Respondent accepts responsibility for the omission and now understands that the conviction should have been disclosed regardless of the pardon. Respondent is fully willing to provide complete and accurate information and documentation to the Board moving forward.

The underlying offense occurred over 20 years ago, and Respondent has had no further criminal history since that time. Respondent has maintained consistent employment in retail, auction services, and pharmacy-related settings, demonstrating reliability and responsibility over many years.

Respondent has attached documentation of the pardon (Attachment A) and a character reference (Attachment B) in support of this response.

Respondent understands the importance of full disclosure in the application process and is committed to complete transparency and compliance with all Board requirements moving forward.

2. That, in answer to the Notice of Intended Action and Accusation, he/she admits, denies and alleges as follows: See Attached Statement

I hereby declare, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to the best of my knowledge.

DATED this 13 day of April 2026.

Patricia Renee Sanchez PTT

PATRICIA RENEE SANCHEZ. PTT

II. Affirmative Defenses

Respondent asserts that the omission of the prior conviction was not intentional, but the result of a good-faith belief regarding disclosure requirements following a pardon. Respondent has no history of deceptive conduct and has acted consistently with that belief.

The underlying offense occurred over 20 years ago, and Respondent was subsequently granted a pardon by the State of Nevada, reflecting rehabilitation and good conduct. Since that time, Respondent has maintained a law-abiding life with no further criminal history.

Respondent has demonstrated consistent and reliable employment in retail, auction services, and pharmacy-related settings over many years. This long-standing history reflects responsibility, trustworthiness, and fitness to practice.

Respondent has attached documentation of the pardon (Attachment A) and a character reference (Attachment B) for the Board's consideration.

Respondent understands the responsibilities associated with working in a pharmacy setting, including the handling of medications, and is committed to maintaining the highest standards of integrity and professionalism.

Respondent respectfully requests that the Board consider the age of the offense, the granting of the pardon, her rehabilitation, and the absence of any intent to deceive in evaluating this matter.

To Whom it May Concern,

My name is Patricia Renee Sanchez. I am writing to you in my capacity as myself to advocate for myself. It is my honor to vouch for my own character and integrity. I do not imagine facts.

On May 4th, 2002, I made a horrible decision to distribute a controlled substance to a Nevada State Prisoner, in which I was arrested. I was sentenced August 9, 2002, and received three years' probation. I am not proud of what I did. However, I have worked diligently to make sure this does not continue to affect mY life negatively.

On July 31, 2003, I received a petition from my probation officer, Nora Antonucci, to be "Honorably Discharged" of all supervision. The Judge signed said petition on September 3, 2003. Enclosed is a copy of that signed petition.

Since then, I have consistently displayed qualities of honesty, integrity and responsibility. I was hired soon after at U-Haul and employed with them from 2003-2008. I was employed by Manheim Auto Auctions from 2008-2011. From 2011-2022 I was employed with Adesa Auto Auctions. Prior to being hired at Safeway in 2025, I was employed with CVS from 2022-2025.

I have made peace with my family, received forgiveness from my children, who are now married with children of their own. I have one grandson who is in his first year at college and another grandson on his way to a D1 college in the fall.

In 2016, I applied for my pardon and was granted that pardon. I was misinformed then that I would not have to disclose my criminal background. So not selecting yes on my PTT or my PT application was not done maliciously. That is below my standard of respect. Yes, I should have read the questions thoroughly, which I apologize for not doing. I did not willfully or intentionally furnish fraudulent information. That is not true.

I understand and respect the gravity of the current circumstances, but I believe that over the years, my conduct and character, make me deserving of your consideration. Thank you for your time.

Sincerely,

Patricia Renee Sanchez

SUP303 (Rev. 05/11/01ko)

Tuesday, April 14, 2026

To whom it may concern:

My name is Samantha Anderson, a dual state licensed and certified pharmacy technician since 2006. I proceed to uphold a respectable reputation and code of ordinance and service. I currently am employed at Safeway pharmacy and have been with the company since 2016. About a year or so ago, I began working with Patricia Long (Sanchez) at the Safeway pharmacy located at 2858 Vista Blvd Sparks, NV. Patricia was a Pharmacy Technician in Training at the time (already having her PTT from CVS).

After working side by side and getting to know her, it was very clear to read, she had a hard life some time ago. Patricia demonstrates a character of good nature, tenderness, empathy, hardworking, an eagerness to learn and helps where she can. She not only functions by a code of honor and respect but lives by it. She is the first to offer her services and would be the last to leave if needed. Since I have known her, she is always the person to go above and beyond or give you the last of her essentials in life. She does not judge, she follows the rules, she protects the oath she gave to our practice and community, she efficiently follows policy and procedures, and every measure put in place for compliance. She is reliable, understanding and always honest. She complies to which is outlined to her. I couldn't be prouder to say that I know Patricia, not only on a professional level, but on a personal level too. There is nobody I would trust more with my most prized possessions because she knows what it means to survive and give back her appreciation. She knows first hand what struggling is and that guides her to care better for patients. She is relatable to many. She takes her second chance in this world very seriously and it shows in everything she does. So, if there is questioning about her character and approach that assumption is misguided. I will attest to it so.

Yes, she has a past that I am aware of, but she has shown it does not define her but has reformed her and that is what I am most proud of. While the details of her conviction are none of my business, and should remain private, I do know she has gone through the worst of her environment almost 3 decades past. Her life lessons aided in her character development and a consciousness to provide better; be better. Patricia is by far one of the most moralized people I have ever worked with and remains to be a highly valuable team member our pharmacy retail chain has to offer. She provides a level of individualized care to each patient, so they can feel heard, seen and cared for. That's something special to witness and humbling.

Respectfully yours,

Samantha Anderson

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PATRICK AWA, RPH,** **Certificate of Registration No. 20399, and** **RALEY'S PHARMACY #123,** **Pharmacy License No. PH00999,** **Respondents.**	**Case Nos. 24-366-RPH-N** **24-366-PH-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (Board), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent Raley's Pharmacy #123 (Respondent Raley's) because Respondent Raley's holds a license issued by the Board pursuant to NRS 639.230, authorizing Respondent Raley's to operate a pharmacy at 176 West Goldfield Avenue in Yerington, Nevada.

2. The Board has jurisdiction over Respondent Patrick Awa (Respondent Awa) because Respondent Awa is licensed by the Board pursuant to NRS 639.120 to practice pharmacy in Nevada.

3. The Board has jurisdiction over Respondents Raley's and Awa because the allegations below relate to their professional conduct as holders of a license or registration issued by the Board.

FACTUAL ALLEGATIONS

4. Between 2022 and 2025, Respondent Raley's employed Respondent Awa at its Raley's pharmacy location in Yerington, Nevada.

5. On July 3, 2024, Respondent Awa processed and filled a new prescription for patient R.S., for antibiotic ear drops. The pharmacy's automated prescription management system identified the prescription as "Rx No. 7047361."

6. Respondent Awa dispensed Rx No. 7047361 to the patient's wife, who later complained to the Board that Respondent Awa had not offered her counseling at the pharmacy counter when she picked up her husband's ear drops.

7. The Board investigated the complaint in September 2024.

8. Respondent Raley's was unable to supply the Board's investigator with video of the moment when Respondent Awa dispensed Rx No. 7047361. Respondent Raley's was unable to supply relevant video because Respondent Raley's does not retain video footage beyond 30 days.

9. Respondent Awa told the Board's investigator that he could not recall the incident on July 3, 2024, when he allegedly failed to offer counseling concerning Rx No. 7047361.

10. Respondent Awa further stated that he had no recollection of the person to whom he dispensed Rx No.7047361.

11. The complainant, a self-described retired pharmacist, admittedly did not ask questions of Respondent Awa when she picked up her husband's ear drops.

12. At all times relevant to this accusation, Respondent Raley's maintained a computerized record-keeping system for documenting pharmacist counseling.

13. According to Respondent Awa, the system automatically defaults to "Yes" as a means of documenting whether counseling was offered to the patient. In other words, unless the pharmacist manually enters a counseling entry, the system automatically registers a positive counseling entry regardless of whether the pharmacist counsels the patient.

14. As to Rx No. 7047361, Respondent Raley's record-keeping system did not correlate the counseling entry with the prescription number, the drug name, or the date or time of the presumed counseling.

15. Respondent Raley's system did not contain any counseling comments regarding Rx No. 7047361.

16. Respondent Awa permitted the pharmacy record-keeping system to default to "Yes" regarding Rx No. 7047361. This means that he did not enter comments, his electronic initials, or any other data into the system regarding Rx No. 7047361.

APPLICABLE LAW

17. The Board may discipline a pharmacy owner whose conduct in operating a pharmacy has been unprofessional or contrary to the public interest. NRS 639.210(4); NRS 639.255; NAC 639.945; NAC 639.955.

18. The Board may discipline any person whose conduct as a pharmacist has been unprofessional or contrary to the public interest. NRS 639.210(4); NRS 639.255; NAC 639.945; NAC 639.955.

19. A person's conduct is unprofessional and/or contrary to the public interest if the person performs his or her professional duties in a negligent, incompetent or unskillful manner. NAC 639.945(1)(i).

20. Generally, a pharmacist must verbally provide a patient or a person caring for the patient with information about each prescription drug or device dispensed to the patient. NRS 639.707(1). This is always true when the patient receives a new prescription. NAC 639.707(1).

21. In this case, because the medication was dispensed pursuant to a new prescription, Patient Awa had a duty to counsel the patient's spouse when he dispensed the medication associated with Rx No. 7047361.

22. Pursuant to NAC 639.707(6), a pharmacist must, at the time that counseling is provided or refused, enter his or her initials onto a record in a computerized system used by the pharmacy to document whether counseling was offered, rejected and/or provided.

23. In this case, Patient Awa had a duty to affirmatively make an electronic record of any counseling offered, provided, or rejected in connection with Rx No. 7047361.

24. To facilitate counseling regarding a prescription, a pharmacy must maintain a detailed history of each patient's prescription drug history so that the pharmacist can evaluate it before offering counseling. NAC 639.707(4); NAC 639.708(1).

25. To ensure that counseling enhances drug therapy, the record of counseling provided to the patient should reasonably correlate with details concerning the patient's prescription drug history, including the names of the drugs prescribed and the times and dates of counseling concerning those drugs. *See* NRS 639.266(1); NAC 639.707(4) and (6); NAC 639.708(1)(b).

26. A pharmacy is responsible for the negligent acts and/or omissions of the pharmacists whom the pharmacy employs. NAC 639.230(5); NAC 639.945(3).

COUNT ONE
Unprofessional Conduct by a Pharmacy

27. Respondent Raley's had a duty to facilitate counseling by its pharmacists.

28. Respondent Raley's had a duty to maintain a record-keeping system that facilitated counseling by its pharmacists, thereby enhancing drug therapy.

29. As alleged above, Respondent Raley's implemented a record-keeping system that automatically registered a positive counseling entry regardless of whether the pharmacist had counseled the patient.

30. As alleged above, Respondent Raley's implemented a record-keeping system that failed to correlate individual counseling entries with corresponding prescription numbers, drug names, and the dates and times of counseling.

31. By implementing a system that automatically registers a positive counseling entry regardless of whether the pharmacist counsels the patient, Respondent Raley's has breached its duty to facilitate counseling.

32. By implementing a record-keeping system that fails to correlate counseling entries with prescription numbers, drugs names and other identifiers concerning the medications that it dispenses to its patients, Respondent Raley's has breached its duty to enhance drug therapy through counseling.

33. By implementing a system that automatically registers a positive counseling entry regardless of whether the pharmacist counsels the patient, Respondent Raley's encourages its pharmacists to neglect their record-keeping obligations pursuant to NAC 639.707(6).

34. As a means of enhancing drug therapy through counseling, Respondent Raley's counseling records were and/or continue to be practically useless.

35. Having breached the duties described above, Respondent Raley's has performed its duties as the holder of a pharmacy license in a negligent, incompetent or unskillful manner.

36. Respondent Raley's may be disciplined by the Board for the unprofessional conduct as described above. Alternatively, Respondent Raley's may be disciplined by the Board for the unprofessional conduct of Respondent Awa as alleged in Count Two below.

COUNT TWO
Unprofessional Conduct by a Pharmacist

37. As alleged above, Respondent Awa had a duty to offer counseling to the patient or to the patient's caregiver when he dispensed the medication associated with Rx No. 7047361.

38. As alleged above, Respondent Awa had a duty to make an affirmative record of any counseling offered or provided or rejected in connection with Rx No. 7047361.

39. Respondent Awa neglected to provide counseling to the patient or to the patient's caregiver, and/or he failed to make an affirmative record of any counseling offered, provided, or rejected in connection with Rx No. 7047361.

40. Having omitted to perform either or both of the duties described above, Respondent Awa performed his duties as a pharmacist in a negligent, incompetent, or unskillful manner.

41. Respondent Awa may be disciplined by the Board for his unprofessional conduct as described above.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Patrick Awa and the pharmacy license of Respondent Raley's Pharmacy #123.

DATED this 23rd day of FEBRUARY, 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PHARMERICA, Pharmacy License No. PH02018, and** **CAMILLA KIM, RPH, Certificate of Registration No. 19388,** **Respondents.**	**Case Nos. 24-370-PH-N** **24-370-RPH-N** **FIRST AMENDED NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (the "Board"), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent Pharmerica ("Respondent Pharmerica"), the holder of Pharmacy License No. PH02018, because Respondent Pharmerica is licensed by the Board to operate a pharmacy at 4750 Longley Lane in Reno, Nevada.

2. The Board has jurisdiction over Respondent Camilla Kim, RPh ("Respondent Kim"), the holder of Certificate of Registration No. 19388, because Respondent Kim is registered by the Board to engage in the practice of pharmacy in Nevada.

FACTUAL ALLEGATIONS

3. Respondent Pharmerica operates a retail pharmacy in Reno, Nevada.

4. Respondent Pharmerica dispenses prescriptions for dangerous drugs and controlled substances at its pharmacy location in Reno, Nevada.

5. At all times relevant to this case, Respondent Pharmerica (or a corporate affiliate or subsidiary under its control) employed people in Kentucky who performed one or more of the functions necessary to fill the prescriptions that it dispensed at its pharmacy location in Reno, Nevada.

6. The employees in Kentucky, as described in paragraph 5 above, were not licensed or registered by the Board to work as pharmacists, intern pharmacists or pharmaceutical technicians in the state of Nevada.

7. Respondent Kim was and is a Nevada-licensed pharmacist and the holder of registration no. 19388.

8. Between December 2022 and March 2024, Respondent Pharmerica employed Respondent Kim to work as a pharmacist at its pharmacy location in Reno, Nevada.

9. During her tenure as a pharmacist for Respondent Pharmerica, Respondent Kim supervised one or more of the employees described in paragraph 5 above. Respondent Kim supervised these employees while they performed one or more of the functions necessary to fill the prescriptions that were dispensed to patients in Reno, Nevada.

10. In 2023 and 2024, Respondent Pharmerica was under contract with MorningStar Senior Living of Sparks ("MorningStar"), an assisted living facility, to dispense prescription medication and provide medication management services to residents of the MorningStar facility.

11. Respondent Pharmerica worked cooperatively with the nursing staff at MorningStar to store and deliver prescription medications for the residents of the MorningStar facility.

12. In 2023 and 2024, patient D.P., an 87-year-old female, resided at MorningStar, where she received medication and medication management services from Respondent Pharmerica.

13. In 2023 and 2024, patient D.P. required levothyroxine for hypothyroidism.

14. Between March 2023 and March 2024, Respondent Pharmerica dispensed levothyroxine to patient D.P. without interruption, according to the instructions of patient D.P.'s physician.

15. On March 6, 2024, patient D.P.'s physician issued her a new prescription for levothyroxine. The prescription directed Respondent Pharmerica to dispense an initial 90-day supply of levothyroxine with three refills.

16. On its face, the above prescription sufficed to meet patient D.P.'s medical needs for 12 months.

17. Patient D.P.'s physician electronically transmitted the above prescription to Respondent Pharmerica.

18. Respondent Pharmerica assigned no. 343217 to the above prescription. Per standard operating procedure, Pharmerica processed prescription no. 343217 at a facility in Kentucky using employees who were not licensed or registered with the Board to practice pharmacy in Nevada.

19. At the facility in Kentucky, an employee transferred the information from the electronic prescription to a computerized prescription management system. This person was one of the employees described in paragraph 5 above.

20. When transferring the prescription information, the employee incorrectly entered code "X90D" related to the "duration" of medication treatment. This code suppressed the automatic refill function on the system, thus instructing the system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

21. Since patient D.P.'s levothyroxine was considered a "maintenance" medication, there should not have been a duration code associated with prescription no 343217.

22. In March 2024, before dispensing any medication under prescription no. 343217, Respondent Kim verified the prescription at Pharmerica's facility in Reno.

23. When verifying the above prescription, Respondent Kim failed to notice that the duration code X90D, as described above, was inconsistent with the number of refill authorizations on the prescription itself. As noted above, this code instructed the automated system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

24. In June 2024, due to Respondent Kim's omission as described above, Pharmerica failed to refill patient D.P.'s prescription for levothyroxine as directed by her physician.

25. Between June and September 2024, the nursing staff at MorningStar delivered no levothyroxine to patient D.P., and they made no inquiries of Pharmerica concerning the abrupt cessation of patient D.P.'s medication treatment.

26. In August or September 2024, patient D.P.'s daughter observed that her mother's health had rapidly declined for no apparent reason. She alerted the nursing staff at MorningStar and/or patient D.P.'s physician.

27. In September 2024, Patient D.P. was admitted to the intensive care unit at Renown Hospital, where she was diagnosed with myxedema coma and cellulitis in her left leg. These medical conditions were caused by the cessation of medication treatment with levothyroxine.

APPLICABLE LAW

28. The Board may discipline the holder of a license or registration issued by the Board if the holder engages in unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

29. Unprofessional conduct includes "failing strictly to follow the instructions of the person writing, making or ordering a prescription or chart order as to its filling or refilling." NAC 639.945(1)(d).

30. Unprofessional conduct includes performing one's duties as the holder of a certificate of registration issued by the Board in an "incompetent, unskillful or negligent manner." NAC 639.945(1)(i).

31. "'Pharmaceutical technician' means a person who performs technical services in a pharmacy under the direct supervision of a pharmacist and is registered with the Board." NRS 639.0113.

32. Pharmaceutical technicians must be registered with the Board pursuant to NAC 639.240.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PHARMERICA,** **Pharmacy License No. PH02018,** **and** **CAMILLA KIM, RPH,** **Certificate of Registration No. 19388,** **Respondents.**	**Case Nos. 24-370-PH-N** **24-370-RPH-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (the "Board"), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent PharMerica ("Respondent PharMerica"), the holder of Pharmacy License No. PH02018, because Respondent PharMerica is licensed by the Board to operate a pharmacy at 4750 Longley Lane in Reno, Nevada.

2. The Board has jurisdiction over Respondent Camilla Kim, RPh ("Respondent Kim"), the holder of Certificate of Registration No. 19388, because Respondent Kim is registered by the Board to engage in the practice of pharmacy in Nevada.

FACTUAL ALLEGATIONS

3. Respondent PharMerica operates a pharmacy in Reno, Nevada.

4. In March 2024, Respondent Kim was employed by Respondent PharMerica as a pharmacist.

5. In 2023 and 2024, Respondent PharMerica was under contract with MorningStar Senior Living of Sparks ("MorningStar"), an assisted living facility, to dispense prescription medication and provide medication management services to residents of the MorningStar facility.

6. Respondent PharMerica worked cooperatively with the nursing staff at MorningStar to store and deliver prescription medications for the residents of the MorningStar facility.

7. In 2023 and 2024, patient D.P., an 87-year-old female, resided at MorningStar, where she received medication and medication management services from Respondent PharMerica.

8. In 2023 and 2024, patient D.P. required levothyroxine for hypothyroidism.

9. Between March 2023 and March 2024, Respondent PharMerica dispensed levothyroxine to patient D.P. without interruption, according to the instructions of patient D.P.'s physician.

10. On March 6, 2024, patient D.P.'s physician issued her a new prescription for levothyroxine. The prescription directed Respondent PharMerica to dispense an initial 90-day supply of levothyroxine with two refills.

11. On its face, the above prescription sufficed to meet patient D.P.'s medical needs for 12 months.

12. Patient D.P.'s physician electronically transmitted the above prescription to Respondent PharMerica.

13. Respondent PharMerica assigned no. 343217 to the above prescription. Per standard operating procedure, PharMerica processed prescription no. 343217 at its facility in Kentucky.

14. At the facility in Kentucky, a pharmaceutical technician transferred the information from the electronic prescription to a computerized prescription management system.

15. When transferring the prescription information, the technician incorrectly entered code "X90D" related to the "duration" of medication treatment. This code suppressed the automatic refill

function on the system, thus instructing the system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

16. Since patient D.P.'s levothyroxine was considered a "maintenance" medication, there should not have been a duration code associated with prescription no 343217.

17. In March 2024, before dispensing any medication under prescription no. 343217, Respondent Kim verified the prescription at PharMerica's facility in Reno.

18. When verifying the above prescription, Respondent Kim failed to notice that the duration code X90D, as described above, was inconsistent with the number of refill authorizations on the prescription itself. As noted above, this code instructed the automated system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

19. In June of 2024, due to Respondent Kim's omission as described above, PharMerica failed to refill patient D.P.'s prescription for levothyroxine as directed by her physician.

20. Between June and September 2024, the nursing staff at MorningStar delivered no levothyroxine to patient D.P., and they made no inquiries of PharMerica concerning the abrupt cessation of patient D.P.'s medication treatment.

21. In August or September 2024, patient D.P.'s daughter observed that her mother's health had rapidly declined for no apparent reason. She alerted the nursing staff at MorningStar and/or patient D.P.'s physician.

22. In September 2024, Patient D.P. was admitted to the intensive care unit at Renown Hospital, where she was diagnosed with myxedema coma and cellulitis in her left leg. These medical conditions were caused by the cessation of medication treatment with levothyroxine.

(Respondent Kim)

29. As alleged above, Respondent Kim verified prescription no. 343217 for levothyroxine, including two refills. 31. Respondent Kim had a duty to correct the data entry error described above.

32. Respondent Kim had a duty to strictly follow the instructions of patient D.P.'s physician as to the refilling of no. 343217.

However, the directions for the prescription were for one tablet daily for a 90-day duration with three refills, not two refills as noted in Paragraph 10 and further the prescription authorized three refills but did not direct automatic refills of the Prescription.

Paragraph 11: Respondents are without personal knowledge to substantively respond to the factual assertions set forth in Paragraph 11, however Respondents acknowledge that had the Prescription been refilled by patient D.P. as allowed, there would have been approximately twelve months of medication authorized by the physician.

Paragraph 12: Respondent PharMerica acknowledges that it received Prescription no. 343217 electronically.

Paragraph 13: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 13.

Paragraph 14: Based on information and belief, Respondent PharMerica agrees that a PharMerica pharmacy technician would have transcribed the Prescription information into PharMerica's computerized prescription management system.

Paragraph 15: Respondents deny that the pharmacy technician incorrectly entered code "X90D" into the prescription management system. The technician correctly entered the Prescription and directions into the prescription management system; because the Prescription directions included a duration, the prescription management system automatically assigned the code to the Prescription. The prescription management system did not terminate D.P.'s supply of levothyroxine at the end of the initial ninety days; the Prescription was still active and simply needed to be refilled by MorningStar Senior Living.

Paragraph 16: Respondents disagree with the factual assertions contained in Paragraph 16; prescriptions, including prescriptions for "maintenance" medications, often have a duration associated with them.

Paragraph 17: Respondent Kim acknowledges that she verified Prescription no. 343217 before the Prescription was initially dispensed on March 19, 2024.

Paragraph 18: Respondent Kim denies that she failed to notice the duration code and asserts that the Prescription directions included a duration with refills to follow. Nothing indicated that the Prescription was to be automatically refilled. As noted above, the system did not "terminate" the supply of levothyroxine, the Prescription was still active and could be refilled.

Paragraph 19: Respondents deny the factual allegations set forth in Paragraph 19.

Paragraph 20: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 20.

Paragraph 21: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 21.

Paragraph 22: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 22.

Applicable Law: Paragraphs 23-28

Paragraph 23: Respondents agree that Paragraph 23 sufficiently reflects the contents of NRS 639.210(4).

Paragraph 24: Respondents agree that Paragraph 24 sufficiently reflects the contents of NAC 639.945(1)(d).

Paragraph 25: Respondents agree that Paragraph 25 sufficiently reflects the contents of NAC 639.945(1)(i).

Paragraph 26: Respondents agree that Paragraph 26 sufficiently reflects the contents of NAC 639.252(2).

Paragraph 27: Respondents agree that Paragraph 27 sufficiently reflects the contents of NAC 639.918.

Paragraph 28: Respondents agree that Paragraph 28 sufficiently reflects the contents of NRS 639.230(5), NAC 639.702, and NAC 639.945(3).

Count One (Paragraphs 29-35, Respondent Kim

Paragraph 29: Respondent Kim agrees that she verified Prescription no. 343217, which allowed three refills, not two as alleged. However, Respondent Kim denies the remaining allegations contained in Paragraph 29.

Paragraph 30: Respondent Kim does not work in the same location as the pharmacy technician who transcribed the information regarding the Prescription into the PharMerica computerized prescription management system, however Respondent Kim asserts that the technician did not incorrectly input the Prescription into the prescription management system. As described above, the prescription management system grabs the directions of the Prescription for generation of system codes. Regarding Prescription no. 343217, the physician's instructions included a duration and accordingly the system generated the appropriate code.

Paragraph 31: Respondent Kim denies the allegations contained in Paragraph 31 and contends that there was no error.

Paragraph 32: Respondent Kim agrees that she had a duty to strictly follow the instructions of the prescribing physician and that those instructions were indeed followed.

Paragraph 33: Respondent Kim denies the allegations contained in Paragraph 33.

Paragraph 34: Respondent Kim denies the allegations contained in Paragraph 34.

Paragraph 35: Paragraph 35 does not require a response from Respondent Kim.

Count Two (Paragraphs 36-38, Respondent PharMerica):

Paragraph 36: Respondent PharMerica denies the allegations contained in Paragraph 36.

Paragraph 37: Respondent PharMerica agrees it is responsible for Respondent Kim's conduct as an employed pharmacist but again denies that Respondent Kim engaged in unprofessional conduct as set forth in Paragraph 37.

Paragraph 38: Paragraph 38 does not require a substantive response from Respondent PharMerica.

NOTICE OF DEFENSE/MITIGATING INFORMATION

Respondents reserve all legal defenses available to them in this matter.

Respondents further assert that no violation of NRS or NAC Chapters 639 has occurred in this matter. The Prescription was received on March 6, 2024, electronically and was properly entered into the PharMerica computerized prescription management system by a pharmacy technician. The technician appropriately entered the information into the prescription management system, including the duration which was included on the Prescription sent electronically by patient D.P.'s physician. Per the Prescription directions, the prescription management system entered a code of "X90D"; however, that did not terminate the Prescription at the end of 90-days but rather required a refill to be requested. The Prescription, as written, did not direct automatic refills. Respondents are without knowledge of why the nursing staff at MorningStar Senior Living failed to request the refill of levothyroxine, however Respondents assert that neither Respondent PharMerica nor Respondent Kim violated NRS/NAC Chapter 639 as alleged.

Respectfully submitted this 29th of August, 2025.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PHARMERICA, Pharmacy License No. PH02018, and** **CAMILLA KIM, RPH, Certificate of Registration No. 19388,** **Respondents.**	**Case Nos. 24-370-PH-N** **24-370-RPH-N** **FIRST AMENDED NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (the "Board"), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent Pharmerica ("Respondent Pharmerica"), the holder of Pharmacy License No. PH02018, because Respondent Pharmerica is licensed by the Board to operate a pharmacy at 4750 Longley Lane in Reno, Nevada.

2. The Board has jurisdiction over Respondent Camilla Kim, RPh ("Respondent Kim"), the holder of Certificate of Registration No. 19388, because Respondent Kim is registered by the Board to engage in the practice of pharmacy in Nevada.

FACTUAL ALLEGATIONS

3. Respondent Pharmerica operates a retail pharmacy in Reno, Nevada.

4. Respondent Pharmerica dispenses prescriptions for dangerous drugs and controlled substances at its pharmacy location in Reno, Nevada.

5. At all times relevant to this case, Respondent Pharmerica (or a corporate affiliate or subsidiary under its control) employed people in Kentucky who performed one or more of the functions necessary to fill the prescriptions that it dispensed at its pharmacy location in Reno, Nevada.

6. The employees in Kentucky, as described in paragraph 5 above, were not licensed or registered by the Board to work as pharmacists, intern pharmacists or pharmaceutical technicians in the state of Nevada.

7. Respondent Kim was and is a Nevada-licensed pharmacist and the holder of registration no. 19388.

8. Between December 2022 and March 2024, Respondent Pharmerica employed Respondent Kim to work as a pharmacist at its pharmacy location in Reno, Nevada.

9. During her tenure as a pharmacist for Respondent Pharmerica, Respondent Kim supervised one or more of the employees described in paragraph 5 above. Respondent Kim supervised these employees while they performed one or more of the functions necessary to fill the prescriptions that were dispensed to patients in Reno, Nevada.

10. In 2023 and 2024, Respondent Pharmerica was under contract with MorningStar Senior Living of Sparks ("MorningStar"), an assisted living facility, to dispense prescription medication and provide medication management services to residents of the MorningStar facility.

11. Respondent Pharmerica worked cooperatively with the nursing staff at MorningStar to store and deliver prescription medications for the residents of the MorningStar facility.

12. In 2023 and 2024, patient D.P., an 87-year-old female, resided at MorningStar, where she received medication and medication management services from Respondent Pharmerica.

13. In 2023 and 2024, patient D.P. required levothyroxine for hypothyroidism.

14. Between March 2023 and March 2024, Respondent Pharmerica dispensed levothyroxine to patient D.P. without interruption, according to the instructions of patient D.P.'s physician.

15. On March 6, 2024, patient D.P.'s physician issued her a new prescription for levothyroxine. The prescription directed Respondent Pharmerica to dispense an initial 90-day supply of levothyroxine with three refills.

16. On its face, the above prescription sufficed to meet patient D.P.'s medical needs for 12 months.

17. Patient D.P.'s physician electronically transmitted the above prescription to Respondent Pharmerica.

18. Respondent Pharmerica assigned no. 343217 to the above prescription. Per standard operating procedure, Pharmerica processed prescription no. 343217 at a facility in Kentucky using employees who were not licensed or registered with the Board to practice pharmacy in Nevada.

19. At the facility in Kentucky, an employee transferred the information from the electronic prescription to a computerized prescription management system. This person was one of the employees described in paragraph 5 above.

20. When transferring the prescription information, the employee incorrectly entered code "X90D" related to the "duration" of medication treatment. This code suppressed the automatic refill function on the system, thus instructing the system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

21. Since patient D.P.'s levothyroxine was considered a "maintenance" medication, there should not have been a duration code associated with prescription no 343217.

22. In March 2024, before dispensing any medication under prescription no. 343217, Respondent Kim verified the prescription at Pharmerica's facility in Reno.

23. When verifying the above prescription, Respondent Kim failed to notice that the duration code X90D, as described above, was inconsistent with the number of refill authorizations on the prescription itself. As noted above, this code instructed the automated system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

24. In June 2024, due to Respondent Kim's omission as described above, Pharmerica failed to refill patient D.P.'s prescription for levothyroxine as directed by her physician.

25. Between June and September 2024, the nursing staff at MorningStar delivered no levothyroxine to patient D.P., and they made no inquiries of Pharmerica concerning the abrupt cessation of patient D.P.'s medication treatment.

26. In August or September 2024, patient D.P.'s daughter observed that her mother's health had rapidly declined for no apparent reason. She alerted the nursing staff at MorningStar and/or patient D.P.'s physician.

27. In September 2024, Patient D.P. was admitted to the intensive care unit at Renown Hospital, where she was diagnosed with myxedema coma and cellulitis in her left leg. These medical conditions were caused by the cessation of medication treatment with levothyroxine.

47. Due to Respondent Kim's unprofessional conduct as described above, patient D.P. suffered harm.

48. For her unprofessional conduct as described above, Respondent Kim is subject to professional discipline pursuant to NRS 639.210(4) and NAC 639.945.

50. As alleged above, Respondent Kim attempted to supervise employees in Kentucky while they performed one or more of the functions necessary to prepare prescriptions for dispensing in Nevada. These included data entry tasks related to prescription no. 343217 and other prescriptions dispensed in Nevada.

51. Through their conduct as described above, Respondent Pharmerica and Respondent Kim assisted or permitted employees in Kentucky to engage in the unlicensed practice of pharmacy in violation of NRS 639.100(1).

52. Due to their unlawful conduct as described above, Respondent Pharmerica and Respondent Kim are subject to professional discipline pursuant to NRS 639.210(12) and NAC 639.945.

COUNT THREE
Unprofessional Conduct by a Pharmacy
(Respondent Pharmerica)

53. As alleged above, Respondent Pharmerica engaged employees in Kentucky to perform one or more of the functions necessary to prepare prescriptions for dispensing in Nevada.

54. As alleged above, Respondent Pharmerica implemented a standard operating procedure that required Respondent Kim to remotely supervise employees in Kentucky who performed one or more of the functions necessary to prepare prescriptions for dispensing in Nevada.

56. Respondent Pharmerica had a duty to ensure that Kentucky employees were properly registered with the Board to work as pharmaceutical technicians or pharmaceutical technicians in training.

57. Respondent Pharmerica had a duty to ensure that Respondent Kim was not tasked with supervising more than three pharmaceutical technicians or one pharmaceutical technician and two pharmaceutical technicians in training at one time.

58. Through its conduct as described above, Respondent Pharmerica performed one or more of the above duties in an incompetent, unskillful or negligent manner.

59. For said unprofessional conduct, Respondent Pharmerica is subject to professional discipline pursuant to NRS 639.210(4) and NAC 639.945.

COUNT FOUR
Employer Liability
(Respondent Pharmerica)

60. As alleged in Count One, Respondent Kim engaged in unprofessional conduct.

61. As alleged in Count Two, Respondent Kim assisted or permitted the unlicensed practice of pharmacy.

62. As Respondent Kim's employer at the time of the above violations, Respondent Pharmerica is responsible for the violations alleged in Count One and Count Two. NRS 639.230(5); NAC 639.702; NAC 639.945(3).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Camilla Kim and the pharmacy license of Respondent Pharmerica.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (the "Board"), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent PharMerica ("Respondent PharMerica"), the holder of Pharmacy License No. PH02018, because Respondent PharMerica is licensed by the Board to operate a pharmacy at 4750 Longley Lane in Reno, Nevada.

2. The Board has jurisdiction over Respondent Camilla Kim, RPh ("Respondent Kim"), the holder of Certificate of Registration No. 19388, because Respondent Kim is registered by the Board to engage in the practice of pharmacy in Nevada.

FACTUAL ALLEGATIONS

3. Respondent PharMerica operates a pharmacy in Reno, Nevada.

4. In March 2024, Respondent Kim was employed by Respondent PharMerica as a pharmacist.

5. In 2023 and 2024, Respondent PharMerica was under contract with MorningStar Senior Living of Sparks ("MorningStar"), an assisted living facility, to dispense prescription medication and provide medication management services to residents of the MorningStar facility.

6. Respondent PharMerica worked cooperatively with the nursing staff at MorningStar to store and deliver prescription medications for the residents of the MorningStar facility.

7. In 2023 and 2024, patient D.P., an 87-year-old female, resided at MorningStar, where she received medication and medication management services from Respondent PharMerica.

8. In 2023 and 2024, patient D.P. required levothyroxine for hypothyroidism.

9. Between March 2023 and March 2024, Respondent PharMerica dispensed levothyroxine to patient D.P. without interruption, according to the instructions of patient D.P.'s physician.

10. On March 6, 2024, patient D.P.'s physician issued her a new prescription for levothyroxine. The prescription directed Respondent PharMerica to dispense an initial 90-day supply of levothyroxine with two refills.

11. On its face, the above prescription sufficed to meet patient D.P.'s medical needs for 12 months.

12. Patient D.P.'s physician electronically transmitted the above prescription to Respondent PharMerica.

13. Respondent PharMerica assigned no. 343217 to the above prescription. Per standard operating procedure, PharMerica processed prescription no. 343217 at its facility in Kentucky.

14. At the facility in Kentucky, a pharmaceutical technician transferred the information from the electronic prescription to a computerized prescription management system.

15. When transferring the prescription information, the technician incorrectly entered code "X90D" related to the "duration" of medication treatment. This code suppressed the automatic refill

function on the system, thus instructing the system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

16. Since patient D.P.'s levothyroxine was considered a "maintenance" medication, there should not have been a duration code associated with prescription no 343217.

17. In March 2024, before dispensing any medication under prescription no. 343217, Respondent Kim verified the prescription at PharMerica's facility in Reno.

18. When verifying the above prescription, Respondent Kim failed to notice that the duration code X90D, as described above, was inconsistent with the number of refill authorizations on the prescription itself. As noted above, this code instructed the automated system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

19. In June of 2024, due to Respondent Kim's omission as described above, PharMerica failed to refill patient D.P.'s prescription for levothyroxine as directed by her physician.

20. Between June and September 2024, the nursing staff at MorningStar delivered no levothyroxine to patient D.P., and they made no inquiries of PharMerica concerning the abrupt cessation of patient D.P.'s medication treatment.

21. In August or September 2024, patient D.P.'s daughter observed that her mother's health had rapidly declined for no apparent reason. She alerted the nursing staff at MorningStar and/or patient D.P.'s physician.

22. In September 2024, Patient D.P. was admitted to the intensive care unit at Renown Hospital, where she was diagnosed with myxedema coma and cellulitis in her left leg. These medical conditions were caused by the cessation of medication treatment with levothyroxine.

Respondents PharMerica and Camilla Kim, RPH, hereby file with the Nevada State Board of Pharmacy ("Board"), their Answer and Notice of Defense to the Notice of Intended Action and Accusation ("Accusation") filed on July 24, 2025.

ANSWER TO ACCUSATION

Jurisdiction: Paragraphs 1-2

Paragraph 1: Respondent PharMerica acknowledges that the Board has jurisdiction in this matter as set forth in Paragraph 1.

Paragraph 2: Respondent Kim acknowledges that the Board has jurisdiction in this matter as set forth in Paragraph 2.

Factual Allegations: Paragraphs 3-22

Paragraph 3: Respondent PharMerica acknowledges that it operates a pharmacy located in Reno, Nevada as set forth in Paragraph 3.

Paragraph 4: Respondent Kim acknowledges that she was employed by PharMerica in March 2024 as set forth in Paragraph 4.

Paragraph 5: Respondent PharMerica acknowledges that during the time periods set forth in Paragraph 5, it did dispense prescribed medication to residents of MorningStar Senior Living of Sparks as set forth in Paragraph 5.

Paragraph 6: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 6 to the extent the PharMerica coordinated deliveries of prescribed and dispensed medication to the nursing staff of MorningStar Senior Living.

Paragraph 7: Respondent PharMerica agrees that patient D.P. did receive some medication management services in the time frame noted in Paragraph 7.

Paragraph 8: Respondents are without sufficient personal knowledge to respond to the factual assertions contained in Paragraph 8.

Paragraph 9: Respondent PharMerica agrees with the factual assertions in Paragraph 9 to the extent that patient D.P. received levothyroxine in 2023 through the end of February 2024.

Paragraph 10: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 10 to the extent that a new prescription (no. 343217, the "Prescription") was issued March 6, 2024, by patient D.P.'s physician. However, the directions for the prescription were for one tablet daily for a 90-day duration with three refills, not two refills as noted in Paragraph 10 and further the prescription authorized three refills but did not direct automatic refills of the Prescription.

Paragraph 11: Respondents are without personal knowledge to substantively respond to the factual assertions set forth in Paragraph 11, however Respondents acknowledge that had the Prescription been refilled by patient D.P. as allowed, there would have been approximately twelve months of medication authorized by the physician.

Paragraph 12: Respondent PharMerica acknowledges that it received Prescription no. 343217 electronically.

Paragraph 13: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 13.

Paragraph 14: Based on information and belief, Respondent PharMerica agrees that a PharMerica pharmacy technician would have transcribed the Prescription information into PharMerica's computerized prescription management system.

Paragraph 15: Respondents deny that the pharmacy technician incorrectly entered code "X90D" into the prescription management system. The technician correctly entered the Prescription and directions into the prescription management system; because the Prescription directions included a duration, the prescription management system automatically assigned the code to the Prescription. The prescription management system did not terminate D.P.'s supply of levothyroxine at the end of the initial ninety days; the Prescription was still active and simply needed to be refilled by MorningStar Senior Living.

Paragraph 16: Respondents disagree with the factual assertions contained in Paragraph 16; prescriptions, including prescriptions for "maintenance" medications, often have a duration associated with them.

Paragraph 17: Respondent Kim acknowledges that she verified Prescription no. 343217 before the Prescription was initially dispensed on March 19, 2024.

Paragraph 18: Respondent Kim denies that she failed to notice the duration code and asserts that the Prescription directions included a duration with refills to follow. Nothing indicated that the Prescription was to be automatically refilled. As noted above, the system did not "terminate" the supply of levothyroxine, the Prescription was still active and could be refilled.

Paragraph 19: Respondents deny the factual allegations set forth in Paragraph 19.

Paragraph 20: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 20.

Paragraph 21: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 21.

Paragraph 22: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 22.

Applicable Law: Paragraphs 23-28

Paragraph 23: Respondents agree that Paragraph 23 sufficiently reflects the contents of NRS 639.210(4).

Paragraph 24: Respondents agree that Paragraph 24 sufficiently reflects the contents of NAC 639.945(1)(d).

Paragraph 25: Respondents agree that Paragraph 25 sufficiently reflects the contents of NAC 639.945(1)(i).

Paragraph 26: Respondents agree that Paragraph 26 sufficiently reflects the contents of NAC 639.252(2).

Paragraph 27: Respondents agree that Paragraph 27 sufficiently reflects the contents of NAC 639.918.

Paragraph 28: Respondents agree that Paragraph 28 sufficiently reflects the contents of NRS 639.230(5), NAC 639.702, and NAC 639.945(3).

Count One (Paragraphs 29-35, Respondent Kim

Paragraph 29: Respondent Kim agrees that she verified Prescription no. 343217, which allowed three refills, not two as alleged. However, Respondent Kim denies the remaining allegations contained in Paragraph 29.

Paragraph 30: Respondent Kim does not work in the same location as the pharmacy technician who transcribed the information regarding the Prescription into the PharMerica computerized prescription management system, however Respondent Kim asserts that the technician did not incorrectly input the Prescription into the prescription management system. As described above, the prescription management system grabs the directions of the Prescription for generation of system codes. Regarding Prescription no. 343217, the physician's instructions included a duration and accordingly the system generated the appropriate code.

Paragraph 31: Respondent Kim denies the allegations contained in Paragraph 31 and contends that there was no error.

Paragraph 32: Respondent Kim agrees that she had a duty to strictly follow the instructions of the prescribing physician and that those instructions were indeed followed.

Paragraph 33: Respondent Kim denies the allegations contained in Paragraph 33.

Paragraph 34: Respondent Kim denies the allegations contained in Paragraph 34.

Paragraph 35: Paragraph 35 does not require a response from Respondent Kim.

Count Two (Paragraphs 36-38, Respondent PharMerica):

Paragraph 36: Respondent PharMerica denies the allegations contained in Paragraph 36.

Paragraph 37: Respondent PharMerica agrees it is responsible for Respondent Kim's conduct as an employed pharmacist but again denies that Respondent Kim engaged in unprofessional conduct as set forth in Paragraph 37.

Paragraph 38: Paragraph 38 does not require a substantive response from Respondent PharMerica.

NOTICE OF DEFENSE/MITIGATING INFORMATION

Respondents reserve all legal defenses available to them in this matter.

Respondents further assert that no violation of NRS or NAC Chapters 639 has occurred in this matter. The Prescription was received on March 6, 2024, electronically and was properly entered into the PharMerica computerized prescription management system by a pharmacy technician. The technician appropriately entered the information into the prescription management system, including the duration which was included on the Prescription sent electronically by patient D.P.'s physician. Per the Prescription directions, the prescription management system entered a code of "X90D"; however, that did not terminate the Prescription at the end of 90-days but rather required a refill to be requested. The Prescription, as written, did not direct automatic refills. Respondents are without knowledge of why the nursing staff at MorningStar Senior Living failed to request the refill of levothyroxine, however Respondents assert that neither Respondent PharMerica nor Respondent Kim violated NRS/NAC Chapter 639 as alleged.

Respectfully submitted this 29th of August, 2025.

FACTUAL ALLEGATIONS

6. In 2024, Respondent Caccio, Respondent Dinh, and Respondent Escobedo were employed by Meta Pharmacy, located at 8352 W. Warm Springs Road in Las Vegas, Nevada.

7. In 2024, Respondent Angeles, Respondent Baraga, Respondent Barbose, Respondent Cybulska, Respondent Eom, Respondent Fakhor, Respondent Goodman, Respondent Li, Respondent Ngo, Respondent Padero, and Respondent Peters were employed by Partell Specialty Pharmacy, located at 5835 South Eastern Avenue in Las Vegas, Nevada.

8. In 2024, Respondent Antonie was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. As noted above, Respondent Antonie held a certificate of registration issued by the Board authorizing him to prescribe dangerous drugs and controlled substances.

