Section 11: Managing Pharmacist Acknowledgement, Professional/Personal History – REQUIRED TO BE COMPLETED BY THE MANAGING PHARMACIST FOR NEVADA LOCATED PHARMACY APPLICANTS ONLY

Managing Pharmacist Name: Bernadette S. Stanton Pharmacist Registration #: 19962

Pharmacy Name: Alto Pharmacy

Initial each statement below to indicate you have read and agree with the following:

BS I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

BS I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

BS I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

BS I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

BS I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Alto Pharmacy LLC - San Francisco (Harrison Street), California				
		FACILITY	09/26/2024	Texas Board of Pharmacy (Case #: 2024-01512) On July 19, 2024, the Texas Board of Pharmacy ("Board of Pharmacy") issued an Agreed Board Order ("ABO") in which the Board of Pharmacy alleges, from about September 28, 2023, through on or about November 29, 2023, Alto Pharmacy, located at 645 Harrison Street, Suite 200, San Francisco, CA 94107, Texas Non-Resident Pharmacy Permit #: 34204, operated without a Texas licensed pharmacist named on the Texas Non-Resident Pharmacy Permit. Alto Pharmacy acknowledges operating without the required Texas licensed pharmacist, Alto Pharmacy further acknowledges contact, and correspondence was made with the Board of Pharmacy, requesting guidance and direction on operating without a Texas licensed pharmacist. The Board of Pharmacy and Alto Pharmacy finalized the ABO on November 5, 2024, and a fine of $1,000 was paid. Alto Pharmacy's Texas Non-Resident Pharmacy Permit remains active, in good standing and unrestricted. The Board of Pharmacy considered the matter closed and took no further action.

RE: In the Matter of Alto Pharmacy

Dear Tsai Ling Jiang:

Enclosed is a copy of Agreed Board Order (ABO) #2024-01512 that was entered by the Texas State Board of Pharmacy (Board) concerning the above-referenced matter. The Board entered this Order on November 5, 2024. The requirements and conditions of the enclosed Order and matters relating to the Order are discussed below.

ADMINISTRATIVE PENALTY (FINE)

Under the terms of this Order, Alto Pharmacy (pharmacy license #34204) must pay an administrative penalty (fine) of $1,000. **This fine is due on or before March 5, 2025.** Please make your cashier's check or money order payable to the "Texas State Board of Pharmacy" and submit to the Board's office by the due date. Please include your ABO number (#2024-01512) on the cashier's check or money order. **Note:** The Board will **not** accept partial payments. You must submit payment for the full amount by the due date.

LICENSE RENEWAL APPLICATIONS

Prior to the next expiration date of pharmacy license #34204, the pharmacy will complete a license renewal application for the Texas State Board of Pharmacy. This application will require a pharmacy representative to answer the question:

> "Has the pharmacy, the pharmacy's owner or any officer or partner (if the pharmacy is owned by a corporation or partnership) been the subject of any professional disciplinary action or are any such actions pending against you by a regulatory authority within the last 36 months?..."

As a result of the entry of ABO #2024-01512, Alto Pharmacy must answer "yes" to this question for 36 months from the date of the termination of all sanctions. Consequently, an Alto Pharmacy representative must answer "yes" to this question on any renewal applications submitted beginning November 5, 2024 and ending 36 months following the termination of all sanctions.

If you have any questions about this Order, please contact Knijiah Samuel, Monitoring Specialist, at (512) 305-8054 or via monitoring@pharmacy.texas.gov.

AGREED BOARD ORDER #2024-01512

RE: IN THE MATTER OF
ALTO PHARMACY
(PHARMACY LICENSE #34204)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacy license number 34204 issued to Alto Pharmacy (Respondent), 645 Harrison Street, Suite 200, San Francisco, California 94107.

By letter dated July 19, 2024, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

Sections 562.101(f); and 565.002(a)(3) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2023); and

Section 291.103 of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2023); in that allegedly:

COUNT

From on or about September 28, 2023, through on or about November 29, 2023, Alto Pharmacy, 645 Harrison Street, Suite 200, San Francisco, California 94107, was engaged in the operation of a non-resident pharmacy in violation of Texas State Board of Pharmacy Rules, in that the pharmacy was not under the supervision of a pharmacist-in-charge licensed as a pharmacist in Texas.

By letter dated July 19, 2024, Respondent was notified that the matters previously set out in this Order could be disposed of without the scheduling of an informal conference or a formal administrative hearing. By signing this Order, Lisa Jurinka, Managing Officer, Alto Pharmacy LLC, on behalf of Respondent, and Kianna L. Sitarski, Legal Counsel for Respondent, neither admit nor deny the truth of the matters previously set out in this Order, and agree that the Board has jurisdiction in this matter and waive the right to an informal conference, notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Respondent shall pay an administrative penalty of one thousand dollars ($1,000) due one hundred twenty (120) days after the entry of this Order.

(2) Respondent shall allow Board staff to directly contact Respondent on any matter regarding the enforcement of this Order.

(3) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2023), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2024).

THIS ORDER IS A PUBLIC RECORD.

SIGNED AND ENTERED ON THIS 5th day of November, 2024.

Alto Pharmacy LLC				
Alto Pharmacy LLC - San Francisco, California				
		FACILITY	03/22/2023	California Board of Pharmacy (Case #: CI2022 96563) On March 22, 2023, the California Board of Pharmacy ("Board of Pharmacy")issued a Modified Citation and Fine ("Citation"), in which the Board of Pharmacy alleges, on or about July 2, 2022, the Licensee dispensed and delivered prescription drugs to a wrong address. On or about July 6, 2022, the prescription drugs were returned to the Licensee and afterwards placed into the Licensee's inventory. Further, Board of Pharmacy alleges the Licensee failed to quarantine and prepare the returned prescription drugs for destruction pursuant to Board of Pharmacy rules and regulations. Licensee acknowledges the returned prescription drugs were placed into inventory, not quarantined and prepared for destruction as required by Board of Pharmacy rules and regulations. Licensee agreed to pay the Board of Pharmacy's fine of $1,000 as indicated in the attached Citation. To ensure correct practices are followed, the Licensee's Compliance and Pharmacy Operations Departments have reviewed their Policies and Procedures, which address the handling of returned prescription drugs, with the staff at the pharmacy location. Staff has acknowledged the review, training and the proper procedures to follow when previously dispensed prescription drugs are returned to the pharmacy location. The Licensee's California Pharmacy Permit remains active, in good standing and unrestricted. Upon receipt of the fine, the Board of Pharmacy considered the matter closed and took no further action.

As a result of the explanation and information you provided at the office conference, the amount of the fines assessed in Citation and Fine, CI 2022 98558 have been reduced.

The modified Citation is attached and is hereby issued pursuant to California Code of Regulations, title 16, section 1775.4, subdivision (d).

If you desire a hearing to appeal the attached Citation, you must submit a written request for a hearing to the Board of Pharmacy ("Board") within 30 days of the date this Citation was issued. (See Bus. Prof. Code sec. 125.9, subd. (b)(4), and C.C.R., title 16, sec. 1775.4, subd. (d).). Unless the Board receives a written request within the 30 days, you will be deemed to have waived your right to a hearing in this matter and the Citation shall become the final order of the Board. If a hearing is not requested, the timely payment of the imposed fine(s) shall not constitute an admission of the violation(s) charged in the Citation.

Failure to pay any imposed fine(s) within 30 days of the date the Citation was issued may result in disciplinary action being taken.

If any fine(s) are not timely paid, then the full amount of the unpaid fine(s) shall be added to the fee for the renewal of your license. Your license shall not then be renewed without full payment of the renewal fee and the assessed fine(s).

If you have any questions regarding this Citation please contact Suelynn Yee, Citation and Fine Analyst at (916) 518-3013.

The attached Citation and Fine, ("Citation") is being issued pursuant to Business and Professions Code section 125.9 and California Code of Regulations, title 16, section 1775 et. seq., for violations of the laws and regulations that govern the practice of pharmacy in California. (For exact language refer to the California Pharmacy Law and Index, located on the Board's web site, at www.pharmacy.ca.gov, under Pharmacy Law and Regulation).

The attached Citation references the specific statutes and regulations violated, defines each violation charged and specifies any fine(s) assessed. The attached Citation details the conduct that resulted in the issuance of the Citation.

IT IS YOUR RESPONSIBILITY TO READ THE ENTIRE CITATION AND INSTRUCTIONS, TO UNDERSTAND THE PROCESS FOR CONTESTING THE CITATION AND TO RESPOND TO THE CITATION WITHIN THE FOLLOWING TIME FRAMES:

- August 13, 2023: Unless the Citation is contested payment of fine(s) must be received by the Board.
- July 28, 2023: Any contest of the Citation by request for an informal Office Conference must be received by the Board.
- August 13, 2023: Any contest of the Citation by request for a formal Appeal must be received by the Board.

The issuance of a Citation by the Board of Pharmacy is considered an administrative action and substantiated resolution of a complaint and/or investigation. If a hearing is not requested to contest the Citation(s), payment of any fine(s) shall not constitute an admission of the violation(s) charged. Payment in full of the fine(s) assessed shall be represented as a satisfactory resolution of the matter in any public disclosure. (Business and Professions Code section 125.9; California Code of Regulations section 1775).

Additionally, if, at the time of license renewal, the Board has not received full payment of assessed fine(s) and a request to contest the Citation has not been received within the time frames specified, the license shall not be renewed until the assessed fine(s) and renewal fee/s are paid in full.

If you have any questions regarding this Citation please contact Suelynn Yee, Citation and Fine Analyst at (916) 518-3013.

Section 11: Managing Pharmacist Acknowledgement, Professional/Personal History – REQUIRED TO BE COMPLETED BY THE MANAGING PHARMACIST FOR NEVADA LOCATED PHARMACY APPLICANTS ONLY

Managing Pharmacist Name: Kelsey Maxim Pharmacist Registration #: 18749

Pharmacy Name: Community Health Alliance Neil Road Pharmacy

Initial each statement below to indicate you have read and agree with the following:

KM I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.

KM I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.

KM I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.

KM I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. NRS 453.568. Federal regulations require that registrants notify the Field Division Office of the Administration in his area, in writing, of the theft or significant loss of any controlled substance, disposal receptacles or listed chemicals within one business day of discovery of such loss or theft. The registrant shall also complete and submit to the Field Division Office in his area, DEA Form 106 regarding the loss or theft (21 C.F.R. §1301.76(b) and 21 U.S.C. §830(b)(1)(C)).

KM I understand that as the managing pharmacist I must notify the Nevada State Board of Pharmacy of all employment changes of pharmacy staff within 10 days of the change. NAC 639.540

Managing Pharmacist Name: Sieu Long Pharmacist Registration #: 16340

Pharmacy Name: ER at North Valleys, an Extension of Northern Nevada Medical Center

Initial each statement below to indicate you have read and agree with the following:

x	I understand that as the managing pharmacist I am responsible for compliance by the pharmacy and its personnel with all state and federal laws and regulations relating to the operation of the pharmacy and the practice of pharmacy. I understand my license can be revoked or that I can be subject of disciplinary action if such laws or regulations are knowingly violated in the pharmacy in which I am the managing pharmacist.
x	I understand within 48 hours after I report for duty as the managing pharmacist, I shall complete an inventory of all controlled substances of the pharmacy pursuant to 21 CFR Part 1304 and maintain a copy of the inventory in the file at the pharmacy.
x	I understand that if I cease to be managing pharmacist of the above-named pharmacy, I will jointly, with the new managing pharmacist, take an inventory of all controlled substances.
x	I understand that as the managing pharmacist I must ensure that all loss or theft of controlled substances are reported on forms provided by the Nevada State Board of Pharmacy and Department of Public Safety within 10 days after the date of discovery of theft or loss. To whom this may concern,

I, Sieu Long, a Nevada pharmacist license #16340 was disciplined by the Nevada State Board of Pharmacy on December 5, 2012 for a mislabeled prescription, please see attached Notice of Intended Action and Accusation and Stipulation and Agreement for further explanations. Thank you.

Sincerely,

Sieu Long

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

v.

SIEU LONG, R.PH.
Certificate of Registration No. 16340

SCOLARI'S PHARMACY #26
Certificate of Registration No. PH01081

Respondents.

NOTICE OF INTENDED ACTION AND ACCUSATION

Case No. 12-050-R.PH.-N

Case No. 12-050-PH-N

COMES NOW Larry L. Pinson, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, and makes the following that will serve as both a notice of intended action under Nevada Revised Statutes (NRS) 233B.127(3) and as an accusation under NRS 639.241.

I.

The Nevada State Board of Pharmacy has jurisdiction over this matter and these Respondents because Respondent Sieu Long (Certificate Number 16340) is a registered pharmacist with the Board and Respondent Scolari's Pharmacy (Scolari's #26) is a pharmacy licensed by the Board, located at 1300 Disc Drive, Sparks, Nevada.

II.

On or about June 26, 2012, Robert Cecchini was seen by his Advanced Nurse Practitioner (APN) who prescribed a quantity of fourteen levofloxacin 500 mg. tablets with instructions to take one tablet by mouth daily for the treatment of a sinus infection. The prescription was electronically prescribed and transmitted to Scolari's Pharmacy #26, filled and picked up by Mr. Cecchini's wife the same day. Pharmacist Long counseled Mr. Cecchini's wife at the time of purchase.

III.

Per the instructions on the prescription label, Mr. Cecchini ingested two levofloxacin tablets per day for the next seven days. During his follow-up appointment on July 2, 2012, the APN discovered that the dispensed prescription was filled with

fourteen levofloxacin 500 mg. tablets and mislabeled with directions to take one tablet by mouth twice daily rather than one tablet by mouth once daily. She instructed Mr. Cecchini to discontinue the medication. Mr. Cecchini had ingested thirteen of the fourteen tablets by then and was suffering from diarrhea. On or about July 5, 2012, Mr. Cecchini allegedly experienced chest pain and was transported by ambulance to a hospital where he was kept overnight for observation.

IV.

During the investigation of this matter, a review of the Scolari's Transaction Report and biometric inputs detailing the production sequence indicated that the original prescription was input into the pharmacy computer system by an intern pharmacist. A pharmaceutical technician completed the processing of the prescription prior to staging it for pharmacist Long's verification. During verification, pharmacist Long failed to heed a high dosage alert on the DUR Conflict Description window and also failed to identify the dosing error on the prescription label. Pharmacist Long believes that when she was verifying the prescription, she was comparing the data on the prescription label and not with the actual electronic prescription. Pharmacist Long also failed to identify the incorrect dosing instructions when counseling Ms. Cecchini.

V.

A new pharmacy computer system at Scolari's #26 was installed in April of 2012. The only functions of the filling sequence captured in the Transaction Detail Report for Mr. Cecchini's prescription were insurance adjudication and label printing. Scanning and initial data entries were not listed as separate functions nor were they captured biometrically or otherwise. The identity of the employee responsible for the transcription error could therefore not be determined. Counseling was not indicated on the Transaction Detail Report and was not recorded biometrically which appears to be a training issue related to unfamiliarity with the new computer system. Pharmacist Long did affix and initial a counseling sticker in the hard copy log but failed to indicate counseling was completed with a biometric scan at the counseling screen.

FIRST CAUSE OF ACTION

VI.

In failing to strictly follow the directions of Robert Cecchini's APN by mislabeling his prescription for levofloxacin 500 mg. tablets with incorrect dosing instructions, namely "take two tablets by mouth daily" rather than take one tablet by mouth daily, Ms. Long violated Nevada Revised Statutes (NRS) 639.210(4) and/or Nevada Administrative Code (NAC) 639.945(1)(d) and/or (i).

SECOND CAUSE OF ACTION

VII.

By not being able to identify the employee responsible for the transcription error on the Transaction Detail Report because the scanning and initial data entries were not listed as separate functions nor were they captured biometrically for Mr. Cecchini's prescription for levofloxacin 500 mg. tablets, Scolari's #26 violated NRS 639.210(4) and/or NAC 639.945(1)(i) and/or (2).

THIRD CAUSE OF ACTION

VIII.

In owning and operating the pharmacy in which Ms. Long committed the above violations, Scolari's #26 violated NRS 639.210(4) and/or NAC and/or 639.945(1)(d) and/or (i) and (2).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of the Respondent.

Signed this 9th day of October, 2012.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.**	**STIPULATION AND AGREEMENT**
SIEU LONG, R.Ph., **Certificate of Registration #16340,**	**Case No. 12-050-RPH-N**
SCOLARI'S PHARMACY #26 **Certificate of Registration No. PH01081** **Respondents.**	**Case No. 12-050-PH-N**

Carolyn J. Cramer, General Counsel for the Nevada State Board of Pharmacy, and Sieu Long, R.Ph. representing herself and David Chan, R. Ph. Director of Pharmacy for Scolari's, stipulate and agree as follows:

1 Respondent Long admits the factual allegations made in the First Cause of Action.

2. Respondent Scolari's admits the factual allegations made in the Second and Third Causes of Action.

3. The Board Staff concluded after investigation that Respondent Long's inattention and inadequate counseling lead to the errors in this case. The Scolari system for filling prescriptions, while in compliance with Nevada Pharmacy Law, did raise areas of concern that needed to be addressed with regard to the Rapid-Fill System Data Entry Policy. The Policy was amended, implemented by Scolari's after review and acceptance by Board Staff, requiring all data entry staff, whether a pharmacist or a pharmacy technician, to be responsible for all tasks completed with his or her biometric identity.

4. Ms. Long fully recognizes the errors that were made and has taken corrective action to avoid such errors in the future. Mr. Chan has recognized the need to amend the Scolari's pharmacy policies and procedures to strengthen the data entry process.

5. The parties shall present this Stipulation and Agreement to the Board at its meeting on December 5, 2012. The parties agree that the Board may ask questions of the parties, may discuss and deliberate regarding the presentations, and shall enter an Order that may impose discipline as recommended by the parties.

6.. Board Staff and the Respondent Long will recommend that her certificate of registration #16340 be placed on probation for one year subject to the following terms and conditions:

a. Within 10 days of acceptance of the stipulation Ms. Long shall contact the Your Success Rx consultant to enroll in its pharmacist remediation program (hereinafter "the program") according to the terms and conditions imposed by the program and the following terms and conditions.

1. Ms. Long shall cooperate fully and genuinely with the needs, demands, and requirements of the program.

2. Ms. Long shall inform and assure that her employing pharmacy is made aware of her participation in the program and that her employing pharmacy accommodates the program's needs regarding Ms. Long's time needed to participate in the program and the program's potential need to be present in the employing pharmacy.

3. Ms. Long shall pay the entire cost of her participation in the program.

4. When Ms. Long has completed the program; the program shall submit to Board Staff a final report regarding Ms. Long's participation in the program. Board Staff will set a meeting with Ms. Long and the Your Success Rx program administrator to discuss the report.

b. Ms. Long will have no further violations of state or federal law, statute or regulation related to the practice of pharmacy. The failure by Ms. Long to comply with

any term in this stipulation and order shall result in the immediate suspension of her license and will also result in further discipline, up to and including revocation of her license.

c. Ms. Long will pay a fine of $250 by cashier's check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this order.

7. Board Staff and Respondent Scolari's #26 will recommend that the Board impose discipline on Scolari's # 26 for the Second Cause of Action in the amount of $250 and for the Third Cause of Action in the amount of $250 for a total fine of $500 to be paid by cashier's check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office within 90 days of the effective date of this order.

8. Board Staff and the Respondent Scolari's will recommend that the Board accept and recognize the corrections and actions taken by Scolari's #26 be accepted and no additional discipline or corrective action taken accept the payment of the fine as stated in paragraph 6.

9. If the Board rejects any part or all of this stipulation, the parties agree that a full hearing on the merits of this matter may be heard by the Board and that the Board would hear this matter at its meeting on March 6, 2013. The terms and admissions in this stipulation may not be used or referred to in the full hearing on the merits of this matter.

10. The Board shall release Ms. Long and Scolari's #26 from all claims, whether known or unknown, that might otherwise have existed on or before the effective date of the Board's order in this matter. Ms. Long and Scolari's #26 shall release the Board from all claims, whether known or unknown, that might otherwise have existed on or

before the effective date of the order in this matter. Said releases shall be effective upon the Board's acceptance of this stipulation and order.

Address: 840 Research Parkway, Suite 546

City: Oklahoma City State: OK Zip: 73104

Telephone: (800) 393-1595

13. What is your procedure for visual inspection of compounded sterile products?

Compounded sterile products will be inspected, before dispensing, by supervising pharmacists through a double-check system. (1.) Inspection of CSPs includes: (a.) Visual inspection for particulates and/or cloudiness. The CSP will be examined against a lighted white or black background, or both.; (b.) Verification of prescription orders with the written work order / compounding record (preparation; records). (c.) Verification of ingredients used, including correct amounts and concentrations (d.) Verification of final fill amounts (e.) Verification of aseptic manipulations and sterilization (f.) Package integrity, any leakage observed (g.) Visual inspection of syringes and additive containers used (h.) Correct and complete label: i. Name of patient; ii. Patient location; iii. Correct names, amounts and concentrations of the ingredients; iv. Total volume ; v. Preparation date; vi. Beyond-use date; vii. Route of administration; viii. Storage requirements; ix. Infusion rate when applicable; x. The initials of the final Pharmacist check (i.) Labels for CSPs must be clear, consistent, legible and in compliance with state and federal regulations. (2.) CSPs with visual defects will be immediately discarded. (3.) When the identity and concentrations of ingredients cannot be verified, samples of the CSPs will be assayed. (4.) CSPs that are not immediately dispensed will be stored according to procedure. a. CSPs that are stored, will again be inspected before the CSPs are dispensed.

14. How often do you perform glove fingertip and medial fill testing?

Biannually

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:

Aseptic technique training will be ongoing; personnel must pass a media-fill test every 6 months. Compounding personnel who fail media-fill test would be re-evaluated. All compounding personnel must successfully complete 3 (three) initial Gloved Fingertip sampling prior to compounding CSPs for human use. Ongoing GFS to be performed with the preparation of media fill units which is required initially (before compounding CSPs for human use) and every 6 months for compounding staff of pharmacies performing Category 2 compounding. Personnel who have direct oversight of compounding personnel, but do not compound, must complete training initially and every 12 months. Pharmacy Department shall demonstrate, assess, maintain and improve staff competence on an ongoing basis. Personnel must have didactic and practical training. Staff will receive guided instruction in the theory and practice of compounded sterile preparations, in addition to hands-on training before assuming compounding responsibilities.

(f.) Patients will be given patient drug information leaflets, that are available, the first time a medication is dispensed or when there is serious risk.

11. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?

(1.) On-the-job experiential training from experienced compounding personnel.
(2.) Staff will receive guided instruction in the theory and practice of compounded sterile preparations, in addition to hands-on training before assuming compounding responsibilities. A PATT for the appropriate risk level of CSPs, and a 3-part initial Glove Fingertip Test must be passed before assuming compounding responsibilities.
(3.) Staff will participate in training and assessment (web-based continuing education for USP 797 compliance) upon hire and annually thereafter.
(4.) Staff will have access to the ASHP Sterile Compounding Library in order to complete a 3- course program with interactive lessons and follow-up testing. This program is completed annually and will include: a. Hand hygiene; b. Garbing procedure for ISO classified environments; c. Cleaning and disinfection of the Ante-area, Cleanroom, and PECs; d. Aseptic technique
(5.) Pharmacy Competency Skills Checklist performed annually
(6.) Bi-annual Aseptic Personnel Assessment Form
(7.) Bi-annual PATT requirement
(8.) Bi-annual Glove Fingertip Sampling
(9.) Instruction on safety procedures
(10.) Instruction on CSPs to include: a. Identification; b. Accurate measuring, weighing, dilution and mixing of ingredients; c. Purification, sterilization; d. Packaging; e. Labeling; f. Storage; g. Dispensing; h. Transport; i. Documentation of the compounding process; j. Sterilization for high-risk CSPs
(11.) Proper use and maintenance of all equipment, including an understanding of HEPA Filtered air flow in ISO classified environments
(12.) Transport of materials to and from the Cleanroom
(13.) Only those individuals who are qualified through license, experience and training to assess sterile compounding skills will conduct competency assessments.
(14.) When improvement activities (written test and media-fill tests) lead to a determination that a person with performance problems is unable or unwilling to improve, the staff member's work assignment may be revised. Further education and training will be required or other corrective action(s) may be taken.
(15.) The staff member will not return to compounding duties until performance problems are resolved.
(16.) The competence assessment program is continuous and ongoing, with reports of competency outcomes available to the Pharmacist-in-Charge.

Acidified Bleach Disinfectant Solution

SUGGESTED FORMULA FOR
Acidified Bleach Disinfectant Solution
Version: 1.0
3238.3 mL

Sodium Hypochlorite 8.25% Solution	98 ml
White Vinegar	140 ml
Liquid Dish Soap	0.3 ml
Purified Water, USP	3,000 ml

SUGGESTED COMPOUNDING PROCEDURE

Note: It is recommended that you follow USP <795> recommendations for potency testing which states "... each preparation shall contain not less than 90.0% and not more than 110.0% of the theoretically calculated and labeled quantity of active ingredient ...". In order to provide some guidance in this area, please contact Eagle Analytical Services regarding the use of Skip Lot testing.

Note: Sodium Hypochlorite 8.25% Solution - Pharmacy Stock. Source: Commercial Unscented Laundry Bleach.

Note: White Vinegar - Pharmacy Stock.

Note: Liquid Dish Soap - Pharmacy Stock. Source: Grocery Store.

Note: Use syringe which delivers 20 Drops/mL.

1. In an appropriate size container, add Purified Water. Use an amount of Purified Water that is approximately one-third of the specified amount. For example, if the specified amount is 3000 mL, use 1000 mL of Purified Water.
2. Add Sodium Hypochlorite 8.25% Solution to Step 1 with mixing.
3. Add White Vinegar to Step 2 with mixing. Use an amount of White Vinegar that is approximately 90% of the specified volume. For example, if the specified volume is 140 mL, use 126 mL of White Vinegar.
4. Add Purified Water to Step 3 with mixing. Use an amount of Purified Water that is approximately one-third of the specified amount. For example, if the specified amount is 3000 mL, use 1000 mL of Purified Water.
5. Add Liquid Dish Soap to Step 3 with mixing.
6. Add Purified Water to Step 5 with mixing. Use an amount of Purified Water that is approximately one-third of the specified amount. For example, if the specified amount is 3000 mL, use 1000 mL of Purified Water.
7. Check the pH of Step 6 with a pH meter. If necessary, adjust the pH to 6 (5.8 - 6.2) by adding White Vinegar in small increments with mixing. Check pH after each addition.

Note: The final preparation should contain approximately 2375 ppm of available chlorine.

Note: NOT FOR HUMAN USE!

Note: No claims are made as to the safety or efficacy of this preparation. This formulation is provided solely at the unsolicited request of the pharmacist.

Note: Beyond Use Dates of preparations are conservative estimates by the formulator using reference books, peer reviewed literature, intended duration of therapy, formulation from commercially available products, organoleptic stability observations and current USP guidelines. Compounders may have stability tests performed by a reputable laboratory if they wish to extend the Beyond Use Date.

Note: Beyond Use Date after compounding is estimated to be 5 days.

Inspector Remarks:

Onsite Annual Sterile Compounding Inspection: Chain retail home infusion/specialty pharmacy. Currently there remains only 3 Coram pharmacies: San Diego, Mendota heights, Malvern. PIC present during inspection. Pharmacy is no longer accredited by PCAB. A routine pharmacy inspection was also conducted today and is detailed on a separate report.

PIC Contact Information:

AMIR A NAHANGI
Amir.Nahangi@coramHC.com
(949) 241-3209

General Information:
- 2023 Community pharmacy and Compounding self-assessments reviewed. Education provided on 2025 requirements.
- Updated list of CSPs: Reviewed during inspection. Compounds TPNs, antibiotics, hydrations, 5FU. Hazardous compounding is rarely conducted, perhaps about every 4-6 months.
- FDA, DEA and/or accreditation inspections with applicable reports issued within the past 12 months: TJC inspection report reviewed.

Designated Persons: PIC Amir only.

Previous BOP Inspection Report: reviewed.

Sterile Compounding Area:

General pharmacy area --> ISO 8 prep room with LOD, sink, light gowning area
ISO 8 prep room --> ISO 7 negative pressure ante room --> ISO 7 HD room with 2 x ISO 5 BSC
ISO 8 prep room --> ISO 8 compounding ante room and ISO 7 compounding room --> 4 x ISO 5 laminar flow hoods. APEX ACD and Baxa repeater pumps utilized for sterile compounding.

- Certification completed by ENV 2/5/25
- Dynamic testing, Non-viable air sampling, HEPA filter leak testing, air changes, smoke study, and viable air and surface sampling: Reviewed.
Every 6 months, all viable sampling is conducted by ENV: Reviewed.
Monthly surface sampling done in house and incubated by ENV: Reviewed.
- Sporicidal, cleaning, and disinfecting agents: TBI 3300 germicidal detergent for ISO 7/8 surfaces, sIPA, sterile Peridox for ISO 5 surfaces.
- Cleaning logs reviewed

Policies and Procedures
- Updated and new PnPs reviewed-documentation of review by PIC.

Record Keeping
-Compounding records/master formula/labeling: Reviewed.
- Sterile compounding equipment calibration and maintenance logs: Reviewed for repeater pump and APEX ACD
- Pressure differential monitoring logs: reviewed.
- Refrigerators/room temperature and humidity logs of sterile compounding areas: reviewed.

Employee training/competencies: Reviewed. Media fill for ACD w/TPN 2L.
- Didactic training, pharmaceutical calculations, gloved fingertip sampling, media fill testing, practical skills training in aseptic area practices, cleaning etc.

Quality Assurance
- End product sterility/potency testing: Fairfield labs

ADRS
- All complaints/ADRs within 12 months have been reported as required: None to report.

November 1, 2023, is the compendial date for several USP General Chapters, including General Chapters <795> Pharmaceutical Compounding—Nonsterile Preparations, <797> Pharmaceutical Compounding—Sterile Preparations, <800> Hazardous Drugs—Handling in Healthcare Settings, and <825> Radiopharmaceuticals—Preparation, Compounding, Dispensing, and Repackaging. Consistent with the policy statement the Board released on September 12, 2023, it is the Board's expectation that licensees are moving forward with all necessary implementation activities to comply with the updated USP compounding standards.
The Board has undertaken a review of its compounding regulations and identified changes necessary to clarify or make more specific requirements of federal law and USP General Chapters.
During this transition period, licensees are encouraged to monitor the regulation process for updates, including signing up for the Board's subscriber alert system and by checking the Board's website.
Licensees are reminded to also ensure continuing compliance with other laws, regulations, and requirements that may apply to their activities, including, without limitation: the Federal Food, Drug, and Cosmetic Act (21 USC §§ 321–399i), including Section 503A thereof (21 USC § 353a); provisions of California's Sherman Food, Drug, and Cosmetic Law (Health and Safety Code §§ 109875–111929.4); and laws, regulations, and requirements related to radiopharmaceuticals and/or the handling of hazardous drugs, including requirements established by Cal/OSHA.

Document ID: INFPH-048132	Title: Aseptic Technique Process Validation (I305-015)	
Parent Documents: N/A		
Effective Date: See Document Information Page	**Last Review Date:** See Review and Revision History Section	**Business Process Owner (BPO):** Exec Dir,Patient Safety& Qlty, 0000226311 Safety & Clinical
Exhibit(s): Exhibit A: Aseptic Validation Observation Checklist; Exhibit B: Aseptic Validation Supply List and Media Fill;		
Document Type: Policy and Procedure		

PURPOSE

The purpose of this policy is to set requirements and guidelines for aseptic validation testing and training.

SCOPE

This policy and procedure applies to all Coram CVS Specialty® Infusion Services locations and includes specific requirements for California licensed pharmacies. Coram CVS Specialty® Infusion Services will be referred to as ("the Company") throughout this policy.

POLICY

1. Aseptic technique is validated by the completion of an aseptic validation test which consists of:
   - 1.1. Garbing/Gowning competency (pre-compounding fingertip evaluation)
   - 1.2. Aseptic Manipulation Competency, which consists of:
     - 1.2.1. Media fill unit preparation
     - 1.2.2. Post-compounding fingertip evaluation
     - 1.2.3. Direct Compounding Area (DCA) surface evaluation
2. The aseptic validation test ensures that the compounding personnel can produce a compounded sterile preparation ("CSP") that is free of contamination.
3. Each colleague that is assigned to compound and every pharmacist who works on-site in the pharmacy and is assigned to check or compound sterile products must complete the following training before they can begin their initial aseptic validation testing. Pharmacists and other colleagues who work remotely and perform only front-end functions are exempt from the aseptic technique training program, the initial aseptic validation, and the ongoing annual requirements.
   - 3.1. The Aseptic Technique Training Program, which consists of:
     - 3.1.1. Didactic Training (all competency tests must be filed in the colleague's personnel file)
       - 3.1.1.1. Initial didactic training entails completion of the courses and competency tests included in the Aseptic Training Module in Learning Hub, upon hire.
       - 3.1.1.2. Ongoing didactic training must be repeated annually in the first quarter and must consist of a minimum of 1 hour of sterile compounding

training and a competency test/quiz with a passing score. Annual didactic training may be chosen from the following sources, and may not be repeated the following year:

3.1.1.2.1. LearningHub Courses (use search term "sterile compounding")

3.1.1.2.2. Pharmacist's Letter, Technician's Letter/Tech University sterile compounding continuing education courses

3.1.1.2.3. Other learning as assigned by the education team

3.2. Completion of all assigned courses under the Aseptic Technique Training Program header in LearningHub.

4. General Pharmacy Managers (GPM)/PIC/Pharmacy Supervisor and designated Aseptic Validation Trainers (AVT) at each pharmacy must retrain on this policy via LearningHub, prior to the start of testing each year.

5. Aseptic Validation Testing

5.1. An aseptic validation test must be:

5.1.1. The most complicated sterile compounding process performed by each compounding technician/compounding pharmacist upon hire and before being allowed to compound or check compounded orders.

5.1.1.1. The most complicated sterile compounding process performed by each California pharmacist or pharmacist checking APEX® orders in a California licensed pharmacy upon hire and before being allowed to compound or check compounded orders.

5.1.2. The most complicated sterile compounding process performed by each GPM, PIC, Pharmacy Supervisor within 3 months of hire and before being allowed to compound, check compounded orders, or proctor aseptic validation tests.

5.1.3. The no equipment sterile compounding process performed by all other pharmacists prior to being allowed to perform the final check of compounded sterile products.

5.1.4. Performed ongoing every six months per USP <797> for category 1 and category 2 compounded sterile product.

5.1.5. Documented on the 'Aseptic Validation Observation Checklist (Exhibit A)' each time.

5.1.6. Scheduled to ensure all aseptic validations are completed in assigned timelines using Aseptic Validation Scheduling Tracker on the Cleanroom Operations SharePoint site at this link: Cleanroom Ops Info (sharepoint.com).

5.2. The aseptic validation testing process includes:

5.2.1. A demonstration of proper scrubbing technique.

5.2.2. A demonstration of donning compounding room garb and the completion of glove fingertip testing on all fingers of both hands immediately after donning gloves during gowning.

5.2.3. The preparation of the appropriate validation media fill unit to assure competency in aseptic technique, and the completion of glove fingertip testing on all fingers of both hands immediately after preparation of the media fill unit.

5.2.4. Completion of surface sampling of Direct Compounding Area (DCA)

5.2.5. Proper and consistent cleaning and disinfecting technique

5.3. All aseptic validation tests must be observed by the GPM, PIC, Pharmacy Supervisor or a colleague that the GPM, PIC, or Pharmacy Supervisor has qualified to be an Aseptic Validation Trainer (AVT).

5.3.1. The qualification process for a new AVT candidate consists of the candidate completing the steps in the below sequence:

5.3.1.1. Complete the Aseptic Process Validation Training (49200033) in Learning Hub.

5.3.1.2. Complete and pass a full aseptic validation test with the GPM, PIC or Pharmacy Supervisor as proctor and the person completing the Aseptic Validation Observation Checklist (AVOC).

5.3.2. The GPM, PIC or Pharmacy Supervisor must proctor every scheduled aseptic validation test that an AVT performs and also document each on an 'Aseptic Validation Observation Checklist (Exhibit A)'.

5.3.2.1. One AVT cannot ever proctor another AVT's aseptic validation.

5.3.3. The qualification process for GPM, PIC or Pharmacy Supervisor consists of the AVT or another GPM, PIC, or Pharmacy Supervisor observing the candidate while completing every scheduled aseptic validation test. This observation must be documented on the Aseptic Validation Observation Checklist by the trainer.

5.3.4. If the pharmacy is equipped with both vertical and horizontal laminar flow primary engineering controls (PECs) for compounding, the AVT, GPM, PIC or Pharmacy Supervisor must be initially qualified in each airflow PEC.

5.4. Validation of new colleagues requires:

5.4.1. NON-CALIFORNIA LICENSED PHARMACIES

5.4.1.1. That the GPM/PIC/Pharmacy Supervisor/AVT/compounding technicians/compounding pharmacists: Complete three (3) aseptic validation tests in each airflow PEC the new compounding colleague will work in.

5.4.1.2. That the Non-compounding pharmacists, except the GPM/PIC/Pharmacy Supervisor/AVT: Complete three (3) no equipment aseptic validation tests in the most predominant airflow PEC.

5.4.2. CALIFORNIA LICENSED PHARMACIES

5.4.2.1. That the GPM/PIC/Pharmacy Supervisor/AVT/compounding technicians/compounding pharmacists: Complete three (3) aseptic validation tests in each airflow PEC the new compounding colleague will work in.

5.4.2.2. That the Pharmacists required to check APEX® orders in California licensed pharmacies: Complete three (3) TPN Simulation (APEX®) aseptic validation tests.

5.4.3. That the fingertip and surface plate results are within normal limits, and ALL media fill units are non-turbid after the first 10 days of incubation for a new colleague to be granted clearance to begin compounding patient solutions.

5.5. On-going validation of existing colleagues requires:

5.5.1. NON-CALIFORNIA LICENSED PHARMACIES

5.5.1.1. That a single aseptic validation test, in one airflow PEC be completed every six months per USP <797> for category 1 and category 2 compounded sterile product. The schedule will be published annually by corporate quality team.

5.5.1.2. For GPM/PIC/Pharmacy Supervisor/AVT/compounding technicians/compounding pharmacists, that the aseptic validation test replicates the most complicated sterile compounding process.

5.5.1.3. That non-compounding pharmacists complete the no equipment aseptic validation test.

5.5.2. CALIFORNIA LICENSED PHARMACIES

5.5.2.1. That a single aseptic validation test, in both airflow PECs the compounding colleague works in be completed every six months per USP <797> for category 1 and category 2 compounded sterile product. The schedule will be published annually by corporate quality team.

5.5.2.2. For GPM/PIC/Pharmacy Supervisor/AVT/compounding technicians/compounding pharmacists/pharmacists required to check APEX® orders in California licensed pharmacies, that the aseptic validation test replicates the most complicated sterile compounding process.

5.5.2.3. That non-compounding pharmacists that will not be required to check APEX® orders in a California licensed pharmacy, complete the no equipment aseptic validation test.

5.5.3. That the GPM, PIC, Pharmacy Supervisor or AVT observe the colleague and complete the 'Aseptic Validation Observation Checklist (Exhibit A)'.

5.5.4. That the fingertip and surface plate results are within normal limits, and the media fill unit is non-turbid after the first 10 days of incubation for an existing colleague to maintain clearance to compound patient solutions.

5.6. Regional Technician Program

5.6.1. Regional Technicians are required to complete their aseptic validation tests per AVT requirements listed in sections 5.4 and 5.5 above as outlined in the PROCEDURE section of this policy.

5.6.2. Documentation of the Regional Technicians validation results are to be maintained at the testing pharmacy, and in the Document Management System (Branch Binders (appserviceenvironment.net)).

PROCEDURE

1. New colleagues must complete three (3) aseptic validation tests. The GPM, PIC, Pharmacy Supervisor, or AVT must observe the new colleague performing all three aseptic validation tests and complete an 'Aseptic Validation Observation Checklist (Exhibit A)' each time, as a competency for the new colleague.

   1.1. A new colleague must complete three (3) aseptic validation tests in each airflow PEC they will compound in.

2. Existing colleagues must complete ongoing aseptic validation tests every six months per USP <797> for category 1 and category 2 compounded sterile product.

   2.1. The GPM, PIC, Pharmacy Supervisor or AVT must observe each existing colleague perform one aseptic validation test and complete the 'Aseptic Validation Observation Checklist (Exhibit A)', as a competency for each colleague.

3. Refer to the Aseptic Validation Material Supply List in Exhibit B for a list of all materials needed to perform one Aseptic Validation test.

4. **The aseptic validation test must include:**

   4.1. Proper scrubbing, garbing and donning sterile glove technique

   4.2. Two sets of fingertip glove samples

      4.2.1. One set immediately after donning sterile gloves in the compounding room (repeat for a total of three tests for initial validation)

      4.2.2. One set at the end of each media fill bag compounded during the process

   4.3. The preparation of a media fill unit

   4.4. One surface sample of the direct compounding area (DCA)

   4.5. Proper and consistent cleaning and disinfecting technique

5. **A validation of correct scrubbing, garbing and gloving technique must be completed.**

   5.1. The GPM, PIC, Pharmacy Supervisor or AVT must observe each colleague scrubbing, garbing and gloving and document observations on the 'Aseptic Validation Observation Checklist (Exhibit A)'.

   5.2. Touch contamination is the most likely source of introducing microorganisms into the CSP. Glove fingertip sampling must be used to evaluate the competency of personnel in performing correct gloving procedures and correct aseptic technique practices that

include frequent and repeated glove disinfection using sterile isopropyl alcohol 70%, (SIPA 70%).

5.2.1. After the colleague has donned sterile gloves and before the gloves are disinfected with SIPA 70%, the GPM, PIC, Pharmacy Supervisor or AVT shall open and present a sterile Tryptic Soy Agar (TSA) with neutralizing agent plate to the trainee. The colleague must gently roll the pads of thumb and all fingers of one hand across the surface of the agar, followed by the second hand on a second plate.

5.2.2. If too much pressure is applied and the agar in the plate is damaged, dispose of the plate, remove the gloves, aseptically don new gloves and repeat finger and thumb sampling with a new media plate.

5.2.3. Two plates must be used and labeled right and left hand along with the colleague's name and date of testing. Gloves used for the test must be discarded and new gloves must be donned to prepare the media fill unit.

5.2.3.1. If the colleague is submitting more than one validation in a day, ensure the plates are labeled sufficiently so that the samples can be clearly identified and associated with each validation performed.

5.2.3.2. For initial validation, where a new hire completes three aseptic validation tests in one day, the colleague shall perform a separate and complete hand hygiene and full garbing procedure three times. Each time, immediately after donning gloves, the colleague will complete gloved fingertip testing on all fingers of both hands.

6. **The preparation of a media fill unit must be completed.**

6.1. Each GPM, PIC, Pharmacy Supervisor, AVT, compounding technician, compounding pharmacist and pharmacist checking APEX® orders in a California licensed pharmacy must prepare one media fill unit which replicates the most complicated sterile compounding process (Total Parenteral Nutrition (TPN) simulation for APEX®) every six months per USP <797> for category 1 and category 2 compounded sterile product.

6.2. Each pharmacist that does not compound on APEX® and is not required to check APEX® orders in a California licensed pharmacy, and is not the GPM, PIC, Pharmacy Supervisor or AVT, must prepare one media fill unit following the No-Equipment media fill simulation.

6.3. New hires and initial AVT qualification testing for GPMs, PICs, Pharmacy Supervisors and AVTs (if the pharmacy has both vertical and horizontal laminar air flow PECs) must complete a No-Equipment media fill in the second air flow PEC.

6.4. The media fill procedures are outlined below, with each colleague setting up new pump sets for their own validation. Refer to the Media Fill Process Flows in Exhibit B for a visual depiction of each of these processes.

6.5. **TPN-Simulation Media Fill (APEX®):**

6.5.1. Install the transfer set on the APEX® and complete set-up wizard following this template:

6.5.1.1. Draw up 15 mL of TSB from a TSB bag into 4 separate 20 mL syringes using 4 separate 18g needles and set aside.

6.5.1.2. Attach 2L Sterile Water for Injection bag to line 1.

6.5.1.3. Draw up 50 mL of TSB from the same TSB bag used in step 6.5.1.1 into 4 separate 50 mL syringes, using 4 separate 18g needles, and attach to lines 8, 10, 12 and 14 using the QR TSB syringe code in Exhibit B.

6.5.1.4. Attach Tryptic Soy Broth (TSB) bags to lines 2, 4, 24 and 26 using the QR TSB bag code in Exhibit B.

6.5.2. Attach calibration bag and perform the pump calibration. Change the Universal ingredient (UI) to station 2 TSB and perform the priming and manifold flush process.

6.5.3. A Pharmacist must perform the APEX® setup check.

6.5.4. Manually program the following volumes:

6.5.4.1. Line 2 – 430 mL

6.5.4.2. Line 4 – 450 mL

6.5.4.3. Line 8 – 40 mL

6.5.4.4. Line 10 – 40 mL

6.5.4.5. Line 12 – 40 mL

6.5.4.6. Line 14 – 40 mL

6.5.4.7. Line 24 – 450 mL

6.5.4.8. Line 26 – 450 mL

6.5.5. Program approval by a pharmacist is required.

6.5.6. Attach 2000 mL IV bag to the APEX®.

6.5.7. Pump order until finished.

6.5.8. Remove the media fill bag.

6.5.9. Remove air from the media fill bag (use Air Removal Tubing (ART) when available).

6.5.10. Clamp off the media fill bag.

6.5.11. Inject the 4 syringes containing 15 mL of TSB prepared in step 6.5.1.1 into the final media fill bag.

6.5.12. Perform the post compounding gloved fingertip sampling per step 7 below.

6.5.13. Remove gloves and aseptically don a new pair of sterile gloves.

6.5.14. Break down the APEX® and clean the PEC.

6.5.15. Record final media fill volume (2000 mL) on the 'Aseptic Validation Observation Checklist (Exhibit A)'.

6.5. **No-Equipment Media Fill:**

6.5.1. Using one bag of TSB, withdraw 7.5 mL into each of 10, 10 mL syringes. From each syringe, inject the 7.5 mL TSB into an empty 150 mL IV bag.

6.6. For all media fill units prepared using the above methods:

6.6.1. Seal the bag and label with marker, including the colleague's name and colleague number, and the date prepared.

6.6.2. Obtain two (2) unused media bags from the same media lot used for the media fill activity and label as "Control". Two unused media bags per lot must be submitted to the CVS Health® Microbiology Laboratory per day of media fill testing.

7. **One set of glove fingertip samples must be collected (following the procedure in 5.2) immediately after the colleague completes compounding the media fill unit.**

7.1 The purpose of the second set of plates is to assure that the colleague sanitized their testing materials appropriately and disinfected their gloves frequently enough to maintain cleanliness throughout the process of preparing the media fill unit, despite touching non-sterile surfaces and moving their hands in and out of the ISO 5 work area.

