - Compliance Resolution Fund"** and mailed to the Regulated Industries Complaints Office, Attn: John T. Hassler, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813. Payment of fines shall be due at the time this Settlement Agreement is returned to RICO.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph(s) C.1 above, Respondent's permits shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all indicia of the permits to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for new permits until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become permitted again, Respondent must apply to the Board for new permits pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible further sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of pharmacies in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.

4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent nor any attorney that Respondent may retain, will raise as an objection in any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IN WITNESS WHEREOF, the parties have signed this Settlement Agreement on the date(s) set forth below.

STATE OF COLORADO

Case No. 2011-000522

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF THE DISCIPLINARY PROCEEDING REGARDING THE NON-RESIDENT PRESCRIPTION DRUG OUTLET REGISTRATION OF WALGREENS SPECIALTY PHARMACY, LLC, REGISTRATION NO. OSP 5737,

RESPONDENT PHARMACY.

IT IS HEREBY STIPULATED by and between the Colorado State Board of Pharmacy ("Board") and Walgreen Specialty Pharmacy, LLC ("Respondent Pharmacy"), to resolve all matters pertaining to Board Case Number 2011-000522 as follows:

1. On February 19, 2008, Respondent Pharmacy became registered by the Board as a non-resident prescription drug outlet in the State of Colorado and was issued Registration No. OSP 5737 ("Colorado Registration").

2. The Board has jurisdiction over Respondent Pharmacy, its Colorado Registration, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of title 12, article 22, C.R.S. (2009), otherwise known as the Pharmaceuticals and Pharmacists Act.

3. Respondent Pharmacy's address of record with the Board and current location is 9775 SW Gemini Dr., Ste. 1, Beaverton, OR 97008.

4. Respondent Pharmacy neither admits nor denies these findings, but does not contest that the Board alleges these findings. Respondent Pharmacy hereby waives any further proof in this proceeding before the Board regarding the following facts.

5. On April 14, 2010, Board staff initiated a Complaint against Respondent Pharmacy because it failed to comply with the data submission requirements of Colorado's Electronic Prescription Drug Monitoring Program ("PDMP") for the reporting period(s) of April 1 through April 10, 2010.

6. Respondent Pharmacy subsequently failed to submit the required data to the PDMP reporting dispensing transactions of controlled substances in the State of Colorado for the reporting period(s) of July 1 through July 10, 2010, and did not submit a "zero" report indicating no dispensing transactions for said reporting period(s) as required by Board rule.

EXHIBIT "1"

7. Respondent Pharmacy does not contest that the conduct described above may constitute a violation of §§12-22-125(1)(c) and 12-22-708, C.R.S. and that such conduct provides grounds for disciplinary action against Respondent Pharmacy's Colorado Registration pursuant to Board Policy 30-8.

DISPOSITION

$5,000.00 Fine with 10% Surcharge and Terms

8. **Fine with Surcharge.** Respondent Pharmacy accepts the following discipline: Pursuant to §12-22-125.2(5), C.R.S. Respondent Pharmacy shall pay a fine of **Five Thousand Dollars and No Cents ($5,000.00).** Respondent Pharmacy understands and acknowledges that, pursuant to §24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 10% of this fine. Respondent Pharmacy shall therefore pay a total amount of **Five Thousand, Five Hundred Dollars and No Cents ($5,500.00).** The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Pharmacy submits this signed Final Agency Order to the Board.

9. **Compliance with PDMP.** At all times Respondent Pharmacy is registered with the Colorado State Board of Pharmacy, it shall comply with the data submission requirements of the PDMP. Respondent Pharmacy understands and acknowledges that future violations of PDMP reporting requirements, including failure to submit a "zero" report in the event of no dispensing transactions in Colorado during the relevant reporting period, shall lead to additional penalties pursuant to Board Policy 30-8.

10. **Advisements and Waivers.** Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having had the opportunity to consult with its own legal counsel and/or choosing not to do so. Respondent Pharmacy acknowledges its understanding that it has the following rights:

    a. To have a formal notice of hearing and charges served upon it;

    b. To respond to said formal notice of charges;

    c. To have a formal disciplinary hearing pursuant to §12-22-125, C.R.S.; and

    d. To appeal this Board order.

    Respondent Pharmacy freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against it to the sanctions imposed herein.

11. **Acknowledgments.** The undersigned authorized agent of Respondent Pharmacy has read this Final Agency Order in its entirety and acknowledges, after having had the opportunity to consult with its own legal counsel and/or choosing not to do so, that Respondent Pharmacy understands the legal consequences and agrees that none of the terms or conditions herein is unconscionable. Respondent Pharmacy is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Pharmacy further acknowledges that it is not entering into this Final Agency Order under any duress.

12. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Respondent Pharmacy to take all appropriate steps to comply fully with this Final Agency Order. Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

13. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties in this case. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

14. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

15. **Effective Date.** This Final Agency Order shall become effective upon signature of a Board member or representative.

STATE OF COLORADO

Case No. 2010-003719

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF THE DISCIPLINARY PROCEEDING REGARDING THE NON-RESIDENT PRESCRIPTION DRUG OUTLET REGISTRATION OF WALGREENS SPECIALTY PHARMACY, LLC, REGISTRATION NO. OSP 5773,

RESPONDENT.

IT IS HEREBY STIPULATED by and between the Colorado State Board of Pharmacy ("Board") and Walgreens Specialty Pharmacy, LLC ("Respondent") to resolve all matters pertaining to Colorado State Board of Pharmacy Case Number 2010-003719 as follows:

1. The Board has jurisdiction over Respondent, its registration as a non-resident prescription drug outlet, and the subject matter of this Stipulation and Final Agency Order pursuant to the provisions of title 12, article 22, C.R.S., otherwise known as the Pharmaceuticals and Pharmacists Act.

2. Respondent has been registered as a non-resident prescription drug outlet in the State of Colorado at all times relevant to this disciplinary action.

3. Respondent neither admits nor denies these findings, but does not contest that the Board alleges these findings. Respondent hereby waives any further proof in this proceeding before the Board regarding the following facts.

4. Respondent's address of record with the Board and current location is 1143 Highland Dr., Ste. D, Ann Arbor, MI 48108.

5. Respondent failed to timely submit to the Board an application detailing a change in pharmacist manager and fee. In this instance, 244 days transpired between July 15, 2009, the date the previous pharmacist manager ceased the position, and March 17, 2010, the date the application and fee were received.

6. On or about April 5, 2010, the Board initiated a complaint against Respondent because of the delay of 244 days in submitting an application detailing a change in pharmacist manager and fee.

EXHIBIT "2"

7. Respondent does not contest that the conduct described above constitutes a violation of section 12-22-125(1)(c)(II), C.R.S., and Regulation 5.00.70(b) and that such conduct provides grounds for disciplinary action against Respondent:

12-22-125. Unprofessional conduct – grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(II) The lawful rules of the board.

Regulation 5.00.70. Change in Pharmacist Manager.

b. The registration of any in-state and non-resident prescription drug outlet shall become void if the pharmacist manager in whose name the registration was issued ceases to be engaged as the manager, and the owner shall close the outlet unless such owner has employed a pharmacist manager and, within fourteen days after termination of the former manager's employment, has made application to transfer the registration to the new pharmacist manager and has paid the transfer fee therefor.

DISPOSITION

$1,000.00 Fine with Surcharge and Terms

8. **Fine with Surcharge**. Pursuant to section 12-22-125.2(5), C.R.S., Respondent shall pay a fine of One Thousand Dollars and No Cents ($1,000.00). Respondent understands and acknowledges that, pursuant to section 24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 10% of this fine. Respondent shall therefore pay a total amount of One Thousand One Hundred Dollars and No Cents ($1,100.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent submits this signed Final Agency Order to the Board.

9. **Compliance**. Respondent shall submit all future applications to the Board detailing changes in pharmacist manager and fees within fourteen (14) days of the previous pharmacist manager ceasing the position.

10. **Acknowledgments**. The undersigned authorized agent for Respondent has read this Stipulation and Final Agency Order in its entirety and acknowledges, whether or

not Respondent has consulted with legal counsel, that Respondent understands its legal consequences and agrees that none of its terms or conditions are unconscionable.

11. **Advisements and Waivers**. Respondent enters into this Stipulation and Final Agency Order freely and voluntarily, whether or not it has consulted with legal counsel. The undersigned authorized agent for Respondent acknowledges Respondent's understanding that it has the following rights:

    a. To have formal notice of hearing and charges served upon it;
    b. To respond to said formal notice of charges;
    c. To have a formal disciplinary hearing pursuant to section 12-22-125, C.R.S.; and
    d. To appeal this Board order.

    Respondent freely waives these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against it to the sanctions imposed herein.

12. **Violations**. Time is of the essence to this Stipulation and Final Agency Order. It is the responsibility of Respondent to take all appropriate steps to comply fully with this Stipulation and Final Agency Order. Respondent acknowledges and agrees that any violation of this Stipulation and Final Agency Order may be sanctioned as provided under section 12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Stipulation and Final Agency Order shall not affect the obligation of Respondent to comply with all terms and conditions of this Stipulation and Final Agency Order.

13. **Integration and Severability**. Upon execution by all parties, this Stipulation and Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Stipulation and Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Stipulation and Final Agency Order shall be given full force and effect.

14. **Public Record**. Upon execution by all parties, this Stipulation and Final Agency Order shall be a public record, maintained in the custody of the Board.

15. **Effective Date**. This Stipulation and Final Agency Order shall become effective upon signature of a Board member or representative.

Agent of the Board

BEFORE THE STATE BOARD OF PHARMACY

STATE OF COLORADO

Case No. 2011-000518

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF THE DISCIPLINARY PROCEEDING REGARDING THE NON-RESIDENT PRESCRIPTION DRUG OUTLET REGISTRATION OF WALGREENS SPECIALTY PHARMACY, LLC, DBA WALGREENS SPECIALTY PHARMACY #13625, REGISTRATION NO. OSP 5004,

RESPONDENT PHARMACY.

IT IS HEREBY STIPULATED by and between the Colorado State Board of Pharmacy ("Board") and Walgreens Specialty Pharmacy, LLC, DBA Walgreens Specialty Pharmacy #13625 ("Respondent Pharmacy"), to resolve all matters pertaining to Board Case Number 2011-000518 as follows:

1. On August 7, 1998, Respondent Pharmacy became registered by the Board as a non-resident prescription drug outlet in the State of Colorado and was issued Registration No. OSP 5004 ("Colorado Registration").

2. The Board has jurisdiction over Respondent Pharmacy, its Colorado Registration, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of title 12, article 22, C.R.S. (2009), otherwise known as the Pharmaceuticals and Pharmacists Act.

3. Respondent Pharmacy's address of record with the Board and current location is 7164 Technology Dr., #100, Frisco, TX 75034.

4. Respondent Pharmacy neither admits nor denies these findings, but does not contest that the Board alleges these findings. Respondent Pharmacy hereby waives any further proof in this proceeding before the Board regarding the following facts.

5. On April 14, 2010, Board staff initiated a Complaint against Respondent Pharmacy because it failed to comply with the data submission requirements of Colorado's Electronic Prescription Drug Monitoring Program ("PDMP") for the reporting period(s) of April 1 through April 10, 2010.

6. Respondent Pharmacy subsequently failed to submit the required data to the PDMP reporting dispensing transactions of controlled substances in the State of Colorado for the reporting period(s) of July 1 through July 10, 2010, and did not submit a

EXHIBIT "3"

"zero" report indicating no dispensing transactions for said reporting period(s) as required by Board rule.

7. Respondent Pharmacy does not contest that the conduct described above may constitute a violation of §§12-22-125(1)(c) and 12-22-708, C.R.S. and that such conduct provides grounds for disciplinary action against Respondent Pharmacy's Colorado Registration pursuant to Board Policy 30-8.

DISPOSITION

$5,000.00 Fine with 10% Surcharge and Terms

8. **Fine with Surcharge.** Respondent Pharmacy accepts the following discipline: Pursuant to §12-22-125.2(5), C.R.S. Respondent Pharmacy shall pay a fine of **Five Thousand Dollars and No Cents ($5,000.00).** Respondent Pharmacy understands and acknowledges that, pursuant to §24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 10% of this fine. Respondent Pharmacy shall therefore pay a total amount of **Five Thousand, Five Hundred Dollars and No Cents ($5,500.00).** The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Pharmacy submits this signed Final Agency Order to the Board

9. **Compliance with PDMP.** At all times Respondent Pharmacy is registered with the Colorado State Board of Pharmacy, it shall comply with the data submission requirements of the PDMP. Respondent Pharmacy understands and acknowledges that future violations of PDMP reporting requirements, including failure to submit a "zero" report in the event of no dispensing transactions in Colorado during the relevant reporting period, shall lead to additional penalties pursuant to Board Policy 30-8.

10. **Advisements and Waivers.** Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having had the opportunity to consult with its own legal counsel and/or choosing not to do so. Respondent Pharmacy acknowledges its understanding that it has the following rights:

    a. To have a formal notice of hearing and charges served upon it;

    b. To respond to said formal notice of charges;

    c. To have a formal disciplinary hearing pursuant to §12-22-125, C.R.S.; and

    d. To appeal this Board order.

Respondent Pharmacy freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against it to the sanctions imposed herein.

11. **Acknowledgments.** The undersigned authorized agent of Respondent Pharmacy has read this Final Agency Order in its entirety and acknowledges, after having had the opportunity to consult with its own legal counsel and/or choosing not to do so, that Respondent Pharmacy understands the legal consequences and agrees that none of the terms or conditions herein is unconscionable. Respondent Pharmacy is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Pharmacy further acknowledges that it is not entering into this Final Agency Order under any duress.

12. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Respondent Pharmacy to take all appropriate steps to comply fully with this Final Agency Order. Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

13. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties in this case. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

14. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

15. **Effective Date.** This Final Agency Order shall become effective upon signature of a Board member or representative.

LOUISIANA BOARD OF PHARMACY

BATON ROUGE, LOUISIANA

IN THE MATTER OF: **CONSENT ORDER**

CYSTIC FIBROSIS SERVICES, INC.

LOUISIANA PHARMACY PERMIT NO. 5250 **Complaint No. 10-0096**

****

CONSENT AGREEMENT

WHEREAS, **CYSTIC FIBROSIS SERVICES, INC.** (hereinafter referred to as "Respondent"), holding Louisiana Pharmacy Permit No. 5250, 119 Huizar, Rear-A, San Antonio, Texas 78214, with Raymond Roland Carvajal, Louisiana License No. 17553, serving as pharmacist-in-charge, dispensed prescriptions into Louisiana without a current and valid Louisiana pharmacy permit.

WHEREAS, pursuant to information received and/or gathered by the Board which produced evidence indicating that Respondent violated the following laws and regulations by dispensing drug prescriptions to Louisiana residents without a Louisiana out-of-state pharmacy permit:

La. R.S. 37:1241(A)(1): Practiced or assisted in the practice of pharmacy, or knowingly permitted or has permitted anyone in his employ or under his supervision to practice or assist in the practice of pharmacy, in violation of the provisions of this Chapter and any rules and regulations promulgated thereto in accordance with the Administrative Procedure Act.

La. R.S. 37:1221(B): No out-of-state pharmacy providing pharmacy services to residents of this state shall operate or maintain a pharmacy located out-of-state unless the pharmacy is issued a permit by the board.

La. R.S. 37:1232(A): A pharmacy located outside this state which does business in this state within the meaning of this Chapter, shall hold a current pharmacy permit as provided in this Chapter.

LAC 46 LIII §2319(A): Out-of-state pharmacies soliciting, receiving, and dispensing and delivering prescription drugs and devices to Louisiana residents constitutes doing business in Louisiana.

To facilitate the submission of this Consent Agreement, Respondent agrees that there is sufficient evidence upon which to predicate a finding of those violations.

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

In order to avoid further administrative and judicial proceedings, Respondent hereby consents to accept and abide by the following order of the Board:

1. **A Letter of Warning is issued to Louisiana Pharmacy Permit No. 5250; and**

2. **Respondent is ordered to pay a fine of $5,000.00 and to reimburse the Board $250.00 for administrative costs, with total payment due the Board of $ 5,250.00, to be paid simultaneously with the execution of this Consent Agreement by Respondent.**

By signing this Consent Agreement, Respondent agrees that the Board has jurisdiction in this matter and waives all rights to informal conference, to Notice of Hearing, to a formal Administrative Hearing, and to judicial review of this Consent Agreement.

By signing this Consent Agreement, Respondent agrees that any failure to comply with the terms of this Agreement is a basis for discipline by the Board.

Both Respondent and the Board stipulate that this Consent Order shall not become effective and shall not become binding on the Board unless and until approved by the Board at formal meeting. However, Respondent agrees that this Consent Order shall be effective and binding upon Respondent without recourse upon its authorized representative signing said Order.

I, Raymond R. Carvajal, RPh, authorized to act on behalf of and acting on behalf of **CYSTIC FIBROSIS SERVICES, INC.,** understand that this Consent Agreement is effective as a Board Order upon affirmative vote by the Board at formal hearing. It is also understood that, should the Board not approve this Consent Agreement, the agreement therein does not preclude the Louisiana Board of Pharmacy from requiring a formal hearing of this case.

It is further understood that, should this Consent Agreement not be accepted by the Board, the presentation to and consideration by the Board of this Agreement, including presented documentary evidence and information, shall not unfairly or illegally prejudice or preclude the Board or any of its members from further participation in hearings or resolution of these proceedings.

SIGNED, AGREED TO AND ENTERED ON THIS 20th DAY OF May, 2010.

BEFORE THE STATE BOARD OF PHARMACY

STATE OF COLORADO

Case No. 2011-000519

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF THE DISCIPLINARY PROCEEDING REGARDING THE NON-RESIDENT PRESCRIPTION DRUG OUTLET REGISTRATION OF WALGREENS SPECIALTY PHARMACY, LLC, DBA WALGREENS SPECIALTY PHARMACY #10997, REGISTRATION NO. OSP 5198,

RESPONDENT PHARMACY.

IT IS HEREBY STIPULATED by and between the Colorado State Board of Pharmacy ("Board") and Walgreens Specialty Pharmacy, LLC, DBA Walgreens Specialty Pharmacy #10997 ("Respondent Pharmacy"), to resolve all matters pertaining to Board Case Number 2011-000519 as follows:

1. On January 11, 2000, Respondent Pharmacy became registered by the Board as a non-resident prescription drug outlet in the State of Colorado and was issued Registration No. OSP 5198 ("Colorado Registration").

2. The Board has jurisdiction over Respondent Pharmacy, its Colorado Registration, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to the provisions of title 12, article 22, C.R.S. (2009), otherwise known as the Pharmaceuticals and Pharmacists Act.

3. Respondent Pharmacy's address of record with the Board and current location is 500 Noblestown Rd., Ste. 200, Carnegie, PA 15106.

4. Respondent Pharmacy neither admits nor denies these findings, but does not contest that the Board alleges these findings. Respondent Pharmacy hereby waives any further proof in this proceeding before the Board regarding the following facts.

5. On January 28, 2010, Board staff initiated a Complaint against Respondent Pharmacy because it failed to comply with the data submission requirements of Colorado's Electronic Prescription Drug Monitoring Program ("PDMP") for the reporting period(s) of January 16 through January 25, 2010.

6. Respondent Pharmacy subsequently failed to submit the required data to the PDMP reporting dispensing transactions of controlled substances in the State of Colorado for the reporting period(s) of July 1 through July 10, 2010, and did not submit a

"zero" report indicating no dispensing transactions for said reporting period(s) as required by Board rule.

7. Respondent Pharmacy does not contest that the conduct described above may constitute a violation of §§12-22-125(1)(c) and 12-22-708, C.R.S. and that such conduct provides grounds for disciplinary action against Respondent Pharmacy's Colorado Registration pursuant to Board Policy 30-8.

DISPOSITION

$5,000.00 Fine with 10% Surcharge and Terms

8. **Fine with Surcharge.** Respondent Pharmacy accepts the following discipline: Pursuant to §12-22-125.2(5), C.R.S. Respondent Pharmacy shall pay a fine of **Five Thousand Dollars and No Cents ($5,000.00).** Respondent Pharmacy understands and acknowledges that, pursuant to §24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 10% of this fine. Respondent Pharmacy shall therefore pay a total amount of **Five Thousand, Five Hundred Dollars and No Cents ($5,500.00).** The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Pharmacy submits this signed Final Agency Order to the Board.

9. **Compliance with PDMP.** At all times Respondent Pharmacy is registered with the Colorado State Board of Pharmacy, it shall comply with the data submission requirements of the PDMP. Respondent Pharmacy understands and acknowledges that future violations of PDMP reporting requirements, including failure to submit a "zero" report in the event of no dispensing transactions in Colorado during the relevant reporting period, shall lead to additional penalties pursuant to Board Policy 30-8.

10. **Advisements and Waivers.** Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having had the opportunity to consult with its own legal counsel and/or choosing not to do so. Respondent Pharmacy acknowledges its understanding that it has the following rights:

    a. To have a formal notice of hearing and charges served upon it;

    b. To respond to said formal notice of charges;

    c. To have a formal disciplinary hearing pursuant to §12-22-125, C.R.S.; and

    d. To appeal this Board order.

Respondent Pharmacy freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against it to the sanctions imposed herein.

11. **Acknowledgments**. The undersigned authorized agent of Respondent Pharmacy has read this Final Agency Order in its entirety and acknowledges, after having had the opportunity to consult with its own legal counsel and/or choosing not to do so, that Respondent Pharmacy understands the legal consequences and agrees that none of the terms or conditions herein is unconscionable. Respondent Pharmacy is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Pharmacy further acknowledges that it is not entering into this Final Agency Order under any duress.

12. **Violations**. Time is of the essence to this Final Agency Order. It is the responsibility of Respondent Pharmacy to take all appropriate steps to comply fully with this Final Agency Order. Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

13. **Integration and Severability**. Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties in this case. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

14. **Public Record**. Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

15. **Effective Date**. This Final Agency Order shall become effective upon signature of a Board member or representative.

RE: Walgreen Mail Service, LLC, OPD file #3805863

Dear Ms. Moitra:

I am writing pursuant to our discussion concerning the outcome of the Informal Settlement Conference held on December 1, 2022. As you know, the facilitator and a member of the State Board of Pharmacy determined that this matter, based on reciprocal disciplines, could be resolved as a minor and technical violation. Based on their recommendation, I am authorized to offer your client a settlement consisting of a five hundred dollar ($500.00) fine.

If you are interested in such a resolution, please obtain the required signature (and ask the appropriate party to provide name and title) on the enclosed form and return it to me along with your check for $500.00. The check should be payable to the "New York State Education Department" by **February 20, 2023.**

In the event that your client does not remit the aforesaid payment, we will proceed in this matter with a full hearing. Please be advised that, while the settlement is nor posted on the Education Department website, the proposed settlement of this matter would be a matter of public record.

If you have any questions, I may be contacted at (315) 428-3260.

Thank you for your prompt attention to this matter.

Very truly yours,

Walter P. Bowler

IN THE MATTER OF:	)	
	)	BEFORE THE ALABAMA STATE
WALGREENS MAIL SERVICE, LLC	)	BOARD OF PHARMACY
	)	
Non-Resident Pharmacy	)	CASE NO: 16-L-0162
Permit Number: 110442	)	

CONSENT ORDER

THIS MATTER comes before the Alabama State Board of Pharmacy (hereinafter referred to as the "Board") on a complaint against Walgreens Mail Service, LLC ("Walgreens") which resulted in the filing of a Statement of Charges and Notice of Hearing ("Statement") alleging violations of the Alabama Pharmacy Practice Act as are more particularly set out in the Statement which is attached hereto as **Exhibit "A."**

Prior to a hearing in this cause, and pursuant to Code of Alabama (1975) §41-22-12(f), the Board through its counsel and Walgreens through its counsel engaged in negotiations and as a result the matters at issue were resolved informally by the parties and the parties negotiated a Consent Order, the terms of which are as follows:

1. The Board finds that Walgreens has violated the provisions of law based upon the conduct set out in all Counts of the Statement.

2. Walgreens shall pay an administrative fine in the amount of Five Thousand Dollars ($5,000.00) within thirty (30) days of the effective date of this consent order that being the day the same is signed on behalf of the Board. This payment shall not be subject to discharge in bankruptcy nor shall Walgreens attempt to discharge the same.

3. Walgreens expressly waives its rights pursuant to the Alabama Pharmacy Practice Act, the Alabama Administrative Procedure Act and the Alabama Uniform Controlled Substances Act, including but not limited to the Code of Alabama (1975), §34-23-34 and §34-23-92(12), Code of Alabama (1975), §41-22-12 and §40-22-20 and

Code of Alabama (1975), § 20-2-50 et seq., and including but not limited to the opportunity for a hearing before the Board in connection with any charges against it and any judicial review. Walgreens further waives any objection to the attorney for the Board preparing, drafting or making this Order, including the waiver of any objection or right pursuant to Code of Alabama (1975), §41-22-18.

4. By execution of this Consent Order, Walgreens hereby releases the Board, its members, agents, representatives, servants and employees from any and all liability, claims, damages, fees or expenses arising out of or made in connection with the matters relating to this Consent Order and Statement.

5. Walgreens acknowledges and agrees that any future violation of the Alabama Pharmacy Practice Act, the laws that regulate the sale and/or dispensing of prescription or legend drugs and/or narcotics or any Rules and regulations of the Alabama State Board of Pharmacy or the pharmacy law or rules of the Board of Pharmacy of another state or any other applicable laws may, upon proof and hearing thereof, result in further disciplinary sanctions against Walgreens' permit, including, but not limited to revocation. The Board shall take no action based on another state imposing any discipline based upon the actions set out in Counts 3, 5, 6, 7 and 8 of the Statement of Charges; provided, however the Board can initiate disciplinary proceedings in the event Walgreens is disciplined for its failure to disclose/report the discipline set out in the aforementioned Counts when required to do so.

6. Walgreens acknowledges and agrees that it has read this Consent Order and that it fully understand the terms, conditions and contents of the same. Walgreens acknowledges and agrees that it voluntarily and of its own free will accepts the terms and conditions set out in this Consent Order and is signing this Consent Order on the advice of

Attorneys for the Arizona State Board of Pharmacy

BEFORE THE ARIZONA STATE BOARD OF PHARMACY

In the Matter of **WALGREENS MAIL SERVICE, INC.** Holder of Permit No. Y002628 As a Pharmacy In the State of Arizona	Board Case No. 16-0023 (aka 4469) **CONSENT AGREEMENT FOR CIVIL PENALTY**

In the interest of a prompt and judicious settlement of this case, consistent with the public interest, statutory requirements and the responsibilities of the Arizona State Board of Pharmacy ("Board") under A.R.S. § 32-1901, *et. seq.*, Walgreens Mail Service, Inc. ("Respondent"), holder of permit no. Y002628 in the State of Arizona, and the Board enter into the following Recitals, Findings of Fact, Conclusions of Law and Order ("Consent Agreement") as a final disposition of this matter.

RECITALS

1. Respondent has read and understands this Consent Agreement and has had the opportunity to discuss this Consent Agreement with an attorney, or has waived the opportunity to discuss this Consent Agreement with an attorney.

2. Respondent understands that it has a right to a public administrative hearing concerning this matter at which hearing it could present evidence and cross examine witnesses. By entering into this Consent Agreement, Respondent knowingly and voluntarily relinquishes all right to such an administrative hearing, as well as rights of rehearing, review, reconsideration, appeal, judicial review or any other administrative and/or judicial action, concerning the matters set forth herein.

3. Respondent affirmatively agrees that this Consent Agreement shall be irrevocable.

4. Respondent understands that this Consent Agreement or any part of the agreement may be considered in any future disciplinary action by the Board against it.

5. Respondent understands this Consent Agreement deals with Board complaint number 16-0023 (aka 4469) involving allegations of unprofessional conduct against Respondent. The investigation into these allegations against Respondent shall be concluded upon the Board's adoption of this Consent Agreement and Respondent's compliance with the same.

6. Respondent understands that this Consent Agreement does not constitute a dismissal or resolution of any other matters currently pending before the Board, if any, and does not constitute any waiver, express or implied, of the Board's statutory authority or jurisdiction regarding any other pending or future investigation, action or proceeding.

7. Respondent also understands that acceptance of this Consent Agreement does not preclude any other agency, subdivision, or officer of this State from instituting any other civil or criminal proceedings with respect to the conduct that is the subject of this Consent Agreement.

8. Respondent acknowledges and agrees that, upon signing this Consent Agreement and returning this document to the Board's Executive Director, it may not

revoke its acceptance of the Consent Agreement or make any modifications to the document regardless of whether the Consent Agreement has been signed by the Executive Director. Any modification to this original document is ineffective and void unless mutually agreed to by the parties in writing.

9. This Consent Agreement is subject to the approval of the Board and is effective only when accepted by the Board and signed by the Executive Director. In the event that the Board does not approve this Consent Agreement, it is withdrawn and shall be of no evidentiary value and shall not be relied upon nor introduced in any action by any party, except that the parties agree that should the Board reject this Consent Agreement and this case proceeds to hearing, Respondent shall assert no claim that the Board was prejudiced by its review and discussion of this document or any records relating thereto.

10. If a court of competent jurisdiction rules that any part of this Consent Agreement is void or otherwise unenforceable, the remainder of the Consent Agreement shall remain in full force and effect.

11. Respondent understands that this Consent Agreement is a public record that may be publicly disseminated as a formal action of the Board and may be reported as required by law to the National Practitioner Data Bank and the Healthcare Integrity and Protection Data Bank.

12. Respondent understands that any violation of this Consent Agreement constitutes unprofessional conduct and may result in disciplinary action. A.R.S. §§ 32-1901.01(A)(19), -1927.02(A) (1).

13. Respondent agrees that the Board will adopt the following Findings of Fact, Conclusions of Law and Order.

ACCEPTED AND AGREED BY RESPONDENT

On behalf of Walgreens Mail Service, Inc. Dated: 10/29/18

FINDINGS OF FACT

1. The Board is the duly constituted authority for licensing and regulating the practice of pharmacy in the State of Arizona.

2. Respondent is the holder of pharmacy permit number S002628 in the State of Arizona for the operation of Walgreens Mail Service located 8350 S. River Parkway, Tempe, AZ.

4. The complaint was filed by Melodie Moore, Investigation Specialist II for the Florida Board of Pharmacy, concerning patient R.T., a Florida resident.

5. On or about October 22, 2014, R.T. was dispensed Morphine Sulfate with a label that read "**Take 5 to 10ml by mouth every 4 hours as needed**." However, the prescription was written for **Roxanol (Morphine) 20mg/ml, take 5-10mg by mouth every 4 hours as needed**. Walgreens pharmacist, Marilyn Myers PharmD, who was a work-at-home pharmacist for Walgreens Mail Service, provided the incorrect dosing instructions.

6. On or about October 24, 2014, R.T. expired with a cause of death determined to be morphine overdose. Had this matter proceeded to formal hearing it is Walgreens' position that it would offer evidence that R.T.'s death was due to something other than a morphine overdose.

7. The prescription was scanned at Walgreens Drug #6263 in Lake City, FL.

8. The prescription was data entered by CA, a technician at Walgreens Drug #6263.

9. Prescription drug utilization review was completed by L.H., a pharmacist located at Walgreens' central operation in Orlando, FL during which time L.H. discovered the error (i.e. the incorrect dosing on the label). L.H. immediately called the pharmacy but there was no answer so she deleted the prescription in an effort to keep the prescription from being sold. L.H. also sent an email advising of the labeling error.

10. According to Walgreens' records, the deletion of the prescription and the sale of the medication occurred simultaneously; the deletion of the prescription did not prevent the sale of the medication. The patient received the medication with the incorrect dosing directions.

11. During the complaint investigation at Walgreens Mail Service on December 15, 2015, records of order verification for this transaction were not available for review at that location because the prescription had been closed.

CONCLUSIONS OF LAW

1. The Board possesses jurisdiction over the subject matter and over Respondent pursuant to A.R.S. § 32-1901 *et seq.*

2. The Board may discipline a permittee that has engaged in unprofessional conduct. A.R.S. § 32-1927.02(A) (1).

3. The conduct and circumstances described above constitute a violation of A.R.S. §32-1901.01(A)(5), which is violating a federal or state law or administrative rule relating to the manufacture, sale or distribution of drugs, narcotics, dangerous drugs,

controlled substances or precursor chemicals and Arizona Administrative Code R4-23-621(D)(1), which requires that a pharmacy permittee engaged in shared services shall: (1) maintain manual or electronic records that identify, individually for each order processed, the name, initials, or identification code of each pharmacist, graduate intern, pharmacy intern, pharmacy technician, and pharmacy technician trainee who took part in the order interpretation, order entry verification, drug utilization review, drug compatibility and drug allergy review, final order verification, therapeutic intervention or refill authorization functions performed at that pharmacy.

ORDER

Based upon the above Findings of Fact and Conclusions of Law, IT IS HEREBY ORDERED THAT Respondent shall pay a civil penalty to the Board in the amount of **$1,000.00** within **30 days** of the effective date of this Order.

If Respondent violates this Order in any way or fails to fulfill the requirements of this Order, the Board, after giving the Respondent notice and the opportunity to be heard, may revoke, suspend or take other disciplinary actions against Respondent's permit. The issue at such a hearing will be limited solely to whether this Order has been violated.

Citation Number: CI 2014 64708
Name, License No: WALGREENS MAIL SERVICE INC, NRP 1584

JURISDICTION: Bus. & Prof. Code § 4314; CCR, title 16, § 1775; Bus. & Prof. Code § 4301, subd. (o)

VIOLATION CODE SECTION	OFFENSE	AMT OF FINE
Bus. & Prof. Code § 4073 subd. (c)	Substitution of Generic Drug —Requirements and Exceptions; within the discretion of the pharmacist	$500.00

CONDUCT:

Business and Professions Code Section 4073 (c) states in pertinent part, In no case shall the pharmacist select a drug product pursuant to this section unless the drug product selected costs the patient less that the prescribed drug product. Walgreens Mail Order was not compliant. Specifically, Walgreens Mail order NRP 1584, located at 8350 River Parkway, Tempe Arizona substituted a generic drug product Vestura for Yaz to patient SS and the generic cost her $90.00 instead of $0.00 copay for the brand name product. This was a violation of pharmacy law.

CITATION ISSUED ON: January 15, 2016

TOTAL AMOUNT OF FINE(S): $500.00

PAYMENT OF FINE(S) DUE BY: February 14, 2016

BEFORE THE GEORGIA STATE BOARD OF PHARMACY

IN THE MATTER OF:	*	
	*	
ALLIANCERX WALGREENS	*	
PRIME #03397	*	
License No. PHNR001128	*	
	*	**DOCKET NO.**
Respondent	*	

PUBLIC CONSENT ORDER

By agreement of the Georgia State Board of Pharmacy ("Board") and ALLIANCERX WALGREENS PRIME #03397 ("Respondent"), the following disposition of this matter is entered pursuant to the provisions of O.C.G.A. § 50-13-13(a)(4).

FINDINGS OF FACT

1.

Respondent is licensed to operate as a non-resident pharmacy in the State of Georgia. The license was issued March 1, 2017, and expires June 30, 2019.

2.

On or about October 23, 2017, Patient J.M.B. sent a refill request for Metoprolol to Respondent. On or about October 25, 2017, Respondent shipped the medication. On November 6, 2017, the patient informed Respondent that she had not received the Metoprolol prescription. The pharmacy technician who processed the inquiry failed to follow Respondent's standard operating procedure and failed to comply with Board Rule 480-48.-02(4)(d) to ensure that the patient received a replacement via next-day delivery or by immediate arranging for a seven-day supply of the medication through a licensed pharmacy of the patient's choice.

3.

On or about November 20, 2017, Respondent again called to report that she still did not receive the Metoprolol prescription. On or about November 21, 2017, Respondent shipped out the Metoprolol prescription using standard shipping, again violating Respondent's standard operating procedure and the Board rule.

4.

Respondent waives any further findings of fact with respect to this matter.

CONCLUSIONS OF LAW

Under O.C.G.A. T. 26, Ch. 4 and § 43-1-19, the Georgia State Board of Pharmacy is authorized to discipline the Respondent's license to operate as a pharmacy for the conduct stated above. Respondent waives any further conclusions of law with respect to this matter.

ORDER

The Board having considered the particular facts and circumstances of this case, it is hereby ORDERED, and the Respondent hereby AGREES, that Respondent's license shall be disciplined as follows:

1.

The Respondent shall submit to the Board a fine in the amount of $1,600.00 for failure to follow the requirements in Rule 480-48-02(d), on two separate occasions. Such fine shall be payable within sixty (60) days from the effective date of this Consent Order. Payment shall be in the form of a cashier's check or money order made payable to the Georgia State Board of Pharmacy. The Respondent's failure to pay such fine by the sixtieth day shall subject Respondent's license to further disciplinary action, including revocation.

2.

In addition to and in conjunction with any other sanction contained herein, this Consent Order and dissemination thereof shall serve as a public reprimand to the Respondent.

3.

Approval of this Consent Order by the Georgia State Board of Pharmacy shall in no way be construed as condoning the Respondent's alleged conduct, and shall not

be construed as a waiver of any of the lawful rights possessed by the Board. This Consent Order shall not become effective until approved and docketed by the Georgia State Board of Pharmacy.

4.

Agent of Respondent, AllianceRx Walgreens Prime #03397, acknowledges that Respondent has read this Consent Order and understands its contents. Respondent understands that there is a right to a hearing in this matter, and Respondent freely, knowingly and voluntarily waives such right by entering into this Consent Order. Respondent understands that this Consent Order will not become effective until approved and docketed by the Georgia State Board of Pharmacy. Respondent further understands and agrees that the Board shall have the authority to review the investigative file and all relevant evidence in considering this Consent Order. Respondent further understands that this Consent Order, once approved, shall constitute a public record which may be disseminated as a disciplinary action of the Board. If this Consent Order is not approved, it shall not constitute an admission against interest in this proceeding, or prejudice the ability of the Board to adjudicate this matter. Respondent consents to the terms and sanctions contained herein.

Approved, this 18th day of April, 2018.

SETTLEMENT AGREEMENT PRIOR TO FILING OF PETITION
FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER

Petitioner, DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS' REGULATED INDUSTRIES COMPLAINTS OFFICE (hereinafter "RICO" or "Petitioner"), through its undersigned attorney(s), and Respondent WALGREENS MAIL SERVICE, INC. (hereinafter "Respondent"), enter into this Settlement Agreement on the terms and conditions set forth below.

A. UNCONTESTED FACTS:

1. At all relevant times herein, Respondent was permitted by the Board of Pharmacy (hereinafter the "Board") as a miscellaneous permit holder under permit number PMP 64. The license was issued on or about March 14, 1996 and will expire or forfeit on or about December 31, 2017.

2. At all relevant times herein, Respondent was permitted by the Board as a miscellaneous permit holder under permit number PMP 399. The license was issued on or about October 8, 2004 and will expire or forfeit on or about December 31, 2017.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent being at all times relevant herein permitted as a miscellaneous permit holder by the Board acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the permits and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent represents Exhibit "1" is a true and correct copy of a Consent Order from the Oregon Board of Pharmacy issued to Respondent in Case No. 2014-0274; Exhibit "2" is a true and correct copy of a Consent Order and Stipulation from the Michigan Board of Pharmacy issued to Respondent in File Number: 53-12-123487; Exhibit "3" is a true and correct copy of a Consent Order from the Michigan Board of Pharmacy issued to Respondent in File Number: 53-15-136819; and Exhibit "4" is a true and correct copy of a Consent Order from the Michigan Board of Pharmacy issued to Respondent in File Number: 53-14-134124.

6. Respondent understands that any false or untrue statement or any material misrepresentation or omission of fact by Respondent in this settlement agreement may be grounds for further disciplinary action under HRS chapters 436B and 461.

7. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's permits.

8. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

9. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case Numbers PHA 2015-60-L (PMP 64) and PHA 2015-61-L (PMP 399).

10. Respondent understands that this Settlement Agreement may be subject to reporting requirements.

11. Respondent understands this Settlement Agreement is public record pursuant to Hawaii Revised Statutes chapter 92F.

//

//

//

//

C. TERMS OF SETTLEMENT:

1. Administrative fine. Respondent agrees to pay administrative fines in the amount of TWO THOUSAND AND NO/100 DOLLARS ($2,000.00). Payment shall be made by **cashier's check or money order made payable to "DCCA - Compliance Resolution Fund"** and mailed to the Regulated Industries Complaints Office, Attn: John T. Hassler, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813. Payment of fines shall be due at the time this Settlement Agreement is returned to RICO.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph(s) C.1 above, Respondent's permits shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all indicia of the permits to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for new permits until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become permitted again, Respondent must apply to the Board for new permits pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible further sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of pharmacies in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.

4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5, C.6, C.7 and C.8 below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent nor any attorney that Respondent may retain, will raise as an objection in any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion or promise made by RICO or any of its agents, employees, representatives or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IN WITNESS WHEREOF, the parties have signed this Settlement Agreement on the date(s) set forth below.

CERTIFIED MAIL and FIRST CLASS MAIL

NOTICE OF VIOLATION

To whom it may concern;

The Board received notification from the Prescription Drug Monitoring Program that Walgreens Mail Service, LLC, 8350 S. River Parkway, Tempe, Arizona, holding a New Hampshire non-resident pharmacy permit NR0029 had updated the DEA number associated with this facility. New Hampshire rules state any change to original application must notify the Board within 15 days of change. I refer to the following rule:

> Ph 306.02 Reporting Changes. The person to whom a permit to operate a pharmacy in New Hampshire has been issued shall, within 15 days of that person's discovery of a change in any of the data contained in the application for an original or renewal permit, report that change to the board in writing.

Under RSA 318:29 and RSA 318:55, the Board may impose civil penalties "not to exceed $5,000 per violation upon any person who willfully or repeatedly violates any provision of this chapter." It appears that by engaging in the conduct described above, you may have violated both Ph306.02 and Ph704.12 by not notifying the Board within 15 days that you ceased performing the duties of Pharmacist –In-Charge.

The Board sees fit to use its discretion to propose an administrative fine of **$500.00**. You have the following two options upon receipt of this Notice. First, you can waive the right to a hearing and pay the proposed fine. If you choose to do so, please pay $500.00 within thirty (30) days of the receipt of this Notice, and remit payment to Treasurer, State of New Hampshire. Second, you may request a hearing on the matter. If you do so, your request for a hearing must be received within 30 days of receipt of this Notice. The Board will thereafter schedule a hearing on the matter.

If you have any questions, please don't hesitate to contact this office at (603)-271-2350.

BEFORE THE STATE BOARD OF PHARMACY

STATE OF COLORADO

Case No. 2014-255

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE NON-RESIDENT PRESCRIPTION DRUG OUTLET REGISTRATION IN THE STATE OF COLORADO OF WALGREENS MAIL SERVICE, INC., REGISTRATION NO. OSP 5062,

Respondent Pharmacy.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Walgreens Mail Service, Inc. ("Respondent Pharmacy") to resolve all matters pertaining to Board Case Number 2014-255, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent Pharmacy, its registration as a non-resident prescription drug outlet, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to provisions of the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2013).

2. Respondent Pharmacy was originally registered in the State of Colorado on or about August 10, 1998, being issued registration number OSP 5062, and has been so registered at all times relevant to this disciplinary action.

3. Respondent Pharmacy's address of record with the Board and current location is 8350 South River Parkway, Tempe, Arizona 85284.

4. Respondent Pharmacy admits these findings and hereby waives any further proof in this or any other proceeding before the Board regarding the following facts.

5. In or about December 2012, the Board mailed an affidavit to Respondent Pharmacy and requested that Respondent Pharmacy sign the affidavit to confirm that Respondent Pharmacy is aware of Colorado law and that it will not distribute prescription drugs into Colorado without valid, patient-specific prescription orders. The affidavit was signed by Respondent Pharmacy on December 27, 2012.

6. Respondent Pharmacy distributed a prescription drug into Colorado without a valid, patient-specific prescription order.

7. Respondent Pharmacy admits that its conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes and Board Rules and provides grounds for disciplinary action against Respondent Pharmacy's Colorado registration as a prescription drug outlet:

Colorado Revised Statutes

12-42.5-123. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(c) Has violated:

(I) Any of the provisions of this Article, including commission of an act declared unlawful in section 12-42.5-126;

(II) The lawful rules of the board; or

(III) Any state or federal law pertaining to drugs.

(k) Has failed to meet generally accepted standards of pharmacy practice.

12-42.5-124. Disciplinary actions. (1) The board may deny or discipline an applicant, licensee, or registrant when the board determines that the applicant, licensee, or registrant has engaged in activities that are grounds for discipline.

12-42.5-130. Nonresident prescription drug outlet--registration

(2) The registration requirements of this section apply only to a nonresident prescription drug outlet that only ships, mails, or delivers, in any manner, drugs and devices into this state pursuant to a prescription order.

8. The Board finds and concludes, and Respondent Pharmacy agrees, that based upon Respondent Pharmacy's above-described violations of the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances.

DISPOSITION

9. **Fine with Surcharge.** Pursuant to §12-42.5-124(5)(a)(I), C.R.S., Respondent Pharmacy shall pay a fine of One Thousand Dollars and No Cents ($1,000.00) Respondent Pharmacy understands and acknowledges that, pursuant to §24-34-108, C.R.S., the Executive Director of the Department of Regulatory Agencies shall impose an additional surcharge of 10% of this fine. Respondent Pharmacy shall therefore pay a total amount of One Thousand One Hundred Dollars and No Cents ($1,100.00). The total amount shall be payable to the State of Colorado and shall be remitted in one lump sum to be included when Respondent Pharmacy submits this signed Final Agency Order to the Board.

10. **Compliance.** Respondent Pharmacy shall only dispense and deliver prescriptions into Colorado pursuant to valid, patient-specific prescription orders.

11. **Other Requirements.** Through its undersigned Authorized Representative, Respondent Pharmacy acknowledges and agrees that, as a condition of this Final Agency Order, Respondent Pharmacy shall:

    a. promptly pay all its own fees and costs associated with this Final Agency Order;

    b. comply fully with this Final Agency Order; and

    c. comply fully with the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmaceuticals and pharmacists in the State of Colorado.

12. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Respondent Pharmacy to take all appropriate steps to comply fully with this Final Agency Order. Respondent Pharmacy acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under §12-42.5-124(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Pharmacy to comply with all terms and conditions of this Final Agency Order.

13. **Advisements and Waivers.** Through its undersigned Authorized Representative, Respondent Pharmacy enters into this Final Agency Order freely and voluntarily, after having the opportunity to consult with legal counsel and/or choosing not to do so. Respondent Pharmacy acknowledges its understanding that it has the following rights:

    a. To have a formal notice of hearing and charges served upon it;

b. To respond to said formal notice of charges;

c. to have a formal disciplinary hearing pursuant to §§12-42.5-123 and 12-42.5-124, C.R.S.; and

d. To appeal this Board order.

Respondent Pharmacy freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for Board's limiting the action taken against it to the sanctions imposed herein.

14. **Acknowledgments.** The undersigned Authorized Representative of Respondent Pharmacy has read this Final Agency Order in its entirety and acknowledges, after having the opportunity to consult with legal counsel and/or choosing not to do so, that Respondent Pharmacy understands the legal consequences and agrees that none of the terms or conditions herein is unconscionable. Respondent Pharmacy is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent Pharmacy further acknowledges that it is not entering into this Final Agency Order under any duress.

15. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties in this case. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

16. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

17. **Board Order.** This Final Agency Order shall become an order of the Board when it is accepted and signed by the Program Director or authorized Board representative.

18. **Effective Date.** This Final Agency Order shall become effective upon (a) mailing by first-class mail to Respondent Pharmacy at Respondent Pharmacy's address of record with the Board, or (b) service by electronic means on Respondent Pharmacy Respondent Pharmacy hereby consents to service by electronic means if Respondent Pharmacy has an electronic address on file with the Board.

RECEIVED
MAR 04 2015
OREGON BOARD OF PHARMACY

BEFORE THE BOARD OF PHARMACY
OF THE STATE OF OREGON

In the Matter of the Drug Outlet Registration of	)	Case No. 2014-0274
WALGREENS MAIL SERVICES, INC dba: WALGREENS MAIL SERVICES	)	CONSENT ORDER
Registrant	)	

WHEREAS, the Board of Pharmacy of the State of Oregon has filed a Notice of Proposed Disciplinary Action; Answer Required ("Notice"), hereby incorporated by reference, regarding the registrant in the above-captioned matter; and

WHEREAS, the above-noted Notice was duly served on the registrant as required by law; and

WHEREAS, the parties are desirous of resolving and settling those matters contained in the above-noted Notice without further proceedings thereon; and

WHEREAS, the registrant is aware of the right to a hearing with the assistance of counsel and the right to judicial review of the Board's decision, and hereby freely and voluntarily waives those rights; and

WHEREAS, the registrant admits that the facts alleged in the above-noted Notice are true, that legal cause exists pursuant to ORS 689.405 and ORS 689.445 for disciplinary action and imposition of a civil penalty by the Board; and

WHEREAS, the registrant consents to the disciplinary action as set forth herein;

The Board finds that the allegations in the Notice are true and hereby:

1. The registrant shall pay the Board a civil penalty in the amount of $10,000. The $10,000 civil penalty shall be stayed with compliance with this Consent Order and the submission and implementation of a Quality Assurance Plan acceptable to the Board to correct violations as noted in Notice. Quality Assurance Plan along with a copy of this order to be submitted within ten days from the date this Consent Order becomes final.

2. The Quality Assurance Plan is to include a policy and procedure requiring the performance of a Drug Utilization Review by a pharmacist prior to each dispensing of a prescription and registrant monitoring of compliance with the policy and procedure.

3. The Pharmacist-in-Charge will submit a quarterly report that will include the weekly totals of all new and refill prescriptions and the number of documented DURs performed by a pharmacist on each new and refilled prescription for one year.

4. Documentation of any additional training for the pharmacist as need if the policy is not followed.

5. Quarterly reports are to be submitted within 15 days prior to May 1, August 1, November 1, and February 1 with the final report due one from the date this Consent Order becomes final.

6. Failure of the registrant to comply with the sanctions of this Consent Order may, after notice and hearing, result in further disciplinary action.

CONSENT

I hereby acknowledge that I am the authorized representative of registrant. On behalf of the registrant, I further certify that I have read and understand the Notice and this Consent Order and am aware of the right to a hearing with the assistance of counsel and the right to judicial review of the Boards final order. On behalf of the registrant I agree to the Board entering the Consent Order.

IT IS SO ORDERED.

BOARD OF PHARMACY
FOR THE STATE OF OREGON

3/9/15

Gary Miner, R.Ph.
Compliance Director

Date

BEFORE THE BOARD OF PHARMACY
OF THE STATE OF OREGON

In the Matter of the Drug Outlet Registration of	)	Case No. 2014-0274
WALGREENS MAIL SERVICES, INC. dba: WALGREENS MAIL SERVICES	)	NOTICE OF PROPOSED DISCIPLINARY ACTION; ANSWER REQUIRED
Registrant	)	

Under the authority granted pursuant to ORS 689.135, 689.145, 689.335, 689.405 and 689.445, the Oregon Board of Pharmacy proposes to take disciplinary action against your Certificate of Registration No. RP-0001425 because Walgreens Mail Services, Inc violated the Oregon Pharmacy Act and the Board of Pharmacy rules as set forth below:

On or about 6/16/2014, Walgreens Mail Services dispensed a patient's simvastatin prescription through the Registrant's automatic refill program after the pharmacy received a new atorvastatin prescription for the patient on 6/3/2014. A pharmacist did not perform a drug utilization review on 6/16/2014 when dispensing the simvastatin. In this investigation, the registrant reported that a pharmacist was not performing a drug utilization review on some prescription refills.

The above conduct is in violation of OAR 855-041-1040(2), OAR 855-019-0220(3), and OAR 855-019-0210(1), which is a ground for discipline pursuant to ORS 689.405(1)(e)(B).

Based on these alleged violations, the Board proposes to impose a civil penalty in the amount of $10,000 per violation.

HEARING RIGHTS

The corporation is entitled to a hearing as provided by the Administrative Procedures Act (ORS chapter 183). An attorney must represent the corporation. If the corporation wishes to have a hearing, the corporation's attorney must file a written request for hearing with the Board within 21 days from the date this notice was mailed. The corporation's attorney may send or deliver a request for hearing to:

Oregon Board of Pharmacy
800 NE Oregon Street, Suite 150
Portland, OR 97232
Fax: (971) 673-0002

If a request for hearing is not received within this 21-day period, the corporation's right to a hearing shall be considered waived.

If the corporation requests a hearing, the corporation's attorney will be notified of the time and place of the hearing. Before the commencement of the hearing, the corporation will be given information on the procedures, right of representation and other rights of parties relating to

the conduct of the hearing.

If the corporation does not request a hearing within 21 days, or if it withdraws a hearing request, notifies the Board or Administrative Law Judge that it will not appear, or fails to appear at a scheduled hearing, the Board may issue a final order by default imposing discipline. If the Board issues a final order by default, it designates its file on this matter as the record.

ANSWER REQUIRED

Pursuant to OAR 855-001-0010 and OAR 855-001-0015, if you request a hearing you must also provide, within 21 days from the date this contested case notice was served, a written answer to the allegations set forth in this contested case notice. Your written answer must include an admission or denial of each factual matter alleged in the notice and a short and plain statement of each relevant affirmative defense you may have. Except for good cause, factual matters alleged in the notice and not denied in the answer shall be presumed admitted; failure to raise a particular defense in the answer will be considered a waiver of such defense; new matters alleged in the answer (affirmative defenses) shall be presumed to be denied by the agency; and evidence shall not be taken on any issue not raised in the notice and the answer.

Hearing Request and Answers:
Consequences of Failure to Answer
855-001-0015

(1) A hearing request, and answer when required, shall be made in writing to the Board by the party or his attorney and an answer shall include the following:

- (a) An admission or denial of each factual matter alleged in the notice;
- (b) A short and plain statement of each relevant affirmative defense the party may have.

(2) Except for good cause;

- (a) Factual matters alleged in the notice and not denied in the answer shall be presumed admitted;
- (b) Failure to raise a particular defense in the answer will be considered a waiver of such defense;
- (c) New matters alleged in the answer (affirmative defenses) shall be presumed to be denied by the agency; and
- (d) Evidence shall not be taken on any issue not raised in the notice and the answer.

BEFORE THE ARIZONA STATE BOARD OF PHARMACY

In the Matter of **FERNANDO ESTEBAN FRIAS HERNANDEZ** Holder of License No T075057 As a Pharmacy Technician In the State of Arizona Respondent	Case No. 23-0636 **CONSENT AGREEMENT AND ORDER FOR PROBATION OF LICENSE WITH MONITORING**

In the interest of a prompt and judicious settlement of this case, consistent with the public interest, statutory requirements and the responsibilities of the Arizona State Board of Pharmacy ("Board") under A.R.S. § 32-1901, *et seq.*, Fernando Esteban Frias Hernandez ("Respondent"), holder of license no. T075057 as a pharmacy technician in the State of Arizona, and the Board enter into the following Recitals, Findings of Fact, Conclusions of Law and Order ("Consent Agreement") as a final disposition of this matter.

RECITALS

1. Respondent has read and understands this Consent Agreement and has had the opportunity to discuss this Consent Agreement with an attorney, or has waived the opportunity to discuss this Consent Agreement with an attorney.

2. Respondent understands that he has a right to a public administrative hearing concerning this matter at which hearing he could present evidence and cross examine witnesses. By entering into this Consent Agreement, Respondent knowingly and voluntarily relinquishes all right to such an administrative hearing, as well as rights of rehearing, review, reconsideration, appeal, judicial review or any other administrative and/or judicial action, concerning the matters set forth herein.

3. Respondent affirmatively agrees that this Consent Agreement shall be irrevocable.

4. Respondent understands that this Consent Agreement or any part of the agreement may be considered in any future disciplinary action by the Board against him.

5. Respondent understands this Consent Agreement deals with allegations of unprofessional conduct against Respondent. The investigation into these allegations against Respondent shall be concluded upon the Board's adoption of this Consent Agreement.

6. Respondent acknowledges and agrees that the acceptance of this Consent Agreement is solely to settle this Board matter and does not preclude the Board from instituting other proceedings as may be appropriate now or in the future.

7. Respondent understands that this Consent Agreement does not constitute a dismissal or resolution of any other matters currently pending before the Board, if any, and does not constitute any waiver, express or implied, of the Board's statutory authority or jurisdiction regarding any other pending or future investigation, action or proceeding.

8. Furthermore, and notwithstanding any language in this Consent Agreement, this Consent Agreement does not preclude in any way any other state agency or officer or political subdivision of this state from instituting proceedings, investigating claims, or taking legal action as may be appropriate now or in the future relating to this matter other matters concerning Respondent, including violations of the Arizona's Consumer Fraud Act. Respondent acknowledges that, other than with respect to the Board, this Consent Agreement makes no representations, implied or otherwise, about the views or intended actions of any other state agency or officer or political subdivision of the state relating to this matter or other matters concerning Respondent.

9. Respondent acknowledges and agrees that, upon signing this Consent Agreement and returning this document to the Board's Executive Director, he may not revoke acceptance of the Consent Agreement or make any modifications to the document regardless of whether the Consent Agreement has been signed by the Executive Director. Any modification to this original document is ineffective and void unless mutually agreed by the parties in writing.

10. This Consent Agreement is subject to the approval of the Board and is effective only when accepted by the Board and signed by the Executive Director. In the event that the Board does not approve this Consent Agreement, it is withdrawn and shall be of no evidentiary value and shall not be relied upon nor introduced in any action by any party, except that the parties agree that should the Board reject this Consent Agreement and this case proceeds to hearing, Respondent shall assert no claim that the Board was prejudiced by its review and discussion of this document or any records relating thereto.

11. If a court of competent jurisdiction rules that any part of this Consent Agreement is void or otherwise unenforceable, the remainder of the Consent Agreement shall remain in full force and effect.

12. Respondent understands that this Consent Agreement is a public record that may be publicly disseminated as a formal action of the Board and may be reported as required by law to the National Practitioner Data Bank and the Healthcare Integrity and Protection Data Bank.

13. The parties understand and agree that Portable Document Format and facsimile copies of this Consent Agreement including Portable Document Format (PDF) and facsimile signatures thereto, shall have the same force and effect as the originals.

14. Respondent understands that any violation of this Consent Agreement constitutes unprofessional conduct and may result in disciplinary action. A.R.S. §§ 32-1901.01(C)(16) and A.R.S. §32-1927.01(A)(1).

15. Respondent agrees that the Board will adopt the following Findings of Fact, Conclusions of Law and Order.

ACCEPTED AND AGREED BY RESPONDENT

Fernando Frias

Dated: 06/26/2024

Fernando Esteban Frias Hernandez (T075057)
Pharmacy Technician/Respondent

FINDINGS OF FACT

1. The Board is the duly constituted authority for licensing and regulating the practice of pharmacy in the State of Arizona.

2. Respondent is the holder of Pharmacy Technician License No. T075057, in the State of Arizona. Respondent has been licensed as a Technician since December 8, 2021.

3. On or about November 9, 2023, the Board received a notice from the Arizona Department of Public Safety ("DPS") indicating that on or about November 1,

2023, Respondent had been arrested and/or fingerprinted by the Mesa Police Department on Two Counts of Misdemeanor DUI for an offense that occurred on December 3, 2022.

4. Charges of DUI; Alcohol, Drugs, Toxic Vapor, and DUI Drugs or Metabolite were filed against Respondent on November 1, 2023 in Mesa Municipal Court Case 2023058208.

5. Pursuant to A.R.S. § 32-3208(A), a health professional who has been charged with a misdemeanor involving conduct that may affect patient safety or a felony after receiving or renewing a license or certificate must notify the health professional's regulatory board in writing within ten working days after the charge is filed.

6. Respondent failed to disclose his criminal charges to the Board within ten working days as required by A.R.S. § 32-3208.

7. On November 30, 2023, Board sent a complaint notice and a subpoena to Respondent at his address of record (by electronic, certified and regular mail), notifying him that the Board had received the DPS notification, opened a complaint, and requested that he respond and provide a written explanation of the criminal charge, as well as copies of police and court records by December 6, 2023. Respondent did not respond until December 13, 2023.

8. According to the police records provided by Respondent, he was the subject of a traffic stop on December 3, 2022 at approximately 7:01 pm. During the stop Respondent admitted that he had used marijuana flower earlier in the day, smoking two bowls but was unsure about the THC percentage. Respondent was arrested and later released to his wife.

9. Additional information reported by Respondent regarding his marijuana use is contained within the Board's files and for privacy reasons will not be detailed in this pleading, however, the information detailed in the records raised concerns about

Respondent's ability to safely practice, and serves, in part, as a basis for the issuance of an Interim Order.

10. On his September 2023 license renewal application, Respondent answered "No" to the question whether he had been arrested, charged, pled guilty or convicted of a felony or misdemeanor offense since his last renewal. He did not disclose his December 3, 2022 arrest.

11. On February 21, 2024, pursuant to A.R.S. §32-1927.01(F), the Board issued an Interim Order for a Substance Use Evaluation & Fitness for Duty Component.

12. Respondent timely complied with the Interim Order and the evaluation was conducted by Monica Faria, M.D. The evaluation report containing Dr. Faria's findings and recommendations are contained in the Board's files.

CONCLUSIONS OF LAW

1. The Board possesses jurisdiction over the subject matter and over Respondent pursuant to A.R.S. § 32-1901 *et seq.*

2. The Board may discipline a Pharmacy Technician, who has engaged in unprofessional conduct. A.R.S. §32-1927.01(A)(1).

3. The Board is authorized to enter into a Consent Agreement with a licensee to restrict the professional's practice to protect the public and ensure that the professional is able to safely engage in the practice of pharmacy in Arizona. A.R.S. § 32-1927.

4. Pursuant to A.R.S. §32-1932.01(D), a licensee who is impaired by alcohol or drug abuse may enter into a stipulation order with the board, or the license may be placed on probation or be subject to other action as provide by law.

5. The conduct and circumstances described above violate the notification requirements of A.R.S. § 32-3208(A), which constitute an act of unprofessional conduct under A.R.S. § 32-3208(D).

6. Respondent's failure to timely comply with the Board's subpoena, as described above, constitutes an act of unprofessional conduct under A.R.S. § 32-1901.01(C)(17) "Failing to comply with a board subpoena or failing to comply in a timely manner with a board subpoena without providing any explanation to the board for not complying with the subpoena."

7. Respondent's failure to disclose his 2022 arrest on his 2023 renewal application, as described above, constitutes an act of unprofessional conduct under A.R.S. § 32-1901.01(C)(3) "Obtaining or attempting to obtain a pharmacy technician or pharmacy technician trainee license or a pharmacy technician license renewal by fraud, by misrepresentation or by knowingly taking advantage of the mistake of another person or an agency."

8. Respondent's failure to disclose his 2022 arrest on his 2023 renewal application, as described above, constitutes an act of unprofessional conduct under A.R.S. § 32-1901.01(C)(13) "Knowingly filing with the board any application, renewal or other document that contains false or misleading information."

9. Respondent's failure to disclose his 2022 arrest on his 2023 renewal application, as described above, constitutes an act of unprofessional conduct under A.R.S. § 32-1901.01(C)(14) "Providing false or misleading information or omitting material information in any communication to the board or the board's employees or agents."

ORDER

Based on the Findings of Fact and Conclusions of Law, the Board under issues the following Order:

IT IS HEREBY ORDERED THAT:

1. Respondent's license shall be placed on **PROBATION** for a minimum period of one (1) year from the effective date of this Consent Agreement. The effective

date of the Consent Agreement is the date that it is signed by the Executive Director. The period of **PROBATION** is subject to the following terms and conditions:

2. Within five (5) days of the effective date of this Consent Agreement, Respondent shall enter into a rehabilitation and monitoring contract with one of the following two (2) providers. Prior to entering into the contract, Respondent shall ensure that the provider is able and willing to comply with all the requirements of this Order:

Arizona Pharmacy Foundation: Professionals Assisting Professionals
1845 E. Southern Ave.
Tempe, AZ 85282-5831
480-207-7869
https://azpharmacy.org/papa/

Community Bridges, Inc, - Professional Medical Monitoring Program
1855 W. Baseline Rd., Ste 101
Mesa, AZ 85202
480-990-3111 or 480-343-2158
Contact: Kristy Cole, Program Manager

3. Within five (5) business days of entering into a contract with one of the providers referenced above, Respondent shall provide the provider with a copy of this Consent Agreement, and notify the Board in writing of the provider with whom he has contracted.

4. Respondent shall ensure that within ten (10) business days of entering into a contract with one of the providers referenced above, the selected provider confirm in writing to the Board that they have received a copy of this Order and are willing and able to comply with all the requirements of this Order.

5. Respondent's written rehabilitation and monitoring contract with one of the entities set forth above shall extend for the entire term of his probation under this Consent Agreement. Respondent shall abide by each and every requirement of the contract, including 12 to 24 random drug screens per year; two weekly 12-step meetings; and

continuous abstention from all drugs of abuse as well as cannabis. Failure to participate in the rehabilitation and monitoring program, complete the program or to abide by the contract's terms is a violation of this Order.

6. Respondent shall advise the Board immediately (within 24 hours) of any missed (excused or not) drug screen, or 12-step meeting. Respondent shall also require the provider to notify the Board in writing within five (5) days of any missed (excused or not) drug screen, or 12-step meeting, and if excused, the reasons for excusing the absence.

7. Respondent shall execute all appropriate releases of information forms to permit the Respondent's treatment professionals to communicate with the Board regarding Respondent's treatment and monitoring.

8. Respondent shall pay all necessary fees and expenses relating to this probation, including all costs associated with the treatment and monitoring contract.

9. Respondent shall furnish all pharmacy employers with a copy of this Consent Agreement throughout the term of probation. Respondent shall ensure that all future pharmacy employers submit to the Board a written acknowledgement that they have received a copy of this Consent Agreement within ten (10) days of entering into an employment relationship with Respondent. Respondent shall advise the Board immediately (within 24 hours) of any change in pharmacy employment status throughout the term of his probation. Respondent shall update his online profile AND provide written notification to the Board within five (5) days of any change in pharmacy employment status.

10. Within five (5) days of the effective date of this Consent Agreement, Respondent shall furnish the Board with a list of all jurisdictions in which he maintains or has maintained licensure in the profession of pharmacy along with the registration numbers of said licenses.

11. Respondent shall obey all federal and state laws and rules governing the practice of pharmacy

12. Throughout the term of Respondent's probation, Respondent shall personally appear before the Board when requested to do so by the Board or Board staff.

13. **If during the pendency of this matter Respondent fails to renew his license, the license shall not expire but rather be automatically suspended until such time as Respondent files for renewal.**

14. The probationary term imposed by this Order shall not terminate unless and until Respondent submits a written request to the Board seeking termination of his probation, and provide written proof of completion of the requirements of this Agreement and Order. Respondent shall appear before the Board at a regularly scheduled Board meeting approximately one year after the effective date of this Order to request that the probation imposed by this Order be terminated. Respondent's failure to petition the Board to terminate the probation shall extend the probation period. Whether to lift/terminate the probation is within the sole discretion of the Board.

15. Failure to comply with any provision of this Consent Agreement is an act of unprofessional conduct pursuant to A.R.S. §32-1901.01(C)(16), which is violating a formal order, terms of probation, a consent agreement or a stipulation issued or entered into by the Board.

16. If Respondent violates this Order in any way or fails to fulfill the requirements of this Order, the Board, after giving the Respondent notice and the opportunity to be heard, may revoke, suspend or take other disciplinary actions against Respondent's license. The issue at such a hearing will be limited solely to whether this Order has been violated.

BOARD ACCEPTS, SIGNS AND DATES THIS CONSENT AGREEMENT

Dated this 28th day of June, 2024.

Re: Complaint [redacted]
33909

Dear Ms. Arafat:

This letter is to advise you that the New Jersey State Board of Pharmacy (the "Board") has had an opportunity to review information concerning your practice of pharmacy following an investigation that uncovered the following infractions of the law and regulations:

The Board determined to fine you, the dispensing pharmacist, $200.00, for the medication error. In addition, you must complete two (2) Board approved continuing education modules on medication errors. The completion of these modules will not be considered as part of the biennial continuing education requirment.

The Board has determined that it will first offer you an opportunity to settle this matter and thereby avoid the initiation of formal disciplinary proceedings. Should you wish to avail yourself of this opportunity, you should sign the acknowledgment below and agree to the following:

pay a penalty in the amount of $200.00 (to be paid immediately upon your signing of the acknowledgment at the bottom of this letter), and **Letter of Correction.**

Alternatively, you may waive your right to a hearing and submit a written statement or explanation to the Board. The Board will then consider your submission and render a final decision, which may include any of the terms set forth above. Any disposition by way a settlement will be a public record, and will have the same effect as an order of the Board. Any failure to comply with the terms to which you agree will be deemed a violation.

October 4, 2005

If you do not wish to settle this matter, you may request a hearing. In that event, this letter will serve as notice of the charges against you and a hearing will be scheduled before the Board. At that hearing you either personally or with the assistance of an attorney will have an opportunity to respond to the charges and submit evidence and present testimony as may be necessary in order for the Board to make a final determination concerning the charges of unlawful activity.

You should be aware that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that offered in this letter. Additionally, the Board may, if the facts are found to so warrant, enter an order requiring you to pay costs incurred in the matter.

Should you have any questions concerning this letter or the settlement offer herein, I suggest that you contact The Board of Pharmacy, at (973) 504-6450.

The enclosed certification should be completed and returned to the Board within fifteen (15) days following your receipt of this letter. In the event that the Board receives no response from you within fifteen (15) days, the Board's settlement offer will be withdrawn, and you will be deemed in default. The allegations against you will be deemed uncontested. The Board will then proceed to schedule the matter for final review and will enter an appropriate order. Once an order has been entered, your failure to pay any penalties may result in further action to suspend or revoke your license.

Dear Manal Arafat:

Enclosed is the Uniform Penalty Letter regarding Consumer Complaint # 38909 dated October 4, 2005.

The licensee holder of license # 28RI02978500 has paid all fines associated with this consumer complaint and has submitted a letter of corrective action. The Board reviewed the licensee's response and determined that the issue had been resolved to the Board's satisfaction and considers the matter closed.

At all times, the pharmacist's license was active and in good standing.

Sincerely,

Anthony Rubinaccio, R. Ph.

BEFORE THE BOARD OF PHARMACY
OF THE STATE OF OREGON

In the Matter of the Pharmacist License Application of	)	Case No. 2015-0258
KEVIN LINH NGUYEN	)	CONSENT ORDER
Applicant	)	

WHEREAS, the Board of Pharmacy of the State of Oregon has filed a Notice of Proposed License Denial; Answer Required ("Notice"), hereby incorporated by reference, regarding the applicant in the above-captioned matter; and

WHEREAS, the above-noted Notice was duly served on the applicant as required by law; and

WHEREAS, the parties are desirous of resolving and settling those matters contained in the above-noted Notice without further proceedings thereon; and

WHEREAS, the applicant is aware of the right to a hearing with the assistance of counsel and the right to judicial review of the Board's decision, and hereby freely and voluntarily waives those rights; and

WHEREAS, the applicant admits that the facts alleged in the above-noted Notice are true, that the applicant's conduct, as admitted, violated the statutes and rules cited in the Notice, and that legal cause exists pursuant to ORS 689.405 for refusal to issue a pharmacist license by the Board; and

WHEREAS, the Board is authorized to settle matters pursuant to ORS 183.417(3) and the Board and applicant agree to the terms set forth in this Consent Order;

The Board finds that the allegations in the Notice are true and hereby grants applicant's license with conditions.

1. Licensee shall pay a civil penalty in the amount of $1,000 with $850 stayed pending compliance with the terms of this Consent Order and no further violation for three (3) years. The $150 civil penalty shall be paid within ten days from the date this Consent Order becomes final.

2. Licensee shall earn and submit continuing education (CE) certificates for three (3) hours of CE in the area of pharmacy law or ethics within 10 days from the date this Consent Order becomes final. The continuing education hours earned in regards to this case are in addition to the CE required by pharmacists for renewal and are not eligible for renewal purposes. Licensee shall submit certificates of completion to the Board office by certified mail (or other

method approved by the Board in writing) and retain receipt of verification of delivery to the Board office.

3. Failure of the licensee to comply with all the requirements of the final order in this matter constitutes failure to cooperate with the Board and is grounds for revocation or any other form of discipline or sanction authorized by law.

CONSENT

I hereby acknowledge that I have read and understand the above-noted Notice and the terms of the Consent Order. I hereby acknowledge that I understand that the Consent Order with incorporated Notice is a public record and shall be available via the Board's online licensure verification; is available upon written request pursuant to public disclosure laws; and shall be reported to the National Practitioner Data Bank as required by federal law. I agree to the Board entering the Consent Order.

IT IS SO ORDERED.

BOARD OF PHARMACY
FOR THE STATE OF OREGON

Gary Miner, R.Ph.
Compliance Director — Date: 6/29/15

BEFORE THE BOARD OF PHARMACY
OF THE STATE OF OREGON

In the Matter of the Pharmacist License Application of	)	Case No. 2015-0258
KEVIN LINH NGUYEN	)	NOTICE OF PROPOSED LICENSE DENIAL;
Applicant	)	ANSWER REQUIRED

The Oregon Board of Pharmacy proposes to deny your pharmacist license application, and impose a civil penalty pursuant to ORS 689.445, ORS 689.832, and ORS 689.405 because you violated the Oregon Pharmacy Act and the Board of Pharmacy rules as follows:

On or about 4/8/2015, you made fraudulent statements or misrepresented the facts submitted to the Oregon Board of Pharmacy during the course of applying for licensure as a pharmacist. The Board of Pharmacy license application you completed requires that you respond fully and truthfully to questions. A question asked whether you have ever been cited, arrested for, charged with or convicted of the commission of any crime, offense or violation of the law in any state or by the Federal Government even if those charges were dismissed, to which you responded No. You were required to explain the circumstances in detail to any affirmative responses. You hand wrote on the form that you had "...never been arrested or cited for, charged with nor convicted of the commission of any crime, offense or violation of the law in any state or by the federal government." You signed the application certifying that you read the application and all information provided was true and correct and were aware that providing false information is grounds for denial of a license.

You failed to report that on or about 11/16/1995 you were arrested by the Travis County Sheriff's Office (TX) on the charge of Theft.

The above conduct is unprofessional conduct as defined by OAR 855-006-0005(28)(j) and (k) and in violation of and grounds for discipline pursuant to OAR 855-019-0310(1) and (7), OAR 855-001-0035, ORS 162.085, and ORS 689.405(1)(a), (e)(B) and (f).

Based on these alleged violations, the Board proposes to deny your pharmacist license application and impose a $1,000 civil penalty per violation.

HEARING RIGHTS

You are entitled to a hearing as provided by the Administrative Procedures Act (ORS chapter 183). If you wish to have a hearing, you must file a written request for hearing with the Board within 60 days from the date this notice was mailed. You may send or deliver a request for hearing to:

Oregon Board of Pharmacy
800 NE Oregon Street, Suite 150
Portland, OR 97232
Fax (971) 673-0002

If a request for hearing is not received within this 60-day period, your right to a hearing shall be considered waived.

If you request a hearing, you will be notified of the time and place of the hearing. Before the commencement of the hearing, you will be given information on the procedures, right of representation and other rights of parties relating to the conduct of the hearing. You may be represented by legal counsel.

If you do not request a hearing within 60 days, or if you withdraw a hearing request, notify the Board or Administrative Law Judge that you will not appear, or fail to appear at a scheduled hearing, the Board may issue a final order by default imposing discipline. If the Board issues a final order by default, it designates its file on this matter as the record.

Notice to Active Duty Servicemembers: Active duty servicemembers have a right to stay these proceedings under the federal Servicemembers Civil Relief Act. For more information contact the Oregon State Bar at 1-800-452-8260, the Oregon Military Department at 1-800-452-7500 or the nearest United States Armed Forces Legal Assistance Office through http://legalassistance.law.af.mil.

ANSWER REQUIRED

Pursuant to OAR 855-001-0010 and OAR 855-001-0015, if you request a hearing you must also provide, within 60 days from the date this document was served, a written answer to the allegations set forth in this document. Your written answer must include an admission or denial of each factual matter alleged in the notice. Except for good cause, factual matters alleged in this document and not denied in your answer will be presumed admitted.

Hearing Request and Answers:
Consequences of Failure to Answer
855-001-0015

(1) A hearing request, and answer when required, shall be made in writing to the Board by the party or his attorney and an answer shall include the following:

(a) An admission or denial of each factual matter alleged in the notice;

(b) A short and plain statement of each relevant affirmative defense the party may have.

(2) Except for good cause;

(a) Factual matters alleged in the notice and not denied in the answer shall be presumed admitted;

(b) Failure to raise a particular defense in the answer will be considered a waiver of such defense;

(c) New matters alleged in the answer (affirmative defenses) shall be presumed to be denied by the agency; and

(d) Evidence shall not be taken on any issue not raised in the notice and the answer.

AGREED BOARD ORDER #L-16-022

RE: IN THE MATTER OF
KEVIN LINH NGUYEN
(PHARMACIST LICENSE #40176)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacist license number 40176 issued to Kevin Linh Nguyen (Respondent).

By letter dated August 3, 2016, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

> Sections 565.001(a)(1), (2), (12) and (16); and 565.001(b) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2015); and
>
> Section 281.7(a)(13) of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2016), as alleged in the Count below.

The conduct described in the Consent Order of the Oregon Board of Pharmacy is substantially similar to conduct described in:

> Section 565.001(a)(1), (2), (5) and (12) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2013); and
>
> Sections 281.7(a)(21); and 281.7(c)(3) of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2015).

COUNT

On or about June 29, 2015, the Oregon Board of Pharmacy entered a Consent Order in the matter of the pharmacist license application of Kevin Linh Nguyen. The Order was based on allegations contained in a Notice of Proposed License Denial; Answer Required that on his April 2015 application for licensure, Mr. Nguyen falsely indicated that he had not been arrested for any offense, when he was arrested on or about November 16, 1995, for Theft in Travis County, Texas. The Order granted the license, imposed a $250 penalty, and required three hours of continuing education.

By letter dated August 3, 2016, Respondent was notified that the matters previously set out in this Order could be disposed of without the scheduling of an informal conference or a formal administrative hearing. By signing this Order, Respondent neither admits nor denies the truth of the matters previously set out in this Order, and agrees that the Board has jurisdiction in

this matter and waives the right to informal conference, notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that Respondent's license is reprimanded.

And it is so ORDERED.

THIS ORDER IS A PUBLIC RECORD.

SIGNED AND ENTERED ON THIS 1st day of November, 2016.

MEMBER, TEXAS STATE BOARD OF PHARMACY

Texas State Board of Pharmacy

REMEDIAL PLAN #H-17-047-A

RE: IN THE MATTER OF
PHONGPHU ALEX DANG
(PHARMACIST LICENSE #49465)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacist license number 49465 issued to Phongphu Alex Dang (Respondent).

By letter dated April 18, 2018, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated the applicable law set forth below. An informal conference was held in the Board's office on June 5, 2018, with Respondent, and Dan Lype, Legal Counsel for Respondent, in attendance. The informal conference was heard by Board Member: Dennis F. Wiesner, R.Ph.; with Kerstin Arnold, General Counsel. Bhavesh Modi, Staff Attorney, was also in attendance.

BOARD HISTORY

Respondent has not previously been offered a Remedial Plan and has not been the subject of disciplinary action with the Board.

FINDINGS

1. On or about July 7, 2017, Phongphu Alex Dang, while acting as an employee (staff pharmacist) of Walgreens #7592, 802 East Pioneer Parkway, Grand Prairie, Texas 75051, dispensed memantine 5mg tablets to patient A.C., a 17-year-old with Down syndrome and Graves' disease, on a refill of a prescription calling for methimazole 5mg tablets. The prescription was dispensed in the manufacturer's stock bottle labeled as memantine 5mg tablets, but the prescription label that was affixed to the bottle indicated that 60 methimazole 5mg tablets had been dispensed. The prescription label instructed patient A.C. to "take 1 tablet by mouth twice daily." Patient A.C. was administered the wrong drug for approximately 20 days before the error was identified by patient A.C.'s physician and experienced adverse effects, including elevated thyroid levels, weight loss, and restlessness. The prescription was assigned prescription number 1252850.

2. Respondent does not admit or deny the Finding(s) and Applicable Law contained herein but, rather, has agreed to settle in good faith to avoid the cost, expense, and uncertainty of litigation.

MITIGATING FACTOR

Respondent cooperated in the investigation of the allegations that resulted in this Remedial Plan.

APPLICABLE LAW

1. The Board has jurisdiction over the subject matter and Respondent pursuant to Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2017).

2. The Board is authorized to take disciplinary action for a violation of Section 565.001(a)(1), (2), (12) and (13) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2015); Sections 281.7(a)(12), (13) and (29)(A); 291.31(1), (15), (16) and (17); 291.32(c)(1)(E) and (F); 291.32(c)(2)(C) and (D); and 295.3(b) of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2017); and Sections 431.003; 431.021(a), (b) and (r); and 431.112(a)(1) of the Texas Food, Drug, and Cosmetic Act, TEX. HEALTH & SAFETY CODE ANN. (2015).

3. Section 565.060 of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2017), and Section 281.68 of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2018), authorize the Board to resolve this matter with a Remedial Plan.

REMEDIAL PLAN TERMS

1. This Remedial Plan shall be in effect from the date of entry of the Plan and shall terminate five (5) years after the date of entry. Respondent agrees to comply with the terms set forth herein for the duration of the Plan.

2. Respondent shall obtain fifteen (15) hours of continuing education, which shall be in addition to the hours of continuing education required for renewal. Respondent shall submit proof of completion of the continuing education hours to Board staff within one (1) year after the entry of this Remedial Plan. All continuing education must be in compliance with the continuing education requirements set forth in the Texas Pharmacy Board Rules, and must be completed after the entry of this Remedial Plan and before one (1) year after the entry of this Remedial Plan.

3. Respondent shall submit written documentation of modifications implemented by Respondent to improve Respondent's practice of pharmacy to prevent dispensing errors and ensure proper drug regimen review. Such report shall be due one hundred twenty (120) days after the Remedial Plan is entered by the Board.

4. Respondent shall pay a Remedial Plan fee of one thousand dollars ($1,000) due one hundred twenty (120) days after the Remedial Plan is entered by the Board.

5. Respondent shall be responsible for all costs relating to compliance with the requirements of this Remedial Plan.

6. Respondent shall allow Board staff to directly contact Respondent on any matter regarding the enforcement of this Remedial Plan.

RESPONDENT HAS READ AND UNDERSTANDS THE FOREGOING REMEDIAL PLAN. RESPONDENT UNDERSTANDS THAT BY SIGNING, RESPONDENT WAIVES CERTAIN RIGHTS. RESPONDENT SIGNS IT VOLUNTARILY. RESPONDENT UNDERSTANDS THIS REMEDIAL PLAN IS A FINAL, NON-APPEALABLE AGREEMENT THAT CONTAINS THE ENTIRE AGREEMENT, AND THERE IS NO OTHER AGREEMENT OF ANY KIND, VERBAL, WRITTEN, OR OTHERWISE. RESPONDENT UNDERSTANDS AND AGREES THAT ANY VIOLATION OF THE REMEDIAL PLAN WILL RESULT IN THE RE-INSTITUTION OF DISCIPLINARY ACTION.

And it is so ORDERED.

THIS REMEDIAL PLAN IS A PUBLIC RECORD.
THIS REMEDIAL PLAN IS NON-DISCIPLINARY.

SIGNED AND ENTERED ON THIS 7th day of August, 2018.

Attorneys for the Arizona State Board of Pharmacy

BEFORE THE ARIZONA STATE BOARD OF PHARMACY

In the Matter of **WESLEY MONTGOMERY** Holder of License No T009712 As a Pharmacy Technician In the State of Arizona	Board Case No. 21-0594 **CONSENT AGREEMENT FOR CIVIL PENALTY, CONTINUING EDUCATION AND AUDIT**

In the interest of a prompt and judicious settlement of this case, consistent with the public interest, statutory requirements and the responsibilities of the Arizona State Board of Pharmacy ("Board") under A.R.S. § 32-1901, *et. seq.* Wesley Montgomery ("Respondent"), holder of certificate T009712 as a Pharmacy Technician in the State of Arizona and the Board enter into the following Recitals, Findings of Fact, Conclusions of Law and Order ("Consent Agreement") as a final disposition of this matter.

RECITALS

1. Respondent has read and understands this Consent Agreement and has had the opportunity to discuss this Consent Agreement with an attorney, or has waived the opportunity to discuss this Consent Agreement with an attorney.

2. Respondent understands that he has a right to a public administrative hearing concerning this matter at which hearing he could present evidence and cross examine witnesses. By entering into this Consent Agreement, Respondent knowingly and voluntarily relinquishes all right to such an administrative hearing, as well as rights of rehearing, review, reconsideration, appeal, judicial review or any other administrative and/or judicial action, concerning the matters set forth herein.

3. Respondent affirmatively agrees that this Consent Agreement shall be irrevocable.

4. Respondent understands that this Consent Agreement or any part of the agreement may be considered in any future disciplinary action by the Board against him.

5. Respondent understands this Consent Agreement deals with Case No. 21-0594 involving allegations of unprofessional conduct against Respondent. The investigation into these allegations against respondent shall be concluded upon the Board's adoption of this Consent Agreement.

6. Respondent acknowledges and agrees that the acceptance of this Consent Agreement is solely to settle this Board matter and does not preclude the Board from instituting other proceedings as may be appropriate now or in the future.

7. Respondent understands that this Consent Agreement does not constitute a dismissal or resolution of any other matters currently pending before the Board, if any, and does not constitute any waiver, express or implied, of the Board's statutory authority or jurisdiction regarding any other pending or future investigation, action or proceeding.

8. Furthermore, and notwithstanding any language in this Consent Agreement, this Consent Agreement does not preclude in any way any other state agency or officer or political subdivision of this state from instituting proceedings, investigating claims, or taking legal action as may be appropriate now or in the future relating to this matter other matters concerning Respondent, including violations of Arizona's Consumer Fraud Act.

Respondent acknowledges that, other than with respect to the Board, this Consent Agreement makes no representations, implied or otherwise, about the views or intended actions of any other state agency or officer or political subdivision of the state relating to this matter or other matters concerning Respondent.

9. Respondent acknowledges and agrees that, upon signing this Consent Agreement and returning this document to the Board's Executive Director, he may not revoke acceptance of the Consent Agreement or make any modifications to the document regardless of whether the Consent Agreement has been signed by the Executive Director. Any modification to this original document is ineffective and void unless mutually agreed by the parties in writing.

10. This Consent Agreement is subject to the approval of the Board and is effective only when accepted by the Board and signed by the Executive Director. In the event that the Board does not approve this Consent Agreement, it is withdrawn and shall be of no evidentiary value and shall not be relied upon nor introduced in any action by any party, except that the parties agree that should the Board reject this Consent Agreement and this case proceeds to hearing, Respondent shall assert no claim that the Board was prejudiced by its review and discussion of this document or any records relating thereto.

11. If a court of competent jurisdiction rules that any part of this Consent Agreement is void or otherwise unenforceable, the remainder of the Consent Agreement shall remain in full force and effect.

12. Respondent understands that this Consent Agreement is a public record that may be publicly disseminated as a formal action of the Board and may be reported as required by law to the National Practitioner Data Bank and the Healthcare Integrity and Protection Data Bank.

13. The parties understand and agree that Portable Document Format and facsimile copies of this Consent Agreement including Portable Document Format (PDF) and facsimile signatures thereto, shall have the same force and effect as the originals.

14. Respondent understands that any violation of this Consent Agreement constitutes unprofessional conduct and may result in disciplinary action. A.R.S. §§ 32-1901.01(C)(16) and A.R.S. §32-1927.01(A)(1).

15. Respondent agrees that the Board will adopt the following Findings of Fact, Conclusions of Law and Order.

ACCEPTED AND AGREED BY RESPONDENT

Dated: 11/22/21

Wesley Montgomery
Pharmacy Technician

FINDINGS OF FACT

1. The Board is the duly constituted authority for licensing and regulating the practice of pharmacy in the State of Arizona.

2. Respondent is the holder of certificate number T009712 as a Pharmacy Technician.

3. Pursuant to A.R.S. § 32-1925(H), the board shall not renew a license for a pharmacy technician unless that person has complied with the board-approved mandatory continuing professional education requirements.

4. Pursuant to A.A.C. R4-23-1106(A)(1), during the two years preceding an application for renewal, a pharmacy technician is required to participate in 20 contact hours (2.0 CEUs) of continuing education activity sponsored by a Board Approved Provider.

5. Pharmacy technicians are required to maintain records that verify the continuing education activities that the technician participated in during the preceding five years; attest to the number of CEUs the technician participated in during the renewal period on the biennial renewal form; and submit proof of the continuing education participation to the Board within 20 days of request. A.A.C. R4-23-1106(C).

6. The Board shall deem the failure to comply with the continuing education requirements as unprofessional conduct and grounds for disciplinary action. A.A.C. R4-23-1106(D).

7. On or about October 1, 2020, Respondent filed his application for license renewal, certifying that he had complied with the continuing education requirements set forth in A.R.S. §§ 32-1925, 32-3248.02 and A.A.C R4-23-1106, including the pharmacy law and opioid-related, substance use disorder-related or addiction-related continuing education requirements. In doing so, Respondent was attesting that he had completed the required twenty (20) continuing education (CE) hours during the renewal period.

8. On or about October 12, 2021, the Board staff conducted a continuing education audit that included Respondent (licensees are selected at random).

9. Prior to reaching out to Respondent, the Board staff reviewed the CPE Monitor and discovered that Respondent had completed zero (0) of the required 20 hours of continuing education during the audit time period.

10. Board staff sent Respondent an email on October 12, 20201, asking that he provide information showing completion of the required CE by November 1, 2021. No response was received.

11. Staff again reached out to Mr. Montgomery on October 27, 2021, again seeking proof of his completion of the required CEs. Respondent submitted documentation of CEs that were completed outside of the audit time period. When Board

staff asked Respondent to submit current CEs for the audit period, Respondent failed to respond.

12. Upon information and belief, Respondent was short all twenty (20) CE hours required for renewal of a pharmacy technician license.

CONCLUSIONS OF LAW

1. The Board possesses jurisdiction over the subject matter and over Respondent pursuant to A.R.S. § 32-1901 *et seq.*

2. The Board may discipline a pharmacy technician who has engaged in unprofessional conduct. A.R.S. § 32-1927.01(A)(1), which allows the board to discipline a pharmacy technician for committing unprofessional conduct that includes violating any federal or state law, rule or regulation relating to the practice of pharmacy.

3. The conduct and circumstances described above constitutes unprofessional conduct pursuant to A.R.S. § 32-1901.01(C)(3) "Obtaining or attempting to obtain a pharmacy technician or pharmacy technician license or a pharmacy technician license renewal by fraud, by misrepresentation or by knowingly taking advantage of the mistake of another person or an agency."

4. The conduct and circumstances described above constitutes unprofessional conduct pursuant to A.R.S. § 32-1901.01(C)(5) "Failing to comply with the mandatory continuing professional education requirements of section 32-1925, subsection H and rules adopted by the board."

5. The conduct and circumstances described above constitutes unprofessional conduct pursuant to A.R.S. § 32-1901.01(C)(13) "Knowingly filing with the board any application, renewal or other document that contains false or misleading information."

6. The conduct and circumstances described above constitutes unprofessional conduct pursuant to A.R.S. § 32-1901.01(C)(14) "Providing false or misleading

information or omitting material information in any communication to the board or the board's employees or agents."

7. The conduct and circumstances described above constitutes unprofessional conduct pursuant to A.R.S. § 32-1901.01(C)(15) "Violating or attempting to violate, directly or indirectly, or assisting in or abetting in the violation of, or conspiring to violate, this chapter.", specifically as it relates to A.R.S. § 32-1925.

ORDER

Based upon the above Findings of Fact and Conclusions of Law, IT IS HEREBY ORDERED THAT:

1. Respondent shall pay to the Board as a civil penalty the sum of Five Hundred **($500.00 [$25.00 per deficient CE hour])**. The civil penalty shall be paid in full to the Board within **ninety (90) days** of the effective date of this Consent Agreement and Order. The effective date of this Consent Agreement is the date it is signed by the Board's Executive Director.

2. In addition, Respondent shall complete a total of **thirty (30) continuing education hours for the next renewal period ending October 31, 2022.**

3. Respondent is also subject to a mandatory audit of his continuing education requirements for the 2020-2022 renewal cycle.

4. **IF RESPONDENT FAILS TO TIMELY COMPLY WITH THIS CONSENT AGREMENT AND ORDER, THE MATTER SHALL BE REFERRED TO FORMAL HEARING FOR THE SUSPENSION OR REVOCATION OF HIS LICENSE.** Failing to abide by this Consent Agreement and Order is a violation of A.R.S. §32-1901.01(C)(16), which is violating a formal order, terms of probation, a consent agreement or a stipulation issued or entered into by the board it its executive director. The issue at such a hearing will be limited solely to whether this Order has been violated.