9. In 2024, Respondent Hubbard was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. As noted above, Respondent Hubbard held a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

10. In 2024, Respondent Miller-Wilson was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. As noted above, Respondent Miller-Wilson held a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

11. In 2024, Respondent Practitioners were employed by or otherwise working in the service of Helix RHT ("Helix"), a business located at 2625 North Green Valley Parkway, #275, in Henderson, Nevada.

12. In 2024, Helix was owned and/or operated by Jasen Kohli ("Kohli") and Blake Frostad ("Frostad"), both competitive body builders.

13. Neither Kohli nor Frostad, nor anyone else working on site at Helix, held medical credentials or a medical license authorizing them to prescribe dangerous drugs or controlled substances.

14. On information and belief, in 2024, Helix did not employ or contract with any practitioners who worked from the Helix business location on North Green Valley Parkway in Henderson.

15. In 2024, while working for Helix, Respondent Practitioners evaluated patients using "telehealth" technology. This means that they worked from home, or from some facility other than the Helix location at 2625 North Green Valley Pkwy. #275, in Henderson, Nevada.

16. Using telehealth technology to evaluate their patients, Respondent Practitioners routinely authorized dangerous drugs and/or controlled substances for their patients. The controlled substances included ketamine, testosterone cypionate, and/or nandrolone decanoate. All three drugs are listed in Schedule III of the regulations promulgated pursuant to the federal and state Controlled Substances Acts. *See* 21 C.F.R. §1308.13; NAC 453.530.

17. Testosterone cypionate, and/or nandrolone decanoate are commonly used by body builders to increase muscle mass. Ketamine is also used by body builders prior to workouts.

18. Respondent Practitioners did not transmit their own prescriptions; instead, they authorized Kohli, Frostad and/or Helix to transmit written prescriptions on their behalf using a fill-in-the-blanks form bearing a signature stamp or other signature facsimile denoting the prescriber's approval.

19. The above forms were preprinted with the address and telephone number for Helix. The forms did not contain an address or telephone number for any of Respondent Practitioners.

20. Kohli and Frostad employed Respondent Thomas to work as a liaison between practitioners, patients, and pharmacies. Respondent Thomas did not work in a pharmacy, nor did she work under the supervision of a pharmacist or dispensing practitioner.

21. While employed at Helix, Respondent Thomas was engaged in the "practice of pharmacy" as that term is defined at NRS 639.0124. More specifically, she interpreted and evaluated

prescriptions or orders for medicine, *see* NRS 639.0124(1)(b), she interpreted clinical data contained in a person's record of medication, *see* NRS 639.0124(1)(g), and/or she generated and maintained records related to the source, storage, and distribution of prescription drugs, *see* NRS 639.0124(1)(e).

22. Respondent Practitioners were generally unfamiliar with the process used by Helix to transmit prescriptions to pharmacies for dispensing.

23. During all of 2024, Respondent Antonie had access to the database established pursuant to NRS 453.162. This database is known as the Nevada Prescription Monitoring Program or "PMP" database.

24. During all of 2024, Respondent Hubbard had access to the PMP database.

25. During all of 2024, Respondent Miller-Wilson had access to the PMP database.

26. The PMP database has two functions that must be used by prescribers of controlled substances. The first function (known as the "MyRx" function) enables the prescriber to review his or her own prescribing activity to make sure that someone is not issuing fraudulent prescriptions under his or her name and medical credentials.

27. The second function on the PMP database (known as the "Patient History Report") enables the prescriber to evaluate the patient's history of using controlled substances. This enables the prescriber to determine whether a patient is doctor shopping or potentially abusing controlled substances or using them for recreational purposes.

28. Respondent Antonie did not use the MyRx function between August 16, 2022, and October 10, 2024. Additionally, he did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Antonie authorized approximately 1,080 prescriptions for controlled substances, most or all transmitted by Helix.

29. Respondent Hubbard had never used the MyRx function until requested to do so on October 16, 2024. Additionally, she did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Hubbard authorized approximately 1,800 prescriptions for controlled substances, most or all transmitted by Helix.

30. Respondent Miller-Wilson did not use the MyRx function between October 19, 2023, and October 7, 2024. Additionally, she ran Patient History Reports for only five patients between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Miller-Wilson authorized approximately 750 prescriptions for controlled substances, most or all transmitted by Helix.

31. In 2024, using the fill-in-the-blanks forms described above, Kohli, Frostad and/or Helix completed and transmitted approximately 7,000 prescriptions for dangerous drugs and controlled substances. Most or all of these prescriptions were transmitted by Helix to either Meta Pharmacy or Partell Specialty Pharmacy, where they were filled by Respondent Pharmacists.

32. When transmitting prescriptions to Meta Pharmacy or Partell Specialty Pharmacy, as applicable, Kohli, Frostad and/or Helix were not supervised by a prescribing practitioner.

33. Most or all of the above prescriptions were dispensed by either Meta Pharmacy or Partell Specialty Pharmacy after having been verified by Respondent Pharmacists.

34. Some of the above prescriptions, including prescriptions for ketamine, testosterone cypionate and/or nandrolone decanoate, were not accompanied by medical notes, charts, or other records indicating that corresponding patient evaluations had taken place.

35. When questioned regarding prescriptions without supporting medical records, Respondent Antonie and Respondent Hubbard denied having authorized the prescriptions.

36. Prescriptions for controlled substances were not transmitted electronically in the manner required by NRS 639.23535 and NAC 639.7105, and they did not contain a valid address and telephone number for the prescriber, or a unique prescriber-affixed signature or authenticating notation as required by NRS 639.2353(2).

37. Prescriptions for dangerous drugs did not contain a valid address and telephone number for the prescriber, or a prescriber-affixed signature or other unique identifier for the prescriber, as required by NRS 639.2353 and NRS 454.223.

38. Prescriptions for controlled substances were never approved by the Board to be transmitted in any manner other than via electronic transmission in accordance with NRS 639.23535 and NAC 639.7105.

39. Prescriptions for controlled substances did not meet applicable criteria for an exemption from electronic transmission requirements, as stated in NRS 639.23535(1)(a)-(i).

40. The above prescriptions for controlled substances were not "legal" prescriptions within the meaning of NRS 453.377 and NRS 454.316.

41. In 2024, Respondent Caccio, while working at Meta Pharmacy, verified approximately 9 of the above prescriptions, including 3 prescriptions for nandrolone decanoate. COUNT ONE
Unprofessional Conduct by a Pharmacist
(Respondent Pharmacists)

Their conduct caused dangerous drugs and controlled substances to be dispensed to consumers who were not in possession of valid prescriptions.

78. The above prescriptions were illegal and/or invalid because they were not signed or otherwise properly authenticated by the prescribing practitioners, they did not contain valid telephone numbers or addresses for the prescribing practitioners, and in many cases, they were not transmitted electronically or via facsimile by the practitioners, or by the practitioners' designated agents, in the manner required by Nevada law.

79. Given the large number of prescriptions that were deficient on their face, and/or transmitted in an unauthorized manner, Respondent Pharmacists knew or should have known that the prescriptions were illegal, invalid, and/or issued outside the usual course of the professional practice of a practitioner.

80. Under the circumstances, Respondents had a duty to make further inquiry to determine whether the prescriptions were legal, invalid and/or issued in the usual course of the professional practice of a practitioner.

81. By verifying the prescriptions and causing them to be dispensed, Respondents performed their duties as pharmacists in an incompetent, unskillful, or negligent manner.

82. Respondents are subject to discipline for their unprofessional conduct as described herein. NRS 639.210(4); NAC 639.945(1)(i).

87. By causing or permitting non-compliant prescriptions to be transmitted by Helix and its non-practitioner owners, managers, and/or employees, Respondent Practitioners assisted or abetted in recurring violations of the Nevada Pharmacy Act regarding the form and content of prescriptions and their manner of transmission. *See* NRS 453.236(1)(e); NRS 453.231(1)(b); NRS 639.210(12).

88. By causing or permitting prescriptions to be issued by Helix and its non-practitioner owners, managers and/or employees, and/or by failing to exercise control over their process for issuing prescriptions, Respondent Practitioners permitted Helix and its non-practitioner owners, managers, and/or employees to engage in unregistered prescribing in violation of NRS 639.100(1).

89. Respondents are subject to discipline for having failed to comply with the Nevada Pharmacy Act. *See* NRS 453.236(1)(e); NRS 453.231(1)(b); NRS 639.210(12).

(Respondent Thomas)

100. As alleged above, Respondent Thomas was employed by Helix to act as a liaison between practitioners, patients, and pharmacies. Respondent Thomas did not work in a pharmacy, nor did she work under the supervision of a pharmacist or dispensing practitioner.

101. While employed by Helix, Respondent Thomas engaged in the unauthorized practice of pharmacy. More specifically, she interpreted and evaluated prescriptions or orders for medicine, *see* NRS 639.0124(1)(b), she interpreted clinical data contained in a person's record of medication, *see* NRS 639.0124(1)(g), and she generated and maintained records related to the source, storage, and distribution of prescription drugs, *see* NRS 639.0124(1)(e).

102. As the owners and/or operators of Helix, Kohli and Frostad engaged in the unlicensed practice of pharmacy. More specifically, they interpreted and evaluated prescriptions or orders for medicine, *see* NRS 639.0124(1)(b), they interpreted clinical data contained in a person's record of

105. By acting as a liaison between practitioners, patients, and pharmacies, Respondent Thomas assisted or abetted the unlicensed prescribing of dangerous drugs and controlled substances by Helix, Kohli and/or Frostad.

106. By engaging in the practice of pharmacy in a non-pharmacy location where she was not supervised by a pharmacist, Respondent Thomas performed tasks that she was not licensed to perform.

NOTICE OF DEFENSE/MITIGATING INFORMATION

Mr. Escobedo received his active pharmacist Certificate of Registration from the Board in February 2021, after completing his schooling. Mr. Escobedo's first job as a fully licensed pharmacist was as a staff pharmacist at Meta Pharmacy, which was a retail compounding pharmacy.

Due to Meta Pharmacy being a compound pharmacy, Mr. Escobedo was informed that it was common for prescriptions to be received via fax rather than electronically, due to limitations on some e-script systems to prescribe a compounded medication. To address this issue, prescribing providers were commonly instructed to choose the closest medication to what was being prescribed on the e-script system and to provide specifications in the notes sections, but many continued to simply fax in the prescription.

Mr. Escobedo recalls receiving regular prescriptions from Helix often without diagnosis codes, although Helix regularly used approximately two codes depending on the medication. Mr. Escobedo would routinely contact Helix for a diagnosis code and was informed by Helix that the diagnosis code would always be the same depending on the drug and that he should note it down.

Mr. Escobedo brought some concerns related to the Helix prescriptions to the pharmacist-in-charge, and was in essence informed that he should not worry about it as Meta Pharmacy worked very closely with Helix.

In approximately November or December 2024, Mr. Escobedo recalls Board investigators/inspectors coming to Meta Pharmacy. Mr. Escobedo realized in talking with Board staff that the signatures on the prescriptions were stamped; Mr. Escobedo acknowledges that he had not noticed the stamped signatures until that time.

Subsequent to the Board's visit to Meta Pharmacy, Mr. Escobedo became concerned with the lack of concern exhibited by management regarding the issues noted by the Board during the inspection and began to look for alternative employment. Mr. Escobedo left Meta in March 2025 after providing required notice to terminate his position.

Mr. Escobedo has taken this matter very seriously and is very cognizant regarding his duties as a pharmacist to ensure that all prescriptions that are filled and dispensed are properly verified as legal and proper prescriptions.

Mr. Escobedo asserts that at no time during his employment with Meta Pharmacy did he intentionally or knowingly violate any provision of NRS/NAC Chapters 639 as alleged in the Accusation in this matter.

Respectfully submitted this 29th day of April, 2026.

STIPULATION AND ORDER
(RESPONDENT ESCOBEDO ONLY)

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through counsel, Gregory L. Zunino, Esq., and Respondent Jose Escobedo ("Respondent"), by and through counsel, Lyn Beggs, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent acknowledges that he understands the terms of this Stipulation and Proposed Order ("Stipulation"), and that he has executed it knowingly and voluntarily after consulting with his attorney.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, and NRS Chapter 639, the Nevada Pharmacy Act.

5. Conditioned on the acceptance of this Stipulation by the Board and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent waives his right to hearing, reconsideration, appeal, and other rights related to this action as identified above.

6. Respondent does not contest the allegations in Count One of the Accusation, and further admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in the Accusation, to wit:

A. In 2024, Respondent was employed by Meta Pharmacy, located at 8352 W. Warm Springs Road in Las Vegas, Nevada.

B. In 2024, Meta Pharmacy filled and/or refilled numerous prescriptions for controlled substances and dangerous drugs. All the prescriptions at issue in his case were transmitted via email by Helix RHT ("Helix"), a business located at 2625 North Green Valley Parkway, #275, in Henderson, Nevada.

C. Prescriptions for controlled substances, as received from Helix, were not transmitted electronically in the manner required by NRS 639.23535 and NAC 639.7105, and they did not contain a valid address and telephone number for the prescriber, or a unique prescriber-affixed signature or authenticating notation as required by NRS 639.2353(2).

D. Prescriptions for dangerous drugs, as received from Helix, did not contain a valid address and telephone number for the prescriber, or a prescriber-affixed signature or other unique identifier for the prescriber, as required by NRS 639.2353 and NRS 454.223.

E. Prescriptions for controlled substances, as received from Helix, were never approved by the Board to be transmitted in any manner other than via electronic transmission in accordance with NRS 639.23535 and NAC 639.7105.

F. Prescriptions for controlled substances, as received from Helix, did not meet applicable criteria for an exemption from electronic transmission requirements, as stated in NRS 639.23535(1)(a)-(i).

G. Respondent, while working at Meta Pharmacy, verified approximately 900 of the prescriptions received from Helix, including many prescriptions for controlled substances.

H. Respondent knew or should have known, based upon the content and appearance of the prescriptions, and the manner in which they were transmitted to Meta Pharmacy, that the prescriptions did not meet the requirements of Nevada law as noted above. Nonetheless, Respondent verified the prescriptions, causing them to be dispensed to customers of Meta Pharmacy.

7. Now, therefore, to resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent's certificate of registration no. 20782 shall be **REVOKED**; however, the imposition of the revocation shall be stayed, and Respondent shall be placed on probation for a period of two (2) years from and after the effective date of this Stipulation. Upon successful completion of the terms and conditions of probation as forth herein, Respondent's certificate of registration shall be automatically reinstated without conditions or restrictions.

B. Respondent shall pay an administrative fine of **Five Thousand and 00/100 Dollars ($5,000.00)**, payable by *cashier's check, certified check,* or *money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before July 31, 2026.

C. Respondent shall pay the sum of **One Thousand and 00/100 Dollars ($1,000.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before July 31, 2026.

D. On or before September 30, 2026, Respondent shall complete four (4) credit hours of continuing education on the topic of ethics in the practice of pharmacy. Respondent shall supply proof of completion by emailing appropriate documentary proof to Board staff at teambc@pharmacy@nv.gov.

E. During the term of probation, Respondent shall not engage in any conduct for which disciplinary action may be imposed pursuant to the provisions of NRS Chapter 639 and/or NAC Chapter 639.

8. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 24-424-RPH-C-S. However, Respondent understands and acknowledges that his failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause,

pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in the finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639 and/or NAC Chapter 639.

9. The Board's Senior General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on June 3, 2026, in Las Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear at the meeting.

10. The Board may accept this Stipulation, but it is not required to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

11. If the Board rejects this Stipulation in part or in full, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

12. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the effective date of this Order.

AGREED:

13. Neither Kohli nor Frostad, nor anyone else working on site at Helix, held medical credentials or a medical license authorizing them to prescribe dangerous drugs or controlled substances.

14. On information and belief, in 2024, Helix did not employ or contract with any practitioners who worked from the Helix business location on North Green Valley Parkway in Henderson.

15. In 2024, while working for Helix, Respondent Practitioners evaluated patients using "telehealth" technology. This means that they worked from home, or from some facility other than the Helix location at 2625 North Green Valley Pkwy. #275, in Henderson, Nevada.

16. Using telehealth technology to evaluate their patients, Respondent Practitioners routinely authorized dangerous drugs and/or controlled substances for their patients. The controlled substances included ketamine, testosterone cypionate, and/or nandrolone decanoate. All three drugs are listed in Schedule III of the regulations promulgated pursuant to the federal and state Controlled Substances Acts. *See* 21 C.F.R. §1308.13; NAC 453.530.

17. Testosterone cypionate, and/or nandrolone decanoate are commonly used by body builders to increase muscle mass. Ketamine is also used by body builders prior to workouts.

18. Respondent Practitioners did not transmit their own prescriptions; instead, they authorized Kohli, Frostad and/or Helix to transmit written prescriptions on their behalf using a fill-in-the-blanks form bearing a signature stamp or other signature facsimile denoting the prescriber's approval.

19. The above forms were preprinted with the address and telephone number for Helix. The forms did not contain an address or telephone number for any of Respondent Practitioners.

20. Kohli and Frostad employed Respondent Thomas to work as a liaison between practitioners, patients, and pharmacies. Respondent Thomas did not work in a pharmacy, nor did she work under the supervision of a pharmacist or dispensing practitioner.

21. While employed at Helix, Respondent Thomas was engaged in the "practice of pharmacy" as that term is defined at NRS 639.0124. More specifically, she interpreted and evaluated

prescriptions or orders for medicine, *see* NRS 639.0124(1)(b), she interpreted clinical data contained in a person's record of medication, *see* NRS 639.0124(1)(g), and/or she generated and maintained records related to the source, storage, and distribution of prescription drugs, *see* NRS 639.0124(1)(e).

22. Respondent Practitioners were generally unfamiliar with the process used by Helix to transmit prescriptions to pharmacies for dispensing.

23. During all of 2024, Respondent Antonie had access to the database established pursuant to NRS 453.162. This database is known as the Nevada Prescription Monitoring Program or "PMP" database.

24. During all of 2024, Respondent Hubbard had access to the PMP database.

25. During all of 2024, Respondent Miller-Wilson had access to the PMP database.

26. The PMP database has two functions that must be used by prescribers of controlled substances. The first function (known as the "MyRx" function) enables the prescriber to review his or her own prescribing activity to make sure that someone is not issuing fraudulent prescriptions under his or her name and medical credentials.

27. The second function on the PMP database (known as the "Patient History Report") enables the prescriber to evaluate the patient's history of using controlled substances. This enables the prescriber to determine whether a patient is doctor shopping or potentially abusing controlled substances or using them for recreational purposes.

28. Respondent Antonie did not use the MyRx function between August 16, 2022, and October 10, 2024. Additionally, he did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Antonie authorized approximately 1,080 prescriptions for controlled substances, most or all transmitted by Helix.

29. Respondent Hubbard had never used the MyRx function until requested to do so on October 16, 2024. Additionally, she did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Hubbard authorized approximately 1,800 prescriptions for controlled substances, most or all transmitted by Helix.

30. Respondent Miller-Wilson did not use the MyRx function between October 19, 2023, and October 7, 2024. Additionally, she ran Patient History Reports for only five patients between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Miller-Wilson authorized approximately 750 prescriptions for controlled substances, most or all transmitted by Helix.

31. In 2024, using the fill-in-the-blanks forms described above, Kohli, Frostad and/or Helix completed and transmitted approximately 7,000 prescriptions for dangerous drugs and controlled substances. Most or all of these prescriptions were transmitted by Helix to either Meta Pharmacy or Partell Specialty Pharmacy, where they were filled by Respondent Pharmacists.

32. When transmitting prescriptions to Meta Pharmacy or Partell Specialty Pharmacy, as applicable, Kohli, Frostad and/or Helix were not supervised by a prescribing practitioner.

33. Most or all of the above prescriptions were dispensed by either Meta Pharmacy or Partell Specialty Pharmacy after having been verified by Respondent Pharmacists.

34. Some of the above prescriptions, including prescriptions for ketamine, testosterone cypionate and/or nandrolone decanoate, were not accompanied by medical notes, charts, or other records indicating that corresponding patient evaluations had taken place.

35. When questioned regarding prescriptions without supporting medical records, Respondent Antonie and Respondent Hubbard denied having authorized the prescriptions.

36. Prescriptions for controlled substances were not transmitted electronically in the manner required by NRS 639.23535 and NAC 639.7105, and they did not contain a valid address and telephone number for the prescriber, or a unique prescriber-affixed signature or authenticating notation as required by NRS 639.2353(2).

37. Prescriptions for dangerous drugs did not contain a valid address and telephone number for the prescriber, or a prescriber-affixed signature or other unique identifier for the prescriber, as required by NRS 639.2353 and NRS 454.223.

38. Prescriptions for controlled substances were never approved by the Board to be transmitted in any manner other than via electronic transmission in accordance with NRS 639.23535 and NAC 639.7105.

39. Prescriptions for controlled substances did not meet applicable criteria for an exemption from electronic transmission requirements, as stated in NRS 639.23535(1)(a)-(i).

40. The above prescriptions for controlled substances were not "legal" prescriptions within the meaning of NRS 453.377 and NRS 454.316.

41. In 2024, Respondent Caccio, while working at Meta Pharmacy, verified approximately 9 of the above prescriptions, including 3 prescriptions for nandrolone decanoate. COUNT ONE
Unprofessional Conduct by a Pharmacist
(Respondent Pharmacists)

77. As alleged above, Respondent Pharmacists verified numerous prescriptions that were illegal and/or issued outside the usual course of the professional practice of a practitioner. Their conduct caused dangerous drugs and controlled substances to be dispensed to consumers who were not in possession of valid prescriptions.

78. The above prescriptions were illegal and/or invalid because they were not signed or otherwise properly authenticated by the prescribing practitioners, they did not contain valid telephone numbers or addresses for the prescribing practitioners, and in many cases, they were not transmitted electronically or via facsimile by the practitioners, or by the practitioners' designated agents, in the manner required by Nevada law.

79. Given the large number of prescriptions that were deficient on their face, and/or transmitted in an unauthorized manner, Respondent Pharmacists knew or should have known that the prescriptions were illegal, invalid, and/or issued outside the usual course of the professional practice of a practitioner.

80. Under the circumstances, Respondents had a duty to make further inquiry to determine whether the prescriptions were legal, invalid and/or issued in the usual course of the professional practice of a practitioner.

81. By verifying the prescriptions and causing them to be dispensed, Respondents performed their duties as pharmacists in an incompetent, unskillful, or negligent manner.

82. Respondents are subject to discipline for their unprofessional conduct as described herein. NRS 639.210(4); NAC 639.945(1)(i).

87. By causing or permitting non-compliant prescriptions to be transmitted by Helix and its non-practitioner owners, managers, and/or employees, Respondent Practitioners assisted or abetted in recurring violations of the Nevada Pharmacy Act regarding the form and content of prescriptions and their manner of transmission. *See* NRS 453.236(1)(e); NRS 453.231(1)(b); NRS 639.210(12).

88. By causing or permitting prescriptions to be issued by Helix and its non-practitioner owners, managers and/or employees, and/or by failing to exercise control over their process for issuing prescriptions, Respondent Practitioners permitted Helix and its non-practitioner owners, managers, and/or employees to engage in unregistered prescribing in violation of NRS 639.100(1).

89. Respondents are subject to discipline for having failed to comply with the Nevada Pharmacy Act. *See* NRS 453.236(1)(e); NRS 453.231(1)(b); NRS 639.210(12).

PROPOSED FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

Case No. 24-424-CS-A-S, Case No. 24-424-CS-B-S,

Case No. 24-424-CS-C-S, and Case No. 24-424-PT-S

JURISDICTION AND SERVICE

1. The Nevada State Board of Pharmacy (the "Board") has jurisdiction over Respondent Chad Antonie ("Respondent Antonie"), Respondent Tiana Hubbard ("Respondent Hubbard"), and Respondent Mary Miller-Wilson ("Respondent Miller-Wilson"), because said practitioners (collectively "Respondent Practitioners"), at the time of the events alleged herein, held certificates of registration issued by the Board authorizing them to prescribe dangerous drugs and controlled substances in Nevada.

2. The Board has jurisdiction over Respondent Ashley Thomas ("Respondent Thomas"), because Respondent Thomas, at the time of the events alleged herein, held a certificate of registration issued by the Board authorizing her to work as a pharmaceutical technician in Nevada.

3. The Board has jurisdiction over the subject matter of this Accusation because it involves the distribution and sale of dangerous drugs and controlled substances.

4. Respondent Practitioners were properly served with the Notice of Intended Action and Accusation and the Statement to Respondent and Notice of Hearing.

5. Respondent Thomas was properly served with the Notice of Intended Action and Accusation and the Statement to Respondent and Notice of Hearing.

FINDINGS OF FACT

6. In 2024, Respondent Antonie was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. Respondent Antonie held a certificate of registration issued by the Board authorizing him to prescribe dangerous drugs and controlled substances.

7. In 2024, Respondent Hubbard was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. Respondent Hubbard held

a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

8. In 2024, Respondent Miller-Wilson was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. Respondent Miller-Wilson held a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

9. In 2024, Respondent Practitioners were employed by or otherwise working in the service of Helix RHT ("Helix"), a business located at 2625 North Green Valley Parkway, #275, in Henderson, Nevada.

10. In 2024, Helix was owned and/or operated by Jasen Kohli ("Kohli") and Blake Frostad ("Frostad"), both competitive body builders.

11. Kohli and Frostad employed Respondent Thomas to work as a liaison between practitioners, patients, and pharmacies. Respondent Thomas did not work in a pharmacy, nor did she work under the supervision of a pharmacist or dispensing practitioner.

12. While employed at Helix, Respondent Thomas was engaged in the "practice of pharmacy" as that term is defined at NRS 639.0124. More specifically, she interpreted and evaluated prescriptions or orders for medicine, *see* NRS 639.0124(1)(b), she interpreted clinical data contained in a person's record of medication, *see* NRS 639.0124(1)(g), and/or she generated and maintained records related to the source, storage, and distribution of prescription drugs, *see* NRS 639.0124(1)(e)

13. Neither Kohli nor Frostad, nor anyone else working on site at Helix, held medical credentials or a medical license authorizing them to prescribe dangerous drugs or controlled substances.

14. In 2024, Helix did not employ or contract with any practitioners who worked from the Helix business location on North Green Valley Parkway in Henderson.

15. In 2024, while working for Helix, Respondent Practitioners evaluated patients using "telehealth" technology. This means that they worked from home, or from some facility other than the Helix location at 2625 North Green Valley Pkwy. #275, in Henderson, Nevada.

16. Using telehealth technology to evaluate their patients, Respondent Practitioners routinely authorized dangerous drugs and/or controlled substances for their patients. The controlled substances included ketamine, testosterone cypionate, and/or nandrolone decanoate. All three drugs are listed in Schedule III of the regulations promulgated pursuant to the federal and state Controlled Substances Acts. *See* 21 C.F.R. §1308.13; NAC 453.530.

17. Testosterone cypionate, and/or nandrolone decanoate are commonly used by body builders to increase muscle mass. Ketamine is also used by body builders prior to workouts.

18. Respondent Practitioners did not transmit their own prescriptions; instead, they authorized Kohli, Frostad and/or Helix to transmit written prescriptions on their behalf using a fill-in-the-blanks form bearing a signature stamp or other signature facsimile denoting the prescriber's approval.

19. The above forms were preprinted with the address and telephone number for Helix. The forms did not contain an address or telephone number for any of Respondent Practitioners.

20. Respondent Practitioners were generally unfamiliar with the process used by Helix to transmit prescriptions to pharmacies for dispensing.

21. During all of 2024, Respondent Antonie had access to the database established pursuant to NRS 453.162. This database is known as the Nevada Prescription Monitoring Program or "PMP" database.

22. During all of 2024, Respondent Hubbard had access to the PMP database.

23. During all of 2024, Respondent Miller-Wilson had access to the PMP database.

24. The PMP database has two functions that must be used by prescribers of controlled substances. The first function (known as the "MyRx" function) enables the prescriber to review his or her own prescribing activity to make sure that someone is not issuing fraudulent prescriptions under his or her name and medical credentials.

25. The second function on the PMP database (known as the "Patient History Report") enables the prescriber to evaluate the patient's history of using controlled substances. This enables the

prescriber to determine whether a patient is doctor shopping or potentially abusing controlled substances or using them for recreational purposes.

26. Respondent Antonie did not use the MyRx function between August 16, 2022, and October 10, 2024. Additionally, he did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Antonie authorized approximately 1,080 prescriptions for controlled substances, most or all transmitted by Helix.

27. Respondent Hubbard had never used the MyRx function until requested to do so on October 16, 2024. Additionally, she did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Hubbard authorized approximately 1,800 prescriptions for controlled substances, most or all transmitted by Helix.

28. Respondent Miller-Wilson did not use the MyRx function between October 19, 2023, and October 7, 2024. Additionally, she ran Patient History Reports for only five patients between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Miller-Wilson authorized approximately 750 prescriptions for controlled substances, most or all transmitted by Helix.

29. In 2024, using the fill-in-the-blanks forms described above, Kohli, Frostad and/or Helix completed and transmitted approximately 7,000 prescriptions for dangerous drugs and controlled substances. Most or all of these prescriptions were transmitted by Helix to either Meta Pharmacy or Partell Specialty Pharmacy, where they were filled.

30. When transmitting prescriptions to Meta Pharmacy or Partell Specialty Pharmacy, as applicable, Kohli, Frostad and/or Helix were not supervised by a prescribing practitioner.

31. Some of the above prescriptions, including prescriptions for ketamine, testosterone cypionate and/or nandrolone decanoate, were not accompanied by medical notes, charts, or other records indicating that corresponding patient evaluations had taken place.

32. When questioned regarding prescriptions without supporting medical records, Respondent Antonie and Respondent Hubbard denied having authorized the prescriptions.

33. Prescriptions for controlled substances were not transmitted electronically in the manner required by NRS 639.23535 and NAC 639.7105, and they did not contain a valid address and telephone number for the prescriber, or a unique prescriber-affixed signature or authenticating notation as required by NRS 639.2353(2).

34. Prescriptions for dangerous drugs did not contain a valid address and telephone number for the prescriber, or a prescriber-affixed signature or other unique identifier for the prescriber, as required by NRS 639.2353 and NRS 454.223.

35. Prescriptions for controlled substances were never approved by the Board to be transmitted in any manner other than via electronic transmission in accordance with NRS 639.23535 and NAC 639.7105.

36. Prescriptions for controlled substances did not meet applicable criteria for an exemption from electronic transmission requirements, as stated in NRS 639.23535(1)(a)-(i).

37. The above prescriptions for controlled substances were not "legal" prescriptions within the meaning of NRS 453.377 and NRS 454

2. The Board has jurisdiction over Respondent Chad Antonie ("Respondent Antonie"), Respondent Tiana Hubbard ("Respondent Hubbard"), and Respondent Mary Miller-Wilson ("Respondent Miller-Wilson"), because said practitioners (collectively "Respondent Practitioners"), at the time of the events alleged herein, held certificates of registration issued by the Board authorizing them to prescribe dangerous drugs and controlled substances in Nevada.

3. The Board has jurisdiction over Respondent Ashley Thomas ("Respondent Thomas"), because Respondent Thomas, at the time of the events alleged herein, held a certificate of registration issued by the Board authorizing her to work as a pharmaceutical technician in Nevada.

4. The above respondents are referred to collectively herein as "Respondents." Their respective certificates of registration are referenced in the caption above.

5. The Board has jurisdiction over the subject matter of this Accusation because it involves the distribution and sale of dangerous drugs and controlled substances.

FACTUAL ALLEGATIONS

6. In 2024, Respondent Caccio, Respondent Dinh, and Respondent Escobedo were employed by Meta Pharmacy, located at 8352 W. Warm Springs Road in Las Vegas, Nevada.

7. In 2024, Respondent Angeles, Respondent Baraga, Respondent Barbose, Respondent Cybulska, Respondent Eom, Respondent Fakhor, Respondent Goodman, Respondent Li, Respondent Ngo, Respondent Padero, and Respondent Peters were employed by Partell Specialty Pharmacy, located at 5835 South Eastern Avenue in Las Vegas, Nevada.

8. In 2024, Respondent Antonie was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. As noted above, Respondent Antonie held a certificate of registration issued by the Board authorizing him to prescribe dangerous drugs and controlled substances.

9. In 2024, Respondent Hubbard was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. As noted above, Respondent Hubbard held a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

10. In 2024, Respondent Miller-Wilson was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. As noted above, Respondent Miller-Wilson held a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

11. In 2024, Respondent Practitioners were employed by or otherwise working in the service of Helix RHT ("Helix"), a business located at 2625 North Green Valley Parkway, #275, in Henderson, Nevada.

12. In 2024, Helix was owned and/or operated by Jasen Kohli ("Kohli") and Blake Frostad ("Frostad"), both competitive body builders.

13. Neither Kohli nor Frostad, nor anyone else working on site at Helix, held medical credentials or a medical license authorizing them to prescribe dangerous drugs or controlled substances.

14. On information and belief, in 2024, Helix did not employ or contract with any practitioners who worked from the Helix business location on North Green Valley Parkway in Henderson.

15. In 2024, while working for Helix, Respondent Practitioners evaluated patients using "telehealth" technology. This means that they worked from home, or from some facility other than the Helix location at 2625 North Green Valley Pkwy. #275, in Henderson, Nevada.

16. Using telehealth technology to evaluate their patients, Respondent Practitioners routinely authorized dangerous drugs and/or controlled substances for their patients. The controlled substances included ketamine, testosterone cypionate, and/or nandrolone decanoate. All three drugs are listed in Schedule III of the regulations promulgated pursuant to the federal and state Controlled Substances Acts. *See* 21 C.F.R. §1308.13; NAC 453.530.

17. Testosterone cypionate, and/or nandrolone decanoate are commonly used by body builders to increase muscle mass. Ketamine is also used by body builders prior to workouts.

18. Respondent Practitioners did not transmit their own prescriptions; instead, they authorized Kohli, Frostad and/or Helix to transmit written prescriptions on their behalf using a fill-in-the-blanks form bearing a signature stamp or other signature facsimile denoting the prescriber's approval.

19. The above forms were preprinted with the address and telephone number for Helix. The forms did not contain an address or telephone number for any of Respondent Practitioners.

20. Kohli and Frostad employed Respondent Thomas to work as a liaison between practitioners, patients, and pharmacies. Respondent Thomas did not work in a pharmacy, nor did she work under the supervision of a pharmacist or dispensing practitioner.

21. While employed at Helix, Respondent Thomas was engaged in the "practice of pharmacy" as that term is defined at NRS 639.0124. More specifically, she interpreted and evaluated

prescriptions or orders for medicine, *see* NRS 639.0124(1)(b), she interpreted clinical data contained in a person's record of medication, *see* NRS 639.0124(1)(g), and/or she generated and maintained records related to the source, storage, and distribution of prescription drugs, *see* NRS 639.0124(1)(e).

22. Respondent Practitioners were generally unfamiliar with the process used by Helix to transmit prescriptions to pharmacies for dispensing.

23. During all of 2024, Respondent Antonie had access to the database established pursuant to NRS 453.162. This database is known as the Nevada Prescription Monitoring Program or "PMP" database.

24. During all of 2024, Respondent Hubbard had access to the PMP database.

25. During all of 2024, Respondent Miller-Wilson had access to the PMP database.

26. The PMP database has two functions that must be used by prescribers of controlled substances. The first function (known as the "MyRx" function) enables the prescriber to review his or her own prescribing activity to make sure that someone is not issuing fraudulent prescriptions under his or her name and medical credentials.

27. The second function on the PMP database (known as the "Patient History Report") enables the prescriber to evaluate the patient's history of using controlled substances. This enables the prescriber to determine whether a patient is doctor shopping or potentially abusing controlled substances or using them for recreational purposes.

28. Respondent Antonie did not use the MyRx function between August 16, 2022, and October 10, 2024. Additionally, he did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Antonie authorized approximately 1,080 prescriptions for controlled substances, most or all transmitted by Helix.

29. Respondent Hubbard had never used the MyRx function until requested to do so on October 16, 2024. Additionally, she did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Hubbard authorized approximately 1,800 prescriptions for controlled substances, most or all transmitted by Helix.

30. Respondent Miller-Wilson did not use the MyRx function between October 19, 2023, and October 7, 2024. Additionally, she ran Patient History Reports for only five patients between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Miller-Wilson authorized approximately 750 prescriptions for controlled substances, most or all transmitted by Helix.

31. In 2024, using the fill-in-the-blanks forms described above, Kohli, Frostad and/or Helix completed and transmitted approximately 7,000 prescriptions for dangerous drugs and controlled substances. Most or all of these prescriptions were transmitted by Helix to either Meta Pharmacy or Partell Specialty Pharmacy, where they were filled by Respondent Pharmacists.

32. When transmitting prescriptions to Meta Pharmacy or Partell Specialty Pharmacy, as applicable, Kohli, Frostad and/or Helix were not supervised by a prescribing practitioner.

33. Most or all of the above prescriptions were dispensed by either Meta Pharmacy or Partell Specialty Pharmacy after having been verified by Respondent Pharmacists.

34. Some of the above prescriptions, including prescriptions for ketamine, testosterone cypionate and/or nandrolone decanoate, were not accompanied by medical notes, charts, or other records indicating that corresponding patient evaluations had taken place.

35. When questioned regarding prescriptions without supporting medical records, Respondent Antonie and Respondent Hubbard denied having authorized the prescriptions.

36. Prescriptions for controlled substances were not transmitted electronically in the manner required by NRS 639.23535 and NAC 639.7105, and they did not contain a valid address and telephone number for the prescriber, or a unique prescriber-affixed signature or authenticating notation as required by NRS 639.2353(2).

37. Prescriptions for dangerous drugs did not contain a valid address and telephone number for the prescriber, or a prescriber-affixed signature or other unique identifier for the prescriber, as required by NRS 639.2353 and NRS 454.223.

38. Prescriptions for controlled substances were never approved by the Board to be transmitted in any manner other than via electronic transmission in accordance with NRS 639.23535 and NAC 639.7105.

39. Prescriptions for controlled substances did not meet applicable criteria for an exemption from electronic transmission requirements, as stated in NRS 639.23535(1)(a)-(i).

40. The above prescriptions for controlled substances were not "legal" prescriptions within the meaning of NRS 453.377 and NRS 454.316.

41. In 2024, Respondent Caccio, while working at Meta Pharmacy, verified approximately 9 of the above prescriptions, including 3 prescriptions for nandrolone decanoate. As a direct result of Respondent Caccio's's conduct, Meta Pharmacy dispensed dangerous drugs and controlled substances to consumers who did not possess a valid prescription.

42. In 2024, Respondent Dinh, while working at Meta Pharmacy, verified approximately 10 of the above prescriptions, including 2 prescriptions for nandrolone decanoate. 80. Under the circumstances, Respondents had a duty to make further inquiry to determine whether the prescriptions were legal, invalid and/or issued in the usual course of the professional practice of a practitioner.

87. By causing or permitting non-compliant prescriptions to be transmitted by Helix and its non-practitioner owners, managers, and/or employees, Respondent Practitioners assisted or abetted in recurring violations of the Nevada Pharmacy Act regarding the form and content of prescriptions and their manner of transmission. *See* NRS 453.236(1)(e); NRS 453.231(1)(b); NRS 639.210(12).

By causing or permitting prescriptions to be issued by Helix and its non-practitioner owners, managers and/or employees, and/or by failing to exercise control over their process for issuing prescriptions, Respondent Practitioners permitted Helix and its non-practitioner owners, managers, and/or employees to engage in unregistered prescribing in violation of NRS 639.100(1).

PROPOSED FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

Case No. 24-424-CS-A-S, Case No. 24-424-CS-B-S,

Case No. 24-424-CS-C-S, and Case No. 24-424-PT-S

JURISDICTION AND SERVICE

1. The Nevada State Board of Pharmacy (the "Board") has jurisdiction over Respondent Chad Antonie ("Respondent Antonie"), Respondent Tiana Hubbard ("Respondent Hubbard"), and Respondent Mary Miller-Wilson ("Respondent Miller-Wilson"), because said practitioners (collectively "Respondent Practitioners"), at the time of the events alleged herein, held certificates of registration issued by the Board authorizing them to prescribe dangerous drugs and controlled substances in Nevada.

2. The Board has jurisdiction over Respondent Ashley Thomas ("Respondent Thomas"), because Respondent Thomas, at the time of the events alleged herein, held a certificate of registration issued by the Board authorizing her to work as a pharmaceutical technician in Nevada.

3. The Board has jurisdiction over the subject matter of this Accusation because it involves the distribution and sale of dangerous drugs and controlled substances.

4. Respondent Practitioners were properly served with the Notice of Intended Action and Accusation and the Statement to Respondent and Notice of Hearing.

5. Respondent Thomas was properly served with the Notice of Intended Action and Accusation and the Statement to Respondent and Notice of Hearing.

FINDINGS OF FACT

6. In 2024, Respondent Antonie was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. Respondent Antonie held a certificate of registration issued by the Board authorizing him to prescribe dangerous drugs and controlled substances.

7. In 2024, Respondent Hubbard was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. Respondent Hubbard held

a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

8. In 2024, Respondent Miller-Wilson was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. Respondent Miller-Wilson held a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

9. In 2024, Respondent Practitioners were employed by or otherwise working in the service of Helix RHT ("Helix"), a business located at 2625 North Green Valley Parkway, #275, in Henderson, Nevada.

10. In 2024, Helix was owned and/or operated by Jasen Kohli ("Kohli") and Blake Frostad ("Frostad"), both competitive body builders.

11. Kohli and Frostad employed Respondent Thomas to work as a liaison between practitioners, patients, and pharmacies. Respondent Thomas did not work in a pharmacy, nor did she work under the supervision of a pharmacist or dispensing practitioner.

12. While employed at Helix, Respondent Thomas was engaged in the "practice of pharmacy" as that term is defined at NRS 639.0124. More specifically, she interpreted and evaluated prescriptions or orders for medicine, *see* NRS 639.0124(1)(b), she interpreted clinical data contained in a person's record of medication, *see* NRS 639.0124(1)(g), and/or she generated and maintained records related to the source, storage, and distribution of prescription drugs, *see* NRS 639.0124(1)(e)

13. Neither Kohli nor Frostad, nor anyone else working on site at Helix, held medical credentials or a medical license authorizing them to prescribe dangerous drugs or controlled substances.

14. In 2024, Helix did not employ or contract with any practitioners who worked from the Helix business location on North Green Valley Parkway in Henderson.

15. In 2024, while working for Helix, Respondent Practitioners evaluated patients using "telehealth" technology. This means that they worked from home, or from some facility other than the Helix location at 2625 North Green Valley Pkwy. #275, in Henderson, Nevada.

16. Using telehealth technology to evaluate their patients, Respondent Practitioners routinely authorized dangerous drugs and/or controlled substances for their patients. The controlled substances included ketamine, testosterone cypionate, and/or nandrolone decanoate. All three drugs are listed in Schedule III of the regulations promulgated pursuant to the federal and state Controlled Substances Acts. *See* 21 C.F.R. §1308.13; NAC 453.530.

17. Testosterone cypionate, and/or nandrolone decanoate are commonly used by body builders to increase muscle mass. Ketamine is also used by body builders prior to workouts.

18. Respondent Practitioners did not transmit their own prescriptions; instead, they authorized Kohli, Frostad and/or Helix to transmit written prescriptions on their behalf using a fill-in-the-blanks form bearing a signature stamp or other signature facsimile denoting the prescriber's approval.

19. The above forms were preprinted with the address and telephone number for Helix. The forms did not contain an address or telephone number for any of Respondent Practitioners.

20. Respondent Practitioners were generally unfamiliar with the process used by Helix to transmit prescriptions to pharmacies for dispensing.

21. During all of 2024, Respondent Antonie had access to the database established pursuant to NRS 453.162. This database is known as the Nevada Prescription Monitoring Program or "PMP" database.

22. During all of 2024, Respondent Hubbard had access to the PMP database.

23. During all of 2024, Respondent Miller-Wilson had access to the PMP database.

24. The PMP database has two functions that must be used by prescribers of controlled substances. The first function (known as the "MyRx" function) enables the prescriber to review his or her own prescribing activity to make sure that someone is not issuing fraudulent prescriptions under his or her name and medical credentials.

25. The second function on the PMP database (known as the "Patient History Report") enables the prescriber to evaluate the patient's history of using controlled substances. This enables the

prescriber to determine whether a patient is doctor shopping or potentially abusing controlled substances or using them for recreational purposes.

26. Respondent Antonie did not use the MyRx function between August 16, 2022, and October 10, 2024. Additionally, he did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Antonie authorized approximately 1,080 prescriptions for controlled substances, most or all transmitted by Helix.

27. Respondent Hubbard had never used the MyRx function until requested to do so on October 16, 2024. Additionally, she did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Hubbard authorized approximately 1,800 prescriptions for controlled substances, most or all transmitted by Helix.

28. Respondent Miller-Wilson did not use the MyRx function between October 19, 2023, and October 7, 2024. Additionally, she ran Patient History Reports for only five patients between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Miller-Wilson authorized approximately 750 prescriptions for controlled substances, most or all transmitted by Helix.

29. In 2024, using the fill-in-the-blanks forms described above, Kohli, Frostad and/or Helix completed and transmitted approximately 7,000 prescriptions for dangerous drugs and controlled substances. Most or all of these prescriptions were transmitted by Helix to either Meta Pharmacy or Partell Specialty Pharmacy, where they were filled.