7.2 Gloves must not be disinfected immediately before touching the media plate.

8. **One surface sample of the direct compounding area (DCA) must be collected.**

8.1 Sample must be collected per Coram Policy 'Environmental Surface and Air Monitoring (I305-017)'

8.2 Sample must be collected after the media fill compounding process and before disinfecting the PEC.

8.3 All test plates must be labeled along with two (2) unused control plates from each lot of media used. All plates must be locked or taped closed.

8.3.1 If the colleague is submitting more than one validation test in a day, ensure the plates are labeled sufficiently so that the samples can be clearly identified and associated with each validation test performed.

8.4 Aseptic validation testing should be performed no later than Thursday of the work week to ensure Tuesday-Friday delivery to the laboratory.

9. **A validation of correct PEC cleaning technique must be completed.**

9.1. The Aseptic Validation Trainer must observe each colleague cleaning the PEC prior to, during (as needed for spills/droplets), and immediately after preparation of the media fill unit. Document observations on the 'Aseptic Validation Observation Checklist (Exhibit A)'.

10. **Aseptic Validation test samples must be shipped to the CVS Health Microbiology Laboratory to ensure Tuesday – Friday delivery. Pack shipment to avoid extreme temperature variations and damage, per packing and shipping policy. Instructions for shipping and product submission are located on myCoram > Pharmacy > Cleanroom Operations > Micro Lab Information. Each shipment must include:**
    10.1. Two (2) gloving validation (pre-compounding) fingertip plates per colleague.
    10.2. Two (2) post-compounding fingertip plates per colleague.
    10.3. One DCA plate per colleague.
    10.4. Two (2) unopened plates from the same media lot used for fingertip sampling that are labeled as "control".
        10.4.1. Two per each lot of media used
    10.5. One (1) Media Fill unit.
    10.6. Two (2) unused TSB bags from the same lot used for the media fill, that are labeled as "Control" and placed in a resealable bag.
        10.6.1. Two per lot, per day of media fill testing
    10.7. A completed chain of custody (COC) form for each validation submitted.
        10.7.1. A fillable COC form is located on myCoram > Pharmacy > Cleanroom Operations > Micro Lab Information.
        10.7.2. Select correct test type.
11. **Aseptic Validation acceptance criteria and reporting:**
    11.1. The media fill unit must be incubated for no less than 7 days at 30-35°C and then at 20-25°C for no less than an additional 7 days, and TSA plates must be incubated at 30-35°C for no less than 48 hours and then at 20-25°C for no less than 5 additional days. (confirmed by the final results report).
    11.2. The CFUs obtained from glove fingertip testing must be the total obtained from BOTH hands.

Sample	Limit
Total CFU Pre-compounding Sample (Left + Right Gloves)	Action ≥1 CFU
Total CFU Post-compounding Sample (Left + Right Gloves)	Action >3 CFU
Direct Compounding Area Surface Sample	Action >3 CFU

    11.3. A passing result for a media bag is the absence of visual evidence of microbial growth. Failure of the media fill unit is indicated by visible turbidity or other visual manifestations of growth in the media.

11.3.1. If particulate is found in the TSB media, it must be collected and evaluated to determine whether it is microbial in nature before being reported as a failure.

11.4. If there is no growth within ten days, a new colleague who has achieved satisfactory scores in the electronic and practical exams shall be allowed to prepare compounded sterile preparations.

11.4.1. The Microbiology Laboratory will convey failing preliminary results after 10 days incubation.

11.5. The Microbiology Laboratory will issue a final results report.

12. **Responding to Out of Limit Results.**

12.1. If an out of limit (pre-compounding fingertip, media fill bag , post-compounding fingertip or DCA surface) sample occurs during any of a new colleague's three initial aseptic validation tests or an existing colleague's single aseptic validation test, then the following must be completed:

12.1.1. The colleague must immediately cease sterile compounding activities.

12.1.2. The GPM/PIC/Pharmacy Supervisor/AVT must initiate an internal pharmacy investigation following Coram policy 'Investigation of Cleanroom Incidents (I305-079)'.

12.1.3. If an assignable root cause is not found, The GPM/PIC/Pharmacy Supervisor/AVT must work with the employee to address failures and retrain on aseptic technique. Document training on an In-service log and retain documentation along with the colleagues RCA and retest results.

12.1.4. If the colleague only failed the pre-compounding fingertip sampling portion of the aseptic validation test, they must repeat and pass a pre-compounding fingertip sampling three times in one day. The colleague may not return to sterile compounding until all sets of media plates are found to be within normal limits.

12.1.5. If the colleague failed the media fill bag portion of the aseptic validation test, then they must repeat both the media fill, post media fill fingertip sampling and DCA surface sample three times in one day. The colleague may not return to sterile compounding until all three of the media fill bags have no growth after 10 days.

12.1.6. If the colleague only failed the post-compounding fingertip portion of the aseptic validation test, then they must complete a No-Equipment media fill + post media fill fingertip sampling **one time**. The colleague may return to compounding after the fingertip samples are found to be within limits. The final report issued upon completion of the media bag incubation shall be reviewed by the GPM, PIC, Pharmacy Supervisor or AVT to ensure the media fill bag results are acceptable for the colleague.

12.1.7. If the colleague only failed the direct compounding area portion of the aseptic validation test, then they must complete a No-Equipment media fill and direct

compounding surface sampling **one time**. The colleague may return to compounding after the DCA sample is found to be within limits. The final report issued upon completion of the media bag incubation shall be reviewed by the GPM, PIC, Pharmacy Supervisor or AVT to ensure the media fill bag results are acceptable for the colleague.

12.1.8. The colleague's aseptic technique must be observed and documented at the time of testing by the GPM, PIC, Pharmacy Supervisor or AVT, utilizing the 'Aseptic Validation Observation Checklist (Exhibit A)'.

12.2. If during a new or existing colleague's repeated aseptic validation test, a second out of specification result occurs, they must:

12.2.1. Continue to refrain from compounding.

12.2.2. The corporate Quality and Pharmacy teams shall review all prior RCA documentation, observation records and all Microlab results. A plan of action will be formulated which may include:

12.2.2.1. Additional training

12.2.2.2. Additional testing

13. The Aseptic Validation Observation Checklist(s) (Exhibit A) and the Certificate of Completion/Final Report(s) document each colleague's validation test. They must be reviewed and/or signed by the GPM or designee and filed in the QC binder.

DEFINITIONS:

1. **Aseptic Validation:** Completing a media fill and fingertip testing using the most complicated process for that pharmacy
2. **Aseptic Validation Trainer (AVT):** The pharmacist-in-charge or qualified designee that oversees the aseptic validation process for each sterile compounding technician and pharmacist
3. **Colleague:** Any full-time, part-time, temporary, or casual employee of CVS Health® subsidiaries and affiliates, along with paid interns and externs employed by CVS Health® subsidiaries and affiliates.
4. **CVS Health®:** An enterprise brand that is used by CVS Pharmacy, Inc. and each of its subsidiaries and affiliates.
5. **CVS Specialty®:** The specialty pharmacy subsidiaries and affiliates of Caremark, L.L.C. that provide prescription drugs, therapies, services, and support to individuals who require complex and expensive drug therapies.
6. **Regional Technician Program:** A group of experienced compounding technicians which supports the needs of their region by traveling, as needed, to various Coram pharmacies.
7. **Tryptic Soy Agar (TSA):** Solid microbiological media used in fingertip sampling
8. **Tryptic Soy Broth (TSB):** Liquid microbiological media used in media fill testing

PURPOSE

The purpose of this policy is to provide accepted guidelines for cleaning and disinfection of the Coram CVS cleanroom suite in pharmacies using Epic. These guidelines are designed to ensure cleanliness of all areas, equipment and other contact surfaces in the rated areas used to produce, test, package and label or hold components or finished goods.

SCOPE

This policy and procedure applies to all Coram CVS Specialty® Infusion Services locations using Epic that maintain a Coram CVS cleanroom suite.

POLICY

1. It is the responsibility of all colleagues to follow this procedure for cleanroom cleaning procedures and use of formulary approved cleaning and disinfecting agents.
2. It is the responsibility of the facility Pharmacist-in-Charge (PIC) or designee to ensure that colleagues are trained on this procedure.
3. Environmental contact is a major source of microbial contamination. Attention must be paid to the use of formulary approved cleaning and disinfecting agents for cleaning and disinfection of the ISO 5 areas, the adjoining work areas and rooms. The introduction of outside contaminants must be minimized by:
    - 3.1. Properly placed tacky mats on the unrated area side of all doorways leading into the cleanroom complex. No tacky mats will be placed inside the rated areas including the prep room, ante room, compounding room or negative pressure room.
    - 3.2. Company approved, lint-free, cleanroom-rated paper for the printing of all documents taken into the cleanroom.
    - 3.3. Appropriate gowning - refer to Coram policy 'Cleanroom Garb (I305-004)' for details.
    - 3.4. Formulary approved cleaning and disinfecting agents used for components and equipment as they are moved into each room of the clean room suite. Refer to Coram policy 'General Compounding and Checking Guidelines – Epic (I305-020 Epic)' for guidance.
4. Cleaning and disinfection using formulary approved agents must occur at the outlined frequency and made a priority by pharmacy management and compounding colleagues to assure patient safety.

5. The use of non-formulary cleaning and disinfection agents may only occur if approved by the Coram Quality and Patient Safety team.
6. All cleaning equipment must be disinfected with appropriate disinfectant before being brought into the compounding room.
7. If compounding occurs after-hours (on-call), required cleaning includes: ISO 5 work surfaces disinfected with formulary approved cleaning agents before and after the completion of the on-call compounding, trash removal. This cleaning must be recorded in the approved computerized program.
8. Cleaning and disinfecting procedures with formulary approved agents will occur as scheduled and be documented in the approved computerized program upon the completion of the task.
    8.1. All cleaning and disinfection procedures with formulary approved agents will be performed by trained Company personnel or agency personnel who have successfully completed training as documented on the 'Cleanroom Cleaning Procedures Competency Checklist (Exhibit A)'.
    8.2. Cleaning and disinfecting procedures with formulary approved agents completed in the negative pressure room and the biological safety cabinet will be performed by trained Company personnel or agency personnel who have successfully completed training as documented in the 'Cleanroom Cleaning Procedures Competency Checklist Negative Pressure Room/BSC Addendum (Exhibit D)'.
    8.3. Cleaning Procedures Competency must be administered on hire and repeated annually during Quarter 1.
    8.4. Goggles must be worn when completing monthly cleaning of walls and ceilings.
9. Approved vendors working in the clean room suite must follow cleaning and disinfecting procedures, use formulary approved agents and all equipment must be disinfected before being brought into the clean room suite.
10. All areas adjacent to the clean room suite, including the secure drug storage and warehouse areas must be maintained in a clean and orderly fashion.

PROCEDURE

CLEANING IN THE CLEANROOM SUITE

1. Equipment required for cleaning. All cleaning equipment must be stored on the dirty side of the line of demarcation.
    1.1. **Mop heads and handle(s)**. Store mop handles suspended off of the floor. Disinfect with Gamma irradiated SIPA 70% before introducing into compounding room and ISO5 area (when applicable).
        1.1.1. Ceiling and walls – use a dedicated sterile, disposable KleanMax® mop pad system for each ISO-rated area and negative pressure room (NPR).
        1.1.2. Floors – use the sterile, disposable MicroCinch® mop pad.

1.1.3. For hard-to-reach areas within the ISO 5 area, use the EasyReach® tool or a designated disinfected mop handle for use in the ISO 5 vertical flow workbench area using the KleanMax® mop pad (rated for ISO 5 areas).

1.1.4. All mop systems use disposable, sterile mop pads and are labeled according to these directions:

1.1.4.1. **Ceilings and walls in ISO 7 positive pressure rooms** of the compounding suite must be cleaned with formulary approved cleaning agents using the same mop pads and handles, labeled 'CEILINGS/WALLS – 7.'

1.1.4.2. **Ceilings and walls in ISO 7 negative pressure rooms** of the compounding suite must be cleaned using formulary approved cleaning agents and the same mop pads and handles, labeled 'CEILINGS/WALLS – NPR.'

1.1.4.3. **Ceilings and walls in all ISO 8 rooms** of the compounding suite must be cleaned using formulary approved cleaning agents and the same mop pads and handles, labeled 'CEILINGS/WALLS – 8'. These mops are used during monthly cleaning.

1.1.4.4. **Floors in ISO 7 positive pressure rooms** of the compounding suite must be cleaned with formulary approved cleaning agents, using the same mop pads and handles, labeled 'FLOORS ONLY-7'. The 'FLOORS ONLY-7' mop must be used for both DAILY and MONTHLY cleaning with formulary approved cleaning agents to allow for appropriate disposal of used mop pads.

1.1.4.5. **Floors in ISO 7 negative pressure rooms** of the compounding suite must be cleaned using formulary approved cleaning agents and the same mop pad and handles, labeled 'FLOORS ONLY-NPR'. The 'FLOORS ONLY-NPR' mop must be used for both DAILY and MONTHLY cleaning with formulary approved cleaning agents to allow for appropriate disposal of used mop pads.

1.1.4.6. **Floors in all ISO 8 rooms** of the compounding suite must be cleaned using formulary approved cleaning agents and the same mop pads and handles, labeled 'FLOORS ONLY-8'. The 'FLOORS ONLY-8' mop must be used for both DAILY and MONTHLY cleaning with formulary approved cleaning agents to allow for appropriate disposal of used mop pads.

1.1.4.7. **For hard-to-reach areas within the ISO5** area (i.e. the interior of enclosures in horizontal wall units) a dedicated EasyReach® tool or a designated disinfected mop handle using the KleanMax® mop pad (rated for ISO 5 areas) may be used, labeled 'ISO5 ONLY'. EasyReach® tools used in a BSC or CACI within a negative pressure room must be dedicated to use only within that space and labeled as 'ISO5 NPR ONLY'.

1.1.5. DO NOT use the mop to clean Digi SmartSense mounted devices. These sensitive electronic devices must be cleaned by hand using a sterile wipe dampened with SIPA.

1.2. Sterile non-woven, non-shedding disposable wipers.

1.3. Disinfectant and Cleaning solutions - approved disinfectants and sporicidals/detergents that must be used in the clean room are:

1.3.1. PeridoxRTU-HC® sporicidal/detergent - label with date of first use and discard any unused solution within 6 months.

1.3.2. Gamma irradiated SIPA 70% (GI-SIPA 70%) - use contents until gone.

1.3.3. TB1-3300™ disinfectant/germicidal detergent - label with date of first use and discard any unused solution within 6 months.

1.3.4. Sterile water for injection or irrigation used to clean up spills. Area should be disinfected with GI-SIPA 70% after cleanup is completed.

1.4. Tacky Mats - Must be changed whenever they show signs of contamination and at the end of the compounding day, removing the top layer from the cleanest area towards the dirtiest area. Pull all sides of the layer toward the center to prevent debris from falling on clean floors and surfaces.

1.5. Appropriate Personal Protective Equipment (PPE) is required based on Safety Data Sheets (SDS).

1.5.1. See Coram policy 'Hazard Communication Plan (SAF-045)' for more information on SDS and how to access them.

1.6. Chemical/splash goggles for full coverage of the eyes for use with PeridoxRTU-HC®.

1.6.1. Colleagues may also use P95 disposable respirator mask for PeridoxRTU-HC®.

1.6.2. Fit testing is not required for voluntary use of the P95 respirator mask, but the colleague must read the CVS Enterprise 'Respiratory Protection Policy'.

1.6.3. The 'Voluntary Use of Filtering Face Piece (FFP) Respirator Acknowledgment (SAF-INF-020 Exh C)' must be signed in lieu of the Exhibit 1 of the Respiratory Protection Policy. File this form in their medical record, review and sign annually during the cleaning competency process. The form is located on the Forms page of myCoram.

1.7. Eye protection for use with TB1-3300™.

1.8. A fit-tested N95 respirator is required while decontaminating the biological safety cabinet and the area under the spill tray of a biological safety cabinet. Fit tested respirators are required for this cleaning activity. Refer to Coram policy 'Biological Safety Cabinet Decontamination (I305-029)'.

Prior to beginning compounding day:

1. Disinfect the ISO5 Primary Engineering Controls following the procedure outlined in Coram policy 'Guidelines for Aseptic Technique - Epic (I305-018 Epic)' and using GI-SIPA 70%. Change sterile wipe frequently.
2. Disinfect compounding equipment with GI-SIPA 70%.

During compounding day:

1. Disinfecting ISO5 work surface with GI-SIPA70% between compounding batches and every 30 minutes.
    1.1. The ISO5 work surface used to compound beta-lactam drugs (see Coram policy I305-018 Epic) must be washed with sterile water, allowed to dry, then disinfected with GI-SIPA 70%. The compounder must replace sterile gloves with a new pair prior to compounding non-beta-lactam medications.
    1.2. The work surface of a BSC must be decontaminated between compounding of different hazardous drugs. If compounding hazardous drugs in an ISO5 area other than a BSC, the work surface of the ISO5 area must be decontaminated as outlined in the assessment of risk for the selected drug. Refer to Coram policy 'Handling and Compounding of Hazardous Drugs - Epic (I305-021 Epic)' for details.
2. Any spills must be cleaned up immediately using sterile water and/or disinfected with GI-SIPA 70%.

End of Day:

1. Remove all compounding waste. Discard TPN waste as directed in Coram policy 'TPN Waste Management – California State-Specific (I305-028 CA)'. Clean any spills or splashes on any areas of the ISO5 area with sterile water for injection/irrigation.
2. Clean and disinfect the ISO5 Primary Engineering Controls, including Plexiglas, plastic and compounding equipment, using PeridoxRTU-HC®. Change sterile wipe frequently.
    2.1. Proper procedures outlining the cleaning with formulary approved cleaning agents and decontamination requirements of a biological safety cabinet are located within Coram policy I305-029.
3. Disinfect all horizontal surfaces (i.e. carts, pass-through) and high-touch areas (i.e. door handles, chairs, Epic keyboards, touch screens, scanners and cameras) using TB1-3300™ disinfectant.
4. Removal of trash - this may not occur in the compounding room. The waste receptacle must be moved to the anteroom/area prior to waste removal and liner replacement. Empty as needed throughout the day.
5. Mop the compounding room floor using a dry sterile mop pad if needed to pick up vial caps, needle covers etc. Discard mop pad.
6. Using a new sterile mop pad and TB1-3300™, disinfect floor by pouring disinfectant on the mop pad. Change mop pad whenever it appears soiled.

7. Clean with overlapping strokes, from cleanest to dirtiest area, leaving surface visibly wet to maximize contact time. **Allow floor to dry before moving carts, chairs, etc. back into place.**

Ante room

End of Day:

1. Remove trash (must occur at least daily)
2. Disinfect work surfaces with TB1-3300™, disinfectant and sterile wipes.
3. Disinfect sink, if applicable, with TB1-3300™, followed by GI-SIPA 70%
4. Disinfect floor by pouring TB1-3300™ disinfectant on the mop pad. Change mop pad whenever it appears soiled. Clean with overlapping strokes, from cleanest to dirtiest area, leaving surface visibly wet to maximize contact time. It is acceptable to use the mop pad that was used in the compounding room to mop the ante room floor. **Allow floor to dry before moving carts, chairs, etc. back into place.**

Prep room

End of Day:

1. Remove trash (must occur at least daily)
2. Disinfect work surfaces with TB1-3300™ disinfectant and sterile wipes.
3. Disinfect sink, if applicable, with TB1-3300™ disinfectant followed by GI-SIPA 70%
4. Disinfect floor by pouring TB1-3300™ disinfectant on the mop pad. Change mop pad when it appears soiled.
5. Clean with overlapping strokes, from cleanest to dirtiest area, leaving surface visibly wet to maximize contact time. **Allow floor to dry before moving carts, chairs, etc. back into place.** It is acceptable to use the mop pad that was used in the ante room to mop the prep room floor.

1. At the discretion of management if the operational integrity of the clean room has been compromised
2. After room or hood filter certification procedures that require equipment be brought into the room or smoke testing
3. After any maintenance or other events occurring in the clean room that would compromise environmental integrity - refer to 'Management of Cleanroom Repairs/Remodel (I305-016 Exhibit C) and Coram policy 'Cleanroom Specifications, Certification, and Maintenance (I305-016)' for guidance.
4. After new construction of a cleanroom has been completed (refer to 'Facility New Construction Cleanroom Validation Checklist (I305-016 Exhibit B).

Triple Cleaning

Trained personnel must initiate a triple cleaning of the affected area(s) according to Coram policy exhibits: I305-016 Exhibit B or I305-016 Exhibit C. A complete triple cleaning is the equivalent of a repeated monthly cleaning using approved formulary cleaning agents and must consist of cleaning ceilings, walls, floors, equipment, and work areas using the following detergents/disinfectants in this order:

1. PeridoxRTU-HC®
2. TB1-3300™
3. GI-SIPA 70% on all areas except the floor

MAINTAINING AN INACTIVE CLEANROOM

1. Coram pharmacies may have a cleanroom that is inactive for a temporary period of time. These spaces must be maintained so that they are ready for use when needed.
    1.1. Record temperatures, humidity and pressure readings utilizing the continuous monitoring system. Address and correct all alarms and out of limit readings.
    1.2. Perform weekly cleaning procedures as detailed above.
    1.3. Perform monthly cleaning procedures as detailed above.
    1.4. Perform viable environmental monitoring monthly according to Coram policy 'Environmental Surface and Air Monitoring (I305-017)'.
        1.4.1. Air samples may be requested at the direction of the Quality Department.
        1.4.2. If viable environmental monitoring results are outside of acceptable limits, at the discretion of the Quality Department, the required cleaning and/or testing frequency may be increased.
2. To Reinitiate use of a temporarily inactive cleanroom
    2.1. Twenty-four (24) to forty-eight (48) hours prior to initiating use of the inactive cleanroom for patient compounding, perform a monthly clean.
    2.2. Perform environmental monitoring after monthly cleaning is complete.

2.3. The PIC must review the prior environmental monitoring data, temperatures, humidity, and pressure readings. Obtain direction from Quality Department if there were any out of limit results.

2.4. Compounding may commence once the cleaning and testing is complete, and while environmental results are pending.

3. When a cleanroom is to be permanently inactive, the following steps must be followed:

3.1. The air handling system for a permanently inactive cleanroom will remain functional, unless approved by Senior Leadership in conjunction with Operations and Coram's Quality teams.

3.2. A closure sign (see Exhibit E) shall be posted on the entrance to the cleanroom suite that signifies the room(s) is/are no longer in use

3.3. The permanently inactive cleanroom shall not be used for additional storage.

3.4. Movement in and out of the inactive cleanroom shall be restricted.

4. To reinitiate the use of a permanently inactive cleanroom:

4.1. Senior leadership must approve the re-activation of the cleanroom, in collaboration with Coram Quality, Patient Safety, Regulatory and Clinical teams.

4.2. The entire cleanroom suite must be re-evaluated as if it is a new space.

4.3. All required cleanings, including a triple clean, must be performed.

4.4. Functional and viable testing must be performed by the contracted vendor to qualify the room for use.

4.5. The Board of Pharmacy must be made aware that the room is being re-activated, and all required inspections and licensure must be obtained.

DOCUMENTATION

1. All cleaning tasks using approved formulary cleaning agents must be documented upon completion by trained personnel, utilizing the approved software.
2. Documentation must not be completed in advance and must be completed by one of the colleagues that performed the task whenever possible.
3. If several colleagues participate in a cleaning activity using approved formulary cleaning agents, that participation must be noted in the 'comments' section.
4. The PIC or designee must review the computer data entry at least monthly to ensure that all activities are completed as indicated in this policy.

DEFINITIONS

1. See Coram policy 'Cleanroom Definitions (I305-009)' for all terms and definitions used in this policy.

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)?

☐ Category 1 ■ Category 2 ■ Category 3

If you marked **"Category 3"**, you must also complete **section 4.**

2. If compounding Category 2 products is the location performing sterility and endotoxin testing (if required) to obtain extended beyond-use dates? ■ Yes ☐ No

3. If compounding Category 2 products is the location performing aseptically processed CSPs or terminally sterilized CSPs? ■ Aseptic ■ Terminal

4. Is the pharmacy following the new garbing requirements listed in the revised USP-797 guidelines? ■ Yes ☐ No

5. When was the most recent certification for the ISO classified areas? April 2025

6. What is the frequency of the recertification for the ISO classified areas? 6 months (will go to 3 months once start cat 3)

7. Were there any follow-up items required from the most recent certification report? ☐ Yes ■ No

8. If preparing Category 2 or Category 3 CSPs from non-sterile starting components are the pre-sterilization procedures such as weighing and mixing completed in an ISO Class 8 or better environment? ■ Yes ☐ No

9. If compounding Category 1 CSPs and Category 2 CSPs how often is surface sampling of all classified areas and pass-through chambers conducted? weekly

10. Will you be performing sterile hazardous drug compounding? ■ Yes No

If you marked **"Yes"**, you must also complete **section 3.**

11. List the sterile compounded products that you will be compounding for Nevada patients or consumers:

Testosterone
NAD
Sermorelin
Ascorbic Acid
Glutathione
Methylcobalamin
Trimix

12. What laboratory performs your sterility or endotoxin testing?

Name: ARL

Address: 840 Research Pkwy #546

City: Oklahoma City State: OK Zip: 73104

Telephone: 4052711144

13. What is your procedure for visual inspection of compounded sterile products?

The visual inspection of compounded sterile products (CSPs) requires a qualified individual to check the final preparation for particulates, discoloration, or defects, and to ensure the container is intact with no leaks or cracks. The label must match the prescription. If the CSP is not dispensed the same day, another inspection is required before release. Any CSP that fails inspection must be rejected and separated from usable stock

14. How often do you perform glove fingertip and medial fill testing?

Currently every 6 months but will be moving to every 3 months once we begin category 3 compounding

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:

Our training program for sterile compounding personnel follows USP <797> and includes initial instruction on aseptic technique, hand hygiene, garbing, cleaning, and equipment use. Personnel must demonstrate competency through gloved fingertip and media-fill testing before compounding independently. Ongoing training and competency assessments are performed at least every 12 months, with gloved fingertip and media-fill testing and every 3 months.

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

Our cleaning procedure uses Peridox as a sporicidal agent and disinfectant, and sterile 70% isopropyl alcohol (IPA) as a disinfectant. Primary engineering controls are cleaned and disinfected with Peridox and IPA at the start of each shift, before each batch, every 30 minutes during compounding, after spills, and at the end of compounding; Peridox is used as a sporicidal at least monthly (weekly once we start category 3). Secondary engineering controls (buffer and ante-rooms) are cleaned daily with Peridox and IPA, with floors cleaned daily and walls, ceilings, and shelving cleaned monthly (weekly when we start cat 3) or when soiled. All procedures follow USP <797> (2022 revision) and are documented per SOPs.

17. Who performs the sterile compounding process at your facility?

Trained pharmacist and technicians

18. Who is responsible and accountable for the sterile compounding process at your facility?

Ashley Cunningham and Randy Martin

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

We have conducted simulated tests with incubators and had help from Fedex to test our shipping methods to make sure required temperatures are maintained throught entire shipment.

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility? BSC: Nuaire and Germfree		
2. Are you complying with all USP 800 guidelines?	■ Yes	No
3. Have your employees who compound with hazardous drugs signed an acknowledgement that they understand the risks associated with this process?	■ Yes	No
4. Is your BSC or CACI vented 100% to the outside?	■ Yes	No
5. Do you have a negative pressure buffer room at your facility?	■ Yes	No
6. Will you be compounding with antineoplastic HDs or HD API?	■ Yes	No
7. If yes, are the drugs stored in an externally ventilated, negative pressure room?	■ Yes	No
8. Will you be utilizing a closed system transfer device?	Yes	■ No
9. If yes, list the name of the device:		

10. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?

Patients or consumers receiving hazardous drug (HD) products or containers are provided with clear instructions on proper handling and disposal to minimize exposure risks. This information includes guidance to avoid direct contact with the medication and its packaging, the use of gloves when handling HD products if appropriate, and instructions to wash hands thoroughly after handling. Patients are advised not to crush, split, or open HD tablets or capsules unless specifically instructed by their healthcare provider. For disposal, patients are informed not to throw HD products or containers in household trash or flush them down the toilet. Instead, they are directed to return unused medication and containers to the pharmacy or a designated take-back program, following local regulations. Educational materials, such as pamphlets or written instructions, are provided to reinforce these safety measures. This approach aligns with USP <800> requirements and best practices for patient safety and environmental protection.

11. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?

Our initial process for training new employees prior to compounding sterile hazardous drugs follows USP <797> and USP <800> requirements. New employees receive comprehensive instruction on hazardous drug handling, including review of safety data sheets, proper use of personal protective equipment, hand hygiene, garbing, and aseptic technique. Training covers safe receipt, storage, transport, compounding, and disposal of HDs, as well as cleaning, decontamination, and spill management procedures. Employees must demonstrate competency through written assessments and hands-on evaluations, including successful completion of gloved fingertip and thumb sampling and media-fill testing. All training is documented, and employees must be supervised until they have demonstrated proficiency in all required skills.

Section 4: Sterile Category 3 Compounding Questions (Complete this section ONLY if you will be performing Category 3 Compounding.)

1. List the specific Category 3 sterile products that your facility compounds:

As of now we only intend to compound testosterone under Category 3 sterile products

2. What is the frequency for ongoing garbing, gloved fingertip and thumb sampling, and media fill testing for compounding personnel?

Every 3 months

3. Is the pharmacy meeting all of the additional garbing requirements for compounding Category 3 CSPs as defined by the revised USP-797 guidelines? ■ Yes No

4. What is the frequency for completing volumetric active air sampling?

Monthly

5. What is the frequency for completing surface sampling? At least weekly		
6. What is the frequency for using sporicidal agents? At least weekly		
7. Is an endotoxin test performed for all products compounded from one or more nonsterile component?	■ Yes	No
8. Is the BUD assigned supported by stability data obtained using a stability-indicating analytical method?	■ Yes	No

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire form and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. Remarks or Recommendations: (42) DEA Inventory must all be done on the same day. Make sure prescriber signature (not stamp) is on Rxs for control substances that are faxed or hard copy (28) All pharmacists working need to sign S.L. Log (30) Make sure to document who authorizes changes to Rx's for VO's at offices. NABP USP 797 inspection available for review.

I _____ Pharmacist Signature hereby acknowledge and understand all notations made on this report; and confirm that Make sure CS Rxs have patient physical Rx on it.
I will notify the Board of Pharmacy within 30 days, in writing, of the correction of all deficiencies. (If noted.)

Follow-up to occur.

51.4	The date of receipt by the pharmacy is clearly marked on each API or component package that lacks a vendor expiration date and are assigned and labeled with an expiration date not to exceed one year after receipt by the pharmacy.	Yes		9.3.2, 9.3.3
51.5	All components are reinspected before use. ***Inspector note: Per USP <797>, all packages must be inspected to detect container breaks, looseness of the cap or closure, and deviation from the expected appearance, aroma, and/or texture of the contents that might have occurred during storage. Sterile container closures are visually reinspected to ensure that they are free from defects that could compromise sterility and that they are otherwise suitable for their intended use.***	Yes		9.3.2, 9.3.3
51.6	Any component found to be of unacceptable quality upon receipt or reinspection prior to use is promptly rejected, clearly labeled as rejected, and segregated from active stock to prevent use before appropriate disposal.	Yes		9.3.2, 9.3.3
51.7	Any other lots of that component from that vendor are examined to determine whether other lots have the same defect.	Yes		9.3.2, 9.3.3

65.1	Sterilization by filtration is performed in an ISO 5 environment.	Yes		4.1.2, 10.2
65.2	Filters used have enough capacity to filter the required volumes. ***Inspector note: Per USP, "The filter dimensions and the CSP to be sterilized by filtration should permit the sterilization process to be completed without the need for replacement of the filter during the process."***	Yes		10.2
65.3	The 0.2 micron sterile micro-porous membrane filter used to sterilize CSP solutions is chemically and physically compatible with the CSP. ***Inspector note: Per USP <797>, sterilizing filters must be appropriate for pharmaceutical use. Sterilizing filters labeled "for laboratory use" or equivalent must not be used. "Sterilizing filters must be certified by the manufacturer to retain at least 10^7 microorganisms of a strain of Brevundimonas diminuta per square centimeter of upstream filter surface area under conditions similar to those in which the CSPs will be filtered (ie, pressure, flow rate, and volume filtered)."***	Yes		10.2
65.4	Confirmation of filter integrity (bubble testing) is performed and documented for each filter used with each batch sterilized by filtration. ***Inspector note: If multiple filters are required for the compounding process, each of the filters must be tested.*** ***If no, collect a copy of the master formulation record and compounding record.***	Yes		10.2

74.0	Does the pharmacy ensure the assigned BUD does not exceed the shortest beyond use date of any individual compounded components? ***Inspector note: Per USP, "the BUD should generally not exceed the shortest BUD of any of the individual compounded components. However, there may be acceptable instances when the BUD of the final CSP exceeds the BUD assigned to compounded components (eg, pH-altering solutions). If the assigned BUD of the final CSP exceeds the BUD of the compounded components, the physical, chemical, and microbiological quality of the final CSP must not be negatively impacted." Other examples where this may occur: formula within a formula, preservative-free compounded component used in a preserved final CSP, "in-use" times for pharmacy bulk packages, and cyclosporine ophthalmic stock solution.*** ***If no, inspector should describe the observations, including the name of the component whose BUD was shorter than the assigned BUD of the final CSP.***	Yes		14.3

SOP No. 1.072

Title of SOP: Patient Grievances

Original: Yes __ No __ Revision: Yes __ No __ Revision No.: _____

Responsibility:

The pharmacist-in-charge is responsible for this procedure.

Purpose:

The purpose of this standard operating procedure is to establish a procedure for the administration of all grievances and to offer, upon request, a means for all patients to voice complaints and seek resolution of problems.

Equipment/Supplies Required:

- Patient Grievance Form

Procedure:

1. Any complaint or issue concerning a compounded product will be made in writing to the responsible personnel. The grievance will include the party's plan for adjudication of the grievance.

2. In the event that a patient telephones in a grievance, it will be immediately recorded in writing by the appropriate personnel.

3. The responsible personnel will immediately review and respond to the grievance in writing. The patient will be contacted within 24 to 48 business hours, and the grievance will be discussed.

4. The results of the grievance will be documented completely and patient agreement or disagreement with the decision will be noted.

5. All details of the grievance, verbal or otherwise, will be documented on the Patient Grievance Form.

SOP No. 1.069

Title of SOP: Incident Reporting

Original: Yes __ No __ Revision: Yes __ No __ Revision No.: _____

Responsibility:

The pharmacist-in-charge is responsible for this procedure.

Purpose:

The purpose of this standard operating procedure is to provide a means to document occurrences involving a patient or caregiver that is consistent with routine care and treatment of the patient and/or to document any unusual occurrences involving a patient or caregiver.

Equipment/Supplies Required:

- Incident Report Form
- Equipment required to take vital signs

Procedure:

1. The incident report form will be used to document any actual or potential untoward event that has occurred regarding patient care. Examples include, but are not limited to, the following:

    a. Loss/Breakage:

        I. Patient/caregiver reports article missing from home after home visit

        II. Staff involved in damage/breakage of patient's personal belonging or equipment

        III. Staff discovery of personal belongings or equipment missing from the home

    b. Any untoward event dealing with equipment or medical devices:

        I. Lack of equipment

        II. Equipment failure or malfunction

        III. Any injury resulting from the use of the equipment or medical device

    c. Any event dealing with patient endangerment:

I. Abuse by a caregiver

II. Inadequate care for a confused or otherwise helpless patient

d. An event that may endanger the staff while providing care/service:

I. Verbal abuse

II. Physical abuse

e. The patient is unwilling to accept or follow appropriate instructions.

f. Any problem or error dealing with the completion of a procedure or protocol:

I. Failure to follow a procedure

II. Care performed outside the scope of practice of the clinician

g. Any untoward outcomes related to drug administration, intravenous therapy or treatment modality:

I. Adverse or toxic drug reactions

II. Anaphylaxis

III. Treatment of overdoses

IV. Extravasation

V. Infiltration

VI. Phlebitis

VII. Hematoma

VIII. Catheter-related sepsis

IX. Transfusion reactions

h. Noncompliance by the patient/caregiver that results in emergency intervention or hospitalization.

i. Any problems associated with inadequate or improper consent forms, such as lack of consent.

j. Any medication error including the patient's failure to follow the physician/nurse/pharmacist instructions as well as delays in the administration sequence or failure of the patient to receive a dose.

k. Any other occurrence that requires documentation.

I. Cardiac arrest

II. Resuscitation

III. Reference to legal action by the patient or family

l. Any occurrence or observation that the staff member or patient/caregiver believes may involve actual or potential injury to the patient, the company, or its employees.

2. The incident report is NOT part of the client's medical record. No reference should be made to the preparation of an incident report in the patient's medical record.

3. An incident report will be initiated by the person who first becomes aware that an incident has occurred.

4. The incident should be completed accurately and no later than 24 hours after the discovery of the occurrence. All sections of the report are to be completed, leaving no blanks. If a section does not apply, the words "not applicable" should be written in the space.

5. When applicable, include vital signs and a post-incident assessment of the patient.

6. If the incident requires treatment by a physician or an emergency room visit, this should be included in the documentation.

7. The Quality Assurance Committee will review all incidents.

SERIAL NUMBER *20-D-15224* **DESCRIPTION** *Viable Air Sampler*

Controlled Environment Certification Services, Inc. does hereby certify that all performance and acceptance tests required were successfully conducted according to required specifications. All calibration data and test instrumentation used have been obtained using standards whose accuracies are traceable to the National Institute of Standards and Technology (NIST), have been derived from accepted values of natural physical constants, or by the use of ratio type of self calibration. The calibration system complies with ISO/IEC 17025:2017.

QA REVIEWED TAK 09Aug2023

Bioscience International certifies that the above described instrument conforms to the original manufacturer's tolerances for the parameters listed (not applicable to As Found data) & has been calibrated in accordance with ISO 17025:2017 guidelines using standards whose accuracies are traceable to the U.S. National Institute of Standards & Technology, have been verified with respect to instrumentation whose accuracy is traceable to NIST, or are derived from accepted values of physical constants. CMC test uncertainty is +/-2.2%. Instruments are calibrated with a test uncertainty ratio of 4:1 or greater whenever possible, with uncertainty defined as within a 95% confidence interval using a coverage factor of k = 2. In all cases, statistical methods are used to minimize uncertainty using the best commercially available methods. In Tolerance conditions are based on test results falling within the Acceptable Range. Measurement uncertainty is provided separately & independent of the decision rule. Voltage readings are for preventative maintenance purposes & not part of the calibration; values other than voltage, temperature, pressure, & air velocity are calculated values. Calibration results relate only to the items listed above; e.g., the instrument should be recalibrated prior to switching to a different media size (e.g., from 90mm Petri dishes to 55mm contact plates or vice versa).

Standard Operating Procedure (SOP) for Handling Pharmacy Complaints

1. Purpose

The purpose of this SOP is to establish a clear and effective procedure for handling and resolving complaints within the pharmacy to ensure customer satisfaction and compliance with regulatory requirements.

2. Scope

This SOP applies to all employees of the pharmacy, including pharmacists, pharmacy technicians, and support staff.

3. Responsibilities

- **Pharmacy Staff**: First point of contact for receiving complaints and initiating the documentation process.
- **Pharmacy Manager**: Responsible for reviewing, investigating, and resolving complaints. Ensures that corrective actions are implemented and documented.
- **Quality Assurance (QA) Team**: Monitors the complaint management process and ensures compliance with regulatory standards.

4. Procedure

4.1 Receiving Complaints

1. **Direct Complaints**: When a customer presents a complaint in person, listen attentively and acknowledge their concern.
2. **Telephone Complaints**: For complaints received over the phone, listen carefully, take detailed notes, and confirm the information with the customer.
3. **Written Complaints**: For complaints received via email or written communication, print out and acknowledge receipt within one business day.

4.2 Documenting Complaints

1. **Complaint Form**: Complete a Complaint Form, including:
    - Date and time of complaint
    - Customer's name and contact information
    - Detailed description of the complaint
    - Name of the staff member receiving the complaint
2. **Complaint Log**: Enter the details of the complaint into the Complaint Log for tracking and reference.

4.3 Initial Assessment

1. **Severity Assessment**: Assess the severity and potential impact of the complaint (e.g., medication error, service issue).
2. **Immediate Actions**: If the complaint involves an urgent issue (e.g., potential harm to a patient), take immediate corrective action and escalate to the Pharmacy Manager.

4.4 Investigation

1. **Gather Information**: Collect all relevant information and documentation related to the complaint.
2. **Interview Involved Parties**: Interview staff members involved to understand the situation from all perspectives.
3. **Root Cause Analysis**: Identify the root cause of the issue

4.5 Resolution

1. **Develop Action Plan**: Create an action plan to address and resolve the complaint, including corrective and preventive actions.
2. **Implement Actions**: Implement the corrective actions and ensure they are effective.
3. **Communicate with Customer**: Inform the customer of the resolution and actions taken. Apologize for any inconvenience caused and thank them for their feedback.

4.6 Follow-up

1. **Monitor Effectiveness**: Monitor the effectiveness of the implemented actions to prevent recurrence.
2. **Customer Satisfaction**: Follow up with the customer to ensure they are satisfied with the resolution.

4.7 Documentation and Reporting

1. **Update Records**: Ensure all documentation related to the complaint is complete and stored in the Complaint Log.
2. **Regular Review**: Conduct regular reviews of the Complaint Log to identify trends and areas for improvement.
3. **Regulatory Reporting**: Report any serious complaints to the appropriate regulatory authorities as required.

5. Training

- All pharmacy staff must receive training on the complaint handling process and this SOP.
- Regular refresher training sessions should be conducted to ensure ongoing compliance.

6. Review and Revision

- This SOP should be reviewed annually or whenever there are significant changes in the complaint handling process.

- Any revisions must be approved by the Pharmacy Manager and communicated to all staff.

By following this SOP, the pharmacy ensures a consistent, fair, and efficient approach to handling customer complaints, ultimately leading to improved customer satisfaction and service quality.

End of Day Report 2024: Pharmacist verifies that all prescriptions Dispensed have been checked for Accuracy.

USP <797> Single Plate Environmental Monitoring Final Report Summary Sheet

Viable Environmental Monitoring (VEM) is utilized to determine the microbial growth within a controlled environment. USP <797> "Pharmaceutical Compounding – Sterile Preparations" is used as a reference.

Media:

	Lot #	Expiration Date	Controls	Growth Promotion Testing
TSA w/ Lec+P80	1010432470	12Jul2024	Pass	Pass

Incubation (transferred):

Temperature	Duration	Incubation Dates
30-35°C (Bacterial)	48 hours-5 days	11Jun2024 to 13Jun2024
20-25°C (Fungal)	5-7 days	13Jun2024 to 18Jun2024

Equipment:

Type	Serial #	Calibration Due Date
SAS (Surface Air Sampler)	20-D-15224	04Aug2024
SAS (Surface Air Sampler)	18-D-12891	04Aug2024
SAS (Surface Air Sampler)	16-D-10530	18Oct2024

Acceptance Criteria:

Acceptance criteria is determined by the action levels provided in USP <797> (2022) for the number of viable organisms present. If levels measured during viable sampling exceed the action levels, an attempt must be made to identify any microorganisms recovered to the genus level.

ISO Classification	Viable Air (Impaction) Sampling	Viable Surface Sampling
ISO 5	≤ 1 CFU/m^3	≤ 3 CFU/plate
ISO 7	≤ 10 CFU/m^3	≤ 5 CFU/plate
ISO 8	≤ 100 CFU/m^3	≤ 50 CFU/plate

Results:

☒ VEM sample(s) meet the acceptance criteria: No exceeding counts observed.

☐ VEM sample(s) do not meet acceptance criteria: There were exceeded counts observed on one or more sample – genus level identification provided.

USP <797> Footnotes and Additional Report Information

Result Interpretation	USP Requirements	Test Methods	Abbreviations
All recoveries analyzed in this report are directly correlated to the SOA associated with this project and is intended as such only. Dual Plate Method Calculation: Bacterial and Fungal (mold/yeast) counts are added from the corresponding plates for each location. Viable samples considered "For Information Only" have no action limits associated with the testing. One cubic meter is equal to 1000 liters. TNTC is equivalent to >219 CFU/plate. Reporting values for USP <797> (2022): Air = CFU/m^3 Surface = $CFU/25cm^2$	Acceptance criteria is determined by the action levels provided in USP <797> (2022) for the number of viable organisms present for Active Air, Surface, and Fingertip testing. If levels measured during viable sampling exceed the action levels, an attempt must be made to identify any microorganisms recovered to the genus level. Microbiological air and/or surface monitoring must be conducted in all classified areas during dynamic operating conditions. The condition of the area and number of personnel present is documented on the STERIS sample plan. This number includes the STERIS technician collecting the samples if applicable.	For active air sampling via SAS, the positive hole correction factor is a statistical tool which calculates a probable count from the total raw count, considering that multiple particles can impact on the same sample hole. Therefore, the sum of the raw counts may be less than the positive corrected total. All USP active air sampling is performed using an impaction device per USP <797> (2022). For media, plates contain Polysorbate 80 and Lecithin to neutralize residues of cleaning and disinfecting agents to aid in prevention of false negative results. Media Controls: An unexposed media plate from each sampling event/project is submitted for quality control purposes to ensure any recoveries are true and actual and that samples were not compromised during shipping to the laboratory. A positive/negative control is submitted by the sampling technician and the lot and expiration shall be the same as the sample plates being submitted to the lab for analysis.	**AV** - Air Viable **CFU** - Colony Forming Unit **C-SCA** - Containment Segregated Compounding Area **CSP** - Compounded Sterile Preparation **DCA** - Direct Compounding Area **EC** - Exceeded Counts **FIO** - For Information Only **HD** - Hazardous **ISO** - International Standards Organization **MCI** – STERIS internal tracking number **MEA** - Malt Extract Agar **NA** - Not Applicable **NE** - Not Established **NG** - Not Given **OC** - Organism of Concern **PEC** - Primary Engineering Control **RABS** – Restricted Access barrier System **SAS** - Surface Air Sampler **SCA** - Segregated Compounding Area **SDA** - Sabouraud Dextrose Agar **SEC** - Secondary Engineering Control **SNR** - Sample Not Received **SOA** - Sales Order Acknowledgment **SV** - Surface Viable **SW** - Swab **TNR** - Test Not Requested **TNTC** - Too Numerous to Count **TSA** - Tryptic Soy Agar **USP** - United States Pharmacopeia

2. VIEW SCREEN RETENTION TEST:

A smoke source shall be passed from one end of the cabinet to the other, 1 inch (2.5 cm) behind the viewscreen, at a height of 6 inches (15 cm) above the top of the access opening. The smoke shall show smooth downward flow with no dead spots or reflux. No smoke shall escape from the cabinet.

☑ **PASS** ☐ **FAIL** ☐ **MEETS MANUFACTURER'S SPECIFICATIONS**

Comments: NA

3. WORK OPENING EDGE RETENTION TEST:

A smoke source shall be passed along the entire perimeter of the work opening edges, approximately 1.5" (3.8 cm) outside the cabinet. Particular attention should be paid to corners and vertical edges. No smoke shall reflux out of the cabinet once drawn in, nor shall smoke billow over the work surface or penetrate onto it.

