Home State License

The Highland, Indiana facility is in a state that does not require a license to distribute medical devices. Because Indiana does not require a license to distribute medical devices, a copy of the resident state license is not included. The Highland, Indiana facility is, however, regulated by the US Food and Drug Administration (FDA').

Who Needs a Wholesale Drug Distributor License

For more information regarding the statutes and rules regulating wholesale drug distributors, please review them below.

For legal interpretations, please refer to your legal counsel; the Board office does not interpret the rules and regulations.

Indiana law requires wholesale drug distributors of legend drugs to obtain and maintain VAWD accreditation from the National Association of Boards of Pharmacy (NABP). For more information regarding VAWD, including the accreditation process, VAWD application form, and instructions, please visit NABP's website at http://www.nabp.net/programs/accreditation/vawd/ (http://www.nabp.net/programs/accreditation/vawd/).

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Pharmaceutical Associates, Inc. ("Wholesaler Applicant") to resolve all matters pertaining to Board Case Number 2 009-2546 as follows:

FINDINGS AND CONCLUSIONS

12. **Violations.** Time is of the essence to this Final Agency Order. It is the responsibility of Wholesaler Applicant to take all appropriate steps to comply fully with this Final Agency Order. Wholesaler Applicant acknowledges and agrees that any violation of this Final Agency Order may be sanctioned as provided under §12-22-125.2(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of its registration. The pendency of any suspension or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Wholesaler Applicant to comply with all terms and conditions of this Final Agency Order.

13. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

14. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

Operationally they are taking employee roles and titles but mechanistically they are Service Providers. Further they receive K-1s not W-2s for compensation received from the Company.

To Whom It May Concern,

Exel Inc. d/b/a DHL Supply Chain (USA) ("DHL") submits this correspondence in connection with its Initial application and as the detailed explanation required when the question pertaining to disciplinary action is answered "Yes."

Exel Inc. d/b/a DHL Supply Chain (USA) ("DHL") is a part of Deutsche Post DHL Group, the world's leading contract logistics provider, and has tens of thousands of employees across North America. At any given time, DHL is a named defendant in civil matters, including employment cases. Based on knowledge and belief of the respondent completing this application after reasonable inquiry, DHL is not involved in any pending criminal proceedings. Nor is DHL part of any pending malpractice claims, civil claims, or lawsuits in connection with drugs/devices.

Attached are notices from the State Board for the following items:

1. April 12, 2023: DHL received a notice from the California State Board of Pharmacy indicating that the Board issued a fine against DHL for its failure to notify the Board of a change in its Designated Representative. Please note that the issuance of a fine by the Board is not considered a disciplinary action or reportable and the fine was paid in full within the allotted time.

2. November 30, 2023: The Alabama Board of Pharmacy issued a complaint alleging that DHL's renewal applications failed to disclose a Stipulation and Final Agency Order DHL received from the Colorado Board of Pharmacy in 2019. The Colorado Board of Pharmacy's Stipulation and Final Agency Order alleged DHL had provided a late notice of change in its Designated Representative. Upon further review, it was discovered that DHL had made the proper disclosure to the Alabama Board of Pharmacy and the parties entered into a Deferral Agreement which is not considered a discipline.

DHL timely responded to all notices and has not received any response from the applicable Boards.

Please be assured that DHL takes these matters very seriously and has implemented corrective actions to prevent similar issues from occurring in the future. If you have any concerns regarding the matters set forth in this notice, please do not hesitate to contact DHL Regulatory Affairs at regulatory@dhl.com.

Respectfully,

Exel Inc. D/B/A DHL Supply Chain (USA)
360 Westar Blvd
Westerville, Ohio 43082

To: Jurisdictional Regulator

This letter is to inform you that, in December 2025, Exel Inc. d/b/a DHL Supply Chain (USA) ("DHL") voluntarily surrendered Drug Enforcement Administration ("DEA") registration 007693EXY for its site located at 2020 E Vine Ave., Fresno, CA 93706 (the "Facility") because the Facility had not previously obtained a California Department of Justice (" California DOJ") Controlled Chemical Substance Program ("CCSP") permit. The Facility handles over-the counter ("OTC") drugs including certain pseudoephedrine products which, per federal and state law, are regulated as List 1 Chemicals. DHL has reapplied for the CCSP permit and intends to reapply for a DEA registration upon receiving approval of its California DOJ CCSP permit.

Detailed Explanation:

This facility operates as a Third-Party Logistics (3PL) provider who by federal definition:

> "is an entity that provides or coordinates warehousing or other logistics services on behalf of a manufacturer, wholesale distributor, or dispenser of a product. A 3PL provider does not take ownership of any product. Neither do they have the responsibility to direct the sale or disposition of the product."

In mid-2020, DHL applied for a DEA chemical distributor registration to receive, store and distribute OTC PSE products at the site. DHL was unaware that a California CCSP permit was also required. The site had not obtained a California Board of Pharmacy license because the California BOP does not regulate 3PL's for OTC products. Thereafter, DEA issued a chemical distributor registration for the Facility without this state license in place, and no mention was made of it being a prerequisite.

In late 2023, DEA inspected the Facility and informed DHL that the site needed a CCSP permit issued by the California DOJ. The DHL licensing team immediately submitted an application to the California DOJ. As part of its review of the application, the California DOJ stated that it required purchase and sales data to complete its review of the application. The licensing team notified the California DOJ that it could not provide that data because, as a 3PL, it does not purchase or sell products and only provides distribution services at the direction of suppliers who retain title to the product. Despite several exchanges of information over several months, DHL was unable to satisfy the California DOJ request. Based on the explanation from the California DOJ, the initial and recurring submission of purchasing and sales data is a key part CCSP's permitting process.

Despite several exchanges of information over several months, DHL was unable to satisfy the California DOJ request. Based on the explanation from the California DOJ, the initial and recurring submission of purchasing and sales data is a key part CCSP's permitting process.

Most recently, in October 2025, the DEA audited the Facility and asked whether the Facility had obtained the CCSP permit. DHL informed the DEA of the actions it had taken including its communication with California DOJ regarding its efforts obtain the permit. Specifically, DHL explained that because as a 3PL, it was unable to provide the List 1 purchase and sales data the California DOJ requested. The DEA investigator then contacted the California DOJ, who indicated the site should have a CCSP permit. DHL submitted a new CCSP application to California DOJ in December 2025. The California DOJ communicated to the DEA that it would take between 120-180 days to process DHL's application.

Given that it appeared that DHL would not be able to obtain the permit for 6 months, DHL and the DEA mutually agreed the best path forward was for DHL to voluntarily surrender the DEA registration until DHL obtains the CCSP permit.

DHL removed all List 1 inventory from the Facility on December 19, 2025, formally requested the DEA registration be surrendered and, communicated to the California DOJ that List 1 product is no longer being stored at the Facility.

Next Steps:

DHL continues to work with the California DOJ and its customer to satisfy the purchase and sales application requirements. DHL has agreement from the DEA that the Facility can reapply for a DEA permit once the CCSP permit is issued.

Please be assured that DHL takes these matters seriously and implements policies and procedures at its sites to ensure compliance with state and federal laws.

Please contact me if you have any questions or require additional information regarding this matter.

Respondent Outlet acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, may be sanctioned as provided under section 12-42.5-124(4), C.R.S., and may be sufficient grounds for additional discipline, including but not limited to revocation of Respondent Outlet's registration. The pendency of any suspension

or disciplinary action arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent Outlet to comply with all terms and conditions of this Final Agency Order.

14. Integration and Severability. Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. A Summary of Your Rights Under the Fair Credit Reporting Act

The federal Fair Credit Reporting Act (FCRA) promotes the accuracy, fairness, and privacy of information in the files of consumer reporting agencies. There are many types of consumer reporting agencies, including credit bureaus and specialty agencies (such as agencies that sell information about check writing histories, medical records, and rental history records). Here is a summary of your major rights under FCRA. **For more information, including information about additional rights, go to www.consumerfinance.gov/learnmore** (http://www.consumerfinance.gov/learnmore) **or write to: Consumer Financial Protection Bureau, 1700 G Street N.W., Washington, DC 20552.**

- **You must be told if information in your file has been used against you.** Anyone who uses a credit report or another type of consumer report to deny your application for credit, insurance, or employment – or to take another adverse action against you – must tell you, and must give you the name, address, and phone number of the agency that provided the information.
- **You have the right to know what is in your file.** You may request and obtain all the information about you in the files of a consumer reporting agency (your "file disclosure"). You will be required to provide proper identification, which may include your Social Security number. In many cases, the disclosure will be free. You are entitled to a free file disclosure if:
  - a person has taken adverse action against you because of information in your credit report;
  - you are the victim of identity theft and place a fraud alert in your file;
  - your file contains inaccurate information as a result of fraud;
  - you are on public assistance;
  - you are unemployed but expect to apply for employment within 60 days.

  In addition, all consumers are entitled to one free disclosure every 12 months upon request from each nationwide credit bureau and from nationwide specialty consumer reporting agencies. See www.consumerfinance.gov/learnmore (http://www.consumerfinance.gov/learnmore) for additional information.
- **You have the right to ask for a credit score.** Credit scores are numerical summaries of your credit-worthiness based on information from credit bureaus. You may request a credit score from consumer reporting agencies that create scores or distribute scores used in residential real property loans, but you will have to pay for it. In some mortgage transactions, you will receive credit score information for free from the mortgage lender.
- **You have the right to dispute incomplete or inaccurate information.** If you identify information in your file that is incomplete or inaccurate, and report it to the consumer reporting agency, the agency must investigate unless your dispute is frivolous. See www.consumerfinance.gov/learnmore (http://www.consumerfinance.gov/learnmore) for an explanation of dispute procedures.
- **Consumer reporting agencies must correct or delete inaccurate, incomplete, or unverifiable information.** Inaccurate, incomplete, or unverifiable information must be removed or corrected, usually within 30 days. However, a consumer reporting agency may continue to report information it has verified as accurate.
- **Consumer reporting agencies may not report outdated negative information.** In most cases, a consumer reporting agency may not report negative information that is more than seven years old, or bankruptcies that are more than 10 years old.

application with a creditor, insurer, employer, landlord, or other business. The FCRA specifies those with a valid need for access.

- **You must give your consent for reports to be provided to employers.** A consumer reporting agency may not give out information about you to your employer, or a potential employer, without your written consent given to the employer. Written consent generally is not required in the trucking industry. For more information, go to www.consumerfinance.gov/learnmore (http://www.consumerfinance.gov/learnmore).

- **You may limit "prescreened" offers of credit and insurance you get based on information in your credit report.** Unsolicited "prescreened" offers for credit and insurance must include a toll-free phone number you can call if you choose to remove your name and address form the lists these offers are based on. You may opt out with the nationwide credit bureaus at 1-888-567-8688.

- The following FCRA right applies with respect to nationwide consumer reporting agencies.

  CONSUMERS HAVE THE RIGHT TO OBTAIN A SECURITY FREEZE

  You have a right to place a "security freeze" on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit.

  As an alternative to a security freeze, you have the right to place an initial or extended fraud alert on your credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer's credit file. Upon seeing a fraud alert display on a consumer's credit file, a business is required to take steps to verify the consumer's identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting 7 years.