30. When transmitting prescriptions to Meta Pharmacy or Partell Specialty Pharmacy, as applicable, Kohli, Frostad and/or Helix were not supervised by a prescribing practitioner.

31. Some of the above prescriptions, including prescriptions for ketamine, testosterone cypionate and/or nandrolone decanoate, were not accompanied by medical notes, charts, or other records indicating that corresponding patient evaluations had taken place.

32. When questioned regarding prescriptions without supporting medical records, Respondent Antonie and Respondent Hubbard denied having authorized the prescriptions.

33. Prescriptions for controlled substances were not transmitted electronically in the manner required by NRS 639.23535 and NAC 639.7105, and they did not contain a valid address and telephone number for the prescriber, or a unique prescriber-affixed signature or authenticating notation as required by NRS 639.2353(2).

34. Prescriptions for dangerous drugs did not contain a valid address and telephone number for the prescriber, or a prescriber-affixed signature or other unique identifier for the prescriber, as required by NRS 639.2353 and NRS 454.223.

35. Prescriptions for controlled substances were never approved by the Board to be transmitted in any manner other than via electronic transmission in accordance with NRS 639.23535 and NAC 639.7105.

36. Prescriptions for controlled substances did not meet applicable criteria for an exemption from electronic transmission requirements, as stated in NRS 639.23535(1)(a)-(i).

37. The above prescriptions for controlled substances were not "legal" prescriptions within the meaning of NRS 453.377 and NRS 454

CONCLUSIONS OF LAW

38. Every practitioner who prescribes controlled substances in Nevada must secure and maintain a certificate of registration issued by the Board pursuant to the Nevada Controlled Substances Act (NRS Chapter 453). *See* NRS 453.226(1)(a); NRS 453.231(3).

39. If an advanced practice registered nurse prescribes dangerous drugs in Nevada, he or she must hold a certificate of registration issued by the Board. See NRS 639.1375; NAC 639.850.

40. If an advanced practice registered nurse prescribes controlled substances in Nevada, he or she must hold a certificate of registration issued by the Board. NRS 453.226(1)(a); NRS 453.231(3).

41. The Board may revoke or suspend the registration of any practitioner who has committed an act that renders his or her registration inconsistent with the public interest. NRS 453.236(1)(e).

42. Noncompliance with state and local law, including noncompliance with the Nevada Pharmacy Act and/or the Nevada Controlled Substances Act, renders a practitioner's registration inconsistent with the public interest. NRS 453.236(1)(e); NRS 453.231(1)(b).

43. Pursuant to NRS 639.100, it is unlawful for a practitioner to permit an unsupervised person to transmit prescriptions for dangerous drugs or controlled substances unless that person holds the appropriate license or certificate issued by the Board.

44. A practitioner has a duty to establish and maintain effective controls and procedures to prevent or guard against theft and misuse of controlled substances. *See* NRS 435.231(1)(a); NAC 453.400.

45. Before issuing an initial prescription for a controlled substance, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, a practitioner must run and evaluate a Patient History Report using the PMP. NRS 639.23507.

46. A practitioner registered with the Board to write prescriptions for controlled substances must use the MyRx function in the PMP database at least once every 6 months to review prescriptions issued by the practitioner and to verify that he or she continues to have access to the PMP. NRS 453.164(7).

47. The Board may revoke or suspend the registration of any practitioner who commits, or who assists or abets in a violation of the Nevada Pharmacy Act or the Nevada Controlled Substances Act. NRS 453.236(1)(e); NRS 453.231(1)(b); NRS 639.210(12).

48. A prescription must contain the telephone number and address of the prescriber and the prescriber's original signature, or if the prescription is transmitted electronically, a unique identifier affixed by the prescriber. NRS 639.2353; NRS 639.23535; NRS 454.223(2).

49. Generally, a prescription for a controlled substance must be electronically transmitted by a practitioner to a pharmacy using a computer system approved by the Board. NRS 639.23535; NAC 639.7102; NAC 639.7105.

50. When transmission by a facsimile machine is permitted, the practitioner, or the practitioner's designated agent, must transmit the prescription directly to the pharmacy. NAC 639.711. The pharmacist must not dispense such a prescription unless it is signed by the practitioner and transmitted to the pharmacy by the practitioner or the designated agent of the practitioner. NAC 639.711(4).

51. The holder of a certificate of registration issued by the Board pursuant to the Nevada Pharmacy Act (NRS Chapter 639), including a pharmaceutical technician, may be disciplined by the Board for engaging in unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4); NRS 639.255.

2. The Board has jurisdiction over Respondent Chad Antonie ("Respondent Antonie"), Respondent Tiana Hubbard ("Respondent Hubbard"), and Respondent Mary Miller-Wilson ("Respondent Miller-Wilson"), because said practitioners (collectively "Respondent Practitioners"), at the time of the events alleged herein, held certificates of registration issued by the Board authorizing them to prescribe dangerous drugs and controlled substances in Nevada.

3. The Board has jurisdiction over Respondent Ashley Thomas ("Respondent Thomas"), because Respondent Thomas, at the time of the events alleged herein, held a certificate of registration issued by the Board authorizing her to work as a pharmaceutical technician in Nevada.

FACTUAL ALLEGATIONS

6. In 2024, Respondent Caccio, Respondent Dinh, and Respondent Escobedo were employed by Meta Pharmacy, located at 8352 W. Warm Springs Road in Las Vegas, Nevada.

7. In 2024, Respondent Angeles, Respondent Baraga, Respondent Barbose, Respondent Cybulska, Respondent Eom, Respondent Fakhor, Respondent Goodman, Respondent Li, Respondent Ngo, Respondent Padero, and Respondent Peters were employed by Partell Specialty Pharmacy, located at 5835 South Eastern Avenue in Las Vegas, Nevada.

8. In 2024, Respondent Antonie was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. As noted above, Respondent Antonie held a certificate of registration issued by the Board authorizing him to prescribe dangerous drugs and controlled substances.

As noted above, Respondent Hubbard held a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

10. In 2024, Respondent Miller-Wilson was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. As noted above, Respondent Miller-Wilson held a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

11. In 2024, Respondent Practitioners were employed by or otherwise working in the service of Helix RHT ("Helix"), a business located at 2625 North Green Valley Parkway, #275, in Henderson, Nevada.

12. In 2024, Helix was owned and/or operated by Jasen Kohli ("Kohli") and Blake Frostad ("Frostad"), both competitive body builders.

13. Neither Kohli nor Frostad, nor anyone else working on site at Helix, held medical credentials or a medical license authorizing them to prescribe dangerous drugs or controlled substances.

14. On information and belief, in 2024, Helix did not employ or contract with any practitioners who worked from the Helix business location on North Green Valley Parkway in Henderson.

15. In 2024, while working for Helix, Respondent Practitioners evaluated patients using "telehealth" technology. This means that they worked from home, or from some facility other than the Helix location at 2625 North Green Valley Pkwy. #275, in Henderson, Nevada.

16. Using telehealth technology to evaluate their patients, Respondent Practitioners routinely authorized dangerous drugs and/or controlled substances for their patients. The controlled substances included ketamine, testosterone cypionate, and/or nandrolone decanoate. All three drugs are listed in Schedule III of the regulations promulgated pursuant to the federal and state Controlled Substances Acts. *See* 21 C.F.R. §1308.13; NAC 453.530.

17. Testosterone cypionate, and/or nandrolone decanoate are commonly used by body builders to increase muscle mass. Ketamine is also used by body builders prior to workouts.

18. Respondent Practitioners did not transmit their own prescriptions; instead, they authorized Kohli, Frostad and/or Helix to transmit written prescriptions on their behalf using a fill-in-the-blanks form bearing a signature stamp or other signature facsimile denoting the prescriber's approval.

19. The above forms were preprinted with the address and telephone number for Helix. The forms did not contain an address or telephone number for any of Respondent Practitioners.

20. Kohli and Frostad employed Respondent Thomas to work as a liaison between practitioners, patients, and pharmacies. Respondent Thomas did not work in a pharmacy, nor did she work under the supervision of a pharmacist or dispensing practitioner.

21. While employed at Helix, Respondent Thomas was engaged in the "practice of pharmacy" as that term is defined at NRS 639.0124. More specifically, she interpreted and evaluated

prescriptions or orders for medicine, *see* NRS 639.0124(1)(b), she interpreted clinical data contained in a person's record of medication, *see* NRS 639.0124(1)(g), and/or she generated and maintained records related to the source, storage, and distribution of prescription drugs, *see* NRS 639.0124(1)(e).

22. Respondent Practitioners were generally unfamiliar with the process used by Helix to transmit prescriptions to pharmacies for dispensing.

23. During all of 2024, Respondent Antonie had access to the database established pursuant to NRS 453.162. This database is known as the Nevada Prescription Monitoring Program or "PMP" database.

24. During all of 2024, Respondent Hubbard had access to the PMP database.

25. During all of 2024, Respondent Miller-Wilson had access to the PMP database.

26. The PMP database has two functions that must be used by prescribers of controlled substances. The first function (known as the "MyRx" function) enables the prescriber to review his or her own prescribing activity to make sure that someone is not issuing fraudulent prescriptions under his or her name and medical credentials.

27. The second function on the PMP database (known as the "Patient History Report") enables the prescriber to evaluate the patient's history of using controlled substances. This enables the prescriber to determine whether a patient is doctor shopping or potentially abusing controlled substances or using them for recreational purposes.

28. Respondent Antonie did not use the MyRx function between August 16, 2022, and October 10, 2024. Additionally, he did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Antonie authorized approximately 1,080 prescriptions for controlled substances, most or all transmitted by Helix.

29. Respondent Hubbard had never used the MyRx function until requested to do so on October 16, 2024. Additionally, she did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Hubbard authorized approximately 1,800 prescriptions for controlled substances, most or all transmitted by Helix.

30. Respondent Miller-Wilson did not use the MyRx function between October 19, 2023, and October 7, 2024. Additionally, she ran Patient History Reports for only five patients between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Miller-Wilson authorized approximately 750 prescriptions for controlled substances, most or all transmitted by Helix.

31. In 2024, using the fill-in-the-blanks forms described above, Kohli, Frostad and/or Helix completed and transmitted approximately 7,000 prescriptions for dangerous drugs and controlled substances. Most or all of these prescriptions were transmitted by Helix to either Meta Pharmacy or Partell Specialty Pharmacy, where they were filled by Respondent Pharmacists.

32. When transmitting prescriptions to Meta Pharmacy or Partell Specialty Pharmacy, as applicable, Kohli, Frostad and/or Helix were not supervised by a prescribing practitioner.

33. Most or all of the above prescriptions were dispensed by either Meta Pharmacy or Partell Specialty Pharmacy after having been verified by Respondent Pharmacists.

34. Some of the above prescriptions, including prescriptions for ketamine, testosterone cypionate and/or nandrolone decanoate, were not accompanied by medical notes, charts, or other records indicating that corresponding patient evaluations had taken place.

35. When questioned regarding prescriptions without supporting medical records, Respondent Antonie and Respondent Hubbard denied having authorized the prescriptions.

36. Prescriptions for controlled substances were not transmitted electronically in the manner required by NRS 639.23535 and NAC 639.7105, and they did not contain a valid address and telephone number for the prescriber, or a unique prescriber-affixed signature or authenticating notation as required by NRS 639.2353(2).

37. Prescriptions for dangerous drugs did not contain a valid address and telephone number for the prescriber, or a prescriber-affixed signature or other unique identifier for the prescriber, as required by NRS 639.2353 and NRS 454.223.

38. Prescriptions for controlled substances were never approved by the Board to be transmitted in any manner other than via electronic transmission in accordance with NRS 639.23535 and NAC 639.7105.

39. Prescriptions for controlled substances did not meet applicable criteria for an exemption from electronic transmission requirements, as stated in NRS 639.23535(1)(a)-(i).

40. The above prescriptions for controlled substances were not "legal" prescriptions within the meaning of NRS 453.377 and NRS 454.316.

41. In 2024, Respondent Caccio, while working at Meta Pharmacy, verified approximately 9 of the above prescriptions, including 3 prescriptions for nandrolone decanoate. COUNT ONE
Unprofessional Conduct by a Pharmacist
(Respondent Pharmacists)

77. As alleged above, Respondent Pharmacists verified numerous prescriptions that were illegal and/or issued outside the usual course of the professional practice of a practitioner. Their conduct caused dangerous drugs and controlled substances to be dispensed to consumers who were not in possession of valid prescriptions.

78. The above prescriptions were illegal and/or invalid because they were not signed or otherwise properly authenticated by the prescribing practitioners, they did not contain valid telephone numbers or addresses for the prescribing practitioners, and in many cases, they were not transmitted electronically or via facsimile by the practitioners, or by the practitioners' designated agents, in the manner required by Nevada law.

79. Given the large number of prescriptions that were deficient on their face, and/or transmitted in an unauthorized manner, Respondent Pharmacists knew or should have known that the prescriptions were illegal, invalid, and/or issued outside the usual course of the professional practice of a practitioner.

80. Under the circumstances, Respondents had a duty to make further inquiry to determine whether the prescriptions were legal, invalid and/or issued in the usual course of the professional practice of a practitioner.

81. By verifying the prescriptions and causing them to be dispensed, Respondents performed their duties as pharmacists in an incompetent, unskillful, or negligent manner.

82. Respondents are subject to discipline for their unprofessional conduct as described herein. NRS 639.210(4); NAC 639.945(1)(i).

84. Prescriptions for controlled substances were not transmitted by Respondent Practitioners in the manner required by NRS 639.23535 and NAC 639.7105.

85. Prescriptions did not contain a valid address or telephone number for the prescriber, or a prescriber-affixed signature as required by NRS 639.2353(2).

86. Respondent Practitioners knew or should have known that prescriptions transmitted by Helix did not comply with NRS 639.23535, NRS 639.2353, and NAC 639.7105.

87. By causing or permitting non-compliant prescriptions to be transmitted by Helix and its non-practitioner owners, managers, and/or employees, Respondent Practitioners assisted or abetted in recurring violations of the Nevada Pharmacy Act regarding the form and content of prescriptions and their manner of transmission. *See* NRS 453.236(1)(e); NRS 453.231(1)(b); NRS 639.210(12).

88. By causing or permitting prescriptions to be issued by Helix and its non-practitioner owners, managers and/or employees, and/or by failing to exercise control over their process for issuing prescriptions, Respondent Practitioners permitted Helix and its non-practitioner owners, managers, and/or employees to engage in unregistered prescribing in violation of NRS 639.100(1).

89. Respondents are subject to discipline for having failed to comply with the Nevada Pharmacy Act. *See* NRS 453.236(1)(e); NRS 453.231(1)(b); NRS 639.210(12).

92. As alleged above, Respondent Practitioners failed to monitor and/or supervise the activities of Helix and its non-practitioner owners, operators, and/or employees in regard to their issuance of prescriptions.

93. Respondent Practitioners knew or should have known that Helix and its non-practitioner owners, operators, and/or employees were issuing unauthorized prescriptions and/or prescriptions that did not comply with NRS 639.2353, NRS 639.23535 and NAC 639.7105.

More specifically, she interpreted and evaluated prescriptions or orders for medicine, *see* NRS 639.0124(1)(b), she interpreted clinical data contained in a person's record of medication, *see* NRS 639.0124(1)(g), and she generated and maintained records related to the source, storage, and distribution of prescription drugs, *see* NRS 639.0124(1)(e).

PROPOSED FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

Case No. 24-424-CS-A-S, Case No. 24-424-CS-B-S,

Case No. 24-424-CS-C-S, and Case No. 24-424-PT-S

JURISDICTION AND SERVICE

1. The Nevada State Board of Pharmacy (the "Board") has jurisdiction over Respondent Chad Antonie ("Respondent Antonie"), Respondent Tiana Hubbard ("Respondent Hubbard"), and Respondent Mary Miller-Wilson ("Respondent Miller-Wilson"), because said practitioners (collectively "Respondent Practitioners"), at the time of the events alleged herein, held certificates of registration issued by the Board authorizing them to prescribe dangerous drugs and controlled substances in Nevada.

2. The Board has jurisdiction over Respondent Ashley Thomas ("Respondent Thomas"), because Respondent Thomas, at the time of the events alleged herein, held a certificate of registration issued by the Board authorizing her to work as a pharmaceutical technician in Nevada.

3. The Board has jurisdiction over the subject matter of this Accusation because it involves the distribution and sale of dangerous drugs and controlled substances.

4. Respondent Practitioners were properly served with the Notice of Intended Action and Accusation and the Statement to Respondent and Notice of Hearing.

5. Respondent Thomas was properly served with the Notice of Intended Action and Accusation and the Statement to Respondent and Notice of Hearing.

FINDINGS OF FACT

6. In 2024, Respondent Antonie was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. Respondent Antonie held a certificate of registration issued by the Board authorizing him to prescribe dangerous drugs and controlled substances.

7. In 2024, Respondent Hubbard was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. Respondent Hubbard held

a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

8. In 2024, Respondent Miller-Wilson was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. Respondent Miller-Wilson held a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

9. In 2024, Respondent Practitioners were employed by or otherwise working in the service of Helix RHT ("Helix"), a business located at 2625 North Green Valley Parkway, #275, in Henderson, Nevada.

10. In 2024, Helix was owned and/or operated by Jasen Kohli ("Kohli") and Blake Frostad ("Frostad"), both competitive body builders.

11. Kohli and Frostad employed Respondent Thomas to work as a liaison between practitioners, patients, and pharmacies. Respondent Thomas did not work in a pharmacy, nor did she work under the supervision of a pharmacist or dispensing practitioner.

12. While employed at Helix, Respondent Thomas was engaged in the "practice of pharmacy" as that term is defined at NRS 639.0124. More specifically, she interpreted and evaluated prescriptions or orders for medicine, *see* NRS 639.0124(1)(b), she interpreted clinical data contained in a person's record of medication, *see* NRS 639.0124(1)(g), and/or she generated and maintained records related to the source, storage, and distribution of prescription drugs, *see* NRS 639.0124(1)(e)

13. Neither Kohli nor Frostad, nor anyone else working on site at Helix, held medical credentials or a medical license authorizing them to prescribe dangerous drugs or controlled substances.

14. In 2024, Helix did not employ or contract with any practitioners who worked from the Helix business location on North Green Valley Parkway in Henderson.

15. In 2024, while working for Helix, Respondent Practitioners evaluated patients using "telehealth" technology. This means that they worked from home, or from some facility other than the Helix location at 2625 North Green Valley Pkwy. #275, in Henderson, Nevada.

FILED

16. Using telehealth technology to evaluate their patients, Respondent Practitioners routinely authorized dangerous drugs and/or controlled substances for their patients. The controlled substances included ketamine, testosterone cypionate, and/or nandrolone decanoate. All three drugs are listed in Schedule III of the regulations promulgated pursuant to the federal and state Controlled Substances Acts. *See* 21 C.F.R. §1308.13; NAC 453.530.

17. Testosterone cypionate, and/or nandrolone decanoate are commonly used by body builders to increase muscle mass. Ketamine is also used by body builders prior to workouts.

18. Respondent Practitioners did not transmit their own prescriptions; instead, they authorized Kohli, Frostad and/or Helix to transmit written prescriptions on their behalf using a fill-in-the-blanks form bearing a signature stamp or other signature facsimile denoting the prescriber's approval.

19. The above forms were preprinted with the address and telephone number for Helix. The forms did not contain an address or telephone number for any of Respondent Practitioners.

20. Respondent Practitioners were generally unfamiliar with the process used by Helix to transmit prescriptions to pharmacies for dispensing.

21. During all of 2024, Respondent Antonie had access to the database established pursuant to NRS 453.162. This database is known as the Nevada Prescription Monitoring Program or "PMP" database.

22. During all of 2024, Respondent Hubbard had access to the PMP database.

23. During all of 2024, Respondent Miller-Wilson had access to the PMP database.

24. The PMP database has two functions that must be used by prescribers of controlled substances. The first function (known as the "MyRx" function) enables the prescriber to review his or her own prescribing activity to make sure that someone is not issuing fraudulent prescriptions under his or her name and medical credentials.

25. The second function on the PMP database (known as the "Patient History Report") enables the prescriber to evaluate the patient's history of using controlled substances. This enables the

prescriber to determine whether a patient is doctor shopping or potentially abusing controlled substances or using them for recreational purposes.

26. Respondent Antonie did not use the MyRx function between August 16, 2022, and October 10, 2024. Additionally, he did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Antonie authorized approximately 1,080 prescriptions for controlled substances, most or all transmitted by Helix.

27. Respondent Hubbard had never used the MyRx function until requested to do so on October 16, 2024. Additionally, she did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Hubbard authorized approximately 1,800 prescriptions for controlled substances, most or all transmitted by Helix.

28. Respondent Miller-Wilson did not use the MyRx function between October 19, 2023, and October 7, 2024. Additionally, she ran Patient History Reports for only five patients between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Miller-Wilson authorized approximately 750 prescriptions for controlled substances, most or all transmitted by Helix.

29. In 2024, using the fill-in-the-blanks forms described above, Kohli, Frostad and/or Helix completed and transmitted approximately 7,000 prescriptions for dangerous drugs and controlled substances. Most or all of these prescriptions were transmitted by Helix to either Meta Pharmacy or Partell Specialty Pharmacy, where they were filled.

30. When transmitting prescriptions to Meta Pharmacy or Partell Specialty Pharmacy, as applicable, Kohli, Frostad and/or Helix were not supervised by a prescribing practitioner.

31. Some of the above prescriptions, including prescriptions for ketamine, testosterone cypionate and/or nandrolone decanoate, were not accompanied by medical notes, charts, or other records indicating that corresponding patient evaluations had taken place.

32. When questioned regarding prescriptions without supporting medical records, Respondent Antonie and Respondent Hubbard denied having authorized the prescriptions.

33. Prescriptions for controlled substances were not transmitted electronically in the manner required by NRS 639.23535 and NAC 639.7105, and they did not contain a valid address and telephone number for the prescriber, or a unique prescriber-affixed signature or authenticating notation as required by NRS 639.2353(2).

34. Prescriptions for dangerous drugs did not contain a valid address and telephone number for the prescriber, or a prescriber-affixed signature or other unique identifier for the prescriber, as required by NRS 639.2353 and NRS 454.223.

35. Prescriptions for controlled substances were never approved by the Board to be transmitted in any manner other than via electronic transmission in accordance with NRS 639.23535 and NAC 639.7105.

36. Prescriptions for controlled substances did not meet applicable criteria for an exemption from electronic transmission requirements, as stated in NRS 639.23535(1)(a)-(i).

37. The above prescriptions for controlled substances were not "legal" prescriptions within the meaning of NRS 453.377 and NRS 454

CONCLUSIONS OF LAW

38. Every practitioner who prescribes controlled substances in Nevada must secure and maintain a certificate of registration issued by the Board pursuant to the Nevada Controlled Substances Act (NRS Chapter 453). *See* NRS 453.226(1)(a); NRS 453.231(3).

39. If an advanced practice registered nurse prescribes dangerous drugs in Nevada, he or she must hold a certificate of registration issued by the Board. See NRS 639.1375; NAC 639.850.

40. If an advanced practice registered nurse prescribes controlled substances in Nevada, he or she must hold a certificate of registration issued by the Board. NRS 453.226(1)(a); NRS 453.231(3).

41. The Board may revoke or suspend the registration of any practitioner who has committed an act that renders his or her registration inconsistent with the public interest. NRS 453.236(1)(e).

42. Noncompliance with state and local law, including noncompliance with the Nevada Pharmacy Act and/or the Nevada Controlled Substances Act, renders a practitioner's registration inconsistent with the public interest. NRS 453.236(1)(e); NRS 453.231(1)(b).

43. Pursuant to NRS 639.100, it is unlawful for a practitioner to permit an unsupervised person to transmit prescriptions for dangerous drugs or controlled substances unless that person holds the appropriate license or certificate issued by the Board.

44. A practitioner has a duty to establish and maintain effective controls and procedures to prevent or guard against theft and misuse of controlled substances. *See* NRS 435.231(1)(a); NAC 453.400.

45. Before issuing an initial prescription for a controlled substance, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, a practitioner must run and evaluate a Patient History Report using the PMP. NRS 639.23507.

46. A practitioner registered with the Board to write prescriptions for controlled substances must use the MyRx function in the PMP database at least once every 6 months to review prescriptions issued by the practitioner and to verify that he or she continues to have access to the PMP. NRS 453.164(7).

47. The Board may revoke or suspend the registration of any practitioner who commits, or who assists or abets in a violation of the Nevada Pharmacy Act or the Nevada Controlled Substances Act. NRS 453.236(1)(e); NRS 453.231(1)(b); NRS 639.210(12).

48. A prescription must contain the telephone number and address of the prescriber and the prescriber's original signature, or if the prescription is transmitted electronically, a unique identifier affixed by the prescriber. NRS 639.2353; NRS 639.23535; NRS 454.223(2).

49. Generally, a prescription for a controlled substance must be electronically transmitted by a practitioner to a pharmacy using a computer system approved by the Board. NRS 639.23535; NAC 639.7102; NAC 639.7105.

50. When transmission by a facsimile machine is permitted, the practitioner, or the practitioner's designated agent, must transmit the prescription directly to the pharmacy. NAC 639.711. The pharmacist must not dispense such a prescription unless it is signed by the practitioner and transmitted to the pharmacy by the practitioner or the designated agent of the practitioner. NAC 639.711(4).

51. The holder of a certificate of registration issued by the Board pursuant to the Nevada Pharmacy Act (NRS Chapter 639), including a pharmaceutical technician, may be disciplined by the Board for engaging in unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4); NRS 639.255.

52. When engaged in the practice of pharmacy, a pharmaceutical technician must work under the direct supervision of a pharmacist and must not work outside of a pharmacy. NRS 639.1371; NRS 639.0113; NAC 639.245; NAC 639.247; NAC 639.250; NAC 639.252; NAC 639.401.

53. Unprofessional conduct by a pharmaceutical technician includes aiding or abetting a person not licensed to practice pharmacy in Nevada, *see* NAC 639.945(1)(j), performing or in any way being a party to any fraudulent or deceitful practice or transaction, *see* NAC 639.945(1)(h), and performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration, *see* NAC 639.945(1)(k).

FINDINGS OF CULPABILITY

As to Count Two of the Accusation

The Nevada State Board of Pharmacy (the "Board") has jurisdiction over Respondent Respondent Elise Caccio ("Respondent Caccio"), Respondent Tommy Dinh ("Respondent Dinh"), Respondent Jose Escobedo ("Respondent Escobedo"), Respondent Tamara Angeles ("Respondent Angeles"), Respondent Marie Baraga ("Respondent Baraga"), Respondent Marc Barbose ("Respondent Barbose"), Respondent Magdalena Cybulska ("Respondent Cybulska"), Respondent Soyoung Eom ("Respondent Eom"), Respondent Artin Fakhor ("Respondent Fakhor"), Respondent Chris Goodman ("Respondent Goodman"), Respondent Kenny Li ("Respondent Li"), Respondent Paulina Ngo ("Respondent Ngo"), Respondent Jaymie Padero ("Respondent Padero"), and Respondent Chris Peters ("Respondent Peters"), because said pharmacists (collectively "Respondent Pharmacists"), at the time of the events alleged herein, held certificates of registration issued by the Board authorizing them to engage in the practice of pharmacy in Nevada.

2. The Board has jurisdiction over Respondent Chad Antonie ("Respondent Antonie"), Respondent Tiana Hubbard ("Respondent Hubbard"), and Respondent Mary Miller-Wilson ("Respondent Miller-Wilson"), because said practitioners (collectively "Respondent Practitioners"), at the time of the events alleged herein, held certificates of registration issued by the Board authorizing them to prescribe dangerous drugs and controlled substances in Nevada.

3. The Board has jurisdiction over Respondent Ashley Thomas ("Respondent Thomas"), because Respondent Thomas, at the time of the events alleged herein, held a certificate of registration issued by the Board authorizing her to work as a pharmaceutical technician in Nevada.

4. The above respondents are referred to collectively herein as "Respondents." Their respective certificates of registration are referenced in the caption above.

5. The Board has jurisdiction over the subject matter of this Accusation because it involves the distribution and sale of dangerous drugs and controlled substances.

FACTUAL ALLEGATIONS

6. In 2024, Respondent Caccio, Respondent Dinh, and Respondent Escobedo were employed by Meta Pharmacy, located at 8352 W. Warm Springs Road in Las Vegas, Nevada.

7. In 2024, Respondent Angeles, Respondent Baraga, Respondent Barbose, Respondent Cybulska, Respondent Eom, Respondent Fakhor, Respondent Goodman, Respondent Li, Respondent Ngo, Respondent Padero, and Respondent Peters were employed by Partell Specialty Pharmacy, located at 5835 South Eastern Avenue in Las Vegas, Nevada.

8. In 2024, Respondent Antonie was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. As noted above, Respondent Antonie held a certificate of registration issued by the Board authorizing him to prescribe dangerous drugs and controlled substances.

9. In 2024, Respondent Hubbard was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. As noted above, Respondent Hubbard held a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

10. In 2024, Respondent Miller-Wilson was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. As noted above, Respondent Miller-Wilson held a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

11. In 2024, Respondent Practitioners were employed by or otherwise working in the service of Helix RHT ("Helix"), a business located at 2625 North Green Valley Parkway, #275, in Henderson, Nevada.

12. In 2024, Helix was owned and/or operated by Jasen Kohli ("Kohli") and Blake Frostad ("Frostad"), both competitive body builders.

13. Neither Kohli nor Frostad, nor anyone else working on site at Helix, held medical credentials or a medical license authorizing them to prescribe dangerous drugs or controlled substances.

14. On information and belief, in 2024, Helix did not employ or contract with any practitioners who worked from the Helix business location on North Green Valley Parkway in Henderson.

15. In 2024, while working for Helix, Respondent Practitioners evaluated patients using "telehealth" technology. This means that they worked from home, or from some facility other than the Helix location at 2625 North Green Valley Pkwy. #275, in Henderson, Nevada.

16. Using telehealth technology to evaluate their patients, Respondent Practitioners routinely authorized dangerous drugs and/or controlled substances for their patients. The controlled substances included ketamine, testosterone cypionate, and/or nandrolone decanoate. All three drugs are listed in Schedule III of the regulations promulgated pursuant to the federal and state Controlled Substances Acts. *See* 21 C.F.R. §1308.13; NAC 453.530.

17. Testosterone cypionate, and/or nandrolone decanoate are commonly used by body builders to increase muscle mass. Ketamine is also used by body builders prior to workouts.

18. Respondent Practitioners did not transmit their own prescriptions; instead, they authorized Kohli, Frostad and/or Helix to transmit written prescriptions on their behalf using a fill-in-the-blanks form bearing a signature stamp or other signature facsimile denoting the prescriber's approval.

19. The above forms were preprinted with the address and telephone number for Helix. The forms did not contain an address or telephone number for any of Respondent Practitioners.

20. Kohli and Frostad employed Respondent Thomas to work as a liaison between practitioners, patients, and pharmacies. Respondent Thomas did not work in a pharmacy, nor did she work under the supervision of a pharmacist or dispensing practitioner.

21. While employed at Helix, Respondent Thomas was engaged in the "practice of pharmacy" as that term is defined at NRS 639.0124. More specifically, she interpreted and evaluated

prescriptions or orders for medicine, *see* NRS 639.0124(1)(b), she interpreted clinical data contained in a person's record of medication, *see* NRS 639.0124(1)(g), and/or she generated and maintained records related to the source, storage, and distribution of prescription drugs, *see* NRS 639.0124(1)(e).

22. Respondent Practitioners were generally unfamiliar with the process used by Helix to transmit prescriptions to pharmacies for dispensing.

23. During all of 2024, Respondent Antonie had access to the database established pursuant to NRS 453.162. This database is known as the Nevada Prescription Monitoring Program or "PMP" database.

24. During all of 2024, Respondent Hubbard had access to the PMP database.

25. During all of 2024, Respondent Miller-Wilson had access to the PMP database.

26. The PMP database has two functions that must be used by prescribers of controlled substances. The first function (known as the "MyRx" function) enables the prescriber to review his or her own prescribing activity to make sure that someone is not issuing fraudulent prescriptions under his or her name and medical credentials.

27. The second function on the PMP database (known as the "Patient History Report") enables the prescriber to evaluate the patient's history of using controlled substances. This enables the prescriber to determine whether a patient is doctor shopping or potentially abusing controlled substances or using them for recreational purposes.

28. Respondent Antonie did not use the MyRx function between August 16, 2022, and October 10, 2024. Additionally, he did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Antonie authorized approximately 1,080 prescriptions for controlled substances, most or all transmitted by Helix.

29. Respondent Hubbard had never used the MyRx function until requested to do so on October 16, 2024. Additionally, she did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Hubbard authorized approximately 1,800 prescriptions for controlled substances, most or all transmitted by Helix.

30. Respondent Miller-Wilson did not use the MyRx function between October 19, 2023, and October 7, 2024. Additionally, she ran Patient History Reports for only five patients between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Miller-Wilson authorized approximately 750 prescriptions for controlled substances, most or all transmitted by Helix.

31. In 2024, using the fill-in-the-blanks forms described above, Kohli, Frostad and/or Helix completed and transmitted approximately 7,000 prescriptions for dangerous drugs and controlled substances. Most or all of these prescriptions were transmitted by Helix to either Meta Pharmacy or Partell Specialty Pharmacy, where they were filled by Respondent Pharmacists.

32. When transmitting prescriptions to Meta Pharmacy or Partell Specialty Pharmacy, as applicable, Kohli, Frostad and/or Helix were not supervised by a prescribing practitioner.

33. Most or all of the above prescriptions were dispensed by either Meta Pharmacy or Partell Specialty Pharmacy after having been verified by Respondent Pharmacists.

34. Some of the above prescriptions, including prescriptions for ketamine, testosterone cypionate and/or nandrolone decanoate, were not accompanied by medical notes, charts, or other records indicating that corresponding patient evaluations had taken place.

35. When questioned regarding prescriptions without supporting medical records, Respondent Antonie and Respondent Hubbard denied having authorized the prescriptions.

36. Prescriptions for controlled substances were not transmitted electronically in the manner required by NRS 639.23535 and NAC 639.7105, and they did not contain a valid address and telephone number for the prescriber, or a unique prescriber-affixed signature or authenticating notation as required by NRS 639.2353(2).

37. Prescriptions for dangerous drugs did not contain a valid address and telephone number for the prescriber, or a prescriber-affixed signature or other unique identifier for the prescriber, as required by NRS 639.2353 and NRS 454.223.

38. Prescriptions for controlled substances were never approved by the Board to be transmitted in any manner other than via electronic transmission in accordance with NRS 639.23535 and NAC 639.7105.

39. Prescriptions for controlled substances did not meet applicable criteria for an exemption from electronic transmission requirements, as stated in NRS 639.23535(1)(a)-(i).

40. The above prescriptions for controlled substances were not "legal" prescriptions within the meaning of NRS 453.377 and NRS 454.316.

41. In 2024, Respondent Caccio, while working at Meta Pharmacy, verified approximately 9 of the above prescriptions, including 3 prescriptions for nandrolone decanoate. COUNT ONE
Unprofessional Conduct by a Pharmacist
(Respondent Pharmacists)

77. As alleged above, Respondent Pharmacists verified numerous prescriptions that were illegal and/or issued outside the usual course of the professional practice of a practitioner. Their conduct caused dangerous drugs and controlled substances to be dispensed to consumers who were not in possession of valid prescriptions.

78. The above prescriptions were illegal and/or invalid because they were not signed or otherwise properly authenticated by the prescribing practitioners, they did not contain valid telephone numbers or addresses for the prescribing practitioners, and in many cases, they were not transmitted electronically or via facsimile by the practitioners, or by the practitioners' designated agents, in the manner required by Nevada law.

79. Given the large number of prescriptions that were deficient on their face, and/or transmitted in an unauthorized manner, Respondent Pharmacists knew or should have known that the prescriptions were illegal, invalid, and/or issued outside the usual course of the professional practice of a practitioner.

80. Under the circumstances, Respondents had a duty to make further inquiry to determine whether the prescriptions were legal, invalid and/or issued in the usual course of the professional practice of a practitioner.

81. By verifying the prescriptions and causing them to be dispensed, Respondents performed their duties as pharmacists in an incompetent, unskillful, or negligent manner.

82. Respondents are subject to discipline for their unprofessional conduct as described herein. NRS 639.210(4); NAC 639.945(1)(i).

COUNT TWO
Noncompliance with the Nevada Pharmacy Act
(Respondent Practitioners)

83. As alleged above, Respondent Practitioners authorized Helix and its non-practitioner owners, operators, and/or employees to transmit prescriptions on their behalf using a fill-in-the-blanks form bearing a signature stamp or other signature facsimile denoting the prescriber's approval.

84. Prescriptions for controlled substances were not transmitted by Respondent Practitioners in the manner required by NRS 639.23535 and NAC 639.7105.

85. Prescriptions did not contain a valid address or telephone number for the prescriber, or a prescriber-affixed signature as required by NRS 639.2353(2).

PROPOSED FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

Case No. 24-424-CS-A-S, Case No. 24-424-CS-B-S,

Case No. 24-424-CS-C-S, and Case No. 24-424-PT-S

JURISDICTION AND SERVICE

1. The Nevada State Board of Pharmacy (the "Board") has jurisdiction over Respondent Chad Antonie ("Respondent Antonie"), Respondent Tiana Hubbard ("Respondent Hubbard"), and Respondent Mary Miller-Wilson ("Respondent Miller-Wilson"), because said practitioners (collectively "Respondent Practitioners"), at the time of the events alleged herein, held certificates of registration issued by the Board authorizing them to prescribe dangerous drugs and controlled substances in Nevada.

2. The Board has jurisdiction over Respondent Ashley Thomas ("Respondent Thomas"), because Respondent Thomas, at the time of the events alleged herein, held a certificate of registration issued by the Board authorizing her to work as a pharmaceutical technician in Nevada.

3. The Board has jurisdiction over the subject matter of this Accusation because it involves the distribution and sale of dangerous drugs and controlled substances.

4. Respondent Practitioners were properly served with the Notice of Intended Action and Accusation and the Statement to Respondent and Notice of Hearing.

5. Respondent Thomas was properly served with the Notice of Intended Action and Accusation and the Statement to Respondent and Notice of Hearing.

FINDINGS OF FACT

6. In 2024, Respondent Antonie was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. Respondent Antonie held a certificate of registration issued by the Board authorizing him to prescribe dangerous drugs and controlled substances.

7. In 2024, Respondent Hubbard was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. Respondent Hubbard held

a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

8. In 2024, Respondent Miller-Wilson was an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. Respondent Miller-Wilson held a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs and controlled substances.

9. In 2024, Respondent Practitioners were employed by or otherwise working in the service of Helix RHT ("Helix"), a business located at 2625 North Green Valley Parkway, #275, in Henderson, Nevada.

10. In 2024, Helix was owned and/or operated by Jasen Kohli ("Kohli") and Blake Frostad ("Frostad"), both competitive body builders.

11. Kohli and Frostad employed Respondent Thomas to work as a liaison between practitioners, patients, and pharmacies. Respondent Thomas did not work in a pharmacy, nor did she work under the supervision of a pharmacist or dispensing practitioner.

12. While employed at Helix, Respondent Thomas was engaged in the "practice of pharmacy" as that term is defined at NRS 639.0124. More specifically, she interpreted and evaluated prescriptions or orders for medicine, *see* NRS 639.0124(1)(b), she interpreted clinical data contained in a person's record of medication, *see* NRS 639.0124(1)(g), and/or she generated and maintained records related to the source, storage, and distribution of prescription drugs, *see* NRS 639.0124(1)(e)

13. Neither Kohli nor Frostad, nor anyone else working on site at Helix, held medical credentials or a medical license authorizing them to prescribe dangerous drugs or controlled substances.

14. In 2024, Helix did not employ or contract with any practitioners who worked from the Helix business location on North Green Valley Parkway in Henderson.

15. In 2024, while working for Helix, Respondent Practitioners evaluated patients using "telehealth" technology. This means that they worked from home, or from some facility other than the Helix location at 2625 North Green Valley Pkwy. #275, in Henderson, Nevada.

16. Using telehealth technology to evaluate their patients, Respondent Practitioners routinely authorized dangerous drugs and/or controlled substances for their patients. The controlled substances included ketamine, testosterone cypionate, and/or nandrolone decanoate. All three drugs are listed in Schedule III of the regulations promulgated pursuant to the federal and state Controlled Substances Acts. *See* 21 C.F.R. §1308.13; NAC 453.530.

17. Testosterone cypionate, and/or nandrolone decanoate are commonly used by body builders to increase muscle mass. Ketamine is also used by body builders prior to workouts.

18. Respondent Practitioners did not transmit their own prescriptions; instead, they authorized Kohli, Frostad and/or Helix to transmit written prescriptions on their behalf using a fill-in-the-blanks form bearing a signature stamp or other signature facsimile denoting the prescriber's approval.

19. The above forms were preprinted with the address and telephone number for Helix. The forms did not contain an address or telephone number for any of Respondent Practitioners.

20. Respondent Practitioners were generally unfamiliar with the process used by Helix to transmit prescriptions to pharmacies for dispensing.

21. During all of 2024, Respondent Antonie had access to the database established pursuant to NRS 453.162. This database is known as the Nevada Prescription Monitoring Program or "PMP" database.

22. During all of 2024, Respondent Hubbard had access to the PMP database.

23. During all of 2024, Respondent Miller-Wilson had access to the PMP database.

24. The PMP database has two functions that must be used by prescribers of controlled substances. The first function (known as the "MyRx" function) enables the prescriber to review his or her own prescribing activity to make sure that someone is not issuing fraudulent prescriptions under his or her name and medical credentials.

25. The second function on the PMP database (known as the "Patient History Report") enables the prescriber to evaluate the patient's history of using controlled substances. This enables the

prescriber to determine whether a patient is doctor shopping or potentially abusing controlled substances or using them for recreational purposes.

26. Respondent Antonie did not use the MyRx function between August 16, 2022, and October 10, 2024. Additionally, he did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Antonie authorized approximately 1,080 prescriptions for controlled substances, most or all transmitted by Helix.

27. Respondent Hubbard had never used the MyRx function until requested to do so on October 16, 2024. Additionally, she did not run a Patient History Report at any time between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Hubbard authorized approximately 1,800 prescriptions for controlled substances, most or all transmitted by Helix.

28. Respondent Miller-Wilson did not use the MyRx function between October 19, 2023, and October 7, 2024. Additionally, she ran Patient History Reports for only five patients between January 1, 2024, and October 1, 2024. Within this same time frame, Respondent Miller-Wilson authorized approximately 750 prescriptions for controlled substances, most or all transmitted by Helix.

29. In 2024, using the fill-in-the-blanks forms described above, Kohli, Frostad and/or Helix completed and transmitted approximately 7,000 prescriptions for dangerous drugs and controlled substances. Most or all of these prescriptions were transmitted by Helix to either Meta Pharmacy or Partell Specialty Pharmacy, where they were filled.

30. When transmitting prescriptions to Meta Pharmacy or Partell Specialty Pharmacy, as applicable, Kohli, Frostad and/or Helix were not supervised by a prescribing practitioner.

31. Some of the above prescriptions, including prescriptions for ketamine, testosterone cypionate and/or nandrolone decanoate, were not accompanied by medical notes, charts, or other records indicating that corresponding patient evaluations had taken place.

32. When questioned regarding prescriptions without supporting medical records, Respondent Antonie and Respondent Hubbard denied having authorized the prescriptions.

33. Prescriptions for controlled substances were not transmitted electronically in the manner required by NRS 639.23535 and NAC 639.7105, and they did not contain a valid address and telephone number for the prescriber, or a unique prescriber-affixed signature or authenticating notation as required by NRS 639.2353(2).

34. Prescriptions for dangerous drugs did not contain a valid address and telephone number for the prescriber, or a prescriber-affixed signature or other unique identifier for the prescriber, as required by NRS 639.2353 and NRS 454.223.

35. Prescriptions for controlled substances were never approved by the Board to be transmitted in any manner other than via electronic transmission in accordance with NRS 639.23535 and NAC 639.7105.

36. Prescriptions for controlled substances did not meet applicable criteria for an exemption from electronic transmission requirements, as stated in NRS 639.23535(1)(a)-(i).

37. The above prescriptions for controlled substances were not "legal" prescriptions within the meaning of NRS 453.377 and NRS 454

CONCLUSIONS OF LAW

42. Noncompliance with state and local law, including noncompliance with the Nevada Pharmacy Act and/or the Nevada Controlled Substances Act, renders a practitioner's registration inconsistent with the public interest. NRS 453.236(1)(e); NRS 453.231(1)(b).

43. Pursuant to NRS 639.100, it is unlawful for a practitioner to permit an unsupervised person to transmit prescriptions for dangerous drugs or controlled substances unless that person holds the appropriate license or certificate issued by the Board.

44. A practitioner has a duty to establish and maintain effective controls and procedures to prevent or guard against theft and misuse of controlled substances. *See* NRS 435.231(1)(a); NAC 453.400.

45. Before issuing an initial prescription for a controlled substance, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, a practitioner must run and evaluate a Patient History Report using the PMP. NRS 639.23507.

46. A practitioner registered with the Board to write prescriptions for controlled substances must use the MyRx function in the PMP database at least once every 6 months to review prescriptions issued by the practitioner and to verify that he or she continues to have access to the PMP. NRS 453.164(7).

47. The Board may revoke or suspend the registration of any practitioner who commits, or who assists or abets in a violation of the Nevada Pharmacy Act or the Nevada Controlled Substances Act. NRS 453.236(1)(e); NRS 453.231(1)(b); NRS 639.210(12).