☑ **PASS** ☐ **FAIL**

Comments: NA

4. SASH/WINDOW SEAL TEST:

A smoke source shall be passed up the inside of the window 2" (5 cm) from the sides and along the top of the cabinet interior work area. No smoke shall escape out of the cabinet.

AIRFLOW VISUALIZATION TEST - USP <797>

Dynamic airflow smoke pattern testing is performed to ensure that this device provides adequate unidirectional airflow to support aseptic operations as required for the intended tasks under "dynamic operating conditions". A visual smoke/fog tracer shall be conveniently deployed within the unidirectional flow zone to visualize airflow without disrupting the airflow patterns. A video recording device shall document the airflow patterns and operator aseptic process. A tripod may be needed to support and aim the video recording device.

A dynamic airflow smoke pattern test shall be performed to ensure that the device adequately supports the actual process and that compounding staff are using the device properly. The dynamic airflow smoke pattern test shall use the actual compounding staff performing simulations of the compounding facility's MOST-COMPLICATED sterile compounding processes in which critical sites are potentially exposed.

Dynamic airflow smoke pattern testing shall prove the device provides unidirectional airflow with no dead spots or refluxing at the Direct Compounding Area (DCA) for the operating velocity at which the unit was certified. A dynamic airflow smoke pattern test shall (must) be performed at every certification.

A visible source of smoke, such as a neutrally-buoyant, glycol-based fog generator, or ventilation smoke tube, is used to observe air patterns within the unidirectional space. Smoke is generated directly downstream of the HEPA filter diffuser screen and then observed as it flows across the critical site and the DCA and to a return or out of the critical area. The smoke source shall be moved to introduce a smoke stream through the user/operator's hand/arm movements throughout the aseptic manipulation process. Smoke exiting the critical area should not re-enter.

It is therefore required that a dynamic airflow smoke pattern test be performed at every certification to:

- Determine the optimum layout within the DCA.
- Demonstrate with the compounding staff how to establish optimal "FIRST AIR" based on the compounding facility's aseptic technique procedures.
- Indicate suitability of the unidirectional airflow device for the intended purpose.

The result of the dynamic airflow smoke pattern testing should be witnessed or reviewed by the compounding facility supervisor(s) or designated person(s) to determine acceptability of current aseptic technique SOPs or otherwise improve optimal operating set-ups based on airflow patterns within the space.

The intentions of unidirectional airflow are clearly stated in the FDA guidance document for industry "Sterile Drug Products Produced by Aseptic Processing – Current Good Manufacturing Practice." "In situ air pattern analysis should be conducted at the critical area to demonstrate unidirectional airflow and sweeping action over and away from the product under dynamic conditions".

This written report details the airflow patterns with a definitive statement of acceptability for the intended purpose. Any findings, comments, or recommendations may be recorded in the "Remarks" section. The video recording should clearly identify the DCA along with the appropriate aseptic technique performed by compounding personnel.

Disclaimer: The compounding staff is fully responsible for the organization's aseptic techniques and procedures, if found unacceptable by inspectors and / or regulatory agencies. This video is used to help establish optimal use of "FIRST AIR" BASED ON THEIR CHOSEN TECHNIQUE. This testing organization does not claim to be experts in aseptic technique procedures but can identify improper blocking of "FIRST AIR" based on the user's techniques and offer improvements.

The video recording of this airflow visualization smoke pattern test is provided on an external flash drive for instant user access for supervisory review, internal audits, compliance purposes, regulatory agency inspections, and training purposes.

☑ **Pass - Airflow Visualization Test** ☐ **Fail - Airflow Visualization Test** ☐ **No Test**

Under operational conditions, airflow smoke patterns should demonstrate unidirectional airflow and sweeping action over and away from the product under dynamic (operational) conditions within the unidirectional flow device. The smoke illustrates the importance of proper use of "First Air" in the Direct Compounding Area (DCA).

Staff Meeting June 12 2024

Todays meeting is to cover points that need to be addressed following our inspection

- Complaint handling: Please inform Randy of any complaints from patients. We will have a new process for documenting complaints to help us better learn from our mistakes and offer better care for our patients. More on this to come over the next week or two
- All control substance inventory must be completed on the same day for all areas either before the open of business or after closing
- If certified technician or pharmacist takes a verbal prescription their initials have to be noted on the prescription
- Control substances cannot have stamped or electronic signatures. If it does have either of these then the office must be called to have them either resend with hand signature or notate verbal order was given
- All pharmacist that check prescriptions must sign signature log for that day
- If office calls in for refills for a patient and makes changes all changes must be notated on the hard copy
- All control prescriptions must have physical address of patient on hard copy: no doctors office addresses, no PO Boxes.

Standard Operating Procedure (SOP) for Controlled Substance Inventory

1. Purpose

To establish procedures for the proper management, record-keeping, and security of controlled substances to ensure compliance with the Drug Enforcement Administration (DEA) regulations and the Tennessee Board of Pharmacy regulations.

2. Scope

This SOP applies to all personnel involved in the handling, storage, and inventory management of controlled substances at Heartland Apothecary.

3. Definitions

- **Controlled Substance:** A drug or chemical whose manufacture, possession, or use is regulated by the government.
- **DEA:** Drug Enforcement Administration, the federal agency responsible for enforcing the controlled substances laws and regulations of the United States.
- **Inventory:** A complete and accurate list of all controlled substances on hand.

4. Responsibilities

- **Pharmacist-in-Charge (PIC):** Responsible for the overall management of controlled substances, ensuring compliance with all regulations.
- **Designated Staff:** Individuals authorized to handle controlled substances under the supervision of the PIC.

5. Procedures

5.1. Initial Inventory

- Conduct an initial inventory of all controlled substances on the date the pharmacy or healthcare facility first engages in dispensing controlled substances.
- Record the inventory details, including the date, time, substance name, form, quantity, and the signature of the person conducting the inventory.

5.2. Biennial Inventory

- Perform a biennial inventory (every two years) on any date within two years of the previous inventory date.
- Record the same details as the initial inventory.
- Ensure the inventory is conducted at the beginning or end of the business day (entire pharmacy all at same time).

5.3. New Stock Inventory

- Upon receiving new stock, immediately update the inventory records.
- Verify the received quantity against the supplier's invoice and the order placed.
- Store the new stock in the designated secure area.

5.4. Inventory Records

- Maintain records of all controlled substance inventories for a minimum of two years.
- Store records in a secure location with restricted access.
- Use either a bound logbook or an electronic record-keeping system that complies with DEA regulations.

5.5. Storage and Security

- Store all controlled substances in a securely locked, substantially constructed cabinet.
- Limit access to authorized personnel only.
- Implement security measures such as surveillance cameras and alarm systems.

5.6. Dispensing and Usage Records

- Maintain detailed records of all dispensing and usage of controlled substances.
- Include patient information, prescribing practitioner details, substance name, dosage, and quantity dispensed.
- Ensure that records are updated in real-time and reviewed regularly for accuracy.

5.7. Disposal of Controlled Substances

- Dispose of expired or unused controlled substances in accordance with DEA and Tennessee Board of Pharmacy guidelines.
- Use authorized disposal methods, such as reverse distributors or DEA-approved take-back programs.
- Record the disposal details, including the date, substance name, quantity, and method of disposal.

5.8. Inventory Discrepancies

- Immediately investigate any discrepancies between the physical inventory and recorded quantities.

Standard Operating Procedure (SOP) for Two-Temperature Testing with Incubator in Sterile Lab

1. Purpose

To establish standardized procedures for performing two-temperature testing using an incubator to ensure the accuracy and reliability of test results in a sterile lab environment.

2. Scope

This SOP applies to all personnel involved in two-temperature testing in the sterile lab at Heartland Apothecary

3. Definitions

- **Incubator:** A device used to maintain controlled environmental conditions for the growth of microbiological cultures or the storage of samples.
- **Two-Temperature Testing:** The process of incubating samples at two different temperatures to evaluate the growth or stability of microorganisms or other biological samples.

4. Responsibilities

- **Lab Manager:** Responsible for overseeing the testing process and ensuring compliance with this SOP.
- **Lab Technicians:** Responsible for performing the testing procedures as outlined in this SOP.

5. Materials and Equipment

- Incubator capable of maintaining the required temperatures
- Sterile sample containers
- Temperature log sheets or electronic monitoring system
- Personal protective equipment (PPE)
- Sterile lab environment
- Calibration equipment (e.g., thermometer, datalogger)

6. Procedures

6.1. Preparation

- Verify that the incubator is clean, calibrated, and in proper working condition.
- Ensure the sterile lab environment is maintained, and all personnel are wearing appropriate PPE.
- Prepare and label sterile sample containers with relevant information (e.g., sample ID, date, temperature).

6.2. Initial Setup

- Set the incubator to the first required temperature _____
- Allow the incubator to stabilize at the set temperature before placing any samples inside.
- Document the incubator settings and the time the incubator reached the desired temperature.

6.3. Sample Incubation at First Temperature

- Place the samples in the incubator, ensuring they are evenly spaced and not touching each other or the incubator walls.
- Record the time the samples are placed in the incubator.
- Maintain the incubator at the first temperature for the specified duration _____

6.4. Transition to Second Temperature

- After the specified incubation period at the first temperature, remove the samples from the incubator.
- Adjust the incubator to the second required temperature _____
- Allow the incubator to stabilize at the second temperature.
- Once stabilized, place the samples back into the incubator.

6.5. Sample Incubation at Second Temperature

- Record the time the samples are placed in the incubator at the second temperature.
- Maintain the incubator at the second temperature for the specified duration _____

6.6. Monitoring and Documentation

- Regularly monitor the incubator temperature to ensure it remains within the specified range.
- Document the temperature readings at regular intervals (_____) using temperature log sheets or an electronic monitoring system.
- Note any deviations from the set temperatures and the corrective actions taken.

6.7. Completion of Testing

- After the specified incubation periods at both temperatures, remove the samples from the incubator.
- Record the time the samples are removed and any observations about the samples' appearance or condition.

6.8. Data Analysis and Reporting

- Analyze the results of the two-temperature testing as per the lab's standard analysis procedures.

- Document the findings and prepare a report detailing the test results, including any deviations and corrective actions.
- Submit the report to the Lab Manager for review and approval.

7. Maintenance and Calibration

- Perform regular maintenance and calibration of the incubator as per the manufacturer's instructions and lab protocols.
- Document all maintenance and calibration activities in the equipment log.

8. Compliance and Training

- Provide training to all lab personnel on this SOP and ensure they understand the procedures and importance of compliance.
- Conduct regular reviews and updates of this SOP to ensure it remains current with regulatory and industry standards.

9. Review and Revision

- This SOP shall be reviewed annually and revised as necessary to reflect changes in procedures, equipment, or regulations.
- Revisions shall be documented, and the updated SOP shall be distributed to all relevant personnel.

Disciplinary Summary
RLS (USA) Inc. Pharmacies

RLS (USA) Inc., f/k/a Amersham Health Nuclear, Medical Pharmacy, 1 Naylon Place, Livingston, NJ 07039

March 8, 2004: New Jersey Board of Pharmacy issued a $225.00 penalty and requested a letter of corrective action as a result of violations of N.J.A.C 13:39-12.2(e) (Prescription label does not have the chemical form of the radioactive drug) and N.J.A.C 13:39-12.4(c) (Missing a current text in the category of "General Practice of Pharmacy") found during an inspection conducted on 12/19/2003. RLS (USA) Inc. satisfied all requirements of the corrective action, paid the fine, and remains in good standing with the New Jersey Board of Pharmacy.

RLS (USA) Inc., f/k/a/ Med-Physics, Inc., d/b/a/ GE Healthcare, 1 Naylon Place, Livingston, NJ 07039

May 19, 2017: New Jersey Board of Pharmacy issued a $5,500.00 penalty and requested a letter of corrective action as a result of violations of N.J.A.C 13:39-11.24(a)6 (Adequate efforts were not made to ensure the pharmacy's quality assurance program) and N.J.A.C 13:39-11.24(a)10 (When test results indicated that the cleanroom did not meet the standards established, the pharmacy failed to immediately cease using the cleanroom that was out of compliance until such time that the cleanroom met the requisite standards) found during an inspection conducted on 8/10/2016. The pharmacy paid the fine and met all requirements of the corrective action, and remains in good standing with the New Jersey Board of Pharmacy.

RLS (USA) Inc., 1283 Mountain View Alviso Road Ste. A - B, Sunnyvale, CA 94089

February 14, 2024: RLS (USA) Inc. failed to follow its written policies and procedures when, on dates ranging from 12/30/2022 to 6/26/2023, it failed to remove pharmacy equipment from use following microbial contamination. This resulted in a violation of California pharmacy law for which the Board issued a Citation. No fine was assessed and the pharmacy took corrective action to address the violations. The pharmacy remains in good standing with the California Board of Pharmacy.

RLS (USA) Inc., 16259 Stagg Street, Ste A, Van Nuys, CA 91406

October 11, 2024: RLS (USA) Inc. failed to timely notify the California Board of Pharmacy upon a change in the Pharmacist-in-Charge. RLS (USA) Inc. operated without an approved PIC for the pharmacy and was fined a total of $1500. RLS complied with all requirements of the citation and the pharmacy remains in good standing with the California Board of Pharmacy.

Re: Inspection Report #8-1066.6
Inspection Date: 12/19/03

Dear Mr. Marzocca:

This letter is to advise you that the New Jersey State Board of Pharmacy has had an opportunity to review information concerning the above inspection report.

Upon review of all available information, the Board has preliminarily found that you have violated:

N.J.A.C. 13:39-12.2(e)
Prescription label does not have the chemical form of the radioactive drug.
$25.00

N.J.A.C. 13:39-12.4(c)
Missing a current text in the category of "General Practice of Pharmacy".
$200.00

The Board has determined that it will offer you an opportunity to settle this matter and thereby avoid the initiation for disciplinary proceedings. Should you wish to avail yourself of this opportunity, you should sign the attached acknowledgment and agree to the following:

1. Pay a penalty in the amount of **$225.00** and provide to the Board a Letter of Corrective Action. (To be paid immediately upon your signing of the attached acknowledgment.)

Alternatively, you may waive your right to a hearing and submit a written statement or explanation to the Board. The Board will then consider your submission and render a final decision, which may include any of the terms set forth above. This disposition will be a public record.

If you do not wish to settle this matter, you may request a hearing. In that event, this letter will serve as notice of the charges against you and a hearing will be scheduled before the Board. At that hearing you may, either personally or with the assistance of an attorney, submit determination concerning the charges of unlawful activity. You should be aware that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that herein offered in this letter. Additionally, the Board may, if the facts are found to so warrant, enter an order, requiring you to reimburse certain monies, directing you to cease and desist from engaging in unlawful acts and/or requiring you to pay costs incurred by the Board. Should you have any questions concerning this letter or the settlement offer herein, I suggest that you contact the Board at (973).504-6450.

The enclosed certification should be completed and returned to the Board **within fifteen (15) days following your receipt of this letter.** In the event that the Board receives no response from you within this time, the Board's settlement offer will be withdrawn, and the allegations contained here in shall be deemed admitted, and the Board will proceed to finally review that matter and enter an appropriate order.

CERTIFICATION

I, JOHN MARZOCCA, hereby acknowledge that I have read and reviewed the Board's letter dated March 8, 2004 regarding allegations of violations of the Board's enabling act and/or regulations.

Please Check One:

☐ I acknowledge the conduct which has been charged and agree to:

1. Cease and desist in engaging in the conduct alleged and pay a penalty in the amount of **$225.00** (to be paid upon signing of this certification).

2. Send a **Letter of Corrective Action**, as requested by the Board, with this certification.

I am also aware that the action taken against me by the Board herein is a matter of public record, and that the Board's letter and this certification are public documents.

☑ I hereby waive any rights I may have to a hearing in this matter and defend myself against any charges, but ask the Board to consider my explanation before the rendering its final decisions. I understand that the Board may order any of the terms specified in its letter and that the certifications are public documents.

☐ I request a formal administrative hearing to contest the charges specified by the Board. I understand that I will be advised of the time, date and place for that hearing at another time. I am aware that I may be represented by an attorney and that at the time of the hearing I may submit to the Board, testimony and documentation relevant to the charges. I understand that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that herein offered in its letter and may order such other remedies as it may deem appropriate. I am also aware that this proceeding is a matter of public record and that the Board's letter and this certification are public documents.

Dear Ms. Boyer:

We are in receipt of your letter dated 8 March 2004 concerning the alleged deficiencies sited during an inspection of our Livingston, New Jersey facility conducted 19 December 2003. The alleged deficiencies as stated in your letter are listed below for ease of reference:

N.J.A.C.13:39-12.4(c)
Missing a current edition of a text in the category of "General Practice of Pharmacy".

We at Amersham Health believe that in the spirit of, and pursuant to, New Jersey State Board of Pharmacy Regulations, current texts via computer access, pertaining to the General Practice of Pharmacy meet these requirements of N.J.A.C.13:39-12.4(c). The two texts are USP/NF via internet access, and Pass Assured, a computer text used by our pharmacy technicians to prepare for the PTCB certification test. This computer text covers the following items in the general practice of pharmacy:

Pharmacy Law
Terminology
Calculations
Metric Conversions
Dosage Forms
Aseptic Techniques
Pharmacy Operations
Third Party Reimbursements.

The above notwithstanding, Amersham Health has also purchased a current edition of Remington's "The Science and Practice of Pharmacy" on 11 March 2004.

N.J.A.C.13:39-12.2(e)
Prescription label does not have the chemical form of the radioactive drug.

Amersham Health was unable to locate the definition of chemical form within New Jersey Board of Pharmacy Regulations so we reverted to the DOT interpretation. The Chemical form of a radioactive drug is required on all DOT Bills-of-Lading for radioactive deliveries and is addressed by the U.S D.O.T. under 49 CFR 172.203, and is defined as "**a generic chemical description is acceptable for chemical form**". Under these conditions Amersham Health can only interpret "chemical form" in NJAC 13:39-12.2(e) to be the name of the radiopharmaceutical drug. Attachment 1 contains an actual prescription label listing the name of the radionuclide (i.e., Tc-99m, In-111, etc...) along with the actual generic chemical (radiopharmaceutical/brand) name of the drug (i.e., Myoview, MAA, MDP, etc...). Amersham Health believes that if one interpreted "chemical form", as "inorganic salt", then all radioactive prescriptions have the potential of being "mislabeled". For example, Tc99mMyoview, Tc99mMDP, Tc99mMag 3, and Tc99mDTPA are "different" radiopharmaceutical drugs used to diagnose different organs within the body. Following the current board of pharmacy labeling

guidelines, and interpreting chemical form as inorganic salt, then all five prescription labels would read "Tc99m Inorganic Salt". The actual drug(brand) name would not have to appear on the label pursuant to regulation, which would cause all five prescriptions to be identical which in turn could be described as "mislabeled". Therefore the only way to assure that a radioactive prescription is not "mislabeled" is to interpret chemical form to be the name of the radiopharmaceutical. The name of the radiopharmaceutical currently appears on all Amersham Health prescriptions.

Based on this understanding Amersham Health respectfully requests that the both "deficiencies" be rescinded, and would like to request an informal meeting to discuss the matter with the board.

If you have any questions or require any additional information, please contact me at (973) 533-9109, or Richard Hughes, Corporate Radiation Safety Officer at (609) 514-6647.

RE: Inspection Report #8-1066.6

Dear Mr. Marzocca:

The Board reviewed your letter of March 31, 2004 in which you offered mitigation concerning the above referenced Inspection Report.

It was the decision of the Board at the May 26, 2004 meeting, to mitigate the following violation(s):

N.J.A.C.13:39-12.2(e) for $25.00 and deny the mitigation for N.J.A.C.13:39-12.4(c)for $200.00

Please submit the remaining balance in the amount of $200.00 along with a letter of corrective action.

Yours truly,

Joanne Boyer

Re: Inspection #8-1066-16-X
Date of Inspection: August 10, 2016

Dear Mr. Marzocca:

This letter is to advise you that the New Jersey State Board of Pharmacy has had an opportunity to review information concerning the above inspection report.

Upon review of all available information, the Board has preliminarily found that you have violated those items listed on Attachment A.

The Board has determined that it will offer you an opportunity to settle this matter and thereby avoid the initiation for disciplinary proceedings. Should you wish to avail yourself of this opportunity, you **MUST SIGN THE ATTACHED CERTIFICATION** and agree to the following:

PAY A PENALTY IN THE AMOUNT OF $5,500.00 and **PROVIDE TO THE BOARD A LETTER OF CORRECTIVE ACTION.** (To be paid immediately upon your signing of the attached acknowledgment.)

Alternatively you may waive your right to a hearing and submit a written statement or explanation to the Board. The Board will then consider your submission and render a final decision, which may include any of the terms set forth above. This disposition will be a public record. Please take notice that if the Board determines that the initial inspection findings require a reinspection to ensure that cited deficiencies have been properly addressed, you may be subject to any costs associated with the reinspection.

If you do not wish to settle this matter, you may request a hearing. In that event, this letter will serve as notice of the charges against you and a hearing will be scheduled before the Board. At that hearing you may, either personally or with the assistance of an attorney, submit

determination concerning the charges of unlawful activity. You should be aware that in making its final decision, the Board may, if unlawful activity has been proven, assess civil penalties in an amount greater than that herein offered in this letter. Additionally, the Board may, if the facts are found to so warrant, enter an order, requiring you to reimburse certain monies, direction you to cease and desist from engaging in unlawful acts and/or requiring you to pay costs incurred by the Board. Should you have any questions concerning this letter or the settlement offer herein, I suggest that you contact the Board at (973) 504-6450.

The enclosed Certification MUST be completed and returned to the Board within fifteen (15) days following your receipt of this letter. In the event that the Board receives no response from you within this time, the Board's settlement offer will be withdrawn, and the allegations contained herein shall be deemed admitted, and the Board will proceed to finally review that matter and enter an appropriate order.

Bureau File #8-1066-16-X, **Period:** 8/10/16
Reference: Board of Pharmacy inspection conducted per N.J.S.A.45:1-18, N.J.S.A.45:14-48(a)11&12 and a request from the Board to inspect all pharmacies that engage in compounding sterile preparations.

Details

CITE	DESCRIPTION	FINE
N.J.A.C.13:39-11.24(a)6	Adequate efforts were not made to ensure the pharmacy's quality assurance program. Specifically, on June 17, 2015, the pharmacy's internal surface sampling detected a total of twenty-two (22) Colony Forming Units (CFUs) from various locations, including support table used in sterile compounding, the prep room and the pass through. On January 11, 2016, internal surface sampling detected one (1) CFU from the ISO 5 hood, one (1) CFU from Tech Hood 2 and one (1) CFU from Biologic Safety Cabinet (BSC) 6. Sixty-nine (69) CFUs were detected at various testing sites, including support tables, support cars and the dispensing room. On June 27, 2016, according to the pharmacy's internal surface sampling, four (4) CFUs were detected at BSC support table 1, four (4) CFUs were detected at BSC support table 6, one (1) CFU at cart 2 and three (3) CFUs at a general support table. Additionally, a total of twenty-one (21) CFUs were found in the gowning room. On all of these occasions, the pharmacy failed to analyze the species to the genus level in order to exclude the possibility of the existence of highly pathogenic species. By reviewing the cleaning log for the month of June 2016, the pharmacy failed to specify the details of cleaning in the event of CFU detection.	**$3,000.00**

N.J.A.C.13:39-11.24(a)10	When test results indicated that the cleanroom did not meet the standards established, the pharmacy failed to immediately cease using the cleanroom that was out of compliance until such time that the cleanroom met the requisite standards. Specifically, on September 28, 2015, during the environmental monitoring tsts conducted by ENV Services, a laboratory equipment certification company, air sampling detected multiple CFUs in the dispensing room, the gowning room, the prep room, the White Blood Cell (WBC) anteroom and the WBC prep room. The nature of the CFUs detected in these areas was deemed non-highly pathogenic. The quantities of CFUs were below action level. Air Sample number 10 detected one (1) CFU in the center of the WBC Room and the species was identified as fungal in nature. This finding was deemed as Out-of-Compliance (OOC). On the following day, September 29, 2015, ENV Services detected one (1) CFU in the dispensing room, classified as ISO Class 7. The species was identified as fungal in nature. This finding was again deemed as OOC. John Marzocca, RPIC acknowledged that upon learning the test results on October 9, 2015, the pharmacy failed to cease using the affected equipment. The cleaning log for the month of October 2015 failed to indicate that the pharmacy performed triple cleaning in order to address these findings. On October 19, 2016, during a follow-up visit by Inv. Qi to the pharmacy, Mr. Marzocca stated that during the most recent environmental monitoring test performed by ENV Services, the maximum CFU count for two (2) ISO classified areas was exceeded. Air sampling detected one (1) CFU of genus in fungi nature from one of the BSC units, ISO Class 5, as well as thirteen (13) CFUs from one of the support tables. The CFUs detected were a highly pathogenic species. Mr. Marzocca stated that the pharmacy followed the N.J.A.C. regulation this time and ceased using the affected equipment.	**$2,500.00**

	Daily and weekly cleaning procedures were reviewed in detail. Upon review, it appeared that the pharmacy updated the cleaning frequency, cleaning methods and cleaning materials since my August 2016 visit.

Dear Mr. Rubinaccio

In response to NJ Board of Pharmacy letter Dated May 19, 2017 concerning inspection #8-1066-16-X, please find the enclosed signed certification letter with a check for $5500. Below are the corrective actions:

1. Contact plate surface samples are currently conducted in-house biannually. Any microbial recovery will be analyzed by an independent third party company, such as Nelson Labs 6280 South Redwood Road, Salt Lake City Utah. This is in addition to our cleanroom certification company (ENV) collecting and analyzing environmental air and surface samples biannually and identifying all recovered microbes to the genus level.
2. In 2016, we and our third-party certification vendor (ENV) enacted more stringent garbing, cleaning, and clean room entry procedures. Prior to these new protocols ENV would wheel in testing equipment from the street into our clean room without thoroughly cleaning the equipment and transportation carts. ENV now requires and supplies their technicians with clean room coveralls to wear during certification procedures. ENV technicians also thoroughly clean their testing equipment which is properly maintained for clean room entry and transfer all necessary equipment to GE clean room carts prior to certification testing.
3. In 2016 we have also changed our protocols to a more aggressive daily "cleaning and disinfection" of our primary and secondary engineering controls. We now use germicidal cleaning and disinfecting agents daily in addition to using sterile 70% isopropyl alcohol in the primary engineering controls. Prior to this change we used germicidal agents weekly and 70% isopropyl alcohol daily. We have also started a rotation of a sporicidal agent in our cleaning and disinfecting procedures.

Dear Mr. Rubinaccio

In response to NJ Board of Pharmacy letter Dated march 9, 2017 concerning the observations identified during an inspection of our Livingston New Jersey Nuclear Pharmacy conducted August 10, 2016. The observations stated in your letter are listed below for ease of reference:

[N.J.A.C.13:39-1124(a)6]- Adequate efforts were not made to ensure the pharmacy's quality assurance program.

Although this regulation does not make any reference to internal sampling to be analyzed for species to the genus to exclude the possibility of the existence of highly pathogenic species, Medi-Physics, Inc. d/b/a/ GE Healthcare Livingston NJ, has added this to our environmental monitoring protocols. Contact plate samples incubated on site which show organism growth will be analyzed by an independent certified third party laboratory for ID'ing to genus level. Additionally, our cleanroom certification company (ENV) shall continue to take environmental samples for air and surface contamination biannually during re-certification procedures. All growth recovered from third party vendor sampling shall also be ID'd to genus level.

[N.J.A.C.13:39-24(a)10]-When test results indicated that the cleanroom did not meet the standards established, the pharmacy failed to immediately cease using the primary engineering controls or cleanroom that was out of compliance until such time that the cleanroom met the requisite standards.

The Livingston Pharmacy did not take action to immediately cease using secondary engineering controls on September 28, 2015, as a result of the environmental monitoring tests, due to the fact the we were unaware of this requirement per 13:39-24(a)10 until the **January 2016** New Jersey Board of Pharmacy newsletter article titled- Regulation Regarding Out-of-Compliance Cleanrooms and Primary Engineering. Our Standard Operating Procedures, at the time required us to immediately deep clean the area of concern, perform an investigation to determine action necessary to eliminate recurrence of the contamination, and retest prior to reuse. After further review of the information in that newsletter, the Livingston Pharmacy is in the process of updated

protocols to include 13:39-24(a)10. At this time, we are in compliance with this regulation as evidenced by our SOP's as well as Mr. Qi's follow up visit on October 19, 2016 stating that ENV services monitoring found a maximum CFU count exceeded in a BSC hood which was taken out of service until an EVN re-test was performed.

If you any questions or require any additional information, please contact me at (973) 533-9009.

RE: Inspection Report #8-1066-16X for the period:08/10/2016

Dear Mr. Marzocca:

The New Jersey Board of Pharmacy (the "Board") has received the above mentioned inspection report, a copy of which is included with this letter, and has requested that you respond to the following items within **ten (10) days** of receipt of this letter:

1) Please provide a detailed response to the inspector's observations and any "areas of concern" noted for each citation in the "Report of Inspection" on pages #1 through #5. Your response should include an explanation for each issue noted, as well as what steps you have taken (or are planning to take) to address each item.

2) Please provide a detailed response for each citation and any "areas of concern" noted on page #1 of "Exhibit #15". You do not need to respond to items a second time, if you addressed a citation as part of your response to the "Report of Inspection" section. Again, your response should include an explanation for each issue noted, as well as what steps you have taken (or are planning to take) to address each item.

Feel free to include any additional supporting documentation you feel the Board should consider when reviewing your response. The Board will review this report and your response to this letter at the next available Board meeting.

Failure to respond and provide this information within ten (10) days from receipt of this letter will constitute a failure of a duty to cooperate pursuant to N.J.A.C. 13:45C-1.3 and may result in disciplinary action by the Board, including suspension of your permit to operate a pharmacy and/or to engage in sterile compounding.

GLOSSARY

OrganismName	Description
Bacillus infantis	
Micrococcus luteus	Can be found in many places such as the human skin, water, dust, and soil. Generally thought of as harmless bacterium, but there have been rare cases of Micrococcus infections in people with compromised immune systems.
Staphylococcus epidermidis	A coagulase-negative Staphylococcus that is part of the normal human flora, typically the skin flora, and less commonly the mucosal flora. Although S. epidermidis is not usually pathogenic, patients with compromised immune systems are at risk of developing infection. These infections are generally hospital-acquired. S. epidermidis is a particular concern for people with catheters or other surgical implants because it is known to form biofilms that grow on these devices.

USP <797>Supplemental Information

1. Growth Media
   - 1.1. A general microbiological growth medium such as Soybean-Casein Digest Medium (also known as Tryptic ase Soy Broth (TSB) or agar (TSA) shall be used to support the growth of bacteria.
   - 1.2. Malt Extract Agar (MEA) or suitable substitute shall be used to support the growth of fungi.
   - 1.3. Media used for surface sampling shall be supplemented with additives to neutralize the effects of disinfecting agents (e.g., TSA with Lethicin and Polysorbate 80).
   - 1.4. Incubate inverted bacterial media for 2-3 days at 33-37°C and fungal for 5-7 days at 26-30°C.

2. Viable Sampling
   - 2.1. Air:
     - 2.1.1. Shall be performed dynamically at least semiannually (i.e. every 6 months) in ALL ISO Class environments.
     - 2.1.2. Impact shall be the preferred method volumetric sampling, settling plates are not sufficient.
     - 2.1.3. 400-1000 litersof air shall be tested at each location and reported as CFU/m^3 of air.
   - 2.2. Surface:
     - 2.2.1. Shall be performed dynamically in ALL ISO classified areas on a periodic basis (contact plates and/or swabs) and shall be done at the conclusion of compounding.
     - 2.2.2. Results are reported as CFU per sampled unit area.

3. Gloved Fingertip Testing
   - 3.1. Shall be performed for all CSP risk level compounding.
   - 3.2. Immediately after gowning, the evaluator shall collect a gloved fingertip and thumb sample from both hands on a general microbiological media (TSA).
   - 3.3. Initial gloved fingertip/thumb sampling procedure requires (0 CFU) no less than 3 times before initially being allowed to compound CSPs for human use.
   - 3.4. Re-evaluation of all compounding personnel shall occur at least annually for low- and medium-risk level CSPs and semiannually for high-risk.
   - 3.5. CFU action level shall be based on the total number of CFU on both gloves and not per hand.
   - 3.6. Should be reported separately as number of CFU per employee per hand (left hand, right hand).

4. Media-Fill Testing
   - 4.1. Shall be performed initially before beginning to prepare CSPs and at least annually thereafter for low- and medium-risk level; and semiannually for high-risk.
   - 4.2. Shall be evaluated using sterile fluid bacterial (TSA) culture media-fill verification.
   - 4.3. Media-filled vials shall be incubated with a range of 33-37° C for 14 days.

5. Reporting Information
   - 5.1. Highly pathogenic microorganisms (e.g., Gram-negative rods, coagulase positive staphylococcus, molds, and yeasts) must be immediately remedied, regardless of CFU count. Any CFU count that exceeds its respective action level shall have an investigation into the source of contamination, shall be eliminated, the affected area cleaned, and resampling performed.
   - 5.2. Positive controls are unopened samples submitted for growth promotion testing (inoculation) which eliminates false negatives. Negative controls are unopenedsamples submitted for incubation solely which eliminates false positives.
     - 5.2.1. There should be a positive and negative control for each lot number of every media type used.
   - 5.3. MRL is the minimum reporting limit for a sample.
   - 5.4. Results found in this report are solely tied to the project above and the samples therein.

This test report and data shall not be reproduced except in full, without the written approval of the laboratory. The attached Citation, ("Citation") is being issued pursuant to Business and Professions Code section 125.9 and California Code of Regulations, title 16, section 1775 et. seq., for violations of the laws and regulations that govern the practice of pharmacy in California. (For exact language refer to the California Pharmacy Law and Index, located on the Board's web site, at www.pharmacy.ca.gov, under Forms and Publications).

The attached Citation references the specific statutes and regulations violated, and defines each violation charged. The attached Citation details the conduct that resulted in the issuance of the Citation.

IT IS YOUR RESPONSIBILITY TO READ THE ENTIRE CITATION AND INSTRUCTIONS, TO UNDERSTAND THE PROCESS FOR CONTESTING THE CITATION AND IF CONTESTING THE CITATION TO RESPOND WITHIN THE FOLLOWING TIME FRAMES:

- February 28, 2024: Any contest of the Citation by request for an informal Office Conference must be received by the Board.
- March 15, 2024: Any contest of the Citation by request for a formal Appeal must be received by the Board.

The issuance of a Citation by the Board of Pharmacy is considered an administrative action and substantiated resolution of a complaint and/or investigation. The acceptance of the Citation(s) shall not constitute an admission of the violation(s) charged.

No fine has been assessed with this Citation and no proof of abatement has been ordered.

If the Board does not receive a written request to contest this Citation within 30 days of the issue date, you will be deemed to have waived your right to contest this Citation. The Citation shall then become the final order of the Board. Please be advised that if not contested this Citation will become a part of the Board's records and constitute a public record for purposes of disclosure.

INSTRUCTION

Read the Following Carefully and Thoroughly

You are hereby served with a Citation issued by the Executive Officer of the California State Board of Pharmacy or her designee. The following instructions are provided to assist you in your timely completion of the Citation process.

Unless contested, Citations are final 30 days from the date of service. Acceptance of a Citations is not an admission of the violation charged. A Citation becomes part of your record, and remains there for five years. It can be used as an aggravating factor for future violations. Citations are public information and as such may be released to the public in accordance with the Public Records Act and Information Practices Act.

CONTESTING THE CITATION (CCR §1775.4)

If you wish to contest all or part of your Citation you may request an informal office conference or an appeal before an administrative law judge, or both. If you wish to request both you must submit both forms. If you prevail at the office conference your request for an appeal shall be deemed withdrawn. Please note that the time frames that allow you to request an office conference and an appeal run concurrently. You must submit your request(s) according to the following instructions:

REQUEST FOR OFFICE CONFERENCE (CCR §1775.4 subd. (b))

- Complete attached "Request for Office Conference".
- Mail form to arrive at the Board office no later than February 28, 2024 to the address at the bottom of the form.
- You will be advised by the Board in writing as to the date and time of your appearance.
- You are allowed one postponement.

An office conference is not a hearing. It is an informal discussion of the events that took place, and an opportunity for you to present information and mitigating factors pertaining to the Citation that you would like considered. The Executive Officer and or her designee represent the Board of Pharmacy at this meeting. One other individual of your choice may accompany you to this meeting. Office conferences are not open to the public. There is no discovery available in this process. You will not be allowed to present or question witnesses. However, you may present any written statements or documents that you believe are relevant.

After your office conference, the Citation may be affirmed, modified or dismissed. You will be advised of the decision in writing within 14 calendar days from the date of the conference. If the Citation is affirmed you will have 30 days from the date of the decision letter to comply with the conditions of your Citation. If the Citation is modified, the Citation originally issued shall be considered withdrawn and a new Citation will be issued. The decision issued after the office conference shall be deemed to be a final order with regard to the Citation issued, including the administrative fine levied, and/or an order of abatement.

REQUEST FOR APPEAL (CCR § 1775.4 subd. (a))

- Complete attached "Request for Hearing".
- Mail form to arrive at the Board office no later than March 15, 2024 to the address at the bottom of the form.
- You will be advised in writing as to the date and time of your hearing.

An appeal is a formal adjudicative hearing before an Administrative Law Judge. A Deputy Attorney General will represent the Board of Pharmacy at this hearing. These proceedings shall be conducted in accordance with the provisions of Chapter 5, commencing with Section 11500 of Part 1 of Division 3 of Title 2 of the Government Code.

If you have any questions regarding any enclosed documents please contact Joshua Monforte, Citation and Fine Analyst at (916) 518-3014.

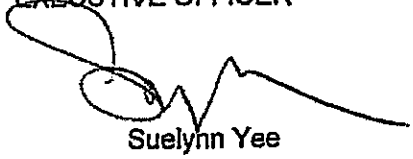
The attached Citation and Fine, ("Citation") is being issued pursuant to Business and Professions Code section 125.9 and California Code of Regulations, title 16, section 1775 et. seq., for violations of the laws and regulations that govern the practice of pharmacy in California. (For exact language refer to the California Pharmacy Law and Index, located on the Board's web site, at www.pharmacy.ca.gov, under Pharmacy Law and Regulation).

The attached Citation references the specific statutes and regulations violated, defines each violation charged and specifies any fine(s) assessed. The attached Citation details the conduct that resulted in the issuance of the Citation.

IT IS YOUR RESPONSIBILITY TO READ THE ENTIRE CITATION AND INSTRUCTIONS, TO UNDERSTAND THE PROCESS FOR CONTESTING THE CITATION AND TO RESPOND TO THE CITATION WITHIN THE FOLLOWING TIME FRAMES:



- November 10, 2024: Unless the Citation is contested payment of fine(s) must be received by the Board.
- October 25, 2024: Any contest of the Citation by request for an informal Office Conference must be received by the Board.
- November 10, 2024: Any contest of the Citation by request for a formal Appeal must be received by the Board.

The issuance of a Citation by the Board of Pharmacy is considered an administrative action and substantiated resolution of a complaint and/or investigation. If a hearing is not requested to contest the Citation(s), payment of any fine(s) shall not constitute an admission of the violation(s) charged. Payment in full of the fine(s) assessed shall be represented as a satisfactory resolution of the matter in any public disclosure. (Business and Professions Code section 125.9; California Code of Regulations section 1775).

Additionally, if, at the time of license renewal, the Board has not received full payment of assessed fine(s) and a request to contest the Citation has not been received within the time frames specified, the license shall not be renewed until the assessed fine(s) and renewal fee/s are paid in full.

If you have any questions regarding this Citation please contact Suelynn Yee, Citation and Fine Analyst at (916) 518-3013.

JURISDICTION: Bus. & Prof. Code § 4314; CCR, title 16, § 1775; Bus. & Prof. Code § 4301, subd. (o)

VIOLATION CODE SECTION	OFFENSE	AMT OF FINE
Bus. & Prof. Code § 4113(F)	Pharmacist-in-Charge: Notification to Board; if a pharmacy is unable, in the exercise of a reasonable diligence, to identify within 30 days a permanent replacement pharmacist-in-charge to propose to the board on the notification form, the pharmacy may instead provide on that form the name of any pharmacist who is an employee, officer or administrator of the pharmacy...	$500.00
Bus. & Prof. Code § 4305 subd. (b)	Operation of a pharmacy for more than 30 days without supervision or management by a pharmacist-in-charge shall constitute grounds for disciplinary action	$1,000.00

CONDUCT:

Business and Professions Code section 4113(f) requires a licensee to, when unable to identify a permanent pharmacist-in-charge within 30 days of the date when a pharmacist-in-charge (PIC) ceases to act, provide the name of a pharmacist, owner, or manager to act as an interim pharmacist-in-charge for a period not to exceed 120 days. Specifically, on March 13, 2024, the Board received an Application for Change of Pharmacist-In-Charge from RLS USA Inc, which had been signed under penalty of perjury by a corporate officer, the disassociated PIC, and the newly designated PIC. The form indicated that the prior interim PIC, Anahita Malekakhlagh (RPH 73484), had disassociated on March 11, 2024 and that Scott Hudek (RPH 49826) took over as the permanent PIC on the same date. However, Anahita Malekakhlagh's (RPH 73484) interim period, which had begun on August 25, 2023, had previously expired on December 22, 2023. Anahita Malekakhlagh (RPH 73484) acted as the interim PIC from August 25, 2023 to March 11, 2024, 199 days.

Business and Professions Code section 4305(b) authorizes the Board to take disciplinary action against a licensee for operation of a pharmacy for more than 30 days without the supervision or management of a pharmacist-in-charge (PIC). Specifically, on March 13, 2024, the Board received an Application for Change of Pharmacist-In-Charge from RLS USA Inc, which had been signed under penalty of perjury by a corporate officer, the disassociated PIC, and the newly designated PIC. The application declared that Scott Hudek (RPH 49826) had taken over as the permanent PIC on March 11, 2024. However, as RLS USA Inc failed to pay their Application for Change of Pharmacist-In-Charge's application fee until July 11, 2024, the Board was unable to approve Scott Hudek (RPH 49826) as the permanent PIC until July 11, 2024. RLS USA Inc operated without a Board approved PIC from March 11, 2024 through July 10, 2024, 121 days.

INSPECTION REPORT

- End-product testing performed in-house
  - Dose calibration performed for each radiopharmaceutical prior to dispensing
  - Sterility testing performed annually, reviewed February 2024 results (within specification)

Education

- Education provided regarding USP Chapter <825> as it pertains to:
  - Monthly surface sampling location requirements, including any equipment permanently contained in the PEC

Discussion

- The following links and resources stated below were provided to PIC Nguyen via email during the inspection:

November 1, 2023, is the compendial date for several USP General Chapters, including General Chapters <795> Pharmaceutical Compounding—Nonsterile Preparations, <797> Pharmaceutical Compounding—Sterile Preparations, <800> Hazardous Drugs—Handling in Healthcare Settings, and <825> Radiopharmaceuticals—Preparation, Compounding, Dispensing, and Repackaging. Consistent with the policy statement the Board released on September 12, 2023, it is the Board's expectation that licensees are moving forward with all necessary implementation activities to comply with the updated USP compounding standards.

The Board has undertaken a review of its compounding regulations and identified changes necessary to clarify or make more specific requirements of federal law and USP General Chapters.

During this transition period, licensees are encouraged to monitor the regulation process for updates, including signing up for the Board's subscriber alert system and by checking the Board's website.

Licensees are reminded to also ensure continuing compliance with other laws, regulations, and requirements that may apply to their activities, including, without limitation: the Federal Food, Drug, and Cosmetic Act (21 USC §§ 321–399i), including Section 503A thereof (21 USC § 353a); provisions of California's Sherman Food, Drug, and Cosmetic Law (Health and Safety Code §§ 109875–111929.4); and laws, regulations, and requirements related to radiopharmaceuticals and/or the handling of hazardous drugs, including requirements established by Cal/OSHA.

Notes

1. The "initial date of registration as an outsourcing facility" is the date the facility was first registered (i.e., the date FDA determined that the initial registration information submitted for the facility was complete, and the establishment fee was paid in full).

   Under section 503B(b) of the FD&C Act, after the initial registration, a facility that elects to continue to be registered with FDA as an outsourcing facility must re-register annually. A facility that elects to register (or re-register) with FDA as an outsourcing facility must pay an annual establishment fee. The "date of most recent registration as an outsourcing facility" reflects the date FDA determined the most recently submitted registration information was complete and the annual establishment fee for that fiscal year paid in full.

   Unless a previously registered outsourcing facility re-registers and pays the annual establishment fee in full during the registration period (between October 1 and December 31 of each calendar year), the facility will be removed from the list of registered outsourcing facilities on January 1 of the next calendar year.

2. Once an outsourcing facility is registered, the facility will be added to the list of facilities FDA intends to inspect according to a risk-based schedule. FDA plans to inspect outsourcing facilities within a reasonable period of time following initial registration, once it is confirmed that the facility has initiated drug production and distribution. However, the exact timing of the inspections can be affected by a number of variables, including the number of outsourcing facility registrants, other inspection priorities, and the operational status of the newly registered outsourcing facility.

   Inspections identified in this table are associated with the facility at the listed address. A company may own or operate more than one registered outsourcing facility. FDA's web page Compounding: Inspections, Recalls, and other Actions (/node/363232) may contain information about compounding facilities under the same ownership as the listed registered outsourcing facility.

   Inspections may take place over several days, weeks or longer. The date of the inspection is the date a Form FDA 483 listing the investigators' observations was issued. If no FDA Form 483 was issued, the date is the last day of the inspection.

3. A Form FDA 483 is issued when investigators observe any significant objectionable conditions. It does not constitute a final agency determination of whether any condition is in violation of the FD&C Act or any relevant regulations.

4. This table does not include State Board of Pharmacy actions, if any. To determine whether a registered outsourcing facility has been the subject of a state enforcement action, check with the State Board of Pharmacy for the state in which the facility is located. Some states post disciplinary or other actions on their web sites.
5. "Closed" means the inspection has been closed without further action. "Open" means FDA has not determined whether further action will be taken. If an action has been taken, it will be listed. Possible FDA actions include warning letter, seizure or injunction.
6. The information in this column was provided by the registered outsourcing facility at the time of registration and has not been verified by FDA. "N/A" indicates the registered outsourcing facility has not provided this information.
7. This outsourcing facility was the subject of at least one previous inspection relating to compounding that resulted in a Form FDA 483, warning letter or other action. For information about such inspections and resulting actions, visit Compounding: Inspections, Recalls, and other Actions (/node/363232).
8. A remote regulatory assessment (RRA) is an examination of an FDA-regulated establishment and/or its records, conducted remotely, to evaluate compliance with applicable FDA requirements. These assessments assist in protecting human and animal health, inform regulatory decisions and verify certain information submitted to the agency.
9. Based on inspectional findings, the inspection revealed significant issues. As a result, the outsourcing facility may have either initiated a recall on their own following conversation(s) with the FDA investigator or FDA recommended a recall at the conclusion of the inspection or both. Additionally, the outsourcing facility may have conducted multiple recalls or recalled multiple drugs.