  A security freeze does not apply to a person or entity, or its affiliates, or collection agencies acting on behalf of the person or entity, with which you have an existing account that requests information in your credit report for the purposes of reviewing or collecting the account. Reviewing the account includes activities related to account maintenance, monitoring, credit line increases, and account upgrades and enhancements.

- **You may seek damages from violators.** If a consumer reporting agency, or, in some cases, a user of consumer reports or a furnisher of information to a consumer reporting agency violates the FCRA, you may be able to sue in state or federal court.

- **Identity theft victims and active duty military personnel have additional rights.** For more information, visit www.consumerfinance.gov/learnmore (http://www.consumerfinance.gov/learnmore).

States may enforce the FCRA, and many states have their own consumer reporting laws. In some cases, you may have more rights under state law. For more information, contact your state or local consumer protection agency or your state Attorney General. For information about your federal rights, contact:

A Summary of Your Rights Under the Fair Credit Reporting Act

The federal Fair Credit Reporting Act (FCRA) promotes the accuracy, fairness, and privacy of information in the files of consumer reporting agencies. There are many types of consumer reporting agencies, including credit bureaus and specialty agencies (such as agencies that sell information about check writing histories, medical records, and rental history records). Here is a summary of your major rights under FCRA. **For more information, including information about additional rights, go to www.consumerfinance.gov/learnmore** (http://www.consumerfinance.gov/learnmore) **or write to: Consumer Financial Protection Bureau, 1700 G Street N.W., Washington, DC 20552.**

- **You must be told if information in your file has been used against you.** Anyone who uses a credit report or another type of consumer report to deny your application for credit, insurance, or employment – or to take another adverse action against you – must tell you, and must give you the name, address, and phone number of the agency that provided the information.

- **You have the right to know what is in your file.** You may request and obtain all the information about you in the files of a consumer reporting agency (your "file disclosure"). You will be required to provide proper identification, which may include your Social Security number. In many cases, the disclosure will be free. You are entitled to a free file disclosure if:

  - a person has taken adverse action against you because of information in your credit report;
  - you are the victim of identity theft and place a fraud alert in your file;
  - your file contains inaccurate information as a result of fraud;
  - you are on public assistance;
  - you are unemployed but expect to apply for employment within 60 days.

  In addition, all consumers are entitled to one free disclosure every 12 months upon request from each nationwide credit bureau and from nationwide specialty consumer reporting agencies. See www.consumerfinance.gov/learnmore (http://www.consumerfinance.gov/learnmore) for additional information.

- **You have the right to ask for a credit score.** Credit scores are numerical summaries of your credit-worthiness based on information from credit bureaus. You may request a credit score from consumer reporting agencies that create scores or distribute scores used in residential real property loans, but you will have to pay for it. In some mortgage transactions, you will receive credit score information for free from the mortgage lender.

- **You have the right to dispute incomplete or inaccurate information.** If you identify information in your file that is incomplete or inaccurate, and report it to the consumer reporting agency, the agency must investigate unless your dispute is frivolous. See www.consumerfinance.gov/learnmore (http://www.consumerfinance.gov/learnmore) for an explanation of dispute procedures.

- **Consumer reporting agencies must correct or delete inaccurate, incomplete, or unverifiable information.** Inaccurate, incomplete, or unverifiable information must be removed or corrected, usually within 30 days. However, a consumer reporting agency may continue to report information it has verified as accurate.

- **Consumer reporting agencies may not report outdated negative information.** In most cases, a consumer reporting agency may not report negative information that is more than seven years old, or bankruptcies that are more than 10 years old.

- **Access to your file is limited.** A consumer reporting agency may provide information about you only to people with a valid need – usually to consider an application with a creditor, insurer, employer, landlord, or other business. The FCRA specifies those with a valid need for access.

- **You must give your consent for reports to be provided to employers.** A consumer reporting agency may not give out information about you to your employer, or a potential employer, without your written consent given to the employer. Written consent generally is not required in the trucking industry. For more information, go to www.consumerfinance.gov/learnmore (http://www.consumerfinance.gov/learnmore).

- **You may limit "prescreened" offers of credit and insurance you get based on information in your credit report.** Unsolicited "prescreened" offers for credit and insurance must include a toll-free phone number you can call if you choose to remove your name and address form the lists these offers are based on. You may opt out with the nationwide credit bureaus at 1-888-567-8688.

CONSUMERS HAVE THE RIGHT TO OBTAIN A SECURITY FREEZE

You have a right to place a "security freeze" on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit.

As an alternative to a security freeze, you have the right to place an initial or extended fraud alert on your credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer's credit file. Upon seeing a fraud alert display on a consumer's credit file, a business is required to take steps to verify the consumer's identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting 7 years.

A security freeze does not apply to a person or entity, or its affiliates, or collection agencies acting on behalf of the person or entity, with which you have an existing account that requests information in your credit report for the purposes of reviewing or collecting the account. Reviewing the account includes activities related to account maintenance, monitoring, credit line increases, and account upgrades and enhancements.

- **You may seek damages from violators.** If a consumer reporting agency, or, in some cases, a user of consumer reports or a furnisher of information to a consumer reporting agency violates the FCRA, you may be able to sue in state or federal court.
- **Identity theft victims and active duty military personnel have additional rights.** For more information, visit www.consumerfinance.gov/learnmore (http://www.consumerfinance.gov/learnmore)

RE: ***Disciplinary Action Explanation***

Thank you for the opportunity to provide additional context regarding the previously resolved violation associated with Jams Wholesale Pharmaceutical Distribution.

At the time of the issue, our business was operating within a flex-space commercial building. These types of facilities are designed to accommodate growing and changing tenants, which often results in companies expanding into new sections of the building as needed. As Jams Wholesale grew, we relocated from Unit 16 to another section within the same larger building, referred to as Unit 23. From our perspective, this was simply a shift within a continuous commercial space, and we did not initially realize that this change in unit designation would require an update to our license.

However, we fully understand and respect that the State views each unit number as a distinct location for regulatory and licensing purposes. Once this was brought to our attention, we acknowledged the oversight, paid the corresponding fine of $3000 (as outlined in the JamsRx Final Order provided), and promptly updated our license to reflect the correct unit number as requested.

Since that time, we have expanded further into additional units within the same building. In each case, we have diligently ensured that all necessary changes were properly reported and approved by the State. As reflected on our current license, all active unit numbers are clearly listed, even though operationally we continue to work within a single, unified space. This approach reflects the structural layout of the building, which is subdivided by unit numbers for leasing purposes.

We are committed to maintaining full compliance with all applicable regulations and have implemented additional internal protocols to ensure any future changes in our operations are promptly communicated and reflected in our licensing documentation.

Thank you for your time and consideration. Please let me know if any further information is needed.

Sincerely,
Peter Bizzarro-Manager

Inmar Rx Solutions, Inc. and Qualanex, LLC are registered DEA collectors and reverse distributors. Qualanex, LLC is wholly owned by Inmar Rx Solutions, Inc.(100% ownership)

Inmar/Qualanex receives pharmaceutical medications, including controlled substances, solely for the purpose of evaluating manufacturer credit eligibility and/or coordinating their proper destruction. These medications originate from DEA registrants, drug manufacturers, and ultimate users located in various states, and are shipped to Inmar/Qualane's facilities in Grand Prairie, TX, and Libertyville, IL, exclusively via common or contract carriers.

The substances are temporarily stored at Inmar/Qualanex's Texas and/or Illinois facilities while they are assessed for credit eligibility and/or prepared for destruction. Inmar/Qualanex does not engage in the wholesale or retail distribution or sale of pharmaceuticals into other states. On limited occasions, non-creditable product may be returned directly to the original manufacturer, with such returns conducted only at the manufacturer's request, and not intended for reintroduction into the supply chain or distribution to or through other states. These returns strictly include non-saleable drugs which are not maintained or returned into the supply chain at any future date.

In summary, as reverse distributors, Inmar/Qualanex does not:

- *Engage in wholesale or retail distribution;*
- *Sell pharmaceuticals;*
- *Or operate drug-handling locations within any state besides Texas and Illinois.*

AGREED BOARD ORDER #2022-03129

RE: IN THE MATTER OF
TEXAS STAR PHARMACY
(PHARMACY LICENSE #32282)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacy license number 32282 issued to Texas Star Pharmacy (Respondent), 3033 West Parker Road, Suite 100, Plano, Texas 75023.

By letter dated June 23, 2023, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

Sections 565.001(a)(1), (2), (12) and (13); and 565.002(a)(3) and (4) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2021); and

Sections 281.7(a)(13); 291.31(15); 291.32(a)(2)(H); 291.32(c)(1)(E); and 295.3(a) of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2022), in that allegedly:

COUNT

From on or about January 10, 2022, through February 8, 2022, Raman Bhaumik, while acting as an employee (pharmacist-in-charge) and corporate managing officer of Texas Star Pharmacy, 3033 West Parker Road, Suite 100, Plano, Texas 75023, allowed Texas Star Pharmacy to unlawfully engage in the operation of a pharmacy, in that Texas Star Pharmacy dispensed and sold nineteen prescriptions to nineteen patients in North Dakota when Texas Star Pharmacy did not possess a license from the North Dakota Board of Pharmacy or other North Dakota licensing entity necessary to operate in that state as a pharmacy or wholesale facility. Texas Star Pharmacy was subsequently granted a license by the North Dakota Board of Pharmacy.

An informal conference was held via videoconference on July 11, 2023, with Raman Bhaumik, R.Ph., Managing Officer, Bhaumik Diversified, LLC, on behalf of Respondent, and Stephen T. Snow, Legal Counsel for Respondent, in attendance. The informal conference was heard by Board Members: Donnie Lewis, R.Ph.; and Bradley A. Miller, Ph.T.R.; with Megan G. Holloway, General Counsel. Kelly M. Souza, Staff Attorney, was also in attendance.

At the informal conference, Respondent presented information that Respondent mistakenly believed the pharmacy's North Dakota pharmacy license application had been approved, when only the pharmacy's business license had been approved.

By appearing at the informal conference and by signing this Order, Raman Bhaumik, on behalf of Respondent, and Respondent's counsel neither admit nor deny the truth of the matters previously set out in this Order, and agree that the Board has jurisdiction in this matter and waive the right to notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Respondent shall pay an administrative penalty of one thousand dollars ($1,000) due one hundred twenty (120) days after the entry of this Order.

(2) Respondent shall develop and implement policies and procedures to ensure compliance with pharmacy and pharmacist licensure requirements from licensing entities in states where Respondent operates or seeks to operate as a pharmacy or wholesale facility. A written report of such policies and procedures shall be submitted to Board staff within one hundred twenty (120) days after the entry of this Order.

(3) Respondent shall be responsible for all costs relating to compliance with the requirements of this Order.

(4) Respondent shall allow Board staff to directly contact Respondent on any matter regarding the enforcement of this Order.

(5) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2021), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2023).

And it is so ORDERED.

THIS ORDER IS A PUBLIC RECORD.