48. A prescription must contain the telephone number and address of the prescriber and the prescriber's original signature, or if the prescription is transmitted electronically, a unique identifier affixed by the prescriber. NRS 639.2353; NRS 639.23535; NRS 454.223(2).

49. Generally, a prescription for a controlled substance must be electronically transmitted by a practitioner to a pharmacy using a computer system approved by the Board. NRS 639.23535; NAC 639.7102; NAC 639.7105.

50. When transmission by a facsimile machine is permitted, the practitioner, or the practitioner's designated agent, must transmit the prescription directly to the pharmacy. NAC 639.711. The pharmacist must not dispense such a prescription unless it is signed by the practitioner and transmitted to the pharmacy by the practitioner or the designated agent of the practitioner. NAC 639.711(4).

51. The holder of a certificate of registration issued by the Board pursuant to the Nevada Pharmacy Act (NRS Chapter 639), including a pharmaceutical technician, may be disciplined by the Board for engaging in unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4); NRS 639.255.

52. When engaged in the practice of pharmacy, a pharmaceutical technician must work under the direct supervision of a pharmacist and must not work outside of a pharmacy. NRS 639.1371; NRS 639.0113; NAC 639.245; NAC 639.247; NAC 639.250; NAC 639.252; NAC 639.401.

53. Unprofessional conduct by a pharmaceutical technician includes aiding or abetting a person not licensed to practice pharmacy in Nevada, *see* NAC 639.945(1)(j), performing or in any way being a party to any fraudulent or deceitful practice or transaction, *see* NAC 639.945(1)(h), and performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration, *see* NAC 639.945(1)(k).

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a first amended notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Mona Matar, RPh (Matar), Certificate of Registration No. 20104, and Respondent Viridiana Martinez (Martinez), Certificate of Registration No. 23854, were pharmacists registered with the Board, and Respondent Walgreens Pharmacy #03922 (Walgreens #03922), Pharmacy License No. PH01127, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Matar and Martinez were employed as pharmacists at Walgreens #03922, located at 7599 W. Lake Mead Blvd. in Las Vegas, at the time of the events alleged herein.

3. On April 17, 2025, Walgreens #003922 received a new electronic prescription from prescriber B.T. for 40 tablets of Focalin XR 10 mg, a stimulant primarily used to treat Attention

Deficit Hyperactivity Disorder, for minor patient A.C. The Walgreens pharmacy computer system designated this prescription no. 5487765.

4. Later that day, Matar selected the wrong drug during data entry and entered the prescription as Methylphenidate CD 10 mg, which is also a stimulant primarily used to treat Attention Deficit Hyperactivity Disorder. Pharmaceutical technician Josh Licata filled the prescription with Methylphenidate CD.

5. Matar performed the final verification of prescription no. 5487765 and failed to notice the error.

6. On April 18, 2025, patient A.C.'s mother picked up prescription no. 5487765, which was dispensed with Methylphenidate CD 10 mg. Martinez was the pharmacist on duty at the time when patient A.C.'s mother picked up prescription no. 5487765.

7. Although patient A.C. had previously been prescribed Methylphenidate CD, it was for a different dosage than the one Matar selected. According to Walgreens' policy, the change in dosage requires state-mandatory counseling. However, Martinez did not offer or give patient A.C.'s mother counseling for prescription no. 5487765.

8. Patient A.C. ingested the prescription for thirty (30) days as directed by his prescriber.

9. While taking prescription no. 5487765, patient A.C. told his mother that he felt "like his brain was not working." Patient A.C.'s mother went back to prescriber B.T. to report these symptoms, and, as a result, prescriber B.T. wrote a prescription increasing the dosage to Focalin XR 20 mg.

10. On or about May 23, 2025, patient A.C.'s mother returned to Walgreens #03922 with the prescription for Focalin XR 20 mg. The Walgreens #03922 employee who was dispensing the prescription to patient A.C.'s mother asked if she required counseling, as this was a new prescription according to the Walgreens computer system. Patient A.C.'s mother stated that it

should not have been a new prescription and asked what prescription drug she had been given the previous month.

11. A few minutes later, Noelle Del Rosario (Rosario), the managing pharmacist of Walgreens #03922, came to the window and told patient A.C.'s mother that there had been a mistake in filling the prescription the previous month. Rosario told patient A.C.'s mother that prescription no. 5487765 had been dispensed with Methylphenidate CD instead of Focalin XR.

PRIOR DISCIPLINE

12. In January 2016, the Board disciplined Respondent Walgreens #03922 and two of its pharmacists for an error in filling a prescription, failure to counsel, and record-keeping violations, resulting in a $495 administrative fee.

13. In October 2018, the Board disciplined Respondent Walgreens #03922 and its managing pharmacist for an error in filling a prescription and record-keeping violations, resulting in a $3,500 fine.

14. In October 2024, the Board sent a warning letter to Respondent Walgreens #03922 and its managing pharmacist for failure to maintain compounded records.

15. In March 2023, the Board sent a Citation-and-Fine Order to Respondent Matar for an error in filling a prescription with no patient harm, resulting in a $500 fine.

16. In October 2023, the Board disciplined Respondent Matar for verifying the wrong dose of a Hepatitis B vaccine, resulting in a $1,000 fine.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Mona Matar, RPh (Matar), Certificate of Registration No. 20104, was a pharmacist registered with the Board, and Respondent Walgreens Pharmacy #03922 (Walgreens #03922), Pharmacy License No. PH01127, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Matar was employed as a pharmacist of Walgreens #03922, located at 7599 W. Lake Mead Blvd. in Las Vegas, at the time of the events alleged herein.

3. On April 17, 2025, Walgreens #003922 received a new electronic prescription from prescriber B.T. for 40 tablets of Focalin XR 10 mg, a stimulant primarily used to treat Attention Deficit Hyperactivity Disorder, for minor patient A.C. The Walgreens pharmacy computer system designated this prescription no. 5487765.

4. Later that day, Matar selected the wrong drug during data entry and entered the prescription as Methylphenidate CD 10 mg, which is also a stimulant primarily used to treat Attention Deficit Hyperactivity Disorder. Pharmaceutical technician Josh Licata filled the prescription with Methylphenidate CD.

5. Matar performed the final verification of prescription no. 5487765 and failed to notice the error.

6. On April 18, 2025, patient A.C.'s mother picked up prescription no. 5487765, which was dispensed with Methylphenidate CD 10 mg.

7. Although patient A.C. had previously been prescribed Methylphenidate CD, it was for a different dosage than the one Matar selected. According to Walgreens' policy, the change in dosage requires state-mandatory counseling. However, patient A.C.'s mother was not offered or given counseling for prescription no. 5487765.

8. Patient A.C. ingested the prescription for thirty (30) days as directed by his prescriber.

9. While taking prescription no. 5487765, patient A.C. told his mother that he felt "like his brain was not working." Patient A.C.'s mother went back to prescriber B.T. to report these symptoms, and, as a result, prescriber B.T. wrote a prescription increasing the dosage to Focalin XR 20 mg.

10. On or about May 23, 2025, patient A.C.'s mother returned to Walgreens #03922 with the prescription for Focalin XR 20 mg. The Walgreens #03922 employee who was dispensing the prescription to patient A.C.'s mother asked if she required counseling, as this was a new prescription according to the Walgreens computer system. Patient A.C.'s mother stated that it should not have been a new prescription and asked what prescription drug she had been given the previous month.

11. A few minutes later, Noelle Del Rosario (Rosario), the managing pharmacist of Walgreens #03922, came to the window and told patient A.C.'s mother that there had been a

mistake in filling the prescription the previous month. Rosario told patient A.C.'s mother that prescription no. 5487765 had been dispensed with Methylphenidate CD instead of Focalin XR.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Mona Matar, RPh (Matar), Certificate of Registration No. 20104, was a pharmacist registered with the Board, and Respondent Walgreens Pharmacy #03922 (Walgreens #03922), Pharmacy License No. PH01127, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Matar was employed as a pharmacist of Walgreens #03922, located at 7599 W. Lake Mead Blvd. in Las Vegas, at the time of the events alleged herein.

3. On April 17, 2025, Walgreens #003922 received a new electronic prescription from prescriber B.T. for 40 tablets of Focalin XR 10 mg, a stimulant primarily used to treat Attention Deficit Hyperactivity Disorder, for minor patient A.C. The Walgreens pharmacy computer system designated this prescription no. 5487765.

4. Later that day, Matar selected the wrong drug during data entry and entered the prescription as Methylphenidate CD 10 mg, which is also a stimulant primarily used to treat Attention Deficit Hyperactivity Disorder. Pharmaceutical technician Josh Licata filled the prescription with Methylphenidate CD.

5. Matar performed the final verification of prescription no. 5487765 and failed to notice the error.

6. On April 18, 2025, patient A.C.'s mother picked up prescription no. 5487765, which was dispensed with Methylphenidate CD 10 mg.

7. Although patient A.C. had previously been prescribed Methylphenidate CD, it was for a different dosage than the one Matar selected. According to Walgreens' policy, the change in dosage requires state-mandatory counseling. However, patient A.C.'s mother was not offered or given counseling for prescription no. 5487765.

8. Patient A.C. ingested the prescription for thirty (30) days as directed by his prescriber.

9. While taking prescription no. 5487765, patient A.C. told his mother that he felt "like his brain was not working." Patient A.C.'s mother went back to prescriber B.T. to report these symptoms, and, as a result, prescriber B.T. wrote a prescription increasing the dosage to Focalin XR 20 mg.

10. On or about May 23, 2025, patient A.C.'s mother returned to Walgreens #03922 with the prescription for Focalin XR 20 mg. The Walgreens #03922 employee who was dispensing the prescription to patient A.C.'s mother asked if she required counseling, as this was a new prescription according to the Walgreens computer system. Patient A.C.'s mother stated that it should not have been a new prescription and asked what prescription drug she had been given the previous month.

11. A few minutes later, Noelle Del Rosario (Rosario), the managing pharmacist of Walgreens #03922, came to the window and told patient A.C.'s mother that there had been a

mistake in filling the prescription the previous month. Rosario told patient A.C.'s mother that prescription no. 5487765 had been dispensed with Methylphenidate CD instead of Focalin XR.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **KENT HOLTORF,** **Respondent.**	**CASE NO. 25-289-C-O** **STATEMENT TO THE RESPONDENT AND NOTICE OF HEARING**

TO THE RESPONDENT ABOVE-NAMED: PLEASE TAKE NOTICE THAT:

Pursuant to the authority and jurisdiction conferred upon the Nevada State Board of Pharmacy (Board) by NRS 639.2895 and NRS 233B.121-.126, *inclusive*, on or about February 20, 2026, an Order to Cease-and-Desist/Citation and Fine was served upon Respondent Kent Holtorf, owner/operator of Holtorf Medical Group, alleging violations of Nevada law as set forth herein.

FACTUAL ALLEGATIONS

1. Holtorf owns and operates Holtorf Medical Group, located at 2232 E. Maple Avenue in El Segundo, California, and is not a Nevada-licensed practitioner.

2. On or about July 11 through July 13, 2025, Holtorf operated a booth at the Revolution Against Aging and Death (RAAD) Festival at Red Rock Resort and Casino in Las Vegas.

3. Holtorf and/or employees and/or agents of Holtorf Medical Group, including without limitation Han Bao Nguyen and Michael McNeal, who are not Nevada-licensed practitioners, and Darrell Linders, who was not registered with the Board at the time of the RAAD Festival, independently purchased, stored, accessed and possessed an inventory of dangerous drugs, including hypodermic devices, without direct practitioner supervision.

4. Holtorf and/or employees and/or agents of Holtorf Medical Group, including without limitation Han Bao Nguyen, Michael McNeal and Darrell Linders, independently

accessed, possessed, compounded, furnished and/or administered dangerous drugs, including hypodermic devices, to patients, and provided on-site medical treatment at Holtorf's booth at RAAD Festival, including the administration of dangerous drugs by injection, and including, without limitation, MOTS-c 5mg, P21 2.5mg, BPC-157 2.5mg, TB4 2.5mg, Humanin, B-12, ACE-31, and CJC peptides, without direct practitioner supervision, to patients with whom no practitioner had established a bona fide therapeutic relationship, and for whom no practitioner had diagnosed or determined that a dangerous drug was medically necessary.

5. Holtorf conspired with Han Bao Nguyen, Michael McNeal and Darrell Linders, and/or other employees and/or agents of Holtorf Medical Group, to compound, furnish and/or administer dangerous drugs including the administration of dangerous drugs by injection, to patients in Las Vegas without obtaining the appropriate certificates, licenses and/or permits from the Board.

6. The investigation revealed evidence that Holtorf and/or employees and/or agents of Holtorf Medical Group, purchased drug products, including, without limitation, MOTS-c 5mg, P21 2.5mg, BPC-157 2.5mg, TB4 2.5mg, Humanin, B-12, ACE-31, and CJC peptides, through Forgotten Formula PMA. Forgotten Formula PMA, located in Justin TX, is not licensed to engage in business as a wholesaler in Nevada.

7. On or about July 12 and 13, patient C.R. received two separate injections from Holtorf's booth. On July 13, patient C.R. experienced an adverse medical reaction to the drugs and had to be intubated and transported to a local hospital by emergency medical services.

8. On or about July 13, patient A.T. received two injections from Holtorf's booth and experienced an adverse medical reaction. Patient A.T. had to be intubated and transported to local hospitals by emergency medical services.

9. On or about March 19, 2026, Holtorf appealed the Citation and Fine and requested a hearing before the Board.

NEVADA STATE BOARD OF PHARMACY, a Nevada Agency, Petitioner, vs. KENT HOLTORF, Respondent.	Case No.: 25-289-C-O

RESPONDENT'S ANSWER TO COMPLAINT

COMES NOW, Respondent KENT HOLTORF ("Respondent" or "Dr. Holtorf"), by and through his counsel of record, Chandon S. Alexander, Esq. of the SPARTACUS LAW FIRM, and in response to the Statement to the Respondent and Notice of Hearing filed by the Nevada State Board of Pharmacy ("Board") on or about April 6, 2026 (the "Complaint"), answers as follows. By filing this Answer, Respondent does not waive, and expressly preserves, all jurisdictional, constitutional, statutory, and procedural defenses, including but not limited to those set forth in the affirmative defenses below and any concurrently or subsequently filed Motion to Dismiss.

JURISDICTION

Respondent denies that the Nevada State Board of Pharmacy has subject-matter jurisdiction over Respondent or over the substances and conduct described in the Complaint.

Respondent is not now, and was not at any relevant time, licensed by the Board, registered with the Board, or otherwise required to obtain a license, certificate, or permit from the Board. Respondent is a California-domiciled professional. The substances forming the gravamen of the Complaint—MOTS-c, P21, BPC-157, TB4 (Thymosin Beta-4 fragment), Humanin, ACE-31, and CJC peptides—are not "dangerous drugs" as that term is defined in NRS 454.201, are not approved by the United States Food and Drug Administration ("FDA") for general distribution, do not bear the federally mandated "Rx only" legend, are not Gerovital H3 or amygdalin (laetrile), and have not been classified as prescription-only by Board regulation. The conduct of administering injections is not the practice of pharmacy, and is therefore outside the Board's regulatory authority under NRS Chapter 639. To the extent the Complaint purports to charge violations of NRS 200.820 and NRS 200.840, those provisions are part of Title 15 (Crimes and Punishments) and are enforceable only by the Office of the Attorney General or the appropriate district attorney; they confer no enforcement authority on the Board. The remaining allegations in the introductory paragraphs of the Complaint state only legal conclusions for which no answer is required.

RESPONSE TO FACTUAL ALLEGATIONS

1. In response to Paragraph 1, Respondent admits that he owns and operates Holtorf Medical Group, located at 2232 E. Maple Avenue in El Segundo, California, and admits that he is not a Nevada-licensed practitioner.

2. In response to Paragraph 2, Respondent admits that on or about July 11 through July 13, 2025, Holtorf Medical Group operated a booth at the Revolution Against Aging and Death (RAAD) Festival at Red Rock Resort and Casino in Las Vegas, Nevada, but otherwise denies the allegations of this paragraph.

3. In response to Paragraph 3, Respondent denies the allegations as framed. The allegations are pled in the alternative ("Holtorf and/or employees and/or agents") and fail to identify with particularity what Respondent personally is alleged to have done. Respondent denies that he personally purchased, stored, accessed, or possessed any inventory of "dangerous drugs" or hypodermic devices "without direct practitioner supervision" within the meaning of any applicable Nevada statute. Respondent further denies that the substances at issue qualify as "dangerous drugs" under NRS 454.201. Respondent lacks information sufficient to admit or deny the precise allegations regarding the licensure and registration status of Han Bao Nguyen, Michael McNeal, and Darrell Linders at the time of the RAAD Festival, and on that basis denies the same. To the extent Paragraph 3 asserts vicarious liability without any underlying predicate of personal misconduct by Respondent, Respondent denies the legal sufficiency of such allegations.

4. In response to Paragraph 4, Respondent denies the allegations. Respondent personally did not access, possess, compound, furnish, or administer any dangerous drug to any patient, did not personally perform any injection on any patient, and did not personally provide on-site medical treatment at the RAAD Festival booth in the manner alleged. Respondent further denies that the substances enumerated—MOTS-c 5mg, P21 2.5mg, BPC-157 2.5mg, TB4 2.5mg, Humanin, ACE-31, and CJC peptides—are "dangerous drugs" within the meaning of NRS 454.201. Respondent admits only that B-12 (cyanocobalamin) injection is an FDA-approved prescription drug. Respondent denies the remaining allegations of this paragraph.

5. In response to Paragraph 5, Respondent denies that he conspired with Han Bao Nguyen, Michael McNeal, Darrell Linders, or any other person to compound, furnish, or administer any dangerous drug to any patient in Las Vegas without the appropriate certificates,

licenses, or permits. Respondent denies that any "conspiracy" existed within the meaning of any applicable Nevada law.

6. In response to Paragraph 6, Respondent admits only that certain products were sourced from Forgotten Formula PMA. Respondent lacks information sufficient to admit or deny the licensing status of Forgotten Formula PMA in the State of Nevada and on that basis denies the same. Respondent affirmatively states that the substances purchased through Forgotten Formula PMA are not FDA-approved drugs, do not bear an "Rx only" legend, are not subject to USP monographs, and are not prescription drugs within the meaning of federal or Nevada law. Respondent therefore denies that any "wholesale distribution" of "prescription drugs" occurred within the meaning of 21 U.S.C. § 353(e)(1)(A), 21 CFR Part 205, or NRS 639.0155.

7. In response to Paragraph 7, Respondent admits only that on or about July 12 and 13, 2025, an individual identified by the Board as patient C.R. attended the RAAD Festival and visited Holtorf Medical Group's booth. Respondent denies that he personally administered any injection to patient C.R. Respondent lacks information sufficient to admit or deny the precise medical course of treatment patient C.R. received at the hospital following any reaction, and on that basis denies the same. Respondent denies, on the basis of available medical information, that any drug or substance administered at the booth was the proximate cause of any adverse medical reaction reported by patient C.R.

8. In response to Paragraph 8, Respondent admits only that on or about July 13, 2025, an individual identified by the Board as patient A.T. attended the RAAD Festival and visited Holtorf Medical Group's booth. Respondent denies that he personally administered any injection to patient A.T. Respondent lacks information sufficient to admit or deny the precise

medical course of treatment patient A.T. received and on that basis denies the same. Respondent denies that any drug or substance administered at the booth was the proximate cause of any adverse medical reaction reported by patient A.T.

9. In response to Paragraph 9, Respondent admits that on or about March 19, 2026, he timely appealed the Board's Order to Cease-and-Desist/Citation and Fine and timely requested a hearing before the Board.

RESPONSE TO APPLICABLE LAW (PARAGRAPHS 10–19)

The allegations of Paragraphs 10 through 19 of the Complaint state only legal conclusions and recitations of statutory text for which no answer is required. To the extent any response is required, Respondent denies the legal applicability of the cited authorities to the conduct alleged and denies that the Board's recitation of those authorities accurately characterizes the law in all material respects. Respondent specifically denies that the substances at issue are "dangerous drugs" within the meaning of NRS 454.201, that Respondent personally engaged in any conduct within the prohibitory scope of NRS 454.213, NRS 454.217, NRS 454.221, NRS 454.316, NRS 454.321, NRS 454.356, NRS 454.510, NRS 200.820, NRS 200.840, NRS 639.100, NRS 639.233, NRS 639.268, NRS 639.285, or NRS 639.595, that the federal authorities cited (21 U.S.C. §§ 360eee-1, 331(t), 353(e)(1)(A); 21 CFR Part 205) provide an enforceable predicate for Board action against Respondent under Nevada law, and that the Board has subject-matter jurisdiction to adjudicate violations of Title 15 of the NRS or violations of the federal Food, Drug, and Cosmetic Act.

RESPONSE TO COUNT ONE (PARAGRAPH 20)

In response to Count One, Respondent denies the allegations of Paragraph 20 in their entirety. Respondent denies that he personally purchased, stored, accessed, or possessed any

"dangerous drug" or hypodermic device in violation of NRS 454.213, NRS 454.316, NRS 454.510, NRS 639.100(1), NRS 639.268(1)(a), NAC 639.757(4), or NAC 639.757(5). Respondent affirmatively states that NRS 639.268(1)(a) and NAC 639.757(4) and (5) by their terms apply only to Nevada-licensed practitioners and to pharmacies, respectively, and Respondent is neither.

RESPONSE TO COUNT TWO (FIRST PARAGRAPH 21)

In response to Count Two, Respondent denies the allegations of the first Paragraph 21 in their entirety. Respondent denies that he personally compounded, furnished, or administered any dangerous drug, including by injection, to any patient at the RAAD Festival in violation of NRS 200.840(1), NRS 454.213, NRS 454.217, NRS 454.221, NRS 454.316, NRS 454.321, NRS 454.356, NRS 454.510, NRS 639.100(1), or NRS 639.285. Respondent affirmatively states that NRS 200.840(1) is a criminal statute beyond the Board's enforcement authority, NRS 454.217 applies only to neuromodulators derived from Clostridium botulinum and has no application to peptide therapies, and NRS 639.285 prohibits the sale of prescription drugs by unlicensed persons and the Complaint nowhere alleges any "sale" of any prescription drug.

RESPONSE TO COUNT THREE (SECOND PARAGRAPH 21)

In response to Count Three, Respondent denies the allegations of the second Paragraph 21 in their entirety. Respondent denies that he engaged in or aided and abetted any unlicensed wholesale distribution in violation of 21 U.S.C. § 360eee-1, 21 U.S.C. § 331(t), 21 U.S.C. § 353(e)(1)(A), 21 CFR Part 205, NRS 639.100, NRS 639.233(1), or NRS 639.595. Respondent affirmatively states that the cited federal authorities (DSCSA and the federal wholesale distribution regulations) regulate the distribution of FDA-approved prescription drugs in interstate commerce and do not, by their terms, reach the substances at issue, which are

unapproved and lack the regulatory status of "prescription drugs" or "products" within the meaning of those federal authorities.

AFFIRMATIVE DEFENSES

As separate and distinct affirmative defenses, Respondent alleges as follows:

FIRST AFFIRMATIVE DEFENSE

(Lack of Subject-Matter Jurisdiction)

The Board lacks subject-matter jurisdiction over the substances at issue because none of them is a "dangerous drug" within the meaning of NRS 454.201. NRS 454.201 defines "dangerous drug" as (1) any FDA-approved drug bearing the legend "Rx only," (2) Gerovital H3 or amygdalin (laetrile), or (3) any drug classified as prescription-only by Board regulation because the Board has found it to be dangerous to public health or safety. MOTS-c, P21, BPC-157, TB4, Humanin, ACE-31, and CJC peptides are not FDA-approved for general distribution; do not bear the "Rx only" legend; are not Gerovital H3 or laetrile; and have not been classified by Board regulation as prescription-only. As the FDA itself has acknowledged, peptides such as BPC-157, MOTS-c, TB4, and CJC-1295—having been removed from Category 2 of the interim 503A bulks list—are not currently on any FDA bulks list permitting compounding. Without a "dangerous drug" predicate, the entirety of NRS 454.213, 454.221, 454.316, 454.321, 454.356, and 639.268 cannot apply.

Further, the Board's jurisdiction extends only to the practice of pharmacy, the wholesale distribution of drugs, and related pharmaceutical activities under NRS Chapter 639. The administration of medical treatment by injection at a clinical booth—the conduct alleged—is the practice of medicine, not pharmacy, and falls within the exclusive disciplinary jurisdiction of the Nevada State Board of Medical Examiners or, where alleged criminal

conduct is at issue, the office of the Attorney General. *See* NRS Chapter 630; NRS 630.400. The Board may not arrogate to itself enforcement authority over the practice of medicine. The Nevada Legislature has assigned regulatory authority over the practice of medicine to the Board of Medical Examiners under NRS Chapter 630, not to this Board. NRS 630.020 defines the "practice of medicine" to include "diagnos[ing], treat[ing], correct[ing], prevent[ing] or prescrib[ing] for any human disease, ailment, injury, infirmity, deformity or other condition, physical or mental, by any means or instrumentality," and the application of "principles or techniques of medical science in the diagnosis or the prevention of any such conditions." NRS 630.045 vests the Board of Medical Examiners with authority to license and discipline physicians, and NRS 630.400 makes the unauthorized practice of medicine a criminal offense prosecutable by the Office of the Attorney General. NRS 639.0124, by contrast, defines the "practice of pharmacy" through enumerated subsections that concern only the handling, preparation, evaluation, and information aspects of drugs; manufacturing, compounding, labeling, dispensing, distributing, interpreting prescriptions; advising on therapeutic value, selecting drug sources, and documenting distribution. None of these subsections reaches the medical act of administering a substance to a patient as treatment, except under narrow statutory delegations to pharmacists (e.g., NAC 639.2971 governing immunizations under written physician protocol) inapplicable here.

The Complaint's own framing repeatedly betrays that the conduct at issue is the practice of medicine, not pharmacy. Paragraph 4 alleges that Respondent "provid[ed] on-site medical treatment" and that the substances were administered "to patients with whom no practitioner had established a bona fide therapeutic relationship, and for whom no practitioner had diagnosed or determined that a dangerous drug was medically necessary." Paragraphs 7

and 8 describe patients who experienced "adverse medical reaction[s]" requiring emergency intubation and hospital transport. Each of these allegations sounds exclusively in the practice of medicine. A "bona fide therapeutic relationship," "diagnosis," "medical necessity," and "treatment" are physician acts within the exclusive purview of NRS Chapter 630, not pharmacy functions within NRS Chapter 639. The Board cannot transmute medical-practice allegations into pharmacy-practice violations by appending pharmacy statutory citations. To the extent the Complaint alleges that Respondent or his agents practiced medicine in Nevada without a Nevada medical license, the appropriate enforcement forum is the Board of Medical Examiners under NRS Chapter 630 or criminal prosecution under NRS 630.400—not a Pharmacy Board enforcement action under NRS 639.2895. This Board lacks subject-matter jurisdiction to adjudicate the medical merits of Respondent's clinical conduct, and any attempt to do so would require findings on diagnosis, therapeutic appropriateness, and standard-of-care matters that fall beyond the statutory competence and expertise of a board composed predominantly of pharmacists under NRS 639.030.

SECOND AFFIRMATIVE DEFENSE

(Failure to State a Claim)

NRS 454.217 governs only the injection of "a neuromodulator that is derived from Clostridium botulinum or is biosimilar to or the bioequivalent of such a neuromodulator"—commonly known as botulinum toxin or "Botox" and its analogs. Not one of the substances at issue—MOTS-c, P21, BPC-157, TB4, Humanin, B-12, ACE-31, or CJC peptides—is derived from Clostridium botulinum or is biosimilar or bioequivalent to any such neuromodulator. NRS 454.217 has no application to this case as a matter of law, and any reliance on it must be stricken or dismissed.

NRS 200.840 is a criminal statute located in Title 15 of the NRS (Crimes and Punishments) and prohibits the unlicensed performance of a "surgical procedure" as a category C felony, prosecutable only by the Attorney General or appropriate district attorney. The Nevada State Board of Pharmacy has no authority to enforce, charge, or adjudicate violations of NRS 200.840 or its definitional companion NRS 200.820. Even if the Board possessed enforcement authority, which it does not, the legislative intent of NRS 200.820 and 200.840 was directed at unlicensed persons performing cosmetic and invasive surgical procedures, not at routine therapeutic injections, which are administered every day across Nevada by licensed registered nurses, medical assistants, and other healthcare workers under appropriate supervision. Construing "any minimally invasive medical procedure where a break in the skin is created" to encompass every therapeutic injection would render countless lawful clinical activities felonies and is plainly contrary to legislative intent.

NRS 639.268(1)(a) governs the conditions under which a Nevada-licensed practitioner may purchase supplies of dangerous drugs for office administration to patients. By its terms, the statute applies only to Nevada-licensed practitioners. Respondent is not a Nevada-licensed practitioner and therefore is not subject to the requirements of NRS 639.268(1)(a). The Board cannot fault Respondent for failing to comply with a statutory framework that, by its plain terms, does not apply to him.

NAC 639.757 governs "preparation and sale of compounded drugs by pharmacy or pharmacist." Subsections (4) and (5) impose conditions on compounding by pharmacies and pharmacists. Respondent is not a pharmacy and is not a pharmacist. He owns and operates a medical practice, not a pharmacy. NAC 639.757 has no application to him as a matter of law.

NRS 639.285 prohibits an unlicensed person from "sell[ing], display[ing] or offer[ing] for sale a prescription drug." The Complaint nowhere alleges that Respondent sold any prescription drug to any consumer. The conduct alleged—on-site administration of substances during medical consultations—does not constitute a "sale" of a prescription drug within the meaning of NRS 639.285. The provision of medical services that include the administration of substances is materially distinct from the sale of those substances at retail.

THIRD AFFIRMATIVE DEFENSE

(Federal Preemption)

The federal Food, Drug, and Cosmetic Act, 21 U.S.C. § 301 *et seq.*, vests in the FDA primary jurisdiction over the regulation of new drugs, including unapproved peptides, and over the bulk drug substances permitted for compounding under Sections 503A and 503B. The FDA has expressly considered the substances at issue (or substances within their class) and has, as of April 2026, removed BPC-157, MOTS-c, TB4, and CJC-1295 from Category 2 of the interim 503A bulks list, with PCAC review pending. State boards may not second-guess or impose disciplinary consequences inconsistent with the FDA's evolving regulatory determinations on these substances. To the extent the Board's enforcement action conflicts with or stands as an obstacle to the federal regulatory scheme governing unapproved drugs and compounding, the Board's action is preempted by federal law under the Supremacy Clause, U.S. Const., art. VI, cl. 2.

The Drug Supply Chain Security Act, 21 U.S.C. § 360eee-1, and the federal wholesale distribution provisions, 21 U.S.C. § 353(e)(1)(A) and 21 CFR Part 205, regulate the distribution of FDA-approved prescription drugs and "products" as those terms are defined in federal law. The substances at issue are not FDA-approved prescription drugs and do not

constitute "products" within the meaning of the DSCSA. The Board's attempt to predicate state disciplinary action on alleged violations of these federal authorities exceeds the scope of those federal authorities and is therefore preempted to the extent it conflicts with the federal regulatory scheme.

FOURTH AFFIRMATIVE DEFENSE

(Void for Vagueness)

NRS 454.201 is unconstitutionally vague as applied to the conduct charged. Subsection (3) of NRS 454.201 reaches "[a]ny drug which, pursuant to the Board's regulations, may be sold only by prescription because the Board has found those drugs to be dangerous to public health or safety," but the Complaint does not identify any Board regulation classifying any of the peptides at issue as a "dangerous drug." Without an underlying regulation, a person of ordinary intelligence has no way of knowing what substances are "dangerous drugs" beyond the FDA-approved drugs identified in subsection (1) and the two specific substances named in subsection (2). The statute thus fails to provide fair notice and invites arbitrary and discriminatory enforcement, in violation of the Due Process Clause of the Fourteenth Amendment and Article 1, Section 8 of the Nevada Constitution. The Board's effort to expand the definition of "dangerous drug" by litigation, without rulemaking, is itself a void-for-vagueness problem.

To the extent the Board relies on the broader definition of "drug" in NRS 639.007, that statute is unconstitutionally vague as applied. Subsections (2) and (3) of NRS 639.007 extend to "[a]rticles and devices intended for use in the diagnosis, cure, mitigation, treatment or prevention of disease in humans or other animals" and "[a]rticles, other than food, aspirin and effervescent saline analgesics, intended to affect the structure or any function of the body of

humans or other animals." The statute provides no definition of "intended," no guidance as to whose intent governs (the manufacturer's, the seller's, the prescriber's, the user's), and no objective standard for how intent is to be proven. Read literally, these provisions could reach water, exercise equipment, and innumerable other "articles." Without limiting principles, the statute fails to provide ordinary persons fair notice of what it prohibits and invites arbitrary, discriminatory, and viewpoint-based enforcement. To the extent the Board relies on NRS 639.007 to bootstrap jurisdiction over substances that fall outside the narrower "dangerous drug" definition of NRS 454.201, that reliance violates due process.

FIFTH AFFIRMATIVE DEFENSE

(No Personal Misconduct or Vicarious Liability)

The Complaint pleads in the alternative that "Holtorf and/or employees and/or agents" engaged in the alleged misconduct. Respondent did not personally perform or authorize any of the injections alleged. Respondent did not personally administer or authorize the administration of any substance to patient C.R., patient A.T., or any other patient at the RAAD Festival. To the extent the Board seeks to impose discipline on Respondent under a theory of vicarious liability, that approach is impermissible in a disciplinary proceeding, where personal participation in misconduct is required as a matter of due process and statutory construction. The Board's burden is to prove by a preponderance of admissible evidence that Respondent personally engaged in conduct violating Nevada law. Respondent denies any such personal conduct.

SIXTH AFFIRMATIVE DEFENSE

(Failure to Provide Adequate Notice — Due Process)

The Complaint violates Respondent's right to procedural due process under the Fourteenth Amendment to the United States Constitution and Article 1 of the Nevada Constitution by failing to provide adequate notice of the charges against him. The Complaint alleges in the alternative against Respondent and unidentified "employees and/or agents," fails to specify which acts Respondent personally is alleged to have committed, fails to identify a single Board regulation classifying the substances at issue as "dangerous drugs," and recites a litany of statutes—including criminal statutes (NRS 200.840) and statutes that by their terms do not apply to Respondent (NRS 454.217, NRS 639.268)—without explaining how Respondent's conduct violates each. *See Mathews v. Eldridge*, 424 U.S. 319, 335 (1976); *Potter v. State Bd. of Med. Examiners*, 101 Nev. 369, 371, 705 P.2d 132, 134 (1985).

SEVENTH AFFIRMATIVE DEFENSE

(Violation of Nevada Administrative Procedure Act)

The Complaint fails to comply with NRS 233B.121(1)(d), which requires that notice of a hearing in a contested case include "a short and plain statement of the matters asserted." The Complaint's pattern of pleading in the alternative against Respondent and unidentified third parties, its reliance on inapplicable statutes, and its failure to identify the specific factual basis for each cited statutory violation render the proposed disciplinary action procedurally defective.

EIGHTH AFFIRMATIVE DEFENSE

(Lack of Causation)

To the extent the Board relies on the adverse medical reactions experienced by patient C.R. and patient A.T. as evidence of misconduct or as a basis for enhanced sanctions, Respondent denies that any substance administered at Holtorf Medical Group's booth was the

proximate cause of those reactions. Respondent affirmatively states that the Board's own investigation, as reported in contemporaneous press accounts, was "unable to determine the exact cause of the reaction[s]." Without proof of causation, the adverse-reaction allegations cannot support enhanced discipline.

NINTH AFFIRMATIVE DEFENSE

(No License to Discipline)

Respondent is not a Board licensee. The Board does not hold any license, certificate, or registration belonging to Respondent that it may suspend, revoke, or restrict. Any civil penalties imposed must be supported by adequate factual findings, must be proportionate, and must be founded on a determination that Respondent in fact engaged in conduct requiring a Board license—a finding that cannot be made on the present record because the conduct alleged (medical injection) does not require a Board license but rather a license from the Board of Medical Examiners.

TENTH AFFIRMATIVE DEFENSE

(Disproportionate Sanction)

Any monetary penalty or other sanction imposed by the Board would be disproportionate to the alleged conduct, particularly in light of the FDA's evolving regulatory posture on the peptides at issue, the lack of proof of causation as to adverse reactions, the absence of personal misconduct by Respondent, Respondent's good-faith belief that the substances were lawfully obtainable and lawfully administrable in the manner conducted, and Respondent's cooperation with the Board's investigation.

ELEVENTH AFFIRMATIVE DEFENSE

(Reservation of Affirmative Defenses)

Respondent reserves the right to amend this Answer to add additional affirmative defenses, including but not limited to estoppel, laches, ripeness, mootness, primary jurisdiction, and statute of limitations, as discovery and investigation of the Board's claims may warrant.

PRAYER FOR RELIEF

WHEREFORE, Respondent prays for relief as follows:

1. That the Board take nothing by way of the Complaint;

2. That the Complaint and Notice of Hearing be dismissed with prejudice;

3. That the hearing scheduled for June 3, 2026 be vacated;

4. In the alternative, that all counts and statutory predicates that fail to state a claim—including all references to NRS 200.840, NRS 200.820, NRS 454.217, NRS 639.268(1)(a), NAC 639.757(4)–(5), and NRS 639.285—be stricken or dismissed;

5. In the alternative, if the Board determines that some form of discipline is warranted, that such discipline be limited to the minimum permissible sanction, as more severe sanctions would be disproportionate and unsupported by the evidence;

6. That Respondent be awarded his reasonable fees and costs to the fullest extent permitted by law;

7. For any such other and further relief as the Board may deem just and proper in this case.

Dated this 4th day of May, 2026.

Subject: Case No. 25-470-O, Unlicensed Wholesaling of Medical Devices

Oxus America, Inc. acknowledges receipt of your letter **RE: CEASE & DESIST/CITATION & FINE: Case No. 25-470-O, Unlicensed Wholesaling of Medical Devices**, dated December 10, 2025. Oxus is submitting this written response to appeal this Cease & Desist, Citation, and Fine by request of a hearing with the Board's Reno Office.

Specifically, the State of Nevada Board of Pharmacy claim that *"Oxus sold and/or shipped Stationary Sieve Replacements in Reno, Nevada from its Michigan Facility. This device qualifies as a prescription only medical device under NRS 639.007 and 639.016 because it is restricted by federal law to sale by or on the order of a licensed healthcare provider."*

The US FDA has released the guidance document, *Remanufacturing of Medical Devices: Guidance for Industry, Entities That Perform Servicing or Remanufacturing, and Food and Drug Administration Staff*, dated May 10, 2024. Many medical devices are reusable and need preventive maintenance and repair during their useful life. For these devices, proper servicing is critical to their continued safe and effective use. Servicing is the repair and/or preventive or routine maintenance of one or more parts in a finished device, after distribution, for purposes of returning it to the safety and performance specifications established by the OEM and to meet its original intended use. Specific to oxygen concentrators, the Stationary Sieve Replacements are a standard service repair part and are not remanufacturing; therefore, they are not a prescription only medical device.

Oxus America, Inc. disagrees with the State of Nevada Board of Pharmacy claim that this product qualifies as a prescription only medical device under NRS 639.007. The subject product, supplied by Oxus America, Inc, is a repair part and not a finished medical device. The subject repair part is not intended for use in the diagnosis, cure, mitigation, treatment of prevention of a disease. The subject repair part does not require a prescription to be sold and is not shipped or sold to end user patients.

The subject repair part is shipped and sold to medical products providers that employ trained technicians to repair medical products. The subject repair part is equivalent to the replacement of any other defective or worn item to service the medical product (e.g. a

caster wheel replacement for one that is broken, replacement of a housing that has been cracked, etc.). The subject repair part is specifically intended to replace an identical component of the EverFlo oxygen concentrator that is defective or worn. Replacement of these parts restores the function of the device without changing its performance, safety characteristics, or intended use.

Oxus America, Inc. disagrees with the State of Nevada Board of Pharmacy claim that Oxus America, Inc. is a “wholesaler” as defined by NRS 639.016 or “Medical products wholesaler” as defined by NAC 639.6937. Oxus America, Inc. does not sell, lease or otherwise provide medical products to a health care facility, agency, practitioner or provider in the State of Nevada. The subject product does not meet the definition of the term “drug” under NRS 639.007; therefore, Oxus America Inc. does not distribute prescription drugs or devices into the State of Nevada. The subject product, supplied by Oxus America, Inc, is a repair part and not a finished medical device.

Oxus America, Inc. respectfully requests Case No. 25-470-O rescinded without undue delay. If an expedited withdrawal is not possible, please extend the 30-day payment of the fine until resolution can be reached. If further questions or clarifications are requested by the State of Nevada Board of Pharmacy, please contact me directly at rlenarcic@oxusamerica.com or 248-709-0490.

Thank you for your prompt response to this matter.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **OXUS AMERICA, INC,** **Respondent.**	**Case Nos. 25-470-O** **STATEMENT TO THE RESPONDENT AND NOTICE OF HEARING**

TO THE RESPONDENT ABOVE-NAMED, PLEASE TAKE NOTICE THAT:

On or about December 15, 2025, pursuant to NRS 639.2895, the Nevada State Board of Pharmacy (Board) issued a Cease-and-Desist/Citation-and-Fine (Citation) to Oxus America, Inc. (Oxus). On December 18, 2025, Oxus requested a hearing before the Board pursuant to NRS 639.2895(2). For purposes of the hearing, it is alleged that:

FACTUAL ALLEGATIONS

1. Oxus is a company that specializes in medical devices and gas separation technology. Oxus is located at 175 Kay Industrial Drive, Orion Township, Michigan.

2. Oxus is ISO 13485 certified. ISO 13485 is the internationally recognized standard for quality management systems in the design and manufacture of medical devices.

3. Oxus is also a U.S. Food and Drug Administration (FDA) registered manufacturer.

4. Oxus sold and/or shipped Stationary Sieve Replacements in Reno, Nevada from its Michigan facility.

5. Stationary Sieve Replacements incorporate molecular sieve technology and are intended to replace an identical component of an oxygen concentrator. Molecular sieve technology separates oxygen from carbon dioxide and nitrogen.

6. Stationary Sieve Replacements are shipped and sold only to medical products providers. A trained technician must install the Stationary Sieve Replacement.

7. Mui Lee, the Board's investigator, conducted a routine inspection of Bennett Medical Services, also known as Adapt Health. During her inspection, Inspector Lee discovered an invoice from Oxus for Stationary Sieve Replacements.

8. Inspector Lee attempted to contact Oxus to inquire about the invoice; however, no representatives responded to phone calls or emails.

9. Oxus received the Board's citation on or about December 15, 2025. The Board cited Oxus for engaging in the unlawful wholesale distribution of prescription only drugs without the required Nevada wholesale license.

10. On December 18, 2025, Oxus submitted an appeal arguing that the Stationary Sieve Replacements are not prescription devices as they are just a repair component of an oxygen concentrator. Oxus also disagreed that it is a wholesaler as defined by Nevada regulations.

APPLICABLE LAW

11. Any person, including a wholesaler or manufacturer, who engages in the business of wholesale distribution or furnishing controlled substances, poisons, drugs, devices or appliances that are restricted by federal law to sale by or on the order of a physician to any person located within this State shall obtain a license. NRS 639.233, NAC 639.6942.

12. Pursuant to NRS 639.016, a "wholesaler" includes any person or business that distributes drugs or devices that are restricted by federal law to sale by or on the order of a physician to a person other than the consumer or patient.

13. "Medical products wholesaler" means a person who sells, leases, or otherwise provides medical products to a health care facility, agency, practitioner or provider in Nevada. NAC 639.6937

14. The term "drug" includes "articles and *devices* intended for use in the diagnosis, cure, mitigation, treatment or prevention of disease" including "articles intended for use as a *component* of any article specified." (*italics* added). NRS 639.007. Similarly, 21 U.S.C. § 321(h)(1) defines a "device" to include any instrument, apparatus, or other similar or related

article, including any *component, part, or accessory,* that is intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease, or that is intended to affect the structure or any function of the body (emphasis added).

15. "Medical products" includes medical devices, equipment, supplies and gases intended for use in the diagnosis, cure, mitigation, treatment or prevention of disease. NAC 639.6935. It also includes "medical devices, equipment, supplies or gases" which are governed by any other board or agency other than the Board of Pharmacy.

16. The FDA is a U.S. government agency under the Department of Health and Human Services.

17. An oxygen concentrator is a "device" as that term is defined at 21 U.S.C. § 321(h). The product's purpose is for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment, or prevention of disease, in man or other animals.

18. Oxygen concentrators are "prescription devices" within the meaning of 21 CFR § 801.109. Oxygen concentrators incorporate molecular sieve technology to separate oxygen from carbon dioxide and nitrogen.

19. Devices that use molecular sieve technology are categorized by the FDA as class II medical devices. *See* 21 CFR § 868.5440. This means that they may not be sold at retail except pursuant to a prescription. *See* 21 CFR § 860.3; 21 CFR § 801.109.

20. Under both state and federal law, the term "device" means and includes the component parts of the device. *See* NRS 639.007; 21 U.S.C. § 321(h)(1). By definition, if an oxygen concentrator may not be sold at retail without a prescription, its component parts may not be sold at retail without a prescription.

