Subject: Anodyne DME Application

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Good Morning Kristy,

Safal has informed me that you require a list of our officers and directors to complete our registration as DME provider in Nevada.
I am please to inform you that I am 100% owner and sole shareholder of Anodyne, Inc., a Minnesota Subchapter S Corporation.
Additionally, I am the only corporate officer, serving as both the CEO and the President. We have no other Corporate Officers.

I hope that this is sufficient information for you to approve Anodyne as a registered DME in your state and give us the opportunity to
distribute the Felix, a peripheral nerve stimulation (PNS) device. for patients afflicted with Essential Tremor.

By the way, sadly, Safal is currently intending to return to his home country of Nepal in April so he is transitioning his workload over to me
during the interim. Please reach out to me if you have any questions, require additional documentation or if I can be of assistance to you in any way.

Thank you in advance for your help with this.

My best to you.

To whom this may concern:

Anodyne is making application to distribute Durable Medical Equipment (DME) within the boundaries of Nevada. In fulfillment of the requirement to provide notification of home state licensure I submit that there are no specific licensure requirements to distribute DME in Minnesota The requirements in Minnesota include being a state In-Network provider (MN Provider ID# 402263900) and the submission of a DMEPOS Surety Bond which is evidenced by virtue of our standing as a Medicare accredited provider for DME (enclosed). I am including a copy of fulfillment of these requirements in the accompanying packet.

For your reference Anodyne is interested in distributing a revolutionary device for control and management of Essential Tremors (ET). The Felix NeuroAI™ Just received the PDAC reference and offers tremendous hope for many that currently suffer from ET.

Should you have any questions or require additional information do not hesitate to reach out to me.

Thank you very much.

Re: **MDEG Application**

Please accept this letter as a written explanation of historical adverse actions involving Orthofix US LLC ("Orthofix") and an overview of its Compliance program and on-going commitment to fostering a culture of ethical behavior.

Historical Events

In December 2012, Orthofix pled guilty in a Massachusetts federal district court to obstructing a federal audit. As a result, Orthofix entered into a settlement agreement with the Department of Justice ("the DOJ Settlement").

The DOJ Settlement and plea arose out of a 2009 industry-wide investigation led by the U.S. Attorney's Office for the District of Massachusetts ("USAO") into the marketing and sale of bone growth stimulators. Orthofix fully cooperated with the investigation and, in 2012, Orthofix and the USAO reached a joint resolution. Orthofix admitted that during a June 2008 Medicare audit, it failed to disclose that some sales representatives in its Spinal Regeneration business unit improperly completed Medicare forms (i.e., in most instances the sales representatives were completing portions of the form that are required to be completed by a physician or a member of the physician's staff). As part of the resolution, Orthofix pled guilty to one felony count of obstruction of a federal audit. Orthofix was fined, received a five-year probation, entered into a civil settlement with the USAO and entered into a 5-year corporate integrity agreement ("CIA") with the HHS Office of Inspector General ("HHS-OIG"). The CIA imposed certain reporting and compliance obligations on Orthofix, its directors, officers and employees through June 2017. Orthofix completed its probationary period without incident and satisfied all obligations under its CIA, allowing it to timely expire in accordance with its terms in 2017. At all times, Orthofix was permitted to continue its participation in all federal and state health care programs.

Commitment to Compliance

As with many hospitals, pharmaceutical makers and medical device manufacturers, the last several years have proved to be a transformative time for Orthofix. Orthofix has adopted and implemented many controls and practices that have become standard in the healthcare industry to detect and prevent fraud and abuse. Additionally, Orthofix specifically adopted measures to address the conduct that led to the DOJ Settlement. Among other things, Orthofix focused on hiring individuals at all levels of its business, including senior leadership, who embrace a culture of ethical behavior and conduct that complies with applicable healthcare laws. Individuals who did not exemplify these values were exited from the company, including several mid and senior level employees. Orthofix implemented a system of claims audits and monitoring aimed at identifying errors, analyzing root causes, and strengthening controls. Orthofix trains its employees and distributors on health care compliance and the principles outlined in the AdvaMed Code (an industry code of conduct written, adopted and implemented by a society of medical device manufacturers). Orthofix has implemented

and maintained a compliance program that aligns with traditional guidance issued by the Department of Justice and HHS-OIG, which includes policies and procedures on appropriate interactions with healthcare professionals, a dedicated helpline to receive concerns and questions from employees and patients, and routine testing and monitoring of activities involving health care professionals and claims submissions. Orthofix created a stand-alone Compliance Department, led by a Chief Ethics and Compliance Officer who reports directly to the Chief Executive Officer as well as the Compliance Committee of the Board of Directors. Today, the role of Compliance is deeply embedded at all levels of the company.

Conclusion

In recognition of Orthofix's commitment to corporate responsibility and its extensive corrective measures before and after the DOJ Settlement, HHS-OIG, which oversees the Medicare and Medicaid programs – continues to permit Orthofix to participate in Medicare and other federal and state health care programs. Countless private insurers likewise continue to include Orthofix as a participating provider given Orthofix's stringent compliance controls and the benefit its products provide to their patients. Orthofix also maintains active Board of Pharmacy or equivalent licenses in every state in which licenses are required – including several that have examined the DOJ Settlement in detail and specifically determined that continued licensure is appropriate. Likewise, Orthofix has active state permits in every state where such permits are required. Finally, it has a long-standing history of being an accredited provider of durable medical equipment ("DME") by the Accreditation Commission for Health Care.

I provide this overview of Orthofix's 2012 conviction and resulting CIA to help you understand the factual context of these historical events. I share how the company implemented safeguards to mitigate past mistakes and prevent and detect wrongdoing in the future to illustrate that Orthofix continues to do its part to promote a culture of integrity and compliance - not just to instill confidence in Orthofix and its products, but to ensure physicians, patients and their loved ones can place their trust in the medical device industry as a whole. I respectfully ask that Orthofix be permitted to participate and provide covered services to your members. Should it be helpful to provide additional explanation, I would be glad to do so.

Respectfully submitted,

Re: Completion of Corporate Integrity Agreement Requirements

Dear Ms. Mason:

Based on our review of the information provided in Orthofix's fifth Annual Report, it appears that Orthofix was in compliance with the terms of the Corporate Integrity Agreement (CIA) between the Office of Inspector General (OIG) of the Department of Health and Human Services and Orthofix during the fifth annual reporting period.

The five-year term of Orthofix's CIA has now concluded. During the term of the CIA, Orthofix submitted reports on the status of its compliance activities for each of the five reporting periods.

This acknowledgement that Orthofix has satisfied its CIA requirements is not a determination by the OIG that Orthofix has implemented an effective compliance program. It is Orthofix's responsibility to develop and implement a compliance program that is effective for ensuring compliance with all applicable Federal health care program requirements. The OIG makes no representations in this letter as to Orthofix's practices or conduct that may be the subject of ongoing investigations, if any. Also, our comments do not reflect our assessment of any legal claims that may be made against Orthofix in connection with any ongoing or future investigation.

We recommend that Orthofix continue to incorporate into its operations the compliance program elements that were implemented by Orthofix during the term of its CIA. We also suggest that Orthofix regularly consult the OIG's website in the future for information regarding the OIG's compliance guidance for device manufacturers.

At the next update, Orthofix will be removed from the current listing of Corporate Integrity Agreements posted on the OIG's website.

If you have any questions regarding this letter, please contact me at [redacted]

Sincerely,

Christina K. McGarvey

Dear Mr. Stafford:

I am responding to your inquiry as I supervise the licensure of Florida home medical equipment providers.

Florida Administrative Code (F.A.C.) offers the following exemption from home medical equipment provider licensure:

59A-25.002(2), F.A.C. "Home medical equipment locations that do not require a license: Diabetic monitors and disposable supplies, e.g., diabetic, ostomy, urological and wound care supplies have been identified as equipment and supplies that do not require services as defined in Section 400.925(11), F.S.; therefore, locations that supply these items only will not require a HME license."

You will find this 'Frequently Asked Question' and other useful information on the Agency's website at http://ahca.myflorida.com/MCHQ/Health_Facility_Regulation/Home_Care/Home_Medical_Equipment.shtml. If you need further assistance regarding home medical equipment provider licensure after reviewing this website, please contact Mary Boortz at (850) 412-4403. She is responsible for licensure of home medical equipment providers in your geographic area.

Thank you for your inquiry,

Business Segments

The Company operates its business in four reportable segments: U.S. Pharmaceutical, Prescription Technology Solutions ("RxTS"), Medical-Surgical Solutions, and International.

Our U.S. Pharmaceutical segment distributes branded, generic, specialty, biosimilar and over-the-counter ("OTC") pharmaceutical drugs, and other healthcare-related products in the United States ("U.S."). This segment also provides practice management, technology, clinical support, and business solutions to community-based oncology and other specialty practices. In addition, the segment sells financial, operational, and clinical solutions to pharmacies (retail, hospital, alternate sites) and provides consulting, outsourcing, technological, and other services.

Our RxTS segment helps solve medication access, affordability and adherence challenges for patients by working across healthcare to connect patients, pharmacies, providers, pharmacy benefit managers, health plans, and biopharma companies. RxTS serves our biopharma and life sciences partners, delivering innovative solutions that help people get the medicine they need to live healthier lives. RxTS offers technology services, which includes electronic prior authorization, prescription price transparency, benefit insight, and dispensing support services, in addition to third-party logistics and wholesale distribution support designed to benefit stakeholders.

Our Medical-Surgical Solutions segment provides medical-surgical supply distribution, logistics, and other services to healthcare providers, including physician offices, surgery centers, nursing homes, hospital reference labs, and home health care agencies. We offer more than 245,000 national brand medical-surgical products as well as McKesson's own line of high-quality products through a network of distribution centers in the U.S.

Our International segment provides distribution and services to wholesale, institutional, and retail customers in Canada and Norway where we own, partner, or franchise with retail pharmacies, and support better, safer patient care by delivering vital medicines, supplies, and information technology solutions. During fiscal 2025, we completed the sale of Rexall and Well.ca businesses in Canada. Refer to Financial Note 2, "Business Acquisitions and Divestitures," to the consolidated financial statements included in this Annual Report for more information.

U.S. Pharmaceutical Segment:

Our U.S. Pharmaceutical segment provides distribution and logistics services for branded, generic, specialty, biosimilar, and OTC pharmaceutical drugs along with other healthcare-related products to customers. This business provides solutions and services to pharmacies, hospitals, oncology and other specialty practices, pharmaceutical manufacturers, biopharma partners, physicians, payors, and patients throughout the U.S. We also source generic pharmaceutical drugs through our ClarusONE Sourcing Services LLP joint venture with Walmart Inc. ("ClarusONE").

Our U.S. Pharmaceutical segment operates and serves customers through a network of 27 distribution centers in the U.S., including two strategic redistribution centers. We invest in technology and other systems at all of our distribution centers to enhance safety, reliability, and product availability. For example, we offer McKesson Connect℠, an internet-based ordering system that provides item look-up and real-time inventory availability as well as ordering, purchasing, third-party reconciliation, and account management functionality. We make extensive use of technology as an enabler to ensure customers have the right products at the right time in the right place.

To maximize distribution efficiency and effectiveness, we follow the Six Sigma methodology, which is an analytical approach that emphasizes setting high-quality objectives, collecting data, and analyzing results to a fine degree in order to improve processes, reduce costs, and enhance service accuracy and safety. We provide solutions to our customers including supply management technology, world-class marketing programs, managed care, repackaging products, and services to help them meet their business and quality goals. We continue to implement information systems to help achieve greater consistency and accuracy both internally and for our customers, as well as make investments to increase capacity and automation.

We have four primary customer pharmaceutical distribution channels: (i) retail national accounts, which include national and regional retail chains, food and drug combinations, mail order pharmacies, and mass merchandisers, (ii) community pharmacies and health (formerly described as independent, small, and medium chain retail pharmacies), (iii) institutional healthcare providers such as hospitals, health systems, integrated delivery networks, and long-term care providers, and (iv) oncology, biopharma, and other specialty partners.

Solutions include McKesson Pharmacy Systems, MacroHelix, and Supply Logix, all of which provide innovative software technology and services that support retail pharmacies and hospitals.

Oncology, Biopharma, and Other Specialty Partners:

The U.S. Pharmaceutical segment provides a range of solutions to oncology and other specialty practices and offers community specialists (oncologists, rheumatologists, ophthalmologists, urologists, neurologists, and other specialists) an extensive set of customizable solutions and services designed to strengthen core practice operations, enhance value-based care delivery, and expand their service offering to patients. Community-based physicians in this business have broad flexibility and discretion to select the products and commitment levels that best meet their practice needs. Services in provider solutions include specialty drug distribution, group purchasing organizations ("GPO") like Onmark®, technology solutions, practice consulting services, and vaccine distribution, including our exclusive distributor relationship with the Centers for Disease Control and Prevention's ("CDC") Vaccines for Children program.

This business provides a variety of solutions, including practice operations, healthcare information technology, revenue cycle management and managed care contracting solutions, evidence-based guidelines, and quality measurements to support The U.S. Oncology Network ("USON"), one of the nation's largest networks of physician-led, integrated, community-based oncology practices dedicated to advancing high-quality, evidence-based cancer care. SCRI Oncology, LLC, an oncology research business in which we own a 51% controlling interest, is one of the nation's largest research networks and specializes in enhancing clinical trial access and availability across the country.

This segment includes Ontada®, McKesson's oncology technology and insights business providing software to support the clinical, financial, and operational needs of our oncology practice customers. Ontada also partners with oncology providers and biopharma partners to perform real-world evidence studies, retrospective research, and to provide clinical data insights, advisory solutions and education opportunities.

When we discuss specialty products or services, we consider the following factors: diseases requiring complex treatment regimens such as cancer and rheumatoid arthritis; plasma and biologics products; ongoing clinical monitoring requirements, high-cost, special handling, storage, and delivery requirements and, in some cases, exclusive distribution arrangements. Our use of the term "specialty" may not be comparable to that used by other industry participants, including our competitors.

Prescription Technology Solutions Segment:

Our Prescription Technology Solutions segment works across healthcare to connect patients, pharmacies, providers, pharmacy benefit managers, health plans, and biopharma to deliver medication access solutions that support patients from first prescription fill to ongoing therapy, regardless of their insurance coverage. RxTS has connections with most electronic health record systems, over 50,000 pharmacies, approximately 950,000 providers, most pharmacy benefit managers and health plans, and has supported over 650 biopharma brands representing most therapeutic areas. Through its industry connections and ability to navigate the healthcare ecosystem, RxTS offers innovative solutions created to benefit healthcare stakeholders. Its comprehensive solution suites and technology services span across the entire patient journey, including medication access and affordability, prescription decision support, prescription price transparency, benefit insight and dispensing support services, as well as third-party logistics and wholesale distribution support, to help increase speed to therapy, reduce prescription abandonment, and support improved health outcomes for the patient. In the past year, RxTS helped patients save more than $10 billion on brand and specialty medications, helped to prevent an estimated 12 million prescriptions from being abandoned due to affordability challenges, and helped patients access their medicine more than 100 million times.

Medical-Surgical Solutions Segment:

Our Medical-Surgical Solutions segment delivers medical-supply distribution, logistics, biomedical maintenance, and other services to healthcare providers across the alternate-site spectrum. Our more than 340,000 customers include physician offices, surgery centers, post-acute care facilities, hospital reference labs, and home health agencies. We partner with manufacturers and channel partners to support our key target end-markets, including primary care, extended care, government, and other markets. We distribute medical-surgical supplies (such as gloves, needles, syringes, and wound care products), infusion pumps, laboratory equipment, and pharmaceuticals. Through a network of distribution centers in the U.S., we offer more than 245,000 products from national brand manufacturers and McKesson's own brand of high-quality products. Through the right mix of products and services, we help improve efficiencies, profitability, and compliance. We also never lose focus on helping customers improve patient and business outcomes. We develop customized plans to address the product, operational, and clinical support needs of our customers, including inventory management, reducing administrative burdens, and training and educating clinical staff. We deliver for our customers, so they can deliver and care for their patients. In May 2025, the Company announced its intention to separate this segment into an independent company.

International Segment:

Our International segment includes operations in Canada and Norway. McKesson Canada is one of the largest pharmaceutical wholesale and retail distributors in Canada. The wholesale business delivers products to retail pharmacies, hospitals, long-term care centers, clinics and institutions in Canada through a national network of distribution centers and provides logistics and distribution services for manufacturers.

Beyond wholesale pharmaceutical logistics and distribution, McKesson Canada provides automation and technology solutions to its retail and hospital customers. Additionally, McKesson Canada provides comprehensive specialty health services to Canadians and provides biopharma services to manufacturers, including a national network of specialty pharmacies, personalized patient care and support programs, and INVIVA, Canada's first and largest accredited network of private infusion clinics. McKesson Canada also owns and operates PDCI, Canada's leading market access consultancy, supporting manufacturers as they introduce new products into the Canadian market.

The Canada retail business includes approximately 2,700 banner pharmacies under the IDA®, Guardian®, The Medicine Shoppe®, Remedy'sRx®, Proxim®, and Uniprix® banners. During fiscal 2025, we completed the previously announced transaction to sell our Rexall and Well.ca businesses. This divestiture is further described in Financial Note 2, "Business Acquisitions and Divestitures," to the consolidated financial statements included in this Annual Report.

In July 2021, we announced our intention to exit our businesses in Europe. We divested the majority of our European businesses during fiscal 2022 and fiscal 2023. Our remaining operations in Europe provide distribution and services to wholesale and retail customers in Norway where we own, partner, or franchise with retail pharmacies. We continue to evaluate suitable exit alternatives for our retail and distribution businesses in Norway. Refer to Financial Note 2, "Business Acquisitions and Divestitures," to the consolidated financial statements included in this Annual Report for additional information on our European divestitures.

Investments, Restructuring, Business Combinations, and Divestitures

We invest in new and existing distribution centers to increase scale and capacity, improve efficiency through automation and technology, and enhance regulatory compliance capabilities. Additionally, we invest in data and analytics to support our growth priorities, including artificial intelligence ("AI"). We are in the early stages of exploring potential AI capabilities and related data and analytics across our enterprise to improve productivity and efficiency, as well as enhance our products and services to better support patients, employees, and customers.

We have undertaken additional strategic initiatives in recent years designed to increase operational efficiencies, focus on our core healthcare businesses, execute our business strategy, and enhance our competitive position. These initiatives are detailed in Financial Note 2, "Business Acquisitions and Divestitures," and Financial Note 3, "Restructuring, Impairment, and Related Charges, Net," to the consolidated financial statements included in this Annual Report.

Competition

We operate in highly competitive environments in North America and Norway. In recent years, the healthcare industry has been subject to increasing consolidation. In the pharmaceutical distribution environment in which our U.S. Pharmaceutical and International segments operate, we face strong competition from international, national, regional, and local full-line, short-line, and specialty distributors, service merchandisers, self-warehousing chain drug stores, manufacturers engaged in direct distribution, third-party logistics companies, and large payer organizations. We consider our largest competitors in distribution, wholesaling, and logistics to be Cencora, Inc. and Cardinal Health, Inc.

Our RxTS business experiences substantial competition from many companies, including other biopharma services companies, software services firms, consulting firms, shared service vendors, and internet-based companies with technology applicable to the healthcare industry. Competition in this business varies in size from large to small companies, in geographical coverage, and in scope and breadth of products and services offered.

Our Medical-Surgical Solutions segment experiences competition from a wide range of national and regional medical supply and equipment distributors throughout the U.S.

In addition, we compete with other service providers and healthcare manufacturers, as well as other potential customers of our businesses, which may from time to time decide to develop, for their own internal needs, supply management capabilities that might otherwise be provided by our businesses. We believe that our scale and diversity of product and service offerings are our primary competitive advantages. In all areas, key competitive factors include price, quality of service, breadth of product lines, innovation, adoption of new and evolving technologies, and, in some cases, convenience to the customer.

Patents, Trademarks, Copyrights, and Licenses

McKesson and its subsidiaries hold patents, copyrights, trademarks, and trade secrets related to McKesson products and services. We pursue patent protection for our innovations and obtain copyright protection for our original works of authorship when such protection is advantageous. Through these efforts, we have developed a portfolio of patents and copyrights in the U.S. and worldwide. In addition, we have registered or applied to register certain trademarks and service marks in the U.S. and in foreign countries.

We believe that, in the aggregate, McKesson's confidential information, patents, copyrights, trademarks, and intellectual property licenses are important to its operations and market position, but we do not consider any of our businesses to be dependent upon any one patent, copyright, trademark, or trade secret, or any family or families of the same. We cannot guarantee that our intellectual property portfolio will be sufficient to deter misappropriation, theft, or misuse of our technology, nor that we can successfully enjoin infringers. We periodically receive notices alleging that our products or services infringe on third-party patents and other intellectual property rights. These claims may result in McKesson entering settlement agreements, paying damages, discontinuing use or sale of accused products, or ceasing other activities. While the outcome of any litigation or dispute is inherently uncertain, we do not believe that the resolution of any of these infringement notices would have a material adverse impact on our results of operations.

We hold inbound licenses for certain intellectual property that is used internally, and in some cases, utilized in McKesson's products or services. While in the future it may be necessary to seek or renew licenses relating to various aspects of our products and services, we believe, based upon past experience and industry practice, such licenses generally can be obtained on commercially reasonable terms. We believe our operations as well as our products and services are not materially dependent on any single license or other agreement with any third party.

Human Capital

Everything we do at McKesson begins with our employees, who bring our mission and purpose to life every day. As of March 31, 2025, we had approximately 45,000 employees worldwide, which includes 2,000 part-time employees. We had approximately 36,000 employees in the U.S., 5,000 employees in Canada, and 4,000 employees in the rest of the world. We also supplement our work-force with contractors and/or consultants for certain business projects, processes, and/or operations as demand requires.

Culture and Leadership: One of McKesson's defining characteristics is our strong culture. We take pride in fostering a sense of belonging, finding meaning in our work, and caring for each other, our customers, and all those who depend on us. Our I^{2}CARE values (Integrity, Inclusion, Customer-First, Accountability, Respect, Excellence) and ILEAD leadership behaviors (Inspire, Leverage, Execute, Advance, Develop) are at the core of our daily actions – from how we interact with each other and our customers, to how we make decisions, both big and small. We also offer all employees the opportunity to join employee resource groups ("ERGs"), which are voluntary, employee-led, company-sponsored networks that aim to make a positive impact on our employees' lives. Each ERG is non-exclusive and open to every employee. Our ERGs focus on helping employees make authentic connections, celebrate and learn from each other, showcase leadership skills and find ways to nurture and support belonging and empowerment.

Investment in Employees: We are committed to investing in our employees, so that they, in turn, can focus on furthering our purpose of Advancing Health Outcomes for All®. We offer employees health and wellness benefits focused on physical, mental, and social well-being, savings programs to help prepare them for retirement and flexible work arrangements, and other offerings. We also offer employees regular training, coaching, and 360-degree assessments, and financial assistance programs for higher education opportunities.

We seek to attract and retain the best talent through competitive compensation and pay for performance, while prioritizing recognition of merit and compliance with laws. Our compensation philosophy is rooted in a fair and transparent program that regularly conducts benchmarking to assess market rates for talent, based on geography and other factors.

We solicit employee feedback through annual and mid-year employee opinion surveys, which assesses our employees' levels of engagement, commitment and overall satisfaction using industry benchmarks, and then design action plans to improve those metrics. We also seek feedback on our people leaders through our annual manager quality survey, which is an opportunity for employees to help their managers grow professionally and build valuable leadership skills that help to promote a positive and productive workplace.

Health and Safety: Our security and safety teams employ systems designed to continually monitor our facilities and work environment to help identify and prevent or mitigate risks. This includes having procedures and investing in equipment for both physical and electronic security. Our employees receive specialized training related to their role, work setting, and equipment used in their work environment.

Government Regulation

We operate in many highly regulated environments and are subject to oversight by various federal, state, and local governmental entities in the U.S. and elsewhere. We incur significant expense and make large capital expenditures and investments to enable us to comply with laws and guidance promulgated by governmental entities.

The regulatory framework affecting our business and industry is continuously evolving and influenced by conditions such as public policy developments; shifts in governmental priorities, initiatives, and focus areas, including due to changes in federal, state, and local representation; and varied interpretations of laws and agency rulemaking conventions. These conditions create uncertainties for our business, and we are unable to predict the impact of future changes to the regulatory framework, or any prolonged uncertainty, on our operations and compliance costs.

See "Risk Factors" in Item 1A of Part I below for information regarding material risks associated with our compliance with governmental regulations.

Operational Licenses and Permits; Controlled Substances: We are subject to the operating and security standards of the U.S. Drug Enforcement Administration ("DEA"), the U.S. Food and Drug Administration ("FDA"), the U.S. Department of Health and Human Services ("HHS"), the Centers for Medicare & Medicaid Services ("CMS"), various state boards of pharmacy, state health departments, and comparable agencies in the U.S. and other countries. Certain of our businesses may be required to register for permits and/or licenses with governmental agencies, depending upon the type of operations and location of product development, manufacture, distribution, and sale. For example, we are required to hold valid DEA and state-level registrations and licenses, meet various security and operating standards, and comply with the Controlled Substances Act and its accompanying regulations governing the sale, marketing, packaging, holding, distribution, and disposal of controlled substances. We maintain extensive controlled substance monitoring and reporting programs at considerable expense in order to help us meet those standards.

Government Contracts: Our contracts with governmental entities typically are subject to procurement laws that include socio-economic, employment practices, environmental protection, recordkeeping and accounting, and other requirements. These statutory and regulatory requirements complicate our business and increase our compliance burden. We are subject to audits, investigations, and oversight proceedings about our compliance with contractual and legal requirements.

Healthcare Program Regulation: Federal, state, and local governmental entities in the U.S. and elsewhere continue to strengthen their position on, and scrutiny of, practices that may indicate fraud, waste, and abuse affecting government healthcare programs such as Medicare and Medicaid. Our relationships with pharmaceutical and medical-surgical product manufacturers, healthcare providers, and other companies and individuals, as well as our provision of products and services to governmental entities, subject our business to statutes, regulations, and government guidance that are intended to prevent fraud and abuse. Among other things, those laws: (1) prohibit persons from soliciting, offering, receiving, or paying any remuneration in order to induce the referral of an individual for, or to induce the ordering or purchasing of, items or services that are in any way paid for by Medicare, Medicaid, or other government healthcare programs; (2) prohibit physicians from referring certain "designated health services" to an entity with which they have a financial relationship, unless an exception applies; and (3) prohibit knowingly submitting, or causing to be submitted, a false or fraudulent claim for payment to the government; and (4) require certain entities to report and return an overpayment by Medicare or Medicaid within 60 days of identifying the overpayment.

Many of these healthcare fraud and abuse laws are vague or indefinite and are often subject to varied and evolving interpretations by courts, regulators, and enforcing agencies and, as such, may be interpreted or applied by a prosecutorial, regulatory, or judicial authority in a manner that could require us to make changes in our operations at added expense.

In the U.S., the Patient Protection and Affordable Care Act ("ACA") significantly expanded health insurance coverage to uninsured Americans and changed the way healthcare is financed by both governmental and private payors. The implementation of the Inflation Reduction Act of 2022 ("IRA") has begun to change benefit design and how Medicare pays for drugs, which are all intended to reduce the price of drugs. Three central features of the IRA have authorized the government to negotiate drug prices for certain Parts B and D drugs over time, establish an inflation rebate program, and cap patient cost sharing under Medicare Part D.

Provincial governments in Canada that provide partial funding for the purchase of pharmaceuticals and independently regulate the sale and reimbursement of drugs have sought to reduce the costs of publicly funded health programs. For example, provincial governments have taken steps to reduce consumer prices for generic pharmaceuticals and, in some provinces, change professional allowances paid to pharmacists by generic drug manufacturers.

McKesson continues to advocate for policies that would improve drug cost transparency under a patient's drug plan to better inform prescribing decisions, and also address access to care, affordability, and treatment regimen adherence, all designed to improve clinical outcomes and reduce the health spending burden.

FDA Regulation and Supply Chain Integrity: In the U.S., the FDA is the principal federal authority that regulates the safety, efficacy, quality, testing, premarket approval, manufacture, labeling, storage, distribution, and post-market surveillance of healthcare products, such as drugs and medical devices, foods, and cosmetics.

Federal and state laws regulate the pharmaceutical drug supply chain in order to prevent the distribution of counterfeit, stolen, contaminated, or otherwise harmful prescription drugs in interstate commerce. At the federal level, the Drug Supply Chain Security Act ("DSCSA"), among other things, requires standardized, unit-level traceability of pharmaceutical products along the entire drug supply chain and requires all trading partners to cooperate in an electronic, interoperable prescription drug traceability system. In October 2024, the FDA extended the compliance deadlines for the DSCSA interoperable unit-level traceability requirements to May 27, 2025, for manufacturers, August 27, 2025 for distributors, and November 27, 2025 for dispensers. The FDA stated that these extensions apply to trading partners who meet certain conditions. The Company believes its businesses are eligible for the extensions. The DSCSA also sets forth national standards for the licensure of wholesale drug distributors and third-party logistic providers and other requirements applicable to these entities and the FDA has issued a proposed rule with respect to these requirements. These federal and state regulatory requirements have increased, and may further increase, our compliance burden and distribution costs.

Additionally, federal and state governments may adopt other laws intended to protect the integrity of the supply chain, and those laws could affect our distribution business. For example, the Federal Trade Commission ("FTC") and HHS issued a request for public comment in 2024 on how the practices of pharmaceutical wholesalers and group purchasing organizations impact generic drug shortages. Various industry stakeholders responded to this request, but no further action has been taken by the FTC or HHS.

Cybersecurity, Data Security, Privacy, and AI: We are subject to many cybersecurity, privacy, and data protection laws that change frequently and have requirements that vary from jurisdiction to jurisdiction. Our efforts to comply with these laws complicate our operations and add to our costs. We are subject to significant compliance obligations under privacy laws such as the Health Insurance Portability and Accountability Act of 1996, the General Data Protection Regulation in the European Union, the Personal Information Protection and Electronic Documents Act in Canada, and an expanding list of comprehensive state privacy laws in the U.S. Some privacy laws may prohibit the transfer of personal information to certain other jurisdictions or otherwise limit our use and disclosure of data. Many of these laws also require us to provide access or other data rights (modification, deletion, portability, etc.) to consumers' and patients' individual personal data records within specified periods of time. Cybersecurity laws such as the federal Cyber Incident Reporting for Critical Infrastructure Act of 2022, proposed changes to the Federal Acquisition Regulation, and SEC reporting requirements may require us to provide notifications of certain cybersecurity incidents within short timeframes. Regulations and guidance targeting critical infrastructure entities, including McKesson, continue to be a focus of regulators. We are subject to privacy and data protection compliance audits or investigations by various governmental agencies. There is also an emerging trend of governmental entities proposing and providing regulatory guidance related to AI, including generative AI. If we or our third-party providers are restricted from using AI as a result of any regulatory views, laws or other measures, it could impact our operations, increase our compliance expense and burden, and cause us to incur costs to replace or modify our use of AI.

Environmental Regulation: We are subject to various federal, state, local, and foreign laws concerning the environment, including laws addressing the discharge of pollutants into the air and water, the management and disposal of hazardous substances and wastes, and the cleanup of contaminated sites, as well as laws governing the operation of radiation-emitting equipment at U.S. Oncology Network practices.

We sold our chemical distribution operations in 1987 and retained responsibility for certain environmental obligations. Agreements with the U.S. Environmental Protection Agency and certain states have required and may require environmental assessments and cleanups at several closed sites. These matters are described further in Financial Note 17, "Commitments and Contingent Liabilities," to the consolidated financial statements included in this Annual Report.

Climate Change Regulation: Governments in the U.S. and abroad have adopted or are considering new or expanded policies and laws to address climate change. Such policies and laws may necessitate reductions in greenhouse gas ("GHG") emissions; mandate that companies implement processes and controls to monitor and disclose climate-related matters; and impose additional taxes or offset charges on specified energy sources, among other requirements. Compliance with climate-related policies and laws may be further complicated by disparate regulatory approaches in various jurisdictions. Methodologies for reporting climate-related information may change and previously reported information may be retroactively adjusted, if required. New or expanded climate-related policies and laws could impose costs on us, including capital expenditures to develop data gathering and reporting systems, third-party attestations, and additional GHG reduction measures. Until the timing and extent of climate-related policies and laws are clarified, including due to legal challenges, we cannot predict their potential effect on our capital expenditures, results of operations, or competitive position.

Antitrust Laws: Antitrust and competition laws in the U.S. and elsewhere prohibit types of conduct deemed to be anti-competitive. Antitrust enforcement in the healthcare industry remains a focus of the FTC and the U.S. Department of Justice. Some of our strategic transactions may require review by competition regulators, with inherent delays. Violations of the antitrust laws can result in sanctions and other adverse actions, including criminal and civil penalties. Private plaintiffs also may bring civil lawsuits for alleged antitrust law violations, including claims for treble damages. These laws contribute to our compliance efforts and expense, and their enforcement might materially adversely affect our operations and growth strategy.

Other Information about the Business

Customers: During fiscal 2025, sales to our ten largest customers, including group purchasing organizations ("GPOs") accounted for approximately 72% of our total consolidated revenues. Sales to our largest customer, CVS Health Corporation ("CVS"), accounted for approximately 24% of our total consolidated revenues in fiscal 2025. In fiscal 2023, we extended our pharmaceutical distribution partnership with CVS to June 2027. Our ten largest customers comprised approximately 48%, and CVS was approximately 23% of our total trade accounts receivable at March 31, 2025. We also have agreements with GPOs, each of which functions as a purchasing agent on behalf of member hospitals, pharmacies, and other healthcare providers, as well as with government entities and agencies. The accounts receivable balances are with individual members of the GPOs, and therefore no significant concentration of credit risk exists. Substantially all of these revenues and accounts receivable are included in our U.S. Pharmaceutical segment.

Suppliers: We obtain pharmaceutical and other products from manufacturers and our largest supplier accounted for 11% of our total purchases in fiscal 2025. The loss of a supplier could adversely affect our business if alternate sources of supply are unavailable. We believe that our relationships with our suppliers are generally sound. The ten largest suppliers in fiscal 2025 accounted for approximately 69% of our total purchases.

Some of our distribution arrangements with manufacturers provide us consideration based on a percentage of our purchases. In addition, we have certain distribution arrangements with pharmaceutical manufacturers that include an inflation-based consideration component whereby we benefit when the manufacturers increase their prices as we sell our existing inventory at the new higher prices. For these manufacturers, a reduction in the frequency and magnitude of price increases, as well as restrictions in the amount of inventory available to us, could have an adverse impact on our gross profit margin.