RE: Facility Inspection Conducted June 24, 2024 through June 25, 2024

Dr. Sheumaker:

The following observations are as a result of a scheduled inspection occurring on the dates stated above. It should be noted that this dynamic operations inspection occurred during product development. Regulations within 21 CFR Part 210 and 211 were utilized during the review of the firm's cGMP operations. I appreciate the assistance and cooperation provided by you and your staff during this review:

CFR 211.28(a) Personnel responsibilities
Specifically, an operator was observed to inadequately don beard covering prior to entering CSP production room #5 (i.e., gowning room).

CFR 211.67(a) and CFR 211.67(b) Equipment cleaning and maintenance
Specifically, a visible residue left behind by cleaning agents was observed on windows and walls in the product production areas.

Specifically, change control HVAC-IOQ-002 associated with EMPQ-005 documentation indicated a "triple clean" had occurred on 3/12/24. This cleaning process was not defined within the facility SOP provided for review (SOP-041 Version 01). Staff stated this process was the "same as the monthly" cleaning/disinfection process, but the documentation from 3/12/24, did not match that specified as a monthly cleaning/disinfection.

CFR 211.46, 211.22(c) and 211.22(d) Ventilation, air filtration, air heating and cooling/Responsibilities of quality control unit
Specifically, the third-party certification reports dated 1/17/24 to 1/19/24 and 3/12/24 did not indicate these data had been reviewed by the quality control unit.

Specifically, the 1/17/24 to 1/19/24 and 3/12/24 third party certification report did not certify that CSP production south door of room #4 had been adequately sealed by way of a smoke study and the firm is not actively monitoring pressure gradients for this door.

CFR 211.22(c) Responsibilities of quality control unit
Specifically, the firm's pest control SOP (i.e., SOP-008) states all chemicals utilized are to be reviewed and approved by the quality control unit. An approved list of the quality department's reviewed and approved agents was not observed.

Specifically, FRM-034 (i.e., Pod surface sample contact plate sampling form) stated an action limit of greater than 1 CFU for ISO5 areas, although this did not match the findings within the firm's EMPQ or as defined as an "alert" and/or "action" limit in section 6.4 of SOP-048.

CFR 211.100(a) and CFR 211.100(b) Written procedures; deviations
Specifically, operators were observed to don shoe covers between CSP production area room #4 and room #5 (i.e., gowning) with an inconsistent approach (i.e., one operator stepped over a LOD each time a shoe cover was donned but another operator did not follow this process), and I did not observe within provided SOPs the expected procedure.

Specifically, it was observed that staff were unable to fully comply with SOP-038 as it relates to hand hygiene as it would have led to the required laundered scrubs sleeves becoming wet.

Specifically, it was observed that stability lot 042324@3 batch record stated visual inspections were to occur pursuant to "SOP-xxx" which staff staffed was to be SOP-061. A notation of a deviation was not observed on the batch documentation.

CFR 211.103 Calculation of Yield
Specifically, batch record review of stability lot 042324@3 stated a theoretical yield of 914 units but it was observed that only 677 units were in the final count. I did not observe documentation of a related investigation on the lack of congruence.

Your response to each finding should be forwarded to this office within thirty (30) days. These responses to the above findings must include an itemized list of each finding with the corrective/proposed corrective action, responsible individual, and completion/projected completion date. Once completed, you must forward supporting documentation (i.e., pictures, invoices, SOP, documentation, etc) to my attention at ASBP@arkansas.gov.

If we may be of assistance at any time, do not hesitate to contact our office.

Respectfully,

Kevin Robertson, Pharm.D.
Inspector/Investigator

7.2 GENERAL PRINCIPALS

7.2.1 All cleaning tools, such as wipers and mops, are non-shedding and dedicated to use in their buffer or clean area.

7.2.2 The mop trolley shall be cleaned daily with sterile PeridoxRTU, TB1-330, and 70% alcohol per daily, weekly, or monthly cleaning schedule.

7.2.3 If cleaning agents leave visible residue, follow use by wiping with sterile Isopropyl Alcohol (IPA) to remove.

7.2.4 Wipes are discarded after one use.

7.2.5 If cleaning tools are reused, their cleanliness is maintained by sanitization after use and by storing in a clean environment between uses.

7.2.6 Trash is collected in suitable plastic bags and removed with minimal agitation.

7.2.7 No shipping or other external cartons may be taken into the buffer or clean area.

7.2.8 All cleaning is documented when performed.

Correction of SOP Table for Alert/Action Limits - CD 09JUL2024

NOTE: Sampling locations have been determined based upon results obtained during the Environmental Monitoring Performance Qualification Baseline study and U.S. FDA Aseptic Processing Guidance and will be re-evaluated periodically for appropriateness.

6.3 Incubation of Viable Samples

- Invert and incubate the plates at 20 - 25°C for 5-7 days. Examine plates for a preliminary read after 20 - 25°C incubation period to record CFU count only and determine if there is any excessive growth.
- Move the plates, still inverted, to 30 - 35°C incubation for an additional 2-3 days and record the final CFU count and colony morphology description for each plate. **NOTE:** End of incubation period for either temperature can be extended to the next business day, if necessary.

6.4 Evaluation of Result

- As stated in 4.1, results of NV testing will be evaluated immediately upon completion and compared to Alert and Action limits in the table below.

ISO Class	Viable Air (AV) (cfu / m^3)		Surface Viable (SV) (cfu / 55mm plate)		Total Particles (NV) (≥0.5µm / m^3)		Total Particles (NV) (≥5.0µm / m^3)	
	Alert	Action	Alert	Action	Alert	Action	Alert	Action
5	N/A	1	N/A	1	1,000	>3,520	N/A	≥1
7	2	5	5	10	5,000	>352,000	175	2,930
8	5	10	10	20	10,000	>3,520,000	750	29,300

NOTE: Alert and Action levels for each ISO class (see table above) have been determined based upon results obtained during the Environmental Monitoring Performance Qualification Baseline study and U.S. FDA Aseptic Processing Guidance and will be re-evaluated periodically for appropriateness.

SOP-038 Update for handwashing process – CR 09JUL2021 Attachment #5

- Upon entry to the CNC locker room.
  - Don shoe covers over street shoes.
- Personnel may don the designated non-sterile blue dedicated scrubs or don a white non-sterile lab coat over street clothes, if not entering cleanrooms.
- Personnel must change into dedicated shoes while in CNC or cleanroom areas.
  - Don safety glasses if cleaning areas with splashable liquids.
  - Don hair net and beard cover (if applicable)
  - Don sterile nitrile gloves.

- Prior to Material Transfer

  - If personnel are transferring materials from outside into the CNC over the line of demarcation, they may don the designated non-sterile blue dedicated scrubs or don a white non-sterile lab coat over street clothes. If wearing street shoes, shoe covers must be donned.
  - If personnel are transferring materials from the CNC area to the ISO 8 material transfer room, they must don the non-sterile blue dedicated scrubs.
  - Don non-sterile face mask.
  - Don sterile gloves.
  - Don hairnet and beard cover (if applicable).

7.3 HANDWASHING

- MUST BE COMPLETED BEFORE ENTERING ISO CLASSIFIED AREAS
  - Pull sleeves of scrubs as high as possible, exposing wrists or forearm area if possible.
  - Do not touch the faucet or sink during the hand hygiene process.
  - Begin hand washing by wetting hands. Remove debris from underneath fingernails using a nail pick under each nail. Apply antiseptic soap (e.g., chlorhexidine gluconate solution).
  - Wash all four surfaces of each finger and all surfaces of the hands and wrists with antiseptic soap and water for at least 30 seconds.
  - Rinse hands holding them upright perpendicular to arm and allowing water to drip off hands and towards wrists, but NOT wetting scrubs.
  - Dry hands and forearms completely using low lint wipes.

This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM I OBSERVED:

OBSERVATION 1

There is a failure to thoroughly review any unexplained discrepancy whether or not the batch has been already distributed.

Specifically,

A)During media fill lot 11252024@1MM your firm recovered mold growth from personnel monitoring results of 1 CFU on the right chest sample. This technician was performing compounding activities in the ISO-5 hood for the media fill. Your firm identified the species of mold, *Curvularia intermedia,* but did not perform any investigation to determine where the mold originated or evaluate patient safety due to the presence of this mold on your personnel performing repackaging activities. Your firm's routine environmental monitoring procedure states that "Action responses are always triggered for viable samples regardless of CFU count when CFU identified are of any highly pathogenic organisms such as gram-negative rods, coagulase positive *Staphlyococcus species*, molds, or yeasts.

B)Your firm initiated an investigation into a personnel monitoring result of 1 CFU for fingertip monitoring for lot 11132024@1. The result was initially discovered on 11/19/2024. Your firm performed an investigation into this out of specification on 1/14/2025 with no documented justification for the lapse in time for not investigating this critical environmental result. Lot disposition decisions were made prior to the investigation opening. This lot was rejected and destroyed without a documented disposition decision from quality or a record of the destroyed lot.

C)Your firm failed to identify and open investigations for apparent AQL failures for Avastin repackaged lot 12122024@2 and 12192024@2. These lots were both released and distributed by your firm.

OBSERVATION 2

Acceptance criteria for the sampling and testing conducted by the quality control unit is not adequate to assure that batches of drug products meet appropriate statistical quality control criteria as a condition for their approval and release.

Specifically,

Specifically,

Your firm's AQL sampling of 2% of the batch (15 syringes) is not statistically significant. In addition, acceptance criteria is not appropriately applied from AQL results.

Avastin repackaged lot 12192024@2, expiry 4/18/2025, had two major defects identified, both for particulate matter, during AQL sampling out of fifteen syringes evaluated. Your firm's AQL limit for major defects is 1.0%. Your firm calculated the AQL limit against the entire batch size of 729 syringes resulting in 0.3% major defects. Two syringes out of fifteen represents approximately 13% major defects in the AQL sample. Your firm passed this AQL result with no investigation or additional product inspection. This batch was released for distribution.

Avastin repackaged lot 12122024@2, expiry 3/14/2025, failed initial 100% visual inspection and was reinspected. After the 200% inspection was complete an AQL was performed. This AQL was performed with a sample size of fifteen syringes. One major defect for underfill was found during this AQL. Your firm's AQL limit for major defects is 1.0%. Your firm reported a result against the entire batch size of 739 syringes and resulting in 0.1% major defects. One out of fifteen represents approximately 7% major

defects in the AQL sample. Your firm passed this AQL with no investigation or additional product inspection. This batch was released for distribution.

OBSERVATION 3

Control procedures are not established which validate the performance of those manufacturing processes that may be responsible for causing variability in the characteristics of in-process material and the drug product.

Specifically,

The defects contained in the visual inspection qualification kit are not well defined and contain approximately 80% defects. Your firm's classification of defects is not scientifically justified. Your firm's critical, major, and minor defect classifications are not defined in any procedure and defects have not been assessed for risk to patient. According to your firm's CEO, the defects for each category are:

Critical: container closure breach, discoloration or cloudiness, and cracked/broken container

Major: over fill, under fill, dark particulate, and light particulate

Minor: cosmetic defect or other defect

OBSERVATION 4

Employees engaged in the manufacture and processing of a drug product lack the training and experience required to perform their assigned functions.

Specifically,

1) Qualification of your visual inspectors is deficient, for example:

- Your firm does not qualify inspection speed. During production 100 syringes can be inspected in less than 20 minutes, however, no documented inspection time was recorded during qualification activities.
- The characteristics of the defects within the qualification kit are not well defined. For example, particulate defects are listed as "light" or "dark" particulate matter of unknown size and composition. Your firm cannot evaluate the capabilities of visual inspectors without developing a well defined qualification kit.
- Your firm does not simulate fatigue during qualification.
- Defects in the qualification kit were prepared in house and the kit does not contain defects based on rejects from actual production. Particulate defects made in house do not necessarily represent defects that would be found from production.

2) Your firm does not have a reject library from which training and familiarization of defects can be studied by new hires or for refresher training.

OBSERVATION 5

Procedures designed to prevent microbiological contamination of drug products purporting to be sterile did not include adequate validation of the aseptic process.

Specifically,

Aseptic processing simulations were performed without protocols developed for defining acceptance criteria and worst-case conditions to be simulated. Your firm is currently performing media fills on the 0.25mL syringe size at 25% of routine batch size without a documented rationale. According to your firm's CEO, this reduced batch size is used after process validation has been completed and operator qualification is being performed.

In addition, your firm qualified operators utilizing various syringe sizes; 0.25mL, 10mL, and 50mL without a documented rationale for this bracketing. Your firm's current commercial product uses a

0.25mL syringe size with a batch size of 756 syringes. The 50mL syringe media fill is approximately 180 syringes with a shorter fill time and different processing steps than commercial production.

OBSERVATION 6

Procedures designed to prevent microbiological contamination of drug products purporting to be sterile are not established and written.

Specifically,

Your firm's media fill procedure, SOP-039, was not implemented prior to performing media fills. Your firm's media fill procedure was implemented on 6/12/2024. This procedure does not define acceptance criteria, routine and non-routine interventions to be performed, fill volume, or minimum fill time to be achieved for each process to be simulated.

Your firm performed 12 media fills prior to implementing any media fill procedure. In addition, no media fill protocols were developed until 11/21/2024. Interventions performed were not documented until protocols were developed. One technician used in routine production has not performed a media fill on the 0.25mL syringe process since procedures were developed.

OBSERVATION 7

Your firm failed to establish written procedures for production and process controls designed to assure that the drug products have the identity, strength, purity, and quality that they are purported or represented to possess.

Specifically,

Your firm does not have a procedure to govern environmental monitoring investigations into alert and action limits being reached during routine sampling. Your firm's investigation procedure, Investigation

Program, SOP-081, effective 1/7/2025, states that the routine environmental monitoring procedure governs excursions and investigations in environmental monitoring. The routine environmental monitoring procedure does not require an investigation into action levels being reached for sample results. Action responses are not defined within the environmental monitoring procedure.

OBSERVATION 8

Laboratory records do not include the initials or signature of a second person showing that the original records have been reviewed for accuracy, completeness and compliance with established standards.

Specifically,

Your firm does not require a second reviewer for environmental monitoring results unless 1 colony forming unit (CFU) is found. A single technician reads environmental plate counts and the worksheet with results is later reviewed, however, the physical plates are not verified unless growth is present.

RE: FEI 3027507354, Response to Form 483 issued 24-Jan-2025

Dear Ms. Maxwell,

On January 24, 2025, Food and Drug Administration ("FDA" or the "Agency") concluded an inspection of the Turbare Manufacturing, ("Turbare" or the "Company") facility located at 925 Jeanette Dr., Conway, AR 72032-6651 and issued inspectional observations on a Form FDA 483 ("FDA-483"). Turbare would like to thank the Agency for the opportunity to provide Turbare's initial response to the FDA-483. Following this initial response, Turbare will submit a full progress update each calendar quarter until all identified action items have been completed resolved. The first quarterly update will be for action items completed in 2025-Q1 with submission to the Agency by April 30, 2025.

503B Facility Background

Turbare is an FDA-registered 503B outsourcing facility committed to patient care and safety. Turbare recognizes FDA's important role in the oversight of outsourcing facilities to enhance patient safety and, as such, sincerely appreciates the collaborative and collegial discussions with Logan T. Williams, Investigator, during this inspection. Turbare believes the corrective actions described herein demonstrate an understanding of the Agency's concerns and a willingness to continuously improve its operations.

The corrective action(s) for each inspectional observation are outlined below, preceded by FDA's observation in *italics*. For ease of reference, a summary is appended that outlines the proposed action and timeline of completion for each.

OBSERVATION 1

There is a failure to thoroughly review any unexplained discrepancy and the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Description:

A) During media fill lot 11252024@1MM your firm recovered mold growth from personnel monitoring results of 1 CFU on the right chest sample. This technician was performing compounding activities in the ISO-5 hood for the media fill. Your firm identified the species of mold, Curvularia intermedia, but did not perform any investigation to determine where the mold originated or evaluate patient safety due to the presence of this mold on your personnel performing repackaging activities. Your firm's routine environmental monitoring procedure states "Action responses are always triggered for viable samples regardless of CFU count when CFU identified are of any highly pathogenic organisms such as gram-negative rods, coagulase positive Staphylococcus species, molds, or yeasts.

B) Your firm initiated an investigation into a personnel monitoring result of 1 CFU for fingertip monitoring for lot 11132024@1. The result was initially discovered on 11/19/2024. Your firm performed an investigation into this out of specification on 1/14/2025 with no documented justification for the lapse in time for not investigating this critical environmental result. Lot disposition decisions were made prior to the investigation opening. This lot was rejected and destroyed without a documented disposition decision from quality or a record of the destroyed lot.

C) Your firm failed to identify and open investigations for apparent AQL failures for Avastin repackaged lot 12122024@2 and 12192024@2. These lots were both released and distributed by your firm.

Response to Observation 1:

Turbare acknowledges the deficiencies in the investigation procedures and has taken immediate corrective actions to ensure all discrepancies, environmental monitoring results, and AQL failures are properly investigated and documented:

A) In response to the mold growth recovery from personnel monitoring during media fill lot 11252024@1MM, Turbare has initiated a retrospective investigation to determine the potential source of contamination under NCR-25-002 (Attachment 1). As part of the retrospective investigation, the technician involved will be evaluated for similar incidents in the past and garbing and aseptic technique records have been reviewed for compliance. As discussed during the inspection, this event was deemed to be an isolated event as available environmental monitoring trend analyses did not reflect a broad contamination issue. However, Turbare is acutely aware of the necessity to document and investigate deviations associated with growth recovered during media fill execution. In addition to the retrospective investigation to assess the root cause, Turbare has also initiated DCR-071, *Environmental Monitoring Program Enhancements* (Attachment 2) to update SOP-048, *Routine Environmental Monitoring*, to include language specific to the requirement of media fill investigations when mold or other highly pathogenic organisms are identified, regardless of CFU count. In addition, this procedure will be renamed *Environmental Monitoring*, to encompass both production and routine monitoring requirements to ensure a robust EM program has been established at the facility. Turbare expects approval and implementation of this revision to be completed in Mar-2025. A copy of the approved and effective procedure along with applicable personnel training will be provided in the 2025-Q1 response update scheduled for submission to the Agency on 30-Apr-2025.

B) At the time the personnel monitoring result of 1 CFU for fingertip monitoring for lot 11132024@1 was identified, Turbare was in the process of revamping the investigation workflow to ensure a robust process was in place. Although Turbare leadership took the conservative approach and rejected the batch as a result of the deviation, Turbare agrees with the observation regarding the lag time in opening an investigation to assess root cause, corrective actions, impact assessment, and tracking of lot disposition activities. As part of the corrective action to address the deficiency noted by the Agency, new investigation timelines shall be enforced to require all OOS or environmental monitoring deviations to be initiated within five (5) business days of discovery regardless of presumed lot disposition. Specifically, SOP-048, *Routine Environmental Monitoring*, will be updated to include language specific to investigation initiation requirements under the new *Environmental Monitoring* title outlined above. Included with this procedural enhancement, a template, TEM-034, *EM Investigation Template* (Attachment 3), has been established to ensure consistency across EM investigations as a result of the change.

In an effort to streamline EM investigation requirements as a result of the proposed changes, Turbare intends to create a separate Environmental Monitoring Excursion Response procedure to adequately govern investigation requirements as it relates to environmental monitoring excursions. As such, DCR-071 (Attachment 2), *Environmental Monitoring Program Enhancements* was initiated on 10-FEB-25 to include updates to SOP-048, *Routine Environmental Monitoring*, to reference the new excursion response procedure as well as to create SOP-087, *Environmental Monitoring Excursion Response*. The new procedure will appropriately define action levels, alert limits, and corresponding investigation requirements to include clear criteria for investigation requirements, defined steps for conducting root cause analyses, impact assessments, corrective actions required, and documentation and approval requirements for closure. As part of the DCR, any relevant forms and logs associated with excursion reporting shall also be established for tracking purposes. All relevant personnel will be retrained on the updated procedures and associated training records shall be provided along with other supporting documentation in the 2025-Q1 response update scheduled for submission to the Agency on 30-Apr-2025.

Additionally, due to the observation regarding a lack of documentation for lot rejection, Turbare reviewed SOP-071, *Drug Product Disposal* (Version 01, effective 21-OCT-2024) where it was identified that more robust measures could be employed to ensure adequate documentation of waste destruction activities are properly executed. As a result, DCR-067, Waste Disposal Program (Attachment 4) was opened on 23-JAN-2025 to update the existing procedure to outline the requirements of appropriately ensuring lot rejection occurs with a documented and approved rationale and record. As part of DCR-067, FRM-078, *Drug Product Disposal Record* (Attachment 5), and LOG-044, *Drug Product Disposal Log* (Attachment 6), were also created to ensure appropriate documentation efforts occur with QA oversight and approval. DCR-067 was closed on 13-FEB-2025, and the following corresponding documents became effective on 13-FEB-2025, SOP-071, *Drug Product Disposal* (Version 02), LOG-044, *Drug Product Disposal Log*, FRM-078, *Drug Product Disposal Record*.

C) Turbare would like to clarify that the AQL deficiencies observed during the inspection were not true AQL failures; rather, there were instances in which the appropriate quantities were not selected for AQL inspection. Specifically, Avastin repackaged lots 12122024@2 and 12192024@2 documented 15 syringes inspected for AQL inspection with one (1) additional defect identified for lot 12122024@2 and two (2) additional defects identified for lot 12192024@2 (Attachments 7 and 8). During the inspection, Turbare staff obtained retained syringes from both lots to do an additional AQL inspection on 56 units of retained product, wherein zero (0) additional defects were identified (Attachment 9). As previously indicated with the investigation program overhaul, Turbare was also undergoing procedural enhancements to the visual inspection program to ensure a robust program is in place. Nonetheless, as a result of the observation noted during the inspection, Turbare initiated INC-25-002 as a retrospective investigation to determine root cause(s) of the events, necessary corrective actions, and to assess implementation plans moving forward (Attachment 10). DCR-063, *Visual Inspection Program Enhancements*, was opened on 20-JAN-2025 to track all the necessary changes to the visual inspection program (Attachment 11) and is discussed in detail below in the responses to observations 2 and 3.

Although Turbare vehemently believes there is no negative impact as a result of the AQL sampling criteria, out of an abundance of caution, Turbare has elected to voluntarily recall the two lots mentioned above to further show unwavering commitment to quality standards. Turbare will initiate the request for a voluntary recall on 12-FEB-2025 and all documented efforts regarding the recall activities will be provided in the 2025-Q1 response update scheduled for submission to the Agency on 30-Apr-2025.

OBSERVATION 2:
Acceptance criteria for the sampling and testing conducted by the quality control unit is not adequate to assure that batches of drug products meet appropriate statistical quality control criteria as a condition for their approval and release.

Specifically,

Your firm's AQL sampling of 2% of the batch (15 syringes) is not statistically significant. In addition, acceptance criteria is not appropriately applied from AQL results.

Avastin repackaged lot 12192024@2, expiry 4/18/2025, had two major defects identified, both for particulate matter, during AQL sampling out of fifteen syringes evaluated. Your firm's AQL limit for major defects is 1.0%. Your firm calculated the AQL limit against the entire batch size of 729 syringes resulting in 0.3% major defects. Two syringes out of fifteen represents approximately 13% major defects in the AQL sample. Your firm passed this AQL result with no investigation or additional product inspection. This batch was released for distribution.

Avastin repackaged lot 12122024@2, expiry 3/14/2025, failed initial 100% visual inspection and was reinspected. After the 200% inspection was complete an AQL was performed. This AQL was performed with a sample size of fifteen syringes. One major defect for underfill was found during this AQL. Your firm's AQL limit for major defects is 1.0%. Your firm reported a result against the entire batch size of 739 syringes and resulting in 0.1 % major defects. One out of fifteen represents approximately 7% major defects in the AQL sample. Your firm passed this AQL with no investigation or additional product inspection. This batch was released for distribution.

Response to Observation 2:

Turbare acknowledges the deficiencies in the previous AQL sampling methodology, statistical justification, and failure to properly investigate atypical AQL results. As previously indicated, significant improvements and updates to the existing program were already being evaluated and updated at the time of the inspection. However, Turbare also acknowledges the lack of documentation available to support the ongoing efforts that had been made in this respect. As such, the following corrective and preventive actions have been taken to address the deficiencies not only with the AQL portion of the visual inspection program, but the program as a whole to ensure compliance with cGMP regulations.

SOP-075, *Acceptable Quality Limit (AQL) Inspection* (Version 01), was immediately updated to reflect statistically significant AQL figures based on ANSI/ASQ Z1.4 standard tables (Attachment 12) while ongoing efforts were being established to ensure a robust visual inspection program. Based on the updated AQL requirements, all calculations will be performed based on General Inspection Level II sampling requirements as outlined in ANSI/ASQ Z1.4. SOP-075 (Version 01) was immediately approved and implemented on 14-JAN-2025 to support the requirement to inspect additional units to ensure compliance. In tandem, DCR-063, *Visual Inspection Program Enhancements* (Attachment 11), was initiated on 20-JAN-2025 to enhance the overall visual inspection program to also outline requirements for failed AQL inspections, establish meaningful alert limits based on defect criticality, and to establish requirements in which investigations shall be initiated into atypical events. SOP-075 (Version 02) was made effective on 10-FEB-2025 (Attachment 13).

Specifically, the following documents were created as part of DCR-063 (Attachment 11) to enhance the qualification of personnel and processes related to visual inspection:

- SOP-075 (Version 02), *Acceptable Quality Limit (AQL) Inspection* (Attachment 13)
- SOP-061 (Version 02), *100% Visual Inspection* (Attachment 14)
- SOP-050 (Version 02), *Use and Maintenance of Extech Digital Light Meter* (Attachment 15)
- SOP-046 (Version 02), *Use and Maintenance of MIH-PORT Portable Inspection Station* (Attachment 16)
- MBR-002 (Version 01), *Primary Visual Inspection of Repackaged Syringe Master Batch Record* (Attachment 17)
- MBR-003 (Version 01), *Secondary Visual Inspection of Repackaged Syringe Master Batch Record* (Attachment 18)
- MBR-004 (Version 01), *Tertiary Visual Inspection of Repackaged Syringe Master Batch Record* (Attachment 19)

In addition to the above actions taken by Turbare, investigation INC-25-002, was initiated on 21-JAN-2025 to assess root cause and track all additional measures taken as a result (Attachment 10). As part of the investigation, a retrospective evaluation of all released batches using the previous AQL methodology was conducted to ensure these two incidents were isolated events. As no other events were identified in which defects were observed in the AQL inspection, the investigation focused on the two lots in question, 12192024@2 and 12122024@2. As indicated previously, an additional AQL inspection was conducted on 56 units of retained product for both lots, wherein zero (0) additional defects were identified (Attachment 9). A review of customer complaints and Adverse Drug Events (ADEs) was also conducted as part of the preliminary investigation where it was identified there have been zero (0) customer complaints or ADEs regarding either batch. As part of the investigation, additional AQL inspections were conducted with all unreleased lots at the facility under the new

procedure with the updated sampling requirements. The investigation was closed 12-FEB-2025 and has been provided in Attachment 10.

Although Turbare vehemently believes there is no negative impact as a result of the AQL sampling criteria, out of an abundance of caution, Turbare has elected to voluntarily recall the two lots mentioned above to further show unwavering commitment to quality standards. Turbare will initiate the request for a voluntary recall on 12-FEB-2025 and all documented efforts regarding the recall activities will be provided in the 2025-Q1 response update scheduled for submission to the Agency on 30-Apr-2025.

OBSERVATION 3:
Control procedures are not established which validate the performance of those manufacturing processes that may be responsible for causing variability in the characteristics of in-process material and drug product.

Specifically,

The defects contained in the visual inspection qualification kit are not well defined and contain approximately 80% defects. Your firm's classification of defects is not scientifically justified. Your firm's critical, major, and minor defect classifications are not defined in any procedure and defects have not been assessed for risk to patient. According to your firm's CEO, the defects for each category are:

Critical: container closure breach, discoloration or cloudiness, and cracked/broken container
Major: over fill, under fill, dark particulate, and light particulate
Minor: cosmetic defect or other defect

Response to Observation 3:
Turbare understands the need for robust written procedures outlining the qualification criteria for visual inspection. As outlined in the response to Observation 2 above, Turbare has committed to ensuring a robust visual inspection program including in-process controls, establishing meaningful trends, and ensuring a rigorous qualification program is in place. An assessment of SOP-061, *Visual Inspection* (Version 02)(Attachment 14), was conducted wherein it was identified that the current qualification program at Turbare requires additional development to ensure a comprehensive training program is established. As a result, DCR-064, *Visual Inspection Qualification Enhancements* (Attachment 20) was initiated on 20-JAN-2025 to include the creation of qualification procedures with corresponding forms, logs, and visual aids to ensure a robust and scientifically justified approach is addressed in qualification activities.

Specifically, the following documents were created as part of DCR-064 (Attachment 20) to enhance the qualification of personnel and processes related to visual inspection:

- SOP-084 (Version 01 Draft), *Visual Inspection Personnel Qualification* (Attachment 21)
- FRM-077 (Version 01 Draft), *Visual Inspection Personnel Qualification Record* (Attachment 22)
- LOG-043 (Version 01 Draft), *Visual Inspection Personnel Qualification Log* (Attachment 23)
- SOP-086 (Version 01 Draft), *Visual Inspection Exhibit Qualification* (Attachment 24)
- FRM-076 (Version 01 Draft), *Visual Inspection Exhibit Qualification Record* (Attachment 25), and
- LOG-042 (Version 01 Draft), *Visual Inspection Exhibit Qualification Log* (Attachment 26)

The qualification component of DCR-064 (Attachment 20) will focus not only on personnel qualifications, but also on exhibit development and qualification to establish a robust training program, consistency across operators, and qualification simulations in alignment with standard manufacturing processes. As part of the improvements, qualification test kits will be redesigned to contain a representative mix of acceptable product and known defect types, reducing defect concentration to ~10%, ensuring realistic training conditions. The defects obtained for qualification purposes will be indicative of the manufacturing process with adequate documentation outlining review and approval of each unit for qualification purposes. As the qualification component to the visual inspection program requires adequate time and oversight, the proposed

timeframe for the completion of all activities associated within DCR-064 (Attachment 20) is eight (8) weeks, with all relevant updates to be provided in the 2025-Q1 response update scheduled for submission to the Agency by 30-Apr-2025.

As part of the procedural updates captured under DCR-063 (Attachment 11) and DCR-064 (Attachment 20) an evaluation of empirical data and trends over the next six (6) months shall be a cornerstone of the visual inspection enhancements and will drive to establish meaningful thresholds during both qualification activities and visual inspection operations. CAPA-007, *Visual Inspection Program Overhaul* (Attachment 27) encompasses both DCR-063 (Attachment 11) and DCR-064 (Attachment 20) to effectively track completion of all required activities as a part of the visual inspection program overhaul. As qualification activities will take longer to implement, Turbare intends to close the CAPA in a phased approach, ensuring all critical components are adequately assessed and monitored as a result. Turbare expects approval and implementation of this CAPA to be completed in Apr-2025. A copy of the approved CAPA and all supporting documentation along with applicable personnel training will be provided in the 2025-Q1 response update scheduled for submission to the Agency on 30-Apr-2025.

To address the deficiencies noted by the Agency in regards to defect classifications, Turbare has made prompt revisions to the existing visual inspection procedure to ensure all staff are trained on appropriate defect classifications based on potential safety risk. As part of DCR-063 (Attachment 11), a central component focused on updating SOP-061, *Visual Inspection* (Version 02, Attachment 14), to establish a robust defect classification system for critical, major, and minor defect categories with corresponding alert limits for each classification, requiring additional action. The defect classifications and corresponding definitions now more closely reflect the requirements as outlined in USP <790> and USP <1790>. As defect classifications and the appropriate assessment of patient risk are of utmost importance to Turbare, DCR-063 (Attachment 11) became effective on 10-Feb-2025. A copy of the initiation form, all impacted documents made effective, and applicable training on each document has been included in Attachment 11.

OBSERVATION 4:
Employees engaged in the manufacture and processing of a drug product lack the training and experience required to perform their assigned functions.

Specifically,

1) *Qualification of your visual inspectors is deficient, for example:*
   - *Your firm does not qualify inspection speed. During production 100 syringes can be inspected in less than 20 minutes, however, no documented inspection time was recorded during qualification activities.*
   - *The characteristics of the defects within the qualification kit are not well defined. For example, particulate defects are listed as "light" or "dark" particulate matter of unknown size and composition. Your firm cannot evaluate the capabilities of visual inspectors without developing a well defined qualification kit.*
   - *Your firm does not simulate fatigue during qualification.*
   - *Defects in the qualification kit were prepared in house and the kit does not contain defects based on rejects from actual production. Particulate defects made in house do not necessarily represent defects that would be found from production.*
2) *Your firm does not have a reject library from which training and familiarization of defects can be studied by new hires or for refresher training.*

Response to Observation 4:
As previously indicated in responses to Observations 2 and 3, Turbare acknowledges the importance of having written procedures that describe, justify, and document the in-process controls, tests, and examinations of each batch. DCR-063 (Attachment 11) was initiated on 20-JAN-2025 to address substantive improvement efforts to the visual inspection program and DCR-064 (Attachment 20) was initiated on 20-JAN-2025 to address the qualification component as it relates to the visual inspection program. Both DCRs encompass multiple SOPs, FRMs, LOGs, and associated MBRs to explicitly document workflows and requirements for visual inspection operations. As it relates to visual inspection qualification in

particular, SOP-084, *Visual Inspection Personnel Qualification* (Version 01 Draft, Attachment 21), has been included under DCR-064 (Attachment 20) to establish meaningful qualification activities to ensure personnel engaged in visual inspection operations are adequately trained to perform assigned job functions. SOP-084 (Attachment 21) includes the establishment of test kits in sufficient quantities to qualify inspection speed to ensure qualification events mimic normal production operations. Additionally, this procedure also outlines fatigue simulation requirements to ensure qualification activities allow for worst-case simulations. FRM-077, *Visual Inspection Personnel Qualification Record* (Version 01 Draft, Attachment 22), has also been included under DCR-064 (Attachment 20) to document inspection times during qualification activities. Additionally, LOG-043, *Visual Inspection Personnel Qualification Log* (Version 01 Draft, Attachment 23), has been established to adequately track and monitor qualification events and requalification timeframes.

As it relates to the characteristics of the defects within the qualification kit, DCR-064 (Attachment 20) also includes the creation of SOP-086, *Visual Inspection Exhibit Qualification* (Version 01 Draft, Attachment 24), which establishes requirements for qualification exhibits used for visual inspection personnel training and qualification. This procedure clearly outlines defect characteristics, creation and maintenance of qualification units, identification of units, and qualification and requalification requirements to ensure a well-defined qualification kit is selected from a larger sample of potential units. Each qualification unit will be appropriately evaluated by multiple Turbare staff via FRM-076, *Visual Inspection Exhibit Qualification Record*, and properly managed via LOG-042, *Visual Inspection Exhibit Log* (Attachments 25 and 26). These exhibit qualification units will contain defects from actual production primarily to ensure training and qualification activities are in alignment with standard manufacturing processes. In addition, the exhibit qualification sets will ensure a reject library exists for new hire training and/or employee refresher training as required.

As previously indicated, DCR-064 (Attachment 20) is targeted for completion on 07-APR-2025 with all relevant updates to be provided in the 2025-Q1 response update scheduled for submission to the Agency by 30-Apr-2025. As part of the closure requirements, all new hires will undergo qualification under the new program and all existing visual inspection personnel will undergo requalification on the updated process by 12-APR-2025. The annual requalification requirement will also ensure trends are adequately documented and assessed as required.

OBSERVATION 5:
Procedures designed to prevent microbiological contamination of drug products purporting to be sterile did not include adequate validation of the aseptic process.

Specifically,

Aseptic processing simulations were performed without protocols developed for defining acceptance criteria and worst-case conditions to be simulated. Your firm is currently performing media fills on the 0.25mL syringe size at 25% of routine batch size without a documented rationale. According to your firm's CEO, this reduced batch size is used after process validation has been completed and operator qualification is being performed.

In addition, your firm qualified operators utilizing various syringe sizes; 0.25mL, 1.0mL, and 50mL without a documented rationale for this bracketing. Your firm's current commercial product uses a 0.25mL syringe size with a batch size of 756 syringes. The 50mL syringe media fill is approximately 180 syringes with a shorter fill time and different processing steps than commercial production.

Response to Observation 5:
Turbare understands the need to strengthen aseptic process validation procedures, define clear rationale for media fill batch sizes and bracketing, and ensure all process simulations reflect worst-case conditions. As a point of clarification, Turbare would like to note that the statement *"Your firm is currently performing media fills on the 0.25mL syringe size at 25% of routine batch size[...]"* is inaccurate. Turbare performs aseptic process validation media fills of all aseptic processes at the full intended commercial scale batch size. The media fill identified in observation 5 which was listed at 25% of the routine batch size applied only to the qualification of specific personnel ("Aseptic Personnel Qualification") and NOT qualification of the established aseptic process. This is evidenced by Turbare's execution of *Summary Report Process Qualification for*

Repackaged 0.07mL of Sterile Product in StaClear Syringes with the media fill performed at full production scale in triplicate. (Attachment 28)

A formal media fill protocol was established on 03DEC2024 under TEM-028, *Syringe Repackaging Media Fill Protocol* (Attachment 29) that governs aseptic process qualification requirements including a maximum batch size of NLT 850 syringes. Although initial aseptic processing simulations were performed prior to the protocol approval defining acceptance criteria and worst-case conditions to be simulated, there is no negative impact as a result. For purposes of initial qualification, media fills were performed in triplicate at full scale on 13MAY2024 through 15MAY2024 to verify a high level of reproducibility prior to commercialization of product with passing results obtained (Attachment 30). However, to ensure appropriate documentation around the event, and to ensure this does not occur in the future, an investigation has been initiated under DEV-25-004 to assess root cause, corrective measures taken as a result, and to document ongoing continuous improvement initiatives as it relates to aseptic process qualification requirements (Attachment 31).

Aseptic Personnel Qualifications are conducted separately from aseptic *process* simulations and are conducted in each family specific media fill at a minimum of 25% of the family of drug product specific maximum batch size and are explicitly outlined in SOP-072, *Personnel Aseptic Qualification* (Version 01, Attachment 32). Personnel aseptic qualifications are an additional measure employed by Turbare as it relates to aseptic process simulations. As outlined in FDA Guidance for Industry – Sterile Drug Products Produced by Aseptic Processing (2004), routine media fills to demonstrate aseptic processing control are governed by SOP-074, *Aseptic Process Qualification* (Version 01, Attachment 33) in which the standard practice at Turbare includes aseptic process simulations that mimic routine batch sizes. Nonetheless, Turbare is committed to addressing the deficiencies noted during the inspection.

During requalification activities on 30JAN2025, MFP-25-001, *Syringe Repackaging Media Fill Protocol,* (Attachment 34) was utilized to ensure acceptance criteria, worst-case conditions, and processing parameters to be simulated were clearly outlined and approved prior to requalification events. As Turbare is currently awaiting incubation results, a summary report will be generated, reviewed, and approved for full closure of the requalification event. As part of the requalification requirements, personnel involved were adequately trained on the protocol and all training documentation shall be included with the summary report, along with any other supporting documentation, and provided in the 2025-Q1 response update scheduled for submission to the Agency on 30-Apr-2025.

OBSERVATION 6:
Procedures designed to prevent microbiological contamination of drug products purporting to be sterile are not established and written.

Specifically,

Your firm's media fill procedure, SOP-039, was not implemented prior to performing media fills. Your firm's media fill procedure was implemented on 6/12/2024. This procedure does not define acceptance criteria, routine and non-routine interventions to be performed, fill volume, or minimum fill time to be achieved for each process to be simulated.

Your firm performed 12 media fills prior to implementing any media fill procedure. In addition, no media fill protocols were developed until 11/21/2024. Interventions performed were not documented until protocols were developed. One technician used in routine production has not performed a media fill on the 0.25mL syringe process since procedures were developed.

Response to Observation 6:
Turbare acknowledges the deficiencies noted in the existing media fill program and have taken steps to ensure full compliance with FDA guidelines for aseptic processing. As part of continuous improvement, a need to strengthen the aseptic process validation procedures and defining clear rationale for media fill batch sizes was recognized in October 2024. Thus, DCR-037, *Implementation of Personnel Aseptic Qualification*, and DCR-039, *Implementation of Aseptic Process Qualification*, (Attachment 35 and 36) were initiated on 11NOV2024. SOP-072, *Personnel Aseptic Qualification* (Version 01, Attachment 32), and SOP-074, *Aseptic Process Qualification* (Version 01, Attachment 33), were made effective on

13NOV2024. The newly established procedures define acceptance criteria, routine and non-routine interventions to be performed, and minimum fill time to be achieved for each process simulated in alignment with FDA guidance on aseptic processing. As of 21-NOV-2024, all process qualifying or requalifying media fills shall be conducted per approved protocols with the documentation of interventions as a mandatory component. In response to this observation, DCR-065, *Media Fill Program Enhancements* was initiated on 23JAN2025 to perform a comprehensive analysis of the media fill program to include enhancements to existing procedures and processes (Attachment 37). As part of the DCR, SOP-039, *Media Fills*, was obsoleted and SOP-074, *Aseptic Process Qualification* (Version 02 Draft, Attachment 38), defined procedures specific to respective process qualification events. Aseptic process simulation requalification was scheduled for 30JAN2025, and applicable documentation shall be included in the 2025-Q1 response update scheduled for submission to the Agency on 30-Apr-2025. Additionally, the technician who has not performed a media fill on the 0.25mL syringe process will complete a qualification within the protocol initiated 30JAN2025.

Turbare is committed to maintaining compliance with FDA aseptic processing requirements and ensuring that all procedures governing media fills meet regulatory expectations. In regard to the 12 process qualifying media fills performed prior to the implementation of any media fill procedure; a retrospective review of previous media fills was conducted via DEV-25-004 (Attachment 31) to assess potential impact. The retrospective review concluded there have been zero (0) sterility failures or otherwise negative implications as a result. Employees have been adequately trained on the new processes and a periodic media fill schedule with appropriate Quality oversight has been established to ensure all processes and personnel remain qualified via LOG-033, *Media Fill Qualification Log* (Version 02, Attachment 39). Further, TEM-028, *Syringe Repackaging Media Fill Protocol*, was established on 03-DEC-2024 to ensure a media fill protocol/template exists which clearly outlines the requirements to be achieved for each process to be simulated (Attachment 29). For any new product development initiatives, Turbare is committed to establishing robust media fill protocols specific to each individualized process.

OBSERVATION 7:
Your firm failed to establish written procedures for production and process controls designed to assure that the drug products have the identity, strength, purity, and quality that they are purported or represented to possess.

Specifically,

Your firm does not have a procedure to govern environmental monitoring investigations into alert and action limits being reached during routine sampling. Your firm's investigation procedure, Investigation Program, SOP-081, effective 1/7/2025, states that the routine environmental monitoring procedure governs excursions and investigations in environmental monitoring. The routine environmental monitoring procedure does not require an investigation into action levels being reached for sample results. Action responses are not defined within the environmental monitoring procedure.

Response to Observation 7:
Upon review of the observation, Turbare recognizes the need to establish a robust environmental monitoring program and define clear action responses for excursions. As SOP-081, *Investigation Program* (Version 01, Attachment 40), was recently revamped as part of ongoing continuous improvement initiatives, Turbare intends to create a separate Environmental Monitoring Excursion Response procedure to adequately govern investigation requirements as it relates to environmental monitoring excursions. As such, DCR-071 was initiated on 10-FEB-25 (Attachment 2) to include updates to SOP-048, *Routine Environmental Monitoring*, to reference the new excursion response procedure as well as to create SOP-087, *Environmental Monitoring Excursion Response*. The new procedure will appropriately define action levels, alert limits, and corresponding investigation requirements to include clear criteria for investigation requirements, defined steps for conducting root cause analyses, impact assessments, corrective actions required, and documentation and approval requirements for closure. As part of the DCR, any relevant forms and logs associated with excursion reporting shall also be established for tracking purposes. All relevant personnel will be retrained on the updated procedures and associated training records shall be provided along with other supporting documentation in the 2025-Q1 response update scheduled for submission to the Agency on 30-Apr-2025.

OBSERVATION 8:
Laboratory records do not include the initials or signature of a second person showing that the original records have been reviewed for accuracy, completeness, and compliance with established standards.

Specifically,

Your firm does not require a second reviewer for environmental monitoring results unless 1 colony forming unit (CFU) is found. A single technician reads environmental plate counts and the worksheet with results is later reviewed, however, the physical plates are not verified unless growth is present.

Response to Observation 8:
Turbare recognizes the need to enhance existing procedures for verifying environmental monitoring results to ensure compliance with regulatory expectations. To address the deficiency noted, DCR-071 (Attachment 2) was initiated on 10-FEB-2025 to create SOP-088, *Reading of Microbiological Culture Media* to mandate a second person review of all environmental monitoring results, irrespective of colony-forming unit (CFU) count. As part of the change, all environmental monitoring plates will be subject to independent verification by a second qualified microbiologist or designated quality personnel. Additionally, associated training for all relevant staff will be included as part of the procedural updates to ensure adequate knowledge of the process and understanding of verification requirements. As a long-term measure, Turbare is also committed to performing periodic quality audits of laboratory records to confirm adherence to the new procedure. DCR-071 (Attachment 2) is targeted for completion in March-2025 and will be provided in the 2025-Q1 response update scheduled for submission to the Agency on 30-Apr-2025.

Conclusion
Turbare respectfully submits these responses with a commitment to full compliance with FDA regulations. Turbare appreciates the opportunity to demonstrate its willingness and ability to comply with all requirements and expectations for 503B outsourcing facilities by completing the corrective actions described herein. Turbare is hopeful that continued collaborative and open dialogue can occur and welcomes the Agency's feedback on these planned corrective actions to ensure practices meet regulatory expectations. The following page summarizes the actions and timelines for completion, with follow-up with the Agency to occur in the 2025-Q1 response update scheduled for submission to the Agency on 30-Apr-2025 through completion of all items.

As further evidence of Turbare's commitment to compliance with the Agency's concerns, for all verbal discussion points, Turbare has also provided a separate formal response below to outline the corrective measures Turbare has taken, or intends to take, to ensure a robust quality system is in place at the facility. Should you require any additional information or verification of any of the proposed corrective actions contained within, please do not hesitate to reach out in the interim.

The complaint alleges that WP Pharma has marketed, sold, and distributed misbranded drugs and violated the FD&C Act Sections 502(a) and 201(n). The crux of the complaint are allegations that WP Pharma compounded BPC-157, CJC-1295, DHH-B, GHK-Cu, Ipamorelin, Melanotan II, Thymosin Alpha-1, and Thymosin Beta-4. A specific time period is not specified for which the alleged violations occurred.

As background, a competitor of WP Pharma, Empower Pharmacy CEO Shaun Noorian formed a limited liability company named Coalition for Responsible Compounding. Mr. Noorian through the LLC has sent inaccurate complaints to each state board of pharmacy in an attempt to harm his competitors. Mr. Noorian has sent the same complaint to every state board accusing many of his competitors of committing the exact same violations. These complaints have led to multiple lawsuits against the LLC. In the event these complaints ever lead to any action taken by a state board, WP Pharma will timely provide notice of that discipline as required by any applicable regulation or statute.