COUNT ONE

Violation of State Law: Wholesale Distribution in Nevada without a License

21. The Stationary Sieve Replacement is an FDA regulated component that is critical to the prescription-only oxygen concentrator. Because the component materially impacts physician-prescribed oxygen therapy and is not safe for use without professional installation, it is restricted to prescription use.

22. Respondent engaged in wholesale distribution into Nevada of an FDA regulated component device without first obtaining a license required by NRS 639.233 and NAC 639.593.

23. Because of these actions, Respondent unlawfully engaged in wholesale distribution within the state. NRS 639.100(1), 21 U.S.C. § 353(e)(l)(A) and/or 21 CFR Part 205.

24. Having engaged in unlawful conduct as alleged above, Respondent is subject to an administrative fine of $5,000. NRS 639.100(1); NRS 639.2895.

25. In addition to collecting the $5,000 fine as authorized by NRS 639.2895, the Board may recover its costs of investigation and prosecution pursuant to NRS 622.400.

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 639.2895(2); NRS 233B.127(3). You have the right to a hearing before the Board to answer the allegations and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.127(3); NRS 622A.300(1) and (3). If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NRS 622.400(1).

The Board has scheduled your hearing on this matter for March 4, 2026, at 9:00 a.m. or soon thereafter. The hearing will occur at the Hilton Garden Inn, 7830 South Las Vegas Boulevard, Las Vegas, Nevada 89123.

Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. You may request and the Board may at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session. NRS 241.030 and NRS 241.033.

Re: Case No. 25-470-O (Oxus America, Inc.)

Dear Greg:

Thank you again for your time last week to discuss the above citation issued by the Board of Pharmacy to Oxus America, Inc. ("Oxus"), as well as your follow-up email dated February 18, 2026, indicating that the hearing in the above matter was continued to April 15, 2026. On behalf of Oxus, I am confirming the new date.

I also appreciate your willingness to discuss Oxus' position with the Executive Director. As an initial matter, Oxus is committed to operating in a compliant manner and takes its regulatory obligations very seriously. Oxus has been in operation for more than 16 years and is proud of its long-standing commitment to supply high-quality aftermarket components to customers that principally include service and repair technicians, medical part distributors and health systems that supply certain brands of oxygen concentrators to end users. As we discussed, Oxus does not manufacture, sell or distribute finished medical devices to customers or end users; instead, it supplies replacement service components (such as the sieve at issue here) that its customers then use to service finished products manufactured and distributed by third parties such as Invacare, Respironics and DeVilbiss.

Nor does Oxus currently manufacture or distribute any medical devices regulated by the FDA. All products in Oxus' current product portfolio are aftermarket replacement products that do not require a prescription. Further, the activities undertaken by Oxus to produce the replacement sieve at issue do not constitute "manufacturing" or "remanufacturing" of a finished device as would require a new 510(k) submission, clearance by FDA, and distribution to end users only with a prescription. In its final guidance document, Remanufacturing of Medical Devices: Guidance for Industry,

Entities That Perform Servicing or Remanufacturing, and Food and Drug Administration Staff, dated May 10, 2024, FDA provided examples of regulated remanufacturing of medical devices vs. servicing or reconditioning of components of medical devices.[1] One example provided by FDA is instructive and informs Oxus' view that (1) its activities do not constitute regulated remanufacturing; and (2) the replacement sieve product at issue does not require a prescription because the component is only for use within a regulated finished product and does not introduce new risks or functions that would require practitioner supervision:

Remanufacturing of Medical Devices: Guidance for Industry, Entities That Perform Servicing or Remanufacturing, and Food and Drug Administration Staff (May 10, 2024), p. 25.

Oxus' sieve product is very similar (if not identical) to replacement sieves distributed by various other aftermarket component suppliers and by the finished product manufacturers too. To Oxus' knowledge, none of those suppliers' replacement sieve

[1] See https://www.fda.gov/regulatory-information/search-fda-guidance-documents/remanufacturing-medical-devices.

products are subject to a 510(k) or require a prescription, principally because the sieve products are not intended to be sold and distributed directly to end users. Oxus is sensitive to this distinction, as prior to 2024 Oxus sold a sieve product covered by a 510(k) that was replaceable by end user patients. However, this particular product (510(k) K211056) was discontinued by Oxus in 2024 and is no longer commercially available.

We note that the Board's December 1, 2025 Inspection Violation Form indicates that the Board considered an "invoice showing that the entity shipped 'Rx Only' product into Nevada" and that the inspector was to secure "confirmation that the item sold are 'Rx Only' products by either taking a photo of the product indicating "Rx Only" or by confirming through the AccessGUDID database. However, Oxus' sieve product does not bear an "Rx Only" legend on its packaging (because it is a non-prescription product) and the GUDID database entry for the Oxus sieve product relates to the sieve product that was discontinued in 2024. Is it possible that the Board inspector believed that the product referred to in the GUDID entry was the same as the product described in the invoice? Those are two different products.

Because the Oxus replacement sieve product is not a prescription only product and is not sold directly to patient end users, Oxus respectfully submits:

1. That the replacement sieve product at issue is not a prescription only medical device under NRS 639.007 or 639.106;

2. It is not engaging in wholesaling activities as would require it to obtain licensure as a wholesaler under NRS 639.233.

******

On behalf of Oxus, we appreciate your attention to these matters and your consideration of the above information. If you have additional questions, please do not hesitate to contact me directly.

Respectfully submitted,

Mark A. McAndrew

Chapter 2. WARNINGS & CAUTIONS

Warnings and cautions are used throughout this manual to identify possible safety hazards, conditions that may result in equipment or property damage, and important information that must be considered when performing service and testing procedures on the EverFlo Oxygen Concentrator. Please read this section carefully before servicing the EverFlo Oxygen Concentrator. Additional Warning and Cautions can be located in the EverFlo User Manual.

WARNING
Warnings indicate the possibility of injury to people.

CAUTION
Cautions indicate the possibility of damage to equipment.

2.1 WARNINGS

WARNINGS
• For proper operation, your concentrator requires unobstructed ventilation. The ventilation ports are located at the top and bottom of the rear cabinet. Keep the device 6 to 12 (15 to 30 cm) inches away from walls that could impede adequate airflow to the device. Always make sure that these areas are not obstructed by items, which may impede ventilation. Do not place concentrator in a small closed space. • Servicing of this device must be referred to an authorized and trained Respironics home care provider. • Oxygen generated by this concentrator is supplemental and should not be considered life supporting or life sustaining. In certain circumstances, oxygen therapy can be hazardous; any user should seek medical advice prior to using this device. • Oxygen vigorously accelerates combustion and should be kept away from heat or open flame. Not suitable for use in the presence of a flammable anesthetic mixture with air, with oxygen, or with nitrous oxide. • Do not smoke or allow others to smoke or have open flames near the concentrator when it is in use. • Do not use oil or grease on the concentrator or its components as these substances, when combined with oxygen, can greatly increase the potential for a fire hazard and personal injury. • Do not use the concentrator if either the plug or power cord is damaged. Do not use extension cords or electrical adaptors. • Do not attempt to clean the concentrator while it is plugged into an electrical outlet.

WARNINGS
• Avoid handling the molecular sieve material. Respironics recommends the return of the sieve canister assembly to Respironics for any service that involves sieve disposal. • Use extreme caution when handling the compressor capacitor as it holds an electrical charge until is it properly discharged. • Device operation above or outside of the voltage, LPM, temperature, humidity and/or altitude values specified may decrease oxygen concentration levels. • If the EverFlo Oxygen Concentrator has been subjected to sub-freezing temperatures for an extended period, it should be allowed to warm up to the stated operating temperatures before power up. Failure to do so could result in improper performance and or alarm conditions until the device reaches normal operating temperatures.

2.2 CAUTIONS

CAUTIONS
• U.S. federal law restricts this device to sale by or on the order of a physician. • Do not place liquids on or near the device. • If liquid is spilled on the device, turn the power off and unplug from electrical outlet before attempting to clean up a spill. • When using liquid leak detector, be careful not to allow it to contact electrical parts. • Make sure connections of fittings, tubing, and hoses are secure. • Be cautious when using thread sealants because they can cause extensive damage to the internal parts of the device if allowed within tubing or fittings.

Each EverFlo unit is measured in the factory with an Oxygen Analyzer that measures oxygen concentration with an accuracy specification of +/- .1 %. When using an Oxygen Analyzer with an accuracy specification of +/- 2 % to test the Oxygen Concentration for an EverFlo Oxygen Concentrator, you may receive inaccurate readings below the acceptable pass criteria for the device. This 2% offset should be taken in to consideration when determining if the EverFlo is functioning properly. A more accurate Oxygen Analyzer may also be used for a more precise measurement of the oxygen purity. As an example, a unit could be measured in the factory with the +/- 1% Oxygen Analyzer to measure 91.1%. If this same unit is then measured with a +/- 2% Oxygen Analyzer, the reading could display a result of 89.1%. With the +/- 2% Oxygen Analyzer, it may inaccurately look like the unit falls below the 90-95.5% specification, when in fact the unit is within specification.	

Refer to User Manual (1041063) for classification, standards compliance, and EMC requirements.

Chapter 4. THEORY OF OPERATION

This section describes the theory of operation for the EverFlo Oxygen Concentrator.

4.1 PNEUMATIC OPERATION

Refer to Figure 4-1 while reading the following discussion.

The room air is drawn into the unit through the air inlet filter by the compressor. The compressed air is routed to the sieve beds through an electronically controlled Solenoid Valve Assembly. The Solenoid Valve alternates the airflow to a pair of sieve beds that allows Oxygen production. The Solenoid Valve Assembly also alternates the flow through the sieve beds to allow purging of the Nitrogen molecules from the sieve beds.

At startup, the valve/solenoid is de-energized allowing compressed air to flow through both sieve beds until the pressure sensor builds up to switching pressure. At switching pressure, a 12-volt signal is received at the valve/solenoid closing off the input and allowing the compressed air to cycle through one of the sieve beds. As the air is cycled through one of the sieve beds, the molecular sieve material traps the Nitrogen molecules from the air and allows the Oxygen enriched air to flow through the sieve bed.

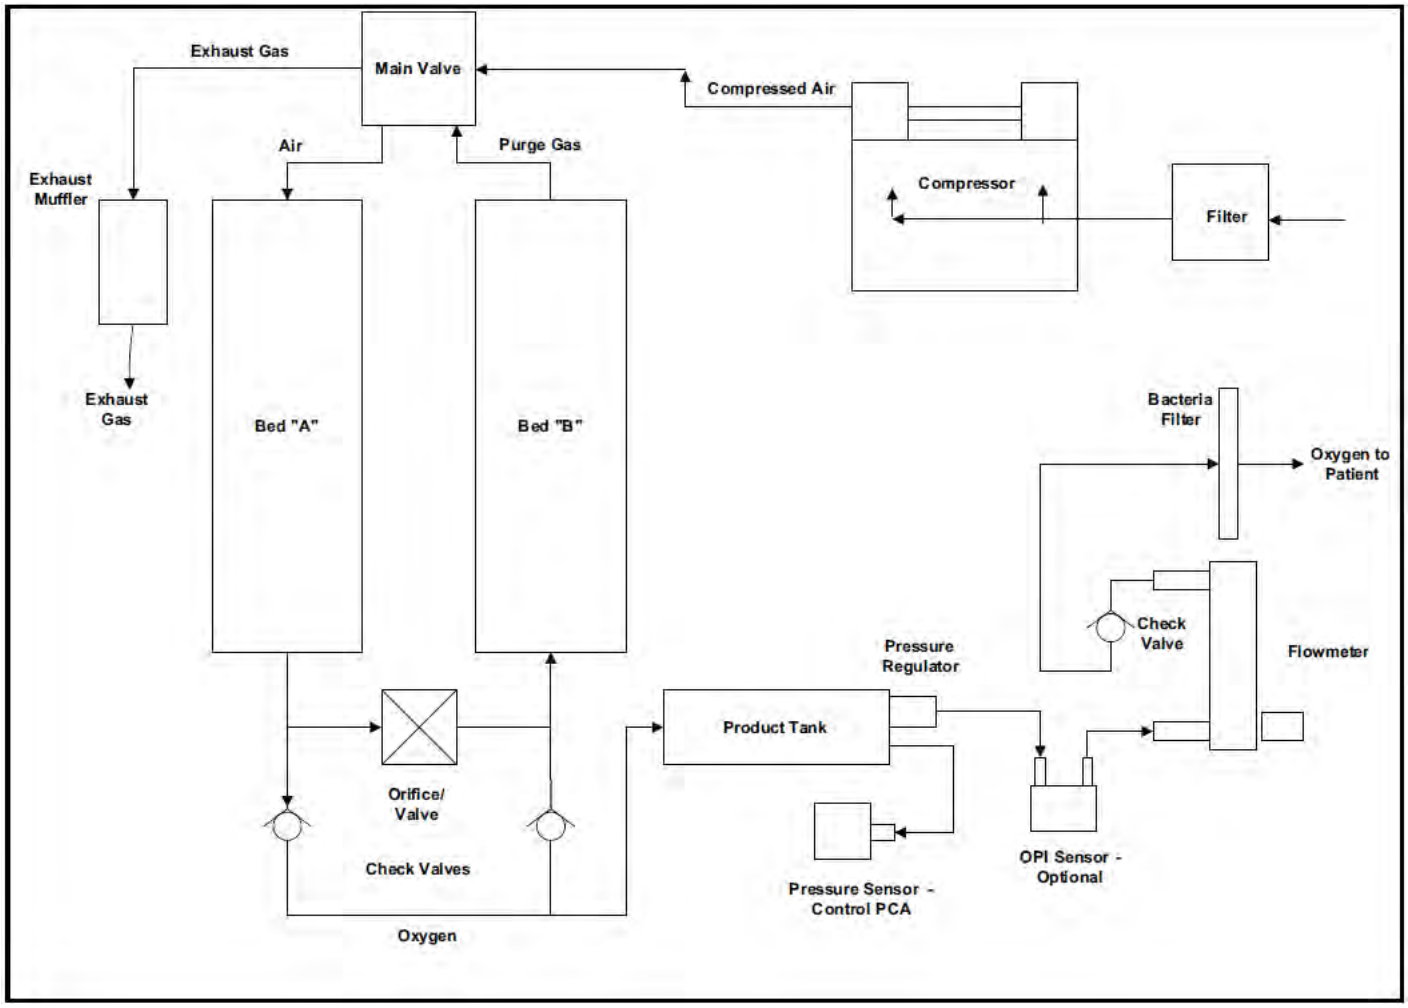
At 5 liters of flow, approximately 1/3 of the Oxygen enriched air enters the product tank and the other 2/3 of the Oxygen enriched air is passed through an orifice in the sieve bed to purge the trapped Nitrogen molecules from the sieve bed, allowing the sieve material to be ready for Oxygen production during the next cycle.

The concentrated Oxygen is stored in the product tank. The product tank is continuously filled with concentrated Oxygen and the output from the product tank is regulated at 5.5 psig nominal. The product tank pressure is continuously monitored using a pressure sensor. The stored Oxygen is delivered to the patient through a pressure regulator, an externally adjustable flow meter and a microbial filter.

NOTE

In the beginning, the 230V units, had an orifice built into the purge valve. The electronically controlled purge valve controls the Oxygen flow timing from one sieve bed to the other based on the flow meter setting.

Figure 4-1: Pneumatic Block Diagram (Non-O2 Piloted)



4.2 ELECTRICAL OPERATION

The EverFlo Concentrator is a medical device, which produces concentrated oxygen from room air for delivery to a patient. It uses a molecular sieve and a pressure swing adsorption process to concentrate oxygen from air. The device consists of filters, a compressor, a sieve canister module, a set of valves, a microprocessor-based electronic controller PCA, a flow meter and a cooling fan – all contained within a plastic enclosure.

The EverFlo Embedded Software—via the microprocessor contained on the PCA Controller—controls the sieve valves used to generate the oxygen, measures/monitors the pressure & oxygen levels, drives the Elapsed Time counter (Hour meter), reports exception conditions to the User via visual and audible indicators and provides diagnostic information to a Host computer via an RS232 communications interface.

4.3 PCA CONTROLLER OVERVIEW

All the electric / electronic functions of the EverFlo Concentrator reside on the PCA Controller. A block diagram of the PCA controller is provided in Figure A. The reader is urged to continually refer to this diagram when reading the remaining sections of this document.

The PCA controller can be sub-divided into 2 major sections:

1. Power distribution and DC voltage generation.
2. Monitoring / Control / User Interface.

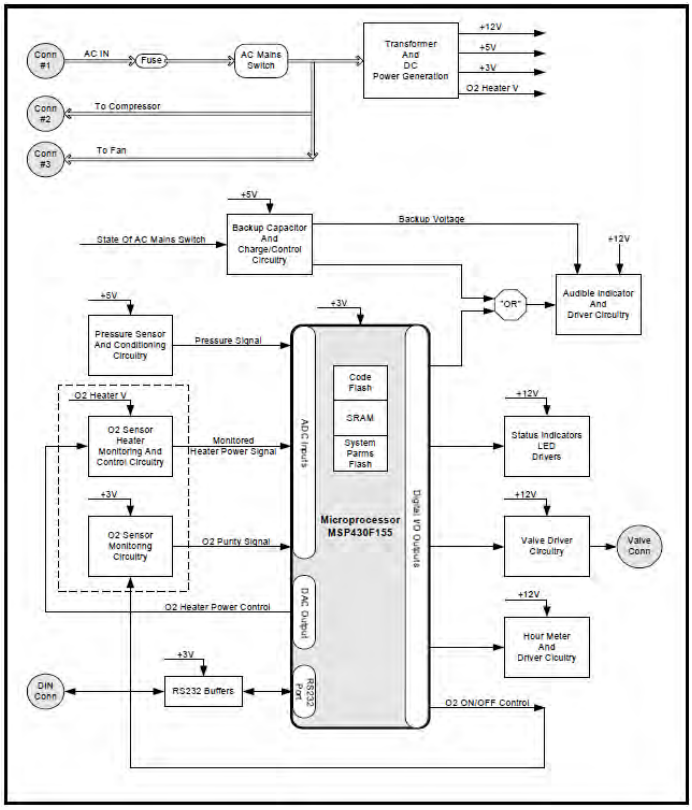


Figure 4-2: EverFlo PCA Controller Block Diagram

4.3.1 POWER

The AC mains power, via the line cord, is brought onto the PCA and the “switched” AC is distributed to the Compressor, the Cooling Fan and to the AC to DC conversion module. The DC voltages that are generated are used to power the remaining circuitry.

The PCA contains a 1 Farad “super capacitor” which is used to sound the Audible Indicator when the AC mains power is absent AND the mains switch is in the ON position. The purpose is to alert the User to the fact that there has been a loss of AC mains power (that is, an AC mains power failure, a plug removal, a blown fuse). The circuitry functions as follows:

1. During normal operation, the capacitor is energized (charged) using the +5 VDC. The capacitor reaches full charge after approximately ½ hour of system on-time.
2. The mains switch has a 2nd set of contacts that are used to determine whether the switch is open or closed. If the switch is closed (in the ON position) and the microprocessor is not functional (no DC power), then the backup circuitry is such that it will turn on the Audible Indicator, using the “super cap” as its energy source.

The “super cap” is capable of sounding the Audible Indicator for a period of greater than 8 minutes, given that it is fully charged.

4.3.2 MICROPROCESSOR AND ASSOCIATED CIRCUITRY

The remainder of the PCA controller electronics is centered around the MSP430F155 microprocessor. The microprocessor is the only processing element contained in the EverFlo concentrator. In addition to the microprocessor, the “remaining circuitry” consists of sensors, LEDS, a piezo Audible Indicator, amplifiers / signal conditioners, communication buffers and discrete components.

The embedded software, in conjunction with the microprocessor and its associated hardware, is used to control the sieve valves, measure/monitor the pressure & oxygen levels, control the oxygen sensor, drive the Hour meter, reports exception conditions to the User via visual and audible indicators and provide diagnostic information to a Host computer via an RS232 communications interface.

Chapter 5. SYSTEM SETUP

NOTE
Please refer to the appropriate User Manual for additional information.

5.1 INTRODUCTION

This section provides information regarding setup and operation of the EverFlo Oxygen Concentrator as needed for servicing, repairing, and testing the device.

5.2 SYSTEM SETUP PROCEDURES

1. Select a location that allows the concentrator to draw in room air without being restricted. Make sure that the device is at least 6 to 12 inches (15 to 30 cm) away from walls, furniture, and especially curtains that could impede adequate airflow to the device. Do not place the device near any heat source.
2. Plug the EverFlo Oxygen Concentrator into an electrical outlet.
3. If you are NOT using a humidifier, connect the cannula to the EverFlo Oxygen Outlet Port, as shown below. Proceed to step 4.

4. If you are using a humidifier follow these steps:
   a. Open the filter door on the back of the device.
   b. Remove the humidifier connector tube from the back of the filter door and replace the filter door.
   c. Fill the humidifier with water following the manufacturer's instructions.
   d. Mount the filled humidifier on the top of the EverFlo device inside the velcro strap.
   e. Tighten the velcro strap around the bottle and secure it so it is held firmly in place.
   f. Connect the humidifier connector tube (that you retrieved from the filter door) to the Oxygen Outlet Port.
   g. Connect the other end of the humidifier connector tube to the top of the humidifier with the elbow in the tubing facing the front.
   h. Connect your cannula to the humidifier bottle according to the humidifier bottle manufacturer's specifications.

5. Press the power switch to the On [I] position. Initially, all the LEDS will illuminate and the audible alert will sound for a few seconds. After that time, only the green LED should remain lit. You can begin breathing from the device immediately even though it typically takes 10 minutes to reach oxygen purity specifications. The device normally takes 10 minutes to reach oxygen purity specifications.
6. Adjust the flow to the proper setting by turning the knob on the top of the flow meter until the ball is centered on the line marking the specific flow rate.
7. Be sure oxygen is flowing through the cannula. If it is not, refer to the Troubleshooting section of this manual.
8. When you are not using the oxygen concentrator, press the power switch to the Off [O] position.

Chapter 6. MAINTENANCE

6.1 DEALER ROUTINE MAINTENANCE

This section describes scheduled and routine maintenance procedures. Normal routine maintenance involves periodic checking, cleaning, and or replacing the following items as necessary:

- Inlet Filter
- Micro-Disk Filter
- Cabinet cleaning
- LPM flow setting to the prescribed level
- Oxygen concentration level

Routine maintenance is very important in prolonging dependability and in reducing costly repairs. Long-term maintenance and regular checking of the filters helps assure the efficient operation of the unit.

6.1.1 FILTERS

Respironics recommends checking and replacing the Inlet Filter every two (2) years. Respironics also recommends checking and replacing the Micro-Disk filter as necessary.

6.1.2 CABINET

Commensurate with hospital or homecare policies, Respironics recommends cleaning the cabinet and inspecting for damage as necessary. Ensure that the small holes on the Inlet Filter door are unobstructed. Refer to the Tools and Equipment section for approved cleaning solution.

6.1.3 FLOW SETTING

Commensurate with hospital or homecare policies, Respironics recommends verifying the patient flow setting as necessary.

6.1.4 OXYGEN CONCENTRATION VERIFICATION

Commensurate with hospital or homecare policies, Respironics recommends verifying the oxygen concentration level per homecare provider's policies as necessary. Refer to the Testing section for more detailed instructions on how to check the oxygen concentration level.

6.1.5 COMPRESSOR

Respironics does not require routine maintenance or recommend field service of the EverFlo Oxygen Concentrator compressor. The compressor may require replacement when:

- The system pressure is not within specifications and there are no leaks detected.
- The compressor bearings have worn to a point that make the compressor noticeably louder.

6.1.6 HUMIDIFIER CONNECTOR TUBE AND CONNECTOR

Commensurate with hospital or homecare policies, Respironics recommends disinfecting the tube and connector using 70% isopropyl alcohol.

6.2 EVERFLO OXYGEN CONCENTRATOR MAINTENANCE RECORD

6.3 SYSTEM VERIFICATION PROCEDURES

The following procedures may be performed at any time to ensure that the EverFlo Concentrator is functioning properly.

6.3.1 SYSTEM SELF TEST AND START UP TEST

1. Connect the power cord to the proper power source.
2. Turn on the unit by moving the power switch to the ON (I) position and verify the following:
   - All LEDs light up and the audible alarm sounds for two seconds.
   - The unit starts to run.
   - The red and yellow LED lights go off and the audible alarm stops.
   - The green LED stays on.

6.3.2 POWER LOSS ALARM TEST

1. Test the power loss alarm as follows:
   a. Connect the device to a proper power source.
   a. Let the device warm up for two minutes to charge the capacitor.
   b. Disconnect the device from the power source and move the power switch to the On (I) position and verify an audible alarm sounds continuously.
   c. The alarm should have sufficient power to sound for 10 minutes. Verify that the EverFlo Device alarms.
   d. If the audible alarm does not sound, replace the Main PCA.

6.3.3 OUTLET/REGULATED PRESSURE TEST

1. Power up the unit and allow it to run for at least two minutes to stabilize.
2. Set the flow meter to 5 LPM (1 LPM for units equipped with pediatric flowmeters).

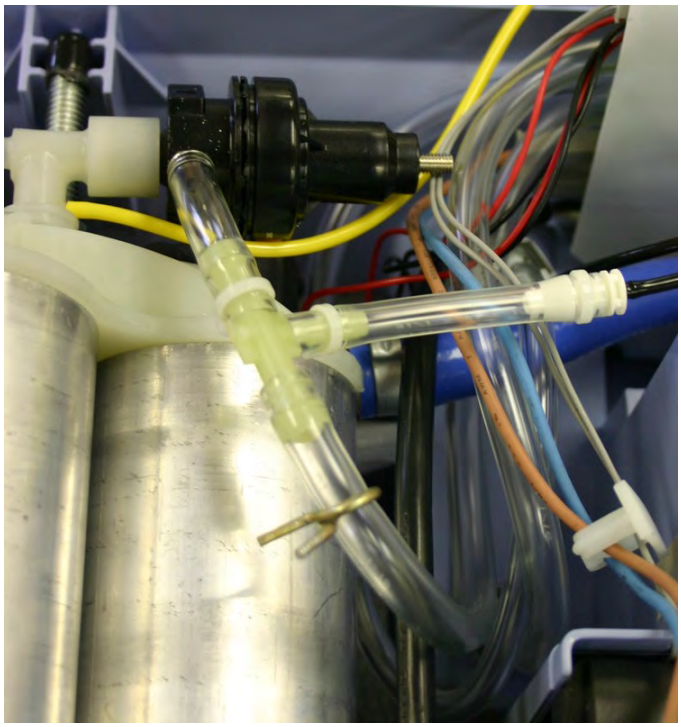
NOTE
If using the Concentrator tool kit (H647), be sure to remove the DISS outlet fitting from the tubing before proceeding to step 3.

3. Connect the pressure gauge from the tool kit to the outlet barb. The flow ball should drop to 0.0 LPM.

NOTE
Be sure to hold the pressure gauge in a vertical position.

4. If the outlet pressure does not fall between 5.0 and 7.0 psig, perform steps 5 through 14. If the pressure does fall between 5.0 and 7.0 psig, remove pressure gauge, the test is now complete.
5. Turn the unit off.
6. Remove the pressure gauge from the outlet barb.
7. Remove the front and rear cabinets.

8. Insert a “T” from the tool kit in between the regulator and the clear oxygen tubing and connect the pressure gauge.



9. Turn the device on and set the flow meter to 5 LPM (1 LPM for units equipped with pediatric flow meters).
10. With the gauge held in a vertical position, verify that the regulated pressure is at 5.5 ± 0.25 psig.
11. If the regulated pressure needs adjusted, place a 3/32” Allen wrench in the adjusting screw on the end of the regulator.

NOTE

If the regulated pressure is low, turn the wrench clockwise to increase the regulated pressure. If the regulated pressure is high, turn the wrench counter-clockwise.

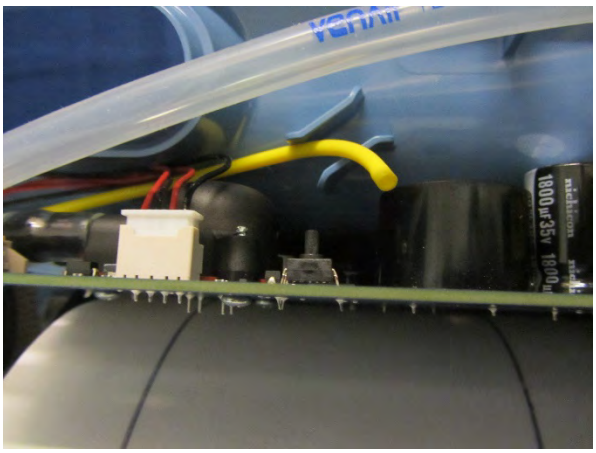
12. Disconnect the pressure gauge and “T” fitting.
13. Reconnect the clear oxygen tubing to the pressure regulator.
14. Install the front and rear cabinets.

6.3.4 SYSTEM PRESSURE TEST

The system pressure test is used to verify the proper operation of the EverFlo Compressor and Sieve Canister Assemblies.

NOTE
If pressures are not within the normal operating pressure, it does not necessarily indicate an issue with the concentrator. The Final Test located in the Testing Chapter of this manual is the only test to be used when determining a known good EverFlo Concentrator from a Concentrator requiring repair.

1. Run the unit with the front and rear cabinets in place for a minimum of ten minutes.
2. Set the flow to 5 LPM (1 LPM for units equipped with pediatric flowmeters).
3. Turn off the Everflo Oxygen Concentrator.
4. Remove the front and rear cabinets from the unit.
5. Disconnect the yellow pressure tubing from the fitting on the PCA. Using the pressure gauge, “T” fitting, and pressure tubing supplied with the Concentrator tool kit, connect to the Pressure Regulator as shown below.



6. Turn the unit on and allow the unit to cycle for at least two (2) minutes to stabilize.
7. Hold the pressure gauge in a vertical position.
8. Verify pressures against the table below. This table is a reference guideline for system pressures and troubleshooting. If a value is measured outside of these ranges, it may not mean the unit has a fault. If the Outlet Pressure and Outlet Oxygen values are within tolerances, and the unit is not alarming, the unit should be considered acceptable.

EverFlo Model	Normal Pressure for units equipped with Purge Valves		Normal Pressure for units without Purge Valves	
	Min	Max	Min	Max
1020000 1020001 1020002 1020003 1020002BR 1020003BR 1039362 1039363	NA	NA	15	27

9. Record the peak pressure for four cycles.

CYCLE 1	CYCLE 2	CYCLE 3	CYCLE 4

10. Confirm that all peaks are within one (1) psig of each other.

NOTE
If the four cycles are not within specification, refer to the troubleshooting section of the service manual.

11. Turn off the EverFlo Concentrator and disconnect the pressure gauge, “T” fitting, and tubing. Reconnect the yellow tubing to the Pressure Regulator Adaptor located on the top of the Sieve Canister Assembly.
12. Install the front and rear cabinets.

6.3.5 OXYGEN OUTPUT TEST

1. Power up the concentrator and allow it to run for a minimum of 15 minutes.
2. Connect a calibrated oxygen analyzer to the outlet fitting of the concentrator.

3. Set the flow to 5 LPM (1 LPM for units equipped with pediatric flowmeters).
4. Verify the oxygen reading is as follows:

MODEL NUMBER	OXYGEN PURITY
1020000, 1020001, 1020002, 1020003, 1020002BR, 1020003BR 1020004, 1020005, 1020006, 1020009, 1020010, 1020011, 1020012, 1020013, 1020014, 1020015, 1020016, 1020017, 1039362, 1039363 1039364, 1039365 1039366, 1039368, 1039370	≥ 90%
1020007, 1020008, 1039367	≥ 87%

6.3.6 MAIN PCA OXYGEN VERIFICATION (OPI UNITS ONLY)

This procedure verifies that the Main PCA is operating properly.

1. Plug the unit into a power outlet.
2. Turn the device on, set the flow to 5.0 LPM, and let it run for 10 minutes.
3. If either the yellow or red LED illuminates after 10 minutes, perform the oxygen output test with a calibrated oxygen analyzer. If the red LED illuminates, the audible alarm should also sound at the same time.

NOTE
The oxygen analyzer used in the following steps must be calibrated to meet the manufacturer's specifications.

If the device is alarming and the oxygen concentration is measured at 82% or higher, check the device for leaks. If no leaks are found then replace the Main PCA.

6.3.7 COMPRESSOR TEST

This procedure verifies if the Compressor is working properly.

Chapter 8. REPAIR & REPLACEMENT

8.1 OVERVIEW

This chapter illustrates the replaceable components for the EverFlo Oxygen Concentrator. Procedures for replacing the components are also provided in this chapter.

NOTE

Refer to the proper Testing Section for required testing after component replacement.

NOTE

Refer to the Repair Kits Section for proper repair kit identification.

WARNING

- To prevent electrical shock, disconnect the electrical supply before attempting to make any repairs to the EverFlo Concentrator.
- Use extreme caution when handling the Capacitor. The Capacitor can hold a substantial electrical charge until it is properly discharged.
- Even with the unit disconnected from the electrical supply, the Capacitor may still hold an electrical charge strong enough to cause serious bodily injury. DO NOT touch the capacitor terminals simultaneously until the Capacitor has been completely discharged. Discharge the Capacitor by shorting the two posts with an insulated screwdriver.
- Avoid handling the molecular sieve material. Respironics recommends the return of the sieve canister assembly to Respironics for any service that involves sieve material.

CAUTION

- Electronic components used in this device are subject to damage from static electricity. Repairs made to this device must be performed only in an antistatic, ESD-protected environment.
- During all repair and replacement procedures, ensure that any connections that are broken during the process (fittings, tubing, and hoses) are reconnected securely.
- When using a leak detector, be careful that it does not come in contact with any electrical components.
- The fuse on the Main PCA must be replaced with the fuse called out in the Repair Kits Section of this Service Manual. Failure to do so will result in damage to the unit.

8.19 LABELS

UDI Labelling

Per the Unique Device Identification (UDI) initiative, medical devices are required to be labeled with certain device identifiers. The information provided on these labels allows the public to search and download information from the Global Unique Device Identification Database (GUDID) at AccessGUDID.

A UDI is a unique numeric or alphanumeric code that consists of two parts:

- a device identifier (DI), a mandatory, fixed portion of a UDI that identifies the labeler and the specific version or model of a device, and
- a production identifier (PI), a conditional, variable portion of a UDI that identifies one or more of the following when included on the label of a device:
    - the lot or batch number within which a device was manufactured;
    - the serial number of a specific device;
    - the date a specific device was manufactured;
    - the distinct identification code required by §1271.290(c) for a human cell, tissue, or cellular and tissue-based product (HCT/P) regulated as a device.

Devices that are currently out in the field and manufactured before September 24th, 2016 that are returned for repair, return to stock, conversion, or otherwise do not need to be relabeled with UDI compliant serial/model labeling. However, the device packaging will need to be updated to reflect UDI information.

Devices that are manufactured after September 24th, 2016 with a UDI compliant serial/model label and is converted to R/U from the base part number will not need new UDI serial/model labeling applied. However, a new UDI number will be assigned to the corresponding R/U part number for the packaging labeling.

Serial/model labels need to be replaced with UDI compliant labeling if the label has become illegible or the repair part where the serial label is applied requires replacement.

EQUIPMENT:

Depending on which option is chosen, the printer used needs to ensure the barcode is legible and can be easily scanned. When reprinting a 2D barcode, a higher resolution, 300 DPI or higher, printer may be necessary.

The following printer (or equivalent) is recommended:

Zebra GX430T or similar printer specifications:

- Label printer
- monochrome
- direct thermal / thermal transfer
- Roll (4.25 in)
- 300 dpi
- up to 240.9 inch/min
- USB
- LAN
- serial

RECOMMENDED SOFTWARE:

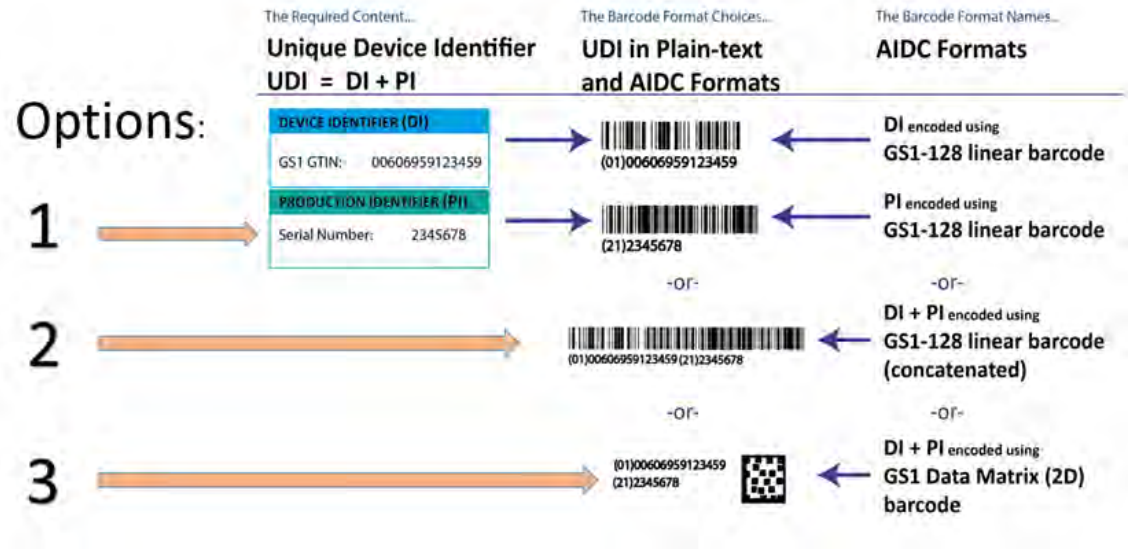
- Loftware Software & Print Key (Fees Apply)
  - For a full detailed list of Loftware supported printers and fees, please refer to: http://www.loftware.com/support/tech_printers.cfm
  - For software support, visit their website at www.loftware.com

ACTION TAKEN

Each label being replaced will need to display:

- Reference (model) Number (e.g. 1068693)
- UDI Information: Choose 1 of 3 options listed below
- Serial Number (e.g. 200001)
- Original Manufacturing Date (e.g. 2016-02-29)
- Country of Origin, if necessary

There are three (3) different options available for reprinting the serial number label, as seen in the figure below.



PROCEDURE:

1. Print a UDI compliant serial/model number label in accordance with the specifications detailed above.
2. Apply the new label to the product in the same location as the original label.
3. Place a clear overlay over the label, if necessary.

Chapter 9. TESTING

9.1 LONG LIFE FILTER TEST

This following test can be performed to determine if the EverFlo Long Life Filter has become restricted.

9.1.1 TESTING PROCEDURE

1. Power up the EverFlo Concentrator and set the flow to 5 LPM.
2. Run the device for 10 minutes
3. Measure and record the Oxygen Concentration (1st Reading).
4. Remove the Door and the Long Life Filter from the concentrator.
5. Wait approximately 3 minutes.
6. Measure and record the Oxygen Concentration (2nd Reading).
7. If the 2nd Oxygen Concentration reading is greater then 2.0 from the 1st Oxygen Concentration reading, the Long Life Filter needs replaced.

9.2 EVERFLO SYSTEM FINAL TEST

The following test must be performed after any repairs to the EverFlo Oxygen Concentrator. The results of the test must be entered on the Testing Data Sheet provided and signed, in ink, and dated by the technician performing the test.

This test may also be used as a performance verification procedure on the unit between patient usages.

9.2.1 TEST EQUIPMENT

NOTE

- The results of this test must be recorded in the space provided on the Testing Data Sheet.
- All testing on the unit must be performed at the proper voltage and frequency applicable for the country where the unit is being used.
- Before starting the System Final Test, the unit must be turned on and run for a minimum of one hour with the front and back cabinets in place.

- Concentrator Tool Kit (H647)
- Calibrated Oxygen Analyzer
- Test Flow Meter for EverFlo UltraFill Compatible Devices (Assemble Pieces as shown below)
  - 1/8” NPT Coupling Insert (1)
  - Brass 1/8” NPT Male to Female Adapter (2)
  - Flowmeter (3)
  - Orifice (0.038”) (4)

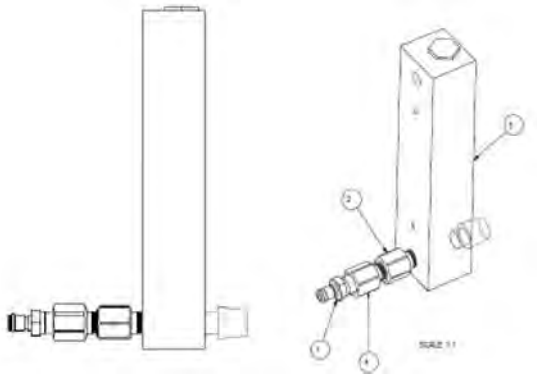


Figure 9-1: TEST FLOWMETER ASSEMBLY

9.2.2 TESTING PROCEDURE

1. Ensure that the unit has been run-in for a minimum of 1 hour.
2. Record the serial number and model number located on the side of the unit, in the space provided on the Testing Data Sheet.
3. Record the voltage and frequency at which the unit is being tested.
4. Record the hours from the hour meter after the Device has finished its 1 hour run in on the Test Data Sheet.
5. Verify the flow meter is set to 5 LPM. If a pediatric flow meter is installed, verify the flow meter is set to 1.0 LPM. Connect the test gauge to the outlet barb. Measure the outlet pressure. The outlet pressure should be within 5.0- 7.0 psig. Record the results. On the test data sheet, circle Yes or No for pediatric flow meter. If testing a device with a pediatric flow meter installed, the “No Flow Alarm” feature is not available, remove the pressure gauge from the outlet barb and proceed to step 7.
6. With the pressure gauge still connected to the outlet, the flow meter ball will drop down to zero (0) LPM. Within 120 seconds (160 seconds for EverFlo T models) the “No Flow” alarm will sound and the yellow LED (Low Oxygen) will illuminate. Record the results. Remove the pressure gauge from the outlet barb.
7. Set the flow meter to two (2) LPM (for units equipped with pediatric flow meters set the flow to 0.1 LPM). Connect a calibrated oxygen analyzer to the outlet barb, measure and record the oxygen concentration. Set the flow meter to five (5) LPM (for units equipped with pediatric flow meters set the flow to 1 LPM). Measure the oxygen concentration. Record the results. For OPI devices proceed to step 8. For non OPI devices proceed to step 9.
8. Verify that the OPI is working properly by observing that the red or yellow LEDs are NOT illuminated and the oxygen concentration is above 90% for the following model numbers:

1020001	1020009	1020013	1039364
1020002	1020010	1020014	1039365
1020004	1020011	1039362	
1020006	1020012	1039363	

Above 87% for model numbers 1020007 and 1020008, record the results.

9. Disconnect the oxygen analyzer and tubing from the outlet of the concentrator. For EverFlo UltraFill Compatible devices set the concentrator to 1-3 LPM. Proceed to Step 10. For all other EverFlo devices proceed to Step 14.
10. Connect the Test Flowmeter to the UltraFill port, located on the side of the EverFlo.

11. Open the Test Flowmeter flow knob 3-4 turns.
12. Wait at least 1-3 seconds.
13. Read the Test Flowmeter value. Record the results. If the flow is greater than 10 SLPM the unit PASSES.
14. In ink, fill out the rest of the Test Data Sheet after all tests have been completed. If the unit has failed any of the tests performed, the unit must be repaired and retested according to released documentation.

9.3 EVERFLO TEST DATA SHEET

NOTE
All information on this data sheet should be entered in the correct location after the associated test was completed. The data sheet must then be signed in ink and dated by the technician performing tests. Circle “Pass” or “Fail”. Leave all unused boxes blank.

NEVADA STATE BOARD OF PHARMACY, Petitioner, vs. PRIME PLUS LAKEVIEW, Respondent.	Case No.: 25-110-V-O

RESPONDENT'S ANSWER TO FIRST AMENDED STATEMENT TO THE RESPONDENT AND NOTICE OF HEARING

COMES NOW, Respondent PRIME PLUS LAKEVIEW ("Respondent" or "Prime Plus"), by and through its counsel of record, Chandon S. Alexander, Esq. of the SPARTACUS LAW FIRM, and in response to the First Amended Statement to the Respondent and Notice of Hearing filed by the Nevada State Board of Pharmacy ("Board") on or about December 10, 2025 (the "Amended Statement"), answers as follows.

By filing this Answer, Respondent does not waive, and expressly preserves, all jurisdictional, definitional, procedural, and constitutional objections set forth herein, including but not limited to its position that the alleged conduct does not constitute "wholesale distribution" within the meaning of NRS Chapter 639, that Respondent is not a "wholesaler" within the meaning of NRS 639.016, and that the cited statutes and regulations are inapplicable to the conduct alleged.

RESPONSES TO FACTUAL ALLEGATIONS

1. Respondent admits the allegations of Paragraph 1, namely that Respondent is a pharmacy located at 3156 N. Clark St. in Chicago, Illinois.

2. Respondent admits only that it does not hold a wholesaler license issued by the Nevada State Board of Pharmacy. Respondent denies that any license under NRS 639.233 or NAC 639.593 was required to be held by Respondent at the time of the conduct alleged. Respondent specifically denies that NRS 639.233 and NAC 639.593 apply to its conduct because Respondent is not a "wholesaler" within the meaning of NRS 639.016 and 21 CFR § 205.3(g); the single, isolated, pharmacy-to-pharmacy transaction alleged does not constitute "wholesale distribution" within the meaning of federal or Nevada law; and Respondent did not "engage in the business" of wholesale distribution or furnishing within the meaning of NRS 639.100(3) and NRS 639.233.