5. Respondent understands that this Consent Agreement is a public record that may be publicly disseminated as a formal action.

RE: In the Matter of James Kyle Cooley

Dear Mr. Cooley:

Enclosed is a copy of Agreed Board Order (ABO) #T-04-382 that was entered by the Texas State Board of Pharmacy (TSBP) concerning the above-referenced matter. TSBP entered this Order on September 24, 2004. The requirements and conditions of the enclosed Order and matters relating to the Order are discussed below.

GRANTING OF TEXAS PHARMACY TECHNICIAN REGISTRATION

Under the terms of ABO #T-04-382, Texas Pharmacy Technician Registration (#119555) was granted to you because you:

(1) successfully completed the requirements of registration as set forth in the Texas Pharmacy Act, TEX. OCC. CODE ANN. Subtitle J (Vernon 2003) and the Texas Pharmacy Rules of Procedure, 22 TEX. ADMIN. CODE (2004); and

(2) provided documentation to TSBP from a mutually acceptable mental health professional (MHP) that stated you were not physiologically or psychologically alcohol or drug dependent, did not have an incapacity of a nature that would prevent you from practicing as a pharmacy technician with reasonable skill, competence and safety to the public, and were able to practice as a pharmacy technician without posing a threat to yourself or the public.

With regard to the documentation described in (2) above, TSBP received this documentation on October 5, 2004, from Jan K. McCutchin, NCACII, LCDC. Subsequently, pharmacy technician registration #119555 was issued to you on October 20, 2004.

AGREED BOARD ORDER #T-04-382

RE: IN THE MATTER OF
JAMES KYLE COOLEY
(APPLICANT FOR PHARMACY
TECHNICIAN REGISTRATION #119555)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (hereinafter referred to as "TSBP") the matter of pharmacy technician registration number 119555 issued to James Kyle Cooley, (hereinafter referred to as "Applicant").

The TSBP gave preliminary notice to Applicant of its intent to take disciplinary action with respect to Applicant's pharmacy technician registration as a result of information received by the TSBP which produced evidence indicating that Applicant may have violated:

(1) Section 568.003(a)(5) of the Texas Pharmacy Act, TEX. OCC CODE ANN. Subtitle J (2003), in that, allegedly, on or about April 8, 1998, Applicant was convicted of the misdemeanor offense of Driving While Intoxicated.

(2) Section 568.003(a)(5) of the Texas Pharmacy Act, TEX. OCC CODE ANN. Subtitle J (2003), in that, allegedly, on or about November 30, 1999, Applicant was convicted of the misdemeanor offense of Driving While Intoxicated.

An informal conference was held in the office of the Texas State Board of Pharmacy on September 15, 2004, with Applicant in attendance. The informal conference was heard by a Board panel.

At the aforementioned conference, Applicant waived Applicant's right to be represented by legal counsel. By Applicant's appearance at the informal conference and by

Applicant's signature on this Order, Applicant agrees that the Texas State Board of Pharmacy has jurisdiction in this matter and does hereby waive Applicant's right to legal counsel, to notice of hearing, to a formal administrative hearing, and to judicial review of this Order.

After discussion of the matters previously outlined in this Order, and subsequent communications, Applicant agreed to the entry of an Order disposing of the need for further disciplinary action in this matter. By Applicant's signature on this Order, Applicant neither admits nor denies the truth of the matters previously set out in this Order with respect to the above alleged violations.

Applicant understands that any failure to comply with the terms of this Order is a basis for discipline under the Texas Pharmacy Act.

Should this Order not be accepted by the TSBP, it is agreed that neither the presentation of the Order to the TSBP nor the TSBP's consideration of the Order, will be deemed to have unfairly or illegally prejudiced the TSBP or its individual members and, therefore, will not be grounds for precluding the TSBP or any individual member of the TSBP from further participation in proceedings related to the matters set forth in the Order.

At the conclusion of the aforementioned conference, and subsequent communications, the parties agreed to the entry of the ORDER OF THE BOARD set forth below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the TSBP does hereby ORDER that a Texas pharmacy technician registration shall be granted after Applicant successfully

completes the requirements of registration as set forth in the Texas Pharmacy Act, TEX. OCC. CODE ANN. Subtitle J (Vernon 2003) and the Texas Pharmacy Rules of Procedure, 22 TEX. ADMIN. CODE (2004), and after written documentation is provided by a mutually acceptable mental health professional which states that Applicant is not physiologically or psychologically alcohol or drug dependent, does not have an incapacity of a nature that would prevent Applicant from practicing as a pharmacy technician with reasonable skill, competence and safety to the public, and is able to practice as a pharmacy technician without posing a threat to Applicant or the public. If Applicant has not completed the requirements within ninety (90) days after the entry of this Order, the pharmacy technician registration application shall be DENIED.

It is finally ORDERED that failure to comply with any of the terms and conditions in this Order constitutes a violation and shall be grounds for further disciplinary action against the Texas technician registration held by Applicant.

And it is so Ordered.

THIS ORDER IS A PUBLIC RECORD.

SIGNED AND ENTERED ON THIS 24th day of September, 2004.

W Michael Brimberg RR

ORDER

This matter having come before the Acting Director of the Division of Professional Regulation of the Illinois Department of Financial and Professional Regulation following the filing of a formal complaint against Walgreens Specialty Pharmacy #15443, Walgreens Specialty Pharmacy #12314, and Walgreens Specialty Pharmacy #15438 (hereinafter "Respondents") and said complaint being sent by email to Respondents' email addresses of record on or about January 11, 2019; Respondents having been ordered to file an answer or be held in default on February 25, 2019; Respondents having failed to answer the complaint and being held in default on March 25, 2019; the Illinois State Board of Pharmacy (hereinafter "Board") having deliberated this matter and issued a report containing certain findings of fact, conclusions of law, and a recommendation to the Director, and that report and a 20 Day Notice having been sent to Respondents' email addresses of record on May 17, 2019; Respondents having failed to reply within 20 days of the notice; and all due notice having been given:

Now therefor, I, Cecilia Abundis, Acting Director of the Division of Professional Regulation of the Illinois Department of Financial and Professional Regulation, after reviewing this matter and the documents attached hereto and referenced herein, do hereby adopt the Findings of Fact, Conclusions of Law, and Recommendation of the Board;

It is therefore ordered that Respondents Walgreens Specialty Pharmacy #15443, license no. 054.017539, Walgreens Specialty Pharmacy #12314, license no. 054.017548, and Walgreens Specialty Pharmacy #15438, license no. 054.017538, are each individually assessed a fine of two thousand dollars ($2,000.00).

FINDINGS OF FACT, CONCLUSIONS OF LAW AND RECOMMENDATION TO THE DIRECTOR

Now comes the Illinois Board of Pharmacy of the Division of Professional Regulation of the Illinois Department of Financial and Professional Regulation and, after reviewing the record in this matter, a majority of its members hereby makes the following Findings of Fact, Conclusions of Law and Recommendation to the Director of Professional Regulation:

FINDINGS OF FACT

1. WALGREENS SPECIALTY PHARMACY LLC #15443, (hereinafter "Respondent Pharmacy #15443") is presently the holder of a license as a Licensed Pharmacy in the State of Illinois, License No. 054.017539. Said license is presently in ACTIVE status.
2. WALGREENS SPECIALTY PHARMACY LLC #12314, (hereinafter "Respondent Pharmacy #123143") is presently the holder of a license as a Licensed Pharmacy in the State of Illinois, License No. 054.017548. Said license is presently in ACTIVE status.
3. WALGREENS SPECIALTY PHARMACY LLC #15438, (hereinafter "Respondent Pharmacy #15438") is presently the holder of a license as a Licensed Pharmacy in the State of Illinois, License No. 054.017538. Said license is presently in ACTIVE status.
4. On January 11, 2019, the Department filed a Complaint against Respondent and sent notice of the Preliminary Hearing with the Complaint to Respondent on January 11, 2019, to the last known email

address of Respondent: specialtypharmacy@walgreens.com. The Preliminary Hearing was set for February 25, 2019.

5. On February 25, 2019, the Administrative Law Judge ordered that Respondent file an Answer to the Department's Complaint on or before March 18, 2019. A Status Hearing was set for March 25, 2019. A copy of the Administrative Law Judge's Order was emailed to Respondent at Respondent's last known email address of record.

6. On March 25, 2019, Respondent failed to appear. Respondent had not filed an answer to the Department's allegations. The Administrative Law Judge entered an Order of Default and transferred the matter to this Board for its deliberation on the pleadings. A copy of the Administrative Law Judge's Order was sent to the last known email address of Respondent.

7. The Board finds the allegations said Complaint to be true:

    i. Respondent Pharmacy #15443 holds a license to practice as a pharmacy in the State of Hawaii, Permit Number PMP 669.

    ii. On or about June 1, 2016, the Department received a self-report from Respondent Pharmacy #15443 stating that Respondent Pharmacy #15443 was disciplined by the Hawaii Board of Pharmacy.

    iii. On or about October 18, 2010, Respondent Pharmacy #15443 entered into a Stipulation and Final Agency Order with the Colorado State Board of Pharmacy in case number 2011-000518.

    iv. The Colorado Order disciplined Respondent Pharmacy #15443 for failing to submit the required data to the Prescription Drug Monitoring Program (PDMP) and Respondent Pharmacy #15443 also provided false information on applications.

    v. On or about October 18, 2010, the Colorado Order imposed a monetary penalty on Respondent Pharmacy #15443 in the amount of five thousand ($5,000) dollars in case number 2011-000518.

    vi. On or about April 6, 2016, Respondent Pharmacy #15443 entered into a Settlement

Agreement with the Hawaii Board of Pharmacy.

vii. Subsequently, Respondent Pharmacy #15443 was issued a two thousand ($2,000.00) dollar fine by the Hawaii Board of Pharmacy for failure to timely report discipline in another state in case number PHA 2015-90-L.

viii. This constitutes an adverse final action by another state agency, in Hawaii, against the Respondent Pharmacy #15443.

ix. On or about July 30, 2013, Respondent Pharmacy #15443 submitted a Change of Address application to the Department.

x. The 2013 application did not disclose that Respondent Pharmacy #15443 was disciplined in 2010.

xi. Respondent Pharmacy #15443 failed to disclose prior discipline on the July 30, 2013 Change of Address application.

xii. Respondent Pharmacy #12314 holds a license to practice as a pharmacy in the State of Hawaii, Permit Number PMP 547.

xiii. On or about June 1, 2016, the Department received a self-report from Respondent Pharmacy #12314 stating that Respondent Pharmacy #12314 was disciplined by the Hawaii Board of Pharmacy for failure to timely report discipline in another state.

xiv. On or about October 18, 2010, the Colorado Board of Pharmacy disciplined Respondent Pharmacy #12314 for failing to submit the required data to the Prescription Drug Monitoring Program (PDMP) and for providing false information on applications.

xv. On or about October 18, 2010, the Respondent Pharmacy #12314 entered into a Final Agency Order with the Colorado Board of Pharmacy in case number 2011-00522 and was assessed a fine in the amount of five thousand ($5,000.00) dollars.

xvi. On or about April 6, 2016, Respondent Pharmacy #12314 entered into a Settlement Agreement with the Hawaii Board of Pharmacy.

xvii. Subsequently, Respondent Pharmacy #12314 was issued a two thousand ($2,000.00) dollar

fine by the Hawaii Board of Pharmacy for failure to timely report discipline in another state in case number PHA 2015-62-L.

xviii. This constitutes an adverse final action by another state agency, in Hawaii, against the Respondent Pharmacy #12314.

xix. On or about March 2, 2011, March 4, 2014, and January 14, 2015, Respondent Pharmacy #12314 submitted Pharmacist-in-Charge applications to the Department.

xx. The 2013 application did not disclose that Respondent Pharmacy #12314 was disciplined in 2010.

xxi. Respondent Pharmacy #12314 failed to disclose prior discipline on the Pharmacist-in-Charge applications submitted to the Department in 2011, 2014, and 2015.

xxii. Respondent Pharmacy #15438 holds a license to practice as a pharmacy in the State of Hawaii, Permit Number PMP 644.

xxiii. On or about June 1, 2016, the Department received a self-report from Respondent Pharmacy #15438 stating that Respondent Pharmacy #15438 was disciplined by the Hawaii Board of Pharmacy for failure to timely report discipline in another state.

xxiv. On or about April 9, 2010, the Colorado Board of Pharmacy disciplined Respondent Pharmacy #15438 for failing to submit the required data to the Prescription Drug Monitoring Program (PDMP) in case number 2010-002889.

xxv. On or about July 14, 2010, the Colorado Board of Pharmacy disciplined Respondent Pharmacy #15438 for failing to timely submit a Change of Pharmacist-in-Charge application to the Colorado Board of Pharmacy in case number 2010-003719.

xxvi. On or about April 9, 2010, the Respondent Pharmacy #15438 entered into a Final Agency Order in case number 2010-002889 with a fine in the amount of five thousand ($5,000.00) dollars.

xxvii. On or about July 14, 2010, the Respondent Pharmacy #15438 entered into a Final Agency Order in case number 2010-003719 with a fine in the amount of one thousand ($1,000.00)

dollars.

xxviii. On or about April 6, 2016, Respondent Pharmacy #15438 entered into a Settlement Agreement with the Hawaii Board of Pharmacy.

xxix. Subsequently, Respondent Pharmacy #15438 was issued a two thousand ($2,000.00) dollar fine by the Hawaii Board of Pharmacy for failure to timely report discipline in another state in case number PHA 2015-91-L.

xxx. This constitutes an adverse final action by another state agency, in Hawaii, against the Respondent Pharmacy #15438.

xxxi. On or about September 5, 2013, Respondent Pharmacy #15438 submitted a Change of Address application to the Department.

xxxii. The 2013 application did not disclose that Respondent Pharmacy #15438 was disciplined in 2010.

xxxiii. Respondent Pharmacy #15438 failed to disclose prior discipline on the July 30, 2013 Change of Address application.

CONCLUSIONS OF LAW

1. The Illinois Board of Pharmacy of the Division of Professional Regulation of the Illinois Department of Financial and Professional Regulation has jurisdiction over the subject matter and of the parties in this case.
2. The Department has jurisdiction to investigate the complaints and to bring this action pursuant to 225 ILCS 85/1 et. seq.
3. Respondent Walgreens Specialty Pharmacy LLC is in violation of 68 Ill. Admin. Code 1330.30, 68 Ill. Admin. Code 1330.40, and 225 ILCS 85/30(a)(2), (3), (8), and (13).
4. Respondent Walgreens Specialty Pharmacy LLC's violations are grounds for discipline pursuant to 225 ILCS 85/30(a)(2), (3), (8), and (13).

RECOMMENDATION

The Illinois Board of Pharmacy of the Division of Professional Regulation of the Department of

Financial and Professional Regulation of the State of Illinois, after making the above Findings of Fact and Conclusions of Law, recommends to the Director of the Division of Professional Regulation of the Illinois Department of Financial and Professional Regulation, that the license to practice as a Licensed Pharmacy of WALGREENS SPECIALTY PHARMACY LLC, License Nos. 054.017539, 054.017548, and 054.017538 be FINED Two Thousand Dollars ($2,000.00) for each license for a total amount of Six Thousand Dollars ($6,000.00).

RE: *In the Matter of Ojas Sampat*
Case No. 22-341

Dear Ojas Sampat:

The Kansas State Board of Pharmacy has concluded its audit of continuing education for your recent renewal and determined that you are noncompliant. Please read the enclosed Summary Order in its entirety, which includes assessment of a fine and mandatory additional continuing education. This discipline will be reported to the National Association of Boards of Pharmacy and all future license verifications will reflect this discipline.

If you disagree with the findings of fact, you have the right to request a hearing. Instructions for filing a written request are included under the "Notices" section of the order. Hearings are held before the full Board during their regularly scheduled meetings.

According to KSA 65-1627h, the Board is required to recoup the costs of administrative hearings when the decision is adverse to the licensee. These costs may include charges for services rendered by the Board's disciplinary counsel, an administrative law judge, and, if applicable, a court reporter.

If you have questions, please email pharmacy.compliance@ks.gov and reference your case number.

Sincerely,

Kansas State Board of Pharmacy

enc: Summary Order

BEFORE THE KANSAS STATE BOARD OF PHARMACY

In the Matter of the Renewal Application of Ojas Sampat License No. 1-14844	)	Case No. 22-341

SUMMARY ORDER

NOW on December 19, 2022, comes before the Kansas State Board of Pharmacy through its Executive Secretary (hereinafter referred to as the "Board") the matter of the pharmacist license renewal application of Ojas Sampat (hereinafter referred to as "Respondent") to engage in the practice of pharmacy in the state of Kansas.

Pursuant to the authority granted to the Board by the Kansas Pharmacy Act, K.S.A. 65-1625, *et seq.*, and in accordance with the provisions of the Kansas Administrative Procedure Act, K.S.A. 77-501, *et seq.*, the Board enters this Summary Order in the above-captioned matter. After reviewing the renewal materials and being otherwise duly advised in the premises, the Board makes the following findings, conclusions, and order:

FINDINGS OF FACT

1. On or around 6/19/2022, Respondent submitted a pharmacist license renewal application to engage in the practice of pharmacy in the State of Kansas.

2. In the renewal application, Respondent requested to renew the license on active status.

3. At the end of the renewal application, Respondent agreed to the following statement prior to submitting the completed renewal application: "I hereby attest that I have completed all continuing education hours required by law to renew my license."

4. Respondent's renewal application was selected for an audit to provide proof of Respondent's continuing education certificates or a transcript of completion of required hours.

5. Respondent provided proof of 27.75 hours of continuing education to renew Respondent's pharmacist license.

CONCLUSIONS OF LAW

6. Pursuant to K.S.A. 65-1627(a)(9), the Board may deny, revoke, suspend, or place on probation any pharmacist license upon a finding that Respondent failed to comply with the continuing education requirements of the Board for license renewal.

7. Pursuant to K.A.R. 68-1-1b, 30 hours of continuing education shall be required for renewal of a pharmacist license during each licensure period, which must be obtained in the two-year licensure period ending on the June 30 expiration date of each license.

8. Pursuant to K.S.A. 65-1627(a)(1), the Board may deny, revoke, suspend, or place on probation any pharmacist license upon a finding that Respondent renewed or attempted to renew a license by false means, including misrepresentation.

9. Pursuant to K.S.A. 65-1658, in addition to any other penalty imposed by the Pharmacy Practice Act, the Board may assess a civil fine for a violation of K.S.A. 65-1627(a), in an amount not to exceed $5,000 for each violation.

10. Respondent was required to provide proof of completion of 30 hours of continuing education earned between July 1, 2020 and June 30, 2022.

11. By only providing proof of completion of 27.75 hours of continuing education, Respondent failed to complete the required 30 hours of continuing education for renewal of Respondent's license, in violation of K.S.A. 65-1627(a)(9).

12. Respondent falsely attested on the renewal application that Respondent had completed all continuing education hours required by law to renew Respondent's license, in violation

of K.S.A. 65-1627(a)(1). Though material, the Board makes no finding about whether Respondent's misrepresentation was intentional.

13. The role of the Board is to protect the citizens of Kansas. The Board regards the failure to comply with the continuing education requirements for licensure as a serious issue. Given the number of home-study, web-based, and live programs available, achieving the 30 hours required each biennial renewal period cannot be viewed as a burden. Without continued investment in pharmacy education, the vision of quality pharmacy providers in Kansas will not be met. In order to provide safe, effective, and high quality healthcare for Kansas patients, the practice of pharmacy requires lifelong improvement and education.

ORDER

Based on the foregoing findings of fact and conclusions of law, the Board orders the following:

For Respondent's violation of K.S.A. 65-1627(a)(1) and (9), a fine is assessed in the amount of $100 for each hour of missing or falsified continuing education, with a minimum of $500. **Respondent is ordered to pay the $500 fine by check or money order within 30 days of the date of this Order.**

Furthermore, an additional four hours of continuing education will be required for each hour of missing or falsified continuing education. **Respondent shall complete 9 hours of additional ACPE-approved continuing education and provide proof of completion to the Board within 30 days of the date of this Order**. If Respondent is not already signed up for the NABP CPE monitor (free version), Respondent shall create an NABP CPE monitor profile and shall ensure that proof of completion of these penalty hours and all future required continuing education appears in the CPE monitor. Completion of penalty hours shall not count toward Respondent's next continuing education renewal requirement.

NOTICES

Respondent is hereby notified as follows:

1. The Respondent may request a hearing pursuant to the Kansas Administrative Procedure Act by filing a written request with the Kansas Board of Pharmacy, 800 SW Jackson, Suite 1414, Topeka, KS 66612-1231 within fifteen (15) days after service of this order.

2. If a hearing is not requested as described above, the Order shall become a final order of the Board, effective upon the expiration of the time to request a hearing.

3. Within fifteen (15) days after entry of a final agency order, either party may file a petition for reconsideration pursuant to K.S.A. 77-529.

4. Within the time limits established in K.S.A. 77-613, either party may seek judicial review of a final agency order, pursuant to said statute. The agency officer designated to receive service of a petition for judicial review is:

Attorneys for the Arizona State Board of Pharmacy

2018 JUN 13 AM 11:10

BEFORE THE ARIZONA STATE BOARD OF PHARMACY

In the Matter of **JITEN SIDHU, PharmD,** Holder of License No. S020833 As a Pharmacist In the State of Arizona.	Board Case No. 17-0114 **CONSENT AGREEMENT AND ORDER FOR PROBATION AND CIVIL PENALTIES**

In the interest of a prompt and judicious settlement of this case, consistent with the public interest, statutory requirements and the responsibilities of the Arizona State Board of Pharmacy ("Board") under A.R.S. § 32-1901, *et. seq.*, Jiten Sidhu ("Respondent"), holder of Pharmacist License No. S020833 in the State of Arizona and the Board enter into the following Recitals, Findings of Fact, Conclusions of Law and Order ("Consent Agreement") as a final disposition of this matter.

RECITALS

1. Respondent has read and understands this Consent Agreement and has had the opportunity to discuss this Consent Agreement with an attorney, or has waived the opportunity to discuss this Consent Agreement with an attorney.

2. Respondent understands that he has a right to a public administrative hearing concerning this matter at which hearing he could present evidence and cross examine witnesses. By entering into this Consent Agreement, Respondent knowingly and voluntarily relinquishes all right to such an administrative hearing, as well as rights of rehearing, review, reconsideration, appeal, judicial review or any other administrative and/or judicial action, concerning the matters set forth herein.

3. Respondent affirmatively agrees that this Consent Agreement shall be irrevocable.

4. Respondent understands that this Consent Agreement or any part of the agreement may be considered in any future disciplinary action by the Board against him.

5. Respondent understands this Consent Agreement deals with Board Complaint No. 17-0114 involving allegations of unprofessional conduct against Respondent.

6. Respondent understands that this Consent Agreement does not constitute a dismissal or resolution of any other matters currently pending before the Board, if any, and does not constitute any waiver, express or implied, of the Board's statutory authority or jurisdiction regarding any other pending or future investigation, action or proceeding.

7. Respondent also understands that acceptance of this Consent Agreement does not preclude any other agency, subdivision, or officer of this State from instituting any other civil or criminal proceedings with respect to the conduct that is the subject of this Consent Agreement.

8. Respondent acknowledges and agrees that, upon signing this Consent Agreement and returning this document to the Board's Executive Director, he may not revoke his acceptance of the Consent Agreement or make any modifications to the

document. Any modification to this original document is ineffective and void unless mutually agreed by the parties in writing.

9. This Consent Agreement is subject to the approval of the Board and is effective only when accepted by the Board and signed by the Executive Director. In the event that the Board does not approve this Consent Agreement, it is withdrawn and shall be of no evidentiary value and shall not be relied upon nor introduced in any action by any party, except that the parties agree that should the Board reject this Consent Agreement and this case proceeds to hearing, Respondent shall assert no claim that the Board was prejudiced by its review and discussion of this document or any records relating thereto.

10. If a court of competent jurisdiction rules that any part of this Consent Agreement is void or otherwise unenforceable, the remainder of the Consent Agreement shall remain in full force and effect.

11. Respondent understands that this Consent Agreement is a public record that may be publicly disseminated as a formal action of the Board and may be reported as required by law to the National Practitioner Data Bank and the Healthcare Integrity and Protection Data Bank.

12. Respondent understands that any violation of this Consent Agreement constitutes unprofessional conduct and may result in disciplinary action. A.R.S. §§ 32-1901.01(B) (20) and A.R.S. § - 1927(A) (1).

13. Respondent agrees that the Board will adopt the following Findings of Fact, Conclusions of Law and Order.

ACCEPTED AND AGREED BY RESPONDENT

2018 JUN 13 AM 11:10

Dated: 6/10/2018

Jiten Sidhu
Pharmacist

FINDINGS OF FACT

1. The Board is the duly constituted authority for licensing and regulating the practice of pharmacy in the State of Arizona.

2. Respondent is the holder of license number S020833 which allows him to practice as a Pharmacist in the State of Arizona.

3. The Board possesses jurisdiction over the subject matter and over Respondent pursuant to A.R.S. § 32-1901 *et seq.*

4. At all relevant times, Respondent was employed as a Pharmacist by Banner Family Pharmacy, University Medical Center—Phoenix, 1111 E. McDowell Rd. Phoenix, AZ 85006.

5. On or about August 4, 2017, Banner Health notified the Board that Respondent resigned from Banner Health on July 27, 2017.

6. Banner Health further explained that a recent investigation revealed the Respondent was fraudulently filling prescriptions under this girlfriend's name, also a Banner Health Pharmacist, and was using the medication for his own use.

7. Respondent admitted to writing a prescription not authorized by a medical prescriber, using his girlfriend's insurance to fill the medication as his insurance would not cover the early refills and consuming the medication from the bottle while on duty.

8. The prescribing physician on the medication bottle was contacted and she denied calling in any prescription and/or any acknowledgement of the pharmacist's

actions.

9. The Board's investigation revealed that following prescriptions were written by Respondent but not authorized:

a. Gabapentin 600mg #21 filled: 6/16/17; 6/21/17; and 7/25/17; filled under the girlfriend's name (cash was paid)

b. Nabumetone 500mg #14 filled: 6/16/17 and 6/22/17 under girlfriend's name (cash was paid)

c. Nitrofurantoin Marco 100mg filled: 1/6/17; 1/20/17, 2/21/17 and 4/11/17 under Respondent's name (billed to MedImpact)

10. In a written statement to the Board, Respondent explained that he had a medical condition that caused him pain and for which he was prescribed Gabapentin and Nabumetone. Additionally, he asserted that he often forgot his medications at home and that is when he would make the unauthorized refills. Further, he stated that he wrote them under his girlfriend's name and paid cash because he was aware that his insurance provider would not authorize the early fill the prescriptions.

CONCLUSIONS OF LAW

1. The Board possesses jurisdiction over the subject matter and over Respondent pursuant to A.R.S. § 32-1901 *et seq.*

2. The Board may discipline a pharmacist who has engaged in unprofessional conduct. A.R.S. § 32-1927(A) (1).

3. The conduct and circumstances described above constitutes unprofessional conduct pursuant to A.R.S. § 32-1901.01 (B)(10), (11) and (19).

ORDER

Based upon the above Findings of Fact and Conclusions of Law,

IT IS HEREBY ORDERED THAT Pharmacist License No. S020833, which was issued to Respondent for the practice of Pharmacy in the State of Arizona, is hereby placed on **SUSPENSION** for a period of six (6) months. However, the suspension is stayed and Respondent's license shall be placed on **PROBATION** for a minimum period of five (5) years from the effective date of this Consent Agreement. The effective date of this Consent Agreement and Order is the date that it is signed by the Board's Executive Director.

The **PROBATION** is subject to the following conditions:

1. Respondent shall pay to the Board the sum of **$9,000.00** in civil penalties within **ninety (90) days** from the effective date of this Consent Agreement and Order.

2. Respondent shall furnish all pharmacy employers/preceptors with a copy of this Board Order throughout the term of his probation. Respondent shall ensure that all pharmacy employers/preceptors submit to the Board a written acknowledgement that they have received a copy of this Consent Agreement within ten (10) days of entering into an employment relationship with Respondent.

3. Respondent shall advise the Board immediately of any change in pharmacy employment status throughout the term of his probation.

4. Throughout the term of Respondent's probation, Respondent shall not serve as a pharmacist in charge or preceptor at any place of employment.

5. Respondent shall furnish the Board with a list of all jurisdictions in which he maintains or has maintained licensure in the profession of pharmacy along with the registration numbers of said licenses.

6. Respondent shall obey all federal and state laws and rules governing the practice of pharmacy.

7. Throughout the term of Respondent's probation, Respondent shall personally appear before the Board when requested to do so by the Board or Board staff.

8. If Respondent violates this order in any way or fails to fulfill the requirements of this order, the Board, after giving the Respondent notice and the opportunity to be heard, may revoke, suspend or take other disciplinary actions against the Respondent's license. The issue at such a hearing will be limited solely to whether this order has been violated.

9. Respondent shall appear before the Board at a regularly scheduled Board meeting five years after the effective date of this Order to request that the probation imposed by this Order be terminated. Respondent's failure to petition the Board to terminate the probation shall extend the probation period.

DATED this 13 day of June, 2018.

3. Respondent affirmatively agrees that this Consent Agreement shall be irrevocable.

4. Respondent understands that this Consent Agreement or any part of the agreement may be considered in any future disciplinary action by the Board against her.

5. Respondent understands this Consent Agreement deals with Board Complaint No. 17-0115 involving allegations of unprofessional conduct against Respondent.

6. Respondent understands that this Consent Agreement does not constitute a dismissal or resolution of any other matters currently pending before the Board, if any, and does not constitute any waiver, express or implied, of the Board's statutory authority or jurisdiction regarding any other pending or future investigation, action or proceeding.

7. Respondent also understands that acceptance of this Consent Agreement does not preclude any other agency, subdivision, or officer of this State from instituting any other civil or criminal proceedings with respect to the conduct that is the subject of this Consent Agreement.

8. Respondent acknowledges and agrees that, upon signing this Consent Agreement and returning this document to the Board's Executive Director, she may not revoke her acceptance of the Consent Agreement or make any modifications to the

document. Any modification to this original document is ineffective and void unless mutually agreed by the parties in writing.

9. This Consent Agreement is subject to the approval of the Board and is effective only when accepted by the Board and signed by the Executive Director. In the event that the Board does not approve this Consent Agreement, it is withdrawn and shall be of no evidentiary value and shall not be relied upon nor introduced in any action by any party, except that the parties agree that should the Board reject this Consent Agreement and this case proceeds to hearing, Respondent shall assert no claim that the Board was prejudiced by its review and discussion of this document or any records relating thereto.

10. If a court of competent jurisdiction rules that any part of this Consent Agreement is void or otherwise unenforceable, the remainder of the Consent Agreement shall remain in full force and effect.

11. Respondent understands that this Consent Agreement is a public record that may be publicly disseminated as a formal action of the Board and may be reported as required by law to the National Practitioner Data Bank and the Healthcare Integrity and Protection Data Bank.

12. Respondent understands that any violation of this Consent Agreement constitutes unprofessional conduct and may result in disciplinary action. A.R.S. §§ 32-1901.01(B) (20) and A.R.S. § - 1927(A) (1).

13. Respondent agrees that the Board will adopt the following Findings of Fact, Conclusions of Law and Order.

ACCEPTED AND AGREED BY RESPONDENT

2018 JUN 13 AM 11:10

Dated: June 10, 2018

Linda Trinh
Pharmacist

FINDINGS OF FACT

1. The Board is the duly constituted authority for licensing and regulating the practice of pharmacy in the State of Arizona.

2. Respondent is the holder of license number S020176 which allows her to practice as a Pharmacist in the State of Arizona.

3. The Board possesses jurisdiction over the subject matter and over Respondent pursuant to A.R.S. § 32-1901 *et seq.*

4. At all relevant times, Respondent was employed as a Pharmacist by Banner Heart Hospital located at 6750 E. Baywood Ave, Mesa, AZ 85206.

5. On or about August 4, 2017, Banner Health notified the Board that Respondent was terminated by Banner Health on July 31, 2017.

6. Banner Health further explained that a recent investigation revealed the Respondent's boyfriend, Jiten Sidhu, also a pharmacist employed by Banner Health was fraudulently filling prescriptions under Respondent's name, and was using the medication for his own use. Respondent admits being aware of her Mr. Sidhu's actions.

7. Mr. Sidhu admits to writing prescriptions not authorized by a medical prescriber, using Respondent's insurance to fill the medication as his insurance would not cover the early refills and consuming the medication from the bottle while on duty.

8. The prescribing physician on the medication bottle was contacted and she denied calling in any prescription and/or any acknowledgement of Mr. Sidhu's actions.

9. The Board's investigation revealed that following prescriptions were written by Mr. Sidhu but not authorized:

a. Gabapentin 600mg #21 filled: 6/16/17; 6/21/17; and 7/25/17; filled under Respondent's name (cash was paid)

b. Nabumetone 500mg #14 filled: 6/16/17 and 6/22/17 under Respondent's name (cash was paid)

c. Nitrofurantoin Marco 100mg filled: 1/6/17; 1/20/17, 2/21/17 and 4/11/17 filled under Respondent's name (billed to MedImpact)

10. In a written statement to the Board, Respondent explained that Mr. Sidhu suffered from a condition that caused pain and that on certain days he forgot his medications at home. Respondent further explained that on those days Mr. Sidhu forget his medications at home, he would text her and ask if he could fill prescriptions under her name as he was unable to leave work and get his medications from home. Respondent approved him doing so. Respondent also approved Mr. Sidhu to bill the prescriptions under her insurance as she was aware the prescriptions would be denied under Mr. Sidhu's insurance because of an early refill. Finally, Respondent states she regrets her involvement in this matter.

CONCLUSIONS OF LAW

1. The Board possesses jurisdiction over the subject matter and over Respondent pursuant to A.R.S. § 32-1901 *et seq.*

2. The Board may discipline a pharmacist who has engaged in unprofessional conduct. A.R.S. § 32-1927(A) (1).

3. The conduct and circumstances described above constitutes unprofessional conduct pursuant to A.R.S. § 32-1901.01 (B)(13) and (19).

ORDER

Based upon the above Findings of Fact and Conclusions of Law,

IT IS HEREBY ORDERED THAT Pharmacist License No. S020176, which was issued to Respondent for the practice of Pharmacy in the State of Arizona, is hereby placed on **SUSPENSION** for a period of six (6) months. However, the suspension is stayed and Respondent's license shall be placed on **PROBATION** for a minimum period of five (5) years from the effective date of this Consent Agreement. The effective date of this Consent Agreement and Order is the date that it is signed by the Board's Executive Director

The **PROBATION** is subject to the following conditions:

1. Respondent shall pay to the Board the sum of **$9,000.00** in civil penalties within **ninety (90) days** from the effective date of this Consent Agreement and Order.

2. Respondent shall furnish all pharmacy employers/preceptors with a copy of this Board Order throughout the term of his probation. Respondent shall ensure that all pharmacy employers/preceptors submit to the Board a written acknowledgement that they have received a copy of this Consent Agreement within ten (10) days of entering into an employment relationship with Respondent.

3. Respondent shall advise the Board immediately of any change in pharmacy employment status throughout the term of his probation.

4. Throughout the term of Respondent's probation, Respondent shall not serve as a pharmacist in charge or preceptor at any place of employment.

5. Respondent shall furnish the Board with a list of all jurisdictions in which he maintains or has maintained licensure in the profession of pharmacy along with the registration numbers of said licenses.

6. Respondent shall obey all federal and state laws and rules governing the practice of pharmacy.

7. Throughout the term of Respondent's probation, Respondent shall personally appear before the Board when requested to do so by the Board or Board staff.

8. If Respondent violates this order in any way or fails to fulfill the requirements of this order, the Board, after giving the Respondent notice and the opportunity to be heard, may revoke, suspend or take other disciplinary actions against the Respondent's license. The issue at such a hearing will be limited solely to whether this order has been violated.

9. Respondent shall appear before the Board at a regularly scheduled Board meeting five years after the effective date of this Order to request that the probation imposed by this Order be terminated. Respondent's failure to petition the Board to terminate the probation shall extend the probation period.

Section 9: Statement of Responsibility - MUST BE COMPLETED by an Authorized Person (NAC 639.945)

Statement of Responsibility

1. I am the Devin Meier (title) for Hillcrest Pharmacy, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacy located inside the State of Nevada employ only pharmacists, intern pharmacists, pharmaceutical technicians, and technicians in training that are licensed by the Nevada State Board of Pharmacy. (NRS 639.100).
6. I further understand and acknowledge that Nevada law requires that each pharmacy located outside the State of Nevada engaged in providing pharmacy services into Nevada employs at least one pharmacist licensed by the Nevada State Board of Pharmacy who will be responsible for any prescription dispensed to a patient located in Nevada and responsible for any acts or omissions of pharmacy personnel who are not registered with the Board. (NRS 639.2328).

8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✔
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✔
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✔

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✔
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✔
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✔
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✔
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✔
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✔
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✔
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✔
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✔

Sterile Compounding Questionnaire

Rev (09/11/2024)

This application cannot be returned by fax or email.
We must have an original signature to process.

Approval of this completed questionnaire is required for an existing pharmacy, new pharmacy and/or out-sourcing facility applicant who wish to engage in preparing, compounding, dispensing, and furnishing sterile compounded products to Nevada patients or consumers.

Please provide a thorough response to the questions below and provide any necessary supporting documents.
-For a new pharmacy or out-sourcing facility applicant, submit this completed form with your application.
-For an existing pharmacy, send the completed form to the address indicated above.

Section 1: General Information

Pharmacy Name: Hillcrest Pharmacy, LLC

NV Pharmacy or Outsourcing facility license # (if applicable): PH03919

Physical Address: 781 E Fort Union Blvd

City: Midvale State: UT Zip: 84047

Mailing Address (if different from physical address): N/A

City: N/A State: N/A Zip: N/A

Telephone: 385-900-1400 Toll Free # (NAC 639.708, NRS 639.23286): 1-855-499-2556

Fax: 385-900-1990 Contact Email: hillcrestpharmacy17@gmail.com

Website: hillcrestpharmacysaves.com

Nevada Business License # (if applicable) N/A

Supervising/Managing Pharmacist Name (NRS 639.220): Jeffrey Ryan Abeyta

Supervising/Managing Pharmacist NV Pharmacist Registration #: 21856

Name of Designated Person(s) as defined by revised USP-797 guidelines: Michael Stucki

Email of Designated Person(s): michaelj@hillcrestpharmacyutah.com

Telephone of Designated Person(s): 801-494-3627

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)?

☐ Category 1 ■ Category 2 ☐ Category 3

If you marked "**Category 3**", you must also complete **section 4.**

2. If compounding Category 2 products is the location performing sterility and endotoxin testing (if required) to obtain extended beyond-use dates? ■ Yes ☐ No

3. If compounding Category 2 products is the location performing aseptically processed CSPs or terminally sterilized CSPs? ■ Aseptic ☐ Terminal

4. Is the pharmacy following the new garbing requirements listed in the revised USP-797 guidelines? ■ Yes ☐ No

5. When was the most recent certification for the ISO classified areas? 6/10/2025

6. What is the frequency of the recertification for the ISO classified areas? Every 6 months at minimum

7. Were there any follow-up items required from the most recent certification report? ☐ Yes ■ No

8. If preparing Category 2 or Category 3 CSPs from non-sterile starting components are the pre-sterilization procedures such as weighing and mixing completed in an ISO Class 8 or better environment? ■ Yes ☐ No

9. If compounding Category 1 CSPs and Category 2 CSPs how often is surface sampling of all classified areas and pass-through chambers conducted? Monthly, not to exceed 30 day intervals

10. Will you be performing sterile hazardous drug compounding? Yes ■ No

If you marked "Yes", you must also complete **section 3.**

11. List the sterile compounded products that you will be compounding for Nevada patients or consumers:
- GLP-1s (Semaglutide, Tirzepatide) with 5mg/mL glycine
- Amino Acids (Glycine, Carnitine, N-AC, Glutathione, etc.)
- Vitamins (Primarily B-complex vitamins)
- NAD+

12. What laboratory performs your sterility or endotoxin testing?

Name: Eagle Analytical

Address: 11111 S. Wilcrest Dr.

City: Houston State: TX Zip: 77099

Telephone: 800-745-8916

13. What is your procedure for visual inspection of compounded sterile products?
SOP: HC-STRL-P4.2.1.0 Process-Performing-Visual Inspections-v2.2.0
-6 pages outlining what to look for and document for visual inspections of CSPs
- Includes: Particulate, precipitates, transparency, color, container components and integrity, labeling, and many more descriptions of expected or unexpected CSP attributes throughout all steps of compounding, CR log and CSP release to fill, and repetitive visuals by 2 or more trained personnel throughout post-compounding Rx fill process for final dispensing.
- UV blacklight, white/black contrast backgrounds, and magnifiers available and utilized if needed, and photos typically rendered.

14. How often do you perform glove fingertip and medial fill testing?
Every 6 months at a minimum

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:
SOP: HC--STRL-P1.1.2.0 Personnel-Managing-Professional Development-v2.2.0
-Outlines thorough "theoretical and practical" competencies required prior to compounding
-Utilizing TRC Healthcare Critical Point, FDA's center for compounding excellence, etc. the frequencies and checklists for personnel training are tracked using Google Workspace's tasks and calendars
- Internal standards, especially in math and cleaning/microbiology are more rigorous than USP 797 standards, and aside from continual training with every SOP, training frequencies are planned on yearly, every 6 months, and monthly schedules to ensure training is proactive and a priority

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:
PEC: Daily Preparation: Remove all items from the PEC surface. Clean/disinfect with sterile PeridoxRTU (at minimum weekly) or sterile TB1-3300 using sterile, low-lint wipes with unidirectional, overlapping strokes to ensure complete coverage. Finish with sterile 70% isopropyl alcohol (IPA) ensuring dwell times are reached for each agent. Sterile 70% IPA also used every 30 minutes, at the end of each batch, etc.
Secondary engineering controls: Daily use of TB1-3300 on all work surfaces, high contact items and areas, carts, floors, and sink. PreEmpt RTU sometimes substituted for daily use on floors. IPA 70% frequently used to aid removal of residue of sporicidal agents.
Monthly deep clean using sterile Periodox RTU on all surfaces, then also sterile IPA 70%
-Synexis continuous aerosolized dry hydrogen peroxide systems also used in both buffer and ante rooms.
- Peridox RTU required for all items staged into cleanroom, followed by IPA 70% prior to placement in any by-pass or staging cart

17. Who performs the sterile compounding process at your facility?

Currently, only Michael Stucki, PharmD

18. Who is responsible and accountable for the sterile compounding process at your facility?
Michael Stucki, PharmD and Designated Person (Sterile)

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?
Using only Fedex (vetted times and temperature conditions), CSPs are packaged with 2+ packaging systems to ensure all components remain intact, in controlled temperatures (studies performed to southern AZ, etc with temperature trackers), and communication/tracking numbers ensure patients are promptly notified and instructed on storage

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility?		
2. Are you complying with all USP 800 guidelines?	Yes	No
3. Have your employees who compound with hazardous drugs signed an acknowledgement that they understand the risks associated with this process?	Yes	No
4. Is your BSC or CACI vented 100% to the outside?	Yes	No
5. Do you have a negative pressure buffer room at your facility?	Yes	No
6. Will you be compounding with antineoplastic HDs or HD API?	Yes	No
7. If yes, are the drugs stored in an externally ventilated, negative pressure room?	Yes	No
8. Will you be utilizing a closed system transfer device?	Yes	No
9. If yes, list the name of the device:		

10. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?

11. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?

Section 4: Sterile Category 3 Compounding Questions (Complete this section ONLY if you will be performing Category 3 Compounding.)

1. List the specific Category 3 sterile products that your facility compounds:

2. What is the frequency for ongoing garbing, gloved fingertip and thumb sampling, and media fill testing for compounding personnel?

3. Is the pharmacy meeting all of the additional garbing requirements for compounding Category 3 CSPs as defined by the revised USP-797 guidelines? Yes No

4. What is the frequency for completing volumetric active air sampling?

5. What is the frequency for completing surface sampling?		
6. What is the frequency for using sporicidal agents?		
7. Is an endotoxin test performed for all products compounded from one or more nonsterile component?	Yes	No
8. Is the BUD assigned supported by stability data obtained using a stability-indicating analytical method?	Yes	No

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire form and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event the form is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

INSPECTION

	YES	NO	
1	☑	☐	The facility shall maintain a current list of licensed employees involved in the practice of the pharmacy at the facility. The list shall include individual licensee names, license classifications, license numbers, and license expiration dates. The list shall be readily retrievable. The list may be maintained in paper or electronic form. [UAC R156-17b-614a (5)(a)(i-vi)(b)]
2	☑	☐	Notification has been provided to the Division in regards to the unique email address used for self audits or pharmacy alerts. The pharmacy will use a single email address and notify the Division of any change in the email address within seven days of the change. [UAC R156-17b-603 (2) and (3) (t) (i-ii)]
3	☑	☐	Notification has been provided to the Division in regards to the assignment of the PIC at the above stated pharmacy. The Division is notified of a change in PIC within 30 days of the change. [UAC R156-17b-603 (3) (s)]
4	☐	☐	If the facility has a pharmacy technician training program, the program and curriculum of education and training, meets standards established by Division rule made in collaboration with the Board. [UAC R156-17b-303a (3)] ☑ N/A
5	☑	☐	A pharmacy technician trainee shall practice only under the direct supervision of a pharmacist, and in a ratio not to exceed one pharmacy technician trainee to one pharmacist or two pharmacy technician trainees to one pharmacist, if a licensed pharmacy technician or intern is working during the same shift. [UAC R156-17b-601(4)(a)(i-ii)]
6	☑	☐	A licensed pharmacy technician shall practice under the general supervision of a licensed pharmacist. [UCA 58-17b-102 (57)]
7	☐	☐	A pharmacy technician may administer vaccines and emergency medications pursuant to delegation by a pharmacist... And is under "direct", on-site supervision by the delegating pharmacist as defined in R156-1-102a(4)(a); [UAC R156-17b-601 (3)(b)] ☑ N/A
8	☑	☐	The operating standards for a Pharmacist acting as a preceptor includes meeting the following criteria by providing direct, on-site supervision to no more than two pharmacy interns during a working shift. [UAC R156-17b-606(2)(a)(3)(a)]
9	☑	☐	In accordance with Subsection 58-17b-102(72)(b), supportive personnel shall be supervised by a licensed pharmacist or DMP. The licensed pharmacist or DMP shall be present in the area where the person being supervised is performing services and shall be immediately available to assist the person being supervised in the services being performed expect for the delivery of pre-filled prescriptions as provided in Subsection (1)(g) above. [UAC R156-17b-607 (3)] ☐ N/A
10	☑	☐	In accordance with Subsection 58-17b-102(72)(a), supportive personnel may assist in any tasks not related to drug preparation or processing, including: [UAC R156-17b-607 (1)(a-g)] ☐ N/A

☐ stock ordering and restocking;

☑ cashiering;

☐ billing;

☐ filing;
☐ receiving a written prescription and delivering it to the pharmacist, pharmacy intern, pharmacy technician, pharmacy technician trainee, DMP, or DMP designee;
☐ housekeeping;
☑ delivering a pre-filled prescription to a patient.

11 ☑ ☐ The pharmacist-in-charge (PIC) is responsible for ensuring that no pharmacy operates with a ratio of pharmacist or DMP to other pharmacy personnel in circumstances that result in, or reasonably would be expected to result in, an unreasonable risk of harm to public health, safety, and welfare; [UAC R156-17b-603 (3) (r)]

12 ☑ ☐ All individuals employed in a pharmacy facility having any contact with the public or patients receiving services from that pharmacy facility does wear on their person a clearly visible and readable identification showing the individual's name and position. [UCA 58-17b-603 (1)]

13 ☐ ☑ The facility conducts a pharmacy self-audit on a form provided by the Division, in accordance with the the following time frames: within 30 days of a change of consulting pharmacist, PIC, DMPIC, or RDPIC; within 30 days of the opening of a new facility; and at least 90 days before the end of each license renewal cycle. The facility maintains each pharmacy self-audit form for two years from the date of the self-audit. [UCA R156-17b-603 (3)(u)(i-iv)]

Date of last self inspection:_____

14 ☑ ☐ The facility or parent company shall maintain a record for at least five years of the initials or identification codes that identify each dispensing pharmacist or DMP by name. The initials or identification code shall be unique to ensure that each pharmacist or DMP can be identified; therefore identical initials or identification codes may not be used. [UAC R156-17b-614a (8)]

15 ☑ ☐ The facility does have current and retrievable editions of the following reference publications in print or electronic format and readily available and retrievable by facility personnel:
[UAC R156-17b-614a (4) (a-k)]

- ☑ UCA 58-1 (DOPL Licensing Act)
- ☑ UCA 58-17b (Pharmacy Practice Act)
- ☑ UCA 58-37 (Controlled Substance Act)
- ☑ UCA 58-37f (Controlled Substance Database Act)
- ☑ Code of Federal Regulations Title 21 parts 1300 to end
- ☑ General Drug References
- ☑ UAC R156-1 (General Rules of DOPL)
- ☑ UAC R156-17b (Pharmacy Practice Act Rules)
- ☑ UAC R156-37 (Controlled Substance Act Rules)
- ☑ UAC R156-37f (Controlled Substance Database Act Rule)
- ☑ FDA Approved Drug Product (Orange Book)

16 ☑ ☐ The facility is well lighted, ventilated, clean and sanitary. [UAC R156-17b-614a (1) (a)]

17 ☑ ☐ If transferring a drug from a manufacturer's or distributor's original container to another container, the dispensing area, shall have a sink with hot and cold culinary water separate and apart from restroom facilities. All required equipment shall be clean and in good operating condition. [UAC R156-17b-614a (1) (b)] ☐ N/A

18 ☑ ☐ The facility is equipped to permit the orderly storage of prescription drugs and durable medical equipment in a manner to permit clear identification, separation and easy retrieval of products and an environment necessary to maintain the integrity of the product inventory. [UAC R156-17b-614a (1) (d)]

19 ☑ ☐ The facility is equipped to permit practice within the standards and ethics of the profession as dictated by the usual and ordinary scope of practice to be conducted within that facility. [UAC R156-17b-614a (1) (e)]

20 ☑ ☐ All out of date legend drugs and controlled substances shall be removed from the inventory at regular intervals and in correlation to the beyond use date imprinted on the label.
[UAC R156-17b-605(1)]

21 ☑ ☐ The facility is stocked with the quality and quantity of product necessary for the facility to meet its scope of practice in a manner consistent with the public safety. [UAC R156-17b-614a (1) (f)]

22 ☐ ☐ If dispensing controlled substances, the facility is equipped with a security system to permit detection of entry at all times when the facility is closed, and provide notice of unauthorized entry to an individual, and be equipped with a lock where drugs are stored and be securely locked when the pharmacy department is closed. [UAC R156-17b-614a (1)(g)(i-ii)(h)(i-ii)]
N/A ☑

23 ☑ ☐ If the pharmacy does not store drugs in a locked cabinet and has a drop/false ceiling, the pharmacy's perimeter walls shall extend to the hard deck, or other measures shall be taken to prevent unauthorized entry into the pharmacy. [UAC R156-17b-614a (15)]
N/A ☐

24 ☑ ☐ Only a licensed Utah pharmacist or authorized pharmacy personnel does have access to the pharmacy when the pharmacy is closed. [UAC R156-17b-614a (7)]

25 ☑ ☐ A pharmacy shall not dispense a prescription drug or device to a patient unless a pharmacist is physically present and immediately available in the facility. [UAC R156- 17b-614a (6)]

26 ☑ ☐ The temperature of the pharmacy is maintained within a range compatible with the proper storage of the drugs. [UAC R156-17b-614a (3)]

27 ☑ ☐ The temperature of the refrigerator and freezer is maintained within a range compatible with the proper storage of drugs requiring refrigeration or freezing. The pharmacy shall keep a daily written or electronic log of the temperature of the refrigerator or freezer on days of operation. The pharmacy shall retain the log for three years. [UAC R156-17b-614a (3)]
N/A ☐

28 ☑ ☐ For the purpose of promoting therapeutic appropriateness, a pharmacist shall at the time of dispensing a prescription, or a prescription drug order, review the patient's medication record. Such review shall at a minimum identify clinically significant conditions, situations or items, such as: [UAC R156-17b-611 (2) (a-g)]

- ☑ Inappropriate drug utilization
- ☑ Drug-disease contraindications
- ☑ Incorrect drug dosage
- ☑ Drug-allergy interactions
- ☑ Therapeutic duplications
- ☑ Drug-drug interactions
- ☑ Incorrect duration of drug treatment
- ☑ Clinical abuse or misuse

29 ☑ ☐ Facility does have a counseling area to allow for confidential patient counseling. [UAC R156-17b-614a (1)(i)]

30 ☑ ☐ Every pharmacy shall verbally offer to counsel a patient or a patient's agent in a personal face-to-face discussion regarding each prescription drug dispensed. If the patient or patient's agent delivers the prescription in person to the pharmacist or pharmacy intern; or receives the drug in person at the time it is dispensed at the facility. [UCA 58-17b-613 (1)]

31 ☑ ☐ A pharmacist or pharmacy intern that receives a prescription from a patient by means other than personal delivery, and that dispenses prescribed drugs to the patient by means other than personal delivery shall provide the patient with a telephone number by which the patient can contact the pharmacist or pharmacy intern at the pharmacy for counseling regarding the prescribed drug. [UCA 58-17b-613(2)]
N/A ☐

32 ☑ ☐ if a prescription drug order is delivered to the patient or the patient's agent at the patient's or other designated location, the following is applicable: [UCA R156-17b-610(6)(a-c)]
N/A ☐

- ☑ the pharmacy shall provide the information specified in R156-17b-610(3) be delivered with the dispensed prescription in writing.

☑ if prescriptions are routinely delivered outside the area covered by the pharmacy's local telephone service, the pharmacist shall place on the prescription container or on a separate sheet delivered with the prescription container, the telephone number of the pharmacy and the statement "Written information about this prescription has been provided for you. Please read this information before you take this medication. If you have questions concerning this prescription, a pharmacist is available during normal business hours to answer these questions."

☑ written information provided in Subsection (b) of this section shall be in the form of patient information leaflets similar to USP-NF patient information monographs or equivalent information.

33 ☑ ☐ The offer to counsel is documented and said documentation shall be available to the Division. These records must be maintained for a period of five years and be available for inspection within 7-10 business days. [UAC R156-17b-610 (4)]

34 ☑ ☐ A pharmacy may only deliver a prescription drug to a patient or patient's agent in person at the pharmacy or via the United States Postal Service, a licensed common carrier, or supportive personnel, if the pharmacy takes reasonable precautions to ensure the prescription drug is delivered to the patient or patient's agent or returned to the pharmacy. [UCA 58-17b-602(9)(a)(b)(i-ii)]

N/A ☐

35 ☑ ☐ A pharmacy that employs the United States Postal Service or other common carrier to deliver a filled prescription to a patient shall: [UAC R156-17b-608(1)(a-e)(2)(a-c)]

N/A ☐

☑ Use adequate storage or shipping containers and shipping processes to ensure drug stability and potency. The shipping processes shall include the use of appropriate packing material and devices, according to the recommendations of the manufacturer or the United States Pharmacopeia Chapter 1079, in order to ensure that the drug is kept at appropriate storage temperatures throughout the delivery process to maintain the integrity of the medication.

☑ Use shipping containers that are sealed in a manner to detect evidence of opening or tampering.

☑ have policies and procedures to ensure accountability, safe delivery, and compliance with temperature requirements, including when drugs do not arrive on time or there is evidence that the integrity of a drug was compromised and providing for the replacement of those drugs.

☑ Provide for an electronic, telephonic, or written communication mechanism for a pharmacy to offer counseling to the patient in accordance with sections 58-17b-613 and R156-17b-610; and provide documentation of such counseling.

☑ Provide information to the patient indicating what the patient should do if the integrity of the package or drug was compromised during shipment.

36 ☑ ☐ Each drug dispensed from the pharmacy does have a label securely affixed to the container indicating the required minimum information, including: [UCA 58-17b-602 (5) (a) (i-viii)]

- ☑ name, address, & phone number of pharmacy
- ☑ filling date or last dispensing date
- ☑ name of the prescriber
- ☑ trade, generic or chemical name

(Unless Otherwise Indicated by Prescriber)

- ☑ serial number of prescription
- ☑ name of the patient or animal owner/species
- ☑ directions for use & cautionary statements
- ☑ amount dispensed & strength of dosage form
- ☑ beyond use date

37 ☑ ☐ Unless otherwise requested, child-resistant containers are used for dispensing medications to patients. [16 CFR 1700.15]

38 ☑ ☐ Controlled substances are not accepted back for destruction unless allowed for by state and federal law. [UAC R156-37-606 (1-2) & 21 CFR 1307.22]

39 ☐ ☐ The registered pharmacy only processes electronically signed prescriptions for controlled substances under the following conditions: the pharmacy uses a pharmacy application that
N/A ☑ meets all the applicable requirements; the prescription is otherwise in conformity with the requirements of the Code of Federal Regulations; and Certification Authority (CA) has been obtained. The electronic prescription must be transmitted from the practitioner to the pharmacy in its electronic form and at no time may the prescription be converted to another form *(i.e. facsimile)* for transmission. [UAC R156-17b-613(1) & 21 CFR 1311]

40 ☑ ☐ Prescription files, including refill information, is maintained for a minimum of five years and should be immediately retrievable in written or electronic format. [UAC R156-17b-612 (4)]

41 ☑ ☐ Prescription records may be maintained electronically so long as the original of each prescription, including telephone prescriptions, is maintained in a physical file and contains all of the information required by federal and state law; and an automated data processing system is used for the storage and immediate retrieval of refill information for prescription orders. [UAC R156-37-602 (4) (a-b)]

42 ☐ ☐ All records relating to Schedule II controlled substances received, purchased, administered or dispensed by the practitioner shall be maintained separately from all other records of the
N/A ☑ pharmacy or practice. Records shall be maintained by the licensee for a period of five years. [UAC R156-37-602(3) (5)]

43 ☐ ☐ All records relating to Schedule III, IV, V controlled substances received, purchased, administered or dispensed by the practitioner shall be maintained separately from all other
N/A ☑ records of the pharmacy or practice. Records shall be maintained by the licensee for a period of five years. [UAC R156-37-602(3) (6)]

44 ☑ ☐ Requirement for annual controlled substances inventory shall be within 12 months following the inventory date of each year and may be taken within four days of the specified inventory date
N/A ☐ and shall include all stocks including out-of-date drugs and drugs in automated pharmacy systems. [UAC R156-17b-605 (4)]

45 ☐ ☐ Requirements for taking the initial controlled substances inventory shall include the following: pharmacies having stock of controlled substances shall take an inventory, including out-of-date
N/A ☑ drugs and drugs in automated pharmacy systems, on the opening day of business; if a pharmacy commences business with no Schedule I or II controlled substances, the pharmacy shall record this fact as the initial inventory and shall document Schedule I and II controlled substance inventory separately from an inventory reporting no Schedule III, IV, and V controlled substances; the initial inventory shall serve as the pharmacy's inventory until the next completed inventory as specified in Subsection (4) of this section. [UAC R156-17b-605 (3) (a-c)]

46 ☑ ☐ General Requirements for inventory of a pharmacy shall include: [UAC R156-17b-605 (2)(a)(b)(c)(f)(g) (h)(k)(l)]
N/A ☐

- ☑ the PIC shall be responsible for taking all required inventories, but may delegate the performance of the inventory to another person or persons;
- ☑ the inventory records shall be maintained for a period of five years and be readily available for inspection
- ☑ the inventory records shall be filed separately from all other records
- ☑ the inventory may be taken either as the opening of the business or the close of business on the inventory date;
- ☑ the person taking the inventory and the PIC shall indicate the time the inventory was taken and shall sign and date the inventory with the date the inventory was taken. The signature of the PIC and the date of the inventory shall be documented within 72 hours or three working days of the completed initial, annual, change of ownership and closing inventory.

☑ the inventory of Schedule I and II controlled substances shall be listed separately from the inventory of Schedule III, IV and V controlled substances;

☑ if the pharmacy maintains a perpetual inventory of any of the drugs required to be inventories, the perpetual inventory shall be reconciled on the date of the inventory.

47 ☐ ☐ N/A ☑ All pharmacies shall maintain a perpetual inventory of all Schedule II controlled substances that shall be reconciled according to facility policy. [UAC R156-17b-605(6)]

48 ☐ ☐ N/A ☑ The pharmacy does reconcile its controlled substance inventory to account for shortages of controlled substances. [UAC R156-17b-603 (3) (j) & R156-37-502(4)]

49 ☑ ☐ Any facility who experiences any theft, including diversion, or significant loss of controlled substances shall immediately file the appropriate forms with the Drug Enforcement Administration, with a copy to the Division directed to the attention of the Investigation Bureau Division; and report the incident to the local law enforcement agency. [UAC R156-37-602 (2)]

50 ☐ ☐ N/A ☑ Pharmacists or other responsible individuals do verify that the suppliers' invoices of controlled substances, listed on the invoices were actually received by clearly recording their initials and the actual date of receipt of the controlled substances. [UAC R156-17b-614a (11)]

51 ☐ ☐ N/A ☑ The facility shall maintain a record of suppliers' credit memos for controlled substances [UAC R156-17b-614a (12)]

52 ☐ ☐ N/A ☑ The facility does maintain a copy 3 of DEA order form (form 222) which has been properly dated, initialed, and filed and all copies of each unaccepted or defective order form and any attached statements or other documents. [UAC R156-17b-614a(9)]

53 ☐ ☐ N/A ☑ The Division shall implement on a statewide basis, including non-resident pharmacies as defined in Section 58-17b-102, the following two options for a pharmacist to submit information: real-time submission of the information required to be submitted under this part of the controlled substance database; and 24-hour daily or next business day, whichever is later, batch submission of the information required to be submitted under this part to the controlled substance database. [UCA 58-37f-203(1)(a)(i,ii)]

54 ☐ ☐ N/A ☑ In accordance with 58-37f-203(6), the pharmacist-in-charge and the pharmacist identified in Subsections 58-37f-203(2) and (3) shall provide the following data fields to the Division: the state that issued identification, type of identification used, identification number used and first and last name of individual picking up dispensed drug. [UCA R156-37f-203 (4) (bb-ff)]

55 ☐ ☑ The pharmacy maintains emergency kits in nursing homes, long-term care facilities, or other entities (such as hospice, EMT's, ambulances)? If the answer is "yes", note name(s) of facilities or entities.

56 ☐ ☑ The pharmacy maintains automated prescription dispensing devices outside the pharmacy such as Pyxis in a nursing home? If the answer is "yes", note type and location.

57 ☑ ☐ The pharmacy utilizes an Automated Pharmacy System? If the answer is "yes" to this question, a automation questionnaire must be completed. [UAC R156-17b-620]

58 ☑ ☐ The facility is engaged in hazardous drug compounding as defined by USP-NF Chapter 800. If you answer "yes" to this question, a compounding questionnaire must be completed.

59 ☑ ☐ The facility is engaged in compounding activities as defined by USP 35 Chapter 795. If you answer "yes" to this question, a compounding questionnaire must be completed. [(UAC R156-17b-614a (2)]

60 ☑ ☐ The facility is engaged in *sterile* compounding as defined by USP 35 Chapter 797. If you answer "yes" to this question, a compounding questionnaire must be completed. [UAC R156-17b-614a (2)]

COMMENTS

Assisted by Pharmacist/Part Owner Devin Meier and Pharmacy Technician/Owner Justin Meier.

A current list of licensed employees was available for inspection.

The pharmacy does not administer vaccinations.

Personnel ratios were compliant on the day of inspection.

The pharmacy utilizes support personnel for cashiering and delivery services.

Personnel having contact with the public are wearing identification.

The pharmacy did not conduct a self-inspection 90 days prior to the 2023 renewal cycle. This was not noted during the last inspection conducted 5/2024. The pharmacy plans to conduct the self-inspection for the 2025 renewal cycle in the next couple of days.

Temperature logs are kept digitally. Temperature monitoring is done using Mocreo. PIC and Pharmacist Michael Stucki are notified of temperature excursions.

Four unidentifiable medications were found in the pharmacy stock. No out-of-date medications were found in the pharmacy stock.

The pharmacy mails and delivers prescription medications. Requirements for mailing and delivery are compliant.

The pharmacy holds a controlled substance license but does not carry/dispense controlled substances.

Prescription labels are compliant.

Zero inventories of CII and CIII-CV were conducted. 2020-2025 inventories were inspected and compliant.

The pharmacy has an automated pharmacy system and engages in non-sterile and sterile compounding. An automated pharmacy system, non-sterile and sterile compounding inspections were conducted.

☑ By checking this box it is indicated that the undersigned Division Investigator has reviewed the above inspection report and comments made with the undersigned "Responsible Party."

NON-STERILE COMPOUNDING

INSPECTION

☐ Opening ☑ Random

INFORMATION

Pharmacy Name: Hillcrest Pharmacy LLC Date: 6/30/25

Pharmacy License Number: 10633340-1703 Expiration Date: 9/30/25

Controlled Substance License Number: 1063340-8913 Expiration Date: 9/30/25

DEA Registration Number: FH7380188 Expiration Date: 10/31/26

Pharmacist-in-Charge (PIC): Jeffrey Abeyta

Pharmacist-in-Charge License Number: 374023-1701 Expiration Date: 9/30/25

Compounding Facilities engaged in simple, moderate or complex non-sterile or any level of sterile compounding activities shall be required to maintain proper records and procedure manuals and establish quality control measures to ensure stability, equivalency where applicable and sterility. The following requirements shall be met:(a)Shall follow USP-NF Chapter 795, compounding of non-sterile preparations, and USP-NF Chapter 797 if compounding sterile preparations [UAC R156-17b-614a (3)]

GENERAL OPERATIONS AND INFORMATION

	Yes	No	
1	☑	☐	Compounders shall acquire and maintain knowledge and skills in all areas (e.g., dosage form, patient population, and medical specialty) for which they compound. [USP-NF Chapter 795—*Categories of Compounding*]

Which categories of compounding does the facility perform?

2	☑	☐	**Simple**- Making a preparation that has a *United States Pharmacopeia (USP)* compounding monograph or that appears in a peer-reviewed journal article that contains specific quantities of all components, compounding procedure and equipment, and stability date for that formulation with appropriate BUDs; or reconstitution or manipulation commercial products that may require the addition of one or more ingredients as directed by the manufacturer. Examples include *Captopril Oral Solution,* and *Indomethacin Topical Gel,* and *Potassium Bromide Oral Solution, Veterinary.* [USP-NF Chapter 795—*Categories of Compounding—Description of Categories*]
	☑	☐	**Moderate-** Making a preparation that requires special calculations or procedure (such as calibration of dosage unit mold cavities) to determine quantities of components per preparation or per individualized dosage units; or making a preparation for which stability data for that specific formulation are not available. Examples include *Morphine Sulfate Suppositories,* diphenhydramine hydrochloride troches, and mixing two or more manufactured cream products when the stability of the mixture is not known. [USP-NF Chapter 795—*Categories of Compounding—Description of Categories*]
	☐	☑	**Complex-** Making a preparation that requires special training, environment, facilities, equipment, and procedures to ensure appropriate therapeutic outcomes. Examples of possible complex preparation types include transdermal dosage forms, modified-release preparations, and some inserts and suppositories for systemic effects. [USP-NF Chapter 795—*Categories of Compounding—Description of Categories*]
3	☑	☐	The preparation, mixing, assembling, altering, packaging, and labeling of a drug, drug-delivery device, or device is in accordance with a licensed practitioner's prescription, medication order, or initiative based upon the practitioner/patient/pharmacist/compounder relationship in the normal course of professional practice[USP-NF Chapter 795—*Definitions—Compounding]*
4	☐	☑	Does the facility compound nonsterile prescriptions which are then delivered to a practitioner for administration to the patient in the office, clinic or facility?

	Yes	No	
5	☐	☑	A pharmacy licensed under this chapter may, subject to rules established by the Division, repackage or compound a prescription drug for sale to a practitioner if: the prescription drug: does not include a compounded drug; or includes a compounded drug; and is not a controlled substance; the pharmacy labels the prescription drug "for office use only"; the practitioner administers the drug to a patient in the practitioner's office or facility; and except in accordance with Title 58, Chapter 17b, Part 8, Dispensing Medical Practitioner and Dispensing Medical Practitioner Clinic Pharmacy, the practitioner does not dispense the drug to the patient. [UCA 58-17b-624(1)(a)(i)(ii)(A)(B)(b)(c)(d)] Pursuant to Section 58-17b-624, a pharmacy may repackage or compound a prescription drug for sale to a practitioner for office use provided that it is in compliance with all applicable federal and state laws and regulations regarding the practice of pharmacy, including, but not limited to the Food, Drug, and Cosmetic Act, 21 U.S.C A § 301 et seq. [R156-17b-624]
6	☐	☑	Does the facility distribute non-sterile compounded preparations to hospitals, clinics, or surgery centers?
7	☐	☑	Does the facility have a sales force that distributes samples containing active ingredients? List on separate sheet.
8	☐	☑	Does the facility provide non-sterile compounded preparations to other pharmacies for dispensing?
9	☑	☐	What does the facility compound? ☐ Tablets ☑ Liquids ☐ Troches ☑ Ointments ☑ Capsules ☐ Lozenges ☑ Creams ☐ Suppositories ☐ Patches ☐ Sprays ☐ Powders ☐ Oral Pastes ☐ Transdermals ☐ _____ ☐ _____ ☐ _____
10	☐	☑	Does the facility compound vitamins or nutritional supplements? If so, list on separate sheet.
11	☐	☑	Does the facility compound investigational drugs? If so, list on separate sheet.
12	☐	☑	The facility does not prepare a prescription drug in a dosage form which is regularly and commonly available from a manufacturer in quantities and strengths prescribed by a practitioner. [UCA 58-17b-502 (13)]
13	☑	☐	Does the facility perform compounding with hazardous drugs?
14	☑	☐	Does the facility segregate hazardous drugs from normal compounding stock?
15	☑	☐	MSDSs shall be readily accessible to all employees working with drug substances or bulk chemicals located on the compounding facilities premises. Employees should be instructed on how to retrieve and interpret needed information. [USP-NF Chapter 795—*Compounding Documentation—Material Safety Data Sheets File*]
16	☑	☐	Does the facility make non-sterile compounded preparations using bulk powder active pharmaceutical ingredients?
17	☑	☐	All significant procedures performed in the compounding area should be covered by written standard operating procedure (SOPs). Implementing SOPs establishes procedural consistency and also provides a reference for orientation and training of personnel. To ensure accountability, accuracy, quality, safety and uniformity in compounding procedures should be developed for the following: [USP-NF Chapter 795—*Compounding Documentation—Standard Operating Procedures*] ☑ Facility ☑ Equipment ☑ Personnel ☑ Packaging ☑ Storage ☑ Preparation
18	☑	☐	A *United States Pharmacopeia (USP), National Formulary (NF), or Food Chemical Codex (FCC)* substance is the recommended source of all ingredients for compounding all preparations. [USP-NF Chapter 795—*Component Selection, Handling, and Storage(1)*]
19	☑	☐	Bulk active ingredients must be procured from a facility registered with the federal Food and Drug Administration and must not be listed on the federal Food and Drug Administration list of drug products withdrawn or removed from the market for reasons of safety or effectiveness. [R156-17b-614a (3)(c)(i)(ii)]

20 ☑ ☐ Bulk containers are labeled with appropriate Occupational Safety and Health Administration (OSHA) hazard communication labels (see OSHA.gov), and Material Safety Data Sheets (MSDSs) are available to compounding personnel for all drugs and chemicals used in compounding. [USP-NF Chapter 795—*Responsibilities of the Compounder—General Principles of Compounding (3)*]

BEYOND USE DATING

21 ☑ ☐ All components used in the compounding of preparations must be store as directed by the manufacturer or according to *USP*, *NF*, or *FCC* monograph requirements, in a clean area, and under appropriation temperatures and humidity conditions (controlled room temperature, refrigerator, or freezer). [USP-NF Chapter 795—*Component Selection, Handling, and Storage (11)*]

22 ☑ ☐ For components that do not have expiration dates assigned by the manufacture or supplier, the compounder shall label the container with the date of receipt and assign a conservative expiration date, not to exceed three years after receipt, to the component (see the *General Notices and Requirements, Preservatian, Packaging, Storage, and Labeling, Labeling, Expiration Date and Beyond-Use Date)* based on the nature of the component and its degradation mechanism, the container in which it is packaged, and the storage conditions. [USP-NF Chapter 795—*Component Selection, Handling, and Storage(6)*]

23 ☑ ☐ If the component has been transferred to a different container, that container shall be identified with the component name, lot or control number, transfer date, and expiration date and shall provide integrity that is equivalent to or better than that of the original container. [USP-NF Chapter 795—*Component Selection, Handling, and Storage(5)*]

24 ☑ ☐ The compounder shall ensure that the container and container closures used in packaging compounded preparations meet *USP* requirements (see the *General Notices and Requirements, Preservation, Packaging, Storage, and Labeling, Containers; Containers—Glass* <660>; *Containers—Plastics*<661>; *Containers—Performance Testing* <671>; Chapter <681>; Chapter <1136>; *Packaging Practice—Repackaging a Single Solid Oral Drug Product into a Unit-Dose Container*<1146>); and when available, compounding monographs. Compounders are not expected to perform the tests described in these chapters but should be knowledgeable about the stands described in them. [USP-NF Chapter 795—*Packaging and Drug Preparation Containers*]

25 ☑ ☐ The containers and closures shall be stored off the floor, handled and stored to prevent contamination, and rotated so that the older stock is used first. The containers and container closures shall be stored in such a way as to permit inspection and cleaning of the storage area. [USP-NF Chapter 795—*Packaging and Drug Preparation Containers*]

26 ☑ ☐ The BUD is the date after which a compounded preparation shall not be used and is determined from the date when the preparation is compounded. [USP-NF Chapter 795—*Stability Criteria and Beyond-Use Dating*]

27 ☑ ☐ The beyond use date assigned shall be based on currently available drug stability information and sterility considerations or appropriate in-house or contract service stability testing. [R156-17b-614a (3)(g)]

28 ☑ ☐ Sources of drug stability information shall include the following: [R156-17b-614a (3)(g)(i)(A)(B)(C)]
☑ References can be found in "Trissel's Handbook on Injectable Drugs", 17th Edition, October 31, 2012 ☑ Manufacturer recommendations ☐ Reliable, published research

29 These maximum BUDs (shown below) are recommended for non-sterile compounded drug preparations in the absence of stability information that is applicable to a specific drug or preparation. They are packaged in tight, light resistant containers and stored at controlled room temperature. The BUD shall not be later than the expiration date on the container of any component. [USP-NF Chapter 795—*Stability Criteria and Beyond-Use Dating—General Guidelines for Assigning Beyond-Use Dates*]

☑ ☐ BUDs for Nonaqueous Formulations—The BUD is not later that the time remaining until the earliest expiration date of any API or 6 months, whichever is earlier.

☑ ☐ BUDs for Water-Containing Oral Formulations—The BUD is not later than 14 days when stored at controlled cold temperatures.

☑ ☐ BUDs for Water-Containing Topical/Dermal and Mucosal Liquid and Semisolid Formulations—The BUD is not later than 30 days.

ENVIRONMENT

30 ☑ ☐ Compounding facilities shall have an adequate space that is specifically designated for compounding of prescriptions. This space shall provide the orderly placement of equipment and materials to prevent mixups among ingredients, containers, labels, in-process materials and finished preparations and is designed, arranged and used to prevent adventitious cross-contamination. [USP-NF Chapter 795—*Compounding Facilities*]

31 ☑ ☐ Areas used for sterile preparations shall be separated and distinct from the nonsterile compounding area (see Chapter <797>, *Environmental Quality and Control*). [USP-NF Chapter 795—*Compounding Facilities*]

32 ☑ ☐ Compounding is done in an appropriately clean and sanitized area dedicated to this activity (see section *Compounding Facilities*). [USP-NF Chapter 795—*Compounding Process—Criteria When Compounding Each Drug Preparation (4)*]

33 ☑ ☐ Only one preparation is compounded at one time in a specific workspace. [USP-NF Chapter 795—Compounding Process—*Criteria When Compounding Each Drug Preparation (5)*]

34 ☑ ☐ The entire compounding and storage area should be well lighted. [USP-NF Chapter 795—*Compounding Facilities*]

35 ☑ ☐ Heating, ventilation, and air conditioning systems shall be controlled to avoid decomposition and contamination of chemicals (see the *General Notices and Requirements, Preservation, Packaging, Storage, and Labeling, Storage Temperature and Humidity;* and the manufacturers' labeled storage conditions). [USP-NF Chapter 795—*Compounding Facilities*]

36 ☑ ☐ Potable water shall be supplied for hand washing and equipment washing. *Purified Water* (see *Purified Water* monograph) shall be used for compounding nonsterile preparations when formulations indicate the inclusion of water. *Purified Water* should be used for rinsing equipment and utensils. [USP-NF Chapter 795—*Compounding Facilities*]

37 ☑ ☐ Hazardous drugs shall be stored, prepared, and handled by appropriately trained personnel under conditions that protect the healthcare workers and other personnel. [USP-NF Chapter 795—*Compounding Facilities*]

38 ☑ ☐ Disposal of all hazardous drugs wastes shall comply with all applicable federal and state regulations. All personnel who perform routine custodial waste removal and cleaning activities in storage and preparation areas for hazardous drugs shall be trained in appropriate procedure to protect themselves and prevent contamination. [USP-NF Chapter 795—*Compounding Facilities*]

TRAINING

39 ☑ ☐ Personnel are appropriately trained and are capable of performing and qualified to perform their assigned duties. Such training should be documented. Compounding personnel should be evaluated annually. [USP-NF Chapter 795—*Responsibilities of the Compounder—General Principles of Compounding (1), Training*]

40 ☑ ☐ All employees involved in pharmaceutical compounding shall read and become familiar with the chapter (USP-NF Chapter 795). They should also become familiar with the contents of the *USP Pharmacists' Pharmacopoeia* and other relevant publications, including how to read and interpret MSDS. [USP-NF Chapter 795—*Training*]

41 ☑ ☐ All employees shall read and become familiar with each of the procedures related to compounding, including those involving the facility, equipment, personnel, actual compounding, evaluation, packaging, storage, and dispensing. [USP-NF Chapter 795—Training]

COMPOUNDING EQUIPMENT

42 ☑ ☐ All equipment used in compounding is clean, properly maintained, and used appropriately. [USP-NF Chapter 795—Responsibilities of the Compounder—General Principles of Compounding (4)]

43 ☑ ☐ Equipment shall be stored to protect it from contamination and shall be located to facilitate its use, maintenance and cleaning. Automated, mechanical, electronic, and other types of equipment used in compounding or testing of compounded preparations shall be routinely inspected, calibrated as necessary, and checked to ensure proper performance. Immediately before compounding operations, the equipment shall be inspected by the compounder to determine its suitability for use. After use, the equipment shall be appropriately cleaned. [USP-NF Chapter 795—Compounding Equipment]

DOCUMENTATION

44 ☑ ☐ A master worksheet shall be developed and approved by a pharmacist for each batch of sterile or non-sterile pharmaceuticals to be prepared. Once approved, a duplicate of the master worksheet shall be used as the preparation worksheet from which each batch is prepared an on which all document for that batch occurs. The master worksheet may be stored electronically and shall contain at a minimum: [UAC R156-17b-614a (3)(d)(i)(ii)(iii)(iv)(v)(vi)(vii)(viii)(A-D)(ix)(A-D)(x)(xi)(xii)(xiii)]

- ☑ Official or assigned name
- ☑ Calculations needed to determine and verify quantities of components and doses of active pharmaceutical ingredients
- ☑ Equipment needed to prepare the preparation
- ☑ Container used in dispensing
- ☑ Quality control procedures and expected results
- ☑ Description of final preparation
- ☑ Strength
- ☑ Description of all ingredients and their quantities
- ☑ Mixing instructions, which shall include: order of mixing, mixing temperature or other environmental controls, duration of mixing, and other factors pertinent to the replication of the preparation as compounded
- ☑ Packaging and storage requirements
- ☑ Dosage form of the preparation
- ☑ Compatibility and stability information, including references when available
- ☑ Sample labeling information, which shall contain, in addition to legally required information: generic name and quantity or concentration of each active ingredient, assigned beyond use date, storage conditions, and prescription or control number, whichever is applicable

45 ☑ ☐ A preparation worksheet for each batch of sterile or non-sterile pharmaceuticals shall document the following: [UAC R156-17b-614a (3)(e)(i)(ii)(iii)(iv)(v)(vi)(vii)(viii)(ix)(x)(xi)(xii)(A-D)(xiii)(A,B,C,D)(I-III)(xiv)(xv)(xvi)]

- ☑ Official or assigned name
- ☑ Names and quantities of all components
- ☑ Name of the person who prepared the preparation
- ☑ Date of the preparation
- ☑ Proof of duplicate labeling information, which shall: be kept at the pharmacy, be immediately retrievable; include an audit trail for any altered form, and be reproduced in: the original format that was dispensed, and electronic version, or a scanned electronic version
- ☑ Strength and dosage of the preparation
- ☑ Sources, lot numbers, and expiration dates of components
- ☑ Name of the compounder who approved the preparation
- ☑ Assigned control number, if for anticipation of use or prescription number, if patient specific, whichever is applicable
- ☑ Documentation of any quality control issues and any adverse reactions or preparation problems reported by the patient or caregiver
- ☑ Description of final preparation
- ☑ Master Formulation Record reference for the preparation
- ☑ Total quantity compounded
- ☑ Name of the person who performed the quality control procedures
- ☑ Duplicate label as described in the Master Formulation Record means the sample labeling information that is dispensed on the final product given to the patient and shall at minimum contain: active ingredients, beyond-use-date, storage conditions, and lot number
- ☑ Results of quality control procedures (e.g., weight range of filled capsules, pH of aqueous liquids)

46 ☑ ☐ Compounding records including the master worksheet, preparation worksheet, and prescription files, including refill information shall be maintained for a minimum of five years and be immediately retrievable in written or electronic format. [UAC R156-17b-612 (4)]

47 ☑ ☐ There shall a documented, ongoing quality control program that monitors and evaluates personnel performance, equipment and facilities that follow USP-NF Chapters 795 and 797 standards. [R156-17b-614a (3)(h)]

COMPOUNDING PROCEDURES

48 ☑ ☐ Only authorized personnel are allowed in the immediate vicinity of the compounding operations. [USP-NF Chapter 795—Responsibilities of the Compounder—General Principles of Compounding(6)]

49 ☑ ☐ Personnel engaged in compounding maintain good hand hygiene and wear clean clothing appropriate to the type of compounding performed (e.g., hair bonnets, coats, gowns, gloves, face masks, shoes, aprons, or other items) as needed for protection of personnel from chemical exposures and for preventions of drug contamination. [USP-NF Chapter 795—Compounding Process—Criteria When Compounding Each Drug Preparation (8)]

50 ☑ ☐ Critical processes (including but not limited to weighing, measuring, and mixing) are verified by the compounder to ensure that procedures, when used, will consistently result in the expected qualities in the finished preparation. [USP-NF 795—Compounding Process—Criteria When Compounding Each Drug Preparation]

PRESCRIPTION LABELING

51 ☑ ☐ All prescription labels for compounded sterile and non-sterile medications when dispensed to the ultimate user or Agent shall bear at a minimum in addition what is required in Section 58-17b-602 the following: [UAC R156-17b-614a (3)(h)(i)(ii)(iii)]

- ☑ generic name and quantity or concentration of each active ingredient. In the instance of a sterile preparation for parenteral use, labeling shall include the name and base solution for infusion preparation;
- ☑ assigned compounding record or lot number;
- ☑ "This is a compounded preparation" or similar language.

PATIENT COUNSELING AND COMMUNICATION

52 ☑ ☐ At the time of dispensing the prescription, the patient or the patient's agent shall be counseled about proper use, storage, handling, and disposal of the compounded preparation. The patient or the patient's agent shall also be instructed to report any adverse event and to observe and report to the compounder any changes in the physical characteristics of the compounded preparation (see Chapter <1191>, *Responsibility of the Pharmacist*). The compounder shall investigate and document any reported problem with a compounded preparation and shall take corrective action. [USP-NF Chapter 795—*Patient Counseling*]

VETERINARY COMPOUNDING

53 ☐ ☑ Does the facility compound for veterinary use?

54 ☐ ☐ If compounding for both humans and animals, are the API's or other components that are labeled for veterinary use only are segregated or marked in such way to prevent them from being used for human compounding?

55 ☐ ☐ The pharmacist shall be knowledgeable about the individual species' limitation in physiology and metabolic capacity that can result in toxicity when certain drugs or excipients are used in compounded preparations. For this reason, compounders making preparations for animals should use, when possible, formulations specifically developed for animal patients. If such formulations are not available, the compounder shall conduct a literature review to determine whether a specific component of the formula is toxic to the target species. [USP-NF Chapter 795—Compounding For Animal Patients]

COMMENTS (Use an additional sheet if necessary)

Assisted by Justin Meier, Technician/Owner and Devin Meier Pharmacist/Owner.

The facility does compound simple and moderate risk compounding.

Stability assignment is based on Trissel's and manufacturer recommendations.

SOPs were reviewed, present and compliant for nonsterile compounding.

Training for Hazardous compounding was present and compliant.

Cleaning logs were reviewed and compliant.

Manufacturing Records were reviewed and compliant.

Compounding Records were reviewed and compliant. Note the attached duplicate labels are viewed through Pioneer's software.

Prescription labels were reviewed and compliant.

The facility does not currently compound for veterinary patients, but plans on it in the future.

☐ By checking this box it is indicated that the undersigned Division Investigator has reviewed the above inspection report and comments made with the undersigned "Responsible Party."

Compounding Facilities engaged in simple, moderate or complex non-sterile or any level of sterile compounding activities shall be required to maintain proper records and procedure manuals and establish quality control measures to ensure stability, equivalency where applicable and sterility. The following requirements shall be met:(a)Shall follow USP-NF Chapter 795, compounding of non-sterile preparations, and USP-NF Chapter 797 if compounding sterile preparations [UAC R156-17b-614a (3)]

	Yes	No	GENERAL OPERATIONS AND INFORMATION **Which categories of compounding does the facility perform?**
1.	☐	☑	The pharmacy does perform compounding identified as **low-risk** [USP-NF Chapter 797- *USP Microbial Contamination Risk Levels- Low-Risk Level CSPs]* ☐ The CSPs are compounded with aseptic manipulations entirely within ISO Class 5 or better air quality using only sterile ingredients, products, components, and devices. ☐ The compounding involves only transfer, measuring, and mixing manipulations using not more than three commercially manufactured packages of sterile products and not more than two entries into any one sterile container or package (e.g., bag, vial) of sterile product or administration container/ device to prepare the CSP. ☐ Manipulations are limited to aseptically opening ampules, penetrating disinfected stoppers on vials with sterile needles and syringes, and transferring sterile liquids in sterile syringes to sterile administration devices, package containers of other sterile products, and containers for storage and dispensing. ☐ For a low-risk level preparation, in the absence of passing a sterility teste (see Sterility Tests <71>) the storage periods cannot exceed the following time periods: before administration, the CSPs are properly stored and are exposed for not more than 48 hours at controlled room temperature (see General Notices and Requirements), and for 45 days in solid frozen state between -25°and -10°.
	☐	☑	The pharmacy does perform compounding identified as **medium-risk.** When CSPs are compounded aseptically under Low-Risk Conditions and one or more of the following conditions exist, such CSPs are at a medium risk of contamination. [USP-NF Chapter 797- *USP Microbial Contamination Risk Levels- Medium-Risk Levels CSPs]* ☐ Multiple individual or small doses of sterile products are combined or pooled to prepare a CSP that will be administered to either multiple patients or to one patient on multiple occasions. ☐ The compounding process includes complex aseptic manipulations other than the single-volume transfer. ☐ The compounding process requires unusually long duration, such as that required to compete dissolution or homogenous mixing. ☐ For a medium-risk preparation, in the absence of passing a sterility test (see Sterility Tests <71>0, the storage periods cannot exceed the following time periods: before administration, the CSPs are properly stored and are exposed for not more than 30 hours at controlled room temperature (see Generals Notices and Requirements), and for 45 days in solid frozen state between 25°and -10°.

☑ ☐ The pharmacy does perform compounding identified as **high-risk** [USP-NF Chapter 797- *USP Microbial Contamination Risk Levels- High-Risk Levels CSPs]*

☑ Non sterile ingredients, including manufactured products not intended for sterile routes of administration (e.g. oral), are incorporated or a non-sterile device is employed before terminal sterilization.

☐ Any of the following are exposed to air quality worse than ISO 5 for more than 1 hour (see *Immediate-Use CSPs*):

- ☐ Sterile contents of commercially manufactured products,
- ☐ CSPs that lack effective antimicrobial preservative, and
- ☐ Sterile surfaces of devices and containers for the preparation, transfer, sterilization, and packaging of CSPs

☐ Compounding personnel are improperly garbed and gloved (see *Personnel Cleansing and Use of Barrier Protective Equipment).*

☐ Nonsterile water-containing preparations are stored for more than 6 hours before being sterilized.

☐ It is assumed, and not verified by examination of labeling and documentation from suppliers or by direct determination, that the chemical purity and content strength of ingredients meet their original or compendia specifications in unopened or in opened packages of bulk ingredients (see *Ingredient Selection under Pharmaceutical Compounding- Non-Sterile Preparations <795>).*

☐ In the absence of passing a sterility test, the storage periods cannot exceed the following time periods: before administration, the CSPs are properly stored and are exposed for not more than 24 hours at controlled room temperature (see *General Notices and Requirements),* for not more than 3 days at a cold temperature (*see General Notices and Requirements),* and for 45 days in a solid frozen state between 25°and -10°.

☐ ☑ **Immediate-use provision in intended only for those situation where there is a need for emergency or immediate patient administration of a CSP.** Such situations may include cardiopulmonary resuscitation, emergency room treatment, preparation of diagnostic agents, or critical therapy where the preparation of the CSP under conditions described for Low-Risk Level CSPs subjects the patient to additional risk due to delays in therapy. Immediate-use CSPs are not intended for storage for anticipated needs or batch compounding. Preparations that are medium-risk level and high-risk level CSPs shall not be prepared as immediate-use CSPs. [USP-NF Chapter 797- *Immediate-use CSPs*]

☐ ☑ **Immediate-use CSPs** are exempt from the requirements described for Low-Risk Label CSPs only when all of the following are met: [USP-NF Chapter 797- *Immediate-use CSPs]*

☐ The compounding process involves simple transfer of not more than three commercially manufactured packages of sterile nonhazardous products or diagnostic radiopharmaceutical products from the manufacturer's' original containers and not more than two entries into any one container or package (e.g., bag, vial) of sterile infusion solution or administration container/device. For example, anti-neoplastics shall not be prepared as immediate-use CSPs because they are hazardous drugs.

☐ Unless required for the preparation, the compounding procedure is a continuous process not to exceed 1 hour.

☐ During preparation, aseptic technique is followed and, if not immediately administered, the finished CSP is under continuous supervision to minimize the potential for contact with nonsterile surfaces, introduction of particulate matter or biological fluids, mixups with other CSPs, and direct contact of outside surfaces.

☐ Administration begins not later than 1 hour following the start of the preparation of the CSP.

☐ Unless immediately and completely administered by the person who prepared it or immediate and complete administration is witnessed by the preparer, the CSP shall bear a label listing patient identification information, the names and amounts of all ingredients, the name or initials of the person who prepared the CSP, and the exact 1-hour BUD and time.

☐ If administration has not begun within 1 hour following the start of preparing the CSP, the CSP shall be promptly, properly, and safely discarded.

2. ☑ ☐ Does the facility dispense sterile compounded preparations pursuant to a prescription?

3. ☐ ☑ Does the facility make sterile compounded preparations that are delivered to a practitioner for administration to a patient in an office, clinic, or facility?

4. ☐ ☑ A pharmacy licensed under this chapter may, subject to rules established by the Division, repackage or compound a prescription drug for sale to a practitioner if: the prescription drug: does not include a compounded drug; or includes a compounded drug; and is not a controlled substance; the pharmacy labels the prescription drug "for office use only"; the practitioner administers the drug to a patient in the practitioner's office or facility; and except in accordance with Title 58, Chapter 17b, Part 8, Dispensing Medical Practitioner and Dispensing Medical

Practitioner Clinic Pharmacy, the practitioner does not dispense the drug to the patient. [UCA 58-17b-624(1)(a)(i)(ii)(A)(B)(b)(c)(d)] Pursuant to Section 58-17b-624, a pharmacy may repackage or compound a prescription drug for sale to a practitioner for office use provided that it is in compliance with all applicable federal and state laws and regulations regarding the practice of pharmacy, including, but not limited to the Food, Drug, and Cosmetic Act, 21 U.S.C A § 301 et seq. [R156-17b-624]

5. ☐ ☑ Does the facility distribute sterile compounded preparations to hospitals, clinics, or surgery centers?

6. ☐ ☑ Does the facility have a sales force that distributes samples containing active ingredients? If so, list samples on separate sheet.

7. ☐ ☑ Does the facility compound sterile preparations for veterinary use?

8. ☐ ☑ Is the facility registered with the FDA as an "Outsourcing Facility"?

9. ☑ ☐ The facility does compound:

☐ allergen extracts	☐ baths and soaks for live organs and tissues
☑ parental solutions	oral or nasal inhalation preparations
☐ parenteral suspensions	irrigations for wounds and body cavities
☐ preservative-free parenterals	ophthalmic preparations

10. ☐ ☑ Does the facility compound investigational drugs? If so, list on separate sheet.

11. ☑ ☐ The facility does not prepare a prescription drug in a dosage form which is regularly and commonly available from a manufacturer in quantities and strengths prescribed by a practitioner. [UAC 58-17b-102(18)(b)(ii)]

12. ☑ ☐ The facility does not prepare a prescription drug for sale to another pharmacist or pharmaceutical facility. [UAC 58-17b-102 (18)(b)(i)]

13. ☑ ☐ The facility does not prepare a prescription drug, sterile product, or device which has been withdrawn from the market for safety reasons. [UAC 58-17b-102 (18)(b)(iii)]

14. ☑ ☐ Does the pharmacy makes sterile compounded preparations using bulk powder Active Pharmaceutical Ingredients?

15. ☑ ☐ Bulk active ingredients must be procured from a facility registered with the federal Food and Drug Administration and must not be listed on the federal Food and Drug Administration list of drug products withdrawn or removed from the market for reasons of safety or effectiveness. [UAC R156-17b-614a (3)(c)(i)(ii)]

16. ☐ ☑ Does the facility have a lyophilizer?

17. ☑ ☐ **The compounding facility shall have written, properly approved SOPs** designed to ensure the quality of the environment in which a CSP is prepared. [USP-NF Chapter 797-*Responsibility of Compounding Personnel-Suggested Standard Operating Procedures (SOPs)]*

a. ☑ Procedures for **measuring, mixing, dilution, purification, sterilization, packaging, and labeling** conform to the correct sequence and quality established for the specified CSP. [USP-NF Chapter 797- *Responsibility of Compounding Personnel*]

b. ☑ All **cleaning and disinfecting** practices and policies for the compounding of CSPs shall be included in written SOPs and shall be followed by all compounding personnel. [USP-NF Chapter 797- *Environmental Quality and Control and Disinfecting the Compounding Area*]

- ☑ ISO Class 5 PEC (e.g. LAFW, BSC, CAI, CACI)
- ☑ Counters and easily cleanable work surfaces
- ☑ Floors
- ☑ Walls
- ☑ Ceiling
- ☑ Storage Shelving

c. ☑ It is necessary that **equipment, apparatus, and devices** used to compound a CSP be consistently capable of operating properly and within acceptable tolerance limits. [USP-NF Chapter 797- *Element of Quality Control, Equipment]*

- ☑ Equipment calibration
- ☑ Annual maintenance
- ☑ Monitoring for proper function and controlled procedures for use of the equipment and specified time frames for these activities
- ☑ Routine maintenance and frequencies

d. ☑ The principles of HEPA-filtered unidirectional airflow in the work environment shall be understood and practiced in the compounding process in order to achieve the desired environmental conditions. Policies and procedures for **maintaining and working within the PEC** area shall be written and followed. The policies and procedure will be determined by the scope and risk levels of the aseptic compounding activities utilized during the preparation of the CSPs. [USP-NF Chapter 797- *Environmental Quality and Control, Facility Design and Environmental Control]*

e. n/a ☐ When compounding activities require **the manipulation of a patient's blood-derived or other biological material (e.g., radiolabeling a patient's or donor's white blood cells), the manipulations shall be clearly separated from routine material-handling** procedures and equipment used in CSP preparation activities, and they shall be controlled by specific SOPs in order to avoid any cross contamination. [USP-NF Chapter 797- *Environmental Quality and Control- Additional Personnel Requirements*]

f. ☑ **Double-checking compounding** accuracy shall be followed for every CSP during preparation and immediately prior to release. [USP-NF Chapter 797- *Preparation Release Checks and Tests, Compounding Accuracy Checks*]

g. ☑ When **high-risk level CSPs are dispensed before receiving the results of their sterility tests,** there shall be a written procedure requiring daily observations of the incubating test specimens and immediate recall of the dispensed CSPs when there is any evidence of microbial growth in the test specimens. [USP-NF Chapter 797- *Finished Preparation Release Checks and Tests, Sterility Testing*]

h. ☑ **Verifying the correct identity and quality** of CSPs before they are dispensed and administered: [USP-NF Chapter 797- *Finished Preparation Release Checks and Tests, Identify and Strength Verification of Ingredients*]

- ☑ Labels of CSPs bear correct names and amounts or concentrations of ingredients, the total volume, the BUD, the appropriate route(s) of administration, the storage conditions, and other information for safe use.
- ☑ That there are correct identities, purities, and amounts of ingredients by comparing the original written order with the written compounding record for the CSP.
- ☑ That correct fill volumes in CSPs and correct quantities of filled units of the CSPs were obtained. When the strength of finished CSPs cannot be confirmed to be accurate, based on the above three inspections, the CSPs shall be assayed by methods that are specific for the active ingredients.

i. ☑ To ensure consistent practices in determining and assigning BUDs, the compounding facility should have written policies and procedures governing the **determination of the BUDs** for all compounded products. The SOP manual of the compounding facility and each specific CSP formula record shall describe the general basis used to assign the BUD and storage conditions. [USP-NF Chapter 797- *Storage and Beyond-Use Dating*]

j. ☑ The **compounding procedures and sterilization methods** for CSPs correspond to correctly designed and verified written documentation in the compounding facility. Verification requires planned testing, monitoring, and documentation to demonstrate adherence to environmental quality requirements, personnel practices, and procedures critical to achieving and maintaining sterility, accuracy, and purity of finished CSPs. [USP-NF Chapter 797- *Verification of Compounding Accuracy and Stability*]

k. ☑ Commercially available sterile drug products, sterile ready-to-use containers, and devices are examples of sterile components. A written procedure for **unit-by-unit physical inspection preparatory to use** is followed to ensure that these components are sterile, free from defects, and otherwise suitable for their intended use. [USP-NF Chapter 797- *Elements of Quality Control- Ingredients and Devices- Sterile Ingredients and Devices*]

l. ☑ Compounding personnel shall ensure proper storage and security of CSPs prepared by or dispensed from the compounding facility until either their BUDs are reached or they are administered to patients. In fulfilling this general responsibility, the compounding facility is responsible for the proper **packaging, handling, transport, and storage of CSPs prepared by or dispensed from it, including the appropriate education, training, and supervision of compounding personnel assigned to these functions.** The compounding facility should assist in the education and training of noncompounding personnel responsible for carrying out any aspect of these functions. Establishing, maintaining, and ensuring compliance with comprehensive written policies and procedures encompassing these responsibilities is a further responsibility of the compounding facility. Where noncompounding personnel are assigned tasks involving any of these responsibilities, the policies and procedures encompassing those tasks should be developed by compounding supervisors. [USP-NF Chapter 797- Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs]

m. ☑ Inappropriate processes or techniques involved with packaging, handling, and transport can adversely affect quality and package integrity of CSPs. Although compounding personnel routinely perform many of the tasks associated with these functions, some tasks, such as **transport, handling, and placement into storage, may be fulfilled by noncompounding personnel** who are not under the direct administrative control of the compounding facility. Under these circumstances, appropriate SOPs shall be established by the compounding facility with the involvement of other departments or services whose personnel are responsible for carrying out those CSP-related functions for which the compounding facility has a direct interest. The performance of the noncompounding personnel is monitored for compliance to established policies and procedures. [USP- NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packaging, Handling, and Transport*]

n. ☑ **When CSPs are distributed to locations outside the premises** in which they are compounded, compounding personnel select packing containers and materials that are **expected to maintain physical integrity, sterility, and stability of CSPs during transit**. Packing is selected that simultaneously protects CSPs from damage, leakage, contamination, and degradation, and protects personnel who transport packed CSPs from harm. The SOP manual of the compounding facility specifically describes appropriate packing containers and insulating and stuffing materials, based on information from product specifications, vendors, and experience of compounding personnel. Written instructions that clearly explain how to safely open containers of packed CSPs are provided to patients and other recipients. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packing and Transporting CSPs- Packing CSPs for Transit*]

o. n/a ☐ SOPs must exist to ensure that **storage conditions in the patient-care setting** are suitable for the CSP-specific storage requirements. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packing and Transporting CSPs, Use and Storage*]

☐ Procedures include daily monitoring and documentation of drug storage refrigerators to ensure temperatures between 2° and 8°

☐ and the monthly inspection of all drug storage locations by compounding personnel.

p. ☑ The SOP manuals of compounding facilities shall describe **specific instructions for receiving, acknowledging, and dating receipts, and for recording, or filing, and evaluating reports of adverse events and of the quality of preparation** claimed to be associated with CSPs. Reports of adverse events with CSPs shall be reviewed promptly and thoroughly by compounding supervisors to correct and prevent future occurrences. Compounding personnel are encouraged to participate in adverse event reporting and product defects programs of the FDA and USP. [USP-NF Chapter 797- *Patient Monitoring and Adverse Events Reporting*]

Personnel Training and Requirements

18. ☑ ☐ A written description of specific training and performance evaluation program for individuals involved in the use of aseptic techniques for the preparation of sterile products shall be developed for each site. This program equips personnel with the appropriate knowledge and trains them in the required skills necessary to perform the assigned tasks. **Each person assigned to the aseptic area in the preparation of sterile products shall successfully complete specialized training in aseptic techniques and aseptic area practices prior to preparing CSPs** (see Personnel Training and Evaluation in Aseptic Manipulation Skills and Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices and Cleaning/Disinfection Procedures). [USP-NF Chapter 797 - *Elements of Quality Control*]

19. ☑ ☐ **Personnel who prepare CSPs shall be trained** conscientiously and skillfully **by expert personnel, multi-media instructional sources, and professional publications** in the theoretical principles and practical skills of **garbing procedures, aseptic work practices, achieving and maintaining ISO Class 5 environmental conditions, and cleaning and disinfection procedures.** [USP-NF Chapter 797- *Appendix I-Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices and Cleaning/Disinfection Procedures*]

20. ☐ ☑ Compounding personnel shall complete: [USP-NF Chapter 797- *Appendices- Appendix I-Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices and Cleaning/Disinfection Procedures*]

☑ didactic training,
☑ undergo skill assessment using observational audit tools,
☑ pass written competence assessments,
☐ and media-fill testing.

21. ☑ ☐ **Compounding personnel shall be visually observed during the process of performing hand hygiene and garbing procedures** (see *Personnel Cleansing* and *Garbing* under *Personnel Training and Evaluation in Aseptic Manipulation Skills* above). **The visual observation shall be documented** on a form such as the Sample Form for Assessing Hand Hygiene and Garbing Related Practices of Compounding Personnel (see Appendix III) and maintained to provide a permanent record and long-term assessment of personnel competency. [USP-NF Chapter

797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

22. ☑ ☐ **Sampling of compounding personnel glove fingertips shall be performed for all CSP risk level compounding** because direct touch contamination is the most likely source of introducing microorganisms into CSPs prepared by humans. Glove fingertip sampling **shall be used to evaluate the competency of personnel in performing hand hygiene and garbing procedures in addition to educating compounding personnel on proper work practices, which include frequent and repeated glove disinfection using sterile 70% IPA during actual compounding of CSPs.** All personnel shall demonstrate competency in proper hand hygiene and garbing procedures and in aseptic work practices (e.g., disinfection of component surfaces, routine disinfection of gloved hands). [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

23. ☑ ☐ **Sterile contact agar plates shall be used to sample the gloved fingertips** of compounding personnel **after garbing** in order to assess garbing competency and **after completing the media-fill preparation** (without applying sterile 70% IPA) in order to assess the adequacy of aseptic work practices prior to being initially allowed to prepare CSPs for human use and for more experienced personnel to maintain their qualifications to prepare CSPs for human use. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

24. ☑ ☐ **All compounding personnel shall successfully complete an initial competency evaluation and gloved fingertip/thumb sampling procedure (zero cfu) no less than three times before initially being allowed to compound CSPs for human use.** Immediately after the compounding employee completes the hand hygiene and garbing procedure (e.g., donning of sterile gloves prior to any disinfection with sterile 70% IPA), the evaluator will collect a gloved fingertip and thumb sample from both hands of the compounding employee onto appropriate agar plates by lightly pressing each fingertip into the agar. The plates will be incubated for the appropriate incubation period and at the appropriate temperature (see Incubation Period). **After completing the initial gowning and gloving competency evaluation, re-evaluation of all compounding personnel for this competency shall occur at least annually for personnel who compound low- and medium-risk level CSPs and semi-annually for personnel who compound high-risk level CSPs** using one or more sample collections during any media-fill test procedure before they are allowed to continue compounding CSPs for human use. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

25. ☑ ☐ **After successful completion of an initial Hand Hygiene and Garbing Competency Evaluation, all compounding personnel shall have their aseptic technique and related practice competency evaluated initially during the Media-Fill Test Procedure and subsequent annual or semi-annual Media-Fill Test Procedures.** Records of these evaluations will be maintained using a form such as the Sample Form for Assessing Aseptic Technique and Related Practices of Compounding Personnel (see Appendix IV) and maintained to provide a permanent record of and long-term assessment of personnel competency. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Competency Evaluation of Garbing and Aseptic Work Practice*]

26. ☑ ☐ **Compounding personnel shall perform didactic review and pass written and media-fill testing of aseptic manipulative skills initially, at least annually thereafter for low- and medium-risk level compounding, and semiannually for high-risk level compounding.** Compounding personnel who fail written tests or whose media-fill test vials result in gross microbial colonization shall be immediately re-instructed and re-evaluated by expert compounding personnel to ensure correction of all aseptic practice deficiencies. [USP-NF Chapter 797- *Personnel Training and Evaluation in Aseptic Manipulation Skills*]

27. ☑ ☐ **Compounding personnel and other personnel responsible for cleaning shall be visually observed during** the process of performing **cleaning and disinfecting procedures**, during **initial personnel training** on cleaning procedures, during **changes in cleaning staff**, and at the **completion of any media-fill test procedure** (see Cleaning and Disinfecting of Compounding Areas). [USP-NF Chapter 797- Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/ Disinfection-Procedures, Surface Cleaning and Disinfection Sampling and Assessment]

28. ☐ ☐ **In the event that cleaning and disinfecting procedures are also performed by other support personnel** (e.g., institutional environmental services, housekeeping), thorough training of proper hand hygiene, garbing, and cleaning and disinfection procedures shall be done by a qualified aseptic compounding expert. After completion of training, support **personnel shall routinely undergo performance evaluation of proper hand hygiene, garbing, and all applicable cleaning and disinfecting procedures conducted by a qualified aseptic compounding expert.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures*]

N/a

29. ☐ ☐ **Compounding personnel of reproductive capability shall confirm in writing that they understand the risks of handling hazardous drugs.** The **training shall include** at least the following: [USP- NF Chapter 797- *Hazardous Drugs as CSPs*]

n/a

- ☐ safe aseptic manipulation practices;
- ☐ negative pressure techniques when utilizing a BSC or CACI;
- ☐ correct use of CSTD devices;
- ☐ containment, cleanup, and disposal procedures for breakages and spills; and
- ☐ treatment of personnel contact and inhalation exposure.

Handwashing and Garbing

30. ☑ ☐ **When individuals are experiencing rashes, sunburn, weeping sores, conjunctivitis, active respiratory infection, as well as when they wear cosmetics, they shed these particles at even higher rates.** Particles shed from compounding personnel pose an increased risk of microbial contamination of critical sites of CSPs. **Therefore, compounding personnel with such conditions as mentioned above shall be excluded from working in ISO Class 5 (see Table 1) and ISO Class 7 (see Table 1) compounding areas until their conditions are remedied.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

31. ☑ ☐ **Before entering the buffer area or segregated compounding area** (see Low-Risk Level CSPs with 12-Hour or Less BUD), **compounding personnel shall remove personal outer garments** (e.g., bandannas, coats, hats, jackets, scarves, sweaters, vests); **all cosmetics, because they shed flakes and particles; and all hand, wrist, and other visible jewelry or piercings** (e.g., earrings, lip or eyebrow piercings) that can interfere with the effectiveness of PPE (e.g., fit of gloves and cuffs of sleeves). **The wearing of artificial nails or extenders is prohibited** while working in the sterile compounding environment. **Natural nails shall be kept neat and trimmed.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

32. ☑ ☐ **Personnel shall don the following PPE in an order that proceeds from those activities considered the dirtiest to those considered the cleanest.** Garbing activities considered the dirtiest include donning of ☑ dedicated shoes or shoe covers, ☑ head and facial hair covers (e.g., beard covers in addition to face masks), and ☑ face masks/eye shields. Eye shields are optional unless working with irritants such as germicidal disinfecting agents or when preparing hazardous drugs. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

33. ☑ ☐ **After donning dedicated shoes or shoe covers, head and facial hair covers, and face masks, a hand cleansing procedure shall be performed by removing debris from underneath fingernails using a nail cleaner under running warm water followed by vigorous hand washing. Hands and forearms shall be washed to the elbows for at least 30 seconds with soap (either nonantimicrobial or antimicrobial) and water while in the ante-area.** The use of antimicrobial scrub brushes is not recommended because they can cause skin irritation and skin damage. Hands and forearms to the elbows will be completely dried using either lintfree disposable towels or an electronic hand dryer. ☑ **After completion of hand washing, a nonshedding gown with sleeves that fit snugly around the wrists and enclosed at the neck is donned.** Gowns designated for buffer area use shall be worn, and **preferably they should be disposable. If reusable gowns are worn, they should be laundered appropriately for buffer area use.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

34. ☑ ☐ **Once inside the buffer area or segregated compounding area** (see Low-Risk Level CSPs with 12-Hour or Less BUD), and **prior to donning sterile powder-free gloves, antiseptic hand cleansing shall be performed using a waterless alcohol-based surgical hand scrub with persistent activity following manufacturers' recommendations. Hands are allowed to dry thoroughly before donning sterile gloves. [USP-NF Chapter 797- Environmental Quality and Control - Personnel Cleansing and Garbing]**

35. ☑ ☐ **Sterile gloves shall be the last item donned before compounding begins.** Gloves become contaminated when they contact nonsterile surfaces during compounding activities. Disinfection of contaminated gloved hands may be accomplished by wiping or rubbing sterile 70% IPA to all contact surface areas of the gloves and letting the gloved hands dry thoroughly. Only use gloves that have been tested for compatibility with alcohol disinfection by the manufacturer. **Routine application of sterile 70% IPA shall occur throughout the compounding process** and whenever nonsterile surfaces (e.g. vials, counter tops, chairs, carts) are touched. **Gloves on hands shall also be routinely inspected for holes, punctures, or tears and replaced immediately if such are detected.** Antiseptic hand cleansing shall be performed as indicated above. Compounding personnel. [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

36. ☑ ☐ **When compounding personnel exit the compounding area** during a work shift, the exterior gown may be removed and retained in the compounding area if not visibly soiled, to be re-donned during that same work shift only. However, **shoe covers, hair and facial hair covers, face masks/eye shields, and gloves shall be replaced with new ones before re-entering the compounding area, and proper hand hygiene shall be performed.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

37. ☑ ☐ **During high-risk compounding activities that precede terminal sterilization, such as weighing and mixing of nonsterile ingredients, compounding personnel shall be garbed and gloved the same as when performing compounding in an ISO Class 5** (see Table 1) environment. Properly garbed and gloved **compounding personnel who are exposed to air quality that is either known or suspected to be worse than ISO Class 7 (see Table 1) shall re-garb PPE along with washing their hands properly, performing antiseptic hand cleansing with a waterless alcohol-based surgical hand scrub, and donning sterile gloves upon reentering the ISO Class 7 (see Table 1) buffer area. When CAIs and CACIs are the source of the ISO Class 5 (see Table 1) environment, the garbing and gloving requirements for compounding personnel should be as described above, unless the isolator manufacturer can provide written documentation based on validated environmental testing that any component(s) of PPE or personnel cleansing are not required.** [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Cleansing and Garbing*]

38. ☑ ☐ **Cleaning and disinfecting shall occur before compounding is performed.** Items shall be removed from all areas to be cleaned, and surfaces shall be cleaned by removing loose material and residue from spills; for example, water soluble solid residues are removed with sterile water (for injection or irrigation) and lowshedding wipes. This shall be followed by wiping with a residue-free disinfecting agent such as sterile 70% IPA, which is allowed to dry before compounding begins. [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

39. ☑ ☐ <u>Cleaning Requirements</u>

Cleaning and disinfecting surfaces in the **LAFWs, BSCs, CAIs, and CACIs** are the most critical practices before the preparation of CSPs. Consequently, such **surfaces shall be cleaned and disinfected frequently, including at the beginning of each work shift, before each batch preparation is started, every 30 minutes during continuous compounding periods of individual CSPs, when there are spills, and when surface contamination is known or suspected from procedural breaches.** [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

40. ☐ ☐ **Work surfaces in the ISO Class 7 (see Table 1) buffer areas and ISO Class 8 (see Table 1) ante-areas as well as segregated compounding areas shall be cleaned and disinfected at least daily,** and dust and debris shall be removed when necessary from storage sites for compounding ingredients and supplies using a method that does not degrade the ISO Class 7 or 8 (see Table 1) air quality (see Disinfectants and Antiseptics <1072>).

41. ☐ ☐ [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

Floors in the buffer or clean area, ante-area, and segregated compounding area are cleaned by mopping with a cleaning and disinfecting agent once daily at a time when no aseptic operations are in progress. Mopping shall be performed by trained personnel using approved agents and procedures described in the

written SOPs. It is incumbent on compounding personnel to ensure that such cleaning is performed properly. [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

42. ☐ ☐ In the buffer or clean area, ante-area, and segregated compounding area, walls, ceilings, and shelving shall be cleaned and disinfected monthly. [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

43. ☑ ☐ **Cleaning and disinfecting agents** are to be used with careful consideration of compatibilities, effectiveness, and inappropriate or toxic residues (see Appendix II). Their **schedules of use and methods of application shall be in accordance with written SOPs and followed by custodial or compounding personnel.** [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

44. ☑ ☐ All **cleaning materials, such as wipers, sponges, and mops, shall be nonshedding,** preferably composed of synthetic micro fibers, and **dedicated to use in the buffer or clean area, ante-area, and segregated compounding areas and shall not be removed from these areas except for disposal.** Floor mops may be used in both the buffer or clean area and ante-area, but only in that order. Ideally, all cleaning tools are discarded after one use by collection in suitable plastic bags and removed with minimal agitation. If cleaning materials (e.g., mops) are reused, procedures shall be developed (based on manufacturers' recommendations) that ensure that the effectiveness of the cleaning device is maintained and that repeated use does not add to the bioburden of the area being cleaned. [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

45. ☑ ☐ **Supplies and equipment removed from shipping cartons shall be wiped with a suitable disinfecting agent** (e.g., sterile 70% IPA) delivered from a spray bottle or other suitable delivery method. After the disinfectant is sprayed or wiped on a surface to be disinfected, the disinfectant **shall be allowed to dry, during which time the item shall not be used for compounding purposes.** [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

Facilities and Environmental Monitoring

46. ☑ ☐ Surface sampling is an important component of the maintenance of a suitable microbially controlled environment for compounding CSPs, especially since transfer of microbial contamination from improperly disinfected work surfaces via inadvertent touch contact by compounding personnel can be a potential source of contamination into CSPs. It is useful for evaluating facility and work surface cleaning and disinfecting procedures and employee competency in work practices such as disinfection of component/vial surface cleaning. **Surface sampling shall be performed in all ISO classified areas on a periodic basis.** Sampling can be accomplished using contact plates or swabs, and it **shall be done at the conclusion of compounding. Locations to be sampled shall be defined in a sample plan or on a form.** The size of the plate to be used for each sampled location usually ranges from 24 to 30 cm2. Contact plates are filled with general solid agar growth medium and neutralizing agents above the rim of the plate, and they are used for sampling regular or flat surfaces. Swabs may be used for sampling irregular surfaces, especially for equipment (see Microbiological Control and Monitoring of Aseptic Processing Environments <1116>). [USP-NF Chapter 797- *Environmental Quality and Control - Personnel Training and Competency Evaluation of Garbing, Aseptic Work Practices, and Cleaning/Disinfection Procedures- Surface Cleaning and Disinfection Sampling and Assessment*]

47. ☑ ☐ The value of viable microbial monitoring of gloved fingertips and surfaces of components and the compounding environment are realized when the data are used to identify and correct an unacceptable work practice. **Sampling data shall be collected and reviewed on a routine basis as a means of evaluating the overall control of the compounding environment. If an activity consistently shows elevated levels of microbial growth, competent microbiology personnel shall be consulted.** [USP-NF Chapter 797- *Environmental Quality and Control - Action Levels, Documentation, and Data Evaluation*]

48. ☑ ☐ Food, drinks, and materials exposed in patient care and treatment areas shall not enter ante-areas, buffer areas, or segregated compounding areas where components and ingredients of CSPs are present. [USP-NF Chapter 797- Environmental Quality and Control- Additional Personnel Requirements]

49. ☑ ☐ **Compounding facilities shall have an adequate space that is specifically designated for compounding of prescriptions. This space shall provide for the orderly placement of equipment and materials to prevent mixups** among ingredients, containers, labels, in-process materials, and finished preparations and is designed, arranged, and used to prevent adventitious cross-contamination. Areas used for sterile preparations shall be separated and distinct from the nonsterile compounding area (see Pharmaceutical Compounding—Sterile Preparations <797>, Environmental Quality and Control). [USP-NF Chapter 795- Compounding Facilities]

50. ☑ ☐ The surfaces of ceilings, walls, floors, fixtures, shelving, counters, and cabinets in the buffer area shall be smooth, impervious, free from cracks and crevices, and nonshedding, thereby promoting cleanability, and minimizing spaces in which microorganisms and other contaminants may accumulate. The surfaces shall be resistant to damage by disinfectant agents. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls]*

51. ☑ ☐ Junctures of ceilings to walls shall be coved or caulked to avoid cracks and crevices where dirt can accumulate. If ceilings consist of inlaid panels, the panels shall be impregnated with a polymer to render them impervious and hydrophobic, and they shall be caulked around each perimeter to seal them to the support frame. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

52. ☑ ☐ Any other penetrations through the ceiling or walls shall be sealed. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

53. ☑ ☐ The buffer area shall not contain sources of water (sinks) or floor drains. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

54. ☑ ☐ Work surfaces shall be constructed of smooth, impervious materials, such as stainless steel or molded plastic, so that they are easily cleaned and disinfected. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

55. ☑ ☐ Storage shelving, counters, and cabinets shall be smooth, impervious, free from cracks and crevices, nonshedding, cleanable, and disinfectable; their number, design, and manner of installation shall promote effective cleaning and disinfection. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

56. ☑ ☐ There shall be some demarcation designation that separates the ante-area from the buffer area. [USP-NF Chapter 797-Environmental Quality and Control- Additional Personnel Requirements]

57. ☑ ☐ **To ensure that product potency is retained through the manufacturer's labeled expiration date, compounding personnel shall monitor the drug storage areas within the compounding facility.** Controlled temperature areas in compounding facilities include controlled room temperature, 20° to 25° with mean kinetic temperature 25°; controlled cold temperature, 2° to 8° with mean kinetic temperature 8°; cold temperature, 2° to 8°; freezing temperature, −25° and −10° (see General Notices and Requirements) if needed to achieve freezing, and the media-specific temperature range for microbial culture media. **A controlled temperature area shall be monitored at least once daily and the results documented on a temperature log. Additionally, compounding personnel shall note the storage temperature when placing the product into or removing the product from the storage unit in order to monitor any temperature aberrations.** Suitable temperature recording devices may include a calibrated continuous recording device or a National Institute of Standards and Technology (NIST) calibrated thermometer that has adequate accuracy and sensitivity for the intended purpose, and it shall be properly calibrated at suitable intervals. **If the compounding facility uses a continuous temperature recording device, compounding personnel shall verify at least once daily that the recording device itself is functioning properly.** [USP-NF Chapter 797- *Storage and Beyond Use Dating- Monitoring Controlled Storage Areas*]

58. ☑ ☐ **Certification that each ISO classified area, for example, ISO Class 5, 7, and 8 (see Table 1), is within established guidelines shall be performed no less than every 6 months and whenever the LAFW, BSC, CAI, or CACI is relocated or the physical structure of the buffer area or ante-area has been altered.** Testing shall be performed by qualified operators using current, state-of-the-art electronic equipment with results of the following: [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Total Particle Counts*]

- ☑ ISO Class 5: not more than 3520 particles 0.5 mm and larger size per cubic meter of air for any LAFW, BSC, CAI, and CACI;
- ☑ ISO Class 7: not more than 352,000 particles of 0.5 mm size and larger per cubic meter of air for any buffer area;
- ☑ ISO Class 8: not more than 3,520,000 particles or 0.5 mm size and larger per cubic meter of air for any ante-area.

59. ☑ ☐ **All certification records shall be maintained and reviewed by supervising personnel or other designated employees** to ensure that the controlled environments comply with the proper air cleanliness, room pressures, and ACPHs. [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Total Particle Counts*]

60. ☑ ☐ **A pressure gauge or velocity meter shall be installed to monitor the pressure** differential or airflow between the buffer area and the ante-area and between the ante-area and the general environment outside the compounding area. [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Pressure Differential Monitoring*]

61. ☑ ☐ **The results shall be reviewed and documented on a log at least every work shift** (minimum frequency shall be at least daily) or by a continuous recording device. [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Pressure Differential Monitoring*]

62. ☑ ☐ **The pressure between the ISO Class 7 (see Table 1) and the general pharmacy area shall not be less than 5 Pa (0.02 inch water column). In facilities where low- and medium-risk level CSPs are prepared, differential airflow shall maintain a minimum velocity of 0.2 meters per second (40 feet per minute) between buffer area and ante-area.** [USP-NF Chapter 797- *Environmental Quality and Control- Viable and Nonviable Environmental Sampling (ES) Testing- Pressure Differential Monitoring*]

63. ☑ ☐ **The buffer area shall maintain at least ISO Class 7 (see Table 1) conditions for 0.5-mm and larger particles under dynamic operating conditions.** The room shall be segregated from surrounding, unclassified spaces to reduce the risk of contaminants being blown, dragged, or otherwise introduced into the filtered unidirectional airflow environment, and this segregation shall be continuously monitored. [USP-NF Chapter 797 - *Environmental Quality and Control- Facility Design and Environmental Controls*]

64. ☑ ☐ For rooms providing a physical separation through the use of walls, doors, and pass-throughs, a minimum differential positive pressure of 0.02- to 0.05- inch water column is required. [USP-NF Chapter 797 - *Environmental Quality and Control- Facility Design and Environmental Controls*]

65. ☑ ☐ For buffer areas not physically separated from the ante-areas, the principle of displacement airflow shall be employed. This concept utilizes a low pressure differential, high airflow principle. Using displacement airflow typically requires an air velocity of 40 ft per minute or more from the buffer area across the line of demarcation into the ante-area. [USP-NF Chapter 797 - *Environmental Quality and Control- Facility Design and Environmental Controls*]

66. ☑ ☐ **An ISO Class 7 (see Table 1) buffer area and ante-area supplied with HEPA-filtered air shall receive an ACPH of not less than 30.** The PEC is a good augmentation to generating air changes in the air supply of an area but cannot be the sole source of HEPA-filtered air. If the area has an ISO Class 5 (see Table 1) recirculating device, a minimum of 15 ACPHs through the area supply HEPA filters is adequate, providing the combined ACPH is not less than 30. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

67. ☑ ☐ **HEPA-filtered supply air shall be introduced at the ceiling, and returns should be mounted low on the wall,** creating a general top-down dilution of area air with HEPA-filtered make-up air. Ceiling-mounted returns are not recommended. [USP-NF Chapter 797- *Environmental Quality and Control- Facility Design and Environmental Controls*]

68. ☑ ☐ **Activities and tasks carried out within the buffer area shall be limited to only those necessary when working within a controlled environment.** Only the **furniture, equipment, supplies, and other material required for the compounding activities to be performed shall be brought into the area, and they shall be nonpermeable, nonshedding, cleanable, and resistant to disinfectants.** Whenever such items are **brought into the area, they shall first be cleaned and disinfected.** Whenever possible, **equipment and other items used in the buffer area shall not be taken out of the area except for calibration, servicing, or other activities associated with the proper maintenance of the item.** [USP-NF Chapter 797- Environmental Quality and Control- Facility Design and Environmental Controls]

69. ☑ ☐ Secondary engineering controls such as buffer areas and ante-areas generally serve as a core for the location of the PEC. **Buffer areas are designed to maintain at least ISO Class 7 (see Table 1) conditions for 0.5-mm particles under dynamic conditions and ISO Class 8 (see Table 1) conditions for 0.5-mm and larger particles under dynamic conditions for the ante-areas.** [USP-NF Chapter 797 *Environmental Quality and Control, Facility Design and Environmental Controls*]

70. ☑ ☐ **PECs (LAFWs, BSCs, CAIs, and CACIs) and secondary engineering controls (buffer and ante-areas)** are essential components of the overall contamination control strategy for aseptic compounding. As such, it is imperative that they perform as designed and that the resulting levels of contamination be within acceptable limits. **Certification procedures such as those outlined in Certification Guide for Sterile Compounding Facilities (CAG-003-2006) shall be performed by a qualified individual no less than every 6 months and whenever the device or room is relocated or altered or major service to the facility is performed.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Nonviable Particle Testing Program*]

71. ☑ ☐ PECs typically include, but are not limited to, LAFWs, BSCs, CAIs, and CACIs, which provide an ISO Class 5 (see Table 1) environment for the exposure of critical sites. **PECs shall maintain ISO Class 5 (see Table 1) or better conditions for 0.5-mm particles (dynamic operating conditions) while compounding CSPs.** [USP-NF Chapter 797 -*Environmental Quality and Control, Facility Design and Environmental Controls*]

72. ☑ ☐ **The PEC shall be placed within a buffer area in such a manner as to avoid conditions that could adversely affect their operation.** For example, strong air currents from opened doors, personnel traffic, or air streams from the HVAC systems can disrupt the unidirectional airflow in open-faced workbenches. [USP-NF Chapter 797 - *Environmental Quality and Control, Facility Design and Environmental Controls*]

73. ☑ ☐ **PECs (LAFWs, BSCs, CAIs, and CACIs) shall be located within a restricted access ISO Class 7 (see Table 1) buffer area (see Figure 1),** with the following CAI/CACI exceptions below: [USP-NF Chapter 797 - *Environmental Quality and Control, Facility Design and Environmental Controls*]
☑ Only authorized personnel and materials required for compounding and cleaning shall be permitted in the buffer area.
☑ Presterilization procedures for high-risk level CSPs, such as weighing and mixing, shall be completed in no worse than an ISO Class 8 (see Table 1) environment.
☑ PECs shall be located out of traffic patterns and away from room air currents that could disrupt the intended airflow patterns.

74. ☐ ☐ N/a **CAIs and CACIs shall be placed in an ISO Class 7 (see Table 1) buffer area unless they meet all of the following conditions:** [USP-NF Chapter 797 - *Environmental Quality and Control, Facility Design and Environmental Controls*]
☐ The isolator shall provide isolation from the room and maintain ISO Class 5 (see Table 1) during dynamic operating conditions, including transferring ingredients, components, and devices into and out of the isolator and during preparation of CSPs.
☐ Particle counts sampled approximately 6 to 12 inches upstream of the critical exposure site shall maintain ISO Class 5 (see Table 1) levels during compounding operations.
☐ Not more than 3520 particles (0.5 mm and larger) per m3 shall be counted during material transfer, with the particle counter probe located as near to the transfer door as possible without obstructing the transfer.

75. ☑ ☐ **If the PEC is a CAI or CACI that does not meet the requirements above or is a LAFW or BSC that cannot be located within an ISO Class 7 (see Table 1) buffer area,** then only low-risk level nonhazardous and radiopharmaceutical CSPs pursuant to a physician order for a specific patient may be prepared, and administration of the CSP shall commence within 12 hours of preparation or as recommended in the manufacturer's package insert, whichever is less. [USP-NF Chapter 797 - *Environmental Quality and Control, Facility Design and Environmental Controls*]

76. ☐ ☐ N/A When isolators are used for sterile compounding, the recovery time to achieve ISO Class 5 (see Table 1) air quality shall be documented and internal procedures developed to ensure that adequate recovery time is allowed after material transfer before and during compounding operations. [USP-NF Chapter 797 - Environmental Quality and Control, Facility Design and Environmental Controls]

77. ☑ ☐ Airborne contamination control is achieved in the PEC through the use of HEPA filters. **The airflow in the PEC shall be unidirectional (laminar flow),** and because of the particle collection efficiency of the filter, the "first air" at the face of the filter is, for the purposes of aseptic compounding, **free from airborne particulate contamination. HEPA-filtered air shall be supplied in critical areas (ISO Class 5, see Table 1) at a velocity sufficient to sweep particles away from the compounding area and maintain unidirectional airflow during operations.** Proper design and control prevents turbulence and stagnant air in the critical area. [USP-NF Chapter 797- *Environmental Quality and Control, Facility Design and Environmental Controls*]

78. ☑ ☐ **In situ air pattern analysis via smoke studies shall be conducted** at the critical area to demonstrate unidirectional airflow and sweeping action over and away from the product under dynamic conditions. [USP-NF Chapter 797- *Environmental Quality and Control, Facility Design and Environmental Controls*]

79. ☑ ☐ **Environmental sampling shall occur as part a comprehensive quality management program** and shall occur minimally under any of the following conditions: [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing*]

☑ as part of the commissioning and certification of new facilities and equipment;
☑ following any servicing of facilities and equipment;
☑ as part of the re-certification of facilities and equipment (i.e., every 6 months);
☑ in response to identified problems with end products or staff technique; or
☑ in response to issues with CSPs, observed compounding personnel work practices, or patient-related infections (where the CSP is being considered as a potential source of the infection).

80. ☑ ☐ Sampling Plan—**An appropriate environmental sampling plan shall be developed for airborne viable particles based on a risk assessment of compounding activities performed. Selected sampling sites shall include locations within each ISO Class 5 (see Table 1) environment and in the ISO Class 7 and 8 (see Table 1) areas and in the segregated compounding areas at greatest risk of contamination** (e.g., work areas near the ISO Class 5 [see Table 1] environment, counters near doors, pass-through boxes). **The plan shall include sample location, method of collection, frequency of sampling, volume of air sampled, and time of day as related to activity in the compounding area and action levels.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program, Sampling Plan*]

81. ☑ ☐ Growth Medium—**A general microbiological growth medium such as Soybean–Casein Digest Medium shall be used to support the growth of bacteria. Malt extract agar or some other media that supports the growth of fungi shall be used in highrisk level compounding environments.** Media used for surface sampling must be supplemented with additives to neutralize the effects of disinfecting agents (e.g., TSA with lecithin and polysorbate 80). [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program, Sampling Plan*]

82. ☑ ☐ Viable Air Sampling—**Evaluation of airborne microorganisms using volumetric collection methods in the controlled air environments** (LAFWs, CAIs, clean room or buffer areas, and ante-areas) **shall be performed by properly trained individuals for all compounding risk levels. Impaction shall be the preferred method of volumetric air sampling.** Use of settling plates for qualitative air sampling may not be able to determine adequately the quality of air in the controlled environment. [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

83. ☑ ☐ **For low-, medium-, and high-risk level compounding, air sampling shall be performed at locations that are prone to contamination during compounding activities and during other activities such as staging, labeling, gowning, and cleaning.** Locations shall include zones of air backwash turbulence within LAFW and other areas where air backwash turbulence may enter the compounding area (doorways, in and around ISO Class 5 [see Table 1] PEC and environments). [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

84. ☑ ☐ **For low-risk level CSPs with 12-hour or less BUD prepared in a PEC** (LAFWs, BSCs, CAIs) **that maintains an**

ISO Class 5 (see Table 1), **air sampling shall be performed at locations inside the ISO Class 5** (see Table 1) **environment and other areas that are in close proximity to the ISO Class 5** (see Table 1) **environment during the certification of the PEC.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

85. ☑ ☐ Air Sampling Devices—There are a number of manufacturers of electronic air sampling equipment. It is important that personnel refer to the manufacturer's recommended procedures when using the equipment to perform volumetric air sampling procedures. The instructions in the manufacturer's user's manual for verification and use of electric air samplers that actively collect volumes of air for evaluation must be followed. **A sufficient volume of air (400 to 1000 liters) shall be tested at each location in order to maximize sensitivity. The volumetric air sampling devices need to be serviced and calibrated as recommended by the manufacturer.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

86. ☑ ☐ Air Sampling Frequency and Process—**Air sampling shall be performed at least semiannually (i.e., every 6 months) as part of the re-certification of facilities and equipment**. If compounding occurs in multiple locations within an institution (e.g., main pharmacy, satellites), environmental sampling is required for each individual compounding area. A sufficient volume of air shall be sampled and the manufacturer's guidelines for use of the electronic air sampling equipment followed. Any facility construction or equipment servicing may require that air sampling be performed during these events. [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

87. ☑ ☐ Action Levels, Documentation, and Data Evaluation—The value of viable microbial sampling of the air in the compounding environment is realized when the data are used to identify and correct an unacceptable situation. **Sampling data shall be collected and reviewed on a periodic basis as a means of evaluating the overall control of the compounding environment. If an activity consistently shows elevated levels of microbial growth, competent microbiology personnel shall be consulted.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

88. ☑ ☐ **Any cfu count that exceeds its respective action level (see Table 2) should prompt a re-evaluation of the adequacy of personnel work practices, cleaning procedures, operational procedures, and air filtration efficiency within the aseptic compounding location. An investigation into the source of the contamination shall be conducted.** Sources could include HVAC systems, damaged HEPA filters, and changes in personnel garbing or work practices. **The source of the problem shall be eliminated, the affected area cleaned, and resampling performed.** [USP-NF Chapter 797 - *Environmental Quality and Control, Viable and Nonviable Environmental Sampling (ES) Testing, Environmental Viable Airborne Particle Testing Program*]

89. ☐ ☐ n/a The intermediate precision of the **ACD** can be determined on the basis of the day-to-day variations in performance of the accuracy measures. Thus, **compounding personnel shall keep a daily record of the above-described accuracy assessments and review the results over time. This review shall occur at least at weekly intervals to avoid potentially clinically significant cumulative errors over time.** [USP-NF Chapter 797 - *Elements of Quality Control- Verification of Automated Compounding Devices (ACDs) for Parenteral Nutrition Compounding- Precision*]

90. ☑ ☐ **Compounding personnel shall ensure proper storage and security of CSPs prepared by or dispensed from the compounding facility until either their BUDs are reached or they are administered to patients.** In fulfilling this general responsibility, the compounding facility is responsible for the proper packaging, handling, transport, and storage of CSPs prepared by or dispensed from it, including the appropriate education, training, and supervision of compounding personnel assigned to these functions. The compounding facility should assist in the education and training of noncompounding personnel responsible for carrying out any aspect of these functions. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs*]

91. ☑ ☐ CSPs, as well as all other drug products, shall be stored in the patient-care area in such a way as to secure them from unauthorized personnel, visitors, and patients. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Use and Storage*]

Documentation

All facilities that dispense prescriptions must comply with the record keeping requirements of their State Boards of Pharmacy. When a facility compounds a preparation according to the manufacturer's labeling instructions, then further documentation is not required. All other compounded preparations require further documentation as described in this section. [UAC R 156-17b-614a (3)(d)]

92. ☐ ☐ A master formulation record shall be approved by a pharmacist or DMP for each batch of sterile or non-sterile pharmaceuticals to be prepared. Once approved, a duplicate of the master formulation record shall be used as the compounding record from which each batch is prepared and on which all documentation for that batch occurs. The master worksheet sheet may be stored electronically and shall contain at a minimum: [UAC R156-17b-614a(3)(e)(i-xiii)]

☑ official or assigned name
☑ strength
☑ dosage form of the preparation
☑ calculations needed to determine and verify quantities of components and doses of active pharmaceutical ingredients dosage form of the preparation
☑ description of ingredients and their quantities
☑ compatibility and stability information, including references when available
☑ equipment needed to prepare the preparation
☑ container used in dispensing
☑ packaging and storage requirements
☑ description of final preparation
☑ quality control procedures and expected results;
☑ mixing instructions, which shall include: ☑ order of mixing ☑ mixing temperatures or other environmental controls ☑ duration of mixing ☑ other factors pertinent to the replication of the preparation as compounded
☑ sample labeling information, which shall contain, in addition to legally required information: ☑ generic name and quantity or concentration of each active ingredient ☑ assigned beyond use date ☑ storage conditions ☑ prescription or control number, whichever is applicable

93. ☑ ☐ A compounding record for each batch of sterile or non-sterile pharmaceuticals shall document the following: [UAC R156-17b-614a(3)(f) (i-xix)]

☑ official or assigned name;
☑ strength and dosage of the preparation;
☑ Master Formulation Record reference for the preparation;
☑ names and quantities of all components
☑ sources, lot numbers, and expiration dates of components;
☑ total quantity compounded;
☑ name of the person who prepared the preparation
☑ name of the compounder who approved the preparation
☑ name of the person who performed the quality control procedures
☑ date of preparation
☑ assigned control, if for anticipation of use or prescription number, if patient specific, whichever is applicable
☑ duplicate label as described in the Master Formulation Record means the sample labeling information that is dispensed on the final product given to the patient and shall at minimum contain: ☑ active ingredients ☑ beyond use date ☑ storage conditions and ☑ lot number;
☑ proof of the duplicate labeling information, which proof shall: ☑ be kept at the pharmacy ☑ be immediately retrievable ☑ include an audit trail for any altered form; and ☑ be reproduced in: the original format that was dispensed, an electronic format, or a scanned electronic version
☑ description of final preparation
☑ results of quality control procedures (e.g. weight range of filled capsules, pH of aqueous liquids); and
☑ documentation of any quality control issues and any adverse reactions or preparation problems reported by the patient or caregiver.

94. ☑ ☐ Compounding records including the master worksheet, preparation worksheet, and MSDS files shall be kept for a minimum of five years and should be immediately retrievable in written or electronic format. [UAC R156-17b-612 (4)]

95. ☑ ☐ The facility maintains documentation regarding an ongoing quality control program that monitors and evaluates personnel performance, equipment and facility's compliance with following the USP-NF Chapters 795 and 797 standards. [UAC R156-17b-614a(3)(h)]

96. ☑ ☐ Results from the equipment calibration, annual maintenance reports, and routine maintenance are kept on file for the lifetime of the equipment. [USP-NF Chapter 797- *Elements of Quality Control- Equipment*]

Compounding Procedures

97. ☑ ☐ **Opened or needle-punctured single-dose containers**, such as bags, bottles, syringes, and vials of sterile products and CSPs **shall be used within 1 hour if opened in worse than ISO Class 5** (see Table 1) air quality (see Immediate-Use CSPs), **and any remaining contents must be discarded.** [USP-NF Chapter 797- *Single-Dose and Multiple-Dose Containers]*

98. ☑ ☐ ☐**Single-dose vials exposed to ISO Class 5** (see Table 1) **or cleaner air may be used up to 6 hours after initial needle puncture.** ☐**Opened single-dose ampuls shall not be stored for any time period.** ☑**Multiple-dose containers** (e.g., vials) **are formulated for removal of portions on multiple occasions because they usually contain antimicrobial preservatives.** The ☐**BUD after initially entering or opening (e.g., needle-punctured) multiple-dose containers is 28 days** (see Antimicrobial Effectiveness Testing <51>) unless otherwise specified by the manufacturer. [USP-NF Chapter 797- *Single-Dose and Multiple-Dose Containers]*

99. ☑ ☐ Wiping with small sterile 70% IPA swabs that are commercially available in individual foil-sealed packages (or a comparable method) is preferred for disinfecting entry points on bags and vials, allowing the IPA to dry before piercing stoppers with sterile needles and breaking necks of ampuls. **The surface of the sterile 70% IPA swabs used for disinfecting entry points of sterile packages and devices shall not contact any other object before contacting the surface of the entry point. Sterile 70% IPA wetted gauze pads or other particle-generating material shall not be used to disinfect the sterile entry points of packages and devices.** [USP-NF Chapter 797- *Environmental Quality and Control - Cleaning and Disinfecting the Compounding Area*]

100. ☐ ☐ n/a Pharmacy Bulk Package (see Containers for Injections under Injections <1>)—A container of a sterile preparation for parenteral use that contains many single doses. The contents are intended for use in a pharmacy admixture program and are restricted to the preparation of admixtures for infusion or, through a sterile transfer device, for the filling of empty sterile syringes. **The closure shall be penetrated only one time after constitution with a suitable sterile transfer device or dispensing set, which allows measured dispensing of the contents.** The pharmacy bulk package is to be used only in a suitable work area such as a laminar flow hood (or an equivalent clean air compounding area). **Where a container is offered as a pharmacy bulk package, the label shall (a) state prominently "Pharmacy Bulk Package—Not for Direct Infusion," (b) contain or refer to information on proper techniques to help ensure safe use of the product, and (c) bear a statement limiting the time frame in which the container may be used once it has been entered, provided it is held under the labeled storage conditions.** [USP-NF Chapter 797- *Definitions*]

101. ☑ ☐ **The licensed healthcare professionals who supervise compounding shall be responsible for determining that the selected sterilization method** (see Methods of Sterilization under Sterilization and Sterility Assurance of Compendial Articles <1211>) both sterilizes and maintains the strength, purity, quality, and packaging integrity of CSPs. [USP-NF Chapter 797 - *Verification of Compounding Accuracy and Sterility, Sterilization Methods*]

102. ☑ ☐ Critical sites are locations that include any component or fluid pathway surfaces (e.g., vial septa, injection ports, beakers) or openings (e.g., opened ampuls, needle hubs) exposed and at risk of direct contact with air (e.g., ambient room or HEPA filtered), moisture (e.g., oral and mucosal secretions), or touch contamination. Protection of critical sites by precluding physical contact and airborne contamination shall be given the highest priority in sterile compounding practice. [USP-NF Chapter 797 - Exposure of Critical Sites]

103. ☑ ☐ **All high-risk level CSPs that are prepared in groups of more than 25 identical individual single-dose packages** (e.g., ampuls, bags, syringes, vials) **or in multiple-dose vials (MDVs) for administration to multiple patients or that are exposed longer than 12 hours at 2° to 8° and longer than 6 hours at warmer than 8° before they are sterilized shall meet the sterility test** (see Sterility Tests <71>) **before they are dispensed or administered.** [USP-NF Chapter 797- *Finished Preparation Release Checks and Tests- Sterility Testing*]

104. ☐ ☐ n/a **All high-risk level CSPs, except those for inhalation and ophthalmic administration, that are prepared in groups of more than 25 identical individual single-dose packages (e.g., ampuls, bags, syringes, vials) or in MDVs for administration to multiple patients or that are exposed longer than 12 hours at 2° to 8° and longer than 6 hours at warmer than 8° before they are sterilized shall be tested to ensure that they do not contain excessive bacterial endotoxins** (see Bacterial Endotoxins Test <85> and Pyrogen Test <151>). In the absence of a bacterial endotoxins limit in the official monograph or other CSP formula source, the CSP shall not exceed the amount of USP Endotoxin Units (per hour per kilogram of body weight or square meters of body surface area) specified in Bacterial Endotoxins Test <85> referenced above for the appropriate route of administration. [USP-NF Chapter 797- *Finished Preparation Release Checks and Tests- Bacterial Endotoxin (Pyrogen) Testing*]

105. ☐ ☑ **Does the facility participate in the following** (check all applicable)**:**
☐ Hazardous Drugs ☐ Radiopharmaceuticals ☐ Allergen Extracts as CSPs

Hazardous Drugs

106. ☐ ☐ **All personnel who compound hazardous drugs shall be fully trained** in the **storage, handling, and disposal** of these drugs. This training **shall occur prior to preparing or handling hazardous CSPs**, and **its effectiveness shall be verified by testing specific hazardous drugs preparation techniques.** Such verification **shall be documented for each person at least annually.** This **training shall include didactic overview** of hazardous drugs, including mutagenic, teratogenic, and carcinogenic properties, and it **shall include ongoing training for each new hazardous drug that enters the marketplace.** [USP- NF Chapter 797- *Hazardous Drugs as CSPs*]

107. ☐ ☐ **Compounding personnel of reproductive capability shall confirm in writing that they understand the risks of handling hazardous drugs.** The training **shall include** at least the following: [USP- NF Chapter 797- *Hazardous Drugs as CSPs*]
- ☐ safe aseptic manipulation practices;
- ☐ negative pressure techniques when utilizing a BSC or CACI;
- ☐ correct use of CSTD devices;
- ☐ containment, cleanup, and disposal procedures for breakages and spills; and
- ☐ treatment of personnel contact and inhalation exposure.

108. ☐ ☐ Hazardous drugs shall be prepared for administration only under conditions that protect the healthcare workers and other personnel in the preparation and storage areas. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

109. ☐ ☐ Hazardous drugs shall be stored separately from other inventory in a manner to prevent contamination and personnel exposure. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

110. ☐ ☐ Hazardous drugs shall be handled with caution at all times using appropriate chemotherapy gloves during receiving, distribution, stocking, inventorying, preparation for administration, and disposal. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

111. ☐ ☐ Hazardous drugs shall be prepared in an ISO Class 5 (see Table 1) environment with protective engineering controls in place and following aseptic practices specified for the appropriate contamination risk levels defined in this chapter. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

112. ☐ ☐ Access shall be limited to areas where drugs are stored and prepared to protect persons not involved in drug preparation. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

113. ☐ ☐ **All hazardous drugs shall be prepared in a BSC or a CACI that meets or exceeds the standards for CACI in this chapter. The ISO Class 5** (see Table 1) **BSC or CACI shall be placed in an ISO Class 7** (see Table 1) **area that is physically separated** (i.e., a different area from other preparation areas) **and optimally has not less than 0.01-inch water column negative pressure to adjacent positive pressure ISO Class 7** (see Table 1) **or better ante-areas, thus providing inward airflow to contain any airborne drug. A pressure indicator shall be installed that can be readily monitored for correct room pressurization.** [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

114. ☐ ☐ If a CACI that meets the requirements of this chapter is used outside of a buffer area, the compounding area shall maintain a minimum negative pressure of 0.01-inch water column and have a minimum of 12 ACPHs. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

115. ☐ ☐ **When closed-system vial-transfer devices** (CSTDs) (i.e., vial-transfer systems that allow no venting or exposure of hazardous substance to the environment) **are used, they shall be used within the ISO Class 5 (see Table 1) environment of a BSC or CACI.** The use of a CSTD is preferred because of their inherent closed system process. In facilities that prepare a low volume of hazardous drugs, the use of two tiers of containment (e.g., CSTD within a BSC or CACI that is located in a non-negative pressure room) is acceptable. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

116. ☐ ☐ **Appropriate personnel protective equipment (PPE) shall be worn when compounding in a BSC or CACI and when using CSTD devices.** PPE should include gowns, face masks, eye protection, hair covers, shoe covers or dedicated shoes, double gloving with sterile chemo-type gloves, and compliance with manufacturers' recommendations when using a CACI. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

117. ☐ ☐ Compounding personnel of reproductive capability shall confirm in writing that they understand the risks of handling hazardous drugs. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

118. ☐ ☐ All personnel who compound hazardous drugs shall be fully trained in the storage, handling, and disposal of these drugs. This training shall occur prior to preparing or handling hazardous CSPs, and its effectiveness shall be verified by testing specific hazardous drugs preparation techniques. Such verification shall be documented for each person at least annually. This training shall include didactic overview of hazardous drugs, including mutagenic, teratogenic, and carcinogenic properties, and it shall include ongoing training for each new hazardous drug that enters the marketplace. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

119. ☐ ☐ **Disposal of all hazardous drug wastes shall comply with all applicable federal and state regulations.** All **personnel** who perform routine custodial waste removal and cleaning activities in storage and preparation areas for hazardous drugs **shall be trained** in appropriate procedures to protect themselves and prevent contamination. [USP-NF Chapter 797- *Hazardous Drugs as CSPs*]

Radiopharmaceuticals

120. ☐ ☐ For the purposes of this chapter, **radiopharmaceuticals compounded from sterile components in closed sterile containers and with a volume of 100 mL or less for a single-dose injection or not more than 30 mL taken from a multiple-dose container (see Injections <1>) shall be designated as, and conform to, the standards for Low-Risk Level CSPs.** These radiopharmaceuticals **shall be compounded using appropriately shielded vials and syringes in a properly functioning and certified ISO Class 5 (see Table 1) PEC located in an ISO Class 8 (see Table 1) or cleaner air environment to permit compliance with special handling, shielding, and negative air flow requirements.** [USP-NF Chapter 797- *Radiopharmaceuticals as CSPs*]

121. ☐ ☐ **Radiopharmaceuticals prepared as Low-Risk Level CSPs with 12-Hour or Less BUD shall be prepared in a segregated compounding area.** A line of demarcation defining the segregated compounding area shall be established. Materials and garb exposed in a patient care and treatment area shall not cross a line of demarcation into the segregated compounding area. [USP-NF Chapter 797- *Radiopharmaceuticals as CSPs*]

Allergen Extracts as CSPs

122. ☐ ☐ Allergen extracts as CSPs are single-dose and multiple-dose intradermal or subcutaneous injections that are prepared by specially trained physicians and personnel under their direct supervision. **Allergen extracts as CSPs are not subject to the personnel, environmental, and storage requirements for all CSP Microbial Contamination Risk Levels in this chapter only when all of the following criteria are met:** [USP-NF Chapter 797- Allergen Extracts as CSPs]

☐ The compounding process involves simple transfer via sterile needles and syringes of commercial sterile allergen products and appropriate sterile added substances (e.g., glycerin, phenol in sodium chloride injection).
☐ All allergen extracts as CSPs shall contain appropriate substances in effective concentrations to prevent the growth of microorganisms. Nonpreserved allergen extracts shall comply with the appropriate CSP risk level requirements in the chapter.
☐ Before beginning compounding activities, personnel perform a thorough hand-cleansing procedure by removing debris from under fingernails using a nail cleaner under running warm water followed by vigorous hand and arm washing to the elbows for at least 30 seconds with either nonantimicrobial or antimicrobial soap and water.
☐ Compounding personnel don hair covers, facial hair covers, gowns, and face masks.
☐ Compounding personnel perform antiseptic hand cleansing with an alcohol-based surgical hand scrub with persistent activity.
☐ Compounding personnel don powder-free sterile gloves that are compatible with sterile 70% isopropyl alcohol (IPA) before beginning compounding manipulations.
☐ Compounding personnel disinfect their gloves intermittently with sterile 70% IPA when preparing multiple allergen extracts as CSPs.
☐ Ampul necks and vial stoppers on packages of manufactured sterile ingredients are disinfected by careful wiping with sterile 70% IPA swabs to ensure that the critical sites are wet for at least 10 seconds and allowed to dry before they are used to compound allergen extracts as CSPs.
☐ The aseptic compounding manipulations minimize direct contact contamination (e.g., from glove fingertips, blood, nasal and oral secretions, shed skin and cosmetics, other nonsterile materials) of critical sites (e.g., needles, opened ampuls, vial stoppers).
☐ The label of each multiple-dose vial (MDV) of allergen extracts as CSPs lists the name of one specific patient and a BUD and storage temperature range that is assigned based on manufacturers' recommendations or peer-reviewed publications.
☐ Single-dose allergen extracts as CSPs shall not be stored for subsequent additional use.

Sterilization

123. ☑ ☐ Does the facility participate in the following (check all applicable):
☑ Filter Sterilization in an ISO class 5 ☐ Steam Sterilization ☐ Dry Heat Sterilization

124. ☑ ☐ **(Filter Sterilization in an ISO class 5)**
Commercially available sterile filters shall be approved for human-use applications in sterilizing pharmaceutical fluids. **Sterile filters used to sterilize CSPs shall be pyrogen free and have a nominal pore size of 0.2 or 0.22 mm.** They shall be certified by the manufacturer to retain at least 107 microorganisms of a strain of Brevundimonas (Pseudomonas) diminuta on each square centimeter of upstream filter surface area under conditions similar to those in which the CSPs will be sterilized (see High-Risk Conditions in High-Risk Level CSPs). [USP-NF Chapter 797 - *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Filtration*]

125. ☑ ☐ **The compounding supervisor shall ensure**, directly or from appropriate documentation, that **the filters** are chemically and physically stable at the pressure and temperature conditions to be used, that they have enough capacity to filter the required volumes, and that they will achieve sterility and maintain prefiltration pharmaceutical quality, including strength of ingredients of the specific CSP. [USP-NF Chapter 797 - *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Filtration*]

126. ☑ ☐ The filter dimensions and liquid material to be sterile-filtered shall permit the sterilization process to be completed rapidly, without the replacement of the filter during the process. [USP-NF Chapter 797 - *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Filtration*]

127. ☑ ☐ Filter units used to sterilize CSPs shall also be subjected to manufacturers' recommended integrity test, such as the bubble point test. [USP-NF Chapter 797 - *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Filtration*]

128. ☑ ☐ Compounding personnel shall ascertain that selected filters will achieve sterilization of the particular CSPs being sterilized. [USP-NF Chapter 797 - *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Filtration*]

129. ☐ ☐ **(Steam Sterilization)**
The process of thermal sterilization employing saturated steam under pressure, or autoclaving, is the preferred method to terminally sterilize aqueous preparations that have been verified to maintain their full chemical and physical stability under the conditions employed (see Steam Sterilization under Sterilization and Sterility Assurance of Compendial Articles <1211>).**To achieve sterility, all materials are to be exposed to steam at 121° under a pressure of about 1 atmosphere or 15 psi for the duration verified by testing to achieve sterility of the items, which is usually 20 to 60 minutes for CSPs.** An allowance shall be made for the time required for the material to reach 121° before the sterilization exposure duration is timed. [USP-NF Chapter 797- *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Steam*]

130. ☐ ☐ Not directly exposing items to pressurized steam may result in survival of microbial organisms and spores. Before their sterilization, plastic, glass, and metal devices are tightly wrapped in low-particle-shedding paper or fabrics or sealed in envelopes that prevent poststerilization microbial penetration. **Immediately before filling ampuls and vials that will be steam sterilized, solutions are passed through a filter having a nominal pore size not larger than 1.2 mm for removal of particulate matter. Sealed containers shall be able to generate steam internally; thus, stoppered and crimped empty vials shall contain a small amount of moisture to generate steam.** [USP-NF Chapter 797- *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Steam*]

131. ☐ ☐ The description of steam sterilization conditions and duration for specific CSPs shall be included in written documentation in the compounding facility. The effectiveness of steam sterilization shall be verified using appropriate BIs of Bacillus stearothermophilus (see Biological Indicators <1035>) and other confirmation methods such as temperature-sensing devices (see Sterilization and Sterility Assurance of Compendial Articles <1211> and Sterility Tests <71>). [USP-NF Chapter 797- *Verification of Compounding Accuracy and Sterility- Sterilization Methods- Sterilization of High-Risk Level CSPs by Steam*]

132. ☐ ☐ **(Dry Heat Sterilization)**
Dry heat sterilization is usually done as a batch process in an oven designed for sterilization. **Heated filtered air shall be evenly distributed throughout the chamber by a blower device.** [USP-NF Chapters 797- *Verification of Compounding Accuracy and Sterility- Sterilization Method- Sterilization of High-Risk Level CSPs by Dry Heat*]

133. ☐ ☐ **Dry heat shall be used only for those materials that cannot be sterilized by steam,** when either the moisture would damage the material or the material is impermeable. [USP-NF Chapters 797- *Verification of Compounding Accuracy and Sterility-, Sterilization Method- Sterilization of High-Risk Level CSPs by Dry Heat*]

134. ☐ ☐ During sterilization, sufficient space shall be left between materials to allow for good circulation of the hot air. [USP-NF Chapters 797- *Verification of Compounding Accuracy and Sterility- Sterilization Method- Sterilization of High-Risk Level CSPs by Dry Heat*]

135. ☐ ☐ The description of dry heat sterilization conditions and duration for specific CSPs shall be included in written documentation in the compounding facility. [USP-NF Chapters 797- *Verification of Compounding Accuracy and Sterility- Sterilization Method- Sterilization of High-Risk Level CSPs by Dry Heat*]

136. ☐ ☐ The effectiveness of dry heat sterilization shall be verified using appropriate BIs of Bacillus subtilis (see Biological Indicators <1035>) and other confirmation methods such as temperature- sensing devices (see Sterilization and Sterility Assurance of Compendial Articles <1211> and Sterility Tests <71>). [USP-NF Chapters 797- *Verification of Compounding Accuracy and Sterility- Sterilization Method- Sterilization of High-Risk Level CSPs by Dry Heat*]

Finished Preparation Release Checks and Tests

137. ☑ ☐ **All CSPs that are intended to be solutions shall be visually examined for the presence of particulate matter and not administered or dispensed when such matter is observed.** The prescription orders, written compounding procedure, preparation records, and expended materials used to make CSPs at all contamination risk levels are inspected for accuracy of correct identities and amounts of ingredients, aseptic mixing and sterilization, packaging, labeling, and expected physical appearance before they are administered or dispensed. [USP- NF Chapter 797- Finished Preparation Release Checks and Tests- Inspection of Solution Dosage Forms and Review of Compounding Procedures

138. ☑ ☐ **The accuracy of identities, concentrations, amounts, and purities of ingredients in CSPs shall be confirmed by reviewing labels on packages, observing and documenting correct measurements with approved and correctly standardized devices, and reviewing information in labeling and certificates of analysis provided by suppliers.** When the correct identity, purity, strength, and sterility of ingredients and components of CSPs cannot be confirmed (in cases of, for example, unlabeled syringes, opened ampuls, punctured stoppers of vials and bags, containers of ingredients with incomplete labeling), such ingredients and components shall be discarded immediately. [USP-NF Chapter 797- *Verification of Compounding Accuracy and Sterility*]

139. ☑ ☐ The label of each batch prepared of sterile or non-sterile pharmaceuticals shall bear at a minimum: [UAC R156-17b-614a (3)(g)(i-vi)

☑ the unique lot number assigned to the batch;
☑ all active solution and ingredient names, amounts strengths and concentrations, where applicable
☑ quantity
☑ beyond use date and time, when applicable
☑ appropriate ancillary instructions, such as storage instructions or cautionary statements, including cytotoxic warning labels where appropriate; and
☑ device-specific instructions, where appropriate.

140. ☑ ☐ All prescription labels for compounded sterile and non-sterile medications when dispensed to the ultimate user or agent shall bear at a minimum in addition to what is required in Section 58-17b-602 the following: [R156-17b-614a (3)(h)(i)(ii)(iii)

☑ generic name a quantity or concentration of each active ingredient. In the instance of a sterile preparation for parenteral use, labeling shall include the name and base solution for infusion preparation;
☑ assigned compounding record or lot number; and
☑ "this is a compounded preparation" or similar language

Packaging and Storage

141. ☑ ☐ Compounding facilities that ship CSPs to locations outside their own premises shall select modes of transport that are expected to deliver properly packed CSPs in undamaged, sterile, and stable condition to recipients. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packing and Transporting CSPs- Transit of CSPs*]

142. ☑ ☐ Compounding personnel should ascertain that temperatures of CSPs during transit by the selected mode will not exceed the warmest temperature specified on the storage temperature range on CSP labels. It is recommended that compounding personnel communicate directly with the couriers to learn shipping durations and exposure conditions that CSPs may encounter. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Packing and Transporting CSPs- Transit of CSPs*]

143. ☑ ☐ Compounding facilities that ship CSPs to patients and other recipients outside their own premises shall ascertain or provide, whichever is appropriate, the following assurances: [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSP- Storage in Locations Outside Compounding Facilities*]

☑ Labels and accessory labeling for CSPs include clearly readable BUDs, storage instructions, and disposal instructions for out-of-date units.
☑ Each patient or other recipient is able to store the CSPs properly, including the use of a properly functioning refrigerator and freezer if CSPs are labeled for such storage.

144. ☑ ☐ **Inspections shall confirm compliance with appropriate storage conditions, separation of drugs and food, proper use of MDVs, and the avoidance of using single-dose products as MDVs.** CSPs, as well as all other drug products, shall be stored in the patient-care area in such a way as to secure them from unauthorized personnel, visitors, and patients. [USP- NF Chapter 797- *Finished Preparation Release Checks and Tests- Monitoring Controlled Storage Areas*]

145. ☑ ☐ Personnel who prepare, dispense, and administer CSPs shall store them strictly in accordance with the conditions stated on the label of ingredient products and finished CSPs. [USP-NF Chapter 797- Storage and Beyond-use Dating]

Quality Assurance Program

146. ☑ ☐ The assurance of CSPs' quality and packaging integrity is highly dependent on the proper adherence of all personnel to the pertinent SOPs. **Compounding personnel shall design, implement, and maintain a formal education, training, and competency assessment program that encompasses all the functions and tasks addressed in the foregoing sections and all personnel to whom such functions and tasks are assigned.** This program includes the assessment and documentation of procedural breaches, administration mishaps, side effects, allergic reactions, and complications associated with dosage or administration, such as extravasation. This program should be coordinated with the institution's adverse-events and incident reporting programs. [USP-NF Chapter 797- *Maintaining Sterility, Purity, and Stability of Dispensed and Distributed CSPs- Education and Training*]

147. ☑ ☐ **A provider of CSPs shall have in place a formal QA program intended to provide a mechanism for monitoring, evaluating, correcting, and improving the activities and processes described in this chapter.** Emphasis in the QA program is placed on maintaining and improving the quality of systems and the provision of patient care. In addition, the QA program ensures that any plan aimed at correcting identified problems also includes appropriate follow-up to make certain that effective corrective actions were performed. Characteristics of a QA program include the following: [USP-NF Chapter 797- *Quality Assurance (QA) Program*]

☑ Formalization in writing;
☑ Consideration of all aspects of the preparations and dispensing of products as described in this chapter, including environmental testing and verification results;
☑ Description of specific monitoring and evaluation activities;
☑ Specification of how results are to be reported and evaluated;
☑ Identification of appropriate follow-up mechanisms when action limits or thresholds are exceeded; and
☑ Delineation of the individuals responsible for each aspect of the QA program.

148. ☑ ☐ A written quality assurance procedure includes the following in-process checks that are applied, as appropriate, to specific CSPs: [USP-NF Chapter 797- *Responsibilities of Compounding Personnel*]

☑ accuracy and precision of measuring and weighing;
☑ the requirement for sterility;
☑ methods of sterilization and purification;
☑ safe limits and ranges for strength of ingredients, bacterial endotoxins, and particulate matter;
☑ pH;
☑ labeling accuracy and completeness;
☑ BUD assignment;
☑ and packaging and storage requirements.

149. ☑ ☐ Compounding facilities shall clinically monitor patients treated with CSPs according to the regulations and guidelines of their respective state healthcare practitioner licensure boards or of accepted standards of practice. **Compounding facilities shall provide patients and other recipients of CSPs with a way to address their questions and report any concerns that they may have with CSPs and their administration devices.** [USP-NF Chapter 797- *Patient Monitoring and Adverse Events Reporting*]

COMMENTS
(Use an additional sheet if necessary.)

Assisted by Justin Meier, CPhT/Owner, Devin Meier Pharmacist/Owner, and Michael Stucki Staff Pharmacist.

Michael Stucki is the only individual who does sterile compounding.

SOPs were reviewed and compliant.

Media fill for Michael Stucki was not present at the beginning of the inspection. Requested to receive these by end of day 6/30/2025 and send to zackchristensen@utah.gov.

Last hood certification was conducted on 3/28/2025 by Heninger Enterprises LLC.

The facility compounds tirzepatide and semaglutide with glycine additives. A review of two prescriptions each was conducted and found compliant.

The facility does perform terminal filter sterilization. The facility attaches the information onto each CR.

The facility does perform internal endotoxin test.

A review of the MFR was conducted and compliant.

A review of a CR was conducted and compliant.

The facility informs patients and writes on the receipts how to report adverse reactions.

The facility has a compliant QA program.

☑ By checking this box it is indicated that the undersigned Division Investigator has reviewed the above inspection report and comments made with the undersigned "Responsible Party."

Pharmacist-in-Charge License Number: 374023-1701 Expiration Date: 9/30/25

58-17b-621. Automated pharmacy systems

Automated pharmacy systems can be utilized in licensed pharmacies, remote locations under the jurisdiction of the Utah State Board of Pharmacy, and licensed health care facilities where legally permissible, as approved by the division in collaboration with the board, and described in rule.

	Yes	No	
1.	☑	☐	Documentation as to type of equipment, serial numbers, content, policies and procedures, and location shall be maintained on site in the pharmacy for review upon request of the Division. Such documentation shall include: [UAC R156-17b-620(1)] ✔ Name and address of the pharmacy or licensed health care facility where the automated pharmacy system is being used ✔ Manufacturer's name and model ✔ Description of how the device is used ✔ Quality assurance procedures to determine continued appropriate use of the automated device ✔ Policies and procedures for system operation, safety, security, accuracy, patient confidentiality, access and malfunction
2.	☑	☐	Automated pharmacy systems should be used only in settings where there is an established program of pharmaceutical care that ensures that before dispensing, or removal from an automated storage and distribution device, a pharmacist reviews all prescription or medication orders unless a licensed independent practitioner controls the ordering, preparation and administration of the medication; or in urgent situations when the resulting delay would harm the patient including situations in which the patient experiences a sudden change in clinical status. [UAC R156-17b-620(2)]
3.	☑	☐	All policies and procedures must be maintained in the pharmacy responsible for the system and, if the system is not located within the facility where the pharmacy is located, at the location where the system is being used. [UAC R156-17b-620(3)]
4.	☑	☐	Automated pharmacy systems shall have: [UAC R156-17b-620(4)] ✔ Adequate security systems and procedures to, prevent unauthorized access, comply with federal and state regulations, and prevent illegal use or disclosure of protected health information. ✔ Written policies and procedures in place prior to installation to ensure safety, accuracy, security, training of personnel, and patient confidentiality, and to define access and limits to equipment and medications.
5.	☑	☐	Records and electronic data kept by automated pharmacy systems shall meet the following requirements: [UAC R156-17b-620(5)] ✔ All events involving the contents of the automated pharmacy system must be recorded electronically ✔ Records must be maintained by the pharmacy for a period of five years and must be readily available to the Division. Such records shall include:

- ☑ Identity of system accessed
- ☑ Identity of the individual accessing the system
- ☑ Type of transaction
- ☑ Name, strength, dosage form and quantity of the drug accessed
- ☑ Name of the patient for whom the drug was ordered
- ☑ Any additional information the PIC may deem necessary

6. ☑ ☐ Access to and limits on access to the automated pharmacy system must be defined by policy and procedures and must comply with state and federal regulations. [UAC R156-17b-620(6)]

7. ☑ ☐ The PIC or pharmacist designee shall have the sole responsibility to: [UAC R156-17b-620(7)]
   - ☑ Assign, discontinue or change access to the system
   - ☑ Ensure that access to the medications comply with state and federal regulations
   - ☑ Ensure that the automated pharmacy system is filled and stocked accurately and in accordance with established written policies and procedures.

8. ☑ ☐ The filling and stocking of all medications in the automated pharmacy system shall be accomplished by qualified licensed healthcare personnel under the supervision of a licensed pharmacist. [UAC R156-17b-620(8)]

9. ☑ ☐ A record of medications filled and stocked into an automated pharmacy system shall be maintained for a period of five years and shall include the identification of the persons filling, stocking, and checking for accuracy. [UAC R156-17b-620(9)]

10. ☑ ☐ All containers of medications stored in the automated pharmacy system shall be packaged and labeled in accordance with federal and state laws and regulations. [UAC R156-17b-620(10)]

11. ☐ ☐ All aspects of handling controlled substances shall meet the requirements of all state and federal laws and regulations. [UAC R156-17b-620(11)]
    N/A ☑

12. ☑ ☐ The automated pharmacy system shall provide a mechanism for securing and accounting for medications removed from and subsequently returned to the automated pharmacy system, all in accordance with existing state and federal law. Written policies and procedures shall address situations in which medications removed from the system remain unused and must be secured and accounted for. [UAC R156-17b-620(12)]

13. ☑ ☐ The automated pharmacy system shall provide a mechanism for securing and accounting for wasted medications or discarded medications in accordance with existing state and federal law. Written policies and procedures shall address situations in which medications removed from the system are wasted or discarded and must be secured. [UAC R156-17b-620(13)]

COMMENTS

(Use an additional sheet if necessary)

Assisted by Pharmacist Devin Meier and Pharmacy Technician Justin Meier.

The pharmacy utilizes a Parata Max 2

Serial Number 18-3623-11157 Model Number 907-0215

Policies and procedures are available and compliant.

☑ By checking this box it is indicated that the undersigned Division Investigator has reviewed the above inspection report and comments made with the undersigned "Responsible Party."

VERIFICATION OF UTAH LICENSURE

Created On: 07/17/2025

This verification is considered a primary source from the State of Utah.

Name of Licensee (as it appears in our records): Hillcrest Pharmacy LLC

Classification of License Issued: Pharmacy - Class A

License Number: 10633340-1703

Obtained By: Application

Current Status: Active

Original Date of Licensure: 01/04/2018

Expiration Date: 09/30/2027

Agency and Disciplinary Action: NO DISCIPLINARY ACTIONS WITHIN THE TIME FRAME ESTABLISHED IN UTAH CODE 63G-4-106 AND 107**

Docket and Citation Number(s):

E-Prescriber:

The information provided on this form is accurate and correct as of the verification creation date listed on the top of this form. Original issue dates listed, as 01/01/1910 and 01/01/1911 were unknown when the division implemented its first licensing database. This verification form does not show a complete history or interruptions in licensure. If you have any questions please contact the division.

☐ ☑ Non Sterile Compounding
☐ ☑ Mail Service Sterile Compounding
☐ ☑ Other Services: _____

All boxes must be checked for the application to be complete

An appearance will be required at a board meeting before the license will be issued.

Board Use Only Date Processed: 5/6/25 Amount: $500-ck 0401

FEI Number (From FDA application): 3022483154

Please provide the name of the facility as registered with the FDA and the registration number:
Tailstorm Health INC

Please provide a list of all DBA's used by outsourcing facility. A separate sheet is acceptable.
Medivant Healthcare

Please provide the name and Nevada license number of the supervising pharmacist:
Name: Sidra Pervez Nevada License Number: 24473

A Nevada business license is not required, however if the OUTSOURCING FACILITY has a Nevada business license please provide the number: N/A

This page must be submitted for all types of ownership.

Within the last five (5) years:

1) Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest, ever been charged, or convicted of a felony or gross misdemeanor (including by way of a guilty plea or no contest plea)? Yes ☐ No ☑

2) Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest, ever been denied a license, permit or certificate of registration? Yes ☐ No ☑

3) Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest, ever been the subject of an administrative action, board citation, cite fine or proceeding relating to the pharmaceutical industry? Yes ☐ No ☑

4) Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest, ever been found guilty, pled guilty or entered a plea of nolo contendere to any offense federal or state, related to controlled substances? Yes ☐ No ☑

5) Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest, ever surrendered a license, permit or certificate of registration voluntarily or otherwise (other than upon voluntary close of a facility)? Yes ☐ No ☑

If the answer to question 1 through 5 is "yes", a signed statement of explanation must be attached. Copies of any documents that identify the circumstance or contain an order, agreement, or other disposition may be required.

APPLICATION FOR OUT-OF STATE OUTSOURCING FACILITY - Page 3

I hereby certify that the answers given in this application and attached documentation are true and correct. I understand that any infraction of the laws of the State of Nevada regulating the operation of an authorized OUTSOURCING FACILITY may be grounds for the revocation of this permit.

I have read all questions, answers and statements and know the contents thereof. I hereby certify, under penalty of perjury, that the information furnished on this application are true, accurate and correct. I hereby authorize the Nevada State Board of Pharmacy, its agents, servants and employees, to conduct any investigation(s) of the business, professional, social and moral background, qualification and reputation, as it may deem necessary, proper or desirable. The facility must be registered with the FDA as an outsourcing facility (503B) to obtain an outsourcing facility from the Board of Pharmacy.

Federal and State law require a licensed pharmacist to supervise the compounding taking place in a registered outsourcing facility. This supervising pharmacist must be licensed by the Nevada Board of Pharmacy.

Does your outsourcing facility wholesale compounded medication for resale? Yes ☐ No ☒

The Law prohibits the resale of compounded medication. By signing this application you are attesting that your medications will be labeled with the statement "Not for Resale" and that the outsourcing facilities products will not be resold.

Previous 1 Next

Notes

1. The "initial date of registration as an outsourcing facility" is the date the facility was first registered (i.e., the date FDA determined that the initial registration information submitted for the facility was complete, and the establishment fee was paid in full).

   Under section 503B(b) of the FD&C Act, after the initial registration, a facility that elects to continue to be registered with FDA as an outsourcing facility must re-register annually. A facility that elects to register (or re-register) with FDA as an outsourcing facility must pay an annual establishment fee. The "date of most recent registration as an outsourcing facility" reflects the date FDA determined the most recently submitted registration information was complete and the annual establishment fee for that fiscal year paid in full.

   Unless a previously registered outsourcing facility re-registers and pays the annual establishment fee in full during the registration period (between October 1 and December 31 of each calendar year), the facility will be removed from the list of registered outsourcing facilities on January 1 of the next calendar year.

2. Once an outsourcing facility is registered, the facility will be added to the list of facilities FDA intends to inspect according to a risk-based schedule. FDA plans to inspect outsourcing facilities within a reasonable period of time following initial registration, once it is confirmed that the facility has initiated drug production and distribution. However, the exact timing of the inspections can be affected by a number of variables, including the number of outsourcing facility registrants, other inspection priorities, and the operational status of the newly registered outsourcing facility.

   Inspections identified in this table are associated with the facility at the listed address. A company may own or operate more than one registered outsourcing facility. FDA's web page Compounding: Inspections, Recalls, and other Actions (/drugs/human-drug-compounding/compounding-inspections-recalls-and-other-actions) may contain information about compounding facilities under the same

ownership as the listed registered outsourcing facility.

Inspections may take place over several days, weeks or longer. The date of the inspection is the date a Form FDA 483 listing the investigators' observations was issued. If no FDA Form 483 was issued, the date is the last day of the inspection.

3. A Form FDA 483 is issued when investigators observe any significant objectionable conditions. It does not constitute a final agency determination of whether any condition is in violation of the FD&C Act or any relevant regulations.
4. This table does not include State Board of Pharmacy actions, if any. To determine whether a registered outsourcing facility has been the subject of a state enforcement action, check with the State Board of Pharmacy for the state in which the facility is located. Some states post disciplinary or other actions on their web sites.
5. "Closed" means the inspection has been closed without further action. "Open" means FDA has not determined whether further action will be taken. If an action has been taken, it will be listed. Possible FDA actions include warning letter, seizure or injunction.
6. The information in this column was provided by the registered outsourcing facility at the time of registration and has not been verified by FDA. "N/A" indicates the registered outsourcing facility has not provided this information.
7. This outsourcing facility was the subject of at least one previous inspection relating to compounding that resulted in a Form FDA 483, warning letter or other action. For information about such inspections and resulting actions, visit Compounding: Inspections, Recalls, and other Actions (/drugs/human-drug-compounding/compounding-inspections-recalls-and-other-actions).
8. A remote regulatory assessment (RRA) is an examination of an FDA-regulated establishment and/or its records, conducted remotely, to evaluate compliance with applicable FDA requirements. These assessments assist in protecting human and animal health, inform regulatory decisions and verify certain information submitted to the agency.
9. Based on inspectional findings, the inspection revealed significant issues. As a result, the outsourcing facility may have either initiated a recall on their own following conversation(s) with the FDA investigator or FDA recommended a recall at the conclusion of the inspection or both. Additionally, the outsourcing facility may have conducted multiple recalls or recalled multiple drugs.

Sterile Compounding Questionnaire

Rev (09/11/2024)

This application cannot be returned by fax or email.
We must have an original signature to process.

Approval of this completed questionnaire is required for an existing pharmacy, new pharmacy and/or out-sourcing facility applicant who wish to engage in preparing, compounding, dispensing, and furnishing sterile compounded products to Nevada patients or consumers.

Please provide a thorough response to the questions below and provide any necessary supporting documents.
-For a new pharmacy or out-sourcing facility applicant, submit this completed form with your application.
-For an existing pharmacy, send the completed form to the address indicated above.

Section 1: General Information

Pharmacy Name: Tailstorm Health INC DBA Medivant Healthcare

NV Pharmacy or Outsourcing facility license # (if applicable): N/A

Physical Address: 24416 N 19Th Ave suite 200

City: Phoenix State: AZ Zip: 85085

Mailing Address (if different from physical address): 158 S Kyrene rd

City: Chandler State: AZ Zip: 85226

Telephone: 4806055200 Toll Free # (NAC 639.708, NRS 639.23286):

Fax: Contact Email: licensing@medivanthealth.com

Website: medivanthealth.com

Nevada Business License # (if applicable) N/A

Supervising/Managing Pharmacist Name (NRS 639.220): Sidra Pervez

Supervising/Managing Pharmacist NV Pharmacist Registration #: 24473

Name of Designated Person(s) as defined by revised USP-797 guidelines:

Email of Designated Person(s): licensing@medivanthealth.com

Telephone of Designated Person(s): 4806055200

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)?

   Category 1 Category 2 ■ Category 3

If you marked "**Category 3**", you must also complete **section 4**.

2. If compounding Category 2 products is the location performing sterility and endotoxin testing (if required) to obtain extended beyond-use dates? N/A Yes No

3. If compounding Category 2 products is the location performing aseptically processed CSPs or terminally sterilized CSPs? N/A Aseptic Terminal

4. Is the pharmacy following the new garbing requirements listed in the revised USP-797 guidelines? ■ Yes No

5. When was the most recent certification for the ISO classified areas? December 2024

6. What is the frequency of the recertification for the ISO classified areas? Every six months

7. Were there any follow-up items required from the most recent certification report? Yes ■ No

8. If preparing Category 2 or Category 3 CSPs from non-sterile starting components are the pre-sterilization procedures such as weighing and mixing completed in an ISO Class 8 or better environment? ■ Yes No

9. If compounding Category 1 CSPs and Category 2 CSPs how often is surface sampling of all classified areas and pass-through chambers conducted? Every Batch surface sampling is performed Batches when pass-through chambers are use

10. Will you be performing sterile hazardous drug compounding? Yes ■ No

If you marked "**Yes**", you must also complete **section 3**.

11. List the sterile compounded products that you will be compounding for Nevada patients or consumers:

Only FDA approved drugs for 503B Outsourcing facilities

12. What laboratory performs your sterility or endotoxin testing?

Name: Eagle Analytical performs our sterility testing, but we do endotoxin testing in-house

Address: 11111 S Wilcrest Dr S100

City: Houston State: TX Zip: 77099

Telephone: (800) 745-8916

13. What is your procedure for visual inspection of compounded sterile products?

SOP.CQA.0050 Attached

14. How often do you perform glove fingertip and medial fill testing?

Glove fingertip we do initial gowning qualifications, and re-qualifications every 6 months(which include glove fingertip), along with during every batch, every mfg tech involved in mfg process will - media fill every 6 months

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:

The Manufacturing Manager or designee is responsible for the proper training and thorough understanding of the process outlined in this SOP.
The Pharmacy technician or pharmacist/ Manufacturing Supervisor or designee shall sign off on the process during dispensing and compounding process.
Manufacturing technicians are responsible to follow the instruction/steps for product filter integrity, filtration, manual filling, sealing and Terminal sterilization process as per batch manufacturing record

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

Cleaning Crew are responsible for preparation and usage of disinfectants followed by cleaning and sanitization of controlled non-classified and non-classified areas.
Manufacturing personnel are responsible for providing the cleaning material and ensure the Cleaning & Sanitization of corridors & Unclassified areas.
Manufacturing Manager / HR Admin department is responsible to ensure the activity is being followed as per procedure.
Head- Manufacturing / Designee is accountable for overall compliance of the SOP.

Controlled not classified (CNC) areas: Areas where HVAC systems are specifically designed to reduce airborne contaminants below the level of the ambient environment and temperature are controlled more tightly than in the ambient environment
Non-classified (NC)areas: non-classified areas have uncontrolled airborne particle amounts, but temperature and humidity are still maintained. is called non- classified/ unclassified area. Non- classifies area design as the non-process area or area in which the product does not comes in direct contact with air.
Daily Cleaning: In this type of cleaning, except False Ceiling, HEPA filter grills, tube, light fixture, walls

17. Who performs the sterile compounding process at your facility?

Manufacturing

18. Who is responsible and accountable for the sterile compounding process at your facility?

Manunfacturing

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

validation shipping study to ensure any cold chain products are shipped in a pre tested pack out that ensures the product stays in the temperature range required to keep the product safe and product efficacy is valid. With our room temperature products we inspect to ensure none are damaged prior to shipping and ensure all glass vial trays are in bubble wrap to e

11. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?

N/A

Section 4: Sterile Category 3 Compounding Questions (Complete this section ONLY if you will be performing Category 3 Compounding.)

1. List the specific Category 3 sterile products that your facility compounds:

Only FDA approved drugs for 503B outsourcing facilities

2. What is the frequency for ongoing garbing, gloved fingertip and thumb sampling, and media fill testing for compounding personnel?

3 times for initial gowning qualification, then personal monitoring for every batch. and media fill testing every 6 months.

3. Is the pharmacy meeting all of the additional garbing requirements for compounding Category 3 CSPs as defined by the revised USP-797 guidelines? ✓ Yes No

4. What is the frequency for completing volumetric active air sampling?

During every batch and during monthly enviromental monitoring

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility? N/A		
2. Are you complying with all USP 800 guidelines?	Yes	No
3. Have your employees who compound with hazardous drugs signed an acknowledgement that they understand the risks associated with this process?	Yes	No
4. Is your BSC or CACI vented 100% to the outside?	Yes	No
5. Do you have a negative pressure buffer room at your facility?	Yes	No
6. Will you be compounding with antineoplastic HDs or HD API?	Yes	No
7. If yes, are the drugs stored in an externally ventilated, negative pressure room?	Yes	No
8. Will you be utilizing a closed system transfer device?	Yes	No
9. If yes, list the name of the device:		

10. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?

