- Reviewed pharmacy's current inventory and did not locate any HIV medication on the shelves. There were no bottles of any HIV

medications for me to visually or manually inspected.

- PIC Pham stated the last dispensing of HIV was in early 2020 for one patient when PHY license was first issued. Reviewed patient profile JP – first fill of Atripla on 04/25/20 (rx # 600916) followed by 4 refills, and last fill on 09/17/20 (rx# 601641). Product was purchased via McKesson. Asked PIC to login McKesson to pull up T3 report, PIC stated he does not have access anymore since 2021 when he switched to Cardinal. Then I asked PIC Pham to log in Cardinal and show me how to pull up track and trace documents. PIC Pham was able to show me the DSCSA T3 report.
- PIC Pham stated he stopped carrying HIV meds in 2020 because it was too expensive to order. Plus, PHY location does not have this type of business.
- Discussed checking for authorized trading partners (ATP) via https://www.gilead.com/medicines/authorized-distributors
- Discussed pharmacy's responsibilities regarding DSCSA and checking ATP. Under the DSCSA, every sale or transfer of a prescription drug must be accompanied with a record showing the chain of all sales or transfer of that drug, going back to the manufacturer. In the industry, this is known as drug's pedigree or T3 documentation – transaction information, transaction history, and transaction statement.

Topics to Educate

1. **BPC 4052.04 – Pharmacist may furnish COVID-19 oral therapeutics following a positive test**.
   - "COVID-19 oral therapeutics" means drugs that are approved or authorized by the FDA for the treatment of COVID-19 and administered orally.
   - Prior to furnishing COVID-19 oral therapeutics, a pharmacist shall utilize relevant and appropriate evidence-based clinical guidelines published by FDA in providing these patient care services.
   - A pharmacist who furnishes COVID-19 oral therapeutics shall notify patient's PCP or enter appropriate information into patient record system shared with PCP, as permitted by that PCP. If the patient does not have a PCP, the pharmacist shall provide the patient with a written record of the drugs furnished and advise the patient to consult a physician of the patient's choice.
   - Document the kind and amounts of COVID-19 oral therapeutics furnished, as well as any information regarding testing services provided, in the patient's record in the record system maintained by the pharmacy.
   - Retain records for 3 years.

2. **BPC 4113 – PIC authority to make staffing decisions.**
   - PIC may make staffing decisions to ensure sufficient personnel are present in the pharmacy to prevent fatigue, distraction, or other conditions that may interfere with a pharmacist's ability to practice competently and safely.
   - If PIC is not available, a pharmacist on duty may adjust staffing according to workload if needed.
   - PIC or pharmacist on duty shall immediately notify the store management of any conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff. If the conditions are not resolved within 24 hours, the PIC or RPH on duty shall ensure the BOP is timely notified. Conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff include, but are not limited to:
     - Workplace safety and health hazards that present an immediate risk of death, illness or irreparable harm to patients, personnel, or pharmacy staff.
     - Sustained temperatures that could impact ambient temperature drug stability according to manufacturer data on acceptable drug storage conditions.
     - Vermin infestation that poses a risk to the safety or efficacy of medicine.

3. **BPC 4113.6** – Chain community pharmacy subject to BPC 4113.5 must be staffed at all times with at least one clerk or pharmacy technician fully dedicated to performing pharmacy-related services. The BOP will not take action against a pharmacy for violation of this staffing requirement if any of the following conditions apply:
   - RPH on duty waives the requirement in writing during specified hours based on workload need.
   - The pharmacy is open beyond normal business hours (*i.e.*, before 8am, after 7pm). During the hours before 8am and after 7pm, the staffing requirement shall not apply.
   - The pharmacy's prescription volume per day on average is less than 75 prescriptions per day based on the average daily prescription volume for the past calendar year. However, if the pharmacist is also expected to provide additional pharmacy services (such as immunizations or CLIA-waived tests) this exception does not apply.

   When staffing of pharmacist hours within a chain community pharmacy does not overlap sufficiently, scheduled closures for lunch time for all pharmacy staff shall be established and publicly posted and included on the outgoing telephone message.

4. **BPC 4113.1 – Reporting medication errors within 14 days from discovery.**

- Applies to "community pharmacies" – *i.e.*, any pharmacy that dispenses medication to an outpatient (but not including facilities of CDCR).
- Per the BOP's AB 1286 Implementation Statement, the reporting of medication errors under BPC 4113.1 will not be required until the BOP approves an entity to receive the reports.

5. BPC 4115 – Pharmacy technician may, under the direct supervision and control of a pharmacy, prepare and administer influenza and COVID-19 vaccines via injection or intranasally, prepare and administer epinephrine, perform specimen collection for tests that are CLIA waived, receive prescription transfers, and accept clarification on prescriptions under certain specified conditions.

6. BPC 4202 and 4231 – CE required for pharmacy technicians and pharmacists to renew their pharmacist license must now include at least one hour of participation in a cultural competency course which meets specified requirements.

36.2 - Per USP 795 10.1 - Terminology: Each CNSP Label must state the date, or the hour and date, beyond which the preparation cannot be used and must be discarded (ie the "BUD") BUD's for CNSP's are calculated in terms of hours, days, or months. BUD's and expiration dates are not the same, An expiration date identifies the time during which a conventionally manufactured product, API, or add substance can be expected to meet the requirements of a compendial monograph, if one exists, or maintain expected quality, provided it is kept under the prescribed storage conditions. The Expiration date limits the time during which a conventionally manufactured product, API, or added substance may be dispensed or used. ***In order to comply with USP795 requirements, I recommend the Pharmacy contact the software company and add this into the system. WHEREAS, information has been received by the Idaho Board of Pharmacy (the "Board"), that constitutes sufficient grounds for the initiation of an administrative action against HONEYBEE HEALTH, INC., ("Respondent"); and

WHEREAS, the parties wish to expeditiously settle this matter in lieu of proceeding to an administrative hearing before the Board; now, therefore,

IT IS HEREBY STIPULATED AND AGREED between the undersigned parties that this matter shall be settled and resolved upon the terms and conditions set forth herein.

A. SUMMARY OF THE STIPULATED DISCIPLINE

A.1. Respondent acknowledges and admits that it violated the Board's laws and rules when it: failed to maintain a properly registered nonresident PIC between July 1, 2018, and December 29, 2020, during which time Respondent dispensed 1,440 prescriptions to Idaho without a registered nonresident PIC.

A.2. In lieu of a formal disciplinary hearing, Respondent agrees to pay a fine in the amount of **$4,000 on or before October 27, 2021.** This date is 60 days after the next scheduled Board meeting, at which time this Stipulation will be presented for approval. Respondent understands that the Board must approve this Stipulation before payment can be sent.

B. JURISDICTION OF THE BOARD

B.1. The Board may regulate the practice of pharmacy in the state of Idaho in accordance with title 54, chapter 17, Idaho Code and the Board rules promulgated at IDAPA 24.36.01, *et seq.* (formerly IDAPA 27.01.01, *et seq.*). The Board is further empowered by title 37, chapter 27, Idaho Code, and the Board's rules promulgated at IDAPA 24.36.01, *et seq.* (formerly IDAPA 27.01.01, *et seq.*) to administer the regulating provisions of the Uniform Controlled Substances Act in the state of Idaho.

B.2. Respondent is a licensee of the Board and holds an Out of State Mail Service Pharmacy Registration No. 47790MS, and therefore is subject to the provisions of title 54, chapter 17, Idaho Code; title 37, chapter 27, Idaho Code; and the Board's rules promulgated at IDAPA 24.36.01, *et seq.* (formerly IDAPA 27.01.01 *et seq.*).

C. STIPULATED FACTS

C.1. Respondent is an Out of State Mail Service Pharmacy doing business in Culver City, CA, and holding Registration No. 47790MS, initially issued on March 29, 2018, and expiring on December 31, 2021.

C.2. On December 17, 2020, Respondent attempted to renew its Out of State Mail Service Registration. Board staff discovered that Respondent was operating in Idaho without a registered nonresident PIC. Respondent had a designated nonresident PIC who was not registered in Idaho as required under Idaho law and Board rules, since June 30, 2018.

C.3. On December 31, 2020, Board staff sent Respondent an investigatory letter requesting a list of prescriptions that were sent to Idaho through Respondent between July 1, 2018, and December 29, 2020.

C.4. On January 11, 2021, Respondent emailed a response to the investigatory letter and

provided some, but not all, of the requested information. The records provided by Respondent show that between February 28, 2019, and December 29, 2020, Respondent sent 1,440 to Idaho without a registered nonresident PIC.

C.5. Idaho law and Board rules require a nonresident facility to have a PIC who is registered by the Board. Also, a nonresident pharmacist serving as the PIC for an Idaho registered nonresident drug outlet must be registered to practice into Idaho. By operating without a registered nonresident PIC from June 30, 2018 to December 29, 2020, Respondent has violated I.C. § 54-1729(1)(a); and 24.36.01.210.02 (03-20-20) (formerly IDAPA 27.01.02.030.02(b) (04-01-19) and IDAPA 27.01.01.210.02 (07-01-18).

C.6. Respondent acknowledges its actions constituted violations of the statutes and rules governing the practice of pharmacy in Idaho. More specifically, Respondent admits the violations are subject to the following statutes and rules:

a. Idaho Code § 54-1726(1)(f) (Grounds for Discipline. The Board may suspend, revoke or restrict the registration of any person, upon one or more of the following grounds ... being found by the Board to be in violation of any of the provisions of this chapter, chapter 27, title 37, or rules adopted pursuant to either chapter.);

b. Idaho Code § 54-1728(1)(f) (Penalties and Reinstatement. Upon finding the existence of grounds for discipline, the Board may impose one or more of the following penalties ... imposition of an administrative fine not to exceed $2,000 for each occurrence providing a basis for discipline.);

c. Idaho Code § 37-2718(a)(4) (Discipline. The Board may suspend, revoke or restrict a registration upon a finding that the registrant...has violated this chapter or any rule of the Board promulgated under this act);

d. Idaho Code § 37-2719(c) (...upon a finding of grounds for restriction, suspension or revocation, the Board may also impose an administrative fine not to exceed $2,000 per occurrence and the costs of prosecution and administrative costs including, but not limited to, attorney's fees and costs.);

e. Idaho Code § 54-1729(1)(a) (All drug or device outlets doing business in or into Idaho shall: (a) If a nonresident, be licensed or registered and in good standing in the applicant's state of residence and, if a pharmacy, have a PIC who is registered by the board...); and

f. IDAPA 24.36.01.210.02 (03-20-20); (formerly IDAPA 27.01.02.030.02(b) (04-01-19); and IDAPA 27.01.01.210.02 (07-01-18)) (A nonresident pharmacist serving as the PIC for an Idaho registered nonresident drug outlet must be registered to practice into Idaho.); and

C.7. In lieu of proceeding with a formal disciplinary hearing, Respondent hereby agrees the Board may enter a final order against its Registration as set forth in Section D below.

D. STIPULATED PENALTIES

D.1. The parties agree that, under the facts presented and the regulations that apply to such facts, the Board has the authority pursuant to Idaho Code § 54-1728(f) and Idaho Code § 37-2719(c) to impose an administrative fine of $2,000 per occurrence for operating without a registered PIC and sending 1,440 prescriptions into Idaho while unauthorized and unregistered to do so. However, to resolve this matter, it is agreed that Respondent shall pay a fine in the amount of $4,000 for the violations outlined in Section C above. This fine shall come due only after the Board approves and executes the Order incorporating this Stipulation and shall be paid to the Board October 27, 2021. This is 60 days after the date of the next scheduled Board

meeting. Respondent understands that the Board must approve this stipulation before payment can be sent;

D.2. Failure to comply with any of the terms of this Stipulation and Consent Order may result in additional disciplinary action being taken against Respondent;

D.3. All costs associated with Respondent's compliance with the terms of this Stipulation and Consent Order shall be solely the responsibility of Respondent.

E. COMPLIANCE WITH STIPULATION AND CONSENT ORDER

E.1. The Board has authority to enforce compliance with the terms and conditions of this Stipulation. By signing this Stipulation, Respondent waives its ability to challenge the Board's lack of authority to enforce compliance on appeal to a district court. If there is reason to believe Respondent has violated any of the terms or conditions of this Stipulation, the Executive Director of the Board shall file an administrative complaint, setting forth the allegations of non-compliance and notifying Respondent, and its attorney, if applicable, that Respondent may request a hearing regarding the allegations of non-compliance. If Respondent does not file an answer to the administrative complaint, all allegations of non-compliance will be deemed admitted and default may be entered against Respondent;

E.2. If Respondent fails to comply with this Stipulation, Respondent's registration may be subject to further discipline, up to and including suspension or revocation. Therefore, the Board retains jurisdiction over this proceeding until all matters are finally resolved as set forth in this Stipulation. Any action taken by the Board to enforce compliance with this Stipulation shall be in accordance with this section;

E.3. Any additional costs and/or attorney fees incurred by the Board in any enforcement action shall be the sole responsibility of the Respondent.

F. ACKNOWLEDGMENTS AND WAIVER OF RIGHTS

Respondent, by signature of its authorized representative hereto, hereby acknowledges the following:

F.1. Respondent admits to the allegations stated above in Section C. Respondent understands these allegations constitute cause for disciplinary action upon its Registration;

F.2. Respondent agrees the Board has jurisdiction to proceed in this matter with its consent as indicated by signature of Respondent's authorized representative hereto;

F.3. Respondent's authorized representative has read the above Stipulation fully and has had the opportunity to discuss it with legal counsel. Respondent understands and acknowledges that by the terms set forth herein, Respondent is waiving certain rights provided under Idaho law;

F.4. Respondent understands that it has, among other rights, the right to a full and complete hearing; the right to confront and cross-examine witnesses; the right to present evidence or to call witnesses, or to so testify on its own behalf; the right to reconsideration; the right to appeal this matter to district court; all rights provided by the Idaho Administrative Procedure Act; and the laws and rules governing the practice of pharmacy in Idaho. Respondent hereby freely and voluntarily waives these rights, without further process, in order to enter into this Stipulation as a resolution of the allegations contained herein;

F.5. Respondent understands that in entering into this Stipulation, it is enabling the Board to impose disciplinary action upon Respondent's Registration as set forth in Section D, without further process;

F.6. Respondent understands the Board may approve this Stipulation as proposed, approve it subject to specified changes, or reject it. Respondent understands that, if approved as proposed, the Board will execute and issue this Stipulation and Consent Order according to the

aforementioned terms, and Respondent hereby agrees to the above Stipulation for settlement. If the Board approves this Stipulation subject to changes, and those changes are acceptable, Respondent acknowledges the Stipulation will take effect, and an order modifying the terms of the Stipulation will be issued. If the changes are unacceptable or the Board rejects this Stipulation, this Stipulation will be of no effect. Admissions in negotiations preceding the signing of this Stipulation will not be admissible at any subsequent disciplinary hearing;

F.7. In the event this Stipulation is rejected by the Board or any changes proposed by the Board are not accepted, Respondent waives any right it may have to challenge the Board's impartiality to hear the allegations in any subsequent administrative complaint based on the fact that the Board has considered and rejected this Stipulation;

F.8. Respondent understands the Board shall have the right to make full disclosure of this Stipulation and Consent Order as necessary to comply with any reporting requirement(s) imposed on the Board by federal or any state law, agency or individual requesting information subject to any applicable provisions of the Idaho Public Records Act, title 9, chapter 3, Idaho Code;

F.9. Respondent understands this Stipulation and Consent Order is the resolution of a contested case and is a public record;

F.10. This Stipulation contains the entire agreement between the parties, and Respondent is not relying on any other agreement or representation of any kind, verbal or otherwise, for resolution of the allegations set forth herein;

FOR DISCIPLINARY ACTION AND BOARD'S FINAL ORDER

(hereinafter "Respondent"), enter into this Settlement Agreement on the terms and conditions set forth below.

A. UNCONTESTED FACTS:

1. At all relevant times herein, Respondent was permitted as a miscellaneous permit holder by the Board of Pharmacy (hereinafter the "Board") under miscellaneous permit number PMP 1487. The permit was issued on or about February 23, 2018. The permit is set to expire or forfeit on or about December 31, 2023.

2. Respondent's mailing address for purposes of this action is 3515 Helms Avenue, Culver City, California 90232.

3. On or about August 26, 2021, Respondent entered into a Stipulation and Consent Order with the Idaho Board of Pharmacy in Case No. BOP-21-076 (hereinafter the "Consent Order"). A copy of the Consent Order is attached hereto as Exhibit "1". The Consent Order was

I HEREBYCERTIFY THAT THE ATTACHED IS A TRUE AND CORRECT COPY OF THE ORIGINAL ON FILE IN THE DEPARTMENT OF COMMERCE & CONSUMER AFFAIRS.

based on allegations that Respondent failed to maintain a properly registered non-resident pharmacist in charge from July 1, 2018 to December 29, 2020. Respondent was issued a $4,000.00 fine.

4. RICO alleges Respondent was disciplined by the State of Idaho.

5. The foregoing allegations, if proven at an administrative hearing before the Board, would constitute violations of the following statute: Hawaii Revised Statutes (hereinafter "HRS") § 436B-19(13) (disciplinary action by another state or federal agency).

6. The Board has jurisdiction over the subject matter herein and over the parties hereto.

B. REPRESENTATIONS BY RESPONDENT:

1. Respondent is fully aware that Respondent has the right to be represented by an attorney and voluntarily waives that right.

2. Respondent enters into this Settlement Agreement freely, knowingly, voluntarily, and under no coercion or duress.

3. Respondent is aware of the right to have a hearing to adjudicate the issues in the case. Pursuant to HRS § 91-9(d), Respondent freely, knowingly, and voluntarily waives the right to a hearing, and agrees to dispose of this case in accordance with the terms and conditions of this Settlement Agreement.

4. Respondent, being at all times relevant herein permitted as a miscellaneous permit holder by the Board, acknowledges that Respondent is subject to penalties including but not limited to, revocation, suspension or limitation of the permit and administrative fines, if the foregoing allegations are proven at hearing.

5. Respondent further understands that RICO enters into this Settlement Agreement, and agrees to the specific terms contained in this Settlement Agreement, based upon Respondent's representations made herein.

6. Respondent represents Exhibit "1" is a true and correct copy of the Consent Order.

7. Respondent understands that any false or untrue statement or any material misrepresentation or omission of fact by Respondent in this Settlement Agreement may be grounds for further disciplinary action under HRS Chapters 436B and 461.

8. Respondent does not admit to violating any law or rule, but acknowledges that RICO has sufficient cause to file a Petition for Disciplinary Action against Respondent's permit.

9. Respondent enters into this Settlement Agreement as a compromise of the claims and to conserve on the expenses of proceeding with an administrative hearing on this matter.

10. Respondent agrees that this Settlement Agreement is intended to resolve the issues raised in RICO's investigation in RICO Case No. PHA 2021-49-L.

11. Respondent acknowledges that upon its approval, this Settlement Agreement constitutes disciplinary action and understands that this Settlement Agreement may be subject to reporting requirements.

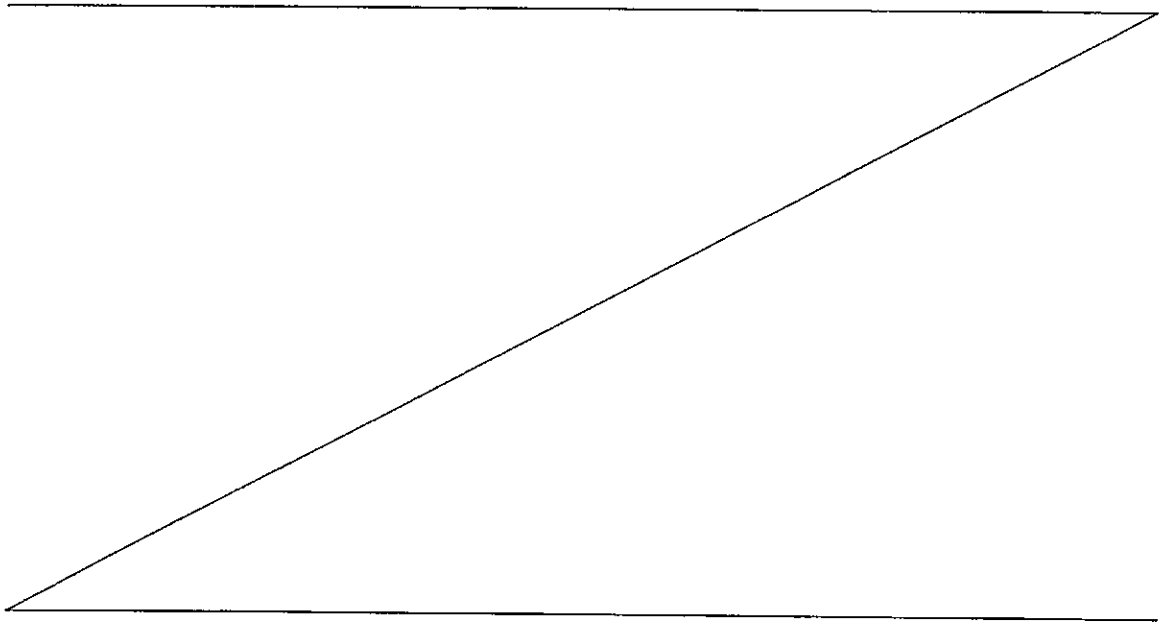
12. Respondent understands this Settlement Agreement is public record pursuant to HRS Chapter 92F.

C. TERMS OF SETTLEMENT:

1. Administrative Fine. Respondent agrees to pay a fine in the amount of FIVE HUNDRED AND NO/100 DOLLARS ($500.00). Payment shall be made by **cashier's check or money order made payable to "DCCA - Compliance Resolution Fund"** and mailed to the Regulated Industries Complaints Office, Attn: Stacia M. Silva, Esq., 235 S. Beretania Street, 9th Floor, Honolulu, Hawaii 96813. Payment of the fine shall be due at the time this Settlement Agreement is returned to RICO.

2. Failure to Comply with Settlement Agreement. If Respondent fails to fully and timely comply with the terms of this Settlement Agreement as set forth in paragraph C.1. above, Respondent's miscellaneous permit shall be automatically revoked upon RICO's filing of an affidavit with the Board attesting to such failure. In case of such revocation, Respondent shall turn in all indicia of licensure to the Executive Officer of the Board within ten (10) days after receipt of notice of the revocation. In case of such revocation, Respondent understands Respondent cannot apply for a new permit until the expiration of at least five (5) years after the effective date of the revocation. Respondent understands that if Respondent desires to become permitted again, Respondent must apply to the Board for a new permit pursuant to and subject to HRS §§ 92-17, 436B-21, and all other applicable laws and rules in effect at the time.

3. Possible Further Sanction. The Board, at its discretion, may pursue additional disciplinary action as provided by law to include further fines and other sanctions as the Board may deem appropriate if Respondent violates any provision of the statutes or rules governing the conduct of miscellaneous permit holders in the State of Hawaii, or if Respondent fails to abide by the terms of this Settlement Agreement.



4. Approval of the Board. Respondent agrees that, except for the representations, agreements and covenants contained in Paragraphs C.5., C.6., C.7., and C.8. below, this Settlement Agreement shall not be binding on any of the parties unless and until it is approved by the Board.

5. No Objection if Board Fails to Approve. If the Board does not approve this Settlement Agreement, does not issue an order pursuant thereto, or does not approve a lesser remedy, but instead an administrative hearing is conducted against Respondent in the Board's usual and customary fashion pursuant to the Administrative Procedure Act, Respondent agrees that neither Respondent, nor any attorney that Respondent may retain, will raise as an objection in any administrative proceeding or in any judicial action, to the Board's proceeding against Respondent on the basis that the Board has become disqualified to consider the case because of its review and consideration of this Settlement Agreement.

6. Any Ambiguities Shall be Construed to Protect the Consuming Public. It is agreed that any ambiguity in this Settlement Agreement is to be read in the manner that most completely protects the interests of the consuming public.

7. No Reliance on Representations by RICO. Other than the matters specifically stated in this Settlement Agreement, neither RICO nor anyone acting on its behalf has made any representation of fact, opinion, or promise to Respondent to induce entry into this Settlement Agreement, and Respondent is not relying upon any statement, representation or opinion, or promise made by RICO or any of its agents, employees, representatives, or attorneys concerning the nature, extent or duration of exposure to legal liability arising from the subject matter of this Settlement Agreement or concerning any other matter.

8. Complete Agreement. This Settlement Agreement is a complete settlement of the rights, responsibilities and liabilities of the parties hereto with respect to the subject matter hereof; contains the entire agreement of the parties; and may only be modified, changed or amended by written instrument duly executed by all parties hereto.

IN WITNESS WHEREOF, the parties have signed this Settlement Agreement on the date(s) set forth below. Each signatory to this Settlement Agreement hereby represents and warrants that he/she is authorized to execute and deliver this Settlement Agreement in the capacity shown below.

WHEREAS, information has been received by the Idaho Board of Pharmacy (the "Board"), that constitutes sufficient grounds for the initiation of an administrative action against HONEYBEE HEALTH, INC., ("Respondent"); and

WHEREAS, the parties wish to expeditiously settle this matter in lieu of proceeding to an administrative hearing before the Board; now, therefore,

IT IS HEREBY STIPULATED AND AGREED between the undersigned parties that this matter shall be settled and resolved upon the terms and conditions set forth herein.

A. SUMMARY OF THE STIPULATED DISCIPLINE

A.1. Respondent acknowledges and admits that it violated the Board's laws and rules when it: failed to maintain a properly registered nonresident PIC between July 1, 2018, and December 29, 2020, during which time Respondent dispensed 1,440 prescriptions to Idaho without a registered nonresident PIC.

A.2. In lieu of a formal disciplinary hearing, Respondent agrees to pay a fine in the amount of **$4,000 on or before October 27, 2021.** This date is 60 days after the next scheduled Board meeting, at which time this Stipulation will be presented for approval. Respondent understands that the Board must approve this Stipulation before payment can be sent.

EXHIBIT "1"

B. JURISDICTION OF THE BOARD

B.1. The Board may regulate the practice of pharmacy in the state of Idaho in accordance with title 54, chapter 17, Idaho Code and the Board rules promulgated at IDAPA 24.36.01, *et seq.* (formerly IDAPA 27.01.01, *et seq.*). The Board is further empowered by title 37, chapter 27, Idaho Code, and the Board's rules promulgated at IDAPA 24.36.01, *et seq.* (formerly IDAPA 27.01.01, *et seq.*) to administer the regulating provisions of the Uniform Controlled Substances Act in the state of Idaho.

B.2. Respondent is a licensee of the Board and holds an Out of State Mail Service Pharmacy Registration No. 47790MS, and therefore is subject to the provisions of title 54, chapter 17, Idaho Code; title 37, chapter 27, Idaho Code; and the Board's rules promulgated at IDAPA 24.36.01, *et seq.* (formerly IDAPA 27.01.01 *et seq.*).

C. STIPULATED FACTS

C.1. Respondent is an Out of State Mail Service Pharmacy doing business in Culver City, CA, and holding Registration No. 47790MS, initially issued on March 29, 2018, and expiring on December 31, 2021.

C.2. On December 17, 2020, Respondent attempted to renew its Out of State Mail Service Registration. Board staff discovered that Respondent was operating in Idaho without a registered nonresident PIC. Respondent had a designated nonresident PIC who was not registered in Idaho as required under Idaho law and Board rules, since June 30, 2018.

C.3. On December 31, 2020, Board staff sent Respondent an investigatory letter requesting a list of prescriptions that were sent to Idaho through Respondent between July 1, 2018, and December 29, 2020.

C.4. On January 11, 2021, Respondent emailed a response to the investigatory letter and

provided some, but not all, of the requested information. The records provided by Respondent show that between February 28, 2019, and December 29, 2020, Respondent sent 1,440 to Idaho without a registered nonresident PIC.

C.5. Idaho law and Board rules require a nonresident facility to have a PIC who is registered by the Board. Also, a nonresident pharmacist serving as the PIC for an Idaho registered nonresident drug outlet must be registered to practice into Idaho. By operating without a registered nonresident PIC from June 30, 2018 to December 29, 2020, Respondent has violated I.C. § 54-1729(1)(a); and 24.36.01.210.02 (03-20-20) (formerly IDAPA 27.01.02.030.02(b) (04-01-19) and IDAPA 27.01.01.210.02 (07-01-18).

C.6. Respondent acknowledges its actions constituted violations of the statutes and rules governing the practice of pharmacy in Idaho. More specifically, Respondent admits the violations are subject to the following statutes and rules:

a. Idaho Code § 54-1726(1)(f) (Grounds for Discipline. The Board may suspend, revoke or restrict the registration of any person, upon one or more of the following grounds ... being found by the Board to be in violation of any of the provisions of this chapter, chapter 27, title 37, or rules adopted pursuant to either chapter.);

b. Idaho Code § 54-1728(1)(f) (Penalties and Reinstatement. Upon finding the existence of grounds for discipline, the Board may impose one or more of the following penalties ... imposition of an administrative fine not to exceed $2,000 for each occurrence providing a basis for discipline.);

c. Idaho Code § 37-2718(a)(4) (Discipline. The Board may suspend, revoke or restrict a registration upon a finding that the registrant...has violated this chapter or any rule of the Board promulgated under this act);

d. Idaho Code § 37-2719(c) (...upon a finding of grounds for restriction, suspension or revocation, the Board may also impose an administrative fine not to exceed $2,000 per occurrence and the costs of prosecution and administrative costs including, but not limited to, attorney's fees and costs.);

e. Idaho Code § 54-1729(1)(a) (All drug or device outlets doing business in or into Idaho shall: (a) If a nonresident, be licensed or registered and in good standing in the applicant's state of residence and, if a pharmacy, have a PIC who is registered by the board...); and

f. IDAPA 24.36.01.210.02 (03-20-20); (formerly IDAPA 27.01.02.030.02(b) (04-01-19); and IDAPA 27.01.01.210.02 (07-01-18)) (A nonresident pharmacist serving as the PIC for an Idaho registered nonresident drug outlet must be registered to practice into Idaho.); and

C.7. In lieu of proceeding with a formal disciplinary hearing, Respondent hereby agrees the Board may enter a final order against its Registration as set forth in Section D below.

D. STIPULATED PENALTIES

D.1. The parties agree that, under the facts presented and the regulations that apply to such facts, the Board has the authority pursuant to Idaho Code § 54-1728(f) and Idaho Code § 37-2719(c) to impose an administrative fine of $2,000 per occurrence for operating without a registered PIC and sending 1,440 prescriptions into Idaho while unauthorized and unregistered to do so. However, to resolve this matter, it is agreed that Respondent shall pay a fine in the amount of $4,000 for the violations outlined in Section C above. This fine shall come due only after the Board approves and executes the Order incorporating this Stipulation and shall be paid to the Board ...mber 27, 2021. This is 60 days after the date of the next scheduled Board

meeting. Respondent understands that the Board must approve this stipulation before payment can be sent;

D.2. Failure to comply with any of the terms of this Stipulation and Consent Order may result in additional disciplinary action being taken against Respondent;

D.3. All costs associated with Respondent's compliance with the terms of this Stipulation and Consent Order shall be solely the responsibility of Respondent.

E. COMPLIANCE WITH STIPULATION AND CONSENT ORDER

E.1. The Board has authority to enforce compliance with the terms and conditions of this Stipulation. By signing this Stipulation, Respondent waives its ability to challenge the Board's lack of authority to enforce compliance on appeal to a district court. If there is reason to believe Respondent has violated any of the terms or conditions of this Stipulation, the Executive Director of the Board shall file an administrative complaint, setting forth the allegations of non-compliance and notifying Respondent, and its attorney, if applicable, that Respondent may request a hearing regarding the allegations of non-compliance. If Respondent does not file an answer to the administrative complaint, all allegations of non-compliance will be deemed admitted and default may be entered against Respondent;

E.2. If Respondent fails to comply with this Stipulation, Respondent's registration may be subject to further discipline, up to and including suspension or revocation. Therefore, the Board retains jurisdiction over this proceeding until all matters are finally resolved as set forth in this Stipulation. Any action taken by the Board to enforce compliance with this Stipulation shall be in accordance with this section;

E.3. Any additional costs and/or attorney fees incurred by the Board in any enforcement action shall be the sole responsibility of the Respondent.

F. ACKNOWLEDGMENTS AND WAIVER OF RIGHTS

Respondent, by signature of its authorized representative hereto, hereby acknowledges the following:

F.1. Respondent admits to the allegations stated above in Section C. Respondent understands these allegations constitute cause for disciplinary action upon its Registration;

F.2. Respondent agrees the Board has jurisdiction to proceed in this matter with its consent as indicated by signature of Respondent's authorized representative hereto;

F.3. Respondent's authorized representative has read the above Stipulation fully and has had the opportunity to discuss it with legal counsel. Respondent understands and acknowledges that by the terms set forth herein, Respondent is waiving certain rights provided under Idaho law;

F.4. Respondent understands that it has, among other rights, the right to a full and complete hearing; the right to confront and cross-examine witnesses; the right to present evidence or to call witnesses, or to so testify on its own behalf; the right to reconsideration; the right to appeal this matter to district court; all rights provided by the Idaho Administrative Procedure Act; and the laws and rules governing the practice of pharmacy in Idaho. Respondent hereby freely and voluntarily waives these rights, without further process, in order to enter into this Stipulation as a resolution of the allegations contained herein;

F.5. Respondent understands that in entering into this Stipulation, it is enabling the Board to impose disciplinary action upon Respondent's Registration as set forth in Section D, without further process;

F.6. Respondent understands the Board may approve this Stipulation as proposed, approve it subject to specified changes, or reject it. Respondent understands that, if approved as proposed, the Board will execute and issue this Stipulation and Consent Order according to the

aforementioned terms, and Respondent hereby agrees to the above Stipulation for settlement. If the Board approves this Stipulation subject to changes, and those changes are acceptable, Respondent acknowledges the Stipulation will take effect, and an order modifying the terms of the Stipulation will be issued. If the changes are unacceptable or the Board rejects this Stipulation, this Stipulation will be of no effect. Admissions in negotiations preceding the signing of this Stipulation will not be admissible at any subsequent disciplinary hearing;

F.7. In the event this Stipulation is rejected by the Board or any changes proposed by the Board are not accepted, Respondent waives any right it may have to challenge the Board's impartiality to hear the allegations in any subsequent administrative complaint based on the fact that the Board has considered and rejected this Stipulation;

F.8. Respondent understands the Board shall have the right to make full disclosure of this Stipulation and Consent Order as necessary to comply with any reporting requirement(s) imposed on the Board by federal or any state law, agency or individual requesting information subject to any applicable provisions of the Idaho Public Records Act, title 9, chapter 3, Idaho Code;

F.9. Respondent understands this Stipulation and Consent Order is the resolution of a contested case and is a public record;

F.10. This Stipulation contains the entire agreement between the parties, and Respondent is not relying on any other agreement or representation of any kind, verbal or otherwise, for resolution of the allegations set forth herein;

F.11. This Stipulation shall be presented to the Board with a recommendation for approval from the Executive Director of the Board and the Deputy Attorney General responsible for prosecution before the Board, at the next regularly-scheduled meeting of the Board;

F.12. Except for paragraph F.6., which becomes effective when Respondent's authorized

representative signs this Stipulation, this Stipulation shall not become effective until it has been approved by a majority of the Board, and a Board member signs the attached Order.