The allegation, taken as a whole, is untrue. WP Pharma has never sold or distributed DHH-B, GHK-Cu, or Melanotan II in Oregon. Furthermore, WP Pharma has not compounded with any unapproved bulk drug substances, including those listed in the letter since the FDA issued its relevant Interim Policy on Compounding Using Bulk Drug Substances in December 2023. In fact, WP Pharma voluntarily ceased compounding with any of the specified substances as early as September 2023. The last prescription filled in Oregon containing any currently unapproved bulk drug substance was filled on October 10, 2023.

WP Pharma maintains strict adherence to the FDA's standards governing the use of bulk drug substances in compounding, as well as the applicable United States Pharmacopoeia (USP) and National Formulary monographs where such exist. WP Pharma compounding processes are rigorously overseen by licensed pharmacists who follow all appropriate compounding protocols to ensure the safety and efficacy of the products dispensed. WP Pharma asserts that all compounded products dispensed into the state of Oregon were compounded with substances believed to be compliant with FDA standards, and WP Pharma had a reasonable belief that the products met all legal and regulatory requirements.

Yours truly,

LOUISIANA BOARD OF PHARMACY

BATON ROUGE, LOUISIANA

IN THE MATTER OF: **CONSENT ORDER**

WP PHARMA LABS, INC. D/B/A WP PHARMA LABS

LOUISIANA PHARMACY PERMIT NO. 8392 **Case No. 24-0059**

CONSENT AGREEMENT

WHEREAS, an informal conference was conducted by the Violations Committee of the Louisiana Board of Pharmacy (hereinafter referred to as the "Board") on September 18, 2024 at the Board office, 3388 Brentwood Drive, Baton Rouge, LA 70809, in the matter of WP PHARMA LABS, INC. D/B/A WP PHARMA LABS (hereinafter referred to as "Respondent"), holding Louisiana Pharmacy Permit No. 8392, 4001 McEwen Road, Suite 110, Dallas, Texas 75244, with pharmacy representative Melissa Stefko and attorney Jason Balogh appearing on behalf of Respondent.

WHEREAS, WP Pharma Labs dispensed approximately 606 prescriptions of compounding products into Louisiana that failed to conform to the minimal standards of acceptable pharmacy practice. Specifically, these products were compounded with unapproved bulk drug substances that are not eligible for human compounding.

WHEREAS, the Board alleges that such actions constitute violations of the following:

La. R.S. 37: 1241(A)(1): Practiced or assisted in the practice of pharmacy, or knowingly permitted or has permitted anyone in his employ or under his supervision to practice or assist in the practice of pharmacy, in violation of the provisions of this Chapter and any rules and regulations promulgated thereto in accordance with the Administrative Procedure Act.

LAC 46:LIII.2535: General Standards: A. Compounding Practices. Compounded medications may be prepared using prescription medications, over-the- counter medications, chemicals, compounds, or other components

2. All compounding shall be accomplished utilizing accepted pharmacy techniques, practices, and equipment, and in compliance with the Federal Food, Drug and Cosmetic Act of 1938 (FDCA) as subsequently amended, the current edition of Title 21 of the Code of Federal Regulations (CFR), and all relevant chapters of the United States Pharmacopeia-National Formulary.

a. The compounding of sterile preparations pursuant to the receipt of a patient-specific prescription shall comply with the provisions of Section 503-A of the FDCA and USP Chapter 797.

To facilitate the submission of this Consent Agreement, Respondent does not contest the allegations and agrees that there is sufficient evidence upon which to predicate a finding of those violations.

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

In order to avoid further administrative and judicial proceedings, Respondent hereby consents to accept and abide by the following order of the Board:

WP PHARMA LABS, INC. D/B/A WP PHARMA LABS is ordered pay a fine of $9,090.00, and reimburse the Board $250.00 for administrative costs and $929.94 for investigative costs, with total payment due the Board of $10,269.94, due by *certified check or money order* to be paid simultaneously with the execution of this Consent Agreement by Respondent.

By signing this Consent Agreement, Respondent agrees that the Board has jurisdiction in this matter, waives all rights to informal conference, to Notice of Hearing, to a formal Administrative Hearing and to judicial review of this Consent Agreement. Moreover, at no time shall Respondent request the expungement, recission or removal of this Consent Agreement.

By signing this Consent Agreement, Respondent agrees that any failure to comply with the terms of this Agreement is a basis for discipline by the Board.

Both Respondent and the Board stipulate that this Consent Order shall not become effective and shall not become binding on the Board unless and until approved by the Board at formal meeting. However, Respondent agrees that this Consent Order shall be effective and binding upon Respondent without recourse upon its authorized representative signing said Order.

Respondent agrees to authorize the Board to report this action to the National Practitioner Data Bank – Healthcare Integrity and Protection Data Bank (NPDB-HIPDB) as required by law.

I, Nikki Good, authorized to act on behalf of and acting on behalf of WP PHARMA LABS, INC. D/B/A WP PHARMA LABS, understand that this Consent Agreement is effective as a Board Order upon affirmative vote by the Board at formal hearing. It is also understood that, should the Board not approve this Consent Agreement, the agreement therein does not preclude the Louisiana Board of Pharmacy from requiring a formal hearing of this case.

It is further understood that, should this Consent Agreement not be accepted by the Board, the presentation to and consideration by the Board of this Agreement, including presented documentary evidence and information, shall not unfairly or illegally prejudice or preclude the Board or any of its members from further participation in hearings or resolution of these proceedings.

SIGNED, AGREED TO AND ENTERED ON THIS 18 DAY OF October, 2024.

IN THE MATTER OF: **CONSENT ORDER**

JERRY LANCE MAY

PHARMACIST LICENSE NO. 22491 **Case No. 24-0242**

****

CONSENT AGREEMENT

WHEREAS, an informal conference was conducted by the Violations Committee of the Louisiana Board of Pharmacy (hereinafter referred to as the "Board") on September 18, 2024 at the Board office, 3388 Brentwood Drive, Baton Rouge, LA 70809, in the matter of **JERRY LANCE MAY** (hereinafter referred to as "Respondent"), holder of PHARMACIST LICENSE NO. 22491, with attorney Jason Balogh present on behalf of Respondent.

WHEREAS, WP Pharma Labs dispensed approximately 606 prescriptions of compounding products into Louisiana that failed to conform to the minimal standards of acceptable pharmacy practice. Specifically, these products were compounded with unapproved bulk drug substances that are not eligible for human compounding.

WHEREAS, Respondent serves as Pharmacist-in-Charge of WP Pharma Labs' non-resident Louisiana pharmacy permit, PHY.008392-NR.

WHEREAS, the Board alleges that such actions constitute violations of the following:

La. R.S. 37: 1241(A)(1): Practiced or assisted in the practice of pharmacy, or knowingly permitted or has permitted anyone in his employ or under his supervision to practice or assist in the practice of pharmacy, in violation of the provisions of this Chapter and any rules and regulations promulgated thereto in accordance with the Administrative Procedure Act.

a. The compounding of sterile preparations pursuant to the receipt of a patient-specific prescription shall comply with the provisions of Section 503-A of the FDCA and USP Chapter 797.

LAC, Title 46: LIII §2307(C): Authority and Accountability. The designated pharmacist-in-charge of the pharmacy and the pharmacy owner(s), or partners, or corporate officer(s) of the permit holder, where applicable, shall be responsible for the complete supervision, management, and compliance with all federal and state pharmacy laws and regulations pertaining to the practice of pharmacy of the entire prescription department. This responsibility necessarily includes accountability for any violation involving federal or state laws or regulations occurring within the prescription department supervised by a pharmacist-in-charge.

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

In order to avoid further administrative and judicial proceedings, Respondent hereby consents to accept and abide by the following order of the Board:

JERRY LANCE MAY is ordered to pay a fine of $5,000.00 and reimburse the Board $250.00 for administrative costs, for a total of $5,250.00 due by *certified check or money order* at the signing of this agreement.

By signing this Consent Agreement, Respondent agrees that the Board has jurisdiction in this matter, waives all rights to informal conference, to Notice of Hearing, to a formal Administrative Hearing and to judicial review of this Consent Agreement. Moreover, at no time shall Respondent request the expungement, rescission or removal of this Consent Agreement.

By signing this Consent Agreement, Respondent agrees that any failure to comply with the terms of this Agreement is a basis for discipline by the Board.

Both Respondent and the Board stipulate that this Consent Order shall not become effective and shall not become binding on the Board unless and until approved by the Board at formal meeting. However, Respondent agrees that this Consent Order shall be effective and binding upon Respondent without recourse upon his signing said Order.

I, **JERRY LANCE MAY**, understand that this Consent Agreement is effective as a Board Order upon affirmative vote by the Board at formal hearing. It is also understood that, should the Board not approve this Consent Agreement, the agreement therein does not preclude the Louisiana Board of Pharmacy from requiring a formal hearing of my case.

It is further understood that, should this Consent Agreement not be accepted by the Board, the presentation to and consideration by the Board of this Agreement, including presented documentary evidence and information, shall not unfairly or illegally prejudice or preclude the Board or any of its members from further participation in hearings or resolution of these proceedings.

Respondent agrees that Respondent's execution of this Consent Agreement grants the Board the authority to collect any monies owed pursuant to this Consent Agreement and not paid to the Board notwithstanding the Board's acceptance of this Consent Agreement.

Respondent agrees to authorize the Board to report this action to the National Practitioner Data Bank – Healthcare Integrity and Protection Data Bank (NPDB-HIPDB) as required by law.

Provide explanation below:

On or about December 18th 2005, I was charged with a DUI. I had been sick with an upper respiratory infection and was due to go back to work at CVS that morning. I was taking controlled medications prescribed by my physician. A new cough medicine was added to my regular regimen, and I had an adverse reaction that left me feeling dizzy and uncoordinated.

I called out sick to work, but was told by my supervisor that I had to go because there was no one to cover me. Against my better judgment, I got in my car and drove to work. I know almost immediately upon entering the highway that I should not have been driving and I pulled over to the shoulder.

A few moments later, a police car pulled up behind me. I explained the situation, and he had me exit the vehicle and perform a field sobriety test, which I failed. He placed me under arrest and took me back to the station. They performed a breathalyzer which revealed no alcohol in my system. I was charged for a DUI for failing the field sobriety test and admittedly having a controlled medication (via prescription) in my system. I plead no contest and was reprimanded with Community Service and a fine.

This statement is to the best of my knowledge to be complete and accurate. The court records are sealed.

RE: In the Matter of Kim M Hiddessen

Dear Ms. Hiddessen:

Enclosed is a copy of Agreed Board Order (ABO) #M-19-011 that was entered by the Texas State Board of Pharmacy concerning the above-referenced matter. The Board entered this Order on May 7, 2019.

As a result of the entering of this ABO, the probation period imposed by ABO #L-13-028 is terminated, effective May 17, 2019. In addition, the following conditions and restrictions are applicable.

(1) **Applications to Renew Your Pharmacist License**

Prior to the next expiration date of your pharmacist license, you will complete a license renewal application for the Texas State Board of Pharmacy. This application will require you to answer the question:

> "Have you been the subject of any professional disciplinary action or are any such actions pending against you by a regulatory authority within the last 36 months?..."

As a result of the entry of ABOs #M-19-011 and #L-13-028, you must answer "yes" to this question for 36 months from the date of the termination of all sanctions. Consequently, you must answer "yes" to this question on any renewal applications submitted beginning May 7, 2019 and ending 36 months after the termination of all sanctions.

(2) **Applications to Serve as a Preceptor**

Please note that you may not serve as a preceptor, as explained below. Board Rule 283.6(c) states, in part:

> "No pharmacist may serve as a pharmacist preceptor if his or her license to practice pharmacy has been the subject of an order of the board imposing any penalty set out in the Act, §565.051, during the period he or she is serving as a pharmacist preceptor or within the three-year period immediately preceding application for approval as a pharmacist preceptor."

As a result of the entry of ABOs #M-19-011 and #L-13-028, you may not serve as a preceptor until three years after the termination of all sanctions. Board Rule 283.6(c) also allows you to petition the Board, in writing, for approval to act as a preceptor. However, until such petition is granted, you may not serve as a preceptor.

(3) **Public Information**

Under current Texas law, the agency is required to disclose that you have been the subject of a confidential ABO upon request. Although the agency generally does not release a copy of a confidential Order to a requestor, there are statutory exceptions which allow or require this agency to release a copy of a confidential Order. For example, a confidential Order may be disclosed in agency disciplinary hearings or subsequent trials or appeals, to the pharmacist licensing or disciplinary authorities of other jurisdictions, pursuant to court order, or as otherwise provided by law.

If you have any questions about this Order, please contact Angela Castillo, Enforcement Specialist, at 512-305-8019.

Sincerely,

Robert Rivera

RE: IN THE MATTER OF
KIM M. HIDDESSEN
(PHARMACIST LICENSE #56009)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacist license number 56009 issued to Kim M. Hiddessen (Petitioner).

By communication received by the Board on January 14, 2019, Petitioner requested an informal conference before a Board panel to consider modification of Agreed Board Order #L-13-028. By letter dated February 1, 2019, the Texas State Board of Pharmacy notified Petitioner of the procedures for modification.

PREVIOUS HISTORY

On or about November 4, 2014, the Texas State Board of Pharmacy entered Agreed Board Order #L-13-028 in the matter of the application for pharmacist licensure by Kim M. Hiddessen (previously licensed as Kim M. Zitkus). The Order was based on a 2012 disciplinary action by the New York State Board of Pharmacy regarding two dispensing errors by Ms. Hiddessen. The Order was also based on allegations that Ms. Hiddessen received treatment for polysubstance abuse, was diagnosed with benzodiazepine abuse and major depressive disorder, and had developed an incapacity that prevented her from safely practicing pharmacy. The Order granted Ms. Hiddessen's license and, effective upon issuance, suspended her license until she was found able to safely practice pharmacy by a mental health professional, followed by a five-year probation with conditions.

An informal conference was held in the Board's office on April 11, 2019, with Petitioner; Emily Abel, L.C.S.W., Senior Case Manager, Professional Recovery Network; and Tara Russell, L.M.S.W., Case Manager, Professional Recovery Network, in attendance. The informal conference was heard by a Board panel comprised of: Dennis F. Wiesner, R.Ph., Board Member; Julie Spier, R.Ph., Board Member; and Allison Vordenbaumen Benz, R.Ph., M.S., Executive Director/Secretary; with Kerstin Arnold, General Counsel. Also in attendance were: Eamon Briggs, Staff Attorney, and Angela Castillo, Enforcement Specialist.

At the aforementioned conference, Petitioner waived the right to be represented by legal counsel. By signing this Order, Petitioner neither admits nor denies the truth of the matters previously set out in this Order, and agrees that the Board has jurisdiction in this matter and waives the right to notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that effective ten (10) days after the entry of this Order, the requirements of Agreed Board Order #L-13-028 shall be terminated and of no further force and effect.

And it is so ORDERED.

Pursuant to Chapter 564 of the Texas Pharmacy Act, this Order is confidential and is not subject to disclosure under the Public Information Act or in a civil action. The Board may disclose that the license subject to this Order has been subject to disciplinary action or the manner in which the license is limited, but not the nature of the impairment or other information that resulted in the Board's action.

SIGNED AND ENTERED ON THIS 7th day of May, 2019.

AGREED BOARD ORDER #L-13-028

RE: IN THE MATTER OF
KIM M. ZITKUS
(APPLICANT FOR PHARMACIST
LICENSURE BY RECIPROCITY)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of the Application for Pharmacist Licensure by Reciprocity submitted by Kim M. Zitkus (Applicant).

By letter dated January 16, 2014, the Board gave preliminary notice to Applicant of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Applicant may have violated:

> Sections 565.001(a)(1), (2), (4), (12) and (16); and 565.001(b) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2011); and
>
> Section 281.7(a)(13) of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2012), as alleged in the Counts below.

The conduct described in the New York State Board of Pharmacy Consent Order is substantially similar to conduct described in:

> Section 565.001(a)(1), (2), (12) and (13) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2011);
>
> Sections 281.7(a)(12), (13) and (29)(A); 291.31(1), (14) and (15); 291.32(c)(1)(E) and (F); 291.32(c)(2)(D); and 295.3(b) of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2012); and
>
> Sections 431.003; 431.021(a) and (b); and 431.112(a)(1) of the Texas Food, Drug, and Cosmetic Act, TEX. HEALTH & SAFETY CODE ANN. (2011).

COUNTS

(1) On or about July 16, 2012, the New York State Board of Pharmacy entered a Consent Order against the New York pharmacist license number 049347 held by Kim Zitkus. The Order was based on allegations that on two occasions while working as a pharmacist at a CVS/pharmacy in Bayport, New York, Ms. Zitkus erroneously dispensed a prescription for Dilaudid 8mg tablets to patient J.Z. On the first occasion, the prescription vial inaccurately indicated that the vial contained Dilaudid 4mg tablets, and on the second occasion she dispensed 150 tablets when the prescription called for 90 tablets. The Order imposed a two-year probation and a $5,000 fine.

CONFIDENTIAL

(2) During the investigation of Kim Zitkus' reciprocity application, Texas State Board of Pharmacy Staff learned that Ms. Zitkus received treatment for polysubstance abuse from June 3, 2013, through August 26, 2013. Specifically, on or about June 3, 2013, through June 7, 2013, Ms. Zitkus received inpatient treatment for polysubstance abuse, depression and active suicidal thoughts at Methodist Richardson Medical Center after being transferred from Medical Center of McKinney Emergency Room. Upon admission, Ms. Zitkus tested positive for benzodiazepines, and admitted to self-medicating with 30 clonazepam 2mg tablets and 30 carisoprodol 350 mg tablets for jaw pain, chronic back pain, and anxiety in the previous four days. Ms. Zitkus was diagnosed with benzodiazepine abuse and major depressive disorder. Ms. Zitkus was discharged from inpatient treatment with a recommendation that she complete a Chemical Dependence Intensive Outpatient Program (CDIOP), and she completed 26 sessions of CDIOP through Methodist Richardson Medical Center from June 10, 2013, through August 26, 2013. She was diagnosed upon discharge from the CDIOP with polysubstance dependence and given a recommendation to attend a formal sobriety support group.

This conduct constitutes probable cause that Ms. Zitkus has developed an incapacity of a nature that prevents a pharmacist or applicant from engaging in the practice of pharmacy with reasonable skill, competence, and safety to the public.

An informal conference was held in the office of the Texas State Board of Pharmacy on March 4, 2014, with Applicant and Emily Abel, L.M.S.W., Case Manager, Professional Recovery Network, in attendance. The informal conference was heard by a Board panel comprised of: Phyllis A. Stine, Board Member; Gay Dodson, R.Ph., Executive Director/Secretary; and Carol Fisher, R.Ph., M.P.A., Director of Enforcement; with Kerstin Arnold, General Counsel. Stacy Martyak, Staff Attorney, was also in attendance.

At the aforementioned conference, Applicant waived the right to be represented by legal counsel. By signing this Order, Applicant neither admits nor denies the truth of the matters previously set out in this Order, and agrees that the Board has jurisdiction in this matter and waives the right to notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Applicant shall be granted a Texas Pharmacist License after successfully completing the requirements of licensure as set forth in the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2013) and the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2014).

(2) Effective upon issuance of the license, Applicant's license shall be suspended until such time as written documentation is provided by a Board-approved mental health professional (hereinafter referred to as "MHP") which states that Applicant does not have an incapacity that prevents Applicant from practicing pharmacy with reasonable skill, competence and safety to the public, and is able to practice pharmacy without posing a danger to Applicant or the public. This documentation shall include an evaluation of Applicant's current status and Applicant's capacity to engage in the practice of pharmacy and, if necessary, a recommended schedule of future treatment and/or after-care. During the period of suspension, Applicant shall:

(a) surrender said license and any renewal certificate and personal identification card pertaining to said license;

(b) not practice pharmacy in this state or be employed in any manner requiring a license with the Board or allowing access to prescription drugs in a pharmacy; and

(c) comply with the requirements of Paragraph (4)(a) through (q) listed below.

(3) If within one (1) year after the entry of this Order, Applicant fails to provide written documentation from a Board-approved MHP, as required by Paragraph (2), said license issued to Applicant shall be revoked and of no further force and effect, effective one (1) year after the entry of this Order. In the event that said license issued to Applicant is revoked, Applicant shall not practice pharmacy in this state or be employed in any manner requiring a license with the Board or allowing access to prescription drugs in a pharmacy.

(4) Upon the completion of the initial suspension outlined in Paragraph (2) above, Applicant's license shall be suspended for an additional period of five (5) years. Such suspension shall be probated under the conditions that Applicant abide by the requirements of this Order, all Federal laws and laws of the State of Texas and any other state with respect to pharmacy, controlled substances, and dangerous drugs, and all rules and regulations adopted pursuant to the above-mentioned statutes, in that Applicant shall:

(a) participate in the Professional Recovery Network of the Texas Pharmacy Association (hereinafter referred to as "PRN Program"). Participation in the PRN

Program shall include entering into a contract with the PRN Program and abiding by all terms of the PRN Program contract. Failure to comply with all provisions and recommendations of the PRN Program shall constitute a violation of this Order;

(b) comply with the treatment and/or aftercare recommended by his/her Board-approved MHP, and continue under the care of the MHP if the MHP determines further treatment and/or after-care is needed. Applicant shall authorize and request the MHP and/or representative of the after-care program to furnish written quarterly reports or as requested to Board Staff and the PRN Program concerning the status of Applicant's recovery and compliance with treatment. Within thirty (30) days after any written request of Board staff or the PRN Program, Applicant shall obtain a current written evaluation by a Board-approved MHP. Failure to comply with such a request, failure to cause the MHP to furnish written quarterly reports, or failure to comply with all current or future recommendations of the MHP or after-care program, shall constitute a violation of this Order;

(c) authorize the persons listed below, as applicable, to discuss and/or disclose the terms of this Order, the nature of the complaint(s) resulting in the entry of the Order, the status and conduct of Applicant, and any other relevant matter, with each other:

(i) staff of the Board;

(ii) intervenors and staff of the PRN Program;

(iii) MHP and/or any physician or other health-care practitioner who is evaluating or treating (or who has evaluated or treated) Applicant;

(iv) representative(s) of any after-care program evaluating or treating (or that has evaluated or treated) Applicant;

(v) supervising pharmacist and any employer or potential employer of Applicant; and

(vi) any other person who Applicant, by oral or written notification to Board staff, has authorized to receive this information;

(d) inform any and all physicians or other health-care practitioners who treat Applicant for any reason or condition that Applicant has a history of substance-abuse, and that Applicant is the subject of this Order. Unless a medical emergency exists, Applicant shall also provide a copy of this Order to any treating physician for review prior to the physician's authorization of prescription medication for Applicant;

(e) cause any treating physician or other health-care practitioner to provide Board staff, upon request, with information and patient records, including information about any and all prescriptions authorized for Applicant. By signing this Order, Applicant does hereby authorize any and all physicians or other health-care practitioners treating Applicant for any reason or condition to provide Board staff with information, including patient records, regarding prescriptions authorized for Applicant;

(f) abstain from the consumption, absorption, or use of alcohol, any products containing alcohol (including over-the-counter products and prescription drugs), dangerous drugs, and/or controlled substances in any form unless prescribed, within one (1) year if a dangerous drug, or within six (6) months if a controlled substance, by a practitioner for a legitimate and documented therapeutic purpose and unless used for the same therapeutic purpose as originally prescribed;

(g) register with a drug screening company as specified by Board staff to participate in a drug and alcohol analysis program. If Applicant fails to register with a drug screening company as specified by Board staff within ninety (90) days after the entry of this Order, said license issued to Applicant shall be surrendered, effective ninety (90) days after the entry of this Order, until such registration has been completed. In the event that said license issued to Applicant is surrendered, Applicant shall not practice pharmacy in this state or be employed in any manner requiring a license with the Board or allowing access to prescription drugs in a pharmacy;

(h) submit fingerprint information as specified by Board staff for the purpose of obtaining past, current, or future criminal history based on fingerprint results. If Applicant fails to submit fingerprint information as specified by Board staff within ninety (90) days after the entry of this Order, said license issued to Applicant shall be surrendered, effective ninety (90) days after the entry of this Order, until such information as been submitted. In the event that said license issued to Applicant is surrendered, Applicant shall not practice pharmacy in this state or be employed in any manner requiring a license with the Board or allowing access to prescription drugs in a pharmacy;

(i) submit, within twenty-four (24) hours, to the performance of unscheduled urinalysis or other types of drug or alcohol analysis as specified by Board staff or others authorized by Board staff, such as a MHP, PRN Program representative, or supervising pharmacist;

(j) maintain a copy of chain-of-custody document(s) from the collection site for any urinalysis or other type of drug or alcohol analysis, as required by subparagraph (i), for which Applicant has submitted a sample. Applicant shall provide a copy of said chain-of-custody document(s) to Board staff upon request;

(k) maintain and provide a copy of any and all current prescriptions taken by or in possession of Applicant to Board staff. Within ten (10) days of any and all new prescriptions prescribed by a treating physician or other health-care practitioner who has reviewed this Order, Applicant shall provide a copy of any and all new prescriptions to Board staff;

(l) provide a written statement from a treating physician or other health-care practitioner, who has reviewed this Order, for all current sample medication taken by or in possession of Applicant to Board staff. The statement shall include the patient's name, drug name, quantity provided, date provided, directions for use, and prescriber's name. Within ten (10) days of any and all new sample medication provided by a treating physician (or other health-care practitioner), who has reviewed this Order, Applicant shall provide a copy of such a statement to Board staff;

(m) be in violation of this Order, and shall surrender said license until such time as a panel of the Board reviews the alleged violation and if the panel determines that there is sufficient evidence of a violation, the matter is resolved by further disciplinary action, e.g., the entry of an agreed board order or board order, in the event that:

(i) the results of any alcohol or drug analysis indicate the presence of alcohol or drugs unless the dangerous drug was prescribed within one (1) year or the controlled substance was prescribed within six (6) months from the date of the analysis for a legitimate and documented therapeutic purpose by a practitioner who reviewed the terms of this Order before authorizing the prescription; and/or

(ii) any health-care practitioner submits written documentation that Applicant has developed an incapacity of a nature that may prevent Applicant from engaging in the practice of pharmacy with reasonable skill, competence and safety to the public;

(n) participate in the activities and programs of Alcoholics Anonymous, or any other substantially similar program that has been approved by Board staff, on a regular basis as directed by Board staff. Applicant shall maintain documentation as to the number and location of meetings attended and make such documentation available to Board staff upon request;

(o) submit to Board staff personal quarterly reports containing information as specified by Board staff, such as rehabilitation activities and, if applicable, employment status;

(p) not hold any of the individuals providing reports to Board staff or the PRN Program liable in any manner for the contents of such reports;

(q) provide written information to Board staff with the name and telephone number of an individual or individuals to contact in case of a medical emergency, and authorize the Board staff to disclose to such individual(s) any relevant information regarding this Order or the medical emergency; and

(r) comply with the following while practicing pharmacy in Texas or while employed in any manner that would allow access to prescription drugs in Texas, in that Applicant shall:

(i) practice pharmacy only under the supervision of a Texas licensed pharmacist, approved by Board staff, who meets the qualifications required of a preceptor defined by the Texas Pharmacy Board Rules, with the level of such supervision, conditions of supervision, maximum number of hours that can be worked per week, and other conditions of pharmacy practice to be determined by Board staff, taking into account any recommendations made by the MHP evaluating and/or treating Applicant. Failure to practice under the designated level of supervision and conditions of supervision and practice shall constitute a violation of this Order. Board staff may increase or decrease supervision levels by notifying Applicant in writing, after considering information such as MHP recommendations, physician recommendations, supervising pharmacist recommendations, or PRN Program recommendations;

(ii) notify Board staff of Applicant's initial place of employment in Texas and the name of Applicant's supervising pharmacist and of any subsequent change of employment or supervising pharmacist and the reasons for such change. Such notifications shall be submitted in writing to Board staff within thirty (30) days after Applicant's probationary period begins, and within ten (10) days of any subsequent employment or change of supervising pharmacist;

(iii) authorize and request the supervising pharmacist to provide written quarterly reports concerning the status and conduct of Applicant to Board staff;

(iv) provide a written agreement signed by the supervising pharmacist, which states that he/she has reviewed and understands the terms of this Order and that he/she agrees to be the supervising pharmacist for Applicant and that he/she agrees to provide written quarterly reports to Board staff and the PRN Program. Such agreement shall be submitted in writing to Board staff within thirty (30) days after Applicant's probationary period begins, and within ten (10) days of any subsequent employment or change of supervising pharmacist;

(v) inform any and all employers that Applicant is the subject of this Order; and

(vi) not work more than fifty (50) hours per week as a pharmacist or in employment that provides access to prescription drugs, and not serve as pharmacist-in-charge of any pharmacy. Upon written request, modification of these restrictions may be determined by Board staff based on recommendations from Applicant's MHP, physicians, supervising pharmacist(s), and/or the PRN Program.

(5) The time period of the five-year probation under this Order shall be extended for any period of time in which Applicant is not practicing pharmacy or employed in any manner in which Applicant has access to prescription drugs working at least twenty (20) hours per week in Texas. If Applicant ceases to be employed as such, Applicant shall notify Board staff in writing within ten (10) days of the last date that Applicant ceased to be employed. The requirements of the probation under Paragraph (4)(a) through (q) are applicable during any period that this Order is tolled.

(6) Applicant shall pay a probation fee of one thousand two hundred dollars ($1,200). This probation fee is due ninety (90) days after Applicant's probationary period begins.

(7) If Applicant fails to pay the probation fee within ninety (90) days after Applicant's probationary period begins, said license issued to Applicant shall be suspended, effective ninety (90) days after Applicant's probationary period begins, until such payment is received by Board staff. In the event that said license issued to Applicant is suspended, Applicant shall:

(a) not practice pharmacy in this state or have access to prescription drugs during the period said license is suspended; and

(b) surrender to the Board the license and any renewal certificate and personal identification card pertaining to said license as specified by Board staff.

(8) If within six (6) months after Applicant's probationary period begins, Applicant fails to pay the probation fee, said license issued to Applicant shall be revoked, effective six (6) months after Applicant's probationary period begins. In the event that said license number is revoked, Applicant shall not practice pharmacy in this state or have access to prescription drugs during the period said license is revoked.

(9) Applicant shall be responsible for all costs relating to compliance with the requirements of this Order.

(10) Applicant shall allow Board staff to directly contact Applicant on any matter regarding the enforcement of this Order.

(11) Applicant shall not be convicted of or receive deferred adjudication for an alcohol-related or drug-related offense.

(12) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2013), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2014).

And it is so ORDERED.

Pursuant to Chapter 564 of the Texas Pharmacy Act, this Order is confidential and is not subject to disclosure under the Public Information Act or in a civil action. The Board may disclose that the license subject to this Order has been subject to disciplinary action or the manner in which the license is limited, but not the nature of the impairment or other information that resulted in the Board's action.

SIGNED AND ENTERED ON THIS 4th day of November, 2014.

Sterile Compounding Questionnaire

Rev (09/11/2024)

This application cannot be returned by fax or email.
We must have an original signature to process.

Approval of this completed questionnaire is required for an existing pharmacy, new pharmacy and/or out-sourcing facility applicant who wish to engage in preparing, compounding, dispensing, and furnishing sterile compounded products to Nevada patients or consumers.

Please provide a thorough response to the questions below and provide any necessary supporting documents.
-For a new pharmacy or out-sourcing facility applicant, submit this completed form with your application.
-For an existing pharmacy, send the completed form to the address indicated above.

Section 2: Sterile Compounding Questions (Use a separate piece of paper if additional space is needed.)

1. What risk level sterile compounding will your facility be performing (check all that apply)?

☐ Category 1 ■ Category 2 ■ Category 3

If you marked "**Category 3**", you must also complete **section 4.**

2. If compounding Category 2 products is the location performing sterility and endotoxin testing (if required) to obtain extended beyond-use dates? ■ Yes ☐ No

3. If compounding Category 2 products is the location performing aseptically processed CSPs or terminally sterilized CSPs? ■ Aseptic ☐ Terminal

4. Is the pharmacy following the new garbing requirements listed in the revised USP-797 guidelines? ■ Yes ☐ No

5. When was the most recent certification for the ISO classified areas? 03/20/2025

6. What is the frequency of the recertification for the ISO classified areas? 6 months

7. Were there any follow-up items required from the most recent certification report? ☐ Yes ■ No

8. If preparing Category 2 or Category 3 CSPs from non-sterile starting components are the pre-sterilization procedures such as weighing and mixing completed in an ISO Class 8 or better environment? ■ Yes ☐ No

9. If compounding Category 1 CSPs and Category 2 CSPs how often is surface sampling of all classified areas and pass-through chambers conducted? Weekly

10. Will you be performing sterile hazardous drug compounding? ■ Yes ☐ No

If you marked "**Yes**", you must also complete **section 3.**

11. List the sterile compounded products that you will be compounding for Nevada patients or consumers:

Testosterone Cypionate, Testosterone Enanthate, Testosterone Propionate, Nandrolone, Anastrozole, DHEA, Methionine, Inositol, Chromium Picolinate, Methylcobalamin, Gonadorelin, Sermorelin, NAD+, Semaglutide and Tirzepatide.

12. What laboratory performs your sterility or endotoxin testing?

Name: ARL Bio Pharma

Address: 840 Research Parkway, STE 546

City: Oklahoma City State: OK Zip: 73104

Telephone: 800-393-1595

13. What is your procedure for visual inspection of compounded sterile products?

Finished sterile products are inspected by a Quality Control technician and a Sterile Compounding Pharmacist in a light box with both white and black backgrounds to detect particles present in the solution and to inspect for any flaws in the vial or closure. Each batch undergoes 100% visual inspection by a Quality Control Technician and is then submitted for AQL inspection (0.65% AQL per USP <790>) by a Sterile Compounding Pharmacist before being released from quarantine.

14. How often do you perform glove fingertip and medial fill testing?

Glove fingertip testing is performed at the completion of every sterile compounded batch. Gowning validation and media fill testing is performed quarterly for sterile compounding staff.

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:

Personnel must attend a professional sterile compounding training course before being allowed to begin on-the-job training. Personnel must then complete a computer-based in-house didactic sterile compounding training course. Gowning validation must be performed three times consecutively with no failures before personnel can enter the clean room during compounding. Personnel are trained in cleaning and decontamination of the clean room suite and the process of disinfection of materials to be brought into the clean room suite prior to being allowed to commence a media fill test. A media fill test conducted under the most challenging conditions must be completed prior to being involved in the compounding process - whether as compounder or as support. These are repeated quarterly. Any personnel responsible for mixing sterile compounds must pass a finished product assay test to establish their ability to mix products to the required specifications.

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

Interior surfaces of ISO 5 primary engineering controls and exterior surfaces in ISO 7 Buffer Area are cleaned with sporicidal disinfectant (Spor-Klenz) at the beginning of each day upon which sterile compounding occurs. The ISO 5 work surfaces are cleaned after each product compounded with a deactivation/decontamination agent (Peridox RTU). The counters and floors of the ISO 7 secondary engineering controls (Buffer Area) are cleaned at the conclusion of compounding with sporicidal disinfectant (Spor-Klenz). The floors of each ISO-classified area are disinfected at the end of each day upon which they have been entered. Additionally, the walls and ceilings of all ISO-classified areas are disinfected on a monthly basis. A breach clean is performed following 1) entry to lab by non-certified personnel such as outside contractors, maintenance personnel or semi-annual certification personnel, 2) the completion of any repair or maintenance work which has the capacity to disrupt pressure differentials or generate viable or non-viable particles, 3) After a power outage interrupting the operation of the HEPA filters.

17. Who performs the sterile compounding process at your facility?

Kim Hiddessen, PharmD, Lien Le, PharmD, Kristen Salinas, CPhT, Evie Jerdee, CPhT, and Maribel Munguia, CPhT.

18. Who is responsible and accountable for the sterile compounding process at your facility?

Kim Hiddessen, PharmD

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

Packaged in insulated mailing pouches with frozen cold packs. Volume of cold packs is increased during warmer months. Shipping speed (same-day courier, Next-Day Air or Second Day Air) is determined as required by outdoor weather conditions, storage requirements of the medication being shipped and the travel distance for the medication to arrive at th

Section 3: Sterile Hazardous Compounding Questions (Complete this section ONLY if you be performing Sterile Hazardous Compounding.)		
1. What type of primary engineering controls will you be using in your facility? ISO-5 Integrated Vertical Laminar Flow Zone		
2. Are you complying with all USP 800 guidelines?	Yes	■ No
3. Have your employees who compound with hazardous drugs signed an acknowledgement that they understand the risks associated with this process?	■ Yes	No
4. Is your BSC or CACI vented 100% to the outside?	Yes	■ No
5. Do you have a negative pressure buffer room at your facility?	Yes	■ No
6. Will you be compounding with antineoplastic HDs or HD API?	Yes	■ No
7. If yes, are the drugs stored in an externally ventilated, negative pressure room?	Yes	■ No
8. Will you be utilizing a closed system transfer device?	Yes	■ No
9. If yes, list the name of the device:		

10. What information is provided to the patient or consumer on the proper handling and disposal of hazardous drugs products/containers?

Guidance is provided with each prescription dispensed covering the following topics:
1. Proper storage of medications
2. Preventing contamination of sterile medications
3. Proper disposal of expired and unused medications
4. Proper disposal of unused, expired or discontinued injectable medications
5. Descriptions of physical appearances of products which indicate a potential problem with the medication - e.g. broken capsules, cloudy solutions, broken emulsions.
6. Explanation of drop-off sites and National Take Back Day for drug disposal.
7. Contact information for staff pharmacist for patients and providers to obtain additional information.

11. Describe your initial process for training new employees prior to compounding sterile hazardous drugs?

Gowning validation must be performed three times consecutively with no failures before personnel can enter the clean room during compounding.
Personnel are trained in cleaning and decontamination of the clean room suite and the process of disinfection of materials to be brought into the clean room suite prior to being allowed to commence a media fill test.
A media fill test conducted under the most challenging conditions must be completed prior to being involved in the compounding process - whether as compounder or as support. These are repeated quarterly. Any personnel responsible for mixing sterile compounds must pass a finished product assay test to establish their ability to mix products to the required specifications.
Specific to hazardous drugs, personnel are trained in the proper safe handling and containment of chemicals and materials. Specific gowning items (gloves, sleeves and masks) are utilized. Personnel are made aware of the risks involved with compounding and handling hazardous drugs and the importance of proper PPE to minimize the potential for exposure.

Section 4: Sterile Category 3 Compounding Questions (Complete this section ONLY if you will be performing Category 3 Compounding.)

1. List the specific Category 3 sterile products that your facility compounds:

Testosterone Cypionate, Testosterone Enanthate, Testosterone Propionate, Nandrolone, Anastrozole, DHEA, Methionine, Inositol, Chromium Picolinate, Methylcobalamin, Gonadorelin, Sermorelin, NAD+, Semaglutide and Tirzepatide.

2. What is the frequency for ongoing garbing, gloved fingertip and thumb sampling, and media fill testing for compounding personnel?

Glove fingertip testing is performed at the completion of every sterile compounded batch. Gowning validation and media fill testing is performed quarterly for sterile compounding staff.

3. Is the pharmacy meeting all of the additional garbing requirements for compounding Category 3 CSPs as defined by the revised USP-797 guidelines? ■ Yes No

4. What is the frequency for completing volumetric active air sampling?

Monthly

5. What is the frequency for completing surface sampling? Weekly		
6. What is the frequency for using sporicidal agents? Daily		
7. Is an endotoxin test performed for all products compounded from one or more nonsterile component?	■ Yes	No
8. Is the BUD assigned supported by stability data obtained using a stability-indicating analytical method?	■ Yes	No

I certify under penalty of perjury that the information contained in this form is accurate, true and complete in all material respects. I understand that making any false representation in this form is a crime under NRS 639.281. I understand that, pursuant to NRS 239.010, this entire form and any portion thereof is a public record unless otherwise declared confidential by law, and will be considered by the Nevada State Board of Pharmacy at a public meeting pursuant to NRS 241.020. 291.34(c).

Patient medication records.

(1) A patient medication record system shall be maintained by the pharmacy for patients to whom prescription drug orders are dispensed.

(2) The patient medication record system shall provide for the immediate retrieval of information for the previous 12 months that is necessary for the dispensing pharmacist to conduct a prospective drug regimen review at the time a prescription drug order is presented for dispensing.

(3) The pharmacist-in-charge shall assure that a reasonable effort is made to obtain and record in the patient medication record at least the following information:

(A) full name of the patient for whom the drug is prescribed;

(B) address and telephone number of the patient;

(C) patient's age or date of birth;

(D) patient's gender;

82. Patient Medication Records *(continued)* — *Satisfactory*

(E) any known allergies, drug reactions, idiosyncrasies, and chronic conditions or disease states of the patient and the identity of any other drugs currently being used by the patient which may relate to prospective drug regimen review;

(F) pharmacist's comments relevant to the individual's drug therapy, including any other information unique to the specific patient or drug; and

(G) a list of all prescription drug orders dispensed (new and refill) to the patient by the pharmacy during the last two years. Such lists shall contain the following information:

(i) date dispensed;

(ii) name, strength, and quantity of the drug dispensed;

(iii) prescribing practitioner's name;

(iv) unique identification number of the prescription; and

(v) name or initials of the dispensing pharmacists.

(4) A patient medication record shall be maintained in the pharmacy for two years. If patient medication records are maintained in a data processing system, all of the information specified in this subsection shall be maintained in a retrievable form for two years and information for the previous 12 months shall be maintained online. A patient medication record must contain documentation of any modification, change, or manipulation to a patient profile.

(5) Nothing in this subsection shall be construed as requiring a pharmacist to obtain, record, and maintain patient information other than prescription drug order information when a patient or patient's agent refuses to provide the necessary information for such patient medication records.

Affidavit for Pharmacy License

I, Lisa Hartig-Mawhorr hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Pharmacist-in-Charge (title) for Adegen Pharmacy (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

(a) The non-proprietary or proprietary name of the drug;

(b) Dosage form and route of administration;

(c) The strength and volume, where applicable, of the drug;

(d) The control number and expiration date;

(e) National drug code, universal product code, or formulary code, if applicable, which may be embedded in a barcode or quick response (QR) code on the label;

(f) Identification of the manufacturer, packer or distributor, or, if the repackager is the dispensing pharmacy, identification of the repackager shall be by name or by the final seven digits of their terminal distributor of dangerous drugs license number, and such identification shall be clearly distinguishable from the rest of the label; and

(g) Special storage conditions, if required.

(2) At least the name of the patient must be placed on all medication containers too small to bear a complete label and dispensed in a container bearing a complete label.

(B) All drugs dispensed to inpatients for self-administration or dispensed for outpatient use shall be labeled in accordance with rule 4729:5-5-06 of the Administrative Code.

(C) Prior to dispensing, admixtures of parenteral solutions shall bear a distinctive label indicating:

(1) The patient's full name;

(2) The name and amount of the parenteral solution;

(3) The name and amount of the drug(s) added;

(4) The expiration date or beyond-use date;

(5) The name and address of the institutional pharmacy;

(6) Cautionary statements, if required.

(D) Supplemental labels created by a pharmacy that contain a barcode or QR code for the purpose of identifying a drug shall contain a means of identifying the positive identification of the pharmacist responsible for:

(1) Association of the barcode to the drug product;

(2) Association of the label to the drug product.

14) Do compounded drugs labeled for outpatients include the additional labeling requirements of the rule?

Yes: Contains the statement "compounded drug" or similar statement

Yes: Contains the name and address of the pharmacy as it appears on the TDDD license

Yes: Contains the full name of the patient, or if an animal, the last name of the owner, the animal name and species.

Yes: Contains the directions for use of the drug

Yes: Contains the date of dispensing

Yes: Contains any cautions required by federal law

Yes: Contains the serial number of the prescription

Yes: Contain the proprietary name, if any, or the generic name and the name of the distributor or national drug code of the drug dispensed, and the strength, if more than one strength of the drug is marketed. The dispensing pharmacist may omit the name and strength of the drug only if the prescriber specifically requests omission and such request is documented

Yes: Contain the quantity of the drug dispensed

Observation
Discussed: Liberty dispensing software maintains these required elements on the label

15) Does the pharmacy receive schedule II controlled substance narcotic prescriptions by facsimile?

No

16) Does the pharmacy maintain a system for the safe disposal of drug waste?

Yes

Observation
Discussed McKesson and Stericycle will be providing system for safe disposal of drug waste

18) Does the pharmacy report to the board within 72-hours upon discovery any product quality issue attributed to a compounded drug preparation dispensed by the pharmacy?

Yes: The pharmacy reports incidents that cause the compounded drug or its labeling to be mistaken for or applied to another article

Yes: The pharmacy reports any contamination of compounded drugs including, but not limited to mold, fungal, bacterial, or particulate contamination.

Yes: The pharmacy reports any significant chemical, physical, or other change or deterioration of dispensed compounded drugs within the assigned beyond-use date.

Observation
FYI:
OAC 4729:7-2-03 | Drugs compounded in a pharmacy. Effective 03/07/2024

(P) A pharmacy shall report to the state board of pharmacy within seventy-two hours upon discovery, and in a manner determined by the board, any product quality issue attributed to a compounded drug preparation dispensed by the pharmacy.

(1) As used in this paragraph, a product quality issue means any of the following:

(a) Any incident that causes the compounded drug preparation or its labeling to be mistaken for, or applied to, another article;

(b) Contamination of the compounded drug preparation, including but not limited to mold, fungal, bacterial, or particulate contamination; or

(c) Any significant chemical, physical, or other change or deterioration of the dispensed compounded drug preparation within the compounded drug preparation's assigned beyond-use date.

(2) A product quality issue does not include an isolated allergic reaction to a substance included in a compounded drug preparation.

19) Does the pharmacy report to the board within 72-hours of receipt any warning letters, injunctions, or decrees issued in relation to the pharmacy by the FDA?

Yes: Warning letters, injunctions, or decrees issued to the pharmacy by the FDA were reported to the board within 72-hours.

Observation
FYI:

OAC 4729:7-2-02 |Drugs Compounded in a Pharmacy |Effective 7/1/2021

(Q) A pharmacy shall report to the state board of pharmacy within seventy-two hours of issuance or receipt, and in a manner determined by the board, any warning letters, injunctions, or decrees issued in relation to the pharmacy by the United States food and drug administration.

2.4) Record keeping (OAC 4729:7-2-04)

1) Do records of drugs compounded in a pharmacy include all of the required elements?