N/A

5. What is the frequency for completing surface sampling? During every Batch		
6. What is the frequency for using sporicidal agents? Sporicidal wipes are used during each batch, then cleaning of clean room with Sporicidal agents is every other week.		
7. Is an endotoxin test performed for all products compounded from one or more nonsterile component?	(Yes)	No
8. Is the BUD assigned supported by stability data obtained using a stability-indicating analytical method?	(Yes)	No

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire form and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event the form is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

COMPONENTS, DRUG PRODUCT CONTAINERS, CLOSURES

1	Storage	☑ S ☐ N/I ☐ V ☐ N/A 21 CFR 211.80(b)(c)	
2	Lot identification	☑ S ☐ N/I ☐ V ☐ N/A 21 CFR 211.80(d)	
3	Container examination	☑ S ☐ N/I ☐ V ☐ N/A 21 CFR 211.82(a)	
4	Quarantine	☑ S ☐ N/I ☐ V ☐ N/A 21 CFR 211.82(b); 211.89	
5	Representative sample	☑ S ☐ N/I ☐ V ☐ N/A 21 CFR 211.84(b)	
6	Sample containers identified	☑ S ☐ N/I ☐ V ☐ N/A 21 CFR 211.84(c)(5)	
7	Sample collection process	☑ S ☐ N/I ☐ V ☐ N/A 21 CFR 211.84(c)	
8	Sample testing Each component lot ID is tested upon receipt and review of the COA. If the COA doesn't have microbiology tests, they are performed. Al l tests are conducted annually to verify the supplier's COA.	☑ S ☐ N/I ☐ V ☐ N/A 21 CFR 211.84(d)(e)	
9	Stock rotation	☑ S ☐ N/I ☐ V ☐ N/A 21 CFR 211.86	

S = SATISFACTORY N/I = NEEDS IMPROVEMENT V = VIOLATION N/A = NOT APPLICABLE / NONE OBSERVED

10	Retesting The facility is ordering limiting quantities of components based on production needs.	☐ S ☐ N/I ☐ V ☑ N/A	21 CFR 211.87
11	Container and closure qualities	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.94
12	Recordkeeping	☑ S ☐ N/I ☐ V ☐ N/A	R4-23-601(D); 21 CFR 211.184; 1304.22
13	Written procedures	☑ S ☐ N/I ☐ V ☐ N/A	R4-23-604(K); 21 CFR 211.80(a); 211.94(d); 211.160

PRODUCTION AND PROCESS CONTROLS

1	Active ingredients	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.101(a)
2	Component weighing operations	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.101(c)
3	Components removed from original container	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.101(b)
4	Component addition to batch	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.101(d)
5	Calculation of yield	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.103
6	Equipment identification	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.105

S = SATISFACTORY N/I = NEEDS IMPROVEMENT V = VIOLATION N/A = NOT APPLICABLE / NONE OBSERVED

7	Testing of in-process materials	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.110
8	Time limit on production	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.111
9	Control of microbiological contamination	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.113
10	Batch testing Some tests are conducted in the Chandler facility; some tests are performed at the contract lab.	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.165
11	Reprocessing	☐ S ☐ N/I ☐ V ☑ N/A	21 CFR 211.115, 211.165(f)
12	Recordkeeping	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.100; 211.101; 211.103; 211.110; 211.165
13	Written procedures	☑ S ☐ N/I ☐ V ☐ N/A	R4-23-604(K); 21 CFR 211.100; 211.160; 211.165

PACKAGING AND LABELING CONTROL

1	Examination on receipt	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.122(a)(b); 211.184
2	Storage Labels are not stored and are printed on demand. Packaging material (outer cartons) is stored in a secure area with badge access.	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.122(d)
3	Label and package destruction	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.122(e); 211.125(d)

4	Label type and inspection	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.122(f)(g)(h)
5	Label issuance	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.125
6	Packaging and labeling operations	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.130
7	Tamper-evident packaging	☐ S ☐ N/I ☐ V ☑ N/A	21 CFR 211.132
8	Drug product inspection	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.134
9	Expiration dating Lot number and expiration date are printed during production/packaging operation.	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.137
10	Recordkeeping	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.122; 211.184
11	Written procedures	☑ S ☐ N/I ☐ V ☐ N/A	R4-23-604(K); 21 CFR 211.122(a); 211.125(f); 211.130; 211.160

HOLDING AND DISTRIBUTION

1	Quarantine of drug products	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.142(a)
2	Drug product storage	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.142(b)

S = SATISFACTORY N/I = NEEDS IMPROVEMENT V = VIOLATION N/A = NOT APPLICABLE / NONE OBSERVED

3	Distribution records	☑ S ☐ N/I ☐ V ☐ N/A	R4-23-601(D); R4-23-1003(A); 21 CFR 211.196
4	Stock distribution	☑ S ☐ N/I ☐ V ☐ N/A	R4-23-604(H); 21 CFR 211.150(a)
5	Lot recall	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 111.150(b)
6	Written Procedures	☑ S ☐ N/I ☐ V ☐ N/A	R4-23-604(K); 21 CFR 211.142; 211.150

LABORATORY CONTROLS

1	Quality control review of processes	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.160
2	Established controls	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.160
3	Stability testing drug products	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.166
4	Special testing requirements	☑ S ☐ N/I ☐ V ☐ N/A	21 CFR 211.167

4	Recordkeeping	☐ S ☐ N/I ☐ V ☑ N/A	ARS § 36-2523; 36-2524; R4-23-601(D); R4-23-1003; 21 CFR 1301.74; 1304.21
5	Inventory	☐ S ☐ N/I ☐ V ☑ N/A	ARS § 36-2523; R4-23-1003(A)(6); 21 CFR 1304.04; 1304.11

NOTES

Hours of operation: Mon - Fri: 9 am - 5 pm (Mon - Fri).

Reviewed batch records, including associated EM/PM data for Bevacizumab PFS 1.25 mg/0.05 ml Batch D24062 repackaging date 11/04/24 Exp: 11/04/25 and Semaglutide PFS 1 mg/0.2 ml inj Batch D24064, Mfr date 10/31/24 and Exp 07/30/25.
Cleanroom suite certification testing was conducted in May 2024—repeat tests are planned in the next few weeks.
Media fill for the Avastin process simulation was completed on 10/15/24.
Media fill for the Semaglutide process simulation was completed in Nov 2024
The response to FDA observations was reviewed; the modifications made during personal interventions/workflow did not result in negative outcomes as of the current inspection date. In the next few weeks, a new smoke study will be completed to simulate airflow in the Class -5 equipment area to demons trate the state of control.

NAME AND TITLE OF INDIVIDUAL TO WHOM REPORT ISSUED	
Viraj Gandhi, CEO	
FIRM NAME Tailstorm Health INC	STREET ADDRESS 24416 N 19th Ave Ste 200
CITY, STATE, ZIP CODE, COUNTRY Phoenix, AZ 85085-1400	TYPE ESTABLISHMENT INSPECTED Outsourcing Facility

This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM I OBSERVED:

OBSERVATION 1

There is a failure to thoroughly review any unexplained discrepancy and the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Specifically,

A. Your firm released sterile drug product, Bevacizumab (Avastin) Lot# D24006, BUD: 21 Feb 2025, Batch size: 5335 Pre-Filled Syringes, after a positive microbial growth was detected during the personnel monitoring of aseptic personnel that performed a non-routine intervention on the filling line where RABS (Equipment ID: PE001) doors were opened to adjust the filling needles and 2P Punches. 1cfu was observed from the right forearm on 04 Mar 2024, however investigation into the excursion was not initiated until 15 Mar 2024. Your Quality Unit did not expand the investigation to include a retrospective evaluation. Additionally, there is no evidence that the open Pre-Filled Syringes that were exposed during the intervention were investigated or discarded. Your investigation stated that the root cause is due to "the ISO-7 environment the operator occupies prior to entering the ISO-5 environment".

B. Your firm released sterile drug product Bevacizumab (Avastin) lots D24005 and D24008 without thoroughly investigating out-of-specification results of particulate matter. No lab error was found at the conclusion of the investigation opened by your contract testing lab. Your firm opened an investigation into these results, but the investigation failed to determine what these particles were. Your firm re-tested these lots and released them into the U.S market without identifying

AMENDMENT 1

SEE REVERSE OF THIS PAGE	EMPLOYEE(S) SIGNATURE Dogbeda F Mackenzie, Investigator	X	DATE ISSUED 10/10/2024

the source of the particles found in your drug product.

C. Your firm's Quality Unit failed to thoroughly investigate, determine root causes, and implement appropriate corrective and preventative actions in response to personnel monitoring excursions. For example, your firm opened investigation into OOS.DMC.24.003 and stated the following "The contamination observed on the left forearm of the manufacturing technician is most likely attributable to sampling the gowning material which is subject to the ISO7 environment preceding entry into ISO5 environment". Out-of-Specification results in microbiological excursions were observed on four different aseptic operating personnel over the course of 04 Mar 2024 to 01 Jul 2024. The investigations you conducted did not determine why contamination in the ISO-7 would have occurred nor did it include corrective actions to mitigate it from reoccurring. The following investigations were opened into these excursions:

Investigation	Product	Lot number
OOS.DMC.24.001	Bevacizumab (Avastin) (1.25mg/0.05mL)	D24006
OOS.DMC.24.003	Bevacizumab (Avastin) (1.25mg/0.05mL)	D24008
OOS.DMC.24.005	Bevacizumab (Avastin) (1.25mg/0.05mL)	D24009
OOS.DMC.24.008	Bevacizumab (Avastin) (1.25mg/0.05mL)	D24012
OOS.DMC.24.012	Semaglutide (5mg/mL)	D24019

OBSERVATION 2
Procedures designed to prevent microbiological contamination of drug products purporting to be sterile did not include adequate validation of the aseptic process.

Specifically,

A. Your firm failed to adequately simulate your aseptic filling process of your drug product

Bevacizumab (Avastin) in the media fill you conducted. The media fill your firm conducted to validate the aseptic filling process of drug product Bevacizumab included an additional filtration step that occurred inside of the filling machine (Equipment ID: PE001). However, the current process used to perform aseptic filling of Bevacizumab (Avastin) vials does not include a filtration step inside the filling machine (Equipment ID: PE001).

B. Sterilized filling components are routinely moved from ISO-7 filling room (room # PR 003) and introduced into the ISO-5 RABS (Equipment ID: PE001) without being disinfected. On 09/27/2024, during the assembly of the filling machine for Semaglutide (8mg/mL) Lot# D24044, your Aseptic Operators were observed placing wrapped autoclaved filling components into ISO-5 classified RABS. Your Head of Quality stated that employees are not required nor trained to disinfect filling components before introducing them into the ISO-5 classified RABS.

OBSERVATION 3

Aseptic processing areas are deficient regarding systems for maintaining any equipment used to control the aseptic conditions.

Specifically,

A. Your smoke studies are inadequate. The smoke studies your firm conducted to simulate aseptic processes did not demonstrate the impact of the airflow during line interventions, equipment manipulations, and machine assembly. The videos did not show the airflow reaching all work surfaces and exiting your RABS filling equipment.

B. Your firm does not adequately capture the environmental conditions in which aseptic processes are conducted. Your procedure SOP.DQC.007, Environmental Monitoring, Effective date: 11 Mar 2024, Revision: 03 instructs personnel performing filling machine assembly to be sampled after set-up. Your firm failed to immediately sample personnel conducting filling machine setup

for about 34 lots that have been released from your facility. For example:

i. On 19 Mar 2024, your technician completed setup of the filling machine (Equipment ID: PE001) for aseptic filling of drug product Bevacizumab (Avastin) Lot# D24008 at 07:07am, however environmental monitoring of the employee who performed setup was performed at 07:50am on 19 Mar 2024.

ii. On 26 Apr 2024, your technician completed setup of the filling machine (Equipment ID: PE001) for aseptic filling of drug product Bevacizumab (Avastin) Lot# D24012 at 08:01 am, however environmental monitoring of the employee who performed setup was performed at 08:34 am on 26 Apr 2024.

iii. On 01 Jul 2024, your technician completed setup of the filling machine (Equipment ID: PE001) for aseptic filling of drug product Semaglutide Lot# D24019 at 08:51 am, however environmental monitoring of the employee who performed setup was performed at 09:35 am on 01 Jul 2024.

C. On 27 Sep 2024, during aseptic filling of Semaglutide (8mg/mL) Lot# D24044, your employee was seen rubbing excess Sterile 70% IPA on gloved hands prior to being sampled.

D. Your firm performs aseptic filling of drug products using RABS. On 24 Sep 2024, aseptic personnel's head to mid trunk of body exposed to ISO-5 classified RABS during machine assembly for Bevacizumab (Avastin) Lot# D24042. Your Head of Quality was unable to provide scientific justification to why personnel monitoring of aseptic personnel forehead and chest are not sampled.

OBSERVATION 4

Written procedures are not established for the cleaning and maintenance of equipment, including utensils, used in the manufacture, processing, packing or holding of a drug product.

ATTN:
CDR Steven E. Porter, Jr.
Jr., Program Division Director/District Director
U.S. Food & Drug Administration (FDA)
6th & Kipling St. (P.O. Box 25087)
Denver, CO 80225-0087

Subject: Response to FDA's "483 Inspectional Observations" issued on October 10, 2024.

Dear Mr. CDR Steven E. Porter, Jr.,

Tailstorm Health Inc. dba Medivant Health, a 503B registered outsourcer, located at 24416 N 19th Ave, Suite 200 Phoenix, AZ 85085 was subject to the FDA inspection from Sep 24, 2024, to Oct 10, 2024. The FDA inspector issued form FDA 483 on Oct 10, 2024, at the end of the inspection. This letter is in response to the form FDA 483 issued to Tailstorm Health Inc. dba Medivant Health. As an introductory comment, Tailstorm Health Inc. takes the FDA 483 observations and all the Investigator's comments seriously and it is our intent to continue to strive to be fully compliant with all aspects of the current 503B guidance as well as all appropriate sections of 21 CFR 210 and 211.

We would like to thank Dogbeda F Mackenzie for her insights and professional manner in which she conducted the inspection. This letter responds to the specific observations as noted in FDA 483. We recognize that FDA 483 addresses only certain specific aspects and that it is the responsibility of Tailstorm Health Inc. to be in full compliance with the regulations and 503B guidance. Tailstorm Health is committed to manufacturing quality products for our patients in compliance with cGMP requirements and FDA expectations. As shown in our response to the inspection observations, we have considered the events discussed in the observation individually and from a holistic perspective and trust that we have addressed the observations in a satisfactory manner.

Tailstorm Health Inc. will update the agency with monthly responses until all items are completed and fully addressed. The first update will be sent by Dec 03, 2024. Further, we have retained expert third-party consultants to assist with correction actions (Jeff Yuen & Associates, Stantec, and Ron Stephens) as deemed necessary to expedite corrective actions as noted below in each response. Tailstorm Health Inc. and its Senior Management are fully committed to supporting the corrective actions detailed below, including the commitment of necessary financial resources.

If you have questions about our response or would like to discuss, please contact Sushil Sharma, Head of Quality at s.sharma@medivanthealth.com (phone number 4808756727).

Sincerely,

Viraj Gandhi, CEO Tailstorm Health Inc.

Observation#1:

There is a failure to thoroughly review any unexplained discrepancy and the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Specifically,

A. ***Your Firm released sterile drug product, Bevacizumab (Avastin) Lot# D24006, BUD: 21 Feb 2025, Batch Size: 5335 Pre-Filled Syringes, after a positive microbial growth was detected during the personnel monitoring of aseptic personnel that performed a non-routine intervention on the filling line where RABS (Equipment ID:PE001) doors were opened to adjust the filling needles and 2P punches.1 cfu was observed from the right forearm on 04 Mar 2024, however investigation into the excursion was not initiated until 15 Mar 2024. Your Quality unit did not expand the investigation to include a retrospective evaluation. Additionally, there is no evidence that the open Pre-Filled Syringes that were exposed during the intervention were investigated or discarded. Your investigation stated that the root cause is due to "the ISO-7 environment the operator occupies prior to entering the ISO-5 environment".***

Tailstorm Response:

Tailstorm acknowledges the observation and has outlined the response below. Tailstorm acknowledges the need to improve our investigation process and documentation for out-of-specification incidents. Tailstorm has implemented Master Control for documents and training and commits to expediting the deviation & OOS module to be completed by end of Q4 2024. Tailstorm understands the importance of thoroughly investigating any unexplained discrepancy including the failure of a batch or any of its components to meet specifications.

The root cause for the 1 cfu found on the operators forearm stated in the original OOS.DMC.24.001 investigation report was "the ISO-7 environment the operator occupies prior to entering the ISO-5 environment".

Upon review of OOS.DMC.24.001, Bevacizumab (Avastin) (1.25mg/0.05mL) Lot # D24006 it is recognized the original investigation and root cause was inadequate and a specific root cause was not determined.

During the filling process for Lot# D24006, 1 cfu was recovered from the right forearm of the operator that performed a non-routine intervention to adjust the filling needles and 2P punches. Our action limit requiring investigation is 1 CFU in the ISO 5 area. If any growth is detected within ISO 5 environment, a full investigation would be initiated, as occurred with this batch. Regarding the time lapsed prior to starting the investigation, the Quality unit identified the out-of-specification result during the batch record review process. A newly hired microbiologist (January 2024) that performed the testing did not understand that the 1 cfu action limit in the ISO 5 environment required elevation to Quality to initiate an investigation.

On reviewing the personnel monitoring results form it was noted that there was no quality reviewer which would ensure any excursion is escalated immediately. The form has been revised to provide a quality review. (Click here to review revised format of Personnel Monitoring, SOP.DQC.0006-F01)

A retrospective evaluation has confirmed that there were no other instances of not reporting any OOS results to Quality management (Click here to review personnel monitoring data of Q1-2024, Q2-2024 & Q3-2024 and environmental monitoring data of Q1-2024, Q2-2024 & Q3-2024)

Regarding the open prefilled syringes that may be present during an intervention, a Standard Operating Procedure is in place (Click here to review section 5.5.2 of SOP DMF.017, Effective Date – 04 Dec 2023) which states "If there are any exposed units present on the track, reject it and document in the batch record for each open-door intervention". In this instance an open-door intervention occurred to adjust filling needles and 2P punches.

As per an interview with the Director of Manufacturing, these types of intervention adjustments are planned. The machine is reset manually through filling machine Human Machine Interface (HMI) and the robotic arm in the filling machine moves the partially/fully filled tub to the RABS exit. This is performed prior to opening the door and entering the RABS to perform the adjustment. After the PFS tub exits the RABS, Per SOP DMF.017 Section 5.5.2, the online inspection operator (inspects each PFS filled tub for empty/unstoppered PFS), rejects all unstoppered units from the partially/fully filled tub. (Click here to review, BMR page of intervention & reconciliation & online inspection, Machine manual for rephasing, SOP section 5.5.2 of SOP DMF.017) On reviewing the batch record it was noted that there was no section to distinguish breakdown rejects and normal filling rejects. This documentation gap has been identified and the batch record has been revised to provide traceability of intervention rejects (Click here to review revised BMR pages for traceability of intervention rejects).

As per the root cause stated in the observation 1A, the original investigation report was "the ISO-7 environment the operator occupies prior to entering the ISO-5 environment".

The specific root cause was that filling machine personnel was not being sampled immediately upon exit of the ISO5 RABS and sampling was performed in an adjacent washing and equipment preparation ISO-7 room. Filling machine personnel are now sampled immediately adjacent to ISO5 RABS.

Impact assessment:

The **1 CFU** detected on the operator's forearm during the intervention did not impact product quality or sterility as all other air and surface monitoring results of the ISO5 RABS show no other excursions (Click here to review environmental monitoring data of Lot # D24006). The results indicate that the environment of the ISO5 RABS effectively maintained aseptic conditions throughout the filling process despite the event. Additionally, there was no direct exposure of the

operator's forearm to any product contact surfaces and the operator's sampled fingertips were 0 cfu.

The supporting microbiology results indicate that the controlled environment of the ISO5 RABS effectively maintained sterility despite the event.

The critical worst-case air and surface monitoring sample sites includes:

a. Contact plates results of the RABS filling and stoppering stations. (Click here to review)
b. Contact plates results of the RABS near the IV bag placement (product solution). (Click here to review)
c. Swab sampling results of the filling needles. (Click here to review)
d. Settle plate monitoring results near the filling and stoppering stations. (Click here to review)
e. Settle plate monitoring results near the open PFS tub conveyor. (Click here to review)
f. Active air sampling results near the filling and stoppering stations. (Click here to review)
g. Continuous non-viable particle count data. (Click here to review)
h. Sterility test result of manufactured lot #D24006. (Click here to review)

Of the 16 sample plates tested in ISO5 environment for this batch this was the only plate that confirmed growth. Our action limit requiring investigation is 1 CFU in the ISO 5 area. If any growth is detected within ISO 5 environment, a full investigation would be initiated, as occurred with this batch. Continuous viable air monitoring takes place right at the filling and stoppering locations within the RABS and is sampled dynamically throughout the batch.

In addition to the continuous viable monitoring at the worst-case site, the critical areas are currently sampled in a manner that is consistent with US FDA 2004 guidance titled "Sterile Drug Products Produced by Aseptic Processing – Current Good Manufacturing Practice". The continuous non- viable monitoring met ISO 5 air particulates criteria and all continuous viable air monitoring data confirmed no growth. This data demonstrated and confirmed that the ISO 5 space was free from viable contamination from all direct surface samples in addition to the air sampling. The sleeve growth was captured from an operator that was adjusting needle and 2P punch plate during an intervention while the filling operation was not in process. Additional cleaning and sanitization of the area was performed immediately after this occurrence using a sporicidal wipe prior to restarting the batch.

This process intervention has been challenged during six previous media fill process qualifications with no media failures. The batch was released based on a full and complete review of all environmental data and all other in process and direct surface sampling outlined above and final batch testing that met all requirements, including sterility testing.

This process is consistent and compliant with the PDA Points to Consider for Aseptic Process Part 1, 2015, Page 24, specifically "*The significance of an action-level excursion in environmental monitoring and its impact on batch release is determined by a comprehensive investigation of all conditions that might impact the acceptability of the process and the batch (es) produced by the process*". In this case, the risk-based locations chosen showed no growth within the RABS and all other samples indicated no growth. We believe that our practices and decisions regarding our processes and batch release are aligned with best industry practices.

Corrective and Preventive actions:

Tailstorm has implemented corrective and preventive actions to address the root cause and prevent reoccurrence:

1. SOP.DQC.0006-F01 has been revised to add QA review on Personal monitoring report to ensure escalation to an OOS at the time of documentation. (Click here to review SOP.DQC.0006-F01).
2. SOP.DMF.0031 has been revised for procedural instructions to ensure personnel monitoring occurs immediately after machine setup or intervention adjacent to ISO5 to capture contamination risks during critical activities. (Click here to review SOP.DMF.0031).
3. The batch manufacturing record has been updated to clearly document rejects from interventions separately from normal production rejects, ensuring clarity in tracking these types of rejects during interventions. (Click here to review revised BMR pages for traceability of intervention rejects).

Observation#1:

There is a failure to thoroughly review any unexplained discrepancy and the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Specifically,

B. Your firm released sterile drug product Bevacizumab (Avastin) lots D24005 and D24008 without thoroughly investigating out-of-specification results of particulate matter. No lab error was found at the conclusion of the investigation opened by your contract testing lab. Your firm opened an investigation into these results, but the investigation failed to determine what these particles were. Your firm re-tested these lots and released them into the U.S market without identifying the source of the particles found in your drug product.

Tailstorm Response:

Tailstorm acknowledges the observation and has outlined the responses below. Tailstorm has performed the phase 2 investigation, (Click here to review phase-2 investigation report) and we agree there was a lack of identifying the specific source of the particles although the particles were identified by ARL Biopharma (Click here to review particle identification report of D24005 & D24008).

The third-party testing laboratory (Prompt Praxis labs) tested 20 lots of Avastin using USP 789 method 1 with all passing results. As laboratory's method 1 testing equipment being placed out of service, testing was performed using USP 789 method 2 for subvisible particulate test. The laboratory did not notify Tailstorm that before proceeding with method 2. The failures for lots D24005 and D24008 occurred in method 2 testing.

The laboratory investigation did not determine a specific root cause for the out of specification results. We then proceeded to conduct phase 2 investigation.

The phase 2 investigation determined that the particles identified could be from the manual processes involved during USP 789 method 2 testing. Specifically, from the filtration the use of cellulose wipes packaged in plastic and intermediate glass transfer vessel. The phase 1 investigation from the lab has also indicated a likely contamination possibility from the manual processes like pooling process and during the transfer of 1 mL drug product to the scintillation vial which is subjective and may not be consistent across the lots (Click here to review phase-1 investigation report).

During the phase 2 investigation Tailstorm product contact materials and equipment were rinsed/soaked in water for injection. Testing the rinse samples using USP 789 method 1,all results were zero with the exception of 3 subvisible particles of less than 10 µ were recovered from the

soaked pre sterilized stoppers (Click here to review results). Additionally, we performed a water for injection test run mimicking the process and components and no particles were recovered (Click here to review results). This demonstrates that the 5µ filter prior to filling needle is effective in preventing the introduction of particles into the filled syringes.

The statement from the phase 2 investigation revealed an apparent change in test method adopted at Prompt Praxis labs from method 1 Light Obscuration instrumental method USP 789 (Spectrex mode PC-2200) to method 2 microscopic inspection USP 789. Incidentally, the change in test method was introduced from D24005 and continued in Lot no D24006, D24007, D24008 & D24009. The test method and procedure were found to involve many physical maneuvers including transfer of 15 PFS contents into a primary scintillating vessel, pipetting of 1 mL aliquot into a second scintillating vessel, dilution with 4 mL nano pure water, filtration using a funnel assembly through gridded filter and transfer of the filter paper to the microscope. The fact that PPL historically followed method 1 (Light obscuration instrument technique) for all the 16 Lots manufactured in Year 2023 and 4 Lots manufactured in Year 2024 and the method 2 introduced from D24005 appears to be a non-routine test procedure for the third-party laboratory.

The decision to retest in triplicate was based on all acceptable previous method 1 testing, the laboratory providing possible sources of particulate contamination in their method 2, our phase 2 investigation of all equipment/components rinse water testing, and the filling process simulation with WFI showing no subvisible particles introduced by our process. Furthermore, the 5µ filter immediately prior to filling needle is effective in preventing the introduction of particles into the filled syringes.

We have performed retrospective review (Click here to review retrospective review report) to identify the specific source of the particles. During this retrospective review Prompt Praxis labs did share material used in method 2. This information led us to determine specific sources of the particles identified by the third-party laboratory (ARL). The following is a table detailing supplies and their material of construction used in method 2 and corelation to particles identified during phase 1 investigation.

Correlation of extrinsic particles with source of origin

Particles identified in Lot Number D24005	Supplies used in method 2	Material of construction	Particle correlation
Cellulose	Advantec 0.8 µm 25mm gridded filters	Mixed Cellulose Ester	Cellulose fiber
	Kimwipes	Cellulose wipes in plastic container	Cellulose fiber
Polyamide	Kimwipes	Cellulose wipes in plastic container	Polyamide

Particles identified in Lot Number D24005	Supplies used in method 2	Material of construction	Particle correlation
	Scintillation vial cap (Polypropylene)	Polypropylene	Polyamide
Aluminum with lesser amounts of copper, carbon, oxygen and nitrogen	Filtration assembly Petri dish	Glass	Traces of aluminum and other elements like manganese, silicon, chromium, cobalt
	Scintillation vial (glass) with cap (Polypropylene)	Glass Polypropylene	Traces of aluminum Carbon fillers

Particles identified in Lot Number D24008	Supplies used in method 2	Material of construction	Particle correlation
Polyamide	Kimwipes	Cellulose wipes in plastic container	Polyamide
	Scintillation vial cap (Polypropylene)	Polypropylene	Polyamide
Silicon, chromium, manganese	Filtration assembly Petri dish	Glass	Traces of aluminum and other elements like manganese, silicon, chromium, cobalt
Albumin or related proteins	Related to product Avastin		
Elastomer/rubber	Source is syringe stopper or syringe cap rubber seal		
Iron, chromium, nickel with stainless steel corrosion	No specific source of stainless steel was found. We have inspected stainless steel parts stopper bowl, stopper track, needle after 5 µ filter and found no wear and tear or corrosion. A source could be syringe needles or other instruments used at the laboratory.		

Conclusion:

There was a lack of identifying the specific source of the particles during the phase 2 investigation although the particles were identified by ARL Biopharma. During our retrospective review we have received further information from PPL regarding their method 2 process and materials used to perform method 2. These materials corelate to the particles identified during the phase 1 investigation.

The decision to retest in triplicate was based on all acceptable previous method 1 testing, the laboratory providing possible sources of particulate contamination in their method 2, our phase 2 investigation of all equipment/components rinse water testing, and the filling process simulation

with WFI showed no subvisible particles introduced in our process. Furthermore, the 5µ filter immediately prior to filling needle is effective in preventing the introduction of particles into the filled syringes.

Based on these findings we determined it was method 2 laboratory error and retested using method 1 with a new qualified Accusizer A2000 particle counter and both lots met all specifications in compliance with USP 789.

All USP 789 method 1 tests for the 16 lots manufactured in 2023 and the 27 lots manufactured in 2024 met USP 789 acceptance criteria. Failures have only occurred using method 2 at Prompt Praxis Lab.

Impact assessment:

Market complaints were reviewed for infection, redness, endophthalmitis or any other problems during administration which would indicate a subvisible particulate matter issue. There have been no markets complaints for lot D24005 and D24008.

Attachment -1B-2	:	Particle identification report (Click here to review report 1 & report 2)
Attachment -1B-3	:	Phase-2 investigation report (Click here to review)
Attachment -1B-4	:	Retrospective evaluation of phase 2 investigation report (Click here to review)

Observation#1:

There is a failure to thoroughly review any unexplained discrepancy and the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Specifically,

C. ***Your firm's Quality Unit failed to thoroughly investigate, determine root causes, and implement appropriate corrective and preventive actions in response to personnel monitoring excursions. For example, your firm opened investigations into OOS.DMC.24.003 and stated the following "The contamination observed on the left forearm of the manufacturing technician is most likely attributable to sampling the gowning material which is subject to ISO7 environment preceding entry into ISO5 environment." Out-of-Specification results in microbiological excursions were observed on four different aseptic operating personnel over the course of 04 Mar 2024 to 01 Jul 2024. The investigations you conducted did not determine why contamination in the ISO-7 would have occurred nor did it include corrective actions to mitigate it from reoccurring. The following investigations were opened into these excursions:***

Investigation	*Product*	*Lot number*
OOS.DMC.24.001	*Bevacizumab (Avastin) (1.25mg/0.05mL)*	*D24006*
OOS.DMC.24.003	*Bevacizumab (Avastin) (1.25mg/0.05mL)*	*D24008*
OOS.DMC.24.005	*Bevacizumab (Avastin) (1.25mg/0.05mL)*	*D24009*
OOS.DMC.24.008	*Bevacizumab (Avastin) (1.25mg/0.05mL)*	*D24012*
OOS.DMC.24.012	*Semaglutide (5mg/mL)*	*D24019*

Tailstorm Response:

Tailstorm acknowledges the observation and has outlined the response below. Tailstorm acknowledges the need to improve our investigation process and documentation for out-of-specification incidents. Tailstorm has implemented Master Control for documents and training and commits to expediting the deviation & OOS module to be completed by end of Q4 2024. Tailstorm understands the importance of thoroughly investigating any unexplained discrepancy including the failure of a batch or any of its components to meet specifications.

OOS.MC.24.001, OOS.MC.24.003, OOS.MC.24.005 and OOS.MC.24.012: Root cause analysis

OOS No. and Lot no.	Sampling location	Task performed	Root cause as per phase 2 investigation
OOS.MC.24.001 / D24006	1 cfu on left forearm	Non routine intervention	Operator occupies ISO7 environment prior to entering the ISO5 environment
OOS.MC.24.003 / D24008	1 cfu on left forearm	Machine assembling in ISO5	Sampling gowning material subjected to ISO7 environment preceding entry into ISO5 environment
OOS.MC.24.005 / D24009	1 cfu on right forearm	Machine assembling in ISO5	Proximity of the forearm to operator gown subjected to ISO7 environment preceding entry into ISO5 environment
OOS.MC.24.012 / D24019	1 cfu on left forearm	Supporting operator to hand over materials in ISO7 to operator performing machine assembling in ISO5	Unnoticed exposure of skin due to gown dislocation and Transferred contaminants from ISO 7 to ISO5 due to inadequate hand sanitization

Upon review of the four OOS investigations for product Bevacizumab (Avastin) (1.25mg/0.05mL), it is recognized the original investigation and root causes were inadequate and specific root causes were not determined which resulted in inappropriate corrective and preventive actions.

Root cause:

The specific root cause for the four OOS was determined to be that the filling machine personnel were not being sampled immediately upon exit of the ISO5 RABS and sampling was performed in an adjacent washing and equipment preparation ISO-7 room.

Corrective and preventive action:

1. As corrective and preventive action filling machine personnel are now sampled immediately adjacent to ISO5 RABS. (Click here to review section 5.4 of SOP.DMF.0031).
2. Tailstorm has retained Jeff Yuen and associates and Ron Stephens to expedite personnel training for investigations to determine specific root causes and implement appropriate corrective and preventive actions.

OOS.MC.24.008: Root cause analysis

The root cause for the 1 cfu found on the operator's gloved hand sampled after completion of the bulk transfer process in the biosafety cabinet stated in the original OOS.DMC.24.008 investigation report was "Material transfer from ISO7 to ISO5 by applying 70% IPA which is less effective".

Upon review of OOS.DMC.24.008, Bevacizumab (Avastin) (1.25mg/0.05mL) Lot # D24012 it is recognized the original investigation and root cause was incomplete as it did not evaluate not sampling personnel immediately after exit from the ISO5 biosafety cabinet.

1 cfu was recovered from the left gloved hand of the operator performing bulk transfer in the ISO 5 biosafety cabinet. Our action limit requiring investigation is 1 CFU in the ISO 5 area. If any growth is detected within ISO 5 environment, a full investigation would be initiated, as occurred with this batch.

Root cause:

The specific root cause was the use of 70% IPA during material transfer from ISO7 to ISO5 instead of sporicidal agent and not sampling personnel immediately after exit from the ISO5 biosafety cabinet.

Corrective and preventive action:

1. As corrective and preventive action personnel performing activities in ISO5 biosafety cabinet are now sampled immediately adjacent to ISO5.
2. Use of sporicidal wipes during transfer of materials from ISO7 to ISO5. (Click here to review section 6.2_SOP.DMF.029)
3. Tailstorm has retained Jeff Yuen and associates and Ron Stephens to expedite personnel training for investigations determining appropriate root causes and implementing appropriate corrective and preventive actions.

Impact assessment:

The **1 CFU** detected on the operator's forearm during the routine (machine assembling) and non-routine (open door) intervention did not impact product quality or sterility as all other air and surface monitoring results of the ISO5 RABS show no other excursions (Click here to review environmental monitoring data for all manufactured lots Q1-2024, Q2-2024 & Q3-2024). The results indicate that the environment of the ISO5 RABS effectively maintained aseptic conditions throughout the filling process despite the event. Additionally, there was no direct exposure of the operator's forearm to any product contact surfaces and the operator's sampled fingertips were 0 cfu.

The **1 CFU** detected on the operator's gloved hand during the bulk transfer activity did not impact product quality or sterility as all other environmental monitoring results of the ISO5 biosafety cabinet show no other excursions. The results indicate that the environment of the ISO5 biosafety cabinet effectively maintained aseptic conditions throughout the bulk transfer process despite the event. Additionally, there was no direct exposure of the operator's gloved hand to any product contact surfaces and the bulk is transferred through a 0.22 µ filter into sterile IV bag in a closed system.

The supporting microbiology results indicate that the controlled environment of the ISO5 RABS effectively maintained sterility despite the event.

The critical worst-case air and surface monitoring sample sites includes:

a. Contact plates results of the RABS filling and stoppering stations. (Click here to review Q1-2024, Q2-2024 & Q3-2024 results)
b. Contact plates results of the RABS near the IV bag placement (product solution). (Click here to review Q1-2024, Q2-2024 & Q3-2024 results)
c. Swab sampling results of the filling needles. (Click here to review Q1-2024, Q2-2024 & Q3-2024 results)
d. Settle plate monitoring results near the filling and stoppering stations. (Click here to review Q1-2024, Q2-2024 & Q3-2024 results)
e. Settle plate monitoring results near the open PFS tub conveyor. (Click here to review Q1-2024, Q2-2024 & Q3-2024 results)
f. Active air sampling results near the filling and stoppering stations. (Click here to review Q1-2024, Q2-2024 & Q3-2024 results)
g. Continuous non-viable particle count data. (Click here to review)
h. Sterility test result of manufactured lots. (Click here to review)

Of the 16 sample plates tested in ISO5 environment for this batch this was the only plate that confirmed growth. Our action limit requiring investigation is 1 CFU in the ISO 5 area. If any growth is detected within ISO 5 environment, a full investigation would be initiated, as occurred with OOS batches. Continuous viable air monitoring takes place right at the filling and stoppering locations within the RABS and is sampled dynamically throughout the batch.

In addition to the continuous viable monitoring at the worst-case site, the critical areas are currently sampled in a manner that is consistent with US FDA 2004 guidance titled "Sterile Drug Products Produced by Aseptic Processing – Current Good Manufacturing Practice".

The continuous non- viable monitoring met ISO 5 air particulates criteria and all continuous viable air monitoring data confirmed no growth. This data demonstrated and confirmed that the ISO 5 space was free from viable contamination from all direct surface samples in addition to the air sampling. Additional cleaning and sanitization of the area was performed immediately after this occurrence using a sporicidal wipe prior to restarting the batch.

This process intervention has been challenged during six previous media fill process qualifications with no media failures. The batch was released based on a full and complete review of all environmental data and all other in process and direct surface sampling outlined above and final batch testing that met all requirements, including sterility testing. This process is consistent and compliant with the PDA Points to Consider for Aseptic Process Part 1, 2015, Page 24, specifically "*The significance of an action-level excursion in environmental monitoring and its impact on batch release is determined by a comprehensive investigation of all conditions that might impact the acceptability of the process and the batch (es) produced by the process*". In this case, the risk-based locations chosen showed no growth within the RABS and all other samples indicated no growth. We believe that our practices and decisions regarding our processes and batch release are aligned with best industry practices.

Observation#2:

Procedures designed to prevent microbiological contamination of drug products purporting to be sterile did not include adequate validation of the aseptic process.

Specifically,

A. ***Your Firm failed to adequately simulate your aseptic filling process of your drug product Bevacizumab (Avastin) in the media fill you conducted. The media fill your firm conducted to validate the aseptic filling process of drug product Bevacizumab included an additional filtration step that occurred inside of the filling machine (Equipment ID: PE001). However, the current process used to perform aseptic filling of Bevacizumab (Avastin) vials does not include a filtration step inside the filling machine (Equipment ID: PE001).***

Tailstorm Response:

Tailstorm acknowledges the observation and outlines below its plans for corrective action. We further commit to updating the agency as activities and corrective actions are implemented. Tailstorm understands the importance of thorough investigation and we are committed to ensure that a robust investigation is performed for each observation thereby ensuring the safety and quality of our products for our patients.

Observation Summary:

The media fill (APS) for Avastin, scheduled for June 2024, was not performed at the 6-month timeframe (last media fill executed on dated 08 Dec 2023, (click here to review media fill report) according to SOP.DQA.045, "Media fill (Media Fill)" (click here to review SOP.DQA.045).

The Avastin process includes a sterile filtration into a disposable sterile bag in an ISO 5 biosafety enclosure. After the sterile filtration process, the sterile bag is sanitized and transferred to the filling line enclosed in an ISO 5 RABS. During the filling process, there is no inline filter after the sterile product bag.

A media fill representing the other products with 0.22µm inline filter after the sterile product bag, was executed within the 6 months timeframe (click here to review media fill report executed on 06 May 2024) from the previous Avastin media fill.

Deviation DV/DEV/24/009 was initiated for not performing the Media fill for Avastin at the 6-month time frame.

Root cause for not performing media fill at the 6-month time frame:

Following the launch of a new product, a strategic decision was made to standardize the production processes between a new product and Avastin (introduction of 0.22µm inline filtration in filling). The Avastin filter sourced was found to be not acceptable for the Avastin process. This led to the incorrect assumption that the aseptic process simulation for the new product could support the

Avastin process. This resulted in not performing the media fill for Avastin at the 6-month time frame as required per SOP.DQA.045, "Aseptic Process Simulation (Media Fill)".

To evaluate the impact on Lots filled after June 2024, this deviation included a comparison of aseptic process activities of Avastin (without 0.22µm inline filter) and other products (with 0.22µm inline filter).

The following investigations have been conducted to assess the impact of the deviation:

Investigation plan:

1. Comparison of aseptic process activities for Avastin (without 0.22µm inline filter) and Other Products (with 0.22µm inline filter): click here to review DV/DEV/24/009 (Page 3,4,5 of 18)
   Comparable except for Inline filtration for other products and fill volume (other product fill volume is higher than Avastin media fill).
   All routine and non-routine interventions for the Avastin process were simulated in media fill (executed in May 2024) conducted for other products.
2. Review of any change in repackaging process of Avastin: click here to review DV/DEV/24/009 (Page 6 of 18)
   No changes observed in process after media fill execution dated 08 Dec 2023.
3. Review of any change in design of equipment used for bulk transfer and filling of Avastin: click here to review DV/DEV/24/009 (Page 6 of 18)
   No changes observed after media fill execution dated 08 Dec 2023.
4. Review of any change in area design: click here to review DV/DEV/24/009 (Page 6 of 18)
   No changes observed after media fill execution dated 08 Dec 2023.
5. Review of qualification of personnel involved in bulk transfer, assembling and operation of filling machine: click here to review DV/DEV/24/009 (Page 7,8,9,10 of 18)
   All the personnel involved in the repackaging activity of Avastin are qualified in gowning and media fill (conducted in May 2024).
6. Review of any change in raw material and primary packing material: click here to review DV/DEV/24/009 (Page 11 of 18)
   No changes observed after media fill execution dated 08 Dec 2023.
7. Review of any change in sterilization load or pattern or parameters: click here to review DV/DEV/24/009 (Page 11 of 18)
   No changes observed after media fill execution dated 08 Dec 2023.
8. Review of finished product results of Avastin: click here to review DV/DEV/24/009 (Page 12 of 18)
   Finished product results meet specifications.
9. Review of environmental monitoring results of filling zone (ISO5): click here to review DV/DEV/24/009 (Page 13 of 18)
   All environmental monitoring results meet specifications.

10. Review of personnel monitoring results for those involved in assembly and filling of Avastin: click here to review DV/DEV/24/009 (Page 14,15 of 18)
    All personnel monitoring results meet specifications.
11. Review of environmental monitoring results for isolator (vial extraction) room (ISO7) and filling room (ISO7): click here to review DV/DEV/24/009 (Page 16 of 18)
    All area monitoring results meet specifications.

Impact assessment:

Based on the thorough investigation and review of all applicable data regarding the deviation for not performing the aseptic process simulation for Avastin. The following conclusions can be drawn:

1. **Comparison of Aseptic Processes:** The aseptic processes for Avastin and other products were found to exhibit significant comparability, particularly with respect to initial sterile filtration into sterile product bag used for filling, fill volume, routine and non-routine interventions. The evaluation confirmed that while there were differences, the core aseptic techniques and controls remained effective and were not compromised. No changes were made to the repackaging process, equipment, or primary packing materials for Avastin since the last media fill, ensuring that the existing aseptic conditions are maintained.

2. **Qualified Personnel:** All personnel involved in bulk transfer, assembling, and filling processes have undergone the necessary training and qualifications, affirming their competence in maintaining aseptic practices. The review of personnel monitoring results shows that these individuals adhered to procedure effectively, with no evidence of contamination.

3. **Environmental Monitoring**: Results from environmental monitoring for lots manufactured post-June 2024 consistently demonstrated compliance with established limits, reinforcing the effectiveness of the controlled manufacturing environment. The monitoring of both the filling zone and personnel indicated that no microbial contamination occurred during the production processes, thus supporting the integrity of the aseptic conditions.

4. **Finished Product Testing**: All batches manufactured post-June 2024 underwent routine quality testing, with sterility and endotoxin results compliant with specifications. This compliance indicates that product quality was not affected by this deviation.

5. **Review of Market complaints**: Market complaints were reviewed for infection, redness, endophthalmitis or any other problems during administration which would indicate sterility assurance issue. There have been no market complaints.

Conclusion:

The side-by-side comparison of aseptic process activities for Avastin (without 0.22µm inline filter) and other products (with 0.22µm inline filter) in deviation (click here to review comparison of aseptic process) demonstrated that the processes are comparable with the exception of inline filtration during media fills simulated for other products and fill volume (Avastin media fill volume – 0.05 mL and other products fill volume – 0.33 mL).

All routine and non-routine interventions for the Avastin process were simulated in the media fill (executed in May 2024) conducted for other products.

The media fill process conducted in May 2024 for other products supports the aseptic process and all interventions for Avastin lots manufactured since June 2024.

Although not repeating a media fill for the Avastin process at 6-month requirement, the established quality controls and consistent monitoring provide assurance that there has been no compromise to product quality

In summary, the investigation findings and ongoing quality assurance measures lead to the conclusion that there has been no adverse impact on the quality of Avastin batches manufactured after June 2024. The product continues to be safe for patient use, maintaining its integrity despite the deviation.

Additionally, a media fill for Avastin process has been conducted on 14 Oct 2024 and shows no growth and supports the aseptic process for Avastin lots manufactured since June 2024. (Click here to review preliminary report)

Corrective and Preventive actions:

1. A media fill for Avastin process has been conducted on 14 Oct 2024. (Click here to review preliminary report)
2. To provide rationale for introduction of new products SOP.DQA.0002 has been revised to incorporate a media fill matrix to compare process, components, fill volume etc. to determine the process equivalency. This assessment will determine whether a new media fill is required or whether the new product process is comparable to previously conducted media fills. (Click here to review media fill matrix).
3. A media fill tracker (reference SOP.DQA.0002) has been implemented for ensuring execution of media fills for each type of process every 6 months (Click here to review media fill tracker).

Summary of Deliverables:

Sr. No.	Deliverables	Time Frame
1.	Final media fill report for Avastin (14 Oct 2024)	Within 30 days after initial response

Observation#2:

Procedures designed to prevent microbiological contamination of drug products purporting to be sterile did not include adequate validation of the aseptic process.

Specifically,

B. Sterilized filling components are routinely moved from ISO-7 filling room (room # PR003) and introduced into the ISO-5 RABS (Equipment ID: PE001) without being disinfected. On 09/27/2024, during the assembly of the filling machine for Semaglutide (8mg/mL) Lot # D24044, your Aseptic Operators were observed placing wrapped autoclaved filling components into ISO-5 classified RABS. Your Head of Quality stated that employees are not required nor trained to disinfect filling components before introducing them into the ISO-5 classified RABS.

Tailstorm Response:

Tailstorm acknowledges the observation. We take this observation very seriously and are committed to ensuring the highest standards of aseptic processing in our facility. We have conducted an immediate and thorough investigation to address this concern.
We understand the critical importance of maintaining sterility within ISO-5 environments and are committed to ensuring that all operations are conducted in full compliance with cGMP regulations. Our goal is to continually improve our processes and uphold the highest standards of quality in our manufacturing operations.

Observation Summary:

During the inspection the investigator observed the introduction of sterile filling machine components into the ISO5 RABS from a mobile ISO 5 laminar airflow protected mobile cart staged approximately 3 feet (refer to the picture below) adjacent to the filling machine located in ISO 7 room.

The aseptic filling machine components are double wrapped in Tyvek pouches prior to autoclaving. After autoclaving, the double wrapped sterile filling machine components are transferred onto an ISO 5 laminar airflow protected mobile cart in an ISO 7 room. The mobile cart is then transferred into filling room PR003 and staged approximately 3 feet adjacent to the filling machine. During assembly, the outer layer of Tyvek pouches on the sterilized parts is removed in the ISO 5 laminar airflow protected mobile cart and transferred directly to ISO5 RABS. Once inside the ISO5 RABS the inner layer of Tyvek pouches on the sterilized parts is removed in the ISO 5 RABS.

During this transfer process the inner layer of Tyvek pouches was exposed to ISO7 air for a short duration to move the parts approximately 3 feet to the ISO5 RABS. During this transfer process, there was no step to sanitize the filling machine components covered with one layer of Tyvek pouch immediately prior to placing them into the ISO5 RABS.

Review of material transfer from ISO7 to ISO5: The investigator pointed out a gap in our process during filling machine set up. We understand the importance of sanitizing materials which are being transferred from ISO7 area to ISO5 area. Quality conducted a review of all the material transfer processes from ISO7 to ISO5 to identify any other gaps in sanitization procedures. This includes review of the applicable SOPs for material transfer into an ISO5 environment.

Summary of Findings:
The review of material transfer procedures from ISO7 to ISO5 confirms that current sanitization procedures are comprehensive and effective. All components are properly disinfected before transfer into the ISO5 environment. No gaps were identified in the sanitization processes, ensuring protection against contamination. Overall, the procedures in place effectively maintain the integrity of the ISO5 environment.

Root Cause:
The root cause for not sanitizing the filling machine components covered with one layer of Tyvek pouch immediately prior to placing them into the ISO5 RABS was based on the assumption that the Tyvek pouch layer on the wrapped filling machine components were exposed in ISO7 environment for a short duration to move the parts approximately 3 feet from ISO5 mobile cart to the ISO5 RABS. The inner layer of Tyvek pouch is removed under ISO5 RABS to avoid exposure of sterilize filling machine components to ISO7 environment.

Impact assessment:
Based on the air and surface monitoring results of equipment in the ISO5 RABS showing no excursions (Click here to review trend data Q1-2024, Q2-2024 & Q3-2024), the lack of a sanitization step before transferring sterilized, filling machine parts from the ISO5 mobile LAF to the ISO 5 RABS did not impact product quality. The results indicate that the controlled environment of the ISO5 RABS effectively maintained sterility despite the absence of a sanitization step prior to transferring the components.
This air and surface monitoring includes:

a. Contact plates results of RABS filling and stoppering station
b. Contact plates results of RABS near IV bag placement (product solution)
c. Swab sampling results of filling needles
d. Settle plate monitoring results near filling and stoppering station
e. Settle plate monitoring results near open PFS tub conveyor

f. Active air sampling results near filling and stoppering station

A review of sterility results of previously manufactured lots reveals no indications of contamination linked to the filling machine components transferred under the current procedure.

Corrective and Preventive actions:

1. We have revised the Standard Operating Procedure (SOP), SOP.DMF.0031 "Procedure for assembly, operation and cleaning of PFS filling machine" to explicitly require that all wrapped autoclaved filling components undergo a sanitization process before being introduced into the ISO-5 RABS (Click here to review section 5.4.2 of SOP.DMF.0031).
2. Change control (Reference no. DV.CC.2024.058) has been initiated to revise SOP.DMF.0031 "Procedure for assembly, operation and cleaning of PFS filling machine" to include a defined position of the Mobile LAF and sanitization table adjacent to filling RABS. The process will be to first sanitize the table using sporicidal, then remove Tyvek wrapped equipment from the mobile LAF and immediately sanitize using the sanitization table and transfer to ISO5 for machine setup. Refer picture below:

Attachments for observation 2B:

Attachment	:	Document Title
Attachment -2B-1	:	SOP.DMF.029 "Procedure for transfer of bulk product solution into sterile into sterile IV bag" (Click here to review)
Attachment -2B-2	:	SOP.DMF.011 "Ingress and transfer of material into cleanroom" (Click here to review)
Attachment -2B-3	:	Revised SOP.DMF.0031 "Procedure for assembly, operation and cleaning of PFS filling machine" (Click here to review)
Attachment -2B-4	:	Change control for revision of SOP.DMF.0031 "Procedure for assembly, operation and cleaning of PFS filling machine" (Click here to review)

Summary of Deliverables:

Sr. No.	Deliverables	Time Frame
1.	Revised SOP.DMF.0031 "Procedure for assembly, operation and cleaning of PFS filling machine" as per change control no. DV.CC.2024.058	Within 30 days after initial response

Observation#3:

Aseptic processing areas are deficient regarding systems for maintaining any equipment used to control the aseptic conditions.

Specifically,

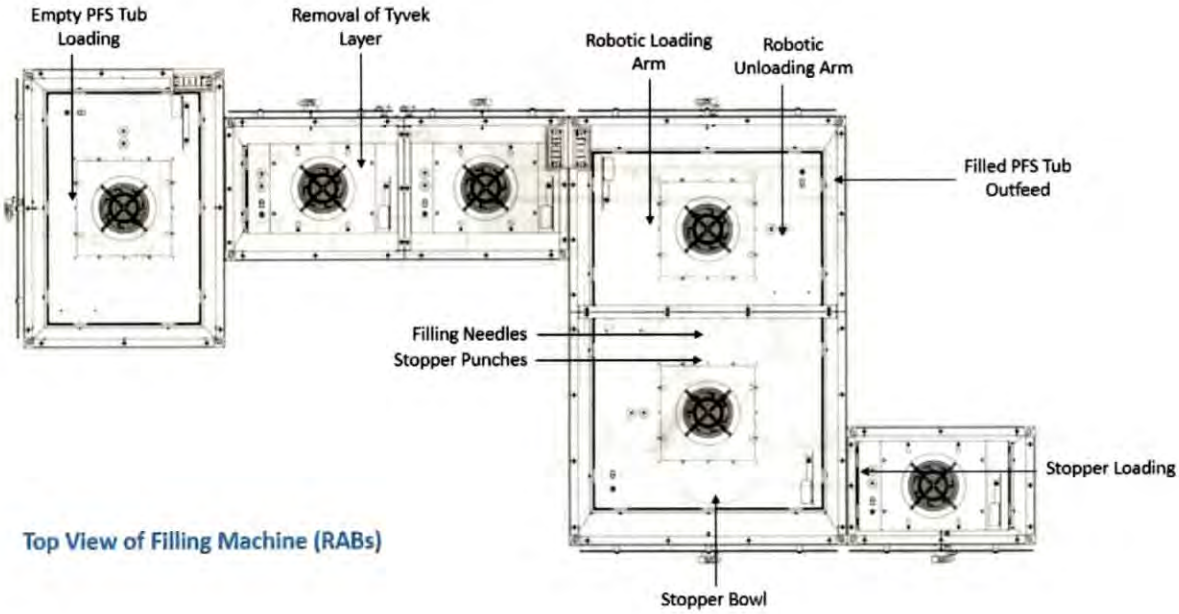
A. ***Your smoke studies are inadequate. The smoke studies your firm conducted to simulate aseptic processes did not demonstrate the impact of the airflow during line interventions, equipment manipulations, and machine assembly. The videos did not show the airflow reaching all work surfaces and exiting your RABS filling equipment.***

Tailstorm Response:

Tailstorm acknowledges the observation and the need to improve and repeat our smoke studies to address the investigator's concerns. We further commit to updating the agency as activities and corrective actions are implemented.

To ensure Tailstorm is in a state of control and address the investigator's concern, we have retained third-party cleanroom design expert consultants (Eagle, Stantec and Accutec) to repeat all smoke studies to demonstrate the impact of the laminar air flow and air exit from RABS ISO5 environment into the ISO7 surrounding room during static and dynamic conditions:

1. Introducing sterilized components/machine part accessories into ISO5 RABS.
2. Routine interventions such as complete machine assembling
3. Non routine interventions such as equipment manipulations
4. Filling operation activities



Top View of Filling Machine (RABs)

Root Cause:

The cause of the observation was that the parameters of quantity of smoke, camera angles and contrast were not optimized for current studies which resulted in insufficient visual verification of the impact of airflow during line interventions, equipment manipulations, machine assembly and air exit from RABS ISO5 environment into the ISO7 surrounding room.

Impact assessment:

Based on the thorough review of all applicable data regarding the impact of improper demonstration of air flow during smoke studies, following conclusions can be drawn:

1. As per the manufacturer, the laminar air flow in RABS has been designed, manufactured and configured according to the FDA 21 CFR part 210, FDA 21 CFR part 211 and FDA 21 CFR part 11 regulation. The laminar air flow has been projected to generate forced ventilation in order to create a work area without particles. (Click here to review functional specification of laminar air flow). There has been no change in design in the RABS and surrounding area since installation.
2. Six media fills (aseptic process simulation) have been executed since the RABS was installed with no evidence of microbial growth. This indicates that the air flow is laminar to maintain an aseptic environment. (Click here to review media fill report of Dec-2023 and May-2024)
3. The RABS laminar air flow unit qualification has been performed every six months since installation. All air velocity parameters were consistently found within the specified limits. This demonstrates that the laminar air flow units continue to perform as intended ensuring maintenance of an aseptic environment. (Click here to review clean room certification May-24, Oct-23 & Apr-23)

4. The trend analysis data results of non-viable particle count show no indications of air turbulence and maintains ISO5 non-viable particle count specifications. This suggests that the laminar air flow units are functioning as intended. (Click here to review trend analysis results of non-viable particle count)
5. The trend analysis of environmental monitoring (viable particle count) shows no indications of air turbulence and maintains ISO5 viable particle count specifications. This suggests that the laminar air flow units are functioning as intended. (Click here to review trend data Q1-2024, Q2-2024 & Q3-2024)

Conclusion:

The impact assessment indicates no negative impact on the manufactured lots as the ISO5 aseptic environment was maintained. The lack of complete visual verification of the impact of airflow was due to the parameters such as density of smoke, camera angles and contrast were not optimized for the current studies. To ensure compliance, new smoke studies will be conducted to demonstrate airflow dynamics ensuring that airflow patterns are clearly visible at all locations (entry, work surface and exit) by selecting proper camera angles, density of smoke, location for introducing smoke media, appropriate lighting and use of contrast backgrounds.

Corrective and Preventive actions:

A new protocol will provide a systematic approach for performing airflow studies of the RABS which will demonstrate air flow dynamics as per the design and performance of the laminar air flow of the RABS.

This study will ensure airflow is clearly visible at all locations (entry, work surface and exit) by selecting proper camera angles, location for introducing smoke media, appropriate lighting and use of contrast backgrounds to provide better visibility of smoke.

New Smoke studies will be conducted to demonstrate:

1. Unidirectional airflow shall be maintained reaching all work surfaces in the RABS and exit from RABS ISO5 environment into the ISO7 surrounding room in static and dynamic conditions.
2. Airflow disruption due to manipulating materials or machine parts. Air disruption shall recover to regain unidirectional flow.
3. To verify any turbulence, eddies, reflux or bounce back of air inside RABS.

Summary of Deliverables:

	Deliverables	Time Frame
1.	Smoke study demonstration videos	Update within 30 days after initial response

Observation#3:

Aseptic processing areas are deficient regarding systems for maintaining any equipment used to control the aseptic conditions.

Specifically,

B. Your firm does not adequately capture the environmental conditions in which aseptic processes are conducted. Your procedure SOP.DQC.007, Environmental Monitoring, Effective date: 11 Mar 2024, Revision: 03 instructs personnel performing filling machine assembly to be sampled after set-up. Your firm failed to immediately sample personnel conducting filling machine setup for about 34 lots that have been released from your facility. For example:

- ***i. On 19 Mar 2024, your technician completed setup of the filling machine (Equipment ID: PE001) for aseptic filling of drug product Bevacizumab (Avastin) Lot# D24008 at 07:07 am, however environmental monitoring of the employee who performed setup was performed at 07:50 am on 19 Mar 2024.***
- ***ii. On 26 Apr 2024, your technician completed setup of the filling machine (Equipment ID: PE001) for aseptic filling of drug product Bevacizumab (Avastin) Lot# D24012 at 08:01am, however environmental monitoring of the employee who performed setup was performed at 08:34 am on 26 Apr 2024.***
- ***iii. On 01 Jul 2024, your technician completed setup of the filling machine (Equipment ID: PE001) for aseptic filling of drug product Semaglutide Lot# D24019 at 08:51 am, however environmental monitoring of the employee who performed setup was performed at 09:35 am on 01 Jul 2024.***

Tailstorm Response:

Tailstorm acknowledges the observation regarding delays in the personnel monitoring sampling following completion of ISO5 activities. We recognize the need to enhance the timeliness of sampling for personnel involved in the setting up of the filling machine following completion of the activity. We have reviewed all lots and observed that sampling did not happen immediately.

Root cause:

The root cause for delays in sampling personnel after machine assembly is a lack of coordination between manufacturing and microbiology sampling technicians. Once the machine assembly was completed the microbiologist was not readily available to sample operators immediately. The delays were specifically due to microbiologist sampling technician having to be contacted and then gown to enter the filling room.

The root cause for not identifying the time gaps during batch record review by QA was found to be that the time of machine assembly was recorded in the batch manufacturing record and time of personnel monitoring was recorded in the separate SOP form included as an attachment to the batch record.

1. The batch manufacturing record has been updated to include:
    a. Verification that the microbiologist is present inside filling room prior to start and at the completion of the filling machine assembly to sample operators immediately after exit from the ISO5 RABS environment.
    b. Machine set up completion time and personnel monitoring time will be documented on the same page of batch manufacturing record to ensure and track that sampling occurs immediately. This will consolidate the sampling documentation to enable QA to verify times during batch record review.

Impact assessment:

Personnel monitoring for the ISO5 environment is important for detecting contamination from personnel. Despite the inconsistent time gaps in personnel monitoring after completing the filling machine setup, the personnel remained in ISO 7 air conditions throughout the delay in personnel monitoring, representing a worst-case scenario. There was no impact on product quality or sterility as all other air and surface monitoring results of the ISO5 RABS show no other excursions (Click here to review environmental monitoring data for all manufactured lots Q1-2024, Q2-2024 & Q3-2024). The historical results indicate that the environment of the ISO5 RABS effectively maintained aseptic conditions throughout the filling processes.
All historical critical filling machine surface and air sample sites were 0 cfu :

a. Contact plates results of the RABS filling and stoppering stations. (Click here to review Q1-2024, Q2-2024 & Q3-2024)
b. Contact plates results of the RABS near the IV bag placement (product solution). (Click here to review Q1-2024, Q2-2024 & Q3-2024)
c. Swab sampling results of the filling needles. (Click here to review Q1-2024, Q2-2024 & Q3-2024)
d. Settle plate monitoring results near the filling and stoppering stations. (Click here to review Q1-2024, Q2-2024 & Q3-2024)
e. Settle plate monitoring results near the open PFS tub conveyor. (Click here to review Q1-2024, Q2-2024 & Q3-2024)
f. Active air sampling results near the filling and stoppering stations. (Click here to review Q1-2024, Q2-2024 & Q3-2024)
g. Continuous non-viable particle count data. (Click here to review)
h. Sterility test result of manufactured lots. (Click here to review)

There are 16 sample plates tested for the ISO5 environment for each batch. If any growth is detected within ISO 5 environment, a full investigation would be initiated. Historically, these 16 sample plates for critical air and surface monitoring sites in ISO5 RABS have resulted in 0 cfu's recovered. This indicates despite that aseptic conditions were maintained in ISO5 RABS.

Continuous viable air monitoring takes place right at the filling and stoppering locations within the RABS and is sampled dynamically throughout the batch.
In addition to the continuous viable monitoring at the worst-case site, the critical areas are currently sampled in a manner that is consistent with US FDA 2004 guidance titled "Sterile Drug Products Produced by Aseptic Processing – Current Good Manufacturing Practice".

The continuous non- viable monitoring met ISO 5 air particulates criteria and all continuous viable air monitoring data confirmed no growth in all lots. This data demonstrated and confirmed that the ISO 5 space was free from viable contamination from all direct surface samples in addition to the air sampling. Additional cleaning and sanitization of the area is performed after each routine or non-routine intervention.

This routine (Filling machine assembling) intervention has been challenged during six previous media fill process qualifications with no media failures. The batches were released based on a full and complete review of all environmental data and all other in process and direct surface sampling outlined above and final batch testing that met all requirements, including sterility testing.

Corrective and Preventive actions:

1. The batch manufacturing record has been updated to include:
   a. Verification that the microbiologist is present inside filling room prior to start and at the completion of the filling machine assembly to sample operators immediately after exit from the ISO5 RABS environment (Click here to review BMR pages).
   b. Machine set up completion time and personnel monitoring time will be documented on the same page of batch manufacturing record to ensure and track that sampling occurs immediately. This will consolidate the sampling documentation to enable QA to verify times during batch record review (Click here to review BMR pages for recording of personal monitoring).

Attachments for observation 3B:

Attachment	:	Document Title
Attachment -3B-1	:	BMR pages for recording of personal monitoring after assembling, setup and aseptic connections (Click here to review)
Attachment -3B-2	:	Environmental monitoring data for all lots (Click here to review Q1-2024, Q2-2024 & Q3-2024)
Attachment -3B-3	:	Non-viable monitoring data for all lots (Click here to review)
Attachment -3B-4	:	Sterility results of all lots (Click here to review)

Observation#3:

Aseptic processing areas are deficient regarding systems for maintaining any equipment used to control the aseptic conditions.

Specifically,

C. ***On 27 Sep 2024, during aseptic filling of Semaglutide (8mg/mL) Lot# D24044, your employee was seen rubbing excess sterile 70% IPA on gloved hands prior to being sampled.***

Tailstorm Response:

Tailstorm Health acknowledges the observation. Tailstorm understands the importance of thorough investigation and we are committed to ensure that a robust investigation is performed for observation thereby ensuring the safety and quality of our products for our patients.

Observation Summary:

During the inspection the investigator observed the filling machine set up operator wiping his sterile glove sleeves with his gloved fingers of his other hand upon completion of filling machine set up.

The inspector believed he had sanitized his sleeves with 70% IPA prior to getting sampled for personal monitoring. During the inspection interviews was conducted by FDA investigator with the operator and the microbiologist who performed the sampling.

The operator stated that he did not apply additional 70% IPA on his hands however he noticed some residual IPA on his sterile glove sleeve, and he was wiping it dry. The operator stated that he has been trained to make sure his sterile glove sleeve is dried prior to personal sampling. The operator attempted to dry his glove sleeve prior to personal monitoring, and he is trained not to sanitize gloved hand prior to personal monitoring (Click here to review section 6.4.8.22 of SOP.DMF.004 which states "operators working in the aseptic area must not sanitize their gloved hand immediately just before the exit and subsequently before personal monitoring").

The microbiologist stated that she did not see operator applying additional IPA and believed he was adjusting his sterile sleeve of gloves. The sleeves may need adjusting after the arm is removed from the gloves of RABS glove port.

The last step of the ISO5 filling machine set up was to enter hands and forearms inside the RABS ISO5 by opening the RABS door to remove the Tyvek wrap from the stopper bowl. It is proceduralized that when a person enters the RABS ISO5 they must sanitize their hands with 70 % IPA first. This is the last step of the machine set up prior to performing personal sampling. This would account for the operator stating he as residual IPA on his sleeve.

The sequence of the machine set up has been revised (Click here to review section 5.4 of SOP.DMF.0031). The new process of set up is:

To remove the Tyvek wrap from the stopper bowl where operator has to enter inside RABS ISO5 after sanitizing hand and forearm with 70% IPA.

Then remove the sterile covering from the RABS glove through glove port with the RABS doors closed. This will allow sufficient time for the 70% IPA on the operator to dry.

Root cause:

During the FDA inspection, the FDA investigator interviewed the operator and microbiologist to find out the root cause of the event. The root cause was found that the operator was sampled for personal monitoring after the process step, this required hands and forearm sanitization which resulted in residual 70% IPA on his glove sleeve. The operator attempted to dry his glove sleeve prior to personal monitoring, and he is trained not to sanitize gloved hand prior to personal monitoring (Click here to review section 6.4.8.22 of SOP.DMF.004 which states "operators working in the aseptic area must not sanitize their gloved hand immediately just before the exit and subsequently before personal monitoring").

Impact assessment:

Based on the air and surface monitoring results of equipment in the ISO5 RABS showing no excursions (Click here to review environmental monitoring data for Lot # D24044) there is no impact. The results indicate that the controlled environment of the ISO5 RABS effectively maintained sterility despite the event.
This air and surface monitoring includes:

a. Contact plates results of RABS filling and stoppering station

b. Contact plates results of RABS near IV bag placement (product solution)

c. Swab sampling results of filling needles

d. Settle plate monitoring results near filling and stoppering station

e. Settle plate monitoring results near open PFS tub conveyor

f. Active air sampling results near filling and stoppering station

A review of sterility result of manufactured lot #D24044 reveals no indications of contamination within ISO5 RABS. (Click here to review COA of lot#D24044)

Corrective and Preventive actions:

The sequence of the machine set up was revised (Click here to review section 5.4 of SOP.DMF.0031) during the FDA inspection. This process change will prevent sampling immediately after completing the task which requires sanitizing hand and forearm with 70% IPA. The new process of set up is:

To remove the Tyvek wrap from the stopper bowl where operator has to enter inside RABS ISO5 after sanitizing hand and forearm with 70% IPA.

Then remove the sterile covering from the RABS glove through glove port with the RABS doors closed. This will allow sufficient time for the 70% IPA to dry.

Attachments for observation 3C:

Attachment	:	Document Title
Attachment -3C-1	:	SOP.DMF.0031 "Procedure for Assembly, Operation and Cleaning of PFS Filling machine" (Click here to review)
Attachment -3C-2	:	Environmental monitoring results of Lot # D24044 (Click here to review)
Attachment -3C-3	:	Sterility test results of Lot # D24044 (Click here to review)

Observation#3:

Aseptic processing areas are deficient regarding systems for maintaining any equipment used to control the aseptic conditions.

Specifically,

D. Your firm performs aseptic filling of drug products using RABS. On 24 Sep 2024, aseptic personnel's head to mid trunk of body exposed to ISO-5 classified RABS during machine assembly for Bevacizumab (Avastin) Lot# D24042. Your Head of Quality was unable to provide scientific justification to why personnel monitoring of aseptic personnel forehead and chest are not sampled.

Tailstorm Response:

Tailstorm acknowledges the observation and has outlined responses below. Tailstorm understand the importance to maintain an aseptic environment and to sample all critical sites within the environment. This includes the head and chest sampling immediately following the machine assembling.

Prior to the inspection, change control (Reference no. DV.CC.2024.029) was initiated to evaluate and establish additional personnel monitoring sample sites other than forearms and fingertips. The change control would implement additional sampling of head, chest and shoulder in addition to forearms and fingertips. However, the head, chest and shoulder sampling requirements were not evaluated.

Change control (Reference no. DV.CC.2024.044) was evaluated and implemented during inspection for all personnel exiting the cleanroom where aseptic practices take place. (Click here to review change control DV.CC.2024.044 & SOP.DQC.0006_Personnnel Monitoring) The additional sample sites head, chest and shoulder were implemented for all personnel exiting the cleanroom meets specification (Click here to review personal monitoring results of Lot#D24055 & Lot#D24056).

	Personnel Monitoring Locations
	Forehead
	Right Shoulder
	Left Chest
	Left Forearm
	Right Forearm
	Left Glove
	Right Glove

We have performed risk-based evaluation of the machine assembling process to evaluate practices for improvements which would not require entry into the ISO5 RABS environment based on the investigator's observation. Interviews were conducted with the operators to determine which steps of machine assembling can be performed without exposing their head and trunk to the ISO5 environment. Following the interviews, we performed a mock set up of machine assembling process and photographed each stage of the machine assembling process. This allowed us to improve machine assembling steps by eliminating all steps where the operator's head and torso was entering to the ISO5 RABS environment.

Photographs of machine parts assembling and evaluation of personal monitoring sample location requirement during machine assembling in ISO5 RABS:

Step Number/Description	**Visual Image of Actual Operation**
1/ Incorporation of the Transfer plate N 100. **Aseptic maneuver assessment:** Requires a closed-door through open ring glove access and involves gloved forearm entry into ISO 5 cabinet.	 From the visual image, **no intrusion** of forehead and chest is involved.

Step Number/Description	Visual Image of Actual Operation
2/ Fixing the Caps Terminal N100. **Aseptic maneuver assessment:** Requires a closed-door through open ring glove access and involves gloved forearm entry into ISO 5 cabinet.	 From the visual image, **no intrusion** of forehead and chest is involved.
3/ Connection of the N100 punches plate **Aseptic maneuver assessment:** Requires a closed-door through open ring glove access and involves gloved forearm entry into ISO 5 cabinet.	 From the visual image, **no intrusion** of forehead and chest is involved.
4/ Integration of the N100 Funnels plate. **Aseptic maneuver assessment:** Requires a closed-door through open ring glove access and involves gloved forearm entry into ISO 5 cabinet.	 From the visual image, **no intrusion** of forehead and chest is involved.

Step Number/Description	Visual Image of Actual Operation
5/ Fixing of pusher rods **Aseptic maneuver assessment:** Requires a closed-door through open ring glove access and involves gloved forearm entry into ISO 5 cabinet.	 From the visual image, **no intrusion** of forehead and chest is involved.
6/ Installation of the plunger stopper bowl. **Aseptic maneuver assessment:** Considering the position proximity, the operator requires the open door and access only gloved hands extension into the ISO 5 cabinet.	 From the visual image, it appears the personnel access only gloved hands through open door without exposing the head and chest.
7/ Attachment of the Chute **Aseptic maneuver assessment:** Considering the position proximity, the operator requires the open door and access only gloved hands extension into the ISO 5 cabinet.	 From the visual image, it appears the personnel access only gloved hands through open door without exposing the head and chest.

Step Number/Description	Visual Image of Actual Operation
8/ Fixing of Filling pumps with pre-assembled tubing from outlet of IV bag to Filling pumps inlet and from pump outlet to Filling needles along with Integration of the Needle holder 2P N 100 **Aseptic maneuver assessment:** Considering the position proximity, the operator requires the open door and a closed-door through open ring glove access and involves gloved forearm entry into ISO 5 cabinet.	 From the visual image, only gloved hands are exposed to ISO-05 during Filling pump assembly and fixing needle holder through closed door through open ring glove access and no exposure of forehead and trunk to ISO-05.
9-12/ Installation of glove ports	 Glove ports are installed from outside the RABS.

Conclusion of the risk-based evaluation of the machine assembling process for identifying critical personnel monitoring sites:

Based on the evaluation of the filling machine assembling process, the practice of breaking first air with the head and chest during open RABS doors interventions has been remediated. Only the operator's gloved hands enter the ISO 5 RAB during the machine setup and interventions. We have added following sample sites which include right and left shoulder to our personnel monitoring program.

Personnel monitoring locations after machine assembly:

1. Right shoulder
2. Left shoulder
3. Left Forearm
4. Right Forearm
5. Left Glove
6. Right Glove

Impact assessment:

Personnel monitoring for the ISO5 environment, especially at critical points like head and chest, is important for detecting contamination from personnel. The lack of monitoring of these sites could lead to undetected microbial contamination posing a risk to product quality.

Despite not monitoring these sites there was no impact on product quality or sterility as all other air and surface monitoring results of the ISO5 RABS show no other excursions (Click here to review environmental monitoring data for Q1-2024, Q2-2024 & Q3-2024). The historical results indicate that the environment of the ISO5 RABS effectively maintained aseptic conditions throughout the filling processes.

All historical critical filling machine surface and air sample sites were 0 cfu:

a. Contact plates results of the RABS filling and stoppering stations. (Click here to review Q1-2024, Q2-2024 & Q3-2024)
b. Contact plates results of the RABS near the IV bag placement (product solution). (Click here to review Q1-2024, Q2-2024 & Q3-2024)
c. Swab sampling results of the filling needles. (Click here to review Q1-2024, Q2-2024 & Q3-2024)
d. Settle plate monitoring results near the filling and stoppering stations. (Click here to review Q1-2024, Q2-2024 & Q3-2024)
e. Settle plate monitoring results near the open PFS tub conveyor. (Click here to review Q1-2024, Q2-2024 & Q3-2024)
f. Active air sampling results near the filling and stoppering stations. (Click here to review Q1-2024, Q2-2024 & Q3-2024)
g. Continuous non-viable particle count data. (Click here to review)

h. Sterility test result of manufactured lots. (Click here to review)

There are 16 sample plates tested for the ISO5 environment for each batch. If any growth is detected within ISO 5 environment, a full investigation would be initiated. Historically, these 16 sample plates for critical air and surface monitoring sites in ISO5 RABS have resulted in 0 cfu's recovered. This indicates despite not sampling head and chest of operator aseptic conditions were maintained in ISO5 RABS.

Continuous viable air monitoring takes place right at the filling and stoppering locations within the RABS and is sampled dynamically throughout the batch.

In addition to the continuous viable monitoring at the worst-case site, the critical areas are currently sampled in a manner that is consistent with US FDA 2004 guidance titled "Sterile Drug Products Produced by Aseptic Processing – Current Good Manufacturing Practice".

The continuous non- viable monitoring met ISO 5 air particulates criteria and all continuous viable air monitoring data confirmed no growth in all lots. This data demonstrated and confirmed that the ISO 5 space was free from viable contamination from all direct surface samples in addition to the air sampling. Additional cleaning and sanitization of the area is performed after each routine or non-routine intervention.

Routine (Filling machine assembling) and non-routine interventions has been challenged during six previous media fill process qualifications with no media failures. The batches were released based on a full and complete review of all environmental data and all other in process and direct surface sampling outlined above and final batch testing that met all requirements, including sterility testing.

Corrective and Preventive actions:

1. SOP.DQC.0006 – Personnel Monitoring has been revised to add personnel monitoring sample sites of the right shoulder and left shoulder for the machine assembly process. (Click here to review SOP.DQC.0006).

Attachments for observation 3D:

Attachment	:	Document Title
Attachment -3D-1	:	Trend of viable environmental monitoring for all manufactured lots (Click here to review Q1-2024, Q2-2024 & Q3-2024)
Attachment -3D-2	:	Trend of non-viable environmental monitoring for all manufactured lots (Click here to review)
Attachment -3D-3	:	Sterility results of all manufactured lots (Click here to review)
Attachment -3D-4	:	SOP.DQC.0006 "Personnel Monitoring" (Click here to review)

Observation#4:

Written procedures are not established for the cleaning and maintenance of equipment, including utensils, used in the manufacture, processing, packing or holding of a drug product.

Specifically,

Your firm failed to establish a procedure for cleaning of aseptic filling equipment with sporicidal. Your environmental and personnel monitoring program has recovered spore-forming microorganisms while performing aseptic operations of sterile drug products, however there is no documentation to show that sporicidal wipes are being used during cleaning of your aseptic filling equipment.

Tailstorm Response:

Tailstorm acknowledges the observation regarding the absence of documentation for the use of sporicidal wipes during the cleaning of aseptic filling equipment. We fully recognize the critical importance of maintaining sterility in our processes and adhering to current Good Manufacturing Practices (cGMP). Establishing adequate cleaning and sanitization procedures is essential to ensure that equipment used in aseptic processing remains free from contamination.

The use of a sporicidal agent, Decon-Spore, is part of our Cleaning and Disinfectant Program for the area and equipment, as outlined in SOP.DMF.003 ("Routine Cleaning Process for the Cleanroom"). According to this SOP, machine parts, stainless steel surfaces in ISO-5, glove ports, rigid barriers (RABs), PVC curtains of mobile LAF units, and other surfaces/items in ISO-07 areas are disinfected using Decon-Spore. (Click here to review Section 5.11 of SOP.DMF.003)

The observation specifically relates to the use of sporicidal wipes during the preliminary cleaning of the aseptic filling equipment, as mentioned in SOP.DMF.008 ("Procedure for Assembly, Operation and Cleaning of PFS Filling Machine"). (Click here to review Section 5.6 of SOP.DMF.008) This preliminary cleaning is carried out immediately after the filling process and before initiation of the daily routine cleaning process (as per SOP.DMF.003). This additional precautionary measure is aimed at enhancing microbial contamination control, particularly addressing any time gap between the completion of filling operations and the commencement of the established daily cleaning and disinfection process (as per SOP.DMF.003).

While the use of sporicidal wipes has been implemented for this initial cleaning, we recognize that SOP.DMF.008 has not been revised to include the usage in SOP at the time of the inspection.

Observation Summary:

Our standard operating procedure for disinfecting the filling machine section 5.6 (Click here to review section 5.6 of SOP.DMF.008) was found to lack specific instructions on the use of sporicidal wipes immediately after the filling process.

As per SOP.DMF.008 70% isopropyl alcohol was used after completion of filling process and additionally Sporicidal wipes were used in practice but not defined in SOP.DMF.008.

Sporicidal wipes were used as an additional precautionary measure to control potential microbial contamination taken due to the time gap between the completion of the filling operation and the initiation of the full cleaning and disinfection process which is performed daily as per SOP.DMF.003. (Click here to review section 5.11.3 of SOP.DMF.003) The rationale for using sporicidal wipes in this manner is to mitigate the risk of contamination during the period before comprehensive daily cleaning can begin. The additional application of a sporicidal agent serves as a safeguard to reduce microbial load, including spore-forming microorganisms. This practice helps to ensure that the equipment (Filling machine in ISO5) is maintained in a sanitary state in alignment with cGMP requirements for cleaning and maintenance.

Additionally, we have an established full cleaning and disinfection program (**Reference SOP.DMF.003**), details of program are below:

1. **Cleaning and Disinfection Program Overview** **(Click here to review SOP.DMF.003):**
   a. Our cleaning and disinfection program is governed by Standard Operating Procedure (SOP.DMF.003) that details the frequency, agents used, application methods, and rotation of disinfectants to ensure comprehensive control of microbial contamination.
   b. This program outlines a systematic approach for cleaning and disinfecting all equipment and areas involved in aseptic processing including the aseptic filling equipment. The procedures are designed to align with cGMP requirements for maintaining equipment cleanliness and ensuring that no residual contamination could impact the next product.

2. **Comprehensive Cleaning Schedule:**
   We have established a detailed cleaning schedule that specifies daily, weekly, and monthly cleaning tasks for equipment and processing areas. This includes:
   a. Daily cleaning tasks to remove any residual surface contaminants after production activities.
   b. Weekly cleaning procedures to provide a deeper cleaning and disinfection with use of disinfectant twice (2X cleaning) with bactericidal or sporicidal agent in rotation. Disinfectants are rotated weekly.

   The schedule is designed to minimize contamination risks and maintain a controlled environment.

3. **Use of Disinfectants and Sporicidal Agents:**
   Our SOP's provide specific instructions for the selection, preparation, and application of disinfectants and sporicidal agents. This includes details on:
   a. Proper contact times to ensure the efficacy of disinfectants and sporicidal agents against a wide range of microorganisms, including spore-forming bacteria.
   b. Methods for applying cleaning agents, such as wiping, spraying, or fogging, based on the area or equipment being treated.
   c. Sequence of application.

   The use of sporicidal agents is integrated into the routine cleaning activities to provide an additional safeguard against spore-forming microorganisms.

4. **Rotation of Disinfectants:**

a. Our cleaning program includes a rotation of bactericidal and sporicidal disinfectants to prevent the development of microbial resistance and to ensure the effective elimination of a broad spectrum of microorganisms.
b. The rotation schedule incorporates the use of different classes of disinfectants, including sporicidal agents, on a regular basis to maintain effective microbial control. This practice helps address potential resistance and supports compliance with cGMP requirements for maintaining a clean and sanitized processing environment.

5. **Documentation and Cleaning Logs (Click here to review SOP.DMF.003.F01):**
   Cleaning and disinfection activities are meticulously documented in cleaning logs (Click here to review executed cleaning log as per SOP.DMF.003.F01), which capture the details of each cleaning event. These logs include:
   a. The date and time of the cleaning activity.
   b. Identification of the equipment or area cleaned.
   c. The type of cleaning agent or disinfectant used, including any sporicidal agents.
   d. The name and signature of the personnel who performed and verify the cleaning.

Impact assessment:

The use of sporicidal wipes, although not defined in the SOP, has no negative impact, as these wipes serve as an additional precautionary measure to enhance control over potential microbial contamination. This practice is specifically implemented to pre-clean equipment after the filling operation and prior to the start of the established daily cleaning and disinfection process.

Conclusion:

Our cleaning and disinfection program is designed to effectively mitigate microbial contamination risks in aseptic processing areas which is crucial for ensuring product safety.

Trend analysis of environmental monitoring data specifically contact plate and swab monitoring of equipment and area indicates that there have been no excursions and that the viable and non-viable particles consistently meet area specifications. This sustained compliance suggests that the

cleaning and disinfection procedures are functioning as intended and are critical to maintaining the required aseptic conditions (Click here to review environmental monitoring trend of Q1-2024, Q2-2024 & Q3-2024).

Corrective and Preventive actions:

1. SOP.DMF.0031 has been revised to include the use of sporicidal wipes (Click here to review section 5.6 of SOP.DMF.0031 (Former SOP no. SOP.DMF.008).

Observation#5:

The labels of your outsourcing facility's drug products do not include information required by section 503B (a) (10)(A) of the Federal Food, Drug, and Cosmetic Act (FD&C Act).

Specifically,

The statement "Office Use Only" if the drug is dispensed or distributed other than pursuant to a prescription for an individual identified patient.

Examples of your drug product labels that do not contain this information, include, but are not limited to:

- ***Semaglutide 1mg/0.2mL***

Tailstorm Response:

Tailstorm acknowledges the observation and the requirement to adhere to section 503B (a) (10)(A) of the Federal Food, Drug, and Cosmetic Act (FD&C Act). In this instance the statement "For Office Use Only" was not included on the label. We commit to update the labels as per section 503B (a) (10)(A) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) and review all other product labels for compliance. Tailstorm understands the importance of thorough investigation and we are committed to ensure that a robust investigation is performed for each observation thereby ensuring the safety and quality of our products for our patients.

Observation Summary:

Deviation DV/DEV/24/010 was initiated for missing statement "For Office Use Only" required by section 503B (a) (10)(A) of the Federal Food, Drug, and Cosmetic Act (FD&C Act). (Click here to review deviation DV/DEV/24/010)

SOP.DQA.033 "Deer Valley - Design, Control, Review, and Approval of Product Labels." Sections 6.1.6 and 6.1.8 require the label to have the requirements listed in section 503B (a) (10)(A) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) on the primary container (prefilled syringe) and secondary container (clamshell). (Click here to review section 6.1.6 and 6.1.8 of SOP.DQA.033)

A gap assessment was performed to evaluate compliance with labelling requirements listed in Federal Food, Drug, and Cosmetic Act. Scope of this assessment covers products repackaged and compounded at Tailstorm. List of products is below:

Product	Strength	Compounding/Repackaging
Semaglutide Injection	0.25mg/0.05mL	Compounding
	0.5mg/0.1mL	
	1mg/0.2mL	
	1.7mg/0.22mL	
	2.4mg/0.3mL	
Tirzepatide Injection	2.5mg/0.1mL	Compounding
	5mg/0.2mL	
	7.5mg/0.3mL	
	10mg/0.2mL	
	12.5mg/0.25mL	
Bevacizumab Injection	1.25mg/0.05mL	Repackaging

a. Comparison with Federal Requirements for Repackaging Biologic Products:
SOP.DQA.033 "Deer Valley - Design, Control, Review, and Approval of Product Labels." and Product master label of Avastin was reviewed and compared for compliance with repackaging guidance "Mixing, Diluting, or Repackaging Biological Products Outside the Scope of an Approved Biologics License Application" dates January 2018 (Click here to review guidance), comparison details are below:

Compliance with the requirement as per the guidance is indicated by a "✓" while non-compliance is marked with an "X".

Repackaging guidance requirements for Biological products labelling	Comparison with repackaging guidance for repackaging biological products				Justification
	SOP states for syringe label	Avastin syringe master label	SOP states for clamshell label	Avastin clamshell label	
The biological product was repackaged by [name of outsourcing facility] whichever is appropriate	✓	✓	✓	✓	N/A
The address and phone number of the outsourcing facility that mixed, diluted, or repackaged the biological product	✓	✓	✓	✓	N/A
The proper name of the licensed biological product that was mixed, diluted, or repackaged	✓	✓	✓	✓	N/A

Repackaging guidance requirements for Biological products labelling	Comparison with repackaging guidance for repackaging biological products				Justification
	SOP states for syringe label	Avastin syringe master label	SOP states for clamshell label	Avastin clamshell label	
The lot or batch number assigned by the outsourcing facility for the mixed, diluted, or repackaged biological product	✓	✓	✓	✓	N/A
The dosage form and strength of the mixed, diluted, or repackaged biological product	✓	✓	✓	✓	N/A
A statement of either the quantity or the volume of the mixed, diluted, or repackaged biological product, whichever is appropriate	✓	✓	✓	✓	N/A
The date the biological product was mixed, diluted, or repackaged	✓	✓	✓	✓	N/A
The BUD of the mixed, diluted, or repackaged biological product	✓	✓	✓	✓	N/A
Storage and handling instructions for the mixed, diluted, or repackaged biological product	✓	✓	✓	✓	N/A
The National Drug Code (NDC) number for the mixed, diluted, or repackaged biological product, if available27	✓	✓	✓	✓	N/A
The Statement "Not for Resale" and If the biological product is distributed by an outsourcing facility other than pursuant to a prescription for an individual identify patient, The Statement "Office Use Only"	X ✓	X ✓	✓ ✓	✓ ✓	Refer Note-1
If included on the label of the FDA-licensed biological product from which the biological product is	X	X	✓	✓	Refer Note-2

Repackaging guidance requirements for Biological products labelling	Comparison with repackaging guidance for repackaging biological products				Justification
	SOP states for syringe label	Avastin syringe master label	SOP states for clamshell label	Avastin clamshell label	
being mixed, diluted, or repackaged, a list of the active and inactive ingredients in the FDA-licensed biological product, unless such information is included on the label for the container from which the individual units of the mixed, diluted, or repackaged biological product are removed, as described below in 13.b.i; and, if the biological product is mixed or diluted, a list of any ingredients that appear in the mixed or diluted product in addition to those ingredients that are on the label of the original FDA licensed biological product.					

Summary of Findings:

The comparison between the requirements outlined in Federal Requirements for Repacking, SOP.DQA.033 "Deer Valley - Design, Control, Review, and Approval of Product Labels" and the labeling of Avastin confirms that all critical labeling requirements to understand the product are fully addressed in the master labels for both the prefilled syringe (PFS) and clamshell packaging (refer note-1 & 2 for exception).

Note 1: The "Not for Resale" statement is clearly presented on the clamshell packaging, which contains 5 PFS units of Avastin, ensuring compliance with federal requirements. Since the clamshell is sold directly to healthcare professionals for patient administration, the intent of the labeling is upheld, as the product is not intended for resale. Thus, there is no impact on compliance or intended use (Click here to review master label of Avastin PFS and Clamshell). Based on the gap assessment the master PFS label of Avastin has been revised to include the statement "Not for Resale" (Click here to review master label of Avastin PFS).

Note 2: The PFS label includes the active ingredient, while the inactive ingredients are clearly listed on the clamshell packaging. Given that the clamshell contains 5 PFS units and is the primary point of reference for healthcare professionals, this meets the requirement for ingredient disclosure. The space constraints on the PFS label prevent listing all inactive ingredients, but the

essential information is available on the clamshell. This ensures that there is no impact on compliance or safety as healthcare providers have access to all necessary ingredient information. (Click here to review master label of Avastin PFS and Clamshell).

b. Comparison with Federal Requirements for Compounding Products:

SOP.DQA.033 "Deer Valley - Design, Control, Review, and Approval of Product Labels." and Product (Semaglutide and Tirzepatide) all master labels were reviewed and compared for compliance with section 503B (a) (10)(A) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) - Federal Requirements for 21 U.S. Code § 353b - Outsourcing facilities- Compounding for compounded products, (Click here to review guidance) comparison details are below:

Compliance with the requirement as per the guidance is indicated by a "✓" while non-compliance is marked with an "**X**".

Federal Requirements for 21 U.S. Code § 353b - Outsourcing facilities- Compounding	**Comparison with Federal Requirements**				**Justification**
	SOP states for Syringe label	**Semaglutide and Tirzepatide Syringe label**	**SOP states for Clamshell label**	**Semaglutide and Tirzepatide Clamshell label**	
(i) the statement "This is a compounded drug." or a reasonable comparable alternative statement (as specified by the Secretary) that prominently identifies the drug as a compounded drug;	✓	✓	✓	✓	N/A
(ii) the name, address, and phone number of the applicable outsourcing facility; and	✓	✓	✓	✓	N/A
(iii)with respect to the drug—(I) the lot or batch number;	✓	✓	✓	✓	N/A
(II) the established name of the drug;	✓	✓	✓	✓	N/A
(III) the dosage form and strength;	✓	✓	✓	✓	N/A
(IV) the statement of quantity or volume, as appropriate;	✓	✓	✓	✓	N/A

Federal Requirements for 21 U.S. Code § 353b - Outsourcing facilities- Compounding	Comparison with Federal Requirements				Justification
	SOP states for Syringe label	Semaglutide and Tirzepatide Syringe label	SOP states for Clamshell label	Semaglutide and Tirzepatide Clamshell label	
(V) the date that the drug was compounded;					
(VI) the expiration date;	✓	✓	✓	✓	N/A
(VII)storage and handling instructions;	✓	✓	✓	✓	N/A
(VIII) the National Drug Code number, if available;	✓	✓	✓	✓	N/A
(IX) the statement "Not for resale", and, if the drug is dispensed or distributed other than pursuant to a prescription for an individual identified patient, the statement "Office Use Only"; and	✓ ✓	✓ X	✓ ✓	X X	Refer Note-1
(X) subject to subparagraph (B)(i), a list of active and inactive ingredients, identified by established name and the quantity or proportion of each ingredient.	X	X	✓	✓	Refer Note-2

Summary of Findings:

The comparison between the requirements outlined in Federal Requirements for 21 U.S. Code § 353b - Outsourcing facilities- Compounding, SOP.DQA.033 "Deer Valley - Design, Control, Review, and Approval of Product Labels" and the labeling of Semaglutide/Tirzepatide confirms that all critical labeling requirements to understand the product fully are addressed in the master labels for both the prefilled syringe (PFS) and clamshell packaging (refer note-1 & 2 for exception)

Note-1: The statement "For Office Use Only" was omitted intentionally based on the draft guidance, titled "Prohibition on Wholesaling Under Section 503B of the Federal Food, Drug, and Cosmetic Act (June 2023)".

"Not for Resale" statement was inadvertently missed on the clamshell label of Semaglutide and Tirzepatide however the statement was available on the PFS label which prevents the resale the of the drug product.
The primary PFS and secondary clamshell label of Semaglutide and Tirzepatide has been revised to include the statement "For Office Use Only" and "Not for Resale" (Click here to review master label of Semaglutide and Tirzepatide PFS and Clamshell)
Note-2: The PFS label includes the active ingredient, while the inactive ingredients are clearly listed on the clamshell packaging. Given that the clamshell contains 4 PFS units and is the primary point of reference for healthcare professionals, this meets the requirement for ingredient disclosure. The space constraints on the PFS label prevent listing all inactive ingredients, but the essential information is available on the clamshell. This ensures that there is no impact on compliance or safety as healthcare providers have access to all necessary ingredient information. (Click here to review master label of Semaglutide and Tirzepatide PFS and Clamshell)

Root Cause:

SOP.DQA.033 was not followed to include "For Office Use Only" which is also required by 503B (a) (10)(A) of the Federal Food, Drug, and Cosmetic Act (FD&C Act).
The statement "For Office Use Only" was omitted intentionally based on the draft guidance, titled "Prohibition on Wholesaling Under Section 503B of the Federal Food, Drug, and Cosmetic Act (June 2023)" (Click here to review draft guidance) permits FDA-registered outsourcing facilities such as Tailstorm, "to distribute a drug it compounded to a state-licensed pharmacy, federal facility, or licensed physician, which subsequently dispenses the drug pursuant to a prescription in accordance with section 503(b)(1) of the FD&C Act." Draft Guidance, lines 329-338 (Click here to review Guidance).
The statement "For Office Use Only" was omitted intentionally with the understanding that the product may further distributed from the provider to patients for home use.