Research and Development: Research and development expenses were $91 million, $77 million, and $89 million for the years ended March 31, 2025, 2024, and 2023, respectively.

Financial Information About Foreign and Domestic Operations: Certain financial information relating to foreign and domestic operations is discussed in Financial Note 20, "Segments of Business," to the consolidated financial statements included in this Annual Report as well as in "Foreign Operations" in Item 7 of Part II of this Annual Report. See "Risk Factors" in Item 1A of Part I below for information regarding risks associated with our foreign operations.

Forward-Looking Statements

This Annual Report, including "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Item 7 of Part II of this report and the "Risk Factors" in Item 1A of Part I of this report, contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 ("Securities Act") and Section 21E of the Exchange Act. Forward-looking statements may be identified by their use of terminology such as "believes," "expects," "anticipates," "may," "will," "should," "seeks," "approximately," "intends," "projects," "plans," "estimates," "targets," or the negative of these words or other comparable terminology. The discussion of trends, strategy, plans, prospects, assumptions, expectations, or intentions may also include forward-looking statements. Forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected, anticipated, or implied. Although it is not possible to predict or identify all such risks and uncertainties, they include, but are not limited to, the factors discussed in Item 1A of Part I of this report under "Risk Factors" and in our publicly available SEC filings and press releases. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date such statements were first made. Except to the extent required by federal securities laws, we undertake no obligation to publicly release the result of any revisions to any forward-looking statements to reflect events or circumstances after the date the statements are made, or to reflect the occurrence of unanticipated events.

Item 1A. Risk Factors.

INDEX TO RISK FACTORS

Section	Page
Litigation and Regulatory Risks	13
Company and Operational Risks	16
Industry and Economic Risks	20
General Risks	23

The discussion below identifies certain representative risks that might cause our actual business results to materially differ from our estimates. It is not practical to identify or describe all risks and uncertainties that might materially impact our business operations, reputation, financial position, or results of operations. Our business could be materially affected by risks that we have not yet identified or that we currently consider to be immaterial. This is not a complete discussion of all potential risks and uncertainties.

Litigation and Regulatory Risks

We experience costly and disruptive legal disputes.

We are routinely named as a defendant in litigation or regulatory proceedings and other legal disputes, which may include asserted class action litigation, such as those described in Financial Note 17, "Commitments and Contingent Liabilities," to the consolidated financial statements included in this Annual Report. Regulatory proceedings involve allegations such as false claims, healthcare fraud and abuse, and antitrust violations. Civil litigation proceedings involve commercial, employment, environmental, intellectual property, tort, and other claims. Despite valid defenses that we assert, legal disputes are often costly, time-consuming, distracting to management, and disruptive to normal business operations. The uncertainty and expense associated with unresolved legal disputes might harm our business and reputation even if the matter ultimately is favorably resolved. The outcome of legal disputes is difficult to predict, and outcomes may occur that we believe are not justified by the evidence or existing law. Outcomes include monetary damages, penalties and fines, and injunctive or other relief that requires us to change our business operations and incur significant expense. Accordingly, legal disputes might have a materially adverse impact on our reputation, our business operations, and our financial position or results of operations.

We experience losses not covered by insurance or indemnification.

Our business exposes us to risks that are inherent in the distribution, manufacturing, dispensing, and administration of pharmaceuticals and medical-surgical supplies, the provision of ancillary services, the conduct of our payer businesses, practice support services, and the provision of products that assist clinical decision-making and relate to patient medical histories and treatment plans. For example, pharmacy operations are exposed to risks such as improper filling of prescriptions, mislabeling of prescriptions, inadequacy of warnings, unintentional distribution of counterfeit drugs, and expiration of drugs. Although we seek to maintain adequate insurance coverage, such as property insurance for inventory and professional and general liability insurance, coverages on acceptable terms might be unavailable, or coverages might not cover our losses. We generally seek to limit our contractual exposure, but limitations of liability or indemnity provisions in our contracts may not be enforceable or adequately protect us from liability. Uninsured or non-indemnified losses might have a materially adverse impact on our business operations and our financial position or results of operations.

We experience costly legal disputes, government actions, and adverse publicity regarding our role in distributing controlled substances such as opioids.

The Company is a defendant in many litigation matters alleging claims related to the distribution of controlled substances (opioids), as described in Financial Note 17, "Commitments and Contingent Liabilities," to the consolidated financial statements in this Annual Report. We are sometimes named as a defendant in similar, new cases. The plaintiffs in those cases include governmental entities (such as states, provinces, counties, and municipalities) as well as businesses, groups, and individuals. The cases allege violations of controlled substance laws and other laws, and they make common law claims such as negligence and public nuisance. Many of these cases raise novel theories of liability and can have unexpected outcomes that we believe are not justified by evidence or existing law. Legal proceedings such as these often involve significant expense, management time and distraction, and risk of loss that can be difficult to predict or quantify. It is not uncommon for claims to be resolved over many years. Outcomes include monetary damages, penalties and fines, and injunctive or other relief that requires us to change our business operations and incur significant expense. Although the Company has valid defenses and is vigorously defending itself, some proceedings have been, and others may be, resolved by negotiated outcome. For example, we are subject to consent decrees issued by state courts that govern our distribution of controlled substances. Not all proceedings, however, are resolved by settlement. Our reputation has been and may continue to be impacted by publicity regarding opioids litigation and related allegations. An adverse outcome of any such legal proceedings might have a materially adverse impact on our business operations and our financial position or results of operations.

We experience increased costs to distribute controlled substances such as opioids.

Legislative, regulatory, or industry measures related to the distribution of controlled substances such as prescription opioids could affect our business in ways that we may not be able to predict. For example, some states have passed legislation that could require us to pay taxes or assessments on the distribution of opioid medications in those states and other states have considered similar legislation. Liabilities for taxes or assessments or other costs of compliance under any such laws might have a materially adverse impact on our reputation, our business operations, and our financial position or results of operations.

We are subject to extensive, complex, and challenging healthcare, environmental, and other laws.

As described in "Government Regulation" in Item 1 of Part I above, our industry is highly regulated, and further regulation of our distribution businesses, technology products, and services could impose increased costs, negatively impact our profit margins and the profit margins of our customers, delay the introduction or implementation of our new products, or otherwise negatively impact our business and expose the Company to litigation and regulatory investigations. We incur cleanup costs under environmental laws and may incur additional costs under environmental laws. Additionally, we are subject to various routine and ad hoc inspections and requests for information by governmental agencies to determine compliance with various statutes and regulations. Any noncompliance by us with applicable laws, or the failure to maintain, renew, or obtain necessary permits and licenses, could lead to enforcement actions or litigation and might have a materially adverse impact on our business operations and our financial position or results of operations.

We are subject to extensive and frequently changing laws relating to healthcare fraud, waste, and abuse.

As described in "Government Regulation" in Item 1 of Part I above, federal, state, and local governmental entities in the U.S. and elsewhere continue to strengthen their position on, and scrutiny of, practices that may indicate fraud, waste, and abuse affecting government healthcare programs such as Medicare and Medicaid. Those laws may be interpreted or applied in a manner that could require us to make changes in our operations at added expense. Alleged failures to comply with those laws, including the federal Anti-Kickback Statute, expose us to federal or state government investigations or qui tam actions, and to liability for damages and civil and criminal penalties. Such failures might result in the loss of licenses or our ability to participate in Medicare, Medicaid, or other federal and state healthcare programs, or pursue government contracts. These sanctions might have a materially adverse impact on our business operations and our financial position or results of operations.

We might lose our ability to purchase, store, or distribute pharmaceuticals, including controlled substances, and medical products.

As described in "Government Regulation" in Item 1 of Part I above, we are subject to the operating, quality, regulatory, and security requirements of the DEA, the FDA, various state boards of pharmacy, state health departments, CMS, and other agencies. Noncompliance with these requirements can result in inspectional observations, warning letters, product recalls, withdrawals or other market action, fines, seizures, injunctions, and other administrative, civil, and criminal enforcement actions. Noncompliance, enforcement actions or adverse decisions by regulators, or the inability to obtain, maintain, or renew permits, licenses, or other regulatory approvals needed for the operation of our businesses might have a materially adverse impact on our reputation, our business operations and our financial position or results of operations.

Privacy, cybersecurity, data protection, and AI laws increase our compliance burden.

As described in "Government Regulation" in Item 1 of Part I above, we are subject to a variety of privacy, cybersecurity, data protection, and AI laws that change frequently and have requirements that vary from jurisdiction to jurisdiction. Failure to comply with these laws subjects us to potential regulatory enforcement activity, fines, private litigation including class actions, reputational impacts, and other costs. We also have contractual obligations that might be breached if we fail to comply with privacy and data security laws. The use of AI solutions by our employees or third parties on which we rely could also lead to the misuse of data or public disclosure of confidential information (including personal data or proprietary information) in contravention of our internal policies, applicable laws, contractual requirements, or third-party intellectual property rights. Our efforts to comply with privacy, data security, and AI laws complicate our operations and add to our costs. A significant cybersecurity and/or privacy breach or failure to comply with privacy and data security laws, by us or by external service providers, vendors, or other third parties with which we do business, might have a materially adverse impact on our reputation, our business operations, and our financial position or results of operations.

Anti-bribery and anti-corruption laws increase our compliance burden.

We are subject to laws prohibiting improper payments and bribery, including the U.S. Foreign Corrupt Practices Act, the U.K. Bribery Act, and similar regulations in other jurisdictions. Our failure to comply with these laws might subject us to civil and criminal penalties that might have a materially adverse impact on our reputation, our business operations, and our financial position or results of operations.

On February 20, 2020, in response to the DEA Settlement, McKesson Corporation entered into a final agreement with the Indiana Board of Pharmacy. In the event that Respondent's DEA Registration will remain suspended beyond February 16, 2021, Respondent shall notify the Board prior to the date of the continued suspension of its DEA Registration and the date that the suspension of its DEA Registration will terminate.

2. After the DEA Registration is fully re-instated, Respondent may submit a Petition to Withdraw the Probation to request that the probation be lifted.

3. The restriction of Respondent's ability to distribute controlled substances in the state of Indiana shall not apply to or limit Respondent's authority to distribute, or Respondent's operations involving, List 1 chemical products at or from Respondent which are authorized under Respondent's DEA Registration. Respondent is permitted, at its option, to possess and distribute controlled substances to federal customers under Respondent's exclusive contract with the United States Department of Veteran Affairs.

4. Respondent shall fully comply with the 2017 Agreements and any amendments or modifications thereto, entered into by Respondent and the United States Department of Justice and Drug Enforcement Administration, and effective on January 17, 2017.

SETTLEMENT AGREEMENT

The State of Indiana ("Petitioner"), by Timothy M. Weber, Deputy Attorney General, and McKesson Drug Company ("Respondent"), by counsel, Randall Fearnow, hereby execute this Settlement Agreement ("Agreement") to resolve all issues raised by the filing of the Petitioner's Complaint in the above captioned matter and the Respondent's objections thereto. This Agreement is subject to the review and approval of the Indiana Board of Pharmacy ("Board") pursuant to Ind. Code § 25-1-9 and Ind. Code § 4-21.5-3.

STIPULATED FACTS

1. Respondent is a licensed wholesale drug distributor in the State of Indiana having been issued license number 48000550A.

2. Respondent's address is 2000 Kenskill Ave., Washington Court House, Ohio 43160.

3. Respondent is one of several wholesale distribution centers operated by its parent company, McKesson Corporation (parent company hereinafter referred to as "McKesson").

4. On January 17, 2017, McKesson entered into a Settlement Agreement and Release and an Administrative Memorandum of Agreement (collectively, the "2017 Agreement") with the Drug Enforcement Agency ("DEA") and the Department of Justice ("DOJ"). Pursuant to the terms of the 2017 Agreement, the parties agreed in relevant part.

EXHIBIT A

a. At times relevant to the 2017 Agreement, McKesson's distribution centers were required to operate in accordance with the statutory provisions of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. §§ 801 *et seq.* ("CSA"), and the regulations promulgated thereunder, 21 C.F.R. Part 1300 *et seq.*

b. The regulations promulgated under the CSA include a requirement to design and operate a system to detect and report "suspicious orders" for controlled substances, as that term is defined in the regulation.

c. In 2006 and 2007, the DEA sent letters to every entity in the United States that was registered with the DEA to manufacture or distribute controlled substances, including McKesson (the "DEA Letters"). The letters contained guidance for the identification and reporting of suspicious orders to DEA, as required by 21 C.F.R. § 1301.74(b).

d. In 2008, McKesson entered into a settlement with the DOJ and a Memorandum of Agreement with the DEA (collectively referred to as the "2008 Agreements").

e. The 2017 Agreement covers the time period of January 1, 2009 through the date of the last signatory to the 2017 Agreement, which was on January 17, 2017 ("Covered Time Period").

5. Pursuant to the 2017 Agreement, Respondent's DEA Certificate of Registration ("DEA Registration") will be suspended between February 16, 2019 and February 16, 2021 with a partial exception to possess and distribute controlled substances related to servicing federal customers that purchase from Respondent under an exclusive contract with the United States Department of Veterans

Affairs. The suspension does not apply to or limit McKesson's authority to distribute, or operations involving List 1 Chemical products.

6. Indiana Code § 25-1-9-4(a)(3) allows the Board to discipline a practitioner if the Board finds that the practitioner has knowingly violated any state statute or rule, or federal statute or regulation, regulating the profession in question.

7. Indiana Code § 25-26-14-17(10) requires a wholesale distributor, if involved in the distribution of controlled substances, to maintain registration with the federal Drug Enforcement Agency.

STIPULATED CONCLUSION OF LAW

The parties further stipulate Respondent's Indiana license is subject to discipline in accordance with Indiana Code § 25-1-9-4(a)(3) because Respondent's DEA Registration was suspended; therefore, it did not maintain registration with the DEA as required by Indiana Code § 25-26-14-17(10).

AGREED DISPOSITION

It is now therefore agreed by Respondent and Petitioner as follows:

1. Both parties voluntarily waive their rights to a public hearing on the Complaint and all other proceedings in this action to which either party may be entitled by law, including judicial review and appeal.

2. This Agreement resolves any and all pending claims or allegations relating to disciplinary action against the Respondent's Indiana wholesale drug distributor license.

3. Respondent's license to practice as a wholesale drug distributor in the state of Indiana is hereby placed on INDEFINITE PROBATION. As a term of this probation, and with the exception of the activities discussed in Paragraph 5 below, Respondent may not distribute controlled substances into Indiana effective as of the effective date of this Agreement until Respondent's DEA Registration is fully

re-instated on or about February 16, 2021. In the event that Respondent's DEA Registration will remain suspended beyond February 16, 2021, Respondent shall notify the Board prior to the date of the continued suspension of its DEA Registration and the date that the suspension of its DEA Registration will terminate.

4. After the DEA Registration is fully re-instated, Respondent may submit a Petition to Withdraw the Probation to request that the probation be lifted.

5. The restriction of Respondent's ability to distribute controlled substances in the state of Indiana shall not apply to or limit Respondent's authority to distribute, or Respondent's operations involving, List 1 chemical products at or from Respondent which are authorized under Respondent's DEA Registration. Respondent is permitted, at its option, to possess and distribute controlled substances to federal customers under McKesson's exclusive contract with the United States Department of Veterans Affairs.

6. Respondent shall fully comply with the 2017 Agreement and any amendments or modifications thereto, entered into by Respondent and the United States Department of Justice, Drug Enforcement Administration and effective on January 17, 2017.

7. Within ninety (90) days of the Board's Final Order accepting this Agreement, Respondent shall pay a **FINE** in the amount of **ONE THOUSAND DOLLARS ($1,000.00).** This fine shall be paid by check or money order payable to the Indiana Professional Licensing Agency, and submitted to the following address:

Indiana Professional Licensing Agency
Attn: Board of Pharmacy
402 W. Washington Street, Room W072
Indianapolis, Indiana 46204

8. Within **NINETY (90) DAYS** of the Final Order, Respondent shall, pursuant to Ind. Code § 4-6-14-10(b), pay a **FEE** in the amount of **FIVE DOLLARS ($5.00)** to be deposited into the Health Records and Personal Identifying Information Protection Trust Fund. This fee shall be paid by check or money order payable to the State of Indiana, and submitted to the following address:

Office of the Indiana Attorney General
Attn: Teresa Henson
302 West Washington Street, 5th Floor
Indianapolis, IN 46204

9. Respondent has carefully read and examined this Agreement and fully understands its terms and that, subject to approval by the Board, this Agreement is a final disposition of the Allegations.

10. The hearing set in this matter shall be vacated upon approval of the Board.

IN WITNESS WHEREOF, the undersigned, authorized representatives of the parties, affix their signatures hereto evidencing their acceptance of this Agreement.

Respondent knowingly waives each of these rights, as well as any right to administrative review of this Consent Order. Such waiver ceases if this Consent Order is rejected by either the Board of Pharmacy ("Board") or Director. Respondent acknowledges that the Department attorney may be requested to communicate with the Board or Director in furtherance of the approval of this Consent Order. Respondent has been informed that this Consent Order will be presented to the Director for final approval. If this Consent Order is not approved, Respondent waives any right to raise any prejudice resulting from the Director's consideration of this Consent Order. Respondent and the Department have agreed, in order to resolve this matter, that Respondent be permitted to enter into a Consent Order with the Department.

CONDITIONS

Wherefore, the Department, by attorney Brandon R. Thom, and Respondent, by attorney Roger N. Morris of Quarles & Brady LLP, agree:

A Respondent's Illinois Wholesale Drug Distributor license no. 004.002044 (Aurora, Colorado), shall be placed on probation for a definite period of three (3) years, effective January 17, 2017 to January 17, 2020. Throughout the term of this probation, Respondent's Illinois Wholesale Drug Distributor license no. 004.002044 (Aurora, Colorado) shall be prohibited from distributing controlled substances in the State of Illinois. This probationary restriction shall not apply to or limit Respondent's authority to distribute, or operations involving, List 1 Chemical products at or from Respondent's Aurora, Colorado distribution center.

B Respondent's Illinois Wholesale Drug Distributor license no. 004.001511 (Livonia, Michigan), shall be placed on probation for a definite period of two (2) years, effective January 17, 2017 to January 17, 2019.

Throughout the term of this probation, Respondent's Illinois Wholesale Drug Distributor license no. 004.001511 (Livonia, Michigan) shall be prohibited from distributing controlled substances in the State of Illinois. This probationary restriction shall not apply to or limit Respondent's authority to distribute, or operations involving, List I Chemical products at or from Respondent's Livonia, Michigan distribution center. Respondent's Livonia, Michigan distribution center is permitted, at its option, to possess and distribute controlled substances to federal customers under McKesson's exclusive contract with the U.S. Department of Veterans Affairs.

C. Respondent's Illinois Wholesale Drug Distributor license no. 004.000755 (Washington Court House, Ohio), shall be placed on probation for a definite period of two (2) years, effective February 16, 2019 to February 16, 2021. D. Respondent shall comply with all terms and conditions imposed upon Respondent in the January 17, 2017 DEA Memorandum of Agreement, attached hereto as Exhibit 1. Any violation of the Memorandum of Agreement by Respondent shall be deemed a violation of this Consent Order.

E. Respondent shall comply with all terms and conditions of the Wholesale Drug Distribution Licensing Act 225 ILCS 120/1 et seq. and the Rules enacted in furtherance thereof. Respondent's failure to do so shall be deemed a violation of the terms of this Consent Order.

ADMINISTRATIVE MEMORANDUM OF AGREEMENT

This Administrative Memorandum of Agreement ("Agreement") is entered into by and between the United States Department of Justice, Drug Enforcement Administration ("DEA") and McKesson Corporation ("McKesson") (each a "Party" and collectively the "Parties").

APPLICABILITY

This Agreement shall be applicable to McKesson and any facility owned or operated by McKesson US Pharmaceutical registered, or who may become registered, with DEA to distribute, or otherwise handle controlled substances. The current list of applicable facilities is identified in Appendix A.

BACKGROUND

1. McKesson is registered with DEA at the facilities listed in Appendix A as distributors of Schedule II-V controlled substances under provisions of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. § 801 *et seq.*, ("CSA" or "the Act"). *See* Appendix A. Collectively, the distribution centers listed in Appendix A and the former Landover, Maryland distribution center are referred to herein as the "McKesson Distribution Centers."

2. In May 2008, McKesson entered into a Settlement and Release Agreement and Administrative Memorandum of Agreement ("2008 MOA") with DEA. *See* Appendix B.

3. McKesson's Aurora, Colorado, distribution facility ("McKesson Aurora"), located at 14500 East 39th Ave., Aurora, Colorado 80011, is registered with DEA as a distributor of Schedule II-V controlled substances pursuant to DEA Certificate of Registration PM0018425.

4. On March 12, 2013, DEA executed an Administrative Inspection Warrant ("AIW") at McKesson Aurora.

5. Between March 2013 and the present, DEA executed one (1) additional AIW and served numerous administrative subpoenas and conducted a number of cyclic inspections at various McKesson US Pharmaceutical distribution centers nationwide including McKesson's Washington Court House, Ohio, distribution center ("McKesson WCH"), DEA Certificate of Registration RM0220688, located at 3000 Kenskill Avenue, Washington Court House, Ohio 43160; McKesson's Livonia, Michigan, distribution center ("McKesson Livonia"), DEA Certificate of Registration 0030849, located at 38220 Plymouth Road, Livonia, Michigan 48150; McKesson's Lakeland, Florida, distribution center ("McKesson Lakeland"), DEA Certificate of Registration PM0000771, located at 1515 Kendrick Lane, Lakeland, Florida 33805; McKesson's Methuen distribution center ("McKesson Methuen"), DEA Certificate of Registration PM0020850, located at 9 Aegean Drive, Methuen, Massachusetts 01844; McKesson's Chicago distribution center ("McKesson Chicagoland"), DEA Certificate of Registration RM0380484, located at 1955 McKesson Street, Suite 101, Aurora, Illinois 60502; McKesson's Delran, New Jersey, distribution center ("McKesson Delran"), DEA Certificate of Registration RM0173055, located at 400 Delran Parkway, Delran, New Jersey 08075; McKesson's LaCrosse, Wisconsin

6. On or about August 13, 2014, McKesson received a letter from the U.S. Attorney for the District of Colorado (the "August 13, 2014 Letter") setting forth allegations that McKesson failed to "maintain[] . . . effective controls against diversion of particular controlled substances," 21 U.S.C. § 823(b)(1), and failed to "design and operate a system to disclose to the registrant suspicious orders of controlled substances," 21 C.F.R. § 1301.74(b). This letter described certain civil penalties that the U.S. Attorney for the District of Colorado could seek in Colorado and elsewhere in connection with that alleged conduct.

7. On or about November 14, 2014, McKesson received a letter (dated November 4, 2014) from the DEA Office of Chief Counsel, Diversion Regulatory and Litigation Section, stating that DEA was separately pursuing administrative action against McKesson Aurora for the conduct outlined in the August 13, 2014 Letter. DEA also stated that the allegations regarding McKesson's failure to "maintain[] . . . effective controls against diversion of particular controlled substances," 21 U.S.C. § 823(b)(1), and failure to "design and operate a system to disclose to the registrant suspicious orders of controlled substances," 21 C.F.R. § 1301.74(b) was national in scope, and that DEA was also pursuing administrative investigations of such alleged failures at McKesson WCH, McKesson Livonia, McKesson Lakeland, McKesson Methuen, McKesson Chicagoland, McKesson Delran, McKesson LaCrosse, McKesson La Vista, McKesson Ruther Glen, and McKesson West Sacramento.

8. As of the date of this Agreement, DEA has not issued Orders to Show Cause ("OTSCs") against any of McKesson's DEA-registered distribution centers.

STIPULATION AND AGREEMENT

In lieu of commencing and pursuing administrative litigation against the DEA registrations of an unknown number of McKesson's distribution centers, McKesson and DEA agree as follows:

I. General

1. Intention of Parties to Effect Settlement. In order to avoid the uncertainty and expense of litigation, and in furtherance of the Parties' belief that a settlement is in the public interest, the Parties desire to settle and resolve, and hereby do settle and resolve, the administrative matters within DEA's enforcement authority as those matters relate to the conduct described further

below. The Parties further believe that the terms and conditions of this settlement as set forth below represent a complete resolution of this matter.

2. Acceptance of Responsibility. On or about September 27, 2006, February 7, 2007 and December 27, 2007, DEA's Deputy Assistant Administrator, Office of Diversion Control, sent letters to every entity in the United States that was registered with DEA to manufacture or distribute controlled substances, including McKesson (the "DEA Letters"). The DEA Letters contained, among other things, guidance for the identification and reporting of suspicious orders to DEA, as required by 21 C.F.R. § 1301.74(b). McKesson acknowledges that, at various times during the period from January 1, 2009 up through and including the Effective Date of this Agreement (the "Covered Time Period"), it did not identify or report to DEA certain orders placed by certain pharmacies which should have been detected by McKesson as suspicious based on the guidance contained in the DEA Letters about the requirements set forth in 21 C.F.R. § 1301.74(b) and 21 U.S.C. § 842(a)(5). McKesson has taken steps to prevent such conduct from occurring in the future, including the measures delineated in the Compliance Addendum.

On or about May 2, 2008, DEA and McKesson entered into an Administrative Memorandum of Agreement (the "2008 MOA"). The 2008 MOA provided among other things, that McKesson maintain a compliance program designed to detect and prevent the diversion of controlled substances, inform DEA of suspicious orders as required by 21 C.F.R. § 1301.74(b), and follow procedures established by its Controlled Substance Monitoring Program ("CSMP"). McKesson acknowledges that, at various times during the Covered Time Period, it did not identify or report to DEA certain orders placed by certain pharmacies, which should have been detected by McKesson as suspicious, in a manner fully consistent with the requirements set forth in the 2008 MOA. McKesson has taken steps to prevent such conduct from occurring in the future, including the measures delineated in the Compliance Addendum.

3. Covered Conduct. For purposes of this Agreement, "Covered Conduct" shall mean the following conduct alleged by the Government for the Covered Time Period:

a. McKesson failed to maintain effective controls against diversion of particular controlled substances into other than legitimate medical, scientific and industrial channels by sales to certain of its customers in violation of the CSA and the CSA's implementing regulations, 21 C.F.R. Part 1300 *et seq.*, at the McKesson Distribution Centers, including the following:

Aurora, Colorado;
Aurora, Illinois;
Delran, New Jersey;
LaCrosse, Wisconsin;
Lakeland, Florida;
Landover, Maryland;
La Vista, Nebraska;
Livonia, Michigan;
Methuen, Massachusetts;
Santa Fe Springs, California;

Washington Courthouse, Ohio; and
West Sacramento, California.

b. In 2008, McKesson entered into a Settlement Agreement with the Department of Justice and a Memorandum of Agreement with DEA (collectively referred to herein as the "2008 Agreements") related to, among other things, McKesson's failure to report suspicious orders of controlled substances to DEA when discovered, as required by and in violation of 21 C.F.R. § 1301.74(b) and 21 U.S.C. § 842(a)(5). As a result of the 2008 Agreements, McKesson developed a Controlled Substance Monitoring Program ("CSMP"), in which McKesson recognized that it had a duty to monitor its sales of all controlled substances and report suspicious orders to DEA. McKesson failed to properly monitor its sales of controlled substances and/or report suspicious orders to DEA, in accordance with McKesson's obligations under the 2008 Agreements, the Act, and 21 C.F.R. § 1301.74(b);

c. McKesson failed to follow the procedures and policies set forth in the McKesson CSMP to detect and disclose suspicious orders of controlled substances. Among other things, McKesson failed to conduct adequate due diligence of its customers, failed to keep complete and accurate records in the CSMP files maintained for many of its customers, and bypassed suspicious order reporting procedures set forth in the McKesson CSMP;

d. In addition, McKesson failed to inform the DEA Field Division Offices and/or DEA Headquarters of certain suspicious orders of controlled substances made by its customers during the relevant time period, including orders of unusual size, orders deviating substantially from normal patterns, and orders of unusual frequency, as required by and in violation of 21 C.F.R. § 1301.74(b), 21 U.S.C. § 842(a)(5), and the 2008 Agreements;

e. McKesson failed to report suspicious orders for certain controlled substances in accordance with the standards identified and outlined in the DEA Letters; and

f. The McKesson Distribution Centers distributed controlled substances to pharmacies even though those McKesson Distribution Centers should have known that the pharmacists practicing within those pharmacies had failed to fulfill their corresponding responsibility to ensure that controlled substances were dispensed pursuant to prescriptions issued for legitimate medical purposes by practitioners acting in the usual course of their professional practice, as required by 21 C.F.R § 1306.04(a).

4. Effect of 2008 MOA. To the extent that there are obligations contained in the 2008 MOA that survived the expiration of the stated term of the 2008 MOA, those terms are superseded by the obligations contained in this Agreement.

5. Term of Agreement. The obligations contained in this Agreement shall remain in full force and effect for a period of five (5) years from the Effective Date of this Agreement unless DEA agrees in writing to an earlier termination.

II. Terms and Conditions

1 Obligations of McKesson.

a. McKesson agrees to maintain a compliance program intended to detect and prevent diversion of controlled substances as required under the CSA and applicable implementing regulations. McKesson acknowledges and agrees that the obligations undertaken in this Agreement and the Compliance Addendum are designed, in part, to meet its obligations under the CSA and its implementing regulations.

b. Beginning on the first full calendar month after the Effective Date, McKesson shall provide DEA Headquarters with an unedited file of all transactions of non-ARCOS reportable controlled substances. This information will be in the format that Automation of Reports and Consolidated Orders System ("ARCOS") data is submitted to DEA, and will be uploaded to the following web address: https://www.deadiversion.usdoj.gov/deareports/. The files shall be due by the 15th of each calendar month for the previous calendar month's report. This requirement does not supplant the requirement to report ARCOS data in the time and manner required by DEA regulations. The Parties agree that the report does not otherwise constitute the basis for McKesson's compliance with recordkeeping and reporting requirements under the CSA or applicable implementing regulations. The Parties agree that such report is not required under the CSA or its implementing regulations and that the accuracy of the report or the failure to file such a report is not a basis for a violation of 21 U.S.C. § 842(a)(5).

c. In satisfaction of its obligation under the CSA's implementing regulations and as agreed to pursuant to this Agreement for each McKesson distribution center registrant to "inform the Field Division Office of the Administration in [its] area of suspicious orders," 21 C.F.R. § 1301.74(b), McKesson shall transmit Suspicious Order Reports to DEA Headquarters at the end of each business day. McKesson shall submit the daily Suspicious Order Reports in the format that ARCOS data is submitted to DEA, and the reports will be uploaded to the following web address: https://www.deadiversion.usdoj.gov/deareports/. This obligation will continue during the term of this Agreement unless and until DEA advises McKesson otherwise in writing.

d. McKesson agrees that its authority to distribute all controlled substances from its McKesson Aurora distribution center, DEA Certificate of Registration PM0018425, will be suspended for a period of three (3) years commencing from the Effective Date of this Agreement (the "Aurora Suspension Period"). This suspension shall not apply to or limit McKesson's authority to distribute, or

operations involving, List I Chemical products at or from the Aurora distribution center, which are authorized under the DEA registration number PM0018425.

e. McKesson agrees that its authority to distribute all controlled substances from its McKesson Livonia distribution center, DEA Certificate of Registration PM0030849, will be suspended for a period of two (2) years commencing from the Effective Date of this Agreement, except for orders placed by Permitted Registrants ("the Livonia Suspension Period").[1] This suspension shall not apply to or limit McKesson's authority to distribute, or operations involving, List I Chemical products at or from the Livonia distribution center, which are authorized under the DEA registration number PM0030849. McKesson agrees that during this period of suspension, on the 15th of the month following the applicable calendar quarter, it will deliver to DEA, Detroit Field Division, Diversion Regulatory Unit, 431 Howard Street, Detroit, Michigan 48226, a compact disc containing an excel spreadsheet, in a readable format, of all distributions of controlled substances aggregated by drug code from its McKesson Livonia distribution center, Certification of Registration PM0030849, for each previous quarter. McKesson shall notify the Detroit Field Office by email if there are no sales for the applicable period. Within thirty (30) days of the Effective Date, DEA will provide the e-mail address to which McKesson will report to DEA if there are no sales for the applicable period. The data that comprises this spreadsheet shall be taken directly from McKesson's sales data and shall be sorted by the DEA Certification of Registration of the purchaser of the controlled substance.

f. McKesson agrees that its authority to distribute all controlled substances from its McKesson WCH distribution center, DEA Certificate of Registration RM0220688, will be suspended for a period of two (2) years commencing thirty (30) days from the date upon which the DEA Certificate of Registration for the McKesson Livonia distribution center is reinstated, except for orders placed by Permitted Registrants (the "WCH Suspension Period"). In the event the McKesson Livonia distribution center is not reinstated within one hundred and eighty (180) days of completion of the Livonia Suspension Period due to McKesson (i) failing to cure a compliance requirement as identified by DEA in its thirty (30) day advance notice letter described in Section II.2., or (ii) electing to permanently terminate the Livonia registration, the WCH Suspension Period will commence no later than two (2) years and one hundred eighty (180) days from the Effective Date of this Agreement. The McKesson WCH distribution center suspension shall not apply to or limit McKesson's authority to distribute, or operations involving, List I Chemical products at or from the WCH distribution center, which are authorized under the DEA registration number RM0220688. McKesson agrees that during this period of suspension, on the 15th of the month following the applicable calendar quarter, it will deliver to DEA, Detroit Field

[1] For purposes of this agreement "Permitted Registrants" shall include registrants identified in Appendix C. McKesson shall include updates to the Permitted Registrants in the quarterly reports provided to DEA local offices under II.1 e-g.

Division, Diversion Regulatory Unit, 431 Howard Street, Detroit, Michigan 48226, a compact disc containing an excel spreadsheet, in a readable format, of all distributions of controlled substances aggregated by drug code from its McKesson WCH distribution center, Certification of Registration RM0220688, for each previous quarter. McKesson shall notify the Detroit Field Office by email if there are no sales for the applicable period. Within thirty (30) days of the Effective Date, DEA will provide the e-mail address to which McKesson will report to DEA if there are no sales for the applicable period. The data that comprises this spreadsheet shall be taken directly from McKesson's sales data and shall be sorted by the DEA Certification of Registration of the purchaser of the controlled substance.

g. McKesson agrees that its authority to distribute controlled substances containing the drug code for Schedule II hydromorphone products, that is, DEA drug code 9150, from its McKesson Lakeland distribution center, DEA Certificate of Registration PM0000771, will be suspended for a period of one (1) year commencing from the Effective Date of the Agreement, except for orders placed by Permitted Registrants (the "Lakeland Suspension Period"). McKesson agrees that during this period of suspension, on the 15th of the month following the applicable calendar quarter, it will deliver to DEA, Miami Field Division, Diversion Regulatory Unit, 2100 North Commerce Parkway, Weston, Florida 33326, a compact disc containing an excel spreadsheet, in a readable format, of all distributions of hydromorphone (drug code 9150) from its McKesson Lakeland distribution center, Certification of Registration PM0000771, for each previous quarter. McKesson shall notify the Miami Field Office by email if there are no sales for the applicable period. Within thirty (30) days of the Effective Date, DEA will provide the e-mail address to which McKesson will report to DEA if there are no sales for the applicable period. The data that comprises this spreadsheet shall be taken directly from McKesson's sales data and shall be sorted by the DEA Certification of Registration of the purchaser of the hydromorphone.

h. McKesson agrees to reasonably cooperate with DEA, United States Attorneys' Offices, and any other Federal, state, or local law enforcement agency investigating or prosecuting McKesson's customers for alleged violations or activities related to the Covered Conduct unless such matters would affect the rights or obligations of McKesson in regard to any pending or threatened litigation. Such cooperation shall include, but is not limited to, producing records and making employees available for interviews by DEA or other law enforcement authorities, subject to appropriate requests, *e.g.*, administrative subpoena. However, nothing in this paragraph shall be construed as a waiver by McKesson or its employees of any constitutional rights or rights that the company would have as a party to a matter involving pending or threatened litigation with the government or a third party, including without limitation attorney-client or attorney work product privileges.

i. Pursuant to the 2017 Settlement Agreement and Release, McKesson agrees to a settlement payment to the United States of America in the amount of $150,000,000.00 in settlement of claims or potential claims made by the United States of America for failing to report suspicious orders of controlled substances. McKesson agrees to execute the 2017 Settlement Agreement and Release simultaneously with the execution of this Agreement and to execute any other documents necessary to fully and finally settle all claims of the United States of America under this subparagraph, and to fully pay said settlement payment penalties within five (5) days of the Effective Date of this Agreement.

j. Any material breach by any McKesson facility of subsections II.1.b-g of this Agreement by McKesson after the Effective Date of this Agreement, where McKesson has not cured such breach as may be allowed under relevant law, regulation, this Agreement and Compliance Addendum may be a basis upon which DEA takes administrative action seeking the revocation and/or the suspension of the DEA Certificates of Registration of any of McKesson's distribution centers. However, nothing in this Agreement or the Compliance Addendum shall be deemed a waiver of McKesson's Due Process rights.

k. In any case where a supplier inadvertently ships controlled substances to any McKesson suspended facility, McKesson shall promptly return the product to the supplier. McKesson shall maintain a record of such receipt and return for two (2) years.

l. In any case where a customer inadvertently returns controlled substances to any McKesson suspended facility, McKesson shall promptly send the product to another McKesson DC for processing. McKesson shall maintain a record of such receipt and transfer for two (2) years.

m. Any McKesson suspended facility receiving a DEA Order Form 222 shall promptly endorse such Order Form to another, non-suspended McKesson facility pursuant to 21 C.F.R. § 1305.14. McKesson shall maintain a record of any endorsement and transfer of an order form for two (2) years.

n. In the event that any controlled substance maintained at a suspended McKesson facility is no longer required to be stocked or sold to a Permitted Registrant, the suspended McKesson facility may transfer such controlled substance to another non-suspended McKesson facility. Such transaction shall be reflected in the quarterly transaction report submitted to the appropriate local DEA field office as described in subsection II.1.e-g of this Agreement.

2 Obligations of DEA.

a. DEA does not endorse or approve of any specific system or approach implemented by DEA registrants to satisfy their obligations under 21 C.F.R. § 1301.74(b) or 21 U.S.C. § 823(b)(1). DEA has taken no action during the

negotiation of this Agreement, and is taking no action by entering into this Agreement, that can be interpreted to be directly or indirectly endorsing or approving the system that McKesson is currently utilizing to meet its obligations under the CSA and the implementing regulations. Going forward, DEA's actions in fulfilling the oversight of McKesson under this Agreement, including the receipt of information and/or its participation in meetings with McKesson representatives, shall not be construed or interpreted to be directly or indirectly endorsing or approving the system that McKesson is utilizing to meet its obligations under the CSA and the implementing regulations.

b. DEA agrees to accept at DEA Headquarters the information regarding suspicious orders as described in subsection II.1.c. of this Agreement.

c. In the event that DEA discovers information about conduct during the Covered Time Period that may warrant administrative action, and which is not otherwise included under the Covered Conduct, DEA shall favorably consider McKesson's entry into this Agreement, the Compliance Addendum, and the civil penalties paid pursuant to the Settlement Agreement and Release; all actions taken by McKesson pursuant to this Agreement and Compliance Addendum; any remedial actions taken by McKesson to address the alleged or perceived violative conduct; and the compliance history of McKesson at the particular facility, and at other McKesson facilities.

d. Unless DEA determines that McKesson is in noncompliance with the terms of this Agreement, after providing McKesson with prior written notice of alleged noncompliance with the terms of this Agreement and providing McKesson with at least thirty (30) days to respond to any such notice, DEA agrees that it will lift the suspension of McKesson Aurora's distribution center, DEA Certificate of Registration PM0018425, and, if needed, grant any requisite registration renewal, no later than the end of the Aurora Suspension Period.

e. Unless DEA determines that McKesson is in noncompliance with the terms of this Agreement, after providing McKesson with prior written notice of alleged noncompliance with the terms of this Agreement and providing McKesson with at least thirty (30) days to respond to any such notice, DEA agrees that it will lift the suspension of McKesson Livonia distribution center, DEA Certificate of Registration PM0030849, and, if needed, grant any requisite registration renewal, no later than the end of the Livonia Suspension Period.

f. Unless DEA determines that McKesson is in noncompliance with the terms of this Agreement, after providing McKesson with prior written notice of alleged noncompliance with the terms of this Agreement and providing McKesson with at least thirty (30) days to respond to any such notice, DEA agrees that it will lift the suspension of McKesson WCH distribution center, DEA Certificate of Registration RM0220688, and, if needed, grant any requisite registration renewal, no later than the end of the WCH Suspension Period.

g. Unless DEA determines that McKesson is in noncompliance with the terms of this Agreement, after providing McKesson with prior written notice of alleged noncompliance with the terms of this Agreement and providing McKesson with at least thirty (30) days to respond to any such notice, DEA agrees that it will reinstate the ability of the McKesson Lakeland distribution center, DEA Certificate of Registration PM0000771, to distribute the controlled substances containing the drug code for Schedule II hydromorphone products, that is, DEA drug code 9150, no later than the end of the Lakeland Suspension Period.

3. Release by DEA. In consideration of the fulfillment of the obligations of McKesson under this Agreement, DEA agrees to:

a. Fully and finally release McKesson, together with its subsidiary entities, distribution facilities, and registrants, along with its officers, directors, employees, successors, and assigns (collectively, the "Released Parties") from any and all administrative claims within DEA's enforcement authority under 21 U.S.C. §§ 823 & 824 related to the Covered Conduct; and

b. Refrain from filing or taking any administrative actions against the Released Parties within DEA's enforcement authority under 21 U.S.C. §§ 823 & 824, based on the Covered Conduct only to extent that such conduct was or could have been discovered by DEA through the exercise of due diligence through the examination of open investigations and inspections in existence as of the Effective Date of this Agreement, and the review of the reports and records McKesson submitted to DEA prior to the Effective Date of this Agreement. This release applies only to administrative actions brought before or by DEA.

Notwithstanding the releases by DEA contained in this Paragraph, DEA reserves the right to seek to admit evidence of the Covered Conduct for proper evidentiary purposes in any other administrative proceeding against the Released Parties for non-Covered Conduct. Further, nothing in this Paragraph shall prohibit or limit any other agency within the Department of Justice, any State attorney general, or any other law enforcement, administrative, or regulatory agency of the United States or any State thereof, from initiating administrative, civil, or criminal proceedings with respect to the Covered Conduct. DEA shall, as obligated in fulfilling its statutory duties, assist and cooperate with any agency that initiates an investigation, action, or proceeding involving the Covered Conduct. At McKesson's request, DEA agrees to disclose the terms of this Agreement to any other agency and will represent, assuming McKesson is in compliance with this Agreement, that the allegations raised by DEA, as defined in the Covered Conduct, have been adequately addressed. This release is applicable only to the Released Parties and is not applicable in any manner to any other individual, partnership, corporation, or entity.

4 Release by McKesson. McKesson fully and finally releases the United States of America, its agencies, employees, servants, and agents from any claims (including attorney's fees, costs, and expenses of every kind and however denominated) which McKesson has asserted, could have asserted, or may assert in the future against the United States of America, its

agencies, employees, servants, and agents, related to the Covered Conduct and the United States' investigation and prosecution thereof.

5. Reservation of Claims. Notwithstanding any term of this Agreement, specifically reserved and excluded from the scope and terms of this Agreement as to any entity or person (including McKesson) are the following:

a. Any potential criminal liability;

b. Any civil, criminal or administrative liability arising under Title 26, U.S. Code (Internal Revenue Code);

c. Any administrative liability to the United States other than administrative claims released in Paragraph II.3.a. and b.

d. Any civil liability to the United States, other than the civil claims released in the 2017 Settlement Agreement and Release; or

III. Miscellaneous

Any modifications to this Agreement shall be set forth in writing and signed by all Parties. McKesson represents that this Agreement is entered into with advice of counsel and knowledge of the events described herein. McKesson further represents that this Agreement is voluntarily entered into in order to avoid litigation, without any degree of duress or compulsion.

IN RE:	)	
	)	
MCKESSON CORPORATION	)	CONSENT AGREEMENT
	)	
Case No. 2021-PHA-17215	)	

PARTIES

This document is a Consent Agreement regarding the pending application of McKesson Corporation for the renewal of its prescription drug wholesaler license. The parties to this Consent Agreement are: McKesson Corporation ("McKesson"), the Maine Board of Pharmacy ("the Board"), and the Office of the Maine Attorney General ("the Attorney General"). This Consent Agreement is entered into pursuant to 10 M.R.S. § 8003(5-A).

STATEMENT OF FACTS

1. Since October 17, 2011, McKesson has been licensed in Maine as a prescription drug wholesaler with a registered location of 1995 McKesson Street, Suite 101, Aurora, Illinois (license number **WH70001735**).

2. On October 4, 2019, the Colorado State Board of Pharmacy imposed discipline against McKesson's Colorado registration as an out-of-state prescription drug wholesaler (Registration # WHO 7154) in Case No. 2019-5119.

3. McKesson then failed to report the Colorado disciplinary action to the Board within 10 days as required by 10 M.R.S. § 8003-G(2)(C).

4. On November 22, 2019, McKesson submitted an application for renewal of its Maine license and reported to the Board for the first time that it had been disciplined by the Colorado State Board of Pharmacy.

5. Pursuant to 10 M.R.S. § 8003(5-A)(A)(11) and 10 M.R.S. § 8003-G(2)(C), the Board may deny, refuse to renew, suspend, or revoke a license and impose other discipline for failing to report a license disciplinary action to the Board within 10 days of that action.

6. At its meeting on January 7, 2021, the Board reviewed the above information and voted to preliminarily deny McKesson's application for renewal of its license to be a prescription drug wholesaler. In lieu of the denial, the Board also voted to offer McKesson this Consent Agreement. Unless McKesson either requests, in writing, a hearing regarding the appeal of the preliminary denial within thirty (30) days of receipt of the Notice of Preliminary Denial, or accepts this Consent Agreement by signing and dating it and returning it to Maine Board of Pharmacy, Compliance Division, Office of Professional and Occupational Regulation, 35 State House Station, Augusta, Maine 04333, by **May 16, 2021,** the preliminary denial of McKesson's application for licensure as a prescription drug wholesaler will become final.

COVENANTS

7. McKesson admits to the facts above and admits that such conduct constitutes grounds for denial of or refusal to renew its license and for the imposition of discipline pursuant to 10 M.R.S. § 8003(5-A)(A)(11) and 10 M.R.S. § 8003-G(2)(C) for failing to report disciplinary action taken in another jurisdiction against a professional license no later than 10 days after the action was taken.

8. As discipline for the violation admitted to in paragraph 7 above, McKesson agrees to accept the following DISCIPLINARY ACTION:

a) A REPRIMAND; and

b) A CIVIL PENALTY in the amount of five hundred dollars ($500.00) payment of which shall be made payable to the "Treasurer, State of Maine" and delivered to Maine Board of Pharmacy, Compliance Division, Office of Professional and Occupational Regulation, 35 State House Station, Augusta, Maine 04333, and must be submitted with the signed Consent Agreement.

9. Upon receipt of the signed Consent Agreement with the enclosed payment of the civil penalty from McKesson, the Board will renew McKesson's license contingent upon it meeting all other eligibility criteria.

10. Violation of any of the terms or conditions of this Consent Agreement by McKesson shall constitute grounds for discipline, including but not limited to modification, suspension, or revocation of licensure or the denial of licensure or re-licensure.

11. The Board and McKesson agree that no further agency action will be initiated against its license by the Board based upon the specific violations admitted to herein, except or unless McKesson fails to comply with the terms and conditions of this Consent Agreement. The Board may however consider the conduct described above as evidence of a pattern of misconduct if other allegations are brought against McKesson, and this Consent Agreement will be admitted into evidence in any future adjudicatory hearing involving McKesson. The Board may also consider the fact that discipline was imposed by this Consent Agreement in determining appropriate discipline in any further complaints against McKesson.

12. This Consent Agreement is not appealable and is effective until modified or terminated by the parties hereto.

13. The Board and the Attorney General may communicate and cooperate regarding any matter related to this Consent Agreement.

14. This Consent Agreement is a public record within the meaning of 1 M.R.S. § 402 and will be available for inspection and copying by the public pursuant to 1 M.R.S. § 408-A.

15. Nothing in this Consent Agreement shall be construed to affect any right or interest of any person not a party hereto.

16. McKesson acknowledges by its duly authorized representative's signature hereto that it has had an opportunity to consult with an attorney before executing this Consent Agreement, that it executes this Consent Agreement voluntarily, and that it agrees to abide by all terms and conditions set forth herein.

FACTUAL ALLEGATIONS – CHILDREN'S MEDICAL CENTER PHARMACY

18. At all times relevant herein, the Children's Medical Center Pharmacy, also known as the Rady Children's Outpatient Pharmacy (Rady Pharmacy), was part of the Rady Children's Hospital of San Diego. According to its website, it is the only hospital in the San Diego area dedicated exclusively to pediatric healthcare.

19. Between May 7, 2017 and June 26, 2018, the Rady Pharmacy could not account for an inventory shortage of approximately 119 pints of P/C and 5,300 tablets of alprazolam 2mg. A pharmacy technician at the Rady Pharmacy had stolen these dangerous drugs and controlled substances for herself and her friends.

Promethazine with codeine syrup 6.25 mg-10 mg / 5 ml (P/C)

20. Based on Lexicomp Online, a collection of clinical database and clinical decision support tools, P/C is not recommended in pediatrics due to risk of adverse effects, such as slowed or difficult breathing, misuse, abuse, addiction, overdose, and death.

21. According to the pharmacy manager, the Rady Pharmacy did not use or dispense P/C because pediatric doctors did not prescribe P/C to children. On the rare occasion the doctor prescribed P/C, it would be during the winter season according to the pharmacy manager.

22. According to Respondent McKesson's sales records, Respondent McKesson sold, on average, less than two 16-ounce bottles of P/C **per year** to the Rady Pharmacy between January 2014 and August 2017. Beginning in September 2017, the sales of P/C displayed an irregular pattern compared to the previous ordering pattern:

February 2018	10
March 2018	15
April 2018	10
May 2018	18
June 2018	17

23. When calculating the monthly percentage change in sales, there were sales of P/C which varied from 40% to 80% more than the sale from the previous month.

24. The orders for P/C beginning in September 2017 were significantly larger and were shipped in consecutive months from September 2017 to June 2018, which totaled approximately 119 pints or 56,287 ml of P/C.

Alprazolam 2mg

25. Alprazolam is available in dosages of 0.25 mg, 0.5 mg, 1 mg, and 2mg.

26. According to Lexicomp Online, alprazolam should be titrated and used at the lowest effective dose. Lexicomp provided the following dosing information: "*Children ≥ 7 years and Adolescents < 18 years: Limited data available... Initial: 0.005 to 0.02 mg/kg/dose 3 times daily... maximum of 0.02 mg/kg/dose.*" For example, if a child is 40 kg (about 88 pounds), the dosing range is from 0.2 to 0.8 mg per dose.

27. According to Respondent McKesson's sales records, Respondent McKesson sold, on average, one bottle of 100-count alprazolam 2mg **per year** between January 2014 and September 2017. Beginning in October 2017, the sales of alprazolam 2mg displayed an irregular pattern compared to the previous ordering pattern:

28. When calculating the monthly percentage change in sales, there were sales of alprazolam 2mg which varied from 250% to 275% more than the sale from the previous month.

29. The orders for alprazolam 2mg beginning in October 2017 were significantly larger and were shipped in consecutive months (except April 2018) from October 2017 to May 2018, which totaled approximately 5,100 tablets of alprazolam 2 mg.

FIRST CAUSE FOR DISCIPLINE

(Unprofessional Conduct – Excessive Furnishing of Controlled Substances)

30. Respondents are subject to disciplinary action under Code section 4301, subsection (e), in that Respondents clearly and excessively furnished controlled substances in violation of California Health and Safety Code section 11153.5, subsection (a), as follows:

a. Respondents furnished the Rady Pharmacy one to two pints of P/C in non-consecutive months from January 2014 to August 2017. Sales increased to seven to 18 pints ordered in consecutive months from September 2017 to June 2018.

b. Respondents furnished the Rady Pharmacy 100 to 200 tablets of alprazolam 2mg in non-consecutive months from January 2014 to September 2017. Sales increased to 400 to 1,500 tablets ordered in consecutive months from October 2017 to May 2018 (except April 2018).

c. Respondents furnished the Rady Pharmacy large quantities of controlled substances (P/C and alprazolam 2mg) that are not typically distributed to pediatric patients.

d. The P/C and alprazolam 2mg furnished by Respondents were not dispensed to patients for legitimate medical purposes but were diverted by a pharmacy technician.

Paragraphs 18 to 29 are re-alleged as if fully set forth herein.

FACTUAL ALLEGATIONS – CARING PHARMACY

31. On January 7, 2020, a Board inspector conducted an inspection of Caring Pharmacy (Caring Pharmacy), located at 25802 Hemingway Avenue #103, Stevenson Ranch, CA 91381. K.F. is a licensed pharmacist and the owner of Caring Pharmacy. S.F. is K.F's wife and is an unlicensed individual.

32. During this inspection at approximately 9:30 a.m., the Board inspector observed Respondent McKesson's delivery driver bring a drug tote (Drug Tote) to S.F.'s car in front of Caring Pharmacy. S.F. signed for the delivery, and the delivery driver left. S.F. subsequently brought the Drug Tote into Caring Pharmacy.

33. Shortly thereafter, the Board inspector entered Caring Pharmacy, and S.F. stated that no pharmacist was present at Caring Pharmacy at that time. The invoice that accompanied the Drug Tote revealed that the Drug Tote consisted of Emgality and Repatha, both of which are dangerous drugs under California Business and Professions Code section 4022.

SECOND CAUSE FOR DISCIPLINE

(Violation of Statute Regulating Dangerous Drugs)

34. Respondents are subject to disciplinary action under Code section 4301, subsection (j), in that Respondents committed unprofessional conduct by violating California Business and Professions Code section 4059.5, subsection (a). Specifically, on or about January 7, 2020, Respondents delivered dangerous drugs to Caring Pharmacy, but the drugs were not signed for or received by a pharmacist. The drugs were signed for by an unlicensed individual.

THIRD CAUSE FOR DISCIPLINE

(Violation of Pharmacy Law)

15. Section 4022 of the Code states: "'Dangerous drug' or 'dangerous device' means any drug or device unsafe for self use, except veterinary drugs that are labeled as such, and includes the following:

...

(c) Any other drug or device that by federal or state law can be lawfully dispensed only on prescription or furnished pursuant to Section 4006."

16. Phenergan with Codeine Syrup 6.25 mg – 10 mg / 5 ml is the brand name for promethazine with codeine syrup 6.25 mg-10 mg / 5 ml (P/C), a Schedule V controlled substance designated by California Health and Safety Code section 11058(c)(1) and a dangerous drug designated by California Business and Professions Code section 4022. It is used to treat coughing.

17. Xanax is the brand name for alprazolam, a Schedule IV controlled substance designated by California Health and Safety Code section 11057(d)(1) and a dangerous drug designated by California Business and Professions Code section 4022. It is used to treat anxiety.

FACTUAL ALLEGATIONS – CHILDREN'S MEDICAL CENTER PHARMACY

18. At all times relevant herein, the Children's Medical Center Pharmacy, also known as the Rady Children's Outpatient Pharmacy (Rady Pharmacy), was part of the Rady Children's Hospital of San Diego. According to its website, it is the only hospital in the San Diego area dedicated exclusively to pediatric healthcare.

19. Between May 7, 2017 and June 26, 2018, the Rady Pharmacy could not account for an inventory shortage of approximately 119 pints of P/C and 5,300 tablets of alprazolam 2mg. A pharmacy technician at the Rady Pharmacy had stolen these dangerous drugs and controlled substances for herself and her friends.

Promethazine with codeine syrup 6.25 mg-10 mg / 5 ml (P/C)

20. Based on Lexicomp Online, a collection of clinical database and clinical decision support tools, P/C is not recommended in pediatrics due to risk of adverse effects, such as slowed or difficult breathing, misuse, abuse, addiction, overdose, and death.

21. According to the pharmacy manager, the Rady Pharmacy did not use or dispense P/C because pediatric doctors did not prescribe P/C to children. On the rare occasion the doctor prescribed P/C, it would be during the winter season according to the pharmacy manager.

22. According to Respondent McKesson's sales records, Respondent McKesson sold, on average, less than two 16-ounce bottles of P/C **per year** to the Rady Pharmacy between January 2014 and August 2017. Beginning in September 2017, the sales of P/C displayed an irregular pattern compared to the previous ordering pattern:

P/C Sold from Respondent McKesson to the Rady Pharmacy	
Date	**Bottles (16oz) of P/C Sold**
September 2017	11
October 2017	7
November 2017	7
December 2017	10
January 2018	14
February 2018	10
March 2018	15
April 2018	10
May 2018	18
June 2018	17

23. When calculating the monthly percentage change in sales, there were sales of P/C which varied from 40% to 80% more than the sale from the previous month.

24. The orders for P/C beginning in September 2017 were significantly larger and were shipped in consecutive months from September 2017 to June 2018, which totaled approximately 119 pints or 56,287 ml of P/C.

Alprazolam 2mg

25. Alprazolam is available in dosages of 0.25 mg, 0.5 mg, 1 mg, and 2mg.

26. According to Lexicomp Online, alprazolam should be titrated and used at the lowest effective dose. Lexicomp provided the following dosing information: "*Children ≥ 7 years and Adolescents < 18 years: Limited data available... Initial: 0.005 to 0.02 mg/kg/dose 3 times daily... maximum of 0.02 mg/kg/dose.*" For example, if a child is 40 kg (about 88 pounds), the dosing range is from 0.2 to 0.8 mg per dose.

STATEMENT OF CHARGES AND NOTICE OF HEARING

TO: McKesson Drug Company
9501 Norwalk Boulevard
Santa Fe Springs, California 90670

Pursuant to the provisions of Code of Alabama (1975), § 34-23-32, § 34-23-92(12) and Code of Alabama (1975), § 41-22-12, you are hereby notified and requested to appear before the Alabama State Board of Pharmacy (hereinafter referred to as the "Board") on June 20, 2023 at 8:00 a.m., at the State Board of Pharmacy Conference Room, 111 Village Street, Birmingham, Alabama 35242, and from time to time thereafter as may be required by the Board for the purpose of a hearing to determine why the permit to operate McKesson Drug Company as a Wholesale Distributor should not be subject to the discipline set out in Board Rule 680-X-2.23(h)(2)(i)(2) based upon any or all of the following, to-wit:

1. Pursuant to Board Rule 680-X-2.23(g)(3), the Board of Pharmacy shall consider, at a minimum, the following factors in reviewing the qualifications of those entities (a wholesaler) permitted for operation within the State of Alabama:

   a. Compliance with licensing requirements under previously granted licenses ((g)(3)(vi)).

   b. Any other factors or qualifications the Board of Pharmacy considers relevant to and consistent with public health and safety.

((g)(3)(viii)).

4. The Board alleges you have not complied with the licensing requirements under previously granted licenses, you have not operated consistent with public health and safety, you have operated in such a manner as to endanger the public health and/or you have not complied with applicable State law based upon the following:

At the aforesaid time and place and from time to time thereafter as may be directed by the Board, you may be represented by an attorney, if you so desire, cross-examine all witnesses who testify against you and present such evidence in your own behalf in response to these charges as you consider necessary and appropriate.

[1] This Rule was amended effective October 15, 2020 to add additional entities now regulated by the Board; however, the Rule prior to the Amendment applied to and was in full force and effect as to the permit held by the Respondent at the time of the referenced discipline.

FACTUAL ALLEGATIONS – CHILDREN'S MEDICAL CENTER PHARMACY

18. At all times relevant herein, the Children's Medical Center Pharmacy, also known as the Rady Children's Outpatient Pharmacy (Rady Pharmacy), was part of the Rady Children's Hospital of San Diego. According to its website, it is the only hospital in the San Diego area dedicated exclusively to pediatric healthcare.

19. Between May 7, 2017 and June 26, 2018, the Rady Pharmacy could not account for an inventory shortage of approximately 119 pints of P/C and 5,300 tablets of alprazolam 2mg. A pharmacy technician at the Rady Pharmacy had stolen these dangerous drugs and controlled substances for herself and her friends.

Promethazine with codeine syrup 6.25 mg-10 mg / 5 ml (P/C)

20. Based on Lexicomp Online, a collection of clinical database and clinical decision support tools, P/C is not recommended in pediatrics due to risk of adverse effects, such as slowed or difficult breathing, misuse, abuse, addiction, overdose, and death.

21. According to the pharmacy manager, the Rady Pharmacy did not use or dispense P/C because pediatric doctors did not prescribe P/C to children. On the rare occasion the doctor prescribed P/C, it would be during the winter season according to the pharmacy manager.

22. According to Respondent McKesson's sales records, Respondent McKesson sold, on average, less than two 16-ounce bottles of P/C **per year** to the Rady Pharmacy between January 2014 and August 2017. Beginning in September 2017, the sales of P/C displayed an irregular pattern compared to the previous ordering pattern:

24. The orders for P/C beginning in September 2017 were significantly larger and were shipped in consecutive months from September 2017 to June 2018, which totaled approximately 119 pints or 56,287 ml of P/C.

Alprazolam 2mg

25. Alprazolam is available in dosages of 0.25 mg, 0.5 mg, 1 mg, and 2mg.

26. According to Lexicomp Online, alprazolam should be titrated and used at the lowest effective dose. Lexicomp provided the following dosing information: "*Children ≥ 7 years and Adolescents < 18 years: Limited data available... Initial: 0.005 to 0.02 mg/kg/dose 3 times daily... maximum of 0.02 mg/kg/dose.*" For example, if a child is 40 kg (about 88 pounds), the dosing range is from 0.2 to 0.8 mg per dose.

27. According to Respondent McKesson's sales records, Respondent McKesson sold, on average, one bottle of 100-count alprazolam 2mg **per year** between January 2014 and September 2017. Beginning in October 2017, the sales of alprazolam 2mg displayed an irregular pattern compared to the previous ordering pattern:

FIRST CAUSE FOR DISCIPLINE

(Unprofessional Conduct – Excessive Furnishing of Controlled Substances)

30. Respondents are subject to disciplinary action under Code section 4301, subsection (e), in that Respondents clearly and excessively furnished controlled substances in violation of California Health and Safety Code section 11153.5, subsection (a), as follows:

a. Respondents furnished the Rady Pharmacy one to two pints of P/C in non-consecutive months from January 2014 to August 2017. Sales increased to seven to 18 pints ordered in consecutive months from September 2017 to June 2018.

b. Respondents furnished the Rady Pharmacy 100 to 200 tablets of alprazolam 2mg in non-consecutive months from January 2014 to September 2017. Sales increased to 400 to 1,500 tablets ordered in consecutive months from October 2017 to May 2018 (except April 2018).

c. Respondents furnished the Rady Pharmacy large quantities of controlled substances (P/C and alprazolam 2mg) that are not typically distributed to pediatric patients.

d. The P/C and alprazolam 2mg furnished by Respondents were not dispensed to patients for legitimate medical purposes but were diverted by a pharmacy technician.

Paragraphs 18 to 29 are re-alleged as if fully set forth herein.

Case No. 2021-PHA-17216	)	

PARTIES

This document is a Consent Agreement regarding the pending application of McKesson Medical-Surgical, Inc. for the renewal of its prescription drug wholesaler license. The parties to this Consent Agreement are: McKesson Medical-Surgical, Inc. ("McKesson"), the Maine Board of Pharmacy ("the Board"), and the Office of the Maine Attorney General ("the Attorney General"). This Consent Agreement is entered into pursuant to 10 M.R.S. § 8003(5-A).

STATEMENT OF FACTS

1. Since December 17, 2019, McKesson has been licensed in Maine as a prescription drug wholesaler with a registered location of 7701 Foothills Boulevard, Roseville, California (license number **WH70003094**).

2. On June 30, 2020, the Colorado State Board of Pharmacy imposed discipline against McKesson's Colorado registration as an out-of-state prescription drug wholesaler (Registration # WHO 8346) in Case No. 2018-8861.

3. McKesson then failed to report the Colorado disciplinary action to the Board within 10 days as required by 10 M.R.S. § 8003-G(2)(C).

4. On December 10, 2020, McKesson submitted an application for renewal of its Maine license and reported to the Board for the first time that it had been disciplined by the Colorado State Board of Pharmacy.

5. Pursuant to 10 M.R.S. § 8003(5-A)(A)(11) and 10 M.R.S. § 8003-G(2)(C), the Board may deny, refuse to renew, suspend, or revoke a license and impose other discipline for failing to report a license disciplinary action to the Board within 10 days of that action.

6. At its meeting on January 7, 2021, the Board reviewed the above information and voted to preliminarily deny McKesson's application for renewal of its license to be a prescription drug wholesaler. In lieu of the denial, the Board also voted to offer McKesson this Consent Agreement. Unless McKesson either requests, in writing, a hearing regarding the appeal of the preliminary denial within thirty (30) days of receipt of the Notice of Preliminary Denial, or accepts this Consent Agreement by signing and dating it and returning it to Maine Board of Pharmacy, Compliance Division, Office of Professional and Occupational Regulation, 35 State House Station, Augusta, Maine 04333, by **May 17, 2021,** the preliminary denial of McKesson's application for licensure as a prescription drug wholesaler will become final.

COVENANTS

7. McKesson admits to the facts above and admits that such conduct constitutes grounds for denial of or refusal to renew its license and for the imposition of discipline pursuant to 10 M.R.S. § 8003(5-A)(A)(11) and 10 M.R.S. § 8003-G(2)(C) for failing to report disciplinary action taken in another jurisdiction against a professional license no later than 10 days after the action was taken.

8. As discipline for the violation admitted to in paragraph 7 above, McKesson agrees to accept the following DISCIPLINARY ACTION:

a) A REPRIMAND; and

b) A CIVIL PENALTY in the amount of five hundred dollars ($500.00) payment of which shall be made payable to the "Treasurer, State of Maine" and delivered to Maine Board of Pharmacy, Compliance Division, Office of Professional and Occupational Regulation, 35 State House Station, Augusta, Maine 04333, and must be submitted with the signed Consent Agreement.

9. Upon receipt of the signed Consent Agreement with the enclosed payment of the civil penalty from McKesson, the Board will renew McKesson's license contingent upon it meeting all other eligibility criteria.

10. Violation of any of the terms or conditions of this Consent Agreement by McKesson shall constitute grounds for discipline, including but not limited to modification, suspension, or revocation of licensure or the denial of licensure or re-licensure.

11. The Board and McKesson agree that no further agency action will be initiated against its license by the Board based upon the specific violations admitted to herein, except or unless McKesson fails to comply with the terms and conditions of this Consent Agreement. The Board may however consider the conduct described above as evidence of a pattern of misconduct if other allegations are brought against McKesson, and this Consent Agreement will be admitted into evidence in any future adjudicatory hearing involving McKesson. The Board may also consider the fact that discipline was imposed by this Consent Agreement in determining appropriate discipline in any further complaints against McKesson.

12. This Consent Agreement is not appealable and is effective until modified or terminated by the parties hereto.

13. The Board and the Attorney General may communicate and cooperate regarding any matter related to this Consent Agreement.

14. This Consent Agreement is a public record within the meaning of 1 M.R.S. § 402 and will be available for inspection and copying by the public pursuant to 1 M.R.S. § 408-A.

15. Nothing in this Consent Agreement shall be construed to affect any right or interest of any person not a party hereto.

16. McKesson acknowledges by its duly authorized representative's signature hereto that it has had an opportunity to consult with an attorney before executing this Consent Agreement, that it executes this Consent Agreement voluntarily, and that it agrees to abide by all terms and conditions set forth herein.

BEFORE THE BOARD OF PHARMACY

STATE OF IDAHO

In the Matter of the Registration of: McKESSON MEDICAL SURGICAL, INC., License/Registration Nos. W2699, W65254 Respondent.	Case Nos. BOP-21-092, BOP-22-067 **STIPULATION AND CONSENT ORDER**

The Idaho Board of Pharmacy, ("Board") has received information that constitutes sufficient grounds for the initiation of an administrative action against McKesson Medical Surgical, Inc. ("Respondent"), and the parties mutually agree to settle the matter in an expeditious manner in lieu of administrative hearings before the Board. Therefore, the parties STIPULATE AND AGREE as follows:

I.
STIPULATED FACTS AND LAW

1. The Board regulates the practice of pharmacy in the State of Idaho in accordance with Title 54, Chapter 17, of the Idaho Code, (the Idaho Pharmacy Act), the regulating provisions of Title 37, Chapter 27 (the Uniform Controlled Substances Act), and the Board's rules promulgated as IDAPA 24.36.01, *et seq.* (formerly IDAPA 27.01.01, *et seq.*).

2. Respondent operates multiple facilities that operate into Idaho and holds a registration from the Board for each of those facilities, accordingly.

3. In February 2003, the Board first issued Idaho Wholesale Distributor Registration No. W2699, ("Chino Registration") to Respondent for a facility located in Chino, California to operate as a Wholesaler and distribute prescription drugs into the State of Idaho.

4. On May 23, 2018, the Board first issued Idaho Wholesale Distributor Registration No. W48214, to Respondent for a facility located in Roseville, California to operate as a Wholesaler and distribute prescription drugs into the State of Idaho. That registration expired on December 31, 2020. After that registration expired and was canceled, the Board subsequently reinstated Respondent's registration for the Roseville facility on February 3, 2022, and issued Registration No. W65254 ("Roseville Registration").

5. Respondent's registrations are subject to the provisions of the Idaho Pharmacy Act, Uniform Controlled Substances Act, and the Board's Administrative Rules.

FACTUAL BACKGROUND

Case No. 21-092 – CHINO REGISTRATION

6. On February 14, 2020, Melissa Baca submitted a change in designated representative application and mailed her fingerprints to the Board.

7. On February 20, 2020, the Board sent a deficiency notice to Ms. Baca indicating that Ms. Baca needed to submit a residential history and business interest history to complete her application. Ms. Baca represents she did not receive this letter.

8. On March 3, 2020, Ms. Baca, again, uploaded the designated representative oath, designated representative photograph, government identification, and privacy statement.

9. On August 7, 2020, the Board sent a notice to Ms. Baca indicating that the designated representative application had expired, and that a new application would have to be submitted. Ms. Baca represents she did not receive this letter.

10. On December 7, 2020, Respondent submitted a renewal application for the Chino Registration.

11. On December 20, 2020, the Chino Registration was renewed by the Board. Respondent's information identified Melissa Baca as the designated representative on the Board's online licensing portal along with a registration number, although no expiration or issue date was noted.

12. On January 8, 2021, the Board sent a notice to Respondent at its address of record indicating that it had been operating without a designated representative and that a new designated representative application would have to be submitted. Respondent represents it did not receive this letter.

13. On April 1, 2021, the Board's investigator sent a notice to Respondent at its address of record in Chino, California, indicating that it had been operating without a designated representative and that a new designated representative application would have to be submitted and that Respondent could be subject to discipline for operating without a registered designated representative. The notice also requested a response and documentation of all shipments made by Respondent into Idaho since February 14, 2020. Respondent represents it did not receive this letter and does not deny that it did not respond.

14. On April 26, 2021, Ms. Baca asserts she received a letter through email dated May 7, 2020, from the Board informing her of deficiencies in her prior designated representative application. Ms. Baca forwarded the letter to Elaine Stutman, McKesson licensing specialist. On April 26, Ms. Stutman requested copies of any deficiency letters sent by the Board and represented Respondent had not previously received any deficiency letters.

15. On April 27, 2021, Wendy Muir, Board licensing specialist, responded to Ms. Stutman via email that Ms. Baca's designated representative application had expired and that a new application was required.

16. On May 3, 2021, Ms. Baca submitted a new application for a designated representative.

17. On May 4, 2021, the Board sent a deficiency letter to Ms. Baca indicating that Ms. Baca needed to submit fingerprints and an updated government identification as it was expired. Ms. Baca received this letter.

18. On May 18, 2021, Ms. Stutman informed the Board via email that Ms. Baca's current government identification had been uploaded to the Board licensing portal and the fingerprints would be mailed on May 19, 2021. The Board's licensing portal does not contain a record that the current identification was uploaded. The fingerprints were received by the Board on May 21, 2023.

19. On June 25, 2021, the Board's investigator followed up on the April 1, 2021 letter and emailed another representative of Respondent again requesting a list of all shipments made into Idaho from February 14, 2020, to present. On June 28, 2021, Respondent provided the requested information to the Board.

20. On September 28, 2021, Board counsel advised Respondent counsel that the Board did not receive the May 18, 2021 government identification upload.

21. On October 1, 2021, Ms. Baca's current government identification was uploaded to the Board licensing portal.

22. On October 26, 2021, the Chino Registration was renewed by the Board with Melissa Baca identified as the designated representative on the Board's online licensing portal.

23. On October 27, 2021, Respondent received notice that Ms. Baca's designated representative registration was complete and approved.

24. On December 14, 2022, the Chino Registration was renewed by the Board with Melissa Baca identified as the designated representative on the Board's online licensing portal.

25. The parties acknowledge the COVID-19 pandemic led to self-isolate and stay-at-home orders around the globe. Both Idaho and California were subject to various stay-at-home orders starting in March 2020.

26. IDAPA 24.36.01.200 states that a license or registration will only be renewed once the applicant "has satisfied the requirements of applicable statutes, and any additional criteria specified by these rules."

27. Respondent represents the Chino Registration renewals with Ms. Baca listed as designated representative on the Board licensing portal and its assertion that it did not receive deficiency letters led Respondent to understand there were no issues.

CASE #22-067 – ROSEVILLE REGISTRATION

28. On and before December 31, 2020, Respondent's contact information on file with the Board for Registration No. W48214 had the email address of gene.moody@mckesson.com.

29. On December 23, 2020, Respondent submitted a timely application to renew its registration for the Roseville facility. Respondent's renewal application indicated that Respondent had been subject to discipline by a regulatory agency relating to wholesale or retail prescription drug distribution or distribution of a controlled substance. No supporting or explanatory documentation was submitted regarding the disciplinary action.

30. On the same day, December 23, 2020, the Board sent notice that documentation was needed regarding the disciplinary action disclosed on the application. The notification stated that the renewal could not be processed or completed until that documentation had been received.

31. On December 28, 2020, the Board sent a final renewal notice. The final renewal notice stated Respondent's registration would expire after December 31, 2020. It also contained instructions about how to renew a registration, the required documentation, and how to verify the status of a registration. Respondent represents it did not receive this notice.

32. Respondent did not timely complete its renewal application by supplying the required information. Registration No. W48214 expired as of January 1, 2021.

33. On January 4, 2021, Respondent was sent an expiration notice. The expiration notice stated that Respondent was no longer registered with the State of Idaho and that it could renew its registration until January 30, 2021. It also instructed Respondent to cease and desist its activities in Idaho. Respondent represents it did not receive this notice.

34. On November 9, 2021, Respondent attempted to renew its registration and noted the expired status on the Board website. Respondent emailed the Board and was advised to submit a reinstatement application.

35. On the same day, November 9, 2021, Respondent submitted its reinstatement application.

36. On November 30, 2021, the Board sent a deficiency notice with a list of the information and fees necessary to complete the application.

37. In or around January 2022, Respondent provided the Board with the requested information to complete its reinstatement application.

38. On February 3, 2022, the Board issued Registration No. W65254 for the Roseville facility.

39. The Roseville facility was not registered in Idaho between January 1, 2021, and February 3, 2022. During that time, Respondent shipped prescriptions from that facility into Idaho.

40. On January 24, 2022, the Division of Occupational and Professional Licenses (the "Division") sent a letter to Respondent by regular and certified mail notifying it that an investigation was being conducted into whether it had engaged in the practice of pharmacy in Idaho without a registration (the "investigatory letter"). The investigatory letter requested a response to the allegation and documentation about shipments made into Idaho from January 1, 2021 to the date of the letter. The letter requested a response by February 11, 2022. The letter also notified Respondent of its obligation under the Board's administrative rules to fully cooperate with the investigation.

41. The investigatory letter was delivered to the Roseville facility on February 3, 2022. Respondent represents it did not receive this letter.

42. Respondent did not respond or provide the requested information to the Division.

43. Respondent acknowledges that the Board alleges certain violations of the following statutes and rules governing the practice of pharmacy in Idaho:

a. **Failure to provide information for a designated representative:** Idaho Code § 54-1753(g),(h) (2020) (a wholesaler must provide to the Board the name of its designated representative for the facility together with the person's residential history, date and place of birth, employment history, administrative disciplinary history, civil injunctive history, business interests in pharmaceutical-related businesses, felony criminal history, and a photograph.)[1];

[1] On July 1, 2021, the Idaho Pharmacy Act was amended and the qualifications for the designated representative were changed to the person being physically present and actively

b. **Operating without a registration**: Idaho Code § 54-1732(1) (no drug outlet shall be operated until a certificate of registration has been issued to said facility by the Board); IDAPA 24.36.01.230 (a certificate of registration is required for drug outlets prior to doing business in or into Idaho); and

c. **Failure to fully cooperate with an investigation:** IDAPA 24.36.01.503.05 (licensees must fully cooperate with Board investigations).

44. If proven, violations of these laws and rules would constitute grounds for disciplinary action against Respondent's registration to practice pharmacy in Idaho. I.C.§§ 54-1726(1)(f); 54-1728(1)(f).

45. The Board and Respondent acknowledge sufficient mitigating factors exist to warrant resolution via this Stipulation and Consent Order.

II.
WAIVER OF PROCEDURAL RIGHTS

In entering into this Stipulation and Consent Order ("Stipulation"), Respondent or Respondent's legally authorized representative acknowledges the following:

46. The parties mutually agree to resolve this matter in an expeditious manner to avoid the delay, uncertainty, inconvenience and expense of litigation and agree to voluntarily enter into this Stipulation for the purpose of responding to and addressing these allegations.

Respondent hereby freely and voluntarily waives these rights in order to enter into this Stipulation as a resolution of the pending allegations.

49. Respondent understands that in signing this Stipulation, Respondent is enabling the Board to impose the terms set forth in this Stipulation upon Respondent's registrations without further process. Moreover, the Board and its agents, without further notice or action otherwise required by Idaho law or administrative rules, is authorized to enforce all terms of this Stipulation.

filed, Respondent waives any potential right to challenge the Board's impartiality to hear the allegations in the Complaint based on the Board's consideration and rejection of this Stipulation. Respondent does not waive any other rights regarding challenges to Board members.

61. If the Board rejects this Stipulation, with the exception of Respondent's waiver set forth in the preceding paragraph, this Stipulation shall be regarded as null and void, and admissions in this Stipulation and negotiations preceding the signing of this Stipulation will not be admissible at any subsequent disciplinary hearing. Additionally, and with the exception of Respondent's waiver set forth in the preceding paragraph, this Stipulation shall not become effective until it has been approved by a majority of the Board and a Board member signs the attached Order.

PRE-CHARGE CONSENT ORDER

Background

The Maryland State Board of Pharmacy (the "Board") received a self-report from McKesson Medical-Surgical, Inc., (the "McKesson") on July 29, 2024, disclosing that McKesson had distributed four (4) prescription products into Maryland without an appropriate permit. The Board subsequently opened an investigation and received documents indicating that McKesson had distributed approximately 400 prescription orders into Maryland without a Maryland wholesale distributor's permit. The Board is currently processing an application submitted by McKesson for a wholesale distributor's permit.

In lieu of instituting formal proceedings against McKesson in accordance with the Maryland Pharmacy Act, Md. Code Ann., Health Occ. § 12-101 *et seq.*, the Board and McKesson have agreed to resolve this matter as set forth in this Pre-Charge Consent Order.

FINDINGS OF FACT

1. McKesson Medical-Surgical, Inc., is a wholesale distributor located and licensed in Suwanee, Georgia.
2. On or about July 29, 2024, McKesson self-reported to the Board that is distributed four (4) prescription products into Maryland without a wholesale distributor's

permit. McKesson discovered the error with respect to the four (4) prescription products while it was undergoing an inspection conducted by the National Association of Boards of Pharmacy (NABP).

3. The Board subsequently opened an investigation and obtained information from McKesson indicating that it had distributed approximately 400 prescription products into Maryland between September 2019 and September 2024 without a Maryland wholesale distributor's permit.
4. McKesson asserts that the prescription products at issue were miscoded as non-prescription in McKesson's system and thus inadvertently shipped. McKesson further asserts that product classifications have been updated and additional checks have been implemented to ensure accuracy of product information.
5. A wholesale distributor located outside of Maryland must hold a wholesale distributor permit issued by the Board before it may distribute any prescription drugs or prescription devices into Maryland.
6. McKesson has submitted to the Board an application for a wholesale distributor permit, which is pending the resolution of the matter herein.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the Board concludes that McKesson Medical-Surgical, Inc., is subject to discipline in accordance with Md. Code Ann., Health Occ. §§ 12-601, 12-6C-03 and 12-6C-11.

ORDER

Based upon an affirmative vote of the Board under the authority of Md. Code Ann., Health Occ. § 12-101, *et seq.*, it this 19th day of March, 2025, hereby,

ORDERED that McKesson shall pay a FINE in the amount of FIVE THOUSAND DOLLARS ($5,000.00), payable to the Maryland Board of Pharmacy within thirty (30) days of the date of this Order, and mailed to:

Wells Fargo Bank
Attn: State of MD - Board of Pharmacy
Lockbox 2051
401 Market Street
Philadelphia, PA 19106

NOTE: Please include the case number, 25-033, on your check or money order in order to ensure proper assignment to this case; and be it further,

ORDERED that upon payment of the fine assessed above, the Board shall process the application submitted by McKesson for a wholesale distributor's permit and shall issue such permit provided that all application requirements are otherwise satisfied; and be it further,

ORDERED that in the event that McKesson violates any of the terms above, the Board, after notice and an opportunity for a hearing, and a determination of a violation, may impose any sanction it deems appropriate, including the imposition of further fines in accordance with Health Occ. §§ 12-601 and 12-6C-11; and be it further,

ORDERED that this is a formal order and as such is a public document pursuant to the Maryland Public Information Act, Md. Code Ann., General Provisions Art. § 4-101, *et seq.*

CITATION-AND-FINE ORDER: McKesson Medical, Case No. 24-395-WH-O, Unprofessional Conduct

Dear Mr. Wilson:

The Nevada State Board of Pharmacy ("Board") has determined that McKesson Medical ("McKesson") engaged in unprofessional conduct in its role as a wholesaler of pharmaceutical products in Nevada. Specifically, McKesson was found to have shipped Propofol Injectable Emulsion to a patient's home without a legitimate request for the medication, in error, and without proper oversight in the fulfillment process.

Specifically, McKesson shipped 100 vials of 20ml Propofol Injectable Emulsion to the home of a hospice patient receiving care through ProCare Hospice of Nevada. The medication had not been requested by the provider, and the excessive quantity of Propofol—an anesthetic typically used in surgical settings—raised serious concerns about patient safety. According to McKesson's Distribution Center in Chino, California, the shipment error resulted from a mis-pick: a package intended to include a case of Ensure and hydrocellular foam dressings was mistakenly filled with Propofol instead.

Pursuant to NAC 639.945(1)(i), performing duties in an incompetent, unskillful, or negligent manner constitutes unprofessional conduct. The shipment of a dangerous medication to an unintended recipient, without appropriate verification, poses serious risks to patient safety and public health. In this instance, had the family not been present, the Propofol could have been left at the patient's home, creating potential for accidental administration or misuse.

While McKesson acknowledged the error and coordinated with ProCare for the

destruction of the Propofol at the patient's home, the initial mistake was a failure in the shipping and inventory management processes. As a result, the Board has determined that McKesson's actions failed to meet the standard of competency and compliance required for licensed wholesalers serving Nevada patients. Pursuant to NRS 639.210(4), a licensee or registrant is subject to discipline for unprofessional conduct. Accordingly, the Board has assessed an administrative fine against McKesson in the amount of **Five Hundred and 00/100 Dollars ($500)** for unprofessional conduct.

If you do not intend to contest the above fine, please pay the fine within 30 days of receipt of this citation or otherwise contact Board staff to request an extension for good cause shown. Payment must be made by *certified check, cashier's check,* or *money order* payable to "**State of Nevada, Office of the Treasurer**," and it must be received at the Board's Reno office, located at 985 Damonte Ranch Parkway – Suite 206, Reno, NV 89521.

You may appeal this citation by submitting a notice of appeal requesting a public hearing before the Board. You must submit any such notice of appeal not later than 30 days after receipt of this citation. NRS 639.2895(2). Please mail or personally deliver any notice of appeal to the Reno address listed on the letterhead. If you have any questions, please contact the Board's Senior General Counsel, Gregory Zunino, at 775-850-1440, ext. 124, or *via* email at zunino@pharmacy.nv.gov.

Sincerely,

The Nevada State Board of Pharmacy

Date of Event/Arrest	Disposition Date	State	City	County

Illegal Consumption of Alcohol + Possession of Paraphernalia

Provide explanation below:

I was cited for illegal consumption of alcohol + possession of paraphernalia in February of 2010 at a residential party during my High School years.

In May of 2011, I was cited for Illegal Consumption of alcohol. This was also at a residential party that I attended in the summer time of my college years. I was under the age of 21 during both scenarios stated above.

To Whom It May Concern:

My first infraction occurred on February 12th, 2010 when I was breathalyzed after a high school residential party and registered a BAC under the legal limit of 0.08%. I was not yet 21 years old (19 at the time) and was cited for Illegal Consumption of an Alcoholic Beverage. In the same moment, the Officer asked me about another smell. I admitted to him that I was carrying a smoking vaporizer, which he collected and added Possession of Paraphernalia to my citation. I completed a diversion program shortly after and all charges were dismissed.

My second infraction also occurred during a residential party during my college years on May 26th, 2011. The police arrived and I was breathalyzed and cited for a charge of Illegal Consumption of Alcohol as I was 20 years old at the time. This charge was also dismissed.

To my knowledge, the above misdemeanors are the only citations on my record, and I hope this does not impact any decisions made for my license application. If there are any further questions, please contact me and I'm happy to discuss.

Sincerely,

Connor O'Neal

This Agreement entered into by and between the undersigned applicant or applicants and/or indemnitors, hereinafter called the undersigned, and Merchants Bonding Company (Mutual), hereinafter called the Company, witnesseth:

The undersigned certifies that the foregoing statements and declarations are true and, in consideration of the Company executing as surety the herein bond applied for, does hereby promise and agree to pay an annual premium to the Company until such time as the undersigned shall furnish the Company with evidence satisfactory to it of the complete termination of its liability on said bond.

The undersigned further agrees to indemnify and save harmless the said Company, in connection with any bond executed on behalf of the person or entity named as applicant, for, from and against any and all losses, costs, damages and expenses of any nature whatsoever, including counsel fees and expenses, and reimburse said Company for loss adjusting expenses and compensation at the rate of $100.00 per day for officers and $50.00 per day for all other personnel, which may accrue to the said Company by reason of the said Company having become surety on said bonds.

The undersigned hereby further agrees that the vouchers or other evidence of payments made by the said Company under its obligation of suretyship shall be conclusive evidence against the undersigned of the fact and extent of the undersigned's liability to the said Company under said obligation of the undersigned, whether said payments were made to discharge a penalty thereunder, incurred in the investigation of a claim made thereon or adjusting a loss or claim in connection therewith, or in completing the work covered thereby, and whether voluntarily made or paid after suit and judgment against said Company.

If the Company shall set up a reserve to cover any claim, suit or judgment under any such bonds, the undersigned will, immediately upon demand, deposit with the Company a sum of money equal to such reserve, such sum to be held by the Company as collateral security on such bonds, and such sum and any other money or property which shall have been, or shall hereafter be, pledged as collateral security on any such bond shall, unless otherwise agreed in writing by the Company, be available, in the discretion of the Company, as collateral security on any other bonds coming within the scope of this Agreement.

This Agreement shall constitute a Security Agreement to the Company and also a Financing Statement, both in accordance with the provisions of the Uniform Commercial Code of every jurisdiction wherein such Code is in effect. This Agreement shall, if recorded, constitute a consensual lien upon any and all real estate owned by the undersigned at the time of such recording. However, the filing or recording of this Agreement shall be solely at the option of the Company, and the failure to do so shall not release or impair any of the obligations of the undersigned under this Agreement or otherwise arising, nor shall such failure be in any manner in derogation of the rights of the Company under this Agreement or otherwise. The use of this Agreement as a Security Agreement, Financing Statement or consensual lien shall in no way abrogate, restrict or limit the rights of the Company under this Agreement or at law or in equity. The undersigned waive all right to claim any property, including homestead, as exempt from levy, execution, sale or other legal process.

It is further agreed that the terms and conditions of this application shall also apply to increases and/or decreases in the amount of any and all bonds, and shall also apply to all renewals whether the bond is continuous, renewed by Continuation Certificate or by the filing of a new bond.

The Company shall have the right, and is hereby authorized, but not required to fill up any blanks left herein, and to correct any errors in the description of any of said bonds, or in said premium or premiums, or in any name or names, it being agreed that such insertion or corrections, when so made, shall be prima facie correct. This application shall be liberally construed so as to fully protect and indemnify the Company, its successors, assigns and reinsurers. The undersigned appoints any officer of the Company as the attorney-in-fact of the undersigned with full right to execute on behalf of the undersigned any document necessary to carry into effect the intent and purposes of this Agreement.

AFFIRMATIVE RESPONSE TO DISCIPLINARY QUESTION(S)

NEVADA

Drug Distribution Agent Application
Patterson Veterinary Supply, Inc.
1031 Mendota Heights Road, Suite 100
Saint Paul, MN 55120

QUESTION: Has the corporation, any owner(s), shareholder(s) or partner(s) with at least 10% interest or partners with any interest, ever been subject of an administrative action or proceeding relating to the pharmaceutical industry?

RESPONSE: Yes.

*The following disciplinary actions are unrelated to this facility and should not be construed as reflective of its operations or personnel.

A. On February 1, 2005, the Kentucky Board of Pharmacy cited Webster Veterinary Supply, Inc., Lexington, KY (license #W01683) for failure to timely notify the board of an ownership change from Milburn Distributors to Webster Veterinary Supply, Inc. Agreement was reached, a fine was paid, and the license was unencumbered.

B. On June 24, 2005, the Florida Department of Health cited Webster Veterinary Supply, Inc. in Ocala, FL (license #22:1462), for operating without a valid permit during the transition from Milburn Distributions (and, consequently, inaccurate pedigree and audit trail information because ownership changed) and for purchasing prescription drugs from an establishment not permitted under the Florida Drug and Cosmetic Act. A civil fine was paid for the violations (case #05-06932). Florida approved Webster Veterinary Supply's application for registration based on the change of ownership.

C. On December 19, 2007, Webster Veterinary Supply, Inc. and Patterson Logistics Services, Inc., Alachua, FL, received notice from the Florida Department of Health Drugs, Devices, and Cosmetics Program of the agency's intent to deny the facility's permit application. The agency alleged that the facility distributed prescription drugs after its permit expired on July 31, 2007, and distributed prescription drugs without providing a complete and accurate pedigree. The audit trail was incomplete as it did not provide the license number of the sources of the drugs distributed from the establishment. An agreement was reached with Patterson Logistics Services, Inc., neither admitting nor denying the allegations, and a fine was imposed. Webster Veterinary Supply, Inc., has since closed.

D. On June 6, 2013, the Maine Board of Pharmacy cited Webster Veterinary Supply, Inc., Devens, MA (license #WH70001724) for violating a Board Rule concerning a 2005 renewal application that failed to convey the 2005 Kentucky discipline referred to above. A consent agreement was

reached, a reprimand and civil penalty were imposed, and the license was issued.

E. On December 21, 2017, the Florida Department of Business & Professional Regulation cited Patterson Veterinary Supply, Inc. (license #221462) for alleged violations of Chapter 499, failure to maintain proper records, and distribution to persons not authorized to receive prescription drugs. PVSI neither admitted nor denied the allegations but entered into a settlement and paid a civil fine of $24,500.

F. On January 6, 2022, the Ohio Board of Pharmacy cited Patterson Veterinary Supply, Inc (PVSI), Grove City, OH (license #01-2037250, - closed October 29, 2021) for sales of dangerous drugs, including controlled substances, to entities that did not possess an active Ohio Terminal Distributor of Dangerous Drugs license at the time of the sales, the statutes and regulations in Ohio require prescriber practices, such as veterinary and dental clinics, to obtain a Terminal Distributor of Dangerous Drugs (TDDD) license to purchase prescription drugs as a business. This contrasts with most states, where prescription drugs are obtained by an individual with a practitioner license issued by that state. At the time of sale, the practitioners practicing at these locations had active licenses in Ohio. Patterson updated their systems to ensure that expiration dates for the TDDD licenses and practitioners' licenses were validated. In addition, the Board alleged that PVSI failed to enter a change of its responsible person in the Ohio Board of Pharmacy's online system in a timely manner. Patterson Veterinary Supply, Inc. received a written reprimand and paid a civil monetary penalty of $3,125 on January 7, 2022. The Grove City, Ohio, location has since ceased operations for reasons unrelated to these allegations and has surrendered all licenses.

G. On January 6, 2022, the Ohio Board of Pharmacy cited Patterson Veterinary Supply, Inc., Phoenix, AZ (license # 01-1988450) for sales of dangerous drugs, including controlled substances, to entities that did not possess an active Ohio Terminal Distributor of Dangerous Drugs license at the time of the sales, the statutes and regulations in Ohio require prescriber practices, such as veterinary and dental clinics, to obtain a Terminal Distributor of Dangerous Drugs (TDDD) license to purchase prescription drugs as a business. This contrasts with most states, where prescription drugs are obtained by an individual with a practitioner license issued by that state. At the time of these sales, the practitioners practicing at these locations had active licenses in Ohio. Patterson updated their systems to ensure that expiration dates for the TDDD licenses and practitioners' licenses were validated. Patterson Veterinary Services. On January 7, 2022, Patterson Veterinary Supply, Inc. received a written reprimand and paid a civil monetary penalty of $6,500.

H. On June 23, 2022, the Utah Division of Occupational and Professional Licensing cited Patterson Veterinary Supply, Inc., Denver, CO (license# 11651073-1710) for failing to notify the board of a change of designated representative in a timely manner. Patterson Veterinary Supply, Inc. received a written reprimand and paid a $1250 fine on July 11, 2022.

Re: Inspection of Millburn Distributions, Inc. Ocala, Fl.
4-28-05

Ms. Mayleben,

I would like to preface my response by saying that Millburn Distributions, Inc. will do whatever is necessary to correct any problems areas that you discovered on your inspection of our Ocala, Florida warehouse. In the past 4 years of our doing business in the State of Florida and past inspections that were done, I hope that you have seen we have always been above reprue. I will respond to each remark you listed on the inspection to the best of my ability. Please let me know if there is any further action required.

We take these matters very seriously and are correcting them hopefully to your satisfaction. No intent was made to violate the laws of the State of Florida. These are matters that can be corrected immediately.

1) *Name change was verified by me to you on 4-19-05*
2) *A work order to Sunbelt Computers was initiated on 4-22-05 to change the name on all Purchase Orders and Invoices to reflect the Ocala, Florida warehouse address. I will fax a copy of this work order to you. Notice on the work order that it will take 2-3 weeks for the change to happen. You had told me that it would be alright to put Ocala address labels over the Arizona address until that took place. If that is still o.k. let me know and that will be done immediately. The address change will also include our permit number for the State of Florida. We complied with a request to include the veterinarian's license number shortly after we started doing business there almost 4 years ago.*
3) *We are a veterinary wholesale distributor*
4) *Customer base is the veterinarian*
5) *Area of coverage is correct with what you have written down*
6) *Barb Champion is our designated rep. There*
7) *Our RX audit trail will be corrected with the correction of our address on the invoice and also with our purchasing department verifying that each vendor that we but prescription drugs from whether human or veterinary is licensed in the State of Florida via your state's website.*
8) *We sell to licensed veterinary doctors and are proactive in making sure the licenses are checked monthly.*
9) *In the case of Truxton with the Ampicillin product, I verified with Bob Smith of Truxton that they are in the process of becoming licensed in Florida. We voluntarily transferred the product out of the Florida warehouse to one of our other warehouses. We will not carry the Truxton product until they are compliant and licensed in Florida.*
10) *We will make sure that all vendors are licensed with the State of Florida and that if we purchase from a wholesaler that they are listed as an ADR of the vendor to also insure compliance.*

04/22/2005 14:05 FAX 928 928 8821 MILLBURN DISTRIBUTIONS + FL 002/002

11) *The Pliva manufacturer problem was handled by making a* call to Jim Miller who is the purchasing agent for Phoenix Pharmaceutical in St. Joseph, Missouri. Pliva is listed in the State of Florida and Bloodworth is an ADR for Pliva, but Phoenix Pharmaceutical is not on the list. Phoenix Pharmaceutical will ask for pedigree papers until they get listed under Bloodworth and Pliva.

12) *I will also fax to you the correction to our Policy and Procedure manual for the Ocala, Florida warehouse. I hope it meets with your approval.*

Respectfully,

Jan Rabi

1. RECEIPT
   A. All vendors that we purchase from are long-standing, established companies that abide by every state's drug laws.
   B. DEA labeled prescription drugs will be accepted and received by one of two people: Rene Hunter or Patty Navarro. Other inventory items will be accepted and received by Renee Hunter, Patty Navarro or Chris Brouelette. A visual inspection of incoming merchandise will ensure that the product is acceptable to put in our stock for sale. We will rely upon vendors to inform us of any potential problem with their products.
   C. Packing slips or invoices from our vendors with the correct purchase order number on them will be matched with our purchase order. We list product code numbers, description, unit size and any other information necessary for the accurate receipt of every item. If items are lot tracked, we make provisions for that. Expiration dates are recorded at time of receipt for dating purposes. Inventory is placed on the shelf and rotated by expiration date. We maintain these records indefinitely.
   D. Pedigree papers will be required for any and all human or veterinary prescription drugs. All vendors will be checked against the Florida Department of Health website to verify that they are licensed in the state of Florida. Any vendor not on the list will not be stocked or offered for sale. This will be accomplished through our purchasing department's vigilant effort to make sure we are compliant.

2. STORAGE
   A. Our warehouse is air-conditioned and therefore all doors remain closed unless we are receiving merchandise. All extra waste shall be removed on a daily basis. Waste consists of cardboard and general trash. Our warehouse floor is sealed so as to block any concrete dust from coming to the surface. We have sweeping mops and brooms that will be used along with sweeping compound to keep the floors free of dust. The facility staff to maintain a proper appearance and cleanliness will perform all housekeeping duties.
   B. We have contracted with a pest control company that will establish inside and outside controls to keep us pest free. Being a wholesaler, we do not manufacture, nor do we open any sealed containers and expose product to outside sources.
   C. DEA controlled prescription drugs will have their own security cage that they will remain locked in. All other product will be stored in the warehouse on regular inventory shelves. We have a security system that is activated at night and weekends when the facility is closed. It is monitored 24 hours a day, 7 days a week. All outside warehouse doors will remain locked unless we need to open them to receive merchandise. We will rely on the honesty and integrity of our facility manager and our employees to ensure these steps are adhered to.
   D. DEA labeled prescription drugs will be locked up in their own security cage and will only be put in the cage or taken out by Rene Hunter or Patty Navarro. Patty Navarro or Chris Brouelette will access the remaining inventory. The above named employees are the only authorized persons to handle the inventory. Any visitors to the facility will be escorted by one of these individuals.
   E. All temperature requirements are closely monitored for each item. Any product that needs to be stored at 46° or lower goes into our cooler. Our cooler has a temperature gauge built into the wall of the cooler. We also have a secondary gauge which monitors the inside cooler temperature, outside cooler temperature, and humidity. Any product that needs to go in the cooler clearly states a temperature range on the product label. The balance of remaining product consistently has a temperature range not to exceed

STATE OF MAINE
BOARD OF PHARMACY

In re: Webster Veterinary Supply, Inc. Complaint No. 2012-PHA-8543	)))	CONSENT AGREEMENT

PARTIES

This document is a Consent Agreement ("the Consent Agreement") regarding the pending Wholesaler license for Webster Veterinary Supply, Inc. The parties to the Consent Agreement are Webster Veterinary Supply, Inc., now known as Patterson Veterinary Supply, Inc. ("Webster"), the Maine Board of Pharmacy ("the Board"), and the State of Maine Office of Attorney General ("the Attorney General"). The Consent Agreement is entered into pursuant to 10 M.R.S. § 8003(5-A)(C).

STATEMENT OF FACTS

1. Webster applied on or about July 9, 2010 for initial licensure due to a change in location (the "July 2010 Application").

2. Webster's July 2010 Application enclosed a copy of a March 9, 2005 Agreed Order in which Webster was disciplined by the Kentucky Board of Pharmacy.

3. The "Violation Disclosures" section of the July 2010 Application did not include a reference to the 2005 Kentucky Pharmacy Board Agreed Order.

4. On or about November 30, 2005, Webster submitted an application for renewal of license number WH70000847 (the "2005 Renewal Application") without disclosing the disciplinary action that occurred in Kentucky.

5. At its meeting on August 2, 2012, the Board reviewed the above mentioned information. Based on this information, the Board voted to preliminarily deny Webster's initial application for licensure as a Wholesaler.

6. In lieu of the denial, the Board voted at its June 6, 2013 meeting to offer Webster this Consent Agreement. Absent acceptance of this Consent Agreement by signing and dating it and returning it to Kelly McLaughlin, Senior Consumer Assistant, Board of Pharmacy, 35 State House Station, Augusta, Maine 04333 by July 5, 2013, the Board will set this matter for an adjudicatory hearing.

COVENANTS

7. Webster admits the facts stated above and the submission of the 2005 Renewal Application constitutes grounds for discipline pursuant to 10 M.R.S. § 8003(5-A)(A)(5) for violation of a Board Rule, specifically Chapter 12 § (2)(7-A).

8. As discipline for the violation of the Board Rule cited in paragraph 7, Webster agrees to:

A. Accept a REPRIMAND from the Board; and

B. Pay within 30 days of the Effective Date of this Consent Agreement a CIVIL PENALTY in the amount of one thousand dollars ($1,000.00).

9. Upon receipt of this executed Consent Agreement, the Board shall deem the issue of disclosure of the 2005 Kentucky Board discipline to be resolved and shall not deny Webster's applications filed between March 9, 2005 and the date of this Consent Agreement for any issue related to such disclosure. The Board shall approve the initial application consistent with the provisions of Board Rules chapter 12.

10. The Attorney General and the Board agree that no further agency or legal action will be taken against Webster's licenses based on the conduct related to this Consent Agreement, except in the event that Webster does not comply fully with the terms of the Consent Agreement. Any violation of the Consent Agreement will be a ground for discipline by the Board.

11. The Consent Agreement is not subject to appeal.

12. The Consent Agreement is not subject to amendment except by written agreement of all parties.

13. The Consent Agreement is a public document within the meaning of 1 M.R.S. § 402, et seq.

14. Webster understands that the execution of the Consent Agreement is completely voluntary and that it has the right to consult with an attorney before signing the Consent Agreement.

15. Webster acknowledges by signature hereto of an authorized representative that it has read this Consent Agreement, that it has had an opportunity to consult with an attorney before executing this

Consent Agreement, that it executed this Consent Agreement of its own free will, and that it agrees to abide by all terms and conditions set forth herein.

16. The Board and the Attorney General may communicate and cooperate regarding any matter related to this Consent Agreement.