Yes: Includes the patient name

Yes: Includes the drug name, strength or activity, and dosage form

Yes: Includes the assigned internal identification number (e.g., prescription, order, lot number)

Yes: Includes the date and time of preparation

Yes: Includes the name of each ingredient

Yes: Includes the vendor, lot number, and expiration date for each ingredient for compounded drug preparations prepared for more than one patient and for any sterile compounded product prepared from nonsterile ingredients

Yes: Includes the weight or volume of each ingredient

Yes: Includes the total quantity compounded

Yes: Includes the disposition of unused controlled substances drug(s), and amount

Yes: Includes the assigned beyond-use date

Yes: Inlcudes the positive identification of the pharmacy personnel responsible for preparing the compounded drug preparation

Yes: Includes the positive identification of the pharmacist conducting the final check of the compounded preparation

Yes: Includes the positive identification of the pharmacist who dispensed the compounded drug preparation

Yes: Includes records that are compliant to USP 795, 797 and 800 requirements

Observation
FYI:

OAC 4729:7-2-04 | Record Keeping | Effective 07/01/2021
(A) In addition to the pharmacy record keeping requirements of agency 4729 of the Administrative Code, a pharmacy shall maintain records of all drugs compounded that include, at a minimum, all the following:

(1) The name of the patient;
(2) Name of drug, strength or activity, and dosage form;
(3) Assigned internal identification number (e.g., prescription, order, lot number);
(4) Date and time of preparation;
(5) Name of each ingredient;
(6) Vendor, lot number, and expiration date for each ingredient for compounded drug preparations prepared for more than one patient and for any sterile compounded product prepared from nonsterile ingredient(s);
(7) Weight or volume of each ingredient;
(8) Total quantity compounded;
(9) The disposition of unused controlled substances drug(s) and amount;
(10) Assigned beyond-use date;
(11) The positive identification of the following:
(a) The pharmacy personnel responsible for preparing the compounded drug preparation;
(b) The pharmacist conducting the final check of the compounded drug preparation; and
(c) The pharmacist who dispenses the compounded drug preparation.
(12) All other drug compounding records as required by USP 795, USP 797, and USP 800.

2) Compounding records are readily retrievable and uniformly maintained for at least 3 years.

Yes, records are readily retrievable

Yes; records are uniformly maintained

Yes; records are maintained for at least 3 years

3) Are all records maintained for at least 3 years?

Yes: Records are kept on-site for 3 years

4) Does the pharmacy have documentation for off-site record storage approval?

Not Applicable: All records maintained on site

5) Are off-site record storage locations secure and accessible only to authorized personnel or contractors of the pharmacy?

Not Applicable: No off-site record storage

2.6.1) Introduction and Scope

1) Informational: USP Definition of Compounding and Scope

Observation
FYI:

USP 795 | Effective 11/1/2023
This chapter describes the minimum standards to be followed for the preparation of compounded nonsterile preparations (CNSPs) for humans and animals. For purposes of this chapter, nonsterile compounding is defined as combining, admixing, diluting, pooling, reconstituting other than as provided in the manufacturer's labeling, or otherwise altering a drug product or bulk drug substance to create a nonsterile preparation.
The requirements in this chapter must be followed to minimize harm, including death, to human and animal patients that could result from 1) excessive microbial contamination, 2) variability from the intended strength of correct ingredients (e.g., ±10% of the labeled strength), 3) physical and chemical incompatibilities, 4) chemical and physical contaminants, and/or 5) use of ingredients of inappropriate quality.
Handling of nonsterile hazardous drugs (HDs) must additionally comply with Hazardous Drugs—Handling in Healthcare Settings □800□.

2) USP 795 GLOSSARY

Observation
FYI:
USP 795 | Effective 11/01/2023
GLOSSARY
Active pharmaceutical ingredient (API): Any substance or mixture of substances intended to be used in the compounding of a preparation, thereby becoming the active ingredient in that preparation and furnishing pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, or prevention of disease in humans or animals or affecting the structure and function of the body. Also referred to as Bulk drug substance. A conventionally manufactured drug product is not an API but is typically manufactured from an API(s).
Added substance: An ingredient that is necessary to compound a preparation but is not intended or expected to cause a pharmacologic response if administered alone in the amount or concentration contained in a single dose of the compounded preparation. The term is used synonymously with inactive ingredient, excipient, and pharmaceutical ingredient.
Administration: The preparation of a nonsterile pharmacologic or other therapeutic agent for ingesting, inserting, applying, or otherwise providing a nonsterile medication in its final form to a single patient. This includes crushing a tablet(s) or opening a capsule(s) to mix with food or liquids to facilitate patient dosing.
Alcohol-based hand rub: An alcohol-containing preparation (liquid, gel, or foam) designed for application to the hands of healthcare personnel to inactivate microorganisms and/or temporarily suppress their growth. Such preparations may contain one or more types of alcohol, other active ingredients, excipients, and humectants.
Assigned trainer: One or more individuals assigned by the designated person(s) to be responsible and accountable for directly providing the training, observation, and/or evaluation of personnel for the preparation of CNSPs.
Beyond-use date (BUD): The date, or hour and date, after which a CNSP must not be used, stored, or transported. The date is determined from the date or time the preparation is compounded.
Biological safety cabinet (BSC): A ventilated cabinet that may be used for compounding. These cabinets are divided into three general classes (Class I, Class II, and Class III). Class II BSCs are further divided into types (Type A1, Type A2, Type B1, Type B2, and Type C1).
Bulk drug substance: See the entry for Active pharmaceutical ingredient.
Certificate of analysis (COA): A report from the supplier of a component, container, or closure that accompanies the supplier's material and contains the specifications and results of all analyses and a description of the material.
Cleaning: The process of removing substances (e.g., organic and inorganic material) from objects and surfaces, normally accomplished by manually or mechanically using water with detergents or enzymatic products.
Cleaning agent: An agent, usually containing a surfactant, used for the removal of substances (e.g., dirt, debris, microbes, and residual drugs or chemicals) from surfaces.
Closed-system processing device: A device designed to reduce the potential exposure to personnel or contamination of the facility or CNSPs. Examples include CVEs, BSCs, or single-use containment glove bags.
Component: Any ingredient used in the compounding of a preparation, including any API, added substance, or conventionally manufactured product.
Compounded nonsterile preparation (CNSP): A preparation not intended to be sterile that is created by combining, admixing, diluting, pooling, reconstituting other than as provided in the manufacturer's labeling, or otherwise altering a drug product or bulk drug substance.
Compounding: The process of combining, admixing, diluting, pooling, reconstituting other than as provided in the manufacturer's labeling, or otherwise altering a drug product or bulk drug substance to create a nonsterile preparation.
Compounding area: An area that is specifically designated for nonsterile compounding.
Compounding personnel: Personnel trained to compound or oversee compounding of preparations.
Compounding record (CR): Documents the compounding of each CNSP.
Container closure system: Packaging system components that together contain and protect the dosage form. This includes primary packaging system components and secondary packaging system components if the latter are intended to provide additional protection.
Containment glove bag: A single-use disposable glove bag that is capable of containing airborne chemical particles.
Containment ventilated enclosure (CVE): A full or partial enclosure that uses ventilation principles to capture, contain, and

remove airborne contaminants through high-efficiency particulate air (HEPA) filtration and to prevent their release into the work environment.
Conventionally manufactured product: A pharmaceutical dosage form, usually the subject of an application approved by the applicable national regulatory agency, that is manufactured under current good manufacturing practice conditions.
Designated person(s): One or more individuals assigned to be responsible and accountable for the performance and operation of the facility and personnel as related to the preparation of CNSPs.
FDA: US Food and Drug Administration.
Formulation: The specific qualitative and quantitative composition of the final CNSP.
Hazardous drug (HD): Any drug identified by at least one of the following criteria: carcinogenicity, teratogenicity or developmental toxicity; reproductive toxicity in humans; organ toxicity at low dose in humans or animals; genotoxicity or new drugs that mimic existing HDs in structure or toxicity. See □800□.
Label: The part of the labeling on the immediate container.
Labeling: All labels and other written, printed, or graphic matter on the immediate container or on or inside any packaging system or wrapper in which the article is enclosed, except for any outer shipping container.
Master formulation record (MFR): A detailed record of procedures that describes how the CNSP is to be prepared.
Monograph: A quality documentary standard within USP–NF that articulates the quality expectations for a medicine including for its identity, strength, purity, and performance. It also describes the tests to validate that a medicine and its ingredients meet these criteria.
Oversight: The review, monitoring, and supervision of actions taken by personnel; bearing responsibility for those actions; and being available if and when needed for consultation even if not physically present.
Preservative: A substance added to inhibit microbial growth.
Purified water: The minimal quality of source water for the production of Purified Water is drinking water whose attributes are prescribed by the US Environmental Protection Agency (EPA), the European Union, Japan, or the World Health Organization (WHO). This source water may be purified using unit operations that include deionization, distillation, ion exchange, reverse osmosis, filtration, or other suitable purification procedures. (See □1231□, 3.1.1 Purified Water.)
Quality assurance (QA): A system of procedures, activities, and oversight that ensures that the compounding process consistently meets quality standards.
Quality control (QC): The sampling, testing, and documentation of results that, taken together, ensure that specifications have been met for the CNSP.
Reconstitution: The process of adding a diluent to a conventionally manufactured product to prepare a solution or suspension.
Release inspection and testing: Visual inspection and testing performed to ensure that a preparation meets appropriate quality characteristics.
Sanitizing agent: An agent for reducing, on inanimate surfaces, the number of microorganisms (e.g., 70% isopropyl alcohol).
SDS: Safety data sheet.
SOP: Standard operating procedure.
Specification: The tests, analytical methods, and acceptance criteria to which any components, CNSP, container closure system, equipment, or other material used in the compounding of CNSPs must conform to be considered acceptable for its intended use.
Stability: The extent to which a product or preparation retains physical and chemical properties and characteristics within specified limits throughout its expiration or BUD.
Verify: To confirm that a method, process, system, or equipment will perform as expected under the conditions of actual use.
Water activity (aw): A measure of the fraction of total water that is unbound and freely available to participate in chemical, biochemical, or physicochemical reactions or provide an environment that can support microbial growth. Note that aw is not water content.▲ (Official 1-Nov-2023)

3) Does the facility compound CNSPs (compounded nonsterile products)?

Yes: Topical preparations (i.e., creams, gels, and ointments)

4) Does the facility perform any practies that are not considered compounding, and are therefore not subject to the requirements of USP 795?

No: The facility does not perform any practices not subject to the requirements of USP 795.

5) Are compounding leadership and all personnel involved in preparing, storing, transporting, packaging, and dispensing CNSPs responsible for compliance with USP 795?

Yes: Compounding personnel are responsible for ensuring that the applicable practices and quality standards in USP 795 are continually and consistently applied to their operations.

Yes: Compounding personnel proactively identify and remedy potential problems within their operations.

Yes: Personnel engaged in compounding and dispensing of CNSPs comply withy laws and regulations of the applicable regulatory jurisdiction.

6) Has the facility appointed a designated person?

Yes

Observation
Designated Person: Lisa Hartig-Mawhorr, RPh

7) What activities is the designated person responsible for?

Oversees a training program to ensure competency of personnel involved in compounding, handling, and preparing CNSPs
Selecting components
Monitoring and observing compounding activities and taking immediate corrective action if deficient practices are observed
Ensuring that standard operating procedures (SOPs) are fully implemented.
Ensuring that follow-up is carried out if problems, deviations, or errors are identified
Establishing, monitoring, and documenting procedures for the handling and storage of CNSPs and/or components of CNSPs

2.6.2) Personnel Training and Evaluation

1) Do all personnel who compound or have direct oversight of compounding receive initial training before being allowed to perform their job functions independently?

Yes

2) Has the designated person created and implemented a training program that equips personnel with knowledge and training in the required skills necessary to perform their assigned tasks?

Yes: Frequency of training is described

Yes: Process for evaluating the competency of personnel is described

Yes: Equips personnel with the skills to perform their assigned tasks.

3) Do personnel who compound or have direct oversight with compounding personnel complete training initially and at least every 12 months?

Yes

4) Do SOPs describe training requirements for personnel who do not compound and only perform functions such as in-process checks, final verification, or dispensing?

Not Applicable: All personnel are fully trained

5) Does facility training demonstrate knowledge and competency initially and at least annually in the core competencies?

Yes: Hand hygiene

Yes: Garbing

Yes: Cleaning and sanitizing

Yes: Handling and transporting components and CNSPs

Yes: Mixing and measuring

Yes: Proper use of equipment and devices selected to compound CNSPs

Yes: Documentation of the compounding process

6) Do training procedures include a review of appropriate written materials?

Yes: USP 795

Yes: Staff understand and interpret safety data sheets (SDSs)

Yes: Staff understandi certificates of analysis (CofA)

Yes: Staff read and understand procedures related to their compounding duties

7) Does the training process document personnel have been trained and successfully completed competency assessments?

Yes: Personnel are observed and guided throughout the training process.

Yes: Personnel are expected to repeat procedures independently under direct supervision.

Yes: Personnel are permitted to perform the procedure without direct supervision only after independently demonstrating understanding and competency.

Yes: Upon completion of the training program the designated person or assigned trainer documents personnel have been successfully trained and completed competency assessments.

8) Does the designated person monitor and observe compounding activities?

Yes: Routinely monitors and observes compounding activities

Yes: Takes immediate corrective action if deficient practices are observed.

Observation
Discussed: Designated Person is the currently the only employee at this pharmacy

9) Does the facility have SOPs that describe the procedures for monitoring and observing compounding activities and personnel?

Other

Observation
Unable to observe policy during inspection
USP 795 | Effective 11/01/2023
Facility SOPs must describe procedures for monitoring and observing compounding activities and personnel.

2.6.3) Personal Hygiene and Garbing

1) Does the facility require that individuals entering the compounding area maintain appropriate personal hygiene?

Yes: Individuals are trained to report conditions that present a personal risk of potential contamination to the compounding environment and CNSP to the designated person.

Yes: The designated person evaluates whether individuals should be excluded from working in the compounding area until personal conditions resolve.

2) Do personnel remove items that are not easily cleanable and that might interfere with garbing prior to entering the compounding area?

Yes: Personnel remove outer garments (e.g., bandanas, coats, hats and jackets) prior to engaging in compounding.

Yes: Personnel remove all hand, wrist, and other exposed jewelry, including piercings that could interfere with the effectiveness of garbing or hand hygiene (e.g., watches, rings) prior to engaging in compounding.

Yes: Personnel remove earbuds/headphones prior to engaging in compounding.

3) Does the designated person permit accommodations for personal items provided that the quality of the environment and CNSP are not affected?

No accommodations for personal items are provided.

4) Do compounding staff perform appropriate hand hygiene procedures when entering the compounding area?

Yes: Personnel wash hands with soap and water for at least 30 seconds

Yes: Personnel dry hands completely with disposable towels or wipers

Yes: Personnel don gloves

5) Does the facility wipe or replace other items before beginning to compound a CNSP that has different components?

Yes

6) Do compounding personnel inspect gloves for holes, punctures or tears?

Yes

Yes: Gloves are replaced immediately if defects are detected.

7) Are gloves worn for all compounding activities?

Yes

8) Is other garb appropriate for the type of compounding performed?

Yes: Garb protects personnel from chemical exposures

Yes: Garb prevents CNSP contamination

Yes: Garbing requirements are determined by the facility and documented in the SOPs.

Yes: Frequency of changing garbing is determined by the facility and documented in the facility's SOPs.

9) Is garbing replaced immediately if it becomes visibly soiled or if its integrity is compromised?

Yes

10) Is garb stored in a manner that minimizes contamination?

Yes

11) Is garb removed and discarded when leaving the compounding area?

Yes

Yes: All garb, except gowns (as applicable), are removed and discarded when leaving the compounding area.

Yes: Unsoiled/undamaged gowns remain in the compounding area for reuse during the same shift.

12) Do facility SOPs describe cleaning and sanitization procedures for reusing goggles, respirators, and other reusable equipment?

Not Applicable

13) Is appropriate PPE worn and disposed of in accordance with USP 800 for hazardous drug compounding?

Yes

2.6.4) Buildings and Facilities

1) COMPOUNDING AREA: Is there a designated area for nonsterile compounding?

Yes

2) Is the compounding area suitable?

Yes: The compounding area is well lit, clean, orderly, and sanitary condition

Yes: The compounding area is in a good state of repair.

Yes: The compounding area is not carpeted.

3) Does the compounding area provide for the orderly placement of equipment and materials?

Yes

4) STORAGE AREA: Are temperatures monitored and recorded in the compounding area?

Yes: Temperatures are monitored with a continuous recording device.

Yes: Temperatures are stored in the continuous temperature device and are retrievable.

5) Is temperature monitoring equipment calibrated or verified for accuracy?

Yes: As recommended by the manufacturer

6) Does the facility have a process to evaluate CNSPs exposed to temperature excursions?

Other

Observation
Unable to observe policy:
USP 795 | Effective 11/01/2023
The compounding facility must adhere to SOPs to detect and reduce the risk of temperature excursions within the storage area(s).
When it is known that a CNSP or component has been exposed to temperatures either below or above the storage temperature limits for the CNSP or component, personnel must determine whether the CNSP or component integrity or quality has been compromised, and, if so, the CNSP or component must be discarded.

7) Are all CNSPS, components, equipment and containers stored off the floor?

Yes

8) WATER SOURCES: Does the facility have an easily accessible sink with hot and cold water?

Yes

9) Is the sink empty of all items unrelated to compounding?

Yes

10) Is the sink cleaned when visibly soiled before being used to clean compounding equipment?

Yes

11) Are plumbing systems free of defects that may contribute to CNSP contamination?

Yes

12) Is purified water used for rinsing equipment and utensils?

Yes

Observation
Discussed: Equipment and utensils will be rinsed with distilled water (gallon jugs)

2.6.5) Cleaning and Sanitizing

1) Are work surfaces cleaned at appropriate intervals?

Yes: Beginning and end of each shift

Yes: After spill/splash contamination is known or suspected

Yes: Between compounding CNSPs with different components

2) Are floors cleaned at appropriate intervals?

Yes: On days compounding occurs

Yes: After spills

Yes: When surface contamination is known or suspected

3) Are walls cleaned at appropriate intervals?

Yes: When visibly soiled

Yes: After spills

Yes: When surface contamination is known or suspected

4) Are ceilings cleaned at appropriate intervals?

Yes: When visibly soiled

Yes: When surface contamination is known or suspected

5) Is storage shelving cleaned at appropriate intervals?

Yes: at least every 3 months

Yes: After spills

Yes: When surface contamination is known or suspected

6) Are surfaces resistant to damage caused by cleaning and sanitizing agents?

Yes

7) Are floors in the compounding area easily cleanable?

Yes: Floors are non-porous.

Yes: Floors are not particle generating.

8) Are appropriate cleaning and sanitizing agents used?

Yes

Observation

FYI:

USP 795 | Effective 11/01/2023

Cleaning and sanitizing agents must be selected and used with consideration of compatibilities, effectiveness, and minimal potential to leave residues.

If cleaning and sanitizing are performed as separate steps, cleaning must be performed first

2.6.6.1) Equipment

1) Is the equipment used in the compounding process suitable?

Yes: Equipment surfaces are not reactive, additive or sorptive.

Yes: Equipment surfaces do not alter the quality of the CNSP.

Yes: Disposable or dedicated equipment is used to reduce the chance of bioburden and cross contamination.

Observation

The C-PECs used for manipulation of nonsterile HDs has redundant–HEPA filters in series

2) Is the equipment used in compounding stored in a manner that minimizes the risk of contamination?

Yes. Equipment is stored in a manner that minimizes contamination risk.

Yes: Equipment is located to facilitate use, maintenance and cleaning.

3) Is equipment used in compounding or testing of compounded preparations properly inspected and maintained?

Yes: Inspected prior to use

Yes: Equipment is verified for accuracy as recommended by the manufacturer or at least every 12-months.

Yes: Equipment is cleaned after compounding

4) Are activities that generate airborne chemical particles performed in a closed-system processing device?

Yes: There is a process in place to identify components that could generate airborne chemical particles.

Yes: Particle generating components are manipulated in a closed system processing device

Yes: Facility SOPs document the assessment of particle generating components.

5) Are CVSs and/or BSCs certified at least every 12-months?

Yes: The CVE or BSC is certified according to manufacturer specifications.

Observation

Discussed CVE is maintained on a manufactures recommended schedule
USP 795 | Effective 11/1/2023
If a CVE or BSC is used, it must be certified at least every 12 months according to manufacturer specifications or other laws and regulations of the applicable regulatory jurisdiction.
If a BSC, CVE, or other nondisposable device is used, it must be cleaned as described in Table 2.

6) CVE: Is the CVE cleaned and sanitized according to minimum USP frequencies?

Yes: Beginning and end of each shift on days when compounding occurs

Yes: After spills/surface contamination is known or suspected

Yes: The horizontal work surface of the CVE is cleaned between compounding CNSPs with different components.

8) Are other devices and equipment used in compounding cleaned according to USP minimum frequencies?

Yes: Before their first use

Yes: According to manufacturer recommendations

Yes: Cleaned between compounding CNSPs with different components, if no manufacturer recommendation is available

2.6.6.2) Components

1) Does the facility have written SOPs for the selection and inventory control of all components from receipt to use in a CNSP?

Yes

2) Are SDSs readily accessible to all personnel working with components?

Yes

3) Is the designated person responsible for component selection?

Yes

4) API COMPONENT SELECTION: Do APIs used in compounding comply with USP 795?

Yes: Components comply with USP monographs, if one exists.

Yes: Components have a COA that includes specifications and test results showing the API meets expected quality.

Yes: Components are manufactured at an FDA-registered facility.

5) COMPONENTS OTHER THAN APIs: Do other components used in compounding comply with USP 795?

Yes: Components are accompanied by a COA that verifies the component meets the criteria in the USP/NF, if one exists.

Yes: Components are manufactured in an FDA-registered facility.

Yes: If a component cannot be obtained form an FDA-registered facility, the designated person selects a component for suitable for the intended use.

6) WATER: Is purified water or better quality used for compounding nonsterile drug preparations?

Yes

8) COMPONENT RECEIPT: Does the facility has a process to identify and label components that lack a vendor expiration date?

Yes: Marks components with the date of receipt.

Yes: Assigns a BUD of not more than 3 years from the date of receipt.

Yes: APIs and added substances that are used in sterile compounding are assigned a BUD of not more than 1-year from the date of receipt.

Yes: APIs and added substances known to be susceptible to degradation are assigned a 1-year expiration date.

9) COMPONENT RECEIPT: Are components found to of unacceptable quality are promptly rejected?

Yes: labeled as rejected and segregated from active stock

Yes: Other lots of rejected components from the same vendor are examined

10) COMPONENT EVALUATION: Are components visually inspected prior to use?

Yes

11) COMPONENT EVALUATION: Is a process in place to ensure components are of the correct identity and were properly stored prior to each use?

Yes

12) COMPONENT HANDLING: Are components handled in accordance with manufacturer instructions and/or pre applicable laws and regulations?

Yes

13) COMPONENT HANDLING: Are components removed from the original container discarded if not used?

Yes

14) COMPONENT SPILL AND DISPOSAL: Does the facility maintain current chemical hazard and disposal information?

Yes

15) COMPONENT SPILL AND DISPOSAL: Is the facility prepared to handle a nonhazardous component spill?

Yes: The management and documentation of nonhazardous component spills and disposal is described in the facility SOPs.

Yes: Spill kit is readily accessible in the compounding area.

Yes: Personnel required to remediate spills receive training in spill management of chemicals used and stored in the compounding facility.

Yes: Spill training is conducted and documented at least every 12 months for all personnel required to clean up spills.

16) COMPONENT SPILL AND DISPOSAL: Is component waste disposed of in accordance with laws and regulations?

Yes

Observation
Observed corresponding policy

2.6.7) Master Formulation and Compounding Records

1) MASTER FORMULAS: Does the facility have a master formula for each unique formulation of a CNSP?

Yes

Yes: Changes and alterations are approved and documented

Yes: SOPs describe how master formulas are created, altered and approved

2) MASTER FORMULAS: Do master formulas contain all required elements?

Yes: Contain the name, strength or activity, and dosage form

Yes: Contain the identities and amounts of all components

Yes: Contain the relevant characteristics of components (e.g., particle size, salt form, purity grade, solubility, etc.), if appliable

Yes: Contain the container closure system

Yes: Contain complete instructions for preparing the CNSP

Yes: Contain the equipment and supplies needed

Yes: Contain a description of the compounding process

Yes: Contain a physical description of the final CNSP

Yes: Contain beyond-use date and storage requirements

Yes: Contain a reference source for assigned BUD

Yes: Contain calculations to determine and verify quantities and/or concentrations of components and strength or activity of the API(s), where appliable

Yes: Contain labeling requirements (e.g. shake well)

Yes: Contain quality control (QC) procedures (e.g., pH testing, visual inspection, etc.) and expected results

Yes: Contain other information needed to describe the compounding process and ensure repeatability (e.g., adjusting pH, temperature, etc.)

3) COMPOUNDING RECORDS: Does the facility create a compounding record for each CNSP?

Yes

4) COMPOUNDING RECORDS: Do compounding records contain all the required elements?

Yes: Contain the name, strength or activity, and dosage form

Yes: Contain the date (or date and time) of preparation

Yes: Contain an assigned internal identification number (Rx number or lot number)

Yes: Contain a method to identify individuals involved in the compounding process

Yes: Contain a method to identify the individual(s) verifying the final CNSP

Yes: Include the name, vendor or manufacturer, lot number, and expiration date of each component

Yes: Include the weight or measurement of each component

Yes: Include the total quantity of CNSP compounded

Yes: Contain the assigned beyond-use date

Yes: Contain the storage requirements of the CNSP

Yes: Contain calculations to determine and verify quantities and/or concentrations of components and strength or activity of the API(s), where applicable

Yes: Contain a physical description of the final CNSP

Yes: Contain the results of quality control procedures (e.g., pH testing, visual inspection, etc.)

Yes: Contain a reference to the master formula record for the CNSP

2.6.8) Release Inspections and Testing

1) Are all release inspections included in the facility's documentation?

Yes

2) Do visual inspections confirm the CNSP is ready for releasing and dispensing?

Yes

3) Are CNSPs not dispensed or released on day of preparation visually inspected before being dispensed?

Yes

2.6.9) Labeling

2) Do prepared CNSP contain a label with the minimum required information in USP 795?

Yes: Contain the assigned internal identification number

Yes: Contain the active ingredients and their amounts, activities, or concentrations

Yes: Contain the storage conditions, if other than controlled room temperature

Yes: Contain the beyond use date

Yes: Contain the dosage form

Yes: Contain the total amount or volume, if it is not obvious from the container

Observation
(Lot number, Rx number, etc.)

3) Do labels on dispensed CNSPs contain all information required by USP 795?

Yes: Contain the route of administration

Yes: Indicate the preparation was compounded

Yes: Include any applicable special handling instructions

Yes: Iclude any applicable warning statements

Yes: Contain the compounding facility name and contact information if the CNSP is sent outside the facility or healthcare system in which it was compounded

4) Do facility SOPs describe labeling procedures?

Yes: Labeling procedures are defined in facility SOPs.

Yes: Procedures include processes to prevent labeling errors.

Yes: CNSP label verification includes confirmation of the prescription or medication order.

Yes: CNSP label verification includes confirmation of the master formula record and compounding record.

Observation
FYI:
USP 795 | Effective 11/01/2023
Labeling procedures must be followed as described in the facility's SOPs to prevent labeling errors and CNSP mix-ups.
The label of the CNSP must be verified to ensure that it conforms with the following:
Prescription or medication order;
MFR (see 7.1 Creating Master Formulation Records); and
CR (see 7.2 Creating Compounding Records).

2.6.10.1) Terminology and Parameters

1) Does the CNSP label state the beyond use date?

Yes

2) Does the facility consider parameters which may affect CNSP quality when assigning a BUD?

Yes: Includes a review of chemical and physical stability properties of the API and added substances

Yes: Includes a review of the compatibility of the container closure system with the finished preparation

Yes: Includes a review of the degradation of the container closure system

Yes: Includes a review of the potential for microbial proliferation in the CNSP

Yes: Includes a review for significant deviations from essential compounding steps

2.6.10.2) Establishing a BUD

1) INFORMATION: General BUD description.

Observation
USP 795 | Effective 11/01/2023
The BUDs in Table 4 are based on the ability of the CNSP to maintain chemical and physical stability and to suppress microbial growth. These BUDs represent the limit for CNSPs that are packaged in tight, light-resistant containers unless conditions in 10.4 CNSPs Requiring Shorter BUDs or 10.5 Extending BUDs for CNSPs apply.

The aqueous and nonaqueous dosage forms in Table 4 are defined based on the water activity (aw) of the most similar drug preparations described in Table 3 or Application of Water Activity Determination to Nonsterile Pharmaceutical Products □1112□. In general, the use of aw aids in assessing the susceptibility of CNSPs to microbial contamination and the potential for API degradation due to hydrolysis. The aw is different from the water content and may be considered as the available water to support microbial growth and hydrolytic reactions. Nonaqueous dosage forms will not support spore germination or microbial growth due to their low aw. Reduced aw greatly assists in the prevention of microbial proliferation in conventionally manufactured products and is expected to convey the same benefit to CNSPs.

Compounders are not required to measure aw for CNSPs. While the manufactured products in □1112□, Table 2 and compounded preparations in Table 3 below are not exhaustive, they provide examples of dosage forms that have an aw < 0.6 and those that have an aw ≥ 0.6 and can assist personnel in determining the BUD by dosage form using Table 4.

When preparing CNSPs, raw materials and equipment contribute a bioburden to the final preparation. CNSPs with an aw ≥ 0.6, and a BUD within the limits of Table 4, should contain suitable antimicrobial agents to protect against the proliferation of bacteria, yeast, and mold contamination that may be inadvertently introduced anytime during the compounding process or throughout the BUD under appropriate handling and storage conditions. All CNSPs with an extended BUD must follow 10.5 Extending BUDs for CNSPs. Careful consideration should be taken when selecting a preservative to ensure microbiological effectiveness and stability. When antimicrobial preservatives are contraindicated in a CNSP, storage of the preparation in a refrigerator is required if such storage does not change the physical or chemical properties of the CNSP (i.e., precipitation).

4) Does the facility assign BUDs in accordance with USP 795?

Yes: Non-preserved aqueous dosage forms: 14 days refrigerated.

Yes: Preserved aqueous dosage forms: 35 days refrigerated or room temperature

Yes: Non-aqueous oral liquids: 90 days refrigerated or room temperature

Yes: Other non-aqueous dosage forms: 180 days refrigerated or room temperature

Yes: CNSPs are protected from moisture, freezing, and excessive heat, and where necessary, from light.

2.6.10.3) CNSPs Requiring a Shorter BUD

1) Does the facility have a process to determine if data shows a CNSP requires a shorter BUD?

No

2.6.10.4) Extending BUDs for CNSPs

1) Are all CNSPs with a USP-NF monograph assigned a BUD that does not exceed the BUD specified in the monograph?

No:

2.6.11) SOPs

1) Does the facility have SOPs on all aspects of the compounding operation?

Yes

Observation
USP 795 | Effective 11/01/2023
11. SOPS
Facilities preparing CNSPs must develop SOPs on all aspects of the compounding operation. All personnel who conduct or oversee compounding activities must be trained in the facility's SOPs and be responsible for ensuring that they are followed. One or more person(s) must be designated to ensure that the facility's SOPs are fully implemented. The designated person(s) must ensure that follow-up occurs if problems, deviations, or errors are identified.

3) Is an employee designated to ensure facility SOPs are fully implemented?

Yes

2.6.12) Quality Assurance and Quality Control

1) DEFINITIONS: Quality Assurance and Quality Control

Observation
USP 795 | Effective 11/01/2023
Quality assurance (QA) is a system of procedures, activities, and oversight that ensures that the compounding process consistently meets quality standards.

Quality control (QC) is the sampling, testing, and documentation of results that, taken together, ensure that specifications have been met before release of the CNSP. See Quality Assurance in Pharmaceutical

2) Are QA and QC programs formally established?

No

Observation
Discussed this policy will be formalized and implemented

USP 795 | Effective 11/01/2023
Compounding □1163□.
A facility's QA and QC programs must be formally established and documented in the facility's SOPs that ensure that all aspects of the preparation of CNSPs are conducted in accordance with the requirements in this chapter (□795□) and the laws and regulations of the applicable regulatory jurisdiction.

4) Do facility SOPs describe each aspect of the QA program?

Other: See Observation Below

Observation
FYI:
USP 795 | Effective 11/01/2023
The facility's SOPs must describe the roles, duties, and training of the personnel responsible for each aspect of the QA program. Designated person(s) responsible for the QA program must have the training, experience, responsibility, and authority to perform these duties. The overall QA and QC program must be reviewed at least once every 12 months by the designated person(s). The results of the review must be documented, and appropriate action must be taken if needed.

5) Is the QA and QC program reviewed annually by the designated person?

Other: See Observation Below

Observation
FYI:
USP 795 | Effective 11/01/2023
The overall QA and QC program must be reviewed at least once every 12 months by the designated person(s). The results of the review must be documented, and appropriate action must be taken if needed.

6) RECALL PROCEDURES: Does the facility have recall procedures in place?

Other: See Observation Below

Observation
FYI:

USP 795 | Effective 11/01/2023
The facility must have procedures in place to
Determine when recalls must be initiated, which should include procedures to immediately notify the prescriber of a failure of specifications with the potential to cause patient harm (e.g., strength, purity, or other quality attributes)
Recall any unused dispensed CNSPs and quarantine any stock remaining in the pharmacy
Investigate if other lots are affected and recall if necessary

7) RECALL PROCEDURES: Do SOPs for recalls of dispensed CNSPs contain all elements required by USP 795?

Other: See Observation Below

Observation
USP 795 | Effective 11/01/2023
An SOP for recall of dispensed CNSPs must contain
Procedures to determine the severity of the problem and the urgency for implementation and completion of the recall
Procedures to determine the distribution of any affected CNSP, including the data and quantity of distribution
Procedures to identify patients who have received the CNSP
Procedures for disposal and documentation of the recalled CNSP
Procedures to investigate and document the reason for recall

8) RECALL PROCEDURES: Do SOPs for recalls require documentation and notification to the appropriate regulatory bodies?

Other: See Observation Below

Observation

USP 795| Effective 11/01/2023
The nonsterile compounding facility must document the implementation of the recall procedures. The recall must be reported to appropriate regulatory bodies as required by the laws and regulations of the applicable regulatory jurisdiction.

OAC 4729:7-2-03 | Effective 7/1/2021
(P) A pharmacy shall report to the state board of pharmacy within seventy-two hours upon discovery, and in a manner determined by the board, any product quality issue attributed to a compounded drug preparation dispensed by the pharmacy.

(1) As used in this paragraph, a product quality issue means any of the following:

(a) Any incident that causes the compounded drug preparation or its labeling to be mistaken for, or applied to, another article;

(b) Contamination of the compounded drug preparation, including but not limited to mold, fungal, bacterial, or particulate contamination; or

(c) Any significant chemical, physical, or other change or deterioration of the dispensed compounded drug preparation within the compounded drug preparation's assigned beyond-use date.

(2) A product quality issue does not include an isolated allergic reaction to a substance included in a compounded drug preparation.

(Q) A pharmacy shall report to the state board of pharmacy within seventy-two hours of issuance or receipt, and in a manner determined by the board, any warning letters, injunctions, or decrees issued in relation to the pharmacy by the United States food and drug administration.

9) COMPLAINT HANDLING: Does the facility have a SOP for handling complaints?

Other: See Observation Below

Observation

USP 795 | Effective 11/01/2023
Compounding facilities must develop and implement SOPs for handling complaints. Complaints may include but are not limited to concerns or reports on the quality, labeling, or possible adverse reactions related to a specific CNSP.

10) COMPLAINT HANDLING: Are complaints reviewed to identify potential quality problems and actions taken?

Other: See Observation Below

Observation
USP 795 | Effective 11/01/2023
A designated person(s) must review all complaints to determine whether the complaint indicates a potential quality problem with the CNSP. If it does, a thorough investigation into the cause of the problem must be initiated and completed. The investigation must consider whether the quality problem extends to other CNSPs. Corrective action, if necessary, must be implemented for all potentially affected CNSPs.
Consider whether to initiate a recall of potentially affected CNSPs and whether to cease nonsterile compounding processes until all underlying problems have been identified and corrected.

11) COMPLAINT HANDLING: Are records of complaints readily retrievable and complete?

Other: See Observation Below

Observation
USP 795 | Effective 11/01/223
A readily retrievable written or electronic record of each complaint must be kept by the facility, regardless of the source of the complaint (e.g., email, telephone, or mail). The record must contain the name of the complainant or other unique identifier, the date the complaint was received, the nature of the complaint, and the response to the complaint. In addition, to the extent that the information is known, the following should be recorded: the name and strength of the CNSP and the assigned internal identification number (e.g., prescription, order, or lot number).

12) COMPLAINT HANDLING: Do complaint records include the findings of investigation?

Other: See Observation Below

Observation

USP 795 | Effective 11/01/2023
The record must also include the findings of any investigation and any follow-up. Records of complaints must be easily retrievable for review and evaluation for possible trends and must be retained in accordance with the record-keeping requirements in 14. Documentation. A CNSP that is returned in connection with a complaint must be quarantined until it is destroyed after completion of the investigation and in accordance with laws and regulations of the applicable regulatory jurisdiction.

13) COMPLAINT HANDLING: Are CNSPs returned in connection with a complaint quarantined and destroyed?

Other: See Observation Below

Observation
USP 795 | Effective 11/01/2023
A CNSP that is returned in connection with a complaint must be quarantined until it is destroyed after completion of the investigation and in accordance with laws and regulations of the applicable regulatory jurisdiction.

14) ADVERSE EVENT REPORTING: Are adverse events properly reported?

Other: See Observation Below

Observation

USP 795 | Effective 11/01/2023
Adverse events potentially associated with the quality of CNSPs must be reported in accordance with the facility's SOPs and all laws and regulations of the applicable regulatory jurisdiction. If the investigation into an adverse event reveals a quality problem with a CNSP that is likely to affect other patients, those patients and prescribers potentially affected must be informed.

2.6.13) CNSP Packaging and Transporting

1) Do facility SOPs include CNSP packaging requirements?

Yes

Observation
Observed: As described in MFR
USP 795 | Effective 11/01/2023
13.1 Packaging of CNSPs
The facility's SOPs must describe packaging of CNSPs. Personnel should select and use packaging materials that will maintain the physical and chemical integrity and stability of the CNSPs. Packaging materials must protect CNSPs from damage, leakage, contamination, and degradation, while simultaneously protecting personnel from exposure.

2) Do SOPs describe CNSP transport?

Other: See Observation Below

Observation
Unable to observe corresponding policy

USP 795 | Effective 11/01/2023
If transporting CNSPs, the facility must have written SOPs to describe the mode of transportation, any special handling instructions, and whether temperature monitoring devices are needed.

2.6.14) Documentation

1) Does the facility maintain written or electronic documentation demonstrating compliance with USP 795?

Yes: Includes documentation of personnel training, competency assessments, and qualification records including corrective actions for any failures.

Yes: Includes equipment records (e.g., calibration, verification, maintenance reports).

Yes: Includes COAs and all documentation required for components not conventionally manufactured.

Yes: Includes records of receipt for all components.

Yes: Includes SOPs, master formula records, and compounding records.

Yes: Includes release inspection and testing records.

Yes: Includes information related to complaints and adverse events including corrective actions taken.

Yes: Includes results of all investigations and corrective actions.

Yes: Includes records of cleaning and sanitizing the designated compounding area.

Yes: Includes temperature logs.

Yes: Includes accommodations to personnel compounding CNSPs.

Yes: Includes required routine reviews (e.g., yearly review of QA and QC programs, yearly review of chemical hazard and disposal information, etc.)

2) Does the facility maintain required documentation in a readily retrievable manner for at least 3 years?

Yes

8) Substance Abuse and Mental Health Resources for Healthcare Professionals

1) Substance Abuse and Mental Health Resources for Healthcare Professionals

Observation

The healthcare profession is not immune to substance use disorder and mental health conditions. Such medical conditions impair a healthcare professional's competency, ability, and judgment. Substance use disorder and/or mental health conditions that are left untreated may not only cause a healthcare professional to risk their career, but may also endanger the life of a patient. These medical conditions can be effectively treated, and it is possible for healthcare professionals that are in treatment or recovery to return to practice.

The State of Ohio Board of Pharmacy encourages all healthcare professionals who may be struggling with substance use disorder or mental health condition to seek help. The following are resources that can assist healthcare professionals in getting help: (The resources listed here are for informational purposes only and do not constitute an endorsement by the State of Ohio Board of Pharmacy. They do not represent a complete list of the resources available)

Ohio Careline 1-800-720-9616, emotional support, with referral to other resources if needed.
Crisis text line, text "4hope" to 741 741 to speak with a crisis counselor.
Treatment Bridge 1-877-275-6364, for addiction and mental health services.
National Suicide prevention dial 988, or call 1-800-273-8255.
Ohio Domestic Violence Network 1-800-934-9840
Pharmacist Rehabilitation Organization (www.ohiopro.org) for pharmacists and pharmacy interns.
Ohio Physicians Health Program (www.ophp.org)

9) Inspection Affirmation

1) Inspection Affirmation

Observation
*This document only addresses compliance with the rules or laws specifically identified above.

As the person in charge at the time of this inspection, I affirm that I have reviewed this inspection report with the Specialist/Agent/Inspector, and understand its content.

If this inspection report requires a written response, I understand, per OAC 4729:5-3-03, that either of the following must be submitted to the State of Ohio Board of Pharmacy within 30 days of this inspection:
(1) The action(s) the licensee or applicant has taken to correct the violation(s) and the date of implementation of the corrective action(s); or
(2) An explanation disputing the observed violations.

I understand that if I am not the responsible person documented on this site's Ohio terminal distributor of dangerous drugs license, I will ensure the responsible person is provided a complete copy of this inspection report in a timely manner.

I further acknowledge that a written response does not release the licensee listed in this inspection report from potential disciplinary action.

Responses must be either emailed (with a copy of the inspection report) to WRITTENRESPONSE@PHARMACY.OHIO.GOV or mailed to 77 South High Street, 17th Floor, Columbus, Ohio 43215.

		FACILITY	09/26/2024	Texas Board of Pharmacy (Case #: 2024-01512) On July 19, 2024, the Texas Board of Pharmacy ("Board of Pharmacy") issued an Agreed Board Order ("ABO") in which the Board of Pharmacy alleges, from about September 28, 2023, through on or about November 29, 2023, Alto Pharmacy, located at 645 Harrison Street, Suite 200, San Francisco, CA 94107, Texas Non-Resident Pharmacy Permit #: 34204, operated without a Texas licensed pharmacist named on the Texas Non-Resident Pharmacy Permit. Alto Pharmacy acknowledges operating without the required Texas licensed pharmacist, Alto Pharmacy further acknowledges contact, and correspondence was made with the Board of Pharmacy, requesting guidance and direction on operating without a Texas licensed pharmacist. The Board of Pharmacy and Alto Pharmacy finalized the ABO on November 5, 2024, and a fine of $1,000 was paid. Alto Pharmacy's Texas Non-Resident Pharmacy Permit remains active, in good standing and unrestricted. The Board of Pharmacy considered the matter closed and took no further action.

RE: In the Matter of Alto Pharmacy

Dear Tsai Ling Jiang:

Enclosed is a copy of Agreed Board Order (ABO) #2024-01512 that was entered by the Texas State Board of Pharmacy (Board) concerning the above-referenced matter. The Board entered this Order on November 5, 2024. The requirements and conditions of the enclosed Order and matters relating to the Order are discussed below.

ADMINISTRATIVE PENALTY (FINE)

Under the terms of this Order, Alto Pharmacy (pharmacy license #34204) must pay an administrative penalty (fine) of $1,000. **This fine is due on or before March 5, 2025.** Please make your cashier's check or money order payable to the "Texas State Board of Pharmacy" and submit to the Board's office by the due date. Please include your ABO number (#2024-01512) on the cashier's check or money order. **Note:** The Board will **not** accept partial payments. You must submit payment for the full amount by the due date.

LICENSE RENEWAL APPLICATIONS

Prior to the next expiration date of pharmacy license #34204, the pharmacy will complete a license renewal application for the Texas State Board of Pharmacy. This application will require a pharmacy representative to answer the question:

> "Has the pharmacy, the pharmacy's owner or any officer or partner (if the pharmacy is owned by a corporation or partnership) been the subject of any professional disciplinary action or are any such actions pending against you by a regulatory authority within the last 36 months?..."

As a result of the entry of ABO #2024-01512, Alto Pharmacy must answer "yes" to this question for 36 months from the date of the termination of all sanctions. Consequently, an Alto Pharmacy representative must answer "yes" to this question on any renewal applications submitted beginning November 5, 2024 and ending 36 months following the termination of all sanctions.

If you have any questions about this Order, please contact Knijiah Samuel, Monitoring Specialist, at (512) 305-8054 or via monitoring@pharmacy.texas.gov.

AGREED BOARD ORDER #2024-01512

RE: IN THE MATTER OF
ALTO PHARMACY
(PHARMACY LICENSE #34204)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacy license number 34204 issued to Alto Pharmacy (Respondent), 645 Harrison Street, Suite 200, San Francisco, California 94107.

By letter dated July 19, 2024, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

Sections 562.101(f); and 565.002(a)(3) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2023); and

Section 291.103 of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2023), in that allegedly:

COUNT

From on or about September 28, 2023, through on or about November 29, 2023, Alto Pharmacy, 645 Harrison Street, Suite 200, San Francisco, California 94107, was engaged in the operation of a non-resident pharmacy in violation of Texas State Board of Pharmacy Rules, in that the pharmacy was not under the supervision of a pharmacist-in-charge licensed as a pharmacist in Texas.

By letter dated July 19, 2024, Respondent was notified that the matters previously set out in this Order could be disposed of without the scheduling of an informal conference or a formal administrative hearing. By signing this Order, Lisa Jurinka, Managing Officer, Alto Pharmacy LLC, on behalf of Respondent, and Kianna L. Sitarski, Legal Counsel for Respondent, neither admit nor deny the truth of the matters previously set out in this Order, and agree that the Board has jurisdiction in this matter and waive the right to an informal conference, notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Respondent shall pay an administrative penalty of one thousand dollars ($1,000) due one hundred twenty (120) days after the entry of this Order.

(2) Respondent shall allow Board staff to directly contact Respondent on any matter regarding the enforcement of this Order.

(3) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2023), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2024).

THIS ORDER IS A PUBLIC RECORD.

SIGNED AND ENTERED ON THIS 5th day of November, 2024.

		FACILITY	03/22/2023	California Board of Pharmacy (Case #: CI2022 96563) On March 22, 2023, the California Board of Pharmacy ("Board of Pharmacy")issued a Modified Citation and Fine ("Citation"), in which the Board of Pharmacy alleges, on or about July 2, 2022, the Licensee dispensed and delivered prescription drugs to a wrong address. On or about July 6, 2022, the prescription drugs were returned to the Licensee and afterwards placed into the Licensee's inventory. Further, Board of Pharmacy alleges the Licensee failed to quarantine and prepare the returned prescription drugs for destruction pursuant to Board of Pharmacy rules and regulations. Licensee acknowledges the returned prescription drugs were placed into inventory, not quarantined and prepared for destruction as required by Board of Pharmacy rules and regulations. Licensee agreed to pay the Board of Pharmacy's fine of $1,000 as indicated in the attached Citation. To ensure correct practices are followed, the Licensee's Compliance and Pharmacy Operations Departments have reviewed their Policies and Procedures, which address the handling of returned prescription drugs, with the staff at the pharmacy location. Staff has acknowledged the review, training and the proper procedures to follow when previously dispensed prescription drugs are returned to the pharmacy location. The Licensee's California Pharmacy Permit remains active, in good standing and unrestricted. Upon receipt of the fine, the Board of Pharmacy considered the matter closed and took no further action.