Impact assessment:

There is no impact to patient safety because the provider instructs the patient on how to administer the product and all other critical label requirements were present on the label.
The omission of the "For Office Use Only" statement on Semaglutide and Tirzepatide labels does not negatively impact patient safety or provider understanding.
Healthcare providers instruct patients on how to use compounded medications. This omission does not compromise safety as providers remain responsible for ensuring proper administration.
Providers are accustomed to handling compounded products and are unlikely to be confused by the lack of the specific statement, which reinforces the proper use of the medication.
All other critical requirements were present on the labels.

Conclusion:

Tailstorm acknowledges the observation regarding the omission of the "For Office Use Only" statement on product label of Semaglutide. While the intent behind the omission was reference to the draft guidance, titled "Prohibition on Wholesaling Under Section 503B of the Federal Food, Drug, and Cosmetic Act (June 2023)", we recognize the importance of strict compliance with all 503B labelling and repackaging regulations.

All other critical labeling elements were present ensuring there is no adverse impact to patient safety or provider understanding. To address this issue, Tailstorm has revised the affected labels to include the necessary statements and enhance the label review and approval process (Click here to review SOP.DQA.033) to ensure compliance with all regulatory standards in the future.

Corrective and Preventive actions:

Corrective Action:

1. **Revision of Master Labels:**
    1. The master labels for the pre-filled syringes (PFS) and clamshell packaging of Semaglutide and Tirzepatide Injection have been revised to include the "Office Use Only" statement, in accordance with the Federal Food, Drug, and Cosmetic Act (FD&C Act). (Click here to review master label of Semaglutide and Tirzepatide PFS and Clamshell)
    2. The master label for the pre-filled syringes (PFS) of Avastin Injection has been revised to include the "Not for resale" statement, in accordance with the repackaging guidance "Mixing, Diluting, or Repackaging Biological Products Outside the Scope of an Approved Biologics License Application" dates January 2018. (Click here to review master label of Avastin PFS)

Preventive Action:

1. **Revision of Standard Operating Procedure (SOP):**

    SOP.DQA.033 is revised to explicitly outline the mandatory requirements for label content in accordance with the FD&C Act.
2. **Enhanced Checklist for Label Creation:**
    a. The existing checklist for label creation for repackaged biological products has been revised to mandate full compliance to all labelling requirements in the Repackaging of Certain Biological.
    b. A new checklist has been added (SOP.DQA.033) to mandate full compliance to of each labelling requirement outlined in the FD&C Act for compounded drugs. This checklist will prevent the omission of any critical information during the label creation and review process. (Click here to review checklist of repackaged drug product for clamshell & syringe and compounded drug product for clamshell & syringe)

Statement of Responsibility

1. I am the Owner (title) for Boudreaux's New Drug Store (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be responsible for any violations of pharmacy law that may occur in the Pharmacy owned by such owner(s), shareholder(s), member(s), or partner(s).
3. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) may be named in any action taken by the Nevada State Board of Pharmacy against the Pharmacy.
4. I further understand and acknowledge that any owner(s), shareholder(s), member(s), or partner(s) cannot require or permit the pharmacist(s) in said Pharmacy to violate any provision of local, state, or federal laws or regulations pertaining to the practice of pharmacy.
5. I further understand and acknowledge that Nevada law requires that each pharmacist engaged in providing pharmacy services into Nevada is licensed by the Nevada State Board of Pharmacy (NRS 639.100).

LOUISIANA BOARD OF PHARMACY

BATON ROUGE, LOUISIANA

IN THE MATTER OF: CONSENT ORDER

VIDRINE PHARMACEUTICAL GROUP, LLC D/B/A BOUDREAUX'S NEW DRUG STORE

LOUISIANA PHARMACY PERMIT NO. 8142 Case No. 22-0103

CONSENT AGREEMENT

WHEREAS, an informal conference was conducted by the Violations Committee of the Louisiana Board of Pharmacy (hereinafter referred to as the "Board") on June 8, 2022 at the Board office, 3388 Brentwood Drive, Baton Rouge, LA 70809, in the matter of VIDRINE PHARMACEUTICAL GROUP, LLC D/B/A BOUDREAUX'S NEW DRUG STORE (hereinafter referred to as "Respondent"), holding Louisiana Pharmacy Permit No. 8142, 404 E. Prien Lake Rd., Lake Charles, LA 70601, with Respondent's representative Jesse Vidrine, Pharmacist-in-Charge Kylee Vidrine and attorney Chris Whittington appearing on behalf of Respondent.

WHEREAS, from September 11, 2020 to March 2, 2022, a total of 3,650 prescriptions were dispensed at Boudreaux's New Drug Store that were purportedly sterile products compounded in the non-HD buffer room in a biological safety cabinet that last had a "PASS" result on its Certification Status on June 2, 2020.

WHEREAS, the Board alleges that such actions constitute violations of the following:

La. R.S. 37:1241 (A)(1): Practiced or assisted in the practice of pharmacy, or knowingly permitted or has permitted anyone in his employ or under his supervision to practice or assist in the practice of pharmacy, in violation of the provisions of this Chapter and any rules and regulations promulgated thereto in accordance with the Administrative Procedure Act.

LAC, Title 46: LIII §2535(A)(2)(a): The compounding of sterile preparations pursuant to receipt of a patient-specific prescription shall comply with the provisions of Section 503-A of the FDCA and USP Chapter 797.

To facilitate the submission of this Consent Agreement, Respondent does not contest the allegations and agrees that there is sufficient evidence upon which to predicate a finding of those violations.

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

In order to avoid further administrative and judicial proceedings, Respondent hereby consents to accept and abide by the following order of the Board:

VIDRINE PHARMACEUTICAL GROUP, LLC D/B/A BOUDREAUX'S NEW DRUG STORE is ordered to pay a fine of $25,000.00 and to reimburse the Board $250.00 for administrative costs, and $2,791.01 for investigative costs with total payment due the Board of $28,041.01, due by *certified check or money order* to be paid simultaneously with the execution of this Consent Agreement by Respondent.

By signing this Consent Agreement, Respondent agrees that the Board has jurisdiction in this matter, waives all rights to informal conference, to Notice of Hearing, to a formal Administrative Hearing and to judicial review of this Consent Agreement. Moreover, at no time shall Respondent request the expungement, rescission or removal of this Consent Agreement.

By signing this Consent Agreement, Respondent agrees that any failure to comply with the terms of this Agreement is a basis for discipline by the Board.

Both Respondent and the Board stipulate that this Consent Order shall not become effective and shall not become binding on the Board unless and until approved by the Board at formal meeting. However, Respondent agrees that this Consent Order shall be effective and binding upon Respondent without recourse upon its authorized representative signing said Order.

Respondent agrees to authorize the Board to report this action to the National Practitioner Data Bank – Healthcare Integrity and Protection Data Bank (NPDB-HIPDB) as required by law.

I, JESSE VIDRINE, authorized to act on behalf of and acting on behalf of **VIDRINE PHARMACEUTICAL GROUP, LLC D/B/A BOUDREAUX'S NEW DRUG STORE,** understand that this Consent Agreement is effective as a Board Order upon affirmative vote by the Board at formal hearing. It is also understood that, should the Board not approve this Consent Agreement, the agreement therein does not preclude the Louisiana Board of Pharmacy from requiring a formal hearing of this case.

It is further understood that, should this Consent Agreement not be accepted by the Board, the presentation to and consideration by the Board of this Agreement, including presented documentary evidence and information, shall not unfairly or illegally prejudice or preclude the Board or any of its members from further participation in hearings or resolution of these proceedings.

APPROVED FOR SUBMISSION TO THE LOUISIANA BOARD OF PHARMACY:

CARLOS M. FINALET, III
General Counsel, Louisiana Board of Pharmacy

ACCEPTANCE OF THE CONSENT AGREEMENT BY THE LOUISIANA BOARD OF PHARMACY:

By a majority vote of the Board members voting in favor of the foregoing Consent Agreement at the Board meeting on August 17, 2022, the Board hereby adopts said Agreement as a Final Order of the Board.

Pharmacy Inspection Report

1. Pharmacy Name	2. Permit No.	3. CDS License	4. Classification	5. Renewal Yr.
Boudreaux's New Drug Store	**8142**	**58480**	**IR**	**2022**

55. Comments: NOTE: A finding of satisfactory compliance is not indicative of a detailed inspection/investigation and does not exclude the permit and/or staff from possible future violations of compliance.

>> Advised pharmacy staff credentialed with the Board to send change of mailing address and/or place of employment within 10 days of the actual change. Referred staff to January 2019 newsletter for more information.

>> Advised pharmacy staff credentialed by the Board to ensure all CE hours earned are reported to and are accounted for in CPE Monitor.

>> Discussion with pharmacy staff about the accuracy of the list of current employees displayed on the Board website for the permit.

>> Discussion with pharmacy staff to ensure patients' full name (as appears on their ID) is reported as such when information is submitted to PMP.

Discussion with PIC Vidrine about pharmacist's corresponding responsibility regarding the dispensing of controlled dangerous substances. PIC Vidrine acknowledged an understanding of a pharmacist's corresponding responsibility.

Universal Pharmacy Inspection Form (USP 795 & 797) for compliance measurements...

Pertaining to USP 797...

70.00- Documentation available only for garbing/gowning/hand hygiene and aseptic technique. Not able to locate documentation for completed didactic training and passing written competence assessments.

97.02-, 105.00- PEC located in buffer room was evaluated in December 2020 with FAIL result in downflow velocity, inflow velocity and airflow pattern tests & site installation tests. PEC has not been evaluated by Allometrics since December 2020.

97.06- The PIC/compounding supervisor is familiar with what testing is required and interpretation of results, ensures all testing is performed appropriately (under dynamic conditions where appropriate), has action levels identified, evaluates results to detect issues or trends, and action levels are further customized based on trended data of performance.

100.01- Air pattern analysis for PEC in buffer room has not been evaluated since December 2020.

As per USP 797 Sterile Preparations - Engineering Control Performance Verification (2015): Certification procedures such as those outlined in CAG-003-2006 shall be performed by a qualified individual no less than every 6 months and whenever the device or room is relocated or altered or major service to the facility is performed.

Subject: Explanation of Inspection Findings - March 2nd, 2022

Dear Members of the Nevada Board of Pharmacy,

I am writing to provide an explanation regarding the inspection conducted by the Louisiana State Board of Pharmacy on March 2nd, 2022, and the subsequent findings.

During the annual inspection, the Louisiana State Board of Pharmacy identified a discrepancy in the certification records pertaining to one of our Biological Safety Cabinets (BSC) provided by Allometrics. Specifically, it was noted that the BSC had missed an inspection. Upon closer examination, it was discovered that during the scheduled testing, the BSC was operating at 82%, slightly outside the approved range. Consequently, the service technician opted to take the BSC out of service without notifying the PIC.

Regrettably, during the heightened activity surrounding COVID-19, the service technician did not conduct the customary exit interview at the conclusion of the testing period. Furthermore, the technician neglected to clearly mark the BSC as non-compliant or indicate a failing test result. Instead, a minor note was included in the comprehensive 75-page report. Unfortunately, this oversight was not immediately recognized by our Pharmacist In Charge (PIC) during her review of the report.

However, it is important to note that all products produced from the BSC during the period of the missed inspection underwent thorough testing, and all results met the required standards. Upon being informed of the failed test result during the inspection, immediate action was taken by our pharmacy. We promptly procured a new BSC, which was installed in our sterile lab the following day and subsequently tested by Allometrics.

In response to the findings, the Louisiana Board of Pharmacy imposed a fine, which was paid in a timely manner, and the matter was resolved accordingly.

We deeply regret the oversight and assure you that steps have been taken to prevent such occurrences in the future. We remain committed to upholding the highest standards of safety and compliance within our pharmacy operations.

Thank You,

Jesse Vidrine

Nevada State Board of Pharmacy

Re: Vidrine Pharmaceutical Group LLC d/b/a Boudreaux's New Drug Store

Supplemental Response to question about discipline"

Dear Nevada State Board of Pharmacy,

This letter is being submitted to supplement Vidrine Pharmaceutical Group LLC d/b/a Boudreaux's New Drug Store's ("Pharmacy") answer to the Question about discipline on the "Neveda Board of Pharmacy" pharmacy application. Through this correspondence, the Pharmacy is supplementing its response and notifying the Board of an Agreed Board Order that the Pharmacy recently agreed to with the Texas State Board of Pharmacy ("Texas Board") in August 2024 and a Consent Agreement the Pharmacy agreed to with the Louisiana Board of Pharmacy ("Louisiana Board") in August 2022. Along with this correspondence are complete and accurate copies of the Agreed Board Order between the Pharmacy and the Texas Board and the Consent Agreement between the Pharmacy and the Louisiana Board.

The Pharmacy is also hereby giving notice that the Mississippi Board of Pharmacy ("Mississippi Board") recently denied the Pharmacy's application for a non-resident compounding certificate in Mississippi. We would note that this denial was not based on disciplinary action but instead based on the Mississippi Board's belief that the pharmacy was not currently in compliance with USP 795 and USP 797. However, we believe this was a misunderstanding between the Pharmacy and the Mississippi Board as we believe we are in compliance with these provisions of USP and we are currently working with the Mississippi Board to resolve this matter and the related denial. We look forward to reapplying for the compounding permit or otherwise obtaining the compounding permit in Mississippi in the near future.

By way of further detail regarding the Agreed Board Order in Texas, the Pharmacy recently applied for a non-resident pharmacy license in the State of Texas. After the Pharmacy submitted its non-resident pharmacy application, on August 6, 2024, the Texas Board gave the Pharmacy preliminary notice of its intent to grant the Pharmacy's Texas license. However, as a condition of the Texas Board issuing the Pharmacy's non-resident pharmacy license, the Texas Board stated that it would also issue a reprimand along with the non-resident license. After learning of this and discussing in detail with the Texas Board, the Pharmacy voluntarily agreed to the proposed Agreed Board Order.

As to the basis of the Texas Board's reprimand, the reprimand was issued by the Texas Board based on the Pharmacy's voluntary disclosure in its Texas non-resident pharmacy license application regarding a

prior matter in its home state of Louisiana. Specifically, on August 17, 2022, the Pharmacy and the Louisiana Board agreed to resolve certain allegations made by the Louisiana Board against the

Pharmacy through a voluntary Consent Agreement. To be clear, the reprimand issued by the Texas Board was not based on a new matter but rather a prior matter that was amicably resolved between the Pharmacy and the Louisiana Board and later disclosed by the Pharmacy to the Texas Board when it applied for its Texas non-resident pharmacy license.

The Pharmacy would note that the Pharmacy continues to be a duly licensed pharmacy in good standing with the Louisiana Board including after agreeing to the terms and conditions of the August 17, 2022, Consent Agreement. The Pharmacy makes this supplement and disclosure in good faith and will continue to supplement the record, if necessary and appropriate, by disclosing any further action related to Texas Board Agreed Board Order and the Louisiana Consent Agreement although no further action is contemplated or expected as it is the Pharmacy's understanding in communicating with the Texas Board and the Louisiana Board that these matters has been resolved and are considered closed.

Should you have any questions or require any additional information, please contact me by phone at (337) 499-7760 or by email at jvidrine@bndsrx.com. Thank you.

Respectfully submitted,

_____

LOUISIANA BOARD OF PHARMACY

BATON ROUGE, LOUISIANA

IN THE MATTER OF: CONSENT ORDER

VIDRINE PHARMACEUTICAL GROUP, LLC D/B/A BOUDREAUX'S NEW DRUG STORE

LOUISIANA PHARMACY PERMIT NO. 8142 Case No. 22-0103

****

CONSENT AGREEMENT

WHEREAS, an informal conference was conducted by the Violations Committee of the Louisiana Board of Pharmacy (hereinafter referred to as the "Board") on June 8, 2022 at the Board office, 3388 Brentwood Drive, Baton Rouge, LA 70809, in the matter of VIDRINE PHARMACEUTICAL GROUP, LLC D/B/A BOUDREAUX'S NEW DRUG STORE (hereinafter referred to as "Respondent"), holding Louisiana Pharmacy Permit No. 8142, 404 E. Prien Lake Rd., Lake Charles, LA 70601, with Respondent's representative Jesse Vidrine, Pharmacist-in-Charge Kylee Vidrine and attorney Chris Whittington appearing on behalf of Respondent.

WHEREAS, from September 11, 2020 to March 2, 2022, a total of 3,650 prescriptions were dispensed at Boudreaux's New Drug Store that were purportedly sterile products compounded in the non-HD buffer room in a biological safety cabinet that last had a "PASS" result on its Certification Status on June 2, 2020.

WHEREAS, the Board alleges that such actions constitute violations of the following:

La. R.S. 37:1241 (A)(1): Practiced or assisted in the practice of pharmacy, or knowingly permitted or has permitted anyone in his employ or under his supervision to practice or assist in the practice of pharmacy, in violation of the provisions of this Chapter and any rules and regulations promulgated thereto in accordance with the Administrative Procedure Act.

LAC, Title 46: LIII §2535(A)(2)(a): The compounding of sterile preparations pursuant to receipt of a patient-specific prescription shall comply with the provisions of Section 503-A of the FDCA and USP Chapter 797.

To facilitate the submission of this Consent Agreement, Respondent does not contest the allegations and agrees that there is sufficient evidence upon which to predicate a finding of those violations.

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

In order to avoid further administrative and judicial proceedings, Respondent hereby consents to accept and abide by the following order of the Board:

VIDRINE PHARMACEUTICAL GROUP, LLC D/B/A BOUDREAUX'S NEW DRUG STORE is ordered to pay a fine of $25,000.00 and to reimburse the Board $250.00 for administrative costs, and $2,791.01 for investigative costs with total payment due the Board of $28,041.01, due by *certified check or money order* to be paid simultaneously with the execution of this Consent Agreement by Respondent.

By signing this Consent Agreement, Respondent agrees that the Board has jurisdiction in this matter, waives all rights to informal conference, to Notice of Hearing, to a formal Administrative Hearing and to judicial review of this Consent Agreement. Moreover, at no time shall Respondent request the expungement, rescission or removal of this Consent Agreement.

By signing this Consent Agreement, Respondent agrees that any failure to comply with the terms of this Agreement is a basis for discipline by the Board.

Both Respondent and the Board stipulate that this Consent Order shall not become effective and shall not become binding on the Board unless and until approved by the Board at formal meeting. However, Respondent agrees that this Consent Order shall be effective and binding upon Respondent without recourse upon its authorized representative signing said Order.

Respondent agrees to authorize the Board to report this action to the National Practitioner Data Bank – Healthcare Integrity and Protection Data Bank (NPDB-HIPDB) as required by law.

I, JESSE VIDRINE, authorized to act on behalf of and acting on behalf of **VIDRINE PHARMACEUTICAL GROUP, LLC D/B/A BOUDREAUX'S NEW DRUG STORE,** understand that this Consent Agreement is effective as a Board Order upon affirmative vote by the Board at formal hearing. It is also understood that, should the Board not approve this Consent Agreement, the agreement therein does not preclude the Louisiana Board of Pharmacy from requiring a formal hearing of this case.

It is further understood that, should this Consent Agreement not be accepted by the Board, the presentation to and consideration by the Board of this Agreement, including presented documentary evidence and information, shall not unfairly or illegally prejudice or preclude the Board or any of its members from further participation in hearings or resolution of these proceedings.

LOUISIANA BOARD OF PHARMACY

BATON ROUGE, LOUISIANA

IN THE MATTER OF: CONSENT ORDER

KYLEE BROOKE VIDRINE

PHARMACIST LICENSE NO. 21317 Case No. 22-0104

****

CONSENT AGREEMENT

WHEREAS, an informal conference was conducted by the Violations Committee of the Louisiana Board of Pharmacy (hereinafter referred to as the "Board") on June 8, 2022 at the Board office, 3388 Brentwood Drive, Baton Rouge, LA 70809, KYLEE BROOKE VIDRINE (hereinafter referred to as "Respondent"), holder of PHARMACIST LICENSE NO. 21317, with Respondent and attorney Chris Whittington present.

WHEREAS, from September 11, 2020 to March 2, 2022, a total of 3,650 prescriptions were dispensed at Boudreaux's New Drug Store (PHY.008142) that were purportedly sterile products compounded in the non-HD buffer room in a biological safety cabinet that last had a "PASS" result on its Certification Status on June 2, 2020. Respondent serves as the pharmacy's Pharmacist-in-Charge.

WHEREAS, the Board alleges that such actions constitute violations of the following:

La. R.S. 37:1241 (A)(1): Practiced or assisted in the practice of pharmacy, or knowingly permitted or has permitted anyone in his employ or under his supervision to practice or assist in the practice of pharmacy, in violation of the provisions of this Chapter and any rules and regulations promulgated thereto in accordance with the Administrative Procedure Act.

LAC, Title 46: LIII §2535(A)(2)(a): The compounding of sterile preparations pursuant to receipt of a patient-specific prescription shall comply with the provisions of Section 503-A of the FDCA and USP Chapter 797.

LAC, Title 46: LIII §1105(C): Pharmacist-in-Charge. Authority and Accountability. The pharmacist-in-charge shall be ultimately responsible for complete supervision, management, and compliance with all federal and state pharmacy laws and regulations pertaining to the practice of pharmacy of the entire prescription department. This responsibility necessarily includes accountability for any violation involving federal or state laws or regulations occurring within the prescription department supervised by a pharmacist-in-charge.

To facilitate the submission of this Consent Agreement, Respondent does not offer any defense to the allegations of violations cited above and further agrees that there is sufficient evidence upon which to predicate a finding of those violations.

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

In order to avoid further administrative and judicial proceedings, Respondent hereby consents to accept and abide by the following order of the Board:

1. **PHARMACIST LICENSE NO. 21317 belonging to KYLEE BROOKE VIDRINE is hereby issued a LETTER OF WARNING.**

2. **KYLEE BROOKE VIDRINE is ordered to pay a fine of $2,500.00 and reimburse the Board $250.00 for administrative costs, for a total of $2,750.00 due by *certified check or money order* at the signing of this agreement.**

3. **KYLEE BROOKE VIDRINE shall complete Critical Point's QP503 Certification Program no later than August 17, 2023. Should Respondent fail to complete the program, Respondent agrees that her license be placed on indefinite suspension until passage of the QP503 Certification Program.**

By signing this Consent Agreement, Respondent agrees that the Board has jurisdiction in this matter, waives all rights to informal conference, to Notice of Hearing, to a formal Administrative Hearing and to judicial review of this Consent Agreement. Moreover, at no time shall Respondent request the expungement, rescission or removal of this Consent Agreement.

By signing this Consent Agreement, Respondent agrees that any failure to comply with the terms of this Agreement is a basis for discipline by the Board.

Both Respondent and the Board stipulate that this Consent Order shall not become effective and shall not become binding on the Board unless and until approved by the Board at formal meeting. However, Respondent agrees that this Consent Order shall be effective and binding upon Respondent without recourse upon his signing said Order.

I, **KYLEE BROOKE VIDRINE**, understand that this Consent Agreement is effective as a Board Order upon affirmative vote by the Board at formal hearing. It is also understood that, should the Board not approve this Consent Agreement, the agreement therein does not preclude the Louisiana Board of Pharmacy from requiring a formal hearing of my case.

It is further understood that, should this Consent Agreement not be accepted by the Board, the presentation to and consideration by the Board of this Agreement, including presented documentary evidence and information, shall not unfairly or illegally prejudice or preclude the Board or any of its members from further participation in hearings or resolution of these proceedings.

Respondent agrees that Respondent's execution of this Consent Agreement grants the Board the authority to collect any monies owed pursuant to this Consent Agreement and not paid to the Board notwithstanding the Board's acceptance of this Consent Agreement.

Respondent agrees to authorize the Board to report this action to the National Practitioner Data Bank – Healthcare Integrity and Protection Data Bank (NPDB-HIPDB) as required by law.

SIGNED, AGREED TO AND ENTERED ON 9th DAY OF June, 2022.

Section 2: Personal Information

First Jesse Middle Brett Last Vidrine

Alias(es, nicknames, name changes, etc.) _____

[redacted]

Are you a citizen of the United States? ☑ Yes ☐ No

Section 3: Military Service (NRS 622.120)	Yes	No
1. Have you ever served on active duty in the Armed Forces of the United States and separated from such service under conditions other than dishonorable? (Mark "Yes" if discharged honorably.)		✓
2. Have you ever been assigned to duty for a minimum of 6 continuous years in the National Guard or a reserve component of the Armed Forces of the United States and separated from such service under conditions other than dishonorable? (Mark "Yes" if discharged honorably.)		✓
3. Have you ever served the Commissioned Corps of the United States Public Health Service or the Commissioned Corps of the National Oceanic and Atmospheric Administration of the United States in the capacity of a commissioned officer while on active duty in defense of the United States and separated from such service under conditions other than dishonorable? (Mark "Yes" if discharged honorably.)		✓

Section 4: Federally Mandated Requirement (NRS 425.520, NRS 639.179)	Yes	No
1. Are you the subject of a court order for the support of a child? (If "yes", answer question 2.)	✓	
2. Are you in compliance with the order or the plan approved by the district attorney or other public agency enforcing the order for the repayment of the amount owed pursuant to the order?	✓	

Section 5: List your high school and college experience beginning with the most current. (Use a separate piece of paper if additional space is needed)

School Name: McNeese State University			From - To (MM/YY – MM/YY): 04/04 – 09/12	
Address: 4205 Ryan St.	City: Lake Charles	State: La	Zip: 70605	
Diploma/Degree obtained, if any: Bachelor of Business Administration in Finance				
School Name: Elizabeth High School			From - To (MM/YY – MM/YY): 04/00 - 03/04	
Address: 440 Live Oak	City: Elizabeth	State: LA	Zip: 70638	
Diploma/Degree obtained, if any: Yes, High School Diploma

Section 8: Arrests, Detentions, Litigations, Arbitrations	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		✓
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

Nonsterile Compounding Inspection

The information and comments obtained in the Nonsterile Compounding and Sterile Compounding Inspections are based on USP Chapters <795> and <797>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: dba Boudreaux's New Drug Store

Inspection Date: 8/24/2023 (USP 795) - 8/29/2023 (USP 797)

		Finding	Notes
	General Operations and Information		
1.00	Does the pharmacy **dispense** nonsterile compounded preparations pursuant to a prescription?	Yes	
1.01	Are patient profiles complete and DUR performed for each prescription? *View selected files for profile to include allergies, disease states/conditions, other medications taken not dispensed by this pharmacy.*	Yes	
1.02	Do the compounded prescriptions produce a significant difference from a commercially available drug that is justified by a documented medical need of the individual patient as determined by the prescribing practitioner?	Yes	
1.03	Are nonsterile compounded prescriptions picked up at the pharmacy?	Yes	
1.04	Are nonsterile compounded prescriptions delivered to patients in their homes or residential facilities?	Yes	
1.05	Are nonsterile compounded prescriptions mailed to patients in their homes or residential facilities?	Yes	
1.06	Are nonsterile compounded prescriptions delivered to the practitioner for administration to the patient in the office, clinic, or facility?	Yes	
1.07	Are nonsterile compounded prescriptions mailed to the practitioner for administration to the patient in the office, clinic, or facility?	Yes	
2.00	Does the pharmacy **distribute** nonsterile compounded preparations? *Not pursuant to a prescription, not labeled by the pharmacy with a patient name.*	No	
2.01	Does the pharmacy distribute nonsterile compounded preparations to practitioners for office use?	No	
2.02	Does the pharmacy distribute nonsterile compounded preparations to hospitals, clinics, or surgery centers?	No	
2.03	Does the pharmacy have a sales force that promotes compounded preparations? *List compounds promoted.*	No	
2.04	Does the pharmacy distribute non-patient specific compounded preparations for promotional purposes? *List compounds provided.*	No	
2.05	If yes, does the sales force hand-deliver these compounds? *List compounds provided.*	N/A	
2.06	If yes, are any of these controlled substances? *List compounds provided.*	N/A	
3.00	Does the pharmacy provide nonsterile compounded preparations to other pharmacies for dispensing?	No	
3.01	If so, does the pharmacy have central fill/shared services contracts or agreements with these pharmacies for patient specific preparations? *Provide List.*	N/A	
4.00	Does the pharmacy compound oral preparations (tablets, capsules, liquids, lozenges, etc.)? *Provide List.*	Yes	Capsules, liquids, lozenges, troches, lollipops
5.00	Does the pharmacy compound topicals (gels, creams, ointments, inserts, suppositories, patches, sprays including nasal sprays, etc.)? *Provide List.*	Yes	Gels, creams, ointments, inserts, suppositories, sprays
6.00	Does the pharmacy compound vitamin or nutritional supplements? *Provide List.*	No	
7.00	Does the pharmacy sell any compounds over-the-counter? *Provide list.*	No	
8.00	Does the pharmacy compound investigational drugs? *Provide List.*	No	

9.00	Does the pharmacy only make essential copies of a commercially available drug product on the Drug Shortage List or that is justified by a documented medical need of the individual patient as determined by the prescribing practitioner? *Indicate volume or percent compounded currently.*	Yes	
9.01	If yes, products are verified as appearing on the Drug Shortage List in effect under 506E of the Federal Act at the time of compounding, distribution, and dispensing.	Yes	
9.02	If yes, the Drug Shortage List is monitored and when a drug product is no longer on the list, any remaining stock is quarantined and not available for distribution or dispensing. *Note: Per FDA guidance, 503B facilities may continue to distribute for 60 days following drug shortage list removal for existing orders.*	Yes	Staff checks multiple sources to verify current status of product in question
10.00	Does the pharmacy perform compounding identified as **simple?** *Indicate percentage of simple compounding.* 1. Making a preparation that has a USP compounding monograph or that appears in a peer-reviewed journal article that contains specific quantities of all components, compounding procedure and equipment, and stability data for that formulation with appropriate beyond-use dates (BUD)s. 2. Reconstituting or manipulating commercial products that may require the addition of one or more ingredients as directed by the manufacturer. *Examples include Captopril Oral Solution, Indomethacin Topical precautions. Gel, and Potassium Bromide Oral Solution (Veterinary).*	Yes	~ 15%
11.00	Does the pharmacy perform compounding identified as **moderate?** *Indicate percentage of moderate compounding.* 1. Making a preparation that requires special calculations or procedures (such as calibration of dosage unit mold cavities) to determine quantities of components per preparation or per individualized dosage units. 2. Making a preparation for which stability data for that specific formula is not available. *Examples include Morphine Sulfate Suppositories, diphenhydramine hydrochloride troches, and mixing two or more manufactured cream products when the stability of the mixture is not known.*	Yes	~ 35%
12.00	Does the pharmacy perform compounding identified as **complex**? *Indicate percentage of complex compounding.* Making a preparation that requires special training, environment, facilities, equipment, and procedures to ensure appropriate therapeutic outcomes. *Examples of possible complex preparation types include transdermal dosage forms, modified-release preparations, and some inserts and suppositories for systemic effects.*	No	
13.00	Does the pharmacy perform compounding with **hazardous drugs**? *Indicate percentage of compounding with hazardous drugs.* NIOSH list of hazardous drugs including chemotherapy, hormones, etc.	Yes	~ 50%
13.01	Is the pharmacy aware of the more stringent requirements of the proposed USP Chapter <800>?	Yes	
14.00	Are Safety Data Sheets (SDS) [formerly known as Material Safety Data Sheets (MSDS)] available to personnel for drugs and chemicals used in the pharmacy (including those for compounding, if applicable)? *Verify that personnel can access them and are familiar with the format.*	Yes	
15.00	Does the pharmacy compound using any **controlled substances**? *Indicate percentage of controlled substance nonsterile compounding.*	Yes	~ 20%; Testosterone, ketamine, phentermine
16.00	**APIs:** Does the pharmacy make any nonsterile compounded preparations using bulk powder Active Pharmaceutical Ingredients (APIs)?	Yes	
16.01	Does the pharmacy purchase APIs directly from the manufacturer/repackager? *Indicate the source of APIs.*	Yes	PCCA, Letco, Medisca, Spectrum
16.02	Does the pharmacy verify that the manufacturer/repackager of the API is an FDA-registered facility? *If so, list how this verified.*	Yes	Permit requests information from suppliers

16.03	Does the pharmacy use active ingredients that are not from an FDA-registered facility? *If so, indicate sources.*	No	
16.04	Does the computer track on-hand quantities of APIs used for compounding? *If not, explain.*	Yes	
17.00	Does the pharmacy perform any testing in-house (not sent to an outside lab)? *If so, what tests are performed in house?*	No	
18.00	Does the pharmacy send samples to an outside lab to perform testing? *If so, provide the name of the lab performing testing for the pharmacy and what testing is performed.*	Yes	
19.00	Does the pharmacy use scales/balances for nonsterile compounding?	Yes	
19.01	If so, what type of scale/balanced is used? *List manufacturer and model number*		OHAUS Explorer
19.02	If the scale/balance is electronic, does the pharmacy use the automatic calibration? *Describe process and indicate frequency*	Yes	Calibrated daily
19.03	Describe the pharmacist checks for the measurement of each ingredient		
20.00	**Quality Assurance/Quality Improvement:** Does the pharmacy continuous quality improvement program include nonsterile compounding measures? **Note: If the facility indicates "yes", please ask each question below to verify.**	Yes	
20.01	Does the pharmacy continuous quality improvement program include QREs related to the preparation of compounded products?	Yes	
20.02	Does the pharmacy continuous quality improvement program include personnel testing and verification?	Yes	
20.03	Does the pharmacy continuous quality improvement program include equipment calibration, testing, etc?	Yes	
20.04	Does the pharmacy continuous quality improvement program include end product testing (such as: pH, weight, potency, particulates, consistency, etc.)?	Yes	
20.05	Does the pharmacy continuous quality improvement program include patient or prescriber reports or complaints regarding nonsterile compounded products?	Yes	
20.06	Does the facility QA program identify action limits or thresholds and the appropriate follow-up mechanisms when action limits or thresholds are exceeded including a recall system?	Yes	
20.07	Does the recall system include communication with both the patient and the physician/prescriber regarding the affected nonsterile compounded preparation?	Yes	
20.08	Are QREs involving nonsterile compounded preparations or are recalled by the pharmacy reported to the Board of Pharmacy?	Yes	Depending on severity of event
	Component Selection and Use		
	Total Non-Compliant (Includes Unknowns)	**0**	

21.00	**Active Pharmaceutical Ingredients (APIs), bulk drug substances:** All bulk drug substances (APIs) used are: 1) Compliant with the standards of an applicable USP or NF monograph, if one exists; or 2) A component of an FDA-approved human drug product; or 3) On the list of bulk drug substances for use in compounding developed by the FDA and issued through regulation (note: must comply with (1) or (2) above until the FDA list is issued)	Compliant	
21.01	Certificates of analysis (COAs) obtained for all bulk APIs used for compounding. *Verify by selecting products from the shelf from different suppliers and ask to see the COAs for those products.* NOTE: The COA for an API should be reviewed upon receipt of the API to verify the quality of the API before using to compound.	Compliant	Available online
21.02	USP- or NF-grade substances used, if available	Compliant	
21.03	If compendia quality components are not available, chemically pure, analytical reagent grade or American Chemical Society-certified components are used and are determined to be free from impurities.	N/A	
21.04	APIs or other components have labeling indicating use for pharmaceutical compounding or manufacturing. Labels do not indicate "for research purposes only", "not for drug use", or are handwritten labels from other pharmacies. *Photograph and describe if found. Request copies of the invoices for products with questionable labels.*	Compliant	
21.05	If compounding for both humans and animals, APIs or other components that are labeled for veterinary use only are segregated or marked in such a way to prevent them from being used for human compounding	Compliant	Marked for "Veterinary Use Only"
21.06	All substances and components have a complete label including a batch control or lot number, and an expiration date.	Compliant	
21.07	For APIs without an expiration date assigned by the manufacturer or supplier, the pharmacy assigns a conservative expiration date. The expiration date assigned does not exceed three (3) years for ingredients used for non-sterile compounding and does not exceed one (1) year for ingredients used for sterile compounding. *Note: purity and quality testing may be performed to extend.*	Compliant	
21.08	All APIs and components received without an expiration date are labeled with the date they were received.	Compliant	
21.09	If the pharmacy repackages APIs into smaller containers for ease of use, the expiration date assigned is conservative (typically the lesser of one year or the actual expiration from the original container). Product may be tested to extend the expiration date but may not exceed the original package expiration date.	Compliant	
21.10	Bulk component containers are labeled with appropriate OSHA hazard communication labels and hazardous substances are segregated (including hormones).	Compliant	Stored in segregated area
22.00	Where water is an ingredient, purified or distilled water is used.	Compliant	Permit uses purified or sterile water
23.00	Ingredients used for dietary or nutritional supplements meet USP, Food Chemicals Codex (FCC), or NF standards, or the pharmacy has alternate means to determine if the ingredients meet food-grade quality.	N/A	
24.00	Pharmacy confirms that there are no preparations for human use made or ingredients used that appear on the FDA list of drug products withdrawn or removed from the market for safety reasons (facility has a copy of the list or other way to determine).	Compliant	
25.00	When manufactured products are used for compounding, all the other excipients in the product are considered relative to the use, effectiveness, and stability of the compounded preparation to be made.	Compliant	
26.00	For animal compounding: The compounding meets the same standards as compounding for human patients.	Compliant	
26.01	The pharmacist is knowledgeable or has references regarding the individual species' limitations in physiology and metabolic capacity that can result in toxicity when certain drugs or excipients are used.	Compliant	

26.02	It is determined and documented if the animal is used for food (meat, milk, eggs, etc.) or that the animal is a pet.	N/A	
26.03	The pharmacist familiar with, or has a reference regarding drug residues in the food chain and withdrawal times if compounding for food-producing animals.	N/A	
26.04	The facility has a list of drugs and components not allowed when compounding for food-producing animals.	N/A	
26.05	The pharmacist is familiar with, or has a reference regarding regulations for drug use in performance animals (e.g., race or show horses, racing dogs)	N/A	
	Beyond Use Dating (BUD)		
	Total Non-Compliant (Includes Unknowns)	**0**	
27.00	BUDs are assigned from the day of preparation.	Compliant	
28.00	BUDs are assigned based on dispensing in tight, light-resistant containers/overpacks.	Compliant	
29.00	Extended BUDs are supported by testing data. *View documentation used, preparation must exactly match formulation upon which data was obtained.*	Compliant	
29.01	Extended BUDs are assigned and the facility has performed its own stability testing. *View records, preparation must exactly match the preparation tested by the facility including concentration of all active ingredients, excipients, etc.*	N/A	
30.00	BUDs for nonaqueous formulations are not later than the remaining time until the earliest expiration date of any API and not later than six (6) months.	Compliant	
31.00	BUDs for water-containing oral formulations are not later than 14 days when stored at controlled cold temperatures (refrigerated).	Compliant	
32.00	BUDs for water-containing topical/dermal and mucosal liquid and semisolid formulations not later than 30 days.	Compliant	
	Environment		
	Total Non-Compliant (Includes Unknowns)	**2**	
33.00	The non-sterile compounding area is a controlled environment and separate from the general pharmacy.	Compliant	
34.00	There sufficient space available for the type and amount of compounding performed and the space is orderly to prevent mix-ups between ingredients, containers, labels, in-process materials, and finished preparations.	Compliant	
35.00	Only one preparation compounded at a time.	Compliant	
36.00	Procedures are implemented to prevent cross-contamination, especially when compounding with drugs such as hazardous drugs and known allergens like penicillin that require special precautions.	Compliant	
37.00	The compounding area is well lit.	Compliant	
38.00	The pharmacy performs **hazardous** non-sterile compounding in a ventilated cabinet such as a BSC, CAI, or CACI. *Note: CAI may not be used for hazardous drugs that may volatilize.(NIOSH requirement referenced in USP<795>. Note that proposed USP Chapter <800> will change hazardous drug compounding requirements.)*	Unknown	Action plan in place to ventilate CACI and cabinets as per USP 800 revisions
38.01	Ventilated cabinets (BSC, CAI, CACI) used for hazardous compounding are certified or tested periodically.	Unknown	Action plan in place to ventilate CACI and cabinets as per USP 800 revisions
38.02	If the hoods or isolators are not located in a closed, controlled room environment, there is documentation from the manufacturer and site testing to verify proper functioning of equipment under dynamic conditions for the safety of personnel.	N/A	
39.00	Appropriate protective attire (gowns, gloves, masks, etc.) is available.	Compliant	
39.01	If hazardous drugs are used, appropriate protective attire is available (gowns, gloves, hair and shoe covers, eye and face protection, etc.).	Compliant	
40.00	There is a sink in the compounding area with hot and cold potable water, soap or detergent, and air-driers or single-use towels.	Compliant	

41.00	There is adequate space to wash equipment and utensils including access to water for rinsing. *(Purified water is **recommended** - not required)*	Compliant	
42.00	The temperature of the compounding area is controlled by a thermostat and an air conditioning system is in place.	Compliant	
43.00	**Temperature** in the compounding area is maintained to provide controlled room temperature of 20° to 25°C (68° to 77 °F), or more restrictive if warranted by specific drug product storage requirements.	Compliant	
43.01	Temperature monitoring is in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max. Temperature records are maintained.	Compliant	
43.02	Excursion action plan in place including evaluating excursion effects on drug product integrity.	Compliant	
43.03	Temperature monitoring is also performed in **drug storage areas** (if separate from the compounding areas) and maintained within 20° to 25°C (68° to 77 °F), or more restrictive if warranted by specific drug product storage requirements.	Compliant	
43.04	Temperature monitoring is in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max. Temperature records are maintained.	Compliant	
43.05	Excursion action plan in place including evaluating excursion effects on drug product integrity.	Compliant	
44.00	**Humidity** in the compounding area is maintained to provide humidity in the ranges warranted by specific drug product storage requirements. If drug products require storage in a "dry place", humidity is not to exceed 40%. Generally **recommended** range is 35-60%.	Compliant	
44.01	Humidity monitoring in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max. Humidity records are maintained.	Compliant	
44.02	Excursion action plan in place including evaluating excursion effects on drug product integrity.	Compliant	
44.03	Humidity monitoring is also performed in **drug storage areas** (if separate from the compounding areas) to provide humidity in the ranges warranted by specific drug product storage requirements. If drug products require storage in a "dry place", humidity is not to exceed 40%. Generally recommended range is 35-60%.	Compliant	
44.04	Humidity monitoring is in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max. Humidity records are maintained.	Compliant	
44.05	Excursion action plan in place including evaluating excursion effects on drug product integrity.	Compliant	
45.00	The bulk component storage area is adequately arranged and maintained in a clean and sanitary condition.	Compliant	
46.00	All components, equipment, and containers are stored off the floor, and handled and stored to prevent contamination.	Compliant	
47.00	All components and packaging containers and closures are properly rotated to use oldest first.	Compliant	
48.00	Hazardous drugs are appropriately identified and marked, received, handled and stored by appropriately trained personnel. (OSHA regulations and NIOSH Alerts)	Compliant	
49.00	Trash is disposed of in a safe, sanitary, and timely manner.	Compliant	
49.01	Hazardous waste is disposed of in a safe, sanitary, and timely manner.	Compliant	
	Training *-Verify records of all compounding personnel (up to 10).*		
	Total Non-Compliant (Includes Unknowns)	**0**	

50.00	Have all personnel of reproductive capability who handle or compound hazardous drugs or chemicals confirmed in writing that they understand the risks of handling hazardous drugs? Teratogenicity, carcinogenicity, reproductive issues.	Compliant	
51.00	There is documentation that all personnel that perform compounding are appropriately trained including policies and procedures, documentation, hazardous drug handling, and compounding technique and not allowed to compound or supervise compounding until training is successfully completed.	Compliant	
52.00	There is documentation that the training process for the preparation of compounds includes demonstration of the compounding procedure first, followed by the trainee performing the procedure under supervision successfully before being allowed to perform compounding.	Compliant	
53.00	There is documentation that training includes the operation of any equipment that may be used when preparing compounded products. *Documentation includes operation and troubleshooting.*	Compliant	
54.00	There is documentation available showing employees performing non-sterile compounding are evaluated at least annually.	Compliant	
54.01	If performing hazardous nonsterile compounding, there is documentation available showing employees are evaluated at least annually.	Compliant	
55.00	If the pharmacy uses relief personnel from outside agencies to perform non-sterile compounding there is documentation that training is verified.	N/A	
	Compounding Equipment		
	Total Non-Compliant (Includes Unknowns)	**0**	
56.00	Appropriate equipment and utensils are available, clean, and in good working order. *Automated, mechanical, or electronic equipment (including capsule machines, autoclaves, ovens, etc.) are periodically inspected and calibrated.*	Compliant	
57.00	Scales, balances, or other types of equipment used for measurement shall be routinely inspected, calibrated as necessary (per manufacturer instructions), and checked to ensure proper performance. *Describe procedure used.*	Compliant	
58.00	Powder hoods used for nonsterile compounding are certified or tested periodically to ensure proper function.	Compliant	Most recent certification performed on 12/2/2022
58.01	Hood filters are checked regularly and replaced when necessary.	Compliant	
59.00	All equipment is cleaned promptly after each use. *Equipment and utensils washed using potable water with a soap or detergent, and rinsed.* ***Recommended*** *rinsed with purified water.*	Compliant	
60.00	The pharmacy uses separate equipment and utensils to compound allergenic, cytotoxic, or hazardous products, or has detailed procedures for meticulous cleaning of equipment and utensils immediately after use to prevent cross-contamination or exposure.	Compliant	
	Documentation		
	Total Non-Compliant (Includes Unknowns)	**0**	
61.00	The pharmacy creates a master formulation record the first time before compounding a new preparation	Compliant	
61.01	Every formulation is evaluated for incompatibilities and the potential for being ineffective or toxic.	Compliant	
61.02	The **master formulation record** includes:		
61.03	Official or assigned name, strength, and dosage form	Compliant	
61.04	All necessary calculations	Compliant	

61.05	Description of all ingredients and their quantities	Compliant	
61.06	Compatibility and stability information including references (when available)	Compliant	
61.07	Equipment used for the preparation	Compliant	
61.08	Mixing instructions (order of mixing, temperatures, duration of mixing, and other pertinent factors)	Compliant	
61.09	Container used and packaging requirements	Compliant	
61.10	Assigned BUD information	Compliant	
61.11	Labeling information including the name of and quantity or concentration of each active ingredient	Compliant	
61.12	Description of the finished preparation	Compliant	
61.13	Storage requirements	Compliant	
61.14	Quality control procedures and expected results (e.g. dose measurement of capsule in the dose calibrator).	Compliant	
62.00	The pharmacy creates a compounding record for each compound prepared	Compliant	
62.01	The **compounding record** includes:		
62.02	Official or assigned name, strength and dosage of the preparation	Compliant	
62.03	Master Formulation Record reference	Compliant	
62.04	Sources, lot numbers, and expiration dates of all components	Compliant	
62.05	Total quantity or number of dosage units compounded	Compliant	
62.06	Person compounding the preparation	Compliant	
62.07	Person performing the quality control procedures	Compliant	
62.08	Person who approved the preparation	Compliant	
62.09	Date of compounding	Compliant	
62.10	Assigned internal identification number or prescription number	Compliant	
62.11	Description of the final preparation	Compliant	
62.12	Assigned BUD	Compliant	
62.13	Duplicate label	Compliant	
62.14	Results of quality control procedures (weight range of filled capsules, pH of aqueous liquids, etc.)?	Compliant	
62.15	Documentation of any quality control issues and any adverse reactions or preparation problems reported by the patient or caregiver including investigation and recall, if appropriate	Compliant	

Compounding Procedures

	Total Non-Compliant (Includes Unknowns)	**0**	
63.00	The Master Formulation Record and the Compounding Record has been reviewed by the compounder to ensure it is error free.	Compliant	
64.00	Compounding personnel ascertain that ingredients for compounded preparations are of the correct identity and appropriate quality including a unit-by-unit inspection of the components.	Compliant	
65.00	The containers and closures selected meet USP standards (from container supplier).	Compliant	
66.00	Container selection determined by physical and chemical properties of the preparation.	Compliant	
67.00	Compounding personnel maintain good hand hygiene and wear clean and appropriate clothing for the compounding being performed.	Compliant	
68.00	Personnel don appropriate protective garb when performing compounding.	Compliant	
68.01	If hazardous compounding, personnel don appropriate protective garb when compounding.	Compliant	

69.00	Routine compounding procedures for batch preparation completed and verified according to written procedures. Including: *Calculations correct, weighing and measuring performed correctly, order of mixing correct, compounding techniques performed correctly*	Compliant	
70.00	Procedures for in-process checks followed. *These checks indicate that appropriate procedures and packaging are followed for each step, including addressing pharmacist verification of steps performed by non-pharmacists that includes visual inspection of product, and documentation of the compounding accuracy is performed to ensure proper measurement, reconstitution and component usage.* ***Recommended:*** *compounding accuracy checked by a person other than the compounder.*	Compliant	
71.00	There are no deviations from the master formulation record, unless they are approved and deemed appropriate by a pharmacist and a new master formulation record is created.	Compliant	
72.00	There is a procedure for cleaning which is followed. *After each preparation, daily tasks, monthly tasks, etc.*	Compliant	
73.00	Personnel are appropriately garbed for protection when cleaning.	Compliant	
74.00	Compounding employees are using appropriate techniques. *Inspector to observe compounding procedures, documentation, appropriate garb, cleanliness of compounding area and equipment.* ***Compounding MUST be observed****, if compounding is not being performed at the time of survey, mark as "Non-Compliant".*	Compliant	
74.01	If compounding is not being performed at the time of survey, ask that a compounding pharmacist or technician prepare a compound for you to observe the compounding process. *If the pharmacy staff refuses or is unable to perform compounding for you to observe, document on the "* ***Denial of Authorization*** *" form. List individual who signs the Denial of Authorization*		
	Finished Preparation Release Checks and Tests		
	Total Non-Compliant (Includes Unknowns)	**0**	
75.00	The finished preparation is observed to appear as expected in the master formulation record and documented.	Compliant	
76.00	As appropriate, the final completed preparation assessed for quality control and is documented, such as weight, mixing, clarity, odor, color, consistency, pH, and strength.	Compliant	
77.00	There are established written processes that describe test or examinations conducted on the compounded preparation (degree of weight variation in capsules, for example) to ensure uniformity and integrity.	Compliant	
78.00	Preparations with extended BUDs that are not supported by testing data are sampled and tested for physical, chemical, and microbiological characteristics.	N/A	
78.01	If any failed tests or discrepancies are observed, there is an investigation and appropriate corrective actions taken before dispensing to patient	Compliant	
78.02	If products being tested are dispensed or distributed before the test results are obtained, there is a recall procedure if the test results indicate an issue.	N/A	
79.00	There are appropriate quality control procedures to monitor the output and to verify the performance of compounding processes and equipment that may be responsible for causing variability in the final compounded preparations. *Review validation of equipment and personnel performance documentation.*	Compliant	
80.00	Labels on immediate patient-specific containers include identifiers for the persons preparing the compound and performing the final verification, BUD, an indication that this is a compounded preparation, special requirements for storage, and appropriate packaging and labeling of hazardous materials.	Compliant	
80.01	Labeling contains generic name and quantity or concentration of each active ingredient.	Compliant	
80.02	Labeling contains assigned BUD.	Compliant	
80.03	Labeling contains storage and handling information.	Compliant	

80.04	If hazardous, labeling contains storage and handling information.	Compliant	
80.05	Labeling contains prescription or control number, whichever is applicable.	Compliant	
81.00	Batch preparations (in anticipation of prescriptions) are of an appropriate volume and batch products in stock are all within their BUD (not outdated).	Compliant	
82.00	Labels on batch preparations include the name and quantity of all contents, date and time of preparation (or internal code/lot number indicating this information), preparer and verification pharmacist identifiers, stability (BUD), and any auxiliary labels indicated including appropriate packaging and labeling of hazardous materials.	Compliant	
83.00	Preparations are stored and secured properly prior to dispensing based upon conditions upon which BUD was assigned.	Compliant	
84.00	Preparations are examined immediately after preparation **AND** again immediately prior to dispensing for any signs of instability.	Compliant	
	Patient Counseling and Communication		
	Total Non-Compliant (Includes Unknowns)	**0**	
85.00	Do patient/caregiver training programs or materials contain information and precautions regarding the handling and disposal of products such as fentanyl, hormones and chemotherapy medications?	Compliant	
86.00	Are the required printed drug information materials (drug information sheets, Patient Package Inserts, MedGuides, etc.) provided for the compounded products?	Compliant	
87.00	Are patients instructed on the signs of product instability or contamination (as appropriate) and to report any changes in the physical characteristics of the product to the pharmacy?	Compliant	
88.00	Product recalls include documentation that both the patient AND the physician/prescriber of the potentially contaminated compounded product are notified of the potential risk.	Compliant	

The information and comments obtained in the Nonsterile Compounding and Sterile Compounding Inspections are based on USP Chapters <795> and <797>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

National Association of Boards of Pharmacy®
Universal Inspection Form

The National Association of Boards of Pharmacy (NABP) developed this inspection form for sole use by NABP and its member boards of pharmacy for inspection of facilities licensed by a member board. Disclosure of the form to or use of the form by a third party, other than a facility being inspected by NABP or a member board, is strictly prohibited without NABP's prior written permission or unless required by state law.

Sterile Compounding Inspection

The information and comments obtained in the Nonsterile Compounding and Sterile Compounding Inspections are based on USP Chapters <795> and <797>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Facility Name: dba Boudreaux's New Drug Store
Inspection Date: 8/24/2023 (USP 795) - 8/29/2023 (USP 797)

		Finding	Notes
	Indicate the drug name, dosage or strength, and the size of the sample obtained for testing. (*NA if no sample)*		N/A
	Indicate the areas/rooms of the pharmacy entered to perform the inspection. *If the inspector did not fully garb and enter buffer room(s), indicate reason.*		Entered ante room to view buffer and hazardous rooms
	General Operations Information		
1.00	Does the pharmacy **dispense** sterile compounded preparations pursuant to a prescription?	Yes	
1.01	Are patient profiles complete and DUR performed for each prescription? *View selected files for profile to include allergies, disease states/conditions, other medications taken not dispensed by this pharmacy.*	Yes	
1.02	Are sterile compounded prescriptions picked up at the pharmacy?	Yes	
1.03	Are sterile compounded prescriptions delivered/mailed to patients in their homes or residential facilities?	Yes	
1.04	Are sterile compounded prescriptions delivered/mailed to the practitioner for administration to the patient in the office, clinic, or facility?	Yes	
2.00	Does the pharmacy **distribute** sterile compounded preparations? *Not pursuant to a prescription, not labeled by the pharmacy with a patient name.*	No	
2.01	Does the pharmacy distribute sterile compounded preparations to practitioners for office use?	No	
2.02	Does the pharmacy distribute sterile compounded preparations to hospitals, clinics, or surgery centers?	No	
2.03	Is the pharmacy registered with the FDA as an Outsourcing Facility?	No	
2.04	Does the pharmacy have a sales force that distributes samples containing active ingredients? *List samples provided.*	No	
3.00	Does the pharmacy provide sterile compounded preparations to other pharmacies for dispensing?	No	
3.01	If so, does the pharmacy have central fill/shared services contracts or agreements with these pharmacies for patient specific preparations?	N/A	
4.00	Which of the following sterile compounds are prepared?		
4.01	Allergen extracts	No	
4.02	Parenteral solutions	Yes	
4.03	Parenteral *suspensions*	No	
4.04	Preservative-free parenterals	Yes	
4.05	Ophthalmic preparations	Yes	Autologous eye drops
4.06	Oral or nasal *inhalation* preparations (not topical sprays)	Yes	
4.07	Baths and soaks for live organs and tissues	No	
4.08	Irrigations for wounds and body cavities	Yes	
4.09	Any other sterile preparations (implants, pellets, etc.). *Provide list.*	No	
5.00	Does the pharmacy compound investigational drugs? *Provide list.*	No	

6.00	Does the pharmacy only make essential copies of a commercially available drug product on the Drug Shortage List or that is justified by a documented medical need of the individual patient as determined by the prescribing practitioner? *Indicate name and volume/percent compounded currently.*	No	
6.01	If yes, products are verified as appearing on the Drug Shortage List in effect under 506E of the Federal Act at the time of compounding, distribution, and dispensing.	N/A	
6.02	If yes, the Drug Shortage List is monitored and when a drug product is no longer on the list, any remaining stock is quarantined and not available for distribution or dispensing. *Note: Per FDA guidance, 503B facilities may continue to distribute for 60 days following drug shortage list removal for existing orders.*	N/A	
7.00	Does the pharmacy perform **low-risk** compounding? *Indicate percentage of low-risk sterile compounding.*	Yes	~ 30%
7.01	Are all low-risk compounds assigned BUDs within USP guidelines (48 hours at controlled room temperature, 14 days refrigerated, 45 days frozen)?	Yes	
7.02	If low risk, are the compounds located in segregated area are BUD 12 hours or less?	N/A	
7.03	If extended BUDs are used, list products with Extended BUDs and maximum BUD in notes.		
7.04	If extended BUDs are used, is further testing being performed to justify the use of extended BUDs? *List the types of testing performed (potency, sterility, stability, etc).*	N/A	
8.00	Does the pharmacy perform **medium-risk** compounding? *Indicate percentage of medium-risk sterile compounding.*	No	~ 30%
8.01	Are all medium-risk compounds assigned BUDs within USP guidelines (30 hours at controlled room temperature, 9 days refrigerated, 45 days frozen)?	N/A	
8.02	If extended BUDs are used, list products with Extended BUDs and maximum BUD in notes.		
8.03	If extended BUDs are used, is further testing being performed to justify the use of extended BUDs? *List the types of testing performed (potency, sterility, stability, etc).*	N/A	
9.00	Does the pharmacy perform **high-risk** compounding? *Indicate percentage of high-risk sterile compounding.*	Yes	~ 40%
9.01	Are all high-risk compounds assigned BUDs within USP guidelines (24 hours at controlled room temperature, 3 days refrigerated, 45 days frozen)?	Yes	
9.02	If extended BUDs are used, list products with Extended BUDs and maximum BUD in notes.		
9.03	If extended BUDs are used, is further testing being performed to justify the use of extended BUDs? *List the types of testing performed (potency, sterility, stability, etc).*	No	
10.00	Does the pharmacy provide sterile compounded preparations to be administered via an implantable infusion pump?	No	
11.00	Does the pharmacy perform compounding for **immediate use?** *Indicate percentage of immediate use sterile compounding.*	No	
12.00	Does the pharmacy perform compounding with **hazardous drugs**? *Indicate percentage of hazardous sterile compounding.* *NIOSH list of hazardous drugs including chemotherapy, hormones, etc.*	Yes	~ 20%
12.01	Does pharmacy have a plan to comply with USP Chapter <800> by the implentation date? Describe plan.	Yes	
12.02	Are hazardous drugs segregated and stored in a room that is negative pressure (at least -0.01" wc) to adjacent areas and with at least 12 ACPH?	N/A	

12.03	Is hazardous drug waste quarantined in a designated area and disposed of in compliance with local, state, and federal regulations?	N/A	
13.00	Are Safety Data Sheets (SDS) [formerly known as Material Safety Data Sheets (MSDS)] available to personnel for drugs and chemicals used in the pharmacy (including those for compounding, if applicable)? *Verify that personnel can access them and are familiar with the format.*	Yes	
14.00	Does the pharmacy perform compounding using **blood products** (or other biological materials)? Such as wound care, autologous eye drops, etc. *Describe.*	Yes	Autologous eye drops
15.00	Does the pharmacy compound using any Federally **controlled substances I-V**? *Indicate controlled substances used and percentage of controlled substance sterile compounding.*	Yes	Testosterone; ~ 20%
16.00	**APIs:** Does the pharmacy make any sterile compounded preparations using bulk powder Active Pharmaceutical Ingredients (APIs)?	Yes	
16.01	Does the pharmacy purchase APIs directly from the manufacturer/repackager? *If not, indicate the source of APIs*	Yes	
16.02	Does the pharmacy verify that the manufacturer/repackager of the API is an FDA-registered facility? *If so, list how this verified*	Yes	Permit requests information from suppliers
16.03	Does the pharmacy use active ingredients that are not from an FDA facility? *If so, indicate sources.*	No	
16.04	Does the computer track on-hand quantities of APIs used for compounding?	Yes	
17.00	Does the pharmacy use scales/balances for sterile compounding?	Yes	
17.01	If so, what type of scale/balanced is used? *List manufacturer and model number.*		OHAUS Explorer & OHAUS Adventurer Pro
17.02	If the scale/balance is electronic, does the pharmacy use the automatic calibration? *Describe process and indicate frequency.*	Yes	Calibrated daily & between formulations
18.00	Does the pharmacy have a **lyophilizer**?	No	
18.01	Where is the lyophilizer located? *Indicate location and ISO class of room.*		
18.02	Note the products lyophilized, and the volume or percent of products per week produced using the lyophilizer.		
18.03	Is the lyophilizer part of the viable air and surface sampling, media fill testing procedures, and cleaning schedules and procedures?	N/A	
19.00	Does the pharmacy perform any testing in-house (not sent to an outside lab)? *If so, what tests are performed in house?*	No	
20.00	Does the pharmacy send samples to an outside lab to perform testing? *If so, provide the name of the lab performing testing for the pharmacy and what testing is performed*	Yes	Aerobiology Laboratory - viable air & surface sampling
21.00	**Quality Assurance/Quality Improvement**: Does the pharmacy continuous quality improvement program include sterile compounding measures? ***Note: If the facility indicates "yes", please ask each question below to verify.***	Yes	
21.01	Does the pharmacy continuous quality improvement program include QREs related to the preparation of compounded products?	Yes	
21.02	Does the pharmacy continuous quality improvement program include nonviable environmental monitoring and testing?	Yes	
21.03	Does the pharmacy continuous quality improvement program include viable environmental testing?	Yes	
21.04	Does the pharmacy continuous quality improvement program include personnel testing and verification?	Yes	
21.05	Does the pharmacy continuous quality improvement program include equipment calibration, testing, etc?	Yes	

21.06	Does the pharmacy continuous quality improvement program include sterilization method testing and validation?	Yes	
21.07	Does the pharmacy continuous quality improvement program include end product testing (such as: potency, particulates, sterility, endotoxin, etc.)?	Yes	
21.08	Does the pharmacy continuous quality improvement program include patient or prescriber reports or complaints regarding CSPs?	Yes	
21.09	Does the facility QA program identify action limits or thresholds and the appropriate follow-up mechanisms when action limits or thresholds are exceeded including a recall system?	Yes	
21.10	Does the recall system include communication with both the patient and the physician/prescriber regarding the potentially contaminated CSP administered and the potential risks?	Yes	
21.11	Are QREs involving CSPs that may have been contaminated or are recalled reported to the appropriate agency such as the Board of Pharmacy and/or FDA.	Yes	Depending on severity of event
21.12	Are all CFUs detected by any personnel, environmental, or product testing; or any other checks or tests including endotoxin, purity, potency, etc. remediated, appropriately investigated, cause determined, and processes implemented to prevent in the future, where applicable? *Review QA trends.*	Yes	
	Component Selection and Use		
	Total Non-Compliant (Includes Unknowns)	**0**	
22.00	**Active Pharmaceutical Ingredients (APIs), bulk drug substances:** All bulk drug substances (APIs) used are: 1) Compliant with the standards of an applicable USP or NF monograph, if one exists; or 2) A component of an FDA-approved human drug product; or 3) On the list of bulk drug substances for use in compounding developed by the FDA and issued through regulation (note: must comply with (1) or (2) above until the FDA list is issued)	Compliant	
22.01	Certificates of analysis (COAs) obtained for all bulk APIs used for compounding. *Verify by selecting products from the shelf from different suppliers and ask to see the COAs for those products*. NOTE: The COA for an API should be reviewed upon receipt of the API to verify the quality of the API before being used for compounding.	Compliant	
22.02	USP- or NF-grade substances used, if available.	Compliant	
22.03	If compendia quality components are not available, chemically pure, analytical reagent grade or American Chemical Society-certified components are used and are determined to be free from impurities.	N/A	
22.04	APIs or other components have labeling indicating use for pharmaceutical compounding or manufacturing. Labels do not indicate "for research purposes only", "not for drug use", or are handwritten labels from other pharmacies. *Photograph and describe if found. Request copies of the invoices for products with questionable labels*	Compliant	
22.05	If compounding for both humans and animals, APIs or other components that are labeled for veterinary use only are segregated or marked in such a way to prevent them from being used for human compounding.	Compliant	
22.06	All substances and components have a complete label including a batch control or lot number, and an expiration date.	Compliant	
22.07	For APIs without an expiration date assigned by the manufacturer or supplier, the pharmacy assigns a conservative expiration date. The expiration date assigned is not greater than one (1) year, unless it is supported with data and/or testing. *Note: purity and quality testing may be performed to extend.*	Compliant	
22.08	All APIs are labeled with the date they were received.	Compliant	

22.09	If the pharmacy repackages APIs into smaller containers for ease of use, the expiration date assigned is conservative (typically the lesser of one year or the actual expiration from the original container). Product may be tested to extend the expiration date but may not exceed the original package expiration date.	Compliant	
22.10	Bulk component containers are labeled with appropriate OSHA hazard communication labels and hazardous substances are segregated (including hormones).	Compliant	
23.00	There are no preparations for human use made or ingredients used that appear on the FDA list of drug products withdrawn or removed from the market for safety reasons (facility has a copy of the list or other way to determine).	Compliant	
24.00	When manufactured products are used for compounding, all the other excipients (in addition to the active ingredient) in the manufactured product are considered relative to the use, effectiveness, and stability of the compounded preparation to be made.	Compliant	
25.00	For **animal compounding**, does the compounding meet the same standards as compounding for human patients?	Compliant	
25.01	The pharmacist is knowledgeable or has the most up-to-date references regarding the individual species' limitations in physiology and metabolic capacity that can result in toxicity when certain drugs or excipients are used.	Compliant	
25.02	It is determined and documented if the animal is used for food (meat, milk, eggs, etc.) or that the animal is a pet.	N/A	
25.03	The pharmacist familiar with, or has the most up-to-date reference regarding drug residues in the food chain and withdrawal times if compounding for food-producing animals.	N/A	
25.04	The facility has a list of drugs and components not allowed when compounding for food-producing animals.	N/A	
25.05	The pharmacist is familiar with, or has the most up-to-date reference regarding regulations for drug use in performance animals (e.g., race or show horses, racing dogs)	N/A	
26.00	If the pharmacy compounds **stock solutions** or components (that are then used to compound a finished product) using APIs, these stock solutions are categorized as high-risk compounding.	Compliant	
26.01	The stock solutions are assigned BUD based on the USP<797> high-risk compound BUD, OR are assigned on the basis of direct testing or extrapolation from reliable literature sources to support an extended BUD.	Compliant	
26.02	Compounded preparations using the stock solution are classified as high-risk compounds with appropriate handling with regard to BUD and testing requirements.	Compliant	
	Environment		
	Total Non-Compliant (Includes Unknowns)	**1**	
27.00	If the facility performs both sterile and nonsterile compounding, the areas are separated and distinct.	Compliant	
28.00	If the facility performs compounding using blood products (or other biological materials), this compounding area is separate and distinct from the general compounding areas.	Compliant	Autologous eye drops compounded in negative pressure room
28.01	Are components used in compounding with blood products restricted to the blood compounding area (not used in other compounding areas)?	Compliant	
29.00	Entry into the sterile compounding areas is limited to task critical employees (limited to only the pharmacist(s) and other trained and authorized pharmacy personnel).	Compliant	
30.00	The anteroom has a line of demarcation or other separation of the dirty to the clean side. Note: the line of demarcation may NOT be the doorway between the anteroom and the clean/buffer room.	Compliant	
30.01	Carts used to bring supplies from the storeroom are kept on the outside of the line of demarcation.	N/A	
30.02	Carts used in the clean/buffer room are kept on the clean side of the line of demarcation.	N/A	

31.00	All surfaces of the sterile product compounding area carts, shelves, stools, chairs, and other items are resistant to disinfectants, non-permeable, non-carpeted or upholstered, and low particulate generating.	Compliant	
32.00	Walls are constructed of durable material, which is cleanable, such as epoxy-coated or heavy-gauge polymer material. *If panels are used, they are locked together and sealed.*	Compliant	
33.00	The ceiling surface shall be impervious and hydrophobic. *If tiles are used, they shall be locked and the seams between the tiles and where they meet the walls shall be caulked and sealed.*	Compliant	Solid ceiling
34.00	The floor overlaid with wide sheet flooring and seamless or with heat welded seams, with coving to the sidewall, and a sealed seam where the coving meets the wall.	Non-Compliant	Cracks present in flooring material in buffer and chemo room; advised staff to seal cracks ASAP
35.00	The clean/buffer room or anteroom does not have dust collecting overhangs.	Compliant	
36.00	The exposed surfaces of:		
36.01	PEC are free of dirt, rust, chips and particulate matter.	Compliant	
36.02	Light fixtures are smooth, mounted flush, and sealed.	Compliant	
37.00	A working sink, located on the clean side of the line of demarcation, is available that enables pharmacy personnel to wash hands and enter the sterile compounding area without contaminating his/her hands and is away from/not adjacent to any PEC(s).	Compliant	
38.00	There is no sink or drain in the clean/buffer room.	Compliant	
39.00	Hand drying is with lint-free disposable towels, or an electronic or HEPA filtered hand dryer.	Compliant	
39.01	If using a hand dryer, particle count and smoke testing validation is performed while dryer is in use (while someone is actively using to dry their hands) at certification, and the immediate area around the dryer is part of the viable air and surface testing program performed. *(N/A if only using towels)*	N/A	
40.00	All air ducts controlling air flow into the sterile compounding clean/buffer room and anteroom are equipped with High Efficiency Particulate Air filtered air that maintains the cleanroom with an ISO Class 7 environment and the anteroom with an ISO Class 7 (when adjacent to HD cleanroom) or ISO Class 8 environment.	Compliant	
41.00	Incoming air ducts through HEPA filters are on or near the ceiling and air return ducts are low on the walls in the anteroom and clean/buffer room.	Compliant	HEPA filters are not flush with ceiling; renovations are planned as part of compliance to USP 797 revisions
42.00	If there are particle generating equipment/appliances in the clean/buffer room or anteroom (e.g. computers, printers, refrigerators, dishwashers, etc), they are located by an air return so air flows over and out of the room taking particles with it, and this air flow has been confirmed by smoke testing while in use.	Compliant	
43.00	Beverages including drinking water, chewing gum, candy, or food items are prohibited from the clean/buffer room or anteroom.	Compliant	
44.00	If compounding occurs using nonsterile ingredients, products, components, or devices (for example compounding with non-sterile APIs or using nonsterile vials and closures), the pharmacy has appropriate equipment to sterilize the finished product.	Compliant	
44.01	Pre-sterilization procedures for high risk level CSPs (such as weighing and mixing) are performed in no worse than an ISO Class 8 environment.	Compliant	
45.00	Completely enclosed anteroom and clean/buffer room (with a door) are equipped with monitors or gauges to measure differential pressure.	Compliant	
45.01	Anteroom is at least 0.02" wc positive pressure to general pharmacy areas.	Compliant	
45.02	Clean/buffer room is at least 0.02" wc positive pressure to Anteroom.	Compliant	
45.03	Hazardous compounding room and drug storage area is at least 0.01" wc negative pressure to ISO Class 7 anteroom.	Compliant	Reading was -0.049" wc negative pressure at time of inspection; advised staff USP 797 revisions may specify specific range for negative pressure room (0.01' to 0.03" wc negative pressure)
45.04	Pressures are reviewed and documented on a log at least every work shift (minimum of once daily) or monitored by a continuous recording device. *View logs*	Compliant	

45.05	Written plan in place to detect and react to pressure differentials outside of limits.	Compliant	
46.00	If the clean/buffer room and anteroom are not fully enclosed (open or with plastic strips - no door that closes), the air flow is measured across the openings.	N/A	
46.01	The air flow is at least 40 feet per minute across the entire opening.	N/A	
46.02	Airflow is read and recorded each shift (minimum of once daily) or continuously recorded. *View logs.*	N/A	
46.03	Written plan in place to detect and react to air flow measurements outside of limits	N/A	
46.04	This area is used only for low- and medium-risk compounding (**HD and high-risk not allowed**).	N/A	
47.00	**Temperature:** The temperature of all compounding and drug storage areas shall be maintained in accordance with standards, and a written plan shall be in place and followed to address any excursions.	Compliant	
47.01	Temperature in the **compounding area** is maintained to provide comfortable working conditions for compounding personnel of 20° C or cooler (68° F or cooler); Temperature can be more restrictive if warranted by specific drug product storage requirements. *Temperature records are maintained.*	Compliant	
47.02	If drugs are stored in the compounding area, temperature monitoring is in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max. *Temperature records are maintained.*	Compliant	
47.03	Temperature monitoring is also performed in **drug storage areas** (if separate from the compounding areas). Temperature is maintained at controlled room temperature of 20° - 25° C (68° - 77° F) or as specified by FDA approved labeling for drug product storage.	Compliant	
47.04	Temperature monitoring in the **drug storage area** is performed at least once daily and documented. *Temperature records are maintained.*	Compliant	
47.05	Temperature in the **refrigerator or cooler** is maintained to provide controlled cold temperature of 2° to 8°C (36° to 46°F) or as specified by FDA approved labeling for drug product storage.	Compliant	
47.06	Temperature monitoring in the **refrigerator** is performed at least once daily and documented. Additionally, compounding personnel shall note the storage temperature when placing the product into or removing the product from the storage unit in order to monitor any temperature aberration. Alternatively, continuous monitoring or retroactive detection using min/max may be used. *Temperature records are maintained.*	Compliant	
47.07	Temperature in the **freezer** is maintained to provide controlled frozen temperature of -25° to -10°C (-13° to 14°F) or as specified by FDA approved labeling for drug product storage.	Compliant	
47.08	Temperature monitoring in the **freezer** is performed at least once daily and documented. Additionally, compounding personnel shall note the storage temperature when placing the product into or removing the product from the storage unit in order to monitor any temperature aberration. *Temperature records are maintained.*	Compliant	
47.09	Action plan in place for any temperature excursions including evaluating excursion effects on drug product integrity for all temperature monitored areas.	Compliant	
48.00	**Humidity:** If warranted by specific drug products, humidity in the compounding area is maintained to provide humidity within the specified ranges. If drug products require storage in a "dry place", humidity is not to exceed 40%. (*Generally recommended range is 35-60% for performing sterile compounding .*)	Compliant	
48.01	If applicable, humidity monitoring in place to detect any excursions (24/7) by continuous monitoring or retroactive detection using min/max. Humidity records are maintained.	Compliant	
48.02	If applicable, excursion action plan in place including evaluating excursion effects on drug product integrity.	Compliant	

48.03	If applicable, humidity monitoring is also performed in drug storage areas (if separate from the compounding areas).	Compliant	
49.00	Blowers on ISO 5 PECs are operated continuously during compounding activity, including during interruptions of less than eight hours.	Compliant	
50.00	When the ISO 5 PEC blower is turned off, and before other personnel enter to perform compounding activities, only one garbed person is allowed to enter the buffer area for the purposes of turning on the blower (for at least 30 minutes) and of sanitizing the work surfaces	Compliant	
51.00	The doors into the anteroom from the general pharmacy area and from the anteroom into the clean/buffer room are prevented from both being open at the same time. *By interlocking, training of personnel, or signage.*	Compliant	
52.00	The inside and outside doors of a pass-through are prevented from both being open at the same time. *By interlocking, training of personnel, or signage.*	N/A	
53.00	**If the PEC is a BSC or LAFW that is NOT located in an ISO Class 7 clean/buffer room**: BSC or LAFW has been certified to maintain ISO Class 5 during compounding activities.	N/A	
53.01	Used only for low-risk compounded preparations with a 12-hour or less BUD assigned. *If yes, list percentage.*	N/A	
53.02	All garbing requirements are adhered to.	N/A	
53.03	Located in an area that is maintained under sanitary conditions and only traveled by persons engaging in the compounding of sterile preparations.	N/A	
53.04	Location does not contain any unsealed windows or doors that connect to the outdoors or areas of high traffic flow, and is not adjacent to construction sites, warehouses, or food preparation areas?	N/A	
53.05	The sink is separated from the immediate area of the ISO Class 5 BSC or LAFW (not adjacent).	N/A	
54.00	**If the PEC is a CAI/CACI that is NOT located in an ISO Class 7 clean/buffer room:** CAI/CACI has been certified to maintain ISO Class 5 under dynamic conditions including transferring of ingredients, components and devices, and during preparation of CSP.	N/A	
54.01	The pharmacy has documentation from the manufacturer that the CAI or CACI will meet this standard when located in worse than ISO Class 7 environments.	N/A	
54.02	The CAI or CACI is located in an area that is maintained under sanitary conditions and only traveled by persons engaging in the compounding of sterile preparations.	N/A	
54.03	The sink is separated from the immediate area of the CAI or CACI (not adjacent).	N/A	
54.04	For NIOSH hazardous compounding in a CACI that is NOT located in a clean/buffer room, the CACI is located in a physically separated area that maintains a negative pressure of 0.01" water column pressure to adjacent areas and a minimum of 12 ACPH.	N/A	
	Cleaning and Disinfection		
	Total Non-Compliant (Includes Unknowns)	**0**	
55.00	Are all personnel performing cleaning appropriately garbed?	Compliant	
56.00	Is the sterile compounding area equipped with appropriate nonshedding cleaning equipment and supplies? *All cleaning tools, such as wipers, sponges, and mops, must be nonshedding, dedicated to and labeled for use in either the buffer or clean area (no wooden handles are allowed).*	Compliant	
57.00	If cleaning tools are reused, is there a procedure to rinse and sanitize the tools and an appropriate clean storage area?	Compliant	
58.00	Are reusable tools appropriately labeled to prevent them from being used inappropriately?	Compliant	

59.00	For cleaning and sanitizing agents that are not "ready-to -use" formulations, are there formulas and instructions for mixing or diluting the agents prior to use and is the preparation documented?	N/A	
60.00	Are cleaning and sanitizing agents appropriately labeled including expiration dates? *Verify no expired agents present.*	Compliant	
61.00	Are appropriate cleaning agents used that are effective for bacteria, viruses, fungi, and spores?	Compliant	
62.00	Is the ISO 5 PEC cleaned at the beginning of each shift, between compounding activities, at least every 30 minutes while compounding and after spills or suspected surface contamination?	Compliant	
62.01	If heavily soiled, cleaning includes the appropriate agent. *List agent(s) used.*	Compliant	Sterile water, sterile IPA, Virex Tb, Peridox RTU
63.00	Does sanitizing of the ISO 5 PEC include sanitizing with sterile 70% IPA using a nonlinting wipe?	Compliant	
64.00	Does daily cleaning and sanitizing include counters and easily cleanable work surfaces?	Compliant	
65.00	Does daily cleaning include the floors starting from the clean/buffer room and working outwards? Floor cleaning is not to occur during compounding.	Compliant	
66.00	If fatigue mats are used, are they cleaned daily and let dry on both sides?	N/A	
67.00	Is a tacky mat used and if so, is there a procedure in place regarding replacement?	Compliant	
68.00	Are the ceilings, walls, all shelving, bins, carts, chairs, and the tops and sides of the primary engineering controls (PECs) thoroughly cleaned monthly? (*This includes removing everything from shelves and bins before cleaning, cleaning the undersides of cart surfaces and stools, wheels, etc.)* *Check inside bins and shelving for dust if you are garbed.*	Compliant	
69.00	Is enough time allocated for cleaning activities, including contact/dwell times for the cleaning/disinfection agents?	Compliant	
	Training *-Verify records of all compounding personnel (up to 10).*		
	Total Non-Compliant (Includes Unknowns)	**1**	
70.00	There is documentation that compounding personnel are appropriately trained including policies and procedures, documentation, hazardous drug handling, cleaning/disinfection/spills, garbing/gowning/hand hygiene, and aseptic technique. *Note that "compounding personnel" includes personnel performing compounding, supervising compounding, and performing verification of compounding.* *List number of personnel training files viewed.*	Non-Compliant	Documentation available only for garbing/gowning/hand hygiene and aseptic technique; advised personnel to include aseptic technique, hood cleaning/disinfection/spills to training documentation.
70.01	All personnel performing compounding are not allowed to compound until training and initial testing is successfully completed.	Compliant	

2765

70.02	All personnel that SUPERVISE compounding and/or perform verifications of other's compounding are not allowed to supervise or verify compounding until training and initial testing is successfully completed.	Compliant	
71.00	All personnel of reproductive capability who handle or compound hazardous drugs or chemicals have confirmed in writing that they understand the risks of handling hazardous drugs. *Teratogenicity, carcinogenicity, reproductive issues.*	Compliant	
72.00	There is documentation, such as an observational checklist, that all personnel (including housekeeping or other outside personnel) that perform cleaning activities in the compounding areas including hazardous compounding areas are appropriately trained in garbing, cleaning and disinfection.	Compliant	
73.00	There is documentation of training on the operation of any equipment that may be used when preparing compounded sterile products. *Documentation needs to include training on operation, and troubleshooting*	N/A	
74.00	If the pharmacy uses relief personnel from outside agencies to perform sterile compounding, training and certifications are verified. *View documentation.*	N/A	
75.00	There is documentation that all compounding personnel (including those supervising or performing verifications) have passed an initial written exam, and subsequent annual written exams for the appropriate compounding risk levels and NIOSH hazardous drugs when applicable. *Indicate frequency, if testing more than annually*	Compliant	
76.00	There is documentation that all compounding personnel have passed an initial and subsequent annual competency assessments of aseptic compounding skills using observational audit tools including handling NIOSH hazardous drugs when applicable. Compounding skills evaluation to include use of equipment. *Indicate frequency, if testing more than annually.*	Compliant	
77.00	There is documentation that new compounding personnel have passed an initial observed gowning procedure and three gloved fingertip sampling tests? *Personnel must pass the tests upon initial validation before being allowed to compound . Action required if the tests yield any garbing deficiencies, or if the sampling results are >0 colony-forming units (CFU)/plate on the three initial validations.* *Indicate frequency, if testing more than annually.*	Compliant	
78.00	There is documentation that compounding personnel preparing low or medium risk-level products have passed an annual observed gowning procedure and gloved fingertip sampling test. *Action required if the tests yield any garbing deficiencies, or if the fingertip sampling results are >3 CFU (total both hands, all 10 fingers). Documentation to include type of media used, COA on media, incubation time and temperature and interpretation of results.* *Indicate frequency, if testing more than annually.*	Compliant	
79.00	There is documentation that a media fill test procedure is performed for each compounding employee at least annually for individuals that prepare low or medium risk-level products. *The test conditions must closely simulate the most challenging or stressful conditions encountered during compounding of the highest risk level product and include any automation used in compounding. Media-filled vials are incubated and failure is indicated by visible turbidity in the medium on or before 14 days.* *Indicate frequency, if testing more than annually.*	Compliant	Performing high-risk sterile compounding
80.00	The media-fill testing procedures include:		
80.01	Media selection (including obtaining COAs or growth promotion certificates from suppliers)	Compliant	
80.02	Fill Volume	Compliant	

80.03	Incubation time and temperature (Media-filled vials are generally incubated at 20° to 25° or at 30° to 35° for a minimum of 14 days. If two temperatures are used for incubation of media-filled samples, then these filled containers should be incubated for at least 7 days at each temperature.)	Compliant	
80.04	Inspection of filled units	Compliant	
80.05	Documentation	Compliant	
80.06	Interpretation of results	Compliant	
80.07	Action levels set with the corrective actions required	Compliant	
81.00	**High-Risk Sterile Compounding:** There is documentation that compounding personnel have passed an observed gowning procedure and gloved fingertip sampling test every six (6) months. *Action required if the tests yield any garbing deficiencies, or if the sampling results are >3 CFU on both hands upon revalidation. Documentation to include type of media used, COA on media, incubation time and temperature and interpretation of results. Indicate frequency, if testing more than every 6 months.*	Compliant	
82.00	**High-Risk Sterile Compounding:** There is documentation that a media fill test procedure is performed for each compounding employee at least every six (6) months for individuals that prepare high risk-level products. *The test conditions must closely simulate the most challenging or stressful conditions encountered during compounding of the highest risk level product and include any automation used in compounding. Media-filled vials are generally incubated at 20° to 25° or at 30° to 35° for a minimum of 14 days. If two temperatures are used for incubation of media-filled samples, then these filled containers should be incubated for at least 7 days at each temperature.*	Compliant	
83.00	**Failed testing:** Employees who have failed any testing are prohibited from compounding until training is performed/reviewed and subsequent testing is performed successfully.	N/A	No failed testing at time of inspection
83.01	Gloved fingertip tests that have failed have the organisms identified down to the genus to determine the most likely source of the contamination. This data is used to develop plans to prevent contamination.	N/A	No failed testing at time of inspection
83.02	There is a plan to evaluate the sterile compounds prepared by an employee with failed gloved fingertip tests or media fills to detect potential contamination of the sterile preparations compounded.	Compliant	
	Garbing		
	Total Non-Compliant (Includes Unknowns)	**0**	
84.00	Personnel are prohibited from compounding, or entering the clean/buffer room or anteroom if they have a rash, sunburn, weeping sores, conjunctivitis, or an active respiratory infection.	Compliant	
85.00	Personnel are required to remove all personal outer garments such as hats, scarves, sweaters, vests, coats, or jackets and any makeup or cosmetics before entering compounding areas. *Include observations in the comments.*	Compliant	
86.00	Personnel are required to remove all hand and wrist jewelry, and all visible jewelry or piercings such as earrings, lip or eyebrow piercings, etc. before entering clean/buffer room.	Compliant	
87.00	Personnel are prohibited from wearing artificial nails or extenders, and required to keep natural nails neat and trimmed.	Compliant	
88.00	Garbing with dedicated shoes or shoe covers that are donned as the line of demarcation is crossed (with the dedicated or covered shoe never touching the same side of the line of demarcation as the dirty shoe).	Compliant	
89.00	Garbing includes head and facial hair covers and masks. *Note that facial hair requires both a facial hair cover AND a mask. Eye shields are optional unless using cleaning agents or preparing hazardous drugs. There is a method available to assure that all hair is covered.*	Compliant	

90.00	Hand cleaning is performed in the anteroom and includes removing debris from under the nails with a nail cleaner followed by a vigorous washing of the hands and forearms with soap for at least 30 seconds with hands and arms then dried with a non-linting disposable towel or a hand dryer. *Scrub brushes are NOT recommended as they cause skin irritation and damage.*	Compliant	
91.00	The gown is nonshedding with sleeves that fit snugly around the wrists and enclosed at the neck.	Compliant	
92.00	All bare skin is covered on the arms and the legs (no bare ankles, wrists, etc.).	Compliant	
93.00	Prior to donning sterile gloves, a waterless alcohol based surgical hand scrub with persistent activity is used and hands allowed to dry. *Note: regular Purell Hand Sanitizer is NOT appropriate. Purell or other brand surgical hand scrub is appropriate - must have residual activity.*	Compliant	
94.00	Upon leaving the sterile product compounding area, gowns are taken off and disposed of, or if used for nonhazardous compounding they are left in the anteroom and not reused for longer than one shift.	Compliant	
95.00	Pharmacists or other personnel do NOT enter the anteroom and cross the line of demarcation without donning shoe covers or dedicated shoes. *Watch for personnel traversing back and forth across the line of demarcation without doffing and donning new shoe covers or dedicated shoes.*	Compliant	
96.00	Pharmacists or other personnel do NOT enter the clean/buffer room without fully washing and garbing (wearing just a mask to check technician's work, for example)	Compliant	
	Environmental Monitoring		
	Total Non-Compliant (Includes Unknowns)	**0**	
97.00	The most recent PEC and room certification report is available.	Compliant	
97.01	All ISO Class 7 and 8 SECs (clean/buffer rooms and anterooms) have been certified within the last 6 months. *If non-compliant, record the date of the last certification.*	Compliant	
97.02	All ISO Class 5 PECs (laminar airflow workbenches or areas, BSCs, CAIs, CACIs, and barrier isolators) have been certified within the last 6 months. *If non-compliant, record the date of the last certification.*	Compliant	
97.03	Certification is performed at least every six months (view date of previous certification) and whenever a device or room is relocated or altered, or major service to the facility is performed. *If non-compliant, record the date of the previous certification.*	Compliant	
97.04	Certification is performed to the Controlled Environment Testing Association (CETA) guide (USP: CETA CAG-003-2006 Certification Guide for Sterile Compounding Facilities) and is noted on the report.	Compliant	
97.05	If the certification standard used and noted on the report is NOT CETA CAG-003-2006, the facility has performed a comparison and determined the standard used is the same or better than the CETA CAG-003-2006 guide.	N/A	
97.06	The PIC/compounding supervisor is familiar with what testing is required and interpretation of results, ensures all testing is performed appropriately (under dynamic conditions where appropriate), has action levels identified, evaluates results to detect issues or trends, and action levels are further customized based on trended data of performance.	Compliant	
98.00	The certification report includes information about the equipment used for performing each test including: identification of the equipment used by model, serial number, last calibration date (or date when next calibration is due).	Compliant	
98.01	The equipment used had not exceeded its calibration date at the time of certification.	Compliant	
99.00	The HEPA filtered air changes per hour (ACPH) were measured for the compounding rooms.	Compliant	

99.01	ISO Class 7 sterile compounding room is certified as having a minimum of 30 ACPH with at least 15 ACPH from outside air sources. *Recirculated air from the PECs may account for up to 15 ACPH in nonhazardous classified rooms only.*	Compliant	
99.02	ISO class 7 anteroom is certified as having a minimum of 30 ACPH. *Anteroom must be ISO class 7 if connected to a NIOSH hazardous compounding clean/buffer room.*	Compliant	
99.03	ISO class 7 hazardous sterile compounding room is certified as having a minimum of 30 ACPH. *Typically all of the air will be from outside.*	Compliant	
99.04	If a CACI is used in a non-HEPA filtered room, the room is certified to maintain a minimum of 12 ACPH.	N/A	
100.00	Air pattern analysis using smoke testing was performed under dynamic conditions (people working in the PECs and rooms). The smoke flow is described in the report for the various tests such as turbulent, sluggish, smooth, etc.	Compliant	
100.01	Air pattern analysis was conducted at the critical area (direct compounding area inside the ISO Class 5 PEC) to demonstrate **unidirectional** airflow and sweeping action over and away from the product under dynamic conditions (personnel compounding or simulating compounding in PEC).	Compliant	
100.02	Air pattern analysis was conducted to confirm positive pressure (and negative pressure into hazardous compounding rooms) at all points around all openings, doorways, and pass-throughs	Compliant	
100.03	Air pattern analysis conducted around particle generating equipment *while the equipment was in operation* to confirm air flow.	Compliant	
101.00	Differential air pressure between rooms was measured.	Compliant	
101.01	The differential pressure measured was at least 0.02" water column positive from the cleanroom to the anteroom and between the anteroom and all adjacent spaces with the doors closed.	Compliant	
101.02	The differential pressure measured was at least 0.01" water column negative from the hazardous clean/buffer room to the anteroom with the doors closed.	Compliant	Differential pressure measured at -0.049" water column; advised staff about USP 797 revision requiring range to be within -0.01 to -0.03" water column
102.00	Displacement airflow between rooms or areas was measured. This is for a clean/buffer room without a door that closes to the anteroom - may be an open space or may have plastic strips in doorways.	N/A	
102.01	Displacement airflow (for low and medium-risk non-hazardous rooms only) was measured at a minimum differential velocity of 40 feet per minute from the cleanroom to the anteroom. *Note that it is very important to maintain this velocity across the entire opening and the report should indicate multiple points of measure across all openings.*	N/A	
103.00	Particle counts of particles 0.5um and larger were measured under dynamic conditions.	Compliant	
103.01	ISO Class 5 areas and PECs are certified as having less than 3,520 particles per cubic meter of air (100 particles per cubic foot).	Compliant	
103.02	ISO Class 7 areas are certified as having less than 352,000 particles per cubic meter of air (10,000 particles per cubic foot).	Compliant	
103.03	ISO Class 8 areas are certified as having less than 3,520,000 particles per cubic meter of air (100,000 particles per cubic foot).	N/A	
104.00	HEPA filter tests were performed.	Compliant	
104.01	All room HEPA filters were leak tested and if leaks found, they were fixed	Compliant	
104.02	All PEC HEPA filters were leak tested and if leaks found, they were fixed	Compliant	
105.00	PECs with failed tests are not used for compounding until the conditions are corrected and verified by subsequent testing.	Compliant	
106.00	Viable air (every six months) and surface sampling (periodically) tests have been conducted as required. Document frequency.	Compliant	

106.01	Appropriate growth media used (containing tryptic soy agar medium with polysorbate and lecithin (TSApl) added to neutralize cleaning agents for surface sampling) with appropriate corresponding incubation time and temperature used. *Required to use media that supports both bacterial and fungal growth for high risk compounding.*	Compliant	
106.02	Viable air sampling by active impaction using a volumetric air sampling device. *NOTE: Passive air sampling or settling plates are not compliant with USP Chapter <797>.*	Compliant	
106.03	Air samples were taken in each ISO Class 5 PEC, and in each sterile compounding room and anteroom and volume sufficient volume of air (400-1000L) was collected? *Note: 1000L must be collected in ISO Class 5 PECs to be able to detect the action level. Room samples can be 400-1000L.*	Compliant	
106.04	Surface samples performed on all direct compounding areas inside of each ISO 5 PEC, in each ISO classified room, inside any pass-throughs, and on surfaces likely to be contaminated due to position relative to doorways, etc.	Compliant	
106.05	Viable air and surface samples did not exceed USP action levels (or internal action levels if more restrictive). Classification Air Sample Surface Sample ISO Class 5 >1 CFU/m3 >3 CFU/plate ISO Class 7 >10 CFU/m3 >5 CFU/plate ISO Class 8 >100 CFU/m3 >100 CFU/plate *CFUs are TOTAL of bacterial plus fungal/mold plates. If air sampling volume is less than 1000 liters (one cubic meter), the raw total microbial count must be multiplied by the appropriate factor to determine the number of CFU/cubic meter.*	Compliant	
106.06	CFUs detected by any means (viable air or surface sampling, gloved fingertip testing, failed sterility tests, etc.) are identified to the genus level. *All CFUs detected must be identified even if the number of CFUs does not exceed an action level.*	Compliant	
106.07	If the number of CFUs detected **in the rooms** exceeds action levels, begin immediate remediation (e.g. recleaning and retesting); and conduct investigation into the source(s) of the contamination.	Compliant	
106.08	If the number of CFUs detected **in the PECs** exceeds action levels, begin immediate remediation, (e.g. recleaning and retesting); and conduct investigation into the source(s) of the contamination.	Compliant	
106.09	If any highly pathogenic microbes (e.g. mold, yeast, coagulase positive staphylococcus, or gram negative rods) were detected (whether or not the number of CFUs exceeds action levels), begin immediate remediation(e.g. recleaning and retesting); and conduct investigation into the source(s) of the contamination.	Compliant	
107.00	Facilities performing routine air or surface sampling with internal qualified personnel routinely verify sampling procedures. *Indicate the outside vendor used to verify procedures and frequency of verifications.*	N/A	
	Equipment		
	Total Non-Compliant (Includes Unknowns)	**0**	
108.00	Appropriate equipment and utensils are available, clean, and in good working order. *Automated, mechanical, or electronic equipment (autoclaves, ovens, etc.) are periodically inspected, and calibrated yearly or in accordance with the equipment manufacturer guidelines.*	Compliant	
109.00	All environmental monitoring equipment and gauges (differential pressure gauges or probes, air flow and velocity measuring equipment for rooms not fully enclosed, etc.) are periodically inspected, and calibrated yearly or in accordance with the equipment manufacturer guidelines. Calibration is documented.	Compliant	
110.00	All temperature and humidity (where applicable) monitoring devices (thermometers, hygrometers, probes, etc.) are periodically inspected, and calibrated yearly or in accordance with the equipment manufacturer guidelines. Calibration is documented	Compliant	

111.00	Automated Compounding Devices (ACDs) are used for sterile compounding (such as repeater pumps) and there is a P&P for the use and calibration.	N/A	
111.01	There is documentation of the ACD tubing being changed or discarded every 24 hours	N/A	
111.02	The ACD is used when performing media fill testing.	N/A	
	Compounding Procedures		
	Total Non-Compliant (Includes Unknowns)	**0**	
112.00	Gloves are disinfected with adequate frequency with an approved disinfectant, such as sterile 70% isopropyl alcohol (IPA).	Compliant	
113.00	Nonessential objects that shed particles are prohibited in the buffer or clean area, including pencils, cardboard cartons, paper towels, reading material, and cotton items (e.g., gauze pads)?	Compliant	
114.00	Essential paper related products (syringe overwraps, work records contained in a protective plastic sleeve) are wiped down with sterile 70% IPA before being brought into the buffer or clean area.	Compliant	
115.00	Supplies required for the scheduled operations of the shift are prepared by wiping the outer surface with sterile 70% IPA (or removing the outer wrap as the item is introduced into the aseptic work area) and brought into the buffer or clean area in a bin or on a movable cart.	Compliant	
116.00	Compounding employees are using appropriate aseptic technique. *May require inspector to garb and enter clean/buffer room. Pay attention to first air, entry and exit of materials in ISO Class 5 PEC, appropriate frequent sanitization of gloves, appropriate cleaning and cleanliness of the direct compounding area (DCA).* ***Compounding MUST be observed****, if compounding is not being performed at the time of survey mark item as "Non-Compliant"*	Compliant	
116.01	If compounding is not being performed at the time of survey, ask that a compounding pharmacist or technician prepare a compound for you to observe the compounding process. *If the pharmacy staff refuses or is unable to perform compounding for you to observe, document on the "* ***Denial of Authorization*** *" form. List individual who signs the Denial of Authorization*		
117.00	Compounding personnel ascertain that ingredients for CSPs are of the correct identity and appropriate quality by reading vendors' labels, and a unit-by-unit physical inspection of the product before use.	Compliant	
118.00	All rubber stoppers, of vials and bottles and the necks of ampules are disinfected with sterile 70% IPA waiting for at least 10 seconds before they are used to prepare CSPs.	Compliant	
119.00	Single-dose vials exposed to ISO Class 5 or cleaner air are used within six (6) hours of the initial puncture and any remaining contents discarded. *If exposed to less than ISO Class 5 air, used within 1 hour and discarded.*	Compliant	
120.00	The remaining contents of opened single-dose ampules (or vials where container closure system has been removed) are discarded immediately. *May not be stored for any time period.*	Compliant	
121.00	Multiple-dose vials formulated for removal of portions on multiple occasions are used within 28 days (or the manufacturer's specific BUD if less) after the initial entry or puncture and any remaining contents discarded.	Compliant	
122.00	The compounding record is complete. *View several completed compounding records and answer each of the following questions. List records reviewed.*	Compliant	
122.01	Official or assigned name, strength and dosage of the preparation	Compliant	
122.02	Names, lot numbers and expiration dates of all components	Compliant	
122.03	Total quantity or number of units compounded	Compliant	
122.04	Person compounding the preparation	Compliant	

122.05	Person performing the quality control procedures	Compliant	
122.06	Person who approved the preparation	Compliant	
122.07	Date of compounding	Compliant	
122.08	Assigned internal identification number or prescription number	Compliant	
122.09	Assigned BUD and reference if extended beyond USP guidelines	Compliant	
122.10	Duplicate label	Compliant	
122.11	Sterilization method (if applicable)	Compliant	
122.12	Indication of the quality control procedures to perform (testing, filter integrity, etc.) and results of the testing, quality control issues, and investigation/recall if applicable	Compliant	
123.00	Procedure for in-process checks is followed. *These checks indicate that appropriate procedures and packaging are followed for each step, including addressing pharmacist verification of steps performed by non-pharmacists and visual inspection of product. Documentation of the compounding accuracy is* ***recommended*** *to be performed by someone other than the compounder to ensure proper measurement, reconstitution, and component usage.*	Compliant	
124.00	Labels on BATCH preparations include the name and quantity of all contents, date, and time of preparation (or internal code indicating this information), preparer and verification pharmacist identifiers, stability (BUD), and any auxiliary labels indicated including appropriate packaging and labeling of hazardous materials.	Compliant	
125.00	Labels on PATIENT-SPECIFIC containers, in addition to standard label requirements, also include names and quantity or concentration of active ingredients, BUD, total volume, route of administration, storage conditions and other information for safe use.	Compliant	
126.00	Inspect several different finished products and look for any particulates. Do any of the finished products inspected show any evidence of particulates? *If so, list the products including lot and expiration date and obtain photos (if possible).* **REQUEST THE PRODUCT BE QUARANTINED AND NOTIFY NABP IMMEDIATELY.**	Compliant	
127.00	Preparations without additional stability testing or supported by data are assigned BUDs within USP<797> guidelines. **Low Risk:** 48 hours room temp, 14 days refrigerated, 45 days frozen **Medium Risk:** 30 hours room temp, 9 days refrigerated, 45 days frozen **High Risk:** 24 hours room temp, 3 days refrigerated, 45 days frozen	Compliant	
128.00	If extended BUDs are assigned, are they assigned on the basis of stability data extrapolated from reliable literature sources? *View records, preparation must exactly match the preparation cited in the documentation including concentration of all active ingredients, excipients, etc.*	Compliant	
129.00	If extended BUDs are assigned, has the facility performed its own stability testing? *View records, preparation must exactly match the preparation tested by the facility including concentration of all active ingredients, excipients, etc. If so, view records for at least three products and list the products reviewed below. List the products reviewed.*	N/A	
130.00	Compounded multiple-dose vials with extended BUDs assigned have additional instruction provided that indicates remainder must be discarded 28 days after first puncture or use.	N/A	
131.00	**Filter sterilization** in an ISO 5 environment and documentation includes:		
131.01	If the compounded preparation contains large particles, a prefilter is placed upstream from the sterilizing filter.	Compliant	
131.02	The 0.2 micron sterile microporous membrane filter used to sterilize CSP solutions is chemically and physically compatible with the CSP; and the filter is intended for human-use applications for sterilizing CSPs (labeling on the filter does not indicate "research only" or "laboratory only", for example).	Compliant	
131.03	Is the appropriate capacity filter being used for the volume being filtered.	Compliant	

131.04	Filtering is completed rapidly without filter replacement.	Compliant	
131.05	Confirmation of filter integrity/bubble testing is performed and value documented for each filter used with each batch sterilized by filtration. View documentation on compounding records of items sterilized by filtration to confirm.	Compliant	
132.00	**Steam sterilization** documentation includes:		
132.01	The autoclave has been verified for the exposure time and mass of the items to be sterilized	N/A	
132.02	Ensures live steam contacts all ingredients and surfaces to be sterilized, effectiveness verified with biological indicators and temperature sensing devices	N/A	
132.03	Solutions are passed through a 1.2 micron or smaller filter into the final containers to remove particulates before sterilization	N/A	
132.04	That the CSP will not be adversely affected by the steam and heat	N/A	
132.05	The description of steam sterilization includes conditions and duration for specific CSPs	N/A	
132.06	That the effectiveness of steam sterilization is verified each time using appropriate biological indicators of Bacillus stearothermophilus and other confirmation methods such as temperature-sensing devices.	N/A	
133.00	**Dry heat sterilization** documentation includes:		
133.01	Dry heat is only used for those items that cannot be sterilized by steam or would be damaged by moisture	N/A	
133.02	Sufficient space is left between materials to allow for air circulation	N/A	
133.03	The description of dry heat sterilization includes conditions and duration for specific CSPs	N/A	
133.04	That the effectiveness of dry heat sterilization is verified each time using appropriate biological indicators of Bacillus subtilis and other confirmation methods such as temperature-sensing devices.	N/A	
133.05	Heated filtered air is evenly distributed throughout the chamber with a blower and the oven is equipped with a system for controlling and recording temperature and exposure period.	N/A	
134.00	**Depyrogenation by dry heat** documentation includes:		
134.01	Dry heat depyrogenation is used to render glassware and containers (such as vials) free from pyrogens as well as viable microbes	Compliant	
134.02	The description of the cycle and duration for specific load items	Compliant	
134.03	The effectiveness of the cycle is verified using endotoxin challenge vials (ECVs)	Compliant	
134.04	Bacterial endotoxin testing is performed on the ECVs to verify the cycle is capable of achieving a 3-log reduction in endotoxins	Compliant	
135.00	Other methods of sterilization are used with documented procedures and validation performed. *Indicate method.*	N/A	
	Finished Preparation Release Checks and Tests		
	Total Non-Compliant (Includes Unknowns)	**0**	
136.00	Are products visually checked for particulates or other foreign matter against both a light and a dark colored background as a condition of release?	Compliant	
137.00	Are there checks for container, closure integrity and any other apparent visual defects?	Compliant	
138.00	Is compounding accuracy documented by verification of steps?	Compliant	
139.00	Is verification of ingredient identity and quantity verified? *Is there a reconciliation of components?*	Compliant	
140.00	Are labels verified as being correct and is a copy of the label included in the record? *Complies to regulation, contains the correct names and amounts or concentrations of ingredients, total volumes, BUDs, storage conditions, and route of administration.*	N/A	

141.00	**Sterility testing (USP <71>).** *If testing is performed to a higher standard than the minimums below, describe.*		
141.01	Sterility testing includes both bacterial and fungal testing.	N/A	
141.02	Sterility testing is performed for all CSPs that have extended BUDS.	N/A	
141.03	Sterility testing is performed for high-risk CSPs prepared in batches of more than 25 identical containers	N/A	
141.04	Sterility testing is performed for CSPs exposed longer than 12 hours at 2°C-8°C or longer than six hours at warmer than 8°C before being sterilized	N/A	
141.05	The appropriate quantities of units are sterility tested. Parenterals, number of units in the batch is: 1. Not more than 100, test 10% or four units, whichever is greater 2. More than 100 but more than 500, test 10 units 3. More than 500, test 2% or 20 units, whichever is less For large volume parenterals: 2% or 10 containers, whichever is less. For non-parenterals (eye drops, inhalation, etc.): 1. Not more than 200 containers, test 5% or 2 containers, whichever is greater 2. More than 200, test 10 containers	N/A	
141.06	For products failing testing, product is quarantined, and an investigation is performed including microbial identification and action taken. *View testing records and note any products with failed results and actions taken.*	N/A	
141.07	If items are dispensed or distributed prior to sterility testing completion, there is a written procedure requiring daily observation of the incubated media. If there is any evidence of microbial growth, there is an immediate recall and both the patient and the physician/prescriber of the patient to whom a potentially contaminated CSP was administered are notified of the potential risk. *View testing records and note any products with failed results and actions taken.*	N/A	
142.00	**Endotoxin testing (USP <85>).** *If testing is performed to a higher standard than the minimums below, describe.*		
142.01	Is endotoxin testing performed for all high-risk level CSPs for administration by injection prepared in groups of more than 25 single-dose packages (such as ampules, bags, syringes, vials)	N/A	
142.02	High-risk CSPs prepared in multiple dose vials for administration to multiple patients	N/A	
142.03	High-risk CSPs exposed longer than 12 hours at 2°C-8°C (25°F-46°F) or longer than six (6) hours at warmer than 8°C (46°F) before they are sterilized	N/A	
142.04	For products failing testing, product is quarantined, and an investigation is performed and action taken. *View testing records and note any products with failed results and actions taken.*	N/A	

	Patient Counseling and Communication		
	Total Non-Compliant (Includes Unknowns)	**0**	
143.00	Do patient/caregiver training programs or materials contain information and precautions regarding the handling and disposal of hazardous products such as chemotherapy medications?	Compliant	
144.00	Are the above required printed drug information materials (drug information, PPI, MedGuides, etc.) provided for the compounded products?	Compliant	
145.00	Are patients instructed on the signs of product instability or contamination (as appropriate) and to report any changes in the physical characteristics of the product to the pharmacy?	Compliant	
146.00	Product recalls include documentation that both the patient AND the physician/prescriber of the potentially contaminated CSP was administered are notified of the potential risk.	Compliant	

The information and comments obtained in the Nonsterile Compounding and Sterile Compounding Inspections are based on USP Chapters <795> and <797>.
An inspection against current Good Manufacturing Practices (cGMPs) was not conducted. There may be some overlap in concepts.

Form DEA-223 (9/2016)

NEVADA STATE BOARD OF PHARMACY

985 Damonte Ranch Parkway, Suite 206 - Reno, NV 89521 - (775) 850-1440

Sterile Compounding Questionnaire

Rev (09/11/2024)

This application cannot be returned by fax or email.
We must have an original signature to process.

Approval of this completed questionnaire is required for an existing pharmacy, new pharmacy and/or out-sourcing facility applicant who wish to engage in preparing, compounding, dispensing, and furnishing sterile compounded products to Nevada patients or consumers.

Please provide a thorough response to the questions below and provide any necessary supporting documents.
-For a new pharmacy or out-sourcing facility applicant, submit this completed form with your application.
-For an existing pharmacy, send the completed form to the address indicated above.

Section 1: General Information

Pharmacy Name: Vidrine Pharmaceutical Group, LLC

NV Pharmacy or Outsourcing facility license # (if applicable): _____

Physical Address: 404 E. Prien Lake Road

City: Lake Charles State: LA Zip: 70601

Mailing Address (if different from physical address): _____

City: _____ State: _____ Zip: _____

Telephone: (337) 436-7216 Toll Free # (NAC 639.708, NRS 639.23286): 1-855-305-2110

Fax: (337) 436-7217 Contact Email: _____

Website: https://boudreauxsnewdrug.com/

Nevada Business License # (if applicable) _____

Supervising/Managing Pharmacist Name (NRS 639.220): Kylee Vidrine

Supervising/Managing Pharmacist NV Pharmacist Registration #: _____

Name of Designated Person(s) as defined by revised USP-797 guidelines: Kylee Vidrine

Email of Designated Person(s): kvidrine@bndsrx.com

Telephone of Designated Person(s): (832) 527-3558

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)?

☐ Category 1 ■ Category 2 ☐ Category 3

If you marked "**Category 3**", you must also complete **section 4.**

2. If compounding Category 2 products is the location performing sterility and endotoxin testing (if required) to obtain extended beyond-use dates? ■ Yes ☐ No

3. If compounding Category 2 products is the location performing aseptically processed CSPs or terminally sterilized CSPs? ■ Aseptic ☐ Terminal

4. Is the pharmacy following the new garbing requirements listed in the revised USP-797 guidelines? ■ Yes ☐ No

5. When was the most recent certification for the ISO classified areas? 05/02/2024

6. What is the frequency of the recertification for the ISO classified areas? every 6 months

7. Were there any follow-up items required from the most recent certification report? ☐ Yes ■ No

8. If preparing Category 2 or Category 3 CSPs from non-sterile starting components are the pre-sterilization procedures such as weighing and mixing completed in an ISO Class 8 or better environment? ■ Yes ☐ No

9. If compounding Category 1 CSPs and Category 2 CSPs how often is surface sampling of all classified areas and pass-through chambers conducted? once a month

10. Will you be performing sterile hazardous drug compounding? ☐ Yes ■ No

If you marked "**Yes**", you must also complete **section 3.**

11. List the sterile compounded products that you will be compounding for Nevada patients or consumers:

12. What laboratory performs your sterility or endotoxin testing?

Name: Eagle Analytical Services

Address: 11111 S Wilcrest Dr S1000

City: Houston State: TX Zip: 77099

Telephone: (800) 745-8916

13. What is your procedure for visual inspection of compounded sterile products?

We only use clear vials in order for better visualization. Technicians inspect the final products and verifying pharmacists inspect the final product.

14. How often do you perform glove fingertip and medial fill testing?

every 6 months

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:

All starting employees are sent to PCCA training facilities for 1 week to complete CORE training and Sterility Assurance training. They also complete all training documents included in our SOP 1.6.

Please see attached SOP 1.6.

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

Please see attached SOPs 1.25 & 1.4 on our cleaning procedures.

17. Who performs the sterile compounding process at your facility?

Amanda Brassieur, Kylee Vidrine

18. Who is responsible and accountable for the sterile compounding process at your facility?

Amanda Brassieur, Kylee Vidrine

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

Overnight or 2-day FedEx Delivery, ice chest coolers, ice packs, temperature indicators

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility?		
2. Are you complying with all USP 800 guidelines?	☐ Yes	☐ No
3. Have your employees who compound with hazardous drugs signed an acknowledgement that they understand the risks associated with this process?	☐ Yes	☐ No
4. Is your BSC or CACI vented 100% to the outside?	☐ Yes	☐ No
5. Do you have a negative pressure buffer room at your facility?	☐ Yes	☐ No
6. Will you be compounding with antineoplastic HDs or HD API?	☐ Yes	☐ No
7. If yes, are the drugs stored in an externally ventilated, negative pressure room?	☐ Yes	☐ No
8. Will you be utilizing a closed system transfer device?	☐ Yes	☐ No
9. If yes, list the name of the device:		

10. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?

11. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?

Section 4: Sterile Category 3 Compounding Questions (Complete this section ONLY if you will be performing Category 3 Compounding.)

1. List the specific Category 3 sterile products that your facility compounds:

2. What is the frequency for ongoing garbing, gloved fingertip and thumb sampling, and media fill testing for compounding personnel?

3. Is the pharmacy meeting all of the additional garbing requirements for compounding Category 3 CSPs as defined by the revised USP-797 guidelines? ☐Yes ☐No

4. What is the frequency for completing volumetric active air sampling?

5. What is the frequency for completing surface sampling?	
6. What is the frequency for using sporicidal agents?	
7. Is an endotoxin test performed for all products compounded from one or more nonsterile component?	☐ Yes ☐ No
8. Is the BUD assigned supported by stability data obtained using a stability-indicating analytical method?	☐ Yes ☐ No

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire form and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event the form is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

Board Use Only	Date Received: 10/22/24 Date Approved: _____ Approved By: _____

1.0 Purpose

1.1 The purpose of this procedure is to establish requirements for training new and existing staff at Boudreaux's New Drug Store to ensure quality of compounded preparations and safety of staff.

2.0 Definitions

2.1 N/A

3.0 Procedure

3.1 This procedure applies to all staff involved with compounding activities.

3.2 Orientation for new employees shall include:

3.2.1 Tour of Facility

3.2.2 Pharmacy Hours, Work Schedule, Lunch

3.2.3 Dress Code

3.2.4 Telephone Use

3.2.5 HIPAA, Pharmacy Security

3.2.6 Job Description

3.2.7 SOP Manual (includes Safety Training)

3.2.8 Didactic Training (as applicable)

3.2.9 Equipment Training and Competency Assessment (as applicable)

3.2.10 Competency Assessments (as applicable)

3.3 SOP Manual shall be read and Annual Review form located in the front of SOP manual shall be signed by new employees and annually by all employees. Employees shall read SOPs that are pertinent to their position.

3.4 Upon completion of orientation, Orientation Checklist (Attachment 2) along with resume. license verification, Job Description (Attachment 3), Safety Training Checklist (SOP 6.40 Attachment 10), Hazardous Chemical Acknowledgement (SOP 6.40 Attachment 11), Hepatitis B waiver, and documentation of required training and competency assessments shall be filed in employee training file.

3.4.1 Compounders, checking pharmacists and pharmacist-in-charge

shall complete orientation training and competency assessments before performing regular job duties and annually thereafter (as required). Pharmacists shall complete all of the same training and competency assessments as technicians plus pharmacist-specific training and competency assessments.

3.5 Equipment training and competency assessment shall be performed before using equipment and upon evidence of poor technique. Document on Attachment 4 (Equipment Training and Competency Assessment).

3.6 Competency Assessment

3.6.1 Nonsterile Compounding

3.6.1.1 Nonsterile compounding staff shall be trained and observed and interviewed for competency on commonly compounded dosage forms prior to first performing compounding. The competency of nonsterile compounding staff shall be continually evaluated and documented at least annually on Competency Assessment Nonsterile Compounding (Attachment 5)

3.6.2 Sterile Compounding

3.6.2.1 Compounding technique shall be observed by a qualified person with media fills (and observed competency assessments) to assess sterile compounding skills prior to first performing sterile compounding, every six months (high risk) and/or every twelve months (low and medium risk) thereafter and upon evidence of poor technique. The competency of sterile compounding staff shall be continually evaluated and documented at least every six months (high risk) and/or every twelve months (low and medium risk) on Competency Assessment Sterile Compounding (Attachment 6).

3.6.2.2 Sterile compounding staff shall perform media fills (non-sterile to sterile and sterile to sterile, as applicable) to be compounded under conditions that closely simulate the most challenging or stressful conditions encountered. A post garb and post compounding fingertip sample shall be performed on each hand along with a post compounding surface sample of the direct compounding area. Incubate fingertip and surface samples at 30-35C for 48-72 hours. Incubate media fill at 30-35C

for 14 days. Note that sterile compounding staff shall pass three gloved fingertip samples on each hand with zero cfus prior to performing sterile compounding for the first time at this location.

3.6.2.2.1 Basic High Risk Media Fill Procedure

- Dissolve 3g of nonsterile soybean-casein digest medium in 100ml of nonbacteriostatic water to make a 3% nonsterile solution.
- Draw 25ml of the medium into each of three 30ml sterile syringes.
- Transfer 5ml from each syringe into separate sterile 10ml vials. Mark these vials (positive) control.
- Affix a sterile 0.22 micron filter to each syringe and transfer 10ml of sterile medium into each of two sterile 10ml vials. Mark these samples.

3.6.2.3 Low and Medium Risk Media Fill shall be performed (as applicable) using a commercial kit.

3.6.2.4 Sterile compounding staff shall be observed performing skills assessments related to (1) hand hygiene and garbing; (2) CAI cleaning and aseptic technique; (3) Cleaning and disinfecting procedures every six months. Document results on Attachment 6A (Sterile Compounding Skills Assessment - Hand Hygiene and Garbing), Attachment 6B (Sterile Compounding Skills Assessment - CAI Cleaning and Aseptic Technique), and Attachment 6C (Sterile Compounding Skills Assessment - Cleaning and Disinfecting Procedures).

3.6.3 Pharmacists shall be trained and observed and interviewed for competency on checking compounded preparations prior to performing checking, every twelve months thereafter and upon evidence of poor technique. Document on Attachment 7 (Pharmacist Check Training and Competency Assessment).

3.6.4 Pharmacists shall be trained and observed and interviewed for competency on counseling of compounded preparations prior to performing counseling, every twelve months thereafter and upon evidence of poor technique. Document on Attachment 8 (Pharmacist Counseling Training and Competency Assessment.

3.7 Didactic review

3.7.1 Review of USP 795 shall be performed prior to performing nonsterile compounding or checking nonsterile compounded preparations, at least every twelve months thereafter and upon evidence of poor technique. A written quiz shall be completed to document understanding. File a copy of training and quiz in training file. Re-training required for scores < 80%.

3.7.2 Review of USP 797 and aseptic technique shall be performed prior to performing sterile compounding or checking sterile compounded preparations, at least every six months thereafter and upon evidence of poor technique. A written quiz shall be completed to document understanding. File a copy of training and quiz in training file. Re-training required for scores < 80%.

3.8 Regular ongoing training related to compounding shall be performed and may include live training, webinars, demonstrations, journal articles, drug information, calculations, mock recalls, etc. Training may be documented on Attachment 1 (Staff Training), Attachment 10 (Staff Meeting Minutes), NABP e-profile, Training Certificates, etc.

3.9 Training File Checklist (Attachment 9) may be used to track training.

3.10 Staff meetings shall be held regularly and include issues related to quality, privacy or security, and compliance as well as staff training. Staff in attendance shall sign in for meeting and minutes shall be documented on Attachment 10 or equivalent form.

Compounding Pharmacist (Nonsterile) Job Description

Job Summary: Performs all aspects of nonsterile pharmacy compounding at Boudreaux's New Drug Store.

Job Activities and Responsibilities: Compounding pharmacist shall have knowledge of and follow applicable Standard Operating Procedures. Non-sterile compounding may include but is not limited to the compounding of capsules, oral liquids, topical medications, nasal preparations, suppositories, troches, tablet triturates or lollipops. Hormones and other potentially hazardous chemicals are used in non-sterile compounding. Position requires close attention to detail. Standards for accuracy and potency shall be consistently met. Compounding pharmacist shall perform compounding and supervise pharmacy technicians compounding of preparations, filling and labeling of prescriptions and prepackaging of bulk medications. Compounding pharmacist shall also perform order entry, communicate with providers for the purpose of receiving new prescription orders, clarification of prescriptions or refill authorizations, perform final check on prescriptions, counsel patients and answer questions from patients and providers. Compounding pharmacist shall also monitor inventory levels for re-order of low inventory or expiring chemicals, receive new inventory, ensure maintenance of MSDS and Certificates of Analysis, oversee annual inventory and ensure performance of daily, weekly and monthly cleaning using appropriate disinfectants and techniques and finally, ensure that environmental monitoring and validation testing is performed according to policies and procedures.

Minimum qualifications: Louisiana-licensed pharmacist with compounding training or equivalent experience preferred.

Physical requirements: Position requires good hand-eye coordination and the ability to lift up to thirty pounds.

Reports to: Pharmacist-in-charge.

Appearance: Should reflect positively on Boudreaux's New Drug Store.

Pharmacy Intern Job Description

Job Summary: Performs all aspects of nonsterile pharmacy compounding at Boudreaux's New Drug Store.

Job Activities and Responsibilities: Pharmacy Intern shall have knowledge of and follow applicable Standard Operating Procedures. Non-sterile compounding may include but is not limited to the compounding of capsules, oral liquids, topical medications, nasal preparations, suppositories, troches, tablet triturates or lollipops. Hormones and other potentially hazardous chemicals are used in non-sterile compounding. Position requires close attention to detail. Standards for accuracy and potency shall be consistently met. Pharmacy Intern shall perform compounding, filling and labeling of prescriptions and prepackaging of bulk medications. Pharmacy Intern shall also perform order entry, communicate with providers for the purpose of receiving new prescription orders, clarification of prescriptions or refill authorizations, perform final check on prescriptions, counsel patients and answer questions from patients and providers. Pharmacy Intern shall also monitor inventory levels for re-order of low inventory or expiring chemicals, receive new inventory, ensure maintenance of MSDS and Certificates of Analysis, oversee annual inventory and ensure performance of daily, weekly and monthly cleaning using appropriate disinfectants and techniques and finally, ensure that environmental monitoring and validation testing is performed according to policies and procedures. Pharmacy Intern may perform any activity restricted to a pharmacist, while under the supervision of a registered pharmacist.

Minimum qualifications: Louisiana-registered pharmacy intern.

Physical requirements: Position requires good hand-eye coordination and the ability to lift up to thirty pounds.

Reports to: Pharmacist-in-charge.

Appearance: Should reflect positively on Boudreaux's New Drug Store.

Sterile Compounding Job Description

Job Summary: Sterile compounding pharmacist/technician is responsible for compounding low, medium and high-risk sterile products in a clean room environment.

Job Activities and Responsibilities: Sterile compounder must have knowledge of and follow applicable Standard Operating Procedures. Sterile compounding includes but is not limited to injections, ophthalmics and inhalation solutions. Position requires close attention to detail. Standards for strength, quality, purity, integrity, sterility, and endotoxin content must be consistently met. Sterile compounder will also monitor inventory levels for re-order of low inventory or expiring chemicals. Daily and monthly cleaning performed using appropriate disinfectants and techniques. Environmental monitoring and validation testing performed according to policies and procedures. Technicians work under the supervision of a pharmacist.

Minimum qualifications: Louisiana-licensed pharmacist or Louisiana-registered pharmacy technician with formal training in sterile compounding or equivalent experience.

Physical requirements: Position requires good hand-eye coordination and the ability to lift up to thirty pounds.

Reports to: Pharmacist-in-charge.

Appearance: Scrubs and appropriate PPE required. Long hair should be pulled back and cosmetics and visible jewelry removed.

Delivery Job Description

Job Summary: Delivers medication in the local area without compromising product integrity by using appropriate containers that protect medication from wide variations in temperature, structural damage or unapproved light sources. Brings mail and packages to the post office. Runs other errands as requested.

Job Activities and Responsibilities: Driver shall have knowledge of and follow applicable Standard Operating Procedures. Driver shall deliver hazardous medications at times and shall ensure vehicle contains a spill kit and know how to use it. Driver shall follow all rules in accordance with good driving practices which include following posted speed limits and wearing seat belts (and ensuring all passengers also wear seatbelts). Driver shall not be permitted to drink alcohol or have any alcohol in the vehicle. Driver shall not be permitted to talk on a cell phone or text while driving. (Driver should pull over to the side of the road to use cell phone). Driver shall be responsible for any fines for speeding or vehicular misconduct.

Minimum qualifications: Must have a current Louisiana driver's license.

Physical requirements: Able to safely operate a motor vehicle and lift up to thirty pounds.

Reports to: Pharmacist.

Appearance: Should reflect positively on Boudreaux's New Drug Store.

Employee Signature: _____ **Date:** _____

Printed Name: _____

Compliance Officer Job Description

Job Summary: Oversees compliance activities with regard to pharmacy standard operating procedures, state and federal regulations and accreditation standards.

Job Activities and Responsibilities: Compliance Officer shall have knowledge of and follow applicable standard operating procedures. Responsibilities include monitoring the pharmacy and pharmacy staff for compliance with state and federal regulations, accreditation standards and standard operating procedures; and overseeing Performance Improvement activities including (1) ensuring the collection of incident data (including adverse events, complaints, important aspects related to the service provided, and monitoring of processes that involve risks including infections and communicable diseases); (2) monitoring of trends; (3) investigation of incidents/trends including taking necessary follow-up action; and (4) completion of appropriate documentation. Compliance Officer shall hold a quarterly Performance Improvement meeting to review findings with staff. Compliance Officer shall create a comprehensive, annual Performance Improvement report that describes Performance Improvement activities, findings and corrective actions that relate to the services provided.

Minimum qualifications: Louisiana-licensed pharmacist or Louisiana-registered pharmacy technician with formal training in nonsterile compounding or equivalent experience.

Physical requirements: Ability to use a computer keyboard, fax machine, communicate by telephone, and lift up to thirty pounds.

Reports to: Pharmacist-in-charge

Appearance: Should reflect positively on Boudreaux's New Drug Store.

Sterile Compounding Skills Assessment
Hand Hygiene and Garbing

_____ Presents in a clean appropriate attire and manner.
_____ Removes all jewelry, watches, etc. up to the elbows. (Removes all other visible jewelry, including piercings, that can interfere with the effectiveness of PPE).
_____ Wears no cosmetics.
_____ Brings no food or drinks into or stored in the ante areas or buffer areas.
_____ Is aware of the line of demarcation separating clean and dirty sides and observes required activities. Dons shoe covers or designated clean-area shoes one at a time, placing the covered or designated shoe on clean side of the line of demarcation as appropriate.
_____ Dons beard cover if necessary.
_____ Dons head cover assuring that all hair is covered.
_____ Dons face mask to cover bridge of nose down to include chin.
_____ Dons eye protection if necessary. Eye protection is optional unless working with irritants such as germicidal disinfecting agents or when preparing hazardous drugs.
_____ Performs hand hygiene procedure by wetting hands and forearms and washing using soap and water for at least 30 seconds starting with cleaning the fingernails under running water using a nail pic then cleaning all four surfaces of each finger and all surfaces of the hands, wrists and arms up to the elbow using a circular motion. Rinses hands holding them upright and allowing water to drip down to the elbows.
_____ Dries hands and forearms using lint-free towel.
_____ Does not touch faucet or sink during hand hygiene procedure.
_____ Dons appropriate-sized gown (free from defects, holes or tears) and ensures full closure.
_____ Disinfects hands again using a waterless alcohol-based surgical hand scrub with persistant activity and allows hands to dry thoroughly, before donning sterile gloves.
_____ Dons appropriate-sized sterile gloves ensuring that there is a tight fit with no excess glove material at the fingertips.
_____ Examines gloves ensuring that there are no defects, holes or tears. While engaging in sterile compounding activities, routinely disinfects gloves with sterile 70% IPA prior to work in the direct compounding area and after touching items or surfaces that may contaminate gloves.
_____ Removes PPE on the clean side of the ante area.
_____ Removes gloves and performs hand hygiene.
_____ Removes gown and discards it or hangs it up to be reused within the same work day.
_____ Removes and discards mask, head cover and beard cover (if used). Removes shoe covers or shoes one at a time, ensuring that uncovered foot is placed on the dirty side of the line of demarcation and performs hand hygiene again.

The person assessed is immediately informed of all unacceptable activities and shown and informed of specific corrections

Name_____ Evaluator _____ Date _____

Sterile Compounding Skills Assessment
Hood Cleaning and Aseptic Technique

_____ Performs proper hand hygiene, garbing and gloving procedures. Uses sterile gloves.
_____ Lets the hood run at least 30 minutes prior to use.
_____ Prepares (or has knowledge of) correct concentration of disinfectant solution and labels with correct expiration date.
_____ At the beginning of each shift, disinfects the hood with lint-free wipes and an appropriate disinfectant in the following order: IV Bar, walls, work surface (from cleanest to dirtiest – top down and back to front).
_____ Disinfects the hood before each batch preparation and every thirty minutes during continuous compounding.
_____ Allows the disinfectant to dry completely.
_____ Disinfects components/vials with an appropriate agent prior to placing in hood.
_____ Introduces only essential materials in a proper arrangement in hood. Brings the correct supplies. Does not block air intake.
_____ Does not interrupt, impede or divert flow of first-air to critical sites. Does not contaminate hood by coughing, sneezing, chewing gum or excessive talking. Keeps head outside hood. Glass shield, if available, lowered to a level of eight inches or less from work surface.
_____ Ensures syringes, needles and tubing remain in their individual packaging and are opened properly in hood.
_____ Performs manipulations in the appropriate area of hood.
_____ Does not expose critical sites to contact contamination or worse than ISO Class 5 air.
_____ Disinfects stoppers, injection ports and ampule necks by wiping with sterile 70% IPA and allowing sufficient time to dry.
_____ Affixes needles to syringes without contact contamination.
_____ Inserts needles into vials correctly to prevent coring.
_____ Removes and adds air to vials appropriately to prevent aspiration of contents.
_____ Allows drug to completely dissolve before removing contents.
_____ Inspects final product for particulate matter.
_____ Knows proper ampule usage (clears ampule neck of fluid before breaking, cleans neck and wraps with alcohol swab breaking away from body, HEPA-filter and other sterile products, uses filter straw/needle to withdraw contents without spilling, uses new needle to inject fluid into final container).
_____ Disinfects sterile gloves routinely by wiping with sterile 70% IPA during prolonged compounding manipulations.
_____ Disposes of sharps and waste according to recognized guidelines.
_____ Only sterile alcohol is used in cleanroom.

The person assessed is immediately informed of all unacceptable activities and shown and informed of specific corrections

Name_____ Evaluator _____ Date _____

Sterile Compounding Skills Assessment
Cleaning and Disinfecting Procedures

Daily Tasks:

_____ Prepares correct concentration of disinfectant solution according to manufacturer's instructions.
_____ Uses appropriately labeled container for the type of surface to be cleaned (floor, wall, production bins, etc.).
_____ Documents disinfectant solution preparation.
_____ Follows garbing procedures when performing any cleaning activities.
_____ At the beginning of each shift, cleans all ISO Class 5 devices prior to compounding .
_____ Uses a lint free wipe soaked with sterile 70% IPA or other approved disinfectant solution and allows to dry completely.
_____ Removes all compounder components and cleans all ISO Class 5 areas as stated above at the end of each shift.
_____ Cleans all counters and easily cleanable work surfaces.
_____ Mops floors, using the mop labeled "floors," starting at the wall opposite the room entry door; mops floor surface in even strokes toward the operator. Moves carts as needed to clean entire floor surface. Use of a microfiber cleaning system is an acceptable alternative to mops.
_____ In the ante-area, cleans sink and all contact surfaces; cleans floor with a disinfectant solution or uses microfiber cleaning system.

Monthly Tasks:

_____ Performs monthly cleaning on a designated day. Prepares a disinfectant solution as stated in daily tasks that is appropriate for the
surfaces to be cleaned.
_____ Cleans buffer area and ante-area ceiling, walls, and storage shelving with a disinfectant solution and a mop or uses a microfiber cleaning system.
_____ Once ISO Class 5 area is clean, cleans compounding room ceiling, followed by walls and ending with the floor. Uses appropriate labeled mops or microfiber cleaning system.
_____ Cleans all buffer area totes and storage shelves by removing contents and using a germicidal detergent soaked lint free wipe, cleans the inside surfaces of the tote and then the entire exterior surfaces of the tote. Allows totes to dry. Prior to replacing contents into tote, wipes tote with sterile 70% IPA to remove disinfectant residue. Uses new wipe as needed.
_____ Cleans all buffer area carts by removing contents and using germicidal detergent soaked lint free wipe, cleans all carts starting with the top shelf and top of post, working down to wheels. Cleans the under side of shelves in a similar manner. Uses a new wipe for each cart. Allows to dry. Wipes carts with sterile 70% IPA wetted lint-free wipe to remove any disinfectant residue. Uses new wipe as needed.
_____ Cleans buffer area chairs, the interior and exterior of trash bins, and storage bins using disinfectant solution soaked lint free wipe.
_____ Documents all cleaning activities as to who performed such activities with date and time noted.
The person assessed is immediately informed of all unacceptable activities and shown and informed of specific corrections

Incubate surface and fingertip samples at 30-35C for 48-72 hours.
Note: Fingertip samples with zero cfu needed post garbing x 3 before initially performing sterile compounding.
Keep this form retrievable.

Confirmed by _____ Signature _____

Pharmacist Check Competency Assessment

Employee _____ Date _____

Employee experience level with process ☐ Beginner ☐ Intermediate ☐ Advanced

Initial - Employee has completed and has documentation of all didactic training related to the process including relevant SOPS? ☐ Yes ☐ No ☐ N/A

Initial - Demonstration of process by supervisor or experienced pharmacist performed?
☐ Yes ☐ No ☐ N/A by_____ Date_____

Observation of process by supervisor or experienced pharmacist checker performed:

Preparation/Strength/Dosage Form _____

Verified compounding record to original written order or refill information? ☐ Yes ☐ No ☐ N/A
Verified accuracy of original written order (on new prescriptions)? ☐ Yes ☐ No ☐ N/A
Verified accuracy of patient label including IACP and other auxiliary label? ☐ Yes ☐ No ☐ N/A
Verified as follows :

Formula accuracy including calculations?	☐ Yes ☐ No ☐ N/A
Compounding record complete and accurate?	☐ Yes ☐ No ☐ N/A
BUD?	☐ Yes ☐ No ☐ N/A
Quantity?	☐ Yes ☐ No ☐ N/A
Packaging and storage requirements?	☐ Yes ☐ No ☐ N/A
Capsule size and color ?	☐ Yes ☐ No ☐ N/A
Expected weight (including accuracy of dispensing device)?	☐ Yes ☐ No ☐ N/A
Color, odor, uniformity, integrity, viscosity?	☐ Yes ☐ No ☐ N/A
Clarity, no particles or leaks?	☐ Yes ☐ No ☐ N/A
pH?	☐ Yes ☐ No ☐ N/A
Sterility method and testing?	☐ Yes ☐ No ☐ N/A
Bubble test?	☐ Yes ☐ No ☐ N/A

Employee answers interview questions appropriately and verbalizes understanding of procedure?
☐ Yes ☐ No

Is additional training or observation needed? ☐ Yes ☐ No
Comments:

Compliance Report:

Training:

1.0 Purpose

1.1 The purpose of this procedure is to establish requirements for deactivation, decontamination, cleaning and disinfection of HD and non-HD compounding areas at Boudreaux's New Drug Store to ensure quality of compounded preparations and safety of personnel.

2.0 Definitions

2.1 HD Hazardous Drug

2.2 SDS Safety Data Sheet

2.3 PPE Personal Protective Equipment

2.4 Deactivation renders a compound inactive. If no specific information is available on SDS then use Peridox RTU (using three-minute contact time), Clorox Healthcare Bleach Germicidal Wipes or Clorox Healthcare Hydrogen Peroxide Cleaner Disinfectant Wipes (using a three-minute contact time), sodium hypochlorite 5000 - 6000 ppm (using 10 minute contact time) or other EPA- registered oxidizer (following labeled contact time).

2.5 Decontamination removes inactivated substances. If no specific information is available on SDS then use Peridox RTU (using three-minute contact time), Clorox Healthcare Bleach Germicidal Wipes or Clorox Healthcare Hydrogen Peroxide Cleaner Disinfectant Wipes (using a three-minute contact time), sodium hypochlorite 5000 - 6000 ppm (using 10 minute contact time) or other EPA- registered oxidizer (following labeled contact time).

2.6 Cleaning removes organic and inorganic matter. Use one-step disinfectant cleaner on surfaces. Use Alconox (or equivalent) products for glassware and utensils (e.g. Alcotabs in the dishwasher and Liquinox for handwashing).

2.7 Disinfection destroys microorganisms. May use 70% IPA or EPA-registered disinfectant. 70% IPA used in ISO-classified areas must be sterile.

3.0 Procedure

3.1 This procedure applies to all personnel involved with cleaning activities.

3.2 Agents selected must be appropriate for the type of contaminant, location, and surface materials. Agents used in HD areas should be applied through the use of wipes wetted with appropriate solution and not delivered by a spray bottle to avoid spreading HD residue. All disposable materials must be discarded in appropriate waste containers. No cleaning step may be performed when compounding activities are occurring. Ensure adequate contact times. Options include:

3.2.1 Sodium Hypochlorite at 5000 – 6000 ppm. Concentrations vary. BUD is 5 days. Contact time is 10 minutes when used as a sporicidal disinfectant.

3.2.1.1 Bleach 5.25% has 52500 ppm of sodium hypochlorite so for 5000 ppm, use 97.5 ml bleach and 902.5 ml SWFI and for 6000 ppm, use 102.6 ml bleach and 897.4 ml SWFI. Bud is 5 days.

3.2.1.2 Bleach 8.25% has 82500 ppm of sodium hypochlorite so for 5000 ppm, use 60.6ml bleach and 939.4 ml SWFI and for 6000 ppm, use 72.7ml bleach and 927.3 ml SWFI. BUD 5 days.

3.2.2 Or deactivate, decontaminate, and clean with **Peridox RTU** as follows:

1. Remove excess liquid from surface to be treated using a dry wiper
2. Saturate a new dry wiper with Peridox RTU solution.
3. Clean the surface with the saturated wiper, utilizing overlapping, unidirectional strokes.
4. Repeat steps 2-3. Leave the surface wet with Peridox RTU for at least 3 minutes.
5. Finish by wiping surface with 70% Isopropyl alcohol.
6. Discard contaminated wipers in trace hazardous waste container.

3.2.3 Or deactivate, decontaminate, and clean with **Clorox Healthcare Bleach Germicidal Wipes** or **Clorox Healthcare Hydrogen Peroxide Disinfectant Wipes** as follows:

1. Remove excess liquid from surface to be treated using a dry wiper
2. Take a new disinfectant wipe and fold it in half. Wipe the surface until

completely wet. Wipe in unidirectional strokes, overlapping a portion of the previously wiped surface each time. If you are cleaning a large area, you may need to use several wipes.

3. Repeat steps 2 with a new disinfectant wipe. Leave the surface wet with for at least 3 minutes.

4. Finish by wiping surface with 70% Isopropyl alcohol.

5. Discard contaminated wipers in a manner consistent with facility guidelines and local regulations.

3.3 Personnel must be garbed appropriately for the area. See SOPs 1.30 Nonsterile Compounding Area, 1.35 Nonsterile HD Compounding Area, 1.40 Sterile Compounding Area, and 1.45 Sterile HD Compounding Area for garbing and PPE requirements and frequency of activities.

3.4 **Nonsterile Area**

3.4.1 **Non-HD Area** and all reusable equipment and devices must be cleaned. Re-usable storage containers must also be disinfected. A disinfectant with sporicidal activity should be used at least monthly.

3.4.1.1 Cleaning supplies should be stored in and dedicated for use in the Non-HD Area.

3.4.2 **HD Area** and all reusable equipment and devices must be deactivated, decontaminated, and cleaned. Re-usable storage containers must also be disinfected. A disinfectant with sporicidal activity should be used at least monthly.

3.4.2.1 Cleaning supplies must be stored in and dedicated for use in the HD Area.

3.4.2.2 Glassware and utensils used in HD compounding must be either wiped with Peridox RTU or Clorox Healthcare Bleach Germicidal Wipes or Clorox Healthcare Hydrogen Peroxide Disinfectant Cleaner (allowing a 3 minute contact time); or soaked in a 5000-6000 ppm sodium hypochlorite solution (for at least 10 minutes) before washing with a lab grade detergent (Alconox product) and rinsing thoroughly.

3.4.2.3 A disinfectant with sporicidal properties (e.g. Peridox RTU

or Clorox Healthcare Bleach Germicidal Wipes) should be used on all surfaces at least monthly. Note: Clorox Healthcare Hydrogen Peroxide Germicidal Wipes do not have sporicidal activity.

3.5 **ISO-Classified Areas**

3.5.1 All cleaning materials, such as wipers, sponges, and mops used in ISO-classified areas must be nonshedding, preferably composed of synthetic micro fibers, and dedicated to use in the Non-HD or HD ISO-classified and must not be removed from these areas except for disposal. Agents and wipers used in ISO Class 5 must be sterile. Agents and wipers used in ISO Class 7 or 8 should be sterile. Cleaning materials used in HD areas may not be used in non-HD areas.

3.5.2 **Non-HD** ante-room and (positive pressure) buffer room and all reusable equipment must be cleaned and disinfected. A disinfectant with sporicidal activity must be used at least monthly. Floor must have a designated mop labeled 'Floor'. Floor mops may be used in both the buffer room and ante-room, but only in that order.

3.5.3 **HD C-SEC** (negative pressure buffer room) All areas and all reusable equipment and devices must be deactivated, decontaminated, cleaned, and disinfected. A disinfectant with sporicidal activity must be used on all surfaces at least monthly. Floor must have a designated mop labeled 'Floor'.

3.6 **HD Dispensing Area** counting trays and spatulas should be dedicated to HDs and should be decontaminated after each use.

3.7 **HD Receiving Area** tables, countertops and floors must be deactivated, decontaminated, and cleaned each day of use and after spills.

3.8 All personnel who perform deactivation, decontamination, cleaning, and disinfection activities must be trained in appropriate procedures to protect themselves and the environment from contamination.

3.9 FDA Insanitary conditions include visible microbial and nonmicrobial contamination, glass particles, vermin, hair, and rust. Report these conditions to the PIC and remedy immediately.

3.10 See Attachment 1 for Deactivating, Decontaminating, Cleaning and Disinfecting Agents in Use.

1.0 Purpose

1.1 The purpose of this procedure is to establish requirements for the sterile non-hazardous compounding area at Boudreaux's New Drug Store to ensure quality of compounded preparations and safety of personnel.

2.0 Definitions

2.1 HD Hazardous Drug

2.2 Ante-room An ISO Class 8 or better transition room between the buffer room(s) and nonsterile compounding area. Ante-room leading into an HD buffer room must be ISO Class 7 or better.

2.3 Buffer room An ISO Class 7 or better room containing the Primary Engineering Control.

2.4 Primary Engineering Control (PEC) Laminar Airflow Workbench (LAFW) or Compounding Aseptic Isolator (CAI) which provides an ISO Class 5 environment for sterile compounding.

2.5 CFU Colony forming unit

2.6 ACPHs Air changes per hour.

3.0 Procedure

3.1 This procedure applies to all personnel involved with sterile compounding activities.

3.2 Boudreaux's New Drug Store must perform sterile non-HD compounding in accordance with USP <797> (and other applicable USP chapters) and standards of practice adopted by the Louisiana Board of Pharmacy and by national practices and standards adopted by government and non-government standard setting organizations.

3.3 Compounding and storage of HDs must not occur in sterile non-HD compounding areas except as permitted by assessment of risk.

3.4 Only authorized personnel must be permitted to enter ISO-classified areas. No food or beverages may be consumed and no lip balm or cosmetics may be applied in these areas. Personal items must not be brought into these areas. .

3.4.1 Sterile compounding personnel must be garbed according to task. Garb must include scrubs (preferred), gown, shoe covers, hair covering, beard cover (if applicable), mask, and eye protection (as needed). Sterile gloves must be worn in ISO-classified areas.

3.4.2 Before entering the ante-room, remove

3.4.2.1 Bandanas, coats, hats, jackets, scarves, sweaters, vests, etc. Religious headwear should be cleaned daily.

3.4.2.2 Cosmetics.

3.4.2.3 Hand, wrist and other visible jewelry.

3.4.2.4 Nail polish and artificial nails. Natural nails should be kept neat and trimmed.

3.4.3 Don garb from dirtiest to cleanest starting by donning shoe covers as you cross the line of demarcation onto the clean side then don hair cover, beard cover (if applicable), mask and eye protection (as needed) before hand washing.

3.4.5 Hand washing must be performed by first cleaning fingernails under running water using a disposable nail pic then vigorously washing all surfaces of hands and forearms for at least 30 seconds with soap (either nonantimicrobial or antimicrobial) followed by thorough rinsing and drying.

3.4.6 After hand washing, don a nonshedding knee length gown closed at the wrists and neck then enter the (positive pressure) non-HD buffer room. Prior to donning sterile gloves, antiseptic hand cleansing must be performed using waterless alcohol-based surgical hand scrub with persistent activity.

3.4.7 After donning sterile gloves, sterile 70% isopropyl alcohol must be used to disinfect gloves. Gloves must be disinfected periodically throughout the compounding process and whenever nonsterile surfaces are touched. When performing cleaning or pre-sterilization activities before compounding in the ISO-5 PEC, don a new pair of sterile gloves in the buffer room before compounding in the ISO-5 PEC.

3.4.8 When compounding is complete, gown may be reused during the

work shift if not visibly soiled but other disposable garb must be removed and discarded. Gown must remain in the ante-room.

3.5 Sterile non-HD compounding must be performed in a PEC situated in an ISO Class 7 or better buffer room with at least 30 ACPH and a minimum pressure of 0.02 inches of water. PEC must be turned on a minimum of thirty minutes prior to compounding. Document pressure each day of use on Sterile Compounding Area Cleaning and Environmental Monitoring Log (Attachment 1) or equivalent log.

3.5.1 Pre-sterilization procedures such as weighing and mixing of powder APIs must be completed in a powder containment hood located in no worse than an ISO Class 8 environment.

3.5.2 ISO-classified areas must be certified under dynamic conditions by an authorized service provider before first use, when adding or removing fixtures or equipment, after maintenance, and at least every six months.

3.5.2.1 Viable and nonviable particle sampling

3.5.2.1.1 Viable particle sampling using impaction method must include testing for bacteria and fungus using two media (TSA and MEA or other suitable fungal medium). Document lot numbers and expiration dates of media. Collect 400-1000 liters of air per sample (1000 liters preferred, especially in PEC). Report results in cfu per cubic liter. Report control sample for each medium. Document time of day sampling was performed. Results must not exceed cfu > 1 ISO Class 5, cfu > 10 ISO Class 7, cfu> 100 ISO Class 8 or be identified as highly pathogenic (regardless of number of cfu). All growth must be identified to at least the genus level.

3.5.2.1.2 Any cfu count that exceeds its respective action level should prompt a re-evaluation of the adequacy of personnel work practices, cleaning procedures, operational procedures, and air filtration efficiency within the aseptic compounding location. An investigation into the source of the contamination must be conducted. Sources could include HVAC systems, damaged HEPA filters, and changes in personnel garbing or work practices. The source of the problem must be eliminated, the affected area cleaned, and resampling performed.

3.5.2.2 Filter integrity

3.5.2.2.1 Filter integrity testing must be performed on HEPA filters located in ceiling and PEC every six months.

3.5.2.3 Air exchanges

3.5.2.3.1 ACPH must be no less than 30.

3.5.2.4 Air pressure

3.5.2.4.1 Pressure must be in the range of 0.02 to 0.05 inches of water in positive pressure areas and in the range of – 0.01 to -0.03 inches of water in negative pressure areas.

3.5.2.5 Smoke testing

3.5.2.5.1 Perform smoke testing on rooms initially and after maintenance or moving equipment.

3.5.2.5.2 Perform and record smoke testing under most strenuous dynamic conditions on PEC every certification cycle.

3.5.2.6 Issues with clean room certification must be investigated and documented per SOP 6.20 Quality-Related Events.

3.6 Temperature should be maintained at 20°C (68°F) or cooler and humidity should be maintained under 60%. Document temperature and humidity of sterile compounding area on Cleaning and Calibration Log (SOP 1.30 Attachment 1B) or equivalent log. See SOP 1.30 Nonsterile Compounding Area for excursion allowances.

3.7 ISO-classified areas must be clean and organized to prevent mix-ups or cross-contamination. Areas must be examined for signs of rust and if found, removed immediately. Cleaning should be performed by using germicidal detergent or one-step cleaner-disinfectant using a low lint wipe. An appropriate disinfectant must be used allowing adequate contact time. See SOP 1.25 Cleaning Procedures for current cleaning agents in use.

3.7.1 **Primary engineering control** Clean and disinfect from cleanest to dirtiest (i.e. top to bottom and back to front) each day of use at the beginning of each work shift, before each batch preparation, every 30 minutes during continuous

compounding, when spills occur and when surface contamination is known or suspected. Document initial cleaning and disinfection on Sterile Compounding Area Cleaning and Environmental Monitoring Log (Attachment 1) or equivalent log. Document subsequent cleaning and disinfection on compounding record.

3.7.1.1 Sporicide must be used at least monthly.

3.7.1.2 Excess equipment or supplies must not be kept in PEC.

3.7.2 **Non-HD Buffer Rooms and Ante-room** Cleaning and disinfection must not occur at the same time as compounding.

3.7.2.1 **Work Surfaces** – Daily cleaning and disinfection.

3.7.2.2 **Sink** – Daily cleaning and disinfection

3.7.2.3 **Floors** – Daily Non-HD buffer rooms first from far wall to door followed by ante-room from far wall to door using germicidal detergent or one-step cleaner-disinfectant.

3.7.2.4 **Trash** must be removed daily and trash containers cleaned and disinfected (if present).

3.7.2.5 **Ceiling – Monthly** cleaning and disinfection using sporicidal agent. Non-HD buffer rooms first from far wall to door followed by ante-room from far wall to door. Ceiling tiles must be sealed.

3.7.2.6 **Walls – Monthly** cleaning and disinfection using sporicidal agent. Non-HD buffer rooms first from far wall to door followed by ante-room from far wall to door.

3.7.2.7 **Storage areas and carts – Monthly** cleaning and disinfection using sporicidal agent.

3.7.2.7 Document cleaning and disinfection on Sterile Compounding Area Cleaning and Environmental Monitoring Log (Attachment 1 and 1C) or equivalent log.

3.8 **Equipment and supplies** Remove supplies from shipping containers before entering ante-room. Stage equipment and supplies by wiping with sterile 70% isopropyl alcohol using a low lint wipe before entering ante-room, buffer room, and ISO-

Class 5 PEC. Only supplies needed for compounding must enter the buffer room. Cardboard must not enter the buffer room and paper should be kept to a minimum. Sterile syringes and similar items packaged in paper may be opened at the edge of the PEC rather than being wiped with disinfectant.

3.9 **Environmental monitoring** using surface testing must be performed to verify cleaning and disinfection processes. Obtain media (TSA with Lecithin and polysorbate 80), document lot number and expiration date. Aseptically remove cover and touch agar to surface then replace cover. Surface samples must be taken from PECs, buffer room, ante-room, and pass-throughs upon completion of sterile compounding and prior to cleaning. Minimum initial requirements are weekly for three weeks then if below action level may perform monthly. Positive and negative controls must be performed. Certificate of analysis should be kept on file for two years.

3.9.1 Incubate TSA with Lecithin and polysorbate 80 at 30°-35°C for 48 to 72 hours. Document results on Sterile Compounding Area Cleaning and Environmental Monitoring Log (Attachment 1A) or equivalent log. Results must not exceed cfu > 3 Gloved Fingertips and ISO Class 5, cfu > 5 ISO Class 7, cfu> 100 ISO Class 8. All growth that exceeds these limits must be identified to at least the genus level.

3.9.2 If cfus exceed limits, a thorough cleaning and/or review of aseptic technique and manipulative skills and/or appropriate review of disinfecting of nonsterile components when introducing them into the clean room should be performed and documented according to SOP 6.20 Quality-Related Events. To verify any improvements or changes to procedures, surface testing is to be performed every week for three weeks then monthly.

3.10 **Aseptic technique** must be used at all times when working in the PEC. Use slow purposeful movements. Avoid coughing or sneezing over the work area. Minimize talking. Avoid leaning over the work area and resting hands on the work area. Direct Compounding Area (DCA) begins four inches above surface. Ensure critical sites receive first air from HEPA filter. Do not allow hands, equipment or supplies to come between (shadow) critical sites and first air. Do not allow critical sites to touch hands or

any nonsterile surface. Critical sites include but are not limited to needles; syringe tips, inner shafts and barrels; rubber stoppers on vials and IV bags; and open tops of vials and beakers. Disinfect sterile gloves with sterile 70% isopropyl alcohol every time they leave the PEC before re-entering PEC.

RE: Response to FDA-483

Dear FDA Investigator:

This letter is in response to the FDA-483 observations for Packaging Coordinators, LLC conducted of our facility located at 3001 Red Lion Road, Philadelphia, PA 19114.

Please find below Packaging Coordinators response to your observations.

Observation 1:

Your firm failed to establish adequate written procedures for production and process controls designed to assure that the drug products have the identity, strength, purity, and quality that they are purported or represented to possess.

Specifically,

a. Your environmental monitoring plan as defined in SOP, SOP-00790, "Environmental Monitoring for Non-Sterile Packaging", Rev 18, effective date 29 September 2021, is insufficient for aflibercept PFS assembly and blistering line E2 as no surface environmental monitoring is conducted for the product contact/indirect product contact surfaces such as the syringe assembly area and associated surfaces. According to SOP-00790, "Environmental Monitoring for Non-Sterile Packaging", Rev 18, section 7.4.2.2 states that sample sites for surface (floor and walls) viable shall be based on the following: "Sites and/or processes where microbial contamination is deemed likely to have an adverse effect on product quality, sites that represent the most difficult areas to clean, and activities in the area that contribute to the spread of contamination."
b. Complaints received by your client included moisture observed in the syringe blister package. Post aflibercept (Eylea) PFS VHP, there is no procedural requirement in confirmation of load dryness and absence of moisture in the syringe blister packaging or any other defect that may pose a risk to product quality.
c. The sterilization of the aflibercept (Eylea) PFS within the blister pack is conducted by VHP that includes Chamber Leak Test at 500 mbar, Pre-condition Parameter at 500 mbar, Exposure Parameter at 500 mbar, Aeration Parameter 1 at 800 mbar and Aeration Parameter 2 at 500 mbar. The aflibercept shipping validation supports a pressure change at 572 mbar in support plunger stopper movement, assuring the

sterile barrier is maintained. The worst-case pressure level applied at 500 mbar during the syringe VHP process has not been validated to assure the sterile barrier is maintained.

d. Document titled, Product Assessment - Eylea (aflibercept) - Product/PPE/Room/Health and Risk Assessment was performed by your internal PCI Safety, with standard gowning to be applied during manufacture that does not include a face mask. The assessment is deficient as it failed to account for the manufacturing bioburden control strategy, with the donning of a mask providing enhanced bioburden control.
e. Document RA-1331 (risk assessment), "Secondary Manufacturing of EYLEA Pre-Filled Syringe in Non-Classified Spaces at PCI" indicates that production rooms are positive pressure to the hallways per PCI SOP-00793; however, there is no calibrated magnehelic or BMS system to provide assurance of adequate continuous differential pressure control for the production rooms.
f. The requalification of the aflibercept (Eylea) VHP sterilization process includes 10,336 blister packs sealed and without pre-filled syringes, with 45 blister packs containing an aflibercept PFS spaced throughout the load for sterility testing and 240 blister packs total containing an aflibercept PFS for 120 (CI units) and 120 (BI units). The use of 10,336 empty blister packs is not representative of the commercial maximum load.

Background:

The validation studies performed at the PCI Philadelphia facility demonstrated that the VHP sterilization process consistently achieves at least 10^{-6} sterility assurance level (SAL). In addition, the process has been successfully qualified to maintain package integrity and confirmed on each lot through container closure integrity testing.

The PCI Environmental Monitoring program consists of performing quarterly sampling of each packaging room involving testing viable surface monitoring (floors and walls) along with active air monitoring for viable and non-viable particulate. Below is a table outlining the average environmental monitoring results for all packaging rooms for the calendar year of 2022.

Sample Locations	Average
Floor (TYMC)	< 1 cfu/25 cm^2
Floor (TAMC)	< 2 cfu/25 cm^2
Wall (TYMC)	< 1 cfu/25 cm^2
Wall (TAMC)	< 1 cfu/25 cm^2
Air Viable (TYMC)	< 3 cfu/m^3
Air Viable (TAMC)	< 5 cfu/ m^3
Non-Viable	4552 Particles/ft^3

Based on the capability of the sterilization process and the historical data from

Environmental monitoring testing, PCI is confident that the validated VHP sterilization process transferred from Regeneron ensures the sterility of the packaged product.

To address the Agency's concerns raised in the 483, in collaboration with Regeneron, PCI has developed the action plan outlined below.

Response:

a. As an enhancement to the Environmental Monitoring program, the procedure SOP-00790 EM Requirements for Non-Sterile Packaging will be updated to include a risk-based sampling approach that will integrate additional sampling points on and around the packaging equipment itself based on risk of contamination to product. The production lines involved in the packaging process prior to sterilization (assembly and blistering) will be assessed and the increased sampling plan implemented. This information will provide additional ongoing data related to the overall bioburden as it relates to product movement through the process.

   Action Due Date: 17-April-2023

b. PCI is committing to perform a risk assessment for possible defects that could occur related to the blister units and the enclosed pre-filled syringes as they are sterilized through the VHP process.

   Along with the risk assessment that will characterize the possible defects, PCI will perform a study on a minimum of three (3) lots of Eylea® that have been processed through the VHP Sterilization process. This study will involve visual inspection of the blister units themselves for the presence of visible drops of moisture within the cavities. This information will be characterized and assessed within the Risk Assessment.

   Action Due Date: 15-July-2023

c. A study will be conducted on packaged units related to plunger rod movement at the worst-case pressure experienced through a VHP cycle (approximately 500 mbar). During the inspection, Regeneron provided a document outlining the commitment to execute the study.

   Action Due Date: 30-June-2023

d. The observation outlines a reference to the Product Assessment for Eylea. This type of assessment is conducted to determine the appropriateness for a product to be packaged within a facility as well as the associated Personal Protective Equipment required to protect an employee from the material. The gowning requirements for protecting product would be developed through our Contamination/Cross-Contamination Risk Assessment RA-2021-011 as well product specific FMEAs.

As an overarching action, PCI is committed to performing an additional study to characterize the bioburden prior to sterilization. This study will be performed in collaboration with Regeneron. It will establish and evaluate the impact of pre-sterilization bioburden and further demonstrate the capability of the validated VHP sterilization process.

Characterization of bioburden load on the blister-packaged syringes (prior to sterilization) will be performed under protocol, and will include the following:

- Testing will be performed on three lots of blister-packaged syringes (prior to sterilization), with a statistical sampling based on total lot size. This will be performed once per quarter for a period of 1 year to capture seasonal variability.
- Based on the results, the protocol may be extended to include additional periodic testing.
- The determination of population will be based on ISO 11737-1 and the bioburden testing will be performed according to USP<61>.

The protocol will be comprehensive in outlining the steps involving the sampling and testing to be conducted spanning a period of twelve (12) months. The protocol will be in approved for execution by 17-April-2023. The study results will be evaluated and additional controls for bioburden will be implemented, as necessary.

The study will provide the background information in order to appropriately update the PCI Contamination/Cross-Contamination Risk Assessment RA-2021-011 which will include the output of any updates to gowning requirements based on the data obtained.

Action Due Date: 15-June-2024

e. PCI balances each packaging room to ensure positive pressurization on an annual basis. A risk-based approach will be taken regarding the process steps in which the continuous differential pressure monitoring is implemented across all production rooms at the site. The assessment will determine the rooms where continuous monitoring probes will be implemented and the associated procedure SOP-00793 "Air Handling System" will be updated to reflect the changes. The overall CAPA action includes the risk assessment, procedural updates, and implementation timeframe for the continuous monitoring program for room differential pressure.

Action Due Date: 15-November-2023

f. A review of the protocol and batch documentation associated with this observation was performed. The re-qualification was performed using blisters containing pre-filled syringes. This information was not clearly communicated during the inspection.

Evidence to this effect is noted below with pictures of the "dunnage" material utilized in the study which consists of the pre-filled syringes enclosed in blister units.

PCI has an established part number PCR-VHP-DUNNAGE within our qualified ERP system. A photo of the ERP system generated label is noted below indicating the part number PCR-VHP-DUNNAGE along with the corresponding materials consisting of a blister unit with an assembled syringe. Therefore, the study was performed using the same loaded cycles as a routine commercial sterilization cycle. The requirements for executing the sterilizer re-qualifications are outlined in the individual re-qualification protocols.

Observation 1 will be addressed under CAPA-2023-0063.

Observation 2:

Equipment used in the manufacture, processing, packing or holding of drug products is not of appropriate design to facilitate operations for its intended use.

Specifically,

Your Building 1 air compression system supporting aflibercept (Eylea) sterilization by VHP system (VHP 2) is not of oil free design, with the air distribution system to the VHP 2 sterilizer including black iron piping. Though the air compression system includes hydrocarbon removal and distribution system in-line point of use hydrocarbon and particulate filtration, the system design is inconsistent with current GMP expectations.

Response:

The distribution from the air compressor includes a series of three filters along with an additional point of use filter prior to delivery of the air to the VHP sterilizer. The filters are noted below in sequence:

(1) Particulate Filter:	Particulate Removal 1 micron
(2) Coalescing Filter:	Particulate Removal 0.01 micron; ISO 8573-1 Class 1
(3) Vapor Filter:	Particulate Removal 0.01 micron, ISO 8573-1 Class 1

The series of three filters are on a Preventive Maintenance cycle in which the vapor filter is replaced on a six (6) month cycle. The Particulate and Coalescing Filters are replaced on a twelve (12) month cycle.

In addition to the series of three filters to remove particulate, water, and oil vapor, there is an additional filter installed downstream immediately prior to distribution into the VHP unit itself. This filter is a Pharmaceutical Grade Sterilizer Filter with an absolute removal rating of 0.2 microns in liquids and 0.003 microns in gases. This filter is replaced on a twelve (12) month frequency.

The filtration system in place provides the appropriate air quality to the VHP sterilizer. The compressed air testing conducted post filtration is within the acceptance criteria. PCI is committed to enhancing our process through the CAPA actions listed below.

PCI has committed to source, install, and qualify a new oil-free compressed air system for the VHP 2 sterilizer. The installation will involve installing new piping constructed of copper/stainless steel.

Action Due Date: 04-February-2024

As an interim measure, PCI is increasing both the frequency of testing on the compressed air after the filtration system as well as the Preventive Maintenance program. The testing of the compressed air system (moisture, hydrocarbons, particulate, air viable) will be conducted on a bi-weekly basis downstream from the series of three filters. The Preventive Maintenance program will be enhanced related to the filtration system to include an inspection of the filter gauges on the same bi-weekly basis.

Action Due Date: 10-March-2023

Observation 2 will be addressed under CAPA-2023-0064.

Observation 3:

The responsibilities and procedures applicable to the quality control unit are not fully followed.

Specifically, your firm failed to follow the following procedures:

a. According to your standard operational procedure entitled "QA Batch Record Review and Product Release,". SOP-00765, rev 45, Section 2.5, the Quality Associate is responsible "to review, verify presence of all batch record pages, verify correct batch record pagination and accuracy, coordinate error corrections with the Quality Associate or designee, assure Deviation Reports are complete and closed, and approve the batch record for PCI release." The following are examples of drug products that were released by your Quality Unit for commercial distribution with inaccurate lot numbers and/or expiration dating.

   • DEV-2022-0244, Alkermes Vivitrol 380mg (naltrexone for extended-release injectable suspension) Kit, lot# 190592C, expiration 04/30/2024 released with an incorrect expiry of 05/31/2024
   • DEV-2022-0244, Alkermes Vivitrol 380mg (naltrexone for extended-release injectable suspension) Kit, lot# 190604C, expiration 04/30/2024 released with an incorrect expiry of 05/31/2024 ·
   • EVENT-2022-5953, Flexion Therapeutics Zilretta 32mg (triamcinolone acetonide extended-release injectable suspension) Finished Kits, lot# 111003, expiration 11/2023 released with an incorrect lot number of 22-9006
   • EVENT-2022-6666, Amgen Repatha AMG 145) HMP, 120mg/mL, 3.5mL (evolocumab), lot# 1153429, expiration 12/3112024 released with an incorrect expiry of 10/31/2024

b. Your procedure, SOP-00240 "Corrective Action and Preventative Action (CAPA)", revision 01, effective 11/05/2021, section 5.1.8 states that "effectiveness checks should be considered as part of the CAPA plan and the scope and method of confirmed effectiveness should be detailed as part of the plan." CAPA 433782 which was opened on 12/14/2021 to document the correction for installing the proposed changes indicator for setting the crimper clearance and pressure settings for E5 Doboy. This CAPA was closed on 05/20/2022. Your firm applied a new effectiveness check review board to address current and future CAPAs however did not address the CAPA(s) that were opened within the effective date of your procedure.

This is a repeat observation from the previous inspection conducted 10/17/2022-10/21/2022.

Response:

a. In reviewing the list of deviations and the associated lots outlined in observation 3a, none of these products had shipped from the facility. Upon discovery of the discrepancy, PCI initiated deviations and the product impact was assessed and Corrective Actions implemented accordingly for each situation.
   • DEV-2022-0244 was related to the expiration dating assigned to two lots of

product. The process involves kitting different components into a carton. The expiration dates on the components dictate the overall expiration dating on the kit itself. A change was made to the lot of a component due to availability in which an update to the resulting expiration date was not performed. The units will be re-processed with the correct expiration date.

- EVENT-2022-5953 involved a kitted product in which the lot number on the vial is different than the lot number on the carton. The process deviated as the lot number that was assigned for the vial was the same as the carton. This was identified during the packaging operations and resolved prior to release of the lot.
- EVENT-2022-6666 related to a product in which the expiration dating is assigned based on the date of the packaging activity as supplied by the customer. There was a delay in the timeframe of the packaging activity start date from October 2022 to December 2022 at which point the new packaging date was assigned. The documentation associated with this lot was not updated so it resulted in the lot being packaged with an expiration date that was two months shorter than the intended dating. It was determined the material could be released without further action needed as the discrepancy in dates resulted in a shorter timeframe.

PCI has addressed each of the situations noted above and applied corrective and preventive actions accordingly. In order to address the specific observation, PCI is holistically implementing an additional verification step during the batch record review process as outlined in SOP-00765 "QA Batch Record Review and Product Release". This additional step will confirm the expiration date and lot information is correct as intended and there were no changes from the source information that resulted in a change to the variable data.

Action Due Date: 30-March-2023

b. PCI has executed the action plan as outlined in our response letter dated November 3, 2022. CAPA-2022-0273 Effectiveness was completed as per the due date in the PCI eQMS system. The other three CAPAs outlined (PR433753, PR433782, PR433754) were generated out of the prior eQMS system in which CAPA Effectiveness plans were not linked to each CAPA nor was it a procedural requirement in utilizing the system. In order to fully remediate the concerns raised in the observation, PCI is reviewing all CAPA actions from the PCI legacy system for CAPA Effectiveness that were closed after the date of August 2022. In August 2022, PCI implemented a new eQMS system in which the Effectiveness Check is integrated to the CAPA plan. The due date below outlines the date in which this retrospective CAPA Effectiveness check will be completed.

Action Due Date: 30-March-2023

Observation 3 will be addressed under CAPA-2023-0065.

Observation 4:

Buildings and equipment used in the manufacture, processing, packing or holding of drug products are not maintained in a clean and sanitary condition.

Specifically,

a. Deteriorated insulation and a deteriorated gasket was observed at a finger flange assembly system for syringe labeling and plunger rod insertion System 1712, Area E3. Excess grease was observed on the plunger rod shafts.
b. The air compression system located in Building #1 and used for oil free compressed air to the VHP 2 sterilizer was observed in an dirty state, including debris observed at an air compressor intake.
c. Walk-in 2 - 8°C refrigerator 150845 was observed with waste material such. as dirt and debris on the floor and behind and between pallets. Refrigerator 150845 is used to store finished drug products such as aflibercept PFS and materials needing temperature control.
d. An automated door leading to E2, syringe blistering was observed not functioning.

Response:

PCI provided corrective actions related to each observation during the inspection to outline the replacement of the insulation and gasket on the Equipment Asset 1712, cleaning of grease from the equipment shafts, cleaning of the utility area around the air compression system, cleaning of extraneous material from the Refrigerators, and repair to the E2 door. The actions below outline the preventive measures that are being implemented.

a. The Preventive Maintenance program for the Equipment Asset 1712 along with any additional similar units within the facility is being updated to include a quarterly inspection of the integrity of the insulation and gasket. The PM for the Groninger equipment related to the observation of excessive grease is also being updated for a quarterly inspection and cleaning for excessive grease.

   Action Due Date: 17-March-2023

b. The procedure SOP-00803 "Cleaning Procedure for the Facility" is being updated to integrate the utility area for the Air Compressor and all additional GMP areas within the facility. The standard work for the cleaning requirements and documentation associated with confirming cleaning was completed will be updated to include the specific daily, weekly, and monthly requirements including the area of cleaning. The program will be enhanced by having a physical review documented at a periodic interval.

   Action Due Date: 25-March-2023

c. The preventive measures related to the refrigerator will be addressed through the same actions outlined above in response to observation 4b.

d. A Preventive Maintenance program for the production doors will be implemented as a monthly action item to service the doors and prevent breakdowns.

   Action Due Date: 25-March-2023

   An additional measure will be added to the preventive action plans related to the doors. An audible alarm will be installed on the doors that will be triggered if the door is open over a defined period of time to alert area personnel that the door is not closed.

   Action Due Date: 23-October-2023

Observation 4 will be addressed under CAPA-2023-0066.

Please feel free to reach out to me regarding any questions or comments.

Sincerely,

Cathy Cabrera
Director of Quality Systems

SUMMARY

This preannounced abbreviated surveillance inspection and pre-approval inspection of a contract labeler, packager and repackager of human biological and pharmaceutical drug was initiated according to eNSpect Assignment # 231968 and as a part of PHARM1 FY23 work plan. This inspection was conducted in accordance with CPGM 7356.002- Drug Manufacturing Inspections, CPGM 7356.002M - Inspection of Licensed Therapeutic Drug Products; and CP 7346.832 - Pre-approval Inspections/Investigations in support of BLA 125387 S78 for (aflibercept injection), EYLEA, applicant Regeneron Pharmaceuticals, Inc. This inspection is reported under PACs S6002 and 46832. Profile codes SVT, SVS, LIQ, CSG, SUP SVL, and OIN were covered.

The previous inspection conducted on 10/17/2022 – 10/21/2022 was classified Voluntary Action Indicated and the firm was issued a Form FDA 483, Inspectional Observations, for: 1) Buildings used in manufacture, processing, packing or holding of drug product are not maintained in a clean and sanitary condition and 2) The responsibilities and procedures applicable to the quality unit are not fully followed. During the current inspection, the corrections from the previous inspection were evaluated without comment with the exception of Observation 2 which was a repeat observation.

The current inspection revealed that the firm continues to operate as a contract labeler, packager and repackager of human biological and pharmaceutical drug products. The current inspection provided coverage of the Quality System and Packaging and Labeling System. Documents reviewed included but not limited to laboratory records, change controls and SOPs. The inspection covered the packaging process of BLA 125387 S78 for (aflibercept injection), EYLEA a review of complaints, environmental monitoring, Quality Agreements, batch records, Annual Product Reviews, deviations, change controls, packaging and labeling controls, and corrective actions and preventative measures.

A Form FDA 483, Inspectional Observations, was issued at the conclusion of the inspection for:

1. Failure to establish adequate written procedures for production and process controls designed to assure that the drug products have the identity, strength, purity, and quality that they are purported or represented to possess.
2. Equipment used in the manufacture, processing, packing or holding of drug products is not of appropriate design to facilitate operations for its intended use.
3. The responsibilities and procedures applicable to the quality unit are not fully followed
4. Buildings used in the manufacture, processing, packaging or holding of drug products are not maintained in a clean and sanitary condition.

Additionally, the following discussion items were presented to the firm at the closeout meeting:

1. The H1 cartoning line was inspected during a manufacturing break, with three Eylea cartons containing product observed on the active conveying track.
2. A field complaint was received for the Eylea DP, with the DP appearance gray in color. Regeneron did not evaluate the syringes for potential contamination. PCI should also work collaboratively with Regeneron to have a clear and complete understanding for absence of microbial contamination.

No refusals were encountered, and no samples were collected. No rodent, insect, or avian activity was observed.

ADMINISTRATIVE DATA

Inspected firm	Packaging Coordinators, LLC
Location:	3001 Red Lion Road Philadelphia, PA 19114
Phone:	215-613-3001
Fax	215-613-3091
Mailing address:	3001 Red Lion Road Philadelphia, PA 19114
Email address:	jeannie.metzinger@pciservices.com
Dates of inspection:	01/09/2023 – 01/12/2023
Days in the facility:	4
Participants:	**Christina K Theodorou, Investigator** **Wayne Seifert, Investigator** **Brandy LePage, Investigator** **Ben Du, Investigator**

This inspectional report was collectively written by Investigators Theodorou (CKT), Seifert (WS), LePage (BNL) and Du (BD). "We", "Our" and "Us" refers to Investigators Theodorou, Seifert, LePage and Du collectively. "I" refers to the Investigator that is identified as writing the applicable section of the report. For the purposes of this report, Packaging Coordinators, LLC will be referred to as the "firm", or "PCI", throughout this report.

On 12/30/2022, Investigator Seifert contacted Ms. Catherine Cabrera, Director of Quality Systems and preannounced the inspection. He asked Ms. Cabrera to provide any firm requirements related to COVID-19, who replied that there were none.

On 01/09/2023, we presented our credentials and issued a Form FDA 482, Notice of Inspection (attached), to Jeannie Metzinger, Chief Compliance and Quality Officer, who advised that she was the firm's most responsible person on-site.

At the close of the inspection, we issued a Form FDA 483, Inspectional Observations (attached), to Mr. Gill Valdez, SVP, Commercial Packaging Technology and Supply Chain.

Post-inspectional FDA correspondence should be sent to the following address:
Packaging Coordinators, LLC
Jeannie L. Metzinger, Chief Compliance & Quality Officer
3001 Red Lion Road,
Philadelphia, PA 19114-1123 jeannie.metzinger@pciservices.com.

HISTORY

(This section written by Investigator Theodorou)

According to Mr. Thomas Cligget, Director of Quality Operations, the firm's history remains unchanged from the previous inspection ending on 10/21/2022. That history is provided below.

Packaging Coordinators, LLC is a privately-owned company with global commercial locations in Philadelphia, PA; Rockford, IL; Mississauga, ON; Hay-on-Wye, UK; Tredegar, UK; and Dublin, Ireland. The firm was previously inspected on 12/15/2020 through 12/18/2020. This inspection was limited in scope and focused on the review of the firm's labeling and packaging of Janssen and AstraZeneca COVID-19 vaccines. No FDA 483 was issued and the inspection was classified as NAI.

On 10/17/2022, Mark Burke, Executive Director of Quality, stated the firm planned to manufacture the AstraZeneca COVID-19 vaccine, but did not proceed with any manufacturing operations. Prior to the limited inspection in December 2020, the firm was inspected on 8/29/2017 through 9/6/2017, as part of the OPQOI FY17 workplan. No FDA 483 was issued, and the inspection was classified as NAI.

The firm operates continuously and has approximately 675 full-time employees.

Information bellow was collected during the current inspection (01/09/2023 – 01/12/2023):
The firm was inspected by the Agency ending on 10/21/2022 as a joint inspection between the Office of Biological Products Operations (OBPO) and the Office of Pharmaceutical Quality Operations (OPQO) and conducted as part of the OBPO/Team Biologics FY23 workplan under eNSpect ID# 232419. The inspection was classified as Voluntary Action Indicated. A two-item 483 was issued to firm management at the conclusion of the inspection.

The following entities are subsidiaries of PCI:

Lyophilization Services of New England
- LSNE Contract Manufacturing, Madison, WI 53719 (FEI: 3011856764)
- LSNE Contract Manufacturing, 23 Commerce Dr, Bedford, NH 03110 (FEI: 3008546445)
- LSNE Contract Manufacturing, Parque Tecnológico de León, C. Nicostrato Vela, s/n, 24009 León, Spain (FEI: 3011566408)

Penn Pharmaceutical Services (FEI: 3010385970)
Sherpa Clinical Packaging, LLC (FEI: 3012261037)
Millmount Healthcare Limited (FEI: 3020744728)
Pharmaceutical Packaging Professionals
Bellwyck Pharma Services Inc (FEI: 3007309095)

The following are PCI Pharma Services locations throughout North America, Europe and Asia
- PCI Pharma Services 4545 Assembly Dr, Rockford, IL 61109 (FEI:1421377)

- PCI Pharma Services, 6166 Nancy Ridge Dr, San Diego, CA 92121 (FEI: 3001433984)
- PCI Pharma Services Ohio, LLC 8946 Global Way, West Chester Township, OH 45069 (FEI: 3010160S07)
- PCI Pharma Services New England, LLC, 75 Fruit St, Bridgewater, MA 02324 (FEI: 3026113534)
- PCI Pharma Services Canada Inc, 977 Century Dr, Burlington, ON L7L 5J8, Canada (FEI: 3009747238)
- PCI Pharma Services Canada Inc, 1 Rimini Mews, Mississauga, ON L5N 4K1, Canada (FEI: 3007309095)
- PCI Pharma Services Wye Valley Business Pk/Brecon Rd, Hereford HR3 5PG, UK (FEI: 3001670824)
- PCI Pharma Services Tafarnaubach Industrial Estate, 23-24, Tafarnaubach, Tredegar NP22 3AA, UK (FEI:1000370240)
- PCI Services, Block 7, City North Business Campus, Stamullen, Co. Meath, Ireland (FEI: 3025114923)
- PCI Pharma Services Germany GmbH, Am Wall 5, 14979 Großbeeren, Germany (FEI: 3018809765)
- PCI Pharma Services, 3/31 Sabre Dr, Port Melbourne VIC 3207, Australia (FEI: 3010069401)

Mr. Cligget provided me with a list of PCI's Board of Directors (**Exhibit 01**)

- Matt Jennings, Chairman of the Board, Kohlberg
- Sam Frieder, Managing Partner, Kohlberg
- Gordon Woodward, Chief Investment Officer, Kohlberg
- Chris Anderson, Partner Kohlberg
- Alex Forrey, Managing Director Kohlberg
- Robert Cucuel, Operating Partner Kohlberg
- Salim Haffar, CEO PCI
- Dr. Remy Hauser, Managing Director Partners Group
- Sujit John, Managing Director Partners Group
- Camilla Macapili Languille, Head of Life Sciences Mubadala
- Varini Sharma, CEO Mubadala

INTERSTATE COMMERCE

(This section written by Investigator Theodorou)

The firm continues to receive unlabeled finished product for labeling, packaging and repackaging depending on the product and client.

Mr. Cligget provided me a copy of a Bill of Lading for Cortef (hydrocortisone) 10mg 100ct lots CCFTK2, CCFTK2 and CCFTK (**Exhibit 02**).

According to Mr. Cligget the firm's top suppliers are:

- Essentra (AKA MM Group)
  - Headquartered in Kidlington, Oxford United Kingdom
- CCL Label
  - Headquartered in Ontario, Canada
- Rondo-Pak
  - Located in Camden, NJ

The firm's top customers are:

- Amgen Inc
  - Headquartered in Thousand Oaks, CA
- Regeneron Pharmaceuticals
  - Headquartered in Tarrytown, NY
- Novartis Pharmaceutical Company
  - Headquartered in East Hanover, NJ

JURISDICTION

(This section written by Investigator Theodorou)

Exhibit 03 is the firm's product list. This list shows all of the products packaged by the firm. The firm continues as a packager, repackager and labeler for human pharmaceutical products.

According to Mr. Cligget, the firm no longer provides any type of packaging service for animal drug products. The last batch for an animal drug product was Symparica 80mg, 6ct blister, lot 500890A packaged on 04/29/2021 with an expiration date of 07/2023.

INDIVIDUAL RESPONSIBILITY AND PERSONS INTERVIEWED

(This section written by Investigator Theodorou)

Exhibit 04 consists of the firm's organizational chart.

Exhibit 09 consists of a list of individuals we spoke to throughout the inspection.

The following employees participated in the inspection and provided information or records:

Jeannie L. Metzinger, Chief Compliance & Quality Officer, is the most responsible person and provides oversight for the quality units at all the firm's locations. Mrs. Metzinger has been in her current position for approximately 10 years. Mrs. Metzinger reports to Salim Haffer, Chief Executive Officer. Mrs. Metzinger has ten direct reports. Mrs. Metzinger was only present on 01/09/2023.

Mark J. Burke, Executive Director of Quality, oversees the firm's quality unit at this site. Mr. Burke has been with the firm for approximately eight years and in his current position for approximately two and half years. Mr. Burke reports to Jeannie Metzinger, Chief Compliance & Quality Officer. He has four direct reports. Mr. Burke accompanied us on the inspection, provided information contained in this report, and was present at the close-out meeting.

Catherine NMI Cabrera, Director of Quality Systems, oversees the firm's quality unit at this site. Mrs. Cabrera has been with the firm for approximately 20 years and in her current position for approximately two and half years. Mrs. Cabrera reports to Mark Burke, Executive Director of Quality. She has three direct reports. Mrs. Cabrera served as the host for this inspection. Mrs. Cabrera accompanied us on the inspection, provided information contained in this report, and was present at the close-out meeting.

Additionally, the following individuals accompanied us on the inspection and provided information contained in this report:
Jennifer Carrion, Sr. Quality Operations Manager
Tammi Leith, Regulatory Affairs Specialist
Thomas Cliggett, Director of Quality Operations
Manoj Subramani, Warehouse Lead
Taras Scott, Warehouser
Bob Kane, Principal Engineer
Jose Rodriquez, Operations Supervisor
Dennis Gerlach, Director of Validation
James Azhambault, Packer
Khareem Preston, Packer
Marion Bennett, Director of Operations
James Reingruber, Validations Specialist
Alex Tenerelli, Process Engineer
Siju John, Validation Manager
Eileen Echevarria, VHP Line Leader
Alex Weaver, Senior Director of Engineering
Pat Cligget, Quality Account Manager

The following individuals were Subject Matter Experts from Regeneron that contributed to questions during this inspection:
Dwight Ricci, Regeneron SME
Theresa Bode, Regeneron SME
Andrew Cook, Regeneron SME
Dustin Blodgett, Regeneron SME
Matthew Rainka, Regeneron SME

FIRM'S TRAINING PROGRAM

(This section written by Investigator Theodarou)

I reviewed the firm's procedure, SOP-00777 *Training*, rev 38, effective 02/14/2022 which establishes the system by which employees are trained and how training documentation is tracked, approved and filed. The firm implements a training system that uses both self-training using ComplianceWire, On-the-Job Training (OJT) and group or Instructor Led Training (ILT).

CGMP training is offered to new hires who must pass an examination with a score of 80% to be allowed to work. If not, they can't begin any work until they have retaken and achieved an acceptable score of 80%. Annual or Refresher CGMP training is offered annually at the minimum for all employees. Periodic CGMP training is conducted on topics selected by the Senior Management Team. Selection of the topics is contingent on new FDA guidances or updates, repeated events, new processes, any significant process change, etc. I reviewed this document with no objections.

MANUFACTURING/DESIGN OPERATIONS

Exhibit 05 consists of the firm's Site Master File. **Page 37-38** contains the facility's floor plans. There are forty-six packaging lines at the firm, with area E3 new for the BLA 125387 S78 (aflibercept injection), EYLEA. The firm does not package potent or toxic products and has ceased operations for animal drug products.

Walkthrough

(This section was written by Investigator Seifert)

On 09 January 2023, we (WS, BD, CT, and BL) proceeded on a walkthrough of the facility starting in shipping and receiving. Deliveries proceed from guard station, where transport is considered a delivery or pickup. SOP 010511 support receipt of materials, with materials received on heat treated pallets (no wood allowed in production). A purchase order is compared to the shipment, packing slip, and number of units are verified. Goods can be rejected based on damage, infestation, etc. J.D. Edwards is the validated materials management system, with electronic quarantine. Materials for manufacture are stored in the validated ambient GMP warehouse, 59 to 86°F temperature control by an automated pallet storage and retrieval system (ASRS). Materials for manufacturing are sampled, with the amount sample deducted from available inventory. Eylea is sampled under 2 - 8°C storage conditions. A caged reject area was observed with badge access.

We proceeded to 2 - 8°C walk-in unit 9 (150845). Observed was Regeneron Lot 8231500283, one pallet. The quantity in J.D. Edwards and the storage location of the specified lot was accurate. The walk-in refrigerator was observed in an unclean state, see **Exhibit 06.**

This resulted in a 483 Observation and is additionally discussed under Objectionable Conditions and Management Response 4.c.