Explanation of Feb 2014 Louisiana Disciplinary Action

Although the Louisiana Board issued an allegation as stated in La. R.S. 37: 1221(B), that allegation was based solely on a brief lapse in the out-of-state pharmacy permit, which resulted from a clerical error on our licensing tracking sheet following the relocation of the business. In Louisiana, there is no grace period between the time a license expires to when you may still renew it and continue business without interruption. It was only a few days from the time the license lapsed until our company determined the error and self-reported the few prescriptions that were shipped during the lapse. Following the self-report and submission of the renewal application, Clinical Solutions, LLC ceased operations in the State of Louisiana until written authorization to continue was received from the board. Both prior to and following submission of the renewal application, Clinical Solutions, LLC met all requirements of La. R.S. 37:1232, and its' out-of-state permit #5543 in Louisiana was issued without incident. Clinical Solutions, LLC has remained in good standing with the Louisiana Board of Pharmacy without interruption, and has always acted in good faith in keeping compliant with the laws in Louisiana.

Clinical Solutions, LLC continued to dispense prescription medications to the State of Louisiana after the Non-Resident Pharmacy permit had expired, thus the Louisiana Board of Pharmacy issued a letter of warning; and further assess a fine of $5,000.00 plus administrative costs.

LOUISIANA BOARD OF PHARMACY

BATON ROUGE, LOUISIANA

IN THE MATTER OF: **CONSENT ORDER**

CLINICAL SOLUTIONS

LOUISIANA PHARMACY PERMIT NO. 5543 **Case No. 14-0042**

****

CONSENT AGREEMENT

WHEREAS, **CLINICAL SOLUTIONS** (hereinafter referred to as "Respondent"), holding Louisiana Pharmacy Permit No. 5543, P.O. Box 110725, Nashville, Tennessee 37222-0725, dispensed prescriptions to Louisiana residents without a current and valid Louisiana pharmacy permit.

WHEREAS, Respondent violated the following laws and regulations by dispensing drug prescriptions to Louisiana residents without a Louisiana out-of-state pharmacy permit:

La. R.S. 37:1241(A)(1): Practiced or assisted in the practice of pharmacy, or knowingly permitted or has permitted anyone in his employ or under his supervision to practice or assist in the practice of pharmacy, in violation of the provisions of this Chapter and any rules and regulations promulgated thereto in accordance with the Administrative Procedure Act.

La. R.S. 37:1221(B): No out-of-state pharmacy providing pharmacy services to residents of this state shall open, establish, operate, or maintain a pharmacy, located out-of-state, unless the pharmacy is issued a permit by the board.

LAC Title 46: LIII §2305. Out-of-State Pharmacy Permit Requirements

A. The out-of-state pharmacy shall apply for a permit and annual permit renewals on forms provided by the board. The board may require such information as reasonably necessary to carry out the provisions of R.S. 37:1232, including, without limitation, the name, address, and position of each officer and director of a corporation or of the owners, if the pharmacy is not a corporation.

B. The out-of-state pharmacy shall pay an annual permit fee as defined in R.S. 37:1184.

To facilitate the submission of this Consent Agreement, Respondent agrees that there is sufficient evidence upon which to predicate a finding of those violations.

Respondent further understands that this Consent Agreement shall constitute a Public Record, pursuant to La. R.S. 44:1 et seq., and is considered disciplinary action by the Board.

In order to avoid further administrative and judicial proceedings, Respondent hereby consents to accept and abide by the following order of the Board:

1. **A Letter of Warning is issued to Louisiana Pharmacy Permit No. 5543; and**
2. **Respondent is ordered to pay a fine of $5,000.00 and to reimburse the Board $250.00 for administrative costs, with total payment due the Board of $ 5,250.00, to be paid simultaneously with the execution of this Consent Agreement by Respondent.**

By signing this Consent Agreement, Respondent agrees that the Board has jurisdiction in this matter and waives all rights to informal conference, to Notice of Hearing, to a formal Administrative Hearing, and to judicial review of this Consent Agreement.

By signing this Consent Agreement, Respondent agrees that any failure to comply with the terms of this Agreement is a basis for discipline by the Board.

Both Respondent and the Board stipulate that this Consent Order shall not become effective and shall not become binding on the Board unless and until approved by the Board at formal meeting.

However, Respondent agrees that this Consent Order shall be effective and binding upon Respondent without recourse upon its authorized representative signing said Order.

Respondent agrees to provide the Board with the following for reporting purposes to the National Practitioner Data Bank – Healthcare Integrity and Protection Data Bank (NPDB-HIPDB):

Respondent's National Provider Identifier (NPI) Number: 1760601074

Medicare Provider Number (if in the possession of one): N/A

I, Christi Throneberry, authorized to act on behalf of and acting on behalf of **CLINICAL SOLUTIONS,** understand that this Consent Agreement is effective as a Board Order upon affirmative vote by the Board at formal hearing. It is also understood that, should the Board not approve this Consent Agreement, the agreement therein does not preclude the Louisiana Board of Pharmacy from requiring a formal hearing of this case.

It is further understood that, should this Consent Agreement not be accepted by the Board, the presentation to and consideration by the Board of this Agreement, including presented documentary evidence and information, shall not unfairly or illegally prejudice or preclude the Board or any of its members from further participation in hearings or resolution of these proceedings.

"Red Flags" Checklist for Pharmacies

YOU MIGHT BE A PILL MILL IF...

Check all that apply:

	(1) Your pharmacy fills a discernable pattern of prescriptions for prescribers who write essentially the same prescriptions for numerous persons, indicating a lack of individual drug therapy
	(2) Your pharmacy operates with limited hours of operation or closes after a certain threshold of controlled substance prescriptions are dispensed, and has overall low prescription dispensing volume.
	(3) Prescriptions presented to the pharmacy are for controlled substances with popularity as street drugs, such as opiates, benzodiazepines, muscle relaxants, psychostimulants, and/or cough syrups, or any combination of these drugs.
	(4) The prescriptions for controlled substances contain nonspecific or no diagnoses.
	(5) The prescriptions are commonly for the highest strength of the drug and/or for large quantities.
	(6) Dangerous drugs or OTC products (such as multi-vitamins or laxatives) are added to the controlled substance prescriptions, maintaining relatively consistent 1:1 ratio of controlled substances to dangerous drugs and/or OTC products dispensed as prescriptions.
	(7) Prescriptions are authorized by the same prescriber with what appears to be different handwriting on the hardcopy prescription drug order forms.
	(8) Upon contact with the prescriber's office, you are unable to engage in comprehensive discussion with the actual prescriber, or he/she is unconcerned about your apprehensions regarding his/her prescribing practices or unwilling to provide additional information, such as treatment goals and/or prognosis with prescribed drug therapy.
	(9) You rely solely on the prescriber's representation, or on the representation of the individual answering the phone at the number on the prescription, that prescriptions are legitimate.
	(10) The prescriber's clinic is not registered as a pain management clinic by the Texas Medical Board, despite routinely receiving prescriptions from the prescriber foropiates, benzodiazepines, and/or muscle relaxants.
	(11) Drugs prescribed are inconsistent with the prescriber's area of practice.
	(12) The prescriber of the drugs is located a significant distance from your pharmacy.
	(13) The prescriber has been subject to disciplinary action by the licensing board, had his/her DEA registration removed, or been subject to criminal action.
	(14) The Texas PMP system indicates that persons are obtaining prescriptions for the same drugs from multiple prescribers or that persons are filling prescriptions for the same drugs at multiple pharmacies.
	(15) The person's address is a significant distance from your pharmacy and/or from the prescriber's office.
	(16) Multiple persons with the same address present prescriptions from the same prescriber.
	(17) Persons pay with cash or credit card more often than through insurance.
	(18) Persons presenting controlled substance prescriptions are doing so in such a manner that varies from seeking routine pharmacy services (e.g., willing to wait in long lines to receive drugs, persons arrive in the same vehicle with prescriptions from same prescriber, one person presents to pick up prescriptions for multiple others, persons refer to drugs by."street names" and/or comment on drug's color, persons seek early refills, persons travel from outside reasonable trade area of pharmacy).
	(19) Your pharmacy charges and persons are willing to pay more for controlled substances than they would at nearby pharmacies.
	(20) Your pharmacy routinely orders controlled substances from more than one drug supplier, or your pharmacy has been discontinued by a drug supplier related to controlled substance orders.
	(21) Sporadic and non-consistent dispensing volume (including zero dispensing) varies from day to day and week to week, and your pharmacy does not maintain operational hours each week on Monday through Friday.
	(22) Your pharmacy employs or contracts security personnel during operational hours to prevent problems.
	(23) Your pharmacy has been previously warned or disciplined by the Texas State Board of Pharmacy for inappropriate dispensing of controlled substances (i.e., corresponding responsibility).

If you checked any of the above items, you should review the laws and rules regarding corresponding responsibility and non-therapeutic dispensing, especially Board rule §291.29, in the law book or on our website: www.pharmacy.texas.gov (click on Texas Pharmacy Rules and Laws). Additional educational material is available at: http://www.pharmacy.texas.gov/Nontherapeutic.asp. Failure of pharmacies and pharmacists to detect patterns of inappropriate dispensing of prescription drugs is unprofessional practice and constitutes grounds for disciplinary action.

2. **Report to the Board**

Respondent Owner shall report to the Board quarterly, on a schedule as directed by the Board or its designee. The report shall be made either in person or in writing, as directed. Among other requirements, Respondent Owner shall state in each report under penalty of perjury whether there has been compliance with all the terms and conditions of probation. Failure to submit timely reports in a form as directed shall be considered a violation of probation. Any period(s) of delinquency in submission of reports as directed may be added to the total period of probation. Moreover, if the final probation report is not made as directed, probation shall be automatically extended until such time as the final report is made and accepted by the Board.

3. **Interview with the Board**

Upon receipt of reasonable prior notice, Respondent Owner shall appear in person for interviews with the Board or its designee, at such intervals and locations as are determined by the Board or its designee. Failure to appear for any scheduled interview without prior notification to Board staff, or failure to appear for two (2) or more scheduled interviews with the Board or its designee during the period of probation, shall be considered a violation of probation.

4. **Cooperate with Board Staff**

Respondent Owner shall cooperate with the Board's inspection program and with the Board's monitoring and investigation of Respondent Pharmacy's compliance with the terms and conditions of their probation. Failure to cooperate shall be considered a violation of probation.

5. **Reimbursement of Board Costs**

As a condition precedent to successful completion of probation, Respondent Owner shall pay to the Board its costs of investigation and prosecution in the amount of $6,310.80 (six thousand three hundred ten dollars and eighty cents). The costs may be paid on a payment plan approved by the Board. There shall be no deviation from the payment plan schedule absent prior written approval by the Board or its designee. Failure to pay costs by the deadline(s) as directed shall be considered a violation of probation.

The filing of bankruptcy by Respondent Owner shall not relieve Respondent Pharmacy of their responsibility to reimburse the Board its costs of investigation and prosecution.

6. **Probation Monitoring Costs**

Respondent Owner shall pay any costs associated with probation monitoring as determined by the Board each and every year of probation. Such costs shall be payable to the Board on a schedule as directed by the Board or its designee. Failure to pay such costs by the deadline(s) as directed shall be considered a violation of probation.

7. **Status of License**

Respondent Owner shall, at all times while on probation, maintain current licensure with the Board. If Respondent Owner submits an application to the Board, and the application is approved, for a change of location, change of permit or change of ownership, the Board shall retain continuing jurisdiction over the license, and Respondent shall remain on probation as determined by the Board. Failure to maintain current licensure shall be considered a violation of probation.

If Respondent Owner's license expires or is cancelled by operation of law or otherwise at any time during the period of probation, including any extensions thereof or otherwise, upon renewal or reapplication Respondent Owner's license shall be subject to all terms and conditions of this probation not previously satisfied.

8. **License Surrender While on Probation/Suspension**

Following the effective date of this decision, should Respondent Owner discontinue business, Respondent Owner may tender the premise's license to the Board for surrender. The Board or its designee shall have the discretion whether to grant the request for surrender or take any other action it deems appropriate and reasonable. Upon formal acceptance of the surrender of the license, Respondent will no longer be subject to the terms and conditions of probation.

Upon acceptance of the surrender, Respondent Owner shall relinquish the premises wall and renewal license to the Board within ten (10) days of notification by the Board that the surrender is accepted. Respondent Owner shall further submit a completed Discontinuance of Business form according to Board guidelines and shall notify the Board of the records inventory transfer.

///

Respondent Owner shall also, by the effective date of this decision, arrange for the continuation of care for ongoing patients of the Respondent Pharmacy by, at minimum, providing a written notice to ongoing patients that specifies the anticipated closing date of the pharmacy and that identifies one or more area pharmacies capable of taking up the patients' care, and by cooperating as may be necessary in the transfer of records or prescriptions for ongoing patients. Within five days of its provision to the pharmacy's ongoing patients, Respondent Owner shall provide a copy of the written notice to the Board. For the purposes of this provision, "ongoing patients" means those patients for whom the pharmacy has on file a prescription with one or more refills outstanding, or for whom the pharmacy has filled a prescription within the preceding sixty (60) days.

Respondent Owner may not apply for any new licensure from the Board for three (3) years from the effective date of the surrender. Respondent Owner shall meet all requirements applicable to the license sought as of the date the application for that license is submitted to the Board.

Respondent Owner further stipulates that he or she shall reimburse the Board for its costs of investigation and prosecution prior to the acceptance of the surrender.

9. **Notice to Employees**

Respondent Owner shall, upon or before the effective date of this decision, ensure that all employees involved in permit operations are made aware of all the terms and conditions of probation, either by posting a notice of the terms and conditions, circulating such notice, or both. If the notice required by this provision is posted, it shall be posted in a prominent place and shall remain posted throughout the probation period. Respondent Owner shall ensure that any employees hired or used after the effective date of this decision are made aware of the terms and conditions of probation by posting a notice, circulating a notice, or both. Additionally, Respondent Owner shall submit written notification to the Board, within fifteen (15) days of the effective date of this decision, that this term has been satisfied. Failure to submit such notification to the Board shall be considered a violation of probation.

///

"Employees" as used in this provision includes all full-time, part-time, volunteer, temporary and relief employees and independent contractors employed or hired at any time during probation.

10. **Owners and Officers: Knowledge of the Law**

Respondent Owner shall provide, within thirty (30) days after the effective date of this decision, signed and dated statements from its owners, including any owner or holder of ten percent (10%) or more of the interest in Respondent Pharmacy or Respondent Pharmacy's stock, and any officer, stating under penalty of perjury that said individuals have read and are familiar with state and federal laws and regulations governing the practice of pharmacy. The failure to timely provide said statements under penalty of perjury shall be considered a violation of probation.

11. **Posted Notice of Probation**

Respondent Owner shall prominently post a probation notice provided by the Board in a place conspicuous and readable to the public. The probation notice shall remain posted during the entire period of probation.

Respondent Owner shall not, directly or indirectly, engage in any conduct or make any statement which is intended to mislead or is likely to have the effect of misleading any patient, customer, member of the public, or other person(s) as to the nature of and reason for the probation of the licensed entity.

Failure to post such notice shall be considered a violation of probation.

12. **Violation of Probation**

If Respondent Owner has not complied with any term or condition of probation, the Board shall have continuing jurisdiction over Respondent Pharmacy's license, and probation shall be automatically extended until all terms and conditions have been satisfied or the Board has taken other action as deemed appropriate to treat the failure to comply as a violation of probation, to terminate probation, and to impose the penalty that was stayed.

If Respondent Owner violates probation in any respect, the Board, after giving Respondent Owner notice and an opportunity to be heard, may revoke probation and carry out the disciplinary

order that was stayed. Notice and opportunity to be heard are not required for those provisions stating that a violation thereof may lead to automatic termination of the stay and/or revocation of the license. If a petition to revoke probation or an accusation is filed against Respondent Pharmacy during probation, the Board shall have continuing jurisdiction and the period of probation shall be automatically extended until the petition to revoke probation or accusation is heard and decided.

13. **Completion of Probation**

Upon written notice by the Board or its designee indicating successful completion of probation, Respondent Pharmacy's license will be fully restored.

Within sixty (60) days of the effective date of this decision, Respondent Owner shall submit to the Board or its designee, for prior approval, a community service program in which Respondent shall provide free brown-bag events to the community for at least twenty (20) days per year for the first two (2) years of probation.

Within thirty (30) days of Board approval thereof, Respondent Owner shall submit documentation to the Board demonstrating commencement of the community service program. Respondent Owner shall report on progress with the community service program in the quarterly reports.

Provide explanation below:

I was convicted by the Mendocino Superior Court (Mendocino County in California) in regards to an incident that resulted in a charge for driving under the influence (DUI) with special allegations in the early morning of September 1st, 2018. An explanation of the circumstances is as followed. On the night of August 31st, 2018 in Fort Bragg, CA; I was with a friend as we went to eat dinner together and then decided to head to the Golden West Saloon afterwards. Since I am only a social drinker, I had decided to have a glass of beer and 2 shots of Maker's Mark (45% alcohol, 90 proof) to drink along with my friend. After allowing sufficient time for the alcohol to process, my friend and I decided to head home at 2:00 am in the morning on September 1st, 2018. At this moment, I did not feel physically or mentally impaired and made the decision to drive the 1 and 1/2 mile trip back to my lodging. In hindsight, I realized that this was a poor decision on my part. While going down the road, I was stopped by Officer Wilder of the Fort Bragg Police Department due to speeding, going 40 mph on a 25 mph road. It was then, that a field sobriety test (FST) was conducted and it was determined that I was also not fit to drive any further that night. As a result, I was booked, but then released to another friend on the promise to appear in court on a later date. At this time, I was a floating pharmacist and traveled through different counties for work.

Over the course of the next few weeks afterwards, my attorney helped me with the court process in Mendocino County which lead to my plea of nolo contendere and my final conviction and sentencing. Also, as a result of my verdict, the special allegation of my Blood Alcohol Content (BAC) level was dropped from an enhanced DUI to a normal DUI upon the court receiving a letter of character from my supervisor at the time.

I was convicted of a misdemeanor and received a 5 year terms of probation with the Mendocino Superior Court which required me to serve 48 hours of jail time, attend 3 months of a DUI program and to pay a fine and court fees. In terms of my driver's license during that time; I was allowed to have a restricted driver's license that allowed me to drive to and from work and to and from my DUI classes. I was placed into a work release program in Ukiah, CA (another city within Mendocino County) in lieu of the required 48 hour jail time and completed all hours in February 2019.

During this time, I had provided all court documents and notified the states in which I was licensed as a pharmacist of this incident, which included California and Nevada. The California State Board of Pharmacy issued a citation of unprofessionalism and I was fined $1000. Additionally, I had forwarded documentation of this citation from the California State Board of Pharmacy to the Nevada State Board of Pharmacy and was allowed to continue to practice and hold a pharmacist license.

Brian Ngo: Written Description of Incident

A detailed, written description of the incidents that led to each arrest/citation/charge and/or disciplinary action, and the surrounding circumstances; this must include relevant dates, the city and state where the incidents occurred, and the outcome of any charges

I was convicted by the Mendocino Superior Court (Mendocino County in California) in regards to an incident that resulted in a charge for driving under the influence (DUI) with special allegations in the early morning of September 1st, 2018. An explanation of the circumstances is as followed. On the night of August 31st, 2018 in Fort Bragg, CA; I was with a friend as we went to eat dinner together and then decided to head to the Golden West Saloon afterwards. At this moment, I did not feel physically or mentally impaired and made the decision to drive the 1 and 1/2 mile trip back to my lodging. In hindsight, I realized that this was a poor decision on my part. While going down the road, I was stopped by Officer Wilder of the Fort Bragg Police Department due to speeding, going 40 mph on a 25 mph road. It was then, that a field sobriety test (FST) was conducted and it was determined that I was also not fit to drive any further that night. As a result, I was booked, but then released to another friend on the promise to appear in court on a later date. At this time, I was a floating pharmacist and traveled through different counties for work.

Over the course of the next few weeks afterwards, my attorney helped me with the court process in Mendocino County which lead to my plea of nolo contendere and my final conviction and sentencing. Also, as a result of my verdict, the special allegation of my Blood Alcohol Content (BAC) level was dropped from an enhanced DUI to a normal DUI upon the court receiving a letter of character from my supervisor at the time.

I was convicted of a misdemeanor and received a 5 year terms of probation with the Mendocino Superior Court which required me to serve 48 hours of jail time, attend 3 months of a DUI program and to pay a fine and court fees. In terms of my driver's license during that time, I was allowed to have a restricted driver's license that allowed me to drive to and from work and to and from my DUI classes. The California State Board of Pharmacy issued a citation of unprofessionalism and I was fined $1000. Additionally, I had forwarded documentation of this citation from the California State Board of Pharmacy to the Nevada State Board of Pharmacy and was allowed to continue to practice and hold a pharmacist license.

As a result of this incident, I am completely aware of my unprofessional conduct regarding this matter and feel that it does not accurately reflect my professional character nor does it impair my ability to provide professional judgment. I understand that my actions that night could have resulted in harm or death for others and myself. In the future moving forwards, I realized that it would have been better to take a taxi, Uber or Lyft back to my residence regardless if I had a low number of drinks or how I feel.

If there are any other information or documents required in this investigation, please do not hesitate to contact me through mail, email or phone. Thank you.

Primary Narrative

DRIVING UNDER INFLUENCE NARRATIVE

ELEMENTS:

a. It is unlawful for any person who is under the influence of an alcoholic beverage or any drug, or under the combined influence of an alcoholic beverage and any drug, to drive a vehicle.

b. It is unlawful for any person who has 0.08 percent or more, by weight, of alcohol in his or her blood to drive a vehicle.

c. It is unlawful for any person who is addicted to the use of any drug to drive a vehicle, except for a person who is participating in an approved methadone maintenance treatment program.

SUMMARY:
On 9-1-18 at approximately 0214 hours officers observed a silver sedan speeding. Upon contacting the driver Brain Ngo, he had the strong odor of alcohol emitting from his breath and person. Ngo failed FST's and was arrested. His BAC was .15% and .15%. He was issued a citation, and released with his written promise to appear in court on 10-2-18 at 0900 hours.

NARRATIVE:
On 9-1-18 at approximately 0214 hours, I was on patrol in my fully marked Fort Bragg Police Department patrol vehicle. I was sitting in the 200 block of N Main Street when I observed a silver sedan approaching my location N/B. The vehicle was going approximately 40 mph in a 25 mph zone, thus a violation of California Vehicle Code Section 22350. I watched the vehicle go past me and I began to follow it. The vehicle then made a u turn and began going S/B. As I followed the vehicle it made a quick right hand turn on to W Alder Street driving over the sidewalk as it turned. I sat in the 100 block of N Main Street waiting for the vehicle to reemerge. After a moment the vehicle emerged in the 100 block of N Main Street and began going N/B again. I advised dispatch I was going to be conducting a traffic enforcement stop in the 500 block of N Main Street. I activated my red and blue lights and the vehicle pulled over.

I approached the driver's side of the vehicle and experienced the moderate odor of alcohol emitting from the inside of the vehicle. I contacted the driver of the vehicle and asked him for his driver's license and proof of insurance. After a

moment the driver located his driver's license. As he handed it to me he dropped it on the ground. The driver's license stated his name was Brian Ngo. I asked Ngo if he had been drinking and he advised he had one beer. As we spoke he advised he had two beers or something. As I spoke with him I observed he had the strong odor of alcohol emitting from his breath and person. He had red watery eyes, and slightly slurred speech.

I requested dispatch complete a records check on the status of Ngo's driver's license. Dispatch advised he possessed a valid driver's license.

INVESTIGATION:
I requested Ngo exit the vehicle so I could evaluate his level of intoxication to determine if it was safe for him to drive. As he exited the vehicle I observed he was very unsteady on his feet. I advised him I wanted to ask him some questions regarding his health. He agreed to speak with me. I asked him when he last drank and he advised approximately one hour ago. I asked him if he took and medication and he stated no. Ngo stated there was nothing mechanically wrong with his vehicle. He advised he was not injured in any way, nor was he diabetic or using insulin.

I explained to Ngo part of the test was his ability to follow my verbal instruction. I told him I would first demonstrate each of the tests first, and then ask him to preform them. With the exception of Nystagmus, I explained and demonstrated each of the following SFT's to Ngo before asking him to begin. He stated he understood.

FIELD SOBRIETY TESTS:
Test #1 Horizontal Gaze Nystagmus: The eye's ability to follow a moving object smoothly. The tests included Lack of Smooth pursuit and the angle of onset.

Observation: Ngo's eyes bounced side to side as they followed the tip of my finger displaying lack of smooth pursuit, and onset was immediate. Ngo continued to move his head as he watched my finger. Furthermore his eyes lacked convergence.

Test #2 Finger count: Using their thumb, the subject is advised to begin counting touching the index finger down to the pinky finger 1-2-3-4, and then instructed to count backward 4-3-2-1 starting from the pinky finger and continuing to the index finger. He was advised to do this five times.

Observations: Ngo was unable to complete this test. He did the test four times and was shown each time how to do it and he could not do it right. He was able to do the 1-2-3-4 but then did 4-5-6-7-8-9-10-12-13-14. He was shown how to do this test multiple times, but was unable to do as shown.

Test #3 RHOMBERG STAND: I advised Ngo I wanted him to stand with his feet together with his hands to his sides. Ngo had a difficult time with this test. I told him I wanted him to tilt his head back, close his eyes, and estimate 30 seconds in his head. I asked him if he understood and he said yes.

Observations: As he began the test he had a 1 inch gap between his feet. His head was back, but his eyes were open. I explained the test to him again and he did the same thing. I explained it to him again and he began to count out loud. I explained the test to him again, and this time he was able to complete it, though he estimated 30 seconds to be 15 seconds.

Test #4 Walking in a straight line: Subject is instructed to walk heel to toe while counting aloud to 9 in one direction then turn anyway he wanted and return walking heel to toe counting to 9, while maintaining a straight line. He was also instructed to keep his hands at his side.

The area was a well-lit paved sidewalk with lines all over the place for Ngo to walk down.

Observations: Ngo began this test but had a 1 to 2 inch gap between his heels to toe. He had to stop several times because he almost fell over. He was unable to walk in a straight line.

NARRATIVE CONTINUED:
Due to Ngo's inability to perform the FST's correctly, I advised him he was under arrest for 23152 (A) CVC (Driving under the Influence of Alcohol). I secured him in handcuffs, checked them for proper fit, and escorted him to my marked patrol vehicle. He was secured in the backseat.

Ngo's vehicle was towed from the scene by Orca Towing. I then transported Ngo to booking at the Fort Bragg Police Department. Upon arrival I provided Ngo with the Chemical Test Admonishment. He stated he would provide a breath sample. Ngo was tested by the Alcotest 7510 Plus EPAS (Evidential Portable Alcohol System) (Serial # ARBF 0060.) The test results were as follows:

TEST # 1: At 0241 hours, 0.15 % BAC
TEST # 2: At 0244 hours, 0.15 % BAC

I completed the Admin Per Se, and provided Ngo with his copy.

Ngo was released to Ana Tepepa a sober friend. He was released with his written promise to appear in court on 10-2-18 at 0900 hours.

Topics to Education
1. BPC 4052.04 – Pharmacist may furnish COVID-19 oral therapeutics following a positive test.
   - "COVID-19 oral therapeutics" means drugs that are approved or authorized by the FDA for the treatment of COVID-19 and administered orally.

2104

INSPECTION REPORT

- Prior to furnishing COVID-19 oral therapeutics, a pharmacist shall utilize relevant and appropriate evidence-based clinical guidelines published by FDA in providing these patient care services.
- A pharmacist who furnishes COVID-19 oral therapeutics shall notify patient's PCP or enter appropriate information into patient record system shared with PCP, as permitted by that PCP. If the patient does not have a PCP, the pharmacist shall provide the patient with a written record of the drugs furnished and advise the patient to consult a physician of the patient's choice.
- Document the kind and amounts of COVID-19 oral therapeutics furnished, as well as any information regarding testing services provided, in the patient's record in the record system maintained by the pharmacy.
- Retain records for 3 years.

2. BPC 4113 – PIC authority to make staffing decisions
   - PIC may make staffing decisions to ensure sufficient personnel are present in the pharmacy to prevent fatigue, distraction, or other conditions that may interfere with a pharmacist's ability to practice competently and safely.
   - If PIC is not available, a pharmacist on duty may adjust staffing according to workload if needed.
   - PIC or pharmacist on duty shall immediately notify the store management of any conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff. If the conditions are not resolved within 24 hours, the PIC or RPH on duty shall ensure the BOP is timely notified. Conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff include, but are not limited to:
     - Workplace safety and health hazards that present an immediate risk of death, illness or irreparable harm to patients, personnel, or pharmacy staff.
     - Sustained temperatures that could impact ambient temperature drug stability according to manufacturer data on acceptable drug storage conditions.
     - Vermin infestation that poses a risk to the safety or efficacy of medicine.
3. BPC 4113.1 – Reporting medication errors within 14 days from discovery.
   - Applies to "community pharmacies" – i.e., any pharmacy that dispenses medication to an outpatient (but not including facilities of CDCR).
   - Per the BOP's AB 1286 Implementation Statement, the reporting of medication errors under BPC 4113.1 will not be required until the BOP approves an entity to receive the reports.
4. BPC 4113.6 – Chain community pharmacy subject to BPC 4113.5 must be staffed at all times with at least one clerk or pharmacy technician fully dedicated to performing pharmacy-related services. The BOP will not take action against a pharmacy for violation of this staffing requirement if any of the following conditions apply:
   - RPH on duty waives the requirement in writing during specified hours based on workload need.
   - The pharmacy is open beyond normal business hours (i.e., before 8am, after 7pm). During the hours before 8am and after 7pm, the staffing requirement shall not apply.
   - The pharmacy's prescription volume per day on average is less than 75 prescriptions per day based on the average daily prescription volume for the past calendar year. However, if the pharmacist is also expected to provide additional pharmacy services (such as immunizations or CLIA-waived tests) this exception does not apply.

   When staffing of pharmacist hours within a chain community pharmacy does not overlap sufficiently, scheduled closures for lunch time for all pharmacy staff shall be established and publicly posted, and included on the outgoing telephone message.
5. BPC 4115 – Pharmacy technician may, under the direct supervision and control of a pharmacy, prepare and administer influenza and COVID-19 vaccines via injection or intranasally, prepare and administer epinephrine, perform specimen collection for tests that are CLIA waived, receive prescription transfers, and accept clarification on prescriptions under certain specified conditions.
6. BPC 4231 – CE required for pharmacists to renew their pharmacist license must now include at least one hour of participation in a cultural competency course which meets specified requirements.
7. The Board has posted on its website the FAQ's to address the changes in pharmacy law related AB1286, dated 12/21/2023. Here's the link: https://pharmacy.ca.gov/publications/ab1286_faqs.pdf

To Whom It My Concern,

In response to question 2 on the Outsourcing Application, ProRx has been denied licensure in Iowa due to lack of inspection. At the time we submitted our application, we had the 483 and subsequent warning letter from the prior ownership, no state inspection was available due to Pennsylvania Department of Health having a policy to not perform inspections.

Please let us know if any additional information is needed.

Notes

1. The "initial date of registration as an outsourcing facility" is the date the facility was first registered (i.e., the date FDA determined that the initial registration information submitted for the facility was complete, and the establishment fee was paid in full).

   Under section 503B(b) of the FD&C Act, after the initial registration, a facility that elects to continue to be registered with FDA as an outsourcing facility must re-register annually. A facility that elects to register (or re-register) with FDA as an outsourcing facility must pay an annual establishment fee. The "date of most recent registration as an outsourcing facility" reflects the date FDA determined the most recently submitted registration information was complete and the annual establishment fee for that fiscal year paid in full.

   Unless a previously registered outsourcing facility re-registers and pays the annual establishment fee in full during the registration period (between October 1 and December 31 of each calendar year), the facility will be removed from the list of registered outsourcing facilities on January 1 of the next calendar year.

2. Once an outsourcing facility is registered, the facility will be added to the list of facilities FDA intends to inspect according to a risk-based schedule. FDA plans to inspect outsourcing facilities within a reasonable period of time following initial registration, once it is confirmed that the facility has initiated drug production and distribution. However, the exact timing of the inspections can be affected by a number of variables, including the number of outsourcing facility registrants, other inspection priorities, and the operational status of the newly registered outsourcing facility.

   Inspections identified in this table are associated with the facility at the listed address. A company may own or operate more than one registered outsourcing facility. FDA's web page Compounding: Inspections, Recalls, and other Actions (/node/363232) may contain information about compounding facilities under the same ownership as the listed registered outsourcing facility.

   Inspections may take place over several days, weeks or longer. The date of the inspection is the date a Form FDA 483 listing the investigators' observations was issued. If no FDA Form 483 was issued, the date is the last day of the inspection.

3. A Form FDA 483 is issued when investigators observe any significant objectionable conditions. It does not constitute a final agency determination of whether any condition is in violation of the FD&C Act or any relevant regulations.

4. This table does not include State Board of Pharmacy actions, if any. To determine whether a registered outsourcing facility has been the subject of a state enforcement action, check with the State Board of Pharmacy for the state in which the facility is located. Some states post disciplinary or other actions on their web sites.
5. "Closed" means the inspection has been closed without further action. "Open" means FDA has not determined whether further action will be taken. If an action has been taken, it will be listed. Possible FDA actions include warning letter, seizure or injunction.
6. The information in this column was provided by the registered outsourcing facility at the time of registration and has not been verified by FDA. "N/A" indicates the registered outsourcing facility has not provided this information.
7. This outsourcing facility was the subject of at least one previous inspection relating to compounding that resulted in a Form FDA 483, warning letter or other action. For information about such inspections and resulting actions, visit Compounding: Inspections, Recalls, and other Actions (/node/363232).
8. A remote regulatory assessment (RRA) is an examination of an FDA-regulated establishment and/or its records, conducted remotely, to evaluate compliance with applicable FDA requirements. These assessments assist in protecting human and animal health, inform regulatory decisions and verify certain information submitted to the agency.
9. Based on inspectional findings, the inspection revealed significant issues. As a result, the outsourcing facility may have either initiated a recall on their own following conversation(s) with the FDA investigator or FDA recommended a recall at the conclusion of the inspection or both. Additionally, the outsourcing facility may have conducted multiple recalls or recalled multiple drugs.