As a result of the explanation and information you provided at the office conference, the amount of the fines assessed in Citation and Fine, CI 2022 98558 have been reduced.

The modified Citation is attached and is hereby issued pursuant to California Code of Regulations, title 16, section 1775.4, subdivision (d).

If you desire a hearing to appeal the attached Citation, you must submit a written request for a hearing to the Board of Pharmacy ("Board") within 30 days of the date this Citation was issued. (See Bus. Prof. Code sec. 125.9, subd. (b)(4), and C.C.R., title 16, sec. 1775.4, subd. (d).). Unless the Board receives a written request within the 30 days, you will be deemed to have waived your right to a hearing in this matter and the Citation shall become the final order of the Board. If a hearing is not requested, the timely payment of the imposed fine(s) shall not constitute an admission of the violation(s) charged in the Citation.

Failure to pay any imposed fine(s) within 30 days of the date the Citation was issued may result in disciplinary action being taken.

If any fine(s) are not timely paid, then the full amount of the unpaid fine(s) shall be added to the fee for the renewal of your license. Your license shall not then be renewed without full payment of the renewal fee and the assessed fine(s).

If you have any questions regarding this Citation please contact Suelynn Yee, Citation and Fine Analyst at (916) 518-3013.

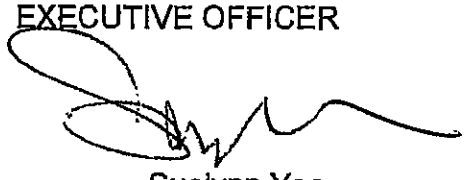
The attached Citation and Fine, ("Citation") is being issued pursuant to Business and Professions Code section 125.9 and California Code of Regulations, title 16, section 1775 et. seq., for violations of the laws and regulations that govern the practice of pharmacy in California. (For exact language refer to the California Pharmacy Law and Index, located on the Board's web site, at www.pharmacy.ca.gov, under Pharmacy Law and Regulation).

The attached Citation references the specific statutes and regulations violated, defines each violation charged and specifies any fine(s) assessed. The attached Citation details the conduct that resulted in the issuance of the Citation.

IT IS YOUR RESPONSIBILITY TO READ THE ENTIRE CITATION AND INSTRUCTIONS, TO UNDERSTAND THE PROCESS FOR CONTESTING THE CITATION AND TO RESPOND TO THE CITATION WITHIN THE FOLLOWING TIME FRAMES:



- August 13, 2023: Unless the Citation is contested payment of fine(s) must be received by the Board.
- July 28, 2023: Any contest of the Citation by request for an Informal Office Conference must be received by the Board.
- August 13, 2023: Any contest of the Citation by request for a formal Appeal must be received by the Board.

The issuance of a Citation by the Board of Pharmacy is considered an administrative action and substantiated resolution of a complaint and/or investigation. If a hearing is not requested to contest the Citation(s), payment of any fine(s) shall not constitute an admission of the violation(s) charged. Payment in full of the fine(s) assessed shall be represented as a satisfactory resolution of the matter in any public disclosure. (Business and Professions Code section 125.9; California Code of Regulations section 1775).

Additionally, if, at the time of license renewal, the Board has not received full payment of assessed fine(s) and a request to contest the Citation has not been received within the time frames specified, the license shall not be renewed until the assessed fine(s) and renewal fee/s are paid in full.

If you have any questions regarding this Citation please contact Suelynn Yee, Citation and Fine Analyst at (916) 518-3013.

INSTRUCTION

Read the Following Carefully and Thoroughly

You are hereby served with a Citation issued by the Executive Officer of the California State Board of Pharmacy or her designee. The following instructions are provided to assist you in your timely completion of the Citation process.

PAYMENT OF FINE

- Payment must be made by **August 13, 2023.**
- Make check or money order payable to the Board of Pharmacy. Do not submit cash.
- Attach the enclosed "copy" of your Citation

Mail payment to: State Board of Pharmacy
Attn: Cashier
2720 Gateway Oaks Drive, Suite 100
Sacramento, CA 95833

Unless contested, Citations are final 30 days from the date of service. Payment of a fine is not an admission of the violation charged. A Citation becomes part of your record, and remains there for five years. It can be used as an aggravating factor for future violations. Citations are public information and as such may be released to the public in accordance with the Public Records Act and Information Practices Act.

CONTESTING THE CITATION (CCR §1775.4)

If you wish to contest all or part of your Citation you may request an informal office conference or an appeal before an administrative law judge, or both. If you wish to request both you must submit both forms. If you prevail at the office conference your request for an appeal shall be deemed withdrawn. Please note that the time frames that allow you to request an office conference and an appeal run concurrently. You must submit your request(s) according to the following instructions:

REQUEST FOR OFFICE CONFERENCE (CCR §1775.4 subd. (b))

- Complete attached "Request for Office Conference".
- Mail form to arrive at the Board office no later than July 28, 2023 to the address at the bottom of the form.
- You will be advised by the Board in writing as to the date and time of your appearance.
- You are allowed one postponement.

An office conference is not a hearing. It is an informal discussion of the events that took place, and an opportunity for you to present information and mitigating factors pertaining to the Citation that you would like considered. The Executive Officer and or her designee represent the Board of Pharmacy at this meeting. One other individual of your choice may accompany you to this meeting. Office conferences are not open to the public. There is no discovery available in this process. You will not be allowed to present or question witnesses. However, you may present any written statements or documents that you believe are relevant.

After your office conference, the Citation may be affirmed, modified or dismissed. You will be advised of the decision in writing within 14 calendar days from the date of the conference. If the Citation is affirmed you will have 30 days from the date of the decision letter to comply with the conditions of your Citation. If the Citation is modified, the Citation originally issued shall be considered withdrawn and a new Citation will be issued. The decision issued after the office conference shall be deemed to be a final order with regard to the Citation issued, including the administrative fine levied, and/or an order of abatement.

REQUEST FOR APPEAL (CCR § 1775.4 subd. (a))

VIOLATION CODE SECTION	OFFENSE	AMT OF FINE
Bus. & Prof. Code § 733 subd. (a)	Dispensing prescription drugs and devices- No licentiate shall obstruct a patient in obtaining a prescription	$1,500.00

CONDUCT:

Unprofessional conduct: Business and Professions Code section 733, subsection (a) states, a licentiate shall not obstruct a patient in obtaining a prescription drug or device that has been legally prescribed or ordered for that patient. A violation of this section constitutes unprofessional conduct by the licentiate and shall subject the licentiate to disciplinary or administrative action by his or her licensing agency. Subsection (b) states notwithstanding any other law, a licentiate shall dispense drugs and devices, as described in subdivision (a) of section 4024, pursuant to a lawful order or prescription unless one of the following circumstances exist subsection (2) (A) states, immediately notify the patient and arrange for the drug or device to be delivered to the site or directly to the patient in a timely manner. Alto Pharmacy, PHY58642, failed to comply. Specifically, on 5/18/2022, Dr. Shammas sent a prescription for EW for 30 tablets of Paxlovid 150 – 100 mg to Alto Pharmacy. On 5/18/2022, the prescription was processed under Rx774057005, and the data entry was verified by pharmacist Cynetha Lee at Alto Pharmacy Plano Texas, NRP2529, located at 6201 W Plano PKWY, Suite 400, Plano, TX. On 5/18/2022, upon completion of the data entry verification, the prescription was placed in the fulfillment queue at Alto Pharmacy Los Angeles, PHY58642, located at 5916 Bowcroft Street, Los Angeles, CA to fill the prescription. Two days later, on 5/20/2022, the pharmacists at Alto Pharmacy Los Angeles contacted Alto Pharmacy Clinical Care Specialist to inform EW that Alto Pharmacy Los Angeles cannot fill the prescription because Alto Pharmacy Los Angeles was a site not allocated to dispense Paxlovid thereby unable to obtain the medication to fill the prescription.

Alto Pharmacy failed to establish procedures or failed to update their computer software such that Alto Pharmacy staff are alerted that California Alto Pharmacy facilities do not dispense Paxlovid. Consequently, Alto Pharmacy obstructed EW from obtaining her prescription for Paxlovid in a timely manner.

oOn 5/18/2022, Alto Pharmacy's Clinical Care Specialist informed EW that Alto Pharmacy had Paxlovid in stock instead of informing EW on 5/20/2022 that Alto Pharmacy California facilities do not dispense Paxlovid.

oOn 5/18/2022, EW's prescription for Paxlovid was processed at Alto Pharmacy Plano Texas. The technician who processed the prescription and Pharmacist Cynetha Lee who verified the data entry of the prescription on 5/18/2022 should have informed the Care

Specialist to inform EW that California Alto Pharmacy facilities do not dispense Paxlovid.
oOn 5/18/2022, EW's Paxlovid prescription was placed in queue at Alto Pharmacy Los Angeles for filling. On 5/18/2022, the staff at Alto Pharmacy Los Angeles should have alerted the Care team to inform EW that Alto Pharmacy Los Angles cannot fill her prescription for Paxlovid because the pharmacy was not allocated to dispense Paxlovid.

Had Alto Pharmacy established procedures or updated their computer software, the staff at Alto Pharmacy could have informed EW on 5/18/2022 that her prescription for Paxlovid cannot be filled at Alto Pharmacy Los Angeles.
On 5/20/2022, EW contacted Dr. Shammas to send another prescription for Paxlovid to CVS Pharmacy 9660. The prescription was filled but was not delivered until 5/21/2022. Alto Pharmacy obstructed EW from obtaining from obtaining her prescription for Paxlovid, a medication which needed to be started within five days from the onset of COVID-19 symptoms, a violation of Business and Professions Code 733 (a).

Please be advised the deficiencies noted in the Colorado Board of Pharmacy ("Board of Pharmacy") Inspection Report, dated August 6, 2024 (attached) did not require Alto Pharmacy to submit an official Plan of Correction to the Board of Pharmacy.

To ensure compliance with all Board of Pharmacy rules and regulations, and industry standards, Alto Pharmacy made the following corrections identified in the Inspection Report.

1. RECORDKEEPING_Colorado Code of Regulations, 11.04.20: Daily Printouts

Issue	*Daily printouts shall include the strength of drug dispensed and should otherwise be legible.*
Plan of Correction:	Pharmacist-in-Charge reviewed the Daily Dispense Log and found that the report did include the strength of the drug dispensed, however the font size was very small. The Pharmacy Compliance Department and Pharmacist-in-Charge collaborated with IT to ensure the font used for the Daily Printout was of sufficient size to be legible.

2. CENTRAL PRESCRIPTION PROCESSING/REMOTE PHARMACY PRACTICE_ Colorado Code of Regulations, 20.01.20 & 26.00.20: Policy and procedure manual, written agreements

Issue	*The pharmacist manager shall review, date and sign the remote pharmacy practice policy and procedure manual at least once annually. Last done 11/17/2021.*
Plan of Correction:	The Shared Services/Remote Practice policy document was reviewed and found that the previous Pharmacist-in-Charge signed and dated the document in 2024. The Pharmacy Compliance Department has established a process to provide the Shared Services/Remote Practice policy to the Pharmacist-in-Charge for signature and date on an annual basis.

3. PHYSICAL/POSTINGS_ Colorado Code of Regulations, 5.01.31d, f&g: Hot & cold water, frig & freezer

Issue — *Please obtain running hot and cold water in the compounding/ dispensing area.*

Plan of Correction: Pharmacist-in-Charge observed both running hot and cold water to be available at the sink in the pharmacy. A checklist has been implemented to review the status of the hot and cold running water availability at the sink in the pharmacy on a monthly basis.

4. DISPENSING_ Colorado Code of Regulations, 2.01.53: Required order transfer information

Issue — *Please assure that transferred orders comply with Rule 2.01.53. See controlled substance example.*

Plan of Correction: The Pharmacy Compliance Department met with the Pharmacist-in-Charge for the Shared Services site and the Pharmacist-in-Charge for the Remote Processing site jointly to review the process for verbal transfers and for facsimile transfers. The process for facsimile transfers was found to include all required elements. The process for verbal transfers was found to be missing one required element. The process for verbal transfers was corrected to include the missing element and the Pharmacist-in-Charge reviewed the process with the Patient Care Pharmacist team.

5. RECORDKEEPING_ Colorado Code of Regulations, 1304.06: Records and reports for electronic prescriptions.

Issue — *Electronically-signed practitioner-controlled substance orders are not acceptable.*

Plan of Correction: The Pharmacy Compliance Department met with the Pharmacist-in-Charge for the Remote Processing site to review the process to validate the controlled substance prescriptions received via facsimile. An audit report was created which identifies all controlled substance prescriptions which were received via facsimile. Additionally, Back tags include annotations to identify if the prescription was electronically signed by the practitioner which

is a flag to obtain alternate means of validation for the controlled substance prescription.

6. CENTRAL PRESCRIPTION PROCESSING/REMOTE PHARMACY PRACTICE_ Colorado Code of Regulations, 20.01.20 & 26.00.20: Policy and procedure manual, written agreements

Issue — *The pharmacist manager shall review, date and sign the central prescription processing policy and procedure manual at least once annually. Last done 11/17/2021.*

Plan of Correction: The Shared Services/Remote Practice policy document was reviewed and found that the current Pharmacist-in-Charge did not sign the document at the time of the change in Pharmacist-in-Charge. The document was then signed by the Pharmacist-in-Charge and dated 11/12/2024. The Pharmacy Compliance Department has established a checklist to be followed in the event of a change of Pharmacist-in-Charge, and annually thereafter, which includes obtaining a signature and date from the Pharmacist-in-Charge for the policy document.

7. PHYSICAL/POSTINGS_ Colorado Code of Regulations, 3.00.51: Initial interpretation and final evaluation

Issue — *The pharmacist manager shall review, date and sign the notice of initial interpretation and final evaluation within 72 hours of assuming the duty on or around 5/1/24.*

Plan of Correction: The notice of initial interpretation and final evaluation document was reviewed and it was found that the current Pharmacist-in-Charge did not sign the document at the time of the change in Pharmacist-in-Charge. The document was then signed by the Pharmacist-in-Charge and dated 11/12/2024. The Pharmacy Compliance Department has established a checklist to be followed in the event of a change of Pharmacist-in-Charge, and annually thereafter, which includes obtaining a signature and date from the Pharmacist-in-Charge for the policy document.

8. RECORDS AND REPORTS OF REGISTRANTS_Regulation 21 C.F.R. § 1304.21: General requirements for continuing records

Issue — *Invoices detailing the receipt of prescription drugs and controlled substances shall be marked with a date of receipt.*

Plan of Correction: Policy *SOP 302_Receiving Inventory* was reviewed and it was determined that the process is appropriately defined to properly receive and file invoices. The Pharmacist-in-Charge reviewed the procedure in place and found that an extern staff member did not fully follow the established policy. The policy was reviewed with the staff member for ongoing compliance. The Pharmacist-in-Charge conducts an audit of these files on a monthly basis and reviews the invoices for completeness, changes, and any variances; however, the pharmacy has increased the frequency of this review to twice monthly and has established a process to include a Pharmacist-in-Charge signature to ensure the audit has occurred.

9. RECORDS AND REPORTS OF REGISTRANTS_Regulation 21 C.F.R. § 1304.21: General requirements for continuing records

Issue — *Invoices shall be filed in one of three separate sets of files (CII, C-III-V and Rx).*

Plan of Correction: Policy *SOP 302_Receiving Inventory* was reviewed and it was determined that the process is appropriately defined to properly receive and file invoices. The Pharmacist-in-Charge reviewed the procedure in place and found that an extern staff member did not fully follow the established policy. The policy was reviewed with the staff member for ongoing compliance. The Pharmacist-in-Charge conducts an audit of these files on a monthly basis and reviews the invoices for completeness, changes, and any variances; however, the pharmacy has increased the frequency of this review to weekly and has established a process to include a Pharmacist-in-Charge signature to ensure the audit has occurred.

10. PHYSICAL/POSTINGS_ Colorado Code of Regulations, 5.01.31.d (2)

Issue	*Please place a sign on the door facing the pharmacy which separates the pharmacy from an adjacent room where drug stocks and the sink are stored in accordance with Rule 5.01.31.*
Plan of Correction:	It was found that the sign was present but not prominently placed. The sign was placed on the door facing the pharmacy which separates the pharmacy from the adjacent room and the sign states "This room is part of the Board-approved designated principal compounding/dispensing area."

RE: In the Matter of Alto Pharmacy

Dear Tsai Ling Jiang:

Enclosed is a copy of Agreed Board Order (ABO) #2024-01512 that was entered by the Texas State Board of Pharmacy (Board) concerning the above-referenced matter. The Board entered this Order on November 5, 2024. The requirements and conditions of the enclosed Order and matters relating to the Order are discussed below.

ADMINISTRATIVE PENALTY (FINE)

Under the terms of this Order, Alto Pharmacy (pharmacy license #34204) must pay an administrative penalty (fine) of $1,000. **This fine is due on or before March 5, 2025.** Please make your cashier's check or money order payable to the "Texas State Board of Pharmacy" and submit to the Board's office by the due date. Please include your ABO number (#2024-01512) on the cashier's check or money order. **Note:** The Board will **not** accept partial payments. You must submit payment for the full amount by the due date.

LICENSE RENEWAL APPLICATIONS

Prior to the next expiration date of pharmacy license #34204, the pharmacy will complete a license renewal application for the Texas State Board of Pharmacy. This application will require a pharmacy representative to answer the question:

> "Has the pharmacy, the pharmacy's owner or any officer or partner (if the pharmacy is owned by a corporation or partnership) been the subject of any professional disciplinary action or are any such actions pending against you by a regulatory authority within the last 36 months?..."

As a result of the entry of ABO #2024-01512, Alto Pharmacy must answer "yes" to this question for 36 months from the date of the termination of all sanctions. Consequently, an Alto Pharmacy representative must answer "yes" to this question on any renewal applications submitted beginning November 5, 2024 and ending 36 months following the termination of all sanctions.

If you have any questions about this Order, please contact Knijiah Samuel, Monitoring Specialist, at (512) 305-8054 or via monitoring@pharmacy.texas.gov.

AGREED BOARD ORDER #2024-01512

RE: IN THE MATTER OF
ALTO PHARMACY
(PHARMACY LICENSE #34204)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacy license number 34204 issued to Alto Pharmacy (Respondent), 645 Harrison Street, Suite 200, San Francisco, California 94107.

By letter dated July 19, 2024, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

Sections 562.101(f); and 565.002(a)(3) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2023); and

Section 291.103 of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2023), in that allegedly:

COUNT

From on or about September 28, 2023, through on or about November 29, 2023, Alto Pharmacy, 645 Harrison Street, Suite 200, San Francisco, California 94107, was engaged in the operation of a non-resident pharmacy in violation of Texas State Board of Pharmacy Rules, in that the pharmacy was not under the supervision of a pharmacist-in-charge licensed as a pharmacist in Texas.

By letter dated July 19, 2024, Respondent was notified that the matters previously set out in this Order could be disposed of without the scheduling of an informal conference or a formal administrative hearing. By signing this Order, Lisa Jurinka, Managing Officer, Alto Pharmacy LLC, on behalf of Respondent, and Kianna L. Sitarski, Legal Counsel for Respondent, neither admit nor deny the truth of the matters previously set out in this Order, and agree that the Board has jurisdiction in this matter and waive the right to an informal conference, notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Respondent shall pay an administrative penalty of one thousand dollars ($1,000) due one hundred twenty (120) days after the entry of this Order.

(2) Respondent shall allow Board staff to directly contact Respondent on any matter regarding the enforcement of this Order.

(3) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2023), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2024).

THIS ORDER IS A PUBLIC RECORD.

SIGNED AND ENTERED ON THIS 5th day of November, 2024.

		FACILITY	03/22/2023	California Board of Pharmacy (Case #: CI2022 96563) On March 22, 2023, the California Board of Pharmacy ("Board of Pharmacy")issued a Modified Citation and Fine ("Citation"), in which the Board of Pharmacy alleges, on or about July 2, 2022, the Licensee dispensed and delivered prescription drugs to a wrong address. On or about July 6, 2022, the prescription drugs were returned to the Licensee and afterwards placed into the Licensee's inventory. Further, Board of Pharmacy alleges the Licensee failed to quarantine and prepare the returned prescription drugs for destruction pursuant to Board of Pharmacy rules and regulations. Licensee acknowledges the returned prescription drugs were placed into inventory, not quarantined and prepared for destruction as required by Board of Pharmacy rules and regulations. Licensee agreed to pay the Board of Pharmacy's fine of $1,000 as indicated in the attached Citation. To ensure correct practices are followed, the Licensee's Compliance and Pharmacy Operations Departments have reviewed their Policies and Procedures, which address the handling of returned prescription drugs, with the staff at the pharmacy location. Staff has acknowledged the review, training and the proper procedures to follow when previously dispensed prescription drugs are returned to the pharmacy location. The Licensee's California Pharmacy Permit remains active, in good standing and unrestricted. Upon receipt of the fine, the Board of Pharmacy considered the matter closed and took no further action.

As a result of the explanation and information you provided at the office conference, the amount of the fines assessed in Citation and Fine, CI 2022 98558 have been reduced.

The modified Citation is attached and is hereby issued pursuant to California Code of Regulations, title 16, section 1775.4, subdivision (d).

If you desire a hearing to appeal the attached Citation, you must submit a written request for a hearing to the Board of Pharmacy ("Board") within 30 days of the date this Citation was issued. (See Bus. Prof. Code sec. 125.9, subd. (b)(4), and C.C.R., title 16, sec. 1775.4, subd. (d).). Unless the Board receives a written request within the 30 days, you will be deemed to have waived your right to a hearing in this matter and the Citation shall become the final order of the Board. If a hearing is not requested, the timely payment of the imposed fine(s) shall not constitute an admission of the violation(s) charged in the Citation.

Failure to pay any imposed fine(s) within 30 days of the date the Citation was issued may result in disciplinary action being taken.

If any fine(s) are not timely paid, then the full amount of the unpaid fine(s) shall be added to the fee for the renewal of your license. Your license shall not then be renewed without full payment of the renewal fee and the assessed fine(s).

If you have any questions regarding this Citation please contact Suelynn Yee, Citation and Fine Analyst at (916) 518-3013.

The attached Citation and Fine, ("Citation") is being issued pursuant to Business and Professions Code section 125.9 and California Code of Regulations, title 16, section 1775 et. seq., for violations of the laws and regulations that govern the practice of pharmacy in California. (For exact language refer to the California Pharmacy Law and Index, located on the Board's web site, at www.pharmacy.ca.gov, under Pharmacy Law and Regulation).

The attached Citation references the specific statutes and regulations violated, defines each violation charged and specifies any fine(s) assessed. The attached Citation details the conduct that resulted in the issuance of the Citation.

IT IS YOUR RESPONSIBILITY TO READ THE ENTIRE CITATION AND INSTRUCTIONS, TO UNDERSTAND THE PROCESS FOR CONTESTING THE CITATION AND TO RESPOND TO THE CITATION WITHIN THE FOLLOWING TIME FRAMES:

- August 13, 2023: Unless the Citation is contested payment of fine(s) must be received by the Board.
- July 28, 2023: Any contest of the Citation by request for an informal Office Conference must be received by the Board.
- August 13, 2023: Any contest of the Citation by request for a formal Appeal must be received by the Board.

The issuance of a Citation by the Board of Pharmacy is considered an administrative action and substantiated resolution of a complaint and/or investigation. If a hearing is not requested to contest the Citation(s), payment of any fine(s) shall not constitute an admission of the violation(s) charged. Payment in full of the fine(s) assessed shall be represented as a satisfactory resolution of the matter in any public disclosure. (Business and Professions Code section 125.9; California Code of Regulations section 1775).

Additionally, if, at the time of license renewal, the Board has not received full payment of assessed fine(s) and a request to contest the Citation has not been received within the time frames specified, the license shall not be renewed until the assessed fine(s) and renewal fee/s are paid in full.

If you have any questions regarding this Citation please contact Suelynn Yee, Citation and Fine Analyst at (916) 518-3013.

Unless contested, Citations are final 30 days from the date of service. Payment of a fine is not an admission of the violation charged. A Citation becomes part of your record, and remains there for five years. It can be used as an aggravating factor for future violations. Citations are public information and as such may be released to the public in accordance with the Public Records Act and Information Practices Act.

CONTESTING THE CITATION (CCR §1775.4)

If you wish to contest all or part of your Citation you may request an informal office conference or an appeal before an administrative law judge, or both. If you wish to request both you must submit both forms. If you prevail at the office conference your request for an appeal shall be deemed withdrawn. Please note that the time frames that allow you to request an office conference and an appeal run concurrently. You must submit your request(s) according to the following instructions:

REQUEST FOR OFFICE CONFERENCE (CCR §1775.4 subd. (b))

- Complete attached "Request for Office Conference".
- Mail form to arrive at the Board office no later than July 28, 2023 to the address at the bottom of the form.
- You will be advised by the Board in writing as to the date and time of your appearance.
- You are allowed one postponement.

An office conference is not a hearing. It is an informal discussion of the events that took place, and an opportunity for you to present information and mitigating factors pertaining to the Citation that you would like considered. The Executive Officer and or her designee represent the Board of Pharmacy at this meeting. One other individual of your choice may accompany you to this meeting. Office conferences are not open to the public. There is no discovery available in this process. You will not be allowed to present or question witnesses. However, you may present any written statements or documents that you believe are relevant.

After your office conference, the Citation may be affirmed, modified or dismissed. You will be advised of the decision in writing within 14 calendar days from the date of the conference. If the Citation is affirmed you will have 30 days from the date of the decision letter to comply with the conditions of your Citation. If the Citation is modified, the Citation originally issued shall be considered withdrawn and a new Citation will be issued. The decision issued after the office conference shall be deemed to be a final order with regard to the Citation issued, including the administrative fine levied, and/or an order of abatement.

REQUEST FOR APPEAL (CCR § 1775.4 subd. (a))

- Complete attached "Request for Hearing".
- Mail form to arrive at the Board office no later than August 13, 2023 to the address at the bottom of the form.
- You will be advised in writing as to the date and time of your hearing.

An appeal is a formal adjudicative hearing before an Administrative Law Judge. A Deputy Attorney General will represent the Board of Pharmacy at this hearing. These proceedings shall be conducted in accordance with the provisions of Chapter 5, commencing with Section 11500 of Part 1 of Division 3 of Title 2 of the Government Code.

CONDUCT:

Unprofessional conduct: Business and Professions Code section 733, subsection (a) states, a licentiate shall not obstruct a patient in obtaining a prescription drug or device that has been legally prescribed or ordered for that patient. A violation of this section constitutes unprofessional conduct by the licentiate and shall subject the licentiate to disciplinary or administrative action by his or her licensing agency. Subsection (b) states notwithstanding any other law, a licentiate shall dispense drugs and devices, as described in subdivision (a) of section 4024, pursuant to a lawful order or prescription unless one of the following circumstances exist subsection (2) (A) states, immediately notify the patient and arrange for the drug or device to be delivered to the site or directly to the patient in a timely manner. Alto Pharmacy, PHY58642, failed to comply. Specifically, on 5/18/2022, Dr. Shammas sent a prescription for EW for 30 tablets of Paxlovid 150 – 100 mg to Alto Pharmacy. On 5/18/2022, the prescription was processed under Rx774057005, and the data entry was verified by pharmacist Cynetha Lee at Alto Pharmacy Plano Texas, NRP2529, located at 6201 W Plano PKWY, Suite 400, Plano, TX. On 5/18/2022, upon completion of the data entry verification, the prescription was placed in the fulfillment queue at Alto Pharmacy Los Angeles, PHY58642, located at 5916 Bowcroft Street, Los Angeles, CA to fill the prescription. Two days later, on 5/20/2022, the pharmacists at Alto Pharmacy Los Angeles contacted Alto Pharmacy Clinical Care Specialist to inform EW that Alto Pharmacy Los Angeles cannot fill the prescription because Alto Pharmacy Los Angeles was a site not allocated to dispense Paxlovid thereby unable to obtain the medication to fill the prescription.

Alto Pharmacy failed to establish procedures or failed to update their computer software such that Alto Pharmacy staff are alerted that California Alto Pharmacy facilities do not dispense Paxlovid. Consequently, Alto Pharmacy obstructed EW from obtaining her prescription for Paxlovid in a timely manner.
oOn 5/18/2022, Alto Pharmacy's Clinical Care Specialist informed EW that Alto Pharmacy had Paxlovid in stock instead of informing EW on 5/20/2022 that Alto Pharmacy California facilities do not dispense Paxlovid.
oOn 5/18/2022, EW's prescription for Paxlovid was processed at Alto Pharmacy Plano Texas. The technician who processed the prescription and Pharmacist Cynetha Lee who verified the data entry of the prescription on 5/18/2022 should have informed the Care

Specialist to inform EW that California Alto Pharmacy facilities do not dispense Paxlovid. oOn 5/18/2022, EW's Paxlovid prescription was placed in queue at Alto Pharmacy Los Angeles for filling. On 5/18/2022, the staff at Alto Pharmacy Los Angeles should have alerted the Care team to inform EW that Alto Pharmacy Los Angles cannot fill her prescription for Paxlovid because the pharmacy was not allocated to dispense Paxlovid.

Had Alto Pharmacy established procedures or updated their computer software, the staff at Alto Pharmacy could have informed EW on 5/18/2022 that her prescription for Paxlovid cannot be filled at Alto Pharmacy Los Angeles.
On 5/20/2022, EW contacted Dr. Shammas to send another prescription for Paxlovid to CVS Pharmacy 9660. The prescription was filled but was not delivered until 5/21/2022. Alto Pharmacy obstructed EW from obtaining from obtaining her prescription for Paxlovid, a medication which needed to be started within five days from the onset of COVID-19 symptoms, a violation of Business and Professions Code 733 (a).

An agent of the Texas State Board of Pharmacy has inspected your pharmacy. The results of this inspection have been noted.

- Items designated as "Refer to Legal" must be rectified immediately. In addition, the matter discovered during the inspection and deemed to be a serious violation by the inspector will be referred to the Legal Division for review and possible disciplinary action; and
- Items designated as "Warning Notice" must be corrected by the deadline noted to ensure compliance with the laws and rules governing the practice of pharmacy (Note: A "Warning Notice" is issued for a minor violation, and does not equate to disciplinary action).

Affidavit for Pharmacy License

I, Lisa M. Jurinka hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Secretary (title) for Alto Pharmacy, LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

Texas State Board of Pharmacy
"Red Flags" Checklist for Pharmacies
YOU MIGHT BE A PILL MILL IF...

Check all that apply:

	(1) Your pharmacy fills a discernable pattern of prescriptions for prescribers who write essentially the same prescriptions for numerous persons, indicating a lack of individual drug therapy
	(2) Your pharmacy operates with limited hours of operation or closes after a certain threshold of controlled substance prescriptions are dispensed, and has overall low prescription dispensing volume.
	(3) Prescriptions presented to the pharmacy are for controlled substances with popularity as street drugs, such as opiates, benzodiazepines, muscle relaxants, psychostimulants, and/or cough syrups, or any combination of these drugs.
	(4) The prescriptions for controlled substances contain nonspecific or no diagnoses.
	(5) The prescriptions are commonly for the highest strength of the drug and/or for large quantities.
	(6) Dangerous drugs or OTC products (such as multi-vitamins or laxatives) are added to the controlled substance prescriptions, maintaining relatively consistent 1:1 ratio of controlled substances to dangerous drugs and/or OTC products dispensed as prescriptions.
	(7) Prescriptions are authorized by the same prescriber with what appears to be different handwriting on the hardcopy prescription drug order forms.
	(8) Upon contact with the prescriber's office, you are unable to engage in comprehensive discussion with the actual prescriber, or he/she is unconcerned about your apprehensions regarding his/her prescribing practices or unwilling to provide additional information, such as treatment goals and/or prognosis with prescribed drug therapy.
	(9) You rely solely on the prescriber's representation, or on the representation of the individual answering the phone at the number on the prescription, that prescriptions are legitimate.
	(10) The prescriber's clinic is not registered as a pain management clinic by the Texas Medical Board, despite routinely receiving prescriptions from the prescriber foropiates, benzodiazepines, and/or muscle relaxants.
	(11) Drugs prescribed are inconsistent with the prescriber's area of practice.
	(12) The prescriber of the drugs is located a significant distance from your pharmacy.
	(13) The prescriber has been subject to disciplinary action by the licensing board, had his/her DEA registration removed, or been subject to criminal action.
	(14) The Texas PMP system indicates that persons are obtaining prescriptions for the same drugs from multiple prescribers or that persons are filling prescriptions for the same drugs at multiple pharmacies.
	(15) The person's address is a significant distance from your pharmacy and/or from the prescriber's office.
	(16) Multiple persons with the same address present prescriptions from the same prescriber.
	(17) Persons pay with cash or credit card more often than through insurance.
	(18) Persons presenting controlled substance prescriptions are doing so in such a manner that varies from seeking routine pharmacy services (e.g., willing to wait in long lines to receive drugs, persons arrive in the same vehicle with prescriptions from same prescriber, one person presents to pick up prescriptions for multiple others, persons refer to drugs by "street names" and/or comment on drug's color, persons seek early refills, persons travel from outside reasonable trade area of pharmacy).
	(19) Your pharmacy charges and persons are willing to pay more for controlled substances than they would at nearby pharmacies.
	(20) Your pharmacy routinely orders controlled substances from more than one drug supplier, or your pharmacy has been discontinued by a drug supplier related to controlled substance orders.
	(21) Sporadic and non-consistent dispensing volume (including zero dispensing) varies from day to day and week to week, and your pharmacy does not maintain operational hours each week on Monday through Friday.
	(22) Your pharmacy employs or contracts security personnel during operational hours to prevent problems.
	(23) Your pharmacy has been previously warned or disciplined by the Texas State Board of Pharmacy for inappropriate dispensing of controlled substances (i.e., corresponding responsibility).

If you checked any of the above items, you should review the laws and rules regarding corresponding responsibility and non-therapeutic dispensing, especially Board rule §291.29, in the law book or on our website: www.pharmacy.texas.gov (click on Texas Pharmacy Rules and Laws). Additional educational material is available at: http://www.pharmacy.texas.gov/Nontherapeutic.asp. Failure of pharmacies and pharmacists to detect patterns of inappropriate dispensing of prescription drugs is unprofessional practice and constitutes grounds for disciplinary action.

		FACILITY	09/26/2024	Texas Board of Pharmacy (Case #: 2024-01512) On July 19, 2024, the Texas Board of Pharmacy ("Board of Pharmacy") issued an Agreed Board Order ("ABO") in which the Board of Pharmacy alleges, from about September 28, 2023, through on or about November 29, 2023, Alto Pharmacy, located at 645 Harrison Street, Suite 200, San Francisco, CA 94107, Texas Non-Resident Pharmacy Permit #: 34204, operated without a Texas licensed pharmacist named on the Texas Non-Resident Pharmacy Permit. Alto Pharmacy acknowledges operating without the required Texas licensed pharmacist, Alto Pharmacy further acknowledges contact, and correspondence was made with the Board of Pharmacy, requesting guidance and direction on operating without a Texas licensed pharmacist. The Board of Pharmacy and Alto Pharmacy finalized the ABO on November 5, 2024, and a fine of $1,000 was paid. Alto Pharmacy's Texas Non-Resident Pharmacy Permit remains active, in good standing and unrestricted. The Board of Pharmacy considered the matter closed and took no further action.

RE: In the Matter of Alto Pharmacy

Dear Tsai Ling Jiang:

Enclosed is a copy of Agreed Board Order (ABO) #2024-01512 that was entered by the Texas State Board of Pharmacy (Board) concerning the above-referenced matter. The Board entered this Order on November 5, 2024. The requirements and conditions of the enclosed Order and matters relating to the Order are discussed below.

ADMINISTRATIVE PENALTY (FINE)

Under the terms of this Order, Alto Pharmacy (pharmacy license #34204) must pay an administrative penalty (fine) of $1,000. **This fine is due on or before March 5, 2025.** Please make your cashier's check or money order payable to the "Texas State Board of Pharmacy" and submit to the Board's office by the due date. Please include your ABO number (#2024-01512) on the cashier's check or money order. **Note:** The Board will **not** accept partial payments. You must submit payment for the full amount by the due date.

LICENSE RENEWAL APPLICATIONS

Prior to the next expiration date of pharmacy license #34204, the pharmacy will complete a license renewal application for the Texas State Board of Pharmacy. This application will require a pharmacy representative to answer the question:

> "Has the pharmacy, the pharmacy's owner or any officer or partner (if the pharmacy is owned by a corporation or partnership) been the subject of any professional disciplinary action or are any such actions pending against you by a regulatory authority within the last 36 months?..."

As a result of the entry of ABO #2024-01512, Alto Pharmacy must answer "yes" to this question for 36 months from the date of the termination of all sanctions. Consequently, an Alto Pharmacy representative must answer "yes" to this question on any renewal applications submitted beginning November 5, 2024 and ending 36 months following the termination of all sanctions.

If you have any questions about this Order, please contact Knijiah Samuel, Monitoring Specialist, at (512) 305-8054 or via monitoring@pharmacy.texas.gov.

AGREED BOARD ORDER #2024-01512

RE: IN THE MATTER OF
ALTO PHARMACY
(PHARMACY LICENSE #34204)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacy license number 34204 issued to Alto Pharmacy (Respondent), 645 Harrison Street, Suite 200, San Francisco, California 94107.

By letter dated July 19, 2024, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

Sections 562.101(f); and 565.002(a)(3) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2023); and

Section 291.103 of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2023), in that allegedly:

COUNT

From on or about September 28, 2023, through on or about November 29, 2023, Alto Pharmacy, 645 Harrison Street, Suite 200, San Francisco, California 94107, was engaged in the operation of a non-resident pharmacy in violation of Texas State Board of Pharmacy Rules, in that the pharmacy was not under the supervision of a pharmacist-in-charge licensed as a pharmacist in Texas.

By letter dated July 19, 2024, Respondent was notified that the matters previously set out in this Order could be disposed of without the scheduling of an informal conference or a formal administrative hearing. By signing this Order, Lisa Jurinka, Managing Officer, Alto Pharmacy LLC, on behalf of Respondent, and Kianna L. Sitarski, Legal Counsel for Respondent, neither admit nor deny the truth of the matters previously set out in this Order, and agree that the Board has jurisdiction in this matter and waive the right to an informal conference, notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Respondent shall pay an administrative penalty of one thousand dollars ($1,000) due one hundred twenty (120) days after the entry of this Order.

(2) Respondent shall allow Board staff to directly contact Respondent on any matter regarding the enforcement of this Order.

(3) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2023), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2024).

THIS ORDER IS A PUBLIC RECORD.

SIGNED AND ENTERED ON THIS 5th day of November, 2024.

Alto Pharmacy LLC				
Alto Pharmacy LLC - San Francisco, California				
		FACILITY	03/22/2023	California Board of Pharmacy (Case #: CI2022 96563) On March 22, 2023, the California Board of Pharmacy ("Board of Pharmacy")issued a Modified Citation and Fine ("Citation"), in which the Board of Pharmacy alleges, on or about July 2, 2022, the Licensee dispensed and delivered prescription drugs to a wrong address. On or about July 6, 2022, the prescription drugs were returned to the Licensee and afterwards placed into the Licensee's inventory. Further, Board of Pharmacy alleges the Licensee failed to quarantine and prepare the returned prescription drugs for destruction pursuant to Board of Pharmacy rules and regulations. Licensee acknowledges the returned prescription drugs were placed into inventory, not quarantined and prepared for destruction as required by Board of Pharmacy rules and regulations. Licensee agreed to pay the Board of Pharmacy's fine of $1,000 as indicated in the attached Citation. To ensure correct practices are followed, the Licensee's Compliance and Pharmacy Operations Departments have reviewed their Policies and Procedures, which address the handling of returned prescription drugs, with the staff at the pharmacy location. Staff has acknowledged the review, training and the proper procedures to follow when previously dispensed prescription drugs are returned to the pharmacy location. The Licensee's California Pharmacy Permit remains active, in good standing and unrestricted. Upon receipt of the fine, the Board of Pharmacy considered the matter closed and took no further action.

As a result of the explanation and information you provided at the office conference, the amount of the fines assessed in Citation and Fine, CI 2022 98558 have been reduced.

The modified Citation is attached and is hereby issued pursuant to California Code of Regulations, title 16, section 1775.4, subdivision (d).

If you desire a hearing to appeal the attached Citation, you must submit a written request for a hearing to the Board of Pharmacy ("Board") within 30 days of the date this Citation was issued. (See Bus. Prof. Code sec. 125.9, subd. (b)(4), and C.C.R., title 16, sec. 1775.4, subd. (d).). Unless the Board receives a written request within the 30 days, you will be deemed to have waived your right to a hearing in this matter and the Citation shall become the final order of the Board. If a hearing is not requested, the timely payment of the imposed fine(s) shall not constitute an admission of the violation(s) charged in the Citation.

Failure to pay any imposed fine(s) within 30 days of the date the Citation was issued may result in disciplinary action being taken.

If any fine(s) are not timely paid, then the full amount of the unpaid fine(s) shall be added to the fee for the renewal of your license. Your license shall not then be renewed without full payment of the renewal fee and the assessed fine(s).

If you have any questions regarding this Citation please contact Suelynn Yee, Citation and Fine Analyst at (916) 518-3013.

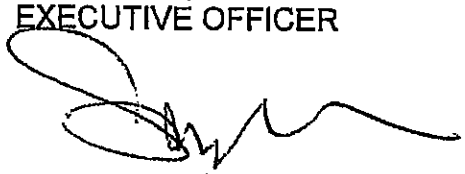
IT IS YOUR RESPONSIBILITY TO READ THE ENTIRE CITATION AND INSTRUCTIONS, TO UNDERSTAND THE PROCESS FOR CONTESTING THE CITATION AND TO RESPOND TO THE CITATION WITHIN THE FOLLOWING TIME FRAMES:



- August 13, 2023: Unless the Citation is contested payment of fine(s) must be received by the Board.
- July 28, 2023: Any contest of the Citation by request for an informal Office Conference must be received by the Board.
- August 13, 2023: Any contest of the Citation by request for a formal Appeal must be received by the Board.

The issuance of a Citation by the Board of Pharmacy is considered an administrative action and substantiated resolution of a complaint and/or investigation. If a hearing is not requested to contest the Citation(s), payment of any fine(s) shall not constitute an admission of the violation(s) charged. Payment in full of the fine(s) assessed shall be represented as a satisfactory resolution of the matter in any public disclosure. (Business and Professions Code section 125.9; California Code of Regulations section 1775).

Additionally, if, at the time of license renewal, the Board has not received full payment of assessed fine(s) and a request to contest the Citation has not been received within the time frames specified, the license shall not be renewed until the assessed fine(s) and renewal fee/s are paid in full.

If you have any questions regarding this Citation please contact Suelynn Yee, Citation and Fine Analyst at (916) 518-3013.

INSTRUCTION

Read the Following Carefully and Thoroughly

You are hereby served with a Citation issued by the Executive Officer of the California State Board of Pharmacy or her designee. The following instructions are provided to assist you in your timely completion of the Citation process.

PAYMENT OF FINE

- Payment must be made by **August 13, 2023.**
- Make check or money order payable to the Board of Pharmacy. Do not submit cash.
- Attach the enclosed "copy" of your Citation

Mail payment to: State Board of Pharmacy
Attn: Cashier
2720 Gateway Oaks Drive, Suite 100
Sacramento, CA 95833

Unless contested, Citations are final 30 days from the date of service. Payment of a fine is not an admission of the violation charged. A Citation becomes part of your record, and remains there for five years. It can be used as an aggravating factor for future violations. Citations are public information and as such may be released to the public in accordance with the Public Records Act and Information Practices Act.

CONTESTING THE CITATION (CCR §1775.4)

If you wish to contest all or part of your Citation you may request an informal office conference or an appeal before an administrative law judge, or both. If you wish to request both you must submit both forms. If you prevail at the office conference your request for an appeal shall be deemed withdrawn. Please note that the time frames that allow you to request an office conference and an appeal run concurrently. You must submit your request(s) according to the following instructions:

REQUEST FOR OFFICE CONFERENCE (CCR §1775.4 subd. (b))

- Complete attached "Request for Office Conference".
- Mail form to arrive at the Board office no later than July 28, 2023 to the address at the bottom of the form.
- You will be advised by the Board in writing as to the date and time of your appearance.
- You are allowed one postponement.

An office conference is not a hearing. It is an informal discussion of the events that took place, and an opportunity for you to present information and mitigating factors pertaining to the Citation that you would like considered. The Executive Officer and or her designee represent the Board of Pharmacy at this meeting. One other individual of your choice may accompany you to this meeting. Office conferences are not open to the public. There is no discovery available in this process. You will not be allowed to present or question witnesses. However, you may present any written statements or documents that you believe are relevant.

After your office conference, the Citation may be affirmed, modified or dismissed. You will be advised of the decision in writing within 14 calendar days from the date of the conference. If the Citation is affirmed you will have 30 days from the date of the decision letter to comply with the conditions of your Citation. If the Citation is modified, the Citation originally issued shall be considered withdrawn and a new Citation will be issued. The decision issued after the office conference shall be deemed to be a final order with regard to the Citation issued, including the administrative fine levied, and/or an order of abatement.

REQUEST FOR APPEAL (CCR § 1775.4 subd. (a))

- Complete attached "Request for Hearing".
- Mail form to arrive at the Board office no later than August 13, 2023 to the address at the bottom of the form.
- You will be advised in writing as to the date and time of your hearing.

An appeal is a formal adjudicative hearing before an Administrative Law Judge. A Deputy Attorney General will represent the Board of Pharmacy at this hearing. These proceedings shall be conducted in accordance with the provisions of Chapter 5, commencing with Section 11500 of Part 1 of Division 3 of Title 2 of the Government Code.

If you have any questions regarding any documents enclosed please contact Suelynn Yee, Citation and Fine Analyst at (916) 518-3013.

Unprofessional conduct: Business and Professions Code section 733, subsection (a) states, a licentiate shall not obstruct a patient in obtaining a prescription drug or device that has been legally prescribed or ordered for that patient. A violation of this section constitutes unprofessional conduct by the licentiate and shall subject the licentiate to disciplinary or administrative action by his or her licensing agency. Subsection (b) states notwithstanding any other law, a licentiate shall dispense drugs and devices, as described in subdivision (a) of section 4024, pursuant to a lawful order or prescription unless one of the following circumstances exist subsection (2) (A) states, immediately notify the patient and arrange for the drug or device to be delivered to the site or directly to the patient in a timely manner. Alto Pharmacy, PHY58642, failed to comply. Specifically, on 5/18/2022, Dr. Shammas sent a prescription for EW for 30 tablets of Paxlovid 150 – 100 mg to Alto Pharmacy. On 5/18/2022, the prescription was processed under Rx774057005, and the data entry was verified by pharmacist Cynetha Lee at Alto Pharmacy Plano Texas, NRP2529, located at 6201 W Plano PKWY, Suite 400, Plano, TX. On 5/18/2022, upon completion of the data entry verification, the prescription was placed in the fulfillment queue at Alto Pharmacy Los Angeles, PHY58642, located at 5916 Bowcroft Street, Los Angeles, CA to fill the prescription. Two days later, on 5/20/2022, the pharmacists at Alto Pharmacy Los Angeles contacted Alto Pharmacy Clinical Care Specialist to inform EW that Alto Pharmacy Los Angeles cannot fill the prescription because Alto Pharmacy Los Angeles was a site not allocated to dispense Paxlovid thereby unable to obtain the medication to fill the prescription.

Alto Pharmacy failed to establish procedures or failed to update their computer software such that Alto Pharmacy staff are alerted that California Alto Pharmacy facilities do not dispense Paxlovid. Consequently, Alto Pharmacy obstructed EW from obtaining her prescription for Paxlovid in a timely manner.

Subject: Ownership Statement for E-RxHub

Dear Members of the Nevada State Board of Pharmacy,

This letter is to formally declare that I, Meriam Ibrahim, am the sole owner of E-RxHub, a licensed pharmacy operating at 13940 N Dale Mabry Hwy, Tampa, Florida 33618.

There are no other individuals or entities with ownership interest, financial stake, or decision-making authority in the business. I serve as the Chief Executive Officer and have full authority over the operations, financials, and compliance matters of the pharmacy.

Please feel free to contact me should you require any additional documentation or clarification regarding this matter. I appreciate your attention to this submission as part of our application for non-resident pharmacy licensure in the State of Nevada.

Sincerely,

Meriam Ibrahim
Chief Executive Officer
E-RxHub

State of Florida
Department of State

I certify from the records of this office that E-RXHUB LLC is a limited liability company organized under the laws of the State of Florida, filed on September 17, 2024, effective September 12, 2024.

INSTRUCTIONS FOR COMPLETING THIS FORM

Any acknowledgment completed in California must contain verbiage exactly as appears above in the notary section or a separate acknowledgment form must be properly completed and attached to that document. The only exception is if a document is to be recorded outside of California. In such instances, any alternative acknowledgment verbiage as may be printed on such a document so long as the verbiage does not require the notary to do something that is illegal for a notary in California (i.e. certifying the authorized capacity of the signer). Please check the document carefully for proper notarial wording and attach this form if required.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/she/~~they,~~ is /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document

Topics to Educate

1. BPC 4052.04 – Pharmacist may furnish COVID-19 oral therapeutics following a positive test.
   - "COVID-19 oral therapeutics" means drugs that are approved or authorized by the FDA for the treatment of COVID-19 and administered orally.
   - Prior to furnishing COVID-19 oral therapeutics, a pharmacist shall utilize relevant and appropriate evidence-based clinical guidelines published by FDA in providing these patient care services.
   - A pharmacist who furnishes COVID-19 oral therapeutics shall notify patient's PCP or enter appropriate information into patient record system shared with PCP, as permitted by that PCP. If the patient does not have a PCP, the pharmacist shall provide the patient with a written record of the drugs furnished and advise the patient to consult a physician of the patient's choice.
   - Document the kind and amounts of COVID-19 oral therapeutics furnished, as well as any information regarding testing services

INSPECTION REPORT

provided, in the patient's record in the record system maintained by the pharmacy.

- Retain records for 3 years.

2. BPC 4113 – PIC authority to make staffing decisions
   - PIC may make staffing decisions to ensure sufficient personnel are present in the pharmacy to prevent fatigue, distraction, or other conditions that may interfere with a pharmacist's ability to practice competently and safely.
   - If PIC is not available, a pharmacist on duty may adjust staffing according to workload if needed.
   - PIC or pharmacist on duty shall immediately notify the store management of any conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff. If the conditions are not resolved within 24 hours, the PIC or RPH on duty shall ensure the BOP is timely notified. Conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff include, but are not limited to:
     - Workplace safety and health hazards that present an immediate risk of death, illness or irreparable harm to patients, personnel, or pharmacy staff.
     - Sustained temperatures that could impact ambient temperature drug stability according to manufacturer data on acceptable drug storage conditions.
     - Vermin infestation that poses a risk to the safety or efficacy of medicine.
3. BPC 4113.1 – Reporting medication errors within 14 days from discovery.
   - Applies to "community pharmacies" – *i.e.*, any pharmacy that dispenses medication to an outpatient (but not including facilities of CDCR).
   - Per the BOP's AB 1286 Implementation Statement, the reporting of medication errors under BPC 4113.1 will not be required until the BOP approves an entity to receive the reports.
4. BPC 4113.6 – Chain community pharmacy subject to BPC 4113.5 must be staffed at all times with at least one clerk or pharmacy technician fully dedicated to performing pharmacy-related services. The BOP will not take action against a pharmacy for violation of this staffing requirement if any of the following conditions apply:
   - RPH on duty waives the requirement in writing during specified hours based on workload need.
   - The pharmacy is open beyond normal business hours (*i.e.*, before 8am, after 7pm). During the hours before 8am and after 7pm, the staffing requirement shall not apply.
   - The pharmacy's prescription volume per day on average is less than 75 prescriptions per day based on the average daily prescription volume for the past calendar year. However, if the pharmacist is also expected to provide additional pharmacy services (such as immunizations or CLIA-waived tests) this exception does not apply.

   When staffing of pharmacist hours within a chain community pharmacy does not overlap sufficiently, scheduled closures for lunch time for all pharmacy staff shall be established and publicly posted, and included on the outgoing telephone message.
5. BPC 4115 – Pharmacy technician may, under the direct supervision and control of a pharmacy, prepare and administer influenza and COVID-19 vaccines via injection or intranasally, prepare and administer epinephrine, perform specimen collection for tests that are CLIA waived, receive prescription transfers, and accept clarification on prescriptions under certain specified conditions.
6. BPC 4231 – CE required for pharmacists to renew their pharmacist license must now include at least one hour of participation in a cultural competency course which meets specified requirements.
7. The Board has posted on its website the FAQ's to address the changes in pharmacy law related AB1286, dated 12/21/2023. Here's the link: https://pharmacy.ca.gov/publications/ab1286_faqs.pdf

INSPECTION REPORT

November 1, 2023, is the compendial date for several USP General Chapters, including General Chapters <795> Pharmaceutical Compounding—Nonsterile Preparations, <797> Pharmaceutical Compounding—Sterile Preparations, <800> Hazardous Drugs—Handling in Healthcare Settings, and <825> Radiopharmaceuticals—Preparation, Compounding, Dispensing, and Repackaging. Consistent with the policy statement the Board released on September 12, 2023, it is the Board's expectation that licensees are moving forward with all necessary implementation activities to comply with the updated USP compounding standards.

The Board has undertaken a review of its compounding regulations and identified changes necessary to clarify or make more specific requirements of federal law and USP General Chapters.

During this transition period, licensees are encouraged to monitor the regulation process for updates, including signing up for the Board's subscriber alert system and by checking the Board's website.

Licensees are reminded to also ensure continuing compliance with other laws, regulations, and requirements that may apply to their activities, including, without limitation: the Federal Food, Drug, and Cosmetic Act (21 USC §§ 321–399i), including Section 503A thereof (21 USC § 353a); provisions of California's Sherman Food, Drug, and Cosmetic Law (Health and Safety Code §§ 109875–111929.4); and laws, regulations, and requirements related to radiopharmaceuticals and/or the handling of hazardous drugs, including requirements established by Cal/OSHA.

Affidavit for Pharmacy License

I, Ben Blanchard hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Chief Pharmacy Officer (title) for Vibrix Pharmacy (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

Affidavit for Pharmacy License

I, Maria Kraus hereby certify that the assertions in this Affidavit are true and correct to the best of my knowledge and belief, and state as follows:

1. I am the Chief Financial Officer (title) for Wedgewood Pharmacy LLC (name of Pharmacy) and in that capacity, I am authorized to speak on the Pharmacy's behalf.
2. I certify that upon licensure, the Pharmacy will not perform sterile compounding or ship sterile compounds into Nevada.
3. I understand and acknowledge that the Pharmacy and any of its staff members may be subject to discipline by the Board if the Pharmacy performs sterile compounding or ships any sterile compounds into Nevada without first obtaining written authorization from the Board to do so.
4. I certify that if the Pharmacy makes the decision to perform sterile compounding or to ship any sterile compounds into Nevada, the Pharmacy, through an authorized representative, will first notify the Board via a written request, and obtain written approval to perform sterile compounding or to ship any sterile compounds into Nevada.
5. I understand that if the Pharmacy seeks approval to perform sterile compounding or to ship any sterile compounds into Nevada, an authorized representative of the Pharmacy may be required to appear before the Board to answer questions before such approval is granted.

3. Has the corporation, any owner(s), shareholder(s) or partner(s) with any interest, ever been subject of an administrative action, board citation, cite fine, or proceeding relating to the pharmaceutical industry?

Please note that the answer to this question is 'no' in regard to this licensee located in Chandler, AZ; however, since the question appears to ask for information related to the owner, Wedgewood wishes to disclose the following:

03/19/2015 – MN/MI/AL Consent Orders – Swedesboro location only

Wedgewood Village Pharmacy, LLC ("*Wedgewood*") entered into a Consent Order with the Alabama Board of Pharmacy to resolve a "sister state" matter based on a 2015 Minnesota discipline and a subsequent "sister state" discipline from Michigan. Wedgewood entered into a stipulation and consent order with the Minnesota Board of Pharmacy for purposes of settlement only in 2015. Acting on a reasonable and good faith interpretation of Minnesota law, Wedgewood had dispensed compounds into Minnesota to a licensed veterinarian pursuant to a veterinarian's order for office use. The Minnesota Board of Pharmacy, however, asserted that Wedgewood needed a wholesaler license to dispense into Minnesota in this manner. For purposes of settlement only and admitting no wrongdoing, Wedgewood entered into a stipulation and consent order with Minnesota. Wedgewood subsequently entered into a consent order with Michigan to resolve a "sister state" matter based on the 2015 Minnesota discipline.

10/22/2015 – New Jersey Consent Agreement – Swedesboro location only

On October 22, 2015, Wedgewood Village Pharmacy, Inc., entered into a Consent Agreement with the New Jersey Board of Pharmacy resolving a dispute between the parties on the application of "beyond use dating" regulations for sterile compounds.

This is the same order that is referenced on the Swedesboro, NJ facility's home license however, per the terms of the Agreement, it is not to be construed as discipline and any reimbursement paid to the Board is not considered a fine or other sanction.

10/13/2017 – California Citation & Fine – Swedesboro location only

Issued as a result of an investigation by the CA BOP into an unlicensed individual who fraudulently set up an account with Wedgewood as a veterinarian using valid prescriber license information he acquired unlawfully. An administrative citation was issued and Wedgewood paid a nominal fine.

12/5/2018 – California Citation – Swedesboro location only

The California Board of Pharmacy issued a non-disciplinary, Administrative Citation with no penalty or fine based on a California Board inspector's interpretation of California regulations. In the Inspector's opinion, providing a 15ml ophthalmic container to a veterinarian for office use exceeded the "reasonable quantity" limitation for office use compounds. Wedgewood discontinued sales of all 15ml ophthalmic container for office use to California veterinarians. The Board issued a No penalty or Close Out letter on March 1, 2019. No penalty or fine was assessed.

6/17/2021 – California Citation & Fine – Swedesboro location only

Received notification of a non-disciplinary, Administrative Citation which was finalized on 07/29/2021. A fine was paid as part of the final citation. The basis for the citation was that Wedgewood did not have the necessary data to support the "beyond use dates" Wedgewood used.

10/18/2023 – DEA Letter of Admonition – Scottsdale location only

The Letter of Admonition contains some observations that Wedgewood considers minor and for which Wedgewood has put a corrective plan in place to address.

3/22/24 – California Stipulation Settlement and Disciplinary Order for Public Reproval – Swedesboro location only

On February 21, 2024, the California Board of Pharmacy (the "Board") approved a Stipulated Settlement and Disciplinary Order for Public Reproval entered into with Wedgewood Village Pharmacy LLC relating to claims made by the Board regarding assignment of unsupported beyond use dates and other matters. The Order became effective on March 22, 2024 and Wedgewood agreed to pay the Board $11,054.75 as reimbursement of its costs in connection with this matter.

03/05/2025 Commonwealth of Pennsylvania – Swedesboro location only

On March 5, 2025, Wedgewood entered into a Consent Order with the Commonwealth of Pennsylvania to resolve a "sister state" action that arose out of self-reporting the California Board of Pharmacy Stipulated Settlement relating to assignment of unsupported beyond use dates and other matters.

This Consent Order did not include any findings or fact or penalties and merely represents the closure of the Board's review of the previously disclosed Stipulated Settlement with the California Board of Pharmacy.

As the employed/contracted pharmacist, for (ASC/RC Name): Medical & Dental Center of Nevada LLC :

I understand that I am responsible for establishing policies and procedures which (NAC 639.4996):

a) Are consistent with the policies and procedures developed pursuant to NAC 639.447;
b) Require to maintain records in accordance with the provisions of NAC 639.485 and 639.485;
c) Address the purchase, storage, maintenance of records and dispensing of drugs and investigational drugs;
d) Require maintenance of a perpetual inventory of all controlled substances;
e) Prescribe the procedure for quarantining and destroying drugs and investigational drugs that are expired, adulterated, mislabeled or otherwise unsafe for human use;
f) Require the storage of drugs and investigational drugs in accordance with the specifications of the manufacturer;
g) Ensure that the ASC and RC dispenses drugs and investigational drugs pursuant to chart orders and in accordance with applicable state and federal laws; and
h) Ensure that all compounding is
    a. Performed by a registered pharmacist in accordance with the provisions of NRS and NAC 639; or
    b. If performed by an employee of the ASC or RC, other than a registered pharmacist, performed:
        i. In accordance with the provisions of NRS and NAC 639;
        ii. In a location designated for compounding that is clean and disinfected before each act of compounding; and
        iii. By a person who has completed training for the type of compounding that will be performed.

I understand that I shall (NAC 639.4998):

a) Visit the ASC or RC at least once each month to:
    a. Evaluate the effectiveness of the policies and procedures established pursuant to NAC 693.4996; and
    b. Confirm that the ASC or RC is complying with those policies and procedures, the below provisions.
b) Maintain documentation of each visit that the pharmacist makes;
c) Conduct an audit at least once each month using a sufficient number of records of the ASC or RC, including, without limitation, records of patients and records relating to the purchasing, storing and dispensing of drugs and investigational drugs, which must be randomly selected, to determine whether:
    a. The records indicate that the drugs and investigational drugs are dispensed in a safe and effective manner in accordance with accepted standards of practice and the specifications of the manufacturer;
    b. Drugs and investigational drugs are diluted in accordance with accepted standards of practice or pursuant to the specifications of the manufacturer;
    c. The records demonstrate:
        i. That a discrepancy does not exist in the number of drugs and investigational drugs that are in vials designated by the manufacturer for a single use which are dispensed and the number of patients who receive such drugs and investigational drugs; and
        ii. That drugs, not including investigational drugs, which are in vials designated by the manufacturer for a single use and any remaining medication in those vials are discarded after use;
    d. The records demonstrate that drugs, not including investigational drugs, which are in vials designated by the manufacturer for more than one use are discarded when the medication in the vials has expired or not more than 28 days after the initial breach of the vial;
    e. The employees of the ASC or RC properly maintain accurate records relating to drugs and investigational drugs; and
    f. The employees of the ASC or RC properly monitor and maintain the perpetual inventory required pursuant to paragraph (d) of subsection 1 of NAC 639.4996; and
d) Submit a written report, including, without limitation, a written explanation, to the Board not later than 5 business days after the pharmacist determines that:
    a. The ASC or RC is violating a state or federal law which affects the care and safety of a patient;
    b. There is a discrepancy of 5 percent or more between the actual quantity of a controlled substance in the possession of the ASC or RC and the amount of the controlled substance that should be in the possession of the ASC or RC according to the records of the ASC or RC, including, without limitation:
        i. Purchase orders and invoices for the controlled substance;
        ii. Records which indicate the removal of the controlled substance from the storage area;
        iii. Patient records;
        iv. Records which indicate the return of the controlled substance to the manufacturer;
        v. Records which indicate that the controlled substance was destroyed; and
        vi. Any other record for the controlled substance;
    c. The recovery center or surgical center has intentionally or recklessly failed to create or maintain a record required by the policies and procedures established pursuant to NAC 639.4996;
    d. The recovery center or surgical center is administering a drug or an investigational drug in violation of accepted standards of practice or the specifications of the manufacturer; or

Re: Change of Indirect Ownership – Medical and Dental Center of Nevada LLC DBA Las Vegas Children's Surgery Center

Lic#: ASC03943

To Whom It May Concern:

We are writing to provide your office notice of a change in the indirect ownership of Medical and Dental Center of Nevada LLC DBA Las Vegas Children's Surgery Center, which holds license number ASC03943 (the "Provider").

The transaction is expected to occur on or around August 7, 2025, on which date Brave Purchaser, Inc. (the "Buyer") will acquire an upstream, indirect ownership interest several levels above the Provider. Blue Cloud Pediatric Surgery Centers, LLC will continue to own and hold all membership interests in Provider and the direct ownership of the Provider will not change.

Accordingly, there are no changes to the Provider's business or operations as a result of this transaction. The Provider's federal employee identification number will remain same, and the Provider will continue to operate under the same name and at the same location. Further, we do not expect the transaction to result in any changes to the Provider's policies and procedures, personnel, or services.

A completed change of ownership application is attached. Should you have any questions regarding this letter, the application, or the planned transaction, please do not hesitate to contact me by phone at (613) 445-0593 or via email at mschwizer@bluecloudpsc.com.

Sincerely yours,

Michelle Schwizer

APPLICABLE LAW

29. Administrative proceedings brought by the Board against a Respondent pursuant to NRS Chapter 453, to deny, suspend or revoke a registration must be initiated, conducted, and concluded pursuant to the provisions of NRS 639.241 to NRS 639.257. Upon a finding of guilt against the Respondent, the Board shall suspend the right of the registrant to use his or her registration or a schedule thereof; or revoke the registration or a schedule thereof. NRS 453.241.

30. The Board may suspend or revoke any registration if the holder or applicant is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

31. Unprofessional conduct includes, "performing any duties as the holder of a license issued by the Board in an incompetent, unskillful or negligent manner. NAC 639.945(1)(i).

32. The Board may suspend or revoke a registration pursuant to NRS 453.231 to dispense controlled substances upon a finding that the registration has violated any provision of NRS 453.162 to 453.165, inclusive, or 639.23507. NRS 453.236(1)(d) and NRS 453.241.

33. The Board may suspend or revoke a registration to prescribe a controlled substance upon a finding that the registrant has committed an act that would render registration inconsistent with the public interest as determined pursuant to NRS 453.231. NRS 453.236(1)(e) and NRS 453.241(1).

34. A practitioner shall, before issuing an initial prescription for a controlled substance listed in schedule II, III or IV or an opioid that is a controlled substance listed in schedule V and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, obtain a patient utilization report regarding the patient from the computerized program established by the Board. NRS 639.23507.

35. Each practitioner who is authorized to write prescriptions for human consumption of controlled substances listed in schedule II, III, IV or V shall access the database of the PMP at least once every 6 months to review the information concerning the practitioner that is listed in the database, including, without limitation, information concerning prescriptions issued by the practitioner, and notify the Board if any such information is not correct, and to verify to the Board that he or she continues to have access to and has accessed the database as required by this subsection. NRS 453.164(7).

36. This Accusation constitutes a public record pursuant to NRS 622.330 and any discipline imposed by the Board shall be reported to the National Practitioner Data Bank as required by federal law. Title 42 USC § 1396r–2; 45 CFR Part 60.

37. In lieu of a suspension or revocation, the Board may impose a fine of up to $10,000 for each violation committed. NRS 639.255(1)(f) and (3).

COUNT ONE

Unprofessional Conduct – Acts Inconsistent with the Public Interest
Failure to Query Patients Prior to Issuing an Initial Prescription for a Controlled Substance
(Respondents Burgner and Gonzalez)

38. Respondents Burgner and Gonzalez failed to obtain a patient utilization report from the PMP prior to issuing the initial prescriptions of sixty (60) tablets of alprazolam 0.5 MG to patient J.J. This failure constituted a violation of NRS 639.23507 which requires a practitioner, before issuing an initial prescription for a controlled substance listed in schedule II, III or IV or an opioid that is a controlled substance listed in schedule V, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, to obtain a patient utilization report regarding the patient from the computerized program established by the Board. NRS 639.23507.

39. By failing to query patient J.J.'s patient utilization report upon issuing an initial prescription for sixty (60) tablets of alprazolam 0.5 MG and by failing to query patient J.J.'s patient utilization report every 90 days thereafter, Respondents Burgner and Gonzalez performed their duties in an incompetent, unskillful or negligent manner which constituted unprofessional conduct, as defined by NAC 639.945(1)(i) and NRS 639.210(4), and which renders their continued registration to prescribe controlled substances inconsistent with the public interest pursuant to NRS 453.236(1)(d) and/or (e). Therefore, Respondents Burgner and Gonzalez are subject to discipline pursuant to NRS 639.210(4); and/or NRS 639.255; and/or NRS 453.236(1)(d) or (e); and/or NRS 453.241.

COUNT TWO

Unprofessional Conduct – Acts Inconsistent with the Public Interest
Failure to Query PMP MyRx Every 6 Months
(Respondents Burgner and Gonzalez)

40. Respondents Burger violated NRS 453.164(7) by failing to make a query of her PMP MyRx account from December 10, 2015, and June 23, 2022, to ensure the legitimacy of the prescriptions dispensed under Burgner's DEA registration.

41. Respondent Gonzalez violated NRS 453.164(7) by failing to make a query of his PMP MyRx account between January 29, 2018, to April 7, 2022, to ensure the legitimacy of the prescriptions dispensed under Burgner's DEA registration.

42. By failing to make queries of their PMP MyRx accounts at least once every six months, Respondents Burgner and Gonzalez performed their duties in an incompetent, unskillful or negligent manner which constituted unprofessional conduct, as defined by NAC 639.945(1)(i) and NRS 639.210(4), and which renders their continued registration to prescribe controlled substances inconsistent with the public interest pursuant to NRS 453.236(1)(d) and/or (e). Therefore, Respondents Burgner and Gonzalez are subject to discipline pursuant to NRS 639.210(4); and/or NRS 639.255; and/or NRS 453.236(1)(d) or (e); and/or NRS 453.241.

43. WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of this respondent.

DATED this 18th day of March 2024.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). April 5, 2024

To Nevada State Board of Pharmacy,

Please consider this my response to the complaint I received on March 22, 2024.

In October of 2022 the Nevada State Board of Pharmacy filed this same complaint with the Nevada State Board of Nursing. This complaint involved the same patient, same time frame, and same allegations. The case number for this was 2022090123.

A full investigation was conducted and I reached an agreement with the Nevada State Board of Nursing. I acknowledged that I did not check the PMP prior to writing prescriptions for this patient, and that I had not kept up on checking MyRX. During their investigation they recognized that since receiving the complaint in October of 2022 I had significantly changed my PMP practices and was now in compliance with state laws. As a result I received a public reprimand and had to take 3 CME courses; including The Nevada Nurse Practice Act, Upholding the Standard: Professional Accountability in Nursing, and Nurse's Legal Advisor. I received the reprimand documentation on 5/5/23 via email, and everything was approved, completed, and documented as of 11/14/23. I have continued to check PMP reports, as well as MyRX, in compliance with state law ever since.

Please consider withdrawing this complaint as I have already been through an investigation, received a public reprimand, and taken the necessary CME classes related to the same allegations. Please do not hesitate to reach out to me for any further information. I have copies of the original complaint, the agreement, as well as the CME certificates if you would like them.

Thank you for your time and consideration,

Karri Burgner, APRN-BC

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **McGUFF COMPOUNDING PHARMACY SERVICES, INC,** **Pharmacy License No. PH01563, and** **McGUFF COMPANY, INC.,** **Wholesale License No. WH01300,** **Respondents.**	**CASE NOS. 23-070-PH-O** **23-070-WH-O** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300 and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because at the time of the events alleged herein, Respondent McGuff Compounding Pharmacy Services, Inc, Pharmacy License No. PH01563 (McGuff Pharmacy), located in Santa Ana, California, was a pharmacy licensed by the Board, and McGuff Company, Inc, Wholesale License No. WH01300 (McGuff Company), located in Santa Ana, California, was a medical products wholesale distributor licensed by the Board.

FACTUAL ALLEGATIONS

2. McGuff Pharmacy and McGuff Company are both owned by Ronald M. McGuff.

3. On or about March 1, 2023, the California State Board of Pharmacy entered an Order in Case Nol. 7176 approving a stipulated settlement for voluntary surrender of Respondent McGuff Pharmacy's Pharmacy Permit No. PHY 43950 and Sterile Compounding License No. LSC 99004, for numerous violations of federal and California state law related to compounding drug products, including, without limitation, various provisions of 21 U.S.C. § 353a, 42 U.S.C. §

262, Cal. Business and Professions Code § 4000 *et seq.*, and Cal. Code of Regulations, Title 16, Section 1700 *et seq.* (SEE EXHBIT A HERETO).

APPLICABLE LAW

4. A pharmacy engaged in the practice of compounding drug products and dispensing compounded drug products in Nevada shall comply with the provisions of NAC 639.661 -.690, *inclusive*, and related federal law, 21 U.S.C. § 353a, establishing national standards for compounding medications. *See also* 42 U.S.C. § 262 (regulation of biological products).

5. Performing any duties as a license holder in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license issued by the Board. NRS 639.210(4).

6. The Board may suspend or revoke a license if the holder has violated any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs. NRS 639.210(11).

7. The Board may suspend or revoke a license if the holder has violated any law or regulation relating to drugs, the manufacture or distribution of drugs or the practice of pharmacy. NRS 639.210(12).

8. Any violation of any of the provisions of NRS Chapter 639 or NAC Chapter 639 by personnel of the pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5); NAC 639.702. Further, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

COUNT ONE

Violation of Federal and State Compounding Law/Unprofessional Conduct

8. Respondents, their owner, and/or their personnel engaged in unprofessional conduct as defined in NAC 639.945(1)((i) and violated various provisions of 21 U.S.C. § 353a,

42 U.S.C. § 262, Cal. Business and Professions Code § 4000 *et seq*., and Cal. Code of Regulations, Title 16, Section 1700 *et seq*. as detailed in the California State Board of Pharmacy's Order entered in Case Nol. 7176. Respondents are responsible for those violations, including all errors and omissions of pharmacy personnel, pursuant to NRS 639.230(5), NAC 639.702 and/or NAC 639.945(3) and therefore subject to discipline pursuant to NRS 639.210(4), (11) and/or (12).

WHEREFORE, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the licenses of these Respondents.

Signed this 28th day of February 2025.

Nevada State Board of Pharmacy

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 233B.127(3). You have the right to a hearing before the Board to answer the Notice of Intended Action and Accusation and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. To be entitled to a hearing, you must complete, and file two (2) copies of the Answer and Notice of Defense served herewith, to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, within twenty (20) days of your receipt of this Notice of Intended Action and Accusation. NRS 622A.320; NRS 639.243. Your failure to timely file an Answer and Notice of Defense constitutes an admission of the charges and waiver of the right to a hearing. NRS 639.244. If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. BEFORE THE
BOARD OF PHARMACY
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA

In the Matter of the Accusation Against: **MCGUFF COMPOUNDING PHARMACY SERVICES INC., RONALD M. MCGUFF, OWNER AND OFFICER** **2921 West MacArthur Blvd., Ste. 142 (139-143)** **Santa Ana, CA 92704** **Pharmacy Permit No. PHY 43950** **Sterile Compounding License No. LSC 99004,** **and** **SI VAN PHAM** **2921 W. MacArthur Blvd., #142** **Santa Ana, CA 92704** **Pharmacist License No. RPH 49833** Respondents.	Case No. 7176 OAH No. 2021120276 **STIPULATED SETTLEMENT AND DISCIPLINARY ORDER**

In the interest of a prompt and speedy settlement of this matter, consistent with the public interest and the responsibility of the Board of Pharmacy, Department of Consumer Affairs, the parties hereby agree to the following Stipulated Settlement and Disciplinary Order which will be submitted to the Board for approval and adoption as the final disposition of the Accusation with respect to Respondents McGuff Compounding Pharmacy Services Inc. and Si Van Pham.

PARTIES

1. Anne Sodergren (Complainant) is the Executive Officer of the Board of Pharmacy (Board). She brought this action solely in her official capacity and is represented in this matter by Rob Bonta, Attorney General of the State of California, by Desiree I. Kellogg, Deputy Attorney General, and Joshua A. Room, Supervising Deputy Attorney General.

2. Respondents are represented in this proceeding by attorney Tony J. Park, Pharm.D., J..D., whose address is: California Pharmacy Lawyers, Law Offices of Tony J. Park, Inc., 9090 Irvine Center Drive, Irvine, CA 92618, telephone (949) 336-7854.

3. On or about March 9, 1999, the Board issued Pharmacy Permit Number PHY 43950 to McGuff Compounding Pharmacy Services Inc. Ronald M. McGuff has served or been listed in Board records as the sole shareholder and President, Vice-President, and Secretary of McGuff Compounding Pharmacy Services Inc. (Respondent McGuff Compounding aka MCPS). The Pharmacy Permit was in full force and effect at all times relevant to the charges brought herein and will expire on March 1, 2023, unless renewed.

4. On or about July 1, 2003, the Board issued Sterile Compounding License Number LSC 99004 to Respondent McGuff Compounding aka MCPS. The Sterile Compounding License was in full force and effect at all times relevant to the charges brought herein and will expire on March 1, 2023, unless renewed.

5. On or about September 3, 1997, the Board issued Pharmacist License Number RPH 49833 to Si Van Pham (Respondent Pham). The Pharmacist License was in full force and effect at all times relevant to the charges brought herein and will expire on November 30, 2022, unless renewed. Respondent Pham has served and been listed in Board records as Pharmacist-in-Charge of Respondent McGuff Compounding aka MCPS since July 9, 2016.

JURISDICTION

6. Accusation No. 7176 was filed before the Board, against Respondents. Accusation No. 7176 and all other statutorily required documents were properly served on Respondents on October 28, 2021. Respondents timely filed their Notice(s) of Defense contesting the Accusation. First Amended Accusation No. 7176 was filed before the Board, and is currently pending against Respondents. The First Amended Accusation and all other statutorily required documents were properly served on Respondents on April 21, 2022. A copy of First Amended Accusation No. 7176 is attached as exhibit A and incorporated herein by reference.

ADVISEMENT AND WAIVERS

7. Respondents have carefully read, fully discussed with counsel, and understand the charges and allegations in First Amended Accusation No. 7176. Respondents have also carefully read, fully discussed with counsel, and understand the effects of this Stipulated Settlement and Disciplinary Order on their respective permits and licenses.

8. Respondents are fully aware of their legal rights in this matter, including the right to a hearing on the charges and allegations in the First Amended Accusation; the right to confront and cross-examine the witnesses against them; the right to present evidence and to testify on their own behalf; the right to the issuance of subpoenas to compel attendance of witnesses and production of documents; the right to reconsideration and court review of an adverse decision; and all other rights accorded by the California Administrative Procedure Act and other applicable laws.

9. Respondents voluntarily, knowingly, and intelligently waive and give up each and every right set forth above.

CULPABILITY

10. Respondents understand and agree that the charges and allegations in First Amended Accusation No. 7176, if proven at a hearing, constitute cause for imposing discipline upon their Pharmacy Permit, Sterile Compounding License, and Pharmacist License. For the purposes of resolving this matter without the expense and uncertainty of further proceedings, Respondents agree that, at a hearing, Complainant could establish a factual basis for charges in the First Amended Accusation, and Respondents hereby give up their right to contest those charges.

11. Respondents agree that their Pharmacy Permit, Sterile Compounding License, and Pharmacist License are each and severally subject to discipline and they agree to be bound by the Board's disciplinary terms as set forth in the Disciplinary Order below.

DESIRED LICENSE CATEGORY TRANSITION

12. Respondent MCPS has decided to seek a transition from being a licensed pharmacy engaged in compounding (a Section 503A facility under federal law) to being a registered and licensed outsourcing facility (a Section 503B facility under federal law). This will entail an application to the Food and Drug Administration (FDA) for registration under Section 503B as an outsourcing facility, and then an application to the Board to be licensed in California as an outsourcing facility. It could take some significant time for MCPS to prepare for and make these applications. In the interim, the MCPS facility will cease functioning as a pharmacy on the effective date of the Decision and Order by the Board of Pharmacy adopting this stipulation.

13. This settlement of the First Amended Accusation does not depend on whether MCPS, any successor or assign thereof, or any entity sharing ownership or management with MCPS, actually submits a subsequent application to the Board for licensure as an outsourcing facility. In the event such application is submitted, the Board will give it the same consideration it would any other application to be licensed as an outsourcing facility. This settlement does not preclude the Board from granting that license. Nor is the Board under any obligation from this settlement to grant that license. Any such application will receive ordinary and fair consideration for licensure. If such an outsourcing facility license is granted, there is one term below that will be applied by the Board to that license, and which Respondent MCPS acknowledges will apply to itself, any successor or assign, or any entity sharing ownership or management with Respondent MCPS.

IMMEDIATE CEASE AND DESIST

14. As of the last date of all signatures on this Stipulated Settlement and Disciplinary Order, both Respondents agree to voluntarily and completely cease and desist compounding, or sales or transfers of compounded preparations, using any active ingredients or drug products named or identified in First Amended Accusation No. 7176, or any other active ingredient or drug product that is not graded for pharmaceutical use.

15. Any compounding by Respondents, or sales or transfers of compounded preparations, using such active ingredients or drug products after that date shall constitute unprofessional conduct and further cause for discipline by both Respondents, and may be considered by the Board in deciding whether to grant or deny any subsequent application by Respondent MCPS, its successor or assign, or any entity sharing ownership or management with Respondent MCPS, including but not limited to a subsequent application for an outsourcing facility license.

CONTINGENCY

16. This stipulation shall be subject to approval by the Board of Pharmacy. Respondents understand and agree that counsel for Complainant and the staff of the Board may communicate directly with the Board regarding this stipulation and settlement, without notice to or participation by Respondents or their counsel. By signing the stipulation, Respondents understand and agree that they may not withdraw their agreement or seek to rescind the stipulation prior to the time the Board considers and acts upon it. If the Board fails to adopt this stipulation as its Decision and Order, the Stipulated Settlement and Disciplinary Order shall be of no force or effect, except for this paragraph, it shall be inadmissible in any legal action between the parties, and the Board shall not be disqualified from further action by having considered this matter.

17. The parties understand and agree that Portable Document Format (PDF) and facsimile copies of this Stipulated Settlement and Disciplinary Order, including PDF and facsimile signatures thereto, shall have the same force and effect as the originals.

18. This Stipulated Settlement and Disciplinary Order is intended by the parties to be an integrated writing representing the complete, final, and exclusive embodiment of their agreement. It supersedes any and all prior or contemporaneous agreements, understandings, discussions, negotiations, and commitments (written or oral). This Stipulated Settlement and Disciplinary Order may not be altered, amended, modified, supplemented, or otherwise changed except by a writing executed by an authorized representative of each of the parties.

19. In consideration of the foregoing, the parties agree that the Board may, without further notice or formal proceeding, issue and enter the following Disciplinary Order:

DISCIPLINARY ORDER

AS TO RESPONDENT MCGUFF COMPOUNDING AKA MCPS

IT IS HEREBY ORDERED that Pharmacy Permit No. PHY 43950, and Sterile Compounding License No. LSC 99004, both issued to Respondent McGuff Compounding aka MCPS, are each and severally surrendered and accepted by the Board.

20. **Definition: Respondent**

For the purposes of paragraphs 20-33, "Respondent" shall refer to Respondent McGuff Compounding aka MCPS. All terms and conditions stated herein shall bind and be applicable to the licensed premises and to all owners, managers, officers, administrators, members, directors, trustees, associates, or partners thereof. For purposes of compliance with any term or condition, any report, submission, filing, payment, or appearance required to be made by Respondent to or before the Board or its designee shall be made by an owner or executive officer with authority to act on behalf of and legally bind the licensed entity.

21. The surrender of Respondent's Pharmacy Permit and Sterile Compounding License and the acceptance of the surrendered licenses by the Board shall constitute the imposition of discipline against Respondent. This stipulation constitutes a record of the discipline and shall become a part of Respondent's license history with the Board.

22. Respondent shall lose all rights and privileges as a pharmacy and to perform sterile compounding in California as of the effective date of the Board's Decision and Order.

23. Respondent shall be jointly and severally liable to the Board, along with Respondent Pham, for costs of investigation and enforcement of $95,104.75. Respondent shall cause that amount to be paid, in full, on or before the effective date of the Decision and Order.

24. Within (5) business days of the date this Stipulated Settlement and Disciplinary Order is fully executed, Respondent shall submit a completed Discontinuance of Business form according to Board guidelines and shall notify the Board of the records inventory transfer within five (5) days. Respondent shall further arrange for the transfer of all records of acquisition and disposition of dangerous drugs and/or devices to premises licensed and approved by the Board. Any transfers of drug inventory shall be conducted in compliance with state and federal law.

25. If permitted by state and federal law, Respondent may transfer current inventory to its commonly-owned facilities as necessary to prepare for testing and other requirements to establish subsequent eligibility for an outsourcing facility registration and/or license.

26. Respondent shall cause to be delivered to the Board its pocket license and, if any were issued, its wall certificates, on or before the effective date of the Decision and Order.

27. Respondent shall also, by the effective date of the Decision and Order, arrange for the continuation of care for ongoing patients of the pharmacy by, at minimum, providing a written notice to ongoing patients that specifies the anticipated closing date of the pharmacy and that identifies one or more area pharmacies capable of taking up the patients' care, and by cooperating as may be necessary in the transfer of records or prescriptions for ongoing patients. Within five (5) days of its provision to the pharmacy's ongoing patients, Respondent shall provide a copy of its written notice to the Board. For purposes of this provision, "ongoing patients" means those patients for whom the pharmacy has on file a prescription with one or more refills outstanding, or for whom the pharmacy has filled a prescription within the preceding sixty (60) days.

28. Respondent shall also, by the effective date of the Decision and Order, prepare and submit to the Board, on the letterhead for Respondent MCPS, a letter jointly signed by Ronald McGuff and Respondent Pham, in substantially the form attached as exhibit B hereto. The Board may make whatever use of that letter it sees fit, including but not limited to publication in *The Script* or other publication(s), distribution or copying, or submission into evidence in other cases. There shall be no limit to the number of times the Board may publish or otherwise use this letter.

29. Neither Respondent nor its successor or assign, nor any entity sharing ownership or management with Respondent, shall apply to the Board for any permit, license, or registration issued by the Board for a period of three (3) years, except that at any time it is eligible for same:

- Respondent may submit an application for an outsourcing facility license;
- Respondent may apply for a change of location for its wholesaler license (WLS 2947), so long as there is no change in ownership or management structure, or any other substantive change aside from the change in location; and
- Should the Board change the name or category of licensure applicable to the WLS license, Respondent may apply to adopt this change, so long as there is no change in ownership or management structure, or other substantive change.

30. If Respondent, its successor or assign, or an entity sharing ownership or management with Respondent, ever applies for licensure, including as an outsourcing facility, or petitions for reinstatement, the Board shall treat it as a new application for licensure. The applicant/petitioner must comply with all the laws, regulations and procedures for licensure in effect at the time the application or petition is filed, and charges and allegations in First Amended Accusation No. 7176 shall be deemed to be supported by a factual basis and not contested by Respondent when the Board determines whether to grant or deny the application or petition.

31. If an application for an outsourcing facility license is submitted by Respondent, its successor or assign, or an entity sharing ownership or management with Respondent, the Board may in addition consider, in deciding whether to grant or deny that license: whether Respondent met its agreement for the pharmacy to cease and desist compounding, sales, or transfers of drug preparations using active ingredients or drug products named or identified in First Amended Accusation No. 7176, or that are not graded for pharmaceutical use; and whether the Board has received full payment of the costs of investigation and enforcement in this case.

32. If an outsourcing facility license is granted by the Board to Respondent, its successor or assign, or an entity sharing ownership or management with Respondent, that applicant/licensee shall retain, at its own expense, for a period of one (1) year after licensure, an independent consultant for the outsourcing facility approved in advance by the Board or its designee.

33. That independent consultant shall be a pharmacist licensed in good standing by the Board, and shall be responsible for conducting in-person inspections to review the operations of the outsourcing facility on a monthly basis for compliance with applicable state and federal laws. The independent consultant shall prepare and submit written reports directly to Board staff; such reports shall not go first to or be made available to the licensee by the independent consultant.

AS TO RESPONDENT PHAM

IT IS HEREBY ORDERED that Pharmacist License No. RPH 49833, issued to Respondent Pham, is revoked. However, the revocation is stayed and Respondent Pham is placed on probation for thirty-five (35) months on the following terms and conditions:

34. **Definition: Respondent**

For the purposes of paragraphs 34-52, "Respondent" shall refer to Respondent Pham.

35. **Obey All Laws**

Respondent shall obey all state and federal laws and regulations.

Respondent shall report any of the following occurrences to the Board, in writing, within seventy-two (72) hours of such occurrence:

- an arrest or issuance of a criminal complaint for violation of any provision of the Pharmacy Law, state and federal food and drug laws, or state and federal controlled substances laws;
- a plea of guilty, or nolo contendere, no contest, or similar, in any state or federal criminal proceeding to any criminal complaint, information or indictment;
- a conviction of any crime;
- the filing of a disciplinary pleading, issuance of a citation, or initiation of another administrative action filed by any state or federal agency which involves Respondent's license or which is related to the practice of pharmacy or the manufacturing, obtaining, handling, distributing, billing, or charging for any drug, device or controlled substance.

Failure to timely report any such occurrence shall be considered a violation of probation.

36. **Report to the Board**

Respondent shall report to the Board quarterly, on a schedule as directed by the Board or its designee. The report shall be made either in person or in writing, as directed. Among other requirements, Respondent shall state in each report under penalty of perjury whether there has been compliance with all the terms and conditions of probation.

Failure to submit timely reports in a form as directed shall be considered a violation of probation. Any period(s) of delinquency in submission of reports as directed may be added to the probation. Moreover, if the final probation report is not made as directed, probation shall be automatically extended until such time as the final report is made and accepted by the Board.

///

37. **Continuing Education**

Respondent shall provide evidence of efforts to maintain skill and knowledge as a pharmacist as directed by the Board or its designee.

38. **Interview with the Board**

Upon receipt of reasonable prior notice, Respondent shall appear in person for interviews with the Board or its designee, at such intervals and locations as are determined by the Board or its designee. Failure to appear for any scheduled interview without prior notification to Board staff, or failure to appear for two (2) or more scheduled interviews with the Board or its designee during the period of probation, shall be considered a violation of probation.

39. **Cooperate with Board Staff**

Respondent shall timely cooperate with the Board's inspection program and with the Board's monitoring and investigation of Respondent's compliance with the terms and conditions of probation, including but not limited to: timely responses to requests for information by Board staff; timely compliance with directives from Board staff regarding requirements of any term or condition of probation; and timely completion of documentation pertaining to a term or condition of probation. Failure to timely cooperate shall be considered a violation of probation.

40. **Status of License**

Respondent shall, at all times while on probation, maintain an active, current pharmacist license with the Board, including any period during which probation is tolled. Failure to maintain an active, current pharmacist license shall be considered a violation of probation.

If Respondent's pharmacist license expires or is cancelled by operation of law or otherwise at any time during the period of probation, including any extensions thereof due to tolling or otherwise, upon renewal or reapplication Respondent's license shall be subject to all terms and conditions of this probation not previously satisfied.

41. **Submission of Letter to Board**

Respondent shall, by the effective date of the Decision and Order, prepare and submit to the Board, on the letterhead for Respondent MCPS, a letter jointly signed by Ronald McGuff and Respondent Pham, in substantially the form attached as exhibit B hereto. The Board may make

whatever use of that letter it sees fit, including but not limited to publication in *The Script* or other publication(s), distribution or copying, or submission into evidence in other cases. There shall be no limit to the number of times the Board may publish or otherwise use this letter.

42. **Reimbursement of Board Costs**

Respondent shall be jointly and severally liable to the Board, along with Respondent MCPS, for costs of investigation and enforcement of $95,104.75. Respondent shall cause that amount to be paid, in full, on or before the effective date of the Decision and Order. It shall be a condition precedent to successful completion of probation that these costs were timely paid. Failure to pay costs by the deadline shall also be considered a violation of probation.

43. **Probation Monitoring Costs**

Respondent shall pay any costs associated with probation monitoring as determined by the Board each and every year of probation. Such costs shall be payable to the Board on a schedule as directed by the Board or its designee. Failure to pay such costs by the deadline(s) as directed shall be considered a violation of probation.

44. **Practice Requirement – Extension of Probation**

Except during periods of suspension, Respondent shall, at all times while on probation, be employed as a pharmacist in California for a minimum of one hundred (100) hours per calendar month. Any month during which this minimum is not met shall extend the period of probation by one month. During any such period of insufficient employment, Respondent must nonetheless comply with all terms and conditions of probation, unless Respondent receives a waiver in writing from the Board or its designee.

If Respondent does not practice as a pharmacist in California for the minimum number of hours in any calendar month, for any reason (including vacation), Respondent shall notify the board in writing within ten (10) days of the conclusion of that calendar month. This notification shall include at least: the date(s), location(s), and hours of last practice; the reason(s) for the interruption or reduction in practice; and the anticipated date(s) on which Respondent will resume practice at the required level. Respondent shall further notify the board in writing within ten (10) days following the next calendar month during which respondent practices as a pharmacist in

California for the minimum of one hundred (100) hours. Any failure to timely provide such notification(s) shall be considered a violation of probation.

It is a violation of probation for Respondent's probation to be extended pursuant to the provisions of this condition for a total period, counting consecutive and non-consecutive months, exceeding thirty-six (36) months. The Board or its designee may post a notice of the extended probation period on its website.

45. **Ethics Course**

Within sixty (60) calendar days of the effective date of this decision, Respondent shall enroll, at Respondent's expense, in a course in ethics approved in advance by the Board or its designee, that complies with California Code of Regulations, title 16, section 1773.5. Respondent shall provide proof of enrollment upon request. Within five (5) days of completion, Respondent shall submit a copy of the certificate of completion to the Board or its designee. Failure to timely enroll in an approved ethics course, to initiate the course during the first year of probation, to successfully complete it before the end of the second year of probation, or to timely submit proof of completion to the Board or its designee, shall be considered a violation of probation.

46. **No Ownership or Management of Licensed Premises**

Respondent shall not own, have any legal or beneficial interest in, nor serve as a manager, administrator, member, officer, director, trustee, associate, or partner of any business, firm, partnership, or corporation currently or hereinafter licensed by the Board. Respondent shall sell or transfer any legal or beneficial interest in any entity licensed by the Board within ninety (90) days of the effective date of this decision and provide written proof thereof to the Board.

Failure to timely divest any legal or beneficial interest(s) or to immediately provide documentation thereof to the Board shall be considered a violation of probation.

47. **Notification of Change(s) in Name, Address(es), or Phone Number(s)**

Respondent shall notify the Board in writing within ten (10) days of any change in name, residence address, mailing address, e-mail address, or phone number.

Failure to timely notify the board of any change in name, residence or mailing address, email address, or phone number, shall be considered a violation of probation.

48. **Reporting of Employment and Notice to Employers**

During the period of probation, Respondent shall notify all present and prospective employers of the decision in case number 7176 and the terms, conditions and restrictions imposed on Respondent by the decision, as follows:
