Re: Self-Disclosure of University Compounding Pharmacy's Disciplinary Action by the California State Board of Pharmacy.

To Whom It May Concern:

On December 3, 2015, Joseph Grasela, RPh and University Compounding Pharmacy (UCP) entered into a stipulated settlement with the California State Board of Pharmacy wherein Pharmacy Permit PHY 45621, Sterile Compounding License 99018 and Pharmacist License RPH 40868 were placed on probation for four (4) years. A copy of the Decision and Order, Case 4347 should be on record with your board, as it has been previously submitted.

Effective July 6th 2018, Early Termination of Probation of California Pharmacy Permit No. 45621, Sterile Compounding Permit No. 99018 and Pharmacist RPH License 40868 was granted. See page 16 of the attached Decision and Order of the California Board of Pharmacy supporting Early Termination of Probation.

Following the stipulated settlement agreement from the California Board of Pharmacy, some other states responded by taking action against our respective licenses, however since being granted early termination of probation, all states have followed suit and terminated the probation orders.

- Sterile low-lint outer garb, head cover, beard cover, sterile face mask, shoe covers: Available
- Sterile gloves and alcohol-based hand rub: Available

Training/Competency

- Pharmaceutical calculations, gloved fingertip sampling, media fill testing, observational skills assessments (hand hygiene/garbing, cleaning/disinfection, aseptic technique): Reviewed

Quality Assurance

- End-product testing of potency and sterility performed at least monthly by 3rd party laboratory
  - USP <71> Sterility, USP <85> Bacterial Endotoxins testing performed on all batched injectable CSPs
  - All batched CSPs quarantined until sterility/endotoxin results complete (no at-risk batch releases)

Education

- Education provided regarding BPC 4127.1(f) as it pertains to adverse effects reported or potentially attributable to a pharmacy's sterile compounded drug product shall be reported to the board within 12 hours and immediately reported to the MedWatch program of the federal Food and Drug Administration (reports to the CA Board of Pharmacy should be emailed to compoundingreport@dca.ca.gov)
- Education provided regarding USP Chapter <797> as it pertains to:
  - For entities compounding any Category 3 CSPs, surface sampling of all classified areas, and pass-through chambers connecting to classified areas, must be completed prior to assigning a BUD longer than the limits established in Table 13, and at least weekly on a regularly scheduled basis regardless of the frequency of compounding Category 3 CSPs
  - When a compounded single-dose CSP or CSP stock solution is used as a component to compound additional CSPs, the original compounded single-dose CSP or CSP stock solution must be entered or punctured in ISO Class 5 or cleaner air and must be stored under the conditions upon which its BUD is based (e.g., refrigerator or controlled room temperature). The component CSP may be used for sterile compounding for up to 12 h or its assigned BUD, whichever is shorter, and any remainder must be discarded.
  - Garbing competency evaluation consists of a visual observation and gloved fingertip and thumb sampling (GFT) of both hands
  - Aseptic manipulation competency evaluation consists of a visual observation, media-fill testing, followed by a gloved fingertip and thumb sampling on both hands, and surface sampling of the direct compounding area to assess aseptic technique and related practices

Discussion

- The following links and resources stated below were provided to PIC Grasela via email during the inspection:

November 1, 2023, is the compendial date for several USP General Chapters, including General Chapters <795> Pharmaceutical Compounding—Nonsterile Preparations, <797> Pharmaceutical Compounding—Sterile Preparations, <800> Hazardous Drugs—Handling in Healthcare Settings, and <825> Radiopharmaceuticals—Preparation, Compounding, Dispensing, and Repackaging. Consistent with the policy statement the Board released on September 12, 2023, it is the Board's expectation that licensees are moving forward with all necessary implementation activities to comply with the updated USP compounding standards.
The Board has undertaken a review of its compounding regulations and identified changes necessary to clarify or make more specific requirements of federal law and USP General Chapters.

Dispensing, and Repackaging. Consistent with the policy statement the Board released on September 12, 2023, it is the Board's expectation that licensees are moving forward with all necessary implementation activities to comply with the updated USP compounding standards.

The Board has undertaken a review of its compounding regulations and identified changes necessary to clarify or make more specific requirements of federal law and USP General Chapters.

During this transition period, licensees are encouraged to monitor the regulation process for updates, including signing up for the Board's subscriber alert system and by checking the Board's website.

Licensees are reminded to also ensure continuing compliance with other laws, regulations, and requirements that may apply to their activities, including, without limitation: the Federal Food, Drug, and Cosmetic Act (21 USC §§ 321–399i), including Section 503A thereof (21 USC § 353a); provisions of California's Sherman Food, Drug, and Cosmetic Law (Health and Safety Code §§ 109875–111929.4); and laws, regulations, and requirements related to radiopharmaceuticals and/or the handling of hazardous drugs, including requirements established by Cal/OSHA.

INFORMATION UPDATE FOR GRANDPARENT OF LICENSEE

AnovoRx Growth, LLC (the "Licensee") is pleased to inform you that today the TPG family of companies increased its investment in the Licensee's parent company. Today an affiliate of the current 40% owner of our parent company became the 100% owner of our parent company. This makes a member of the TPG family of companies the sole grandparent of the Licensee. Having our existing investor increase its ownership percentage of our parent company will help Anovo maintain its healthy financial condition.

This update will not result in any change to the Licensee itself. The Licensee's FEIN, home state pharmacy permit number, DEA registration number, management, day-to-day operations, parent company and pharmacist-in-charge remain intact. The chart below shows the Licensee's details before and after this update.

INFORMATION UPDATE FOR GRANDPARENT OF LICENSEE

AnovoRx Growth, LLC (the "Licensee") is pleased to inform you that today the TPG family of companies increased its investment in the Licensee's parent company. Today an affiliate of the current 40% owner of our parent company became the 100% owner of our parent company. This makes a member of the TPG family of companies the sole grandparent of the Licensee. Having our existing investor increase its ownership percentage of our parent company will help Anovo maintain its healthy financial condition.

This update will not result in any change to the Licensee itself. The Licensee's FEIN, home state pharmacy permit number, DEA registration number, management, day-to-day operations, parent company and pharmacist-in-charge remain intact. 28.6.10.2) Establishing a BUD

1) INFORMATION: General BUD description.

Observation
USP 795 | Effective 11/01/2023
The BUDs in Table 4 are based on the ability of the CNSP to maintain chemical and physical stability and to suppress microbial growth. These BUDs represent the limit for CNSPs that are packaged in tight, light-resistant containers unless conditions in 10.4 CNSPs Requiring Shorter BUDs or 10.5 Extending BUDs for CNSPs apply.

The aqueous and nonaqueous dosage forms in Table 4 are defined based on the water activity (aw) of the most similar drug preparations described in Table 3 or Application of Water Activity Determination to Nonsterile Pharmaceutical Products ☐1112☐. In general, the use of aw aids in assessing the susceptibility of CNSPs to microbial contamination and the potential for API degradation due to hydrolysis. The aw is different from the water content and may be considered as the available water to support microbial growth and hydrolytic reactions. Nonaqueous dosage forms will not support spore germination or microbial growth due to their low aw. Reduced aw greatly assists in the prevention of microbial proliferation in conventionally manufactured products and is expected to convey the same benefit to CNSPs.

Compounders are not required to measure aw for CNSPs. While the manufactured products in ☐1112☐, Table 2 and compounded preparations in Table 3 below are not exhaustive, they provide examples of dosage forms that have an aw < 0.6 and those that have an aw ≥ 0.6 and can assist personnel in determining the BUD by dosage form using Table 4.

When preparing CNSPs, raw materials and equipment contribute a bioburden to the final preparation. CNSPs with an aw ≥ 0.6, and a BUD within the limits of Table 4, should contain suitable antimicrobial agents to protect against the proliferation of bacteria, yeast, and mold contamination that may be inadvertently introduced anytime during the compounding process or throughout the BUD under appropriate handling and storage conditions. All CNSPs with an extended BUD must follow 10.5 Extending BUDs for CNSPs. Careful consideration should be taken when selecting a preservative to ensure microbiological effectiveness and stability. When antimicrobial preservatives are contraindicated in a CNSP, storage of the preparation in a refrigerator is required if such storage does not change the physical or chemical properties of the CNSP (i.e., precipitation).

4) Does the facility assign BUDs in accordance with USP 795?

Yes: Non-preserved aqueous dosage forms: 14 days refrigerated.

Yes: Preserved aqueous dosage forms: 35 days refrigerated or room temperature

Yes: Non-aqueous oral liquids: 90 days refrigerated or room temperature

Yes: Other non-aqueous dosage forms: 180 days refrigerated or room temperature

Yes: CNSPs are protected from moisture, freezing, and excessive heat, and where necessary, from light.

28.6.10.3) CNSPs Requiring a Shorter BUD

1) Does the facility have a process to determine if data shows a CNSP requires a shorter BUD?

Yes

2) Do assigned BUDs take into account the shortest expiration date of any starting components?

3) Are BUDs longer than the shortest BUD of any of the individual components?

Yes

28.6.10.4) Extending BUDs for CNSPs

These medical conditions can be effectively treated, and it is possible for healthcare professionals that are in treatment or recovery to return to practice.

The State of Ohio Board of Pharmacy encourages all healthcare professionals who may be struggling with substance use disorder or mental health condition to seek help. The following are resources that can assist healthcare professionals in getting help: (The resources listed here are for informational purposes only and do not constitute an endorsement by the State of Ohio Board of Pharmacy. They do not represent a complete list of the resources available)

Ohio Careline 1-800-720-9616, emotional support, with referral to other resources if needed.

Provide explanation below:

United States District Court, Eastern District of Missouri (Case: 4:21-cv-00249-SEP), Voyant (Aware Products LLC, doing business as Voyant) filed a complaint on February 16, 2021, against Epicure Medical LLC, Foxhole, and Ori.

Claims were for breach of contract, account stated, promissory estoppel, and unjust enrichment.

The dispute originated from a March 26, 2020, letter of intent (LOI) submitted on Foxhole letterhead by Ori, committing to purchase 1 million units of 2-ounce hand sanitizer at 93 cents per unit for a total of $930,000. The actual purchase order was executed by Epicure Medical. I, Sarah Simmers, was a managing member of Foxhole Medical.
The agreement was made during the early days of the COVID-19 pandemic, with the letter stating it was intended for the immediate procurement of bottles and caps prior to a formal purchase order.

The legal dispute centered on whether a binding contract was formed and breached regarding the procurement and payment for hand sanitizer production. The lawsuit was settled out of court in 2025.

Provide explanation below:

United States District Court, Eastern District of Missouri (Case: 4:21-cv-00249-SEP), Voyant (Aware Products LLC, doing business as Voyant) filed a complaint on February 16, 2021, against Epicure Medical LLC, Foxhole, and Ori.

Claims were for breach of contract, account stated, promissory estoppel, and unjust enrichment.

The dispute originated from a March 26, 2020, letter of intent (LOI) submitted on Foxhole letterhead by Ori, committing to purchase 1 million units of 2-ounce hand sanitizer at 93 cents per unit for a total of $930,000. The actual purchase order was executed by Epicure Medical. I, Sarah Simmers, was a managing member of Foxhole Medical.
The agreement was made during the early days of the COVID-19 pandemic, with the letter stating it was intended for the immediate procurement of bottles and caps prior to a formal purchase order.

The legal dispute centered on whether a binding contract was formed and breached regarding the procurement and payment for hand sanitizer production. The lawsuit was settled out of court in 2025.

As I was demonstrating and explaining, Rebhandl began somewhat arguing with me, I asked Rebhandl if he was refusing the tasks and he said yes. I advised Rebhandl that if he refused, his refusal can and will be used against him in court he said he understood and after trying to argue with me he eventually refused the rest of the tasks

SUBJECT: REBHANDL,THOMAS

AGENCY: Palm Beach Gardens Police Department CASE NUMBER: 12-002843

ARRESTING OFFICER: Melinda Henton #305

PERSONAL CONTACT

DRIVING PATTERN: ACTUAL PHYSICAL CONTROL (PHYSICAL EVIDENCE OR STATEMENTS PUTTING DEF. BEHIND WHEEL OF VEHICLE)

On 5/25/12 at 1:45 a. m. I was running stationary radar on S. R. 811 (Alternate A1A) at 13354, Frenchmans Reserve Security gate. While monitoring the north and south bound lanes I observed a white vehicle northbound that appeared to be traveling at a high rate of speed. I visually estimated the vehicle to be traveling at 70 miles per in a posted 50 mile per hour zone. I activated my stationary Genesis VP (serial #08507) radar and heard the Doppler tone and a visual reading of 69 miles per hour in the posted 50 mile per hour zone. I pulled out behind the white BMW 325I bearing Florida tag ND25SC. I activated my emergency red and blue lights to stop the vehicle and the BMW proceeded north without slowing or stopping. The BMW approached the red traffic light at Donald Ross Road and he pulled into the left turn lane to head west onto Donald Ross Road. The BMW's final rest was in the turn lane. I made contact with the white male driver and white male passenger. I identified the driver by the photograph on his Florida drivers license as Thomas Rebhandl.

OBSERVATION OF DRIVER:

strong odor of an unknown alcoholic beverage coming from his breath as he spoke, his speech was slurred and mumbled, his face appeared flush, his eyes were glassy and when he exited he was unsteady on his feet, swaying the entire time. Also had to repeat instructions like not moving head and keeping hands out of pockets

DRIVER'S STATEMENTS:

stated he had 3-4 drinks, stated he is a Pharmacist and that he is a second away from home and that his girlfriend broke up with him a couple of weeks ago.

ODORS:

strong odor of an unknown alcoholic beverage coming from breath as he spoke

GENERAL OBSERVATIONS

SPEECH: slurred, mumbled

ATTITUDE: lethargic, cooperative

CLOTHING: striped shirt, jeans, white shoes

MEDICAL PROBLEMS: mood disorder, depression

MEDICATIONS: Risperdal, Zoloft

Melaleuca, Inc. v. TWC 2022, Inc.	Lawsuit

Name of Business/Industry/Entity
TWC 2022 Inc.

Provide explanation below:

Melaleuca has sued TWC 2022, Inc. in the District of Idaho for federal and state trademark infringement and unfair competition based on TWC's use of "The Wellness Company" and "Vitality" branding for its health products. TWC vigorously denies any wrongdoing, asserting multiple defenses including that Melaleuca's claimed "THE WELLNESS COMPANY" mark is generic and thus unenforceable, there is no likelihood of consumer confusion, and that Melaleuca has suffered no cognizable damages or irreparable harm. In addition, TWC has filed counterclaims seeking a declaratory judgment of non-infringement as to Melaleuca's asserted registrations and common-law rights, and asks the court to dismiss all claims with prejudice and award TWC its attorneys' fees and costs based on the substantive weakness of Melaleuca's case

1. Problem Description

During review of the inspection finding, the pharmacy identified that one prescription was inadvertently shipped to the state of Washington in November 2025, and the pharmacy did not hold a Washington non-resident pharmacy license at the time of shipment.

2. Immediate Actions Taken

1. Immediately stopped all prescription shipment activity to Washington upon discovery of the licensure gap.
2. Reviewed recent shipment history to confirm this was an isolated occurrence and to identify any additional shipments to Washington.
3. Implemented a temporary shipping hold / block to prevent future shipments to Washington until licensure is confirmed and documented.

3. Root Cause Analysis

The shipment occurred due to insufficient controls within the shipping workflow to prevent dispensing/shipping into a state where the pharmacy is not actively licensed. Specifically:

- The pharmacy did not have a hard stop in the prescription processing and/or shipping workflow to verify non-resident licensure status prior to shipment.

- Washington was not included on the pharmacy's licensed-state validation reference used during order processing.

4. Data Collection and Evidence

- Shipping log / transaction record confirming shipment to Washington (November 2025)
- Copy of current Florida pharmacy license and DEA certificate (posted and current)
- Current non-resident license binder copy/index (showing all active non-resident licenses currently held)
- "Licensed States List" (controlled document) implemented for shipping verification
- Shipping restriction in the dispensing/shipping workflow "Shipping State List" posted at shipping station

5. Corrective Actions

Specific actions implemented to correct the immediate problem and prevent its recurrence. Include who is responsible and the target completion date.

Corrective Action	Responsible Person	Target Completion Date	Status
Immediately stop all shipments to Washington until non-resident licensure is obtained and documented	PIC	Dec 30, 2025	Complete
Review shipment history for the prior 90 days to confirm if any additional shipments occurred to Washington or other non-licensed states	PIC	Jan 3, 2026	Complete
Implement shipping block: "Do Not Ship to WA" restriction at shipping station + staff communication acknowledgment	PIC	Jan 5, 2026	Complete
Update shipping workflow to require verification of destination state against	PIC	Jan 9, 2026	Complete

Corrective Action	Responsible Person	Target Completion Date	Status
"Licensed States List" prior to shipment			
Create and implement Monthly Shipping Destination Audit for state licensure compliance verification	PIC	Jan 12, 2026	In Progress

6. Preventive Actions

1. State Shipping Eligibility Verification Process
    a. A current "Licensed States List" has been established and is maintained as a controlled document.
    b. Staff must verify the destination state is licensed prior to shipment.
2. System/Workflow Controls
    a. The pharmacy will implement and maintain a shipping restriction (hard stop) for all non-licensed states within the dispensing/shipping workflow (system-based).
3. Licensure Binder + Tracking Enhancements
    a. Non-resident licenses will continue to be maintained in the licensure binder.
    b. The binder will now include:
        i. A state-by-state active license checklist
        ii. Current license copies and expiration dates
        iii. Responsible staff member assigned for routine review
4. Ongoing Monitoring
    a. The pharmacy will complete a monthly audit of shipping destination states to ensure shipments occurred only to licensed jurisdictions.
    b. Any discrepancies will be documented and addressed through corrective action.

7. Review and Monitoring

Ongoing Monitoring

1. The pharmacy will complete a monthly audit of shipping destination states to ensure shipments occurred only to licensed jurisdictions.
2. Any discrepancies will be documented and addressed through corrective action.

Schedule a review meeting to discuss the effectiveness of the implemented actions: 1/30/2026

Requirements for Reporting Adverse Events

Manufacturers of drugs (and 503B Outsourcing Facilities) are *required* to send Adverse Event reports to the FDA as specified by regulations.

Reporting of adverse events by **healthcare professionals** and consumers is *voluntary* in the United States.

When the event is "serious", it should be reported via a Safety Report to the FDA using the FAERS system.

- Why should I report CNSPs prepared by my hospital?
  - If there is a potential safety concern, FDA will do further evaluation and monitor data for emerging trends.
  - Submission of an Adverse Event is not considered an admission of malpractice or admission of a contribution to the event.

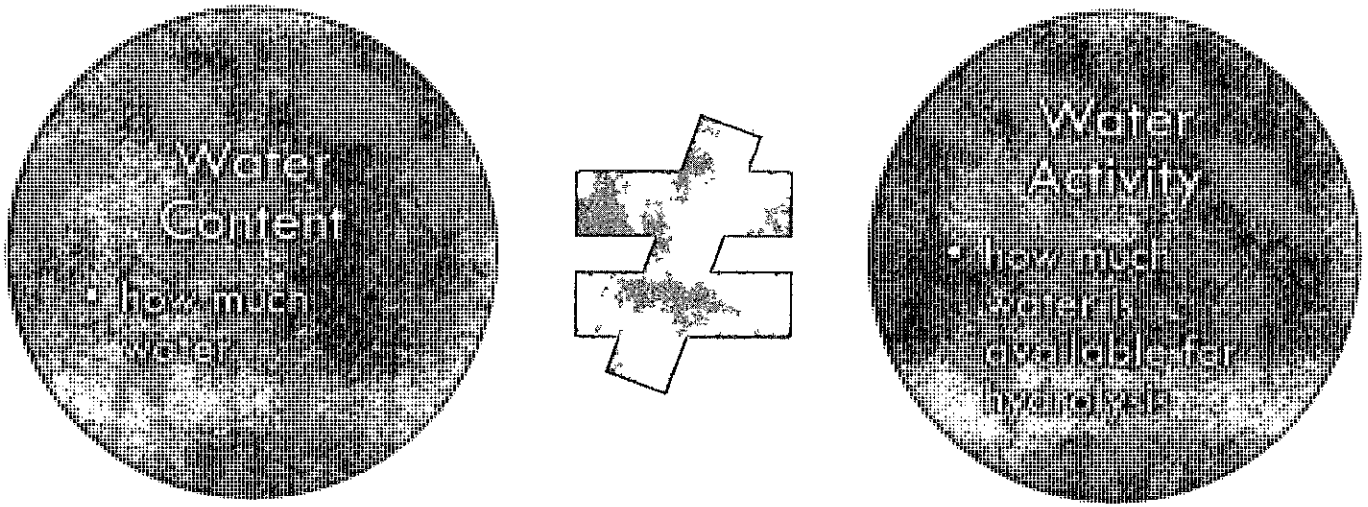
Establishing a BUD for a CNSP: Water Activity, a_w

What is Water Activity?

Quantitative value which aids in assessing the susceptibility of CNSPs to microbial contamination and the potentially for API degradation due to hydrolysis.

Why do we care?



Higher the Water Activity

- More water available to support microbial growth
  - Higher susceptibility for microbial contamination
- More water available for hydrolysis
  - Higher potential for API degradation via hydrolysis

Establishing a BUD for a CNSP: Water Activity a_w

"However, it should be noted that more resistant microorganisms, including spore forming Clostridium spp., Bacillus spp., Salmonella spp. and filamentous fungi, although they may not proliferate in a drug product with a low water activity, may persist within the product."[1]

Why do we care?

Higher the Water Activity

- More water available to support microbial growth
  - Higher susceptibility for microbial contamination
- More water available for hydrolysis
  - Higher potential for API degradation via hydrolysis

Lower the Water Activity

- greater control of microbial growth
- makes materials self preserve

Ways to Determine BUD to CNSP

1. **Use USP-NF Monograph**
   - Easiest/Least Risk
   - Might not exist
   - Must not exceed BUD specified in the monograph if using monograph

2. **Reference CNSP-specific Stability Study**
   - Must use stability-indicating analytical method for the API(s), CNSP formulation, and material of composition of the container closure that will be used
   - BUD indicated by the study may be used in lieu of the BUDs specified in USP <795> limit table for aqueous and nonaqueous dosage forms
   - May not exceed 180 days

3. **Based on water activity, refer to BUD limits table in USP <795> to assign BUD**
   - Must do due diligence to determine if literature exists showing showing stability of a CNSP that is less than those in the table
   - Must assign the shorter of the BUDs (conservatively)

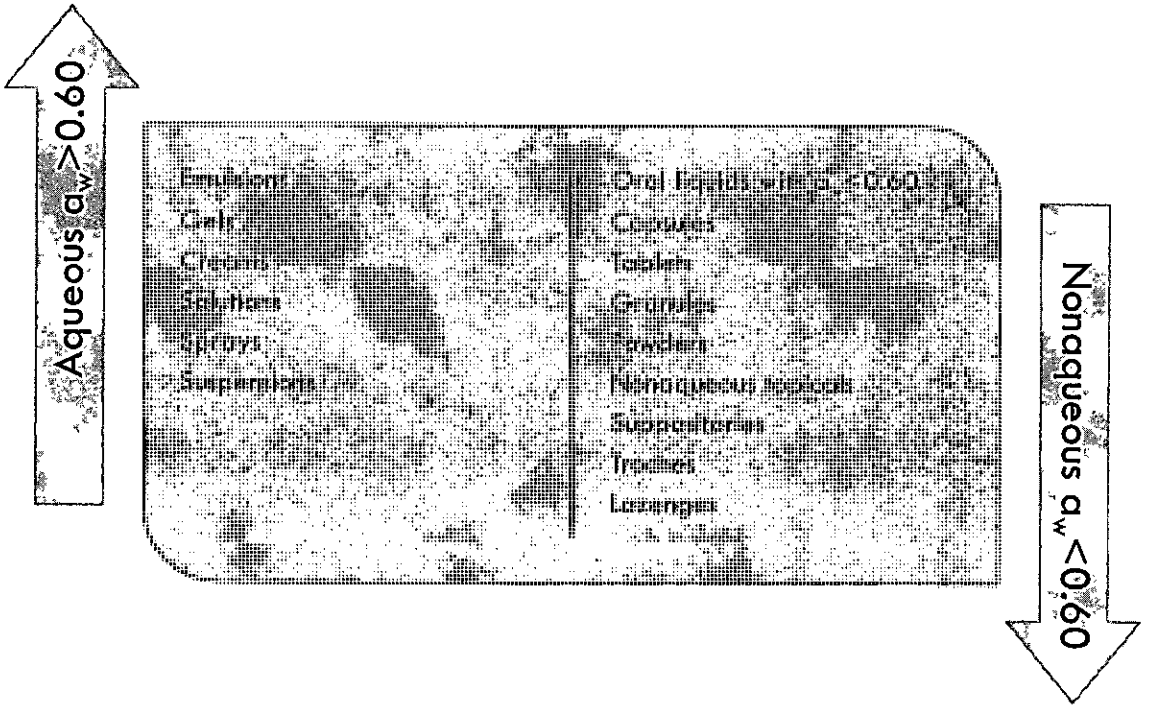
Knowledge Check
Determining Water Activity



True or False?

Compounders are not required to measure water activity for CNSPs.

USP <1112> and <795> provide examples of dosage forms that have an aw < 0.6 and those that have an aw > 0.6 and can assist personnel in determining the BUD by dosage form

When CNSPs Require a Shorter BUD

Copyright © 2023 PharmacyStars, LLC. All Rights Reserved.

Do I need to add antimicrobial preservative(s)? Conditions

Yes, add carefully selected antimicrobial agent.

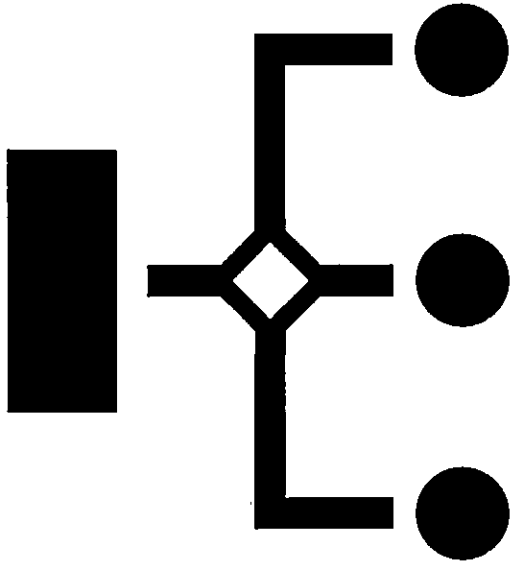
- If you have a CNSPs with an $a_w \geq 0.6$
  - You want to assign a BUD from USP <795> for "preserved" aqueous dosage forms
    - **Must add carefully selected antimicrobial agent**
- Why?
  - to protect against the proliferation of bacteria, yeast, and mold contamination that may be inadvertently introduced anytime during the compounding process or throughout the BUD under appropriate handling and storage conditions.

No, it is contraindicated.

- When antimicrobial preservatives are contraindicated in a CNSP
  - Storage of the preparation (nonpreserved) in a refrigerator is required
    - As long as such storage does not change the physical or chemical properties of the CNSP (i.e., precipitation).
  - Shorter "non preserved" BUD limit from USP <795> must be assigned

Copyright © 2023 PharmacyStars, LLC. All Rights Reserved.

When extending BUD beyond USP <795> limits Antimicrobial Effectiveness Testing (AET)



- If extending the BUD of a preserved aqueous CNSP (i.e. an aqueous CNSP with an antimicrobial agent added) beyond t*he limits in the table provided by USP 795*
  - The CNSP must tested for antimicrobial effectiveness.
  - Testing information is found in USP <51>.

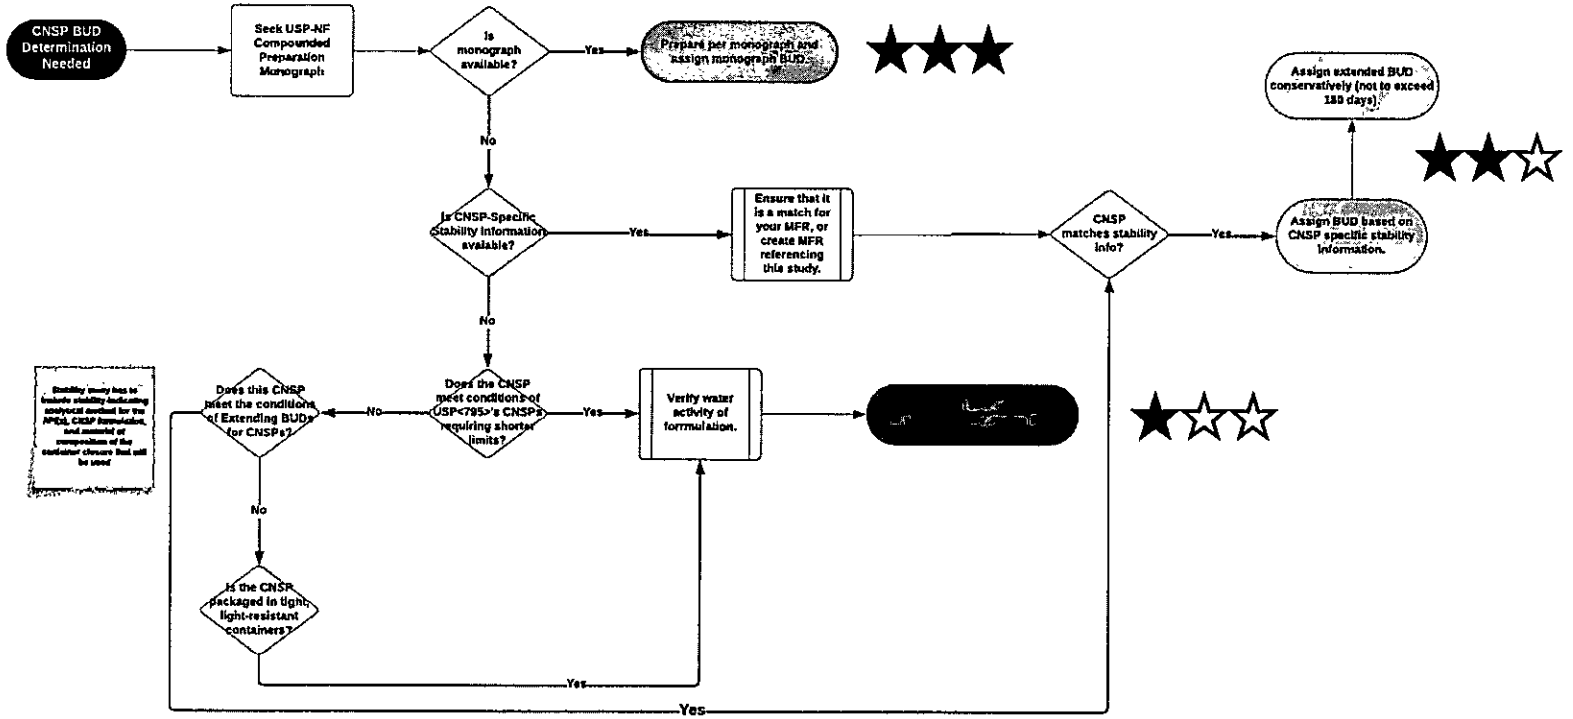
The designated person(s) may rely on antimicrobial effectiveness testing that is:

- **conducted once (or contracted for)**
  - for each formulation in the particular container closure system—including materials of composition of the container closure system—in which it will be packaged
- **provided by an FDA-registered facility**
- **published in peer-reviewed literature**
  - CNSP formulation (including any preservative(s), container closure materials must be identical.
    - The concentration/strength may only differ if the literature includes a bracketing study in which the concentration prepared is within the range of the bracket.

Copyright © 2023 PharmacyStars, LLC. All Rights Reserved.

When extending BUD beyond USP <795> limits Antimicrobial Effectiveness Testing (AET)

What is a Bracketed study?



- Effectiveness testing performed on
  - a low concentration of the active ingredient in the formulation
  - a high concentration of the active ingredient in the formulation

Purpose of bracketed study

- To establish preservative effectiveness across various strengths of the same formulation (e.g., bracketing). The concentration of all other ingredients (including preservatives) must fall within the bracketed range.

Inspector Notes: List states in which Non-Resident licenses are held The pharmacy is licensed in the following States: AZ, CO, IL, IN, IA, ME, MO, MT, NJ, NM, NC, ND, PA, RI, SD, WI and WY. It appears that the pharmacy shipped one prescription into the State of WA in November 2025 and the pharmacy does not hold a non-resident license in the state of Washington. Infinite Health Pharmacy changed their business model in October 2025. 99.9% of the purported prescriptions dispensed now are "Emergency Kits". The purported prescriptions are received as an e-script from the telemedicine company, The Wellness Company. The purported prescriptions received are for "Emergency Kit (antibiotic)", quantity of "1", and are "coded" to dispense '1 kit(s) as needed, oral route Compound Ivermectin per protocol.' The protocol for the "Emergency Kit (antbiotic)" contains 8 separate prescription drugs and are dispensed with 8 different prescription numbers. Most of the "Emergency Kits" contain 28 Amoxicillin-Clavulanate 875-125, 12 Azithromycin 250mg, 60 Doxycycline 100mg, 30 Metronidazole 500mg, 28Trimethoprim-Sulfamethoxazole 160-800, 25 Compounded Ivermectin 12mg Tablets, 2 Fluconazole 150mg, 8 Ondansetron 4mg and a Medical Emergency Kit Guidebook for Reference. These purported prescriptions are dispensed for future use to be determined by the patient.
The Ivermectin 12 mg tablets are compounded in batches of 10,000 tablets which is a 14 day supply. The pharmacy is compounding Ivermectin 12 mg tablets instead of the patient using the commercially available 3 mg tablet. The pharmacy is using an RTP 188 tablet press from LFA Machines.

67.01	Does the DUR include: • drug-drug interaction (Prescription and OTC), • drug-allergy interaction, • therapeutic duplication, • under- or over-utilization (including clinical abuse/misuse), • disease state or condition contraindication, • Incorrect dosage or duration of therapy, and • gender or age related contraindications. *Indicate if there are other parameters routinely included in the DUR.*	Unknown	The pharmacy utilizes the electronic medical records that the patient has provided to the Wellness Company. The pharmacy has access only to the data provided by the patient. Furthermore, the pharmacy prepares "Emergency Kits" that were prescribed via telemedicine company purported prescription(s) which are "coded" to prepare per protocol. These "Emergency Kits" contain multiple antibiotics and other prescription drugs (including ivermectin), intended for future use to be determined by the patient. It is unclear that DUR is occurring as 99.9% of the pharmacies purported prescriptions are for antibiotic emergency kits and there would be drug duplication with issuing multiple antibiotics. Refer to Doc01.
67.02	In addition to the pharmacy DUR software, does the pharmacy staff obtain other information to use in the DUR process? *Describe.*	Unknown	The pharmacy reports that they have access to the medical chart from the telemedicine company, which is information that comes from the patient. It is unclear is this is a complete medical review as the two prescriptions reviewed (see Doc01) was blank for medical conditions.
67.03	Does the pharmacy have adequate resources/references related to the type of pharmacy practice it operates?	Yes	
67.04	Does the pharmacy report required data to the state PMP (in this state and the other states in which the pharmacy is licensed)? *Describe.*	Yes	The pharmacy does a "Zero" reporting to all states that the pharmacy is licensed in.
67.05	Does the pharmacy access state PMP/PDMP data for specific patients? *Verify there is a policy regarding access and follow-up or reporting and that pharmacist can access the PMP data.*	N/A	The pharmacy no longer dispenses controlled substances under the new business model.
67.06	Are DUR overrides/bypasses documented? *Indicate how the override is documented and who has override capability.*	Yes	All overrides are performed by the pharmacist and documented in the Pioneer system. The pharmacists were documenting their multitude of overrides for drug duplication for the antibiotics in the "Emergency Kits" being dispensed.

Glossary & References	USP <795>
Active Pharmaceutical Ingredient (API)	Any substance or mixture of substances intended to be used in the compounding of a preparation, thereby becoming the active ingredient in that preparation and furnishing pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, or prevention of disease in humans or animals or affecting the structure and function of the body. Also referred to as a bulk drug substance. A conventionally manufactured drug product is not an API but is typically manufactured from an API(s).
Added Substance	An ingredient that is necessary to compound a preparation but is not intended or expected to cause a pharmacologic response if administered alone in the amount or concentration contained in a single dose of the compounded preparation. The term is used synonymously with inactive ingredient, excipient, and pharmaceutical ingredient.
Administration	The preparation of a nonsterile pharmacologic or other therapeutic agent for ingesting, inserting, applying, or otherwise providing a nonsterile medication in its final form to a single patient. This includes crushing a tablet(s) or opening a capsule(s) to mix with food or liquids to facilitate patient dosing.
Alcohol-based hand rub	An alcohol-containing preparation (liquid, gel, or foam) designed for application to the hands of health care personnel to inactivate microorganisms and/or temporarily suppress their growth. Such preparations may contain one or more types of alcohol, other active ingredients, excipients, and humectants.
Assigned trainer	One or more individuals assigned by the designated person(s) to be responsible and accountable for directly providing the training, observation, and/or evaluation of personnel for the preparation of CNSPs.
Beyond-use date (BUD)	The date, or hour and date, after which a CNSP must not be used, stored, or transported. The date is determined from the date or time the preparation is compounded.
Biological Safety Cabinet (BSC)	A ventilated cabinet that may be used for compounding. These cabinets are divided into three general classes (Class I, Class II, and Class III). Class II BSCs are further divided into types (Type A1, Type A2, Type B1, Type B2, and Type C1).
Bulk drug substance	See the entry for Active Pharmaceutical Ingredient.
Certificate of analysis (COA)	A report from the supplier of a component, container, or closure that accompanies the supplier's material and contains the specifications and results of all analyses and a description of the material.
Cleaning	The process of removing substances (eg, organic and inorganic material) from objects and surfaces, normally accomplished by manually or mechanically using water with detergents or enzymatic products.
Cleaning agent	An agent, usually containing a surfactant, used for the removal of substances (eg, dirt, debris, microbes, and residual drugs or chemicals) from surfaces.
Closed-system processing device	A device designed to reduce the potential exposure to personnel or contamination of the facility or CNSPs. Examples include CVEs, BSCs, or single-use containment glove bags.

RE: Thomas Rebhandl – Criminal Record Disclosure

I am writing to explain the details of the misdemeanor traffic offense arrest noted in my background screen report.

The incident took place on May 25, 2012, and resulted in case number 2012CT012635. The arrest arose out of a driving incident near my home in Palm Beach Gardens, Florida. At that time, I made the mistake of driving while under the influence of alcohol. I was pulled over and cited. Eventually, I was able to plead out of the case and was required to attend Driving Under the Influence School, pay a fine of $250, and complete 25 hours of required community service. The DUI charge was later reduced to reckless driving. The speeding charge was dismissed. Probation was completed successfully.

Please take into account that I learned my lesson and have not had any further incidents of driving under the influence of alcohol or drugs.

Should you have any further inquiries, please contact me:

to its original stocked location because the pharmacist affixed the wrong medication label to the bottle, despite scanning the returned medication. The pharmacy staff committed the error, and the available technology at the pharmacy was unable to prevent the dispensing of the incorrect medication. Moreover, the pharmacist could have identified the error by reviewing the medication with the patient at the time of consultation. This error underlines the importance of reviewing the medication personally with the patient, and pharmacies can encourage patients to agree to have the consultation.

It is of utmost importance for pharmacies to develop policies and procedures and to train their staff on the proper use of any technological solutions a pharmacy has incorporated into their practice. Pharmacists should continue to incorporate safe dispensing practices when verifying a prescription prior to furnishing prescription medications to a patient. By striking a balance between technology integration and ensuring pharmacists still exercise their professional judgment, pharmacies can continue to deliver exceptional customer care while prioritizing patient safety and well-being.

Inspection Results

Enforcement and Compounding Committee Releases Report on Inspections

California has 6,241 licensed pharmacies, and for the past five years the California State Board of Pharmacy has completed approximately 2,900 pharmacy inspections annually. The Enforcement and Compounding Committee released its 2022-2023 fiscal year (FY) report on inspections, and the Board continues to be on track to achieve their goal of inspecting all pharmacies every four years.

Reasons to inspect pharmacies included routine inspection, consumer complaint, probation, and annual compounding renewal inspections.

THE NUMBER OF PHARMACIES INSPECTED IN A FISCAL YEAR:

FY18/19	FY19/20	FY20/21	FY21/22	FY22/23
3,462	2,545	2,963 *2,817 in person/ 146 desk audits	2,938 *2862 in person/ 76 desk audits	3,045

The Board performed desk audits due to COVID restrictions in FY20/21 and FY 21/22

Most Board inspections were completed in pharmacies, which is the largest site licensing program. Sterile compounding pharmacies require mandated renewal inspections, which accounts for close to a third of the Board's total inspections.

Inspections by visit type:

- 922 - routine pharmacy inspection (PHY-PHE)
- 440 - consumer complaint
- 336 - pharmacy on probation
- 940 - Annual compounding renewal inspections
  - 56 new
  - 884 renewal

The remainder of Board inspections were made up of outsourcing inspections and a miscellaneous category. Outsourcing facilities do bulk compounding and may manufacture large batches. These are also mandated inspections, most of the licensed outsourcers are out of state.

RE: License Action Summary; Kirnjot Singh, MD

To Whom it May Concern:

In Feb 2007, the AG of Indiana instituted an investigation into an alleged boundary violation emanating from a single encounter with a former patient in Oct 2005. This culminated in the filing of a formal complaint by the AG's office in July 2007.

Upon the advice of counsel, I entered a settlement agreement, in October 2007, with the Indiana Attorney General's Office in response to the complaint filed by them in July 2007. The settlement agreement placed my IN license on probation, among other things, beginning in October 2007. This was officially removed in October 2008. As of October 2008, I have an unrestricted, clear IN medical license.

In June 2008, the NY medical board ordered my inactive NY medical license revoked based upon the IN action. This was upheld on appeal to the administrative review board in October 2008. I filed an unsuccessful Article 78 appeal in the Supreme Court of Albany, NY in the winter of 2008. I successfully petitioned three times to modify the discipline, since my IN License is unrestricted as of October 2008, resulting in the removal of the revocation, stayed revocation with certain conditions, and then finally all conditions. I had an unrestricted, clear NY medical license as of May 2019. In 2010, the Medicaid Inspector General issued a reprimand based on the actions of the NY medical board.

The IL Department of Professional Regulation ordered a retroactive probation in March 2009. The term of this probation was to be concurrent with the IN term. Therefore, as of October 2008, I had an unrestricted, clear IL medical license. Both of my IL and NY license are currently inactive.

Should you have any questions, please contact me.

Sincerely,

Kirnjot Singh, MD

INSPECTION REPORT

controlled substances lost no later than three months after discovery of the reportable loss. A report is completed if the loss is discovered either by inventory activities required above or in any other manner. The report must cover the period from the last physical count of that controlled substance before the loss was discovered through the date of discovery. A reportable loss is specified in CCR 1715.6 or any pattern of losses identified by the PIC defined by policies and procedures. A reportable loss must require an inventory reconciliation report for each pattern of loss identified. Inventory activities for each controlled substance not covered in (1) and (2) must be performed at least once every two years from the performance of the last inventory activities.

- Defines "inventory activities" to mean inventory and all other functions sufficient to identify loss of controlled substances. The functions sufficient to identify loss outside of the inventory reconciliation process must be identified within the pharmacy's policies and procedures.
- The PIC or consulting pharmacist of a clinic must review all inventory activities performed and inventory reconciliation reports prepared and establish and maintain secure methods to prevent losses of federal controlled substances.
- **Inventory reconciliation report must include:** (1) physical count, not an estimate, a biennial inventory required by federal law may serve as one of the mandated inventories, and an individual who performs the inventory must sign and date the inventory or report; (2) a review of all acquisition and disposition of each federal controlled substance covered by the report since the last inventory reconciliation report; (3) a comparison of (1) and (2) to determine any variances; (4) identification of all records used to compile the report, maintained in the pharmacy or clinic for three years;
- Requires reporting to the board identified losses and known causes within 30 days of discovery unless the cause of the loss is theft, diversion or self-use which requires reporting within 14 days as required by BPC 4104. If the cause of the loss is not identified, further investigation must be undertaken to identify the cause and actions necessary to prevent additional losses.
- The inventory reconciliation report must be dated and signed by the PIC or professional director of a clinic (BPC 4180, 4190) and individual(s) who performed the inventory. A required signatory may use digital or electronic signature or biometric identifier in lieu of a physical signature if, in addition, the signatory physically signs a printed statement confirming the accuracy of the inventory report.
- A new PIC must complete an inventory reconciliation report within 30 days of becoming the PIC. When possible, the outgoing PIC should also complete an inventory reconciliation report.
- Inpatient hospital pharmacies must prepare an inventory reconciliation report(s) on a quarterly basis. The report(s) must include controlled substances stored within the pharmacy, within each pharmacy satellite location, and within each drug storage area in the hospital under the pharmacy's control. If an inpatient hospital pharmacy or licensed correctional pharmacy uses an ADDS, inventory in the ADDS may be accounted for using means other than a physical count.

Subject: Explanation Regarding Board Order for SWYFT SCRIPTS - DFW

To Whom It May Concern,

I am writing on behalf of SWYFT SCRIPTS - DFW to address a previous board order issued by the Texas State Board of Pharmacy. This order pertained to a failure to engage in the business of pharmacy within six months of licensure.

This delay in initiating operations was due to unforeseen logistical and operational challenges that arose during the setup phase. These issues were promptly addressed, and since that time, we have worked diligently to ensure full compliance with all state regulations.

We are pleased to report that SWYFT SCRIPTS - DFW has since passed all required inspections by the Texas State Board of Pharmacy and is now fully operational. Our pharmacy provides retail services and home delivery options for patients and contracts with employers to deliver cost-effective prescription solutions.

We remain committed to upholding the highest standards of care and compliance in the pharmacy industry. Should you require any further information or documentation regarding this matter, please do not hesitate to contact me.

Sincerely,

Chris Tyrone, PharmD
Chief Pharmacy Officer

RE: IN THE MATTER OF
SWYFT SCRIPTS - SOUTHLAKE
(PHARMACY LICENSE #34513)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacy license number 34513 issued to Swyft Scripts - Southlake (Respondent), 771 East Southlake Boulevard, Suite 223, Southlake, Texas 76092.

By letter dated February 15, 2024, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

Sections 565.001(a)(1), (2), (12) and (13); and 565.002(a)(3) and (7) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2023); and

Sections 281.7(a)(13), 291.11(a) and (b); 291.32(a)(2)(H); and 295.3 of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2023), in that allegedly:

COUNT

From on or about May 2, 2023, through on or about September 19, 2023, Swyft Scripts - Southlake (previously licensed as Rejuvenation Pharmacy), 771 East Southlake Boulevard, Suite 223, Southlake, Texas 76092 (previously located at 12423 Cutten Road, Suite C, Houston, Texas 77066 and 2815 North Main Street, Stafford, Texas 77477), failed to legally operate, in that the pharmacy failed to engage in the business of pharmacy within six months of the date of the issuance of its license. Specifically, Swyft Scripts - Southlake became licensed as a Class A pharmacy on November 1, 2022. Subsequently, on or about September 19, 2023, a Texas State Board of Pharmacy inspector received dispensing records from the pharmacy, which indicated that only one prescription was dispensed during the time period alleged above, such that the pharmacy was unable to demonstrate observable pharmacy business activity on a regular and routine basis.

An informal conference was held via videoconference on April 3, 2024, with Christopher Tyrone Vard II, R.Ph., Pharmacist-in-Charge, on behalf of Respondent, in attendance. The informal conference was heard by a Board panel comprised of: Donna Montemayor, R.Ph., Board Member; Jenny Downing Yoakum, R.Ph., Board Member; and Daniel Carroll, Pharm.D., Executive Director/Secretary, with Megan G. Holloway, General Counsel. Kelly M. Souza, Staff Attorney, was also in attendance.

At the aforementioned conference, Christopher Tyrone Vard II, on behalf of Respondent, waived the right to be represented by legal counsel. By signing this Order, Zaryan Hamidani,

Managing Officer, Rejuvenation Pharmacy Incorporated LLC, on behalf of Respondent, neither admits nor denies the truth of the matters previously set out in this Order, and agrees that the Board has jurisdiction in this matter and waives the right to notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Respondent shall pay an administrative penalty of three thousand dollars ($3,000) due one hundred twenty (120) days after the entry of this Order.

(2) Respondent shall be responsible for all costs relating to compliance with the requirements of this Order.

(3) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2023), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2024).

And it is so ORDERED

THIS ORDER IS A PUBLIC RECORD.

SIGNED AND ENTERED ON THIS 6th day of August, 2024.

Provide explanation below:

I am writing on behalf of SWYFT SCRIPTS - DFW to address a previous board order issued by the Texas State Board of Pharmacy. This order pertained to a failure to engage in the business of pharmacy within six months of licensure.

This delay in initiating operations was due to unforeseen logistical and operational challenges that arose during the setup phase. These issues were promptly addressed, and since that time, we have worked diligently to ensure full compliance with all state regulations.

We are pleased to report that SWYFT SCRIPTS - DFW has since passed all required inspections by the Texas State Board of Pharmacy and is now fully operational. Our pharmacy provides retail services and home delivery options for patients and contracts with employers to deliver cost-effective prescription solutions.

We remain committed to upholding the highest standards of care and compliance in the pharmacy industry. Should you require any further information or documentation regarding this matter, please do not hesitate to contact me.

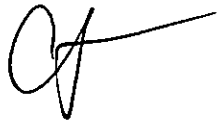
Board of Pharmacy Remedial Plan Update
SwyftScripts, LLC (33628)
Chris Tyrone II, PharmD (66844)

To whom it may concern,



On January 11, 2022 the Texas Board of Pharmacy requested records and determined that SwyftScripts (33628) had failed to engage in the business of pharmacy within 6 months of the date we received our license on January 26, 2021. SwyftScripts has rectified this error by engaging in the practice of pharmacy to the extent that is allowed by our Class G license. We are now processing prescriptions that we receive from prescribers and transferring them to one of our network pharmacies that can fulfill the patient's prescriptions quickly and at the lowest cost to the patient. We are working with prescribers to correct any omitted instructions in their prescriptions and find alternatives that will be covered by insurance and are available on the market before we transfer the prescription to one of our partner pharmacies.

The first step we took to rectify our negligence to practice pharmacy was to establish our pharmacy network and begin marketing to prescribers. We have also contracted with a pharmacy management system (DRX) to allow us to receive, process, transfer and store prescription information in accordance with State and Federal requirements. We have also updated our policies and procedures to reflect our current business practices and to adhere to the standards set forth by the State Board of Pharmacy. This year we have processed 1,179 prescriptions from multiple different prescribers and currently have 12 partner pharmacies in our network.

During our most recent inspection by the board of Pharmacy it was determined by Keya Henry that SwyftScripts was in full compliance with the Texas State Board of Pharmacy rules and regulations. The inspection included an on site visit where she determined that we were not in possession of any prescription medications and had all required licenses and public disclaimers posted. The virtual component of the inspection included a review of our prescription files, contracts, policies and procedures along with our pharmacy management software (DRX) and their security safeguards to protect patient information. Keya also confirmed our other technical safeguards such as two factor authentication to access our servers, IP address verification for those permitted to access databases and HIPAA compliant email and communication services.

Please let me know if there is any additional information required or concerns that the Texas Board of Pharmacy may have that I can address.

Thank You,
Chris Tyrone II, PharmD

Dear Texas Board of Pharmacy,

Christopher Tyrone joined Swyft Scripts in November of 2021. At the time, we were in discussions with a large tech company to form a joint venture in which we would be processing transfers on their behalf. When this organization decided to change their path, we had to pivot quickly and Chris was instrumental in that process. He has helped us in overcoming the failures of the previous pharmacist we recruited and spearheaded our growth. He has recently been informed that the board is considering disciplinary action against him for the failure to operate a pharmacy. We, Swyft Scripts, have taken full responsibility for this and we recognize that whether or not there was a reason that it took us longer than it should have to begin operations, it was a failure on our behalf and we immediately took action to rectify. We humbly and respectfully ask the Board to recognize that Mr. Tyrone was not at fault for this failure, and that he in fact was a major contributor to our ability to quickly recover and begin operations.

Please feel free to reach out if you have any questions or concerns.

Respectfully,

Yasser Almuaala

REMEDIAL PLAN #2022-02717

RE: IN THE MATTER OF CHRISTOPHER VARD TYRONE II (PHARMACIST LICENSE #66844)

BEFORE THE TEXAS STATE BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacist license number 66844 issued to Christopher Vard Tyrone II (Respondent).

By letter dated March 15, 2022, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated the applicable law set forth below. An informal conference was held via videoconference on June 8, 2022, with Respondent in attendance. The informal conference was heard by a Board panel comprised of: Julie Spier, R.Ph., Board Member; Donna Montemayor, R.Ph., Board Member; and Tim Tucker, Pharm.D., Executive Director/Secretary; with Megan G. Holloway, General Counsel. Mary Moretti, Staff Attorney, was also in attendance.

BOARD HISTORY

Respondent has not previously been offered a Remedial Plan and has not been the subject of disciplinary action with the Board.

FINDINGS

1. From on or about November 12, 2021, through on or about January 11, 2022, Christopher Vard Tyrone II, while acting as an employee (pharmacist-in-charge) of Swyft Scripts, 15915 Katy Freeway, Suite 440, Houston, Texas 77094, failed to legally operate Swyft Scripts, in that the pharmacy failed to engage in the business of pharmacy within six months of the date of the issuance of its license. Specifically, Swyft Scripts became licensed as a Class G pharmacy on January 26, 2021. Subsequently, a Texas State Board of Pharmacy investigator requested records of the pharmacy processing prescription drug or medication drug orders covering the time period previously mentioned, and the pharmacy did not produce records of processing any prescription drug or medication drug orders.

2. Respondent does not admit or deny the Finding(s) and Applicable Law contained herein but, rather, has agreed to settle in good faith to avoid the cost, expense, and uncertainty of litigation.

APPLICABLE LAW

RE: IN THE MATTER OF SWYFT SCRIPTS (PHARMACY LICENSE #33628)

BEFORE THE TEXAS STATE BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacy license number 33628 issued to Swyft Scripts (Respondent), 7324 Southwest Freeway, Suite 975, Houston, Texas 77074.

By letter dated March 15, 2022, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

> Sections 551.003(29); 565.001(a)(1), (2), (12) and (13); and 565.002(a)(3) and (7) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2021); and
>
> Sections 281.7(a)(13); 291.11(a) and (b); 291.153(a)(2) and (b)(1); 291.153(c)(1)(A) and (B)(iv); and 295.3 of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2021), in that allegedly:

COUNTS

(1) From on or about July 27, 2021, through on or about January 11, 2022, Swyft Scripts, 7324 Southwest Freeway, Suite 975, Houston, Texas 77074 (previously located at 15915 Katy Freeway, Suite 440, Houston, Texas 77094), failed to legally operate, in that the pharmacy failed to engage in the business of pharmacy within six months of the date of the issuance of its license. Specifically, Swyft Scripts became licensed as a Class G pharmacy on January 26, 2021. Subsequently, a Texas State Board of Pharmacy investigator requested records of the pharmacy processing prescription drug or medication drug orders covering the time period previously mentioned, and the pharmacy did not produce records of processing any prescription drug or medication drug orders.

(2) On or about September 11, 2021, through on or about November 10, 2021, Swyft Scripts, 7324 Southwest Freeway, Suite 975, Houston, Texas 77074 (previously located at 15915 Katy Freeway, Suite 440, Houston, Texas 77094), was engaged in the operation of a pharmacy in violation of Texas State Board of Pharmacy Rules, in that the pharmacy was not under the supervision of a pharmacist-in-charge.

Respondent was notified that the matters previously set out in this Order could be disposed of without the scheduling of an informal conference or a formal administrative hearing. By signing this Order, Yasser Almuaala, Chief Executive Officer, Prestige Health Solutions LLC, on

behalf of Respondent, neither admits nor denies the truth of the matters previously set out in this Order, and agrees that the Board has jurisdiction in this matter and waives the right to an informal conference, notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

(1) Respondent shall pay an administrative penalty of four thousand dollars ($4,000) due one hundred twenty (120) days after the entry of this Order.

(2) Failure to comply with any of the requirements in this Order constitutes a violation and shall be grounds for further disciplinary action. The requirements of this Order are subject to the Texas Pharmacy Act, TEX. OCC. CODE ANN., Title 3, Subtitle J (2021), and Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2022).

And it is so ORDERED.

Subject: Explanation Regarding Board Order for SWYFT SCRIPTS - DFW

To Whom It May Concern,

I am writing on behalf of SWYFT SCRIPTS - DFW to address a previous board order issued by the Texas State Board of Pharmacy. This order pertained to a failure to engage in the business of pharmacy within six months of licensure.

This delay in initiating operations was due to unforeseen logistical and operational challenges that arose during the setup phase. These issues were promptly addressed, and since that time, we have worked diligently to ensure full compliance with all state regulations.

We are pleased to report that SWYFT SCRIPTS - DFW has since passed all required inspections by the Texas State Board of Pharmacy and is now fully operational. Our pharmacy provides retail services and home delivery options for patients and contracts with employers to deliver cost-effective prescription solutions.

We remain committed to upholding the highest standards of care and compliance in the pharmacy industry. Should you require any further information or documentation regarding this matter, please do not hesitate to contact me.

Sincerely,

SwyftScripts

AGREED BOARD ORDER #2024-01330

RE: IN THE MATTER OF
SWYFT SCRIPTS - SOUTHLAKE
(PHARMACY LICENSE #34513)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy (Board) the matter of pharmacy license number 34513 issued to Swyft Scripts - Southlake (Respondent), 771 East Southlake Boulevard, Suite 223, Southlake, Texas 76092.

By letter dated February 15, 2024, the Board gave preliminary notice to Respondent of its intent to take disciplinary action. This action was taken as a result of an investigation which produced evidence indicating that Respondent may have violated:

Sections 565.001(a)(1), (2), (12) and (13); and 565.002(a)(3) and (7) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Title 3, Subtitle J (2023); and

Sections 281.7(a)(13); 291.11(a) and (b); 291.32(a)(2)(H); and 295.3 of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2023), in that allegedly:

COUNT

From on or about May 2, 2023, through on or about September 19, 2023, Swyft Scripts - Southlake (previously licensed as Rejuvenation Pharmacy), 771 East Southlake Boulevard, Suite 223, Southlake, Texas 76092 (previously located at 12423 Cutten Road, Suite C, Houston, Texas 77066 and 2815 North Main Street, Stafford, Texas 77477), failed to legally operate, in that the pharmacy failed to engage in the business of pharmacy within six months of the date of the issuance of its license. Specifically, Swyft Scripts - Southlake became licensed as a Class A pharmacy on November 1, 2022. Subsequently, on or about September 19, 2023, a Texas State Board of Pharmacy inspector received dispensing records from the pharmacy, which indicated that only one prescription was dispensed during the time period alleged above, such that the pharmacy was unable to demonstrate observable pharmacy business activity on a regular and routine basis.

An informal conference was held via videoconference on April 3, 2024, with Christopher Tyrone Vard II, R.Ph., Pharmacist-in-Charge, on behalf of Respondent, in attendance. The informal conference was heard by a Board panel comprised of: Donna Montemayor, R.Ph., Board Member; Jenny Downing Yoakum, R.Ph., Board Member; and Daniel Carroll, Pharm.D., Executive Director/Secretary; with Megan G. Holloway, General Counsel. Kelly M. Souza, Staff Attorney, was also in attendance.

At the aforementioned conference, Christopher Tyrone Vard II, on behalf of Respondent, waived the right to be represented by legal counsel. By signing this Order, Zaryan Hamidani,

Managing Officer, Rejuvenation Pharmacy Incorporated LLC, on behalf of Respondent, neither admits nor denies the truth of the matters previously set out in this Order, and agrees that the Board has jurisdiction in this matter and waives the right to notice of hearing, formal administrative hearing, and judicial review of this Order.

The parties acknowledge that this Order resolves the allegations set forth herein, and agree to the terms and conditions set forth in the ORDER OF THE BOARD below.

ORDER OF THE BOARD

THEREFORE, PREMISES CONSIDERED, the Board does hereby ORDER that:

Notes

1. The "initial date of registration as an outsourcing facility" is the date the facility was first registered (i.e., the date FDA determined that the initial registration information submitted for the facility was complete, and the establishment fee was paid in full).

   Under section 503B(b) of the FD&C Act, after the initial registration, a facility that elects to continue to be registered with FDA as an outsourcing facility must re-register annually. A facility that elects to register (or re-register) with FDA as an outsourcing facility must pay an annual establishment fee. The "date of most recent registration as an outsourcing facility" reflects the date FDA determined the most recently submitted registration information was complete and the annual establishment fee for that fiscal year paid in full.

   Unless a previously registered outsourcing facility re-registers and pays the annual establishment fee in full during the registration period (between October 1 and December 31 of each calendar year), the facility will be removed from the list of registered outsourcing facilities on January 1 of the next calendar year.

2. Once an outsourcing facility is registered, the facility will be added to the list of facilities FDA intends to inspect according to a risk-based schedule. FDA plans to inspect outsourcing facilities within a reasonable period of time following initial registration, once it is confirmed that the facility has initiated drug production and distribution. However, the exact timing of the inspections can be affected by a number of variables, including the number of outsourcing facility registrants, other inspection priorities, and the operational status of the newly registered outsourcing facility.

   Inspections identified in this table are associated with the facility at the listed address. A company may own or operate more than one registered outsourcing facility. FDA's web page Compounding: Inspections, Recalls, and other Actions (/node/363232) may contain information about compounding facilities under the same ownership as the listed registered outsourcing facility.

Inspections may take place over several days, weeks or longer. The date of the inspection is the date a Form FDA 483 listing the investigators' observations was issued. If no FDA Form 483 was issued, the date is the last day of the inspection.

3. A Form FDA 483 is issued when investigators observe any significant objectionable conditions. It does not constitute a final agency determination of whether any condition is in violation of the FD&C Act or any relevant regulations.
4. This table does not include State Board of Pharmacy actions, if any. To determine whether a registered outsourcing facility has been the subject of a state enforcement action, check with the State Board of Pharmacy for the state in which the facility is located. Some states post disciplinary or other actions on their web sites.
5. "Closed" means the inspection has been closed without further action. "Open" means FDA has not determined whether further action will be taken. If an action has been taken, it will be listed. Possible FDA actions include warning letter, seizure or injunction.
6. The information in this column was provided by the registered outsourcing facility at the time of registration and has not been verified by FDA. "N/A" indicates the registered outsourcing facility has not provided this information.
7. This outsourcing facility was the subject of at least one previous inspection relating to compounding that resulted in a Form FDA 483, warning letter or other action. For information about such inspections and resulting actions, visit Compounding: Inspections, Recalls, and other Actions (/node/363232).
8. A remote regulatory assessment (RRA) is an examination of an FDA-regulated establishment and/or its records, conducted remotely, to evaluate compliance with applicable FDA requirements. These assessments assist in protecting human and animal health, inform regulatory decisions and verify certain information submitted to the agency.
9. Based on inspectional findings, the inspection revealed significant issues. As a result, the outsourcing facility may have either initiated a recall on their own following conversation(s) with the FDA investigator or FDA recommended a recall at the conclusion of the inspection or both. Additionally, the outsourcing facility may have conducted multiple recalls or recalled multiple drugs.

Hyalo Technologies Sterile Manufacturing

Hyalo Technologies Sterile Manufacturing Services is a trusted solution healthcare facilities across the nation can rely on. We are a globally integrated 503B outsourcing partner, creating supply chain resiliency while advancing patient safety. Our cGMP compliant facility manufactured high-quality sterile medications and expertise in pharmaceutical manufacturing, repackaging, and patient safety.

Given increasing regulatory requirements for sterile compounding, it is likely hospitals are beginning to feel the growing pressures associated with compounding including tightening regulations, shorter Beyond Use Dates (BUDs), waste reduction initiatives, risk mitigation and increases in quality control.

503B outsourcing can assist hospital pharmacies by freeing up time and capital that may otherwise be spent compounding products in the hospital pharmacy. It can also reduce the regulatory and compliance risk.

Hyalo Technologies' fundamental purpose is to provide your hospital pharmacy the additional qualified resources so that you can focus more time on improving health care delivery, patient safety, and clinical outcomes.

CRIMINAL INDICTMENT

Case No. 2:22-cr-156 CDS NJK

VIOLATION:

Health Care Fraud (18 U.S.C. § 1347)

THE GRAND JURY CHARGES THAT:

Introductory Allegations

At times material to this Indictment:

1. Defendant FESTUS ONYEMALIOSIA EBONKA, a resident of Las Vegas, Nevada, was a registered nurse and a certified nurse practitioner licensed to practice in Nevada. EBONKA was a Medicare provider and was required to abide by all Medicare rules and regulations.

2. EBONKA owned and operated three Nevada companies (collectively, "the Ebonka Entities") enrolled in the Medicare program: Nevada Integrated Behavioral Services Inc.; Ebonny Behavioral Care Services Corporation; and CBH Wellness Clinic, Inc.

3. D.B., E.G., Ge.A., Gw.A., J.G., K.K., Mi.H., My.H., T.H., and Y.H. were Medicare beneficiaries residing in the District of Nevada.

4. E.H., J.L., and L.S. were former Medicare beneficiaries who were deceased.

The Medicare Program

5. The Medicare program ("Medicare") was a federal health care program, as defined in Title 18, United States Code, Section 24(b), that provided free or below cost health care benefits to certain eligible beneficiaries, primarily persons who were 65 years of age or older or disabled. The Centers for Medicare and Medicaid Services (CMS), a federal agency within the U.S. Department of Health and Human Services, administers the Medicare program.

6. Medicare was divided into four parts and covered specific benefits, items, and services: hospital insurance (Part A), medical insurance (Part B), Medicare Advantage (Part C), and prescription drug benefits (Part D).

7. Medicare Part B covered outpatient physician and non-physician practitioner services, durable medical equipment, and some preventive services.

8. Physicians, nurses, nurse practitioners, clinics, laboratories, and other health care providers that provided services to Medicare beneficiaries were able to apply for and obtain a "provider number." A health care provider that received a Medicare provider number was able to file claims with Medicare to obtain reimbursement for services provided to beneficiaries.

9. To receive Medicare reimbursement, providers had to fill out an application and execute a written provider agreement, known as CMS Form 855. The application contained certifications that the provider agreed to abide by Medicare laws and regulations, and that the provider "[would] not knowingly present or cause to be presented a false or

fraudulent claim for payment by Medicare, and [would] not submit claims with deliberate ignorance or reckless disregard of their truth or falsity." Medicare providers were given access to Medicare manuals and service bulletins describing procedures, rules, and regulations.

HCPCS Code L8679

10. CMS established the Healthcare Common Procedure and Coding System (HCPCS) Level II Code Set. The HCPCS Level II Code Set is a standardized five-digit alphanumeric coding system that is used by federal, state, and private health insurance entities primarily to identify products, supplies, and services provided by healthcare professionals. These codes are also used to bill and submit claims to federal, state, and private insurance entities for reimbursement of medical services provided to beneficiaries. The coding system adheres to the following format: the first digit is a letter that identifies the HCPCS code chapter and payment category that the service belongs to and group similar services together, while the last four digits are numeric characters. For example, codes beginning with an "L" belong to the prosthetics and orthotics services/payment category.

11. HCPCS code L8679 is used to bill for Medicare-covered neurostimulator devices that require surgical implantation. The use of a neurostimulator involves implantation of electrodes around a selected peripheral nerve. The stimulating electrode is connected by an insulated lead to a receiver which is implanted under the skin at a depth not greater than ½ inch. Stimulation is induced by a generator connected to an antenna unit which is attached to the skin surface over the receiver unit. Implantation of the stimulating electrodes requires a surgical process that takes at least one to two hours and usually necessitates an operating room.

The Stivax Device

12. Stivax is a medical device placed on the top of a patient's inner ear, has a battery, and stays on for about two weeks. The Food and Drug Administration describes Stivax as a single use, battery-powered, electrical nerve stimulator which is used for the stimulation of the vagus nerve through the ear. The stimulator is taped to the patient's ear. The FDA stated that the Stivax device is indicated for use as an electro-acupuncture device for use in the practice of acupuncture by qualified practitioners as determined by the states. Medicare does not provide reimbursement for acupuncture services, such as the provision and use of the Stivax device.

COUNTS ONE TO THIRTEEN
Health Care Fraud
(18 U.S.C. § 1347)

13. Beginning in or around March 2017, and continuing through in or around September 2018, within the State and Federal District of Nevada and elsewhere,

FESTUS ONYEMALIOSIA EBONKA,

defendant herein, knowingly and willfully executed, attempted to execute, and participated in a scheme and artifice to defraud a health care benefit program, namely Medicare, and to obtain, by means of materially false and fraudulent pretenses, representations, and promises, money and property owned by, and under the custody and control of, a health care benefit program, in connection with the delivery of, and payment for, health care benefits, items, and services, as described below.

14. The purpose of the scheme and artifice to defraud was for EBONKA to unlawfully enrich himself by causing the submission of materially false and fraudulent claims to Medicare through the Ebonka Entities.

15. It was part of the scheme that EBONKA submitted and caused to be submitted false and fraudulent claims requesting reimbursement under Procedure Code L8679 that were ineligible for Medicare reimbursement.

16. These claims were false and fraudulent in that EBONKA and the Ebonka Entities had not provided medical services that qualified for reimbursement under Procedure Code L8679, including, for example:

a. Claims in the name of beneficiaries who received services related to the Stivax device, which did not qualify for any Medicare reimbursement, on the date indicated on the claim.

b. Claims in the name of beneficiaries who received no services related to the Stivax device on the date indicated on the claim.

c. Claims in the names of beneficiaries who were deceased at the time EBONKA purportedly provided them with medical services.

17. From in or around March 2017 through in or around September 2018, EBONKA caused the submission to Medicare of at least 2,500 false and fraudulent claims requesting at least $25 million in reimbursement. Medicare paid the Ebonka Entities more than $10 million as a result of EBONKA's fraudulent claim submissions.

18. On or about the dates set forth below, within the State and Federal District of Nevada and elsewhere, EBONKA did knowingly and willfully execute, attempt to execute, and participate in the above-described scheme and artifice in that EBONKA caused the submission of the false and fraudulent claims described below to Medicare seeking reimbursement for the approximate amount of $10,000 per claim, each submission a separate violation of 18 U.S.C. § 1347:

v.

FESTUS ONYEMALIOSIA EBONKA,

Defendant.

No. 2:22-cr-00156-CDS-NJK

Plea Agreement for Defendant Festus Onyemaliosia Ebonka Pursuant to Fed. R. Crim. P. 11(c)(1)(A) and (B)

This plea agreement between Festus Onyemaliosia Ebonka ("defendant") and the United States Attorney's Office for the District of Nevada (the "USAO") sets forth the parties' agreement regarding the criminal charges referenced herein and the applicable sentences, fines, and restitution in the above-captioned case. This agreement binds only defendant and the USAO and does not bind the district court, the U.S. Probation Office, or any other federal, state, local, or foreign prosecuting, enforcement, administrative, or regulatory authorities. This agreement does not prohibit the USAO or any agency or third party from seeking any other civil or administrative remedies, including administrative forfeiture or civil forfeiture *in rem* actions, directly or indirectly against defendant or defendant's property.

This agreement becomes effective upon signature by defendant, defendant's counsel, and an Assistant United States Attorney.

I. DEFENDANT'S OBLIGATIONS

1. Defendant agrees to:

a. Give up the right to indictment by a grand jury and, at the earliest opportunity requested by the USAO and provided by the Court, appear and plead guilty to a one-count information in the form attached to this agreement as Exhibit A or a substantially similar form, which charges defendant with Conversion of Government Money, a Class A misdemeanor, in violation of 18 U.S.C. § 641.

b. Stipulate to the facts agreed to in this agreement;

c. Abide by all agreements regarding sentencing contained in this agreement;

d. Not seek to withdraw defendant's guilty pleas once it is entered;

e. Appear for all court appearances, surrender as ordered for service of sentence, obey all conditions of any bond, and obey any other ongoing court order in this matter;

f. Not commit any federal, state, or local crime;

g. Be truthful at all times with the U.S. Probation and Pretrial Services Offices and the Court;

h. Before and after sentencing, upon request by the Court, the USAO, or the Probation Office, provide accurate and complete financial information, submit sworn statements, and/or give depositions under oath concerning defendant's assets and defendant's ability to pay. As part of the required disclosure, defendant agrees to provide any and all financial information and authorizations requested by the Probation Office for preparation of the Presentence Report. Defendant further agrees that, upon filing of this agreement, the USAO is authorized to obtain defendant's credit report. Defendant will also complete a financial form

provided by the USAO, to include all supporting documentation, and return it to the USAO within ten (10) days from entry of the plea. Defendant agrees that the district court may enter any order necessary to effectuate or facilitate disclosure of defendant's financial information;

i. To facilitate payment of any fine, restitution, or assessment, surrender assets defendant obtained directly or indirectly as a result of defendant's crimes. Defendant agrees to voluntarily release funds and property under defendant's control or in which defendant has any property interest, before and after sentencing, to pay any fine or restitution identified in this agreement, agreed to by the parties, or ordered by the Court;

j. Defendant agrees that restitution shall be ordered due and payable in full immediately after the judgment is entered, and that the full amount of any restitution ordered is subject to immediate enforcement and collection by the USAO or defendant's victims, or both. Defendant agrees that any schedule of payments entered by the district court is a schedule of the minimum payment due and does not prohibit or limit the methods by which the USAO may immediately enforce and collect the judgment in full. Defendant acknowledges that restitution may not be discharged, in whole or in part, in any present or future bankruptcy proceeding.

II. THE USAO'S OBLIGATIONS

2. The USAO agrees to:

a. Stipulate to facts agreed to in this agreement;

b. Abide by all agreements regarding sentencing contained in this agreement;

c. At sentencing, provided that defendant demonstrates an acceptance of responsibility for the offenses up to and including the time of sentencing, recommend a two-level reduction in the applicable sentencing guidelines offense level, pursuant to USSG § 3E1.1;

d. At sentencing, move to dismiss the indictment against defendant. Defendant agrees, however, that the district court may consider any dismissed charges in

determining the applicable sentencing guidelines range, the propriety and extent of any departure from that range, and the sentence to be imposed; and

e. Not bring any additional charges against defendant arising out of the factual basis set forth in this agreement. However, the USAO reserves the right to prosecute defendant for (a) any crime of violence as defined by 18 U.S.C. § 16; and (b) any criminal tax violations (including conspiracy to commit such violations chargeable under 18 U.S.C. § 371). Defendant agrees that the district court at sentencing may consider any uncharged conduct in determining the applicable sentencing guidelines range, the propriety and extent of any departure from that range, and the sentence to be imposed after consideration of the sentencing guidelines and all other relevant factors under 18 U.S.C. § 3553(a).

III. ELEMENTS OF THE OFFENSE

3. Count One: The elements of Conversion of Government Money under 18 U.S.C. § 641 are as follows:

First: The defendant knowingly converted to the defendant's use money with the intention of depriving the owner of the use or benefit of the money; and

Second: the money belonged to the United States.

See Ninth Circuit Model Criminal Jury Instruction 23.1 (2022 ed.).

4. Deliberate Indifference: A defendant acts knowingly if:

First: The defendant was aware of a high probability that he was not entitled to reimbursement by Medicare, and

Second: the defendant deliberately avoided learning the truth.

See Ninth Circuit Model Criminal Jury Instruction 4.9 (2022 ed.).

IV. CONSEQUENCES OF CONVICTION

5. Maximum Statutory Penalties: Defendant understands that the statutory maximum sentence the district court can impose for a violation of 18 U.S.C. § 641 as charged in the Information, is: one year of imprisonment; a one-year period of supervised release; a fine of $250,000 or twice the gross gain or gross loss resulting from the offense, whichever is greatest; and a mandatory special assessment of $25.

6. Restitution: Defendant understands that defendant will be required to pay full restitution to the victim(s) of the offense to which defendant is pleading guilty. The parties currently believe that the applicable amount of restitution is approximately $6,519.69, but recognize and agree that this amount could change based on facts that come to the attention of the parties prior to sentencing.

7. Parole Abolished: Defendant acknowledges that defendant's prison sentence cannot be shortened by early release on parole because parole has been abolished.

8. Supervised Release: Defendant understands that supervised release is a period of time following imprisonment during which defendant will be subject to various restrictions and requirements. Defendant understands that if defendant violates one or more of the conditions of any supervised release imposed, defendant may be returned to prison for all or part of the term of supervised release authorized by statute for the offense that resulted in the term of supervised release, which could result in defendant serving a total term of imprisonment greater than the statutory maximum stated above.

9. Factors under 18 U.S.C. § 3553: Defendant understands that the district court must consider the factors set forth in 18 U.S.C. § 3553(a) in determining defendant's sentence. However, the statutory maximum sentence limits the district court's discretion in determining defendant's sentence.

10. Potential Collateral Consequences of Conviction: Defendant understands that, by pleading guilty, defendant may be giving up valuable government benefits and valuable civic rights. Defendant understands that the conviction in this case may subject defendant to various other collateral consequences, including but not limited to revocation of probation, parole, or supervised release in another case and suspension or revocation of a professional license. Defendant understands that unanticipated collateral consequences will not serve as grounds to withdraw defendant's guilty plea.

11. Potential Removal/Deportation Consequences of Conviction: Defendant understands that, if defendant is not a United States citizen, the conviction in this case may subject defendant to removal, also known as deportation, which may, under some circumstances, be mandatory; denial of citizenship; and denial of admission to the United States in the future. The district court cannot advise defendant fully regarding the immigration consequences of the conviction in this case, but defendant's attorney has advised him about the deportation risks of his guilty plea. Defendant understands that unexpected immigration consequences will not serve as grounds to withdraw defendant's guilty plea.

V. FACTUAL BASIS

12. Defendant admits that defendant is, in fact, guilty of the offense to which defendant is agreeing to plead guilty. Defendant acknowledges that if defendant elected to go to trial instead of pleading guilty, the USAO could prove defendant's guilt beyond a reasonable doubt. Defendant further acknowledges that defendant's admissions and declarations of fact set forth below satisfy every element of the charged offense. Defendant waives any potential future claim that the facts defendant admitted below are insufficient to satisfy the elements of the charged offense. Defendant admits and declares under penalty of perjury that the facts set forth below are true and correct:

a. At all relevant times, defendant Festus Onyemaliosia Ebonka, a resident of Las Vegas, Nevada, was a registered nurse and a certified nurse practitioner licensed to practice in Nevada. Ebonka was a provider enrolled in Medicare and was required to abide by all Medicare rules and regulations.

b. From in or around March 2017 through in or around September 2018, Ebonka, through businesses under his control, caused the submission to Medicare of claims requesting reimbursement under Procedure Code L8679.

c. Ebonka submitted those claims based on the purported application of a device called Stivax to patients covered by Medicare.

d. However, these claims were false because Procedure Code L8679 does not cover the application of the Stivax device, which Medicare considers a non-reimbursement acupuncture treatment.

e. On September 13, 2018, Ebonka caused the submission to Medicare of a request for $10,000 of reimbursement under Procedure Code L8679 for services rendered to B.A., a patient of Ebonka. The claim was false because the services provide to B.A. – the application of the Stivax device – were not covered by Procedure Code L8679. Based on this clam, Medicare, a federal agency, reimbursed Ebonka $6,519.69, which he converted to his own use.

f. At the time Ebonka caused the above submission for services provided to B.A., he was deliberately ignorant to the false nature of this claim, that is, he was aware of a high probability that Procedure Code L8679 did not cover the application of the Stivax device and deliberately avoided learning the truth.

g. All of the above occurred in the District of Nevada and elsewhere.

VI. SENTENCING FACTORS

13. Discretionary Nature of Sentencing Guidelines: Defendant understands that in determining defendant's sentence, the district court is required to calculate the applicable sentencing guidelines range and to consider that range, possible departures under the sentencing guidelines, and the other sentencing factors set forth in 18 U.S.C. § 3553(a). Defendant understands that the sentencing guidelines are advisory only, that defendant cannot have any expectation of receiving a sentence within the calculated sentencing guidelines range, and that after considering the sentencing guidelines and the other § 3553(a) factors, the district court will be free to exercise its discretion to impose any sentence it finds appropriate up to the maximum set by statute for the crime of conviction.

14. Offense Level Calculations: The parties jointly agree and stipulate that, in calculating defendant's advisory guidelines sentencing range, the district court should use the following base offense level and adjustments; acknowledge that these stipulations do not bind the district court; and agree that they will not seek to apply or advocate for the use of any other base offense level(s) or any other specific offense characteristics, enhancements, or reductions in calculating the advisory guidelines range:

Base Offense Level [USSG § 2B1.1(a)(2)]:	6
Loss Exceeds $6,500 [USSG § 2B1.1(b)(1)(B)]:	+2
Adjusted Offense Level:	8

The parties further agree that, if, at the time of sentencing, the district court determines that defendant has not received any criminal history points from Chapter Four, Part A, the parties will jointly recommend that defendant receive a two-level reduction pursuant to § 4C1.1(a).

15. Reduction for Acceptance of Responsibility: Under USSG § 3E1.1(a), the USAO will recommend that defendant receive a two-level downward adjustment for acceptance of

responsibility unless defendant (a) fails to truthfully admit facts establishing a factual basis for the guilty plea when defendant enters the plea; (b) fails to truthfully admit facts establishing the amount of restitution owed when defendant enters the guilty plea; (c) fails to truthfully admit facts establishing the forfeiture allegations when defendant enters the guilty plea; (d) provides false or misleading information to the USAO, the Court, Pretrial Services, or the Probation Office; (e) denies involvement in the offense or provides conflicting statements regarding defendant's involvement or falsely denies or frivolously contests conduct relevant to the offense; (f) attempts to withdraw defendant's guilty plea; (g) commits or attempts to commit any crime; (h) fails to appear in court; or (i) violates the conditions of pretrial release.

16. Criminal History Category: Defendant acknowledges that the district court may base defendant's sentence in part on defendant's criminal record or criminal history. The district court will determine defendant's criminal history category under the sentencing guidelines.

17. Additional Sentencing Information: The stipulated sentencing guidelines calculations are based on information now known to the parties. Defendant understands that both defendant and the USAO are free to (a) supplement the facts in this agreement by supplying relevant information to the U.S. Probation and Pretrial Services Offices and the district court regarding the nature, scope, and extent of defendant's criminal conduct and any aggravating or mitigating facts or circumstances; and (b) correct any and all factual misstatements relating to the district court's sentencing guidelines calculations and determination of sentence. While this paragraph permits both the USAO and defendant to submit full and complete factual information to the U.S. Probation and Pretrial Services Offices and the district court, even if that factual information may be viewed as inconsistent with the facts agreed to in this agreement, this paragraph does not affect defendant's and the USAO's obligations not to contest the facts agreed

to in this agreement. Good faith efforts to provide truthful information or to correct factual misstatements shall not be grounds for defendant to withdraw defendant's guilty plea.

18. Defendant acknowledges that the U.S. Probation Office may calculate the sentencing guidelines differently and may rely on additional information it obtains through its investigation. Defendant also acknowledges that the district court may rely on this and other additional information as it calculates the sentencing guidelines range and makes other sentencing determinations, and the district court's reliance on such information shall not be grounds for defendant to withdraw defendant's guilty plea.

VII. POSITIONS REGARDING SENTENCING

19. The parties will jointly recommend that the district court sentence defendant to sentence of three years of probation. In the event that a sentence of three years of probation is outside defendant's advisory Guideline range as determined by the district court, the parties will jointly request a variance to three years of probation.

20. Defendant acknowledges that the district court does not have to follow the recommendation of either party.

21. Notwithstanding its agreement to recommend a sentence as described above, the USAO reserves its right to defend any lawfully imposed sentence on appeal or in any post-conviction litigation.

22. If defendant commits any act that results in the district court finding that defendant is not entitled to a downward adjustment for acceptance of responsibility, the USAO is entitled to argue for any sentence it deems appropriate under 18 U.S.C. § 3553(a). In any such event, Defendant remains bound by the provisions of this agreement and shall not have the right to withdraw defendant's guilty plea.

VIII. WAIVER OF CONSTITUTIONAL RIGHTS

23. Defendant understands that by pleading guilty, defendant gives up the following rights:

a. The right to persist in a plea of not guilty;

b. The right to a speedy and public trial by jury;

c. The right to be represented by counsel—and if necessary have the court appoint counsel—at trial. Defendant understands, however, that, defendant retains the right to be represented by counsel—and if necessary have the court appoint counsel—at every other stage of the proceeding;

d. The right to be presumed innocent and to have the burden of proof placed on the USAO to prove defendant guilty beyond a reasonable doubt;

e. The right to confront and cross-examine witnesses against defendant;

f. The right to testify and to present evidence in opposition to the charges, including the right to compel the attendance of witnesses to testify;

g. The right not to be compelled to testify, and, if defendant chose not to testify or present evidence, to have that choice not be used against defendant; and

h. The right to pursue any affirmative defenses; Fourth Amendment or Fifth Amendment claims; any other pretrial motions that have been or could have been filed; and challenges to any adverse pre-trial rulings (unless specifically reserved in the following section).

24. Having been fully advised by defendant's attorney regarding application of the statute of limitations to the offense to which defendant is pleading guilty, defendant hereby knowingly, voluntarily, and intelligently waives, relinquishes, and gives up: (a) any right that defendant might have not to be prosecuted for the offense to which defendant is pleading guilty because of the expiration of the statute of limitations for that offense prior to the filing of the

information alleging that offense; and (b) any defense, claim, or argument defendant could raise or assert that prosecution of the offense to which defendant is pleading guilty is barred by the expiration of the applicable statute of limitations, pre-indictment delay, or any speedy trial violation.

IX. WAIVER OF APPELLATE RIGHTS

25. Waiver of Appellate Rights: Defendant knowingly and expressly waives the right to appeal: (a) any sentence imposed within or below the applicable Sentencing Guideline range as determined by the district court; (b) the manner in which the district court determined that sentence on the grounds set forth in 18 U.S.C. § 3742; (c) any other aspect of the conviction, including but not limited to the constitutionality of the statutes of conviction; and (d) any other aspect of the sentence, including but not limited to the constitutionality of any mandatory or standard conditions of supervised release; the denial of any motion for early termination of supervised release; and any order of restitution or forfeiture.

26. Defendant reserves only the right to appeal any portion of the sentence that is an upward departure or variance from the applicable Sentencing Guideline range as determined by the district court.

27. Waiver of Post-Conviction Rights: Defendant also knowingly and expressly waives all collateral challenges, including any claims under 28 U.S.C. § 2255, to defendant's conviction, sentence, and the procedure by which the district court adjudicated guilt and imposed sentence, except non-waivable claims of ineffective assistance of counsel.

28. Preservation of Evidence: Defendant acknowledges that the USAO and the agencies investigating this case are not obligated or required to preserve any evidence obtained in the investigation of this case.

X. RESULT OF WITHDRAWAL OF GUILTY PLEA OR VACATUR/REVERSAL/SET-ASIDE OF CONVICTION

29. Consequence of Withdrawal of Guilty Plea: Defendant agrees that if, after entering a guilty plea pursuant to this agreement, defendant seeks to withdraw and succeeds in withdrawing defendant's guilty plea on any basis other than a claim and finding that entry into this agreement was involuntary, then (a) the USAO will be relieved of all of its obligations under this agreement and (b) should the USAO choose to pursue any that was either dismissed or not filed as a result of this agreement, or that the government agreed to move to dismiss at sentencing as part of this agreement, or that the government agreed to move to dismiss at sentencing as part of this agreement, then (i) any applicable statute of limitations will be tolled between the date of defendant's signing of this agreement and the filing commencing any such action; and (ii) defendant waives and gives up all defenses based on the statute of limitations, any claim of pre-indictment delay, or any speedy trial claim with respect to any such action, except to the extent that such defenses existed as of the date of defendant's signing this agreement.

30. Consequence of Vacatur, Reversal, or Set-aside: Defendant agrees that if defendant's conviction is vacated, reversed, or set aside, both the USAO and defendant will be released from all their obligations under this agreement, except that, should the USAO choose to pursue any charge that was either dismissed or not filed as a result of this agreement, then (i) any applicable statute of limitations will be tolled between the date of defendant's signing of this agreement and the filing commencing any such action; and (ii) defendant waives and gives up all defenses based on the statute of limitations, any claim of pre-indictment delay, or any speedy trial claim with respect to any such action, except to the extent that such defenses existed as of the date of defendant's signing this agreement.

XI. BREACH OF AGREEMENT

31. Defendant agrees that if, at any time after this agreement becomes effective, defendant knowingly violates or fails to perform any of defendant's obligations under this agreement ("a breach"), the USAO may declare this agreement breached. All of defendant's obligations are material, a single breach of this agreement is sufficient for the USAO to declare a breach, and defendant shall not be deemed to have cured a breach without the express agreement of the USAO in writing. If the USAO declares this agreement breached, and the district court finds such a breach to have occurred, then: (a) if defendant has previously entered a guilty plea pursuant to this agreement, defendant will remain bound by the provisions of this agreement and will not be able to withdraw the guilty plea; and (b) the USAO will be relieved of all its obligations under this agreement.

32. Following the Court's finding of a knowing breach of this agreement by defendant, should the USAO choose to pursue any charge that was either dismissed or not filed as a result of this agreement, or that the government agreed to move to dismiss at sentencing as part of this agreement, then:

a. Defendant agrees that any applicable statute of limitations is tolled between the date of defendant's signing of this agreement and the filing commencing any such action.

b. Defendant waives and gives up all defenses based on the statute of limitations, any claim of pre-indictment delay, or any speedy trial claim with respect to any such action, except to the extent that such defenses existed as of the date of defendant's signing this agreement.

c. Defendant agrees that: (i) any statements made by defendant, under oath, at the guilty plea hearing (if such a hearing occurred prior to the breach); (ii) the agreed to factual basis statement in this agreement; and (iii) any evidence derived from such statements, shall be

admissible against defendant in any such action against defendant, and defendant waives and gives up any claim under the United States Constitution, any statute, Federal Rule of Evidence 410, Federal Rule of Criminal Procedure 11(f), or any other federal rule, that the statements or any evidence derived from the statements should be suppressed or are inadmissible.

XII. COURT AND UNITED STATES PROBATION AND PRETRIAL SERVICES OFFICE NOT PARTIES

33. Defendant understands that the Court and the U.S. Probation and Pretrial Services Office are not parties to this agreement and need not accept any of the USAO's sentencing recommendations or the parties' agreements to facts or sentencing factors.

34. Defendant understands that both defendant and the USAO are free to argue on appeal and collateral review that the district court's sentencing guidelines calculations and the sentence it chooses to impose are not error.

35. Defendant understands that even if the district court ignores any sentencing recommendation, finds facts or reaches conclusions different from those agreed to by the parties, or imposes any sentence up to the maximum established by statute, defendant cannot, for that reason, withdraw defendant's guilty plea[s], and defendant will remain bound to fulfill all defendant's obligations under this agreement. Defendant understands that no one—not the prosecutor, defendant's attorney, or the Court—can make a binding prediction or promise regarding the sentence defendant will receive, except that it will be within the statutory maximum.

XIII. ADDITIONAL ACKNOWLEDGMENTS

36. Defendant acknowledges that:

a. Defendant read this agreement, and defendant understands its terms and conditions.

b. Defendant had adequate time to discuss this case, the evidence, and this agreement with defendant's attorney.

c. Defendant carefully and thoroughly discussed all terms of this agreement with defendant's attorney.

d. Defendant understands the terms of this agreement and voluntarily agrees to those terms.

e. Defendant has discussed with defendant's attorney the following: the evidence; defendant's rights; possible pretrial motions that might be filed; possible defenses that might be asserted either prior to or at trial; the sentencing factors set forth in 18 U.S.C. § 3553(a); the relevant sentencing guidelines provisions; and consequences of entering into this agreement.

f. The representations contained in this agreement are true and correct, including the factual basis for defendant's offense set forth in this agreement.

g. Defendant was not under the influence of any alcohol, drug, or medicine that would impair defendant's ability to understand the agreement when defendant considered signing this agreement and when defendant signed it.

37. Defendant understands that defendant alone decides whether to plead guilty or go to trial, and acknowledges that defendant has decided to enter defendant's guilty plea knowing of the charges brought against defendant, defendant's possible defenses, and the benefits and possible detriments of proceeding to trial.

38. Defendant understands that no promises, understandings, or agreements other than those set forth in this agreement have been made or implied by defendant, defendant's attorney, or the USAO, and no additional promises, agreements, or conditions shall have any force or effect unless set forth in writing and signed by all parties or confirmed on the record before the district court.

39. Defendant acknowledges that defendant decided to plead guilty voluntarily and that no one threatened, coerced, or forced defendant to enter into this agreement.

40. Defendant is satisfied with the representation of defendant's attorney, and defendant is pleading guilty because defendant is guilty of the charges and chooses to take advantage of the promises set forth in this agreement and for no other reason.

XIV. PLEA AGREEMENT PART OF THE GUILTY PLEA HEARING

41. The parties agree that this agreement will be considered part of the record of defendant's guilty plea hearing as if the entire agreement had been read into the record of the proceeding.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **FESTUS EBONKA, APRN,** **Certificate of Registration No. CS23430,** **Respondent.**	**Case No. 19-012-CS-S** **FINDINGS OF FACT, CONCLUSIONS OF LAW AND ORDER**

This matter came before the Nevada State Board of Pharmacy (Board) at its regularly scheduled meeting on Wednesday, September 4, 2024. Brett Kandt, Esq., prosecuted the case before the Board. Respondent Festus Ebonka, APRN, Certificate of Registration No. CS23430, was represented by counsel, Libo Agwara, Esq. The Board heard the case and, based on the evidence presented, the Board makes the following Findings of Fact, Conclusions of Law and Order.

FINDINGS OF FACT

The Board finds that probative evidence exists in the record to establish each of the following facts by a preponderance of the evidence:

1. The Board has jurisdiction over this matter and this Respondent because, at the time of the events herein, Respondent Festus Ebonka, APRN, held a controlled substance registration, Certificate of Registration No. CS23430, issued by the Board.

DISTRICT COURT OF

CLARK COUNTY, NEVADA

FESTUS EBONKA, APRN, Petitioner, vs. NEVADA STATE BOARD OF PHARMACY, Respondent.	Case No. A-24-902608-J Dept. No. 29

ORDER DENYING PETITION FOR JUDICIAL REVIEW

This matter having come before this court on September 11, 2025, on Petitioner's Petition for Judicial Review; Liborius Agwara, Esq., appearing on behalf of Petitioner Festus Ebonka, APRN ("Ebonka") and Brett Kandt, Esq. appearing on behalf of the Respondent Nevada State Board of Pharmacy ("Board"); the Court having reviewed the papers and pleadings on file herein, having heard the arguments of counsel, and with good cause appearing, the Court hereby finds, concludes, and orders as follows:

Case Number: A-24-902608-J

FINDINGS OF FACT

The Notice of Intended Action and Accusation together with the Statement to Respondent and Notice of Hearing was filed and served on Ebonka on or about January 25, 2024, and originally noticed for a hearing on March 6, 2024. AR[1] 0001-0009. Ebonka filed an Answer and Notice of Defense on or about February 21, 2024. AR 0010-0011.

The Board held an evidentiary hearing on September 4, 2024. *See* Reporter's Transcript on file herein, AR 0377-0518. As stipulated by the parties, the entire case file was admitted into evidence. AR 0012-0369; AR 0381:20-0383:5. Based on the evidence presented, the Board after extensive deliberation made findings of fact, conclusions of law, and entered an order on September 4, 2024, imposing discipline on Ebonka, including a stayed revocation of his controlled substance registration, Certificate of Registration No. CS23430 (Order). AR 0370-0376; AR 0483:18-0517:14.

CONCLUSIONS OF LAW

The standard for judicial review is set forth in NRS 223B.135(3):

> The court shall not substitute its judgment for that of the agency as to the weight of evidence on a question of fact. The court may remand or affirm the final decision or set it aside in whole or in part if substantial rights of the petitioner have been prejudiced because the final decision of the agency is:
>
> (a) In violation of constitutional or statutory provisions;
> (b) In excess of the statutory authority of the agency;
> (c) Made upon unlawful procedure;
> (d) Affected by other error of law;
> (e) Clearly erroneous in view of the reliable, probative and substantial evidence on the whole record; or
> (f) Arbitrary or capricious or characterized by abuse of discretion.

See Nassiri v. Chiropractic Physicians' Bd., 130 Nev. 245, 249, 327 P.3d 487, 490 (2014).

---

[1] "AR" refers to the Administrative Record on file herein.

Ebonka only addresses questions of fact in the Memorandum of Points and Authorities in Support of Petition for Judicial Review. Specifically, Ebonka only focused on one issue for the Petition:

> 1. The Board's finding that Petitioner pre-signed two prescription scripts prior to his overseas trips was clearly erroneous in light of the reliable, probative and substantial evidence on the whole record, and therefore, was arbitrary, capricious and constitute[s] an abuse of discretion.

(Pet. at 5:15-20.)

This is fact specific. And as stated above, the Nevada Supreme Court, and the relevant statute are clear:

> The court shall not substitute its judgment for that of the agency as to the weight of evidence on a question of fact.

See Nassiri, 130 Nev. at 249, 327 P.3d at 490 (quoting 223B.135).

The Controlled Substances Act imposes strict liability on registrants to provide effective controls and procedures to guard against theft and diversion, which includes the duty to safeguard prescribing credentials from unauthorized use. *See* 21 CFR 1301.71(a).

There was substantial evidence elicited which supports the Board's finding that Ebonka pre-signed controlled substance prescriptions that were issued to two (2) patients while he was engaged in overseas travel, in violation of 21 CFR § 1306.05(a).

The Board's determination was based on uncontroverted direct evidence in the form of the two written prescriptions together with Ebonka's own admissions, which conclusively established that the prescriptions were issued under his name and DEA registration number, on prescriptions pads from his office, while he was out of the country, to patients for whom he had previously prescribed the same schedule II controlled substances.

The only claims Ebonka made in his defense were that he did not sign the prescriptions, would never pre-sign a controlled substance prescription, and that they must be forgeries. The Board did not find Ebonka's alibi credible, and upon comparing the four samples of his signature on his written responses to the Board investigation with the signatures on the prescriptions, reasonably concluded that the signatures were in fact his.

This Court cannot overturn the Board's decision solely based upon Ebonka's dispute of the Board's findings. The Board had two versions of a story before it and did not believe Ebonka's version. This Court cannot overturn the Board's decision on this basis.

Ebonka raises several arguments for the first time in reply. This is inappropriate. Arguments may not be raised for the first time in a reply brief. *See Weaver v. State, Dep't of Motor Vehicles*, 121 Nev. 494, 502, 117 P.3d 193, 198-99 (2005) (arguments raised for the first time in an appellant's reply brief need not be considered); *see also Francis v. Wynn Las Vegas, LLC*, 127 Nev. 657, 671 n.7, 262 P.3d 705, 715 n.7 (2011) (same); *see also Khoury v. Seastrand*, 132 Nev. 520, 530 n.2, 377 P.3d 81, 88 n.2 (2016) (citing NRAP 28(c) and concluding that an issue raised for the first time in a reply brief was waived); *Hung v. Berhad*, 138 Nev. 547, 550 n.2, 513 P.3d 1285, 1288 n.2 (Nev. App. 2022) (the general rule [is] that arguments raised for the first time in [a] reply brief are deemed waived). As the factual arguments were the only focus of the opening brief that is all that is considered by the Court. The remaining arguments on other issues are waived.

ORDER

The Petition for Judicial Review is DENIED.

The Judgment of the Board is AFFIRMED.

Re: Notice of Suspension of Registration No. CS23430 (Case Nos. 19-012-CS-S/25-215-CS-S)

Dear Mr. Ebonka:

The Nevada State Board of Pharmacy (Board) has been notified that the Nevada State Board of Nursing (NSBN) entered an order on October 6, 2025, suspending your License No. APRN000902 for 6 months effective November 9, 2025. Pursuant to NRS 639.2107, when the suspension of your License No. APRN000902 takes effect on November 9, 2025, this will operate as an immediate suspension of your Certificate of Registration No. CS23430 with the Board.

Once the suspension of your Certificate of Registration No. CS23430 takes effect you may not possess (except pursuant to the lawful order of a practitioner), administer, prescribe or dispense any controlled substance or dangerous drug until you petition the Board for reinstatement pursuant to NRS 639.2565 and the Board reinstates your registration. Your PMP account will also suspended pursuant to NAC 453.078. You may request a hearing before the Board to contest the suspension of your registration by submitting a written request to the Board's Reno office, located at 985 Damonte Ranch Parkway – Suite 206, Reno, NV 89521.

This will also confirm that through your counsel you are stipulating to a continuance of the hearing noticed for October 15, 2025, in Case No. 25-215-CS-S, during your suspension period; the hearing will be re-noticed for March 4, 2026. Please be advised that the district court entered an order in Case No. A-24-902608-J denying your petition for judicial review and affirming the Board's order entered September 4, 2024, in Case No. 19-012-CS-S; any failure to comply with that order will result in the issuance of an order to show cause pursuant to NAC 639.965.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Oliver Swafford, RPh (Swafford), Certificate of Registration No. 17452, was a pharmacist registered with the Board, and Respondent Renown Pharmacy, Pharmacy License No. PH04283, was a pharmacy licensed by the Board.

intended for patient D.J. instead of prescription no. 2-490336 for prednisone 5mg tablets. Swafford did not conduct a barcode scan of either prescription before dispensing, and no counseling was performed for either prescription although requested by the father of the five-year-old patient.

4. The father of patient S.J. administered the erroneously dispensed prescription no. 2-C484783 for buprenorphine and naloxone 12mg film to S.J.; the patient suffered a significant negative outcome and required intervention and treatment by a medical facility for an opioid overdose.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (Board), by and through General Counsel Brett Kandt, and Respondent Renown Pharmacy, Pharmacy License No. PH04283, by and through counsel, Marie Ellerton, Esq., **HEREBY STIPULATE AND AGREE THAT:**

1. On or about January 12, 2026, Respondent was served with the Notice of Intended Action and Accusation (Accusation) on file in this matter together with the Statement to Respondent and Notice of Hearing. Respondent is entering this Stipulation in lieu of filing an Answer and Notice of Defense to the Accusation.

2. Respondent is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

3. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

4. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby knowingly and voluntarily waives the rights to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. As of the time of entering into this Stipulation and Order the allegations in the Accusation remain unproven. Respondent does not contest the allegations in the Accusation, but acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein, *to wit*:

A. Respondent Oliver Swafford, RPh (Swafford), Certificate of Registration No. 17452 engaged in unprofessional conduct as defined in NAC 639.945(1)(d) and (i) when he erroneously dispensed prescription no. 2-C484783 for buprenorphine and naloxone 12mg film intended for minor patient D.J. instead of prescription no. 2-490336 for prednisone 5mg tablets intended for patient S.J., resulting in patient harm, and failed to conduct a barcode scan of either prescription before dispensing;

B. Swafford violated NRS 639.266 and/or NAC 639.707(1) and/or (4) and/or engaged in unprofessional conduct as defined in NAC 639.945(1)(i) when he failed to provide medication counseling to the father of minor patient S.J. for the prescriptions as requested; and

C. As the pharmacy/pharmacy owner at which the unprofessional conduct and violations of law alleged herein occurred, Renown Pharmacy is responsible for those violations, including all errors and omissions of Swafford, pursuant to NRS 639.230(5), NAC 639.702 and/or NAC 639.945(3).

Board staff acknowledges that Respondent is not admitting that the charges as alleged in the Accusation have merit and Respondent is agreeing to resolve the matter to avoid the costs of

hearing and any potential litigation. Respondent asserts that they have evidence, witnesses, experts and defenses to the allegations in the Accusation , but for the purpose of resolving the matter and for no other purpose, Respondent waives the presentation of evidence, witnesses, experts, and defenses in order to effectuate this Stipulation and Order.

6. Those violations are plead with particularity in the Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

7. To resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent Renown Pharmacy, Pharmacy License No. PH04283, stipulate to the following penalties:

A. Pursuant to NRS 639.255(1)(f) and NAC 639.955(5), Renown Pharmacy shall pay a fine of Ten Thousand Dollars ($10,000.00) for the violations, by personal, business, certified or cashier's check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by June 1, 2026; and

B. Pursuant to NRS 622.400, Renown Pharmacy shall pay One Thousand Dollars ($1,000.00) to partially reimburse the Board for recoverable attorney's fees and investigative costs, by personal, business, certified or cashier's check or money order made payable to the "Nevada State Board of Pharmacy" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by June 1, 2026.

8. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapter 639.

9. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on April 15, 2026. Respondent will appear in person or through counsel at the meeting to answer questions from the Board Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

10. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

11. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board at a later date. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

i. The Respondent was responsible to initiate the Boothwyn Pharmacy protocol each time the Respondent received out of specification test results.

j. Boothwyn's protocols required the following:

(1) Respondent was to notify the President and Vice President of the out of specification results.

(2) Respondent was to notify/ contact any customer who received product from the out of specification batch.

(3) PCI Mannetta asked the Respondent why the escalation protocol was not initiated and the Respondent stated that he did not believe it was a fair test and the laboratories used endotoxin levels for humans, rather than horses, as the standard.

(4) The Respondent stated that he discussed endotoxin levels with several customers in the past and all reported that horses experienced no negative side effects from slightly elevated endotoxin levels.

(5) PCI Mannetta asked the Respondent about why and how he altered the certificated of analysis for the FDA inspection.

BOOTHWYN PHARMACY

Attachment A

November 14, 2024

Subject: Role Reassignment and Disciplinary Action Following Recent Investigation Findings

Dear Martin,

Following a thorough investigation conducted in collaboration with both the U.S. Food and Drug Administration (FDA) and the Pennsylvania Board of Pharmacy, which concluded on November 13, 2024, Boothwyn Pharmacy has identified serious concerns regarding your actions related to document integrity. Specifically, this investigation revealed that your actions jeopardized the integrity of compounded medications at Boothwyn Pharmacy and compromised the ethical and professional standards our establishment upholds.

The findings disclosed multiple violations of Boothwyn Pharmacy's Standard Operating Procedures (SOP) for the evaluation of Out-of-Specification (OOS) results, SOP QA.CAPA.016.001 Variance & OOS Investigations, as well as non-compliance with the Boothwyn Pharmacy Handbook Section 3.6-Personal Code of Conduct page 31 and 32, which clearly outlines the required procedures for escalating concerns. These protocols are essential to ensure the accountability and integrity of our pharmacy operations.

The gravity of this matter cannot be understated. Altering documentation and failing to adhere to escalation protocols represent severe breaches of professional conduct. Such actions undermine the trust placed in Boothwyn Pharmacy by regulatory agencies, our clients, and the broader healthcare community.

As a result of these findings, effective immediately, you will be relieved of your position as Pharmacist in Charge and reassigned to the role of Administrative Pharmacist. In this capacity, you will focus on administrative tasks and formula management while working closely with Ali Zerafati, who will assume the role of Pharmacist in Charge. This transition aims to uphold the operational integrity of Boothwyn Pharmacy and ensure compliance with all applicable regulations moving forward.

Additionally, as part of your reassignment:

- You will undergo a 90-day probationary period, during which you will not engage in activities involving sensitive documents or records that could impact on the integrity of our compounds, results, or reputation.
- You are required to complete 20 hours of coursework in ethics, with a focus on FDA regulations and ethical practices in pharmacy, within this probationary period. Failure to comply with this requirement will result in termination of employment. Human Resources will set up the modules.

- You will be required to schedule and attend a bi-weekly appointment with our Human Resources Director to assess your progress with these directives.
- Any future violations related to document integrity or ethical breaches will lead to immediate termination.

This decision reflects Boothwyn Pharmacy's commitment to professional integrity and adherence to regulatory standards. We expect your full cooperation and dedication in adhering to these terms as we work to restore and uphold the trust of our clients and regulatory partners.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **MARTIN JAMES FARRELL, RPH,** **Certificate of Registration No. 22316,** **Respondent.**	**Case No. 25-233-RPH-O** **STIPULATION AND ORDER**

J. David Wuest, in his capacity as Executive Secretary of the Nevada State Board of Pharmacy (Board), by and through General Counsel Brett Kandt, and Respondent Martin James Farrell, RPh, Certificate of Registration No. 22316, by and through counsel, Lyn E. Beggs, Esq., **HEREBY STIPULATE AND AGREE THAT**:

1. On or about February 20. 2026, Respondent was served with the Notice of Intended Action and Accusation (Accusation) on file in this matter together with the Statement to Respondent and Notice of Hearing. Respondent is entering this Stipulation in lieu of filing an Answer and Notice of Defense to the Accusation.

2. Respondent is fully aware of the right to seek the advice of counsel in this matter and obtained the advice of counsel prior to entering into this Stipulation.

3. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded to him pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

4. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby knowingly and voluntarily waives the rights

to a hearing, reconsideration, appeal and any and all other rights related to this action that may be accorded to him by NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Respondent does not contest the allegations in the Accusation, but acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein, *to wit*:

A. On or about April 29, 2025, the Pennsylvania State Board of Pharmacy (PABOP) and Respondent entered a consent agreement and order in Case No. 24-54-017144, imposing discipline on Respondent's PABOP License No. RP447897 to practice pharmacy for cause, wherein Respondent admitted to altering certificates of analysis for endotoxin level and sterility tests for equine glucosamine injections, misrepresenting to U.S. Food and Drug Administration (FDA) inspectors that the levels were within acceptable ranges; and

B. By altering certificates of analysis for endotoxin level and sterility tests for equine glucosamine injections and misrepresenting to FDA inspectors that the levels were within acceptable ranges, Respondent violated, attempted to violate, assisted or abetted in the violation of or conspired to violate 18 U.S.C. § 1001, and engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(h) and (i).

6. Those violations are pled with particularity in the Accusation and grounds for action pursuant to NRS 639.210 and NRS 639.255.

7. On or about February 4, 2026, PABOP entered a final order in Case No. 24-54-017144, terminating Respondent's probation and reinstating Respondent’s PABOP License No. RP447897 to practice pharmacy to unrestricted status.

8. To resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent Martin James Farrell, RPh, Certificate of Registration No. 22316, stipulate to the following penalties:

A. Pursuant to NRS 639.255(1)(b), Respondent is placed on probation for one (1) year;

B. Pursuant to NRS 639.255(1)(f) and NAC 639.955(5), Respondent shall pay a fine of One Thousand Dollars ($1,000.00) for the violations, by personal, business, certified or cashier's check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by May 15, 2026; and

C. Respondent shall comply with all federal and state statutes and regulations regarding the practice of pharmacy and controlled substances and dangerous drugs, and have no additional charges filed against him while on probation.

Upon successful completion of probation, Respondent's Certificate of Registration No. 22316 will be fully restored.

9. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapter 639.

10. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on April 15, 2026. Respondent will appear in person or through counsel at the meeting to answer questions from the Board

Members and/or Board Staff. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent or counsel are not present at the meeting.

11. The Board has discretion to accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 USC § 1396r–2 and 45 CFR Part 60, and shall be further reported pursuant to NAC 639.960.

12. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has knowingly and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

OF PHARMACY

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **RAYMOND BRADBURY GRABER, D.D.S., Certificate of Registration No. CS27126,** **Respondent.**	**CASE NO. 23-340-CS-N** **ORDER TO SHOW CAUSE**

1. The Nevada State Board of Pharmacy (Board) approved a Stipulation and Order dated October 11, 2023 ("Order"), whereby the Board imposed professional discipline upon Respondent Raymond Bradbury Graber ("Respondent"), D.D.S., Certificate of Registration No. CS27126. The Board imposed discipline upon Respondent because Respondent entered a guilty plea in Carson City Justice Court to a misdemeanor drug offense, he contemporaneously admitted to a substance abuse order that predated his guilty plea in Carson City Justice Court, and he thereafter failed to report his guilty plea and/or substance abuse disorder to the Board when he renewed his certificate of registration to prescribe controlled substances.

2. For the conduct described above, the Board placed Respondent on probation for a period of five (5) years from the entry of the Order. As a condition of probation, the Board ordered Respondent to complete substance abuse counseling and provide the Board with proof of progress and completion.

3. Respondent did not renew his certificate of registration when it came due for renewal on November 1, 2024, and he did not continue with substance abuse counseling as required by the terms of the Order.

4. Respondent's privilege to prescribe controlled substances in Nevada is subject to review by the Board and may be revoked or suspended for conduct that renders registration under NRS 453.231 inconsistent with the public interest. *See* NRS 453.236; NRS 453.241.

5. Having failed to complete substance abuse counseling as required by the terms of the Order, Respondent committed an act or omission that renders registration under NRS 453.231 inconsistent with the public interest. Accordingly, pursuant to NAC 639.965, Respondent shall appear before the Board at the first available meeting to demonstrate why he should not be subject to further disciplinary action.

NOW, THEREFORE, IT IS HEREBY ORDERED that Respondent Raymond Bradbury Graber, D.D.S., Certificate of Registration No. CS27126, shall appear before the Board and show cause, if any, why his certificate of registration should not be revoked retroactively to October 31, 2024, or otherwise forfeited as of that date, and his failure to complete probation reported to the National Practitioner Data Bank.

NOTICE TO RESPONDENT

You have the right to dispute the allegations of noncompliance as set forth above. NRS 233B.127(3); NAC 639.968.

The Board has scheduled your hearing on this matter for Wednesday, April 15, 2026 at 9:00 a.m. or soon thereafter. The hearing will occur at the Hyatt Place, 1790 E Plumb Ln. Reno, Nevada 89502. Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. The Board at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session.

17. The holder of any certificate, license, or permit issued by the Board shall report to the Executive Secretary any conviction not later than 30 days after the conviction and provide any documentation of the conviction required by the Executive Secretary. 19. Performing or in any way being a party to any fraudulent or deceitful practice or transaction constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(h) and is grounds for suspension or revocation of any license or registration issued by the Board. COUNT ONE
Failure to timely Report Conviction

By failing to timely report his guilty plea, Respondent committed an act that renders his continued registration to dispense controlled substances in Nevada inconsistent with the public interest. Respondent is therefore subject to discipline pursuant to NRS 453.231(1)(h) and/or NRS 453.236(1)(e) and/or NRS 453.241(1) and/or NRS 639.255(1)(f) and (3).

CULPABILITY

26. Respondent Graber admits the truth of each and every factual allegation.

27. Respondent Graber admits Count Two of the alleged violations of law.

28. Count One of the alleged violations of law contained in the Accusation is dismissed.

DISCIPLINARY ORDER

29. In consideration of the foregoing admissions and stipulations, and to save the time and expense of litigating the alleged violation(s) of law before the Board, the parties agree that the Board may, without further notice or formal proceeding, issue and enter the following **Disciplinary Order:**

A. Respondent Graber's Certificate of Registration to Dispense Controlled Substances, Certificate of Registration No. CS27126 is hereby suspended for a period of five (5)

ii. Respondent Graber's counselor shall submit quarterly reports directly to the Board detailing Respondent Graber's progress, attendance, and urinalysis results;

iii. Upon receipt of records demonstrating substance abuse counseling attendance and negative urinalysis attributed to Respondent Graber's deferred misdemeanor sentencing for violation of NRS 454.351, Respondent Graber shall receive credit toward the five (5) year probationary period; and

iv. Upon successful completion of the five (5) year stayed suspension, Respondent shall reappear before the Board to have the probationary conditions removed from his Certificate of Registration to Dispense Controlled Substances.;

B. Respondent Graber shall pay a fine of Two Thousand Dollars ($2,000.00) for the violations, by *cashier's check* or *certified check* or *money order* made payable to **"State of Nevada, Office of the Treasurer,"** to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521 within thirty (30) days of the effective date of this Order;

D. Respondent Graber acknowledges this Stipulation and Order constitutes a public record of discipline that is reportable to the National Practitioner Data Bank.

30. Any failure by Respondent Graber to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent Graber to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent Graber, the Board may impose additional discipline upon Respondent Graber consistent with the provisions of NRS Chapter 453 and/or Chapter 639.

31. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on October 11, 2023. Respondent Graber will appear in-person and/or counsel at the meeting to answer questions from the Board Members. The Board Members may discuss and deliberate regarding this Stipulation, even if Respondent Graber is not present at the meeting.

32. The Board has discretion to accept this Stipulation, but it is not obligated to do so.

33. If the Board rejects any part or all this Stipulation, the parties agree that a full hearing on the merits of this matter may be heard by the Board – unless the parties reach an alternative agreement on the record which is approved by the Board. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

34. Subject to the approval of this Stipulation by the Board, the Board and Respondent Graber agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order.

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PATRICK AWA, RPH,** **Certificate of Registration No. 20399, and** **RALEY'S PHARMACY #123,** **Pharmacy License No. PH00999,** **Respondents.**	**Case Nos. 24-366-RPH-N** **24-366-PH-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (Board), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent Raley's Pharmacy #123 (Respondent Raley's) because Respondent Raley's holds a license issued by the Board pursuant to NRS 639.230, authorizing Respondent Raley's to operate a pharmacy at 176 West Goldfield Avenue in Yerington, Nevada.

2. The Board has jurisdiction over Respondent Patrick Awa (Respondent Awa) because Respondent Awa is licensed by the Board pursuant to NRS 639.120 to practice pharmacy in Nevada.

3. The Board has jurisdiction over Respondents Raley's and Awa because the allegations below relate to their professional conduct as holders of a license or registration issued by the Board.

FACTUAL ALLEGATIONS

4. Between 2022 and 2025, Respondent Raley's employed Respondent Awa at its Raley's pharmacy location in Yerington, Nevada.

5. On July 3, 2024, Respondent Awa processed and filled a new prescription for patient R.S., for antibiotic ear drops. The pharmacy's automated prescription management system identified the prescription as "Rx No. 7047361."

6. Respondent Awa dispensed Rx No. 7047361 to the patient's wife, who later complained to the Board that Respondent Awa had not offered her counseling at the pharmacy counter when she picked up her husband's ear drops.

7. The Board investigated the complaint in September 2024.

8. Respondent Raley's was unable to supply the Board's investigator with video of the moment when Respondent Awa dispensed Rx No. 7047361. Respondent Raley's was unable to supply relevant video because Respondent Raley's does not retain video footage beyond 30 days.

9. Respondent Awa told the Board's investigator that he could not recall the incident on July 3, 2024, when he allegedly failed to offer counseling concerning Rx No. 7047361.

10. Respondent Awa further stated that he had no recollection of the person to whom he dispensed Rx No.7047361.

11. The complainant, a self-described retired pharmacist, admittedly did not ask questions of Respondent Awa when she picked up her husband's ear drops.

12. At all times relevant to this accusation, Respondent Raley's maintained a computerized record-keeping system for documenting pharmacist counseling.

13. According to Respondent Awa, the system automatically defaults to "Yes" as a means of documenting whether counseling was offered to the patient. In other words, unless the pharmacist manually enters a counseling entry, the system automatically registers a positive counseling entry regardless of whether the pharmacist counsels the patient.

14. As to Rx No. 7047361, Respondent Raley's record-keeping system did not correlate the counseling entry with the prescription number, the drug name, or the date or time of the presumed counseling.

15. Respondent Raley's system did not contain any counseling comments regarding Rx No. 7047361.

16. Respondent Awa permitted the pharmacy record-keeping system to default to "Yes" regarding Rx No. 7047361. This means that he did not enter comments, his electronic initials, or any other data into the system regarding Rx No. 7047361.

APPLICABLE LAW

17. The Board may discipline a pharmacy owner whose conduct in operating a pharmacy has been unprofessional or contrary to the public interest. NRS 639.210(4); NRS 639.255; NAC 639.945; NAC 639.955.

18. The Board may discipline any person whose conduct as a pharmacist has been unprofessional or contrary to the public interest. NRS 639.210(4); NRS 639.255; NAC 639.945; NAC 639.955.

19. A person's conduct is unprofessional and/or contrary to the public interest if the person performs his or her professional duties in a negligent, incompetent or unskillful manner. NAC 639.945(1)(i).

20. Generally, a pharmacist must verbally provide a patient or a person caring for the patient with information about each prescription drug or device dispensed to the patient. NRS 639.707(1). This is always true when the patient receives a new prescription. NAC 639.707(1).

21. In this case, because the medication was dispensed pursuant to a new prescription, Patient Awa had a duty to counsel the patient's spouse when he dispensed the medication associated with Rx No. 7047361.

22. Pursuant to NAC 639.707(6), a pharmacist must, at the time that counseling is provided or refused, enter his or her initials onto a record in a computerized system used by the pharmacy to document whether counseling was offered, rejected and/or provided.

23. In this case, Patient Awa had a duty to affirmatively make an electronic record of any counseling offered, provided, or rejected in connection with Rx No. 7047361.

24. To facilitate counseling regarding a prescription, a pharmacy must maintain a detailed history of each patient's prescription drug history so that the pharmacist can evaluate it before offering counseling. NAC 639.707(4); NAC 639.708(1).

25. To ensure that counseling enhances drug therapy, the record of counseling provided to the patient should reasonably correlate with details concerning the patient's prescription drug history, including the names of the drugs prescribed and the times and dates of counseling concerning those drugs. *See* NRS 639.266(1); NAC 639.707(4) and (6); NAC 639.708(1)(b).

26. A pharmacy is responsible for the negligent acts and/or omissions of the pharmacists whom the pharmacy employs. NAC 639.230(5); NAC 639.945(3).

COUNT ONE
Unprofessional Conduct by a Pharmacy

27. Respondent Raley's had a duty to facilitate counseling by its pharmacists.

28. Respondent Raley's had a duty to maintain a record-keeping system that facilitated counseling by its pharmacists, thereby enhancing drug therapy.

29. As alleged above, Respondent Raley's implemented a record-keeping system that automatically registered a positive counseling entry regardless of whether the pharmacist had counseled the patient.

30. As alleged above, Respondent Raley's implemented a record-keeping system that failed to correlate individual counseling entries with corresponding prescription numbers, drug names, and the dates and times of counseling.

31. By implementing a system that automatically registers a positive counseling entry regardless of whether the pharmacist counsels the patient, Respondent Raley's has breached its duty to facilitate counseling.

32. By implementing a record-keeping system that fails to correlate counseling entries with prescription numbers, drugs names and other identifiers concerning the medications that it dispenses to its patients, Respondent Raley's has breached its duty to enhance drug therapy through counseling.

33. By implementing a system that automatically registers a positive counseling entry regardless of whether the pharmacist counsels the patient, Respondent Raley's encourages its pharmacists to neglect their record-keeping obligations pursuant to NAC 639.707(6).

34. As a means of enhancing drug therapy through counseling, Respondent Raley's counseling records were and/or continue to be practically useless.

35. Having breached the duties described above, Respondent Raley's has performed its duties as the holder of a pharmacy license in a negligent, incompetent or unskillful manner.

36. Respondent Raley's may be disciplined by the Board for the unprofessional conduct as described above. Alternatively, Respondent Raley's may be disciplined by the Board for the unprofessional conduct of Respondent Awa as alleged in Count Two below.

COUNT TWO
Unprofessional Conduct by a Pharmacist

37. As alleged above, Respondent Awa had a duty to offer counseling to the patient or to the patient's caregiver when he dispensed the medication associated with Rx No. 7047361.

38. As alleged above, Respondent Awa had a duty to make an affirmative record of any counseling offered or provided or rejected in connection with Rx No. 7047361.

39. Respondent Awa neglected to provide counseling to the patient or to the patient's caregiver, and/or he failed to make an affirmative record of any counseling offered, provided, or rejected in connection with Rx No. 7047361.

40. Having omitted to perform either or both of the duties described above, Respondent Awa performed his duties as a pharmacist in a negligent, incompetent, or unskillful manner.

41. Respondent Awa may be disciplined by the Board for his unprofessional conduct as described above.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Patrick Awa and the pharmacy license of Respondent Raley's Pharmacy #123.

DATED this 23rd day of FEBRUARY, 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PATRICK AWA, RPH,** **Certificate of Registration No. 20399, and** **RALEY'S PHARMACY #123,** **Pharmacy License No. PH00999,** **Respondents.**	**Case Nos. 24-366-RPH-N** **24-366-PH-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (Board), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent Raley's Pharmacy #123 (Respondent Raley's) because Respondent Raley's holds a license issued by the Board pursuant to NRS 639.230, authorizing Respondent Raley's to operate a pharmacy at 176 West Goldfield Avenue in Yerington, Nevada.

2. The Board has jurisdiction over Respondent Patrick Awa (Respondent Awa) because Respondent Awa is licensed by the Board pursuant to NRS 639.120 to practice pharmacy in Nevada.

3. The Board has jurisdiction over Respondents Raley's and Awa because the allegations below relate to their professional conduct as holders of a license or registration issued by the Board.

FACTUAL ALLEGATIONS

4. Between 2022 and 2025, Respondent Raley's employed Respondent Awa at its Raley's pharmacy location in Yerington, Nevada.

5. On July 3, 2024, Respondent Awa processed and filled a new prescription for patient R.S., for antibiotic ear drops. The pharmacy's automated prescription management system identified the prescription as "Rx No. 7047361."

6. Respondent Awa dispensed Rx No. 7047361 to the patient's wife, who later complained to the Board that Respondent Awa had not offered her counseling at the pharmacy counter when she picked up her husband's ear drops.

7. The Board investigated the complaint in September 2024.

8. Respondent Raley's was unable to supply the Board's investigator with video of the moment when Respondent Awa dispensed Rx No. 7047361. Respondent Raley's was unable to supply relevant video because Respondent Raley's does not retain video footage beyond 30 days.

9. Respondent Awa told the Board's investigator that he could not recall the incident on July 3, 2024, when he allegedly failed to offer counseling concerning Rx No. 7047361.

10. Respondent Awa further stated that he had no recollection of the person to whom he dispensed Rx No.7047361.

11. The complainant, a self-described retired pharmacist, admittedly did not ask questions of Respondent Awa when she picked up her husband's ear drops.

12. At all times relevant to this accusation, Respondent Raley's maintained a computerized record-keeping system for documenting pharmacist counseling.

13. According to Respondent Awa, the system automatically defaults to "Yes" as a means of documenting whether counseling was offered to the patient. In other words, unless the pharmacist manually enters a counseling entry, the system automatically registers a positive counseling entry regardless of whether the pharmacist counsels the patient.

14. As to Rx No. 7047361, Respondent Raley's record-keeping system did not correlate the counseling entry with the prescription number, the drug name, or the date or time of the presumed counseling.

15. Respondent Raley's system did not contain any counseling comments regarding Rx No. 7047361.

16. Respondent Awa permitted the pharmacy record-keeping system to default to "Yes" regarding Rx No. 7047361. This means that he did not enter comments, his electronic initials, or any other data into the system regarding Rx No. 7047361.

APPLICABLE LAW

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Members of the Nevada State Board of Pharmacy,

I respectfully submit this response and mitigation statement regarding the complaint (Case No. 24-366-RPH-N) filed against me. I take the Board's concerns seriously and I remain committed to the highest standards of pharmacy practice and regulatory compliance.

Throughout my career I have made consistent efforts to follow pharmacy laws and professional standards in all the states that I have been privileged to serve in. I have always approached my duties with the goal of protecting patient safety and complying with state and federal regulations.

I understand the importance of proper documentation and I acknowledge the Board's concerns regarding documentation requirements. I remain committed to ensuring that all counseling and documentation obligations are met fully and consistently in my practice.

My record reflects a pattern of compliance and diligence in pharmacy practice.

In 2024, while serving as pharmacy manager in Yerington Nevada, the pharmacy underwent a DEA audit conducted by a diversion investigator from the U.S. Department of Justice Drug Enforcement Administration. During this audit, the investigator reviewed our compliance practices and commented positively on my efforts to maintain compliance with controlled substance regulations. The investigator asked me to keep up the good work and provided me with a business card following the audit, which I have attached for reference. If the Board wishes to verify the audit findings, the DEA Reno Resident Office should have records of the inspection and its conclusions.

Pharmacy technician Sandra Zavala (Tel: [redacted]) was present during the audit and heard the investigator comment on my compliance efforts. She would be able to confirm this if the Board wished to contact her.

In addition, documentation from my prior employment in Minnesota reflects that my supervisors recognized my commitment to regulatory compliance. In that evaluation my supervisor stated that I "follow the law by the books and that I consistently acted in an ethical and compliant manner." This statement reflects the approach I have consistently taken in my professional practice. You will find these statements on page 5 of the document I am submitting with the file name, "Supervisor evaluation excerpt."

I also previously communicated with my employer emphasizing my obligation to comply with pharmacy law and regulatory requirements. In that communication I expressed my position that legal requirements must be followed even when company policies may differ or when I get overwhelmed by the company's expected metrics. This communication further reflects my longstanding commitment to lawful and ethical pharmacy practice. The commutation submitted under file name "Email to employer regarding compliance obligations" was sent to the Raleys Pharmacy supervisors the same month the incidence in this allegation occurred and should serve as a description of the mindset I had then and ever. I no longer work with Raleys and cannot tell if they still have a copy of this communication on their server but my technicians, including Sandra Zavala, named above were availed of this commutation and they all joined me to anxiously wait for the reply or outcome that never came.

The warning letter I received from the Board in May 2025 advised me to be cautious regarding documentation obligations. The incident referenced in the current complaint occurred prior to that warning letter. Since receiving that notice, I have been even more attentive to documentation procedures and compliance requirements.

I respectfully ask the Board to consider these facts as mitigating circumstances. My professional history demonstrates a consistent effort to comply with pharmacy laws and regulations, and there is no intention on my part to disregard regulatory obligations.

I remain fully committed to practicing pharmacy in accordance with Nevada law and to maintaining the trust placed in pharmacists by patients, employers, and regulators. The statements I submitted during the investigation and now constitute my truth. I will trust and hope that you did your own investigation and will make a decision based on the truth that you found and I plead that you do so not without the entity of my own truth and mindset here submitted.

Thank you for your time and consideration.

Respectfully submitted,

Patrick Awa

Greetings

I have had time to review the outcome of the meeting and the plan of action and I think that it is important to remind you on how we got here.

We had two technicians last summer. I took a two weeks' vacation in October. While I was away, one of the technicians, Sandra called out because her son was sick. It became difficult for the covering pharmacist and the lone technician to get the work done. It only took a week for that technician to get burned out to put in her quit notice before I returned. I came back on a Wednesday and met prescriptions that were received on Monday in the que.

I had to re-strategize to find a way out. In situations like that, prioritizing is usually the key. I told Sandra that we have to prioritize the compliance on the Federal law, state law and patient safety and that we will close the pharmacy the day I feel that we were not able to meet these challenges. I reminded her about this several times so much that she thought that I was kidding but I was serious about that.

When the board of pharmacy came in last November, the board representative told us that the cashier is not allowed to put drugs on the shelves.

To comply with the law and abide by the company policy, it has consistently been determined that we needed 88 technician hours per week to get that work done. Having only Sandra meant that I was only able to access 45% of the required technician hours. Sandra has gone above and beyond to ensure that we survive as a pharmacy. On her own accord, she sacrificed the 15-minute breaks accorded to her to stay and work. Sandra did not take a single 15 minutes break through the time that she was here and left less than a week to her delivery date. I cannot humanly look her in the eyes and say anything than reminding her that she has been doing a greet job.

On my part, I have worked for several days without a technician. I worked some days until 8:00 pm to ensure that we don't fall behind. The days that I worked without a technician, I had to put drugs away after closing at 6:30 pm. As we struggled through this, I kept on checking on the weekly evaluations and asking myself "have we become the worse performing pharmacy in the chain yet?" Would we have received a plan of action on the days that I worked alone and had to put drugs away after 6:30 pm?

There is one think I can assure you of. I have reviewed the plan of action with the technician and we made a commitment to do our best to comply. Be rest assured that we will not bend the state/federal law in order to meet these requirements with 45% of the workforce. We will also not knowingly compromise patient safety. Any further sacrifice by the technicians will be voluntary and not mandated under me.

I do understand that there is a pharmacist that can hurriedly compromise the law and patient safety in order to appear 100% compliant to the company policy. I am unfortunately not that pharmacist.

Thanks

Patrick Awa

Case No. 24-088-RPH-N, Warning Concerning Prescription Dispensing Practices

Dear Dr. Awa:

The Nevada State Board of Pharmacy ("Board") has reviewed a complaint submitted on behalf of patient L.D. regarding an alleged medication dispensing error at Raley's Pharmacy, located at 176 W. Goldfield Avenue in Yerington, where you serve as the managing pharmacist. According to the complaint, Raley's Pharmacy concurrently filled patient L.D.'s two prescriptions for levothyroxine--one calling for 25 mcg tablets and another calling for 50 mcg tablets. Based upon these facts alone, one could reasonably conclude that patient L.D. had received conflicting dosing instructions and/or an excessive quantity of levothyroxine, thus jeopardizing patient safety.

In your response to the Board, you confirmed that all prescriptions were filled in accordance with what was received from the prescribers and that the patient had multiple providers issuing different orders. You also indicated that L.D.'s wife requested fills of the earlier prescriptions, which contributed to some tension and miscommunication at the pharmacy. The Board's investigation concluded that the pharmacy filled the prescriptions as written and that no harm to the patient was reported.

However, as the managing pharmacist, you have an obligation to adequately document the history of any prescription received and/or filled by the pharmacy. *See* NRS 639.220; NAC 639.935. A documented history must include enough detail to permit an audit of any given prescription on the basis of pharmacy records alone. *See* NAC 639.935(1). Here, the history of the two prescriptions in question had to be partially reconstructed from memory and without the benefit of an adequately detailed record of salient events. See NAC 639.935(3)(g)(4).

Accordingly, the purpose of this letter is to caution you regarding your record-keeping responsibilities as outlined in NAC 639.935.

If you have any questions about this warning letter, or your ability to contest any of the above findings, please contact the Board's Senior General Counsel, Gregory Zunino, at 775-850-1440, ext. 124, or via email at zunino@pharmacy.nv.gov.

Sincerely,

Nevada State Board of Pharmacy

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PATRICK AWA, RPH,** **Certificate of Registration No. 20399, and** **RALEY'S PHARMACY #123,** **Pharmacy License No. PH00999,** **Respondents.**	**Case No. 24-366-RPH-N** **24-366-PH-N** **STIPULATION AND ORDER** **(Respondent Patrick Awa Only)**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through its Senior General Counsel, Gregory L. Zunino, and Respondent Patrick Awa ("Respondent") hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent acknowledges that he understands the terms of this Stipulation and Proposed Order ("Stipulation"), and he has executed it knowingly and voluntarily.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, and NRS Chapter 639, the Nevada Pharmacy Act.

5. Conditioned on the acceptance of this Stipulation by the Board and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this

Stipulation, Respondent hereby freely and voluntarily waives his rights to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

6. Respondent does not contest the allegations stated in the Accusations on file herein, and he further admits that evidence exists, and that the Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violation alleged against him in Count Two of the Accusation, to wit:

A. Between 2022 and 2025, Respondent was employed by Raley's Pharmacy #123 at its pharmacy location in Yerington, Nevada.

B. On July 3, 2024, Respondent processed and filled a new prescription for patient R.S., for antibiotic ear drops. The pharmacy's automated prescription management system identified the prescription as "Rx No. 7047361."

C. Respondent dispensed Rx No. 7047361 to the patient's wife, who later complained to the Board that Respondent had not offered her counseling at the pharmacy counter when she picked up her husband's ear drops.

D. When questioned about Rx No. 7047361, Respondent stated that he had no recollection of dispensing the prescription.

E. At the time of the incident described above, Raley's Pharmacy #123 maintained a computerized record-keeping system for documenting pharmacist counseling.

F. According to Respondent, the system automatically defaulted to "Yes" as a means of documenting whether counseling was offered to the patient.

G. The system did not contain any counseling comments regarding Rx No. 7047361, nor did it contain Respondent's electronic initials, or any other data regarding Rx No. 7047361.

H. Respondent admittedly failed to document whether he offered or provided patient counseling in connection with Rx No. 7047361.

7. To resolve this case without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following discipline:

A. Respondent shall pay a fine of **Seven Hundred Fifty and 00/100 Dollars ($750.00)**. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before May 31, 2026.

B. Respondent shall pay the sum of **Five Hundred and 00/100 Dollars ($500.00)**. to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this case. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before May 31, 2026.

C. On or before May 31, 2026, Respondent shall complete two credit hours of continuing education on the topic of pharmacy record keeping. Respondent shall supply proof of completion by sending a certificate of completion or other proof satisfactory to the Board's staff (teambc@pharamcy.nv.gov). The above credit hours shall be in addition to the credit hours that Respondent is otherwise required to complete pursuant to NAC 639.330.

8. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 24-366-RPH-N as it pertains to Respondent. However, any failure by Respondent to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing him to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in the finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

9. The Board's Senior General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on April 15, 2026, in Reno, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear at the meeting.

10. The Board may accept this Stipulation, but it has no obligation to accept this Stipulation. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

11. If the Board rejects any part or all of this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

12. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the date of entry set forth below.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PHARMERICA,** **Pharmacy License No. PH02018,** **and** **CAMILLA KIM, RPH,** **Certificate of Registration No. 19388,** **Respondents.**	**Case Nos. 24-370-PH-N** **24-370-RPH-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (the "Board"), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent PharMerica ("Respondent PharMerica"), the holder of Pharmacy License No. PH02018, because Respondent PharMerica is licensed by the Board to operate a pharmacy at 4750 Longley Lane in Reno, Nevada.

2. The Board has jurisdiction over Respondent Camilla Kim, RPh ("Respondent Kim"), the holder of Certificate of Registration No. 19388, because Respondent Kim is registered by the Board to engage in the practice of pharmacy in Nevada.

FACTUAL ALLEGATIONS

3. Respondent PharMerica operates a pharmacy in Reno, Nevada.

4. In March 2024, Respondent Kim was employed by Respondent PharMerica as a pharmacist.

5. In 2023 and 2024, Respondent PharMerica was under contract with MorningStar Senior Living of Sparks ("MorningStar"), an assisted living facility, to dispense prescription medication and provide medication management services to residents of the MorningStar facility.

6. Respondent PharMerica worked cooperatively with the nursing staff at MorningStar to store and deliver prescription medications for the residents of the MorningStar facility.

7. In 2023 and 2024, patient D.P., an 87-year-old female, resided at MorningStar, where she received medication and medication management services from Respondent PharMerica.

8. In 2023 and 2024, patient D.P. required levothyroxine for hypothyroidism.

9. Between March 2023 and March 2024, Respondent PharMerica dispensed levothyroxine to patient D.P. without interruption, according to the instructions of patient D.P.'s physician.

10. On March 6, 2024, patient D.P.'s physician issued her a new prescription for levothyroxine. The prescription directed Respondent PharMerica to dispense an initial 90-day supply of levothyroxine with two refills.

11. On its face, the above prescription sufficed to meet patient D.P.'s medical needs for 12 months.

12. Patient D.P.'s physician electronically transmitted the above prescription to Respondent PharMerica.

13. Respondent PharMerica assigned no. 343217 to the above prescription. Per standard operating procedure, PharMerica processed prescription no. 343217 at its facility in Kentucky.

14. At the facility in Kentucky, a pharmaceutical technician transferred the information from the electronic prescription to a computerized prescription management system.

15. When transferring the prescription information, the technician incorrectly entered code "X90D" related to the "duration" of medication treatment. This code suppressed the automatic refill

function on the system, thus instructing the system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

16. Since patient D.P.'s levothyroxine was considered a "maintenance" medication, there should not have been a duration code associated with prescription no 343217.

17. In March 2024, before dispensing any medication under prescription no. 343217, Respondent Kim verified the prescription at PharMerica's facility in Reno.

18. When verifying the above prescription, Respondent Kim failed to notice that the duration code X90D, as described above, was inconsistent with the number of refill authorizations on the prescription itself. As noted above, this code instructed the automated system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

19. In June of 2024, due to Respondent Kim's omission as described above, PharMerica failed to refill patient D.P.'s prescription for levothyroxine as directed by her physician.

20. Between June and September 2024, the nursing staff at MorningStar delivered no levothyroxine to patient D.P., and they made no inquiries of PharMerica concerning the abrupt cessation of patient D.P.'s medication treatment.

21. In August or September 2024, patient D.P.'s daughter observed that her mother's health had rapidly declined for no apparent reason. She alerted the nursing staff at MorningStar and/or patient D.P.'s physician.

22. In September 2024, Patient D.P. was admitted to the intensive care unit at Renown Hospital, where she was diagnosed with myxedema coma and cellulitis in her left leg. These medical conditions were caused by the cessation of medication treatment with levothyroxine.

COUNT ONE
Unprofessional Conduct by a Pharmacist
(Respondent Kim)

29. As alleged above, Respondent Kim verified prescription no. 343217 for levothyroxine, including two refills. In verifying the prescription, Respondent Kim failed to notice that a pharmaceutical technician in Kentucky had incorrectly entered a duration code into PharMerica's prescription management system, thus causing the system to suppress the automatic refill function.

30. Respondent Kim had a duty to supervise the pharmaceutical technician in Kentucky who performed data entry tasks related to prescription no. 343217.

31. Respondent Kim had a duty to correct the data entry error described above.

32. Respondent Kim had a duty to strictly follow the instructions of patient D.P.'s physician as to the refilling of no. 343217.

33. Respondent Kim performed the above duties in an incompetent, unskillful or negligent manner.

34. Due to Respondent Kim's unprofessional conduct as described above, patient D.P. suffered harm.

35. For her unprofessional conduct as described above Respondent Kim is subject to professional discipline pursuant to NRS 639.210(4) and NAC 639.945.

38. For said unprofessional conduct, Respondent PharMerica is subject to professional discipline pursuant to NRS 639.210(4) and NAC 639.945.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Camilla Kim and the pharmacy license of Respondent PharMerica.

Respondents PharMerica and Camilla Kim, RPH, hereby file with the Nevada State Board of Pharmacy ("Board"), their Answer and Notice of Defense to the Notice of Intended Action and Accusation ("Accusation") filed on July 24, 2025.

ANSWER TO ACCUSATION

Jurisdiction: Paragraphs 1-2

Paragraph 1: Respondent PharMerica acknowledges that the Board has jurisdiction in this matter as set forth in Paragraph 1.

Paragraph 2: Respondent Kim acknowledges that the Board has jurisdiction in this matter as set forth in Paragraph 2.

Factual Allegations: Paragraphs 3-22

Paragraph 3: Respondent PharMerica acknowledges that it operates a pharmacy located in Reno, Nevada as set forth in Paragraph 3.

Paragraph 4: Respondent Kim acknowledges that she was employed by PharMerica in March 2024 as set forth in Paragraph 4.

Paragraph 5: Respondent PharMerica acknowledges that during the time periods set forth in Paragraph 5, it did dispense prescribed medication to residents of MorningStar Senior Living of Sparks as set forth in Paragraph 5.

Paragraph 6: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 6 to the extent the PharMerica coordinated deliveries of prescribed and dispensed medication to the nursing staff of MorningStar Senior Living.

Paragraph 7: Respondent PharMerica agrees that patient D.P. did receive some medication management services in the time frame noted in Paragraph 7.

Paragraph 8: Respondents are without sufficient personal knowledge to respond to the factual assertions contained in Paragraph 8.

Paragraph 9: Respondent PharMerica agrees with the factual assertions in Paragraph 9 to the extent that patient D.P. received levothyroxine in 2023 through the end of February 2024.

Paragraph 10: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 10 to the extent that a new prescription (no. 343217, the "Prescription") was issued March 6, 2024, by patient D.P.'s physician. However, the directions for the prescription were for one tablet daily for a 90-day duration with three refills, not two refills as noted in Paragraph 10 and further the prescription authorized three refills but did not direct automatic refills of the Prescription.

Paragraph 11: Respondents are without personal knowledge to substantively respond to the factual assertions set forth in Paragraph 11, however Respondents acknowledge that had the Prescription been refilled by patient D.P. as allowed, there would have been approximately twelve months of medication authorized by the physician.

Paragraph 12: Respondent PharMerica acknowledges that it received Prescription no. 343217 electronically.

Paragraph 13: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 13.

Paragraph 14: Based on information and belief, Respondent PharMerica agrees that a PharMerica pharmacy technician would have transcribed the Prescription information into PharMerica's computerized prescription management system.

Paragraph 15: Respondents deny that the pharmacy technician incorrectly entered code "X90D" into the prescription management system. The technician correctly entered the Prescription and directions into the prescription management system; because the Prescription directions included a duration, the prescription management system automatically assigned the code to the Prescription. The prescription management system did not terminate D.P.'s supply of levothyroxine at the end of the initial ninety days; the Prescription was still active and simply needed to be refilled by MorningStar Senior Living.

Paragraph 16: Respondents disagree with the factual assertions contained in Paragraph 16; prescriptions, including prescriptions for "maintenance" medications, often have a duration associated with them.

Paragraph 17: Respondent Kim acknowledges that she verified Prescription no. 343217 before the Prescription was initially dispensed on March 19, 2024.

Paragraph 18: Respondent Kim denies that she failed to notice the duration code and asserts that the Prescription directions included a duration with refills to follow. Nothing indicated that the Prescription was to be automatically refilled. As noted above, the system did not "terminate" the supply of levothyroxine, the Prescription was still active and could be refilled.

Paragraph 19: Respondents deny the factual allegations set forth in Paragraph 19.

Paragraph 20: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 20.

Paragraph 21: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 21.

Paragraph 22: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 22.

Applicable Law: Paragraphs 23-28

Paragraph 23: Respondents agree that Paragraph 23 sufficiently reflects the contents of NRS 639.210(4).

Paragraph 24: Respondents agree that Paragraph 24 sufficiently reflects the contents of NAC 639.945(1)(d).

Paragraph 25: Respondents agree that Paragraph 25 sufficiently reflects the contents of NAC 639.945(1)(i).

Paragraph 26: Respondents agree that Paragraph 26 sufficiently reflects the contents of NAC 639.252(2).

Paragraph 27: Respondents agree that Paragraph 27 sufficiently reflects the contents of NAC 639.918.

Paragraph 28: Respondents agree that Paragraph 28 sufficiently reflects the contents of NRS 639.230(5), NAC 639.702, and NAC 639.945(3).

Count One (Paragraphs 29-35, Respondent Kim

Paragraph 29: Respondent Kim agrees that she verified Prescription no. 343217, which allowed three refills, not two as alleged. However, Respondent Kim denies the remaining allegations contained in Paragraph 29.

Paragraph 30: Respondent Kim does not work in the same location as the pharmacy technician who transcribed the information regarding the Prescription into the PharMerica computerized prescription management system, however Respondent Kim asserts that the technician did not incorrectly input the Prescription into the prescription management system. As described above, the prescription management system grabs the directions of the Prescription for generation of system codes. Regarding Prescription no. 343217, the physician's instructions included a duration and accordingly the system generated the appropriate code.

Paragraph 31: Respondent Kim denies the allegations contained in Paragraph 31 and contends that there was no error.

Paragraph 32: Respondent Kim agrees that she had a duty to strictly follow the instructions of the prescribing physician and that those instructions were indeed followed.

Paragraph 33: Respondent Kim denies the allegations contained in Paragraph 33.

Paragraph 34: Respondent Kim denies the allegations contained in Paragraph 34.

Paragraph 35: Paragraph 35 does not require a response from Respondent Kim.

Count Two (Paragraphs 36-38, Respondent PharMerica):

Paragraph 36: Respondent PharMerica denies the allegations contained in Paragraph 36.

Paragraph 37: Respondent PharMerica agrees it is responsible for Respondent Kim's conduct as an employed pharmacist but again denies that Respondent Kim engaged in unprofessional conduct as set forth in Paragraph 37.

Paragraph 38: Paragraph 38 does not require a substantive response from Respondent PharMerica.

NOTICE OF DEFENSE/MITIGATING INFORMATION

Respondents reserve all legal defenses available to them in this matter.

Respondents further assert that no violation of NRS or NAC Chapters 639 has occurred in this matter. The Prescription was received on March 6, 2024, electronically and was properly entered into the PharMerica computerized prescription management system by a pharmacy technician. The technician appropriately entered the information into the prescription management system, including the duration which was included on the Prescription sent electronically by patient D.P.'s physician. Per the Prescription directions, the prescription management system entered a code of "X90D"; however, that did not terminate the Prescription at the end of 90-days but rather required a refill to be requested. The Prescription, as written, did not direct automatic refills. Respondents are without knowledge of why the nursing staff at MorningStar Senior Living failed to request the refill of levothyroxine, however Respondents assert that neither Respondent PharMerica nor Respondent Kim violated NRS/NAC Chapter 639 as alleged.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PHARMERICA,** **Pharmacy License No. PH02018,** **and** **CAMILLA KIM, RPH,** **Certificate of Registration No. 19388,** **Respondents.**	**Case Nos. 24-370-PH-N** **24-370-RPH-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (the "Board"), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent PharMerica ("Respondent PharMerica"), the holder of Pharmacy License No. PH02018, because Respondent PharMerica is licensed by the Board to operate a pharmacy at 4750 Longley Lane in Reno, Nevada.

2. The Board has jurisdiction over Respondent Camilla Kim, RPh ("Respondent Kim"), the holder of Certificate of Registration No. 19388, because Respondent Kim is registered by the Board to engage in the practice of pharmacy in Nevada.

FACTUAL ALLEGATIONS

3. Respondent PharMerica operates a pharmacy in Reno, Nevada.

4. In March 2024, Respondent Kim was employed by Respondent PharMerica as a pharmacist.

5. In 2023 and 2024, Respondent PharMerica was under contract with MorningStar Senior Living of Sparks ("MorningStar"), an assisted living facility, to dispense prescription medication and provide medication management services to residents of the MorningStar facility.

6. Respondent PharMerica worked cooperatively with the nursing staff at MorningStar to store and deliver prescription medications for the residents of the MorningStar facility.

7. In 2023 and 2024, patient D.P., an 87-year-old female, resided at MorningStar, where she received medication and medication management services from Respondent PharMerica.

8. In 2023 and 2024, patient D.P. required levothyroxine for hypothyroidism.

9. Between March 2023 and March 2024, Respondent PharMerica dispensed levothyroxine to patient D.P. without interruption, according to the instructions of patient D.P.'s physician.

10. On March 6, 2024, patient D.P.'s physician issued her a new prescription for levothyroxine. The prescription directed Respondent PharMerica to dispense an initial 90-day supply of levothyroxine with two refills.

11. On its face, the above prescription sufficed to meet patient D.P.'s medical needs for 12 months.

12. Patient D.P.'s physician electronically transmitted the above prescription to Respondent PharMerica.

13. Respondent PharMerica assigned no. 343217 to the above prescription. Per standard operating procedure, PharMerica processed prescription no. 343217 at its facility in Kentucky.

14. At the facility in Kentucky, a pharmaceutical technician transferred the information from the electronic prescription to a computerized prescription management system.

15. When transferring the prescription information, the technician incorrectly entered code "X90D" related to the "duration" of medication treatment. This code suppressed the automatic refill

function on the system, thus instructing the system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

16. Since patient D.P.'s levothyroxine was considered a "maintenance" medication, there should not have been a duration code associated with prescription no 343217.

17. In March 2024, before dispensing any medication under prescription no. 343217, Respondent Kim verified the prescription at PharMerica's facility in Reno.

18. When verifying the above prescription, Respondent Kim failed to notice that the duration code X90D, as described above, was inconsistent with the number of refill authorizations on the prescription itself. As noted above, this code instructed the automated system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

19. In June of 2024, due to Respondent Kim's omission as described above, PharMerica failed to refill patient D.P.'s prescription for levothyroxine as directed by her physician.

20. Between June and September 2024, the nursing staff at MorningStar delivered no levothyroxine to patient D.P., and they made no inquiries of PharMerica concerning the abrupt cessation of patient D.P.'s medication treatment.

21. In August or September 2024, patient D.P.'s daughter observed that her mother's health had rapidly declined for no apparent reason. She alerted the nursing staff at MorningStar and/or patient D.P.'s physician.

22. In September 2024, Patient D.P. was admitted to the intensive care unit at Renown Hospital, where she was diagnosed with myxedema coma and cellulitis in her left leg. These medical conditions were caused by the cessation of medication treatment with levothyroxine.

COUNT ONE
Unprofessional Conduct by a Pharmacist
(Respondent Kim)

29. As alleged above, Respondent Kim verified prescription no. 343217 for levothyroxine, including two refills. In verifying the prescription, Respondent Kim failed to notice that a pharmaceutical technician in Kentucky had incorrectly entered a duration code into PharMerica's prescription management system, thus causing the system to suppress the automatic refill function.

30. Respondent Kim had a duty to supervise the pharmaceutical technician in Kentucky who performed data entry tasks related to prescription no. 343217.

31. Respondent Kim had a duty to correct the data entry error described above.

32. Respondent Kim had a duty to strictly follow the instructions of patient D.P.'s physician as to the refilling of no. 343217.

33. Respondent Kim performed the above duties in an incompetent, unskillful or negligent manner.

34. Due to Respondent Kim's unprofessional conduct as described above, patient D.P. suffered harm.

38. For said unprofessional conduct, Respondent PharMerica is subject to professional discipline pursuant to NRS 639.210(4) and NAC 639.945.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Camilla Kim and the pharmacy license of Respondent PharMerica.

Respondents PharMerica and Camilla Kim, RPH, hereby file with the Nevada State Board of Pharmacy ("Board"), their Answer and Notice of Defense to the Notice of Intended Action and Accusation ("Accusation") filed on July 24, 2025.

ANSWER TO ACCUSATION

Jurisdiction: Paragraphs 1-2

Paragraph 1: Respondent PharMerica acknowledges that the Board has jurisdiction in this matter as set forth in Paragraph 1.

Paragraph 2: Respondent Kim acknowledges that the Board has jurisdiction in this matter as set forth in Paragraph 2.

Factual Allegations: Paragraphs 3-22

Paragraph 3: Respondent PharMerica acknowledges that it operates a pharmacy located in Reno, Nevada as set forth in Paragraph 3.

Paragraph 4: Respondent Kim acknowledges that she was employed by PharMerica in March 2024 as set forth in Paragraph 4.

Paragraph 5: Respondent PharMerica acknowledges that during the time periods set forth in Paragraph 5, it did dispense prescribed medication to residents of MorningStar Senior Living of Sparks as set forth in Paragraph 5.

Paragraph 6: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 6 to the extent the PharMerica coordinated deliveries of prescribed and dispensed medication to the nursing staff of MorningStar Senior Living.

Paragraph 7: Respondent PharMerica agrees that patient D.P. did receive some medication management services in the time frame noted in Paragraph 7.

Paragraph 8: Respondents are without sufficient personal knowledge to respond to the factual assertions contained in Paragraph 8.

Paragraph 9: Respondent PharMerica agrees with the factual assertions in Paragraph 9 to the extent that patient D.P. received levothyroxine in 2023 through the end of February 2024.

Paragraph 10: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 10 to the extent that a new prescription (no. 343217, the "Prescription") was issued March 6, 2024, by patient D.P.'s physician. However, the directions for the prescription were for one tablet daily for a 90-day duration with three refills, not two refills as noted in Paragraph 10 and further the prescription authorized three refills but did not direct automatic refills of the Prescription.

Paragraph 11: Respondents are without personal knowledge to substantively respond to the factual assertions set forth in Paragraph 11, however Respondents acknowledge that had the Prescription been refilled by patient D.P. as allowed, there would have been approximately twelve months of medication authorized by the physician.

Paragraph 12: Respondent PharMerica acknowledges that it received Prescription no. 343217 electronically.

Paragraph 13: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 13.

Paragraph 14: Based on information and belief, Respondent PharMerica agrees that a PharMerica pharmacy technician would have transcribed the Prescription information into PharMerica's computerized prescription management system.

Paragraph 15: Respondents deny that the pharmacy technician incorrectly entered code "X90D" into the prescription management system. The technician correctly entered the Prescription and directions into the prescription management system; because the Prescription directions included a duration, the prescription management system automatically assigned the code to the Prescription. The prescription management system did not terminate D.P.'s supply of levothyroxine at the end of the initial ninety days; the Prescription was still active and simply needed to be refilled by MorningStar Senior Living.

Paragraph 16: Respondents disagree with the factual assertions contained in Paragraph 16; prescriptions, including prescriptions for "maintenance" medications, often have a duration associated with them.

Paragraph 17: Respondent Kim acknowledges that she verified Prescription no. 343217 before the Prescription was initially dispensed on March 19, 2024.

Paragraph 18: Respondent Kim denies that she failed to notice the duration code and asserts that the Prescription directions included a duration with refills to follow. Nothing indicated that the Prescription was to be automatically refilled. As noted above, the system did not "terminate" the supply of levothyroxine, the Prescription was still active and could be refilled.

Paragraph 19: Respondents deny the factual allegations set forth in Paragraph 19.

Paragraph 20: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 20.

Paragraph 21: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 21.

Paragraph 22: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 22.

Applicable Law: Paragraphs 23-28

Paragraph 23: Respondents agree that Paragraph 23 sufficiently reflects the contents of NRS 639.210(4).

Paragraph 24: Respondents agree that Paragraph 24 sufficiently reflects the contents of NAC 639.945(1)(d).

Paragraph 25: Respondents agree that Paragraph 25 sufficiently reflects the contents of NAC 639.945(1)(i).

Paragraph 26: Respondents agree that Paragraph 26 sufficiently reflects the contents of NAC 639.252(2).

Paragraph 27: Respondents agree that Paragraph 27 sufficiently reflects the contents of NAC 639.918.

Paragraph 28: Respondents agree that Paragraph 28 sufficiently reflects the contents of NRS 639.230(5), NAC 639.702, and NAC 639.945(3).

Count One (Paragraphs 29-35, Respondent Kim

Paragraph 29: Respondent Kim agrees that she verified Prescription no. 343217, which allowed three refills, not two as alleged. However, Respondent Kim denies the remaining allegations contained in Paragraph 29.

Paragraph 30: Respondent Kim does not work in the same location as the pharmacy technician who transcribed the information regarding the Prescription into the PharMerica computerized prescription management system, however Respondent Kim asserts that the technician did not incorrectly input the Prescription into the prescription management system. As described above, the prescription management system grabs the directions of the Prescription for generation of system codes. Regarding Prescription no. 343217, the physician's instructions included a duration and accordingly the system generated the appropriate code.

Paragraph 31: Respondent Kim denies the allegations contained in Paragraph 31 and contends that there was no error.

Paragraph 32: Respondent Kim agrees that she had a duty to strictly follow the instructions of the prescribing physician and that those instructions were indeed followed.

Paragraph 33: Respondent Kim denies the allegations contained in Paragraph 33.

Paragraph 34: Respondent Kim denies the allegations contained in Paragraph 34.

Paragraph 35: Paragraph 35 does not require a response from Respondent Kim.

Count Two (Paragraphs 36-38, Respondent PharMerica):

Paragraph 36: Respondent PharMerica denies the allegations contained in Paragraph 36.

Paragraph 37: Respondent PharMerica agrees it is responsible for Respondent Kim's conduct as an employed pharmacist but again denies that Respondent Kim engaged in unprofessional conduct as set forth in Paragraph 37.

Paragraph 38: Paragraph 38 does not require a substantive response from Respondent PharMerica.

NOTICE OF DEFENSE/MITIGATING INFORMATION

Respondents reserve all legal defenses available to them in this matter.

Respondents further assert that no violation of NRS or NAC Chapters 639 has occurred in this matter. The Prescription was received on March 6, 2024, electronically and was properly entered into the PharMerica computerized prescription management system by a pharmacy technician. The technician appropriately entered the information into the prescription management system, including the duration which was included on the Prescription sent electronically by patient D.P.'s physician. Per the Prescription directions, the prescription management system entered a code of "X90D"; however, that did not terminate the Prescription at the end of 90-days but rather required a refill to be requested. The Prescription, as written, did not direct automatic refills. Respondents are without knowledge of why the nursing staff at MorningStar Senior Living failed to request the refill of levothyroxine, however Respondents assert that neither Respondent PharMerica nor Respondent Kim violated NRS/NAC Chapter 639 as alleged.

Respectfully submitted this 29th of August, 2025.

Paragraph 31: Dr. Arora denies the factual allegations contained in Paragraph 31, however he acknowledges that he would respond to patient specific questions posed to him and would review patient records at that time; however this occurred very rarely.

Paragraph 32: Dr. Arora denies the factual allegations contained in Paragraph 32. Dr. Arora was not responsible for the policies and procedures related to the procurement, storage, possession and/or administration of dangerous drugs or controlled substances other than approving

protocols directly related to the provision of medical services. We Treat's compliance department was solely responsible for the policies and protocols otherwise related to dangerous drugs and controlled substances.

Paragraph 33: Dr. Arora denies the allegations set forth in Paragraph 33.

Paragraph 34: Dr. Arora denies the allegations set forth in Paragraph 34.

Paragraph 35: Dr. Arora denies the allegations set forth in Paragraph 35.

Paragraph 36: Dr. Arora denies the allegations set forth in Paragraph 36.

Paragraph 37: Dr. Arora denies the allegations set forth in Paragraph 37 as he was not involved in, nor responsible for the receipt, possession storage, and distribution of dangerous drugs or controlled substances at Youth, Inc.

Applicable Law: Paragraphs 38-55

Paragraph 38-55: Respondents acknowledge that Paragraphs 38-55 accurately reflect the basic substance of the statutes and regulations cited therein.

Counts: Paragraphs 56-91

Count One (Paragraphs 56-61): Dr. Arora generally denies the allegations set forth in Count One in Paragraphs 56-61. Dr. Arora did not permit Youth, Inc. or any of its personnel to order any dangerous drugs from any manufacturer or supplier not licensed in Nevada. As discussed herein, Dr. Arora's duties for Youth, Inc. were limited to the review and authorization of protocols related to medical procedures. While Youth, Inc. was authorized to order supplies and dangerous drugs under Dr. Arora's credentials, this was to be done in accordance with policies and protocols developed and approved by We Treat's compliance department. To the best of Dr. Arora's knowledge, no client of We Treat was authorized to order or received dangerous drugs or other supplies from unlicensed suppliers/manufacturers.

Count Two (Paragraphs 62-68): Dr. Arora generally denies all allegations set forth in Count Two in Paragraphs 62-68. Further Dr. Arora asserts that a practice which orders, receives, and stores dangerous drugs is not engaging in the practice of pharmacy as alleged. If indeed this was accurate, every medical practice or facility that orders, receives and stores drugs for administration and/or dispensing, would be required to hold a pharmacy license with the Board; that is not currently a requirement and NRS 639.0124(1)(a) is inappropriately applied here.

Count Three (Paragraphs 69-74): Dr. Arora generally denies the allegations set forth in Count Three in Paragraphs 69-74. Again, as discussed herein, Dr. Arora's duties for Youth, Inc. were limited and did not include the development or approval of any protocols or procedures related to the procurement or storage of dangerous drugs. Dr. Arora's medical service protocols did not allow for the reuse of single use vials and any reuse of single use vials on the part of Youth, Inc. personnel would have been done without the knowledge of Dr. Arora and he did not aid or abet any violation of NAC 639.050(2).

Count Four (Paragraphs 75-81): Respondents Gifford, McIntyre, and Jaggard all generally deny the allegations set forth in Count Four in Paragraphs 75-81. Respondents Gifford, McIntyre, and Jaggard, worked for We Treat, not Youth, Inc. Respondents' duties for Youth, Inc. were limited to conducting medical clearance reviews for patients and if cleared, the patient was authorized for treatment pursuant to approved medical protocols. None of the named respondents were responsible for supervising the staff of Youth, Inc. and would have had no knowledge of unauthorized reuse of single use vials by any personnel associated with Youth, Inc.

Count Five (Paragraphs 82-87): Respondents Gifford, McIntyre, and Jaggard all generally deny the allegations set forth in Count Five in Paragraphs 75-81. The administration of dangerous drugs to patients is not the practice of pharmacy as defined by NRS 639.0124(1)(a) and

accordingly Respondents could not have aided or abetted in the violation of said statute. Again, as discussed above, should the Board take the position that the administration of a dangerous drug constitutes the practice of pharmacy, all practices and facilities at which any drug is administered would be required to hold a registration as a pharmacy with the Board which is not currently required.

Count Six (Paragraphs 88-91): Respondents Gifford, McIntyre, and Jaggard all generally deny the allegations set forth in Count Six in Paragraphs 88-91.

NOTICE OF DEFENSE/MITIGATING INFORMATION

In regard to Respondent Arora, Dr. Arora stresses that his involvement with We Treat was limited as medical director. The term "medical director" is not defined under Nevada law and there is no legal precedent for what the duties of a medical director must consist of. Dr. Arora functioned as a medical director per the duties he had as a contractor for We Treat, LLC, which consisted solely of the review and authorization of protocols for medical services offered at practices contracted with We Treat and he was required to be available for consultations regarding specific patient questions as needed. The medical protocols authorized by Dr. Arora included standing orders for the administration of certain dangerous drugs and for the prescription of certain controlled substances. It should be noted that Dr. Arora never authorized the administration of controlled substances at Youth, Inc., or any other practice for which he provided services under We Treat and to his knowledge, no controlled substances were stored on-site at Youth, Inc.

We Treat's compliance department was responsible for the development and authorization of all other policies and protocols, including those related to the procurement, receipt, and storage of dangerous drugs. Dr. Arora was advised by We Treat that all policies and protocols were reviewed and vetted for compliance with the laws in each individual state in which We Treat had

clients. Dr. Arora had no reason to doubt the assurances made by We Treat that the policies and protocols for Youth, Inc. were in compliance with Nevada law.

In regard to Respondents Gifford, McIntyre, and Jaggard, all three were employees/contractors with We Treat during the times in question. Their duties were to provide medical clearance reviews for patients wishing to receive services at practices which were contracted with We Treat and if cleared, authorize treatment to be provide pursuant to previously approved medical protocols. Respondents had no duties related to the oversight or supervision of any practice served by We Treat. Respondents would be notified through a proprietary platform that a patient required a medical clearance evaluation at practices which received services from We Treat and would be given access to the patient records through the We Treat platform and would either clear the patient for treatment or deny treatment[1]. Each clinic had individual protocols which would be followed by Respondents. Respondents were informed by We Treat that policies related to requirements for providing medical clearance for patients was vetted by its compliance department and all protocols were in compliance with state laws; Respondents had no reason to question the representations of We Treat.

Respondent Gifford estimates that she performed very few medical clearance evaluations for Youth, Inc. through the We Treat platform. Respondent McIntyre estimates that she did approximately two medical clearance evaluations for Youth, Inc. Respondent Jaggard estimates that she did a maximum of ten to fifteen medical clearance evaluations for Youth, Inc.

---

[1] We Treat practitioners only performed medical clearance evaluations for patients in states in which they were licensed.

All Respondents deny having violated NRS and/or NAC Chapters 453, 454, or 639. Further Respondents reserve all legal defenses available to them should this matter proceed to a hearing.

Respectfully submitted this 15th day of August, 2025.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through its Senior General Counsel, Gregory L. Zunino, and Respondent Sean Arora, M.D. ("Respondent"), by and through his attorney, Lyn Beggs, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent timely responded to the Accusation by the filing of an Answer through his legal counsel.

4. Respondent acknowledges that he understands the terms of this Stipulation and Proposed Order ("Stipulation"), and he has executed it knowingly and voluntarily after consulting with counsel.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, NRS Chapter 453, the Nevada Controlled Substances Act, and NRS Chapter 639, the Nevada Pharmacy Act.

6. Conditioned on the acceptance of this Stipulation by the Board and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby freely and voluntarily waives his rights to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

7. As to Count One and Court Three of the Accusation, Respondent denies that he had the requisite knowledge of events to have committed the violations of law as stated therein. Regarding Count Two of the Accusation, Respondent disputes the characterization that he assisted or abetted in the "practice of pharmacy," but he acknowledges and admits that that Board staff prosecuting this case could present sufficient evidence at an administrative hearing, to establish a factual basis for the claim that he assisted or abetted in the unauthorized possession and administration of a dangerous drug, such that his conduct was contrary to the public interest, to wit:

A. Respondent, a physician, served as the medical director for Youth, Inc., a medical spa located at 691 Sierra Rose Drive in Reno, Nevada, through his contracted duties with We Treat, LLC.

B. During Respondent's tenure as medical director, Respondent was based in Seattle Washington, and he did not visit the spa's location at 691 Sierra Rose Drive.

C. During Respondent's tenure as medical director, Youth Inc.'s owner and/or employees stored and possessed prescription drugs at times when no practitioners[1] were physically present

[1] As used herein, "practitioner" has the meaning ascribed to it in NRS 453.126, NRS 454.00958, and NRS 639.0125.

at the spa's location at 691 Sierra Rose Drive and without the direct authorization of Respondent.

D. During Respondent's tenure as the medical director, Youth Inc.'s owner and/or employees administered injectable prescription drugs at times when no practitioners were physically present at the spa's location at 691 Sierra Rose Drive.

8. Now, therefore, to resolve the allegations stated in Count Two of the Accusation as described herein without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent accepts this Stipulation as a public reprimand.

B. Respondent agrees to pay an administrative fine of **Five Thousand and 00/100 Dollars ($5,000.00)**, payable by *cashier's check, certified check,* or *money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before May 31, 2026.

C. Respondent shall pay the sum of **Five Hundred and 00/100 Dollars ($500.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this case. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before May 31, 2026.

9. Upon approval of this Stipulation by the Board, Count One and Three of the Accusation shall be dismissed.

10. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 24-509-CS-N. Any failure by Respondent to comply with the terms of this Stipulation may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing him to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If

such a hearing results in the finding of noncompliance by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639 and/or NRS Chapter 453.

11. The Board's Senior General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on April 15, 2026, in Reno, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear at the meeting.

12. The Board may accept this Stipulation, but it has no obligation to accept this Stipulation. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

13. If the Board rejects any part or all of this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hold a contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

14. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the date of entry set forth below.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has personal jurisdiction over Respondent Sean Arora, M.D., ("Respondent Arora"), because Respondent Arora holds a certificate of registration issued by the Board authorizing him to prescribe controlled substances in Nevada. Respondent Arora holds certificate of registration no. CS31476, which was issued by the Board pursuant to NRS 453.226 and 453.231.

2. The Board has personal jurisdiction over Respondent Cassie Gifford, APRN, ("Respondent Gifford"), because Respondent Gifford holds a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs in Nevada. Respondent Gifford holds certificate of

registration no. PR18034, which was issued by the Board pursuant to NRS 639.2351 and NAC 639.850.[1]

3. The Board has personal jurisdiction over Respondent Gabrielle McIntyre, APRN, ("Respondent McIntyre"), because Respondent McIntyre holds a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs in Nevada. Respondent holds certificate of registration no. PR17484, which was issued by the Board pursuant to NRS 639.2351 and NAC 639.850.

4. The Board has personal jurisdiction over Respondent Allison Jaggard, APRN, ("Respondent Jaggard"), because Respondent Jaggard holds a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs in Nevada. Respondent holds certificate of registration no. PR171499, which was issued by the Board pursuant to NRS 639.2351 and NAC 639.850

5. The Board has jurisdiction over the subject matter of this accusation because it alleges violations involving the purchase, receipt, storage, possession, prescribing and/or dispensing of dangerous drugs and controlled substances. As used herein, "dangerous drug" has the meaning ascribed to it in NRS 454.201, and "controlled substance" means a substance listed in NAC 453.510 to NAC 453.550, inclusive, or in 21 CFR Part 1308.

FACTUAL ALLEGATIONS

6. Respondent Arora is a physician licensed by the Nevada State Board of Medical Examiners to practice medicine in Nevada. At all times alleged herein, Respondent Arora was a "practitioner" as that term is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125.

7. Respondent Gifford is an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. At all times alleged herein, Respondent

1. Respondent Gifford formerly held certificate of registration no. CS34942, authorizing her to prescribe controlled substances. Certificate of registration no. CS34942 was not renewed when it came due for renewal on November 1, 2024.

Gifford was a "practitioner" as that term is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125.

8. Respondent McIntyre is an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. At all times alleged herein, Respondent McIntyre was a "practitioner" as that term is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125.

9. Respondent Jaggard is an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. At all times alleged herein, Respondent McIntyre was a "practitioner" as that term is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125.

10. In 2024, Respondent Arora formed a partnership or other business relationship with We Treat, a medical consulting firm based in San Diego, California. We Treat provides consulting services and regulatory compliance advice to medical spas and wellness clinics.

11. We Treat provided consulting services and compliance advice to Youth, Inc. (Youth Inc.), the owner of a medical spa and wellness clinic located at 695 Sierra Rose Drive in Reno, Nevada.

12. We Treat developed a manual of policies, procedures and protocols for use by Youth Inc. Respondent Arora approved these policies, procedures and protocols for use by Youth Inc.

13. Between April 2024 and March 2025, Youth Inc. provided various anti-aging and wellness treatments for its patients. These included cosmetic treatments using botulinum toxin type A and dermal fillers, treatments for weight loss using compounded tirzepatide and semaglutide products, hormone replacement using injectable hormones, and treatment for erectile dysfunction using sildenafil and tadalafil.

14. Between April 2024 and March 2025, Youth Inc. did not lock or otherwise secure the dangerous drugs and/or controlled substances in its possession.

15. In early 2025, Youth Inc. was in possession of stock bottles containing sildenafil, tadalafil, and metformin hydrochloride, all dangerous drugs. Youth Inc.'s representatives claimed that

they were not planning to dispense these drugs until after they had secured a dispensing license issued by the Board.

16. We Treat arranged for Respondent Arora to serve as the "medical director" for Youth Inc., a role that Respondent Arora assumed sometime between April and August 2024.

17. Respondent Arora served as Youth Inc.'s medical director until early 2025.

18. During Respondent Arora's tenure as Youth Inc.'s medical director, Respondent Arora worked and resided in Seattle, Washington. Respondent Arora never visited Youth Inc.'s facility in Reno, Nevada.

19. Sometime between April 2024 and March 2025, Youth Inc. engaged the services of Respondent Gifford, Respondent McIntyre and Respondent Jaggard. Respondent Gifford, Respondent McIntyre, and Respondent Jaggard rarely, if ever, visited Youth Inc.'s facility in Reno, Nevada.

20. In adherence to the policies, procedures and protocols developed by We Treat and approved by Respondent Arora, Respondent Gifford, Respondent McIntyre, and Respondent Jaggard reviewed a prospective patient's medical questionnaire prior to the prospective patient's initial treatment at Youth Inc. Respondent Gifford, Respondent McIntyre, and Respondent Jaggard reviewed these medical questionnaires from a remote location and never saw or spoke to patients prior to their initial treatments at Youth Inc.

21. After reviewing medical questionnaires, and despite not ever seeing the patients in question, Respondent Gifford, Respondent McIntyre, and Respondent Jaggard authorized initial patient treatments calling for the use or administration of dangerous drugs and/or controlled substances.

22. Sometime between April 2024 and March 2025, Youth Inc. employed Maddison Weiss-Frank, a registered nurse. Ms. Weiss-Frank was not an advanced practice registered nurse and was not a "practitioner" as that term is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125.

23. Ms. Weiss-Frank worked under the direction and supervision of Rachel Gonzalez, the co-owner and chief executive officer of Youth Inc. Ms. Gonzalez was not a "practitioner" as that term

is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125. On information and belief, Ms. Gonzalez has no formal medical training.

24. Because there was never a practitioner present at the location, Youth Inc.'s facility at 695 Sierra Rose Drive in Reno, Nevada, was not a location where a registered nurse could lawfully inject a neuromodulator pursuant to NRS 454.217.

25. In adherence to the policies, procedures and protocols developed by We Treat and approved by Respondent Arora, Ms. Weiss-Frank treated patients using prescription drugs and/or controlled substances. Ms. Weiss-Frank did not act under the direction or supervision of a practitioner.

26. In adherence to the policies, procedures and protocols developed by We Treat and approved by Respondent Arora, Ms. Weiss-Frank received, stored, and possessed dangerous drugs and/or controlled substances. Ms. Weiss-Frank did not work under the direction or supervision of a practitioner.

27. In adherence to the policies, procedures and protocols developed by We Treat and approved by Respondent Arora, Ms. Weiss-Frank and/or Ms. Gonzalez ordered and received compounded tirzepatide and semaglutide products from GLP-1 Sciences, LLC, a California manufacturer and/or supplier not licensed to engage in wholesale distribution in Nevada.

28. In adherence to the policies, procedures and protocols developed by We Treat and approved by Respondent Arora, Ms. Weiss-Frank and/or other employees of Youth Inc. injected multiple patients with prescription drugs and/or controlled substances contained within single-use vials.

29. Consistent with the practice described above, Youth Inc. returned single-use vials to stock even after the vials were punctured and therefore rendered unusable for subsequent treatments.

30. As the medical director for Youth Inc., Respondent Arora periodically reviewed purchase invoices and signed for shipments of dangerous drugs and/or controlled substances.

31. As the medical director for Youth Inc., Respondent Arora periodically reviewed patient medical questionnaires and treatment records.

32. As the medical director for Youth Inc., Respondent Arora periodically reviewed Youth Inc.'s policies, procedures and protocols related to the procurement, storage, possession and administration of dangerous drugs and controlled substances.

33. Based upon his knowledge of Youth Inc.'s records and business practices, Respondent Arora knew or should have known that Ms. Weiss-Frank received, stored, and possessed dangerous drugs and/or controlled substances without direction or supervision by a practitioner.

34. Based upon his knowledge of Youth Inc.'s records and business practices, Respondent Arora knew or should have known that Ms. Weiss-Frank treated patients with prescription drugs and/or controlled substances despite not working under the supervision or direction of a practitioner.

35. Based upon his knowledge of Youth Inc.'s records and business practices, Respondent Arora knew or should have known that Ms. Weiss-Frank and/or Ms. Gonzalez ordered and received compounded tirzepatide and semaglutide products from GLP-1 Sciences, LLC, a California manufacturer and/or supplier not licensed to engage in wholesale distribution in Nevada.

36. Based upon his knowledge of Youth Inc.'s records and business practices, Respondent Arora knew or should have known that Ms. Weiss-Frank and/or other employees of Youth Inc. injected multiple patients with prescription drugs and/or controlled substances contained within single-use vials.

37. As Youth Inc.'s medical director, Respondent Arora had a duty to understand Nevada law as it governs the receipt, possession, storage, and distribution of dangerous drugs and controlled substances.

COUNT ONE
Permitting Unlicensed Wholesale Distribution
(Respondent Arora)

56. As alleged above, Respondent Arora served as the medical director for Youth Inc.

57. During Respondent Arora's tenure as medical director, Youth Inc., Rachel Gonzalez, and/or Maddison Weiss-Frank ordered and received compounded tirzepatide and semaglutide products from GLP-1 Sciences, LLC, a California manufacturer and/or supplier not licensed to engage in wholesale distribution in Nevada.

58. As the medical director for Youth Inc., Respondent Arora had a duty to implement policies, procedures and protocols to prevent or discourage purchases from unlicensed distributors such as GLP-1 Sciences, LLC. Respondent failed to implement such policies, procedures and protocols.

59. Given the facts and circumstances alleged above, Respondent Arora permitted the unlicensed wholesale distribution of compounded drug products in violation of NRS 639.100(1).

60. Given the facts and circumstances alleged above, Respondent Arora performed his duties in an incompetent, unskillful, or negligent manner.

We Treat related to medical clearances for patients, policies and protocols and compliance information.

Paragraph 12: Dr. Arora agrees with the factual allegations set forth in Paragraph 12 only to the extent that he reviewed and approved policies and protocols directly related to the provision of certain medical services. Dr. Arora was not involved, nor did he review or approve, policies and procedures related to any other matters involving Youth, Inc.

Paragraph 13: Respondents are without sufficient personal knowledge to respond to the factual allegations contained in Paragraph 13.

Paragraph 19: Respondent's Gifford, McIntyre, and Jaggard deny the factual allegations set forth in Paragraph 19. None of the named Respondents were engaged by Youth, Inc. to provide any services. All three Respondents were employees/independent contractors of We Treat which provided medical clearance screening of patients for Youth, Inc. through Nevada licensed practitioners.

Dr. Arora denies that he ever signed off or approved of any shipments of controlled substances to Youth, Inc. and to his knowledge, no controlled substances were to be received or stored on-site at We Treat.

Paragraph 31: Dr. Arora denies the factual allegations contained in Paragraph 31, however he acknowledges that he would respond to patient specific questions posed to him and would review patient records at that time; however this occurred very rarely.

Paragraph 32: Dr. Arora denies the factual allegations contained in Paragraph 32. Dr. Arora was not responsible for the policies and procedures related to the procurement, storage, possession and/or administration of dangerous drugs or controlled substances other than approving

Applicable Law: Paragraphs 38-55

Paragraph 38-55: Respondents acknowledge that Paragraphs 38-55 accurately reflect the basic substance of the statutes and regulations cited therein.

Counts: Paragraphs 56-91

Count One (Paragraphs 56-61): Dr. Arora generally denies the allegations set forth in Count One in Paragraphs 56-61. Dr. Arora did not permit Youth, Inc. or any of its personnel to order any dangerous drugs from any manufacturer or supplier not licensed in Nevada. As discussed herein, Dr. Arora's duties for Youth, Inc. were limited to the review and authorization of protocols related to medical procedures. While Youth, Inc. was authorized to order supplies and dangerous drugs under Dr. Arora's credentials, this was to be done in accordance with policies and protocols developed and approved by We Treat's compliance department. To the best of Dr. Arora's knowledge, no client of We Treat was authorized to order or received dangerous drugs or other supplies from unlicensed suppliers/manufacturers.

Count Two (Paragraphs 62-68): Dr. Arora generally denies all allegations set forth in Count Two in Paragraphs 62-68. Further Dr. Arora asserts that a practice which orders, receives, and stores dangerous drugs is not engaging in the practice of pharmacy as alleged. If indeed this was accurate, every medical practice or facility that orders, receives and stores drugs for administration and/or dispensing, would be required to hold a pharmacy license with the Board; that is not currently a requirement and NRS 639.0124(1)(a) is inappropriately applied here.

Count Three (Paragraphs 69-74): Dr. Arora generally denies the allegations set forth in Count Three in Paragraphs 69-74. Again, as discussed herein, Dr. Arora's duties for Youth, Inc. were limited and did not include the development or approval of any protocols or procedures related to the procurement or storage of dangerous drugs. Dr. Arora's medical service protocols did not allow for the reuse of single use vials and any reuse of single use vials on the part of Youth, Inc. personnel would have been done without the knowledge of Dr. Arora and he did not aid or abet any violation of NAC 639.050(2).

Count Four (Paragraphs 75-81): Respondents Gifford, McIntyre, and Jaggard all generally deny the allegations set forth in Count Four in Paragraphs 75-81. Respondents Gifford, McIntyre, and Jaggard, worked for We Treat, not Youth, Inc. Respondents' duties for Youth, Inc. were limited to conducting medical clearance reviews for patients and if cleared, the patient was authorized for treatment pursuant to approved medical protocols. None of the named respondents were responsible for supervising the staff of Youth, Inc. and would have had no knowledge of unauthorized reuse of single use vials by any personnel associated with Youth, Inc.

Count Five (Paragraphs 82-87): Respondents Gifford, McIntyre, and Jaggard all generally deny the allegations set forth in Count Five in Paragraphs 75-81. The administration of dangerous drugs to patients is not the practice of pharmacy as defined by NRS 639.0124(1)(a) and

accordingly Respondents could not have aided or abetted in the violation of said statute. Again, as discussed above, should the Board take the position that the administration of a dangerous drug constitutes the practice of pharmacy, all practices and facilities at which any drug is administered would be required to hold a registration as a pharmacy with the Board which is not currently required.

Count Six (Paragraphs 88-91): Respondents Gifford, McIntyre, and Jaggard all generally deny the allegations set forth in Count Six in Paragraphs 88-91.

NOTICE OF DEFENSE/MITIGATING INFORMATION

In regard to Respondent Arora, Dr. Arora stresses that his involvement with We Treat was limited as medical director. The term "medical director" is not defined under Nevada law and there is no legal precedent for what the duties of a medical director must consist of. Dr. Arora functioned as a medical director per the duties he had as a contractor for We Treat, LLC, which consisted solely of the review and authorization of protocols for medical services offered at practices contracted with We Treat and he was required to be available for consultations regarding specific patient questions as needed. The medical protocols authorized by Dr. Arora included standing orders for the administration of certain dangerous drugs and for the prescription of certain controlled substances. It should be noted that Dr. Arora never authorized the administration of controlled substances at Youth, Inc., or any other practice for which he provided services under We Treat and to his knowledge, no controlled substances were stored on-site at Youth, Inc.

We Treat's compliance department was responsible for the development and authorization of all other policies and protocols, including those related to the procurement, receipt, and storage of dangerous drugs. Dr. Arora was advised by We Treat that all policies and protocols were reviewed and vetted for compliance with the laws in each individual state in which We Treat had

clients. Dr. Arora had no reason to doubt the assurances made by We Treat that the policies and protocols for Youth, Inc. were in compliance with Nevada law.

In regard to Respondents Gifford, McIntyre, and Jaggard, all three were employees/contractors with We Treat during the times in question. Their duties were to provide medical clearance reviews for patients wishing to receive services at practices which were contracted with We Treat and if cleared, authorize treatment to be provide pursuant to previously approved medical protocols. Respondents had no duties related to the oversight or supervision of any practice served by We Treat. Respondents would be notified through a proprietary platform that a patient required a medical clearance evaluation at practices which received services from We Treat and would be given access to the patient records through the We Treat platform and would either clear the patient for treatment or deny treatment[1]. Each clinic had individual protocols which would be followed by Respondents. Respondents were informed by We Treat that policies related to requirements for providing medical clearance for patients was vetted by its compliance department and all protocols were in compliance with state laws; Respondents had no reason to question the representations of We Treat.

Respondent Gifford estimates that she performed very few medical clearance evaluations for Youth, Inc. through the We Treat platform. Respondent McIntyre estimates that she did approximately two medical clearance evaluations for Youth, Inc. Respondent Jaggard estimates that she did a maximum of ten to fifteen medical clearance evaluations for Youth, Inc.

---

[1] We Treat practitioners only performed medical clearance evaluations for patients in states in which they were licensed.

All Respondents deny having violated NRS and/or NAC Chapters 453, 454, or 639. Further Respondents reserve all legal defenses available to them should this matter proceed to a hearing.

Respectfully submitted this 15th day of August, 2025.

The Board has personal jurisdiction over Respondent Allison Jaggard, APRN, ("Respondent Jaggard"), because Respondent Jaggard holds a certificate of registration issued by the Board authorizing her to prescribe dangerous drugs in Nevada. Respondent holds certificate of registration no. PR171499, which was issued by the Board pursuant to NRS 639.2351 and NAC 639.850

5. The Board has jurisdiction over the subject matter of this accusation because it alleges violations involving the purchase, receipt, storage, possession, prescribing and/or dispensing of dangerous drugs and controlled substances. As used herein, "dangerous drug" has the meaning ascribed to it in NRS 454.201, and "controlled substance" means a substance listed in NAC 453.510 to NAC 453.550, inclusive, or in 21 CFR Part 1308.

9. Respondent Jaggard is an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. At all times alleged herein, Respondent McIntyre was a "practitioner" as that term is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125.

10. In 2024, Respondent Arora formed a partnership or other business relationship with We Treat, a medical consulting firm based in San Diego, California. We Treat provides consulting services and regulatory compliance advice to medical spas and wellness clinics.

11. We Treat provided consulting services and compliance advice to Youth, Inc. (Youth Inc.), the owner of a medical spa and wellness clinic located at 695 Sierra Rose Drive in Reno, Nevada.

12. We Treat developed a manual of policies, procedures and protocols for use by Youth Inc. Respondent Arora approved these policies, procedures and protocols for use by Youth Inc.

13. Between April 2024 and March 2025, Youth Inc. provided various anti-aging and wellness treatments for its patients. These included cosmetic treatments using botulinum toxin type A and dermal fillers, treatments for weight loss using compounded tirzepatide and semaglutide products, hormone replacement using injectable hormones, and treatment for erectile dysfunction using sildenafil and tadalafil.

14. Between April 2024 and March 2025, Youth Inc. did not lock or otherwise secure the dangerous drugs and/or controlled substances in its possession.

15. In early 2025, Youth Inc. was in possession of stock bottles containing sildenafil, tadalafil, and metformin hydrochloride, all dangerous drugs. Youth Inc.'s representatives claimed that

they were not planning to dispense these drugs until after they had secured a dispensing license issued by the Board.

16. We Treat arranged for Respondent Arora to serve as the "medical director" for Youth Inc., a role that Respondent Arora assumed sometime between April and August 2024.

17. Respondent Arora served as Youth Inc.'s medical director until early 2025.

18. During Respondent Arora's tenure as Youth Inc.'s medical director, Respondent Arora worked and resided in Seattle, Washington. Respondent Arora never visited Youth Inc.'s facility in Reno, Nevada.

19. Sometime between April 2024 and March 2025, Youth Inc. engaged the services of Respondent Gifford, Respondent McIntyre and Respondent Jaggard. Respondent Gifford, Respondent McIntyre, and Respondent Jaggard rarely, if ever, visited Youth Inc.'s facility in Reno, Nevada.

20. 21. After reviewing medical questionnaires, and despite not ever seeing the patients in question, Respondent Gifford, Respondent McIntyre, and Respondent Jaggard authorized initial patient treatments calling for the use or administration of dangerous drugs and/or controlled substances.

22. Sometime between April 2024 and March 2025, Youth Inc. employed Maddison Weiss-Frank, a registered nurse. Ms. Weiss-Frank was not an advanced practice registered nurse and was not a "practitioner" as that term is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125.

is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125. On information and belief, Ms. Gonzalez has no formal medical training.

24. Because there was never a practitioner present at the location, Youth Inc.'s facility at 695 Sierra Rose Drive in Reno, Nevada, was not a location where a registered nurse could lawfully inject a neuromodulator pursuant to NRS 454.217.

25. In adherence to the policies, procedures and protocols developed by We Treat and approved by Respondent Arora, Ms. Weiss-Frank treated patients using prescription drugs and/or controlled substances. Ms. Weiss-Frank did not act under the direction or supervision of a practitioner.

26. In adherence to the policies, procedures and protocols developed by We Treat and approved by Respondent Arora, Ms. Weiss-Frank received, stored, and possessed dangerous drugs and/or controlled substances. Ms. Weiss-Frank did not work under the direction or supervision of a practitioner.

28. In adherence to the policies, procedures and protocols developed by We Treat and approved by Respondent Arora, Ms. Weiss-Frank and/or other employees of Youth Inc. injected multiple patients with prescription drugs and/or controlled substances contained within single-use vials.

29. Consistent with the practice described above, Youth Inc. returned single-use vials to stock even after the vials were punctured and therefore rendered unusable for subsequent treatments.

30. As the medical director for Youth Inc., Respondent Arora periodically reviewed purchase invoices and signed for shipments of dangerous drugs and/or controlled substances.

31. As the medical director for Youth Inc., Respondent Arora periodically reviewed patient medical questionnaires and treatment records.

32. As the medical director for Youth Inc., Respondent Arora periodically reviewed Youth Inc.'s policies, procedures and protocols related to the procurement, storage, possession and administration of dangerous drugs and controlled substances.

34. Based upon his knowledge of Youth Inc.'s records and business practices, Respondent Arora knew or should have known that Ms. Weiss-Frank treated patients with prescription drugs and/or controlled substances despite not working under the supervision or direction of a practitioner.

35. Based upon his knowledge of Youth Inc.'s records and business practices, Respondent Arora knew or should have known that Ms. Weiss-Frank and/or Ms. Gonzalez ordered and received compounded tirzepatide and semaglutide products from GLP-1 Sciences, LLC, a California manufacturer and/or supplier not licensed to engage in wholesale distribution in Nevada.

36. Based upon his knowledge of Youth Inc.'s records and business practices, Respondent Arora knew or should have known that Ms. Weiss-Frank and/or other employees of Youth Inc. injected multiple patients with prescription drugs and/or controlled substances contained within single-use vials.

Paragraph 11: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 11 as to the types of services which were provided to Youth Inc. However, to the best of Respondents' knowledge, Youth Inc. did receive services from

We Treat related to medical clearances for patients, policies and protocols and compliance information.

Paragraph 12: Dr. Arora agrees with the factual allegations set forth in Paragraph 12 only to the extent that he reviewed and approved policies and protocols directly related to the provision of certain medical services. Paragraph 17: Dr. Arora agrees with the factual allegations contained in Paragraph 17 to the extent that he provided services to We Treat until January 2025, services which included acting as medical director for Youth,. Inc., which were limited to the duties set forth in the response to Paragraph 16.

Paragraph 18: Dr. Arora acknowledges that he was based in Seattle, Washington and that his duties for Youth, Inc. did not require him to be physically at Youth, Inc.'s location.

Paragraph 19: Respondent's Gifford, McIntyre, and Jaggard deny the factual allegations set forth in Paragraph 19. None of the named Respondents were engaged by Youth, Inc. to provide any services. All three Respondents were employees/independent contractors of We Treat which provided medical clearance screening of patients for Youth, Inc. through Nevada licensed practitioners.

Paragraph 20: Respondents Gifford, McIntyre, and Jaggard acknowledge that they reviewed and medically cleared patients for treatments performed at Youth, Inc. pursuant to medical protocols reviewed and approved by Dr. Arora and performed these reviews in accordance with policies and protocols developed and approved by We Treat, not Dr. Arora.

Paragraph 21: Respondents Gifford, McIntyre and Jaggard acknowledge that they medically cleared patients, if appropriate, after the review of medical information and authorized treatments to be performed pursuant to protocols approved by Dr. Arora which included standing orders for administration of certain drugs or the issuance of prescriptions pursuant to those protocols. No approved protocols for treatments authorized the administration of controlled substances at Youth, Inc.

Paragraph 30: Dr. Arora acknowledges that he would periodically review orders received for dangerous drugs and would sign, remotely for the same. Drugs were to be stored and accessed in accordance with policies and protocols developed by We Treat; Dr. Arora was not part of the development of those policies and procedures, nor was he asked to review them by We Treat. Dr. Arora denies that he ever signed off or approved of any shipments of controlled substances to Youth, Inc. and to his knowledge, no controlled substances were to be received or stored on-site at We Treat.

Paragraph 31: Dr. Arora denies the factual allegations contained in Paragraph 31, however he acknowledges that he would respond to patient specific questions posed to him and would review patient records at that time; however this occurred very rarely.

Paragraph 32: Dr. Arora denies the factual allegations contained in Paragraph 32. Dr. Arora was not responsible for the policies and procedures related to the procurement, storage, possession and/or administration of dangerous drugs or controlled substances other than approving

Applicable Law: Paragraphs 38-55

Paragraph 38-55: Respondents acknowledge that Paragraphs 38-55 accurately reflect the basic substance of the statutes and regulations cited therein.

Counts: Paragraphs 56-91

Count One (Paragraphs 56-61): Dr. Arora generally denies the allegations set forth in Count One in Paragraphs 56-61. Dr. Arora did not permit Youth, Inc. or any of its personnel to order any dangerous drugs from any manufacturer or supplier not licensed in Nevada. As discussed herein, Dr. Arora's duties for Youth, Inc. were limited to the review and authorization of protocols related to medical procedures. While Youth, Inc. was authorized to order supplies and dangerous drugs under Dr. Arora's credentials, this was to be done in accordance with policies and protocols developed and approved by We Treat's compliance department. To the best of Dr. Arora's knowledge, no client of We Treat was authorized to order or received dangerous drugs or other supplies from unlicensed suppliers/manufacturers.

Count Two (Paragraphs 62-68): Dr. Arora generally denies all allegations set forth in Count Two in Paragraphs 62-68. Further Dr. Arora asserts that a practice which orders, receives, and stores dangerous drugs is not engaging in the practice of pharmacy as alleged. If indeed this was accurate, every medical practice or facility that orders, receives and stores drugs for administration and/or dispensing, would be required to hold a pharmacy license with the Board; that is not currently a requirement and NRS 639.0124(1)(a) is inappropriately applied here.

Count Three (Paragraphs 69-74): Dr. Arora generally denies the allegations set forth in Count Three in Paragraphs 69-74. Again, as discussed herein, Dr. Arora's duties for Youth, Inc. were limited and did not include the development or approval of any protocols or procedures related to the procurement or storage of dangerous drugs. Dr. Arora's medical service protocols did not allow for the reuse of single use vials and any reuse of single use vials on the part of Youth, Inc. personnel would have been done without the knowledge of Dr. Arora and he did not aid or abet any violation of NAC 639.050(2).

Count Four (Paragraphs 75-81): Respondents Gifford, McIntyre, and Jaggard all generally deny the allegations set forth in Count Four in Paragraphs 75-81. Respondents Gifford, McIntyre, and Jaggard, worked for We Treat, not Youth, Inc. Respondents' duties for Youth, Inc. were limited to conducting medical clearance reviews for patients and if cleared, the patient was authorized for treatment pursuant to approved medical protocols. None of the named respondents were responsible for supervising the staff of Youth, Inc. and would have had no knowledge of unauthorized reuse of single use vials by any personnel associated with Youth, Inc.

Count Five (Paragraphs 82-87): Respondents Gifford, McIntyre, and Jaggard all generally deny the allegations set forth in Count Five in Paragraphs 75-81. The administration of dangerous drugs to patients is not the practice of pharmacy as defined by NRS 639.0124(1)(a) and

accordingly Respondents could not have aided or abetted in the violation of said statute. Again, as discussed above, should the Board take the position that the administration of a dangerous drug constitutes the practice of pharmacy, all practices and facilities at which any drug is administered would be required to hold a registration as a pharmacy with the Board which is not currently required.

Count Six (Paragraphs 88-91): Respondents Gifford, McIntyre, and Jaggard all generally deny the allegations set forth in Count Six in Paragraphs 88-91.

NOTICE OF DEFENSE/MITIGATING INFORMATION

In regard to Respondent Arora, Dr. Arora stresses that his involvement with We Treat was limited as medical director. The term "medical director" is not defined under Nevada law and there is no legal precedent for what the duties of a medical director must consist of. Dr. Arora functioned as a medical director per the duties he had as a contractor for We Treat, LLC, which consisted solely of the review and authorization of protocols for medical services offered at practices contracted with We Treat and he was required to be available for consultations regarding specific patient questions as needed. The medical protocols authorized by Dr. Arora included standing orders for the administration of certain dangerous drugs and for the prescription of certain controlled substances. It should be noted that Dr. Arora never authorized the administration of controlled substances at Youth, Inc., or any other practice for which he provided services under We Treat and to his knowledge, no controlled substances were stored on-site at Youth, Inc.

We Treat's compliance department was responsible for the development and authorization of all other policies and protocols, including those related to the procurement, receipt, and storage of dangerous drugs. Dr. Arora was advised by We Treat that all policies and protocols were reviewed and vetted for compliance with the laws in each individual state in which We Treat had

clients. Dr. Arora had no reason to doubt the assurances made by We Treat that the policies and protocols for Youth, Inc. were in compliance with Nevada law.

In regard to Respondents Gifford, McIntyre, and Jaggard, all three were employees/contractors with We Treat during the times in question. Their duties were to provide medical clearance reviews for patients wishing to receive services at practices which were contracted with We Treat and if cleared, authorize treatment to be provide pursuant to previously approved medical protocols. Respondents had no duties related to the oversight or supervision of any practice served by We Treat. Respondents would be notified through a proprietary platform that a patient required a medical clearance evaluation at practices which received services from We Treat and would be given access to the patient records through the We Treat platform and would either clear the patient for treatment or deny treatment[1]. Each clinic had individual protocols which would be followed by Respondents. Respondents were informed by We Treat that policies related to requirements for providing medical clearance for patients was vetted by its compliance department and all protocols were in compliance with state laws; Respondents had no reason to question the representations of We Treat.

Respondent Gifford estimates that she performed very few medical clearance evaluations for Youth, Inc. through the We Treat platform. Respondent McIntyre estimates that she did approximately two medical clearance evaluations for Youth, Inc. Respondent Jaggard estimates that she did a maximum of ten to fifteen medical clearance evaluations for Youth, Inc.

---

[1] We Treat practitioners only performed medical clearance evaluations for patients in states in which they were licensed.

All Respondents deny having violated NRS and/or NAC Chapters 453, 454, or 639. Further Respondents reserve all legal defenses available to them should this matter proceed to a hearing.

Respectfully submitted this 15th day of August, 2025.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has personal jurisdiction over Respondent Sean Arora, M.D., ("Respondent Arora"), because Respondent Arora holds a certificate of registration issued by the Board authorizing him to prescribe controlled substances in Nevada. As used herein, "dangerous drug" has the meaning ascribed to it in NRS 454.201, and "controlled substance" means a substance listed in NAC 453.510 to NAC 453.550, inclusive, or in 21 CFR Part 1308.

FACTUAL ALLEGATIONS

6. Respondent Arora is a physician licensed by the Nevada State Board of Medical Examiners to practice medicine in Nevada. At all times alleged herein, Respondent Arora was a "practitioner" as that term is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125.

7. Respondent Gifford is an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. At all times alleged herein, Respondent

1. Respondent Gifford formerly held certificate of registration no. CS34942, authorizing her to prescribe controlled substances. Certificate of registration no. CS34942 was not renewed when it came due for renewal on November 1, 2024.

Gifford was a "practitioner" as that term is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125.

8. Respondent McIntyre is an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. At all times alleged herein, Respondent McIntyre was a "practitioner" as that term is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125.

9. Respondent Jaggard is an advanced practice registered nurse licensed by the Nevada State Board of Nursing to practice advanced nursing in Nevada. At all times alleged herein, Respondent McIntyre was a "practitioner" as that term is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125.

10. In 2024, Respondent Arora formed a partnership or other business relationship with We Treat, a medical consulting firm based in San Diego, California. We Treat provides consulting services and regulatory compliance advice to medical spas and wellness clinics.

11. We Treat provided consulting services and compliance advice to Youth, Inc. (Youth Inc.), the owner of a medical spa and wellness clinic located at 695 Sierra Rose Drive in Reno, Nevada.

12. We Treat developed a manual of policies, procedures and protocols for use by Youth Inc. Respondent Arora approved these policies, procedures and protocols for use by Youth Inc.

13. Between April 2024 and March 2025, Youth Inc. provided various anti-aging and wellness treatments for its patients. These included cosmetic treatments using botulinum toxin type A and dermal fillers, treatments for weight loss using compounded tirzepatide and semaglutide products, hormone replacement using injectable hormones, and treatment for erectile dysfunction using sildenafil and tadalafil.

14. Between April 2024 and March 2025, Youth Inc. did not lock or otherwise secure the dangerous drugs and/or controlled substances in its possession.

15. In early 2025, Youth Inc. was in possession of stock bottles containing sildenafil, tadalafil, and metformin hydrochloride, all dangerous drugs. Youth Inc.'s representatives claimed that

they were not planning to dispense these drugs until after they had secured a dispensing license issued by the Board.

16. We Treat arranged for Respondent Arora to serve as the "medical director" for Youth Inc., a role that Respondent Arora assumed sometime between April and August 2024.

17. Respondent Arora served as Youth Inc.'s medical director until early 2025.

18. During Respondent Arora's tenure as Youth Inc.'s medical director, Respondent Arora worked and resided in Seattle, Washington. Respondent Arora never visited Youth Inc.'s facility in Reno, Nevada.

19. Sometime between April 2024 and March 2025, Youth Inc. engaged the services of Respondent Gifford, Respondent McIntyre and Respondent Jaggard. Respondent Gifford, Respondent McIntyre, and Respondent Jaggard rarely, if ever, visited Youth Inc.'s facility in Reno, Nevada.

20. In adherence to the policies, procedures and protocols developed by We Treat and approved by Respondent Arora, Respondent Gifford, Respondent McIntyre, and Respondent Jaggard reviewed a prospective patient's medical questionnaire prior to the prospective patient's initial treatment at Youth Inc. Respondent Gifford, Respondent McIntyre, and Respondent Jaggard reviewed these medical questionnaires from a remote location and never saw or spoke to patients prior to their initial treatments at Youth Inc.

21. After reviewing medical questionnaires, and despite not ever seeing the patients in question, Respondent Gifford, Respondent McIntyre, and Respondent Jaggard authorized initial patient treatments calling for the use or administration of dangerous drugs and/or controlled substances.

22. Sometime between April 2024 and March 2025, Youth Inc. employed Maddison Weiss-Frank, a registered nurse. Ms. Weiss-Frank was not an advanced practice registered nurse and was not a "practitioner" as that term is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125.

23. Ms. Weiss-Frank worked under the direction and supervision of Rachel Gonzalez, the co-owner and chief executive officer of Youth Inc. Ms. Gonzalez was not a "practitioner" as that term

is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125. On information and belief, Ms. Gonzalez has no formal medical training.

24. Because there was never a practitioner present at the location, Youth Inc.'s facility at 695 Sierra Rose Drive in Reno, Nevada, was not a location where a registered nurse could lawfully inject a neuromodulator pursuant to NRS 454.217.

25. In adherence to the policies, procedures and protocols developed by We Treat and approved by Respondent Arora, Ms. Weiss-Frank treated patients using prescription drugs and/or controlled substances. Ms. Weiss-Frank did not act under the direction or supervision of a practitioner.

26. In adherence to the policies, procedures and protocols developed by We Treat and approved by Respondent Arora, Ms. Weiss-Frank received, stored, and possessed dangerous drugs and/or controlled substances. Ms. Weiss-Frank did not work under the direction or supervision of a practitioner.

27. In adherence to the policies, procedures and protocols developed by We Treat and approved by Respondent Arora, Ms. Weiss-Frank and/or Ms. Gonzalez ordered and received compounded tirzepatide and semaglutide products from GLP-1 Sciences, LLC, a California manufacturer and/or supplier not licensed to engage in wholesale distribution in Nevada.

28. In adherence to the policies, procedures and protocols developed by We Treat and approved by Respondent Arora, Ms. Weiss-Frank and/or other employees of Youth Inc. injected multiple patients with prescription drugs and/or controlled substances contained within single-use vials.

29. Consistent with the practice described above, Youth Inc. returned single-use vials to stock even after the vials were punctured and therefore rendered unusable for subsequent treatments.

30. As the medical director for Youth Inc., Respondent Arora periodically reviewed purchase invoices and signed for shipments of dangerous drugs and/or controlled substances.

31. As the medical director for Youth Inc., Respondent Arora periodically reviewed patient medical questionnaires and treatment records.

32. As the medical director for Youth Inc., Respondent Arora periodically reviewed Youth Inc.'s policies, procedures and protocols related to the procurement, storage, possession and administration of dangerous drugs and controlled substances.

33. Based upon his knowledge of Youth Inc.'s records and business practices, Respondent Arora knew or should have known that Ms. Weiss-Frank received, stored, and possessed dangerous drugs and/or controlled substances without direction or supervision by a practitioner.

34. Based upon his knowledge of Youth Inc.'s records and business practices, Respondent Arora knew or should have known that Ms. Weiss-Frank treated patients with prescription drugs and/or controlled substances despite not working under the supervision or direction of a practitioner.

35. Based upon his knowledge of Youth Inc.'s records and business practices, Respondent Arora knew or should have known that Ms. Weiss-Frank and/or Ms. Gonzalez ordered and received compounded tirzepatide and semaglutide products from GLP-1 Sciences, LLC, a California manufacturer and/or supplier not licensed to engage in wholesale distribution in Nevada.

36. Based upon his knowledge of Youth Inc.'s records and business practices, Respondent Arora knew or should have known that Ms. Weiss-Frank and/or other employees of Youth Inc. injected multiple patients with prescription drugs and/or controlled substances contained within single-use vials.

Paragraph 5: Respondents acknowledge that the Board has jurisdiction in the matter to the extent that the matter involves dangerous drugs and controlled substances. Dr. Arora acknowledges that the Board has jurisdiction over the allegations pertaining to his acts or omissions to the extent they concern controlled substances.

Paragraph 10: Dr. Arora agrees with the factual allegations set forth in Paragraph 10 only to the extent that he entered into an independent contractor agreement with We Treat, LLC in 2024.

Paragraph 11: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 11 as to the types of services which were provided to Youth Inc. However, to the best of Respondents' knowledge, Youth Inc. did receive services from

We Treat related to medical clearances for patients, policies and protocols and compliance information.

Paragraph 12: Dr. Arora agrees with the factual allegations set forth in Paragraph 12 only to the extent that he reviewed and approved policies and protocols directly related to the provision of certain medical services. Dr. Arora was not involved, nor did he review or approve, policies and procedures related to any other matters involving Youth, Inc.

Paragraph 13: Respondents are without sufficient personal knowledge to respond to the factual allegations contained in Paragraph 13.

Paragraph 14: Respondents are without sufficient personal knowledge to respond to the factual allegations contained in Paragraph 14.

Paragraph 18: Dr. Arora acknowledges that he was based in Seattle, Washington and that his duties for Youth, Inc. did not require him to be physically at Youth, Inc.'s location.

Paragraph 19: Respondent's Gifford, McIntyre, and Jaggard deny the factual allegations set forth in Paragraph 19. None of the named Respondents were engaged by Youth, Inc. to provide any services. All three Respondents were employees/independent contractors of We Treat which provided medical clearance screening of patients for Youth, Inc. through Nevada licensed practitioners.

Paragraph 20: Respondents Gifford, McIntyre, and Jaggard acknowledge that they reviewed and medically cleared patients for treatments performed at Youth, Inc. pursuant to medical protocols reviewed and approved by Dr. Arora and performed these reviews in accordance with policies and protocols developed and approved by We Treat, not Dr. Arora.

Paragraph 21: Respondents Gifford, McIntyre and Jaggard acknowledge that they medically cleared patients, if appropriate, after the review of medical information and authorized treatments to be performed pursuant to protocols approved by Dr. Arora which included standing orders for administration of certain drugs or the issuance of prescriptions pursuant to those protocols. No approved protocols for treatments authorized the administration of controlled substances at Youth, Inc.

Drugs were to be stored and accessed in accordance with policies and protocols developed by We Treat; Dr. Arora was not part of the development of those policies and procedures, nor was he asked to review them by We Treat. Dr. Arora denies that he ever signed off or approved of any shipments of controlled substances to Youth, Inc. and to his knowledge, no controlled substances were to be received or stored on-site at We Treat.

Paragraph 31: Dr. Arora denies the factual allegations contained in Paragraph 31, however he acknowledges that he would respond to patient specific questions posed to him and would review patient records at that time; however this occurred very rarely.

Paragraph 32: Dr. Arora denies the factual allegations contained in Paragraph 32. Dr. Arora was not responsible for the policies and procedures related to the procurement, storage, possession and/or administration of dangerous drugs or controlled substances other than approving

Applicable Law: Paragraphs 38-55

Paragraph 38-55: Respondents acknowledge that Paragraphs 38-55 accurately reflect the basic substance of the statutes and regulations cited therein.

Counts: Paragraphs 56-91

Count One (Paragraphs 56-61): Dr. Arora generally denies the allegations set forth in Count One in Paragraphs 56-61. Dr. Arora did not permit Youth, Inc. or any of its personnel to order any dangerous drugs from any manufacturer or supplier not licensed in Nevada. As discussed herein, Dr. Arora's duties for Youth, Inc. were limited to the review and authorization of protocols related to medical procedures. While Youth, Inc. was authorized to order supplies and dangerous drugs under Dr. Arora's credentials, this was to be done in accordance with policies and protocols developed and approved by We Treat's compliance department. To the best of Dr. Arora's knowledge, no client of We Treat was authorized to order or received dangerous drugs or other supplies from unlicensed suppliers/manufacturers.

Count Two (Paragraphs 62-68): Dr. Arora generally denies all allegations set forth in Count Two in Paragraphs 62-68. Further Dr. Arora asserts that a practice which orders, receives, and stores dangerous drugs is not engaging in the practice of pharmacy as alleged. If indeed this was accurate, every medical practice or facility that orders, receives and stores drugs for administration and/or dispensing, would be required to hold a pharmacy license with the Board; that is not currently a requirement and NRS 639.0124(1)(a) is inappropriately applied here.

Count Three (Paragraphs 69-74): Dr. Arora generally denies the allegations set forth in Count Three in Paragraphs 69-74. Again, as discussed herein, Dr. Arora's duties for Youth, Inc. were limited and did not include the development or approval of any protocols or procedures related to the procurement or storage of dangerous drugs. Dr. Arora's medical service protocols did not allow for the reuse of single use vials and any reuse of single use vials on the part of Youth, Inc. personnel would have been done without the knowledge of Dr. Arora and he did not aid or abet any violation of NAC 639.050(2).

Count Four (Paragraphs 75-81): Respondents Gifford, McIntyre, and Jaggard all generally deny the allegations set forth in Count Four in Paragraphs 75-81. Respondents Gifford, McIntyre, and Jaggard, worked for We Treat, not Youth, Inc. Respondents' duties for Youth, Inc. were limited to conducting medical clearance reviews for patients and if cleared, the patient was authorized for treatment pursuant to approved medical protocols. None of the named respondents were responsible for supervising the staff of Youth, Inc. and would have had no knowledge of unauthorized reuse of single use vials by any personnel associated with Youth, Inc.

Count Five (Paragraphs 82-87): Respondents Gifford, McIntyre, and Jaggard all generally deny the allegations set forth in Count Five in Paragraphs 75-81. The administration of dangerous drugs to patients is not the practice of pharmacy as defined by NRS 639.0124(1)(a) and

accordingly Respondents could not have aided or abetted in the violation of said statute. Again, as discussed above, should the Board take the position that the administration of a dangerous drug constitutes the practice of pharmacy, all practices and facilities at which any drug is administered would be required to hold a registration as a pharmacy with the Board which is not currently required.

Count Six (Paragraphs 88-91): Respondents Gifford, McIntyre, and Jaggard all generally deny the allegations set forth in Count Six in Paragraphs 88-91.

NOTICE OF DEFENSE/MITIGATING INFORMATION

In regard to Respondent Arora, Dr. Arora stresses that his involvement with We Treat was limited as medical director. The term "medical director" is not defined under Nevada law and there is no legal precedent for what the duties of a medical director must consist of. Dr. Arora functioned as a medical director per the duties he had as a contractor for We Treat, LLC, which consisted solely of the review and authorization of protocols for medical services offered at practices contracted with We Treat and he was required to be available for consultations regarding specific patient questions as needed. The medical protocols authorized by Dr. Arora included standing orders for the administration of certain dangerous drugs and for the prescription of certain controlled substances. It should be noted that Dr. Arora never authorized the administration of controlled substances at Youth, Inc., or any other practice for which he provided services under We Treat and to his knowledge, no controlled substances were stored on-site at Youth, Inc.

We Treat's compliance department was responsible for the development and authorization of all other policies and protocols, including those related to the procurement, receipt, and storage of dangerous drugs. Dr. Arora was advised by We Treat that all policies and protocols were reviewed and vetted for compliance with the laws in each individual state in which We Treat had

clients. Dr. Arora had no reason to doubt the assurances made by We Treat that the policies and protocols for Youth, Inc. were in compliance with Nevada law.

In regard to Respondents Gifford, McIntyre, and Jaggard, all three were employees/contractors with We Treat during the times in question. Their duties were to provide medical clearance reviews for patients wishing to receive services at practices which were contracted with We Treat and if cleared, authorize treatment to be provide pursuant to previously approved medical protocols. Respondents had no duties related to the oversight or supervision of any practice served by We Treat. Respondents would be notified through a proprietary platform that a patient required a medical clearance evaluation at practices which received services from We Treat and would be given access to the patient records through the We Treat platform and would either clear the patient for treatment or deny treatment[1]. Each clinic had individual protocols which would be followed by Respondents. Respondents were informed by We Treat that policies related to requirements for providing medical clearance for patients was vetted by its compliance department and all protocols were in compliance with state laws; Respondents had no reason to question the representations of We Treat.

Respondent Gifford estimates that she performed very few medical clearance evaluations for Youth, Inc. through the We Treat platform. Respondent McIntyre estimates that she did approximately two medical clearance evaluations for Youth, Inc. Respondent Jaggard estimates that she did a maximum of ten to fifteen medical clearance evaluations for Youth, Inc.

---

[1] We Treat practitioners only performed medical clearance evaluations for patients in states in which they were licensed.

All Respondents deny having violated NRS and/or NAC Chapters 453, 454, or 639. Further Respondents reserve all legal defenses available to them should this matter proceed to a hearing.

Respectfully submitted this 15th day of August, 2025.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **MICHAEL J. STELLMACHER, PA, Certificate of Registration No. CS21884,** **Respondent.**	**Case No. 24-364-CS-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Michael J. Stellmacher, PA ("Respondent") held a registration issued by the Board, Certificate of Registration No. CS21884.

FACTUAL ALLEGATIONS

2. At all times relevant to this accusation, Respondent has been employed as the medical director of Premier Beauty, LLC, also known as Channel Pro, (Premier Beauty), located at 4555 S. Fort Apache Road, Suite 104, in Las Vegas, Nevada.

3. Since at least December 28, 2023 until present, Joseph Gillis ("Gillis") owned and/or operated Premier Beauty. Since at least May 9, 2024 until present, Betty Dare ("Dare") was listed as the director of Premier Beauty. Gillis and Dare are not Nevada-licensed practitioners as that term is defined in NRS 639.0125 and NRS 453.126.

4. A Board investigation on August 29, 2024 revealed that Respondent permitted Gillis and Dare to have independent access to the medication storage containing dangerous drugs, and to access those medications outside Respondent's presence without Respondent's supervision.

5. Respondent admitted that he was the medical director of Premier Beauty, but that he rarely was on site and stated that he had no patient records. Respondent was not physically on-site at Premier Beauty while Board investigators were there.

6. Respondent permitted Dare to independently access, possess, furnish, and administer dangerous drugs to patients, to provide on-site medical treatment, including the administration of dangerous drugs through injection, specifically tirzepatide, semaglutide powders, and nicotinamide adenine dinucleotide (NAD), without direct practitioner supervision, to patients with whom Respondent had not established a bona fide therapeutic relationship, and for whom Respondent had neither diagnosed nor determined that a dangerous drug was medically necessary.

7. Furthermore, the investigation revealed that these dangerous drugs were purchased from OUISA Pharmacy Corp. (OUISA), located in Spring Hill, Florida; OUISA not licensed as a wholesaler by the Board. The dangerous drugs were labeled as not for patient use.

8. Respondent permitted Gillis to purchase the drug products using the National Provider Identifier (NPI) number of Dr. Jayendrakumar Amin (Amin) and had the products shipped to California. Amin is located in California and does not hold any license or registration with the Board.

9. Premier Beauty's inventory included multiple vials of various injectable drugs intended for distribution in foreign markets and not approved for distribution or use in the United States, including medytox and other forms of botulinum toxins, multivitamin injections, and glutathione injections.

10. In at least one instance, Respondent's failure to supervise Dare while she administered tirzepatide to a patient resulted in patient harm. On June 7, 2024, Dare injected patient D.S. with tirzepatide and gave D.S. three more shots to take home with her. D.S. went to the emergency room with injuries from the injection. Respondent was not on site during the injection.

11. On or about February 19, 2025, the Board issued a cease-and-desist order with a citation and fine against Premier Beauty, Gillis, and Dare for unlicensed activity. On or about February 25, 2025, the Board issued a cease-and-desist order with a citation and fine against Amin for unlicensed wholesale activity.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through its General Counsel, Laura M. Tucker, and Respondent Michael J. Stellmacher, PA. ("Respondent"), by and through his counsel, Anthony Cortez, hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent acknowledges that he understands the terms of this Stipulation and Proposed Order ("Stipulation"), and he has executed it knowingly and voluntarily.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, NRS Chapter 453, the Nevada Controlled Substances Act, and NRS Chapter 639, the Nevada Pharmacy Act.

5. Conditioned on the acceptance of this Stipulation by the Board and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this

Stipulation, Respondent hereby freely and voluntarily waives his rights to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

6. Respondent does not contest the allegations stated in Count One, Count Two, Count Three, Count Four, and Count Five of the Accusation, and further admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged therein, to wit:

A. Respondent, a physician assistant, served as the medical director for Premier Beauty, LLC, also known as Channel Pro, (Premier Beauty), a medical spa located at 4555 S. Fort Apache Road, Suite 104, in Las Vegas, Nevada.

B. During Respondent's tenure as medical director, Respondent rarely visited the spa's location at 4555 S. Fort Apache Road, Suite 104.

C. During Respondent's tenure as medical director, Premier Beauty's owner and/or employees stored and possessed dangerous drugs at times when Respondent was not physically present at the spa's location at 4555 S. Fort Apache Road, Suite 104.

D. During Respondent's tenure as the medical director, a Premier Beauty employee administered injectable prescription drugs at times when Respondent was not physically present at the spa's location at 4555 S. Fort Apache Road, Suite 104, to patients with whom Respondent had not established a bona fide therapeutic relationship, and for whom Respondent had neither diagnosed nor determined that a dangerous drug was medically necessary.

E. During Respondent's tenure as medical director, Premier Beauty's owner and/or employees ordered and received dangerous drugs labeled as not for patient use from OUISA Pharmacy Corp., located in Spring Hill, Florida, a wholesaler not licensed to engage in wholesale distribution in Nevada.

F. During Respondent's tenure as medical director, Premier Beauty's inventory included multiple vials of various injectable drugs intended for distribution in foreign markets and not approved for distribution or use in the United States, including medytox and other forms of botulinum toxins, multivitamin injections, and glutathione injections.

7. Now, therefore, to resolve the allegations stated in Count One, Count Two, Count Three, Count Four, and Count Five of the Accusation without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent accepts this Stipulation as a public reprimand.

B. Respondent agrees to pay an administrative fine of **Two Thousand Five Hundred and 00/100 Dollars ($2,500.00)**, payable by *cashier's check, certified check,* or *money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before June 30, 2026.

C. Respondent shall pay the sum of **One Thousand and 00/100 Dollars ($1,000.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this case. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before June 30, 2026.

8. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 24-364-CS-S. Any failure by Respondent to comply with the terms of this Stipulation may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing him to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in the finding of noncompliance by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639 and/or NRS Chapter 453.

9. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on April 15, 2026, in Reno, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear at the meeting.

10. The Board may accept this Stipulation, but it has no obligation to accept this Stipulation. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and

shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

11. If the Board rejects any part or all of this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hold a contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

12. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the date of entry set forth below.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **PHILIP RICH, MD,** **Certificate of Registration No. CS02308,** **Respondent.**	**Case No. 25-021-CS-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter because, at the time of the events alleged herein, Philip Rich, MD (Respondent) held a registration issued by the Board, Certificate of Registration No. CS02308.

FACTUAL ALLEGATIONS

2. Respondent is licensed by the Nevada State Board of Medical Examiners to practice medicine. At the time of the violations alleged herein, Respondent was a "practitioner" as that term is defined at NRS 453.126(1) and 639.0125(1).

3. Since April 4, 1980 through present, Respondent has held a certificate of registration issued by the Board pursuant to NRS 453.226. This certificate of registration authorized Respondent to prescribe controlled substances. Respondent's current certificate of registration was renewed November 1, 2024, and is set to expire October 31, 2026.

4. Respondent has an established account with Nevada's Prescription Monitoring Program (PMP). The account provides Respondent with individual access to the PMP database, a

confidential source of information concerning all prescriptions written in Nevada for controlled substances.

5. Patient S.V. has had a provider/patient relationship with Respondent since 2015. Between June 2020 and June 2025, Patient S.V. received two hundred ten (210) controlled substances prescriptions from twenty-six (26) different prescribers. Respondent prescribed her approximately eighty-five (85) of the prescriptions, including refills.

6. During the relevant timeframe, the first prescription Respondent wrote for Patient S.V. was on October 27, 2021, and the last one was written on January 7, 2025. The prescriptions were for alprazolam (Xanax), zolpidem tartrate (Ambien), daridorexant (Quviviq), temazepam, and diazepam. According to Patient S.V.'s PMP patient utilization report, she was simultaneously prescribed hydrocodone, oxycodone, diazepam, pregabalin, and buprenorphine by other providers while seeing Respondent.

7. Specifically, according to Board records, Respondent wrote fifteen (15) controlled substance prescriptions for Patient S.V. between October 27, 2021 and August 30, 2022, but did not run a PMP patient utilization report on Patient S.V. to evaluate her prescription history during that timeframe or ninety (90) days prior. The first time during the relevant timeframe that Respondent ran a patient utilization report on Patient S.V. was October 5, 2022.

8. Respondent wrote thirteen (13) controlled substance prescriptions for Patient S.V. between January 30, 2023 and January 3, 2024, but did not run a patient utilization report on her during that timeframe or ninety (90) days prior.

9. Respondent wrote four (4) controlled substance prescriptions for Patient S.V. between November 1, 2024 and January 7, 2025, but did not run a patient utilization report on her during that timeframe or ninety (90) days prior. Respondent ran a patient utilization report on Patient S.V. on April 25, 2025.

10. According to the Board's records, between August 21, 2023 and August 12, 2025, Respondent never accessed the PMP database to review his own prescribing activity.

11. Between March 18, 2023 – March 18, 2025 Respondent wrote 13,759 prescriptions for controlled substances, including refills, for 818 unique patients. He conducted a total of 831 patient history queries for 634 unique patients.

APPLICABLE LAW

12. In Nevada, it is unlawful to dispense a controlled substance except as authorized by NRS Chapter 453. NRS 453.321(1)(a). "Dispense" is defined to include the act of prescribing a controlled substance. NRS 453.056.

13. Every practitioner who intends to prescribe controlled substances in Nevada must first apply for and obtain a certificate of registration from the Board. NRS 453.226(1); NRS 453.231(3). The practitioner must renew the certificate of registration on a biennial basis. *Id.* A practitioner who fails to register or renew may be subject to criminal and/or civil penalties for prescribing controlled substances without a certificate of registration. NRS 453.232; NRS 453.553; NRS 453.5531.

14. When a practitioner first obtains a certificate of registration to prescribe controlled substances, the practitioner must enroll in the PMP and complete a course of instruction concerning the use of the PMP database. NRS 453.164(5) & (6); NAC 453.065.

15. A practitioner shall, before issuing an initial prescription for a controlled substance, and at least once every 90 days thereafter for the duration of the course of treatment using the controlled substance, obtain a patient utilization report regarding the patient from the PMP. NRS 639.23507.

16. A practitioner registered with the Board to write prescriptions for controlled substances must access his or her prescriber activity in the PMP at least once every 6 months to review prescriptions issued by the practitioner and to verify for the Board that he or she continues to have access to the PMP. NRS 453.164(7).

17. The Board may revoke or suspend the registration of any practitioner who has violated any Nevada statute or regulation relating to drugs, the manufacture or distribution of drugs, or the practice of pharmacy. NRS 639.210(12).

18. The Board may revoke or suspend the existing registration of any practitioner who has engaged in unprofessional conduct or conduct contrary to the public interest. *See* NRS 639.210(4).

19. A practitioner's conduct is deemed unprofessional and/or contrary to the public interest if the practitioner performs his or her duties in an incompetent, unskillful, or negligent manner. NAC 639.945(1)(i).

20. In addition to or in lieu of revoking or suspending a practitioner's certificate of registration due to any violation described herein, the Board may impose an administrative fine upon the practitioner. The fine may not exceed $10,000 for each offense. NRS 639.255(1)(f) and (3).

COUNT ONE

Unprofessional Conduct/Conduct Contrary to the Public Interest - Noncompliance with Prescription Monitoring Program

21. As alleged above, between October 27, 2021 and August 30, 2022, January 30, 2023 and January 3, 2024, and November 1, 2024 and January 7, 2025, Respondent failed to query the PMP database regarding Patient S.V.'s history of using controlled substances. The PMP database compiles a controlled substance utilization report for any practitioner who makes such a query. The controlled substance utilization report provides the practitioner with evidence as to whether a patient is doctor-shopping and/or abusing controlled substances.

22. As alleged above, between October 27, 2021 and January 7, 2025, Respondent wrote 32 prescriptions for Patient S.V. without reviewing her patient utilization report prior to issuing the prescription or during the course of treatment.

23. As alleged above, between August 21, 2023 and August 12, 2025, Respondent failed to query the PMP database regarding his own prescriber activity. The PMP database

compiles a report of prescribing activity for any practitioner who makes such a query. This allows the practitioner to evaluate whether anyone has fraudulently used the practitioner's credentials to prescribe controlled substances.

24. As alleged above, between March 18, 2023 and March 18, 2025, Respondent wrote 13,759 prescriptions for controlled substances, including refills, for 818 unique patients.

25. By failing to query the PMP database to review Patient S.V.'s utilization report prior to issuing a prescription for a controlled substance and by failing to review his own prescriber activity on a semi-annual basis, as required by NRS 453.164(7) and NRS 639.23507, Respondent performed his duties as the holder of a certificate issued by the Board in an incompetent, unskillful or negligent manner. This violation of law renders his Nevada controlled substance registration inconsistent with the public interest. As alleged above, Respondent's conduct constitutes unprofessional conduct for which the Board may impose administrative discipline. NRS 639.210(4) and (12); NRS 639.255(3), NAC 639.945(1)(i), NRS 453.236(1)(d) and (e), and NRS 453.241(1).

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondent Philip Rich.

DATED this 23rd day of FEBRUARY 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

NRS 233B.121; NRS 233B.127(3); NRS 622A.300(1) and (3). The hearing shall be conducted pursuant to NRS 639.241 through NRS 639.258. NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **LAURA OKI, APRN,** **Certificate of Registration No. CS24180,** **Respondent.**	**Case No. 25-112-CS-A-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Laura Oki, APRN ("Respondent") held a registration issued by the Board, Certificate of Registration No. CS24180.

FACTUAL ALLEGATIONS

2. Respondent is an advanced practice registered nurse (APRN) who has been licensed by the Nevada State Board of Nursing since December 2017. She has been registered to prescribe dangerous drugs and controlled substances since January 7, 2016.

3. As of October 8, 2025, Respondent has not been issued a license to dispense dangerous drugs with the Board as required by NRS 639.23505 and NAC 639.742.

4. From on or about April 23, 2023 until February 18, 2024, Respondent was employed as the medical director of Skin Lab, LLC, (Skin Lab), located at 5362 Sparks Blvd., in Sparks, Nevada.

5. On or about December 18, 2024 until May 31, 2025, Respondent resumed the role of medical director, and Dr. William Clearfield (Clearfield) simultaneously served as the interim

medical director to provide oversight while Respondent completed her clinicals hours to become a Board-certified family nurse practitioner. During that time, both Respondent and Clearfield were responsible for ensuring that Skin Lab complied with Nevada state and federal regulations.

6. On or about June 1, 2025 through the present, Respondent has been employed full-time as medical director of Skin Lab.

7. From on or about April 23, 2023 until February 18, 2024, and on or about December 18, 2024 through the present, Respondent also owned Sparks Women's Wellness, PLLC, which operated with Skin Lab, LLC through a management services agreement.

8. Since at least July 2023, Chanelle Sisia (Sisia) has owned and operated Skin Lab. Sisia is not a Nevada-licensed practitioner as that term is defined in NRS 639.0125 and NRS 453.126.

9. As medical director, Respondent worked with and/or occasionally supervised Cyril Casino (Casino), a registered nurse who also injected customers with botulinum toxin type A and various dermal fillers. Casino is not a Nevada-licensed practitioner as that term is defined in NRS 639.0125 and NRS 453.126.

10. Botulinum toxin type A and injectable dermal fillers are "dangerous drugs" as that term is defined at NRS 454.201.

11. On or about June 3, 2025, Board Investigator Monica Segedy (Segedy) and Inspector Mui Lee (Lee) made a site visit to Skin Lab. During the inspection, Segedy and Lee found that a refrigerator at Skin Lab contained several opened vials of dangerous drugs Botox, Dysport, and Xeomin. Each vial contained the direction "single use only." The vials were dated and initialed by Casino.

12. Skin Lab maintains the vials after initial use in the event the patient returned for a "touch up." None of the vials were marked with a patient's name.

13. Segedy and Lee also found white pouches containing pre-filled syringes of dermal fillers Restylane and Juvéderm. The pouches contained the patient's name, the date of initial treatment, and Casino's initials. Restylane and Juvéderm are single-use only injections.

14. Skin Lab maintains the syringes in the event the patient returned for a "touch up."

15. Segedy and Lee found at least one expired pouch containing a date of March 2025 along with the unopened and unexpired dangerous drugs in the refrigerator.

16. During the timeframe of the inspection and while Respondent was also medical director, Clearfield would come to Skin Lab in the morning before the other Skin Lab employees arrived for work. Clearfield would pre-draw the drugs to be administered that day and place them in the secured refrigerator in the designated drug storage room. Clearfield would then either leave the key in a desk drawer in the front reception desk or give the key to Sisia or Skin Lab employee Meghan Gibson when he left Skin Lab. All Skin Lab employees had access to the desk drawer in the front reception desk, which contained the key to the refrigerator containing the dangerous drugs. This practice continued until at least June 3, 2025 when Respondent took over as sole medical director.

17. From August 2023 and October 2024, Skin Lab dispensed hydroquinone, strengths 4% to 8%, to patients. From August 2023 and February 18, 2024, while Respondent was medical director, Skin Lab dispensed hydroquinone seventeen (17) times.

APPLICABLE LAW

18. Pursuant to NRS 639.898 and NRS 639.100(1), it is unlawful for any person to possess, store, administer and/or dispense dangerous drugs without having secured the appropriate license and/or certificate of registration from the Board.

19. Only those individuals permitted to do so pursuant to NRS 454.213 may possess, store, or administer dangerous drugs.

20. Although a practitioner may administer dangerous drugs within the scope of his or her practice, *see* NRS 454.213, a practitioner may not lawfully dispense dangerous drugs unless

the practitioner registers with the Board as a dispensing practitioner and thereafter complies with all applicable regulations governing dispensing, *see* NRS 454.215(6), NRS 639.23505, and NAC 639.742.

21. "Dispense" means the furnishing of a controlled substance or dangerous drug in any amount greater than that necessary for the present and immediate needs of the ultimate user. NAC 639.450.

22. The Board may suspend or revoke any registration if the holder or applicant: 1) has violated, attempted to violate, assisted, or abetted in the violation of or conspired to violate any of the provisions of NRS chapter 639 or any law or regulation relating to drugs; or 2) is guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4) and (12).

23. Unprofessional conduct includes performing any act, task or operation for which licensure, certification or registration is required without the required license, certificate or registration. NAC 639.945(1)(k). Unprofessional conduct also includes performing any duties as the holder of a license, certificate or registration issued by the Board, or as the owner of a business or an entity licensed by the Board, in an incompetent, unskillful or negligent manner. 26. The sale or delivery or holding or offering for sale any drug that is adulterated is prohibited under Nevada law. NRS 585.520(1). A drug shall be deemed adulterated if it is a drug

recognized in an official compendium and its quality or purity falls below the standard set forth in the compendium. NRS 585.380.

27. The Board may suspend or revoke the registration to dispense a controlled substance if the registrant has committed an act that would render registration inconsistent with the public interest as determined pursuant to that section. NRS 453.236(1)(e). *See also* NRS 453.231(1)(h).

COUNT ONE

Violations of State Law - Failure to Maintain Security of Dangerous Drugs

28. As alleged above, Respondent permitted all employees of Skin Lab to have unrestricted access to the inventory of dangerous drugs at Skin Lab.

29. As alleged above, some of the employees who had access to the inventory of dangerous drugs were not authorized to possess dangerous drugs pursuant to NRS 454.213, did not meet the criteria of an individual permitted access pursuant to NRS 453.375, and/or had access outside of direction of Respondent or another prescribing practitioner.

30. As alleged above, Respondent failed to maintain the security of the dangerous drugs within her possession in violation of NAC 639.898.

NEVADA STATE BOARD OF PHARMACY Petitioner, vs. LAURA OKI, APRN, Certificate of Registration No. CS24180 Respondent.	Case No. 25-112-CS-A-N ANSWER TO NOTICE OF INTENDED ACTION AND ACCUSATION; AND NOTICE OF DEFENSE

Respondent, above named, by and through her attorney, Craig K. Perry of the law firm of Craig K. Perry & Associates, that in answer to the Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, and on advice of counsel, Respondent answers as follows:

1. Respondent admits, denies and alleges, with respect to each paragraph, as follows:

As to paragraphs 1, 2, 3, 4, 5, 6, 7, 10, 14, and 32, Respondent admits the contents.

As to paragraphs 8, 11, 12, 13, 15, 16, 17, Respondent is without sufficient knowledge and therefore denies the contents.

As to paragraphs 18-27 is without sufficient legal knowledge or expertise to confirm agree with how these statutes should be interpreted and therefore denies the allegations.

As to paragraphs 9, 28-31, and 33-43, Respondent denies the allegations.

I hereby declare, under penalty of perjury, that the foregoing answer and notice of defense, and all facts therein stated, are true and correct to the best of my knowledge.

DEFENSES

1. The Respondent's failure to obtain the specific license to dispense as required by NRS 639.23505 and NAC 639.742 was the result of a scrivener's error and an honest administrative mistake. The application forms provided by the Board for "Prescribing" and "Dispensing" are substantially similar in appearance, layout, and nomenclature. Respondent, acting in good faith, downloaded and submitted the incorrect form under the reasonable, albeit mistaken, belief that it encompassed the necessary authorizations for her role.
2. At the time, I responded and attempted to for a dispensing license, Respondent already had a prescribing license from the Board. When she innocently filed the wrong form for dispensing (i.e., the application for prescribing), nobody at the Board of Pharmacy acknowledged she already possessed a prescribing license, had she been notified, she would have immediately cured the defect with the filing of the correct application.
3. At no time did Respondent willfully or intentionally violate the Nevada Nurse Practice Act or the regulations of the Nevada State Board of Pharmacy. Respondent's conduct was at all times transparent; she sought licensure openly, and the resulting deficiency was a product of procedural confusion rather than a conscious disregard for statutory requirements.
4. Respondent was employed in a limited, part-time capacity as a Medical Director, while going to school, with primary administrative and operational oversight vested in a separate, full-time Director who was given complete oversight to supervise all workers. Respondent had no actual or constructive notice of the improper access to, or dispensing of, dangerous drugs by third parties. As a part-time remote or intermittent supervisor, Respondent could not discover these other activities, which occurred outside the scope of her specific delegated duties.

5. To the extent the Board alleges improper dispensing occurred at the facility, such acts were the result of independent, intervening, and superseding actions by third parties over whom the Respondent did not exercise direct day-to-day control. Respondent cannot be held professionally liable for the clandestine or unauthorized acts of others that she neither authorized, encouraged, nor had a reasonable opportunity to prevent given her limited part-time role.
6. At all times relevant to the Accusation, to the best of Respondent's knowledge, there is no evidence of actual harm to any patient resulting from the Respondent's licensure status or her performance as a Medical Director. The technical nature of the licensing deficiency did not impact the quality of care provided or the safety of the public.
7. Respondent has an unblemished record of compliance with statutory requirements until now and has never been disciplined before.
8. Client denies any willful violation of either the Nevada Revised Statutes or Nevada Administrative Code. Any mistakes made were honest mistakes or lack of clarity from the owner of the clinic as to her responsibilities.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **APRIA HEALTHCARE, LLC,** **License No. MP00030,** **Respondent.**	**Case No. 25-138-MP-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Apria Healthcare, LLC (Respondent) held a license by the Board to operate as a medical products provider pursuant to NRS 639.233 and NAC 639.6942.

FACTUAL ALLEGATIONS

2. Respondent, located at 1395 Greg Street in Sparks, Nevada, has been licensed by the Board to sell medical products since 2001.

3. As a licensed medical products provider, Respondent is authorized to sell and/or lease respiratory equipment, including sleep apnea-related treatment devices, to Nevada consumers.

4. On or about June 13, 2024, Patient J.S. was prescribed a CPAP machine by his physician. Patient J.S.'s physician's office sent the CPAP machine prescription to Respondent to be filled.

5. Approximately one month later, Patient J.S. had not received his CPAP machine. When Patient J.S. contacted Respondent to report that he had not yet received his machine, a representative told him that his device had been "lost in transit," and that it would send a new device.

6. On or about July 2024, Patient J.S. began receiving supplies for the CPAP machine, as well as invoices for the use of the device, which he still had not received.

7. During the next several months, Patient J.S. contacted Respondent several times to resolve the issue. Each time he called, he was transferred to the billing department, was placed on hold for long periods of time, and the matter was not resolved.

8. On or about March 24, 2025, Patient J.S. sent a letter to Respondent stating that he had received several invoices for the lease of the CPAP device that he had never received. He demanded that Respondent produce the device within two weeks of the letter.

9. On or about June 13, 2025, Patient J.S. received an invoice from Respondent addressed to a Patient K.P. in Gardnerville, Nevada. The invoice appeared to have been intended for patient K.P. and not Patient J.S.

10. On or about July 8, 2025, Board Investigator Monica Segedy (Segedy) transmitted to Respondent a demand for records concerning the events described above.

11. On or about July 22 and 24, 2025, Segedy attempted to contact Respondent's branch manager, Viliami Helu (Helu), after she had not received a response to the Board's request for records. She was placed on hold for more than 20 minutes each time she called, and Helu did not respond to any of her voice messages.

12. On or about July 24, 2025, Segedy called Respondent's Manager of Licensing and Credentialing in Indianapolis, Indiana, Pat Mahon (Mahon). Mahon contacted Helu on Segedy's behalf. Helu contacted Segedy later that day and stated that he had been investigating what happened with Patient J.S.'s CPAP machine.

13. Helu confirmed that the device had not been delivered to Patient J.S. The only records that Respondent had about Patient J.S.'s device were a copy of the original prescription and a sales agreement dated August 13, 2024 reflecting that Respondent had delivered Patient J.S.'s device. However, Respondent could not confirm delivery because Respondent had not assigned a tracking number to the delivery. Because Respondent's system reflected that the device had been delivered, Patient J.S.'s file had been cleared from the system.

14. Respondent sent a copy of the original prescription and sales agreement to Segedy.

15. Later that day, on or about July 24, 2025, at Helu's direction, Respondent delivered a CPAP machine to Patient J.S. at his home address in Reno, Nevada.

16. From July 2024 until July 2025, Respondent billed and received payments from Patient J.S.'s insurance for the use of and equipment for the CPAP device that had not yet been delivered.

17. As of August 26, 2025, Respondent has not rectified billing issues with Patient J.S.'s insurance company for prior reimbursements related to the undelivered CPAP device and previously delivered CPAP supplies.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **CVS PHARMACY #9586,** **Pharmacy License No. PH01821, and** **MARK PARDINI, RPH,** **Certificate of Registration No. 08849,** **Respondents.**	**CASE NOS. 25-350-PH-N** **25-350-RPH-N** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Mark Pardini, RPh (Pardini), Certificate of Registration No. 08849, was a pharmacist registered with the Board, and Respondent CVS Pharmacy #9586, Pharmacy License No. PH01821, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Pardini is employed as floating pharmacist for CVS Pharmacy, Inc. On the date of the events alleged herein, August 21, 2025, Pardini worked a shift at CVS Pharmacy #9586, located at 55 Damonte Ranch Parkway in Reno.

3. On August 21, 2025, CVS Pharmacy #9586 received a prescription for 120 tablets of 1 mg lorazepam from prescriber P.R. for patient S.L. The CVS Pharmacy computer system designated this prescription no. 1717259.

4. On August 21, 2025, pharmaceutical technician in training Theophilus Akoh (Akoh) filled prescription no. 1717259.

5. When filling prescription no. 1717259, Akoh first scanned the stock bottle to verify the prescription. Akoh then physically poured the medication out evenly on the tray and counted the tablets. CVS Pharmacy #9586's system did not alert Akoh that the wrong medication was scanned.

6. When preparing prescription no. 1717259, Akoh used the CVS accuracy scan technology. Akoh snapped a photographic image of the tablets on the counting tray, then created a digital file that correlated the product image with the product information. He then poured the tablets into an amber vial with the label affixed.

7. On August 21, 2025, using the accuracy scan technology described above, Pardini performed final verification of prescription no. 1717259. Pardini noted that the photo was blurry and that he was unable to recognize that some of the tablets were slightly thicker and had different imprints. Nevertheless, Pardini viewed the digital file, including the product image, and concluded that the prescription had been accurately filled with lorazepam.

8. Pardini did not directly inspect the amber vial or its contents. Had he done so, he would have seen that some of the tablets were actually 5 mg Cytomel. Cytomel is commonly prescribed for hypothyroidism. Patient S.L. has never been prescribed Cytomel.

9. On August 24, 2025, CVS #9586 dispensed prescription no. 1717259.

10. On or about August 26, 2025, patient S.L. went to Renown Urgent Care in Reno complaining of symptoms of sweating, excessive anxiety, shakiness, and loss of appetite. Patient S.L. informed the APRN on duty, Sarah Gentile (Gentile) that she routinely took 1 mg lorazepam and had taken approximately four to six tablets between August 24 and August 26, 2025. Patient S.L. noticed that the consistency and appearance of the tablets appeared different than those she had received in the past.

11. Gentile examined patient S.L.'s medication vial for prescription no. 1717259 by pouring out the contents. Upon examination, Gentile discovered that the vial contained 90 tablets of 1 mg lorazepam and 17 tablets of Cytomel.

12. On or about August 26, 2025, Gentile called and reported the issue to CVS Pharmacy #9586. After an internal investigation, CVS Pharmacy #9586 confirmed that it had dispensed the prescription no. 1717259 with at least seventeen (17) tablets of Cytomel instead of 120 tablets of lorazepam, as prescribed.

13. Patient S.L. ingested between four to six tablets before she noticed the error and experienced sweating, excessive anxiety, shakiness, and loss of appetite.

APPLICABLE LAW

NAC 639.252 and NAC 639.702. Such a pharmacist must verify, among other things, the selection and strength of the drug, the dosage form, and the labeling of the prescription. 1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. The Board and Respondent agreed to delay the date for submitting a Notice of Answer and Defense as the parties pursued settlement negotiations.

4. Respondent acknowledges that it understands the terms of this Stipulation and Proposed Order ("Stipulation"), and that it has executed it knowingly and voluntarily.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative

6. Conditioned on the acceptance of this Stipulation by the Board, and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby freely and voluntarily waives its right to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

7. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in Count Two of the Accusation, *to wit*:

A. As the pharmacy/pharmacy owner at which unprofessional conduct and violations of law alleged occurred, Respondent CVS Pharmacy #9586 is responsible for those violations, including all errors and omissions of employee Mark Pardini and any other pharmacy personnel in the course of erroneously filling and dispensing prescription no. 1717259, and is subject to professional discipline pursuant to NRS 639.230(5), NAC 639.702 and/or NAC 639.945(3).

payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

9. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 25-350-PH-N. However, Respondent understands and acknowledges that its failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

10. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on April 15, 2026, in Reno, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear for the meeting.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the effective date of this Order.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Mark Pardini, RPh (Pardini), Certificate of Registration No. 08849, was a pharmacist registered with the Board, and Respondent CVS Pharmacy #9586, Pharmacy License No. PH01821, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Pardini is employed as floating pharmacist for CVS Pharmacy, Inc. On the date of the events alleged herein, August 21, 2025, Pardini worked a shift at CVS Pharmacy #9586, located at 55 Damonte Ranch Parkway in Reno.

3. On August 21, 2025, CVS Pharmacy #9586 received a prescription for 120 tablets of 1 mg lorazepam from prescriber P.R. for patient S.L. The CVS Pharmacy computer system designated this prescription no. 1717259.

4. On August 21, 2025, pharmaceutical technician in training Theophilus Akoh (Akoh) filled prescription no. 1717259.

5. When filling prescription no. 1717259, Akoh first scanned the stock bottle to verify the prescription. Akoh then physically poured the medication out evenly on the tray and counted the tablets. CVS Pharmacy #9586's system did not alert Akoh that the wrong medication was scanned.

6. When preparing prescription no. 1717259, Akoh used the CVS accuracy scan technology. Akoh snapped a photographic image of the tablets on the counting tray, then created a digital file that correlated the product image with the product information. He then poured the tablets into an amber vial with the label affixed.

7. On August 21, 2025, using the accuracy scan technology described above, Pardini performed final verification of prescription no. 1717259. Pardini noted that the photo was blurry and that he was unable to recognize that some of the tablets were slightly thicker and had different imprints. Nevertheless, Pardini viewed the digital file, including the product image, and concluded that the prescription had been accurately filled with lorazepam.

8. Pardini did not directly inspect the amber vial or its contents. Had he done so, he would have seen that some of the tablets were actually 5 mg Cytomel. Cytomel is commonly prescribed for hypothyroidism. Patient S.L. has never been prescribed Cytomel.

9. On August 24, 2025, CVS #9586 dispensed prescription no. 1717259.

10. On or about August 26, 2025, patient S.L. went to Renown Urgent Care in Reno complaining of symptoms of sweating, excessive anxiety, shakiness, and loss of appetite. Patient S.L. informed the APRN on duty, Sarah Gentile (Gentile) that she routinely took 1 mg lorazepam and had taken approximately four to six tablets between August 24 and August 26, 2025. Patient S.L. noticed that the consistency and appearance of the tablets appeared different than those she had received in the past.

11. Gentile examined patient S.L.'s medication vial for prescription no. 1717259 by pouring out the contents. Upon examination, Gentile discovered that the vial contained 90 tablets of 1 mg lorazepam and 17 tablets of Cytomel.

12. On or about August 26, 2025, Gentile called and reported the issue to CVS Pharmacy #9586. After an internal investigation, CVS Pharmacy #9586 confirmed that it had dispensed the prescription no. 1717259 with at least seventeen (17) tablets of Cytomel instead of 120 tablets of lorazepam, as prescribed.

13. Patient S.L. ingested between four to six tablets before she noticed the error and experienced sweating, excessive anxiety, shakiness, and loss of appetite.

APPLICABLE LAW

14. Unprofessional conduct includes the failure by a registrant to follow strictly the instructions of a practitioner when filling, labeling, and dispensing a prescription. NAC 639.945(1)(d).

15. Unprofessional conduct also includes a registrant or licensee performing duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i).

16. If a pharmaceutical technician performs one or more of the functions necessary to prepare a prescription, the pharmacist supervising the pharmaceutical technician is responsible for the filled prescription. NAC 639.252 and NAC 639.702. Such a pharmacist must verify, among other things, the selection and strength of the drug, the dosage form, and the labeling of the prescription. NAC 639.252(2); *see also* NAC 639.700(6).

17. A pharmaceutical technician may perform one or more of the functions necessary to prepare a prescription only if the supervising pharmacist inspects the final product. NAC 639.245(2) and (4)(c).

18. The Board may suspend or revoke the licenses of any pharmacist who engages in unprofessional conduct or conduct contrary to the public interest, including conduct by non-

pharmacist personnel. NRS 639.210(4); NAC 639.702. Furthermore, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

COUNT ONE

Unprofessional Conduct – Error in Dispensing Prescription

(Respondent Pardini)

19. Pardini violated NAC 639.245(2) and (4)(c), NAC 639.252(2), and NAC 639.700(6) and engaged in unprofessional conduct as defined in NAC 639.945(1)(d) and (i) when he performed final verification for prescription no. 1717259 and failed to observe that the amber vial contained at least seventeen (17) tablets of Cytomel instead of 120 tablets of lorazepam, as prescribed.

20. Having performed his duties in incompetent, unskillful, or negligent manner, as described above, Pardini is subject to discipline pursuant to NRS 639.210(4) and NAC 639.702.

COUNT TWO

Pharmacy/Pharmacy Owner Responsibility

(Respondent CVS Pharmacy #9586)

21. As the pharmacy/pharmacy owner at which the unprofessional conduct and violations of law alleged herein occurred, Respondent CVS Pharmacy #9586 is responsible for those violations, including all errors and omissions of Respondent Pardini and any other pharmacy personnel in the course of erroneously filling and dispensing prescription no. 1717259.

22. Due to the unprofessional conduct of Pardini, and/or other of its employees, CVS Pharmacy #9586 is subject to professional discipline pursuant to NRS 639.230(5), NAC 639.702 and/or NAC 639.945(3).

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through counsel, Laura M. Tucker, Esq., and Mark Pardini, RPH, Certificate of Registration No. 08849, ("Respondent"), hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent acknowledges that he understands the terms of this Stipulation and Proposed Order ("Stipulation"), and that he has executed it knowingly and voluntarily.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, NRS Chapter 639, the Nevada Pharmacy Act, and NRS Chapter 453, the Nevada Uniform Controlled Substances Act.

5. Conditioned on the acceptance of this Stipulation by the Board, and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this

Stipulation, Respondent hereby freely and voluntarily waives his right to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

6. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in Count One of the Accusation, *to wit*:

A. Respondent violated NAC 639.245(2) and (4)(c), NAC 639.252(2), and NAC 639.700(6) and engaged in unprofessional conduct as defined in NAC 639.945(1)(d) and (i) when he performed final verification for prescription no. 1717259 and failed to observe that the amber vial contained at least seventeen (17) tablets of Cytomel instead of 120 tablets of lorazepam, as prescribed.

B. Having performed his duties in an incompetent, unskillful, or negligent manner, as described above, Respondent is subject to discipline pursuant to NRS 639.210(4) and NAC 639.702.

7. Now, therefore, to resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent shall pay an administrative fine of **One Thousand and 00/100 Dollars ($1,000.00)**, payable by *cashier's check, certified check,* or *money order* written to the **"State of Nevada, Office of the Treasurer."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

B. Respondent shall pay the sum of **Five Hundred and 00/100 Dollars ($500.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the **"Nevada State Board of Pharmacy."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

8. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 25-350-RPH-N. However, Respondent understands and acknowledges that his failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

9. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on April 15, 2026, in Reno, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear for the meeting.

10. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

11. If the Board rejects any part or all this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

12. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the effective date of this Order.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **LYFE PHARMACY,** **Pharmacy License No. PH04561, and** **NAZAKAT NIGMATOVA, RPH,** **Certificate of Registration No. 20601,** **Respondents.**	**Case No. 25-360-PH-S** **25-360-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Lyfe Pharmacy, Inc. (Lyfe), License No. PH04561, held a license issued by the Board pursuant to NRS 639.230, authorizing the business to operate as a pharmacy, and Respondent Nazakat Nigmatova, RPh (Nigmatova), Certificate of Registration No. 20601, was a pharmacist registered with the Board.

FACTUAL ALLEGATIONS

2. From February 5, 2024, through February 4, 2026, Lyfe, located at 9280 W. Sunset Road #230, in Las Vegas, held Pharmacy License No. PH04561 authorizing the operation of a pharmacy in compliance with the terms of the new pharmacy application personally submitted by Nigmatova on Lyfe's behalf.

3. Respondent Nigmatova, a registered pharmacist, signed the initial application in her capacity as the president and 100% shareholder of Lyfe.

4. On information and belief, dangerous drugs and controlled substances were received, stored, and dispensed at Lyfe Pharmacy between February 5, 2024, and September 26, 2024.

5. On or about September 26, 2024, without giving prior notice to the Board pursuant to NAC 639.227, Nigmatova ostensibly caused the assets of Lyfe to be sold to Ramy Massoud (Massoud) outside the jurisdiction of the Board. Massoud was not and is not currently licensed by the Board to operate a pharmacy at 9280 W. Sunset Road #230, in Las Vegas, Nevada.

6. Massoud took possession of Lyfe's assets on September 26, 2024, and he began to act at that time as the putative pharmacy owner in control of the premises at 9280 W. Sunset Road #230, in Las Vegas.

7. From September 26, 2024 until January 27, 2026, with putative owner Massoud having assumed control of the assets of the pharmacy, Massoud began, on his own account and without the Board's knowledge or consent, to receive, possess, store, hold for sale, and/or sell controlled substances.

8. On or about January 27, 2026, the Board received notice that agents from the federal Drug Enforcement Administration (DEA) had seized the stock of controlled substances at 9280 W. Sunset Road #230, in Las Vegas, Nevada. The DEA seized the controlled substances because no pharmacy owner was registered with the DEA at that location to prescribe or dispense controlled substances as required by federal law.

9. From September 26, 2024 through February 4, 2026, putative owner Massoud continued, on his own account and without the Board's knowledge or consent, to receive, possess, store, hold for sale, and/or sell dangerous drugs. During that time, Nigmatova did not act as pharmacy owner of Lyfe, and Nigmatova never submitted, and the Board had never approved, a change of ownership application for Lyfe with Massoud as the owner.

10. On or about February 4, 2026, following a Board investigation, Nigmatova surrendered the pharmacy license for Lyfe. Nigmatova did not agree to temporarily assume a managerial role pending licensure of a qualified owner. As a result, Lyfe was closed by the Board.

11. On or about February 4, 2026, the Board secured all drugs and medical records on Lyfe's premises. Lyfe's managing pharmacist volunteered to properly secure the drugs and patient records on site and assist patients to transfer their prescription information to other pharmacies pending new ownership approved by the Board.

APPLICABLE LAW

12. Any person operating a pharmacy within this State shall obtain a license from the Board. NRS 639.230(1). Each license must be issued to a specific person and for a specific location and is not transferable. NRS 639.230(2).

13. The holder of a pharmacy license must file an application for a change of ownership at least 15 days prior to any change involving a transfer of 50 percent or more of the beneficial interest in the pharmacy. NAC 639.227(1). If the Board does not receive an application for change of ownership within the required timeframe, the Board may initiate proceedings to suspend the license to operate the pharmacy. NAC 639.227(3).

14. Pursuant to NRS 639.100(1), it is unlawful for any person to permit to be manufactured, distributed at wholesale, sold or dispensed, any drug, poison, medicine or chemical, or to dispense, or permit to be dispensed, any prescription of a practitioner, unless the person holds the appropriate certificate, license or permit and complies with the regulations adopted by the Board.

15. Aiding or abetting a person not licensed to practice pharmacy in the State of Nevada is unprofessional conduct and conduct contrary to the public interest. NAC 639.945(1)(j).

16. The Board may revoke or suspend the registration of any licensee who has violated, attempted to violate, assisted, or abetted in the violation of, or conspired to violate any of the

provisions of NRS chapter 639 or any state or federal law or regulation relating to drugs, the manufacture or distribution of drugs, or the practice of pharmacy. NRS 639.210(12).

17. The Board may revoke or suspend the registration of any licensee who has engaged in unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

18. Any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in its employ. NAC 639.945(3).

19. In lieu of, or in addition to revoking or suspending a license holder's registration for violating the law or engaging in unprofessional conduct, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

COUNT ONE
Violation of State Regulation – Failure to Submit Change of Ownership
(Respondent Nigmatova)

20. As alleged above, on or about September 26, 2024, without giving prior notice to the Board, Nigmatova ostensibly caused the assets of Lyfe to be sold to Massoud.

21. As the seller, Nigmatova had a legal obligation pursuant to NAC 639.227(1) to file an application for a change of ownership at least 15 days prior to the transfer of the beneficial interest in the pharmacy at 9280 W. Sunset Road #230, in Las Vegas, Nevada.

22. By failing to file an application for change of ownership pursuant to NAC 639.227(1), Nigmatova violated a Nevada regulation relating to the practice of pharmacy.

23. Nigmatova's conduct as alleged above amounts to a violation for which the Board may impose administrative discipline. *See* NRS 639.210(12).

COUNT TWO
Permitting Unlicensed Practice
(Respondent Nigmatova)

24. As alleged above, on or about September 26, 2024, without giving prior notice to the Board, Nigmatova ostensibly caused the assets of Lyfe to be sold to Massoud.

25. When Nigmatova failed to file an application for change of ownership pursuant to NAC 639.227(1), Massoud, the putative new owner of Lyfe, did not legally obtain licensure to

operate the pharmacy. As such, during the relevant time period, Massoud did not hold a license with the Board to engage in the practice of pharmacy in Nevada.

26. As alleged above, during the relevant time period, Massoud, on his own account and without knowledge or consent of the Board, continued to operate the pharmacy, including by continuing to receive, possess, store, hold for sale, and/or sell controlled substances and dangerous drugs, without a license as required by NRS 639.230.

27. By failing to file an application for change of ownership for Lyfe and causing putative owner Massoud, on his own account and without knowledge and consent of the Board, to operate the pharmacy location without an owner licensed by the Board pursuant to NRS 639.230(2), Nigmatova permitted Massoud to engage in unlicensed selling and/or dispensing of drugs in violation of NRS 639.100(1).

28. Respondent's conduct as alleged above amounts to a violation of NRS 639.100, as well as unprofessional conduct as defined by NAC 639.945(1)(j); therefore, the Board may impose administrative discipline. *See* NRS 639.210(4); NRS 639.210(12); NAC 639.945(1)(j).

COUNT THREE
Pharmacy/Pharmacy Owner Responsibility
(Respondent Lyfe Pharmacy)

29. As the pharmacy/pharmacy owner at which the unprofessional conduct and violations of law alleged herein occurred, Lyfe is responsible for those violations, including all errors and omissions of Respondent Nigmatova and any other pharmacy personnel in the course of conduct alleged above.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondents Lyfe Pharmacy, Inc. and Nazakat Nigmatova, RPh.

operate the pharmacy. As such, during the relevant time period, Massoud did not hold a license with the Board to engage in the practice of pharmacy in Nevada.

26. As alleged above, during the relevant time period, Massoud, on his own account and without knowledge or consent of the Board, continued to operate the pharmacy, including by continuing to receive, possess, store, hold for sale, and/or sell controlled substances and dangerous drugs, without a license as required by NRS 639.230.

27. By failing to file an application for change of ownership for Lyfe and causing putative owner Massoud, on his own account and without knowledge and consent of the Board, to operate the pharmacy location without an owner licensed by the Board pursuant to NRS 639.230(2), Nigmatova permitted Massoud to engage in unlicensed selling and/or dispensing of drugs in violation of NRS 639.100(1).

28. Respondent's conduct as alleged above amounts to a violation of NRS 639.100, as well as unprofessional conduct as defined by NAC 639.945(1)(j); therefore, the Board may impose administrative discipline. *See* NRS 639.210(4); NRS 639.210(12); NAC 639.945(1)(j).

(Respondent Lyfe Pharmacy)

29. As the pharmacy/pharmacy owner at which the unprofessional conduct and violations of law alleged herein occurred, Lyfe is responsible for those violations, including all errors and omissions of Respondent Nigmatova and any other pharmacy personnel in the course of conduct alleged above.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondents Lyfe Pharmacy, Inc. and Nazakat Nigmatova, RPh.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Tera Pharmacy (Tera), License No. PH04648, held a license issued by the Board pursuant to NRS 639.230, authorizing the business to operate as a pharmacy, Respondent Nazakat Nigmatova, RPh (Nigmatova), Certificate of Registration No. 20601, was a pharmacist registered with the Board, and Respondent Grace Singson, RPh (Singson), Certificate of Registration No. 24727, was a pharmacist registered with the Board.

FACTUAL ALLEGATIONS

2. From November 21, 2024, through February 4, 2026, Tera, located at 8995 W. Flamingo Road, Suite 120, in Las Vegas, held Pharmacy License No. PH04648 authorizing the

operation of a pharmacy in compliance with the terms of the new pharmacy application personally submitted by Nigmatova on Tera's behalf.

3. Respondent Nigmatova, a registered pharmacist, signed the initial application in her capacity as the president and 100% shareholder of Tera. As stated in the application, Tera initially conducted business under the name Lyfe Pharmacy 2.

4. On or about December 2, 2024, Nigmatova filed an application with the Board to change the pharmacy's name from Lyfe Pharmacy 2 to Tera Pharmacy. The Board's staff approved the application.

5. On or about June 11, 2025, without giving prior notice to the Board pursuant to NAC 639.227, Nigmatova ostensibly caused the assets of Tera to be sold outside the jurisdiction of the Board. The assets of Tera were ostensibly relinquished to a buyer who is not licensed by the Board to operate a pharmacy.

6. On or about September 19, 2025 without giving prior notice to the Board pursuant to NAC 639.227, Nigmatova again ostensibly caused the assets of Tera to be sold outside the jurisdiction of the Board. The assets of Tera were ostensibly relinquished to Mark Mahfouz (Mahfouz), who was not and is not currently licensed by the Board to operate a pharmacy at 8995 W. Flamingo Road, Suite 120.

7. Mahfouz took possession of Tera's assets on September 19, 2025, and he began to act at that time as the putative pharmacy owner in control of the premises at 8995 W. Flamingo Road, Suite 120, in Las Vegas.

8. From September 19, 2025 until January 27, 2026, with putative owner Mahfouz having assumed control of the assets of the pharmacy, Mahfouz began, on his own account and without the Board's knowledge or consent, to receive, possess, store, hold for sale, and/or sell controlled substances.

9. On or about October 16, 2025, Singson notified the Board that she had become managing pharmacist at Tera.

10. On or about November 25, 2025, Board Inspector Leo Basch (Basch) performed an annual inspection of Tera. During the inspection, Basch noted several deficiencies, including:

a. From on or about October 29, 2025 to October 30, 2025, Singson processed at least seven (7) prescriptions for various controlled substances that did not have a quantity indicated on the prescription or a prescriber's signature;

b. On or about October 29, 2025, Singson processed at least one (1) prescription for a controlled substance that did not have the prescriber's signature;

c. On or about November 4, 2025, Singson accepted a transferred prescription for testosterone, a controlled substance, that was missing the days' supply, the address of the pharmacy the prescription was received from, the total number of refills, and the number of refills remaining; and

d. On or about October 22, 2025, a phoned-in prescription was written for multiple medications for one patient and was missing the initials of the pharmacist who took the call. When questioned, Singson stated that she took the prescription over the phone.

11. On or about January 27, 2026, the Board received notice that agents from the federal Drug Enforcement Administration (DEA) had seized the stock of controlled substances at 8995 W. Flamingo Road, Suite 120, in Las Vegas, Nevada. The DEA seized the controlled substances because no pharmacy owner was registered with the DEA at that location to prescribe or dispense controlled substances as required by federal law.

12. From September 19, 2025 through February 4, 2026, putative owner Mahfouz continued, on his own account and without the Board's knowledge or consent, to receive, possess, store, hold for sale, and/or sell dangerous drugs. During that time, Nigmatova did not act as pharmacy owner of Tera, and Nigmatova never submitted, and the Board had never approved, a change of ownership application for Tera with Mahfouz as the owner.

13. On or about February 4, 2026, following a Board investigation, Nigmatova surrendered the pharmacy license for Tera. Nigmatova did not agree to temporarily assume a managerial role pending licensure of a qualified owner. As a result, Tera was closed by the Board.

14. On or about February 4, 2026, the Board secured all drugs and medical records on Tera's premises. On February 5, 2026, Singson volunteered to properly secure the drugs and patient records on site and assist patients to transfer their prescription information to other pharmacies pending new ownership approved by the Board.

APPLICABLE LAW

15. Any person operating a pharmacy within this State shall obtain a license from the Board. NRS 639.230(1). Each license must be issued to a specific person and for a specific location and is not transferable. NRS 639.230(2).

16. The holder of a pharmacy license must file an application for a change of ownership at least 15 days prior to any change involving a transfer of 50 percent or more of the beneficial interest in the pharmacy. NAC 639.227(1). If the Board does not receive an application for change of ownership within the required timeframe, the Board may initiate proceedings to suspend the license to operate the pharmacy. NAC 639.227(3).

17. Pursuant to NRS 639.100(1), it is unlawful for any person to permit to be manufactured, distributed at wholesale, sold or dispensed, any drug, poison, medicine or chemical, or to dispense, or permit to be dispensed, any prescription of a practitioner, unless the person holds the appropriate certificate, license or permit and complies with the regulations adopted by the Board.

18. Aiding or abetting a person not licensed to practice pharmacy in the State of Nevada is unprofessional conduct and conduct contrary to the public interest. NAC 639.945(1)(j).

19. In Nevada, written prescriptions for controlled substances must contain, among other things, the name and signature of the practitioner and the name, strength and quantity of the drug prescribed and the number of days that the drug is to be used, beginning on the day on which the prescription is filled. NRS 639.2353(2). All filled prescriptions must be retained on file for at least two years, and each prescription on file must be personally signed or initialed by the registered pharmacist who filled it. NRS 639.236(2); NAC 639.751.

20. Only a registered pharmacist or a registered pharmaceutical intern acting under the direct supervision of a registered pharmacist may identify, evaluate, and interpret a prescription. NAC 639.700(2). Pharmacists are responsible for verifying prescriptions prepared by pharmaceutical technicians, including, but not limited to the selection and strength of the drug and the dosage form. NAC 639.252(2). Pharmacists also have discretion not to fill a prescription if the prescription does not meet certain standards. NAC 639.752.

21. Performing any duties as the holder of a license, certificate or registration issued by the Board in an incompetent, unskillful, or negligent manner is unprofessional conduct and conduct contrary to the public interest. NAC 639.945(1)(i).

22. The Board may revoke or suspend the registration of any licensee who has violated, attempted to violate, assisted, or abetted in the violation of, or conspired to violate any of the provisions of NRS chapter 639 or any state or federal law or regulation relating to drugs, the manufacture or distribution of drugs, or the practice of pharmacy. NRS 639.210(12).

23. The Board may revoke or suspend the registration of any licensee who has engaged in unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

24. Any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in its employ. NAC 639.945(3).

25. In lieu of, or in addition to revoking or suspending a license holder's registration for violating the law or engaging in unprofessional conduct, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

COUNT ONE

Violation of State Regulation – Failure to Submit Change of Ownership
(Respondent Nigmatova)

26. As alleged above, on or about September 19, 2025, without giving prior notice to the Board, Nigmatova ostensibly caused the assets of Tera to be sold to Mahfouz.

27. As the seller, Nigmatova had a legal obligation pursuant to NAC 639.227(1) to file an application for a change of ownership at least 15 days prior to the transfer of the beneficial interest in the pharmacy at 8995 W. Flamingo Road, Suite 120, in Las Vegas, Nevada.

28. By failing to file an application for change of ownership pursuant to NAC 639.227(1), Nigmatova violated a Nevada regulation relating to the practice of pharmacy.

29. Nigmatova's conduct as alleged above amounts to a violation for which the Board may impose administrative discipline. *See* NRS 639.210(12).

COUNT TWO

Permitting Unlicensed Practice
(Respondent Nigmatova)

30. As alleged above, on or about September 19, 2025, without giving prior notice to the Board, Nigmatova ostensibly caused the assets of Tera to be sold to Mahfouz.

31. When Nigmatova failed to file an application for change of ownership pursuant to NAC 639.227(1), Mahfouz, the putative new owner of Tera, did not legally obtain licensure to operate the pharmacy. As such, during the relevant time period, Mahfouz did not hold a license with the Board to engage in the practice of pharmacy in Nevada.

32. As alleged above, during the relevant time period, Mahfouz, on his own account and without knowledge or consent of the Board, continued to operate the pharmacy, including by continuing to receive, possess, store, hold for sale, and/or sell controlled substances and dangerous drugs, without a license as required by NRS 639.230.

33. By failing to file an application for change of ownership for Tera and causing putative owner Mahfouz, on his own account and without knowledge and consent of the Board, to operate the pharmacy location without an owner licensed by the Board pursuant to NRS

639.230(2), Nigmatova permitted Mahfouz to engage in unlicensed selling and/or dispensing of drugs in violation of NRS 639.100(1).

34. Respondent's conduct as alleged above amounts to a violation of NRS 639.100, as well as unprofessional conduct as defined by NAC 639.945(1)(j); therefore, the Board may impose administrative discipline. *See* NRS 639.210(4); NRS 639.210(12); NAC 639.945(1)(j).

COUNT THREE
Unprofessional Conduct – Performing Duties in a Negligent Manner
(Respondent Singson)

35. As alleged above, between October 22, 2025 to November 4, 2025, Singson, as managing pharmacist at Tera, processed at least ten (10) prescriptions with missing information that is required by Nevada law or regulation. NRS 639.2353(2); NRS 639.236(2); NAC 639.751.

36. As the registered pharmacist on duty, Singson had a duty to verify, evaluate and interpret the prescriptions received at Tera. NAC 639.700(2); NAC 639.252(2); NAC 639.752.

37. By filling prescriptions that were not valid under Nevada law, Signson performed her duties as a licensee in a negligent manner. NAC 639.945(1)(i).

38. Singson's conduct as alleged above amounts to unprofessional conduct as defined by NAC 639.945(1)(i); therefore, the Board may impose administrative discipline. *See* NRS 639.210(4).

COUNT FOUR
Pharmacy/Pharmacy Owner Responsibility
(Respondent Tera Pharmacy)

39. As the pharmacy/pharmacy owner at which the unprofessional conduct and violations of law alleged herein occurred, Tera is responsible for those violations, including all errors and omissions of Respondent Nigmatova and Respondent Singson and any other pharmacy personnel in the course of conduct alleged above.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondents Tera Pharmacy, Nazakat Nigmatova, RPh, and Grace Singson, RPh.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Tera Pharmacy (Tera), License No. PH04648, held a license issued by the Board pursuant to NRS 639.230, authorizing the business to operate as a pharmacy, Respondent Nazakat Nigmatova, RPh (Nigmatova), Certificate of Registration No. 20601, was a pharmacist registered with the Board, and Respondent Grace Singson, RPh (Singson), Certificate of Registration No. 24727, was a pharmacist registered with the Board.

FACTUAL ALLEGATIONS

2. From November 21, 2024, through February 4, 2026, Tera, located at 8995 W. Flamingo Road, Suite 120, in Las Vegas, held Pharmacy License No. PH04648 authorizing the

operation of a pharmacy in compliance with the terms of the new pharmacy application personally submitted by Nigmatova on Tera's behalf.

3. Respondent Nigmatova, a registered pharmacist, signed the initial application in her capacity as the president and 100% shareholder of Tera. As stated in the application, Tera initially conducted business under the name Lyfe Pharmacy 2.

4. On or about December 2, 2024, Nigmatova filed an application with the Board to change the pharmacy's name from Lyfe Pharmacy 2 to Tera Pharmacy. The Board's staff approved the application.

5. On or about June 11, 2025, without giving prior notice to the Board pursuant to NAC 639.227, Nigmatova ostensibly caused the assets of Tera to be sold outside the jurisdiction of the Board. The assets of Tera were ostensibly relinquished to a buyer who is not licensed by the Board to operate a pharmacy.

6. On or about September 19, 2025 without giving prior notice to the Board pursuant to NAC 639.227, Nigmatova again ostensibly caused the assets of Tera to be sold outside the jurisdiction of the Board. The assets of Tera were ostensibly relinquished to Mark Mahfouz (Mahfouz), who was not and is not currently licensed by the Board to operate a pharmacy at 8995 W. Flamingo Road, Suite 120.

7. Mahfouz took possession of Tera's assets on September 19, 2025, and he began to act at that time as the putative pharmacy owner in control of the premises at 8995 W. Flamingo Road, Suite 120, in Las Vegas.

8. From September 19, 2025 until January 27, 2026, with putative owner Mahfouz having assumed control of the assets of the pharmacy, Mahfouz began, on his own account and without the Board's knowledge or consent, to receive, possess, store, hold for sale, and/or sell controlled substances.

9. On or about October 16, 2025, Singson notified the Board that she had become managing pharmacist at Tera.

10. On or about November 25, 2025, Board Inspector Leo Basch (Basch) performed an annual inspection of Tera. During the inspection, Basch noted several deficiencies, including:

a. From on or about October 29, 2025 to October 30, 2025, Singson processed at least seven (7) prescriptions for various controlled substances that did not have a quantity indicated on the prescription or a prescriber's signature;

b. On or about October 29, 2025, Singson processed at least one (1) prescription for a controlled substance that did not have the prescriber's signature;

c. On or about November 4, 2025, Singson accepted a transferred prescription for testosterone, a controlled substance, that was missing the days' supply, the address of the pharmacy the prescription was received from, the total number of refills, and the number of refills remaining; and

d. On or about October 22, 2025, a phoned-in prescription was written for multiple medications for one patient and was missing the initials of the pharmacist who took the call. When questioned, Singson stated that she took the prescription over the phone.

11. On or about January 27, 2026, the Board received notice that agents from the federal Drug Enforcement Administration (DEA) had seized the stock of controlled substances at 8995 W. Flamingo Road, Suite 120, in Las Vegas, Nevada. The DEA seized the controlled substances because no pharmacy owner was registered with the DEA at that location to prescribe or dispense controlled substances as required by federal law.

12. From September 19, 2025 through February 4, 2026, putative owner Mahfouz continued, on his own account and without the Board's knowledge or consent, to receive, possess, store, hold for sale, and/or sell dangerous drugs. During that time, Nigmatova did not act as pharmacy owner of Tera, and Nigmatova never submitted, and the Board had never approved, a change of ownership application for Tera with Mahfouz as the owner.

13. On or about February 4, 2026, following a Board investigation, Nigmatova surrendered the pharmacy license for Tera. Nigmatova did not agree to temporarily assume a managerial role pending licensure of a qualified owner. As a result, Tera was closed by the Board.

14. On or about February 4, 2026, the Board secured all drugs and medical records on Tera's premises. On February 5, 2026, Singson volunteered to properly secure the drugs and patient records on site and assist patients to transfer their prescription information to other pharmacies pending new ownership approved by the Board.

APPLICABLE LAW

15. Any person operating a pharmacy within this State shall obtain a license from the Board. NRS 639.230(1). Each license must be issued to a specific person and for a specific location and is not transferable. NRS 639.230(2).

16. The holder of a pharmacy license must file an application for a change of ownership at least 15 days prior to any change involving a transfer of 50 percent or more of the beneficial interest in the pharmacy. NAC 639.227(1). If the Board does not receive an application for change of ownership within the required timeframe, the Board may initiate proceedings to suspend the license to operate the pharmacy. NAC 639.227(3).

17. Pursuant to NRS 639.100(1), it is unlawful for any person to permit to be manufactured, distributed at wholesale, sold or dispensed, any drug, poison, medicine or chemical, or to dispense, or permit to be dispensed, any prescription of a practitioner, unless the person holds the appropriate certificate, license or permit and complies with the regulations adopted by the Board.

18. Aiding or abetting a person not licensed to practice pharmacy in the State of Nevada is unprofessional conduct and conduct contrary to the public interest. NAC 639.945(1)(j).

19. In Nevada, written prescriptions for controlled substances must contain, among other things, the name and signature of the practitioner and the name, strength and quantity of the drug prescribed and the number of days that the drug is to be used, beginning on the day on which the prescription is filled. NRS 639.2353(2). All filled prescriptions must be retained on file for at least two years, and each prescription on file must be personally signed or initialed by the registered pharmacist who filled it. NRS 639.236(2); NAC 639.751.

20. Only a registered pharmacist or a registered pharmaceutical intern acting under the direct supervision of a registered pharmacist may identify, evaluate, and interpret a prescription. NAC 639.700(2). Pharmacists are responsible for verifying prescriptions prepared by pharmaceutical technicians, including, but not limited to the selection and strength of the drug and the dosage form. NAC 639.252(2). Pharmacists also have discretion not to fill a prescription if the prescription does not meet certain standards. NAC 639.752.

21. Performing any duties as the holder of a license, certificate or registration issued by the Board in an incompetent, unskillful, or negligent manner is unprofessional conduct and conduct contrary to the public interest. NAC 639.945(1)(i).

22. The Board may revoke or suspend the registration of any licensee who has violated, attempted to violate, assisted, or abetted in the violation of, or conspired to violate any of the provisions of NRS chapter 639 or any state or federal law or regulation relating to drugs, the manufacture or distribution of drugs, or the practice of pharmacy. NRS 639.210(12).

23. The Board may revoke or suspend the registration of any licensee who has engaged in unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

24. Any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in its employ. NAC 639.945(3).

25. In lieu of, or in addition to revoking or suspending a license holder's registration for violating the law or engaging in unprofessional conduct, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

COUNT ONE
Violation of State Regulation – Failure to Submit Change of Ownership (Respondent Nigmatova)

26. As alleged above, on or about September 19, 2025, without giving prior notice to the Board, Nigmatova ostensibly caused the assets of Tera to be sold to Mahfouz.

27. As the seller, Nigmatova had a legal obligation pursuant to NAC 639.227(1) to file an application for a change of ownership at least 15 days prior to the transfer of the beneficial interest in the pharmacy at 8995 W. Flamingo Road, Suite 120, in Las Vegas, Nevada.

28. By failing to file an application for change of ownership pursuant to NAC 639.227(1), Nigmatova violated a Nevada regulation relating to the practice of pharmacy.

29. Nigmatova's conduct as alleged above amounts to a violation for which the Board may impose administrative discipline. *See* NRS 639.210(12).

COUNT TWO
Permitting Unlicensed Practice (Respondent Nigmatova)

30. As alleged above, on or about September 19, 2025, without giving prior notice to the Board, Nigmatova ostensibly caused the assets of Tera to be sold to Mahfouz.

31. When Nigmatova failed to file an application for change of ownership pursuant to NAC 639.227(1), Mahfouz, the putative new owner of Tera, did not legally obtain licensure to operate the pharmacy. As such, during the relevant time period, Mahfouz did not hold a license with the Board to engage in the practice of pharmacy in Nevada.

32. As alleged above, during the relevant time period, Mahfouz, on his own account and without knowledge or consent of the Board, continued to operate the pharmacy, including by continuing to receive, possess, store, hold for sale, and/or sell controlled substances and dangerous drugs, without a license as required by NRS 639.230.

33. By failing to file an application for change of ownership for Tera and causing putative owner Mahfouz, on his own account and without knowledge and consent of the Board, to operate the pharmacy location without an owner licensed by the Board pursuant to NRS

639.230(2), Nigmatova permitted Mahfouz to engage in unlicensed selling and/or dispensing of drugs in violation of NRS 639.100(1).

34. Respondent's conduct as alleged above amounts to a violation of NRS 639.100, as well as unprofessional conduct as defined by NAC 639.945(1)(j); therefore, the Board may impose administrative discipline. *See* NRS 639.210(4); NRS 639.210(12); NAC 639.945(1)(j).

COUNT THREE
Unprofessional Conduct – Performing Duties in a Negligent Manner
(Respondent Singson)

35. As alleged above, between October 22, 2025 to November 4, 2025, Singson, as managing pharmacist at Tera, processed at least ten (10) prescriptions with missing information that is required by Nevada law or regulation. NRS 639.2353(2); NRS 639.236(2); NAC 639.751.

36. As the registered pharmacist on duty, Singson had a duty to verify, evaluate and interpret the prescriptions received at Tera. NAC 639.700(2); NAC 639.252(2); NAC 639.752.

37. By filling prescriptions that were not valid under Nevada law, Signson performed her duties as a licensee in a negligent manner. NAC 639.945(1)(i).

38. Singson's conduct as alleged above amounts to unprofessional conduct as defined by NAC 639.945(1)(i); therefore, the Board may impose administrative discipline. *See* NRS 639.210(4).

COUNT FOUR
Pharmacy/Pharmacy Owner Responsibility
(Respondent Tera Pharmacy)

39. As the pharmacy/pharmacy owner at which the unprofessional conduct and violations of law alleged herein occurred, Tera is responsible for those violations, including all errors and omissions of Respondent Nigmatova and Respondent Singson and any other pharmacy personnel in the course of conduct alleged above.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondents Tera Pharmacy, Nazakat Nigmatova, RPh, and Grace Singson, RPh.

Re: CEASE-AND-DESIST ORDER (Case No. 26-092-PTT-N)

Dear Gonzalez:

The Nevada State Board of Pharmacy (Board) has determined that you falsely represented to the Board on your 2023 application for registration as a pharmaceutical technician in training that you are a high school graduate or the equivalent as required by NAC 639.242(1)(B), and you do not qualify to hold Certificate of Registration No. PT28532.