This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM I OBSERVED:

OBSERVATION 1

There is a failure to thoroughly review any unexplained discrepancy and the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Specifically,

A. Your firm failed to investigate media fill vials with positive microbial growth. Operators ST and RC conducted three media fill batches on consecutive days (March24 -26, 2025), with each operator required to fill three trays of vials per batch for qualifying operators for aseptic production. On April 8, 2025, positive microbial growth was reported for one vial from the first batch of each operator from the March 24, 2025 media fill batch. No positive growth was reported in the March 25 or the March 26, 2025 media fill batches. Your firm did not investigate the root cause of the positive growth events and did not perform microbial identification of the affected vials. Despite these contamination events, both operators were subsequently qualified for aseptic operations.

B. Despite positive environmental monitoring results in the ISO 5 area, your firm released batches of drug products intended to be sterile without investigation or scientific justification. For example, your firm reported microbial growth during environmental monitoring of the ISO 5 area and performed microbial identification, as follows:

- Semaglutide 10 mg/4 mL, Lot# PRORX050925-1, Mfg. Date: May 9, 2025, BUD: November 5, 2025 - 1 CFU of Corynebacterium sp. detected on left fingertips.
- Semaglutide 10 mg/4 mL, Lot# PRORX051425-6, Mfg. Date: May 14, 2025, BUD: November

10, 2025 - 1 CFU of Bacillus subtilis detected on left fingertips.

- Semaglutide 5 mg/2 mL, Lot# PRORX052125-4, Mfg. Date: May 21, 2025, BUD: November 17, 2025 - 1 CFU of Bacillus filamentosus detected on left fingertips.
- Tirzepatide 27 mg/3 mL, Lot# PRORX08062025-3, Mfg. Date: August 6, 2025, BUD: April 3, 2026 - 1 CFU of Bacillus subtilis detected on right fingertips.
- Semaglutide 12.5/5ml, Lot# Prorx04282025@3, Mfg: April 28, 2025, BUD: October 25, 2025 - 2 CFUs of Bacillus subtilis detected on the settle plate.
- Semaglutide Injection, 5 mg/2 mL (2.5 mg/ml), Lot# Prorx041125@3, Mfg: April 11, 2025, BUD: October 8, 2025 - 1 CFU detected on the settle plate

No documented investigations were conducted for these positive results. Your firm released the affected batches based on the rationale that the microorganisms were not highly pathogenic, without neither adequate consideration of sterility assurance nor whether organisms would be pathogenic if injected into the body, especially for patients that are or might be immune compromised. Additionally, your firm failed to conduct microbial identification testing for Semaglutide Injection, 5 mg/2 mL (2.5 mg/ml), Lot# Prorx041125@3.

Your firm identified positive microbial growth within ISO 5 areas during monthly environmental monitoring - 2 CFUs of Bacillus subtilis and Calcarisporium cordycipiticola recovered from surface sampling on April 11, 2025. The surface sampling was conducted after cleaning of the ISO 5 hoods, as confirmed by the responsible personnel. Your firm produced three batches on that day - Semaglutide 5mg_2mL, Lot# Prorx041125-3, NAD+ 1200mg_6mL, Lot# Prorx04112025@1, and NAD+ 1200mg_6mL, Lot# Prorx04112025@2. All affected batches were released and distributed to your customers without an investigation.

C Your firm failed to investigate microbial growth exceeding action levels in the ISO 7 and ISO 8 areas during environmental monitoring, personnel monitoring, and gown qualification. For example, Operator DK exhibited the following microbial recoveries during gowning on May 29, 2025: 7 CFU from the fingertips, 17 CFUs on the left gown, and 20 CFUs on the right gown. No investigation was conducted

for this nonconformance. On January 16, 2025, air sampling of the ISO 7 area detected 1 CFU of Trichoderma orientale (mold) during the production of Tirzepatide 60 mg/3 mL. No investigation was initiated or for other similar occurrences.

D. The investigation of positive environmental monitoring results for mold detected on operators' fingertips while working in the ISO 5 area was inadequate, as described below.

- Semaglutide 6 mg/2.4 mL, Lot# PRORX051425-1, Mfg. Date: May 14, 2025, BUD: November 10, 2025 - 1 CFU of Aspergillus niger detected on left fingertips and 2 CFUs of Kocuria turfanensis and Aspergillus eucalypticola/tubinensis/vadensis detected on right fingertips.
- Semaglutide 2.5 mg/1 mL, Lot# PRORX051525-6, Mfg. Date: May 15, 2025, BUD: November 11, 2025 - 2 CFUs of Brevibacterium frigoritolerans and Aspergillus niger detected on right fingertips.

Despite mold detected on two consecutive days during personnel monitoring, your investigation indicated that the positive results posed no risk to patients or products, and only minimal risk to the process given the passing sterility test results of finished products. Additionally, your investigation failed to extend to other batches produced by the affected operators during the same period to date. Your firm produced batches on April 14 and April 15, 2025, which were released and described as follows:

- Semaglutide 6mg/2.4mL , Lot# Prorx051425-2, BUD: November 14, 2025

E. Investigation of non-conformance results significantly exceeded the required timeframe without justification. Your firm established a due date of July 2, 2025, for investigating positive environmental monitoring results involving mold detected on operators' fingertips on June 11. 2025 during production of Semaglutide 6 mg/2.4 mL, Lot# PRORX051425-1, and Semaglutide 2.5 mg/1 mL, Lot# PRORX051525-6. The investigation has not been closed; however, no justification was documented and approved for the extended investigation timeline.

OBSERVATION 2

Aseptic processing areas are deficient regarding the system for monitoring environmental conditions.

Specifically,

Environmental monitoring during aseptic production of sterile drug products is inadequate, as described below:

• Non-viable particle counting in ISO Class 5 LAFH or BSC is conducted only every six months during clean room certification by a third-party company, according to SOP 03-05.02, "Viable and Non-Viable Sampling," dated February 2025. The two most recent clean room certifications were issued on August 13, 2024, and March 19, 2025, during which non-viable particles were measured in the ISO Class 5 hoods; however, no non-viable particle monitoring is conducted during routine batch processing.

• Although settle plates are used during production of each batch, active air monitoring is conducted only monthly per the SOP; however, the Viable Air Sampling Log shows that viable air sampling was

not performed in January, February, and May 2025. No active air monitoring is conducted during routine batch processing.

• Surface monitoring is performed on a monthly basis per the SOP; however, the surface Sampling Log shows that surface monitoring was not performed in January, July, and August 2025. No surface sample monitoring is conducted during routine batch processing.

On September 9, 2025, it was observed that non-viable particles, active air, and surface samples were not monitored during aseptic processing of Tirzepatide Injection 45 mg/2.5 mL, Lot# Prorx09092025@2; Tirzepatide Injection 45 mg/2.5 mL, Lot# Prorx09092025@3; and Glutathione 2,000 mg/10 mL, Lot# Prorx092025@8.

Your firm produced 139 batches of sterile drug products from June 2, 2025, to September 9, 2025.

OBSERVATION 3

Procedures designed to prevent microbiological contamination of drug products purporting to be sterile are not established, written and followed.

Specifically,

A. Aseptic techniques were not adequately demonstrated during aseptic processing operations. On September 9, 2025, during the production of Tirzepatide Injection 45 mg/2.5 mL, Lot# Prorx09092025@2; Tirzepatide Injection 45 mg/2.5 mL, Lot# Prorx09092025@3; and Glutathione 2,000 mg/10 mL, Lot# Prorx092025@8, the following deficiencies were observed:

• The operator working in the ISO Class 5 area disrupted unidirectional airflow by extending their forearms over the container to retrieve each stopper and place it onto a vial during the stoppering process inside the ISO Class 5 hood

• An operator working in the ISO Class 5 area had exposed forehead skin.

• The operator with exposed forehead returned to the ISO Class 8 gowning area to readjust safety goggles and subsequently reentered the ISO Class 7 buffer room without changing garments.

• During the gowning process, personnel in the unclassified area opened the door twice to pass supplies to an operator who was donning sterile garments.

• Cart wheels were not disinfected when moving from unclassified areas to the ISO Class 8 gowning room or when moving from the ISO Class 8 gowning room to the ISO Class 7 buffer room.

• An operator cut open the outer packaging of stoppers in the ISO Class 7 area. The inner bag was then transferred from the ISO 7 area into the ISO Class 5 laminar airflow workstation (LAFW) without surface disinfection. The inner bag of stoppers could be held for up to one hour within the ISO 7 area before being transferred into the operator working in the ISO Class 5 area.

• An operator working in the ISO Class 7 area transfered stopper bags into the ISO Class 5 LAFW and cut open the packaging using non-sterilized scissors that were routinely stored in the ISO Class 7 area although it was wiped with sterile 70% IPA wipe prior to use.

Your firm produced 139 batches of drug products intended to be sterile from June 2, 2025, to September 8, 2025.

OBSERVATION 4

Procedures designed to prevent microbiological contamination of drug products purporting to be sterile did not include adequate validation of the aseptic and sterilization process.

Specifically,

A. Your media fill studies did not simulate the aseptic vial manufacturing process under worst-case conditions, as described below.

• Personnel media fill studies do not simulate the batch production process. Personnel media fill qualification is conducted quarterly for each operator with multiple operators involved in a single media fill, with each individual operator filling few trays of vials (up to 96 vials) and stoppering those filled vials. For example, six operators conducted personnel media fill qualification on June 2, 2025, with each individual filling and stoppering three trays from a batch of 2,880 vials (10 mL/vial). However, during batch production, two operators work together within the ISO Class 5 Laminar Airflow Hood (LAFH) or Biological Safety Cabinet (BSC) - one operator responsible for filling all vials of a batch (up to 30 trays of 2,880 units) and the other for stoppering. Operators who pass the initial media fill are qualified to work in the ISO Class 5 area to produce drug products intended to be sterile.

• Process validation media fills do not fully represent the batch production process under worst-case conditions. Your firm completed 12 media fill batches for process validation with two operators working within the ISO Class 5 LAFH or BSC simultaneously during media fill; however, the number of units filled, duration, and batch size do not simulate the batch production process. For example, a single operator filled 30 vials (30.4 mL/vial) per media fill unit Prorx06172025@3 dated June 17, 2025, while six operators filled 2,496 vials (6 mL/vial) per Prorx03242025 dated April 10, 2025. During routine aseptic processing, a single operator could fill up to 2,880 vials (6 mL/vial) for a batch.

B. Growth promotion testing has not been conducted for agar plates used for environmental monitoring, including settle plates, surface samples, and personnel monitoring.

C. Autoclave sterilization qualification is inadequate because biological indicators are not used for

qualification. According to the "Qualification Mapping Analyses and Open-Door Study and Autoclave Sterility Study, Validated_PRX7008" dated February 10, 2025, temperature mapping results met acceptance criteria; however, no biological indicators were used for qualification of Autoclave A-027. This equipment is used for sterilization of utensils such as tweezers and scissors used in the ISO Class 5 area. The tweezers are used to add stoppers to vials during the filling of drug products intended to be sterile.

OBSERVATION 5

The quality control unit lacks responsibility to approve and reject all procedures or specifications impacting on the quality of drug products.

Specifically,

A. Your firm is constructing a new facility within the same building to manufacture sterile and non-sterile products, separated from the current sterile facility by only a wall. Construction activities (e.g., cleanroom build-out, equipment installation, floor renovation, and wall demolition) are ongoing while sterile manufacturing continues. No change control or risk assessment has been initiated. These activities pose a risk of cross-contamination and loss of environmental control due to particulate and microbial intrusion, personnel and material movement, and disruption of facility integrity.

B. Your firm has not adequately qualified operators conducting visual inspections of drug products intended to be sterile. For example, Operator DK performed visual inspection of Tirzepatide 72 mg/4 mL on September 10, 2025; however, operator visual qualification was based solely on eye examination records from physicians rather than comprehensive visual inspection competency testing, including using qualification kits containing critical, major and minor defects.

C. Visual inspection failed to accurately classify vial defects that were approved by the quality unit. For

example, the batch record for Semaglutide 5 mg/2 mL, Lot# PRorx04112025@3, documented 4 fibers and 2 white particles, which were classified as minor. However, in the batch record for Semaglutide 12.5 mg/5 mL, Lot# 042825@3, white particles were classified as major. Despite this inconsistency, both batches were reviewed and approved by the quality unit.

D. Your firm conducted 100% visual inspection of finished vials for each batch; however, no inspection using statistical sampling methods (e.g., AQL inspection) is performed by the Quality Unit as part of batch release.

OBSERVATION 6

Aseptic processing areas are deficient regarding the system for cleaning and disinfecting the room and equipment to produce aseptic conditions.

Specifically,

A. Your firm has not conducted disinfectant efficacy studies for disinfectants used in the cleaning and disinfection of ISO Class 5 LAFH or BSC and cleanroom environments. The production operators used 70% isopropyl alcohol (IPA) for disinfecting supply surfaces and daily cleaning and disinfection of ISO Class 5 hoods, while TBI-3300 is used for weekly disinfection and Peridox is used for monthly disinfection of cleanrooms and ISO Class 5 hoods; however, your firm has not performed disinfectant efficacy studies for these disinfectants, despite various microorganisms exceeding action levels, including mold detected in both ISO 5 and ISO 7 areas during aseptic processing.

B. The floor of the ISO Class 7 buffer room equipped with an ISO Class 5 LAFH and BSC showed significant visible sporadic discoloration, the cause of which remains unknown.

The observations of objectionable conditions and practices listed on the front of this form are reported:

To Whom It May Concern:

This letter is in reference to a request for the Pennsylvania Department of Health Drug, Device, and Cosmetic (DDC) program's inspection policy for facilities located in Pennsylvania that manufacture, distribute, or retail drugs, devices or cosmetics. In Pennsylvania, neither the Pennsylvania Controlled Substance, Drug, Device and Cosmetic (PA-CSDDC) Law nor the Pennsylvania Wholesaler Prescription Drug Distributor Law (WPDD) mandate annual inspection for initial or renewed registration or licensure of facilities manufacturing, distributing, or retailing drugs, medical gases, or medical devices. Given no state law inspection mandate, inspections are prioritized based on variety of factors rather than a set timeframe in state law including but not limited to agency policies, type of enterprises/products, staffing, public safety, and possibly other related laws.

Complaints and related investigations are always given the highest inspection priority. Generally, onsite inspections for initial licensure of a prescription drug wholesaler are also highly prioritized. Conversely, those entities (i.e. drug manufacturers/repackagers/503Bs, DMEs) that are already inspected routinely or jointly overseen by a federal or national accrediting agency (i.e. FDA, DEA, Medicare/CMS, NABP/VAWD, etc.) are given lower inspection priority as well as entities handling only non-prescription/OTC products, or cosmetics. Interested parties are encouraged to seek or confirm information from related federal or national accreditation agencies, if applicable.

Please note, any registered or licensed facility may request an onsite inspection, though such requested inspections may be dependent on staffing availability and other priorities. The DDC program does complete affidavit/verification forms, upon request, noting if a facility is in good standing or has had any deficiency ratings or encumbered Pennsylvania DDC registration/license. Finally, please note, the DDC program does not register or license in-state virtual headquarters or "paper only offices" where no product is physically handled directly by the virtual entity. The DDC program may recognize such entities via certificate of record after verification of business and FDA filings, but the DDC program does not inspect in-state virtual manufacturers, virtual distributors, or office only headquarters.

If you have any questions on our laws or the registration requirements for our manufacturing/distributing facilities in Pennsylvania, please contact my office at the number shown above.

Sincerely,

CSP-050 Sterile Compounding Area Cleaning

SCOPE

1. This Policy and Procedure applies to all sterile facility operations.

PURPOSE

1. To describe, standardize and define the process by which the controlled environments (ISO Class 5, 7, and 8) and the general preparation area(s) are cleaned, disinfected, and maintained to ensure an environment suitable for compounding sterile preparations.

RESPONSIBILITY

1. The Pharmacist-in-Charge (PIC)/Quality Unit Manager or designee is responsible for ensuring compliance with this policy and procedure along with Facility Management.

POLICY

1. This policy defines the Sterile Compounding Area cleaning and disinfection of the ISO Class 7 buffer rooms, ISO Class 8 anteroom, as well as the associated Primary Engineering Controls (PECs) such as, but not limited to, Laminar Air Flow Hoods.
2. The leadership will designate appropriate cleaning, disinfection, and sporicidal agents based upon careful consideration of compatibility, effectiveness, and inappropriate or toxic residues.
3. Cleaning agents shall be used alone and are not to be combined with other cleaning agents.
4. Cleaning agents are to be used in the concentrations specified in this policy and procedure.
5. Ideally, cleaning of the general compounding area (buffer area/clean room and anteroom) should occur at the end of compounding day to prevent any component residue from sitting overnight and promoting bacterial growth.
6. If cleaning occurs at the start of the compounding day, adequate time must be given to allow all cleaned surfaces to dry PRIOR to starting any compounding activity.
7. If any compounding occurs during after-hours conditions (on-call situation), additional cleaning may occur at the start of the next business day.
8. Cleaning and disinfection of the controlled environments will not be performed while compounding is taking place.

Confidential

9. Facility compounding personnel must ensure that cleaning is being performed properly by personnel who have been adequately trained on this policy as well as on Hand Hygiene and Garbing.
10. All personnel who perform cleaning and disinfecting functions in Sterile Compounding Areas must successfully complete both of the following and in this order:
    a. Competency Assessment: Hand Hygiene and Garbing
    b. Competency Assessment: Cleaning and Disinfecting
11. Cleaning of the buffer area/clean room and anteroom may be performed by trained custodial/housekeeping personnel.
12. Custodial/housekeeping personnel may not clean ISO Class 5 PECs.
13. Cleaning equipment and supplies:
    a. Shall be stored in a designated area to ensure segregation from compounding supplies.
    b. Materials used (wipers, sponges, mops, etc.) must be non-shedding and preferably composed of synthetic microfibers.
    c. Materials used must be dedicated to use in particular areas (buffer area/clean room, ante room) and will not be moved from these areas except for disposal.
    d. Floor mops may be used in both the buffer area/clean room and the anteroom if used in that order.
    e. Ideally, all cleaning materials are to be discarded after one use.
    f. For any reusable cleaning equipment:
        i. Hang mops vertically to promote drying when not in use.
        ii. Buckets must be inverted and allowed to dry.
        iii. The manufacturer's instructions on the product used must be followed to ensure that the effectiveness of the device is maintained, and that repeated use does not add to the bioburden of the areas cleaned.
14. Since disinfectant solutions are irritants and can damage the skin and eyes, the Personal Protective Gowning and Gloving procedure, which stipulates eye protection must be worn when compounding and during cleaning of ceiling and walls, must be followed.
15. Safety Data Sheets (SDSs) must be readily available for reference in the facility for all disinfectants used in the cleaning and disinfecting process.
16. Tacky Mats:
    a. Are optional.
    b. Are never to be placed within the ISO-Classed areas.
    c. If used, must be placed at the entrance to controlled areas within the

Confidential

compounding area to remove debris from personnel and equipment as they enter these areas.

d. If used, the Pharmacist-in-Charge (PIC)/Quality Unit Manager or designee will determine the location of the tacky mats depending on workflow and room configuration.
e. If used, tacky mats must be changed frequently as they become soiled. Frequency of the mat change is determined by organizational policy but no less frequently than daily when compounding is in process and change may be required more frequently depending on need.

17. Any compounding equipment (i.e., automated compounders, devices, or pumps) placed into ISO Class 5 PECs is subject to the same cleaning requirements as the LAFW and BSC itself.
18. The PEC's blower(s) shall remain on continuously except for maintenance.
19. If any equipment or device used to compound sterile preparations is removed from the ISO Class 7 buffer area/clean room, it must be properly cleaned and disinfected prior to being placed back into service within that environment.

Note: There is no scientific basis at the time of this policy writing to suggest that alternation of cleaning agents is necessary. The possibility of producing germicidal resistant microorganisms does not apply to cleaning of controlled environments.

GENERAL INFORMATION:

1. Environmental contact is a major source of microbial contamination of CSPs, therefore, scrupulous attention to cleaning and disinfecting of the areas used for sterile compounding is required to reduce and minimize this potential source of CSP contamination.
2. The cleaning sequence will be from the cleanest environment progressing to the dirtiest. The PECs will be cleaned first, the SEC area second, the buffer area third, anteroom fourth and the non-classed prep areas last.
3. The PEC's blower(s) shall remain on continuously except for maintenance.
4. Minimum Frequency for Cleaning and Disinfecting Surfaces and Applying Sporicidal Disinfectants in Classified Areas

which stipulate eye protection must be worn.

a. Gloves must be worn while cleaning walls and ceilings.
b. Cleaning must occur from the cleanest to the dirtiest areas. The lowest classroom or environment (i.e., ISO Class 5) must be cleaned before the ISO Class 7 buffer area/clean room followed by the ISO Class 7/8 anteroom, then the general preparation area.
c. General consideration when cleaning floors
    i. Clean floors after the ISO Class 5 areas, counters and other easily cleanable work surfaces have been cleaned and disinfected.
    ii. Begin at the location farthest from the buffer area/clean room entrance working toward the exit to avoid walking over cleaned areas.
    iii. Move any rollable carts, shelving and chairs as cleaning is accomplished.
    iv. Perform necessary restocking or other in room activities prior to cleaning and floor washing so that buffer area/clean room may be exited and allowed to dry and remain at rest until the next shift.
d. No high particle shedding materials may enter the buffer area/clean room. This includes corrugated cardboard. Paper documents (i.e., compounding worksheets and order forms) are allowed, but should be kept to a minimum.
e. No worksheets or order forms may enter the PEC environment at any time.
f. Document the cleaning procedure with initials and date on the appropriate log immediately upon completion of the task to ensure proper documentation.
g. If using traditional buckets to perform cleaning, allow the mops to soak in their respective buckets, in solution, for approximately five (5) minutes prior to the start of cleaning.