DATED this 24 day of June, 2021.

INSPECTION REPORT

3. BPC 4113.1 – Reporting medication errors within 14 days from discovery.

- Applies to "community pharmacies" – *i.e.*, any pharmacy that dispenses medication to an outpatient (but not including facilities of CDCR).
- Per the BOP's AB 1286 Implementation Statement, the reporting of medication errors under BPC 4113.1 will not be required until the BOP approves an entity to receive the reports.

4. BPC 4113.6 – Chain community pharmacy subject to BPC 4113.5 must be staffed at all times with at least one clerk or pharmacy technician fully dedicated to performing pharmacy-related services. The BOP will not take action against a pharmacy for violation of this staffing requirement if any of the following conditions apply:

- RPH on duty waives the requirement in writing during specified hours based on workload need.
- The pharmacy is open beyond normal business hours (*i.e.*, before 8am, after 7pm). During the hours before 8am and after 7pm, the staffing requirement shall not apply.
- The pharmacy's prescription volume per day on average is less than 75 prescriptions per day based on the average daily prescription volume for the past calendar year. However, if the pharmacist is also expected to provide additional pharmacy services (such as immunizations or CLIA-waived tests) this exception does not apply.

When staffing of pharmacist hours within a chain community pharmacy does not overlap sufficiently, scheduled closures for lunch time for all pharmacy staff shall be established and publicly posted, and included on the outgoing telephone message.

5. BPC 4115 – Pharmacy technician may, under the direct supervision and control of a pharmacy, prepare and administer influenza and COVID-19 vaccines via injection or intranasally, prepare and administer epinephrine, perform specimen collection for tests that are CLIA waived, receive prescription transfers, and accept clarification on prescriptions under certain specified conditions.

6. BPC 4231 – CE required for pharmacists to renew their pharmacist license must now include at least one hour of participation in a cultural competency course which meets specified requirements.

Hello Inspector Do,

It was a pleasure meeting you last week during our routine pharmacy inspection. Thank you for providing us with valuable feedback and keeping us informed on the most up to date BPC topics.

Regarding CI 2024 105264, please accept this email correspondence as my written statement regarding the incident related to patient SM (Prescription #'s 7292769 and 7292768).

Both prescriptions were successfully received via electronic transmission from prescriber, Lucia McLendon, MD. They were prepared for Pharmacist review and were subsequently approved. They were also shipped later that afternoon. A few days later, we received a call from the patient's mother, who indicated that her daughter did not request the order they received. Unfortunately, we were not able to provide the mom with any details related to this request and order details, and we upheld all HIPAA provisions and requirements. Moreover, I personally reached out to the prescriber, and validated that both prescriptions were indeed correct and to be dispensed as written. Patient privacy is of utmost importance and is our duty to protect all personal health information related to our clients.

Additionally, I completely understand the concern and involvement of a parent or guardian and can appreciate that they wanted to look into this issue further. I can only imagine how difficult that conversation may have been for this patient and her family. Please know that we take situations like this very seriously and follow strict protocols to ensure the accuracy, validity, and authenticity of prescriptions that we receive. It is our primary focus to provide compassionate care and service to our clients.

Should you have any additional questions or need any additional information, please do not hesitate to contact me.

Best regards,

3. Availability of updated Self-Assessments on the Board's website
4. Currently, negative pressure is not documented/reviewed daily
5. Line of demarcation in HD room
6. Security of the pharmacy

Topics to Educate:

1. If a pharmacy is closing in your area, the Board reminds licensees about the provisions of Business and Professions Code (BPC) section 4064 related to emergency refills.
2. The Board's homepage, www.pharmacy.ca.gov, has a **new online pharmacy locator**. It is currently located at the top of the homepage as a banner.
3. As of January 1, 2025, the following licenses are eligible to **renew online** from the Board's website: Pharmacist, Advanced Practice Pharmacist, Pharmacy Technician, Wholesaler Designated Representative, Veterinary Food Animal Drug Retailer Designated Representative, Third Party Logistics Provider Designated Representative, and Reverse Distributor Designated Representative. The Board will no longer mail out paper renewal applications for these license types. In its place, a postcard reminder will be sent approximately six weeks prior to the license expiration date to renew online at www.pharmacy.ca.gov.
4. The Board has implemented a new online portal to **report a drug theft/drug loss of controlled substances** and encourages licensees to use the portal for future reporting: https://www.pharmacy.ca.gov/webapplications/apps/drug_loss/index.shtml.
5. Effective April 1, 2025, pursuant to 16 CCR 1709.1, the proposed PIC is required to complete the Board's **PIC Overview and Responsibility training course** within two years prior to the date of application to serve as a PIC. For this training go to: https://pharmed.thinkific.com/courses/pic.
6. BPC section 4113.1 establishes requirements for a community pharmacy to report medication errors to an entity approved by the Board. In September 2024, the Board approved the Institute for Safe Medication Practices (ISMP), an ECRI company, as the entity to receive and review medication error reports under BPC section 4113.1. Medication errors that occur on or after **September 1, 2025**, must be reported to the California Medication Error Reporting (CAMER) system. To register with ISMP to report medication errors to the CAMER system, go to: https://mederrors.ismp.org/. For technical issues please email: clientservices@ecri.org.
7. *The Script* Newsletter Article: Under federal law, **licensed health professionals employed by a tribal health program** are required to be exempt, if licensed in any state, from licensing requirements of the state in which the tribal health program performs

specified services. California law aligns with this requirement, and provides an exemption from California licensure for a health care practitioner, including a physician or pharmacist, licensed in any state who practices as part of a tribal health program. To read the full article in the May 2025 edition of *The Script*, go to: https://www.pharmacy.ca.gov/publications/25_may_script.pdf.

8. Compounding: The Office of Administrative Law has approved the Board's updated compounding regulations. The regulations describe the Board's requirements for nonsterile compounding, sterile compounding, hazardous drugs and radiopharmaceutical preparations. These regulations become **effective October 1, 2025.** During this intervening period, the Board encourages licensees to continue transitioning to the new standards established in USP, and to take steps to establish compliance with the Board's updated regulations.

9. As a reminder, **BPC section 4113**(d) requires the PIC or pharmacist on duty to immediately notify store management of any conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff. Store management must take immediate and reasonable steps to address and resolve the conditions that present an immediate risk of death, illness, or irreparable harm to patients, personnel, or pharmacy staff. If the conditions are not resolved within 24 hours, the PIC or pharmacist on duty must ensure the Board is timely notified. Such conditions include, but are not limited to: workplace safety and health hazards, sustained temperatures that could impact ambient temperature drug stability according to the manufacturer data on acceptable drug storage conditions, and vermin infestation that poses a risk to the safety or efficacy of medicine.

MISCELLANEOUS:

This investigator observed a compounding pharmacy technician demonstrate the hand hygiene and garbing process. The compounding pharmacy technician verbally explained the compounding process to this investigator once the compounder donned gloves, because the SUBJECT pharmacy had no active orders for compounded sterile preparations (CSPs) during the inspection. The compounding pharmacy technician told me that the pharmacist checked the final product on a "black and white background" for any particles.

The SUBJECT pharmacy will be compounding low to medium-risk level antibiotics and TPNs. The RPIC stated that the pharmacy does not assign an extended BUDs to finished compounds. The SUBJECT pharmacy does not engage in high-risk compounding. The SUBJECT pharmacy will not be compounding batch preparations.

During the inspection, two (2) training files were reviewed, including didactic training, gloved/fingertip sampling, and aseptic technique for the pharmacist-in-charge, Ami Patel, and a compounding pharmacy technician, Marian Abdelshahid (28RW003396400). The training records were in compliance.

EXIT BRIEFING:

Prior to departing from the SUBJECT pharmacy department, I conducted an exit briefing with Ms. Patel. In connection with the exit briefing, I completed a Form EB-33 (**Attachment A, page 24**) Report of Inspection and explained to her the deficiencies that had been noted.

Ms. Patel was given the opportunity to make any comments, corrections, or explanations to the deficiency noted in this report. After Ms. Patel was satisfied and understood the deficiency noted, she signed off on the Form EB-33 report as well as on the attached Form EB-23A and Form EB-02. I then departed from the SUBJECT pharmacy.

Kapetanakis
Inspector

The medications that were present for the filling of prescriptions have been examined for their compliance to the regulatory standards for quality assurance. The medications that were selected to be examined could potentially have been dispensed, and did not include any segments of the inventory that may already have been separated for future return to their respective manufacturers, or had been placed aside for proper disposal. The medications that were found to be in violation of the regulatory disciplines were segregated by the inspector, and then recorded below. The line entries are categorized by the deficiency for which the medication had been set apart, along with the appropriate regulatory cite. It is requested that you accept your option to compare each package of medication that has been separated as deficient against its collateral entry and, if you concur, place your initials in the left-hand column. The inspector will delete any deficiencies for which there are plausible explanations.

Inspector

The medications that were present for the filling of prescriptions have been examined for their compliance to the regulatory standards for quality assurance. The medications that were selected to be examined could potentially have been dispensed, and did not include any segments of the inventory that may already have been separated for future return to their respective manufacturers, or had been placed aside for proper disposal. The medications that were found to be in violation of the regulatory disciplines were segregated by the inspector, and then recorded below. The line entries are categorized by the deficiency for which the medication had been set apart, along with the appropriate regulatory cite. It is requested that you accept your option to compare each package of medication that has been separated as deficient against its collateral entry and, if you concur, place your initials in the left-hand column. The inspector will delete any deficiencies for which there are plausible explanations.

Summary of Disciplinary Actions Taken Against Optime Care, Inc.

1. Settlement Agreement executed by and between Optime Care Inc. ("Optime") and the Hawaii Department of Commerce and Consumer Affairs – Board of Pharmacy (the "HI Board"), eFiled by the HI Board on February 14, 2023 and delivered to Optime on February 22, 2023 (the "Agreement"). In settlement of the allegations noted in the Agreement, a Settlement Agreement was offered by the HI BOP with a fine imposed in the amount of $2,500. The Agreement was accepted by both parties, the fine was paid and the matter is closed.

The disciplinary action was taken against Optime by the HI Board due to Optime Care's failure to report a Consent Order executed by and between Optime and the Michigan Department of Licensing and Regulatory Affairs ("MI LARA") on its Hawaii pharmacy license renewal applications submitted prior to the Change of Ownership that occurred in December of 2021. The omission on the renewal applications was not intentional on the part of Optime. Through conversations with the MI LARA and Optime's outside legal counsel at the time, it was the understanding of the Optime management personnel that the Consent Order was not a 'reportable' matter. The interpretation of the Michigan matter under Optime's new ownership was that the action should be disclosed to assure complete transparency and, as such, the Consent Order was reported on the December 2021 change of ownership applications filed with all applicable pharmacy boards, including the Rhode Island Board, and all subsequent renewal applications.

The Hawaii Board of Pharmacy Settlement Agreement was reported to the Maine Board of Pharmacy via written communication dated February 17, 2023.

2. Consent Order executed by and between Optime Care Inc. ("Optime") and the Alabama Board of Pharmacy (the "AL Board"), received on May 5, 2023 with an effective date of March 15, 2023 (the "AL Order"). In settlement of Case No. 22-L-0021, a Consent Order was executed and a fine in the amount of $5,000 was imposed. The fine was paid and the matter is closed.

The disciplinary action was taken against Optime by the AL Board for the following violations:

1. Optime dispensing medications into the State of Michigan prior to issuance of the required Michigan pharmacy license. Optime was disciplined by the Michigan Board of Pharmacy for this oversight.

2. Optime's omission in not disclosing the Michigan action on the Louisiana renewal application in 2020. The omission on the renewal application was not intentional on the part of Optime. Through conversations with the Michigan Board of Pharmacy and Optime's outside legal counsel at the time, it was the understanding of the Optime management personnel that the Consent Order was not a 'reportable' matter. However, the interpretation of the Michigan matter under Optime's new ownership was that the action should be disclosed to assure complete transparency and, as such, the Consent Order has been reported on all subsequent pharmacy licensure applications for all applicable pharmacy boards.

The Alabama Board of Pharmacy Consent Order was reported to the Maine Board of Pharmacy via written communication dated May 9, 2023.

3. Imposition of Civil Fine and Order executed by and between Optime Care Inc. ("Optime") and the Alaska Division of Corporations, Business and Professional Licensing (the "AK Board"), received on May 13, 2024 with an effective date of April 11, 2024 (the "AK Order"). In settlement of a complaint filed by the Alaska Board of Pharmacy, Case No.: 2023-000283 22-L-0021, an Imposition of Civil Fine and Order was executed and a fine in the amount of $200 was imposed. The fine was paid and the matter is closed.

The disciplinary action was taken against Optime by the AK Board because Optime appointed a new Pharmacist-in-Charge in January of 2023. The AK Board was apprised of the change and the required Change of Pharmacist-in-Charge form was submitted; however, the notification was received outside of the required timeframe for notification of a new Pharmacist-in-Charge. The AK Board considered this to be a technical violation of the Alaska professional licensing statutes and regulations.

The Alaska Board of Pharmacy Imposition of Fine and Order was reported to the Maine Board of Pharmacy via written communication dated May 25, 2024.

The Department of Licensing and Regulatory Affairs received evidence and information that Respondent Pharmacy violated the Public Health Code, MCL 333.1101 *et seq.* Specifically, Respondent Pharmacy distributed drugs in Michigan before obtaining a license to do so, in violation of MCL 333.17748(1).

MCL 333.17768(1) authorizes the Board's disciplinary subcommittee to take disciplinary action against a licensee who violates the Public Health Code. MCL 333.16231(5) authorizes the Department to submit a stipulation and final order to a disciplinary subcommittee for approval if an agreement is reached resolving alleged violations of the Public Health Code before the issuance of a complaint.

IT IS FURTHER ORDERED that if Respondent Pharmacy fails to comply with the terms and conditions of this Order, Respondent Pharmacy's license shall be automatically SUSPENDED for a minimum of one day. If Respondent Pharmacy complies with this Order within six months of the suspension, the license shall be automatically reinstated. If Respondent Pharmacy's license remains suspended for more than six months, Respondent Pharmacy must apply for reinstatement of the license in accordance with MCL 333.16245 and 333.16247.

Chairperson, Disciplinary Subcommittee

Dated: 2/13/19

STIPULATION

1. Respondent Pharmacy admits violating MCL 333.17748(1) and acknowledges that the Department could prove the violation(s) with facts and evidence at an administrative hearing. Respondent agrees to resolve this matter by this Stipulation and Order without having the facts and evidence of the violation detailed in a formal complaint.

2. Respondent Pharmacy has had the opportunity to consult with an attorney and agrees to these terms voluntarily without duress of any kind.

3. Respondent Pharmacy understands and intends that by signing this Stipulation Respondent Pharmacy is waiving the right provided by the Public Health Code, the rules promulgated thereunder, and the Administrative Procedures Act, MCL 24.201 *et seq.*, to require the Department to prove the violation(s) of the Public Health Code by presentation of evidence and legal authority, and Respondent Pharmacy is

waiving the right to appear with an attorney and witnesses to present a defense to the allegations.

4. This Order resolves all pending issues in this matter and closes this case. No further action will be taken against Respondent Pharmacy based on the facts alleged herein, provided Respondent Pharmacy complies with all the terms of this Order.

5. This matter is a public record required to be published and made available to the public pursuant to the Michigan Freedom of Information Act, MCL 15.231 *et seq.*, and this action will be reported to the National Practitioner's Data Bank, and any other entity as required by state or federal law.

6. Factors taken into consideration in the formulation of this Order include the following:

> Respondent Pharmacy, based in Missouri, is a nationwide pharmacy licensed in all 50 states and is a wholesale distributor of a single drug, Korlym (mifepristone), used to treat patients with Cushing's syndrome. Due to an accidental oversight, Respondent Pharmacy inadvertently failed to obtain a Michigan license before distributing approximately 200 prescriptions of Korlym in Michigan from August 2017 to April 2018.
>
> Upon discovering the error during a quality assurance audit, Respondent Pharmacy immediately notified the Department and took steps to obtain the appropriate licenses. Respondent Pharmacy is now properly licensed to operate in Michigan. The Department has no evidence that Respondent Pharmacy acted intentionally to circumvent the law, that the drugs were defective in any way, or that, except for the lack of licensure, the drugs were improperly distributed.

7. This Order is approved as to form and substance by Respondent Pharmacy and the Department and may be entered as the final order of the Disciplinary Subcommittee in this matter.

8. This proposal is conditioned upon acceptance by the Disciplinary Subcommittee. Respondent Pharmacy and the Department expressly reserve the right to further proceedings without prejudice should this Order be rejected.

RE: Optime Care Inc.
Case No.: 2023-000283 AMENDED

Dear Ms. Handley,

In response to the Amended Notice of Complaint against Optime Care Inc. ("Optime Care") that we received via email on June 20, 2023, a copy of which is attached, we provide the following information:

Item #1.
Submitting a Change of Pharmacist-in-Charge form on 02/22/2023 more than 10 days after the change of Pharmacist-in-Charge occurred.

This item was addressed in the letter emailed to you on May 15, 2023. See Attached.

Item #2.
Failure to notify the Board of a 2019 Michigan Disciplinary Action within 30 days and on the subsequent renewal application.

The Michigan Consent Order was executed by and between Optime Care and the Michigan Department of Licensing and Regulatory Affairs ("Michigan LARA") on February 13, 2019. At that time, Optime Care management had multiple conversations with Optime Care's outside counsel and the Michigan LARA. Through these conversations, it was the understanding of the Optime management personnel that the Consent Order was NOT a 'reportable' matter, and, therefore was not reported to the Alaska Board of Pharmacy.

At the time of the Alaska pharmacy license renewal in July of 2020, Optime Care's management team still believed that the Michigan matter did not need to be disclosed pursuant to communications with outside legal counsel and the Michigan LARA personnel.

In January of 2022, a Change of Ownership application was prepared and the interpretation of the Michigan matter under the NEW ownership was that the action should be disclosed to assure complete transparency and, as such, the Michigan action was disclosed on the Change of Ownership application in January of 2022.

Item #2 (continued)

At the time of the Alaska pharmacy license renewal in 2022, the person completing the renewal unfortunately misread/misinterpreted the question and thought that inasmuch as the Michigan matter had been disclosed on the change of ownership application, it did not need to be reported again. This omission was most certainly NOT intentional, but rather a misunderstanding as to what needed to be disclosed.

Item #3.
Failure to notify the Board of a 2022 Louisiana Disciplinary action within 30 days and on the subsequent renewal application.

Optime Care received the fully executed Consent Agreement from the Louisiana Board of Pharmacy on February 24, 2022. Written notification of the Consent Agreement was delivered to the Alaska Board of Pharmacy on March 16, 2022, which was within the 30 days notification requirement. See Attached.

Again, at the time of the Alaska pharmacy license renewal in 2022, the person completing the renewal application unfortunately misread/misinterpreted the question and thought that inasmuch as written notification of the Louisiana matter had been previously provided to the Alaska Board of Pharmacy, it did not need to be reported again. There was no intent to deceive or withhold information regarding the Louisiana action, but rather a misunderstanding as to what needed to be disclosed.

As the newly appointed General Manager of Optime Care, I can assure the Board that I am reviewing our regulatory compliance procedures with our Pharmacist-in-Charge and will make certain that all pharmacy personnel, including our licensure personnel, are properly trained on their respective duties. We apologize for our inadvertent misrepresentation on the pharmacy license renewal applications and, again, request that the Board exercise leniency and understanding on our behalf.

Should you have any questions, please contact me at 573-694-9962 or via email at brandon.salke@optimecare.com.

Thank you for your time and consideration.

Sincerely,

Brandon Salke

RE: Optime Care Inc.
Case No.: 2023-000283

Dear Ms. Handley,

In response to the Notice of Complaint against Optime Care Inc. ("Optime Care") that we received via email on May 2, 2023, a copy of which is attached, we provide the following information:

At the time of the Pharmacist-in-Charge ("PIC") change from me, Brandon Salke, to Julie Price (effective 1/23/2023), we began the process of preparing and submitting the required notifications and forms to each Board of Pharmacy wherein Optime Care currently holds a pharmacy license (fifty states in total).

As you are most likely aware, each state Board of Pharmacy has its own timely filing requirements for a change in PIC, ranging from 7 days to 30 days. Inasmuch as there were fifty notifications/forms to prepare, our licensing department broke it down by separating the various state information and forms into working piles based on the regulatory time frame for submitting the appropriate notification and/or form, i.e., 7 days, 10 days, 15 days and 30 days. By doing so, we felt confident that the regulatory requirements for each state were being met.

Upon receiving your email informing us of the Notice of Complaint alleging that Optime Care may have violated the Alaska statues and regulation governing the license by submitting a Change of Pharmacist-in-Charge form more than 10 days after the change of PIC occurred, we began an investigation to determine the root cause for the delay in submitting the required form. Based upon our review and findings, we believe that after obtaining the required signatures on the Alaska form, it was inadvertently placed in the 30-day notification pile and sent out accordingly.

It was Optime Care's conscious and full intent to meet the timely filing requirements of each of the fifty states and we felt our method would accomplish this goal. Unfortunately, an inadvertent misplacement of the completed Alaska form, thwarted this effort.

Please note that we have developed an action plan to ensure that this does not happen again and have begun implementation of such. We are working with our Quality Assurance department to identify "tasks" for each state's PIC change requirements within our Electronic Quality Management System. This will allow us to assign specific tasks to individuals within the department and giving each the responsibility of ensuring that the assigned tasks are completed within the respective state's timeline. Additionally, this system will have each task reviewed and checked off by a second individual to confirm correct complete/submission of the notification and/or form.

We are truly sorry for our oversight in this matter and can only reiterate that we believed we made every effort to submit the required form in a timely manner. As such, we respectfully request that the Board exercise leniency and understanding in our behalf.

Should you have any questions, please contact me at 358-267-3917 extension 104 or via email at brandon.salke@optumcare.com.

Thank you for your time and consideration

Sincerely,

Brandon Salke

Out-of-State Pharmacy License #190502

To Whom It May Concern,

This letter is sent as written notification of a Consent Agreement executed by and between Optime Care Inc. ("Optime") and the Louisiana Board of Pharmacy (the "LA Board"), received on February 24, 2022 with an effective date of February 17, 2022 (the "LA Agreement"). In settlement of Case No. 22-0005, a Letter of Reprimand was acknowledged in the Agreement and a fine in the amount of $5,000 was imposed. The fine was paid and the matter is closed.

The disciplinary action was taken against Optime by the LA Board due to Optime Care's failure to report a Consent Order executed by and between Optime and the Michigan Department of Licensing and Regulatory Affairs ("MI LARA") on its most recent Louisiana pharmacy license renewal application. The omission on the renewal application was not intentional on the part of Optime. Through conversations with the MI LARA and Optime's outside legal counsel at the time, it was the understanding of the Optime management personnel that the Consent Order was not a 'reportable' matter. The interpretation of the Michigan matter under Optime's new ownership was that the action should be disclosed to assure complete transparency and, as such, the Consent Order was reported on the recent change of ownership applications filed with various pharmacy boards, including the Louisiana and Alaska Boards.

A copy of the LA Agreement is enclosed for your reference.

CS16064 and PD00512,** **Respondents.**	**Case No. 24-044-PD-A-S** **24-044-PD-B-S** **ANSWER AND NOTICE OF DEFENSE TO FIRST AMENDED NOTICE OF INTENDED ACTION AND ACCUSATION**

Respondents, above named, in answer to the First Amended Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, declare:

1. Dr. Umbach and Dr. Apel are bariatric surgeons who perform hundreds of surgeries every year on morbidly obese patients. Their clinic is Blossom Bariatrics in Las Vegas. Dr. Apel and Dr. Umbach are licensed as "dispensing practitioners" pursuant to the Nevada Administrative Code §§ 639.742 through 639.745.

2. A large majority of the patients of Blossom Bariatrics are from out-of-state. They typically fly in to Las Vegas from all over the country and stay in hotels for the few days that their surgeries require. On the first day, the patients go to Blossom to have preparatory medical work done. This includes testing their blood pressure, having blood work, taking cardiology exams to determine if their hearts are healthy enough for surgery, and getting an endoscopy.

They talk with the staff and the doctors about what to expect, and if they pass all their tests, they are scheduled for surgery the next day at an ambulatory surgical center.

3. In an effort to provide the best care for their patients, Dr. Umbach opened a small facility at Blossom and registered himself and Dr. Apel as "dispensing practitioners." They used the facility for one purpose only which was to provide one drug – tramadol – to their patients for use after their surgery the next day.[1] Each patient received a single bottle of tramadol containing 15 pills and each patient was instructed by the doctor or staff to take one pill every 4 to 6 hours after surgery for pain in doses of 50 milligrams with a maximum of 300 milligrams per day, thus allowing the patient to treat pain for about 2 days after surgery. No patient was ever given more than one bottle, or more than 15 pills.

4. Dr. Umbach wanted to provide the tramadol directly to the patients because it was difficult for most of them to find a pharmacy, given that they were typically from out-of-town and did not know where a pharmacy was, and they had no relationship with any local pharmacy. Also, the patients needed the tramadol for their surgery the next morning, and not every pharmacy had tramadol on hand when patients showed up with their prescription. Dr. Umbach believed that, by making tramadol available at the clinic, he was providing them the best and most convenient care and helping them prepare for their surgery.

5. Therefore, Drs. Apel and Umbach registered as "dispensing practitioners" and used their onsite drug facility for Blossom's patients only. Blossom ordered its one drug – tramadol – from Quality Care Partners ("QCP"), a legitimate pharmaceutical supplier. Blossom operated its practitioner-dispensing inhouse facility for five years, and the Nevada Pharmacy

---

[1] Drs. Umbach and Apel also gave each patient a stool softener and a pill for nausea but these were not controlled substances.

Board inspected its operations annually and knew that Blossom was getting its tramadol from QCP.

6. Drs. Umbach and Apel strived to make its ordering, dispensing and tracking of tramadol error-free by using a software created by MDScripts, a nationally known company that helps medical providers document and track their dispensing practices.

7. Drs. Umbach and Apel tracked every bottle of tramadol they ordered by:

(A) order date;

(B) the date their clinic received it;

(C) the shipment number; and

(D) the lot number.

8. Each patient who received a bottle of tramadol had it documented in his or her medical record, with both the patient's signature confirming receipt, and the dispensing physician's signature as well. The original signed copy with the patient's and the physician's signatures was maintained on-site at the clinic.

9. The tramadol bottles received by the clinic were stored in a closet which required a 4-digit code to enter, and inside the closet, the tramadol was stored in cabinets which had a double lock and therefore required 2 separate keys to unlock.

10. During the time that Blossom had its facility, 84 bottles of tramadol were ordered by Dr. Umbach and then transferred to Dr. Apel to give to patients in the clinic before surgery. Dr. Umbach and Dr. Apel assumed that because they worked together in the same clinic, it would not matter that the drug was ordered by one doctor but used by the other doctor since this is how medical supplies generally were treated and shared. Both Dr. Umbach and Dr. Apel were unaware of the legal limit of such transfers between doctors, and the need to register

as a "distributor" if more than 5% of the total number of dosage units of all controlled substances was exceeded.

11. On the day before surgery, each patient received a single bottle of tramadol containing 15 pills and was instructed by Dr. Umbach, Dr. Apel or the clinic staff to take one pill every 4 to 6 hours after surgery for pain in doses of 50 milligrams with a maximum of 300 milligrams per day, thus allowing the patient to treat pain for about 2 days after surgery.

12. No refills were ever given to any patient.

13. All of these intended precautions did not go according to plan. Although the MDScripts software was difficult for Blossom staff to use because it was new to them, Blossom brought in a MDScripts representatives who helped them use the software to track all the bottles of tramadol.

14. Despite its best efforts, Drs. Umbach and Apel found some discrepancies and in late 2023, they notified the DEA.

15. In December 2023, an investigator from the federal Drug Enforcement Administration visited Blossom to investigate drugs that were allegedly missing to determine if the drugs had been lost or stolen or were otherwise unaccounted for.

16. During the DEA's investigation, Blossom generated a report that showed definitively that Blossom had ordered and received a total of 750 bottles of tramadol between November 28, 2022 and October 31, 2023. Of this 750 total bottles, 706 were dispensed to patients. Dr. Apel dispensed 680 of these bottles, and Dr. Umbach dispensed 16, for a total of 696 bottles. Of this total of 696 bottles that were dispensed, 10 bottles were "voided" by Blossom. This meant that the patient was given a bottle of tramadol at the clinic the day before surgery, but the patient subsequently did not go through with the surgery, typically because their

medical condition, such as blood work or heart issues or pregnancy, made surgery too risky or they just simply changed their minds and no longer wanted the surgery. Drs. Umbach and Apel could not confirm that these 10 patients' bottles of tramadol were placed back in the inventory.

17. The bottom line of the investigation was that a total of 54 bottles of tramadol that Blossom ordered and received during the 11 months between November 28, 2022 and October 31, 2023 could not be accounted for. These 54 bottles were presumed to be stolen or lost between February 13, 2023 and November 17, 2023.

18. As soon as the Blossom staff discovered the theft/loss during the DEA investigation, Dr. Apel and Dr. Umbach directed the clinic staff to do the following:

(A) ***Police report.*** They filed a police report with the Las Vegas police department and indicated their willingness to cooperate in any investigation or provide any information the police requested.

(B) ***Interviews of both current and former staff.*** They interviewed all current staff and former staff to determine if any of them knew anything about the missing prescription bottles and what happened to them. Those employees who were currently employed were interviewed. Blossom physically interviewed all of its former staff who had been employed by Blossom and had access to the locked closet where the tramadol was stored during the one-year period in question to determine if any former staff knew anything about the suspected loss or theft.

19. ***Shutting down the in-house pharmacy facility completely.*** Despite Dr. Umbach and Dr. Apel's efforts to account for the missing 54 bottles by investigating past and current staff and numerous detailed reviews of the software records, no explanation was found, and the bottles were presumed lost or stolen. Drs. Umbach and Apel confirm that after – and as a

result of – the DEA investigation, they did not dispense any drugs at all to anyone after December 2024. In December 2024, the doctors shut down their in-house pharmacy facility completely. Since that time, neither Dr. Umbach nor Dr. Apel has dispensed any drugs at all to any patients whatsoever. Since December of 2024, Drs. Umbach and Apel have instead worked with an outside third-party independent pharmacy to dispense the drugs that they prescribe for their patients prior to surgery.

20. Dr. Apel admits that he failed to indicate on the biennial inventory if the count was taken either as of the opening of business or the close of business. He ***did*** perform the biennial inventory, he merely failed to indicate whether he performed it at the opening or closing of business.

21. Dr. Apel believed he had met these requirements of the federal and state laws including 21 U.S.C. § 842(a)(5) and 21 CFR § 1304.22(c) which requires that "records shall be maintained" of the units or volume dispensed, including "the name and address of the person to whom it was dispensed." The statute, importantly, does not say *where* the "record" of "the patient's address" should be kept, and Dr. Apel met this federal requirement by recording and keeping each patient's address in the patient's medical record. Similarly, NAC § 453.410(1)b)(1) states that the dispensing practitioner shall "ensure that each record of a controlled substance which is dispensed contains the name of the patient and, if not readily available from the practitioner's record, the patient's address." Since the patient's address *was, in fact, readily available in the patient's medical record,* the express language of this regulation does not require that it also be in the dispensing record. Hence, Dr. Apel met the legal requirements because when the tramadol was dispensed, each patient's receipt of the tramadol was recorded in the patient's medical record– *where the patient's address was clearly written and recorded* – and

both the dispensing physician and the patient personally signed for the receipt of the tramadol.

22. Dr. Apel and Dr. Umbach admit that they failed to make acquisition and distribution records of tramadol transfers from Umbach to Apel, in violation of 21 U.S.C. § 842(a)(5), 21 CFR § 1304.22(a)(2)(iv) and (vii), NRS 453.245 and NRS 453.326(1)(a). The software that Blossom purchased tracked these transfers as "pod moves," but even the software's detailed records of such transfers failed to account for the missing bottles of tramadol.

23. Dr. Apel admits that he failed to record the patient's address on the tramadol dispensing records in violation of 21 U.S.C. § 842(a)(5), 21 CFR § 1304.22(c), NRS 453.246, NRS 453.326(1)a) and NAC 453.410(1)(b)(1).

24. Blossom, the clinic and medical practice, but not Dr. Umbach personally, admits that it failed to design and operate a system to disclose suspicious orders of controlled substances in violation of 21 U.S.C. § 832(a), 21 CFR § 1301.74(b), NRS 453.246 and NRS 453.326(1)(a). Dr. Umbach believed that the clinic had designed a system that would prevent theft or loss by its use of a nationally recognized software program that would make its ordering, dispensing and tracking of tramadol error-free, and by storing the tramadol in a closet which required a 4-digit code to enter, limiting the knowledge of that code only to certain staff, and inside the closet, storing the tramadol in a cabinets which had double locks and required 2 separate keys to unlock. Despite taking every reasonable measure it thought of, Blossom's efforts failed.

25. Dr. Umbach admits that he failed to register with the Drug Enforcement Administration as a distributor because he did not realize or understand that such a registration was necessary if he transferred more than 5% of the total number of dosage units of all controlled substance distribution or dispensed during a calendar year, as required by 21 U.S.C. § 822(a) and 21 CFR § 1307.11(b). Dr. Umbach thought that such transfers between doctors working in the

same clinic would be legally permissible as are all such transfers of medical equipment and medical supplies between practitioners working together in the same medical practice or the same clinic.

26. Dr. Apel admits that on or about January 17, 2024, he submitted DEA Form 106 documentation and together with a NRS 453.568 Report to the Board reporting the loss of 765 tramadol 50mg tablets resulting from Blossom's failure to provide effective controls and procedures to guard against the theft and diversion of controlled substances and to ensure all drugs were accounted for, in violation of 21 CFR § 1031.71(a), NAC 453.400 and NAC 639.742(3)(b). Dr. Apel, as stated in more detail above, thought he and Dr. Umbach and Blossom had taken every reasonable step to safeguard the tramadol supply from theft or loss, but those efforts turned out to be inadequate.

27. ***The DEA.*** Dr. Apel and Dr. Umbach were investigated by the federal Drug Enforcement Administration and the DEA's investigation was resolved when the parties completely shut down their in-house pharmacy facility and no longer dispensed any drugs at all after December 2024. No further action was taken by the DEA against either Dr. Apel or Dr. Umbach.

COUNT ONE

28. Dr. Apel and Dr. Umbach deny that they knowingly, willfully or intentionally violated, attempted to violate, assisted in violating, or conspired to violate 21 CFR § 1301.71(a), NAC 453.400 or NAC 639.742(3)(b).

COUNT TWO

29. Dr. Apel and Dr. Umbach deny that they knowingly, willfully or intentionally violated, attempted to violate, assisted in violating, or conspired to violate 21 U.S.C. § 822(a), 21

U.S.C. § 832(a), 21 U.S.C. § 842(a)(5), 21 CFR § 1304.11(a), 21 CFR § 1307.11(b), 21 CFR § 1304.22(a)(2)(iv) and (vii), 21 CFR § 1304.22(c), 21 CFR § 1301.74(b), NRS 453.246, NRS 453.326(1)(a), NAC 453.410(1)(b)(1) and NAC 453.475.

COUNT THREE

30. Dr. Apel and Dr. Umbach deny that they knowingly, willfully or intentionally performed their duties as the holders of controlled substance and dispensing practitioner registrations in an incompetent, unskillful or negligence manner or engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(i).

COUNT FOUR

31. Dr. Apel and Dr. Umbach deny that they have knowingly, willfully or intentionally committed acts that render their registration inconsistent with the public interest and therefore should not be subject to discipline.

32. Dr. Apel and Dr. Umbach and Blossom have shut down their pharmacy and have not dispensed any drugs to any patient at all since December 2024.

DEFENSE

33. Dr. Apel and Dr. Umbach, individually and through their clinic staff, made every reasonable effort to comply with the requirements for a dispensing practitioner set out in NAC §§ 639.742 through 639.745, and did, in fact, satisfy and comply with most of the requirements.

WHEREFORE, it is requested that:

(A) the Nevada State Board of Pharmacy not discipline Dr. Apel or Dr. Umbach;

(B) Dr. Apel, Dr. Umbach and Blossom request a hearing before the Board to answer the First Amended Notice of Intended Action and Accusation and present

evidence and argument on all issues involved.

CS16064 and PD00512,** **Respondents.**	**Case No. 24-044-PD-A-S** **24-044-PD-B-S** **ANSWER AND NOTICE OF DEFENSE TO FIRST AMENDED NOTICE OF INTENDED ACTION AND ACCUSATION**

Respondents, above named, in answer to the First Amended Notice of Intended Action and Accusation filed in the above-entitled matter before the Nevada State Board of Pharmacy, declare:

1. Dr. Umbach and Dr. Apel are bariatric surgeons who perform hundreds of surgeries every year on morbidly obese patients. Their clinic is Blossom Bariatrics in Las Vegas. Dr. Apel and Dr. Umbach are licensed as "dispensing practitioners" pursuant to the Nevada Administrative Code §§ 639.742 through 639.745.

2. A large majority of the patients of Blossom Bariatrics are from out-of-state. They typically fly in to Las Vegas from all over the country and stay in hotels for the few days that their surgeries require. On the first day, the patients go to Blossom to have preparatory medical work done. This includes testing their blood pressure, having blood work, taking cardiology exams to determine if their hearts are healthy enough for surgery, and getting an endoscopy.

They talk with the staff and the doctors about what to expect, and if they pass all their tests, they are scheduled for surgery the next day at an ambulatory surgical center.

3. In an effort to provide the best care for their patients, Dr. Umbach opened a small facility at Blossom and registered himself and Dr. Apel as "dispensing practitioners." They used the facility for one purpose only which was to provide one drug – tramadol – to their patients for use after their surgery the next day.[1] Each patient received a single bottle of tramadol containing 15 pills and each patient was instructed by the doctor or staff to take one pill every 4 to 6 hours after surgery for pain in doses of 50 milligrams with a maximum of 300 milligrams per day, thus allowing the patient to treat pain for about 2 days after surgery. No patient was ever given more than one bottle, or more than 15 pills.

4. Dr. Umbach wanted to provide the tramadol directly to the patients because it was difficult for most of them to find a pharmacy, given that they were typically from out-of-town and did not know where a pharmacy was, and they had no relationship with any local pharmacy. Also, the patients needed the tramadol for their surgery the next morning, and not every pharmacy had tramadol on hand when patients showed up with their prescription. Dr. Umbach believed that, by making tramadol available at the clinic, he was providing them the best and most convenient care and helping them prepare for their surgery.

5. Therefore, Drs. Apel and Umbach registered as "dispensing practitioners" and used their onsite drug facility for Blossom's patients only. Blossom ordered its one drug – tramadol – from Quality Care Partners ("QCP"), a legitimate pharmaceutical supplier. Blossom operated its practitioner-dispensing inhouse facility for five years, and the Nevada Pharmacy

---

[1] Drs. Umbach and Apel also gave each patient a stool softener and a pill for nausea but these were not controlled substances.

Board inspected its operations annually and knew that Blossom was getting its tramadol from QCP.

6. Drs. Umbach and Apel strived to make its ordering, dispensing and tracking of tramadol error-free by using a software created by MDScripts, a nationally known company that helps medical providers document and track their dispensing practices.

7. Drs. Umbach and Apel tracked every bottle of tramadol they ordered by:

(A) order date;

(B) the date their clinic received it;

(C) the shipment number; and

(D) the lot number.

8. Each patient who received a bottle of tramadol had it documented in his or her medical record, with both the patient's signature confirming receipt, and the dispensing physician's signature as well. The original signed copy with the patient's and the physician's signatures was maintained on-site at the clinic.

9. The tramadol bottles received by the clinic were stored in a closet which required a 4-digit code to enter, and inside the closet, the tramadol was stored in cabinets which had a double lock and therefore required 2 separate keys to unlock.

10. During the time that Blossom had its facility, 84 bottles of tramadol were ordered by Dr. Umbach and then transferred to Dr. Apel to give to patients in the clinic before surgery. Dr. Umbach and Dr. Apel assumed that because they worked together in the same clinic, it would not matter that the drug was ordered by one doctor but used by the other doctor since this is how medical supplies generally were treated and shared. Both Dr. Umbach and Dr. Apel were unaware of the legal limit of such transfers between doctors, and the need to register

as a "distributor" if more than 5% of the total number of dosage units of all controlled substances was exceeded.

11. On the day before surgery, each patient received a single bottle of tramadol containing 15 pills and was instructed by Dr. Umbach, Dr. Apel or the clinic staff to take one pill every 4 to 6 hours after surgery for pain in doses of 50 milligrams with a maximum of 300 milligrams per day, thus allowing the patient to treat pain for about 2 days after surgery.

12. No refills were ever given to any patient.

13. All of these intended precautions did not go according to plan. Although the MDScripts software was difficult for Blossom staff to use because it was new to them, Blossom brought in a MDScripts representatives who helped them use the software to track all the bottles of tramadol.

14. Despite its best efforts, Drs. Umbach and Apel found some discrepancies and in late 2023, they notified the DEA.

15. In December 2023, an investigator from the federal Drug Enforcement Administration visited Blossom to investigate drugs that were allegedly missing to determine if the drugs had been lost or stolen or were otherwise unaccounted for.

16. During the DEA's investigation, Blossom generated a report that showed definitively that Blossom had ordered and received a total of 750 bottles of tramadol between November 28, 2022 and October 31, 2023. Of this 750 total bottles, 706 were dispensed to patients. Dr. Apel dispensed 680 of these bottles, and Dr. Umbach dispensed 16, for a total of 696 bottles. Of this total of 696 bottles that were dispensed, 10 bottles were "voided" by Blossom. This meant that the patient was given a bottle of tramadol at the clinic the day before surgery, but the patient subsequently did not go through with the surgery, typically because their

medical condition, such as blood work or heart issues or pregnancy, made surgery too risky or they just simply changed their minds and no longer wanted the surgery. Drs. Umbach and Apel could not confirm that these 10 patients' bottles of tramadol were placed back in the inventory.

17. The bottom line of the investigation was that a total of 54 bottles of tramadol that Blossom ordered and received during the 11 months between November 28, 2022 and October 31, 2023 could not be accounted for. These 54 bottles were presumed to be stolen or lost between February 13, 2023 and November 17, 2023.

18. As soon as the Blossom staff discovered the theft/loss during the DEA investigation, Dr. Apel and Dr. Umbach directed the clinic staff to do the following:

(A) ***Police report.*** They filed a police report with the Las Vegas police department and indicated their willingness to cooperate in any investigation or provide any information the police requested.

(B) ***Interviews of both current and former staff.*** They interviewed all current staff and former staff to determine if any of them knew anything about the missing prescription bottles and what happened to them. Those employees who were currently employed were interviewed. Blossom physically interviewed all of its former staff who had been employed by Blossom and had access to the locked closet where the tramadol was stored during the one-year period in question to determine if any former staff knew anything about the suspected loss or theft.

19. ***Shutting down the in-house pharmacy facility completely.*** Despite Dr. Umbach and Dr. Apel's efforts to account for the missing 54 bottles by investigating past and current staff and numerous detailed reviews of the software records, no explanation was found, and the bottles were presumed lost or stolen. Drs. Umbach and Apel confirm that after – and as a

result of – the DEA investigation, they did not dispense any drugs at all to anyone after December 2024. In December 2024, the doctors shut down their in-house pharmacy facility completely. Since that time, neither Dr. Umbach nor Dr. Apel has dispensed any drugs at all to any patients whatsoever. Since December of 2024, Drs. Umbach and Apel have instead worked with an outside third-party independent pharmacy to dispense the drugs that they prescribe for their patients prior to surgery.

20. Dr. Apel admits that he failed to indicate on the biennial inventory if the count was taken either as of the opening of business or the close of business. He ***did*** perform the biennial inventory, he merely failed to indicate whether he performed it at the opening or closing of business.

21. Dr. Apel believed he had met these requirements of the federal and state laws including 21 U.S.C. § 842(a)(5) and 21 CFR § 1304.22(c) which requires that "records shall be maintained" of the units or volume dispensed, including "the name and address of the person to whom it was dispensed." The statute, importantly, does not say *where* the "record" of "the patient's address" should be kept, and Dr. Apel met this federal requirement by recording and keeping each patient's address in the patient's medical record. Similarly, NAC § 453.410(1)b)(1) states that the dispensing practitioner shall "ensure that each record of a controlled substance which is dispensed contains the name of the patient and, if not readily available from the practitioner's record, the patient's address." Since the patient's address *was, in fact, readily available in the patient's medical record,* the express language of this regulation does not require that it also be in the dispensing record. Hence, Dr. Apel met the legal requirements because when the tramadol was dispensed, each patient's receipt of the tramadol was recorded in the patient's medical record– *where the patient's address was clearly written and recorded* – and

both the dispensing physician and the patient personally signed for the receipt of the tramadol.

22. Dr. Apel and Dr. Umbach admit that they failed to make acquisition and distribution records of tramadol transfers from Umbach to Apel, in violation of 21 U.S.C. § 842(a)(5), 21 CFR § 1304.22(a)(2)(iv) and (vii), NRS 453.245 and NRS 453.326(1)(a). The software that Blossom purchased tracked these transfers as "pod moves," but even the software's detailed records of such transfers failed to account for the missing bottles of tramadol.

23. Dr. Apel admits that he failed to record the patient's address on the tramadol dispensing records in violation of 21 U.S.C. § 842(a)(5), 21 CFR § 1304.22(c), NRS 453.246, NRS 453.326(1)a) and NAC 453.410(1)(b)(1).

24. Blossom, the clinic and medical practice, but not Dr. Umbach personally, admits that it failed to design and operate a system to disclose suspicious orders of controlled substances in violation of 21 U.S.C. § 832(a), 21 CFR § 1301.74(b), NRS 453.246 and NRS 453.326(1)(a). Dr. Umbach believed that the clinic had designed a system that would prevent theft or loss by its use of a nationally recognized software program that would make its ordering, dispensing and tracking of tramadol error-free, and by storing the tramadol in a closet which required a 4-digit code to enter, limiting the knowledge of that code only to certain staff, and inside the closet, storing the tramadol in a cabinets which had double locks and required 2 separate keys to unlock. Despite taking every reasonable measure it thought of, Blossom's efforts failed.

25. Dr. Umbach admits that he failed to register with the Drug Enforcement Administration as a distributor because he did not realize or understand that such a registration was necessary if he transferred more than 5% of the total number of dosage units of all controlled substance distribution or dispensed during a calendar year, as required by 21 U.S.C. § 822(a) and 21 CFR § 1307.11(b). Dr. Umbach thought that such transfers between doctors working in the

same clinic would be legally permissible as are all such transfers of medical equipment and medical supplies between practitioners working together in the same medical practice or the same clinic.

26. Dr. Apel admits that on or about January 17, 2024, he submitted DEA Form 106 documentation and together with a NRS 453.568 Report to the Board reporting the loss of 765 tramadol 50mg tablets resulting from Blossom's failure to provide effective controls and procedures to guard against the theft and diversion of controlled substances and to ensure all drugs were accounted for, in violation of 21 CFR § 1031.71(a), NAC 453.400 and NAC 639.742(3)(b). Dr. Apel, as stated in more detail above, thought he and Dr. Umbach and Blossom had taken every reasonable step to safeguard the tramadol supply from theft or loss, but those efforts turned out to be inadequate.

27. ***The DEA.*** Dr. Apel and Dr. Umbach were investigated by the federal Drug Enforcement Administration and the DEA's investigation was resolved when the parties completely shut down their in-house pharmacy facility and no longer dispensed any drugs at all after December 2024. No further action was taken by the DEA against either Dr. Apel or Dr. Umbach.

COUNT ONE

28. Dr. Apel and Dr. Umbach deny that they knowingly, willfully or intentionally violated, attempted to violate, assisted in violating, or conspired to violate 21 CFR § 1301.71(a), NAC 453.400 or NAC 639.742(3)(b).

COUNT TWO

29. Dr. Apel and Dr. Umbach deny that they knowingly, willfully or intentionally violated, attempted to violate, assisted in violating, or conspired to violate 21 U.S.C. § 822(a), 21

U.S.C. § 832(a), 21 U.S.C. § 842(a)(5), 21 CFR § 1304.11(a), 21 CFR § 1307.11(b), 21 CFR § 1304.22(a)(2)(iv) and (vii), 21 CFR § 1304.22(c), 21 CFR § 1301.74(b), NRS 453.246, NRS 453.326(1)(a), NAC 453.410(1)(b)(1) and NAC 453.475.

COUNT THREE

30. Dr. Apel and Dr. Umbach deny that they knowingly, willfully or intentionally performed their duties as the holders of controlled substance and dispensing practitioner registrations in an incompetent, unskillful or negligence manner or engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(i).

COUNT FOUR

31. Dr. Apel and Dr. Umbach deny that they have knowingly, willfully or intentionally committed acts that render their registration inconsistent with the public interest and therefore should not be subject to discipline.

32. Dr. Apel and Dr. Umbach and Blossom have shut down their pharmacy and have not dispensed any drugs to any patient at all since December 2024.

DEFENSE

33. Dr. Apel and Dr. Umbach, individually and through their clinic staff, made every reasonable effort to comply with the requirements for a dispensing practitioner set out in NAC §§ 639.742 through 639.745, and did, in fact, satisfy and comply with most of the requirements.

WHEREFORE, it is requested that:

(A) the Nevada State Board of Pharmacy not discipline Dr. Apel or Dr. Umbach;

(B) Dr. Apel, Dr. Umbach and Blossom request a hearing before the Board to answer the First Amended Notice of Intended Action and Accusation and present

evidence and argument on all issues involved.

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. IVAN LEE GOLDSMITH, M.D., Certificate of Registration No. CS33713, Respondent.	CASE NO.: 24-488-CS-S **ANSWER AND NOTICE OF DEFENSE**

Respondent above named, in answer to the Notice of Intended Action and Accusation filed in the above-titled matter before the Nevada States Board of Pharmacy (the "Board"), declares:

1. That his objections to the Notice of Intended Action and Accusation (the "Notice") as being incomplete or failing to state clearly the charges against him, is hereby interposed on the following grounds:

a. This action is barred by the doctrine of laches. The Notice addresses conduct alleged to have occurred in 2023 and 2024. The Board filed its Complaint on January 7, 2026, years after the alleged conduct - without a valid excuse for such delay, as a result of which Dr. Goldsmith was prejudiced. Implicit in the Board's statutes (NRS 639.241, *et. seq.*) and its regulations (NAC 639.120, *et. seq.*) is an obligation to proceed promptly and fairly against Respondent. Because the Board did not promptly determine whether the Notice would be filed against Dr. Goldsmith, it would be inequitable and unjust to proceed.

b. Respondent denies that he ever knowingly or intentionally violated any state law or regulation, including, but not limited to 21 U.S.C. § 822(a)(2) and (e)(1), 21 U.S.C. § 823(f), 21 U.S.C. § 841(a), 21 U.S.C. § 842(a), 21 C.F.R. § 1301.12, 21 C.F.R. § 1306.03(a)(1), NRS 453.226(1), NRS 453.232, NRS 453.321(1)(a), NRS 639.100(1), NRS 639.235(1), NRS 639.2813(1), NRS 639.23507, NAC 639.945(1)(i) and (k),or any other provision of NRS 454 or NRS 639 alleged to have been violated.

2. That, in answer to the Notice, he admits, denies, and alleges as follows:

a. Respondent admits that the Board has jurisdiction over this matter.

b. Respondent admits the allegations in Paragraph 2 of the Notice.

c. Respondent denies the allegation in Paragraph 3 of the Notice.

d. Respondent admits the allegations in Paragraph 4 of the Notice.

e. Respondent denies the allegations in Paragraph 5.

f. Respondent admits the allegations in Paragraph 6.

g. The allegations in Paragraphs 7 through 15 contain conclusions of law for which no response is required.

h. For the reasons set forth in his objections, and based on his admissions and denials of the allegations in the preceding paragraphs, Respondent denies the allegations in Counts One through Seven.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (Board), by and through General Counsel Brett Kandt, and Respondent Ivan Lee Goldsmith, MD, Certificate of Registration No. CS33713, by and through counsel, Crane M. 4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration, the right to appeal and any and all other rights which may be accorded to him pursuant to NRS Chapter 233B (Nevada Administrative Procedure Act), NRS Chapter 622A (Administrative Procedure Before Certain Regulatory Bodies), and NRS Chapter 639 (Nevada Pharmacy Act).

5. Conditioned on the acceptance of this Stipulation by the Board, and with the exception of the right to challenge any determination that Respondent has failed to comply with

6. Respondent does not contest the allegations in the Accusation, but acknowledges that Board staff prosecuting this case could present such evidence at an administrative hearing to establish a factual basis for the violations alleged therein, *to wit*:

A. By failing to timely renew his Certificate of Registration CS33713 prior to issuing controlled substance prescriptions, and by issuing controlled substance prescriptions without a valid registration, Respondent falsely represented himself as a practitioner entitled to write prescriptions in this state and violated 21 U.S.C. § 822(a)(2) and (e)(1), 21 U.S.C. § 823(f), 21 U.S.C. § 841(a), 21 U.S.C. § 842(a), 21 C.F.R. § 1301.12, 21 CFR § 1306.03(a)(1), NRS 453.226(1), NRS 453.232, NRS 453.321(1)(a), NRS 639.100(1), NRS 639.235(1) and/or NRS 639.2813(1);

B. By failing to review patient utilization reports in the Prescription Monitoring Program (PMP) database prior to issuing controlled substance prescriptions, Respondent violated NRS 639.23507; and

C. By his acts and omissions, Respondent has engaged in unprofessional conduct and conduct contrary to the public interest as defined in NAC 639.945(1)(i) and (k), and committed acts that render his registration inconsistent with the public interest.

7. Those violations are plead with particularity in the Accusation, and are grounds for action pursuant to NRS 453.236(1)(e), NRS 453.241(1), NRS 639.210 and/or NRS 639.255.

8. In order to resolve this matter without incurring any further costs or the expense associated with a hearing, the Board and Respondent stipulate to the following penalties. The certificate of registration of Ivan Lee Goldsmith, MD, Certificate of Registration No. CS33713, is

suspended for a period of one (1) year pursuant to NRS 453.241(1)(a). The suspension is stayed, and Respondent is placed on probation pursuant to NRS 639.255(1)(b) subject to the following conditions:

A. Respondent shall accept this Stipulation and Order as a public reprimand regarding his duties and responsibilities as a practitioner under NRS Chapters 453, 454 and 639;

B. Pursuant to NRS 639.255(1)(f) and NAC 639.955(5), Respondent shall pay a fine of Five Thousand Dollars ($5,000.00) for the violations, by personal, business, certified or cashier's check or money order made payable to "State of Nevada, Office of the Treasurer" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by May 1, 2026;

C. Pursuant to NRS 622.400, Respondent shall pay One Thousand Dollars ($1,000.00) to partially reimburse the Board for reasonable attorney's fees and recoverable costs incurred in investigating and prosecuting this matter, by personal, business, certified or cashier's check or money order made payable to the "Nevada State Board of Pharmacy" to be received by the Board's Reno office located at 985 Damonte Ranch Parkway – Suite 206, Reno, Nevada 89521, due and payable by May 1, 2026;

D. Respondent shall complete training from Board staff on use of the PMP database in compliance with NRS 453.164(7) and NRS 639.23507 within sixty (60) days of the effective date of this Order and shall complete follow-up training six (6) months after the initial training; and

E. Respondent shall comply with all federal and state statutes and regulations regarding controlled substances and dangerous drugs, and have no additional charges filed against him while on probation.

Upon successful completion of probation, Respondent's Certificate of Registration No. CS33713 will be fully restored.

9. Any failure by Respondent to comply with the terms of this Order may result in issuance by the Executive Secretary of an order to show cause pursuant to NAC 639.965 directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation of this Order by Respondent, the Board may lift the stay and immediately suspend Respondent's Certificate of Registration No. CS33713 and impose additional discipline upon Respondent not inconsistent with the provisions of NRS Chapters 453 and 639.

10. General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on March 4, 2026. 12. If the Board rejects any part or all of this Stipulation, and unless they reach an alternative agreement on the record during the hearing, the parties agree that a full hearing on the merits of this matter may be heard by the Board. The terms and admissions herein may not be used or referred to in a full hearing on the merits of this matter.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any and all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have existed on or before the effective date of this Order,

SEALED
CRIMINAL INDICTMENT

Case No. 2:22-cr-156 CDS NJK

VIOLATION:

Health Care Fraud (18 U.S.C. § 1347)

THE GRAND JURY CHARGES THAT:

Introductory Allegations

At times material to this Indictment:

1. Defendant FESTUS ONYEMALIOSIA EBONKA, a resident of Las Vegas, Nevada, was a registered nurse and a certified nurse practitioner licensed to practice in Nevada. EBONKA was a Medicare provider and was required to abide by all Medicare rules and regulations.

2. EBONKA owned and operated three Nevada companies (collectively, "the Ebonka Entities") enrolled in the Medicare program: Nevada Integrated Behavioral Services Inc.; Ebonny Behavioral Care Services Corporation; and CBH Wellness Clinic, Inc.

3. D.B., E.G., Ge.A., Gw.A., J.G., K.K., Mi.H., My.H., T.H., and Y.H. were Medicare beneficiaries residing in the District of Nevada.

4. E.H., J.L., and L.S. were former Medicare beneficiaries who were deceased.

The Medicare Program

5. The Medicare program ("Medicare") was a federal health care program, as defined in Title 18, United States Code, Section 24(b), that provided free or below cost health care benefits to certain eligible beneficiaries, primarily persons who were 65 years of age or older or disabled. The Centers for Medicare and Medicaid Services (CMS), a federal agency within the U.S. Department of Health and Human Services, administers the Medicare program.

6. Medicare was divided into four parts and covered specific benefits, items, and services: hospital insurance (Part A), medical insurance (Part B), Medicare Advantage (Part C), and prescription drug benefits (Part D).

7. Medicare Part B covered outpatient physician and non-physician practitioner services, durable medical equipment, and some preventive services.

8. Physicians, nurses, nurse practitioners, clinics, laboratories, and other health care providers that provided services to Medicare beneficiaries were able to apply for and obtain a "provider number." A health care provider that received a Medicare provider number was able to file claims with Medicare to obtain reimbursement for services provided to beneficiaries.

9. To receive Medicare reimbursement, providers had to fill out an application and execute a written provider agreement, known as CMS Form 855. The application contained certifications that the provider agreed to abide by Medicare laws and regulations, and that the provider "[would] not knowingly present or cause to be presented a false or

fraudulent claim for payment by Medicare, and [would] not submit claims with deliberate ignorance or reckless disregard of their truth or falsity." Medicare providers were given access to Medicare manuals and service bulletins describing procedures, rules, and regulations.

HCPCS Code L8679

10. CMS established the Healthcare Common Procedure and Coding System (HCPCS) Level II Code Set. The HCPCS Level II Code Set is a standardized five-digit alphanumeric coding system that is used by federal, state, and private health insurance entities primarily to identify products, supplies, and services provided by healthcare professionals. These codes are also used to bill and submit claims to federal, state, and private insurance entities for reimbursement of medical services provided to beneficiaries. The coding system adheres to the following format: the first digit is a letter that identifies the HCPCS code chapter and payment category that the service belongs to and group similar services together, while the last four digits are numeric characters. For example, codes beginning with an "L" belong to the prosthetics and orthotics services/payment category.

11. HCPCS code L8679 is used to bill for Medicare-covered neurostimulator devices that require surgical implantation. The use of a neurostimulator involves implantation of electrodes around a selected peripheral nerve. The stimulating electrode is connected by an insulated lead to a receiver which is implanted under the skin at a depth not greater than ½ inch. Stimulation is induced by a generator connected to an antenna unit which is attached to the skin surface over the receiver unit. Implantation of the stimulating electrodes requires a surgical process that takes at least one to two hours and usually necessitates an operating room.

The Stivax Device

12. Stivax is a medical device placed on the top of a patient's inner ear, has a battery, and stays on for about two weeks. The Food and Drug Administration describes Stivax as a single use, battery-powered, electrical nerve stimulator which is used for the stimulation of the vagus nerve through the ear. The stimulator is taped to the patient's ear. The FDA stated that the Stivax device is indicated for use as an electro-acupuncture device for use in the practice of acupuncture by qualified practitioners as determined by the states. Medicare does not provide reimbursement for acupuncture services, such as the provision and use of the Stivax device.

COUNTS ONE TO THIRTEEN
Health Care Fraud
(18 U.S.C. § 1347)

13. Beginning in or around March 2017, and continuing through in or around September 2018, within the State and Federal District of Nevada and elsewhere,

FESTUS ONYEMALIOSIA EBONKA,

defendant herein, knowingly and willfully executed, attempted to execute, and participated in a scheme and artifice to defraud a health care benefit program, namely Medicare, and to obtain, by means of materially false and fraudulent pretenses, representations, and promises, money and property owned by, and under the custody and control of, a health care benefit program, in connection with the delivery of, and payment for, health care benefits, items, and services, as described below.

14. The purpose of the scheme and artifice to defraud was for EBONKA to unlawfully enrich himself by causing the submission of materially false and fraudulent claims to Medicare through the Ebonka Entities.

15. It was part of the scheme that EBONKA submitted and caused to be submitted false and fraudulent claims requesting reimbursement under Procedure Code L8679 that were ineligible for Medicare reimbursement.

16. These claims were false and fraudulent in that EBONKA and the Ebonka Entities had not provided medical services that qualified for reimbursement under Procedure Code L8679, including, for example:

a. Claims in the name of beneficiaries who received services related to the Stivax device, which did not qualify for any Medicare reimbursement, on the date indicated on the claim.

b. Claims in the name of beneficiaries who received no services related to the Stivax device on the date indicated on the claim.

c. Claims in the names of beneficiaries who were deceased at the time EBONKA purportedly provided them with medical services.

17. From in or around March 2017 through in or around September 2018, EBONKA caused the submission to Medicare of at least 2,500 false and fraudulent claims requesting at least $25 million in reimbursement. Medicare paid the Ebonka Entities more than $10 million as a result of EBONKA's fraudulent claim submissions.

18. On or about the dates set forth below, within the State and Federal District of Nevada and elsewhere, EBONKA did knowingly and willfully execute, attempt to execute, and participate in the above-described scheme and artifice in that EBONKA caused the submission of the false and fraudulent claims described below to Medicare seeking reimbursement for the approximate amount of $10,000 per claim, each submission a separate violation of 18 U.S.C. § 1347:

Defendant further agrees that, upon filing of this agreement, the USAO is authorized to obtain defendant's credit report. Defendant will also complete a financial form

provided by the USAO, to include all supporting documentation, and return it to the USAO within ten (10) days from entry of the plea. Defendant agrees that the district court may enter any order necessary to effectuate or facilitate disclosure of defendant's financial information;

i. To facilitate payment of any fine, restitution, or assessment, surrender assets defendant obtained directly or indirectly as a result of defendant's crimes. Defendant agrees to voluntarily release funds and property under defendant's control or in which defendant has any property interest, before and after sentencing, to pay any fine or restitution identified in this agreement, agreed to by the parties, or ordered by the Court;

j. Defendant agrees that restitution shall be ordered due and payable in full immediately after the judgment is entered, and that the full amount of any restitution ordered is subject to immediate enforcement and collection by the USAO or defendant's victims, or both. Defendant agrees that any schedule of payments entered by the district court is a schedule of the minimum payment due and does not prohibit or limit the methods by which the USAO may immediately enforce and collect the judgment in full. Defendant acknowledges that restitution may not be discharged, in whole or in part, in any present or future bankruptcy proceeding.

II. THE USAO'S OBLIGATIONS

2. The USAO agrees to:

a. Stipulate to facts agreed to in this agreement;

b. Abide by all agreements regarding sentencing contained in this agreement;

c. At sentencing, provided that defendant demonstrates an acceptance of responsibility for the offenses up to and including the time of sentencing, recommend a two-level reduction in the applicable sentencing guidelines offense level, pursuant to USSG § 3E1.1;

d. At sentencing, move to dismiss the indictment against defendant. Defendant agrees, however, that the district court may consider any dismissed charges in

determining the applicable sentencing guidelines range, the propriety and extent of any departure from that range, and the sentence to be imposed; and

e. Not bring any additional charges against defendant arising out of the factual basis set forth in this agreement. However, the USAO reserves the right to prosecute defendant for (a) any crime of violence as defined by 18 U.S.C. § 16; and (b) any criminal tax violations (including conspiracy to commit such violations chargeable under 18 U.S.C. § 371). Defendant agrees that the district court at sentencing may consider any uncharged conduct in determining the applicable sentencing guidelines range, the propriety and extent of any departure from that range, and the sentence to be imposed after consideration of the sentencing guidelines and all other relevant factors under 18 U.S.C. § 3553(a).

III. ELEMENTS OF THE OFFENSE

3. Count One: The elements of Conversion of Government Money under 18 U.S.C. § 641 are as follows:

First: The defendant knowingly converted to the defendant's use money with the intention of depriving the owner of the use or benefit of the money; and

Second: the money belonged to the United States.

See Ninth Circuit Model Criminal Jury Instruction 23.1 (2022 ed.).

4. Deliberate Indifference: A defendant acts knowingly if:

First: The defendant was aware of a high probability that he was not entitled to reimbursement by Medicare, and

Second: the defendant deliberately avoided learning the truth.

See Ninth Circuit Model Criminal Jury Instruction 4.9 (2022 ed.).

IV. CONSEQUENCES OF CONVICTION

5. Maximum Statutory Penalties: Defendant understands that the statutory maximum sentence the district court can impose for a violation of 18 U.S.C. § 641 as charged in the Information, is: one year of imprisonment; a one-year period of supervised release; a fine of $250,000 or twice the gross gain or gross loss resulting from the offense, whichever is greatest; and a mandatory special assessment of $25.

6. Restitution: Defendant understands that defendant will be required to pay full restitution to the victim(s) of the offense to which defendant is pleading guilty. The parties currently believe that the applicable amount of restitution is approximately $6,519.69, but recognize and agree that this amount could change based on facts that come to the attention of the parties prior to sentencing.

7. Parole Abolished: Defendant acknowledges that defendant's prison sentence cannot be shortened by early release on parole because parole has been abolished.

8. Supervised Release: Defendant understands that supervised release is a period of time following imprisonment during which defendant will be subject to various restrictions and requirements. Defendant understands that if defendant violates one or more of the conditions of any supervised release imposed, defendant may be returned to prison for all or part of the term of supervised release authorized by statute for the offense that resulted in the term of supervised release, which could result in defendant serving a total term of imprisonment greater than the statutory maximum stated above.

9. Factors under 18 U.S.C. § 3553: Defendant understands that the district court must consider the factors set forth in 18 U.S.C. § 3553(a) in determining defendant's sentence. However, the statutory maximum sentence limits the district court's discretion in determining defendant's sentence.

10. Potential Collateral Consequences of Conviction: Defendant understands that, by pleading guilty, defendant may be giving up valuable government benefits and valuable civic rights. Defendant understands that the conviction in this case may subject defendant to various other collateral consequences, including but not limited to revocation of probation, parole, or supervised release in another case and suspension or revocation of a professional license. Defendant understands that unanticipated collateral consequences will not serve as grounds to withdraw defendant's guilty plea.

11. Potential Removal/Deportation Consequences of Conviction: Defendant understands that, if defendant is not a United States citizen, the conviction in this case may subject defendant to removal, also known as deportation, which may, under some circumstances, be mandatory; denial of citizenship; and denial of admission to the United States in the future. The district court cannot advise defendant fully regarding the immigration consequences of the conviction in this case, but defendant's attorney has advised him about the deportation risks of his guilty plea. Defendant understands that unexpected immigration consequences will not serve as grounds to withdraw defendant's guilty plea.

V. FACTUAL BASIS

12. Defendant admits that defendant is, in fact, guilty of the offense to which defendant is agreeing to plead guilty. Defendant acknowledges that if defendant elected to go to trial instead of pleading guilty, the USAO could prove defendant's guilt beyond a reasonable doubt. Defendant further acknowledges that defendant's admissions and declarations of fact set forth below satisfy every element of the charged offense. Defendant waives any potential future claim that the facts defendant admitted below are insufficient to satisfy the elements of the charged offense. Defendant admits and declares under penalty of perjury that the facts set forth below are true and correct:

a. At all relevant times, defendant Festus Onyemaliosia Ebonka, a resident of Las Vegas, Nevada, was a registered nurse and a certified nurse practitioner licensed to practice in Nevada. Ebonka was a provider enrolled in Medicare and was required to abide by all Medicare rules and regulations.

b. From in or around March 2017 through in or around September 2018, Ebonka, through businesses under his control, caused the submission to Medicare of claims requesting reimbursement under Procedure Code L8679.

c. Ebonka submitted those claims based on the purported application of a device called Stivax to patients covered by Medicare.

d. However, these claims were false because Procedure Code L8679 does not cover the application of the Stivax device, which Medicare considers a non-reimbursement acupuncture treatment.

e. On September 13, 2018, Ebonka caused the submission to Medicare of a request for $10,000 of reimbursement under Procedure Code L8679 for services rendered to B.A., a patient of Ebonka. The claim was false because the services provide to B.A. – the application of the Stivax device – were not covered by Procedure Code L8679. Based on this clam, Medicare, a federal agency, reimbursed Ebonka $6,519.69, which he converted to his own use.

f. At the time Ebonka caused the above submission for services provided to B.A., he was deliberately ignorant to the false nature of this claim, that is, he was aware of a high probability that Procedure Code L8679 did not cover the application of the Stivax device and deliberately avoided learning the truth.

g. All of the above occurred in the District of Nevada and elsewhere.

VI. SENTENCING FACTORS

13. Discretionary Nature of Sentencing Guidelines: Defendant understands that in determining defendant's sentence, the district court is required to calculate the applicable sentencing guidelines range and to consider that range, possible departures under the sentencing guidelines, and the other sentencing factors set forth in 18 U.S.C. § 3553(a). Defendant understands that the sentencing guidelines are advisory only, that defendant cannot have any expectation of receiving a sentence within the calculated sentencing guidelines range, and that after considering the sentencing guidelines and the other § 3553(a) factors, the district court will be free to exercise its discretion to impose any sentence it finds appropriate up to the maximum set by statute for the crime of conviction.

14. Offense Level Calculations: The parties jointly agree and stipulate that, in calculating defendant's advisory guidelines sentencing range, the district court should use the following base offense level and adjustments; acknowledge that these stipulations do not bind the district court; and agree that they will not seek to apply or advocate for the use of any other base offense level(s) or any other specific offense characteristics, enhancements, or reductions in calculating the advisory guidelines range:

Base Offense Level [USSG § 2B1.1(a)(2)]:	6
Loss Exceeds $6,500 [USSG § 2B1.1(b)(1)(B)]:	+2
Adjusted Offense Level:	8

The parties further agree that, if, at the time of sentencing, the district court determines that defendant has not received any criminal history points from Chapter Four, Part A, the parties will jointly recommend that defendant receive a two-level reduction pursuant to § 4C1.1(a).

15. Reduction for Acceptance of Responsibility: Under USSG § 3E1.1(a), the USAO will recommend that defendant receive a two-level downward adjustment for acceptance of

responsibility unless defendant (a) fails to truthfully admit facts establishing a factual basis for the guilty plea when defendant enters the plea; (b) fails to truthfully admit facts establishing the amount of restitution owed when defendant enters the guilty plea; (c) fails to truthfully admit facts establishing the forfeiture allegations when defendant enters the guilty plea; (d) provides false or misleading information to the USAO, the Court, Pretrial Services, or the Probation Office; (e) denies involvement in the offense or provides conflicting statements regarding defendant's involvement or falsely denies or frivolously contests conduct relevant to the offense; (f) attempts to withdraw defendant's guilty plea; (g) commits or attempts to commit any crime; (h) fails to appear in court; or (i) violates the conditions of pretrial release.

16. Criminal History Category: Defendant acknowledges that the district court may base defendant's sentence in part on defendant's criminal record or criminal history. The district court will determine defendant's criminal history category under the sentencing guidelines.

17. Additional Sentencing Information: The stipulated sentencing guidelines calculations are based on information now known to the parties. Defendant understands that both defendant and the USAO are free to (a) supplement the facts in this agreement by supplying relevant information to the U.S. Probation and Pretrial Services Offices and the district court regarding the nature, scope, and extent of defendant's criminal conduct and any aggravating or mitigating facts or circumstances; and (b) correct any and all factual misstatements relating to the district court's sentencing guidelines calculations and determination of sentence. While this paragraph permits both the USAO and defendant to submit full and complete factual information to the U.S. Probation and Pretrial Services Offices and the district court, even if that factual information may be viewed as inconsistent with the facts agreed to in this agreement, this paragraph does not affect defendant's and the USAO's obligations not to contest the facts agreed

to in this agreement. Good faith efforts to provide truthful information or to correct factual misstatements shall not be grounds for defendant to withdraw defendant's guilty plea.

18. Defendant acknowledges that the U.S. Probation Office may calculate the sentencing guidelines differently and may rely on additional information it obtains through its investigation. Defendant also acknowledges that the district court may rely on this and other additional information as it calculates the sentencing guidelines range and makes other sentencing determinations, and the district court's reliance on such information shall not be grounds for defendant to withdraw defendant's guilty plea.

VII. POSITIONS REGARDING SENTENCING

19. The parties will jointly recommend that the district court sentence defendant to sentence of three years of probation. In the event that a sentence of three years of probation is outside defendant's advisory Guideline range as determined by the district court, the parties will jointly request a variance to three years of probation.

20. Defendant acknowledges that the district court does not have to follow the recommendation of either party.

21. Notwithstanding its agreement to recommend a sentence as described above, the USAO reserves its right to defend any lawfully imposed sentence on appeal or in any post-conviction litigation.

22. If defendant commits any act that results in the district court finding that defendant is not entitled to a downward adjustment for acceptance of responsibility, the USAO is entitled to argue for any sentence it deems appropriate under 18 U.S.C. § 3553(a). In any such event, Defendant remains bound by the provisions of this agreement and shall not have the right to withdraw defendant's guilty plea.

VIII. WAIVER OF CONSTITUTIONAL RIGHTS

23. Defendant understands that by pleading guilty, defendant gives up the following rights:

a. The right to persist in a plea of not guilty;

b. The right to a speedy and public trial by jury;

c. The right to be represented by counsel—and if necessary have the court appoint counsel—at trial. Defendant understands, however, that, defendant retains the right to be represented by counsel—and if necessary have the court appoint counsel—at every other stage of the proceeding;

d. The right to be presumed innocent and to have the burden of proof placed on the USAO to prove defendant guilty beyond a reasonable doubt;

e. The right to confront and cross-examine witnesses against defendant;

f. The right to testify and to present evidence in opposition to the charges, including the right to compel the attendance of witnesses to testify;

g. The right not to be compelled to testify, and, if defendant chose not to testify or present evidence, to have that choice not be used against defendant; and

h. The right to pursue any affirmative defenses; Fourth Amendment or Fifth Amendment claims; any other pretrial motions that have been or could have been filed; and challenges to any adverse pre-trial rulings (unless specifically reserved in the following section).

24. Having been fully advised by defendant's attorney regarding application of the statute of limitations to the offense to which defendant is pleading guilty, defendant hereby knowingly, voluntarily, and intelligently waives, relinquishes, and gives up: (a) any right that defendant might have not to be prosecuted for the offense to which defendant is pleading guilty because of the expiration of the statute of limitations for that offense prior to the filing of the

information alleging that offense; and (b) any defense, claim, or argument defendant could raise or assert that prosecution of the offense to which defendant is pleading guilty is barred by the expiration of the applicable statute of limitations, pre-indictment delay, or any speedy trial violation.

IX. WAIVER OF APPELLATE RIGHTS

25. Waiver of Appellate Rights: Defendant knowingly and expressly waives the right to appeal: (a) any sentence imposed within or below the applicable Sentencing Guideline range as determined by the district court; (b) the manner in which the district court determined that sentence on the grounds set forth in 18 U.S.C. § 3742; (c) any other aspect of the conviction, including but not limited to the constitutionality of the statutes of conviction; and (d) any other aspect of the sentence, including but not limited to the constitutionality of any mandatory or standard conditions of supervised release; the denial of any motion for early termination of supervised release; and any order of restitution or forfeiture.

26. Defendant reserves only the right to appeal any portion of the sentence that is an upward departure or variance from the applicable Sentencing Guideline range as determined by the district court.

27. Waiver of Post-Conviction Rights: Defendant also knowingly and expressly waives all collateral challenges, including any claims under 28 U.S.C. § 2255, to defendant's conviction, sentence, and the procedure by which the district court adjudicated guilt and imposed sentence, except non-waivable claims of ineffective assistance of counsel.

28. Preservation of Evidence: Defendant acknowledges that the USAO and the agencies investigating this case are not obligated or required to preserve any evidence obtained in the investigation of this case.

X. RESULT OF WITHDRAWAL OF GUILTY PLEA OR VACATUR/REVERSAL/SET-ASIDE OF CONVICTION

29. Consequence of Withdrawal of Guilty Plea: Defendant agrees that if, after entering a guilty plea pursuant to this agreement, defendant seeks to withdraw and succeeds in withdrawing defendant's guilty plea on any basis other than a claim and finding that entry into this agreement was involuntary, then (a) the USAO will be relieved of all of its obligations under this agreement and (b) should the USAO choose to pursue any that was either dismissed or not filed as a result of this agreement, or that the government agreed to move to dismiss at sentencing as part of this agreement, or that the government agreed to move to dismiss at sentencing as part of this agreement, then (i) any applicable statute of limitations will be tolled between the date of defendant's signing of this agreement and the filing commencing any such action; and (ii) defendant waives and gives up all defenses based on the statute of limitations, any claim of pre-indictment delay, or any speedy trial claim with respect to any such action, except to the extent that such defenses existed as of the date of defendant's signing this agreement.

30. Consequence of Vacatur, Reversal, or Set-aside: Defendant agrees that if defendant's conviction is vacated, reversed, or set aside, both the USAO and defendant will be released from all their obligations under this agreement, except that, should the USAO choose to pursue any charge that was either dismissed or not filed as a result of this agreement, then (i) any applicable statute of limitations will be tolled between the date of defendant's signing of this agreement and the filing commencing any such action; and (ii) defendant waives and gives up all defenses based on the statute of limitations, any claim of pre-indictment delay, or any speedy trial claim with respect to any such action, except to the extent that such defenses existed as of the date of defendant's signing this agreement.

XI. BREACH OF AGREEMENT

31. Defendant agrees that if, at any time after this agreement becomes effective, defendant knowingly violates or fails to perform any of defendant's obligations under this agreement ("a breach"), the USAO may declare this agreement breached. All of defendant's obligations are material, a single breach of this agreement is sufficient for the USAO to declare a breach, and defendant shall not be deemed to have cured a breach without the express agreement of the USAO in writing. If the USAO declares this agreement breached, and the district court finds such a breach to have occurred, then: (a) if defendant has previously entered a guilty plea pursuant to this agreement, defendant will remain bound by the provisions of this agreement and will not be able to withdraw the guilty plea; and (b) the USAO will be relieved of all its obligations under this agreement.

32. Following the Court's finding of a knowing breach of this agreement by defendant, should the USAO choose to pursue any charge that was either dismissed or not filed as a result of this agreement, or that the government agreed to move to dismiss at sentencing as part of this agreement, then:

a. Defendant agrees that any applicable statute of limitations is tolled between the date of defendant's signing of this agreement and the filing commencing any such action.

b. Defendant waives and gives up all defenses based on the statute of limitations, any claim of pre-indictment delay, or any speedy trial claim with respect to any such action, except to the extent that such defenses existed as of the date of defendant's signing this agreement.

c. Defendant agrees that: (i) any statements made by defendant, under oath, at the guilty plea hearing (if such a hearing occurred prior to the breach); (ii) the agreed to factual basis statement in this agreement; and (iii) any evidence derived from such statements, shall be

admissible against defendant in any such action against defendant, and defendant waives and gives up any claim under the United States Constitution, any statute, Federal Rule of Evidence 410, Federal Rule of Criminal Procedure 11(f), or any other federal rule, that the statements or any evidence derived from the statements should be suppressed or are inadmissible.

XII. COURT AND UNITED STATES PROBATION AND PRETRIAL SERVICES OFFICE NOT PARTIES

33. Defendant understands that the Court and the U.S. Probation and Pretrial Services Office are not parties to this agreement and need not accept any of the USAO's sentencing recommendations or the parties' agreements to facts or sentencing factors.

34. Defendant understands that both defendant and the USAO are free to argue on appeal and collateral review that the district court's sentencing guidelines calculations and the sentence it chooses to impose are not error.

35. Defendant understands that even if the district court ignores any sentencing recommendation, finds facts or reaches conclusions different from those agreed to by the parties, or imposes any sentence up to the maximum established by statute, defendant cannot, for that reason, withdraw defendant's guilty plea[s], and defendant will remain bound to fulfill all defendant's obligations under this agreement. Defendant understands that no one—not the prosecutor, defendant's attorney, or the Court—can make a binding prediction or promise regarding the sentence defendant will receive, except that it will be within the statutory maximum.

XIII. ADDITIONAL ACKNOWLEDGMENTS

36. Defendant acknowledges that:

a. Defendant read this agreement, and defendant understands its terms and conditions.

b. Defendant had adequate time to discuss this case, the evidence, and this agreement with defendant's attorney.

c. Defendant carefully and thoroughly discussed all terms of this agreement with defendant's attorney.

d. Defendant understands the terms of this agreement and voluntarily agrees to those terms.

e. Defendant has discussed with defendant's attorney the following: the evidence; defendant's rights; possible pretrial motions that might be filed; possible defenses that might be asserted either prior to or at trial; the sentencing factors set forth in 18 U.S.C. § 3553(a); the relevant sentencing guidelines provisions; and consequences of entering into this agreement.

f. The representations contained in this agreement are true and correct, including the factual basis for defendant's offense set forth in this agreement.

g. Defendant was not under the influence of any alcohol, drug, or medicine that would impair defendant's ability to understand the agreement when defendant considered signing this agreement and when defendant signed it.

37. Defendant understands that defendant alone decides whether to plead guilty or go to trial, and acknowledges that defendant has decided to enter defendant's guilty plea knowing of the charges brought against defendant, defendant's possible defenses, and the benefits and possible detriments of proceeding to trial.

38. Defendant understands that no promises, understandings, or agreements other than those set forth in this agreement have been made or implied by defendant, defendant's attorney, or the USAO, and no additional promises, agreements, or conditions shall have any force or effect unless set forth in writing and signed by all parties or confirmed on the record before the district court.

39. Defendant acknowledges that defendant decided to plead guilty voluntarily and that no one threatened, coerced, or forced defendant to enter into this agreement.

40. Defendant is satisfied with the representation of defendant's attorney, and defendant is pleading guilty because defendant is guilty of the charges and chooses to take advantage of the promises set forth in this agreement and for no other reason.

XIV. PLEA AGREEMENT PART OF THE GUILTY PLEA HEARING

41. The parties agree that this agreement will be considered part of the record of defendant's guilty plea hearing as if the entire agreement had been read into the record of the proceeding.

ORDER DENYING PETITION FOR JUDICIAL REVIEW

This matter having come before this court on September 11, 2025, on Petitioner's Petition for Judicial Review; Liborius Agwara, Esq., appearing on behalf of Petitioner Festus Ebonka, APRN ("Ebonka") and Brett Kandt, Esq. appearing on behalf of the Respondent Nevada State Board of Pharmacy ("Board"); the Court having reviewed the papers and pleadings on file herein, having heard the arguments of counsel, and with good cause appearing, the Court hereby finds, concludes, and orders as follows:

Case Number: A-24-902608-J

FINDINGS OF FACT

The Notice of Intended Action and Accusation together with the Statement to Respondent and Notice of Hearing was filed and served on Ebonka on or about January 25, 2024, and originally noticed for a hearing on March 6, 2024. AR[1] 0001-0009. Ebonka filed an Answer and Notice of Defense on or about February 21, 2024. AR 0010-0011.

The Board held an evidentiary hearing on September 4, 2024. *See* Reporter's Transcript on file herein, AR 0377-0518. As stipulated by the parties, the entire case file was admitted into evidence. AR 0012-0369; AR 0381:20-0383:5. AR 0370-0376; AR 0483:18-0517:14.

CONCLUSIONS OF LAW

The standard for judicial review is set forth in NRS 223B.135(3):

> The court shall not substitute its judgment for that of the agency as to the weight of evidence on a question of fact. The court may remand or affirm the final decision or set it aside in whole or in part if substantial rights of the petitioner have been prejudiced because the final decision of the agency is:
>
> (a) In violation of constitutional or statutory provisions;
> (b) In excess of the statutory authority of the agency;
> (c) Made upon unlawful procedure;
> (d) Affected by other error of law;
> (e) Clearly erroneous in view of the reliable, probative and substantial evidence on the whole record; or
> (f) Arbitrary or capricious or characterized by abuse of discretion.

See Nassiri v. Chiropractic Physicians' Bd., 130 Nev. 245, 249, 327 P.3d 487, 490 (2014).

---

[1] "AR" refers to the Administrative Record on file herein.

Ebonka only addresses questions of fact in the Memorandum of Points and Authorities in Support of Petition for Judicial Review. Specifically, Ebonka only focused on one issue for the Petition:

> 1. The Board's finding that Petitioner pre-signed two prescription scripts prior to his overseas trips was clearly erroneous in light of the reliable, probative and substantial evidence on the whole record, and therefore, was arbitrary, capricious and constitute[s] an abuse of discretion.

(Pet. at 5:15-20.)

This is fact specific. And as stated above, the Nevada Supreme Court, and the relevant statute are clear:

> The court shall not substitute its judgment for that of the agency as to the weight of evidence on a question of fact.

See Nassiri, 130 Nev. at 249, 327 P.3d at 490 (quoting 223B.135).

The Controlled Substances Act imposes strict liability on registrants to provide effective controls and procedures to guard against theft and diversion, which includes the duty to safeguard prescribing credentials from unauthorized use. *See* 21 CFR 1301.71(a).

There was substantial evidence elicited which supports the Board's finding that Ebonka pre-signed controlled substance prescriptions that were issued to two (2) patients while he was engaged in overseas travel, in violation of 21 CFR § 1306.05(a).

The Board's determination was based on uncontroverted direct evidence in the form of the two written prescriptions together with Ebonka's own admissions, which conclusively established that the prescriptions were issued under his name and DEA registration number, on prescriptions pads from his office, while he was out of the country, to patients for whom he had previously prescribed the same schedule II controlled substances.

The only claims Ebonka made in his defense were that he did not sign the prescriptions, would never pre-sign a controlled substance prescription, and that they must be forgeries. The Board did not find Ebonka's alibi credible, and upon comparing the four samples of his signature on his written responses to the Board investigation with the signatures on the prescriptions, reasonably concluded that the signatures were in fact his.

This Court cannot overturn the Board's decision solely based upon Ebonka's dispute of the Board's findings. The Board had two versions of a story before it and did not believe Ebonka's version. This Court cannot overturn the Board's decision on this basis.

Ebonka raises several arguments for the first time in reply. This is inappropriate. Arguments may not be raised for the first time in a reply brief. *See Weaver v. State, Dep't of Motor Vehicles*, 121 Nev. 494, 502, 117 P.3d 193, 198-99 (2005) (arguments raised for the first time in an appellant's reply brief need not be considered); *see also Francis v. Wynn Las Vegas, LLC*, 127 Nev. 657, 671 n.7, 262 P.3d 705, 715 n.7 (2011) (same); *see also Khoury v. Seastrand*, 132 Nev. 520, 530 n.2, 377 P.3d 81, 88 n.2 (2016) (citing NRAP 28(c) and concluding that an issue raised for the first time in a reply brief was waived); *Hung v. Berhad*, 138 Nev. 547, 550 n.2, 513 P.3d 1285, 1288 n.2 (Nev. App. 2022) (the general rule [is] that arguments raised for the first time in [a] reply brief are deemed waived). As the factual arguments were the only focus of the opening brief that is all that is considered by the Court. The remaining arguments on other issues are waived.

At the hearing, documents were admitted into evidence and sworn testimony was provided. The Board made the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

The Board, based upon evidence presented during the Hearing, finds that there is a preponderance of evidence in the record to establish each of the following findings of fact:

1. At least twenty-one (21) working days prior to the date of the hearing, Respondent had been noticed of the hearing by certified mail and by first class mail, which notice was mailed to Respondent's last known residential address.

2. The Board had jurisdiction over the matter, and the Board could proceed to make a determination in the matter.

3. On June 15, 2006, Respondent was granted a permanent Advanced Practice Registered Nurse's license (APRN) in the State of Nevada.

4. On May 5, 2025, before the United States District Court, District of Nevada, Respondent, after a plea of guilty, was adjudicated guilty of one count of Conversion of Government Property, a violation of 18 U.S.C. Section 641.

CONCLUSIONS OF LAW

Based upon the above Findings of Fact, the Board hereby finds by a preponderance of the evidence the following violation of law:

Respondent is in violation of NRS 632.347(1)(b) unprofessional conduct, because Respondent is guilty of any offense (2) related to the qualifications, functions or duties of a licensee or holder of a certificate, in which case the record of conviction is conclusive evidence thereof.

ORDER

Based on the foregoing Findings of Fact and Conclusions of Law and good cause appearing, therefore,

IT IS ORDERED that Respondent EBONKA's Nevada APRN license No. APRN000902 is Suspended. The suspension of Respondent's Nevada APRN license No. APRN000902 shall be for a term of 6 months. Re: Notice of Suspension of Registration No. CS23430 (Case Nos. 19-012-CS-S/25-215-CS-S)

Dear Mr. Ebonka:

The Nevada State Board of Pharmacy (Board) has been notified that the Nevada State Board of Nursing (NSBN) entered an order on October 6, 2025, suspending your License No. APRN000902 for 6 months effective November 9, 2025. Pursuant to NRS 639.2107, when the suspension of your License No. APRN000902 takes effect on November 9, 2025, this will operate as an immediate suspension of your Certificate of Registration No. CS23430 with the Board.

Once the suspension of your Certificate of Registration No. CS23430 takes effect you may not possess (except pursuant to the lawful order of a practitioner), administer, prescribe or dispense any controlled substance or dangerous drug until you petition the Board for reinstatement pursuant to NRS 639.2565 and the Board reinstates your registration. Your PMP account will also suspended pursuant to NAC 453.078. You may request a hearing before the Board to contest the suspension of your registration by submitting a written request to the Board's Reno office, located at 985 Damonte Ranch Parkway – Suite 206, Reno, NV 89521.

This will also confirm that through your counsel you are stipulating to a continuance of the hearing noticed for October 15, 2025, in Case No. 25-215-CS-S, during your suspension period; the hearing will be re-noticed for March 4, 2026. Please be advised that the district court entered an order in Case No. A-24-902608-J denying your petition for judicial review and affirming the Board's order entered September 4, 2024, in Case No. 19-012-CS-S; any failure to comply with that order will result in the issuance of an order to show cause pursuant to NAC 639.965.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **RYAN CHRISTOPHER CLEMENTS, RPH, Certificate of Registration No. 21841,** **and,** **CVS PHARMACY #8822, Pharmacy License No. PH01145,** **Respondents.**	**Case Nos. 23-051-RPH-S** **23-051-PH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent Ryan Christopher Clements ("Respondent Clements"), because Respondent Clements holds a certificate of registration issued by the Board pursuant to NRS 639.127, authorizing him to engage in the practice of pharmacy in the state of Nevada.

2. The Board has jurisdiction over Respondent CVS Pharmacy #8822 ("Respondent CVS"), because Respondent CVS holds a license issued by the Board pursuant to NRS 639.230, authorizing the operation of a pharmacy located at 2594 Wigwam Parkway, in Henderson, Nevada.

FACTUAL ALLEGATIONS

3. In January 2023, Respondent Clements, the holder of pharmacist registration no. 21841, was employed by Respondent CVS at its pharmacy on Wigwam Parkway, in Henderson, Nevada.

4. On January 16, 2023, while on duty at the CVS Pharmacy on Wigwam Parkway, Respondent Clements refilled a prescription for patient S.D., who had been taking Losartan 100 mg tablets for her hypertension.

5. For identification purposes, the CVS Pharmacy prescription management system assigned no. 1620739 to the above prescription.

6. Before dispensing the medication to patient S.D., Respondent Clements erroneously filled the amber vial with 50 mg tablets instead of 100 mg tablets as specified on the prescription.

7. Respondent Clements dispensed patient S.D.'s medication in an amber vial labeled as containing 100 mg tablets even though it contained 50 mg tablets.

8. Patient S.D. ingested approximately 5 doses of her medication, believing that she had received 100 mg tablets as indicated on the amber vial.

9. Despite taking her medication as directed, patient S.D. reportedly experienced dizziness, a flushed face, and an erratic heartbeat.

10. Given the above symptoms of hypertension, patient S.D. closely examined her tablets to make sure that she had received the correct medication. When she did so, she discovered that the manufacturer's imprint code on the tablets corresponded to the Losartan 50 mg tablet and not the 100mg tablet.

11. Patient S.D. returned the tablets to the pharmacy, where she spoke with Pharmacist Daniel Chasin.

12. Pharmacist Chasin examined the tablets for patient S.D, verified that her prescription for 100 mg tablets had been incorrectly refilled with 50 mg tablets, and then he telephoned patient S.D.'s provider to report the error.

13. Patient S.D.'s blood pressure was significantly elevated during the time that she was taking 50 mg tablets.

14. Despite having used accuracy scan technology, Respondent Clements was unable to explain why the label on patient S.D.'s prescription did not correctly identify the strength of the tablets that were dispensed to her.

15. Respondent Clements admittedly filled patient's S.D.'s prescription with 50 mg tablets instead of 100 mg tablets and then failed to identify his mistake when he performed the final product verification.

APPLICABLE LAW

16. The Board may discipline any pharmacist who has been guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

17. A pharmacist's conduct is unprofessional if the pharmacist fails to strictly follow the instructions of the person writing, making, or ordering a prescription as to its filling or refilling, or if the pharmacist performs his duties in a negligent manner. NAC 639.945(1)(d) and (i).

18. A dispensing pharmacist is responsible for verifying the selection and strength of the drug dispensed, and the correct labeling of the container in which it is dispensed. NAC 639.252.

19. Pursuant to NRS 639.230(5), NAC 639.702 and NAC 639.945(2), pharmacies, pharmacy managers, and/or pharmacists are responsible for the acts and omissions of the pharmacy workers under their supervision and/or in their employ.

COUNT ONE
Unprofessional Conduct by a Pharmacist

20. On January 16, 2023, while on duty at the CVS Pharmacy on Wigwam Parkway in Henderson, Nevada, Respondent Clements incorrectly filled patient S.D.'s prescription for Losartan with 50 mg tablets instead of 100 mg tablets.

21. Respondent Clements had a duty to verify the selection and strength of the drug that he dispensed to patient S.D., and the correct labeling of the amber vial in which he dispensed it.

22. Respondent Clements breached the above duty.

23. Respondent Clements' conduct as alleged above was unprofessional because he failed to strictly follow the instructions of patient S.D.'s provider regarding the strength of the tablets to be dispensed to her.

24. Respondent Clements' conduct as alleged above was unprofessional because he performed his duties as a pharmacist in a negligent manner.

25. Respondent Clements unprofessional conduct caused patient S.D. to experience elevated blood pressure.

26. Respondent Clements may be disciplined by the Board for the unprofessional conduct as described above.

COUNT TWO
Pharmacy Liability

27. As the owner/operator of the pharmacy at which Respondent Clements worked, Respondent CVS is responsible for Respondent Clements' unprofessional conduct as described above.

28. Respondent CVS may be disciplined by the Board for Respondent Clements' unprofessional conduct as described above.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of Respondents Clements and the pharmacy license of Respondent CVS.

DATED this 7th day of January, 2026.

J. David Wuest, R.Ph., Executive Secretary
Nevada State Board of Pharmacy

Respondent CVS is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded Respondent CVS under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, and NRS Chapter 639, the Nevada Pharmacy Act.

5. Conditioned on the acceptance of this Stipulation by the Board and excluding the right to challenge any determination that Respondent CVS has failed to comply with the provisions of the

paragraphs below, Respondent CVS voluntarily waives the right to have a hearing before the Board, to petition for reconsideration of any adverse decision by the Board, to petition for judicial review of such an adverse decision, and other rights related to this action as identified above.

6. Respondent CVS does not contest the charge against it and admits that evidence exists, and that the Board counsel prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the alleged violations, to wit:

A. On January 16, 2023, while on duty at the CVS Pharmacy #8822 on Wigwam Parkway in Henderson, Nevada, Ryan Christopher Clements, a CVS employee, refilled a prescription for patient S.D., who had been taking Losartan 100 mg tablets for her hypertension.

B. Clements mistakenly refilled patient's S.D.'s prescription with 50 mg tablets instead of 100 mg tablets, as prescribed, and then he failed to identify his mistake when he performed the final product verification.

C. Patient S.D. reported that she took the 50 mg tablets dispensed to her, instead of the 100 mg tablets as prescribed, for approximately 10 days before she noticed the above mistake.

D. Patient S.D. reported that she experienced symptoms of hypertension during the time when she took the 50 mg tablets.

E. Respondent CVS accepts responsibility for the conduct of Ryan Christopher Clements as described above.

7. Now, therefore, to resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent CVS agree to the imposition of the following penalties:

A. Respondent CVS shall pay an administrative fine of One Thousand and 00/100 Dollars ($1000.00) for the violation alleged in Count Two of the Accusation. Respondent CVS shall pay this sum by *business check, certified check* or *money order* payable to "**State of Nevada, Office of the Treasurer.**" Payment shall be remitted in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, by April 30, 2026.

B. Respondent CVS shall pay the sum of Five Hundred and 00/100 Dollars ($500.00) to partially reimburse the Board for recoverable attorney's fees and costs incurred investigating and prosecuting this matter. Respondent CVS shall pay this sum by *certified check* or *money order* payable to **"Nevada State Board of Pharmacy."** Payment shall be remitted in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, by April 30, 2026.

8. Failure by Respondent CVS to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent CVS to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation, the Board may impose additional discipline consistent with the provisions of NRS Chapter 639.

9. The Board's Senior General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on March 4, 2026, in Las Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation even if Respondent CVS fails to appear for the meeting.

10. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

11. If the Board rejects any part or all this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

12. Subject to the approval of this Stipulation by the Board, the parties agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein.

///

///

Respondent CVS has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

Respondents.

Case Nos. 23-051-RPH-S
23-051-PH-S

NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent Ryan Christopher Clements ("Respondent Clements"), because Respondent Clements holds a certificate of registration issued by the Board pursuant to NRS 639.127, authorizing him to engage in the practice of pharmacy in the state of Nevada.

2. The Board has jurisdiction over Respondent CVS Pharmacy #8822 ("Respondent CVS"), because Respondent CVS holds a license issued by the Board pursuant to NRS 639.230, authorizing the operation of a pharmacy located at 2594 Wigwam Parkway, in Henderson, Nevada.

FACTUAL ALLEGATIONS

3. In January 2023, Respondent Clements, the holder of pharmacist registration no. 21841, was employed by Respondent CVS at its pharmacy on Wigwam Parkway, in Henderson, Nevada.

4. On January 16, 2023, while on duty at the CVS Pharmacy on Wigwam Parkway, Respondent Clements refilled a prescription for patient S.D., who had been taking Losartan 100 mg tablets for her hypertension.

5. For identification purposes, the CVS Pharmacy prescription management system assigned no. 1620739 to the above prescription.

6. Before dispensing the medication to patient S.D., Respondent Clements erroneously filled the amber vial with 50 mg tablets instead of 100 mg tablets as specified on the prescription.

7. Respondent Clements dispensed patient S.D.'s medication in an amber vial labeled as containing 100 mg tablets even though it contained 50 mg tablets.

8. Patient S.D. ingested approximately 5 doses of her medication, believing that she had received 100 mg tablets as indicated on the amber vial.

9. Despite taking her medication as directed, patient S.D. reportedly experienced dizziness, a flushed face, and an erratic heartbeat.

10. Given the above symptoms of hypertension, patient S.D. closely examined her tablets to make sure that she had received the correct medication. When she did so, she discovered that the manufacturer's imprint code on the tablets corresponded to the Losartan 50 mg tablet and not the 100mg tablet.

11. Patient S.D. returned the tablets to the pharmacy, where she spoke with Pharmacist Daniel Chasin.

12. Pharmacist Chasin examined the tablets for patient S.D, verified that her prescription for 100 mg tablets had been incorrectly refilled with 50 mg tablets, and then he telephoned patient S.D.'s provider to report the error.

13. Patient S.D.'s blood pressure was significantly elevated during the time that she was taking 50 mg tablets.

14. Despite having used accuracy scan technology, Respondent Clements was unable to explain why the label on patient S.D.'s prescription did not correctly identify the strength of the tablets that were dispensed to her.

15. Respondent Clements admittedly filled patient's S.D.'s prescription with 50 mg tablets instead of 100 mg tablets and then failed to identify his mistake when he performed the final product verification.

APPLICABLE LAW

16. The Board may discipline any pharmacist who has been guilty of unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

17. A pharmacist's conduct is unprofessional if the pharmacist fails to strictly follow the instructions of the person writing, making, or ordering a prescription as to its filling or refilling, or if the pharmacist performs his duties in a negligent manner. NAC 639.945(1)(d) and (i).

18. A dispensing pharmacist is responsible for verifying the selection and strength of the drug dispensed, and the correct labeling of the container in which it is dispensed. NAC 639.252.

19. Pursuant to NRS 639.230(5), NAC 639.702 and NAC 639.945(2), pharmacies, pharmacy managers, and/or pharmacists are responsible for the acts and omissions of the pharmacy workers under their supervision and/or in their employ.

COUNT ONE
Unprofessional Conduct by a Pharmacist

20. On January 16, 2023, while on duty at the CVS Pharmacy on Wigwam Parkway in Henderson, Nevada, Respondent Clements incorrectly filled patient S.D.'s prescription for Losartan with 50 mg tablets instead of 100 mg tablets.

21. Respondent Clements had a duty to verify the selection and strength of the drug that he dispensed to patient S.D., and the correct labeling of the amber vial in which he dispensed it.

22. Respondent Clements breached the above duty.

23. Respondent Clements' conduct as alleged above was unprofessional because he failed to strictly follow the instructions of patient S.D.'s provider regarding the strength of the tablets to be dispensed to her.

24. Respondent Clements' conduct as alleged above was unprofessional because he performed his duties as a pharmacist in a negligent manner.

25. Respondent Clements unprofessional conduct caused patient S.D. to experience elevated blood pressure.

26. Respondent Clements may be disciplined by the Board for the unprofessional conduct as described above.

COUNT TWO
Pharmacy Liability

27. As the owner/operator of the pharmacy at which Respondent Clements worked, Respondent CVS is responsible for Respondent Clements' unprofessional conduct as described above.

28. Respondent CVS may be disciplined by the Board for Respondent Clements' unprofessional conduct as described above.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificates of registration of Respondents Clements and the pharmacy license of Respondent CVS.

DATED this 7th day of January, 2026.

Hello,

My name is Ryan Clements and I am responding to a Notice of Intended Action and Accusation. It is case nos 23-051-RPH-S and 23-051-PH-S. It was filed January 7th 2026 about an event in January 2023. A hearing was scheduled in March 2026 for me to appeal this Accusation. However, I am not looking to do so. I worked with Ken, the inspector, at the time of this error and I do not contest the events listed in this Accusation.
I tried to call the Board and notify my acceptance of these events, but was requested to email you instead. I am not sure if this is satisfactory to fulfill the legal aspect of this Action, but I do waive my right to this Hearing and I do not wish to contest or appeal the Accusation of the Board. I accept what discipline the Board may issue. I did speak with the patient during this investigation years ago and made clear my error and my commitments to prevent such mistakes in the future.

You or anyone from the Board may contact me at this email or at my personal cell number, [redacted], for any additional information. I thank you for your time.

Ryan Clements.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy ("Board"), by and through its Senior General Counsel, Gregory L. Zunino, and Respondent Ryan Christopher Clements ("Respondent"), hereby stipulate and agree as follows:

1. The Board has jurisdiction over Respondent.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent understands the terms of this Stipulation, and he has executed it knowingly and voluntarily.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, and NRS Chapter 639, the Nevada Pharmacy Act.

5. Conditioned on the acceptance of this Stipulation by the Board and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of the paragraphs below, Respondent voluntarily waives the right to have a hearing before the Board, to petition for reconsideration of any adverse decision by the Board, to petition for judicial review of such an adverse decision, and other rights related to this action as identified above.

6. Respondent does not contest the charge against him and admits that evidence exists, and that the Board counsel prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the alleged violations, to wit:

A. On January 16, 2023, while on duty at the CVS Pharmacy #8822 on Wigwam Parkway in Henderson, Nevada, Respondent refilled a prescription for patient S.D., who had been taking Losartan 100 mg tablets for her hypertension.

B. Respondent mistakenly refilled patient's S.D.'s prescription with 50 mg tablets instead of 100 mg tablets, as prescribed, and then he failed to identify his mistake when he performed the final product verification.

C. Patient S.D. reported that she took the 50 mg tablets instead of the 100 mg tablets as prescribed for approximately 10 days before she noticed the mistake.

D. Patient S.D. reported that she experienced symptoms of hypertension during the time when she took the 50 mg tablets.

7. Now, therefore, to resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent shall pay an administrative fine of One Thousand and 00/100 Dollars ($1000.00) for the violations alleged in Count One of the Accusation. Respondent shall pay this sum by *certified check* or *money order* payable to **"State of Nevada, Office of**

the Treasurer." Payment shall be remitted in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, by April 30, 2026.

B. Respondent shall pay the sum of Five Hundred and 00/100 Dollars ($500.00) to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. Respondent shall pay this sum by *certified check* or *money order* payable to **"Nevada State Board of Pharmacy."** Payment shall be remitted in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, by April 30, 2026.

8. Failure by Respondent to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in findings of a violation, the Board may impose additional discipline consistent with the provisions of NRS Chapter 639.

9. The Board's Senior General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on March 4, 2026, in Las Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation even if Respondent fails to appear for the meeting.

10. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

11. If the Board rejects any part or all this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full contested hearing on the merits of all alleged violations as stated in the Accusation. The terms

and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

12. Subject to the approval of this Stipulation by the Board, the parties agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (the "Board"), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent PharMerica ("Respondent PharMerica"), the holder of Pharmacy License No. PH02018, because Respondent PharMerica is licensed by the Board to operate a pharmacy at 4750 Longley Lane in Reno, Nevada.

2. The Board has jurisdiction over Respondent Camilla Kim, RPh ("Respondent Kim"), the holder of Certificate of Registration No. 19388, because Respondent Kim is registered by the Board to engage in the practice of pharmacy in Nevada.

FACTUAL ALLEGATIONS

3. Respondent PharMerica operates a pharmacy in Reno, Nevada.

4. In March 2024, Respondent Kim was employed by Respondent PharMerica as a pharmacist.

5. In 2023 and 2024, Respondent PharMerica was under contract with MorningStar Senior Living of Sparks ("MorningStar"), an assisted living facility, to dispense prescription medication and provide medication management services to residents of the MorningStar facility.

6. Respondent PharMerica worked cooperatively with the nursing staff at MorningStar to store and deliver prescription medications for the residents of the MorningStar facility.

7. In 2023 and 2024, patient D.P., an 87-year-old female, resided at MorningStar, where she received medication and medication management services from Respondent PharMerica.

8. In 2023 and 2024, patient D.P. required levothyroxine for hypothyroidism.

9. Between March 2023 and March 2024, Respondent PharMerica dispensed levothyroxine to patient D.P. without interruption, according to the instructions of patient D.P.'s physician.

10. On March 6, 2024, patient D.P.'s physician issued her a new prescription for levothyroxine. The prescription directed Respondent PharMerica to dispense an initial 90-day supply of levothyroxine with two refills.

11. On its face, the above prescription sufficed to meet patient D.P.'s medical needs for 12 months.

12. Patient D.P.'s physician electronically transmitted the above prescription to Respondent PharMerica.

13. Respondent PharMerica assigned no. 343217 to the above prescription. Per standard operating procedure, PharMerica processed prescription no. 343217 at its facility in Kentucky.

14. At the facility in Kentucky, a pharmaceutical technician transferred the information from the electronic prescription to a computerized prescription management system.

15. When transferring the prescription information, the technician incorrectly entered code "X90D" related to the "duration" of medication treatment. This code suppressed the automatic refill

function on the system, thus instructing the system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

16. Since patient D.P.'s levothyroxine was considered a "maintenance" medication, there should not have been a duration code associated with prescription no 343217.

17. In March 2024, before dispensing any medication under prescription no. 343217, Respondent Kim verified the prescription at PharMerica's facility in Reno.

18. When verifying the above prescription, Respondent Kim failed to notice that the duration code X90D, as described above, was inconsistent with the number of refill authorizations on the prescription itself. As noted above, this code instructed the automated system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

19. In June of 2024, due to Respondent Kim's omission as described above, PharMerica failed to refill patient D.P.'s prescription for levothyroxine as directed by her physician.

20. Between June and September 2024, the nursing staff at MorningStar delivered no levothyroxine to patient D.P., and they made no inquiries of PharMerica concerning the abrupt cessation of patient D.P.'s medication treatment.

21. In August or September 2024, patient D.P.'s daughter observed that her mother's health had rapidly declined for no apparent reason. She alerted the nursing staff at MorningStar and/or patient D.P.'s physician.

22. In September 2024, Patient D.P. was admitted to the intensive care unit at Renown Hospital, where she was diagnosed with myxedema coma and cellulitis in her left leg. These medical conditions were caused by the cessation of medication treatment with levothyroxine.

Respondents PharMerica and Camilla Kim, RPH, hereby file with the Nevada State Board of Pharmacy ("Board"), their Answer and Notice of Defense to the Notice of Intended Action and Accusation ("Accusation") filed on July 24, 2025.

ANSWER TO ACCUSATION

Jurisdiction: Paragraphs 1-2

Paragraph 1: Respondent PharMerica acknowledges that the Board has jurisdiction in this matter as set forth in Paragraph 1.

Paragraph 2: Respondent Kim acknowledges that the Board has jurisdiction in this matter as set forth in Paragraph 2.

Factual Allegations: Paragraphs 3-22

Paragraph 3: Respondent PharMerica acknowledges that it operates a pharmacy located in Reno, Nevada as set forth in Paragraph 3.

Paragraph 4: Respondent Kim acknowledges that she was employed by PharMerica in March 2024 as set forth in Paragraph 4.

Paragraph 5: Respondent PharMerica acknowledges that during the time periods set forth in Paragraph 5, it did dispense prescribed medication to residents of MorningStar Senior Living of Sparks as set forth in Paragraph 5.

Paragraph 6: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 6 to the extent the PharMerica coordinated deliveries of prescribed and dispensed medication to the nursing staff of MorningStar Senior Living.

Paragraph 7: Respondent PharMerica agrees that patient D.P. did receive some medication management services in the time frame noted in Paragraph 7.

Paragraph 8: Respondents are without sufficient personal knowledge to respond to the factual assertions contained in Paragraph 8.

Paragraph 9: Respondent PharMerica agrees with the factual assertions in Paragraph 9 to the extent that patient D.P. received levothyroxine in 2023 through the end of February 2024.

Paragraph 10: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 10 to the extent that a new prescription (no. 343217, the "Prescription") was issued March 6, 2024, by patient D.P.'s physician. However, the directions for the prescription were for one tablet daily for a 90-day duration with three refills, not two refills as noted in Paragraph 10 and further the prescription authorized three refills but did not direct automatic refills of the Prescription.

Paragraph 11: Respondents are without personal knowledge to substantively respond to the factual assertions set forth in Paragraph 11, however Respondents acknowledge that had the Prescription been refilled by patient D.P. as allowed, there would have been approximately twelve months of medication authorized by the physician.

Paragraph 12: Respondent PharMerica acknowledges that it received Prescription no. 343217 electronically.

Paragraph 13: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 13.

Paragraph 14: Based on information and belief, Respondent PharMerica agrees that a PharMerica pharmacy technician would have transcribed the Prescription information into PharMerica's computerized prescription management system.

Paragraph 15: Respondents deny that the pharmacy technician incorrectly entered code "X90D" into the prescription management system. The technician correctly entered the Prescription and directions into the prescription management system; because the Prescription directions included a duration, the prescription management system automatically assigned the code to the Prescription. The prescription management system did not terminate D.P.'s supply of levothyroxine at the end of the initial ninety days; the Prescription was still active and simply needed to be refilled by MorningStar Senior Living.

Paragraph 16: Respondents disagree with the factual assertions contained in Paragraph 16; prescriptions, including prescriptions for "maintenance" medications, often have a duration associated with them.

Paragraph 17: Respondent Kim acknowledges that she verified Prescription no. 343217 before the Prescription was initially dispensed on March 19, 2024.

Paragraph 18: Respondent Kim denies that she failed to notice the duration code and asserts that the Prescription directions included a duration with refills to follow. Nothing indicated that the Prescription was to be automatically refilled. As noted above, the system did not "terminate" the supply of levothyroxine, the Prescription was still active and could be refilled.

Paragraph 19: Respondents deny the factual allegations set forth in Paragraph 19.

Paragraph 20: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 20.

Paragraph 21: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 21.

Paragraph 22: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 22.

Applicable Law: Paragraphs 23-28

Paragraph 23: Respondents agree that Paragraph 23 sufficiently reflects the contents of NRS 639.210(4).

Paragraph 24: Respondents agree that Paragraph 24 sufficiently reflects the contents of NAC 639.945(1)(d).

Paragraph 25: Respondents agree that Paragraph 25 sufficiently reflects the contents of NAC 639.945(1)(i).

Paragraph 26: Respondents agree that Paragraph 26 sufficiently reflects the contents of NAC 639.252(2).

Paragraph 27: Respondents agree that Paragraph 27 sufficiently reflects the contents of NAC 639.918.

Paragraph 28: Respondents agree that Paragraph 28 sufficiently reflects the contents of NRS 639.230(5), NAC 639.702, and NAC 639.945(3).

Count One (Paragraphs 29-35, Respondent Kim

Paragraph 29: Respondent Kim agrees that she verified Prescription no. 343217, which allowed three refills, not two as alleged. However, Respondent Kim denies the remaining allegations contained in Paragraph 29.

Paragraph 30: Respondent Kim does not work in the same location as the pharmacy technician who transcribed the information regarding the Prescription into the PharMerica computerized prescription management system, however Respondent Kim asserts that the technician did not incorrectly input the Prescription into the prescription management system. As described above, the prescription management system grabs the directions of the Prescription for generation of system codes. Regarding Prescription no. 343217, the physician's instructions included a duration and accordingly the system generated the appropriate code.

Paragraph 31: Respondent Kim denies the allegations contained in Paragraph 31 and contends that there was no error.

Paragraph 32: Respondent Kim agrees that she had a duty to strictly follow the instructions of the prescribing physician and that those instructions were indeed followed.

Paragraph 33: Respondent Kim denies the allegations contained in Paragraph 33.

Paragraph 34: Respondent Kim denies the allegations contained in Paragraph 34.

Paragraph 35: Paragraph 35 does not require a response from Respondent Kim.

Count Two (Paragraphs 36-38, Respondent PharMerica):

Paragraph 36: Respondent PharMerica denies the allegations contained in Paragraph 36.

Paragraph 37: Respondent PharMerica agrees it is responsible for Respondent Kim's conduct as an employed pharmacist but again denies that Respondent Kim engaged in unprofessional conduct as set forth in Paragraph 37.

Paragraph 38: Paragraph 38 does not require a substantive response from Respondent PharMerica.

NOTICE OF DEFENSE/MITIGATING INFORMATION

Respondents reserve all legal defenses available to them in this matter.

Respondents further assert that no violation of NRS or NAC Chapters 639 has occurred in this matter. The Prescription was received on March 6, 2024, electronically and was properly entered into the PharMerica computerized prescription management system by a pharmacy technician. The technician appropriately entered the information into the prescription management system, including the duration which was included on the Prescription sent electronically by patient D.P.'s physician. Per the Prescription directions, the prescription management system entered a code of "X90D"; however, that did not terminate the Prescription at the end of 90-days but rather required a refill to be requested. The Prescription, as written, did not direct automatic refills. Respondents are without knowledge of why the nursing staff at MorningStar Senior Living failed to request the refill of levothyroxine, however Respondents assert that neither Respondent PharMerica nor Respondent Kim violated NRS/NAC Chapter 639 as alleged.

Respectfully submitted this 29th of August, 2025.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy (the "Board"), files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Board has jurisdiction over Respondent PharMerica ("Respondent PharMerica"), the holder of Pharmacy License No. PH02018, because Respondent PharMerica is licensed by the Board to operate a pharmacy at 4750 Longley Lane in Reno, Nevada.

2. The Board has jurisdiction over Respondent Camilla Kim, RPh ("Respondent Kim"), the holder of Certificate of Registration No. 19388, because Respondent Kim is registered by the Board to engage in the practice of pharmacy in Nevada.

FACTUAL ALLEGATIONS

3. Respondent PharMerica operates a pharmacy in Reno, Nevada.

4. In March 2024, Respondent Kim was employed by Respondent PharMerica as a pharmacist.

5. In 2023 and 2024, Respondent PharMerica was under contract with MorningStar Senior Living of Sparks ("MorningStar"), an assisted living facility, to dispense prescription medication and provide medication management services to residents of the MorningStar facility.

6. Respondent PharMerica worked cooperatively with the nursing staff at MorningStar to store and deliver prescription medications for the residents of the MorningStar facility.

7. In 2023 and 2024, patient D.P., an 87-year-old female, resided at MorningStar, where she received medication and medication management services from Respondent PharMerica.

8. In 2023 and 2024, patient D.P. required levothyroxine for hypothyroidism.

9. Between March 2023 and March 2024, Respondent PharMerica dispensed levothyroxine to patient D.P. without interruption, according to the instructions of patient D.P.'s physician.

10. On March 6, 2024, patient D.P.'s physician issued her a new prescription for levothyroxine. The prescription directed Respondent PharMerica to dispense an initial 90-day supply of levothyroxine with two refills.

11. On its face, the above prescription sufficed to meet patient D.P.'s medical needs for 12 months.

12. Patient D.P.'s physician electronically transmitted the above prescription to Respondent PharMerica.

13. Respondent PharMerica assigned no. 343217 to the above prescription. Per standard operating procedure, PharMerica processed prescription no. 343217 at its facility in Kentucky.

14. At the facility in Kentucky, a pharmaceutical technician transferred the information from the electronic prescription to a computerized prescription management system.

15. When transferring the prescription information, the technician incorrectly entered code "X90D" related to the "duration" of medication treatment. This code suppressed the automatic refill

function on the system, thus instructing the system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

16. Since patient D.P.'s levothyroxine was considered a "maintenance" medication, there should not have been a duration code associated with prescription no 343217.

17. In March 2024, before dispensing any medication under prescription no. 343217, Respondent Kim verified the prescription at PharMerica's facility in Reno.

18. When verifying the above prescription, Respondent Kim failed to notice that the duration code X90D, as described above, was inconsistent with the number of refill authorizations on the prescription itself. As noted above, this code instructed the automated system to terminate patient D.P.'s supply of levothyroxine after just 90 days.

19. In June of 2024, due to Respondent Kim's omission as described above, PharMerica failed to refill patient D.P.'s prescription for levothyroxine as directed by her physician.

20. Between June and September 2024, the nursing staff at MorningStar delivered no levothyroxine to patient D.P., and they made no inquiries of PharMerica concerning the abrupt cessation of patient D.P.'s medication treatment.

21. In August or September 2024, patient D.P.'s daughter observed that her mother's health had rapidly declined for no apparent reason. She alerted the nursing staff at MorningStar and/or patient D.P.'s physician.

22. In September 2024, Patient D.P. was admitted to the intensive care unit at Renown Hospital, where she was diagnosed with myxedema coma and cellulitis in her left leg. These medical conditions were caused by the cessation of medication treatment with levothyroxine.

Respondents PharMerica and Camilla Kim, RPH, hereby file with the Nevada State Board of Pharmacy ("Board"), their Answer and Notice of Defense to the Notice of Intended Action and Accusation ("Accusation") filed on July 24, 2025.

ANSWER TO ACCUSATION

Jurisdiction: Paragraphs 1-2

Paragraph 1: Respondent PharMerica acknowledges that the Board has jurisdiction in this matter as set forth in Paragraph 1.

Paragraph 2: Respondent Kim acknowledges that the Board has jurisdiction in this matter as set forth in Paragraph 2.

Factual Allegations: Paragraphs 3-22

Paragraph 3: Respondent PharMerica acknowledges that it operates a pharmacy located in Reno, Nevada as set forth in Paragraph 3.

Paragraph 4: Respondent Kim acknowledges that she was employed by PharMerica in March 2024 as set forth in Paragraph 4.

Paragraph 5: Respondent PharMerica acknowledges that during the time periods set forth in Paragraph 5, it did dispense prescribed medication to residents of MorningStar Senior Living of Sparks as set forth in Paragraph 5.

Paragraph 6: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 6 to the extent the PharMerica coordinated deliveries of prescribed and dispensed medication to the nursing staff of MorningStar Senior Living.

Paragraph 7: Respondent PharMerica agrees that patient D.P. did receive some medication management services in the time frame noted in Paragraph 7.

Paragraph 8: Respondents are without sufficient personal knowledge to respond to the factual assertions contained in Paragraph 8.

Paragraph 9: Respondent PharMerica agrees with the factual assertions in Paragraph 9 to the extent that patient D.P. received levothyroxine in 2023 through the end of February 2024.

Paragraph 10: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 10 to the extent that a new prescription (no. 343217, the "Prescription") was issued March 6, 2024, by patient D.P.'s physician. However, the directions for the prescription were for one tablet daily for a 90-day duration with three refills, not two refills as noted in Paragraph 10 and further the prescription authorized three refills but did not direct automatic refills of the Prescription.

Paragraph 11: Respondents are without personal knowledge to substantively respond to the factual assertions set forth in Paragraph 11, however Respondents acknowledge that had the Prescription been refilled by patient D.P. as allowed, there would have been approximately twelve months of medication authorized by the physician.

Paragraph 12: Respondent PharMerica acknowledges that it received Prescription no. 343217 electronically.

Paragraph 13: Respondent PharMerica agrees with the factual assertions set forth in Paragraph 13.

Paragraph 14: Based on information and belief, Respondent PharMerica agrees that a PharMerica pharmacy technician would have transcribed the Prescription information into PharMerica's computerized prescription management system.

Paragraph 15: Respondents deny that the pharmacy technician incorrectly entered code "X90D" into the prescription management system. The technician correctly entered the Prescription and directions into the prescription management system; because the Prescription directions included a duration, the prescription management system automatically assigned the code to the Prescription. The prescription management system did not terminate D.P.'s supply of levothyroxine at the end of the initial ninety days; the Prescription was still active and simply needed to be refilled by MorningStar Senior Living.

Paragraph 16: Respondents disagree with the factual assertions contained in Paragraph 16; prescriptions, including prescriptions for "maintenance" medications, often have a duration associated with them.

Paragraph 17: Respondent Kim acknowledges that she verified Prescription no. 343217 before the Prescription was initially dispensed on March 19, 2024.

Paragraph 18: Respondent Kim denies that she failed to notice the duration code and asserts that the Prescription directions included a duration with refills to follow. Nothing indicated that the Prescription was to be automatically refilled. As noted above, the system did not "terminate" the supply of levothyroxine, the Prescription was still active and could be refilled.

Paragraph 19: Respondents deny the factual allegations set forth in Paragraph 19.

Paragraph 20: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 20.

Paragraph 21: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 21.

Paragraph 22: Respondents are without sufficient personal knowledge to respond to the factual allegations set forth in Paragraph 22.

Applicable Law: Paragraphs 23-28

Paragraph 23: Respondents agree that Paragraph 23 sufficiently reflects the contents of NRS 639.210(4).

Paragraph 24: Respondents agree that Paragraph 24 sufficiently reflects the contents of NAC 639.945(1)(d).

Paragraph 25: Respondents agree that Paragraph 25 sufficiently reflects the contents of NAC 639.945(1)(i).

Paragraph 26: Respondents agree that Paragraph 26 sufficiently reflects the contents of NAC 639.252(2).

Paragraph 27: Respondents agree that Paragraph 27 sufficiently reflects the contents of NAC 639.918.

Paragraph 28: Respondents agree that Paragraph 28 sufficiently reflects the contents of NRS 639.230(5), NAC 639.702, and NAC 639.945(3).

Count One (Paragraphs 29-35, Respondent Kim

Paragraph 29: Respondent Kim agrees that she verified Prescription no. 343217, which allowed three refills, not two as alleged. However, Respondent Kim denies the remaining allegations contained in Paragraph 29.

Paragraph 30: Respondent Kim does not work in the same location as the pharmacy technician who transcribed the information regarding the Prescription into the PharMerica computerized prescription management system, however Respondent Kim asserts that the technician did not incorrectly input the Prescription into the prescription management system. As described above, the prescription management system grabs the directions of the Prescription for generation of system codes. Regarding Prescription no. 343217, the physician's instructions included a duration and accordingly the system generated the appropriate code.

Paragraph 31: Respondent Kim denies the allegations contained in Paragraph 31 and contends that there was no error.

Paragraph 32: Respondent Kim agrees that she had a duty to strictly follow the instructions of the prescribing physician and that those instructions were indeed followed.

Paragraph 33: Respondent Kim denies the allegations contained in Paragraph 33.

Paragraph 34: Respondent Kim denies the allegations contained in Paragraph 34.

Paragraph 35: Paragraph 35 does not require a response from Respondent Kim.

Count Two (Paragraphs 36-38, Respondent PharMerica):

Paragraph 36: Respondent PharMerica denies the allegations contained in Paragraph 36.

Paragraph 37: Respondent PharMerica agrees it is responsible for Respondent Kim's conduct as an employed pharmacist but again denies that Respondent Kim engaged in unprofessional conduct as set forth in Paragraph 37.

Paragraph 38: Paragraph 38 does not require a substantive response from Respondent PharMerica.

NOTICE OF DEFENSE/MITIGATING INFORMATION

Respondents reserve all legal defenses available to them in this matter.

Respondents further assert that no violation of NRS or NAC Chapters 639 has occurred in this matter. The Prescription was received on March 6, 2024, electronically and was properly entered into the PharMerica computerized prescription management system by a pharmacy technician. The technician appropriately entered the information into the prescription management system, including the duration which was included on the Prescription sent electronically by patient D.P.'s physician. Per the Prescription directions, the prescription management system entered a code of "X90D"; however, that did not terminate the Prescription at the end of 90-days but rather required a refill to be requested. The Prescription, as written, did not direct automatic refills. Respondents are without knowledge of why the nursing staff at MorningStar Senior Living failed to request the refill of levothyroxine, however Respondents assert that neither Respondent PharMerica nor Respondent Kim violated NRS/NAC Chapter 639 as alleged.

Respectfully submitted this 29th of August, 2025.

NEVADA STATE BOARD OF PHARMACY,

Petitioner,

v.

AMY TSENG, M.D.,
Certificate of Registration No. CS08125,

Respondent.

Case No. 24-484-CS-S

NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has personal jurisdiction over Respondent Amy Tseng, M.D., ("Respondent"), because Respondent holds a certificate of registration issued by the Board authorizing her to prescribe controlled substances in Nevada.

2. The Board has jurisdiction over the subject matter of this accusation because it alleges violations involving the receipt, storage, possession, and/or distribution of dangerous drugs. As used herein, "dangerous drug" has the meaning ascribed to it in NRS 454.201.

FACTUAL ALLEGATIONS

3. Respondent is a physician licensed by the Nevada State Board of Medical Examiners to practice medicine in Nevada.

4. Respondent holds certificate of registration no. CS08125, which was issued by the Board pursuant to NRS 453.226 and 453.231.

5. At all times alleged herein, Respondent was a "practitioner" as that term is defined at NRS 453.126, NRS 454.00958, and NRS 639.0125.

6. In 2024, Respondent maintained a medical practice at 2870 S. Jones Boulevard in Las Vegas, Nevada, where she offered cosmetic treatments for patients with aging and/or wrinkled skin. These included treatments with injectable neuromodulators derived from *Clostridium botulinum* (hereinafter "neuromodulators").

7. Neuromodulators are "dangerous drugs" as that term is defined at NRS 454.201.

8. On December 3, 2024, Respondent was in possession of neuromodulators ostensibly imported from drug manufacturers based in Turkey and South Korea. Their places of origin were evidenced by their packaging.

9. According to Respondent, who was questioned by Board Investigator Dena McClish, Respondent purchased some of the above dangerous drugs from a website called "ActivaDerma.com." Respondent stated that she had administered the drugs to her patients without complications.

10. Respondent stored the above dangerous drugs, among other drugs, at her office at 2870 S. Jones Boulevard in Las Vegas, Nevada.

11. According to Respondent, she typically administered neuromodulators marketed under the brand name "Xeomin." Respondent stated that some of her patients had requested "Dysport" instead of "Xeomin." For these patients, Respondent procured "Dysport" from the ActivaDerm.com website.

12. Dysport is manufactured in the United Kingdom by the French pharmaceutical company Ipsen. Dysport has been approved by the federal Food and Drug Administration ("FDA") for distribution in the United States.

13. On information and belief, the "Dysport" neuromodulators procured by Respondent were counterfeit insofar as they were not manufactured or distributed by Ipsen.

14. According to Respondent, she also acquired neuromodulators and other injectable drugs from a sales representative employed by a pharmaceutical company based in South Korea. These drugs were ostensibly marketed under the brand names "Hejeubo" and "Liporase."

15. On information and belief, Hejeubo is manufactured in South Korea and has not been approved by the FDA for distribution in the United States.

16. On information and belief, Liporase is manufactured in South Korea and has not been approved by the FDA for distribution in the United States.

17. On information and belief, ActivaDerma is not registered with the FDA to manufacture drugs or import drugs into the United States.

18. ActivaDerma is not licensed by the Board to sell drugs at wholesale in the state of Nevada.

19. In addition to being in possession of the dangerous drugs described above, including drugs labeled "Dysport," "Hejeubo" and "Liporase," Respondent was in possession of several pre-drawn syringes containing an unknown liquid substance. Respondent stated that the syringes contained Kenalog, also a dangerous drug.

20. Respondent stated that the syringes containing Kenalog were for her personal use. The syringes were not labeled.

21. On information and belief, Respondent did not acquire Kenalog pursuant to a prescription written by herself or another practitioner.

22. On information and belief, Kenalog was not dispensed to Respondent by a pharmacy or dispensing practitioner.

23. On information and belief, Respondent is not in possession of shipping documents, invoices, or other documents confirming the source of Kenalog allegedly acquired by Respondent for her personal use.

24. Respondent stored and/or possessed pre-drawn syringes allegedly containing Kenalog. Those syringes were not stock containers properly labeled and procured from a manufacturer, wholesaler or pharmacy.

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. AMY TSENG, M.D., Certificate of Registration No. CS08125, Respondent.	CASE NO.: 24-484-CS-S **ANSWER AND NOTICE OF DEFENSE**

Respondent above named, in answer to the Notice of Intended Action and Accusation filed in the above-titled matter before the Nevada States Board of Pharmacy (the "Board"), declares:

1. That her objections to the Notice of Intended Action and Accusation (the "Notice") as being incomplete or failing to state clearly the charges against him, is hereby interposed on the following grounds:

a. This action is barred by the doctrine of laches. The Notice addresses information it purports to have obtained during a search of Respondent's office on December 3, 2024, relating to conduct that occurred prior to that. Dr. Tseng addressed the conduct in a detailed letter dated December 30, 2024 to the Board's investigator. The Board filed its Complaint on October 23, 2025, approximately eleven (11) months after its search of Respondent's office and far longer after the alleged conduct, without a valid excuse for such delay, as a result of which Dr. Tseng was prejudiced. Implicit in the Board's statutes (NRS 639.241, *et. seq.*) and its regulations (NAC 639.120, *et. seq.*) is an obligation to proceed

promptly and fairly against Respondent. Because the Board did not promptly make a determination as to whether the Notice would be filed against Dr. Tseng, it would be inequitable and unjust to proceed.

b. The Notice is impermissibly vague, as it repeatedly makes allegations "on information and belief." The due process principles that apply in disciplinary proceedings require that such proceedings be fundamentally fair and afford the respondent attorney a meaningful opportunity to defend against the charges. *See In re Ruffalo*, 390 U.S. 544, 550-51, 88 S.Ct. 1222, 1225-26 (1968) (attorney disciplinary proceedings are "adversary proceedings of a quasi-criminal nature" because a punishment or penalty can be imposed on the licensee, and therefore, entitles the licensee to due process). Allegations "on information and belief" are unconstitutionally vague, deprive Respondent of a meaningful opportunity to respond, and impermissibly shifts the burden from the Board to the Respondent.

c. Respondent steadfastly denies that she ever knowingly or intentionally: (a) received or possessed misbranded drugs in violation of 21 U.S.C.A. § 331 and/or NRS 454.351; (b) assisted or permitted the unlicensed wholesale distribution of drugs in violation fo NRS 639.100(1); or (3) unlawfully possessed Kenalog, a dangerous drug.

d. At the time Dr Tseng purchased a small amount of Dysport through the ActivaDerma website, she did not know it was manufactured in a foreign country and there were no indicia, in the purchasing process that Dysport obtained from ActivaDerma that was allegedly "misbranded".

2. That, in answer to the Notice of Intended Action and Accusation, she admits, denies, and alleges as follows:

a. Respondent admits that the Board has jurisdiction over this matter.

b. Respondent admits the allegations in Paragraphs 2 through 6 of the Notice of Intended Action (the "Notice").

c. The allegations in Paragraph 7 contains a conclusion of law for which no response is required.

d. The allegations in Paragraph 8 are vague due to the use of the word "ostensibly." Because Respondent cannot respond adequately to these allegations, she denies them.

e. Respondent admits the allegations in Paragraph 9 through 12 of the Notice.

f. Respondent denies the allegations in Paragraph 13 of the Notice.

g. Respondent admits the allegations in Paragraph 14 of the Notice.

h. The allegations in Paragraphs 15 through 18 contain conclusions of law for which no response is required.

i. Respondent admits the allegations in Paragraphs 19 and 20.

j. Respondent denies the allegations in Paragraphs 21 through 24.

k. The allegations in Paragraphs 25 through 35 contain conclusions of law for which no response is required.

l. For the reasons set forth in her objections, and based on her admissions and denials of the allegations in the preceding paragraphs, Respondent denies the allegations in Counts One through Three.

k. Respondent hereby declares, under penalty of perjury, that the foregoing Answer and Notice of Defense, and all facts therein stated, are true and correct to best of my knowledge.

NOTICE OF INTENDED ACTION AND ACCUSATION

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Analeah Presbitero, RPh (Presbitero), Certificate of Registration No. 23353, and Respondent Todd Spears, RPh (Spears), Certificate of Registration No. 18123, were pharmacists registered with the Board, and Respondent CVS Pharmacy #6717, Pharmacy License No. PH01932, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Presbitero was employed as managing pharmacist of CVS Pharmacy #6717, located at 60 N. Valle Verde Drive in Henderson, and Spears was employed as a pharmacist at CVS Pharmacy #6717 at the time of the events alleged herein.

3. On January 3, 2024, CVS Pharmacy #6717 received a prescription for 30 escitalopram 20 mg tablets from prescriber G.W. for patient J.F. The CVS pharmacy computer system designated this prescription no. 1223493.

4. Also on January 3, 2024, CVS Pharmacy #6717 received a prescription for 90 tramadol HCl 50mg tablets from prescriber S.J. for patient T.B. The CVS pharmacy computer system designated this prescription no. 1223500.

5. On January 3, 2024, Jasmine Harshman (Harshman), a pharmaceutical technician, concurrently prepared prescription no. 1223493 for escitalopram and prescription no. 1223500 for tramadol.

6. When preparing prescription no. 1223493, Harshman poured the escitalopram tablets from a stock bottle, counted them according to the number prescribed, and then placed them in an unlabeled amber vial.

7. When preparing prescription no. 1223500, Harshman poured the tramadol tablets from a stock bottle, counted them according to the number prescribed, and then placed them in an unlabeled amber vial.

8. Harshman recalls that she placed an amber vial atop one of the printed labels that she was preparing to affix to the vial. According to Harshman, the amber vial containing escitalopram was likely pushed off its corresponding label, and when she handled it again, she inadvertently placed it atop the label designated for prescription no. 1223500.

9. At some point after Harshman first handled prescription nos. 1223493 and 1223500, the label for the escitalopram was mistakenly affixed to the amber vial containing tramadol.

10. At some point after Harshman first handled prescription nos. 1223493 and 1223500, the label for the tramadol was mistakenly affixed to the amber vial containing escitalopram.

11. Harshman used the CVS accuracy scan technology when preparing the above prescriptions.

12. For example, in preparing the prescription for escitalopram, Harshman snapped a photographic image of the escitalopram tablets on the counting tray, she scanned the manufacturer's data associated with the stock bottle containing the escitalopram, and then she scanned the label that she had prepared to affix to the amber vial. This created a digital file that correlated the escitalopram product image with the escitalopram product information.

13. On January 3, 2024, using the accuracy scan technology described above, Presbitero performed final verification of prescription no. 1223493. In this regard, Presbitero viewed the digital file, including the product image, and concluded that the prescription had been accurately filled with escitalopram. Presbitero did not directly inspect the amber vial or its contents. Had she done so, she would have seen that the amber vial contained 90 tablets of tramadol.

14. On January 3, 2024, using the accuracy scan technology described above, Presbitero performed final verification of prescription no. 1223500. In this regard, Presbitero viewed the digital file, including the product image, and concluded that the prescription had been accurately filled with tramadol. Presbitero did not directly inspect the amber vial or its contents. Had she done so, she would have seen that the amber vial contained 30 tablets of escitalopram.

15. On information and belief, CVS #6717, acting through its corporate officers and managers, directed its pharmacists, including Presbitero and Spears, to use the accuracy scan technology as a substitute for a direct visual inspection of the drugs that they dispensed to their patients.

16. On information and belief, it became standard operating procedure for the pharmacists employed by CVS #6717 to use the accuracy scan technology as a substitute for a

direct visual inspection of the drugs that they dispensed to their patients. CVS #6717 actively encouraged adherence to this standard operating procedure.

17. On information and belief, CVS #6717, acting through its corporate officers and managers, directed its pharmacists to use the accuracy scan technology as a means of meeting production goals that would not otherwise have been met if pharmacists had performed a direct visual inspection of the drugs that they dispensed.

18. On January 4, 2024, CVS #6717 dispensed prescription no. 122493.

19. On or about January 31, 2024, patient J.F. called and returned to CVS #6717 carrying 19 tablets of tramadol in a plastic bag. Patient J.F. explained that she had received the wrong medication, and after an internal investigation, CVS #6717 confirmed that it had dispensed tramadol to patient J.F. instead of escitalopram, as prescribed.

20. Patient J.F. ingested eight tramadol tablets before she noticed the error and experienced drowsiness and hallucinations.

21. On January 5, 2024, CVS #6717 dispensed prescription no. 1223500. Patient T.B. picked up the prescription and immediately returned to the pharmacy because she noticed that she had only received 30 tablets instead of 90.

22. Although patient T.B. promptly returned to the pharmacy to complain about the tablet count, patient T.B. failed to notice that the tablets were escitalopram, not tramadol as prescribed.

23. Spears was the pharmacist on duty on January 5, 2024, when patient T.B. returned to the pharmacy to correct her tablet count. A pharmaceutical technician on duty at the time poured the 30 tablets into the pill counter and notified Spears of the 60-tablet shortage. Spears did not view the bottle or tablets. Another technician added 60 tablets of tramadol to the machine. All 90 tablets were then placed back into the amber vial and the technician handed it back to patient T.B.

24. After the patient had left the pharmacy, Spears viewed the original product image of the tablets associated with prescription no. 1223500. The image showed that patient T.B.'s prescription contained 90 tablets of tramadol, as opposed to the 30 tablets of escitalopram and 60 tablets of tramadol that were ultimately dispensed to her. Spears did not document the shortage, and he did not perform any further investigation.

25. Patient T.B. ingested all the medication in the amber vial for prescription no. 1223500.

26. Patient T.B. reported feeling more pain than usual, weight gain, and migraines.

27. On information and belief, patient T.B. ingested at least 30 tablets of the escitalopram that had been prescribed for patient J.F.

APPLICABLE LAW

28. Unprofessional conduct includes the failure by a registrant to follow strictly the instructions of a practitioner when filling, labeling, and dispensing a prescription. NAC 639.945(1)(d).

29. Unprofessional conduct also includes a registrant or licensee performing duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i).

30. If a pharmaceutical technician performs one or more of the functions necessary to prepare a prescription, the pharmacist supervising the pharmaceutical technician is responsible for the filled prescription. NAC 639.252 and NAC 639.702. Such a pharmacist must verify, among other things, the selection and strength of the drug, the dosage form, and the labeling of the prescription. NAC 639.252(2).

31. A pharmaceutical technician may perform one or more of the functions necessary to prepare a prescription only if the supervising pharmacist inspects the final product. NAC 639.245(2).

32. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5); NAC 639.702. Furthermore, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

COUNT ONE

Unprofessional Conduct – Error in Dispensing Prescription

(Respondent Presbitero)

33. Presbitero engaged in unprofessional conduct as defined in NAC 639.945(1)(d) and (i) when she performed final verifications for prescription no. 1223493 and prescription no. 1223500 and failed to observe that the tablets in each of the amber vials did not correlate with the labels on each of the amber vials.

34. Having performed her duties in incompetent, unskillful, or negligent manner, as described above, Presbitero is subject to discipline pursuant to NRS 639.210(4).

COUNT TWO

Unprofessional Conduct – Error in Dispensing Prescription

(Respondent Spears)

35. Spears engaged in unprofessional conduct, as defined in NAC 639.945(1)(d) and (i), when he failed to perceive and correct the error in prescription no. 1223500 after patient T.B. returned with a complaint about the tablet count.

36. Although patient T.B. ultimately left the pharmacy with 90 tablets, including 60 tablets of tramadol, patient T.B. remained unaware that 30 of those tablets were never prescribed for her.

37. After becoming aware of the patient's complaint about the tablet count, Spears delegated to a pharmaceutical technician the responsibility to investigate and correct the discrepancy. Had Spears visually inspected the tablets, as opposed to a product image of the

tablets, he would have seen that the amber vial contained escitalopram instead of tramadol as indicated on the label.

38. Furthermore, Spears engaged in unprofessional conduct, as defined in NAC 639.945(1)(i), when he failed to investigate why patient T.B. received 30 tablets instead of 90 as prescribed.

39. Having performed his duties in incompetent, unskillful, or negligent manner, as described above, Spears is subject to discipline pursuant to NRS 639.210(4).

COUNT THREE
Pharmacy/Pharmacy Owner Responsibility
(Respondent CVS #6717)

40. As the pharmacy/pharmacy owner at which the unprofessional conduct and violations of law alleged herein occurred, Respondent CVS #6717 is responsible for those violations, including all errors and omissions of Respondents Presbitero, Spears, and any other pharmacy personnel in the course of erroneously filling and dispensing prescription no. 1223493 and prescription no. 1223500.

41. Due to the unprofessional conduct of Presbitero, Spears, and/or other of its employees, CVS #6717 is subject to professional discipline pursuant to NRS 639.230(5), NAC 639.702 and/or NAC 639.945(3).

COUNT FOUR
Performing Duties in a Negligent Manner
(Respondent CVS #6717)

42. As alleged above, CVS #6717, acting through its corporate officers and managers, directed its pharmacists, including Presbitero and Spears, to use the accuracy scan technology as a substitute for a direct visual inspection of the drugs that they dispensed to their patients.

43. As alleged above, it became standard operating procedure for the pharmacists employed by CVS #6717 to use the accuracy scan technology as a substitute for a direct visual inspection of the drugs that they dispensed to their patients. CVS #6717 actively encouraged adherence to this standard operating procedure.

44. On information and belief, CVS #6717, acting through its corporate officers and managers, directed its pharmacists to use the accuracy scan technology as a means of meeting production goals that would not otherwise have been met if pharmacists had performed a direct visual inspection of the drugs that they dispensed.

45. Pursuant to NAC 639.245 and NAC 639.252, CVS #6717 had a duty to ensure that its pharmacists performed a direct visual inspection of the drugs that they dispensed.

46. Acting through its officers and managers, CVS #6717 fostered a work environment in which its pharmacists were actively discouraged from performing a direct visual inspection of the drugs that they dispensed.

47. In light of the foregoing, CVS #6717 performed its duties as a licensee in an incompetent, unskillful, or negligent manner.

48. Due to its unprofessional conduct as alleged above, CVS #6717 caused prescription no. 1223493 and prescription no. 1223500 to be erroneously filled.

WHEREFORE, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the pharmacy license and certificates of registration of these Respondents.

Signed this 11th day of September 2025.

6. When preparing prescription no. 1223493, Harshman poured the escitalopram tablets from a stock bottle, counted them according to the number prescribed, and then placed them in an unlabeled amber vial.

7. When preparing prescription no. 1223500, Harshman poured the tramadol tablets from a stock bottle, counted them according to the number prescribed, and then placed them in an unlabeled amber vial.

8. Harshman recalls that she placed an amber vial atop one of the printed labels that she was preparing to affix to the vial. According to Harshman, the amber vial containing escitalopram was likely pushed off its corresponding label, and when she handled it again, she inadvertently placed it atop the label designated for prescription no. 1223500.

9. At some point after Harshman first handled prescription nos. 1223493 and 1223500, the label for the escitalopram was mistakenly affixed to the amber vial containing tramadol.

10. At some point after Harshman first handled prescription nos. 1223493 and 1223500, the label for the tramadol was mistakenly affixed to the amber vial containing escitalopram.

11. Harshman used the CVS accuracy scan technology when preparing the above prescriptions.

12. For example, in preparing the prescription for escitalopram, Harshman snapped a photographic image of the escitalopram tablets on the counting tray, she scanned the manufacturer's data associated with the stock bottle containing the escitalopram, and then she scanned the label that she had prepared to affix to the amber vial. This created a digital file that correlated the escitalopram product image with the escitalopram product information.

13. On January 3, 2024, using the accuracy scan technology described above, Presbitero performed final verification of prescription no. 1223493. In this regard, Presbitero viewed the digital file, including the product image, and concluded that the prescription had been accurately filled with escitalopram. Presbitero did not directly inspect the amber vial or its contents. Had she done so, she would have seen that the amber vial contained 90 tablets of tramadol.

14. On January 3, 2024, using the accuracy scan technology described above, Presbitero performed final verification of prescription no. 1223500. In this regard, Presbitero viewed the digital file, including the product image, and concluded that the prescription had been accurately filled with tramadol. Presbitero did not directly inspect the amber vial or its contents. Had she done so, she would have seen that the amber vial contained 30 tablets of escitalopram.

15. On information and belief, CVS #6717, acting through its corporate officers and managers, directed its pharmacists, including Presbitero and Spears, to use the accuracy scan technology as a substitute for a direct visual inspection of the drugs that they dispensed to their patients.

16. On information and belief, it became standard operating procedure for the pharmacists employed by CVS #6717 to use the accuracy scan technology as a substitute for a

direct visual inspection of the drugs that they dispensed to their patients. CVS #6717 actively encouraged adherence to this standard operating procedure.

17. On information and belief, CVS #6717, acting through its corporate officers and managers, directed its pharmacists to use the accuracy scan technology as a means of meeting production goals that would not otherwise have been met if pharmacists had performed a direct visual inspection of the drugs that they dispensed.

18. On January 4, 2024, CVS #6717 dispensed prescription no. 122493.

19. On or about January 31, 2024, patient J.F. called and returned to CVS #6717 carrying 19 tablets of tramadol in a plastic bag. Patient J.F. explained that she had received the wrong medication, and after an internal investigation, CVS #6717 confirmed that it had dispensed tramadol to patient J.F. instead of escitalopram, as prescribed.

20. Patient J.F. ingested eight tramadol tablets before she noticed the error and experienced drowsiness and hallucinations.

21. On January 5, 2024, CVS #6717 dispensed prescription no. 1223500. Patient T.B. picked up the prescription and immediately returned to the pharmacy because she noticed that she had only received 30 tablets instead of 90.

22. Although patient T.B. promptly returned to the pharmacy to complain about the tablet count, patient T.B. failed to notice that the tablets were escitalopram, not tramadol as prescribed.

23. Spears was the pharmacist on duty on January 5, 2024, when patient T.B. returned to the pharmacy to correct her tablet count. A pharmaceutical technician on duty at the time poured the 30 tablets into the pill counter and notified Spears of the 60-tablet shortage. Spears did not view the bottle or tablets. Another technician added 60 tablets of tramadol to the machine. All 90 tablets were then placed back into the amber vial and the technician handed it back to patient T.B.

24. After the patient had left the pharmacy, Spears viewed the original product image of the tablets associated with prescription no. 1223500. The image showed that patient T.B.'s prescription contained 90 tablets of tramadol, as opposed to the 30 tablets of escitalopram and 60 tablets of tramadol that were ultimately dispensed to her. Spears did not document the shortage, and he did not perform any further investigation.

25. Patient T.B. ingested all the medication in the amber vial for prescription no. 1223500.

26. Patient T.B. reported feeling more pain than usual, weight gain, and migraines.

27. On information and belief, patient T.B. ingested at least 30 tablets of the escitalopram that had been prescribed for patient J.F.

APPLICABLE LAW

28. Unprofessional conduct includes the failure by a registrant to follow strictly the instructions of a practitioner when filling, labeling, and dispensing a prescription. NAC 639.945(1)(d).

29. Unprofessional conduct also includes a registrant or licensee performing duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i).

30. If a pharmaceutical technician performs one or more of the functions necessary to prepare a prescription, the pharmacist supervising the pharmaceutical technician is responsible for the filled prescription. NAC 639.252 and NAC 639.702. Such a pharmacist must verify, among other things, the selection and strength of the drug, the dosage form, and the labeling of the prescription. NAC 639.252(2).

31. A pharmaceutical technician may perform one or more of the functions necessary to prepare a prescription only if the supervising pharmacist inspects the final product. NAC 639.245(2).

32. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5); NAC 639.702. Furthermore, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

COUNT ONE

Unprofessional Conduct – Error in Dispensing Prescription

(Respondent Presbitero)

33. Presbitero engaged in unprofessional conduct as defined in NAC 639.945(1)(d) and (i) when she performed final verifications for prescription no. 1223493 and prescription no. 1223500 and failed to observe that the tablets in each of the amber vials did not correlate with the labels on each of the amber vials.

34. Having performed her duties in incompetent, unskillful, or negligent manner, as described above, Presbitero is subject to discipline pursuant to NRS 639.210(4).

COUNT TWO

Unprofessional Conduct – Error in Dispensing Prescription

(Respondent Spears)

35. Spears engaged in unprofessional conduct, as defined in NAC 639.945(1)(d) and (i), when he failed to perceive and correct the error in prescription no. 1223500 after patient T.B. returned with a complaint about the tablet count.

36. Although patient T.B. ultimately left the pharmacy with 90 tablets, including 60 tablets of tramadol, patient T.B. remained unaware that 30 of those tablets were never prescribed for her.

37. After becoming aware of the patient's complaint about the tablet count, Spears delegated to a pharmaceutical technician the responsibility to investigate and correct the discrepancy. Had Spears visually inspected the tablets, as opposed to a product image of the

tablets, he would have seen that the amber vial contained escitalopram instead of tramadol as indicated on the label.

38. Furthermore, Spears engaged in unprofessional conduct, as defined in NAC 639.945(1)(i), when he failed to investigate why patient T.B. received 30 tablets instead of 90 as prescribed.

39. Having performed his duties in incompetent, unskillful, or negligent manner, as described above, Spears is subject to discipline pursuant to NRS 639.210(4).

COUNT THREE
Pharmacy/Pharmacy Owner Responsibility
(Respondent CVS #6717)

40. As the pharmacy/pharmacy owner at which the unprofessional conduct and violations of law alleged herein occurred, Respondent CVS #6717 is responsible for those violations, including all errors and omissions of Respondents Presbitero, Spears, and any other pharmacy personnel in the course of erroneously filling and dispensing prescription no. 1223493 and prescription no. 1223500.

41. Due to the unprofessional conduct of Presbitero, Spears, and/or other of its employees, CVS #6717 is subject to professional discipline pursuant to NRS 639.230(5), NAC 639.702 and/or NAC 639.945(3).

COUNT FOUR
Performing Duties in a Negligent Manner
(Respondent CVS #6717)

42. As alleged above, CVS #6717, acting through its corporate officers and managers, directed its pharmacists, including Presbitero and Spears, to use the accuracy scan technology as a substitute for a direct visual inspection of the drugs that they dispensed to their patients.

43. As alleged above, it became standard operating procedure for the pharmacists employed by CVS #6717 to use the accuracy scan technology as a substitute for a direct visual inspection of the drugs that they dispensed to their patients. CVS #6717 actively encouraged adherence to this standard operating procedure.

44. On information and belief, CVS #6717, acting through its corporate officers and managers, directed its pharmacists to use the accuracy scan technology as a means of meeting production goals that would not otherwise have been met if pharmacists had performed a direct visual inspection of the drugs that they dispensed.

45. Pursuant to NAC 639.245 and NAC 639.252, CVS #6717 had a duty to ensure that its pharmacists performed a direct visual inspection of the drugs that they dispensed.

46. Acting through its officers and managers, CVS #6717 fostered a work environment in which its pharmacists were actively discouraged from performing a direct visual inspection of the drugs that they dispensed.

47. In light of the foregoing, CVS #6717 performed its duties as a licensee in an incompetent, unskillful, or negligent manner.

48. Due to its unprofessional conduct as alleged above, CVS #6717 caused prescription no. 1223493 and prescription no. 1223500 to be erroneously filled.

WHEREFORE, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the pharmacy license and certificates of registration of these Respondents.

Signed this 11th day of September 2025.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through counsel, Laura M. Tucker, Esq., and Analeah Presbitero, RPH, Certificate of Registration No. 23353, ("Respondent"), by and through counsel, Roger N. Morris, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. The Board and Respondent agreed to delay the date for submitting a Notice of Answer and Defense as the parties pursued settlement negotiations.

4. Respondent acknowledges that she understands the terms of this Stipulation and Proposed Order ("Stipulation"), and that she has executed it knowingly and voluntarily.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter

233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, NRS Chapter 639, the Nevada Pharmacy Act, and NRS Chapter 453, the Nevada Uniform Controlled Substances Act.

6. Conditioned on the acceptance of this Stipulation by the Board, and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby freely and voluntarily waives her right to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

7. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in Count One of the Accusation, to wit:

A. On January 3, 2024, CVS #6717 received a prescription for 30 escitalopram 20 mg tablets. The CVS pharmacy computer system designated this prescription no. 1223493.

B. Also on January 3, 2024, CVS #6717 received a prescription for 90 tramadol HCl 50mg tablets. The CVS pharmacy computer system designated this prescription no. 1223500.

C. On January 3, 2024, a pharmaceutical technician prepared prescription no. 1223493 for escitalopram and prescription no. 1223500 for tramadol.

D. According to the pharmaceutical technician, at some point after the pharmaceutical technician first handled prescription nos. 1223493 and 1223500, the label for the escitalopram was mistakenly affixed to the amber vial containing tramadol, and the label for the tramadol was mistakenly affixed to the amber vial containing escitalopram.

E. The pharmaceutical technician used the CVS virtual verification process and technology when preparing the above prescriptions.

F. On January 3, 2024, using the accuracy scan technology described above, Respondent performed final verification of prescription no. 1223493. In this regard, Respondent viewed the digital file, including the product image, and concluded that the prescription had been accurately filled with escitalopram.

G. On January 3, 2024, using the virtual verification process and technology described above, Respondent performed final verification of prescription no. 1223500. In this regard, Respondent viewed the digital file, including the product image, and concluded that the prescription had been accurately filled with tramadol.

H. Prescription no. 1223493 for escitalopram was dispensed to the patient containing tramadol instead of escitalopram.

I. Prescription no. 1223500 was dispensed to the patient containing only 30 tablets, which were likely escitalopram instead of tramadol.

8. Now, therefore, to resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent shall pay an administrative fine of **Five Hundred and 00/100 Dollars ($500.00)**, payable by *cashier's check, certified check,* or *money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

B. Respondent shall pay the sum of **Five Hundred and 00/100 Dollars ($500.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

9. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 24-013-RPH-A-S. However, Respondent understands and acknowledges that her failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by

Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

10. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on March 4, 2026, in Las Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear for the meeting.

11. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

12. If the Board rejects any part or all this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the effective date of this Order.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, makes the following that will serve as both a notice of intended action under NRS 233B.127(3) and as an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy (Board) has jurisdiction over this matter and these Respondents because at the time of the events alleged herein, Respondent Analeah Presbitero, RPh (Presbitero), Certificate of Registration No. 23353, and Respondent Todd Spears, RPh (Spears), Certificate of Registration No. 18123, were pharmacists registered with the Board, and Respondent CVS Pharmacy #6717, Pharmacy License No. PH01932, was a pharmacy licensed by the Board.

FACTUAL ALLEGATIONS

2. Presbitero was employed as managing pharmacist of CVS Pharmacy #6717, located at 60 N. Valle Verde Drive in Henderson, and Spears was employed as a pharmacist at CVS Pharmacy #6717 at the time of the events alleged herein.

3. On January 3, 2024, CVS Pharmacy #6717 received a prescription for 30 escitalopram 20 mg tablets from prescriber G.W. for patient J.F. The CVS pharmacy computer system designated this prescription no. 1223493.

4. Also on January 3, 2024, CVS Pharmacy #6717 received a prescription for 90 tramadol HCl 50mg tablets from prescriber S.J. for patient T.B. The CVS pharmacy computer system designated this prescription no. 1223500.

5. On January 3, 2024, Jasmine Harshman (Harshman), a pharmaceutical technician, concurrently prepared prescription no. 1223493 for escitalopram and prescription no. 1223500 for tramadol.

6. When preparing prescription no. 1223493, Harshman poured the escitalopram tablets from a stock bottle, counted them according to the number prescribed, and then placed them in an unlabeled amber vial.

7. When preparing prescription no. 1223500, Harshman poured the tramadol tablets from a stock bottle, counted them according to the number prescribed, and then placed them in an unlabeled amber vial.

8. Harshman recalls that she placed an amber vial atop one of the printed labels that she was preparing to affix to the vial. According to Harshman, the amber vial containing escitalopram was likely pushed off its corresponding label, and when she handled it again, she inadvertently placed it atop the label designated for prescription no. 1223500.

9. At some point after Harshman first handled prescription nos. 1223493 and 1223500, the label for the escitalopram was mistakenly affixed to the amber vial containing tramadol.

10. At some point after Harshman first handled prescription nos. 1223493 and 1223500, the label for the tramadol was mistakenly affixed to the amber vial containing escitalopram.

11. Harshman used the CVS accuracy scan technology when preparing the above prescriptions.

12. For example, in preparing the prescription for escitalopram, Harshman snapped a photographic image of the escitalopram tablets on the counting tray, she scanned the manufacturer's data associated with the stock bottle containing the escitalopram, and then she scanned the label that she had prepared to affix to the amber vial. This created a digital file that correlated the escitalopram product image with the escitalopram product information.

13. On January 3, 2024, using the accuracy scan technology described above, Presbitero performed final verification of prescription no. 1223493. In this regard, Presbitero viewed the digital file, including the product image, and concluded that the prescription had been accurately filled with escitalopram. Presbitero did not directly inspect the amber vial or its contents. Had she done so, she would have seen that the amber vial contained 90 tablets of tramadol.

14. On January 3, 2024, using the accuracy scan technology described above, Presbitero performed final verification of prescription no. 1223500. In this regard, Presbitero viewed the digital file, including the product image, and concluded that the prescription had been accurately filled with tramadol. Presbitero did not directly inspect the amber vial or its contents. Had she done so, she would have seen that the amber vial contained 30 tablets of escitalopram.

15. On information and belief, CVS #6717, acting through its corporate officers and managers, directed its pharmacists, including Presbitero and Spears, to use the accuracy scan technology as a substitute for a direct visual inspection of the drugs that they dispensed to their patients.

16. On information and belief, it became standard operating procedure for the pharmacists employed by CVS #6717 to use the accuracy scan technology as a substitute for a

direct visual inspection of the drugs that they dispensed to their patients. CVS #6717 actively encouraged adherence to this standard operating procedure.

17. On information and belief, CVS #6717, acting through its corporate officers and managers, directed its pharmacists to use the accuracy scan technology as a means of meeting production goals that would not otherwise have been met if pharmacists had performed a direct visual inspection of the drugs that they dispensed.

18. On January 4, 2024, CVS #6717 dispensed prescription no. 122493.

19. On or about January 31, 2024, patient J.F. called and returned to CVS #6717 carrying 19 tablets of tramadol in a plastic bag. Patient J.F. explained that she had received the wrong medication, and after an internal investigation, CVS #6717 confirmed that it had dispensed tramadol to patient J.F. instead of escitalopram, as prescribed.

20. Patient J.F. ingested eight tramadol tablets before she noticed the error and experienced drowsiness and hallucinations.

21. On January 5, 2024, CVS #6717 dispensed prescription no. 1223500. Patient T.B. picked up the prescription and immediately returned to the pharmacy because she noticed that she had only received 30 tablets instead of 90.

22. Although patient T.B. promptly returned to the pharmacy to complain about the tablet count, patient T.B. failed to notice that the tablets were escitalopram, not tramadol as prescribed.

23. Spears was the pharmacist on duty on January 5, 2024, when patient T.B. returned to the pharmacy to correct her tablet count. A pharmaceutical technician on duty at the time poured the 30 tablets into the pill counter and notified Spears of the 60-tablet shortage. Spears did not view the bottle or tablets. Another technician added 60 tablets of tramadol to the machine. All 90 tablets were then placed back into the amber vial and the technician handed it back to patient T.B.

24. After the patient had left the pharmacy, Spears viewed the original product image of the tablets associated with prescription no. 1223500. The image showed that patient T.B.'s prescription contained 90 tablets of tramadol, as opposed to the 30 tablets of escitalopram and 60 tablets of tramadol that were ultimately dispensed to her. Spears did not document the shortage, and he did not perform any further investigation.

25. Patient T.B. ingested all the medication in the amber vial for prescription no. 1223500.

26. Patient T.B. reported feeling more pain than usual, weight gain, and migraines.

27. On information and belief, patient T.B. ingested at least 30 tablets of the escitalopram that had been prescribed for patient J.F.

APPLICABLE LAW

28. Unprofessional conduct includes the failure by a registrant to follow strictly the instructions of a practitioner when filling, labeling, and dispensing a prescription. NAC 639.945(1)(d).

29. Unprofessional conduct also includes a registrant or licensee performing duties in an "incompetent, unskillful, or negligent manner." NAC 639.945(1)(i).

30. If a pharmaceutical technician performs one or more of the functions necessary to prepare a prescription, the pharmacist supervising the pharmaceutical technician is responsible for the filled prescription. NAC 639.252 and NAC 639.702. Such a pharmacist must verify, among other things, the selection and strength of the drug, the dosage form, and the labeling of the prescription. NAC 639.252(2).

31. A pharmaceutical technician may perform one or more of the functions necessary to prepare a prescription only if the supervising pharmacist inspects the final product. NAC 639.245(2).

32. Any violation of any of the provisions of NRS Chapter 639 by a managing pharmacist or by personnel of the pharmacy is cause for the suspension or revocation of the license of the pharmacy by the Board. NRS 639.230(5); NAC 639.702. Furthermore, the owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ. NAC 639.945(3).

COUNT ONE

Unprofessional Conduct – Error in Dispensing Prescription

(Respondent Presbitero)

33. Presbitero engaged in unprofessional conduct as defined in NAC 639.945(1)(d) and (i) when she performed final verifications for prescription no. 1223493 and prescription no. 1223500 and failed to observe that the tablets in each of the amber vials did not correlate with the labels on each of the amber vials.

34. Having performed her duties in incompetent, unskillful, or negligent manner, as described above, Presbitero is subject to discipline pursuant to NRS 639.210(4).

COUNT TWO

Unprofessional Conduct – Error in Dispensing Prescription

(Respondent Spears)

35. Spears engaged in unprofessional conduct, as defined in NAC 639.945(1)(d) and (i), when he failed to perceive and correct the error in prescription no. 1223500 after patient T.B. returned with a complaint about the tablet count.

36. Although patient T.B. ultimately left the pharmacy with 90 tablets, including 60 tablets of tramadol, patient T.B. remained unaware that 30 of those tablets were never prescribed for her.

37. After becoming aware of the patient's complaint about the tablet count, Spears delegated to a pharmaceutical technician the responsibility to investigate and correct the discrepancy. Had Spears visually inspected the tablets, as opposed to a product image of the

tablets, he would have seen that the amber vial contained escitalopram instead of tramadol as indicated on the label.

38. Furthermore, Spears engaged in unprofessional conduct, as defined in NAC 639.945(1)(i), when he failed to investigate why patient T.B. received 30 tablets instead of 90 as prescribed.

39. Having performed his duties in incompetent, unskillful, or negligent manner, as described above, Spears is subject to discipline pursuant to NRS 639.210(4).

COUNT THREE
Pharmacy/Pharmacy Owner Responsibility
(Respondent CVS #6717)

40. As the pharmacy/pharmacy owner at which the unprofessional conduct and violations of law alleged herein occurred, Respondent CVS #6717 is responsible for those violations, including all errors and omissions of Respondents Presbitero, Spears, and any other pharmacy personnel in the course of erroneously filling and dispensing prescription no. 1223493 and prescription no. 1223500.

41. Due to the unprofessional conduct of Presbitero, Spears, and/or other of its employees, CVS #6717 is subject to professional discipline pursuant to NRS 639.230(5), NAC 639.702 and/or NAC 639.945(3).

COUNT FOUR
Performing Duties in a Negligent Manner
(Respondent CVS #6717)

42. As alleged above, CVS #6717, acting through its corporate officers and managers, directed its pharmacists, including Presbitero and Spears, to use the accuracy scan technology as a substitute for a direct visual inspection of the drugs that they dispensed to their patients.

43. As alleged above, it became standard operating procedure for the pharmacists employed by CVS #6717 to use the accuracy scan technology as a substitute for a direct visual inspection of the drugs that they dispensed to their patients. CVS #6717 actively encouraged adherence to this standard operating procedure.

44. On information and belief, CVS #6717, acting through its corporate officers and managers, directed its pharmacists to use the accuracy scan technology as a means of meeting production goals that would not otherwise have been met if pharmacists had performed a direct visual inspection of the drugs that they dispensed.

45. Pursuant to NAC 639.245 and NAC 639.252, CVS #6717 had a duty to ensure that its pharmacists performed a direct visual inspection of the drugs that they dispensed.

46. Acting through its officers and managers, CVS #6717 fostered a work environment in which its pharmacists were actively discouraged from performing a direct visual inspection of the drugs that they dispensed.

47. In light of the foregoing, CVS #6717 performed its duties as a licensee in an incompetent, unskillful, or negligent manner.

48. Due to its unprofessional conduct as alleged above, CVS #6717 caused prescription no. 1223493 and prescription no. 1223500 to be erroneously filled.

WHEREFORE, it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the pharmacy license and certificates of registration of these Respondents.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through counsel, Laura M. Tucker, Esq., and Todd Spears, RPH, Certificate of Registration No. 18123, ("Respondent"), by and through counsel, Roger N. Morris, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. The Board and Respondent agreed to delay the date for submitting a Notice of Answer and Defense as the parties pursued settlement negotiations.

4. Respondent acknowledges that he understands the terms of this Stipulation and Proposed Order ("Stipulation"), and that he has executed it knowingly and voluntarily.

5. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter

233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, NRS Chapter 639, the Nevada Pharmacy Act, and NRS Chapter 453, the Nevada Uniform Controlled Substances Act.

6. Conditioned on the acceptance of this Stipulation by the Board, and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby freely and voluntarily waives his right to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

7. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in Count Two of the Accusation, *to wit*:

A. On January 3, 2024, a pharmaceutical technician at CVS Pharmacy #6717 concurrently prepared prescription no. 1223493 for escitalopram and prescription no. 1223500 for tramadol.

B. According to the pharmaceutical technician, at some point after the pharmaceutical technician first handled prescription nos. 1223493 and 1223500, the label for the escitalopram was mistakenly affixed to the amber vial containing tramadol, and the label for the tramadol was mistakenly affixed to the amber vial containing escitalopram.

C. The pharmaceutical technician used the CVS virtual verification process and technology when preparing the above prescriptions.

D. On January 5, 2024, CVS Pharmacy #6717 dispensed prescription no. 1223500. Patient T.B. picked up the prescription and immediately returned to the pharmacy because she noticed that she had only received 30 tablets instead of 90.

E. Respondent was the pharmacist on duty on January 5, 2024, when patient T.B. returned to the pharmacy to correct her tablet count. A pharmaceutical technician on duty at the time poured the 30 tablets into the pill counter and notified Respondent of the 60-tablet shortage. Another technician added 60 tablets of tramadol to the

machine. All 90 tablets were then placed back into the amber vial and the technician handed it back to patient T.B.

F. After the patient had left the pharmacy, Respondent viewed the original product image of the tablets associated with prescription no. 1223500. The image showed that patient T.B.'s prescription contained 90 tablets of tramadol, as opposed to the 30 tablets of escitalopram and 60 tablets of tramadol that were likely dispensed to her. Respondent did not document the shortage, and he did not perform any further investigation.

G. Patient T.B. reported to have ingested all the medication in the amber vial for prescription no. 1223500.

H. Respondent failed to perceive and correct the error in prescription no. 1223500 after patient T.B. returned with a complaint about the tablet count.

8. Now, therefore, to resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent shall pay an administrative fine of **One Thousand and 00/100 Dollars ($1,000.00)**, payable by *cashier's check, certified check,* or *money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

B. Respondent shall pay the sum of **Five Hundred and 00/100 Dollars ($500.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

9. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 24-013-RPH-B-S. However, Respondent understands and acknowledges that his failure to comply with

the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

10. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on March 4, 2026, in Las Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear for the meeting.

11. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

12. If the Board rejects any part or all this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

13. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **MICHAEL J. STELLMACHER, PA,** **Certificate of Registration No. CS21884,** **Respondent.**	**Case No. 24-364-CS-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Michael J. Stellmacher, PA ("Respondent") held a registration issued by the Board, Certificate of Registration No. CS21884.

FACTUAL ALLEGATIONS

2. At all times relevant to this accusation, Respondent has been employed as the medical director of Premier Beauty, LLC, also known as Channel Pro, (Premier Beauty), located at 4555 S. Fort Apache Road, Suite 104, in Las Vegas, Nevada.

3. Since at least December 28, 2023 until present, Joseph Gillis ("Gillis") owned and/or operated Premier Beauty. Since at least May 9, 2024 until present, Betty Dare ("Dare") was listed as the director of Premier Beauty. Gillis and Dare are not Nevada-licensed practitioners as that term is defined in NRS 639.0125 and NRS 453.126.

4. A Board investigation on August 29, 2024 revealed that Respondent permitted Gillis and Dare to have independent access to the medication storage containing dangerous drugs, and to access those medications outside Respondent's presence without Respondent's supervision.

5. Respondent admitted that he was the medical director of Premier Beauty, but that he rarely was on site and stated that he had no patient records. Respondent was not physically on-site at Premier Beauty while Board investigators were there.

6. Respondent permitted Dare to independently access, possess, furnish, and administer dangerous drugs to patients, to provide on-site medical treatment, including the administration of dangerous drugs through injection, specifically tirzepatide, semaglutide powders, and nicotinamide adenine dinucleotide (NAD), without direct practitioner supervision, to patients with whom Respondent had not established a bona fide therapeutic relationship, and for whom Respondent had neither diagnosed nor determined that a dangerous drug was medically necessary.

7. Furthermore, the investigation revealed that these dangerous drugs were purchased from OUISA Pharmacy Corp. (OUISA), located in Spring Hill, Florida; OUISA not licensed as a wholesaler by the Board. The dangerous drugs were labeled as not for patient use.

8. Respondent permitted Gillis to purchase the drug products using the National Provider Identifier (NPI) number of Dr. Jayendrakumar Amin (Amin) and had the products shipped to California. Amin is located in California and does not hold any license or registration with the Board.

9. Premier Beauty's inventory included multiple vials of various injectable drugs intended for distribution in foreign markets and not approved for distribution or use in the United States, including medytox and other forms of botulinum toxins, multivitamin injections, and glutathione injections.

10. In at least one instance, Respondent's failure to supervise Dare while she administered tirzepatide to a patient resulted in patient harm. On June 7, 2024, Dare injected patient D.S. with tirzepatide and gave D.S. three more shots to take home with her. D.S. went to the emergency room with injuries from the injection. Respondent was not on site during the injection.

11. On or about February 19, 2025, the Board issued a cease-and-desist order with a citation and fine against Premier Beauty, Gillis, and Dare for unlicensed activity. On or about February 25, 2025, the Board issued a cease-and-desist order with a citation and fine against Amin for unlicensed wholesale activity.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through its General Counsel, Laura M. Tucker, and Respondent Michael J. Stellmacher, PA. ("Respondent"), by and through his counsel, Anthony Cortez, hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent acknowledges that he understands the terms of this Stipulation and Proposed Order ("Stipulation"), and he has executed it knowingly and voluntarily.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, NRS Chapter 453, the Nevada Controlled Substances Act, and NRS Chapter 639, the Nevada Pharmacy Act.

Stipulation, Respondent hereby freely and voluntarily waives his rights to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

6. Respondent does not contest the allegations stated in Count One, Count Two, Count Three, Count Four, and Count Five of the Accusation, and further admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged therein, to wit:

A. Respondent, a physician assistant, served as the medical director for Premier Beauty, LLC, also known as Channel Pro, (Premier Beauty), a medical spa located at 4555 S. Fort Apache Road, Suite 104, in Las Vegas, Nevada.

B. During Respondent's tenure as medical director, Respondent rarely visited the spa's location at 4555 S. Fort Apache Road, Suite 104.

C. During Respondent's tenure as medical director, Premier Beauty's owner and/or employees stored and possessed dangerous drugs at times when Respondent was not physically present at the spa's location at 4555 S. Fort Apache Road, Suite 104.

D. During Respondent's tenure as the medical director, a Premier Beauty employee administered injectable prescription drugs at times when Respondent was not physically present at the spa's location at 4555 S. Fort Apache Road, Suite 104, to patients with whom Respondent had not established a bona fide therapeutic relationship, and for whom Respondent had neither diagnosed nor determined that a dangerous drug was medically necessary.

E. During Respondent's tenure as medical director, Premier Beauty's owner and/or employees ordered and received dangerous drugs labeled as not for patient use from OUISA Pharmacy Corp., located in Spring Hill, Florida, a wholesaler not licensed to engage in wholesale distribution in Nevada.

F. During Respondent's tenure as medical director, Premier Beauty's inventory included multiple vials of various injectable drugs intended for distribution in foreign markets and not approved for distribution or use in the United States, including medytox and other forms of botulinum toxins, multivitamin injections, and glutathione injections.

7. Now, therefore, to resolve the allegations stated in Count One, Count Two, Count Three, Count Four, and Count Five of the Accusation without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent accepts this Stipulation as a public reprimand.

B. Respondent agrees to pay an administrative fine of **Two Thousand Five Hundred and 00/100 Dollars ($2,500.00)**, payable by *cashier's check, certified check,* or *money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, on or before April 30, 2026.

C. Respondent shall pay the sum of **One Thousand and 00/100 Dollars ($1,000.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this case. 8. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 24-364-CS-S. Any failure by Respondent to comply with the terms of this Stipulation may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing him to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in the finding of noncompliance by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639 and/or NRS Chapter 453.

9. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on March 4, 2026, in Las Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear at the meeting.

10. The Board may accept this Stipulation, but it has no obligation to accept this Stipulation. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and

shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

11. If the Board rejects any part or all of this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hold a contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

12. FIRST CHOICE PHARMACY, LLC, Pharmacy License No. PH04395, and NICOLE SY, RPH, Certificate of Registration No. 20646, and KIRK BEAULIEU, RPH, Certificate of Registration No. 20184,
Respondents.

ANSWER AND NOTICE OF DEFENSE:

Respondents First Choice Pharmacy, LLC, Kirk Beaulieu, RPh, and Nicole Sy, RPh, hereby submit this Answer and Notice of Defense to the *Notice of Intended Action and Accusation* filed by the Nevada State Board of Pharmacy ("Board"), and respectfully states as follows:

I. PRELIMINARY STATEMENT

1. Respondents deny each and every material allegation contained in the Notice of Intended Action and Accusation, except as expressly admitted herein.
2. Respondent Beaulieu has been a licensed pharmacist for thirty-five (35) years, maintaining licenses in Maine, New Hampshire, and Nevada without any prior disciplinary action.
3. Respondent Beaulieu has consistently conducted himself with integrity, diligence, and transparency in the practice of pharmacy, including during his employment with First Choice Pharmacy beginning December 1, 2023, where he served as Pharmacist-in-Charge ("PIC").
4. The transactions involving Rxeed referenced in the Board's allegations were pre-existing pharmacy practices that began prior to Respondent's employment. Respondents had no prior knowledge or notice that Rxeed was not licensed as a wholesaler in Nevada, and no directive or written communication from the Board, the pharmacy owners, or Rxeed indicated such status.
5. Respondents acted in good faith reliance on the pharmacy's established suppliers and on the Board's prior "good inspection" findings for the facility. At no time did he intend to violate any state or federal law or regulation.

II. RESPONSES TO SPECIFIC COUNTS

COUNT I – Unprofessional Conduct: Performing Duties in an Incompetent, Unskillful, or Negligent Manner

6. Respondents deny the allegations contained in Count I.
7. Respondent Beaulieu did not act incompetently, unskillfully, or negligently. He followed all known compliance practices and relied on prior Board inspections indicating that First Choice Pharmacy operated lawfully.
8. Upon the Board's subsequent notification that Rxeed was an unlicensed marketplace, Respondents immediately ceased all transactions with Rxeed and implemented procedures to verify all current and future wholesalers through the Nevada Board of Pharmacy's licensure database.
9. Respondents have since maintained full compliance and received a "good inspection" on February 11, 2025, from Board Inspector John Castaldo.

COUNT II – Aiding or Abetting Violation of State Law or Regulation

10. Respondents deny the allegations contained in Count II.
11. Respondents did not knowingly or intentionally aid, abet, or assist Rxeed in any unlawful activity. Rxeed the company presented itself as a licensed wholesaler with valid credentials.
12. Respondents had no constructive or actual knowledge of any unlicensed activity until receiving direct instruction from the Board in April 2024, at which point First Choice acted promptly to discontinue all Rxeed use and to verify compliance with NRS 639.239 and NAC 639.510.

COUNT III – Aiding or Abetting Violation of Federal Law or Regulation

13. Respondents deny the allegations contained in Count III.
14. Respondents did not engage in, or knowingly assist, any conduct that violated 21 U.S.C. §§ 331(t), 353(e)(2)(A), or 21 C.F.R. 205.4.
15. Respondents' actions were limited to lawful pharmacy practice in Nevada and in reliance on vendor representations and past inspections that indicated no regulatory issues.

III. MITIGATION AND CORRECTIVE ACTION

16. Respondents respectfully requests that the Board consider their full cooperation with Inspector Leo Basch during the April 5, 2024, inspection, where they provided all invoices and allowed inspection of Rxeed-sourced medications without hesitation or concealment.
17. At no time did Inspector Basch instruct Respondents to cease using Rxeed or indicate that it was unlicensed. The subsequent "good inspection" report further reinforced Respondents' reasonable belief in compliance.
18. Once the Board clarified Rxeed's unlicensed status, Respondents implemented the following corrective measures:

- Verified the licensure of every wholesaler currently doing business with the pharmacy;
- Instituted an internal verification SOP for vendor licensing checks;
- Educated pharmacy staff regarding Nevada wholesaler licensing requirements; and

- Documented all vendor license verifications for future Board inspection review.

19. Respondents have fully cooperated with all Board inquiries and has continued to maintain a compliant and transparent pharmacy operation since the event.

IV. CONCLUSION AND REQUEST FOR RELIEF

20. Respondents respectfully asserts that they acted in good faith, without intent to mislead or violate any law or regulation and corrected any compliance issue immediately upon notice.
21. Respondent Beaulieu's thirty-five-year record of professional service without prior discipline demonstrates his ongoing commitment to the safety and welfare of Nevada patients.
22. Respondents respectfully request that the Board dismiss all counts, or in the alternative, impose no disciplinary action in light of his cooperation, corrective action, and unblemished professional record.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through counsel, Laura M. Tucker, Esq., and Respondent First Choice Pharmacy (Respondent), by and through counsel, Christopher L. Blakesley, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent acknowledges that it understands the terms of this Stipulation and Proposed Order ("Stipulation"), and it has executed it knowingly and voluntarily.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, NRS Chapter 639, the Nevada Pharmacy Act, and NRS Chapter 453, the Nevada Uniform Controlled Substances Act.

5. Conditioned on the acceptance of this Stipulation by the Board, and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby freely and voluntarily waives its right to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

6. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in Count One, Count Two, and Count Three of the Accusation, to wit:

A. Between January 2023 and April 2024, Respondent purchased prescription drugs from twenty-three (23) pharmacies not licensed for wholesale distribution in Nevada through Rxeed, a wholesaling platform that is not licensed to engage in business as a wholesale in Nevada.

B. Before engaging in the purchase of drugs from Rxeed in January 2023, Respondent had a duty to request proof that Rxeed was a licensed wholesaler in Nevada pursuant to NRS 639.233. By failing to verify that Rxeed was a licensed wholesaler in Nevada, Respondent performed its duties as a purchaser and as the holder of a certificate of registration issued by the Board in an incompetent, unskillful, or negligent manner. *See* NRS 639.210(4); NAC 639.945(1)(i).

C. By dispensing drugs with actual or constructive knowledge of Rxeed's unlicensed activity, Respondent permitted Rxeed to engage in, or assisted or abetted Rxeed in, the unlicensed practice of wholesaling, thereby engaging in unprofessional conduct. *See* NRS 639.210(4); NAC 639.945(1)(j).

D. By purchasing products through Rxeed, a company not licensed to engage in the business of wholesale distribution in Nevada, Respondent permitted Rxeed to engage in, or assisted or abetted Rxeed in, the unlicensed practice of wholesaling in violation of 21 U.S.C. § 360eee-l, 21 U.S.C. § 33l(t), 21 U.S.C. § 353(e)(l)(A) and/or 21 CFR Part 205, thereby engaging in unprofessional conduct. *See* NRS 639.210(11).

7. Now, therefore, to resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent accepts the Stipulation as a public reprimand imposed pursuant to NRS 639.255(1)(e).

B. Respondent shall pay an administrative fine of **Five Thousand and 00/100 Dollars ($5,000.00)**, payable by *cashier's check, certified check,* or *money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondents shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation and Order.

C. Respondent shall pay the sum of **One Thousand and 00/100 Dollars ($1,000.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the "**Nevada State Board of Pharmacy.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation and Order.

8. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 25-110-PH-S. However, Respondent understands and acknowledges that its failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

9. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on March 4, 2026, in Las Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear for the meeting.

10. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

11. If the Board rejects any part or all this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

12. Subject to the approval of this Stipulation by the Board, the Board and Respondents agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the effective date of this Order.

FIRST CHOICE PHARMACY, LLC, Pharmacy License No. PH04395, and NICOLE SY, RPH, Certificate of Registration No. 20646, and KIRK BEAULIEU, RPH, Certificate of Registration No. 20184,
Respondents.

ANSWER AND NOTICE OF DEFENSE:

Respondents First Choice Pharmacy, LLC, Kirk Beaulieu, RPh, and Nicole Sy, RPh, hereby submit this Answer and Notice of Defense to the *Notice of Intended Action and Accusation* filed by the Nevada State Board of Pharmacy ("Board"), and respectfully states as follows:

I. PRELIMINARY STATEMENT

1. Respondents deny each and every material allegation contained in the Notice of Intended Action and Accusation, except as expressly admitted herein.
2. Respondent Beaulieu has been a licensed pharmacist for thirty-five (35) years, maintaining licenses in Maine, New Hampshire, and Nevada without any prior disciplinary action.
3. Respondent Beaulieu has consistently conducted himself with integrity, diligence, and transparency in the practice of pharmacy, including during his employment with First Choice Pharmacy beginning December 1, 2023, where he served as Pharmacist-in-Charge ("PIC").
4. The transactions involving Rxeed referenced in the Board's allegations were pre-existing pharmacy practices that began prior to Respondent's employment. Respondents had no prior knowledge or notice that Rxeed was not licensed as a wholesaler in Nevada, and no directive or written communication from the Board, the pharmacy owners, or Rxeed indicated such status.
5. Respondents acted in good faith reliance on the pharmacy's established suppliers and on the Board's prior "good inspection" findings for the facility. At no time did he intend to violate any state or federal law or regulation.

II. RESPONSES TO SPECIFIC COUNTS

COUNT I – Unprofessional Conduct: Performing Duties in an Incompetent, Unskillful, or Negligent Manner

6. Respondents deny the allegations contained in Count I.
7. Respondent Beaulieu did not act incompetently, unskillfully, or negligently. He followed all known compliance practices and relied on prior Board inspections indicating that First Choice Pharmacy operated lawfully.
8. Upon the Board's subsequent notification that Rxeed was an unlicensed marketplace, Respondents immediately ceased all transactions with Rxeed and implemented procedures to verify all current and future wholesalers through the Nevada Board of Pharmacy's licensure database.
9. Respondents have since maintained full compliance and received a "good inspection" on February 11, 2025, from Board Inspector John Castaldo.

COUNT II – Aiding or Abetting Violation of State Law or Regulation

10. Respondents deny the allegations contained in Count II.
11. Respondents did not knowingly or intentionally aid, abet, or assist Rxeed in any unlawful activity. Rxeed the company presented itself as a licensed wholesaler with valid credentials.
12. Respondents had no constructive or actual knowledge of any unlicensed activity until receiving direct instruction from the Board in April 2024, at which point First Choice acted promptly to discontinue all Rxeed use and to verify compliance with NRS 639.239 and NAC 639.510.

COUNT III – Aiding or Abetting Violation of Federal Law or Regulation

13. Respondents deny the allegations contained in Count III.
14. Respondents did not engage in, or knowingly assist, any conduct that violated 21 U.S.C. §§ 331(t), 353(e)(2)(A), or 21 C.F.R. 205.4.
15. Respondents' actions were limited to lawful pharmacy practice in Nevada and in reliance on vendor representations and past inspections that indicated no regulatory issues.

III. MITIGATION AND CORRECTIVE ACTION

16. Respondents respectfully requests that the Board consider their full cooperation with Inspector Leo Basch during the April 5, 2024, inspection, where they provided all invoices and allowed inspection of Rxeed-sourced medications without hesitation or concealment.
17. At no time did Inspector Basch instruct Respondents to cease using Rxeed or indicate that it was unlicensed. The subsequent "good inspection" report further reinforced Respondents' reasonable belief in compliance.
18. Once the Board clarified Rxeed's unlicensed status, Respondents implemented the following corrective measures:

    - Verified the licensure of every wholesaler currently doing business with the pharmacy;
    - Instituted an internal verification SOP for vendor licensing checks;
    - Educated pharmacy staff regarding Nevada wholesaler licensing requirements; and

- Documented all vendor license verifications for future Board inspection review.

19. Respondents have fully cooperated with all Board inquiries and has continued to maintain a compliant and transparent pharmacy operation since the event.

IV. CONCLUSION AND REQUEST FOR RELIEF

20. Respondents respectfully asserts that they acted in good faith, without intent to mislead or violate any law or regulation and corrected any compliance issue immediately upon notice.
21. Respondent Beaulieu's thirty-five-year record of professional service without prior discipline demonstrates his ongoing commitment to the safety and welfare of Nevada patients.
22. Respondents respectfully request that the Board dismiss all counts, or in the alternative, impose no disciplinary action in light of his cooperation, corrective action, and unblemished professional record.

6. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in Count One, Count Two, and Count Three of the Accusation, to wit:

A. Between January 2023 and October 2023, while employed as managing pharmacist at First Choice Pharmacy (First Choice), Respondent purchased prescription drugs from pharmacies not licensed for wholesale distribution in Nevada through Rxeed, a wholesaling platform that is not licensed to engage in business as a wholesale in Nevada.

D. By purchasing products through Rxeed, a company not licensed to engage in the business of wholesale distribution in Nevada, Respondent permitted Rxeed to engage in, or assisted or abetted Rxeed in, the unlicensed practice of wholesaling in violation of 21 U.S.C. § 360eee-l, 21 U.S.C. § 33l(t), 21 U.S.C. § 353(e)(l)(A) and/or 21 CFR Part 205, thereby engaging in unprofessional conduct. *See* NRS 639.210(11).

7. Now, therefore, to resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties:

A. Respondent accepts the Stipulation as a public reprimand imposed pursuant to NRS 639.255(1)(e).

B. Respondent shall pay an administrative fine of **Five Thousand and 00/100 Dollars ($5,000.00)**, payable by *cashier's check, certified check,* or *money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, by July 1, 2026.

8. This Stipulation constitutes a full and final resolution of the Accusation in 25-110-RPH-A-S. However, Respondent understands and acknowledges that her failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

9. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on March 4, 2026, in Las

Vegas, Nevada. The Board Members and Staff may discuss and deliberate regarding this Stipulation, even if Respondent fails to appear for the meeting.

Respondents.

ANSWER AND NOTICE OF DEFENSE:

Respondents First Choice Pharmacy, LLC, Kirk Beaulieu, RPh, and Nicole Sy, RPh, hereby submit this Answer and Notice of Defense to the *Notice of Intended Action and Accusation* filed by the Nevada State Board of Pharmacy ("Board"), and respectfully states as follows:

I. PRELIMINARY STATEMENT

1. Respondents deny each and every material allegation contained in the Notice of Intended Action and Accusation, except as expressly admitted herein.
2. Respondent Beaulieu has been a licensed pharmacist for thirty-five (35) years, maintaining licenses in Maine, New Hampshire, and Nevada without any prior disciplinary action.
3. Respondent Beaulieu has consistently conducted himself with integrity, diligence, and transparency in the practice of pharmacy, including during his employment with First Choice Pharmacy beginning December 1, 2023, where he served as Pharmacist-in-Charge ("PIC").
4. The transactions involving Rxeed referenced in the Board's allegations were pre-existing pharmacy practices that began prior to Respondent's employment. Respondents had no prior knowledge or notice that Rxeed was not licensed as a wholesaler in Nevada, and no directive or written communication from the Board, the pharmacy owners, or Rxeed indicated such status.
5. Respondents acted in good faith reliance on the pharmacy's established suppliers and on the Board's prior "good inspection" findings for the facility. At no time did he intend to violate any state or federal law or regulation.

II. RESPONSES TO SPECIFIC COUNTS

COUNT I – Unprofessional Conduct: Performing Duties in an Incompetent, Unskillful, or Negligent Manner

6. Respondents deny the allegations contained in Count I.
7. Respondent Beaulieu did not act incompetently, unskillfully, or negligently. He followed all known compliance practices and relied on prior Board inspections indicating that First Choice Pharmacy operated lawfully.
8. Upon the Board's subsequent notification that Rxeed was an unlicensed marketplace, Respondents immediately ceased all transactions with Rxeed and implemented procedures to verify all current and future wholesalers through the Nevada Board of Pharmacy's licensure database.
9. Respondents have since maintained full compliance and received a "good inspection" on February 11, 2025, from Board Inspector John Castaldo.

COUNT II – Aiding or Abetting Violation of State Law or Regulation

10. Respondents deny the allegations contained in Count II.
11. Respondents did not knowingly or intentionally aid, abet, or assist Rxeed in any unlawful activity. Rxeed the company presented itself as a licensed wholesaler with valid credentials.
12. Respondents had no constructive or actual knowledge of any unlicensed activity until receiving direct instruction from the Board in April 2024, at which point First Choice acted promptly to discontinue all Rxeed use and to verify compliance with NRS 639.239 and NAC 639.510.

COUNT III – Aiding or Abetting Violation of Federal Law or Regulation

13. Respondents deny the allegations contained in Count III.
14. Respondents did not engage in, or knowingly assist, any conduct that violated 21 U.S.C. §§ 331(t), 353(e)(2)(A), or 21 C.F.R. 205.4.
15. Respondents' actions were limited to lawful pharmacy practice in Nevada and in reliance on vendor representations and past inspections that indicated no regulatory issues.

III. MITIGATION AND CORRECTIVE ACTION

16. Respondents respectfully requests that the Board consider their full cooperation with Inspector Leo Basch during the April 5, 2024, inspection, where they provided all invoices and allowed inspection of Rxeed-sourced medications without hesitation or concealment.
17. At no time did Inspector Basch instruct Respondents to cease using Rxeed or indicate that it was unlicensed. The subsequent "good inspection" report further reinforced Respondents' reasonable belief in compliance.
18. Once the Board clarified Rxeed's unlicensed status, Respondents implemented the following corrective measures:

    - Verified the licensure of every wholesaler currently doing business with the pharmacy;
    - Instituted an internal verification SOP for vendor licensing checks;
    - Educated pharmacy staff regarding Nevada wholesaler licensing requirements; and

- Documented all vendor license verifications for future Board inspection review.

19. Respondents have fully cooperated with all Board inquiries and has continued to maintain a compliant and transparent pharmacy operation since the event.

IV. CONCLUSION AND REQUEST FOR RELIEF

20. Respondents respectfully asserts that they acted in good faith, without intent to mislead or violate any law or regulation and corrected any compliance issue immediately upon notice.
21. Respondent Beaulieu's thirty-five-year record of professional service without prior discipline demonstrates his ongoing commitment to the safety and welfare of Nevada patients.
22. Respondents respectfully request that the Board dismiss all counts, or in the alternative, impose no disciplinary action in light of his cooperation, corrective action, and unblemished professional record.

D. A. Respondent accepts the Stipulation as a public reprimand imposed pursuant to NRS 639.255(1)(e).

B. Respondent shall pay an administrative fine of **Five Thousand and 00/100 Dollars ($5,000.00)**, payable by *cashier's check, certified check,* or *money order* written to the "**State of Nevada, Office of the Treasurer.**" Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation and Order.

8. This Stipulation constitutes a full and final resolution of the Accusation in 25-110-RPH-B-S. However, Respondent understands and acknowledges that his failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

9. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on March 4, 2026, in Las Vegas, Nevada. BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, Petitioner, v. JILL OLIVER, M.D. Certificates of Registration Nos. CS15479 and PD15479, Respondent.	CASE NO.: 25-111-CS-S **ANSWER AND NOTICE OF DEFENSE**

I. Objections to the Accusation

Respondent has no present objections to the Accusation as being incomplete or failing to state clearly the charges against her, but reserves the right to raise such objection(s) through the course of proceedings.

II. Answer to the Accusation

Respondent admits, denies, and alleges as follows:

A. With regard to Paragraphs 1 through 7, Respondent admits to the allegations contained therein

B. With regard to Paragraph 8, Respondent admits that Ceballos had not obtained a

dispensing technician in training ("TDT"[1]) license prior to March 6, 2025.

1. Respondent notes that the TDT license requirement (NAC 639.7424) became effective December 29, 2022, approximately six (6) months prior to the commencement of Ceballos's dispensing technician training as an employee of Glimpse of Vegas Inc., dba Glimpse Medical ("Glimpse Medical" or "Practice").

2. Respondent states that as a dispensing practitioner, she has trained three (3) dispensing technicians in her Practice between 2012 and 2020, long prior to the adoption of NAC 639.7424.

3. Respondent states that Practice staff contacted the Board for guidance on Ceballos's dispensing technician application ("TD Application") on several occasions prior to submitting the TD Application on or about March 6, 2025.

4. Respondent states that Practice staff were informed by the Board, in pertinent part, to leave the "TDT Registration #" blank on the TD Application, but were never informed of the TDT license requirement itself.

5. Respondent states she was unaware that that dispensing technician training requirements had changed, or that a TDT license was now required, until she was contacted by Ken Scheuber by telephone on or about March 21, 2025.

6. Respondent asserts that she then took immediate remedial action, by (a) submitting a TDT application for Ceballos on March 21, 2025, which was approved by the Board on March 27, 2025; and (b) by so far providing 1,376 hours of additional dispensing technician training for Ceballos as of January 23, 2026.

7. Respondent notes that when Ceballos again applies for a TD license, she will have had over 3,000 hours of dispensing technician training.

C. With regard to Paragraph 9, Respondent denies the allegations contained in that paragraph.

1. The duties of a dispensing technician, and thus a dispensing technician in training, include NAC 639.742(4):

(a) Entering the room or cabinet in which drugs are stored;

(b) Removing drugs from stock;

[1] The Board apparently refers to dispensing technicians as "TD" and dispensing technicians in training as "TDT".

(c) Counting, pouring or reconstituting drugs;

(d) Placing drugs into containers;

(e) Producing and affixing appropriate labels to containers that contain or will contain drugs;

(f) Filling containers for later use in dispensing drugs; or

(g) Packaging or repackaging drugs.

2. Respondent asserts that, from on or about June 20, 2023 until July 31, 2024 ("Training Period"):

(a) Ceballos did not enter any room where drugs were stored unless accompanied by Respondent and a dispensing technician duly licensed by the Board, and did not have access to any cabinets where drugs were stored;

(b) Ceballos did not remove any drugs from stock;

(c) Ceballos did not count, pour, or reconstitute any drugs;

(d) Ceballos did not place any drugs into containers;

(e) Ceballos did not produce or affix any labels to containers that did contain or would contain drugs;

(f) Ceballos did not fill any containers for later use in dispensing drugs; and

(g) Ceballos did not package or repackage any drugs.

3. Respondent states that Ceballos was employed by Glimpse Medical as a medical assistant, and was to continue working primarily as a medical assistant even after obtaining TD licensure, and was to serve as TD only in the unusual event no other TD of Glimpse Medical was available.

4. Respondent states that because Ceballos was not expected to actively function as a TD at the Practice, her training during the Training Period had been limited to use of the computer system and observation of the technical duties of the TD.

D. With regard to Paragraph 10, Respondent admits that Ceballos was an employee of Glimpse Medical and under Respondent's supervision during the Training Period, but denies the remaining allegations in this paragraph.

1. As stated above, Respondent provided Ceballos with education related to the duties of a TD, should she ever need to serve in that role once licensed.

2. As stated above, Respondent denies that Ceballos performed any of the

technical duties of a TD or TDT during the Training Period.

E. With regard to Paragraph 11, Respondent admits the allegations contained in this paragraph.

1. Respondent asserts that because of the 2021 disciplinary action by the Board, and on the advice of Board inspector Luis Curras during a January 23, 2020 inspection of Glimpse Medical, Respondent determined to train and obtain TD licenses for all Glimpse Medical employees, to ensure there would never again be a lapse in TD availability.

2. Respondent states that Ceballos was the only employee of Glimpse Medical who had not yet been trained and licensed as a TD.

F. Paragraphs 12 through 16 do not contain allegations against the Respondent. To the extent an answer is required, the Respondent denies the allegations in those paragraphs.[2]

G. With regard to Paragraph 17, Respondent admits that a TDT license is required pursuant to NAC 639.7424, but denies that Ceballos performed any technical duties of a TDT or a TD during the Training Period.

H. With regards to Paragraphs 18 through 20, Respondent denies the allegations contained in these paragraphs, and repeats paragraphs A through G above as if fully set forth herein.

I. With regard to Paragraph 21, Respondent admits that as the owner of Glimpse Medical she is responsible for the acts of all personnel in her employ, but denies that any of her employees have been found to have committed any violations of law related to the events set forth in the Notice.

J. With regard to Paragraph 22, Respondent denies the allegations contained in this paragraph, and repeats paragraphs A through I above as if fully set forth herein.

////

////

[2] Paragraphs 16 and 21 of the Notice refer to NAC 639.945(2), which states "It is not unprofessional conduct or conduct contrary to the public interest for a practitioner to prescribe or dispense a drug under the circumstances described in paragraph (n) of subsection 1 if the drug is prescribed or dispensed in accordance with either publication adopted by reference in NAC 639.055." For the purposes of this Answer, Respondent assumes the intended reference is to NAC 639.945(3), which states, "The owner of any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in his or her employ," and responds to these paragraphs accordingly.

The undersigned hereby declares, under penalty of perjury, that the foregoing Answer and Notice of Defense and all facts therein stated, are true and correct to best of her knowledge.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, by and through counsel, Laura M. Tucker, Esq., and Jill Oliver, MD, ("Respondent"), by and through counsel, Bridget Kelly, Esq., hereby stipulate and agree as follows:

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over Respondent and this matter.

2. The Board's staff properly served Respondent with the Notice of Intended Action and Accusation ("Accusation") on file in this matter, together with the Statement to Respondent and Notice of Hearing.

3. Respondent acknowledges that she understands the terms of this Stipulation and Proposed Order ("Stipulation"), and that she has executed it knowingly and voluntarily.

4. Respondent is aware of the right to a hearing on the matters alleged in the Accusation, the right to reconsideration of a Board determination in a contested case, the right to appeal a Board determination in a contested case, and all other rights afforded to Respondent under NRS Chapter 233B, the Nevada Administrative Procedure Act, NRS Chapter 622A, which governs administrative procedure before the Board, NRS Chapter 639, the Nevada Pharmacy Act, and NRS Chapter 453, the Nevada Uniform Controlled Substances Act.

5. Conditioned on the acceptance of this Stipulation by the Board, and excluding the right to challenge any determination that Respondent has failed to comply with the provisions of this Stipulation, Respondent hereby freely and voluntarily waives her right to a hearing, reconsideration, appeal, and other rights related to this action as identified above.

6. Respondent admits that evidence exists, and that Board staff prosecuting this case could present such evidence at an administrative hearing, to establish a factual basis for the violations alleged in Count One and Count Two, *to wit*:

A. Respondent allowed an employee to perform duties as a dispensing technician in training without the required license as required by NAC 639.7424(6); NAC 639.7435; NAC 639.7445, thereby engaging in unprofessional conduct or conduct contrary to the public interest as defined in NAC 639.945(1)(i) and (j).

B. As owner of Glimpse Medical Center, Respondent is responsible for all violations of law, including those of her employees, pursuant to NAC 639.945(2). The Board may impose administrative discipline pursuant to NRS 639.210(4) and (12) and/or NRS 639.255

7. Now, therefore, to resolve this matter without incurring any further costs or the expenses associated with a hearing, the Board and Respondent agree to the imposition of the following penalties. The certificate of registration nos. CS15479 and PD15479 shall be SUSPENDED; however, the suspension is STAYED, and Respondent shall be placed on probation pursuant to NRS 639.255(1)(b) for a period of one (1) year subject to the following conditions:

A. Respondent shall pay an administrative fine of **Two Thousand and 00/100 Dollars ($2,000.00)**, payable by *cashier's check, certified check,* or *money order* written to the **"State of Nevada, Office of the Treasurer."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

B. Respondent shall pay the sum of **Five Hundred and 00/100 Dollars ($500.00)** to partially reimburse the Board for recoverable attorney's fees and costs incurred in investigating and prosecuting this matter. This sum shall be payable by *cashier's check, certified check,* or *money order* written to the **"Nevada State Board of Pharmacy."** Respondent shall remit payment in full to the Board's Reno office, located at 985 Damonte Ranch Parkway, Suite 206, Reno, Nevada 89521, within thirty (30) days of the effective date of this Stipulation.

Upon successful completion of the terms and conditions of probation as forth herein, Respondent's certificates of registration shall be automatically reinstated without conditions or restrictions.

8. This Stipulation constitutes a full and final resolution of the Accusation in Case No. 25-111-CS-S. However, Respondent understands and acknowledges that her failure to comply with the terms stated herein may result in issuance by the Executive Secretary of an order to show cause, pursuant to NAC 639.965, directing Respondent to appear before the Board at the next regularly scheduled meeting for a show cause hearing. If such a hearing results in a finding of a violation by Respondent, the Board may impose additional discipline not inconsistent with the provisions of NRS Chapter 639.

9. The Board's General Counsel will present this Stipulation to the Board for approval pursuant to NRS 622.330 at the Board's regularly scheduled public meeting on March 4, 2026, in Las Vegas, Nevada. 10. The Board may accept this Stipulation, but it is not obligated to do so. If this Stipulation is approved by the Board, it shall be a public record pursuant to NRS 622.330 and shall be reported to the National Practitioner Data Bank pursuant to 42 U.S.C. § 1396r–2 and 45 CFR Part 60.

11. If the Board rejects any part or all this Stipulation, and unless the parties reach an alternative agreement on the record during the hearing, the parties agree that the Board may hear a full contested hearing on the merits of all alleged violations as stated in the Accusation. The terms and admissions herein may not be used, relied upon, or referred to by any party during any such hearing.

12. Subject to the approval of this Stipulation by the Board, the Board and Respondent agree to release each other from any or all additional claims arising from the facts set forth in the Accusation on file herein, whether known or unknown that might otherwise have been asserted by the Board on or before the effective date of this Order.

Respondent has fully considered the charges and allegations contained in the *Notice of Intended Action and Accusation* in this matter, and the terms of this Stipulation, and has freely and voluntarily agreed to the terms set forth herein, and waived certain rights, as stated herein.

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **LYFE PHARMACY,** **Pharmacy License No. PH04561, and** **NAZAKAT NIGMATOVA, RPH,** **Certificate of Registration No. 20601,** **Respondents.**	**Case No. 25-360-PH-S** **25-360-RPH-S** **NOTICE OF INTENDED ACTION AND ACCUSATION**

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Lyfe Pharmacy, Inc. (Lyfe), License No. PH04561, held a license issued by the Board pursuant to NRS 639.230, authorizing the business to operate as a pharmacy, and Respondent Nazakat Nigmatova, RPh (Nigmatova), Certificate of Registration No. 20601, was a pharmacist registered with the Board.

FACTUAL ALLEGATIONS

2. From February 5, 2024, through February 4, 2026, Lyfe, located at 9280 W. Sunset Road #230, in Las Vegas, held Pharmacy License No. PH04561 authorizing the operation of a pharmacy in compliance with the terms of the new pharmacy application personally submitted by Nigmatova on Lyfe's behalf.

3. Respondent Nigmatova, a registered pharmacist, signed the initial application in her capacity as the president and 100% shareholder of Lyfe.

4. On information and belief, dangerous drugs and controlled substances were received, stored, and dispensed at Lyfe Pharmacy between February 5, 2024, and September 26, 2024.

5. On or about September 26, 2024, without giving prior notice to the Board pursuant to NAC 639.227, Nigmatova ostensibly caused the assets of Lyfe to be sold to Ramy Massoud (Massoud) outside the jurisdiction of the Board. Massoud was not and is not currently licensed by the Board to operate a pharmacy at 9280 W. Sunset Road #230, in Las Vegas, Nevada.

6. Massoud took possession of Lyfe's assets on September 26, 2024, and he began to act at that time as the putative pharmacy owner in control of the premises at 9280 W. Sunset Road #230, in Las Vegas.

7. From September 26, 2024 until January 27, 2026, with putative owner Massoud having assumed control of the assets of the pharmacy, Massoud began, on his own account and without the Board's knowledge or consent, to receive, possess, store, hold for sale, and/or sell controlled substances.

8. On or about January 27, 2026, the Board received notice that agents from the federal Drug Enforcement Administration (DEA) had seized the stock of controlled substances at 9280 W. Sunset Road #230, in Las Vegas, Nevada. The DEA seized the controlled substances because no pharmacy owner was registered with the DEA at that location to prescribe or dispense controlled substances as required by federal law.

9. From September 26, 2024 through February 4, 2026, putative owner Massoud continued, on his own account and without the Board's knowledge or consent, to receive, possess, store, hold for sale, and/or sell dangerous drugs. During that time, Nigmatova did not act as pharmacy owner of Lyfe, and Nigmatova never submitted, and the Board had never approved, a change of ownership application for Lyfe with Massoud as the owner.

10. On or about February 4, 2026, following a Board investigation, Nigmatova surrendered the pharmacy license for Lyfe. Nigmatova did not agree to temporarily assume a managerial role pending licensure of a qualified owner. As a result, Lyfe was closed by the Board.

11. On or about February 4, 2026, the Board secured all drugs and medical records on Lyfe's premises. Lyfe's managing pharmacist volunteered to properly secure the drugs and patient records on site and assist patients to transfer their prescription information to other pharmacies pending new ownership approved by the Board.

APPLICABLE LAW

12. Any person operating a pharmacy within this State shall obtain a license from the Board. NRS 639.230(1). Each license must be issued to a specific person and for a specific location and is not transferable. NRS 639.230(2).

13. The holder of a pharmacy license must file an application for a change of ownership at least 15 days prior to any change involving a transfer of 50 percent or more of the beneficial interest in the pharmacy. NAC 639.227(1). If the Board does not receive an application for change of ownership within the required timeframe, the Board may initiate proceedings to suspend the license to operate the pharmacy. NAC 639.227(3).

14. Pursuant to NRS 639.100(1), it is unlawful for any person to permit to be manufactured, distributed at wholesale, sold or dispensed, any drug, poison, medicine or chemical, or to dispense, or permit to be dispensed, any prescription of a practitioner, unless the person holds the appropriate certificate, license or permit and complies with the regulations adopted by the Board.

15. Aiding or abetting a person not licensed to practice pharmacy in the State of Nevada is unprofessional conduct and conduct contrary to the public interest. NAC 639.945(1)(j).

16. The Board may revoke or suspend the registration of any licensee who has violated, attempted to violate, assisted, or abetted in the violation of, or conspired to violate any of the

provisions of NRS chapter 639 or any state or federal law or regulation relating to drugs, the manufacture or distribution of drugs, or the practice of pharmacy. NRS 639.210(12).

17. The Board may revoke or suspend the registration of any licensee who has engaged in unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

18. Any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in its employ. NAC 639.945(3).

19. In lieu of, or in addition to revoking or suspending a license holder's registration for violating the law or engaging in unprofessional conduct, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

COUNT ONE
Violation of State Regulation – Failure to Submit Change of Ownership
(Respondent Nigmatova)

20. As alleged above, on or about September 26, 2024, without giving prior notice to the Board, Nigmatova ostensibly caused the assets of Lyfe to be sold to Massoud.

21. As the seller, Nigmatova had a legal obligation pursuant to NAC 639.227(1) to file an application for a change of ownership at least 15 days prior to the transfer of the beneficial interest in the pharmacy at 9280 W. Sunset Road #230, in Las Vegas, Nevada.

22. By failing to file an application for change of ownership pursuant to NAC 639.227(1), Nigmatova violated a Nevada regulation relating to the practice of pharmacy.

23. Nigmatova's conduct as alleged above amounts to a violation for which the Board may impose administrative discipline. *See* NRS 639.210(12).

COUNT TWO
Permitting Unlicensed Practice
(Respondent Nigmatova)

24. As alleged above, on or about September 26, 2024, without giving prior notice to the Board, Nigmatova ostensibly caused the assets of Lyfe to be sold to Massoud.

25. When Nigmatova failed to file an application for change of ownership pursuant to NAC 639.227(1), Massoud, the putative new owner of Lyfe, did not legally obtain licensure to

operate the pharmacy. As such, during the relevant time period, Massoud did not hold a license with the Board to engage in the practice of pharmacy in Nevada.

26. As alleged above, during the relevant time period, Massoud, on his own account and without knowledge or consent of the Board, continued to operate the pharmacy, including by continuing to receive, possess, store, hold for sale, and/or sell controlled substances and dangerous drugs, without a license as required by NRS 639.230.

27. By failing to file an application for change of ownership for Lyfe and causing putative owner Massoud, on his own account and without knowledge and consent of the Board, to operate the pharmacy location without an owner licensed by the Board pursuant to NRS 639.230(2), Nigmatova permitted Massoud to engage in unlicensed selling and/or dispensing of drugs in violation of NRS 639.100(1).

28. Respondent's conduct as alleged above amounts to a violation of NRS 639.100, as well as unprofessional conduct as defined by NAC 639.945(1)(j); therefore, the Board may impose administrative discipline. *See* NRS 639.210(4); NRS 639.210(12); NAC 639.945(1)(j).

COUNT THREE
Pharmacy/Pharmacy Owner Responsibility
(Respondent Lyfe Pharmacy)

29. As the pharmacy/pharmacy owner at which the unprofessional conduct and violations of law alleged herein occurred, Lyfe is responsible for those violations, including all errors and omissions of Respondent Nigmatova and any other pharmacy personnel in the course of conduct alleged above.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondents Lyfe Pharmacy, Inc. and Nazakat Nigmatova, RPh.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Tera Pharmacy (Tera), License No. PH04648, held a license issued by the Board pursuant to NRS 639.230, authorizing the business to operate as a pharmacy, Respondent Nazakat Nigmatova, RPh (Nigmatova), Certificate of Registration No. 20601, was a pharmacist registered with the Board, and Respondent Grace Singson, RPh (Singson), Certificate of Registration No. 24727, was a pharmacist registered with the Board.

FACTUAL ALLEGATIONS

2. From November 21, 2024, through February 4, 2026, Tera, located at 8995 W. Flamingo Road, Suite 120, in Las Vegas, held Pharmacy License No. PH04648 authorizing the

operation of a pharmacy in compliance with the terms of the new pharmacy application personally submitted by Nigmatova on Tera's behalf.

3. Respondent Nigmatova, a registered pharmacist, signed the initial application in her capacity as the president and 100% shareholder of Tera. As stated in the application, Tera initially conducted business under the name Lyfe Pharmacy 2.

4. On or about December 2, 2024, Nigmatova filed an application with the Board to change the pharmacy's name from Lyfe Pharmacy 2 to Tera Pharmacy. The Board's staff approved the application.

5. On or about June 11, 2025, without giving prior notice to the Board pursuant to NAC 639.227, Nigmatova ostensibly caused the assets of Tera to be sold outside the jurisdiction of the Board. The assets of Tera were ostensibly relinquished to a buyer who is not licensed by the Board to operate a pharmacy.

6. On or about September 19, 2025 without giving prior notice to the Board pursuant to NAC 639.227, Nigmatova again ostensibly caused the assets of Tera to be sold outside the jurisdiction of the Board. The assets of Tera were ostensibly relinquished to Mark Mahfouz (Mahfouz), who was not and is not currently licensed by the Board to operate a pharmacy at 8995 W. Flamingo Road, Suite 120.

7. Mahfouz took possession of Tera's assets on September 19, 2025, and he began to act at that time as the putative pharmacy owner in control of the premises at 8995 W. Flamingo Road, Suite 120, in Las Vegas.

8. From September 19, 2025 until January 27, 2026, with putative owner Mahfouz having assumed control of the assets of the pharmacy, Mahfouz began, on his own account and without the Board's knowledge or consent, to receive, possess, store, hold for sale, and/or sell controlled substances.

9. On or about October 16, 2025, Singson notified the Board that she had become managing pharmacist at Tera.

10. On or about November 25, 2025, Board Inspector Leo Basch (Basch) performed an annual inspection of Tera. During the inspection, Basch noted several deficiencies, including:

a. From on or about October 29, 2025 to October 30, 2025, Singson processed at least seven (7) prescriptions for various controlled substances that did not have a quantity indicated on the prescription or a prescriber's signature;

b. On or about October 29, 2025, Singson processed at least one (1) prescription for a controlled substance that did not have the prescriber's signature;

c. On or about November 4, 2025, Singson accepted a transferred prescription for testosterone, a controlled substance, that was missing the days' supply, the address of the pharmacy the prescription was received from, the total number of refills, and the number of refills remaining; and

d. On or about October 22, 2025, a phoned-in prescription was written for multiple medications for one patient and was missing the initials of the pharmacist who took the call. When questioned, Singson stated that she took the prescription over the phone.

11. On or about January 27, 2026, the Board received notice that agents from the federal Drug Enforcement Administration (DEA) had seized the stock of controlled substances at 8995 W. Flamingo Road, Suite 120, in Las Vegas, Nevada. The DEA seized the controlled substances because no pharmacy owner was registered with the DEA at that location to prescribe or dispense controlled substances as required by federal law.

12. From September 19, 2025 through February 4, 2026, putative owner Mahfouz continued, on his own account and without the Board's knowledge or consent, to receive, possess, store, hold for sale, and/or sell dangerous drugs. During that time, Nigmatova did not act as pharmacy owner of Tera, and Nigmatova never submitted, and the Board had never approved, a change of ownership application for Tera with Mahfouz as the owner.

13. On or about February 4, 2026, following a Board investigation, Nigmatova surrendered the pharmacy license for Tera. Nigmatova did not agree to temporarily assume a managerial role pending licensure of a qualified owner. As a result, Tera was closed by the Board.

14. On or about February 4, 2026, the Board secured all drugs and medical records on Tera's premises. On February 5, 2026, Singson volunteered to properly secure the drugs and patient records on site and assist patients to transfer their prescription information to other pharmacies pending new ownership approved by the Board.

APPLICABLE LAW

15. Any person operating a pharmacy within this State shall obtain a license from the Board. NRS 639.230(1). Each license must be issued to a specific person and for a specific location and is not transferable. NRS 639.230(2).

16. The holder of a pharmacy license must file an application for a change of ownership at least 15 days prior to any change involving a transfer of 50 percent or more of the beneficial interest in the pharmacy. NAC 639.227(1). If the Board does not receive an application for change of ownership within the required timeframe, the Board may initiate proceedings to suspend the license to operate the pharmacy. NAC 639.227(3).

17. Pursuant to NRS 639.100(1), it is unlawful for any person to permit to be manufactured, distributed at wholesale, sold or dispensed, any drug, poison, medicine or chemical, or to dispense, or permit to be dispensed, any prescription of a practitioner, unless the person holds the appropriate certificate, license or permit and complies with the regulations adopted by the Board.

18. Aiding or abetting a person not licensed to practice pharmacy in the State of Nevada is unprofessional conduct and conduct contrary to the public interest. NAC 639.945(1)(j).

19. In Nevada, written prescriptions for controlled substances must contain, among other things, the name and signature of the practitioner and the name, strength and quantity of the drug prescribed and the number of days that the drug is to be used, beginning on the day on which the prescription is filled. NRS 639.2353(2). All filled prescriptions must be retained on file for at least two years, and each prescription on file must be personally signed or initialed by the registered pharmacist who filled it. NRS 639.236(2); NAC 639.751.

20. Only a registered pharmacist or a registered pharmaceutical intern acting under the direct supervision of a registered pharmacist may identify, evaluate, and interpret a prescription. NAC 639.700(2). Pharmacists are responsible for verifying prescriptions prepared by pharmaceutical technicians, including, but not limited to the selection and strength of the drug and the dosage form. NAC 639.252(2). Pharmacists also have discretion not to fill a prescription if the prescription does not meet certain standards. NAC 639.752.

21. Performing any duties as the holder of a license, certificate or registration issued by the Board in an incompetent, unskillful, or negligent manner is unprofessional conduct and conduct contrary to the public interest. NAC 639.945(1)(i).

22. The Board may revoke or suspend the registration of any licensee who has violated, attempted to violate, assisted, or abetted in the violation of, or conspired to violate any of the provisions of NRS chapter 639 or any state or federal law or regulation relating to drugs, the manufacture or distribution of drugs, or the practice of pharmacy. NRS 639.210(12).

23. The Board may revoke or suspend the registration of any licensee who has engaged in unprofessional conduct or conduct contrary to the public interest. NRS 639.210(4).

24. Any business or facility licensed, certified or registered by the Board is responsible for the acts of all personnel in its employ. NAC 639.945(3).

25. In lieu of, or in addition to revoking or suspending a license holder's registration for violating the law or engaging in unprofessional conduct, the Board may impose fines as a disciplinary measure. *See* NRS 639.255; NAC 639.955.

COUNT ONE
Violation of State Regulation – Failure to Submit Change of Ownership
(Respondent Nigmatova)

26. As alleged above, on or about September 19, 2025, without giving prior notice to the Board, Nigmatova ostensibly caused the assets of Tera to be sold to Mahfouz.

27. As the seller, Nigmatova had a legal obligation pursuant to NAC 639.227(1) to file an application for a change of ownership at least 15 days prior to the transfer of the beneficial interest in the pharmacy at 8995 W. Flamingo Road, Suite 120, in Las Vegas, Nevada.

28. By failing to file an application for change of ownership pursuant to NAC 639.227(1), Nigmatova violated a Nevada regulation relating to the practice of pharmacy.

29. Nigmatova's conduct as alleged above amounts to a violation for which the Board may impose administrative discipline. *See* NRS 639.210(12).

COUNT TWO
Permitting Unlicensed Practice
(Respondent Nigmatova)

30. As alleged above, on or about September 19, 2025, without giving prior notice to the Board, Nigmatova ostensibly caused the assets of Tera to be sold to Mahfouz.

31. When Nigmatova failed to file an application for change of ownership pursuant to NAC 639.227(1), Mahfouz, the putative new owner of Tera, did not legally obtain licensure to operate the pharmacy. As such, during the relevant time period, Mahfouz did not hold a license with the Board to engage in the practice of pharmacy in Nevada.

32. As alleged above, during the relevant time period, Mahfouz, on his own account and without knowledge or consent of the Board, continued to operate the pharmacy, including by continuing to receive, possess, store, hold for sale, and/or sell controlled substances and dangerous drugs, without a license as required by NRS 639.230.

33. By failing to file an application for change of ownership for Tera and causing putative owner Mahfouz, on his own account and without knowledge and consent of the Board, to operate the pharmacy location without an owner licensed by the Board pursuant to NRS

639.230(2), Nigmatova permitted Mahfouz to engage in unlicensed selling and/or dispensing of drugs in violation of NRS 639.100(1).

34. Respondent's conduct as alleged above amounts to a violation of NRS 639.100, as well as unprofessional conduct as defined by NAC 639.945(1)(j); therefore, the Board may impose administrative discipline. *See* NRS 639.210(4); NRS 639.210(12); NAC 639.945(1)(j).

COUNT THREE
Unprofessional Conduct – Performing Duties in a Negligent Manner
(Respondent Singson)

35. As alleged above, between October 22, 2025 to November 4, 2025, Singson, as managing pharmacist at Tera, processed at least ten (10) prescriptions with missing information that is required by Nevada law or regulation. NRS 639.2353(2); NRS 639.236(2); NAC 639.751.

36. As the registered pharmacist on duty, Singson had a duty to verify, evaluate and interpret the prescriptions received at Tera. NAC 639.700(2); NAC 639.252(2); NAC 639.752.

37. By filling prescriptions that were not valid under Nevada law, Signson performed her duties as a licensee in a negligent manner. NAC 639.945(1)(i).

38. Singson's conduct as alleged above amounts to unprofessional conduct as defined by NAC 639.945(1)(i); therefore, the Board may impose administrative discipline. *See* NRS 639.210(4).

COUNT FOUR
Pharmacy/Pharmacy Owner Responsibility
(Respondent Tera Pharmacy)

39. As the pharmacy/pharmacy owner at which the unprofessional conduct and violations of law alleged herein occurred, Tera is responsible for those violations, including all errors and omissions of Respondent Nigmatova and Respondent Singson and any other pharmacy personnel in the course of conduct alleged above.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondents Tera Pharmacy, Nazakat Nigmatova, RPh, and Grace Singson, RPh.

DATED this 6th day of February 2026.

13. On or about February 4, 2026, following a Board investigation, Nigmatova surrendered the pharmacy license for Tera. Nigmatova did not agree to temporarily assume a managerial role pending licensure of a qualified owner. As a result, Tera was closed by the Board.

14. On or about February 4, 2026, the Board secured all drugs and medical records on Tera's premises. On February 5, 2026, Singson volunteered to properly secure the drugs and patient records on site and assist patients to transfer their prescription information to other pharmacies pending new ownership approved by the Board.

27. As the seller, Nigmatova had a legal obligation pursuant to NAC 639.227(1) to file an application for a change of ownership at least 15 days prior to the transfer of the beneficial interest in the pharmacy at 8995 W. Flamingo Road, Suite 120, in Las Vegas, Nevada.

30. As alleged above, on or about September 19, 2025, without giving prior notice to the Board, Nigmatova ostensibly caused the assets of Tera to be sold to Mahfouz.

31. When Nigmatova failed to file an application for change of ownership pursuant to NAC 639.227(1), Mahfouz, the putative new owner of Tera, did not legally obtain licensure to operate the pharmacy. As such, during the relevant time period, Mahfouz did not hold a license with the Board to engage in the practice of pharmacy in Nevada.

32. As alleged above, during the relevant time period, Mahfouz, on his own account and without knowledge or consent of the Board, continued to operate the pharmacy, including by continuing to receive, possess, store, hold for sale, and/or sell controlled substances and dangerous drugs, without a license as required by NRS 639.230.

33. By failing to file an application for change of ownership for Tera and causing putative owner Mahfouz, on his own account and without knowledge and consent of the Board, to operate the pharmacy location without an owner licensed by the Board pursuant to NRS

639.230(2), Nigmatova permitted Mahfouz to engage in unlicensed selling and/or dispensing of drugs in violation of NRS 639.100(1).

34. Respondent's conduct as alleged above amounts to a violation of NRS 639.100, as well as unprofessional conduct as defined by NAC 639.945(1)(j); therefore, the Board may impose administrative discipline. *See* NRS 639.210(4); NRS 639.210(12); NAC 639.945(1)(j).

COUNT THREE

(Respondent Singson)

35. As alleged above, between October 22, 2025 to November 4, 2025, Singson, as managing pharmacist at Tera, processed at least ten (10) prescriptions with missing information that is required by Nevada law or regulation. NRS 639.2353(2); NRS 639.236(2); NAC 639.751.

36. As the registered pharmacist on duty, Singson had a duty to verify, evaluate and interpret the prescriptions received at Tera. NAC 639.700(2); NAC 639.252(2); NAC 639.752.

37. By filling prescriptions that were not valid under Nevada law, Signson performed her duties as a licensee in a negligent manner. NAC 639.945(1)(i).

38. Singson's conduct as alleged above amounts to unprofessional conduct as defined by NAC 639.945(1)(i); therefore, the Board may impose administrative discipline. *See* NRS 639.210(4).

COUNT FOUR
Pharmacy/Pharmacy Owner Responsibility
(Respondent Tera Pharmacy)

39. As the pharmacy/pharmacy owner at which the unprofessional conduct and violations of law alleged herein occurred, Tera is responsible for those violations, including all errors and omissions of Respondent Nigmatova and Respondent Singson and any other pharmacy personnel in the course of conduct alleged above.

WHEREFORE it is requested that the Nevada State Board of Pharmacy take appropriate disciplinary action with respect to the certificate of registration of Respondents Tera Pharmacy, Nazakat Nigmatova, RPh, and Grace Singson, RPh.

J. David Wuest, in his official capacity as Executive Secretary of the Nevada State Board of Pharmacy, files the following document that will serve as both a notice of intended action under NRS 233B.127(3) and an accusation under NRS 622A.300(1) and NRS 639.241.

JURISDICTION

1. The Nevada State Board of Pharmacy ("Board") has jurisdiction over this matter because, at the time of the events alleged herein, Respondent Tera Pharmacy (Tera), License No. PH04648, held a license issued by the Board pursuant to NRS 639.230, authorizing the business to operate as a pharmacy, Respondent Nazakat Nigmatova, RPh (Nigmatova), Certificate of Registration No. 20601, was a pharmacist registered with the Board, and Respondent Grace Singson, RPh (Singson), Certificate of Registration No. 24727, was a pharmacist registered with the Board.

FACTUAL ALLEGATIONS

2. From November 21, 2024, through February 4, 2026, Tera, located at 8995 W. Flamingo Road, Suite 120, in Las Vegas, held Pharmacy License No. PH04648 authorizing the

operation of a pharmacy in compliance with the terms of the new pharmacy application personally submitted by Nigmatova on Tera's behalf.

3. Respondent Nigmatova, a registered pharmacist, signed the initial application in her capacity as the president and 100% shareholder of Tera. As stated in the application, Tera initially conducted business under the name Lyfe Pharmacy 2.

4. On or about December 2, 2024, Nigmatova filed an application with the Board to change the pharmacy's name from Lyfe Pharmacy 2 to Tera Pharmacy. The Board's staff approved the application.

5. On or about June 11, 2025, without giving prior notice to the Board pursuant to NAC 639.227, Nigmatova ostensibly caused the assets of Tera to be sold outside the jurisdiction of the Board. The assets of Tera were ostensibly relinquished to a buyer who is not licensed by the Board to operate a pharmacy.

6. On or about September 19, 2025 without giving prior notice to the Board pursuant to NAC 639.227, Nigmatova again ostensibly caused the assets of Tera to be sold outside the jurisdiction of the Board. The assets of Tera were ostensibly relinquished to Mark Mahfouz (Mahfouz), who was not and is not currently licensed by the Board to operate a pharmacy at 8995 W. Flamingo Road, Suite 120.

7. Mahfouz took possession of Tera's assets on September 19, 2025, and he began to act at that time as the putative pharmacy owner in control of the premises at 8995 W. Flamingo Road, Suite 120, in Las Vegas.

8. From September 19, 2025 until January 27, 2026, with putative owner Mahfouz having assumed control of the assets of the pharmacy, Mahfouz began, on his own account and without the Board's knowledge or consent, to receive, possess, store, hold for sale, and/or sell controlled substances.

9. On or about October 16, 2025, Singson notified the Board that she had become managing pharmacist at Tera.

10. On or about November 25, 2025, Board Inspector Leo Basch (Basch) performed an annual inspection of Tera. During the inspection, Basch noted several deficiencies, including:

a. From on or about October 29, 2025 to October 30, 2025, Singson processed at least seven (7) prescriptions for various controlled substances that did not have a quantity indicated on the prescription or a prescriber's signature;

b. On or about October 29, 2025, Singson processed at least one (1) prescription for a controlled substance that did not have the prescriber's signature;

c. On or about November 4, 2025, Singson accepted a transferred prescription for testosterone, a controlled substance, that was missing the days' supply, the address of the pharmacy the prescription was received from, the total number of refills, and the number of refills remaining; and

d. On or about October 22, 2025, a phoned-in prescription was written for multiple medications for one patient and was missing the initials of the pharmacist who took the call. When questioned, Singson stated that she took the prescription over the phone.

11. On or about January 27, 2026, the Board received notice that agents from the federal Drug Enforcement Administration (DEA) had seized the stock of controlled substances at 8995 W. Flamingo Road, Suite 120, in Las Vegas, Nevada. The DEA seized the controlled substances because no pharmacy owner was registered with the DEA at that location to prescribe or dispense controlled substances as required by federal law.

12. From September 19, 2025 through February 4, 2026, putative owner Mahfouz continued, on his own account and without the Board's knowledge or consent, to receive, possess, store, hold for sale, and/or sell dangerous drugs. During that time, Nigmatova did not act as pharmacy owner of Tera, and Nigmatova never submitted, and the Board had never approved, a change of ownership application for Tera with Mahfouz as the owner.

13. On or about February 4, 2026, following a Board investigation, Nigmatova surrendered the pharmacy license for Tera. Nigmatova did not agree to temporarily assume a managerial role pending licensure of a qualified owner. As a result, Tera was closed by the Board.

14. On or about February 4, 2026, the Board secured all drugs and medical records on Tera's premises. On February 5, 2026, Singson volunteered to properly secure the drugs and patient records on site and assist patients to transfer their prescription information to other pharmacies pending new ownership approved by the Board.

(Respondent Nigmatova)

31. When Nigmatova failed to file an application for change of ownership pursuant to NAC 639.227(1), Mahfouz, the putative new owner of Tera, did not legally obtain licensure to operate the pharmacy. As such, during the relevant time period, Mahfouz did not hold a license with the Board to engage in the practice of pharmacy in Nevada.

32. As alleged above, during the relevant time period, Mahfouz, on his own account and without knowledge or consent of the Board, continued to operate the pharmacy, including by continuing to receive, possess, store, hold for sale, and/or sell controlled substances and dangerous drugs, without a license as required by NRS 639.230.

33. By failing to file an application for change of ownership for Tera and causing putative owner Mahfouz, on his own account and without knowledge and consent of the Board, to operate the pharmacy location without an owner licensed by the Board pursuant to NRS

34. Respondent's conduct as alleged above amounts to a violation of NRS 639.100, as well as unprofessional conduct as defined by NAC 639.945(1)(j); therefore, the Board may impose administrative discipline. *See* NRS 639.210(4); NRS 639.210(12); NAC 639.945(1)(j).

(Respondent Singson)

35. As alleged above, between October 22, 2025 to November 4, 2025, Singson, as managing pharmacist at Tera, processed at least ten (10) prescriptions with missing information that is required by Nevada law or regulation. NRS 639.2353(2); NRS 639.236(2); NAC 639.751.

COUNT FOUR
Pharmacy/Pharmacy Owner Responsibility
(Respondent Tera Pharmacy)

Re: REQUEST FOR RECONSIDERATION AND APPEAL Case No. 25-146-S Cease-and-Desist Order, Citation & Fine – Issued October 31, 2025

Dear Members of the Board:

I am writing in formal response and appeal to the Cease-and-Desist Order, Citation, and $5,000 administrative fine issued on October 31, 2025.

Carolina Skin Care is a cosmetology establishment licensed and regulated exclusively by the Nevada State Board of Cosmetology. We do not perform, direct, supervise, or facilitate any medical procedures and have never held or required a pharmacy license.

Key Facts

1. All Medications Found in the Refrigerator and Cabinet Belonged Exclusively to Marika Kerr, APRN The prescription and dangerous drugs discovered in the refrigerator and in a cabinet during the Board's inspection were **owned, procured, and placed there exclusively by Marika Kerr, APRN —** a Nevada-licensed advanced practice registered nurse with full prescribing authority. Because some of these medications required refrigeration and others needed secure storage, Ms. Kerr personally placed them in the refrigerator and a designated cabinet for use only when she performed injectable aesthetic procedures on Carolina Skin Care clients.

2. Carolina Skin Care Never Purchased, Owned, or Exercised Control Over Any Medications Carolina Skin Care and its cosmetology-licensed employees have never purchased, owned, or exercised control over any prescription or dangerous drugs. The medications were present solely because they belonged to Ms. Kerr and were stored under her direction and responsibility.

3. All Medical Services Performed 100% by Marika Kerr, APRN Every medical assessment, prescribing decision, preparation, and administration of medication was performed independently by Ms. Kerr. Carolina Skin Care's role was limited to scheduling its own clients and providing the treatment room and storage access to Ms. Kerr.

4. No Representation as a Medical Practice or Pharmacy Carolina Skin Care has never held itself out as a medical practice or pharmacy.

In light of these facts, Carolina Skin Care did not purchase, store for business purposes, possess for dispensing, or administer dangerous drugs and therefore did not violate NRS Chapter 639. We respectfully request that the Board **reconsider and dismiss** both the citation and the $5,000 administrative fine.

We remain fully prepared to provide supporting documentation (including verification of Ms. Kerr's licensure and staff affidavits) and welcome an unannounced compliance inspection at any time.

Thank you for your time and consideration.

Sincerely,

Carolina Molina

BEFORE THE NEVADA STATE BOARD OF PHARMACY

NEVADA STATE BOARD OF PHARMACY, **Petitioner,** **v.** **OXUS AMERICA, INC,** **Respondent.**	**Case Nos. 25-470-O** **STATEMENT TO THE RESPONDENT AND NOTICE OF HEARING**

TO THE RESPONDENT ABOVE-NAMED, PLEASE TAKE NOTICE THAT:

On or about December 15, 2025, pursuant to NRS 639.2895, the Nevada State Board of Pharmacy (Board) issued a Cease-and-Desist/Citation-and-Fine (Citation) to Oxus America, Inc. (Oxus). On December 18, 2025, Oxus requested a hearing before the Board pursuant to NRS 639.2895(2). For purposes of the hearing, it is alleged that:

FACTUAL ALLEGATIONS

1. Oxus is a company that specializes in medical devices and gas separation technology. Oxus is located at 175 Kay Industrial Drive, Orion Township, Michigan.

2. Oxus is ISO 13485 certified. ISO 13485 is the internationally recognized standard for quality management systems in the design and manufacture of medical devices.

3. Oxus is also a U.S. Food and Drug Administration (FDA) registered manufacturer.

4. Oxus sold and/or shipped Stationary Sieve Replacements in Reno, Nevada from its Michigan facility.

5. Stationary Sieve Replacements incorporate molecular sieve technology and are intended to replace an identical component of an oxygen concentrator. Molecular sieve technology separates oxygen from carbon dioxide and nitrogen.

6. Stationary Sieve Replacements are shipped and sold only to medical products providers. A trained technician must install the Stationary Sieve Replacement.

7. Mui Lee, the Board's investigator, conducted a routine inspection of Bennett Medical Services, also known as Adapt Health. During her inspection, Inspector Lee discovered an invoice from Oxus for Stationary Sieve Replacements.

8. Inspector Lee attempted to contact Oxus to inquire about the invoice; however, no representatives responded to phone calls or emails.

9. Oxus received the Board's citation on or about December 15, 2025. The Board cited Oxus for engaging in the unlawful wholesale distribution of prescription only drugs without the required Nevada wholesale license.

10. On December 18, 2025, Oxus submitted an appeal arguing that the Stationary Sieve Replacements are not prescription devices as they are just a repair component of an oxygen concentrator. Oxus also disagreed that it is a wholesaler as defined by Nevada regulations.

APPLICABLE LAW

11. Any person, including a wholesaler or manufacturer, who engages in the business of wholesale distribution or furnishing controlled substances, poisons, drugs, devices or appliances that are restricted by federal law to sale by or on the order of a physician to any person located within this State shall obtain a license. NRS 639.233, NAC 639.6942.

12. Pursuant to NRS 639.016, a "wholesaler" includes any person or business that distributes drugs or devices that are restricted by federal law to sale by or on the order of a physician to a person other than the consumer or patient.

13. "Medical products wholesaler" means a person who sells, leases, or otherwise provides medical products to a health care facility, agency, practitioner or provider in Nevada. NAC 639.6937

14. The term "drug" includes "articles and *devices* intended for use in the diagnosis, cure, mitigation, treatment or prevention of disease" including "articles intended for use as a *component* of any article specified." (*italics* added). NRS 639.007. Similarly, 21 U.S.C. § 321(h)(1) defines a "device" to include any instrument, apparatus, or other similar or related

article, including any *component, part, or accessory,* that is intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease, or that is intended to affect the structure or any function of the body (emphasis added).

15. "Medical products" includes medical devices, equipment, supplies and gases intended for use in the diagnosis, cure, mitigation, treatment or prevention of disease. NAC 639.6935. It also includes "medical devices, equipment, supplies or gases" which are governed by any other board or agency other than the Board of Pharmacy.

16. The FDA is a U.S. government agency under the Department of Health and Human Services.

17. An oxygen concentrator is a "device" as that term is defined at 21 U.S.C. § 321(h). The product's purpose is for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment, or prevention of disease, in man or other animals.

18. Oxygen concentrators are "prescription devices" within the meaning of 21 CFR § 801.109. Oxygen concentrators incorporate molecular sieve technology to separate oxygen from carbon dioxide and nitrogen.

19. Devices that use molecular sieve technology are categorized by the FDA as class II medical devices. *See* 21 CFR § 868.5440. This means that they may not be sold at retail except pursuant to a prescription. *See* 21 CFR § 860.3; 21 CFR § 801.109.

20. Under both state and federal law, the term "device" means and includes the component parts of the device. *See* NRS 639.007; 21 U.S.C. § 321(h)(1). By definition, if an oxygen concentrator may not be sold at retail without a prescription, its component parts may not be sold at retail without a prescription.

COUNT ONE

Violation of State Law: Wholesale Distribution in Nevada without a License

21. The Stationary Sieve Replacement is an FDA regulated component that is critical to the prescription-only oxygen concentrator. Because the component materially impacts physician-prescribed oxygen therapy and is not safe for use without professional installation, it is restricted to prescription use.

22. Respondent engaged in wholesale distribution into Nevada of an FDA regulated component device without first obtaining a license required by NRS 639.233 and NAC 639.593.

23. Because of these actions, Respondent unlawfully engaged in wholesale distribution within the state. NRS 639.100(1), 21 U.S.C. § 353(e)(l)(A) and/or 21 CFR Part 205.

24. Having engaged in unlawful conduct as alleged above, Respondent is subject to an administrative fine of $5,000. NRS 639.100(1); NRS 639.2895.

25. In addition to collecting the $5,000 fine as authorized by NRS 639.2895, the Board may recover its costs of investigation and prosecution pursuant to NRS 622.400.

NOTICE TO RESPONDENT

You have the right to show the Nevada State Board of Pharmacy that your conduct, as alleged above, complies with all lawful requirements. NRS 639.2895(2); NRS 233B.127(3). You have the right to a hearing before the Board to answer the allegations and present evidence and argument on all issues involved, either personally or through counsel. NRS 233B.127(3); NRS 622A.300(1) and (3). If you fail to appear at the hearing and the Board finds that you were given sufficient legal notice of the hearing, the Board may accept the allegations as true and may proceed to consider the case and render a decision. NRS 622A.350. A regulatory body may recover from a person reasonable attorney's fees and costs that are incurred by the regulatory body as a part of its investigative, administrative, and disciplinary proceedings against the person if the regulatory body finds that the person has violated any provision of this title. NRS 622.400(1).

The Board has scheduled your hearing on this matter for March 4, 2026, at 9:00 a.m. or soon thereafter. The hearing will occur at the Hilton Garden Inn, 7830 South Las Vegas Boulevard, Las Vegas, Nevada 89123.

Pursuant to NRS 241.033 and 241.034, please be advised that the hearing is a public meeting, and the Board may, without further notice, take administrative action against you if the Board determines that such administrative action is warranted after considering your character, alleged misconduct, professional competence, or physical or mental health. You may request and the Board may at its discretion may go into closed session to consider your character, alleged misconduct, professional competence, or physical or mental health. You may attend any closed session, have an attorney or other representative of your choosing present during any closed session, and present written evidence, provide testimony, and present witnesses relating to your character, alleged misconduct, professional competence, or physical or mental health during any closed session. NRS 241.030 and NRS 241.033.

Please find attached CEU classes that I have taken in the past year to give example of what I work on in DME as I was the person that created forms and documents to assist with the patient all types of medical equipment supplies from hospital beds to power wheelchairs, catheters, bracing, incontinence supplies etc, I was a compliance officer and wrote and read all manuals to operate as well as accreditation and other licencing required to establish a DMEPOS and this has been my dream for 20 years and my legacy. I really enjoy helping people.

> (a) The selection and strength of the drug;
> (b) The dosage form; and
> (c) The labeling of the prescription.

NAC 639.252(2) (emphasis added.).

8. Violating any provision of the Federal Food, Drug and Cosmetic Act or any other federal law or regulation relating to prescription drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(11).

9. Violating, attempting to violate, assisting or abetting in the violation of or conspiring to violate any law or regulation relating to drugs is grounds for suspension or revocation of any license or registration issued by the Board. NRS 639.210(12).

Respondent is therefore subject to discipline pursuant to NAC 639.252(2) and NRS 639.210(11) and (12).

SECOND CAUSE OF ACTION

11. Failing to strictly follow the instructions of a practitioner when filling, labeling, and dispensing a prescription constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(d) and is grounds for suspension or revocation of any registration issued by the Board. NRS 639.210(4).

12. Performing any duties as the holder of a registration in an incompetent, unskillful or negligent manner constitutes unprofessional conduct or conduct contrary to the public interest pursuant to NAC 639.945(1)(i) and is grounds for suspension or revocation of any license or registration issued by the Board.