Outside the walk-in unit, equipment identified as high claim was being stored, placed in a location identified as B15 - Trash, see **Exhibit 07**. During the inspection, the firm provided corrective action that included storage of the equipment in an appropriate area, see **Exhibit 08.**

We proceeded to area G3, existing labeling area that includes plunger rod insertion to the Eylea syringe. The new area for said function is E3, with syringe finger flange assembly to the syringe and blistering being conducted in area E2. Within the E3 area, a Groninger syringe tub conveying system was observed, unit 5349, followed by labeling and plunger rod insertion system, asset 1712. A finger flange unit was observed with deteriorated insulation and gasket, see **Exhibit 10**. The plunger rod shafts were observed with excess grease, see **Exhibit 11.**

This resulted in a 483 Observation and is additionally discussed under Objectionable Conditions and Management Response 4.a.

We proceeded to Eylea finger flange assembly and blistering, with the area assess door observed non-functional, see **Exhibit 12**. The finger flange to the syringe is semi-automated, placement by hand with a machine locking the finger flange into place. Molded trays are formed, with syringe placement followed by blistering by HAPA KLO NFR Packaging Machine. A challenge test is conducted every four hours for the packaging system that includes automated detection of missing flange, empty tray, printed lot and expiration, incorrect lot and expiration, etc. The area includes ceiling MERV 13 filters. Blistered syringes are stored at 2 - 8°C pending further manufacturing.

This resulted in a 483 Observation and is additionally discussed under Objectionable Conditions and Management Response 4.b.

We proceeded to VHP unit 1 and 2, Steris units. The area includes HEPA filter filtration. Recirculated air is at 90%, fresh 10%.

We proceeded to area H1, final packaging, cartoning that includes Eylea product, insert into a carton and corrugated shipper. The process included carton formation with a single Eylea blister placed into the carton with insert. A check weight system verifies carton contents, with carton serialization 100% check by camera system. 24 Eyleas cartons are packaged to one shipper. A system challenge is conducted every four hours as prior for missing insert, etc. The line was inspected at an end of a break, with three Eylea carton containing product observed on the active conveying track, see **Exhibit 13**. I (WS) questioned why the units were not positioned into an overpack prior to break, with the firm rejecting, discarding the units.

Reference Discussion Item 1 in General Discussion with Management.

On 10 January, we (WS and BD) proceeded VHP 1, with 8 carriers to a load, 1,292 syringes per carrier. Post VHP there is no visual inspection of the load that may include wetness, moisture in the blister

or other defects that could have an impact on product quality. Visual inspection in H1, cartoning only pertains labeling requirements. In Eylea blistering operations prior to VHP, there is 200% visual inspection with AQL.

This resulted in a 483 Observation and is additionally discussed under Objectionable Conditions and Management Response 1.b.

On 11 January 2022, we (WS and BD) proceeded to the air compressors, 1x Atlas Copco and 1x Hitachi, both oil free in design with redundant dryers, 2x receivers, coarse and fine filter, with copper to stainless distribution system for VHP1. The observed dewpoint was -107.7°C.

We proceed to Plant 1 for 2x air compressors used for VHP2, not oil free in design. Post air compression, filtration occurs followed by 3x driers to a receiving tank. Post receiving tank, the air is distributed by black iron piping (100s feet of piping), with copper to stainless at the VHP2 system point of use. Hydrocarbon filters are located within the compressor and at the newly installed filtration unit near the VHP 2 sterilizer. The compressors are supplied with food grade oil in air compression. The system was originally for instrument air and through filtration and testing, the system meets process air requirements for GMP use. There is no hydrocarbon alarm capability, with the system tested for hydrocarbon quarterly. There is a plan to replace the system, not scheduled with the equipment not ordered. The compressors in Plant 1 and the general area were observed in an unclean state, see **Exhibit 14.**

OBJECTIVE 1: READINESS FOR COMMERCIAL MANUFACTURING

As part of assessing the firm's readiness for commercial manufacturing, a review of the GMP Systems below were assessed as they pertain to the PAI product, BLA 125387 S78 for (aflibercept injection), EYLEA.

Quality System

Management Responsibility

(This section written by Investigator Theodorou)

The responsibilities applicable to the Quality Control Unit were reviewed and evaluated during the current inspection. Mr. Thomas Cligget provided the firm's procedure, SOP-00773 *Responsibilities of the Quality Unit*, rev 05, effective 09/27/2021 which defines the responsibilities of the Quality Unit such as making decisions and recommendations based solely on quality considerations. During our inspection, I reviewed various SOPs, investigations, batch records, and validation reports. Each of the reports we reviewed were reviewed and approved by the quality unit. No deficiencies were noted unless further specified in this report.

Exhibit 15 consists of a list of the firm's SOPs.

Deviations

(*This section written by Investigator LePage*)

The procedure that governs unplanned quality events and deviations is entitled SOP-00113, rev 02, "Deviation: Reporting and Investigation" (**Exhibit 16**). The procedure indicates that an event or deviation is to be initiated in the eQMS, or on FORM-000308, immediately upon realization. In January 2021, the firm transitioned their electronic quality management system from Trackwise to MasterControl. The current quality designations of "event" or "deviation" in MasterControl were termed "public record" in Trackwise. According to Thomas Cliggett, Director of Quality Operations, all events are assessed for product impact and escalated to a deviation as necessary. Deviations are further classified as No Impact, Minor, Major and Critical through the joint evaluation of SMEs and Quality. Root cause analysis is required for all deviations classified as minor, major, and critical. Deviations are required to be closed 30 business days after initiation unless an extension is approved by Quality. I reviewed the following deviations, events, and public notices in depth: PR-424733, PR-414723, PR-415690, DEV-2022-0591, DEV-2022-0829, DEV-2022-0568, PR-424609, PR-422935, DEV-2022-024, Event-2022-5953, Event-2022-6666, and some examples are described below:

PR-DN424609 (**Exhibit 17**)
Open: 11/20/2019
Closed: 12/06/2019
The customer Eirgen contacted PCI on 11/20/2019 to inform them that they received an unreleased lot of the product Rayaldee FG Lot #3868797. QA approved the batch record release on 10/25/2019 and released the shipment on 11/15/2019 (see **Exhibit 18**). The firm determined the root cause to be human error. The firm initiated CAPA 424768 and conducted "Awareness" training for the Quality Teams personnel associated with batch release. The customer kept the drug product lot sent in error and distributed it in lieu of the originally requested lot.

DEV-2022-0244 (**Exhibit 19, pg. 1-17**)
Opened: 04/04/2022
Closed: In Progress

Vivitrol® (naltrexone for extended-release injectable suspension) 380mg/vial, lot #2022-3005T, expiration 04/30/2024 kits (see **Exhibit 20**) were assembled with some of the following components.

- Vivitrol® microspheres (naltrexone for extended-release injectable suspension) 380mg/vial, lot #0000110944, expiration 10/2024
- Administrative needle (1.5") lot# 190592C, expiration 04/30/2024
- Administrative needle (1.5") lot #190604C, expiration 05/31/2024
- WIP Diluent Vial, lot #00108206B, expiration 03/2025

- 5mL Luerlock Syringe, lot# 210112V, expiration 12/31/2025

The expiration date of the kit is based off the component that expires first, therefore the kits should have received an expiration date of 04/30/2024, which correlates to the administration needle (1.5") lot# 190592C. The kits were assigned the incorrect expiration date of 05/31/2024, which corresponds to the administration needle (1.5") lot #190604C.

Vivitrol® (naltrexone for extended-release injectable suspension) 380mg/vial, lot #2022-3005T was released on 03/24/2022 by QA (see **Exhibit 20**). On 03/31/2022 PCI was notified by their customer that the drug product released to them was incorrectly labeled with the wrong expiration date. The 3600 affected kits were repackaged to reflect the correct expiry of 04/30/2024. CAPA-2023-0020 **(Exhibit 19, pg 29 - 43)** was initiated on 01/10/2023 during the inspection and is still in progress.

Event-2022-6666 **(Exhibit 21)**
Opened: 12/20/2022
Closed: 12/20/2022
On 12/19/2022, PCI was notified by their customer that they had received Repatha® Pushtronex® system (evolocumab) 420mg/3.5mL, lot# 1153429, expiration 12/31/2024 labeled with the incorrect expiration date of 10/31/2024. QA approved the batch record release on 12/19/2022 and released the shipment on 12/20/2022 (see **Exhibit 22**). The firm determined the root cause to be human error and did not initiate a corrective action. The product was short-dated the expiry by two months, therefore, the error was determined to not impact the quality of this lot. There was no preventative action directed for this event.

(*This section was written by Investigator Seifert*)
On 12 January 2023, Pat Cliggett, Quality Account Manager provided an overview of deviation selected as follows:

Deviation DEV-2022-0485: Opened 08 July 2022, Closed 18 August 2022. Regeneron, Eylea blister failed leak test, Lot 8231400007. The root cause was a wire line defect in the blister pack, imperfection in cavity. The event is associated with blistering operations and has been added to the defect library. Repackaging was conducted according to protocol, meeting the TOR, with stability data supportive of the additional VHP cycle.

Corrective Actions and Preventative Actions
(*This section was written by Investigator Theodorou*)
Exhibit 23 consists of SOP-00240, *Corrective Action and Preventative Action (CAPA).*

I reviewed the firm's SOP, SOP-00240, *Corrective Action and Preventative Action (CAPA),* revision 01, effective 11/05/2021 which outlines the procedure to document the process for assigning,

monitoring and tracking corrective action and preventative action (CAPA) plans arising from quality events and assigned Root Cause Analysis (RCA). When a CAPA is needed, it will be generated in MasterControl. Required data such as the CAPA type, Parent Record (Event, deviation, etc. that necessitated a CAPA), description of CAPA including planned actions, due dates and action deliverables, and a description of required effectiveness check or a justification if an effectiveness check is not required. Depending on the risk categorization of the CAPA, a timeline is assigned. High risk – 30 calendar days, Medium Risk – 60 calendar days, and Low Risk – 90 calendar days. A guideline for effectiveness checks is also identified in the SOP based on the frequency of the impacted activity. If the activity is a daily activity, the minimum effectiveness check period should be 3 months, weekly – 6-month period, at least monthly – 12-month period, if the frequency is greater than monthly or undetermined, a 24-month minimum effectiveness check period is applied.

According to Mr. Cliggett, as a correction to an observation from the previous inspection, the firm created a CAPA Management Team to better plan, track and review CAPAs and to monitor the correction and perform Effectiveness Checks as required by the SOP.

I reviewed the following CAPAs:
CAPA-2022-0658
CAPA-2022-0659
CAPA-2022-0695
CAPA-2022-0766
CAPA-2022-0821
CAPA-2022-0825
CAPA-2022-0825
CAPA-2023-0009

CAPA-2022-0659
Exhibit 24 consists of the firm's CAPA-2022-0659 which was opened to document the firm's corrections to Observation 2 that was made during the previous inspection ending 10/21/2022.

I noted the firm implemented an effectiveness check review board which meets routinely to determine if a CAPA effectiveness is needed, assigns a review date, and monitors the status of the CAPA throughout the process. As of the date of this inspection, the firm did not have any completed effectiveness checks by the review board for me to review. I also discussed with Mr. Cliggett that if the purpose of the meeting is to make quality decisions, the firm should maintain a record of either the meeting notes or meeting minutes. How the record is kept, whether a new tracking system is made for them or if copies of the meeting notes are added to each CAPA that is discussed at each meeting should be at the discretion of the firm.

I also noted in my review that the firm did not conduct any effectiveness checks for the CAPAs that were identified in the observation from the previous inspection. **Exhibit 25** consists of CAPA 433782

which was opened on 12/14/2021 to document the correction for installing the proposed changes indicator for setting the crimper clearance and pressure settings for E5 Doboy.

At the time of the creation of the CAPA, SOP-00240 was in effect. SOP-00240, section 5.1.8 states that "effectiveness checks should be considered as part of the CAPA plan and the scope and method of confirmed effectiveness should be detailed as part of the plan." Please refer to **Observation 3.b** in the **FDA 483 Inspectional Observations** and in the **Objectionable Conditions and Management Response** section of this report.

I also reviewed the firm's corrections to observations made during the previous inspection ending in 10/20/2022 which I discuss in the **Voluntary Corrections** section of this report.

Change Management/Change Controls

(This section was written by Investigator LePage)

The procedure that governs change control is SOP-00460, rev 01, "Philadelphia Change Control Procedure." This procedure includes, but is not limited to, changes in process controls, GMP documentation, validation and any system which can potentially impact a manufactured product. Change controls are initiated by completing FORM-0003005, "Change Control Form," or by opening a MOC in the eQMS. The impacted department(s) and Quality Unit reviews and approves all changes. Lastly, the final review and close of change controls is performed by the Quality Unit. I assessed the following change controls from the list provided by the firm during the inspection: MOC-2022-1404, MOC-2022-2297, MOC-2022-1908, MOC-2022-1320, MOC-2022-0031. Some examples of the change controls evaluated are described below.

MOC-2022-0031
Open: 01/06/2022
Closed: TBD
This change control was initiated to install a secondary filtration system precursory to the equipment air supply connection that is fed from the firm house air distribution pipe. The filter was added to reduce the workload of the filtration system downstream in the Vaporized Hydrogen Peroxide (VHP) unit, specifically # VHP2. No significant discrepancies were noted.

MOC-2022-1320
Open: 07/05/2022
Closed: 07/14/2022
This change control was initiated to update the MasterControl eQMS with the firm customer's (AstraZeneca) shipping instructions. No significant discrepancies were noted.

(This section was written by Investigator Seifert)

On 10 January 2022, the firm provided an overview of the following change control:
Change Control MOC-2022-0032: Initiated 6 January 2022, Closed: Moved to verification January 6, 2022 pending closure. The change control was for the installation of pre-filters, upstream of the VHP unit 2 for the compressed air. The rationale was black iron compressed air distribution piping from the compressors and the compressors not being oil free in design. Three filters were installed in series, with the filter changed on a routine basis, but not integrity tested. The filters are 1 micron, 0.01 micron, and 0.01 micron, followed by sample port, and copper piping to stainless steel, Pall filter at 0.02 micron see **Exhibit 26**. The pall filter is changed on an annual basis. VHP unit 1 has the same Pall filter, with the VHP 1 system supplied with oil free compressed air, distribution piping of appropriate design.

This resulted in a 483 Observation and is additionally discussed under Objectionable Conditions and Management Response 2.

Complaints

(This section was written by Investigator Theodorou)
I requested a list of complaints from the firm and randomly selected the following for review. No deficiencies were noted with my review of these complaints.

PR 413500
PR 413501
PR 413948
PR 414374
PR 415202
PR 415241
PR 418746
PR 418838
PR 419927
PR 420120
PR 421514
PR 422606
PR 426396
PR 427277
PR 427297

Consumer Complaint 162058
I discussed with the firm a complaint received by the Agency on 04/30/2020 for Cortef Hydrocortisone, no lot number or expiration date given which is opened to document the complaint that was made regarding the effectiveness of the hydrocortisone. The complainant called to report

that the hydrocortisone he had been prescribed was not working as it was supposed to. He said after taking it his cortisol was 1.5 repeatedly and the reference range was approximately 5-20. The complainant consulted his doctor who was also puzzled as to why the drug did not perform as intended. The complainant has Addison's disease and needs the medication. He stated he called the manufacturer and all they said was, "Thank you for the complaint." The firm receives complaints from their client Pfizer who is the recipient of the originating complaint and forwards them as applicable to their contract manufactures and packagers. The firm did not receive this complaint from Pfizer.

(This section was written by Investigator Seifert)
On 11 January 2023, Ms. Tara Mayka, Quality Supervisor, Complaints and Matthew Rainka, Regeneron SME (Virtual) provided an overview of complaints according to SOP-01174, "Customer Complaint Procedure", Rev 27, Effective date 02 June 2022. We (WS and BD) reviewed the following complaints:

COMP-22-4113: Opened 01 December 2022, Closed 03 January 2023. 30 days is allowed to complete the complaint deviation investigation, Regeneron requirement. 5x different complaints COMP-2022-4112 (condensate in blister), COMP-2022-4113 (condensate in blister), COMP-2022-4056 (condensate in blister), COMP-2021-0058 (leak in blister), and COMP-2022-4111 (water) were for moisture in the blister pack Tyvek closure. PCI LLC indicated the root cause was external to PCI, with no failures or anomalies associated with the batch. Post VHP, residual VHP converts to water vapor and oxygen that dissipates. I (WS) questioned if there is any visual inspection post VHP sterilization of the syringe blister units in verification of load dryness, with the firm indicating no. The units were returned opened, impacting the ability to understand the moisture in the blister unit. I (WS) questioned Tara Mayka, Quality Supervisor, Complaints and Dennis Gerlach, Director of Validations if moisture in the syringe blister would be an objectionable condition, with the firm indicating yes. There is no inspection of the Eylea syringe blister packs post VHP for absence of moisture.

This resulted in a 483 Observation and is additionally discussed under Objectionable Conditions and Management Response Observation 1.b.

COMP-2022-2819: Opened 24 August 2022, Closed 22 September 2022. The scope of the complaint was a gray color for the DP, 3x syringe units. The root cause was explained as external to the PCI manufacturing process. Eylea is to be clear in appearance to pale yellow. The deviation investigation at PCI was a paperwork review. The batch in question was PCI Eylea batch 8231500222, Regeneron complaint 03249-22, with the syringes not evaluated for contamination. A study was conducted exposing syringes to an elevated temperature, with the same color or similar color change in the DP observed. I (WS) questioned why Regeneron did evaluate the syringes for contamination, where if there wasn't enough volume for test, perhaps the DP material could be plated in confirmation of absence of contamination. The concern is associated with Regeneron. Reserve samples were

checked, acceptable.

Reference Discussion Item 2 in Section GENERAL DISCUSSION WITH MANAGEMENT.

Complaints for Damaged Syringes, see **Exhibit 27.** Approximately 76 complaints over the past two years for damaged syringes, with the root cause external to PCI LLC and associated with the DP manufacturing facility. Fractographic analysis was conducted identifying the defect as stainless steel contact with the glass syringe at the DP manufacturing facility. A CAPA was initiated in corrective action.

Six (6) complaints were received for debris in the carton, external to the blister pack. There was no impact to product quality.

Quality Agreements

(This section was written by Investigator Seifert)

On 11 January 2023, the firm provided the quality agreement under QA-AGMT-01628 2, *"Regeneron PCI Quality Agreement May 2021: Regeneron Pharmaceuticals, Inc. 81 Columbia Turnpike, Rensselaer, NY 12144 and Packaging Coordinators, LLC, 3001 Red Lion Road, Philadelphia PA 19114"*. The quality agreement was extensive.

Batch Record Review and Release

(*This section was written by Investigator LePage*)

The procedure that governs the batch record review and release process for all packaging and labeling operations is SOP-00765, rev 45, "QA Batch Record Review and Product Release" (**Exhibit 28**). According to Mark Burke, Executive Director of Quality, batch record review, and release duties are managed by the Quality Operations segment of the PCI Quality Unit. The PCI Organizational Charts (**Exhibit 04**, page 5 & 9), indicate the Quality Operations management as, Thomas Cliggett, Director of Quality Operations, and Jennifer Carrion, Sr. Manager, Quality Operations, who reports directly to Mr. Cliggett.

Per SOP-00765, Section 2.6, (**Exhibit 28, page 1**), Quality Associate responsibilities include "review the Customer Samples (e.g., Lot number and Expiration date, and contents) ...for correctness before they are shipped as well as the PCI site samples before they are logged and stored. This is to be performed during the batch record review." I noted in my documentation review that QA reviewed and subsequently released numerous drug products that were labeled with incorrect lot numbers and/or expiration dates. All the mislabeled drug products were sent to the customer, who placed the order directly with PCI, and not further distributed. See **OBSERVATION 3.a** in the **OBJECTIONABLE CONDITIONS AND MANAGEMENT'S RESPONSE** for more details.

(This section was written by Investigator Seifert)

On 11 January 2023, the firm presented the batch record for VHP, *"Manufacturing Packaging Instructions, Regeneron, MPI Title: PCR-WIP-VHP, Rev 70, Product 0023369, WO 1940331, FG Lot# 8231500281, Expiration 10/2023, Bulk Lot# 8231500281"*, 28 October 2022. Chemical indicators are positioned with the production load.

Annual Product Review

(This section was written by Investigator LePage)

The standard operating procedure for annual product reviews is detailed in SOP-01158, rev 07, "Annual Product Quality Review." According to the procedure, the Annual Product Quality Review requirements and review periods are determined by the customer, which are specified in their respective Quality Agreements. Elements of APQRs include, but are not limited to:

- Batches Packaged/Shipped
- Rejected/Aborted Batches
- Reworked Batches
- Change Controls
- Deviations
- Validation
- Equipment Qualification
- Complaints
- Returns
- Field Alerts/Recalls

Annual Product Quality Reports are assessed and approved by the Director of Quality. We evaluated the annual product reviews for Vascepa Capsules 1g (review period: 04/01/2021-03/31/2022), Entyvio (Vedolizumab) Vials 300mg (review period: 06/01/2021-05/31/2022), Miconazole Softgels 1200mg, (review period: 05/01/2021-04/30/2022). No significant discrepancies were noted.

Production System

Environmental Monitoring and Control Program

(This section was written by Investigator Seifert)

On 09 January 2023, Mr. Dennis Gerlach, Director of Validation provided an overview of environmental monitoring. We (WS and BD) reviewed SOP-00791, *"Environmental Monitoring for Hallway, Airlock, and Gowning Areas"*, Rev 1, 08 November 2021, **see Exhibit 29.** Total particle is conducted quarterly for trending purposes only. We reviewed SOP-00790, *"Environmental Monitoring for Non-Sterile Packaging"*, Rev 18, Effective date 29 September 2021, with environmental monitoring for E3, E2 and H1 quarterly that includes static and dynamic testing for total particle, viable air, and surface monitoring of walls and floors, see **Exhibit 30.** In E2, assembly

and blistering, there is no environmental monitoring of the drug product, blistering indirect product contact work surfaces.

We (WS and BD) reviewed the EM results for 2021 - 2022 for E3, E2 and H1 for non-viable, viable air, and wall and floor monitoring. A contractor, AATL, supports EM monitoring with the firm audited, with training conducted for PCI LLC. EM sampling and reporting procedures. There is PCI oversight of AATL during sampling, with validation review of the test results.

We reviewed the Q3 2022 E2 average viable wall results, with some TYMC above alert, no trend. We reviewed the Q3 G03 average wall viable TYMC equal to the alert limit, no trend. No other rooms exceeded the alert limit.

On 11 January 2023, Mr. Dennis Gerlach, Director of Validation provided an overview of the risk assessment in determination of EM points. The non-viable EM monitoring is conducted by potable calibrated Bioluminometer and for E2, blistering, quarterly. EM testing includes viable air, bi-annual. Viable surface sampling is conducted quarterly. An environmental monitoring position paper, 28 August 2017 includes static and dynamic sampling, **see Exhibit 31.** Sampling is conducted at the location or process where microbial contamination is deemed likely to occur or where it has the potential to adversely impact product quality. Environmental sampling locations includes locations that are difficult to clean, locations where the product is exposed to the environment, and any area that has the potential to contribute to the spread of contamination.

This resulted in a 483 Observation and is additionally discussed under Objectionable Conditions and Management Response 1.a.

Facilities & Equipment

Facility Maintenance, Cleaning, Disinfection and Sanitization

(This section was written by Investigator Seifert)

On 09 February, Mr. James Azhambault, Packer and Khareem Preston, Packer provided an overview of the facility cleaning procedure according to SOP-00849, *"Potable Equipment Cleaning"*, Rev 5, Effective date 25 August 2021. The procedure describes the cleaning process, sanitization process from January to June with 70% IPA, and July to December with 6% Steri-Perox. We (WS and BD) reviewed SOP-00803, *"Cleaning Procedure for Facility"*, Rev 22, Effective date 4 November 2021, with the procedure similar to the prior, a description of cleaning for rooms, gowning, airlock, etc. once per shift. We (WS and BD) reviewed SOP-00804, "Cleaning Procedure for Packaging Rooms", Rev 47, Effective date 5 January 2023. The frequency of cleaning is every lot change. The cleaning agents 70% IPA and 6% Steri-Perox are ready to use. Cleaning is conducted by PCI LLC no external contractor.

We (WS and BD) reviewed the cleaning efficacy, *"Final report for the 6% Steri-Perox Disinfectants/Sanitizer Efficacy Study - 11/25/2015"*. The scope was efficacy of the disinfectants, sanitizers on product contact parts and primary packaging lines, 3x studies. The equipment contact parts were cleaned and swabbed after 5-days. The acceptance criteria was the swab 4in^2 must be NMT 20 CFU, with no *Salmonella, Escherichia* coli, or *Staphylococcus aureus. Candida albicans* and counts of mold are not to exceed 20% of total allowable counts or NMT 4 CFU mold. Positive and negative controls were prepared.

On 10 January 2023, Siju John, Validation Manager provided an overview of Steri-Perox and the 70% IPA, base cleaning process and sanitization protocol, change validation protocol for cleaning primary packaging lines CS14-068, product methotrexate, worst-case 20 May 2014. For the 70% IPA, 3x batches of Methotrexate were manufactured, followed by cleaning by procedure, with the 70% IPA suitable for microbiological and detergent residues. The acceptance criteria for bacteria and mold were NMT 20 CFU/4in^2, and no objectionable organisms that include *P. aeruginosa, S. aureus, and Salmonella.* The dirty and clean hold was validated at 30-days.

We (WS and BD) reviewed the Steri-Perox 6% R15-218 under *"Final Report for the Steri-Perox Disinfectant/Sanitizer Efficacy Study"*, 23 November 2015. The same study design and acceptance criteria was applied as the 70 % IPA, acceptable. Testing included positive and negative controls, with contractor, test lab AATL performing testing.

Utilities

(This section was written by Investigator Seifert)

On 10 January 2023, the firm provided an overview of the oil free compressed air 2022, EM testing under VAL-00013807, *"EM Testing Report,"* with testing 4x per year. We (WS and BD) reviewed the compressed air testing under VAL-0013807, only at the compressors and not at the points of use. Testing was for particles ≥ 0.5 micron < 100,000 PPCM, ≥ 5.0 micron ≤ 2,000 PPCM, bacterial ≤ 25 CFU/ft^3, mold ≤ 25 CFU/ft^3, oil at ≤ 1.0 mg/m^3, and dew point ≤ 4°F. The outside testing firm, AATL, conducts the EM testing. Routine testing at the points of use have not started, with the procedure updated and approved for point of use testing. A single test was conducted at the VHP system, ATLL sample under #22-016481/1 R1 03/09/22. Particle, bacterial, TYMC, hydrocarbon and dew point were to specification.

Risk Assessment

(This section was written by Investigator Seifert)

On 10 January 2022, the firm provided an overview of the risk assessment, FMEA SOP-211.22.d.2, *"Risk Assessment # RA2021-011,"* 2021, see **Exhibit 32**. The scope is cross contamination mitigation and is not specific microbiological control for Eylea. The scope further includes facility design, labeling design, line clearance, cleaning and equipment, cleaning validation, material movement,

gowning, and HVAC. In Eylea blistering operations, a lab coat, gloves, foot booties, and hairnet are required, with no face mask. The firm explained that the manufacturing process is bioburden control.

We (WS and BD) reviewed the Regeneron Risk Assessment RA-1331, Secondary Manufacturing of Eylea Pre-filled Syringes in Non-classified Space at PCI, Effective V1.0, 07 November 2022 see **Exhibit 33.** The scope was a risk-based impact assessment summary report. Risk of microbial contamination includes rooms for manufacture positive to the corridor. The facility SOP under 00793, Air Handling System Differential Pressure Check is Annual by testing, see **Exhibit 34.** There is no magnehelic or BMS system in support the differential pressure is to specification, during routine manufacture. The risk assessment is a description of the PCI LLC process for manufacture but fails to look at other sources of microbiological contamination.

This resulted in a 483 Observation and is additionally discussed under Objectionable Conditions and Management Response 1.e.

Procedure SOP-00783, *"Gowning Cleanliness and Sanitary Practice of Personnel"*, Rev 34, 29 September 2021 includes gowning materials, **Exhibit 35.** Another SOP explains gowning for blistering, a bioburden control process with masks not required. We (WS and BD) reviewed the product assessment, Eylea, Product/PPE/Room/Heath and Risk Assessment, see **Exhibit 36**. Safety performed the heath assessment, original assessment that may have not included the bioburden control strategy, blistering system with Eylea syringe sterilized. Standard gowning is applied in Eylea blistering with no mask required as described in the batch record, PCR-WIP-VHP, *"Master Packaging Instruction: Regeneron"*.

This resulted in a 483 Observation and is additionally discussed under Objectionable Conditions and Management Response 1.d.

Equipment Qualification

(This section was written by Investigator Seifert)

On 09 January 2023, Mr. James Reingruber, Validation Specialist provided an overview of equipment qualification for labeling area E3 and blistering E2. E3 equipment qualified included a syringe de-nester, labeling system, plunger rod insertion and the option to install the finger flange (manufacturing process at a later date). The system for labeling and plunger rod insertion, was moved from area G4 to area E3 under change control. We (WS and BD) reviewed the IOQ for the specified equipment under Protocol VP19-097, *"Installation and Operational Qualification Groninger Syringe De-Nesting and Assembly Machine"*, 08/2019. There were no deviations in execution of the IOQ.

We (WS and BD) reviewed the *"IOQ Qualification Addendum - Groninger Syringe Labeler 1712 - VP21-177"*, January 2022. The IOQ was for a drive motor replaced, with no deviations.

VHP Unit PQ

(This section was written by Investigator Seifert)

On 09 January 2023, Mr. Alex Tenerelli, Process Engineer, provide an overview of the VHP PQ under *"Final Summary Report Confirming Validation for Sterilization of Eylea Prefilled Syringe Blister Packs, Performance Requalification Product Sterilization Process, VP22-118, FR22-118"*, 19 December 2022, VHP-Sterilizer H3971 VHP(1). The maximum and minimum load was originally qualified, with only the maximum load based on worst case qualified in requalification. Each system, VHP unit 1 and 2 have a different sterilization recipe. The sterilization process includes leak test with a limit of 10 mbar over 10 minutes, air removal, temperature regulation at ≤ 28 ± 2°C between probes and 2°C from each probe, jacket ≤ 30°C, and exposure phase that includes 5x injection pulses with 35% VHP by hot plate. The amount of H2O2 dispensed is by calibrate scale at 626g total. Post exposure the VHP is dissipated with 0.2 µm filtered oil free compressed air. The oil free compressed air by central utility is copper to stainless steel for VHP 2, and black iron, copper to stainless for VHP 2, with EM monitoring including total particle count, viable air, and hydrocarbon.

In validation, 120 chemical and 120 biological indicators were positioned throughout the load, with Regeneron and Steris supporting the process and Eurofins supporting biological indicator testing. PCI has audited Eurofins for testing. In requalification, full load, 10,336 blister are sealed without syringes, with 45 Eylea blistered units for sterility test, with 120 BI and CI units distributed with blistered syringe units throughout the load. The requalification load does not represent the commercial load.

This resulted in a 483 Observation and is additionally discussed under Objectionable Conditions and Management Response 1.f.

On 10 January 2023, Siju John, Validation Manager provided an overview of the vacuum conditions applied in the syringe, blister pack sterilization process that includes Leak Test at 500 mbar, Pre-condition Parameters at 500 mbar, Exposure at 500 mbar, Aeration 1 at 800 mbar and Aeration 2 at 500 mbar. The process is to replace ambient air with oil free compressed dry air.

On 10 January 2023, Mr. Dennis Gerlach, Director of Validations provided an overview of the VHP unit qualification under PQ-P17-233.01, *"Performance Qualification Addendum for the Sterilizer Asset #3840"*, 05 April 2019, VHP1. I reviewed the "Final Report for PQ for VHP Sterilizer Asset #3840 R17-223-01", rev 0, VHP Sterilizer Asset #3840, Sterilizer Room. According to Section 7.3.1 Maximum Load - Full Load of Syringes, 3x maximum loads, 10,336 blister packed syringes included 120 BI and 120 CI units, (trays containing pre-filled syringes) see **Exhibit 37**. 3x minimum load studies were conducted for 5,472 blister packed syringes. The biological indicators were located completely inside the blister pack and sealed by tape for BI entry point. 4x VHP pulses were validated, with product applying 5 pulses. We (WS and BD) reviewed PCR-WIP VHP Rev 7.0, *"Manufacturing Packaging Instructions Regeneron"*, with 5,472 and 10,336 syringes identified as the validated loads. The

biological indicators were *Geobacillus sterothermophilus,* with Eurofins providing test results. We (WS and BD) reviewed VHP2, *"Final Report for the PQ of the VHP Sterilizer Asset #3971, FR20-018, Rev 0, Regeneron, Steris, PQ, VP20-018 of the VHP Sterilizer, Asset #3971, 05/2020, VHP2".* 3x maximum loads at 10,336 syringes and 3x minimum load at 5,472 syringes included 120 CI and 120 BI units. All testing was acceptable. We (WS and BD) reviewed the most recent requalification with testing for 40 sterility samples, 120 chemical indicators, 120 biological indicators and > 10K empty carton units, see **Exhibit 38**. Testing was acceptable.

A rented Tracksense datalogger supported temperature mapping for the annual distribution profile, with TCs pre and post calibrated. There is no minimum load study, with the maximum load study worst-case.

We (WS and BD) reviewed the most recent requalification for VHP 1 under *"Final Summary Report Continuous Validation for Sterilization of Eylea Pre-filled Syringe Blister Pack, Performance Requalification, Product Sterilization Process - VP22-118 FR22-118, Eylea Pre-Filled Syringe Blister Pack VHP Sterilizer #3978 (VHP 1)".* The maximum load was conducted 21 December 2022, empty chamber with 30 TCs geometrically placed ≤ 35°C, acceptable. We reviewed the maximum load with 120 CI and 120 BI units, acceptable.

We (WS and BD) reviewed the VHP-2, *"Final Summary Report, Validation for Sterilization of Eylea Pre-filled Syringe Blister Packs, Performance Requalification Product Sterilization Process, Protocol VP22-119, Report # FR72-119, Regeneron, Eylea Pre-filled Syringe Blister Packs VHP Sterilizer #3971 (VHP2), Sterilizer Room, 22 December 2022".* Testing was the same as prior, acceptable.

On 11 January 2023, Mr. Alex Weaver, Senior Director of Engineering provided follow up to the VHP units, with VHP2 just started commercial manufacturing in May 2022. I (WS) questioned if there was a plan to replace the non-oil free compressors and black iron distribution system with a system meeting current industry expectations, with Mr. Weaver indicating yes. The current system as designed supported by testing meets the established acceptance criteria.

On 11 January 2022, Mr. Andrew Cook, Regeneron SME (Virtual), Mr. Dustin Blodgett, Regeneron SME (Virtual), and Dwight Ricci, Regeneron SME (Virtual) provided follow up to the VHP2 unit, with the system released for commercial manufacture May 2022, with Eylea approved for manufacture 2019. In a t-con with Regeneron, it was discussed that 500 mbar for the sterilization cycle exceeds the vacuum level evaluated in the shipping study and that it was unclear how the additional vacuum applied during the VHP cycle could impact the plunger stopper movement and the sterile barrier. It was also discussed that the two aeration steps post VHP exposure were to reduce residual VHP and to dry the load, with loads not confirmed as dry post VHP (commercial manufacture). The blister packaging, Tyvek supports a microbial barrier, tortuous path, with the cutsheet for the Tyvek used in manufacture provided, see **Exhibit 39.** The Tyvek is designed for the intended application.

The VHP qualification was conducted in 2017, full load of syringes, with the elimination of the full load of syringes and replacement with empty blister in 2018. A memo addressed the load change based on risk, see **Exhibit 40.** The empty blister packs fail to represent the commercial maximum load. A dye leak test is conducted at Regeneron for the blister packs, beginning, middle and end of the run.

This resulted in a 483 Observation and is additionally discussed under Objectionable Conditions and Management Response 1.f.

Packaging and Labeling System

(*This section was written by Investigator Theodorou*)

I reviewed the following batch records to determine the firm's packaging and labeling process.

- Miconazole 1200mg pouch, lot 4730498
- Miconazole 1200mg pouch, lot 5022198
- Miconazole 1200mg pouch, lot 4842883
- Vascepa1 G Capsules 120ct lot 2B09703
- Vascepa 1 G Capsules 120ct lot 1L09120

I also reviewed the following master packaging instructions:
Santyl Ointment 30g/90g
SURGIPHOR/SURGIRINSE
Tobramycin (TOBI) 300MG/5ML 56 AR

A majority of the firm's packaging process will have a visual camera system that verifies that printed lot and expiration dates are correct, and check weigher to determine that the container is within the designated weight specification for the product. Equipment challenges are performed during start up, in process and at the end of packaging activities depending on the product where in equipment such as the cap detection system, the induction liner system, and the bottle label vision system are challenged in various ways as identified in the batch record under a pass/fail qualification. In process checks are conducted following ANSI/AQL standards. Non Tolerable/Critical defects for In-Process Checks are: Incorrect/foreign product, dosage form or strength, or container not internally clean/free from harmful foreign material, incorrect lot# or expiration date, illegible or missing lot #, expiration date, serial number and/or variable data (as applicable) printed on primary labeling to identify a few.

I reviewed the firm's procedure, SOP-01100 *Labeling Control*, rev10 effective date 09/01/2021 which provides the requirements for the receipt, issuance, and accountability of labeling. The procedure states that the shipping and receiving department is responsible for identifying the labeling by product, code/specification

I reviewed the firm's procedure, SOP-00715 *Packaging Line review and Quality Verification,* rev02, effective 11/27/2022 which describes the usage, completion, and escalation methods of performing activities described on the Packaging Line Review Sheet. The Review Sheet establishes the minimum requirements required for a standard packaging run within operations. The Review Sheet ensures that activities performed within a packaging run conforms to written procedures, requirements and instructions established by the firm.

My review of these documents and records where unremarkable, however as discussed under the Deviations, and in **Observation 3.a** in the **Objectionable Conditions and Management Response** section of this report, the firm shows a history of failing to identify errors with the lot number and/or the exp date printed on the primary packaging of drug products and subsequently releasing them to their clients for distribution.

OBJECTIVE 2: CONFORMANCE TO APPLICATION

Application Conformance

(This section was written by Investigator Seifert)

The manufacturing process conformed to the application.

Data Omissions

(This section was written by Investigator Seifert)

There were no data omissions.

OBJECTIVE 3: DATA INTEGRITY AUDIT

Data Integrity

(This section was written by Investigator Seifert)

On 12 January 2023, Ms. Cathy Cabrera, Director of Quality Systems provided an overview of data integrity, computer systems. I reviewed Doc # WI-00033 Rev 1 - 11 June 2021, *"Completing System Regulatory Impact Determination (RID) Form"*. The scope is all computer systems for regulatory impact. I reviewed Doc Form-000319, v3, *"Regulatory Impact Determination (RID)"*, VHP units. The VHP units are standalone systems with proprietary software that included an HMI. The prior form includes a questionnaire for user levels, PCI operator, PCI line leader, PCI supervisor, PCI engineer, and PCI administrator. The administrator for the VHP units is Engineering. The questionnaire further includes an assessment for audit trail, calibration and maintenance, safety, migration interface, and data integrity. Data integrity according to ALCOA includes user login, electronic signature, deletion of data not possible, alter date and time not possible, audit trail is always active, and can't overwrite. For each batch, the data is printed with manual electronic backup. We (WS and BD) reviewed the audit trail review according to procedure 211.56.b.6, *"Steris VHP Sterilizer Unit Administration Responsibility, Password Management, Access, Backup, and Roles and Responsibilities"*, Rev 0, July

28, 2020. The scope is user and password management, audit trail management, batch report management and PLC/HMI backup and recovery.

In data integrity, run data is printed, but not the audit trail. The VHP cycle recipe is verified every quarter by Engineering. The audit trail is reviewed annually by Engineering and quality. The printing of the run data supports data integrity as there is evidence of the run number. Regarding Eylea manufacture, there is limited computer systems, with the VHP system run data supporting evidence of data integrity with system use access of appropriate design.

MANUFACTURING CODES

(*This section was written by Investigator Theodorou*)

According to Mr. Cligget, the firm's lot numbering system for finished products has not changed since the previous inspection conducted 10/21/2022. Specifically, the firm receives unique and specific lot information for the labeling/packaging and the product; these are identified as the PACKET# and the BULK LOT#, respectively. This information is recorded in the batch record and is associated with a seven-digit Work Order number (WO#). This Work Order # is then used as the lot number on the final packaged product. The expiry date is specific to each product and the format is dictated by the customer

COMPLAINTS

(*This section was written by Investigator Theodorou*)

Please see the Quality System Section of this report which contains a dedicated section of complaints that were covered during this in section. No observations were made of any documents that were reviewed.

RECALL PROCEDURES

(*This section was written by Investigator Theodorou*)

According to Mr. Cliggett, the firm has not been involved in any recalls since the previous inspection. The firm recently completed its mock recall program in Nov 2022 which is performed on an annual basis

OBJECTIONABLE CONDITIONS AND MANAGEMENT'S RESPONSE

A close-out meeting was held on 01/12/2023 with Gill Valdez, SVP, Commercial Packaging Technology and Supply Chain, Catherine Cabrera, Director of Quality Systems, Mark J. Burke, Executive Director of Quality Jennifer Carrion, Sr. Quality Operations Manager, Tammi Leith, Regulatory Affairs Specialist and Thomas Cliggett, Director of Quality Operations at which time a Form FDA 483, Inspectional Observations, was issued.

OBSERVATION 1

Your firm failed to establish adequate written procedures for production and process controls designed to assure that the drug products have the identity, strength, purity, and quality that they are purported or represented to possess.

Specifically,

a. Your environmental monitoring plan as defined in SOP, SOP-00790, "Environmental Monitoring for Non-Sterile Packaging", Rev 18, effective date 29 September 2021, is insufficient for aflibercept PFS assembly and blistering line E2 as no surface environmental monitoring is conducted for the product contact/indirect product contact surfaces such as the syringe assembly area and associated surfaces. According to SOP-00790, "Environmental Monitoring for Non-Sterile Packaging", Rev 18, section 7.4.2.2 states that sample sites for surface (floor and walls) viable shall be based on the following: "Sites and/or processes where microbial contamination is deemed likely to have an adverse effect on product quality, sites that represent the most difficult areas to clean, and activities in the area that contribute to the spread of contamination."
b. Complaints received by your client included moisture observed in the syringe blister package. Post aflibercept (Eylea) PFS VHP, there is no procedural requirement in confirmation of load dryness and absence of moisture in the syringe blister packaging or any other defect that may pose a risk to product quality.
c. The sterilization of the aflibercept (Eylea) PFS within the blister pack is conducted by VHP that includes Chamber Leak Test at 500 mbar, Pre-condition Parameter at 500 mbar, Exposure Parameter at 500 mbar, Aeration Parameter 1 at 800 mbar and Aeration Parameter 2 at 500 mbar. The aflibercept shipping validation supports a pressure change at 572 mbar in support plunger stopper movement, assuring the sterile barrier is maintained. The worst-case pressure level applied at 500 mbar during the syringe VHP process has not been validated to assure the sterile barrier is maintained.
d. Document titled, Product Assessment - Eylea (aflibercept) - Product/PPE/Room/Health and Risk Assessment was performed by your internal PCI Safety, with standard gowning to be applied during manufacture that does not include a face mask. The assessment is deficient as it failed to account for the manufacturing bioburden control strategy, with the donning of a mask providing enhanced bioburden control.
e. Document RA-1331 (risk assessment), "Secondary Manufacturing of EYLEA Pre-Filled Syringe in Non-Classified Spaces at PCI" indicates that production rooms are positive pressure to the hallways per PCI SOP-00793; however, there is no calibrated magnehelic or BMS system to provide assurance of adequate continuous differential pressure control for the production rooms.
f. The requalification of the aflibercept (Eylea) VHP sterilization process includes 10,336 blister packs sealed and without pre-filled syringes, with 45 blister packs containing an aflibercept PFS spaced throughout the load for sterility testing and 240 blister packs total containing an

aflibercept PFS for 120 (CI units) and 120 (BI units). The use of 10,336 empty blister packs is not representative of the commercial maximum load.

Reference: 21 CFR 211.100(a)

Supporting Evidence and Relevance:
(This section was written by Investigator Seifert)

Observation 1A
SOP-00790, *"Environmental Monitoring for Non-Sterile Packaging"*, Rev 18, Effective date 29 September 2021 identifies environmental monitoring for areas E3, E2 and H1 quarterly, static and dynamic testing for total particle, viable air, and surface monitoring of walls and floors, see **Exhibit 30.** An environmental monitoring position paper, 28 August 2017 includes static and dynamic sampling, see **Exhibit 31.** Sampling is conducted at the location or process where microbial contamination is deemed likely to occur or where it has the potential to adversely impact product quality. Environmental sampling locations includes locations that are difficult to clean, location where the product is exposed to the environment, and any area that has the potential to contribute to the spread of contamination.

In E2, assembly and blistering, there is no environmental monitoring of the drug product, blistering indirect/direct product contact work surfaces that may offer a better understanding of the biological flora on the drug product is exposed to and impact on product quality.

Observation 1B
Five different customer complaints for moisture were in the Eylea drug product blister packaging: COMP-2022-4112 (condensate in blister), COMP-2022-4113 (condensate in blister), COMP-2022-4056 (condensate in blister), COMP-2021-0058 (leak in blister), and COMP-2022-4111 (water). PCI LLC indicated the root cause was external to PCI, with no failures or anomalies associated with the batch. Post VHP, residual VHP converts to water vapor and oxygen that dissipates, with moisture in the VHP DP blister package an objectionable condition. There is no inspection of the Eylea syringe blister packs post VHP for absence of moisture or any other defects that would pose a product quality concern.

Observation 1C
In a t-con with Regeneron, it was discussed that 500 mbar for the VHP sterilization cycle exceeds the vacuum level evaluated in the shipping study and that it was unclear how the additional vacuum applied during the VHP cycle would have on the plunger stopper movement and maintaining the sterile barrier.

Observation 1D

Product assessment, Eylea, Product/PPE/Room/Heath and Risk Assessment, identifies the level of gowning in Eylea manufacture, see **Exhibit 36**. Safety performed the heath assessment, original assessment that may not have included the bioburden control strategy required for blistering of the Eylea syringe, followed by VHP sterilization. Standard gowning is applied in Eylea blistering with no mask required as described in the batch record, PCR-WIP-VHP, *"Master Packaging Instruction: Regeneron"* and as observed during the inspection tour of Eylea blistering operations.

Observation 1E

Regeneron Risk Assessment RA-1331, Secondary Manufacturing of Eylea Pre-filled Syringes in Non-classified Space at PCI, Effective V1.0, 07 November 2022 includes rooms for manufacture positive to the corridor, see **Exhibit 33**. The facility SOP under 00793, Air Handling System Differential Pressure Check is annual by testing, see **Exhibit 34**. There is no magnehelic or BMS system in support the differential pressure is to specification, during routine manufacture.

Observation 1F

VHP unit qualification was conducted under PQ-P17-233.01, *"Performance Qualification Addendum for the Sterilizer Asset #3840"*, 05 April 2019, VHP1. The final report was included under "Final Report for PQ for VHP Sterilizer Asset #3840 R17-223-01", rev 0, VHP Sterilizer Asset #3840, Sterilizer Room. According to Section 7.3.1 Maximum Load - Full Load of Syringes, 3x maximum loads, 10,336 blister packed syringes included 120 BI and 120 CI units, (trays containing pre-filled syringes) see **Exhibit 37.**

VHP2, *"Final Report for the PQ of the VHP Sterilizer Asset #3971, FR20-018, Rev 0, Regeneron, Steris, PQ, VP20-018 of the VHP Sterilizer, Asset #3971, 05/2020, 'VHP2"* included 3x maximum loads at 10,336 syringes and 3 x minimum load at 5,472 syringes included 120 CI and 120 BI units.
The most recent requalification included testing for 40 sterility samples, 120 chemical indicators, 120 biological indicators and > 10K empty carton units, see **Exhibit 38**. The > 10K empty cartons does represent the commercial maximum load in manufacture.

Discussion with Management:

Observation 1A

On 12 January 2023, the firm questioned during the close meeting if environmental monitoring of the product indirect/product contact work surfaces was an expectation. I (WS) indicated the DP packaging conveyors is an example of a surface that may provide a better understanding of the bioburden load and impact on drug product quality. According to the position paper, environmental sampling locations should include locations that are difficult to clean, location where the product is exposed to the environment, and any area that has the potential to contribute to the spread of contamination, the product conveyors for example, product indirect/direct contact surfaces. The firm understood the objectionable condition.

Observation 1B
During the closeout meeting on 12 January 2022, the firm had no questions.

Observation 1C
The applicant Regeneron committed to performing a plunger stopper movement study to assess the vacuum applied during the VHP process, see **Exhibit 41.** During the close meeting on 12 January 2023, the firm had no questions.

Observation 1D
During the close meeting on 12 January 2023, the firm had no questions.

Observation 1E
The firm had no questions during closeout meeting on 12 January 2023.

Observation 1F
The VHP qualification was conducted in 2017, full load of syringes, with the elimination of the full load of syringes and replacement with empty blister packs in 2018. A memo addressed the load change based on risk, see **Exhibit 40**. The empty blister packs failed to represent the commercial maximum load. During the closeout meeting on 12 January 2023, the firm had no questions.

OBSERVATION 2
Equipment used in the manufacture, processing, packing or holding of drug products is not of appropriate design to facilitate operations for its intended use.

Specifically, your Building 1 air compression system supporting aflibercept (Eylea) sterilization by VHP system (VHP 2) is not of oil free design, with the air distribution system to the VHP 2 sterilizer including black iron piping. Though the air compression system includes hydrocarbon removal and distribution system in-line point of use hydrocarbon and particulate filtration, the system design is inconsistent with current GMP expectations.

Reference: 21 CFR 211.63

Supporting Evidence and Relevance:
(This section was written by Investigator Seifert)
Plant 1 includes 2x air compressors used for VHP2, not oil free in design. Post air compression, filtration occurs followed by 3x driers to a receiving tank. Post receiving tank, the air is distributed by black iron piping (100s feet of piping), with copper to stainless at the VHP2 system point of use. Hydrocarbon filters are located within the compressor and at the newly installed filtration unit near the VHP 2 sterilizer. The compressors are supplied with food grade oil in air compression. The system

was originally for instrument air and through filtration and testing, the system meets process air requirements in support of the VPR process. Although the filtration and testing of the air meets the intended air quality specification, the system doesn't meet current GMP design expectations.

Discussion with Management:
(This section was written by Investigator Seifert)
The firm commits to upgrading the Plant 1 air compression system and distribution piping to meet current industry expectations, see **Exhibit 42.**

OBSERVATION 3
The responsibilities and procedures applicable to the quality control unit are not fully followed.

Specifically, your firm failed to follow the following procedures:

a) According to your standard operational procedure entitled *"QA Batch Record Review and Product Release,"* SOP-00765, rev 45, Section 2.5, the Quality Associate is responsible "to review, verify presence of all batch record pages, verify correct batch record pagination and accuracy, coordinate error corrections with the Quality Associate or designee, assure Deviation Reports are complete and closed, and approve the batch record for PCI release." The following are examples of drug products that were released by your Quality Unit for commercial distribution with inaccurate lot numbers and/or expiration dating.
   - DEV-2022-0244, Alkermes Vivitrol 380mg (naltrexone for extended-release injectable suspension) Kit, lot# 190592C, expiration 04/30/2024 released with an incorrect expiry of 05/31/2024
   - DEV-2022-0244, Alkermes Vivitrol 380mg (naltrexone for extended-release injectable suspension) Kit, lot# 190604C, expiration 04/30/2024 released with an incorrect expiry of 05/31/2024
   - Event-2022-5953, Flexion Therapeutics Zilretta 32mg (triamcinolone acetonide extended-release injectable suspension) Finished Kits, lot# 111003, expiration 11/2023 released with an incorrect lot number of 22-9006
   - Event-2022-6666, Amgen Repatha AMG 145) HMP, 120mg/mL, 3.5mL (evolocumab), lot# 1153429, expiration 12/31/2024 released with an incorrect expiry of 10/31/2024

b) Your procedure, SOP-00240 *"Corrective Action and Preventative Action (CAPA)"*, revision 01, effective 11/05/2021, section 5.1.8 states that "effectiveness checks should be considered as part of the CAPA plan and the scope and method of confirmed effectiveness should be detailed as part of the plan." CAPA 433782 which was opened on 12/14/2021 to document the correction for installing the proposed changes indicator for setting the crimper clearance and pressure settings for E5 Doboy. This CAPA was closed on 05/20/2022. Your firm applied a new

effectiveness check review board to address current and future CAPAs however did not address the CAPA(s) that were opened within the effective date of your procedure.

This is a repeat observation from the previous inspection conducted 10/17/2022 – 10/21/2022.

Reference: 21 CFR 211.22(d)

Supporting Evidence and Relevance:

Observation 3.a
(*This section was written by Investigator LePage*)
According to the standard operational procedure entitled "QA Batch Record Review and Product Release," SOP-00765, rev 45, Section 2.5 (see **Exhibit 28**), the Quality Associate is responsible "to review, verify presence of all batch record pages, verify correct batch record pagination and accuracy, coordinate error corrections with the Quality Associate or designee, assure Deviation Reports are complete and closed, and approve the batch record for PCI release." I noted in my documentation evaluation that QA reviewed and subsequently released numerous drug products that were labeled with incorrect lot numbers and/or expiration dates. All the mislabeled drug products were sent to the customer, who placed the order directly with PCI, and not further distributed. The following are examples of drug products that were released by your Quality Unit for commercial distribution with inaccurate lot numbers and/or expiration dating.

DEV-2022-0244 (**Exhibit 19**)
Vivitrol® (naltrexone for extended-release injectable suspension) 380mg/vial, lot #2022-3005T, expiration 04/30/2024 kits (see **Exhibit 20**) were assembled with some of the following components.

- Vivitrol® microspheres (naltrexone for extended-release injectable suspension) 380mg/vial, lot #0000110944, expiration 10/2024
- Administrative needle (1.5") lot# 190592C, expiration 04/30/2024
- Administrative needle (1.5") lot #190604C, expiration 05/31/2024
- WIP Diluent Vial, lot #00108206B, expiration 03/2025
- 5mL Luerlock Syringe, lot# 210112V, expiration 12/31/2025

The expiration date of the kit is based off the component that expires first, therefore the kits should have received an expiration date of 04/30/2024, which correlates to the administration needle (1.5") lot# 190592C. The kits were assigned the incorrect expiration date of 05/31/2024, which corresponds to the administration needle (1.5") lot #190604C. Vivitrol® (naltrexone for extended-release injectable suspension) 380mg/vial, lot #2022-3005T was released on 03/24/2022 by QA (see **Exhibit 207**). On 03/31/2022 PCI was notified by their customer that the drug product released to them was incorrectly labeled with the wrong expiration date. The 3600 affected kits were

repackaged to reflect the correct expiry of 04/30/2024.

Event-2022-5953
Flexion Therapeutics Zilretta 32mg (triamcinolone acetonide extended-release injectable suspension) Finished Kits, lot# 111003, expiration 11/2023 released with an incorrect lot number of 22-9006. This event was listed in error on the FDA Form 483, as the discrepancy was caught during the batch record review process.

Event-2022-6666 (**Exhibit 21**)
On 12/19/2022, PCI was notified by their customer that they had received Repatha® Pushtronex® system (evolocumab) 420mg/3.5mL, lot# 1153429, expiration 12/31/2024 labeled with the incorrect expiration date of 10/31/2024. QA approved the batch record release on 12/19/2022 and released the shipment on 12/20/2022 (see **Exhibit 22**). The customer kept the product and distributed it, indicating that the product was not affected since the expiry was short dated by two months.

In addition to the aforementioned lots indicated on the FDA Form 483, I noted during my document review that several other drug products were released by QA with incorrect lot and/or expiration dates that were discovered and reported by the PCI customers. The following are the deviations and the associated released drug product lots.

PR-DN424609 (**Exhibit 17**)
The customer Eirgen contacted PCI on 11/20/2019 to inform them that they received an unreleased lot of the product Rayaldee 30mcg, 30ct, Lot #3868797. QA approved the batch record release on 10/25/2019 and released the shipment on 11/15/2019 (see **Exhibit 18**). The firm determined the root cause to be human error. The firm initiated CAPA 424768 and conducted "Awareness" training for the Quality Teams personnel associated with batch release. The customer kept the drug product lot sent in error and distributed it in lieu of the originally requested lot. Rayaldee 30mcg, 30ct, Lot #3868797 expired 12/2020.

PR-DN422935 (**Exhibit 43**)
On 07/31/2019 PCI was contacted by their customer, Pfizer, and notified that three lots of Cortef 10mg, 100ct, received at their distribution center were labeled with incorrect expiration dates. The three lots of Cortef packaged at PCI were CCFTK (see **Exhibit 44**), CCFTK1 (see **Exhibit 45**) and CCFTK2 (see **Exhibit 46**) with an expiration date of 02/2022 but were labeled the expiration date 02/2023. QA released the shipment on 07/10/2019. These Cortef 10mg, 100ct lots were manufactured in the US and packaged for distribution in Hungary.

Observation 3.b
(*This section was written by Investigator Theodorou*)

Exhibit 23 consists of SOP-00240, Corrective Action and Preventative Action which was in effect at the time of the creation of CAPA 433782. Section 5.1.8 states that "effectiveness checks should be considered as part of the CAPA plan and the scope and method of confirmed effectiveness should be detailed as part of the plan."

Exhibit 24 consists of the firm's CAPA, CAPA-2022-0659 which was opened to document the corrections for the observation made during the previous inspection. Review of this document shows that the firm did not address the effectiveness checks for the identified CAPAs. However, it was noted that only CAPA 433782 was initiated after SOP-00240 was in effect.

Exhibit 25 consists of CAPA 433782 which was opened on 12/14/2021 to document the correction for installing the proposed changes indicator for setting the crimper clearance and pressure settings for E5 Doboy.

As part of its corrections to the observations that were made during the previous inspection ending 10/21/2022, the firm did not address the CAPAs mentioned in the observation. Nor did the firm provide any kind of statement stating if an effectiveness check was or wasn't needed and its justification

Mr. Burke and Mr. Cliggett stated that at the time the CAPAs were created the firm was still using the TrackWise system and that SOP 211.100.b.14 *CAPA Effectiveness*, rev2.0, effective 11/24/2020 would have been in effect as this CAPA was documented in the TrackWise system and not in MasterControl. Mr. Burke created a timeline for my review which I took a picture of (**Exhibit 52**).

At the time of the previous inspection, the firm had just implemented the migration of data into MasterControl and was using MasterControl to document new CAPAs. CAPA 433782 was opened on 12/14/2021. SOP-00240, Corrective Action and Preventative Action was in effect (effective date 11/5/2021) at the time of the creation of CAPA 433782.

Discussion with Management:

Observation 3.a

(*This section was written by Investigator LePage*)

During my document review I discussed with Thomas Cliggett, Director of Quality Operations, the numerous instances where the firm QA released batches to their customers without properly verifying batch information as indicated in their procedure. I emphasized that situations such as these may lead to product recalls and are concerning. I reiterated this during the closing meeting. The firm management indicated that they understood and would respond to the Form 483 in writing, within 15 business days.

Observation 3.b
(*This section was written by Investigator Theodorou*)
Management stated that they understood and promised to respond in writing within 15 business days.

OBSERVATION 4
Buildings used in the manufacture, processing, packing or holding of drug products are not maintained in a clean and sanitary condition.

Specifically.

a. Deteriorated insulation and a deteriorated gasket was observed at a finger flange assembly system for syringe labeling and plunger rod insertion System 1712, Area E3. Excess grease was observed on the plunger rod shafts.
b. The air compression system located in Building #1 and used for oil free compressed air to the VHP 2 sterilizer was observed in an upkept state, including debris observed at an air compressor intake.
c. Walk-in 2 - 8°C refrigerator 150845 as observed in with waste material such as dirt and debris on the floor and behind and between pallets. Refrigerator 150845 is used to store finished drug products such as aflibercept PFS and materials needing temperature control.
d. Automated doors leading to E2, syringe blistering, and syringe VHP were observed not functioning correctly.

Reference:21 CFR 211.56(a)

Supporting Evidence and Relevance:
(This section was written by Investigator Seifert)

Observation 4A
Within are E3 a Groninger syringe tub conveying system was observed, unit 5349, followed by labeling and plunger rod insertion system, asset 1712. A finger flange unit was observed with deteriorated insulation and gasket, see **Exhibit 10.** The plunger rod shafts were observed with excess grease, see **Exhibit 11.**

Observation 4B
The air compressors in Plant 1 (Building 1) and the system in general that includes the work area was observed in an unclean state, see **Exhibit 14.**

Observation 4C

The 2 - 8°C walk-in unit 9 (150845) was observed in an unclean state, see **Exhibit 06**

Observation 4D
The Eylea finger flange assembly and blistering area assess door was observed non-functional, see **Exhibit 12.**

Discussion with Management:
(This section was written by Investigator Seifert)

Observation 4A
The firm provided corrective action by order confirmation of materials, McMaster-Carr for insulation and Vinyl foam to replace the deteriorated insulation and gasket, **see Exhibit 47**. Furthermore, the firm provided corrective action by workorder MNT-02996-2023 for removal of excess grease from the plunger rod shafts, see **Exhibit 48**. During the closeout meeting on 12 January 2023, the firm had no questions.

Observation 4B
The firm provided corrective action that included cleaning of the compressors, dryers and general work area, see **Exhibit 49.**

Observation 4C
The firm provided evidence of corrective action by providing pictures of the walk-in unit cleaned and in good state of cleanliness, see **Exhibit 50.** During the closeout meeting, the firm had no questions.

Observation 4D
The firm provided corrective action by workorder MNT-02993-2023, Room E2 Reset Automatic Door Controller, see **Exhibit 51**. During the closeout meeting, the firm had no questions for the objectionable condition.

GENERAL DISCUSSION WITH MANAGEMENT

At the close-out meeting, the following items not included on the Form FDA 483 were discussed with firm management. Mr. Valdez indicated that he understood and promised corrections.

1. The H1 cartoning line was inspected during a manufacturing break, with three Eylea cartons containing product observed on the active conveying track, see **Exhibit 13**. It was questioned why the units were not positioned into an overpack prior to the break, with the firm rejecting, discarding the units. Leaving the units on the conveying track may cause degregation of the carton.

2. A field complaint was received for the Eylea DP, gray color for the DP, 3x syringe units. The root cause was explained as external to the PCI manufacturing process, with Eylea to be clear in appearance to pale yellow. The deviation investigation at PCI was a paperwork review. Regeneron conducted an elevated temperature study for Eylea, with the same color or similar color change in the DP observed. In discussion with the firm, it was questioned why Regeneron did not evaluate the syringes for contamination, where if there wasn't enough volume for test, perhaps the DP material could be plated in confirmation of absence of contamination. Although PCI is a CMO, assuring the absence of microbial contamination is also critical to PCI. In discussion with PCI, PCI should also work collaboratively with Regeneron to have a clear and complete understanding for absence of microbial contamination.

VOLUNTARY CORRECTIONS

(*This section was written by Investigator Theodorou*)

During the current inspection, I verified corrections to the following deficiencies from the previous inspection conducted 10/21/2022:

Observation 1

Buildings used in the manufacture, processing, packing or holding of drug products are not maintained in a clean and sanitary condition.

CAPA-2022-0658

- PCI opened a Work Order to repaint and caulk the baseboard lining in the rear wall along the seam of the wall.
- The water-stained ceiling tile was replaced.
- The roof was inspected by a licensed contractor and no roof leaks were identified.
- A contracted service will be resurfacing and resealing the exterior wall of that side of the building to prevent any potential leaks from extreme weather.
- The back wall of H3 and adjoining packaging rooms will be re-surfaced for ease of cleaning. The back wall will be flat and run straight across the room.

All above mentioned repairs to the interior and exterior of the building were completed by 12/2023.

In addition, the firm updated the cleaning logbooks to include more specific information around the cleaning of the packaging rooms. The new format will require specific entries around the cleaning of the walls, floors, and equipment as opposed to a single entry for both the individual performing the function and for Quality Assurance verification.

Observation 2

This was partially addressed by the firm but resulted in a repeat observation during this inspection.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. 2339435

Application/License No. _____

PACKAGING COORDINATORS, INC., doing or intending to do business as a
Applicant/Principal
pharmaceutical wholesaler, whose address for purposes of service is
3001 Red Lion Road Philadelphia, PA 19114, as
Address of Applicant/Principal
PRINCIPAL, and SWISS RE CORPORATE SOLUTIONS AMERICA INSURANCE CORPORATION, a
Surety Company
corporation organized under the laws of the state of MO
State of Incorporation
and authorized to transact a general surety business in the State of

Nevada, whose address for purposes of service is
1200 Main Street Suite 800 Kansas City, MO 64105-2478 as
Address of Surety
SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on October 16, 2024.
Effective Date

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

Posted February 20, 2020

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 18th day of October, 2024.

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # N/A **. Provide all the following *where applicable*:**

Date of Event/Arrest	Disposition Date	State	City	County
Case #		Governing, licensing, Arresting Presiding Body/Agency/Court		
Reason/Charge				
Plaintiff/Defendant/Claimant/Respondent			Lawsuit/Arbitration/Bankruptcy	
Name of Business/Industry/Entity				

Provide explanation below:

N/A

Original Signature (electronic, copies or stamps not accepted)

April 9, 2025

Date

I certify under penalty of perjury that the information contained in this application is accurate, true and complete in all material respects. I understand that making any false representation in this application is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire application and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. In the event this application is approved I agree to comply with all applicable federal and state statutes and regulations governing this license or registration and understand that any violation may result in discipline.

Tom Wim Frans De Weerdt

Print Name (First, Last)

		District of South Carolina on behalf of Drug Enforcement Agency		
Reason/Charge				
Plaintiff/Defendant/Claimant/Respondent		**Lawsuit/Arbitration/Bankruptcy**		
Name of Business/Industry/Entity				
Patterson Logistics Services, Inc.				

Provide explanation below:

On January 22, 2024, Patterson Logistics Services, Inc. ("PLSI") entered into a Settlement Agreement with the United States Attorney's Office for the District of South Carolina ("DOJ"), acting on behalf of the Drug Enforcement Administration ("DEA"), in which PLSI agreed to pay a fine of $45,500 with no associated admission of liability or guilt by PLSI. The allegations of the DEA are related primarily to certain record-keeping and reporting violations of the Controlled Substance Act. The DOJ and the DEA were satisfied with Patterson's corrective action measures, such that the matter was settled with no associated Memorandum of Understanding or ongoing reporting requirement for PLSI.

Original Signature (electronic, copies or stamps not accepted)

Date

SETTLEMENT AGREEMENT

This Settlement Agreement ("Agreement") is made and entered into by and between the United States of America, acting through the United States Attorney's Office for the District of South Carolina, on behalf of the Drug Enforcement Administration ("DEA") (collectively, the "United States"), and Patterson Logistic Services Inc. ("Patterson") (together, "the Parties").

RECITALS

Patterson is currently registered with DEA Certificate of Registration #RP0349224 as a distributor authorized to handle controlled substances on Schedules II-V at its registered location, 925 Carolina Pines Boulevard, Suite B, Blythewood, South Carolina 29016 (the "Blythewood FC").

At all times relevant to this Agreement, Patterson was required to operate in accordance with the statutory provisions of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. §§ 801-904, and the regulations promulgated thereunder, 21 C.F.R. Part 1300, *et seq.* (collectively "the CSA.")

Between January 31, 2023, and February 2, 2023, the DEA conducted an inspection at Blythewood FC. As a result of the inspection, the United States contends Patterson violated civil provisions of the CSA. Specifically, the United States contends that from January 31, 2021 through February 2, 2023, in regard to operations at Blythewood FC, Patterson violated certain suspicious order requirements, reporting requirements to ARCOS and order form and recordkeeping requirements pursuant to the CSA, specifically Title 21 Parts 1301, 1304, and 1305 of the CFR.

The conduct identified above at the Blythewood FC shall hereinafter be referred to as "Covered Conduct" and the identified time frame shall be referred to as "Covered Time Period."

The parties agree that this Agreement is not an admission of liability by Patterson, its

employees, or its agents for the Covered Conduct under the CSA nor a concession by the United States that its claims are not well-founded.

To avoid the uncertainty and expense of the adjudication of each claim, and of exhausting all administrative and legal remedies, the Parties desire to reach a mutual agreement that settles the above-referenced allegations without the United States filing a civil suit.

STIPULATIONS

In consideration of the foregoing and the mutual promises and obligations contained in this Agreement, the Parties agree and covenant as follows:

1. Patterson shall pay $45,500 (the "Settlement Amount") to the United States no later than 10 business days after counsel for Patterson receives the written electronic funds transfer instructions by the United States Attorney for the District of South Carolina.

2. By signing this Settlement Agreement, Patterson agrees to waive all rights to seek judicial review or to challenge or contest the validity of any terms or conditions of this Settlement Agreement.

3. Subject to the exceptions in Paragraph 5 (concerning excluded claims) below, and conditioned upon Patterson's full payment of the Settlement Amount under this Agreement, the United States agrees to refrain from filing against Patterson any action for civil penalty claims under the CSA that is based on the Covered Conduct. In further consideration of Patterson's fulfillment of its obligations under this Agreement, expressly conditioned upon Patterson's timely paying the Settlement Amount and subject to the exceptions in Paragraph 5 (concerning excluded claims), below, the United States fully and finally releases Patterson and its parent, affiliates, insurers, agents, assigns, successors, predecessors, shareholders, principals, current and former employees,

management, officers, and directors from any civil or administrative claims the United States has, could have, or may assert in the future related to the Covered Conduct during the Covered Time Period.

4. Patterson fully and finally releases the United States, its agencies, officers, employees, servants, and agents from any claims (including without limitation attorney's fees, costs, and expenses of every kind and however denominated) that Patterson has asserted, could have asserted, or may assert in the future against the United States, its agencies, officers, employees, and servants, and agents related to the Covered Conduct and the United States' investigation and prosecution thereof.

5. Notwithstanding the release given in Paragraph 3 of this Settlement Agreement, or any other terms of this Agreement, the following claims of the United States are specifically reserved and not released:

a. Any liability arising under Title 26 of the United States Code;

b. Any criminal liability;

c. Any liability under the False Claims Act, 31 U.S.C. § 3729, or the Program Fraud Civil Remedies Act, 31 U.S.C. §§ 3801-3812;

d. Any liability to the United States (or its agencies) for any conduct other than the Covered Conduct;

e. Except as explicitly stated in this Agreement, any administrative liability, including the suspension and debarment rights of any federal agency;

f. Any liability based upon obligations created by this Agreement; and

g. Any liability of individuals except as expressly stated in Paragraph 3 of this Agreement.

6. Nothing in this Agreement shall prevent, preclude, limit, or prejudice the right of the United States to enforce the CSA by commencing a civil or administrative action against Patterson

for violations of the CSA unrelated to the violations identified in the audit conducted between January 31, 2023 and February 2, 2023. Nothing in this Agreement, however, waives or limits Patterson's right or ability to raise any defenses to such an action.

7. The obligations imposed upon the United States and Patterson pursuant to this Agreement are in addition to, and not in derogation of, all requirements imposed upon each party pursuant to all applicable federal, state, and local laws and regulations, including, but not limited to the requirements in the CSA and its implementing regulations.

8. Nothing in this Agreement constitutes an agreement by the United States concerning the characterization of the Settlement Amount for purposes of the Internal Revenue Laws, Title 26 of the United States Code.

9. The Parties agree that any and all costs they have, will, or may incur, in connection with this matter—including payment of the Settlement Amount under this Agreement, attorneys' fees, costs of investigation, negotiation, past and future compliance efforts, and remedial action—shall be unallowable costs (as defined in the Federal Acquisition Regulation, 48 C.F.R. § 31.205-47; and in Titles XVII and IXI of the Social Security Act, 42 U.S.C. §§ 1395-1395lll and 1396-1396w-5; and the regulations and official program directives promulgated thereunder) for government contracting accounting and for purposes of any government reimbursement program.

10. This Agreement is intended to be for the benefit of the Parties only. It does not provide any rights or benefits to third parties. The Parties do not release any claims against any other person or entity except as provided in Paragraph 15.

11. This Settlement Agreement may not be changed, altered, or modified except in writing signed by the parties hereto.

12. The Parties agree to bear their own respective costs and fees (including without

limitation attorneys' fees) incurred in connection with this matter, including those incurred in the preparation and performance of this Agreement.

13. The Parties acknowledge their promises in this Agreement are provided in exchange or valuable consideration provided by and through this Agreement.

14. The Parties consent to the United States' disclosure of this Agreement and information about this Agreement to the public.

15. This Settlement Agreement shall be binding upon and inure to the benefit of the assigns, successors-in-interest, or transferees of the Parties.

16. Each of the signatories to this Settlement Agreement represents and warrants that it/he/she has the full power and authority to enter into this Settlement Agreement on behalf of the person and entities indicated below, and further represents that it/he/she freely and voluntarily enters into this Agreement without any degree of duress or compulsion. Facsimiles of signatures and electronic transmissions of signatures (including transmittal and receipt of PDF versions of signatures) shall constitute acceptable, binding signatures for purposes of this Agreement.

17. The Settlement Agreement shall be final once signed by all parties below and shall be effective on the date the last signature is obtained. The Agreement may be executed in counterparts, each of which constitutes an original and all of which constitutes one and the same agreement.

18. This Settlement Agreement constitutes the complete agreement between the Parties with respect to the settlement of the United States' civil and administrative CSA claims against Patterson on the Covered Conduct from the Covered Time.

19. This Agreement is governed by the laws of the United States. The exclusive jurisdiction and venue for any dispute relating to the Agreement is the United States District Court for the District of South Carolina.

20. For purposes of construing this Agreement, this Agreement shall be deemed to have been drafted by all Parties to this Agreement and shall not, therefore, be construed against any Party for that reason in any subsequent dispute.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. KO8188865

Application/License No. _____

Patterson Logistics Services, Inc. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 800 Monte Vista Drive, Dinuba, CA 93618 (Address of Applicant/Principal), as PRINCIPAL, and Westchester Fire Insurance Company (Surety Company), a corporation organized under the laws of the state of New York (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 1601 Chestnut Street, Philadelphia, PA 19101 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on September 29, 2008 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal

may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.

(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.

(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.

(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.

(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.

(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.

(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 29th day of September, 20 08.

Power of Attorney

324011

WESTCHESTER FIRE INSURANCE COMPANY

1261428

Know all men by these presents: That **WESTCHESTER FIRE INSURANCE COMPANY**, a corporation of the State of New York, having its principal office in the City of Atlanta, Georgia, pursuant to the following Resolution, adopted by the Board of Directors of the said Company on December 11, 2006, to wit:

"RESOLVED, that the following authorizations relate to the execution for and on behalf of the Company, of bonds, undertakings, recognizances, contracts and other written commitments of the Company entered into the ordinary course of business (each a "Written Commitment"):

(1) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise.

(2) Each duly appointed attorney-in-fact of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise, to the extent that such action is authorized by the grant of powers provided for in such person's written appointment as such attorney-in-fact.

(3) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to appoint in writing any person the attorney-in-fact of the Company with full power and authority to execute, for and on behalf of the Company, under the seal of the Company or otherwise, such Written Commitments of the Company as may be specified in such written appointment, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(4) Each of the Chairman, the President and Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to delegate in writing to any other officer of the Company the authority to execute, for and on behalf of the Company, under the Company's seal or otherwise, such Written Commitments of the Company as are specified in such written delegation, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(5) The signature of any officer or other person executing any Written Commitment or appointment or delegation pursuant to this Resolution, and the seal of the Company, may be affixed by facsimile on such Written Commitment or written appointment or delegation.

FURTHER RESOLVED, that the foregoing Resolution shall not be deemed to be an exclusive statement of the powers and authority of officers, employees and other persons to act for and on behalf of the Company, and such Resolution shall not limit or otherwise affect the exercise of any such power or authority otherwise validly granted or vested.

FURTHER RESOLVED, that the Resolution of the Board of Directors of the Company adopted at the meeting held on November 8, 1999 relating to the authorization of certain persons to execute, for and on behalf of the Company, Written Commitments and appointments and delegations, is hereby rescinded."

Does hereby nominate, constitute and appoint PAMELA A. BEELMAN, HEIDI A. NOTHEISEN, CYNTHIA L. HANAK, DEBRA C. SCHNEIDER, JOANN R. FRANK, KAREN L. ROIDER and SANDRA L. HAM all of the City of Saint Louis, State of Missouri, each individually if there be more than one named, its true and lawful attorney-in-fact, to make, execute, seal and deliver on its behalf, and as its act and deed any and all bonds, undertakings, recognizances, contracts and other writings in the nature thereof in penalties not exceeding Twenty Million Dollars ($20,000,000) and the execution of such writings in pursuance of these presents shall be as binding upon said Company, as fully and amply as if they had been duly executed and acknowledged by the regularly elected officers of the Company at its principal office.

IN WITNESS WHEREOF, the said Stephen M. Haney, Vice-President, has hereunto subscribed his name and affixed the corporate seal of the said **WESTCHESTER FIRE INSURANCE COMPANY** this 30th day of May 2008.

WESTCHESTER FIRE INSURANCE COMPANY

Stephen M. Haney, Vice President

COMMONWEALTH OF PENNSYLVANIA
COUNTY OF PHILADELPHIA ss.

On this 30th day of May, A.D. 2008, before me, a Notary Public of the Commonwealth of Pennsylvania in and for the County of Philadelphia came Stephen M. Haney, Vice-President of the **WESTCHESTER FIRE INSURANCE COMPANY** to me personally known to be the individual and officer who executed the preceding instrument, and he acknowledged that he executed the same, and that the seal affixed to the preceding instrument is the corporate seal of said Company; that the said corporate seal and his signature were duly affixed by the authority and direction of the said corporation, and that Resolution, adopted by the Board of Directors of said Company, referred to in the preceding instrument, is now in force.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed my official seal at the City of Philadelphia the day and year first above written.

CERTIFICATION

Resolutions adopted by the Boards of Directors of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, and PACIFIC INDEMNITY COMPANY on August 30, 2016; WESTCHESTER FIRE INSURANCE COMPANY on December 11, 2006; and ACE AMERICAN INSURANCE COMPANY on March 20, 2009:

"RESOLVED, that the following authorizations relate to the execution, for and on behalf of the Company, of bonds, undertakings, recognizances, contracts and other written commitments of the Company entered into in the ordinary course of business (each a "Written Commitment"):

(1) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise.

(2) Each duly appointed attorney-in-fact of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise, to the extent that such action is authorized by the grant of powers provided for in such person's written appointment as such attorney-in-fact.

(3) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to appoint in writing any person the attorney-in-fact of the Company with full power and authority to execute, for and on behalf of the Company, under the seal of the Company or otherwise, such Written Commitments of the Company as may be specified in such written appointment, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(4) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to delegate in writing to any other officer of the Company the authority to execute, for and on behalf of the Company, under the Company's seal or otherwise, such Written Commitments of the Company as are specified in such written delegation, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(5) The signature of any officer or other person executing any Written Commitment or appointment or delegation pursuant to this Resolution, and the seal of the Company, may be affixed by facsimile on such Written Commitment or written appointment or delegation.

FURTHER RESOLVED, that the foregoing Resolution shall not be deemed to be an exclusive statement of the powers and authority of officers, employees and other persons to act for and on behalf of the Company, and such Resolution shall not limit or otherwise affect the exercise of any such power or authority otherwise validly granted or vested."

I, Rupert HD Swindells, Assistant Secretary of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY (the "Companies") do hereby certify that

(i) the foregoing Resolutions adopted by the Board of Directors of the Companies are true, correct and in full force and effect,
(ii) the foregoing Power of Attorney is true, correct and in full force and effect.

Given under my hand and seals of said Companies at Whitehouse Station, NJ, this February 27, 2025

Section 8: Arrests, Detentions, Litigations, Arbitrations.	Yes	No
1. Have you ever been convicted of, or entered, a plea of guilty, guilty by mentally ill or nolo contendere to any criminal offense or civil violation, federal or state, for any reason whatsoever, regardless of the disposition of the event? (Except minor traffic citations.)		✓
2. If you answered "yes" to question 1, was the offense or violation related to drugs, including prescription drugs and/or controlled substances, the manufacturer or distribution of drugs or the practice of pharmacy?		
3. Have you ever had a civil or criminal record expunged or sealed by a court order?		✓
4. Have you, as an individual, member or a company, partner, or owner, director or officer of a corporation, ever been a party to a lawsuit as either a plaintiff or defendant (including any administrative proceedings before a licensing board) or of an arbitration as either a claimant or respondent? (Other than divorces.)		✓
5. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) been a party to a lawsuit (including any administrative proceedings before a licensing board), arbitration or bankruptcy?		✓
6. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer or director) ever appeared before any licensing agency or similar authority in or outside the State of Nevada for any reason whatsoever (including any disciplinary or board citation)?		✓
7. Have you ever been denied a personal license, permit, certificate or registration for a privileged, occupational or professional activity?		✓
8. Has any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner member, officer or director) ever been refused a business license.		✓
9. Have you or any general or limited partnership, company or limited liability company, business venture, sole proprietorship or closely held corporation, corporation (while you were associated with it as an owner, partner, member, officer, or director) ever surrendered a license, permit, certificate or registration relating to the pharmaceutical industry voluntarily or otherwise (other than upon voluntary closure of a manufacturer).		✓
10. Have you been diagnosed or treated for any mental illness, including alcohol or substance abuse, or physical condition that would impair your ability to perform the essential functions of your license?		✓

Please use and make copies of this page (if necessary) to provide information regarding any questions, 1-10, you have marked "YES" to in section 8 of the application. A signed statement of explanation for each event and a copy of all documents that identify the circumstance or contain an order, agreement or other disposition for the event must be provided.

This is in response to Question # 3. Provide all the following *where applicable*:

Date of Event/Arrest	Disposition Date	State	City	County
01.22.2024		SC	Blythewood	Richland
Case #		**Governing, licensing, Arresting Presiding Body/Agency/Court**		
		District of South Carolina on behalf of Drug Enforcement Agency		
Reason/Charge				
Plaintiff/Defendant/Claimant/Respondent		**Lawsuit/Arbitration/Bankruptcy**		
Name of Business/Industry/Entity				
Patterson Logistics Services, Inc.				

Provide explanation below:

On January 22, 2024, Patterson Logistics Services, Inc. ("PLSI") entered into a Settlement Agreement with the United States Attorney's Office for the District of South Carolina ("DOJ"), acting on behalf of the Drug Enforcement Administration ("DEA"), in which PLSI agreed to pay a fine of $45,500 with no associated admission of liability or guilt by PLSI. The allegations of the DEA are related primarily to certain record-keeping and reporting violations of the Controlled Substance Act. The DOJ and the DEA were satisfied with Patterson's corrective action measures, such that the matter was settled with no associated Memorandum of Understanding or ongoing reporting requirement for PLSI.

Original Signature (electronic, copies or stamps not accepted)

Date

SETTLEMENT AGREEMENT

This Settlement Agreement ("Agreement") is made and entered into by and between the United States of America, acting through the United States Attorney's Office for the District of South Carolina, on behalf of the Drug Enforcement Administration ("DEA") (collectively, the "United States"), and Patterson Logistic Services Inc. ("Patterson") (together, "the Parties").

RECITALS

Patterson is currently registered with DEA Certificate of Registration #RP0349224 as a distributor authorized to handle controlled substances on Schedules II-V at its registered location, 925 Carolina Pines Boulevard, Suite B, Blythewood, South Carolina 29016 (the "Blythewood FC").

At all times relevant to this Agreement, Patterson was required to operate in accordance with the statutory provisions of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. §§ 801-904, and the regulations promulgated thereunder, 21 C.F.R. Part 1300, *et seq.* (collectively "the CSA.")

Between January 31, 2023, and February 2, 2023, the DEA conducted an inspection at Blythewood FC. As a result of the inspection, the United States contends Patterson violated civil provisions of the CSA. Specifically, the United States contends that from January 31, 2021 through February 2, 2023, in regard to operations at Blythewood FC, Patterson violated certain suspicious order requirements, reporting requirements to ARCOS and order form and recordkeeping requirements pursuant to the CSA, specifically Title 21 Parts 1301, 1304, and 1305 of the CFR.

The conduct identified above at the Blythewood FC shall hereinafter be referred to as "Covered Conduct" and the identified time frame shall be referred to as "Covered Time Period."

The parties agree that this Agreement is not an admission of liability by Patterson, its

employees, or its agents for the Covered Conduct under the CSA nor a concession by the United States that its claims are not well-founded.

To avoid the uncertainty and expense of the adjudication of each claim, and of exhausting all administrative and legal remedies, the Parties desire to reach a mutual agreement that settles the above-referenced allegations without the United States filing a civil suit.

STIPULATIONS

In consideration of the foregoing and the mutual promises and obligations contained in this Agreement, the Parties agree and covenant as follows:

1. Patterson shall pay $45,500 (the "Settlement Amount") to the United States no later than 10 business days after counsel for Patterson receives the written electronic funds transfer instructions by the United States Attorney for the District of South Carolina.

2. By signing this Settlement Agreement, Patterson agrees to waive all rights to seek judicial review or to challenge or contest the validity of any terms or conditions of this Settlement Agreement.

3. Subject to the exceptions in Paragraph 5 (concerning excluded claims) below, and conditioned upon Patterson's full payment of the Settlement Amount under this Agreement, the United States agrees to refrain from filing against Patterson any action for civil penalty claims under the CSA that is based on the Covered Conduct. In further consideration of Patterson's fulfillment of its obligations under this Agreement, expressly conditioned upon Patterson's timely paying the Settlement Amount and subject to the exceptions in Paragraph 5 (concerning excluded claims), below, the United States fully and finally releases Patterson and its parent, affiliates, insurers, agents, assigns, successors, predecessors, shareholders, principals, current and former employees,

management, officers, and directors from any civil or administrative claims the United States has, could have, or may assert in the future related to the Covered Conduct during the Covered Time Period.

4. Patterson fully and finally releases the United States, its agencies, officers, employees, servants, and agents from any claims (including without limitation attorney's fees, costs, and expenses of every kind and however denominated) that Patterson has asserted, could have asserted, or may assert in the future against the United States, its agencies, officers, employees, and servants, and agents related to the Covered Conduct and the United States' investigation and prosecution thereof.

5. Notwithstanding the release given in Paragraph 3 of this Settlement Agreement, or any other terms of this Agreement, the following claims of the United States are specifically reserved and not released:

a. Any liability arising under Title 26 of the United States Code;

b. Any criminal liability;

c. Any liability under the False Claims Act, 31 U.S.C. § 3729, or the Program Fraud Civil Remedies Act, 31 U.S.C. §§ 3801-3812;

d. Any liability to the United States (or its agencies) for any conduct other than the Covered Conduct;

e. Except as explicitly stated in this Agreement, any administrative liability, including the suspension and debarment rights of any federal agency;

f. Any liability based upon obligations created by this Agreement; and

g. Any liability of individuals except as expressly stated in Paragraph 3 of this Agreement.

6. Nothing in this Agreement shall prevent, preclude, limit, or prejudice the right of the United States to enforce the CSA by commencing a civil or administrative action against Patterson

for violations of the CSA unrelated to the violations identified in the audit conducted between January 31, 2023 and February 2, 2023. Nothing in this Agreement, however, waives or limits Patterson's right or ability to raise any defenses to such an action.

7. The obligations imposed upon the United States and Patterson pursuant to this Agreement are in addition to, and not in derogation of, all requirements imposed upon each party pursuant to all applicable federal, state, and local laws and regulations, including, but not limited to the requirements in the CSA and its implementing regulations.

8. Nothing in this Agreement constitutes an agreement by the United States concerning the characterization of the Settlement Amount for purposes of the Internal Revenue Laws, Title 26 of the United States Code.

9. The Parties agree that any and all costs they have, will, or may incur, in connection with this matter—including payment of the Settlement Amount under this Agreement, attorneys' fees, costs of investigation, negotiation, past and future compliance efforts, and remedial action—shall be unallowable costs (as defined in the Federal Acquisition Regulation, 48 C.F.R. § 31.205-47; and in Titles XVII and IXI of the Social Security Act, 42 U.S.C. §§ 1395-1395lll and 1396-1396w-5; and the regulations and official program directives promulgated thereunder) for government contracting accounting and for purposes of any government reimbursement program.

10. This Agreement is intended to be for the benefit of the Parties only. It does not provide any rights or benefits to third parties. The Parties do not release any claims against any other person or entity except as provided in Paragraph 15.

11. This Settlement Agreement may not be changed, altered, or modified except in writing signed by the parties hereto.

12. The Parties agree to bear their own respective costs and fees (including without

limitation attorneys' fees) incurred in connection with this matter, including those incurred in the preparation and performance of this Agreement.

13. The Parties acknowledge their promises in this Agreement are provided in exchange or valuable consideration provided by and through this Agreement.

14. The Parties consent to the United States' disclosure of this Agreement and information about this Agreement to the public.

15. This Settlement Agreement shall be binding upon and inure to the benefit of the assigns, successors-in-interest, or transferees of the Parties.

16. Each of the signatories to this Settlement Agreement represents and warrants that it/he/she has the full power and authority to enter into this Settlement Agreement on behalf of the person and entities indicated below, and further represents that it/he/she freely and voluntarily enters into this Agreement without any degree of duress or compulsion. Facsimiles of signatures and electronic transmissions of signatures (including transmittal and receipt of PDF versions of signatures) shall constitute acceptable, binding signatures for purposes of this Agreement.

17. The Settlement Agreement shall be final once signed by all parties below and shall be effective on the date the last signature is obtained. The Agreement may be executed in counterparts, each of which constitutes an original and all of which constitutes one and the same agreement.

18. This Settlement Agreement constitutes the complete agreement between the Parties with respect to the settlement of the United States' civil and administrative CSA claims against Patterson on the Covered Conduct from the Covered Time.

19. This Agreement is governed by the laws of the United States. The exclusive jurisdiction and venue for any dispute relating to the Agreement is the United States District Court for the District of South Carolina.

20. For purposes of construing this Agreement, this Agreement shall be deemed to have been drafted by all Parties to this Agreement and shall not, therefore, be construed against any Party for that reason in any subsequent dispute.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. **K41888489**

Application/License No. _____

Patterson Logistics Services, Inc. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is **1905 Lakewood Drive, Boone, IA 50036** (Address of Applicant/Principal), as PRINCIPAL, and **Federal Insurance Company** (Surety Company), a corporation organized under the laws of the state of **Indiana** (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is **202B Halls Mill Road, Whitehouse Station, NJ 08889-3454** (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on **February 25, 2025** (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 25th day of February, 2025.

Power of Attorney

Federal Insurance Company | Vigilant Insurance Company | Pacific Indemnity Company
Westchester Fire Insurance Company | ACE American Insurance Company

Know All by These Presents, that **FEDERAL INSURANCE COMPANY**, an Indiana corporation, **VIGILANT INSURANCE COMPANY**, a New York corporation, **PACIFIC INDEMNITY COMPANY**, a Delaware corporation, **WESTCHESTER FIRE INSURANCE COMPANY** and **ACE AMERICAN INSURANCE COMPANY** corporations of the Commonwealth of Pennsylvania, do each hereby constitute and appoint

Cynthia L. Choren

each as their true and lawful Attorney-in-Fact to execute under such designation in their names and to affix their corporate seals to and deliver for and on their behalf as surety thereon or otherwise, bonds and undertakings and other writings obligatory in the nature thereof (other than bail bonds) given or executed in the course of business, and any instruments amending or altering the same, and consents to the modification or alteration of any instrument referred to in said bonds or obligations.

In Witness Whereof, said **FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY** and **ACE AMERICAN INSURANCE COMPANY** have each executed and attested these presents and affixed their corporate seals on this **19th** day of **July, 2024.**

Rupert HD Swindells Assistant Secretary

Warren Eichhorn Vice President

STATE OF NEW JERSEY
County of Hunterdon ss.

On this **19th** day of **July, 2024** before me, a Notary Public of New Jersey, personally came Rupert HD Swindells and Warren Eichhorn, to me known to be Assistant Secretary and Vice President, respectively, of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY, the companies which executed the foregoing Power of Attorney, and the said Rupert HD Swindells and Warren Eichhorn, being by me duly sworn, severally and each for himself did depose and say that they are Assistant Secretary and Vice President, respectively, of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY and know the corporate seals thereof, that the seals affixed to the foregoing Power of Attorney are such corporate seals and were thereto affixed by authority of said Companies; and that their signatures as such officers were duly affixed and subscribed by like authority.

CERTIFICATION

Resolutions adopted by the Boards of Directors of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, and PACIFIC INDEMNITY COMPANY on August 30, 2016; WESTCHESTER FIRE INSURANCE COMPANY on December 11, 2006; and ACE AMERICAN INSURANCE COMPANY on March 20, 2009:

"RESOLVED, that the following authorizations relate to the execution, for and on behalf of the Company, of bonds, undertakings, recognizances, contracts and other written commitments of the Company entered into in the ordinary course of business (each a "Written Commitment"):

(1) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise.

(2) Each duly appointed attorney-in-fact of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise, to the extent that such action is authorized by the grant of powers provided for in such person's written appointment as such attorney-in-fact.

(3) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to appoint in writing any person the attorney-in-fact of the Company with full power and authority to execute, for and on behalf of the Company, under the seal of the Company or otherwise, such Written Commitments of the Company as may be specified in such written appointment, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(4) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to delegate in writing to any other officer of the Company the authority to execute, for and on behalf of the Company, under the Company's seal or otherwise, such Written Commitments of the Company as are specified in such written delegation, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(5) The signature of any officer or other person executing any Written Commitment or appointment or delegation pursuant to this Resolution, and the seal of the Company, may be affixed by facsimile on such Written Commitment or written appointment or delegation.

FURTHER RESOLVED, that the foregoing Resolution shall not be deemed to be an exclusive statement of the powers and authority of officers, employees and other persons to act for and on behalf of the Company, and such Resolution shall not limit or otherwise affect the exercise of any such power or authority otherwise validly granted or vested."

I, Rupert HD Swindells, Assistant Secretary of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY (the "Companies") do hereby certify that

(i) the foregoing Resolutions adopted by the Board of Directors of the Companies are true, correct and in full force and effect,
(ii) the foregoing Power of Attorney is true, correct and in full force and effect.

Given under my hand and seals of said Companies at Whitehouse Station, NJ, this February 25, 2025

Rupert HD Swindells Assistant Secretary

This is in response to Question # 3 . Provide all the following *where applicable*:

Date of Event/Arrest	Disposition Date	State	City	County
01.22.2024		SC	Blythewood	Richland
Case #		**Governing, licensing, Arresting Presiding Body/Agency/Court**		
		District of South Carolina on behalf of Drug Enforcement Agency		
Reason/Charge				
Plaintiff/Defendant/Claimant/Respondent		**Lawsuit/Arbitration/Bankruptcy**		
Name of Business/Industry/Entity				
Patterson Logistics Services, Inc.				

Provide explanation below:

On January 22, 2024, Patterson Logistics Services, Inc. ("PLSI") entered into a Settlement Agreement with the United States Attorney's Office for the District of South Carolina ("DOJ"), acting on behalf of the Drug Enforcement Administration ("DEA"), in which PLSI agreed to pay a fine of $45,500 with no associated admission of liability or guilt by PLSI. The allegations of the DEA are related primarily to certain record-keeping and reporting violations of the Controlled Substance Act. The DOJ and the DEA were satisfied with Patterson's corrective action measures, such that the matter was settled with no associated Memorandum of Understanding or ongoing reporting requirement for PLSI.

SETTLEMENT AGREEMENT

This Settlement Agreement ("Agreement") is made and entered into by and between the United States of America, acting through the United States Attorney's Office for the District of South Carolina, on behalf of the Drug Enforcement Administration ("DEA") (collectively, the "United States"), and Patterson Logistic Services Inc. ("Patterson") (together, "the Parties").

RECITALS

Patterson is currently registered with DEA Certificate of Registration #RP0349224 as a distributor authorized to handle controlled substances on Schedules II-V at its registered location, 925 Carolina Pines Boulevard, Suite B, Blythewood, South Carolina 29016 (the "Blythewood FC").

At all times relevant to this Agreement, Patterson was required to operate in accordance with the statutory provisions of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. §§ 801-904, and the regulations promulgated thereunder, 21 C.F.R. Part 1300, *et seq.* (collectively "the CSA.")

Between January 31, 2023, and February 2, 2023, the DEA conducted an inspection at Blythewood FC. As a result of the inspection, the United States contends Patterson violated civil provisions of the CSA. Specifically, the United States contends that from January 31, 2021 through February 2, 2023, in regard to operations at Blythewood FC, Patterson violated certain suspicious order requirements, reporting requirements to ARCOS and order form and recordkeeping requirements pursuant to the CSA, specifically Title 21 Parts 1301, 1304, and 1305 of the CFR.

The conduct identified above at the Blythewood FC shall hereinafter be referred to as "Covered Conduct" and the identified time frame shall be referred to as "Covered Time Period."

The parties agree that this Agreement is not an admission of liability by Patterson, its

employees, or its agents for the Covered Conduct under the CSA nor a concession by the United States that its claims are not well-founded.

To avoid the uncertainty and expense of the adjudication of each claim, and of exhausting all administrative and legal remedies, the Parties desire to reach a mutual agreement that settles the above-referenced allegations without the United States filing a civil suit.

STIPULATIONS

In consideration of the foregoing and the mutual promises and obligations contained in this Agreement, the Parties agree and covenant as follows:

1. Patterson shall pay $45,500 (the "Settlement Amount") to the United States no later than 10 business days after counsel for Patterson receives the written electronic funds transfer instructions by the United States Attorney for the District of South Carolina.

2. By signing this Settlement Agreement, Patterson agrees to waive all rights to seek judicial review or to challenge or contest the validity of any terms or conditions of this Settlement Agreement.

3. Subject to the exceptions in Paragraph 5 (concerning excluded claims) below, and conditioned upon Patterson's full payment of the Settlement Amount under this Agreement, the United States agrees to refrain from filing against Patterson any action for civil penalty claims under the CSA that is based on the Covered Conduct. In further consideration of Patterson's fulfillment of its obligations under this Agreement, expressly conditioned upon Patterson's timely paying the Settlement Amount and subject to the exceptions in Paragraph 5 (concerning excluded claims), below, the United States fully and finally releases Patterson and its parent, affiliates, insurers, agents, assigns, successors, predecessors, shareholders, principals, current and former employees,

management, officers, and directors from any civil or administrative claims the United States has, could have, or may assert in the future related to the Covered Conduct during the Covered Time Period.

4. Patterson fully and finally releases the United States, its agencies, officers, employees, servants, and agents from any claims (including without limitation attorney's fees, costs, and expenses of every kind and however denominated) that Patterson has asserted, could have asserted, or may assert in the future against the United States, its agencies, officers, employees, and servants, and agents related to the Covered Conduct and the United States' investigation and prosecution thereof.

5. Notwithstanding the release given in Paragraph 3 of this Settlement Agreement, or any other terms of this Agreement, the following claims of the United States are specifically reserved and not released:

a. Any liability arising under Title 26 of the United States Code;

b. Any criminal liability;

c. Any liability under the False Claims Act, 31 U.S.C. § 3729, or the Program Fraud Civil Remedies Act, 31 U.S.C. §§ 3801-3812;

d. Any liability to the United States (or its agencies) for any conduct other than the Covered Conduct;

e. Except as explicitly stated in this Agreement, any administrative liability, including the suspension and debarment rights of any federal agency;

f. Any liability based upon obligations created by this Agreement; and

g. Any liability of individuals except as expressly stated in Paragraph 3 of this Agreement.

6. Nothing in this Agreement shall prevent, preclude, limit, or prejudice the right of the United States to enforce the CSA by commencing a civil or administrative action against Patterson

for violations of the CSA unrelated to the violations identified in the audit conducted between January 31, 2023 and February 2, 2023. Nothing in this Agreement, however, waives or limits Patterson's right or ability to raise any defenses to such an action.

7. The obligations imposed upon the United States and Patterson pursuant to this Agreement are in addition to, and not in derogation of, all requirements imposed upon each party pursuant to all applicable federal, state, and local laws and regulations, including, but not limited to the requirements in the CSA and its implementing regulations.

8. Nothing in this Agreement constitutes an agreement by the United States concerning the characterization of the Settlement Amount for purposes of the Internal Revenue Laws, Title 26 of the United States Code.

9. The Parties agree that any and all costs they have, will, or may incur, in connection with this matter—including payment of the Settlement Amount under this Agreement, attorneys' fees, costs of investigation, negotiation, past and future compliance efforts, and remedial action—shall be unallowable costs (as defined in the Federal Acquisition Regulation, 48 C.F.R. § 31.205-47; and in Titles XVII and IXI of the Social Security Act, 42 U.S.C. §§ 1395-1395lll and 1396-1396w-5; and the regulations and official program directives promulgated thereunder) for government contracting accounting and for purposes of any government reimbursement program.

10. This Agreement is intended to be for the benefit of the Parties only. It does not provide any rights or benefits to third parties. The Parties do not release any claims against any other person or entity except as provided in Paragraph 15.

11. This Settlement Agreement may not be changed, altered, or modified except in writing signed by the parties hereto.

12. The Parties agree to bear their own respective costs and fees (including without

limitation attorneys' fees) incurred in connection with this matter, including those incurred in the preparation and performance of this Agreement.

13. The Parties acknowledge their promises in this Agreement are provided in exchange or valuable consideration provided by and through this Agreement.

14. The Parties consent to the United States' disclosure of this Agreement and information about this Agreement to the public.

15. This Settlement Agreement shall be binding upon and inure to the benefit of the assigns, successors-in-interest, or transferees of the Parties.

16. Each of the signatories to this Settlement Agreement represents and warrants that it/he/she has the full power and authority to enter into this Settlement Agreement on behalf of the person and entities indicated below, and further represents that it/he/she freely and voluntarily enters into this Agreement without any degree of duress or compulsion. Facsimiles of signatures and electronic transmissions of signatures (including transmittal and receipt of PDF versions of signatures) shall constitute acceptable, binding signatures for purposes of this Agreement.

17. The Settlement Agreement shall be final once signed by all parties below and shall be effective on the date the last signature is obtained. The Agreement may be executed in counterparts, each of which constitutes an original and all of which constitutes one and the same agreement.

18. This Settlement Agreement constitutes the complete agreement between the Parties with respect to the settlement of the United States' civil and administrative CSA claims against Patterson on the Covered Conduct from the Covered Time.

19. This Agreement is governed by the laws of the United States. The exclusive jurisdiction and venue for any dispute relating to the Agreement is the United States District Court for the District of South Carolina.

20. For purposes of construing this Agreement, this Agreement shall be deemed to have been drafted by all Parties to this Agreement and shall not, therefore, be construed against any Party for that reason in any subsequent dispute.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. **K41888507**

Application/License No. _____

Patterson Logistics Services, Inc. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is **925 Carolina Pines Blvd., Suite B, Blythewood, SC 29016** (Address of Applicant/Principal), as PRINCIPAL, and **Federal Insurance Company** (Surety Company), a corporation organized under the laws of the state of **Indiana** (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is **202B Halls Mill Road, Whitehouse Station, NJ 08889-3454** (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on **February 25, 2025** (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

Posted February 20, 2020

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 25th day of February, 2025.

Power of Attorney

Federal Insurance Company | Vigilant Insurance Company | Pacific Indemnity Company
Westchester Fire Insurance Company | ACE American Insurance Company

Know All by These Presents, that **FEDERAL INSURANCE COMPANY**, an Indiana corporation, **VIGILANT INSURANCE COMPANY**, a New York corporation, **PACIFIC INDEMNITY COMPANY**, a Delaware corporation, **WESTCHESTER FIRE INSURANCE COMPANY** and **ACE AMERICAN INSURANCE COMPANY** corporations of the Commonwealth of Pennsylvania, do each hereby constitute and appoint

Cynthia L. Choren

each as their true and lawful Attorney-in-Fact to execute under such designation in their names and to affix their corporate seals to and deliver for and on their behalf as surety thereon or otherwise, bonds and undertakings and other writings obligatory in the nature thereof (other than bail bonds) given or executed in the course of business, and any instruments amending or altering the same, and consents to the modification or alteration of any instrument referred to in said bonds or obligations.

In Witness Whereof, said **FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY** and **ACE AMERICAN INSURANCE COMPANY** have each executed and attested these presents and affixed their corporate seals on this **19th** day of **July, 2024.**

Rupert HD Swindells, Assistant Secretary

Warren Eichhorn, Vice President

STATE OF NEW JERSEY
County of Hunterdon ss.

On this **19th** day of **July, 2024** before me, a Notary Public of New Jersey, personally came Rupert HD Swindells and Warren Eichhorn, to me known to be Assistant Secretary and Vice President, respectively, of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY, the companies which executed the foregoing Power of Attorney, and the said Rupert HD Swindells and Warren Eichhorn, being by me duly sworn, severally and each for himself did depose and say that they are Assistant Secretary and Vice President, respectively, of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY and know the corporate seals thereof, that the seals affixed to the foregoing Power of Attorney are such corporate seals and were thereto affixed by authority of said Companies; and that their signatures as such officers were duly affixed and subscribed by like authority.

CERTIFICATION

Resolutions adopted by the Boards of Directors of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, and PACIFIC INDEMNITY COMPANY on August 30, 2016; WESTCHESTER FIRE INSURANCE COMPANY on December 11, 2006; and ACE AMERICAN INSURANCE COMPANY on March 20, 2009:

"RESOLVED, that the following authorizations relate to the execution, for and on behalf of the Company, of bonds, undertakings, recognizances, contracts and other written commitments of the Company entered into in the ordinary course of business (each a "Written Commitment"):

(1) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise.

(2) Each duly appointed attorney-in-fact of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise, to the extent that such action is authorized by the grant of powers provided for in such person's written appointment as such attorney-in-fact.

(3) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to appoint in writing any person the attorney-in-fact of the Company with full power and authority to execute, for and on behalf of the Company, under the seal of the Company or otherwise, such Written Commitments of the Company as may be specified in such written appointment, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(4) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to delegate in writing to any other officer of the Company the authority to execute, for and on behalf of the Company, under the Company's seal or otherwise, such Written Commitments of the Company as are specified in such written delegation, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(5) The signature of any officer or other person executing any Written Commitment or appointment or delegation pursuant to this Resolution, and the seal of the Company, may be affixed by facsimile on such Written Commitment or written appointment or delegation.

FURTHER RESOLVED, that the foregoing Resolution shall not be deemed to be an exclusive statement of the powers and authority of officers, employees and other persons to act for and on behalf of the Company, and such Resolution shall not limit or otherwise affect the exercise of any such power or authority otherwise validly granted or vested."

I, Rupert HD Swindells, Assistant Secretary of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY (the "Companies") do hereby certify that

(i) the foregoing Resolutions adopted by the Board of Directors of the Companies are true, correct and in full force and effect,
(ii) the foregoing Power of Attorney is true, correct and in full force and effect.

Given under my hand and seals of said Companies at Whitehouse Station, NJ, this February 25, 2025

Rupert HD Swindells, Assistant Secretary

Name of Business/Industry/Entity				
Patterson Logistics Services, Inc.				

Provide explanation below:

On January 22, 2024, Patterson Logistics Services, Inc. ("PLSI") entered into a Settlement Agreement with the United States Attorney's Office for the District of South Carolina ("DOJ"), acting on behalf of the Drug Enforcement Administration ("DEA"), in which PLSI agreed to pay a fine of $45,500 with no associated admission of liability or guilt by PLSI. The allegations of the DEA are related primarily to certain record-keeping and reporting violations of the Controlled Substance Act. The DOJ and the DEA were satisfied with Patterson's corrective action measures, such that the matter was settled with no associated Memorandum of Understanding or ongoing reporting requirement for PLSI.

Original Signature (electronic, copies or stamps not accepted)

SETTLEMENT AGREEMENT

This Settlement Agreement ("Agreement") is made and entered into by and between the United States of America, acting through the United States Attorney's Office for the District of South Carolina, on behalf of the Drug Enforcement Administration ("DEA") (collectively, the "United States"), and Patterson Logistic Services Inc. ("Patterson") (together, "the Parties").

RECITALS

Patterson is currently registered with DEA Certificate of Registration #RP0349224 as a distributor authorized to handle controlled substances on Schedules II-V at its registered location, 925 Carolina Pines Boulevard, Suite B, Blythewood, South Carolina 29016 (the "Blythewood FC").

At all times relevant to this Agreement, Patterson was required to operate in accordance with the statutory provisions of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. §§ 801-904, and the regulations promulgated thereunder, 21 C.F.R. Part 1300, *et seq.* (collectively "the CSA.")

Between January 31, 2023, and February 2, 2023, the DEA conducted an inspection at Blythewood FC. As a result of the inspection, the United States contends Patterson violated civil provisions of the CSA. Specifically, the United States contends that from January 31, 2021 through February 2, 2023, in regard to operations at Blythewood FC, Patterson violated certain suspicious order requirements, reporting requirements to ARCOS and order form and recordkeeping requirements pursuant to the CSA, specifically Title 21 Parts 1301, 1304, and 1305 of the CFR.

The conduct identified above at the Blythewood FC shall hereinafter be referred to as "Covered Conduct" and the identified time frame shall be referred to as "Covered Time Period."

The parties agree that this Agreement is not an admission of liability by Patterson, its

employees, or its agents for the Covered Conduct under the CSA nor a concession by the United States that its claims are not well-founded.

To avoid the uncertainty and expense of the adjudication of each claim, and of exhausting all administrative and legal remedies, the Parties desire to reach a mutual agreement that settles the above-referenced allegations without the United States filing a civil suit.

STIPULATIONS

In consideration of the foregoing and the mutual promises and obligations contained in this Agreement, the Parties agree and covenant as follows:

1. Patterson shall pay $45,500 (the "Settlement Amount") to the United States no later than 10 business days after counsel for Patterson receives the written electronic funds transfer instructions by the United States Attorney for the District of South Carolina.

2. By signing this Settlement Agreement, Patterson agrees to waive all rights to seek judicial review or to challenge or contest the validity of any terms or conditions of this Settlement Agreement.

3. Subject to the exceptions in Paragraph 5 (concerning excluded claims) below, and conditioned upon Patterson's full payment of the Settlement Amount under this Agreement, the United States agrees to refrain from filing against Patterson any action for civil penalty claims under the CSA that is based on the Covered Conduct. In further consideration of Patterson's fulfillment of its obligations under this Agreement, expressly conditioned upon Patterson's timely paying the Settlement Amount and subject to the exceptions in Paragraph 5 (concerning excluded claims), below, the United States fully and finally releases Patterson and its parent, affiliates, insurers, agents, assigns, successors, predecessors, shareholders, principals, current and former employees,

management, officers, and directors from any civil or administrative claims the United States has, could have, or may assert in the future related to the Covered Conduct during the Covered Time Period.

4. Patterson fully and finally releases the United States, its agencies, officers, employees, servants, and agents from any claims (including without limitation attorney's fees, costs, and expenses of every kind and however denominated) that Patterson has asserted, could have asserted, or may assert in the future against the United States, its agencies, officers, employees, and servants, and agents related to the Covered Conduct and the United States' investigation and prosecution thereof.

5. Notwithstanding the release given in Paragraph 3 of this Settlement Agreement, or any other terms of this Agreement, the following claims of the United States are specifically reserved and not released:

a. Any liability arising under Title 26 of the United States Code;

b. Any criminal liability;

c. Any liability under the False Claims Act, 31 U.S.C. § 3729, or the Program Fraud Civil Remedies Act, 31 U.S.C. §§ 3801-3812;

d. Any liability to the United States (or its agencies) for any conduct other than the Covered Conduct;

e. Except as explicitly stated in this Agreement, any administrative liability, including the suspension and debarment rights of any federal agency;

f. Any liability based upon obligations created by this Agreement; and

g. Any liability of individuals except as expressly stated in Paragraph 3 of this Agreement.

6. Nothing in this Agreement shall prevent, preclude, limit, or prejudice the right of the United States to enforce the CSA by commencing a civil or administrative action against Patterson

for violations of the CSA unrelated to the violations identified in the audit conducted between January 31, 2023 and February 2, 2023. Nothing in this Agreement, however, waives or limits Patterson's right or ability to raise any defenses to such an action.

7. The obligations imposed upon the United States and Patterson pursuant to this Agreement are in addition to, and not in derogation of, all requirements imposed upon each party pursuant to all applicable federal, state, and local laws and regulations, including, but not limited to the requirements in the CSA and its implementing regulations.

8. Nothing in this Agreement constitutes an agreement by the United States concerning the characterization of the Settlement Amount for purposes of the Internal Revenue Laws, Title 26 of the United States Code.

9. The Parties agree that any and all costs they have, will, or may incur, in connection with this matter—including payment of the Settlement Amount under this Agreement, attorneys' fees, costs of investigation, negotiation, past and future compliance efforts, and remedial action—shall be unallowable costs (as defined in the Federal Acquisition Regulation, 48 C.F.R. § 31.205-47; and in Titles XVII and IXI of the Social Security Act, 42 U.S.C. §§ 1395-1395lll and 1396-1396w-5; and the regulations and official program directives promulgated thereunder) for government contracting accounting and for purposes of any government reimbursement program.

10. This Agreement is intended to be for the benefit of the Parties only. It does not provide any rights or benefits to third parties. The Parties do not release any claims against any other person or entity except as provided in Paragraph 15.

11. This Settlement Agreement may not be changed, altered, or modified except in writing signed by the parties hereto.

12. The Parties agree to bear their own respective costs and fees (including without

limitation attorneys' fees) incurred in connection with this matter, including those incurred in the preparation and performance of this Agreement.

13. The Parties acknowledge their promises in this Agreement are provided in exchange or valuable consideration provided by and through this Agreement.

14. The Parties consent to the United States' disclosure of this Agreement and information about this Agreement to the public.

15. This Settlement Agreement shall be binding upon and inure to the benefit of the assigns, successors-in-interest, or transferees of the Parties.

16. Each of the signatories to this Settlement Agreement represents and warrants that it/he/she has the full power and authority to enter into this Settlement Agreement on behalf of the person and entities indicated below, and further represents that it/he/she freely and voluntarily enters into this Agreement without any degree of duress or compulsion. Facsimiles of signatures and electronic transmissions of signatures (including transmittal and receipt of PDF versions of signatures) shall constitute acceptable, binding signatures for purposes of this Agreement.

17. The Settlement Agreement shall be final once signed by all parties below and shall be effective on the date the last signature is obtained. The Agreement may be executed in counterparts, each of which constitutes an original and all of which constitutes one and the same agreement.

18. This Settlement Agreement constitutes the complete agreement between the Parties with respect to the settlement of the United States' civil and administrative CSA claims against Patterson on the Covered Conduct from the Covered Time.

19. This Agreement is governed by the laws of the United States. The exclusive jurisdiction and venue for any dispute relating to the Agreement is the United States District Court for the District of South Carolina.

20. For purposes of construing this Agreement, this Agreement shall be deemed to have been drafted by all Parties to this Agreement and shall not, therefore, be construed against any Party for that reason in any subsequent dispute.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. **K41888490**

Application/License No. _____

Patterson Logistics Services, Inc. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is **6419 South 228th Street, Suite 101, Kent, WA 98032** (Address of Applicant/Principal), as PRINCIPAL, and **Federal Insurance Company** (Surety Company), a corporation organized under the laws of the state of **Indiana** (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is **202B Halls Mill Road, Whitehouse Station, NJ 08889-3454** (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on **February 25, 2025** (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 25th day of February, 2025.

Power of Attorney

Federal Insurance Company | Vigilant Insurance Company | Pacific Indemnity Company
Westchester Fire Insurance Company | ACE American Insurance Company

Know All by These Presents, that **FEDERAL INSURANCE COMPANY**, an Indiana corporation, **VIGILANT INSURANCE COMPANY**, a New York corporation, **PACIFIC INDEMNITY COMPANY**, a Delaware corporation, **WESTCHESTER FIRE INSURANCE COMPANY** and **ACE AMERICAN INSURANCE COMPANY** corporations of the Commonwealth of Pennsylvania, do each hereby constitute and appoint

Cynthia L. Choren

each as their true and lawful Attorney-in-Fact to execute under such designation in their names and to affix their corporate seals to and deliver for and on their behalf as surety thereon or otherwise, bonds and undertakings and other writings obligatory in the nature thereof (other than bail bonds) given or executed in the course of business, and any instruments amending or altering the same, and consents to the modification or alteration of any instrument referred to in said bonds or obligations.

In Witness Whereof, said **FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY** and **ACE AMERICAN INSURANCE COMPANY** have each executed and attested these presents and affixed their corporate seals on this **19th** day of **July, 2024.**

Rupert HD Swindells, Assistant Secretary

Warren Eichhorn, Vice President

STATE OF NEW JERSEY
County of Hunterdon ss.

On this **19th** day of **July, 2024** before me, a Notary Public of New Jersey, personally came Rupert HD Swindells and Warren Eichhorn, to me known to be Assistant Secretary and Vice President, respectively, of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY, the companies which executed the foregoing Power of Attorney, and the said Rupert HD Swindells and Warren Eichhorn, being by me duly sworn, severally and each for himself did depose and say that they are Assistant Secretary and Vice President, respectively, of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY and know the corporate seals thereof, that the seals affixed to the foregoing Power of Attorney are such corporate seals and were thereto affixed by authority of said Companies; and that their signatures as such officers were duly affixed and subscribed by like authority.

CERTIFICATION

Resolutions adopted by the Boards of Directors of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, and PACIFIC INDEMNITY COMPANY on August 30, 2016; WESTCHESTER FIRE INSURANCE COMPANY on December 11, 2006; and ACE AMERICAN INSURANCE COMPANY on March 20, 2009:

"RESOLVED, that the following authorizations relate to the execution, for and on behalf of the Company, of bonds, undertakings, recognizances, contracts and other written commitments of the Company entered into in the ordinary course of business (each a "Written Commitment"):

(1) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise.

(2) Each duly appointed attorney-in-fact of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise, to the extent that such action is authorized by the grant of powers provided for in such person's written appointment as such attorney-in-fact.

(3) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to appoint in writing any person the attorney-in-fact of the Company with full power and authority to execute, for and on behalf of the Company, under the seal of the Company or otherwise, such Written Commitments of the Company as may be specified in such written appointment, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(4) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to delegate in writing to any other officer of the Company the authority to execute, for and on behalf of the Company, under the Company's seal or otherwise, such Written Commitments of the Company as are specified in such written delegation, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(5) The signature of any officer or other person executing any Written Commitment or appointment or delegation pursuant to this Resolution, and the seal of the Company, may be affixed by facsimile on such Written Commitment or written appointment or delegation.

FURTHER RESOLVED, that the foregoing Resolution shall not be deemed to be an exclusive statement of the powers and authority of officers, employees and other persons to act for and on behalf of the Company, and such Resolution shall not limit or otherwise affect the exercise of any such power or authority otherwise validly granted or vested."

I, Rupert HD Swindells, Assistant Secretary of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY (the "Companies") do hereby certify that

(i) the foregoing Resolutions adopted by the Board of Directors of the Companies are true, correct and in full force and effect,
(ii) the foregoing Power of Attorney is true, correct and in full force and effect.

Given under my hand and seals of said Companies at Whitehouse Station, NJ, this February 25, 2025

Rupert HD Swindells, Assistant Secretary

Case #		**Governing, licensing, Arresting Presiding Body/Agency/Court**		
		District of South Carolina on behalf of Drug Enforcement Agency		
Reason/Charge				
Plaintiff/Defendant/Claimant/Respondent		**Lawsuit/Arbitration/Bankruptcy**		
Name of Business/Industry/Entity				
Patterson Logistics Services, Inc.				

Provide explanation below:

On January 22, 2024, Patterson Logistics Services, Inc. ("PLSI") entered into a Settlement Agreement with the United States Attorney's Office for the District of South Carolina ("DOJ"), acting on behalf of the Drug Enforcement Administration ("DEA"), in which PLSI agreed to pay a fine of $45,500 with no associated admission of liability or guilt by PLSI. The allegations of the DEA are related primarily to certain record-keeping and reporting violations of the Controlled Substance Act. The DOJ and the DEA were satisfied with Patterson's corrective action measures, such that the matter was settled with no associated Memorandum of Understanding or ongoing reporting requirement for PLSI.

Original Signature (electronic, copies or stamps not accepted)

Date

SETTLEMENT AGREEMENT

This Settlement Agreement ("Agreement") is made and entered into by and between the United States of America, acting through the United States Attorney's Office for the District of South Carolina, on behalf of the Drug Enforcement Administration ("DEA") (collectively, the "United States"), and Patterson Logistic Services Inc. ("Patterson") (together, "the Parties").

RECITALS

Patterson is currently registered with DEA Certificate of Registration #RP0349224 as a distributor authorized to handle controlled substances on Schedules II-V at its registered location, 925 Carolina Pines Boulevard, Suite B, Blythewood, South Carolina 29016 (the "Blythewood FC").

At all times relevant to this Agreement, Patterson was required to operate in accordance with the statutory provisions of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. §§ 801-904, and the regulations promulgated thereunder, 21 C.F.R. Part 1300, *et seq.* (collectively "the CSA.")

Between January 31, 2023, and February 2, 2023, the DEA conducted an inspection at Blythewood FC. As a result of the inspection, the United States contends Patterson violated civil provisions of the CSA. Specifically, the United States contends that from January 31, 2021 through February 2, 2023, in regard to operations at Blythewood FC, Patterson violated certain suspicious order requirements, reporting requirements to ARCOS and order form and recordkeeping requirements pursuant to the CSA, specifically Title 21 Parts 1301, 1304, and 1305 of the CFR.

The conduct identified above at the Blythewood FC shall hereinafter be referred to as "Covered Conduct" and the identified time frame shall be referred to as "Covered Time Period."

The parties agree that this Agreement is not an admission of liability by Patterson, its

employees, or its agents for the Covered Conduct under the CSA nor a concession by the United States that its claims are not well-founded.

To avoid the uncertainty and expense of the adjudication of each claim, and of exhausting all administrative and legal remedies, the Parties desire to reach a mutual agreement that settles the above-referenced allegations without the United States filing a civil suit.

STIPULATIONS

In consideration of the foregoing and the mutual promises and obligations contained in this Agreement, the Parties agree and covenant as follows:

1. Patterson shall pay $45,500 (the "Settlement Amount") to the United States no later than 10 business days after counsel for Patterson receives the written electronic funds transfer instructions by the United States Attorney for the District of South Carolina.

2. By signing this Settlement Agreement, Patterson agrees to waive all rights to seek judicial review or to challenge or contest the validity of any terms or conditions of this Settlement Agreement.

3. Subject to the exceptions in Paragraph 5 (concerning excluded claims) below, and conditioned upon Patterson's full payment of the Settlement Amount under this Agreement, the United States agrees to refrain from filing against Patterson any action for civil penalty claims under the CSA that is based on the Covered Conduct. In further consideration of Patterson's fulfillment of its obligations under this Agreement, expressly conditioned upon Patterson's timely paying the Settlement Amount and subject to the exceptions in Paragraph 5 (concerning excluded claims), below, the United States fully and finally releases Patterson and its parent, affiliates, insurers, agents, assigns, successors, predecessors, shareholders, principals, current and former employees,

management, officers, and directors from any civil or administrative claims the United States has, could have, or may assert in the future related to the Covered Conduct during the Covered Time Period.

4. Patterson fully and finally releases the United States, its agencies, officers, employees, servants, and agents from any claims (including without limitation attorney's fees, costs, and expenses of every kind and however denominated) that Patterson has asserted, could have asserted, or may assert in the future against the United States, its agencies, officers, employees, and servants, and agents related to the Covered Conduct and the United States' investigation and prosecution thereof.

5. Notwithstanding the release given in Paragraph 3 of this Settlement Agreement, or any other terms of this Agreement, the following claims of the United States are specifically reserved and not released:

a. Any liability arising under Title 26 of the United States Code;

b. Any criminal liability;

c. Any liability under the False Claims Act, 31 U.S.C. § 3729, or the Program Fraud Civil Remedies Act, 31 U.S.C. §§ 3801-3812;

d. Any liability to the United States (or its agencies) for any conduct other than the Covered Conduct;

e. Except as explicitly stated in this Agreement, any administrative liability, including the suspension and debarment rights of any federal agency;

f. Any liability based upon obligations created by this Agreement; and

g. Any liability of individuals except as expressly stated in Paragraph 3 of this Agreement.

6. Nothing in this Agreement shall prevent, preclude, limit, or prejudice the right of the United States to enforce the CSA by commencing a civil or administrative action against Patterson

for violations of the CSA unrelated to the violations identified in the audit conducted between January 31, 2023 and February 2, 2023. Nothing in this Agreement, however, waives or limits Patterson's right or ability to raise any defenses to such an action.

7. The obligations imposed upon the United States and Patterson pursuant to this Agreement are in addition to, and not in derogation of, all requirements imposed upon each party pursuant to all applicable federal, state, and local laws and regulations, including, but not limited to the requirements in the CSA and its implementing regulations.

8. Nothing in this Agreement constitutes an agreement by the United States concerning the characterization of the Settlement Amount for purposes of the Internal Revenue Laws, Title 26 of the United States Code.

9. The Parties agree that any and all costs they have, will, or may incur, in connection with this matter—including payment of the Settlement Amount under this Agreement, attorneys' fees, costs of investigation, negotiation, past and future compliance efforts, and remedial action—shall be unallowable costs (as defined in the Federal Acquisition Regulation, 48 C.F.R. § 31.205-47; and in Titles XVII and IXI of the Social Security Act, 42 U.S.C. §§ 1395-1395lll and 1396-1396w-5; and the regulations and official program directives promulgated thereunder) for government contracting accounting and for purposes of any government reimbursement program.

10. This Agreement is intended to be for the benefit of the Parties only. It does not provide any rights or benefits to third parties. The Parties do not release any claims against any other person or entity except as provided in Paragraph 15.

11. This Settlement Agreement may not be changed, altered, or modified except in writing signed by the parties hereto.

12. The Parties agree to bear their own respective costs and fees (including without

limitation attorneys' fees) incurred in connection with this matter, including those incurred in the preparation and performance of this Agreement.

13. The Parties acknowledge their promises in this Agreement are provided in exchange or valuable consideration provided by and through this Agreement.

14. The Parties consent to the United States' disclosure of this Agreement and information about this Agreement to the public.

15. This Settlement Agreement shall be binding upon and inure to the benefit of the assigns, successors-in-interest, or transferees of the Parties.

16. Each of the signatories to this Settlement Agreement represents and warrants that it/he/she has the full power and authority to enter into this Settlement Agreement on behalf of the person and entities indicated below, and further represents that it/he/she freely and voluntarily enters into this Agreement without any degree of duress or compulsion. Facsimiles of signatures and electronic transmissions of signatures (including transmittal and receipt of PDF versions of signatures) shall constitute acceptable, binding signatures for purposes of this Agreement.

17. The Settlement Agreement shall be final once signed by all parties below and shall be effective on the date the last signature is obtained. The Agreement may be executed in counterparts, each of which constitutes an original and all of which constitutes one and the same agreement.

18. This Settlement Agreement constitutes the complete agreement between the Parties with respect to the settlement of the United States' civil and administrative CSA claims against Patterson on the Covered Conduct from the Covered Time.

19. This Agreement is governed by the laws of the United States. The exclusive jurisdiction and venue for any dispute relating to the Agreement is the United States District Court for the District of South Carolina.

20. For purposes of construing this Agreement, this Agreement shall be deemed to have been drafted by all Parties to this Agreement and shall not, therefore, be construed against any Party for that reason in any subsequent dispute.

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. **K41888477**

Application/License No. _____

Patterson Logistics Services, Inc. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is **7055 Cleveland Road, South Bend, IN 46628** (Address of Applicant/Principal), as PRINCIPAL, and **Federal Insurance Company** (Surety Company), a corporation organized under the laws of the state of **Indiana** (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is **202B Halls Mill Road, Whitehouse Station, NJ 08889-3454** (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of TWENTY-FIVE THOUSAND DOLLARS ($25,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on **February 25, 2025** (Effective Date).

WHEREAS, the provisions of Nevada Revised Statue (NRS) 639.515 and Nevada Administrative Code (NAC) 639.5937 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $25,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.
(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and NAC 639.5937 and said bond shall be subject to all of the terms and provisions thereof.
(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.
(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515 and NAC 639.5937. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.
(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.
(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.
(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 25th day of February, 2025.

Power of Attorney

Federal Insurance Company | Vigilant Insurance Company | Pacific Indemnity Company
Westchester Fire Insurance Company | ACE American Insurance Company

Know All by These Presents, that **FEDERAL INSURANCE COMPANY**, an Indiana corporation, **VIGILANT INSURANCE COMPANY**, a New York corporation, **PACIFIC INDEMNITY COMPANY**, a Delaware corporation, **WESTCHESTER FIRE INSURANCE COMPANY** and **ACE AMERICAN INSURANCE COMPANY** corporations of the Commonwealth of Pennsylvania, do each hereby constitute and appoint

Cynthia L. Choren

each as their true and lawful Attorney-in-Fact to execute under such designation in their names and to affix their corporate seals to and deliver for and on their behalf as surety thereon or otherwise, bonds and undertakings and other writings obligatory in the nature thereof (other than bail bonds) given or executed in the course of business, and any instruments amending or altering the same, and consents to the modification or alteration of any instrument referred to in said bonds or obligations.

In Witness Whereof, said **FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY** and **ACE AMERICAN INSURANCE COMPANY** have each executed and attested these presents and affixed their corporate seals on this **19th** day of **July, 2024**.

Rupert HD Swindells, Assistant Secretary

Warren Eichhorn, Vice President

STATE OF NEW JERSEY
County of Hunterdon ss.

On this **19th** day of **July, 2024** before me, a Notary Public of New Jersey, personally came Rupert HD Swindells and Warren Eichhorn, to me known to be Assistant Secretary and Vice President, respectively, of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY, the companies which executed the foregoing Power of Attorney, and the said Rupert HD Swindells and Warren Eichhorn, being by me duly sworn, severally and each for himself did depose and say that they are Assistant Secretary and Vice President, respectively, of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY and know the corporate seals thereof, that the seals affixed to the foregoing Power of Attorney are such corporate seals and were thereto affixed by authority of said Companies; and that their signatures as such officers were duly affixed and subscribed by like authority.

CERTIFICATION

Resolutions adopted by the Boards of Directors of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, and PACIFIC INDEMNITY COMPANY on August 30, 2016; WESTCHESTER FIRE INSURANCE COMPANY on December 11, 2006; and ACE AMERICAN INSURANCE COMPANY on March 20, 2009:

"RESOLVED, that the following authorizations relate to the execution, for and on behalf of the Company, of bonds, undertakings, recognizances, contracts and other written commitments of the Company entered into in the ordinary course of business (each a "Written Commitment"):

(1) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise.

(2) Each duly appointed attorney-in-fact of the Company is hereby authorized to execute any Written Commitment for and on behalf of the Company, under the seal of the Company or otherwise, to the extent that such action is authorized by the grant of powers provided for in such person's written appointment as such attorney-in-fact.

(3) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to appoint in writing any person the attorney-in-fact of the Company with full power and authority to execute, for and on behalf of the Company, under the seal of the Company or otherwise, such Written Commitments of the Company as may be specified in such written appointment, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(4) Each of the Chairman, the President and the Vice Presidents of the Company is hereby authorized, for and on behalf of the Company, to delegate in writing to any other officer of the Company the authority to execute, for and on behalf of the Company, under the Company's seal or otherwise, such Written Commitments of the Company as are specified in such written delegation, which specification may be by general type or class of Written Commitments or by specification of one or more particular Written Commitments.

(5) The signature of any officer or other person executing any Written Commitment or appointment or delegation pursuant to this Resolution, and the seal of the Company, may be affixed by facsimile on such Written Commitment or written appointment or delegation.

FURTHER RESOLVED, that the foregoing Resolution shall not be deemed to be an exclusive statement of the powers and authority of officers, employees and other persons to act for and on behalf of the Company, and such Resolution shall not limit or otherwise affect the exercise of any such power or authority otherwise validly granted or vested."

I, Rupert HD Swindells, Assistant Secretary of FEDERAL INSURANCE COMPANY, VIGILANT INSURANCE COMPANY, PACIFIC INDEMNITY COMPANY, WESTCHESTER FIRE INSURANCE COMPANY and ACE AMERICAN INSURANCE COMPANY (the "Companies") do hereby certify that

(i) the foregoing Resolutions adopted by the Board of Directors of the Companies are true, correct and in full force and effect,
(ii) the foregoing Power of Attorney is true, correct and in full force and effect.

Given under my hand and seals of said Companies at Whitehouse Station, NJ, this February 25, 2025

Rupert HD Swindells, Assistant Secretary

PHARMACEUTICAL WHOLESALER SURETY BOND

Bond No. K07562019

Application/License No. WH01236

Patterson Dental Supply Inc. (Applicant/Principal), doing or intending to do business as a pharmaceutical wholesaler, whose address for purposes of service is 6555 S. Tenaya Way, Suite 100, Las Vegas, NV 89113 (Address of Applicant/Principal), as PRINCIPAL, and Westchester Fire Insurance Company (Surety Company), a corporation organized under the laws of the state of New York (State of Incorporation) and authorized to transact a general surety business in the State of Nevada, whose address for purposes of service is 525 W. Monroe, Chicago, IL 60661 (Address of Surety) as SURETY, are held and firmly bound unto the State of Nevada and to the Nevada State Board of Pharmacy for the penal sum of ONE HUNDRED THOUSAND DOLLARS ($100,000.00), for which payment we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally, by these presents. This bond term shall become effective on November 1 2006 (Effective Date).

WHEREAS, the provisions of Nevada Revised Statutes (NRS) 639.515 require that the Applicant/Principal file or have on file with the Nevada State Board of Pharmacy (Board) a bond in the sum of $100,000.00 payable to the Nevada State Board of Pharmacy and this bond is executed and tendered in accordance therewith. This bond secures payment of any administrative fines imposed by the Board pursuant to NRS 639.255 and any costs incurred by the Board regarding the license of Applicant/Principal that are impose pursuant to NRS 622.400 or 622.410 which the Applicant/Principal fails to pay.

THIS BOND is subject to the following conditions:

(1) This bond shall be deemed continuous in form and shall remain in full force and effect and shall run concurrently with the license period for which the license is granted and each and every succeeding license period or periods for which said Applicant/Principal

may be licensed, after which liability hereunder shall cease except as to any liability or indebtedness therefore incurred or accrued hereunder.

(2) This bond is executed by the Applicant/Principal and the Surety to comply with the provisions of NRS 639.515 and said bond shall be subject to all of the terms and provisions thereof.

(3) The Surety, its successors and assigns, are jointly and severally liable on the obligations of the bond.

(4) The limitations of the liability of the Surety and the conditions of the bond are set forth in NRS 639.515. Any claim by the Board may be made directly to the Surety and need not be preceded by the filing of any action in a proper court. Payment of any such claim shall be payable to the Nevada State Board of Pharmacy.

(5) The aggregate liability of the Surety hereunder on all claims whatsoever shall not exceed the penal sum of this bond in any event.

(6) This bond may not be cancelled by the Surety without first giving the Board written notice at least thirty days in advance of any intent to cancel the bond.

(7) The Applicant/Principal and Surety may be served with notices, papers and other documents at the addresses given above.

I certify or declare under penalty of perjury, under the laws of the State of Nevada, that I have executed the foregoing bond on behalf of the Surety under an unrevoked power of attorney.

In witness whereof, each party to this bond has caused it to be executed on this 2nd day of October, 20 06

WESTCHESTER FIRE INSURANCE COMPANY

1143373

Know all men by these presents: That **WESTCHESTER FIRE INSURANCE COMPANY**, a corporation of the State of New York, having its principal office in the City of Atlanta, Georgia, pursuant to the following Resolution, adopted by the Board of Directors of the said Company on November 8, 1999, to wit:

"RESOLVED, that the following Rules shall govern the execution for the Company of bonds, undertakings, recognizances, contracts and other writings in the nature thereof.

(1) That the President, any Senior Vice President, any Vice President, and Assistant Vice President, or any Attorney-in-Fact, may execute for and on behalf of the Company any and all bonds, undertakings, recognizances, contracts and other writings in the nature thereof, the same to be attested when necessary by the Corporate Secretary, or any Assistant Corporate Secretary, and the seal of the Company affixed thereto; and that the President, any Senior Vice President, any Vice President or any Assistant Vice President may appoint and authorize any other Officer (elected or appointed) of the Company, as Attorneys-In-Fact to so execute or attest to the execution of all such writings on behalf of the Company and to affix the seal of the Company thereto.

(2) Any such writing executed in accordance with these Rules shall be as binding upon the Company in any case as though signed by the President and attested to by the Corporate Secretary.

(3) The signature of the President, or a Senior Vice President, or a Vice President, or an Assistant Vice President and the seal of the Company may be affixed by facsimile on any power of attorney granted pursuant to this Resolution, and the signature of a certifying Officer and the seal of the Company may be affixed by facsimile to any certificate of any such power, and any such power or certificate bearing such facsimile signature and seal shall be valid and binding on the Company.

(4) Such other Officers of the Company, and Attorneys-In-Fact shall have authority to certify or verify copies of this Resolution, the By-Laws of the Company, and any affidavit or record of the Company necessary to the discharge of their duties.

(5) The passage of this Resolution does not revoke any earlier authority granted by Resolutions of the Board of Directors."

Does hereby nominate, constitute and appoint PAMELA A. BEELMAN, HEIDI A. NOTHEISEN, CYNTHIA L. HANAK, DEBRA C. SCHNEIDER, JOANN R. FRANK, KAREN L. ROIDER and SANDRA L. HAM all of the City of Saint Louis, State of Missouri, each individually if there be more than one named, its true and lawful attorney-in-fact, to make, execute, seal and deliver on its behalf, and as its act and deed any and all bonds, undertakings, recognizances, contracts and other writings in the nature thereof in penalties not exceeding Ten Million Dollars ($10,000,000) and the execution of such writings in pursuance of these presents shall be as binding upon said Company, as fully and amply as if they had been duly executed and ackowledged by the regularly elected officers of the Company at its principal office.

IN WITNESS WHEREOF, the said Stephen M. Haney, Vice-President, has hereunto subscribed his name and affixed the corporate seal of the said **WESTCHESTER FIRE INSURANCE COMPANY**, this 17th day of March, 2006.

WESTCHESTER FIRE INSURANCE COMPANY

Stephen M. Haney, Vice President

COMMONWEALTH OF PENNSYLVANIA
COUNTY OF PHILADELPHIA ss.

On this 17th day of March, A.D. 2006, before me, a Notary Public of the Commonwealth of Pennsylvania in and for the County of Philadelphia, came Stephen M. Haney, Vice-President of the **WESTCHESTER FIRE INSURANCE COMPANY** to me personally known to be the individual and officer who executed the preceding instrument, and he acknowledged that he executed the same, and that the seal affixed to the preceding instrument is the corporate seal of said Company; that the said corporate seal and his signature were duly affixed by the authority and direction of the said corporation, and that Resolution, adopted by the Board of Directors of said Company, referred to in the preceding instrument, is now in force.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed my official seal at the City of Philadelphia the day and year first above written.

NOTARIAL SEAL
Kathleen Tirri, Notary Public
Philadelphia, Philadelphia County
My commission expires September 22, 2007

Notary Public

I, the undersigned Secretary of **WESTCHESTER FIRE INSURANCE COMPANY**, do hereby certify that the original POWER OF ATTORNEY, of which the foregoing is a substantially true and correct copy, is in full force and effect.

In witness whereof, I have hereunto subscribed my name as Secretary, and affixed the corporate seal of the Corporation, this 2nd day of October 2006

George D. Mulligan, Secretary

4TH JUDICIAL DISTRICT COURT

CLERK ____ DEPUTY

Case No. [redacted]

Dept. No. 2

IN THE DISTRICT COURT OF THE FOURTH JUDICIAL DISTRICT

OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF ELKO

STATE OF NEVADA,

Plaintiff,

vs.

BAYLEE ANN WATKINS,

Defendant.

/

ORDER FOR DISCHARGE AND DISMISSAL

ORDER SEALING RECORDS

On May 20, 2024, the court accepted Defendant Baylee Ann Watkins's plea of guilty to one count conspiracy to commit possession of a controlled substance, a gross misdemeanor. The court subsequently entered its order deferring judgment and placed Defendant on probation for a period of 12 months.

On July 11, 2025, the Division of Parole and Probation filed a petition to dismiss the proceedings against Defendant, discharge Defendant from probation, and set aside Defendant's "conviction."

On August, 18, 2025, the court held a hearing on the petition. At the conclusion of the hearing, the court stated it would enter orders honorably discharging Defendant from probation and dismissing this action. The court will also seal all records of this action. *See* NRS 176.211(6).

Therefore, the court enters the following orders:

1. Defendant Baylee Ann Watkins is honorably discharged from probation.
2. These proceedings are dismissed.
3. All records of this action are sealed.

DATED this 18 day of August, 2025.

The Honorable Alvin R. Kacin
District Judge/Department 2

PUBLIC LETTER OF REPRIMAND REGARDING:

GLENN PARK, DVM
License #743
&
COURTYARD ANIMAL HOSPITAL
License #H262
Case # PS01-103012-743/H262

The Nevada Board of Veterinary Medical Examiners filed on its own behalf a complaint against Glenn Park, DVM and Courtyard Animal Hospital for concerns raised as a result of a routine inspection conducted by the Board's inspector in October 2012. In the course of a routine facility inspection of Courtyard Animal Hospital, the Board's inspector twice observed the veterinarian on duty, Dr. Park, direct an unlicensed employee of the hospital to insert an intravenous catheter, a duty that is reserve to and must be performed by a licensed veterinary technician. When the issue was raised with Dr. Park, he admitted that the violations had occurred.

The Nevada Board of Veterinary Medical Examiners finds this conduct to be in violation of applicable Nevada law. In particular, the Board finds that the above-described acts violated Nevada Revised Statutes (NRS) 638.140(1) (Violation of Regulation) and Nevada Administrative Code (NAC) 638.057(1)(e) and (2) (Veterinarian Responsible for Assuring Licensed Personnel Perform Certain Acts) in that Dr. Park and Courtyard Animal Hospital directed and authorized unlicensed personnel to twice place intravenous catheters in the presence of a Board inspector where the placing of intravenous catheters is a duty reserved to licensed veterinary technicians.

Should the Letter of Reprimand be rejected by the Board it is agreed that presentation to and consideration by the Board of such proposed Letter of Reprimand or other documents or matters pertaining to the consideration of this Letter of Reprimand, shall not unfairly or illegally prejudice the Board, or any of its members, from further participation, consideration,

adjudication, or resolution of these proceedings, and that no Board member shall be disqualified or challenged for bias. If it is accepted by the Board, the Letter of Reprimand becomes a public document and will be reported to the National Veterinary Disciplinary Database of the American Association of Veterinary State Boards (AAVSB).

Through the signatures below, Dr. Park and Courtyard Animal Hospital each agree that this conduct is a violation of the statutes and regulations detailed above. As a result of this admitted violation and by a majority vote of the members of the Board at its April 2013 meeting, this Public Letter of Reprimand is to be placed in the Licensee's licensing file. As a result of the above stated violation, the Licensee agrees to the following:

1) Dr. Park and Courtyard Animal Hospital will jointly or severally pay attorney fees, investigative costs, and Board costs of $400.00 by check or money order made payable to "Nevada State Board of Veterinary Medical Examiners" which must be received by the Board's office within 30 days of the date of the Board's approval of this Letter of Reprimand.

2) Dr. Park and Courtyard Animal Hospital shall assure that no unlicensed personnel will ever again be directed to, authorized to, or allowed to perform any tasks for which licensure as a licensed veterinary technician or as a licensed veterinarian is required.

3) Failure by either Dr. Park or Courtyard Animal Hospital to comply with any term or condition of this Letter of Reprimand shall result in additional disciplinary action, up to and potentially including suspension or revocation of Dr. Parks' license.

Dated this 8 day of March, 2013.

Glenn Park, DVM & owner of Courtyard Animal Hospital

Dated this 25TH day of April, 2013.

Nevada State Board of Veterinary Medical Examiners

Richard Simmonds, DVM, MS, President

BEFORE THE NEVADA STATE BOARD

OF VETERINARY MEDICAL EXAMINERS

In the Matter of GLENN PARK, DVM License No. 743	)	**CONSENT DECREE**

The NEVADA STATE BOARD OF VETERINARY MEDICAL EXAMINERS (the BOARD), by and through counsel, Catherine Cortez Masto, Attorney General of the State of Nevada, and Keith Marcher, Senior Deputy Attorney General, hereby enters into this Consent Decree with GLENN PARK, DVM (Licensee).

Pursuant to chapter 233B and chapter 638 of the Nevada Revised Statutes (NRS) and Nevada Administrative Code (NAC), it is hereby stipulated and agreed, by and between the parties in the above-entitled matter, that this matter shall be settled and resolved upon the following terms:

VOLUNTARY WAIVER OF RIGHTS

The Licensee is aware of, understands, and has been advised of the effect of this Consent Decree, which he has carefully read and fully acknowledges. The Licensee has had the opportunity to consult with competent counsel of his choice.

The Licensee has freely and voluntarily entered into the Consent Decree, and he is aware of his rights to contest the charges pending against him. These rights include representation by an attorney at his own expense, the right to a public hearing on any charges or allegations formally filed, the right to confront and cross-examine witnesses called to testify against him, the right to present evidence on his own behalf, the right to testify on his own behalf, the right to obtain any other type of formal judicial review of this matter, and any other rights which may be accorded to him pursuant to Chapter 233B, 622, 622A, and the provisions of Chapter 638 of the NRS and the NAC. All these rights are being voluntarily waived by the

Licensee in exchange for the BOARD'S acceptance of this Consent Decree.

Should the Consent Decree be rejected by the BOARD, it is agreed that presentation to and consideration by the BOARD of such proposed Consent Decree or other documents or matters pertaining to the consideration of this Consent Decree, shall not unfairly or illegally prejudice the BOARD, or any of its members, from further participation, consideration, adjudication or resolution of these proceedings, and that no Board member shall be disqualified or challenged for bias.

In consideration of execution of this Consent Decree, the Licensee for himself, his executors, administrators, successors and assigns, hereby releases and forever discharges the State of Nevada, the Nevada State Board of Veterinary Medical Examiners, the Nevada Attorney General and each of their members, agents, investigators and employees in their individual and representative capacities, from any and all manner of actions, causes of action, suit, debts, judgments, executions, claims and demands whatsoever, known and unknown, in law or equity, that Licensee ever had, now has, may have or claim to have against any or all of the persons or entities named in this paragraph arising out of or by reason of this investigation, this disciplinary action, this Consent Decree or its administration.

JURISDICTION

The Licensee acknowledges that the BOARD has jurisdiction over him and the conduct that has precipitated this Consent Decree. The Licensee acknowledges that the BOARD has the legal power and authority to take disciplinary action if there is any violation of this Consent Decree, or any violation of NRS chapter 638 or NAC chapter 638 that may subject Licensee to a disciplinary proceeding and could result in suspension or revocation of his license issued by the Nevada State Board of Veterinary Medical Examiners.

The Licensee acknowledges that the BOARD shall retain jurisdiction in this case until all conditions have been met to the satisfaction of the BOARD.

PUBLICATION OF CONSENT DECREE

The licensee acknowledges that the Consent Decree shall only become effective after it has been duly executed by both the BOARD and Licensee. The Consent Decree becomes a public document and will be reported to the National Veterinary Disciplinary Database of the American Association of Veterinary State Boards (AAVSB).

STIPULATED FACTS AND CONCLUSIONS OF LAW

The Licensee understands the nature of the allegations under consideration by the BOARD. He acknowledges that the conduct described below constitutes violations of the Nevada Veterinary Practice Act (NRS & NAC 638). He acknowledges that if this matter were to be taken to a disciplinary hearing, the following allegations could be proven and that by acknowledging the same, he is subject to disciplinary action by the BOARD:

1. GLENN PARK, DVM is currently and at the times mentioned herein, licensed as a Doctor of Veterinary Medicine (DVM) in the State of Nevada and is, therefore, subject to the jurisdiction of the Board and the provisions of NRS/NAC 638, NRS/NAC 639, and NRS/NAC 453 and has no other pending complaints filed against his license.

2. On or about May 22, 2007 a consumer complaint was filed involving the Licensee that resulted in a Board investigation.

3. At the conclusion of the investigation, it was determined that the following occurred:

a. On or about September 11, 2006 "Duke" was taken to Courtyard Animal Hospital to be neutered, given vaccinations and to have his ears checked. While staff was attempting to muzzle the dog one of the staff members was bitten on the right forearm.

b. Dr. Park stepped in to control the dog using excessive and unnecessary force in restraining the biting animal causing distress to the dog. This conduct is a violation of NAC 638.045 (2), negligence.

4. The foregoing facts constitute grounds for initiating disciplinary action pursuant to NRS 638.140.

5. That pursuant to NRS 638.147, if the Board determines that any applicant for a license or any person licensed pursuant to this chapter has committed any of the acts, which are grounds for disciplinary action, the board may:

a. Refuse to issue a license.
b. Refuse to renew a license.
c. Revoke a license.
d. Suspend a license for a definite period or until further order of the board.
e. Impose a fine in an amount not to exceed $10,000 for each act which constitutes a ground for disciplinary action.
f. Place a licensee on probation subject to any reasonable conditions imposed by the board, including requiring courses in continuing education or a periodic or continuous review of his practice.
g. Administer a public or private reprimand.
h. Limit the practice of the licensee to specified branches of veterinary medicine.
i. Require the licensee to take a competency examination or a mental or physical examination.

STIPULATED ADJUDICATION

IT IS HEREBY ORDERED, ADJUDGED AND DECREED BY THE BOARD as follows:

1) Licensee's veterinary license #743 is placed on probation for a period of three (3) years beginning at the effective date of this Order.

The terms and conditions of the probation shall be as follows:

a. Licensee's veterinary license #743 is suspended from the practice of veterinary medicine for a period of thirty (30) days. The suspension will commence no later than January 15, 2008. If the Licensee commences his suspension sooner than January 15, 2008, he shall notify the Board office, and his suspension shall start upon such notification.

b. The Licensee shall be evaluated by a licensed professional and participate in

stress and anger management therapy or any other treatment regime for a period of time that is at the discretion of the treating Practitioner. The individual that evaluates Dr. Park shall submit a report of his clinical findings, analysis, and evaluation directly to the Board's office. The report shall be privileged communications pursuant to NRS 638.142 (4).

c. The Licensee shall pay investigative costs to the Board in the amount of $1000.00. The costs are due and payable within 30 days of the effective date of this Order.

d. Licensee shall meet with the Board or its representatives upon request and shall cooperate with representatives in their supervision and/or investigation of compliance with terms and conditions of this Order.

VIOLATION OF TERMS OF CONSENT DECREE

The Licensee understands that the BOARD may proceed with disciplinary action for a limited purpose of establishing that there has, in fact, been a violation of the terms of this Consent Decree. If such a hearing results in the findings of a violation of this Consent Decree, the BOARD may impose any penalty upon the Licensee authorized by NRS 638.147, including but not limited to suspension or revocation of his license to practice veterinary medicine in the State of Nevada.

EFFECT OF COMPLETE AGREEMENT

1. Licensee enters into this Consent Decree voluntarily after being fully advised of his rights and as to the consequences of this Consent Decree.

2. This Consent Decree consists of 6 (six) pages, and embodies the entire agreement reached between The BOARD and Licensee. It may not be altered, amended, or modified without the express consent of the parties.

DATED this 19th day of October, 2007.

Subject:	Application of Dr. Jay Selnick
Attachments:	Exhibit 1 thru 4 to Email dated August 13, 2025(283227594.1).pdf

Gentlemen:

Hope all is well. As you are aware our firm represents the interests of Dr. Jay Selznick. Please find attached correspondence supplementing Dr. Selznick's Controlled Substance application **Exhibit #1**. This email with the referenced exhibits is also be sent by regular mail.

If you will recall on January 30 January 30, 2025, I sent an email (Attached, **Exhibit #2**) with attachments which provided notice of Dr. Selznick's entering into a *Memorandum of Agreement* executed on January 22-23, 2025 (Attached **Exhibit #3**) with the United State Department of Justice, Drug Enforcement Administration ("Agreement").

My January 30, 2025, my email also included a copy of a "To Whom It May Concern" letter, wherein it noted Dr. Selznick, in part, had agreed to surrender DEA COR No. B52945523, within one business day of executing the Agreement and he further agreed to not apply for a new DEA COR earlier than July 1, 2025. Id., ¶¶17, 18 at pg. 3, **Exhibit #3**. In addition, in the event that a DEA COR is approved for Dr. Selznick on or after July 1, 2025, he agreed to enter into the terms listed at ¶19.a., b. and c. **Exhibit #3** for a twelve (12) month period as part of the issuance of the new registration.

As to the background and underlying matter which led up to the Agreement, an Order to Show Cause ("OSC") was issued against Dr. Selznick on August 26, 2024. See Agreement, ¶12, **Exhibit #3**.In pertinent part, the OSC alleged that Dr. Selznick failed to disclose on his January 2019 and January 2022 renewal applications for registration the fact that on or about January 22, 2016, the Nevada State Board of Dental Examiners placed Dr. Selznick's license on probation for one year ("2016 Nevada Dental Board Matter").

As was addressed in the underlying OSC action (which culminated in the Agreement), Dr. Selznick addressed his belief the DEA had had information about the 2016 Nevada Dental Board Matter prior to his January 2019 and January 2022 renewal applications for registration. Dr. Selznick acknowledges and recognizes that he is required to disclosure on each and every renewal application the 2016 Nevada Dental Board Matter and any other matters consistent with the renewal application's liability questions. Dr. Selznick recognizes his errors – which were unintentional and not meant to mislead or deceive -- and, as addressed in the Agreement, has taken reasonability for same.

Following on the above-referenced notification, Brett sent a January 30, 2025, letter (Attached, **Exhibit #4**) to Dr. Selznick which advised as a result of Dr. Selznick's surrender of his DEA Registration No. BS2945523, his Certificate of Registration No. CS07913 is immediately suspended, pursuant to NRS 639.2107.

As noted above, the Agreement provides that Dr. Selznick would not apply for a new DEA COR earlier than July 1, 2025. Before he can do that, he must first make application for a Nevada Certificate of Registration for controlled substances. I am advised that Dr. Selznick sent via FedEx on or about August 3, 2023, his Controlled Substance Application to the Nevada State Board of Pharmacy (the "Board").

The attached letter **Exhibit #1** and its attachments are sent as a supplement to Dr. Selznick's Controlled Substance Application. More specifically, please find accompanying this letter the following two

(2) separate page "3 of 5" from the Controlled Substance Application. They address two (2) matters with the Nevada Pharmacy Board:

1. The Stipulation and Order filed May 9, 2024, with the Nevada State Board of Pharmacy in Case No. 19-043-CS-S which addressed Dr. Selznick's failure to disclose to the Board the disciplinary order in NSBDE Case No. 74127-2801 on his 2016 biennial renewal application with the Pharmacy Board.

2. 1-30-25 letter from Brett Kandt which advised as a result of Dr. Selznick's surrender of his DEA Registration No. BS2945523, his Certificate of Registration No. CS07913 is immediately suspended, pursuant to NRS 639.2107.

Should you need any additional information and or documentation please call my Direct Line [redacted] or my cell [redacted]

Thank you in advance for your anticipated cooperation and courtesy.

Re: Jay K. Selznick, DMD, MD
Supplement to Controlled Substance Application

Messrs. Wuest, Kandt & Zunino:

As you know, this office represents Jay IK. Selznick, DMD, MD ("Dr. Selznick").

Following discussion with Brett, on January 30, 2025, I sent an email and attachments which were provided as Dr. Selznick's notification of the *Memorandum of Agreement* executed on January 22-23, 2025, in the matter captioned In the Matter of Jay Selznick, D.M.D., M.D. having docket no. 24-76, which he entered into with the United State Department of Justice, Drug Enforcement Administration ("Agreement").

My January 30, 2025, email also included a copy of a "To Whom It May Concern" letter, wherein it noted Dr. Selznick, in part, agreed to surrender DEA COR No. B52945523, within one business day of executing the Agreement and he further agreed to not apply for a new DEA COR earlier than July 1, 2025. Id., ¶¶17, 18 at pg. 3. In addition, in the event that a DEA COR is approved for Dr. Selznick on or after July 1, 2025, he

agreed to enter into the terms listed at ¶19.a., b. and c. for a twelve (12) month period as part of the issuance of the new registration.

As to the background and underlying matter which led up to the Agreement, an Order to Show Cause ("OSC") was issued against Dr. Selznick on August 26, 2024. See Agreement, ¶12. In pertinent part, the OSC alleged that Dr. Selznick failed to disclose on his January 2019 and January 2022 renewal applications for registration the fact that on or about January 22, 2016, the Nevada State Board of Dental Examiners placed Dr. Selznick's license on probation for one year ("2016 Nevada Dental Board Matter").

As was addressed in the underlying OSC action (which culminated in the Agreement), Dr. Selznick addressed his belief the DEA had had information about the 2016 Nevada Dental Board Matter prior to his January 2019 and January 2022 renewal applications for registration. Dr. Selznick acknowledges and recognizes that he is required to disclosure on each and every renewal application the 2016 Nevada Dental Board Matter and any other matters consistent with the renewal application's liability questions. Dr. Selznick recognizes his errors – which were unintentional and not meant to mislead or deceive -- and, as addressed in the Agreement, has taken reasonability for same.

Following on the above-referenced notification, Brett sent a January 30, 2025, letter to Dr. Selznick which advised as a result of Dr. Selznick's surrender of his DEA Registration No. BS2945523, his Certificate of Registration No. CS07913 is immediately suspended, pursuant to NRS 639.2107.

As noted above, the Agreement provides that Dr. Selznick would not apply for a new DEA COR earlier than July 1, 2025. Before he can do that, he must first make application for a Nevada Certificate of Registration for controlled substances. I am advised that Dr. Selznick sent via FedEx on or about August 3, 2023, his Controlled Substance Application to the Nevada State Board of Pharmacy (the "Board").

This letter and its attachments are sent as a supplement to Dr. Selznick's Controlled Substance Application. More specifically, please find accompanying this letter the following two (2) separate page "3 of 5" from the Controlled Substance Application. They address two (2) matters with the Nevada Pharmacy Board:

Re: Jay K. Selznick, DMD, MD
Supplement to Controlled Substance Application

1. The Stipulation and Order filed May 9, 2024, with the Nevada State Board of Pharmacy in Case No. 19-043-CS-S which addressed Dr. Selznick's failure to disclose to the Board the disciplinary order in NSBDE Case No. 74127-2801 on his 2016 biennial renewal application with the Pharmacy Board.

Re: Licensee/Provider: Jay Selznick, D.M.D., M.D.

Notification regarding a *Memorandum of Agreement* in Docket No. 24-76 with the United State Department of Justice, Drug Enforcement Administration signed on January 22-23, 2025

To Whom It May Concern:

This office represents Jay Selznick, D.M.D., M.D. ("Dr. Selznick"). This letter is provided as Dr. Selznick's notification of the *Memorandum of Agreement* executed on January 22-23, 2025, in the matter captioned In the Matter of Jay Selznick, D.M.D., M.D. having docket no. 24-76, which he entered into with the United State Department of Justice, Drug Enforcement Administration ("Agreement"). See copy attached hereto as Exhibit I.

Dr. Selznick, in part, agreed to surrender DEA COR No. B52945523, within one business day of executing the Agreement and he further agreed to not apply for a new DEA COR earlier than July 1, 2025. Id., ¶¶17, 18 at pg. 3. In addition, in the event that a DEA COR is approved for Dr. Selznick on or after July 1, 2025, he agreed to enter into the terms listed at ¶19.a., b. and c. for a twelve (12) month period as part of the issuance of the new registration.

As to the background and underlying matter which led up to the Agreement, an Order to Show Cause ("OSC") was issued against Dr. Selznick on August 26, 2024. See Agreement, ¶12. In pertinent part, the OSC alleged that Dr. Selznick failed to disclose on his January 2019 and January 2022 renewal applications for registration the fact that on or about January 22, 2016, the Nevada State Board of Dental Examiners placed Dr. Selznick's license on probation for one year ("2016 Nevada Dental Board Matter").

As was addressed in the underlying OSC action (which culminated in the Agreement), Dr. Selznick addressed his belief the DEA had had information about the 2016 Nevada Dental Board Matter prior to his January 2019 and January 2022 renewal applications for registration. Dr. Selznick acknowledges and recognizes that he is required

Consent and Approval by Jay Selznick, D.M.D., M.D.

By my signature below, I, Jay Selznick, D.M.D., M.D., hereby provide the recipient permission to speak with, disclose information, and release documents to John A. Hunt, Esq. and/or Clark Hill, PLLC regarding the above-referenced matter and any matter pertaining to my status with the recipient. In addition, by my signature below, I hereby approve of the form and content of the above.

By _____ this 7th day of January, 2025.
Jay Selznick, D.M.D., M.D.

Accompanying document: as stated above.

UNITED STATES DEPARTMENT OF JUSTICE

Drug Enforcement Administration

In the Matter of **Jay Selznick, D.M.D., M.D.**	**Docket No. 24-76**

MEMORANDUM OF AGREEMENT

This Memorandum of Agreement (MOA) by and between the United States Department of Justice, Drug Enforcement Administration (DEA or Government), and Jay Selznick, D.M.D., M.D. (the Respondent), reflects the full and final administrative settlement between DEA and the Respondent involving DEA Certificate of Registration (COR or registration) No. BS2945523.

FINDINGS OF FACT

1. The Respondent is registered with the DEA to handle controlled substances in Schedules II through V under DEA COR number BS2945523. The Respondent's registered address is 8350 W. Sahara Ave., STE 190, Las Vegas, NV 89117. The Respondent's DEA COR expires by its own terms on February 28, 2025.
2. The Respondent is the holder of a State of Nevada specialty dentist license, under License No. S2-22. The Respondent's Nevada specialty dentist license expires by its own terms on June 30, 2025. The Respondent has also been the holder of a State of New York dentistry license, under License No. 043723.
3. The Respondent is also the holder of a State of Nevada controlled substance license, under License Number CS07913. Respondent's Nevada controlled substance license expires by its own terms on October 31, 2026.
4. On or about December 9, 2005, the Nevada State Board of Dental Examiners placed the Respondent's license on probation for three years, due to his failure to disclose malpractice claims, felony conviction, and action taken by another State Board (suspension of his New York dental license for non-payment of fees).
5. On or about May 27, 2007, the New York State Board for Dentistry placed the

Initials

Respondent's license on probation, due to professional misconduct (felony conviction for filing a false tax return).

6. On or about January 22, 2016, the Nevada State Board of Dental Examiners placed the Respondent's license on probation for one year, due to malpractice, unprofessional conduct, and substandard care of patients. Based on the investigation, Respondent wrote prescriptions for controlled substances in excessive amount that it constituted a departure for the prevailing standards of acceptable dental practice.

7. In November 2018 the Respondent submitted an initial application for a DEA registration in New York. On the application, with was later withdrawn, Respondent provided a "No" response to Liability Question 3 (action taken against State license).

8. In November 2018 the Respondent submitted a secondary application for a DEA registration in New York. On the application, which was approved with a MOA, Respondent provided a "Yes" response to Liability Question 3. The Respondent disclosed action taken against his New York dental license. However, he failed to disclose action taken against his Nevada dental license.

9. On September 23, 2019, Respondent executed a Memorandum of Agreement with the DEA, having DEA Control No. W18124503C and File No. C1-19-2174 (hereinafter "2019 MOA"). The 2019 MOA addressed and referenced, in part, the matters referenced and noted above in paragraphs 4, 5, 6, 7, and 8 of this Memorandum of Agreement.

10. From 2007 through 2022, the Respondent submitted renewal applications for registration BS2945523 with DEA. On all applications, which were approved, Respondent provided a "No" response to Liability Question 3. The Respondent's responses were materially false based on the actions taken against his dental licenses (Nevada and New York), which the Respondent was required to disclose.

11. On or about May 9, 2024, the Nevada Board of Pharmacy suspended (stayed) Respondent's controlled substance registration and placed it on probation, due to his failure to disclose the 2016 action taken against his Nevada dental license and the underlying allegations related to controlled substance prescribing.

12. On August 26, 2024, an Order to Show Cause (OSC) was issued against the Respondent and subsequently served (Appendix A). The allegations within the OSC

Initials _____

are hereby incorporated by reference.

13. On September 19, 2024, the Respondent, through counsel, timely filed a Request for Hearing and Answer in response to the OSC to defend the Government's allegations.

14. On or about January 6, 2025, the Respondent submitted a renewal application for registration BS2945523 with DEA. On the application, Respondent provided a "Yes" response to Liability Question 3. Respondent disclosed the action taken against his Nevada licenses. However, Respondent failed to disclose the actions taken against his New York dental license.

STIPULATION AND AGREEMENT

15. The Respondent represents that he has had an opportunity to seek the advice of counsel prior to entering into this MOA and that he has knowledge of the events described herein. The Respondent further represents that this MOA is voluntarily entered to avoid the further costs and uncertainties of litigation and without any degree of duress or compulsion.

16. The Respondent agrees that the above Findings of Fact are true and accurate, acknowledges the above violations, and fully accepts responsibility.

17. The Respondent agrees to surrender DEA COR No. BS2945523, for cause within one business day of executing this agreement. The Respondent and DEA further agree to jointly take any necessary action to terminate the administrative proceedings.

18. The Respondent agrees to not apply for a new DEA COR earlier than July 1, 2025. Upon application for a new DEA COR, the Respondent will be subject to the findings of a pre-registration investigation by the DEA Las Vegas District Office, and DEA will process the application in good faith and in the usual course. The Respondent acknowledges that its application will not be automatically approved and DEA acknowledges that the Respondent's application will not be automatically denied.

19. In the event that a DEA COR is approved for the Respondent on or after July 1, 2025, DEA and the Respondent agree to enter into the terms listed below for a 12-month period as part of the issuance of the new registration consistent with the terms of this document, and further, DEA and the Respondent specifically consent to the following

Initials

terms and conditions within such new MOA:

a. The Respondent shall abide by all federal, state, and local laws and regulations relating to controlled substances. The obligations imposed upon the Respondent pursuant to this MOA shall be in addition to, and not in derogation of, all requirements imposed upon the Registrant pursuant to applicable federal, state, and local laws and regulations.

b. The Respondent acknowledges that on his July 2025 DEA application for registration, he must disclose all information required by the Liability Questions, including, but not necessarily limited to:

- Each separate action (revocation, suspension, limitation, and/or probation) taken against each separate State license (dental, pharmacy, etc.).

c. The Respondent acknowledges that on all subsequent DEA renewal applications for registration, he must disclose any new reportable action taken in the previous three years since his last application.

20. Additionally, with respect to this MOA, the Respondent acknowledges and agrees that breach or violation of any term of this MOA may be grounds to immediately suspend any future DEA COR associated with the Respondent pursuant to 21 U.S.C. § 824(d) and may therefore result in administrative action in DEA's sole discretion. Furthermore, nothing in this MOA shall be construed as a waiver on the part of DEA to utilize any other grounds for revocation or denial of any DEA COR associated with the Respondent, nor shall it be construed as waiver of any defense or reservation of rights by Respondent.

21. The Respondent fully and finally releases DEA, its employees, servants, and agents from any claims (including attorney's fees, costs, and expenses of every kind and however denominated) that it has asserted, could have asserted, or may assert in the future against DEA and its employees, servants, and agents related to the conduct alleged in the OSC and DEA's investigation and prosecution thereof.

22. Nothing in this MOA shall prohibit any agency within the Department of Justice, any state or local entity, or any law enforcement, administrative, or regulatory

Initials

agency of the United States or any state thereof ("law enforcement agency") from initiating or continuing with administrative, legal, civil, or criminal proceedings that may exist with respect to the conduct in the OSC, and DEA shall, as obligated in fulfilling its statutory duties, assist and cooperate with any law enforcement agency that may initiate an investigation, action, or proceedings involving the conduct alleged in the OSC.

23. Nothing in this MOA is intended to address or affect matters or violations not specifically enumerated in this document. Furthermore, nothing in this MOA shall be construed as precluding DEA from referring to, or from relying upon, any of the alleged matters for the purpose of establishing the Respondent's past history or experience in handling controlled substances in the event of a future administrative action.

24. DEA and the Respondent shall bear its own legal and other costs incurred in connection with this matter, including the preparation and performance of this MOA.

25. This MOA constitutes the complete agreement between DEA and the Respondent. All material representations, understandings, and promises of DEA and the Respondent are contained in this MOA, and DEA and the Respondent expressly agree and acknowledge that— other than those statements expressly set forth in this MOA—they are not relying on any statement, whether oral or written, of any person or entity with respect to their entry into this MOA or to the consummation of the transactions contemplated by this MOA. Any modifications to this MOA shall be set forth in writing and signed by DEA and the Respondent.

26. In the event that any one or more of the provisions contained herein shall, for any reason, be held to be invalid, illegal, or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect any other provision of this MOA, and this MOA shall be construed as if such invalid, illegal, or unenforceable provision had never been contained herein.

27. Should any applicable legal requirements change and render the obligations of this MOA in violation of applicable law or otherwise unworkable, the Respondent shall be permitted to modify its compliance practices accordingly. Notice of the

Initials

Respondent's changed procedures shall be provided to DEA Los Angeles Field Division.

28. This MOA shall be construed in accordance with the laws of the United States. DEA and the Respondent may seek judicial enforcement of this MOA upon: (1) a material breach by the other; or (2) if either party must seek to declare the rights and other legal relations of any interested party under 28 U.S.C. § 2201. DEA and the Respondent agree that the jurisdiction and venue for any dispute pertaining to this MOA shall be any federal court of competent jurisdiction. This provision, however, shall not be construed as a waiver of the jurisdictional provisions of the Controlled Substances Act, as amended.

29. By executing this MOA, the Respondent agrees to waive all rights to seek judicial review of, to challenge, or to contest the validity of any terms or conditions in this MOA.

30. DEA and the Respondent may disclose this MOA to third parties.

31. This MOA will take effect the date of the last signature and shall remain effective, unless otherwise terminated or modified by a subsequent MOA as contemplated by Paragraph 11 or otherwise, for a period of one year after Respondent receives a new DEA COR, if the Respondent applies for a new DEA COR, and such application is approved.

32. DEA and the Respondent enter into this MOA with the understanding that both parties shall abide by its terms and conditions in good faith.

AUTHORIZATIONS

33. Dr. Selznick is signing this MOA on as the Respondent in this matter. The individuals signing this MOA on behalf of DEA represent and warrant that they do so in their official capacity and that they are authorized by DEA to execute this MOA.

UNITED STATES DEPARTMENT OF JUSTICE

Drug Enforcement Administration

In the Matter of	
Jay Selznick, D.M.D., M.D.	**Docket No. 24-76**

MEMORANDUM OF AGREEMENT

This Memorandum of Agreement (MOA) by and between the United States Department of Justice, Drug Enforcement Administration (DEA or Government), and Jay Selznick, D.M.D., M.D. (the Respondent), reflects the full and final administrative settlement between DEA and the Respondent involving DEA Certificate of Registration (COR or registration) No. BS2945523.

FINDINGS OF FACT

1. The Respondent is registered with the DEA to handle controlled substances in Schedules II through V under DEA COR number BS2945523. The Respondent's registered address is 8350 W. Sahara Ave., STE 190, Las Vegas, NV 89117. The Respondent's DEA COR expires by its own terms on February 28, 2025.
2. The Respondent is the holder of a State of Nevada specialty dentist license, under License No. S2-22. The Respondent's Nevada specialty dentist license expires by its own terms on June 30, 2025. The Respondent has also been the holder of a State of New York dentistry license, under License No. 043723.
3. The Respondent is also the holder of a State of Nevada controlled substance license, under License Number CS07913. Respondent's Nevada controlled substance license expires by its own terms on October 31, 2026.
4. On or about December 9, 2005, the Nevada State Board of Dental Examiners placed the Respondent's license on probation for three years, due to his failure to disclose malpractice claims, felony conviction, and action taken by another State Board (suspension of his New York dental license for non-payment of fees).
5. On or about May 27, 2007, the New York State Board for Dentistry placed the

Initials

Respondent's license on probation, due to professional misconduct (felony conviction for filing a false tax return).

6. On or about January 22, 2016, the Nevada State Board of Dental Examiners placed the Respondent's license on probation for one year, due to malpractice, unprofessional conduct, and substandard care of patients. Based on the investigation, Respondent wrote prescriptions for controlled substances in excessive amount that it constituted a departure for the prevailing standards of acceptable dental practice.

7. In November 2018 the Respondent submitted an initial application for a DEA registration in New York. On the application, with was later withdrawn, Respondent provided a "No" response to Liability Question 3 (action taken against State license).

8. In November 2018 the Respondent submitted a secondary application for a DEA registration in New York. On the application, which was approved with a MOA, Respondent provided a "Yes" response to Liability Question 3. The Respondent disclosed action taken against his New York dental license. However, he failed to disclose action taken against his Nevada dental license.

9. On September 23, 2019, Respondent executed a Memorandum of Agreement with the DEA, having DEA Control No. W18124503C and File No. C1-19-2174 (hereinafter "2019 MOA"). The 2019 MOA addressed and referenced, in part, the matters referenced and noted above in paragraphs 4, 5, 6, 7, and 8 of this Memorandum of Agreement.

10. From 2007 through 2022, the Respondent submitted renewal applications for registration BS2945523 with DEA. On all applications, which were approved, Respondent provided a "No" response to Liability Question 3. The Respondent's responses were materially false based on the actions taken against his dental licenses (Nevada and New York), which the Respondent was required to disclose.

11. On or about May 9, 2024, the Nevada Board of Pharmacy suspended (stayed) Respondent's controlled substance registration and placed it on probation, due to his failure to disclose the 2016 action taken against his Nevada dental license and the underlying allegations related to controlled substance prescribing.

12. On August 26, 2024, an Order to Show Cause (OSC) was issued against the Respondent and subsequently served (Appendix A). The allegations within the OSC

Initials _____

are hereby incorporated by reference.

13. On September 19, 2024, the Respondent, through counsel, timely filed a Request for Hearing and Answer in response to the OSC to defend the Government's allegations.

14. On or about January 6, 2025, the Respondent submitted a renewal application for registration BS2945523 with DEA. On the application, Respondent provided a "Yes" response to Liability Question 3. Respondent disclosed the action taken against his Nevada licenses. However, Respondent failed to disclose the actions taken against his New York dental license.

STIPULATION AND AGREEMENT

15. The Respondent represents that he has had an opportunity to seek the advice of counsel prior to entering into this MOA and that he has knowledge of the events described herein. The Respondent further represents that this MOA is voluntarily entered to avoid the further costs and uncertainties of litigation and without any degree of duress or compulsion.

16. The Respondent agrees that the above Findings of Fact are true and accurate, acknowledges the above violations, and fully accepts responsibility.

17. The Respondent agrees to surrender DEA COR No. BS2945523, for cause within one business day of executing this agreement. The Respondent and DEA further agree to jointly take any necessary action to terminate the administrative proceedings.

18. The Respondent agrees to not apply for a new DEA COR earlier than July 1, 2025. Upon application for a new DEA COR, the Respondent will be subject to the findings of a pre-registration investigation by the DEA Las Vegas District Office, and DEA will process the application in good faith and in the usual course. The Respondent acknowledges that its application will not be automatically approved and DEA acknowledges that the Respondent's application will not be automatically denied.

19. In the event that a DEA COR is approved for the Respondent on or after July 1, 2025, DEA and the Respondent agree to enter into the terms listed below for a 12-month period as part of the issuance of the new registration consistent with the terms of this document, and further, DEA and the Respondent specifically consent to the following

Initials

terms and conditions within such new MOA:

a. The Respondent shall abide by all federal, state, and local laws and regulations relating to controlled substances. The obligations imposed upon the Respondent pursuant to this MOA shall be in addition to, and not in derogation of, all requirements imposed upon the Registrant pursuant to applicable federal, state, and local laws and regulations.

b. The Respondent acknowledges that on his July 2025 DEA application for registration, he must disclose all information required by the Liability Questions, including, but not necessarily limited to:

- Each separate action (revocation, suspension, limitation, and/or probation) taken against each separate State license (dental, pharmacy, etc.).

c. The Respondent acknowledges that on all subsequent DEA renewal applications for registration, he must disclose any new reportable action taken in the previous three years since his last application.

20. Additionally, with respect to this MOA, the Respondent acknowledges and agrees that breach or violation of any term of this MOA may be grounds to immediately suspend any future DEA COR associated with the Respondent pursuant to 21 U.S.C. § 824(d) and may therefore result in administrative action in DEA's sole discretion. Furthermore, nothing in this MOA shall be construed as a waiver on the part of DEA to utilize any other grounds for revocation or denial of any DEA COR associated with the Respondent, nor shall it be construed as waiver of any defense or reservation of rights by Respondent.

21. The Respondent fully and finally releases DEA, its employees, servants, and agents from any claims (including attorney's fees, costs, and expenses of every kind and however denominated) that it has asserted, could have asserted, or may assert in the future against DEA and its employees, servants, and agents related to the conduct alleged in the OSC and DEA's investigation and prosecution thereof.

22. Nothing in this MOA shall prohibit any agency within the Department of Justice, any state or local entity, or any law enforcement, administrative, or regulatory

Initials

agency of the United States or any state thereof ("law enforcement agency") from initiating or continuing with administrative, legal, civil, or criminal proceedings that may exist with respect to the conduct in the OSC, and DEA shall, as obligated in fulfilling its statutory duties, assist and cooperate with any law enforcement agency that may initiate an investigation, action, or proceedings involving the conduct alleged in the OSC.

23. Nothing in this MOA is intended to address or affect matters or violations not specifically enumerated in this document. Furthermore, nothing in this MOA shall be construed as precluding DEA from referring to, or from relying upon, any of the alleged matters for the purpose of establishing the Respondent's past history or experience in handling controlled substances in the event of a future administrative action.

24. DEA and the Respondent shall bear its own legal and other costs incurred in connection with this matter, including the preparation and performance of this MOA.

25. This MOA constitutes the complete agreement between DEA and the Respondent. All material representations, understandings, and promises of DEA and the Respondent are contained in this MOA, and DEA and the Respondent expressly agree and acknowledge that— other than those statements expressly set forth in this MOA—they are not relying on any statement, whether oral or written, of any person or entity with respect to their entry into this MOA or to the consummation of the transactions contemplated by this MOA. Any modifications to this MOA shall be set forth in writing and signed by DEA and the Respondent.

26. In the event that any one or more of the provisions contained herein shall, for any reason, be held to be invalid, illegal, or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect any other provision of this MOA, and this MOA shall be construed as if such invalid, illegal, or unenforceable provision had never been contained herein.

27. Should any applicable legal requirements change and render the obligations of this MOA in violation of applicable law or otherwise unworkable, the Respondent shall be permitted to modify its compliance practices accordingly. Notice of the

Initials

Respondent's changed procedures shall be provided to DEA Los Angeles Field Division.

28. This MOA shall be construed in accordance with the laws of the United States. DEA and the Respondent may seek judicial enforcement of this MOA upon: (1) a material breach by the other; or (2) if either party must seek to declare the rights and other legal relations of any interested party under 28 U.S.C. § 2201. DEA and the Respondent agree that the jurisdiction and venue for any dispute pertaining to this MOA shall be any federal court of competent jurisdiction. This provision, however, shall not be construed as a waiver of the jurisdictional provisions of the Controlled Substances Act, as amended.

29. By executing this MOA, the Respondent agrees to waive all rights to seek judicial review of, to challenge, or to contest the validity of any terms or conditions in this MOA.

30. DEA and the Respondent may disclose this MOA to third parties.

31. This MOA will take effect the date of the last signature and shall remain effective, unless otherwise terminated or modified by a subsequent MOA as contemplated by Paragraph 11 or otherwise, for a period of one year after Respondent receives a new DEA COR, if the Respondent applies for a new DEA COR, and such application is approved.

32. DEA and the Respondent enter into this MOA with the understanding that both parties shall abide by its terms and conditions in good faith.

AUTHORIZATIONS

33. Dr. Selznick is signing this MOA on as the Respondent in this matter. The individuals signing this MOA on behalf of DEA represent and warrant that they do so in their official capacity and that they are authorized by DEA to execute this MOA.

Re: Notice of Suspension of Registration No. CS07913 (Case No. 19-043-CS-S)

Dear Dr. Selznick

The Nevada State Board of Pharmacy (Board) has been notified that on or about January 23, 2025, you surrendered your DEA Registration No. BS2945523 pursuant to a Memorandum of Agreement with the U.S. Drug Enforcement Administration. Please be advised that pursuant to NRS 639.2107 the surrender of your DEA Registration No. BS2945523 operates as an immediate suspension of your Certificate of Registration No. CS07913 with the Board.

You may not possess (except pursuant to the lawful order of a practitioner), administer, prescribe or dispense a controlled substance until you petition the Board for reinstatement pursuant to NRS 639.2565 and the Board reinstates your certificate of registration. Your PMP account is also suspended pursuant to NAC 453.078.

You may request a hearing before the Board to contest the suspension of your registration by submitting a written request to the Board's Reno office, located at 985 Damonte Ranch Parkway – Suite 206, Reno, NV 89521.

Regards,

Brett Kandt
General Counsel
Nevada State Board of Pharmacy

Subject: RE: Controlled Substance application

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

In July 2006 I was dealing with a difficult divorce situation. My ex-wife was harassing me at both my work and home. One day I came in to work for a shift having not slept well for several days prior. Realizing we were well staffed I asked to go home and then proceeded to have my secretary remove me from the schedule for the rest of the month. I decided to go out of town to get away from the situation. When I returned home the next month, I found my Medical Staff Office had sent several letters of inquiry requesting an explanation of why I had taken time off. The letters stated that if I did not respond immediately they would suspend my hospital privileges and make a report to the National Practitioner Data Bank. By the time I had returned the Medical Staff Office had already taken action which could not be undone. I explained to my Medical Staff Office why I was unable to respond, took additional time to deal with my divorce and returned to my medical practice as one of the most respected physicians at my medical center. I even had the honor of being appointed Chief of Service of the Emergency Department at the Medical Center.

I provided the same explanation to the Nevada Medical Board when obtaining my Nevada Medical License and to Nellis Air Force Base Medical Center, Las Vegas, NV where I have Medical Staff Privileges pending approval of a Nevada Pharmacy License

If you would like me to call you to discuss this matter further I would be glad to.

Thank You

Peter Grimes MD

Regulation Tracking Log

Regulation Number and Topic	Workshop Propose To Bd	30 Days To LCB W/Letter	LCB R Number Issued	LCB Return Date	30 Days Post Public Hearing	Public Hearing Meeting Date	To LCB Final W/ Cov./Info	Secretary of State File Date
NAC 639.520: Security of Pharmacies	09/07/23 Dave to meet with industry							
Amendment to Nevada Administrative Code (NAC). The proposed amendments establish the minimum staffing standards in a pharmacy and modify the number of pharmaceutical technicians and pharmaceutical technicians in training a pharmacist may supervise.	5/29/24	6/3/24	R113-24	6/25/24 – To Yenh/Dave for review 7/15/24 –sent revised version to Dave/Yenh	12/10/24	1/16/25 – This public hearing was withdrawn from the agenda and will be heard at a future BM. 4/17/25 – To be heard at a future BM.		
Amendment to the Nevada Administrative Code ("NAC") 639. The proposed amendments relate to the licensing requirements for facilities for treatment with narcotics and provide other matters properly relating thereto.	10/17/24	10/21/24	R197-24	7/21/25 – Sent to Dave/Yenh for review.	12/4/25			

Amendment to the Nevada Administrative Code ("NAC") 639. The proposed amendments relate to the licensing requirements for facilities for intermediate care or facilities for skilled nursing licensed by the State Board of Health pursuant to NRS 449.0303 and provide other matters properly relating thereto.	12/5/24	12/9/24	R203-24	9/19/25 – Sent to Dave/Yenh for review	12/4/25			
Amendment to the Nevada Administrative Code ("NAC") 639.742. The proposed amendments relate to removing the requirement that Dispensing Practitioners must personally dispense at a facility and provide other matters properly relating thereto. The change would allow Dispensing Practitioners to mail prescriptions to individual patients in their care as allowed by the Center for Medicare and Medicaid Services.	12/5/24 – Waiting for the federal reg to pass. The Board would like to see at a future meeting.							
A REGULATION relating to controlled substances adding ethylphenidate and 2-methyl AP-237 to the controlled substances listed in Schedule I; and providing other matters properly relating thereto.	12/5/24	12/9/24	R204-24	7/23/25 – Sent to Dave/Yenh for review	12/4/25			

Amendment to Nevada Administrative Code NAC 454. The proposed amendment revises the ability of an advanced emergency medical technicians to possess and administer dangerous drugs upon the order of a practitioner in a license hospital when practicing under their scope of practice as determined by the State of Nevada Health Department.	4/17/25	4/28/25	R004-25	7/22/25 – Sent to Dave/Yenh for review	12/4/25			
Amendment to Nevada Administrative Code (NAC) 639. The proposed amendment specifies the requirements for pharmacies and practitioners to be authorized to engage in the sterile or nonsterile compounding of drug products.	7/17/25 – Need updated language from Dave to send to LCB.							
A REGULATION relating to the authority of a homeopathic physician who is not licensed as an allopathic or osteopathic physician in Nevada to possess, administer, prescribe and dispense controlled substances and dangerous drugs; and providing other matters properly relating thereto.	9/4/25 – Tabled and work with Homeopathic Board. 12/4/25							

Amendment to Nevada Administrative Code (NAC). The proposed amendments establish standards for licensees relating to staffing, supervision, duties of a pharmacy, duties of a pharmacist and requirements related to the timing of dispensing prescription drugs and devices	9/4/25 – Tabled and make modifications to language. 10/16/25