3. Daily Cleaning and Disinfection of the Controlled Environments:
    a. Perform Cleaning and Disinfection in the following order:
        i. Clean and disinfect all interior surfaces of the PEC(s) and equipment inside the ISO Class 5 PECs.
        ii. If applicable, the passthrough chambers
        iii. Clean and disinfect counters and easily cleanable work surfaces in the clean room/buffer area (stool tops, metro cart

viii. Clean and disinfect counters and easily cleanable work surfaces in the anteroom beyond the line of demarcation ("dirty side").
ix. Clean and disinfect floors by mopping the anteroom from the clean room/buffer area entrance to the exit door.
x. Perform any required daily cleaning of the general preparation area as required.

4. Monthly Cleaning, Disinfection and Sporicidal in the 503B Controlled Environments:
   a. Perform in the following order:
      i. Apply PeridoxRTU (sporicidal agent) to all interior surfaces of the PEC(s) and equipment inside the ISO Class 5 PEC(s).
      ii. Allow PeridoxRTU to remain in place for 3 minutes.
      iii. Remove sporicidal agent with appropriate agent.
   b. Clean and disinfect all interior surfaces of the PEC(s) and equipment inside the ISO Class 5 PEC(s0.

CSP-050 Sterile Compounding Area Cleaning

SCOPE

1. This Policy and Procedure applies to all sterile facility operations.

PURPOSE

1. To describe, standardize and define the process by which the controlled environments (ISO Class 5, 7, and 8) and the general preparation area(s) are cleaned, disinfected, and maintained to ensure an environment suitable for compounding sterile preparations.

RESPONSIBILITY

1. The Pharmacist-in-Charge (PIC)/Quality Unit Manager or designee is responsible for ensuring compliance with this policy and procedure along with Facility Management.

POLICY

1. This policy defines the Sterile Compounding Area cleaning and disinfection of the ISO Class 7 buffer rooms, ISO Class 8 anteroom, as well as the associated Primary Engineering Controls (PECs) such as, but not limited to, Laminar Air Flow Hoods.
2. The leadership will designate appropriate cleaning, disinfection, and sporicidal agents based upon careful consideration of compatibility, effectiveness, and inappropriate or toxic residues.
3. Cleaning agents shall be used alone and are not to be combined with other cleaning agents.
4. Cleaning agents are to be used in the concentrations specified in this policy and procedure.
5. Ideally, cleaning of the general compounding area (buffer area/clean room and anteroom) should occur at the end of compounding day to prevent any component residue from sitting overnight and promoting bacterial growth.
6. If cleaning occurs at the start of the compounding day, adequate time must be given to allow all cleaned surfaces to dry PRIOR to starting any compounding activity.
7. If any compounding occurs during after-hours conditions (on-call situation), additional cleaning may occur at the start of the next business day.
8. Cleaning and disinfection of the controlled environments will not be performed while compounding is taking place.

Confidential

9. Facility compounding personnel must ensure that cleaning is being performed properly by personnel who have been adequately trained on this policy as well as on Hand Hygiene and Garbing.
10. All personnel who perform cleaning and disinfecting functions in Sterile Compounding Areas must successfully complete both of the following and in this order:
    a. Competency Assessment: Hand Hygiene and Garbing
    b. Competency Assessment: Cleaning and Disinfecting
11. Cleaning of the buffer area/clean room and anteroom may be performed by trained custodial/housekeeping personnel.
12. Custodial/housekeeping personnel may not clean ISO Class 5 PECs.
13. Cleaning equipment and supplies:
    a. Shall be stored in a designated area to ensure segregation from compounding supplies.
    b. Materials used (wipers, sponges, mops, etc.) must be non-shedding and preferably composed of synthetic microfibers.
    c. Materials used must be dedicated to use in particular areas (buffer area/clean room, ante room) and will not be moved from these areas except for disposal.
    d. Floor mops may be used in both the buffer area/clean room and the anteroom if used in that order.
    e. Ideally, all cleaning materials are to be discarded after one use.
    f. For any reusable cleaning equipment:
        i. Hang mops vertically to promote drying when not in use.
        ii. Buckets must be inverted and allowed to dry.
        iii. The manufacturer's instructions on the product used must be followed to ensure that the effectiveness of the device is maintained, and that repeated use does not add to the bioburden of the areas cleaned.
14. Since disinfectant solutions are irritants and can damage the skin and eyes, the Personal Protective Gowning and Gloving procedure, which stipulates eye protection must be worn when compounding and during cleaning of ceiling and walls, must be followed.
15. Safety Data Sheets (SDSs) must be readily available for reference in the facility for all disinfectants used in the cleaning and disinfecting process.
16. Tacky Mats:
    a. Are optional.
    b. Are never to be placed within the ISO-Classed areas.
    c. If used, must be placed at the entrance to controlled areas within the

Confidential

compounding area to remove debris from personnel and equipment as they enter these areas.

d. If used, the Pharmacist-in-Charge (PIC)/Quality Unit Manager or designee will determine the location of the tacky mats depending on workflow and room configuration.
e. If used, tacky mats must be changed frequently as they become soiled. Frequency of the mat change is determined by organizational policy but no less frequently than daily when compounding is in process and change may be required more frequently depending on need.

17. Any compounding equipment (i.e., automated compounders, devices, or pumps) placed into ISO Class 5 PECs is subject to the same cleaning requirements as the LAFW and BSC itself.
18. The PEC's blower(s) shall remain on continuously except for maintenance.
19. If any equipment or device used to compound sterile preparations is removed from the ISO Class 7 buffer area/clean room, it must be properly cleaned and disinfected prior to being placed back into service within that environment.

Note: There is no scientific basis at the time of this policy writing to suggest that alternation of cleaning agents is necessary. The possibility of producing germicidal resistant microorganisms does not apply to cleaning of controlled environments.

GENERAL INFORMATION:

1. Environmental contact is a major source of microbial contamination of CSPs, therefore, scrupulous attention to cleaning and disinfecting of the areas used for sterile compounding is required to reduce and minimize this potential source of CSP contamination.
2. The cleaning sequence will be from the cleanest environment progressing to the dirtiest. The PECs will be cleaned first, the SEC area second, the buffer area third, anteroom fourth and the non-classed prep areas last.
3. The PEC's blower(s) shall remain on continuously except for maintenance.
4. Minimum Frequency for Cleaning and Disinfecting Surfaces and Applying Sporicidal Disinfectants in Classified Areas

which stipulate eye protection must be worn.

a. Gloves must be worn while cleaning walls and ceilings.
b. Cleaning must occur from the cleanest to the dirtiest areas. The lowest classroom or environment (i.e., ISO Class 5) must be cleaned before the ISO Class 7 buffer area/clean room followed by the ISO Class 7/8 anteroom, then the general preparation area.

e. No worksheets or order forms may enter the PEC environment at any time.
f. Document the cleaning procedure with initials and date on the appropriate log immediately upon completion of the task to ensure proper documentation.
g. If using traditional buckets to perform cleaning, allow the mops to soak in their respective buckets, in solution, for approximately five (5) minutes prior to the start of cleaning.

3. Daily Cleaning and Disinfection of the Controlled Environments:
    a. Perform Cleaning and Disinfection in the following order:
        i. Clean and disinfect all interior surfaces of the PEC(s) and equipment inside the ISO Class 5 PECs.

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. ANTONINO GUMINA, MD, Certificate of Registration No. CS09380, Respondent.	Case No. 24-430-CS-S ANSWER AND NOTICE OF DEFENSE

Response to Allegations and Counts:

1. In regards to patient N.A.: She had been a patient of mine since 2007 and had been on both pain medications for chronic headaches, anxiety medications, and seizure medications. During the time period between August 27, 2021 and April 27, 2023 her medications were refilled similar to her many previous prescriptions as her symptoms warranted. Her fill history and prescriber history were noted using the IPRESCRIBE platform which provided DATA about refills over the last 12 months and who prescribed them.
2. In regards to patient M.M.: He became a patient of mine secondary to other family members being patients. He had been on chronic pain medications and anxiety medications since a worker's comp injury in May 26, 1986. Many documents and records confirmed and he had been seen by many neurosurgeons, pain management, and psychiatrists in his past. His medications, fill history, and prescriber history were noted using the IPRESCRIBE platform which provided DATA about refills over the last 12 months and who prescribed them. The incident that brought patient M.M. into the light was an episode of Altered Mental status and Gait Instability originally thought to be secondary to his Xanax use or misuse but was later proven to have been secondary to a Cerebral Vascular Incident (STROKE) by follow up MRI.
3. Any access to the PMP database was done under my direct supervision. The staff has access to the patient charts and the prescribing platform. All staff members are aware of and follow the HIPPA guidelines.
4. All medications prescribed by Dr Antonino Gumina were for Legitimate Medical Purposes. At no time was Dr Antonino Gumina purposefully attempting to violate any federal or state laws or regulations.
5. Dr Antonino Gumina believed the purpose of the PMP was to monitor the number, frequency, medication, and prescriber of any controlled substance. During COVID. Dr Antonino Gumina, started to use the IPRESCRIBE platform for prescriptions both controlled and noncontrolled. The IPRESCRIBE platforms provides prescription information of all the patient's scripts written in the past 12-14 months with information as recent as the 24 hours prior to querying. The information provided

includes the medication, date prescribed, date picked up, and who wrote the prescription. Dr Antonino Gumina preformed a query every time a patient was prescribed a controlled substance as was as to see who the prescriber was. Dr Antonino Gumina in no way meant to violate any federal or state laws or regulations and thought he was working diligently and effectively to provide appropriate care and monitoring.

6. Since being notified in April 2025 by Darla Zarley that I had not been adequately using the PMP system, I have made adjustments to my practice and am now being 90-95% compliant with checking PMP and running MyRx data every 3-4 months. I am working with NSPB and Clayton Baily to get my Delegates set up.
7. Overall, I, Dr Antonino Gumina, did not willfully, intentionally, or purposefully intend to violate or assisted in any violation of federal or state laws or regulations. I, at all times in my practice, have tried to act in the best interest of my patients and did my best to protect and act in the best interest of the public at large. I am trying to move forward following the regulations of the NSPB in regards to the PMP database. I am asking that I be given a warning as I have been practicing since 1998 and would prefer to be allowed to practice at my full capacity without restrictions. I am willing to go through any reeducation or skills training that would enhance my use of the PMP and/or prescribing controlled substance as deemed by the NSPB.

THANK YOU FOR YOUR ATTENTION AND CONSIDERATION OF THIS MATTER,

Respondent's Statement and Affirmative Defenses

Before the Nevada State Board of Pharmacy

I. Respondent's Statement

Respondent admits that she has a prior felony conviction from 2002 that was not disclosed on her 2023 and 2025 applications. Respondent respectfully asserts that this omission was not intentional or made for the purpose of deception, but was the result of a good-faith belief regarding the effect of a pardon.

Respondent was granted a pardon by the State of Nevada and believed, incorrectly, that the pardon eliminated the requirement to disclose the conviction. This belief was applied consistently across both applications and was not an attempt to conceal information from the Board.