3. Upon information and belief, Respondent admits the allegations of Paragraph 3 regarding First Choice Pharmacy, LLC's licensure and location.

4. Respondent lacks sufficient information to admit or deny the allegations of Paragraph 4 regarding Rxeed's self-representations on its website, and on that basis denies them. Respondent further states that any representations made by Rxeed on its own website are not attributable to Respondent and provide no basis for disciplinary action against Respondent.

5. Respondent lacks sufficient information to admit or deny the allegations of Paragraph 5 regarding Rxeed's licensure status with the Nevada State Board of Pharmacy, and on that basis denies them. Respondent further denies that Rxeed's licensure status is imputable to Respondent or material to the disposition of this matter.

6. Respondent admits only that on or about August 25, 2023, through the Rxeed online marketplace platform, Respondent shipped a single, sealed, original-container bottle of Vemlidy 25mg oral tablets (NDC 61958-2301-01, manufactured by Gilead Sciences, Inc., Lot 034042, expiration 2/2025) to First Choice Pharmacy in Las Vegas, Nevada, and that the shipment was received by First Choice Pharmacy in Nevada on or about September 1, 2023. Respondent affirmatively states that the transaction was a single, isolated, one-time sale of one (1) sealed, original-container bottle of Vemlidy 25mg (Order No. 90181) with a total invoice value of $1,200, between two licensed pharmacies, facilitated through a third-party online marketplace platform; that Vemlidy is not a controlled substance; that the product was not purchased using a government discount program (such as 340B) or preferred pricing; that Respondent attested to compliance with the Drug Supply Chain Security Act with respect to the product; and that the operative invoice for the transaction recites, on its face, that "[p]er Rxeed.com User Agreement, buyer attests that items are for a specific patient need." Respondent denies that this transaction constituted "wholesale distribution" within the meaning of NRS 639.233, NAC 639.593, 21 U.S.C. § 353(e)(1)(A), or 21 CFR Part 205. Respondent denies that any license was required to be held by Respondent to lawfully effect the transaction described.

7. Respondent lacks sufficient information to admit or deny the allegations of Paragraph 7 regarding the Board's enforcement action against Rxeed, and on that basis denies them. Respondent further denies that Rxeed's conduct, citation, satisfaction of citation, or any other enforcement action against Rxeed is imputable to Respondent.

8. Respondent admits that the Board served a Citation and Fine Order on Respondent on or about September 15, 2025. Respondent denies that any violation of law occurred, denies

that any "investigation" was sufficient to establish a violation, and denies the implicit suggestion that the Citation and Fine Order was lawfully issued.

9. Respondent admits that on or about October 15, 2025, it timely appealed the Citation and Fine Order and requested a hearing before the Board.

10.–17. Paragraphs 10 through 17 state legal conclusions and recitations of statutory and regulatory provisions for which no answer is required. To the extent any answer is required, Respondent admits only the existence of the cited statutory and regulatory provisions, but denies that the provisions apply to Respondent's conduct as alleged and denies any characterization of the law inconsistent with the affirmative defenses set forth below. Respondent specifically denies any implication that the cited provisions render Respondent's single, isolated, pharmacy-to-pharmacy transaction unlawful or subject to licensure requirements.

Respondent further notes, as to Paragraph 14, that the Board concedes the existence of "exceptions involving pharmacy-to-pharmacy sales" under NRS 639.0155, but the Amended Statement nowhere alleges that such exceptions do not apply to the conduct at issue. Respondent affirmatively states that the transaction at issue falls within the pharmacy-to-pharmacy exceptions to wholesaler licensure under Nevada and federal law.

RESPONSES TO COUNT ONE

18. Denied. Respondent denies that it engaged in wholesale distribution into Nevada. Respondent denies that any license was required to be obtained by Respondent under NRS 639.233 or NAC 639.593 for the conduct alleged.

19. Denied. Respondent denies that it unlawfully engaged in wholesale distribution within the State of Nevada, and denies any violation of NRS 639.100(1), 21 U.S.C. § 353(e)(1)(A), or 21 CFR Part 205.

20. Denied. Respondent denies that it engaged in any unlawful conduct and denies that it is subject to discipline by the Board.

AFFIRMATIVE DEFENSES

As separate and distinct affirmative defenses, Respondent alleges as follows:

FIRST AFFIRMATIVE DEFENSE

(Failure to State a Claim)

The Amended Statement fails to state a claim because Respondent does not meet the statutory definition of "wholesaler" upon which the entire prosecution depends. NRS 639.016 defines "wholesaler" as "a wholesale distributor as defined by 21 CFR § 205.3(g)." That federal regulation, in turn, defines "wholesale distribution" by reference to ongoing commercial activity in the wholesale distribution of prescription drugs to persons other than the consumer or patient. A single, isolated, one-bottle pharmacy-to-pharmacy sale facilitated through a third-party online marketplace does not transform a licensed retail pharmacy into a "wholesale distributor" within the meaning of federal or Nevada law. Because Respondent is not a "wholesaler," NRS 639.100(3), NRS 639.233, and NAC 639.593 do not apply to Respondent's conduct as a matter of law, and no violation can be established. *See* NAC § 632.921(2)(a) (charging document must state facts which, if true, form a sufficient basis for discipline).

Further, NRS 639.100(3) and NRS 639.233(1) require licensure of persons who "engage[] in the business" of wholesale distribution or furnishing of prescription drugs. The

phrase "engaged in the business" is a term of art denoting ongoing, regular commercial activity, not isolated transactions. A single sale of a single bottle of a single prescription drug, between two licensed pharmacies, through a third-party marketplace platform, on a single date, does not constitute "engaging in the business" of wholesale distribution within the meaning of these statutes. The Amended Statement alleges only one transaction across the entirety of Respondent's history; that single transaction is legally insufficient to establish that Respondent was "engaged in the business" of anything cognizable under NRS Chapter 639.

SECOND AFFIRMATIVE DEFENSE

(Pharmacy-to-Pharmacy Exception — NRS 639.0155 and Federal Law)

The transaction at issue falls within the pharmacy-to-pharmacy exceptions recognized under Nevada law and within recognized federal exclusions from "wholesale distribution." The Amended Statement itself acknowledges, at Paragraph 14, that "exceptions involving pharmacy-to-pharmacy sales apply only in specific circumstances" pursuant to NRS 639.0155. Yet the Amended Statement nowhere alleges that the specific circumstances of the transaction at issue fall outside those exceptions, and it does not plead the factual predicates that would distinguish this transaction from a NRS 639.0155-exempt transfer.

Under federal law incorporated by NRS 639.016, 21 CFR § 203.3(cc) enumerates the activities that constitute, and the activities that are excluded from, "wholesale distribution." Multiple enumerated exclusions are may be applicable to the transaction here. The exclusion for "[t]he sale, purchase, or trade of a drug, an offer to sell, purchase, or trade a drug, or the dispensing of a drug under a prescription executed in accordance with section 503(b) of the act" extends, by its plain terms, beyond the dispensing event to the upstream "sale" and "purchase" of a drug "under" a 503(b) prescription. The operative invoice for the transaction at

issue recites that "buyer attests that items are for a specific patient need." That contemporaneous, contractual recital is consistent with — and on its face supports — a transaction in which the receiving pharmacy purchased a single sealed bottle to fill a specific patient's 503(b) prescription, placing the transaction within exclusion (6).

The exclusion under 21 CFR § 203.3(cc)(5) for "[t]he sale, purchase, or trade of a drug or an offer to sell, purchase, or trade a drug for emergency medical reasons" applies to pharmacy-to-pharmacy transfers made to address a specific patient's prescription need when the receiving pharmacy is short on stock. The single-unit, sealed-original-container, specific-patient-need-attested nature of the transaction is consistent with such an exempt transfer.

The Amended Statement pleads no facts negating either exclusion. The Board has not alleged that the transaction falls outside the federal pharmacy-to-pharmacy exclusions, has not pleaded any fact inconsistent with the buyer's recital of specific patient need, and has not alleged that the transfer was made for any wholesale-distribution purpose rather than to fill a specific patient's prescription. Respondent reserves the right to develop the factual record supporting application of these exclusions, including through the testimony or declaration of the buying pharmacist at First Choice Pharmacy, the records of the underlying patient prescription, and the text of the Rxeed User Agreement.

THIRD AFFIRMATIVE DEFENSE

(21 U.S.C. § 353(e) and 21 CFR Part 205)

The Amended Statement invokes 21 U.S.C. § 353(e)(1)(A) and 21 CFR Part 205 as predicates for the alleged Nevada violation. These federal provisions, however, apply only to entities engaged in "wholesale distribution" as defined by federal law, and federal law expressly excludes pharmacy-to-pharmacy transfers made to fill specific patient prescriptions

from the definition of "wholesale distribution." The transactional record in this matter — including the buyer's express attestation under the Rxeed User Agreement that the product was for a specific patient need, the sealed-original-container status of the product, the non-controlled-substance nature of Vemlidy — places this transaction squarely within that federal exclusion. Because Respondent is not engaged in "wholesale distribution" within the federal definition for the reasons set forth above, the federal predicate fails. Without a valid federal predicate, the derivative Nevada theory cannot stand.

FOURTH AFFIRMATIVE DEFENSE

(Procedural Due Process — Vagueness and Inadequate Notice)

The Amended Statement violates Respondent's right to procedural due process under the Fourteenth Amendment to the United States Constitution and Article 1, Section 8 of the Nevada Constitution. Although the Amended Statement identifies a date and a product, it fails to allege the material facts necessary to establish that Respondent was "engaged in the business of wholesale distribution" or was a "wholesaler" under NRS 639.016. The Amended Statement does not allege the quantity of product shipped (one bottle); the value of the transaction ($1,200); the existence (or absence) of any other transactions by Respondent into Nevada at any time before or after the August 2023 shipment; any pattern, course, or regularity of conduct; whether the shipment was made to fill a specific patient prescription; or any facts that would distinguish the transaction from an exempt pharmacy-to-pharmacy transfer. The selective omission of these material facts — facts the Board necessarily possesses by virtue of the underlying Rxeed invoice — deprives Respondent of fair notice of the specific theory of liability and impairs Respondent's ability to mount a meaningful defense. *See Mathews v.*

Eldridge, 424 U.S. 319, 335 (1976); *Callie v. Bowling*, 123 Nev. 181, 183, 160 P.3d 878, 879 (2007).

FIFTH AFFIRMATIVE DEFENSE

(Violation of Nevada Administrative Procedure Act)

The Amended Statement fails to comply with NRS § 233B.121(1)(d), which requires that notice of a hearing in a contested case include "a short and plain statement of the matters asserted." The Amended Statement's allegations, while identifying a date and a product, omit the factual context necessary to establish that the alleged conduct constitutes "wholesale distribution" by a "wholesaler," and accordingly fail to inform Respondent of the actual basis for the proposed discipline. The Amended Statement also fails to plead the elements necessary to establish that Respondent was "engaged in the business" of wholesale distribution.

SIXTH AFFIRMATIVE DEFENSE

(Denial of Statutory Right to Informal Disposition Under Nevada Administrative Procedure Act — NRS 233B.121(5))

NRS 233B.121(5) confers a substantive procedural right on parties to a contested case: "Unless precluded by law, informal disposition may be made of any contested case by stipulation, agreed settlement, consent order or default. If an informal disposition is made, the parties may waive the requirement for findings of fact and conclusions of law." This statutory right does not turn on whether an agency, in the exercise of its discretion, ultimately agrees to any particular stipulation; it requires, at a minimum, that the agency exercise discretion on whether to enter into one. The distinction between an agency's discretionary refusal to settle a particular proposal on its merits, on the one hand, and an agency's categorical refusal to consider informal disposition at all, on the other, is statutorily and constitutionally significant.

The former is within agency discretion; the latter is a denial of a substantive APA right. The Board has denied Respondent that right by adopting a categorical, non-discretionary position that the Board "cannot" resolve a citation matter informally under any circumstances.

This matter is unambiguously a "contested case" within NRS 233B.032, which defines a contested case disjunctively as a proceeding "in which the legal rights, duties or privileges of a party are required by law to be determined by an agency after an opportunity for hearing, *or* in which an administrative penalty may be imposed." This proceeding satisfies both prongs:. NRS 639.2895(2) requires an opportunity for hearing upon timely appeal, and NRS 639.2895(3) authorizes the imposition of an administrative penalty. The Board's own statute confirms the point: NRS 639.2575(2) expressly provides that "[a] decision of the hearing officer or panel relating to the imposition of a fine is a final decision in a contested case."

Because this matter is a contested case, NRS 233B.121(5) applies on its own terms. Nothing in NRS Chapter 639 precludes informal disposition of a citation matter. NRS 639.2895(2) does not preclude settlement; it is the very provision that, by guaranteeing an opportunity for hearing, makes the proceeding a contested case in the first place.

The Legislature has independently authorized the precise mechanism Respondent proposed. NRS 622.330(1), which applies generally to all regulatory bodies in Title 54 (including the Board), provides that a regulatory body may "enter into a consent or settlement agreement with a person who has allegedly committed a violation of any provision of this title which the regulatory body has the authority to enforce, any regulation adopted pursuant thereto or any order of the regulatory body," subject only to discussion and approval in a public meeting. NRS 622.400(1)(b) further contemplates that regulatory bodies will recover fees and costs through "consent or settlement agreement[s] in which the regulatory body finds or the

person admits or does not contest that the person has violated any provision of this title which the regulatory body has the authority to enforce."

The Board's General Counsel declined Respondent's proposal for informal resolution on the stated ground that the Board is "unable to negotiate an alternative outcome" because "this is a citation," citing NRS 639.2895(2) and NRS 639.255(4). Both positions are misplaced. NRS 639.2895(2) provides the right to appeal a citation, which is what makes the citation a contested case subject to NRS 233B.121(5). NRS 639.255(4) prohibits *private* reprimands; a consent or settlement agreement with a public administrative fine and a public finding or non-contest admission of violation is not a private reprimand and is, in fact, the public-disposition mechanism expressly authorized by NRS 622.330 and NRS 622.400(1)(b). The Board's categorical position that it cannot negotiate any citation matter therefore rests on a misreading of its statutory authority, denies Respondent a substantive procedural right conferred by NRS 233B.121(5), and is, in addition, an abuse of discretion subject to reversal under NRS 233B.135(3)(f).

SEVENTH AFFIRMATIVE DEFENSE

(Selective and Disparate Enforcement)

Upon information and belief, the Board has not pursued similar disciplinary action against other licensed pharmacies engaged in single-transaction, marketplace-facilitated, pharmacy-to-pharmacy transfers into Nevada. The Board's selective decision to pursue Respondent for an isolated, single-unit, single-date transaction, while declining or failing to pursue similarly situated entities, constitutes disparate enforcement in violation of Respondent's right to equal protection under the Fourteenth Amendment to the United States Constitution and Article 4, Section 21 of the Nevada Constitution. Respondent reserves the

right to develop this defense through discovery and to identify specific similarly situated parties at hearing.

EIGHTH AFFIRMATIVE DEFENSE

(De Minimis Conduct / Disproportionate Sanction)

The conduct alleged — a single shipment of a single bottle of a single prescription drug between two licensed pharmacies, with a total transaction value of approximately $1,200 — is de minimis in nature and presents no cognizable risk to public health or safety. The proposed $5,000 administrative fine is grossly disproportionate to the conduct alleged. The Board's authority to impose a fine "up to" $10,000 per violation under NRS 639.255(1)(f) is a maximum, not a presumption, and any fine must bear a rational relationship to the gravity of the conduct. Imposition of the maximum or near-maximum fine for a single, isolated, non-recurring, non-harmful transaction is arbitrary, capricious, and not supported by substantial evidence.

NINTH AFFIRMATIVE DEFENSE

(Laches)

The Board's prosecution of this matter is barred by laches. The transaction at issue occurred on August 25, 2023. The Board did not issue its Citation and Fine Order until September 15, 2025 — more than two years later. The Amended Statement was not issued until December 10, 2025 — more than two years and three months after the alleged conduct. The Board's protracted delay in commencing this proceeding is inexcusable and has prejudiced Respondent by impairing the availability of contemporaneous documentation, recollections of personnel involved in the August 2023 transaction, and Respondent's ability to develop a full evidentiary record on the underlying patient-prescription basis for the transaction.

TENTH AFFIRMATIVE DEFENSE

(Conduct of Third-Party Platform Not Imputable to Respondent)

To the extent the Board's theory rests in part on Rxeed's status as an unlicensed wholesaling platform, Rxeed's conduct, representations, regulatory status, or prior citation by the Board are not imputable to Respondent and cannot serve as a basis for discipline against Respondent. Respondent is not Rxeed, did not control Rxeed's representations to the marketplace, and bears no derivative liability for Rxeed's regulatory posture. The Board's prior citation against Rxeed — which Rxeed satisfied on June 12, 2025 — resolved the regulatory concern as to the platform, and offers no independent basis for proceeding against an individual pharmacy that used the platform on a single occasion.

ELEVENTH AFFIRMATIVE DEFENSE

(No Substantial Evidence)

Any decision imposing discipline against Respondent on the record as presently pleaded would be unsupported by substantial evidence and would be subject to reversal under NRS 233B.135(3)(e). The Amended Statement pleads a single date, a single product, and a single shipment, and infers from that single transaction that Respondent was "engaged in the business" of wholesale distribution. That inference is not supported by substantial evidence and could not be sustained on judicial review.

TWELFTH AFFIRMATIVE DEFENSE

(Reservation of Affirmative Defenses)

Respondent reserves the right to amend this Answer to add additional affirmative defenses as discovery and continued investigation of the Board's claims may warrant, including but not limited to defenses arising from the patient-prescription basis of the August

25, 2023 shipment, the operational details of the Rxeed platform, and the Board's enforcement history with respect to similarly situated entities.

PRAYER FOR RELIEF

WHEREFORE, Respondent prays for relief as follows:

1. That the Board take nothing and impose no discipline by way of the Amended Statement;

2. That the Amended Statement and the underlying Citation and Fine Order be dismissed with prejudice;

3. That the Board find Respondent not subject to the wholesaler licensure requirements of NRS Chapter 639 with respect to the conduct alleged, on the ground that Respondent is not a "wholesaler" within the meaning of NRS 639.016 and was not "engaged in the business" of wholesale distribution within the meaning of NRS 639.100(3) and NRS 639.233;

4. In the alternative, if the Board determines that some form of discipline is warranted, that any administrative fine be substantially reduced from the $5,000 sought, to a level proportionate to the de minimis nature of the alleged conduct;

5. In the alternative, hat the Board reconsider its categorical position on stipulated resolution and afford Respondent a meaningful opportunity to resolve this matter by stipulation consistent with NRS 233B.121(5);

6. That Respondent be awarded its reasonable fees and costs pursuant to NRS 622.400 or any other applicable provision; and

7. For any such other and further relief as the Board may deem just and proper in this case.

Notes

1. The "initial date of registration as an outsourcing facility" is the date the facility was first registered (i.e., the date FDA determined that the initial registration information submitted for the facility was complete, and the establishment fee was paid in full).

   Under section 503B(b) of the FD&C Act, after the initial registration, a facility that elects to continue to be registered with FDA as an outsourcing facility must re-register annually. A facility that elects to register (or re-register) with FDA as an outsourcing facility must pay an annual establishment fee. The "date of most recent registration as an outsourcing facility" reflects the date FDA determined the most recently submitted registration information was complete and the annual establishment fee for that fiscal year paid in full.

   Unless a previously registered outsourcing facility re-registers and pays the annual establishment fee in full during the registration period (between October 1 and December 31 of each calendar year), the facility will be removed from the list of registered outsourcing facilities on January 1 of the next calendar year.

2. Once an outsourcing facility is registered, the facility will be added to the list of facilities FDA intends to inspect according to a risk-based schedule. FDA plans to inspect outsourcing facilities within a reasonable period of time following initial registration, once it is confirmed that the facility has initiated drug production and distribution. However, the exact timing of the inspections can be affected by a number of variables, including the number of outsourcing facility registrants, other inspection priorities, and the operational status of the newly registered outsourcing facility.

   Inspections identified in this table are associated with the facility at the listed address. A company may own or operate more than one registered outsourcing facility. FDA's web page Compounding: Inspections, Recalls, and other Actions (/node/363232) may contain information about compounding facilities under the same ownership as the listed registered outsourcing facility.

   Inspections may take place over several days, weeks or longer. The date of the inspection is the date a Form FDA 483 listing the investigators' observations was issued. If no FDA Form 483 was issued, the date is the last day of the inspection.

3. A Form FDA 483 is issued when investigators observe any significant objectionable conditions. It does not constitute a final agency determination of whether any condition is in violation of the FD&C Act or any relevant regulations.

4. This table does not include State Board of Pharmacy actions, if any. To determine whether a registered outsourcing facility has been the subject of a state enforcement action, check with the State Board of Pharmacy for the state in which the facility is located. Some states post disciplinary or other actions on their web sites.
5. "Closed" means the inspection has been closed without further action. "Open" means FDA has not determined whether further action will be taken. If an action has been taken, it will be listed. Possible FDA actions include warning letter, seizure or injunction.
6. The information in this column was provided by the registered outsourcing facility at the time of registration and has not been verified by FDA. "N/A" indicates the registered outsourcing facility has not provided this information.
7. This outsourcing facility was the subject of at least one previous inspection relating to compounding that resulted in a Form FDA 483, warning letter or other action. For information about such inspections and resulting actions, visit Compounding: Inspections, Recalls, and other Actions (/node/363232).
8. A remote regulatory assessment (RRA) is an examination of an FDA-regulated establishment and/or its records, conducted remotely, to evaluate compliance with applicable FDA requirements. These assessments assist in protecting human and animal health, inform regulatory decisions and verify certain information submitted to the agency.
9. Based on inspectional findings, the inspection revealed significant issues. As a result, the outsourcing facility may have either initiated a recall on their own following conversation(s) with the FDA investigator or FDA recommended a recall at the conclusion of the inspection or both. Additionally, the outsourcing facility may have conducted multiple recalls or recalled multiple drugs.

13. What is your procedure for visual inspection of compounded sterile products?

Each finished compounded sterile product is visually inspected by trained and qualified personnel using manual, semi automated, or automated inspection, as applicable, before release. Inspection includes solution clarity, color, visible particulate matter, container closure integrity, fill volume, stopper and seal integrity, cracks, leaks, cosmetic defects, and labeling accuracy, including lot identification and beyond use date or expiry information. Any unit that does not meet acceptance criteria is rejected and investigated in accordance with written procedures.

14. How often do you perform glove fingertip and medial fill testing?

Glove fingertip and thumb sampling and media fill qualification are completed initially, requalified per procedure, and repeated after failures, major changes, extended absence, or retraining.

15. Describe your initial and ongoing training program for all personnel performing sterile compounding:

All personnel involved in sterile compounding complete initial training before performing any sterile compounding duties independently and complete ongoing requalification thereafter. Training includes personnel hygiene and garbing, aseptic technique, cleanroom behavior, material staging and transfer, equipment operation, environmental monitoring awareness, cleaning and disinfection practices, batch record documentation, deviation reporting, visual inspection, labeling controls, and applicable requirements under USP 797 and the facility quality system. Personnel must successfully complete required practical and written qualification activities, including gowning qualification, glove fingertip and thumb sampling, media fill qualification, and role specific competency assessments.

16. Describe the cleaning procedure for your primary and secondary engineering controls, including the frequency of cleaning and the names of cleaning, disinfectant, sporicidal, and/or deactivation and decontamination agents used:

Primary and secondary engineering controls are cleaned and disinfected in accordance with written procedures and established schedules. Cleaning is performed using qualified cleaning and disinfecting agents before operations begin, at defined intervals during operations as applicable, after compounding is completed, and after any spill, contamination event, or maintenance activity requiring additional cleaning. Disinfecting and sporicidal agents are used at defined routine frequencies under the environmental cleaning program. All cleaning activities are documented in facility logs and reviewed under the quality system. The specific agents used are listed below and are as approved in current procedures: Different types of Liquidnox cleaning agents, isopropyl alcohol (70%) Ready to use (RTU) Peridox, Tex-Q, Sporkenz and ionized hydrogen peroxide.

17. Who performs the sterile compounding process at your facility?

Licensed pharmacists and certified pharm. techs perform sterile compounding after training, qualification, & authorization.

18. Who is responsible and accountable for the sterile compounding process at your facility?

Responsibility for sterile compounding rests with the supervising pharmacist, designated person under USP 797, and Quality Assurance, including oversight of personnel qualification, environmental monitoring, deviations, cleaning, disinfection, and procedural compliance.

19. If products are shipped/mailed, what shipping conditions are used to ensure product safety/efficacy?

Products are shipped under labeled storage conditions using qualified packaging, temperature controls, and cold chain packaging and temperature monitoring devices when required. Shipping conditions are documented and reviewed, and any temperature excursion is assessed under written procedures before product disposition.

Re: Outsourcing Facility Application
Orion Specialty Labs, LLC

Dear Mr. Sedar:

I write as a follow up to the recent hearing held by the Nevada Board of Pharmacy (the "Board") to consider Orion Specialty Labs, LLC's ("Orion") application for an Outsourcing Facility License in the State of Nevada.

Before addressing the substantive issues raised at the hearing, I want to express my appreciation for the Board's indulgence and understanding. At the hearing, I was very much "under the weather" suffering from a very bad case of the flu with associated high fever. Compounding matters was a volatile internet connection which only complicated my "connection" to the meeting. I hope that this letter addresses and clarifies some of the issues raised at the hearing. I would request that Orion's application be added to the next meeting where additional representatives from Orion will appear, in person, to further address any concerns that the Board may have.

Background of Orion and its Mission

During the hearing, the Board inquired of my professional background and how it led me to be an investor in Orion. During my career, I have been an entrepreneur with investments and interests in a variety of businesses. In terms of my experience in the compound pharmacy space, I was an original investor in Polomar Specialty Pharmacy, LLC ("Polomar"), a 503a licensed sterile compounding pharmacy headquartered in Florida. When I acquired Polomar, it was primarily focused on the compounding of dermatological prescriptions. Polomar's operations have since expanded to include sterile compounding and Polomar is licensed in over 28 states – including Nevada. It was during my involvement with Polomar that I came to understand the need and demand across 503a pharmacies for

products manufactured by 503b pharmacies, or outsourcing facilities. Specifically, many 503a pharmacies have customers that require customized products either in dosing form, delivery mechanism or with specialty excipients. In the sterile form, these products are especially rare and require a 503b facility to manufacture them.

Recently, I sold my interest in Polomar and Polomar is now part of a publicly traded company. Following my exit from Polomar, I decided that investing in a 503b pharmacy would be a strategic move – especially given my relationship with Polomar as a potential customer. While I intend to be involved in Orion's business, it has always been my intention for the day-to-day operations at Orion to be managed by an experienced and well-qualified management team. The proposed Henderson, Nevada facility was particularly attractive for a 503b pharmacy because (a) it was previously licensed as a 503b pharmacy (Genesis Pharmaceuticals) and (b) certain target 503a pharmacy customers are located in Nevada and surrounding states. Updating and retrofitting the Henderson, Nevada facility would be significantly cheaper and less time-consuming than building out a brand-new facility. Additionally, locating in Nevada would also simplify shipping and logistical concerns.

At the hearing, a member of the Board asked about the anticipated capital investment to start the Orion operation. I believe that I may have misunderstood the question. To date, Orion has invested more than $600,000 to make improvements to the Henderson facility, hire qualified people, purchase equipment, license software, prepare SOPs and address other requirements associated with the operation of a 503b pharmacy. The $250,000 figure that I cited during the presentation was the amount of money remaining to be invested in preparation for operational readiness. This would include sterility/stability testing, equipment qualification, etc.

Demand for Compounded Testosterone Products

During the hearings, a question was raised as to need for "compounded" testosterone products when testosterone is commercially available. The reality is that the compounded testosterone market has grown rapidly in recent years in response to certain limits associated with commercially manufactured testosterone – primarily that such commercially manufacture products come in a limited quantity of fixed doses and fixed delivery systems. However, hormone replacement therapy is highly individualized. Patients differ in terms of their metabolism and symptom response. As a result, custom dosing and custom formulations offered by compounding pharmacies are sought after by many patients (and, as a result, by many 503a compounding pharmacies). Orion intends to offer compounded versions of testosterone that are not commercially available, including sublingual formulations and injectables at different dosing levels. Such "personalized but regulated" products have a large market opportunity and Orion has identified a number of 503a compound pharmacy customers that have expressed interest in its intended compounded testosterone offerings.

Orion's Management Team

As stated earlier, Orion is committed to the highest quality of operations, including having a management team that is strong and experienced in pharmaceutical compounding, cGMP compliance and overall best practices. I am not a pharmacist and do not profess to have vast experience in the sector. That is why Orion has assembled a top-quality management team for its operations. Unfortunately, this was not clearly communicated at the hearing. The Board had the opportunity to hear from one of our "consultants" John Hartwig. Unfortunately, what was not clearly communicated to the Board at the hearing is that Mr. Hartwig, together with Chris Musser, have been in the process of transitioning their roles from "consultants" to "employees" of Orion. This process has now been completed and both Mr. Hartwig and Mr. Musser, in addition to maintaining key managerial and oversight roles at Orion, are also shareholders of Orion. Mr. Musser, a licensed Nevada pharmacist with extensive experience in 503b compounding pharmacies, is the Vice President of Pharmacy Operations. As Orion's Designated Representative, Mr. Musser will be responsible for overseeing all aspects of the compounding process, including supervision of the pharmacist in charge. Mr. Hartwig is the Vice President of Technical Operations. Mr. Hartwig has over twenty years of experience in the design and build out of pharmaceutical manufacturing facilities, including for some of the largest pharmaceutical companies in the world. In this role, Mr. Hartwig will oversee matters pertaining to the physical plant, quality inspections and cGMP requirements relating to the same. In addition to Mr. Hartwig and Mr. Musser, Orion has also hired a Director of Quality Control and will add licensed Sterile Pharmacy Techs to its operations. Orion expects that under Mr. Hartwig's and Mr. Musser's day-to-day management, it will perform in full compliance with Nevada regulations, FDA requirements and cGMP standards. Copies of Mr. Musser's and Mr. Hartwig's CVs are enclosed herein for review.

Pharmacist in Charge

As disclosed in its application, Orion hired Justin Curnutt to serve as the Pharmacist in Charge. Dr. Curnutt is a licensed pharmacist in the State of Nevada. He reports to Mr. Musser. Dr. Curnutt has experience in pharmacy operations and management. He is well versed in federal requirements and laws as well as cGMP requirements. To reaffirm Dr. Curnutt's commitment to his role, he has voluntarily engaged in cGMP training courses to build his knowledge base and expertise. Working in conjunction with Mr. Musser and Mr. Hartwig, Orion remains confident that Dr. Curnutt will be a strong pharmacist-in-charge.

Updates to Orion License Application

At the March hearing, there appeared to be some confusion as to certain information contained in Orion's application, as amended. For the convenience of all parties involved, I have attached hereto an updated license application for the Board to use going forward.

Once again, I would like to thank you for your patience with our application as well as for your understanding of the extenuating circumstances that interfered with our last appearance before the Board. I would respectfully request that Orion's application be placed on the agenda for the April Board meeting at which time both Mr. Hartwig and Mr.

Musser will be present, in person, to address any questions or concerns that the Board may have. In the interim, please feel free to contact the undersigned should you have any additional questions.

Thank you.

Notes

1. The "initial date of registration as an outsourcing facility" is the date the facility was first registered (i.e., the date FDA determined that the initial registration information submitted for the facility was complete, and the establishment fee was paid in full).

   Under section 503B(b) of the FD&C Act, after the initial registration, a facility that elects to continue to be registered with FDA as an outsourcing facility must re-register annually. A facility that elects to register (or re-register) with FDA as an outsourcing facility must pay an annual establishment fee. The "date of most recent registration as an outsourcing facility" reflects the date FDA determined the most recently submitted registration information was complete and the annual establishment fee for that fiscal year paid in full.

   Unless a previously registered outsourcing facility re-registers and pays the annual establishment fee in full during the registration period (between October 1 and December 31 of each calendar year), the facility will be removed from the list of registered outsourcing facilities on January 1 of the next calendar year.

2. Once an outsourcing facility is registered, the facility will be added to the list of facilities FDA intends to inspect according to a risk-based schedule. FDA plans to inspect outsourcing facilities within a reasonable period of time following initial registration, once it is confirmed that the facility has initiated drug production and distribution. However, the exact timing of the inspections can be affected by a number of variables, including the number of outsourcing facility registrants, other inspection priorities, and the operational status of the newly registered outsourcing facility.

   Inspections identified in this table are associated with the facility at the listed address. A company may own or operate more than one registered outsourcing facility. FDA's web page Compounding: Inspections, Recalls, and other Actions (/node/363232) may contain information about compounding facilities under the same ownership as the listed registered outsourcing facility.

   Inspections may take place over several days, weeks or longer. The date of the inspection is the date a Form FDA 483 listing the investigators' observations was issued. If no FDA Form 483 was issued, the date is the last day of the inspection.

3. A Form FDA 483 is issued when investigators observe any significant objectionable conditions. It does not constitute a final agency determination of whether any condition is in violation of the FD&C Act or any relevant regulations.
4. This table does not include State Board of Pharmacy actions, if any. To determine whether a registered outsourcing facility has been the subject of a state enforcement action, check with the State Board of Pharmacy for the state in which the facility is located. Some states post disciplinary or other actions on their web sites.
5. "Closed" means the inspection has been closed without further action. "Open" means FDA has not determined whether further action will be taken. If an action has been taken, it will be listed. Possible FDA actions include warning letter, seizure or injunction.
6. The information in this column was provided by the registered outsourcing facility at the time of registration and has not been verified by FDA. "N/A" indicates the registered outsourcing facility has not provided this information.
7. This outsourcing facility was the subject of at least one previous inspection relating to compounding that resulted in a Form FDA 483, warning letter or other action. For information about such inspections and resulting actions, visit Compounding: Inspections, Recalls, and other Actions (/node/363232).
8. A remote regulatory assessment (RRA) is an examination of an FDA-regulated establishment and/or its records, conducted remotely, to evaluate compliance with applicable FDA requirements. These assessments assist in protecting human and animal health, inform regulatory decisions and verify certain information submitted to the agency.
9. Based on inspectional findings, the inspection revealed significant issues. As a result, the outsourcing facility may have either initiated a recall on their own following conversation(s) with the FDA investigator or FDA recommended a recall at the conclusion of the inspection or both. Additionally, the outsourcing facility may have conducted multiple recalls or recalled multiple drugs.

All these offenses were theft charges (theft by deception) the theft was writing checks that were returned as non-sufficient funds. I was in a time in my life when I was irresponsible, not living the best life and one hundred percent my fault. Yes, I was arrested for this. After being arrested and charged I showed up to each court date and paid all fines and completed my probation. I have included printouts of the cases and that I fulfilled all my obligations.

I recognize that my actions were wrong and caused harm to others and myself. The choices to commit these actions stemmed from various factors, including personal struggles, poor decision-making, and influences from my environment. At the time, I failed to consider the consequences or the impact this would impose and myself and others.

Since then, I have taken significant steps toward understanding my actions. I have sought counseling and support to address the underlying issues that contributed to my behavior. Through this process, I have gained insight into my motivations and developed healthier coping mechanisms.

For the past 17 years I have committed to making better choices. I have learned the value of responsibility and the importance of considering how my actions affect my life and others. I am determined to contribute positively to my community and avoid any circumstances that could lead me down the wrong path again. I understand that trust takes time to rebuild, and I am dedicated to proving my commitment to change through my actions.

Provide explanation below:

All these offenses were theft charges (theft by deception) the theft was writing checks that were returned as non-sufficient funds. I was in a time in my life when I was irresponsible, not living the best life and one hundred percent my fault. Yes, I was arrested for this. After being arrested and charged I showed up to each court date and paid all fines and completed my probation. I have included printouts of the cases and that I fulfilled all my obligations.

I recognize that my actions were wrong and caused harm to others and myself. The choices to commit these actions stemmed from various factors, including personal struggles, poor decision-making, and influences from my environment. At the time, I failed to consider the consequences or the impact this would impose and myself and others.

Since then, I have taken significant steps toward understanding my actions. I have sought counseling and support to address the underlying issues that contributed to my behavior. Through this process, I have gained insight into my motivations and developed healthier coping mechanisms.

For the past 17 years I have committed to making better choices. I have learned the value of responsibility and the importance of considering how my actions affect my life and others. I am determined to contribute positively to my community and avoid any circumstances that could lead me down the wrong path again. I understand that trust takes time to rebuild, and I am dedicated to proving my commitment to change through my actions.

The overall QA/QC Program is reviewed at least once every 12 months by the Designated Person(s); the review is documented, and corrective actions are taken if needed. [USP 797 Section 17 & 18]	N/A

W. HAZARDOUS DRUG HANDLING & COMPOUNDING – ALL CATEGORIES

DESIGNATED PERSON: The entity has a Designated Person who is qualified and trained to be responsible for implementing appropriate HD procedures, overseeing compliance with USP 800 requirements, ensuring environmental control of the storage and compounding areas, monitoring HD facility operations, testing, and acting on results. [USP 800 Section 4]	
HAZARD COMMUNICATION PROGRAM (HCP): Facility has SOPs to ensure effective training regarding proper labeling, transport, storage, and disposal of HDs and use of Safety Data Sheets. The HCP and HD SOPs include a written plan describing 1) how USP 800 requirements are implemented, 2) HD chemical container labeling with the identity of the material and appropriate hazard warnings, 3) readily accessible location of HD chemical SDSs known and accessible by all personnel, 4) HD risk training and information provided to all personnel with HD exposure risk before initial HD handling work assignment and whenever hazard changes, 5) personnel of reproductive capability written acknowledgement of understanding of HD handling risks. [USP 800 Section 8]	
LIST OF HAZARDOUS DRUGS & ASSESSMENT OF RISK: Facility maintains a list of HDs that includes any items on the current NIOSH that the entity handles. The list is reviewed every 12 months and whenever a new agent or dosage form is used. All HD drugs follow the requirements of USP 800 unless an assessment of risk (AOR) is performed. If an assessment of risk approach is taken, the entity must documents what alternative containment strategies and/or work practices are being employed for specific dosage forms to minimize occupational exposure. The AOR minimally contains the type of HD, dosage form, risk of exposure, packaging, and manipulation considerations. The HD drug list & AOR is reviewed at least every 12 months and whenever a new agent or dosage form is used. [USP 800 Section 2]	
CONTAINMENT REQUIREMENTS: All antineoplastic HDs requiring manipulation and HD active pharmaceutical ingredients (APIs) on the NIOSH list follow all the requirements of USP 800. [USP 800 Section 2, Box 1]	
HD HANDLING, RECEIPT & STORAGE SOPs: SOPs are created and followed for the safe handling of HDs used by the facility. [USP 800 Section 17]	
HD HANDLING AREAS, SIGNAGE, & ACCESS: Signage designating HD handling areas are prominently displayed and access to HD handling areas is restricted to authorized personnel. Designated areas are available for receipt, unpacking, storage, and sterile compounding of HDs. [USP 800 Section 5]	
HD STORAGE: HDs are stored to prevent spillage or breakage, off floors, and in areas appropriate for natural disasters. Antineoplastic HDs and HD API are stored separately from non-HDs to prevent contamination and personnel exposure. HD storage areas are externally ventilated and negative-pressure rooms with at least 12 ACPH. Refrigerated antineoplastic HDs are stored in a dedicated refrigerator, in a negative prassure area with at least 12 ACPH. Pass through refrigerators are not used. [USP 800 Section 5.2]	

STERILE HDs COMPOUNDED IN A C-SCA: C-SCA maintains a minimum of 12 ACPH of HEPA- filtered air and has negative pressure to adjacent areas of -0.01" w.c. to -0.03" w.c. [USP 800, sections 5.3.2 Table 3]	
C-SEC DESIGN AND ENGINEERING CONTROLS: The C-SEC has fixed walls physically separated from other preparation areas, is externally ventilated has 30 ACPH, and negative pressure to adjacent areas of -0.01" w.c. to -0.03" w.c. [USP 800 Section 5.3.2 Table 3]	
C-SEC ACCESS: The Ante Room used for entry into the negative pressure buffer room has fixed walls and maintains a minimum of 30 ACPH of HEPA-filtered air, positive pressure of +0.02" w.c. to all adjacent unclassified areas, and ISO7 or better classification. Alternatively, a negative-pressure HD buffer entered exclusively through a positive pressure non-HD buffer room contains a line of demarcation (LOD) within the negative-pressure buffer room for donning/doffing HD PPE and a method a transport of HDs, HD CSPs, and HD waste into and out of the HD buffer (e.g., pass-through chamber). Pass through chambers are included in semi-annual facility certification. [USP 800 Section 5.3.2]	
C-SEC SINK & SAFETY EQUIPMENT: A sink is available for hand washing and an eyewash station and/or other emergency safety precautions meeting applicable laws and regulations are readily available and located where operation does not interfere with ISO classifications. Sinks are located at least 1 meter from the entrance into the buffer room (or at least 1 meter from the C-PEC in a C-SCA). [USP 800 Sections 5.3 & 5.3.2]	
C-PEC LOCATION, VENTING, & OPERATION: All C-PECs used for sterile HD compounding (e.g., CACIs or BSCs), are located within a C-SEC or C-SCA, externally vented, and maintain an ISO 5 or better air quality. C-PECs operate continuously if supplying some or all the negative pressure in the C-SEC or if used for sterile compounding. During power outages, repairs, or relocation, C-PEC use is suspended immediately. Once C-PEC power is restored, all PEC surfaces are decontaminated, cleaned, and disinfected, and compounding is not resumed until the manufacturer's specified recovery time has elapsed. [USP 800 Section 5.3.2]	
REQUIRED HD PPE: When compounding HDs, gowns, head, hair, shoe covers, and two pairs of chemotherapy gloves are donned per facility SOPs. Chemotherapy gloves are tested to ASTM standard D6978 (or its successor) and are powder free and two pair of chemotherapy gloves are donned per SOP. Gloves are inspected for physical defects. Gloves are changed when torn, punctured, or contaminated. Personnel wash hands with soap and water after removing gloves. HD gowns are disposable, resistant to permeability by HDs, close in back, are long sleeved, closed cuff, and seamless. Gowns are changed per manufacturer's permeation information; if no data is available, HD gowns are change every 2-3 hours or immediately after a spill or splash. Gowns are limited to HD handling areas and are donned over the sterile compounding garment. When compounding, a second pair of shoe covers is donned before entering the C-SEC and doffed when exiting the C-SEC. HD PPE is disposed of appropriately prior to exiting the C-SEC. Chemotherapy gloves and sleeve covers (if used during compounding) are carefully removed and discarded immediately into an appropriate waste container inside of the C-PEC or contained in a sealable bag for discarding outside of the C-PEC. Reusable PPE is decontaminated and cleaned after each use. [USP 800 Section 7]	
EYE AND FACE PROTECTION: Appropriate eye (goggles) and face protection (face shield) are worn when there is a risk for spills or splashes or when working outside of a C-PEC. Surgical masks are not used when respiratory protection is required per SOP and/or AOR as protection from HD exposure. [USP 800 Section 7.4]	
HD TRAINING & COMPETENCY ASSESSMENT: Personnel who handle HDs are trained and demonstrate competency initially before independently handling HDs, annually, and when a new HD medication, process, SOP, or equipment is introduced. Training minimally includes an overview of the entity's HD list and their risks; review of HD SOPs; proper use of PPE, equipment, and devices; prevention of HD exposures and spills; HD exposure and spill response; use of a spill kit, PPE, and NIOSH-certified respirators; and HD disposal. Based on job duties, personnel receive additional HD training in HD acquisition and receipt, preparation, compounding, dispensing, labeling, storage, and transport. Training and competency assessments are documented. [USP 800 Sections 8, 9, 11.1, 16, & 17]	
HD ATTESTATION: Personnel of reproductive capability have a written acknowledgement attesting to their understanding of HD handling risks. [USP 800 Section 8]	
DEDICATED HD EQUIPMENT: Disposable or cleanable equipment for compounding (e.g., mortar and pestle, graduated cylinder, spatulas) is dedicated for use with HDs. [USP 800 Section 13]	
NON-HD COMPOUNDING IN A C-PEC: Non-HDs compounded in a HD C-PEC are placed in protective outer wrapping, labeled for PPE handling precautions, and treated as an HD. The C-PEC worksurface is decontaminated between compounding of different HDs. [USP 800 Section 5.3.2 and Table 3]	
DEACTIVATION, DECONTAMINATION, CLEANING & DISINFECTION (D/D/C/D): Areas where HDs are handled and all reusable equipment and devices are deactivated/decontaminated, and cleaned. Sterile compounding areas and devices are subsequently disinfected. Written procedures for decontamination, deactivation, cleaning, and disinfection are available and followed. Procedures include agents used, dilutions (if used), frequency, and documentation requirements. Agents selected are appropriate for the type of HD contamination(s), location, and surface materials. Sterile 70% IPA is used to remove residue left on sterile surfaces and compounding areas by decontaminating agents. [USP 800 Section 15]	
D/D/C/D TRAINING & PPE REQUIREMENTS: Personnel are trained in deactivation/decontamination, cleaning, and disinfection to protect themselves and the environment from contamination. Personnel wear appropriate PPE resistant to cleaning agents used, including 2 pairs of ASTM-tested chemotherapy gloves and impermeable disposable gowns. Eye protection and face shields are worn if splashing may occur. [USP 800 Section 15]	
C-PEC D/D/C/D: C-PEC is decontaminated at least daily (when used), after as spill, before and after certification, voluntary interruption, or if ventilation tool is removed. The C-PEC worksurface is decontaminated between compounding of different HDs. The area under the work tray of a C-PEC is deactivated, decontaminated, and cleaned at least monthly. [USP 800 Section 15.2]	
HD LABELING, PACKAGING, TRANSPORT & SPILLS HANDLING: Facility follows SOP for the labeling, handling, packaging, and transport of HDs which addresses the prevention of spills/exposures, training for exposure, and spill handling. HD CSPs are identified as hazardous and labeled with special handling precautions. Labeling process for compounded HD products does not introduce contaminated materials into non-HD areas. [USP 800 Section 11 & 11.2]	
SPILL KITS, & SINGAGE: Spill kits are readily available with appropriate supplies, PPE, and signs to restrict access to affected areas. restriction posted, and documentation of spills occur when needed. [USP 800 Section 16]	

X. LYOPHILIZATION

A recorded smoke study is available and demonstrates that transport from the PEC to the lyophilizer is accomplished in ISO 5 laminar flow air at all times. [64B16-27.797(5) F.A.C.]	
The pharmacy has established and follows policies and procedures for the high-level disinfection of the lyophilizer chamber, piping, and all other areas of the unit which pose a potential risk for contamination of the product. [64B16-27.797(5) F.A.C.]	
The pharmacy validated the high-level disinfection procedure initially, and after changes to the cleaning process or agents. Documentation of studies is available for inspection. [64B16-27.797(5) F.A.C.]	
Validation studies for high level disinfection are performed with the 5-aerobic bacterial and fungal ATCC organisms referenced in USP<71> are conducted by an external vendor unless the firm has an internal laboratory capable of performing the studies. An internal laboratory is separate from the compounding and work areas of the pharmacy to prevent contamination in the pharmacy. [64B16-27.797(5) F.A.C.]	
Policies and procedures are established and followed for cleaning the lyophilizer prior to disinfection and include cleaning agents and schedules. Documentation of cleaning is maintained and available for inspection. [64B16-27.797(5) F.A.C.]	

Policies and procedures are established for the maintenance of the lyophilizer and at a minimum include the manufacturers recommendations. [64B16-27.797(5) F.A.C.]	
The maintenance schedule includes provisions for periodic testing of the chamber for leaks and all other recommended procedures described by the equipment manufacturer. Documentation of routine maintenance is available for inspection. [64B16-27.797(5) F.A.C.]	
SOPs and quality assurance program established to include validation of the filling process, container closure integrity, frequent monitoring of fill volumes, identification of over fills and underfills, assessment of personnel involved in compounding for lyophilization, equipment qualification, formula verification, and evaluation of finished product for conformance to specifications. [64B16-27.797(5) F.A.C.]	
The pharmacy has provisions for sterilizing, with filters, the inert gas or air used for backfilling during the vacuum release phase. These Sterilizing filters undergo the manufacturers recommended integrity test. [64B16-27.797(5) F.A.C.]	
Media fills are conducted every six months using the maximum batch size and demonstrate the filling, transport to the lyophilizer, loading and stoppering operations. Media is NOT frozen during the media fill operation. [64B16-27.797(5) F.A.C.]	
Personnel preparing sterile compounds for lyophilization wear sterile Personal Protective Equipment that covers all exposed skin. [64B16- 27.797(5) F.A.C.]	
Glove Fingertip Sampling is performed with every batch after fill and transport into the lyophilizer on all personnel compounding for lyophilization. The results are incorporated into the batch record. [64B16-27.797(5) F.A.C.]	
In-process acceptance criteria such as color, moisture limits and visual appearance are established for each lyophilized product. [64B16- 27.797(5) F.A.C.]

PillPack, LLC - Pharmacy Disciplinary Summary

In December 2014 PillPack, Inc.'s renewal for the out of state pharmacy license for Alabama was denied as there was a change of rule that required that PillPack, Inc. have an Alabama licensed pharmacist named on the permit. PillPack, Inc. immediately contacted the Alabama board and informed them they would have two pharmacists licensed as soon as possible. The Board indicated that the facility would still be able to ship during the interim period. Two pharmacists were scheduled to appear before the board at their February meeting. Unfortunately the February meeting was canceled due to inclement weather in Alabama. The pharmacists attended the March meeting and both were granted an Alabama pharmacist license. PillPack, Inc. assumed that the denied application would then be approved. This was not the case and upon checking with the board PillPack, Inc. was told they would have to resubmit the renewal license application, which was done. When PillPack, Inc. received their new license they were cited for shipping medication to Alabama without an active license and asked to sign a consent form with a $500.00 penalty. PillPack, Inc. signed off on that order and paid the administrative fee. The PIC for Alabama was also assessed a $500.00 fee and a similar consent form.

On November 2, 2021, PillPack by Amazon Pharmacy located at 250 Commercial Street, Suite 2012, Manchester, New Hampshire 03101 (the "Pharmacy"), entered into Agreed Board Order #2019-05709 with the Texas Board of Pharmacy to resolve allegations that a pharmacist incorrectly verified the data entry of a new facsimile prescription for a patient calling for a look-alike sound-alike medication. This letter constitutes notice of the Texas Board of Pharmacy's imposition of a reprimand requiring that the Pharmacy implement a Continuous Quality Improvement Program for purposes of preventing and handling dispensing errors. A copy of the Agreed Board Order is attached for your reference. Importantly, the Board's Order does not impose any restrictions on the Pharmacy's ability to provide pharmacy services.

On May 2, 2022, PillPack LLC entered into a settlement with the federal government related to how it dispensed and billed for insulin pen prescriptions from 2014 to November 2019. Patient health and wellness is at the core of everything we do. A 2019 review of our insulin pen dispensing and billing practices indicated that some customers may have received more insulin pens than their pharmacy benefits plan allowed. This review resulted in Amazon Pharmacy changing its practice. Amazon Pharmacy's historical practices did not have an impact on patient safety and neither patients nor the government were charged for more insulin pens than what was dispensed. It should be noted that nothing in this settlement impacts Amazon Pharmacy's ability to practice pharmacy or serve customers.

On June 20, 2022, PillPack by Amazon Pharmacy located at 250 Commercial Street, Suite 2012, Manchester, New Hampshire 03101 (the "Pharmacy"), entered into a Settlement Agreement with the Hawaii Board of Pharmacy (the "Settlement Agreement"). This Settlement Agreement was accepted by the Hawaii Board of Pharmacy on July 29, 2022. This Settlement Agreement is a result of follow-on discipline from the Hawaii Board of Pharmacy related to discipline the Pharmacy received from the Texas Board of Pharmacy on November 5, 2021. We previously notified you of the underlying Texas discipline on November 5, 2021. Importantly, the Board's Order does not impose any restrictions on the Pharmacy's ability to provide pharmacy services.

On December 24, 2022, The Missouri State Board of Pharmacy has elected to enter into a settlement agreement with PillPack LLC dba PillPack by Amazon Pharmacy [MO permit number 2018043786], effective

December 24, 2022 as a follow-on to the settlement agreement entered into between PillPack LLC and the federal government, related to how the pharmacy dispensed and billed for insulin pen prescriptions from 2014 to November 2019, a notice of which was provided to this board on or about 5/2/2022. This discipline is a Public Censure and it should be noted that nothing in the aforementioned settlement impacts Amazon Pharmacy's ability to practice pharmacy or serve customers.

On June 21, 2023, The Hawaii Regulated Industries Complaints Office (RICO) elected to enter into a settlement agreement with PillPack LLC dba PillPack by Amazon Pharmacy [HI permit numbers PMP-891, PMP-1728, PMP-1579, PMP-1760, PMP-1790, PMP-1839], as a follow-on to the settlement agreement entered into between PillPack LLC and the federal government, related to how the pharmacy dispensed and billed for insulin pen prescriptions from 2014 to November 2019, a notice of which was provided to this board on or about 5/2/2022.
It should be noted that nothing in the aforementioned negotiation impacts Amazon Pharmacy's ability to practice pharmacy or serve customers.

On June 28, 2023, PillPack LLC dba PillPack by Amazon Pharmacy [NH permit 0796] entered into a Settlement Agreement with the U.S. Department of Justice ("DOJ"). This Settlement resolves alleged violations of the recordkeeping provisions of the Controlled Substances Act made by the Drug Enforcement Administration based on an inspection conducted in October 2020. Amazon Pharmacy has cooperated with the DOJ in coming to this resolution and continues to take patient safety and compliance seriously.
It should be noted that nothing in this Settlement Agreement impacts Amazon Pharmacy's ability to practice pharmacy or service customers.

On February 14, 2024, PillPack entered into a Settlement Agreement with the Office of Inspector General (OIG). This settlement is a result of voluntary self-disclosures to the OIG in 2022 and 2023. The first disclosure related to the OIG's contention that the Pharmacy accepted and honored pharmaceutical manufacturers' copayment coupons and other copayment assistance programs for federal health care payers between January 1, 2017 and June 30, 2022. The second relates to OIG's contention that during the period from November 2, 2017 through January 2, 2023, PillPack provided prescription drugs exceeding the prescribed amount in certain circumstances and billed Medicare, Medicaid, and TRICARE for those prescription drugs. Both self-disclosures impacted a very small percentage of billed claims. The settlement reflects OIG's determination that PillPack receive a benefit for voluntarily disclosing the conduct and cooperating with the agency in the resolution of the matter. PillPack remains committed to patient safety and operating in full compliance with all applicable rules and regulations. This Agreement is not an admission of liability by PillPack. It should be noted that nothing in this Settlement Agreement impacts PillPack's ability to practice pharmacy or service customers.

On April 23, 2024, The Hawaii Regulated Industries Complaints Office (RICO) elected to enter into its own settlement agreement with PillPack LLC dba PillPack by Amazon Pharmacy (HI permit numbers PMP-891) as a follow-on to the settlement agreement entered into between PillPack LLC dba PillPack by Amazon Pharmacy and the U.S. Department of Justice ("DOJ"), related to the resolution of alleged violations of the recordkeeping provisions of the Controlled Substances Act made by the Drug Enforcement Administration based on an inspection conducted in October 2020, a notice of which was provided to this board on or about 6/28/2023. It should be noted that nothing in the aforementioned negotiation impacts Amazon Pharmacy's ability to practice pharmacy or serve customers.

On February 19, 2025, PillPack LLC dba PillPack by Amazon Pharmacy [IL permit 054.021076]

entered into a Settlement Agreement with the Illinois Department of Financial and Professional Regulation. This Agreement is a follow-on to previously reported matters between PillPack LLC and the Texas Board of Pharmacy, the Southern District of New York, and the Department of Justice. Each of the aforementioned matters were previously reported to this board. Amazon Pharmacy has cooperated with the Illinois Department of Financial and Professional Regulation in coming to this resolution, and remains committed to patient safety and operating in full compliance with all applicable rules and regulations. This Agreement is not an admission of liability by Amazon Pharmacy. Nothing in this Settlement Agreement impacts Amazon Pharmacy's ability to practice pharmacy or service customers.

		FACILITY	08/24/2025	California Board of Pharmacy (Case #: CI 2025 109318) Effective August 24, 2025, the California Board of Pharmacy ("Board of Pharmacy") finalized a Citation and Fine to Alto Pharmacy (license# PHY 58888). Notably, Alto neither admitted nor denied the allegations brought by the California Board of Pharmacy but agreed to pay a $5,000 fine. This Administrative action resolved allegations that Alto dispensed controlled substance prescriptions to patients in California pursuant to orders from prescribers who did not possess a valid license to practice medicine and prescribe in California at the time. Alto's California Pharmacy Permit remains active, in good standing and unrestricted. Upon receipt of the fine, the Board of Pharmacy considered the matter closed and took no further action. As part of its internal corrective and preventive action plan, Alto implemented additional training for pharmacy staff to ensure verification of valid prescriber licensure is conducted pursuant to Board regulations and industry standards. Alto remains fully committed to complying with all applicable federal and state regulations and maintaining transparent communication with regulatory entities. Alto Pharmacy LLC - Los Angeles, California				
		FACILITY	08/24/2025	California Board of Pharmacy (Case #: CI 2025 109321) Effective August 24, 2025, the California Board of Pharmacy ("Board of Pharmacy") finalized a Citation and Fine to Alto Pharmacy (license# PHY 58642). Notably, Alto neither admitted nor denied the allegations brought by the California Board of Pharmacy but agreed to pay a $5,000 fine. This Administrative action resolved allegations that Alto dispensed controlled substance prescriptions to patients in California pursuant to orders from prescribers who did not possess a valid license to practice medicine and prescribe in California at the time. Alto's California Pharmacy Permit remains active, in good standing and unrestricted. Upon receipt of the fine, the Board of Pharmacy considered the matter closed and took no further action. As part of its internal corrective and preventive action plan, Alto implemented additional training for pharmacy staff to ensure verification of valid prescriber licensure is conducted pursuant to Board regulations and industry standards. Alto remains fully committed to complying with all applicable federal and state regulations and maintaining transparent communication with regulatory entities. If you require any additional information, please contact us via email at pharmacycompliance@alto.com.
		FACILITY	07/14/2023	California Board of Pharmacy (Case #: CI 2021 95943) On December 28, 2023, the California Board of Pharmacy ("Board of Pharmacy") issued a dismissal of the Citation and Fine, in which the Board of Pharmacy alleged, on or about July 14, 2023, the Licensee failed to update their pharmacy systems and inventory indicating a certain prescription drug was not available for dispensing to a patient requesting the medication, thus delaying the receipt of the prescription medication for the patient. Alto Pharmacy's California Resident Pharmacy Permit remains active, in good standing and unrestricted.

Upon receipt of any such prescription, the pharmacist shall contact the prescriber to obtain the information needed to validate the prescription. (b) Even after conferring with the prescriber, a pharmacist shall not compound or dispense a controlled substance prescription where the pharmacist knows or has objective reason to know that said prescription was not issued for a legitimate medical purpose. Alto Pharmacy (PHY 58642) located at 5916 Bowcroft Street, Los Angeles, failed to comply. Specifically, an investigation involving records from 05/10/2021 – 09/13/2024 found Alto Pharmacy had a policy in place in which prescriptions were reviewed in two parts, data verification and product verification. Additionally, the data check pharmacist was responsible for corresponding responsibility tasks to ensure the dispensing of only legally prescribed controlled substances issued by providers to patients with established medical relationships and according to a legitimate medical purpose. Product verification was performed by a pharmacist who was responsible for the final verification of prescriptions before dispensing to ensure the product to be dispensed matched what was outlined on the label, was in good saleable condition, and was appropriately packaged. Alto Pharmacy LLC - San Diego, California				
		FACILITY	08/24/2025	California Board of Pharmacy (Case #: CI 2025 109319) Effective August 24, 2025, the California Board of Pharmacy ("Board of Pharmacy") finalized a Citation and Fine to Alto Pharmacy (license# PHY 57844). Notably, Alto neither admitted nor denied the allegations brought by the California Board of Pharmacy but agreed to pay a $5,000 fine. This Administrative action resolved allegations that Alto dispensed controlled substance prescriptions to patients in California pursuant to orders from prescribers who did not possess a valid license to practice medicine and prescribe in California at the time. Alto's California Pharmacy Permit remains active, in good standing and unrestricted. Upon receipt of the fine, the Board of Pharmacy considered the matter closed and took no further action. As part of its internal corrective and preventive action plan, Alto implemented additional training for pharmacy staff to ensure verification of valid prescriber licensure is conducted pursuant to Board regulations and industry standards. Alto remains fully committed to complying with all applicable federal and state regulations and maintaining transparent communication with regulatory entities. CONDUCT:

Dispensing prescriptions with irregularities: California Code of Regulations Section 1761 states in subdivisions, (a) No pharmacist shall compound or dispense any prescription which contains any significant error, omission, irregularity, uncertainty, ambiguity or alteration. Upon receipt of any such prescription, the pharmacist shall contact the prescriber to obtain the information needed to validate the prescription. (b) Even after conferring with the prescriber, a pharmacist shall not compound or dispense a controlled substance prescription where the pharmacist knows or has objective reason to know that said prescription was not issued for a legitimate medical purpose. Alto Pharmacy (PHY 57844), located at 4240 Kearny Mesa Rd., Suite 107, San Diego, failed to comply. Specifically, an investigation involving records from 05/10/2021 – 09/13/2024 found Alto Pharmacy had a policy in place in which prescriptions were reviewed in two parts, data verification and product verification. The data verification was performed by a pharmacist who was responsible for data entry verification including, interpretation of the prescription, validity, legitimacy of prescriber relationship, and appropriateness of drug dosage, route of administration, potential interactions, therapeutic appropriateness, and route of administration. Additionally, the data check pharmacist was responsible for corresponding responsibility tasks to ensure the dispensing of only legally prescribed controlled substances issued by providers to patients with established medical relationships and according to a legitimate medical purpose. Product verification was performed by a pharmacist who was responsible for the final verification of prescriptions before dispensing to ensure the product to be dispensed matched what was outlined on the label, was in good saleable condition, and was appropriately packaged. This investigation determined Alto Pharmacy (PHY 57844) approved the following totals of prescriptions to be dispensed to patients in California, either from their location or from other Alto Pharmacy locations, through data verification performed by Alto Pharmacy (PHY 57844):

Type of prescriptions	Number of prescriptions	Total number of dosage units

Schedule II	13	750
Schedule III	12	1,050
Schedule IV	33	1,184
Totals	**1,051**	**43,982**

Alto Pharmacy dispensed, and/or approved to be dispensed, the above prescriptions to patients in California pursuant to orders from prescribers who did not possess a valid license to practice medicine and prescribe in California. Alto Pharmacy supplied these dangerous drugs and controlled substances without prescriptions as defined in BPC 4040 (a) (2), in that the documents were not issued by prescribers who possessed a valid license to practice and prescribe in California. The prescriptions contained unresolved irregularities, omissions, or uncertainties. This was in violation of CCR 1761.

Furnishing Dangerous Drugs Prohibited Without Prescription: California Business and Professions Code Section 4059 states in pertinent part in subdivision: (a) A person may not furnish any dangerous drug, except upon the prescription of a physician, dentist, podiatrist, optometrist, veterinarian, or naturopathic doctor pursuant to Section 3640.7. 		FACILITY	08/24/2025	California Board of Pharmacy (Case #: CI 2025 109317) Effective August 24, 2025, the California Board of Pharmacy ("Board of Pharmacy") finalized a Citation and Fine to Alto Pharmacy (license# PHY 58263). Notably, Alto neither admitted nor denied the allegations brought by the California Board of Pharmacy but agreed to pay a $5,000 fine. Alto's California Pharmacy Permit remains active, in good standing and unrestricted. Upon receipt of the fine, the Board of Pharmacy considered the matter closed and took no further action. As part of its internal corrective and preventive action plan, Alto implemented additional training for pharmacy staff to ensure verification of valid prescriber licensure is conducted pursuant to Board regulations and industry standards. Alto remains fully committed to complying with all applicable federal and state regulations and maintaining transparent communication with regulatory entities. If you require any additional information, please contact us via email at pharmacycompliance@alto.com.

CONDUCT:

Dispensing prescriptions with irregularities: California Code of Regulations Section 1761 states in subdivisions, (a) No pharmacist shall compound or dispense any prescription which contains any significant error, omission, irregularity, uncertainty, ambiguity or alteration. Upon receipt of any such prescription, the pharmacist shall contact the prescriber to obtain the information needed to validate the prescription. (b) Even after conferring with the prescriber, a pharmacist shall not compound or dispense a controlled substance prescription where the pharmacist knows or has objective reason to know that said prescription was not issued for a legitimate medical purpose. Alto Pharmacy (PHY 58263), located at 645 Harrison St., Suite 200, San Francisco, failed to comply. Specifically, an investigation involving records from 05/10/2021 – 09/13/2024 found Alto Pharmacy had a policy in place in which prescriptions were reviewed in two parts, data verification and product verification. The data verification was performed by a pharmacist who was responsible for data entry verification including, interpretation of the prescription, validity, legitimacy of prescriber relationship, and appropriateness of drug dosage, route of administration, potential interactions, therapeutic appropriateness, and route of administration. Additionally, the data check pharmacist was responsible for corresponding responsibility tasks to ensure the dispensing of only legally prescribed controlled substances issued by providers to patients with established medical relationships and according to a legitimate medical purpose. Product verification was performed by a pharmacist who was responsible for the final verification of prescriptions before dispensing to ensure the product to be dispensed matched what was outlined on the label, was in good saleable condition, and was appropriately packaged. This investigation determined Alto Pharmacy (PHY 58263), approved the following totals of prescriptions to be dispensed to patients in California, from other Alto Pharmacy locations, through data verification performed by Alto Pharmacy (PHY 58263):

Type of prescriptions	Number of prescriptions	Total number of dosage units

Schedule II	24	1,077
Schedule III	25	915
Schedule IV	119	5,036
Schedule V	18	1,230
Totals	**4,328**	**206,338**

Alto Pharmacy approved the above prescriptions to be dispensed to patients in California pursuant to orders from prescribers who did not possess a valid license to practice medicine and prescribe in California. Alto Pharmacy caused these dangerous drugs and controlled substances to be supplied without prescriptions as defined in BPC 4040 (a) (2), in that the documents were not issued by prescribers who possessed a valid license to practice and prescribe in California. The prescriptions contained unresolved irregularities, omissions, or uncertainties. This was in violation of CCR 1761.

Furnishing Dangerous Drugs Prohibited Without Prescription: California Business and Professions Code Section 4059 states in pertinent part in subdivision: (a) A person may not furnish any dangerous drug, except upon the prescription of a physician, dentist, podiatrist, optometrist,

veterinarian, or naturopathic doctor pursuant to Section 3640.7. Alto Pharmacy (PHY 58263), located at 645 Harrison St., Suite 200, San Francisco, failed to comply. Unprofessional conduct: California Business and Professions Code (BPC) Section 4301 states in pertinent parts: The board shall take action against any holder of a license who is guilty of unprofessional conduct or whose license has been issued by mistake. Unprofessional conduct shall include, but is not limited to, any of the following: (c) Gross negligence. (d) The clearly excessive furnishing of controlled substances in violation of subdivision (a) of Section 11153 of the Health and Safety Code (j) The violation of any of the statutes of this state, of any other state, or of the United States regulating controlled substances and dangerous drugs. "Red Flags" Checklist for Pharmacies

YOU MIGHT BE A PILL MILL IF...

Check all that apply:

	(1) Your pharmacy fills a discernable pattern of prescriptions for prescribers who write essentially the same prescriptions for numerous persons, indicating a lack of individual drug therapy
	(2) Your pharmacy operates with limited hours of operation or closes after a certain threshold of controlled substance prescriptions are dispensed, and has overall low prescription dispensing volume.
	(3) Prescriptions presented to the pharmacy are for controlled substances with popularity as street drugs, such as opiates, benzodiazepines, muscle relaxants, psychostimulants, and/or cough syrups, or any combination of these drugs.
	(4) The prescriptions for controlled substances contain nonspecific or no diagnoses.
	(5) The prescriptions are commonly for the highest strength of the drug and/or for large quantities.
	(6) Dangerous drugs or OTC products (such as multi-vitamins or laxatives) are added to the controlled substance prescriptions, maintaining relatively consistent 1:1 ratio of controlled substances to dangerous drugs and/or OTC products dispensed as prescriptions.
	(7) Prescriptions are authorized by the same prescriber with what appears to be different handwriting on the hardcopy prescription drug order forms.
	(8) Upon contact with the prescriber's office, you are unable to engage in comprehensive discussion with the actual prescriber, or he/she is unconcerned about your apprehensions regarding his/her prescribing practices or unwilling to provide additional information, such as treatment goals and/or prognosis with prescribed drug therapy.
	(9) You rely solely on the prescriber's representation, or on the representation of the individual answering the phone at the number on the prescription, that prescriptions are legitimate.
	(10) The prescriber's clinic is not registered as a pain management clinic by the Texas Medical Board, despite routinely receiving prescriptions from the prescriber foropiates, benzodiazepines, and/or muscle relaxants.
	(11) Drugs prescribed are inconsistent with the prescriber's area of practice.
	(12) The prescriber of the drugs is located a significant distance from your pharmacy.
	(13) The prescriber has been subject to disciplinary action by the licensing board, had his/her DEA registration removed, or been subject to criminal action.
	(14) The Texas PMP system indicates that persons are obtaining prescriptions for the same drugs from multiple prescribers or that persons are filling prescriptions for the same drugs at multiple pharmacies.
	(15) The person's address is a significant distance from your pharmacy and/or from the prescriber's office.
	(16) Multiple persons with the same address present prescriptions from the same prescriber.
	(17) Persons pay with cash or credit card more often than through insurance.
	(18) Persons presenting controlled substance prescriptions are doing so in such a manner that varies from seeking routine pharmacy services (e.g., willing to wait in long lines to receive drugs, persons arrive in the same vehicle with prescriptions from same prescriber, one person presents to pick up prescriptions for multiple others, persons refer to drugs by "street names" and/or comment on drug's color, persons seek early refills, persons travel from outside reasonable trade area of pharmacy).
	(19) Your pharmacy charges and persons are willing to pay more for controlled substances than they would at nearby pharmacies.
	(20) Your pharmacy routinely orders controlled substances from more than one drug supplier, or your pharmacy has been discontinued by a drug supplier related to controlled substance orders.
	(21) Sporadic and non-consistent dispensing volume (including zero dispensing) varies from day to day and week to week, and your pharmacy does not maintain operational hours each week on Monday through Friday.
	(22) Your pharmacy employs or contracts security personnel during operational hours to prevent problems.
	(23) Your pharmacy has been previously warned or disciplined by the Texas State Board of Pharmacy for inappropriate dispensing of controlled substances (i.e., corresponding responsibility).

If you checked any of the above items, you should review the laws and rules regarding corresponding responsibility and non-therapeutic dispensing, especially Board rule §291.29, in the law book or on our website: www.pharmacy.texas.gov (click on Texas Pharmacy Rules and Laws). Additional educational material is available at: http://www.pharmacy.texas.gov/Nontherapeutic.asp. Failure of pharmacies and pharmacists to detect patterns of inappropriate dispensing of prescription drugs is unprofessional practice and constitutes grounds for disciplinary action.

BEFORE THE BEFORE THE STATE BOARD OF PHARMACY

IN THE MATTER OF: **DEREK A. SAPONE,** License No. PH.13574 OIE # **2012-37** Respondent.	**FINAL ORDER**

On June 18, 2015, the above licensing board (Board) with a quorum present held a hearing on the Formal Complaint against the above captioned respondent (Respondent). Respondent admitted numerous facts in Memorandum of Agreement and Stipulation of Facts Respondent signed on May 13, 2015 (MOA). The Board takes judicial notice that at the time of the hearing, Respondent's license was active.

Recusals: J. Addison Livingston **Appearances, Witnesses and Exhibits**

ODC Atty:	Patrick Hanks	Respondent's Counsel:	Respondent appeared: Yes ☒ No ☐
Witnesses:	Paulette Bentley	Respondent	
State's Exhibit 1: Notice of Hearing		State's Exhibit 2: MOA with attachments thereto	

FINDINGS OF FACT

The Board adopts the facts as stipulated by Respondent in the MOA. Among the facts to which Respondent admitted in the MOA were: (1) Respondent was charged with felony prescription fraud in Virginia Beach, VA around July 22, 2010, and pled guilty to two misdemeanor counts of prescription fraud around October.24, 2011. On his August 31, 2011, reciprocity application to this Board, Respondent indicated that he had never been charged with a felony or misdemeanor other than a minor traffic offense. In early November, 2011, Respondent was interviewed by a member of this Board and again responded no regarding these matters. (2) Respondent has been disciplined by multiple other state boards of pharmacy. The Board takes judicial notice that Respondent disclosed such other discipline in Respondent's 2014-2015 renewal application submitted to this Board.

CONCLUSIONS OF LAW

The Board has jurisdiction in this matter. Respondent acknowledged in the MOA that Respondent's conduct admitted in the MOA presents sufficient grounds for disciplinary or corrective action under S.C. Code Ann. §§40-43-86(DD)(5), 40-1-110(1)(A), 40-1-110(1)(f), and 40-1-110(1)(h) (2011). The sanctions imposed by this Order are appropriate considering Respondent's prior disciplinary history, conduct admitted in the MOA, and mitigating circumstances set forth in the MOA.

IT IS THEREFORE ORDERED:

1. The Board accepts the MOA.
2. Respondent is assessed a civil penalty of Three Thousand Dollars ($3,000.00), which shall be paid within 90 days of the date of this Order.
3. Respondent is placed on probation for a period of three years from the date of this Order
4. Respondent shall successfully complete the Multistate Pharmacy Jurisprudence Examination within one year of this Order.

STATE OF COLORADO

Case No. 2013-1674

STIPULATION AND FINAL AGENCY ORDER

IN THE MATTER OF DISCIPLINARY PROCEEDINGS REGARDING THE LICENSE TO PRACTICE PHARMACY IN THE STATE OF COLORADO OF DEREK A. SAPONE, R.PH., LICENSE NO. PHA 19660,

Respondent.

IT IS HEREBY STIPULATED AND AGREED by and between the Colorado State Board of Pharmacy ("Board") and Derek A. Sapone, R.Ph. ("Respondent") to resolve all matters pertaining to Board Case Number 2013-1674, as follows:

FINDINGS AND CONCLUSIONS

1. The Board has jurisdiction over Respondent, his license to practice pharmacy, and the subject matter of this Stipulation and Final Agency Order ("Final Agency Order") pursuant to provisions of the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act at Title 12, Article 42.5, C.R.S. (2012).

2. Respondent was originally licensed to practice as a pharmacist in the State of Colorado on or about September 12, 2012, being issued license number PHA 19660, and has been so licensed at all times relevant to this disciplinary action.

3. Respondent admits these findings and hereby waives any further proof in this or any other proceeding before the Board regarding the following facts.

4. On August 16, 2012, Respondent, by his own admission, knowingly misled the Board on an application for pharmacist licensure when he failed to disclose the fact that he pled guilty to two counts involving "Obtaining Drugs by Fraud" in Virginia on October 24, 2011.

5. Respondent admits that his conduct, as set forth above, constitutes violations of the following sections of the Colorado Revised Statutes and Board Rules, and provides grounds for disciplinary action against Respondent's Colorado pharmacist license:

Colorado Revised Statutes

12-42.5-123. Unprofessional conduct - grounds for discipline.

(1) The board may suspend, revoke, refuse to renew, or otherwise discipline any license or registration issued by it, after a hearing held in accordance with the provisions of this section, upon proof that the licensee or registrant:

(a) Is guilty of misrepresentation, fraud, or deceit in procuring, attempting to procure, or renewing a license or registration;

(d) Is unfit or incompetent by reason of negligence or habits, or for any other cause, to practice pharmacy;

(e) Is addicted to, dependent on, or engages in the habitual or excessive use or abuse of intoxicating liquors, a habit-forming drug, or a controlled substance, as defined in section 18-18-102(5), C.R.S.

12-42.5-124. Disciplinary actions. (1) The board may deny or discipline an applicant, licensee, or registrant when the board determines that the applicant, licensee, or registrant has engaged in activities that are grounds for discipline.

12-42.5-126. Unlawful acts

(1) It is unlawful:

(c) To willfully make a false statement in any order, report, application, or record required by this article.

Pharmacy Board Rules and Regulations

1.00.12 A pharmacist shall not be a party or accessory to nor engage in any fraudulent or deceitful practice or transaction in pharmacy, nor knowingly participate in any practice which detrimentally affects the patient, nor discredit his/her profession.

6. The Board finds and concludes, and Respondent agrees, that based upon Respondent's above-described violations of the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act and relevant rules and regulations, the following discipline is just and appropriate under the circumstances.

DISPOSITION

7. **Relinquishment of License.** Respondent consents to the Board's entry of this Final Agency Order whereby Respondent's license to practice as a pharmacist in the State of Colorado shall be relinquished and canceled. Upon the effective date of this Final Agency Order, Respondent shall promptly surrender to the Board all indicia of his Colorado pharmacist license. Respondent shall not reapply for licensure in this state for a minimum of two (2) years. Any future application will be handled in the normal course of business. Respondent understands and acknowledges that the right to reapply for licensure in two years does not guarantee a license will be granted at that time.

8. **Agreement to Cease Work In Any Pharmacy Outlet, Wholesale Outlet or Other Pharmaceutical Business.** Respondent shall cease working in any capacity for any prescription drug outlet, wholesale outlet, other outlet, and any other business requiring licensure or registration in the State of Colorado under the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act, and shall not thereafter work in any such capacity unless and until such time as Respondent obtains a new license.

9. **Other Requirements.** Through its undersigned Authorized Representative, Respondent acknowledges and agrees that, as a condition of this Final Agency Order, Respondent shall:

   a. promptly pay all Respondent's own fees and costs associated with this Final Agency Order;

   b. comply fully with this Final Agency Order; and

   c. comply fully with the Pharmacists, Pharmacy Businesses, and Pharmaceuticals Act, all Board rules and regulations, and any other state and federal laws and regulations related to pharmaceuticals and pharmacists in the State of Colorado.

10. **Violations.** Time is of the essence in this Final Agency Order. It is the responsibility of Respondent to take all appropriate steps to comply fully with this Final Agency Order. Respondent acknowledges and agrees that any violation of this Final Agency Order shall constitute a willful violation of a lawful Board order, and may constitute grounds for further legal action. The pendency of any litigation arising out of an alleged violation of this Final Agency Order shall not affect the obligation of Respondent to comply with all terms and conditions of this Final Agency Order.

11. **Advisements and Waivers.** Respondent enters into this Final Agency Order freely and voluntarily, after having the opportunity to consult with legal counsel and/or choosing not to do so. Respondent acknowledges his understanding that he has the following rights:

a. to have formal notice of hearing and charges served upon him;

b. to respond to said formal notice of charges;

c. to have a formal disciplinary hearing pursuant to §§12-42.5-123 and 12-42.5-124, C.R.S.; and

d. to appeal this Final Agency Order.

Respondent freely **waives** these rights, and acknowledges that such waiver is made voluntarily in consideration for the Board's limiting the action taken against Respondent to the sanctions imposed herein.

12. **Acknowledgments.** Respondent has read this Final Agency Order in its entirety and acknowledges, after having the opportunity to consult with legal counsel and/or choosing not to do so, that Respondent understands its legal consequences and agrees that none of its terms or conditions is unconscionable. Respondent is not relying on any statements, promises or representations from the Board other than as may be contained in this Final Agency Order. Respondent further acknowledges that he is not entering into this Final Agency Order under any duress.

13. **Integration and Severability.** Upon execution by all parties, this Final Agency Order shall represent the entire and final agreement of and between the parties. In the event any provision of this Final Agency Order is deemed invalid or unenforceable by a court of law, it shall be severed and the remaining provisions of this Final Agency Order shall be given full force and effect.

14. **Public Record.** Upon execution by all parties, this Final Agency Order shall be a public record, maintained in the custody of the Board.

15. **Board Order.** This Final Agency Order shall become an order of the Board when it is accepted and signed by the Program Director or authorized Board representative.

16. **Effective Date.** This Final Agency Order shall become effective upon (a) mailing by first-class mail to Respondent Pharmacy at Respondent Pharmacy's address of record with the Board, or (b) service by electronic means on Respondent Pharmacy at Respondent Pharmacy's electronic address of record with the Board. Respondent Pharmacy hereby consents to service by electronic means if Respondent Pharmacy has an electronic address on file with the Board.

DEREK ANTHONY SAPONE, DEFENDANT

CASE NO.: CR10-2978

OFFENSE:
PRESCRIPTION FRAUD (2 COUNTS)

OFFENSE DATE:

Court Reporter: Ronald Graham & Associates, Inc.

This day came J. DiNonno, Attorney for the Commonwealth, and the defendant, in person, and M. Del Duca, attorney for the defendant.

The defendant plead GUILTY.

A written plea agreement was filed and made part of the record.

The court reviewed and considered the applicable discretionary sentencing guidelines and made the completed worksheet a part of the record of the case pursuant to the provisions of Code § 19.2-298.01.

The court found that there were sufficient facts that would justify a finding of guilt. Pursuant to Code § 18.2-258.1, the court, without entering a judgment of guilt and with the consent of the defendant, deferred further proceedings and placed the defendant on probation upon these terms and conditions:

- The defendant shall remain of uniform good behavior until final disposition by this court.
- The defendant shall remain under the supervision of the Community Corrections Program (CCP) for a term of one (1) year and shall comply with all rules of probation and instructions of the designated CCP caseworker to include the giving of random urine screens and completion of substance abuse treatment;
- The defendant shall report to CCP any contact with any physician or health care practitioner within seventy-two hours of such contact;
- The defendant shall report to CCP officer every prescription he receives and shall report every occasion on which he has the prescription filled or refilled, within seventy-two hours;

- The defendant shall, upon request of the CCP officer, or other law enforcement officer designated by CCP, execute release forms authorizing CCP or such other designated person to obtain his medical records;
- The defendant shall be evaluated and enter a treatment and/or education program, if available, such as, in the opinion of the court, may be best suited to the needs of the defendant. Such services shall be provided by a program certified or licensed by the Virginia Department of Mental Health, Mental Retardation and Substance Abuse Services or, if warranted and permitted by this Court, the appropriate counterpart in another state or commonwealth. The defendant will be responsible for all the costs of the program, including the costs of the screening, evaluation, testing and education, unless the defendant is determined by the court to be indigent;
- The defendant is required to remain drug free during the period of probation, except to the degree permitted by licensed medical personnel, and during the period of probation the defendant shall submit to such tests as may be necessary to determine if he is drug free;

4th Amendment Waiver as part of plea agreement: As part of a plea agreement the defendant agreed as a special condition of good behavior and probation to waive his or her Fourth Amendment right against unreasonable searches and seizures in accordance with the terms and during the period specified in the plea agreement.

The defendant shall report back to this court on October 24, 2011 to determine if the conditions of probation have been fulfilled. Any surety on a bond shall be discharged and the defendant is placed on their personal recognizance to appear back in court.

Forfeiture of license for drug charge.

Pursuant to § 18.2-259.1 the defendant's privilege to drive or operate a motor vehicle, engine, or train in the Commonwealth is forfeited for a period of six months on each charge. The defendant shall surrender his or her driver's license to be disposed of in accordance with the provisions of § 46.2-398, and the clerk shall provide a copy of this order to the Department of Motor Vehicles.

Pursuant subsection C of § 18.2-259.1 the court provides that, if and when the defendant is otherwise eligible, the Commissioner of the Department of Motor Vehicles issue, upon request of the defendant, a restricted license for the following purposes (after receipt of a restricted license, the defendant shall carry a copy of this order, the restricted license and any required written verification, at all times while operating a motor vehicle):

- travel to and from place of employment.
- travel to and from an alcohol rehabilitation or safety action program upon written verification the defendant is enrolled in such a program.
- travel during the hours of such person's employment if the operation of a motor vehicle is a necessary incident of such employment.

- travel necessary to transport a minor child under the care of such person to and from school, day care, and facilities housing medical service providers.
- travel to a screening, evaluation and education program entered pursuant to § 18.2-251 or subsection H of § 18.2-258.1; or
- travel to and from court appearances in which the defendant is a subpoenaed witness or a party and appointments with a probation officer and to and from any programs required by the court or as a condition of probation.

The Clerk of this Court shall forward a copy of this order to:

- Division of Motor Vehicles
- Office of Community Corrections

Re: Ben Boyer, Disciplinary Action Report

To whom it may concern:

On February 2nd of 2012, [redacted] were the subject of an investigational audit by the Utah Division of Occupational and Professional Licensing (DOPL).

[redacted] serve a rural, generally underserved population. The disciplinary action was recommended by DOPL after their review of the organization's after-hours policy. Under the direction of the Medical and Pharmacy Directors, small (1 day supply), sample packets of pain medication and antibiotics were stored in a lock-box at the clinics for dispensing to patients seen after hours on an urgent basis. The lock-box was only accessible by providers and pharmacists at each clinic. The dispensing of these medications rarely occurred under my direction, but I did participate in the practice as a part of the clinic's policy. The practice was stopped the day of the audit.

Subsequently, I received a disciplinary Stipulation and Order from DOPL regarding the management of controlled substances at the clinic. The Stipulation and Order was a non-criminal, but unprofessional disciplinary action and reprimand against my license. No fine was issued nor restrictions placed on my license by DOPL. No suspension or probation of my license was ever issued and I have continued practicing without further incident. I left that practice in July 2023 and have been with my current practice since then, also without any incident. To my knowledge, I am also currently credentialed with all required insurances for my current practice.

The Stipulation and Order (Case No. DOPL 2013-443) was adopted and signed by John Swallow, Attorney General, on October 15, 2013 and Mark Steinagel, Director of DOPL, on October 16, 2013.

Sincerely,

Ben Boyer, FNP-BC

Provide explanation below:

I have never been subject to disciplinary action by any Board of Nursing or licensing authority. There is currently an ongoing Delaware Board of Nursing investigation related to RNs mixing IV formulations within a clinic setting. In my role as a Nurse Practitioner employed by Restore Hyper Wellness, the protocols I followed did not permit or involve mixing IV formulations. At this time, no findings or disciplinary actions have been issued against my license.

Re: Kate Cordisco (the "Licensee")
Registered Nurse License No. 833090
Nurse Practitioner License No. 833090

Dear Sir/Madam,

This firm represents the Licensee with regard to the subject matter described below.

At this time, the Licensee is subject to an investigation conducted by Delaware Division of Professional Regulation concerning compounding and dispensing practices at a practice location of her employer in Delaware (the "Investigation"). It is unclear why the Licensee was named as a subject of the Investigation. The Licensee treated patients at the Delaware practice via telehealth only, and did not physically engage in mixing, altering, or combining preparations for administration to patients, nor did she physically dispense any medications. To date, there have been no allegations of adverse patient outcomes at the Delaware practice concerning the Licensee.

It should be noted that no final adverse disciplinary decision has been rendered against the Licensee as the Investigation is still pending. Our firm intends to vigorously defend the Licensee from any allegations related to the Investigation – as described above, the allegations have no merit.

Please contact the undersigned at [redacted] with any questions. Thank you.

Very truly yours,

Evan Sampson

RE: BOARD OF NURSE REGULATION AND NURSING EDUCATION §5-34-4
Samantha Turcotte; C24-0042A

Dear Attorney Formisano:

The Rhode Island Department of Health (Department) Investigation Unit and the Board of Nurse Registration and Nursing Education (Board) has concluded their investigation regarding the complaint filed against your client's advanced practice registered nurse license.

After careful review and evaluation, the Board has decided to Administratively Close the complaint without prejudice, as the investigation did not reveal reasonable ground upon which to establish activity that is in violation of §5-34-4 et seq., of the Rhode Island General Laws and the Rules and Regulations promulgated thereunder.

This matter is now considered closed.

Sincerely,

Lynda D'Alessio

RE: Samantha Turcotte

Dear Ms. [redacted]

Please be advised that I represent Ms. Turcotte regarding issues that transpired following her termination from Thundermist Health Center ("Thundermist"). At this juncture, Ms. Turcotte requests that you withdraw Thundermist's complaint with (need name of agency. The request for withdrawal is appropriate because paragraphs 4 through 7 are not applicable to (name of agency) and because Ms. Turcotte rebuts all other allegations listed in the complaint.

Ms. Turcotte's concerns about the allegations in the complaint are amplified by the timeline provided. In the complaint, the incidents cited go months back and Ms. Turcotte was not given any notice of these incidents before her termination on November 15, 2023. Ms. Turcotte rebuts the following paragraphs:

1. Standards of Care Issues: A Vivitrol patient was not started on oral medication before Vivitrol. RN asked three times for the provider to go in and see the patient, but the provider refused stating "patient stinks."

Ms. Turcotte denies this allegation and asserts that this is a falsified report from the management team. She denies commenting on a patient's personal hygiene, and clarifies that oral Naltrexone is not required before using Vivitrol. The patient was hesitant to start Vivitrol and collectively the discussion was made not to administer the Vivitrol on the referenced day because of patient concerns.

2. Documentation: Falsifying documentation: The provider stated they saw and examined a patient in person but did not. Reviewed 4 patients charts where noted provider either did not come into visit and the provider documented the visits were in-person visits/physically examined patients, but visits were either changed to phone or the provider just called the patient later.

Ms. Turcotte denies this allegation and asserts that there was no instance where a patient chart was altered "maliciously" or "purposely" by the providers team. Virtual scribes were implemented at Thundermist during the summer of 2023. However, due to the noisy work environment errors have occurred when using the scribes. Scribes are unable to tell whether patients are on the phone or in-person because of the noise level, which contributes to the discrepancies for appointments being put in person. Throughout Ms. Turcotte's time at Thundermist, scribes, the front desk, and MAs/RNs have edited Ms. Turcotte's schedule and documents without her knowledge.

3. Falsifying credentials: MA reported, and Nurse Leadership corroborated provider changed the visit type of a 9:40 appointment, through the M's electronic medical record profile. The provider admitted to using another employee's computer and ECW credentials to change visit information. Provider reports, "This happens all the time."

Ms. Turcotte denies stating that, "this happens all the time," however, she did explain that it is common for people to mix up the laptops because they are identical models. Ms. Turcotte asserts that she did not falsify credentials but made an honest mistake that occurred because both computers were open to the same page and the computers are identical. The medical assistant and Ms. Turcotte ensured the visit was changed back properly. After Ms. Turcotte changing the visit back with the MA, she ensured under her credentials that it was corrected to an in person visit as it should be.

4. Moonlighting: The provider did not disclose two other businesses/places the provider practices including a spa and telehealth service. This is a violation of company policy.

Ms. Turcotte denies this allegation and asserts that she did disclose her work with her own business, Aesthetic Haven, LLC ("Haven"). Her work at Haven was approved by Jeanne LaChance, CEO of Thundermist. In the one and half years that Ms. Turcotte worked at Thundermist, her work at Haven had no effect on her work. While Ms., Turcotte rebuts these allegations, they are not applicable to (need name of agency), therefore, should not be used in any complaint to them.

5. Conflicts of Interest: Personal businesses interfering with Thundermist time and on Thundermist property. Sesame online provider telehealth service, availability on the site is at the same time the provider is expected to be working at Thundermist. Witness statements from pod mates disclosing the provider talks to outside patients while at Thundermist.

Ms. Turcotte denies all of these allegations and asserts that she never performed Haven work while on Thundermist time. Ms. Turcotte asserts the phone conversation about weight loss is inaccurate. Ms. Turcotte has discussed weight loss injectables with patients at Thundermist, and all phone calls that she took in her pod were related to Thundermist. As for the November 10th visit that was alleged, Ms. Turcotte never had anyone come to Thundermist for Haven as she was scheduled to work that day and did not have any lunch breaks. All of her patients are aware that she has a full-time job, so they would not come into Thundermist requesting to speak to her. Regardless if someone did ask for Ms. Turcotte, this paragraph should not be included in (need name of agency) complaint because it is not applicable.

6. Workplace Intimidation: Pod mates reported that the provider approached employees when they have brought forth concerns to management about the provider.

Ms. Turcotte denies this allegation and asserts that it is a mischaracterization of the interaction that she had with her co-worker. Ms. Turcotte brought a complaint to nurse managers [redacted] (need last name) and [redacted] regarding a pod co-worker. Ms. Turcotte found it difficult to work because of her co-worker's tone and how disrespectful he was when he spoke to patients. To address this concern, she messaged Ms. Cruz and Ms. (need last name) on Tiger (Thundermist's instant messaging platform) about her issues and they told her, "Please speak to him yourself before management gets involved." While these allegations are false, it is not applicable to (need name of agency) and should not be included in a complaint.

7. Violation of Suspension: The reported provider reached out to employees following their suspension - knowing the letter stated not to reach out. Provider admitted to reaching out to MA before suspension and another RN on a personal note. Upon investigation, the provider reached out to other employees. The provider was trying to get further information regarding the employee guidebook.

Ms. Tucotte denies this allegation and asserts that this allegation is not applicable to the Department of Health; therefore, it should not be included in the complaint.

Ms. Turcotte was targeted working at Thundermist and is blindsided by her termination and the complaint filed against her. She was not made aware of any of these issues or incidents before her termination. Ms. Turcotte's concerns come from the fact that if there were genuine incidents or issues they should have been used as teaching opportunities. These concerns are further compounded due to the fact that Ms. Turcotte is held in high esteem with her patients and co-workers. The paragraphs listed in the termination letter and the complaint to (need name of agency) are honest mistakes or false and mischaracterize Ms. Turcotte and her work with Thundermist.

Based on the false statements, mischaracterizations, and the unapplicable nature of four of the paragraphs, Ms. Turcotte requests that the complaint be withdrawn from the Health Department. She requests an immediate withdrawal of the complaint because of the false allegations included that are harmful both to Ms. Turcotte's professional and personal reputation.

Please advise me within seven (7) days of the date of this letter if Thundermist is willing to withdraw its complaint with (name of agency) or whether it will be necessary to initiate formal legal action.

I appreciate your attention to this matter and look forward to speaking with you in the near future.

Very truly yours,

V. Edward Formisano

⟨ 1079 ⟩ GOOD STORAGE AND SHIPPING PRACTICES

This general information chapter is intended to provide general guidance concerning storing, distributing, and shipping of Pharmacopeial preparations. It describes procedures to maintain proper storage environments for individual articles and to ensure a preparation's integrity, including its appearance, until it reaches the user. There is no change to any applicable requirements under Current Good Manufacturing Practices, approved labeling, state laws governing pharmacies, the USP *General Notices and Requirements,* or monographs. The section *Preservation, Packaging, Storage, and Labeling* under *General Notices and Requirements* provides definitions for storage conditions. All equipment used for recording, monitoring, and maintaining temperatures and humidity conditions should be calibrated on a regular basis. This calibration should be based on NIST or international standards (see *Monitoring Devices—Time, Temperature, and Humidity* ⟨ 1118 ⟩). A Pharmacopeial preparation may follow several potential routes from the original manufacturer to the patient. *Figure 1* documents present-day routes and the associated risks. These risks include exposure to temperature excursions, humidity, light, and oxygen. For a discussion of climates, stability, and mean kinetic temperature, see *Pharmaceutical Stability* ⟨ 1150 ⟩. Temperature- or humidity-sensitive articles are to be handled in accordance with *General Notices*.

PACKAGING AND STORAGE STATEMENT IN MONOGRAPHS

Most articles have storage conditions identified by their labeling. Otherwise, it is expected that the conditions for storing the article are specified in the monograph according to definitions provided by the *General Notices and Requirements* in the section *Storage Temperature, and Humidity* under *Preservation, Packaging, Storage, and Labeling*. In cases where additional information on packaging and storage is desired, a specific statement can be provided in the *Packaging and storage* or the *Labeling* section of the individual monograph.

STORAGE IN WAREHOUSES, PHARMACIES, TRUCKS, SHIPPING DOCKS, AND OTHER LOCATIONS

Pharmacopeial articles are to be stored in locations that adhere to conditions established by the manufacturer. Where the desired conditions are not established, use storage conditions described in the *General Notices and Requirements* or in the applicable monograph.

Warehouses

Observation of the temperature variations in a warehouse should be made over a period of time to establish a meaningful temperature profile, including the temperature variations and conditions in the different parts of the warehouse. Such observations provide data and information as to where various products should and should not be stored.

ESTABLISHING TEMPERATURE PROFILES

Temperature profiles can be compiled by using a suitable number of thermometers or other temperature recording instruments. They should be placed throughout the warehouse in divided sections and should record the maximum and minimum temperatures during a 24-hour period for a total of three consecutive 24-hour periods. The following factors, some of which may give rise to extreme temperatures, should be considered during the process of temperature profiling: the size of the space, location of space heaters, sun-facing walls, low ceilings or roofs, and geographic location of the warehouse.

for a period of not less than 3 hours when air temperatures are higher than 25° or less than 15°. Profiling should be conducted in both summer and winter. A mean kinetic temperature (MKT) should be obtained for any separate areas within the warehouse (see *Pharmaceutical Calculations in Prescription Compounding* ⟨1160⟩ for samples of MKT calculations). The temperature profile report should provide recommendations for the use of each area and identification of any areas that are found unsuitable for storage of Pharmacopeial articles.

CONTROLLED ROOM TEMPERATURE

The *General Notices* provide a definition for *Controlled Room Temperature.* A temperature profiling study should demonstrate suitability for storing Pharmacopeial articles in areas determined to be at room or controlled room temperature. A suitable number of temperature and humidity recording instruments should be installed to record temperatures and to provide temperature and humidity profiles. Temperature recording should be conducted to meet the recommendations for establishing mean kinetic temperature and to comply with the warehouse's written procedures. These written procedures should have a reporting mechanism in place whereby a management tree is informed in the event that predefined high or low temperatures or humidity limits have been exceeded. Records can be reviewed as determined by the management system in accordance with established guidelines. Suitable training should be provided to persons who record temperatures, and proper quality accountability and tracking systems should be maintained.

STORAGE AT “COOL,” “COLD,” “REFRIGERATOR,” AND “FREEZING” CONDITIONS

The *General Notices* provide definitions for cool, cold, refrigerator, and freezer temperatures. A temperature profiling study can be used to establish suitable areas for storing Pharmacopeial articles designated to be stored under these conditions. Equipment used for storing Pharmacopeial articles at these low temperatures should be qualified according to written procedures provided by the management system. Recording devices can be installed within the equipment and used to enable both air and product temperatures to be recorded at regular intervals. The number and location of monitoring devices should be determined based on the result of the temperature profile. Temperature records should be examined at least once every 24 hours or as provided in the equipment protocol. Cool or cold conditions are moisture-condensing conditions. Humidity-monitoring devices should be used in cases where the repackaged Pharmacopeial article is humidity-sensitive or labeled to avoid moisture. Additionally, there can be installed temperature-monitoring, and where necessary, humidity-monitoring alarm devices that have the capability of alerting personnel in the event that control is compromised. There should be protocols in place to address procedures for responding to failed temperature and humidity ranges both for normal working hours and outside normal working hours. Temperature and humidity should be reviewed at the times designated by the established protocol. The calibration and functioning of all temperature and humidity monitoring devices, including alarms and other associated equipment, should be checked on an annual or semiannual basis. Regular maintenance protocols should be in place for refrigeration equipment. There should be written agreements in place for all maintenance and evaluation procedures, and this may include an emergency situation protocol.

PERSONNEL TRAINING

Suitable training should be provided for personnel who handle Pharmacopeial articles with special storage temperature requirements. Personnel should know how to monitor temperatures and how to react to situations where adverse temperatures are identified. There should be written procedures in place such that the adverse temperatures are recorded and a report provided to the parties designated in the protocol.

Only climate control equipment for which a contractor has provided documentation to assure its suitability for temperature and humidity requirements should be considered for use in cold storage. Qualification procedures on a regular basis should be independently conducted on equipment in cold stores to guarantee suitability and proper functioning. The procedure should demonstrate the temperature profile for both air and product temperatures when empty as well as when loaded. The procedure should also demonstrate the time taken for temperatures to exceed the maximum temperature in the event of a power failure. Qualification should consider thermal fluctuations that occur during stock replenishment and order removal.

The results of the qualification should demonstrate the ability of the equipment to maintain the required temperature range in all areas, defining any zones which should not be used for storage such as those areas in close proximity to cooling coils, cold air streams from equipment ventilation, or doors. The variability of the system can be characterized by using the relative standard deviation. Thermal monitoring should establish that the system is rugged in that its temperature profile is consistent and reliable.

DISTRIBUTION AND SHIPMENT OF PHARMACOPEIAL ARTICLES

As indicated in *Figure 1*, a drug can take a variety of paths from the manufacturer to the patient. In the simplest form of the distribution system, the manufacturer ships directly to the customer, such as a doctor's office, clinic, or hospital. However, more often, the article leaves the manufacturer's chain of control and enters a complex system of handoffs that involve the distribution chain to the patient.

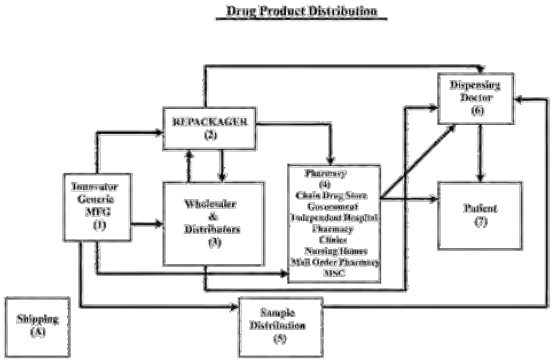

Figure 1. Drug product distribution.

Shippers and distributors are to follow the proper storage and shipping requirements as indicated by the manufacturer. For particular cases, such as shipment of vaccines or other special care products, manufacturers may require special shipping and storage conditions generally referred to as “cold-chain management”. For example, manufacturers may attach temperature-monitoring devices and/or ship under specified controlled conditions to ensure that the desired temperature is maintained during distribution (see *Monitoring Devices—Time, Temperature, and Humidity* ⟨1118⟩). Validated, available temperature- and/or humidity-monitoring technologies can be used to monitor the overall environmental effect on compendial articles during shipment and distribution. In these cases, the shipping conditions of the package are recorded. In general, extreme temperature conditions (i.e., excessive heat, freezing) should be avoided. Distribution systems chosen to deliver pharmaceutical products from the manufacturer to the consumer should take into account basic operational parameters, including timeliness and accountability. The manufacturer's FDA-approved storage conditions, printed in the labeling of the product, should be observed carefully at each destination of the distribution chain (see *Figure 1*), unless specifically instructed otherwise in the immediate label of a shipping container. This may be the case for certain pallet-sized shipping containers where the amount of refrigerant contained (e.g., dry ice, gel packs) is based on an anticipated exterior condition approximating controlled room temperature. In such cases, placing the shipping container in a refrigerator could lead to the product inside freezing, potentially affecting its quality. Items requiring special handling conditions will have those conditions clearly indicated in the labeling for the product. The Prescription Drug Marketing Act of 1987 and the ensuing regulations in 21 CFR Part 203, Prescription Drug Marketing, and Part 205, Guidelines for State Licensing of Wholesale Prescription Drug Distributors, provide the necessary regulations and guidance for several legs of the distribution chain for the prescription drug. The manufacturers and distributors should work together to establish proper distribution and product-handling

requirements for the purpose of ensuring appropriate product maintenance in transit. Pharmacists and physicians should educate patients regarding proper storage of products to ensure product integrity at the patient level. Information that may be considered in determining the ability of pharmaceutical articles to maintain their Pharmacopeial requirements of identity, strength, quality, and purity through the distribution channel may include, but is not limited to the following: ICH stability studies, temperature cycling studies, stability shipping studies, ongoing regulatory stability commitment studies, market experience portfolio (i.e., product complaint files, historical product performance data, product development data), and product labeling commitments.

Qualification Protocol

Operational and performance testing should be parts of a formal qualification protocol that may use controlled environments or actual field testing based on the projected transportation channel. These should reflect actual load configurations, conditions, and expected environmental extremes. Temperature and humidity monitors should be placed into the product or a representative thereof. Testing consists of consecutive replicate field transportation tests using typical loads, according to an established protocol.

Physical Challenges

Most products are sufficiently robust to withstand distribution with minimal protection from routine, well-understood physical and environmental hazards. Several standard test methods are available for evaluating package performance factors under well-documented shock, vibration, and other transit elements. The American Society for Testing and Materials document, “Standard Practice for Performance Testing of Shipping Containers and Systems” (ASTM D4169-98), and the International Safe Transit Association's (ISTA) specifications have similar methods for evaluation of shipping performance for various types of transit modes such as less-than-truckload (LTL), small package, rail car, air freight, etc. From the manufacturer's perspective, these tests are very useful in evaluating the product and package durability and fragility. The tests are usually performed on shipping carton quantities of a specific stock keeping unit (SKU) as an unbroken whole. Fragility problems can be corrected with package modifications, which could include placing cotton or rayon coilers in bottles or placing top and bottom pads in the shipping case to reduce package breakage. Not all protective packaging elements follow the SKU through the system.

Basic packaging principles are observed when separating the contents of the manufacturer's shipping container or pallet load into smaller quantities or when shipping mixed product loads. For example, glass containers are wrapped in a bubble wrap or other shock-absorbent material, and the void spaces are filled with dunnage (e.g., foam “peanuts,” shredded or tightly crumpled paper, bubble wrap) to protect the contents from shifting and drop impact. Large-volume liquid containers may be bagged in plastic and kept isolated to prevent leakage to, or damage of, adjacent packages. “Skin packaging,” a term describing a heat-shrink film that anchors the load to fiberboard and prevents load shift, can be an excellent method of protecting some products, but it may be inappropriate for heat-sensitive products. The shipping carton should have correct Edge Crush Test (ECT) characteristics for freight being shipped according to Item 222 of the National Motor Freight Classification and Rule 41 of the Uniform Freight Classification.

Temperature Challenges

Shipping of temperature-sensitive articles requiring thermally controlled packaging presents a special challenge. Unlike shock, vibration, and other physical hazards, thermal hazards tend to be unique to a given system. Except for temperature-controlled trucks, the distribution environment is widely variable and depends upon a range of factors, including points of origin and destination, article and container sensitivities to cold, accidental freezing or heat, transit mode (e.g., air, truck, combination), time, weather or season, and carrier type (e.g., small package carrier or integrator, freight forwarder, U.S. Postal Service). The shippers should know and understand the systems they use and should design the protective package accordingly. Storage temperature ranges may not be indicative of the allowable tolerances during shipping. Articles labeled for special storage conditions (between 2° and 8°) vary widely in their tolerance of short-term exposure to heat and cold. Some, such as soft gelatin capsules and suppositories, carry specific upper limits on both shipping containers and SKUs. A temperature cycling study intended to identify those articles affected by multiple, short-term excursions beyond the storage temperature limits should be performed. These data provide wholesalers and distributors with clearer identification of those drug products that may require special handling during particular climate conditions.

Materials

Two commonly used types of refrigerant are dry ice (frozen carbon dioxide gas) and wet ice (frozen water), which appears as crushed ice or in various refrigerant packs containing water mixtures with specific freezing points. Phase-change materials are also available for specialized needs. Refrigerant packs should have the correct freezing point and be cooled to the proper surface temperature prior to use. Articles harmed by accidental freezing may require a barrier between the refrigerant and the product or some other special packaging. Insulating materials commonly available include foil laminates, bubble pack, corrugated, fabricated, and molded expanded polystyrene (EPS) cartons, and fabricated or molded urethane foam cartons, with or without additional interior components. Recognized standard test methods for evaluating insulated containers are currently limited to ASTM D3103-92, Standard Test Method for Thermal Insulation Quality of Packages and a method under development by ISTA. Neither one fully addresses all of the issues involved, but both include useful information on testing procedures. The tests should be modified based on the specific system adopted by the shipper. The manufacturer may be able to supply helpful data on specific articles and their requirements.

SPECIAL HANDLING

Certain classes of Pharmacopeial articles may require special handling. Such articles include products classified as dangerous goods under the Department of Transportation (DOT), state, local, or carrier rules; or products classified as controlled substances by the Drug Enforcement Administration (DEA) or by individual states.

Receipt of Pharmacopeial Articles

Upon arrival of Pharmacopeial articles to warehouse loading docks, premises, and other arrival areas, the Pharmacopeial articles are to be transferred to their manufacturer-designated storage environment within 2 hours of receipt. Limitation of the time spent in the uncontrolled environments of the loading dock is important to ensure that the integrity of the preparation is maintained. This is particularly important for temperature-sensitive items. The delivery document should be reviewed at receiving sites to ensure that the Pharmacopeial articles have not been subjected to any delays during shipment that could result in exposure of the article to extremes of temperature, or to any other extreme or undesirable conditions. In addition, to the extent possible, the receiving personnel should ensure that the ruggedness requirements in shipment have been met. For Pharmacopeial articles requiring extreme caution, special handling, or refrigerator temperature storage conditions, those who supply the articles (e.g., wholesalers and manufacturers) and delivery contractors should provide documented evidence to show that the required temperature range has been maintained during transportation. In the event that a deviation from the required temperature range has been observed during shipment of an article requiring such a shipping condition, the supplier or delivery contractors should document the temperature and the length of time the compendial article was not within the designated storage temperature. The pharmaceutical manufacturer may be contacted to determine the significance of unusual variances.

Distribution or Shipping Vehicles

Vehicles used for shipping or distribution of Pharmacopeial articles designated for storage at controlled room temperature should be suitably equipped to ensure that the temperature excursions encountered are within those allowed under the definition of controlled room temperature. Steps should be taken so that extremes of temperature, whether above or below the specified temperatures, should not be encountered during delivery procedures.

Vehicle Qualification

Where practical, suitable monitoring devices, as determined by the manufacturer and vehicle supplier, should be placed in different areas of the truck to establish a temperature profile of the truck over a 24-hour period during a hot summer day, average high, and a cold winter day, average low, and during a normal or typical day. The derived temperature of the different parts of the truck may be used to determine the location on the truck where Pharmacopeial articles can be stored appropriately during shipping (see *Monitoring Devices—Time, Temperature, and Humidity* ⟨ 1118 ⟩).

Pharmaceutical Delivery Staff

As part of the contractual agreement between the delivery contractors and the manufacturers, the delivery staff should receive appropriate training to ensure that they are aware of the correct procedures to follow in maintaining products at the correct temperature. There may be written procedures that should be documented. In addition, the transportation personnel should have proper knowledge of the temperature profile of the vehicle to ensure proper placement of the Pharmacopeial articles in the vehicle. Pharmacopeial articles requiring special handling (e.g., refrigeration) or environmentally sensitive preparations should be transported in a suitably equipped vehicle to ensure that the articles are maintained at the correct temperature during distribution, shipping, and delivery and up to the point of receipt. Special arrangements should be made to inform receiving personnel, pharmacists, or other appropriate customers that the package includes articles with special storage and handling specifications and are to be transferred immediately to the appropriate storage location. The manufacturer, shipper, or delivery agency should provide appropriate evidence to show that the required temperature has been maintained throughout shipment and distribution.

SHIPMENT FROM MANUFACTURER TO WHOLESALER

Wholesaler

The wholesaler receiving the pharmaceutical articles should ensure that on arrival, the pharmaceutical articles are transferred to the correct environment without delay, as directed by the manufacturer, ideally within 2 hours of receipt. The wholesaler should examine the delivery documentation to ensure that the products have not been subjected to any delays during shipping and distribution that could result in products being exposed to extreme temperatures (see also the previous section, *Pharmaceutical Delivery Staff,* for staff expectations). The vehicles used for shipping of Pharmacopeial articles to the wholesaler, especially products requiring storage at low temperatures, should be suitably equipped to ensure that products are maintained at the correct temperature during shipping and distribution and up to the point of receipt. The receiving wholesaler staff should be informed that the articles are transferred to appropriate storage locations without delays. The vehicles used for shipping of Pharmacopeial articles requiring storage at room or controlled room temperatures should be suitably equipped to ensure that extremes of temperature, either above or below the specified temperature, do not occur during delivery procedures. Warehouse staff may receive appropriate training to ensure that the correct procedures are followed to maintain required temperature conditions (see *Pharmaceutical Delivery Staff*). Where necessary, a monitoring device for temperature and/or humidity should be used during shipping and distribution.

Compromised Temperature Conditions

A procedure should be in place in the warehouse to define the action that should be taken in the event of deviation from required storage conditions. Suitable records should be maintained to explain the reason for deviation and the resulting action that is taken. The product in question should then be placed in a quarantine status. Advice on the suitability of the product for use should be sought from the manufacturer or supplier of the product. The manufacturer's response should be documented prior to issuing the product to the customer, if that product is to be issued to the customer.

SHIPMENT FROM MANUFACTURER OR WHOLESALER TO PHARMACY

Pharmacy

The pharmacy receiving the pharmaceutical articles should ensure that on arrival, the pharmaceutical articles are transferred to the correct environment without delay, as directed by the manufacturer, ideally within 2 hours of receipt. The pharmacy personnel should examine the delivery documentation to ensure that the products have not been subjected to any delays during shipping and distribution, which could result in the products being exposed to extreme temperatures (see also the section, *Pharmaceutical Delivery Staff,* for staff expectations). The vehicles used for shipping of Pharmacopeial articles to the pharmacy, especially products requiring storage at low temperatures, should be suitably equipped to ensure that products are maintained at the correct temperature during shipping and distribution and up to the point of receipt. Receiving pharmacy staff should be informed that the articles are to be transferred to appropriate storage without delays. The vehicles used for shipping of Pharmacopeial articles requiring storage at room or controlled room temperatures should be suitably equipped to ensure that extremes of temperature, either above or below the specified temperature, do not occur during delivery

procedures. Pharmacy staff may receive appropriate training to ensure that the correct procedures are followed to maintain required temperature conditions (see *Pharmaceutical Delivery Staff*). Where necessary, a monitoring device for temperature and/or humidity may be used during shipping and distribution.

Compromised Temperature Conditions

The pharmacy should maintain appropriate procedures to define action that should be taken in the event of deviation from the required storage conditions. Suitable records should be maintained to explain the reason for deviation and the resulting action taken (including whether the product is issued to the patient or customer). Advice on the suitability of the product for use as an acceptable drug article should be sought from the manufacturer or supplier of the product.

SHIPMENT FROM PHARMACY TO PATIENT OR CUSTOMER

The pharmacy should provide an appropriate label on the package sent through air or surface routes so that the deliverer does not place the package in a mailbox exposed to extremes in temperature. In the event that no one is available to receive the package, the deliverer should return the package to the post office or service office, and store it in a cool or air-conditioned area until the patient can receive the medication. In the event that the package has not been delivered for more than 2 days, the package may be returned to the pharmacy. For temperature-sensitive articles, it is important that proper arrangements be made to protect the drug from exposure to high temperatures, or in some cases, from freezing conditions. Such arrangements may include the following: insulating the packaging, or packaging with coolant included; overnight shipping; and pre-arranged pick-up. In such cases, the pharmacy should provide on the external package a statement of an acceptable period of delay for delivery. The patient or customer should examine the delivery documentation to ensure that the package has not been subjected to any unacceptable delays during shipping and distribution. The patient or customer receiving the pharmaceutical articles, either by mail, delivery vehicle from the pharmacy, or directly from the physician or pharmacy, should be advised that upon receipt the articles are to be transferred to appropriate storage conditions without delay, as directed by the pharmacy, ideally within 2 hours of receipt. The vehicle used for air or surface shipping and distribution of pharmaceutical packages to the patient or customer, especially those requiring low temperatures, should contain the article suitably packaged in containers that maintain the desired storage conditions until the article reaches the patient or customer. The vehicles used for shipping and distribution of pharmaceutical articles to patient or customer, especially those requiring storage at room or controlled room temperatures, should be suitably equipped during extreme temperature conditions such that the packages are not exposed to extremes of temperature either in winter or summer months. In the event that the vehicle is not adequately equipped with air conditioning or heating to protect the product, the time that the article is exposed to ambient conditions should be strictly limited, ideally not more than 2 hours. Where appropriate, a monitoring device may be used to ensure that required temperatures are maintained until the package reaches the patient or customer. If stability studies for the Pharmacopeial preparation indicate that it is particularly sensitive to environmental insults or if appropriate shipping safeguards described in this section are not feasible, then the preparation should be shipped by a different method whereby environmental control can be maintained.

Compromised Temperature Conditions

There should be appropriate procedures in the pharmacy that ships the article to the patient or customer defining the action that should be taken in the event that a patient reports that there has been a deviation from required storage conditions for an article, including any environmentally sensitive preparations, prior to the point of receipt. Advice on the suitability of the product for use should be provided to the patient or customer after the manufacturer or supplier's advice has been sought by the pharmacy. If the patient is advised to use the article, such advice should be documented and noted appropriately by the pharmacy. Otherwise, appropriate arrangements should be made to promptly replace the suspect article. For mail order items, replacement from local pharmacies may be an option to ensure an uninterrupted supply of medication.

RETURNS OF PHARMACEUTICAL ARTICLES FROM PATIENTS OR CUSTOMERS

The wholesaler, manufacturer, and pharmacy personnel should evaluate the validity of the request for return, and maintain an auditable account of the return receipt. For products in unopened manufacturer's containers that have been at variance

during shipment, arrangement may be made to return the products to the manufacturer, wholesaler, or pharmacy preferably within 3 working days of receipt. The supplier may request records or written confirmation by the patient to show that the product was stored properly while in possession of the customer.

STORAGE OF PHYSICIAN SAMPLES HANDLED BY SALES REPRESENTATIVES IN AUTOMOBILES

Storage of physician samples by sales representatives is regulated under 21CFR 203.34(b)(4); each manufacturer or distributor is to have appropriate policies in place to ensure that proper storage is maintained. The following suggestions may be considered in response to this need and are of interest to practitioners who may observe actual practices. Automobile trunks or passenger cabins used for the storage and distribution of physician samples should be monitored to determine the temperature profile of the trunk or passenger cabin. Suitable monitoring devices as determined by the sales representative may be placed in different areas of the trunk or passenger cabin on a hot summer and a cold winter day. Measurements should also be made during typical 24-hour periods, and the derived temperature should be used for calculation of the mean kinetic temperature at which the sample is stored (see *Pharmaceutical Calculations in Prescription Compounding* ⟨1160⟩ for examples of MKT calculations). If the Pharmacopeial article designated for storage requires storage at controlled room temperature, then suitable measures should be taken to maintain the sample within the allowable limits of the storage parameters. Environmentally-sensitive preparations should not be stored in automobile trunks or passenger cabins. Medications stored in automobile trunks or passenger cabins should be removed at the end of 3 days. Sales representatives should consider parking automobiles in shaded areas to avoid extreme heat during the summer and in garages to avoid freezing temperatures during the winter. The use of vouchers from the manufacturer that patients could use to obtain medication samples from participating pharmacies is an alternative way of providing drug samples.

STABILITY, STORAGE, AND LABELING

The design of stability studies of Pharmacopeial articles is based on knowledge of the behavior, properties, and stability of the drug substance and experience gained from clinical formulation studies.[1] The length of the studies and the storage conditions for a Pharmacopeial article should be sufficient to cover storage, shipment, distribution, and subsequent use of a Pharmacopeial article. The data gathered from ICH accelerated testing or from testing at an ICH intermediate condition may be used to evaluate the effect of short-term excursions outside the label storage conditions such as those that might occur during shipping. See *Pharmaceutical Stability* ⟨1150⟩.

STATEMENTS/LABELING OF THE IMMEDIATE CONTAINERS OR PACKAGE INSERT

Storage statements should be based on the stability evaluations of the Pharmacopeial drug substances and in accordance with national and international requirements.

Room Temperature Storage Statements— For products with a storage statement reading, “Store at controlled room temperature,” the labeling should read as follows on the package insert: “Store at 20°C to 25°C (68°F to 77°F), excursions permitted between 15°C and 30°C (between 59°F and 86°F). Brief exposure to temperatures up to 40°C (104°F) may be tolerated provided the mean kinetic temperature does not exceed 25°C (77°F); however, such exposure should be minimized.”

On the immediate container label, the following may read for controlled room temperature (CRT): “Store at 20°C to 25°C (68°F to 77°F), excursions permitted between 15°C and 30°C (between 59°F and 86°F).”

Cool Storage Statement— The storage statement for labeling may be as follows: “Store in a cool place, 8°C to 15°C (46°F to 59°F).”

Refrigerator Storage Statement— The storage statement for labeling may be as follows: “Store in a refrigerator, 2 C to 8 C (36 F to 46 F).”

Freezer Storage Statement— The storage statement for labeling may be as follows: “Store in a freezer, –25 C to –10 C (–13 F to 14 F).”

See the *General Notices* for all other applicable storage conditions, such as *Storage Under Nonspecific Conditions* and store in a *Dry Place.* Additional cautionary statements to protect the Pharmacopeial drug product from extreme temperature and humidity conditions may be included on the container label and package insert, as the manufacturer desires.

NOTICE OF INTENT TO ACT UPON A REGULATION

Notice of Hearing for the Adoption and Amendment of
Regulations of the Nevada State Board of Pharmacy

The Nevada State Board of Pharmacy will hold a Public Hearing at 9:00 a.m. on Thursday, June 4, 2026.

Pursuant to NRS 241.023(1)(c) the meeting is being conducted by means of remote technology.The public may attend the meeting via live stream remotely or at the following location:

Hilton Garden Inn
7830 S. Las Vegas Boulevard
Las Vegas, NV

Via Videoconference at Zoom: https://zoom.us/j/5886256671
or
Via Teleconference at 1 (669) 900-6833
Meeting ID: 588 625 6671

The purpose of the hearing is to receive comments from all interested persons regarding the adoption and amendment of regulations that pertain to Chapter 639 and/or 453 of the Nevada Administrative Code.

The following information is provided pursuant to the requirements of NRS 233B.060:

Amendment to Nevada Administrative Code (NAC) 453. The proposed amendments relate to controlled substances adding N-pyrrolidino metonitazene and N-pyrrolidino protonitazene to the controlled substances listed in Schedule I. (LCB File No. R038-26)

1. The need for and the purpose of the proposed regulation or amendment.

The proposed amendment to NAC 453.510 will add N-pyrrolidino metonitazene and N-pyrrolidino protonitazene to the controlled substances listed in Schedule I in conformance with The Controlled Substances Act.

2. Either the terms or the substance of the regulations to be adopted and amended.

A copy of the proposed regulation is attached to this notice.

3. The estimated economic effect of the regulation on the business which it is to regulate and on the public:

(a) Both adverse and beneficial effects.

There should be no adverse economic impact from this regulation amendment on the regulated entities or on the public. The drugs proposed for addition to the Schedule I controlled substances category have a high potential for abuse and no accepted medical use. By placing these drugs into the Schedule I category in NAC 453, Nevada will be in conformance with the federal Controlled Substances Act, which will benefit the health, safety and welfare of the regulated entities and the public.

(b) Both immediate and long-term effects.

Both the immediate and long-term economic effects on regulated entities and on the public will be beneficial since the drugs proposed for addition to the Schedule I controlled substances category have a high potential for abuse and no accepted medical use. By placing these drugs into the Schedule I category in NAC 453, Nevada will be in conformance with the federal Controlled Substances Act, which will benefit the health, safety and welfare of the regulated entities and the public.

4. The estimated cost to the agency for enforcement of the proposed regulation.

There will be no additional or special costs incurred by the Board of Pharmacy for enforcement of this regulation amendment.

5. A description of and citation to any regulations of other state or local governmental agencies which the proposed regulation overlaps or duplicates and a statement explaining why the duplication or overlapping is necessary. If the proposed regulation overlaps or duplicates a federal regulation, the notice must include the name of the regulating federal agency.

The proposed regulation will add N-pyrrolidino metonitazene and N-pyrrolidino protonitazene to NAC 453.510, the controlled substances listed in Schedule I in Nevada, to conform with and duplicate the controlled substances listed in Schedule I of the federal Controlled Substances Act (CSA). The CSA places all substances which were in some manner regulated under existing federal law into one of five schedules. This placement is based upon the substance's medical use, potential for abuse, and safety or dependence liability. The Drug Enforcement Administration (DEA) issued a temporary order to schedule two schedule N-pyrrolidino metonitazene and N-pyrrolidino protonitazene in schedule I of the CSA. DEA based this action on a finding that placing these substances in schedule I is necessary to avoid imminent hazard to public safety. The temporary order is effective August 15, 2025, until August 15, 2027.

NRS 453.211 requires the Board to maintain a list of current schedules and NRS 453.2182 requires the Board, if a substance is designated, rescheduled or deleted as a controlled substance pursuant to federal law to similarly treat the substance pursuant to the provisions of NRS 453.011 to 453.552,

The purpose of the Uniform Controlled Substances Act is to align state-level regulation with the CSA to create a consistent, uniform structure for drug laws across different states that mirror federal legislation. Additionally, it ensures that state laws are consistent with federal law to prevent conflicts and ensure consistent enforcement. The proposed regulation is necessary to carry out the intent of the Uniform Controlled Substances Act and to ensure Nevada's Schedule I controlled substance list is in-line with the CSA so that enforcement as it relates to these drugs in Nevada is consistent with federal law.

6. If the regulation is required pursuant to federal law, a citation and description of the federal law.

The regulation is not required by federal law.

7. If the regulation includes provisions which are more stringent than a federal regulation that regulates the same activity, a summary of such provisions.

The proposed regulation, which will add N-pyrrolidino metonitazene and N-pyrrolidino protonitazene to NAC 453.510 to the controlled substances listed in Schedule I in Nevada, is not more stringent than the scheduling of these two drugs in the federal Controlled Substances Act.

8. Whether the proposed regulation establishes a new fee or increases an existing fee.

This regulation does not provide a new or increase of fees.

Persons wishing to comment upon the proposed action of the Board may appear at the scheduled public hearing or may address their comments, data, views, or arguments, in written form, to the Board at teambc@pharmacy.nv.gov or to the Nevada State Board of Pharmacy, 985 Damonte Ranch Parkway, Suite 206 – Reno, NV 89521. Written submissions must be received by the Board on or before June 4, 2026. If no person who is directly affected by the proposed action appears to request time to make an oral presentation, the Board may proceed immediately to act upon any written submissions.

Members of the public who are disabled and require special accommodations or assistance at the meeting are requested to notify the Nevada State Board of Pharmacy in writing at 985 Damonte Ranch Pkwy., #206, Reno, Nevada 89521, or by calling (775) 850-1440. Please notify us at least one (1) week prior to the scheduled meeting date to allow time to secure any necessary equipment or provisions prior to the meeting.

This notice and the text of the proposed regulation are also available in the State of Nevada Register of Administrative Regulations which is prepared and published monthly by the Legislative Counsel Bureau pursuant to NRS 233B.0653, and on the Internet at http://www.leg.state.nv.us. Copies of this notice and the proposed regulation will also be mailed to members of the public upon request.

Pursuant to NRS 233B.064(1), upon adoption of any regulation, the Board, if requested to do so by an interested person, either before adoption or within 30 days thereafter, will issue a concise statement of the principal reasons for and against its adoption, and incorporate therein its reason for overruling the consideration urged against its adoption.

PROPOSED REGULATION OF THE

STATE BOARD OF PHARMACY

LCB File No. R072-25

April 1, 2026

EXPLANATION – Matter in ***italics*** is new; matter in brackets **[**~~omitted material~~**]** is material to be omitted.

AUTHORITY: §§ 1-9 and 11, NRS 639.070; § 10, NRS 639.070 and 639.1371.

A REGULATION relating to pharmacy; establishing certain requirements governing the staffing of certain pharmacies; requiring certain pharmacies to develop and implement certain processes and policies; requiring a pharmacy or medical products provider, with certain exceptions, to fill a prescription for a dangerous drug or medical product within 3 business days after receipt of a prescription or, for a refill, receipt of a request by the patient to refill the prescription; revising provisions concerning the supervision of pharmaceutical technicians and pharmaceutical technicians in training; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the State Board of Pharmacy to adopt regulations relating to the practice of pharmacy in this State. (NRS 639.070) **Section 2** of this regulation establishes certain staffing requirements for a pharmacy. **Section 2** sets forth the minimum number of pharmacists, pharmaceutical technicians and intern pharmacists that are required to be working at a pharmacy, which varies based on the number of prescriptions the pharmacy is likely to fill on a particular day and whether the pharmacy operates a drive-through facility. **Section 3** of this regulation exempts a pharmacy from complying with the staffing requirements established in **section 2** if the pharmacy is unable to comply for certain specified reasons. Under **section 3**, failure to comply with the requirements of **section 2** for a reason other than a reason specified in **section 3** constitutes unprofessional conduct and may serve as the basis for disciplinary action.

Section 4 of this regulation: (1) sets forth certain additional staffing requirements for a pharmacy that dispenses controlled substances or dangerous drugs; and (2) requires such a pharmacy to provide a pharmacist employed by the pharmacy with sufficient time to complete his or her professional duties and responsibilities.

Section 5 of this regulation requires a pharmacy that dispenses controlled substances or dangerous drugs to develop and implement a process by which a member of the staff of the pharmacy may submit to the managing pharmacist or a pharmacist designated by the managing pharmacist to assume the duties of the managing pharmacist in his or her absence a written request for additional staff or a report of a concern regarding staffing. **Section 5** sets forth procedures by which the issues presented in such a request or report must be addressed. **Section**

5 additionally prohibits a pharmacy from disciplining or retaliating against an employee of the pharmacy who submits such a request or report.

Section 6 of this regulation requires a pharmacy, other than a pharmacy that is not open to the public, to develop and implement a policy that allows a pharmacist to: (1) limit the provision of immunizations and other nondispensing services under certain circumstances; and (2) limit the points of access to the pharmacy under certain circumstances. **Section 6** prohibits a pharmacy from: (1) overriding the decision of a pharmacist made pursuant to such a policy; or (2) disciplining or retaliating against a pharmacist who makes such a decision.

Section 7 of this regulation requires a pharmacy that dispenses controlled substances or dangerous drugs and the managing pharmacist of such a pharmacy to ensure that the pharmacy complies with **sections 2-6** to the extent applicable. **Section 7** additionally requires a member of the staff of such a pharmacy to report to the Board if the pharmacy fails to meet those requirements under certain circumstances.

Section 8 of this regulation requires a pharmacy or medical products provider to fill a prescription for a dangerous drug or medical product not later than 3 business days after receipt of the prescription or, if the prescription is a refill, receipt of a request by the patient to refill the prescription. **Section 8** sets forth various circumstances under which a pharmacy or medical products provider is not required to comply with that requirement.

Section 9 of this regulation defines the terms "dispensing services" and "nondispensing services." **Section 9** also eliminates certain definitions for terms which are already defined in the Nevada Revised Statutes.

Existing law requires the Board to adopt regulations concerning pharmaceutical technicians, including requirements for the supervision of pharmaceutical technicians. (NRS 639.1371) **Section 10** of this regulation revises the number of pharmaceutical technicians or pharmaceutical technicians in training that a pharmacist is authorized to supervise, depending on the type of pharmacy in which the pharmacist is working. **Section 10** also removes the authorization for a pharmacist working in certain pharmacies to exceed the number of pharmaceutical technicians he or she would otherwise be authorized to supervise under certain circumstances. Finally, **section 10** requires a pharmacist who is a member of the staff of a pharmacy to report to the Board concerning any failure of the pharmacy to comply with the requirements governing the supervision of pharmaceutical technicians.

Section 1. Chapter 639 of NAC is hereby amended by adding thereto the provisions set forth as sections 2 to 8, inclusive, of this regulation.

Sec. 2. ***1. Except as otherwise provided in this section, a pharmacy may be staffed with only one pharmacist.***

2. Except as otherwise provided in this section and section 3 of this regulation, on a day on which a pharmacy determines that the pharmacy is likely to fill more than 250

prescriptions, the pharmacy must be staffed at least 75 percent of the time that day that the pharmacy is open for business to the public between the hours of 9 a.m. and 9 p.m. with:

(a) At least two pharmacists who are fully dedicated to providing dispensing services and, if the pharmacy provides nondispensing services, nondispensing services; and

(b) If the pharmacy determines that the pharmacy is likely to fill more than 500 prescriptions, at least one pharmacist in addition to the pharmacists required by paragraph (a) who is, except as otherwise provided in this paragraph, fully dedicated to providing or supervising nondispensing services, except during his or her scheduled meal breaks. The pharmacist may assist in providing dispensing services, including, without limitation, the dispensing of controlled substances or dangerous drugs, if, in the professional judgment of the pharmacist, the care and safety of patients are not compromised.

3. Except as otherwise provided in section 3 of this regulation, at all times during which a pharmacy is staffed by only one pharmacist, the pharmacy must be staffed with at least:

(a) If the pharmacy does not operate a drive-through facility, one pharmaceutical technician or one intern pharmacist employed by the pharmacy.

(b) If the pharmacy operates a drive-through facility:

(1) Two pharmaceutical technicians employed by the pharmacy;

(2) Two intern pharmacists employed by the pharmacy; or

(3) One pharmaceutical technician and one intern pharmacist employed by the pharmacy.

4. A determination made by a pharmacy pursuant to subsection 2 concerning the number of prescriptions the pharmacy is likely to fill on a day must be based on the following factors:

(a) The number of prescriptions filled on the same day in the previous annum;

(b) Recent historical dispensing data;

(c) Patient demographics;

(d) Market trends;

(e) Seasonal trends; and

(f) Predictive analytics.

Sec. 3. *1. A pharmacy is not required to comply with the requirements of subsections 2 and 3 of section 2 of this regulation if one of the following reasons prevents the pharmacy from complying with those requirements:*

(a) An emergency;

(b) A natural or man-made disaster;

(c) The existence of a state of emergency or declaration of disaster proclaimed by the State or Federal Government; or

(a) The pharmacy must make an effort to provide reasonable accommodations; and

(b) The manager of the pharmacy shall disperse the total number of hours that the pharmacy is required to comply with the provisions of subsection 2 of section 2 of this

regulation for that day throughout the week in which the day falls. The manager must disperse the hours in a manner which prioritizes coverage during periods in which the pharmacy has the highest volume of dispensing and nondispensing services.

3. Failure by a pharmacy to comply with the requirements of subsections 2 and 3 of section 2 of this regulation for any reason other than a reason specified in subsection 1 constitutes unprofessional conduct pursuant to subsection 4 of NRS 639.210 and may serve as the basis for such disciplinary action as the Board deems appropriate.

4. As used in this section, "week" means a period of 7 consecutive calendar days beginning at 12:01 a.m. Sunday and ending at midnight Saturday.

Sec. 4. *1. In addition to the requirements of section 2 of this regulation, a pharmacy that dispenses controlled substances or dangerous drugs must be staffed:*

(a) In a manner that meets the demands of the pharmacy and prioritizes the care and safety of patients; and

(b) Sufficiently at all times in order to minimize fatigue, distraction or other conditions which interfere with the ability of a pharmacist to practice competently and safely.

2. A pharmacy that dispenses controlled substances or dangerous drugs must provide a pharmacist who is employed by the pharmacy with sufficient time to complete his or her professional duties and responsibilities.

Sec. 5. *1. A pharmacy that dispenses controlled substances or dangerous drugs shall develop and implement a process by which a member of the staff of the pharmacy may submit to the managing pharmacist or a pharmacist designated by the managing pharmacist to assume the duties of the managing pharmacist in his or her absence a written:*

(a) Request for additional staff; or

(b) Report of a concern regarding staffing.

2. Except as otherwise provided in subsection 3, if the managing pharmacist or his or her designee receives a request or report submitted pursuant to subsection 1, the managing pharmacist or his or her designee shall, in a timely manner to ensure a safe working environment for the staff of the pharmacy, but in no event later than 72 hours after the receipt of the request or report:
